Congressional Record

PROCEEDINGS AND DEBATES OF THE 116th CONGRESS, SECOND SESSION

Vol. 166

WASHINGTON, MONDAY, DECEMBER 21, 2020

No. 218—Book III

House of Representatives

EXPLANATORY STATEMENT SUBMITTED BY MRS. LOWEY, CHAIRWOMAN OF THE HOUSE COMMITTEE ON APPROPRIATIONS, REGARDING THE HOUSE AMENDMENT TO THE SENATE AMENDMENT TO H.R. 133, CONSOLIDATED APPROPRIATIONS ACT, 2021

The following is an explanation of the Consolidated Appropriations Act, 2021.

This Act includes the 12 regular appropriations bills for fiscal year 2021, supplemental appropriations for coronavirus response and relief, and other matter. The divisions contained in the Act are as follows:

- Division A—Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2021
- Division B—Commerce, Justice, Science, and Related Agencies Appropriations Act, 2021
- Division C—Department of Defense Appropriations Act, 2021
- Division D—Energy and Water Development and Related Agencies Appropriations Act, 2021
- Division E—Financial Services and General Government Appropriations Act, 2021
- Division F—Department of Homeland Security Appropriations Act, 2021
- Division G—Department of the Interior, Environment, and Related Agencies Appropriations Act, 2021
- Division H—Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2021
- Division I—Legislative Branch Appropriations Act, 2021
- Division J—Military Construction, Veterans Affairs, and Related Agencies Appropriations Act, 2021
- Division K—Department of State, Foreign Operations, and Related Programs Appropriations Act, 2021
- Division L—Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2021
- Division M—Coronavirus Response and Relief Supplemental Appropriations Act, 2021
- Division N—Additional Coronavirus Response and Relief

- Division O—Extensions and Technical Corrections
- Division P—National Bio and Agro-Defense Facility Act of 2020
- Division Q—Financial Services Provisions and Intellectual Property
- Division R—Protecting Our Infrastructure of Pipelines and Enhancing Safety Act of 2020
- Division S—Innovation for the Environment
- Division T—Smithsonian American Women's History Museum Act and National Museum of the American Latino
- Division U—Homeland Security and Governmental Affairs Provisions
- Division V—Aircraft Certification, Safety, and Accountability
- Division W—Intelligence Authorization Act for Fiscal Year 2021
- Division X—Supporting Foster Youth and Families Through the Pandemic
- Division Y—American Miner Benefits Improvement
- Division Z—Energy Act of 2020
- Division AA—Water Resources Development Act of 2020
- Division BB—Private Health Insurance and Public Health Provisions
- Division CC—Health Extenders
- Division DD—Montana Water Rights Protection Act
- Division EE—Taxpayer Certainty and Disaster Tax Relief Act of 2020
- Division FF—Other Matter

Section 1 of the Act is the short title of the bill.

Section 2 of the Act displays a table of contents.

Section 3 of the Act states that, unless expressly provided otherwise, any reference to "this Act" contained in any division shall be treated as referring only to the provisions of that division.

Section 4 of the Act states that this explanatory statement shall have the same effect with respect to the allocation of funds and implementation of this legislation as if it were a joint explanatory statement of a committee of conference.

Section 5 of the Act provides a statement of appropriations.

Section 6 of the Act states that each amount designated by Congress as being for emergency requirements or for Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT) is contingent on the President so designating all such emergency

or OCO/GWOT amounts and transmitting such designations to Congress.

Section 7 of the Act relates to the cost of living adjustments for Members of Congress.

Section 8 of the Act specifies the definition for the term "coronavirus".

Section 9 of the Act makes technical adjustments to certain reporting requirements.

The Act does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined by clause 9 of rule XXI of the Rules of the House of Representatives.

DIVISION A—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2021

CONGRESSIONAL DIRECTIVES

The explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 116-446 carries the same weight as language included in this explanatory statement and should be complied with unless specifically addressed to the contrary in this explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

In cases in which the House or this explanatory statement has directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations no later than 60 days after enactment of this Act, unless otherwise directed.

Hereafter, in division A of this statement, the term "the Committees" refers to the Committees on Appropriations of the House of Representatives and the Senate.

For the appropriations provided by this Act and previous Acts, the departments and agencies funded by this agreement are reminded that the Committees use the definitions for transfer, reprogramming, and program, project, and activity as defined by the Government Accountability Office (GAO) in GAO-04-261SP Appropriations Law—Vol. I and GAO-05-734SP Budget Glossary.

A transfer is the shifting of funds between appropriations. It applies to (1) transfers from one agency to another, (2) transfers from one account to another within the same agency, and (3) transfers to an interagency or intra-agency working fund. In each instance, statutory authority is required.

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Printed on recycled paper.

H7879

Reprogramming is the utilization of funds in an appropriation account for purposes other than those contemplated at the time of appropriation. It is the shifting of funds from one object to another within an appropriation.

A program, project, or activity (PPA) is an element within a budget account. PPAs are identified by reference to include the most specific level of budget items identified in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Act, 2021, accompanying Committee reports, explanatory statements, and budget justifications. Program activity structures are intended to provide a meaningful representation of the operations financed by a specific budget account by project, activity, or organization.

For fiscal year 2021, the Committees continue to include bill language requiring advanced notification of certain agency actions. Notification will be required at least 30 days in advance of any action if (1) a major capital investment is modified; (2) an office is realigned or reorganized; and (3) activities are carried out that were not described in the budget request.

The agreement directs the Office of Budget and Program Analysis (OBPA) of the U.S. Department of Agriculture (USDA) to provide an organizational chart for each agency funded by this Act to the division and subdivision level, as appropriate, by February 1, 2021. The agreement also directs the Food and Drug Administration (FDA) and the Farm Credit Administration (FCA) to provide an organizational chart of each agency respectively to the division and subdivision level, as appropriate, by February 1, 2021.

Further, USDA and FDA should be mindful of Congressional authority to determine and set final funding levels for fiscal year 2022. Therefore, the agencies should not presuppose program funding outcomes and prematurely initiate action to redirect staffing prior to knowing final outcomes on fiscal year 2022 program funding. The agreement directs OBPA to provide the Committees with the number of staff years and employees on board for each agency funded by this Act on a monthly basis.

The agreement notes that the explanatory statement accompanying the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2021 directs the Attorney General to ensure implementation of evidence-based training programs on de-escalation and the use-of-force, as well as on police-community relations, that are broadly applicable and scalable to all Federal law enforcement agencies. The agreement further notes that several agencies funded by this Act employ Federal law enforcement officers and are Federal Law Enforcement Training Centers partner organizations. The agreement directs such agencies to consult with the Attorney General regarding the implementation of these programs for their law enforcement officers. The agreement further directs such agencies to brief the Committees on Appropriations on their efforts relating to such implementation no later than 90 days after consultation with the Attorney General. In addition, the agreement directs such agencies, to the extent that they are not already participating, to consult with the Attorney General and the Director of the FBI regarding participation in the National Use-of-Force Data Collection. The agreement further directs such agencies to brief the Committees on Appropriations, no later than 90 days after enactment of this Act, on their current efforts to so participate.

TITLE I

AGRICULTURAL PROGRAMS

PROCESSING, RESEARCH AND MARKETING

OFFICE OF THE SECRETARY

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$46,998,000 for the Office of the Secretary. This includes an increase of \$500,000 for the Outreach and Assistance for Socially Disadvantaged Farmers and Ranchers and Veteran Farmers and Ranchers program. The agreement provides \$1,000,000 for the Office of Tribal Relations.

USDA is directed to provide a report on January 4, 2021 and May 18, 2021, on planned uses of funding under the authorities of Section 4 and Section 11 of the CCC Charter Act.

The agreement does not include language related to symposia.

There is concern that without consultation with or approval from the Committees, the Department changed the format of the Explanatory Notes for the fiscal year 2021 budget request. For fiscal year 2022 and future years, the Department is directed to present Explanatory Notes in a format consistent with the presentation used for the fiscal year 2020 Budget, with similar display and narrative and table of contents. The Explanatory Notes should also put the accounts in the same order as the accounts in the bill. Any deviations from that format are to be approved in advance by the Committees. The Department is strongly encouraged to improve the quality of its budget justifications.

The agreement is aware of concerns that the interim final rule entitled "Establishment of a Domestic Hemp Production Program" published by the Department in the Federal Register on October 31, 2019 (84 Fed. Reg. 58522) may create compliance challenges for the regulated community by using sampling and testing protocols that require too short a timeframe between testing and harvest, failing to provide a lack of alternative to the use of Drug Enforcement Administration registered laboratories, requiring the conversion of THCA into delta-9 THC, requiring a sampling of only flowering tops, and establishing an inflexible negligence threshold of 0.5 percent. The agreement directs USDA to ensure that any final rule is based on science, is in accordance with underlying law, and will ensure a fair and reasonable regulatory framework for commercial hemp production in the United States. In addition, the agreement encourages the Secretary to utilize the current research at the Agricultural Research Service and the Land-Grant Universities partnering with the National Institute of Food and Agriculture to guide the hemp sampling and testing protocols.

In addition, the USDA shall develop regulations, within existing authority, that protect the transportation, processing, sale, or use of hemp and in-process hemp extract, that may temporarily exceed a delta-9 THC concentration of 0.3%, including in-process hemp extract that was: (1) produced from hemp that meets the definition of hemp under 7 U.S.C. §1639o; (2) cultivated in accordance with subtitle G of the Agricultural Marketing Act of 1946 [7 U.S.C. 1639o et seq.] (as added by section 10113 of the Agriculture Improvement Act of 2018) or section 7606 of the Agricultural Act of 2014 [7 U.S.C. 5940]; (3) not packaged as a finished product; and (4) not sold or offered for sale as a finished product to consumers.

No later than 60 days after enactment, the Department is directed to submit an execution strategy for each new initiative funded in this Act and to submit quarterly reports on each initiative until it is fully implemented. This strategy should include, but is not limited to, the steps necessary to make

funding available, the timeline thereof, targeted beneficiaries, and expected results.

The agreement understands that complex problems affecting the health of humans, animals, and the environment are best solved through improved communication, cooperation, and collaborations. Within 120 days of enactment, the Secretary shall submit a report to the Committees detailing existing collaborative efforts between FDA, USDA, and other agencies to prevent and respond to zoonotic disease outbreaks in animals and humans. The report may include, but is not limited to, competitive research grant programs; training and support for scientists, first responders, or medical personnel; engagement of nongovernmental entities; and participation in international collaboration and research to assist in establishing a One Health program.

Beginning with the fiscal year 2021 spending plans, USDA is directed to include for each program, project, or activity: (1) a comparison between the congressional budget justification funding levels, the most recent congressional directives or approved funding levels, and the funding levels proposed by the department or agency; and (2) a clear, concise, and informative description/justification. USDA is reminded of notification requirements, also included in Title VII, for all applicable changes.

The agreement is aware of 57 outstanding reports overdue to the Committees from prior fiscal years. The Department is directed to include in its fiscal year 2022 Congressional Justification, as a single exhibit, a table listing all deliverables, with a column for due date if applicable. The agreement further directs the Department, through OBPA, to provide an update on all overdue reports and provide monthly updates thereafter.

The Secretary is directed to provide a report, no later than March 1, 2021, on specific agency authorities and activities that could contribute to more robust solar power generation in rural areas, associated economic benefits for landowners and rural communities, and land use implications including wildlife habitat and soil and water quality. The Secretary should also outline opportunities for collaboration with the Department of Energy on this strategy.

The agreement recognizes the recent enactment of a domestic ban on the slaughter, transportation, possession, purchase, and sale of dogs and cats for human consumption. The agreement urges the Secretary to work to move forward with an international agreement to ban the trade of dog and cat meat worldwide.

The agreement is aware of informal collaborations among USDA agencies and State, local, and territorial governments in the insular Pacific to combat invasive species, protect local ecologies, and prevent the introduction of additional invasive pests to the U.S. mainland. The agreement urges the Secretary to move forward with formal memoranda of agreements.

The agreement encourages the Secretary to study the usage and impacts of energy and water in hemp cultivation and controlled environment agriculture and to make recommendations on best practices and standards in both sectors.

The agreement recognizes the importance of the temporary agricultural workers program in supporting U.S. agriculture and maintaining our food supply and urges the Secretary to coordinate with other relevant Departments to provide additional flexibilities to consulates and those involved with processing visas in a manner that protects public health while ensuring the visa application process moves forward.

The agreement encourages agencies to disclose costs associated with analyses required

by the National Environmental Policy Act (Public Law 91-190).

The agreement is concerned about unfair wheat grading practices that negatively affect American wheat growers that export to Canada. Current Canadian grading automatically downgrades American wheat to the lowest quality designation while the U.S. grading system provides a fair examination for wheat imported from Canada. The agreement believes this discrepancy needs to be addressed to ensure U.S. wheat growers are being treated fairly.

The agreement understands the importance of the Hatch Act and the responsibility of federal employees to refrain from engaging in political activities while they are on the job. The agreement expects the Department to ensure that all employees are reminded of their obligations under the Hatch Act, 5 U.S.C. 7323(a) and 7324(a), and any implications of violations thereto.

The following table reflects the agreement:

OFFICE OF THE SECRETARY

(Dollars in thousands)

Office of the Secretary	\$5,101
Office of Homeland Security	1,324
Office of Partnerships and Public Engagement	7,002
Office of Assistant Secretary for Administration	881
Departmental Administration	21,440
Office of Assistant Secretary for Congressional Relations and Intergovernmental Affairs	3,908
Office of Communications	7,342
Total, Office of the Secretary	\$46,998

EXECUTIVE OPERATIONS

OFFICE OF THE CHIEF ECONOMIST

The agreement provides \$24,192,000 for the Office of the Chief Economist, including an increase of \$500,000 for the U.S. Drought Monitor.

The agreement provides \$8,000,000 for policy research under 7 U.S.C. 3155 for entities with existing institutional capacity to conduct complex economic and policy analysis and which have a lengthy and well-documented record of conducting policy analysis for the benefit of USDA, the Congressional Budget Office, or the Congress. Of the amount provided for policy research activities, \$3,000,000 is provided for the Department to focus efforts on entities that have developed models, databases, and staff necessary to conduct in-depth analyses of impacts of agriculture or rural development policy proposals on rural communities, farmers, agribusiness, taxpayers, and consumers. The Department is encouraged to fund regional and State-level baseline projections in addition to currently available national and international outlooks.

OFFICE OF HEARINGS AND APPEALS

The agreement provides \$15,394,000 for the Office of Hearings and Appeals.

OFFICE OF BUDGET AND PROGRAM ANALYSIS

The agreement provides \$9,629,000 for the Office of Budget and Program Analysis.

OFFICE OF THE CHIEF INFORMATION OFFICER

The agreement provides \$66,814,000 for the Office of the Chief Information Officer, including \$56,000,000 for cybersecurity activities.

OFFICE OF THE CHIEF FINANCIAL OFFICER

The agreement provides \$6,109,000 for the Office of the Chief Financial Officer.

OFFICE OF THE ASSISTANT SECRETARY FOR CIVIL RIGHTS

The agreement provides \$908,000 for the Office of the Assistant Secretary for Civil Rights.

OFFICE OF CIVIL RIGHTS

The agreement provides \$22,789,000 for the Office of Civil Rights.

AGRICULTURE BUILDINGS AND FACILITIES (INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$108,124,000 for Agriculture Buildings and Facilities. The Department is urged to use the Non-recurring Expense Fund for any additional needs. The agreement supports the One Neighborhood initiative for which a large increase was requested. However, the budget justification did not provide sufficient justification to fund it in full.

HAZARDOUS MATERIALS MANAGEMENT (INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$6,514,000 for Hazardous Materials Management.

OFFICE OF SAFETY, SECURITY, AND PROTECTION

The agreement provides \$23,218,000 for the Office of Safety, Security, and Protection.

OFFICE OF INSPECTOR GENERAL

The agreement provides \$99,912,000 for the Office of Inspector General, including an increase of \$500,000 to address illegal animal fighting.

OFFICE OF THE GENERAL COUNSEL

The agreement provides \$45,390,000 for the Office of the General Counsel.

OFFICE OF ETHICS

The agreement provides \$4,184,000 for the Office of Ethics.

OFFICE OF THE UNDER SECRETARY FOR RESEARCH, EDUCATION, AND ECONOMICS

The agreement provides \$809,000 for the Office of the Under Secretary for Research, Education, and Economics.

The agreement notes that Section 7132 of the 2018 Farm Bill directed the Office of the Chief Scientist to complete a strategic plan for the Agriculture Advanced Research and Development Authority (AGARDA) that demonstrates USDA's vision for AGARDA. The agreement directs USDA to complete this strategic plan not later than 180 days after the enactment of this Act. The plan should include a discussion of how AGARDA can work in collaboration with ongoing research programs operating in ARS and NIFA.

The agreement notes statements made by the Department acknowledging the eligibility of researchers participating in hemp pilot programs, as defined by Section 7606 of the Agricultural Act of 2014 (Public Law 113-79). The agreement directs the Department to work with and inform stakeholders of this eligibility and to support hemp research, as authorized by Section 7606 of the Agricultural Act of 2014 (Public Law 113-79) and Subtitle G of the Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627, 1635-1638).

The agreement directs the Secretary to prioritize research and work on pollinator health and to continue to gather data on an annual basis with respect to the losses of such colonies, rising input costs, and pollinators' overall economic value to the food economy.

The agreement recognizes the important role silvopasture farming has in stimulating farmer income, local water retention, carbon sequestration, improved animal welfare conditions, and decreased erosion. The Secretary is encouraged to prioritize funding for silvopasture research and education. The agreement directs the Secretary to submit a report to the Committees, within 180 days of enactment of this Act, evaluating the impact of current educational outreach on farmer utilization of silvopasture practices.

ECONOMIC RESEARCH SERVICE

The agreement provides \$85,476,000 for the Economic Research Service (ERS).

The agreement recognizes the economic importance of international trade for U.S.

agricultural commodities and believes that producers and markets would benefit from having access to additional data on the country of destination or origin of those commodities. The agreement directs ERS to report on a quarterly basis the top five agricultural commodity exports and imports by State and to identify the country of destination or origin of those commodities.

The agreement maintains funding provided in fiscal year 2020 for ERS to expand its current feed cost components surveys nationally.

The agreement notes that the organic industry has grown at a tremendous rate over the past several years and accurate data for the production, pricing, and marketing of organic products is essential. The agreement encourages ERS to continue and expand the efforts relating to organic data analysis.

The agreement recognizes that a lack of job opportunities in some rural areas is causing more workers to commute greater distances to urban areas from rural areas, but this increased commuting does not represent an increase in access to services for rural residents. Therefore, the agreement encourages ERS to continue to coordinate its research work with the Federal Office of Rural Health Policy to identify clear, consistent, and data-driven methods for accurately defining rural areas in the United States.

NATIONAL AGRICULTURAL STATISTICS SERVICE

For the National Agricultural Statistics Service (NASS), the agreement provides an appropriation of \$183,921,000, of which \$46,300,000 is for the Census of Agriculture. The agreement includes an increase of \$500,000 for NASS to coordinate with AMS to expand organic price reporting and data collection and an increase of \$500,000 to complete the Floriculture Crops Report. In compiling the report, NASS shall include data from Alaska.

The agreement does not accept any proposed eliminations or reductions of ongoing activities, including Acreage, Crop Production and Grain Stocks; Barley acreage and production estimates; the Bee and Honey Program; the Chemical Use Data Series, including the collection of Fruit Chemical Use data and Vegetable Chemical Use data in alternating years; the Floriculture Crops Report; and Fruit and Vegetable Reports, including in-season forecasts for non-citrus fruit and tree nut crops such as pecans. The funding provided will allow NASS to resume or begin completion of these reports at the frequency levels assumed in fiscal year 2020. NASS is directed to resume all of these reports immediately upon enactment of this Act.

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

The agreement provides \$1,491,784,000 for the Agricultural Research Service (ARS), Salaries and Expenses.

The agreement does not accept the President's budget request regarding the termination of research programs, redirections of research programs, or closure of research locations. The agreement expects extramural and intramural research to be funded at no less than the fiscal year 2020 levels, including but not limited to agricultural genomics, alternative technologies for animal waste utilization, aquaculture seedstock, blueberry breeding, center for pollinator health, contagious bovine pleuropneumonia, cotton blue disease, cotton ginning, cover crops research and outreach, feed enhancement, floriculture and nursery research, foodborne pathogens, forest products, fruit fly and exotic pest control, genomes to fields, high performance computing, harmful algal bloom, hops research, macadamia tree health, pear genetics

and genomics, pollinator recovery, postharvest dairy research, potato research, poultry production technology development, poultry research, precision viticulture, predictive modeling tools, resilient dryland farming, shrimp production research, small farm orchard unit, small grains genomics, soft white wheat falling numbers test, sorghum genetic database, sudden oak death, tree fruit post-harvest research, U.S. Wheat and Barley Scab Initiative, warmwater aquaculture, and wheat and sorghum research. The agreement provides funding increases for activated foods, advancing the efficiency of forage-based beef production, alfalfa, ancient crops, animal health and agro-/bio-defense, aquaponics system development, barley pests, bee genomic sequencing, cercospora leaf spot disease, chronic wasting disease, contamination and sanitation inspection tools, cover crops and cereal grain variety, cranberry research, crops and soils research, dietary manipulation to improve gut health in broilers, East Coast shellfish research, fertilizer innovation research, food systems, fruit fly and exotic pest control, genetic oat research, healthy soils, hemp germplasm, hemp production systems, horticultural trade, human nutrition research, livestock genetic research, Missouri River Basin water resource management, National Bio- and Agro-Defense Facility (NBAF), Pacific Coast shellfish genetics and breeding, peanut research, pecan genetics, pecan processing research, precision aquaculture, pulse crop quality, pulse health, rangeland precision livestock management, rangeland research, regional climate hubs, sclerotinia, small fruits, soil carbon research, sugar beet research, sugarcane variety, sustainable aquaculture, sustainable water use, unmanned aerial systems precision agriculture applications, whitefly, and wildfire smoke taint.

The agreement recognizes the importance of 1890s Land Grant Institutions and the collaborative relationships that have developed with ARS research facilities over the years. The agreement directs ARS to explore expanding partnerships with 1890s Land Grant Institutions on ongoing and new research to ensure future beneficial collaborations.

The agreement directs ARS to ensure that each of its facilities housing animals is adhering to the Animal Welfare Act at all times and to submit quarterly reports that include both all violations found by the Animal and Plant Health Inspection Service (APHIS) during that quarter and the specific actions that will be taken to prevent their recurrence.

Cattle fever ticks pose a significant health threat to U.S. cattle and other species across the entire Southern region of the United States. The agreement encourages ARS to develop safe and effective compounds to combat cattle fever ticks. The agreement also directs ARS to coordinate development of its long-term cattle fever tick research program with APHIS efforts under the Cattle Fever Tick Eradication Program. The agreement provides no less than the fiscal year 2020 level for cattle fever tick research.

The agreement encourages ARS and the Plant Genetics Resources Research Unit to partner with 1890 institutions that have existing institutional capacity on hemp germplasm research, education, and extension capabilities.

The agreement notes ongoing efforts to develop a new strategic plan for the National Arboretum to carry out its missions of research, education, and public display gardens. The agreement expects that such plan will address necessary security and safety enhancements and new signage to enhance public access of the National Arboretum. In addition, the agreement directs ARS to ex-

plore entering into agreements with the District of Columbia and private sector partners to fulfill these public access improvements.

The agreement directs ARS to continue its Atlantic salmon breeding and domestication work. The agreement also notes that the current ARS Atlantic salmon breeding program lacks a geneticist and supports efforts by the Department to address this need.

The agreement understands the budget request proposes to close ARS laboratories across the country and does not support this proposal. The agreement directs ARS to fully staff laboratories even if the laboratory is proposed to be closed in the budget request.

The agreement strongly encourages ARS to maintain its focus on agriculture-related legal issues within the National Agricultural Library. Agricultural-related legal issues are increasingly complex and the impact of these legal issues continues to broaden in scope. The agreement provides no less than the fiscal year 2020 level for the National Agricultural Library to support the Agricultural Law Information Partnership. The agreement does not concur with any reductions in administration budget requests and encourages ARS and the National Agricultural Library to engage in multi-year cooperative agreements with the Agricultural Law Information Partnership's partner institutions.

The agreement encourages ARS to provide direct, place-based assistance to 1862 Institutions in States that do not have ARS facilities to address the research priorities of such States and directs ARS to submit a report on the prospective options of such assistance.

The agreement is concerned about the threats invasive pests pose to the Pacific region, notably to agriculture, the economy, environment, human health, and national security. The agreement directs ARS to work with stakeholders, including holding a public meeting, in the Pacific region to assess options for combatting invasive pests. Options may include invasive pest biocontrol research and development facilities, including appropriate containment and rearing facilities.

The Department is urged to use the Non-recurring Expense Fund for any additional NBAF needs.

BUILDINGS AND FACILITIES

The agreement provides \$35,700,000 for ARS Buildings and Facilities.

The agreement notes the importance of ARS laboratories and the need for continued improvement. The agreement directs ARS to evaluate its capital asset requirements for necessary coordination with ongoing and emerging research opportunities. As part of this evaluation, ARS should provide opportunity for public comment in order to incorporate the priorities of all interested stakeholders, including ARS and other scientists, and users of ARS data. The agreement also notes the important collaboration between ARS and universities and the impact that aging facilities have on new research opportunities. The agreement directs ARS to submit a report that includes information on the current utilization of ARS facilities by universities and other cooperators, as well as the extent to which ARS is housed in cooperator facilities. In addition, the agreement recognizes the national importance of the research performed by ARS facilities that are not owned by ARS. Ongoing efforts to upgrade ARS facilities to be on par with the critical research done by the agency has not addressed ARS research done by ARS employees at non-ARS facilities. Accordingly, the agreement directs ARS to provide to the Committees not later than 180 days after the enactment of this Act a long-term, multi-

year plan to guide capital asset and construction decisions for new agricultural research facilities focused on regionally and nationally important research topics, including plant breeding and genetics research and plant germplasm preservation.

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE

RESEARCH AND EDUCATION ACTIVITIES

The agreement provides \$992,642,000 for the National Institute of Food and Agriculture (NIFA), Research and Education Activities.

The agreement recognizes the value of leading public and land-grant universities with unique high-throughput phenotyping and greenhouse facilities and expertise for plant science innovation, root and rhizome innovation, and food for health. The agreement provides funding for the Genome to Phenome program and encourages NIFA to support the development of tools and datasets that can be used across multiple crop species to develop advanced genome engineering tools for integrated optimization of crop yield and livestock feed for improved animal reproduction and nutrition and to mitigate environmental impacts from crop and livestock production. The agreement directs NIFA to use a competitive process to issue awards and urges additional focus on root stocks that increase carbon capture and can support grain crop covers.

The agreement is concerned with the insufficient progress made in the Agriculture and Food Research Initiative (AFRI) to address conventional plant and animal breeding that can provide farmers with greater access to locally and regionally adapted cultivars. The agreement directs the agency to make regionally adapted, publicly held cultivar development a distinct funding priority within AFRI for fiscal year 2021 and directs the agency to take steps to improve its tracking of public cultivar projects within AFRI. NIFA is directed to submit a report to the Committees that describes the progress in meeting these two goals. In addition, the agreement notes that research that improves fertilizer use efficiency in crops is eligible for the AFRI program and encourages the Department to further address this important issue.

The agreement provides funding to support research for alfalfa and forage to improve yields, conserve water, create new uses, and for other research areas holding the potential to advance the alfalfa seed and alfalfa forage industry.

The agreement encourages NIFA to support research on algae and algae applications in agriculture, including new technologies and commercial markets for renewable and sustainable products derived from algae.

The agreement encourages USDA to support aquaculture disease and vaccine research, including research on finfish vaccines and pathogens, which have the potential to accelerate the growth of sustainable U.S. aquaculture, reduce the trade deficit attributed to imported seafood, and reduce the pressure on overfished species.

The agreement recognizes the importance of the domestic aquaculture industry to the U.S. economy and provides funding for aquaculture research to address issues related to genetics, disease, systems, and economics.

The agreement is supportive of the activities carried out by the Binational Agricultural Research and Development (BARD) and recognizes that this collaboration is of mutual benefit to the United States and Israel. The agreement encourages NIFA to leverage all possible funding streams to support BARD research projects, which have contributed significantly to both the U.S. and Israeli economies.

The agreement recognizes the need for research on eradicating livestock diseases, particularly bovine brucellosis and bovine tuberculosis, and encourages NIFA to make competitive grants available to study improved management tools for zoonotic livestock diseases with significant wildlife reservoirs.

The agreement is concerned that large grocer recruitment remains a problem for many communities, particularly those experiencing higher rates of abandoned or vacant homes. The Department is encouraged to explore innovative approaches to address access to nutritional food options in urban food deserts, including the development of community-wide urban agriculture projects that assist in eliminating vacant properties while providing the communities with much-needed fresh produce.

The agreement directs NIFA to work with research institutions to develop and refine predictive models and monitoring technologies for native and invasive pests for incorporation into integrated pest management programs for naturally seeded, native berry crops to increase the margin of food safety and product quality.

The agreement directs NIFA to study the recent infestation of oak mites and focus on suppression and eradication possibilities.

The agreement notes that the National Organic Standards Board (NOSB) has identified key organic research priorities. The agreement encourages NIFA to give strong consideration to these priorities when crafting the fiscal year 2021 Request for Applications for AFRI and the Organic Transition Program. Given the growing demand for organic products, the agreement also encourages USDA to increase the number of organic research projects funded under AFRI and the Specialty Crop Research Initiative.

The agreement notes that the Agriculture Improvement Act of 2018 (Public Law 115-334) expanded the Extension Risk Management Education Program to include a wide range of farm viability activities and dramatically increased the mandatory funding provided for this program. In light of this funding increase, the agreement directs NIFA to raise the maximum grant size in order to accommodate a wider range of project types and scopes and urges NIFA to develop a process to support regional, multi-regional, and national projects, which would require a separate, larger maximum grant size.

The agreement supports small fruit research to promote sustainable production of berry and grape crops with the goal of reducing pesticide use and improving quality and yield. The agreement notes growing concerns about invasive insects, such as the spotted winged drosophila and brown marmorated stink bug, and the negative impact they have on small fruit production and integrated pest management. The agreement strongly encourages USDA to support research to improve the ability to forecast pest and disease spread and implement precision management strategies.

The agreement recognizes the importance of nationally coordinated, regionally managed canola research and extension programs and encourages the Secretary to give priority consideration to proposals that address research needs in production areas with the greatest potential to expand, as well as those where canola production is established and needs to be maintained.

The agreement strongly supports the Sustainable Agriculture Research and Education program and directs USDA to ensure that research, education, and extension activities carried out within the program remain intact. The Secretary is encouraged to support professional development program activities such as training, grants, and resources for

agricultural professionals to build their awareness, knowledge, and skills related to soil health and carbon sequestration.

The agreement encourages NIFA to support practical, hands-on educational and training needs of the rapidly expanding dairy industry through collaborations that bring together students, young dairy professionals, academia, and dairy producers.

The following table reflects the agreement:

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE RESEARCH AND EDUCATION ACTIVITIES		
(Dollars in thousands)		
Hatch Act	7 U.S.C. 361a-i	\$259,000
McIntire-Stennis Cooperative Forestry Act	16 U.S.C. 582a through a-7.	36,000
Research at 1890 Institutions (Evans-Allen Program)	7 U.S.C. 3222	73,000
Payments to the 1994 Institutions	7 U.S.C. 301 note	4,500
Education Grants for 1890 Institutions	7 U.S.C. 3152(b) ...	26,000
Scholarships at 1890 Institutions	7 U.S.C. 3222a	10,000
Education Grants for Hispanic-Serving Institutions	7 U.S.C. 3241	12,500
Education Grants for Alaska Native and Native Hawaiian-Serving Institutions	7 U.S.C. 3156	3,194
Research Grants for 1994 Institutions	7 U.S.C. 301 note	4,000
Capacity Building for Non Land-Grant Colleges of Agriculture	7 U.S.C. 3319i	5,000
Grants for Insular Areas	7 U.S.C. 3222b-2, 3362 and 3363.	2,000

Federal Administration—Other Necessary Expenses for Research and Education Activities		11,556
Total, Necessary Expenses		19,480
Total, Research and Education Activities		\$992,642

NATIVE AMERICAN INSTITUTIONS ENDOWMENT FUND

The agreement provides \$11,880,000 for the Native American Institutions Endowment Fund.

EXTENSION ACTIVITIES

The agreement provides \$538,447,000 for NIFA, Extension Activities.

The agreement notes the concern that farmers and ranchers face highly stressful working conditions, which can contribute to serious behavioral health concerns, especially during downturns in the farm economy and trade uncertainty. The agreement urges the Department to prioritize proposals from regions that have seen high levels of farm bankruptcies, auctions, and other signals of severe economic distress when reviewing award applications for the Farm and Ranch Stress Assistance Network program. The Secretary is directed to provide quarterly reports to the Committees detailing the indicators of stress, data on stress re-

sponse strategies, and emerging trends in rural economic and healthcare needs resulting from these stress interventions. In addition, the agreement directs NIFA and the Department's Rural Health Liaison to coordinate with the Department of Health and Human Services to gather and utilize existing data sets prepared by the Centers for Disease Control and Prevention on farmer and rancher mental and behavioral health. Further, the agreement directs NIFA and the Rural Health Liaison to work together to provide a report on farmers' and ranchers' mental health status, access to behavioral health care, as well as geographic and demographic factors that are associated with higher rates of substance abuse, suicide, and job dissatisfaction. The report should also discuss barriers in collecting or accessing this information. The agreement directs the Department to provide the report not later than 180 days after enactment.

The agreement notes the essential function that the Cooperative Extension System plays in ensuring that farmers, ranchers, and communities of all sizes are empowered to meet the challenges they face, adapt to changing technology, improve nutrition and food safety, prepare for and respond to emergencies, and protect our environment. The agreement rejects proposed cuts to Extension Activities and notes the increased importance of extension given the extraordinary stresses placed on farmers, ranchers, rural businesses and communities, and the food supply chain by trade and market uncertainty and the current economic downturn.

The agreement is concerned that the Cooperative Extension System may not reach minority, socially disadvantaged, and Tribal communities in proportion to their participation in the agricultural sector. All institutions that receive extension funding should seek to ensure that an equitable percentage of their overall extension work reaches minority, socially disadvantaged, and Tribal communities. The agreement directs NIFA to evaluate distribution of extension resources to these three populations and report to the Committees no later than 90 days after enactment of this Act.

The following table reflects the agreement:

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE EXTENSION ACTIVITIES		
(Dollars in thousands)		
Smith-Lever, Section 3(b) and (c) programs and Cooperative Extension	7 U.S.C. 343(b) and (c) and 208(c) of P.L. 93-471.	\$315,000
Extension Services at 1890 Institutions	7 U.S.C. 3221	62,000
Extension Services at 1994 Institutions	7 U.S.C. 343(b)(3)	8,500
Facility Improvements at 1890 Institutions	7 U.S.C. 3222b	21,500
Renewable Resources Extension Act	16 U.S.C. 1671 et seq.	4,060
Rural Health and Safety Education Programs	7 U.S.C. 2662(i)	4,000
Food Animal Residue Avoidance Database Program	7 U.S.C. 7642	2,500
Women and Minorities in STEM Fields	7 U.S.C. 5925	400
Food Safety Outreach Program	7 U.S.C. 7625	10,000
Food & Ag Service Learning	7 U.S.C. 7633	2,000
Farmer Stress Assistance Network	7 U.S.C. 5936	10,000

Total, Integrated Activities		\$39,000

OFFICE OF THE UNDER SECRETARY FOR
MARKETING AND REGULATORY PROGRAMS

The agreement provides \$809,000 for the Office of the Under Secretary for Marketing and Regulatory Programs.

ANIMAL AND PLANT HEALTH INSPECTION
SERVICE

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$1,064,179,000 for the Animal and Plant Health Inspection Service (APHIS), Salaries and Expenses. The agreement provides a net increase of \$21,468,000 for high priority initiatives in order to protect the plant and animal resources of the Nation from pests and diseases. Within the increase total, the agreement includes the following: \$7,368,000 for pay and retirement contributions; \$2,300,000 for the Equine, Cervid, and Small Ruminant Health program to help address chronic wasting disease; \$3,000,000 for the Center for Veterinary Biologics for additional staff; \$3,000,000 for Zoonotic Disease Management for an antimicrobial resistance dashboard tool; \$2,000,000 for Cotton Pests for boll weevil eradication activities; \$9,000,000 for Specialty Crop Pests for the control and eventual eradication of the navel orangeworm (\$2,000,000) and of the spotted lanternfly (\$4,000,000), and for canine detection and surveillance activities (\$3,000,000); \$1,000,000 for Wildlife Damage Management to support feral swine eradication efforts; \$2,000,000 for Wildlife Services Methods Development for chronic wasting disease work at the National Wildlife Research Center; and \$1,000,000 for Horse Protection.

The agreement includes \$6,200,000 in reductions as requested by the Department from Veterinary Diagnostics and completed pest programs. The agreement also reallocates \$3,000,000 from Field Crop and Rangeland Ecosystems Pests and provides the same amount separately for a pilot program for the control and eradication of the cogongrass weed.

Excluding pay and retirement contribution adjustments, the agreement provides a total of \$69,500,000 for citrus health programs, including projects for Huanglongbing (HLB) and support for the HLB Multi-Agency Coordination Group.

The agreement provides \$32,893,000 for Agricultural Quarantine Inspections (AQI), including pre-departure and interline inspections. The agreement notes that assessing AQI treatment monitoring fees on a per-enclosure basis imposes disproportionate impacts on industry and user groups at certain key ports of entry, including ports along the Southeastern United States. USDA is encouraged to continue evaluating alternative and equitable funding mechanisms in consultation with relevant stakeholder groups.

The agreement provides \$3,000,000 for APHIS to work with a public-private partnership focused on combating the global threat of antimicrobial resistance across humans, animals, and the environment by way of the development of an antimicrobial resistance dashboard tool for livestock management, research, risk, and stewardship.

The agreement provides no less than the fiscal year 2020 level for cattle fever tick eradication needs and directs APHIS to coordinate with ARS on the development of its long-term cattle fever tick research program.

The agreement provides no less than \$11,000,000 for cervid health activities. Of the amount provided, \$7,000,000 shall be for APHIS to allocate funds directly to State departments of wildlife and State departments of agriculture to further develop and implement chronic wasting disease (CWD) surveillance, testing, management, and response activities. In allocating these funds, APHIS shall give priority to States that have experienced a recent incident of CWD, have a CWD monitoring and surveillance program, and have a diagnostic laboratory system certified for CWD testing. Within the remaining \$4,000,000 provided, APHIS should give consideration to indemnity payments if warranted.

Of the funds made available for the National Clean Plant Network (NCPN), \$500,000 is provided for equipment purchases to ensure the establishment of an additional diagnostic and therapy center for the NCPN-Berries. Further, no less than the fiscal year 2020 level should be available for the NCPN-Berries diagnostic center.

The agreement directs APHIS to work with ARS and stakeholders, and provides no less than the fiscal year 2020 level to develop an integrated management program for control of the Roseau cane scale insect pest infestation.

The agreement is aware that USDA has confirmed the detection of Asian giant hornets in Washington State. The agreement directs the Department to keep the Committees apprised of any new nest detections and resources needed to support detection surveys, outreach, and methods development for detection and response tools to prevent the establishment of the Asian giant hornet in the United States.

The agreement recognizes the extreme economic hardship posed to gamebird and egg farmers when flocks are determined to be infected by highly and low pathogenic avian influenza and acknowledges the severe limitations on controlled marketing available to producers of live game birds, as well as the income loss from egg production. The agreement encourages APHIS to provide full indemnity coverage for gamebird and egg operations and cease attempts to limit coverage.

The agreement urges USDA to consider providing emergency response resources, such as a funding set aside from the Plant Protection Act Section 7721 program, to rapidly respond to pest emergencies of high economic consequence in Hawaii. The agreement also urges USDA to assist with coordination, support, and other available tools and resources to State, academic, and coffee industry stakeholders.

The agreement remains concerned about the capacity of States to conduct surveillance, testing, prevention, and research relating to Eastern Equine Encephalitis and provides no less than the fiscal year 2020 level to support ongoing cooperative agreements with impacted States.

The agreement recognizes the importance of discovering collaborative, science-based solutions for feral wild horse animal management and encourages APHIS to study the control of large feral animal populations that pose health and safety risks.

The agreement provides no less than the fiscal year 2020 level to support the implementation of the Lacey Act within the Safe Trade and International Technical Assistance program.

The agreement supports the Department's decision to develop a new National Aquaculture Health Plan in accordance with Executive Order 13921 and directs APHIS to collaborate with State and land-grant university partners in the development of the new plan. The agreement further directs the Department to report to the Committees within 60 days of enactment of this Act on its efforts in this regard.

The agreement provides no less than \$3,000,000 for APHIS to develop a qualified workforce comprised of subject matter experts. The agreement encourages APHIS to establish cooperative agreements with academic research institutions, particularly non-land grant Hispanic-Serving Institutions, to support the next generation of the NBAF workforce.

The agreement is concerned about online dog dealers that are continuing to sell animals without the necessary USDA licenses pursuant to the Animal Welfare Act. The agreement encourages APHIS to continue to conduct robust oversight and enforcement of this statute and the 2013 rule requiring online dealers who are selling animals to consumers sight-unseen to have the necessary license.

The agreement includes no less than the fiscal year 2020 funding level to improve understanding of EU1 and NA1 strains of the sudden oak death pathogen and treatment methods to inform control and management techniques in wildlands.

The agreement encourages APHIS to further investigate West Nile virus and other infectious diseases affecting farm raised alligators and develop treatments and methods to prevent infection and transmission.

The agreement provides no less than the fiscal year 2020 level for the agency to reduce blackbird depredation in the Northern Great Plains.

The agreement provides no less than the fiscal year 2020 level for damage management efforts and the development of methods to assist catfish producers in combatting the persistent threat and economic hardship caused by cormorants, pelicans, and other birds.

The agreement provides an additional \$1,000,000 above the fiscal year 2020 level in support of APHIS efforts to decrease the damage and risk to agriculture, natural resources, and property caused by feral swine.

The agreement provides \$28,000,000 for the National Rabies Management Program to fortify existing barriers and advance prevention and eradication efforts.

The agreement provides \$2,000,000 within Wildlife Damage Management to maintain a national training academy focused on those areas of greatest concern for human-animal conflicts.

The agreement supports additional research to address improved diagnostics, management, treatment, and transmission pathways of CWD. Concerns also remain about the growing threat of CWD in the Southeastern United States and the potential for

conflicts between people and cervids nationwide. The agreement notes that while CWD has the potential to reduce populations long-term and cause major socio-economic impacts, its zoonotic potential lacks a definitive conclusion, among other unknowns. Therefore, the agreement provides an additional \$2,000,000 to expand the mission area of Wildlife Services and its National Wildlife Research Center to include CWD-related research, including activities to prevent future conflicts between humans and cervid populations.

The agreement is concerned by the growing prevalence of Little Cherry Disease in the Pacific Northwest and California, and the significant threat that it poses to the region's stone fruit. The agreement encourages the Secretary to prioritize work and research on detection and mitigation of the disease and to work with growers, universities, and other partners to develop effective control mechanisms.

The following table reflects the agreement:

ANIMAL AND PLANT HEALTH INSPECTION SERVICE (In thousands of dollars)	
Animal Health Technical Services	\$38,093
Aquatic Animal Health	2,272
Avian Health	63,213
Cattle Health	105,216
Equine, Cervid, and Small Ruminant Health	28,982
National Veterinary Stockpile	5,736
Swine Health	25,020
Veterinary Biologics	20,570
Veterinary Diagnostics	56,979
Zoonotic Disease Management	19,620
Subtotal, Animal Health	365,701
Agricultural Quarantine Inspection (Appropriated)	32,893
Cotton Pests	13,597
Field Crop & Rangeland Ecosystems Pests	10,942
Pest Detection	27,733
Plant Protection Methods Development	20,884
Specialty Crop Pests	196,553

Rent and DHS Payments	42,567
Subtotal, Agency Management	51,971
Total, Direct Appropriation	\$1,064,179

BUILDINGS AND FACILITIES

The agreement provides \$3,175,000 for APHIS Buildings and Facilities.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

The agreement provides \$188,358,000 for Agricultural Marketing Service (AMS), Marketing Services.

The agreement provides increases of \$2,000,000 for the Farmers Market and Local

Food Promotion Program; \$2,000,000 for the National Organic Program; and \$500,000 for the Organic Data Initiative.

The agreement recognizes that accurate data for the production, pricing, and marketing of organic products is essential to maintaining stable markets, identifying fraud, creating risk management tools, tracking production trends, and increasing exports. The Secretary is directed to require mandatory reporting on an annual basis by accredited certifying agents on aggregate production areas certified by crop and location in order to accurately calculate organic acreage and yield estimates on a country-by-country basis. Additionally, the agreement directs the Secretary to submit a report to the Committees within one year of enactment of this Act detailing the Department's current collection and publication of organic data and identifying gaps in the reporting or collection of organic-specific data.

The agreement encourages AMS to prioritize proposals for the Acer Access and Development Program that support the promotion of research and education, natural resource sustainability, and market development and promotion.

The agreement recognizes the severe stress and harsh economic losses facing the Nation's dairy farmers that have driven thousands of farmers out of business and delayed economic recovery for those that remain. Given this urgency, the agreement encourages the Secretary to use all available resources to help these struggling farmers to diversify, innovate, and reduce risk.

The agreement recognizes that the current economic climate has had a severe, negative impact on local food systems. The agreement encourages AMS to prioritize funding applications that increase the resilience and adaptability of local food systems and ensure compliance with the Food Safety Modernization Act.

The agreement urges USDA to reestablish the Wild Caught Working Group under the National Organic Standards Board to evaluate wild capture aquatic animal production systems and assess the feasibility and appropriateness of developing organic production, handling, and labeling standards for wild caught seafood. USDA is directed to provide a report on the status of discussions with interested parties, including the wild caught seafood industry and the organic community, regarding the feasibility and framework for establishing organic standards for wild-caught seafood.

The agreement recognizes the importance of consumer confidence in the integrity of the USDA Organic Seal and notes the work that USDA has done to increase training and certifier consistency with respect to dairy operations. The agreement directs AMS to continue to resolve inconsistencies in enforcement and interpretation of regulations, including those relating to the transition of livestock to organic dairy production and dry matter intake during the grazing season. AMS is further directed to continue to conduct critical risk-based oversight, particularly for large, complex dairy operations.

The agreement recognizes the importance of ensuring that meat pricing mechanisms are transparent and provide reliable price discovery for cattle producers and that farmers, ranchers, processors, and consumers must have a fair and competitive marketplace. The agreement directs the Secretary, working with the Attorney General as appropriate, to act expeditiously to analyze these issues and to consider extending the ongoing investigation to include recent economic disruptions.

LIMITATION ON ADMINISTRATIVE EXPENSES

The agreement includes a limitation on administrative expenses of \$61,227,000.

FUNDS FOR STRENGTHENING MARKETS, INCOME, AND SUPPLY (SECTION 32)

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$20,705,000 for Funds for Strengthening Markets, Income, and Supply.

The following table reflects the status of this fund:

Appropriation (30% of Customs Receipts)	\$22,733,332
Less Transfers:	
Food and Nutrition Service	-21,040,057
Commerce Department	-262,275
Total, Transfers	-21,302,332
Budget Authority, Farm Bill	1,431,000
Appropriations Temporarily Reduced—Sequestration	-71,136
Budget Authority, Appropriations Act	1,359,864
Less Obligations:	
Child Nutrition Programs (Entitlement Commodities)	485,000
State Option Contract	5,000
Removal of Defective Commodities	2,500
Disaster Relief	5,000
Additional Fruits, Vegetables, and Nuts Purchases	206,000
Fresh Fruit and Vegetable Program	183,000
Estimated Future Needs	800,425
Total, Commodity Procurement	1,686,925
Administrative Funds:	
Commodity Purchase Support	36,746
Marketing Agreements and Orders	20,705
Total, Administrative Funds	57,451
Total Obligations	\$1,744,376

PAYMENTS TO STATES AND POSSESSIONS

The agreement provides \$1,235,000 for Payments to States and Possessions.

LIMITATION ON INSPECTION AND WEIGHING SERVICES EXPENSES

The agreement includes a limitation on inspection and weighing services expenses of \$55,000,000.

OFFICE OF THE UNDER SECRETARY FOR FOOD SAFETY

The agreement provides \$809,000 for the Office of the Under Secretary for Food Safety.

The agreement recognizes the current pressure across the food supply chain. The Food Safety and Inspection Service (FSIS) is directed to do everything possible to ensure employees are safe. This includes determining whether an establishment's operating procedures sufficiently protect the safety of inspectors. The agreement directs FSIS to review the impact of the line-speed waivers it has granted on employees' health and safety and report back to the Committees within 90 days of enactment of this Act. Going forward, FSIS is encouraged to consult with the Occupational Safety and Health Administration to ensure that any future line speed increases would not have an adverse impact on employees' safety.

FOOD SAFETY AND INSPECTION SERVICE

The agreement provides \$1,075,703,000 for the Food Safety and Inspection Service (FSIS). This amount includes \$4,500,000 for the Consumer Safety Inspection conversion and \$1,000,000 to defray the costs of inspection personnel outside of scheduled hours for the inspection of wild caught invasive species in the order siluriformes and family Ictaluridae.

The agreement directs FSIS to provide a report no later than 120 days after enactment of this Act with strategies the agency is using to ensure that Brazilian raw beef imports are meeting the set standards.

The following table reflects the agreement:

FOOD SAFETY AND INSPECTION SERVICE

(Dollars in thousands)

Federal	\$957,348
State	66,730
International	17,045
Public Health Data Communications Infrastructure System	34,580
Total, Food Safety and Inspection Service	\$1,075,703

TITLE II

FARM PRODUCTION AND CONSERVATION
PROGRAMSOFFICE OF THE UNDER SECRETARY FOR FARM
PRODUCTION AND CONSERVATION

The agreement provides \$916,000 for the Office of the Under Secretary for Farm Production and Conservation.

The agreement does not support the co-location of FPAC agency State offices into General Services Administration (GSA) locations if it is not in the best interest of USDA employees, customers, and taxpayers. Therefore, the agreement directs the Under Secretary for FPAC to provide a report within 90 days of enactment of this Act on proposed co-locations of FPAC agency State offices, the cost-savings benefits associated with each, and anticipated improvements in customer service associated with each proposed GSA location.

FARM PRODUCTION AND CONSERVATION
BUSINESS CENTER

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$231,302,000 for the Farm Production and Conservation (FPAC) Business Center. In addition, \$60,228,000 is transferred from the Commodity Credit Corporation, \$112,000 is transferred from the P.L. 480 Program, and \$318,000 is transferred from Commodity Credit Corporation Export Loan Programs.

The agreement notes that in prior years, transfers from the P.L. 480 and the Commodity Credit Corporation Export Loan Programs were provided to the Farm Service Agency, Salaries and Expenses. Now that those functions have been transferred to the Business Center, so too are these funds.

The agreement notes that the FPAC Business Center was created by the Secretary in 2018 with the goals of consolidating administrative functions, reducing inefficiencies, and increasing customer service. However, the agreement is concerned about reports of prolonged delays in filling critical staffing vacancies, which have led to delays in the deployment of important conservation and commodity programs. The agreement reminds the Secretary that the detailed report required in the Explanatory Statement accompanying the fiscal year 2020 Consolidated Appropriations Act, which was due February 2020, regarding the FPAC Business Center's efficiencies gained, metrics, hiring plan, and potential reorganization, is overdue.

FARM SERVICE AGENCY

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$1,142,924,000 for Farm Service Agency (FSA), Salaries and Expenses. The agreement supports the mission of FSA and the important services that it provides across the country. The agreement is dedicated to ensuring FSA has reliable and functioning IT systems. The agreement does not accept the net decreases for information technology as proposed, and provides \$20,400,000 for farmers.gov.

The agreement is concerned FSA did not adequately consider the urgent threat of drought in the Draft Programmatic Environmental Assessment. (PEA) for the Conservation Reserve Program. The agreement urges the Secretary to revise the PEA to allow dryland agriculture uses, with the adoption of best management practices, on land enrolled in the Conservation Reserve Enhancement Program (CREP). The agreement further directs the Secretary to submit a report to the Committees detailing a full analysis of the new CREP dryland agricultural uses authority and what dryland farming best management practices could do to make ad-

vancements to protect ground water and surface water quality and control soil erosion while enhancing wildlife habitat.

Concerns remain about staffing shortages at FSA offices. No later than 90 days from the enactment of this Act, the agreement directs the Secretary to submit a report to Congress with an administrative breakdown of allotment levels by State, current full-time equivalents, current on-board permanent employees by State, and funded ceiling levels by State.

The agreement recognizes the significant potential of the Acreage Crop Reporting Streamlining Initiative (ACRSI) to reduce the time and burden of Federal reporting requirements on farmers by allowing farmers to report data electronically and securely with both the Risk Management Agency and the Farm Service Agency to automatically pre-populate forms, eliminate redundant reporting, and increase data integrity. The agreement notes that USDA's prioritization of ACRSI has been inadequate and therefore directs the Under Secretary for Farm Production and Conservation to allocate all necessary resources to identify the software options necessary to ensure that ACRSI technology is adopted and deployed by the Risk Management Agency and the Farm Service Agency within 120 days of enactment of this Act.

The agreement strongly encourages the Secretary, within the total acreage made available for enrollment in the Conservation Reserve Program and without reducing the periodic availability of general sign-up, to enroll, to the maximum extent practicable, acreage for activities included in the State Acres for Wildlife Enhancement practice or other similar administratively established wetland and habitat practices that benefit priority fish and wildlife species identified in State, regional, and national conservation initiatives, prioritizing initiatives that provide large blocks of cover ideal for wildlife nesting.

The agreement reminds USDA that the joint explanatory statement accompanying Public Law 116-94 directed FSA to amend the existing regulations under 7 C.F.R. 1416 to ensure producers of farm-raised fish intended for human consumption are eligible to receive payments for death losses due to disease or avian predation within 180 days of enactment of that Act. The agreement expects FSA to carry out this congressional directive.

The agreement is concerned that the Department provided inaccurate estimates to Congress on the available unused funding for the National Organic Certification Cost-Share Program (OCCSP) during the development of the Agriculture Improvement Act of 2018 (Public Law 115-334). The overestimates have led to a funding gap that is leaving farmers with far less assistance for completing this expensive and essential step that is required to tap into the growing market for certified organic food in the United States. The agreement directs the Secretary to submit a report to the Committees on how it will resolve inconsistencies in supplying Congress with estimates on funding available for the OCCSP and other Farm Bill programs.

The agreement directs FSA to work with ranchers to tailor the Livestock Indemnity Program to address unique circumstances, such as panther depredation, which are currently preventing producers from receiving compensation for losses.

The following table reflects the agreement:

(Dollars in thousands)	
Salaries and expenses	\$1,142,924
Transfer from ACIF	294,114

(Dollars in thousands)

Total, FSA Salaries and expenses	\$1,437,038
--	-------------

STATE MEDIATION GRANTS

The agreement provides \$6,914,000 for State Mediation Grants.

GRASSROOTS SOURCE WATER PROTECTION
PROGRAM

The agreement provides \$6,500,000 for the Grassroots Source Water Protection Program.

DAIRY INDEMNITY PROGRAM

(INCLUDING TRANSFER OF FUNDS)

The agreement provides such sums as may be necessary for the Dairy Indemnity Program.

The agreement is aware that a small number of dairy farms are unable to sell their milk as a result of contamination from a family of synthetic chemicals, collectively known as "PFAS" chemicals. The agreement notes that USDA's own research has shown that PFAS residues remain detectable in contaminated livestock even after an extended withdrawal period, which could result in potential human exposure. The agreement requires the Secretary to utilize the Dairy Indemnity Payment Program to purchase and remove PFAS contaminated cows from the market, rather than paying for prolonged and imprudent monthly production indemnities. The Secretary shall utilize the established, applicable Livestock Indemnity Program average fair market value price to compensate for PFAS contaminated cows at affected dairies.

AGRICULTURAL CREDIT INSURANCE FUND
PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$9,858,176,000 for the ACIF program account.

The agreement includes \$5,000,000 for Indian Highly Fractionated Land Loans and notes there are sufficient carryover balances to help meet demand. The agreement directs FSA to provide a report on the program's utilization and directs FSA to increase outreach to tribes and tribal members to improve the accessibility of the program.

The following table reflects the agreement:

(Dollars in thousands)

Loan Authorizations:	
Farm Ownership Loans:	
Direct	\$2,500,000
Guaranteed	3,300,000
Subtotal, Farm Ownership Loans	5,800,000
Farm Operating Loans:	
Direct	1,633,333
Unsubsidized Guaranteed	2,118,482
Subtotal, Farm Operating Loans	3,751,815
Emergency Loans	37,668
Indian Tribe Land Acquisition Loans	20,000
Conservation Loans-Guaranteed	150,000
Relending Program	33,693
Indian Highly Fractionated Land	5,000
Boll Weevil Eradication	60,000
Total, Loan Authorizations	9,858,176
Loan Subsidies:	
Farm Operating Loan Subsidies:	
Direct	38,710
Unsubsidized Guaranteed	23,727
Subtotal, Farm Operating Subsidies	62,437
Emergency Loans	207
Relending Program	5,000
Indian Highly Fractionated Land	742
Total, Loan Subsidies	68,386
ACIF Expenses:	
Salaries and Expenses	294,114
Administrative Expenses	13,230
Total, ACIF Expenses	\$307,344

RISK MANAGEMENT AGENCY
SALARIES AND EXPENSES

The agreement provides \$60,131,000 for the Risk Management Agency (RMA), Salaries and Expenses.

The agreement directs FSA and RMA, in consultation with relevant stakeholders, to study and update corn test weight discount tables to improve the accuracy of these discount factors.

The agreement directs RMA to provide flexibility to producers wishing to hay or graze cover crops on prevented planting acreage before November 1. The agreement further directs RMA to study alternatives to a nationwide haying and grazing date in order to avoid primary nesting and the potential impact of eliminating penalties for haying and grazing after the primary nesting season. RMA shall report the results of this study to the Committees no later than 180 days after enactment of this Act.

The agreement recognizes that crop insurance is a vital public-private partnership, however, additional education is needed for farmers with clear, comparative, and easy to understand information on the costs of selected crop insurance policies, the producer premium, and the Federal premium subsidy. The agreement directs the Secretary to work with crop insurance providers and agents to ensure that all farmers have access to that cost information on their policies in a transparent and easy to understand manner.

The agreement notes that the Agriculture Improvement Act of 2018 (Public Law 115-334) directed the Board of Directors of the Federal Crop Insurance Corporation to consider treating the different growth stages of aquaculture species as separate crops for the Whole Farm Diversified Risk Management Insurance Plan. RMA is directed to submit a report to the Committees regarding the steps taken by the Board to consider the feasibility of this proposed change to recognize the difference in perils at different phases of growth for aquaculture species.

NATURAL RESOURCES CONSERVATION SERVICE
CONSERVATION OPERATIONS

The agreement provides \$832,727,000 for Natural Resources Conservation Service (NRCS), Conservation Operations.

The agreement provides \$9,488,000 for the Snow Survey and Water Forecasting Program; \$9,540,000 for the Plant Materials Centers; \$79,444,000 for the Soil Surveys Program, of which \$1,000,000 is for the ongoing Soil Health Initiative linking soil health and crop cover management; and \$734,255,000 for Conservation Technical Assistance, of which \$2,458,000 is for the Farmers.gov Customer Experience Portal program.

The agreement provides \$3,754,000 to maintain relevant soil survey for all lands of the United States and territories, including Federal and Tribal lands, and encourages NRCS to consider including activities that study the impact grazing, wildfire, recreation, invasive species, and carbon sequestration have on the soil.

The agreement recognizes that improving soil health on agricultural lands is key to achieving both meaningful conservation and economic benefits for producers. The agreement notes the strong stakeholder interest in the new on-farm conservation innovation trials and the soil health demonstration trial. The Secretary is encouraged to dedicate more Conservation Technical Assistance to establish standard protocols for measuring and testing carbon levels to evaluate gains in soil health that will help producers to create positive economic, environmental, and social outcomes through ecosystem service markets. The agreement believes that additional Conservation Tech-

nical Assistance should be provided for healthy soil planning, soil carbon sequestration, and conservation activity planning.

The agreement is concerned about soil quality near watersheds such as the Great Lakes Basin, Salton Sea, Lake Okeechobee, and the Chesapeake Bay. The agreement directs NRCS to provide an analysis on the feasibility of evaluating outcomes of watershed and cropland projects implemented through the Conservation Effects Assessment Project. The analysis should include cost, timeframe, and any gaps in data that would prevent a thorough analysis.

The Secretary is encouraged to use mitigation with the conversion of a natural wetland and equivalent wetlands functions at a ratio which does not exceed 1-to-1 acreage.

The agreement directs NRCS to include the Mississippi River Basin, the Chesapeake Bay Watershed, Western Waters, Northeastern Forests and Waters, Prairie Grasslands, and Longleaf Pine Range States as priority areas for Critical Conservation Area funding under the Regional Conservation Partnership Program. The agreement encourages NRCS to leverage all possible resources to identify nutrient loss and reduce runoff to achieve the goals of the 2015 Gulf Hypoxia Action Plan. The agreement believes additional Conservation Technical Assistance is warranted in these Critical Conservation Areas to improve conservation planning capacity and achieve critical conservation goals.

The agreement is concerned about the severe and prolonged drought in the West and applauds the passage of the Colorado River Basin Drought Contingency Plans. The agreement notes the updates made by the Agriculture Improvement Act of 2018 to address water conservation and drought mitigation, including eligibility changes for water conservation and irrigation efficiency practices. The agreement expects NRCS to utilize all available opportunities to assist producers, states, irrigators, irrigation districts, and acequias in implementing area-wide plans and critical innovative drought resiliency and mitigation efforts. In providing this assistance, the agreement further expects NRCS to prioritize support for implementation of Drought Contingency Plans, agreements, or programs that conserve surface or ground water, improve drought resiliency, and address current and anticipated conservation needs and severe drought-related resource concerns.

The agreement notes that Section 2304(e) of Public Law 115-334 allows acequias and land grant mercedes to apply directly to the Environmental Quality Incentives Program (EQIP). The agreement recognizes that there are hundreds of acequias and dozens of land grants in New Mexico that can now gain direct access to this important conservation program. The NRCS is urged to develop EQIP guidance that ensures timely input from local communities, including listening sessions with land grants and acequias.

The agreement directs NRCS to provide a report on actions it will take to eliminate program duplication as identified in Inspector General reports.

WATERSHED AND FLOOD PREVENTION
OPERATIONS

The agreement provides \$175,000,000 for Watershed and Flood Prevention Operations (WFPO).

The agreement directs the Secretary to provide greater flexibility to State Conservationists to utilize technical assistance dedicated for specific WFPO projects for administration and planning statewide for all WFPO projects.

The agreement is concerned about ongoing delays with some WFPO projects and the im-

pact such delays have on local communities, especially those aimed at supplying drinking water to rural communities. Such delays can force undue costs on local communities that must find alternative temporary sources of water. The agreement urges the Secretary to address these issues and complete projects in a timely manner. The Secretary is encouraged to consider all costs related to the use of alternative water sources resulting from delays in project completion, as in-kind service eligible for credit as non-Federal contribution. In addition, the agreement directs the Secretary to report to the Committees on the status of all federally funded WFPO projects throughout the States and territories that remain unfinished or incomplete due to lack of funds.

WATERSHED REHABILITATION PROGRAM

The agreement provides \$10,000,000 for the Watershed Rehabilitation Program.

CORPORATIONS

FEDERAL CROP INSURANCE CORPORATION FUND

The agreement provides such sums as may be necessary for the Federal Crop Insurance Corporation Fund.

COMMODITY CREDIT CORPORATION FUND

REIMBURSEMENT FOR NET REALIZED LOSSES
(INCLUDING TRANSFERS OF FUNDS)

The agreement provides such sums as may be necessary for Reimbursement for Net Realized Losses of the Commodity Credit Corporation.

HAZARDOUS WASTE MANAGEMENT
(LIMITATION ON EXPENSES)

The agreement provides a limitation of \$15,000,000 for Hazardous Waste Management.

TITLE III

RURAL DEVELOPMENT PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR RURAL
DEVELOPMENT

The agreement provides \$812,000 for the Office of the Under Secretary for Rural Development.

The agreement provides \$635,000,000 to support the ReConnect pilot program to increase access to broadband connectivity in unserved rural communities, and directs the Department to target grants and loans to areas of the country with the largest broadband coverage gaps. These projects should utilize technology that will maximize coverage of broadband with the most benefit to taxpayers and the rural communities served. The agreement notes stakeholder concerns that the ReConnect pilot does not effectively recognize the unique challenges and opportunities that different technologies, including satellite, provide to delivering broadband in noncontiguous States or mountainous terrain and is concerned that providing preference to 100mbps symmetrical service unfairly disadvantages these communities by limiting the deployment of other technologies capable of providing service to these areas. The ReConnect pilot is intended to be technology neutral and the Secretary is encouraged to reconsider awarding extra points to applicants from States without restrictions on broadband delivery by utilities service providers in order to ensure this criterion is not a determining factor for funding awards.

In addition, the Department is reminded to avoid efforts that could duplicate existing networks built by private investment or those built leveraging and utilizing other Federal programs and to coordinate with the National Telecommunications Information Administration and the Federal Communications Commission to ensure wherever possible that any funding provided to support deployment of last-mile broadband infrastructure is targeted to areas that are currently unserved.

Further, the Department is encouraged to prioritize projects financed through public-private partnerships and projects where Federal funding will not exceed 50 percent of the project's total cost.

The agreement also notes that in administering the ReConnect pilot program established by section 779 of division A of the Consolidated Appropriations Act, 2018 (Public Law 115-141), the Secretary of Agriculture shall, for purposes of determining entities eligible to receive assistance, allow entities of any structure, including partnerships or infrastructure applications, provided sufficient assurances are given that broadband services will be provided to the subject area through contractual arrangements. Additionally, the Department shall permit awardees flexibility to satisfy the terms of awards, including the deployment and operation of broadband facilities, through affiliates or other third parties, where doing so would facilitate completion of the funded projects, provided that the Federal interest in the funded facilities is adequately secured, whether through a lien, a letter of credit, a right to recoup payments (in the case of awardees the Secretary deems to be low-risk), or some alternate security.

ReConnect funding for service areas where High-Cost USF recipients under the CAF-II auction have buildout obligations of 25/3 Mbps or greater for fixed terrestrial broadband can only be requested by the entity that is receiving such USF support. Project sponsors that receive USF support in those areas may only apply for funds that serve those areas from the 100% loan funding category under the ReConnect Program. For purposes of clarification, this limitation on eligibility shall only apply to those areas (e.g., study areas or census blocks) for which the USF CAF-II recipient is subject to a buildout obligation of 25/3 Mbps or greater for fixed terrestrial broadband.

The Secretary is encouraged to support efforts to increase transparency and follow the notice and comment rulemaking procedures of the Administrative Procedure Act (Public Law 79-404) with respect to all program administration and activities, including publishing a written decision on RUS' website of how challenges were decided and the agency's reasons for such decision.

The Agriculture Improvement Act of 2018 (Public Law 115-334) included new authorities for rural broadband programs that garnered broad stakeholder support as well as bipartisan, bicameral agreement in Congress. Therefore, the Secretary is directed to provide a report on how the Department plans to utilize these authorities to deploy broadband connectivity to rural communities.

The agreement encourages the Department to consider the mission and scope of all program applicants, including community colleges, hospitals and other regional public service entities and their ability to effectively address rural depopulation struggles. These entities are often located in regional "hub" communities larger than the program population limits, yet without these critical services many of the surrounding smaller towns could not exist and prosper. The agreement encourages the Secretary to make grants and loans available to these institutions in order to serve rural areas.

The agreement provides \$5,000,000 for the RISE grant program enacted as part of the Agriculture Improvement Act of 2018 (Public Law 115-334). These grants have the potential to help struggling communities by funding jobs accelerators in low-income rural areas. The agreement recommends funding be prioritized for entities leveraging next generation gigabit broadband service to promote entrepreneurship and entities based in geographical areas with established agriculture

and technology sectors which are focused on the development of precision and autonomous agriculture technologies as a way to strengthen rural economies and create jobs.

RURAL DEVELOPMENT

SALARIES AND EXPENSES (INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$264,024,000 for Rural Development, Salaries and Expenses. This amount includes \$7,000,000 for transitioning to a modern platform for Single Family Direct Housing.

The agreement provides an increase of \$2,000,000 for the Placemaking Initiative to expand or enhance cooperative agreements begun in fiscal year 2020. Awards should take advantage of current or future highspeed broadband investments from the Rural Utilities Service's ReConnect program. The three main areas of Rural Development should support such efforts to help create greater social and cultural vitality in these livable rural communities.

The agreement remains concerned about IT systems within Rural Development (RD) and still awaits the requested briefing about the status of the Comprehensive Loan Program. The agreement directs the Department to provide a comprehensive report on how RD plans to modernize Rural Development's aging technology systems, including a detailed cost breakdown for each system, the priority level, and the estimated timeline for completion within 120 days of enactment of this Act.

RURAL HOUSING SERVICE

RURAL HOUSING INSURANCE FUND PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides a total subsidy of \$492,274,000 for activities under the Rural Housing Insurance Fund Program Account.

The Committees still await the multi-family housing preservation plan requested in S. Rept. 116-110 describing how the Department intends to preserve all viable Section 514 and 515 properties in the portfolio and direct the Department to submit this report immediately.

The agreement directs the Department to submit a report regarding the status and initial outcomes of the Section 502 Tribal lending program in South Dakota, including program structure, management, and general demographic information on the loan recipients.

The following table indicates loan, subsidy, and grant levels provided by the agreement:

(Dollars in thousands)

Loan authorizations:	
Single family housing (sec. 502)	
Direct	\$1,000,000
Unsubsidized guaranteed	24,000,000
Housing repair (sec. 504)	28,000
Rental housing (sec. 515)	40,000
Multi-family guaranteed (sec. 538)	230,000
Site development loans (sec. 524)	5,000
Credit sales of acquired property	10,000
Self-help housing land development (sec. 523)	5,000
Farm labor housing	28,000
Total, loan authorizations	\$25,346,000
Loan subsidies, grants & administrative expenses:	
Single family housing (sec. 502)	
Direct	\$55,400
Housing repair (sec. 504)	2,215
Rental housing (sec. 515)	6,688
Farm labor housing (sec. 514)	5,093
Site development loans (sec. 524)	355
Self-help land development (sec. 523)	269
Total, loan subsidies	70,020
Farm labor housing grants	
Total, loan subsidies and grants	80,020
Administrative expenses (transfer to RD)	
Total, loan subsidies, grants, and administrative expenses	\$492,274

RENTAL ASSISTANCE PROGRAM

The agreement provides \$1,410,000,000 for the Rental Assistance Program.

The Secretary is encouraged to prioritize multi-family housing properties acquired by means of a section 515 loan within the current fiscal year when determining current rental assistance needs.

MULTI-FAMILY HOUSING REVITALIZATION PROGRAM ACCOUNT

The agreement provides \$68,000,000 for the Multi-Family Housing Revitalization Program Account, including \$40,000,000 to fully fund the rural housing voucher demand as estimated by USDA.

The Secretary is directed to provide a report within 120 days of enactment of this Act to estimate the cost of providing rural housing vouchers to all low-income households currently receiving USDA rental assistance and residing in a property financed with a Section 515 loan that are set to mature in the subsequent fiscal year and subsequent 10 fiscal years. In addition, the Secretary is directed to provide quarterly reports to the Committees on transfers between vouchers and the housing preservation demonstration program within the Multi-Family Housing Revitalization Program Account.

MUTUAL AND SELF-HELP HOUSING GRANTS

The agreement provides \$31,000,000 for Mutual and Self-Help Housing Grants.

RURAL HOUSING ASSISTANCE GRANTS

The agreement provides \$45,000,000 for Rural Housing Assistance Grants.

The following table reflects the grant levels provided by the agreement:

(Dollars in thousands)

Very low income housing repair grants	\$30,000
Housing preservation grants	15,000
Total, grant program	\$45,000

RURAL COMMUNITY FACILITIES PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$74,000,000 for the Rural Community Facilities Program Account.

The agreement notes that the Agriculture Improvement Act of 2018 established a selection priority under Community Facilities loans and grants for projects that combat substance use disorder in rural America. The statutory priority emphasizes prevention, treatment, and recovery, and the agreement encourages the Department to fund these community-based facilities. Additionally, the agreement recognizes that rural communities are particularly vulnerable to the impacts of natural disasters, including wildfires, tornadoes, floods, landslides, and other extreme weather events and that these communities often lack the resources necessary to prepare for and respond to these occurrences. The agreement also encourages the Secretary to consider projects that will enhance the ability of rural communities to recover from or prepare for a natural disaster.

The agreement directs USDA to provide a report on the Community Facilities Direct and Guaranteed Loan Programs that includes the number of approved and non-approved applications for fiscal years 2017-2020 within the North American Industry Classification System, and loan processing times with strategies to make the loan review process more efficient. The report shall be submitted within 180 days of enactment of this Act.

The following table reflects the loan, subsidy, and grant amounts provided by the agreement:

(Dollars in thousands)

Loan authorizations:	
CF direct loans	\$2,800,000
CF guaranteed loans	500,000
Loan subsidies and grants:	
CF grants	32,000
Non-Conforming Subsidy	25,000
Rural Community Development Initiative	6,000
Economic Impact Initiative	6,000
Tribal college grants	5,000
Total, subsidy and grants	\$74,000

RURAL BUSINESS—COOPERATIVE SERVICE
RURAL BUSINESS PROGRAM ACCOUNT
(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$56,400,000 for the Rural Business Program Account.

The agreement recognizes that strong partnerships exist between RD and Federal Regional Commissions and Authorities and encourages RD to coordinate with the Regional Commissions to promote efficiency during the grant planning and review process. Additionally, the agreement encourages RD to ensure flexible processes are available for each Regional Commission as appropriate.

The agreement encourages USDA to partner with States and other interested partners to build and refurbish food hub and food distribution centers that serve rural farmers but may be located in urban areas.

The agreement recognizes the dynamic nature of our rural coastal economies that are often economically diminished by the loss of natural resource-related jobs and have been the first to feel the negative effects of a changing climate. As new agriculture-related economic opportunities continue to present themselves to these rural communities, such as value-added seafood processing, the agreement encourages the use of Rural Business Development Grants in rural coastal communities to support innovation and job growth within all sectors, particularly in the case of public-private partnerships and cross-jurisdictional efforts.

The following table reflects the loan, subsidy, and grant levels provided by the agreement:

(Dollars in thousands)

Loan level:	
Business and industry guaranteed loans	\$1,000,000
Loan subsidy and grants:	
Business and industry guaranteed loans	10,400
Rural business development grants	37,000
Delta Regional Authority/Appalachian Regional Commission/Northern Border Regional Commission	9,000
Total, Rural Business Program subsidy and grants	\$56,400

INTERMEDIARY RELENDING PROGRAM FUND ACCOUNT
(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$7,407,000 for the Intermediary Relending Program Fund Account.

The following table reflects the loan and subsidy levels provided by the agreement:

(Dollars in thousands)

Loan level:	
Estimated loan level	\$18,889
Subsidies and administrative expenses:	
Direct loan subsidy level	2,939
Administrative expenses	4,468
Subtotal, subsidies and administrative expenses	\$7,407

RURAL ECONOMIC DEVELOPMENT LOANS PROGRAM ACCOUNT

The agreement provides \$50,000,000 for the Rural Economic Development Loans Program Account.

RURAL COOPERATIVE DEVELOPMENT GRANTS

The agreement provides \$26,600,000 for Rural Cooperative Development Grants. Of

the amounts made available, \$3,000,000 is for Agriculture Innovation Centers, \$12,000,000 is for the Value-Added Producer Grant Program, and \$2,800,000 is for the Appropriate Technology Transfer for Rural Areas Program.

The agreement encourages funding for the Agriculture Innovation Centers to prioritize previously-hosted USDA Agriculture Innovation Centers where the State continues to demonstrate support and provide non-Federal grant funding to producers developing, producing, and marketing value-added agricultural and food products. Prior year or current grant awardees shall be eligible for these funds.

The agreement requests that the Department submit a report within 90 days of enactment of this Act on implementation of Section 6306 of the Agriculture Improvement Act of 2018 (Public Law 115-334), including a projected timeline for full implementation of this provision.

The agreement recognizes the importance of economic development in rural communities and the unique challenges to business growth in these areas. The agreement directs USDA to evaluate the feasibility of awarding multi-year Rural Business Development Grants and to report to Congress within 1 year of enactment of this Act on the barriers to implementing such a proposal.

The agreement directs that Value-Added Producer Grants be prioritized to support the production of value-added agricultural products referenced in S. Rept. 116-110 with significant potential to expand production and processing in the United States.

RURAL MICROENTREPRENEUR PROGRAM

The agreement provides \$6,000,000 for the Rural Microentrepreneur Program.

RURAL ENERGY FOR AMERICA PROGRAM

The agreement provides \$392,000 for the Rural Energy for America Program.

RURAL UTILITIES SERVICE

RURAL WATER AND WASTE DISPOSAL PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$621,567,000 for the Rural Water and Waste Disposal Program Account; including \$68,000,000 for water and waste disposal systems grants for Native Americans, including Native Alaskans, and the Colonias. The agreement recognizes the special needs and problems for delivery of basic services to these populations and encourages the Secretary to distribute these funds in line with the fiscal year 2014 distribution to the degree practicable.

The following table reflects the loan, subsidy, and grant levels provided by the agreement:

(Dollars in thousands)

Loan authorizations:	
Water and waste direct loans	\$1,400,000
Water and waste guaranteed loans	50,000
Subsidies and grants:	
Water and waste direct loan subsidy	—
Guaranteed loan subsidy	60
Water and waste revolving fund	1,000
Water well system grants	5,000
Grants for Colonias, Native Americans, and Alaska Native Villages	68,000
Water and waste technical assistance grants	35,000
Circuit Rider program	20,157
Solid waste management grants	4,000
High energy cost grants	10,000
Water and waste disposal grants	463,350
306A(i)(2) grants	15,000
Total, subsidies and grants	\$621,567

RURAL ELECTRIFICATION AND TELECOMMUNICATIONS LOANS PROGRAM ACCOUNT
(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$35,547,000 for activities under the Rural Electrification and

Telecommunications Loans Program Account.

The following table indicates loan levels provided by the agreement:

(Dollars in thousands)

Loan authorizations:	
Electric:	
Direct, FFB	\$5,500,000
Guaranteed underwriting	750,000
Subtotal, electric	6,250,000
Telecommunications:	
Direct, treasury rate	345,000
Direct, FFB	345,000
Loan subsidy:	
Direct, treasury rate	2,277
Total, loan authorizations	6,940,000
Administrative expenses	
Total, budget authority	\$35,547

DISTANCE LEARNING, TELEMEDICINE, AND BROADBAND PROGRAM

The agreement provides \$97,000,000 for the Distance Learning, Telemedicine, and Broadband Program.

The agreement requests an update on the status of implementation of the recommendations published in the Government Accountability Office (GAO) report GAO-18-682 within 90 days of enactment of this Act.

States with challenging, mountainous terrain incur higher costs when it comes to broadband deployment and the agreement encourages the Secretary to factor this in when evaluating Community Connect Program funding.

The following table indicates loan levels provided by the agreement:

(Dollars in thousands)

Loan authorizations:	
Broadband telecommunications	\$11,869
Total, loan authorization	11,869
Subsidy and grants:	
Distance learning and telemedicine grants	60,000
Broadband telecommunications program:	
Direct (treasury rate loans)	2,000
Grants	35,000
Total, subsidies and grants	\$97,000

TITLE IV DOMESTIC FOOD PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FOOD, NUTRITION, AND CONSUMER SERVICES

The agreement provides \$809,000 for the Office of the Under Secretary for Food, Nutrition, and Consumer Services.

The agreement directs USDA to determine ways to streamline the application process for organizations participating in both the Summer Food Service Program and the Child and Adult Care Food Program to reduce the administrative burden for providers. USDA is directed to consider allowing organizations in good standing for 3 years participating in both programs to file only one application to administer both programs each year and to provide a report on steps taken to address this issue, including any additional streamlining actions the agency would recommend but lacks the authority to execute.

The agreement encourages the Secretary to incorporate and utilize tribally-raised bison meat into Tribal food distribution programs to address the health concerns of American Indians.

The agreement strongly encourages FNS to continue to work closely with relevant stakeholders in States with frontier communities to support locally-designed initiatives to increase food security, help communities adapt to changing growing conditions, provide opportunities for economic development, and develop capacity to grow more food locally. The agreement directs FNS to

collaborate with AMS in implementing Micro-Grants for Food Security.

The agreement is concerned about the effects specific changes in SNAP eligibility can have on children, seniors, individuals with disabilities, and rural and poor communities. The Secretary is encouraged to include these State-by-State demographic profiles in the regulatory impact analysis for any newly proposed or currently pending eligibility criteria changes.

**FOOD AND NUTRITION SERVICE
CHILD NUTRITION PROGRAMS
(INCLUDING TRANSFERS OF FUNDS)**

The agreement provides \$25,118,440,000 for Child Nutrition Programs, including \$1,000,000 in Team Nutrition to help schools meet the sodium reduction targets.

The agreement recognizes the highly nutritious value of pulse crops for children and encourages FNS to support school food authorities in sourcing and serving pulse crops to build greater awareness of the number and variety of pulse crop products and pulse ingredients available.

The agreement recognizes the benefits the Summer Electronic Benefits Transfer (EBT) program has had on reducing childhood hunger. The agreement provides an increase of \$7,000,000 and directs the Department to expand the program into new areas. Further, the agreement directs the Secretary to also fund the program in the same manner and same States and tribal organizations as were funded in fiscal year 2020. The agreement also encourages the Secretary to prioritize Summer EBT projects through the SNAP model.

Since the scope of some Farm to School projects has expanded in recent years, the agreement provides an increase of \$3,000,000 and has included language to allow maximum grant amounts to increase to \$500,000. Of the grant funds provided, the agreement directs the Secretary to use \$500,000 to form at least one cooperative agreement with an established entity, such as a regional Farm to School institute, for the creation and dissemination of information on farm to school program development and to provide practitioner education, training, ongoing school year coaching, and technical assistance.

The agreement remains concerned with the practice of lunch shaming and reminds the Secretary of the directive from fiscal year 2020 to provide guidance to program operators to address this ongoing issue. Such guidance should include identifying approaches that protect children from public embarrassment, encouraging all communications about unpaid school lunch fees be directed to the parent or guardian, and encouraging schools to take steps to ensure all students who qualify for free and reduced meals are efficiently enrolled to receive them.

Of the \$485,000,000 appropriated for Child Nutrition Programs Entitlement Commodities under Section 714 of this Act, \$20,000,000 shall be proportionally offered to States based on the number of breakfasts served in the preceding school year.

The agreement directs USDA to submit a report within one year of enactment of this Act describing the number of Summer Food Service Program grantees, the States in which they operate, the innovative methods of food delivery by non-congregate means and in non-congregate settings, the innovative methods used, and the number of additional youth served as a result.

The agreement provides the following for Child Nutrition Programs:

**TOTAL OBLIGATIONAL AUTHORITY
(Dollars in thousands)**

School lunch program	\$13,539,797
----------------------------	--------------

**TOTAL OBLIGATIONAL AUTHORITY—Continued
(Dollars in thousands)**

School breakfast program	5,039,086
Child and adult care food program	4,015,116
Summer food service program	551,944
Special milk program	7,309
State administrative expenses	317,044
Commodity procurement	1,460,769
Team Nutrition	18,004
Food safety education	2,988

Computer support and processing	19,366
CACFP training and technical assistance	34,214
Child Nutrition Program studies and evaluations	15,299
Child Nutrition payment accuracy	11,427
Farm to school tactical team	4,077
School meals equipment grants	30,000
Summer EBT demonstration	42,000
Total	\$25,118,440

**SPECIAL SUPPLEMENTAL NUTRITION PROGRAM
FOR WOMEN, INFANTS, AND CHILDREN (WIC)**

The agreement provides \$6,000,000,000 for the Special Supplemental Food Program for Women, Infants, and Children, which fully funds anticipated participation for fiscal year 2021. The agreement provides \$90,000,000 for the breastfeeding peer counselor program and \$14,000,000 for infrastructure.

The agreement encourages USDA to collaborate with the Department of Health and Human Services on the development of uniform, evidence-based nutrition education materials in order to best serve WIC-eligible pregnant women and caregivers to infants impacted by Neonatal Abstinence Syndrome.

The work of the National Academies of Science (NAS) to review and make recommendations for updating the WIC food packages to reflect current science and cultural factors is recognized. The agreement notes, however, that while all revised packages now allow some fish, the amounts remain low compared to the recommendations of other authoritative health agencies. The agreement strongly encourages the Department to consider the health and cultural benefits of fish consumption as the NAS recommendations are reviewed and used to inform the Department's next course of action. The agreement also strongly encourages the Department to continue to allow states to submit cultural food package proposals to respond to the cultural preferences of WIC participants in states like Alaska.

The agreement is aware that Federal law requires State agencies administering WIC to keep a list of authorized WIC wholesalers, distributors, retailers, and manufacturers and requires that vendors only purchase infant formula from that list of authorized suppliers. The agreement is concerned that some State agencies may not adequately audit distributors and retailers. Therefore, the agreement directs FNS to develop and disseminate a best practices document for State agencies to increase enforcement of the authorized supplier purchase requirements.

**SUPPLEMENTAL NUTRITION ASSISTANCE
PROGRAM**

The agreement provides \$114,035,578,000 for the Supplemental Nutrition Assistance Program (SNAP).

The agreement encourages FNS, in collaboration with AMS, to provide information to the FDPIR community on how tribal vendors can sell foods to USDA for use in food distribution programs. The Secretary is directed to notify the Committees of the Department's efforts to engage tribes in the demonstration program and tribal participation in fiscal year 2020. The agreement further directs the Department to provide a report detailing its plans to increase the amount and variety of traditional foods included in FDPIR food baskets; its plans to

identify additional Native American and Alaska Native producers of traditional foods, including wild salmon, caribou, reindeer, elk, and other foods; and its plans to purchase additional traditional foods from a greater number of indigenous producers and businesses.

The agreement directs the Secretary to continue reviewing and evaluating the verification process of earned income at certification and recertification of applicant households for the SNAP program using electronic data matching. The agreement provides \$5,000,000 for continued implementation of the National Accuracy Clearinghouse (NAC) and strongly urges the Department to move forward with the NAC to prevent duplicative issuances of SNAP benefits and improve program integrity. The agreement requests an update on the progress of the NAC within 60 days of enactment of this Act.

The agreement directs FNS to provide an update on the implementation of controls to address the reconciliation of data discrepancies across administration systems and retailers that provide benefits to individuals using fraudulent credentials, as well as data demonstrating whether the controls have reduced error rates.

The Department is reminded that SNAP funding is not to be used in contravention of section 107(b) of Division A of the Victims of Trafficking and Violence Protection Act of 2000 (114 Stat. 1475; 22 U.S.C. 7105(b)).

The agreement provides the following for SNAP:

**TOTAL OBLIGATIONAL AUTHORITY
(Dollars in thousands)**

Benefits	\$101,795,982
Contingency reserve	3,000,000
Administrative costs:	
State administrative costs	5,313,427
Nutrition Education and Obesity Prevention Grant Program	448,000
Employment and Training	625,778
Mandatory other program costs	278,934
Discretionary other program costs	998
Administrative subtotal	6,667,137
Nutrition Assistance for Puerto Rico (NAP)	2,037,976
American Samoa	8,185
Food Distribution Program on Indian Reservations	162,150
TEFAP commodities	342,000
Commonwealth of the Northern Mariana Islands	12,148
Community Food Projects	5,000
Program access	5,000
Subtotal	2,572,459
Total	\$114,035,578

COMMODITY ASSISTANCE PROGRAM

The agreement provides \$426,700,000 for the Commodity Assistance Program.

The agreement provides \$325,000,000 for the Commodity Supplemental Food Program. The agreement also provides \$21,000,000 for the Farmers' Market Nutrition Program and directs the Secretary to obligate these funds within 45 days of enactment of this Act. The agreement maintains the fiscal year 2020 level of \$79,630,000 for administrative funding for the Emergency Food Assistance Program (TEFAP). The agreement encourages the Secretary to identify opportunities for increasing the supply of TEFAP commodities through bonus and specialty crop purchases. The Department shall make available to the States domestically produced catfish fillets for distribution to local agencies.

NUTRITION PROGRAMS ADMINISTRATION

The agreement provides \$156,805,000 for Nutrition Programs Administration.

The agreement continues to be interested in the decision-making process leading up to the development of the 2020 Dietary Guidelines for Americans. The agreement is especially interested to know if USDA considered

in their decision-making the recommendations included in the National Academy of Sciences, Engineering, and Medicine September 2017 report entitled “Redesigning the Process for Establishing the Dietary Guidelines for Americans”. It is imperative that these guidelines and future guidelines be based upon strong and balanced science as well as focused on providing consumers with dietary and nutritional information that will assist them in eating a healthy and balanced diet. Section 796 describes the requirements of a study to be conducted by the National Academy of Sciences, Engineering, and Medicine within a year of enactment of this Act. The agreement provides a one-time increase of \$1,000,000 for this review and corresponding report.

TITLE V

FOREIGN ASSISTANCE AND RELATED PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR TRADE AND FOREIGN AGRICULTURAL AFFAIRS

The agreement provides \$887,000 for the Office of the Under Secretary for Trade and Foreign Agricultural Affairs.

The agreement directs the Department to publish an annual report describing the recipients of funds, including the quantity and specific uses of such funding awards, granted through the Market Access Program and the Foreign Market Development Program for the purpose of promoting agricultural sales, to ensure compliance with Section 3201 of Public Law 115-334.

The Secretary is directed to publish a report on the nutrition outcomes achieved over the past 12 months by the McGovern-Dole International Food for Education and Child Nutrition Program and the Food for Peace Title II program. The report should be publicly available and track progress towards global targets on stunting, wasting, anemia, and breastfeeding.

OFFICE OF CODEX ALIMENTARIUS

The agreement provides \$4,805,000 for the Office of Codex Alimentarius.

FOREIGN AGRICULTURAL SERVICE SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$221,835,000 for the Foreign Agricultural Service, Salaries and Expenses and a transfer of \$6,063,000.

The agreement provides increases of \$1,540,000 for International Cooperative Administrative Support Services, \$258,000 for Capital Security Cost Sharing, \$2,500,000 for locally employed staff, \$727,000 for rightsizing, and \$1,297,000 for pay costs and retirement contributions. The agreement also continues to fully fund the Borlaug Fellows Program and the Cochran Fellowship Program.

The agreement notes that last year's H.Rpt. 116-107 directed USDA to provide a briefing on how USDA can maximize its participation in the John Ogonowski and Doug Bereuter Farmer-to-Farmer program (Farmer-to-Farmer). Due to the lack of such information provided to the Committees, the agreement directs USDA to provide a follow-up brief which would include a list of recommendations for how to enhance its participation in Farmer-to-Farmer, including a discussion of how Farmer-to-Farmer can work collaboratively with other USDA-funded programs such as 4-H, the Cooperative Extension System, the McGovern-Dole International Food for Education and Child Nutrition Program, and other government agencies such as U.S. Fish and Wildlife Service.

The agreement is aware that the lack of comprehensive cold food chain systems is one of the main causes of food loss and results in a significant percentage of food

spoilage from farm-to-market. Preventing food loss and implementing a robust cold food chain results in substantial benefits such as increased nutrition, a safer food supply, greater economic opportunity, increased resilience, and improved agricultural productivity. The agreement encourages the Department to give strong consideration to the use of cold chain technologies and include the development of appropriate cooling technologies in programs, policies, and strategic plans aimed at hunger prevention and food security in developing agricultural markets.

FOOD FOR PEACE TITLE I DIRECT CREDIT AND FOOD FOR PROGRESS PROGRAM ACCOUNT (INCLUDING TRANSFER OF FUNDS)

The agreement provides \$112,000 for administrative expenses for the Food for Peace Title I Direct Credit and Food for Progress Program Account to be transferred to and merged with the appropriation for “Farm Production and Conservation Business Center, Salaries and Expenses”.

FOOD FOR PEACE TITLE II GRANTS

The agreement provides \$1,740,000,000 for Food for Peace Title II Grants.

McGOVERN-DOLE INTERNATIONAL FOOD FOR EDUCATION AND CHILD NUTRITION PROGRAM GRANTS

The agreement provides \$230,000,000 for the McGovern-Dole International Food for Education and Child Nutrition Program.

COMMODITY CREDIT CORPORATION EXPORT (LOANS)

CREDIT GUARANTEE PROGRAM ACCOUNT (INCLUDING TRANSFERS OF FUNDS)

The agreement provides \$6,381,000 for the Commodity Credit Corporation Export (Loans) Credit Guarantee Program Account.

TITLE VI

RELATED AGENCY AND FOOD AND DRUG ADMINISTRATION

DEPARTMENT OF HEALTH AND HUMAN SERVICES FOOD AND DRUG ADMINISTRATION SALARIES AND EXPENSES

The agreement provides \$3,201,928,000 in discretionary budget authority and \$2,674,097,000 in definite user fees for a total of \$5,876,025,000 for Food and Drug Administration (FDA), Salaries and Expenses. This total does not include permanent, indefinite user fees for: the Mammography Quality Standards Act; Color Certification; Export Certification; Priority Review Vouchers Pediatric Disease; Food and Feed Recall; Food Reinspection; Voluntary Qualified Importer Program; the Third Party Auditor Program; Outsourcing Facility; and Over-the-Counter Monograph.

The agreement expects FDA to continue all programs, projects, activities, and laboratories, as included in fiscal year 2020 unless otherwise specified, and maintains the \$1,500,000 transfer to the Health and Human Services' Inspector General for its audit and oversight work involving FDA.

The agreement provides a net increase of \$42,250,000, of which \$22,000,000 is for medical product safety, \$15,250,000 is for food safety activities and \$8,000,000 is for cross cutting initiatives supporting both medical and food safety. The agreement also assumes savings of \$3,000,000 from the one-time, fiscal year 2020 appropriation of \$5,000,000 for the machine learning pilot program.

Within the increases provided for medical product safety, the agreement includes \$9,000,000 for Transforming Medical Device Safety, Cybersecurity, Review, and Innovation; \$5,000,000 for Modernizing Influenza Vaccines; \$3,500,000 for Foreign Unannounced Human Drug Inspection Pilots; \$2,500,000 for Rare Cancer Therapeutics; and, \$2,000,000 for Drug Compounding.

Within the increases provided for food safety activities, the agreement provides \$5,000,000 for Regulatory Activities Associated with Cannabis and Cannabis Derivatives; \$6,000,000 for a Shrimp Import Inspection Pilot Program; \$1,250,000 for Allergen Labeling; \$1,000,000 for Strengthening Foodborne Outbreak Activities; \$1,000,000 for Cosmetics; and, \$1,000,000 for the National Antimicrobial Resistance Monitoring System.

Within the increases for Crosscutting, Agency-wide support initiatives, the agreement provides \$7,000,000 for Artificial Intelligence activities, and \$1,000,000 for the Office of the Chief Counsel.

The agreement is concerned that the recent FDA Draft Guidance for Industry on Voluntary Disclosure of Sesame is insufficient to protect Americans with sesame allergy, and directs FDA to consider further action to require sesame to be labeled the same as other major allergens.

The agreement encourages FDA to work with the Type 1 diabetes community on the assessment of potential diabetes biomarkers related to islet autoimmunity, which might help inform the design of clinical studies.

As previously noted, the agreement provides \$5,000,000 to support regulatory activities, including developing policy, and for FDA to continue to perform its existing regulatory responsibilities, including review of product applications, inspections, enforcement, and targeted research for cannabis-derived substances, such as cannabidiol (CBD). To provide more clarity to industry and the public, FDA is directed to work with OMB on issuing policy guidance in a timely manner regarding enforcement discretion. When appropriate, FDA is encouraged to ensure that any future regulatory activity does not discourage the development of new drugs. The agreement also encourages FDA to partner with an academic institution to expand sampling studies of CBD products currently on the market.

The agreement is concerned about the proliferation of products marketed using standards of identity for dairy products that do not contain dairy ingredients. The agreement directs FDA to provide clarity around the appropriate naming of plant-based dairy alternatives and report to the Committees within 90 days of enactment of this Act on steps taken to enforce against such alternatives.

The agreement supports ongoing collaborations between the medical product centers related to the development of treatments for neurodegenerative diseases, including public outreach efforts and the development of policy, guidance, and educational training that is consistent across centers and aligns policy guidance with agency actions. FDA is directed to provide a briefing updating the Committees on efforts to date and plans for future collaborations within the agency and with external stakeholders to combat neurodegenerative diseases.

The agreement notes that imported human food continues to have higher pesticide violation rates than domestically produced food and directs FDA to continue to partner with State inspection services and develop emerging technologies to enhance the imported food sampling efforts. Additionally, the agreement encourages FDA to work with partners such as the U.S. International Trade Commission to conduct a multi-year data review to better identify imported food samples that are more likely to have pesticide violations to assess whether giving special attention to certain imported products with significantly higher rates of violations compared to domestic products would change the planning of the pesticide sampling plan for future years.

The agreement remains concerned about potential consumer confusion over FDA nutritional labeling requirements and guidelines for added sugar for single ingredient products like maple syrup and honey, where sugar is naturally occurring in the product rather than added to the product. The agreement notes that FDA issued guidance to the industry on June 18, 2019, to verify that the phrase “added sugar” is not required in the regulated portion of the nutrition facts label for these products. This guidance instructed producers that the percent daily value would be required to appear on the label and allowed for the voluntary use of a footnote to explain that this refers to a percent daily value of “added sugar.” The agreement is concerned that continued use of the term “added sugar” in relation to percent daily value will mislead consumers to think that sugar has been added to a pure single-ingredient maple or honey product. Not later than 60 days after the enactment of this Act, the Commissioner shall submit to the Committees a report updating FDA’s June 18, 2019, guidance to the industry regarding the “Declaration of Added Sugars on Honey, Maple Syrup, Other Single-Ingredient Sugars and Syrups, and Certain Cranberry Products”. The report shall include multiple examples of factual and non-misleading statements describing the applicable percent daily value of sugar added to one’s diet that can be used by producers and processors of honey, maple syrup, other single-ingredient sugars and syrups, and certain cranberry products as optional explanatory statements to inform consumers of the meaning of this component of the nutrition facts panel.

The agreement is aware of the important contribution of the FDA Center for Food Safety and Applied Nutrition Centers of Excellence (COEs) program in supporting critical basic research as well as facilitating Food Safety Modernization Act (FSMA) implementation. The agreement encourages FDA to continue to fully utilize the COE’s.

The agreement notes the challenges associated with the approval of complex generics and directs FDA to provide an update on the agency’s effort to expedite the approval of these products.

The agreement directs FDA to provide a briefing on the development of the 503B Bulks List and regulation of devices intended for corneal crosslinking procedures.

The agreement directs FDA to continue working with small farms to clarify requirements for FSMA compliance. The agreement urges FDA to provide guidance, offer technical assistance, and provide other resources to assist small farms with compliance.

The agreement is aware that some States that have entered into cooperative agreements under the State Produce Implementation Cooperative Agreement Program are considering changing the State agency responsible for implementing these agreements. FDA is directed to work with any State that designates a new implementing agency to ensure it can continue to receive funding under existing cooperative agreements without delay or loss of funding.

The agreement encourages FDA to work diligently to include no less than two members with an expertise in the indication the drug is intended to treat or other relevant rare diseases on each Advisory Committee when that Committee is reviewing a drug that has been designated as an Orphan Drug, and report the percentage of recommendations made by Advisory Committees with respect to orphan drugs that include at least two members with expertise in the indication the drug is intended to treat or other relevant rare diseases.

The agreement encourages FDA to work with glass packaging suppliers and pharma-

ceutical manufacturers to evaluate and promote streamlined approval requirements designed to expedite the adoption and use of innovative glass packaging technologies with the capacity to improve product quality, reduce product recalls, reduce drug shortages, and protect public health. Such streamlined approval requirements should address stability testing and other relevant types of data to be submitted in support of product approval.

The agreement recognizes the increased capabilities that FDA has developed to study environment, health, and safety of nanomaterials within FDA’s Jefferson Laboratory Campus, including the National Center for Toxicological Research, and its consolidated headquarters at White Oak, Maryland, and expects FDA to continue to support collaborative research with universities and industry on the toxicology of nanotechnology products and processes in accordance with the National Nanotechnology Initiative Environment, Health, and Safety Research Strategy, as updated in October 2011.

The agreement remains deeply concerned about the opioid epidemic that has taken the lives of thousands of Americans and continues to support FDA’s investments into International Mail Facilities to stop drugs from entering the United States. The agreement directs FDA to comply with Section 3001 of the SUPPORT Act (Public Law 115–271). The agreement continues to direct FDA to refer any drug application for an opioid to an advisory committee for their recommendations prior to approval, unless FDA finds that holding such committee is not in the interest of protecting and promoting public health. The agreement also directs FDA to comply with Section 3032 of the SUPPORT Act and encourages the agency to continue to monitor the effectiveness of existing Opioid Analgesic Risk Evaluation and Mitigations Strategy to determine whether further modifications are necessary.

The agreement notes that FDA is implementing policies to promote public access to information about how patient experience information is factored into the review of approved products, and encourages FDA to continue refining the instrument and ways to improve its visibility and requests an update on the status of such efforts. FDA is expected to provide an update on its efforts to include patient-experience information in relevant labeling and accompanying documentation to inform patient/provider decision-making.

FDA is directed to provide an update on the investigation it is undertaking regarding canine dilated cardiomyopathy (DCM) and the manner in which it has released information to the public. The update shall include: the case definition FDA uses to include or exclude cases and the scientific work ongoing at the agency and with collaborating partners for identifying a causation of DCM; how FDA distinguishes cases of DCM due to genetic predisposition in certain breeds; how the agency plans to work with pet food companies and the veterinary cardiology community during the investigation; and the timing and nature of any future public reporting.

The agreement is aware of concerns with the ongoing presence of PFAS chemicals in food packaging entering the stream of commerce. The agreement directs FDA to review any new scientific information pertaining to PFAS chemicals and determine whether food packaging continues to meet the safety standards of a reasonable certainty of no harm under intended conditions of use.

The routine usage of five or more prescription medications within the same period is becoming increasingly prevalent among older adults, elevating risk factors for drug-

drug interactions and adverse events. Therefore the agreement encourages FDA to assess potential impacts of polypharmacy.

The agreement supports the agency’s work to promote the domestic manufacturing of drug and biological products and encourages FDA to increase its effort to encourage the pharmaceutical industry to adopt advanced manufacturing technologies. The agreement directs FDA to brief the Committees, within 90 days of enactment, on its efforts to promote advanced manufacturing technologies.

The agreement directs FDA to submit a financial report to the Committees within 120 days of enactment of this Act, to be made publicly available online, with respect to tobacco product user fees and their use to fund programs and activities related to regulating tobacco products within FDA.

The agreement encourages FDA to continue to invest in the science base for regulatory decisions on botanical dietary supplements.

The agreement encourages FDA to continue to develop the necessary policy to advance the use of Decentralized Trials while still maintaining quality data necessary for FDA approval.

The agreement recommends FDA coordinate with Customs and Border Protection’s honey import testing program to detect economically motivated adulteration in imported honey and take appropriate enforcement actions, which may include the issuance of import alerts if appropriate. The agreement further recommends that FDA consult with domestic honey producers on its testing program and provide a report on its progress on economically motivated adulteration testing of honey imports not later than September 30, 2021.

The SUPPORT Act (Public Law 115–271) granted FDA new authority to require special packaging for opioids and other drugs that pose a risk of abuse or overdose. The agreement acknowledges FDA’s request for information on requiring fixed-quantity blister packaging for certain opioids and urges the agency to finalize this requirement to promote safe opioid handling and reduce the risk of unintentional ingestion.

The agreement encourages FDA to continue to work with partners to use Real World Evidence (RWE) to help evaluate vaccine safety and effectiveness in the post-market setting and to further consider how RWE can be included in product labels and promotional materials.

The agreement urges FDA to complete the single laboratory validation of the liquid chromatography mass spectrometry-based (LC-MS) method for detecting brevetoxins association with neurotoxic shellfish poisoning in molluscan shellfish, and encourages the agency to work with the Interstate Shellfish Sanitation Conference to adopt FDA’s proposal for the LC-MS method for brevetoxin testing of shellfish as an Approved Method under the National Shellfish Sanitation Program.

The agreement is aware of the public health challenge related to the naturally occurring bacteria called *Vibrio parahaemolyticus*. The agreement encourages FDA to focus resources into *Vibrio* illnesses associated with the consumption of raw molluscan shellfish, improve risk assessment models, and develop improved rapid detection methods for virulent *Vibrio* strains.

FDA’s growing staff will require the General Services Administration (GSA) to lease additional office locations until GSA can implement the 2018 Federal Research Master Plan for the White Oak Campus. FDA and GSA should consider the effect of local travel on staff productivity, adjacency to existing FDA locations, and the cost of lost productivity when evaluating the costs of lease proposals.

The agreement provides specific amounts by Food and Drug Administration activity as reflected in the following table:

FOOD AND DRUG ADMINISTRATION SALARIES & EXPENSES
(Dollars in thousands)

Budget Authority:	
Foods	\$1,099,160
Center for Food Safety and Applied Nutrition	343,789
Field Activities	755,371
Human Drugs	689,195
Center for Drug Evaluation and Research	510,226
Field Activities	178,969
Biologics	254,138
Center for Biologics Evaluation and Research	212,132
Field Activities	42,006
Animal Drugs and Feeds	192,369
Center for Veterinary Medicine	123,599
Field Activities	68,770
Devices and Radiological Products	408,108
Center for Devices and Radiological Health	323,103
Field Activities	85,005
National Center for Toxicological Research	66,712
Other Activities/Office of the Commissioner	194,951
White Oak Consolidation	45,914
Other Rent and Rent Related Activities	84,262
GSA Rent	167,119
Subtotal, Budget Authority	3,201,928
User Fees:	
Prescription Drug User Fee Act	1,107,199
Medical Device User Fee and Modernization Act	236,059
Human Generic Drug User Fee Act	520,208
Biosimilar User Fee Act	42,494
Animal Drug User Fee Act	33,340
Animal Generic Drug User Fee Act	22,797
Tobacco Product User Fees	712,000
Subtotal, User Fees	2,674,097
Total, FDA Program Level	\$5,876,025

BUILDINGS AND FACILITIES

The agreement provides \$12,788,000 for the Food and Drug Administration Buildings and Facilities.

The agreement notes that several FDA-owned facilities need significant renovations and repairs and that FDA assesses the condition of all owned facilities by updating its Backlog of Maintenance and Repair. FDA is directed to annually provide a prioritized list of projects to improve the condition of FDA-owned facilities that have renovation and repair needs. FDA is further directed to annually provide a prioritized list of projects to implement the Jefferson Labs Complex Master Plan (MP), and upon its completion, to annually provide a prioritized list of projects to implement the MP for the Muirkirk Road location.

FDA INNOVATION ACCOUNT, CURES ACT

(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$70,000,000 for FDA as authorized in the 21st Century Cures Act.

INDEPENDENT AGENCY

FARM CREDIT ADMINISTRATION

LIMITATION ON ADMINISTRATIVE EXPENSES

The agreement includes a limitation of \$80,400,000 on administrative expenses of the Farm Credit Administration (FCA).

The agreement notes concern with the FCA final rule on eligibility criteria for outside directors. The rule could adversely impact rural institutions as well as those already serving in outside director positions. The agreement encourages FCA to pause to take all comments into consideration since the rule was initially approved by the Board of Directors and to address these concerns.

The agreement recognizes the growing interest for U.S. hemp and hemp-based products for a variety of uses and directs FCA to work with the institutions under its jurisdiction to provide access to guaranteed loans for hemp producers and businesses.

TITLE VII

GENERAL PROVISIONS

(INCLUDING RESCISSIONS AND TRANSFERS OF FUNDS)

Section 701.—The bill includes language regarding motor vehicles.

Section 702.—The bill includes language regarding the Working Capital Fund of the Department of Agriculture.

Section 703.—The bill includes language limiting funding provided in the bill to one year unless otherwise specified.

Section 704.—The bill includes language regarding indirect cost share.

Section 705.—The bill includes language regarding the availability of loan funds in Rural Development programs.

Section 706.—The bill includes language regarding new information technology systems.

Section 707.—The bill includes language regarding fund availability in the Agriculture Management Assistance program.

Section 708.—The bill includes language regarding Rural Utilities Service program eligibility.

Section 709.—The bill includes language regarding funds for information technology expenses for the Farm Service Agency and the Rural Development mission area.

Section 710.—The bill includes language prohibiting first-class airline travel.

Section 711.—The bill includes language regarding the availability of certain funds of the Commodity Credit Corporation.

Section 712.—The bill includes language regarding funding for advisory committees.

Section 713.—The bill includes language regarding IT system regulations.

Section 714.—The bill includes language regarding Section 32 activities.

Section 715.—The bill includes language regarding user fee proposals without offsets.

Section 716.—The bill includes language regarding the reprogramming of funds and notification requirements.

Section 717.—The bill includes language regarding fees for the guaranteed business and industry loan program.

Section 718.—The bill includes language regarding the appropriations hearing process.

Section 719.—The bill includes language regarding government-sponsored news stories.

Section 720.—The bill includes language regarding details and assignments of Department of Agriculture employees.

Section 721.—The bill includes language requiring spend plans.

Section 722.—The bill includes language regarding nutrition programs.

Section 723.—The bill includes language regarding Rural Development programs.

Section 724.—The bill includes language regarding USDA loan program levels.

Section 725.—The bill includes language regarding credit card refunds and rebates.

Section 726.—The bill includes language regarding the definition of the term “variety” in SNAP.

Section 727.—The bill includes language regarding the Secretary’s authority with respect to the 502 guaranteed loan programs.

Section 728.—The bill includes language regarding electronically available information for prescribing healthcare professionals.

Section 729.—The bill includes language regarding FDA regulations with respect to spent grains.

Section 730.—The bill includes funding for the Rural Energy Savings Program.

Section 731.—The bill includes language regarding country or regional audits.

Section 732.—The bill includes language related to Rural Development Programs.

Section 733.—The bill includes language related to the Animal Welfare Act.

Section 734.—The bill includes language regarding U.S. iron and steel products in public water or wastewater systems.

Section 735.—The bill includes language regarding lobbying.

Section 736.—The bill includes language related to persistent poverty counties.

Section 737.—The bill provides funding for the Farm to School program.

Section 738.—The bill provides funding for the Healthy Foods Financing Initiative.

Section 739.—The bill provides funding for activities related to citrus greening.

Section 740.—The bill includes language related to investigational use of drugs or biological products.

Section 741.—The bill includes language related to the growing, harvesting, packing and holding of certain produce.

Section 742.—The bill provides funding for grants to enhance farming and ranching opportunities for military veterans.

Section 743.—The bill includes language related to the school breakfast program.

Section 744.—The bill includes language regarding hemp.

Section 745.—The bill includes language related to Food and Drug Administration advice about eating fish.

Section 746.—The bill provides funding for grants under section 12502 of Public Law 115-334.

Section 747.—The bill provides funding to carry out section 1621 of Public Law 110-246.

Section 748.—The bill provides funding to carry out section 4003(b) of Public Law 115-334.

Section 749.—The bill provides funding for the Water Bank program.

Section 750.—The bill includes language related to Rural Economic Area Partnership Zones.

Section 751.—The bill provides funding to carry out section 3307 of Public Law 115-334.

Section 752.—The bill includes language related to matching fund requirements.

Section 753.—The bill provides funding for a pilot program related to multi-family housing borrowers.

Section 754.—The bill provides funding to carry out section 12302 of Public Law 115-334.

Section 755.—The bill provides funding to carry out section 4208 of Public Law 115-334.

Section 756.—The bill provides funding to carry out section 12301 of Public Law 115-334.

Section 757.—The bill provides funding to carry out section 7120 of Public Law 115-334.

Section 758.—The bill provides funding to carry out section 7208 of Public Law 115-334.

Section 759.—The bill includes language related to potable water.

Section 760.—The bill provides funding to carry out section 4206 of Public Law 115-334.

Section 761.—The bill includes language regarding Food for Peace.

Section 762.—The bill includes language regarding facilities inspections.

Section 763.—The bill provides funding to carry out section 2103 of Public Law 115-334.

Section 764.—The bill includes language relating to the use of raw or processed poultry products from the People’s Republic of China in various domestic nutrition programs.

Section 765.—The bill includes funding for a seafood study.

Section 766.—The bill includes funding to support agricultural business innovation.

Section 767.—The bill includes language related to certain school food lunch prices.

Section 768.—The bill provides funding to carry out section 6424 of Public Law 115-334.

Section 769.—The bill provides funding for Centers of Excellence.

Section 770.—The bill provides funding for rural hospital technical assistance.

Section 771.—The bill provides funding for a pilot program for wastewater systems in historically impoverished areas.

Section 772.—The bill includes language regarding animal contingency plans.

Section 773.—The bill provides funding to carry out section 23 of the Child Nutrition Act of 1966.

Section 774.—The bill includes language related to biotechnology risk assessment research.

Section 775.—The bill provides funding for rural broadband.

Section 776.—The bill provides funding to carry out section 12504 of Public Law 115-334.

Section 777.—The bill provides funding to carry out section 7209 of Public Law 115-334.

Section 778.—The bill includes language related to genetically engineered salmon.

Section 779.—The bill includes funding for open data standards.

Section 780.—The bill includes language related to certain reorganizations within the Department of Agriculture.

Section 781.—The bill includes funding related to renewable energy.

Section 782.—The bill includes language extending the hemp pilot program.

Section 783.—The bill includes language changing the due date of a study.

Section 784.—The bill includes language related to the ReConnect program.

Section 785.—The bill includes funding for Child Nutrition Program training.

Section 786.—The bill includes language related to the Agriculture Conservation Experiences Services Program.

Section 787.—The bill includes language related to imported seafood.

Section 788.—The bill includes funding related to a working group.

Section 789.—The bill includes language related to school meals.

Section 790.—The bill includes language related to inspected foreign products.

Section 791.—The bill includes language related to the ReConnect program.

Section 792.—The bill includes funding for the Goodfellow Federal facility.

Section 793.—The bill includes language related to broadband funding.

Section 794.—The bill includes language related to the Community Facilities program.

Section 795.—The bill includes language related to the Federal Meat Inspection Act.

Section 796.—The bill includes language related to a National Academies of Sciences, Engineering, and Medicine report.

Section 797.—The bill includes funding for a pilot program.

Section 798.—The bill includes funding for a blue-ribbon panel.

Section 799.—The bill includes funding for a competitive research and education grant.

Section 799A.—The bill provides funding to carry out section 12513 of Public Law 115-334.

Section 799B.—The bill includes language regarding user fees.

Section 799C.—The bill includes language regarding disaster programs.

Section 799D.—The bill includes emergency funding for Agriculture Quarantine and Inspection Services.

1/ Funding for the CFTC for the FY21 Request and Final Bill is reflected on the Financial Services and General Government Appropriations Bill

DIVISION B—COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES APPROPRIATIONS ACT, 2021

The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 116-455 (“the House report”) carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement or the Act. The explanatory statement, while repeating some language for emphasis, is not intended to negate the language referred to above unless expressly provided herein. In cases where the House report directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations (“the Committees”).

Each department and agency funded in this Act shall follow the directions set forth in this Act and the accompanying explanatory statement, and shall not reallocate resources or reorganize activities except as provided herein. Reprogramming procedures shall apply to: funds provided in this Act; unobligated balances from previous appropriations Acts that are available for obligation or expenditure in fiscal year 2021; and non-appropriated resources such as fee collections that are used to meet program requirements in fiscal year 2021. These procedures are specified in section 505 of this Act.

Any reprogramming request shall include any out-year budgetary impacts and a separate accounting of program or mission impacts on estimated carryover funds. Any program, project, or activity cited in this explanatory statement, or in the House report and not changed by this Act, shall be construed as the position of the Congress and shall not be subject to reductions or reprogramming without prior approval of the Committees. Further, any department or agency funded in this Act that plans a reduction-in-force shall notify the Committees by letter no later than 30 days in advance of the date of any such planned personnel action.

When a department or agency submits a reprogramming or transfer request to the Committees and does not receive identical responses, it shall be the responsibility of the department or agency seeking the reprogramming to reconcile the differences between the two bodies before proceeding. If reconciliation is not possible, the items in disagreement in the reprogramming or transfer request shall be considered unapproved. Departments and agencies shall not submit reprogramming notifications after July 1, 2021, except in extraordinary circumstances. Any such notification shall include a description of the extraordinary circumstances.

In compliance with section 528 of this Act, each department and agency funded in this Act shall submit spending plans, signed by the respective department or agency head, for the Committees’ review not later than 45 days after enactment of this Act.

For fiscal year 2021, all agencies and departments funded in this Act are directed to follow prior year direction adopted in Public Law 116-93, on the following topics for this fiscal year: “Fighting Waste, Fraud, and Abuse,” “Federal Vehicle Fleet Management,” “Reducing Duplication and Improving Efficiencies,” “Reprogrammings, Reorganizations, and Relocations,” “Congressional Budget Justifications,” “Reporting Requirements,” and “Reductions-in-Force.”

TITLE I

DEPARTMENT OF COMMERCE
INTERNATIONAL TRADE ADMINISTRATION
OPERATIONS AND ADMINISTRATION

The agreement includes \$541,000,000 in total resources for the International Trade Administration (ITA). This amount is offset by \$11,000,000 in estimated fee collections, resulting in a direct appropriation of \$530,000,000. The increased funding level is intended to support current services, requested adjustments to base, and programmatic increases highlighted herein. Additionally, the agreement modifies the House recommended funding level for Enforcement and Compliance (E&C) and supports an increase above the fiscal year 2020 enacted level to meet ITA’s operational requirements for E&C and Industry and Analysis. Further, within the funds provided the agreement includes up to \$1,000,000 for the establishment of the U.S. Section of the Secretariat within the Department of Commerce as authorized under section 105 of the U.S.-Mexico-Canada Agreement Implementation Act (Public Law 116-113).

Enforcement and Compliance.—Within the amounts provided, the agreement includes the amounts requested for increases to manage the anti-dumping and countervailing duties (AD/CVD) workload and section 232 tariff exclusion applications. The agreement acknowledges the exponential growth in AD/CVD orders and directs ITA to prioritize its resources appropriately to support ITA’s ability to continue making AD/CVD enforcement a priority, including self-initiating AD/CVD proceedings and thoroughly investigating dumping and subsidies causing injury to domestic businesses.

Aluminum Import Monitoring (AIM) System.—The agreement provides increased funding within the amounts provided to continue the development and implementation of the AIM system. ITA is encouraged to regularly consult with representatives from the aluminum industry to ensure the AIM system is meeting its stated goal of supporting U.S. aluminum producers.

Global Markets.—The agreement provides no less than \$340,750,000 for Global Markets (GM), an increase of \$7,750,000 above the fiscal year 2020 level. The agreement rejects the proposed reduction to GM staffing levels and ITA is directed to obligate adequate amounts for personnel compensation in order to continue to fill vacancies, in line with direction provided in Senate Report 116-127 and adopted by Public Law 116-93. The agreement reaffirms prior year precedent that the Committees will not approve any requests to close foreign or domestic offices, including the Export Assistance Centers.

Rural Export Assistance.—The Secretary is encouraged to continue to prioritize the Department’s efforts to support and expand international trade opportunities for rural businesses, and the agreement provides no less than the fiscal year 2020 amount within GM toward rural export assistance.

Commercial Engagement in the Pacific Region.—Within funding provided for GM, the Committee provides up to \$400,000 for ITA to enhance commercial engagement in the Pacific region. In so doing, ITA should identify and prioritize areas that would bolster the diplomatic and national security interests of the United States.

General Data Protection Regulation (GDPR).—ITA is encouraged to continue efforts to educate small businesses about the European Union’s GDPR.

Resource Allocation and Workforce Planning.—The U.S. Government Accountability Office (GAO) is directed to undertake a follow-up to the report “Commercial Service Workforce Should Be Better Planned” (GAO-

10-874) that should include assessing the priority of resource utilization within GM; analyzing the workforce and succession strategy within U.S. and Foreign Commercial Service (USFCS), including the percentage of senior leadership and workforce diversity and inclusion; and reviewing the current management structure of GM after the merger of the USFCS with the Market Access and Compliance business unit.

BUREAU OF INDUSTRY AND SECURITY
OPERATIONS AND ADMINISTRATION

The agreement includes \$133,000,000 for the Bureau of Industry and Security (BIS), an increase of \$5,348,000 above the fiscal year 2020 enacted level. The increased funding level is intended to support current services, requested adjustments to base, and requirements related to the product exclusion process for steel and aluminum tariffs applied under section 232 of the Trade Expansion Act of 1962 (19 U.S.C. 1862).

Export Control Regulatory Compliance Assistance.—BIS is directed to continue educating companies of all sizes on their obligations related to export controls, consistent with direction provided in Senate Report 116-127 and adopted by Public Law 116-93.

Sanction Violations.—BIS is directed to continue providing a quarterly report regarding the compliance of ZTE Corporation with the settlement agreement and relevant export control laws, consistent with direction provided in Senate Report 116 127 and adopted by Public Law 116-93.

ECONOMIC DEVELOPMENT ADMINISTRATION

The agreement includes \$346,000,000 for the programs and administrative expenses of the Economic Development Administration (EDA). Section 521 of this Act includes a rescission of \$10,000,000 in Economic Development Assistance Programs balances. Such funds shall be derived from recoveries and unobligated grant funds that were not appropriated with emergency or disaster relief designations.

Allocation of CARES Act Funds.—House language regarding the Allocation of CARES Act Funds is adopted with the clarification that the requirement for future spend plans to include details about the geographic allocations of funds shall only apply to funds provided in supplemental appropriations acts. Additionally, EDA shall report to the Committees, no later than 30 days after the end of each fiscal year, on the geographic distribution of funds, by program, awarded during such preceding fiscal year.

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

The agreement includes \$305,500,000 for Economic Development Assistance Programs (EDAP). Funds are to be distributed as follows; any deviation of funds shall be subject to the procedures set forth in section 505 of this Act:

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS
(In thousands of dollars)

Program	Amount
Public Works	\$119,500
Partnership Planning	33,500
Technical Assistance	10,000
Research and Evaluation	1,500
Trade Adjustment Assistance	13,500
Economic Adjustment Assistance	37,500
Assistance to Coal Communities	33,500
Assistance to Nuclear Closure Communities	16,500
Regional Innovation Program Grants	38,000
STEM Apprenticeships	2,000
Total, Economic Development Assistance Programs	\$205,500

In selecting EDAP projects, EDA shall consider geographic equity and ensure that projects in rural areas are adequately represented among those selected for funding.

In addition, EDA is directed to coordinate with regional development organizations to support projects that address rural economic development challenges, including the opioid epidemic, broadband access, and the need for innovation in legacy industries, including in the use and value-added manufacturing of forest products.

EDA is encouraged to use funding provided for EDAP to support broadband infrastructure projects, particularly in underserved areas, and public-private partnerships in distressed communities seeking to diversify their local workforce. EDA is further encouraged to consider outdoor recreation projects that are consistent with a region's Comprehensive Economic Development Strategy, as well as projects in communities looking to expand the presence of aeronautics-related industries. EDA is also reminded of the need to continue to improve its technical assistance outreach and capabilities, especially in communities that have been affected by the decline of the manufacturing economy and those which are poorly positioned to produce technically sufficient proposals.

Further, EDA shall ensure, to the greatest extent practicable, that its grant programs avoid duplication and overlap with any other Federal grant programs.

Economic Adjustment Assistance (EAA).—Within funding for EAA, the agreement provides no less than the fiscal year 2020 enacted level to support EDA's collaborations with the Delta Regional Authority, the Appalachian Regional Commission, and the Northern Border Regional Commission to assist distressed communities. Eligible activities for the Northern Border Regional Commission collaboration shall contribute to the recovery of forest-based economies and may include support for forest-based businesses, outdoor recreation infrastructure, and activities that assist in the recruitment and retention of employees in rural communities within the territory.

Regional Innovation Program (RIP).—The agreement provides \$38,000,000 to EDA for grants under RIP, also referred to as Build to Scale (B2S). Of the amount provided for RIP grants, no less than \$30,000,000 shall be for the 16 Challenge, also referred to as the B2S Venture Challenge, and no less than \$6,000,000 shall be for Seed Fund Support, also referred to as the B2S Capital Challenge. As part of the fiscal year 2021 spend plan, EDA is directed to provide a detailed justification for any funding provided herein that is intended to be used to support a B2S Industry Challenge in fiscal year 2021.

EDA shall continue to ensure that RIP awards go to multiple grantees in multiple and diverse geographic areas, including an increased focus on organizations and States that have not previously received funding from the program. Furthermore, within funds provided for RIP, EDA shall award not less than 40 percent of grants to support rural communities.

New Forest Products.—Many forest based economies have experienced disruption and decline in recent years. EDA is encouraged to work, including through RIP, with communities and regions that have been adversely impacted by rapid changes in the timber and pulp marketplaces and to support projects that help these communities develop related industries, including commercialization of new forest products using low-grade wood. This work may include the coordination of economic development efforts across multiple States or Economic Development Districts.

Energy Efficiency Projects.—The agreement encourages EDA to provide technical guidance for any applicants interested in funding for energy efficiency projects under the Economic Adjustment Assistance program.

Science, Technology, Engineering, and Math (STEM) Apprenticeship.—The agreement adopts House language on the STEM Apprenticeship Pilot Program and provides \$2,000,000. Within these funds, the Committee directs EDA to prioritize implementation grants.

Technical Assistance to Distressed Small, Rural, and Underserved Communities.—Within the increase provided to the Technical Assistance program, EDA is encouraged to support non-profit organizations to assist economically distressed small, rural, and underserved communities in pre-development activities associated with accessing EDA programs and services.

SALARIES AND EXPENSES

The agreement includes \$40,500,000 for EDA salaries and expenses.

MINORITY BUSINESS DEVELOPMENT AGENCY

MINORITY BUSINESS DEVELOPMENT

The agreement includes \$48,000,000 for the Minority Business Development Agency (MBDA), an increase of \$6,000,000 above the fiscal year 2020 level. The agreement directs MBDA to allocate \$32,000,000 of its total appropriation toward cooperative agreements, external awards, and grants. The agreement provides \$9,000,000 for the Broad Agency Announcements (BAA) program. MBDA is directed to focus awards on innovation and entrepreneurship, formerly incarcerated persons, global women's empowerment, virtual business development, and access to finance. Further, of the funds provided for the BAA program, \$1,500,000 shall be for the HBCU/HSI Entrepreneurship Pilot as described in the House report and to include Tribal Colleges and Universities and Alaska Native and Native Hawaiian Serving Institutions.

Business Centers.—The agreement provides not less than \$18,000,000 to continue MBDA's traditional Business Center program and Specialty Project Center program. MBDA is directed to execute the scheduled re-compete and to ensure no lapse in Business Center services occurs while the re-compete is ongoing. As part of this process, MBDA is encouraged to consider applications from historically underserved regions of the country and is directed to operate at least one Business Center in each State with a plurality or a majority population of a national minority group.

ECONOMIC AND STATISTICAL ANALYSIS

SALARIES AND EXPENSES

The agreement includes \$11,855,000 for Economic and Statistical Analysis.

Outdoor Recreation Satellite Account (ORSA).—The agreement provides not less than \$1,500,000 to continue implementing the Outdoor Recreation Jobs and Economic Impact Act of 2016 (Public Law 114-249). The Bureau of Economic Analysis (BEA) is directed to continue working with the outdoor recreation industry, nongovernmental organizations, and other interested stakeholders to refine the national-level statistics and to continue developing regional statistics. House report language is modified to clarify that BEA shall provide appropriate support to the Department of Labor in any workforce needs study the Department of Labor may undertake that builds upon the information provided by ORSA.

Income Growth Indicators.—BEA is directed to continue development of income growth indicators, including providing annual reports about income growth in each decile of the income distribution.

BUREAU OF THE CENSUS

The agreement includes \$1,106,644,000 for the Bureau of the Census.

CURRENT SURVEYS AND PROGRAMS

The bill provides \$288,403,000 for the Current Surveys and Programs account of the Bureau of the Census.

Survey of Income and Program Participation (SIPP).—The agreement rejects the proposed cut to SIPP and provides no less than the fiscal year 2020 enacted level for this survey.

PERIODIC CENSUSES AND PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$818,241,000 in direct appropriations for the Periodic Censuses and Programs account of the Bureau of the Census. The agreement expects the availability of more than \$1,000,000,000 in prior year funds will provide the Census Bureau sufficient funding to fully support its operational requirements in fiscal year 2021, specifically as they relate to the 2020 Decennial Census. The agreement assumes the combination of prior year funds and fiscal year 2021 direct appropriations will provide the Census Bureau with \$1,664,709,000 in available funds, of which \$934,430,000 will directly support the 2020 Decennial Census, as requested, and in line with the Department's revised Independent Cost Estimate. The agreement also makes available \$91,000,000 identified as fiscal year 2021 contingency reserve for the 2020 Decennial Census in the Independent Cost Estimate. In addition, the agreement expects that within available funds the Census Bureau will fully support efforts to establish the Data Ingest and Collection for the Enterprise (DICE), the next generation of the Census Enterprise Data Collection and Processing (CEDCaP) program.

Quarterly Status Reports.—The Census Bureau is directed to continue its quarterly status reports to the Committees until the tabulations of populations required under 13 U.S.C. 141(c) are reported to the States.

2020 Census Operations Evaluation.—Within one year of enactment of this Act, the Census Bureau shall submit an initial report to the Committee evaluating the 2020 Census operations, the ability to reach hard-to-count populations, initial assessments of data quality, as well as the costs and the adequacy of resource allocation throughout the Decennial Census cycle. As part of this evaluation, the Bureau should include elements such as modified operations, and the use of secretarial and risk-based contingency funds.

2020 Census Data Availability.—The Bureau is encouraged to work closely with stakeholders representing public interests, the Census Advisory Committees, and the data user community to ensure the availability of accurate data products for use by the public. The Bureau should continue seeking regular feedback from data users on disclosure avoidance and to evaluate privacy protection methods being considered for other Bureau data programs.

Ensuring the Integrity and Security of Surveys and Data.—The agreement clarifies House report language and directs the Census Bureau to coordinate with the Department of Homeland Security, and other relevant agencies, to prepare for, prevent, and disrupt cyber intrusions and disinformation campaigns that have the potential to impact survey participation or compromise data collected by the Census Bureau. The Bureau should also coordinate with State and local stakeholders and private industry, as appropriate. The agreement expects the Census Bureau to prioritize these efforts and to update the Committee on its efforts.

Utilizing Libraries and Community Partners for Census Surveys.—The Census Bureau is encouraged to continue its partnership with public libraries and other community technology centers to maximize the response to the American Community Survey and other surveys and assessments as appropriate. The Bureau is encouraged to work with libraries and library organizations, in coordination with the Institute of Museum and Library

Services, regarding training for library staff and webinars or conference presentations to library audiences about Census surveys and assessments.

Website Modernization.—The agreement supports the Census Bureau's efforts to implement the requirements of the 21st Century Integrated Digital Experience Act (IDEA) (Public Law 115-336) which will enable the Bureau to improve digital service delivery and data dissemination. The Bureau is further encouraged to implement requirements that effectively modernize the Bureau's public-facing digital services and to leverage cloud services for its website to help achieve cost savings, efficiencies, and compliance with the IDEA website modernization requirements.

American Community Survey (ACS).—The agreement supports the ACS and directs the Bureau to continue using the ACS as a testbed for innovative survey and data processing techniques that can be used across the Bureau. In executing the ACS, the Bureau should ensure that rural areas are covered with the same accuracy as urban areas to the maximum extent practicable.

NATIONAL TELECOMMUNICATIONS AND
INFORMATION ADMINISTRATION
SALARIES AND EXPENSES

The agreement includes \$45,500,000 for the salaries and expenses of the National Telecommunications and Information Administration (NTIA). The allocation of funding provided in the table in the House report is not adopted. Instead, the agreement provides (1) up to \$7,500,000 for broadband mapping in coordination with the Federal Communications Commission (FCC); (2) no less than the fiscal year 2020 enacted amount for Broadband Programs; (3) \$308,000 for Public Safety Communications; and (4) no less than \$3,000,000 above the fiscal year 2020 enacted level for Advanced Communications Research. Further, the agreement directs the additional funds for Advanced Communications Research be used to procure and maintain cutting-edge equipment for research and testing of the next generation of communications technologies, including 5G, as well as to hire staff as needed. The agreement further encourages NTIA to improve the deployment of 5G and spectrum sharing through academic partnerships to accelerate the development of low-cost sensors. For fiscal year 2021, NTIA is directed to follow prior year report language, included in Senate Report 116-127 and adopted in Public Law 116-93, on the following topics: Federal Spectrum Management, Spectrum Management for Science, and the Internet Corporation for Assigned Names and Numbers (ICANN).

Spectrum Management System.—The agreement encourages NTIA and the Department to consider alternative proposals to fully fund the needed upgrades to its spectrum management system, including options outside of direct appropriations, and is directed to brief the Committees regarding possible alternative options no later than 90 days after enactment of this Act.

Next Generation Broadband in Rural Areas.—NTIA is encouraged to ensure that deployment of last-mile broadband infrastructure is targeted to areas that are currently unserved or underserved, and to utilize public-private partnerships and projects where Federal funding will not exceed 50 percent of a project's total cost where practicable.

National Broadband Map Augmentation.—NTIA is directed to engage with rural and Tribal communities to further enhance the accuracy of the national broadband availability map. NTIA should include in its fiscal year 2022 budget request an update on rural and Tribal-related broadband availability and access trends, challenges, and Federal

actions to achieve equitable access to broadband services in currently underserved communities throughout the Nation. Furthermore, NTIA is encouraged, in coordination with the FCC, to develop and promulgate a standardized process for collecting data from State and local partners.

Domain Name Registration.—NTIA is directed, through its position within the Governmental Advisory Committee, to work with ICANN to expedite the establishment of a global access model that provides law enforcement, intellectual property rights holders, and third parties with timely access to accurate domain name registration information for legitimate purposes. NTIA is encouraged, as appropriate, to require registrars and registries based in the United States to collect and make public accurate domain name registration information.

UNITED STATES PATENT AND TRADEMARK
OFFICE
SALARIES AND EXPENSES
(INCLUDING TRANSFERS OF FUNDS)

The agreement includes language making available to the United States Patent and Trademark Office (USPTO) \$3,695,295,000, the full amount of offsetting fee collections estimated for fiscal year 2021 by the Congressional Budget Office. The agreement transfers \$2,000,000 to the Office of Inspector General to continue oversight and audits of USPTO operations and budget transparency.

The Secretary and the USPTO Director are directed to continue working with ITA and the Department of State to ensure that USPTO's intellectual property attaches are included in discussions and negotiations at the counselor rank and above.

NATIONAL INSTITUTE OF STANDARDS AND
TECHNOLOGY

The agreement includes \$1,034,500,000 for the National Institute of Standards and Technology (NIST).

SCIENTIFIC AND TECHNICAL RESEARCH AND
SERVICES
(INCLUDING TRANSFER OF FUNDS)

The agreement provides \$788,000,000 for NIST's Scientific and Technical Research and Services (STRS) account, including an increase of \$16,350,000 for adjustments to base. The agreement adopts the following within STRS: (1) House direction on Quantum Information Science and provides \$6,500,000 above the fiscal year 2020 enacted amount; (2) House direction on Greenhouse Gas Program and Urban Dome Initiative and \$200,000 above the fiscal year 2020 enacted amount; (3) House direction on Direct Air Capture and Carbon Dioxide Removal and \$3,000,000; and (4) House direction on Forward Looking Building Standards. For fiscal year 2021, NIST is directed to follow prior year report language, included in Senate Report 116-127 and adopted in Public Law 116-93, on the following topics: Helmet Safety and Facial Recognition Vendor Test. House language regarding 5G telecommunications funding is not adopted.

NIST Diversity and Inclusion.—NIST is encouraged to take discrete steps to promote racial and cultural acceptance and diversity within its workforce. Within 180 days of enactment of this Act, NIST is directed to submit a report analyzing the current racial and cultural makeup of the agency; planned efforts to recruit, retain, and advance applicants and employees critical to promoting greater racial and cultural diversity, and the outcomes of these efforts; and any additional steps and recommendations planned to promote greater racial and cultural acceptance and diversity throughout the NIST workforce, including the development and analysis of metrics to evaluate success.

Artificial Intelligence (AI).—The agreement includes no less than \$6,500,000 above the fiscal year 2020 level to continue NIST's research efforts related to AI and adopts House language on Data Characterization Standards in AI.

House language on Framework for Managing AI Risks is modified to direct NIST to establish a multi-stakeholder process for the development of an AI Risk Management Framework regarding the reliability, robustness, and trustworthiness of AI systems. Further, within 180 days of enactment of this Act, NIST shall establish the process by which it will engage with stakeholders throughout the multi-year framework development process.

Cybersecurity.—The agreement includes no less than the fiscal year 2020 enacted level for cybersecurity research, outreach, industry partnerships, and other activities at NIST, including the National Cybersecurity Center of Excellence (NCCoE) and the National Initiative for Cybersecurity Education (NICE). Within the funds provided, the agreement encourages NIST to establish additional NICE cooperative agreements with regional alliances and multi-stakeholder partnerships for cybersecurity workforce and education.

Cybersecurity of Genomic Data.—The agreement includes no less than \$1,250,000 for NIST and NCCoE to initiate a use case, in collaboration with industry and academia, to research the cybersecurity of personally identifiable genomic data, with a particular focus on better securing deoxyribonucleic acid sequencing techniques, including clustered regularly interspaced short palindromic repeat (CRISPR) technologies, and genomic data storage architectures from cyber threats. NIST and NCCoE should look to partner with entities who have existing capability to research and develop state-of-the-art cybersecurity technologies for the unique needs of genomic and biomedical-based systems.

Industrial Internet of Things (IIoT).—The agreement includes no less than the fiscal year 2020 enacted amount for the continued development of an IIoT cybersecurity research initiative and to partner, as appropriate, with academic entities and industry to improve the sustainable security of IIoT devices in industrial settings.

Measurement Science Research for Advanced Manufacturing.—The agreement modifies House language on Measurement Science Research for Advanced Manufacturing to encourage NIST to prioritize new STRS funds for this work.

Pyrrhotite in Concrete Aggregate.—The agreement provides no less than \$2,000,000 for NIST to partner with academic institutions to study and develop a reliable and cost-effective standard for testing for the presence of excessive pyrrhotite in concrete.

Forensic Sciences.—The agreement provides an increase of \$1,000,000 above the fiscal year 2020 level for forensic sciences, including no less than \$3,150,000 to support the Organization of 22 Scientific Area Committees, and no less than \$1,200,000 to support technical merit evaluations.

Training Officers of the Court.—No later than 90 days after enactment of this Act, NIST is directed to submit a plan for how to implement training to help officers of the court understand the science and concepts underlying the professional analyses of forensic experts. The plan should include staffing needs, necessary funding required, and possible topics of instruction.

Plastics and Polymeric Materials.—The agreement provides an increase of \$250,000 above the fiscal year 2020 enacted amount, for competitive external grants for academic institutions to investigate plastic and polymeric materials, as well as novel methods to

characterize both known and newly developed materials. Such investigations should address ways to increase the strength of recycled plastics and better understand mechanical properties including tensile stress, compressive stress, thermal properties, and nanostructure of polymeric materials that could serve as industry standards for recycled plastic products.

Graphene Research and Commercialization.—The agreement includes no less than the fiscal year 2020 enacted amount for NIST to fund and pursue graphene research activities with industry and academic institutions that have expertise, existing capabilities, and infrastructure related to the commercial application of graphene.

Unmanned Aerial Vehicle (UAV) Challenges and Credentialing.—The agreement includes a total of \$3,250,000 for NIST's UAV research challenges and credentialing program. Within the funding provided, NIST shall continue to partner with academic institutions to execute UAV prize-based challenges that focus on expanding the role that UAVs could play in emergency response operations. In addition, NIST shall use no less than \$1,000,000 of the funding provided to partner with relevant academic institutions to establish the measurements and standards infrastructure necessary for credentialing remote pilots. This effort should include implementation and demonstration of distributed pilot training and evaluation using standard test methods and also support flight test simulations.

Public Health Risk to First Responders.—The agreement provides no less than the fiscal year 2020 enacted level for NIST to continue the study of new and unused personal protective equipment worn by firefighters to determine the prevalence and concentration of per- and polyfluoroalkyl substances (PFAS) in the equipment, as well as the extent to which PFAS may be released from the gear during normal wear and under what conditions.

INDUSTRIAL TECHNOLOGY SERVICES

The agreement includes \$166,500,000 in total for Industrial Technology Services, including \$150,000,000 for the Hollings Manufacturing Extension Partnership, an increase of \$4,000,000 above the fiscal year 2020 enacted level. The agreement further provides \$16,500,000 for the Manufacturing USA Program, formerly known as the National Network for Manufacturing Innovation. Within the funding provided for Manufacturing USA, no more than \$5,000,000 may be used for coordination activities, of which up to \$1,000,000 may be used to support the U.S. Food and Drug Administration's participation in biomufacturing innovation institutes; \$10,000,000 shall be used for the continuation of the existing NIST-funded institute; and \$1,500,000 shall be for a competitive grant program to develop technology roadmaps for promising advanced manufacturing clusters.

CONSTRUCTION OF RESEARCH FACILITIES

The agreement includes \$80,000,000 for Construction of Research Facilities, of which no less than \$70,000,000 is for NIST to address its most pressing Safety, Capacity, Maintenance, and Major Repairs projects.

Facilities Report.—NIST is directed to contract with an independent entity to develop a report that assesses the comprehensive capital needs of NIST's campuses. The report, at a minimum, should identify facilities in greatest need of repair, describe the work needed to bring them up to current standards, and include cost estimates for each project. NIST shall provide the report with its recommendations to the Committees no later than 1 year after the date of the contract agreement between NIST and the contracted entity.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Coastal Inundation Forecasting and Resilience.—House direction regarding Coastal Inundation Forecasting and Resilience is modified to direct the National Oceanic and Atmospheric Administration (NOAA), rather than the Office of Oceanic and Atmospheric Research, to develop and initiate a cross-line office research agenda as described in the House report. As part of this effort, NOAA shall consider the establishment of a Cooperative Institute for Coastal Resilience and Adaptation that could benefit existing coastal resilience programs by providing additional research, data collection, experience, and strengthened relationships with institutions conducting coastal resilience and adaptation research and applied science activities.

OPERATIONS, RESEARCH, AND FACILITIES (INCLUDING TRANSFER OF FUNDS)

The agreement includes a total program level of \$4,103,971,000 under this account for NOAA's coastal, fisheries, marine, weather, satellite, and other programs. This total funding level includes \$3,840,300,000 in direct appropriations, a transfer of \$246,171,000 from balances in the "Promote and Develop Fishery Products and Research Pertaining to American Fisheries" fund, and \$17,500,000 derived from recoveries of prior year obligations.

The following narrative descriptions and tables identify the specific activities and funding levels included in this Act.

National Ocean Service (NOS).—\$619,700,000 is for NOS Operations, Research, and Facilities.

NATIONAL OCEAN SERVICE

Operation, Research and facilities
(In thousands of dollars)

Program	Amount
Navigation, Observations and Positioning:	
Navigation, Observations and Positioning	\$162,500
Hydrographic Survey Priorities/Contracts	32,000
IOOS Regional Observations	40,500
Navigation, Observations and Positioning	235,000
Coastal Science and Assessment:	
Coastal Science, Assessment, Response and Restoration ...	86,500
Competitive Research	21,000
Coastal Science and Assessment	107,000
Ocean and Coastal Management and Services:	
Coastal Zone Management and Services	46,700
Coastal Zone Management Grants	78,500
National Oceans and Coastal Security Fund	34,000
Coral Reef Program	33,000
National Estuarine Research Reserve System	28,500
Sanctuaries and Marine Protected Areas	56,500
Ocean and Coastal Management and Services	277,200
Total, National Ocean Service, Operations, Research, and Facilities	\$619,700

Navigation, Observations and Positioning.—The agreement rejects all of the proposed decreases within Navigation, Observations and Positioning and directs NOS to follow prior year direction adopted in Public Law 116-93, on the distribution of Geospatial Modeling Grants.

Hydrographic Research and Technology Development.—The agreement supports the intended use of funds requested for Hydrographic Research and Technology Development and provides an additional \$1,000,000 above the fiscal year 2020 level for these purposes. In addition, the agreement provides \$2,000,000 above the request for NOAA to continue supporting joint ocean and coastal mapping centers in other areas of the country as authorized by the Omnibus Public Land Management Act of 2009 (Public Law 111-11). Additional funding is provided for the designation of additional joint ocean and

coastal mapping centers in order to provide steady funding for existing centers. NOAA shall not decrease funding levels for any existing centers.

Ocean Mapping and Coastal Charting.—Within Navigation, Observations and Positioning, the agreement provides \$2,000,000 for NOS to coordinate and implement an inter-agency mapping, exploration, and characterization strategy for the U.S. Exclusive Economic Zone, as well as the Arctic and sub-Arctic shoreline and nearshore of Alaska. For the latter activity, NOAA shall work closely with the Alaska Mapping Executive Committee and the State of Alaska to ensure that mapping efforts are coordinated and adhere to the priorities identified in the Alaska Coastal Mapping Strategy.

Precision Navigation.—As NOS concludes its two ongoing precision navigation pilots in fiscal year 2021, NOAA is directed to begin making preparations to commence additional precision navigation projects. The agreement supports the consideration of all U.S. seaports identified in the February 2020 Precision Navigation Socioeconomic Study for inclusion in the next precision navigation project and directs that preference shall be given to U.S. seaports that have immediate access to multiple interstate and railroad systems and at least 10,000 miles of inland waterway connections, are ranked within the top 15 by total tonnage of goods shipped and received, and which are currently performing or scheduled to perform channel expansion to accommodate larger draft vessels or already have such capacity.

Coastal Survey Data.—NOS is directed to submit a report to the Committees, within one year of enactment of this Act, on progress it has made toward conducting comprehensive coastal survey work in Alaska. The report shall detail steps taken to implement NOAA's strategy, developed pursuant to section 3 of the 2019 Presidential Memorandum on Ocean Mapping of the United States, for mapping the Arctic and sub-Arctic shoreline and nearshore of Alaska.

Modernization of the Vertical Datum.—The agreement provides no less than the fiscal year 2020 enacted level for the Gravity for the Re-Definition of the American Vertical Datum initiative within the Geodesy program.

Hydrographic Surveys and Contracts.—For fiscal year 2021, NOS shall follow prior year direction adopted in Public Law 116-93, on the following topics: Hydrographic Surveys and Contracts and Hydrographic Charting in the Arctic.

Integrated Ocean Observing System (IOOS).—The agreement includes \$40,500,000 for IOOS Regional Observations and directs NOS to expand the regional underwater profiling gliders program consistent with House direction as well as for disaster response and the forecasting of freshwater and marine water quality.

Coastal Science, Assessment, Response and Restoration.—The agreement provides no less than the fiscal year 2020 enacted level for the Gulf of Mexico Disaster Response Center (DRC), and directs NOS to continue to prioritize full staffing of the DRC in fiscal year 2021. Additionally, the recommendation includes \$1,000,000 above the fiscal year 2020 enacted level for the Disaster Preparedness Program.

Marine Debris Program.—The agreement provides no less than \$9,000,000 for the Marine Debris program and adopts House language on the topic. NOS is encouraged to prioritize funding for projects in urban communities that support waterway cleanup efforts to remove any and all forms of marine debris, projects in rural and remote communities that lack infrastructure to address their marine debris problems, and projects

that address the impact of marine debris in fresh water systems that are a source of drinking water.

National Centers for Coastal Ocean Science (NCCOS).—The agreement provides \$47,000,000 for NCCOS. NOS is directed to consider expanding NCCOS's efforts related to coastal sustainability and resilience, including assessing the effects of land-use on coastal and marine resources, measuring societal benefits of coastal restoration and green infrastructure, encouraging citizen science monitoring of coastal and marine resources, and assessing the adaptive capacity of human communities to coastal hazards.

Harmful Algal Blooms (HABs).—Across NOS, the recommendation includes an additional \$5,500,000 for HABs work as compared to fiscal year 2020. House direction and an increase of \$1,000,000 above the fiscal year 2020 enacted level is adopted for NCCOS's HABs work. The agreement also adopts House direction and provides \$2,500,000 to continue and expand the IOOS-sponsored pilot programs launched in fiscal year 2020 to enhance the monitoring and detection of HABs. In addition, the agreement provides up to \$1,000,000, from within funds allocated to the IOOS-sponsored pilot programs, for IOOS to establish an initial HABs monitoring and detection test bed in the Gulf of Mexico. The agreement expects that the test bed will deploy, operate, and test a range of technologies and also determine the data management and dissemination needs for operating and maintaining a complete end-to-end HABs detection and monitoring system. The agreement encourages the testbed to be established in an area that has experienced HABs in recent years and which has existing expertise, infrastructure, and collaboration between IOOS, an IOOS regional association, and academic and State partners that can be readily leveraged.

The agreement provides \$21,000,000 for Competitive Research, including not less than \$13,000,000 for HABs research, and adopts House direction for these funds. From within these funds, the agreement also provides up to \$2,000,000 to explore innovative methods to increase monitoring and detection of HABs in freshwater systems by partnering with a consortium of academic institutions with expertise in unmanned aircraft systems.

Sea Level Rise and Coastal Resilience.—The agreement provides an increase of \$2,000,000 above the fiscal year 2020 enacted level within Coastal Science, Assessment, Response and Restoration to address the increasing risk of coastal inundation due to sea level rise consistent with House direction. From within these increased funds, up to \$1,000,000 shall be applied to the new Hydrology and Water Resources Cooperative Institute described in the National Weather Service section of this explanatory statement to accelerate the Integrated Water Prediction (IWP) program and inform NOAA's broader efforts on coastal inundation and resilience.

Regional Data Portals.—Within funding provided for Coastal Zone Management and Services, \$2,500,000 is for the regional ocean partnerships, or their equivalent, to enhance their capacity for sharing and integration of Federal and non-Federal data to support regional coastal, ocean, and Great Lakes management priorities.

Ocean Economy of the Territories.—The agreement adopts House direction and funding for NOAA to include the five U.S. territories in the estimate of the ocean economy.

Aquatic Invasive Species.—NOAA is directed to establish the Coastal Aquatic Invasive Species Mitigation Grant Program and Mitigation Fund, as authorized by the Vessel Incident Discharge Act of 2018 (Public Law 115-282).

National Oceans and Coastal Security Fund.—The agreement provides \$34,000,000 for the National Oceans and Coastal Security Fund, also known as the Title IX Fund or the National Coastal Resilience Fund. Of the amount provided, not less than \$3,000,000 shall be for project planning and design.

Coral Reefs.—The recommendation provides \$33,000,000 for the Coral Reef Program and adopts the House language. Within these funds, the agreement provides up to \$8,500,000 for NOS to work with academic institutions and non-governmental research organizations to establish innovative active restoration projects to restore degraded coral reefs, such as projects like "Mission: Iconic Reef."

Marine National Monuments.—Within funding provided for Sanctuaries and Marine Protected Areas, up to \$1,200,000 may be used for competitive research, management, and education grants for existing marine national monuments administered by NOS, provided that such grants are subject to a 100 percent non-Federal match.

Papahānaumokuākea Sanctuary Designation.—NOAA is directed to initiate the process under the National Marine Sanctuaries Act (16 U.S.C. 1431 et seq.) to designate the Papahānaumokuākea Marine National Monument as a National Marine Sanctuary to supplement and complement, rather than supplant, existing authorities. NOAA shall provide the Committees an update on this designation before the end of fiscal year 2021.

National Marine Fisheries Service (NMFS).—\$964,862,000 is for NMFS Operations, Research, and Facilities.

NATIONAL MARINE FISHERIES SERVICE

Operations, Research and Facilities
(In thousands of dollars)

Program	Amount
Protected Resources Science and Management:	
Marine Mammals, Sea Turtles, and Other Species	\$125,164
Species Recovery Grants	7,000
Atlantic Salmon	6,500
Pacific Salmon	67,000
Protected Resources Science and Management	205,664
Fisheries Science and Management:	
Fisheries and Ecosystem Science Programs and Services ...	146,927
Fisheries Data Collections, Surveys, and Assessments	175,927
Observers and Training	55,468
Fisheries Management Programs and Services	123,836
Aquaculture	17,500
Salmon Management Activities	62,050
Regional Councils and Fisheries Commissions	41,500
Interjurisdictional Fisheries Grants	3,365
Fisheries Science and Management	625,573
Enforcement	75,000
Habitat Conservation and Restoration	57,625
Total, National Marine Fisheries Service, Operations, Research, and Facilities	\$964,862

For fiscal year 2021, NMFS shall follow prior year Senate direction and, if applicable, funding levels adopted by Public Law 116-93 on the following topics: Promote and Develop Fisheries Products and Research Funding Transfer, Saltonstall-Kennedy Grant Program, NMFS Staffing, Hawaiian Monk Seal and Sea Turtles, Species Recovery Grants, Atlantic Salmon, Pacific Salmon, American Lobster and Jonah Crab Research, Electronic Monitoring and Reporting, International Fisheries Management Coordination, Bycatch Reduction, Atlantic Herring Stock Assessment, and Seafood Reporting. The agreement also adopts House language on Foreign Fisheries and provides \$750,000 for this work, but does not adopt House language on Video Review of Electronic Monitoring Data. The agreement maintains the existing budget structure for Regional Councils and Fisheries Commissions.

False Killer Whales.—Within the funding provided for Marine Mammals, Sea Turtles,

and Other Species, the agreement includes \$1,000,000 for NMFS to study interactions between the U.S. fishing fleet and false killer whales in the Western Pacific.

Unusual Mortality Events (UMEs).—NMFS is directed to submit a report, within 90 days of enactment of this Act, showing how funds from the Unusual Mortality Event Fund have been disbursed during UMEs active within the past 10 years. The report shall include what specific services and incurred costs have been financed or reimbursed by NOAA as well as an overview of services provided by Tribal partners, including, but not limited to, carcass retrieval and shipment, regardless of whether or not compensation was provided for these services or related expenses were reimbursed.

North Atlantic Right Whale.—The agreement rejects the proposed reduction and provides an additional \$2,000,000 above the fiscal year 2020 enacted level within Marine Mammals, Sea Turtles, and Other Species for North Atlantic right whale-related research, development, and conservation efforts. These additional funds shall be spent as outlined in the House language. Within funding provided, not less than \$1,000,000 shall be to support the existing pilot program to develop, refine, and field test innovative lobster fishing gear technologies as directed in Public Law 116-93.

NOAA shall continue to support disentangling, stranding response, necropsy activities, aerial surveys, and passive acoustic monitoring in the waters of the Atlantic Ocean, and is encouraged to develop a habitat suitability index and long-term tagging methods. Further, NMFS is directed to continue to work in coordination with counterparts in the Canadian government to reduce risks throughout the range of the North Atlantic right whale.

In any rulemaking regarding the North Atlantic right whale, NMFS shall incorporate recent research on the species' primary food source, *Calanus finmarchicus*, which indicates these zooplankton have decreased in abundance in the Gulf of Maine since 2010. NOAA is also directed to fully evaluate the feasibility, as well as the safety and economic implications, of any management actions relating to the North Atlantic right whale. Further, the North Atlantic right whale risk reduction target proposed by NMFS depends heavily on how unknown entanglements are assigned to individual fisheries and countries. Any misattributions of whale entanglements that NMFS has acknowledged must be considered by NMFS and incorporated in relevant rulemaking.

Risk Reduction Credit.—Should NOAA award risk reduction credit to any State as part of the current North Atlantic right whale take reduction management process, the agency shall also ensure that other States have the opportunity to receive credit for past management actions.

Assessment of Fishing Interference.—The agreement directs NMFS to undertake a review, no later than 90 days after enactment of this Act, to assess and better understand the occurrence of conflicts between dolphins and sharks and commercial, for-hire, and recreational fishing vessels in the Gulf of Mexico and South Atlantic. The review should provide: (1) a quantification, to the extent practicable within existing resources, of the degree to which dolphins and sharks interfere with commercial, charter, and recreational fishing; and (2) recommendations for non-lethal methods to deter dolphins and sharks from interfering with commercial, for-hire, and recreational fishing, in accordance with existing laws. NMFS shall report to the Committees on the results of the review no later than one year after the review is commenced. In conducting the review,

NMFS shall consult with the Marine Mammal Commission, the Gulf of Mexico Fishery Management Council, the South Atlantic Fishery Management Council, the Atlantic Highly Migratory Species Advisory Panel, and conduct outreach to commercial, for-hire, and recreational fishermen.

Northeast Groundfish Research.—Within funding provided for Fisheries and Ecosystem Science Programs and Services, the agreement provides \$2,500,000 for Northeast groundfish research, with a focus on the effects of changing climatic conditions and warming waters on the fishery, including stock health and natural mortality. NOAA is further encouraged to prioritize research regarding relative gear efficiency, stock boundaries, and other topics that can improve groundfish stock assessments in the next five years. Within funding provided, \$500,000 shall be obligated to develop methods for improving and increasing utilization of the full range of available fishery-dependent data to better inform groundfish stock abundance estimates. This should include a review of statistical strengths and weaknesses of existing bottom trawl surveys for different species and the development of alternative data sources and sampling methods that will augment and improve groundfish stock assessments as recommended in the 2020 report of the Groundfish Trawl Task Force. This funding is intended to support new and innovative research, including by the Northeast Fisheries Science Center (NEFSC), separately by, or in collaboration with, outside partners such as higher education institutions or State agencies, and in cooperation with the fishing industry.

Fisheries Information Systems Grants.—The agreement includes no less than the fiscal year 2020 enacted amount for Fisheries Information Systems grants.

Cooperative Research.—The agreement provides no less than \$13,000,000 for the Cooperative Research program. NMFS is directed to prioritize trawl surveys that are designed and conducted cooperatively with industry and States to provide empirical measures of fish stock abundance, such as swept area biomass surveys. NMFS is encouraged to prioritize studies conducted cooperatively with States, industry, and nonprofit institutions using video systems deployed in commercial trawl nets for surveys. NMFS is also encouraged to focus on improving understanding of natural mortality and relative gear efficiency to ensure accurate measures of catchability.

The NEFSC is directed to consider prioritizing cooperative research efforts for species that are experiencing shifts in range and population density due to warming waters and other global environmental changes. Further, NMFS is encouraged to prioritize data collection that may be affected by offshore wind energy development.

Gulf Reef Fish.—Within funding for Fisheries and Ecosystem Science Programs and Services, the agreement includes no less than \$2,000,000 for NMFS to support Gulf reef fish surveys, research, and sampling. NMFS is also encouraged to continue to collaborate with NOAA's Office of Oceanic and Atmospheric Research on the agency-independent reef fish population assessments funded within Sea Grant.

State Management for Recreational Red Snapper.—Within the amount provided for Fisheries Data Collections, Surveys, and Assessments, the agreement includes \$5,000,000 for NMFS to continue to work with the Gulf States to ensure successful implementation of State management for recreational red snapper. The agreement reiterates past direction that these efforts shall be a top priority for NOAA, and that such efforts shall be done in coordination with the Gulf States.

Many are concerned by the results of recent efforts by NMFS to calibrate each Gulf State's catch data program to catch data derived by the Marine Recreational Information Program (MRIP), which in some cases resulted in significant discrepancies between the Federal and State catch statistics for red snapper. The discrepancies are large enough that it calls into question whether MRIP is providing the best account of the fishery, especially when available data from the Gulf States suggest otherwise. Therefore, before making any related regulatory changes, NMFS is directed to address the question of which data collection system (i.e., MRIP or the catch data programs administered by the Gulf States) are providing the best estimates of recreational red snapper catch in the Gulf of Mexico. The agreement includes \$2,000,000, from within the funding provided to support State management of red snapper, for NMFS to contract with a non-governmental entity with expertise in statistics and fisheries-dependent data collection to provide the following: (1) an independent assessment of the accuracy and precision of both the Federal and State recreational catch data programs in the Gulf of Mexico; (2) recommended improvements to be made to the Federal and State recreational catch data programs in the Gulf of Mexico to improve accuracy and precision; and (3) an independent assessment, based on the results of the two prior items, of how best to calibrate the Federal and State recreational catch data programs in the Gulf of Mexico to a common currency.

South Atlantic Reef Fish.—The agreement provides no less than \$1,800,000 with the instructions contained in the House report.

Data Collection for Recreational Fisheries.—The agreement includes no less than \$3,500,000 within Fisheries Data Collections, Surveys, and Assessments, to support collaborative programs focused on improving recreational fishery data collection, as articulated in sections 102, 201, and 202 of Public Law 115-405. This funding should focus on assisting States to establish, test, and implement more reliable recreational fishery data collection tools, such as smartphone applications or text messaging supplements. In addition, NMFS is directed to support efforts by the Regional Fishery Management Councils to implement section 102 of Public Law 115-405, including the shared initiative between the Gulf of Mexico and South Atlantic Fishery Management Councils to establish a joint committee.

Northeast Multispecies Fishery.—NOAA is directed to fully fund the At-Sea Monitoring costs in the New England groundfish fishery, including sea and shore side infrastructure costs, and shall ensure the costs and benefits of At-Sea Monitoring are commensurate with the gross revenues of vessels in the fishery. The agreement provides no less than the fiscal year 2020 enacted amount within Observers and Training for this purpose. Before obligating any of these funds, NOAA shall provide the Committees with a detailed spending plan. The Committees also look forward to receiving the report requested by Public Law 116-93 outlining the current status of electronic monitoring and reporting technology for the Northeast multispecies fishery.

North Pacific Observer Coverage.—Within Observers and Training, the agreement includes no less than \$7,500,000 for the North Pacific Observers Program. This additional funding shall be used to offset observer costs normally paid for by harvesters in fisheries that are undertaking a transition to electronic monitoring and reporting. Additionally, NOAA is encouraged to identify and implement any efficiencies that would mitigate the cost burden shouldered by small vessel operators in the fixed-gear fleet.

For-Hire Electronic Monitoring and Reporting Implementation.—The agreement provides no less than \$2,250,000 within Fisheries Management Programs and Services and \$1,500,000 within Enforcement to support the continued and timely implementation of electronic logbooks for the federally permitted charter-for-hire sector in the Gulf of Mexico.

Fisheries Surveys and Offshore Wind.—The agreement provides \$500,000 within Fisheries and Ecosystem Science Programs and Services to ensure the continuity of fisheries survey data that may be affected by offshore wind energy development and \$500,000 within Fisheries Management Programs and Services to support the permitting process.

Fisheries Surveys.—Within funds for Fisheries Data Collections, Surveys, and Assessments, the agreement provides \$1,000,000 above the fiscal year 2020 enacted amount for NMFS fishery and ecosystem research surveys and directs NMFS take the necessary steps to ensure that historical levels of survey coverage are achieved without disruption in fiscal year 2021. At this funding level NMFS is expected to contract no fewer than six surveys for Alaskan bottom trawl surveys and cooperative research, including a survey to capture movement of fish populations out of historic survey areas, and no fewer than four vessels for West Coast groundfish surveys.

Northwest Fisheries Ecosystem Monitoring System.—Within funds for Fisheries Data Collections, Surveys, and Assessments, the agreement provides \$500,000 to maintain a time-series monitoring system that includes no less than monthly data collection, analysis, and dissemination of hydrographic and ecological data to inform fishery management on the Northern California Current.

Western Atlantic Bluefin Tuna (ABFT).—Many are concerned by NOAA's April 2, 2020, rulemaking to reopen for commercial longline fishing two gear-restricted areas (GRAs) in the Gulf of Mexico that were previously closed annually during April and May to protect spawning ABFT. The hypothetical basis for this rulemaking—that all of the management measures previously in place for ABFT in the Gulf of Mexico may not be necessary in tandem and that such measures are inhibiting the harvest of other target species—is questioned because of the following facts: (1) the Gulf of Mexico is the primary spawning ground for ABFT, and recovery of the still depleted stock requires that spawning fish be protected; and (2) the management measures implemented in 2015, the Individual Bluefin Quota and time-area closures, have in tandem, not individually, reduced ABFT discards and catch during peak spawning months. Therefore, NOAA is directed to reconsider the decision to open the two GRAs in the Gulf of Mexico. If the status quo is maintained, NOAA shall increase monitoring efforts within the GRAs through 100 percent human observer coverage and by making publicly available all Gulf of Mexico ABFT catch data, broken down both inside and outside the GRAs, on a weekly basis and within one week of catch, during the months of April and May in order to allow for increased oversight to ensure that this rule does not result in the longline fishery exceeding their ABFT catch limits.

Harmful Drift Gillnets.—NMFS is encouraged to establish a pilot program to assist fishermen in replacing large-mesh drift gillnets with more sustainable gear and to consider actions to ban the use of drift gillnets in Federal waters off the coast of California.

Marine Aquaculture.—The agreement includes no less than \$500,000 in the Aquaculture Program, Project, or Activity (PPA) for NMFS, in collaboration with NOS, to perform activities in support of the identification of at least two aquaculture opportunity

areas, as called for in section 7 of the May 7, 2020, Presidential Executive Order on Promoting American Seafood and Competitiveness and Economic Growth. The agreement also provides up to \$500,000 above the fiscal year 2020 enacted level in the Aquaculture PPA to increase the amount of staff focused on aquaculture at all NMFS fisheries science centers. Within the funding provided, NOAA is encouraged to return staffing levels to those in fiscal year 2010 at the Northeast and Northwest Fisheries Science Centers.

Regional Pilots in Sustainable Aquaculture.—The agreement includes \$2,000,000 in the Aquaculture PPA for the NMFS Aquaculture Office to continue the regional aquaculture pilot program, in partnership with the three interstate marine fisheries commissions, to establish partnerships between the seafood industry and community partners that can develop, validate, and deploy economically and environmentally sustainable aquatic farming techniques and regional business practices to grow domestic seafood production. To maximize the impact of these pilot grants, NMFS is encouraged to give priority consideration to promising but less commercially developed technologies, such as those targeting shellfish, seaweed, and other relative newcomers to the domestic aquaculture industry.

In addition, the agreement provides no less than \$2,000,000 for the NMFS Aquaculture Office, in partnership with the Gulf States Marine Fisheries Commission, to partner with a university or consortium of universities to establish a multi-year demonstration pilot of an Integrated Multi-Trophic Aquaculture (IMTA) system in State waters of the Gulf of Mexico, which shall culture native species of finfish, bivalve mollusks, and macroalgae. The pilot is to be for research, training, and educational purposes only and should involve students, fishermen, and farmers, and shall endeavor to inform how to adapt IMTA methods and systems, in an environmentally and ecologically balanced manner, for deployment in warm water environments.

Salmon Management Activities.—Within the amount included for Salmon Management Activities, the agreement provides \$39,500,000, an increase of \$4,000,000 above the fiscal year 2020 enacted level, to enable NOAA, the Pacific States, and Tribal communities to continue activities in support of the obligations set forth in the renegotiated annex of the Pacific Salmon Treaty (PST). No less than \$20,000,000 of the funds provided shall be made available to support ongoing and new implementation and mitigation activities for the PST. Before any of these funds may be obligated, NOAA is directed to provide the Committees with a detailed spending plan that is reflective of the funding recommendations produced by the U.S. section of the Pacific communities to continue activities in support of the obligations set forth in the renegotiated annex of the Pacific Salmon Treaty (PST). No less than \$20,000,000 of the funds provided shall be made available to support ongoing Salmon Commission. In doing so, NOAA is directed to consult with the Pacific States, Tribal communities, and other stakeholders. Further, NOAA is encouraged to minimize, to the extent practicable, the amount of funds withheld for administrative expenses.

Salmon and Steelhead Monitoring.—The agreement recognizes that NOAA intends to continue funding research in fiscal year 2021 to monitor mortality of spring Chinook salmon in the Columbia River in order to understand the impacts of marine mammal predation. Not later than 60 days after submission of the President's budget for fiscal year 2022, NOAA is directed to brief the Committees on the research priorities of the Northwest Fisheries Science Center and the prospect of expanding research to include monitoring fall Chinook salmon and steelhead mortality from marine mammals.

Mitchell Act.—The agreement rejects the proposed reduction and provides not less than \$22,000,000 for Mitchell Act mitigation hatchery programs, in recognition of the important cultural, ecological, and economic benefits that these programs provide for the people of the Columbia River Basin. NOAA is directed to continue genetic stock identification for salmon recovery and management.

Interstate Marine Fisheries Commissions.—Within the amount provided for Regional Councils and Fisheries Commissions, no less than \$1,850,000 shall be for the three Interstate Marine Fisheries Commissions.

Northeast Lobster Enforcement.—Within Enforcement, the agreement includes no less than \$750,000 for NMFS, in partnership with the relevant States, Joint Enforcement Agreement partner agencies, and the Atlantic States Marine Fisheries Commission, to establish a pilot cooperative offshore lobster enforcement program. The program shall endeavor to establish multi-year contracts with commercial vessels, which are not participating in the lobster fishery but are capable of hauling deep-set gear, to carry law enforcement officials to oversee inspection of offshore lobster gear. As part of the establishment of the program, NMFS shall consider (1) implementing measures to increase the tracking of vessels participating in the offshore lobster fishery and (2) how the resulting increase in enforcement and/or any enforcement actions (e.g., seizure of illegal gear) could count towards risk-reduction under the North Atlantic right whale take reduction program. NMFS shall report to the Committees in writing on the status of the program, beginning not later than 180 days after enactment of this Act, and every 90 days thereafter until the program is established.

Report on Illegal, Unreported, and Unregulated (IUU) Fishing.—In lieu of House language requesting a report on IUU enforcement and seafood traceability, NMFS is directed to provide a report, within 90 days of enactment of this Act, that summarizes ongoing efforts to prevent the importation of seafood harvested through IUU fishing and address imported seafood fraud. The report should include the following: (1) the volume and value of seafood species subject to the Seafood Import Monitoring Program (SIMP) imported during fiscal year 2020; (2) the enforcement activities carried out under SIMP; (3) the percentage of import shipments subject to SIMP selected for inspection or audit; (4) the number of instances of noncompliance with the SIMP requirements; (5) the seafood species in which such noncompliance were found to be the most prevalent; and (6) such other information that NMFS considers appropriate with respect to SIMP monitoring and enforcing compliance.

Definition of Illegal, Unreported, and Unregulated Fishing.—Not later than 90 days after enactment of this Act, NOAA shall revise existing regulations defining IUU fishing, provided in 50 C.F.R. 300.201, to be consistent with the definition codified in section 3532(6) of Public Law 116-92.

Habitat Conservation and Restoration.—Within Habitat Conservation and Restoration, NOAA is encouraged to include a broader ecosystem-based management philosophy; expand criteria to include recreational species, managed commercial species, and forage species; and prioritize proposals that engage local communities. NOAA should also continue to emphasize the value of partnerships when evaluating grant applications.

Oyster Restoration.—The agreement provides \$250,000 above the fiscal year 2020 enacted level within Habitat Conservation and

Restoration to support oyster restoration in the Chesapeake Bay.

Marine National Monuments.—The Offices of Habitat Conservation and Protected Resources are encouraged to support competitive research and management grants for existing marine national monuments off of the continental United States administered by NMFS, provided such grants are subject to a 100 percent non-Federal match.

Office of Oceanic and Atmospheric Research (OAR).—\$570,590,000 is for OAR Operations, Research, and Facilities.

OFFICE OF OCEANIC AND ATMOSPHERIC RESEARCH

Operations, Research, and Facilities
(In thousands of dollars)

Program	Amount
Climate Research:	
Climate Laboratories and Cooperative Institutes	\$75,500
Regional Climate Data and Information	42,500
Climate Competitive Research	64,000
Climate Research	182,000
Weather and Air Chemistry Research:	
Weather Laboratories and Cooperative Institutes	85,500
U.S. Weather Research Program	26,500
Tornado Severe Storm Research/Phased Array Radar	14,382
Joint Technology Transfer Initiative	13,000
Weather and Air Chemistry Research	139,382
Ocean, Coastal, and Great Lakes Research:	
Ocean Laboratories and Cooperative Institutes	36,500
National Sea Grant College Program	75,000
Sea Grant Aquaculture Research	13,000
Ocean Exploration and Research	43,000
Integrated Ocean Acidification	15,500
Sustained Ocean Observations and Monitoring	45,408
National Oceanographic Partnership Program	3,000
Ocean, Coastal, and Great Lakes Research	231,408
High Performance Computing Initiatives	17,800
Total, Office of Oceanic and Atmospheric Research, Operations, Research, and Facilities	\$570,590

The agreement adopts House direction and funding for Atmospheric Baseline Observatories as well as House language and an increase of \$2,500,000 above the fiscal year 2020 enacted level for the Regional Integrated Sciences and Assessments program. Further, the agreement encourages NOAA to increase collaboration with the Department of Energy in its climate research and modeling efforts, including, as appropriate, the sharing of resources and the exchange of detailees, in order to minimize the duplication of efforts and to increase the cross pollination of ideas and research.

Earth's Radiation Budget.—The agreement adopts House language and provides \$9,000,000 for Earth's Radiation Budget, and directs OAR to coordinate this work with the National Aeronautics and Space Administration (NASA), as appropriate.

VORTEX-USA.—The agreement provides \$7,500,000 to initiate the implementation of a tornado warning improvement and extension program as authorized in the Weather Research and Forecasting Innovation Act of 2017 (Public Law 115-25), and to be known as VORTEX-USA. In developing the program plan and annual budget, as authorized by Public Law 115-25, OAR shall consider all options across the technology readiness scale to reduce the loss of life and economic damage caused by tornadoes, including expanding atmospheric observations, advancing radar technology, and improving the delivery of actionable weather information, and shall include as part of the program plan quantitative goals for improving the prediction of tornadoes by which the Committees can measure the success of any investments. The VORTEX-SE program shall continue and be closely coordinated with this broader initiative, and, within these funds, the agreement provides an increase of no less than \$2,000,000 above the fiscal year 2020 level to expand the VORTEX-SE efforts.

U.S. Weather Research Program (USWRP).—The agreement rejects the proposal to cut base funding for USWRP. Within the funding provided for USWRP, no less than \$13,000,000, an increase of \$5,000,000 above the fiscal year 2020 enacted amount, is included for the Earth Prediction Innovation Center (EPIC) and House language on EPIC is adopted. Further, NOAA is expected to finalize and award the EPIC contract in fiscal year 2021, and continue building the community-based infrastructure so that participants can utilize external compute resources, including cloud technologies, to interface with the agency. It is also expected that NOAA will continue to centralize available observations used in operational models in a publicly accessible manner by leveraging cloud technology within the EPIC infrastructure.

Within funding for USWRP, the agreement provides \$1,000,000 to support external opportunities with academic institutions in promising areas of weather-related research that may advance NOAA's mission and benefit society, including infrasonic monitoring methods of violent weather.

National Sea Grant College Program.—The agreement provides \$75,000,000 for the National Sea Grant College Program, including an increase of \$2,500,000 as compared to the fiscal year 2020 enacted level for the base program that funds universities in States around the country.

Fisheries-Related Research.—The agreement includes \$2,500,000 within Sea Grant to fully fund the project initiated in fiscal year 2020 to develop agency-independent estimates of the abundance of greater amberjack in the Gulf of Mexico. Within the funding provided, the Committee also encourages Sea Grant to establish a regional extension initiative for Gulf of Mexico reef fish.

American Lobster Research.—Within funding for the Sea Grant program, the agreement provides \$2,000,000 for American lobster research as directed in Public Law 116-93.

Green Infrastructure.—The agreement provides \$500,000 for the Sea Grant program to partner with local, regional, and State governments, as well as with non-governmental organizations, to research innovative techniques and use of low-impact development and green infrastructure practices to mitigate runoff from developed lands that contribute to nutrient-driven cyanobacteria blooms, and otherwise pollute freshwater aquatic systems, especially large lakes.

Contaminants of Emerging Concern.—The agreement provides \$500,000 within the Sea Grant program to partner with State agencies and academic institutions to research and monitor contaminants of emerging concern that may cause ecological or human health impacts, including PFAS, in coastal and estuarine waters.

Microfiber Research.—The Sea Grant program is encouraged to support interdisciplinary research on the impact of microfiber pollution on aquatic environments that leverages public-private partnerships and focuses on identifying and characterizing microfibers in textile products, as well as determining their impact on aquatic environments and species.

Sea Grant Aquaculture Research.—The agreement provides \$13,000,000 for Sea Grant Aquaculture Research. NOAA is directed to support marine aquaculture research and development in partnership with universities, including with Historically Black Colleges and Universities and Tribal Colleges and Universities. Similar research efforts have led to beneficial outcomes such as the development and commercialization of new technologies to meet the domestic demand for seafood, including finfish, shrimp, and oysters.

Ocean Exploration and Research.—The agreement provides \$43,000,000 for Ocean Ex-

ploration and Research. Within the funding provided, OAR is directed to accelerate efforts to map and characterize America's Exclusive Economic Zone and Extended Outer Continental Shelf, including by maximizing the amount of funding provided for the Ocean Exploration Cooperative Institute and supporting competitive awards for deep ocean acoustic research. NOAA is also encouraged to work with the Department of Defense and other relevant agencies to continue fundamental ocean exploration in which open source data are collected for the oceanographic community and private industries in real-time through telepresence technology.

National Weather Service (NWS).—\$1,100,776,000 is for NWS Operations, Research, and Facilities.

NATIONAL WEATHER SERVICE

Operations, Research, and Facilities
(In thousands of dollars)

Program	Amount
Observations	\$231,910
Central Processing	97,980
Analyze, Forecast and Support	537,000
Dissemination	78,362
Science and Technology Integration	155,524
Total, National Weather Service, Operations, Research, and Facilities	1,100,776

The agreement does not adopt House language on Data Sharing for Integrated Global Observing System and Global Basic Observing Network and includes up to \$1,000,000 for Ship Observation Data Buys. For fiscal year 2021, NWS shall follow prior year direction regarding NWS Staffing in Alaska adopted in Public Law 116-93.

NEXRAD Coverage.—NOAA is directed to provide the Committees with a follow-up briefing with personnel from NWS and OAR to discuss best options and cost requirements of further supplementing the NEXRAD system with additional sources of observations regularly used by forecasters to predict severe weather in absence of complete radar coverage.

National Data Buoy Center (NDBC).—The agreement provides sufficient funding to maintain, at a minimum, NDBC operations at 80 percent data availability. NOAA is directed to provide adequate funding to support maintenance and service of the Tropical Atmosphere/Ocean Array and Deep Ocean Assessment and Reporting of Tsunamis Array across the equatorial Pacific, recognizing the importance of ensuring full tsunami prediction capacity. As part of the fiscal year 2021 spending plan, NOAA shall include a schedule to restore existing data buoy operability, including buoys damaged by hurricanes in calendar year 2020, and its strategy to minimize outages in the future.

National Mesonet Program.—The agreement provides no less than \$22,200,000, an increase of \$2,000,000 above the fiscal year 2020 enacted level, for the continuation and expansion of the National Mesonet Program. Of the funds provided, up to \$750,000 may be used for Meteorological Assimilation Data Ingest System activities, and up to \$500,000 may be used for costs associated with the National Mesonet Program Office.

The National Mesonet Program is encouraged to proactively work with other Federal agencies, including the National Science Foundation and the U.S. Geological Survey, to identify observations and platforms of opportunity in areas with sparse instrumentation that may be transferred to the National Mesonet Program. Further, the National Mesonet Program is encouraged to establish a profiler research testbed, using existing profiler networks that provide statewide observational capability, to use advanced tech-

nologies to sample the weather in the atmospheric boundary layer. NWS is directed to provide a briefing to the Committees about how such a profiler research testbed could be established.

Automated Surface Observing System (ASOS).—NWS is directed to ensure that rural and remote communities who disproportionately rely on ASOS operability for continued reliable air service are provided with additional resources, such as trained human observers, to continue observing capabilities in the event of an ASOS outage.

Climate Prediction Center.—NWS is directed, through the Climate Prediction Center, to engage with State agencies, non-profit organizations, academic institutions, and the general public in rural areas in the Mid-Atlantic United States that due to changes in climate have seen unseasonable and unexpected drought in order to improve drought monitoring and reporting.

Analyze, Forecast and Support (AFS).—The agreement provides an increase of \$22,500,000 above the fiscal year 2020 enacted level for AFS and directs NWS to use the increased funding to reconcile previous year funding gaps and prioritize filling vacancies in currently understaffed weather forecast offices.

Environmental Processes in the Arctic.—Within the funding provided for AFS, the National Centers for Environmental Prediction is encouraged to develop capacity for seasonal to multiannual timescale predictions of environmental processes in the Arctic.

Tsunami Warning Program.—The agreement rejects NWS's proposed cut to the Tsunami Warning Program, including for the National Tsunami Hazard Mitigation program grants. Funding is provided at no less than \$500,000 above the fiscal year 2020 enacted level to ensure that high-quality tsunami watches, warnings, and advisories are issued to safeguard lives and property. NWS is directed to expeditiously fill the current vacancies.

Tsunami Preparedness in Alaska.—NOAA is directed to work with other relevant Federal agencies, the State of Alaska, local governments, and area stakeholders to actively monitor Barry Glacier in Prince William Sound, Alaska, and tailor, as needed, its early warning tsunami systems to be prepared for a possible landslide-induced tsunami in the area. This effort should include, if appropriate, the deployment of sensors in strategic locations and the development of inundation models to inform emergency planning efforts.

Report on Weather Research Priorities.—In lieu of House language on a Weather Decadal, the agreement directs NOAA's Science Advisory Board to publish a report, not later than one year after enactment of this Act, that provides policymakers with the relevant information necessary to prioritize investments in weather forecasting, modeling, data assimilation, and supercomputing over the next ten years; and that evaluates future potential Federal investments in science, satellites, radars, and other observation technologies, to include surface and boundary layer observations, so that all domestic users of weather information can receive data in the most efficient and effective manner possible.

Office of Water Prediction (OWP).—The agreement provides no less than \$34,500,000 for OWP, which receives funding across multiple NWS budget lines, and rejects the proposed decrease for OWP within AFS. The agreement maintains the direction adopted in previous fiscal years for NWS to continue to expedite hiring within the National Water Center (NWC) Water Prediction Operations Division and reach full operating capability no later than the end of fiscal year 2022. NOAA shall also continue to transition OWP personnel from other offices to the NWC, as

deemed necessary to improve effectiveness and efficiency. Within 45 days of enactment of this Act, NOAA is directed to provide the Committees with an updated staffing plan for the NWC.

The agreement also provides no less than the fiscal year 2020 enacted level to continue to expedite development of the National Water Model and other next-generation water modeling capabilities, and directs NWS to continue to expeditiously transition the water resources prediction capabilities developed by OWP, including flood inundation mapping products, into operations.

Hydrology and Water Resource Programs.—The agreement recognizes that the clear, present, and increasing threat of water-related hazards demands an increased commitment to and investment in water-related research and development to better support NOAA's existing and growing water-related operational services. Therefore, the agreement includes no less than \$15,000,000 (\$14,000,000 within NWS, Science Technology and Integration; and \$1,000,000 within NOS, Coastal Science and Assessment) for NWS, in collaboration with NOS, to establish a new NOAA Cooperative Institute (CI), by no later than the end of fiscal year 2021, which is to focus solely on helping NOAA address the Nation's growing water-related challenges. The proposed CI should leverage talent and diversity from multiple universities to lead an interdisciplinary, systems-based research approach from mountains to tributaries, lakes and rivers, and ultimately to the coasts that will seed new and improved operational services for NOAA by improving our current understanding of the water cycle and our ability to observe and predict it. The CI shall deliver expertise and resources in the following areas of emphasis: hydroinformatics and community water resources modeling; geographic information systems and remote sensing, including snow depth and soil moisture; coastal inundation modeling and forecasting in collaboration with NOS; data assimilation; computational science and high performance computing; artificial intelligence; and machine learning. The proposed CI shall also prioritize the cultivation of the next-generation of water resources scientists and engineers who will be needed to tackle the grand challenges of 21st century water resources. NOAA should encourage and prioritize submissions from applicants that can demonstrate established collaboration with NOAA's water research programs, led by the National Water Center, as well as those of other pertinent Federal partners, principally the U.S. Geological Survey and Federal Emergency Management Agency.

Dissemination.—The agreement provides \$78,362,000 for Dissemination which shall be used to cover adjustments to base and other mission-critical costs, including those needed to further strengthen and advance the NWS integrated dissemination platform.

National Environmental Satellite, Data and Information Service (NESDIS).—\$291,533,000 is for NESDIS Operations, Research, and Facilities.

NATIONAL ENVIRONMENTAL SATELLITE, DATA AND INFORMATION SERVICE	
Operations, Research, and Facilities (In thousands of dollars)	
Program	Amount
Environmental Satellite Observing Systems:	
Office of Satellite and Product Operations	\$189,099
Product Development, Readiness and Application	28,434
Office of Space Commerce	10,000
U.S. Group on Earth Observations	500
Environmental Satellite Observing Systems	228,033
National Centers for Environmental Information	63,500

NATIONAL ENVIRONMENTAL SATELLITE, DATA AND INFORMATION SERVICE—Continued

Operations, Research, and Facilities
(In thousands of dollars)

Program	Amount
Total, National Environmental Satellite, Data and Information Service, Operations, Research, and Facilities	\$291,533

The agreement adopts the proposed technical transfers to the Office of Satellite and Product Operations, moving operations funded within Cooperative Data and Rescue Services, Satellite Ground Services, and the Office of Projects, Planning and Analysis from Procurement, Acquisition and Construction to Operations, Research, and Facilities. The agreement clarifies House language that Regional Climate Services is provided no less than \$7,000,000, which includes no less than \$4,600,000 for Regional Climate Centers.

Space Commerce.—The agreement approves the request to merge the Office of Commercial Remote Sensing Regulatory Affairs and the Office of Space Commerce (OSC) and provides \$10,000,000 for OSC, which on balance is \$5,900,000 above the fiscal year 2020 enacted level. Within the funding provided, the agreement directs NESDIS and OSC to initiate a space traffic management (STM) pilot program, in collaboration with industry, the Department of Defense, the Federal Aviation Administration, NASA, and other Federal partners, as appropriate, to develop STM technical prototypes, initiate an open architecture data repository, and perform STM demonstrations and experiments. Within 45 days of enactment of this Act, NESDIS shall provide the Committees with a detailed spending plan for the funding provided to OSC.

Mission Support.—\$302,845,000 is for Mission Support Operations, Research, and Facilities.

MISSION SUPPORT

Operations, Research, and Facilities
(In thousands of dollars)

Program	Amount
Mission Support Services:	
Executive Leadership	\$27,078
Mission Services and Management	156,000
IT Security	15,378
Payment to the DOC Working Capital Fund	66,389
Facilities Maintenance and Capital Improvements	5,000
Mission Support Services	269,845
Office of Education:	
BWET Regional Programs	7,750
José E. Serrano Educational Partnership Program with Minority Serving Institutions	20,000
NOAA Education Program Base	5,250
Office of Education	33,000
Total, Mission Support, Operations, Research and Facilities	\$302,845

Sexual Assault and Sexual Harassment (SASH).—The agreement directs NOAA to continue implementing NOAA Administrative Order (NAO) 202–1106 on sexual assault and sexual harassment prevention and provides \$2,000,000 within Mission Services and Management for this purpose. The agreement further encourages the use of carryover funds to expedite the hiring of staff to carry out this work. NOAA shall continue to provide the Committees with a copy of the report required under Section 12.02 of NOAA Administrative Order 202–1106.

NOAA Diversity and Inclusion.—NOAA is directed to take discrete steps to promote racial and cultural acceptance and diversity within its workforce. No later than 180 days after enactment of this Act, NOAA is directed to submit a report analyzing the current racial and cultural makeup of the agency; planned efforts to recruit, retain, and ad-

vance applicants and employees critical to promoting greater racial and cultural diversity, and the outcomes of these efforts; and any additional steps and recommendations planned to promote greater racial and cultural acceptance and diversity throughout the NOAA workforce, including the development and analysis of metrics to evaluate success.

Workforce Succession Planning.—NOAA is directed to provide the Committees, no later than 270 days after enactment of this Act, a report that details: (1) the age composition of NOAA's workforce, to include an assessment of the percentage of staff by line office that are currently retirement eligible or will be within the next five fiscal years; (2) a summary of the agency's current workforce succession plans, including any relevant documentation; and (3) any challenges to succession planning that could be remedied through legislation.

Facilities Maintenance and Capital Improvements.—Within Mission Support, the agreement includes \$5,000,000 in a new PPA, Facilities Maintenance and Capital Improvements, which is to be administered by the Office of the Chief Administrative Officer to address the growing backlog of deferred maintenance and capital improvement needs at NOAA facilities. Before any of these funds may be obligated, NOAA is directed to provide the Committees with a detailed spending plan that explains what projects will be supported with the provided funding, as well as a prioritized list of the backlog of needed facilities repair, improvement, and maintenance projects. NOAA is encouraged to minimize, to the extent practicable, the amount of funds withheld for administrative expenses.

NOAA Environmental Security Computing Center (NESCC).—Within funding provided for Facilities Maintenance and Capital Improvements, NOAA shall consider making necessary upgrades to the NESCC to support future compute needs. Additionally, NOAA, in coordination with the General Services Administration, is encouraged to execute a cost benefit analysis to determine the merit of potentially acquiring the facility.

Office of Marine and Aviation Operations (OMAO).—\$253,665,000 is for OMAO Operations, Research, and Facilities.

OFFICE OF MARINE AND AVIATION OPERATIONS

Operations, Research, and Facilities
(In thousands of dollars)

Program	Amount
Office of Marine and Aviation Operations:	
Marine Operations and Maintenance	\$166,000
Aviation Operations and Aircraft Services	32,000
Autonomous Uncrewed Technology Operations	13,665
NOAA Commissioned Officer Corps	42,000
Total, Office of Marine and Aviation Operations, Operations, Research, and Facilities	\$253,665

For fiscal year 2021, OMAO is directed to follow prior year language on Charter Vessels adopted by Public Law 116–93.

Funding for the NOAA Commissioned Officer Corps.—The agreement accepts the administration's budget proposal to consolidate OMAO funding for the NOAA Commissioned Officer Corps and its supporting functions into a single PPA, as is reflected in the preceding table. In so doing, funding has been transferred from Marine Operations and Maintenance, Aviation Operations and Aircraft Services, and Autonomous Uncrewed Technology Operations to the new PPA. However, on balance, the amount provided for OMAO represents a \$9,250,000 increase above the fiscal year 2020 enacted level.

Mitigating H'i'alakai Operations.—It is noted that even before OMAO operations were disrupted in 2020, no coverage was to be

provided in fiscal year 2020 to assess emerging threats to marine national monuments in the Pacific administered by NOS. OMAO is directed to submit a report on its plan to ensure adequate ship time for this mission no later than 90 days after enactment of this Act.

Monitoring of Atmospheric Rivers.—The agreement provides no less than \$1,500,000 within Aviation Operations and Aircraft Services to better observe and predict atmospheric rivers and encourages the use of unexpended funds for this purpose from fiscal year 2020 to increase atmospheric rivers observations.

Pilot Recruitment and Training.—The agreement directs OMAO to continue programs to recruit and train pilots for service in the NOAA Commissioned Officer Corps, and provides up to the fiscal year 2020 enacted amount for this purpose.

High Altitude Hurricane Hunter Aircraft Back-up.—The agreement supports efforts by NOAA and NASA to establish a memorandum of agreement (MOA) for the NASA Gulfstream-V to serve as a back-up to the NOAA Gulfstream IV-SP Hurricane Hunter aircraft. The Committee expects NOAA and NASA to formalize an MOA as soon as possible, but not later than 90 days after enactment of this Act.

Autonomous and Uncrewed Technology Operations (AUTO).—The agreement provides \$13,665,000 for AUTO, as authorized by the Commercial Engagement through Ocean Technology Act (Public Law 115-394). Within the funds provided, up to \$5,000,000, an increase of \$1,000,000 above the fiscal year 2020 enacted level, may be used to establish and support extramural partnerships for unmanned maritime systems research, development, testing, and training, including any legacy projects previously supported by the Unmanned Aircraft Systems Program Office or the Autonomous Underwater Vehicle Demonstration Testbed. Further, the agreement also provides up to \$3,000,000 to continue data acquisition from unmanned maritime systems (UMS), as defined within Public Law 115-394, as well as for cooperative, competitive research and development of UMSs that can serve as a cost-effective augmentation for relevant research missions and fisheries data collection.

In executing the AUTO program, OMAO is encouraged to continue to coordinate with IOOS regarding use of underwater gliders and leverage partnerships with universities, oceanographic institutions, and other Federal agencies, especially the Naval Meteorology and Oceanography Command and the Naval Undersea Warfare Center.

2021 Hurricane Hunter Flight Hours.—The agreement includes an additional \$2,000,000 within Aviation Operations and Aircraft Services to fund additional hurricane flight hours in fiscal year 2021. There is concern that OMAO's annual aircraft budgeting and scheduling processes are not accounting for the actual annual requirements of the hurricane reconnaissance mission, evidenced by the fact that in each of the three previous fiscal years OMAO has vastly exceeded the number of hours allocated for hurricane reconnaissance on its WP-3D Orion aircraft. Therefore, OMAO is directed to brief the Committees, not later than 90 days after enactment of this Act, on its annual aircraft budgeting and scheduling processes and shall include as part of its fiscal year 2022 budget the number of flight hours supported on each aircraft type within the fleet.

PROCUREMENT, ACQUISITION AND CONSTRUCTION (INCLUDING TRANSFER OF FUNDS)

The agreement includes a total program level of \$1,545,558,000 in direct obligations for NOAA Procurement, Acquisition and Con-

struction (PAC), of which \$1,532,558,000 is appropriated from the general fund and \$13,000,000 is derived from recoveries of prior year obligations. The following narrative and table identify the specific activities and funding levels included in this Act:

PROCUREMENT, ACQUISITION AND CONSTRUCTION (In thousands of dollars)	
Program	Amount
National Ocean Service:	
National Estuarine Research Reserve Construction	\$4,500
Marine Sanctuaries Construction	4,000
Total, NOS—PAC	8,500
Office of Oceanic and Atmospheric Research:	
Research Supercomputing/CCRI	43,500
Total, NOS—PAC	43,500
National Weather Service:	
Observations	15,700
Central Processing	68,000
Dissemination	9,934
Facilities Construction and Major Repairs	10,000
Total, NWS—PAC	103,634
National Environmental Satellite, Data and Information Service:	
Geostationary Systems—R	334,500
Polar Weather Satellites	657,835
Cooperative Data and Rescue Services	14,400
Space Weather Follow On	108,115
COSMIC 2/GNSS RO	5,892
Satellite Ground Services	39,287
Projects, Planning, and Analysis	15,945
Geostationary Earth Orbit	10,000
Systems/Services Architecture and Engineering	38,500
Satellite CDA Facility	2,450
Total, NESDIS—PAC	1,226,924
Mission Support:	
NOAA Construction	43,000
Total, Mission Support—PAC	43,000
Office of Marine and Aviation Operations:	
Fleet Capital Improvements and Technology Infusion	25,000
Vessel Recapitalization and Construction	75,000
Aircraft Recapitalization and Construction	20,000
Total, OMAO—PAC	120,000
Total, Procurement, Acquisition and Construction	\$1,545,558

Judgment Fund Repayment.—The agreement does not provide funding for NOAA to make payments to the Department of Treasury Judgment Fund.

Research Supercomputing.—Within funding provided for Research Supercomputing/CCRI, \$15,000,000 shall be used to continue to develop a dedicated high performance computing facility in collaboration with partners that have existing high performance computing expertise and scientific synergies.

National Weather Service.—The agreement includes the requested amount for NWS Observations to continue the Next Generation Weather Radar and the ASOS Service Life Extension Programs as planned.

Integrated Water Prediction.—The agreement provides an increase of \$1,239,000 above the fiscal year 2020 enacted level for Central Processing under NWS PAC, which includes not less than \$5,739,000 to procure operational high performance computing resources to enable modeling improvements associated with the IWP initiative. With the increased computing resources, the agreement encourages the prioritization of work by NOS, in collaboration with NWS, on IWP and coastal inundation.

Systems/Services Architecture and Engineering (SAE).—The agreement accepts the proposed transfer from the Office of Projects, Planning, and Analysis into SAE. No less than \$2,700,000 is provided for Joint Venture Partnerships with NASA and the commercial sector to leverage emerging capabilities for NOAA's operational use.

The agreement also provides not less than \$4,000,000 above the fiscal year 2020 enacted level for the commercial data purchase and commercial weather data pilot programs, which is to be divided between the two programs as deemed appropriate.

Geostationary Earth Orbit (GEO).—The agreement approves the administration's proposal to create a GEO PPA and has transferred \$10,000,000 from SAE to fund this activity. This funding shall be used to support the start of the GEO Phase A mission concept and technology development activities, including the continuity missions to follow the Geostationary Systems-R series and Space Weather Follow On programs. These activities may include low-cost sensors and CubeSats to advance existing space weather measurement capabilities. Further, NOAA is encouraged to coordinate with NASA to ensure its space weather research is applicable and can be transitioned to NOAA's space weather operations.

Satellite Ground Services.—The agreement provides the requested amount for Satellite Ground Services, including no less than \$5,000,000 for Data-source Agnostic Common Services to utilize data and observations from an increasingly diverse array of partner and commercial systems.

NOAA Construction.—The agreement provides \$43,000,000 for NOAA's highest priority facilities construction, repair, and deferred maintenance requirements. Thirty days before obligating any funds, NOAA shall submit a report detailing how the funds will be expended and an explanation of why these projects were prioritized. NOAA is directed to prioritize funding for infrastructure projects related to marine operations, including facilities to accommodate NOAA research vessels.

There is significant concern that several NMFS laboratories will soon be unable to perform basic scientific functions, given the age of the infrastructure, state of disrepair, and changing physical environments in which they are located. NOAA is therefore encouraged to commence a competitive solicitation process for proposals from academic and nonprofit partners to co-locate NMFS laboratories, as a means of leveraging research efforts and enhancing scientific capabilities.

Vessel Deferred Maintenance and Technology Infusion.—The funding provided above the request for Fleet Capital Improvements and Technology Infusion shall be for deferred maintenance and technology infusion to transition to a progressive maintenance model.

NOAA Ship Ronald H. Brown.—The agreement reiterates House language expressing frustration over the omission of a request for funding in the fiscal year 2021 President's budget request for the midlife maintenance period for NOAA Ship Ronald H. Brown. Maintaining a safe and capable fleet of vessels is a NOAA mission requirement and it is expected that DOC and NOAA will make this a top priority in future budget requests. Not later than 90 days after enactment of this Act, OMAO shall develop and brief the Committees on a plan to allocate funds from within Vessel Recapitalization and Construction to commence the midlife maintenance period for NOAA Ship Ronald H. Brown.

Mission Requirement Costs.—NOAA is directed to document within all of its future budget requests any unfunded mission requirement costs, and particularly those that are necessary to maintain the optimal operational tempo of NOAA assets and posture of NOAA facilities.

Buy American Provisions.—NOAA shall follow prior year direction adopted in Public Law 116-93 regarding Buy American provisions related to marine vessels and marine vessel components. NOAA shall report to the Committees about how this direction has been reflected in current acquisition documents and how it will be incorporated in the Fleet Recapitalization Plan no less than 90 days after enactment of this Act.

Aircraft Recapitalization.—The agreement provides \$20,000,000 to finalize the procurement and modifications of a suitable replacement for the Gulfstream IV-SP Hurricane Hunter aircraft.

Acquisition and Construction Cost Estimation.—The agreement notes with exasperation the continuing trend of NOAA underestimating the costs of major acquisition and construction projects. As such, the agreement directs GAO to conduct an audit, as soon as possible, of NOAA's internal cost estimation procedures to include (1) a review of the extent to which NOAA's cost estimation procedures align with best practices in GAO's Cost Estimating and Assessment Guide, (2) ways in which NOAA can increase the reliability of cost estimates, and (3) specific NOAA projects or components of the NOAA cost estimation process that should be subject to regular oversight by the DOC Office of Inspector General.

PACIFIC COASTAL SALMON RECOVERY

The agreement includes \$65,000,000 for the Pacific Coastal Salmon Recovery Fund (PCSRF) and directs that funds will be available to Tribes without a matching requirement. NOAA is directed to report on how its current priorities meet the intent of the PCSRF to support the recovery and protection of all declining salmon stocks.

FISHERMEN'S CONTINGENCY FUND

The agreement includes \$349,000 for the Fishermen's Contingency Fund.

FISHERIES FINANCE PROGRAM ACCOUNT

The agreement includes language under this heading limiting obligations of direct loans to \$24,000,000 for Individual Fishing Quota loans and \$100,000,000 for traditional direct loans.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The agreement includes \$73,000,000 for Departmental Management (DM) salaries and expenses. The Department is expected to spend within its appropriated amounts.

For fiscal year 2021, the Department is directed to follow prior year report language, included in Senate Report 116-127 and adopted by Public Law 116-93, on Small Business Innovation Research, Rare Earth Elements Manufacturing Cooperative, and Working Capital Funds. House report language regarding Artificial Intelligence (AI) Talent is modified to clarify that these efforts shall be led by NIST, in accordance with House language for NIST on U.S. Leadership in AI.

Staffing Report.—The Chief Financial Officer and the Chief Human Capital Officer of the Department shall continue to provide quarterly briefings to the Committees on all Department-wide human capital issues, to include: a list of funded vacancies, by bureau, type, and location, including the length of time the positions have been vacant; a plan and explanation for addressing each vacancy, including a target for when the vacancy will be filled; and other relevant topics as appropriate.

Salary Lapse.—The Department is directed to provide a detailed accounting of the amounts projected in salary lapse in its fiscal year 2021 spend plan with an explanation of how all anticipated balances will be spent for each component. The Department is directed to provide this information by line offices within NOAA that have a greater than 10 percent vacancy rate as of September 30, 2020. The Department is advised that any amounts insufficiently justified to either augment staff vacancies or support mission critical functions will be considered for rescission in fiscal year 2022.

Department of Commerce Working Capital Fund.—As part of the fiscal year 2022 budget

request, the Department is directed to provide justification that clearly articulates why each Advancements and Reimbursements account and Working Capital Fund project administered by the Office of Acquisition Management, Office of Budget, Office of the Chief Financial Officer and Assistant Secretary for Administration, and Chief of Staff should continue to be funded through the Department of Commerce Working Capital Fund.

Scientific Integrity Policy.—Many are alarmed by the findings of the National Academy of Public Administration (NAPA) investigation titled "An Independent Assessment of Allegations of Scientific Misconduct." The NAPA investigation found that NOAA officials violated the NOAA Scientific Integrity Policy (NOAA Administrative Order 202-735d), specifically the Code of Ethics for Science Supervision and Management, in its issuance of a statement rebuking NWS meteorologists regarding Hurricane Dorian forecasts on September 6, 2019. The NAPA investigation and a similar Inspector General investigation, "Evaluation of NOAA's September 6, 2019, Statement About Hurricane Dorian Forecasts" (OIG-20-032-1), both note the role that Department officials played in the development and release of the statement. However, Department officials are not bound by NOAA's Scientific Integrity Policy. Therefore, the Department is directed to develop a Department-wide Scientific Integrity Policy. The Department Policy should draw upon, but not interfere with, the NOAA Scientific Integrity Policy and ensure that bona fide scientific evidence and results can be presented absent political interference or censorship.

Section 232 Exclusion Process.—The agreement continues to provide funding for the ongoing exclusion process for steel and aluminum tariffs applied under section 232 of the Trade Expansion Act of 1962 (19 U.S.C. 1862), including no less than \$7,000,000 within BIS and \$1,500,000 within DM, and up to \$8,000,000 within ITA. If additional funding for the exclusion process becomes necessary, the Department shall report to the Committees at least 15 days prior to the obligation of funds above the totals specified herein. The Department is directed to exhaust all available options to ensure section 232 activities are funded without causing disruption to component operational needs or trade enforcement priorities previously highlighted in the agreement. Additionally, the Department should ensure section 232 activities are appropriately funded in future year budget requests and clearly show both current services and program increases anticipated to support the program.

Improving Trade Data Reporting.—The Department is directed, in coordination with U.S. Customs and Border Protection, U.S. International Trade Commission, and other relevant agencies, to review and compare methodologies for collecting and publishing gross trade flows data and detailed supply chain data to better document the country of origin for components of each imported good before it reaches U.S. consumers.

RENOVATION AND MODERNIZATION

The agreement includes a total of \$1,123,000 for the Renovation and Modernization account. For fiscal year 2021, the Department is directed to follow prior year report language included in Senate Report 116-127 and adopted by Public Law 116-93 under this heading.

NONRECURRING EXPENSES FUND

The agreement includes \$20,000,000 for the Department of Commerce Nonrecurring Expenses Fund to continue phase one of the financial management and business information technology modernization. The Depart-

ment is directed to provide an updated 5-year budget profile for this project as part of the fiscal year 2022 budget request.

OFFICE OF INSPECTOR GENERAL

The agreement includes a total of \$43,556,000 for the Office of Inspector General (OIG). This amount includes \$34,000,000 in direct appropriations, a \$2,000,000 transfer from USPTO, a transfer of \$3,556,000 from the Bureau of the Census, Periodic Censuses and Programs, and \$2,000,000 from NOAA PAC for audits and reviews of those programs. In addition, \$2,000,000 is derived from the Public Safety Trust Fund for oversight of FirstNet.

The agreement directs the OIG to continue its oversight work on cybersecurity, NOAA satellite and vessel procurements, telework, patent quality, the 2020 Decennial Census, and the business application system modernization. Further, the OIG is directed to continue assessing all of the working capital funds within the Department to evaluate the budgetary controls in place to develop reimbursement formulas, the relationship of reimbursements to client services; the appropriateness of the level of fund balances, and compliance with appropriations law and direction. As part of this assessment, the Inspector General shall pay particular attention to the increasing amounts of funding needed to support the Department's Office of General Counsel (OGC), including the justification and metrics for how such funding is being levied against each agency and, reciprocally, how the agencies account for the services they receive from the OGC. The agreement also recommends the OIG investigate the growth and utilization of the Department's cash balances in its Working Capital Fund and the quality of services provided to the customers.

GENERAL PROVISIONS—DEPARTMENT OF COMMERCE

(INCLUDING TRANSFER OF FUNDS)

The agreement includes the following general provisions for the Department of Commerce:

Section 101 makes funds available for advanced payments only upon certification of officials, designated by the Secretary, that such payments are considered to be in the public interest.

Section 102 makes appropriations for Department of Commerce salaries and expenses available for hire of passenger motor vehicles, for services, and for uniforms and allowances as authorized by law.

Section 103 provides the authority to transfer funds between Department of Commerce appropriation accounts and requires 15 days advance notification to the Committees on Appropriations for certain actions.

Section 104 provides congressional notification requirements for NOAA satellite programs and includes life cycle cost estimates for certain weather satellite programs.

Section 105 provides for reimbursement for services within Department of Commerce buildings.

Section 106 clarifies that grant recipients under the Department of Commerce may deter child pornography, copyright infringement, or any other unlawful activity over their networks.

Section 107 provides the NOAA Administrator with the authority to avail NOAA of resources, with the consent of those supplying the resources, to carry out responsibilities of any statute administered by NOAA.

Section 108 prohibits the National Technical Information Service from charging for certain services.

Section 109 allows NOAA to be reimbursed by Federal and non-Federal entities for performing certain activities.

Section 110 provides the Economics and Statistics Administration certain authority to enter into cooperative agreements.

Section 111 removes the requirement for matching funds for amounts provided in this Act through the Manufacturing Extension Partnership.

Section 112 allows the Secretary of Commerce to waive the cost sharing requirements for funds provided in this Act under sections 306, 306A, and 315 of the Coastal Zone Management Act of 1972.

Section 113 provides transfer authority for the Bureau of the Census to fund facilities renovation and reconfiguration projects.

TITLE II
DEPARTMENT OF JUSTICE
GENERAL ADMINISTRATION
SALARIES AND EXPENSES

The agreement includes \$119,000,000 for General Administration, Salaries and Expenses. In addition, the agreement provides funding for the Department's classified programs as described in the classified annex accompanying this explanatory statement.

For fiscal year 2021, the Department is directed to continue following the directives in Senate Report 116-127, as adopted by Public Law 116-93, on the following topics: "Trafficking in Persons," "Domestic Trafficking Victims Fund Special Assessments," "Human Trafficking Justice Coordinators," "Implementation of the Child Protection Improvements Act (CPIA)," "Constitutional Policing," "Enforcement of Federal Hate Crimes Law," "Combating Domestic Terrorism," "Human Rights Crimes," "Addressing Violence Against Indigenous Women," "U.S. Victims of State Sponsored Terrorism Fund," "Crime Victims Fund Awareness," and "Wildlife Trafficking." The Department shall submit updated reports consistent with the directives.

Strengthening Police-Community Relations.—The agreement provides \$153,500,000 for State and Local Law Enforcement Assistance and Community Oriented Policing Services (COPS) Office grant programs related to police-community relations. This is an increase of \$67,000,000, or 77.45 percent, above the fiscal year 2020 level.

In addition, \$5,000,000 is provided to the Department, through section 222 of this Act, for the development and deployment of a database to track excessive use of force and officer misconduct, as required by section 3 of Executive Order 13929 (June 16, 2020). In developing these databases, the Department is directed to consult with State and local law enforcement agencies, community organizations, and advocacy groups, including those that advocate for the preservation of civil liberties and civil rights. The Department is directed to submit a plan for the use and approval of these funds as part of the fiscal year 2021 spending plan process and to provide quarterly updates following the initial plan submission. The House report language, and associated funding, for a National Police Misconduct Registry is not adopted.

Federal Police Cameras and Accountability.—The agreement supports the October announcement that the Department of Justice (DOJ) will permit State, local, territorial, and Tribal task force officers to use body-worn cameras on Federal task forces around the Nation. The agreement supports the use of the body-worn cameras, and notes that funding has been provided for the Body-Worn Camera Partnership Program since fiscal year 2016. However, there are complex issues associated with the use of body-worn cameras, including data storage costs, access under Federal records laws, and the need for consistent and accountable deployment of such technology by law enforcement agen-

cies. In lieu of the House report language, the agreement supports continued evaluation of their use by DOJ's law enforcement components.

DOJ Task Force Body Camera Pilot Program.—Last year, the Department initiated a pilot program to allow federally deputized task force officers to use body-worn cameras while serving arrest warrants, participating in planned arrest operations, and executing search warrants. The Department is directed to submit a report, not later than 30 days after the date of enactment of this Act, assessing the results of this pilot program. In addition to a programmatic analysis, the report shall describe the resource requirements for continuation and expansion of the pilot.

Responding to Opioids, Methamphetamine, Synthetic Drugs, and Substance Abuse in Our Communities.—The agreement includes a total of \$541,500,000 in dedicated grant program funding, an increase of \$23,500,000 above the fiscal year 2020 enacted level, to help communities and State and local law enforcement respond to substance abuse, including opioids, stimulants, and synthetic drugs. The Drug Enforcement Administration (DEA) is funded at \$2,796,762,000, an increase of \$74,467,000 above the fiscal year 2020 enacted level, to strengthen drug trafficking investigations, including those related to heroin, fentanyl, and methamphetamines. The agreement further supports the continuation of heroin enforcement teams, methamphetamine and fentanyl cleanup and container programs, and other interdiction and intervention efforts, including DEA's 360 Strategy.

Task Force on Law Enforcement Oversight.—The Attorney General is directed to establish a Task Force on Law Enforcement Oversight, to be comprised of representatives from (1) the Civil Rights Division, (2) the Office of Justice Programs, (3) the Office of Community Oriented Policing Services (COPS), (4) the Federal Bureau of Investigation, (5) the Community Relations Service, and (6) the Office of Tribal Justice. The Task Force shall consult with professional law enforcement associations, labor organizations, and community-based organizations to coordinate the process of the detection and referral of complaints regarding incidents of alleged law enforcement misconduct.

The Department is directed to provide up to \$5,000,000 for the activities of the Task Force. In addition, the Department, in its fiscal year 2021 spending plan required by section 528 of this Act, is directed to identify amounts derived from appropriations to "General Administration-Salaries and Expenses", "Legal Activities-Salaries and Expenses, General Legal Activities", "Legal Activities-Salaries and Expenses, Community Relations Service", "Federal Bureau of Investigation-Salaries and Expenses", and amounts derived from management and administration fees assessed by the Office of Justice Programs and the COPS Office, and that will solely be used to support the activities of the task force.

Accreditation of Law Enforcement Agencies.—The agreement supports DOJ's effort to develop and implement consistent accreditation standards for Federal, State, and local law enforcement. Consistent standards, informed by broadly-applicable model guidelines and best practices, can ensure community accountability and promote policing with a guardian mentality. In lieu of the House report language, the Attorney General is directed to take the lead in these efforts, and, in consultation with law enforcement accreditation organizations, recommend broadly-applicable model guidelines and best practices for accreditation standards. The recommendations should be based on an analysis of existing accreditation standards

and methodology developed by law enforcement accreditation organizations nationwide, including national, State, regional, and Tribal accreditation organizations.

Training for Law Enforcement Officers.—The Department of Justice is expected to exercise leadership in law enforcement across the Federal government. Accordingly, in lieu of language in the House Report, the agreement directs the Attorney General to ensure implementation of evidence-based training programs on de-escalation, the use-of-force, and the protection of civil rights that are broadly applicable and scalable to all Federal law enforcement agencies. Such programs should be developed in consultation with the DOJ law enforcement components, the Office of Justice Programs, the Community Oriented Policing Services Office, and the Civil Rights Division, with consideration given to establishing consistent standards and curricula. The Attorney General is further directed to consult with the heads of each Federal law enforcement agency in furtherance of the adoption of these programs. Not later than six months after the date of enactment of this Act, the Department shall submit a report on the implementation status of these training programs, including but not limited to training curriculum topics and availability and capacity of training facility space. Within one year of the date of the enactment of this Act, the Department shall submit a report on its consultations with each Federal law enforcement agency and provide a determination of whether each agency provides training consistent with the aforementioned programs.

The Department's leadership in these matters must also extend to accountability and transparency. The Federal Bureau of Investigation (FBI) launched the National Use-of-Force Data Collection (NUOFDC) on January 1, 2019, and published the 2019 results in August 2020. While all of DOJ's law enforcement components participate in this data collection, only 29 other Federal agencies, or 25.4 percent of Federal law enforcement, participate. The Attorney General and the Director of the FBI are directed to consult with the heads of each Federal law enforcement agency in furtherance of universal Federal participation in the NUOFDC. Within six months of the date of enactment of this Act, the Department shall submit a report on the status of these consultations. Within one year of the date of the enactment of this Act, the Department shall submit a report identifying those agencies that are not participating in the collection, and, in each case, a description of the basis on which the agency declined to do so.

The House reports accompanying each of the fiscal year 2021 appropriations bills included references to training and use-of-force in Federal law enforcement. In lieu of each of those passages, the explanatory statements accompanying the appropriations titles of this division adopt language synchronized with the directives to the Attorney General described above.

Use of Force Incidents.—The agreement strongly supports efforts to promote participation in the NUOFDC by Federal, State, and local law enforcement agencies. In lieu of the House report language captioned "Use of force", the Department and the FBI are directed to submit a report, not later than 180 days after the date of enactment of this Act, with a detailed description of the methods for collecting this data and an assessment of strategies for increasing participation by Federal, State, and local law enforcement agencies. The Department and the FBI are further directed to provide a briefing on the NUOFDC not later than 60 days after the date of enactment of this Act.

DOJ Law Enforcement Agencies' Use of Force Policies.—The Department is directed to review the policies governing the use of deadly force and less-than-lethal force for all of its law enforcement components, including the Bureau of Prisons (BOP), to ensure they are current and meet appropriate guidelines including the Department's own Deadly Force Policy and statutory requirements. The Department is directed to maintain these policies on its website in a clearly accessible location.

Emmett Till Unsolved Civil Rights Crimes Reauthorization Act of 2016.—The agreement includes the full authorized level of \$13,500,000 for DOJ component agencies to implement the Emmett Till Unsolved Civil Rights Crimes Reauthorization Act of 2016.

National Instant Criminal Background Check System (NICS).—The Department shall comply with directions in the House report regarding notifications to State and local authorities; publication of notification data in its annual NICS Section Operations Report and on the Justice Department website; and submission of a report regarding firearms sales that have taken more than three days to complete. The Department is expected to build on its initial efforts to secure certification and implementation plans for the Fix NICS Act of 2018 and is directed to submit the required semiannual report on time. Furthermore, DOJ shall report not later than 30 days after the date of enactment of this Act on how Project Guardian satisfies each element of the NICS denial notification directive adopted by the joint explanatory statement accompanying Public Law 116-93, and the number of notifications provided to date. The FBI shall also, as part of each annual NICS Section Operations Report, provide data on the notifications provided to State and local law enforcement, including the number of notifications provided to each of (a) State law enforcement and (b) local law enforcement, for each prohibited category. The FBI shall also publish monthly data on its website listing denials and notifications by State and prohibition type.

Federal Law Enforcement in the Caribbean.—The Attorney General shall comply with the direction in the House report to report on violent crime initiatives in Puerto Rico and the U.S. Virgin Islands. The Department is directed to assess its strategy for assisting the Commonwealth of Puerto Rico in addressing violent crime and to consider providing additional Federal resources, if appropriate.

Office of Legal Counsel (OLC) Opinions.—In lieu of House report language, the Attorney General is again strongly urged to direct OLC to publish all legal opinions and other materials that are appropriate for publication—in particular those materials that are the subject of repeated requests or that may be of public or historical interest.

Reports on Departmental Funds.—The Department shall continue to submit information on all applicable funds, including the Working Capital Fund, the Three Percent Fund, and the Assets Forfeiture Fund, at the same level of detail provided in fiscal year 2020 and as required by the explanatory statement accompanying Public Law 116-93. In addition, the section 505 notification of the Three Percent Fund allocation submitted to the Committees shall include, for each component receiving Three Percent Fund support, a detailed description of programs, projects, and activities funded through the Three Percent Fund.

Crime Victims Fund (CVF).—The Department shall provide monthly reports regarding CVF balances, deposits, recoveries, and obligations, including obligations associated with the Antiterrorism and Emergency Assistance Program. In addition, the Depart-

ment is directed to submit as part of its annual spending plan a description of the CVF's allocation process, including the release of funds for the purposes of the Children's Justice Act (Public Law 99-401), discretionary grants provided by the Office for Victims of Crime (OVC), the U.S. Attorneys Offices' victim-witness coordinators, and the FBI's victim-witness specialists.

Tribal Sovereign Immunity.—The agreement includes not less than \$50,000 for the Office of Tribal Justice (OTJ) to consult with Tribal entities concerning risk management, loss prevention, the resolution of tort claims, alternative dispute resolution, and protecting and managing Tribal sovereign immunity in the context of economic development. OTJ is directed to report, not later than one year after the date of enactment of this Act, on the best practices for Tribal risk management.

Sexual Harassment Policies.—The Department should be a leader in maintaining a model workplace and is encouraged to collaborate with other Federal agencies on the development of policies regarding sexual harassment and sexual misconduct.

Multi-Disciplinary Task Force Addressing Human Trafficking in International Waters.—The Department has failed to meet the directives and reporting deadlines, including the submission of a final report in March 2019, originally set in Senate Report 115-139 and adopted in appropriations Acts each fiscal year thereafter. The Department is directed to immediately submit all reports and materials that may be responsive to this directive, and to publish the final report on the Department's website not later than 15 days after the date of the enactment of this Act.

Departmental Efforts to Combat Crimes Against Children.—The Department is expected to maintain a cross-agency budget of Crimes Against Children and to report annually to the Committees thereon. As a National Strategy for Child Exploitation Prevention and Interdiction has not been submitted since April 2016, the Department shall immediately submit and publish on its website an updated strategy, as required by 34 U.S.C. 2111(b). The Department shall ensure the position of National Coordinator for Child Exploitation Prevention and Interdiction is dedicated to the role set forth by law, and shall submit a detailed expenditure plan for that office, including staffing, travel, and temporary duty travel expenses not later than 90 days after the date of enactment of this Act and include those costs in future budget submissions.

Improving Intradepartmental Collaboration to Combat Terrorism.—The Department is directed to significantly increase opportunities for its law enforcement components to utilize the National Center for Explosives Training and Research and co-located ranges, and to expeditiously execute inter-agency agreements with respect to range use. The Department is directed to report on its progress in this effort not later than 180 days after the date of enactment of this Act.

DNA Sample Collection from Immigration Detainees.—In lieu of House report language, the Department is directed to report, not later than 90 days after the date of enactment of this Act, on the FBI role in the collection, use, and retention of DNA samples collected on the basis of the final rule "DNA-Sample Collection from Immigration Detainees" (March 9, 2020), and the impact of that policy on FBI DNA sample testing processing rates.

Domestic Terrorism Task Force.—In lieu of the House report language, the agreement encourages the Attorney General, in consultation with the Secretary of Homeland Security, to consider whether a dedicated task force would improve the capacity of the

Federal Government to counter domestic terrorism, and to present legislative recommendations thereon.

Charging Policies for Drug Offenders.—The Department shall immediately submit the detailed report required by the explanatory statement accompanying Public Law 116-93 on charging policies for drug offenders. The Department is encouraged to work with other Federal agencies to gather the required data relating to pre-sentencing reports and drug trafficking cases.

Financial Fraud.—The Attorney General shall continue to prioritize Departmental resources to ensure that reports of financial fraud, including scams against senior citizens, are thoroughly investigated, with the goal of bringing the perpetrators of these crimes to justice.

Robocall Forfeiture Orders.—The Attorney General is directed to prioritize resources toward enforcing FCC forfeiture orders and collecting the substantial unpaid penalties imposed by the FCC against illegal robocallers.

Animal Welfare Enforcement.—The Department shall continue to comply with Congressional direction to prioritize the investigation and prosecution of animal welfare crimes, including those under 7 U.S.C. 2156, 18 U.S.C. 48 and 49, and 49 U.S.C. 80502, and to report not later than 120 days after the date of enactment of this Act on actions it is taking to enforce such laws, including case development and prosecutions based on referrals from the FBI, the U.S. Department of Agriculture Office of Inspector General, and other Federal agencies, as well as specific training related to these types of crimes for both Departmental law enforcement and litigating components. The report shall include the number of prosecutions and seizures, broken out by litigating component and/or district, for fiscal years 2019, 2020, and 2021.

Live Tissue Training (LTT).—The Department is urged to cease the use of LTT. Should additional funding be needed for humane medical simulation, the Department should request this as part of components' budget submissions.

Additional Resources.—The agreement urges the Department to appropriately address the needs arising out of the Supreme Court's decision in *McGirt v. Oklahoma* and directs the Department to continue to make itself available for consultations in support of a sustainable, long-term response.

The direction in the House Report regarding the DOJ review of applications for Federal funding shall have no effect.

JUSTICE INFORMATION SHARING TECHNOLOGY (INCLUDING TRANSFER OF FUNDS)

The agreement includes \$34,000,000 for Justice Information Sharing Technology.

EXECUTIVE OFFICE FOR IMMIGRATION REVIEW (INCLUDING TRANSFER OF FUNDS)

The agreement includes \$734,000,000 for the Executive Office for Immigration Review (EOIR), of which \$4,000,000 is a transfer from the U.S. Citizenship and Immigration Services Immigration Examinations Fee Account. The agreement provides \$61,034,000 above the fiscal year 2020 enacted level and provides \$35,000,000 in no-year funds. EOIR is directed to provide a robust and detailed justification for the continuation of no-year funds in its fiscal year 2022 budget request. The agreement continues the requirement in the explanatory statement accompanying Public Law 116-93 for DOJ to maintain its role in overseeing EOIR's financial management.

Information Technology (IT) Modernization.—Within the amount provided, the agreement expects EOIR to expedite efforts to implement its new electronic case management system and reiterates the direction

in the explanatory statement accompanying Public Law 116-93 for EOIR to upload existing case files into the new system. EOIR shall continue to include updates on its IT modernization projects in its quarterly reports to the Committees. The agreement recognizes EOIR is working in coordination with the Department of Homeland Security (DHS) on a unified immigration portal and directs the Department, in consultation with DHS, to provide an update on its implementation plan for this initiative within 90 days of the date of enactment of this Act. Should any fiscal year 2021 funds be used to support this effort, this report shall provide details thereon.

Interpretation Services.—Within the funds provided, EOIR is directed to properly resource interpretation services, and further directs EOIR to continue to ensure appropriate language access is available for all respondents, including indigenous language speakers. EOIR should inform the Committees of specific resource needs related to interpretation services and should identify any possible opportunities for sharing of interpreter resources with other Federal agencies, including DHS. EOIR is further directed to continue to submit the quarterly reports required by the explanatory statement accompanying Public Law 116-93.

Immigration Adjudication Performance and Reducing Case Backlog.—The agreement adopts the directive in the House report to include more comprehensive staffing information for all positions that compose an immigration judge (IJ) team in its monthly staffing report. The agreement further directs the Department to submit a cost break out for an IJ team, which should include salary, position, interpretation contract costs, and rent and facility costs, in its fiscal year 2021 spending plan and future budget request materials. There should be a standardized baseline for what constitutes an IJ team cost that is clearly understood by the Committees, and when there are significant deviations from the baseline, EOIR shall include this in its quarterly report by court location with justification for the variance. EOIR is further directed to continue to make its hiring processes for new immigration judges publicly available, and to update its website within 30 days of any changes to hiring processes or rules.

Legal Orientation Program (LOP).—The agreement includes \$22,500,000 for services provided by the LOP, of which \$3,500,000 is for the Immigration Court Helpdesk (ICH). LOP funding is also provided for LOP for Custodians (LOPC), the LOP Call Center, and efforts, pursuant to the Trafficking Victims Protection Reauthorization Act of 2008 (Public Law 110-457), to address the responsibility of custodians of unaccompanied, undocumented children to attempt to ensure the child's appearance at all immigration proceedings, and to protect the child from mistreatment, exploitation, and trafficking.

EOIR is directed to continue all LOP components' services and activities without interruption, including during any review of the program, and to ensure all components continue to be operated by non-profit NGOs with demonstrated immigration law expertise. EOIR is further directed, in lieu of the briefing described in the House report, to provide details on the execution of LOP funds as part of the Department's fiscal year 2021 spending plan broken out by LOP program and promptly alert the Committees to any deviation of planned obligations.

The agreement supports efforts to promote access to LOP, with attention to geographic equity and the need for legal services at remote immigration detention sites that are far from legal service providers in urban centers. EOIR is requested to provide an evalua-

tion of the resources necessary to offer LOP services at additional sites.

Video Teleconferencing (VTC).—In lieu of House Report language regarding "Video teleconferencing" and "Tent Court Proceedings", EOIR is directed to update its policy memorandum on the use of VTC, so as to ensure clear and consistent guidelines are followed in all adjudication settings. This update further directs EOIR to make all policies and procedures related to EOIR's use of VTC, including policies for public and media access to each location using VTC publicly available on its website. EOIR shall continue to follow the directives regarding real-time data collection and quarterly reporting described in the explanatory statement accompanying Public Law 116-93.

Court Operations.—In lieu of the House report language, EOIR is encouraged to develop a nationwide plan that details steps EOIR will take to ensure all respondents have access to a centralized mechanism to electronically file an EOIR Form-33 in order to change their address remotely, in addition to the current use of paper filings, and report on the status of this plan to the Committees no later than 90 days after the date of enactment of this Act.

The House report language under "LOP Pilot", "Migrant Protection Protocol (MPP) Statistics Publication" and "Rocket Dockets" is not adopted.

OFFICE OF INSPECTOR GENERAL

The agreement includes \$110,565,000 for the Office of Inspector General.

Status of Recommendations.—The Office of the Inspector General shall provide a briefing to the Committees not later than 30 days after the date of enactment of this Act on the status of recommendations in its December 9, 2019, report and its March 30, 2020, management advisory memorandum related to Foreign Intelligence Surveillance Act applications.

UNITED STATES PAROLE COMMISSION

SALARIES AND EXPENSES

The agreement includes \$13,539,000 for the salaries and expenses of the United States Parole Commission.

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$960,000,000 for General Legal Activities. Within the funding provided, up to \$10,000,000 shall be for the Civil Rights Division for additional expenses relating to the enforcement of 34 U.S.C. 12601; criminal enforcement under 18 U.S.C. 241-242; and administrative enforcement by the Department of Justice, including compliance with consent decrees or judgments entered into under such sections.

Human Trafficking.—The agreement strongly supports the Department's efforts to combat human trafficking, including its participation in the interagency Anti-Trafficking Coordination (ACTeam) Initiative and the activities of the Civil Rights Division's Human Trafficking Prosecution Unit (HTPU). Within the funding provided, DOJ is directed to provide additional staffing and resources for these efforts. The Department is directed to submit a report, not later than 90 days after the date of enactment of this Act, describing hiring within HTPU, training provided by HTPU as part of the ACTeam initiative, and causes of the decline in human trafficking prosecutions.

Civil Rights Violations in State and Local Prisons and Jails.—Within the funding provided, the Civil Rights Division shall increase efforts to investigate and address violations of the Civil Rights of Institutional-

ized Persons Act in State and local prisons and jails.

VACCINE INJURY COMPENSATION TRUST FUND
The agreement includes a reimbursement of \$17,000,000 for DOJ expenses associated with litigating cases under the National Childhood Vaccine Injury Act of 1986 (Public Law 99-660).

SALARIES AND EXPENSES, ANTITRUST DIVISION
The agreement includes \$184,524,000 for the Antitrust Division (ATR). This appropriation is offset by an estimated \$150,000,000 in premerger filing fee collections, resulting in a direct appropriation of \$34,524,000.

High-speed Internet Access.—In lieu of the House report language, the agreement directs ATR to provide a briefing, not later than 30 days after the date of enactment of this Act, on the status of competition in the telecommunications industry, including in rural areas.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The agreement includes \$2,342,177,000 for the Executive Office for United States Attorneys and the 94 United States Attorneys' offices, of which \$25,000,000 shall remain available until expended. Within the funding provided, up to \$10,000,000 shall be for additional expenses relating to the enforcement of 34 U.S.C. 12601; criminal enforcement under 18 U.S.C. 241-242; and administrative enforcement by the Department of Justice, including compliance with consent decrees or judgments entered into under such sections.

In lieu of the House report language captioned "Credible Fear" and "Immigration enforcement data", DOJ is directed to continue to submit quarterly reports, by U.S. Attorney's Office, on defendants who are charged with violations of 8 U.S.C. 1325 and 8 U.S.C. 1326.

UNITED STATES TRUSTEE SYSTEM FUND

The agreement includes \$232,361,000 for the United States Trustee Program.

Disclosure Requirements.—The United States Trustee Program (USTP) is encouraged to continue its efforts to ensure a fair and transparent bankruptcy process for stakeholders and for the public. USTP shall submit a report, not later than 180 days after the date of enactment of this Act, describing its efforts to enforce compliance with the disclosure requirements of Bankruptcy Rule 2014(a) in fiscal years 2020 and 2021. The report should describe the number and nature of the actions taken, provide illustrative examples, and include an assessment of overall compliance with Rule 14(a) disclosure requirements by bankruptcy professionals.

SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

The agreement includes \$2,366,000 for the Foreign Claims Settlement Commission.

FEES AND EXPENSES OF WITNESSES

The agreement includes \$270,000,000 for Fees and Expenses of Witnesses.

The Department is expected not to obligate funds for expert witness services, including the payment of fees and expenses of expert witnesses, from any other DOJ accounts other than Fees and Expenses of Witnesses.

SALARIES AND EXPENSES, COMMUNITY RELATIONS SERVICE (INCLUDING TRANSFER OF FUNDS)

The agreement includes \$18,000,000 for the Community Relations Service.

ASSETS FORFEITURE FUND

The agreement includes \$20,514,000 for the Assets Forfeiture Fund.

UNITED STATES MARSHALS SERVICE SALARIES AND EXPENSES

The agreement includes \$1,496,000,000 for the salaries and expenses of the United

States Marshals Service (USMS). The Department shall continue to submit the quarterly report required by the explanatory statement accompanying Public Law 116-93, on USMS use of Assets Forfeiture Fund funding.

Regional Fugitive Task Forces Program (RFTF).—USMS is directed to submit a report, not later than 180 days after the date of enactment of this Act, on the possible expansion of the RFTF program. This report should describe requirements with respect to staffing, operational space and agreements, equipment, tactical canine teams, medical and trauma support and partnerships, and expected future resource needs. The report should further identify the geographic regions that would benefit most from establishment of an RFTF.

International Operations.—The USMS is directed to submit an updated annual report on its extradition program and international operations workload as directed by the explanatory statement accompanying Public Law 116-93. The report should detail the number of extraditions, deportations, district cooperations, and extradition requests made by foreign counterparts. The report should further describe any plans for expansion to locations where USMS does not yet have a permanent presence, but where there has been an increase in workload due to extraditions. DOJ is directed to assess unobligated resources available Department-wide, and to submit a reprogramming of funding, if required, to cover the full costs of meeting USMS' international extradition responsibilities.

Judicial Protection.—The agreement supports USMS's efforts to place additional deputy U.S. marshals and accompanying analytical personnel in the field, and to provide expanded training for threat investigations and protective intelligence. Within funding provided, the agreement includes the amount jointly requested by the Department and the Judicial Conference of the United States for replacement of the Home Intrusion Detection Systems (HIDS), and further provides additional support for open source intelligence initiatives in the Office of Protective Intelligence.

Training Efficiencies.—USMS is directed to assess whether consolidation of its training programs in one centralized location could streamline training operations and deliver efficiencies and savings. USMS is further directed to submit a report on its findings, as well as estimates of the resource requirements to implement such consolidation, not later than 90 days after the date of enactment of this Act.

CONSTRUCTION

The agreement includes \$15,000,000 for construction and related expenses in space controlled, occupied, or utilized by the USMS for prisoner holding and related support.

FEDERAL PRISONER DETENTION

The agreement includes \$2,046,609,000 for Federal Prisoner Detention (FPD).

The Department and USMS are expected to anticipate the true funding needs for the FPD account, to avoid funding shortfalls and emergency reprogrammings. USMS is directed to submit a monthly report on individuals in the detention system. The report should include information on the current and projected number of detained individuals, offense categories, the population change from the prior month to the current month, the population change from the current month to the prior year, and the associated annualized costs.

NATIONAL SECURITY DIVISION

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$117,451,000 for the salaries and expenses of the National Security Division.

INTERAGENCY LAW ENFORCEMENT

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The agreement includes \$550,458,000 for the Organized Crime and Drug Enforcement Task Forces (OCDETF), of which \$385,188,000 is for investigations and \$165,270,000 is for prosecutions.

Within funding provided, the Department is encouraged to hire additional Assistant U.S. Attorneys nationwide to help stop the flow of illicit drugs and reduce violent crime associated with the drug trade. In addition, OCDETF is urged to continue to coordinate with the DEA and other Federal and international law enforcement partners to intercept and disrupt foreign drug shipments.

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

The agreement includes \$9,748,686,000 for the salaries and expenses of the FBI, including \$1,832,876,000 for Intelligence, \$3,944,462,000 for Counterterrorism and Counterintelligence, \$3,376,355,000 for Criminal Enterprises and Federal Crimes, and \$594,993,000 for Criminal Justice Services. Within the funding provided, the agreement includes not less than \$125,000,000 to increase the capacity and efficiency of the National Instant Criminal Background Check System (NICS). Within the funding provided, up to \$5,000,000 shall be for the Public Corruption and Civil Rights Sections for additional expenses relating to the enforcement of 34 U.S.C. 12601; criminal enforcement under 18 U.S.C. 241-242; and administrative enforcement by the Department of Justice, including compliance with consent decrees or judgments entered into under such sections.

The agreement also includes funding at no less than the fiscal year 2020 level to support the FBI role at the National Bioforensic Analysis Center and to maintain its ongoing operations there. House report language on gun violence data is not adopted.

National Incident-Based Reporting System (NIBRS) Transition.—The FBI shall brief the Committees, not later than 90 days after the date of enactment of this Act, on the status of efforts to integrate NIBRS and the data it contains into the Uniform Crime Reporting Program, and provide progress reports every 180 days thereafter. The FBI shall also comply with directions in the House report regarding collection and publishing of crime statistics from all United States jurisdictions, including U.S. territories.

Data Analytics and Technical Tools.—The agreement includes additional resources to support the FBI's efforts to develop enterprise technical tools, modernize its network infrastructure, and improve its data analytics capabilities. Within the funds provided, the FBI is encouraged to explore opportunities to collaborate with research universities on advanced threat analysis, to develop advanced data analytics solutions that are tailored to the needs of FBI investigators.

Cyber Investigative Capabilities.—The agreement supports the FBI's cyber investigative capabilities, including the development of advanced technical capabilities to thwart enemies and to bolster the Cyber Action Teams (CATs) that deploy to sites of computer intrusion. Within the funds provided, the FBI is encouraged to develop partnerships with universities to develop and institute an evidence-based training program to more rapidly identify persons of interest, de-conflict

information, track criminal markets, and detect matters that rise to the level of national security.

Combating Modern Slavery and Human Trafficking.—The FBI is directed to continue to designate a lead agent in each field office as a Human Trafficking Program Coordinator. In addition, the FBI is urged to allocate additional resources to those field offices in States with the highest rates of modern slavery and human trafficking. Not later than 180 days after the date of enactment of this Act, the FBI shall submit a report on those field offices' capacity to investigate all crimes of slavery and human trafficking in their jurisdiction. The report should further detail any additional resources that have been provided to those field offices for these efforts.

Hate Crimes Reporting.—The FBI shall expeditiously submit the report required by the explanatory statement accompanying Public Law 116-93, on FBI efforts to ensure that all Federal, State, and local law enforcement agencies fully report hate crimes statistics, consistent with the Hate Crime Statistics Act of 1990 (Public Law 101-275) as amended, and the Matthew Shepard and James Byrd, Jr. Hate Crimes Prevention Act (Public Law 111-84).

Counter-Unmanned Aerial System (C-UAS).—The FBI is directed, through the Critical Incident Response Group and in consultation with the Federal Aviation Administration, to submit a report, not later than 180 days after the date of enactment of this Act, on the feasibility of establishing a C-UAS training program for State, local, and Tribal law enforcement. The report shall further detail the resource requirements for full-scale implementation of a C-UAS training program.

Terrorist Explosive Device Analytical Center (TEDAC), Hazardous Device School (HDS), and New Facilities.—The agreement strongly supports the FBI's efforts to create a campus for collocating FBI explosives and counter-IED programs and activities; to create advanced and specialized training capacities and capabilities to address requirements that cannot be satisfied at other FBI facilities; and to create options for FBI Executive management to proactively meet future operational and facilities requirements. The agreement provides no less than the fiscal year 2020 level for the operations of TEDAC and HDS. Furthermore, the agreement fully provides for the operations of new, collocated facilities expected to open in 2021, including the Operations Building, the Technology Building, and the TEDAC Explosive Technical Lab.

Human Rights Violations.—The FBI shall continue to investigate and support DOJ criminal prosecution of serious human rights crimes, including genocide, torture, use or recruitment of child soldiers, war crimes, and other crimes committed by serious human rights violators, at no less than the fiscal year 2020 enacted level, and shall continue to comply with direction in the explanatory statement accompanying Public Law 116-93, regarding the International Human Rights Unit, the Human Rights Violators and War Crimes Center, and FBI field office training. The FBI shall report on these efforts no later than 90 days after the date of enactment of this Act.

Security Advisory Opinion (SAO) Processing.—The FBI shall prepare an updated report on SAO processing, as required by the explanatory statement accompanying Public Law 116-93, to include any classified data, and submit it to the Committees not later than 120 days after the date of enactment of this Act.

National Data Exchange (N-DEX) System.—The FBI shall report not later than 120 days after the date of enactment of this Act on

which Criminal Justice Information Services databases, including N-Dex, are used for point-of-contact (POC) initiated firearm background checks; what barriers, if any, prevent incorporating N-Dex into POC background check processes, and how to overcome them; and how to raise State and local awareness of N-Dex.

NICS Protocols and Procedures.—The FBI shall submit a report, not later than 180 days after the date of enactment of this Act, describing how the FBI is addressing each recommendation in the OIG report “Audit of the Handling of Firearms Purchase Denials Through the National Instant Criminal Background Check System” (Audit Division 16-32). If the FBI is not implementing a recommendation, the report shall indicate whether the FBI intends to do so, and if not, the justification for not pursuing the recommended course of action. The report shall also identify any changes made to the Standard Operating Procedures to better process NICS inquiries within the three-day time period. All unclassified data shall be publicly released by the FBI.

FBI Police.—The FBI is encouraged to provide the Office of Personnel Management or other relevant agencies information or data required to assist with designating FBI Police officers as law enforcement officers in order to make their rates of basic pay, salary schedule, pay provisions, and benefits equivalent to those applicable to other similar law enforcement divisions that have such designation.

Internet Investigations.—The FBI and its partners investigate massive Internet-based child exploitation and human trafficking forums, which requires robust information sharing and technical tools to acquire evidence from the Darknet and other forums for prosecution. The FBI is directed to consider novel partnership and contracting strategies, along with its 21st Century training and technology initiatives, to acquire, develop, and implement advanced technical solutions to more rapidly exploit digital evidence and intelligence related to investigations targeting human trafficking and child exploitation efforts, both domestic and international.

Operational Medicine Program.—The agreement adopts the House report language on the Operational Medicine Program, and encourages the FBI to provide regular updates on this program and submit any recommendations for improvements.

CONSTRUCTION

The agreement includes \$566,100,000 for FBI construction, which provides funding above the requested level for the FBI to address its highest priorities outside of the immediate national capital area, in addition to resources dedicated to secure work environment projects. The agreement does not include any funding for headquarters construction. The FBI is encouraged to work with the General Services Administration to submit a prospectus for a new, fully-consolidated headquarters building, including at one of the three previously vetted sites, which complies with prior Congressional directives and meets all Interagency Security Committee Level V security standards.

21st Century Facilities.—The agreement continues to support the FBI’s long-term vision for collocating complementary mission operations while balancing the eventual transition into a new headquarters building with changing footprints at Quantico, Clarksburg, Huntsville, and Pocatello facilities. The delay in the new FBI headquarters project only exacerbates the need to secure viable space for supporting a variety of mission, workforce, and land requirements. The agreement provides funding at no less than

the fiscal year 2020 enacted level to further support the FBI’s 21st Century Facility plans, and the FBI is encouraged to transition from interim facilities to full operating capabilities, including plans for technological requirements. As part of this 21st Century Facility planning, the FBI should continue to research the feasibility of using public-private partnership opportunities, provided that the annual lease and operating costs are reasonable and the facilities can be securely constructed and maintained at a level that meets the FBI’s requirements.

DRUG ENFORCEMENT ADMINISTRATION

SALARIES AND EXPENSES

The agreement includes a direct appropriation of \$2,336,263,000 for the salaries and expenses of the DEA. In addition, DEA expects to derive \$460,499,000 from fees deposited in the Diversion Control Fund to carry out the Diversion Control Program, resulting in \$2,796,762,000 in total spending authority for DEA. The agreement includes \$10,000,000 to assist State, local, and Tribal law enforcement agencies in efforts to remove and dispose of hazardous materials at methamphetamine and fentanyl labs and processing operations. DEA is encouraged to issue regional contracts with small businesses, to the maximum extent practical, from the region served by the contract.

Remote Prescribing of Controlled Substances.—DEA is directed to complete the requirements under section 3232 of the SUPPORT for Patients and Communities Act (Public Law 115-271) to promulgate regulations clarifying the limited circumstances in which Special Registration for Telemedicine may occur under the Ryan Haight Act (Public Law 110-425). DEA is further directed to brief the Committees on the status of these regulations not later than 30 days after the date of enactment of this Act.

Special Agent Staffing.—The agreement supports DEA’s efforts to reverse the decline in special agent staffing to combat the ongoing methamphetamine and opioid crises, particularly in geographic areas most broadly harmed by methamphetamine and opioid trafficking.

Hemp Testing Technology.—DEA has developed field testing kits that can distinguish between hemp and marijuana on-the-spot. DEA is directed to continue to work to ensure State and local law enforcement have access to this field test technology so they can more efficiently conduct their drug interdiction efforts at the local level. DEA is further directed to report back, not later than 180 days after the date of enactment of this Act, and not less than every 6 months thereafter, until such time as testing kits are deployed to State and local law enforcement in the field.

Interdiction of Methamphetamines.—DEA is encouraged to consider whether Operation Crystal Shield should be expanded to additional U.S. locations that may serve as methamphetamine trafficking transportation hubs.

Delivery of a Controlled Substance by a Pharmacy to an Administering Practitioner.—DEA is directed to provide a briefing, not later than 30 days after the date of enactment of this Act, on its implementation of section 3204 of Public Law 115-271, and to ensure that providers and patients have access to all medication-assisted treatment options to address the opioid epidemic. This update should detail DEA’s efforts to inform providers and dispensers of the new provisions and how they apply to FDA-approved opioid dependence treatment products.

Illegal Tetrahydrocannabinol (THC) Vaping Products.—DEA is directed to report, not later than 180 days after the date of enactment of this Act, on its efforts to interdict

illicit vaping cartridges containing THC. This report shall assess how and to what extent such products are being marketed to children.

CONSTRUCTION

Expanded Laboratory Capacity in Order to Meet Testing Demands.—DEA field offices face a growing unmet demand for drug testing, particularly when division, district, and resident offices are not located in close proximity to a testing laboratory in the DEA Laboratory System. This issue is a critical risk for areas of the country that have been hardest hit by increases in synthetic drugs, including fentanyl, as well as rural offices or those divisions that do not have their own laboratories, as agents must drive long distances to reach the nearest laboratory for testing. The agreement provides \$50,000,000 to construct a new laboratory, including other required facilities like warehouse space, to meet the growing needs for drug testing, including fentanyl, in the New England region.

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES

SALARIES AND EXPENSES

The agreement includes \$1,483,887,000 for the salaries and expenses of the Bureau of Alcohol, Tobacco, Firearms and Explosives.

Crime Gun Intelligence Centers (CGICs).—There are currently 25 CGIC sites across the country and ATF is encouraged to work with additional high-risk areas to identify solutions and metrics to demonstrate meaningful reductions in illegal gun trafficking and related violent crime.

United States-Mexico Firearms Trafficking.—ATF is directed to continue to provide to the Committees the information required by the explanatory statement accompanying Public Law 116-93.

Notification of Local Authorities.—ATF is encouraged to, when possible, notify local law enforcement when a felon in their jurisdiction tries to buy a firearm. If a NICS check is not completed within three days and a felon obtains a firearm, ATF is encouraged to notify and utilize the help of local law enforcement in retrieving the firearm.

House report language under “Illegal Firearms” and “Ghost Guns” is not adopted.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$7,708,375,000 for the salaries and expenses of the Federal Prison System. The agreement fully funds the requested \$409,483,000 for programs and activities authorized by the First Step Act of 2018, including medication-assisted treatment.

For fiscal year 2021, within the funding provided, the Department is directed to continue following the directives in Senate Report 116-127, as adopted by Public Law 116-93, on the following topics: “First Step Act (FSA) Implementation,” “Additional Requirements of the FSA,” “Residential Re-entry Centers,” and “Freedom of Information Act Records”.

BOP is expected to hire additional full-time correctional officers in order to reduce the overreliance on augmentation and improve staffing beyond mission-critical levels in custody and all other departments, including medical, counseling, and educational positions. BOP shall provide quarterly reports to the Committees on the use of augmentation broken out by region, institution, and security level for each time such practice is employed. In addition, BOP shall include with its fiscal year 2022 budget submission, and each year thereafter, a detailed report for each Federal correctional facility at

which two or more Federal inmates have died in one calendar year, describing each incident and the role augmentation may have played in exacerbating the inherent dangers present at those locations.

Hiring, Staffing, and Inmate-to-Officer Ratios.—BOP shall continue to submit quarterly reports on inmate-to-correctional officer ratio as required by the explanatory statement accompanying Public Law 116-93, and to publish these reports on the BOP website. To the extent BOP does not currently record staffing by shift, it is directed to begin doing so and include such metrics in this report by the end of fiscal year 2021. Separately, BOP shall submit a report to the Committees regarding any incident involving the use of deadly force at an institution with a staffing ratio greater than 15:1, explaining any role staffing levels may have played in the incident, and describing a detailed plan to prevent recurrence of such incidents.

Vacancies.—BOP is directed to improve hiring policies to ensure that, within the funding provided, it can promptly fill existing and future vacancies in order to staff its 122 Federal facilities at January 2016 levels, and forgo further position eliminations. BOP shall report not later than 90 days after the date of enactment of this Act on the number of vacancies at each facility, further detailed by job title, job series, and General Schedule level as well as the number of applicants going through the hiring process for each vacant position. DOJ is directed to explore ways to expedite BOP hiring, such as working with OPM to provide expedited hiring for BOP facilities with vacancy rates exceeding ten percent and making use of recruitment and retention bonuses. BOP shall describe such efforts in the aforementioned report.

BOP is directed to continue to ensure at least two correctional officers are on duty for each housing unit for all three shifts at all high-security institutions, including United States Penitentiaries and Administrative and Federal Detention Centers. BOP is directed to continue to submit quarterly reports showing compliance with this directive and to provide a cost estimate and strategic plan for implementation at medium-security institutions that currently do not have a second officer for all three shifts.

Inmate Health Care.—GAO is directed to examine inmate healthcare, including, but not limited to: the percentage of inmates that receive medical assistance under a State plan under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.); inmate access to healthcare services and providers, including specialty care; the quality of healthcare services provided to inmates; the percentage of inmates who, upon release, are enrolled under such a State plan and connected to a primary care provider in their community; and trends in the prevalence and incidence of illness and injury among inmates.

Inmate Mental Health Care and Restrictive Housing.—BOP is encouraged to continue to develop evidence-based policies and appropriate facilities to enable BOP to operate safely while properly caring for inmates with mental illness, and to expeditiously submit its report on the resolution of recommendations from the July 2017 OIG report on ways to improve BOP screening, treatment, and monitoring of inmates with mental illness in restrictive housing units. BOP is also directed, within the funding provided, to reduce the number of Federal inmates in restrictive housing, including by opening transition units and other specialized units for populations often sent to restrictive housing, and by working with regional directors and wardens to address the widespread reliance on restrictive housing.

Contraband Cell Phones in Prison Facilities.—The agreement supports the budget re-

quest for contraband cellphone detection technology. BOP is directed to submit, not later than 180 days after the date of enactment of this Act, either a detailed plan for the deployment of a whole-complex jamming pilot, or an exhaustive explanation of the rationale, including health and safety considerations, that would necessarily preclude such a deployment.

Land Mobile Radio (LMR) Communications.—BOP is directed to develop a plan to update its LMR and video security systems in facilities where aging communications infrastructure and equipment pose a threat to officer safety, and to submit the plan to the Committees not later than 180 days after the date of enactment of this Act.

Medication-Assisted Treatment (MAT).—BOP shall consider all three forms of FDA-approved MAT as it expands access, and is expected to continue hiring healthcare staff, including physicians, pharmacists, nurses, and drug counselors, in order to properly meet inmates' medical needs, including those receiving MAT. BOP is directed to continue to report quarterly on the number of individuals who are screened for MAT, are seeking MAT, have received MAT, or are on a wait list for MAT. These categories should be further broken out by institution or residential reentry center (RRC) and type of MAT.

Procurement of Food Products.—BOP is directed to report to the Committees not later than 30 days after the date of enactment of this Act on how it is implementing the recommendations in the March 2020 OIG Management Advisory Memorandum on food procurement to ensure such food meets contract specifications and does not endanger the health of inmates and staff. BOP is further directed to examine how it can leverage contracts and services with local and regional businesses, including farmers, ranchers, food processors and other food vendors in order to lower costs while providing higher quality meals, and report on its findings not later than 180 days after the date of enactment of this Act.

Inmate Access to Mail.—BOP is directed to implement and expand solutions, like those that allow photographs or handwritten letters to be scanned and reprinted at secure off-site locations and mailed directly to a correctional facility, or allow digital photographs and letters to be uploaded through a website or app and then printed at and mailed from a secure location, which are capable of eliminating the risk of contraband while maintaining inmates' access to mail from friends and family. Such solutions should not require additional equipment or changes to current infrastructure, should address any specific concerns relating to legal mail, and should ensure the highest degree of fidelity between the facsimiles and the originals. BOP is further directed to report, not later than 180 days of the date of enactment of this Act, on the status of mail scanning pilot programs currently occurring at two institutions, the resources needed to further expand solutions to mitigate the threat of contraband in mail to inmates, and to identify those resources requirements in its fiscal year 2022 budget request.

Subsistence Fees.—In lieu of House section 551, BOP is directed to report to the Committees, no later than 60 days after the date of enactment of this Act, on its current and planned efforts to notify persons in RRCs of the procedures for applying for subsistence fee waivers.

Communicable Diseases and Prisons.—The incarcerated population faces significantly higher risks of acquiring a communicable disease. BOP policy requires that prison protocols include an assessment of inmate immunizations and the provision of basic med-

ical care, including hepatitis B and C testing and treatment, as well as preventive health services such as immunizations. However, the OIG reported in 2016 that some BOP facilities were not complying with this policy. The Department is directed to report not later than 270 days after enactment of the Act on the progress of efforts to achieve compliance with the protocols since the 2016 OIG report. The report should identify gaps in services and barriers to provision of immunization services; identify potential collaborations with health organizations to address identified disparities; and recommend ways to close them.

Home Confinement.—In lieu of the House report language, the agreement directs BOP to submit a report, not later than 60 days after the date of enactment of this Act, on home confinement and compassionate release. This report shall address the eligibility determination process, as well as implementation of home confinement-related provisions of the First Step Act and the Attorney General's memoranda dated March 26, 2020 and April 3, 2020. The report should further provide an update required by the explanatory statement accompanying Public Law 116-93.

BUILDINGS AND FACILITIES

The agreement includes \$127,000,000 for the construction, acquisition, modernization, maintenance, and repair of prison and detention facilities housing Federal inmates. BOP shall proceed with ongoing planned and associated new construction efforts to meet projected capacity requirements, as identified in its monthly status of construction reports to the Committees. BOP is directed to continue to provide such reports on a monthly basis, along with notifications and explanations of any deviation from construction and activation schedules, and any planned adjustments or corrective actions.

Modernization and Repair (M&R) of Existing Facilities.—BOP is expected to apply the funding to reduce its longstanding M&R backlog, and is directed to prioritize funding for repairs that protect life and safety, and at facilities assessed as having deficiencies of a geological and seismic nature. BOP shall continue to provide monthly status of construction reports and notify the Committee of any changes reflected in those reports. BOP is further directed to continue providing a schedule and timeline for repairs of facilities with geological and seismic deficiencies and include updates in the monthly M&R reports.

LIMITATION ON ADMINISTRATIVE EXPENSES, FEDERAL PRISON INDUSTRIES, INCORPORATED

The agreement includes a limitation on administrative expenses of \$2,700,000 for Federal Prison Industries, Incorporated.

STATE AND LOCAL LAW ENFORCEMENT ACTIVITIES

In total, the agreement includes \$3,385,300,000 for State and local law enforcement and crime prevention programs. This amount includes \$2,950,300,000 in discretionary budget authority, and \$435,000,000 derived by transfer from the Crime Victims Fund. The agreement also includes \$119,000,000 scored as mandatory for Public Safety Officer Benefits.

For fiscal year 2021, the Department is directed to continue following the directives required by Public Law 116-93, on the following topics: "Management and Administration Expenses," "Grant Funds for Rural Areas," "Science Advisory Board," "Post-Conviction Relief for Trafficking Victims," "Consent Decrees and Grant Assistance," and "Peer-to-Peer Training."

Sufficient Number of Qualified Applicants.—OJP is directed to submit an annual report on grant programs that have not received a sufficient number of qualified applicants.

Submission of Officer Training Information.—The Department has been directed to collect data on officer training each subsequent year as part of both the Edward Byrne Memorial Justice Assistance Grants (Byrne-JAG) and COPS Hiring application processes, including the number and rank of officers trained, as well as the type of training, including use of force, de-escalation, racial and ethnic bias, and community engagement. This data was directed to be provided to BJS in order to begin a data set on officer training. The public report and publication of a data set, required by Public Law 116-93, is overdue, and the Department is directed to release it immediately.

Grant Funding Set-Asides.—The Department is directed to continue providing a comprehensive report as described in Public Law 116-93 concurrently with the spending plan regarding grant set-asides.

Tribal Grants and Victim Assistance.—The agreement provides a total of \$92,500,000 in discretionary grant funding for Tribes as follows: \$46,000,000 within the Office of Justice Programs (OJP) for Tribal assistance; \$10,000,000 for a Tribal youth program within the Office of Juvenile Justice and Delinquency Prevention (OJJDP); \$29,500,000 for Tribal Resources and \$3,000,000 for a Tribal Access Program within the Community Oriented Policing Services (COPS) Office; and \$4,000,000 for a special domestic violence criminal jurisdiction program within the Office on Violence Against Women (OVW). In addition, a total of \$52,589,255 is provided to Tribal governments and Tribal coalitions in OVW funding as part of set-asides determined by program statute. For Tribal assistance grants within OJP, funding is to be used to support efforts to help Tribes improve the capacity of their criminal and civil justice systems. OJP is expected to consult closely with Tribal stakeholders in determining how Tribal assistance funds will be awarded for detention facilities, including outdated detention facilities that are unfit for detention purposes and beyond rehabilitation; courts; alcohol and substance abuse programs; civil and criminal legal assistance; and other priorities. OJP is directed to submit, as part of the Department's spending plan for fiscal year 2021, a plan for the use of these funds that is informed by such consultation.

The agreement also includes a 5 percent set-aside for Tribes within the CVF. OVC is directed to consult closely with Tribal stakeholders to improve services for Tribal victims of crime, to include expanded purpose areas described in the OVC final rule effective August 8, 2016. OVC shall continue to follow direction required by Public Law 116-93 regarding grant application requirements, accountability, and assistance. The Department is directed to give Tribes maximum flexibility in use of funds in order to best meet the unique needs of victims in Tribal communities. The Department is also directed to streamline administrative requirements as much as possible to increase accessibility for those most in need in Indian Country.

Human Trafficking in Indian Country.—The Department is encouraged, in coordination with the Departments of the Interior and Health and Human Services, to work to address the need for and impact of Federal grant assistance regarding human trafficking in Indian Country, to ensure that Federal dollars are used effectively and efficiently. The Department is directed to report, not later than 180 days after the date of enactment of this Act, on its efforts to coordinate Federal grant programs to address trafficking in Indian Country. This report should compile data on the severity of the problem and the impact of grant assistance and identify instances of high administrative costs or burdens within programs.

STOP School Violence Act Grants.—In lieu of House report language on school design, the Department is encouraged to continue its ongoing work with the Departments of Homeland Security and Education through the School Safety Clearinghouse, which facilitates and coordinates interagency efforts to assess and share best practices related to school security resources, technologies, and innovations as well as identify safe school design practices for use by education agencies, law enforcement agencies, schools, architects, and engineers. The agreement includes a total of \$132,000,000 for STOP School Violence grants, and this funding is directed to be distributed for covered purpose areas provided under the STOP School Violence Act of 2018.

DOJ Grant Oversight.—The Department is encouraged to review its multi-year grant award processes and protocols to ensure grantees have fully complied with the rules of year-one funding before year-two funding is disbursed in multi-year grant awards, and to continue efforts to identify high-risk grantees, so as to increase fiscal responsibility throughout the grant making process. It is recommended that the Department promptly complete and publish an internal review of the program, to inform efforts to implement a high-risk grantee designation in other Federal agencies.

OFFICE ON VIOLENCE AGAINST WOMEN
VIOLENCE AGAINST WOMEN PREVENTION AND
PROSECUTION PROGRAMS
(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$513,500,000 for the Office on Violence Against Women. These funds are distributed as follows:

VIOLENCE AGAINST WOMEN PREVENTION AND PROSECUTION PROGRAMS (In thousands of dollars)	
Program	Amount
STOP Grants	\$215,000
Transitional Housing Assistance	40,000
Research and Evaluation on Violence Against Women	2,500
Consolidated Youth-Oriented Program	12,000
Grants to Encourage Arrest Policies	53,000
Homicide Reduction Initiative	(4,000)
Sexual Assault Services Program	41,000
Rural Domestic Violence and Child Abuse Enforcement	45,000
Violence on College Campuses	20,000
Civil Legal Assistance	47,000
Elder Abuse Grant Program	5,500
Family Civil Justice	18,000
Education and Training for Disabled Female Victims	6,500
National Resource Center on Workplace Responses	1,000
Research on Violence Against Indian Women	1,000
Indian Country—Sexual Assault Clearinghouse	500
Tribal Special Domestic Violence Criminal Jurisdiction	4,000
Rape Survivor Child Custody Act	1,500
Total, Violence Against Women Prevention and Prosecution Programs	\$513,500

Community-Based Organizations.—In lieu of the House report language regarding Community-Based Organizations, the Department shall submit a report to the Committees on the number of community-based organizations that provide culturally specific services and the amounts allocated to these organizations in fiscal years 2018, 2019, and 2020, as well as estimates for fiscal year 2021. The Department shall report this information to the Committees not later than 90 days after the date of enactment of this Act.

Grants to Encourage Arrest Policies.—The agreement supports survivor safety and recovery, and service coordination, for improving the criminal justice response to domestic violence, dating violence, sexual assault and stalking. In executing the Grants to Encourage Arrest Policies/Improving the Criminal Justice Response program, the Department is expected to make funding under this program open to all eligible entities, including victim service providers consistent with the statutory authority.

Statutory Set-Asides.—The underlying statutes for several grant programs, including the Services, Training, Officers Prosecutors (STOP) Formula Grant Program and the Sexual Assault Services Formula Grant Program (SASP), outline set-asides for Tribal governments and coalitions, culturally specific community-based organizations, and organizations providing services to underserved populations. These set-asides will provide a total of \$69,899,255 for fiscal year 2021 with \$52,589,255 for Tribal governments and coalitions, \$11,950,000 for culturally specific organizations and \$5,360,000 to meet the needs of underserved populations. OVW shall ensure that the full amounts provided for in the authorizing statutes are released to these groups expeditiously.

OFFICE OF JUSTICE PROGRAMS
RESEARCH, EVALUATION AND STATISTICS
The agreement provides \$82,000,000 for the Research, Evaluation and Statistics account. These funds are distributed as follows:

RESEARCH, EVALUATION AND STATISTICS (In thousands of dollars)	
Program	Amount
Bureau of Justice Statistics	\$45,000
Data Collection on Police Suicide	(3,000)
National Institute of Justice	37,000
Research on Domestic Radicalization	(6,000)
Research of School Safety	(1,000)
Research to Reduce Trauma for Child Pornography Victims	(1,500)
National Model for Reducing Incarceration Rates	(4,000)
Research on C-UAS	(2,000)
Total, Research, Evaluation and Statistics	\$82,000

The agreement does not adopt House report language regarding a study addressing delayed law enforcement response to investigators' questions and an evaluation of data on stops and searches.

Spending Plans.—The Department is directed to submit, as part of its spending plan for State and Local Law Enforcement Activities, a plan for the use of all funding administered by the National Institute of Justice (NIJ) and the Bureau of Justice Statistics (BJS), respectively, for approval by the Committees prior to the obligation of any such funds.

Study on Reducing Racial Disparities.—In lieu of House language, the Department is directed to award a research grant for an evidence-based, nonpartisan analysis of existing evidence to examine how observed racial and ethnic disparities in the justice system might be reduced through public policy. The study should be awarded via a competitive grant process open to all applicants to promote the most rigorous research to be applied to this important question.

Law Enforcement Management and Administrative Statistics (LEMAS) Survey.—BJS is directed to immediately begin the next installment of the LEMAS survey if it has not already done so, in order to complete publication by September 30, 2021. BJS is further directed to submit a plan to publish this data on a more regular schedule, and to identify the resources necessary for that purpose, not later than 90 days after the date of enactment of this Act.

Pretrial Detention.—In lieu of House report language regarding pretrial detention, it is expected that the results from the National Pretrial Reporting Program (NPRP), and Local Jails Reporting Program (LJRP) will fill the gap in currently collected data on the pretrial population and produce estimates of the demographic breakdown, types of offenses, and bail characteristics of the pretrial population.

Prison Suicide Incidence Report.—In lieu of House report language regarding Prison Suicide Incidence Reporting, the BJS shall submit to the Committees a report detailing a

comprehensive statistical review and analysis of the incidence of prison suicide not later than 180 days after the date of enactment of this Act. The statistical review and analysis should include the identification of the common characteristics of victims of prison suicide and prisons and prison systems with a high incidence of prison suicide. In addition, the Department is directed to include recommendations for possible mitigation strategies and changes to Federal laws and regulations.

Death in Custody Reporting Act (DCRA).—In a December 2018 report, the OIG examined DCRA compliance and found that BJS had abandoned three different proposals for data collection, thereby delaying the process until fiscal year 2021. BJS is requested to publish the collections for fiscal years 2017, 2018, 2019, and 2020 by September 30, 2021. If that deadline cannot be met, BJS must notify the Committees as to the reason for the delay.

Research to Reduce Trauma for Child Pornography Victims.—The agreement provides \$1,500,000 for NIJ to administer a competitive grant to an accredited research university for a study of best practices to reduce the trauma of children affected by child pornography investigations. While some best practices have been adopted by law enforcement agencies who investigate these crimes, often referrals, access, and utilization of services for child victims remains sporadic and inconsistent. As a result, this study should produce a report with concrete recommendations for improving and synchronizing law enforcement best practices for ensuring child victims' well-being during and after the investigation into the crime.

National Model for Reducing Incarceration Rates for Minor Parole Violations.—Poor coordination within the criminal justice system, coupled with a lack of support systems for affected individuals, can result in unnecessary incarceration rates, create a heavy financial burden for States and localities, and impose employment losses and societal costs on the incarcerated and their friends and family. To address these issues, this agreement includes \$4,000,000 for grants to academic partners who can design and test models, to expedite judicial review for technical violations of supervision, while linking individuals to evidence-based services that address the root causes of recidivism. Grantees should work to produce and test models that can be replicated on a national scale.

Research on Counter Unmanned Aircraft Systems (C-UAS).—This agreement supports the Department's efforts to address and mitigate the threats to public safety and national security caused by UAS. This agreement includes \$2,000,000 for NIJ to support the research, testing, and evaluation of C-UAS in DOJ law enforcement operations. The agreement recommends this research, testing, and evaluation be conducted with Federal Aviation Administration-designated UAS Test Sites.

Understanding the Effects of Human Trafficking.—Within the funds provided, NIJ is directed to develop and conduct studies consistent with those required by section 201(a)(1) of the Trafficking Victims Protection Act of 2005 (34 U.S.C. 20701(a)(1)). Furthermore, this agreement reiterates the Committees' previous direction for NIJ to conduct a study on the physical and psychological effects of severe forms of human trafficking, as required by section 20 of Public Law 115-392. NIJ is directed to provide a status report on this study not later than 30 days after the date of enactment of this Act.

Interruption of Health Care Coverage in Pre-Trial Settings.—NIJ is encouraged to study the impact of the interruption of medical, mental health, and addiction treatment cov-

erage in pre-trial settings on individuals' health coverage, reentry, and on State and local criminal justice budgets.

Data-Driven Policing and Courts.—NIJ is encouraged to fund multi-year grants to educational institutions that have shown excellence in criminal justice data-driven analysis and decision-making, implementation science, and training. Grant recipients should focus on increasing utilization of data interventions proven effective and backed by research findings at the State and local level, and on developing systems to standardize courts and corrections data. Applicants should propose how they would work with surrounding States to develop a regional profile on crime and criminal justice and serve as a repository for data that can be readily used for program solving, analysis, and evaluation.

Correctional Education Evaluation.—NIJ is directed to establish a public-private partnership with research and correctional institutions to collect and evaluate data to continue to advance the research on the impact of correctional education on recidivism.

Research on Gunshot Detection Technology (GDT).—In lieu of the House report language regarding gunshot detection, the Committees note that funding provided to NIJ in fiscal year 2015 supported a research project titled, "Evaluating Gunshot Detection Technology to Aid in the Reduction of Firearms Violence". The results of this project were published in September 2019 as NCJ Number 254283, and this report is publicly available online. NIJ is encouraged to update this research effort, including the review of new advancements in GDT technology and the expanded number of site locations.

Data on Police Suicide.—BJS was directed to start the process of maintaining a data set on police suicide for Federal, State, and local law enforcement by Public Law 116-93. As with the data collection on officer training described under "Submission of Officer Training Information" under State and Local Law Enforcement Activities, the Department is directed to request that State and local law enforcement report on police suicides within their agencies as part of both the Byrne-JAG and COPS Hiring Program application processes. As BJS also maintains the DCRA data collection, the methods used for DCRA could also be applied to gain data on police suicide. The agreement provides \$3,000,000 to assist with this effort and directs that BJS brief the Committees, not later than 60 days after the date of enactment of this Act, on the status of this data collection, methods for obtaining better data from law enforcement agencies, and ongoing resource needs. A public report with full data analysis is to be released by September 30, 2021, and data shall be collected and published annually.

STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE (INCLUDING TRANSFER OF FUNDS)

The agreement includes \$1,914,000,000 for State and Local Law Enforcement Assistance programs. These funds are distributed as follows:

STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE (In thousands of dollars)

Program	Amount
Byrne Memorial Justice Assistance Grants	\$484,000
Officer Robert Wilson III VALOR Initiative	(13,000)
Smart Policing	(8,000)
Smart Prosecution	(8,000)
NamUS	(2,400)
Officer Training for Responding to People w/Mental Illness/Disability	(7,500)
John R. Justice Grant Program	(2,000)
Prison Rape Prevention and Prosecution	(15,500)
Kevin and Avonte's Law	(3,000)
National Center on Forensics	(4,000)

STATE AND LOCAL LAW ENFORCEMENT ASSISTANCE— Continued (In thousands of dollars)

Program	Amount
Project Safe Neighborhoods	(20,000)
Capital Litigation & Wrongful Conviction Review	(7,000)
Community Based Violence Prevention	(14,000)
National Center for Restorative Justice	(3,000)
Ashanti Alert Network	(1,000)
Family Alternative Sentencing Pilots	(3,500)
Child Advocacy Training	(1,000)
Rural Violent Crime Initiative	(7,000)
Managed Access Systems	(2,000)
Family Friendly Visitation Spaces in Prisons/Jails	(2,000)
State Criminal Alien Assistance Program	244,000
Victims of Trafficking Grants	85,000
Economic, High-tech, White Collar and Cybercrime Prevention	12,000
Intellectual Property Enforcement Program	(2,500)
Internet of Things	(2,000)
Adam Walsh Act Implementation	20,000
Patrick Leahy Bulletproof Vest Partnership Grant Program	30,000
Transfer to NIST/OLES	(1,500)
National Sex Offender Public Website	1,000
National Instant Criminal Background Check System (NICS) Initiative	85,000
NICS Acts Record Improvement Program	(25,000)
Paul Coverdell Forensic Science	33,000
DNA Initiative	141,000
Debbie Smith DNA Backlog Grants	(110,000)
State, Local and Federal Forensics Activities	(19,000)
Kirk Bloodworth Post-Conviction DNA Testing Grants ..	(8,000)
Sexual Assault Forensic Exam Program Grants	(4,000)
Community Teams to Reduce the Sexual Assault Kit (SAK) Backlog	48,000
CASA—Special Advocates	12,500
Tribal Assistance	46,000
Second Chance Act/Offender Reentry	100,000
Smart Probation	(6,000)
Children of Incarcerated Parents Demo Grants	(5,000)
Project HOPE Opportunity Probation with Enforcement ..	(4,500)
Pay for Success	(7,500)
Anti-Opioid Initiative	394,000
Drug Courts	(83,000)
Mental Health Courts	(35,000)
Residential Substance Abuse Treatment	(34,000)
Veterans Treatment Courts	(25,000)
Prescription Drug Monitoring	(32,000)
Comprehensive Opioid, Stimulant, and Substance Abuse Program	(185,000)
Keep Young Athletes Safe Act of 2018	2,500
STOP School Violence Act	79,000
Emmett Till Grants	2,000
Hate Crimes Prevention Act Grants	5,000
Community Trust Initiative	90,000
Body Worn Camera Partnership Program	(35,000)
Justice Reinvestment Initiative	(33,000)
Byrne Criminal Justice Innovation Program	(22,000)
Total State and Local Law Enforcement Assistance	\$1,914,000

For fiscal year 2021, DOJ is directed to follow prior year report language, included in Senate Report 116-127 and adopted in Public Law 116-93, on "Capital Litigation Improvement and Wrongful Conviction Review", "Project Safe Neighborhoods", "Group Violence Intervention (GVI)", "Gunfire Detection Technology", "Grants to Combat Human Trafficking", "Patrick Leahy Bulletproof Vest Partnership Grant Program", "Sexual Assault Kit Initiative", and "Keep Young Athletes Safe Act".

Law Enforcement Training.—In lieu of House report language regarding law enforcement training, the agreement recognizes that training with regard to use of force, racial profiling, implicit bias, procedural justice, efforts to gain accreditation, development of uniform standards, implementation of innovative law enforcement and non-law enforcement strategies, and the establishment of crisis intervention teams can be among the permissible uses of Byrne-JAG funding.

High-Risk Vehicle Events.—The National Incident-Based Reporting System (NIBRS) data collection currently captures a subset of deaths or injuries associated with vehicular pursuits, including deaths or injuries to law enforcement officers and deaths of suspects. In lieu of House report language regarding data on high-risk vehicle events, BJS is encouraged to study the feasibility of developing a data collection process that more accurately captures the number of deaths and injuries from police pursuit and high-risk vehicle events, and include an analysis of the potential obstacles to capturing such data as well as data on bystanders injured or killed during police pursuits.

Smart Policing.—The agreement includes \$8,000,000 for Smart Policing. DOJ is directed to prioritize applications for the development of real-time crime centers in communities with high rates of violent and gun crime.

Officer Training on Responding to People with Mental Illness or Disabilities.—The agreement includes \$7,500,000 for a competitive grant program to award grants to State and local law enforcement and correctional entities to educate, train, and prepare officers so that they are equipped to appropriately interact with mentally ill or disabled individuals in the course of completing their job responsibilities. This training should be developed in conjunction with healthcare professionals to provide crisis intervention training focused on understanding mental and behavioral health, developing empathy, navigating community resources, de-escalation skills, and practical application training for all first responders. OJP is expected to track the results of this grant program in order to better establish best practices for law enforcement agencies. OJP is directed to submit a plan for implementing this grant program as part of the fiscal year 2021 spending plan.

National Center on Forensics.—The agreement includes \$4,000,000 for a National Center on Forensics. The National Center on Forensics shall be housed at an accredited university of higher education, with medical and law schools affiliated within the same university system, and work in partnership with a full-service and independent State department of forensic science with a medical examiner function, that is located in the same State as the partner accredited university. The Center is to provide medico-legal learning opportunities for medical students to train as deputy medical examiners/coroners in underserved rural areas; provide forensic science and legal training to district attorneys, judges, and law enforcement; and develop opportunities as appropriate among the designated partners to benefit current and future practitioners in the field.

National Center on Restorative Justice.—The agreement provides \$3,000,000 to continue a partnership with an accredited university of higher education and/or law school for the purposes of supporting a National Center on Restorative Justice to educate and train the next generation of justice leaders. The Center shall also continue to support research focusing on how best to provide direct services to address social inequities, such as simultaneous access to substance abuse treatment and higher education. Further, the Center shall expand educational opportunities for those under sentence and in a court-supervised substance abuse program, and, through research and evaluation, the Center shall disseminate reports on the impact of attitudes, recidivism, and costs of the educational initiatives.

Ashanti Alert Act Implementation.—The agreement includes \$1,000,000 for continued efforts to implement the Ashanti Alert Act (Public Law 115-401) in order to further establish this network that assists regional and local search efforts in locating missing adults. This funding shall be provided to directly assist State and local government and law enforcement in order to develop or expand their missing adult communications networks. OJP is directed to submit, no later than 90 days after the enactment of this Act, a status report on continued Ashanti Alert Act implementation.

Family-Based Alternative Sentencing Pilot Programs.—Several States have recently implemented family-based alternative sentencing pilot programs for parents, typically primary caregivers, who have been convicted of non-violent offenses. These programs

allow parents to remain with their dependent children while receiving services, including drug treatment, job training, and counseling, rather than being incarcerated. The agreement includes \$3,500,000 for grants in support of such programs, to demonstrate the extent to which these programs can reduce costs to the criminal justice and foster care systems. OJP is directed to provide a plan for this grant program to the Committees not later than 45 days after enactment of this Act.

Child Advocacy Training.—The Report of the Attorney General's National Task Force on Children Exposed to Violence acknowledged the need to include curricula in post-secondary educational programs to ensure that every child- and family-serving professional receives training in multiple evidence-based methods for identifying and screening children for exposure to violence. The agreement includes \$1,000,000 for a competitive grant program to support child advocacy training in undergraduate programming and continuing education. The grants should support the training of future mandated reporters and child protection professionals and support efforts across the country to train child protection professionals in the field, including law enforcement officers, social workers, mental and medical health professionals, and prosecutors.

Rural Violent Crime Initiative.—The agreement includes \$7,000,000 for a rural violent crime initiative, with grants to be awarded on a competitive basis to small law enforcement agencies in rural locations. Grants are to support improved training and technology, expanded community-based crime prevention programs, and partnerships with victim service providers. This initiative is intended to improve communication and collaboration between State, local, and Tribal law enforcement agencies and the communities they serve, to address the unique criminal justice challenges in rural areas.

Community-Based Violence Prevention (CBVP).—The agreement includes \$14,000,000 for CBVP and directs that these funds support evidence-based and data-driven intervention, prevention, and deterrence focused initiatives that aim to reduce violence. These initiatives should be focused on areas that are disproportionately impacted by violent crime including areas experiencing high rates of illegal firearms arrests and homicides. Projects are to be competitively awarded and require close collaboration among law enforcement, service providers, and community-based organizations. Projects shall employ community-based strategies including conflict mediation, street outreach, GVI, and hospital-based violence intervention programs associated with homicide reductions.

Drug-Detection Canines.—The rise of drug trafficking, including that of methamphetamines, within the United States and along our borders has created increased demand for drug-detection canines for local and State law enforcement. The Department is reminded that the purchase of drug detection canines is a permissible use of Byrne-JAG grant funds. The Department is directed to, where possible, further clarify within other existing programs, including the AFF's Equitable Sharing Program, that canines are a permissible use of Federal funding.

Combating Contraband Cell Phones in Prisons and Jails.—OJP is directed to publicize that managed access systems and other mitigation technologies are a permissible use of Byrne-JAG funds, including through statements on its website, in 'FAQs,' and in Byrne-JAG solicitations. OJP is further directed to report, as part of its fiscal year 2021 spending plan, on the efforts it will take to

promote awareness of these systems in future Byrne-JAG award cycles.

Fentanyl Detection.—DOJ is encouraged to support the use of grant funds, such as Byrne-JAG funds, for the purchase of fentanyl detection equipment and training as well as naloxone distribution for law enforcement safety.

Internet of Things Device Capabilities.—Currently, no database exists of capabilities of Internet of Things devices, for training on options and best practices for handling of evidence to meet judicial standards and privacy concerns. To meet this need, \$2,000,000 shall be dedicated for a separate competitive grant program in order to provide four awards of not less than \$500,000 each for institutions of higher learning that provide training in computer forensics and digital investigation to develop a database on Internet of Things device capabilities and to build and execute training modules for law enforcement.

Paul Coverdell Forensic Science.—The agreement provides a total of \$33,000,000, of which \$17,000,000 is to specifically target the challenges the opioid and synthetic drug epidemic has brought to the forensics community, as required by the explanatory statement accompanying Public Law 116-93.

Compliance with Statutory Requirements.—Section 3 of the Justice for All Reauthorization Act of 2016 (Public Law 114-235) requires that, for fiscal year 2021, not less than 75 percent of the amounts made available to the Attorney General for a DNA Analysis and capacity enhancement program and for other local, State, and Federal forensic activities be provided for grants for activities described under paragraphs (1), (2), and (3) of section 2(a) of the DNA Analysis Backlog Elimination Act of 2000 (Public Law 106-546). OJP is directed to comply with this requirement by ensuring that at least 75 percent of the amount appropriated for these programs is awarded for these purposes. Additionally, the Justice Served Act of 2018 (Public Law 115-257) requires that not more than 7 percent and not less than 5 percent of the funds allocated for the Debbie Smith DNA Backlog Grant Program be used for grants for prosecutors to increase the capacity of State and local prosecution offices to address cold cases involving violent crime, where suspects have been identified through DNA evidence. The Department is directed to implement the Justice Served Act of 2018 in accordance with the clear intent of Congress, and to ensure that not more than 7 percent and no less than 5 percent of the funds provided under the Debbie Smith program are allocated for the purpose of increasing the capacity of State and local prosecutors to address cold cases.

Second Chance Act (SCA) Grants and Drug Treatment.—SCA funding is expected to support grants that foster the implementation of strategies that have been proven to reduce recidivism and ensure adults released from prisons and jails safely and successfully reenter their communities. The agreement supports the Office of Management and Budget's scoring mechanism for SCA grant funding as it relates to opioid abuse and the heroin epidemic. In addition, when awarding SCA grants, OJP is directed to consider the impact of reentry of prisoners on communities in which a disproportionate number of individuals reside upon release from incarceration. OJP shall assess the reentry burdens borne by local communities and local law enforcement agencies; review the resources available in such communities to support successful reentry and the extent to which those resources are used effectively; and make recommendations to strengthen the resources in such communities which are available to support successful reentry and

to lessen the burden placed on such communities by the need to support reentry.

Project HOPE Institute.—The agreement provides \$4,500,000 for Project HOPE, of which not less than \$500,000 shall be directed to establishing a Project HOPE Institute to provide training, technical assistance, and best practices for jurisdictions replicating the HOPE model. As this same funding level was provided in fiscal year 2020, OJP is directed to submit a report, no later than 90 days after the enactment of this Act, describing the efforts to establish a Project HOPE Institute and the assistance provided in replicating the HOPE model.

Comprehensive Addiction and Recovery Act (CARA) Programs.—OJP is directed that funding for the Comprehensive Opioid, Stimulant, and Substance Abuse Program (COSSAP) be focused on prevention and education efforts, effective responses to those affected by substance abuse, and services for treatment and recovery from addiction. Of the \$185,000,000 for COSSAP, no less than \$11,000,000 shall be made available for additional replication sites employing the Law Enforcement Assisted Diversion (LEAD) model, with applicants demonstrating a plan for sustainability of LEAD-model diversion programs; no less than \$5,500,000 shall be made available for education and prevention programs to connect law enforcement agencies with K–12 students; and no less than \$10,500,000 shall be made available for embedding social services with law enforcement in order to rapidly respond to drug overdoses where children are impacted.

OJP is encouraged to ensure that funds provided for residential substance abuse treatment for State prisoners are being used to treat underlying mental health disorders, in addition to substance abuse disorders. Within the funding provided for drug courts, OJP is encouraged to give attention to States and localities that have the highest concentrations of opioid-related cases, and to prioritize assistance to underserved areas whose criminal defendants currently have relatively little opportunity to access drug courts and coordinate, as appropriate, with other Federal agencies such as the Department of Health and Human Services, as it implements these activities in order to avoid duplication. OJP is directed to include appropriate long-acting medications, including injectable anti-psychotic medication, as an allowable expense to improve treatment adherence and reduce risk for relapse and re-incarceration.

Additionally, the Department is urged to provide funding in accordance with section 14002 of the 21st Century CURES Act of 2016 (Public Law 114-255) for court-ordered assisted outpatient treatment as authorized in law. Finally, the 21st Century CURES Act authorized the funding of Forensic Assertive Community Treatment (FACT) Initiatives as part of the adult and juvenile collaboration program grants. OJP is encouraged to make funding available for FACT Initiatives within these programs.

Body-Worn Camera Partnership Program.—It is recommended that jurisdictions continue to: (1) develop camera policies and procedures with community input; (2) commit to a set of narrow and well-defined purposes for which cameras and their footage may be used; (3) specify clear operational policies for recording, retention, and access; (4) require training for both the proper use of body-worn cameras and for the handling and use of the obtained video and audio recordings; (5) ensure that prior to use of body-worn cameras, privacy and data retention policies are already in place; and (6) as appropriate, make footage available to promote accountability with necessary privacy safeguards. In addition, OJP is requested to update the Body-

Worn Camera Toolkit on an annual basis with any new information, data, and best practices and keep it publicly available on its website.

Justice Reinvestment Initiative (JRI).—Jurisdictions may use the JRI to reduce recidivism; control the size of corrections populations, either incarcerated or on community supervision; reduce crime; and create budgetary solutions to better balance correctional costs within a State's budget. Justice reinvestment is used to implement data-driven strategies to improve public safety by reducing corrections spending and reinvesting those savings in efforts to decrease crime and strengthen neighborhoods. Funding may be used to provide technical assistance to States with existing justice reinvestment programs to further such programs; provide technical assistance to additional States to expand the justice reinvestment initiative to those jurisdictions; or provide funding to States with existing justice reinvestment initiatives to expand or enhance the State's self-identified justice reinvestment initiative goals. Justice reinvestment funds shall not be restricted by Federal agencies for use on specific programs or policy initiatives, and States shall be permitted to establish their own priorities within the justice reinvestment framework.

Sexual Assault Kit Initiative (SAKI).—Within the amounts provided in this agreement, OJP shall provide competitively awarded grants with a comprehensive community-based approach to assist with the reduction of the backlog of untested rape kits at law enforcement agencies. OJP is further directed to provide a report, no later than 90 days after enactment of this Act, on its progress in developing a strategy and model to serve as best practices for discovering and testing kits, training law enforcement, and supporting victims throughout the process as required by Public Law 113-235.

JUVENILE JUSTICE PROGRAMS

The agreement includes \$346,000,000 for Juvenile Justice programs. These funds are distributed as follows:

JUVENILE JUSTICE PROGRAMS (In thousands of dollars)

Program	Amount
Part B—State Formula Grants	\$67,000
Emergency Planning—Juvenile Detention Facilities	(500)
Youth Mentoring Grants	100,000
Title V—Delinquency Prevention Incentive Grants	49,000
Prevention of Trafficking Girls	(2,000)
Tribal Youth	(10,000)
Children of Incarcerated Parents Web Portal	(500)
Girls in the Justice System	(3,000)
Opioid Affected Youth Initiative	(10,000)
Children Exposed to Violence	(8,000)
Victims of Child Abuse Programs	30,000
Missing and Exploited Children Programs	94,000
Child Abuse Training for Judicial Personnel	3,500
Juvenile Indigent Defense	2,500
Total, Juvenile Justice	\$346,000

For fiscal year 2021, the Department is directed to continue following the directives as required by Public Law 116-93, on the following topics: "Implementation of the Juvenile Justice Reform Act of 2018", "Juvenile Diversion Programs", and "ICAC Training".

Part B: State Formula Grants.—OJP is directed to submit as part of its spending plan for State and Local Law Enforcement Activities a plan for the administration of Part B State Formula Grants, including details pertaining to the formulas utilized in awarding grants under this heading. OJP is further directed to submit a report not later than one year after the date of enactment of this Act describing the types of programs that grantees are using their formula grant funding to support.

DOJ is urged to encourage Title II grant recipients to coordinate with their State

education agencies to support continuity of education opportunities for adjudicated youth and to continue its efforts to institute reforms to ensure States' compliance with the Title II core requirements. The Department shall report to the Committees on these efforts not later than 60 days after the date of enactment of this Act.

Arts Programs and Therapies for At-Risk and Justice-Involved Youth.—The agreement supports the use and implementation of arts-based programs and therapies at various points in the juvenile justice system as a way to work collaboratively across sectors to achieve system improvements and positive outcomes for youth. As a result, OJJDP is directed to review opportunities to include arts-based methods for prevention, diversion, and residential grant programs, and to provide a report to the Committees, not later than 90 days after the date of enactment of this Act, on the OJJDP programs providing options for these programs and therapies.

Youth Mentoring Grants.—Within the funds provided for Youth Mentoring Grants, \$16,500,000 is for helping youth impacted by substance abuse, including opioids and methamphetamine. OJJDP is expected to take all steps necessary to ensure fairness and objectivity in the award of these and future competitive grants. OJP and OJJDP are expected to maintain expanded eligibility for local mentoring programs, particularly in rural areas, unaffiliated with national mentoring organizations. OJP and OJJDP are also expected to collaborate with mentoring stakeholders to expand youth mentoring services in rural areas inordinately affected by substance abuse and that are considered at-risk.

Victims of Child Abuse Act.—For the various programs authorized under the Victims of Child Abuse Act (Public Law 101-647), OJJDP is directed to ensure that not less than 90 percent of the grants awarded are for the purposes of developing and maintaining children's advocacy centers (CAC), including training and accreditation. OJJDP is further directed to ensure the funds intended to support local CACs are used efficiently with the highest percentage possible of Federal funding expended for local CAC organizational capacity, which is essential for the effective support of implementing the multidisciplinary response to child abuse investigation, prosecution, and intervention services. Within the funds provided, \$5,000,000 shall be for Regional Children's Advocacy Centers (RCACs) Programs.

The agreement supports efforts by CACs to use their unique model and expertise to help military installations address cases of child abuse, and again provides \$1,000,000 from within the funds provided to continue to support a pilot project to identify, develop, and operationalize best practices. As this effort has been funded since fiscal year 2017, OJJDP is directed to report on the status of this pilot, including the locations of CACs and military installations working together, the number of children served through these partnerships, and lessons learned from this pilot program.

Missing and Exploited Children Programs.—With the exception of funding directives, direction in the House report on Missing and Exploited Children Programs stands. The agreement includes \$94,000,000 for these programs and the Department is directed to distribute the increased amount proportionally among Missing and Exploited Children programs, excluding research and technical assistance activities.

Furthermore, OJP is directed to provide a plan for the use of these funds as part of the Department's spending plan for fiscal year 2021, which shall include investments in authorized national programs that serve as a resource center and clearinghouse on missing and exploited children, task force grants,

and administrative costs for the Internet Crimes Against Children (ICAC) program.

Within the funds provided in this agreement for the AMBER Alert program, no less than \$4,400,000 is for the operation and activities of the existing AMBER Alert program. Of the funds provided for AMBER Alert activities, \$1,000,000 shall be directed to addressing State/Tribal integration consistent with the findings of the report directed by Public Law 115-166.

OJJDP is directed to continue to provide for the development of IT solutions to address both duplicative tips and law enforcement deconfliction, to ensure that only high-quality information is being provided to law enforcement agencies, including ICAC task forces, as required by the explanatory statement accompanying Public Law 116-93.

Within the funds provided in this agreement, \$3,000,000 shall be for a competitive grant award program to increase the technological investigative capacity, and associated training of law enforcement, to support the development, refinement, and advancement of widely used investigative tools, methods and technologies that address child pornography, exploitation, and sex trafficking, as previously directed in fiscal years 2018, 2019 and 2020. OJJDP is further directed to expand efforts to provide advanced skills training for ICAC officers.

ICAC Structure.—OJJDP is directed to submit a report, not later than 120 days after the date of enactment of this Act, describing how the ICAC program can be better structured to ensure consistency across the 61 task forces. Issues to be addressed include, adherence to standardized operating procedures; deconfliction processes with other Federal, State, local, and Tribal law enforcement agencies; the best way to prioritize investigations; and the possibility of establishing a formalized governing board over the ICAC program. This report should also discuss how to reduce the problem of high turnover for ICAC investigators, reasons for this turnover, and the skill sets and law enforcement backgrounds that have been most beneficial for investigators who have longevity with their ICAC programs.

Children Exposed to Violence.—The agreement provides \$8,000,000 for grants to help children exposed to violence, through supportive services for the children and their families, training and awareness to communities, and technical assistance for child and family-serving organizations to help them better recognize and help families at risk for violence.

**PUBLIC SAFETY OFFICER BENEFITS
(INCLUDING TRANSFER OF FUNDS)**

The agreement includes \$143,800,000 for the Public Safety Officer Benefits program for fiscal year 2021.

**COMMUNITY ORIENTED POLICING SERVICES
COMMUNITY ORIENTED POLICING SERVICES
PROGRAMS**

(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$386,000,000 for Community Oriented Policing Services (COPS) programs, as follows:

**COMMUNITY ORIENTED POLICING SERVICES
(In thousands of dollars)**

Program	Amount
COPS Hiring Grants	\$237,000
Tribal Resources Grant Program	(29,500)
Regional Information Sharing Activities	(40,000)
Tribal Access Program	(3,000)
Law Enforcement Mental Health and Wellness Act	(8,000)
POLICE Act	11,000
Anti-Methamphetamine Task Forces	15,000
Anti-Heroin Task Forces	35,000
STOP School Violence Act	53,000
Community Policing Development/Training and Technical Assistance	35,000

**COMMUNITY ORIENTED POLICING SERVICES—Continued
(In thousands of dollars)**

Program	Amount
Co-responder Crisis Teams	(10,000)
De-escalation Training	(15,000)
Accreditation Support	(5,000)
CPD Microgrants	(3,000)
Diversity and Anti-Bias Training	(2,000)
Total, Community Oriented Policing Services	\$386,000

For fiscal year 2021, DOJ is directed to follow prior year report language, included in Senate Report 116-127 and adopted in Public Law 116-93, on “Anti-Methamphetamine Task Forces” and “Anti-Heroin Task Forces.”

COPS Hiring Program.—The COPS Hiring Program grant solicitation for fiscal year 2021 is directed to include two additional priority focus areas: (1) hiring officers who live in the communities that they serve and (2) hiring officers who are willing to relocate to areas characterized by fragmented relationships between police and residents of the community, or where there are high incidents of crime.

Community Policing Development (CPD), Training and Technical Assistance.—The agreement provides \$35,000,000 for CPD, for competitive grants provided directly to law enforcement agencies, in the following manner: \$10,000,000 is to expand the use of crisis intervention teams in order to embed mental and behavioral health services with law enforcement, including training programs; \$15,000,000 is for officer training in de-escalation techniques, of which no less than \$4,000,000 is for grants to regional de-escalation training centers that are administered by accredited institutions of higher education and offer de-escalation training certified by a national certification program; \$5,000,000 is for assisting agencies with gaining accreditation to ensure compliance with national and international standards covering all aspects of law enforcement policies, procedures, practices, and operations, of which no less than \$1,500,000 is to be provided for small and rural law enforcement agencies for this purpose; \$3,000,000 is for the CPD Microgrants program, which provides funding for demonstration and pilot projects that offer creative ideas to advance crime fighting, community engagement, problem solving, and organizational changes to support community policing; and \$2,000,000 is for grants to support tolerance, diversity, and anti-bias training programs offered by organizations with well-established experience training law enforcement personnel and criminal justice professionals. The COPS Office is directed to report, within 30 days of enactment of this Act, on how the direction for CPD grants is being followed as well as timelines for grant deadlines and distribution.

Law Enforcement Mental Health and Wellness Grants.—Funding for the Law Enforcement Mental Health and Wellness Act (Public Law 115-113) shall be distributed via competitive grant process for State and local law enforcement agencies to provide better training on officer emotional and mental health, to implement suicide prevention programming, and to help officers seek assistance in receiving support services.

School Resource Officers.—The COPS Office is directed to continue to implement requirements and procedures regarding written memoranda of understanding and training requirements, including clear definitions of officers’ roles and responsibilities on campus, for any COPS Hiring grant funds used to hire school-based law enforcement officers.

GENERAL PROVISIONS—DEPARTMENT OF JUSTICE

(INCLUDING TRANSFER OF FUNDS)

The agreement includes the following general provisions for the Department of Justice:

Section 201 makes available additional reception and representation funding for the Attorney General from the amounts provided in this title.

Section 202 prohibits the use of funds to pay for an abortion, except in the case of rape or incest, or to preserve the life of the mother.

Section 203 prohibits the use of funds to require any person to perform or facilitate the performance of an abortion.

Section 204 establishes that the Director of the Bureau of Prisons (BOP) is obliged to provide escort services to an inmate receiving an abortion outside of a Federal facility, except where this obligation conflicts with the preceding section.

Section 205 establishes requirements and procedures for transfer proposals.

Section 206 prohibits the use of funds for transporting prisoners classified as maximum or high security, other than to a facility certified by the BOP as appropriately secure.

Section 207 prohibits the use of funds for the purchase or rental by Federal prisons of audiovisual or electronic media or equipment, services and materials used primarily for recreational purposes, except for those items and services needed for inmate training, religious, or educational purposes.

Section 208 requires review by the Deputy Attorney General and the Department Investment Review Board prior to the obligation or expenditure of funds for major information technology projects.

Section 209 requires the Department to follow reprogramming procedures prior to any deviation from the program amounts specified in this title or the reuse of specified deobligated funds provided in previous years.

Section 210 prohibits the use of funds for A-76 competitions for work performed by employees of BOP or Federal Prison Industries, Inc.

Section 211 prohibits U.S. Attorneys from holding additional responsibilities that exempt U.S. Attorneys from statutory residency requirements.

Section 212 permits up to 2 percent of grant and reimbursement program funds made available to the OJP to be used for training and technical assistance and permits up to 2 percent of grant funds made available to that office to be used for criminal justice research, evaluation and statistics by the NIJ and the Bureau of Justice Statistics.

Section 213 gives the Attorney General the authority to waive matching requirements for Second Chance Act adult and juvenile reentry demonstration projects; State, Tribal, and local reentry courts; and drug treatment programs. If a waiver is granted, the Attorney General shall document any factors and material presented by a grantee upon determining that a fiscal hardship exists prior to making an award.

Section 214 waives the requirement that the Attorney General reserve certain funds from amounts provided for offender incarceration.

Section 215 prohibits funds, other than funds for the national instant criminal background check system established under the Brady Handgun Violence Prevention Act, from being used to facilitate the transfer of an operable firearm to a known or suspected agent of a drug cartel where law enforcement personnel do not continuously monitor or control such firearm.

Section 216 places limitations on the obligation of funds from certain Department of Justice accounts and funding sources.

Section 217 allows certain funding to be made available for use in Performance Partnership Pilots.

Section 218 increases the threshold for balances in the United States Trustee System Fund.

Section 219 provides access for Tribes to national information databases.

Section 220 makes the Attorney General responsible for payment of witness fees.

Section 221 makes United States Marshals Service employees eligible for danger pay for certain foreign deployments.

Section 222 provides funding to develop and operate a database on law enforcement use of force and officer misconduct.

TITLE III SCIENCE

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

The agreement includes \$5,544,000 for the Office of Science and Technology Policy (OSTP).

Emerging Contaminants.—Within 30 days of the enactment of this Act, OSTP shall update its October 2018 “Plan for Addressing Critical Research Gaps Related to Emerging Contaminants in Drinking Water” as directed in Senate Report 116–127 and adopted by Public Law 116–93. The update shall identify any necessary program, policy, or budgetary resources required, by agency, to support implementation of the Federal research strategy for fiscal years 2021, 2022, and 2023. OSTP is further directed to brief the Committees on the National Emerging Contaminant Research Initiative within 30 days of enactment of this Act.

Research Integrity.—The Committees have yet to receive the assessment that will form the baseline for guidance for government agencies, universities, and the broader research community on indicators of risks to research integrity from foreign influence. OSTP shall report within 30 days of enactment of this Act to the Committees on the extent of these issues and provide OSTP’s suggested risk mitigation actions that can be implemented by universities and the U.S. Government.

Research on the Great Lakes Resources.—The vessels of the Great Lakes ecosystem Federal research fleet are nearing the end of their useful service lives. OSTP is reminded of the requirement to submit an assessment of the fleet contained in Senate Report 115–275, adopted by Public Law 116–6.

Federal Unmanned Aircraft Systems (UAS) Procurement.—OSTP is encouraged to identify domestically-produced UAS options as alternatives to commercially-available foreign UAS that may allow for the unintended transmittal of data being collected and to coordinate guidelines that will allow for secure utilization of UAS by all Federal agencies.

NATIONAL SPACE COUNCIL

The agreement includes \$1,965,000 for the activities of the National Space Council.

Quarterly Briefings.—The National Space Council is directed to provide the Committees with quarterly briefings, beginning with the annual budget submission, that identify current and emerging threats to maintaining U.S. leadership in space-based activities by the Federal Government, industry, and academia and the associated plans and policies to maintain that leadership.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

The agreement includes \$23,271,278,000 for the National Aeronautics and Space Administration (NASA).

Partial Funding Requests.—The agreement notes that going forward, NASA should re-

frain from requesting only part of the funding it requires to accomplish all of its missions. Additionally, the agreement objects to NASA’s efforts in recent fiscal years to redirect funding away from priorities clearly set by the Congress in law and has included more specific bill language to curtail such actions.

Quarterly Launch Schedule.—NASA shall continue providing the Committees with a quarterly launch schedule, by mission, which describes the risks associated with any launch delays, the impacts of launch delays to other missions in the launch queue, a budget estimate of the anticipated carrying costs for missed launch windows, as well as any adjustments to launch windows for delayed missions.

Oversight and Accountability.—NASA acquisition management remains on the U.S. Government Accountability Office’s (GAO’s) “high risk” list. NASA is expected to maintain focus on improving oversight and accountability. NASA is directed to cooperate fully with GAO and shall provide timely program analysis, evaluation data, and other relevant information so GAO can report to Congress shortly after the annual budget submission, and semiannually thereafter, on the status of large-scale NASA programs, projects, and activities. NASA is further directed to brief the Committees within 30 days of the annual budget submission on the reserves, along with confidence level if appropriate, assumed in the proposed funding level for each directorate, theme, program, project, or activity.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (In thousands of dollars)

Program	Amount
Science:	
Earth Science	\$2,000,000
Planetary Science	2,700,000
Astrophysics	1,356,200
James Webb Space Telescope	414,700
Heliophysics	751,000
Biological and Physical Sciences	79,100
Total, Science	7,301,000
Aeronautics	828,700
Space Technology	1,100,000
Exploration:	
Exploration Systems Development	4,582,600
Orion Multi-purpose Crew Vehicle	1,406,700
Space Launch System (SLS) Vehicle Deployment	2,585,900
Exploration Ground Systems	590,000
Exploration Research and Development	1,972,800
Gateway	698,900
Human Landing System	850,000
Total, Exploration	6,555,400
Space Operations	3,988,200
Science, Technology, Engineering, and Mathematics (STEM) Engagement:	
NASA Space Grant	51,000
EPSCoR	26,000
Minority University Research Education Project	38,000
STEM Education and Accountability Projects	12,000
Total, Science, Technology, Engineering, and Mathematics (STEM) Engagement	127,000
Safety, Security and Mission Services	2,936,500
Construction and Environmental Compliance and Restoration	390,278
Office of Inspector General	44,200
Total, NASA	\$23,271,278

SCIENCE

The agreement includes \$7,301,000,000 for Science.

Earth Science.—The agreement includes \$2,000,000,000 for Earth Science and adopts all funding levels designated by the House, except as follows.

Earth Science Research and Analysis.—The agreement directs no less than \$25,000,000 above the requested level for Earth Science Research and Analysis.

Earth Science Decadal.—In keeping with the recommendations of the Earth Science decadal survey, NASA should plan to competitively select future missions. An increase in competed, Principal Investigator (PI)-led missions can encourage better cost and schedule management, infuse new technologies, and contribute to workforce.

Earth System Science Pathfinder Missions.—The agreement includes \$343,900,000 for Earth System Science Pathfinder missions.

Venture Class Missions.—The agreement includes \$263,600,000 for Venture Class Missions.

NASA—Indian Space Research Organisation (ISRO) Synthetic Aperture Radar, Geosynchronous Littoral Imaging and Monitoring Radiometer (GLIMR), and Geostationary Carbon Cycle Observatory (GeoCARB).—The agreement fully supports, at no less than the request level, NASA-ISRO Synthetic Aperture Radar, the GLIMR instrument, and GeoCARB. GeoCARB is due to launch in 2023 and will demonstrate the feasibility of using a commercial communications satellite to host a scientific instrument to measure vegetation off-gassing and detect methane. GeoCARB could serve as a model for meeting future Earth Science research needs in a cost-effective manner. The agreement is supportive of collaborative research that works to advance our understanding of the behavior of the Earth by engaging academia, particularly students, in its studies and investigations, as these partnerships ensure that NASA’s data expertise remains up-to-date and increases the research capacities at universities.

Planetary Science.—The agreement includes \$2,700,000,000 for Planetary Science.

Lunar Discovery.—The agreement includes up to \$451,500,000 for the Lunar Discovery and Exploration, including \$22,000,000 to continue the Lunar Reconnaissance Orbiter, \$70,000,000 for the new Lunar Future initiative, and up to the request level for Commercial Lunar Payload Services (CLPS). NASA is expected to provide funding under the CLPS program only for lunar landers and rovers majority-designed, developed, and built in the United States. Additionally, this level of funding supports a regular cadence of at least one robotic mission to the lunar surface per year. The Lunar Discovery and Exploration program shall adhere to the lunar science priorities established by decadal surveys and the National Research Council’s Scientific Context for the Exploration of the Moon by funding activities that meet both lunar science and human exploration needs through varied mission types.

Planetary Defense.—The agreement includes \$156,400,000 for planetary defense of which \$66,400,000 is for the Double Asteroid Redirect Test (DART) to ensure a June 2021 launch and \$90,000,000 is for other Near Earth Object Observations missions and data analysis. NASA is expected to request adequate resources for simultaneous development of DART and the Near Earth Object Surveillance Mission (NEOSM) that pursues a 2025 launch date for NEOSM. NASA is directed to report to the Committees within 180 days of the enactment of this Act on how the agency is fulfilling its mandate to detect 90 percent of objects greater than 140 meters that threaten Earth, along with development progress of DART and NEOSM.

Asteroid Sample and Advanced Curation Facility.—NASA’s investments in the Asteroid Sample and Advanced Curation Facility, as well as the Astromaterials Curation Annex, will allow NASA to properly analyze and curate the variety of samples encountered in the planned Mars Sample Return (MSR) mission. NASA should leverage these investments by engaging the academic community to support sample return missions and make

samples available for research to the world-wide science community.

New Frontiers Missions.—The agreement includes \$183,200,000 for New Frontiers missions. Within New Frontiers, \$100,000,000 is included for Dragonfly missions. The agreement includes the budget request for Radioisotope Power Systems. Further, the agreement expects NASA to continue the selection and launch cadence of New Frontiers and Discovery class missions in spite of any cost pressures from planetary flagship missions or the Mars program.

Mars Exploration Program.—The House language regarding the Mars Exploration Program is accepted and within these amounts the agreement includes \$263,500,000 to further development of an MSR mission to be launched in 2026.

Commercial Deep Space Communications Relay.—Consistent with House direction, within 180 days of enactment of this Act, NASA is directed to submit a report to the Committees outlining the Science plan for securing commercial services for future Mars surface assets. NASA may use fiscal year 2021 funds to procure such services to the extent they are available, scientifically necessary, and can be selected competitively.

Europa Clipper Mission.—The agreement includes \$403,500,000 for the Jupiter Europa Clipper mission, modifies House language regarding Clipper, and includes a proviso regarding conditions to be met and directives for the Administrator.

Icy Satellites Surface Technology.—The agreement includes no less than \$17,500,000 above the requested level for Icy Satellites Surface Technology.

Science Mission Directorate (SMD) Education.—The agreement provides no less than \$45,600,000 for education and outreach efforts. The agreement further supports the recommendation that the Astrophysics program continue to administer this SMD-wide education funding. The agreement encourages SMD-funded investigators to be directly involved in outreach and education efforts and support citizen science. NASA should continue to prioritize funding for ongoing education efforts linked directly to its science missions.

Astrophysics.—The agreement includes \$1,356,200,000 for Astrophysics.

Cosmic Origins.—The agreement includes \$93,300,000 for the Hubble Space Telescope, \$10,000,000 for search for life technology development to leverage and scale technologies developed for the James Webb Space Telescope, and \$85,200,000 for the Stratospheric Observatory for Infrared Astronomy (SOFIA).

James Webb Space Telescope (JWST).—The agreement includes \$414,700,000 for JWST.

Nancy Grace Roman Space Telescope.—The agreement includes \$505,200,000 for the Roman Telescope.

Heliophysics.—The agreement provides \$751,000,000 for Heliophysics, including \$280,800,000 for Heliophysics Research which includes the request level for Research Range; \$148,200,000 for Living with a Star, which includes no less than \$25,000,000 for space weather science applications and \$15,000,000 above the request for Geospace Dynamics Constellation; \$148,600,000 for Solar Terrestrial Probes, which includes funding for the Magnetospheric Multiscale mission at no less than the fiscal year 2020 level and \$10,000,000 to begin formulation for the Dynamical Neutral Atmosphere-Ionosphere Coupling mission as a Principal Investigator (PI)-led mission; and \$173,400,000 for Heliophysics Explorers. This amount supports the Diversify, Realize, Integrate, Venture, Educate initiative as recommended in the most recent heliophysics decadal survey, as well as science centers and early career

researchers. NASA is directed to establish a standalone heliophysics technology program in future budget requests. NASA's space weather science applications program should focus on research and technologies that enable other agencies to dramatically improve operational space weather forecasts and assets, including ground-based assets such as the Daniel K. Inouye Solar Telescope.

Unmanned Aerial Vehicles.—The agreement supports NASA's efforts to develop and refine UAV platforms and encourages continued cooperation from Federal science agencies, including NOAA, to expand utilization and supplement data collection in support of hurricane forecast modeling.

Biological and Physical Science.—The agreement includes \$79,100,000 for Biological and Physical Science within Science, with a commensurate reduction in Space Operations.

AERONAUTICS

The agreement includes \$828,700,000 for Aeronautics. The agreement supports New Aviation Horizons and is encouraged by NASA's efforts toward developing a Low Boom Flight Demonstrator X-plane, referred to as the Low Boom Flight Demonstrator (LBFD). Appropriate funds are also included to enable the next X-plane demonstration planned beyond LBFD.

University Leadership Initiative.—NASA is expected make additional awards to U.S. universities from the Fiscal Year 2020 solicitation to address additional technical barriers in aeronautics and is encouraged to utilize universities and their capabilities in areas where multidisciplinary convergent research is needed in early stage aeronautics research and technology development.

Hypersonics Technology.—The agreement includes up to \$60,000,000 for Hypersonics Technology.

Hypersonics Advanced Materials.—The agreement provides an additional \$8,000,000 above the request for collaborative work between industry and academia for development of lower cost advanced three-dimensional carbon/carbon material testing and characterization that will benefit the next generation of very high temperature composites for hypersonic vehicles.

High-Rate Composite Aircraft Manufacturing (HiCAM).—The agreement provides no less than the requested amount for HiCAM and encourages NASA to leverage existing academic and industry expertise to help demonstrate efficient design, development, and certification requirements associated with this program and to utilize no less than 75 percent of these funds to support public-private partnership with at least a 50 percent government cost share.

Subsonic Aircraft Research.—NASA is encouraged to continue research and development in key technologies and innovative aircraft structures and components to enable development of ultra-efficient, sustainable transonic aircraft, including investments in X-planes or other appropriate test platforms.

Advanced Composite Project (ACP).—The agreement encourages NASA to maintain the capabilities and intellectual property structures developed through public-private partnerships within the ACP, provides no less than the fiscal year 2020 funding level for these activities, and expects the activities associated with the ACP to be leveraged across the aeronautics portfolio as part of the fiscal year 2022 request.

Advanced Materials Research.—The agreement provides \$7,000,000 above the request level for advanced materials research and encourages NASA to partner with academic institutions that have strong capabilities in aviation, aerospace structures, and materials testing and evaluation for these activities.

Unmanned Traffic Management System (UTM).—NASA is encouraged to continue work with Federal agencies, States, counties, cities, and Tribal jurisdictions on research toward the development of a UTM system that will ensure the broadest level of acceptance from local jurisdictions. Within 60 days of enactment of this Act, NASA shall provide a report to the Committees on Appropriations regarding the agency's future unmanned traffic management UTM airspace requirements, UTM airspace needs, and by extension, the agency's advanced air mobility airspace needs.

UTM Modeling.—The agreement supports NASA's ability to leverage test range airspace, modeling, and simulation from other Federal agencies for UTM and advanced air mobility related activities. NASA should ensure that UTM regional modeling and simulation include electric and hybrid vertical takeoff and landing (VTOL) aircraft and that VTOL aircraft, infrastructure, and airspace meet the needs of rural, suburban, and urban communities.

Cleaner, Quieter Airplanes.—Not later than 180 days after the enactment of this Act, NASA shall submit to the Committees a report on NASA's progress on the development of technologies for quieter, cleaner airplanes, including the ability to transition these technologies to industry.

SPACE TECHNOLOGY

The agreement includes \$1,100,000,000 for Space Technology and reaffirms support for the independence of the mission directorate and recognizes that its current status enables it to support the development of a wide array of various technologies.

Regional Economic Development Program.—The agreement includes up to \$8,000,000 for the Regional Economic Development Program. NASA is encouraged to expand the program to all 50 states.

On Orbit Servicing and Manufacturing.—The agreement includes up to the requested level for On Orbit Servicing and Manufacturing Demonstration-2.

Restore-L/Space Infrastructure DEXterous Robot (SPIDER).—The agreement provides \$227,000,000 for Restore-L/SPIDER.

Nuclear Thermal Propulsion.—The agreement provides not less than \$110,000,000 for the development of nuclear thermal propulsion, of which not less than \$80,000,000 shall be for the design of test articles that will enable a flight demonstration. Within 180 days of the enactment of this Act, NASA, in conjunction with other relevant Federal departments and agencies, shall submit a multi-year plan that enables technology development leading to an in-space propulsion-system demonstration and describes future missions and propulsion and power systems enabled by this capability.

Solar Electric Propulsion.—The agreement includes the requested level for Solar Electric Propulsion activities.

Additive Manufacturing.—The agreement includes \$35,000,000 for additive manufacturing.

Flight Opportunities Program.—The agreement includes no less than \$27,000,000 for the Flight Opportunities Program. The funding provided for this program may be used to support undergraduate and graduate work in developing flight opportunities payloads. NASA should ensure that funds are available for flight opportunities of science, technology demonstration, and educational payloads developed across all NASA Mission Directorates, as well as external flight opportunities, as authorized under section 907 of the NASA Authorization Act of 2010 (Public Law 111-267), including competitively-selected opportunities in support of payload development and flight of K-12 and collegiate educational payloads. NASA is directed

to consider how the Flight Opportunities Program may be leveraged to provide expanded opportunities to Science, Technology, Engineering, and Mathematics (STEM) students and early career researchers. The recommendation includes \$7,000,000 to support payload development and flight of K-12 and collegiate educational payloads.

Innovative Nanomaterials.—The agreement includes \$5,000,000 to advance large scale production and use of innovative nanomaterials, including carbon nanotubes.

On Surface Manufacturing Capabilities.—The agreement provides the budget request for On-Surface Manufacturing and directs NASA, through partnerships with universities, to leverage efforts that complement ongoing work on the development of advanced materials with a focus on point-of-need and in-place generated materials, energy capture and power storage, recycling, commercialization, and workforce development.

Small Business Innovation Research.—NASA shall continue to fulfill statutory obligations for the amount of Small Business Innovation Research (SBIR) and place an increased focus on awarding SBIR awards to firms with fewer than 50 employees.

EXPLORATION

The agreement includes \$6,555,400,000 for Exploration and recognizes that the Nation deserves a safe and robust human spaceflight program to explore beyond low-Earth orbit (LEO) and ensure U.S. leadership in space. To support these efforts, the agreement provides funding for NASA to make investments in critical infrastructure that will enable the human exploration of space beyond LEO through the Artemis program and provide flexibility for a variety of mission destinations including the Moon and Mars.

Orion Multi-Purpose Crew Vehicle.—The agreement includes \$1,406,700,000 for the Orion Multi-Purpose Crew Vehicle. NASA is further directed to inform Congress of the status of activities related to Orion, the European Service Module, and ongoing activities related to integration of Orion with Space Launch System and associated ground infrastructure.

Space Launch System (SLS).—The agreement provides \$2,585,900,000 for SLS, of which \$400,000,000 is for concurrent SLS Block 1B Development, including Exploration Upper Stage development and associated stage adapter work. The agreement is supportive of fully developing the capabilities of SLS, and directs NASA to continue the simultaneous development of activities as authorized under sections 302(c)(1)(a) and (b) of Public Law 111-267. The agreement reiterates House language directing NASA to engage an independent reviewer to conduct a review of SLS completion costs. Additionally, not later than 180 days after the enactment of this Act, the agreement directs NASA to submit to the Committees a comprehensive manifest of Space Launch System cargo flights through 2030 which incorporates planned Science missions, such as the Europa Lander mission and outer planet missions to Uranus and Neptune.

Exploration Ground Systems.—In lieu of direction in the House report, the agreement includes \$590,000,000 for Exploration Ground Systems.

VAB Construction.—The agreement provides for a transfer of \$25,000,000 from Exploration Systems Development to Exploration Construction of Facilities, to fund additional Exploration Ground Systems construction requirements incrementally, consistent with the incremental funding authority provided for Exploration Systems in the FY 2018 Consolidated Appropriations Act (P.L. 115-141), as Exploration Systems programs move from

development to production and operations. This transfer will increase funding for the KSC Modifications to Launch Infrastructure for SLS project, to initiate construction of new platforms for Vehicle Assembly Building (VAB) High Bay 3 to enable processing the SLS Block 1B configuration.

Second Mobile Launch Platform (MLP-2).—In lieu of the House report language, the agreement within Exploration Ground Systems includes \$74,000,000 for MLP-2.

Exploration Research and Development.—The agreement includes \$1,972,800,000 for Exploration Research and Development, and directs that of that amount, \$698,800,000 is for Gateway, and \$850,000,000 is for the Human Landing System.

Priority of Use Missions.—NASA is directed to continue reporting to the Committees any activities that cause NASA to invoke its “Priority of Use” clause, including identifying the conflicting activities between NASA and non-Federal activities, and how the conflict was resolved, 15 days prior to any activity taking place. NASA shall ensure that any non-Federal activities do not interfere with the progress of, and schedule for, the Artemis missions.

Lunar Lander Program Office.—Within the amount provided for the Human Landing System, the agreement includes full funding for the Lunar Lander Program Office.

SPACE OPERATIONS

The agreement provides \$3,988,200,000 for Space Operations, including \$17,000,000 for commercial low Earth orbit (LEO) development.

Commercial Crew and Cargo Program.—The agreement provides the requested level of funding for Commercial Crew and Cargo, including funds to enable cargo flights for all three current providers within the Commercial Crew and Cargo program.

Biological and Physical Science Research and Applications.—At the request of NASA, the agreement moves the Biological and Physical Science research and applications to the Science Mission Directorate. The agreement supports the full request for ISS Research. However, of the requested amount, \$79,100,000 for Biological and Physical Science is provided within the NASA Science account. NASA is directed to continue to support grant opportunities in biological and physical sciences research within a microgravity environment, including continued study of and quantifying potential exposure to cosmic rays through initiatives such as the Alpha Magnetic Spectrometer.

Commercial LEO Development.—The agreement provides \$17,000,000 for LEO commercialization to grow promising research across all scientific disciplines and industries. Within 180 days of enactment of this Act, NASA shall provide the Committees the selection criteria used by NASA and other U.S. based entities for selecting projects, a list of the projects selected, the total costs incurred by NASA for delivery and execution of each project, and the amount NASA will be reimbursed for transportation, personnel, and facility use for each project. NASA is also directed to provide the Committees, within 180 days of enactment of this Act, an assessment of the benefits and challenges of using repurposed upper stages as free-flying platforms. NASA shall not use funds provided in this or any other Act to subsidize the cost of any project that is primarily intended for marketing, advertising, or entertainment purposes.

Space Communications.—The proposal to consolidate the Communications Services Program (CSP) under Space Communications and Navigation (SCaN) has created uncertainty about how CSP will be managed. The agreement directs NASA to develop a

plan, budget, and timeline for sustainment of the existing network and infrastructure upgrades, as well as delineating responsibilities for the program and explaining how the program goals differ from SCaN. NASA is directed to brief the Committees on the plan within 180 days of enactment of this Act.

SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS ENGAGEMENT

The agreement includes \$127,000,000 for Science, Technology, Engineering, and Mathematics Engagement.

Space Grant Program.—The agreement includes \$51,000,000 for the Space Grant Program; directs that these amounts be allocated to State consortia for competitively awarded grants in support of local, regional, and national STEM needs; and directs that all 52 participating jurisdictions be supported at no less than \$760,000 each.

Established Program to Stimulate Competitive Research (EPSCoR).—The agreement includes \$26,000,000 for EPSCoR.

Minority University Research and Education Project (MUREP).—The agreement includes \$38,000,000 for MUREP. MUREP is encouraged to support programs that connect science, indigenous culture, and community, including the integration of indigenous practices, at minority-serving higher education institutions, including Alaska Native and Native-Hawaiian Serving Institutions and Tribal Colleges and Universities, in a State or States where the need for such indigenous-academic collaboration is present.

STEM Education and Accountability Projects (SEAP).—The agreement includes \$12,000,000 for the SEAP.

Museums and Planetariums.—No less than \$5,000,000 is provided for the Competitive Program for Science Museums, Planetariums, and NASA Visitor Centers within SEAP, and NASA is encouraged to follow the program's authorized purpose.

SAFETY, SECURITY AND MISSION SERVICES

The agreement includes \$2,936,500,000 for Safety, Security and Mission Services.

IV&V Program.—The agreement directs that within the amounts provided \$39,100,000 is for NASA's IV&V Program and, if necessary, NASA is directed to fund additional IV&V activities from within the mission directorates that make use of IV&V services.

Accounting System.—The agreement directs that NASA not implement, alter, or configure any changes to its financial system to accommodate amounts below NASA appropriation account levels. NASA should request such changes, and any associated costs, as part of a future budget request.

Buy American Provisions.—NASA is directed to follow prior year report language included in Senate Report 116-127 and adopted by Public Law 116-93 regarding Buy American provisions related to marine vessels and marine vessel components.

Diversity and Inclusion.—NASA is encouraged to take steps to promote racial and cultural acceptance and diversity within its workforce. Within 180 days of enactment of this Act, NASA is directed to submit a report analyzing the current racial and cultural makeup of the agency; planned efforts to recruit, retain, and advance applicants and employees critical to promoting greater racial and cultural diversity, and the outcomes of these efforts; and any additional steps and recommendations planned to promote greater racial and cultural acceptance and diversity throughout the NASA workforce, including the development and analysis of metrics to evaluate success.

CONSTRUCTION AND ENVIRONMENTAL COMPLIANCE AND RESTORATION

The agreement includes \$390,278,000 for Construction and Environmental Compliance

and Restoration (CECR). The agreement also includes the request for Construction of Facilities for Science, Exploration, and Space Operations.

OFFICE OF INSPECTOR GENERAL

The agreement includes \$44,200,000 for the Office of Inspector General.

ADMINISTRATIVE PROVISIONS

(INCLUDING TRANSFERS OF FUNDS)

NASA is directed to provide any notification under section 20144(h)(4) of title 52, United States Code, to the Committees.

The agreement also permits a transfer of funds from Exploration to Construction.

Not more than 20 percent or \$50,000,000, whichever is less, of the amounts made available in the current-year CECR appropriation may be applied to CECR projects funded under previous years' appropriation acts. Use of current-year funds under this provision shall be treated as a reprogramming of funds under section 505 of this Act and shall not be available for obligation except in compliance with the procedures set forth in that section.

NATIONAL SCIENCE FOUNDATION

The agreement includes \$8,486,759,000 for the National Science Foundation (NSF).

Arecibo Observatory (AO).—The significant loss caused by the collapse of the 305-meter radio telescope at the Arecibo Observatory in Arecibo, Puerto Rico, is devastating. During its 57 years in operation, the telescope was an integral part of U.S. capabilities to advance scientific research and served as an iconic, beloved site for the residents of Puerto Rico and the scientific community. With this in mind and keeping safety as the number one priority, NSF is directed to report to the Committees within 60 days of enactment of this Act on the causes and extent of the damage, the plan to remove debris in a safe and environmentally sound way, the preservation of the associated AO facilities and surrounding areas, and the process for determining whether to establish comparable technology at the site, along with any associated cost estimates. NSF shall keep the Committees informed of any other activities related to this facility.

Innovation Corps.—The agreement includes \$40,000,000 for the Innovation Corps program. NSF is encouraged to facilitate greater participation in the program from academic institutions in States that have not previously received awards.

Student Diversity and Success Research.—The agreement adopts House language regarding Historically Black Colleges and Universities (HBCU) Student Diversity and Success Research and expands it to encourage NSF to support the listed activities at Hispanic Serving Institutions, Alaska Native Serving Institutions, Native-Hawaiian Serving Institutions, and Tribal Colleges and Universities and to direct NSF to include these types of institutions in the required report, in addition to HBCUs.

RESEARCH AND RELATED ACTIVITIES

The agreement includes \$6,909,769,000 for Research and Related Activities (R&RA) and no less than \$200,000,000 for EPSCoR.

Within the amount provided for R&RA, the agreement provides for the Facility Operation Transition activity at the budget request level, operation of the National Ecological Observatory Network at no less than the fiscal year 2020 level, and the Center for High Energy X-Ray Science at no less than the budget request level.

Maintaining Core Research.—NSF shall maintain its core research at levels not less than those provided in fiscal year 2020, including supporting existing observational networks and research infrastructure, including astronomy facilities, the academic

research fleet, federally funded research and development centers and the national high-performance computing centers.

Daniel K. Inouye Solar Telescope (DKI-ST).—The agreement supports the budget request for the Daniel K. Inouye Solar Telescope (DKI-ST). NSF is encouraged to support the existing ancillary academic partnerships between NSF and DKI-ST.

Green Bank Observatory (GBO).—The agreement supports NSF's effort to develop multi-agency plans at GBO and provides no less than the request level to support operations and maintenance at GBO through multi-agency plans, or directly through the Foundation.

Navigating the New Arctic.—The Committee urges NSF to formulate Arctic research programs leveraging expertise from regions accustomed to changing marine ecosystems. Specifically, NSF is encouraged to consider the impact of the opening of the two trans-Arctic sea routes and the proximity to deep U.S. ports.

Online Influence.—NSF is encouraged to consider additional research efforts that will help counter influence from foreign adversaries on social media platforms designed to influence U.S. perspectives and undermine confidence in U.S. elections and institutions. To the extent practicable, NSF should engage other Federal agencies to help identify areas of research that will provide insight that can mitigate adversarial online influence.

U.S. Neutron Monitor Network.—NSF is directed to immediately submit the U.S. Neutron Monitor Network plan required under Senate Report 116-127, as adopted in Public Law 116-93.

Study of Temperate Woodland and Alpine Ecosystems and Ecoregions.—NSF is expected to continue supporting research on unique mountain temperate woodland ecosystems and ecoregions, in order to better understand and sustain the health and vitality of mountain ecosystems.

Spectrum Innovation Initiative.—The agreement supports investments in the Spectrum Innovation Initiative.

Water Contamination Research.—From fiscal year 2014 to present, NSF has obligated more than \$30,000,000 to research related to the water crisis in Flint, Michigan, or closely related subjects. NSF is encouraged to continue multi-institutional, multidisciplinary water-related research.

Rules of Life.—The agreement supports NSF's focus on Rules of Life funding of research, including in plant genomics, and directs NSF to continue to advance the ongoing plant genomics research program, further its work in crop-based genomics research, and to maintain a focus on research related to crops of economic importance.

Verification of the Origins of Rotation in Tornadoes Experiment-Southeast (VORTEX-SE).—NSF is encouraged to continue its cooperation with NOAA for the VORTEX-SE field campaign in the southeastern United States. NSF should look beyond its traditional research disciplines to utilize programs, co-funding opportunities, and to utilize collaborative research to better understand the fundamental natural processes of tornadoes and to improve models of these seasonal extreme events.

High-Performance Computing Planning.—NSF should invest in additional high-performance computational systems and renew and adequately resource its commitment to developing and supporting systems that facilitate tremendous leaps in computational simulation.

Intense, Ultrafast Lasers.—In 2018, the National Academy of Sciences found that the United States has lost its previous dominance in high-intensity lasers, which are

critical to advance scientific discovery, future science facilities, and important applications in national security, industry, and medicine. NSF is encouraged to implement report recommendations and to make the necessary early stage investments in intense, ultrafast laser science and technology.

Marine Research.—NSF is to maintain current funding levels for marine research facilities. A plan shall be developed by NSF with the scientific community to continue researcher access to marine research facilities and to accept new research proposals.

Re-Engineering Plastic Textiles.—NSF is encouraged to take a comprehensive and coordinated approach to support research in plastics, microplastics, and microfibers to address the significant challenges on the aquatic environment, to human health, and in the transport and migration of materials, waste management, and development of alternative materials.

Coastlines and People.—NSF is encouraged to continue to advance research in coastal environmental viability and natural hazards in coastal regions, including the efforts of the Coastlines and People program.

Quantum Information Science.—The agreement includes funds up to the request levels for quantum information science research and from within this amount provides no less than \$160,000,000 for activities authorized under section 301 of the National Quantum Initiative Act and \$50,000,000 for National Quantum Information Science Research Centers, as authorized in section 302 of that Act.

Artificial Intelligence (AI).—This agreement fully funds AI related grants and interdisciplinary research initiatives across NSF at up to the fiscal year 2021 request level. In addition, the agreement reiterates House language to encourage NSF to continue its efforts in workforce development for AI and other emerging technologies, with focused outreach to community colleges, Historically Black Colleges and Universities, Hispanic Serving Institutions, Tribal Colleges and Universities and other Minority Serving Institutions.

Sustainable Chemistry Research.—NSF is encouraged to develop and implement a sustainable chemistry research and development program, as authorized by the America Competes Reauthorization Act of 2010 (Public Law 111-358). Additionally, NSF shall report to the Committees within 90 days after the enactment of this Act on its implementation plan for this program.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

The agreement includes \$241,000,000 for Major Research Equipment and Facilities Construction (MREFC), including funds at the requested levels for the continued construction of the Vera C. Rubin Observatory (previously known as the Large Synoptic Survey Telescope), the Antarctic Infrastructure Modernization for Science, and the High Luminosity-Large Hadron Collider Upgrade. The Government Accountability Office is directed to continue its annual reviews and semiannual updates of programs funded within MREFC and shall report to Congress on the status of large-scale NSF projects and activities based on its review of this information.

Mid-scale Research Infrastructure.—The agreement includes \$76,250,000 for Mid-scale research infrastructure. NSF is encouraged to award at least one mid-scale research infrastructure project led by an institution in an EPSCoR State.

Infrastructure Planning.—Under 42 U.S.C 18621, the NSF Director is required to prepare, and include as part of the Foundation's annual budget request to Congress, a plan for the proposed construction of, and repair and

upgrades to, national research facilities. Under 42 U.S.C. 1862n-4, the Director, with the approval of the National Science Board, also develops a prioritized list of MREFC projects approved by the Board. The Board found in its 2030 Vision report that: "Providing research infrastructure across the range of scientific fields and at various scales will require field-based, agency-based, and interagency planning and execution to ensure that infrastructure investments are complementary and that America's S&E infrastructure is globally competitive." In lieu of House language regarding infrastructure planning, NSF and the Board are encouraged to engage in robust planning for and investments in the next generation of world class facilities, including any projects recommended by the upcoming Astrophysics decadal survey.

Buy American Provisions.—NSF is directed to follow prior year report language included in Senate Report 116-127 and adopted by Public Law 116-93 regarding Buy American provisions related to marine vessels and marine vessel components.

EDUCATION AND HUMAN RESOURCES

The agreement includes \$968,000,000 for Education and Human Resources, including no less than these amounts for the following programs: \$49,500,000 for Louis Stokes Alliance for Minority Participation; \$75,000,000 for the Advanced Technological Education program; \$36,500,000 for the Historically Black Colleges and Universities Undergraduate Program; \$16,500,000 for the Tribal Colleges and Universities Program; \$62,500,000 for Advancing Informal STEM Learning; \$8,000,000 for the Alliance for Graduate Education and the Professoriate; \$24,000,000 for Centers for Research Excellence in Science and Technology; and \$18,000,000 for Advancement of Women in Academic Science and Engineering Careers.

The agreement does not adopt the proposed funding reductions for the Improving Undergraduate STEM Education, Robert Noyce Scholarship Program, or the Graduate Research Fellowship, and instead includes the fiscal year 2020 funding levels for these programs.

Funding in this account is also used to implement the Building Blocks of STEM Act (Public Law. 116-102).

Hispanic-Serving Institutions (HSIs).—The agreement includes \$46,500,000 for the HSI program to build capacity at institutions of higher education that typically do not receive high levels of NSF funding.

CyberCorps: Scholarships for Service.—The agreement includes no less than \$60,000,000 for the CyberCorps: Scholarships for Service program, of which not less than \$7,500,000 should be used to continue work with community colleges that have been designated as a Center of Academic Excellence in Information Assurance 2-Year Education (CAE2Y) by the National Security Agency and the Department of Homeland Security, including through providing scholarships to students at CAE2Y institutions who will not transfer into a 4-year program, such as career-changers who possess 4-year degrees and veterans of the Armed Forces.

Cybersecurity Research.—In addition to the partnership efforts called for in the House report under this heading, NSF is urged to collaborate with National Initiative for Cybersecurity Education at NIST on efforts to develop cybersecurity skills in the workforce, especially in support of nontraditional or technical degree qualifications.

Bioprocessing.—NSF is encouraged to include training in bioprocessing within appropriate research areas as part of their educational efforts.

AGENCY OPERATIONS AND AWARD MANAGEMENT

The agreement includes \$345,640,000 for Agency Operations and Award Management.

Diversity and Inclusion.—NSF is encouraged to take steps to promote racial and cultural acceptance and diversity within its workforce. Within 180 days of enactment of this Act, NSF is directed to submit a report analyzing the current racial and cultural makeup of the Foundation; planned efforts to recruit, retain, and advance applicants and employees critical to promoting greater racial and cultural diversity, and the outcomes of these efforts; and any additional steps and recommendations planned to promote greater racial and cultural acceptance and diversity throughout the NSF workforce, including the development and analysis of metrics to evaluate success.

OFFICE OF THE NATIONAL SCIENCE BOARD

The agreement includes \$4,500,000 for the National Science Board.

OFFICE OF INSPECTOR GENERAL

The agreement includes \$17,850,000 for the Office of Inspector General.

ADMINISTRATIVE PROVISIONS (INCLUDING TRANSFER OF FUNDS)

The agreement includes two administrative provisions. One allows limited transfers of funds among accounts. The other requires notification for disposal of certain assets.

TITLE IV

RELATED AGENCIES

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

The agreement includes \$12,500,000 for the Commission on Civil Rights, of which \$500,000 is included for first-year costs to establish the Commission on the Social Status of Black Men and Boys. Within 60 days of enactment of this Act, the Commission shall provide the Committees with a detailed spending plan for the funding provided for the Commission on the Social Status of Black Men and Boys. In addition, the Commission shall include the Commission on the Social Status of Black Men and Boys as a separate line item in future fiscal year budget requests.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

The agreement includes \$404,490,000 for the Equal Employment Opportunity Commission (EEOC).

Summary of Equal Pay Data and Report.—In lieu of House language regarding analyzing summary pay information collected through the revised EEO-1 form for 2017 and 2018, it is acknowledged that the EEOC is contracting with the National Academies of Sciences, Engineering, and Medicine's Committee on National Statistics to conduct an independent assessment of the quality and utility of the EEO-1 Component 2 data for fiscal years 2017 and 2018. The Committees on Appropriations expect a thorough, transparent review of the data, and look forward to the results of the study that will be completed in December of 2021.

Charge Reporting.—EEOC is directed to report to the Committees and post on its public website within 30 days of enactment of this Act on the number of A, B, and C charges for each of the last five fiscal years.

Public Comment on EEOC Guidance.—If requested by at least two Commissioners, the EEOC shall make any new guidance available for public comment in the Federal Register for not less than 30 days prior to taking any potential action on proposed guidance.

Nondiscrimination report.—The EEOC, in consultation with OMB and OPM, is directed to submit a report within 90 days of enactment of this Act on its efforts to prevent discrimination in the awarding of Federal grants, cooperative agreements, and other assistance.

INTERNATIONAL TRADE COMMISSION

SALARIES AND EXPENSES

The agreement includes \$103,000,000 for the International Trade Commission.

In lieu of direction in the House report, the agreement acknowledges concerns that some regions of the United States that specialize in seasonal produce may be vulnerable to competition and unfair trade practices from foreign markets.

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

The agreement includes \$465,000,000 for the Legal Services Corporation.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

The agreement includes \$3,769,000 for the Marine Mammal Commission.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

The agreement includes a total of \$70,000,000 for the Office of the U.S. Trade Representative (USTR).

The agreement reinforces the frustration expressed in the House report concerning USTR's lack of mandatory notification to the Committees under section 505 of this Act and prior year Appropriations Acts concerning the creation of a new office within its organization. Section 505 prohibits both the creation of a new program, project, or activity and the reorganization or renaming of offices without advance notification to the Committees. USTR's justification that the new office was resource neutral and simply a realignment of existing resources is unacceptable as its actions run in direct contravention of section 505 and section 903 of Title IX of the United States-Mexico-Canada Implementation Act (Public Law 116-113). The agreement further stresses that future violations will be penalized appropriately.

SALARIES AND EXPENSES

The agreement includes \$55,000,000 for the salaries and expenses of USTR. For fiscal year 2021, USTR is directed to follow prior year report language, included in Senate Report 116-127 and adopted in Public Law 116-93, on the following topics: "Trade and Agricultural Exports," "Section 301 Exclusion Process," and "Travel." In addition, USTR is directed to follow prior year report language regarding "De Minimis Thresholds" included in the explanatory statement accompanying Public Law 116-93.

China Trade Deal Costs.—USTR is directed to provide the Committees, on a biannual basis, a report documenting the agency's obligations related to the Bilateral Evaluation and Dispute Resolution Office created as part of the Economic and Trade Agreement Between the United States of America and the People's Republic of China, also known as the U.S.-China Phase One deal.

TRADE ENFORCEMENT TRUST FUND

(INCLUDING TRANSFER OF FUNDS)

The agreement includes \$15,000,000, which is to be derived from the Trade Enforcement Trust Fund, for trade enforcement activities and transfers authorized by the Trade Facilitation and Trade Enforcement Act of 2015.

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

The agreement includes \$7,000,000 for the State Justice Institute (SJI).

Fines, Fees, and Bail Practices.—One of SJI's priority areas of investment for fiscal year 2020 was fines, fees, and bail practices. SJI is encouraged to continue investing in this area so that State courts can continue taking a leadership role in reviewing these practices.

Emergency Preparedness and Cybersecurity.—SJI is encouraged to continue its ongoing emergency preparedness and cybersecurity funding priority, which supports projects that address innovative approaches to ensuring courts are prepared to respond to disasters, pandemics, attacks on electronic systems, and other threats.

State Court Behavioral Health Collaborative.—SJI is encouraged to document and promote innovative court-based programs that address substance abuse and mental illness and develop a sustainable community of practice to share the programs and practices on a national level.

TITLE V GENERAL PROVISIONS

(INCLUDING RESCISSIONS)

(INCLUDING TRANSFER OF FUNDS)

The agreement includes the following general provisions:

Section 501 prohibits the use of funds for publicity or propaganda purposes unless expressly authorized by law.

Section 502 prohibits any appropriation contained in this Act from remaining available for obligation beyond the current fiscal year unless expressly provided.

Section 503 provides that the expenditure of any appropriation contained in this Act for any consulting service through procurement contracts shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law or existing Executive order issued pursuant to existing law.

Section 504 provides that if any provision of this Act or the application of such provision to any person or circumstance shall be held invalid, the remainder of this Act and the application of other provisions shall not be affected.

Section 505 prohibits a reprogramming of funds that: (1) creates or initiates a new program, project, or activity; (2) eliminates a program, project, or activity; (3) increases funds or personnel by any means for any project or activity for which funds have been denied or restricted; (4) relocates an office or employee; (5) reorganizes or renames offices, programs, or activities; (6) contracts out or privatizes any function or activity presently performed by Federal employees; (7) augments funds for existing programs, projects, or activities in excess of \$500,000 or 10 percent, whichever is less, or reduces by 10 percent funding for any existing program, project, or activity, or numbers of personnel by 10 percent; or (8) results from any general savings, including savings from a reduction in personnel, which would result in a change in existing programs, projects, or activities as approved by Congress; unless the House and Senate Committees on Appropriations are notified 15 days in advance of such reprogramming of funds.

Section 506 provides that if it is determined that any person intentionally affixes a “Made in America” label to any product that was not made in America that person shall not be eligible to receive any contract or subcontract with funds made available in this Act. The section further provides that to the extent practicable, with respect to purchases of promotional items, funds made available under this Act shall be used to purchase items manufactured, produced, or assembled in the United States or its territories or possessions.

Section 507 requires quarterly reporting to Congress on the status of balances of appropriations.

Section 508 provides that any costs incurred by a department or agency funded under this Act resulting from, or to prevent,

personnel actions taken in response to funding reductions in this Act, or, for the Department of Commerce, from actions taken for the care and protection of loan collateral or grant property, shall be absorbed within the budgetary resources available to the department or agency, and provides transfer authority between appropriation accounts to carry out this provision, subject to reprogramming procedures.

Section 509 prohibits funds made available in this Act from being used to promote the sale or export of tobacco or tobacco products or to seek the reduction or removal of foreign restrictions on the marketing of tobacco products, except for restrictions which are not applied equally to all tobacco or tobacco products of the same type. This provision is not intended to impact routine international trade services to all U.S. citizens, including the processing of applications to establish foreign trade zones.

Section 510 stipulates the obligations of certain receipts deposited into the Crime Victims Fund.

Section 511 prohibits the use of Department of Justice funds for programs that discriminate against or denigrate the religious or moral beliefs of students participating in such programs.

Section 512 prohibits the transfer of funds in this agreement to any department, agency, or instrumentality of the United States Government, except for transfers made by, or pursuant to authorities provided in, this agreement or any other appropriations Act.

Section 513 requires certain timetables of audits performed by Inspectors General of the Departments of Commerce and Justice, the National Aeronautics and Space Administration, the National Science Foundation and the Legal Services Corporation and sets limits and restrictions on the awarding and use of grants or contracts funded by amounts appropriated by this Act.

Section 514 prohibits funds for acquisition of certain information systems unless the acquiring department or agency has reviewed and assessed certain risks. Any acquisition of such an information system is contingent upon the development of a risk mitigation strategy and a determination that the acquisition is in the national interest. Each department or agency covered under section 514 shall submit a quarterly report to the Committees on Appropriations describing reviews and assessments of risk made pursuant to this section and any associated findings or determinations.

Section 515 prohibits the use of funds in this Act to support or justify the use of torture by any official or contract employee of the United States Government.

Section 516 prohibits the use of funds to include certain language in trade agreements.

Section 517 prohibits the use of funds in this Act to authorize or issue a National Security Letter (NSL) in contravention of certain laws authorizing the Federal Bureau of Investigation to issue NSLs.

Section 518 requires congressional notification for any project within the Departments of Commerce or Justice, the National Science Foundation, or the National Aeronautics and Space Administration totaling more than \$75,000,000 that has cost increases of 10 percent or more.

Section 519 deems funds for intelligence or intelligence-related activities as authorized by the Congress until the enactment of the Intelligence Authorization Act for fiscal year 2021.

Section 520 prohibits contracts or grant awards in excess of \$5,000,000 unless the prospective contractor or grantee certifies that the organization has filed all Federal tax returns, has not been convicted of a criminal offense under the Internal Revenue Code of

1986, and has no unpaid Federal tax assessment.

(RESCISSIONS)

Section 521 provides for rescissions of unobligated balances. Subsection (c) requires the Departments of Commerce and Justice to submit a report on the amount of each rescission. These reports shall include the distribution of such rescissions among decision units, or, in the case of rescissions from grant accounts, the distribution of such rescissions among specific grant programs, and whether such rescissions were taken from recoveries and deobligations, or from funds that were never obligated. Rescissions shall be applied to discretionary budget authority balances that were not appropriated with emergency or disaster relief designations.

Section 522 prohibits the use of funds in this Act for the purchase of first class or premium air travel in contravention of the Code of Federal Regulations.

Section 523 prohibits the use of funds to pay for the attendance of more than 50 department or agency employees, who are stationed in the United States, at any single conference outside the United States, unless the conference is: (1) a law enforcement training or operational event where the majority of Federal attendees are law enforcement personnel stationed outside the United States, or (2) a scientific conference for which the department or agency head has notified the House and Senate Committees on Appropriations that such attendance is in the national interest, along with the basis for such determination.

Section 524 requires any department, agency, or instrumentality of the United States Government receiving funds appropriated under this Act to track and report on undisbursed balances in expired grant accounts.

Section 525 requires, when practicable, the use of funds in this Act to purchase light bulbs that have the “Energy Star” or “Federal Energy Management Program” designation.

Section 526 prohibits the use of funds by NASA, OSTP, or the National Space Council (NSC) to engage in bilateral activities with China or a Chinese-owned company or effectuate the hosting of official Chinese visitors at certain facilities unless the activities are authorized by subsequent legislation or NASA, OSTP, or NSC have made a certification pursuant to subsections (c) and (d) of this section.

Section 527 prohibits the use of funds to establish or maintain a computer network that does not block pornography, except for law enforcement and victim assistance purposes.

Section 528 requires the departments and agencies funded in this Act to submit spending plans.

Section 529 prohibits funds to pay for award or incentive fees for contractors with below satisfactory performance or performance that fails to meet the basic requirements of the contract.

Section 530 prohibits the use of funds by the Department of Justice or the Drug Enforcement Administration in contravention of a certain section of the Agricultural Act of 2014.

Section 531 prohibits the Department of Justice from preventing certain States from implementing State laws regarding the use of medical marijuana.

Section 532 requires quarterly reports from the Department of Commerce, the National Aeronautics and Space Administration, and the National Science Foundation of travel to China.

Section 533 limits formulation and development costs for the James Webb Space Telescope.

Section 534 requires 10 percent of the funds for certain programs be allocated for assistance in persistent poverty counties.

Section 535 includes language regarding detainees held at Guantanamo Bay.

Section 536 includes language regarding facilities for housing detainees held at Guantanamo Bay.

Section 537 prohibits the use of funds in this Act to require certain export licenses.

Section 538 prohibits the use of funds in this Act to deny certain import applications

regarding “curios or relics” firearms, parts, or ammunition.

Section 539 prohibits funds from being used to deny the importation of shotgun models if no application for the importation of such models, in the same configuration, had been denied prior to January 1, 2011, on the basis that the shotgun was not particularly suitable for or readily adaptable to sporting purposes.

Section 540 prohibits the use of funds to implement the Arms Trade Treaty until the

Senate approves a resolution of ratification for the Treaty.

Section 541 makes emergency supplemental appropriations for “United States Marshals Service, Federal Prisoner Detention.”

Section 542 makes emergency supplemental appropriations for “Federal Bureau of Investigation, Salaries and Expenses.”

Section 543 makes emergency supplemental appropriations for “Federal Prison System, Salaries and Expenses.”

DIVISION C—DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2021

The following is an explanation of the effects of this Act, which makes appropriations for the Department of Defense for fiscal year 2021. The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 116-453 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

For the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119), and by the Budget Enforcement Act of 1990 (Public Law 101-508), the terms “program, project, and activity” for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2021, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action.

The following exception to the above definition shall apply: the military personnel and the operation and maintenance accounts, for which the term “program, project, and activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget request for fiscal year 2022, the Secretary of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the “M-1” and the “O-1” which shall identify, at the budget activity, activity group, and subactivity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2022.

REPROGRAMMING GUIDANCE FOR BASE AND OVERSEAS CONTINGENCY OPERATIONS FUNDING

The Secretary of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). The dollar threshold for reprogramming funds shall be \$10,000,000 for military personnel; operation and maintenance; procurement; and research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees annual DD Form 1416 reports for titles I and II and quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as

modified by any adjustments. Therefore, if the combined value of transfers into or out of a military personnel (M-1); an operation and maintenance (O-1); a procurement (P-1); or a research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or items for which funding is specifically reduced as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the explanatory statement.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

GENERAL TRANSFER AUTHORITY AND SPECIAL TRANSFER AUTHORITY

The Congress, in exercising its constitutional responsibility to oversee the executive branch, must improve its understanding of the Department of Defense's application of transfer authority and reprogramming actions as the Department executes the budget authority granted by the Congress. The Secretary of Defense is directed to submit a report to the House and Senate Appropriations Committees not later than 90 days after the enactment of this Act which shall include the following:

(1) The levels of General Transfer Authority (GTA)—granted in title VIII in annual defense appropriations acts—and Special Transfer Authority (STA)—granted in title IX in annual defense appropriations acts—provided to the Department of Defense by fiscal year for the last ten fiscal years. In addition to the overall levels of authorized GTA and STA, the report shall include the portion of authorized GTA and STA that was utilized by the Department by fiscal year, and specify the percentage of the total GTA and STA that was used for below threshold reprogramming actions;

(2) The portion of GTA and STA, by fiscal year for the last ten fiscal years, appropriated to the Department of Defense, transferred to, and subsequently implemented by a Department or agency other than one funded in this Act;

(3) The level of GTA and STA, by fiscal year for the last ten fiscal years, used for actions submitted to address urgent mission critical requirements, unforeseen circumstances of an urgent nature (such as the unanticipated mobilization and movement of military personnel to a conflict zone, or investments included in joint urgent operational needs statements), or for life safety; and

(4) The portion of GTA and STA, by fiscal year for the last ten fiscal years, used to address non-urgent contract awards, to fund initiatives or investments included in operational needs statements, to accelerate existing acquisition programs, to procure quantities of equipment and/or services originally planned for purchase in the future

years defense program as presented in the respective budget year, and/or to augment previously planned research and development efforts.

Further, the Comptroller General is directed, not later than 30 days after the submission of the above-mentioned report to the House and Senate Appropriations Committees, to provide to these Committees a review of this report, to include an assessment of the extent to which the actions described in response to the direction above comply with existing appropriations law.

APPROPRIATIONS FOR DEPARTMENT OF DEFENSE-IDENTIFIED UNFUNDED REQUIREMENTS

In accordance with 10 U.S.C. 222(a), the military Services and combatant commands submitted to the congressional defense committees with submission of the fiscal year 2021 President's budget request their unfunded mission requirements. As in previous years, these requests were assessed on the basis of cost, schedule, and performance. Therefore, this agreement recommends additional appropriations to address these shortfalls, as appropriate.

It is noted that, in some instances, appropriations provided in prior fiscal years to address unfunded requirements remained unobligated for several years after they were appropriated. Subsequently, those unobligated appropriations were proposed for realignment for purposes other than those requested by the Department of Defense and intended by the Congress. While it is understandable that requirements evolve and associated funding requirements change during execution of the budget, such unexecuted and/or reallocated appropriations suggest that additional details regarding the execution of appropriations provided specifically for unfunded requirements identified by the Department of Defense are warranted. Therefore, it is directed that any submission of unfunded requirements with the fiscal year 2022 President's budget request be accompanied by updated execution data that speaks to the extent to which the unfunded requirements that received appropriations in fiscal year 2021 were fulfilled or partially fulfilled. Further, the Assistant Secretaries (Financial Management and Comptroller) for the Air Force, Navy, and Army are directed to provide, not later than 30 days after the enactment of this Act, updated budget request brief templates to the congressional defense committees that include distinct programmatic and execution data for appropriations provided in the previous three fiscal years for unfunded requirements.

INDEPENDENT COST ESTIMATES AND OTHER PROGRAM INFORMATION

In accordance with 10 U.S.C. 2334(a), the Director, Cost Assessment and Program Evaluation (CAPE), is directed to conduct or approve Independent Cost Estimates (ICEs) in advance of certain milestones for all major defense acquisition programs and major subprograms. In addition, Department of Defense Instruction 5000.73 outlines the responsibilities of the Director, CAPE in providing estimates and expresses the policy of the Department for its use. It is noted that Instruction 5000.73 defines an ICE as “a full life-cycle cost estimate of a program and includes: All costs of development, procurement, military construction, operations and support, disposal, and trained manpower to operate, maintain, and support the program or subprogram upon full operational deployment, without regard to funding source or management control.”

The congressional defense committees view ICEs as a critical source of information about programs consuming billions of taxpayer dollars. For the purpose of recommending appropriations, the committees

routinely review ICEs along with program requirements information and cost, schedule and performance data, to include acquisition decision memoranda and test and evaluation master plans. Timely and complete submission of all documents to the congressional defense committees is necessary to conduct oversight and should be done as a routine matter. The Deputy Secretary of Defense is directed to provide ICEs to the congressional defense committees for all major defense acquisition programs and major subprograms included in the President's budget request and accompanying future years defense program, as well as those directed by the congressional defense committees.

CONGRESSIONAL LIAISON OFFICES

Department of Defense Appropriations Acts have long maintained restrictions on the use of funds to consolidate the budget or appropriations liaison office of the Office of the Secretary of Defense, the Office of the Secretary of a military department, or the service headquarters of one of the Armed Forces into a legislative affairs or legislative liaison office. The House and Senate Appropriations Committees continue to support the dedication of liaisons to the specialized work of the Committees and want to ensure that these offices have the staff and resources they need to be effective. Therefore, not later than 90 days after the enactment of this Act, the Secretary of Defense is directed to submit proposals and recommendations to the House and Senate Appropriations Committees to strengthen the budget and appropriations liaison offices to improve coordination within the Department of Defense and the House and Senate Appropriations Committees for the vital work performed by each institution. These proposals and recommendations should include an examination of rank and promotion parity, civilian and military integration within each office, and other proposals deemed appropriate by each Service. Furthermore, the Secretary of Defense is directed to maintain and fill no fewer than nine liaison positions in the Office of the Under Secretary of Defense (Comptroller), Budget and Appropriations Affairs during fiscal year 2021.

READINESS

The agreement recommends an additional \$300,500,000 in title VIII of this Act to be transferred to the operation and maintenance accounts and be divided proportionately among the Services and the National Guard and reserve components. This funding shall be used only to improve military readiness, including increased training, depot maintenance, and base operations support. None of the funding provided may be used for recruiting, marketing, or advertising programs. The funding provided is a congressional special interest item. The Secretary of Defense and the Service Secretaries are directed to submit a detailed spending plan by sub-activity group to the House and Senate Appropriations Committees not less than 30 days prior to the obligation of these funds. These transfers may be implemented 30 days after congressional notification unless an objection is received from either the House or Senate Appropriations Committees.

F-35 PRODUCTION

The fiscal year 2021 President's budget request includes 79 F-35 Joint Strike Fighters (JSF), 19 fewer than were provided in the Department of Defense Appropriations Act, 2020 (Public Law 116-93). The agreement notes that the Department of Defense continues to request fewer than 60 F-35A variants and the F-35B procurement profile was reduced to ten aircraft in the fiscal year 2021 President's budget request, five fewer than were planned in the fiscal year 2020 President's

budget for fiscal year 2021. The agreement notes that the reduction in F-35Bs was partially offset by an increase in the Marine Corps' request for F-35Cs as part of force structure decisions. As a result, the agreement recommends an additional \$1,129,000,000 to procure 12 additional F-35As in fiscal year 2021, as delineated in the Air Force's unfunded priorities list. In addition, the agreement recommends \$518,400,000 to procure five additional F-35Cs for the Navy and Marine Corps.

The Department of Defense took several actions in prior years to prepare for Turkey's removal from the F-35 program, including changes to its supply base and supply chain to accommodate the loss of Turkish industrial participation. However, the agreement notes that full transition away from Turkish parts will not occur until delivery of lot 14 is complete. Therefore, not later than 60 days after the enactment of this Act, and quarterly thereafter through final delivery of lot 14 aircraft, the Program Executive Officer, F-35 Joint Program Office, is directed to submit a report to the congressional defense committees on the status of contributions by Turkish suppliers to the F-35 supply chain. The report shall also include efforts by the prime contractor and the Department to ensure compliance with section 1245 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92) and updates on the production and delivery schedule for lot 14 aircraft.

F-35 PARTS REIMBURSEMENT

The prime vendor for the Joint Strike Fighter and the Department of Defense are in negotiation regarding reimbursement to the Department for parts delivered that were considered inadequate for installation. The Program Executive Officer, F-35 Joint Program Office, in coordination with the Assistant Secretary of the Air Force (Acquisition, Technology and Logistics) and the Assistant Secretary of the Navy (Research, Development and Acquisition) is directed to include, in the President's budget request for fiscal year 2022, budgetary information that reflects the sum of any credited funds and the budgetary lines in which the Service will apply those credits to reduce program costs.

F-35 ECONOMIC ORDER QUANTITY

The fiscal year 2021 President's budget request for F-35 includes \$492,063,000 for economic order quantity (EOQ) materials for 254 United States F-35 aircraft to be procured in fiscal years 2021 through 2023 (lots 15-17). This is the second and final tranche of EOQ requested by the Program Executive Officer, F-35 Joint Program Office (JPO) for lot 15-17 aircraft following \$543,730,000 requested by the JPO and appropriated by the Congress in fiscal year 2020 for that purpose. Typically, EOQ authorization and appropriations provide bulk purchasing authority of components under a multi-year procurement per 10 U.S.C. 2306(b). Requesting authority and funding for EOQ outside of a certified multi-year procurement is highly unusual. Nevertheless, in order to achieve program cost savings in excess of \$400,000,000, the JPO first requested and Congress authorized and appropriated EOQ absent a multi-year procurement for F-35 in fiscal year 2018 for aircraft purchased in fiscal years 2018 through 2020 (lots 12-14). However, the savings estimated by the JPO in support of that EOQ did not materialize to the extent projected. Further, despite receiving EOQ as requested in fiscal year 2020 for 270 United States aircraft to be procured in lots 15-17, the fiscal year 2021 budget submission reduced the quantity of United States aircraft to be procured in lots 15-17, calling into question the value of purchasing bulk material using EOQ authority and appropriations, and the ability to generate the savings previously estimated.

The lack of savings materialized and continued adjustments to F-35 aircraft quantities year-over-year call into question whether appropriations for EOQ should continue to be provided to the F-35 program. However, changes to funding, contracting, and acquisition strategies mid-stream could have detrimental effects on program costs and the supplier base. Therefore, the agreement provides full funding for the EOQ requested in fiscal year 2021 for lots 15-17 as this is the final EOQ request for these aircraft. The Director, Cost Assessment and Program Evaluation, is directed to submit to the congressional defense committees, with the submission of the fiscal year 2022 President's budget request, an estimate of cost savings materialized for lot 15-17 aircraft directly resulting from EOQ appropriated in fiscal years 2020 and 2021. Finally, the agreement contains a rescission of \$28,167,000 for fiscal year 2020 EOQ for lot 15-17 aircraft the JPO no longer plans to procure.

BUDGETING FOR F-35 MODERNIZATION

The fiscal year 2021 President's budget request includes \$14,186,886,000 for development, production, and sustainment of the F-35, including \$1,578,760,000 for follow-on modernization of the F-35A, F-35B, and F-35C aircraft to provide 513 additional individual capabilities. It is noted that the Department of Defense has budgeted \$5,731,731,000 from fiscal year 2021 through fiscal year 2025 for these follow-on modernization efforts, and that the total estimate for the follow-on modernization program is \$17,900,000,000. Follow-on modernization of the F-35 continues to be supported by the congressional defense committees, and despite some concerns with the ability to measure delivered software updates against planned capabilities as well as the delayed synchronization of fielded aircraft capabilities and the ability to maintain associated training cycles, the Department's adopted acquisition strategy of Continuous Capability Development and Delivery (C2D2) for follow-on modernization is not objected to at this time. However, there are concerns with the Department's approach to budgeting for C2D2 and the lack of detail in the budget justification materials. For instance, the "R-2A Project Justification" and "R-3 Project Cost Analysis" for Air Force, Navy, and Marine Corps C2D2 budget exhibits do not trace to funds requested in the respective program elements for projects in that fiscal year, nor to the project level execution data provided during the congressional budget review process. Further, there are concerns with project level funding adjustments in the year of budget execution, as well as with repeated adjustments to the budget request for follow-on modernization after the submission of the budget request.

In order to ensure visibility into follow-on modernization cost and performance, and traceability of appropriated and requested funding to fielded capabilities, the project structure for F-35 C2D2 needs to be revised. Upon consultation with the Program Executive Officer, F-35 Joint Program Office, this revision is detailed in the project level tables accompanying the Research, Development, Test and Evaluation, Navy and Research, Development, Test and Evaluation, Air Force appropriation accounts in this explanatory statement. The Program Executive Officer, F-35 Joint Program Office, is directed to follow this revised project structure for C2D2 in future budget submissions, to include all justification materials, budget briefs, and execution updates. Further, while visibility into international contributions to the C2D2 program is appreciated, the agreement recommends appropriations for United States requirements only. Therefore, the budget justification materials should only reflect the request for those appropriations.

NEW BUDGET EXHIBIT CAPTURING SAVINGS FROM PROPOSED FORCE STRUCTURE CHANGES

The Under Secretary of Defense (Comptroller) and the Assistant Secretary of the Air Force (Financial Management and Comptroller) are directed to collaborate with the House and Senate Appropriations Committees to create a budget exhibit that will display the savings assumed in the budget request for aircraft retirements and divestitures to be submitted with each President's budget request. The display shall have a separate page for each aircraft type/model/series that shall include, but not be limited to, quantities of aircraft impacted, funding changes by appropriation and line item through the entire future years defense program, and a narrative explaining how the funding change for each line was derived. Discussions on this new budget exhibit are expected to begin not later than 45 days after the enactment of this Act. The exhibit shall be included in the justification materials submitted with the fiscal year 2023 President's budget request.

CLOUD COMPUTING SERVICES BUDGET EXHIBIT

The Chief Information Officer of the Department of Defense is directed to provide a separate narrative page to be included after the funding table for each military Service and defense agency in the budget exhibit titled "Department of Defense FY 2021 Cloud Profile and Budget Estimates". The narrative shall address the factors driving any funding changes between fiscal years by appropriation; a description of the strategies each military Service and defense agency will use to implement cloud computing, including a timeline; and how these strategies will be incorporated into the Department's overall enterprise cloud environment.

MISSILE DEFENSE AGENCY BUDGET REQUEST, PRIORITIES, AND UNFUNDED REQUIREMENTS

The fiscal year 2021 President's budget request for the Missile Defense Agency (MDA) totals \$9,133,668,000 (excluding appropriations for Military Construction), a decrease of \$1,273,122,000 from amounts enacted for fiscal year 2020. Separately, with submission of the fiscal year 2021 President's budget request, the Director, MDA, submitted to the congressional defense committees a list of unfunded MDA requirements for fiscal year 2021 totaling \$969,222,000. The apparent disconnect among the 2017 National Security Strategy, the 2018 National Defense Strategy, the 2020 Missile Defense Review (which defines missile defense as "an essential component of United States national security and defense strategies"), and the fiscal year 2021 President's budget request for MDA is concerning. In particular, ongoing acquisition programs that were identified as high priority within MDA's architecture as recently as one year ago, such as the development of a space sensor for the tracking of hypersonic threats and ballistic missiles, the development of an interceptor against hypersonic weapons, and the procurement of a radar for the defense of Hawaii, have been removed from MDA's budget, or underwent significant funding reductions. The inconsistencies are concerning, and greater programmatic and fiscal alignment consistent with the aforementioned documents among the Director, MDA; the Under Secretary of Defense (Research and Engineering); the Under Secretary of Defense (Acquisition and Sustainment); the Under Secretary of Defense (Comptroller); the Deputy Secretary of Defense; the Director, Cost Assessment and Program Evaluation; and the Director, Office of Management and Budget, is expected in future budget submissions. A total of \$10,464,614,000 is recommended for MDA activities for fiscal year 2021, an increase of \$1,330,946,000 above the re-

quest, and the Director, MDA is directed to provide the congressional defense committees, not later than 30 days after the enactment of this Act, updated acquisition and spend plans for MDA's fiscal year 2021 appropriations.

MISSILE DEFENSE AGENCY WORKFORCE

The fiscal year 2021 President's budget request proposes a reduction to the Missile Defense Agency's (MDA) civilian workforce by 35 full-time equivalents (FTEs). It is noted that over the last four years, MDA's civilian FTEs have been reduced by more than four percent and that the fiscal year 2021 future years defense program proposes to further reduce MDA's civilian FTEs by more than five percent from current levels—even as MDA's workload continues to grow during that timeframe. Further, the assessment directed in Senate Report 116-103 regarding MDA's required workforce size, qualifications, and makeup to address MDA requirements has not been submitted to the congressional defense committees. Therefore, the fiscal year 2021 proposal to further reduce MDA's civilian FTE is rejected, and an increase of \$15,000,000 in fiscal year 2021 to restore these MDA personnel reductions is recommended. Further, it is directed that no adjustments may be made to MDA's workforce size, structure, and organization until 30 days after the Deputy Secretary of Defense, acting directly through the Director, MDA, briefs the congressional defense committees on any such proposed adjustments.

HYPERSONIC AND BALLISTIC TRACKING SPACE SENSOR

The fiscal year 2021 President's budget request includes no funds for the Missile Defense Agency (MDA) to continue the development of a Hypersonic and Ballistic Tracking Space Sensor (HBTSS) program, which is required to detect and track hypersonic threats and ballistic missiles. It is noted that MDA began this program in fiscal year 2013 and that the Director, MDA has repeatedly identified HBTSS as a top acquisition program for MDA.

The Space Development Agency (SDA) and MDA will share responsibility for developing and deploying the HBTSS architecture and constellation under a joint Memorandum of Agreement that defines each agency's roles and responsibilities, and SDA's development efforts are fully funded elsewhere within the Research, Development, Test and Evaluation, Defense-Wide appropriation. With the fiscal year 2021 budget request, the Director, MDA, in response to Senate Report 116-103, submitted to the congressional defense committees a limited acquisition strategy for HBTSS. Details regarding the overall space architecture to be developed and fielded by SDA and MDA and cost estimates were not included. Therefore, the Directors, SDA and MDA are directed to jointly provide to the congressional defense committees, with submission of the President's fiscal year 2022 budget request, the comprehensive acquisition strategy for HBTSS, including the components of the architecture, respective fielding plans, contract-type determinations and rationales therefor, plans for technical data management, integrated master test plans and integrated master schedules, as well as cost estimates by element and for the overall strategy. A total of \$130,000,000 is recommended for MDA's HBTSS sensor efforts in fiscal year 2021, to include a transfer of \$10,000,000 of funds for HBTSS requested within SDA's budget, and it is expected that this program will be fully funded in future budget submissions for both MDA and SDA.

BUDGETING FOR MISSILE DEFENSE AGENCY TEST EVENTS

The fiscal year 2021 President's budget request includes \$1,287,008,000 for Missile De-

fense Agency (MDA) test events and associated test infrastructure. Regular and realistic testing of the ballistic missile defense system to prove out missile defense capabilities, increase engagement capability and capacity, and build warfighter confidence is strongly supported. However, the repeated volatility of the MDA's annual test plans resulting in schedule adjustments, test delays, and the cancellation of previously planned and budgeted flight tests in the year of execution, is concerning. Funds for MDA's fiscal year 2021 budget request for test events are recommended per the supplemental test event budget briefing materials provided to the House and Senate Appropriations Committees, as modified by the table of "Project Level Adjustments" in the explanatory statement accompanying this Act, and MDA's test budget is designated as a congressional special interest item for the purpose of Base for Reprogramming.

HOMELAND DEFENSE RADAR—HAWAII

The President's fiscal year 2021 budget request includes no funds to continue acquisition of a Homeland Defense Radar on Hawaii. A discrimination radar on Hawaii is an important part of the architecture for United States homeland defense, and the Missile Defense Agency (MDA) awarded a fixed-price incentive contract for the production of this radar in December 2018. In order to maintain efficient production of the radar, an additional \$133,000,000, only to be used for the Homeland Defense Radar—Hawaii, is recommended.

The site selection for the radar has been delayed due to locations previously under consideration no longer being considered viable, and one alternate location ("#4") on the Pacific Missile Range Facility (PMRF) will be added to the environmental impact statement for full environmental analysis. The House and Senate Appropriations Committees look forward to receiving the results of that analysis in a timely manner. Further, the Director, MDA is directed to submit a report to the congressional defense committees, not later than 30 days after the enactment of this Act, regarding the viability of PMRF site #4 as an alternative site for Homeland Defense Radar—Hawaii, and this report shall detail the planning process between MDA and the Navy regarding validation of PMRF site #4 as an alternative site, to include steps taken to complete an assessment of a radar's impact on PMRF training range operations and an estimated timeline for completion of the environmental review and issuance of a record of decision. In addition, the Secretary of the Navy and the Commander, United States Pacific Fleet, are directed to jointly provide the congressional defense committees, not later than with the submission of the fiscal year 2022 President's budget request, an independent assessment regarding the impact of locating a Homeland Defense Radar—Hawaii at PMRF site #4 on Navy and Marine Corps operations, including any mitigations the Navy and Marine Corps would require and associated cost estimates.

AEGIS BASELINES BUDGET ESTIMATES

As previously expressed in Senate Report 116-103, concerns remain with the lack of stability of the scope and costs of AEGIS "baselines" and inadequate budget justification materials. The Missile Defense Agency Program Executive, Sea-Based Weapons Systems and the Department of the Navy Program Executive Officer, Integrated Warfare Systems are directed to provide to the congressional defense committees, not later than 30 days after the enactment of this Act, a joint acquisition baseline for AEGIS development efforts.

SUPPORT TO THE DEPARTMENT OF HEALTH AND
HUMAN SERVICES FOR THE STRATEGIC NA-
TIONAL STOCKPILE

The agreement recognizes the Department of the Army's capabilities in additive manufacturing that may enhance preparedness and be leveraged in the event of a public health emergency requiring activation of critically needed medical supplies from the Strategic National Stockpile. The Secretary of Defense is urged to work with the Secretary of Health and Human Services (HHS)

to provide technical manufacturing expertise to the Strategic National Stockpile for the provision of components of medical supplies and devices to replenish depleted stocks, provide surge capacity, and maintain the stockpile over time. Further, the agreement directs the Secretary of Defense to submit a report to the congressional defense committees, not later than 180 days after the enactment of this Act, detailing the Department's work with HHS to support the Strategic National Stockpile.

CHIMPANZEES ON AIR FORCE PROPERTY

The Secretary of the Air Force is encouraged to work with the Director of the National Institutes of Health to seek alternative arrangements for the housing and care of chimpanzees currently residing on Air Force property.

TITLE I—MILITARY PERSONNEL

The agreement provides \$157,807,905,000 in Title I, Military Personnel, as follows:

MILITARY PERSONNEL OVERVIEW

The agreement provides the resources required for 1,348,600 active forces and 802,000 selected reserve forces in order to meet operational needs for fiscal year 2021. The agreement also provides the funding necessary to support a 3 percent pay raise for all military personnel, effective January 1, 2021.

REPROGRAMMING GUIDANCE FOR MILITARY PERSONNEL ACCOUNTS

(INCLUDING BASE AND OVERSEAS CONTINGENCY OPERATIONS FUNDING)

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2021 appropriations accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Defense Appropriations Subcommittees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' military personnel accounts between budget activities in excess of \$10,000,000.

MILITARY PERSONNEL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the explanatory statement. Below threshold reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

RESERVE COMPONENT BUDGET REPORTING

The Secretary of Defense is directed to provide a semi-annual detailed report to the congressional defense committees which shows transfers between sub-activities within the military personnel appropriation. Reports shall be submitted not later than 30 days after the end of the second quarter and not later than 30 days after the end of the fiscal year.

SUICIDE PREVENTION AND OUTREACH

The agreement adopts the reporting requirements contained under the heading “Suicide Prevention and Outreach” in House Report 116-453 but changes the reporting requirement frequency from monthly to semi-annually.

MILITARY PERSONNEL AND EXTREMIST IDEOLOGIES

The Secretary of Defense shall, not later than 120 days after the enactment of this Act, provide the congressional defense committees with an update to the report on military personnel and extremist or criminal groups submitted to Congress on January 24, 2020. The report shall describe new policy and personnel actions taken since the preceding report and provide additional information on the types of extremist or criminal groups involved in such personnel actions. Details may be provided by a classified appendix, if required.

MILITARY PERSONNEL, ARMY

The agreement provides \$44,861,853,000 for Military Personnel, Army, as follows:

REPROGRAMMING GUIDANCE FOR OPERATION
AND MAINTENANCE ACCOUNTS
(INCLUDING BASE AND OVERSEAS CONTINGENCY
OPERATIONS FUNDING)

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2021 appropriation accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Defense Appropriations Subcommittees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities, or between sub-activity groups in the case of Operation and Maintenance, Defense-Wide, in excess of \$10,000,000. In addition, the Secretary of Defense shall follow prior approval reprogramming procedures for transfers in excess of \$10,000,000 out of the following readiness sub-activity groups:

- Army:*
Maneuver units
Modular support brigades
Land forces operations support
Aviation assets
Force readiness operations support
Land forces depot maintenance
Base operations support
Facilities sustainment, restoration, and modernization
Specialized skill training
Navy:
Mission and other flight operations
Fleet air training
Aircraft depot maintenance
Mission and other ship operations
Ship depot maintenance
Facilities sustainment, restoration, and modernization
Marine Corps:
Operational forces
Field logistics
Depot maintenance
Facilities sustainment, restoration, and modernization
Air Force:
Primary combat forces
Combat enhancement forces
Depot purchase equipment maintenance
Facilities sustainment, restoration, and modernization
Contractor logistics support and system support
Flying hour program
Air Force Reserve:
Primary combat forces
Air National Guard:
Aircraft operations
Additionally, the Secretary of Defense is directed to use normal prior approval reprogramming procedures when implementing transfers in excess of \$10,000,000 into the following budget sub-activities:
Operation and Maintenance, Army:
Recruiting and advertising
Operation and Maintenance, Army National Guard:
Other personnel support/recruiting and advertising

OPERATION AND MAINTENANCE SPECIAL
INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated

amount as specifically addressed in the explanatory statement. Below threshold reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

OPERATION AND MAINTENANCE BUDGET
EXECUTION DATA

The Secretary of Defense is directed to continue to provide the congressional defense committees with quarterly budget execution data. Such data should be provided not later than 45 days after the close of each quarter of the fiscal year, and should be provided for each O-1 budget activity, activity group, and sub-activity group for each of the active, defense-wide, reserve, and National Guard components. For each O-1 budget activity, activity group, and sub-activity group, these reports should include the budget request and actual obligation amount, the distribution of unallocated congressional adjustments to the budget request, all adjustments made by the Department in establishing the Base for Reprogramming (DD Form 1414) report, all adjustments resulting from below threshold reprogrammings, and all adjustments resulting from prior approval reprogramming requests.

DEPARTMENT OF DEFENSE ACQUISITION
WORKFORCE

The fiscal year 2021 President's budget request proposes to transfer \$140,320,000 from the Department of Defense Acquisition Workforce Development Account (DAWDA) to the Services' operation and maintenance accounts for the acquisition workforce. This transfer is supported as requested, and details are displayed in the table below. The funding in the table is designated as a congressional special interest item for the purpose of Base for Reprogramming. It is directed that the Under Secretary of Defense (Comptroller) and the Service Secretaries shall use normal prior approval reprogramming procedures prior to obligating or expending these funds for any purpose other than the acquisition workforce.

Operation and Maintenance, Army	\$37,640,000
Operation and Maintenance, Navy	60,620,000
Operation and Maintenance, Air Force	42,060,000
Total	140,320,000

While the fiscal year 2021 Service budget justification materials show the transfer of funds from the DAWDA, it is noted that these funds are encompassed within large funding lines, which limits visibility and insight into, and execution of, requested funding specifically for the acquisition workforce. Therefore, with submission of the fiscal year 2022 President's budget request, the respective Service acquisition executives are directed to provide a report to the congressional defense committees identifying their respective acquisition workforce requirements in support of the acquisition programs included in the fiscal year 2022 future years defense program. Further, the respective Service financial managers and comptroller of the Army, Navy, and Air Force are directed to certify, with submission of the fiscal year 2022 President's budget request, to the congressional defense committees, that these acquisition workforce requirements are fully funded in the fiscal year 2022 President's budget request.

The Under Secretary of Defense (Comptroller), in coordination with the respective Service acquisition executives and financial managers and comptroller, is directed, beginning with the fiscal year 2023 President's budget request, to establish unique defense acquisition workforce sub-activity groups for each operation and maintenance account

that contains such funding. Further, the Under Secretary of Defense (Comptroller), in coordination with the respective Service acquisition executives and financial managers and comptroller, is directed to work with the House and Senate Appropriations Committees to develop performance criteria metrics to be included in the OP-5 budget exhibit for the new sub-activity group in order to increase visibility and clarity into funding for the defense acquisition workforce.

REPROGRAMMING GUIDANCE FOR SPECIAL
OPERATIONS COMMAND

The agreement directs the Secretary of Defense to submit a baseline report that shows the Special Operations Command's operation and maintenance funding by sub-activity group for the fiscal year 2021 appropriation not later than 60 days after the enactment of this Act. The Secretary of Defense is further directed to submit quarterly execution reports to the congressional defense committees not later than 45 days after the end of each fiscal quarter that addresses the rationale for the realignment of any funds within and between budget sub-activities and the movement of any base funds used to support overseas contingency operations. Finally, the Secretary of Defense is directed to notify the congressional defense committees 30 days prior to the realignment of funds in excess of \$10,000,000 between sub-activity groups.

DEPARTMENT OF DEFENSE AUDIT

The Under Secretary of Defense (Comptroller), in coordination with the respective Service Financial Manager and Comptroller, is directed to develop a budget exhibit, for submission with the fiscal year 2022 President's budget request, detailing the costs of the Department of Defense audit. The exhibit shall include three separate budget tables; one showing costs for Audit Services, one for Audit Support, and one for Remediation, which includes remediating audit findings related to financial systems. Each table shall include the following elements:

- (1) Appropriation
- (2) Budget line item number/sub-activity group
- (3) Budget line item title
- (4) Prior year dollars in thousands (showing actuals)
- (5) Current year dollars in thousands
- (6) Budget year dollars in thousands
- (7) Description, which shall define what the funds in each line item purchase
- (8) Explanation of change, which shall explain any significant changes between the current year projection and the budget request.

SPARE PARTS STOCK

The Service Secretaries and the Director of the Defense Logistics Agency are directed to conduct analysis on spare parts requirements to determine the spares levels necessary to enable the armed forces to fulfill the strategic and contingency plans in accordance with the National Defense Strategy.

OPERATION AND MAINTENANCE BUDGET
JUSTIFICATION

The agreement recommends two changes to the budget justification documents to further inform the congressional review. First, the Secretary of the Air Force shall include the average FTE cost (annual average salary) in the Personnel Summary section of the OP-5 exhibit for each sub-activity group. This direction applies to all Air Force components. Second, for the Operation and Maintenance, Defense-Wide appropriation, the Secretary of Defense shall submit a separate OP-5 and OP-32 exhibit for each line that is requested on the O-1 breakout of Operation and Maintenance Programs.

PER- AND POLYFLUOROALKYL SUBSTANCES
CLEANUP COST REPORTING

The agreement adopts the reporting requirements contained under the heading “Per- and Polyfluoroalkyl Substances Cleanup Cost Reporting” in House Report 116-453 but changes the reporting requirement frequency from quarterly to semi-annually.

DRINKING WATER CONTAMINATION

The Director of the Department of Defense PFAS Task Force is directed to brief the House and Senate Appropriations Committees not later than 180 days after the enactment of this Act on research efforts regarding aqueous film forming foam replacement solutions and alternatives, to include cost implications and the testing of products to ensure they meet military standards.

STANDARDS AND PROTOCOLS ON COUNTERING
CYBERSECURITY INCIDENTS

The agreement adopts the reporting requirements contained under the heading “Standards and Protocols on Countering Cybersecurity Incidents” in House Report 116-453 but designates the Secretary of Defense to the consulting role as opposed to the lead for this deliverable.

COLLECTIVE BARGAINING

There are concerns with a January 29, 2020, Presidential memorandum delegating to the Secretary of Defense the President’s longstanding authority to exclude Department of Defense agencies and subdivisions from being covered under the Federal Service Labor-Management Relations Statute pursuant to 5 U.S.C. Section 7103(b)(1) or (2) of title 5, which outlines collective bargaining rights for Federal employees. Acknowledging the risks associated with broadly exempting agencies or subdivisions that have been operating successfully without the exemption, Secretary of Defense is expected to continue to apply rigorous internal processes requiring Department of Defense components to submit significant documentation to support any request to exclude its agencies or subdivisions from collective bargaining.

FEDERAL LAW ENFORCEMENT

The agreement notes that the explanatory statement accompanying the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2021 directs the Attorney General to ensure implementation of evidence-based training programs on de-escalation and the use-of-force, as well as on police-community relations, that are broadly

applicable and scalable to all Federal law enforcement agencies. The agreement further notes that several agencies funded by this Act employ Federal law enforcement officers and are Federal Law Enforcement Training Centers partner organizations. The agreement directs such agencies to consult with the Attorney General regarding the implementation of these programs for their law enforcement officers. The agreement further directs such agencies to brief the Committees on Appropriations on their efforts relating to such implementation no later than 90 days after consultation with the Attorney General. In addition, the agreement directs such agencies, to the extent that they are not already participating, to consult with the Attorney General and the Director of the FBI regarding participation in the National Use-of-Force Data Collection. The agreement further directs such agencies to brief the Committees on Appropriations, no later than 90 days after enactment of this Act, on their current efforts to so participate.

OPERATION AND MAINTENANCE, ARMY

The agreement provides \$38,418,982,000 for Operation and Maintenance, Army, as follows:

DYNAMIC FORCE EMPLOYMENT

The agreement provides a total of \$250,000,000 in Operation and Maintenance, Army for Dynamic Force Employment and designates the funding a congressional special interest item. The Secretary of Defense is directed to submit a quarterly report on the use of the Dynamic Force Employment funds for any and all activities or exercises for which funds are utilized in fiscal year 2021. The reports shall include, but not be limited to, the following elements for each exercise: title, date, location, which Services and units participated (with an estimated number of participants), total cost by budget

line item (with a breakdown by cost element such as transportation and repair parts), and a short explanation of the objective. The reports shall be submitted to the congressional defense committees not later than 30 days after the close of each quarter of the fiscal year.

PILOT PROGRAM FOR ONLINE REAL ESTATE
INVENTORY TOOLS

The agreement recommends an additional \$1,500,000 which the Secretary of the Army shall use for a pilot program to pursue the use of information technology tools to better market space available and more quickly determine which real estate should be divested

to further achieve efficiencies within the United States Army Installation Management Command. The Secretary of the Army is directed to provide a report to the House and Senate Appropriations Committees not later than May 1, 2021, that includes a list of installations selected for the pilot program, an outline for the deployment of this capability to the selected installations, and a cost estimate to expand the tool to all Army installations.

OPERATION AND MAINTENANCE, NAVY

The agreement provides \$47,632,527,000 for Operation and Maintenance, Navy, as follows:

NAVAL SHIPYARD APPRENTICE PROGRAM

The Secretary of the Navy is directed to induct classes of not fewer than 100 apprentices at each of the respective naval shipyards and to include the costs of the fiscal year 2022 class of apprentices in its budget request.

UNITED STATES COAST GUARD

The agreement directs that funds appropriated under Operation and Maintenance, Navy may be used to pay overhead costs in-

curred by a naval shipyard when drydocking United States Coast Guard ships.

PACIFIC UNDERWATER TRAINING RANGES

The Secretary of the Navy is directed to provide a report to the House and Senate Appropriations Committees detailing the Navy's plans for the Barking Sands Tactical Underwater Range and Barking Sands Underwater Range Expansion not later than 180 days after the enactment of this Act. The report shall include a budgetary plan and

timeline to recapitalize and modernize the ranges and interim risk reduction efforts to ensure that the ranges can continue to deliver a realistic environment for testing and training until the Navy completes its full recapitalization and modernization plan.

AIR FORCE PILOT SHORTAGE

House Report 116-453 included language expressing concerns with the Air Force's pilot shortage and directed the Secretary of the Air Force to provide a report on augmenting pilot training. While the Air Force is undertaking numerous initiatives to address the issue, there is still concern that these initiatives, when combined, will not increase pilot production to meet National Defense Strategy requirements. Therefore, the Commander of Air Education and Training Command and the Deputy Chief of Staff of Operations at United States Air Force Headquarters are directed to brief the House and Senate Appropriations Committees not later

than 45 days after the enactment of this Act and quarterly thereafter on the status of the Air Force's pilot shortfall and all efforts aimed to address it. The briefing shall, at a minimum, include an update on the development of the Service's strategic plan to address the shortage, the metrics used to measure the effectiveness of all lines of effort, data comparing actual pilot production and monthly targets for each phase of training for all tracks, information on the impact of trainer aircraft maintenance and associated logistics efforts impacting the pilot training shortage to include aircraft availability rates for each platform, simulator usage and availability data, pilot retention metrics, and a comprehensive summary of all appro-

priated funds expended to date for each line of effort aimed at addressing the pilot shortfall.

UNCONTAMINATED WATER FOR AGRICULTURAL PURPOSES

The Secretary of Defense and the Secretary of the Air Force are urged to implement section 343 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92).

OPERATION AND MAINTENANCE, SPACE FORCE

DEFENSE POW/MIA ACCOUNTING AGENCY

The agreement supports the significant remains recovery goals outlined in the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84) and commends the Defense POW/MIA Accounting Agency for undertaking partnership arrangements with Carnegie R1 research universities to more effectively account for missing personnel and ensure families receive more timely information. The Director of the Defense POW/MIA Accounting Agency is directed to brief the House and Senate Appropriations Committees not later than 60 days after the enactment of this Act on plans for expanding these partnership arrangements into a systematic research and recovery process, through partnerships with Carnegie R1 research universities, focusing on prioritized World War II accounting efforts.

ENHANCING THE CAPABILITY OF MILITARY CRIMINAL INVESTIGATIVE ORGANIZATIONS TO PREVENT AND COMBAT CHILD SEXUAL EXPLOITATION

A designee of the Secretary of Defense is directed to brief the House and Senate Appropriations Committees, not later than 30 days after the enactment of this Act, an update on the initiative established under Section 550D of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92). The briefing shall also address opportunities within the following subject matters: establishing cooperative agreements and co-training with the relevant federal, state, local, and other law enforcement agencies; integrating child protective services and organizations into the initiative; and implementing recommendations made in the Government Accountability Office's report titled "Increased Guidance and Collaboration Needed to Improve DoD's Tracking and Response to Child Abuse" (GAO-20-110).

SEXUAL ASSAULT PREVENTION PLAN OF ACTION

The agreement recommends an additional \$7,500,000 for the Sexual Assault Prevention and Response Office for continued implementation of the Prevention Plan of Action and to fund prevention efforts throughout the Services. The Director of the Sexual Assault Prevention and Response Office is directed to brief the House and Senate Appropriations Committees on its spend plan for the \$7,500,000 not later than 90 days after the enactment of this Act.

DEFENSE LANGUAGE AND NATIONAL SECURITY EDUCATION OFFICE

The agreement designates the funding included in the fiscal year 2021 President's budget request for the Language Training Centers as a congressional special interest item and directs that the funding profile for the Language Training Centers in total for the prior year, current year, and budget year be included in the Performance Criteria section of the Defense Human Resources Activity OP-5 budget exhibit in future budget submissions.

FEASIBILITY OF LANGUAGE AND CULTURAL COMPETENCY TRAINING FOR STATE PARTNERSHIP PROGRAM

The Secretary of Defense is directed to perform a feasibility study for a language skills and cultural competency pilot program through existing Defense Language and National Security Education Office contracts to benefit the State Partnership Program between National Guard units and partner governments. The pilot should look at multiple partnerships to provide insight into program design, curriculum, and utilization of accredited universities local to National Guard units to improve State Partnership Program interactions.

SERVICE-PROVIDED SUPPORT AND ENABLING CAPABILITIES TO UNITED STATES SPECIAL OPERATIONS FORCES

The agreement directs the Service Secretaries and the Secretary of Defense on behalf of the defense agencies to include with the fiscal year 2022 budget submission and each subsequent year thereafter, a consolidated budget justification display showing Service-common support and enabling capabilities contributed from each of the military Services and defense agencies to special operations forces. The report shall include a detailed accounting of the resources allocated by each Service or defense agency at the appropriation and line item level to provide combat support, combat service support, training, base operating support, pay and allowances, and enabling capabilities or other common services and support for special operations forces. The exhibit shall also include an identification of any changes in the level or type of support in the current fiscal year when compared to the preceding year.

THEATER SPECIAL OPERATIONS COMMAND ACTIVITIES

The agreement directs the Assistant Secretary of Defense (Special Operations/Low Intensity Conflict), in coordination with the Commander of United States Special Operations Command, the Service Secretaries, and the Chairman of the Joint Chiefs of Staff, to provide a report to the congressional defense committees on the activities of Theater Special Operations Commands (TSOCs). The report shall be provided not later than 15 days after submission of the fiscal year 2022 budget request and include a detailed accounting of activities performed by the TSOCs in the preceding year, current fiscal year, and current budget request submission at the budget line item level of detail. The report shall include a detailed accounting of resources allocated by the military Services, United States Special Operations Command, and the combatant commands.

MILITARY INFORMATION SUPPORT OPERATIONS

The agreement directs the Assistant Secretary of Defense (Special Operations/Low Intensity Conflict) to submit a report for military information support operations (MISO) activities for the individual geographic combatant commands justified by the main pillars of the National Defense Strategy to the House and Senate Appropriations Committees not later than 15 days upon submission of the fiscal year 2022 budget request and annually thereafter. The report shall include spend plans identifying the requested and enacted funding levels for both voice and internet activities and how those activities are coordinated with the Intelligence Community and the Department of State. The enacted levels will serve as the baseline for reprogramming in accordance with section 8007 of this Act. Furthermore, the agreement directs the Assistant Secretary of Defense (Special Operations/Low Intensity Conflict) to submit to the congressional defense committees, not later than 90 days after the end of the fiscal year, an annual report that provides details on each combatant commands' MISO activities by activity name, description, goal or objective, target audience, dissemination means, executed funds, and assessments of their effectiveness. Additional details for the report are included in the classified annex accompanying this Act.

FORCE DEPLOYMENT NOTIFICATIONS AND QUARTERLY REPORT

The agreement directs that not later than five days after a significant deployment or redeployment of military personnel to a location outside the United States, the Secretary of Defense shall submit to the con-

gressional defense committees a notification of the deployment, including the units and number of personnel deployed or redeployed and the location of the deployment. In addition, not later than 45 days after the enactment of this Act and quarterly thereafter, the Secretary of Defense shall submit to the congressional defense committees a report on the deployment of armed forces by each geographic combatant command. The report shall include the number of servicemembers, civilian employees, and contract personnel deployed, as well as the country and named operation, if applicable, to which such personnel are assigned.

BASE NOTIFICATION

The agreement directs that not later than 15 days after the date on which any foreign base that involves the stationing or operations of United States military personnel, including a temporary base, permanent base, or base owned and operated by a foreign country, is opened or closed, the Secretary of Defense shall notify the congressional defense committees in writing. The notification shall include the base location, dates of opening or closure, and any associated personnel changes, costs, or savings.

SECURITY FORCE ASSISTANCE BRIGADE QUARTERLY REPORT

The Secretary of Defense is directed to submit a report to the congressional defense committees, not later than 45 days after the enactment of this Act and quarterly thereafter, on deployments of Army security force assistance brigades to foreign countries to provide training or equipment to their security forces. The report shall include a description of each United States Army brigade and number of individuals deployed; the education and training provided to the brigade; a description of the amount, type, and purpose of the training or equipment provided; the authority under which the program was conducted; the recipient foreign country and the security forces; the timeline, cost, and the source of funds; arrangements made for the sustainment of the program; any prior assistance provided by a security force assistance brigade; and what was accomplished and how the training and equipment fits into the overall security cooperation goals of the country.

NOISE MITIGATION COMMUNITIES PARTNERSHIP

The agreement includes additional language to address the effects that jet noise has on communities. The Secretary of Defense is directed to continue to provide the reports required under this heading in House Report 116-453. The Federal Aviation Administration is the primary Federal agency for noise mitigation support to local communities to plan for and respond to commercial aircraft noise. The agreement expands the interaction between the Department of Defense and the Department of Transportation to ensure that assets of each individual program of both agencies work to alleviate the effects of noise on the communities as expeditiously as possible.

The agreement recognizes when military bases experience a change or expansion of mission, the rapid adjustment of noise contours is faster than local communities and existing land use planning and mitigation efforts can adjust. Therefore, the agreement provides \$50,000,000 to the Department of Defense Office of Economic Adjustment for assisting communities in adjusting their noise mitigation plans to be available for projects within a one mile or a 65 decibel Day-Night Average Sound Level contour as determined by sound studies, such as an environmental impact statement.

DEFENSE SECURITY COOPERATION AGENCY
PROGRAMS

The agreement does not include funding for a proposed National Defense Strategy Implementation Account. Instead, the agreement provides separate funding for International Security Cooperation Programs and the Combating Terrorism and Irregular Warfare Fellowship Program. The agreement provides \$55,840,000 above the budget request for countries in the Africa Command area of responsibility and \$46,156,000 above the budget request for countries in the Southern Command area of responsibility for International Security Cooperation Programs. The agreement directs that such amounts are in addition to requested program levels and shall only be obligated for additional programs within each respective combatant command.

Prior to the initial obligation of funds made available in titles II and IX of this Act for the Defense Security Cooperation Agency (DSCA), the Director of DSCA shall submit a spend plan for each program listed in the budget justification documents for DSCA to the House and Senate Appropriations Committees. For funds planned for International Security Cooperation Programs, the Director shall, in coordination with the commanders of each geographic combatant command, include amounts planned for each combatant

command and country, and a comparison to such amounts provided in the prior three fiscal years. Amounts in the spend plan shall only reflect amounts requested in the fiscal year 2021 budget justification materials and modified by the fiscal year 2021 appropriations adjustments in the table under this heading for DSCA. Prior to obligation of funds that would deviate from the plan, the Director shall provide an updated plan to such Committees outlining any changes between each program listed in the budget justification documents or between combatant commands or countries, and a justification for the changes. Concurrent with the submission of the fiscal year 2022 budget request, the Director shall also provide to such Committees a breakout of the request for International Security Cooperation Programs by combatant command and country.

This language replaces the funding levels specified in House Report 116-453 under the heading "Defense Security Cooperation Programs". The Secretary of Defense shall follow the other directives under this heading in House Report 116-453.

EL MOZOTE MASSACRE

Not later than 60 days after the date of enactment of this Act, the Secretary of Defense, in coordination with the Secretary of State, shall provide all relevant information

and documents to the appropriate judicial authorities in El Salvador investigating the December 1981 massacre in El Mozote. Additionally, not later than 30 days following such action, the Secretary of Defense shall submit a report to the Committees on Appropriations of the House of Representatives and the Senate describing the information and documents provided and the authorities that received them.

RENAMING INSTITUTIONS

The agreement does not adopt the language under the heading "Renaming Institutions" in House Report 116-453.

RESTRICTIONS ON TRANSFER OF ITEMS TO LAW
ENFORCEMENT

In lieu of Section 8132 of the House bill, the agreement supports section 1053 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 and directs the Department to provide a report detailing its compliance with such section not later than 120 days after the date of enactment of this Act and quarterly thereafter.

UNITED STATES COURT OF APPEALS
FOR THE ARMED FORCES

The agreement provides \$15,211,000 for the United States Court of Appeals for the Armed Forces.

ENVIRONMENTAL RESTORATION, ARMY

The agreement provides \$264,285,000, an increase of \$56,767,000 above the budget request, for Environmental Restoration, Army.

ENVIRONMENTAL RESTORATION, NAVY

The agreement provides \$421,250,000, an increase of \$85,318,000 above the budget request, for Environmental Restoration, Navy. Specifically, \$68,318,000 is provided as a general program increase and \$17,000,000 is provided to address costs associated with remediating contamination caused by perfluorinated chemicals.

ENVIRONMENTAL RESTORATION, AIR
FORCE

The agreement provides \$509,250,000, an increase of \$205,324,000 above the budget request, for Environmental Restoration, Air Force.

ENVIRONMENTAL RESTORATION,
DEFENSE-WIDE

The agreement provides \$19,952,000, an increase of \$10,847,000 above the budget request, for Environmental Restoration, Defense-Wide.

ENVIRONMENTAL RESTORATION,
FORMERLY USED DEFENSE SITES

The agreement provides \$288,750,000, an increase of \$72,163,000 above the budget request, for Environmental Restoration, Formerly Used Defense Sites.

OVERSEAS HUMANITARIAN, DISASTER,
AND CIVIC AID

The agreement provides \$147,500,000 for Overseas Humanitarian, Disaster, and Civic Aid, as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS (In thousands of dollars)		
	Budget Request	Final Bill
FOREIGN DISASTER RELIEF	20,000	35,000

Total, Department of Defense Acquisition Workforce Development Account	58,181	88,181

FUNDING FOR THE DEPARTMENT OF DEFENSE
ACQUISITION WORKFORCE

The fiscal year 2021 President's budget request proposes to transfer \$140,320,000 previously programmed in the Department of Defense Acquisition Workforce Development Account (DAWDA) to the Army, Navy, and Air Force operation and maintenance accounts for the acquisition workforce. These transfers are supported in this agreement, and the requirement to maintain visibility into funding for the acquisition workforce is addressed in the "Operation and Maintenance" section of this explanatory state-

ment. In addition, the fiscal year 2021 President's budget request includes \$58,181,000 in DAWDA. Support for the Department of Defense acquisition workforce is reiterated, and an additional \$30,000,000 for DAWDA training and development is provided due to increased demands on the acquisition workforce.

It is expected that the Under Secretary of Defense (Comptroller), the Under Secretary of Defense (Acquisition and Sustainment), the Director, Cost Assessment and Program Evaluation, as well as the Service acquisition executives and Service financial managers and comptroller will continue to include clearly identified and appropriate funding requests for the Department of Defense acquisition workforce in DAWDA and the Services' operation and maintenance appropriation accounts.

DEPARTMENT OF DEFENSE ACQUISITION
WORKFORCE REPORTING REQUIREMENTS

The Under Secretary for Defense (Acquisition and Sustainment) is directed to provide the Department of Defense Acquisition Workforce annual report to the congressional defense committees not later than 30 days after the submission of the fiscal year 2022 President's budget request. Further, as in previous years, the Under Secretary of Defense (Acquisition and Sustainment) is directed to provide to the congressional defense committees, with the submission of the fiscal year 2022 President's budget request, additional details regarding total funding for the acquisition workforce by funding category and appropriations accounts.

DEPARTMENT OF DEFENSE ACQUISITION WORK-
FORCE DEVELOPMENT ACCOUNT REPROGRAM-
MING GUIDANCE

The Secretary of Defense is directed to follow reprogramming guidance for the Department of Defense Acquisition Workforce Development Account (DAWDA) consistent with reprogramming guidance for acquisition accounts detailed elsewhere in this explanatory statement. The dollar threshold for reprogramming DAWDA funds remains \$10,000,000.

TITLE III—PROCUREMENT

The agreement provides \$136,532,968,000 in Title III, Procurement, as follows:

REPROGRAMMING GUIDANCE FOR ACQUISITION
ACCOUNTS
(INCLUDING BASE AND OVERSEAS CONTINGENCY
OPERATIONS FUNDING)

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). Specifically, the dollar threshold for reprogramming funds shall be \$10,000,000 for procurement and research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

PROCUREMENT SPECIAL INTEREST ITEMS

Items for which additional funds have been recommended or items for which funding is specifically reduced as shown in the project level tables detailing recommended adjustments or in paragraphs using the phrase "only for" or "only to" in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed elsewhere in the explanatory statement.

BUDGETING FOR ADVANCE PROCUREMENT

Advance procurement (AP) appropriations are provided as an exception to the policy of full funding of end items. AP funding is, by policy, for procurement of long lead items when early procurement allows for production schedules to be maintained.

In the fiscal year 2020 President's budget request, the Navy planned to procure 12 CH-53Ks in fiscal year 2021 and therefore requested and was subsequently appropriated \$215,000,000 in AP for those 12 aircraft. However, the fiscal year 2021 President's budget request includes \$813,324,000 in Aircraft Procurement, Navy for the procurement of seven CH-53K helicopters, a reduction of \$515,464,000 and a quantity of five aircraft from the amount identified in the prior year budget justification materials for fiscal year 2021. Not only did the Navy reduce the number of helicopters requested in fiscal year 2021 contrary to its prior year plans, it failed to fully budget for the procurement of the seven CH-53Ks requested. The budget request proposed to apply excess fiscal year 2020 AP appropriations to cover the balance of the fiscal year 2021 funding shortfall. This blurs the line between the purpose for AP funding and full funding of procurement items, which injects uncertainty into the industrial base, jeopardizes the stability of the program, and complicates oversight. In addition, downward adjustments to end items following the request for and receipt of advance procurement appropriations absent a clear rationale, such as a reduction in the acquisition objective or challenges with the industrial base, violate the agreement between the Department of Defense and the congressional defense committees with respect to granting exceptions to the full funding policy. Similar downward adjustments to end items following receipt of advance procurement appropriations occurred in the budget requests for the F-35A, F-35B, MQ-4, and several shipbuilding programs in recent years.

Therefore, the Under Secretary of Defense (Comptroller), in coordination with the Service acquisition executives, is directed to provide with the fiscal year 2022 President's budget request, and for each submission thereafter, for any program for which AP is requested, the following information to the congressional defense committees: a list of the long lead items to be procured and associated end item this material will be incorporated into, the quantity of each type of item, the unit cost of each type of item, the schedule for production of each of the items, an assessment of how much time and cost is saved by using advance procurement funding

to buy the long lead items requested, and certification that the balance of the funds for end items is included in the budget submission.

ARSENAL SUSTAINMENT INITIATIVE

The agreement continues to support the Secretary of the Army's efforts to ensure that the critical manufacturing capabilities of the nation's organic industrial base are maintained and commends the Army for issuing a definitive make-or-buy directive for the manufacturing arsenals. The guidance ensures that arsenals will be given fair consideration for every Army acquisition; provides for a 30-day review of all such decisions by the Army Acquisition Executive; requires all private sector companies to consider the arsenals as a potential supplier of component parts; and provides for an annual review of this overall process. The Secretary of the Army is encouraged to implement the directive consistently to ensure the arsenals have the workload necessary to maintain the proficiency and capacity to meet the manufacturing needs of the nation during war and peacetime. The agreement notes that it has not yet received detailed recommendations from the Secretary of Defense on how the Air Force, Navy, and Marine Corps can better use the arsenals for their manufacturing needs, or what opportunities may exist for the arsenals to assist the Services and the Defense Logistics Agency to procure for the spare parts inventory of the Department of Defense, as required by Senate Report 114-63.

ARMY ORGANIC INDUSTRIAL BASE

The Secretary of the Army is directed to provide 45-day written notification to the congressional defense committees prior to approving civilian reductions in force that will result in an employment loss of 50 or more full-time employees at any Army organic industrial base facility. The notification shall include the impact that the proposed reduction in force will have on the ability to maintain the organic industrial base critical manufacturing capabilities as delineated in the Army Organic Industrial Base Strategy Report, a detailed accounting of the costs of implementing the reduction in force, and an assessment of the cost of, and time necessary, restoration of any lost capability to meet future organic wartime manufacturing needs.

CHINOOK HELICOPTER

The agreement fully funds the request of six MH-47G retrofits and includes one CH-47F war replacement aircraft. In addition, the agreement provides sufficient funding for the first five F Block II aircraft in fiscal year 2021, and advance procurement funding to enable long-lead materials for the second lot of five F Block II aircraft in fiscal year 2022. The Chinook is the only heavy lift cargo helicopter in the Army inventory for which the Army currently has no replacement plans. Further, the Chief of Staff of the Army certified the need for Block II capability less than three years ago and the Department of Defense Appropriations Act, 2020

outlined certain expectations for future CH-47F Block II funding.

The Army has embarked upon an ambitious modernization initiative which has been supported by Congress and the Army must make difficult decisions to resource its plan. However, Army heavy lift capability will continue to be an essential part of the National Defense Strategy and its emphasis on near-peer competitors. Furthermore, the capability gaps that led to the Block II research and development efforts exist today, and significantly delaying improved heavy lift upgrades will defer important capability that is currently needed.

Finally, the Army's decision to delay production of CH-47 Block II aircraft has re-

sulted in significant overhead costs being shifted onto the MH-47G line, even though congressional support of F Block II remains evident. The Secretary of the Army is directed to provide quarterly reports, not later than 30 days after the end of each fiscal quarter, to the House and Senate Appropriations Committees outlining budget execution data for the CH-47 Helicopter and advance procurement budget lines, including detailed obligation and expenditure of all overhead costs.

MK93 MACHINE GUN MOUNT UPGRADE PROGRAM

The agreement encourages the Secretary of the Army to include funding for the Mk93 machine gun mount upgrade in the fiscal year 2022 President's budget request. Further

the Secretary of the Army is directed to provide a report to the congressional defense committees, not later than 90 days after the enactment of this Act, which details plans to implement the Mk93 machine gun mount upgrade.

PROCUREMENT OF AMMUNITION, ARMY

The agreement provides \$2,790,140,000 for Procurement of Ammunition, Army, as follows:

ARMY NON-LETHAL CONDUCTIVE ELECTRICAL
WEAPON UPGRADE

The Army currently is working to upgrade its existing stocks of Conductive Electrical Weapons (CEWs), which are five years past their recommended end-of-life date. Functionality is critical at the moment personnel determine non-lethal force is warranted, but currently deployed taser CEWs have an unacceptably high risk of failing to operate when most needed, which could ne-

cessitate an escalation to lethal force. The Secretary of the Army is encouraged to proceed with the ongoing qualification efforts. There is concern over the lack of any published plan to immediately transition from qualification to procurement and deployment. This raises a concern that the Army will still be using outdated and unsupported CEW models even after qualification occurs. Therefore, the Assistant Secretary of the Army (Acquisition, Logistics and Tech-

nology) is directed to submit a report to the congressional defense committees, not later than 60 days after the enactment of this Act, detailing a five-year upgrade plan for CEWs, including whether the Army has considered the possible benefits of a continuous support and upgrade plan.

OTHER PROCUREMENT, ARMY

The agreement provides \$8,603,112,000 for Other Procurement, Army, as follows:

FAMILY OF MEDIUM TACTICAL VEHICLES

The Program Executive Officer, Combat Support and Combat Service Support (PEO CS&CSS) has engaged in open dialogue regarding the transition of Family of Medium Tactical Vehicles (FMTV) from A1P2 to A2 vehicle variants. The Secretary of the Army is encouraged to continue pursuing the A2 variant. The Army historically has reported a Minimum Sustaining Rate (MSR) of one new vehicle per manufacturing day for the FMTV program and has programmed funding accordingly; however, recently the Army has acknowledged an actual MSR of three new vehicles per day. Failing to adequately program FMTV funding at the actual MSR risks negatively impacting the FMTV supply chain, which risks the health of the program. Interruption of the program would negatively impact Army readiness and modernization, erode the industrial base capacity, and add cost due to production breaks.

The agreement includes an additional \$86,000,000 for the FMTV program and the PEO CS&CSS is expected to program funding at the MSR of three new vehicles per manufacturing day. The PEO CS&CSS is further expected to reflect this revised FMTV MSR in budget justification materials commencing with the fiscal year 2022 budget request. Due to concerns with the FMTV supply chain, the Secretary of the Army is directed to provide a briefing not later than 90 days after the enactment of this Act to the congressional defense committees detailing its acquisition and budget plan to support the MSR of three new vehicles per manufacturing day through the remainder of the current contract.

ARCTIC OVERLAND MOBILITY

The Secretary of the Army is encouraged to pursue equipment and vehicles necessary for the Arctic and other cold weather envi-

ronments. As such, the agreement includes \$8,250,000 above the fiscal year 2021 President's budget request for the Family of Cold Weather Vehicles to expedite planned procurement. In addition to funding, not later than 60 days after the enactment of this Act, the Assistant Secretary of the Army (Acquisition, Logistics, and Technology) is directed to submit a report to the congressional defense committees on Arctic overland mobility capabilities. The report shall include a description and assessment of current capabilities, requirements, and operational challenges for cold weather tracked vehicles; an assessment of the current family of cold weather all-terrain vehicle program, together with a detailed justification of the current procurement timeline for that program; and an assessment of requirements for a joint program.

INTEGRATED VISUAL AUGMENTATION SYSTEM

The Army's efforts to modernize the force and maintain squad level overmatch against peer competitors is commendable, particularly the Army's iterative development approach. The Integrated Visual Augmentation System (IVAS) program includes a continual feedback cycle with industry and soldiers through both instrumented test and qualitative measurements. The agreement includes funding that will enable the start of procurement in support of the Army's plans to provide equipment to Close Combat Forces.

The IVAS program is pursuing an aggressive fielding schedule to a large population of Close Combat Forces, resulting in a significant low-rate initial production procurement for an end-item that has not been operationally tested using production representative units, or its militarized form factor, as is planned for Soldier Touch Point Four. While the technology represents a potential

leap-ahead in capability, it is essential that an appropriate amount of operational testing, including use by soldiers in realistic combat conditions with production representative units, inform the Army's decision to move to large-scale procurement. Therefore, the Program Executive Officer Soldier, in coordination with the program manager for IVAS, is directed to provide a briefing to the congressional defense committees, not later than 60 days after conclusion of Soldier Touch Point Four, to identify hardware and software design changes that will be incorporated into the final form factor prior to initiation of the first procurement lot.

Further, beginning with the fiscal year 2022 President's budget request, the program manager for IVAS is directed to provide the following information as cost elements within the P-40 budget line item justification, P-5 cost analysis, and P-5A procurement history and planning budget exhibits for IVAS: heads up display, puck, conformal wearable battery, IVAS radio, advance battery charger, and tactical cloud package. For each item, quantity, unit cost, contract award schedule, and manufacturer information should be provided. The program budget briefings should include information about the size of the force that will receive the hardware and software requested in the budget year. The program manager is encouraged to provide any additional information, including additional cost elements, that will add clarity and specificity regarding overall procurement within the multi-billion dollar investment.

AIRCRAFT PROCUREMENT, NAVY

The agreement provides \$19,480,280,000 for Aircraft Procurement, Navy, as follows:

F/A-18 E/F SUPER HORNET PRODUCTION

The Navy has recently placed a focus on reducing the strike fighter shortfall and improving the readiness of its tactical aviation fleet. As such, the agreement includes support for the F/A-18 E/F Super Hornet program and funds the request for 24 aircraft in fiscal year 2021. However, the agreement recognizes that the elimination of the F/A-18 E/F aircraft from the future years defense program results in a reduction of three years of production and three squadrons of aircraft from the previously planned future years defense program. The Navy's decision to eliminate future production of F/A-18 E/F aircraft is premature and requires further analysis. The Navy states that this elimination of new aircraft is offset by the startup of the F/A-18E/F Service Life Modification (SLM) program, which will extend the life of the Super Hornet fleet and maintain tactical aviation readiness. While this is somewhat true, the SLM program is in its nascent stage and will take time to contribute to fleet readiness levels. SLM also relies on a production line of new Super Hornets for on-time parts and production expertise. It is unclear if the Navy has assessed the impact of eliminating new Super Hornets on SLM cost, effectiveness, and the long-term cost of sustaining an increasingly aging fleet.

The Secretary of the Navy is directed to submit a report to the congressional defense committees not later than 45 days after the enactment of this Act that provides an up-

date on the Navy's strike fighter shortfall projected over the next 20 years, the impact of these previously mentioned outyear aircraft reductions on this shortfall, and an updated schedule of inductions and deliveries of aircraft in the SLM program. Further, the Director, Cost Assessment and Program Evaluation is directed to provide a report to the congressional defense committees not later than 45 days after the enactment of this Act on the life-cycle cost assessment of aircraft inducted through SLM and new aircraft, including procurement, personnel, and cost-per-flight hour comparisons.

JOINT STRIKE FIGHTER SERVICE LIFE

The fiscal year 2021 President's budget request includes \$259,040,000 for F-35B and F-35C modifications. This is an increase of \$178,097,000 above the fiscal year 2020 enacted level. The majority of this program increase is to support the structural life limited parts (SLLP) program, which has a future years defense program (FYDP) estimate of \$1,447,588,000. The increase was not projected in the fiscal year 2020 President's budget request, when the FYDP projection was \$283,881,000, which is \$1,163,707,000 less than what is reflected in fiscal year 2021.

The structural life limited parts program will be a significant effort going forward. The F-35 program has experienced increasing maturity and the Joint Program Office has appropriately focused on the long-term sustainment costs of all variants of the aircraft. With the significant investment that

has been made and will continue to be made into the future, it is imperative that the service life of the aircraft be adequately understood and any programmatic efforts to extend the service life be fully detailed to the congressional defense committees.

There is a concern by the lack of detail about the SLLP program in the P-40, budget line item justification, and the P-3a, individual modification, exhibits and the supporting budget briefing materials. The budget materials should contain more detail going forward, to include visibility into A kits, B kits, installations, and support costs for SLLP-related engineering change proposals.

The Assistant Secretary of the Navy (Research, Development and Acquisition), in coordination with the Program Executive Officer, F-35 Joint Program Office, is directed to provide, not later than 30 days after the enactment of this Act, a briefing to the congressional defense committees on the service life extension efforts. The briefing shall include—by variant—costs to date, the planned total investment in the effort, service life of aircraft after investment is complete, and the schedule for the effort. The briefing should also include information about any cost-sharing between the Department of Defense and the manufacturer.

WEAPONS PROCUREMENT, NAVY

The agreement provides \$4,477,773,000 for Weapons Procurement, Navy, as follows:

BUDGET JUSTIFICATION MATERIALS FOR
SHIPBUILDING PROGRAMS

It is noted that Federal appropriations law requires that the entire procurement cost of a weapon be funded in the fiscal year in which the item is procured ("full funding policy"). However, Congress has provided legislative exceptions to the full funding policy for several shipbuilding programs that are funded with fiscal year 2021 appropriations, including SSBNs 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, and 837; USS Enterprise (CVN 80) and USS Doris Miller (CVN 81); aircraft carrier refueling and complex overhauls of USS George Washington (CVN 73), USS John C. Stennis (CVN 74), and USS Harry S. Truman (CVN 75); LPDs 31, 32, and 33; and LHA 9. The legislative authorities for exceptions to the full funding policy and appropriations for these programs were provided at the request of the Navy with the understanding that these exceptions would improve the Navy's purchasing power and improve maritime capacity and capability, and that subsequent budget submissions would fully reflect these acquisition and funding strategies.

However, the Navy's budget justification materials for incrementally funded shipbuilding programs have not been updated to reflect exceptions to the full funding policy, and the current P-5c, "Ship Cost Activity", P-8a, "Analysis of Ship Cost Estimates", and P-35, "Major Ship Component Fact Sheet", budget exhibits do not clearly explain or justify funds identified on the P-40, "Budget Line Item Justification", budget exhibit for the pending budget request. It is further noted that the Navy's detailed budget justification briefs also do not routinely contain such information, nor is additional amplifying information provided at the time of the budget submission, despite previous congressional direction to do so. The House and Senate Appropriations Committees do not believe that future Navy budget requests can be supported absent improved budget justification materials for incrementally funded shipbuilding programs. Therefore, the Assistant Secretary of the Navy (Financial Management and Comptroller), in consultation with the Assistant Secretary of the Navy (Research, Development and Acquisition), is directed to provide to the congressional defense committees, not later than 30 days after the enactment of this Act, templates for improved Navy budget justification materials and budget justification briefs for all Navy shipbuilding programs.

COLUMBIA CLASS SUBMARINES

The fiscal year 2021 President's budget request includes \$4,014,650,000 in Shipbuilding and Conversion, Navy for the incrementally funded procurement of the first COLUMBIA Class submarine (CLB) and for advance procurement (AP) of eleven additional hulls of the COLUMBIA class. It is noted that unprecedented acquisition and funding flexibilities have been provided by the Congress for the acquisition of the CLB, including authority to enter into economic order quantity contracts in fiscal year 2016, authority to award contracts for advance construction in fiscal year 2016, authority to award contracts for continuous production in fiscal year 2017, the expansion of such continuous production authority in fiscal year 2018, incremental funding authority for advance procurement in fiscal year 2016, authority for incremental full funding of the first two CLB submarines in fiscal year 2021, and sizeable additional appropriations to support the submarine industrial base for both COLUMBIA and VIRGINIA Class submarines.

Additionally, in fiscal year 2021, the Navy requested three-year AP appropriations of nuclear propulsion equipment components

for the second CLB, which is believed to be an unprecedented use of AP but is not objected to in this agreement in this instance. However, the House and Senate Appropriations Committees are concerned about the potential use of such AP in the future. Therefore, the Assistant Secretary of the Navy (Research, Development and Acquisition), in consultation with the Assistant Secretary of the Navy (Financial Management and Comptroller) is directed to submit to the congressional defense committees, with submission of the President's fiscal year 2022 budget request, a certification of the need for any three-year AP requested in fiscal year 2022, as well as to provide a detailed execution update by component of three-year AP appropriated in fiscal year 2021, to include any deviations from information previously provided to the congressional defense committees in support of the Navy's three-year AP request for nuclear propulsion equipment in fiscal year 2021.

It is noted that despite the significant legislative support provided by the Congress for the CLB, challenges have occurred in certain design, prototyping, and advance construction efforts of the program. In particular, ongoing missile tube issues have consumed the majority of the common missile compartment schedule margin, thereby causing additional risk to the ship construction schedule. It is further noted that despite the Navy leadership's repeated statements that the CLB is the Navy's top acquisition priority, the Navy's budgets and acquisition plans do not reflect that. For instance, the fiscal year 2021 budget request for the COLUMBIA class includes \$16,400,000 for the submarine industrial base, a decrease of \$129,000,000 from amounts appropriated for that purpose in fiscal year 2020, despite repeated statements by Navy leadership that the supplier industrial base presents the most significant risk to the program. Further, the Navy continues to inject risk into the CLB program by destabilizing the VIRGINIA Class submarine program, as addressed elsewhere in this explanatory statement. An additional \$130,000,000 is recommended to support the submarine industrial base. Further erosion of performance of the CLB program would warrant a review of the Department of Defense and Navy acquisition enterprise as it relates to submarines.

VIRGINIA CLASS SUBMARINES

The fiscal year 2021 President's budget request includes \$4,235,880,000 for the procurement of a single VIRGINIA Class submarine (VCS) as part of a nine-ship Block V multi-year procurement (MYP) contract that was awarded in December 2019. It is noted that this contract includes options for one additional VCS in fiscal years 2021, 2022, or 2023. It is further noted that the Block V contract award represents a change to the Navy's acquisition strategy for Block V VCS from fiscal years 2018 and 2019, when the Navy requested and was authorized MYP authority for a ten-ship Block V VCS acquisition.

The Navy's continued injection of programmatic, acquisition, and fiscal uncertainty into the VCS program is concerning because it likely will have detrimental effects on the acquisition of the COLUMBIA Class. Therefore, the agreement recommends an additional \$2,568,000,000 to fully fund a tenth VCS for the current MYP in fiscal year 2021. The Assistant Secretary of the Navy (Research, Development and Acquisition) is directed to provide an update to the congressional defense committees on the Navy's submarine enterprise management and acquisition plans, to include progress updates on VCS Block IV performance and cost impacts, not later than with the fiscal year 2022 President's budget request.

DDG-51 FLIGHT III ACQUISITION STRATEGY

It is noted that the current multi-year procurement (MYP) contract for the DDG-51 Flight III destroyer ends in fiscal year 2022 and that with the submission of the fiscal year 2021 President's budget request the Navy further delayed the detailed design and construction schedule of the planned follow-on program, the future Large Surface Combatant (LSC), until no earlier than fiscal year 2026. It is further noted that despite this delay to LSC, the Navy is planning to procure only four DDG-51 Flight III destroyers from fiscal years 2023 to 2025, well below the current 2.4 DDG-51 destroyers per year MYP acquisition, and that in each of the last two budget submissions the Navy has reduced the procurement profile for DDG-51 Flight III destroyers. This is inconsistent with previously stated shipbuilding objectives, and the lack of a predictable and stable acquisition strategy for large surface combatants undercuts naval maritime superiority and injects risk into the industrial base. The Assistant Secretary of the Navy (Research, Development and Acquisition) is directed to provide to the congressional defense committees, with submission of the fiscal year 2022 President's budget request, the Navy's fully funded strategy for large surface combatants. The agreement recommends an additional \$130,000,000 in advance procurement only for an additional DDG-51 Flight III destroyer in fiscal year 2022.

CONSTELLATION CLASS FRIGATE

The fiscal year 2021 President's budget request includes \$1,053,123,000 for the procurement of a second CONSTELLATION Class Frigate (CCF). The detail design and construction contract for FFG 62 (USS CONSTELLATION), the first ship of the class, was awarded in April 2020, and the Navy plans a design period of no less than 14 months prior to the start of construction of FFG 62 in the fourth quarter of fiscal year 2022. It is noted that the Navy did not plan a gap year between construction of the first and second ships of the CCF that would allow for potential design changes to be incorporated into the build plan prior to the start of construction of the second ship. Instead, the Navy plans to exercise the contract option for the second CCF ship in fiscal year 2021 prior to the conclusion of the Critical Design and Production Readiness Reviews scheduled in fiscal year 2022, and plans to start construction of the second ship in the first quarter of fiscal year 2023.

Given the Navy's past challenges in managing costs and schedule of lead ships of a class, it is believed that a high percentage of design completion is necessary to ensure success of this new shipbuilding program. For instance, it is noted that the previous class of small surface combatants, with arrangements for the two ship designs 60 percent and 34 percent complete at the start of construction, respectively, experienced cost growth in excess of 150 percent. By contrast, arrangements are 100 percent complete and design disclosures were over 80 percent complete prior to the start of construction of the COLUMBIA Class submarine.

The Assistant Secretary of the Navy (Research, Development and Acquisition) is directed to provide to the congressional defense committees, not later than with the fiscal year 2022 President's budget request, quarterly planned and actual design progress curves for technical requirements, arrangements, design disclosures, and work instructions for the CCF leading up to the start of construction of FFG 62. It is further directed that no funds for construction of the second CCF may be obligated until the Director, Cost Assessment and Program Evaluation has provided the congressional defense committees an updated cost assessment for the

CCF based on the actual ship award and design changes implemented since the previous Independent Cost Estimate.

OTHER PROCUREMENT, NAVY

The agreement provides \$10,512,209,000 for Other Procurement, Navy, as follows:

1 SURFACE POWER EQUIPMENT	11,738	10,661
Gas turbine digital fuel control kits unit cost growth		-1,077
2 SURFACE COMBATANT HM&E	58,497	54,628
HM&E condition system unjustified growth		-3,687
Twister rudder installation early to need		-182
SUB PERISCOPES AND IMAGING SUPPORT EQUIPMENT		
4 PROGRAM	204,806	190,954
Imaging ISIS technical insertion kits unit cost growth		-1,526
AN/BLQ-10B technical insertion kits excess growth		-12,326
5 DDG MOD	547,569	512,155
GEDMS equipment installation excess growth		-1,334
GEDMS equipment flight IIA installation excess growth		-3,181
MCS/DCS equipment flight II/IIA installation excess growth		-10,126
IBNS equipment installation excess growth		-3,061
AWS equipment installation excess growth		-11,489
Multi-mission SIGPRO equipment installation excess growth		-1,793
MC/DIAS equipment installation excess growth		-2,340
Moriah wind system equipment installation excess growth		-1,255
IVCS equipment installation excess growth		-3,335
Program increase - mobile seamanship and navigation trainer		2,500
8 LHA/LHD MIDLIFE	78,265	66,512
Propulsion and auxiliary control system kits early to need		-8,490
SCS-GOV kits early to need		-3,263
9 POLLUTION CONTROL EQUIPMENT	23,035	20,222
OPA improvements unjustified growth		-2,813
12 LCS CLASS SUPPORT EQUIPMENT	3,976	7,976
Program increase - water purification systems		4,000
14 LPD CLASS SUPPORT EQUIPMENT	50,475	50,475
LPD-19 delays		-5,000
Program increase - alternative valve actuator competition for LPDs		5,000
15 DDG-1000 SUPPORT EQUIPMENT	42,279	37,859
Diminishing manufacturing sources and material shortages		
unjustified growth		-3,220
DDG-1000 surface strike unjustified request		-1,200
19 LCAC	9,366	6,758
LCAC systems upgrade unit cost growth		-623
Cold weather kits unit cost growth		-1,985

P-1	Budget Request	Final Bill
24 SHIP MAINTENANCE, REPAIR AND MODERNIZATION	1,260,721	1,215,721
Early to need		-45,000
26 REACTOR COMPONENTS	415,404	401,219
Unit cost growths of multiple components		-11,559
Field change procurement unjustified request		-2,626
28 STANDARD BOATS	52,371	46,451
EDO RIBs unit cost growth		-1,248
40PB prior year carryover		-4,672
29 OPERATING FORCES IPE	233,667	218,112
CNC shaft lathe contract delays		-15,555
30 LCS COMMON MISSION MODULES EQUIPMENT	39,714	36,323
MPCE hardware contract award delays		-1,732
MPCE tech refresh contract award delays		-1,659
31 LCS MCM MISSION MODULES	218,822	189,397
Minesweeping payload delivery system early to need		-4,686
Remote minehunting module excess to need		-24,739
32 LCS ASW MISSION MODULES	61,759	38,359
Schedule slips		-23,400
34 LCS IN-SERVICE MODERNIZATION	121,848	128,848
Program increase - continuation of the condition-based maintenance modernization of combat and communication systems including integration of additional equipment		7,000
35 SMALL & MEDIUM UUV	67,709	37,585
Knifefish concurrency		-30,124
39 SSN ACOUSTICS EQUIPMENT	374,737	372,822
Low cost conformal array kits installation excess growth		-1,915
45 AN/SLQ-32	387,195	353,961
Block 2 electronic support system tech refresh excess growth		-2,677
Block 3 kit early to need		-30,557
46 SHIPBOARD IW EXPLOIT	235,744	231,072
SSEE increment F(V) 7/8 ECP blade kits early to need		-4,672
57 ASHORE ATC EQUIPMENT	83,475	82,970
DASR tech refresh upgrade III early to need		-505
58 AFLOAT ATC EQUIPMENT	65,113	57,628
ACLS mod kits installation cost growth		-1,517
AN/SPN-46 Block IV excess installation costs		-1,345
AN/SPN-35 Block I contract award delays		-4,623

P-1	Budget Request	Final Bill
60 JOINT PRECISION APPROACH AND LANDING SYSTEM	100,751	96,751
Support costs previously funded		-4,000
69 NETWORK TACTICAL COMMON DATA LINK	4,150	3,556
CDLS tech refresh contract award delay		-594
72 ITEMS LESS THAN \$5 MILLION	159,815	154,572
SPS-73 radar excess support costs		-1,523
SPS-73 installation previously funded		-3,720
73 SHIPBOARD TACTICAL COMMUNICATIONS	56,106	53,743
DMR IW and MUOS upgrade kits excess installation costs		-2,363
76 SUBMARINE BROADCAST SUPPORT	31,133	25,790
Previously funded item		-503
C4I for MILCON P-205 unjustified request		-3,487
Transmission equipment previously funded		-1,353
77 SUBMARINE COMMUNICATION EQUIPMENT	62,214	56,491
Submarine high data rate early to need		-5,723
79 NAVY MULTIBAND TERMINAL (NMT)	64,552	55,342
Afloat ship kit cost growth		-9,210
83 CRYPTOLOGIC COMMUNICATIONS EQUIP	15,906	14,845
Unit cost growth		-1,061
90 COAST GUARD EQUIPMENT	70,689	61,580
Combat system integration lifecycle engineering unjustified request		-2,197
Athena CCD integration unjustified growth		-5,748
C2P contract award delays		-1,164
92 SONOBUOYS - ALL TYPES	237,639	277,297
AN/SSQ-125 (multi-static coherent source) contract award delay		-10,342
Program increase - sonobuoys all types		50,000
94 WEAPONS RANGE SUPPORT EQUIPMENT	83,969	85,469
Program increase - TCTS restore capability		1,500
95 AIRCRAFT SUPPORT EQUIPMENT	187,758	176,438
MHU-126/202 TRLR replacement contract award delays		-1,637
Air launch and recovery equipment prior year carryover		-5,452
ADMARS block upgrade NRE previously funded		-4,231
101 AVIATION SUPPORT EQUIPMENT	58,873	57,174
Survival communications devices unjustified request		-11,699
Program increase - COTS-based advanced skills management for legacy systems upgrades		10,000

P-1	Budget Request	Final Bill
102 UMCS-UNMAN CARRIER AVIATION (UCA) MISSION CONTROL	60,937	40,070
ARC-210 radio communication system excess to need		-3,073
MUOS capable communication system excess to need		-3,019
MUOS capable communication system unit cost growth		-2,038
Ship change document excess growth		-1,837
CVN funding early to need		-10,900
104 HARPOON SUPPORT EQUIPMENT	208	0
Unjustified request		-208
105 SHIP MISSILE SUPPORT EQUIPMENT	262,077	250,356
MK57 mod 12-15 modernization previously funded		-1,202
SPY radar enhancements unjustified growth		-4,104
SPY radar refurbishment unjustified growth		-6,138
SSDS COTS conversion kits installation early to need		-277
106 TOMAHAWK SUPPORT EQUIPMENT	84,087	77,370
TTWCS product improvement previously funded		-3,112
TPMC hardware excess growth		-3,605
107 STRATEGIC MISSILE SYSTEMS EQUIP	258,910	251,683
SSI increment 16 refresh/redesign concurrency		-7,227
108 SSN COMBAT CONTROL SYSTEMS	173,770	162,167
Common weapon launcher upgrades excess to need		-11,603
109 ASW SUPPORT EQUIPMENT	26,584	23,511
High speed maneuverable surface target early to need		-3,073
112 ANTI-SHIP MISSILE DECOY SYSTEM	86,356	72,056
Advanced offboard/EW production ramp		-10,800
Advanced offboard/EW production support		-3,500
114 SURFACE TRAINING EQUIPMENT	192,245	168,730
LCS integrated tactics trainer modernization early to need		-9,000
SSC full mission trainers early to need		-14,515
116 GENERAL PURPOSE TRUCKS	2,693	0
Contract award delays		-2,693
117 CONSTRUCTION & MAINTENANCE EQUIP	47,301	42,510
Contract award delays		-7,791
Program increase - laser leveling systems for the Seabees		3,000
118 FIRE FIGHTING EQUIPMENT	10,352	5,352
Contract award delays		-5,000
122 ITEMS UNDER \$5 MILLION	47,972	44,272
Prior year carryover		-3,700

P-1	Budget Request	Final Bill
128 TRAINING AND EDUCATION EQUIPMENT	73,454	66,376
West coast network consolidation unjustified request		-6,167
Arena scoreboard unjustified request		-455
Field house scoreboard unjustified request		-456
130 MEDICAL SUPPORT EQUIPMENT	974	12,974
Program increase - expeditionary medical facilities		12,000
132 NAVAL MIP SUPPORT EQUIPMENT	5,606	4,106
CR upgrade tools		-1,000
NAVAL MIP support equipment insufficient budget justification		-500
136 PHYSICAL SECURITY EQUIPMENT	138,281	136,693
Navy non-lethal effects excess to need		-1,588
140 NEXT GENERATION ENTERPRISE SERVICE	184,443	173,443
Prior year carryover		-11,000
141 CYBERSPACE ACTIVITIES	16,523	15,221
Deployable mission support systems kits excess cost growth		-1,302
142 SPARES AND REPAIR PARTS	374,195	357,893
Excess growth		-16,302

MILITARY SPECIFICATIONS

In order to preserve and promote competition within the industrial base, the Secretary of the Navy is encouraged to include

commercial-off-the-shelf products and technologies when periodically updating military specifications for ship support equipment and spare parts.

PROCUREMENT, MARINE CORPS

The agreement provides \$2,648,375,000 for Procurement, Marine Corps, as follows:

C-130 FLEET MANAGEMENT PLAN AND
MODERNIZATION ROADMAP

The Secretary of the Air Force is directed to submit a report to the congressional defense committees, not later than 60 days after the submission of the fiscal year 2022 budget request, which provides a C-130 fleet management plan and modernization roadmap. The report shall include an analysis of the theater and domestic airlift requirements of the National Defense Strategy, the number of C-130 aircraft needed to fulfill those requirements, justification for any planned or proposed reduction in fleet size, and the extent to which these requirements need to be refined by further study and analysis. The report shall also provide, through the entire future years defense program (FYDP), the current and projected C-130 total active aerospace vehicle inventory and backup aerospace vehicle inventory by unit and variant, including aircraft in attrition

reserve. Further, the report shall describe modernization and recapitalization plans for C-130 aircraft through the FYDP, along with funding requirements by appropriation and budget line item. Finally, to the extent that the Air Force plans or proposes to reduce aircraft inventory from fiscal year 2021 through the end of the fiscal year 2022 FYDP, the report shall describe plans to modify proficiency training or deployment requirements for affected units to account for planned or proposed reduction in the number of aircraft assigned to those units. This language replaces the language under the heading “C-130 Fleet Management Plan” in House Report 116-453.

LC-130H

The Secretary of the Air Force is directed to submit a report to the congressional defense committees on LC-130H aircraft not later than 90 days after the enactment of this Act. The report shall include informa-

tion on the age and estimated service life of the aircraft, trends in operating costs and mission capable rate, known sustainment and safety problems, the benefits of both completed and planned aircraft modifications, and an estimate of the cost of replacing these aircraft with C-130Js, including the cost of the required unique mission modifications. Further, the report shall be submitted with comments from the Chief of the National Guard Bureau to include, at minimum, an analysis of current LC-130H fleet force structure and capabilities requirements and an itemized list of unfunded recapitalization and modernization requirements. This language replaces the language under the heading “LC-130H Aircraft” in House Report 116-453.

MISSILE PROCUREMENT, AIR FORCE

NATIONAL SECURITY SPACE LAUNCH

The Secretary of Defense and the Director of National Intelligence are directed to utilize the Space Force launch enterprise for National Security Space Launch-class missions unless the Secretary of Defense and, if

appropriate, the Director of National Intelligence certify to the congressional defense and intelligence committees that an alternative launch procurement approach for a designated mission is in the national security interest and best financial interest of

the government and outline the cost analysis and any other rationale for such a determination.

PROCUREMENT, DEFENSE-WIDE

REPROGRAMMING GUIDANCE FOR ACQUISITION
ACCOUNTS
(INCLUDING BASE AND OVERSEAS CONTINGENCY
OPERATIONS FUNDING)

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). Specifically, the dollar threshold for reprogramming funds shall be \$10,000,000 for procurement and research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

RESEARCH, DEVELOPMENT, TEST AND
EVALUATION SPECIAL INTEREST ITEMS

Items for which additional funds have been recommended or items for which funding is specifically reduced as shown in the project level tables detailing recommended adjustments or in paragraphs using the phrase “only for” or “only to” in the explanatory statement are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed elsewhere in the explanatory statement.

SOFTWARE AND DIGITAL TECHNOLOGY PILOT
PROGRAMS

The agreement includes a modified version of the new general provision submitted with the fiscal year 2021 President's budget request for Software and Digital Technology Pilot programs funded in a new Budget Activity Eight within the Research, Development, Test and Evaluation accounts. The agreement acknowledges the Department's rationale regarding the incremental technical challenges posed by modern software development, including implementing technical fixes to existing code, addressing cyber vulnerabilities, and integrating incrementally developed new capabilities. However, the agreement modifies the general provision under the premise that objective quantitative and qualitative evidence is needed to evaluate potential expansion of the approved pilot programs. Further, seeking additional flexibility in the execution of appropriations should not be a solution to internal accounting and guidance issues that challenge the Department's ability to execute these pro-

grams. The agreement encourages the Secretary of Defense to execute the recommended pilot programs through fiscal years 2021 and 2022, while performing a detailed analysis of the Department's accounting and financial management process for such pilot programs as compared to existing software and digital technology programs.

The Secretary of Defense is directed to submit a report to the congressional defense committees, not later than 90 days after the enactment of this Act, which details the Department's assessment plan for each of the programs recommended in the general provision. This report shall include, at a minimum: quantitative and qualitative metrics; identification of eight similar programs, with representations from each Service, funded through traditional appropriation legislation to assess concurrently for comparison; and a plan to assess each pilot program against their own historical performance when funded through traditional appropriation legislation. Following submission of the assessment plan prescribed above, the Secretary of Defense is directed to provide quarterly reports on the status of each pilot program to the congressional defense committees.

TRANSITION OF PROGRAMS FROM THE
STRATEGIC CAPABILITIES OFFICE

The fiscal year 2021 President's budget request includes \$730,508,000 in Research, Development, Test and Evaluation, Defense-Wide for programs managed and executed by the Strategic Capabilities Office (SCO). The transition of several programs from SCO to the Services is supported to the extent that they address Service requirements. However, it is concerning that for programs planned for transition from SCO to the Services, detailed cost, schedule, and budget data are not routinely included with budget justification materials submitted by either SCO or the Services. Further, it is noted that SCO and the Services frequently use different program names when describing the same effort, which complicates the traceability of programs and funding, and hampers congressional oversight.

Therefore, the Director, SCO, in coordination with the Service acquisition executives, is directed to provide to the congressional defense committees, with submission of the fiscal year 2022 President's budget request, a matrix identifying SCO programs with their SCO and respective transition partners' detailed program schedules, and future years defense program profiles by fiscal year, appropriation account, and program element. Finally, the Secretary of Defense is directed to continue to provide quarterly obligation and expenditure reports for SCO by project to the congressional defense committees.

MID-TIER ACQUISITION AND RAPID PROTOTYPING
PROGRAMS

The fiscal year 2021 President's budget request includes funding in the research, development, test and evaluation appropriations accounts for Army, Navy, Air Force, Space Force, and Defense-Wide for several new and ongoing acquisition programs that use acquisition authorities and contracting strategies provided in National Defense Authorization Acts for rapid development, rapid prototyping, rapid acquisition, accelerated acquisition, and mid-tier acquisition (“section 804”) of warfighter capabilities. The spectrum of programs using these types of acquisition authorities ranges from small programs that have already deployed prototypes, to programs that by virtue of their scope and cost would otherwise be subject to reporting requirements and acquisition regulations applicable to traditional major acquisition category I programs.

While supportive of efforts to deliver capability to the warfighter in an accelerated

manner, it is noted that under current law, several reporting requirements that apply to traditional acquisition programs, to include independent cost estimates and test and evaluation master plans, are not required for mid-tier acquisition and rapid prototyping programs and to date have been provided only when specifically directed by the House and Senate Appropriations Committees. As the Department of Defense appears to increase its reliance on such acquisition authorities, it is concerning that this standard acquisition information is not being provided as a matter of practice. Further, it is concerning that the Services' growing trend toward procuring de facto operational assets via prototyping acquisitions may limit the Services' ability to successfully manage their acquisition programs in the long-term by eliminating the full understanding of long-term program costs up-front; unnecessarily narrowing down the industrial base early in the acquisition process; and eliminating opportunities for future innovation by reducing competitive opportunities over the life of the acquisition. Finally, there is concern that budgeting for these de facto end-items incrementally with research and development appropriations instead of fully funding them with procurement appropriations obscures costs, and limits transparency and visibility into Services' procurement efforts.

The Under Secretaries of Defense (Research and Engineering) and (Acquisition and Sustainment), as well as the Service acquisition executives are directed to provide to the congressional defense committees, with submission of the fiscal year 2022 President's budget request, a complete list of approved acquisition programs—and programs pending approval in fiscal year 2022—utilizing prototyping or accelerated acquisition authorities, along with the rationale for each selected acquisition strategy, as well as a cost estimate and contracting strategy for each such program. Further, the Under Secretary of Defense (Comptroller) and the respective Financial Manager and Comptrollers for the Army, Navy, and Air Force are directed to certify full funding of the acquisition strategies for each of these programs in the fiscal year 2022 President's budget request, including their test strategies; and the Director, Operational Test and Evaluation is directed to certify to the congressional defense committees the appropriateness of the Services' planned test strategies for such programs, to include a risk assessment. To the extent that the respective Service acquisition executives, Service financial manager and comptrollers, and Director, Operational Test and Evaluation provided the information requested above with submission of the fiscal year 2021 President's budget, any variations thereto should be included with the fiscal year 2022 submission. In addition, the Services' financial manager and comptrollers are directed to identify the full costs for prototyping units by individual item in the budget exhibits for research, development, test and evaluation appropriations for the budget year as well as the future years defense program.

FEDERALLY FUNDED RESEARCH AND
DEVELOPMENT CENTERS

Section 8025(e) of the Department of Defense Appropriations Act, 2020 directed the Secretary of Defense to submit, with the submission of the fiscal year 2021 budget request, a report presenting the specific amounts of staff years of technical effort to be allocated for each Defense Federally Funded Research and Development Center (FFRDC) during that fiscal year, and the associated budget estimates. It is noted that this annually recurring reporting requirement assists the House and Senate Appropriations Committees in their budget review

for Defense FFRDCs and that timely and complete submittal is expected. It is further noted that in fiscal year 2020, the Under Secretary of Defense (Research & Engineering) adjusted the allocation of staff-years of technical effort (STE) contrary to congressional intent expressed in section 8025. Therefore, section 8026 of this agreement further specifies the allocation of STE for studies and analyses FFRDCs for fiscal year 2021.

The Under Secretary of Defense (Research and Engineering) is directed to submit a report to the congressional defense committees, not later than 180 days after the enactment of this Act, describing the method-

ology and criteria used to assess each Defense FFRDC funded by this Act, the definition of their respective core competencies, and what, if any, adjustments are recommended for fiscal years 2022 and 2023. In addition, the Under Secretary of Defense (Research and Engineering) is directed to inform the congressional defense committees of any potentially required changes to Department of Defense Instruction 5000.77 not less than 45 days prior to the implementation of any such change.

In addition, the agreement directs the Comptroller General to provide to the congressional defense committees, not later

than 180 days after the enactment of this Act, a report that includes a detailed listing of all FFRDCs funded by this Act; the name of the primary sponsoring organization for each FFRDC; the period of performance (including contract options) for each FFRDC contract, to include contract scope, contract ceiling, amount of STE allocated, and, if not competed, justification for sole source contract actions.

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[In thousands of dollars]

R-1	Budget Request	Final Bill
2 DEFENSE RESEARCH SCIENCES	303,257	367,457
Program increase - unmanned aerial systems multi-fuel hybrid propulsion		15,000
Program increase		10,000
Program increase - flexible LED lighting for tents and shelters		5,200
Program increase - counter UAS technology research		5,000
Program increase - cell-free expression for biomanufacturing		10,000
Program increase - explosives and opioids dual-use UV detection		3,000
Program increase - advanced hemostat products		6,000
Program increase - artificial intelligence complex multi-material composites processing		10,000
3 UNIVERSITY RESEARCH INITIATIVES	67,148	97,148
Program increase		20,000
Program increase - additive manufacturing using ultra high-performance concrete		10,000
4 UNIVERSITY AND INDUSTRY RESEARCH CENTERS	87,877	121,877
Program increase - Army artificial intelligence innovation		20,000
Program increase - materials in extreme dynamic environments		10,000
Program increase - biotechnology development		4,000
12 LETHALITY TECHNOLOGY	42,425	108,925
Program increase - novel and sustainable energetic materials		24,000
Program increase - quantum technologies for armament systems		10,000
Program increase - solid fuel propulsion technology		10,000
Program increase - hybrid additive manufacturing		10,000
Program increase - next generation remote sensing		5,000
Program increase - advanced lethality concepts and analysis		7,500
14 SOLDIER LETHALITY TECHNOLOGY	125,435	204,435
Program increase - lightweight body armor mechanisms and materials		10,000
Program increase - Pathfinder airborne		8,000
Program increase - advanced textile-based products		6,000
Program increase - UTDD catalyst		5,000
Program increase - HEROES program		5,000
Program increase - soldier ballistic technologies		5,000
Program increase - academic accelerator pilot program		15,000
Program increase - Pathfinder air assault		10,000
Program increase - advanced ballistics technology for personal protective systems		4,000
Program increase - medical simulation and training		4,000
Program increase - body armor study		4,000
Program increase - rapidly deployable shelters		3,000

R-1	Budget Request	Final Bill
15 GROUND TECHNOLOGY	28,047	154,047
Program increase - defense resiliency against extreme cold weather		10,000
Program increase - rapid advanced deposition		10,000
Program increase - additive manufacturing machine learning initiative		10,000
Program increase - materials manufacturing processes		10,000
Program increase - materials recovery technologies for defense supply resiliency		10,000
Program increase - autonomous digital design and manufacturing		5,000
Program increase - environmental quality enhanced coatings		5,000
Program increase - integrity of transparent armor		5,000
Program increase - high performance polymers		5,000
Program increase - advanced polymers for force protection		8,000
Program increase - military waste stream conversion		5,000
Program increase - robotic RTCH		5,000
Program increase - advanced concrete		4,000
Program increase - cellulose nanocomposites research		5,000
Program increase - center for research in extreme batteries		10,000
Program increase - earthen structures soil enhancement		4,000
Program increase - ice engineering research facility modernization		5,000
Program increase - counter UAS technology in arctic environments		10,000
16 NEXT GENERATION COMBAT VEHICLE TECHNOLOGY	217,565	265,565
Program increase - prototyping energy smart autonomous ground systems		12,000
Program increase - additive metals manufacturing		10,000
Program increase - self-sealing fuel tanks technology		6,000
Program increase - silicon carbide electronics		6,000
Program increase - highly electrified vehicles		5,000
Program increase - modeling and simulation		10,000
BF9 insufficient justification		-1,000
17 NETWORK C3I TECHNOLOGY	114,404	204,904
Program increase - artificial intelligence and machine learning		10,000
Program increase - electronic warfare sensor technology		10,000
Program increase - integrating energy and computing networks		5,000
Program increase - energy efficient devices		5,000
Program increase - CHARM		5,000
Program increase - APNT for autonomous vehicles		10,000
Program increase - inertial navigation systems		20,000
Program increase - APNT distributed antennae		6,000
Program increase - autonomous platform threat detection sensors		2,500
Program increase - intelligent electronic protection technology		3,000
Program increase - multi-UAS integrated ISR technology		8,000
Program increase - mobile environmental contaminant sensors		2,000
Program increase - unmanned sensors for biological and chemical hazards		4,000
Program increase - urban subterranean mapping technology		
18 LONG RANGE PRECISION FIRES TECHNOLOGY	60,553	126,053
Program increase - extended range hybrid and precision gun launched projectiles		15,000
Program increase - composite cannon tubes		5,000
Program increase - precision strike munitions		4,000
Program increase - advanced materials for missile applications		20,000
Program increase - novel printed armament components		6,500
Program increase - phase changing hydrogen fuel program		15,000

R-1	Budget Request	Final Bill
19 FUTURE VERTICAL LIFT TECHNOLOGY	96,484	165,484
Program increase - individual blade and higher harmonic control		10,000
Program increase - high strength functional composites		5,000
Program increase - advanced rotary wing materials and structures		5,000
Program increase - additive manufacturing of multi-functional composite aerospace components		5,000
Program increase - adaptive flight control technology		4,000
Program increase - high density eVTOL power source		15,000
Program increase - lightweight hybrid composite medium caliber barrels		20,000
Program increase - technology transfer and innovation		5,000
20 AIR AND MISSILE DEFENSE TECHNOLOGY	56,298	109,298
Program increase - beam control systems and industry grade optical fiber fabrication for energy laser		12,000
Program increase - high energy laser enabling and support technology		7,000
Program increase - Army missile supply chain risk management		15,000
Program increase - close combat high energy laser technology		8,500
Program increase - countermeasures based on artificial intelligence enabled material analysis and design		6,000
Program increase - cyber resiliency in weapon systems		1,500
Program increase - counter-UAS center of excellence		1,500
Program increase - fires center of excellence		1,500
42 MEDICAL TECHNOLOGY	95,496	102,496
Program increase - military force vector borne health protection		5,000
Program increase - safety and performance of female warfighters in extreme heat		2,000
44 MEDICAL ADVANCED TECHNOLOGY	38,896	89,896
Program increase - peer-reviewed neurofibromatosis research		20,000
Program increase - peer-reviewed neurotoxin exposure treatment		
Parkinson's research		16,000
Program increase - peer-reviewed military burn research		10,000
Program increase - burn care training curriculum		5,000
54 SOLDIER LETHALITY ADVANCED TECHNOLOGY	109,608	147,608
Program increase		10,000
Program increase - advanced AI/AA analytics for modernization and readiness		10,000
Program increase - small arms fire control advanced technology		8,000
Program increase - advanced technology for maneuver support and protection		10,000

R-1	Budget Request	Final Bill
55 GROUND ADVANCED TECHNOLOGY	14,795	210,095
Program increase - flow battery demonstration		20,000
Program increase - corrosion protection and prevention		10,000
Program increase - rapid entry and sustainment for the arctic		8,000
Program increase - composite flywheel technology		7,000
Program increase - high-performance concrete technology		6,000
Program increase - secure management of energy generation and storage		5,000
Program increase - water quality and resiliency		5,000
Program increase - electrical system safety and reliability		5,000
Program increase - rare earth element extraction		5,000
Program increase - organic light emitting diode		5,000
Program increase - coatings technology		5,000
Program increase - smart installation and community program		5,000
Program increase - heavy load simulator		4,200
Program increase - integrated microgrids		4,000
Program increase - infrastructure resilience and flood assessment		3,000
Program increase - single connection quick oil change system		3,000
Program increase - cross-laminated timber and recycled carbon fiber materials		1,300
Program increase - clean modular hydro technology		4,000
Program increase - accelerator technology for ground maneuver		5,000
Program increase - anticipating threats to natural systems		6,000
Program increase - Army visual and tactical arctic reconnaissance		2,000
Program increase - autonomous combat engineering solutions		5,500
Program increase - coastal terrain hazard research		8,000
Program increase - cold weather research station		2,000
Program increase - environmental sensors for explosives		3,000
Program increase - expeditionary deployment for fully sustainable utility		10,000
Program increase - graphene research		5,000
Program increase - impacts of soil structures on hydrology		4,000
Program increase - information technology for bridge sustainment		5,000
Program increase - materials and manufacturing technology for cold environments		4,000
Program increase - military engineering technology for infield waste		2,000
Program increase - operational energy research		1,300
Program increase - research facility modernization		6,000
Program increase - robotic construction equipment		5,000
Program increase - robotic 4-D printing of geopolymer-based composites for extreme environments		2,000
Program increase - S-UAS cyberwar threat management		7,500
Program increase - sub-surface infrastructure in arctic environments		1,000
Program increase - temperature insensitive high-energy density lithium-ion batteries		2,500
Program increase - vehicle performance reliability and operations		3,000
63 C3I CYBER ADVANCED DEVELOPMENT	23,357	43,357
Program increase - high bandwidth cryptomodule enhancements and certification		10,000
Program increase - low SWAP software-defined MFEW		10,000
64 HIGH PERFORMANCE COMPUTING MODERNIZATION PROGRAM	188,024	228,024
Program increase		40,000

R-1	Budget Request	Final Bill
NEXT GENERATION COMBAT VEHICLE ADVANCED		
65 TECHNOLOGY	199,358	307,358
Program increase - additive manufacturing for jointless hull		10,000
Program increase - hydrogen fuel cells		10,000
Program increase - carbon fiber and graphitic foam technology		10,000
Program increase - combat vehicle weight reduction		10,000
Program increase - ATE5.2 engine development		10,000
Program increase - combat vehicle blast testing		6,000
Program increase - additive manufacturing of critical components		5,000
Program increase - advanced adhesives		5,000
Program increase - combat vehicle lithium 6T battery development		5,000
Program increase - vehicle technology readiness levels		2,000
Program increase - 10X technology demonstration		8,000
Program increase - HMMWV augmented reality HUD		5,000
Program increase - HMMWV automotive enhancements		5,000
Program increase - HMMWV autonomy		3,000
Program increase - operator-in-the-loop virtual and physical prototyping		4,000
Program increase - virtual and physical prototyping		10,000
66 NETWORK C3I ADVANCED TECHNOLOGY	158,608	206,908
Program increase - mesh network-enabled small satellites		10,000
Program increase - tactical geospatial information capabilities		10,000
Program increase - geospatial artificial intelligence analytic tools		4,000
Program increase - advanced materials and technologies for command post modernization		10,000
Program increase - advanced materials for resilient sensors		8,000
Program increase - assured position, navigation, and timing technology		6,300
67 LONG RANGE PRECISION FIRES ADVANCED TECHNOLOGY	121,060	176,060
Program increase - hypervelocity projectile extended range		20,000
Program increase - rapid demonstration capability		25,000
Program increase - tactical intercepting vehicle for access shaping		10,000
68 FUTURE VERTICAL LIFT ADVANCED TECHNOLOGY	156,194	224,944
Program increase - advanced helicopter seating system		15,000
Program increase - joint tactical aerial resupply vehicle		8,000
Program increase - surface tolerant adhesives		5,000
Program increase - UH-60 main rotor blade modernization		5,000
Program increase - soldier information interface for aviation fleet management tool		2,250
Program increase - helicopter emergency oil systems		2,000
Program increase - displays and safety in DVE		4,000
Program increase - digital engineering demonstration		8,000
Program increase - ferrium steels for improved drive systems		5,000
Program increase - tethered UAS for all-terrain vehicles		12,500

COUNTER-UNMANNED AERIAL SYSTEMS

The agreement notes that the Department of the Army has been designated as the executive agent for the Joint Counter-Unmanned Aerial Systems (C-UAS) office, assuming responsibility for the development of enduring joint solutions to address the C-UAS threat. The agreement directs the Secretary of the Army to provide a report to the congressional defense committees, not later than 120 days after the enactment of this Act, that details the Army's management plan and assessment of C-UAS requirements. This report shall include, but is not limited to, a list of validated requirements; a detailed list of related acquisition programs across the Department of Defense; resourcing requirements; research and development priorities; an assessment of the need for a C-UAS center of excellence; and the organization, structure, and responsibilities of the Joint C-UAS office.

HIGH PERFORMANCE COMPUTING
MODERNIZATION PROGRAM

The agreement notes that responsibility for the High Performance Computing Modernization Program (HPCMP) was transferred to the Army in fiscal year 2012 with a requested funding level of \$183,150,000. Almost a decade later, the fiscal year 2021 President's budget request includes only \$188,024,000 for HPCMP. This level of investment is significantly less than if annual inflationary adjustments were applied to the program, even without program growth.

Originally focused on support to science and technology efforts, HPCMP now supports an expansive and ever-growing set of competencies, including digital engineering, virtual prototyping, and virtual testing. Therefore, the agreement directs the Secretary of Defense, in consultation with the Secretary of the Army, to perform a full review of the HPCMP program that includes, but is not limited to, an historical assessment of the HPCMP mission and requirements; an analysis of historical investment levels compared to the full requirement; a determination of

the adequacy of historical investment; the suitability of the current organizational structure within the Department; and a modernization strategy. The Secretary of Defense is directed to submit the findings in a report to the congressional defense committees not later than 120 days after the enactment of this Act.

SOLDIER ENHANCEMENT PROGRAM

The fiscal year 2021 President's budget request eliminates the Soldier Enhancement Program. Since its establishment by Congress in 1990, the program has served a unique and critical function in enabling the accelerated evaluation and procurement of off-the-shelf items that have the potential to substantially improve weapons and support equipment focused on critical warfighting functional areas of fires mission command, movement and maneuver, sustainability, and protection. The Soldier Enhancement Program is a low risk, low cost, high payoff investment that has demonstrated consistent success in close collaboration with industry to address mission-critical and training-critical soldier needs in a timely and cost-effective manner. Additionally, there have not been obvious changes in operational or threat environments that would obviate the ongoing need for this successful and critical capability. Therefore, the agreement directs the Secretary of the Army to preserve the Soldier Enhancement Program within the Program Executive Office Soldier and expects the Secretary of the Army to ensure that the program is fully funded in the fiscal year 2022 budget request.

EMERGING TECHNOLOGY INITIATIVES

The agreement supports the Army's Advanced Concepts program, managed by the Rapid Capabilities and Critical Technologies Office, in its pursuit of experimental prototyping and demonstration of selected technology through non-traditional engagements with industry by employing what it calls "innovation days." These types of direct engagements with industry are critical in identifying promising technologies and solutions

to capability gaps that would otherwise fall outside of traditional acquisition programs. The ability to be agile with resourcing these smaller prototyping efforts is crucial to the success of the program and does not lend itself to traditional itemized accounting in budget exhibits, as individual programs may be undefined at the time of the annual President's budget submission. Therefore, the agreement recommends \$23,000,000, as requested in the budget submission, for the Army's Advanced Concepts program. Further, beginning with the second quarter of fiscal year 2021, the agreement directs the Director, Hypersonics, Directed Energy, Space and Rapid Acquisition to provide quarterly execution updates to the House and Senate Appropriations Committees not later than 30 days after the end of each fiscal quarter. This report shall include, but is not limited to, a schedule of innovation days for the current fiscal year, a list of active projects selected for funding, a narrative description of each project, obligation and expenditure data for each project, and metrics to determine success of selected projects.

ALTERNATIVE NAVIGATION SYSTEMS

The agreement notes that operational requirements for assured position, navigation, and timing alternative navigation (ALT NAV) systems are increasing rapidly as the Army looks to compete in a Global Positioning System denied or challenged environment. These requirements are at risk of outpacing Service investments in the area. The Secretary of the Army is encouraged to ensure that sufficient resources are in place through the budget process and in execution of current year resources, to develop and field ALT NAV capabilities and the necessary broadcast service to enable such capabilities.

RESEARCH, DEVELOPMENT, TEST AND
EVALUATION, NAVY

The agreement provides \$20,078,829,000 for Research, Development, Test and Evaluation, Navy, as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[In thousands of dollars]

R-1	Budget Request	Final Bill
1 UNIVERSITY RESEARCH INITIATIVES	116,816	144,816
Program increase - university research initiatives		10,000
Program increase - defense university research instrumentation program		10,000
Program increase - aircraft fleet readiness and sustainment		8,000
3 DEFENSE RESEARCH SCIENCES	467,158	489,984
Mathematics, computer, and information sciences unjustified growth		-4,174
Program increase - defense research sciences		15,000
Program increase - silicon-germanium-tin alloy research		5,000
Program increase - bio-inspired engineering and design for naval applications		3,000
Program increase - predictive modeling and simulation for next generation naval undersea vehicles and platforms research		2,000
Program increase - USV batteries, materials, and additive manufacturing		2,000
4 POWER PROJECTION APPLIED RESEARCH	17,792	38,792
Program increase - miniaturization of lasers		5,000
Program increase - high power microwave systems for counter-UAS defense		16,000
5 FORCE PROTECTION APPLIED RESEARCH	122,281	209,781
Program increase - direct air capture and blue carbon removal technology		7,500
Program increase - talent and technology for Navy power and energy systems		10,500
Program increase - power generation and storage research		5,000
Program increase - data-model fusion		3,000
Program increase - coastal environmental research		5,000
Program increase - advanced energetics research		5,000
Program increase - machine discovery and learning		2,000
Program increase - additive manufacturing of unmanned maritime systems		10,000
Program increase - Asia Pacific technology and education program		5,000
Program increase - low cost silicon solar cells		2,500
Program increase - Navy alternative energy research		25,000
Program increase - robust energy infrastructure research		7,000
6 MARINE CORPS LANDING FORCE TECHNOLOGY	50,623	55,623
Program increase - unmanned logistics solutions		5,000
7 COMMON PICTURE APPLIED RESEARCH	48,001	43,703
Applied information sciences for decision making excess growth		-3,277
Unjustified growth		-1,021

R-1	Budget Request	Final Bill
8 WARFIGHTER SUSTAINMENT APPLIED RESEARCH	67,765	116,255
Surveillance technology excess growth		-1,010
Program increase - health and safety research of underground fuel storage facilities		5,000
Program increase - humanoid robotics in unstructured environments		5,000
Program increase - human performance and injury rehabilitation assessment tool		2,500
Program increase - force health protection and application		5,000
Program increase - engineered systems to preserve and restore hearing after deleterious stimulation		5,000
Program increase - hypersonics materials acceleration		4,000
Program increase - laser peening technology for submarine and carrier shafts		3,000
Program increase - lightweight anti-corrosion nanotechnology coating enhancement		5,000
Program increase - physics based neutralization of threats to human tissues and organs		5,000
Program increase - polymer coatings for reduced ice and fouling adhesion		5,000
Program increase - social networks and computational social science		2,000
Program increase - warfighter as a system human digital twin research		3,000
9 ELECTROMAGNETIC SYSTEMS APPLIED RESEARCH	84,994	92,994
Program increase - navigation technology		3,000
Program increase - dark swarm in degraded environments		5,000
10 OCEAN WARFIGHTING ENVIRONMENT APPLIED RESEARCH	63,392	80,284
Unjustified growth		-2,108
Program increase - task force ocean		10,000
Program increase - naval special warfare superiority in underseas and maritime environments		5,000
Program increase - ocean acoustics for monitoring		4,000
12 UNDERSEA WARFARE APPLIED RESEARCH	56,397	96,397
Program increase - undersea sensing and communications		5,000
Program increase - cross domain autonomy for persistent maritime operations		10,000
Program increase - partnerships for undersea vehicle research		14,000
Program increase - resident undersea autonomous robotics		11,000
13 FUTURE NAVAL CAPABILITIES APPLIED RESEARCH	167,590	170,724
Sea warfare and weapons excess growth		-2,461
Warfighter performance excess growth		-2,405
Program increase - cooperative engagement capability mission based networking for data distribution systems		3,000
Program increase - improved detection of submarine threats		5,000
14 MINE AND EXPEDITIONARY WARFARE APPLIED RESEARCH	30,715	33,215
Program increase - robotics for mine neutralization		2,500

R-1	Budget Request	Final Bill
15 INNOVATIVE NAVAL PROTOTYPES (INP) APPLIED RESEARCH	160,537	161,725
CLAWS unjustified growth		-4,988
Full spectrum undersea warfare unjustified request		-7,824
Program increase - thermoplastic composites for lightweight naval applications		4,000
Program increase - thermoplastic tailorable universal feedstock composites		10,000
18 ELECTROMAGNETIC SYSTEMS ADVANCED TECHNOLOGY	8,008	23,008
Program increase - all digital radar technology		15,000
19 MARINE CORPS ADVANCED TECHNOLOGY DEMONSTRATION	219,045	250,292
Command, control, communications, computers excess growth		-9,299
Combat service support and force protection excess growth		-7,054
Program increase - expeditionary process, exploitation, and dissemination		5,000
Program increase - Marine Corps force design acceleration - organic reconnaissance, surveillance, and target acquisition		4,500
Program increase - Marine Corps force design acceleration - closed classified wargaming network and naval integration		1,000
Program increase - Marine Corps force design acceleration - project Artemis		11,100
Program increase - adaptive threat force footprint		6,000
Program increase - ensuring defense and operational systems resilience for Marine Corps tactical cyber and spectrum maneuver		10,000
Program increase - Marine Corps missions support station demonstration		10,000
21 FUTURE NAVAL CAPABILITIES ADVANCED TECHNOLOGY DEV	246,054	231,139
Long endurance airborne platform decoy concurrency		-4,818
DECAF unjustified request		-3,760
C-ENCAP program delays		-4,918
Air warfare FNCs program delays		-3,305
Surface warfare FNCs program delays		-4,418
Undersea warfare FNCs program delays		-4,696
Program increase - advanced energetics research		6,000
Program increase - development of submersible air revitalization		5,000
23 WARFIGHTER PROTECTION ADVANCED TECHNOLOGY	4,851	33,151
Program increase - bone marrow registry program		24,300
Program increase - novel therapeutic interventions research		4,000
INNOVATIVE NAVAL PROTOTYPES (INP) ADVANCED		
26 TECHNOLOGY	141,948	159,948
Long range targeting concurrency		-2,000
Program increase - electromagnetic railgun		20,000

R-1	Budget Request	Final Bill
27 LARGE UNMANNED SURFACE VEHICLES	464,042	93,700
Transfer Medium Unmanned Surface Vehicle to line 27A (project 3428)		-26,302
Transfer Navy Large Unmanned Surface Vehicle program restructure to line 27A for Medium Unmanned Surface Vehicle program		-29,100
Navy Large Unmanned Surface Vehicle program restructure		-408,640
Navy Large Unmanned Surface Vehicle program restructure - warfare centers/program management only (project 3066)		28,100
Navy Large Unmanned Surface Vehicle program restructure - ghost fleet/overlord experimentation only (project 3066)		32,600
Navy Large Unmanned Surface Vehicle program restructure - large unmanned surface vehicles studies only (project 3066)		10,000
Navy Large Unmanned Surface Vehicle program restructure - autonomy, C2, elevated sensors, USV experimentation, technical and management services only (project 3067)		20,500
Navy Large Unmanned Surface Vehicle program restructure - RFP development and support only (project 3067)		2,500
27A MEDIUM UNMANNED SURFACE VEHICLES	0	55,402
Transfer Medium Unmanned Surface Vehicle from line 27 (project 3428)		26,302
Transfer Medium Unmanned Surface Vehicle machinery plant only, per Navy Large Unmanned Surface Vehicle program restructure from line 27		14,000
Transfer Naval Surface Warfare Center land-based engineering site for Medium Unmanned Surface Vehicle testing only, per Navy Large Unmanned Surface Vehicle program restructure from line 27		15,100
32 ASW SYSTEMS DEVELOPMENT	15,719	18,719
Program increase		3,000
34 ADVANCED COMBAT SYSTEMS TECHNOLOGY	70,218	52,680
LOCUST fixed wing tests funding early to need		-1,338
Advanced long range targeting funding early to need		-1,219
HIJENKS program restructure (project 3416)		-14,981
35 SURFACE AND SHALLOW WATER MINE COUNTERMEASURES	52,358	47,808
Barracuda schedule delays		-4,550
36 SURFACE SHIP TORPEDO DEFENSE	12,816	11,816
Torpedo warning systems funding excess to need		-1,000
38 PILOT FISH	358,757	328,757
Program adjustment		-30,000
43 ADVANCED SUBMARINE SYSTEM DEVELOPMENT	185,356	152,373
Project 9710 unjustified new start		-10,543
Project 9710 program delay		-27,430
Project 2096 material purchases for Block V VCS early to need		-4,010
Program increase - workforce partnership research		5,000
Program increase - improved CAVES technology		4,000

R-1	Budget Request	Final Bill
45 SHIP CONCEPT ADVANCED DESIGN	126,396	117,305
Cybersecurity previously funded		-1,500
Next generation medium amphibious ship excess to need		-6,000
Next generation medium logistics ship excess to need		-6,000
Project 4037 - funding for CHAMP submarine tender studies only		-10,591
Program increase - additive manufacturing		5,000
Program increase - polymorphic build farm for open source technologies		10,000
46 SHIP PRELIMINARY DESIGN & FEASIBILITY STUDIES	70,270	46,970
Project 0411 requirements and concept analysis excess growth		-16,200
Project 0411 preliminary design early to need		-17,100
Program increase - bridge integration program		10,000
48 ADVANCED SURFACE MACHINERY SYSTEMS	38,449	40,681
Power and energy systems contract award delay		-15,268
Program increase - silicon carbide power modules		10,000
Program increase - advanced power electronics integration		2,500
Program increase - small boat electric propulsion		5,000
50 LITTORAL COMBAT SHIP (LCS)	32,178	42,178
Program increase - defensive capability improvements		10,000
53 LITTORAL COMBAT SHIP (LCS) MISSION MODULES	67,875	77,875
Program increase - LCS anti-submarine warfare escort mission module test ship installation		10,000
54 AUTOMATED TEST AND RE-TEST	4,797	34,797
Program increase		30,000
57 MARINE CORPS GROUND COMBAT/SUPPORT SYSTEM	189,603	43,457
Armored reconnaissance vehicle concurrency		-2,600
Long range unmanned surface vehicle concurrency		-4,339
Transfer Ground-based anti-ship missile (project 6637) to line 57A		-64,207
Transfer Long range fires (project 6638) to line 57B		-75,000
57A MARINE CORPS GROUND-BASED ANTI-SHIP MISSILE	0	29,678
Transfer Ground-based anti-ship missile (project 6637) from line 57		64,207
ROGUE vehicles and fire control systems acquisition concurrency with development		-25,429
GBASM missiles for user evaluation early to need		-9,100
57B MARINE CORPS LONG RANGE FIRES	0	56,250
Transfer Long range fires (project 6638) from line 57		75,000
Long range fires new start delay		-18,750
61 NAVY ENERGY PROGRAM	23,422	56,422
Program increase		15,000
Program increase - marine energy converters for sensors and microgrids		10,500
Program increase - natural gas technologies		7,500

SMALL BUSINESS INNOVATION RESEARCH PROGRAM

The Small Business Innovation Research Program (SBIR) is designed to attract small technology companies to participate in federally sponsored research and development in order to enable advances in innovative technology disruption. It is noted that despite significant investment and acquisition preference for SBIR companies, there are few signs of creative disruptions, and it is further noted that the failure of the Department of Defense to capitalize on SBIR investments and incorporate disruptive innovation is demonstrated by the repeated failure of the Navy to sufficiently resource the Automated Test and Retest (ATRT) program, which has produced transformative technology, including the ATRT/AEGIS Virtual Twin. The agreement includes a total of \$34,797,000 for the ATRT program. Additionally, the Secretary of the Navy is directed to adhere to SBIR law and use SBIR awardees to the greatest extent practicable thus allowing and assisting SBIR awardees to commercialize technologies related to those developed under SBIR Phase I, II, and III awards.

OFFICE OF NAVAL RESEARCH BUDGET STRUCTURE AND BUDGET JUSTIFICATION MATERIALS

Previously stated direction contained in Senate Report 116-103 regarding the program element structure for Navy science and technology projects is reiterated in this agreement. Further, it is noted that acquisition-type prototyping efforts managed by the Office of Naval Research (ONR) require additional oversight, fiscal clarity, and adherence to financial management practices in order to avoid the schedule and cost growth seen, for instance, in the Solid State Laser Technology Maturation program. Finally, concerns remain with the lack of timely transmission, as well as the format, of classified project and budget details for ONR efforts. The Assistant Secretary of the Navy (Financial Management and Comptroller) and the Chief, Naval Research, are directed, not later than 30 days after the enactment of this Act, to present a plan to the congressional defense committees to ensure that ONR's classified project-specific information, required by the congressional defense committees for their budget review, be provided concurrent with submission of the President's budget in the appropriate format.

MARINE CORPS FORCE DESIGN INITIATIVES

Shortly after submission of the fiscal year 2021 President's budget request, the Com-

mandant of the Marine Corps released "Force Design 2030," followed by the submission to Congress of an above threshold reprogramming request to accelerate certain technology development efforts in support of Force Design efforts. This reprogramming request was approved by all four congressional defense committees, and additional appropriations are recommended in fiscal year 2021 to continue this acceleration. It is expected that these programs will be fully funded in the fiscal year 2022 President's budget request.

Further, the fiscal year 2021 President's budget request includes several acquisition programs that support the Commandant's Force Design, including the Ground-Based Anti-Ship Missile, Long Range Fires, Organic Precision Fires, and the Long-Range Unmanned Surface Vessel programs. There is concern that the Marine Corps is overly dependent on prototyping and mid-tier acquisition fielding authorities for developing these programs. Therefore, the Assistant Secretary of the Navy (Research, Development and Acquisition) is directed to review the Marine Corps' acquisition strategies for these and other programs related to Force Design, and to certify their appropriate use to the congressional defense committees not later than with the submission of the fiscal year 2022 President's budget request.

FUTURE SURFACE COMBATANT FORCE

The fiscal year 2021 President's budget request includes \$46,453,000 in program element 0603564N for requirements development, prototyping, and preliminary contract design of a new Large Surface Combatant (LSC) class to succeed the current DDG-51 Flight III destroyer. Additionally, \$19,020,000 is included in program element 0603563N for requirements and concept analysis of an LSC. Despite repeated delays to the LSC program, the Navy has reduced the acquisition profile for DDG-51 Flight III destroyers in recent budget submissions, and has not delineated a clear acquisition path for large surface combatants following the conclusion of the current DDG-51 Flight III destroyer multi-year procurement contract in fiscal year 2022. Absent a clear understanding of future Navy LSC force structure requirements and acquisition strategies, the proposed increase in funding for LSC, to include \$17,100,000 in preliminary design efforts, is not supported.

Further, it is noted that information provided by the Navy in response to Senate Report 116-103 regarding the Navy's Surface Ca-

pability Evolution Plan (SCEP) was incomplete. The Assistant Secretary of the Navy (Research, Development and Acquisition) is directed to provide to the congressional defense committees, with the fiscal year 2022 President's budget request, the updated acquisition strategies for each element of the Navy's SCEP, as previously requested, and the Assistant Secretary of the Navy (Financial Management and Comptroller) is directed to provide, with the fiscal year 2022 President's budget request, updated cost estimates for each element of the SCEP, and to certify full funding in the budget request for each respective acquisition strategy of the SCEP elements.

AEGIS BASELINES BUDGET ESTIMATES

As previously expressed in Senate Report 116-103, concerns remain with the lack of stability in scope and costs of AEGIS baselines from one budget submission to the next and the lack of associated details in budget justification materials. The Department of the Navy Program Executive Officer, Integrated Warfare Systems, and the Missile Defense Agency Program Executive, Sea-Based Weapons Systems, are directed to provide to the congressional defense committees, not later than 30 days after the enactment of this Act, a joint acquisition baseline for AEGIS development efforts.

CH-53K SYSTEM DEMONSTRATION TEST ARTICLE AIRCRAFT

The Assistant Secretary of the Navy (Research, Development and Acquisition) and the Assistant Secretary of the Navy (Financial Management and Comptroller) are directed to continue to comply with the direction contained in Senate Report 116-103 regarding System Demonstration Test Article aircraft for the CH-53K program.

NAVAL EXPEDITIONARY SUSTAINMENT AND REPAIR

The agreement recognizes the value of aligning technology-based solutions with expeditionary shipboard sustainment and repair concepts of operations to improve warship resiliency, lethality, and availability. The Secretary of the Navy is urged to continue investment in these areas.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

The agreement provides \$36,357,443,000 for Research, Development, Test and Evaluation, Air Force, as follows:

(DOLLARS IN THOUSANDS)

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[In thousands of dollars]

R-1	Budget Request	Final Bill
1 DEFENSE RESEARCH SCIENCES	315,348	325,348
Program increase - defense research sciences		10,000
2 UNIVERSITY RESEARCH INITIATIVES	161,861	196,861
Program increase - university research initiatives		15,000
Program increase - solar block research		5,000
Program increase - hypersonic supply chain research		5,000
Program increase - gigahertz - terahertz electronics and material research		10,000
4 FUTURE AF CAPABILITIES APPLIED RESEARCH	100,000	80,000
Transformational research forward financing		-20,000
5 MATERIALS	140,781	238,281
Program increase - coating technologies		10,000
Program increase - deployable passive cooling		5,000
Program increase - classified additive manufacturing		20,000
Program increase - human monitoring capabilities		9,500
Program increase - ceramic matrix composites		10,000
Program increase - certification of advanced composites		15,000
Program increase - high performance material		8,000
Program increase - technology for broadband operation		10,000
Program increase - thermal protection for hypersonic vehicles		10,000
6 AEROSPACE VEHICLE TECHNOLOGIES	349,225	164,726
Transfer to line 8		-203,865
Transfer to line 26		-2,434
Aerospace power and flight control technology unjustified program growth		-1,200
Program increase - secure UAV technologies		10,000
Program increase - modeling and testing of high temperature aero vehicles		4,000
Program increase - advanced battery technology for directed energy		5,000
Program increase - hypersonic research and education		4,000
7 HUMAN EFFECTIVENESS APPLIED RESEARCH	115,222	134,122
Program increase - human motion assessment		4,000
Program increase - pilot hypoxia detection and notification		9,900
Program increase - warfighter physiology program		5,000
8 AEROSPACE PROPULSION	0	201,415
Transfer from line 6		203,865
High power system technologies unjustified program growth		-2,450
9 AEROSPACE SENSORS	211,301	233,301
Program increase - exploitation detection for flexible combat avionics		5,000
Program increase - low cost sensors for small unmanned vehicles		5,000
Program increase - additive manufacturing for electronics		6,000
Program increase - cyber assurance and assessment of electronic hardware systems		6,000

R-1	Budget Request	Final Bill
12 CONVENTIONAL MUNITIONS	132,425	127,425
Unjustified program growth		-5,000
13 DIRECTED ENERGY TECHNOLOGY	128,113	130,613
Program increase - directed energy center of excellence		2,500
14 DOMINANT INFORMATION SCIENCES AND METHODS	178,668	215,668
Program increase - trusted UAS traffic management and c-SUAS testbed		10,000
Program increase - quantum network testbed		10,000
Program increase - quantum information science innovation center		10,000
Program increase - quantum cryptography		7,000
15 HIGH ENERGY LASER RESEARCH	45,088	29,208
Program increase - fiber laser research		5,000
Forward financing		-20,880
17 AF FOUNDATIONAL DEVELOPMENT/DEMOS	103,280	0
Transfer to line 22		-35,169
Transfer to line 23		-16,933
Transfer to line 30		-10,777
Transfer to line 33		-40,401
18 FUTURE AF INTEGRATED TECHNOLOGY DEMOS	157,619	147,619
Future transformational capabilities unjustified request		-10,000
19 NEXT GEN PLATFORM DEV/DEMO	199,556	0
Transfer to line 25		-37,230
Transfer to line 26		-105,058
Transfer to line 28		-57,268
20 PERSISTENT KNOWLEDGE, AWARENESS AND C2 TECH	102,276	0
Transfer to line 24		-35,338
Transfer to line 27		-4,699
Transfer to line 29		-12,090
Transfer to line 30		-20,948
Transfer to line 34		-29,201
21 NEXT GEN EFFECTS DEV/DEMOS	215,817	0
Transfer to line 27		-31,207
Transfer to line 31		-134,145
Transfer to line 32		-31,445
Transfer to line 34		-19,020
22 ADVANCED MATERIALS FOR WEAPON SYSTEMS	0	60,169
Transfer from line 17		35,169
Program increase - metals affordability research		10,000
Program increase - composites technology		6,000
Program increase - additive manufacturing for aerospace components		5,000
Program increase - advanced ballistic eyewear		4,000
23 SUSTAINMENT SCIENCE AND TECHNOLOGY (S&T)	0	16,933
Transfer from line 17		16,933

R-1	Budget Request	Final Bill

LOW-COST ATTRITABLE AIRCRAFT TECHNOLOGY AND SKYBORG

The agreement includes an additional \$50,000,000 above the fiscal year 2021 request to conduct prototyping necessary to transition the Low-Cost Attributable Aircraft Technology (LCAAT) demonstrator aircraft system into a fully operational capability, along with other associated LCAAT and Skyborg efforts. The Secretary of the Air Force is directed to submit to the congressional defense committees, not later than 90 days after the enactment of this Act, a spend plan for this additional funding as well as funding for LCAAT and Skyborg efforts in the underlying fiscal year 2021 budget request. This language replaces the language under the heading "Skyborg and Low-Cost Attributable Aircraft Technology" in House Report 116-453.

PROGRAM ELEMENT CONSOLIDATION

The agreement rejects the Air Force proposal to consolidate multiple program elements into a few larger program elements that would provide unprecedented programmatic and fiscal flexibility and recommends retaining the existing program element budget structure. The agreement supports the creation of the Future Air Force Integrated Technology Demonstration program element as it provides clarity and transparency for the Air Force Vanguard programs. The Assistant Secretary of the Air Force (Financial Management and Comptroller) is directed to follow this budget structure in future budget submissions until changes are agreed to by the House and Senate Appropriations Committees.

ACQUISITION WORKFORCE

The Secretary of the Air Force is directed to include, with the submission of the fiscal year 2022 President's budget request, the following data for each Research, Development, Test and Evaluation, Air Force line item that contains civilian pay: the number of civilian full time equivalents, total compensation and benefits, and average salary. For each type of data, the Secretary of the Air Force is also directed to include the actual amounts for the previous fiscal year, the en-

acted amounts for the current fiscal year, and the requested amount in the fiscal year 2022 President's budget request.

ADVANCED BATTLE MANAGEMENT SYSTEM

The agreement includes \$158,782,000 for Advanced Battle Management System (ABMS) to allow for continued program progress. The Assistant Secretary of the Air Force (Acquisition, Technology and Logistics) is directed to provide, with the fiscal year 2022 President's budget request, the ABMS acquisition strategy; in addition, the Assistant Secretary of the Air Force (Financial Management and Comptroller) is directed to certify that the fiscal year 2022 President's budget fully funds this acquisition strategy.

Further, with the submission of the fiscal year 2022 budget request, the Secretary of the Air Force is directed to submit a report summarizing all related programs in communications, battle management command and control, and sensors that fall within the ABMS umbrella across the future years defense program. The report should reference program element funding lines and clearly link all activities with funding lines in the fiscal year 2022 budget justification documents. It should also clearly articulate all phase one efforts, including initial operational capability timelines, the status of related legacy activities, and linkages to classified activities. This report may be submitted with a classified annex if necessary.

GROUND BASED STRATEGIC DETERRENT

As part of its fiscal year 2021 President's budget request, the Air Force provided a legislative proposal to carry out construction activities associated with the recapitalization of the Nation's ground based nuclear missile systems. The legislative proposal for the Ground Based Strategic Deterrent program, as envisioned, would allow for the use of research, development, test and evaluation funding for planning and design activities and would utilize procurement funding in lieu of military construction funding to replace both the existing launch control and launch facilities.

While there could be schedule risks in using a traditional military construction ap-

proach, the legislative proposal is not the only option. The agreement supports efforts to group projects whether by installation, air wing, or other grouping and expects the Air Force to designate a way forward for ease of management and execution. The agreement also supports efforts to utilize an approach where the single prime vendor may be designated to execute military construction projects in coordination with the Army Corps of Engineers. Due to the scale of this endeavor and the importance of maintaining nuclear deterrence, the Secretary of the Air Force is directed to designate a senior leader to plan, coordinate, and execute the military construction, research, development, test and evaluation, and procurement functions with the ability to impact each appropriation as required. Finally, the Secretary of the Air Force is directed to submit to the House and Senate Appropriations Committees, not later than 180 days after the enactment of this Act, a detailed report outlining the replacement plan for the launch control and launch facilities while maintaining the required readiness posture.

USE OF RESEARCH, DEVELOPMENT, TEST AND EVALUATION APPROPRIATIONS

The fiscal year 2021 President's budget request includes \$15,000,000 in Research, Development, Test and Evaluation, Air Force funding to be used as planning and design for construction associated with the Ground Based Strategic Deterrent program. The agreement does not support this use of research and development funds, nor the associated legislative proposals, and reduces the budget request accordingly. Further, the agreement directs that none of the funds appropriated in this Act for research, development, test and evaluation may be used for military construction activities, unless expressly allowed in this Act.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, SPACE FORCE

The agreement provides \$10,540,069,000 for Research, Development, Test and Evaluation, Space Force, as follows:

EVOLVED STRATEGIC SATCOM

The agreement notes concerns about changes to the Evolved Strategic SATCOM (ESS) acquisition plan and directs the Secretary of the Air Force to provide to the congressional defense committees, not later than 120 days after the enactment of this

Act, an assessment of the potential for a strategic communications gap beginning in 2030. The assessment shall include a detailed explanation of the ESS acquisition plan, functional availability analysis, consideration of the potential strategic communication needs of other programs such as Next Generation Overhead Persistent Infrared,

new ESS program cost estimates, and if necessary, gap mitigation strategies.

RESEARCH, DEVELOPMENT, TEST AND
EVALUATION, DEFENSE-WIDE

The agreement provides \$25,932,671,000 for Research, Development, Test and Evaluation, Defense-Wide, as follows:

MOBILE MICROREACTOR STRATEGY

The agreement supports efforts by the Department of Defense to explore new methods of power production for use in operational needs, future weapon systems, force protection, asset protection, and humanitarian and disaster response. The recommendation provides \$70,000,000 to support the development of a prototype mobile microreactor and \$10,000,000 to support the production of fuel for the prototype.

The agreement notes, however, that the Department has not established an executive agent to direct the microreactor program and has not secured fuel stocks. Therefore, the Under Secretary of Defense (Research and Engineering) is directed to submit a report to the congressional defense committees not later than 30 days after the enactment of this Act, on the Department's plans for the mobile microreactor program. The report shall address whether the Department has identified an executive agent for mobile energy; plans to include mobile energy solutions, such as microreactors, in force modernization initiatives; the strategy for deploying microreactors, including site identification processes, fielding, personnel training, and deployment timelines; the procurement strategy to acquire feed material for microreactors; the plan to identify and use existing authorities to provide appropriate indemnities; and the status of pilot programs for microreactors, including suitable locations for pilot activities.

ARTIFICIAL INTELLIGENCE COORDINATION

The agreement supports the artificial intelligence activities of the Department of Defense which are intended to improve the affordability and effectiveness of military operations. The agreement is concerned, however, about a lack of coordination among the myriad of artificial intelligence programs within the Department and the military Services. Therefore, the Director of the Joint Artificial Intelligence Center is directed to provide the congressional defense committees, not later than 120 days after the

enactment of this Act, an inventory of all artificial intelligence activities to include each program's appropriation, project, and line number; the current and future years defense program funding; the identification of academic or industry mission partners, if applicable; and any planned transition partners.

ARSENAL SUPPLY CHAIN SECURITY PROOF OF CONCEPT

The agreement provides \$3,500,000 and directs the Under Secretary of Defense (Research and Engineering) to utilize these funds to provide cybersecurity resources and to address cybersecurity challenges and digital modernization efforts at Army arsenals through partnerships with digital manufacturing institute efforts. This language replaces the language under the heading "Arsenal Security" in House Report 116-453.

DEFENSE ADVANCED RESEARCH PROJECTS AGENCY SMALL BUSINESS SET ASIDE APPLICATION

The agreement notes challenges posed to the effective analysis of the budget of the Defense Advanced Research Projects Agency (DARPA) due to practices within the agency of balancing the Small Business Innovation Research set asides across the DARPA portfolio based on program execution rather than proportionally from each program element. Such practices are not permitted. The agreement reminds the Director of DARPA, and all defense agencies, that section 8052 of this Act requires that "the Small Business Innovation Research program and the Small Business Technology Transfer program set asides shall be taken proportionally from all programs, projects, or activities to the extent they contribute to the extramural budget." Proportional application of the set aside aids congressional budget oversight by ensuring accurate visibility into under executing programs and program element requirements. The agreement expects these requirements to be followed by all elements of the Department of Defense.

OPERATIONAL TEST AND EVALUATION, DEFENSE

The agreement provides \$257,120,000 for Operational Test and Evaluation, Defense, as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
(In thousands of dollars)

	Budget Request	Final Bill
OPERATIONAL TEST AND EVALUATION	100,021	100,021

REPROGRAMMING GUIDANCE FOR THE DEFENSE HEALTH PROGRAM

(INCLUDING BASE AND OVERSEAS LOGISTICS OPERATIONS FUNDING)

The agreement directs that the In-House Care and Private Sector Care budget sub-activities remain designated as congressional special interest items. Any transfer of funds into or out of these sub-activities requires the Secretary of Defense to follow prior approval reprogramming procedures. The Secretary of Defense is further directed to provide a report to the congressional defense committees not later than 30 days after the enactment of this Act that delineates transfers of funds and the dates any transfers occurred from the Private Sector Care budget sub-activity to any other budget sub-activity in fiscal year 2020.

The Assistant Secretary of Defense (Health Affairs) is directed to provide quarterly reports and briefings to the congressional defense committees on budget execution data for all of the Defense Health Program budget activities not later than 30 days after the end of each fiscal quarter and to adequately reflect changes to the budget activities requested by the Services in future budget submissions.

CARRYOVER

The agreement provides one percent carryover authority for the operation and maintenance account of the Defense Health Program. The Assistant Secretary of Defense (Health Affairs) is directed to submit a detailed spending plan for any fiscal year 2020 designated carryover funds to the congressional defense committees not less than 30 days prior to executing the carryover funds.

PEER-REVIEWED CANCER RESEARCH PROGRAM

The agreement provides \$115,000,000 for the peer-reviewed cancer research program to research cancers not addressed in the breast, pancreatic, prostate, ovarian, kidney, lung, melanoma, and rare cancer research programs.

The funds provided in the peer-reviewed cancer research program are directed to be used to conduct research in the following areas: cancers associated with the use of beryllium; bladder cancer; blood cancers; brain cancer; colorectal cancer; endometrial cancer; esophageal cancer; germ cell cancers; head and neck cancer; liver cancer; lymphoma; mesothelioma; metastatic cancers; neuroblastoma; pediatric brain tumors; pediatric, adolescent, and young adult cancers; sarcoma; stomach cancer; thyroid cancer, and the link between scleroderma and cancer. The peer-reviewed cancer research program shall be used only for the purposes listed above. The inclusion of the individual rare cancer research program shall not prohibit the peer-reviewed cancer research program from funding the above-mentioned cancers or cancer subtypes that may be rare by definition.

The report directed under this heading in House Report 116-453 is still required to be provided not later than 12 months after the enactment of this Act.

PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The agreement provides \$370,000,000 for a peer-reviewed medical research program. The Secretary of Defense, in conjunction with the Service Surgeons General, is directed to select medical research projects of clear scientific merit and direct relevance to military health. Research areas considered under this funding are restricted to: arthritis, burn pit exposure, cardiomyopathy, congenital heart disease, diabetes, dystonia, eating disorders, emerging viral diseases, endometriosis, epidermolysis bullosa, familial hypercholesterolemia, fibrous dysplasia, focal segmental glomerulosclerosis, food al-

lergies, Fragile X, frontotemporal degeneration, hemorrhage control, hepatitis B, hydrocephalus, hypertension, inflammatory bowel diseases, malaria, metals toxicology, mitochondrial disease, myalgic encephalomyelitis/chronic fatigue syndrome, myotonic dystrophy, non-opioid therapy for pain management, nutrition optimization, pathogen-inactivated blood products, peripheral neuropathy, plant-based vaccines, platelet like cell production, polycystic kidney disease, pressure ulcers, pulmonary fibrosis, respiratory health, rheumatoid arthritis, sleep disorders and restriction, suicide prevention, sustained release drug delivery, vascular malformations, and women's heart disease. The additional funding provided under the peer-reviewed medical research program shall be devoted only to the purposes listed above.

ELECTRONIC HEALTH RECORDS

The agreement directs the Secretary of Defense to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act on the status of the installation of all remaining information technology and related infrastructure required to complete the deployment of the electronic health record system, including the timeline to complete installation, and costs associated if the Department accelerated the deployment timeline.

The agreement directs the Comptroller General to continue quarterly performance reviews of the deployment of MHS GENESIS with a focus on whether the program is meeting expected cost, schedule, scope, quality, and risk mitigation expectations. It is expected that the Program Executive Officer, Defense Healthcare Management Systems (PEO DHMS) will facilitate quarterly performance reviews by providing the Comptroller General with regular and in-depth access to the program.

The agreement directs the Director, Operational Test and Evaluation to conduct an evaluation of change management strategies and training programs related to the deployment of MHS GENESIS and to provide a briefing to the House and Senate Appropriations Committees not later than 90 days after the enactment of this Act on related findings and recommendations for improvement.

The agreement directs the PEO DHMS to provide monthly reports not later than 15 days after the end of each month to the congressional defense committees on the status of all open incident reports, as well as the 46 high priority incident reports, in order to better track the progress of resolving the issues identified in the initial deployment of MHS GENESIS. The PEO DHMS, in conjunction with the Director of the Interagency Program Office and the Director of the Defense Health Agency, is directed to provide quarterly reports not later than 30 days after the end of each fiscal quarter to the congressional defense committees and the Government Accountability Office on the cost of the program, including indirect costs being funded outside of the DHMS Modernization Electronic Health Record program; and schedule of the program, to include milestones, knowledge points, and acquisition timelines, as well as quarterly obligation reports.

The Director of the Interagency Program Office is directed to provide quarterly reports to the House and Senate Appropriations Committees, Subcommittees on Defense and Military Construction, Veterans Affairs, and Related Agencies on the progress of interoperability between the two Departments.

CONGRESSIONALLY DIRECTED MEDICAL RESEARCH PROGRAMS

The agreement directs the Comptroller General to conduct a comprehensive review of the Congressionally Directed Medical Research Programs that includes the program's ability to execute annual appropriations; measure its return on research investment; and analyze its research coordination with the National Institute of Health and the Department of Veterans Affairs. The agreement directs the Comptroller General to brief the House and Senate Appropriations Committees on its preliminary findings not later than 180 days after the enactment of this Act and to provide a full report to the same Committees at a date agreed upon at that time of the preliminary briefing.

RESTRUCTURING MILITARY TREATMENT FACILITIES

The agreement directs the Assistant Secretary of Defense (Health Affairs), in coordination with the Director of the Defense Health Agency and the Service Surgeons General, to submit to the congressional defense committees an implementation plan prior to the obligation of funds in fiscal year 2021 to close or restructure any military treatment facilities. The plan shall include detailed impacts to medical manpower; updated information and analysis on the accessibility and quality of nearby civilian health-care providers; military readiness; cost-effectiveness, including reimbursement rates for TRICARE; and an assessment of Government Accountability Office recommendations for future transitions.

MILITARY TREATMENT FACILITY TRANSITION

The Comptroller General is directed to provide the congressional defense committees a report not later than 90 days after the enactment of this Act on the status of the transition of military treatment facilities (MTF) to the Defense Health Agency (DHA). The report shall include a review of functions at facilities that have already transitioned, including DHA's role or management and the administration support that the Services are providing and a timeline for that support to cease; cost implications of the transition, including the Department's plan for maximizing efficiencies and reducing duplication; the current and planned DHA staffing model; and how the DHA will ensure that the Services' medical requirements are considered and met. The agreement also directs the Assistant Secretary of Defense (Health Affairs) to continue to provide any updates regarding the MTF transition directly to the congressional defense committees in a timely manner in order to facilitate appropriate congressional oversight.

FACILITIES SUSTAINMENT, RESTORATION AND MODERNIZATION

The Director of the Defense Health Agency, in coordination with the Secretary of Defense (Health Affairs) and the Service Surgeons General, is directed to submit to the congressional defense subcommittees not later than 180 days after the enactment of this Act, a comprehensive plan to address the defense medical facilities sustainment, restoration and modernization unfunded requirements and recommendations detailed in the Department of Defense Inspector General audit report.

JOINT WARFIGHTER MEDICAL RESEARCH PROGRAM

The Assistant Secretary of Defense (Health Affairs) is directed to submit a report, not later than 12 months after the enactment of this Act, to the congressional defense committees that lists the projects that receive funding under the Joint Warfighter Medical Research Program. The report shall include

the funding amount awarded to each project, a thorough description of each project's research, and the benefit the research will provide to the Department of Defense.

TRAUMATIC BRAIN INJURY/PSYCHOLOGICAL HEALTH

The Assistant Secretary of Defense (Health Affairs) is directed to submit a report to the congressional defense committees not later than 18 months after the enactment of this Act on expenditure and obligation data of additional funding added by Congress for psychological health and traumatic brain injury.

ORTHOTICS AND PROSTHETICS OUTCOMES RESEARCH

The Assistant Secretary of Defense (Health Affairs) is directed to provide a report, not later than 18 months after the enactment of this Act, to the congressional defense committees on the peer-reviewed projects that receive funding under the Orthotics and Prosthetics Outcomes research funding line. The report shall include the funding amount awarded to each project and the anticipated effect on patient care.

CHRONIC PAIN MANAGEMENT RESEARCH

The funds provided in the chronic pain management research program shall be used to conduct research on the effects of using prescription opioids to manage chronic pain and for researching alternatives, namely non-opioid or non-addictive methods to treat and manage chronic pain, with a focus on issues related to military populations.

SEXUAL TRAUMA TREATMENT PILOT PROGRAM

Funds appropriated for this pilot program in fiscal year 2020 shall be distributed to civilian partners without further delay. For funds recommended for fiscal year 2021, the Assistant Secretary of Defense (Health Affairs) shall submit a spend plan to the House and Senate Appropriations Committees prior to the obligations of funds.

CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE

The agreement provides \$1,049,800,000 for Chemical Agents and Munitions Destruction, Defense, as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS (In thousands of dollars)

	Budget Request	Final Bill
OPERATION AND MAINTENANCE	106,691	106,691
PROCUREMENT	616	616
RESEARCH, DEVELOPMENT, TEST AND EVALUATION	782,193	942,493
Program increase—ACWA program shortfall		160,300
Total, Chemical Agents and Munitions Destruction, Defense	889,500	1,049,800

ASSEMBLED CHEMICAL WEAPONS ALTERNATIVES PROGRAM

The Program Executive Office (PEO) Assembled Chemical Weapons Alternatives (ACWA) is responsible for the safe and environmentally compliant destruction of the remaining United States chemical weapons stockpile stored at the United States Army Pueblo Chemical Depot in Colorado and the Blue Grass Army Depot in Kentucky. The deadline for completion of destruction operations, as established in 50 U.S.C. 1521(b), is not later than December 31, 2023.

Approximately \$9,620,000,000 for the ACWA program has been appropriated through fiscal year 2020. The fiscal year 2021 President's budget request includes an additional \$775,700,000 for the program. According to the program brief accompanying the budget submission, program funds are for continued destruction operations at the Pueblo facility. At the Blue Grass facility, the funds are for continued destruction operations of sarin,

mustard, and some nerve agents, and for the beginning of operations to destroy nerve rocket warheads.

In an August update to the congressional defense committees, the program office reported being on track with program activities and on schedule to meet the 2023 deadline for destruction operations. It is therefore perplexing that in November, already two months into fiscal year 2021, the Department of Defense notified Congress of a \$160,300,000 shortfall in the budget request. The Department has indicated that if additional funding is not provided, the program will breach the congressionally mandated deadline for destruction operations by four years at Blue Grass Army Depot while purportedly maintaining the deadline at the Army Pueblo Chemical Depot.

The ACWA program has already experienced a significant Nunn-McCurdy unit cost breach in 2017 and has been cited by the Department of Defense Inspector General as having schedule delays and cost overruns due to a lack of contract oversight. In 2017, the program office came to the congressional defense committees for additional unanticipated funding of \$127,000,000. It is unsatisfactory that the program office entrusted with a must-succeed mission has been allowed to be routinely mismanaged and has used Congress as its backstop against failure.

The agreement concludes that the program lacks the proper accounting mechanisms and programmatic rigor to effectively assess their status and forecast their resource needs. As such, the PEO ACWA is directed to begin providing quarterly updates to the congressional defense committees not later than one quarter after the enactment of this Act. These updates must include itemized spend plans that show any procurement of systems or components and labor costs broken out by main plant operation; static detonation chamber, broken out by operations and manufacturing/testing; non-systems contractors; and rocket processing changes, broken out by: 1) rocket containers and skids; 2) non-destructive equipment/vertical rocket cutting machine; 3) rocket containerization system; 4) SDC 2000 equipment, installation, and training; 5) SDC 1200 equipment, installation, and training; and 6) system contractor labor and materials, if applicable. The updates must also include an assessment of the status of progress on all major projects and detail all program risks and the steps the program is taking to mitigate risks. Each update must make note of any programmatic or budgetary changes since the previous update. Finally, each update must provide schedule projections for meeting the December 31, 2023 deadline.

Additionally, the PEO ACWA is directed to work with the congressional defense committees to determine what, if any, changes should be made to budget materials to provide more transparency into the cost drivers of the program and to the budgetary changes required to support the program goals.

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

The agreement provides \$914,429,000 for Drug Interdiction and Counter-Drug Activities, Defense, as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS (In thousands of dollars)

	Budget Request	Final Bill
COUNTER-NARCOTICS SUPPORT	546,203	567,003
Program increase—multi-mission support vessel		18,000
Program increase—Pacific Deterrence Initiative—Joint Interagency Task Force West Project 9202		2,800
DRUG DEMAND REDUCTION PROGRAM	123,704	127,704

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS— Continued (In thousands of dollars)

	Budget Request	Final Bill
Program increase—young Marines drug demand reduction		4,000
NATIONAL GUARD COUNTER-DRUG PROGRAM	94,211	194,211
Program increase		100,000
NATIONAL GUARD COUNTER-DRUG SCHOOLS	5,511	25,511
Program increase		20,000
Total, Drug Interdiction and Counter-Drug Activities, Defense	769,629	914,429

DRUG-INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

The agreement includes funds requested for international programs in the Northern Command and Southern Command areas of responsibility, including \$17,080,000 to support counter illicit drug trafficking operations in Southern Command. The Secretary of Defense is directed to ensure that international programs requested and supported by this account do not duplicate programs funded under the Defense Security Cooperation Agency in the Operation and Maintenance, Defense-Wide account.

The agreement also includes \$194,211,000 for the National Guard Counter-Drug Program and an additional \$31,768,000 is included under Counter-Narcotics Support for operational support to the National Guard.

The Secretary of Defense is directed to provide quarterly reports to House and Senate Appropriations Committees on the use and status of funds provided under this heading, including information for each project as identified in the PB-47 Project Definitions budget exhibit of the fiscal year 2021 budget justification materials and other documentation supporting the fiscal year 2021 Department of Defense budget request.

OFFICE OF THE INSPECTOR GENERAL

The agreement provides \$375,439,000 for the Office of the Inspector General, as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS (In thousands of dollars)

	Budget Request	Final Bill
OPERATION AND MAINTENANCE	369,483	373,483
Program increase—oversight of PL 116-136 funding		4,000
PROCUREMENT	858	858
RESEARCH, DEVELOPMENT, TEST AND EVALUATION	1,098	1,098
Total, Office of the Inspector General	371,439	375,439

QUARTERLY END STRENGTH AND EXECUTION REPORTS

The Department of Defense Inspector General is directed to provide quarterly reports to the congressional defense committees on civilian personnel end strength, full-time equivalents, and budget execution not later than 15 days after the end of each fiscal quarter. The reports should contain quarterly civilian personnel end strength and full-time equivalents as well as an estimate of fiscal year end strength and fiscal year full-time equivalents. The reports should also include quarterly budget execution data along with revised fiscal year estimated execution data. The Inspector General is directed to provide realistic end of fiscal year estimates based on personnel trends to date.

TITLE VII—RELATED AGENCIES

The agreement provides \$1,147,719,000 in Title VII, Related Agencies, as follows:

(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	FINAL BILL

TITLE VII		
RELATED AGENCIES		
Central Intelligence Agency Retirement and Disability System Fund.....	514,000	514,000
Intelligence Community Management Account (ICMA).....	663,000	633,719
	=====	=====
Total, title VII, Related agencies.....	1,177,000	1,147,719
	=====	=====

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in a separate, detailed, and comprehensive classified annex. The Intelligence Community, the Department of Defense, and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying the Department of Defense Appropriations Act, 2021.

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

The agreement provides \$514,000,000 for the Central Intelligence Agency Retirement and Disability Fund.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

The agreement provides \$633,719,000, a decrease of \$29,281,000 below the budget request, for the Intelligence Community Management Account.

TITLE VIII—GENERAL PROVISIONS

The agreement incorporates general provisions which were not amended. Those general provisions that were addressed in the agreement are as follows:

(TRANSFER OF FUNDS)

The agreement modifies a provision proposed by the House which provides general transfer authority not to exceed \$4,000,000,000.

The agreement modifies a provision proposed by the House which identifies tables as Explanation of Project Level Adjustments.

The agreement retains a provision which provides for the establishment of a baseline for application of reprogramming and transfer authorities for the current fiscal year. The House bill contained a similar provision.

The agreement includes a provision proposed by the House regarding humanitarian and civic assistance.

The agreement modifies a provision proposed by the House regarding management of civilian personnel of the Department of Defense.

The agreement includes a provision which provides for the transfer of funds to the Defense Pilot Mentor-Protégé Program. The House bill contained a similar provision.

The agreement includes a provision proposed by the House regarding limitations on the use of funds to purchase anchor and mooring chains.

The agreement retains a provision which restricts the use of funds to reduce or prepare to reduce the number of deployed and non-deployed strategic delivery vehicles and launchers. The House bill contained no similar provision.

The agreement includes a provision proposed by the House regarding incentive payments authorized by the Indian Financing Act of 1974.

The agreement modifies a provision proposed by the House which requires notification regarding funds received from foreign governments related to the stationing or operations of United States Armed Forces.

The agreement modifies a provision proposed by the House which limits the number of staff-years of technical effort at Department of Defense Federally Funded Research and Development Centers.

The agreement includes a provision regarding overseas military facility investment. The House bill contained a similar provision.

The agreement modifies a new provision providing additional transfer authority for amphibious assault ships. The House bill contained no similar provision.

The agreement includes a provision proposed by the House which provides funds for the Asia-Pacific Regional Initiative Program

for the purpose of enabling the Indo-Pacific Command to execute Theater Security Cooperation activities.

The agreement includes a provision proposed by the House regarding the availability of certain CIA funds for transfer or extension.

The agreement retains a provision proposed by the House regarding mitigation of environmental impacts on Indian lands resulting from Department of Defense activities.

(RESCISSIONS)

The agreement modifies a provision proposed by the House recommending rescissions and provides for the rescission of \$3,248,047,000. The rescissions agreed to are:

Improved homeland defense interceptors	214,000,000
Defense Working Capital Funds:	
Defense Counterintelligence and Security Agency Working Capital Fund	100,000,000

The agreement retains a provision which prohibits funds from being obligated or expended for assistance to the Democratic People's Republic of Korea with certain exceptions. The House bill contained a similar provision.

The agreement retains a provision proposed by the House allowing reimbursement for Reserve Component intelligence support to combatant commands, defense agencies, and joint intelligence activities.

The agreement retains a provision proposed by the House restricting procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin.

The agreement includes a provision which makes funds available to maintain competitive rates at the arsenals. The House bill contained no similar provision.

The agreement modifies a provision proposed by the House which provides funding to the United Service Organizations and the Red Cross.

The agreement includes a provision requiring set-asides for Small Business Innovation Research and Small Business Technology Transfer to be taken proportionally from all programs. The House bill contained a similar provision.

(TRANSFER OF FUNDS)

The agreement includes a provision proposed by the House which provides funding

to the Sexual Assault Special Victim's Counsel Program.

The agreement includes a provision which limits the use of research and development funds to procure end-items. The House bill contained a similar provision.

The agreement includes a provision which restricts certain funds for any new start advanced concept technology demonstration project or joint capability demonstration project. The House bill contained a similar provision.

The agreement includes a provision proposed by the House requiring classified quarterly reports.

(TRANSFER OF FUNDS)

The agreement includes a provision providing funds for a classified Operation and Maintenance, Army transfer. The House bill contained a similar provision.

The agreement includes a provision regarding the National Intelligence Program budget. The House bill contained a similar provision.

The agreement modifies a provision proposed by the House which provides a grant to the Fisher House Foundation, Inc.

The agreement includes a provision proposed by the House relating to the assignment of forces.

The agreement includes a provision proposed by the House requiring notification relating to rapid acquisition authority.

The agreement includes a provision which provides funding for prior year shipbuilding cost increases. The House bill contained a similar provision.

The agreement retains a provision which prohibits funding from being used to initiate a new start program without prior written notification. The House bill contained a similar provision.

The agreement includes a provision regarding contingency budget operations. The House bill contained a similar provision.

The agreement retains a provision that allows the use of funds for the rapid acquisition and deployment of supplies and associated support services. The House bill contained a similar provision.

The agreement includes a provision which limits the reprogramming of funds from the Department of Defense Acquisition Workforce Development Account. The House bill contained a similar provision.

The agreement includes a new provision relating to Space Force satellite on-orbit incentive payments. The House bill contained no similar provision.

The agreement retains a provision which provides the Director of National Intelligence with general transfer authority with certain limitations. The House bill contained a similar provision.

The agreement retains a provision which restricts the transfer of Khalid Sheik Mohammad and others. The House bill contained no similar provision.

The agreement retains a provision which prohibits funds to transfer any individual detained at Guantanamo Bay, Cuba to a country of origin or other foreign country or entity unless the Secretary of Defense makes certain certifications. The House bill contained no similar provision.

The agreement includes a provision proposed by the House which limits funding to Rosoboronexport.

The agreement retains a provision proposed by the House which prohibits funds from being used for the purchase or manufacture of a United States flag unless such flags are treated as covered items under section 2533a(b) of title 10, U.S.C.

The agreement retains a provision which prohibits funds to construct, acquire, or modify any facility in the United States, its

territories, or possessions to house any Guantanamo Bay detainee, with certain exceptions. The House bill contained no similar provision.

The agreement modifies a new provision which authorizes the use of funds in the Shipbuilding and Conversion, Navy account to purchase two used auxiliary vessels for the National Defense Reserve Fleet. The House bill contained no similar provision.

The agreement retains a provision proposed by the House which requires the Secretary of Defense to post grant awards on a public website in a searchable format.

The agreement modifies a provision proposed by the House regarding the reduction and reprogramming of funds to the Rapid Prototyping Fund.

The agreement includes a provision which provides funding for the National Defense Reserve Fleet. The House bill contained a similar provision.

The agreement includes a provision which requires the Secretary to submit reports regarding the National Instant Criminal Background Check System. The House bill contained no similar provision.

The agreement retains a provision which prohibits funds from the Department of Defense Acquisition Workforce Development Account to be transferred to the Rapid Prototyping Fund or credited to a military-department specific fund. The House bill contained a similar provision.

The agreement retains a provision proposed by the House which prohibits the use of funds for gaming or entertainment that involves nude entertainers.

The agreement includes a provision proposed by the House which prohibits funding to deliver F-35 aircraft to Turkey, except in accordance with the National Defense Authorization Act for Fiscal Year 2020.

The agreement does not include a provision proposed by the House which provides reprogramming authority for the Global Engagement Center.

The agreement retains a provision proposed by the House which makes funds available through the Office of Economic Adjustment for transfer to the Secretary of Education, to make grants to construct, renovate, repair, or expand elementary and secondary public schools on military installations.

The agreement retains a provision which prohibits the use of funds to carry out the closure or realignment of Guantanamo Bay, Cuba. The House bill contained no similar provision.

The agreement retains a provision proposed by the House which removes limits on certain types of assisted reproductive services.

The agreement retains a provision which prohibits funds for equipment for ceremonial honors. The House bill contained a similar provision.

The agreement retains a provision proposed by the House which allows death gratuity payments as authorized in subchapter II of chapter 75 of title 10, United States Code.

The agreement modifies a provision proposed by the House which prohibits funds from being used to transfer the National Reconnaissance Office to the Space Force.

The agreement modifies a new provision proposed by the House that prohibits funds from being used to transfer certain Department of Defense components to the Space Force.

The agreement includes a new provision that provides funds appropriated for military personnel matters to be used for members of the Space Force. The House bill contained a similar provision.

The agreement modifies a provision proposed by the House which reduces funding due to favorable foreign exchange rates.

The agreement includes a new provision which reduces funding due to fuel savings. The House bill contained a similar provision.

The agreement does not retain a provision regarding Army use of CH-47 reimbursements.

The agreement does not retain a provision proposed by the House that prohibits funds from being used to exclude or implement the exclusion of the Department of Defense from cover under the Federal Service Labor Management Relations Statute.

The agreement does not retain a new provision proposed by the House that requires the Secretary of Defense to provide information and documents regarding the massacre in El Mozote.

The agreement modifies a new provision proposed by the House regarding a pilot program for software and digital technology.

The agreement does not retain a provision proposed by the House which requires the Secretary of Defense to report on deployed personnel by each geographic combatant command.

The agreement does not retain a provision proposed by the House which requires the Secretary of Defense to provide notification before the deployment of security force assistance brigades.

The agreement includes a new provision which provides funding to assess and strengthen the manufacturing and defense industrial base and supply chain resiliency. The House bill contained no similar provision.

The agreement modifies a new provision which provides funding to improve readiness. The House bill contained no similar provision.

The agreement does not retain a new provision proposed by the House which provides funds for grants for public healthcare professionals on Guam.

The agreement modifies a new provision proposed by the House which prohibits funds for the various elements of development and design of certain future naval ships unless any contract specifies that all auxiliary equipment, including pumps and propulsion shafts are manufactured in the United States.

The agreement modifies a new provision proposed by the House which prohibits funds for the decommissioning the USS FORT WORTH or the USS CORONADO.

The agreement does not retain a provision proposed by the House which requires the Secretary of Defense to provide notification of deployments of Armed forces to locations outside the United States.

The agreement does not retain a new provision proposed by the House which prohibits funding from being used in a manner that does not comply with the requirements in section 365 of the George Floyd Justice in Policing Act of 2020.

The agreement does not retain a new provision proposed by the House which prohibits the use of funds to conduct or prepare for any explosive nuclear weapons test that produces any yield.

The agreement does not retain a new provision proposed by the House which prohibits funds by this Act or any prior Act to construct a wall, fence, border barriers, or border security infrastructure along the southern land border of the United States.

The agreement does not retain a new provision proposed by the House which requires fiscal year 2020 funds that were transferred by the Department and remain unobligated be returned to their original accounts, notwithstanding the transfer authority provided by section 8005.

The agreement does not retain a new provision proposed by the House which prohibits funds for members of the Armed Forces serving on active duty in support of security or

immigration enforcement operations at the southern border unless the agency requesting such support enters into an agreement with the Secretary of Defense to reimburse the Department of Defense for all costs incurred by the Department to provide such services.

The agreement modifies a new provision proposed by the House which provides funding for mitigation of military aircraft noise.

The agreement does not retain a new provision proposed by the House which prohibits the use of funds to provide guidance on, re-

view, prepare, approve, or recommend budget request funding levels or initiatives for the Department of Energy.

The agreement does not retain a new provision proposed by the House which provides funding for renaming Army installations, facilities, roads, and streets named after confederate leaders and officers.

The agreement adds a new provision which prohibits funds for the retirement or divestiture of the RQ-4 Global Hawk Block 30 and Block 40 aircraft.

The agreement adds a new provision prohibiting funds for the lease of an icebreaking vessel unless certain conditions are met.

TITLE IX—OVERSEAS CONTINGENCY OPERATIONS/GLOBAL WAR ON TERRORISM

The agreement provides \$68,650,000,000 in Title IX, Overseas Contingency Operations/Global War on Terrorism.

MILITARY PERSONNEL

The agreement provides \$4,602,593,000 for Military Personnel, as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

BALTIC SECURITY INITIATIVE

The agreement supports the Baltic states of Estonia, Latvia, and Lithuania through the Baltic Security Initiative. The agreement includes the budget request of \$143,712,500 and an additional \$25,000,000, for a total of \$168,712,500 in International Security Cooperation Programs for the Initiative. The budget request included \$45,000,000 for Baltic air defense programs which shall not be subject to International Security Cooperation Program prior notification requirements. Funds provided above the budget request also shall not be subject to prior notification requirements. The Secretary of Defense shall provide, not later than 90 days after the enactment of this Act, a spend plan for the use of the additional funds. Additionally, not later than 180 days after the enactment of this Act, the Secretary of Defense, in coordination with the Secretary of State, is directed to submit a multi-year strategy and spend plan to the congressional defense committees for the Baltic Security Initiative describing the goals, objectives, and milestones for programs such as air defense, maritime situational awareness, ammunition, special forces, and C4ISR, and the benefits of such programs for deterrence. The strategy shall also include information on the capabilities of each country and their financial contributions towards their own security, the NATO alliance, and programs supported by the Initiative.

EFFORTS TO MINIMIZE CIVILIAN CASUALTIES

The agreement supports efforts by the Department of Defense to minimize civilian casualties and fully funds the request for resources to improve tracking of civilian casualties.

EX GRATIA PAYMENTS

The agreement includes sufficient funding for the Office of the Secretary of Defense under the Operation and Maintenance, Defense-Wide appropriation, for payments made to redress injury and loss pursuant to section 1213 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92).

AFGHANISTAN SECURITY FORCES FUND

The agreement does not include funding for major capital projects, major upgrades, or the procurement of new systems, including the request for ten CH-47 helicopters.

The Secretary of Defense is directed to continue to provide budget justification materials that include the budget request amount, the appropriated amount, and the obligation amount by line item, for the prior two fiscal years. In addition, concurrent with the submission of each financial activity plan (FAP), the Secretary of Defense shall provide the congressional defense committees with line item detail of planned funding movements within each sub-activity group using line item titles from the appropriate year's budget justification submission. Any line item that did not appear in the budget justification submission shall be delineated as a new line item in the line item detail accompanying the FAP.

COUNTER-ISIS TRAIN AND EQUIP FUND

The agreement continues support under this heading for the Iraqi Security Forces, Kurdish Peshmerga, and the Syrian Democratic Forces to participate in activities to counter ISIS and associated groups. This includes stipend support to the Ministry of Peshmerga Affairs, if necessary, to ensure

the Peshmerga's continued ability to conduct operations against ISIS. The agreement also continues the requirement that the Secretary of Defense ensure elements are appropriately vetted and receiving commitments from them to promote respect for human rights and the rule of law.

No funds were requested for the Badr Organization or for the Iraqi Popular Mobilization Forces and none are provided by this Act.

ENHANCED BORDER SECURITY FUNDING

The agreement continues to provide funding to reimburse partner nations for expenses incurred to enhance border security. Changes made to the Act to combine border security funding sources are intended to simplify Department of Defense accounting and streamline congressional oversight, thereby ensuring full visibility into the funding requirements of recipient countries. The agreement includes \$250,000,000 for border security reimbursements. This is in addition to fiscal year 2020 funds that remain in the Counter-ISIS Train and Equip Fund that can be used for border security reimbursements in fiscal year 2021. The agreement encourages the Secretary of Defense to submit future budget requests in amounts that ensure that the reimbursements needs of all recipient countries are fully met.

JORDAN

The agreement includes funding at levels consistent with prior years for Jordan.

PROCUREMENT

The agreement provides \$6,370,713,000 for Procurement, as follows:

NATIONAL GUARD AND RESERVE EQUIPMENT

The agreement provides \$950,000,000 for National Guard and Reserve Equipment. Of that amount \$285,000,000 is designated for the Army National Guard; \$285,000,000 for the Air National Guard; \$155,000,000 for the Army Reserve; \$52,500,000 for the Navy Reserve; \$17,500,000 for the Marine Corps Reserve; and \$155,000,000 for the Air Force Reserve.

This funding will allow the reserve components to procure high priority equipment that may be used for combat and domestic response missions. Current reserve component equipping levels are among the highest in recent history, and the funding provided by the agreement will help ensure component interoperability and sustained reserve component modernization. The agreement directs the component commanders of the

Army Reserve, Marine Forces Reserve, Air Force Reserve, Army National Guard and Air National Guard to submit to the congressional defense committees a detailed assessment of their component's modernization priorities, not later than 30 days after the enactment of this Act.

The Secretary of Defense is directed to ensure that the account is executed by the Chiefs of the National Guard and reserve components with priority consideration given to the following items: acoustic hailing devices; counter-UAS systems; crash-worthy, ballistically tolerant auxiliary fuel systems; containerized ice making systems; gamma radiation protection; helmet-mounted display system; hypervisor-based cross domain access solution; training systems and simulators; virtual language training sys-

tems; cold weather and mountaineering gear and equipment, including small unit support vehicles; MQ-9 deployable launch & recovery element mission support kits; solar mobile power systems; KC-135 aircraft forward area refueling/defueling stations; ALR-69A digital radar warning receivers; AN/PDR-75A radiac sets; modular small arms ranges and range simulators; radiological screening portals; radiological isotope identification/detection equipment; and detect and avoid systems for MQ-9 aircraft.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The agreement provides \$321,508,000 for Research, Development, Test and Evaluation, as follows:

OFFICE OF THE INSPECTOR GENERAL

The agreement provides \$24,069,000 for the Office of the Inspector General.

GENERAL PROVISIONS—THIS TITLE

The agreement for title IX incorporates general provisions which were not amended. Those general provisions that were addressed in the agreement are as follows:

(TRANSFER OF FUNDS)

The agreement retains a provision which provides for special transfer authority within title IX. The House bill contained a similar provision.

The agreement modifies a provision proposed by the House which provides funds for the Commanders' Emergency Response Program.

The agreement includes a provision proposed by the House regarding use of funds in Afghanistan, Iraq, and Syria.

The agreement retains a provision proposed by the House which provides security assistance to the Government of Jordan.

The agreement does not retain a provision which provides for operation and maintenance readiness funds and transfer authority.

The agreement includes a provision proposed by the House which prohibits certain funds to procure or transfer man-portable air defense systems.

The agreement modifies a provision proposed by the House which provides assistance and sustainment to the military and national security forces of Ukraine.

The agreement includes a provision proposed by the House regarding replacement of funds for Ukraine.

The agreement includes a provision proposed by the House which prohibits the use of funds to provide arms, training, or other assistance to the Azov Battalion.

The agreement retains a provision regarding the acceptance of returned equipment. The House bill contained a similar provision.

The agreement does not retain a provision proposed by the House which restricts funds provided for reimbursement to the Government of Pakistan for border security operations until certain conditions are met.

The agreement retains a provision proposed by the House which prohibits introducing armed forces into Iraq in contravention of the War Powers Act.

The agreement retains a provision proposed by the House which prohibits introducing armed forces into Syria in contravention of the War Powers Act.

The agreement includes a provision proposed by the House which prohibits the transfer of C-130 aircraft to the Afghanistan National Security Forces or the Afghanistan Air Force.

The agreement includes a provision proposed by the House which requires the Secretary of Defense to certify the use of funds in the Afghanistan Security Forces Fund under certain conditions.

The agreement includes a provision proposed by the House which prohibits funds for the Taliban, with certain exceptions.

The agreement retains a provision proposed by the House which states that nothing in the Act may be construed as authorizing the use of force against Iran.

The agreement does not retain a provision proposed by the House which requires the Secretary of Defense to provide a notification when a foreign base is open or closed.

The agreement does not retain a provision proposed by the House which provides funds to the Department of Defense to improve intelligence, surveillance, and reconnaissance capabilities.

(RESCISSIONS)

The agreement modifies a provision proposed by the House recommending rescissions and provides for the rescission of \$1,886,122,000. The rescissions agreed to are:

2019 Appropriations:	
Procurement of Weapons and Tracked Combat Vehicles, Army:	
Bradley program	\$90,000,000
Aircraft Procurement, Air Force:	
B-52 Infrared threat defense urgent operational need	16,400,000

2020 Appropriations:	
Operation and Maintenance, Defense-Wide:	
DSCA security cooperation	75,000,000
Coalition Support Funds	45,000,000
Afghanistan Security Forces Fund:	
Afghanistan Security Forces Fund	1,100,000,000
Counter-ISIS Train and Equip Fund:	
Counter-ISIS Train and Equip Fund	400,000,000
Procurement of Weapons and Tracked Combat Vehicles, Army:	
Armored Multi-Purpose Vehicle	100,000,000
Procurement of Ammunition, Air Force:	
Fuzes—FMU-139 D/B	49,679,000
Research, Development, Test and Evaluation, Army:	
Soldier support and survivability	2,878,000
Research, Development, Test and Evaluation, Defense-Wide:	
Counter improvised-threat demonstration prototype	7,165,000

The agreement modifies a new provision that provides funds for programs for foreign security forces.

The agreement modifies a new provision that provides funds for specialized training and equipment for coalition forces.

The agreement modifies a new provision that provides funds to reimburse Jordan, Lebanon, Egypt, Tunisia, and Oman for enhanced border security.

The agreement retains a provision relating to emergency designations. The House bill did not contain a similar provision.

The agreement does not retain a new provision proposed by the House which repeals the 2001 AUMF.

The agreement does not retain a new provision proposed by the House which repeals the 2002 AUMF.

The agreement does not retain a new provision proposed by the House which prohibits funds for any use of military force in or Iran, with exceptions.

The agreement does not retain a new provision proposed by the House which prohibits funds to support any law enforcement action by a military member or Department of Defense employee unless such individual wears identification.

The agreement includes a new provision proposed by the House which prohibits funds to be used in contravention of the First Amendment.

The agreement does not retain a new provision proposed by the House which prohibits funds to implement Directive-type Memorandum-19-004.
