The House met at 10 a.m. and was called to order by the Speaker.

MORNING-HOUR DEBATE

The SPEAKER. Pursuant to the order of the House of January 10, 2022, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate. The Chair will alternate recognition between the parties, with time equally allocated between the parties and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes, but in no event shall debate continue beyond 11:50 a.m.

DEMOCRATS TRUST WOMEN

The SPEAKER. The Chair recognizes the gentlewoman from Texas (Ms. GARCIA) for 5 minutes.

Ms. GARCIA of Texas. Madam Speaker, our colleagues keep talking about the issue of women’s health and women’s reproductive freedom. It is simple. Democrats trust women. We trust women to make their own healthcare decisions without any questions.

To everyone listening, you have my promise that I will never stop fighting for women and their reproductive rights. I trust you, and I will never stop fighting for women and their reproductive rights.

BIDEN’S INFLATION CATASTROPHE

The SPEAKER pro tempore (Ms. BONAMICI). The Chair recognizes the gentlewoman from North Carolina (Ms. FOXX) for 5 minutes.

Ms. FOXX. Madam Speaker, our administration is trying to cover up its ultimate end goal of turning the United States into Venezuela by taking on so much debt that we implode? That doesn’t seem farfetched in the slightest.

Madam Speaker, inflation is the pickpocket that Americans run into every day, from the gas pump to the grocery store, and it is only growing worse. Since the administration and the President haven’t figured this out yet, let me put this in terms that they understand: 9.1 percent. End of quote. Repeat the line. 9.1 percent. 9.1 percent.

A WOMAN’S HEALTH DECISIONS END WHEN THE LIFE OF AN UNBORN BECOMES INVOLVED

Ms. FOXX. Madam Speaker, our colleagues keep talking about the issue of women’s health and women’s reproductive freedom.

In “The Merchant of Venice,” Shylock thought he had won a great victory when he thought he was going to get his pound of flesh. But Portia, the attorney, said to the judge: You may have your pound of flesh but not one drop of blood. I think that is a good analogy for what our colleagues are saying.

No one is opposed to women protecting their health. But those of us in the pro-life movement are concerned about when that woman’s health decision destroys an unborn life. So, a woman’s healthcare decisions end when the life of an unborn becomes involved.

CONGRATULATING IRENE TOVAR

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. CÁRDENAS) for 5 minutes.

Mr. CÁRDENAS. Madam Speaker, I rise today to honor and congratulate a tremendous community leader, a friend of mine, and a friend of the community of Los Angeles and beyond, Irene Tovar, for being conferred an honorary doctorate from California State University at Northridge, otherwise known as...
as CSUN, for her decades of public service as an advocate for education in the San Fernando Valley, throughout the State of California, and across the country.

I think of a quote from Saint Francis of Assisi: "If you do what is necessary, and then do what is possible; and suddenly you are doing the impossible." That is Irene Tovar.

Irene's story begins like many of ours: in search of the American Dream. Her parents met in southern California, where they married. They first settled in East Los Angeles, where Irene, her sister, and her brother were born, and then they moved to Pacoima and lived on Pinney Street.

Irene was a dedicated student and attended Pacoima Elementary School, San Fernando High School, and San Fernando Valley State College, which is now known as Cal State University Northridge.

While attending CSUN, Irene, who earned a bachelor's degree in social science from the university in 1969, noticed that the dropout rate for Latino students was alarmingly high; so she helped create an organization to address the issue.

It grew into the Latin American Civic Association, known as LACA, which administered the first Head Start program in the San Fernando Valley. This organization helps thousands of working families access quality childcare and education.

Alongside leaders such as Dr. Rudy Acuna, Irene began to advocate and organize for the creation of the Equal Opportunity Program and the Chicano Studies Department at California State University Northridge.

The Chicano Studies Department was established in 1969 with only 100 students, but it is one of the largest Chicano studies departments in the country. Her advocacy caught the attention of then-Governor Jerry Brown, who, during his first tenure, appointed Irene to the State Personnel Board. She was the first Mexican American and first person of color to sit on the board.

She was instrumental in implementing policies and procedures that removed artificial barriers in the California civil service system, including differential pay and affirmative action. She also served as a full-time member of the California Public Employment Relations Board, a quasi-judicial body she joined in 1974.

Irene's passion for education and public service continues. She currently serves as the CEO of LACA, which now focuses on providing multifamily services and affordable housing.

Irene has played a key role in the history of the San Fernando Valley as a founding member of the L.A. Mission College, board member of the United Way, board member of the L.A. Urban Coalition, board member of the CSUN Alumni Association, and many other organizations.

She currently serves as a commissioner on the City of Los Angeles Human Relations Commission, whose mission is to promote intergroup peace-building, equity, and human rights.

Irene, your service is unparalleled, and this doctorate is a symbol of your sacrifice and hard work for the families of the San Fernando Valley, the great State of California, and our country.

Congratulations to Irene, and I am proud to call you Dr. Irene Tovar.

The SPEAKER pro tempore.

Mr. CARDENAS. Madam Speaker, I rise today to honor the life of a trailblazer who made a difference across this country.

Rodrigo “Rod” Garcia, founder of the Society of Hispanic Professional Engineers, otherwise known as SHPE, was a man of deep conviction and passion. Not only did he commit to his work as an engineer, he opened a door for so many, including myself, to follow in his footsteps.

As one of the only handful of Hispanic engineers during the 1973 tech boom, he could easily have gone on to a promising career in the sciences. But when he saw a wrong, he set out to right that wrong.

In gathering a cohort of fellow Hispanic engineers, he was determined to diversify the STEM industry across our country, and that is when SHPE was born.

While Rod Garcia was an incredible man, his legacy in SHPE is equally incredible. Now, the organization has grown into the largest Hispanic STEM association nationwide, with 13,000 members and 296 chapters across the country.

An engineer to his core, Mr. Garcia attributed the success of SHPE as such: “We were engineers. We drew up the plan. . . To see it take off the way it has, it is really special.” And special it is.

SHPE’s impact is only growing. In the 2021-2022 academic year, SHPE awarded scholarships to over 200 students across the country, distributing over $1.3 million.

Rod has passed on, and he will be sorely missed, but his reputation and his memory will live on forever.

CONGRATULATING THE AMHERST ALL STAR DARLINGS

The SPEAKER pro tempore.

The Chair recognizes the gentleman from Virginia (Mr. CLINE) for 5 minutes.

Mr. CLINE. Madam Speaker, I rise today to recognize an incredible achievement in youth sports. The Amherst All Star Darlings, a girls’ youth softball team of 7- and 8-year-olds, just finished their season undefeated.

After winning both the district and state championships, they have set their eyes on Cochran-Bleckley, Georgia, where the girls’ softball world series will be played later this month.

These young ladies worked hard and enjoyed the competition, and their determination to win throughout the length of their season has been unmatched.

Now, they are planning and working toward making their trip to Georgia happen to make this Cinderella story a reality.

Their efforts are a story of camaraderie, hard work, and laying the foundation for a bright future not only in sports but in all of their future endeavors.

Amherst has been a special part of the Sixth District for decades, and it has been an honor to represent the people of Amherst, first in Richmond and now in Washington. The Sixth District, along with the entire Commonwealth of Virginia, will be cheering them on when they compete on July 31 in the Dixie youth softball league world series.

Congratulations to the Amherst All Star Darlings for representing friends and family, the Amherst community, and the entire Commonwealth of Virginia so well.

CLIMATE CHANGE IS NOT A PARTISAN ISSUE

The SPEAKER pro tempore.

The Chair recognizes the gentleman from Florida (Mr. DEUTCH) for 5 minutes.

Mr. DEUTCH. Madam Speaker, over 6 years ago, our former colleague Carlos Curbelo and I launched the Climate Solutions Caucus to have a bipartisan effort to address climate change. We did it because where we live in south Florida, climate change is not a partisan issue.

Republican and Democratic leaders alike, Republican and Democratic business leaders and elected officials, all understand that sunny-day flooding, and sea-level rise brought by climate change are happening right now, and we need to respond to it.

So we launched action here to try to responsibly address climate change, just as so many are in South Florida and around the country. The 7 years that we have just endured are the 7 hottest years on record. In 2021, the U.S. endured over 20 weather disasters, costing a billion dollars or more. Hurricane Ian, wildfires, heat, and floods, all of them made worse by climate change.

Last year, there were at least 688 people who died in the United States attributed to climate change: $150 billion in damage.

And so where are we now?

Well, our country and our world are reeling from the devastating impact of climate change. For the first time ever, temperatures in the U.K. exceeded 104 degrees; Ireland hit record highs of 107 degrees; Portugal 117. More than 1,100 people in Spain and Portugal died in this heat wave.

Wildfires are scorching Europe. More than 100 million people in the U.S. have
been under a heat alert. A mega drought is gripping our West and Southwest, drying up critical sources of fresh water and addressing our demands for electrical power. And a deep drought has much of North Africa on the edge of famine.

The heat has happened in one week. Yet, these heat waves will become more frequent and intense for decades to come. We will continue to see the intense heat waves that have been scorching Europe and the U.S. put immense pressure on our infrastructure and continue to put lives at risk.

Madam Speaker, we need innovators and entrepreneurs in climate tech. We need young people to stand up and demand a world that will be safe for them. We need the Biden administration, and we need this Congress.

My colleagues, we need to be bold. It is not about comfort. It is not about staying cool. For people across the globe right now, at this moment, it is about survival. It is time for us to act on climate change.

The future of our planet depends on us.

So once again, I thank Jon for his service, not only to me, but more importantly, to the constituents of the Second Congressional District back in Michigan and service to his country. A job well done and I thank him.

HOUSING MARKET NEEDS HELP

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Pennsylvania (Ms. PLASKETT) for 5 minutes.

Ms. PLASKETT. Madam Speaker, I rise today to express concern about the building material supply change bottlenecks and elevated construction costs that continue to put a damper on the single-family housing market.

For the first time since June 2020, both single-family starts and permits fell below a 1 million annual pace. Additionally, builder confidence in the market for newly built single-family homes has declined for the sixth straight month in July, falling 12 points to 55.

According to the National Association of Homebuilders and the Wells Fargo Housing Market Index released just this week, this marks the lowest HMI reading since May 2020 and the largest single-point decline in the history of the HMI, except during the pandemic.

Building material prices during the pandemic have hit record highs with low stock, and prospective buyers are faced with unaffordable home prices as a result. Affordable housing is a critical need in the Inland Empire, the district that I represent, and I urge the administration to prioritize the ability and the availability and price of lumber to make more homes affordable.

DEFENDING WOMEN’S REPRODUCTIVE RIGHTS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from the Virgin Islands (Ms. PLASKETT) for 5 minutes.

Ms. PLASKETT. Madam Speaker, the United States Supreme Court decision in Dobbs v. Jackson Women’s Health Organization to uphold the Mississippi Gestational Age Act in the Court’s prior decision in Roe v. Wade and Planned Parenthood of Southeastern Pennsylvania v. Casey, declaring that the constitutional right to abortion upheld for nearly half a century no longer exists, ripped away women’s right to make their own reproductive healthcare decisions.

Nationally, radical Republicans were prepared to immediately charge ahead with measures to take away the freedom of choice. In Congress, Republicans are plotting a statewide ban to criminalize abortion, and State legislatures are advancing the extremist agenda to criminalize reproductive health decisions, including new laws to arrest doctors and punish women and those who provide aid. Far-right politicians are actively working to dismantle the legal protections afforded to women and invading their bodily autonomy rights.

For centuries, women have fought tenaciously for their fundamental human rights and we will not stop. On July 18, 1848, 174 years and 2 days ago, the first women’s rights convention in the United States was held in Seneca Falls, New York. The Seneca Falls Convention in 1848 was the first platform for women to discuss their civil, social, and religious rights and challenge their inferior status. Feminist leaders and women across the country courageously voiced their collective struggles and petitioned for change.

Elizabeth Cady Stanton, an ardent activist and leader, presented the “Declaration of Sentiments,” demanding the same rights and freedoms that the Declaration of Independence granted to men at that time. The Seneca Falls Convention was a cornerstone of the women’s suffrage movement and paved the path for women’s rights movements.

IN SUPPORT OF NAVY LIEUTENANT RIDGE ALKONIS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from American Samoa (Mrs. RADEWAGEN) for 5 minutes.

Mrs. RADEWAGEN. Madam Speaker, I rise today in support of U.S. Navy Lieutenant Ridge Alkonis, a sailor currently stationed abroad in Japan. While the U.S. and Japanese naval forces have long maintained a strong bond, the relationship is deteriorating as a result of Japanese injustices against U.S. military members.

The case of U.S. Navy Lieutenant Ridge Alkonis, who is of American Samoan descent, exemplifies the disparate treatment American sailors receive in Japan.

While driving his wife and three children to get ice cream during a family outing, Lieutenant Alkonis suffered a sudden and unforeseen medical emergency which resulted in a tragic car accident causing the death of two Japanese citizens. While indeed a tragedy, this was an accident in every sense of the word.

At the scene of the accident, Lieutenant Alkonis was immediately arrested by Japanese authorities, without receiving any medical care, and imprisoned. He was systematically deprived of sleep, denied legal counsel, and pressured to sign false accusations.

I am deeply troubled by Japan’s mistreatment of Lieutenant Alkonis. These abuses are hurting the U.S.-Japan alliance exactly when it needs to be strengthened.

I call on President Biden and Ambassador Rahm Emanuel to bring Lieutenant Alkonis home.

In support of Lieutenant Ridge Alkonis, the Committee on Armed Services, and the Committee on Oversight and Reform, I urge the Administration to prioritize the ability and the availability and price of lumber to make more homes affordable.

In Support of Navy Lieutenant Ridge Alkonis, the Committee on Armed Services, and the Committee on Oversight and Reform, I urge the Administration to prioritize the ability and the availability and price of lumber to make more homes affordable.

So once again, I thank Jon for his service, not only to me, but more importantly, to the constituents of the Second Congressional District back in Michigan and service to his country. A job well done and I thank him.
Today, women’s freedoms are under attack, and the consequences will reverberate as radical Republicans continue to push their political agenda and curtail basic rights. My Democratic colleagues and I remain unwavering in our commitment to defend the legal rights of women and families to make independent decisions about their futures by safeguarding access to reproductive healthcare services.

This week, House Democrats will vote to pass H.R. 3370, the Right to Contraception Act, guaranteeing the right to obtain and use contraception as established in Griswold v. Connecticut.

The alarming, extremist act of judicial activism in Dobbs v. Jackson has created a dangerous blueprint for future attacks on our most cherished rights. As an attorney who is a strict constructionist myself, this cannot stand. In his concurring opinion overturning Roe v. Wade, Supreme Court Justice Clarence Thomas wrote that in future cases the Court should consider substantive due process precedents which legalized the right for married couples to buy and use contraception without government restrictions, same-sex relationships, and participation by historically marginalized communities who face health disparities at higher rates.

Access to contraception can affect all aspects of a woman’s life, including educational attainment, employment opportunities, healthcare, and economic success. The Right to Contraception Act recognizes the social, political, and economic impacts on our country and takes steps to protect Americans’ right to make their own decisions about their health and their families.

The Supreme Court’s ruling in Dobbs further emphasizes the need to act now, to protect access to contraception, and women’s right to make reproductive health decisions. Access to contraception is essential to the health and rights of individuals. Women deserve the right to make informed decisions about their health, family planning, and future. It is 2022. We should not still be fighting for rights that are essential to basic health and bodily autonomy. Pass this legislation.

NATIONAL PENNSYLVANIA DAY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. THOMPSON) for 5 minutes.

Mr. THOMPSON of Pennsylvania. Madam Speaker, I rise to recognize today, July 20, as National Pennsylvania Day.

Since the inception of our Nation, Pennsylvania has played a transformative role in United States history. Pennsylvania’s nickname, the Keystone State, represents the central role we played in shaping our Nation.

Pennsylvania was the site of many important battles and military milestones from the American Revolution to the Battle of Gettysburg during the Civil War. Pennsylvania is the home to a lot of firsts, including our Nation’s first capital, Philadelphia; the first American flag flown by Betsy Ross; and the first commercial oil well in my district, giving birth to the modern petroleum industry.

Pennsylvania has a proud history of American craftsmanship and work ethic, from our steel mills and coal mines to our farmland and forests.

Madam Speaker, as a lifelong resident of Pennsylvania, I am encouraged each and every day by the industrious spirit of our residents as we continue to build a brighter future, to build together, for our Commonwealth and our country.

Happy Pennsylvania Day. I am proud to be from the great Keystone State. Late-term abortion should be illegal.

Mr. THOMPSON of Pennsylvania. Madam Speaker, Democrats are advancing radical ideas on demand. Last week, House Democrats passed their radical abortion on demand until birth act, falsely named as the Women’s Health Protection Act, and the Ensuring Access to Abortion Care Act.

Both bills go much further than codifying Roe v. Wade and would legalize abortion for all 9 months of pregnancy across the country, while undermining the health and safety of women. In advancing this legislation that would continue the murder of innocent unborn, Speaker PELOSI has confirmed Democrats’ radical agenda by saying abortion is “. . . core to who we are. It is about freedom.”

Madam Speaker, 80 percent of Americans believe that late-term abortion should be illegal.

IMPACT OF THE NATIONAL DEFENSE AUTHORIZATION ACT ON OUR MILITARY SERVICEMEMBERS

Mr. THOMPSON of Pennsylvania. Madam Speaker, last week, in a bipartisan way, this body stood up and served those who serve in uniform, those who sacrificed for this great Nation in the United States Armed Forces.

I was proud, on Thursday, to join the majority of folks in this Chamber in passing H.R. 7900, the National Defense Authorization Act. I was proud to support this legislation, and I contributed significant legislative language, too.

The bill extends a prohibition preventing the honorable discharge for servicemembers refusing COVID vaccines, while also extending a prohibition on COVID vaccine mandates for Department of Defense contractors.

The NDAA authorizes annual funding for the Department of Defense and defense-related programs at other Federal agencies. The NDAA authorized earned pay raises for our American troops. Included in the NDAA was my legislation from H.R. 714, the Military Housing Transparency and Accountability Act, that directs the Secretary of Defense to develop a centralized military housing feedback tool for members of the United States Armed Forces and their families. This bill will allow these families to identify, rate, and compare housing options. Our military families have earned the right to safe housing conditions.

Additionally, it included provisions requiring the Department of Defense to report the dollar amount spent on foreign fuel that is used; report on the impact on low recruitment and retention, and the impact on servicemembers’ mental health as a result of that; and finally, to report the impact of inflation, which is impacting every American family today.

This report specifically is asking the question: What is the impact of inflation—which is out of control, a record high—on our military families?

ABORTION STORY

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Nevada (Mrs. LEE) for 5 minutes.

Mrs. LEE of Nevada. Madam Speaker, in the wake of the Supreme Court’s destructive decision overturning Roe v. Wade, women across this country have shared their stories. From Facebook to Twitter to the White House’s table to protest, women have shared the details of the deeply personal and often difficult moments in which they exercised their right to choose.

Madam Speaker, I rise today to share the story of a constituent of mine named Misty.

His name was Miles. I knew something was wrong at 12 to 16 weeks. At 20 weeks, it was too late. I spent a terrible night in the ER hemorrhaging. Miles survived that incident and there was still a heartbeat. The next day was traumatic at an ultrasound. I had lost so much fluid and Miles was being smashed. They said that he wasn’t getting the blood he needed to his kidneys and other places. They literally sent me home to wait for him to die.

There was still a heartbeat at 20 weeks, but I was informed that Miles could not live to full term and that I would have to deliver conventionally if I wanted to make it to 24 weeks. I was pregnant with twins.

The news continued to get worse, and I waited. That was the longest week of my life. I waited through fear, depression, anxiety, and immense sadness. At the end of that week, I decided, with my fetal medicine specialist, to terminate the pregnancy. It was the toughest decision I have ever faced.

The trauma that I would have experienced by delivering a dead baby, Miles, would have been more than I could handle. Going to the doctor every other day and seeing him dying was enough to make me realize this.

Misty closes by saying: We are not careless, immoral, or monsters.
Madam Speaker, I stand with Misty, and I stand with her right to make her decision. The trauma and pain that women like Misty face in these moments should be met with care, compassion, and the right to privacy.

But instead, my colleagues on the right, and others, rather inflict more trauma during what can be an extremely challenging moment in a woman’s life: forcing them to cross State lines to access abortion; forcing them to give birth when it threatens their health, their mental health, and their financial well-being; forcing them to defend miscarriages in front of a court of law; forcing young girls to carry a pregnancy to term that is the result of a sexual assault or rape.

We cannot become complicit in the destructiveness of these extreme policies. Behind each pro-life policy are the very real and very personal stories of women whose lives will be forever turned upside down. I thank Misty for her story, but she shouldn’t have to share it.

For 50 years, the law of the land respected individual choice and privacy. In Nevada, our law still reflects that today, but tomorrow may look different.

National Republicans stand ready to ban and restrict abortion nationwide, even in States like Nevada where the right to choose is protected by law. Just last week, on this very same House floor, they lined up in droves to talk about it.

The reality of a nationwide abortion ban is far more likely than you may think. I am not going to stand by and watch, and that is why I was so proud to vote for the Women’s Health Protection Act, and, equally, to vote in the next few days on the Right to Contraception Act.

Madam Speaker, I will continue to do everything in my power to protect your right to choose.

SOCIALIST SPENDING

The SPEAKER pro tempore. The Chair recognizes the gentleman from Tennessee (Mr. Rose) for 5 minutes.

Mr. ROSE. Madam Speaker, on many different occasions I have come to this Chamber to point out exactly how we arrived at this moment where we are experiencing record-breaking inflation. Each time, congressional Democrats’ desire to recklessly spend trillions of taxpayer dollars continues to be the answer.

Here I am again, as the House prepares to vote on yet another spending bill costing hundreds of billions of dollars filled with socialist wish list items that increases Federal spending by double-digit and triple-digit percentage increases in some cases.

If, of course, will vote “no,” not only because it increases the size of our government and increases spending on non-defense programs by 14 percent, but because it also fails to include the Hyde amendment, which is a longstanding bipartisan agreement that protects taxpayer dollars for being used to fund abortions.

Overall, the bill would increase the budget for the Environmental Protection Agency by 20 percent, increase the budget for general government activities by 17 percent, provide a 10 percent increase for the Food and Drug Administration—the very same department that botched the baby formula shortage.

This funding bill rewards bad behavior by giving funding increases to departments that have failed the American people. It encourages illegal immigration. It discourages increasing our domestic energy output by restricting offshore oil and gas activities, and it fails to fund our national defense priorities like the sea-launched nuclear cruise missile.

It has been almost 2 years of complete Democratic control of government. Instead of addressing the root causes of the crisis Democrats created, this bill doubles down on their failed socialist agenda. Tennesseans are fed up with the out-of-control spending here in Washington. Americans all across the country are fed up with it, too.

NATIONAL HEROES DAY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Colorado (Mr. Perlmutter) for 5 minutes.

Mr. PERLMUTTER. Madam Speaker, I rise today to remember the devastating events of July 20, 2012, in Aurora, Colorado.

I represented Aurora, Colorado, on this day 10 years ago when in an Aurora theater 12 lives were taken and 70 were wounded, and an entire community was scarred and traumatized.

Today marks a very painful day for our community and my heart aches with those who lost a loved one that day and will forever carry a hole in their heart.

Yet, in this tragedy we saw incredible heroism—those who carried the wounded to safety and the first responders and medical teams whose tireless efforts saved lives.

Madam Speaker, I would like to recognize the 12 who lost their lives that night:

A.J. Boik, 18;
Jesse Childress, 29;
Gordon Cowden, 51, whose two teenage children were in the theater when he was killed;
Jessica Ghawi, 24;
Micaela Manifest, 23;
Veronica Moser-Sullivan, 6, whose mother was shot in the chest and miscarried a week after the attack;
Rebecca Wingo, 32; and
Alex Sullivan, who was celebrating his 27th birthday and was one week away from his first wedding anniversary.

This also includes the four men who died that night while saving others:

Jonathan Blunk, 26;
John Larimer, 27;
Matt McQuinn, 27; and
Alex Teves, 24.

In the face of unspeakable violence and tragedy, these men proved to be often the most selfless people, sacrificing their own lives to save others.

Gun violence rips through our community, leaves trauma with families and friends of victims, the medical staff and first responders, and the entire community for a lifetime. It is a trauma and a scar too many communities in Colorado and too many communities across the country have faced.

As our country grapples with incidents of violence, chaos, and tragedy, it is the courageous acts and selfless spirit of the helpers and heroes among us that we remember.

During our darkest days, there are always everyday heroes who answer the call to save lives and help their community. They provide light and hope for the future. The same heroic acts we saw in Aurora, Colorado, 10 years ago have been reflected in other tragedies as gun violence continues in our communities, including the recent tragedies in Highland Park, Illinois; Uvalde, Texas; and Buffalo, New York.

Heroes can come in many different forms. During the COVID–19 pandemic, we saw heroes in medical professionals, first responders and essential personnel, such as truck drivers, letter carriers, food and grocery workers, teachers, small business owners, and researchers.

That is why I am, once again, introducing a resolution, alongside my friend and colleague Congressman Jason Crow, to designate today, July 20, as National Heroes Day.

As Mr. Rogers famously said: “You will always find people who are helping.”

In the midst of our dark days, let’s focus on lifting up and recognizing the heroes and the heroes whose actions, big and small, make a difference in the lives of friends, coworkers, neighbors, and the larger community.

TELLING OUR STORY ON THE RIGHT TO CONTRACEPTION

The SPEAKER pro tempore. The Chair recognizes the gentleman from Ohio (Ms. Brown) for 5 minutes.

Ms. BROWN of Ohio. Madam Speaker, since the Supreme Court overturned Roe v. Wade last month, I have been listening to the powerful testimonies from my colleagues, family, and friends about their reproductive health journeys.

They have shared their fears and concerns for their daughters, granddaughters, and nieces, now living in a country with no federal law providing reproductive freedom.

The personal, first-hand, intimate accounts detailing some of their personal and sometimes painful experiences, wanting me to know
how critical it is for Congress to make Roe the law of the land.

These moving, shared memories spoke of very private life situations, from sexual assault to personal family planning decisions. Yet, they still told me in hopes of uniting in our fight against attacks by far-right extremists, extremists who are determined to strip women of their reproductive rights and criminalize abortion care in all 50 States.

To these women, I say thank you. Thank you for your bravery, your honesty, and your courage. Your stories were not told in vain and will serve as inspiration to continue our fight to protect, defend, and restore the right to decide.

Madam Speaker, a woman’s fundamental healthcare decisions are hers alone to make and should never be mandated by politicians.

This week, I stand proudly with my fellow House Democrats to reaffirm my support, and I will vote for the Right to Contraception Act.

Reproductive healthcare should be available to everyone regardless of where they live. This week, we are another step closer to restoring critical access for all.

PRESERVING THE ALABAMA BLACK BELT

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Alabama (Ms. SEWELL) for 5 minutes.

Ms. SEWELL. Madam Speaker, I rise today to celebrate the passage of H.R. 3222, the Alabama Black Belt National Heritage Act, which passed this House by a vote of 365–57.

As a daughter of Alabama’s historic Black Belt, I am proud to be the lead sponsor of this legislation to ensure that this region’s meaningful history is preserved for generations to come. As the birthplace of the civil rights and voting rights movements, the Black Belt represents the tireless efforts of the foot soldiers to end discrimination against African Americans and the continued struggle for full racial equality in our Nation.

This new designation will not only bring about national attention to the rich history and culture of Alabama’s Black Belt, but it will also increase tourism, investment, and economic opportunity for many of the rural communities that I so proudly represent.

I thank Senator SHELBY for leading this bipartisan legislation in the Senate, and I also thank the University of West Alabama and the National Parks Conservation Association for their tireless work to promote this legislation.

Madam Speaker, I urge the Senate to pass H.R. 3222 as soon as possible.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 10 o’clock and 48 minutes a.m.), the House stood in recess.

□ 1200

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. HIGGINS of New York) at noon.

PRAYER

The Chaplain, the Reverend Margaret Grun Kibben, offered the following prayer:

Almighty God, unto whom all hearts are open, all desires are known, and no secrets are hidden, we lay before You the concerns of our hearts for peace in this world and the desires we have that Ukraine would be liberated from the oppression they now endure.

Nothing in all of creation is concealed from Your sight. We ask, then, that You expose tyranny and reveal its true motive of power and self-promotion.

Uncover the traitors to freedom and the enemies of sovereignty and convict them of their deceit. Unmask those who scheme for their own interest at the expense of their own country and have them answer for their transgressions.

May all who fail to contribute to the common good, all those who thwart the ideals of freedom and democracy in Ukraine, be laid bare before You and may Your judgment be swift.

Call us all to account for our deeds—things done and left undone, the overt and the contrived, the noble and the malicious. And align our lives, our Nations, and our world to Your perfect will for Your creation.

In Your omnipotence be merciful to us. In Your holy name we pray. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day’s proceedings and announces to the House his approval thereof.

Pursuant to clause 1 of rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentlewoman from Michigan (Ms. TLAIB) come forward and lead the House in the Pledge of Allegiance.

Ms. TLAIB led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

IN RECOGNITION OF PHYLLIS J. EDWARDS

(Ms. TLAIB asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. TLAIB. Mr. Speaker, today, I want to celebrate the exceptional leadership and commitment to service by Phyllis J. Edwards, who I warmly refer to as Director Edwards. She has dedicated her work to protect and advocate for the underrepresented communities within Michigan’s 13th District Strong, specifically our senior citizens in Detroit.

Director Edwards was the executive director of Bridging Communities in southwest Detroit for over a decade, and prior to that, she was the social services program manager for more than 10 years within the Wayne County Department of Health and Human Services.

Her work and proactive community involvement has made an immeasurable impact on the lives of countless residents. As a longtime Detroit resident, her efforts to improve the quality of life for our seniors demonstrated her love, commitment, and compassion for community-based work.

Please join me in recognizing her many outstanding contributions to Michigan’s 13th District Strong as we wish her well on the next chapter of her life.

GOVERNMENT OVERREACH ON FARMERS

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, with all the issues people are dealing with, the inflation, the high cost of everything, now we have the Securities and Exchange Commission’s incredible new proposed rule requiring small, privately run family farms to produce huge volumes of climate-related information to be able to then sell their products to public companies, which is going to be nearly impossible for small farms. Inflation being driven by SEC new regs.

Farmers are facing an assault of repeated increases in regulations and rises in inputs cost. When world leaders are warning of coming food shortages, don’t make it harder for farmers to do their jobs and grow food for people to use.

Small family farms are struggling financially to keep their operations up and running. They don’t have the funds to hire a full-scale environmental compliance department to meet the SEC’s ridiculous proposed demands. Farmers are producing more food and fibers with less inputs, like water, land, and labor than ever before.
The SEC needs to think about the unintended catastrophic consequences this new rule will have on our Nation's farmers, and in turn, on our food supply, which is already going to be short.

We need to fight together in a bipartisan effort to combat this blatant government overreach.

WOMEN'S HEALTH RIGHTS UNDER ATTACK

(Mr. HIGGINS of New York asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HIGGINS of New York. Madam Speaker, under the Affordable Care Act, contraception is covered as an essential benefit, recognizing its importance to overall healthcare. Yet, this essential health component is one of the many rights under attack by an extreme, politicized Supreme Court.

Congress must act now to protect the freedom of individuals to make their own decisions about reproductive health and family planning.

I urge my colleagues to join me in supporting the Right to Contraception Act and ensure this fundamental healthcare benefit isn't the latest right stolen from the millions of Americans who rely on it.

END INFLATIONARY SPENDING

(Mr. ROSE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROSE. Madam Speaker, inflation is at the highest rate it has been since 1981. Meanwhile, Congressional Democrats are spending this week passing a funding bill full of liberal initiatives that will fan the flames of the already red-hot inflation Tennesseans are facing due to Democrats’ reckless spending.

When will enough be enough?

Madam Speaker, Democrats' socialist spending spree includes an overall 14 percent increase in domestic funding, a 20 percent increase to the Environmental Protection Agency, and a 10 percent increase to the FDA, the same department that failed to quickly address the baby formula shortage when we all knew it was coming.

Borrowing more money from China, throwing it out the door and forcing our grandchildren to pay it back only creates more problems, not solve them. We need to return to our commonsense roots and end this inflationary spending now.

I urge my colleagues to join me in voting "no."

DESERT SAGE YOUTH WELLNESS CENTER

(Mr. RUIZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RUIZ. Madam Speaker, I rise today to celebrate the House passage of my bill, the Desert Sage Youth Wellness Center Access Improvement Act, which is now on its way to the President's desk. This much-needed legislation will bring a paved access road to the Desert Sage Youth Wellness Center in Hemet.

The Desert Sage Youth Wellness Center is the only operational Indian Health Service youth treatment center in the entire State. It is the only place in California where Native youth can receive culturally relevant mental health care and substance use disorder treatment.

Yet, to get to the center, patients and staff have to traverse a dirt road that often cracks in the heat and washes out in the rain and hinders deliveries and services.

As a physician, I know how crucial culturally based care is to the health and well-being of our communities. That is why I advocated for the construction of this facility since day one, and why I secured funding for its completion in 2016, and why now, I am working to deliver safe, reliable access to this facility.

Madam Speaker, I urge President Biden to sign this into law immediately to help pave a road worthy of the dignity of the people at Desert Sage Youth Wellness Center.

WORLD TRADE CENTER HEALTH PROGRAM

(Ms. MALLIOTAKIS asked and was given permission to address the House for 1 minute.)

Ms. MALLIOTAKIS. Madam Speaker, I rise today to bring attention to the fact that the World Trade Center Health Program is facing a 0.7 percent increase to the FDA, the same department that failed to quickly address the baby formula shortage when we all knew it was coming.

The red-hot inflation Tennesseans are facing due to Democrats’ reckless spending.

When will enough be enough?

Madam Speaker, Democrats’ socialist spending spree includes an overall 14 percent increase in domestic funding, a 20 percent increase to the Environmental Protection Agency, and a 10 percent increase to the FDA, the same department that failed to quickly address the baby formula shortage when we all knew it was coming.

Borrowing more money from China, throwing it out the door and forcing our grandchildren to pay it back only creates more problems, not solve them. We need to return to our commonsense roots and end this inflationary spending now.

I urge my colleagues to join me in voting "no."

TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2023

The SPEAKER pro tempore (Ms. TLAIB). Pursuant to House Resolution 1232 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the further consideration of the bill, H.R. 8294.

Will the gentleman from Michigan (Mr. LEVIN) kindly take the chair.

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 8294) making appropriations for the Departments of Transportation, and Housing and Urban Development, and related agencies for the fiscal year ending September 30, 2023, and for other purposes, with Mr. LEVIN of Michigan (Acting Chair) in the chair.

The Clerk read the title of the bill.

The Acting CHAIR. The Committee of the Whole rose on Tuesday, July 19, 2022, the sixth set of en bloc amendments offered by the gentleman from Connecticut (Ms. DELAURIE) had been disposed of.

AMENDMENTS EN BLOC NO. 7 OFFERED BY MS. DELAURIE OF CONNECTICUT

Ms. DELAURIE. Mr. Chair, pursuant to House Resolution 1232, I offer amendments en bloc.

The Acting CHAIR. The Clerk will designate the amendments en bloc.

AMENDMENT NO. 104 OFFERED BY MR. CROW OF COLORADO

Page 497, line 4, after the dollar amount, insert "(increased by $5,700,000)".

Page 500, line 23, after the dollar amount, insert "(reduced by $5,700,000)".

Page 525, line 10, after the dollar amount, insert "(increased by $6,700,000)".

AMENDMENT NO. 106 OFFERED BY MR. DRUTCH OF FLORIDA

Page 419, line 19, after the dollar amount, insert "(increased by $500,000)"

Page 510, line 24, after the dollar amount, insert "(increased by $500,000)"

AMENDMENT NO. 107 OFFERED BY MS. ESCOBAR OF TEXAS

Page 524, line 8, after the first dollar amount, insert "(reduced by $2,000,000)".

Page 525, line 10, after the dollar amount, insert "(increased by $2,000,000)"

AMENDMENT NO. 113 OFFERED BY MR. GOTTTHEIMER OF NEW JERSEY

Page 497, line 4, after the dollar amount, insert "(reduced by $1,000,000)"

Page 500, line 22, after the dollar amount, insert "(increased by $1,000,000)"

Page 526, line 4, after the dollar amount, insert "(increased by $1,000,000)"

AMENDMENT NO. 115 OFFERED BY MR. GOTTTHEIMER OF NEW JERSEY

Page 421, line 25, after the dollar amount, insert "(increased by $3,000,000)".

Sage Youth Wellness Center.

the dignity of the people at Desert Sage Youth Wellness Center.

END INFLATIONARY SPENDING

(Mr. ROSE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROSE. Madam Speaker, inflation is at the highest rate it has been since 1981. Meanwhile, Congressional Democrats are spending this week passing a funding bill full of liberal initiatives that will fan the flames of the already red-hot inflation Tennesseans are facing due to Democrats’ reckless spending.

When will enough be enough?

Madam Speaker, Democrats’ socialist spending spree includes an overall 14 percent increase in domestic funding, a 20 percent increase to the Environmental Protection Agency, and a 10 percent increase to the FDA, the same department that failed to quickly address the baby formula shortage when we all knew it was coming.

Borrowing more money from China, throwing it out the door and forcing our grandchildren to pay it back only creates more problems, not solve them. We need to return to our commonsense roots and end this inflationary spending now.

I urge my colleagues to join me in voting "no."

DESERT SAGE YOUTH WELLNESS CENTER

(Mr. RUIZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RUIZ. Madam Speaker, I rise today to celebrate the House passage of my bill, the Desert Sage Youth Wellness Center Access Improvement Act, which is now on its way to the President's desk. This much-needed legislation will bring a paved access road to the Desert Sage Youth Wellness Center in Hemet.

The Desert Sage Youth Wellness Center is the only operational Indian Health Service youth treatment center in the entire State. It is the only place in California where Native youth can receive culturally relevant mental health care and substance use disorder treatment.

Yet, to get to the center, patients and staff have to traverse a dirt road that often cracks in the heat and washes out in the rain and hinders deliveries and services.

As a physician, I know how crucial culturally based care is to the health and well-being of our communities. That is why I advocated for the construction of this facility since day one, and why I secured funding for its completion in 2016, and why now, I am working to deliver safe, reliable access to this facility.

Madam Speaker, I urge President Biden to sign this into law immediately to help pave a road worthy of the dignity of the people at Desert Sage Youth Wellness Center.

WORLD TRADE CENTER HEALTH PROGRAM

(Ms. MALLIOTAKIS asked and was given permission to address the House for 1 minute.)

Ms. MALLIOTAKIS. Madam Speaker, I rise today to bring attention to the fact that the World Trade Center Health Program is facing a deficit of $3 billion. In a few weeks we are going to be commemorating the 21-year anniversary of 9/11, the horrific terrorist attacks, where we told firefighters, police officers, families who lost loved ones, and those who today are battling cancers and illnesses, that we would never forget, and that we would stand by them and give them what they needed on their journey in this great country.

They gave so selflessly. They put their lives on the line, and so many lost their life on that dreadful day. But to this day, we still have heroes who are battling these illnesses, and we should not be leaving this session, we should not be leaving next week without passing this incredibly important bill, H.R. 4955, the 9/11 Responder and Survivor Health Funding Correction Act.

This bill has bipartisan support. I am proud to be a prime sponsor of this bill, but we must call on the Speaker of the House to bring this bill to the floor before we leave next week. We owe it to those who put their life on the line for our city and our great country.
Page 497, line 4, after the dollar amount, insert "(reduced by $3,000,000)".
Page 500, line 23, after the dollar amount, insert "(reduced by $3,000,000)".

AMENDMENT NO. 122 OFFERED BY MR. GRAVES OF LOUISIANA

AMENDMENT NO. 188 OFFERED BY MS. SHERRILL OF NEW JERSEY
Page 818, line 3, after the dollar amount, insert "(increased by $10,000,000)(reduced by $10,000,000)").

AMENDMENT NO. 189 OFFERED BY MS. SHERRILL OF NEW JERSEY
Page 818, line 3, after the dollar amount, insert "(reduced by $5,000,000)(increased by $5,000,000)").

AMENDMENT NO. 190 OFFERED BY MS. SPANBERGER OF VIRGINIA
Page 818, line 3, after the dollar amount, insert "(increased by $1,000,000)(reduced by $1,000,000)").

The Acting Chair, Pursuant to House Resolution 1232, the gentlewoman from Connecticut (Ms. DeLAURO) and the gentleman from Florida (Mr. DIAZ-BALART) each will control 15 minutes.

The Chair recognizes the gentlewoman from Connecticut, Ms. DeLAURO. Mr. Chairman, I yield myself such time as I may consume.

The bipartisan en bloc amendment includes 29 proposals offered by my Democratic and Republican colleagues. This bipartisan en bloc amendment will make changes to the Financial Services bill, the Interior bill, and the Military Construction bill.
Mr. NADLER. Mr. Chair, I rise in strong support of Amendment 159, which would increase and decreases funding from the Office of the DOI Secretary by $4,000,000. The intent of Amendment 159 is to increase the funding of the DOI's 9/11 Memorial Act Grant Program for FY2023 by $8 million.

Authorized by Congress with the passing of the bipartisan 9/11 Memorial Act in 2018 and signed into law in 2019, the program provides funding for the operation, security, and maintenance of a memorial commemorating the victims of the terrorist attacks on the World Trade Center, the Pentagon, and United Flight 93 on September 11, 2001, and the victims of the attack on the World Trade Center on February 26, 1993. Awardees are selected for their extraordinary commitment to honoring the lives lost on 9/11, and those who risked their own lives to save others.

We have endeavored, as a Nation, to ensure that the 9/11 Memorials continue to stand as places of reflection and remembrance for every American. Every generation should know the tragic events of that Tuesday morning and the heroism of those who rushed back to the burning Pentagon and onto the pile at Ground Zero to put out fires, search for survivors, clear debris, and rebuild for months and years. The funding provided by the 9/11 Memorial Act Program is critical to ensuring that memorials—like the-acre wide reflecting pools in the footprint of the Twin Towers in New York and the solemn benches marking each life lost on the grounds of the Pentagon—continue to provide sacred and inspiring spots accessible to millions of visitors for decades to come.

I urge my colleagues to vote Yeas on Bipartisan En Bloc 7 and final passage of H.R. 8294.

The Acting CHAIR. The question is on the amendments en bloc offered by the gentlewoman from Connecticut (Ms. DELAURO).

The question was taken; and the Acting CHAIR announced that the ayes appeared to have it.

Ms. GRANGER. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendments en bloc offered by the gentlewoman from Connecticut will be postponed.

AMENDMENT NO. 137 OFFERED BY MS. TLAIB

The Acting CHAIR. It is now in order to consider amendment No. 137 printed in House Report 117–420.

Ms. TLAIB. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of division D (before the short title), insert the following:

Sec. 1. None of the funds made available by any title in this Act may be used to implement, administer, or enforce section 908(b) of the Trade Sanctions Reform and Export Enhancement Act of 2000 (22 U.S.C. 7207(b)).

The Acting CHAIR. Pursuant to House Resolution 1232, the gentlewoman from Michigan (Ms. TLAIB) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Michigan.

Ms. TLAIB. Mr. Chair, I would thank Chairmen QUIGLEY, MECKS, and MCGOVERN and their staffs for working with me on this critical amendment and for their leadership throughout this process.

I also thank the incredible Congresswoman LEE for joining me here today to speak in support of this critical policy change, and, of course, Congressman CRAWFORD who submitted this amendment as a Republican-led bipartisan amendment to the FSGG appropriations bill in 2017 and has been a great advocate on this issue over the years.

This is an amendment that is critical, and it builds on more than a decade of efforts by bipartisan Members of the House and Senate and the farm industry leaders across the country.

As Cubans face one of the most painful crises in three decades, forcing tens of thousands of Cubans to spend long hours each day in lines in hopes of finding food, our amendment would provide temporary relief to them as well as U.S. farm exporters by suspending enforcement for 1 year of the prohibition and extending credit to Cuban food buyers.

This amendment makes sense for two reasons.

First, the Cuban people are contending with significant food shortages, as I mentioned. By allowing Cuban importers to buy U.S. food products on credit, we can help ease the suffering of everyday Cubans and build goodwill between our peoples. Simply put, it is the most humane thing we can do right now and the right thing to do.

Second, the amendment would also help American ag producers as well by removing trade barriers that put them at a competitive disadvantage with countries thousands of miles away, like China and Vietnam.

For my home State of Michigan, and many others across the country, this amendment effectively opens up a new market of about 11 million people for our farmers and for their exports.

I know Michigan’s director of Agriculture and Rural Development, Gary McDowell, noted that our State’s farmers seek great opportunities for products such as dry beans, apples, dairy products, and poultry that are major staples of the Cuban diet.

This amendment would be good for our Cuban people, as well as good for the American farmers, and the right thing to do.

Mr. Chair, I urge my colleagues to please support this amendment, and I reserve the balance of my time.

Mr. DIAZ-BALART. Mr. Chair, I claim time in opposition.

The Acting CHAIR. The gentleman from Florida is recognized for 5 minutes.

Mr. DIAZ-BALART. Mr. Chair, let’s be clear, this is not the time to provide unilateral concessions to a designated state sponsor of terrorism. This amendment is simply a bailout for the anti-American terrorist regime of Cuba, a regime that brutally oppresses the Cuban people and continuously undermines U.S. national security interests.

It aids adversaries such as Russia, the Maduro regime in Venezuela, and terrorist groups such as FARC and ELN, just to mention a couple.

Remember, the law allows for unlimited quantities of food and medicine and other basic necessities that are already allowed to be sent and to be sold to Cuba. What we must do not is leave the American taxpayers on the hook to subsidize the Cuban terrorist regime.

This is not the time to lift an enemy of the United States, which harbors fugitives from U.S. justice, which allows Russian spy ships to dock in its waters, that ruthlessly oppresses the Cuban people, imprisoning even children for just speaking out for freedom.

This amendment, by the way, would also ensure that American farmers are not paid because we all know that the Cuban regime does not pay back its debts. This would, again, put the American taxpayer on the hook to help the Cuban regime.

Let’s be clear, a vote against this amendment is a vote for freedom. A vote against this amendment is a vote for the American national security interests.

A vote against this amendment is a vote for human rights and freedom for the Cuban people.

Mr. Chair, I reserve the balance of my time.

Ms. TLAIB. Mr. Chair, as I said, this amendment would help alleviate the suffering of the Cuban people. It also is very important to note that this is identical to a bipartisan Republican-led amendment submitted just a few years ago.

Mr. Chair, I yield 2 minutes to the gentlewoman from Connecticut (Ms. DELAURO), the chairwoman of the Appropriations Committee.

Ms. DELAURO. Mr. Chair, I rise in support of the amendment offered by Ms. TLAIB. Our Nation’s policy toward Cuba over the past six decades has proven to be ineffective and counter-productive.

The Biden administration has started to peel back some of these restrictive policies in a manner that will both empower the Cuban people and safeguard U.S. national security interests, and this amendment would further these efforts.

This amendment would lift the longstanding restrictions on the private financing of agricultural exports to Cuba, which harm U.S. farmers and ranchers and their competitiveness.

Cuba imports more than $2 billion in agricultural exports per year.

Eliminating this longstanding prohibition would increase business for our Nation’s ranchers and farmers, and we would create jobs for hardworking American families.

Let me give you an example. In 2021, the U.S. rice imports from Vietnam were $12.6 million; Malaysia, $16 million; Thailand, $51 million; and Pakistan, $34 million. We are costing American taxpayers dollars by importing...
when we could be helping Alabama and Louisiana and be able to import rice from Cuba at a lot lower cost.

Mr. Chair, I support the reforms that allow for better relationships with Cuba, and I urge support for this amendment.

Ms. TLAIB. Mr. Chair, may I ask how much time I have remaining?

The Acting CHAIR. The gentleman has 1½ minutes remaining.

Ms. TLAIB. Mr. Chair, while I understand and share some of the concerns, the reality is the embargo’s not working and have failed to achieve any of its aims for over a half a century.

I think my colleagues, all of us, at least agree that there is no more principled reason to engage than to ease the suffering of the Cuban people who are currently again suffering from huge amounts of food shortages.

I think it is critically important to understand there is trade happening now, but in cash. This would allow credit to be able to do it in a way that allows farmers in not only Michigan but across the country who are asking us to help them do more and export and allow them to address some of the food shortages that help people so much more.

Mr. Chair, for those reasons I urge my colleagues to please vote “yes” on this amendment, and I reserve the balance of my time.

Mr. DIAZ-BALART. Mr. Chairman, I yield 1 minute to the gentleman from Florida (Mr. GIMENEZ).

Mr. GIMENEZ. Mr. Chairman, pardon me if I get a little emotional, this is actually personal for me since I was actually born in Cuba.

Mr. Chair, I rise to oppose Congresswoman TLAIB’s FSGG amendment to exempt current prohibitions against U.S. assistance to Cuba.

It is ironic that this amendment is being pushed on the week after we commemorated the bravery of the pro-freedom protesters in Cuba.

Whether we are talking about the Biden administration’s announcement last month to allow private travel to Cuba or allow Americans to invest in so-called private companies within Cuba, the regime takes advantage of these lifelines to fuel their butchery, their massacres, their jailings, their nonstop violations of human rights.

Now, Congresswoman TLAIB wants to extend the pipeline of cash to the regime to directly fund the murdering, the raping, the jailing of the Cuban people. Quite frankly, anyone supporting this legislation really ought to be ashamed of themselves.

If you believe in freedom and democracy, capitalism, in the power of economic and social opportunity, I urge you to vote against this shameful and pathetic amendment.

Ms. TLAIB. Mr. Chairman, I reserve the balance of my time.

Mr. DIAZ-BALART. Mr. Chairman, I yield 2 minutes to the gentlewoman from Florida (Ms. WASSERMAN SCHULTZ).

Ms. WASSERMAN SCHULTZ. Mr. Chair, I thank the gentleman for yielding and for his leadership and compassion about this extremely important issue.

Mr. Chair, I must rise in opposition to this amendment. While I know she has the best of intentions, I want to be very practical about my opposition to this. The reality is the amendment will not alleviate the suffering of the Cuban people, quite the contrary. In fact, it may exacerbate their problem under a tyrannical regime who uses violence and repression to keep their grip on power.

On a day in which we just heard from the First Lady of Ukraine, who is obviously experiencing what the brunt of repression means from a brutal dictator, we certainly should not be cavorting with brutal dictatorship in the Western Hemisphere.

The dictatorship in Cuba controls all trade on the island, and, in turn, uses resources to oppress its own people. The current cash-in-advance requirement for the financing of agricultural exports to Cuba ensures that the regime in Cuba cannot benefit from loans or credit, and that its corrupt, military-run financial institutions are not intertwined with American financial institutions.

Please, anyone within the sound of my voice needs to understand that this amendment allows U.S. persons to invest in Cuban agricultural businesses, even if those businesses are involved in trafficking and confiscation property, as defined in the LIBERTAD Act, which is law, even if the business is controlled by the Government of Cuba, the Cuban military, or any other entity. It is inexplicable to me how we could allow that.

It is also important to point out that unlimited quantities of food, medicine, and other basic necessities are already permitted into Cuba both for sale and through humanitarian donations.

And as the Biden administration has done, the best way to lift up the Cuban people is to support their efforts for democratic reform and mount pressure for release of hundreds of arbitrarily detained political prisoners, including 20 children.

Mr. Chair, I urge my colleagues to vote against this amendment and support liberty all over the world. ☐ 1230

Ms. TLAIB. I am prepared to close, Mr. Chair.

Mr. DIAZ-BALART. Mr. Chair, I yield 30 seconds to the gentleman from Tennessee (Mr. GREEN).

Mr. GREEN of Tennessee. Mr. Chair, I rise in strong opposition to amendment No. 137.

Unlimited quantities of food and medicine are already permitted in Cuba. This egregious amendment would allow the financing of agricultural exports to the island. The Cuban regime controls 100 percent—a single company controls all agricultural imports. It is owned by the military. It is controlled by the enforcers of the Communist regime.

Tens of thousands of Cubans tried to protest just 1 year ago, and thousands of them are in prison, imprisoned by this Communist regime.

Ms. TLAIB. Mr. Chair, this is only about food. The Members in opposition are claiming to stand with the people of Cuba, but this is our opportunity to support the Cuban people and help them right now. When we take this opportunity to vote “yes,” we show that the U.S. isn’t the enemy of the Cuban people during their time of need. At the same time, we are helping our local farmers right here. Vote “yes.”

Ms. GRANGER. Mr. Chair, I move to strike the last word.

The Acting CHAIR. The gentlewoman from Texas is recognized for 5 minutes.

Ms. GRANGER. Mr. Chair, I yield to the gentlewoman from New York (Ms. MALLIOTAKIS).

Ms. MALLIOTAKIS. Mr. Chair, I understand the plight of the Cuban people. I would say, more than most in this Chamber simply because I still have family who resides there. It is true that these people are starving, and they are struggling, but the reality is that it is because of their own government.

Whatever you do, Mr. Chair, any business that you conduct with Cuba will go to the regime. It never gets to the actual people. We know this because that is the way they have acted in the course of history, doing business with every other country in the world and then taking it all for themselves while the people suffer.

The people who want the Fight for $15 on the other side of the aisle know that the people of Cuba make $15 per day, that they are being treated inhumanely, and that young children are put in jail.

If you want to help the Cuban people, Mr. Chair, sit with them in their quest for freedom. Side with them when they say they want to be liberated. They want what we have in the United States.

Stop appeasing the regime; stop empowering the regime; and stand on the side of freedom.

Let’s try to change this form of government for the better so those people can have true human rights and freedoms that they deserve and that they are not put in political prisons simply for peacefully protesting like we are so privileged to do here in the United States.

Mr. GRANGER. Mr. Chair, I yield to the gentleman from Tennessee (Mr. GREEN).

Mr. GREEN of Tennessee. The current regime controls all the imports. If you give money to the regime, Mr. Chair, they keep the money. They don’t trickle it down to the people.

They are a puppet of terrorism and a close ally of Putin’s Russia, the Maduro regime in Venezuela, the terrorist state of Iran, and
terrorist groups such as FARC and ELN. They are currently participating in a military exercise in Venezuela led by the Russians.

Again, just 1 year ago, thousands of Cubans protested in the streets in every major city in Cuba demanding libertad—freedom. Hundreds of them remain in prison, including children, as I said, for daring to speak freely. Yet, today, Congress is debating whether to provide financing to their captors.

A vote against this amendment is a pro-freedom, pro-America, and pro-human rights vote, and I urge my colleagues to vote “no” on this amendment.

Ms. GRANGER. Mr. Chair, I yield back the balance of my time.

Ms. LEE of California. Mr. Chair, I rise in support of this amendment to allow American farmers to help alleviate hunger in Cuba. As one of the co-chairs of the Bipartisan Cuba Working Group, I thank Congresswoman TLAIB for offering it, and I thank the Speaker and my working group co-chair, Chairman Jim McGovern for making it in order.

After more than six decades, the U.S. embargo on Cuba has accomplished nothing except to cause suffering among the Cuban people. This policy is a complete failure. And yet it continues, a policy that divides families and hurts working people in Cuba. This amendment would permit American farmers to help alleviate the current hunger crisis in Cuba that is made worse by COVID and our embargo. In one fell swoop, we could show that America puts humanitarian values first, and head off competition from countries like China who seek to make inroads in our hemisphere.

This amendment is good for American farmers, good for the Cuban people, and good for healing Cuban-American families divided by misguided U.S. policy. I urge my colleagues to vote “yes.”

The Acting CHAIR. The question is on the amendment offered by the gentlewoman from Michigan (Ms. TLAIB).

The question was taken; and the Acting CHAIR announced that the ayes appeared to have it.

Mr. DIAZ-BALART. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentlewoman from Michigan will be postponed.

AMENDMENTS EN BLOC NO. 8 OFFERED BY MS. DELAURO OF CONNECTICUT

Ms. DELAURO. Mr. Chair, pursuant to House Resolution 1232, I offer amendments en bloc.

The Acting CHAIR. The Acting CHAIR, pursuant to House Resolution 1232, the gentlewoman from Connecticut (Ms. Delauro) and the gentleman from Florida (Mr. Diaz-Balart) each will control 10 minutes.

The Acting CHAIR. The amendment recognizes the gentlewoman from Connecticut, Ms. Delauro. Mr. Chair, I yield to the gentlewoman from Massachusetts (Mr. McGovern), who is the chair of the Rules Committee.

Mr. McGovern. Mr. Chair, I thank Chairwoman Delauro for yielding to me.

Mr. Chair, I rise in strong support of this bipartisan amendment en bloc, which would eliminate funding for the VA Asset and Infrastructure Review, or AIR. Commission, and transfer the $5 million to the Healthcare for Homeless Veterans Program.

Let me be clear. The recommendations advanced so far as part of the VA’s asset and infrastructure review process will lead to the closure or downsizing of nearly one-third of this country’s VA medical facilities and community-based outpatient clinics. I believe that is an unacceptable and, frankly, rotten way to treat veterans, who have put their lives on the line for this country.

This entire process is a backdoor way to cut services for veterans, and I strongly urge my colleagues to support our veterans and vote “yes” on this amendment that would allow the support of a wide range of veterans advocacy organizations from across the political spectrum.

This bipartisan amendment eliminates funding for a commission that would make it harder for veterans across America to get the care they deserve.

The decision to recommend shutting down these VA healthcare facilities was based on totally flawed and years-old information. There are huge, unacceptable, and inexusable gaps in the data that was used to determine which facilities to shut down. The VA did not consider cases where hundreds of millions of dollars in new investments were made in facilities that were recommended for closure. It makes absolutely no sense.

Let me give you an example. One of the facilities that would be closed is the VA Medical Center in Massachusetts. The chairman of the Appropriations Committee should be closed because it needed nearly $200 million in upgrades. What they didn’t say was that we already invested in those upgrades. $200 million in taxpayer money was already invested in this facility, and now they are recommending that it be shut down.

Talk about ripping off the American taxpayer.

The data that they used is from years ago. It is inexusable. Even the VA admits this. This is the definition of stupid. We might as well throw taxpayer money out the window if these flawed recommendations move forward. That is not even to mention the impact this commission would have on veterans. I held a hearing session to hear how these recommendations would affect many veterans in Massachusetts and across the country. I happened to have a map here, by the way. Here is the map. The yellow is partial closures, and the blue is total closures all across the country.

Again, what we are finding out by objective observers is that all this is based on flawed and outdated information, and they are encouraging that they shut these facilities down.

But I am learning here that this would literally force veterans to drive hours and hours across State lines just to get basic care. I talk to people with PTSD who say: I am just not going to get care anymore if I have to drive across the State into another State to get care.

Older veterans who need nursing home care could have to move long distances from their support systems. This process so far is a complete and total slap in the face to these veterans, and we should not spend one penny more on a commission that is going to be used to advance these awful cuts to veterans’ services.

If this moves forward, closures and consolidation of VA facilities are mandatory, but recommendations to build new facilities are subject to future appropriations and are not guaranteed. So I say to my colleagues, you will have to decide whether to invest in the new facilities or the consolidation of facilities.

That is why groups like the Disabled American Veterans, Paralyzed Veterans of America, and Veterans of Foreign Wars all support shutting down this commission right now, which is what this amendment would do.

Everyone knows that this process and the commission are broken. Even VA Secretary McDonough acknowledged it to Congress, telling the House Veterans’ Affairs Committee that the data is not up to speed in light of the pandemic. I am also grateful that the chairman of the Veterans’ Affairs Committee here in the House, Chairman Takano, is supporting my amendment.

I want to be clear that Secretary McDonough has done a great job on advocating for our veterans, and he is working with my team and me to get this done. This Appropriations Committee will not decide this. Only the Appropriations Committee will make a decision. This Appropriations Committee will not have to decide what to do with this money. This Appropriations Committee will not have to decide what to do with the money. This Appropriations Committee will not have to decide what to do with the money.

Even our nonpartisan congressional watchdog, the GAO, recently put out a report on this called “VA Health Care: Incomplete Information Hinders Usefulness of Market Assessments for VA Facility Realignment.”

The Acting CHAIR. The time of the gentleman has expired.
Ms. DeLAURO. Mr. Chair, I yield the gentleman from Massachusetts an additional 2 minutes.

Mr. MCGOVERN. Mr. Chair, I include the executive summary in the RECORD.

[From the United States Government Accountability Office, Feb. 2022]

INCOMPLETE INFORMATION HINDERS USEFULNESS OF MARKET ASSESSMENTS FOR VA FACILITY REALIGNMENT

The Department of Veterans Affairs (VA) conducted assessments of its capacity within 96 markets to deliver health care to veterans throughout the country, and when the Department cannot provide the care needed, through non-VA providers, known as community care. For these assessments, markets are defined as geographic areas made up of a set of contiguous counties that contain one or more VA medical centers and associated clinics. For an overview of VA’s approach, see the figure.

Text of Overview of Department of Veterans Affairs’ Approach to Its Market Assessments:

Compiled data about the market including veteran health care supply and demand, Identified gaps between supply and demand, Developed proposals to respond to gaps between supply and demand, and Issue final proposals.

VA officials described the department’s process of developing proposals as iterative in that VA continually reviewed and revised draft proposals throughout the market assessments process. The VA Secretary plans to transmit recommendations to the Asset and Infrastructure Review Commission by March 14, 2022—that is, no later than 6 weeks from the statutory deadline of January 31, 2022. The Commission will then review these recommendations, hold public hearings, and prepare and issue their own recommendations to the President.

GAO identified gaps in the data VA compiled and certified for the market assessments that were relevant to determining both the supply of and demand for non-VA care. For example, VA lacked complete data on the extent to which its contractors maintain an adequate number of non-VA providers. VA officials have timely access to community care VA officials told GAO that they determined supply and demand based on the most recently available data at the time of the assessment—December 2018 to November 2020. In addition, while VA officials told GAO the end-of-assessment analyses included updated data on community care, these data did not address the gaps GAO identified. Without such information, VA lacks a full understanding of the extent to which community care is able to support VA’s facility needs and meet veterans’ current and future demand.

GAO also found that VA’s approach to the market assessments did not include steps to collect data on the quality of VA data compiled from numerous VA data sources or other steps to understand any relevant data limitations. Instead, VA officials leading the market assessments said they relied on VA offices responsible for the databases to ensure the data quality. As a result, VA is unable to communicate to external stakeholders the quality of VA data or identify the quality of VA data used in market assessments, including any limitations on the data and the resulting proposals for realignment.

Mr. MCGOVERN. Mr. Chair, moving forward with funding this fundamentally broken process would be an incredible disservice to our veterans and would jeopardize access to the high-quality, specialized care that they have earned.

This commission is being dismantled as we speak because the recommendations that were made to it were so catastrophically bad. Last month, Senate Veterans’ Affairs Committee Chairman Jon Tester led a bipartisan group of 12 Senators to announce that the Senate Veterans’ Affairs Committee would not even confirm any more nominees to the commission, effectively ending this process once and for all. Last week, we had an amendment to the NDAA pass to shut this down.

Why are we giving $5 million to a commission that may very well never exist and which is actively seeking to undermine care for our veterans and their families? Mr. Chair, we all believe in upgrading and updating our VA system, but let’s use accurate information. There is no way that anybody here can tell me that the recommendations that are being put forward are based on accurate and updated information. We are talking about our veterans, who are now going through needless anxiety because of all these threats of closures.

Mr. Chair, we need to do better, and I urge my colleagues to vote “yes” on this en bloc.

Ms. GRANGER. Mr. Chair, I yield 2 minutes to the gentleman from Georgia (Mr. CARTER).

Mr. CARTER of Georgia. Mr. Chair, I thank the gentlewoman for yielding.

Mr. Chair, I rise to speak on the need to provide certainty to blueberry producers who have been affected by freezes.

We all know how difficult the job of being a farmer can be. So much of their success is completely dependent on things outside of their control. This is particularly true when it comes to foul weather and disasters. Farmers are at nature’s mercy when it comes to these events.

This past year, a number of specialty crops across the country saw significant losses caused by freezes, particularly blueberries in my home State of Georgia. The statewide freeze event this past March resulted in losses that exceed $140 million.

The last time a similar devastating freeze occurred, Congress was able to come together and provide funding for those losses. I thank the Appropriations’ Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Subcommittee chair, Sanford Bishop, from Georgia, for all of his support already for this effort.

The underlying bill includes $10 million for disasters occurring in 2022 and reports language expressing Congress’ concerns about the impact of extreme weather events on blueberry producers. However, that $10 million will not be enough to assist with the damages from disasters. Chairman Bishop has committed to continue working on this issue and to ensure adequate funding is available to blueberry and other producers affected by freezes in 2022.

Mr. Chair, I hope we can continue to demonstrate Congress’ commitment to not only providing relief when farmers need it the most but also fixing the larger issue for good so we no longer need to return to this after future freezes.

Ms. DeLAURO. Mr. Chair, I yield 5 minutes to the gentleman from Florida (Ms. WASSERMAN SCHULTZ), who is the chairperson of the Military Construction, Veterans Affairs, and Related Agencies Subcommittee.

Ms. WASSERMAN SCHULTZ. Mr. Chair, I thank the gentlewoman for yielding.

With great respect for my friend from Massachusetts, I rise in strong opposition to these amendments.

I spend every day in my work as chair of the Military Construction, Veterans Affairs, and Related Agencies Subcommittee protecting and improving the lives of our Nation’s veterans. I vigorously oppose privatization, so I voted to fix the VA MISSION Act, in which the AIR Commission appeared as part of that law, because of my concern about sending veterans who might end up remaining permanently in community care.

This en bloc contains two amendments to the MILCON-VA division that would eliminate funding for the AIR Commission at the Department of Veterans Affairs. This independent commission was established by the VA MISSION Act to develop recommendations to modernize and realign VA health facilities so we can best meet the needs of our Nation’s veterans.

The reality is that the VA has different infrastructure needs today than it did decades ago. Not only are most VA facilities over 60 years old, but the veteran population has also shifted geographically over time.

The draft market assessments VA has developed and will continue to fine-tune are essential to ensure that VA’s facility footprint meets veterans’ needs where they are physically located today, not where most veterans were over 60 years ago. We can’t ignore these changes and also effectively meet the current needs of our veterans.

We cannot just cancel the Commission and pretend that doesn’t exist or need to be addressed. We all care about veterans and, since we do, we should be focused together on making sure they have state-of-the-art facilities that are designed to modern standards and are best-positioned to serve their needs.

The point of VA’s market assessments is to identify the current, true needs of our veterans in each market, and the AIR Commission will then review those assessments and make final recommendations to the President and to the Congress. They come back to Congress after these market assessments and recommendations are made.
The VA facilities that these veterans rely on—these are clinics in places like Houlton, Maine, Fort Kent, and Rumford—are at risk of being shut down if we don’t permanently end the Asset and Infrastructure, or AIR Commission. 

Our VA hospital in Maine would be moved from Augusta. It would be downsized to an urgent care facility then be moved to Portland, Maine, which is a long distance away from most of the rural communities that I represent.

Of course, Congress created this panel and tasked it with processing the recommendations given to streamline VA facilities. I think if you live in a rural State, it turns out that has largely been shorthand for closing facilities or reducing access to healthcare services.

I introduced a bipartisan bill to eliminate the AIR Commission. Just about a month ago, I helped secure the language referred to earlier in the National Defense Authorization Act of that bill and, of course, I now support this amendment to defund the Commission and transfer the money to the VA’s Healthcare for Homeless Veterans Program. It is a far better use of the money.

I thank Mr. McGovern for his support of our Nation’s veterans.

Ms. DeLAURO. Mr. Chair, I yield to the gentleman from Ohio (Mr. RYAN), the chairman of the Legislative Branch Subcommittee.

Mr. RYAN. Mr. Chair, I rise in support of this amendment.

I represent Ohio, and we have a number of VA clinics and facilities in rural areas across this country. One of ours is in Chillicothe, the Chillicothe VA Medical Center that this commission recommended for closure. They were saying it was not optimally located.

This is in the southern part of the State, by the Ohio River, serving all of the veterans in the southern part of Ohio. And 1,400 Ohioans are employed. The facility is over 100 years old. It serves 20,000 veterans in 17 counties.

This is insane that we think that is a good idea; that of all the recommendations were released, I received calls from veterans and VSOs in my district saying it was not optimally located. This is in Chillicothe, the Chillicothe VA Medical Center that this commission recommended for closure.

We need to be careful about making rash decisions that have a long-term impact. Unfortunately, the amendments in this en bloc will do more harm than good. And for those reasons, I will vote “no” on this en bloc, and I urge my colleagues to do the same.

Ms. GRANGER. Mr. Chair, I yield to the gentleman from Ohio (Mr. RYAN), the chairman of the Legislative Branch Subcommittee.

Mr. RYAN. Mr. Chair, I continue to reserve the balance of my time.

Ms. DeLAURO. Mr. Chair, I yield to the gentleman from Ohio (Mr. RYAN), the chairman of the Legislative Branch Subcommittee.

Mr. RYAN. Mr. Chair, I yield to the gentleman from Ohio (Mr. RYAN), the chairman of the Legislative Branch Subcommittee.

Mr. RYAN. Mr. Chair, I yield to the gentleman from Ohio (Mr. RYAN), the chairman of the Legislative Branch Subcommittee.

Mr. RYAN. Mr. Chair, I yield to the gentleman from Ohio (Mr. RYAN), the chairman of the Legislative Branch Subcommittee.
Messrs. GOMERT and FULCHER changed their vote from "aye" to "no." Mr. WEBER of Texas, Mrs. BICE of Oklahoma, Mr. McLINTOCK, Mrs. LESKO, Messrs. KELLY of Mississippi and KUSTOFF changed their vote from "no" to "aye." So the en bloc amendments were agreed to.

The result of the vote was announced as above recorded.

Stated for:
Mr. CARDENAS. Mr. Chair, I was present, I would have voted "yea" on rollcall No. 379.

Mr. LANGEVIN. Mr. Chair, I was present, I would have voted "yea" on rollcall No. 379.

Mr. HILL. Mr. Chair, I was held up at Speaker Lobby security. Had I been present, I would have voted "yea" on rollcall No. 379.

Mr. BERGMAN. Mr. Chair, I was delayed by metal detector issues entering the floor. Had I been present, I would have voted "yea" on rollcall No. 379.

Mr. WESTERMAN. Mr. Chair, I was delayed by metal detector issues entering the floor. Had I been present, I would have voted "yea" on rollcall No. 379.

Ms. TITUS. Mr. Chair, I was absent from the floor and missed the vote on Bipartisan En Bloc No. 7 to H.R. 8294 on agreeing to the amendments as stated in the amendment of Ms. TLAIB. So the en bloc amendments were agreed to.

So the en bloc amendments were agreed to.

The result of the vote was announced as above recorded.

Mr. CARDENAS. Mr. Chair, I was present, I would have voted "yea" on rollcall No. 379.

Mr. LANGEVIN. Mr. Chair, I was present, I would have voted "yea" on rollcall No. 379.

Mr. HILL. Mr. Chair, I was held up at Speaker Lobby security. Had I been present, I would have voted "yea" on rollcall No. 379.

Mr. BERGMAN. Mr. Chair, I was delayed by metal detector issues entering the floor. Had I been present, I would have voted "yea" on rollcall No. 379.

Mr. WESTERMAN. Mr. Chair, I was delayed by metal detector issues entering the floor. Had I been present, I would have voted "yea" on rollcall No. 379.

Ms. TITUS. Mr. Chair, I was absent from the floor and missed the vote on Bipartisan En Bloc No. 7 to H.R. 8294. Had I been present, I would have voted "yea" on rollcall No. 379, En Bloc No. 7 to H.R. 8294 on agreeing to the amendments as stated in the amendment of Ms. TLAIB. So the en bloc amendments were agreed to.

Stated against:
Mr. GAETZ. Mr. Chair, I was unable to make it to the floor in time for the first vote today for the purpose of constituent outreach. Had I been present, I would have voted "nay" on rollcall No. 379.

Members recorded pursuant to House Resolution 8, 117th Congress.
So the amendment was rejected.

The result of the vote was announced as above recorded.

Stated for Ms. SCHAUKOWSKY. Mr. Chair, had I been present, I would have voted "yea" on rollcall No. 380.

The SPEAKER pro tempore. Under the rule, the previous question is ordered. Pursuant to House Resolution 1232 the question on adoption of the further amendments will be put en bloc. The question is on adoption of the amendments. The amendments were agreed to. The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill. The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT
Mr. VALADAO. Madam Speaker, I have a motion to recommit the bill to the Committee on Appropriations.

The SPEAKER pro tempore. Pursuant to clause 2(b) of rule XIX, the previous question is ordered on the motion to recommit. The question is on the motion to recommit. The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. VALADAO. Madam Speaker, on that I demand the yeas and nays. The yeas and nays were ordered.

Pursuant to section 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the question of the passage.

This is a 5-minute vote. The vote was taken by electronic device, and there were—yeas 206, nays 5, as follows:

Yeas—206

AUTHORIZING THE CLERK TO MAKE CORRECTIONS IN ENGROSSMENT OF H.R. 8294, TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2023

Ms. DeLAURO. Madam Speaker, I ask unanimous consent that, in the engrossment of H.R. 8294, the Clerk be authorized to correct section numbers, punctuation, spelling and other technical and clerical changes as may be necessary to reflect the actions of the House.

The Speaker pro tempore. Is there objection to the gentlewoman from Connecticut?

There was no objection.

PERMISSION FOR MEMBER TO BE CONSIDERED AS FIRST SPONSOR OF H.R. 3231

Mr. STAUBER. Mr. Speaker, I ask unanimous consent that I may hereafter be considered as the first sponsor of H.R. 3231, a bill originally introduced by Representative Don Young of
Alaska, for the purpose of adding co-sponsors and requesting reprintings pursuant to clause 7 of rule XII.

The SPEAKER pro tempore (Mr. MRYAN). Is there objection to the request of the gentleman from Minnesota?

There was no objection.

INVESTING IN COMMUNITIES

(Ms. BOURDEAUX asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BOURDEAUX. Mr. Speaker, I rise in support of the minibus appropriations bill the House passed earlier today.

This legislation includes my bill to support the revitalization of vacant shopping malls like the Gwinnett Place Mall in my district. This provision would catalyze additional investment in these properties, enhance economic activity, access to housing, and mobility for local residents.

The minibus also includes six of my community project funding requests, including funding for the acquisition of African-American books and historical artifacts at the Hooper-Renwick Memorial Library, as well as projects to increase wraparound services for Latino families and youth through Ser Familia, provide transportation to low-income students through Corners Outreach, and enhance access to transit and clean drinking water for many communities in Georgia’s Seventh District.

Altogether, the T-HUD bill and the minibus include important investments that will make our communities stronger.

HONORING BILL EDWARDS

(Mr. CARTER of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARTER of Georgia. Mr. Speaker, I rise today in honor of the inspiring career of Mr. Bill Edwards, who is a native resident of Savannah, Georgia.

After graduating from Groves High School, Bill went on to attend both the University of Mississippi and Armstrong Atlantic State University, completing his education with a master’s degree in communications.

After serving in his high school JROTC, he furthered his interest in the Army by serving in the Army ROTC at Ole Miss and eventually joining the U.S. Army Signal Corps. He continued this career until he reached the rank of captain in a military intelligence unit in Savannah. Aside from his military career, Bill was blessed with a loving wife and seven grandchildren, whom he adores.

Once he left the service, Bill focused his energy into a successful career in radio broadcasting, eventually becoming host of what is now “AM Savannah” on News Radio. Bill’s commitment was rewarded when he was recognized by the Associated Press for sportscasting excellence and when he won the honor of Savannah’s Favorite Talk Station for 3 years in a row.

I am so grateful for Bill Edwards and his tireless commitment to improving his community. Bill is an outstanding Georgian, and I thank him for all he does for his community.

WE WON’T GO BACK

(Ms. BROWN of Ohio asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BROWN of Ohio. Mr. Speaker, life, liberty, and the pursuit of happiness. These inalienable rights have served as a compass in guiding us as we strive to create a more perfect Union.

Yet, recently, these rights have been the target of relentless political attacks by a Supreme Court that has seemingly abandoned the promises of our Constitution and by far-right extremists with a radical agenda to dismantle decades of progress to take us back, back to a time when people were ashamed and murdered because the person they chose to love didn’t have a certain skin color or was of the same gender and back to a time when women could not access legal and safe reproductive healthcare measures.

Today, I stand in solidarity with the millions of Americans who have been angered by these disgraceful acts to say that I refuse to be taken back because we have come much too far.

FAKE HANDCUFFS WON’T SOLVE AMERICA’S PROBLEMS

(Mrs. BOEBERT asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BOEBERT. Mr. Speaker, fake handcuffs won’t close the southern border. Fake handcuffs won’t lower gas prices, curb inflation, harden the supply chain, put baby formula on our shelves, deter Russia, or fix our broken education system, protect our students from CRT and grooming, or create opportunities to lift communities out of poverty.

Fake handcuffs won’t increase domestic energy, increase recruitment for our military—go woke, go broke—or solve a single problem that the American people actually care about.

Mr. Speaker, fake handcuffs make for a good photo op, but they don’t benefit the American people. Fake handcuffs only benefit those who pretend to wear American apparel.

Mr. Speaker, this body should be delivering solutions for the American people not with fake handcuffs but without restraint.

HONORING ROBERT L. BOWSER

(Mr. PAYNE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAYNE. Mr. Speaker, I rise today to honor a great mayor from my district, Robert Bowser, after his passing recently.

Mayor Bowser served as mayor of East Orange, New Jersey, from 1998 to 2014. He was the first African American to win a third and fourth term in office in the history of East Orange, and he founded the New Jersey Conference of Black Mayors and served on the board of the National Black Conference of Mayors.

But his legacy in East Orange is more than his time as mayor. He started a small engineering firm that became one of the largest minority-owned consulting firms on the East Coast. He was a board member for the local Girl Scouts organization and was active with the Lions Club and the Kiwanis Club. He even founded a local touch football league.

As we mourn his passing, we remember Mayor Bowser as a dedicated public servant, great businessman, and strong community leader.

FIND AND PROSECUTE COVID-19 ECONOMIC RELIEF FRAUD

(Mr. GOTTHEIMER asked and was given permission to address the House for 1 minute.)

Mr. GOTTHEIMER. Mr. Speaker, I thank the House Appropriations Committee for their hard work on this important piece of legislation.

I rise today in support of the passage of H.R. 8294, which contained a crucial amendment I introduced to help find and prosecute cases of fraud within COVID-19 economic relief.

My amendment provides critical investment for the Small Business Administration Office of the Inspector General to ensure that they continue to hold Economic Injury Disaster Loan and Paycheck Protection Program fraudsters accountable.

It is deeply disturbing to hear about the recent flurry of fraud convictions related to these two relief programs that provided vital resources to small businesses during the COVID-19 pandemic. These are dollars that were meant for small businesses struggling due to the pandemic, and to help their families, not to help greedy cheats looking to profit off the backs of their neighbors.

My amendment supports efforts for the SBA to identify and prosecute cases of EIDL and PPP fraud more aggressively. Applicants from businesses in my district may have been denied critical financial resources because of the actions of these crooks, and we owe it to all of our constituents to hold these bad actors accountable.

I strongly urge all my colleagues in the Senate to pass this critically important provision.
Mr. LIEU. Mr. Speaker, Donald Trump lost the 2020 Presidential Election by over 7 million votes. Trump lost Arizona by over 10,000 votes. Trump lost Georgia by over 11,000 votes. Trump lost Wisconsin by over 20,000 votes. Trump lost Nevada by over 30,000 votes. Trump lost Pennsylvania by over 80,000 votes. Trump lost Michigan by over 150,000 votes.

SOCIAL SECURITY

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 4, 2021, the gentleman from Connecticut (Mr. LARSON) is recognized for 60 minutes as the designee of the majority leader.

Mr. LARSON of Connecticut. Mr. Speaker, every single day, our seniors are struggling. It is time to enhance benefits for those who need it the most.

Why do I say that? Everybody in America knows that this pandemic, this global pandemic that we are in, has caused unbelievable harm across the globe and here in this country.

But who has it affected the most? Of the close to 1 million people who have perished in the United States, over 756,000 of them are over the age of 65.

And who is the group that has been hurt the most by the ensuing inflation that comes from a global pandemic and a war in Ukraine?

It is people on a fixed income. It is the more than 65 million Americans that are on Social Security. I commend President Biden for taking the leadership in this area; who campaigned across the country, assuring Americans that Social Security was a sacred trust; which, indeed, it is because it has never missed a payment.

We used to go back to 1935 and talk about the Great Depression. We only have to go back as far as 2008 and 2009 because people understand during the Great Recession, when they saw their 401(k) become a 101(k), that Social Security never missed a payment, not a pension payment, not a spousal payment, not a dependent payment, not a disability payment.

It is America’s number one insurance program. And all Americans know this, and it is easily verified, weekly or monthly, when they look at their paycheck and it says FICA, Federal Insurance Contribution.

Whose? Theirs. It is an earned benefit that they have paid into throughout their lives.

And yet, Congress has not acted in 51 years, until now. Under the leadership of President Biden, Speaker PELOSI, and Chairman RICHARD NEAL, we are moving forward with legislation that will provide much-needed relief to people struggling in this pandemic and dealing with inflation.

I am pleased that I am joined today by so many of my colleagues who have told their stories over and over again about the citizens that they are interacting with, and what an enormous burden this pandemic and inflation has caused for them, and now, finally, for Congress to act.

And how so?

Improving benefits across the board by more than 2 percent for everyone; making sure that nobody who worked all their lives and paid into a system can retire into poverty; making sure that we have a COLA that actually reflects the cost that people incur; making sure that we repeal WEP and GPO, so that teachers and firefighters—something that Mr. FASCRELL has championed his whole time here in Congress—understand that relief is on its way because Democrats care deeply about this.

We are faced, as well, with an alternative from the other side. And here is the simple difference. Republicans have proposed to end Social Security. Republicans have proposed to cut Social Security across the board by more than 21 percent in 20 different separate proposals in their Republican Study Plan. They have also called, in committee, in the eight hearings that we have had on Social Security, to still privatize Social Security.

Democrats stand, not just to protect Social Security, but to expand Social Security for those that need it the most. And those assembled here today understand how vitally important it is.

Mr. Speaker, I yield to the gentlewoman from Ohio (Ms. KAPTUR), the deaness of the House of Representatives, and someone who, intuitively, women need this benefit the most. And in this country more than 3 million Americans receive below poverty-level checks from Social Security, and the vast majority of them are women.

Ms. KAPTUR. Mr. Speaker, I thank Chairman LARSON for his tireless leadership and work to safeguard Social Security for the benefit of this generation of retirees and those that are to come. He has worked hard for decades to try to bring this bill to the floor.

I thank Speaker PELOSI, Chairman RICHARD NEAL, and Congressman JOHN LARSON, chair of the subcommittee, for...
Mr. LARSON of Connecticut. I thank Mr. CARTWRIGHT, the Social Security promise is deeply at risk. Democrats want to strengthen Social Security. Republicans want to end it and cripple it.

With this legislation, soon to be moving through the House Ways and Means Committee, one of the most important bills that will ever come before this Chamber, Democrats will push for a vote on the floor as soon as possible.

I hear from thousands of northern Ohioans and people across our great State who want to see a responsible solution to protect and improve Social Security.

The wealthy must join with the vast majority of Americans in paying their fair share of social insurance at a percentage that equals what other people pay to secure Social Security into the future.

By making that happen, the Social Security 2100 Act will increase benefits for current and new beneficiaries. It will protect retirees against inflation, which the gentleman has mentioned. It will continue to serve the disabled and the young children of workers who die at a far too young age, and it will repeal the windfall elimination provision that we have been trying to fix for how many decades? I think at least four.

The Social Security 2100 Act is one of the most important bills Congress will ever vote on. What a privilege it will be to be able to cast a "yes" vote.

America made a promise to workers and to retirees and families, and Democrats are committed to making good on that promise. This is a Democratic program, and we are going to save it as Democrats and improve it.

Thank you, Chairman LARSON.

Mr. LARSON of Connecticut. I thank Ms. KAPTUR and greatly appreciate the gentlewoman from Ohio’s comments.

If you gentlemen from Pennsylvania (Mr. CARTWRIGHT), who also understands and has worked tirelessly as an original cosponsor of this bill to make sure that several of the benefits, more than 14 enhancements to this bill, are now going to be enjoyed by the people of Pennsylvania and all across this Nation.

Mr. CARTWRIGHT. I thank Chairman LARSON for yielding me the time, and it is an honor and a privilege for me to speak out in favor of this wonderful bill, Social Security 2100.

Social Security, something that has been a cornerstone government for close to a hundred years now; Social Security that has kept seniors out of poverty.

It used to be that in this country, seniors died in poverty, died of starvation. That has not happened in America. Don’t think it couldn’t happen again. But under the Social Security Administration, it doesn’t happen.

Seniors who work their whole lives and pay into this insurance program reap the benefit of doing so and have money coming to them. It isn’t a lot, but it is keeping people alive and out of poverty, and out of poverty through some of the most extreme downturns in our economy.

It is something that protected seniors from starving to death during terrible moments of economic stress and distress in this country.

Social Security is something that all of us Americans ought rightfully to be proud of; that it was enacted during the Roosevelt administration; that has been protected and defended for generation after generation; and that it has succeeded in keeping Americans out of poverty in the most dire circumstances.

It is a legacy that the Democratic party are very, very proud of, and all of us band together at a moment’s notice to protect it when it is threatened by those who think ill of it.

Those instances have not been few or far between. There was the time in the early 2000s when there was this push to privatize Social Security. Instead of paying into the system and having it protected, no. The idea was just give the money to the people so they could invest it in the stock market. Let’s throw the money in the stock market.

It was amazing that that was brought up around 2004, 2005, in that timeframe. What happened in 2008? The stock market cratered. If people had put their Social Security investments into the stock market, they would have been destitute.

That is when you called privatize Social Security. The people that want to push that are the ones that want to push the stock market up for their own particular personal gain.

But what it does at the same time is that it endangers and puts at risk the lifetime of earnings that people have put into Social Security to make their own retirements safe. We can’t do that.

What else? They came up with this wonderful concept, you know. The chairman talked about the COLA, the cost-of-living adjustments, that come with Social Security.

Certainly, they haven’t been anything to brag about over the years, but as meager and as minimal as they have been, something came up about 10 years ago called change CPI.

Now, that was a $50 economist’s experiment that they would like to do away with the cost-of-living increases for seniors. That is what they wanted—lower cost-of-living increases than what you were already getting on Social Security.

We stood foursquare, shoulder to shoulder, against that ridiculous provision, and we put an end to that kind of talk.

What else? They wanted to raise the retirement age. They always talk about that. The right-wingers want to raise the retirement age. How fair is that, raising the retirement age for people who have been lifting and carrying and climbing and working with their hands and putting their backs into their work, a whole lifetime?

You want to make them work into the sky? Is that what we think Social Security is for? Is that what we think it is all about? Absolutely not. Democrats have stood foursquare and shoulder to shoulder against that, raising the retirement age.

It gets better. As the chairman mentioned, there are enemies to Social Security, and, you know, a lot of times they don’t say it out loud.

They would like to get rid of Social Security. They would like to privatize it. They would like to cut back on the benefits. They wring their hands about how much it costs, while all the time ignoring all of the people that it saves and keeps out of poverty and away from starvation. No, no. They ignore all of that. They would like to do away with it.

You know what? Just recently, these people came out from the shadows and identified themselves. In fact, there is a Senator by the name of RICK SCOTT from Florida who went out loud and said that he wants Federal legislation, including Social Security and Medicare, to sunset every 5 years and have to be reauthorized by a fresh vote.

Sunset. Now, that is a euphemism for end. It is a euphemism for killing. It is a euphemism for doing away with one of the most successful programs in American legislation history. Sunset Social Security means do away with it, and that is all they are talking about.

They have the temerity now to say out loud what many of them have been thinking in private: Let’s get rid of Social Security. I say, enough. Enough of this distraction from Social Security, this wonderful program.

Let’s let’s let’s listen to Chairman LARSON. Let’s make Social Security stronger. Let’s make it better. Let’s make it more realistic for the benefits that it pays out. Let’s raise the benefits by 2 percent. Let’s make it stronger so it is going to last longer. We haven’t touched this program for generation after generation. Now is the time to enact Social Security 2100 to protect our seniors and this wonderful,
enormously successful insurance program for all Americans; people who retire, people who are disabled.

This is a program that we must honor and respect and raise up, and we can accomplish this through this wonderful bill authored by my friend, John Larson of Connecticut, Social Security 2100.

Mr. Larson of Connecticut. I thank the gentleman, but it actually is authored by 206 Members of the United States Congress, and I appreciate all the work that has been done.

The gentleman was correct. This is the number one anti-poverty program for the elderly. It is also the number one anti-poverty program for children. It is also the program that more veterans use for disability than any, even the VA. It is the most efficient and effective government program in terms of cost.

They operate in insurance language at what is called a 99 percent loss ratio which means less than 1 percent administrative costs to distribute the greatest insurance program. The greatest anti-poverty program for the elderly, for children, and for veterans is all done by Social Security. It needs to expand.

On the Committee on Ways and Means, Chairman Neal had a Racial Equity Committee that our colleagues all participated in, and one of the shining stars of that was none other than Stacey Plaskett from the Virgin Islands, who understands that if we want to focus on what John Lewis called the next great challenge for civil rights, it was to recognize how Social Security has treated women and specifically women of color and Black males.

I recognize Stacey Plaskett from the Virgin Islands.

Ms. Plaskett. I thank the gentleman for yielding time.

It is so good to be here with you, to have this discussion about Social Security, the importance of this safety net to so many Americans, individuals throughout this country, but especially those who need it most.

I am going to give you some numbers. We have 17,036 retirees; 1,331 children; 8,705 widows, widowers, if they are concerned with the widows, if they are concerned with those that are elders, they should be concerned with Social Security.

I am proud when I was approached by you, Mr. Larson, to act as a co-sponsor of this legislation, H.R. 5723, Social Security 2100, a sacred trust.

This legislation would increase benefits for all Social Security beneficiaries. It improves the cost-of-living adjustment, the COLA, to reflect inflation.

My colleagues across the aisle want to talk about inflation all the time, but when we try to give them measures to combat it, there is nothing they want to do. They vote "no" each and every time.

I can almost expect that when we get to committee, and we are going to mark this up as a means to deal with inflation for our elders, they are going to say "no" to it as well.

It enhances benefits for widows and widowers, repeals provisions that penalize public servants, and ensures that no one retires in poverty.

H.R. 5723 promotes fairness in our Social Security system. It provides a tax cut for middle-income beneficiaries by raising taxation thresholds, while also ensuring millionaires and billionaires pay their fair share by applying the Social Security payroll tax to income above $400,000.

Finally, this legislation makes practical improvements to Social Security services to reduce access barriers. It ends the 5-month waiting period to receive benefits, enhances access to legal assistance, and prevents unwarranted closures of SSA field offices.

By increasing benefits, promoting fairness, and improving access, Democrats are improving Social Security so it will not only help beneficiaries today, but will also help future beneficiaries by extending the trust fund's lifespan.

This legislation may not solve every problem in our Social Security system, but it may not include provisions that every Member desires, but it will make a tangible, positive impact on the lives of nearly 70 million Americans.

I know that on the other side we hear things such as an 11-point plan to rescue America, and among other things the plan calls for Federal legislation to sunset after 5 years so Congress would need to reapprove it. We see them discussing 20 percent across-the-board cuts to Social Security. We say "no" to that. We believe our elders, support the system, give a helping hand, fight inflation.

As President Franklin Roosevelt stated in 1935 when he signed the Social Security Act into law, "This law, which represents a cornerstone in a structure which is being built, but is by no means complete. . . . It is, in short, a law that will take care of human needs and at the same time provide the United States an economic structure of vastly greater soundness."

I urge the House to lay another cornerstone in this unfinished structure by passing H.R. 5723. Our moral character as a nation is determined not by how we treat corporations and billionaires and the powerful but, rather, how we treat the most vulnerable among us: Hardworking seniors who have earned a peaceful retirement; people with disabilities who need support; veterans who courageously defended their country and who are deciding to step out and do something about it.

They are not asking for a handout or a free ride. Rather, they have worked hard to support their families and their countries and have paid into the Social Security system. Now they are simply asking their government to maintain the promise of Social Security and extend a helping hand during hard times.

I thank my colleagues for the work that has been done to bring this to the forefront. I also thank our wonderful staff, who have done so much of the yeoman's work in bringing information, making sure that we are doing the right thing with the numbers, that this is something that is sustainable and is going to support not just those people who opt out of greater Social Security benefits, but there is a benefit to all Americans by us doing this in the long run.

Mr. Larson of Connecticut. Mr. Speaker, I thank the gentlewoman for her comments, and especially all the retires and widows about this is the cornerstone, a key ground-laying cornerstone of the human infrastructure.
Mr. Speaker, may I ask how much time we have remaining?

The SPEAKER pro tempore. The gentleman has 32 minutes remaining.

Mr. LARSON of Connecticut. Mr. Speaker, I yield to the gentleman from New Jersey (Mr. PASCRELL), the distinguished vice chair of the Subcommittee on Social Security, the leader in Congress on making sure that firefighters and police officers and teachers are taken care of across the board, unlike as it relates to Social Security and WEP and GPO, to be followed by the gentlewoman from Florida (Ms. LOIS FRANKEL).

Mr. PASCRELL. Mr. Speaker, I rise today on behalf of the more than 124,000 of our neighbors in the 9th Congressional District who rely on Social Security each and every month.

I rise also, Mr. Speaker, because 26 years ago, when I first ran for Congress against an incumbent, I was fighting for Social Security because it was an issue in that election of 1996, when you had choices.

Choices. Privatize, and that is the way to get to the goal line, and senior housing, senior development, one after the other. The first thing I heard when I walked in the door when I was campaigning in the first congressional campaign of my life was, “What are you going to do about Social Security?”

The number of 124,000 is growing in every State every single day. It is not getting smaller. We have more of an older community in the United States of America. I am proud to have been part of that community for a few years. We will leave it at that.

Social Security is one of our Nation’s greatest success stories, and after 86 years, Social Security still stands as a testament of decency, dignity, and hardworking Americans. We talk about them a lot. We talk about the middle class. That is the poor, but that is what we do, we talk a lot about it.

Yet throughout that storied history, Social Security has been under attack. Going back to 1935 and FDR, from day one it has been the subject of scurrilous attacks and lies. Those lies continue to this day. It has taken its toll.

Social Security is no grab-bag giveaway, but benefits that you have earned, you paid into with your own sweat and toil. Without aggressive action, there is an insolvency.

It teeters toward insolvency.

Without aggressive action, it has been the subject of scandal and self-sabotaging disorders like Huntington’s disease get the help they need without red tape or delay.

Importantly, we have updated the legislation so that our firefighters, police, teachers, and other public servants—we are always putting our arms around them—will now receive the full Social Security benefits that they have earned.

Social Security lifts more Americans out of poverty than any other Federal Program. Every year 21 million each year. For over 40 percent of senior beneficiaries, it provides a majority of their income. Their lives literally depend on it. That is not an exaggeration, Mr. Speaker. That is the importance of Social Security to America.

We are fighting for our seniors who have worked their entire lives, and we are fighting for working families so that no one who pays their whole lives should ever retire in poverty. That is a source of pride.

With unified control of government, we must get this done. There are no excuses. Congratulations to the committee and its chairman to get us this far.

Mr. LARSON of Connecticut. I thank the gentleman from New Jersey for his unwavering support and dedication not only to the firefighters, police, and teachers across this country who will benefit from this legislation, but all Americans, especially those in Paterson, New Jersey, who has dedicated his life to serving.

Mr. Speaker, I yield now to the gentlewoman from Florida (Ms. LOIS FRANKEL), a woman who understands the significance of Social Security, having hailing from the State of Florida, which is probably the senior center capital of the world in terms of the population there of senior citizens.

Before yielding to the gentlewoman, I recognize the number of committees that have come out in support of this legislation, including the National Committee to Preserve Social Security and Medicare, Social Security Works, the NAACP, the National Organization of Women, the Latinos for a Secure Retirement, the National Education Association, the AFT, and more than 350 organizations have come and endorsed the work of LOIS FRANKEL, who understands what seniors need not only in Florida but across this great Nation of ours.

Ms. LOIS FRANKEL of Florida. Mr. Speaker, I thank my colleague, Mr. LARSON, for spearheading this fight to keep Social Security secure.

It is hard to believe that Republicans actually want to stop the program in 5 years so they can reassess. I tell you, that is big trouble. It is big trouble if they do that for the millions and millions of Americans who depend on Social Security. I thank Mr. LARSON who live in the State of Florida.

Our workers spend their lives working hard for these benefits, and so don’t they deserve when they retire to make sure that they have enough money to see that their bills are paid? That is why the Social Security 2100 Act is so important.

It is going to improve a needed bump to the cost of living. It is going to provide a special benefit for low-wage earners, folks like waitresses and custodians, nurses’ aides, people who are important to our economy.

This is a big deal. It is a big deal, especially for the retirees who depend on Social Security to cover their everyday expenses. Just ask Alice from my hometown, who was a housekeeper her entire life. She worked 40 hours a week until she turned 65. She is earning $923 a month on Social Security. Her rent just increased to a whopping $855 a month. That is not sustainable. That is not right. That is not what America is about.

No one has who worked hard their entire life should retire into poverty.

I am proud to join my colleagues, overwhelming support from Democrats for the Social Security 2100 Act. It has got the updates we need to keep this critical program working now and for the future.

Let me just say, the timing of this bill could not be more urgent.

Mr. Speaker, I yield to the gentleman from Ohio (Mr. RYAN), the next Senator from the State of Ohio, the person who speaks to that working class, and it resonates not only in Ohio but across the great Nation of ours.

Mr. RYAN. Mr. Speaker, I thank the gentlewoman from Florida for her comments.

Very now and agree with my colleagues, 4.5 million leaders in the country who may come from the House but all of a sudden take on national prominence. Why is that? Because they speak straightforwardly to the people. In the case of TIM RYAN, in Ohio, but they are really speaking to the entire Nation.

What are they talking about? The more than 10,000 baby boomers a day who become eligible for Social Security and the individuals who have worked all of their lives and paid into a program and receive below-poverty-level checks from their government, and also a pay-for in this program that has the wealthiest people paying their fair share simply by lifting the cap on people making over $400,000. That is four-tenths of 1 percent of the American public.

Even with that, they will be paying proportionately less than a person earning $50,000 to $55,000 a year.

Mr. Speaker, I yield to the gentleman from Ohio (Mr. RYAN), the next Senator from the State of Ohio, the person who speaks to that working class, and it resonates not only in Ohio but across the great Nation of ours.
I just want to say, I have been in Congress now 20 years, and I have known Mr. Larson for that long. He has been an absolute bulldog on this issue. I think he understands better than most the impact of this program, just as I do, in and around Ohio, in getting this on the radar screen. Now, we are going to have a markup next week on this, really proposing this at a time of great need.

The pandemic that we all have experienced over the past few years, and the global economic collapse that we saw in the last couple of years, I think pulled the veil back on a lot of problems that we have had in this country. We could go through the entire list, but I think one of them that is most significant is how many people in this country, how many seniors in this country, struggle to make ends meet, in the wealthiest country on God’s green Earth, the most significant, most dynamic economy.

We have a handful of people building their own space stations, going into space, and, God bless, that can only happen in America. But the reality is that a significant majority of people in this country are still struggling.

What we are talking about here is a group of people who did everything right, busted their rear ends their whole life—single moms taking care of a couple of kids, people working in factories, people waitressing, nurses, public servants, people who are out there every single day and have done everything right.

This is what the Social Security system is all about. I remember when my grandparents passed away. I remember going through their drawers at their house. You have to clean up everything, and it is really a heartbreaking experience.

I found this little black book that was my great-grandfather’s, Dominic Guerra. He came over from Italy with 17 bucks in his pocket. It was his little black book. I opened it up, and on the left side of the names of the people who belonged to this group that was called the Valsinni Club. He came from a little village in Italy, Valsinni, in the southern part, in the Basilicata region. It was the Valsinni Club.

On the left-hand side were all the names of the Italians from Valsinni in Niles, Ohio. At the top of the book were the months of the year. So, it would say Dominic Guerra and all of these other names of the people who belonged to this group that was called the Valsinni Club. He came from a little village in Italy, Valsinni, in the southern part, in the Basilicata region. It was the Valsinni Club.

I found the book, and it was a mutual aid book. It was insurance. It was just a group of people kind of putting their own insurance plan together because, one day, I am up and you are down and the next day, I am down and you are up. That was before Social Security and before Medicare, people coming together, collectively, to help each other, which is a basic American value.

This system was put in place because that was probably happening all across the country with different ethnic groups. Franklin Roosevelt and others said, hey, we better do something about this and collectively come together. That is what this is about. This is an earned benefit. That is the principle here in the United States.

We are talking about economic freedom here. We talk about it with the workforce. We talk about it with rebuilding the middle class. Why? So people can be free. Economic freedom—don’t have to work 50 or 60 hours a week. You have time for the things that are important. You have a few extra bucks to take your kids to the college football game or, if you are in the Cleveland Browns game, go fishing, go hunting, or have a little boat. Economic freedom.

When we are talking about our seniors, we are talking about freedom, enough economic independence to live independent lives. Seniors don’t want to be a burden on their kids. They don’t want to be a burden on their grandkids.

What Mr. Larson and what the Social Security 2100 Act are saying is, how do we lift everybody up, put a few more bucks in people’s pockets who have done everything right, making sure people aren’t living in poverty, making sure they are independent, that they can take care of themselves? That is what this bill does. It asks people making over $400,000 a year to help make that happen.

I think this is a significant piece of legislation. I think this program is the backbone of rural America, where so many jobs have been lost. It is the backbone of these factory towns that have seen so much loss. You have issues around addiction, overdose, fentanyl. And grandparents raising grandkids, it couldn’t happen without Social Security.

The one significant provision in here is to say if a husband and wife are both working, and they promised one another, if one dies, they are going to get at least 75 percent of the total of both recipients. That is a significant step because we hear how often of a spouse dying and then, all of a sudden, there isn’t economic independence anymore, there isn’t freedom anymore, there isn’t the ability to take care of yourself.

I am here today to say this is a phenomenal thing. I think when most Americans—Democrat, Republican, and Independent—hear about this, there is going to be and continue to be significant support for these reforms.

I hope this bill gets marked up. I hope it comes to this floor for a vote.

I hope the Senate agrees, and I hope we pass it and reform it. Then, we are going to lift up millions of people, millions of seniors, in this country. We have John Larson to thank for that.

Mr. Larson of Connecticut, Mr. Speaker, I thank the gentleman from Ohio and I commend him. He is going to be going to the United States Senate because, in the United States Senate, Mr. Scott from Florida has proposed ending Social Security in 5 years. Ohio needs to make sure that it is the funding source to the United States Senate who is not going to end Social Security in 5 years but is going to expand Social Security now, when we need it, when we are in the worst pandemic in the history of the country, when we are suffering through inflation. The time to act is now.

As Martin Luther King would say, it is the fierce urgency of now. It has been 51 years since Congress has done anything.

What is something that Ted Lieu of California understands and has been working tirelessly, as an original co-sponsor of this bill, to reach out not only to the citizens of California but all across this country to make sure they have the benefits that can sustain them. Our goal is to expand benefits, not cut them.

Mr. Speaker, I yield to the gentleman from California (Mr. Lieu).

Mr. Lieu. Mr. Speaker, I thank Chairman Larson for yielding.

Democrats are focused on putting people over politics by lowering costs, increasing American jobs, and having safe communities.

What are Republicans focused on? Ending Social Security. How do we know that? They put it in writing. They want to end Social Security in 5 years.

We need to not only end the Republicans’ ability to end Social Security; we need to expand Social Security. That is why I am so proud to be here to support John Larson’s Social Security 2100: A Sacred Trust.

In my district alone, there are nearly 120,000 Social Security recipients who receive an average, in total, of $209 million of monthly benefits. This is a vital, critical program, lifesaving for millions of Americans.

Why is it called a sacred trust? It is called a sacred trust because our government promised, over 85 years ago, that currently is in Social Security. That is why I am so proud to be here to support John Larson’s Social Security 2100: A Sacred Trust.

In my district alone, there are nearly 120,000 Social Security recipients who receive an average, in total, of $209 million of monthly benefits. This is a vital, critical program, lifesaving for millions of Americans.

The bill also improves Social Security benefits for widows and widowers. This bill repeals the windfall elimination provision. It ends the 5-month waiting period to receive disability benefits.

The bill also provides caregiver credits toward Social Security. It extends Social Security dependent benefits for children who live with grandparents or other relatives.

The bill also requires the Social Security Agency to mail annual statements to all workers, and it improves access to legal representation for people seeking long-term disability benefits.

This is an awesome bill. This is exactly the kind of legislation that we need to move off the floor, and it is in stark contrast to what Republicans are doing.

Again, Republicans want to end Social Security in 5 years. How do we know that? They put it in writing. Not just one Republican, but multiple Republicans.

It is a severe danger to our Nation if we wipe out this lifesaving program. It is important that we not only make sure that that doesn’t happen but that we expand Social Security, especially coming out of a pandemic where people are facing all of these challenges and obstacles. Folks on fixed incomes cannot often get additional income, and that is why the only way to do this is to increase Social Security. We do that by passing JOHN LARSON’S Social Security 2100: A Sacred Trust.

Mr. LARSON of Connecticut. Mr. Speaker, I thank the gentleman from California for his comments.

I will point out that this is a bipartisan plan, probably more correctly called nonpartisan. Why? Because Independents, Democrats, and Republicans of all ages, of all backgrounds and ethnic groups, support Social Security because it is an American ideal.

As Congressman RYAN pointed out, whether you are in a rural area or an urban area, whether you are on the coast or in the Great Plains of this country, you are impacted by Social Security. This is about your mother and father. It is about your brothers and sisters.

It is what I call the great mirror test. If you can look your constituents in the eye—and we have provided every Member of Congress with a card that says: How many of your constituents receive Social Security? It is Congress’ responsibility. This is not something that can happen through executive order. This is not something that the Supreme Court is going to rule on. This is only something that Congress can do.

It is Congress’ responsibility. This is not something that can happen through executive order. This is not something that the Supreme Court is going to rule on. This is only something that Congress can do.

Mr. Speaker, I yield back the balance of my time.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 4, 2021, the gentleman from Louisiana (Mr. JOHNSON) is recognized for 60 minutes as the designee of the minority leader.

Mr. JOHNSON of Louisiana. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the subject of my Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

Colonel JOHNSON of Louisiana. Mr. Speaker, the recent Supreme Court term has come to an end, and the Court’s decision has sent Washington Democrats into a tailspin.

Members of this body have called to abolish the Supreme Court—and by the way, some of those very same Members who are called to expand the Supreme Court, so we are not really sure which one they are committed to.

Just yesterday, Members of this body were pretending to be handcuffed over their support for taxpayer-funded abortion on demand until birth. Washington Democrats are making excuses for the outright harassment of the Supreme Court Justices, their families, their children, and even the assassination attempt on the life of Justice Kavanaugh.

Washington Democrats are silent on attacks against pro-life pregnancy care centers across this country. Some have even called for these centers to be shut down all across the Nation. It is appalling. It is unhinged. Who would anyone want to shut down pregnancy centers that are designed to help struggling mothers in their time of need? But that is where we are.

Why all the hysterics though? My constituents are really curious about this. Why are they so animated right now? Why do they want to tear this institution to the ground?

Well, there is the simple reason, because the Supreme Court has made some very thoughtful constitutionally based decisions in this term.

They correctly said, for example, that a football coach was exercising his First Amendment rights when he privately prayed on the 50-yard line.

The Supreme Court correctly said that citizens don’t have to ask the government for permission to exercise their fundamental rights to keep and bear arms.

The Supreme Court correctly said that if Congress wants to address clinton, then Congress has to legislate on that issue instead of just outsourcing that work to unelected bureaucrats.
Because the Supreme Court correctly said that elected Representatives of the people may again be allowed to place restrictions on the killing of innocent unborn children.

That is why they are motivated. That is why they are so unhinged. That is why they are so obsessed to tear the institution to the ground. I guess we shouldn’t be surprised by all of this. We are, after all, only a couple of months removed from Senator Schumer’s infamous, dangerous, unhinged rant on the steps of the Supreme Court itself. He called out Justices Gorsuch and Kavanaugh by name, and he said, Hey, we are going to release the whirlwind on you.

Well, it happened. And it is clear what is happening here. Democrats are doing anything and everything they can to try to use these obvious and straightforward Supreme Court decisions to stoke fear and change the subject before the November election. But today, I rise today to say that this election will be about three things. It is going to be primarily about soaring inflation, uninhibited illegal immigration, and the general staggering incompetence that we see by the Democrats in Washington.

The three I’s. I call it: Inflation. Immigration. Incompetence. I think that summarizes it very well.

There was a very interesting story on CNN this week that caught my eye. It was entitled, “Vulnerable Democrats Sound the Alarm Over Inflation Crisis.” Well, welcome to the party. It is a little late for that.

I would humbly suggest that those vulnerable Democrats should have thought about that before they voted to pass $5.4 trillion—with a “T”—in new partisan spending last year.

We warned them. This was so completely foreseeable. Government spending is what is causing the current inflation, plain and simple. And now that this bill is coming due, these vulnerable Democrats are hoping the American people would simply forget.

Mr. Speaker, I am delighted to yield to the gentleman from Pennsylvania (Mr. Meuser), first among my many colleagues that will be joining me here in the hour, who knows a whole lot more about this issue than I do. We don’t intend to let that happen, the stakes are too high, and the issues are too important.

I thank my colleagues for joining us today to discuss the harm that the Democrat agenda has caused our country and our alternative, conservative vision for how to fix all this.

Mr. Speaker, I am delighted to yield to the gentleman from Pennsylvania (Mr. Meuser), first among my many colleagues that will be joining me here in the hour, who knows a whole lot about the economy.

Mr. Speaker, I thank the gentleman from Louisiana, my very good friend, for offering this opportunity to speak on these important issues.

Mr. Speaker, 1 year ago this week, President Biden came to the American people and said that inflation was temporary. At that point, the Consumer Price Index, which measures inflation, of course, stood at 5.4 percent.

In the 365 days since, the price of nearly everything has increased, and the Consumer Price Index has skyrocketed at 9.1 percent.

Eggs are up 33 percent; milk is up 16 percent; chicken is up 18 percent; and worst of all, Americans are paying over 60 percent more for gasoline than they were a year ago, costing American families, my constituents, and everyone throughout our country, nearly $8,000 extra a year. Now we have our Transportation Secretary telling us the truth that this pain—and I’m quoting—will lead to more purchases of electric cars.

So that was the plan. Thanks for being honest, Mr. Secretary. Meanwhile, however, neither the administration nor the Secretary of Transportation has any understanding of where the energy comes from to charge all of these electric cars.

They are not exactly chess players, Mr. Speaker. As my friend from Louisiana put it, inflation, incompetence—the third “I”? Mr. Johnson of Louisiana. Immigration.

Mr. Meuser: Immigration. And instead of taking any action to correct this crisis, the effect it has on American families and small businesses, large businesses, you name it—dogs and cats, probably—the Biden administration has doubled down on the backwards policies and undertaken a massive blame-game campaign.

Not exactly a profile in courage taking place here, Mr. Speaker.

First, they branded the inflation brought on by their reckless spending the “Putin price hike.” Then, despite inflation beginning long before the Russian invasion of Ukraine, by the way, then the administration laid the blame for their policies at the feet of greedy corporations—yeah, and then the local gas station owners.

Mr. Speaker, 60 percent of the gas stations throughout our country, and certainly in my district, are owned by small independent businesses. They are to blame for the gasoline prices that we are paying?

I would like to reiterate, when faced with the highest gas prices in history caused by atrocious energy policies, the President of the United States and many Democrat Members of this House piled on them, fingers and blame small business owners.

The American people are not fooled by the Biden administration’s finger-pointing, though they are paying a steep price for it. Despite the administration’s best efforts to deceive the American people, we have learned that inflation was not temporary and has continued to skyrocket, largely because of the Biden House Democrats’ out-of-control spending.

Instead of addressing America’s inflation crisis, House Democrats have continued to push for billions more in government spending, which will increase inflation, it will not decrease it. Continued excessive spending will increase inflation. It is a mathematical and physical certainty.

We must correct course. Stop the reckless spending and unleash domestic American energy production, which will strengthen both our economy and our national security. We must stop overregulating and overtaxing small businesses, and enough with the blame games and these go woke and small businesses, and enough with the blame games and these go woke and overtaxing small businesses, and enough with the blame games and these go woke and overtaxing small businesses, and enough with the blame games and these go woke and overtaxing small businesses, and enough with the blame games and these go woke and overtaxing small businesses. They have failed the American people.

Mr. Speaker, the free nations of the world need a strong United States, both militarily and economically to lead. We face serious threats. Free nations worldwide know that the world is a far more peaceful and stable place with strong American leadership. The weakness shown both at our southern border and the Ukraine border, initially, have had devastating effects on humanity and on the stability of the United States, Europe, and the free world.

Only with a clear vision, realistic plan, and earnest execution will this be corrected.

Mr. Johnson of Louisiana. That is so well said, my friend. And it is so true that a strong and vibrant America is not only good for the people in this country but for people all around the world. We maintain peace through strength, and if we don’t show that strength, then we are in real jeopardy.

Mr. Speaker, I am delighted to yield to the gentleman from Texas (Mr. Babin), my good friend from right over the border.

Mr. Babin. Mr. Speaker, I thank my friend from Louisiana. I appreciate Mr. Johnson for having this Special Order.

Mr. Speaker, according to a recent New York Times poll, more than 77 percent of Americans think that the country is on the absolutely wrong track—and they are right.

Inflation is at a 41-year high. Small businesses cannot afford to stay open. Real wages are down 4 percent. Skyrocketing prices are costing Americans an extra $500 or more per month. Essentially, hardworking Americans are paying more for almost everything while they are taking home less. Why? Well, the answer is simple. Joe Biden and the Democrat party have put politics over your prosperity. Think about that. Over the last year and a half they have repeatedly shown us that their green fantasy is more important than you being able to feed your family or fill up your car with gasoline.

The administration says that we are in an “economic transition moment.” Yes, this inflation was supposed to be temporary and transitory, according to the administration, but prices have risen for 14 straight months since that announcement was made. You don’t need to be an economist to know:

We are undoubtedly in a state of transition. The real question is: What are we transitioning into?
My colleagues across the aisle avoid this question at all costs because the facts just don’t back up their fictitious answers. Let me tell you the truth.

You don’t need to like Donald Trump to accept the fact that our economy prospered under his leadership. You don’t need to be a Republican to accept the fact that our Nation flourished under free-market, small-government policies—policies that allowed Americans to thrive without Big Brother interference.

You don’t need to be in politics to accept the fact that our country has been in a perpetual state of crisis under President Joe Biden. Our economy is plummeting, our southern border is nonexistent, our military is shrinking, and our standing on the world stage is in rapid decline.

So, to answer the question of what we are transitioning into?

Well, under the left’s woke agenda, America will transform into a broke, borderless, weak, socialist Nation unable to compete internationally or defeat those who seek our very demise. It is a very frightening future, and one that we as the GOP cannot let come to fruition.

Mr. JOHNSON of Louisiana. Mr. Speaker, I thank my friend. It is a very stark reality that we face, but we are optimists. We know we can turn this around, and the American people are going to give us a chance this fall, aren’t they? I thank the gentleman for that good word and stark reminder.

Mr. Speaker, I yield to the gentleman from Virginia (Mr. Good).

Mr. GOOD of Virginia. Mr. Speaker, the Democrat majority is COVID crazy, it is January 6 forever, January 6 crazy, climate crazy, everything is racist, everything is seen through a transgender lens. Then there are their policies. Their policies that are wreaking harm on the American people, and that the people don’t want.

They have done so much harm to the country in the last year and half as they have had the majority, along with the White House. It is hard to put your finger upon what is the worst thing that has happened to the country. Is it the rapidly rising violent crime?

The undermining of our police?

Putting criminals ahead of victims?

Putting criminals ahead of police?

And just now figuring out that if you cut police you get more crime. And you don’t support police, then, of course, you get more crime.

Is it what they are doing to our military, woeifying, wussifying our military with these radical policies. These diversity equity inclusion policies that think our military is a social experiment. Kicking out military members because they don’t get a vaccine. We got 100,000 troops that are at risk of being dismissed from the military when we have at 40 percent of our recruiting goals.

Is it what we are doing at the border? Gosh, we could go on and on about the border, once again.

Is that the worst crisis that the Democrats have created with their policies?

What this President had to do to keep a secure border was nothing. Continue the policies of the previous administration and we would have a secure border. Instead, we have allowed some 4 million—now averaging about 10,000 a day—illegal aliens crossing into our country. Over 3 million—acknowledged by border patrol—encountered and then released into the interior of the country, and then some 800,000 criminal go-aways, the ones who, you know, don’t want to be taken into our custody, don’t want to be given free healthcare, don’t want to be given free education, free social services, free transportation wherever they want to go, without a quarter to appear.

The ones who are evading capture because they are trafficking drugs, human beings, child trafficking across our border. The ones with terrorist ties and criminal ties who will do irreparable harm in the days, weeks, and months ahead.

Then you talk to the energy policy, which is driving—along with the rapid spending—it is driving the inflation in this country. Energy policy. What did we need to do when this President took over a year and a half ago to remain energy independent for the first time in history?

Nothing. Continue the policies. But this President, during the campaign, promised to declare war on fossil fuels to end American energy essentially oil and gas production in this country. That is a promise that he has kept in the way that he has willfully put regulatory burdens, restrictions on the energy industry.

Now he goes essentially with a big gas can, carrying it over to the Middle East, begging these other world producers—who don’t produce energy as cleanly as we do—to produce more energy to try to bail him out of his failed policies.

Meanwhile, what do we have?

His transportation secretary, who has no experience in transportation, by the way, says: Hey, the more pain that we can cause, the more benefit. The more pain we can cause with rising gas prices, the more benefit. Memo: Most Americans can’t afford a $70,000 electric vehicle.

Most Americans don’t have somebody driving them around in a big SUV so they can get out of the SUV right before the photo op and get on their bicycle and just drive the last block to work. Most Americans don’t have that option.

This administration, this Democrat majority is out of touch with the American people. They are hurting the country. These policies are being rejected. You are going to see in 111 days from today the representation of that—the demonstration of that on November 8.

Mr. JOHNSON of Louisiana. Mr. Speaker, wow, there are so many important facts there. I will tell you what, it is hard to count all the crises. I thank my friend, that was so well said, as usual.

Mr. Speaker, I yield to the gentleman from Tennessee (Mr. Rose), faithful to this floor and always relay the facts to the American people.

Mr. ROSE. Mr. Speaker, I appreciate the time on the floor today to speak about these important matters.

Mr. Speaker, when Tennesseans go to the gas pump and grocery store, and they are constantly reminded of the fact that everything was much more affordable only 1 year ago.

Since President Biden has taken office and congressional Democrats have recklessly borrowed and spent trillions of dollars, the cost of living has skyrocketed at a rate not seen since 1981—when I was just a junior in high school.

Common sense will tell you this massive amount of deficit spending has created a labor shortage from folks staying home instead of working. Common sense will also tell you, that the only way to fix this issue is to turn the money spigots off here in Washington and stop this borrow and spend economic death spiral.

Unfortunately, common sense has again failed this Chamber as House Democrats passed earlier today a funding bill filled with partisan initiatives costing hundreds of billions of dollars. The socialist spending bill House Democrats passed today increased some accounts by double and even triple-digit percentages in some cases.

It rewards the Food and Drug Administration, which failed to quickly address the baby formula shortage with a budget increase. It also increases the budget for the Department of Homeland Security, who instead of enforcing our laws and stopping illegal immigration, is encouraging it by attempting to defund its title 42. It even increases the budget to maintain and improve Federal buildings by 12 percent, even though many of these buildings have been mostly empty for the last 2 years.

There are a lot of bad policies in this bill, but one of the worst has to be the exclusion of the Hyde Amendment. The Hyde amendment is a bipartisan amendment that has existed for decades to prevent your taxpayer dollars from being used to help fund abortions.

The State of Tennessee should serve as a role model for Members of Congress. We have been committed in Tennessee to enacting fiscally responsible policies up and down each level of government. We don’t even have a State income tax. Tennessee is the only state that has not raised your government without driving our State into a hole of debt from which we will never get out.
I just can’t help but think how one-party rule in Washington has completely failed the American people. Democrats have controlled both Chambers of Congress and the executive branch for almost 2 years now and Americans are not in a better place today.

Tennesseans are rightfully upset with their Federal Government and feel as though their concerns about the future of this country are not being heard. A recent poll shows that in April before the height of the COVID lockdowns, Americans actually thought our Nation’s future looked brighter than it does right now.

We can’t continue down this path. We must do everything we can to rein in the reckless spending. As interest rates begin to rise, our $30 trillion—and rising—national debt will only continue to get more expensive as the interest on the debt grows right along with it, squeezing funding for other vital programs. With interest rates now rising at a rapid clip, it is all just a ticking time bomb ready to go off.

Mr. Speaker, I strongly urge my colleagues on the other side of the aisle to listen to the people and Tennesseans back home and do what is right for the sake of our country and our children. Recognize the policy failures of the last 2 years and commit to joining Republicans in our desire to re-store fiscal responsibility.

Mr. JOHNSON of Louisiana. Mr. Speaker, there are so many great points there. I appreciate the gentleman for coming here and explaining that we can’t say it too much.

Mr. Speaker, I yield to the gentleman from Kansas (Mr. MANN).

Mr. MANN. Mr. Speaker, I thank the gentleman and my friend from Louisiana for hosting this Special Order hour and for all that he is doing to get the conservative voice out there.

Mr. Speaker, I rise today to deliver the 13th installment of my farm bill impact series during a time when the effects of the pandemic, the effects of rising food prices, and the effects of the actions of their government spending and other regulatory agencies that are going to make our jobs harder to do.

We have issues. Mr. Speaker, this is just a small example right here of some of the prices of things that are going up. It is not because we have had hurricanes or things like that that have wiped out crops. No, we have had a lot of droughts, but in my home State of California, some of that drought and some of the shortages of water, indeed, are because of government action.

The priorities that we see for spending include giving 20 percent more money to the EPA. I have had the EPA work in conjunction with the Army Corps of Engineers to stop people from farming fields in my district because they think it might have an effect on the salmon. But it is not just salmon. These are fields that have already been farmed in the past and have been fallow for a period of time, and they want to put them back into production. Oh, no, you need a permit. They didn’t think they needed a permit, and so they get fined, big-time.

As Americans face this runaway inflation caused by out-of-control government spending and other regulatory issues that drive up the cost of everything, these are the solutions we get: even more government.

I put some reasonable amendments across recently to try and move things
in the right direction and not have these outlandish spending ideas take hold.

For example, in my home State of California, Mr. Speaker, you may have heard of our high-speed rail project that was supposed to build a link from San Francisco to Los Angeles. Well, it sounded like a neat idea on paper when it was proposed and finally voted on by the voters to put $9 billion of bond money toward that back in 2008 for a $33 billion project.

So, they voted for it. Actually, they delayed the election several times because they didn't want to vote in another bond in an atmosphere that might not have been perfect, so they chose 2008, and somehow, it passed 52 to 48 percent. At $9 billion, that was triggered by the voters saying build a high-speed rail; you can't subsidize it; it has to carry its own weight. The price soon, when we figured it out, 3 years later, tripled from $33 billion to $98.5 billion. That project is projected now to be about $105 billion.

I had a recent proposal saying: No more spending on this until we actually have a handle on a few important items. They are not even compensating the farmers in the valley area for the land they are taking by eminent domain that is in the right-of-way. They have all this money, it is such a great idea, and they aren't getting around to even paying the people whose land is in the way of it. What is that all about?

As well, they are not doing the environmental stuff properly to see that the path is going to be properly handled as far as what might be environmentally sensitive in that area.

Thirdly, they don't even have the whole route laid out. They don't know how they are going to get south of the Klamath Basin that if they could get just a well laid-out route that might be subject to seismic? Who knows. But they are still pursuing it anyway.

It has received $3.5 billion of stimulus money from the Obama era of 2009 money—2009, we are talking. Then, they want to get another $2 billion from the so-called infrastructure bill that passed recently. That is $5.5 billion of Federal taxpayer money that all the 49 other States get to pay for, for this boondoggle that, so far, they can maybe lay their hands on $25 billion, the projection, for a project that is going to cost $105 billion. They are going to be searching for $80 billion more. They have already gotten five out of the Federal Government, pretty much. They want $80 billion more.

The whole premise of high-speed rail was that private investors couldn't wait to come in to be part of this project to help build this fast train from San Francisco. The investors are staying away until and unless you make guarantees that they will make money, and that is not even allowed in the original proposition that was barely passed by the voters.

There really is no end here on this. They will continue to pursue Federal money because they don't have it at the local level. We have to put a stop to that. That is why I offered an amendment.

This is at a time when people need lower priced fuels for their cars. That is all driven by policies that are happening here in Washington, D.C., pretty much. You can't blame it all on Ukraine and Putin. Yes, we import maybe 7 or 8 percent of our oil. We could have made that up quickly with known reserves of energy we have here, energy we can produce in this country.

We don't need Russian oil. We don't need Putin oil. We don't need foreign oil. We can do it here. We should be doing it. But Biden is making us pay the price with this incredible transition thing he is talking about. It is just hurting the American people. Energy affects every single thing, even the final bit where if you got it, then a truck brought it.

In the meantime, California, under a bill called ABS, is putting owner-operator trucks out of business because they are far superior in terms of employment, they don't belong to a union or what have you. In Washington, D.C., they want to emulate that bill called AB5 under what is called the PRO Act and have it cost everybody in the whole country.

The ideas coming out of here are not helping the American people. It is very tone-deaf here in Washington, D.C., and in the White House of what the American people are struggling with, with inflation and more profligate spending coming out of this place.

As I mentioned, the Army Corps of Engineers has been busy as a tool of the EPA, working on something called the waters of the United States. They want to charge every drop of water that hits the ground in the country. Even if it hits your roof, Mr. Speaker, and runs down your gutter, there are some jurisdictions that want to control that.

It is pretty ominous, especially when you look at my colleague before me who spoke about the wheat situation in the United States and the importance of an employment thing he is talking about. It is just affecting or virus out of it, and it doesn't work because they are trying to flush some disease or virus out of it, and it doesn't even work. Yet, they keep doing it anyway.

It is kind of like with the delta in California, if they don't have enough water in the delta, the Delta smelt, the Delta smelt population is basically extinct, and they still flush millions of acre-feet of water out through that.

So, California's agriculture is suffering. California's economy suffers. Those people who are productive are now unemployed, needing assistance instead of being part of the assistance. These are all government regulations coming out of D.C. and from California.

It also affects low-cost energy, renewable energy, hydroelectric power. When they take that water away from the Klamath, when they take it away from Shasta Dam and run it out the other end, that means more electric prices go up, Mr. Speaker. This all affects the economics of American families because of regulations and profligate spending here in Washington, D.C.

As we look at the world food situation, as my colleague from Kansas has talked about, we are not getting the wheat crop out of the Midwest. There is not enough to run a combine. As he mentioned, we can't even run a combine in Klamath right now.

If they don't get the water for the wheat, where are they going to run a combine to help us? Ukraine? They are dodging bombs right now. Russia has 27 million tons of wheat tied up that they are not letting out of the ports in Ukraine.

Where are we supposed to get the food? Hungary is cutting off their exports of wheat. India is cutting off their exports of wheat. We can't grow it in this country. Where in hell are people supposed to get food? No one is going to come to help us.

America is always the one helping everyone else. We need water for ag. We need the money they are wasting on high-speed rail. $105 billion. You could build 21 $5 billion dams for that and grow the food in California so many people depend on.

I will have an update on that as well as to why California food is important not just in California to growers and workers there but to people in New York, people in Pennsylvania, and people all through the Midwest. What we grow is important not just for our local economy but actually to keep things on the table that people need and demand. Instead, we would be importing them or not having them at all.

It all starts here in Washington, D.C., with misplaced priorities coming out of this administration that are not helping. I have to ask often to the Biden administration and even some of my colleagues in these two Houses here: Whose side are you on, Mr. JOHNSON of Louisiana. Mr. Speaker, I thank my friend. There are so many important things he highlighted there.

Mr. Speaker, we will go from California over to the great State of Texas next.

Mr. Speaker, I yield to the gentleman from Texas (Mr. ROY).

Mr. ROY. Mr. Speaker, I appreciate my friend from Louisiana for yielding to me. I appreciate his time on the floor.

I was in the House Judiciary Committee. I will be spending some time in
Finally, Mr. MANN of Kansas talked about how the inflation crisis has real-world consequences for our farmers in the wheat State and everywhere else.

Mr. Speaker, we could go on and on all night. I will conclude our Special Order hour. This is just a sampling of the problems that have been created by the Biden administration and the Washington Democrats in charge of this institution. We cannot wait to begin to turn this around after the November election.

Mr. Speaker, I yield back the balance of my time.

THEY BREAK IT, YOU BUY IT

The SPEAKER pro tempore. Under the Speaker's announced policy of January 4, 2021, the Chair recognizes the gentleman from Texas (Mr. ROY) for 30 minutes.

Mr. ROY. Mr. Speaker, I appreciate the time here on the floor.

I appreciate, as I said a minute ago, my friend from Louisiana, Representative Babin, for his steadfast defense of the Constitution of the United States; his willingness to stand up for all the important values, from life to marriage; but importantly being a voice for this body, for the Republican Conference, and where we want to take this country; what we know the American people want us to do; and to stand aghast at the absolutely absurd policies of a Democrat majority that doesn't give a whit about the people that they are rolling over in a quest to placate their radical leftist policies, whether it is energy or open borders, and I appreciate the gentleman from Louisiana and his efforts.

I am here to talk about my Democratic colleagues and the extent to which the American people need to understand: They break it, you buy it. And that is the reality of what is happening.

My Democratic colleagues are breaking—breaking this country, breaking up your families, breaking up our secure border, breaking up our military, breaking up our court system, the rule of law, breaking up our police, our law enforcement community.

They are breaking up our economy, breaking the strength of the American dollar. They are breaking our position in the world, and they are breaking this body, the people's House. And it is high time it stopped.

And we can only hope that in November we get a change so that we can stop it. And then my message to my Republican colleagues will be: We better stop it because what is happening in the so-called people's House cannot be tolerated any longer.

They break it. This body, the leadership of this country, they break it. You buy it.

In reverse, I would say, America is great. Washington is broken. They are breaking it every day and, as a result, they are breaking this great country that our forefathers fought so hard to give to us and to our children and our grandchildren.

You cannot defend the policies of the Democratic majority. It is impossible to do. And in fact, if you look out to all the States of America, I would defy someone to demonstrate to me how you could do better than my Democratic colleagues are doing on a daily basis, ripping apart the Constitution, ripping apart the shattered parts of the floor, ripping apart the people of this country.

Dividing us. Dividing us by race, dividing us by income, dividing us by our adherence to the Constitution or devotion to the border and devotion to the rule of law.

That is what is happening on a daily basis, and it is purposeful. Let's be perfectly clear that it is purposeful.

The reason my Democratic colleagues focus so intently on January 6 is they want to divide us. The reason they want to have race-based policies throughout our government is they want to divide us.

The reason they want to make the border supposedly about not liking Brown people is because they want to divide us. Never mind that south Texas is full of Brown people who are sick of wide-open borders empowering cartels.

That is the reality of what is going on in this Chamber, and in the Senate, and at the other end of Pennsylvania Avenue.

Just focus on the border for a minute: Broken, wide open, abused by cartels, exploited by terrorists, exploited by gang members, criminals coming into our country, killing American citizens. Fentanyl pouring into our communities, 107,000 dead Americans. 850,000 known got-aways pouring in between the ports of entry because our Border Patrol is overwhelmed, with not only no support from this administration, but the purposeful attack by the Secretary of Homeland Security lying about the good men and women of Border Patrol, saying that they whipped people that they didn't, and then hiding behind some report, while they give them administrative punishment.

That is your leadership, ladies and gentlemen. They are breaking it and you have to buy it.

They are leaving our border wide open, and American citizens are dying. Let me repeat that. They are leaving our border wide open, broken, and American people are dying, thousands upon thousands of Americans dying from fentanyl pouring into our communities, pushed by China, exploited by cartels, left to be able to come into our country because Democrats do not care about securing the border.

And more importantly, my Democratic colleagues are perfectly fine purporting to leave our border wide open. It is purposeful. It is purposeful.

They are breaking it and you are going to have to buy it.
How about our defense?
Our Defense Department is being broken on a daily basis by my colleagues on the other side of the aisle and in the other Chamber, and particularly, this administration, shoving into the Department of Defense a radical, woke ideology, radical, woke programs, policies focused on diversity, and equity, and inclusion, all of the things that they cloak with critical race theory to destroy and break apart the institution of our purposeful.

Vaccine mandates, forcing 60,000 guardsmen to be on the chopping block to lose their entire career. It is purposeful.

They are breaking it.

They are breaking it by tucking tail and running out of Afghanistan with $85 billion of equipment there and 12 or 13 dead servicemembers and no accountability. No accountability for the brass at the Pentagon and no accountability for the White House for tucking tail and running.

They are breaking our Defense Department.

You talk to the servicemembers who were in my office, coming in in tears because they are about to lose their entire career because they choose not to take a politicized vaccine.

Oh, by the way, by another broken governmental agency, or agencies, our whole public health system being radicalized by my colleagues on the other side of aisle to strike fear in the hearts of the American people, to watch them push aside and brush under the rug gain-of-function research and all that we see unfolding in China in the Wuhan Institute of Virology, all that we know about the funding, American funding that was tied to that.

All that we know about the absurdity of locking down schools, shutting down our schools so our kids are stuck in masks and boxes in the corner and not able to go to school, the damage it has done to our kids, the mental health issues, destroying the education of our young, all chasing the teachers' unions.

We have seen the mandatory—or efforts at mandatory vaccines—thankfully, partially struck aside, but many still in place, breaking the back of the people's trust in their public health, breaking the back of the people's ability to serve in the military and defend this country, breaking the back of people being able to be Federal public servants working for Border Patrol or other Federal agencies.

Why?
Because of fealty to Anthony Fauci, being the great wizard of public health while he poses for magazine covers and throws out pitches at baseball games.

Meanwhile, your defense is broken. Your public health is broken, and you are going to have to buy it.

How about crime on the streets of the United States of America?

How about the 12 Democrat-run cities that have called for defending their police and have seen skyrocketing crime enveloping the cities?

The businessowner I spoke to today in Baltimore who says he is going to have to do business downtown because of rampant crime in Baltimore.

Austin, Texas, which cut its police by a third and has seen homicides skyrocket from 59 to 89, has seen 911 calls unanswered, drug trafficking increasing. Taking police off the streets in Austin, Texas.

We have seen 50 of the biggest urban areas see a 5 percent decrease in their police budgets, while my colleagues on the other side of the aisle say they are doing no such thing.

But my friend, Mr. JOHNSON, rattled off quote after quote after quote in the House Judiciary Committee of my colleagues on the other side of the aisle calling for defunding of the police. Of course, it is an attack on our police. They are breaking our Police Department, breaking the backs of our men and women in blue and leaving our streets exposed to lawlessness and danger, and it is purposeful.

How about energy?
Could you take a more ridiculous position than to take the strength of national security, of having abundant oil and gas, the ability to lead on nuclear, and, instead, chase unicorn energy policies of nothing but solar and wind so that on a cloudless, windless day—or cloudy, windless day, you sit back and watch your energy plummet and your grid weaken.

What kind of a country's leadership does that to its people?
I would say the kind that want to break it. I would say the kind that want to chase the fairy tales and the unicorn energy policies that this administration wants to pursue.

We could have nuclear power. It doesn't create any carbon dioxide. Does this administration want to break it? Does my colleagues on the other side of aisle want to do that?
No. Because this is about fear. This is about breaking American energy. This is about breaking the back of it, so you can get on your private plane and fly to Davos and fit in with the Western Europeans and how great they are, while they are now burning wood to heat their homes.

We have the greatest national security asset in the country, which was full and complete energy independence, and we are completely flushing it down the toilet, to break it and to break it purposely. And we don't have to do it.

We have abundant energy, abundant, clean-burning natural gas that we could export to other countries, as we were doing, driving down carbon dioxide.

We could be producing nuclear facilities all across this country with zero CO₂ production. But we are not. We are not. We are chasing—literally, we are tilting at windmills, dotting the landscape with windmills.

A couple of weeks ago in Texas, we had 8 percent of the wind capacity available in our grid. Absolutely astounding what we are doing to the energy of the United States of America.

Inflation. I mean, I can't even get all this in, the absurd policies of Democrats.

I have already covered border, could go further.

Already talked about defense; could go further.

We don't even get into Ukraine and the lack of briefings and the $56 billion we just dumped into Ukraine, with zero indication of a strategy of what we are actually going to do, while we expand NATO, with zero indication about how that is going to impact Article 5, and an 800-mile border and whether NATO's going to upend its end of the bargain when we fund the vast majority of NATO. I didn't even talk about that part of defense.

I didn't talk about crime. I mean, I talked about crime, but I didn't get into every aspect of it.

I didn't get into every aspect of energy.

Now I am talking about inflation. The wisdom of this administration coming in and dumping $1.9 trillion—I don't even remember what the name of that ridiculous bill was, but it was garbage. And it is now driving up the cost of goods and services for you, the American people.

They are breaking it. They are breaking your jobs. They are breaking your income. They are breaking your ability to buy goods and services and you are, literally, going to have to buy it, and you are going to have to pay a lot for it, because they are spending money we don't have.

They are printing money, throwing it out in the economy, driving up the prices of goods, while they are, simultaneously, restricting the ability for us to develop energy, to have abundant energy that you can afford.

You like $4.50 gasoline? Well, guess what? Your Democratic leadership just defended that as being great. In a Rules Committee debate this week, when I sat in that room debating the rules, literally, the Democratic Rules Committee was talking about how great it is that the price of oil has come down.

They were talking about the price of copper going down. Well, I have spent a lot of money on copper to wire my home. It is expensive as heck. It is now locked up in cages. But do you know what the price of copper going down means? Heading into a recession. That is the reality of what we are facing.

That is the truth.

Our economy is getting ripped to shreds, the price of goods and services are going up. And it is purposeful. Spending money we don't have.

How can you justify spending $2 trillion, printing that money, and dumping it out there to drive up the price of goods and services, while cutting off the production of oil and gas, not developing nuclear, increasing the price
of gasoline, increasing the price of energy in your homes? It could only be purposeful. They are breaking it. They want to break it so they can live in unicorn land.

But you are going to have to buy it, and it is going to be expensive.

How about the state of the rule of law? How about the state of the family? How about the state of marriage?

Just yesterday, on this floor—just yesterday, on this floor—we passed a law to destroy recognition by one State of another State’s marriage, but by thereby doing that, for the first time, I think this body, certainly Members on this side, supporting the redefinition of marriage, which was manufactured by the 1965 Supreme Court decision, manufactured and forced upon the States, a redefinition of marriage.

Now you see the wailing and gnashing of teeth because this court dared to say that Roe v. Wade was bad law, and that it was contrary to the States in the protection of life and the recognition that that is the appropriate law under the Constitution.

Lastly, I would point out when we are talking about breaking it, this body is the best example of my Democratic colleagues not giving a whit about you, the people, rolling over and destroying the people’s House, destroying this institution.

I have not been able to offer an amendment on the floor of this body. Can’t do it. Got to go to Rules. Beg for crumbs.

They drive through so-called suspension of the rules bills. We get them often hours before, at most, a day or two before they are on the floor being asked to be voice voted. If we don’t have a group of us on the floor monitoring those bills, they will go through with those.

They don’t care because voting doesn’t matter, as evidenced by proxy voting, forcing a new rule that says you can turn your voting card that you, the voters, gave to representatives and give that to another member of Congress, spending the constitutional order which requires presence, a quorum, physical presence, debate.

That is what the Constitution contemplates, and it is my Democratic colleagues who, for the first time in history, upended our requirement that we be present in the body of the House of Representatives to do our job. Blowing apart—blowing apart—this people’s House.

I would note, as I often do, that I am not saying that everybody on this side of the aisle has clean hands on all of these points. A lot of Republicans are taking advantage of the proxy voting that my Democratic colleagues created for the first time in history. They should not.

I will say that to every member. I don’t care if they are Freedom Caucus leadership or anybody in between. I will not back away from saying proxy voting is not only unconstitutional, it is wrong, and it is destroying this body. Forced magnetometers in this false name of security. Masks being forced upon members of Congress on the floor of the House which have now been brushed aside because I guess Anthony Fauci or somebody decreed that somehow, it is now safe to walk around without masks until they say it is not safe.

I yield to my friend from Virginia here in one second. I just want to say in conclusion to this part, and then I want to engage with my friend.

My Democratic colleagues, unfortunately with a little bit of help from a few of my Republican colleagues on occasion, are breaking this country. They are breaking this body. They are breaking our Constitution, and it is purposeful.

There are no other words to say what is happening at our border but that it is purposeful. There are no other words to say about what is happening on our streets with our law enforcement but that it is purposeful.

There is no other thing you can say about our energy policies but that it is purposeful. There is nothing you can say about the spending and the inflation but that it is purposeful.

The attack on the institution of marriage, the breakdown of the family, the targeting and the policies against life, that it is purposeful.

The fact that we are destroying this body with proxy voting, that it is purposeful. The fact that we are destroying the Defense Department and the very core values of our men and women in the military with their woke policies, with their vax mandates, irrespective of what that does to defense, driving our recruiting down to unforeseen levels, but that it is purposeful, and it is wrong.

I would just challenge my Republican colleagues that we better come in, if the American people give us power in November, and do the right thing to protect this country and to stop breaking it because the American people are having to buy it.

I yield to my friend from Virginia (Mr. Good).

Mr. GOOD of Virginia. I thank the gentleman from Texas for yielding time.

Mr. Speaker, I had a constituent say to me from Bedford County, just outside of Lynchburg where I live, nothing this President and this majority in Congress is doing makes sense unless they hate the country. Nothing they are doing makes sense unless they hate the country.

What would you do differently over the last year and a half if it was your purpose, your desire, your intention to ruin the country? Maybe you would undermine police. Maybe you would reduce funding for police. Maybe you would stop arresting violent criminals. Maybe you would stop prosecuting violent crimes. Maybe you would allow violent criminals to have no cash bail. Maybe we would release violent criminals from our prisons.

You know what? All of those things are happening, and the Democrats seem surprised that crime has gone up and the number of illegal aliens coming into the interior of their country in the past year and a half.

Maybe we have a shortage of funding to take care of Americans, to do the things that we would like to do, to take care of our veterans, to take care of those most in need, to help our farmers, to help hard-working Americans, to maybe give them a little bit of their resources back, to reduce the regulations and the oppression upon them.

Maybe we don’t need to bring in 4 million illegal aliens in a year and a half, 10,000 a day now, the average, is, give them free social services, free healthcare, free education, free travel, with no requirement to even appear in court. Maybe the American people want their border secured.

Maybe the American people don’t want massive inflation, 40-year record inflation, caused primarily by the massive, massive, reckless spending, the reckless spending, and the energy policies.

Think about where we might be if this Democrat majority had gotten their $6 trillion build back bankrupt bill through Congress. $20,000 per American citizen. They like to say sometimes, oh, some of this stuff is popular. It polls well. People want this. $6 trillion is what they have tried to spend, and they are still trying to backdo it in over these remaining months that they have left.

How would it poll, do you think, if we said, American citizen, do you want this so-called benefit, this so-called perk, what have you, but your share of the cost is $20,000. So a family of three, your share is $60,000. How many would vote for these policies?

Not to mention what they are doing on energy by design, on purpose, the dishonest attack on the fossil fuel industry, the dishonest narrative that we are the cleanest, largest energy producers in the world; the damage that has been done to the economy; the damage that has been done to the way that American people live their lives.

What are they doing? They are bragging about the pain that they are causing. They are saying the more pain, the better, they are saying. That is what the President has said. Hey, we are halfway through a transition. If we could just get through to the other side, it is going to be so much better, you know. You said in candy land and unicorn land, we are going to have all these jobs and all this prosperity because we went through all this pain.
But the fact is, the fossil fuel industry has been used to bring more prosperity to third world countries than any other development in industrial history.

This assault on our freedoms, our economic freedoms, our healthcare freedoms, as you mentioned, whether it is the mask, whether it is the vaccines, our individual freedoms with the Second Amendment assault.

They say it is going to try to pass two more bills to take away and restrict Second Amendment rights. That is going to happen in this House, we are told. The continued assault on the Second Amendment right.

I want to rest right here—I don’t do this very often, but I have some quotes from the Founders as it relates to the Second Amendment right.

As I was looking for quotes, you know, I couldn’t find anything that talked about the gentlemen if he wants it, when we received viewing audience.

Comments, by the way, I may say, is to spend more money. If we could just get more of our agenda passed and spend trillions of dollars more, then that will help the problem rather than make it worse.

It is like the person who says, hey, I am trying to lose weight and then they would say, well, the solution is to eat more. That is the solution that they propose, to do more harm, and you just wonder, is it just that illiterate, that ignorant, or is it willful and devious and malicious?

Mr. ROY. I thank the gentleman from Virginia. I think our time has expired. I appreciate the speaker and the staff here tonight.

Mr. Speaker, I yield back.

The SPEAKER pro tempore. Members are reminded to address their remarks to the Chair and not to a perceived viewing audience.
the people of the United States, who are peaceable citizens, from keeping
their own arms.”

James Madison, the first Congressman from my Fifth District and our fourth President, said: “The Constitution provides the advantage of being armed, which Americans possess over the people of almost every other na-
tion,” where “the governments are afraid to trust the people with arms.” Still true today.

Noah Webster said: “Before a standing army can rule, the people must be disarmed; as they are in almost every kingdom of Europe. . . . A military force, at the command of Congress, can execute no laws, but such as the people perceive to be just and constitutional; for they will possess the power . . . to resist the execution of a law which appears to them unjust and oppressive.”

Thomas Jefferson, from my home district in Virginia, from where the gentle-
man from Texas went to school, said: “What country can preserve its liberties, if its rulers are not warned from time to time that this people preserve the spirit of resistance? Let them take arms.”

Thomas Jefferson also said: “No free man shall ever be debarred the use of arms.”

Back to James Madison: “The right of the people to keep and bear . . . arms shall not be infringed. A well regulated militia, composed of the body of the people, trained to arms, is the best and most natural defense of a free country.”

George Mason said: “To disarm the people—that was the best and most ef-
factual way to enslave them.”

Patrick Henry said: “Are we at last brought to such humiliating and debas-
ing degradation, that we cannot be trusted with arms for our defense?” “If our defense be the real object of having those arms, in whose hands can they be trusted with more propriety, our equal safety to trust in our own hands!”

Samuel Adams said: “The said Constitu-
tion be never construed to authorize Congress to . . . prevent the people of the United States, who are peaceable citizens, from keeping their own arms.”

Thomas Paine: “Arms discourage and keep the invader and the plunderer in awe, and preserve order in the world. . . . Horrid mischief would ensue were the law-abiding deprived of the use of them.”

Patrick Henry also said: “Where and when did freedom exist, when the sword and purse were given up from the people?”

We are doing that right here in this body. We are taking the sword and the purse away from the people.

He said: “Unless a miracle in human affairs shall interpose, no nation ever did or ever can retain its liberty, after the loss of the sword and the purse.”

“The great object is that every man be armed.”

“Everyone who is able may have a gun.”

Final quote from Thomas Jefferson, then I will defer to the gentleman from South Carolina: “Laws that forbid the carrying of arms . . . disarm only those who are neither inclined nor deter-
mined to commit crimes. Such laws make masses of the people, as well the assaulted and better for the assailants: they serve rather to encourage than prevent homicides, for an unarmed man may be attacked with greater confidence than an armed one.”

Mr. Speaker, I yield to the gentleman from Texas (Mr. Roy).

Mr. ROY. Mr. Speaker, I have to head down to the House Judiciary Com-
mitee to defend the Second Amend-
ment from the at the being levied by my Democratic colleagues as we speak.

We are in there debating.

I would add just one thing to what the gentleman just eloquently put out, the understanding for the American people: that when this Nation was founded, we were dealing with debate about what the structure of govern-
ment should look like. Those who were suspicious of consolidating power, the anti-Federalists, were raising ques-
tions.

James Madison, a Virginian, was making points through the Federalist Papers. He said in response to some of the critiques: “All the other checks and balances will always prevent tyr-
anny, but should tyranny ever tri-
umph, the U.S. Constitution provides a mechanism to restore constitutional order,” he says. “Besides the advan-
tage of being armed, which the Ameri-
cans possess over the people of almost every other nation,” Madison wrote, “the existence of subordinate govern-
ments, the State government to which the people are attached,” their State and local governments, “and by which the militia officers are appointed,” be-
cause that well-regular militia meant a well-ordered militia, not regu-
lated the way we talk about, it, a well-
ordered militia. “And it forms a barrier against the enterprises of ambition more insurmountable than any where in a simple government of any form can admit of.”

The final point is, the Second Amendment does not create a right of revolution against tyranny. That in-
herence right is universal. The Second Amendment provides the tools and the power for the people to stand and thwart tyranny.

Mr. GOOD of Virginia. Mr. Speaker, I thank the gentleman from North Carol-
ina.

Mr. NORMAN. Mr. Speaker, I thank you for having this Special Order.

Let me give you a live example of what happens with a well-armed mili-
tia, the purpose of the Second Amend-
ment is for the citizens of America to bear arms.

This past Sunday, a deranged gun-
man opened fire in a food court of a shopping mall in Greenwood, Indiana, which is a suburb of Indianapolis. Po-
plice say this deranged gunman fired 24 rounds within 2 minutes, killing three and injuring two others.

Nearby was a young man, Elisjsha Dicken, a private citizen who took quick action to stop that gunman. Elisjsha was legally armed and car-
rying his own weapon under Indiana’s constitutional carry laws. Thank God for this young man.

In summarizing Elisjsha’s response, the Greenwood chief of police said, “I will say his actions were nothing short of heroic. He engaged the gunman from quite a distance with a handgun.” The police chief went on to say Elisjsha was tactically sound as he moved in to close on the suspect, and was also monitoring for people to exit behind him. He has had no police experience, no training, no military background.”

What a true hero. Elisjsha was simply going about his business at the mall when the unthinkable happened. It is hard to imagine how we might react in that situation, but Elisjsha was equipped; he was prepared; and he had courage to confront that sick indi-
vidual, who was determined to kill oth-
ers.

Elisjsha would not have been able to do so if the liberals who want to take away our Second Amendment rights had their way with this so-called gun control.

To my Democratic friends who are determined to restrict our Second Amendment rights, I ask you this: How many more people might have died last Sunday in Greenwood, Indiana, if you had had your way? How many more people would have been slaughtered if Elisjsha didn’t have the ability to exercise his constitutional rights? Thank-
fully, we will never know the answer to that question.

Americans deserve the right to pro-
tect themselves and others when their lives are in severe danger. That is why it is so critical to strongly defend our Second Amendment rights against the antigun left that is so intent to demor-
alize our Second Amendment and our Constitution.

Mr. GOOD of Virginia. Mr. Speaker, I thank the gentleman from South Caro-
line.

Ronald Reagan, to paraphrase, said: Freedom is only one generation away from extinction, and it must be fought and preserved from one generation to the next, and no nation having lost its freedom in history has ever regained it.

You think about how, in the past year and a half, we’ve lost our most basic, most essential freedoms trample upon by those who would also trample upon our Second Amendment rights. They have moved to restrict our own healthcare decisions about whether or not we have to take a vaccine that we may not want or may not need. They have restricted our ability to travel and to move, where we want to go, whether or not we can assemble, whether or not we can worship, whether we can go to work, whether we can operate our business, whether or not we can earn a living. They want to trample upon our rights to defend our-
selves.
Mr. Speaker, I yield to the gentleman from North Carolina (Mr. CAWTHORN).

Mr. CAWTHORN. Mr. Speaker, 40 yards, 10 rounds, one man, countless lives saved. I speak today to acknowledge a new American hero.

Just 2 weeks after Indiana passed a constitutional carry provision, one man stood tall in the face of imminent death, protecting his loved ones and his community from evil. Elíasjah Dick-en’s quick and heroic actions are not just to be applauded in the media. They ought to be used as a blueprint for American citizens who legally carry nationwide.

There is strong evidence that the best defense an American can possess is a sidearm and the know-how to use it. Mr. Speaker, law-abiding citizens use firearms to defend themselves against criminals as many as 2.5 million times a year, or about 6,830 times a day. This means that more often than not, we use our guns to protect the lives of honest citizens than to take lives. Moreover, citizens shoot and kill at least twice as many criminals as police do every year, as was brought out by the governor of Indiana.

The analysis is clear. Law-abiding, gun-toting Americans are the best line of defense against random acts of mass violence. Make no mistake, Congress’ gun control lobby would have rather taken the handgun from Elíasjah’s hand and replaced it with blood-soaked corpses of many innocents in Indiana.

Mr. Speaker, I speak for many Americans when I say we will carry. We will protect our families using what is inside our human heart. This isn’t what we need to do, and I am happy that there are people here that want to stand in defense of people’s gun rights.

Mr. GOOD of Virginia. Mr. Speaker, I thank the gentleman from Georgia.

Yet, right now, while Americans are suffering the worst cost of living in 40 years—I know the administration doesn’t want to talk about it. Right now, violent crime is up 30 percent, an unprecedented rate, not told to us by Mr. Perry or Mr. Good or Ralph Norman, but by our FBI, an unprecedented rise in violent crime.

Right now, right down the hall, instead of dealing with the rise in crime; instead of dealing with the fact that Democrats, supported by the extreme radical left, are letting criminals out on the street; not dealing with the issue that millions of people are flowing across our border, certainly faced with a certain criminal element with no regard to our American laws, coming across our border; notwithstanding the fact that some of the people that lead our country at the highest levels bailed out violent criminals and paid for their bail to be on the street to then assault and assail their neighbors, that is all happening right now.

Down the hall, as we speak, our colleagues on the left are trying to reinstitute the assault weapon ban, the assault weapon ban that they know, since 1994, when it was instated then, did absolutely nothing to solve this problem.

Because they don’t really care about crime—they don’t care at all. We are
Mr. Speaker, I yield to the gentleman from Pennsylvania (Mr. PERRY) for the purpose of a colloquy.

Mr. PERRY. Mr. Faulkner was killed in Philadelphia by Mumia Abu-Jamal, and all they usually ask me about that is: What are we going to do to get that killer out of prison?

Mr. GOOD of Virginia. I am never asked about the 100 police officers killed last year in the line of duty. Mr. PERRY. Right.

Mr. GOLOMBEK of Virginia. I am never asked about the police officers who are shot in America’s largest cities, as you have mentioned. I am never asked by the media about that.

I am never asked about the hundreds of shootings that take place every weekend in America’s largest cities, these war zones, these crime zones that are under Democrat control.

There is always a connection here. These are cities that have been controlled by Democrats. These are Democrat policies carried to their conclusion.

What they are trying to do to the entire country, which has been in place much longer in these major cities—you mentioned Baltimore, Detroit, Chicago, St. Louis, and New Orleans, and so forth. That is where most of the shootings take place in this country, and they don’t care about that.

Do they want to harden our schools? Do they want to do what is necessary to keep our kids safe?

I have long been an advocate in my home State of Virginia, the community where I served as a county supervisor, in allowing armed personnel within the school system who are trained and want to carry concealed and be part of a rapid response team, teachers and staff, to be armed in the schools to keep the children and the staff safe. The Democrat view was that.

We all know the truth. Mr. NORMAN from South Carolina mentioned this a moment ago. The best response to a bad guy with a gun is a good guy with a gun. The best response is more good people with guns, more law-abiding citizens with guns, as the Founders wrote and intended and as the Founders recognized 250 years ago when we didn’t have this violent crime in America’s largest cities.

If the Second Amendment is not safe, then no other right is safe. There is a reason why the Second Amendment comes right after that First Amendment guarantee to speech, free speech, to free assembly, to free worship, to petition and redress our grievances. It is that Second Amendment right to keep us safe, to ensure we remain a free people.

If you look around the world, if you look at the nation of Ukraine, Ukraine could be a different place today if the citizens were armed and protected to be armed the way we are here in this country. Taiwan would be a much safer country today from the threat of its large enemy on its border if their citizens were armed the way our citizens are armed today.

The Founders recognized in their wisdom that not only did we possess a God-given right to defend ourselves, to keep ourselves and our families safe, but also that we would be unique among the nations of the world in enshrining that in our Constitution and protecting that right and saying that Congress has no authority to infringe on that right for law-abiding citizens.

Mr. Speaker, I yield to the gentleman from Pennsylvania (Mr. PERRY).

Mr. PERRY. Mr. Speaker, my good friend from Virginia is absolutely right. That is only, you have to file the paperwork and do everything that is required in their States. Those are the people that they wish to disarm.

They are not in there talking about stopping criminals. They are talking about stopping law-abiding citizens who are trying to defend themselves when somebody breaks into their home at night or their store or business upon them. When they are out with their children or, heaven forbid, our citizens dare to travel to one of these cities anymore.

I represent a company in my district called Starbucks. Their CEO is closing stores all across the northwest of our country because of safety. People want to go to Starbucks. They can’t because it is not going to be there anymore, not because of sales, but because of safety. That is not a sign of a sickness—and the CEO of Starbucks, I don’t know that he thinks that the answer is an assault weapons ban. Maybe he does. But I haven’t heard of the Starbucks being held up by an assault weapons ban.

Every single week, every single weekend, people are killed in major cities, horrific violence, perpetrated whether it is with a knife or whether it is with a handgun. But it is the people that do it. These are inanimate objects. They are not making the decision to go to Starbucks or some other place long time ago and is now considering banning knives because knife attacks are on the increase.
Our country has a sickness, and we are sympathetic to it. But taking the tool away doesn’t address the sickness. Unfortunately, our colleagues on the other side of the aisle are so focused on the firearm that they can’t even see past the fact that they are disavowing their oath to the Constitution.

Mr. GOOD of Virginia. Mr. Speaker, I thank the gentleman from Pennsylvania for his comments.

The first 10 amendments to the Constitution were intended to protect the individual, the people, from the government. The Constitution protects the individual, the minority, from the tyranny of the majority.

There is a reason why we are not a democracy. We are a representative republic based on the rule of law, based on a Constitution that would ensure that we remain free, that would ensure that we protect the rights of the individual.

The number one job of the Federal Government, that we have gotten so far away from here in this body, is to keep us safe and secure. Part of that is to ensure that our rights are safe and secure, and that includes the right to defend ourselves.

Mr. Speaker, I yield to the gentleman from Pennsylvania (Mr. PERRY).

Mr. PERRY. Mr. Speaker, the right to defend ourselves. Mr. GOOD and I, our colleagues on this side of the aisle, we haven’t voted to defund the police. We support law enforcement.

Even though we support fully law enforcement, here is what we know: When someone breaks into your home and you pick up your phone, it is going to take a certain amount of time, unless law enforcement is setting out in your driveway. You are going to have to do something about it at that moment.

What our colleagues on the other side of the aisle right now are telling us is: No, you are not going to have any opportunity. You are not going to have any say about anything about something.

You can use harsh language. I suppose you can throw the lamp that is on your bed stand in self-defense, but that doesn’t stop the assailant’s bullets that are coming into your home for who knows what reason.

Mr. Speaker, we deserve—because we are the people, our colleagues on this side of the aisle are so focused on the police, on the government, on management and budget, Executive Office of the President, transmitting the Office’s government-wide legislative proposals; to the Committee on Oversight and Reform.

EC-4785. A letter from the Assistant Inspector General for Audits and Evaluations, Export-Import Bank of the United States, transmitting an action on nomination and a determination of section 6(a) of the Inspector General Act of 1978, pursuant to 5 U.S.C. 3534(a); Public Law 105-277, Sec. 515(b); (112 Stat. 2681-614); to the Committee on Oversight and Reform.

EC-4787. A letter from the Director, Office of Management and Budget, Executive Office of the President, transmitting the Office’s government-wide legislative proposals; to the Committee on Oversight and Reform.

EC-4788. A letter from the Inspector General, Office of the Inspector General, Railroad Retirement Board, transmitting the Board’s Fiscal Year 2023 Budget Justification, pursuant to 45 U.S.C. 231(f); Aug. 29, 1935, ch. 812, Sec. 711 (as amended by Public Law 94-445, Sec. 416); (97 Stat. 336); to the Committee on Oversight and Reform.

EC-4789. A letter from the Director, Congressional, Legislative and Intergovernmental Affairs, Federal Election Commission, submitting explanation and justification for revisions to FEC Form 1 and the instructions for FEC Form 1, pursuant to 52 U.S.C. 30111(d)(1); Public Law 92-225, Sec. 311 (as amended by Public Law 96-187, Sec. 109); (93 Stat. 1364); to the Committee on House Administration.

EC-4790. A letter from the Deputy Assistant Secretary, Senate, Office of Legislative Affairs, Department of State, transmitting a legislative proposal, “To clarify the application of the additional fees relating to certain H-1B and L petitions, and for other purposes”, to the Committee on the Judiciary.

EC-4791. A letter from the Senior Bureau Official, Bureau of Legislative Affairs, Department of State, transmitting a report on Congress on a visa inadmissibility determination, to the Committee on the Judiciary.

EC-4792. A letter from the Assistant Secretary for Legislation, Department of Health and Human Services, Office of the Medicare Beneficiary Ombudsman, Annual Report for Calendar Years 2017-2019, pursuant to 42 U.S.C. 13850(b)(2)(C); Public Law 106-173, Sec. 92(a); (117 Stat. 2384); jointly to the Committees on Ways and Means and Energy and Commerce.

EC-4793. A letter from the Secretary to the Board, Railroad Retirement Board, transmitting the Annual Report Required by Railroad Retirement Act of 1974 and Railroad Retirement Solvency Act of 1983, pursuant to 45 U.S.C. 231(a)(1); Aug. 29, 1935, ch. 812, Sec. 223(a)(1) (as amended by Public Law 107-90, Sec. 108(a)); (115 Stat. 890) and 45 U.S.C. 231f-1; Public Law 98-76, Sec. 502 (as amended by Public Law 104-66, Sec. 222(a)(1); (97 Stat. 736) jointly to the Committees on Ways and Means and Transportation and Infrastructure.

EC-4794. A letter from the Secretary to the Board, Railroad Retirement Board, transmitting the 2022 annual report on the financial status of the railroad unemployment insurance system, pursuant to 45 U.S.C. 336; Public Law 100-947, Sec. 7105; (102 Stat. 3772); jointly to the Committees on Ways and Means and Transportation and Infrastructure.

EXECUTIVE COMMUNICATIONS.

Under clause 2 of rule XIV, executive communications were taken from the Speaker’s table and referred as follows:

EC-4775. A letter from the Under Secretary for Personnel and Readiness, Department of Defense, transmitting a letter authorizing 3 officers to wear the insignia of the grade of brigadier general, pursuant to 10 U.S.C. 777(b)(3)(B); Public Law 104-106, Sec. 503(a)(1) (as added by Public Law 108-136, Sec. 113(b)(1); (113 Stat. 1458); to the Committee on Armed Services.

EC-4776. A letter from the Under Secretary for Personnel and Readiness, Department of Defense, transmitting a letter authorizing 3 officers to wear the insignia of the grade of brigadier general, pursuant to 10 U.S.C. 777(b)(3)(B); Public Law 111-383, Sec. 503(a)(1) (124 Stat. 3266); to the Committee on Armed Services.

EC-4777. A letter from the Under Secretary for Personnel and Readiness, Department of Defense, transmitting a letter authorizing 3 officers to wear the insignia of the grade of brigadier general, pursuant to 10 U.S.C. 777(b)(3)(B); Public Law 111-383, Sec. 503(a)(1) (124 Stat. 3266); to the Committee on Armed Services.

EC-4778. A letter from the Acting Assistant Secretary of the Army, Office of the Secretary of Defense, transmitting the Department’s additional legislative proposals and section-by-section analysis; to the Committee on Armed Services.

EC-4779. A letter from the Under Secretary for Acquisition and Sustainment, Department of Defense, transmitting the Department’s FY2021 Fiscal Year Budget Request Report (For Fiscal Year 2022 to 2022, to the Committee on Armed Services.

EC-4780. A letter from the Director, Consumer Financial Protection Bureau, transmitting the Bureau’s 2021 Fiscal Year Financial Privacy Report, pursuant to 12 U.S.C. 5495(c)(2)(D); Public Law 111-203, Sec. 1013(c)(2)(D); (124 Stat. 1970); to the Committee on Financial Services.

EC-4782. A letter from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting the Report on Congress on Direct Commercial Sales Authorizations to Foreign Countries and International Organizations for Fiscal Year 2021, pursuant to 22 U.S.C. 2415(a); Public Law 87-185, Sec. 655 (as amended by Public Law 94-184, Sec. 148); (1981-1982); to the Committee on Foreign Affairs.

EC-4783. A letter from the Secretary, Department of Commerce, transmitting a letter pursuant to the resolution of advice and consent to ratification of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction (Convention); to the Committee on Foreign Affairs.

EC-4784. A letter from the Secretary, Department of Commerce, transmitting a letter pursuant to the resolution of advice and consent to ratification of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction (Convention); to the Committee on Foreign Affairs.

ADJOURNMENT

The SPEAKER pro tempore. Pursuant to section 1 of House Resolution 1230, the House stands adjourned until 9 a.m. tomorrow.

Thursday (at 5 o’clock and 14 minutes p.m.), under its previous order, the House adjourned until tomorrow, Thursday, July 21, 2022, at 9 a.m.
Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Ms. WATERS: Committee on Financial Services. H.R. 4586. A bill to amend the Securities Act of 1933 with respect to risk-based examinations of Nationally Recognized Statistical Rating Organizations; with an amendment (Rept. 117–425). Referred to the Committee of the Whole House on the state of the Union.

Ms. WATERS: Committee on Financial Services. H.R. 6528. A bill to require owners of covered federally assisted rental dwelling units to install temperature sensors in such units, and for other purposes; with an amendment (Rept. 117–426). Referred to the Committee of the Whole House on the state of the Union.

Ms. WATERS: Committee on Financial Services. H.R. 7195. A bill to provide for certificate of Need services as fall within the jurisdiction of the Committee on Energy and Commerce, and for other purposes; to the Committee on House Administration.

Ms. WATERS: Committee on Financial Services. H.R. 7196. A bill to amend the McKinney-Vento Homeless Assistance Act to expand the authorized activities under the Continuum of Care program to include activities that address barriers to transitioning families in rural areas to permanent housing, and for other purposes; with an amendment (Rept. 117–425). Referred to the Committee of the Whole House on the state of the Union.

Ms. WATERS: Committee on Financial Services. H.R. 7734. A bill to amend title 31, United States Code, to require the timely production of reports to Congress under the Bank Secrecy Act, and for other purposes; with an amendment (Rept. 117–426). Referred to the Committee of the Whole House on the state of the Union.

Ms. WATERS: Committee on Financial Services. H.R. 7961. A bill to require qualifying smoke alarms in certain federally assisted housing, and for other purposes; with an amendment (Rept. 117–425). Referred to the Committee of the Whole House on the state of the Union.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. BISHOP of Georgia (for himself, Ms. MOORHEAD, Mr. KILDEE, and Mr. SMITH of Nebraska):
H.R. 8432. A bill to authorize the National Detector Dog Training Center, and for other purposes; to the Committee on Agriculture.

By Ms. LOFGREN (for herself, Mrs. TORRES of California, Ms. MENG, Mr. CORREA, Mr. ESPAILLAT, Mr. GARCIA of Illinois, Mr. NADLER, Ms. BARRAGAN, Ms. BASS, Mr. BLUMENAUER, Mr. BOWMAN, Mr. CARDEÑAS, Mr. CASTRO of Texas, Mrs. CASTRO, Mr. CONCHÜK, Mr. CUI, Ms. CLARKER of New York, Ms. ESCOBAR, Ms. GARCIA of Texas, Mr. GOMEZ, Ms. JAYAPAL, Mr. JOHNSON of Georgia, Mr. KAGGERLY, Mr. RAMOSCHIT, Ms. LEE of California, Mr. LIEU, Mr. LOWENTHAL, Mrs. CAROLYN B. MALONEY of New York, Mr. MEEHAN, Mr. MOORE of Ohio, Mr. NADLER, Mr. NAPOLITANO, Mr. NEWMAN, Mr. NORTON, Mr. PINHERI, Mr. RASKIN, Mr. ROYBAL-ALLARD, Mr. SANCHEZ, Ms. SCHANK, Mr. E. SCOBAR, Mr. SCHAKOWSKY, Mr. DAVID SCOTT of Georgia, Mr. SMITH, Ms. STANSBURY, Mr. STEFFANS, Ms. STENSON, Ms. TLAIB, Mr. TUCKER, Mr. TRONE, Ms. VAZQUEZ, Mr. WELCH, Mr. WILKIE, Mr. WILSON of Florida):
H.R. 8435. A bill to provide for near-term drought response; to the Committee on Natural Resources.

By Mr. HUIZENGA:
H.R. 8436. A bill to require the Securities and Exchange Commission to carry out a study on the need to revise the current tick size regime, and for other purposes; to the Committee on Financial Services.

By Mr. SCALISE (for himself and Mr. CARTER of Louisiana):
H.R. 8437. A bill to authorize the National Oceanic and Atmospheric Administration to make grants or cooperative agreements for the development of regional strategies to prevent, control, and mitigate invasive species; and to the Committee on Natural Resources.

By Mr. BACON:
H.R. 8438. A bill to specify that revoking a Foreign Tax Credit Organization designation requires a joint certification from the Secretary of State and Secretary of Defense, to restrict waiver authority for allowing members and contractors of terrorist organizations into the United States, and for other purposes; to the Committee on the Judiciary.

By Mr. BACON:
H.R. 8439. A bill to modify the requirements of congressional review and oversight of agreements with Iran; to the Committee on Foreign Affairs, and in addition to the Committee on Rules, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BACON:
H.R. 8440. A bill to clarify that the Federal Right to Try law applies to schedule I substances; and to the Committee on Energy and Commerce.

By Mr. BACON:
H.R. 8441. A bill to amend the Patient Protection and Affordable Care Act to ensure that taxpayer funds for health insurance coverage are available only to authorized individuals, and for other purposes; to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. CUELLAR (for himself, Ms. STEFANIC, and Mrs. STYER):
H.R. 8442. A bill to require committees with schedule flexibility and choice, and for other purposes; to the Committee on Education and Labor, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. FITZGERALD (for himself, Ms. SALAZAR, Mr. GARABINO, Mrs. FOREMAN, Mr. BROWN of Maryland, Ms. BROWN of Ohio, Mr. CÁRDENAS, Ms. CASE, Mrs. CHERFILUS-MCCORMICK, Mr. CIUMLINE, Ms. CLARKE of New York, Mr. COONEY, Mr. DAVIS of Illinois, Ms. DEAN, Mr. DRUTCH, Ms. ESISO, Mr. ESPAILLAT, Mr. GARCIA of Illinois, Mr. GREEN of Texas, Mr. HORSEY, Ms. JACOBS of California, Mr. JONSON of Georgia, Mr. JONES, Mr. KHANNA, Ms. KUSTER, Mr. LAWSON of Connecticut, Mrs. LAWRENCE, Ms. LEE of California, Mr. LOWENTHAL, Ms. LYNCH, Ms. MCCOLLUM, Ms. MENG, Mr. NADLER, Mrs. NAPOLITANO, Ms. NEWMAN, Mr. NORTON, Ms. PINHERI, Mr. RASKIN, Mr. ROYBAL-ALLARD, Mr. SANCHEZ, Ms. SCHANK, Mr. SCOTT of Georgia, Mr. SOTO, Ms. STANSBURY, Ms. STRICKER, Ms. TITUS, Mr. TLAIB, Mr. TUCKER, Mr. TRONE, Mr. VARZAG, Ms. VELAZQUEZ, Ms. WELCH, Mr. WELCH, Mr. WILKIE, Mr. WILSON of Florida):
H.R. 8443. A bill to impose additional requirements for covered agencies in regulatory flexibility analysis; to the Committee on Education and Labor, and in addition to the Committee on Small Business, and Financial Services, for a period to be subsequently determined by the Speaker for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. GARCIA of Texas (for herself, Ms. PORTER, Mr. THOMPSON of California, Ms. MCCOLLUM, Mr. GARCIA of Illinois, Ms. NEWMAN, Ms. NORTON, Mr. ESPAILLAT, Mr. GREEN of Texas, and Mr. DOGGETT):
H.R. 8444. A bill to amend the Fair Labor Standards Act of 1938 to require paid rest breaks for certain construction employees, and for other purposes; to the Committee on Education and Labor.

By Mrs. CAROLYN B. MALONEY of New York (for herself, Mr. TORRES of New York, Ms. BARRAGAN, Ms. BLUNT ROCHester, Ms. BONACUMI, Mr. BOWMAN, Mr. BROWN of Maryland, Ms. BROWN of Ohio, Mr. CÁRDENAS, Ms. CASE, Mrs. CHERFILUS-MCCORMICK, Mr. CIUMLINE, Ms. CLARKE of New York, Mr. COONEY, Mr. DAVIS of Illinois, Ms. DEAN, Mr. DRUTCH, Ms. ESISO, Mr. ESPAILLAT, Mr. GARCIA of Illinois, Mr. GREEN of Texas, Mr. HORSEY, Ms. JACOBS of California, Mr. JONSON of Georgia, Mr. JONES, Mr. KHANNA, Ms. KUSTER, Mr. LAWSON of Connecticut, Mrs. LAWRENCE, Ms. LEE of California, Mr. LOWENTHAL, Ms. LYNCH, Ms. MCCOLLUM, Ms. MENG, Mr. NADLER, Mrs. NAPOLITANO, Ms. NEWMAN, Mr. NORTON, Ms. PINHERI, Mr. RASKIN, Mr. ROYBAL-ALLARD, Mr. SANCHEZ, Ms. SCHANK, Mr. SCOTT of Georgia, Mr. SOTO, Ms. STANSBURY, Ms. STRICKER, Ms. TITUS, Mr. TLAIB, Mr. TUCKER, Mr. TRONE, Mr. VARZAG, Ms. VELAZQUEZ, Ms. WELCH, Mr. WELCH, Mr. WILKIE, Mr. WILSON of Florida):
H.R. 8445. A bill to direct the Director of the Office of Management and Budget to provide annual reports to Congress on the impacts of the Affordable Care Act and the Patient Protection and Affordable Care Act on state and local governments; to the Committee on Budgets.

By Mr. MCCAUL (for himself, Ms. TORRES of California, Mr. SMITH of Nebraska, Mr. BUCK (for himself, Mr. LAMAR of Mississippi), and Mr. VAN HUYSUM):
H.R. 8446. A bill to require the Office of Management and Budget to provide annual reports to Congress on the impacts of the Affordable Care Act and the Patient Protection and Affordable Care Act on state and local governments; to the Committee on Budgets.
H.R. 8447. A bill to amend the Internal Revenue Code of 1986 to impose an excise tax on certain investments of private colleges and universities; to the Committee on Ways and Means.

By Mr. NORCROSS (for himself, Mr. SCHIFF, Mr. SMITH of Washington, Mr. ESPAILLAT, Mr. GREEN of Texas, Mr. LOWE, Ms. MOSACCO-CORTEZ, Mr. CARSON, Mr. Kim of New Jersey, Mr. LEVIN of Michigan, Ms. KUSTERS, Mr. of Maryland, Ms. PRESSLEY, Ms. Lee of California, Ms. MCCOLLUM, Mrs. WATSON COLEMAN, Mr. SHEERAN, Mrs. LAWRENCE, Mr. FRANK, Mrs. CAROLYN B. MALONEY of New York, Ms. PINSKER, Mrs. AXNE, Mr. LAMB, Mr. DANNY K. DAVIS of Illinois, Mr. SOTO, Mr. CICILLINE, Mr. TUTCYSHYN, Mr. PAYNE, Mr. EVANS, Ms. NORTON, Ms. SLOTKIN, Mr. MCMICHAEL, Mr. PALLONE, Ms. WILSON of Florida, Mr. CONNOLLY, Ms. NAPOLITANO, Ms. MENG, Ms. STEVENS, Ms. OMAR, Mr. BOWMAN, Mr. MCCONNELL, Mr. RASKIN, Ms. SCHAKOWSKY, Mr. GOLDEN, Mr. CROW, Mr. NADLER, Ms. GIL-DE LA PEña of Illinois, Mr. GORMAN, Mr. PANETTA, Mr. COURTNEY, Mr. NEGUINE, Mr. LARSON of Connecticut, Mr. BARBE, Mr. BEATTY, Mr. VARGAS, Ms. CHU, Ms. BASS, Mr. PORTER, Ms. UNDERWOOD, Ms. BLUNT ROCHSTER, Mr. DOUGGETT, Mr. MOYLAN, Mr. DEAN, Ms. NEWMAN, Mr. DESAULNIER, Mr. FOCAN, Mr. TAKANO, Ms. SCANLON, Ms. STANSBURY, Mr. MICHAEL F. DOYLE of Pennsylvania, Mr. SHERBORN, Mr. JONES, Ms. BARRAGÁN, Mr. TONKO, Mr. AGUILAR, Mr. WELCH, Ms. JAYAPAL, Mr. KRISHNAMOORTHI, Ms. TSANG, Mr. GUEZ, Mr. GEILJALVA, Mr. LAURSEN of Washington, Mr. KANNA, Ms. DALEAO, Mr. GALLEGÓ, Mr. CASTEN, Mrs. CHERIFILLUS-MCCON- MICK, Ms. JACKSON LEE, Ms. BROWN of Ohio, Mr. LYNCH, Mr. COHEN, Ms. WILD, Ms. BONAMICI, Ms. GARCIA of Texas, Ms. SUZEE, Mr. RYAN, Mr. MALINOWSKI, Mr. CORDERAS, Ms. DEMINGS, Ms. CLARK of New York, and Ms. LOFgren).

H.R. 8449. A bill to establish and maintain a coordinated program within the National Oceanic and Atmospheric Administration that improves wildfire, fire weather, fire risk, and smoke related forecasting, detection, modeling, observations, and service delivery, and to address growing needs in the wildland-urban interface, and for other purposes; to the Committee on Ways and Means.

By Ms. SCHRIER (for herself and Mr. EVANS).

H.R. 8450. A bill to authorize child nutrition programs, and for other purposes; to the Committee on Education and Labor.

By Mr. STEWART (for himself and Mr. COHEN).

H.R. 8451. A bill to direct the Attorney General to establish a grant program to allocate federal and state funds for youth violence prevention activities, and for other purposes; to the Committee on the Judiciary.

By Ms. STRICKLAND (for herself, Mrs. FLITCHER, and Ms. BUSCH).

H.R. 8452. A bill to amend the Public Health Service Act to authorize grants to eligible entities for the development of partnerships relating to expenses and logistical support for individuals with respect to accessing abortion services, and for other purposes; to the Committee on Energy and Commerce.

By Mrs. WAGNER (for herself and Ms. NUNN).

H.R. 8453. A bill to provide for the imposition of sanctions with respect to foreign persons undermining the Dayton Peace Agreement or threatening the security of Bosnia and Herzegovina, and for other purposes; to the Committee on Foreign Affairs, and in addition to the Committee on Financial Services, and in the Committee on Homeland Security, to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. BARRAGÁN (for herself, Mr. ESPAILLAT, Mr. SAN NICOLAS, Ms. MOSACCO-CORTEZ, Mrs. NAPOLITANO, Ms. CHEN, Mr. CLEVELAND, Ms. ESCOBAR, Mr. RUIZ, and Mr. GRI- JALVAY)

H.R. 8454. A resolution recognizing the importance of engagement with the Latino community to get into the outdoors and participate in activities to protect United States natural resources and expresses support for the designation of the third week of July as “Latino Conservation Week”;

By Ms. BARRAGÁN (for herself, Mr. ESPAILLAT, Mr. SAN NICOLAS, Ms. MOSACCO-CORTEZ, Mrs. NAPOLITANO, Ms. CHEN, Mr. CLEVELAND, Ms. ESCOBAR, Mr. RUIZ, and Mr. GRI- JALVAY)

H.R. 8455. A resolution expressing support for the designation of the third week of June as “National Heroes Day” to honor the sacrifices of everyday heroes who save lives and improve our communities; to the Committee on Oversight and Reform.

CONSTITUTIONAL AUTHORITY STATEMENT

Pursuant to clause 7 of rule XII of the Rules of the House of Representatives, the following statements are submitted regarding the specific powers granted to Congress in the Constitution to enact the accompanying bill or joint resolution.

By Mr. BISHOP of Georgia:

H.R. 8432. Congress has the power to enact this legislation pursuant to the following:

U.S. Const. art. I, § 8, cl. 3, 18

By Ms. LOFGREN:

H.R. 8433. Congress has the power to enact this legislation pursuant to the following:

U.S. Const. art. I, § 8, cl. 3

By Ms. STRICKLAND (for herself, Mrs. ROBERTSON, Ms. BURCHETT, Ms. S ALAZAR, and Mr. BURCHETT) :

H.R. 8434. Congress has the power to enact this legislation pursuant to the following:

U.S. Const. art. I, § 8, cl. 3

By Mr. FITZGERALD:

H.R. 8435. Congress has the power to enact this legislation pursuant to the following:

U.S. Const. art. I, § 8, cl. 3

By Mr. BACON:

H.R. 8436. Congress has the power to enact this legislation pursuant to the following:

U.S. Const. art. I, § 8, cl. 3

By Mr. McCLINTOCK:

H.R. 8437. Congress has the power to enact this legislation pursuant to the following:

U.S. Const. art. I, § 8, cl. 3

By Mr. MCCARTHY:

H.R. 8438. Congress has the power to enact this legislation pursuant to the following:

U.S. Const. art. I, § 8, cl. 3

By Mr. BACON:

H.R. 8439. Congress has the power to enact this legislation pursuant to the following:

U.S. Const. art. I, § 8, cl. 3

By Mr. BLUMENTAER:

H.R. 8440. Congress has the power to enact this legislation pursuant to the following:

U.S. Const. art. I, § 8, cl. 3

By Ms. STRICKLAND (for herself, Mrs. FLITCHER, and Ms. BUSCH):
By Mr. BUCK:
H.R. 8441.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8 of the United States Constitution
By Mr. CUELLAR:
H.R. 8442.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8.
By Mr. FITZGERALD:
H.R. 8443.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8, clause 3 of the United States Constitution
By Ms. GARCIA of Texas:
H.R. 8444.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8 of the Constitution of the United States
By Ms. CAROLYN B. MALONEY of New York:
H.R. 8445.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8.
By Mr. MURPHY of North Carolina:
H.R. 8446.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8.
By Mr. NORCROSS:
H.R. 8447.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8, Clause 18: The Congress has the power to enact this legislation pursuant to clause 7 of rule XII, sponsors were added to public bills and resolutions, as follows:
H.R. 82: Mrs. FLETCHER.
H.R. 604: Mr. Larson of Connecticut.
H.R. 669: Ms. Lee of California.
H.R. 751: Ms. STEFANIK.
H.R. 909: Mr. GARAMENDI.
H.R. 1217: Mr. CLINE and Mrs. MILLER-MEEKS.
H.R. 1282: Mr. FALCON and Ms. CASTOR of Florida.
H.R. 1378: Ms. BROWN of Ohio, Mr. CARTWRIGHT, and Ms. STRICKLAND.
H.R. 1462: Mr. HARRIS.
H.R. 1809: Mr. QUIGLEY.
H.R. 1956: Mr. KUSTER.
H.R. 2056: Mr. CORREA, Ms. NEWMAN, Mr. EMMER, Mr. RYAN, and Mr. TRONE.
H.R. 2082: Mr. GOTTIFERI.
H.R. 2447: Mr. JACKSON and Mr. MOURLTON.
H.R. 2549: Mr. JOHNSON of Georgia and Mr. CLEAVER.
H.R. 2568: Ms. PINGER.
H.R. 2814: Ms. LOPHOREN and Mr. GOMEZ.
H.R. 2974: Mr. LOUDERMILK, Mr. ROUZER, Mr. MEeks, Ms. DEAN, and Ms. HERRELL.
H.R. 3086: Mr. POCAH.
H.R. 3160: Mr. SAN NICOLAS.
H.R. 3281: Mr. GARTZ.
H.R. 3408: Mr. JONES.
H.R. 3482: Mr. BROWN of Maryland.
H.R. 3517: Ms. WILD.
H.R. 3586: Mr. CORREA.
H.R. 3733: Ms. LURIA.
H.R. 4436: Ms. BONAMICI.
H.R. 4750: Mr. SMITH of New Jersey.
H.R. 4780: Ms. ROSS and Mr. MATSU.
H.R. 4826: Mr. WELCH.
H.R. 4836: Mr. JONES.
H.R. 4870: Mr. WALORSKI.
H.R. 5008: Mr. PETERS.
H.R. 5140: Mr. OMAR and Mr. LIEU.
H.R. 5220: Ms. HOLUALAN.
H.R. 5344: Mr. PRICE of North Carolina.
H.R. 5444: Mr. MCCOVEN.
H.R. 5536: Ms. SLOTKIN.
H.R. 5631: Mr. THOMPSON of California.
H.R. 5666: Mr. MALINOWSKI and Mr. LEVIN of California.
H.R. 5743: Mr. FALLON.
H.R. 5761: Ms. KUSTER.
H.R. 6117: Mr. COURTNEY and Ms. BROWN of Ohio.
H.R. 6136: Mr. CARTER of Louisiana.
H.R. 6161: Mr. SWALWELL.
H.R. 6430: Mr. CARTER of Georgia.
H.R. 6448: Ms. SEWELL.
H.R. 6654: Mr. GARAMENDI and Mr. NUGUEZ.
Congress has the power to enact this legislation pursuant to the following:
Section 8 of Article I of the Constitution
By Ms. STRICKLAND:
H.R. 8452.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8
By Mrs. WAGNER:
H.R. 8453.
Congress has the power to enact this legislation pursuant to the following:
Article I, Section 8 of the Constitution of the United States
ADDITIONAL SPONSORS
Under clause 7 of rule XII, sponsors were added to public bills and resolutions, as follows:
H.R. 8444: Mr. THOMPSON of California.
H.R. 5008: Mr. PETERS.
H.R. 3517: Ms. WILD.
H.R. 3586: Mr. CORREA.
H.R. 3733: Ms. LURIA.

H.R. 5220: Ms. HOLUALAN.
H.R. 5344: Mr. PRICE of North Carolina.
H.R. 5444: Mr. MCCOVEN.
H.R. 5536: Ms. SLOTKIN.
H.R. 5631: Mr. THOMPSON of California.
H.R. 5666: Mr. MALINOWSKI and Mr. LEVIN of California.
H.R. 5743: Mr. FALLON.
H.R. 5761: Ms. KUSTER.
H.R. 6117: Mr. COURTNEY and Ms. BROWN of Ohio.
H.R. 6136: Mr. CARTER of Louisiana.
H.R. 6161: Mr. SWALWELL.
H.R. 6430: Mr. CARTER of Georgia.
H.R. 6448: Ms. SEWELL.
H.R. 6654: Mr. GARAMENDI and Mr. NUGUEZ.
The Senate met at 10 a.m. and was called to order by the Honorable BEN RAY LUJÁN, a Senator from the State of New Mexico.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal Redeemer, answer us in seasons of trouble. Send us Your help from Your sacred hills. Our souls long for You, for we find strength and joy in Your presence. Lord, increase our faith, and teach us to trust You even during life’s storms.

When our Senators endure dark nights of the soul, enable them to find strength in Your presence. May they claim Your promise that You will never leave or forsake them and that nothing can separate them from Your love. Help them seek in every undertaking to know and do Your will.

We pray in Your sovereign Name. Amen.

PLEDGE OF ALLEGIANCE

The Presiding Officer led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. LEAHY).

The senior assistant legislative clerk read the following letter:

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable BEN RAY LUJÁN, a Senator from the State of New Mexico, to perform the duties of the Chair.

PATRICK J. LEAHY, President pro tempore.

Mr. LUJÁN thereupon assumed the Chair as Acting President pro tempore.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to executive session to resume consideration of the following nomination, which the clerk will report.

The senior assistant legislative clerk read the nomination of Gregory Brian Williams, of Delaware, to be United States District Judge for the District of Delaware.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

DISCLOSE ACT

Mr. McCONNELL. Mr. President, today, with our country facing an inflation crisis, a violent crime crisis, and a functionally open southern border, our Democratic colleagues are choosing to focus on chilling Americans’ First Amendment rights and enabling more harassment of citizens for their private views.

Way back in 1958, the NAACP fought Alabama’s attorney general, a segregationist Democrat, all the way to the Supreme Court to defend the bedrock American liberty of associational privacy—associational privacy. Here is what Justice Harlan said for the majority back then:

Inviolability of privacy in group association may in many circumstances be indispensable to preservation of freedom of association, particularly where a group espouses dissident beliefs.

As the majority opinion put it, this was “hardly a novel exception,” even back in 1958. And yet, for most of my career, I have had to push back against Democrats’ repeated attempts to unlearn this fundamental constitutional lesson. I have repeatedly defended Americans’ right to join together and to voice their opinions.

Prior to McCain-Feingold, almost all money in politics ran through candidates and party committees. I warned that placing unconstitutional restrictions on speech in that bill was like putting a rock on Jell-O—it wouldn’t quash political speech; it would just displace it. And the Supreme Court has consistently reaffirmed that point in case after case, upholding free speech.

Our Democratic colleagues’ obsession with regulating political speech is what created the environment they now disprove of. It is what drove support for McCain-Feingold, and it is what spawned this perennial bill in 2010.

Democrats want to pass a law that puts discourse in the hands of the mob. But needless to say, they haven’t always been very concerned with compelling disclosure using laws on the books.

Existing law already requires disclosure of donations to PACs and other outside groups with the intention of influencing Federal elections. But even as our colleagues have introduced successive versions of the DISCLOSE Act, enterprising activist liberals have taken it upon themselves to name and shame conservatives by “outing” their...
private contributions illegally. It was practically administration policy during the Obama-Biden IRS.

And for those keeping score, Washington Democrats never seemed as eager to publicize the donor rolls of groups they view as enemies of their policy agenda as of late. There’s no telling how much it happens, or who knows what. Somehow, donor privacy for organizations pursuing liberal causes is sacrosanct, but donor privacy for groups with conservative beliefs is a threat to democracy.

Somehow, work for outside groups is practically a prerequisite for a West Wing job under a Democratic President, but association with groups Democrats don’t like is a one-way ticket to picketing and harassment. Sixty-four years ago, the Supreme Court said the link between freedom of association and the freedom of speech was “beyond debate.” But today’s Democratic Party wants to make sure the threat to associational privacy is every bit as real—as real—as it was in 1958.

The plain and clear: every enviable groups like the ACLU have joined the NAACP and Senate Republicans in continuing to sound the alarm—ACLU, NAACP, and Senate Republicans aligned, sounding the alarm. They have been working together to fight state level public disclosure laws all the way to the Supreme Court.

Last year, the Court sided with those advocates to strike down predatory disclosure practices out in California. Earlier this month, the Ninth Circuit did the same to an unconstitutionally vague disclosure law out in Montana.

Meanwhile, the Federal judiciary itself is contending with particularly outrageous threats from the radical left to the privacy and security of the judges themselves and their families.

The same liberal groups stoking mob intimidation outside the homes of Supreme Court Justices are the ones most eager to put out private citizens’ political association records they envision for our country. They are having trouble getting enough Senators to agree to make the most reliable and abundant forms of American energy more expensive for working Americans.

Energy prices are rising faster than at any point since 1980. Gasoline is nearly 60 percent more expensive than it was last summer. Natural gas is up nearly 40 percent in the same time frame.

Washington Democrats have surveyed this scene and decided it is the perfect time—perfect time—to hike taxes on American energy, reviving a failed tax from the 1980s on American oil refineries and exporters and—listen to this—increasing it by nearly 60 percent, new sky-high fees on American natural gas producers and more pain at the pump for working families. It is an insane proposition.

But they appear to be an exception. If you are not among the 75 percent of Americans who say inflation has caused you financial hardship, and you happen to have a spare $80,000 lying around, Washington Democrats want to give you a green energy tax credit if you buy an electric vehicle made with Chinese supply chains. This is what Washington Democrats are trying to do with their one-party control of government, and they are hoping President Biden will declare a national emergency to help them do it faster.

Well, unfortunately for the far left, the President is occupied with a climate conundrum of his own. On the campaign trail, Candidate Biden left no doubt he thought his party’s radical climate dogma, whole hog. This is what he said back then:

“I guarantee you we are going to end fossil fuel.”

“End fossil fuel.” Sure enough, his first 100 days were an all-out assault on American energy, just like green activists drew it up—day 1 bans on energy exploration; canceling a safe, efficient pipeline that was set to create American jobs; and ghoulish, reanimated regulations from the War on Coal.

But unlike the radical base that is frustrated their ideas aren’t moving faster, the Biden administration now appears to be concerned that their assault on American energy has actually worked too quickly.

Americans have seen gas prices double on this President’s watch. Sky-high diesel is driving other prices up all across the country, and big majorities don’t like it. And I’ve heard from what? American Democrats are doing about it. But rather than call off the onslaught and clear the way for a return to domestic energy dominance, the Biden administration has dispatched officials to beg other countries to take over America’s share of the market for reliable energy that the President has purposely abandoned. They have literally chased places like Venezuela over States like Pennsylvania or Texas or Alaska.

Then, on a trip to oil-rich Saudi Arabia, President Biden announced that “I’m doing all I can to increase [oil] supply for the United States of America.”

“The President who promised he would end fossil fuels,” thinks that finding more energy for American families means flying to the Middle East and asking politely instead of unleashing our own production right here at home.

And for the record, U.S. producers extract oil and gas in a far, far more environmentally friendly manner than many of their competitors overseas. So if the priority is reducing our environmental impact, outsourcing seems more than a little bit shortsighted.

So, Mr. President, if the Biden administration really is serious about helping American consumers, then they will stop waging war on American producers. If they are serious, they will call off Democrats’ plan to tax reliable American energy into extinction.

For the sake of working families who are struggling to fill their gas tanks and keep the lights on, I hope they get serious sometime soon.

NATO

Mr. President, on yet another matter, yesterday, a day after the House overwhelmingly passed a resolution welcoming Finland and Sweden’s application to join NATO, the Senate Foreign Relations Committee discharged the treaty protocols required to ratify their accession, without objection. I am grateful to Ranking Member Risch, Chairman Menendez, and our colleagues on the committee for taking this swift, bipartisan action. The Senate is now one step closer to fulfilling its role in a historic process that will further strengthen the most successful military alliance the world has ever seen.

Bringing these strong, modern countries into NATO will not just strengthen the alliance; it will make America more secure. I hope the Democratic leader will waste no time—none—in bringing these protocols before the full Senate.

I have been a strong advocate for American global leadership and our transatlantic partnerships throughout my career. They have made possible the unprecedented era of peace and prosperity Americans have experienced in my lifetime.

NATO is at its best when allies share the burden of our collective security, when we all have skin in the game. NATO allies recognized in 2014, after prodding by American Presidents from both parties, that they needed to invest more in capabilities to keep pace with growing threats.

During the previous administration, current member states made progress toward the 2-percent pledge. Finland, for its part, already spends 2 percent of its GDP on defense, and Sweden has the same target in its sights. For years, both countries have participated actively in NATO exercises. They have cultivated professional fighting forces, invested in cutting-edge interoperable technologies, and built robust military-industrial bases with strong connections to our own.

I know from my own conversation with the leaders of Finland and Sweden that they are sober about the threats we face, committed to building their own defense capabilities, and serious about their responsibilities to contribute to our collective security. Together, they have set an example that many current treaty allies would do well to follow.

Mr. President, on yet another matter, a day after the House overwhelmingly passed a resolution welcoming Finland and Sweden’s application to join NATO, the Senate Foreign Relations Committee discharged the treaty protocols required to ratify their accession, without objection. I am grateful to Ranking Member Risch, Chairman Menendez, and our colleagues on the committee for taking this swift, bipartisan action. The Senate is now one step closer to fulfilling its role in a historic process that will further strengthen the most successful military alliance the world has ever seen.

Bringing these strong, modern countries into NATO will not just strengthen the alliance; it will make America more secure. I hope the Democratic leader will waste no time—none—in bringing these protocols before the full Senate.

I have been a strong advocate for American global leadership and our transatlantic partnerships throughout my career. They have made possible the unprecedented era of peace and prosperity Americans have experienced in my lifetime.

NATO is at its best when allies share the burden of our collective security, when we all have skin in the game. NATO allies recognized in 2014, after prodding by American Presidents from both parties, that they needed to invest more in capabilities to keep pace with growing threats.

During the previous administration, current member states made progress toward the 2-percent pledge. Finland, for its part, already spends 2 percent of its GDP on defense, and Sweden has the same target in its sights. For years, both countries have participated actively in NATO exercises. They have cultivated professional fighting forces, invested in cutting-edge interoperable technologies, and built robust military-industrial bases with strong connections to our own.

I know from my own conversation with the leaders of Finland and Sweden that they are sober about the threats we face, committed to building their own defense capabilities, and serious about their responsibilities to contribute to our collective security. Together, they have set an example that many current treaty allies would do well to follow.
With Finland and Sweden at the table, I look forward to important deliberations about the capabilities we need as an alliance and the steps we must urgently take to defend ourselves against growing threats from Russia, China, and proliferating non-state actors.

Mr. President, I know from my visits with our Swedish and Finnish friends that they hope for rapid accession to NATO. They are ready to get to work alongside us as allies. With war raging on the European continent, I share their urgency and, and I urge the Democratic leader to call up the necessary Senate votes without further delay.

But that can't be the Senate's last word on how America and our allies face down a dangerous world. We also need to take urgent action on the National Defense Authorization Act. Russia is laying siege to a sovereign neighbor. China is flexing a rapidly modernizing military. Reckless pariah states like Iran and North Korea are doubling down on developing dangerous weapons. It is past time—past time—to take America's own defense requirements more seriously.

I support the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. SCHUMER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

RESPECT FOR MARRIAGE ACT

Mr. SCHUMER. Mr. President, before I begin, I want to say something about the House-passed Respect for Marriage Act, which would enshrine marriage equality into Federal law, which I fully and strongly support.

This is so important. I was really impressed by how much bipartisan support it got in the House. It passed 267 to 157. Forty-seven Republicans—about a quarter, a little less than a quarter of their caucus; maybe a fifth—voted for the bill. The legislation is so important.

I spoke to Senator BALDWIN, who is one of the leaders of this legislation in the Senate, this morning, and she is talking to Republicans to see where the support is. I want to bring this bill to the Floor, and we are working to get the necessary Senate Republican support to ensure it would pass.

CHIPS ACT

Madam President, now on the chips bill, last night, the Senate passed a critical chip bill. One way to pass major legislation to lower costs, increase manufacturing, strengthen supply chains, and preserve American competitiveness in the 21st century.

I want everyone to note the final margin of last night's vote: 64 to 34. That is a clear signal that after a lot of hard work and after a lot of compromise from both sides, the path is clear for this chips-plus bill to reach final passage. This has been bipartisan work in the Senate at its best, just as we saw previously with bills ranging from gun safety to hate crimes, to infrastructure, to VAWA and so much more.

I thank my colleagues on both sides of the aisle for voting in favor of moving forward on this critical bill.

For the information of all, today I plan to file cloture on this legislation, which after last night's vote includes incentives for domestic microchip production, including JTC; support for our wireless communication supply chain, ORAN; and the science package, which includes many of the provisions I authored in the Endless Frontier Act in partnership with Senator YOUNG 2 years ago. It has been a long struggle to get these vital pieces of legislation moving forward, and now they are.

I hope we can get this legislation approved as soon as possible because now it is clear it has enough support to pass this Chamber.

For all the many good things the bill does, the most important is that this legislation will help our country fight inflation in the long run. People are seeing the strain they should. This bill will help. America's chip shortage, exacerbated by the pandemic, has sent tremors across the entire economy and caused prices for all sorts of electronic goods to go up and up and up. Computers, cars, appliances, phones. But with this bill, we can make America a major chip producer once again, which will help ease pressures on our supply chains, strengthen our national security, and generate another wave of American economic activity for years to come.

Thanks to last night's robust vote, we will also move forward on the science provisions that many of us have worked hard to pass into law. We will increase funding for the National Science Foundation and invest billions to develop new tech hubs around the country in areas that haven't had the benefit of new tech employment. This will all help America lead in developing technologies of tomorrow. Many more dollars than ever before are going into the cutting-edge technologies—AI, advanced manufacturing, renewable energy, quantum computing, cyber security. Why? So we can win.

When we invest in the science here, we create millions of new, good-paying jobs and ensure that America will be the leader in these cutting-edge issues, which will dominate the 21st-century economy.

For the sake of lowering costs, for the sake of American jobs, and for the sake of our national security interests, let's pass this bill as soon as we can. And that is my intention.

PRESCRIPTION DRUG COSTS

Madam President, now on prescription drugs, one of the hot topics in the Senate. We have to address the issue head-on.

With inflation undeniably continues to rise, with premiums from spiking for tens of millions of people.

In addition, there is an inflation reality so that once the company announces the price of a new drug, they can't just double it and double it and double it year after year, even after they have recouped their investment in the bill.

Lowering costs of prescription drugs, capping out-of-pocket expenses, keeping premiums low—these are the top priorities for the American people. Ask any American on the street, and it is a near guarantee they will agree that rising drug costs is a serious problem.

So we have to address the issue head-on.

Now, of course, Democrats will keep working on other major challenges that face our Nation. Our work on climate change is not done. We are going to work with President Biden's administration to fight climate change and protect our planet for the next generation. This is an existential threat to the globe, and we are going to keep fighting.

So, in the coming weeks, our caucus is going to be exceedingly busy as we finalize a reconciliation bill that can pass with the full support of our caucus. We still have work to do. Nobody says it is going to be simple or easy, but lowering the costs of healthcare and prescription drugs will make an enormous difference in the lives of the American people. Let's get it done and give Americans a much needed and long-awaited break.

TUCKER CARLSON

Mr. President, finally, on Tucker Carlson, FOX News. Last night, FOX
News host Tucker Carlson began his prime time show with another de- 

danged rant on the conspiracy theory known as the “great replacement.” This racist theory, which asserts that a 

conspiracy exists to replace White Americans with immigrants and people of color, motivated a White supremacist to gun down 10 Black Americans in a grocery store in my home State of New York, in Buffalo, just over 2 

months ago. 

He blamed Mr. CARLson said last 

night, among many deranged things. 

These are his words:

Sometime around 1965, our leaders stopped 

recognizing American citizenship for 

people of color. Without objection, it 

is so ordered.

NATIONAL DEFENSE AUTHORIZATION ACT

Mr. THUNE. Mr. President, one of the 

most important bills that we take up 

every year is the National Defense 

Authorization Act or NDAA. This legis-

lation authorizes funding for our mili-

tary men and women and the defense of 

our country.

The Senate Armed Services Com-

mittee passed this year’s bipartisan 

bill a month ago, and we have less than 

2 months of floor time left in the fiscal 

year.

The Senate Democrats’ focus this 

month has been to pass some version of their Build Back Better 

tax-and-spending spree in hopes, I have to assume, of eking out a few 

more votes in November. Apparently, 

the National Defense Authorization Act will just have to wait.

As it does every year, this year’s 

NDAA authorizes funding for critical 

military priorities. The fiscal year 2023 

NDAA continues the modernization ef-

forts begun several years ago in the 

wake of the 2018 National Defense 

Strategy Commission report, which 

warned that our Nation’s readiness had 

eroded to the point where we might 

struggle to win a war against a major 

power like Russia or China.

It authorizes funding to improve 

quality of life for our military mem-

bers and their families, which is not 

only something we owe these men and 

women who sacrifice so much for us 

but is also essential for recruiting and 

retaining members of our all-volunteer 

force. It also enhances our national 

deterrence, a key priority with continued nuclear threats from 

traditional powers like Russia and 

rogue states like Iran and North Korea. 

And it continues our strong support 

for Ukraine, which now dominates every front page, but for 5 

months now, Ukraine has been fighting 

a heroic war against Russian aggres-

sion. Thanks to support from allies in 

Europe and from our own country, 

Ukraine is still holding out. In a war 

that many experts thought could see 

Kiev fall within a matter of days, 

Ukraine is approaching day 150 of re-

isting Vladimir Putin’s Soviet-style 

aggression. In fact, Ukraine continues 

of striking blows against the 

Russian military, which has now 
turned to Iran for military support. 

Later today, Olena Zelenska, wife of 

Ukrainian President Zelenskyy, will 

be addressing Congress. She and her hus-

band have been a beacon for Ukrain-

ians during this brutal war; and Presi-

dent Zelenskyy’s iron determination, 

his tireless leadership, and his unflag-

ging commitment to his people inspire 

all those who love freedom. 

Ukraine is standing up for the whole 

free world right now, sending the message that Russia’s 

unprovoked aggression will not be 

allowed to stand. And the least we 

and other free nations can do is ensure 

they have the resources they need to 

carry out their fight. Russia’s war 

against Ukraine reminds us that na-

tions that value freedom and security must stand 

together.

Finland and Sweden are looking to 

stand up against Russian aggression by join-

ing the NATO alliance. Vladimir Putin 

has turned the historic positions of 

neutrality in Finland and Sweden into 

robust public support to join the alli-

ance, and both of these countries will strengthen the capabilities and 

geopolitical position of NATO.

Yesterday, the Senate Committee on 

Foreign Relations reported the treaty 

concerning their accession to NATO, 

and the Senate next week will vote 

to give them the authority for the Secretary of Defense to sign 

funding for the B-1 bomber leveraging 

the Joint Air-to-Surface Standoff Missile and its Long 

Range Anti-Ship Missile derivative.

As we look to the future, I am work-

ing to ensure the base continues to 

receive full funding for the many equip-

ments and supportfacilities will be 

needed for the B-21 Raider mission at 

Ellsworth. I worked to ensure full fund-

ing for the first of these facilities in 

last year’s NDAA, including a low-ob-

servable coating restoration facility, a 

new maintenance hangar, and an ex-

panded flight simulator facility, and 

more.

This year’s NDAA continues to 

work with additional funding for the 

low-observable coating restoration fa-

cility, as well as funding for two addi-

tional construction projects—a weap-

ons generation facility and a radio fre-

quency facility—that will be needed to 

ensure Ellsworth is fully able to con-

duct the nuclear and stealth B-21 mis-

sions.

I have had the privilege of visiting 

the B-21 production site in Palmdale, 

CA. And while the program remains 

heavily classified, I can say the six 

planes under production are impressive 

evidence of American ingenuity. As 

we are honored that South Dakota will 

be the first State to host the mission. 

But it is not just about the hardware 

and cutting-edge systems. Our greatest 

asset is our people, including the pi-

lots, the maintainers, and all of the 

men and women who have answered 

the call to serve. That is why I am focused 

on ensuring our men and women in uni-

iform have not just the military sup-

port they need but the support they 

need for their families.

Men and military families will be 

moving into the Ellsworth area with 

the arrival of the B-21 mission—as many as 

250 people per year, including 100 de-

pendents. I am committed to ensuring 

that the infrastructure is in place to 

provide ample facilities for these fami-

lies.

To that end, I worked to include in 

this year’s NDAA an extension of an 

authority for the Secretary of Defense 

to allow funding for housing rates if an installation is experienc-

ing a sudden increase in the number of 

servicemembers assigned there. This 

will ensure that families at Ellsworth
and elsewhere will have the resources they need to secure appropriate accommodations.

I am also working to ensure that the Douglas School District is able to integrate and support Air Force members’ children and provide sufficient classroom space. NDAA would provide $15 million in impact aid for schools experiencing force structure changes like the anticipated growth at Ellsworth with the arrival of the B-21 mission.

I am grateful to Senator Rounds for his assistance getting this through the committee’s markup and to our State’s at-large Representative, Congressman Johnson, for his work to get it included in the House-passed bill. This expanded program should be a good first step to help ensure that Douglas School District is able to expand to meet the needs of new Ellsworth families.

The House of Representatives, to its credit, passed its version of the National Defense Authorization Act the other day. But, unfortunately, the House legislation’s total funding authorization is lower than the Senate bill’s number. That is a concern, not only because we have a lot of priorities to fund but because inflation is currently cutting into the military’s spending power.

Inflation affects American families and businesses, but it also has a serious effect on our Nation’s security. As prices rise across the economy, the military is able to do less with the dollars that it has and that can affect troop readiness and the military’s ability to keep up with needed programs and purchases, from weapons to vehicles to aircraft and ships.

It is essential that the final House and Senate bill include the Senate’s top-line funding number.

In his 1973 annual message to Congress, George Washington said:

There is a rank due to the United States among nations which will not be withheld or absolutely lost, by the reputation of weakness. If we desire to avoid insult, we must be able to repel it; if we desire to secure peace, one of the most powerful instruments of our rising prosperity, it must be known that we are at all times ready for war.

In other words, “Peace through strength.”

These words hold true in every age. The surest method of securing peace is ensuring we are prepared for war. As Russia’s unprovoked attack on Ukraine reminds us, there will always be nations who threaten peace and freedom. And the surest way to prevent these powers from debasing our freedom is to ensure that we present a powerful threat of our own, a credible deterrent that stops these nations and other bad actors from wanting to tangle with us.

There is no more a certain way to invite war than to be unprepared to meet the challenges and the dictators of the world.

The National Defense Authorization Act is one of the most essential pieces of legislation we take up each year because it helps ensure that our Nation is equipped to defend itself and to deter aggression.

I hope that the Democratic leadership will consider deferring its tax-and-spending plans to take up this important national security legislation in the near future.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from New Hampshire.

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that in addition to myself, both Senators GRASSLEY and CARPER be permitted to speak for up to 10 minutes each before the scheduled vote.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

TRIBUTE TO JEAN TOAL EISEN

Mrs. SHAHEEN. Mr. President, I come today to the floor to honor the current chair of the Senate Appropriations Subcommittee on Commerce, Justice, Science, and Related Agencies because I want to pay tribute to the clerk who has worked with me for the last 6 years but who has been in public service here for the Federal Government for 27 years, including 26 years of service in the U.S. Senate, and that is Jean Toal Eisen, who is going to be retiring from the Federal Government.

And Jean is along with two other members of the staff of the CJS Subcommittee, Blaise Sheridan and Michael Bednarczyk, as well as three members of my staff, Ariel Marshall, Janelle DiLuccia, and Chad Kreikemeier, my chief of staff.

We are here because we think it is important, and I especially think it is important to recognize the people who make this body run. And it is people like Jean, who have dedicated their whole careers to this institution, who allow us to—mean that we can, on occasion, get things done that make a huge difference for the people of this country.

And I know I speak for all the members of the Appropriations Committee and its staff when I say that Jean will be sorely missed.

Just last week, as I looked at the breathtaking images captured from NASA’s James Webb telescope, I thought about Jean. It is no exaggeration to say that Jean exists, in no small part, because of her work on this subcommittee. And they serve as a fitting capstone for her distinguished career.

And, of course, then I thought about other ways that Jean’s influence will endure, ensuring millions of people will get access to broadband because of her work on the Infrastructure Investment and Jobs Act—and there were many late nights that she and other members of my staff and Senator COLLINS’ staff with the Commerce Department to try and ensure we could get those broadband sections done—and then also helping survivors of domestic violence, sexual assault, and child abuse receive access to critical services because of Jean’s successful efforts to release more resources from the Crime Victims Fund. In fact, every year that I have been chair of Commerce, Justice, and Science, Jean’s efforts have maximized funding in the Office of Violence Against Women so that each year over year we have done better.

She has also been there to ensure that the next generation of STEM innovators and leaders have access to crucial grants and investments in the National Science Foundation and NASA. And it is really appropriate that we are considering bipartisan chips innovation legislation on the floor this week. Jean’s last in the Senate, because she played a central role drafting and negotiating this critical legislation that will bolster American manufacturing and protect our national security interests.

And though Jean will no longer be in the Senate, her legacy is already felt everywhere, and the American people are better for it. Jean’s journey in the Senate began as a staff assistant for Senator Ernest Hollings of South Carolina, her home State Senator.

And, further, she served on the staff of the Senate Committee on Commerce, Science, and Transportation as senior advisor and deputy policy director for Chairman Dan Inouye, before serving as deputy policy director at the U.S. Department of Commerce.

And since 2010, she has served on the CJS Subcommittee, and from 2014 to 2017, she was the deputy staff director of the Senate Committee on Appropriations for Chair Barbara Mikulski, who I know if she were here would also be on the floor to sing Jean’s praises.

I have had the pleasure of having Jean as my clerk since 2017, when I took over the CJS Subcommittee as Vice Chair. And I think that words can’t capture this, but I would be doing a disservice to this body if I didn’t try to give a sense of why Jean is one of the most effective staffers on Capitol Hill.

And I think the first thing to know is that Jean always gives you the truth—whether you want to hear it or not. The second thing to know about her is that she always has a sense of humor, even when the going gets tough, and all of us who have been here through tough challenges know that maintaining a sense of humor is absolutely critical.

Her colleagues will remember her as incredibly knowledgeable, kind, and pragmatic because, at heart, Jean is a problem-solver. She understands that the U.S. Government is one of the most impressive institutions the world has ever seen, and she has dedicated her career to improving it.

Jean is also the proud mom of her daughter Pat, who is a rising sophomore, and is, among other things, a saxophonist in the school’s “Stampede” Athletic Pep Band.
Now that she is no longer drafting annual appropriations bills, we hope that Jean will have more quality time to spend with Pat, with her husband Pete, and with her many family members and friends and maybe even a little more time for hockey and gardening. And if you doubt that even Jean supports hockey, she really needs to support the Bruins, so we are not sure how much time we want to give her for that.

But it gives me great joy to publicly thank Jean for her extraordinary work for this committee. Congratulations, Jean. Thank you for your decades of service to our country and your commitment to the U.S. Senate. Neither your expertise nor your good humor will soon be replaced, but your work will not be forgotten anytime soon.

I yield the floor.

Mr. HAGERTY. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CARPER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

NOMINATION OF GREGORY BRIAN WILLIAMS

Mr. CARPER. Mr. President, today I have the honor to rise in support of Greg Williams to serve as a judge on the U.S. District Court for the District of Delaware, one of the busiest and, we believe, most important district courts in our Nation.

Before delving into what makes Delaware’s district court such an essential part of the American economy and what makes Greg Williams an exceptional nominee to serve, in the words of the American Bar Association, they deem him “well qualified” to be a Federal judge.

I want to share some background and the process that we use in Delaware for making recommendations to the Federal bench to the President.

A few years ago my friend—and I call him my wingman—Senator CHRIS COONS and I had the opportunity to make recommendations to the White House for two vacancies on this same court. There was, at the time, a President of a different party, and the majority was on the other side, not on this side at that time.

Our process was simple then and was straightforward and borrowed heavily from the process that I used while serving as Governor of Delaware for 8 years. Throughout those 8 years when I was privileged to serve as Governor, we relied on a judicial nominating commission and charged them with a simple task. Basically, this was it: find the most qualified individuals, regardless of political party, make recommendations for appointment to Delaware’s many important State courts, including our State supreme court and the court of chancery.

We used a similar process for Federal district court vacancies. The process served Delaware well during those 8 years, and I believe that the process Senator COONS and I have used now serves our Nation well too, regardless of which political party controls the White House.

It has yielded yet another extraordinary nominee. That nominee is Greg Williams, a partner at Fox Rothschild. Former president of the Delaware State Bar Association and President of the Delaware Bar Foundation, he is the next judge on the U.S. District Court for Delaware.

But Greg is more than a lawyer, much more. He is a father, a husband, a son, and a brother. In fact, he is the youngest brother in his family of five, with four older sisters, and I know they help to keep him on the straight and narrow much like my older sister did with me.

Greg has been married to his high school sweetheart, Terina, for 27 years. Together, they have raised two children in Delaware that any one of us would be proud to call our own. A Villanova Law School graduate, Greg has worked at one of top law firms in the Nation, Fox Rothschild, for the past 28 years.

Through hard work and commitment to excellence, in 2003, Greg became the first African-American attorney to have been hired as an associate and then become a partner at Fox Rothschild. Greg learned those values—hard work and commitment to excellence—in part as a member of the U.S. Army Reserves, where he served from 1986 to 1994—part of those years when I was his commander in chief as Governor of the State of Delaware.

After law school, Greg embarked on a successful legal career that has earned him the respect and admiration of Delaware’s highly regarded legal community.

Greg has particular expertise in intellectual property and business litigation, which make him particularly well-suited for the Delaware District Court.

More than his professional qualifications, though, Greg is the personification of the Golden Rule, which calls on us to treat one another the way we want to be treated. And, as a result, he is also the personification of judicial temperament in that courtroom—and any courtroom, for that matter.

Like Senator COONS and me and many of our colleagues, Greg is a person of deep faith. He understands personally the words “Golden Rule” and what they mean. And if confirmed, I believe he will use that rule to guide him on the bench.

Let me close by saying this: We have all probably heard a saying that is oftentimes used in relationship to an undersized boxer—someone who punches above his weight. The Delaware District Court is one of the busiest courts in our country. It handles an array of cases related to intellectual property law, patent law, bankruptcy law, and other specialized business cases that are critical to the functioning of our national economy.

Like our small State, this court punches above its weight, and our nominee Greg Williams not only has the credentials and the temperament, but the strong work ethic that are necessary for this court to continue to function as one of the most important district courts in our land.

I consider it a privilege to give him my strongest possible endorsement, and I encourage my colleagues to join Senator COONS and me today in supporting his nomination on the Senate floor.

And with that, I don’t see if—I don’t know that our colleague—here comes Senator COONS, here to speak on behalf of this nominee as well.

I will just say this: You know, we have judicial nominees come before us, not every day but often in this body. In some cases, the folks who are from the State where that nominee hails, they know, have at least a passing knowledge of them, and have maybe met them.

We have known Greg Williams for almost a quarter of a century. He is not just one of the finest lawyers in our State; he is one of the finest human beings in our State.

It is an honor for me to join Senator COONS in suggesting his name to the Senate that will be before us in a moment, outstanding qualifications of the nominee, both suggesting to the President actually submitted that name now to the U.S. Senate for our consideration.

And with that, I am going to yield the floor. I see we have Senator Candice. I don’t know if he has the opportunity to—no, he is going to wait for a while.

I am going to just step right here. Senator COONS stopped just briefly. I think he is going to be right back on the floor; and, hopefully, he will be able to pick up right where I—I will do the handoff to my colleague from Delaware.

Mr. COONS. Mr. President, I ask unanimous consent for 1 minute of floor time to speak to the impending nomination.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. COONS. Mr. President, I would like to thank my colleague and senior Senator, my friend, Mr. TOM CARPER, who allows me to be his wingman here on the floor of the Senate and in our home State of Delaware.

I just wanted to briefly to the outstanding qualifications of the nominee that will be before us in a moment, Greg Williams of Delaware.

As a member of the Delaware Bar, as a member of the Judiciary Committee, I have joined my senior Senator, friend, and colleague in advancing this nomination, both suggesting to the President strongly that he would be an excellent next member of the important Federal bench in Delaware and
that he would represent our Nation well and contribute to our Federal judiciary, which is globally the gold standard for its capability, its independence, and its integrity.

Greg has practiced for decades in Delaware, high regard for our unique place in American corporate law, because of the quality and the competence of our bench, we handle an enormous number of patent cases, a significant number of corporate cases.

I don’t know if my colleague has mentioned one of the top-of-the-charts cases about to come to Delaware, but when you make a promise to purchase a company like—I don’t know, hypothetically, Twitter—and then the deal comes apart, that ends up in a Delaware court. Our Federal District Court and our Federal Bankruptcy Courts handle significant litigation.

Greg is someone who also, as a family man, as a person of faith, as an outstanding leader in our community, as the past president of the bar association, as the past chairman of the judicial nominating commission on behalf of our Governor, he has served our community.

He brings his heart, his values, his intellect, and his skill to his service each and every day, and I am honored to join my senior Senator in speaking on his behalf on the floor. And I look forward to working with my colleagues across the aisle to ensure a swift confirmation vote today.

I yield the floor.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore, The clerk will call the roll.

The senior assistant executive clerk proceeded to call the roll.

Mr. GRASSLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

PRESCRIPTION DRUG COSTS

Mr. GRASSLEY. Mr. President, I am hearing a lot of news reports, and if they are correct, it sounds like the majority party has a very partisan bill that they want to call a drug pricing bill.

And I am also told that this is moving along because it looks like the Parliamentarian is currently reviewing that proposed legislation to see if it fits into the process of reconciliation.

If the majority party passes its partisan bill, it will be bad policy for patients and taxpayers, but that doesn’t mean we don’t have answers to the problems that they are trying to solve.

But first of all, let me say what the Senate-proposed legislation—what we know about it—would do. It would put taxpayers at risk for more spending. It would fail to enact any bipartisan accountability of Big Pharma and powerful middlemen that we call pharmacy benefit managers or PBMs for short.

Yes, a bipartisan bill limiting pharmaceutical increases is possible. And there has been legislation developed in secret, with no markup or open debate.

Now, this partisan bill and this process are a far cry from bipartisan drug pricing ideas that I have developed over the past few years.

In the past 12 months alone, I have passed five bipartisan drug pricing bills out of committee that will lower prices and create more competition and hold Big Pharma and PBMs accountable.

In addition, I have a comprehensive bill to lower prescription drug prices that could pass the Senate with at least 60 votes. My bill is bipartisan; it has been negotiated; and it is comprehensive.

The bill is called the Prescription Drug Pricing Reduction Act. It is also known as Grassley-Wyden, but, I want to be fair to Wyden. I am not sure that he would claim that he negotiated that bill, but I still like the bipartisan part of it.

The Senate should act today on this bipartisan bill to lower drug prices because this is what Grassley-Wyden would do: It would lower costs for seniors by $72 billion. It would save the taxpayers $95 billion. Those are CBO figures.

It establishes an out-of-pocket cap, eliminates the donut hole, and it redesigns Medicare Part D, that needs some redesigning after 19 years. This legislation will hold Big Pharma and powerful PBMs accountable.

Now, too often, cheaper alternatives like generics are available, but Big Pharma and these middlemen have an incentive to push the patient into higher-cost drugs, and patients pay the cost. My bill ends that incentive and is very pro-consumer.

A third point I want to make, it ends taxpayer subsidies to Big Pharma. It does it by capping annual price increases of Medicare Part B and D drugs at inflation. In other words, drug companies can’t raise prices two or three times a year 5 to 10 percent—once a year at no more than CPI.

A Kaiser Foundation study found that half of the drugs in Medicare Part B and D increased higher than inflation over the period of time that Kaiser studied covered. Over 600 drugs during the study increased 7.5 percent or more.

Another point of the bill: It establishes accountability and transparency. There are 25 major provisions to my bill to reform how the pharmaceutical industry operates.

Accountability in my bill includes, one, ending clawbacks that drive up costs at pharmacy counters for the patient. Second, ending ‘spread pricing’ in Medicaid contracts that drive up taxpayers’ costs. Third, requiring sunshine on powerful PBM financial audits so the public knows the true net cost of a drug.

Everything with PBMs is opaque. You don’t know what goes on between the manufacturer and the consumer.

And, four and lastly, requires sunshine on excessive drug price increases and sunshine on the launch price of a new high-cost drug.

Big Pharma and powerful middlemen benefit from the current system that we have today, and at the same time, patients and taxpayers suffer. My bill’s bipartisan reform will change all of that.

Finally, the bill is bipartisan. I suppose Democrats get tired of me talking about a bipartisan bill when they are in the secrecy of their rooms drawing up their own bill.

We have 11 Republicans who supported this bill in the Finance Committee markup or are cosponsors of the bill. Thirteen Democrats supported this bill in markup. It was debated and negotiated in public.

But don’t take my word for it, take it from some of my Democratic colleagues. A few months ago, the senior Senator from Delaware said this:

To Wyden. I am not sure that he would claim that he negotiated that bill, but I still like the bipartisan part of it.

The Senate should act today on this bipartisan bill to lower drug prices because this is what Grassley-Wyden would do: It would lower costs for seniors by $72 billion. It would save the taxpayers $95 billion. Those are CBO figures.

It establishes an out-of-pocket cap, eliminates the donut hole, and it redesigns Medicare Part D, that needs some redesigning after 19 years. This legislation will hold Big Pharma and powerful PBMs accountable.

Now, too often, cheaper alternatives like generics are available, but Big Pharma and these middlemen have an incentive to push the patient into higher-cost drugs, and patients pay the cost. My bill ends that incentive and is very pro-consumer.

A third point I want to make, it ends taxpayer subsidies to Big Pharma. It does it by capping annual price increases of Medicare Part B and D drugs at inflation. In other words, drug companies can’t raise prices two or three times a year 5 to 10 percent—once a year at no more than CPI.

A Kaiser Foundation study found that half of the drugs in Medicare Part B and D increased higher than inflation over the period of time that Kaiser studied covered. Over 600 drugs during the study increased 7.5 percent or more.

Another point of the bill: It establishes accountability and transparency. There are 25 major provisions to my bill to reform how the pharmaceutical industry operates.

Accountability in my bill includes, one, ending clawbacks that drive up costs at pharmacy counters for the patient. Second, ending ‘spread pricing’ in Medicaid contracts that drive up taxpayers’ costs. Third, requiring sunshine on powerful PBM financial audits so the public knows the true net cost of a drug.

Everything with PBMs is opaque. You don’t know what goes on between the manufacturer and the consumer.

And, four and lastly, requires sunshine on excessive drug price increases and sunshine on the launch price of a new high-cost drug.

Big Pharma and powerful middlemen benefit from the current system that we have today, and at the same time, patients and taxpayers suffer. My bill’s bipartisan reform will change all of that.

Finally, the bill is bipartisan. I suppose Democrats get tired of me talking about a bipartisan bill when they are in the secrecy of their rooms drawing up their own bill.

We have 11 Republicans who supported this bill in the Finance Committee markup or are cosponsors of the bill. Thirteen Democrats supported this bill in markup. It was debated and negotiated in public.

But don’t take my word for it, take it from some of my Democratic colleagues. A few months ago, the senior Senator from Delaware said this:

Senator GRASSLEY did. I thought, a masterful job in drafting a bill with broad bipartisan support.

And the chairman of the Finance Committee and senior Senator from Oregon—and he is probably going to have to resort to this partisan reconciliation process. The Grassley Prescription Drug Pricing Reduction Act is a solution. It is a product of a bipartisan process. I will oppose that to the secrecy of the Democratic reconciliation process.

I yield the floor.

CLOTURE MOTION

The ACTING PRESIDENT pro tempore. Pursuant to the provisions of the CLOTURE MOTION Act the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The senior assistant executive clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the nomination of Executive Calendar No. 989, Gregory Brian Williams, of Delaware, to be United States District Judge for the District of Delaware.

Charles E. Schumer, Richard J. Durbin, Robert P. Casey, Jr., Sherrod Brown, Tammy Baldwin, Tina Smith, Jeanne Shaheen, Chris Van Hollen, Elizabeth Warren, Catherine Cortez Masto, Benjamin L. Cardin, Christopher Murphy, Maria Cantwell, Christopher A. Coons, Mike K. Honda, Jack Reed, Gary C. Peters, Tammy Duckworth.

The ACTING PRESIDENT pro tempore. By unanimous consent, the mandatory quorum call has been waived.
The question is, Is it the sense of the Senate that debate on the nomination of Gregory Brian Williams, of Delaware, to be United States District Judge for the District of Delaware, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The senior assistant executive clerk called the roll.

Mr. DURBIN. I announce that the Senator from Vermont (Mr. LEAHY), the Senator from Massachusetts (Mr. MARKEY), the Senator from Massachusetts (Ms. WARNEN), and the Senator from Rhode Island (Mr. WHITEHOUSE) are necessarily absent.

Mr. THUNE. The following Senator is necessarily absent: the Senator from Louisiana (Mr. KENNEDY).

The yeas and nays resulted—yeas 52, nays 43, as follows:

[Rollcall Vote No. 262 Ex.]

YEAS—52

Baldwin
Bennet
Blumenthal
Blunt
Booker
Brown
Cassidy
Ernst
Braun
Boozman
Blackburn
Barrasso
Feinstein
Durbin
Ossoff

The yeas and nays resulted—yeas 52, nays 43.

NAYS—43

Barasso
Blackburn
Boozman
Braun
Cassidy
Cortez Masto
Cryer
Collins
Coons
Cordova
Crapo
Cruz
Daines
Ernst
Fischer
Grassley
Hagerty

The PRESIDING OFFICER (Mr. WARNock). The yeas are 52, the nays are 43.

The motion is agreed to.

The PRESIDING OFFICER. The Senator from Maryland.

The remarks of Mr. CARDIN pertaining to the introduction of S. Res. 713 are printed in today’s RECORD under “Statements on Introduced Bills and Joint Resolutions.”

Mr. CARDIN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. WYDEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CHIPS ACT

Mr. WYDEN. Mr. President, our economy is as resilient as any in the world. At the same time, we know that it is important to always look to modernize key economic policies, particularly as it relates to fundamental questions of research and development and also production and manufacturing, in order to create high-skilled, high-wage jobs from sea to shining sea.

Now, I come from a State that is a leader in technological innovation not just for our country but for the world. Oregonians know how important it is to invest and make sure that the United States stays at the forefront of technological breakthroughs.

The reality is, when it comes to chips, we have some important work to do, so I want to take just a few minutes to describe why it is so essential for the Congress to get this legislation done now.

First and foremost, our bill is going to bring down costs for consumers and businesses. Everybody knows there are chips in laptops, phones, and cars, but there are also chips in refrigerators and even vacuum cleaners, as we saw at Stark’s in Southeast Portland recently.

From the time you pick your head up off your pillow until the time you go to bed at night, you are interacting with chips. That is what made it such an economic nightmare when the pandemic hit and lead the semiconductor supply got cut short. Prices for a host of important goods went into the stratosphere. Some products weren’t available at all. Factories in America went dark because they couldn’t get component parts. Anybody who has had to buy a car in the last few years probably can tell you a horror story about the buying process.

This legislation is going to go a long way to increasing the production and manufacturing of chips not just for our country but for the entire world, and bringing down consumer costs and addressing the shortages by increasing the supply here in America.

That leads to my second point. Investing in domestic chip production is going to create a huge, huge number of good-paying jobs. Oregonians know well that the jobs at these chipmakers can become an economic fuel for a whole region in the country. We need to guarantee that investment happens here in America instead of overseas.

Third, the bill is going to help shore up our national security and our economic security. With respect to the economy, when there aren’t enough chips to keep our factories running and our shelves stocked, workers and the American economic system suffer.

And when the vast majority of chips are produced in just a few sites overseas, there is a big risk that the United States won’t be able to get its hands on the chips needed to keep the American people safe.

I am a member of the Senate Select Committee on Intelligence. I can’t get involved in classified matters that I have some access to. But I want everybody in the Senate to know this is a top-tier national security issue. Producing more chips here at home means that our economy will be more resilient for the days ahead and our country will be safer and more secure.

One last comment on the short statement. The Senate passed a larger version of this bill last year, and it included a trade package that Senator CRAPO and I, our colleague from Idaho, worked together on. It focused on cracking down on China’s worst trade abuses, including the horrendous practice of forced labor, including proposals that went after authoritarian censorship overseas and a growing danger of freedom of speech here in America.

I also sought to update the system for job training and workers’ support, so key to our workers having access to high-skill, high-wage jobs. That trade package is not included in this slimmed-down version of the CHIPS legislation. I can promise you, as chairman of the Finance Committee, we will keep working on these issues.

Cracking down on trade cheats, fighting for investments and jobs in America is at the top of the priority list for the Finance Committee. I look forward to continuing our work on those issues in the weeks and months ahead.

This legislation is long overdue. It is a serious, fresh commitment to innovation in America. I am proud that I was able to lead the effort in the Senate Finance Committee to focus on producing and manufacturing more semiconductor manufacturers in America. It is hugely important for my State, which really does research and development for the entire country. But it is important for all Americans every single day because, from the time you get up in the morning until the time you go to bed at night, you are using these chips. This is, in my view, the first step of many that we have to take to promote more innovation and the path to creating high-skill and high-wage jobs in America.

Let’s take the first step with this important legislation. Pass this bill. I urge my colleagues to vote for it later when we get to the final vote.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming.

INFLATION

Mr. BARRASCO. Mr. President, I come to the floor today to talk about the economic crisis that this Nation is facing, all as a result of the actions of the Democrats and Joe Biden.

Right now, Joe Biden is on his way to Massachusetts. He is expected to announce, while he is there, even more restrictions on American energy. One New England Senator has lobbied him to go “executive Beast Mode.” The Senate might forget that we still have a Constitution. The Supreme Court ruled that the President can’t do that. The Constitution says Congress writes the laws and it is up to the President to enforce them.
I would also remind that Senator that Joe Biden just got back from a trip to the Middle East. That is where he went to beg the Saudis to produce and to sell us more oil. Joe Biden doesn’t need to fly around the world to solve the energy crisis that he created. The solution is right here in America. We have some of the largest energy reserves in the world. We have the best energy workers. We have the highest standards. Yet Joe Biden won’t let go of his stranglehold on American energy that would mean spending our money and more and more money to the Middle East than let us use the energy we have sitting right here in the ground in the United States.

Joe Biden has created the worst energy crisis for our country in the last 40 years—40 years. Gas prices today in my home State of Wyoming and all across the country are more than $2 per gallon higher than they were the day Joe Biden took office. Natural gas has tripled under Joe Biden and that means even higher prices are on the way. Natural gas powers half of the homes in America and the price of that natural gas has tripled under Joe Biden.

Ladies and Gentlemen, Joe Biden’s energy policies cost the average American family more than $1,000. That was last year. This year it is going to be higher than that. Higher energy costs are driving up the costs of everything—almost everything—because energy is such a vital part of our nation’s economy.

Higher energy costs have led to the worst inflation crisis in 40 years—worst inflation in 40 years. Under Joe Biden, inflation has hit record highs. In the previous administration, inflation was nearly nonexistent. But for 15 months in a row now, prices have gone up. And not just have prices gone up, they have gone up faster and faster than wages have gone up. With every passing month, the burden on the working families can afford less than they could the month before.

This is Joe Biden’s America. This is what he brought and the Democrats who supported him in position and policy after each, one after another.

This year, the average family will pay $100 a week more just to buy the same things they bought last year. Just to stay even, it is $100 a week more. That is over $5,000 for the year. One hundred dollars a week adds up very quickly. As a result, people are spending less because they are not making enough to keep up. They are falling behind. They are borrowing money just to get by.

The savings rate in the country has plummeted to the lowest level since the Great Recession of 2009. Credit card debts are at an all-time high because people can’t afford things and are putting things on the credit cards. Personal debt is at an all-time high. Consumer confidence, on the other hand, is at an all-time low—thank you, Joe Biden and Democrats.

Working families are being pushed to the breaking point. That is what we have here in America today. All told, it is the summer of strain and stress and suffering for American families. It is all happening because of the dereliction of duty on the part of the United States and the Democrats in this very body. The American people just want to be able to have enough money in their wallet to fill their tank with gas and to go to the grocery store and buy a full week’s worth of groceries and have enough left over at the end of the month to pay their bills. Yet for the last 15 months, the President and the Democrats, who are in charge of both the House and the Senate, this is becoming nearly impossible in America today.

Democrats call this the cost of the “liberal world order”—the liberal world order. Look what it is getting us. Believe it or not, that is exactly what the White House has said. That is their official policy on the cost of inflation and the cost of energy being so high: Tough; suck it up. Liberal world order. We don’t care what it costs you or what pain and suffering we put onto the families of this country.

Meanwhile, as the President is going to talk about his climate emergency in Massachusetts, baby formula is still out of stock in stores across America. For 15 months, there has been nothing but bad news coming from this administration and the Democrats for the working families in this country.

Last week, working families got a one-two punch of even more bad news. First, they found out that, once again, inflation is at another 40-year high. They also found out it is not going away any time soon. On Thursday, we found out that what is called wholesale inflation—which is the inflation that our producers are experiencing—is even worse than the inflation for consumers. These are the people who build our homes, who grow our food, keep the lights on. Higher costs for them mean higher costs for us. It is not good for American families because, if inflation—which is the inflation that our producers are experiencing—is even worse than the inflation for consumers, that means the inflation numbers we are using are out of date. That is what he told the American people. Well, remember the last time Joe Biden said inflation peaked? That was last year in December he said it peaked. What has happened over the last 15 months to this number? It is now July, and inflation has broken new records three more times in just the last 6 months.

Is he clueless? Does he believe what he is saying? And who is surrounding him at the White House? Joe Biden was wrong in December; he is wrong now. He has been wrong every step of the way, and yet Democrats blindly follow him right over the cliff.

First, he created the inflation crisis; then he denied it existed. Oh, then he said it was transitory. I think it was a year ago yesterday, he said it was transitory. Then at one point, the White House even said it was a good thing. It is not good for American families, not good for the men and women who go to work every day. Then Biden decided, let’s start blaming everyone but ourselves.

At every step of this crisis, Joe Biden has told the public things that were simply not true. Joe Biden keeps trying to downplay the pain and the suffering going on all across the country.

You are abandoning the people. You have abandoned them, and that is why so few people think the country is heading in the right direction, and so many people are looking for a change. Democrats don’t seem to care. They know they are attacks by this administration and the Democrats in this body on American energy. That is what is causing the price of everything from gas to groceries to hit one record high after another.

The Democrats have spent us into record-high inflation. Now it seems that they want to tax us into a recession. The last thing the American people now need is more spending, more taxes, more debt. What we need is more American energy.

The way to get out of this crisis is to stop the reckless spending and increase the supply of American energy. We don’t need to look halfway around the world for energy; we have it right here in this country. It is time for the President of the United States to stop berging, and it is time to start exploring for the energy right here in America.

I yield the floor.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. CARPER. Mr. President, I have had the privilege of serving with Senator BARRASSO. For any number of years good collaboration on personal level, we have, I think, a very personal level, we have, I think, a very
time to share the world with. Our administration of the United States to stop berging, and it is time to start exploring for the energy right here in America. The suggestion that somehow we can ensure that American families have access to lower prices at the pump by reducing our dependence on foreign oil and on fossil fuels. I want to say that again. In the long run, the best way we can ensure that American families have access to lower prices at the pump is by reducing our dependence on fossil fuels. Doing so isn’t just critical for protecting Americans from high energy costs; it is necessary for addressing the existential threat of climate change.

Make no mistake, the climate crisis is here. It is here. It is in Europe. It is in Asia. It is in South America. It is in Africa. It is all over the world.

We see climate change in the form of unprecedented drought. Seven drivers are driving wildfires across the Western United States that are bigger than my State. Currently, wildfires are battling, as I said, 89 large fires in 12 States, and it is only expected to get worse. According to the National Oceanic and Atmospheric Administration—we call them NOAA—the decades-long megadrought in the American West is not just persisting, it is intensifying and expanding east, worsening the threat of additional flooding.

We see climate change in the form of rising sea levels that produce waves able to wipe out homes on the coast of Hawaii just last weekend. This event is a real-life consequence of what experts have already told us: Sea levels are rising faster than they have in more than 3,000 years and are expected to rise by an additional foot by 2050.

We know this firsthand in Delaware. Delaware is the first State. The lowest-lying State in America is Delaware. Our State is sinking. The seas around us are rising.

Down in Louisiana, a big State in another part of the country, they are experiencing sea level rise as well. In the State of Louisiana, you know what, every 100 minutes—every 100 minutes—they lose a piece of land to the sea the size of a football field in Louisiana. I will say that again. Every 100 minutes in Louisiana, they lose a piece of land the size of a football field—every 100 minutes.

We see climate change in the form of sea levels rising all up and down the east coast, down to Florida, Gulf coast, east coast, west coast, everywhere.

The extreme weather is costing us. According to an analysis of data from NOAA and the global reinsurance company Munich Re, severe weather caused more than $121 billion—billion with a “b”—in property damage in the United States between 2017 and 2021—$121 billion. That is an average of about $940 million.
per household and business and didn’t take into account the property losses from the historic wildfires I have just been talking about.

We continue to see the destruction that accompanies climate change happen on a global scale as well, threatening the critical infrastructure we rely on for international trade. This week, I mentioned the record-breaking temperatures they are seeing in England and in Europe and in Germany and other places.

Most tragic of all, these climate-induced events are putting people’s lives at risk. Extreme heat is the leading cause of weather-related deaths in our country. According to NOAA, the 12 most costly extreme weather events in 2021 alone resulted in the deaths of nearly 700 people.

Addressing this crisis is the challenge of our time. It is directly tied to the prices we pay at the pump and in nearly every facet of our lives.

Instead of doubling down on policies that continue to fail American consumers and the planet, as some of our colleagues have been advocating for today, we should focus our attention on policies that will help us transition to a clean energy future and leaves no community behind in the process. It is our ticket to a brighter future and one without record-breaking heat waves, high gas prices, and unpredictable devastation.

Let me close with apologies to Stephen Stills. Stephen Stills is a great songwriter and singer with Buffalo Springfield, an iconic group. Long ago, he wrote a song that has these words: We have heard them a million times. It starts something like this: There is something happening here, (just) what it is ain’t exactly clear.

Those are his words, the opening line from one of the great songs of all time. Well, with apologies to Stephen Stills, I believe something is happening here, and it is exactly clear what is causing it. It is a climate crisis. We have way too much carbon in the air. We are producing more. That is the bad news.

Here is the good news: We can do something about it. We can do something about it. Part of it is—I will just close with this—30 percent of our carbon emissions in this Nation come from our cars, trucks, and vans—30 percent. And more of us are seeing automakers build cars, trucks, and vans that run not on gas and diesel but on electric. We are beginning to install literally thousands of charging stations all over the country to help provide an opportunity for people to charge their batteries and also to buy hydrogen, when we switch to hydrogen, for fuel cell vehicles. Those expansions and those investments will put literally hundreds of thousands of American workers who have done this before, and many more, who will do this as well, in every corner of the country, to enable us to reduce carbon emissions from our mobile fleet.

Instead of just burning coal and to some extent natural gas, we have the opportunity to create clean energy from advanced nuclear. I am a Navy guy, 27 years in the Navy all in. We have been doing nuclear energy in the Navy for many years. Do you know how many people have died in the Navy from exposure to radioactive materials? Zero. Fifty years—perfect record. We are now in the beginning of a new development and a new exploration in nuclear, including small modular nuclear reactors—a lot safer than the ones we have been building for years.

We are in a position now to have, literally, from Maine all the way down to Florida, offshore wind that creates enormous amounts of carbon-free electricity that we can use to charge our cars, trucks, and vans and actually put a lot of people to work building those windmills and doing good things for our planet.

The climate crisis is here. The question is, What do we do about it? And there is an opportunity to meet it head-on. And it is not like you got to eat your broccoli. No, no, no. This is something that we could actually not just do good things for our planet, help us avert greater disasters in the days going forward, we could actually create a lot of economic opportunity, a lot of jobs we can do that and we can do both. We need to do that. We need to do that.

I yield the floor to my friend from Texas, I think I will sit here and hear what he has to say.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CORNYN. Mr. President, while my friend, the Senator from Delaware, is on the floor, in Texas we are known for oil and gas production, but the truth is, and what I think we really should be known for, is for an “all of the above” energy policy.

We produce more electricity from wind turbines than any other State in the country, and that is a surprise to a number of people.

But one reason for an “all of the above” energy policy is that during the current hot spell we are experiencing in Texas—I think we have had over 33 days of over 100-degree temperatures in my hometown of Austin, TX. It is hot. Some might say: Well, of course it is hot. It is July in Texas. But what has happened, we have seen this phenomenon where we are not producing nearly as much electricity because it is not blowing as hard as it might otherwise do.

So, again, I think if we can encourage an “all of the above” energy policy, then different segments of the energy picture can fill in at different times and satisfy our overall need.

I thought while my friend was speaking on that topic I would just mention that interesting to note that we have learned here recently in Texas.

CHIPS ACT

Mr. President, last night, the Senate moved forward on the CHIPS Act. As colleagues have heard me talk about this before, this was actually filed in 2020.

Senator WARNER, the senior Senator from Virginia, a Democrat, and I, a Republican from Texas, introduced this bill more than 2 years ago.

The main concern was that our supply of microcircuits that run everything from our cell phones to our laptops, to F-35 Joint Strike Fighters—we depended on a vulnerable supply chain from Asia for those advanced semiconductors. The United States produces zero percent of the advanced semiconductors we need here in America.

And anybody who has tried to buy a car lately or even a washing machine or a laptop or a desktop computer knows that the supply chains of semiconductors, and thus these products, are severely constrained because our economy has taken off post-COVID-19, but the supply chains can’t keep up with demand and we need the supply of these semiconductors. So that is why this bill is so important.

Over the last several days, I have worked with colleagues on both sides of the aisle to craft a dramatically slimmed-down version of the competitiveness bill we passed here in the Senate last summer.

The final text of the bill was not released before the procedural vote last night, which was a point of frustration for a number of our colleagues, and I can certainly understand. Here they are, asked to vote on a procedural vehicle to get on this bill, and they don’t know exactly what the bill is going to look like. And that was the reason some of them decided to vote no against the motion to proceed. I completely understand that.

But our colleagues will have time to review this bill in the coming days, and I hope that support for this legislation will continue to grow. After all, it is a matter of our economic and national security.

The global semiconductor shortage has claimed a lot of attention over the last couple of years because of the impact it has had on consumers, but these aren’t existential threats; these are inconveniences because of these constrained supply chains.

If, for example, there was another pandemic or a natural disaster or if, Heaven forbid, the People’s Republic of China decided to forcibly unify with Taiwan, this could potentially block access to all of the advanced semiconductors that we need in America, and this would be a dramatic negative effect.

First of all, it would create almost instantaneously a recession here in America. Thousands of people would be put out of work. But what I want to focus on are the national security consequences.

When we send our troops on any mission—by air, land, sea, or cyber—we need the very best equipment and technology available. And now more than
ever, this technology cannot function without semiconductors, without these chips.

Just one example is, look at the Javelin missiles that we are sending over to Ukraine to defeat the Russian Federation invasion. Each one of these Javelin missiles that the Ukrainians are using to such good effect requires more than 200 semiconductors in just one Javelin missile, and so far we have sent 5,500 of them to Ukraine.

But it isn’t just these big items that need chips, it is things like the helmets that our fighter pilots use to fly and navigate; communications devices like radio sets to call in reinforcements to save American lives; smart hand-held cameras that attach to our troops’ gear that see around the corners to keep them out of harm’s way; and even advanced body armor uses semiconductors.

If we ever needed to deploy the full force of the U.S. military and ramp up production to replenish our supplies, we would need an astronomical number of semiconductor chips.

That is why bringing that manufacturing capacity back onshore, back home to America, is so important.

To them, big bipartisanship priority, as I said, for the last couple of years, and this isn’t the first time that semiconductors have been regarded as a matter of national security.

Interestingly, in the 1980s, it was a big priority for President Reagan. At that time, our country was up against the Soviet Union’s expansive military forces. President Reagan knew that maintaining our edge would be a result of smarter military systems, not just bigger ones or more of them.

As two national security and foreign policy experts from the University of Texas put it, “Reagan didn’t merely outspend the Soviets, he . . . sought to out-innovate them.”

He pushed to maintain our competitive edge in chips, thereby helping us lead in the advanced weapons and airframes that they enabled.

But this isn’t just about what happens tomorrow or 6 months from now; we are talking about safeguarding the developments that will underpin our national security in 10, 20, or 30 years. That is why so many people from diverse political viewpoints support this effort.

As we all remember, the CHIPS for America Act received broad bipartisan support when we first voted on it. It was adopted as an amendment to the annual Defense authorization bill by a vote of 96 to 4. Ninety-six percent of the U.S. Senate supported the bill.

Since it became law a year and a half ago, we have heard from a range of voices and stakeholders who don’t typically align.

For example, former USTR—U.S. Trade Representative—Robert Lighthizer, who served in the Trump administration, has been a vocal advocate for chips funding.

At a Senate Finance Committee meeting 2 years ago, he said semiconductors are a key part of our economy as well as the future of American security.

Biden officials have shared this same sentiment. The Secretaries of Defense and Commerce recently sent a letter to Congress urging swift passage of this chips funding, saying it is “an imperative to our national security.”

Countless organizations, experts, businesses, and industry groups have expressed the same point of view. Some of the most respected men and women in the national security world wrote a letter to Congress urging quick action on this funding. That group included a former Secretary of Defense, former CIA Director, and former Director of National Intelligence.

We have also heard from the National Governors Association and the U.S. Conference of Mayors, which represents State and local leaders across the country.

We have heard from groups that represent automakers, the defense industry, consumer electronics, and telecommunications companies as well.

Last month, a group of more than 120 tech CEOs called to congressional leaders urging quick action on this legislation.

It is rare, especially today, to have such a broad consensus from so many different perspectives on a single issue because in politics, but that is how important this legislation is.

I am optimistic about where we are at the moment after 2 long years of getting here, and I am glad Speaker Pelosi has said the House will take up the Senate bill as early as next week.

The bottom line is, there is a lot at stake here, and I hope we can deliver a major win for our national security in the coming days.

I yield the floor.

The PRESIDING OFFICER. The Senator from Kansas.

ENERGY POLICY

Mr. MARSHALL. Mr. President, well, summer is in full swing, and all across the Midwest, people are preparing for lake vacations, for family barbecues, but new to this year’s agenda, they are also preparing for Biden blackouts.

The shocking new inflation numbers show Americans already paying 42 percent more for energy than this time last year, but the White House policies, we may not be able to generate enough electricity to meet demand.

Now, let us not forget that under Republican leadership, we had a nation completely in control of our energy security. We were the global leader in energy production, and we were a net exporter of oil products.

However, under Democratic leadership, we are making plans for the lights to go out, and I hope everybody has their candles ready to go at home. But it isn’t this administration’s fault, of course, so just ask them—just ask them. No, this White House states they are powerless to the whims of a global marketplace, and don’t bother asking them to own the consequences of their actions.

If you could have predicted that half of all leasing on Federal lands would impact global supply? I even asked the Interior Secretary if this policy made it more difficult for oil companies to drill, and she couldn’t give me an answer. She didn’t care. This administration—incredibly—it can’t do the math.

And who could have predicted that John Kerry, Biden’s climate envoy at COP26, would cause private companies to take coal-powered plants offline and eliminate baseline without a plan going forward. After all, he said in Glasgow:

By 2030, in the United States, we won’t have coal. We will not have any coal plants.

Well, we may not have coal, but we will have blackouts.

And it was Joe Biden on the campaign trail, in his own words—I am saying all members—who said:

Kid, I want you to just take a look . . . I want you to look into my eyes. I guarantee you, we are going to end fossil fuels.

And we wonder why Americans won’t invest tens of millions—hundreds of millions—or dollars—in our energy sector to drill new oil. Yet this President has declared war on American energy, and even American is paying the price at the gas pump. And yet this President wonders out loud why companies won’t invest in American exploration when it takes 5 or 10 years for a payback on these types of investments.

He continues to create uncertainty.

It doesn’t have to be this way. Republicans have been sounding the alarm on the negative impacts of this administration’s policies since President Biden took office. Honestly, this should be surprising to no one. Yet the left seems confounded, stumped, and without a plan except to turn off your air conditioner and your freezer.

Even more, they have resorted to outright lies. In fact, they repeat these lies over and over, hoping America will eventually fall for them. They repeat outright lies—lies they are powerless to the whims of a global marketplace, and don’t bother asking them to own the consequences of their actions.

But it isn’t this administration’s fault, of course, so just ask them—just ask them. No, this White House states
Why else would he have gone overseas to Saudi Arabia to beg for more oil? Why is the White House reaching out to dictators in Venezuela or countries that sponsor terrorism like Iran instead of supporting American production in places like my home State of Kansas?

When I asked the Secretary of Energy in committee about the price of gas, she cheekily replied that she drives an electric vehicle. This is the same Secretary of Energy that laughed and said “chivalrous” when asked about her plan to increase oil production in America. That is how this administration responds to the pain of the American people: laughing as they ride away in their fancy electric vehicles.

All that said, I truly hope that those of us forced to experience a Biden blackout are able to get safely through it. For many, a short-term blackout might prove a mild inconvenience. But with a long-term blackout, the problems could be seen crossing the State of Kansas, across this Nation and the rest of the Midwest, it could lead to life-threatening complications. These Biden blackouts show that it is well past time for us to start questioning the climate extremism, stop the anti-American policies devastating our communities, and stop looking overseas to fix problems that we have the answers to right here in America.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. CASSIDY. Mr. President, I hear from families in Louisiana every day that they are struggling to keep up with gas prices at historic heights. It is becoming unaffordable to drive to work or drop their kids off at school. The 15-year-old pickup that they drive—not because they don’t want a new car but because they cannot afford a new car—now costs $100 a tank to fill up. And for those who say, Tell them to buy an electric vehicle, that is the modern-day equivalent of Marie Antoinette saying to the peasants “Let them eat cake.”

Families are forced to choose between buying groceries or buying gas. And the Biden administration doesn’t seem to be listening, so I am here to make their voices heard.

Let me just read from letters we received from constituents, just kind of like the floor a little. Here is Lorrie from Jamestown, LA.

Dear Mr. Cassidy, Is there any relief in sight for gas prices? We had affordable gas under the Trump administration. There is no reason that we should have these prices now if the oil and gas production in the United States was in full force. Why would we ever depend on other countries for anything when we have really been energy independent just a short time ago? Families in our country are suffering.

Next letter, Gwendolyn from Prairieville:

Dear Senator Cassidy, please do whatever it takes to cut American oil and gas prices as resources. I am a divorced 60-year-old woman on a limited income. Gas has gone up, electricity has gone up, groceries have gone up, medical expenses have gone up, and insurance has gone up drastically, and my pay has not kept up at all.

Here is Donnis from Singer:

Dear Senator Cassidy, I just wanted to voice my opinion about how it makes no sense that our government will not renew oil leases off the coast of Louisiana... There is no reason we need to be held hostage by countries who do not care about our sovereignty.

This is Philip from DeRidder:

Please help with these high gas and food prices. I am retired and on a fixed income and these higher gas prices and food prices are starting to get to me and my wife.

Here is Gregory from New Iberia:

This is not about party affiliation. We’re coming into a bad crisis. Both parties need to come together and talk about drilling. We have all the resources we need to start drilling again, and I know you are trying. I see it on the news. Please keep trying.

Here is Laura from Vinton:

I want to express my concern for us Louisianans citizens. Gas prices are rising every day, food prices are rising everyday. It’s coming down to having to choose between to get gas or get groceries. Something needs to be done. U.S. citizens are suffering daily. Please help us.

Here is Daryl from Mooringsport:

As your constituent, I urge you to publicly call for and vote in favor of the immediate and permanent expansion of domestic oil and natural gas production. No more Green New Deal nonsenses. Energy independence is driving higher gas and diesel prices that are causing skyrocketing gas and food prices. We can’t rely on Iran or Venezuela to save us. We need to produce our own energy here—in America—and NOW.

Lastly, Karen from Greltena asked:

Why are we importing any oil? Energy independence is of vital importance to us and our national security. Louisiana was a leader in domestic energy production. It is shocking to see how quickly our country has changed. Please continue to work on our behalf to force our government to reestablish the energy independence policies that were in effect during the Trump administration. Speak loudly for us.

Speak loudly for us. Speak loudly for us.

What these letters make clear is that Americans are hurting. That is why I call for an Operation Warp Speed to lower the prices at the pump, to unleash American energy, and to regain our energy independence.

President Biden needs to stop prioritizing extreme climate activists over the families sitting at the dinner table asking what they have to give up next in order to make ends meet.

President Biden, as one of my constituents says, needs to go where real people live.

With that, I yield the floor.

The PRESIDING OFFICER (Ms. ROSEN). The Senator from Missouri.

Mr. BLUNT. Madam President, that whole concept of going where real people live is an important one. When people are facing $4.25 utility bills every month and a bigger bill every time they fill up their gas tank, it doesn’t take long for them to figure out that policy decisions somewhere have changed something—and something that really dramatically affects their quality of life. And then it didn’t take long to figure out that those policy decisions in Washington are the decisions that really dramatically affect their quality of life.

When a blackout causes the lights to go out and your refrigerator to stop working, the impact of energy policy becomes pretty tangible and you understand pretty quickly that this is impacting you. That is a prospect that a lot of Americans are facing this summer. It is not theoretical, but in too many places, it is happening and happening over and over again.

In late May, the North American Electric Reliability Corporation released a report that said that nearly two-thirds of the United States could experience blackouts this summer as a result of reliability challenges of the electric grid. Now, that group is a nonprofit regulatory authority that monitors the grid in the United States and Canada and some of northern Mexico.

They could see this coming and Americans can now see this happening. They said that it was sobering. They said that it was an understatement, that there were many ways to look at this another way. The understatement is, in particular—and the report said—that in the West and the Midwest, there was a heightened risk of reliability challenges and energy shortfalls.

This report on the reliability of the grid cited several reasons for heightened risk people are facing. One of them is that there is simply too little electric-generating capacity in the middle of the country where I live following the closure of older baseload generators. You can’t make these decisions about energy policy without having a replacement in mind and not expect to see bad things happen to families, to individuals, to our economy. And that is what we are seeing now.

Earlier this year, the Energy Information Administration projected 85 percent of the generators closing this year would be coal-fired power plants. So, if you close these plants and don’t have a replacement in line, look at what happens. Maybe we should ask Germany what happened when they shut down one of their major energy sources without having a replacement. Before you know it, they were dependent on the sources of energy and a kind of energy crisis and a country running on energy from that didn’t work out at all.

From day one, the administration has advanced policies to restrict the production of affordable and reliable American energy. We have gone from being a net exporter of energy to an importer—in fact, even a pleading importer of energy—in an unbelievably short period of time.

Electric prices in that period of time have gone up nearly 20 percent. Gasoline prices have more than doubled. If you are at the gas pump and you fill up your tank, whatever you are paying, cut that in half. That is what you
would have paid under the policies just a couple of years ago. Now you are paying 107 percent more than you were paying then. The push of a rapid transition to renewable energy sources will cause prices to go up even higher. We have already seen what happened. We should be able to figure out what happens if you do more of it without a plan.

What the administration wants to do here doesn't have to be painful. Transitioning from fossil fuels over a period of time and not having to be a painful thing. You just have to have a replacement in mind. You have to understand the economic consequences and understand, if your timeframe is right, there are no economic consequences.

Fossil fuels accounted for just over 60 percent of the electricity generated in the United States last year. Nuclear power generated nearly 20 percent of the electricity; wind, 9 percent; hydropower, 7 percent; solar power was about 3 percent. When you dedicate yourself to eliminating 60 percent of the electricity generated in the country, you have got to expect that bad things are going to happen, and they are.

We are seeing what happened with reliability challenges in California in terms of its leading the way in this transition. But last summer, the State was doing everything they could, as quickly as they could, to build gas plants, natural gas plants, to supplement its power and to avoid blackouts. You went from plenty of power to new sources of energy and then, suddenly, to not enough power and then back to fossil fuels to desperately try to replace the power.

Surely, we can learn that this doesn't have to be the way you make these realistic transitions from one way of powering things to another. Just to replace every vehicle in the country with electric models would require 25 percent more electricity than we produce today. Forcing the electrification of homes and buildings will drive demand even higher and will cost more. Families will suffer.

For now, all of the above still works. For the long term, we have to find out what works for all Americans and how we may have reasonable energy policy moving forward. All of the above is serving us well. As we move from that, we need to know what we are moving to, how we are moving there, and how we can do it with the least impact on the economy, on individuals, and on families.

I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. SULLIVAN. Madam President, I want to join my colleagues here in an important discussion as it relates to American energy.

My colleague from the great State of Missouri said it will in so many different ways. Now we are dealing with dictators to import more energy. That is one element of what, certainly, has been the Biden administration's most colossal, strategic mistake of its entire first year in office. Trust me. There have been a lot of mistakes on the Biden administration's watch. There has been nothing that has undermined American interests in terms of working families and, in terms of skymarking inflation, in terms of national security, in terms of energy security, and—yes, I am going to talk about it—in terms of environmental policy for America and the world. Nothing has been more harmful to the interests of American working families than the reckless policies of the Biden administration's approach to American energy.

I have talked about this issue a lot because a lot of those policies are zeroed in on my State and my constituents, but as many have already said and as Senator BLUNT has already said, it can be summed up, in my view, in kind of four key areas.

No. 1, from day one, they have come in and said: We are going to limit the production of American energy.

That is happening. It is certainly happening in Alaska. On day one, the President shut the Alaska ANWR. We got ANWR done in this Congress, but he shut that down, and they are canceling lease sales. As for the National Petroleum Reserve in Alaska, they are taking half of that off the table. Everywhere you look, they are trying to limit the production of American energy. That is a fact. It makes no sense, but it is a fact. That is No. 1.

No. 2 is the slow rolling and killing of energy infrastructure, the ability to move energy through pipelines or LNG terminals. They are stopping it, slow rolling it, or killing it. That is a fact, OK? That is what they have been doing from day one.

No. 3, they are going to the American financial community—John Kerry, Gina McCarthy, and all of these far-left, crazy, policy folks—and saying to American banks and insurance companies: Don't invest in American energy. This is a huge problem to this incredible and important sector of the U.S. economy. When they are not doing that, they are appointing senior officials—just think Comptroller of the Currency, the Federal Reserve, the SEC Chairman—who are undertaking policies to choke off capital to the American energy sector. That is happening.

No. 4, when they have seen prices spike, in hard-working American families paying hundreds, if not thousands, of dollars more to get to work in their cars or trucks, the administration is going around, begging dictators for more energy production.

How do we have the highest standards with regard to the environment and American energy production in Alaska and in other places. Do you think the Saudis care about their environment? How are the Venetians pleased about the American LNG? Do you think the terrorists in Iran care? They don't, but the administration is going and begging dictators for more energy.

So those are the policies of the Biden administration on energy, and we all know it is not working. It is having the predictable consequence of driving up energy costs on all American families—and, of course, giving pink slips to American energy workers. I believe those are heroic workers: union workers and others—and empowering our adversaries. So that is what is happening.

Today, the President is in Boston, so I want to talk about a couple of policies the administration is taking off the table right now. John Kerry is one of the people and the communities of Boston that further show just how irrational the far-left Democratic Party is on energy.

Let me first talk about this issue, which I like to trot out a lot, on this chart. This is a factual chart of emission changes from major economies in the world from 2005 to the present. You don't hear about this a lot, but take a look at a couple of these policies.

What does it show?

Of all the major economies in the world, the one economy with the biggest reduction in greenhouse gas emissions is America, the United States of America, by far. Take a look. We have reduced emissions since 2005 by almost 15 percent. EU didn't do that. Germany didn't do that. Japan didn't do that. And here you go: In China, there is a new coal plant every eight days; it seems. In India, it is the same thing.

Why am I bringing out this chart? A, people need to know that we are the leader; we are not the bad guy. I know John Kerry keeps thinking we are the bad guy; he goes around telling everybody we are. We are not. If every other country in the world had emissions profiles like we had, you would see a much, much cleaner and less emitting planet. That is a fact. So let me talk about a couple of these policies.

John Kerry, the climate envoy, has been reported as going to certain countries in Asia, saying: You know, we really don't like hydrocarbons in America, so don't buy any of that American LNG.

What? We are paying this guy's salary to say that? Whose side is he on? By the way, exporting clean-burning American LNG to places like India or China or Japan is exactly what we need to do to reduce global emissions. So you have got this one guy out there—and I am not sure why he is being paid by the U.S. Government; he should be paid by the Chinese Communist Party Government. There are press reports that John Kerry's private jet—that he flies all around the world on—last year, emitted over 300 tons of CO2.

What? Yes. Look, he is smug, hypocritical, and his policies are hammering the middle class—and now this. John Kerry is one of the single biggest polluters and greenhouse gas emitters in the world for an individual.

In Boston, one of the best things the President can do today is to either fire John Kerry or ask him to resign. That would be great. That would probably do a lot for climate in America.
Let me give another policy that should be raised in Massachusetts.

Madam President, I ask unanimous consent that this Boston Globe editorial—a very long one—from February 12, 2018, be printed in the RECORD. It is called “Our Russian ‘pipeline,’ and its ugly toll.”

There being no objection, the material was ordered to be printed in the RECORD, as follows:

(EDITORIAL: Boston Globe, February 12, 2018) OUR RUSSIAN ‘PIPELINE,’ AND ITS UGLY TOLL

To build the new $27 billion gas export plant on the Arctic Ocean that now keeps the Russian gas company Gazprom's pipeline from Bovanenkovo in the Yamal Peninsula to Europe from freezing, the US government for its links to the war in eastern Ukraine and Russia’s illegal annexation of Crimea. Last week, in response to the outcry, a group of Massachusetts lawmakers, led by Senator Ed Markey, asked the Department of Energy to withhold permits for new projects, with scant consideration of the global impacts of their actions and a tacit expectation that U.S. policymakers would not push back. The Obama administration released a 2013 report warning of Yamal the energy consulting firm Wood Mackenzie. The exact difference depends on factors like the energy requirements. But it also would raise the state’s reliance on foreign gas, with its high carbon footprint.

The bottom line is that because of the near-term LNG flexibility, and its ability to respond to changes in market conditions, LNG can often provide a more efficient and cost-effective solution for meeting peak load demand across the United States. It is also more flexible in terms of its storage capacity, allowing for greater volumes of gas to be stored and moved as needed.

Finally, the gas pumped there will contribute to global climate change. In some parts of the world, LNG may provide climate benefits by displacing dirtier coal. If LNG displaces gas carried by ships, it may provide climate benefits by displacing coal as well. However, the math works out differently: Liquefied natural gas generally creates more emissions, since the process of cooling it to minus 260 degrees Fahrenheit and shipping and regasifying it requires more energy than pumping natural gas through all but the longest and leakiest pipelines.

The record bottom line is that because of the nature of the liquefaction process, LNG is fairly carbon intensive,” said [name], the head of LNG, and carbon consulting for the energy consulting firm Wood Mackenzie. The exact difference depends on factors like how much pipelines leak, carbon impurities in the gas, age of distance shipped, but generally LNG produces 5 to 10 percent more emissions over its whole life cycle from start to finish, he said.

From a planetary perspective, it doesn’t matter where those emissions occur; Wheth-

Natural gas has shown itself to be an important bridge to a clean energy future,”’’ said [name], the former secretary of energy in the Obama administration. “For New England, the pipeline capacity from the Marcellus—No Marcellus, no Marcellus gas production in Pennsylvania—‘makes the most sense.’”

But the upstream emissions typically don’t show up in the books. “In Massachusetts, which judge the success of their climate efforts based on how much greenhouse gas they emit within their own borders,” he said.

That’s an accounting fiction. But it’s a convenient one for lawmakers who’ve bowed to local political pressure. “The LNG frenzy here is driven by fear,” said [name], a member of the Senate’s Committee on Global Warming and Climate Change, heard when they conducted hearings on the effects of liquefied natural gas infrastructure in Massachusetts.

That’s what state senators Marc Pacheco and Jamie Eldridge, the heads of the state Senate’s Committee on Global Warming and Climate Change, heard when they conducted hearings on the effects of liquefied natural gas infrastructure in Massachusetts.

On the plus side, though, they didn’t offend Pittsfield or Winthrop, Danvers or Groton, with even an inch of pipeline.

This winter’s unprecedented imports of Russian natural gas have already come under fire from Greater Boston’s Ukrainian-American community, because the majority shareholder of the firm that extracted and shipped it is the US government for its links to the war in eastern Ukraine and Russia’s illegal annexation of Crimea. Last week, in response to the outcry, a group of Massachusetts lawmakers, led by Senator Ed Markey, asked the Department of Energy to withhold permits for new projects, with scant consideration of the global impacts of their actions and a tacit expectation that U.S. policymakers would not push back. The Obama administration released a 2013 report warning of Yamal

It is also more flexible in terms of its storage capacity, allowing for greater volumes of gas to be stored and moved as needed.
After the first shipload of Russian gas ar-

erived, David Ismay, a lawyer with the group,

stood by the recommendation and shrugged

off the purchase of Russian gas from the Ar-
tic and the dangers of buying gas from the
climates. “I think it’s important to un-
derstand that LNG is a globally traded
commodity,” he said in an interview with the

The foundation, he said, hadn’t compared
the overall greenhouse gas emissions from LNG to pipeline gas from the Marcellus to deter-

which was worse for the climate. Nor
had it factored the impact on the Arctic of
gas production into its policy rec-

ommendations.

But a state policy that doesn’t ask any
questions about its fuel until the day the
tanker floats into the Harbor abridges the
state’s responsibility to own up to all con-
sequences of its energy use—and mitigate the
tools that it can.

WHEN AN ICEBREAKER BEARS DOWN
on a mother seal during the springtime
breeding season, the terrified animal tries to
scurry away with her pup. The two may
leave a trail of urine and feces on the ice, tell-
ingar of distress. Even the animals survive the
collision, the disruption may separate the
mother and pup, leading to the
pup’s death.

Conscientious companies can minimize the
cruel realities of global shipping—or con-
scientious governments can force them to.
American law, for instance, requires ships to
maintain a safe distance from seals and wal-
ruses in ice habitats. Wilson, the seal re-
searcher, also suggested that icebreakers can
change routes to avoid known seal habitats,
especially during the breeding season, and
carry trained observers onboard to advise
vessel captains and record any adverse im-
pact, particularly on mothers and young.

The Globe attempted to contact
Sovcomflot, the Russian state-owned shipper
in St. Petersburg that handled the first leg of
the first shipment from Siberia to Ever-
ett, about what policies, if any, it employs to
avoid killing seals and other wildlife, and
whether it would halt LNG shipments during
the spring as mother seals nurse their pups
in the Arctic.

As of Monday night, it had not responded
to e-mails.

The policy of Massachusetts, apparently, is
to hope that the Russians are on top of it—
and that the world beyond the state’s bor-
ders manages the impacts of fossil fuel pro-
duction. That is the Commonwealth buys and uses, but considers
itself too pure to handle itself.

As of Monday night, the next shipment of
Russian gas was anchored about 70 miles off
Gloucester.

Mr. SULLIVAN. Again, these are far-
left policies that are having a negative
impact on actual environment and cli-
mate issues. This is the Boston Globe edi-
torial page, the Boston Globe editorial page, and they are writing about
how the Massachusetts State legisla-
ture said: We are not going to have any
pipelines coming across Massachusetts to
be able to take gas from Pennsyl-
vania and let people in Boston use it.

Here is an excerpt on Massachu-
setts’ reliance on imported gas. So
what happens? They are importing all of
their gas from Russia in the Arctic.

How does that help America? You have
American gas from American pipelines
that is produced by Americans, with the
highest environmental standards,
coming across Massachusetts to Bos-
ton.

No. The Massachusetts State legisla-
ture says: We are too good for that. We
are not going to build pipelines.

So what do they do? They import all
of their gas from Russia.

This is an editorial that says: This policy
could have some bad consequences, the
definition of what we are seeing by the
Biden administration, by John
Kerry, and by the Massachusetts State legis-
lature—all of these woke pro-
nouncements that actually have the impact
downplaying the environment, empow-
ering dictators, laying off Amer-
icans, and raising the price of energy
on our economy, small businesses, and
working families.

So I am hopeful that today, in Bos-
ton, the President starts to get serious
about American energy policy and that
he starts to reverse his administra-
tion’s focus on shutting down the pro-
duction of American energy, on permit-
ting pipelines and infrastructure, and
on helping to finance energy projects
and protection of reversal he
could make and announce today. That
would help the American people. It
would help my constituents.

Unfortunately, I think that it is un-
likely to happen. The people of our
great Nation are going to continue to
suffer, and the environment is going to
continue to suffer because of these poli-
cies on energy that undermine American interests everywhere you
look.

I yield the floor.

The PRESIDING OFFICER. The Sen-
ator from Kansas.

Mr. MORAN. Madam President,
thank you for the opportunity to ad-
dress you and my colleagues here on
the Senate floor this afternoon.

While Kansans are dealing. Amer-
cans are dealing every day with sky-
rocketing gas prices, record-high infla-
tion, and supply chain shortages. Presi-
dent Biden traveled to Saudi Arabia to
make a deal; to increase oil production av-
ailability. What he should be doing is
asking Americans and giving them the
opportunity to unleash the potential of
our own ability to supply oil. We have
seen days and we enjoyed the days in
which America was generally energy
independent, and it would be a wonder-
ful day to return to.

My State of Kansas is an energy-pro-
ducing State, and we could help in-
crease supply and cut costs at the
pump. It is not just about gasoline.
Natural gas, for example, is used in the
production of fertilizer for our farmers
who struggle today, with the cost of
production being astronomically high-
er than it was before, but almost every-
thing that we buy today is more expensive
today than it was previously
has an oil and gas component to it.

The request by President Biden to
reach out to our adversaries for oil on
the world stage, appealing to our ad-
versaries for increased production, not
only singles out our weakness but is
also unnecessary. The United States
has the resources, the expertise, and
the domestic demand to be an energy-
indepenent nation, and Kansas has the
opportunity to be a participant in
that, with additional jobs and a better
America.

We should see the impending energy
crisis in Europe as a case study for why
domestic energy production ought
to be supported to the fullest extent in
the United States. Additionally, our
dependence upon energy from some-
place else has huge consequences in our
foreign relations, our military pre-
paredness, and our national security.

A far more enduring solution than
wandering around the world with a tin
cup out—far more stable and affordable
energy prices to fill our vehicles, power
our homes, or to operate our farms—is for President Biden to stop the
“all of the above” domestic energy strat-

gy. This includes investments in
new and existing energy infrastructure
like refineries; expanding oil, biofuels,
and ethanol production; and new EV
manufacturing. Incidentally, although
certainly not an incidental thing, like
the $4 billion Panasonic EV manufac-

July 20, 2022
for Kansas. We ought to be interested, again, in solar and wind energy. Kansas is the third highest producer of wind energy, wind power, in the United States.

The Biden administration must—I ask him to go back and promote an “all of the above” strategy that produces more U.S. energy from all sources. It benefits America; it benefits the world; and it especially benefits the consumers who are hurting so much at the grocery store and the gas pumps and utilities.

We need to weaken our reliance on foreign adversaries, and we need to increase the production of energy in the United States. I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

MS. MURKOWSKI. Madam President, I ask unanimous consent that I be permitted to speak for up to 5 minutes and Senator Sullivan for up to 15 minutes prior to the scheduled vote.

The PRESIDING OFFICER. Without objection, it is so ordered.

MS. MURKOWSKI. Madam President, I am happy to come to the floor today to join my colleague, the Senator from Alaska, Mr. Sullivan, as well as my colleague from Kansas, to talk about where we are with this administration or where, unfortunately, we aren’t when it comes to prioritizing American-assured energy.

As has been noted here on the floor by my colleagues, the President has just returned from the Middle East. It wasn’t for a sightseeing trip; it was really all about oil. He was talking about oil. Above all, the President made that trip to ask the leaders of several foreign nations, members of OPEC, to increase their production levels.

OK, we get it. Gasoline prices are way too high. We know that. We have hit national records in recent weeks. They are averaging right now about $5.32 a gallon in my State. That is approaching the all time high. That is way up from the price, the average price, of $5.25 to $5.29 a gallon that we were last month, but it is up over 50 cents per gallon from where we were last year.

As has been said repeatedly, and we don’t need to say it here on the floor of the Senate, people are feeling it in their homes. They are feeling it in their pocketbooks. Families are. Businesses are. Even downtown Anchorage or Fairbanks, your budgets are stretched thinner and thinner.

It is increasingly difficult for small tourist operations, whether you are trying to take people out on sightseeing trips in the air or on the water. Our fishing fleets have to fill up their fishing vessels. But especially, particularly, our outlying villages—these villages that are off the road system—that already faced high prices, now the prices are astronomical.

I met with some leaders from the Northwest Arctic Borough just a few days ago, and they shared with me that in many of their communities, the communities were paying about $5.25 on average. But these were prices that were locked in from last fall when the last fuel barge came into those northern waters and was able to make its way up the river systems. Now, with the first sprouts of spring literally—in 1 day going from $5.25 to over $8 a gallon. That is a lock-in price that they are going to be living with until that next barge.

Think about what that means when you are a community that is locked into these extraordinarily high prices. When that last fuel barge comes, you are going to have small villages that are going to be looking to see how much—how much do we need to get through the winter but how much can we afford? They don’t have much of a tax base. How much can we afford?

My theory is that they are only going to be able to buy as much as they can, and it is not going to be enough to get them through the winter. So halfway through the winter, in the darkest and coldest, when everything is locked in the ice, they are going to run out of fuel. And you have to be able to keep the heat on or everything breaks. So halfway through the winter but how much can we afford? They don’t have much of a tax base. How much can we afford?

The PRESIDING OFFICER. The Senator from Kansas.

Mr. DURBIN. Madam President, I don’t need to point out to anybody that the energy security crisis is here now. The world could somehow come back online? This makes zero sense to me. It makes zero sense to me. This makes zero sense to me. We need to have a strong plan that assures that our own energy security—is addressed and also helping to improve the energy security of our allies.

I believe that we can do this without taking our eye off the ball of what we need to do to reduce emissions to address the challenges that face us when it comes to climate. But we have to acknowledge that the world has changed. There is still, though, no substitute or equal for American energy. So what we need is for common sense to prevail over wishful thinking. We need resource development here at home in places like Alaska and Kansas. They need to be our first and our highest priority. The longer it takes for that to happen, the greater the price that Alaskans will be paying and all Americans will be paying.

I yield the floor.

The PRESIDING OFFICER. The majority whip.

Mr. DURBIN. Madam President, I was on the floor 2 days ago when the Republican Senator came to the floor and said something which I still don’t quite understand, and I would like to refer to it in a statement.

The cloture motion, on the nomination of Natasha C. Merle, of New York, to be United States District Judge for the Eastern District of New York, was withdrawn.

PRESCRIPTION DRUG COSTS

Mr. DURBIN. Madam President, I ask unanimous consent to withdraw the cloture motion with respect to the Merle nomination.

The PRESIDING OFFICER. Is there objection?

Not hearing an objection, it is withdrawn.

The cloture motion, on the nomination of Natasha C. Merle, of New York, to be United States District Judge for the Eastern District of New York, was withdrawn.
Mr. DURBIN. Madam President, I ask unanimous consent that the confirmation vote on the Williams nomination be unanimous consent that the confirmation vote on the confirmation of Executive Calendar No. 920, the nomination of Bernadette M. Meehan, of New York, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Chile.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRESCRIPTION DRUG COSTS

Mr. DURBIN. Madam President, now, back to my statement. I came to the floor and heard a speech by the Republican leader, Mr. McCONNELL of Kentucky. Now, it wasn’t the first. I have heard many, and I listen closely so that I can divine the strategy of Senate Republicans. And for what he said, he kind of spoke about the plight of American families dealing with inflation. It is a real problem. If you go to buy anything these days, you are shocked by the price, starting at the gas pump, if you have aspirations to buy a car or truck, ordinary food items—much more expensive. Most families are not seeing any increase in income so it is a real hardship for them to keep up.

We the Senate from Kentucky has given that speech so many times, I could almost repeat it verbatim. And I don’t quarrel with his premise. Inflation is painful for working families.

But then—but then—he went into an area I was not expecting an opposition point of view. What he was saying is that if there was an effort to control the price of prescription drugs, it would be socialism. I was really asking for something for nothing, and I don’t support it.

And I stopped to think for a second. Wait a minute. All the polling, when you ask American families what they worry about, tells you that this is a big health care worry. They go to a doctor. Somebody is sick. The doctor prescribes a drug. They take the prescription to the drug store. They get it filled. And then comes the moment of truth, the moment at the cash register when the family is told: Incidentally, that will cost you $100, $200, $300 out of your insurance coverage.

And you know what some families say? I wish I could afford that; I can’t.

And they don’t pick up the drug or they pick it up and, instead of taking it, they kind of wait and say: I will see if I get any better by myself. They do the wrong thing because of the cost of prescription drugs.

So when the Republican Senators come to the floor every day talking about family expenses, it comes as a shock to know that they are planning to oppose the Democratic effort to establish prescription drug pricing. They complain about high prices for everything else, but they don’t seem to want to do anything when it comes to prescription drugs.

Americans pay the highest prices in the world for prescription drugs, an average of nearly four times as much paid by an American family for exactly the same drugs that are being sold in Canada and Europe. Where are those drugs made? All made in the same place, all made by the same company, four times the cost for America.

To add insult to injury, many of these prescription drugs only exist because of the successful investment by American taxpayers in the National Institutes of Health. The National Institutes of Health is an amazing research organization. They do the research, the basic research. The drug companies capitalize on it, make the drugs, and sell them at a profit. So taxpayers pay on the front end for the drugs. American taxpayers and tax-paying families pay on the back end for the actual cost of the pharmaceuticals.

Out-of-pocket prescription costs aren’t just hurting people financially; they hurt the health of America. One in five Americans don’t take the medications as prescribed because they can’t afford them. They cut their pills in half or they skip doses because they can’t do it; they can’t pay it.

You would think—if you expect to hear that from a stickup artist, not from a pharmaceutical company. That is the choice Americans face.

So we want to do something about it. Democrats don’t want to hear speeches about the benefits of Medicare. We want to do something. We want to bring down the cost of prescription drugs for seniors first and then for families in general.

If you really care about inflation, most families would say, start with prescription drugs. That is what we are doing. And the Republicans are going to oppose this.

Ironically, Senator McCONNELL gives a speech calling it socialism to deal with prescription drugs, and, within an hour, the senior Senator from Iowa gives a speech on the floor of the Senate—Republican Senator—how he wants to cut prescription drug prices for seniors. One of them didn’t get the message at the caucus. I think the Senator from Iowa is right, incidentally.

So Democrats are proposing to allow Medicare to negotiate fair prices for drugs. We have been doing that for a long time in the Veterans Administration. The Veterans’ Administration buys a lot of prescription drugs for our veterans—and I am glad they do—and they negotiate with these companies to get a fair price. We think Medicare ought to do the same thing. It reduces the cost of prescription drugs. It makes them more affordable for seniors.

Now, a lot of people say: Well, if you do that, then the prescription drug companies, the pharmaceutical companies, just aren’t going to be able to make it.

Well, here is the reality. Studies have found that Big Pharma could lose $1 trillion in sales over the next decade and still remain the most profitable industry in America—lose $1 trillion in sales and still be the most profitable industry. Higher profit margins in pharma than in the telecom industry, than in the defense industry, and the Republicans are saying they are afraid that they are going to get hurt if consumers can buy drugs at lower prices.

But good news for those who fear that if you cut the amount of money Big Pharma, it will cut research. That is not what we have learned. We know Bayer. It has been around a long time. It started off as a German company. It made aspirin. Now they have made some sizable acquisitions in the business.

They make a drug called Xarelto. Now, you would have to watch that television ad or 10 or 12 times to be able to spell ‘Xarelto.’ But they are trying to convince American consumers they can’t live without it. Bayer spent $3 billion on sales and marketing last year compared to $8 billion on research for drugs.

Johnson & Johnson: $22 billion on sales and marketing. $12 billion on research.

GlaxoSmithKline: $15 billion on sales and marketing. $7 billion on research.

Get the pattern? There is more money being spent on advertising than on research for new drugs. Americans have been bombarded with nine drug ads on TV every day telling them to ask their doctor for the newest wonder drug. There are only two nations on Earth where you can legally advertise prescription drugs on television. One, of course, is the United States. The other, for some reason, is New Zealand. Filling the airwaves with ads is what Big Pharma does to try to convince customers they can’t live without their drugs.

So the claim that allowing Medicare to negotiate a reasonable price for seniors will freeze out Big Pharma’s innovation just doesn’t wash.

Senator McCONNELL says there is no “free lunch” when it comes to prescription drug pricing. Let’s keep in mind that the 14 largest drug corporations spent more on stock buybacks—lining the pockets of their CEOs—than on research and development over the past 5 years.

So where is what it comes down to. Look at these, just as an illustration. I will do this quickly because Members are showing up to vote. Insulin, discovered by Canadian researchers at the beginning of the 20th century—they surrendered the patent for the drug for a dollar so that it would never be overcharged to consumers because it is a life-or-death drug for those suffering from diabetes.

Take a look, from the year 2004 to the year 2022, at what has happened to the insulin cost on a regular basis, the manufacturing price by year. You can see it tracks all the companies that make insulin. It is
The question is, Will the Senate advise and consent to the Williams nomination?

Mr. DURBIN. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The senior assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from Vermont (Mr. LEAHY), the Senator from Massachusetts (Mr. MARKEY), the Senator from Massachusetts (Ms. WARREN), and the Senator from Rhode Island (Mr. WHITEHOUSE) are necessarily absent.

Mr. THUNE. The following Senator is necessarily absent: the Senator from Louisiana (Mr. KENNEDY).

The PRESIDING OFFICER (Ms. BALDWIN). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 51, nays 44, as follows:

[Rollcall Vote No. 264 Ex.]

YEAS—51
Baldwin  Gillibrand  Blumenthal  Blumenthal  Blunt  Booker  Brown  Cantwell  Capito  Cardin  Coons  Cortez Masto  Crapo  Duckworth  Durbin  Feinstein  Ossoff

NAYS—48
Barrasso  Blackburn  Braun  Boozman  Braum  Burr  Cassidy  Cornyn  Cotton  Daines  Ernst  Fischer  Grassley  Hagerty  Kennedy  Leahy  Whitehouse

The nomination was confirmed.

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of the following nomination, which the Clerk will report:

The senior assistant legislative clerk read the nomination of Bernadette M. Meehan, of New York, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Chile.

VOTE ON MEEHAN NOMINATION

The question is, Will the Senate advise and consent to the Meehan nomination?

Ms. HASSAN. Madam President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from Vermont (Mr. LEAHY), the Senator from Massachusetts (Mr. MARKEY), the Senator from Massachusetts (Ms. WARREN), and the Senator from Rhode Island (Mr. WHITEHOUSE) are necessarily absent.

Mr. THUNE. The following Senator is necessarily absent: the Senator from Louisiana (Mr. KENNEDY).

The result was announced—yeas 51, nays 44, as follows:

[Rollcall Vote No. 264 Ex.]

YEAS—51

Not VOTING—5
Barrasso  Blackburn  Braum  Burr  Boozman  Braum  Braum  Braum  Burr  Cassidy  Cornyn  Cotton  Cotton  Daines  Daines  Ernst  Ernst  Fischer  Grassley  Hagerty  Kennedy  Leahy  Whitehouse

The nomination was confirmed.

The PRESIDING OFFICER (Mr. HICKENLOOPER). Under the previous order, the motion to reconsider is considered made and laid upon the table, and the President will be immediately notified of the Senate’s actions.

EXECUTIVE CALENDAR

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of the following nomination, which the Clerk will report:

The senior assistant legislative clerk read the nomination of Bernadette M. Meehan, of New York, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Chile.
proceed to its immediate consideration; further, that the bill be considered read a third time and passed and that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

Mr. SCHATZ. I object.

The PRESIDING OFFICER. Objection is heard.

The Senator from Utah.

Mr. LEE. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. 4571, which is at the desk; further, I ask unanimous consent that the bill be considered read a third time and passed and that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

Mr. SCHATZ. Mr. President, I object.

The PRESIDING OFFICER. The objection is heard.

Mr. SCOTT of Florida. Mr. President.

The PRESIDING OFFICER. The Senator from Florida.

Mr. SCOTT of Florida. Across the country, American families are fighting hard every week to make ends meet as they deal with President Biden’s raging inflation crisis. Food prices are up. Gas prices remain at unbearably high levels, and too many families are having to make the impossible choice of either to put gas in the tank or food on the table. It is so tough to be a family in that position.

I know all too well how this feels and the impacts these high prices have on families. I grew up in a poor family, with a mom who worked long hours at her job and also picked up odd jobs just so our family could get by. We never had any extra money, so when prices went up, we had to go without.

Families all across the country are in that position. People who have never visited food banks are having to turn to them to feed their families. Folks are being forced to pawn their things just to afford gas. It is heartbreaking and makes me furious. Reports are showing it is happening across America—in Reno, NV; Macon, GA; Yakima, WA; and the cities in my home State of Florida, like Pensacola and Fort Myers. These people have to turn to their local pawn shops as they see their monthly bills grow higher and higher. When is heard Biden said that we are going through “an incredible transition,” is this what he meant—Mom and Dad having to sell Bobby’s PlayStation and Suzy’s doll collection just so they can afford to take them to school?

Since day 1, President Biden has led a campaign against energy independence. The White House, EPA, the Department of the Interior, and the Department of Energy have done everything in their power to make life more expensive for American families. They have failed. They have failed to reduce the price of gas and make life tougher and tougher for hard-working families.

The American people deserve transparency into Biden’s Green New Deal agenda and ought to know why these prices keep going up. That is why I introduced the GAS PRICE Act last October. Even then, far before the horrible war in Ukraine began, gas prices were surging.

My bill is pretty simple. It would require the Energy Information Administration to report to Congress on any Federal Agency policies or regulations that it determines will cause energy prices to rise. All it does is ask a Federal Agency to provide information to Congress with a statement of facts on what is causing rising energy prices. Then we can take this information, see what needs to be fixed, and help the American people.

I want to thank Senators MARSHALL, LUMMIS, CAPITO, JOHNSON, MORAN, BLACKBURN, and KENNEDY for cosponsoring this legislation. I also want to thank Senator SULLIVAN and Senator LEE for joining on the floor today to talk about the energy inflation Joe Biden is imposing on Americans.

Considering that we, as Senators, are trusted by the people of our States to look out for their interests, I cannot imagine why anyone would oppose this legislation. Sadly, when I came to the Senate floor last year to pass this bill, Senate Democrats opposed it.

At that time, I noted that the national average cost was $3.36 per gallon. Sounds like a bargain today. Since then, the price of gas has risen dramatically. The average has increased to $4.46. In 15 of the 17 months Joe Biden has been in office, the price of gas has risen.

When I introduced my bill in October, President Biden said he didn’t “have a near-term answer” for reducing gas prices. Well, clearly not—his answer was to raise prices and continue his radical Green New Deal agenda.

Senate Republicans, meanwhile, do have a plan and have offered solutions. I have introduced the FREE American Energy Act to expedite the Federal Agencies’ review process of applications for permits, waivers, licenses, or other authorizations related to energy production. But we can take a simple first step today by giving ourselves more information on rising energy prices and pass my GAS Prize Act.

For the sake of American families, we need to figure out what the heck is going on. So while my colleagues on the other side of the aisle blocked my bill from passing last year, my hope was that, as they have watched their constituents suffer for months now under Biden’s leadership, they would have a change of heart. Sadly, that is not what happened today. It is an abject shame what has happened in this Chamber.

I come here with my Republican colleagues to promote and pass legislation that would improve the lives of American people and make America less dependent on foreign oil. We came here asking for answers into Biden’s Green New Deal agenda. We are here responding to the pain American families are facing at the gas pump and trying to solve problems.

Senate Democrats, meanwhile, have come here to obstruct and blame shift. They didn’t come here to solve problems. They didn’t come here with a different proposal that would alleviate gas prices and ensure long-term energy independence and sustainability. They came here to make the problem worse. They want to emulate the policies of Germany and California, where rolling blackouts and energy rations are a looming threat and where gas has spent most of this year at over $6 per gallon.

This is not the way forward. The Senate needs leaders who are going to come in and put Americans first. I am grateful for colleagues like Senator Sullivan and Senator LEE, who are here to do that. But I hope the American people have been watching what has happened today and see who it is who really cares about the problems they are facing.

I yield the floor to my colleague from Utah.

Mr. LEE. Thank you to the Senator from Florida.

Mr. President, President Biden has wasted no time—no time at all—in embarking on his crusade to hamstring American energy production.

On day 1 of his Presidency, President Biden halted all new oil and gas lease sales on Federal land. Now Americans are paying the price. Across the Nation, people struggle to fill their gas tanks, as prices climb to over $5 a gallon, but there is apparently no need to worry. According to the President, Americans’ pain at the pump is merely part of an energy “transition,” as he puts it.

It is important to note here that this transition is a transition away from affordable, reliable fossil fuels.

It is not that high gas prices are a problem to be fixed but, rather, high gas prices somehow are the solution. They are what will facilitate this transition. The President is getting the results that he wants. This is a feature, the ultimate feature. It is the end goal, not a bug in his plan.

Despite this being part of the plan and, in fact, his objective, it didn’t go for the sake of the American people. It was a way to realize how unpopular high gasoline prices really are. Now he is trying to take credit for even a slight reduction in gasoline prices. First, by no means is this reduction sufficient. Second, we can’t attribute this reduction to the President’s policies.

To be clear, placing a moratorium on the sale of oil and gas leases on Federal land is outside the President’s authority. If the President actually possessed that authority, he wouldn’t have attempted to portray this as a temporary pause. It is clear that this is a thinly veiled attempt to enact the most radical climate policies our country has
ever seen—policies that have never been enacted by Congress and policies that Congress would not enact.

Our suspicions were confirmed when Gina McCarthy, the President’s climate czar, during an interview:

President Biden remains absolutely committed to not moving forward with additional drilling on public lands.

So much for a temporary moratorium.

Confused as to whether Ms. McCarthy’s statement represented the administration’s policy, I asked Interior Secretary Deb Haaland whether it was the administration’s intention to indefinitely pause the sale of all Federal oil and gas leases. She responded: “I don’t know.”

“I don’t know” is not an acceptable answer to the Utah communities who rely on those oil and gas leases. “I don’t know” is not an acceptable answer to Americans paying over $5 a gallon for gas. “I don’t know” isn’t an answer to those who have found every aspect of their lives rendered unaffordable by this administration’s policies, and now this only adds insult to injury.

The American people simply cannot endure President Biden’s clear-as-mud policies any longer. I have introduced legislation to reaffirm that under the Mineral Leasing Act, the President of the United States absolutely does not have the authority to hold the country’s domestic energy production hostage. Their continued efforts are coming at the expense of struggling families.

“The Biden administration is fighting in court for Presidential authority to enact sweeping changes to American energy policy on a whim. While I believe the courts will arrive at the same conclusion, we can act now to ensure citizens and companies receive the certainty they deserve.

We could end this crusade today if we enacted this legislation and get to work securing American energy independence and compliance to the law. It is for that reason that I was disappointed when my friend and colleague on the other side of the aisle came and objected to passing this by unanimous consent today. It does, in fact, state what the law already provides anyway. It shouldn’t hurt us to make it obvious. Yet he objected even though this policy is harming the American people.

It is the administration that had to end this way today, but this is not over. No, we will be back. We will be back as often and for as long as it takes in order to give the American people the relief that they need and that they definitely deserve.

Now I yield the time to my friend and colleague, the Senator from Alaska.

Mr. SULLIVAN. Thank you to my friends from the great State of Utah and the great State of Florida, Senator SCOTT and Senator LEE.

Mr. President, I want to explain to any American who is watching just what happened here because, to be honest, it is kind of shocking what just took place.

Senator SCOTT came down to the floor. He had a bill, S. 3086. Normally when you have a bill that is considered pretty noncontroversial, you can come down and do what is called a unanimous consent, which is you ask the Senate to pass the bill. And if anyone objects, they actually have to come down and object in the Senate Chamber.

So what does S. 3086 bill do? Here is the language: “to require the Energy Information Administration to submit to Congress and make publicly available an annual report on Federal AGENCY policies and regulations and Executive orders that have increased or may increase energy prices in the United States.” That is it. That is it. That is the bill. It is one page—less than one page. It is two paragraphs.

All we were doing was asking, why are energy prices in America going through the roof, and is the Federal Government contributing to that through its actions and regulations? It is a really important question. Why is it an important question? It is an important question because when you get out of this bubble in DC and you go home—like I was just home in Alaska last weekend—energy costs and inflation are the No. 1 issue hurting American families. It is the No. 1 issue.

So shouldn’t we in the Senate want to know why it is happening?

Now, look, what else happened here—a little bit of inside baseball in the Senate—when a Senator comes down and objects to a UC, usually he gives a strong reason why—strong: Here is my reason why this bill is bad for the country, and I am going to object.

You may have seen my colleague object and say “I am getting the heck out of here; I am not going to explain this” because there is no reason to object to this—none. So he objected and left. He didn’t try to defend objecting to this, because every American wants to know.

It is the biggest issue back home, but here is another reason we need the bill: because this President has come up with excuse after excuse after excuse on why energy prices are high. He put his office have gone through the roof. Let me give you a couple of examples.

He first said: Well, we are emerging from the pandemic, and the supply chain couldn’t keep up.

All right, if that is really true, let the Energy Information Administration—of the Biden administration, by the way—see if that is one of the reasons.

OK. Then he said: Well, shoot, the pandemic is kind of over so it is Putin’s invasion of Ukraine that is driving the increase in energy prices. Putin’s unprompted, brutal war—which it is unprompted, brutal—has led to higher energy prices.

And President Biden then started to say it is Putin’s price hike. No one is buying that one either because energy prices went back before the brutal invasion of Ukraine.

So then the President started saying: Well, it is COVID and Putin. OK. Then he started blaming the oil companies. Then he started to say: Well, we have all these amazing permits that we want the oil companies drilling on, but they are not using them.

So we need Senator SCOTT’s legislation because the Biden administration, the President himself, has put out all these ideas on why Americans are getting crushed by inflation and high costs at the pump. Yet the one thing the President hasn’t done, has never talked about, is he hasn’t looked internally and said: Hmm, maybe it is my policy that has driven energy prices up. Maybe, by the way, it is not maybe; it is certainly. And my colleagues have talked about this. Heck, I talked about this earlier today. I talk about it every day because it is crushing my home State and my constituents.

But what we want the Energy Information Administration to look at is possibly these reasons: Day 1, this administration came in and said: We are going to limit production of American energy.

Anyone who went to econ 101 in college knows that when you start to limit supply, prices go up. Well, that is a culprit.

No. 2, from day 1, they said: We are going to shut down, kill, and delay moving energy through infrastructure—pipelines, LNG terminals. They are doing that all the time. So that is a policy, those are Executive orders limiting the ability to move energy. That sends up costs.

No. 3 is that they have actively gone to the American financial sector—the Biden administration—and told them not to invest in American energy, choking off capital. That increases prices.

So Senator SCOTT’s bill would simply ask the experts in the Federal Government, the Energy Information Administration, to just take a look: What is driving up the cost of American energy? What is crushing middle-class working families?

And the reason my colleague objected and then ran off the floor without saying anything is because everybody here knows what the answer is going to be. Joe Biden has done this. It is his policies that are driving up energy costs.

And here is the thing that Senator LEE touched on, and this is the thing that should scare everybody. It is likely purposeful. Pain is the point. They are all talking about this wonderful, green energy transition worthy talks about: Hey, if the prices go up, it will accelerate the transition to renewables. They don’t give a damn about the people who are suffering. It is all this green utopia stuff.

All we are asking for is what is driving up the cost of energy? Only on the backs of working-class Americans? That is it. A two-paragraph bill, and my colleagues came and objected to it. And
every American should know this. They don’t want you to know what we all know, which is this: The pain at the pump is the purposeful policies of the Biden administration, and the American people are paying for it.

We want the Federal Government to look into the details of this, and the Democrats were just now objecting to that transparent information request. And, in my view, it is shameful. I yield the floor.

The PRESIDING OFFICER. The Senator from West Virginia.

(The remarks of Mr. MANCHIN and Ms. COLLINS pertaining to the introduction of S. 4573 and S. 4574 are printed in today’s RECORD under “Statements on Introduced Bills and Joint Resolutions.”)

Ms. COLLINS. I yield the floor.

The PRESIDENT (Ms. SMITH). The Senator from Oklahoma.

BORDER SECURITY

Mr. LANKFORD. Madam President, if this body were to look at the tests and the homework, the quizzes, and the essays of the Department of Homeland Security, they would have them a grade based on their performance for the last year and a half, what would the grade be?

DHS says they have six missions, and they detail out those missions. One of those missions reads: Secure U.S. borders and approaches. Then they give this little piece behind it to describe that.

The Department of Homeland Security secures the Nation’s air, land, and sea borders against illegal immigration while facilitating lawful travel and trade. What would their grade be on that? And is anyone going to hold them to account for their grade or is this body going to continue to just ignore what is happening on the southern border?

It is the role, it is the task, it is the responsibility of the Department of Homeland Security to help secure our Nation, but this Department is currently facilitating illegal immigration, not stopping illegal immigration.

I wish I was wrong on that, but I am not. In fact, as recent as the last 2 weeks, I met with DHS leadership who described to me the new method they have laid out so you can apply for asylum, come to the United States and come to any airport in the country. So you wouldn’t have to come through the southern border; you would just come in. But the same process as what is happening on the southern border where people from 150 countries just this year have crossed our border. They have been checked in by Border Patrol, who know full well they are not legally present here. Then they are released into the country and gone 8 years until their hearing—8 years.

Instead of responding to be able to slow down the more than 2 million people who have illegally crossed in just the last year, this administration is actually moving people rather than decrease.

The administration was proud to be able to say in May and in June that the numbers went down slightly from what they were in the previous months. The problem with that is, the previous month was a record, and so was the month before that. If you look at just the July numbers going slightly down from May, it is still the highest June ever recorded by the administration.

We are being overwhelmed with the number of people coming in illegally across our border. The administration is currently releasing people, and their sole focus seems to be on making illegal immigration more efficient rather than more enforced.

What grade would you give DHS? A more specific question: Mr. President, do you want to stop illegal immigration? Because I don’t think you do. And I think it is clear that the policies you put in place are directly leading to this record influx of illegal immigration from all over the world.

I wish you could even say: Well, at least we vetted them, but I know that is not true, and so do you. Not a single one of these people entering the country has their criminal background check from where they come from.

We are doing a quick fingerprint analysis to see if they have committed a crime here, but we have no idea of the 150 countries-plus that they are coming from because right now the goal is not to check their history; it is to get them released in the country within 8 hours. Keep it moving. Keep it moving. You don’t want to have a clog up at the border. When they cross the border, the goal is to just keep them moving into the country.

Last weekend, I spent the weekend again at our southern border. Serving on the Homeland Security Committee, I spend a lot of time back and forth across that border to be able to evaluate what is happening right because it changes from week to week.

I was in the Rio Grande Valley last weekend spending time with CBP, the Border Patrol, individuals from Air and Marine Operations, from the Department of DPS in Texas, from the National Guard. All of them expressed incredible frustration.

When I got there last Thursday night late, we went on a midnight patrol with Border Patrol. Literally within minutes of that first group of folks coming across the border, a group of teenagers. Minutes later, literally while that group was being processed, another group was interdicted coming across the border not far away. This time it was 6- and 7-year-old children and a couple of families. While we watched them being processed, they called us on the radio and said that about 2 miles down, they just picked up another group. This time, it was adults, including one pregnant woman. It is already into the eighth month coming across the border to make sure she delivered here in the United States.

One hundred fifty-plus countries just this year are crossing the border because it is open. I hear the Secretary of DHS say they have secured the border. As I just came from the border, I wonder when the President of the United States going to actually go to the border to be able to see what is actually happening on the border and the policies they put in place, because so far the President has been able to make it to Saudi Arabia but hasn’t bothered to go to our own southern border to even look once at what is happening on our southern border.

If he goes—someday, I hope—I hope he meets with Border Patrol because the Border Patrol agents I talk to tell me about a time when the border was secure. They tell me about a time not long ago that we added forcible borders and where the policy wasn’t to release within hours and the enforcement policy wasn’t to go as fast as possible; it was to actually secure the border.

You could meet with the landowners, like I did last weekend, who live in the area. Some of them have lived there for generations, and they are absolutely furious because although they have lived there—and their family—for generations, they have never ever experienced this.

They tell me about how, when they were children, they used to play in this area, and now literally they will not walk out their own door without a firearm on their hip. They told me about motor vehicles coming from their property, windows being smashed at all hours of the day and night, and people walking up to their windows and peering inside.

One rancher told me about his wife, who is pregnant, and his child, who is 2—how they literally fear for their lives every day because of the number of people who are coming across their property and for him personally, the number of dead bodies that they found on their property just this year. This wasn’t happening before.

They had a very simple request. Their simple request was: I am an American. Why does my property not count? Why do my rights not count?

The only rights that seem to count are people who are illegally crossing the border. Their rights seem to count, but the rights of Americans do not.

Mr. President, would you be willing to answer his question? Would you be willing to talk to his wife and explain to her why there are bodies on their property and for him personally, the number of dead bodies that they found in the last year?

I yield the floor.
Mr. BRAUN. Madam President, I come to the floor this evening—I have been talking about this subject for nearly the 3½ years I have been a Senator. And I will tell you why I think it is important.

I yield the floor.

The PRESIDING OFFICER. The Senator from Indiana.

The PRESIDING OFFICER. The Senator from Indiana.
seems like very little compared to how significant that was—$800 to $900 billion.

And from that time to the present, I think we just said: We are borrowing money, and we might as well do more. And then we start doing it for things that don’t make sense.

I got here 3½ years ago, 18 trillion in debt. We were just approaching the percentage coming out of World War II. Here. We have now passed that and doubling down and going away beyond that.

We are now, here, after the pandemic, where we spent close to $4 trillion in 2020—a lot of it out of uncertainty. We didn’t know much about it. We should have treated that with respect. We now know a lot about it, and we probably didn’t need to shut the economy down, which cost us a lot, but we are through it. We certainly shouldn’t have doubled down and spent another 3 trillion in 2021.

I am not going to go over—you hear it on the news, you see it. We have got inflation embedded in the economy currently. The last time this occurred, back in the late seventies and the early eighties, when inflation peaked around 10 or 11 percent, it took 5 years to get it back to 2 percent, where we were pre-COVID. We can expect probably something similar. We don’t know.

The big difference between now and then is we have got a lot more debt, especially in government, so it is going to be trickier.

So how do we get out of it?

Well, unless we turn the tide, unless we start doing things differently. Medicare, which isn’t even being addressed here, has completely depleted its trust fund in about 4½ or 5 years—automatic benefit cuts when that occurs.

Social Security, which has been around since the Depression paying into it, that is depleted in about 10 years.

Those are two large trust funds that will have no balance in them, and then you would have to borrow even more money to pay the benefits.

Let’s show a comparison of where we stack up now with other major economies.

Look at that. We have known for a long time Japan, which is the third largest economy, has struggled to figure out how it is going to grow, how it is going to do for future generations what it has done since World War II. It has taken debt to where it is a stranglehold on its economy. Its debt is 237 percent of its GDP.

Now look who is in second place, and this isn’t something you want to be in second place on—United States. Our debt currently is 107 percent of our GDP.

India, Germany, China—China, our main geopolitical competitor, under half of the United States debt as a percentage of its GDP. That is not a good place to be. They are our geopolitical competitor, and I sense they know that you need to be savers and investors if you are going to be successful in the future, if you are going to give your people what they are going to need out of a government.

Financially, we are going to be up against them, and they, to me, look like the rational things that we are going to do someday pivot to where we are caught by surprise, and then you don’t have the options. We start increasing to be more indebted than what we are, it will be even harder to compete with somebody like that.

We now have a 9.1-percent inflation rate. That is a pay cut for everyone. We now know, I think, what caused it. We need to just quit digging the hole deeper. Let’s get out of, reach back to what we know was working, at least financially, pre-COVID. We had no inflation, nominal that is built into what is considered zero inflation, wages rising in the toughest places, and a growth rate that was better than we had back to 2 percent.

We need to start spending less through government, return the productive capacity back to the private sector, and then look at—once we get the ship right, have the right things that we do better, cut the right way. I am a believer. We need to fix healthcare; it is a broken system. It drives our structural deficits more than anything. Medicare each year—like Warren Buffett says, healthcare in general is a tapeworm on the economy.

What I want to do is face reality. Regardless of the tax rate, over 50 years, we average about 17½ percent of our GDP in Federal Government revenues. If that is all you can get, regardless is you have high tax rates that gives you a lower economic growth or lower tax rates that maybe gives you a percent or more in economic growth, we need to acknowledge it.

My plan does two simple things: acknowledges what our revenue has been over 50 years—17½ percent of our GDP—tapers what we spend into it, takes what we have done here as a maneuver to escape budgeting and appropriations by making our mandatory versus discretionary, which is nothing other than saying: I don’t want to budget. I don’t want to allocate resources. We are just going to do more each year.

If we keep doing it, we are not going to be able to fund the programs that we all consider important.

So it acknowledges a reasonable revenue level. It moves 375 billion that used to be discretionary that is now mandatory back to discretionary. And then it is going to be up to all of us, as stewards of the Federal Government, to see how we are going to make the right decisions to take that amount and get it down to where we cut it out of the budget.

That would put us, in 10 years, in primary balance, meaning that the only thing that contributes to our deficit is our interest. We would clearly show, too, how the big drivers of our current deficit—Medicare, Social Security, Medicaid, other mandatory spending features—are driving it.

And, yes, if we want to get to a real balanced budget that covers your interest, you would have to actually find ways to do the same things with less money.

Defense is always a topic on my side of the aisle. That is a topic that we are argument the most important thing we need to do as a Federal Government. I think there is a lot of bipartisan interest in defending our country and financing it accordingly. This spends on defense above the CBO line and gets its numbers from the Armed Services Committee, plugs it in.

It is going to be more robust there than what the CBO has by a little bit because I am a believer that has driven this issue over the long run is what I call the unhy(UH) Alliance. Folks on my side, whatever it takes, will spend it on defense. I said it is the most important thing we do. Medicare, Social Security, Medicaid—those are important too. They are going broke. So we need all of that to rein it in. But defense, the most important thing, is going to be at a level that keeps us secure.

If we don’t exercise fiscal restraint, if we don’t make the tough decisions that everyone does in running their own budgets, whether it is in a business, a local or State government or even a household, it is going to be a hard landing someday that none of us will like. A lot of what is about running anything successfully in business and in government is a good plan. I don’t think our plan makes sense for the future.

But the other component—and I will never forget the first budget meeting I was in here. One of the Senators said: Mike, the reason this keeps coming back and back is we do not have political will.

And whether it is political will that you need to make things work here, whether it is determination, whatever you want to call it—it is the marketplace when you run a business, it is a balanced budget amendment in statute when you have got a State government—there has got to be more discipline.

Let’s put that last chart up here.

And I want to re-emphasize, because I got some on my side that think we are not being robust enough on defense. We just looked at that chart where it is the most robust. But I want to go back to what I was saying about this one says it all. Look at where we have come from where the “greatest generation” left us. Remember, they paid off the debt from World War II and built the Interstate Highway System—to where we are now in literally 40 years.

That is shameful.

All I am saying is, my budget makes it to where we have got 10 years. We don’t even have to cover the interest, but we need to bring it back into what is called primary balance—eliminating the budget deficits on the other side of the aisle that see that this makes sense, because we will need it for their priorities. All I can tell you
The PRESIDING OFFICER. The question is on agreeing to the motion to proceed. 
Mr. CARDIN. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There appears to be a sufficient second.

The clerk will call the roll.

Mr. DURBIN. I announce that the Senator from Vermont (Mr. LEAHY), and the Senator from Rhode Island (Mr. WHITEHOUSE) are necessarily absent.

Mr. THUNE. The following Senator is necessarily absent: the Senator from Louisiana (Mr. KENNEDY).

The result was announced—yeas 34, nays 63, as follows:

[Rollcall Vote No. 265 Leg.]

YEAS—34

Barraso Fischer Romney
Blackburn Grassley Rubio
Brent Grassley Scott (FL)
Roosman Hawley Scott (IA)
Braun Hoeven Sullivan
Cassidy Johnson Thune
Cornyn Lankford Tillis
Cotton Lee Toomey
Crapo Lankford Tuberville
Cruz Marshall Young
Daines Moran Ricchi
Emmet Rich

NAYs—63

Balduin Heinrich Peters
Benen Hickenlooper Portman
Blumenthal Hirono Reed
Booker Hirono Smith
Brown Inhofe Rounds
Burr Kaine Sanders
Canwell Kelly Sasse
Capito King Schatz
Cardin Klobuchar Schumer
Carper Lujan Shaheen
Casey Manchin Shelby
Collins Markley Sinema
Cuons McConnell Smith
Cortez Masto Menendez Stabenow
Cramer Merkley Tester
Duckworth Murkowski Van Hollen
Durbin Murphy Warner
Feinstein Murray Warmbier
Gillibrand Ossoff Warren
Graham Padilla Wicker
Hassan Paul Wyden

NOT VOTING—3

Kennedy Leahy Whitehouse

The motion was rejected.

(Mr. OSSOFF assumed the Chair.)

The PRESIDING OFFICER (Mr. KELLY). The majority leader.

CHIPS ACT OF 2022

Mr. SCHUMER. Mr. President, as I announced earlier today, in a few moments, I will file cloture on a major piece of legislation that will help our country lower costs, increase American manufacturing, strengthen supply chains, and preserve American competitiveness into the 21st century. It is a very significant piece of legislation, and it will ensure that America and the American economy remain No. 1 on into the 21st century. Specifically, our chips-plus package will now include investments for domestic microchip projection, including ITC; support for our wireless communication supply chain—ORAN—and billions dedicated to scientific research, which includes many of the provisions Senator YOUNG and I authored in the Endless Frontier Act in partnership 2 years ago.

By filing cloture tonight we are keeping this bill on track for final passage very soon. There has been strong bipartisan support already behind this legislation so I hope we can come to an agreement to get it done as quickly as it can because it is so important for the future of the country.

Mr. President, what is the pending business?

The PRESIDING OFFICER. The clerk will report the pending business. The senior assistant legislative clerk read as follows:

House message to accompany H.R. 4346, a bill making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes.

PENDING:

Schumer motion to concur in the amendment of the House to the amendment of the Senate to the bill, with Schumer amendment No. 5135 (to the House amendment to the Senate amendment), relating to the CHIPS Act of 2022.

Schumer amendment No. 5136 (to amendment No. 5135), to add an effective date.

Schumer amendment No. 5138 (to the instructions) amendment No. 5137, to modify the effective date.

CLOTURE MOTION

Mr. SCHUMER. I send a cloture motion to the desk.

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The senior assistant legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the motion to concur in the House amendment to the Senate amendment to H.R. 4346, a bill making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes, with amendment No. 5135.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nomination: Calendar No. 996, Carmen G. Cantor, of Puerto Rico, to be an Assistant Secretary of the Interior; that the Senate
vote on the nomination without intervening action or debate; that the motion to reconsider be considered made and laid upon the table; that any statements related to the nomination be printed in the RECORD; that the President be immediately notified of the Senate’s action and the Senate resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the nomination. The senior assistant legislative clerk read the nomination of Carmen G. Cantor, of Puerto Rico, to be an Assistant Secretary of the Interior.

The PRESIDING OFFICER. The question is, Will the Senate advise and consent to the Cantor nomination?

The nomination was confirmed.

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will now resume legislative session.

UNANIMOUS CONSENT AGREEMENT—EXECUTIVE CALENDAR

Mr. SCHUMER. Mr. President, I ask unanimous consent that at a time to be determined by the majority leader in consultation with the Republican leader of the Senate to proceed to executive session to consider the following nomination: Calendar No. 902; that there be 10 minutes of debate equally divided in the usual form; that upon the use or yielding back of time, the Senate proceed to vote without intervening action or debate on the nomination; that if confirmed, the motion to reconsider be considered made and laid upon the table with no intervening action or debate; that no further motions be in order and any related statements be printed in the RECORD; that the President be immediately notified of the Senate’s action and the Senate resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONDEMNING THE USE OF HUNGER AS A WEAPON OF WAR AND RECOGNIZING THE EFFECT OF CONFLICT ON GLOBAL FOOD SECURITY AND FAMINE

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 434, S. Res. 669.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The senior assistant legislative clerk read as follows:

A resolution (S. Res. 669) condemning the use of hunger as a weapon of war and recognizing the effect of conflict on global food security and famine.

The motion to move to second reading being made and laid upon the table, the Senate proceeded to consider the resolution, which had been reported from the Committee on Foreign Relations, with an amendment to strike all after the resolving clause and insert the part printed in italic and with an amendment to strike the preamble and insert the part printed in italic, as follows:

Whereas, in 2020, an estimated 155,000,000 people experienced crisis levels of food insecurity (Integrated Food Security Phase Classification phase 3 or above), with nearly 100,000,000 people living in environments where conflict was the main driver of hunger, and the COVID-19 pandemic has exacerbated rising levels of global food insecurity;

Whereas conflict acutely impacts vulnerable populations such as women and children, persons with disabilities, refugees, and internally displaced persons;

Whereas the impacts of conflict on food security can be displacement from homes and land, destruction of livestock grazing areas and fishing grounds, or destruction of food stocks and agricultural assets, or indirect, such as disruptions to food systems, leading to increased food prices or decreased household purchasing power, or decreased access to supplies that are necessary for food production and preparation, including agricultural inputs, water, and fuel;

Whereas conflict disrupts the distribution and buying and selling of food within a food system, including by creating shortages in production, increasing real and perceived risks for travel and transport, enabling the formation of illegal distribution channels and markets, and contributing to the breakdown of a government’s ability to enforce regulations or perform its judiciary functions;

Whereas aerial bombing campaigns targeting agricultural heartlands, and the use of scorched earth methods of warfare, landmines, and other explosive devices have direct impacts on the ability of vulnerable populations to feed themselves;

Whereas effective humanitarian response in conflict, including in response to the threat of conflict-induced famine and food insecurity, requires respect for international humanitarian law by all parties to such conflict, and allowing and facilitating the rapid and unimpeded movement of humanitarian relief to all those in need;

Whereas efforts to restrict humanitarian aid and the operational integrity and impartiality of humanitarian aid works and distribution efforts, including through the imposition of blockades, security impediments, or regular bureaucratic requirements, are another means by which combatants employ starvation and food deprivation as a weapon of war; and

Whereas the United States Government has multiple tools to fight global hunger, protect lifesaving assistance, and promote the prevention of conflict, including through the Global Fragility Act of 2019 (title V of division J of Public Law 116–94), the Global Food Security Act of 2016 (Public Law 114–195), and the Agriculture Improvement Act of 2018 (Public Law 115–314), and has the potential to hold accountable those using hunger as a weapon of war through the Global Magnitsky Human Rights Accountability Act (Public Law 116–208) and the Global Magnitsky Human Rights Accountability Act (Public Law 114–328); Now, therefore, be it

Resolved, That the Senate—

SECTION 1. SENSE OF THE SENATE.

The Senate—

(I) condemns the use of hunger as a weapon of war through the

(A) starvation of civilians;

(B) intentional and reckless destruction, removal, looting, and loss objects necessary for food production and distribution, such as farmland, markets, mills, food processing and storage facilities, foodstuffs, crops, livestock, agricultural assets, water supplies, and irrigation networks;

(C) denial of humanitarian access and the deprivation of assistance indispensable to people’s survival, such as food supplies and nutrition resources; and

(D) willful interruption of market systems for populations in need, including through the prevention of travel and manipulation of currency exchange; and

(2) calls on the United States Government to—

(A) prioritize diplomatic efforts to call out and address instances where hunger and intentional deprivation of food is being used as a weapon of war, including through efforts to ensure that security operations minimize civilian harm and do not undermine livelihoods of civilian populations;

(B) continue efforts to address severe global food insecurity through effective humanitarian response efforts, including through the provision of United States in-kind food assistance, vouchers, and other flexible food aid modalities;

(C) ensure existing interagency strategies, crisis response efforts, and ongoing programs consider, integrate, and adapt to conflict situations, including by utilizing crisis modifiers in United States Agency for International Development programming to respond to rapid shocks and stress such as the willful targeting of food systems; and

(3) ensure that the use of hunger as a weapon of war is considered within the employment of tools to hold individuals, governments, militias, and entities responsible, such as the Global Magnitsky Human Rights Accountability Act (22 U.S.C. 2656), where appropriate, and taking into consideration the need for humanitarian exemptions and the protection of lifesaving assistance.

SEC. 2. RULE OF CONSTRUCTION.

Nothing in this resolution shall be construed as authorizing the use of military force or the introduction of United States forces into hostilities.

Mr. SCHUMER. I ask unanimous consent that the committee-reported substitute amendment to the resolution be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee-reported amendment in the nature of a substitute was agreed to.

Mr. SCHUMER. I know of no further debate on the resolution, as amended.

The PRESIDING OFFICER. Is there further debate?

Hearing none, the question is on agreement to the resolution as amended.

The resolution (S. Res. 669), as amended, was agreed to.

Mr. SCHUMER. I ask unanimous consent that the committee-reported substitute to the preamble be agreed to, the preamble, as amended, be agreed to; and the motions to reconsider be considered made and laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee-reported amendment to the preamble in the nature of a substitute was agreed to.

Mr. SCHUMER, I know of no further debate on the resolution, as amended.

The PRESIDING OFFICER. Is there further debate?

Hearing none, the question is on agreement to the resolution as amended.

The resolution (S. Res. 669), as amended, was agreed to.

Mr. SCHUMER. I ask unanimous consent that the committee-reported substitute to the preamble be agreed to, the preamble, as amended, be agreed to; and the motions to reconsider be considered made and laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee-reported amendment to the preamble in the nature of a substitute was agreed to.

The preamble, as amended, was agreed to.

NATIONAL DAY OF THE AMERICAN COWBOY

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Committee on the Judiciary be discharged from further consideration, and the Senate now proceed to S. Res. 686.

The PRESIDING OFFICER. Without objection, it is so ordered.
The clerk will report the resolution by title.

The senior assistant legislative clerk read as follows:

A resolution (S. Res. 686) designating July 23, 2022, as “National Day of the American Cowboy.”

There being no objection, the committee was discharged, and the Senate proceeded to consider the resolution.

Mr. SCHUMER. I ask unanimous consent that the resolution, as amended, be agreed to, and the motions to reconsider be considered made and laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 686) was agreed to.

The preamble was agreed to. (The resolution, with its preamble, is printed in the Record of June 22, 2022, under “Submitted Resolutions.”)

EXPRESSING SUPPORT FOR THE DESIGNATION OF JULY 2022 AS NATIONAL SARCOMA AWARENESS MONTH

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be discharged from further consideration and the Senate now proceed to S. Res. 694.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The senior assistant legislative clerk read as follows:

A resolution (S. Res. 694) expressing support for the designation of July 2022 as “National Sarcoma Awareness Month.”

There being no objection, the committee was discharged, and the Senate proceeded to consider the resolution.

Mr. SCHUMER. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motions to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 694) was agreed to.

The amendment (No. 5143) was agreed to as follows:

(Purpose: To amend the preamble.)

In paragraph (2) of the second whereas clause of the preamble, strike “7,000” and insert “7,200.”

In paragraph (3) of the second whereas clause of the preamble, strike “any 1 time” and insert “any given time.”

In the third whereas clause of the preamble, strike “20” and insert “15.”

The preamble, as amended, was agreed to.

The resolution, with its preamble, as amended, reads as follows:

S. Res. 694

Whereas sarcoma is a rare cancer of the bones, connective tissues, such as nerves, muscles, joints, fat, and blood vessels, that can arise nearly anywhere in the body;

Whereas, in the United States—

(1) about 16,000 individuals are diagnosed with sarcoma each year;

(2) approximately 7,000 individuals die from sarcoma each year; and

(3) about 50,000 individuals struggle with sarcoma at any 1 time;

Whereas, each year, about 1 percent of cancers diagnosed in the United States are sarcoma; and

Whereas more than 70 subtypes of sarcoma have been identified;

Whereas the potential causes of sarcoma are not well understood;

Whereas treatment for sarcoma can include surgery, radiation therapy, or chemotherapy;

Whereas sarcoma is often misdiagnosed and underreported; and

Whereas July 2022 would be an appropriate month to designate as National Sarcoma Awareness Month—

(1) to raise awareness about sarcoma; and

(2) to encourage more individuals in the United States to get properly diagnosed and treated: Now, therefore, be it

Resolved, That the Senate supports the designation of July 2022 as “National Sarcoma Awareness Month.”

REMEMBERING FORMER PRIME MINISTER OF JAPAN SHINZO ABE

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be discharged from further consideration and the Senate now proceed to S. Res. 706.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The senior assistant legislative clerk read as follows:

A resolution (S. Res. 706) remembering former Prime Minister of Japan Shinzo Abe.

There being no objection, the committee was discharged, and the Senate proceeded to consider the resolution.

Mr. SCHUMER. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and that the motions to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 706) was agreed to.

The amendment was agreed to.

The resolution (with its preamble, as printed in today’s Record under “Submitted Resolutions.”)

MEASURE READ THE FIRST TIME—H.R. 8404

Mr. SCHUMER. Mr. President, I understand that there is a bill at the desk, and I ask for its first reading.

The PRESIDING OFFICER. The clerk will read the bill by title for the first time.

The senior assistant legislative clerk read as follows:

A bill (H.R. 8404) to repeal the Defense of Marriage Act and ensure respect for State regulation of marriage, and for other purposes.

Mr. SCHUMER. Mr. President, I now ask for a second reading, and in order to place the bill on the calendar under the provisions of rule XIV, I object to my own request.

The PRESIDING OFFICER. Objection is heard.

The bill will be read for the second time on the next legislative day.

Mr. SCHUMER. I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio.

CHIPS ACT

Mr. PORTMAN. Mr. President, I come to the Senate floor today to correct the record, recall my colleagues in the Chamber voted yesterday to begin consideration of this chips package that we have talked about a lot because they believed it included legislation called Safeguarding American Innovation Act, or SAIA, the bipartisan, Senate-passed, White-House supported, essential legislation to protect taxpayer-funded research and intellectual property from being taken, stolen, by China and other adversaries and then used against us.

So is understandable people thought that because the SAIA research security provisions were in the broader USICA bill that passed the Senate last year. In fact, as the coauthors of USICA know, it was the reason I was one of the then-original Republican co-sponsors of USICA and only because of that. At that time, we needed Republican co-sponsors. And it is understandable because, this week, all Republican offices were emailed a list of items by the lead Republican on this bill which included chips-plus legislation, including SAIA.

So Republicans, when they voted yesterday, thought SAIA was part of it. Even today, Democrats and Republicans alike have come up to me and said they thought SAIA was in this bill.

By the way, they want it in this bill, but it is not. It was stripped out of this USICA. I filed an amendment to get it back in this package. This chip bill is so crucial to the goal of the overall effort, which is, of course, to improve our country’s competitiveness, especially with regard to China. To do that, we must not only invest in more American research and innovation, which I support, but we have to protect that taxpayer-funded research and intellectual property from being stolen by our adversaries and used against us.

Given the current realities, without such protections, I believe this chips-plus bill, with significantly increased levels of Federal funding for research, may well become a giveaway to Beijing.

China’s made no secret of its goal to supplant the United States as the global economic leader, and China has been willing to use every tool at its disposal to be able to do that. As FBI Director Christopher Wray has warned:

The greatest long-term threat to our nation’s information and intellectual property, and our economic vitality, is the counterintelligence and economic espionage threat from China.
Director Wray has characterized China as the largest threat to our ideas, our innovation, and our economic security, noting that the FBI has opened 2,000 cases focused on China stealing our research, with one case being opened approximately every 12 hours.

A number of us, in a totally bipartisan process, have been working on protecting research for the past 4 years. In 2019, an investigative report of the Permanent Subcommittee on Investigations of the Committee on Homeland Security, which I chaired with Senator CARPER as the ranking member, documented, after a yearlong investigation, how China uses talent recruitment programs—like the Thousand Talents Plan—to target the science and technology sectors. Talent recruitment plans recruit high-quality overseas talent—primarily from the United States—including academics, scientists, engineers, entrepreneurs, even celebrities. The plans offer monetary benefits and other incentives to lure experts into providing proprietary information or research to China. This is in violation of our laws and conflict of interest rules. China, in turn, exploits American research, intellectual property, and open collaboration—often U.S. taxpayer-funded—for its own economic and military gain at our expense.

Really, when you think about it, the rise in China’s military and economic power is being fueled by American taxpayer-paid research, where they have essentially leapfrogged us and commercialized it more quickly than us and used it against us.

In just one of many examples, recently, a researcher in Kansas hid his full-time employment with a Chinese research university to obtain Federal grant funding for six different Department of Energy and National Science Foundation projects. Remember, the funding in this bill primarily goes to the National Science Foundation. In fact, the Department of Health and Human Services inspector general recently released a report that found that two-thirds of the NIH grant recipients—another place a lot of research is done, NIH—failed to meet Federal requirements regarding foreign financial interests including instances of U.S.-funded researchers falling to disclose ties with the Chinese Government.

In fact, since our investigation and hearing, there have been at least 23 different Federal agencies investigating theft. In testimony before the Permanent Subcommittee on Intelligence, Senator CARPER noted that the FBI had opened 2,000 cases focused on China stealing our research.

The sentiment was underscored by former national security adviser, retired LTG H.R. McMaster. When asked about China’s growing and intertwined military and economic threat at a March 2021 Armed Services Committee hearing, Lieutenant General McMaster stressed the need for the United States to defend itself saying:

‘It’s gut-wrenching to see how much has been stolen right from under our noses. And much of that research [is] funded by Congress. . . . I think the financial dimension of this is something worthy a great deal of scrutiny. We are, in large measure, underwriting our own demise.’

That is why Senator CARPER and I introduced the Safeguarding American Innovation Act and insisted it be included in the Homeland Security and Governmental Affairs Committee bill. And, again, it was, and it passed. And it is part of the research funding—additional research funding to have these protections around it. It would be necessary even if there was not additional research funding, but now we are spending tens of billions of dollars of more taxpayer money and not providing this security.

Based on feedback from the law enforcement and research community, the legislation goes directly to the root of the problem. It makes it punishable by law to knowingly fail to disclose foreign funding on Federal grant applications.

The FBI wants it badly. It requires the executive branch to streamline and coordinate grant-making between the Federal Agencies so there is continuity, accountability, and coordination. It allows the State Department to deny visas to foreign researchers coming to the United States to exploit the openness of our research enterprise and requires research institutions and universities to do more, including telling the State Department whether a foreign researcher will have access to export-controlled technologies.

The State Department wants this badly. The career people at the State Department helped us write these provisions. They need this authority. They don’t have it now.

So a vital component of any competitiveness bill must be this commonsense, noncontroversial, extensively negotiated, bipartisan bill. It is a matter of our national security. I have described the extraordinary theft of taxpayer-paid research under current laws that is unfathomable: that we would add tens of billions of dollars to sensitive research, as we propose, in the CHIPS-plus package and not protect that research from China and all other adversaries.

I strongly urge my colleagues to support this amendment to ensure that it is part again—as it has been in the past; we all voted for it—of the underlying package. I yield the floor.

The PRESIDING OFFICER. The Senator from Oregon.

U.S. SUPREME COURT

Mr. MERKLEY. Mr. President, on July 4, we celebrated the founding of our Nation, as we do every year. But when I woke up on this July 4, I had a strange thought, a thought I never had before, the question of, What kind of country are we celebrating?

I have always had immense pride in the founding vision of our Nation, in that vision of equality, of opportunity for all, of freedom of religion, of equal justice under the law, of equal representation, and, most importantly, of government of, by, and for the people.

Our journey as a nation over nearly 250 years has been a difficult journey of moving toward full implementation of this vision. That is an inspiring journey—a journey I have been proud to witness, a journey I have been proud to be a part of.

But just days before this year’s July 4 celebration, we saw the conclusion of the Supreme Court’s latest judicial term—a term over which the Court displayed a far different vision for America: one with devastating repercussions that will reverberate in the lives of countless Americans for decades to come.

For years now—actually, for decades, we have watched a steady, relentless effort by rightwing extremists to rig the courts so they can transform America and American society as we have known it. Their big goal is corporations over people and their second goal is to implement conservative cultural policy over individual freedom and liberty.

Now, with this Court’s recent decisions, we are left with an inescapable conclusion: The extremists have succeeded. The Court is now operating as an unelected super-legislature with a MAGA political agenda. Their decisions this term real like planks out of the Republican Party platform.

Here is what the MAGA Court’s vision is for our Nation. It is a vision that obliterates the right to privacy, giving an overbearing Federal Government the power to be in the medical exam room making the conclusive health decisions for American women, when the only people who should be in the exam room, under an “of and by the people” Republic is the woman, her doctor, and whomever else she chooses to invite—her partner, her friend, or her mother.

This Court’s vision is a vision that embraces never-ending gun violence, stripping Congress and the States of
the ability to make common sense gun safety laws.

It is a vision of a nation where public schools can impose religion on their students. So much for freedom of religion and separation of church and State.

It is a vision of a nation where wrongfully incarcerated Americans don’t have the right to prove their innocence and can’t find justice if their Miranda rights were violated. So much for the principle of equal justice under law, the very principle carved into stone above the doors of the Supreme Court. In fact, if you go out this door and out the front steps, you can see those words while standing here on the steps of the Senate.

This Court’s vision is of a nation where the Court strips the Federal Government of its legally enacted power to regulate fossil carbon and fossil methane, saying the Federal Government cannot regulate fossil carbon and fossil methane. This is a vision of a nation where public safety and the environment are not protected, and the Federal Government cannot act to stop the Federal Government from reversing its action, including reversing the Trump administration Clean Water Act regulation.

They have announced that next term they are going to hear a case on the fringe doctrine known as the independent State legislature doctrine. It has been considered an extremist idea, which says only State legislatures have the power to make decisions about Federal elections and how to appoint electors. State courts would have no power to enjoin the breaches or decide which decisions about elections violate a State constitution or ignore the will of the voters, nor could State Governors veto such legislative decisions. And that is just the start.

Justice Thomas said in his concurring opinion that, based on the reasoning in Dobbs, he wants the Court to consider a whole host of other rights that have been secured and protected by previous Courts, including the possibility of striking down the right to intimacy and marriage for same-sex couples and the right to contraception. Make no mistake, this is not some sudden occurrence. It is exactly what the Federalist Society has been working toward for years.

Before joining the Court in 1972, Lewis Powell wrote about the need to rebuild the power of industrial elites and fight back “from the college campus, the pulpit, the media, the intellectuals and the artists and sciences, and from politicians” against progressive changes in society. In outlining a plan for rebuilding the power of Big Business, he declared that, with an activist-minded Supreme Court, the judiciary would be the most important instrument for achieving that goal.

That is exactly why, as majority leader in 2017, Senator McConnell stole a Supreme Court seat from one President so another President could fill it. He stole it in 2018, and he filled it in 2017 with MAGA Justice Neil Gorsuch. It is why, in 2018, Leader McConnell completely ignored credible accounts of sexual assault and rushed through a confirmation without giving nominee Brett Kavanaugh’s full records and bypassing committee quorum rules to fill another seat with MAGA Justice Brett Kavanaugh. And it is why, when a seat opened up in another election year, 2020, just weeks before the voters would vote, Leader McConnell completely reversed his argument that he had used to justify the theft of a Supreme Court seat in 2016, and he rammed through the nomination of MAGA Justice Amy Coney Barrett.

The Republican Party has won one popular vote for President in the last 30 years but has appointed two-thirds of the sitting Justices, who now see it as their job to become a super-legislature for a cultural agenda and corporate power. In one of his columns, Eugene Robinson of the Washington Post described the resulting unecessary, unacceptable majority of Supreme Court Justices as “a junta”—a word used to describe authoritarian leaders who rule through edicts rather than through legislative determination or deliberation on constitutional principles. It is hard to argue with Eugene Robinson’s characterization.

In spite of what the vast majority of Americans want—the protection of a woman’s right to full reproductive healthcare and more gun safety, not more Supreme Court decisions like the Court’s MAGA majority has chosen to rule by Supreme Court edict to inflict their narrow preferences for society on hundreds of millions of Americans. And they are not just using the regular process for considering cases. Over the past 5 years, we have seen a monumental shift in the Court’s use of emergency orders—the so-called shadow docket—to enact sweeping decisions on issues that can’t be heard. They don’t get the full process we are familiar with—formal briefings, formal hearings, lengthy deliberations, and opinion writings—because it is argued that the applicant would suffer “irreparable harm” if their request were not immediately granted.

The shadow docket decisions, by the way, are usually unsigned and unexplained. In the past, they have essentially involved death penalty cases—cases of literal life and death—of pretty much extreme importance to the applicant because, if someone is executed before their case is heard, they do suffer “irreparable harm”—the standard.

Then, about 5 years ago, we started to see a big shift in the emergency cases being taken up and in the substance of them as well. We have seen the shadow docket used to stop the Federal Government from implementing a vaccine and testing mandate on businesses to protect public health in the middle of an unprecedented global health crisis that has killed more than a million Americans.

We have seen it used to uphold a Texas law banning abortion after 6 weeks.

We have seen it used when a lower court blocked Alabama’s congressional map because it violated the Voting Rights Act by diluting the power of Black voters.

The Court said: You have got to draw a new map that is fair.

The Supreme Court stepped in with their shadow docket and said: No. Alabama can use this faulty map that dilutes the power of Black Americans.

And in this situation, the Court didn’t stop the infliction of harm; they inflicted the harm on Black Americans, who want fair maps, who deserve fair maps for voting in our democracy. That gerrymandered map is now in place to disenfranchise Black voters in this November’s election because of the Supreme Court’s use of the shadow docket.

It is hard to see how any of these cases met the test for the shadow docket.

The state of abuse of the shadow docket has gotten so bad and so blatant that even Justice Roberts, the Chief Justice of the Court, joined a dissension by the Trump administration Clean Water Act regulation limiting Federal protections for streams and wetlands. This dissent
stated that the majority’s decision “renders the court’s emergency docket,” meaning the shadow docket, “not for emergencies at all . . . The docket becomes only another place for merits determinations—except made without full briefing.” In his dissent, the Supreme Court’s Chief Justice says the shadow docket is being abused, you know it is true.

This MAGA Court is so determined to impound their legislative priorities and values on our country that they have abandoned one of the core principles of American jurisprudence, going back even before there was a United States of America, and that is that the Court only rules when there is an actual dispute or controversy in question.

In their eagerness to cripple the Federal Government’s ability to fight fossil carbon pollution, the MAGA Justices weighed in on a regulation that had already been enjoined—a regulation that had been withdrawn by President Trump and a regulation which President Biden had indicated was never going to be reinstated. Even the utilitities that would have been regulated didn’t even know what a “corporation” didn’t exist. Yet the Court ruled that a State legislature didn’t even know what a “corporation” didn’t exist when the Court wrote what they wrote in 1787. That is bogus originalism in its purist form.

Some will say there is no way to restore the Court and that any strategy for restoring the Court will simply compound the problems we are now facing. I agree that there is no simple way to restore the legitimacy of the Court. Some will say there is no way to restore the Court and that any strategy for restoring the Court will simply compound the problems we are now facing. I agree that there is no simple way to restore the legitimacy of the Court. Some will say there is no way to restore the Court and that any strategy for restoring the Court will simply compound the problems we are now facing. I agree that there is no simple way to restore the legitimacy of the Court.

The MAGA majority and its desire, and operation as a super-legislature—unelected, lifetime appointments—is a dire threat to our Republic. Here in Congress, we must not only shine a light—a spotlight —on the threat; we must stop the runaway MAGA Court from corrupting the rule of law and try to restore the legitimate role of the Court as a panel defending our Constitution.

The problem we face, colleagues, isn’t just a MAGA-majority Court enacting terrible policy rather than defending the halls and strikes against the Constitution. The problem is greater. The MAGA majority and its desire, and operation as a super-legislature—unelected, lifetime appointments—is a dire threat to our Republic. Here in Congress, we must not only shine a light—a spotlight—on the threat; we must stop the runaway MAGA Court from corrupting the rule of law and try to restore the legitimate role of the Court as a panel defending our Constitution.

Consider corporations, as we know them today, did not exist in 1787. Yet the so-called originalists on the Court insist that the Founders’ vision of the First Amendment, to protect freedom of speech, gives corporations speech rights even though the word “corporation” doesn’t appear in the Constitution—a point that they use when they want to take an originalist argument: that the Founders had to have it be some thing written in the Constitution and be something they discussed and something they considered and something they envisioned. None of those are true. Not a one of them is true in this case.

The MAGA Court also claims that a corporation is a person, which no Founder would ever have argued. They didn’t even know what a “corporation” was because they didn’t exist in this form that we have now.

The MAGA Court also claims that the right to privacy comprising the corporate personhood—those are the stockholders of a corporation—have absolutely no right to know how that corporation that they are part of spends their money. This is absurdity stacked on the fallacy that a corporation is a person.

I have yet to see and yet to hear any plausible explanation as to how the MAGA Justices can claim that the Founders intended for billionaire CEOs to hijack the accumulated wealth of their stockholders without their stockholders’ knowledge or permission or opportunity to know what is being said and to use that money as speech and activism or to fund political campaigns, including campaigns to confirm Supreme Court Justices.

The problem the we face, colleagues, isn’t just a MAGA-majority Court enacting terrible policy rather than defending the halls and strikes against the Constitution. The problem is greater. The MAGA majority and its desire, and operation as a super-legislature—unelected, lifetime appointments—is a dire threat to our Republic. Here in Congress, we must not only shine a light—a spotlight—on the threat; we must stop the runaway MAGA Court from corrupting the rule of law and try to restore the legitimate role of the Court as a panel defending our Constitution.
seats. It was the first time in the history of the United States of America that this Senate failed to debate and vote on a nominee. But here we are; the damage is done. What do we do now?

When an arsonist sets fire to your house, you don’t let it burn because you are worried about water damage. You have to strive to put out that fire, regardless of how difficult the task. So I say to you today, we cannot accept the defeatist attitude that fails to confront the forces destroying our Republic.

There are two things we must do. Mission one, we have to reform the ability of this broken Senate to serve as a legislature because, if it serves effectively as a legislature, it can serve as a counterweight to decisions of a corrupted Court.

The second thing we have to do is put all options on the table and debate them for directly reforming the Court, recognizing that there are both difficult choices on how to do that. But we have to step up. It is necessary to save our Republic.

So let’s take each of these missions in turn. The first is to restore the Senate as a legislature.

Our goal: Restore the Senate as a legislative body to serve as a check to the corruption of a MAGA-majority Court.

There are three massive problems currently afflicting the Senate’s ability to serve as a functioning legislative body. First, we spend virtually all of our time on nominations, so much time that it keeps us from doing much legislating, even though we have a massively complex society and a lot of possibilities for making it work better.

When George Washington was assembling his first administration, he had to appoint and the Senate had to confirm four Cabinet positions: Secretary of War, Secretary of the Treasury, Secretary of State, and Attorney General—four positions. Today, the Senate is responsible for confirming over 1,200 Presidential appointments to executive branch positions and commissions.

Now, in the past, both parties worked to exercise the Senate’s advice and consent responsibilities in a manner that minimized the amount of Senate time required. Most were done by unanimous consent late at night, when practically anyone was here. Now, most nominations are not ones to which anyone has an objection.

In the entire decade of the 1960s, there was one vote required to close debate on a nominee—one, in an entire 10 years—of last decade, that number went to 545. Now, it is like every nomination. Virtually every nomination we have to file to close debate and vote to close debate before we can vote on the nominee. And do you know what? The way it works, you can also require 30 hours and it is not after the vote to close debate succeeds. So the rules, which were designed for exceptional situations where there is a significant objection, are now used as partisan obstruction.

Democrats are in the minority. They want to tie up the Republicans. So they have little time to legislate.

Republicans are in the majority. They want to make it easier for Democrats. So they have little time to legislate.

They want each other to fail, partly because they disagree and partly because they know if the other side succeeds in making something work, the voters might reward them at the ballot box.

We have to massively streamline this nomination process. We have to—100 Senators—work together, not do what is best for us when we are in the majority and oppose it when we are in the minority, or vice versa. We all have a responsibility to completely streamline that process so we can return to being a legislature.

The second big problem for the Senate is that the rules provide a complicated, time-consuming process for debating and voting on whether to debate a bill. It involves a motion to proceed or requirement to close debate on the motion to proceed and whose nomination is up to 30 hours of additional debate. Whether we can debate a bill or not to debate. You have 100 capable people sent here by their constituents in their various States to solve problems for America, not to spend a week debating whether to debate a single bill. That could be what we spend our time on discussing the amendments that could make the bill better, a week spent considering individual pieces of the bills so the public knows where we stand and there is public accountability. But, instead, we have partisan paralysis. A completely dysfunctional Senate, that is what we have. We have to change the rules to stop this completely meritless waste of the time and efforts of 100 Senators.

It is an easy solution: 1 hour spent debating whether to debate a bill, and then a simple majority vote, either we go to the bill or we don’t; easy solution. One hour makes much more sense than 1 week.

The third big problem this Senate Chamber faces is a secret silent filibuster. Under the Senate rule—and by the way, the term “filibuster” is really inappropriate because this involves no speaking of any kind. Under the Senate rule, 41 Senators can, operating as a bloc, object to the capacity for the Senate to debate a bill, veto the opportunity for the Senate to consider an amendment, and veto the ability, after amendments have been considered, to have a final vote on the bill. It is the triple veto—three opportunities for the minority to block the majority from being able to consider legislation to address the issues facing America. And both parties have attempted to use it when they are in the minority. We have to restore the ability to actually debate.

It is exactly what the Founders feared. When I lay out that 41 can block and veto these 3 steps of the process, it means to reverse it—that 60 out of 100, a supermajority, has to agree to go forward through each of those three steps.

The Founders warned us: Never allow the minority to make the decisions by reversing a supermajority vote. That is why James Madison said that, with a supermajority, when “the general good might require new laws . . . the principle of free government would be reversed. It would no longer be the majority that would rule: the minority would be transferred to the minority.”

It is why Alexander Hamilton warned that a supermajority requirement would result in “tedious delays; continual negotiation and intrigue; contemptible compromises of the public good.”

He also warned that “the history of every political establishment in which this principle has prevailed”—the principle of supermajority—is a history into impotence, paralysis, and disorder.

Now, you may wonder if the Founders had simply read about someone somewhere requiring a supermajority for legislature and said it didn’t work very well and thought, We had better change that. No. If they were writing from their direct experience because, as they were drafting and debating our 1787 Constitution, they were actually in the middle of living through the impotence and incompe-
tence of the Confederation Congress.

Under the Articles of Confederation, which preceded our 1787 Constitution, the Congress had to have a supermajority on every provision; meaning, the position of the minority could prevail over the position of the majority. The result was paralysis on the most fundamental issues they faced. They failed to raise the funds to pay the pensions of the veterans who spilled their blood in the Revolutionary War that created this Nation. They failed to raise the funds to put down Shays’ Rebellion.

Well, today, we have not one stage of veto, like they faced in the Confederation Congress, we have the triple veto power under the current secret, silent filibuster, and we are seeing the same impotence, the same paralysis, the same partisanship that it drives.

The triple veto power of the minority is destroying the Senate to address the issues facing America, and there are a lot of them.

We have got the climate crisis that is literally setting our country on fire. Right now, at this very moment, around 40 million Americans across the Plains and the Mississippi Valley are dealing with floods for dangerous and intense heat, while firefighters are confronting 89 large fires across 12 States. And as of last week, four times as much acreage has burned this year as last year at this moment.

And it is not just America, of course. Across the Atlantic, Europe is going through a recordbreaking heat wave, reaching temperatures some of those
places have never seen and causing wildfires to burn in France and Spain and Italy and Greece.

Congress should be immersed in considering bills to address the climate crisis that is damaging communities across the country, just through fires but through rising sea levels and rising erosion, through pine beetle infestations and mosquito infestations, through stronger hurricanes and stronger tornadoes, and, certainly, through the spates of multiyear droughts. But we are not because the triple veto of the silent, secret filibuster afflicting this body is blocking us from doing so.

We have a housing crisis. Out-of-control rents and prices make it impossible for millions of Americans to afford a decent home to rent or buy. And colleagues have one idea after another about how we should address it, but because we are paralyzed and our process is taken up, our time is taken up with nominations and debating whether to debate and we have the triple veto of the secret, silent filibuster, they can’t move forward. And we aren’t debating, discussing, and hopefully passing measures that can make a difference.

And the outrage is about the prices they pay on drugs, which are so much higher than any other developed country. Eighty percent of Americans say: Do something about it. And I think the other 20 percent don’t realize how much we are getting ripped off. And Americans know we should get the best price because we invest the most in the research and development that creates these drugs, not the worst price, and they are absolutely right. And we would have passed legislation by now to get the best prices in the developed world, but we are blocked by the triple veto of the secret, silent filibuster.

And now States are passing laws to blockbyter groups of Americans from voting. We can fix that by passing S. 1, the For the People Act, or its re-incarnation, the Freedom to Vote Act, but we can’t because it was blocked by the triple veto of the secret, silent filibuster.

Let me be absolutely clear. The single most effective way we can counter-balance an out-of-control Court with a MAGA agenda is to have a functioning Senate. That is the most immediate remedy we can give the leaders, as they did in the 2019 Rucho v. Common Cause decision, well, a reformed, restored Senate could pass the DISCLOSE Act to shine a light on all dollars and where it is coming from in American campaigns.

If the Court says that anyone who wants to be able to carry a concealed weapon must be allowed to do so in their New York State Rifle & Pistol Association v. Bruen decision, a restored, functioning Senate could pass stronger gun safety laws that most Americans support, like ending the background check loophole—when guns are bought and sold by unlicensed parties online or at gun shows—or by outlawing the kinds of large magazines that carry 30 or more bullets that are often used in mass shootings.

And when we got to abnormally great lengths to decide in last month’s West Virginia v. EPA that the Agency can’t regulate fossil carbon or fossil methane emissions, a functioning Senate would be able to step up and create the programs designed to speed our transition to renewable energy, which would have the added benefit of ending our addiction to oil and dropping the prices at the pump, and it would keep money out of the hands of dictators in Russia, Saudi Arabia, and Iran that is funding this secret, silent filibuster has blocked us from doing so.

The remedy is not to eliminate the filibuster. The remedy is to reform it. The right reform is to adopt the public, talking filibuster. The talking filibuster would reassert the fundamental principle of legislative conduct: the Senate Code, adopted by the original Senate. Under that code, the Senate listened to every Senator’s perspective, and they can’t afford to have that—let’s not have the talking filibuster. It is the heart of the Senate Code. That was the Senate Code.

The original rules provided that every Senator had the right to speak twice. It was rule No. 4 in the original rules. It is in our rules today. But the spirit of that code—listening to each Senator and then voting, with the majority winning, not losing—that part is gone. Now, it is the minority that can exercise a triple veto absolutely exactly the opposite of what the Founders said to us. They said: Don’t do it. And we have done it in triplicate form, paralyzing this place and accentuating the temptation of yielding to partisanship rather than problem-solving.

Jefferson did say that this rule, this code of listening to every Senator and voting, should not be abused. In fact, he said this in his manual for rules in 1801:

No one is to speak impertinently or beside the question, superfluously or tediously.

It worked for the Founders. They exercised some self-control, so much so that they didn’t need the rule that they had to close debate. They just simply listened to everyone with mutual respect and then said: OK. Let’s take a vote.

You want to see that in action today? Watch the committee process on a bill with amendments. There is no one filibuster—speaking forever. There is no one requiring a supermajority to close debate in committee. They operate—we operate—in committee, much like the original Senate, and it works pretty well, but we have completely lost that discipline when it comes to debate here on our floor.

So the early Senate had a rule for the previous question motion, to close debate or accelerate the closure of debate. And when they rewrote the rule book—and Aaron Burr was in charge of it—in 1806, they dropped the rule because they never used it, didn’t feel they ever needed it.

Well, we need to reclaim that vision, and our rules have gotten so crazy, so out of whack, that we encourage partisanship and paralysis rather than problem-solving. Let’s fix that. So let’s have the talking filibuster. The talking filibuster says, Yes, you can speak on the issue. We will listen to you. You can speak twice. But then we vote, and the majority wins—not a supermajority required. The minority doesn’t win over the majority. The majority wins.

That was the Senate. That was the design of our Constitution that we have the responsibility to restore because we took an oath to the Constitution. So let’s restore it. And that talking filibuster encourages bipartisan problem-solving. The minority, be it the Democratic or Republican, that wants to slow things down for leverage, they can. So they have significant leverage, but, on the other hand, they have an incentive to negotiate because they are not sure how long they can make the continuous filibuster. And that is the heart of the talking filibuster: maintaining continuous debate. If there is a break in debate, you go to the vote.

Meanwhile, the majority has an incentive to compromise because they know the minority can tie this place up on a single bill for week after week, and they can’t afford to have that much time taken over a single bill. So the talking filibuster restores an incentive for compromise and bipartisan problem-solving and, in the end, restores the vision that the majority makes the decision, not the minority. In the end, it gives the minority a voice. It gives the minority massive leverage, but it takes away their veto. That is the right way to legislate in a democracy.

As I noted before, fixing the Senate is probably the best immediate tool we have for repairing the damage from the Supreme Court across the grounds. But we also have to consider every possible remedy to restore the Court itself, to restore a Court that calls the balls and strikes on the Constitution, defending
its core principles, and recognizes it is not there to legislate—not to legislate on the left side, not to legislate on the right side. They are there to defend the Constitution.

Well, reforming the Court won’t be easy, and President Biden should convene a Commission to explore the option, and that Commission has produced a lengthy, lengthy report. This is part of it: The Presidential Commission on the Supreme Court of the United States, December of last year. I encourage all my colleagues to read this and consider the ideas in it. In this 300-page report, the Commission does review the history of how the Court has been in different phases, and its size has changed all the time because that is not established in the Constitution. It has been as few as 5, and it has been more than 10. There was not nine locked in like it is now.

And, certainly, one of the ideas they review is adjustment to the size of the Court. Many people have said that is something to look at to balance what has happened with the Court, with the stolen Supreme Court seat and a decision by several Justices to be a legislator rather than a court.

We’d be deluding ourselves that is one idea. Another is implementing term limits or a mandatory retirement age because, when the Constitution was first written, people weren’t living the long lives they have today, and they didn’t stay in the Court forever.

In 1787, the Founders wrote that Justices would hold their seats during good behavior. Now, I am not sure that every Justice across these grounds has been engaged in good behavior when they are choosing to legislate rather than to rule on the defense of the Constitution, but there is no easy way to remove them from the Court for misbehavior.

But one possibility is for the Court members to ratify out with term limits of some kind. That is one possibility.

In much of our history, Justices only served an average of 15 years on the Court. The average is now 26 and getting longer. And, did you know, America is the only constitutional democracy that gives lifetime presence on the Court, that doesn’t have either a term limit or a mandatory retirement age?

This report, this Commission, has other ideas in it: rotating membership on the Court with judges selected from the circuit court. You know, the original Supreme Court, they served as circuit court writers. They went out and made decisions across this country. They didn’t just sit in a room in the capital. So there is some precedent for that idea.

And others point out that there is the power to restrict the Court’s jurisdiction. There are pros and cons for these ideas. Does our commitment need to be to examine them. The American public is open to examining them.

Earlier this week, the FOX News poll reported that 66 percent of the folks in their poll support an 18-year term for Justices, and 71 percent support a mandatory retirement age. So the American people are open to trying to fix the challenge with the Court. We have been engaged in a fix. We need to look at every option and idea very carefully to ensure that the highest Court in our land fulfills the vision for it in our Constitution. And the vision in our Constitution was not that it would be an unelected super-legislature.

Colleagues, this is a perilous moment for our Republic. It is a moment when the will of the people is being overrun by an extreme agenda of a Court legislating from the Bench, imposing their narrow and precedent-destroying will on all Americans. We have to restore the ability of this Senate to operate as a legislature that can be a counterbalance to what the Court does, and we must thoughtfully consider every proposal for reforming the Court directly.

We can and we must act before it is too late. We can’t stand by and watch the continuous disintegration of our Republic.

Our oath to the Constitution demands that we protect these institutions and repair them when they go off track. And when we do, the next July 4, we can all join together and celebrate the restoration of our paralyzed and partisan Senate into an actual legislative body. We can celebrate the restoration of Americans’ rights that are being continuously stripped away across the grounds by the Supreme Court. We can have a renewed belief and confidence in the integrity of all of our institutions and our democratic form of governance. That would be a moment justifying a massive celebration next July 4.

And others point out that there is the power to restrict the Court’s jurisdiction. There are pros and cons for these ideas. Does our commitment need to be to examine them. The American public is open to examining them.
Peace Corps’ return is a testament to the resilience and adaptability of this vitally important branch of U.S. foreign affairs. COVID’s continued presence around the world requires the Peace Corps to undertake a wide array of public safety measures to keep volunteers and host communities healthy and safe.

And so this reauthorization comes at a most critical time for the Peace Corps. This is a once-in-a-generation opportunity to enact long overdue reforms and to make sure the agency can effectively respond to changing, interconnected peace, development, and people-to-people engagement. And it represents significant reforms and strong bipartisan congressional support for the Agency at an inflection point in its history.

This legislation will strengthen the Peace Corps, giving it the baseline budget it needs to build the program that Americans deserve. It sets a $375 per month minimum for the Peace Corps volunteers’ readjustment allowance. It suspends student loan interest during volunteer service. It extends health care coverage for returned volunteers in the Peace Corps volunteers. And it provides greater whistleblower protections so the Peace Corps will be transparent and accountable, honoring the standards and aspirations of its original vision, as outlined in 1961.

The Peace Corps is on track to redeploy volunteers to 30 countries by the end of this fiscal year. And it has set an aggressive goal of returning volunteers to almost all of the prepandemic countries by the end of fiscal year 2023. The programs and policy reforms authorized in this legislation are crucial to ensuring the safe and successful return of volunteers to the field.

I am especially proud of the bipartisan work that has gone into this bill and appreciate the collaboration of the ranking member of Senate Foreign Relations Committee, Senator Risch, for joining us at this important legislation. And I am pleased that we are joined by our colleagues, Senators CARDIN, YOUNG, SHAHEEN, PORTMAN, FEINSTEIN, and CORNYN, who should be commended for their support of the Peace Corps and to ensuring the Peace Corps can continue to support and enhance America’s leading role in the world.

I also want to salute the tremendous input from the Peace Corps community. Their commitment to improving security, conditions, and opportunities for future Peace Corps volunteers is vital to the introduction of this bill and improves our national security as well.

So I urge my colleagues to support this bill and its swift passage. Passage of this bill will help bring about a revitalized, retooled Peace Corps. Making this happen will be the return of volunteers executing the important work of the Peace Corps, representing the United States of America overseas.

10-YEAR ANNIVERSARY OF THE AURORA, COLORADO, SHOOTING

Mr. BENNET. Mr. President, on July 20, 2012, Colorado suffered a horrific mass shooting at a movie theater in Aurora. A gunman took 12 innocent lives from us, each of them full of aspirations for a future that was tragically and senselessly cut short. They leave behind family, friends, and a community in Aurora that still carries the pain of their loss a decade later.

Colorado will never forget and forever honor those who lost their lives in this tragic shooting. Today, I ask to read their names into the CONGRESSIONAL RECORD.

Jonathan Blunk was 26 years old. He was a father of two who moved to Colorado in 2009 after three tours in the Persian Gulf and North Arabian Sea for the U.S. Navy. He was a certified firefighter and EMT. Jon lost his life protecting his friend Jansen Young from the gunman’s line of fire. Jon shielded her from gunfire by pushing her to the ground while shots were fired. He was supposed to fly that Saturday to Nevada to see his wife Chanel Blunk and his 4-year-old daughter and 2-year-old son. Instead, his wife had to put up the dress her daughter had picked out to wear to the airport. She told her daughter that they would not see their dad anymore, but that he would still love them and look over them.

Alexander Jonathan Bolk was 18 years old. His friends and family called him A.J. He had graduated from Gateway High School. He enjoyed baseball, music, and making pottery. A.J. was supposed to start art classes at the Rocky Mountain College of Art and Design that fall. He was described as “as being the life of the party,” who could bring a smile to anybody’s face.” He was a young man with a warm and loving heart.

Jesse Childress was 29 years old. He was an Air Force cyber systems operator based at Peterson Air Force Base. A.P. loved to play flag football, softball, and bowl. He was a devoted fan of the Denver Broncos and held season tickets. His superior officer described him as an invaluable part of the 310th family who touched everyone with whom he worked.

Gordon Cowden was 51 years old. He was originally from Texas and lived in Aurora with his family. He was “a quick witted world traveler with a keen mind.” He had just graduated from Gateway High School. He loved to play flag football, softball, and bowl. He was a devoted fan of the Denver Broncos and held season tickets. His superior officer described him as an invaluable part of the 310th family who touched everyone with whom he worked.

Jessica Ghawi was 24 years old. She was a young girl with a warm and loving heart. Jessica Ghawi was 24 years old. She was a young girl with a warm and loving heart.

John Thomas Larimer was 27 years old. Originally from Texas, John was the youngest of five siblings and had joined the service just over a year before the shooting. Like his father and grandfather, John chose to serve in the U.S. Navy. John’s superior officer called him “an outstanding shipmate, a valued member of the Navy and an extremely dedicated sailor.” Colleagues praised his calming demeanor and exceptional work ethic.

Matthew McQuillen was 27 years old. Matt died while protecting his girlfriend Samantha Yowler by jumping in front of her during the shooting.

Jessica Ghawi was 24 years old. She was a young girl with a warm and loving heart.

at a mobile medical imaging company. Rebecca was also enrolled at the Community College of Aurora and had been working toward an associate of arts degree. She was known to family and friends as a “gentle, sweet, beautiful soul.”

When I came to the floor a decade ago, I said that scripture tells us “not to be overcome by evil, but overcome evil with good.” That is what the people of Aurora have done for the past 10 years. Today, we recommit to not recommit July 20 for the evil act that day.

We choose to remember the beautiful lives lost and the loved ones they left behind.

We choose to remember the 70 wounded survivors, whose resilience in the years since is a testament to humanity’s resolve.

We choose to remember the heroic acts of everyday citizens, our first responders, and medical personnel who saved lives that otherwise surely would have been lost.

And we choose to remember the profound generosity of the Coloradans and Americans who donated blood in record numbers and raised funds to support the survivors.

A decade later, Colorado and the country continue to draw strength from the example set by the people of Aurora. And we recommit to ending the American scourge of gun violence—unique among industrialized nations—that has cut short too many innocent lives in our communities.

AFGHANISTAN

Mr. HAWLEY. Mr. President, following my submission yesterday, I ask unanimous consent to have printed in the RECORD the next part of an investigation directed by the U.S. Central Command concerning the Abbey Gate bombing in Afghanistan in August 2021.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

ACTS–SCK–DO SUBJECT: Concerning the Abbey Gate evacuation and Crowding in the Abbey Gate

D. READINESS

(1) Key Findings

(a) U.S. forces used assets that deployed to HKIA in support of the Afghanistan NEO, with the exception of USFOR–A WDF and JTF–CR, had adequate manning levels for the assigned mission. USFOR–A FWD and JTF–CR staffs were tasked-saturated due to the nature of the NEO. The effects were further exacerbated by the fact that many of their personnel had been forced to expend their training trying to find specific evacuees, or groups of evacuees, at the gates of HKIA, on behalf of...
various U.S. government officials, senior military officers, or special interest groups.

(b) All units deployed to HKIA in support of the Afghanistan NEO had trained on their respective mission essential tasks (METs) prior to deployment. In some cases, this included NEO-specific training, while in others it did not. Leaders at all levels stated no training was specifically prepared for what they experienced at HKIA.

(2) USFOR–A FWD.

(a) Training. USFOR–A FWD, led by RADM Pete Vaseley, USN, Commander, USFOR–A FWD, and Brigadier Thomas Day, United Kingdom, Deputy Commander, USFOR–A FWD, tasked organized and manned as a SOJTF in anticipation of taking over the NSOCC–A mission. In June 2021, they transitioned into Diplomatic Assurance Platform (DAP), with a focus on the medical, flight, and security requirements of USEK (exhibit 20). In July 2021, RADM Vaseley took command from General Miller, and assumed the functions of Resolute Support Headquarters (RSHQ) and USFOR–A, albeit with a drastically reduced footprint due to a reduced boots on the ground (BG) strength of 650 being augmented. In addition to USFOR–A FWD’s organic staff, they had TACON of one company from 2nd IBCT, 16th Mountain Division, and two companies from 1st IBCT, 10th Mountain Division (exhibits 20, 21).

(b) Training. USFOR–A FWD trained to deploy and operate a SOJTF, but training did not prepare them for the role of RSHQ and USFOR–A, nor did they train to conduct a NEO. While deployed, USFOR–A FWD participated in the 26 June Operational Planning Team (OPT) at USEK, focused on pre-NEO planning. USFOR–A FWD then participated in the CENTCOM-led NEO tabletop exercise (TTX) on 29 June, and a National Command (NSC)-led NEO TTX on 6 August (exhibits 20, 21).

(3) 82nd Airborne Division.

(a) Manning. The 82nd Airborne Division, led by MG Christopher Donahue, initially deployed with a small team of six staff members, and arrived at HKIA on 18 August. The remainder of the Division’s HQ staff arrived on 20 August, bringing the 82nd’s total manpower to 106 personnel (exhibits 125, 152). The 1st IBCT, 82nd Airborne Division (1/2 IBCT), led by (TEXT REDACTED) deployed as part of the FST at HKIA on 15 August, and had roughly 1000 soldiers on hand by 16 August. The number of personnel TACON could sustain had dwindled to nearly 800 throughout the NEO (exhibits 130, 152). The 1/2 IBCT HQ was comprised of 65 personnel, and it had TACON of elements from 1/504 PIR (155 personnel), 2/504 PIR (375 personnel), 2/501 PIR (504 personnel), 3/319 Artillery (257 personnel), 397th Brigade Support Battalion (BSB) (56 personnel), 127th Airborne Engineer Battalion (24 personnel), 50th Expeditionary Signal Battalion (4 personnel), 18th Military Police Brigade (150 personnel), and 1/194 Armor Regiment (412 personnel) (exhibits 150, 152).

(b) Training. The 82nd Airborne Division HQ is trained to deploy rapidly, as part of the IRF, and did so in support of the NEO. While deployed to HKIA, the Division HQ participated in MASCAL TTXs and Rehearsal of Concept (ROC) drills, as well as Rules of Engagement (ROE) ROC drills with subordinate and echelon-up units (exhibit 125). 1/2 IBCT began its IRF preparation training in March 2021 during its Joint Readiness Training Center (JRTC) rotation. During the IRF, the 1/2 IBCT units rehearsed for engagement, conducted mock interagency engagements, utilized role players, and trained on entry control point operations. They led a crowd control engagement, 121, 123). The 1/2 IBCT conducted Leader Professional Development sessions, where they executed tactical decision games focused on NEO (exhibits 121, 123). The brigade also trained to secure airfields (exhibits 121, 123, 124), 2/501 PIR executed three deployments (exhibits 121, 123), where they practiced deploying out of Joint Base Charleston, South Carolina (exhibit 123).

(1) JTF–CR.

(a) Manning. JTF–CR activated in anticipation of the Afghanistan NEO, and initially had a joint manning document (JMD) with roughly 175 people assigned. By 16 August, the JTF sent three Liaison Officers (LNOs) forward to Afghanistan in May 2021 to coordinate with USFOR–A, USEK, and HKIA. Additionally, the JTF–CR was comprised of three Marines to HKIA to begin preparations for receiving the JTF in the event of a NEO (exhibit 15). On 19 July, JTF–CR sent an STP to HKIA, comprised of 12 members, to assist DoS with processing SIV applicants for travel to the U.S., and to continue preparations for receiving the JTF at HKIA in the event of a NEO (exhibits 15, 18). By the third week of July, JTF–CR had 55 personnel on the ground at HKIA, and would send an additional 28 personnel forward from Bahrain to HKIA by 20 August. The JTF–CR staff was back down to 59 personnel, as some staff members had redeployed. JTF–CR was staffed primarily for their versatility, so they could multi-task, and the JTF prized the ability to place a heavy emphasis on planning ability, due to the anticipated requirement of multiple, competing planning elements for the NEO (exhibit 15). When the NEO began, the JTF–CR was forced to employ most of its staff as security forces, due to multiple breaches in the HKIA perimeter and a limited number of security forces being on deck at HKIA (exhibits 15, 18).

(b) Training. JTF–CR was certified as a JTF in 2019 (exhibits 15, 18), and again in 2020 (exhibit 18). In addition to its certification via exercises and training, the JTF had activated three times within the past year, to include its planning response to the Beirut Port explosion in August 2020, and its deployment in support of Operation OCTAVE QUARTZ off the coast of Somalia in the spring of 2021 (exhibit 18). JTF–CR participated in NEO TTXs with CENTCOM at the end of June, and the NSC on 6 August, but found the planning requirements of the NEO to be ineffective, due to faulty planning assumptions (exhibits 17, 18). During NEO execution at HKIA, JTF–CR conducted MASCAL, rehearsals with both USFOR–A FWD, which ultimately paid dividends on 26 August (exhibits 15, 16, 18). Multiple leaders from JTF–CR stated that no training could have truly prepared service members for the tasks they executed at HKIA throughout the NEO (exhibits 17, 18).

(4) 24th MEU.

(a) Manning. The 24th MEU, led by (TEXT REDACTED) began sending Marines into HKIA as part of its quartering party in mid-September, and arrived at HKIA on 15 August. At full strength, the MEU had 2297 Marines and Sailors at HKIA, the bulk of which resided within BLT 18 and CLB–24 (exhibits 100, 101, 104). BLT 1/8 deployed 996 Marines and Sailors at HKIA, the bulk of which resided within BLT 1/8. CLB–24 deployed 996 Marines and Sailors across three rifle companies, a weapons company, an artillery battery, a light armored reconnaissance company, and Marine Wing Support Detachment–373 (MWSD–373). Additionally, the 24th MEU also task organized a FST, comprised of 35 female Marines and Sailors, with augmentation from BLT 18, CLB–24 had SPMAGTF’s Combat Logistics Detachment–21 (CLD–21), and Marine Wing Support Detachment–373 (MWSD–373) attached to support ECC operations (exhibit 100).

(b) Training. 24th MEU completed the standard pre-deployment training program focused on the MEU’s 13 core METs, included exhibiting small unit tactics inHKIA conduct an additional, four-day NEO training package, sponsored by Expeditionary Operations Training Group (EOTG) in January 2021, which included DoS and civilian role players (exhibits 100, 101, 104). In June 2021, while ashore in Jordan, 24th MEU’s CE and BLT conducted ensemble reinforced NEO training at the U.S. Embassy in Amman (exhibits 100, 104). In July, the MEU offloaded in Kuwait to posture for a potential NEO in Afghanistan, and throughout the month of July and into August, the CE, BLT, and CLB trained daily on various aspects of NEO, to include embassy reinforcement, fixed site security, ECC operations, and NEO Tracking System operations (exhibits 100, 101, 104). Additionally, the FST Marines and Sailors trained on proper search techniques to be employed at an ECC or ECP (exhibits 101, 107). MEU leadership agreed that the NEO training they conducted did not adequately train their Marines and Sailors for the conditions they faced at HKIA (exhibits 100, 101).

(5) SPMAGTF.

(a) Manning. The SPMAGTF deployed a “heavy package” included an STP and two EOD teams (exhibits 65, 66, 67). 24th deployed its entire battalion, with the exception of one platoon from Golf Company, which provided escort security aboard SPMAGTF flights to/from HKIA, two platoons from Fox Company, which remained at the Bagdad Embassy Complex (BEC) in Iraq to provide security, and their Combat Engineer Platoon, which stayed at the BUC to support force protection improvements there (exhibits 53, 54, 55, 56, 77, 78, 79, 81). As a result of the Engineer Platoon not deploying to HKIA, 21 was forced to depend on CLD–21’s engineering, whose members are trained in ECC operations, and the BLT’s Engineer Platoon, whose focus was supporting the BLT at North and East Gates. (b) Training.

ADDITIONAL STATEMENTS

REMEMBERING RANDY “R.D.” KINSEY

Mr. BOOZMAN. Mr. President, I rise today to honor the memory of Mr. Kinsey, who passed away on July 11, 2022, at the age of 69. Mr. Kinsey was a husband, father, veteran, civil servant and beloved leader in the State of Arkansas with a reputation for wisdom and compassion.

A native of South Florida, Kinsey moved to Arkansas after his service in the U.S. Air Force. After he was honorably discharged in 1972, he realized his passion and desire to uplift and advocate for his fellow veterans.

Stepping into a new platform of service with the U.S. Department of Veterans Affairs, Kinsey spent much of his time counseling combat veterans even
before post-traumatic stress disorder and traumatic brain injuries were formal diagnoses.

Kinsey’s friends recognized him as a man who actively worked to make positive changes for veterans throughout his career. Upon his retirement from civil service in 2000, he continued to blaze trails within the American Legion, serving in local, state, and national capacities. He was instrumental in founding American Legion Post 74 in North Little Rock, where he served as founding commander and commander for 14 years.

He made an annual trip to Washington, DC, during the American Legion’s national convention, and advocated on behalf of Arkansas veterans.

In 2018, he became the first African-American State commander of the American Legion of Arkansas. Kinsey was not focused on the tag-line and pressures that may arise from being the first minority to sit in the State commander seat because, in his words, “All our blood runs the same.” This was one of many examples of how he led his life with humility and selflessness.

During his time in the Air Force, Kinsey specialized in security, where he fought to protect his fellow airmen in combat. During his time serving veterans, he fought to strengthen the benefits they earned. Service, advocacy, and security were his life’s tenets.

At the celebration of the American Legion’s 100th anniversary, Kinsey said his time as commander was his way of giving back blessings to help others and what could be a more rewarding experience than to be able and help a veteran in need.

He served in the greatest capacity alongside his wife, Dianna and their two daughters, Meredith and Allison and their grandchildren. He was a loving father, caring coworker, servant leader, gracious husband, and friend to all. His words were that his model was “For God and Country.” I hope we can learn from his example to remember the American blood flowing through all of us and work together to make this country better than we found it.

I join R.D Kinsey’s family, friends, and all Arkansans in mourning his passing. His fingerprint will forever mark Arkansas. From Florida, North Little Rock, Washington, and everywhere in between, his legacy will carry on with current and future generations. In his spirit we will continue to advance the benefits for and meet the needs of American veterans.

TRIBUTE TO JIM HALVORSON

• Mr. DAINES. Mr. President, today I have the distinct honor of recognizing Jim Halvorson of the Montana Board of Oil and Gas Conservation for his dedication to Montana and his 32 years of service.

Raised near Pendroy, MT, Jim graduated from the Montana School of Mines, better known today as Montana Tech University. After years of work in both Wyoming and Colorado, Jim made his way back home to the Treasure State and went on to begin his career with the Montana Board of Oil and Gas Conservation. He started out as a petroleum geologist and was eventually appointed as Administrator. Jim’s role included administering Montana’s oil and gas conservation laws, promoting conservation, and overseeing oil and gas exploration and production in the State.

As Jim enters into retirement, he can rest assured that he has made a lasting impact on Montana’s oil and gas industry. He will now have the opportunity to enjoy the fruits of his labor as he plans to spend more time in the great outdoors, whether that be fishing or enjoying time with his wife of 40 years, Diana.

It is my honor to recognize Jim Halvorson for his dedication to the Montana Board of Oil and Gas Conservation and for his 32 years of public service to the great State of Montana. Jim, thank you for your many years of public service and your commitment to preserving our State’s oil and gas resources. I wish you all the best in your retirement. You make Montana proud.

MESSAGE FROM THE HOUSE

At 11:28 a.m., a message from the House of Representatives, delivered by Mrs. Alli, one of its reading clerks, announced that the House has passed the following bill, without amendment:

H.R. 8404. An act to repeal the Defense of Marriage Act and ensure respect for State regulation of marriage, and for other purposes.

The following bills were read the first time:

H.R. 8404. An act to repeal the Defense of Marriage Act and ensure respect for State regulation of marriage, and for other purposes.

A communication from the National Park Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled ‘‘Endangered Species’’ (72 FR 58058) received during adjournment of the Senate in the Office of the President of the Senate on July 19, 2022; to the Committee on Environment and Public Works.

EC–4634. A communication from the Secretary of Energy, transmitting a legislative proposal to amend the Mercury Export Ban Act of 2008, as amended; to the Committee on Environment and Public Works.

EC–4635. A communication from the Attorney General, Department of Justice, transmitting, pursuant to law, the report of a rule entitled ‘‘Management Directive (MD) 12.3, NRC Personnel Security Program’’ received in the Office of the President of the Senate on July 11, 2022; to the Committee on Environment and Public Works.

EC–4637. A communication from the Associate Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ‘‘Implementing Statutory Addition of Certain Per- and Polyfluoroalkyl Substances (PFAS) to the Toxics Release Inventory Beginning with Reporting Years 2021 and 2022’’ (RIN0730–AL04) (FRL No. 9427–01–OCSPF) received during adjournment of the Senate in the Office of the President of the Senate on July 15, 2022; to the Committee on Environment and Public Works.

EC–4638. A communication from the Associate Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ‘‘Implementing Statutory Addition of Certain Per- and Polyfluoroalkyl Substances (PFAS) to the Toxics Release Inventory Beginning with Reporting Years 2021 and 2022’’ (RIN0730–AL04) (FRL No. 9427–01–OCSPF) received during adjournment of the Senate in the Office of the President of the Senate on July 15, 2022; to the Committee on Environment and Public Works.

EC–4639. A communication from the Associate Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ‘‘Delaware: Final Approval of State Underground Storage Tank Program Revisions, Codification, and Incorporation by Reference’’ (FRL No. 9581–02–R1) received during adjournment of the Senate in the Office of the President of the Senate on July 15, 2022; to the Committee on Environment and Public Works.

EC–4640. A communication from a Chief of the Publications and Regulations Branch, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ‘‘Guidance Regarding the Changes Made by the American Rescue Plan Act to the Elec- tion of Alternative, Minimum; Funding Standards for Community Newspaper Plans under Section 430(m)’’ (Notice 2022–31) received in the Office of the President of the Senate on July 11, 2022; to the Committee on Finance.

EC–4641. A communication from a Chief of the Publications and Regulations Branch, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ‘‘Applicability of section 432(b) (7) following a merger involving a multiemployer defined benefit plan that has received special financial assistance’’ (Rev. Rul. 2022–13) received in the Office of the President of the Senate on July 19, 2022; to the Committee on Finance.
EC–4643. A communication from the Assistant Secretary for Legislation, Department of Health and Human Services, transmitting, pursuant to law, a report entitled “Unified Payment for Medicare-Covered Post-Acute Care: Analysis and Development of the Prototype Unified PAC Prospective Payment System Called for in the IMPACT ACT”; to the Committee on Finance.

EC–4644. A communication from the Principal Deputy Inspector General, Department of Health and Human Services, transmitting, pursuant to law, a data snapshot entitled “Part D Plans Generally Include Drugs Commonly Used by Dual Eligibles: 2022”; to the Committee on Finance.

EC–4645. A communication from the Assistant Secretary for Legislation, Department of Health and Human Services, transmitting, pursuant to law, a report entitled “Non-Emergency Medical Transportation in Medicaid, 2018–2020”; to the Committee on Finance.

EC–4646. A communication from the Acting Commissioner, Social Security Administration, transmitting, pursuant to law, the Administration’s 2022 Annual Report of the Supplemental Security Income Program; to the Committee on Finance.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. WARNER, from the Select Committee on Intelligence:

Report to accompany S. 4503, a bill to authorize appropriations for fiscal year 2023 for intelligence and intelligence-related activities of the United States Government, the Intelligence Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes (Rept. No. 117–132).

EXECUTIVE REPORT OF COMMITTEE—TREATY

The following executive report of committee was submitted:

By Mr. MENENDEZ, from the Committee on Foreign Relations:

[Treaty Doc. 117–3: Protocols to the North Atlantic Treaty of 1949 in the Accession of the Republic of Finland and the Kingdom of Sweden]—The advice and consent of the Senate to the Accession of the Republic of Finland and the Kingdom of Sweden, which were signed on July 5, 2022, by the United States of America and other parties to the North Atlantic Treaty of 1949 (Treaty Doc. 117–3), subject to the declarations of section 2 and the condition of section 3.

The text of the committee-recommended resolution of advice and consent to ratification is as follows:

Resolved (two-thirds of the Senators present concurring thereon):

Section 1. Senate advice and consent subject to declarations and conditions.

The Senate advises and consents to the ratification of the Protocols to the North Atlantic Treaty of 1949 on the Accession of the Republic of Finland and the Kingdom of Sweden, which were signed on July 5, 2022, by the United States of America and other parties to the North Atlantic Treaty of 1949 (Treaty Doc. 117–3), subject to the declarations of section 2 and the condition of section 3.

Sec. 2. Declaration.

The advice and consent of the Senate under section 1 is subject to the following declarations:

(A) Reaffirmation That United States Membership in NATO Remains a Vital National Security Interest of the United States.—The Senate declares that—

(B) through common action, the established democracies of North America and Europe that were NATO members persevered and prevailed in the task of ensuring the survival of democratic government in Europe and North America throughout theCold War;

(C) NATO enhances the security of the United States by embedding European states in a process of cooperative security planning and, as a result, move towards the guidelines outlined in the 2014 Wales Summit Declaration to spend a minimum of 2 percent of their Gross Domestic Product (GDP) on defense spending by 2024; and

(D) the security and prosperity of the United States is enhanced by NATO’s collective defense against aggression that may threaten the security of NATO members; and

(2) Strategic Rationale for NATO Enlargement.—The Senate declares that—

(A) the United States and its NATO allies face continued threats to their stability and territorial integrity;

(B) an attack against Finland or Sweden, or the destabilization of either arising from external subversion, would threaten the stability of Europe and jeopardize United States national security interests;

(C) Finland and Sweden, having established democratic governments and having demonstrated a willingness to meet the requirements of membership, including those necessary to contribute to the defense of all NATO members, are in a position to further the principles of the North Atlantic Treaty and to contribute to the security of the North Atlantic area; and

(D) extending NATO membership to Finland and Sweden will strengthen NATO, enhance stability in Europe, and advance the interests of the United States and its NATO allies.

(3) North Atlantic Area.—The term “North Atlantic Area” means the area covered by Article 6 of the North Atlantic Treaty, as applied by the North Atlantic Council.

(5) Influence of Non-NATO Members on NATO.—The influence of non-NATO members on NATO does not detract from the ability of the United States to meet or to fund its military requirements outside the North Atlantic area.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. WICKER:

S. 4561. A bill to enable the people of the Commonwealth of Puerto Rico to determine the political status of the Commonwealth of Puerto Rico, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. WARNock (for himself, Mr. BLUMENTHAL, Ms. CORTEZ MASTO, Mr. OSSOFF, Mr. WARNER, Mr. MENKELLY, and Mr. BOOKER):

S. 4377

At the request of Mr. MERKley, the name of the Senator from Montana (Mr. Daines) was added as a cosponsor of S. 4377, a bill to streamline the oil and gas permitting process and to recognize fee ownership for certain oil and gas drilling or spacing units, and for other purposes.

S. 4416

At the request of Mr. CASSidy, the name of the Senator from Wyoming (Mr. Barrasso) was added as a cosponsor of S. 4416, a bill to amend the Internal Revenue Code of 1986 to allow a credit against tax for charitable donations to nonprofit organizations providing education scholarships to qualified elementary and secondary students.

S. 4430

At the request of Mr. DURBIN, the name of the Senator from Texas (Mr. CORNYn) was added as a cosponsor of S. 4430, a bill to amend title 35, United States Code, to establish an interagency task force between the United States Patent and Trademark Office and the Food and Drug Administration for purposes of sharing information and providing technical assistance with respect to patents, and for other purposes.

S. 4467

At the request of Ms. SMITH, the name of the Senator from Maine (Mr. KING) was added as a cosponsor of S. 4467, a bill to preserve access to abortion medications.

S. 4499

At the request of Mrs. BLACKburn, the name of the Senator from Montana (Mr. Daines) was added as a cosponsor of S. 4499, a bill to prohibit any requirement that a member of the National Guard receive a vaccination against COVID–19.

S. 4507

At the request of Mr. CRapo, the name of the Senator from South Dakota (Mr. Rounds) was added as a cosponsor of S. 4507, a bill to provide incentives for States to recover fraudulent unemployement compensation, and for other purposes.

S. 4515

At the request of Mrs. SHAHEen, the names of the Senator from Ohio (Mr. PORTMn), the Senator from Connecticut (Mr. BlumenthAL), the Senator from Texas (Mr. CORNYn) and the Senator from Illinois (Mr. CORNYn) were added as cosponsors of S. 4509, a bill to provide for security in the Black Sea region, and for other purposes.

S. 4556

At the request of Mr. CRuz, the name of the Senator from Alaska (Mr. SullIVAN) was added as a cosponsor of S. 4515, a bill to require the Secretary of Energy to stipulate, as a condition on the sale at auction of any crude oil from the Strategic Petroleum Reserve, that the crude oil not be exported to certain countries, and for other purposes.

S. 4559

At the request of Ms. ERns, the name of the Senator from Florida (Mr. Scott) was added as a cosponsor of S. 4516, a bill to require the Office of Federal Procurement Policy to develop governmentwide procurement policy and guidance to mitigate organizational conflict of interests relating to national security and foreign policy, and for other purposes.

S. 4566

At the request of Mrs. FeinSTEin, the name of the Senator from Ohio (Mr. PORTMn) was added as a cosponsor of S. 4556, a bill to provide enhanced funding for family planning services.

S. 4567

At the request of Mr. MARKEY, the names of the Senator from Georgia (Mr. Casey) and the Senator from Hawaii (Mr. Schartz) were added as cosponsors of S. 4557, a bill to protect a person’s ability to access contraceptives and to engage in contraception, and to protect a health care provider’s ability to provide contraceptives, contraception, and information related to contraception.

S.J. RES. 21

At the request of Mr. MERKley, the name of the Senator from Massachuse tts (Ms. Warren) was added as a cosponsor of S.J. Res. 21, a joint resolution proposing an amendment to the Constitution of the United States to prohibit the use of slavery and involuntary servitude as a punishment for a crime.

S.J. RES. 56

At the request of Mr. SAnders, the names of the Senator from Wisconsin (Ms. Baldwin) and the Senator from Michigan (Mr. Peters) were added as cosponsors of S.J. Res. 56, a joint resolution directing the removal of United States of America as a party to the International Criminal Court.
States Armed Forces from hostilities in the Republic of Yemen that have not been authorized by Congress.

At the request of Mrs. Shaheen, the names of the Senator from Connecticut (Mr. Blumenthal), the Senator from Colorado (Mr. Hickenlooper), the Senator from Arizona (Mr. Kelly), the Senator from Maryland (Mr. Cardin) and the Senator from Delaware (Mr. Coons) were added as cosponsors of S. Res. 599, a resolution recognizing the need for greater access to rural and agricultural media programming.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. Collins (for herself, Mr. Manchin, Mr. Portman, Ms. Sinema, Mr. Romney, Mrs. Sinema, Mr. Murkowski, Mr. Warner, Mr. Tillis, Mr. Murphy, Mrs. Capito, Mr. Cardin, Mr. Young, Mr. Coons, Mr. Sasse, and Mr. Graham):

S. 4574. A bill to amend title 18, United States Code, to increase penalties for crimes against Federally protected activities relating to voting and the conduct of elections, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

Mr. Manchin. Mr. President, I rise today to acknowledge the months of bipartisan hard work that have gone into two bills that we are filing today: the Electoral Count Reform and Presidential Transition Improvement Act—I repeat—the Electoral Count Reform and Presidential Transition Improvement Act—and the Enhanced Election Security and Protection Act.

I would like to commend my dear friend Senator Susan Collins for her leadership throughout this process. She has been shepherding this through and working diligently, as only she can do, and she does it so well.

We started these discussions back in January, when partisanship around here was at a fever pitch, a toxic environment that was absolutely conducive to things that needed to be done. But for those who may not remember, we were in the middle of a heated debate over voting rights with both sides—Democrats and Republicans—equally dug in on their positions, and it was kind of hard to move people off of that.

The Insurrection Act, which has been authorized by Congress.

In the Republic of Yemen that have not been authorized by Congress.

By January 19, my Democratic colleagues and I were so frustrated that they forced a vote on repealing the filibuster to allow that bill to pass with a simple majority, along party lines. It appeared to many, both inside and outside of Congress, that the Senate was fundamentally broken. But Senator Collins and I have worked together for a long time, and we never gave up. We were not convinced it was broken, and you just have to work a little bit harder.

They call us the most deliberative body. Well, to deliberate means to talk, to converse; and when that fails, then, basically, the deliberative body is no longer the deliberative body. And we were not going to let that happen to us.

We asked our colleagues and friends to come together to start trying to see if we could work together and find a path back to the Senate. Senator Murphy, Senator Portman, Senator Portman; we had Senator Murphy; we had Senator Romney, Senator Shaheen, Senator Murphy, Senator Tillis, Senator Sinema, Senator Capito, Senator Cardin, Senator Young, Senator Coons, Senator Sasse, and Senator Graham.

Now, that was truly a team effort when you think about it. And this has gone on for quite some time. What we learned through those discussions was that there was bipartisan support for some important, commonsense reforms that would help restore Americans’ faith in our democracy and how we basically apply our democracy, how we select our representative form of government. Specifically, most of our group felt that we could and that we should.

Reform the Electoral Count Act to remove the ambiguity that we saw weaponized after the last election. We were all in agreement.

Enhance the protections for local election officials who are facing unprecedented threats and intimidations. These are people who volunteer, most basically. And it is basically a family that has lost everything generation after generation, and made sure that there is not even a shred of a thought that the count is not valid—it is not a valid count. And we have done everything we possibly can to make sure that we have cleared that up.

This is not everything that people on both sides of that wanted. Some on our right wanted more, and some didn’t want to basically interfere with the States’ rights. So we were caught in betwixt and between. We worked back and forth on different things we could. We tried to pass the squadrals that gave guidance, and we think that we came up with a piece of legislation.

And when you have every Member I just mentioned all sign on, with the diversity of these memberships—we have almost 20; 20 Senators have been involved, coming equally between Democrats and Republicans, and able to come to an agreement—this is a bill that we should put forward.

I would like to commend my dear friend Ms. Collins and I have worked to introduce legislation to the American people to do the most good that we can right now—right now.

The confusing and antiquated language that we have today from the 1887 Electoral Count Act is a real and present danger to our democracy. We can fix that, and that is exactly what we intend to do.

The increased threats and attacks we are seeing across the country on poll workers and election volunteers—we can fix that, too. But even more important than the policy provisions contained in these two bills is the fact that we have Democrats and Republicans standing arm in arm proposing commonsense election reforms that can begin to restore Americans’ faith in our democracy. That is our solemn commitment and promise.

When Benjamin Franklin was asked why the Constitutional Convention had given us a republic or a monarchy, he famously replied “A republic, young man, if you can keep it.”

He qualified his answer because he understood a democracy is fragile and could be lost if we are not careful. And while today’s introduction is an important step in this process, we do have work much yet to do.
I look forward to continuing our bipartisan effort to get this bill to the President’s desk as quickly as possible and signed into law. And like our journey begins.

And with that, I would like to yield to my dear friend from the great State of Maine, Senator SUSAN COLLINS.

The PRESIDING OFFICER. The Senator from Maine.

Ms. COLLINS. Mr. President, I am pleased to join my close friend and dear colleague, Senator MANCHIN, in introducing bipartisan legislation to reform the archaic and ambiguous Electoral Count Act of 1887, the important law that governs how Congress tallies each State’s electoral votes for President and Vice President.

On January 6 of 2017, I was amused to learn that I had received one electoral vote for Vice President of the United States, an office for which I obviously was not a candidate. But on January 6, 2021, I realized that my unearned vote from West Virginia was no joke, not funny at all. Rather, it was an indication of deep structural problems with our system of certifying and counting the electoral votes for President and Vice President. These unfortunate flaws were identified in the 1887 Electoral Count Act.

In four of the past six Presidential elections, this process has been abused, with Members of both parties raising frivolous objections to electoral votes. But the look into violent breach of the Capitol on January 6 of 2021 to really shine a spotlight on the urgent need for reform.

Over the past several months, Senator MANCHIN and I have worked with a terrific, bipartisan group of Senators who are united in our determination to prevent the flaws in this 135-year-old law from being used to undermine future Presidential elections.

I want to express my gratitude to my friend Senator Mr. CHACH and to all the members of our bipartisan group for their hard work, their constructive work, to craft this legislation. Specifically, I want to thank Senators PORTMAN, SINEMA, ROMNEY, SHAHEEN, MURKOWSKI, WARNER, TILLIS, MURPHY, CAPITO, CARDIN, YOUNG, COONS, and SASSE for their work over several months. I also want to thank Senators KLOBUCHAR and BLUMENTHAL, who head the Rules Committee, for their advice and counsel throughout this process, and Senator LINDSEY GRAHAM for his insights and for joining as a cosponsor.

The legislation that we are introducing—the Electoral Count Reform and Presidential Transition Improvement Act—will help ensure that electoral votes are counted without delay by clear and unambiguous standards.

Our bill includes a number of important reforms, but I want to highlight just a few.

First, it reasserts that the constitutional role of the Vice President in counting electoral votes is strictly and solely ministerial. The idea that any Vice President would have the power to unilaterally accept or reject or change or halt the electoral votes is antithetical to our Constitution and basic democratic principles.

Second, our bill raises the threshold to lose or object to at least one-fifth of the duly chosen and sworn members of the House of Representatives and the U.S. Senate. Currently, only a single Member in both houses is required to object to an elector or a slate of electors.

Third, this legislation will ensure that Congress can identify a single, conclusive slate of electors by clearly identifying a single State official who is responsible for certifying a State’s electors; requiring Congress to defer to the slates of electors submitted by a State pursuant to the judgment of State or Federal courts; and providing aggrieved Presidential candidates with an expedited judicial review of Federal claims related to a State’s certificate of vote. I think that what this does not create a new cause of action. Instead, it will ensure prompt and efficient adjudication of disputes.

To help promote the orderly transfer of power, our bill also includes clear guidelines while Presidential candidates may receive Federal resources to support their transition into office. And I want to particularly thank Senators PORTMAN, COONS, and SASSE for their hard work on those provisions.

We are also introducing a second bill—the Enhanced Election Security and Protection Act—to address other issues pertaining to the administration of elections. In the interest of time, let me just quickly note the major provisions of this bill. It would reauthorize the Election Assistance Commission and require it to conduct additional cyber security testing of voting systems, a concept put forth by Senator WARNER and agreed to by all of us. It would improve the Postal Service’s handling of election mail. It would enhance current penalties for violent threats against election workers; and increase the maximum penalties for tampering with voting records, including certain electronic records, that was the work of several members, including Senators ROMNEY, SHAHEEN, and SINEMA, among others.

We have before us an historic opportunity to modernize and strengthen our system of certifying and counting the electoral votes for President and Vice President. January 6 reminded us that nothing is more essential to the survival of a democracy than the orderly transfer of power.

And there is nothing more essential to the orderly transfer of power than clear rules for effecting it. I very much hope that Congress will seize this opportunity to enact these sensible and much-needed reforms before the end of this Congress.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. MANCHIN. Mr. President, while my dear friend is here, I want to tell her, you know, 6 months ago—we have worked on this for 6 months. It started in January, and it was 14 Senators who came at that time. We just started talking, and 14 Senators—with all of your support, Mr. President, also—we had support from everybody saying that we had to defend this country and defend the Constitution and this wonderful Capitol that we have so this could never happen again?

January 6 is a black mark on the history of the United States of America. And if you want to erase it, you better do what we did for 6 months, bringing people together to find a pathway forward so that type of opportunity—for some looking for an opportunity—to degrade our government and our country and to tear down what we ourselves could never, ever encourage them thinking they could do something here at this Capitol and disrupt us.

When that day happened, the thing I was most proud of, we were all down in a secured room—and Senator COLLINS remembers—and it went on; we didn’t know what the extent of this was going on. We knew one thing: They didn’t come for a friendly visit. But we were at the talking stage. And then sudden, someone said: Well, let’s just conduct our business down here. Remember that? And to a T, everybody in that room says, No, no, no. They are not going to run us out of our body here. And we all came back here later that night and finished our business.

What we did—and Senator COLLINS has led this admirably—is make sure that we are finishing our business. We are just starting it now to protect this democracy. This form of democracy that we have is a good form and the Republic that we are responsible for. And I am just so proud to be part of it. And she is my dear friend. We worked many, many years together, and we will continue to.

But if I just want to thank the Senator for the hard work—our staffs worked together. I am very proud of all our staffs that they worked together for the betterment of our country.

So when people think that bipartisanship is not capable of happening in Washington, I want to say: Watch, we have proved them wrong. We have done so many things together, and we will continue to. Again, I say thank you to all those who participated for just hanging in there. It took us 6 months to get here, but we have just begun.

The PRESIDING OFFICER. The Senator from Maine.

Ms. COLLINS. Mr. President, I, too, would like to salute all the members of our group who worked so hard over many months. As is always the case when you delve into a complicated issue, it turns out that there are far
more nuances and complexities than you would think when you first look at the issue. But everyone continued to work for the common good to strengthen the procedures, to update this archaic and ambiguous law that was written in the language of another era. And we accomplished that. And I really hope our colleagues will all join together and that in the end we can have an overwhelming vote.

Finally, I, too, want to thank our staff members for their extraordinary work. They literally worked night and day to work through the many thorny issues and to help bring us together. So my thanks not only to the Members but to their staffs as well.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 73—RECOGNIZING RUSSIAN ACTIONS IN UKRAINE AS A GENOCIDE

Mr. RISCH (for himself, Mr. CARDIN, Mr. BLUMENTHAL, Mr. WICKER, Mrs. SHAHEEN, Mr. PORTMAN, and Mr. GRAHAM) submitted the following resolution: which was referred to the Committee on Foreign Relations:

S. Res. 73

Whereas the Russian Federation's illegal, premeditated, unprovoked, and brutal war against Ukraine includes extensive, systematic, and flagrant atrocities against the people of Ukraine:

Whereas article II of the Convention on the Prevention and Punishment of the Crime of Genocide (in this preamble referred to as the “Genocide Convention”), adopted and opened for signature in 1948 and entered into force in 1951, defines genocide as "any of the following acts committed with intent to destroy, in whole or in part, a national, ethnic, racial or religious group, as such: (a) Killing members of the group; (b) Causing serious bodily or mental harm to members of the group; (c) Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part, including the depopulation of territories inhabited by members of the group; (d) Imposing on the group conditions intended to prevent births among the group; (e) Forcibly transferring children of the group to another group.

Whereas, on October 3, 2018, the Senate unanimously agreed to Senate Resolution 435, 115th Congress, which commemorated the 86th anniversary of the Holodomor and "recognized[d] the findings of the Commission on the Ukraine Famine as submitted to Congress on April 22, 1988, including that "Joseph Stalin and those around him committed genocide against the Ukrainians in 1932-1933";

Whereas substantial and significant evidence documents widespread, systematic actions against the Ukrainian people committed by Russian forces under the direction of political leadership of the Russian Federation that meet one or more of the criteria under article II of the Genocide Convention, including—

(1) killing members of the Ukrainian people in mass atrocities through regular and deliberate murders of civilians in passing as well as purposeful targeting of homes, schools, hospitals, shelters, and other residential and civilian areas;

(2) causing serious bodily or mental harm to members of the Ukrainian people by launching indiscriminate attacks against civilans and civilian areas, conducting willful strikes on humanitarian evacuation corridors, and employing widespread and systematic sexual violence against Ukrainian civilians, including women, children, and men;

(3) deliberately inflicting upon the Ukrainian people mass atrocities related to bringing about their physical destruction in whole or in part, including displacement due to annihilated villages, towns, and cities left devoid of power, electricity, and other basic necessities, starvation caused by the destruction of farmlands and agricultural equipment, the placing of Russian soldiers on every square meter of usable fields, and blocking the delivery of humanitarian food aid;

(4) imposing measures intended to prevent births among the Ukrainian people, demonstrated by the Russian military’s expansive and direct targeting of maternity hospitals and other medical facilities and systematic attacks against residential and civilian areas as well as humanitarian corridors intended to deprive Ukrainians of safe havens within their own country and the material conditions conducive to child rearing; and

(5) forcibly mass transferring millions of Ukrainian civilians, hundreds of thousands of whom are children, to the Russian Federation or territories controlled by the Russian Federation;

Whereas the state-level intent of the Russian Federation in favor of those heinous crimes against humanity has been demonstrated through frequent pronouncements and other forms of official communication denying Ukrainian nationhood and sovereignty, including President Putin’s ahistorical claims that Ukraine is part of a “single whole” Russian nation with “no historical basis” for being an independent country;

Whereas some Russian soldiers and brigades accused of committing war crimes in Bucha, Ukraine, and elsewhere were rewarded with medals by President Putin;

Whereas the Russian state-owned media outlet RIA Novosti published the article “What Should Russia do with Ukraine”, which outlines “de-Nazification” as meaning “de-Ukrainianization” or the destruction of Ukraine;

Whereas article I of the Genocide Convention confirms “that genocide, whether committed in time of peace or in time of war, is a crime under international law which [the Contracting Parties] undertake to prevent and to punish”; and

Whereas additional documentation and analysis of atrocities committed by the Russian Federation in Ukraine may be needed to punish those responsible, the substantive investigation already undertaken, combined with statements showing intent, compel urgent action to prevent further acts of genocide: Now, therefore, be it

Resolved, That the Senate—

(1) condemns the Russian Federation for committing acts of genocide against the Ukrainian people;

(2) calls on the United States, in cooperation with allies in the North Atlantic Treaty Organization and the European Union, to undertake immediate and substantial action to meet the Government of Ukraine to prevent further acts of Russian genocide against the Ukrainian people; and

(3) supports tribunals and international criminal investigations to hold Russian political leaders and military personnel to account for a war of aggression, war crimes, crimes against humanity, and genocide.

Mr. CARDIN. Mr. President, I rise today to draw the attention of the Senate and the American people to a dark anniversary on the near horizon.

On July 24, the world will have seen 5 full months of the brutal, unjustified, and utterly senseless war Russia’s dictator Vladimir Putin has unleashed on Ukraine, a country whose democratic traditions that have never threatened Russia or any of its other neighbors.

It will be 150 days of Mr. Putin and his army’s killing and raping Ukrainian women and children; destroying homes, hospitals, museums, schools, and churches; displacing almost 13 million people; and unleashing chaos and havoc on the world. The blockade of the southern ports of Ukraine has interrupted the vital supply of Ukrainian food supplies to a hungry world, wreaking pain and havoc on societies across the Middle East, Africa, and South Asia. An existing global food security crisis has now been severely worsened by Russia’s violent assault, as the Senate Foreign Relations Committee examined earlier today in a hearing where USAID Administrator Samantha Power and our permanent representative to the United Nations, Ambassador Linda Thomas-Greenfield, testified. They spoke about the U.S. role in trying to avert the potentially devastating global tragedy resulting from Russia’s aggression and the immensity of the task ahead.

Who could forget the horrors of Bucha and Irpin, the shell-shocked images in the eyes of Ukrainian children who will forever carry the burdens of unimaginable trauma or the Ukrainian women who had to be carried from a maternity ward after the Russians struck their hospital with a cruise missile.

This is an everyday reality now for Ukrainians—unspeakable, cruel military assaults. Yet they demonstrate the indomitable will to fight for their land and freedom; they do not give up; they are truly an inspiration for the rest of the world.

When Mr. Putin started this attack, he assumed Russia would conquer Ukraine and seize its capital in 3 days. Yet it is now day almost 150, and Russia has suffered heavy losses and retreated from Kyiv. While several towns in the south of the country have been flattened and then occupied, in most of the country, the Russian invaders have barely advanced from their initial positions.

In the towns and cities the Russians occupy, they have met heavy resistance from Ukrainian guerrillas and regular citizens who do not want to be part of Putin’s evil empire. Despite efforts to indoctrinate Ukrainian children in occupied areas with a counterfactual narrative of the contemporary history, Russian speakers are learning Ukrainian, and what have been generally positive relations with the people of Ukraine and Russia before this invasion have now been completely destroyed.

Independent analysts have described the ongoing violence as a genocide in
October 14, the United States and 44 other nations signed an International Criminal Court declaration to investigate over 20,000 reports—20,000 reports—of war crimes committed by Russia in Ukraine since the beginning of the war.

Make no mistake about it, Vladimir Putin has caused the suffering and pain in pursuit of his ambition to rebuild the Russian Empire. He has said it to himself on multiple occasions. He is hell-bent on destroying the post-World War II world order that has brought prosperity and peace to our allies in Europe—and to Russia to this point, too.

Therefore, it is not an exaggeration to say that the Ukrainians are fighting not just for their land and freedom, which, as Americans, we should cherish and appreciate, but also for the very core of the global order that, if destroyed, will marginalize our allies and threaten the United States.

With this in mind, we must remember that supporting Ukraine is not charity. It is in our core national security interest to provide the Ukrainians with the arms, financing, and moral support to defeat the tyrant of Russia. If Ukraine falls, it will lead to the subjugation of Ukrainian people, destruction of its culture and language, and bring a hostile and expansionistic Russian Empire right to the borders of our NATO allies that we are committed to protect with our troops and weapons. Ukraine is the firewall that the world cannot afford to see breached.

So, yes, it is a moral imperative for us to support Ukrainians in this just war. It is but also a core national security urgency for us to do this. Ukraine is fighting this war on multiple fronts: on land and at sea and in the air. The security of the Black Sea region is a critical aspect of this war that has not received enough attention. As recent reporting suggests, the ability of the Ukrainians’ vessels to navigate the Black Sea is important for the country but also for regional stability and global food security. That is where Ukraine exports most of its agricultural products, including a major grain exporter, and the Russians have been blocking these vessels from departing Ukrainian ports. This exposes some of the world’s most vulnerable people to food scarcity, malnutrition, and worsening poverty—and in some cases leading to unnecessary and preventable deaths. Truly, the ugliness and depravation of the Putin regime has no limit.

In this context, the U.S. Commission on Security and Cooperation in Europe that I chair conducted a field hearing on Black Sea security in Constanta, Romania, on July 1. I want to thank my friend Senator Wicker for chairing that hearing. The Commission brought together key decision-makers from the Black Sea states to discuss how best to address Russia’s illegal naval blockade of Ukrainian ports.

Subsequently, Senator Wicker and I joined Senators SHAHEEN and ROMNEY in introducing the Black Sea Security Act, S. 4509. This bill would declare that it is the policy of the United States “to actively deter the threat of further Russian escalation in the Black Sea region and defend freedom of navigation in the Black Sea to prevent the spread of further armed conflict in Europe.”

The bill further requires that the National Security Council shall deliver to Congress an interagency report that outlines current policy options toward Black Sea countries and the border region. The report would include a breakdown of funding to support these efforts, including military assistance; economic assistance; support for food security; countering Russia’s disinformation and propaganda; energy diversification; increasing access to global capital markets; a plan for helping U.S. allies in the region to accelerate their transitions from legacy Russian military equipment and promote NATO interoperability; and strengthening the rule of law and anticorruption efforts.

I call on my colleagues to support this important legislation. Tragically, this war is turning into a marathon, and it is incumbent upon us not to lose our focus and determination in supporting our Ukrainian partners. I want to urge my colleagues in this Chamber and all my fellow Americans to stay the course and continue to support Ukraine for as long as it takes.

My final point today is that we should say the name of what Russia is doing, the atrocities they are committing, Russia is committing genocide in Ukraine. Russia is trying to eviscerate not just the people and the buildings of Ukraine; they are trying to eliminate the Ukrainian language, Ukrainian history, and Ukrainian culture. That is genocide.

That is why I am joining Senator RISCH, along with Senators GRAHAM, BLUMENTHAL, SHAHEEN, and PORTMAN in introducing a resolution that would condemn the Russian Federation for committing acts of genocide against the Ukrainian people; call on the United States, in cooperation with allies in the North Atlantic Treaty Organization and the European Union, to undertake measures to support the Government of Ukraine to prevent further acts of Russian genocide against the Ukrainian people; and support tribunals and international criminal investigations to hold Russian political leaders and military personnel accountable for war crimes, crimes against humanity, and genocide.

We must stand shoulder to shoulder with the Ukrainians to lighten their load and hasten their victory. We must be prepared for the reconstruction of Ukraine that will follow the conclusion of this war. And, yes, we must pursue accountability for those responsible for the genocide underway in Ukraine by the Russian Federation.

S. RES. 714

WHEREAS, in enacting the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.), Congress recognized that ‘historically, society has tended to isolate and segregate individuals with disabilities, and, despite some improvements, such forms of discrimination against individuals with disabilities continue to be a serious and pervasive social problem’;

WHEREAS the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) recognizes the rights of individuals with disabilities to fully participate in their communities through independent living, equality of opportunity, and economic self-sufficiency;

WHEREAS 32 years after the date of the enactment of the Americans with Disabilities Act of 1990 and 23 years after the date of the decision of the Supreme Court of the United States in Olmstead v. L.C. (527 U.S. 561 (1999)), many individuals with disabilities continue to live in segregated institutional settings because of a lack of support services;

WHEREAS the continuation of segregated institutional settings has hindered the inclusion of individuals with disabilities in community settings, schools, and other environments underpinning the promise of the Americans with Disabilities Act of 1990;

WHEREAS 32 years after the date of the enactment of the Americans with Disabilities Act of 1990 and 23 years after the date of the decision of the Supreme Court of the United States in Olmstead v. L.C. (527 U.S. 561 (1999)), many individuals with disabilities continue to live in segregated institutional settings because of a lack of support services;

WHEREAS the continuation of segregated institutional settings has hindered the inclusion of individuals with disabilities in community settings, schools, and other environments underpinning the promise of the Americans with Disabilities Act of 1990;
Whereas individuals with disabilities living in institutional and long-term care settings have endured disproportionate rates of infection and death during the COVID-19 pandemic;

Whereas individuals of color with disabilities have been disparately affected by the COVID-19 pandemic;

Whereas individuals of color with disabilities experience disproportionately greater barriers to high quality and accessible healthcare, education, and employment opportunities, and their right to fully participate in their communities under the Americans with Disabilities Act of 1990; and

Whereas 32 years after the date of the enactment of the Americans with Disabilities Act of 1990—

(1) women with disabilities continue to regularly face barriers to reproductive healthcare, including inaccessible and inequitable services;

(2) individuals with disabilities continue to face higher rates of unemployment and barriers to accessible workplaces and lack equitable access to competitive integrated employment opportunities;

(3) nearly a quarter of the population of individuals with disabilities live below the poverty line;

(4) some telecommunication, electronic, and information technologies continue to be developed with the goal of making those technologies fully accessible for all people of the United States; and

(5) many businesses, public and private organizations, transportation systems, and services remain inaccessible to many individuals with disabilities; Now, therefore, be it

Resolved, That the Senate—

(1) recognizes the importance of independent living for individuals with disabilities made possible by the enactment of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.);

(2) encourages the people of the United States to celebrate the advancement of inclusion and equality of opportunity made possible by the enactment of the Americans with Disabilities Act of 1990;

(3) pledges to continue to work on a bipartisan basis to identify and address the remaining barriers that undermine the national goal of the attainment of opportunity, independent living, economic self-sufficiency, and full participation for individuals with disabilities, including by focusing on individuals with disabilities that remain segregated in institutions;

(4) pledges to work with States to improve access to home and community based services for individuals with disabilities;

(5) calls on the Department of Labor to develop policies and practices and provide technical assistance that enable individuals with disabilities to become economically self-sufficient;

(6) calls on the Department of Health and Human Services to provide information, resources, and technical assistance related to home and community based services and to enable individuals with disabilities to live independently;

(7) calls on the Department of Housing and Urban Development to provide accessible and inclusive homes and communities that increase the options available for accessible, inclusive, and equitable housing for individuals with disabilities; and

(8) calls on the Department of Transportation to create accessible transit and airports and the hiring, promotion, and retention of individuals with disabilities in the transportation workforce.

UNITED STATES Senate, at its First Session.

AMENDMENTS SUBMITTED AND PROPOSED

SA 5139. Mr. PORTMAN (for himself, Mr. YOUNG, and Mr. GRASSLEY) submitted an amendment intended to be proposed by him to the bill H.R. 4346, making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes; which was ordered to lie on the table.

SA 5140. Mr. CARPER (for himself, Mrs. CAPITTO, Mr. CARDIN, and Mr. CRAMER) submitted an amendment intended to be proposed by him to the bill H.R. 7776, to provide for improvements to the rivers and harbors of the United States, to provide for the conservation and development of water and related resources, and for other purposes; which was ordered to lie on the table.

SA 5141. Mr. SCOTT of Florida submitted an amendment intended to be proposed to amendment SA 5135 proposed by Mr. SCHUMER to the bill H.R. 4346, making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes; which was ordered to lie on the table.

SA 5142. Mr. SCOTT of Florida submitted an amendment intended to be proposed to amendment SA 5135 proposed by Mr. SCHUMER to the bill H.R. 4346, supra; which was ordered to lie on the table.

SA 5143. Mr. SCHUMER (for Mr. JOHNSON) proposed an amendment to the resolution S. Res. 694, expressing support for the designation of July 25 as “National Sarcoma Awareness Month”.

TEXT OF AMENDMENTS

SA 5139. Mr. PORTMAN (for himself, Mr. YOUNG, and Mr. GRASSLEY) submitted an amendment intended to be proposed by him to the bill H.R. 4346, making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

TITLe —SAFEGUARDING AMERICAN INNOVATION

SEC. 1. SHORT TITLE.

This title may be cited as the “Safeguarding American Innovation Act”.

SEC. 2. DEFINITIONS.

In this title:

(1) FEDERAL SCIENCE AGENCY.—The term ‘Federal science agency’ means any Federal department or agency to which more than $100,000,000 in basic and applied research and development funds were appropriated for the previous fiscal year.

(2) RESEARCH AND DEVELOPMENT.—

(A) IN GENERAL.—The term ‘research and development’ means all research activities, both basic and applied, and all development activities.

(B) DEVELOPMENT.—The term ‘development’ means the development of a Federal science agency.

(C) EXPERIMENTAL DEVELOPMENT.—The term ‘experimental development’ means creative and systematic work, drawing upon knowledge gained from research and practical experience, which—

(i) is directed toward the production of new products or processes or improving existing products or processes; and

(ii) includes activities involving the training of individuals in research techniques if such activities—

(I) utilize the same facilities as other research and development activities; and

(II) are not included in the instruction function.

SEC. 3. FEDERAL RESEARCH SECURITY COUNCIL.

(a) IN GENERAL.—Subtitle V of title 31, United States Code, is amended by adding at the end the following:

“CHAPTER 79—FEDERAL RESEARCH SECURITY COUNCIL

“Sec. 7901. Definitions.”

“Sec. 7903. Functions and authorities.”

“Sec. 7904. Strategic plan.”

“Sec. 7905. Annual report.”

“Sec. 7906. Requirements for Executive agencies.”

“§ 7901. Definitions.”

“(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term ‘appropriate congressional committees’ means—

(A) the Committee on Homeland Security and Governmental Affairs of the Senate;

(B) the Committee on Commerce, Science, and Transportation of the Senate;

(C) the Select Committee on Intelligence of the Senate;

(D) the Committee on Foreign Relations of the Senate;

(E) the Committee on Armed Services of the Senate;

(F) the Committee on Health, Education, Labor, and Pensions of the Senate;

(G) the Committee on Oversight and Reform of the House of Representatives;

(H) the Committee on Homeland Security of the House of Representatives;

(I) the Committee on Energy and Commerce of the House of Representatives;

(J) the Permanent Select Committee on Intelligence of the House of Representatives;

(K) the Committee on Foreign Affairs of the House of Representatives;

(L) the Committee on Armed Services of the House of Representatives;

(M) the Committee on Science, Space, and Technology of the House of Representatives; and

(N) the Committee on Education and Labor of the House of Representatives;

(2) COUNCIL.—The term ‘Council’ means the Federal Research Security Council established under section 7902(a).

(3) EXECUTIVE AGENCY.—The term ‘Executive agency’ has the meaning given that term in section 105 of title 5.

(4) FEDERAL RESEARCH SECURITY RISK.—The term ‘Federal research security risk’ means the risk posed by malicious state actors and other persons to the security and integrity of research and development conducted using research and development funds awarded by Executive agencies.

(5) INSIDER.—The term ‘insider’ means any person with authorized access to any United States Government resource, including personnel, facilities, information, research, equipment, networks, or systems.

(6) INSIDER THREAT.—The term ‘insider threat’ means the threat that an insider will use his or her authorized access (wittingly or unwittingly) to harm the national and economic security of the United States or negatively affect the integrity of a Federal agency’s normal processes, including damaging the United States through espionage, sabotage, terrorism, unauthorized disclosure of sensitive or protective security information, or a destructive act (which may include physical harm to another in the...
workplace, or through the loss or degradation of departmental resources, capabilities, and functions.

(7) Research and Development.

"(A) IN GENERAL.—The term ‘research and development’ means all research activities, both basic and applied, and all development activities.

(B) DEVELOPMENT.—The term ‘development’ means experimental development.

(C) EXPERIMENTAL DEVELOPMENT.—The term ‘experimental development’ means creative work, drawing upon knowledge gained from research and practical experience, which

(i) is directed toward the production of new products or processes or improving existing products or processes; and

(ii) like research, will result in gaining additional knowledge.

(D) RESEARCH.—The term ‘research’—

(i) means a systematic study directed toward fuller scientific knowledge or understanding of the subject studied; and

(ii) includes activities involving the training of individuals in research techniques if such activities;

(I) utilize the same facilities as other research and development activities; and

(II) are not included in the instruction functions.

§ 7802. Federal Research Security Council establishment and membership

(a) Establishment.—There is established, in the Office of Management and Budget, a Federal Research Security Council, which shall develop federally funded research and development policies, making policy and management guidance to protect the national and economic security interests of the United States.

(b) Membership.—

(1) IN GENERAL.—The following agencies shall be represented on the Council:

(A) The Office of Management and Budget.

(B) The Office of Science and Technology Policy.

(C) The Department of Defense.

(D) The Department of Homeland Security.

(E) The Office of the Director of National Intelligence.

(F) The Department of Justice.

(G) The Department of Energy.

(H) The Department of Commerce.

(I) The Department of Health and Human Services.

(J) The Department of State.

(K) The Department of Transportation.

(L) The National Aeronautics and Space Administration.

(M) The National Science Foundation.

(N) The Department of Education.

(O) The Office of Science and Technology Policy.

(P) The Council of Inspectors General on Integrity and Efficiency.

(2) LEAD REPRESENTATIVES.—

(A) DESIGNATION.—Not later than 45 days after the date of the enactment of the Safe-guarding American Innovation Act, the head of each agency represented on the Council shall designate a representative of that agency as the lead representative of the agency on the Council.

(B) FUNCTIONS.—The lead representative of an agency designated under subparagraph (A) shall—

(i) be knowledgeable about the projects supported by such agency and the information created by such projects;

(ii) be the lead science advisor to the Council for purposes of this chapter;

(iii) develop criteria for identifying or issuing guidance for the cross-cutting issues relating to Federal research security; and

(iv) act as the lead science advisor to the Council for purposes of this chapter.

(C) CHAIRPERSON.—

(1) DESIGNATION.—Not later than 45 days after the date of the enactment of the Safe-guarding American Innovation Act, the Director of the Office of Management and Budget shall designate a senior level official from the Office of Management and Budget to serve as the Chairperson of the Council.

(2) FUNCTIONS.—The Chairperson shall perform functions that include—

(A) subject to subsection (d), developing a schedule for meetings of the Council;

(B) designating agencies to be represented on the Council under subsection (b)(1)(Q); and

(C) in consultation with the lead representative of each agency represented on the Council, developing a charter for the Council;

(D) not later than 7 days after completion of the charter, submitting the charter to the appropriate congressional committees.

(3) LEAD SCIENCE ADVISOR.—The Director of the Office of Science and Technology Policy shall designate a senior level official to be the lead science advisor to the Council for purposes of this chapter.

(4) LEAD SECURITY ADVISOR.—The Director of the National Counterintelligence and Security Center shall designate a senior level official from the National Counterintelligence and Security Center to be the lead security advisor to the Council for purposes of this chapter.

(d) MEETINGS.—The Council shall meet not later than 60 days after the date of the enactment of the Safeguarding American Innovation Act and not less frequently than quarterly thereafter.

§ 7803. Functions and authorities

(a) DEFINITIONS.—In this section:

(1) IMPLEMENTING.—The term ‘implementing’ means working with the relevant Federal agencies, through existing processes and procedures, to enable those agencies to put in place and enforce the measures described in this section.

(2) UNIFORM APPLICATION PROCESS.—The term ‘uniform application process’ means a process employed by Federal science agencies to maximize the collection of information regarding applicants and applications, as determined by the Chairperson of the Council.

(b) IN GENERAL.—The Chairperson of the Council shall consider the missions and responsibilities of Council members in determining the agencies for Council functions. The Council shall perform the following functions:

(1) Developing and implementing, across all Executive agencies, research and development grants, awards, and contracts, uniform application process for grants in accordance with subsection (c).

(2) Developing and implementing strategies and policies and providing guidance to prevent malicious foreign interference from unduly influencing the peer review process for federally funded research and development.

(3) Identifying or developing criteria for sharing among Executive agencies and with Federal entities based on the process established pursuant to paragraph (1) and

(B) to facilitate the sharing of information received under subparagraph (A) to support, consistent with Federal law—

(i) the oversight of federally funded research and development;

(ii) criminal and civil investigations of misappropriated Federal funds, resources, information; and

(iii) counterintelligence investigations.

(5) Identifying, as appropriate, Executive agencies to provide

(A) shared services, such as support for conducting Federal research security risk assessments, activities to mitigate such risks, and oversight and investigations with respect to grants awarded by Executive agencies; and

(B) common contract solutions to support the verification of the identities of persons participating in federally funded research and development.

(6) Identifying and issuing guidance, in accordance with the requirements in this section, and in coordination with the National Insider Threat Task Force established by Executive Order 13587 (50 U.S.C. 3161 note) for expanding the scope of Executive agency insider threat programs, including the safeguarding of research and development from exploitation, compromise, or other unauthorized disclosure, taking into account risk levels and the distinct needs, missions, and systems of each such agency.

(7) Identifying and issuing guidance for developing compliance and oversight programs for Executive agencies to ensure that research and development grant recipients accurately report conflicts of interest and conflicts of commitment in accordance with subsection (c)(1). Such programs shall include an assessment of—

(A) a grantee’s support from foreign sources and affiliations, or participation in talent programs with foreign funding institutions or laboratories; and

(B) the impact of such support and affiliations, or participation in talent programs on United States national security and economic interests.

(8) Providing guidance to Executive agencies regarding appropriate application of consequences for violations of disclosure requirements.

(9) Developing and implementing a cross-agency policy and providing guidance related to the use of digital persistent identifiers for individual researchers supported by, or working on, any Federal research grant with the goal to enhance agency security, while reducing administrative burden for researchers and research institutions.

(10) Engaging with the United States research community in conjunction with the National Science and Technology Council and the National Academies Science, Technology and Security Roundtable created under section 1746 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92; 42 U.S.C. 6601 note) in performing the functions described in paragraphs (1) and (2) and with respect to issues relating to Federal research security risks.

(11) Carrying out such other functions, consistent with Federal law, as the Chairperson determines necessary to reduce Federal research security risks.
(c) REQUIREMENTS FOR UNIFORM GRANT APPLICATION PROCESS.—In developing the uniform application process for Federal research and development grants required under subsection (a), the Council shall—

(1) ensure that the process—

(A) requires principal investigators, co-principal investigators, and key personnel associated with the proposed Federal research or development grant project—

(i) to disclose biographical information, all affiliations, foreign affiliations, and all foreign, foreign-funded laboratories, and support received from foreign sources; and

(ii) to certify the accuracy of the required disclosures; and

(B) uses a machine-readable application form to assist in identifying fraud and ensuring the eligibility of applicants; and

(2) design the process—

(A) to reduce the administrative burden on persons applying for Federal research and development funding; and

(B) to promote information sharing across the United States research community, while safeguarding sensitive information; and

(3) complete the process not later than 1 year after the date of the enactment of the Safeguarding American Innovation Act.

(d) REQUIREMENTS FOR INFORMATION SHARING.—

(1) ensuring or developing criteria and procedures for sharing information with respect to Federal research security risks under subsection (b)(3), the Council shall ensure that such criteria address, at a minimum—

(A) the information to be shared;

(B) the circumstances under which sharing is mandated or voluntary;

(C) the circumstances under which it is appropriate for an Executive agency to rely on information made available through such sharing in exercising the responsibilities and authorities of the agency under applicable laws relating to the award of grants;

(D) the procedures for protecting intellectual capital that may be present in such information; and

(E) appropriate privacy protections for persons involved in Federal research and development.

(2) requirements for insider threat programs identified by the Council under section 7902(c)(4), the Council shall ensure that such guidance provides for, at a minimum—

(A) programs—

(i) to deter, detect, and mitigate insider threats; and

(ii) to leverage counterintelligence, security, information assurance, and other relevant functions and resources to identify and counter insider threats; and

(B) the development of an integrated capability to monitor and audit information for the detection and mitigation of insider threats, including through—

(i) monitoring user activity on computer networks controlled by Executive agencies;

(ii) providing employees of Executive agencies with awareness training with respect to insider threats and the responsibilities of employees to report such threats;

(iii) gathering information for a centralized analysis, reporting, and response capability; and

(iv) information sharing to aid in tracking the risk individuals may pose while moving across programs and affiliations.

(3) the implementation of policies and procedures under which the insider threat program of an Executive agency accesses, shares, and integrates information and data derived from offices within the agency and shares insider threat information with the executive agency research sponsors; and

(4) the designation of senior officials with authority to provide management, accountability, and oversight of the insider threat program of an Executive agency and to make recommendations to the appropriate officials; and

(5) such additional guidance as is necessary to reflect the distinct needs, missions, and systems of different agencies; or

(6) such additional guidance as is necessary to reflect the distinct needs, missions, and systems of different agencies; or

(7) such additional guidance as is necessary to reflect the distinct needs, missions, and systems of different agencies; or

(8) such additional guidance as is necessary to reflect the distinct needs, missions, and systems of different agencies; or

(9) such additional guidance as is necessary to reflect the distinct needs, missions, and systems of different agencies; or

(I) issuance of warnings relating to risks and vulnerabilities in international scientific cooperation;—

(1) in General.—In developing the uniform application process, in conjunction with the lead security advisor designated under section 7902(c)(4), shall establish a process for informing members of the United States research community and the public, through the issuance of warnings described in paragraph (2), of potential risks and vulnerabilities in international scientific cooperation that may undermine the integrity and security of the United States research community or place at risk any federally funded research and development.

(2) The Council shall, in exercising its responsibilities under paragraph (1) based on the applicability and relevance of the research and development to the national security and economic competitiveness of the United States;

(3) ensuring that initiatives impacting Federally funded research grant making policy and management to protect the national and economic security interests of the United States are integrated with the activities of the Council; and

(4) ensuring that initiatives developed pursuant to this section are focused on the national security and economic interests of the United States.

(II) improving the effectiveness of Federal research security risk management strategy and implementation plan and policies and processes to guide and govern Federal research security risk management practices by the Executive agency;

(III) improving the effectiveness of Federal research security risk management practices throughout the lifecycle of the grant programs of the Executive agency;

(IV) sharing relevant information with other Executive agencies, as determined appropriate by the Council in a manner consistent with section 7903; and

(V) reporting on the effectiveness of the Federal research security risk management strategy of the Executive agency consistent with guidance issued by the ‘Office of Management and Budget and the Council.’

(b) CEREMONIAL AMENDMENT.—The table of chapters at the beginning of title 31, United States Code, is amended by inserting after the item relating to chapter 77 the following:

7901. FEDERAL GRANT APPLICATION FRAUD.

(a) IN GENERAL.—Chapter 47 of title 18, United States Code, is amended by adding at the end thereof the following:

§1041. Federal grant application fraud

(a) Definitions.—In this section:

(1) FEDERAL AGENCY.—The term ‘Federal agency’ has the meaning given the term ‘Federal agency’ in section 551 of title 5, United States Code.

(2) FEDERAL GRANT.—The term ‘Federal grant’ means a grant awarded by a Federal agency:

(i) includes a grant awarded by a Federal agency:

(ii) includes a grant awarded by a Federal agency:

(iii) includes a grant awarded by a Federal agency:

(iv) includes a grant awarded by a Federal agency:

(v) includes a grant awarded by a Federal agency:

(vi) includes a grant awarded by a Federal agency:

(vii) includes a grant awarded by a Federal agency:

(viii) includes a grant awarded by a Federal agency:

(ix) includes a grant awarded by a Federal agency:

(x) includes a grant awarded by a Federal agency:

(b) FEDERAL AGENCY.—The term ‘Federal agency’ has the meaning given the term ‘Federal agency’ in section 551 of title 5, United States Code.

(c) FEDERAL AGENCY.—The term ‘Federal agency’ has the meaning given the term ‘Federal agency’ in section 551 of title 5, United States Code.

§7904. Annual report

Not later than November 15 of each year, the Chairperson of the Council shall submit a report to the appropriate congressional committees that describes the activities of the Council during the preceding fiscal year.
(4) FOREIGN COMPENSATION.—The term ‘foreign compensation’ means a title, monetary compensation, access to a laboratory or other resource, or other benefit received from—

(A) a foreign government; or

(B) a foreign government institution; or

(C) a foreign public enterprise.

(5) TERM.—The term ‘foreign government’ includes a person acting or purporting to act on behalf of—

(A) a faction, party, department, agency, bureau, subnational administrative entity, or military of a foreign country; or

(B) a foreign government or a person purporting to act as a foreign government, regardless of whether the United States recognizes the government.

(6) FOREIGN GOVERNMENT INSTITUTION.—The term ‘foreign government institution’ means a foreign entity owned by, subject to the control of, or subject to regulation by a foreign government.

(7) FOREIGN PUBLIC ENTERPRISE.—The term ‘foreign public enterprise’ means an enterprise over which a foreign government directly or indirectly exercises a dominant influence.

(8) LAW ENFORCEMENT AGENCY.—The term ‘law enforcement agency’—

(A) means a Federal, State, local, or Tribal law enforcement agency; and

(B) includes—

(i) the Office of Inspector General of an establishment (as defined in section 12 of the Inspector General Act of 1978 (5 U.S.C. App.)) or a designated Federal entity (as defined in section 8(g)(1) of the Inspector General Act of 1978 (5 U.S.C. App.)); and

(ii) the Office of Inspector General, or similar office, of a State or unit of local government.

(9) OUTSIDE COMPENSATION.—The term ‘outside compensation’ means any compensation, resource, or support (regardless of monetary value) made available to the applicant in support of, or related to, any research endeavor, including a title, research grant, cooperative agreement, contract, institutional award, access to a laboratory, or other resource, including materials, travel compensation, or work incentives.

(b) PROHIBITION.—It shall be unlawful for any individual to knowingly—

(1) prepare or submit a Federal grant application that fails to disclose the receipt of any outside compensation, including foreign compensation, by the individual, the value of which is $1,000 or more;

(2) forge, counterfeit, or otherwise falsify a document for the purpose of obtaining a Federal grant; or

(3) prepare, submit, or assist in the preparation or submission of a Federal grant application or document in connection with a Federal grant application that—

(A) contains a material false statement; or

(B) contains a material misrepresentation; or

(C) fails to disclose a material fact.

(2) USE OF MACHINE-READABLE VISA DOCUMENTS.—

(a) MACHINE-READABLE VISA DOCUMENTS.—Not later than 1 year after the date of the enactment of this Act, the Secretary of State shall—

(1) use a machine-readable visa application form; and

(b) make available documents submitted in support of a visa application in a machine readable format to enable—

(A) identifying fraud;

(B) conducting lawful law enforcement activities; and

(C) determining the eligibility of applicants for a visa under the Immigration and Nationality Act (8 U.S.C. 1101 et seq.).

(b) WAIVER.—The Secretary of State may waive the requirement under subsection (a) by providing to Congress, not later than 30 days before such waiver takes effect—

(1) a detailed explanation for why the waiver is being issued; and

(2) a timeframe for the implementation of the requirement under subsection (a).

(c) REPORT.—Not later than 3 years after the date of the enactment of this Act, the Secretary of State shall submit a report to the Committee on Foreign Relations of the Senate, the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on the Judiciary of the Senate, the Select Committee on Intelligence of the Senate, and the Select Committee on Intelligence of the House of Representatives regarding the implementation of this section.
Permanent Select Committee on Intelligence of the House of Representatives, and the Committee on Foreign Affairs of the House of Representatives that—

(1) describes how supplementary documents provided by a visa applicant in support of a visa application are stored and shared by the Department of State with authorized Federal agencies;

(2) identifies the sections of a visa application that are machine-readable and the sections that are not machine-readable;

(3) provides cost estimates, including personnel costs and a cost-benefit analysis for adopting different technologies, including optical character recognition, for—

(A) marking every element of a visa application, and documents submitted in support of a visa application, machine-readable; and

(B) ensuring that such system—

(i) protects personally-identifiable information; and

(ii) permits the sharing of visa information with Federal agencies in accordance with existing law; and

(4) includes an estimated timeline for completing the implementation of subsection (a).

SEC. 2. CERTIFICATIONS REGARDING ACCESS TO EXPORT CONTROLLED TECHNOLOGY IN EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS.

Section 104(b)(i) of the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2452(b)(i)) is amended to read as follows:

"(5) promoting and supporting medical, scientific, cultural, and educational research and development by developing exchange programs for foreign researchers and scientists, while protecting technologies regulated by export control laws important to the national security and economic interests of the United States, by requiring—

(A) the sponsor to certify to the Department of State that the sponsor, after reviewing all regulations related to the Export Controls Act of 2018 (50 U.S.C. 4811 et seq.) and the Arms Export Control Act (22 U.S.C. 2751 et seq.), has determined that—

(i) a license is not required from the Department of Commerce or the Department of State to release such technology or technical data to the exchange visitor; or

(ii)(I) a license is required from the Department of Commerce or the Department of State to release such technology or technical data to the exchange visitor; and

(II) the sponsor will prevent access to the controlled technology or technical data by the exchange visitor until the sponsor—

(aa) has required the license or other authorization to release it to the visitor; and

(bb) has provided a copy of such license or authorization to the Department of State; and

(B) if the sponsor maintains export control technology or technical data, the sponsor and the Department of State shall hold a plan to prevent unauthorized export or transfer of any controlled items, materials, information, or technology at the sponsor organization or entities associated with a sponsor’s administration of the exchange visitor program;"

SEC. 3. PRIVACY AND CONFIDENTIALITY.

Nothing in this title may be construed as affecting the rights and requirements provided in section 552a of title 5, United States Code (commonly known as the "Privacy Act of 1974") or subchapter III of chapter 35 of title 5, United States Code (commonly known as the "Confidential Information Protection and Statistical Efficiency Act of 2018").

SA 5140. Mr. CARPER (for himself, Mrs. CAPITO, Mr. CARIDIN, and Mr. Cramer) submitted an amendment intended to be proposed by him to the bill H.R. 7776, to provide for improvements to the rivers and harbors of the United States, to provide for the conservation and development of water and related resources, and for other purposes; such amendment is ordered to lie on the table; as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Water Resources Development Act of 2022".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. Definition of Secretary.

TITLE I—GENERAL PROVISIONS

Sec. 101. Scope of feasibility studies.
Sec. 102. Shoreline and riverbank protection and restoration mission.
Sec. 103. Inland waterway projects.
Sec. 104. Protection and restoration of other Federal land along rivers and lakes.
Sec. 105. Policy and technical standards.
Sec. 106. Planning assistance to States.
Sec. 107. Floodplain management services.
Sec. 108. Land acquisition and planning.
Sec. 109. Credit in lieu of reimbursement.
Sec. 110. Coastal cost calculations.
Sec. 111. Advance payment in lieu of reimbursement for certain Federal costs.
Sec. 112. Use of emergency funds.
Sec. 113. Research and development.
Sec. 114. Tribal and Economically Disadvantaged Communities Advisory Committee.
Sec. 115. Non-Federal Interest Advisory Committee.
Sec. 116. Underserved community harbor projects.
Sec. 117. Corps of Engineers Western Water Resources Cooperative Committee.
Sec. 118. Updates to certain water control manuals.
Sec. 119. Sense of Congress on operations and maintenance of recreation sites.
Sec. 120. Relocation assistance.
Sec. 121. Reprogramming limits.
Sec. 122. Lease duration.
Sec. 123. Sense of Congress relating to post-disaster repairs.
Sec. 124. Payment of pay and allowances of certain Federal officers from appropriation for improvements.
Sec. 125. Reforestation.
Sec. 126. Use of other Federal funds.
Sec. 127. National low-head dam inventory.
Sec. 128. Transfer of excess credit.
Sec. 129. National levee restoration.
Sec. 130. Inland waterways regional dredge inspection program.
Sec. 131. Funding to process permits.
Sec. 132. Non-Federal project implementation pilot program.
Sec. 133. Cost sharing for territories and Indian Tribes.
Sec. 134. Water supply conservation.
Sec. 135. Criteria for funding operation and maintenance of small, remote, and subsistence harbors.
Sec. 136. Protection of lighthouses.
Sec. 137. Expediting hydropower at Corps of Engineers facilities.
Sec. 138. Materials, services, and funds for repair, restoration, or rehabilitation of certain public recreation facilities.
Sec. 139. Dredged material management plans.
Sec. 140. Lease deviations.
Sec. 141. Columbia River Basin.
Sec. 142. Continuation of construction.

TITLE II—STUDIES AND REPORTS

Sec. 201. Authorization of feasibility studies.
Sec. 203. Expedited completion of studies.
Sec. 204. Studies for periodic nourishment.
Sec. 205. NEPA reporting.
Sec. 206. GAO audit of projects over budget or behind schedule.
Sec. 207. GAO study on project distribution.
Sec. 208. GAO audit of joint costs for operations and maintenance.
Sec. 209. GAO review of Corps of Engineers mitigation practices.
Sec. 211. Great Lakes recreational boating.
Sec. 212. Central and Southern Florida.
Sec. 213. Investments for recreation areas.
Sec. 214. Western infrastructure study.
Sec. 215. Upper Mississippi River and Illinois Waterway System.
Sec. 216. West Virginia hydropower.
Sec. 217. Recreation and economic development at Corps facilities in Appalachia.
Sec. 218. Automated fee machines.
Sec. 219. Lake Champlain Canal, Vermont and New York.
Sec. 220. Report on competitive practices.

TITLE III—DEAUTHORIZATIONS, MODIFICATIONS, AND RELATED PROVISIONS

Sec. 301. Additional assistance for critical projects.
Sec. 302. Southern West Virginia.
Sec. 303. Northern West Virginia.
Sec. 304. Local cooperation agreements, northern West Virginia.
Sec. 305. Special rule for certain beach nourishment projects.
Sec. 306. Coastal community flood control and other purposes.
Sec. 307. Modifications.
Sec. 308. Port Fourchon, Louisiana, dredged material disposal plan.
Sec. 309. Delaware shore protection and restoration.
Sec. 310. Great Lakes advance measures assistance.
Sec. 311. Rehabilitation of existing levees.
Sec. 312. Pilot program for certain communities.
Sec. 313. Rehabilitation of Corps of Engineers constructed pump stations.
Sec. 314. Chesapeake Bay environmental restoration and protection program.
Sec. 315. Evaluation of hydrologic changes in Souris River Basin.
Sec. 316. Memorandum of understanding relating to Baldhill Dam, North Dakota.
Sec. 317. Upper Mississippi River restoration program.
Sec. 318. Harmful algal bloom demonstration program.
Sec. 319. Colleton County, South Carolina.
Sec. 320. Arkansas River corridor, Oklahoma.
Sec. 321. Abandoned and inactive nonchannel mine restoration.
Sec. 322. Asian carp prevention and control pilot program.
Sec. 323. Forms of assistance.
Sec. 325. Invasive species management.
Sec. 326. Wolf River Harbor, Tennessee.
Sec. 327. Missouri River mitigation, Missouri, Kansas, Iowa, and Nebraska.
Sec. 328. Invasive species management pilot program.
Sec. 329. Nueces County, Texas, conveyances.
Sec. 330. Mississippi Delta Headwaters, Mississippi.
Sec. 331. Ecosystem restoration, Hudson-Raritan Estuary, New York and New Jersey.
Sec. 332. Timely reimbursement.
Sec. 333. N. Savannah Bluff Lock and Dam, Georgia and South Carolina.
Sec. 334. Lake Tahoe Basin restoration, Nevada and California.
Sec. 335. Additional assistance for Eastern Santa Clara Basin, California.
Sec. 336. Tribal partnership program.
Sec. 337. Soldier's home contracts and water storage agreements.
Sec. 338. Copan Lake, Oklahoma.
Sec. 339. Enhanced development program.
Sec. 340. Ecosystem restoration coordination.
Sec. 341. Acequias irrigation systems.
Sec. 342. Rogers County, Oklahoma.
Sec. 343. Water storage supply repair, rehabilitation, and replacement costs.
Sec. 344. Non-Federal payment flexibility.
Sec. 345. North Padre Island, Corpus Christi Bay, Texas.
Sec. 346. Waiver of non-Federal share of damages related to certain contracts.
Sec. 347. Algiers Canal Levees, Louisiana.
Sec. 349. City of El Dorado, Kansas.
Sec. 350. Upper Mississippi River protection.
Sec. 351. Regional Corps of Engineers Office, Corpus Christi, Texas.
Sec. 352. Pilot program for good neighbor authority on Corps of Engineers land.
Sec. 353. Southeast Des Moines, Southwest Pleasant Hill, Iowa.
Sec. 354. Middle Rio Grande flood protection, Bernalillo to Belen, New Mexico.
Sec. 356. Maintenance dredging permits.
Sec. 358. Tribal assistance.
Sec. 359. Recreational opportunities at certain projects.
Sec. 360. Rehabilitation of Corps of Engineers constructed dams.
Sec. 361. South Florida Ecosystem Restoration Task Force.
Sec. 362. New Madrid County Harbor, Missouri.
Sec. 363. Trinity River and tributaries, Texas.
Sec. 365. Flood assistance.
Sec. 366. Land transfer and trust land for Choctaw Nation of Oklahoma.
Sec. 367. Lake Barkley, Kentucky, land conveyance.

TITLE IV—WATER RESOURCES INFRASTRUCTURE
Sec. 401. Project authorizations.
Sec. 402. Storm damage prevention and reduction, coastal erosion, and landslides, California and Alaska.
Sec. 403. Expedited completion of projects.
Sec. 404. Special rules.
Sec. 405. Chattanooga River program.
Sec. 406. Lower Mississippi River Basin demonstration program.
Sec. 407. Forecast-informed reservoir operations.
Sec. 408. Mississippi River mat sinking unit.
Sec. 409. Sense of Congress relating to Okatibee Lake.
(ii) by striking “control” and inserting “coastal” and “coastal storm risk management”;

and

(b) in subsection (d), by striking “75 percent of the costs” and inserting “50 percent.”

SEC. 106. CONFORMING AMENDMENT. —The table of contents in section 1(b) of the Water Resources Reform and Development Act of 2014 (128 Stat. 1193) is amended by striking the item relating to section 106.

SEC. 105. POLICY AND TECHNICAL STANDARDS. —Consistent with the 5-year administrative publication life cycle of the Department of the Army’s policies and standards, the Secretary may rescind, modify, update, or extend any policy or standard issued by the Army Corps of Engineers.

SEC. 105. PLANNING ASSISTANCE TO STATES. —(a) IN GENERAL. —Section 22 of the Water Resources Development Act of 1974 (42 U.S.C. 16326–16329) is amended —

(1) in subsection (a), by striking “dam and reservoir services” and inserting “water resource planning services and floodplain and coastal storm risk management services”;

(2) in subsection (b), by striking “75 percent of the costs” and inserting “50 percent.”

(b) CONFORMING AMENDMENT. —The table of contents in section 1(b) of the Water Resources Reform and Development Act of 2014 (128 Stat. 1193) is amended by striking the item relating to section 105.

SEC. 107. FLOODPLAIN MANAGEMENT SERVICES. —(a) IN GENERAL. —Section 102(a) of the Water Resources Development Act of 1986 (33 U.S.C. 2212(a)) is amended —

(1) in the matter preceding paragraph (1), by striking “One-half of the costs” and inserting “75 percent of the costs”; and

(2) in the designated matter following paragraph (1), in the second sentence, by striking “One-half of such costs” and inserting “75 percent of such costs.”

(b) IN GENERAL. —The Secretary is authorized to carry out activities, at full Federal expense —

(1) to inform and educate States and other non-Federal interests about the impacts of floods to coastal communities;

(2) to engage with States and other non-Federal interests to identify specific opportunities to partner with the Corps of Engineers to address water resources development needs.

(c) STAFF. —The Secretary shall designate staff in each district office of the Corps of Engineers to provide assistance under this subsection.

SEC. 108. INLAND WATERWAY PROJECTS. —(a) IN GENERAL. —Section 102(a) of the Water Resources Development Act of 1986 (33 U.S.C. 2212(a)) is amended —

(1) in the matter preceding paragraph (1), by striking “One-half of the costs” and inserting “75 percent of the costs”; and

(2) in the designated matter following paragraph (1), in the second sentence, by striking “One-half of such costs” and inserting “75 percent of such costs.”

(b) IN GENERAL. —The Secretary is authorized to carry out activities, at full Federal expense —

(1) to inform and educate States and other non-Federal interests about the impacts of floods to coastal communities;

(2) to engage with States and other non-Federal interests to identify specific opportunities to partner with the Corps of Engineers to address water resources development needs.

(c) STAFF. —The Secretary shall designate staff in each district office of the Corps of Engineers to provide assistance under this subsection.

SEC. 109. PROTECTION AND RESTORATION OF OTHER FEDERAL LAND ALONG RIVERS AND COASTS. —(a) IN GENERAL. —The Secretary is authorized to use funds made available to the Secretary for water resources development purposes to construct, at full Federal expense, a measure benefiting Federal land under the administrative jurisdiction of another Federal agency, if the measure —

(1) is included in a report of the Chief of Engineers or other decision document for a water resources development project that is specifically authorized by Congress;

(2) is included in a report recommending a project report (as defined in section 105(d) of the Water Resources Development Act of 1986 (33 U.S.C. 2215)); or

(3) utilizes dredged material from a water resources development project beneficially.

(b) APPLICABILITY. —This section shall apply to a measure for which construction is initiated after the date of enactment of this Act.

(c) EXCLUSION. —In this section, the term “Federal land” does not include a military installation.

(d) SAVINGS PROVISIONS. —Nothing in this section precludes —

(1) a Federal agency with administrative jurisdiction over a Federal land from contributing funds for any portion of the cost of a measure described in subsection (a) that benefits that land;

(2) the Secretary, at the request of the non-Federal interest for a study for a project for flood or coastal storm risk management, from using funds made available to the Secretary for water resources development investigations to formulate measures to reduce risk to a military installation, if the non-Federal interest shares in the cost of flood protection to the same extent that the non-Federal interest is required to share in the cost of the study.

(e) REPEAL. —(1) IN GENERAL. —Section 1025 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2235) is repealed.

(2) CONFORMING AMENDMENT. —The table of contents in section 1(b) of the Water Resources Reform and Development Act of 2014 (128 Stat. 1193) is amended by striking the item relating to section 1025.
(C) by adding at the end the following:

"(3) IDENTIFICATION OF ASSISTANCE.—

“(A) IN GENERAL.—To the maximum extent practicable, in providing assistance under this subsection, the Secretary shall identify and communicate to States and non-Federal interests specific opportunities to partner with the Corps of Engineers to address flood hazards and coordinate activities under this subsection (e); and

“(B) COORDINATION.—The Secretary shall coordinate activities under this paragraph with activities described in subsection (b) of section 22 of the Water Resources Development Act of 1974 (42 U.S.C. 1962d–16);”;

(2) by redesignating subsection (d) as subsection (e); and

(3) by inserting after subsection (c) the following:

“(d) INSTITUTIONS OF HIGHER EDUCATION.—Notwithstanding section 414 of title 10, United States Code, in carrying out this section, the Secretary may work with an institution of higher education, as determined appropriate by the Secretary.”

SEC. 108. WORKFORCE PLANNING.

(a) DEFINITION OF HISTORICALLY BLACK COLLEGE OR UNIVERSITY.—In this section, the term ‘‘historically Black college or university’’—

(1) means a college or university that was given the term ‘‘part B institution’’ in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061); and

(2) to recruit individuals for careers at the Corps of Engineers.

(b) PARTNERING ENTITIES.—In carrying out activities described in subsections (a)(1) and (a)(2), the Secretary may enter into partnerships with—

(1) public and nonprofit elementary and secondary schools;

(2) historically Black colleges and universities;

(3) technical schools;

(4) colleges and universities, including historically Black colleges and universities; and

(5) other institutions of learning.

(c) PRIORITIZATION.—The Secretary shall, to the maximum extent practicable, prioritize the recruitment of individuals under paragraph (a), where those individuals are located in economically disadvantaged communities (as defined pursuant to section 169 of the Water Resources Development Act of 2020 (33 U.S.C. 2201) and Public Law 116-260).

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $40,000,000 for each of fiscal years 2021 through 2025.

SEC. 109. CREDIT IN LIEU OF REIMBURSEMENT.

(a) IN GENERAL.—Section 1022 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2232) is amended—

(1) in subsection (a)—

(A) by striking ‘‘or’’ before ‘‘an authorized coastal navigation project’’;

(B) in subsection (b), in any other water resources development project for which the Secretary is authorized to reimburse the non-Federal interest for the Federal share of construction or operation and maintenance, before ‘‘the Secretary’’; and

(C) by striking ‘‘the project’’ and inserting ‘‘to construct, periodically nourish, or operate and maintain the project’’;

(2) in each of subsections (b) and (c), by striking ‘‘flood damage reduction and coastal navigation’’ each place it appears and inserting ‘‘activities under this section in compliance with all laws and regulations that would apply if the activities were carried out by the Secretary.’’

(3) by striking ‘‘(d) APPLICABILITY.—With respect to a project constructed under section 264 of the Water Resources Development Act of 1968 (33 U.S.C. 2223), the Secretary shall exercise the authority under this section to apply credits and reimbursements related to the project in a manner consistent with the requirements of subsection (d) of that section.’’;

(b) TREATMENT OF CREDIT BETWEEN PROJECTS.—Section 7007(d) of the Water Resources Development Act of 2007 (121 Stat. 1277; 128 Stat. 1226) is amended by inserting ‘‘, or may be applied to reduce the amounts required to be contributed by the non-Federal interest under the terms of the deferred payment agreements entered into between the Secretary and the non-Federal interest for the project authorized by section 7012(a)(1)’’ before the period at the end.

SEC. 110. COASTAL COST CALCULATIONS.

Section 152(a) of the Water Resources Development Act of 2020 (33 U.S.C. 2223(a)(a)) is amended by inserting ‘‘or coastal storm risk management’’ after ‘‘flood risk management’’.

SEC. 111. ADVANCE PAYMENT IN LIEU OF REIMBURSEMENT FOR CERTAIN FEDERAL COSTS.

The Secretary is authorized to provide in advance to the non-Federal interest the Federal share of funds required for the acquisition of land, easements, and rights-of-way and the performance of relocations for a project authorized by this subsection—

(1) authorized to be constructed at full Federal expense;

(2) described in section 103(b)(2) of the Water Resources Development Act of 1986 (33 U.S.C. 2223(b)(2)); or

(3) described in, or modified by an amendment made by section 307(a) or 309(a), if at any time the cost to acquire the land, easements, and rights-of-way required for the project is projected to exceed the non-Federal share of the cost of the project.

SEC. 112. USE OF EMERGENCY FUNDS.

(a) IN GENERAL.—Section 5(a) of the Act of August 18, 1941 (commonly known as the ‘‘Flood Control Act of 1941’’) (55 Stat. 665, chapter 377; 33 U.S.C. 701a-5(a)), is amended—

(1) in paragraph (1), in the first sentence, by inserting ‘‘, increase resilience, increase effectiveness in preventing damages from inundation, wave attack, or erosion, after ‘address major deficiencies’’; and

(2) by adding at the end the following:

“(b) WORK CARRIED OUT BY A NON-FEDERAL SPONSOR.—

“(A) GENERAL RULE.—The Secretary may authorize a non-Federal sponsor to plan, design, or construct repair or restoration work described in paragraph (1).

“(B) REQUIREMENTS.—

“(1) IN GENERAL.—To be eligible for a payment under subparagraph (C) for the Federal share of the cost of the construction or repair or restoration work described in paragraph (1), the non-Federal sponsor shall enter into a written agreement with the Secretary before carrying out the activity.

“(2) COMPLIANCE WITH OTHER LAWS.—The non-Federal sponsor shall carry out all activities under this section in compliance with all laws and regulations that would apply if the activities were carried out by the Secretary.

“(C) PAYMENT.—

“(1) IN GENERAL.—The Secretary is authorized to provide payment, in the form of an advance or a reimbursement, to the non-Federal sponsor for the Federal share of the cost of a planning design, or construction activity for the repair or restoration work described in paragraph (1). The non-Federal sponsor shall enter into a written agreement with the Secretary before carrying out the activity.

“(D) ANNUAL LIMIT ON REIMBURSEMENTS NOT TO EXCEED.—The Secretary shall establish minimum levels and requirements for continuous and experiential learning for such personnel, including levels and requirements for acquisition certification purposes.

“(E) NOTIFICATION.—The Secretary shall notify the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives of any transaction under this section not less than 30 days before entering into the transaction.

“(F) REPORT.—Not later than 3 years and not later than 7 years after the date of enactment of the Water Resources Development Act of 2022, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the use of the authority under paragraph (1).
COORDINATION.—The Secretary shall co-ordinate implementation of the program with relevant—
(A) Federal and State agencies;
(B) Injured communities and Indian Tribes, where applicable, in the development of water resources development projects and programs of the Corps of Engineers; and
(C) local governments; and
(D) nonprofit organizations.

CONTRACTS, GRANTS, AND COOPERATIVE AGREEMENTS.—The Secretary is authorized to enter into contracts, grant agreements, and cooperative agreements with institutions of higher education and with entities described in paragraph (2) to implement the program.

ADDITIONAL INFORMATION.—In carrying out the program, the Secretary may use available studies, information, literature, or data on the Great Basin region published by relevant Federal, State, or local entities.

AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this subsection $10,000,000.

CRIMINAL AMENDMENTS.—The table of contents contained in section 1(b) of the Water Resources Development Act of 1988 (102 Stat. 4012) is amended by striking the item relating to section 7 and inserting the following:

"Sec. 7. Research and development."
(v) A non-Federal interest for a project for aquatic ecosystem restoration.
(B) A representative of each of the following:
(i) A non-Federal stakeholder with respect to inland waterborne transportation.
(ii) A non-Federal stakeholder with respect to water supply.
(iii) A non-Federal stakeholder with respect to recreation.
(iv) A non-Federal stakeholder with respect to hydropower.
(v) A non-Federal stakeholder with respect to emergency preparedness, including coastal protection.
(C) A representative of each of the following:
(i) An organization with expertise in conservation.
(ii) An organization with expertise in environmental policy.
(iii) An organization with expertise in rural water resources.
(iv) An organization with expertise in public water supply.
(v) An organization with expertise in aquatic ecosystem restoration.

SEC. 116. UNDERSERVED COMMUNITY HARBOR.

(a) Definitions.—In this section:
(1) IN GENERAL.—The term "underserved community harbor" means an emerging harbor (as defined in section 210(f) of the Water Resources Development Act of 1986 (33 U.S.C. 2238(f))) for which—
(A) no Federal funds have been obligated for maintenance dredging in the current fiscal year or in any of the 4 preceding fiscal years; and
(B) State and local investments in infrastructure have been made during the preceding 4 fiscal years.

(b) Establishment.—Not later than 90 days after the date of enactment of this Act, the Secretary shall establish a Western Water Cooperative Committee (referred to in this section as the "Cooperative Committee").

(2) PURPOSE.—The purpose of the Cooperative Committee is to ensure that Corps of Engineers flood control projects in Western States are operated consistent with congressional directives by identifying opportunities to avoid or minimize conflicts between operation of Corps of Engineers projects and State water rights and water laws.

(3) MEMBERSHIP.—
(A) IN GENERAL.—The Cooperative Committee shall be composed of—
(i) the Assistant Secretary of the Army for Civil Works (or a designee);
(ii) the Chief of Engineers (or a designee); and
(iii) 3 representatives from each of the States of Alaska, Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming, who shall serve on the Western States Water Council, to be appointed by the Governor of each State; and
(iv) 1 representative from each of the impacted regional offices of the Bureau of Indian Affairs.

(4) MEETINGS.—The Cooperative Committee shall meet not less than once each year in a State represented on the Cooperative Committee.

(5) AVAILABILITY TO PUBLIC.—Each meeting of the Cooperative Committee shall be open and accessible to the public.

(6) NOTIFICATION.—The Cooperative Committee shall publish in the Federal Register 30 days in advance of each meeting notice a written notification of the Cooperative Committee.

(7) DUTIES.—The Cooperative Committee shall develop and maintain policies to avoid or minimize conflicts between operation of Corps of Engineers projects and State water rights and water laws, which may include recommendations for legislation or the promulgation of policy or regulations.

(8) STATUS UPDATES.—On an annual basis, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives a written report that includes—

(i) a summary of the contents of meetings of the Cooperative Committee; and
(ii) any description of any recommendations made by the Cooperative Committee under paragraph (5), including actions taken by the Secretary in response to such recommendations.

(b) COMMENT.—

(1) IN GENERAL.—Not later than 45 days following the conclusion of a meeting of the Cooperative Committee, the Secretary shall provide to the Committee an opportunity to comment on the
contents of the meeting and any recommendations.

(ii) INCLUSION.—Comments provided under clause (i) shall be included in the report provided is an appendix (A).

(7) COMPENSATION.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the members of the Cooperative Committee shall serve without compensation.

(B) TRAVEL EXPENSES.—The Members of the Cooperative Committee shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the Cooperative Committee.

(C) MAINTENANCE OF RECORDS.—The Cooperative Committee shall maintain records pertaining to operating costs and records of the Cooperative Committee for a period of not less than 3 years.

SEC. 118. UPDATES TO CERTAIN WATER CONTROL MANUALS.

On request of the Governor of State in which the Governor declared a statewide drought emergency, the Secretary is authorized to update water control manuals for waters in the State, with priority given to those waters that accommodate a water supply project.

SEC. 119. SENSE OF CONGRESS ON OPERATIONS AND MAINTENANCE OF RECREATION SITES.

It is the sense of Congress that the Secretary, as part of the annual work plan, should distribute amounts provided for the operation and maintenance of recreation sites of the Corps of Engineers so that each site receives an amount that is not less than 80 percent of the recreation fees generated by such site.

SEC. 120. RELOCATION ASSISTANCE.

In the case of a water resources development project using nonstructural measures for the elevation or modification of a dwelling that is the primary residence of an owner-occupant and that requires the owner-occupant to relocate temporarily from the dwelling during the period of construction, the Secretary may, in the value of the land, easements, and rights-of-way required for the project or measure the documented reasonable living expenses, excluding food and personal transportation, incurred by the owner-occupant during the period of relocation.

SEC. 121. REPROGRAMMING LIMITS.

(a) ADJUSTMENTS AND MAINTENANCE.—In reprogramming funds made available to the Secretary for operations and maintenance—

(1) the Secretary may not reprogram more than 25 percent of the base amount up to a limit of—

(A) $3,500,000 for a project, study, or activity with a base level over $1,000,000; and

(B) $250,000 for a project, study, or activity with a base level of $1,000,000 or less; and

(2) $300,000 may be reprogrammed for any continuing study or activity of the Secretary that did not receive an appropriation.

(b) INVESTIGATIONS.—In reprogramming funds made available to the Secretary for investigations—

(1) the Secretary may not reprogram more than $150,000 for a project, study, or activity with a base level over $100,000; and

(2) $50,000 may be reprogrammed for any continuing study or activity of the Secretary that did not receive an appropriation for existing obligations and concomitant administrative expenses.

SEC. 122. CASE DURATIONS.

The Secretary shall issue guidance on, in the case of a leasing decision pursuant to section 2607 of title 10, United States Code, or section 4 of the Act of December 22, 1944 (commonly known as the “Flood Control Act of 1944”) (38 Stat. 869, chapter 665; 15 U.S.C. 461d), installation of not less than 6 inches and not more than 25 feet.

(3) public safety information on the dangers of low-head dams; and

(ii) any other relevant information concerning low-head dams; and

SEC. 124. PAYMENT OF PAY AND ALLOWANCES OF CERTAIN OFFICERS FROM APPROPRIATION FOR IMPROVEMENTS.

Section 36 of the Act of August 10, 1936 (70A Stat. 634, chapter 1041; 33 U.S.C. 583a), is amended—

(1) by striking “Regular officers of the Corps of Engineers, and reserve officers of the Army who are assigned to the Corps of Engineers” and inserting the following:

(i) in GENERAL.—The personnel described in subsection (a) are the following:

(ii) PERSONNEL DESCRIBED.—The personnel referred to in subsection (a) are the following:

(iii) Regular officers of the Corps of Engineers of the Army.

(iv) The following members of the Army who are assigned to the Corps of Engineers: (A) Reserve component officers.

(B) Warrant officers (whether regular or reserve component).

(C) Enlisted members (whether regular or reserve component).

SEC. 125. REFORESTATION.

The Secretary is encouraged to consider measurement and monitoring for the purpose of the study or project under a continuing authorization to acquire lands for the establishment of forest management.

SEC. 126. USE OF OTHER FEDERAL FUNDS.

Section 2007 of the Water Resources Development Act of 2007 (33 U.S.C. 2222) is amended—

(1) by striking “water resources study or project” and inserting “water resources development study or project, including a study or project under a continuing authorization to acquire lands for the establishment of forest management”.

(2) by striking “100 percent” and inserting “90 percent”.

SEC. 127. NATIONAL LOW-HEAD DAM INVENTORY.

The National Flood Protection Program Act (33 U.S.C. 675 et seq.) is amended by adding at the end the following:

SEC. 128. TRANSFER OF EXCESS CREDIT.

Section 1020 of the Water Resources Reform and Development Act of 2013 (33 U.S.C. 2282c) is amended—

(1) in subsection (a), by adding at the end the following:

(2) in subsection (b), by adding at the end the following:

SEC. 129. NATIONAL LEVEE RESTORATION.

(a) DEFINITION OF REHABILITATION.—In this section—

(i) the location, ownership, description, current use, condition, height, and length of each low-head dam; and

(ii) public safety information on public safety conditions at each low-head dam; and

SEC. 130. SENSE OF CONGRESS ON OPERATIONS AND MAINTENANCE OF RECREATION SITES.

It is the sense of Congress that the Secretary, as part of the annual work plan, should distribute amounts provided for the operation and maintenance of recreation sites of the Corps of Engineers so that each site receives an amount that is not less than 80 percent of the recreation fees generated by such site.

SEC. 131. NATIONWIDE REHABILITATION.

(a) DEFINITION OF REHABILITATION.—In this section—

(i) public safety information on the dangers of low-head dams; and

(ii) any other relevant information concerning low-head dams; and

SEC. 132. NATIONAL LEVEE RESTORATION.

(a) DEFINITION OF REHABILITATION.—Section 130 of the Water Resources Development Act of 2007 (33 U.S.C. 2301(13)) is amended—

(1) by inserting “, or improvement” after “removal”; and

(2) by inserting “, increase resiliency to extreme weather events,” after “flood risk”.

SEC. 133. NATIONAL LEVEE RESTORATION.

(a) DEFINITION OF REHABILITATION.—In this section—
(b) LEVER REHABILITATION ASSISTANCE PROGRAM.—Section 905(b) of the Water Resources Development Act of 2007 (33 U.S.C. 3303(b)) is amended—

(1) by inserting paragraph (7), by striking "$10,000,000" and inserting "$25,000,000"; and

(2) by adding at the end the following:

"(11) PRIORITIZATION.—To the maximum extent practicable, the Secretary shall prioritize the provision of assistance under this subsection to economically disadvantaged communities (as defined pursuant to section 903 of the Water Resources Development Act of 2020 (33 U.S.C. 2201 note; Public Law 116–360)).".

SEC. 130. INLAND WATERWAYS REGIONAL DREDGE PILOT PROGRAM.
Section 1111 of the America’s Water Infrastructure Act of 2018 (33 U.S.C. 2326 note; Public Law 115–270) is amended by adding at the end the following:

"(e) INLAND WATERWAYS REGIONAL DREDGE PILOT PROGRAM.—

"(1) IN GENERAL.—The Secretary is authorized to establish a pilot program (referred to in this subsection as the 'pilot program') to conduct a multiyear dredging demonstration program to award contracts with a duration of up to 5 years for projects on inland waterways.

"(2) PURPOSES.—The purposes of the pilot program shall be—

"(A) to increase the reliability, availability, and efficiency of federally-owned and federally-operated inland waterway projects;

"(B) to decrease operational risks across the inland waterway system; and

"(C) to provide cost-savings by combining work across multiple projects across different accounts of the Corps of Engineers.

"(3) DEMONSTRATION.—

"(A) IN GENERAL.—The Secretary shall, to the maximum extent practicable, award contracts for projects on inland waterways that combine work across the Construction and Operation and Maintenance accounts of the Corps of Engineers.

"(B) PROJECTS.—In awarding contracts under subparagraph (A), the Secretary shall consider projects that—

"(i) improve navigation reliability on inland waterways that are accessible year-round;

"(ii) increase freight capacity on inland waterways; and

"(iii) have the potential to enhance the availability of containerized cargo on inland waterways.

"(4) SAVINGS CLAUSE.—Nothing in this subsection affects the responsibility of the Secretary with respect to the construction and operations and maintenance of projects on the inland waterways system.

"(5) REPORT TO CONGRESS.—Not later than 1 year after the date on which the first contract is awarded pursuant to the pilot program, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives a report that evaluates, with respect to the pilot program and any contracts awarded under the pilot program—

"(A) cost effectiveness;

"(B) reliability and performance; and

"(C) cost savings attributable to mobilization and demobilization of dredge equipment; and

"(D) response times to address navigational impediments.

"(6) SUNSET.—The authority of the Secretary to enter into contracts pursuant to the pilot program expires on the date that is 10 years after the date of enactment of this Act.".

SEC. 131. FUNDING TO PROCESS PERMITS.
Section 214(a)(2) of the Water Resources Development Act of 2000 (33 U.S.C. 2232(a)(2)) is amended—

(1) by striking "the Secretary" and inserting "the following:

"(A) IN GENERAL.—The Secretary; and

"(B) by adding at the end the following:

"(2) IN GENERAL.—An activity carried out by the Secretary to expedite evaluation of a permit described in subparagraph (A) may include the evaluation of an instrument for a mitigation bank if—

"(i) the non-Federal public entity, public-utility company, railroad carrier described in subparagraph (A);

"(ii) increase freight capacity on inland waterways;

"(iii) USF of CREDITS.—The use of credits generated by the mitigation bank established using expedited processing under clause (i) shall be limited to current and future projects and activities of the entity, company, or railroad carrier described in clause (i) of that clause for a public purpose, except that in the case of a non-Federal public entity, not more than 25 percent of the credits may be sold to other public and private entities.

SEC. 132. NON-FEDERAL PROJECT IMPLEMENTATION PILOT PROGRAM.
Section 101(c)(4) of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2201 note; Public Law 113–121) is amended—

(1) in paragraph (3), by inserting "or discrete segment" each place it appears; and

(2) by adding at the end the following:

"(10) DEFINITION OF DISCRETE SEGMENT.—In this subsection, the term 'discrete segment' means a physical portion of a project or separable element that the non-Federal interest can operate and maintain, independently and without creating a hazard, in advance of final completion of the water resources development project, or separable element thereof.

SEC. 133. COST SHARING FOR TERRITORIES AND INDIAN TRIBES.
Section 1156 of the Water Resources Development Act of 1986 (33 U.S.C. 2310) is amended by adding at the end the following:

"(c) APPLICATION TO STUDIES.—For purposes of this section, the term 'study' includes watershed assessments.

"(2) APPLICATION.—The Secretary shall apply the waiver amount described in section (a) to reduce only the non-Federal share of study costs.

SEC. 134. WATER SUPPLY CONSERVATION.
Section 1116 of the Winnebago River Act of 1986 (33 U.S.C. 2310) is amended by adding at the end the following:

"(c) APPLICATION TO STUDIES.—For purposes of this section, the term 'study' includes watershed assessments.

"(2) APPLICATION.—The Secretary shall apply the waiver amount described in section (a) to reduce only the non-Federal share of study costs.

SEC. 135. EXPEDITING HYDROPOWER AT CORPS OF ENGINEERS FACILITIES.
Section 1008 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2322b) is amended—

(1) in subsection (b)(1), by inserting "and to meet the requirements of subsection (b)" after "projects;" and

(2) by redesigning subsections (b) and (c) as subsections (c) and (d), respectively; and

(3) by inserting after subsection (a) the following:

"(b) IMPLEMENTATION OF POLICY.—The Secretary shall—

"(1) ensure that the policy described in subsection (a) is implemented nationwide in an efficient, consistent, and coordinated manner; and

"(2) assess opportunities—

"(A) to increase the development of hydroelectric power at existing hydroelectric resources; and

"(B) to develop new hydroelectric power at nonpowered water resources development projects of the Corps of Engineers.

SEC. 136. PROTECTION OF LIGHOUSES.
Section 14 of the Flood Control Act of 1946 (33 U.S.C. 701r) is amended by inserting "lighthouses, including those lighthouses of historical value.

SEC. 137. EXPANDING HYDROPOWER AT CORPS OF ENGINEERS FACILITIES.
Section 1008 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2322b) is amended—

(a) DEFINITION OF ELIGIBLE PUBLIC RECREATION FACILITY.—In this section, the term "eligible public recreation facility" means a facility at a reservoir operated by the Corps of Engineers that—

"(1) was constructed to enable public use of and access to the reservoir; and

"(2) requires repair, restoration, or rehabilitation.

"(b) AUTHORIZATION.—During a period of low water at an eligible public recreation facility, the Secretary is authorized—

"(1) to accept and use materials, services, and funds from a non-Federal interest to repair, restore, or rehabilitate the facility; and

"(2) to reimburse a non-Federal interest for the Federal share of the materials, services, and funds.

"(c) REQUIREMENT.—The Secretary may not reimburse a non-Federal interest for the use of materials or services accepted under this section unless the materials or services—

"(1) meet the specifications of the Secretary; and

"(2) comply with all applicable laws and regulations that would apply if the materials and services were acquired by the Secretary.

"(A) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary shall develop specific criteria for the annual evaluation and ranking of main-tenance dredging requirements for small, remote, and subsistence harbors, taking into account the criteria provided in the joint ex-planatory statement of managers accompanying the division D of the Consolidated Appropriations Act, 2021 (Public Law 116–260; 134 Stat. 1352).

(b) INCLUSION IN GUIDANCE.—The Secretary shall include the criteria developed under subsection (a) in the annual Civil Works Direc-

(d) AGREEMENT.—Before the acceptance of materials, services, or funds under this section, the Secretary and the non-Federal interest shall enter into an agreement that—

(1) specifies that the non-Federal interest shall hold and save the United States free from any and all damages that arise from use of materials or services of the non-Federal interest, except for damages due to the fault or negligence of the United States or its contractors;

(2) states that the non-Federal interest shall certify that the materials or services comply with all applicable laws and regulations under subsection (c); and

(3) includes any other term or condition required by the Secretary.

SEC. 139. DREDGED MATERIAL MANAGEMENT PLANS.

(a) In general.—The Secretary shall prioritize implementation of section 125(c) of the Water Resources Development Act of 2020 (33 U.S.C. 2236b) at federally authorized harbors in the Ohio River.

(b) REQUIREMENTS.—Each dredged material management plan prepared by the Secretary under section 125(c) of the Water Resources Development Act of 1992 (33 U.S.C. 2236b) for a federally authorized harbor in the State of Ohio shall—

(1) include, in the baseline conditions, a prohibition on use of funding for open-lake disposal of dredged material consistent with section 105 of the Energy and Water Development and Related Agencies Appropriations Act, 2022 (Public Law 117–100; 136 Stat. 237); and

(2) maximize beneficial use of dredged material under the base plan and under section 204(d) of the Water Resources Development Act of 1992 (33 U.S.C. 2236b(d)).

(c) SAVINGS PROVISION.—This section does not—

(1) impose a prohibition on use of funding for open-lake disposal of dredged material; or

(2) require the development or implementation of a dredged material management plan in accordance with subsection (b) if use of funding for open-lake disposal is not otherwise prohibited by law.

SEC. 140. LEASE DEVIATIONS.

The Secretary shall fully implement the requirements of section 153 of the Water Resources Development Act of 2020 (134 Stat. 2526).

SEC. 141. COLUMBIA RIVER BASIN.

(a) STUDY OF FLOOD RISK MANAGEMENT ACTIVITIES.—

(1) In general.—Using funds made available to carry out this section, the Secretary is authorized, at Federal expense, to carry out a study to determine the feasibility of a project or program of management and related purposes in the Columbia River basin and to report to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate with recommendations thereon, including recommendations for a project to potentially reduce the reliance on Canada for flood risk management in the basin.

(2) COORDINATION.—The Secretary shall carry out the activities described in this subsection in coordination with other Federal and State agencies and Indian Tribes.

(b) FUNDS FOR COLUMBIA RIVER TREATY OBLIGATIONS.—

(1) In general.—The Secretary is authorized to expend funds appropriated for the purpose of satisfying United States obligations under the Columbia River Treaty to compensate Canada for operating Canadian storage on behalf of the United States under such Treaty.

(2) Notification.—If the U.S. entity calls upon Canada to operate Canadian reservoir storage for flood risk management on behalf of the United States, which operation may incur an obligation to compensate Canada under the Columbia River Treaty—

(A) the Secretary shall submit to the Committees on Transportation and Infrastructure and Appropriations of the House of Representatives and the Committees on Environment and Public Works and Appropriations of the Senate, by not later than thirty days after the initiation of the call, a written notice of the action and a justification, including a description of the circumstances necessitating the call; and

(B) upon a determination by the United States of the amount of compensation that shall be paid to Canada, the Secretary shall submit to the Committees on Transportation and Infrastructure and Appropriations of the House of Representatives and the Committees on Environment and Public Works and Appropriations of the Senate a written practice specifying such amount and an explanation of how such amount was derived, which notification shall not delay or impede the flood risk management mission of the U.S. entity; and

(c) The Secretary shall make no payment to Canada for the call under the Columbia River Treaty until such time as funds appropriated for the purpose of compensating Canada under such Treaty are available.

(d) DEFINITIONS.—In this section:

(1) COLUMBIA RIVER BASIN.—The term ‘‘Columbia River basin’’ means the entire United States portion of the Columbia River water-shed.

(2) COLUMBIA RIVER TREATY.—The term ‘‘Columbia River Treaty’’ means the Treaty relating to cooperative development of the water resources of the Columbia River Basin signed at Washington January 17, 1961, and entered into force September 16, 1964.

(3) U.S. ENTITY.—The term ‘‘U.S. entity’’ means the entity designated by the United States under Article XIV of the Columbia River Treaty.

SEC. 142. CONTINUATION OF CONSTRUCTION.

(a) IN GENERAL.—The Secretary shall not include the amount of Federal obligations incurred and non-Federal contributions provided for an authorized water resources development project prior to March 1, 2020, in the Water Resources Development Act of 1986 (33 U.S.C. 2230).

(b) Continuation of Construction.—

(1) IN GENERAL.—The Secretary shall not, solely on the basis of section 902 of the Water Resources Development Act of 1986 (33 U.S.C. 2230)—

(A) defer the initiation or continuation of construction of a water resources development project during the period described in subsection (a); or

(B) terminate a contract for design or construction of a water resources development project entered into during the period described in subsection (a) after expiration of that period.

(2) Resumption of Construction.—The Secretary may resume construction of any water resources development project for which construction was deferred on the basis of section 902 of the Water Resources Development Act of 1986 (33 U.S.C. 2230) during the period beginning on October 1, 2021, and ending on the date of enactment of this Act.
(28) Project for ecosystem restoration and water supply, Great Salt Lake, Utah.

(b) PROJECT MODIFICATIONS.—The Secretary is authorized to modify the feasibility study by the following modifications to the following projects:

(1) Modifications to the project for navigation, South Haven Harbor, Michigan, for turn-around improvements.

(2) Modifications to the project for navigation, Rollinson Channel and channel from Hatteras Inlet to Hatteras, North Carolina, authorized by section 101 of the River and Harbor Act of 1962 (76 Stat. 1174), to incorporate the ocean bar.

(3) Modifications to the project for flood control, St. Joseph River Basin, Missouri and Arkansas, authorized by section 204 of the Flood Control Act of 1950 (64 Stat. 172, chapter 380), to provide flood risk management for the tributaries and drainage of Straight Slough, Craighead, Poinsett, and Cross Counties, Arkansas.

(4) Modifications to the project for flood risk management, Cedar River, Cedar Rapids, Iowa, authorized by section 7002(2) of the Water Resources Reform and Development Act of 2014 (128 Stat. 1396), consistent with the Cedar River Flood Control System Master Plan.

(5) Modifications to the project for navigation, Savannah Harbor, Georgia, without evaluating the need for deepening.

(6) Modifications to the project for navigation, Honolulu Harbor, Hawaii, for navigation improvements and coastal storm risk management.

(7) Modifications to the project for navigation, Port of Ogdensburg, New York, including deepening.

(8) Modifications to the Huntington Local Protection Project, Huntington, West Virginia.

SEC. 202. SPECIAL RULES.

(a) The studies authorized by paragraphs (12) and (13) of section 201(a) shall be considered a continuation of a study that resulted in the Chief’s Report for the project for Papillion Creek and Tributaries Lakes, Nebraska, signed January 24, 2022.

(b) The study authorized by section 201(a)(17) shall be considered a resumption and a general reevaluation initiated on December 30, 2003.

(c) In carrying out the study authorized by section 201(a)(21), the Secretary shall only formulate potential and alternative proposals consistent with the authorized purposes of existing Federal projects while also maintaining the benefits of such projects.

(d) If the study authorized by section 201(a)(25), the Secretary shall study the South Shore of Long Island, New York, as a whole system, including inlets that are Federal channels.

(e) The studies authorized by section 201(b) shall be considered new phase investigations afforded the same treatment as a general reevaluation.

SEC. 203. EXPEDITED COMPLETION OF STUDIES.

(a) FEASIBILITY REPORTS.—The Secretary shall expedite the completion of a feasibility study for each of the following projects, and if the Secretary determines that the project is justified in a completed report, may proceed directly to preconstruction planning, engineering, and design of the project:

(2) Project for coastal storm risk management, Charleston Peninsula, South Carolina.

(3) Project for flood and coastal storm risk management and ecosystem restoration, Boston, Bays, Rivers, Revere, Saugus, Lynn, Maiden, and Everett, Massachusetts.

(4) Project for flood risk management, De Soto County, Mississippi.

(5) Project for storm risk management, Chicago shoreline, Illinois.

(6) Project for flood risk management, Cape Buttes Dam, Arizona.

(7) Project for flood and coastal storm risk management, Chelsea, Massachusetts, authorized by a study resolution of the Committee on Public Works of the Senate dated September 27, 1969.

(8) Project for ecosystem restoration, Herring River Estuary, Barnstable County, Massachusetts, authorized by a study resolution of the Committee on Transportation and Infrastructure of the House of Representatives dated July 23, 1997.

(9) Project for coastal storm risk management, ecosystem restoration, and navigation, Nauset Barrier Beach and inlet system, Chatham, Massachusetts, authorized by a study resolution of the Committee on Public Works of the Senate dated September 12, 1969.

(12) Project for coastal storm risk management, Sea Bright to Manasquan, New Jersey.

(13) Project for coastal storm risk management, Haritan Bay and Sandy Hook Bay, New Jersey.

(14) Project for coastal storm risk management, St. Tammany Parish, Louisiana.

(17) Project for ecosystem restoration, Lake Okeechobee, Florida.

(18) Project for ecosystem restoration, Western Lake (Everglades), Florida.

(19) Modifications to the project for navigation, Hilo Harbor, Hawaii.

(20) Project for flood risk management, Kanawha River Basin, West Virginia, Virginia, North Carolina.

(21) Modifications to the project for navigation, Anake Bay, Alaska.

(b) POST-AUTHORIZATION CHANGE REPORTS.—The Secretary shall expedite completion of a post-authorization change report for the following projects:

(2) Project for coastal storm risk management, Surf City and North Topsail Beach, North Carolina, authorized by section 7002(3) of the Water Resources Reform and Development Act of 2014 (126 Stat. 1396).

(4) Findings of no significant impact under section 202(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

(c) WATERSHED AND RIVER BASIN ASSESSMENTS.—The Secretary shall expedite the completion of the following assessments under section 729 of the Water Resources Development Act of 1986 (33 U.S.C. 2267a):

(2) Ouachita-Black Rivers, Arkansas and Louisiana.

(3) Project for watershed assessment, Hamilton County, Ohio.

(d) DISPOSITION STUDY.—The Secretary shall expedite the completion of the disposition study for the Los Angeles County Drainage Area under section 216 of the Flood Control Act of 1970 (33 U.S.C. 548a).

(e) ADDITIONAL DIRECTION.—The post-authorization change report for the project described in subsection (b)(3) shall be completed not later than December 31, 2023.

SEC. 204. STUDIES FOR PERIODIC NOURISHMENT.

(a) IN GENERAL.—Section 156 of the Water Resources Development Act of 1976 (42 U.S.C. 12624–5f) is amended—

(1) in subsection (b), by striking “15” and inserting “50”; and

(2) in subsection (e), by striking “10-year period” and inserting “16-year period”; and

(3) by striking “6 years” and inserting “12 years”; and

(4) adding at the end the following:

“(D) TREATMENT OF STUDIES.—A study carried out under subsection (b) shall be considered a new phase investigation afforded the same treatment as a general reevaluation.”.

(b) INDIAN RIVER INLET SAND Bypass PLANT.—For purposes of the project for coastal storm risk management, Delaware Coast Protection, Delaware (commonly known as the “Indian River Inlet Sand Bypass Plant”), authorized by section 869 of the Water Resources Development Act of 1986 (100 Stat. 4182), a study carried out under section 156(b) of the Water Resources Development Act of 1986 shall be considered as an alternative for periodic nourishment, continued reimbursement of the Federal share of the cost to the non-Federal interest for the project to operate and maintain a sand bypass plant.

SEC. 205. NEPA REPORTING.

(a) DEFINITIONS.—In this section:

(1) NEPA EXCLUSION.—The term “categorical exclusion” has the meaning given the term in section 1508.1 of title 40, Code of Federal Regulations (or a successor regulation).

(2) ENVIRONMENTAL ASSESSMENT.—The term “environmental assessment” has the meaning given the term in section 1508.1 of title 40, Code of Federal Regulations (or a successor regulation).

(3) ENVIRONMENTAL IMPACT STATEMENT.—The term “environmental impact statement” means a detailed written statement required under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

(b) FINDING OF NO SIGNIFICANT IMPACT.—The term “finding of no significant impact” has the meaning given the term in section 1508.1 of title 40, Code of Federal Regulations (or a successor regulation).

(2) NEPA PROCESS.—

(A) IN GENERAL.—The term “NEPA process” has the meaning given the term in section 1508 of the Code of Federal Regulations (or a successor regulation).

(B) PERIOD.—For purposes of subparagraph (A), the NEPA process begins on the date on which the Secretary initiates a project study; and

(ii) ends on the date on which the Secretary issues, with respect to the project study:

(i) a record of decision, including, if necessary, a revised record of decision;
SEC. 207. GAO STUDY ON PROJECT DISTRIBUTION.
(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall conduct an analysis of the geographic distribution of annual and supplemental funding for water resources development projects carried out by the Secretary over the previous 10 fiscal years and the factors that have led to that distribution.
(b) REPORT.—The Comptroller General of the United States shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report containing the findings of the analysis under subsection (a).

SEC. 208. GAUD AUDIT OF JOINT COSTS FOR OPERATIONS AND MAINTENANCE.
(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall conduct a review of the practices of the Corps of Engineers with respect to the determination of joint costs associated with operations and maintenance of reservoirs owned and operated by the Corps of Engineers.
(b) REPORT.—The Comptroller General of the United States shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the findings of the review under subsection (a) and any recommendations therefrom.

SEC. 209. GAO REVIEW OF CORPS OF ENGINEERS MITIGATION PRACTICES.
(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall carry out a review of the water resources development project mitigation practices of the Corps of Engineers.
(b) CONTENT.—The review under subsection (a) shall include an evaluation of—
(1) the implementation by the Corps of Engineers of the final rule issued on April 10, 2008, entitled ‘‘Compensatory Mitigation for Losses of Aquatic Resources’’ (73 Fed. Reg. 19594), including, at a minimum—
(A) the extent to which the final rule is consistently implemented by the districts of the Corps of Engineers; and
(B) the performance of each of the mitigation mechanisms included in the final rule; and
(2) opportunities to utilize alternative methodologies to satisfy requirements of water resources development projects, including, at a minimum, performance-based contracts.
(c) REPORT.—The Comptroller General of the United States shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the findings of the review under subsection (a) and any recommendations therefrom.

SEC. 210. GREAT LAKES RECREATIONAL BOATING.
Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall prepare, at full Federal expense, and submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report updating the findings of the report on the economic benefits of recreational boating in the Great Lakes basin prepared under section 455(c) of the Water Resources Development Act of 1999 (42 U.S.C. 1962d–21(c)).

SEC. 211. CENTRAL AND SOUTHERN FLORIDA.
(a) EVALUATION AND REPORT.—
(1) EVALUATION.—On request and at the expense of the St. Johns River Water Management District, the Secretary shall evaluate the effects of authorizing the southernmost 3.5-mile reach of the L-73 levee, Section 2, Osceola County, Florida, on the functioning of the project for flood control and other purposes, Upper St. Johns River Basin, Central and Southern Florida, authorized by section 203 of the Flood Control Act of 1948 (42 Stat. 1176).
(2) REPORT.—In carrying out the evaluation under paragraph (1), the Secretary shall—
(A) prepare a report that includes the results of the evaluation, including—
(i) the advisability of deauthorizing the levee described in that paragraph; and
(ii) any recommendations that should be placed on a deauthorization to protect the interests of the United States and the public; and
(B) submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report under subparagraph (A) as part of the annual report submitted to Congress pursuant to section 7001 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2282d).
(b) COMPREHENSIVE CENTRAL AND SOUTHERN FLORIDA STUDY.—
(1) IN GENERAL.—The Secretary is authorized to carry out a feasibility study for resiliency and comprehensive improvements or modifications to existing water resources development projects in central and southern Florida, for the purposes of flood risk management, water supply, ecosystem restoration (including preventing saltwater intrusion), recreation, and related purposes, as part of the feasibility study under paragraph (1), the Secretary—
(A) is authorized to—
(i) review the report of the Chief of Engineers for central and southern Florida (House Document 643, 80th Congress, 2d Session, and other related reports of the Secretary; and
(ii) recommend cost-effective structural and nonstructural projects for implementation that provide synergetic approaches for the purpose described in the paragraph; and
(B) shall ensure the study and any projects recommended under subparagraph (A) will not interfere with the efforts undertaken to carry out the Comprehensive Everglades Restoration Plan pursuant to section 601 of the Water Resources Development Act of 2000 (114 Stat. 2680; 121 Stat. 1326; 132 Stat. 3786).

SEC. 212. INVESTMENTS FOR RECREATION AREAS.
(a) FINDINGS.—Congress finds the following:
(1) The Corps of Engineers operates more recreation areas than any other Federal or State agency, apart from the Department of the Interior.
(2) Nationally, visitors to nearly 600 dams and lakes, managed by the Corps of Engineers, spend an estimated $12,000,000,000 per year and support 500,000 jobs.

(3) Projects authorized by the Corps of Engineers are economic drivers that support rural communities.

(b) SENATE.—It is the sense of Congress that the Corps of Engineers should use all available authorities to promote and enhance development and recreational opportunities at lakes that are part of authorized or selected projects under the administrative jurisdiction of the Corps of Engineers.

(c) REPORT.—Not later than 180 days after the date of enactment of this Act, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on investments needed to support recreational activities that are part of authorized water resources development projects under the administrative jurisdiction of the Corps of Engineers.

(d) REQUIREMENTS.—The report under subsection (c) shall include:

(1) a list of deferred maintenance projects, including maintenance projects relating to recreational facilities, sites, and associated access roads;

(2) a plan to fund the projects described in paragraph (1) over the 5-year period following the date of enactment of this Act;

(3) a description of efforts made by the Corps of Engineers to coordinate investments in recreational facilities, sites, and associated access roads with—

(A) State and local governments; or

(B) private entities;

(4) an analysis of whether the modification of Federal contracting requirements could accelerate the availability of funds for the projects described in paragraph (1).

SEC. 214. WESTERN INFRASTRUCTURE STUDY.

(a) DEFINITIONS OF NATURAL FEATURE AND NATURE-BASED FEATURE.—In this section, the terms “natural feature” and “nature-based feature” have the meanings given those terms in section 118(a) of the WIIN Act (33 U.S.C. 2289a(a)).

(b) COMPREHENSIVE STUDY.—The Secretary shall conduct a comprehensive study (referred to in this section as the “study”) to evaluate the effectiveness of carrying out additions, improvements, and modifications to projects that utilize natural features or nature-based features at or upstream of reservoirs for the purposes of—

(1) maintaining operations in response to changing hydrological and climatic conditions;

(2) mitigating the risk of drought or floods, including the loss of storage capacity due to sediment accumulation;

(3) increasing water supply; or

(4) aquatic ecosystem restoration.

(c) METHODS OF CONDUCTING THE STUDY.—In conducting the study, the Secretary shall include all reservoirs owned and operated by the Secretary and reservoirs for which the Secretary has flood control responsibilities under section 7 of the Act of December 22, 1944 (commonly known as the “Flood Control Act of 1944”) (58 Stat. 960, chapter 666; 33 U.S.C. 709), in the South Pacific Division of the Corps of Engineers.

(d) CONSULTATION AND USE OF EXISTING DATA.—

(1) CONSULTATION.—In conducting the study, the Secretary shall consult with applicable—

(A) Federal, State, and local agencies; and

(B) Indian Tribes;

(c) CONSIDERATIONS.—In preparing the plan for the use of Federal hydropower or energy storage development and; and

(d) other stakeholders, as determined appropriate by the Secretary.

(2) USE OF EXISTING DATA AND PRIOR STUDIES.—To the maximum extent practicable and where appropriate, the Secretary may—

(A) use existing data provided to the Secretary by entities described in paragraph (1); and

(B) incorporate—

(i) relevant information from prior studies and projects carried out by the Secretary; and

(ii) the latest technical data and scientific approaches with respect to changing hydrological and climatic conditions.

(e) REPORT.—Not later than 3 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that describes—

(1) the results of the study;

(2) any recommendations on site-specific areas where additional study is recommended by the Secretary; and

(3) the results of the study.

(f) SAVINGS PROVISION.—Nothing in this section shall preclude the Secretary from utilizing any reservoirs for which the Secretary has flood control responsibilities under section 7 of the Act of June 22, 1936 (49 Stat. 1586, chapter 688).

SEC. 215. UPPER MISSISSIPPI RIVER AND ILLINOIS WATERSHED SYSTEM.

Sec. 8004(g) of the Water Resources Development Act of 2007 (33 U.S.C. 652 note; Public Law 110-114) is amended—

(1) by redesignating paragraph (2) as paragraph (3); and

(2) by inserting after paragraph (1) the following:

“(2) REPORT ON WATER LEVEL MANAGEMENT.—Not later than 1 year after the date of completion of the comprehensive plan for Mississippi River water level management under section 7 of the Water Resources Development Act of 1974 (42 U.S.C. 1962a-16), the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives an implementation report on opportunities identified in the comprehensive plan to expand the use of water level management on reservoirs for the purposes of water resource development, flood control, and navigation.

SEC. 216. WEST VIRGINIA HYDROPOWER.

(a) IN GENERAL.—For water resources development projects for non-Federal hydropower or energy storage development in accordance with section 14 of the Act of March 3, 1899 (commonly known as the “Rivers and Harbors Act of 1899”) (30 Stat. 1152, chapter 425; 33 U.S.C. 488), the Secretary is authorized—

(1) to evaluate the feasibility of modifications to such projects for the purposes of adding Federal hydropower or energy storage development; and

(2) to grant approval for the use of such projects for non-Federal hydropower or energy storage development in accordance with section 14 of the Act of March 3, 1899 (commonly known as the “Rivers and Harbors Act of 1899”) (30 Stat. 1152, chapter 425; 33 U.S.C. 488).

(b) PROJECTS DESCRIBED.—The projects referred to in subsection (a) are the following:—

(1) Sutton Dam, Braxton County, West Virginia, authorized by section 5 of the Act of June 22, 1936 (49 Stat. 1586, chapter 688).

(2) Hildebrand Lock and Dam, Monongahela County, West Virginia, authorized by section 6 of the Act of June 22, 1936 (49 Stat. 1586, chapter 688).

(3) Bluestone Lake, Summers County, West Virginia, authorized by section 5 of the Act of July 1, 1946 (50 Stat. 1586, chapter 688).

(6) East Lynn Dam, Wayne County, West Virginia, authorized by section 5 of the Act of June 22, 1936 (49 Stat. 1586, chapter 688).

(7) Burnsville Lake, Braxton County, West Virginia, authorized by section 5 of the Act of June 22, 1936 (49 Stat. 1586, chapter 688).

(8) Sendell Dam, Pocahontas County, West Virginia, authorized by section 5 of the Act of July 2, 1950 (64 Stat. 611).

(9) Wetherill Dam, Braxton County, West Virginia, authorized by section 5 of the Act of July 2, 1950 (64 Stat. 611).

(11) Shasta Dam, Shasta County, California, authorized by section 1 of the Act of June 1, 1938 (52 Stat. 865).

SEC. 217. RECREATION AND ECONOMIC DEVELOPMENT AT CORPS FACILITIES IN APPALACHIA.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall prepare and submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a plan to implement the recreational and economic development opportunities identified by the Secretary in the report prepared under section 206 of the Water Resources Development Act of 2020 (134 Stat. 2680) at Corps of Engineers facilities located within a distressed or at-risk-Chesapeake Bay (subsection (a)(1) of that section) in Appalachia.

(b) CONSIDERATIONS.—In preparing the plan under subsection (a), the Secretary shall consider options for Federal funding, partnerships, and local governments, nonprofit organizations, and commercial businesses.

SEC. 218. AUTOMATED FEE MACHINES.

For the purpose of mitigating adverse impacts to public access to outdoor recreation, to the maximum extent practicable, the Secretary shall consider alternatives to the use of automated fee machines for the collection of fees for the use of developed recreation sites and facilities in West Virginia.

SEC. 219. LAKE CHAMPLAIN CANAL, VERMONT AND NEW YORK.

Section 514(e) of the Water Resources Development Act of 2007 (121 Stat. 1255) is amended by adding at the end the following:

“(c) CLARIFICATIONS.—

“(1) IN GENERAL.—At the request of the non-Federal interest for the study of the Lake Champlain Canal Aquatic Invasive Species Barrier carried out under section 514 of the Water Resources Development Act of 2009 (114 Stat. 2671; 121 Stat. 1150; 134 Stat. 2668) the Secretary shall act upon that portion of that study to satisfy the feasibility determination under subsection (a).

“(2) DISPERAL BARRIERS.—A dispersal barrier constructed, maintained, and operated under this section may include—

“(A) physical hydrolastic separation; and

“(B) nonstructural measures; and

“(C) deployment of technologies;

“(D) buffer zones; or

“(E) any combination of the above approaches described in subparagraphs (A) through (D).”

SEC. 220. REPORT ON CONCESSIONARY PRACTICES.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on concessionaire lease practices at Corps of Engineers.

(b) INCLUSIONS.—The report under section (a) shall include, at a minimum—

(1) an assessment of the reasonableness of the formula of the Corps of Engineers for calculating concessionaire rental rates, taking into account the operating margins for sales of food and fuel; and

(2) a process for assessing administrative fees to concessionaires across districts of the Corps of Engineers.
(a) ATLANTA, GEORGIA.—Section 219(e)(5) of the Water Resources Development Act of 1992 (106 Stat. 4835; 110 Stat. 3757; 113 Stat. 334) is amended by striking "$25,000,000" and inserting "$75,000,000".

(b) EASTERN SHORE AND SOUTHWEST VIRGINIA.—Section 219(f)(10)(A) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1255) is amended—

(1) by striking "$20,000,000" and inserting "$55,000,000"; and

(2) by striking "Accomack" and inserting "Accomack".

(c) LAKES MARION AND MOULTON, SOUTH CAROLINA.—Section 219(f)(25) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1257) is amended by striking "$110,000,000" and inserting "$151,500,000".

(d) LAKES MARION AND MOULTON, SOUTH CAROLINA.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1257) is amended by striking at the end the following:

"(274) Horry County, South Carolina.—$19,000,000 for environmental infrastructure, including sewer outfalls, Horry County, South Carolina.".

(e) LANE COUNTY, OREGON.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1257) is amended by adding at the end the following:

"(275) Lane County, Oregon.—$20,000,000 for environmental infrastructure, Lane County, Oregon.".

(f) PLACER COUNTY, CALIFORNIA.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1257) is amended by adding at the end the following:

"(276) Placer County, California.—$21,000,000 for environmental infrastructure, Placer County, California.".

(g) ALAMEDA COUNTY, CALIFORNIA.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1257) is amended by adding at the end the following:

"(277) Alameda County, California.—$20,000,000 for environmental infrastructure, Alameda County, California.".

(h) TRUCKEE, CALIFORNIA.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1257) is amended by adding at the end the following:

"(278) Truckee, California.—$18,000,000 for environmental infrastructure, Truckee, California.".

(i) YOLO COUNTY, CALIFORNIA.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1257) is amended by adding at the end the following:

"(279) Yolo County, California.—$6,000,000 for environmental infrastructure, Yolo County, California.".

(j) CLINTON, MISSISSIPPI.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1257) is amended by adding at the end the following:

"(280) Clinton, Mississippi.—$3,600,000 for environmental infrastructure, including stormwater management, drainage systems, wastewater infrastructure, and water quality enhancement, Clinton, Mississippi.".

(k) OXFORD, MISSISSIPPI.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1257) is amended by adding at the end the following:

"(281) Oxford, Mississippi.—$10,000,000 for environmental infrastructure, including stormwater management, drainage systems, and water quality enhancement, Oxford, Mississippi.".

(l) MADISON COUNTY, MISSISSIPPI.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1257) is amended by adding at the end the following:

"(282) Madison County, Mississippi.—$10,000,000 for environmental infrastructure, including stormwater management, drainage systems, and water quality enhancement, Madison County, Mississippi.".
Banks County, Franklin County, Whitley County, Treutlen County, Crawford County, Hart County, Georgia.’’. (y) MARYLAND.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1268) (as amended by subsection (x)) is amended by adding at the end the following: ‘‘(289) MARYLAND.—$1,000,000,000 for water, wastewater, and other environmental infrastructure, Maryland.’’. (z) MILWAUKEE METROPOLITAN AREA, WISCONSIN.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1268) (as amended by subsection (aa)) is amended by adding at the end the following: ‘‘(289) MILWAUKEE METROPOLITAN AREA, WISCONSIN.—$1,500,000 for water-related infrastructure, resource protection and development, stormwater management, and reduction of combined sewer overflows, Milwaukee metropolitan area, Wisconsin.’’. (aa) HAWAII.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1268) (as amended by subsection (aa)) is amended by adding at the end the following: ‘‘(290) HAWAII.—$75,000,000 for water-related infrastructure, resource protection and development, wastewater treatment, water supply, water conveyance, environmental restoration, and surface water protection and development, Hawaii.’’. (bb) ALABAMA.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1268) (as amended by subsection (aa)) is amended by adding at the end the following: ‘‘(291) ALABAMA.—$50,000,000 for water, wastewater, and other environmental infrastructure, Alabama.’’. (cc) MISSOURI.—Section 592(g) of the Water Resources Development Act of 1999 (113 Stat. 380; 123 Stat. 2851) is amended by striking ‘‘$200,000,000’’ and inserting ‘‘$300,000,000’’. (dd) CENTRAL NEW MEXICO.—Section 593(h) of the Water Resources Development Act of 1999 (113 Stat. 381; 119 Stat. 2255) is amended by striking ‘‘central’’ and inserting ‘‘northern’’. (ee) NORTH DAKOTA AND OHIO.—Section 594 of the Water Resources Development Act of 1999 (113 Stat. 381; 119 Stat. 2255) is amended by striking ‘‘northern’’; and (ff) WESTERN RURAL WATER.—Section 595(i) of the Water Resources Development Act of 1999 (113 Stat. 383; 134 Stat. 2719) is amended— (1) in paragraph (1), by striking ‘‘$435,000,000’’ and inserting ‘‘$490,000,000’’; and (2) in paragraph (2), by striking ‘‘$150,000,000’’ and inserting ‘‘$200,000,000’’. (gg) LAKE CHAMPLAIN, WATERSHED, VERMONT AND NEW YORK.—Section 542 of the Water Resources Development Act of 2000 (114 Stat. 2671; 121 Stat. 1150) is amended— (1) in subsection (b),(2)(C), by striking ‘‘planning’’ and inserting ‘‘clean water infrastructure planning, design, and construction’’; and (2) in subsection (g), by striking ‘‘$52,000,000’’ and inserting ‘‘$100,000,000’’. (hh) TEXAS.—Section 5138 of the Water Resources Development Act of 2007 (121 Stat. 1250) is amended— (1) in clause (b), by striking ‘‘as identified by the Texas Water Development Board’’; (2) in subsection (e)(3), by inserting ‘‘and construction’’ after ‘‘design work’’; (3) by redesignating subsection (g) as subsection (f); and (4) by inserting after subsection (f) the following: ‘‘(g) NONPROFIT ENTITIES.—In accordance with section 221(b) of the Flood Control Act of 1944 (33 U.S.C. 799), for any project carried out under this section, a Federal interest may include a nonprofit entity with the consent of the affected local government. ‘‘(h) FEDERAL INTEREST.—Notwithstanding any increase in cost to the project that results from a legal requirement to use a borrow source determined by the Secretary to cost more than the least-cost option, and (2) exclude the cost described in paragraph (1) from the cost-benefit analysis for the project. (i) AUTHORIZED WATER RESOURCES DEVELOPMENT PROJECTS DESIGNED.—An authorized water resources development project referred to in subsection (a) is any of the following: (1) The Townsend Inlet to Cape May Inlet, New Jersey, coastal storm risk management project, authorized by section 101(a)(26) of the Water Resources Development Act of 1999 (113 Stat. 278). (2) The Folly Beach, South Carolina, coastal storm risk management project, authorized by section 101(a)(26) of the Water Resources Development Act of 1986 (100 Stat. 4136) and modified by section 108 of the Energy and Water Development Appropriations Act, 1992 (105 Stat. 2420). (3) The Carolina Beach and Vicinity, North Carolina, coastal storm risk management project, authorized by section 203 of the Flood Control Act of 1962 (76 Stat. 1182) and modified by section 401(7) of the Water Resources Development Act of 2020 (134 Stat. 2741). (4) The Wrightsville Beach, North Carolina, coastal storm risk management project, authorized by section 203 of the Flood Control Act of 1962 (76 Stat. 1182) and modified by section 401(7) of the Water Resources Development Act of 2020 (134 Stat. 2741). (5) A project for coastal storm risk management for any shore included in a project described in this subsection that is specifically authorized by Congress on or after the date of enactment of this Act. (j) WRAP-UP, REPAIR, AND RESTORATION.—(1) In general.—Notwithstanding any other provision of law, repair and restoration of any project described in this subsection under section 5 of the Act of August 18, 1911 (commonly known as the ‘‘Flood Control Act of 1917’’) (35 Stat. 560, chapter 377, 33 U.S.C. 701n). (k) SAVINGS PROVISION.—Nothing in this section limits the eligibility for, or availability of, Federal expenditures or financial assistance for any water resources development project, including any beach nourishment or renourishment project, under any other provision of law.
(ii) by striking the period at the end and inserting; and

(C) by adding at the end the following:

(iii) the non-Federal interestrepays the balance of the remaining principal by June 1, 2022; and

by adding at the end the following:

(B) REIMBURSEMENT.—Reimbursement of a non-Federal contribution shall be based on the cost of the comprehensive study described in paragraph (A)(ii), may be satisfied through the provision of the non-Federal interest of fish and wildlife mitigation for one or more projects described in paragraph (A)(i), if the Secretary determines that—

(i) the non-Federal interest has incurred costs for the provision of mitigation that—

(ii) a Federal or non-Federal contribution for the project or separable element for which the mitigation is provided; and

(iii) the mitigation is integral to the project for which it is provided.

SEC. 307. MODIFICATIONS

(a) IN GENERAL.—The following modifications to studies and projects are authorized:

(1) MISSISSIPPI RIVER GULF OUTLET, LOUISIANA.—The Federal share of the project cost for wetlands restoration at the Mississippi River Gulf Outlet, Louisiana, authorized by section 703(a)(4) of the Water Resources Development Act of 2007 (121 Stat. 1281), shall be 90 percent.

(2) GREAT LAKES AND MISSISSIPPI RIVER INTERHARBOR PROJECT, BRANDON ROAD, WILL COUNTY, ILLINOIS.—Section 402(a)(7) of the Water Resources Development Act of 2020 (134 Stat. 2742) is amended by striking “80 percent” and inserting “90 percent”.

(3) LOWER MISSISSIPPI RIVER COASTAL MANAGEMENT STUDY.—Section 213 of the Water Resources Development Act of 2020 (134 Stat. 2687) is amended by adding at the end the following:

(‘‘j) COST-SHARE.—The Federal share of the cost of the comprehensive study described in subsection (a), and any feasibility study described in subsection (e), shall be 90 percent.’’.

(4) PORT OF NOME, ALASKA.—

(A) IN GENERAL.—The Secretary shall carry out the project for navigation, Port of Nome, Alaska, authorized by section 401(1) of the Water Resources Development Act of 2020 (134 Stat. 2733).

(B) REQUIREMENT.—The Federal share of the cost of the project described in subparagraph (A) shall be 90 percent.

(5) CHICAGO SHORELINE PROTECTION.—The project for engineering and preferably a sand stabilization project for coastal protection, Lake Michigan, Illinois, from Wilmette, Illinois, to the Illinois-Indiana State Line, authorized by section 101(a)(12) of the Water Resources Development Act of 1996 (110 Stat. 3664), is modified to authorize the Secretary to provide 65 percent of the cost of the locally preferred plan, as described in the Report of the Chief of Engineers dated April 14, 1994, for the construction of the following segments of the project:

(A) Shoreline revetment at Morgan Shore.

(B) Shoreline revetment at Promontory Point.

(6) LOWER MUD RIVER, MILTON, WEST VIRGINIA.—

(1) LAND, EASEMENTS, AND RIGHTS-OF-WAY.—For the project described in subparagraph (A), the Secretary shall include in the cost of the project, and credit toward the non-Federal share of that cost, the value of land, easements, and rights-of-way provided by the non-Federal interest for the project, including the value of land, easements, and rights-of-way required for the project that are owned or held by the non-Federal interest or other non-Federal public body.

(A) IN GENERAL.—The following modifications to the project described in paragraph (A) are authorized:

(B) Land, Easements, and Rights-of-Way.—For the project described in subparagraph (A), the Federal share of the cost to design and construct the project shall be 90 percent.

(C) ADDITIONAL ELIGIBILITY.—Unless otherwise provided, the Secretary may make modifications to the project described in paragraph (A), the project shall be eligible for additional funding appropriated by that Act in the Construction Account of the Corps of Engineers:

(i) without a new investment decision; and

(ii) on the same terms as a project that is not the project described in subparagraph (A).

(D) South Shore Staten Island, New York.—The Federal share of any portion of the cost of design and construction of the South Shore Staten Island, New York, authorized by section 401(1) of the Water Resources Development Act of 2019 (134 Stat. 2687), shall be 90 percent.

(E) South Shore Staten Island, New York.—(A) IN GENERAL.—The Secretary shall carry out the project for navigation, Port of Staten Island, South Shore Staten Island, New York, authorized by section 401(1), that exceeds the estimated total project cost specified in the project partnership agreement for the project, and shall be 90 percent.

(B) REQUIREMENT.—The non-Federal share of that cost, the value of non-Federal contributions, including the value of land, easements, and rights-of-way provided by the non-Federal interest under subparagaph (A), the project shall be eligible for additional funding appropriated by that Act in the Construction Account of the Corps of Engineers:

(i) without a new investment decision; and

(ii) on the same terms as a project that is not the project described in subparagraph (A).

(F) South San Francisco Bay Shoreline, California.—

(A) IN GENERAL.—Notwithstanding section 1122 of the Water Resources Development Act of 1996 (33 U.S.C. 2213), the Secretary shall not be required to carry out the project described in section 402(a) of the Water Resources Development Act of 2020 (134 Stat. 2687) at the South San Francisco Bay Shoreline, California, authorized by section 401(6) (of the Water Resources Development Act of 2016 (130 Stat. 1714)), to contribute funds under an agreement entered into prior to the date of enactment of this Act in excess of the total cash contribution required from the non-Federal interest for the project under section 103 of the Water Resources Development Act of 1996 (33 U.S.C. 2213).

(B) REQUIREMENT.—The Secretary shall not, at any time, defer, suspend, or terminate construction of the project described in subparagraph (A) solely on the basis of a determination that an additional appropriation is required to cover the Federal share of the cost to complete construction of the project, if Federal funds in the amount determined by the Secretary to be sufficient to continue construction of the project remain available in the allocation for the project under the Long-Term Disaster Recovery Appropriations Act, 2018, that appropriated under the heading “CONSTRUCTION” under the heading “CORPS OF ENGINEERS—CIVIL—DEPARTMENT OF THE ARMY” of division B of the Bipartisan Budget Act of 2018 (Public Law 115–123; 132 Stat. 76).

SEC. 308. PORT FOURCHON, LOUISIANA, DREDGED MATERIAL DISPOSAL PLAN.

The Secretary shall determine that the dredged material disposal plan recommended in the document entitled “Port Fourchon Belle Pass Channel Deepening Project Section 203 (Feasibility Study (February 2019, revised January 2020))” is the least cost, environmentally acceptable dredged material disposal plan for the Port Fourchon Belle Pass Channel, Louisiana, authorized by section 403(a)(4) of the Water Resources Development Act of 2020 (134 Stat. 2736) (referred to in this subsection as the “project”), is modified.

(A) to direct the Secretary to implement the project using alternative borrow sources for the Delaware River, Delaware, New Jersey, Pennsylvania, authorized by the Act of June 23, 1910 (chapter 362, 36 Stat. 637, 46 Stat. 921, 52 Stat. 809, 64 Stat. 146; 48 Stat. 100; and

(B) until the Secretary implements the modification under subparagraph (A), to authorize the Secretary, at the request of a non-Federal interest, to provide periodic construction or periodic nourishment at any site included in the project under—

1. the project described in section 1122 of the Water Resources Development Act of 2016 (33 U.S.C. 2213 note; Public Law 114–322); or

(2) TREATMENT.—If the Secretary determines that a study is required to carry out paragraph (1)(A), the study shall be considered to be a continuation of the study that formulated the project.

(C) Cost-Share.—The Federal share of the cost of the project, including the cost of any modifications carried out under subsection (a)(1), shall be 90 percent.

(B) Indian River Inlet Sand Bypass Plant, Delaware.—

(A) IN GENERAL.—The Indian River Inlet Sand Bypass Plant, Delaware, coastal storm risk management project (referred to in this subsection as the project), authorized by section 869 of the Water Resources Development Act of 1986 (100 Stat. 4182), is modified to authorize the Secretary, at the request of a non-Federal interest, to provide periodic nourishment through dedicated dredging or other means to maintain or restore the functioning of the project when—

1. the sand bypass plant is inoperable; or

2. operation of the sand bypass plant is insufficient to maintain the functioning of the project.

(2) REQUIREMENTS.—A cycle of periodic nourishment provided pursuant to paragraph (1) shall be subject to the following requirements:

(A) Cost-Share.—The non-Federal share of the cost of a cycle shall be the same percentage as the non-Federal share of the cost to operate the sand bypass plant.

(B) DECISION DOCUMENT.—If the Secretary determines that a decision document is required to support a request for funding for a cycle, the decision document may be prepared using funds made available to the Secretary for construction or for investigations.

(C) DREDGED MATERIAL DISPOSAL.

(A) IN GENERAL.—The project described in subparagraph (B) shall
not be subject to a new investment determination.

(ii) CYCLES.—A cycle shall be considered continuing construction.

(3) GREAT LAKES EMERGENCY SHORE RESTORATION.—

(1) IN GENERAL.—The Secretary is authorized to repair or restore any beach or any federal or non-Federal navigable waterway, shoreline, or protective structure or project located in the State of Delaware pursuant to section 5(a) of the Act of August 18, 1941 (commonly known as the “Flood Control Act of 1941”) (55 Stat. 650, chapter 377, 33 U.S.C. 701n(a))—

(A) the structure, project, or beach is damaged by wind, wave, or water action associated with an extraordinary condition of magnitude and type, and

(B) the damage prevents the adequate functioning of the structure, project, or beach.

(2) BENEFIT-COST ANALYSIS.—The Secretary shall determine that the benefits attributable to the objectives set forth in section 209 of the Flood Control Act of 1970 (42 U.S.C. 1962–2) and section 904(a) of the Water Resources Development Act of 1986 (33 U.S.C. 2281(a)) exceed the cost for work carried out under this subsection.

(3) SAVINGS PROVISION.—The authority provided under this section shall be in addition to any authority provided by section 5(a) of the Act of August 18, 1941 (commonly known as the “Flood Control Act of 1941”) (55 Stat. 650, chapter 377, 33 U.S.C. 701n(a)) to repair or restore a beach or federally authorized hurricane or shore protection structure or project located in the State of Delaware damaged or destroyed by wind, wave, or water action of other than an ordinary nature.

(4) INDIAN RIVER INLET AND BAY, DELAWARE.—In carrying out major maintenance of the inlet protection works for Indian River Inlet and Bay, Delaware, authorized by the Act of August 26, 1937 (50 Stat. 846, chapter 382), and section 2 of the Act of March 2, 1945 (59 Stat. 119, chapter 19), the Secretary shall repair, restore, or relocate any non-Federal facility or other infrastructure, that has been damaged, in whole or in part, by the deterioration or failure of the project.

(e) REPROGRAMMING FOR COASTAL STORM RISK MANAGEMENT PROJECT AT INDIAN RIVER INLET.—

(1) IN GENERAL.—Notwithstanding any other provision of law, for each fiscal year, the Secretary may reprogram amounts made available for a coastal storm risk management project for such amounts for the project for coastal storm risk management, Indian River Inlet Sand Bypass Plant, Delaware, authorized by section 509 of the Water Resources Development Act of 1986 (100 Stat. 4182).

(2) LIMITATIONS.—(A) In general.—The Secretary may carry out not more than two reprogramming actions under paragraph (1) for each fiscal year.

(B) AMOUNT.—For each fiscal year, the Secretary may reprogram—

(i) not more than $100,000 per reprogramming action; and

(ii) not more than $200,000 for each fiscal year.

SEC. 310. GREAT LAKES ADVANCE MEASURES ASSISTANCE.

Section 5(a) of the Act of August 18, 1941 (commonly known as the “Flood Control Act of 1941”) (55 Stat. 650, chapter 377, 33 U.S.C. 701n(a)) (as amended by section 112(2)), is amended by adding at the end the following:

“(B) FEDERAL SHARE.—Assistance provided by the Secretary pursuant to a request under subparagraph (A) may be at full Federal expense if the assistance is to construct advanced measures to a temporary construction standard.”

SEC. 311. REHABILITATION OF EXISTING LEVERS.

Section 307(e) of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 3303a note; Public Law 113–121) is amended—

(1) by striking “this subsection” and inserting “this section”; and

(2) by striking “10 years” and inserting “20 years”.

SEC. 312. PILOT PROGRAM FOR CERTAIN COMMUNITIES.

(a) PILOT PROGRAMS ON THE FORMULATION OF CORPS OF ENGINEERS PROJECTS IN RURAL COMMUNITIES AND ECONOMICALLY DISADVANTAGED COMMUNITIES.—Section 118 of the Water Resources Development Act of 2020 (33 U.S.C. 2201 note; Public Law 116–260) is amended—

(1) in subsection (b)(2)(C), by striking “10” and inserting “15”;

(2) in subsection (c)—

(A) in paragraph (2), in the matter preceding subparagraph (A), make a recommendation to Congress on up to 10 projects and inserting “recommend projects to Congress”;

(B) by adding at the end the following:

“(5) RECOMMENDATIONS.—In recommending projects under paragraph (2), the Secretary shall include such recommendations in the annual report submitted to Congress under section 7001 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2283d) after the date of enactment of the Water Resources Development Act of 2022.”;

(b) PILOT PROGRAM FOR CAPS IN SMALL OR DISADVANTAGED COMMUNITIES.—Section 165(a) of the Water Resources Development Act of 2020 (33 U.S.C. 2201 note; Public Law 116–260) is amended—

(1) in paragraph (2)(B), by striking “a total of 10”;

(2) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively; and

(3) by inserting after paragraph (3) the following:

“(4) MAXIMUM FEDERAL AMOUNT.—For a project carried out under this subsection, the Federal share of the project costs shall not be increased by the commensurate amount of the non-Federal share that would otherwise be required for the project under the applicable continuing authority program.”

SEC. 313. REHABILITATION OF CORPS OF ENGINEERS CONSTRUCTED PUMP STATIONS.

Section 133 of the Water Resources Development Act of 2020 (33 U.S.C. 2327a) is amended—

(1) in subsection (a), by striking paragraph (1) and inserting the following:

“(1) ELIGIBLE PUMP STATION.—The term ‘eligible pump station’ means a pump station that—

(A) is a feature of a federally authorized flood or coastal storm risk management project; or

(B) if inoperable, would impair drainage of water from areas interior to a federally authorized flood or coastal storm risk management project; or

(2) by striking subsection (b) and inserting the following:

“(b) AUTHORIZATION.—The Secretary may carry out rehabilitation of an eligible pump station, if the Secretary determines that—

(i) the pump station has a major deficiency; and

(ii) rehabilitation is feasible.”;

and

(3) by striking subsection (f) and inserting the following:

“(f) PRIORITY.—To the maximum extent practicable, the Secretary shall prioritize the provision of assistance under this section to economically disadvantaged communities.”

SEC. 314. CHESAPEAKE BAY ENVIRONMENTAL RESTORATION AND PROTECTION PROGRAM.

Section 510(a)(2) of the Water Resources Development Act of 1996 (110 Stat. 3759; 128 Stat. 1317) is amended—

(1) in subparagraph (B), by inserting “and streambanks” after “shorelines”;

(2) in subparagraph (E), by striking “and” at the end;

(3) by redesignating subparagraph (F) as subparagraph (H); and

(4) by inserting after subparagraph (E) the following:

“(G) wastewater treatment and related facilities;”

SEC. 315. EVALUATION OF HYDROLOGIC CHANGES IN SOURIS RIVER BASIN.

The Secretary is authorized to evaluate hydrologic changes affecting the agreement entered into by the Government of Canada and the United States of America for Water Supply and Flood Control in the Souris River Basin.

SEC. 316. MEMORANDUM OF UNDERSTANDING RELATING TO BALDIEF DAM, NOVA SCOTIA.

The Secretary may enter into a memorandum of understanding with the non-Federal interest for the Red River Valley Water Supply Project to accommodate flows for downstream users through Baldief Dam, North Dakota.

SEC. 317. UPPER MISSISSIPPI RIVER RESTORATION PROGRAM.

Section 110(e)(3) of the Water Resources Development Act of 1986 (33 U.S.C. 652(e)(3)) is amended by striking “$40,000,000” and inserting “$41,000,000”.

SEC. 318. HARMFUL ALGAL BLOOM DEMONSTRATION PROGRAM.

SEC. 319. COLETON COUNTY, SOUTH CAROLINA.

Section 221(a)(4)(C)(1) of the Flood Control Act of 1970 (42 U.S.C. 1962a–5(a)(4)(C)(1)) shall not apply to construction carried out by the non-Federal interest before the date of enactment of this Act for the project for hurricane and storm damage risk reduction, Colleton County, South Carolina, authorized by section 1401(1) of the Water Resources Development Act of 2016 (130 Stat. 1711).

SEC. 320. ARKANSAS RIVER CORRIDOR, OKLAHOMA.

Section 3132 of the Water Resources Development Act of 2007 (121 Stat. 1141) is amended by striking subsection (b) and inserting the following:

“(b) AUTHORIZED COST.—The Secretary is authorized to carry out construction of a project under this section at a total cost of $128,400,000, with the cost shared in accordance with section 103 of the Water Resources Development Act of 1990 (33 U.S.C. 2215).

“(c) ADDITIONAL FEASIBILITY STUDIES AUTHORIZED.—

(i) IN GENERAL.—The Secretary is authorized to carry out additional feasibility studies for purposes of recommending to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives additional projects under this section.

(ii) TREATMENT.—An additional feasibility study carried out under this subsection shall be considered a complementary study of the feasibility study that formulated the project carried out under subsection (b).”
SEC. 321. ABANDONED AND INACTIVE NONCOAL MINE RESTORATION.

Section 560 of the Water Resources Development Act of 1999 (33 U.S.C. 2203) is amended—

(1) in subsection (c), by inserting “or on land taken into trust by the Secretary of the Interior on behalf of, and for the benefit of, an Indian Tribe” after “land owned by the United States”; and

(2) in subsection (l), by striking “$50,000,000” and inserting “$50,000,000 to $75,000,000”.

SEC. 322. ASIAN CARP PREVENTION AND CONTROL PILOT PROGRAM.

Section 509(a)(2) of the Water Resources Development Act of 2012 (33 U.S.C. 610 note; Public Law 112–260) is amended—

(1) in subparagraph (A), by striking “or Tennessee River Watershed” and inserting “, Tennessee River Watershed, or Tombigbee River Watershed”;

(2) in subparagraph (C)(i), by inserting “, of which not less than 1 shall be carried out on the Tennessee–Tombigbee Waterway” before the period at the end.

SEC. 323. FORMS OF ASSISTANCE.

Section 920(b) of the Water Resources Development Act of 1999 (113 Stat. 379) is amended by adding the following new subsection:

“(1) IN GENERAL.—On receipt of a written request of the Port of Corpus Christi, the Secretary shall—

(A) review the land owned and easements held by the United States for purposes of navigation in Nueces County, Texas; and

(B) convey to the Port of Corpus Christi or, in the case of an easement, release to the owner of the easement subject to such easement, without consideration, all such land and easements described in paragraph (1) that the Secretary determines are no longer required for project purposes.

(b) CONDITIONS.—

(1) QUITCLAIM DEED.—Any conveyance of land under this section shall be by quitclaim deed.

(2) TERMS AND CONDITIONS.—The Secretary may subject any conveyance or release of easement under this section to such terms and conditions as the Secretary determines necessary and advisable to protect the United States.

SEC. 324. DEBRIS REMOVAL, NEW YORK HARBOR, NEW YORK.

(a) IN GENERAL.—Beginning on the date of enactment of this Act, the project for New York Harbor collection and removal of drift, authorized by section 91 of the Water Resources Development Act of 1974 (88 Stat. 39; 15 U.S.C. 760) and deauthorized pursuant to section 6001 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 579b) (as in effect on the day before the date of enactment of the WIIN Act (130 Stat. 1628)), is authorized to be carried out by the Secretary.

(b) ELIGIBILITY STUDY.—The Secretary shall carry out, and submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the results of, a feasibility study for the project described in subsection (a).

SEC. 325. INVASIVE SPECIES MANAGEMENT.

Section 324 of the River and Harbor Act of 1938 (33 U.S.C. 610) is amended—

(1) in subsection (b)(2)(A) (i)—

(A) by striking “$50,000,000” and inserting “,000,000”;

(B) by striking “2024” and inserting “2026”;

and

(2) in subsection (g)(2)—

(A) in subparagraph (A)—

(i) by striking “water quantity or water quality” and inserting “water quantity, water quality, or ecosystems”;

(ii) in clause (ii), by inserting “of the Lake Erie Basin, the Ohio River Basin, ” after “the Upper Snake River Basin,”; and

(B) in subparagraph (B), by inserting “, hydrilla verticillata” after “auriculata” and “angustifolia”.

SEC. 326. WOLF RIVER HARBOR, TENNESSEE.

Beginning on the date of enactment of this Act, the project for Wolf River Harbor, Tennessee, authorized by title II of the Act of June 16, 1933 (48 Stat. 200, chapter 90) (commonly known as the “National Industrial Recovery Act”), and modified by section 203 of the Flood Control Act of 1958 (72 Stat. 306), is modified to reduce the authorized dimensions of the project, such that the proposed dimensions are a 250-foot-wide, 9-foot-depth channel with a center line beginning at a point 33.139634,

-0.062343 and extending approximately 8,500 feet to a point 35.168048, -90.065066.

SEC. 327. MISSOURI RIVER MITIGATION, MISSOURI, KANSAS, IOWA, AND NEBRASKA.

The matter under the heading “Missouri River Mitigation, Missouri, Kansas, Iowa, and Nebraska” in section 601(a) of the Water Resources Development Act of 1998 (102 Stat. 4143; 121 Stat. 1155), as modified by section 334 of the Water Resources Development Act of 1999 (113 Stat. 306), is amended by adding at the end the following modified paragraph:

“land to meet the requirements of fish and wildlife mitigation, the Secretary may consider incidental flood risk management benefits.”.

SEC. 328. INVASIVE SPECIES MANAGEMENT PILOT PROGRAM.

Section 104(i)(4) of the River and Harbor Act of 1938 (33 U.S.C. 619(f)(4)) is amended by striking “2024” and inserting “2026”.

SEC. 329. NUECES COUNTY, TEXAS, CONVEYANCES.

(a) IN GENERAL.—On receipt of a written request of the Port of Corpus Christi, the Secretary shall—

(1) review the land owned and easements held by the United States for purposes of navigation in Nueces County, Texas; and

(2) convey to the Port of Corpus Christi or, in the case of an easement, release to the owner of the easement subject to such easement, without consideration, all such land and easements described in paragraph (1) that the Secretary determines are no longer required for project purposes.

(b) CONDITIONS.—

(1) QUITCLAIM DEED.—Any conveyance of land under this section shall be by quitclaim deed.

(2) TERMS AND CONDITIONS.—The Secretary may subject any conveyance or release of easement under this section to such terms and conditions as the Secretary determines necessary and advisable to protect the United States.

SEC. 330. MISSISSIPPI DELTA HEADWATERS, MISSISSIPPI.

As part of the authority of the Secretary to carry out the project for flood damage reduction, bank stabilization, and sediment and erosion control, Yazoo Basin, Mississippi Delta Headwaters, Mississippi, authorized by the matter under the heading “Enhancement of Water Resource Benefits and for Emergency Disaster Work” in title I of Public Law 104–134, as amended by section 1704 of the WIIN Act (130 Stat. 1628), is amended by adding the following new subsections:

“(2) COST-SHARE.—

(1) IN GENERAL.—Before providing assistance for a Project described in paragraph (1), the Secretary may provide assistance for a Project feature constructed pursuant to paragraph (1) shall be determined in accordance with section 101(a)(1)(B) of the Water Resources Development Act of 1986 (33 U.S.C. 2211(a)(1)(B)).

(2) SAVINGS PROVISION.—Any increase in the period at the end before the period at the end the following: “When acquiring land taken into trust by the Secretary to convey land or release easements under this section shall be by quitclaim deed.”

SEC. 333. LAKE TAHOE BASIN RESTORATION, NEVADA AND CALIFORNIA.

(a) DEFINITION.—In this section, the term “Lake Tahoe Basin” means the entire watershed of the Lake Tahoe River and stream from the United States Bureau of Reclamation dam in Tahoe City, California.

(b) ESTABLISHMENT OF PROGRAM.—The Secretary may establish a program for providing environmental assistance to non-Federal interests in Lake Tahoe Basin—

(1) urban water resource conveyance, treatment, and related facilities; and

(2) watershed planning, science and research;

(3) environmental restoration; and

(4) surface water resource protection and development.

(b) PUBLIC OWNERSHIP REQUIREMENT.—The Secretary may provide assistance for a project under this section only if the project is publicly owned.

(c) LOCAL COOPERATION AGREEMENT.—

(1) IN GENERAL.—Before providing assistance under this subsection, the Secretary shall enter into a local cooperation agreement with a non-Federal interest to provide for design and construction of the project to be carried out with the assistance.

(2) REQUIREMENTS.—Each local cooperation agreement entered into under this subsection shall provide for the following:

(A) PLAN.—Development by the Secretary, in consultation with appropriate Federal and State and Regional officials, of appropriate environmental documentation, engineering plans and specifications.

(B) LEGAL AND INSTITUTIONAL STRUCTURES.—Establishment of such legal and institutional structures as are necessary to ensure the effective long-term operation of the project by the non-Federal interest.
(3) Cost Sharing.—
(A) in General.—The Federal share of project costs under each local cooperation agreement entered into under this subsection shall be at least 25 percent. The Federal share may be in the form of grants or reimbursements of project costs.
(B) Credit for Design Work.—The non-Federal share shall be based on the reasonable costs of planning and design work completed by the non-Federal interest before entering into a local cooperation agreement with the Secretary for a project. The Federal share shall be based on the reasonable costs of planning and design work carried out with assistance provided by the Federal or State law that would otherwise apply to a project.
(C) Land, Easements, Rights-of-Way, and Relocations.—The non-Federal interest shall receive credit for land, easements, rights-of-way, and relocations provided by the non-Federal interest toward the non-Federal share of project costs (including all reasonable costs associated with obtaining permits or necessary for the construction, operation, and maintenance of the project on publicly owned or controlled land), but not to exceed 25 percent of total project costs.
(D) Operation and Maintenance.—The non-Federal share of operation and maintenance costs for projects constructed with assistance provided under this section shall be 100 percent.

336. Tribal Partnership Program.
Section 203 of the Water Resources Development Act of 2000 (33 U.S.C. 2269) is amended—
(1) in subsection (a), by striking "25 U.S.C. 450b" and inserting "31 U.S.C. 332a"; and
(2) by adding a new subsection (b) to read as follows:

Section 128 of the Water Resources Development Act of 2007 (33 U.S.C. 2279) is amended—
(1) by striking paragraph (4); and
(2) by adding a new paragraph (5) to read as follows:

338. Copan Lake, Oklahoma.
(a) in General.—The Secretary shall amend Contract DACW56-81-C-0114 between the United States and the Copan Public Works Authority (referred to in this section as the "Authority") into a new contract to be entered into on or after the date of enactment of this Act.

339. Ecosystem Restoration Coordination.
Section 1404 of the Water Resources Reform and Development Act of 2013 (118 Stat. 2549; 132 Stat. 779; 134 Stat. 2715) is amended—
(1) by striking paragraph (5); and
(2) by adding a new paragraph (6) to read as follows:

340. Ecosystem Restoration Coordination.
(a) in General.—In carrying out the project for ecosystem restoration, South Fork of the study described in section 313 of the Water Resources Development Act of 2007 (121 Stat. 1142; 130 Stat. 2684).
SEC. 342. ROGERS COUNTY, OKLAHOMA.

(a) CONVEYANCE.—The Secretary is authorized to convey to the City of Tulsa–Rogers County Port Authority (referred to in this section as the "Port Authority"), for fair market value, all right, title, and interest of the United States in and to the Federal land described in subsection (b).

(b) DESCRIPTION.—

(1) IN GENERAL.—The Federal land to be conveyed under this section is the approximately 176 acres of Federal land located on the following 3 parcels in Rogers County, Oklahoma:

(B) Parcel 2 includes U.S. tract 124 (partial) and U.S. tract 128 (partial).

(C) Parcel 3 includes U.S. tract 128 (partial).

(2) DETERMINATION REQUIRED.—

(A) IN GENERAL.—Subject to paragraph (1) and subparagraphs (B), (C), and (D), the Secretary shall determine the exact property description and acreage of the Federal land to be conveyed under this section.

(B) REQUIREMENT.—In making the determination required by subparagraph (A), the Secretary shall analyze the environmental documentation costs, including real estate transaction and environmental documentation costs, associated with any Federal land conveyed under this section.

(C) SURVEY REQUIRED.—The exact acreage and the legal description of any Federal land conveyed under this section shall be determined by a survey that is satisfactory to the Secretary.

(d) APPLICABILITY.—Section 2696 of title 10, United States Code, shall not apply to the conveyance under this section.

(e) COSTS.—The Port Authority shall be responsible for all reasonable and necessary costs, including real estate transaction and environmental documentation costs, associated with the conveyance.

(f) HOLD HARMLESS.—

(1) IN GENERAL.—The Port Authority shall hold the United States harmless from any liability incurred with respect to activities carried out on or after the date of the conveyance under this section on the Federal land conveyed.

(2) LIMITATION.—The United States shall remain responsible for any liability incurred with respect to activities carried out before the date of the conveyance under this section on the Federal land conveyed.

(g) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require that the conveyance under this section be subject to such additional terms and conditions as the Secretary determines necessary and appropriate to protect the interests of the United States.

SEC. 343. WATER SUPPLY STORAGE REPAIR, REHABILITATION, AND REPLACEMENT COSTS.

Section 303(l) of the Water Resources Act of 1957 (33 U.S.C. 2213(l)) is amended, in the first sentence, by striking the second sentence and inserting the following: "For purposes of the enactment of this Act, the term ‘repair, rehabilitation, and replacement costs’ includes the costs of repair or rehabilitation of a water supply storage facility for the purpose of extending the useful life of that facility or for the purpose of converting the facility to another use, including the cost of necessary environmental documentation costs, including real estate transaction and environmental documentation costs, associated with the conveyance.

(b) Waiver of Non-Federal Share of Damages Related to Certain Contract Claims.

In a case in which the Armed Services Board of Contract Appeals or a court of competent jurisdiction rendered a decision on a date that was at least 20 years before the date of enactment of this Act awarding damages to a contractor relating to the adjudication of claims arising from the construction of general navigation features of a project authorized under section 200 of the Act of August 23, 1941 (commonly known as the ‘Flood Control Act of 1941’) (33 Stat. 650, chapter 277; 33 U.S.C. 521(a))

SEC. 344. NON-FEDERAL PAYMENT FLEXIBILITY.

Section 103(i) of the Water Resources Development Act of 1986 (33 U.S.C. 2213(i)) is amended—

(1) DELAY OF PAYMENT.—At the request of the Secretary, the United States shall delay payment of any interest on any non-Federal cash contribution under this section or section 101 for a project for a period of not more than 1 year if the Secretary determines that—

(i) the waiver will contribute to the ability of the non-Federal interest to make future contributions; and

(ii) the non-Federal interest is in good standing with respect to any request for a waiver under this section.

(2) LIMITATION.—The Secretary shall not delay payment of any interest on any non-Federal cash contribution under this section or section 101 for a project for a period of not more than 1 year if the Secretary determines that—

(i) the waiver will contribute to the ability of the non-Federal interest to make future contributions; and

(ii) the non-Federal interest is in good standing with respect to any request for a waiver under this section.

SEC. 345. UPPER MISSISSIPPI RIVER PROTECTION.

Section 2010 of the Water Resources Reform and Development Act of 2014 (128 Stat. 1270; 128 Stat. 3812) is amended by adding at the end the following:

(1) LIMITATION.—The Secretary shall not recommend deauthorization of the Upper St. Anthony Falls Lock and Dam unless the Secretary identifies a willing and capable non-Federal entity to assume ownership of the locks and dams.

(g) MODIFICATION.—The Secretary is authorized to modify the terms and conditions under which the project may be operated, including the prevention and control of invasive species, as an authorized purpose.

SEC. 346. ALGIERS CANAL LEVEES, LOUISIANA.

The Secretary shall amend Contract D–72–C–0220, dated at No. 1, United States and the City of El Dorado, Kansas, entered into on June 30, 1972, for the utilization by the City of storage space for water supply in Algiers Lake, New Orleans, Louisiana, to include the method of calculation of the interest charges that began accruing on June 30, 1991, on the investment costs for the 72,067 acre-feet of further storage space to be provided, and to provide for the Federal interest annually to charging simple interest annually on the principal amount, until—

(1) the City desires to convert the future use of the storage space to public use; and

(2) the principal amount plus the accumulated interest becomes payable pursuant to the terms of the Contract.

SEC. 347. ALGIERS CANAL LEVEES, LOUISIANA.

The Secretary shall amend Contract D–72–C–0220, dated at No. 1, United States and the City of El Dorado, Kansas, entered into on June 30, 1972, for the utilization by the City of storage space for water supply in Algiers Lake, New Orleans, Louisiana, to include the method of calculation of the interest charges that began accruing on June 30, 1991, on the investment costs for the 72,067 acre-feet of further storage space to be provided, and to provide for the Federal interest annually to charging simple interest annually on the principal amount, until—

(1) the City desires to convert the future use of the storage space to public use; and

(2) the principal amount plus the accumulated interest becomes payable pursuant to the terms of the Contract.

SEC. 350. UPPER MISSISSIPPI RIVER PROTECTION.

Section 301(b) of the Water Supply Act of 1958 (43 U.S.C. 390b(b)) is amended, in the first sentence, by striking the second sentence and inserting the following: "For purposes of the enactment of this Act, the term ‘repair, rehabilitation, and replacement costs’ includes the costs of repair or rehabilitation of a water supply storage facility for the purpose of extending the useful life of that facility or for the purpose of converting the facility to another use, including the cost of necessary environmental documentation costs, including real estate transaction and environmental documentation costs, associated with the conveyance.

SEC. 351. REGIONAL CORPS OF ENGINEERS OFFICE, CORPUS CHRISTI, TEXAS.

(a) IN GENERAL.—At such time as new facilities are available to the Corps of Engineers, and subject to this section, the Secretary shall convey to the Port of Corpus Christi Authority, by deed and without warranty, all right, title, and interest of the United States in and to the property described in subsection (b) for use as an appraisal, satisfactory to the Secretary, of the market value of the property conveyed.

(b) DESCRIPTION OF PROPERTY.—The property shall consist of a Federal public entity to assume ownership of the property, including improvements on that land, in Corpus Christi, Texas, and described as follows:

(1) TRACT 100.—The 1.89 acres, more or less, known as “Tract 100” and “Tract 101”, in the City of Corpus Christi, Texas, and described as conveyed by the Nueces County Navigation District No. 1 of Nueces County, Texas, to the United States by instrument dated October 27, 1992, that was recorded on page 193, Volume 193, pages 1 and 2, in the Deed Records of Nueces County, Texas.
(2) TRACT 18.—The 0.53 acres as conveyed by the City of Corpus Christi, Nueces County, Texas, to the United States by instrument dated September 24, 1971, and recorded at Volume 587, page 534, in the Deed Records of Nueces County, Texas.

(3) IMPROVEMENTS.—
(A) Main Building (RPUID AO-C-3516), constructed January 9, 1985.
(B) Garage, vehicle with 5 bays (RPUID AO-C-3517), constructed January 9, 1985.
(C) Bulkhead, Upper (RPUID AO-C-3538), constructed January 1, 1941.
(D) Bulkhead, Lower (RPUID AO-C-3520), constructed January 1, 1938.
(E) Bulkhead Fence (RPUID AO-C-3532), constructed January 9, 1985.
(F) Bulkhead Fence (RPUID AO-C-3532), constructed January 9, 1985.

(4) TERMS AND CONDITIONS.—
(1) IN GENERAL.—Before conveying the land described in subsection (c) to the Port of Corpus Christi Authority, the Secretary shall ensure that the conditions of buildings and facilities meet applicable requirements under Federal law, as determined by the Secretary.

(2) IMPROVEMENTS.—Improvements to conditions of buildings and facilities on the land described in subsection (c), if any, shall be incorporated into the consideration required under subsection (b).

(3) COSTS OF CONVEYANCE.—In addition to the fair market value for property rights conveyed, the City of Corpus Christi Authority shall be responsible for all reasonable and necessary costs, including real estate transaction and environmental documentation costs, associated with the conveyance under subsection (a).

SEC. 352. PILOT PROGRAM FOR GOOD NEIGHBOR AUTHORITY ON CORPS OF ENGINEERS LAND.

(a) DEFINITIONS.—In this section:
(1) AUTHORIZED RESTORATION SERVICES.—The term "authorized restoration services" means similar and complementary forest, rangeland, and watershed restoration services carried out—
(A) on Federal land; and
(B) by the Secretary or Governor pursuant to a good neighbor agreement.

(2) FEDERAL LAND.—The term "Federal land" means land within the State that is administered by the Corps of Engineers.

(b) EXCLUSIONS.—The term "Federal land" does not include:
(i) a component of the National Wilderness Preservation System;
(ii) Federal land on which the removal of vegetation is prohibited or restricted by an Act of Congress or a Presidential proclamation including the applicable implementation plan; or
(iii) wilderness study area.

(c) FOREST, RANGELAND, AND WATERSHED SERVICES.—
(1) IN GENERAL.—The term "forest, rangeland, and watershed services" means—
(i) activities to treat insect-infected and disease-infected trees;
(ii) activities to reduce hazardous fuels; and
(iii) any other activities to restore or improve forest, rangeland, and watershed health, including fish and wildlife habitat.

(2) EXCLUSIONS.—The term "forest, range

SEC. 353. PILOT PROGRAM FOR GOOD NEIGHBOR AUTHORITY ON CORPS OF ENGINEERS LAND.

(a) IN GENERAL.—The Secretary shall carry out a program to enter into good neighbor agreements with the Governor to carry out authorized restoration services in the State in accordance with this section.

(b) PUBLIC AVAILABILITY.—The Secretary shall make each good neighbor agreement available to the public.

(c) ADMINISTRATIVE COSTS.—The Governor shall provide, and the Secretary may accept, funds to administer the good neighbor agreement. The Governor shall enter into and administer a good neighbor agreement.

(d) TERMINATION.—The pilot program under subparagraph (A) shall terminate on October 1, 2028.

(2) TIMBER SALES.—
(A) APPROVAL OF SILVICULTURE PRESCRIPTIONS AND MARKING GUIDES.—The Secretary shall provide or approve all silviculture prescriptions and marking guides to be applied on Federal land in all timber sale projects conducted under this section.

(B) TREATMENT OF REVENUE.—Except as provided in subparagraph (C), funds received from the sale of timber by the Governor under a good neighbor agreement shall be retained and used by the Governor to carry out authorized restoration services under the good neighbor agreement.

(C) EXCESS REVENUE.—
(i) IN GENERAL.—Any funds remaining after carrying out subparagraph (B) that are in excess of the amount provided by the Governor to the Secretary under paragraph (1) shall be returned to the Secretary.

(ii) APPLICABILITY OF CERTAIN PROVISIONS.—Funds received under clause (i) shall be subject to the first part of section 5 of the Act of June 13, 1902 (commonly known as the "Rivers and Harbors Appropriations Act of 1902") (32 Stat. 373, chapter 1076; 33 U.S.C. 556).

(iii) RETENTION OF NEPA RESPONSIBILITIES.—Any decision required to be made under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to any authorized restoration services to be provided under this section on Federal land shall not be delegated to the Governor.

SEC. 353. PILOT PROGRAM FOR GOOD NEIGHBOR AUTHORITY ON CORPS OF ENGINEERS LAND.

(a) IN GENERAL.—Section 601(e)(5) of the Water Resources Development Act of 1996 (110 Stat. 3658) is amended by striking subparagraph (E) and inserting the following:

(ii) FLOOD PROTECTION PROJECT, PORT OF MEXICO.

(b) EASEMENTS IDENTIFIED.—(1) Easements identified as Tracts 3215E-1, 3215E-2, 3215E-3, 3215E-4, and 3215E-5.

(2) On counter-execution of the new or amended agreement providing for Federal easement conveyances under paragraph (1), the Secretary is authorized to convey the following easements, acquired by the Federal Government under the Federal Government for the Red Rock Dam Project, to the City or to the Des Moines Metropolitan Wastewater Reclamation Authority for the Red Rock Dam Project or for the Des Moines Local Flood Protection Project:

(A) Easements identified as Tracts 3206E, 3206E-2, 3206E-3, 3216E-2, 3216E-3, 3215E-3, 3216E-1, and 3216E-5.

(B) Easements identified as Partial Tracts 3216E-2, 3216E-3, 3217E-1, and 3217E-2.

(3) A real property interest conveyed under this subsection shall be subject to the standard release of easement disposal process. All administrative fees associated with the transfer of the subject easements to the City or to the Des Moines Metropolitan Wastewater Reclamation Authority will be borne by the transferee.

SEC. 354. MIDDLE RIO GRANDE FLOOD PROTECTION, BERNALILLO TO BELEN, NEW MEXICO.

In the case of the project for flood risk management, Middle Rio Grande, Bernalillo to Belen, New Mexico, authorized by section 401(2) of the Water Resources Development Act of 1975 (43 U.S.C. 1323a) and the project for flood protection in accordance with the Water Resources Development Act of 1970 (44 U.S.C. 3217e), the requirements of the non-Federal sponsor equal 50 percent of the Federal share of the cost of the project shall be the percentage described in section 103(a)(2) of the Water Resources Development Act of 1986 (33 U.S.C. 2202(a)(2)) (as in effect on the day before the date of enactment of the Water Resources Development Act of 1996 (110 Stat. 3658)).

SEC. 355. COMPREHENSIVE EVERGLADES RESTORATION PLAN, FLORIDA.

(a) IN GENERAL.—Section 601(e)(5) of the Water Resources Development Act of 2000 (114 Stat. 2865; 114 Stat. 3736) is amended by striking subparagraph (E) and inserting the following:

(ii) MIDDLE RIO GRANDE FLOOD PROTECTION, BERNALILLO TO BELEN, NEW MEXICO.
separately for the preconstruction engineering and design phase and the construction phase for each project in the Plan.

"(iii) CLARIFICATION.—Not later than 90 days after the end of each fiscal year, the Secretary shall provide to the non-Federal sponsor a financial accounting of non-Federal contributions under clause (i)(1) for such fiscal year.

"(iv) LIMITATION.—As applicable, and after including consideration of all expenditures and obligations incurred by the non-Federal sponsor for land and in-kind services for an authorized project for which a project partnership agreement has not been executed, the Secretary shall only require a cash contribution from the non-Federal sponsor to satisfy the cost share requirements of this subsection on the last day of each period of 5 fiscal years under clause (i)."

(b) UPDATE.—The Secretary and the South Florida Water Management District shall revise the Master Agreement for the Comprehensive Everglades Restoration Plan, executed in 2009 pursuant to section 601 of the Water Resources Development Act of 2000 (114 Stat. 2680), to reflect the amendment made by subsection (a).

SEC. 357. MAINTENANCE DREDGING PERMITS.

(a) IN GENERAL.—The Secretary shall, to the maximum extent practicable and appropriate, prioritize the reissuance of any regional permit for maintenance dredging that expired prior to May 1, 2021.

(b) SAVINGS PROVISION.—Nothing in this section affects, preempts, or interferes with any obligation to comply with the provisions of any Federal or State environmental law, including—

(1) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(2) the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.);

(3) the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

(4) the National Historic Preservation Act of 1985 (16 U.S.C. 4101 et seq.);

(5) the Clean Water Act (33 U.S.C. 1251 et seq.);

(6) the Rivers and Harbors Act of 1899 (16 U.S.C. 1491 et seq.);

(7) the Rivers and Harbors Act of 1945 (33 U.S.C. 536 et seq.);

(8) the Water Resources Development Act of 2007 (132 Stat. 356);

(9) the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

(10) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(11) the National Historic Preservation Act of 1985 (16 U.S.C. 1491 et seq.);

(12) the Rivers and Harbors Act of 1899 (16 U.S.C. 536 et seq.);

(13) the Rivers and Harbors Act of 1945 (33 U.S.C. 536 et seq.);

(b) SAVINGS PROVISION.—Nothing in this section affects, preempts, or interferes with any obligation to comply with the provisions of any Federal or State environmental law, including—

(1) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(2) the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.);

(3) the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

(4) the National Historic Preservation Act of 1985 (16 U.S.C. 4101 et seq.);

(5) the Clean Water Act (33 U.S.C. 1251 et seq.);

(6) the Rivers and Harbors Act of 1899 (16 U.S.C. 1491 et seq.);

(7) the Rivers and Harbors Act of 1945 (33 U.S.C. 536 et seq.);

SEC. 357. PUGET SOUND NEARSHORE ECOSYSTEM RESTORATION, WASHINGTON.

In carrying out the project for ecosystem restoration, Puget Sound, Washington, authorized by section 1410 of the Water Resources Development Act of 2016 (130 Stat. 1713), the Secretary shall consider the removal and replacement of the Highway 101 causeway and bridges at the Duckabush River Estuary site to a project feature the costs associated with such removal and replacement shall be charged against the project.

SEC. 358. TRIBAL ASSISTANCE.

(a) CLARIFICATION OF EXISTING AUTHORITY.

(1) IN GENERAL.—Subject to paragraph (2), the Secretary, in consultation with the heads of relevant Federal agencies, the Confederated Tribes of the Warm Springs Indian Reservation of Oregon, the Confederated Tribes and Bands of the Yakama Nation, Nez Perce Tribe, and the Confederated Tribes of the Umatilla Indian Reservation, shall revise and carry out the development plan for Dalles Dam, Columbia River, Washington and Oregon, as authorized by section 204 of the Flood Control Act of 1950 (64 Stat. 179, chapter 190) to address adverse impacts to Indian villages, housing sites, and related structures as a result of the construction of Bonneville Dam, McNary Dam, and John Day Dam, Washington and Oregon.

(2) EXAMINATION.—Before carrying out the requirements of paragraph (1), the Secretary shall conduct an examination and assessment of which Indian villages, housing sites, and related structures were displaced or destroyed by the construction of the following projects:

(A) Bonneville Dam, Oregon, as authorized by the first section of the Act of August 30, 1935 (49 Stat. 1038, chapter 831) and the first section and section 2(a) of the Act of August 20, 1937 (50 Stat. 731, chapter 720; 16 U.S.C. 832, 832a(a)).

(B) McNary Dam, Washington and Oregon, as authorized by section 2 of the Act of March 2, 1945 (commonly known as the ‘‘River and Harbor Act of 1945’’) (59 Stat. 22, chapter 19).

(C) John Day Dam, Washington and Oregon, as authorized by section 204 of the Flood Control Act of 1950 (64 Stat. 179, chapter 198).

(3) REQUIREMENTS.—The village development plan under paragraph (1) shall include, at a minimum—

(A) an evaluation of sites on both sides of the Columbia River;

(B) an assessment of suitable Federal land and land owned by the States of Washington and Oregon; and

(C) an estimated cost and tentative schedule for the construction of each housing development phase for each project in the Plan.

SEC. 359. RECREATIONAL OPPORTUNITIES AT CERTAIN PROJECTS.

(a) DEFINITIONS.—In this section:

(1) COVERED PROJECT.—The term ‘‘covered project’’ means any of the following projects of the Corps of Engineers:

(A) Ball Mountain Lake, Vermont.

(B) Townsend Lake, Vermont.

(2) RECREATION.—The term ‘‘recreation’’ includes downstream whitewater recreation that is dependent on operations, recreational fishing, any other related recreational project.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary should—

(1) ensure that, to the extent compatible with other purposes, each covered project is operated in such a manner as to protect and enhance recreation associated with the covered project; and

(2) manage the covered project to improve opportunities for recreation at the covered project.

(c) MODIFICATION OF WATER CONTROL PLANS.—The Secretary may modify, or undertake temporary deviations from, the water control plan for a covered project in order to enhance recreation, if the Secretary determines the modifications or deviations—

(1) will not adversely affect other authorized purposes of the covered project; and

(2) will not result in significant adverse impacts to the environment.

SEC. 360. REHABILITATION OF CORPS OF ENGINEERS CONSTRUCTED DAMS.

Section 1717 of the Water Resources Development Act of 2016 (33 U.S.C. 467–2; Public Law 114–322) is amended by adding at the end the following:

"(e) IN GENERAL.—Subject to subsection (c), the Secretary shall amend the project is operated in such a manner as to provide recreational opportunities in the river and harbor area.

(f) EFFECTIVE DATE.—This section shall take effect on the date of enactment of this section.

SEC. 361. SOUTH FLORIDA ECOSYSTEM RESTORATION TASK FORCE.

Section 528(b)(1)(J) of the Water Resources Development Act of 1996 (110 Stat. 3771) is amended—

(1) by striking ‘‘2 representatives’’ and inserting ‘‘3 representatives’’; and

(2) by inserting ‘‘and’’ after (J) and inserting ‘‘and 9, as authorized by section 204 of the Water Resources Development Act of 2016 (130 Stat. 1675; 132 Stat. 3781) is amended by—

(A) inserting ‘‘flood risk management, and ecosystem restoration, after ‘navigation’.

SEC. 362. MOYNAHM COUNTY HARBOR, MISSOURI.

Section 509(a) of the Water Resources Development Act of 1996 (110 Stat. 3799; 113 Stat. 339; 114 Stat. 2679) is amended by adding at the end the following:

"(b) Second harbor at New Madrid County Harbor, Missouri.

SEC. 363. TRINITY RIVER AND TRIBUTARIES, TEXAS.

Section 1201(f) of the Water Resources Development Act of 2018 (132 Stat. 3802) is amended by inserting ‘‘flood risk management, and ecosystem restoration, after ‘navigation’.

SEC. 364. REND LAKE, CARLYLE LAKE, AND LAKE SHELBYVILLE, ILLINOIS.

(a) IN GENERAL.—Not later than 90 days after the date on which the Secretary receives a request from the Governor of Illinois to terminate a contract described in subsection (c), the Secretary shall amend the contract to release to the United States all rights of the State of Illinois to utilize water storage space in the reservoir project to which the contract applies.

(b) RELIEF OF CERTAIN OBLIGATIONS.—On execution of an amendment described in subsection (a), the State of Illinois shall be relieved of the obligation to pay the percentage of the annual operation and maintenance expenditure, the percentage of major rehabilitation cost, and the percentage of major rehabilitation cost allocated to the water supply storage specified in the contract for the reservoir project to which the contract applies.

(c) CONTRACTS.—(1) By the end of fiscal year 2023, the Secretary shall enter into contracts described in subsection (a) for the purchase of water storage space in Carlyle Lake, Illinois.

(2) In the case of a project for which there is a right of way included in the contract, the Secretary shall, after consultation with the Governor of Illinois, enter into an agreement with the Governor of Illinois under which the Governor of Illinois shall be compensated for the water storage space for a period not to exceed 5 years.

(3) The Secretary shall enter into contracts described in subsection (a) for the purchase of water storage space in Carlyle Lake, Illinois.

SEC. 365. FEDERAL ASSISTANCE.

Section 1228(c) of the America's Water Infrastructure Act of 2018 (132 Stat. 3836) is amended by striking “4 years” and inserting “8 years”.

SEC. 366. LAND TRANSFER AND TRUST LAND FOR CHOCTAW NATION OF OKLAHOMA.

(a) TRANSFER.—

(1) IN GENERAL.—Subject to paragraph (2) and for the consideration described in subsection (c), the Secretary shall transfer to the Secretary of the Interior the land described in subsection (b) to be held in trust for the benefit of the Choctaw Nation.

(2) CONDITIONS.—The land transfer under this subsection shall be subject to the following conditions:

(A) The transfer—

(i) shall not interfere with the operation of the Corps of Engineers of the Sardis Lake Project or any other authorized civil works project; and

(ii) shall be subject to such other terms and conditions as the Secretary determines to be necessary and appropriate to ensure the continued operation of the Sardis Lake Project or any other authorized civil works project.

(B) The Secretary shall retain the right to inundate with water the land transferred to the Choctaw Nation under this subsection as necessary to carry out an authorized purpose of the Sardis Lake Project or any other authorized civil works project.

(C) No gaming activities may be conducted on the land transferred under this subsection.

(b) LAND DESCRIPTION.—

(1) IN GENERAL.—The land to be transferred pursuant to subsection (a) is the approximately 247 acres of land located in Sections 18 and 19 of T2N R18E, and Sections 5 and 8 of T2N R19E, Pushmataha County, Oklahoma, generally depicted as “USACE” on the map entitled “Sardis Lake – Choctaw Nation Proposal” and dated February 22, 2022.

(2) SURVEY.—The exact acreage and legal descriptions of the land to be transferred under subsection (a) shall be determined by a survey satisfactory to the Secretary and the Secretary of the Interior.

(c) CONSIDERATION.—The Choctaw Nation shall pay—

(1) to the Secretary an amount that is equal to the fair market value of the land transferred under subsection (a), as determined by the Secretary, which funds may be accepted and expended by the Secretary; and

(2) all costs and administrative expenses associated with the transfer of land under subsection (a), including the costs of—

(A) the survey under subsection (b)(2);

(B) compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(C) any coordination necessary with respect to requirements related to endangered species, cultural resources, clean water, and clean air.

SEC. 367. LAKE BARKLEY, KENTUCKY, LAND CONVEYANCE.

(a) IN GENERAL.—The Secretary is authorized to convey to the Eddyville Riverport Authority (referred to in this section as the “Authority”), for fair market value, all right, title, and interest of the United States in and to approximately 2.2 acres of land adjacent to the southwestern boundary of the port facilities of the Authority at the Barkley Dam and Lake Barkley, Kentucky, project, authorized by the River and Harbor Act of 1946 (60 Stat. 636, Public Law 79-525).

(b) CONDITIONS.—

(1) QUITCLAIM DEED.—Any conveyance of land under this section shall be by quitclaim deed.

(2) RESERVATION OF RIGHTS.—The Secretary shall reserve from a conveyance of land under this section such easements, rights-of-way, or other interests as the Secretary determines to be necessary and appropriate to ensure the continued operation of the project described in subsection (a).

(3) TERMS AND CONDITIONS.—The Secretary may subject any conveyance under this section to such terms and conditions as the Secretary determines necessary and advisable to protect the United States.

(4) ADMINISTRATIVE COSTS.—The Authority shall be responsible for all reasonable and necessary costs, including real estate transaction and environmental documentation costs, associated with a conveyance under this section.

SEC. 401. PROJECT AUTHORIZATIONS.

The following projects for water resources development and conservation and other purposes, as identified in the reports titled “Report to Congress on Future Water Resources Development” submitted to Congress pursuant to section 7001 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2282d) or otherwise reviewed by Congress, are authorized to be carried out by the Secretary substantially in accordance with the plans, and subject to the conditions, described in the respective reports or decision documents designated in this section:

SEC. 402. STORM DAMAGE PREVENTION AND REDUCTION, COASTAL EROSION, AND ICE AND GLACIAL DAMAGE, ALASKA.

(a) In General.—The Secretary shall establish a program to carry out structural and nonstructural projects for storm damage prevention and reduction, coastal erosion, and ice and glacial damage in the State of Alaska, including—

(1) relocation of affected communities; and
(2) construction of replacement facilities.

(b) Cost Share.—The non-Federal interest shall share in the cost to study, design, and construct a project carried out under this section in accordance with sections 103 and 105 of the Water Resources Development Act of 1996 (33 U.S.C. 2213, 2215), except that, in the case of a project benefitting an economically disadvantaged community (as defined pursuant to section 190 of the Water Resources Development Act of 1999 (113 Stat. 375)), the non-Federal interest shall be 10 percent.

(c) Repeal.—Section 116 of the Energy and Water Development and Related Agencies Appropriations Act, 2010 (123 Stat. 2851), is repealed.

(d) Treatment.—The program authorized by subsection (a) shall be considered a continuation of the program authorized by section 116 of the Energy and Water Development and Related Agencies Appropriations Act, 2010 (123 Stat. 2851) (as in effect on the day before the date of enactment of this Act).

SEC. 403. EXPEDITED COMPLETION OF PROJECTS.

The Secretary shall expedite completion of the following projects:

(1) Project for flood risk management, Cumberland, Maryland, restoration and re-watering of the Chesapeake and Ohio Canal, authorized by section 580 of the Water Resources Development Act of 1999 (113 Stat. 375).

(3) Project for flood risk management, Little Colorado River at Winslow, Navajo County, Arizona, authorized by section 401(2) of the Water Resources Development Act of 2020 (134 Stat. 2735).

(13) Project for navigation, including maintenance and channel deepening, McClellan–Kerr Arkansas River Navigation System.

(14) Project for dam safety modifications, Bluestone Dam, West Virginia.

(21) Project for navigation, Kentucky Lock Addition, Kentucky.

(24) Maintenance dredging and other authorized activities to address the impacts of shoaling affecting the project for navigation, New London, Connecticut.

(25) Maintenance dredging for hydropower, the Secretary shall include in the project costs all costs for the measure, except that those costs that are in excess of the costs to provide fish passage at the dam if hydropower is licensed to place shall be a 100 percent non-Federal expense.

SEC. 405. CHATTAHOOCHEE RIVER PROGRAM.

(a) Establishment—

(1) In general—The Secretary shall establish a program to provide environmental assistance to non-Federal interests in the Chattahoochee River Basin.

(b) Program—The program under paragraph (1) shall be in the form of design and construction assistance for water-related resource protection and restoration projects affecting the River Basin, based on the comprehensive plan under subsection (b), including projects for—

(A) sediment and erosion control;

(B) protection of eroding shorelines;

(C) ecosystem restoration, including restoration of submerged aquatic vegetation;

(D) protection of essential public works;

(E) beneficial uses of dredged material; and

(F) other related projects that may enhance the living resources of the Chattahoochee River Basin.

(c) Comprehensive Plan—

(1) In general—Not later than 2 years after the date of enactment of this Act, the Secretary shall enter into an agreement with a non-Federal interest for the value of land, easements, rights-of-way, and relocations provided by the non-Federal interest, except that the amount of credit provided for a project under this paragraph may not exceed 25 percent of the total project costs.

(2) Cooperation. In carrying out this section, the Secretary shall cooperate with—

(A) the heads of appropriate Federal agencies, including—

(i) the Administrator of the Environmental Protection Agency;

(ii) the Secretary of Commerce, acting through the Administrator of the National Oceanic and Atmospheric Administration;

(iii) the Secretary of the Interior, acting through the Division of the United States Fish and Wildlife Service; and

(B) the heads of such other Federal agencies as the Secretary determines to be appropriate; and

(2) agencies of a State or political subdivision of a State.

(d) Savings provision. Nothing in this section—

(1) establishes any express or implied right in the United States for any purpose;

(2) affects any water right in existence on the date of enactment of this Act;

(3) affects any Federal or State law in existence on the date of enactment of this Act.

(e) Authorization of appropriations. There is authorized to be appropriated to carry out this section $90,000,000.

SEC. 406. LOWER MISSISSIPPI RIVER BASIN DEMONSTRATION PROGRAM.

(a) Definition. In this section, the term "Lower Mississippi River Basin" means the portion of the Mississippi River that begins at the confluence of the Ohio River and flows through the Gulf of Mexico, and its tributaries and distributaries.

(b) Establishment—

(1) In general—The Secretary shall establish a program to provide environmental assistance to non-Federal interests in the Lower Mississippi River Basin.

(2) Requirements—Each agreement entered into under subsection (a) shall provide for—

(A) the development by the Secretary, in consultation with appropriate Federal, State, and local officials, of a resource protection and restoration plan described in paragraph (1) that will also improve water quality or quantity or use natural hydrological features and systems;

(B) agreement—

(i) In general—Before providing assistance under this section, the Secretary shall enter into an agreement with a non-Federal interest for the design and construction of a project carried out pursuant to the comprehensive Chattahoochee River Basin restoration plan described in subsection (b).

(ii) Requirements—Each agreement entered into under this subsection shall provide for—

(A) the development by the Secretary, in cooperation with State and local governmental officials and affected stakeholders, shall develop a comprehensive Chattahoochee River Basin restoration plan to guide the implementation of projects under subsection (a)

(B) coordination.—The restoration plan described in paragraph (1) shall, to the maximum extent practicable, consider and avoid duplication of any ongoing or planned actions of other Federal, State, and local agencies and nongovernmental organizations.

(c) Prioritization.—The restoration plan described in paragraph (1) shall give priority to projects eligible under subsection (a) that will also improve water quality or quantity or use natural hydrological features and systems.

(d) Cost sharing.—

(1) Federal share.—Except as provided in paragraph (2)(B), the Federal share of the total project costs incurred under this subparagraph shall be 75 percent.

(2) Non-Federal share—

(A) Valuation agreements, rights-of-way, and relocations.—In determining the non-Federal contribution toward carrying out an agreement entered into under this paragraph, the Secretary shall—

(i) consider a non-Federal interest for the value of land, easements, rights-of-way, and relocations provided by the non-Federal interest, except that the amount of credit provided for a project under this paragraph may not exceed 25 percent of the total project costs.

(B) The non-Federal share of the costs of operation and maintenance of activities carried out under an agreement under this section shall be 100 percent.

(e) Cooperation. In carrying out this section, the Secretary shall cooperate with—

(A) the heads of appropriate Federal agencies, including—

(i) the Administrator of the Environmental Protection Agency;

(ii) the Secretary of Commerce, acting through the Administrator of the National Oceanic and Atmospheric Administration;

(iii) the Secretary of the Interior, acting through the Division of the United States Fish and Wildlife Service; and

(iv) other related projects that may enhance the living resources of the Lower Mississippi River Basin.

(f) Comprehensive Plan.—

(1) In general—Not later than 2 years after the date of enactment of this Act, the Secretary, in cooperation with State and local governmental officials and affected stakeholders, shall develop a comprehensive Chattahoochee River Basin plan to guide the implementation of projects under subsection (b).
SEC. 406. REPORTS.

(a) In General.—Before providing assistance under this section, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report that includes—

(1) a description of the project and the Federal contribution toward carrying out the project under this section; the cost-sharing participation in the project of the non-Federal interest; and the amount of the Federal financial assistance provided under this section; and

(2) a forecast of the financial revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the covered entity under this section and the revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the People's Republic of China or any other foreign country of concern; and

(b) Certification.—The report required under subparagraph (A) shall be submitted—

(1) not later than 3 years after the date on which the Secretary awards Federal financial assistance under this section to a covered entity, the Secretary shall certify to Congress that the analysis required under subparagraph (C)(i); and

(c) Forecast of Revenue Collections.—The report required under paragraph (a) shall include the forecast of the financial revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the covered entity under this section and the revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the People's Republic of China or any other foreign country of concern.

SEC. 407. FORECAST-INFORMED RESERVOIR OPERATIONS.

(a) In General.—The Secretary shall—

(1) conduct an ROI analysis of the proposed assistance that shows that the assistance will result in a net positive financial return for taxpayers, such as the avoided costs of flood damage on properties; the avoided costs of flood damage to public infrastructure; the avoided costs of flood damage to Federal infrastructure; the avoided costs of flood damage to non-Federal infrastructure; and the avoided costs of flood damage to non-Federal commercial or residential property; and

(b) Report.—Not later than 1 year after the date on which the Secretary awards Federal financial assistance under this section to a covered entity, the Secretary shall submit to—

(1) the Committee on Environment and Public Works of the Senate, and

(2) the Committee on Transportation and Infrastructure of the House of Representatives, a report that includes—

(1) a description of the project and the Federal contribution toward carrying out the project under this section; the cost-sharing participation in the project of the non-Federal interest; and

(2) the forecast of the financial revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the covered entity under this section and the revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the People's Republic of China or any other foreign country of concern.

SEC. 408. MISSISSIPPI RIVER MAT SINKING UNIT.

The Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives a report that describes the results of the program of structural and non-structural measures.

SEC. 409. SENSE OF CONGRESS RELATING TO THE MISSISSIPPI RIVER.

It is the sense of Congress that—

(a) the project carried out under this section, including a project that is an activity that will be able to repay any Federal financial assistance in the event that the covered entity breaches the required agreement with the Secretary under clause (i) and the Secretary recovers the Federal financial assistance under subparagraph (B)(i); and

(b) the project carried out under this section, including a project that is an activity that will be able to repay any Federal financial assistance in the event that the covered entity breaches the required agreement with the Secretary under clause (i) and the Secretary recovers the Federal financial assistance under subparagraph (B)(i); and

(c) the heads of other Federal agencies as the Secretary determines to be appropriate; and

(d) the heads of such other Federal agencies as the Secretary determines to be appropriate.

(2) Authorization of Appropriations.—There is authorized to be appropriated to carry out this section $90,000,000.

SEC. 407. FORECAST-INFORMED RESERVOIR OPERATIONS.

(a) In General.—The Secretary is authorized to carry out a research study pilot program that is owned and operated by the Secretary in the North Atlantic Division of the Corps of Engineers to assess the viability of forecast-informed reservoir operations in the eastern United States.

(b) Report.—Not later than 1 year after completion of the research study pilot program, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report that includes a forecast of the financial revenue collections by the Treasury generated as a direct result of the assistance described in clause (iv), if a covered entity fails to remit the full amount of the Federal financial assistance provided to the covered entity under this section.

(c) Forecast of Revenue Collections.—The report required under paragraph (a) shall include—

(1) a description of the project and the Federal contribution toward carrying out the project under this section; the cost-sharing participation in the project of the non-Federal interest; and the amount of the Federal financial assistance provided under this section; and

(2) forecast of the financial revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the covered entity under this section and the revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the People's Republic of China or any other foreign country of concern.

(d) Certification.—The report required under paragraph (a) shall include—

(1) a description of the project and the Federal contribution toward carrying out the project under this section; the cost-sharing participation in the project of the non-Federal interest; and

(2) the forecast of the financial revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the covered entity under this section and the revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the People's Republic of China or any other foreign country of concern.

(e) Authorization of Appropriations.—There is authorized to be appropriated to carry out this section $90,000,000.

SEC. 407. FORECAST-INFORMED RESERVOIR OPERATIONS.

(a) In General.—The Secretary is authorized to carry out a research study pilot program that is owned and operated by the Secretary in the North Atlantic Division of the Corps of Engineers to assess the viability of forecast-informed reservoir operations in the eastern United States.

(b) Report.—Not later than 1 year after completion of the research study pilot program, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report that includes—

(1) a description of the project and the Federal contribution toward carrying out the project under this section; the cost-sharing participation in the project of the non-Federal interest; and

(2) the forecast of the financial revenue collections by the Treasury generated as a direct result of the assistance described in clause (iv), if a covered entity fails to remit the full amount of the Federal financial assistance provided to the covered entity under this section.

(c) Forecast of Revenue Collections.—The report required under paragraph (a) shall include—

(1) a description of the project and the Federal contribution toward carrying out the project under this section; the cost-sharing participation in the project of the non-Federal interest; and the amount of the Federal financial assistance provided under this section; and

(2) forecast of the financial revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the covered entity under this section and the revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the People's Republic of China or any other foreign country of concern.

(d) Certification.—The report required under paragraph (a) shall include—

(1) a description of the project and the Federal contribution toward carrying out the project under this section; the cost-sharing participation in the project of the non-Federal interest; and

(2) the forecast of the financial revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the covered entity under this section and the revenue collections by the Treasury generated as a direct result of the Federal financial assistance granted to the People's Republic of China or any other foreign country of concern.

(e) Authorization of Appropriations.—There is authorized to be appropriated to carry out this section $90,000,000.

SEC. 407. FORECAST-INFORMED RESERVOIR OPERATIONS.

(a) In General.—The Secretary is authorized to carry out a research study pilot program that is owned and operated by the Secretary in the North Atlantic Division of the Corps of Engineers to assess the viability of forecast-informed reservoir operations in the eastern United States.

(b) Report.—Not later than 1 year after completion of the research study pilot program, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report that includes—

(e) Authorization of Appropriations.—There is authorized to be appropriated to carry out this section $90,000,000.
SA 5142. Mr. SCOTT of Florida submitted an amendment intended to be proposed to amendment SA 5135 proposed by Mr. SCHUMER to the bill H.R. 4346, making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes; which was ordered to lie on the table; as follows:

On page 821, between lines 19 and 20, insert the following:

SEC. 10618. PROHIBITION ON PROCUREMENT OF SEMICONDUCTORS FROM CHINA

Effective on the date that is 5 years after the date of enactment of this Act, the Federal Government may not procure any semiconductor manufactured in China.

SA 5143. Mr. SCHUMER (for Mr. JOHNSON) proposed an amendment to the resolution S. Res. 694, expressing support for the designation of July 2022 as “National Sarcoma Awareness Month”; as follows:

In paragraph (2) of the second whereas clause of the preamble, strike “7,000” and insert “7,200”.

In paragraph (3) of the second whereas clause of the preamble, strike “any 1 time” and insert “any given time”.

In the third whereas clause of the preamble, strike “20” and insert “15”.

AUTHORITY FOR COMMITTEES TO MEET

Mr. DURBIN. Mr. President, I have nine requests for committees to meet during today’s session of the Senate. They have the approval of the Majority and Minority Leaders.

Pursuant to rule XXVI, paragraph 5(a), of the Standing Rules of the Senate, the following committees are authorized to meet during today’s session of the Senate, the following committees are authorized to meet during today’s session of the Senate:

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

The Committee on Commerce, Science, and Transportation is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 10 a.m., to conduct a hearing.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

The Committee on Environment and Public Works is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 11 a.m., to conduct a business meeting.

COMMITTEE ON FINANCE

The Committee on Finance is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 10 a.m., to conduct a hearing.

COMMITTEE ON FOREIGN RELATIONS

The Committee on Foreign Relations is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 10 a.m., to conduct a business meeting.

COMMITTEE ON INDIAN AFFAIRS

The Committee on Indian Affairs is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 2:30 p.m., to conduct a hearing.

COMMITTEE ON VETERANS’ AFFAIRS

The Committee on Veterans’ Affairs is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 3 p.m., to conduct a hearing.

SELECT COMMITTEE ON INTELLIGENCE

The Select Committee on Intelligence is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 2:30 p.m., to conduct a closed business meeting immediately followed by a closed briefing.

PRIVILEGES OF THE FLOOR

Mr. CASSIDY. Mr. President, I ask unanimous consent that Caroline Watson, in my office, be granted floor privileges until July 21, 2022.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MURKOWSKI. Mr. President, I ask unanimous consent that the privileges of the floor be granted to my second-session summer interns for the month of July through August 5; that is, Jonathon Ford, Matthew Agron, Isabella Kershaw, Jocelyn Cannon, Devin Moorhead, Nicole Makar, Matthew Park, and Harold Monroe.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR THURSDAY, JULY 21, 2022

Mr. MERKLEY. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 10 a.m. on Thursday, July 21; that following the prayer and pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and morning business be closed; that upon the conclusion of morning business, the Senate resume consideration of the House message to accompany H.R. 4346; further, that at 11:30 a.m., the Senate execute the previous order with respect to the Brigety nomination and the Senate vote on confirmation of that nomination; finally, that if any nominations are confirmed during Thursday’s session, the motions to reconsider be considered made and laid upon the table and the President be immediately notified of the Senate’s action.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MERKLEY. For the information of the Senate, the first vote of the day, tomorrow, will be at 11:30 a.m., and Senators should expect additional votes.

ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. MERKLEY. Mr. President, if there is no further business to come before the Senate tonight, I ask that it stand adjourned under the previous order.

There being no objection, the Senate, at 8:47 p.m., adjourned until Thursday, July 21, 2022, at 10 a.m.

CONFIRMATIONS

Executive nominations confirmed by the Senate July 20, 2022:

DEPARTMENT OF STATE

BRENDAJETTE M. MEEHAN, OF NEW YORK, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF CHILE.

THE JUDICIARY

GREGORY BRIAN WILLIAMS, OF DELAWARE, TO BE UNITED STATES DISTRICT JUDGE FOR THE DISTRICT OF DELAWARE.

DEPARTMENT OF THE INTERIOR

CARMEN G. CANTOR, OF PUERTO RICO, TO BE AN ASSISTANT SECRETARY OF THE INTERIOR.
INTRODUCTION OF THE RIGHT TO TRY CLARIFICATION ACT

HON. EARL BLUMENAUER
OF OREGON
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mr. BLUMENAUER. Madam Speaker, today I introduced the Right to Try Clarification Act. This legislation would expand access to life-changing treatments by including Schedule I substances that have completed phase 1 clinical studies in the Rights to Try Act.

Oregon has a long legacy of ensuring that end-of-life patients have access to the full spectrum of treatment options to alleviate their condition and improve their quality of life. Patients and doctors deserve to discuss treatments—including psilocybin—that researchers find provide immediate and sustained relief from pain, anxiety, and depression for people battling terminal illness.

Federal restrictions have obstructed access to end-of-life care for too long, this legislation will change that and ensure that all patients have the Right to Try.

The psychedelics laws in this country are broken, including our laws governing patients’ access to new and promising end-of-life care. Forty-one state legislations have passed Right to Try laws, in addition to our federal Right to Try statute, to allow terminally ill patients access to treatments, including psilocybin, that are still in investigational stages. Both psilocybin and MDMA have demonstrated tremendous care potential in phase 1 and phase 2 clinical trials.

The Drug Enforcement Agency, however, has refused to accommodate Right to Try laws, denying terminally ill patients their freedom to elect their preferred treatments. These patients deserve to be able to discuss and pursue treatments with their doctors that researchers are finding provide immediate, substantial, and sustained relief from anxiety and depression for people battling terminal illness. That is why the Right to Try Clarification Act is necessary to ensure patients have the Right to Try these treatment options.

I look forward to working with Senators Cory Booker and Rand Paul and my colleagues Representatives Nancy Mace, Madeleine Dean, Andy Biggs, and Luis Correa to enact this legislation and clarify and strengthen the Right to Try.

CELEBRATING YELLOWSTONE NATIONAL PARK’S 150TH ANNIVERSARY

HON. MATTHEW M. ROSENDALE, SR.
OF MONTANA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mr. ROSENDALE. Madam Speaker, I rise today to celebrate the 150th anniversary of Yellowstone National Park.

Signed into law in 1872 by President Ulysses S. Grant, Yellowstone became the first national park in the world. As the largest intact ecosystem in North America, Yellowstone is home to a few endangered animals, and over 1,700 species of trees.

Montana is the “Gateway to Yellowstone” and welcomes 72 percent of guests into the park each year.

The crown jewel of the West, Yellowstone has helped to sustain businesses in Montana for decades.

Flooding at the start of June destroyed bridges, roads, and homes around Yellowstone’s north entrance in Montana, hurting many businesses and families, but Montanans have shown their resilience and have bounced back stronger than ever before.

This anniversary is not only a celebration but also a reminder of the strength and dedication Montanans have shown during this difficult time.

On behalf of the state of Montana, I would like to thank the National Park Service for their efforts to protect the environment and communities that make up the greatest national park in the country.

RECOGNIZING ELAINE M. WALSH, PH.D

HON. CAROLYN B. MALONEY
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mrs. CAROLYN B. MALONEY of New York. Madam Speaker, I rise to pay tribute to Elaine M. Walsh, Ph.D., for her outstanding community advocacy as she departs Manhattan Community Board 8 (CB8) after a quarter century of dedicated leadership and service.

Dr. Walsh first began her long history of community engagement during her time at Fordham University’s Graduate School of Social Service, where she earned a Master of Social Work. She began her career as a social worker in New York City, becoming the director of senior citizen crime prevention for the New York City Department for the Aging and the director of elderly services at the Office of Victim Services.

Dr. Walsh has served as Director of the Public Service Scholar Program (PSSP) at Hunter College since 1986 after joining the university as an Associate Professor of Urban Affairs. The PSSP works to improve the city by preparing talented undergraduate students for careers in the public and non-profit sectors. The program also aims to increase representation of women, minority-group members and immigrants in leadership positions. Under Dr. Walsh’s supervision, over 700 of the program’s scholars have contributed more than 500,000 hours in service to communities throughout New York City.

Dr. Walsh served as a member of CB8 for 25 years and co-chaired the CB8 Zoning and Development Committee. During her tenure, Dr. Walsh was a constant advocate for her community, particularly in regard to environmental concerns and infrastructure. During her time as a member, Dr. Walsh worked to support policies and programs that increased accessibility to city services for both businesses and individuals and served as the conscience of the Board in her consistent, forceful advocacy for the needs of under privileged New Yorkers.

Dr. Walsh serves as President of the East 86th Street Association, which she helped to establish in 2004. The Association seeks to “improve the quality of life along the East 86th Street corridor by conducting research, education, and advocacy programs” while facilitating community dialogue to encourage civic participation and foster neighborhood pride.

Under the leadership of Dr. Walsh, the East 86th Street Association has worked on many projects which have greatly improved residents’ quality of life.

Dr. Walsh has previously received awards including the New York City Chapter’s “NASW Leadership Award”, the NYC Public Advocate’s “Advocate’s Award”, Fordham University’s “Alumni Award”, the Manhattan Borough President’s “Women’s Leadership Award”, the NYC Comptroller’s Award “Outstanding Irish Educator in Social Policy and Leadership”, the Our Town newspaper’s OTTY award for her continued leadership and advocacy in the East 86th Street Association, and was named one of the 2013 New York State Senate’s “Women of Distinction”.

Madam Speaker, I ask my colleagues to join me in recognizing the accomplishments and contributions of Dr. Elaine M. Walsh. Her dedication and leadership have helped cultivate a better, more lively community for the residents of Roosevelt Island and Manhattan’s Upper East Side. Dr. Walsh’s service and commitment to improving the lives of New Yorkers will leave a lasting impact on her community and our city.

RECOGNIZING THE RESILIENCE OF THE PEOPLE, CULTURE, LAND, AND WATER OF NEW MEXICO

HON. TERESA LEGER FERNANDEZ
OF NEW MEXICO
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Ms. LEGER FERNANDEZ of New Mexico. Madam Speaker, as we mark National Latino Conservation Week, I rise to celebrate the resiliency of the people of Las Vegas, Mora, and the surrounding New Mexico communities. Since April, the Forest Service-caused Hermits Peak Fire and Calf Canyon Fire has ravaged the area. I am proud to join my resilient community to celebrate our combined strength and capacity to recover during challenging times. The Hispanic heritage of this area is a strength we will rely on to heal.

Now in its fourth month, the fire has burned over 340,000 acres and become the biggest
wildfire in New Mexico’s history. It forced thousands of New Mexicans to evacuate and burned hundreds of homes and structures. Make no mistake, the negligence of the U.S. Forest Service caused this fire, and the federal government bears responsibility for the cost and the damage. I thank my colleagues on both sides of the aisle for their support of my legislation to fully compensate affected residents and businesses, which passed through the House last week.

After the fire ignited, hurricane-force winds and an historic drought enabled the wildfire to strengthen and spread dangerously quickly. It destroyed places where I, and so many others like me, grew up and explored; places where we gathered wood and tended to our acequias; places where we buried loved ones and practiced our faith; places where we raised our children; places where we hunted and fished; and places of cherished memories.

Yet, my hometown of Las Vegas and the communities in Mora and San Miguel counties, and our other dear neighbors continue to persevere despite devastating destruction. Hispanic, Indigenous and Anglo families, have been stewards and conservators of these lands for centuries, and they will not give up on their lands now.

There is one common thread among the countless people I’ve talked to and their stories of loss and heartache: resiliency. Residents bravely defended their land, honoring shared ancestors. Families and neighbors from across the community opened their doors to one another in a beautiful, shared sense of New Mexico community. Firefighters and first responders risked their lives to save others. We honor their sacrifice along with those who donated their time, resources, and money to help those forced from their homes.

Our land, water, culture, and communities will endure despite the catastrophic wildfires and ongoing floods. Our faith in each other remains unbroken. Our traditions remain unbroken. We remain unbroken.

I draw strength and determination from our shared commitment to protect the natural, cultural, and recreational resources that make these areas so beautiful. We will Rise from the ashes and, as we have done for generations, continue to fight for what we love.

HONORING RODRIGO “ROD” GARCIA

HON. JUDY CHU
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Ms. CHU. Madam Speaker, I rise today to honor the life of Rodrigo “Rod” Garcia, who passed away on July 2, 2022. Rod was a respected visionary, leader, and advocate whose incredible life was defined by his dedication to empowering the Hispanic community to achieve educational excellence, economic opportunity, and social equity.

Rod Garcia was born in East Los Angeles, California in 1943. He graduated from California State University, Los Angeles with a bachelor’s degree of science in engineering and also obtained an associate degree in engineering from East Los Angeles College, launching a lifelong career in the Science, Technology, Engineering, and Math (STEM) field. Rod subsequently served as a civil engineer for the City of Los Angeles and worked for the Port of Los Angeles in Public Works, Building and Safety. Due to his expertise in the field of engineering and his leadership abilities, Rod went on to chair the City of Monterey Park’s Planning Commission as well as serving on the Dean of Engineering’s Advisory Board for his alma mater, California State University, Los Angeles. Rod also served as president of Century Diversified, Inc., an engineering and construction firm, for over thirty years.

Rod was one of the few Hispanic engineers amidst a tech boom in California in 1973 and despite being in the minority in the STEM field, he gathered a cohort of fellow Hispanic engineers determined to contribute and diversify the sector. That’s why, in 1974, Rod founded the Society of Hispanic Professional Engineers (SHPE) with the mission of ensuring achievement and education opportunities for Hispanic students and professionals in the Southern California region. Shortly thereafter, SHPE’s first collegiate chapters were established at California State University, Los Angeles, East Los Angeles College, and the University of Southern California. For five decades, Rod’s high-spirited and fearless leadership propelled the SHPE to reach 13,000 memberships and 286 chapters nationwide. His unique ability to unite community partners

HONORING THE RETIREMENT OF CORPORAL FOYD MCKBIL

HON. DEBBIE DINGELL
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mrs. DINGELL. Madam Speaker, I rise today to recognize Corporal Foyd Mckbil of Howell, Michigan on the occasion of his retirement from Dearborn Police Department. His 25 years of service to the Dearborn community are worthy of commendation.

A graduate of Fordson High School, Corporal Mckbil was the first Yemeni American hired at the Dearborn Police Department, joining the team in 1997. Throughout his career, he has held various positions in the department including in Patrol Operations, Field Training, and on the SWAT Team as an operator. Additionally, he has served as an Honor Guard Member, School Resource Officer and as a plainclothes officer. At the time of his retirement, he was serving as Senior Officer of the Patrol Division on the night shift.

From the halls of Dearborn’s elementary schools to events throughout the community, Corporal Mckbil is a familiar face to generations of Dearborn residents. Known for his commitment, Corporal Mckbil spearheads as a passion, he was active in the ACCESS substance abuse program and a frequent volunteer at charity events all over Metro Detroit. A friend to all and a mentor to his peers, Corporal Mckbil has been a great representative of the department for almost 3 decades. All who have the pleasure of knowing him can attest to his infectious energy and joy. Despite being an officer, he never misses a chance to have fun and make memories. Corporal Mckbil resides in Howell with his family, friends, and colleagues in extending my gratitude to him for his honorable service and thank him for his role in protecting our community and the people of Dearborn for over 2 decades. We wish him the best in retirement and lots of time spent with friends and family.

HONORING VITA SWARERS

HON. KEVIN BRADY
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mr. BRADY. Madam Speaker, today I rise to honor Vita Swarers on the occasion of her birthday, July 24th. Vita serves as the Deputy Director of Casework and the Deputy District Director in my Conroe district office, and she has spent the past 15 years serving the people of the Eighth Congressional District of Texas.

Vita started working for me as a caseworker in January of 2008 when my district office was originally in Orange, Texas. Vita has always been a devoted member of my team and I have experienced the depth of her commitment firsthand. Following the last redistricting of Texas in 2010, Vita chose to relocate her home from Orange to Huntsville in order to continue her work in my new district office.

When Hurricane Ike struck the 8th District, Vita’s own home was flooded but she helped countless victims recover first. Thousands of Texans’ lives have been improved because of Vita’s tireless efforts on behalf of the community.

In addition to her amazing casework success, Vita also directs our Military Service Academy Program which, because of the academic and athletic accomplishments of our prospective cadets, typically sends 15 or more cadets to the four service academies. The staff of the academy admission offices refer to the program as the “model program” and Vita frequently consults with new Congressional offices on how to set up and run a successful program.

Outside of the office, Vita is a natural caregiver, loves serving others, and gives her all in every aspect of her life. Vita is the type of person who can overcome anything—when life gives her lemons, she throws them right back—very hard. Vita is a devoted mother to three, grandmother to seven, and great-grandmother to four. She loves her family deeply and says that one of her goals in life is to live long enough to meet her great-great-grandchildren.

One of Vita’s favorite ways to spend time with her family is to compete in local competitions. Vita is a well-decorated Texas champion—holding first place trophies throughout Texas for her famous chili.

On behalf of the Eighth Congressional District of Texas, it is a pleasure to formally recognize Vita for her long years of dedicated service and the instrumental role she has played on behalf of the constituents of the 8th District. I am honor to work with someone as special as Vita, and I am grateful for her service. I thank Vita for everything, and wish her a Happy Birthday.

HONORING RODRIGO “ROD” GARCIA

HON. JUDY CHU
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Rodriguez was born in East Los Angeles, California in 1943. He graduated from California State University, Los Angeles with a bachelor’s degree of science in engineering and also obtained an associate degree of engineering from East Los Angeles College, launching a lifelong career in the Science, Technology, Engineering, and Math (STEM) field. Rod subsequently served as a civil engineer for the City of Los Angeles and worked for the Port of Los Angeles in Public Works, Building and Safety. Due to his expertise in the field of engineering and his leadership abilities, Rod went on to chair the City of Monterey Park’s Planning Commission as well as serving on the Dean of Engineering’s Advisory Board for his alma mater, California State University, Los Angeles. Rod also served as president of Century Diversified, Inc., an engineering and construction firm, for over thirty years.

Rod was one of the few Hispanic engineers amidst a tech boom in California in 1973 and despite being in the minority in the STEM field, he gathered a cohort of fellow Hispanic engineers determined to contribute and diversify the sector. That’s why, in 1974, Rod founded the Society of Hispanic Professional Engineers (SHPE) with the mission of ensuring achievement and education opportunities for Hispanic students and professionals in the Southern California region. Shortly thereafter, SHPE’s first collegiate chapters were established at California State University, Los Angeles, East Los Angeles College, and the University of Southern California. For five decades, Rod’s high-spirited and fearless leadership propelled the SHPE to reach 13,000 memberships and 286 chapters nationwide. His unique ability to unite community partners
and leaders around the country serve as evidence that closing the STEM education gap and increasing the number of Hispanics in STEM can and will be done.

Rod will be remembered by his colleagues and thousands of current and former SHPE students and professionals for his devotion, service, and his commitment to sharing his own experiences and engaging colleagues and students in the field.

In 2011, Second Harvest provided an average of 6.7 million pounds of fresh fruits and vegetables. In addition to his role with Second Harvest, Mr. Elliott-McCrea also served as the founding president of the California Association of Food Banks (CAFB) from 1995 to 1998 and again from 2019 to 2021. The CAFB ensures its coalition of 41-member food banks have the tools and resources to focus on feeding communities across California. The Association also provides Nutrition Education Programs that work with community volunteers to provide Nutrition Support Groups and Cooking Clubs.

Madam Speaker, I ask my colleagues in the House of Representatives to join me in recognizing and thanking Willy Elliott-McCrea for his decades of service. His leadership and dedication to public service have shaped the food bank community not just in Santa Cruz County, but across the nation. I extend my personal appreciation to Mr. Willy Elliott-McCrea and his dedication to the central coast of California.

### TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2023

#### SPEECH OF

**HON. DARREN SOTO**  
**OF FLORIDA**

**Tuesday, July 19, 2022**

Mr. SOTO. Mr. Chair, I want to commend the members of the House Committee on Appropriations, specifically the members of the Subcommittee on Military Construction, Veterans Affairs, and Related Agencies Fiscal Year 2023 Appropriations bill for including robust funding for Major Projects Construction. This funding for the construction, alteration, extension, and improvement of any facilities within the jurisdiction or use of the Department of Veteran Affairs will help all VA hospitals expand access to health care to veterans. For example, the Lake Nona VA Medical Center located in my district has grown substantially since established in 2006. The Lake Nona VA Medical Center serves more than 110,000 veterans in Central Florida and includes a 120-bed Community Living Center, two Mental Health Residential Rehabilitation Treatment Programs/Domiciliaries, located at both Lake Nona Campus and the Lake Baldwin Campus, one Health Care Center in Viera, two large multi-specialty Satellite Outpatient Clinics in Orlando and Daytona Beach, and four Community-Based Outpatient Clinics located in Clermont, Kissimmee, Orange City, and Tavares. A facility expansion of the Lake Nona VA Medical Center would add at least additional twenty beds for inpatient mental health care and three additional floors for intensive and surgical rehabilitation. I am proud of the healthcare provided by Lake Nona VA Medical Center to veterans in the Central Florida. I believe Congress should continue to provide the resources necessary to allow for expansion and improvement of facilities under the jurisdiction of the Department of Veteran Affairs and I look forward to continuing to work with my colleagues to support this goal.

#### PERSONAL EXPLANATION

**HON. BRIAN BABIN**  
**OF TEXAS**

**Wednesday, July 20, 2022**

Mr. BABIN. Madam Speaker, I voted ‘no’ but it was not recorded (card apparently not read).

HONORING THE RETIREMENT OF SERGEANT TIM STACY

**HON. DEBBIE DINGELL**  
**OF MICHIGAN**

**Wednesday, July 20, 2022**

Mrs. DINGELL. Madam Speaker, I rise today to recognize Sergeant Tim Stacy of the Dearborn Police Department on the occasion of his retirement. His honorable 22 years of service to our community is worthy of commendation.

A graduate of Southgate Anderson High School, Schoolcraft College, and Wayne County Community College Sergeant Stacy began his career in the Dearborn Police Department in 1994 as a reserve police officer. After obtaining his criminal justice degree in 1996, he was promoted to the role of Police Office in Charge in 1997. From there, he worked his way up the ranks becoming certified in traffic safety and accident investigations and was promoted to the position of Sergeant and Office in Charge of the Police Motor Carrier and Ordinance Enforcement Units in 2015.

Known for his caring heart and willingness to help those in need, Sergeant Stacy has always looked for new ways to advance professionally and better serve his community. He has frequently attended trainings at the Federal Law Enforcement Training Center and Federal Motor Carrier Safety Administration. In addition to his duties as an officer, he served as a community liaison for the department, helping improve the lives of his neighbors each day. A dedicated officer and known for his commitment to improving his community, he was awarded the Chiefs Outstanding Service Award in 2015.

Throughout his time with the Second Harvest Food Bank, Mr. Elliott-McCrea helped guide statewide policy, championing progress in food security resources. He energized the Second Harvest Board of Directors to change its mission to be more community-focused, thus pioneering a new model for food banks and inspiring emergency feeding operations nationwide. To this day, food bank distributions operate around a network of community-based food pantries in senior residential living centers, homeless service centers, schools, churches, and neighborhood resource centers.

Mr. Elliott-McCrea led Second Harvest Food Bank during times of disasters, recessions, and, most recently, the coronavirus pandemic. In 2011, Second Harvest provided an average of 6.7 million pounds of fresh fruits and vegetables.
RECOGNIZING AIR FORCE VETERAN AND FOUNDER OF 2M COMPANY, MR. BILL MILLS

HON. MATTHEW M. ROSENDALE, SR.
OF MONTANA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mr. ROSENDALE. Madam Speaker, I rise today to recognize Mr. Bill Mills, a United States Air Force veteran and founder of 2M Company in Montana.

In 1978, Mr. Mills founded 2M Company in Billings, Montana because he was inspired to create a water product and service company that directly meets the needs of Montana’s families and farmers.

Over the last 30 years, 2M Company has done just that—while serving Montanans’ water-related needs, it became the leading wholesale supplier of pumps and pumping systems within Montana’s water industry.

Along with 2M Company’s business locations in Montana, it has expanded over the years to serve customers in Idaho, Colorado, New Mexico, Arizona, Oregon, Washington, and Texas.

The growth and success of 2M Company is certainly a testament to Mr. Mills’ exceptional entrepreneurial spirit and 2M Company’s excellent service, products, and customer-first philosophy that Mr. Mills established in its inception.

Additionally, I also want to thank Mr. Bill Mills for his service to his country as part of the United States Air Force.

Mr. Mills’ hard work, resourcefulness, and outstanding service to his community exemplify the core principles of being a Montanan.

PERSONAL EXPLANATION

HON. VICKY HARTZLER
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mrs. HARTZLER. Madam Speaker, on Tuesday, July 19, 2022, I was unable to vote. Had I been present, I would have voted: NO on Roll Call No. 366; NO on Roll Call No. 367; NO on Roll Call No. 368; NO on Roll Call No. 369; YEA on Roll Call No. 370; YEA on Roll Call No. 371; NO on Roll Call No. 372; NO on Roll Call No. 373; YEA on Roll Call No. 374; YEA on Roll Call No. 375; YEA on Roll Call No. 376; YEA on Roll Call No. 377; and YEA on Roll Call No. 378.

TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2023

SPEECH OF

HON. PATRICK T. MCHENRY
OF NORTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 19, 2022

Mr. MCHENRY. Mr. Chair, the report accompanying the FSGG appropriations bill includes “an increase of $6 million above the budget request for USPS to carry out pilot programs to modernize its current postal banking services, including surcharge-free automated teller machines, wire transfers, check cashing, and bill payment.”

This “Postal Non-banking Financial Services Modernization Pilot Program” is yet another attempt by progressives in Congress to expand the U.S. Postal Service’s core mission into the financial system. This concept is ultimately harmful to American consumers because it uses the private sector’s financial innovation to reach underserved communities.

That’s why Rep. LUETKEMEYER and I offered an amendment to prohibit funding in this bill from being used to carry out the Postal Non-banking Financial Services Modernization Pilot Program. Unfortunately, our amendment was not made in order to the bill we’re considering today.

Democrats have long called for USPS to be able to offer consumer banking services such as checking and savings accounts and extensions of credit to consumers and small businesses. These functions are beyond the Post Office’s core competencies, will subject taxpayers to potential losses, will undermine the Post Office’s ability to effectively tax-payer-subsidized banking services, and pose a threat to consumers’ privacy when it comes to financial data.

In 2018, the previous Administration created a special task force to specifically review the Post Office and identify necessary reforms. The Treasury Department was directed to release the Task Force’s recommendations, which it did in its report, “United States Postal Service: A Sustainable Path Forward.” The Task Force clearly demonstrated the fact that the USPS’s narrow expertise and capital limitations, USPS should not pursue expanding into new sectors, such as postal banking, the USPS does not have a demonstrated competency or comparative advantage, or where balance sheet risk would be added.

Moreover, the Post Office agreed. In response to a widely criticized and highly unusual report by the United States Postal Service Office of Inspector General (OIG), the Post Office made clear that despite any recommendations to the contrary from the OIG, the Post Office’s core mission “is delivery, not banking.” Postmaster General DeJoy reiterated this position.

Progressives argue postal banking is needed to address the decreasing number of bank branches and the rise in the number of people without access to a checking account or short-term credit. Democrats automatically believe that means that the government should provide these banking services, including through the Post Office. What Democrats fail to acknowledge is financial institution branch closures and consolidations result from overly burdensome government regulation, which won’t be reconciled using more government.

If the government has failed to address the COVID-19 pandemic, Ms. Rowland took the initiative to support our community. It is therefore fitting and proper that we honor her today.

CONGRESSIONAL RECORD — Extensions of Remarks

July 20, 2022
consumers’ demands for innovative financial products and services are met, and they receive the best pricing for them. Congress should not stifle private sector innovation by financial institutions and fintech firms that have already shown promise for reaching underbanked customers.

The USPS should remain focused on its core mission. The fact that only six people use the postal banking pilot confirms that consumers remain supportive of the free market and look to private firms for technological solutions to meet their banking needs.

Postal banking is harmful to the financial system and ultimately harmful to consumers. It will crowd out private sector financial innovation and ultimately fail to reach the very underserved communities Democrats claim they want to reach.

The USPS should remain focused on its core mission, not creeping into the provision of consumer financial services.

HONORING THE RETIREMENT OF DESTINATION ANN ARBOR PRESIDENT AND CEO MARY KERR

HON. DEBBIE DINGELL OF MICHIGAN IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 20, 2022

Mrs. DINGELL. Madam Speaker, I rise today to recognize Ms. Mary Kerr, President and CEO of Destination Ann Arbor on the occasion of her retirement. Her honorable 27 years of dedication to our Washtenaw County community are worthy of commendation.

Ms. Kerr’s service to Washtenaw County started even before her time in tourism. Ms. Kerr began her career in hospitality as a manager at the historic Haab’s Restaurant in Ypsilanti, Michigan. She served as the Executive Director for the Ypsilanti Convention and Visitors Bureau before becoming Executive Director for the Ann Arbor Convention and Visitors Bureau. Under Ms. Kerr, the Ann Arbor and Ypsilanti Convention and Visitors Bureaus were merged into one countywide entity, bringing together our diverse communities of Ann Arbor and Ypsilanti for good.

During her time at Destination Ann Arbor, Ms. Kerr was instrumental in growing the budget of the organization. She also oversaw the creation of the Ann Arbor Sports Commission, a ten-year destination master plan for Washtenaw County that consists of a strategic plan to boost the local economy and other key initiatives to ensure Ann Arbor is a destination for travelers and locals alike. Outside of work, she continues to advocate for the hospitality industry through her roles on various boards in Washtenaw County.

Ms. Kerr has been recognized for her dedicated service through various awards, such as the Lifetime Achievement Award by Michigan Meetings and Events. She was also named CVB Star of the Year at the Pure Michigan Governor’s Conference on Tourism. Her stellar work as an ambassador for our community makes her beyond worthy of this recognition.

Madam Speaker, I ask my colleagues to join me in bowing to Ms. Kerr for her 27 years of service. As we come together to celebrate her retirement, all of us in the Washtenaw community reflect on the great work she has done that will benefit our area for years to come. I join with her family, friends, and colleagues in wishing her the very best in her retirement.

HONORING ANDREW PIERCE FOR HIS SERVICE IN THE PEACE CORPS

HON. ELEANOR HOLMES NORTON OF THE DISTRICT OF COLUMBIA IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 20, 2022

Ms. NORTON. Madam Speaker, I rise today to honor Andrew Pierce for his exceptional leadership and service as the Acting Chief Financial Officer, Deputy Chief Financial Officer and Director of Accounting and Financial Reporting at the Peace Corps.

During his nearly 7 years at the Peace Corps, Mr. Pierce played a vital role in ensuring resources were effectively and efficiently managed. He was a key player in the important mission of the Peace Corps. He provided solutions during the beginning of the COVID-19 pandemic, when global evacuations of thousands of Peace Corps volunteers were necessary.

Mr. Pierce was instrumental in ensuring that the Peace Corps received a clean audit opinion during his entire tenure. This is particularly remarkable because of the inherently transient nature of the Peace Corps workforce and the global footprint of the agency’s financial operations. He was highly respected by his colleagues for his keen intellect, professionalism, kindness, dedication to service and being a consummate team player.

President Kennedy said that by establishing the Peace Corps, “[W]e intend to make full use of the resources and talents of private institutions and groups. Universities, voluntary agencies, labor unions and industry will be asked to share in this effort—contributing diverse sources of energy and imagination—making it clear that the responsibility for peace is the responsibility of our entire society.” Mr. Pierce answered the call and did his part, enabling the Peace Corps and our nation to strengthen bonds of friendship and foster global peace.

I ask my colleagues to join me in thanking Andrew Pierce for his service and wishing him continued success in his role as the Executive Director for Budget and Analysis for Maryland.

RECOGNIZING MINNESOTA’S 2022 SOMALI-AMERICAN HERITAGE WEEK

HON. BETTY McCULLUM OF MINNESOTA IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 20, 2022

Ms. McCULLUM. Madam Speaker, I rise today to honor Minnesota’s vibrant Somali-American community and the many cultural, economic and social contributions members make to our state, and in recognition of Somali-American Heritage Week during July 2–17 in Saint Paul and Minneapolis.

The commemoration of Somali Independence Day is marked by Somali Week celebrations in Minnesota, hosted by Rising Impact, a nonprofit dedicated to the safety and success of Somali-American youth in Minnesota. Hosted in locations throughout Saint Paul and Minneapolis, the festivities are a chance to unite and celebrate Minnesota’s diversity through a broad range of artistic, cultural and athletic events.

This year the celebrations drew together more than 45,000 participants to enjoy the food, music, dance, films, and the history of the Somali people and the Somali-Americans who call Minnesota home. Some of the most notable events from this year’s celebration include a roundtable discussion with the U.S. Ambassador to Somalia, Larry E. André, and community members about ongoing humanitarian relief efforts and the United States support for democracy in Somalia, the “Xasuuso (Remember) 1960” event which tells the story of Somalia’s independence, and the Growth Conference, which is a chance for members of the African diaspora to share knowledge and resources to build up minority-owned businesses.

Led by the Somali Week Chairperson, Daud Mohamed, the organizers and volunteers for Somali Week continue to forge strong ties with various community, corporate and government partners to bring this vibrant festival to life each year.

Madam Speaker, Minnesota’s Somali community has added greatly to the fabric of our state and our Nation, and they are a prominent part of the diverse community that makes Minnesota a great place to call home. Please join me in paying tribute to the community members who come together each year to celebrate Somali Week, and who work every day to foster, educate, and promote cultural understanding and traditions among all Minnesotans.

SUPPORTING U.S. NAVY LT. RIDGE ALKONIS AND U.S./JAPAN RELATIONS

HON. AUMUA AMATA COLEMAN RADERWAGEN OF AMERICAN SAMOA IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 20, 2022

Mrs. RADERWAGEN. Madam Speaker, I rise today in support of U.S. Navy Lieutenant Ridge Alkonis, a sailor currently stationed abroad in Japan. Essential to the economic and political stability of the Pacific region around my home of American-Samoas is the U.S.-Japan alliance. As a significant part of this alliance, the U.S. Navy and Japanese Maritime Self-defense Force jointly project power and security throughout the Pacific; and, enabling this naval partnership are the 19,000 American sailors stationed there. While the U.S. and Japanese naval forces have long maintained a strong bond, the relationship is deteriorating as a result of Japanese injustices against U.S. military members. The case of U.S. Navy Lieutenant Ridge Alkonis, who is of Samoan descent, exemplifies the disparate treatment American sailors receive in Japan. While driving his wife and three children to get crepes during a family event in May 2021, LT. Alkonis suffered a sudden and unforeseen medical emergency which resulted in a tragic car accident, causing the
death of two Japanese citizens. When I became aware of this tragedy last year, I immediately conveyed my condolences to Ambassador Tomita and continue to pray for the family of those who passed away. At the scene of the accident, LT. Alkonis was immediately arrested by Japanese authorities without receiving any medical care and imprisoned in solitary confinement for 26 days. He was systematically deprived of sleep, denied legal counsel while undergoing harsh daily interrogations by Japanese authorities, and pressured to sign false accusations. Financial compensation plays a role in the Japanese judicial system, with Japanese citizens possessing considerable leverage over foreigners in court. LT. Alkonis was advised into signing a $1.65 million financial settlement, the largest private financial settlement ever entered into by a U.S. service member in Japan. Despite there being no evidence of negligence on his part, LT. Alkonis cooperated fully in the investigation and paid the financial settlement in full; nevertheless, he was still sentenced to three years in prison. And last month, the Tokyo High Court rejected the majority of evidence submitted by LT. Alkonis including the Japanese police arrest warrant and a medical diagnosis by military physicians. The Court dismissed LT. Alkonis’s appeal last week, even disregarding the financial settlement—an unprecedented decision by a Japanese court. Many familiar with these proceedings have called this situation the most egregious case against an American service member by Japan in over 60 years. I’m deeply troubled by Japan’s treatment of LT. Alkonis. A review of the facts clearly shows that LT. Alkonis did not fall asleep, did not neglect, that he did infact, suffer a medical emergency. While indeed a tragedy, this was an accident in every sense of the word. Additionally, there have been numerous Status of Forces Agreement violations and human rights abuses by Japan. I have even heard persuasive allegations of illicit domestic political interference in LT. Alkonis’s court proceedings by the victims’ family, which is strongly connected to the Tokyo High Court. The treatment of LT. Alkonis has been unacceptable and is hurting the U.S.-Japan alliance exactly when it needs to be strengthened. Japan cannot allow our brave sons and daughters to be so vulnerably exposed while serving abroad. I call on President Biden, as well as our Ambassador to Japan—Ambassador Emanuelli, to bring LT. Alkonis home and to immediately work with our Japanese partners to ensure that the terms of the Status of Forces Agreement are immediately reviewed and enforced at every level. Now more than ever, we need to acknowledge and correct injustices and take the appropriate steps to strengthen this alliance by ensuring service members are treated fairly.

HONORING DIANE PORTER COOLEY OF CALIFORNIA IN THE HOUSE OF REPRESENTATIVES Wednesday, July 20, 2022

Mr. PANETTA. Madam Speaker, I rise today to recognize the vibrant life of Diane Porter Cooley, a pillar of the Pajaro Valley and Santa Cruz County community, who passed away on March 10, 2022.

Born to a family that settled in Santa Cruz County in the 1850s, and raised on Las Lomas Ranch in Watsonville, Diane had a deep connection to the land and people of the central coast of California. Her father Tom was one of the four founders of Driscoll Berries, and Diane continued her involvement with agriculture throughout her husband’s term as Supervisor. Her husband, Don, were active members of the community, constantly engaged in the issues they cared about.

A deeply passionate civic leader, Diane worked tirelessly to protect and preserve the environment. She was an advocate for the people of the Pajaro Valley. She once said, “I care for the trees but for humans, too. People should have the chance to thrive just like the Sequoia should stand tall.”

She was a dynamic agent of change who championed the creation of the Elkhorn Slough Foundation, the Pajaro Valley Arts Council, the Community Foundation of Santa Cruz County, and the Land Trust of Santa Cruz County. She was involved with the Nature Conservancy, served on the Pajaro Valley Water Management Board, and was a supporter of many other causes, including Pajaro Valley Shelter Services, Salud Para la Gente, the University of California, Santa Cruz, Cabrillo College, and Second Harvest Food Bank in Watsonville. We may never know just how many lives she touched, or how many people received an education, braces, medical care, a home, or love when they needed it most thanks to her.

Madam Speaker, Diane Porter Cooley's outreach and philanthropy extended far and wide throughout our community. As Santa Cruz County Supervisor, in 37 years, may her legacy of giving continue to inspire us for generations to come.

CONGRATULATING DOUGAL NELSON FOR RECEIVING THE KARL FLEEMKE PIONEER ACHIEVEMENT AWARD THROUGH JUNIOR ACHIEVEMENT USA IN THE HOUSE OF REPRESENTATIVES Wednesday, July 20, 2022

Mrs. BUSTOS. Madam Speaker, I rise today to congratulate Dougal Nelson for receiving the Karl Fleemke Pioneer Achievement Award for his work with Junior Achievement of the Heartland through Junior Achievement USA.

Mr. Nelson was very honored to win this award, which is given to first-time presidents of Junior Achievement organizations throughout the country with between 2 and 6 years of service in their role. Nelson was among five others nominated. Junior Achievement of the Heartland, a member of the global JA network, has been serving young people in the Quad-Cities and surrounding areas for 66 years—equipping them with the skillset and mindset to create sustainable businesses, find meaningful employment, and build thriving communities. Mr. Nelson exemplifies the mission statement of Junior Achievement of the Heartland, which is to “inspire and prepare young people to succeed in school and life. As CEO, Mr. Nelson believes it is his job to put the right people in the right places to help children succeed and says that his staff and the community are to thank for him receiving this award. Because of his strong leadership, he was able to build a culture of trust within the organization and make a big difference for youth in the community. I commend Mr. Nelson for his resolve to help the youth in the Quad Cities and surrounding areas.

It is because of strong community leaders such as Dougal Nelson that I am especially proud to serve Illinois’ 17th Congressional District. Madam Speaker, I would like to again formally congratulate Dougal Nelson for winning the Junior Achievement organization’s Karl Fleemke Pioneer Achievement Award.
HON. GREGORY F. MURPHY
OF NORTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mr. MURPHY of North Carolina. Madam Speaker, I rise today to honor Major General Hugh Robert Overholt of the United States Army (Retired) for his lifelong service to our country’s military, Eastern North Carolina, and our great Nation. Born in the town of Beebe, Arkansas in 1933, General Overholt attended the University of Arkansas where he earned both a bachelor’s degree and a law degree. While attending law school, he served as the Comments Editor for the University of Arkansas Law Review.

Following his graduation in 1957, General Overholt entered the Army’s Judge Advocate General’s Corps and was commissioned as a First Lieutenant in the U.S. Army. After his graduation from the Army’s Judge Advocate General’s school, General Overholt would go on to serve in various leadership roles within the United States Army including Assistant Judge Advocate General of the U.S. Army Traffic & Transportation Command and Judge Advocate General of the U.S. Army from 1985 to 1989. General Overholt served a remarkable ten years as a General Officer, which included eight as a Major General. General Overholt used these years to increase the professionalism and the role of the Judge Advocate General’s Corps through critical policies and reforms.

One of the finest accomplishments in General Overholt’s career was the establishment of the Masters in Military Law (LL.M.) program at the Army’s Judge Advocate General’s Legal Center and School located at the University of Virginia. General Overholt also greatly expanded the schools’ facilities, automatized the delivery of Army legal services, and published a revolutionary code of professional responsibility for members of the Army’s Judge Advocate Corps. General Overholt’s changes modernized the Army’s legal services and exemplified his ability as an outstanding leader.

General Overholt has received numerous awards in recognition of his life of service. These include the Distinguished Service Medal (Oak Leaf Cluster), Legion of Merit, the Department of Defense Meritorious Service Medal, the Meritorious Service Medal (Oak Leaf Cluster), and the Army Commendation Medal (Two Oak Leaf Clusters). Along with attending the Army’s Judge Advocate General’s Corps Basic and Advanced Courses, General Overholt also attended Airborne School, Command and General Staff College and the National Defense University.

General Overholt has served on the North Carolina Board of Transportation (BOT) since 1995 and was instrumental in delivering over $800 million in new road projects to Carteret, Craven, Craven, Lenoir, and Pitt Counties. Of particular importance has been his support for military related transportation projects. One of the most vital military projects was the new Marine Corps Air Station (MCAS) Cherry Point Sloucin overpass ramp. General Overholt secured over $30 million in special funding for the project as part of the North Carolina Department of Transportation’s (NCDOT) efforts to support the military and reduce traffic accidents and congestion in Havelock. He also advocated for the Highway 17 Bypass through Jones County that finally connected Camp Lejeune and MCAS Cherry Point with a four-lane highway. This was decades in the making and without General Overholt’s leadership, it would not have become a reality.

Two other major projects General Overholt helped shepherd through to construction are the Havelock Highway 70 Bypass and the James City-New Bern Highway 70 reconstruction. Today, this highway as an at-large BOT member continues to support Craven and Carteret Counties, the State Ports, aviation, rail, and the Global TransPark as well as all transportation-related economic development.

Prior to his appointment to the BOT, General Overholt was a Governor’s appointee to the North Carolina Military Affairs Advisory Commission. He also helped lead the State’s 2004 Base Realignment and Closure (BRAC) response team where he focused on advocating for MCAS Cherry Point. General Overholt was again successful in preventing the closure of this vital base. General Overholt also serves as Chairman of the North Carolina’s 3rd Congressional District Service Academy Nomination Board, where he assists in nominating high school students to attend our esteemed service academies. He continues to be a servant to the people and the impact he has made on the citizens of this great nation is truly remarkable.

General Overholt and his wife, Ann, have two children, Scott and Sharon, two grandchildren, Grayson Overholt and Ashton Overholt Baker, and two great-grandchildren, Sebastian and Sawyer Baker.

Madam Speaker, please join me in honoring the service of this great patriot and all he has done and continues to do for our great state and Nation.

HON. SCOTT PERRY
OF PENNSYLVANIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mr. PERRY. Madam Speaker, I am honored to recognize Ms. Janine Guido for her tireless, selfless, and relentless commitment to the protection and rescue of animals in and outside of our community.

Janine grew up around avid horse-riders—where her affection and love for animals and all wildlife began. When her family built their 18-acre horse farm in Mechanicsburg, Pennsylvania, she and her sister not only trained the horses, but also gave lessons/taught other children the joys and value of horses. Though horses were her main focus, her heart also led her to rescue myriad stray, injured, and unwanted animals in her free time.

In 2011, after several knee injuries that made it impossible to train/ride horses anymore, Janine turned her focus fulltime to rescuing animals. Using the family’s farm as her home base, Janine went on to save numerous...
creatures—dogs, horses, goats, and cows, for starters. In the Spring of 2012, she began the process of establishing an official, non-profit Animal Rescue organization named “Speranza”—the Italian word for “hope”—which is now known around the world.

Janine is passionate about rescuing and rehabilitating animals—particularly those deemed “lost causes.” She ensures that not only do these special creatures get a second chance at life, but that they truly learn the meaning of friendship, acceptance, trust, and love. Any animal that is, has been, or will be in Janine’s care—which in some cases even means at the tragic moment of their last breaths in her arms—will know how much they’re loved, cared for, and how much their lives mattered.

Janine’s tireless support by her loving family and longtime boyfriend continue to allow her not only to realize her life’s work, but to give 100 percent of her time, heart, and soul to this critical mission. She has set the standard not only for the numerous volunteers and good Samaritans who selflessly give of their time and/or treasure to share in this calling, but for all of us to follow.

I am humbled and honored to recognize and commend Ms. Janine Guido and Speranza Animal Rescue of Mechanicsburg, Pennsylvania, on the auspicious occasion of their 10th Anniversary, and dedication to, support, and protection of our creatures great and small. I wish her Godspeed as she continues these spectacular and meaningful adventures.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate of February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place and purpose of the meetings, when scheduled and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, July 21, 2022 may be found in the Daily Digest of today’s RECORD.

MEETINGS SCHEDULED

Daily Digest

Senate

Chamber Action

Routine Proceedings, pages S3503–S3579

Measures Introduced: Seventeen bills and two resolutions were introduced, as follows: S. 4560–4576, and S. Res. 713–714.

Measures Reported:

Report to accompany S. 4503, to authorize appropriations for fiscal year 2023 for intelligence and intelligence-related activities of the United States Government, the Intelligence Community Management Account, and the Central Intelligence Agency Retirement and Disability System. (S. Rept. No. 117–132)

Measures Passed:

Global food security and famine: Senate agreed to S. Res. 669, condemning the use of hunger as a weapon of war and recognizing the effect of conflict on global food security and famine, after agreeing to the committee amendment in the nature of a substitute.

National Day of the American Cowboy: Committee on the Judiciary was discharged from further consideration of S. Res. 686, designating July 23, 2022, as “National Day of the American Cowboy”, and the resolution was then agreed to.

National Sarcoma Awareness Month: Committee on Health, Education, Labor, and Pensions was discharged from further consideration of S. Res. 694, expressing support for the designation of July 2022 as “National Sarcoma Awareness Month”, and the resolution was then agreed to, after agreeing to the following amendment proposed thereto:

Schumer (for Johnson) Amendment No. 5143, to amend the preamble.

Remembering former Prime Minister of Japan Shinzo Abe: Committee on Foreign Relations was discharged from further consideration of S. Res. 706, remembering former Prime Minister of Japan Shinzo Abe, and the resolution was then agreed to.

United States Commission on International Religious Freedom Appropriations: Senate passed S. 3895, to extend and authorize annual appropriations for the United States Commission on International Religious Freedom through fiscal year 2024, after agreeing to the committee amendment in the nature of a substitute.

Measures Considered:

Concurrent Resolution on the Budget: By 34 yeas to 63 nays (Vote No. 265), Senate failed to agree to the motion to proceed to consideration of S. Con. Res. 43, setting forth the congressional budget for the United States Government for fiscal year 2023 and setting forth the appropriate budgetary levels for fiscal years 2024 through 2032.

House Messages:

Legislative Branch Appropriations Act—Cloture: Senate continued consideration of the amendment of the House of Representatives to the amendment of the Senate to H.R. 4346, making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, taking action on the following amendments and motions proposed thereto:

Pending:

Schumer motion to concur in the amendment of the House to the amendment of the Senate to the bill, with Schumer Amendment No. 5135 (to the House amendment to the Senate amendment), relating to the CHIPS Act of 2022.

Schumer Amendment No. 5136 (to Amendment No. 5135), to add an effective date.

Schumer motion to refer the bill to the Committee on Commerce, Science, and Transportation, with instructions, Schumer Amendment No. 5137, to add an effective date.

Schumer Amendment No. 5138 (to (the instructions) Amendment No. 5137), to modify the effective date.

During consideration of this measure today, Senate also took the following action:

A motion was entered to close further debate on the Schumer motion to concur in the amendment of the House to the amendment of the Senate to the bill, with Schumer Amendment No. 5135 (to the House amendment to the Senate amendment) (listed
Nominations Confirmed: Senate confirmed the following nominations:

By 52 yeas to 43 nays (Vote No. EX. 263), Gregory Brian Williams, of Delaware, to be United States District Judge for the District of Delaware.

During consideration of this nomination today, Senate also took the following action:

By 51 yeas to 44 nays (Vote No. EX. 264), Bernadette M. Meehan, of New York, to be Ambassador to the Republic of Chile.

Carmen G. Cantor, of Puerto Rico, to be an Assistant Secretary of the Interior.

Committee Meetings

(Committees not listed did not meet)

FDA AND FOOD SAFETY

Committee on Appropriations: Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies concluded a hearing to examine food safety and the Food and Drug Administration, after receiving testimony from Robert Califf, Commissioner, Frank Yiannas, Deputy Commissioner, Food Policy and Response, Susan T. Mayne, Director, Center for Food Safety and Applied Nutrition, and Michael C. Rogers, Assistant Commissioner for Human and Animal Food Operations, Office of Regulatory Affairs, all of the Food and Drug Administration, Department of Health and

above), and, in accordance with the provisions of Rule XXII of the Standing Rules of the Senate, a vote on cloture will occur on Friday, July 22, 2022.

A unanimous-consent agreement was reached providing for further consideration of the House message to accompany the bill at approximately 10 a.m., on Thursday, July 21, 2022; and that at 11:30 a.m., Senate execute the previous order of Tuesday, July 19, 2022, with respect to the nomination of Reuben E. Brigety II, of Florida, to be Ambassador to the Republic of South Africa, and Senate vote on confirmation of the nomination.

Water Resources Development Act—Agreement: a unanimous-consent-time agreement was reached providing that at a time to be determined by the Majority Leader, following consultation with the Republican Leader, Senate begin consideration of H.R. 7776, to provide for improvements to the rivers and harbors of the United States, to provide for the conservation and development of water and related resources; that the Carper/Capito/Cardin/Cramer substitute Amendment No. 5140 be considered and agreed to; that there be up to 1 hour for debate, equally divided in the usual form; that upon the use or yielding back of time, if a budget point of order is made and a motion to waive made, Senate vote on the motion to waive; and if the point of order is waived, Senate vote on passage of the bill, as amended, with 60-affirmative votes required for passage.

Executive Reports of Committees: Senate received the following executive report of a committee:

Merle Nomination—Agreement: A unanimous-consent agreement was reached providing that the motion to invoke cloture on the nomination of Natasha C. Merle, of New York, to be United States District Judge for the Eastern District of New York, be withdrawn.

Elnahal Nomination—Agreement: A unanimous-consent-time agreement was reached providing that at a time to be determined by the Majority Leader, in consultation with the Republican Leader, Senate begin consideration of the nomination of Shereef M. Elnahal, of New Jersey, to be Under Secretary for Health of the Department of Veterans Affairs; that there be 10 minutes for debate equally divided in the usual form; that upon the use or yielding back of time, Senate vote, without intervening action of debate, on confirmation of the nomination; and that no further motions be in order.
Human Services; Brian Ronholm, Consumer Reports, Washington, D.C.; and Sarah Gallo, Consumer Brands Association, Arlington, Virginia.

**NOMINATION**

**Committee on Commerce, Science, and Transportation:** Committee concluded a hearing to examine the nomination of Arati Prabhakar, of California, to be Director of the Office of Science and Technology Policy, after the nominee, who was introduced by Senator Warren, testified and answered questions in their own behalf.

**AFFORDABLE HOUSING**

**Committee on Finance:** Committee concluded a hearing to examine the role of tax incentives in affordable housing, after receiving testimony from Andrea Bell, Oregon Housing and Community Services, Salem; Jerry Konter, National Association of Home Builders, and Benson Roberts, National Association of Affordable Housing Lenders, both of Washington, D.C.; Lee E. Ohanian, Stanford University Hoover Institution, Los Angeles, California; and Dana T. Wade, Walker and Dunlop, Bethesda, Maryland.

**GLOBAL FOOD SECURITY CRISIS**

**Committee on Foreign Relations:** Committee concluded a hearing to examine the global food security crisis and the U.S. response, after receiving testimony from Samantha Power, Administrator, United States Agency for International Development; Linda Thomas-Greenfield, United States Ambassador to the United Nations; and David Beasley, UN World Food Programme, Rome, Italy.

**LEGISLATION**

**Committee on Indian Affairs:** Committee concluded a hearing to examine S. 4104, to approve the settlement of water rights claims of the Hualapai Tribe and certain allottees in the State of Arizona, to authorize construction of a water project relating to those water rights claims, S. 4459, to take certain Federal land located in Siskiyou County, California, and Humboldt County, California, into trust for the benefit of the Karuk Tribe, and H.R. 5221, to amend the Indian Health Care Improvement Act to establish an urban Indian organization confer policy for the Department of Health and Human Services, after receiving testimony from Senators Sinema and Padilla; Jason Freihage, Deputy Assistant Secretary of the Interior for Management for Indian Affairs; P. Benjamin Smith, Deputy Director, Indian Health Service, Department of Health and Human Services; Damon Clarke, Hualapai Tribe, Peach Springs, Arizona; Russell A. Attebery, Karuk Tribe, Happy Camp, California; and Patrick Rock, Indian Health Board of Minneapolis, Minneapolis, Minnesota.

**MASS SHOOTINGS**

**Committee on the Judiciary:** Committee concluded a hearing to examine the Highland Park attack, focusing on protecting our communities from mass shootings, after receiving testimony from Senator Duckworth; Nancy R. Rotering, Mayor, Highland Park, Illinois; Kyleanne Hunter, RAND Corporation, Colorado Springs, Colorado; Joseph Blocher, Duke University School of Law, Durham, North Carolina; Philip T. Smith, National African American Gun Association, Atlanta, Georgia; and Russell Bentley, Safe Havens International, Macon, Georgia.

**ELECTRONIC HEALTH RECORD MODERNIZATION**

**Committee on Veterans’ Affairs:** Committee concluded a hearing to examine the status of VA’s electronic health record modernization program, after receiving testimony from Terry Adirim, Program Executive Director, Electronic Health Record Modernization Integration Office, Kurt DelBene, Assistant Secretary for Information and Technology and Chief Information Officer, Michael D. Parrish, Principal Executive Director for the Office of Acquisition, Logistics, and Construction, Gerard R. Cox, Assistant Under Secretary for Health for Quality and Patient Safety, Veterans Health Administration, and David Case, Deputy Inspector General, Office of Inspector General, all of the Department of Veterans Affairs; and Mike Sicilia, Oracle Corporation, Austin, Texas.

**BUSINESS MEETING**

**Select Committee on Intelligence:** Committee met in closed session to consider pending intelligence matters.

**INTELLIGENCE**

**Select Committee on Intelligence:** Committee met in closed session to receive a briefing on certain intelligence matters from officials of the intelligence community.
House of Representatives

Public Bills and Resolutions Introduced: 22 public bills, H.R. 8432–8453; and 8 resolutions, H. Res. 1235–1242, were introduced. Pages H6921–22

Additional Cosponsors: Page H6923

Reports Filed: Reports were filed today as follows:

H.R. 4586, to amend the Securities Exchange Act of 1934 with respect to risk-based examinations of Nationally Recognized Statistical Rating Organizations, with an amendment (H. Rept. 117–421);

H.R. 6528, to require owners of covered federally assisted rental dwelling units to install temperature sensors in such units, and for other purposes, with an amendment (H. Rept. 117–422);

H.R. 7195, to provide for certain whistleblower incentives and protections, with amendments (H. Rept. 117–423);

H.R. 7196, to amend the McKinney-Vento Homeless Assistance Act to expand the authorized activities under the Continuum of Care program to include activities that address barriers to transitioning families in rural areas to permanent housing, and for other purposes, with an amendment (H. Rept. 117–424);

H.R. 7734, to amend title 31, United States Code, to require the timely production of reports to Congress under the Bank Secrecy Act, and for other purposes, with an amendment (H. Rept. 117–425); and

H.R. 7981, to require qualifying smoke alarms in certain federally assisted housing, and for other purposes, with an amendment (H. Rept. 117–426).

Recess: The House recessed at 10:48 a.m. and reconvened at 12 noon.

Pages H6891–H6901

Rejected the Valadao motion to recommit the bill to the Committee on Appropriations, by a yea-and-nay vote of 206 yeas to 219 nays, Roll No. 382.

Agreed to:

DeLauro amendment en bloc No. 7 consisting of the following amendments printed in part A of H. Rept. 117–420: Crow (No. 104) that increases SBA Entrepreneurial Development Programs funding (specifically for SCORE) by $6.7 million; decreases GSA rental of space by the same amount; Deutch (No. 106) that increases funding for the Truman Foundation grants by $500,000 to maintain the successful operation of the Truman Foundation and enable this small independent Federal agency to continue encouraging exceptional young people to pursue careers in public service; reduces the Department of Treasure, Salaries and Expenses account by the same amount; Escobar (No. 107) that increases the Entrepreneurial Development Programs account by $2 million to be allocated to the Veterans Business Outreach Center program for further expansion into communities where there is not yet a center; decreases SBA Salaries and Expenses by $2 million; Gottheimer (No. 113) that increases funding by $1 million for the Small Business Administration Office of the Inspector General with the intent of holding Economic Injury Disaster Loan and Paycheck Protection Program fraudsters accountable, offset by a decrease to the Federal Buildings Fund; Gottheimer (No. 115) that increases funding by $3 million for the Treasury’s Office of Terrorism and Financial Intelligence to support efforts to counter criminal and terrorist groups through the acquisition of improved blockchain analysis tools, training on cryptocurrency and cryptocurrency-related investigations, and investigative support to reduce crimes involving ransomware attacks or exploiting the use of cryptocurrency; the offset of $3 million is from the GSA Real Property Activities Federal Buildings Funds; Graves (LA) (No. 116) that increases and decreases the Small Business Administration’s account by the same amount; decreases the Department of Treasure, Salaries and Expenses account by the same amount; decreases the Department of Veterans Affairs, Medical Care account by $3 million; increases GSA Rental of Space account by the same amount; and decreases the Department of Labor, Management and Administration’s account by $3 million.

Additional Cosponsors: Page H6923
funding for Operations Support by the same amount; Buchanan (No. 141) that transfers $1,000,000 to the US Fish and Wildlife Service state and tribal grants to support an updated manatee population survey and to support other high priority needs of the Fish and Wildlife Service and its partners to rehabilitate rescued manatees; decreases funds for Secretary of the Interior—Departmental Operations by the same amount; Buchanan (No. 142) that increases and decreases the Bureau of Ocean Energy Management by $2,000,000 to support a study about the causes, treatment and prevention recommendations related to harmful algal blooms; Hudson (No. 152) that increases and decreases USFS Capital Improvement and Maintenance funding by $5,000,000 to highlight public safety concerns of roads within the Uwharrie National Forest and the need to pave the roads; Jackson Lee (No. 153) that increases and decreases funds for the Historic Preservation Fund by $3,000,000 with the intent of enhancing activities for the preservation, restoration, and maintenance of nationally significant sites, artifacts, and structures through competitive grants at the local, state, and federal levels focusing on projects involving HBCUs, sites and stories linked to the Civil Rights movement, landmarks associated with communities that are historically underrepresented, and sites related to the histories of Indigenous peoples; Lofgren (No. 155) that increases funding for Wildland Fire Management by $1,000,000 with the intent of supporting the Joint Fire Science Program and decreases funds for the Secretary of Interior—Departmental Operations by the same amount; McCarthy (No. 156) that increases and decreases funding by $5 million in both the Operation of the National Park System account and the National Forest System account to support work to reduce the risk of catastrophic fires killing giant sequoias; Moore (UT) (No. 158) that increases and decreases funding by $8 million for the DOI Secretary’s Office and by $8 million for the National Forest System to support calling up funding for implementation of the MAPLand Act as enacted on April 29, 2022; Nadler (No. 159) that increases and decreases funding from the Office of the DOI Secretary by $4,000,000 to emphasize the importance of the 9/11 Memorial Act Program; O’Halleran (No. 161) that increases and decreases the U.S. Forest Service’s Operations account by $1 million to highlight the importance of a study on the direct and indirect costs that wildfires have on federal, state, and local governmental entities, as well as agricultural producers, property owners, evacuation centers, and more; Raskin (No. 164) that increases funding for the United States Holocaust Memorial Museum by $2,000,000 and decreases the Working Capital Fund by the same amount; Arrington (No. 172) that transfers $1 million from Information Technology Systems to Grants to assist States and Tribal Organizations in establishing, expanding, or improving veterans’ cemeteries; Barr (No. 174) that transfers $5 million from the VHA’s Medical Community of Care Account to the VHA’s Medical Services account for the explicit use of equine assisted therapy within the VA’s Adaptive Sports Grant (ASG) Program; Gottheimer (No. 180) that increases funding by $1 million for the VA Transition Assistance Program to provide information, resources, and tools to service members and their families to help prepare for the move from military to civilian life; Larsen (WA) (No. 181) that increases and decreases General Administration funds by $10,000,000 with the intent of supporting the development of a new Veteran Health Administration interactive voice response telephone system that include an automatic callback feature; Manning (No. 182) that increases funding for Veterans Health Medical Services by $1,000,000 and reduces Department General Administration by the same amount; Scott (GA) (No. 186) that increases and decreases funding for the Veterans Health Administration Medical Services account by $1,000,000 to highlight the importance of providing the best possible anesthesia care for America’s Veterans; Sherrill (No. 187) that increases and decreases funding for VA Medical Services by $10 million to highlight the need to construct additional readjustment counseling centers (Vet Centers), which provide critical mental health services for veterans; Sherrill (No. 188) that increases and decreases funding for VA Medical Services by $10 million to highlight the need to increase staffing levels at readjustment counseling centers (Vet Centers), an urgent requirement for veterans’ mental health; Sherrill (No. 189) that increases and decreases funding for Veterans Health Administration Medical Services by $3 million to support increased access to medical care for Veterans in higher priority groups; and Spanberger (No. 190) that transfers $1 million to VA Medical Services from Information Technology Systems account to support VA Suicide Prevention Coordinators (by a yea-and-nay vote of 355 yeas to 56 nays, Roll No. 379); and

DeLauro amendment en bloc No. 8 consisting of the following amendments printed in part A of H. Rept. 117-420: McGovern (No. 183) that transfers $5 million in funds to the Healthcare for Homeless Veterans Program from funds for the Asset and Infrastructure Review Commission; and McGovern (No. 184) that prevents VA from transferring funds from the Medical Facilities and General Administration accounts to the Asset and Infrastructure Review
Commission (by a yea-and-nay vote of 238 yeas to 191 nays, Roll No. 381). Pages H6895–97, H6899–H6900

Rejected:
Tlaib amendment (No. 137 printed in part A of H. Rept. 117–420) that sought to prevent the funds made available by this act from being made available to implement, administer or enforce section 908(b) of the Trade Sanctions Reform and Export Enhancement Act of 2000, prohibition on financing of agricultural sales to Cuba (by a yea-and-nay vote of 163 yeas to 260 nays, Roll No. 380). Pages H6893–95, H6898–99

Agreed by unanimous consent that the Clerk be authorized to correct section numbers, punctuation, spelling, and cross-references, and to make such other technical and conforming changes as may be necessary to reflect the actions of the House. Page H6901

H. Res. 1232, the rule providing for consideration of the bills (H.R. 8294), (H.R. 8373), and (H.R. 8404) was agreed to yesterday, July 19th.

Adjournment: The House met at 10 a.m. and adjourned at 5:14 p.m.

The Congressional Record (USPS 087–390). The Periodicals postage is paid at Washington, D.C. The public proceedings of each House of Congress, as reported by the Official Reporters thereof, are printed pursuant to directions of the Joint Committee on Printing as authorized by appropriate provisions of Title 44, United States Code, and published for each day that one or both Houses are in session, excepting very infrequent instances when two or more unusually small consecutive issues are printed one time. Public access to the Congressional Record is available online through the U.S. Government Publishing Office, at www.govinfo.gov, free of charge to the user. The information is updated online each day the Congressional Record is published. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office. Phone 202–512–1800, or 866–512–1800 (toll-free). E-Mail, contactcenter@gpo.gov. To place an order for any of these products, visit the U.S. Government Online Bookstore at: bookstore.gpo.gov. Mail orders to: Superintendent of Documents, P.O. Box 979050, St. Louis, MO 63197–9000, or phone orders to 866–512–1800 (toll-free), 202–512–1800 (D.C. area), or fax to 202–512–2104. Remit check or money order, made payable to the Superintendent of Documents, or use VISA, MasterCard, Discover, American Express, or GPO Deposit Account. Following each session of Congress, the daily Congressional Record is revised, printed, permanently bound and sold by the Superintendent of Documents in individual parts or by sets. With the exception of copyrighted articles, there are no restrictions on the republication of material from the Congressional Record.

POSTMASTER: Send address changes to the Superintendent of Documents, Congressional Record, U.S. Government Publishing Office, Washington, D.C. 20402, along with the entire mailing label from the last issue received.
