SEC. 01. SHORT TITLE.

This title may be cited as the “Daniel Anderl Judicial Security and Privacy Act of 2021”.

SEC. 02. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds the following:

(1) Members of the Federal judiciary perform the important function of interpreting the Constitution of the United States and administering justice in a fair and impartial manner.

(2) In recent years, partially as a result of the rise in the use of social media and online access to information, members of the Federal judiciary have been exposed to an increased number of personal threats in connection to their role. The ease of access to free or inexpensive sources of covered information has considerably lowered the effort required for malicious actors to discover where individuals live and where they spend leisure hours and to find information about their family members. Such threats have included calling a judge a traitor with references to mass shootings and serial killings, a murder attempt on a justice of the Supreme Court of the United States, calling for an “angry mob” to gather outside a home of a judge and, in reference to a judge on the court of appeals of the United States, stating how easy it would be to “get them”.

(3) Between 2015 and 2019, threats and other inappropriate communications against Federal judges and other judiciary personnel increased from 926 in 2015 to approximately 4,449 in 2019.

(4) Over the past decade, several members of the Federal judiciary have experienced acts of violence against themselves or a family member in connection to their Federal judiciary role, including the murder in 2005 of the family of Joan Lefkow, a judge for the United States District Court for the Northern District of Illinois.

(5) On Sunday July 19, 2020, an assailant went to the home of Esther Salas, a judge for the United States District Court for the District of New Jersey, impersonating a package delivery driver, opening fire upon arrival, and killing Daniel Anderl, the 20-year-old only son of Judge Salas, and seriously wounding Mark Anderl, her husband.

(6) In the aftermath of the recent tragedy that occurred to Judge Salas and in response to the continuous rise of threats against members of the Federal judiciary, there is an immediate need for enhanced security procedures and increased availability of tools to protect Federal judges and their families.

(b) PURPOSE.—The purpose of this title is to improve the safety and security of Federal judges, including senior, recalled, or retired Federal judges, and their immediate family members to ensure Federal judges are able to administer justice fairly without fear of personal reprisal from individuals affected by the decisions they make in the course of carrying out their public duties.

SEC. 1214. SUSPENSION OF UNITED STATES' CONTRIBUTIONS TO THE WORLD HEALTH ORGANIZATION UNTIL TAIWAN IS GRANTED OBSERVER STATUS AT THE WORLD HEALTH ASSEMBLY.

(a) **FINDINGS.**—Congress makes the following findings:

(1) Congress has repeatedly supported Taiwan's participation in the World Health Assembly, as evidenced by Public Law 106-137, Public Law 107-10, Public Law 108-235, and the recent enactment of Public Law 117-124.

(2) In advance of the 75th World Health Assembly, Secretary of State Antony J. Blinken stated: “Taiwan and its distinct capabilities and approaches—including its significant public health expertise, democratic governance, resilience to COVID-19, and robust economy—offer considerable value to inform the [World Health Assembly’s] deliberations. There is no reasonable justification to exclude its participation, which will benefit the world. As we continue to fight COVID-19 and other emerging health threats, Taiwan’s isolation from the preeminent global health forum is unwarranted and undermines inclusive global public health cooperation.”

(3) The People’s Republic of China continues to use its voice, vote, and influence to resist Taiwan’s participation in the World Health Assembly.

(b) **PURPOSE.**—The purpose of this section is to address United States’ contributions to the World Health Organization so that if Taiwan continues to be excluded from the World Health Organization—

(1) no Federal funds may be used to pay dues to the World Health Organization; and

(2) Federal funds that would otherwise be expended on such dues may be used to support alternate global health organizations.

(c) **PROHIBITION.**—Notwithstanding any other provision of law, no funds appropriated or otherwise made available to any Federal agency may be obligated or expended to provide assessed or voluntary contributions to the World Health Organization until the President certifies to Congress that Taiwan has been granted observer status at the World Health Assembly.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the President \$600,000,000 for each of the fiscal years 2023 and 2024, which may be used to establish or otherwise participate in a global health organization that—

(1) is not associated with the United Nations or the World Health Assembly;

(2) serves a similar function as the World Health Assembly by coordinating global health efforts; and

(3) includes Taiwan as a fully participating member.

TITLE LIII—REGIONAL OCEAN PARTNERSHIPS

SEC. 5301. SHORT TITLE.

This title may be cited as the “Regional Ocean Partnership Act”.

SEC. 5302. FINDINGS; SENSE OF CONGRESS; PURPOSES.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The ocean and coastal waters and the Great Lakes of the United States are foundational to the economy, security, global competitiveness, and well-being of the United States and continuously serve the people of the United States and other countries as an important source of food, energy, economic productivity, recreation, beauty, and enjoyment.

(2) Over many years, the resource productivity and water quality of the ocean, coastal, and Great Lakes areas of the United States have been diminished by pollution, increasing population demands, economic development, and natural and man-made hazard events, both acute and chronic.

(3) The ocean, coastal, and Great Lakes areas of the United States are managed by State and Federal resource agencies and Indian Tribes and regulated on an interstate and regional scale by various overlapping Federal authorities, thereby creating a significant need for interstate coordination to enhance regional priorities, including the ecological and economic health of those areas.

(4) Indian Tribes have unique expertise and knowledge important for the stewardship of the ocean and coastal waters and the Great Lakes of the United States.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the United States should seek to support interstate coordination of shared regional priorities relating to the management, conservation, resilience, and restoration of ocean, coastal, and Great Lakes areas to maximize efficiencies through collaborative regional efforts by Regional Ocean Partnerships, in coordination with Federal

and State agencies, Indian Tribes, and local authorities;

(2) such efforts would enhance existing and effective ocean, coastal, and Great Lakes management efforts of States and Indian Tribes based on shared regional priorities; and

(3) Regional Ocean Partnerships should coordinate with Indian Tribes.

(c) **PURPOSES.**—The purposes of this title are as follows:

(1) To complement and expand cooperative voluntary efforts intended to manage, conserve, and restore ocean, coastal, and Great Lakes areas spanning across multiple State and Indian Tribe jurisdictions.

(2) To expand Federal support for monitoring, data management, restoration, research, and conservation activities in ocean, coastal, and Great Lakes areas.

(3) To commit the United States to a comprehensive cooperative program to achieve improved water quality in, and improvements in the productivity of living resources of, oceans, coastal, and Great Lakes ecosystems.

(4) To authorize Regional Ocean Partnerships as intergovernmental coordinators for shared regional priorities among States and Indian Tribes relating to the collaborative management of the large marine ecosystems, thereby reducing duplication of efforts and maximizing opportunities to leverage support in the ocean and coastal regions.

(5) To empower States to take a lead role in managing oceans, coastal, and Great Lakes areas.

(6) To incorporate rights of Indian Tribes in the management of oceans, coasts, and Great Lakes resources and provide resources to support Indian Tribe participation in and engagement with Regional Ocean Partnerships.

(7) To enable Regional Ocean Partnerships, or designated fiscal management entities of such partnerships, to receive Federal funding to conduct the scientific research, conservation and restoration activities, and priority coordination on shared regional priorities necessary to achieve the purposes described in paragraphs (1) through (6).

(1) **IN GENERAL.**—Except as provided in subsection (f)(1), not later than 1 year after the date of the enactment of this Act, the Consumer Product Safety Commission shall—

(A) in consultation with representatives of consumer groups, clothing storage unit manufacturers, craft or handmade furniture manufacturers, and independent child product engineers and experts, examine and assess the effectiveness of any voluntary consumer product safety standards for clothing storage units; and

(B) in accordance with section 553 of title 5, United States Code, and paragraph (2), promulgate a final consumer product safety standard for clothing storage units to protect children from tip-over-related death or injury, that shall take effect 180 days after the date of promulgation or such a later date as the Commission determines appropriate.

(2) REQUIREMENTS.—The standard promulgated under paragraph (1) shall protect children from tip-over-related death or injury with—

(A) tests that simulate the weight of children up to 60 pounds;

(B) objective, repeatable, reproducible, and measurable tests or series of tests that simulate real-world use and account for impacts on clothing storage unit stability that may result from placement on carpeted surfaces, drawers with items in them, multiple open drawers, and dynamic force;

(C) testing of all clothing storage units, including those 27 inches and above in height; and

(D) warning requirements based on ASTM F2057–19, or its successor at the time of enactment, provided that the Consumer Product Safety Commission may strengthen the warning requirements of ASTM F2057–19, or its successor, if reasonably necessary to protect children from tip-over-related death or injury.

(3) TESTING CLARIFICATION.—Tests referred to in paragraph (2)(B) shall allow for the utilization of safety features (excluding tip restraints) to work as intended if the features cannot be overridden by consumers in normal use.

(4) TREATMENT OF STANDARD.—A consumer product safety standard promulgated under paragraph (1) shall be treated as a consumer product safety rule promulgated under section 9 of the Consumer Product Safety Act (15 U.S.C. 2058).

(d) ADOPTION OF VOLUNTARY STANDARD.—

(1) IN GENERAL.—If a voluntary standard exists that meets the requirements of paragraph (2), the Commission shall, not later than 180 days after the date on which such determination is made and in accordance with section 553 of title 5, United States Code, promulgate a final consumer product safety standard that adopts the applicable performance requirements of such voluntary standard related to protecting children from tip-over-related death or injury. A consumer product safety standard promulgated under this subsection shall be treated as a consumer product safety rule promulgated under section 9 of the Consumer Product Safety Act (15 U.S.C. 2058). Such standard shall take effect 180 days after the date of the promulgation of the rule, or such a later date as the Commission determines appropriate. Such standard will supersede any other existing consumer product safety standard for clothing storage units to protect children from tip-over-related death or injury.

(2) REQUIREMENTS.—The requirements of this paragraph with respect to a voluntary standard for clothing storage units are that such standard—

(A) includes performance requirements that meet the requirements described in subsection (c)(2);

(B) is, or will be, published not later than 120 days after the date of enactment of this Act; and

(C) is developed by ASTM International or such other standard development organization that the Commission determines is in compliance with the intent of this Act.

(3) NOTICE REQUIRED TO BE PUBLISHED IN THE FEDERAL REGISTER.—The Commission shall publish a notice in the Federal Register upon begin-

ning the promulgation of a rule under this subsection.

(e) REVISION OF VOLUNTARY STANDARD.—

(1) NOTICE TO COMMISSION.—If the performance requirements of a voluntary standard adopted under subsection (d) are subsequently revised, the organization that revised the performance requirements of such standard shall notify the Commission of such revision after final approval.

(2) TREATMENT OF REVISION.—Not later than 90 days after the date on which the Commission is notified of revised performance requirements of a voluntary standard described in paragraph (1) (or such later date as the Commission determines appropriate), the Commission shall determine whether the revised performance requirements meet the requirements of subsection (d)(2)(A), and if so, modify, in accordance with section 553 of title 5, United States Code, the standard promulgated under subsection (d) to include the revised performance requirements that the Commission determines meet such requirements. The modified standard shall take effect after 180 days or such later date as the Commission deems appropriate.

(f) SUBSEQUENT RULEMAKING.—

(1) IN GENERAL.—Beginning 5 years after the date of enactment of this Act, subsequent to the publication of a consumer product safety standard under this section, the Commission may, at any time, initiate rulemaking, in accordance with section 553 of title 5, United States Code, to modify the requirements of such standard or to include additional provisions if the Commission makes a determination that such modifications or additions are reasonably necessary to protect children from tip-over-related death or injury.

(2) PETITION FOR REVISION OF RULE.—

(A) IN GENERAL.—If the Commission receives a petition for a new or revised test that permits incorporated safety features (excluding tip restraints) to work as intended, if the features cannot be overridden by consumers in normal use and provide an equivalent or greater level of safety as the tests developed under subsection (c)(2) or the performance requirements described in subsection (d)(2)(A), as applicable, the Commission shall determine within 120 days—

(i) whether the petition meets the requirements for petitions set forth in section 1051.5 of title 16, Code of Federal Regulations, or any successor regulation implementing section 9(i) of the Consumer Product Safety Act (15 U.S.C. 2058(i)); and

(ii) whether the petition demonstrates that the test could reasonably meet the requirements of subsection (c)(2)(B), and if so, the Commission shall determine by recorded vote, within 60 days after the determination, whether to initiate rulemaking, in accordance with section 553 of title 5, United States Code, to revise a consumer product safety standard promulgated under this section to include the new or revised test.

(B) DEMONSTRATION OF COMPLIANCE.—Compliance with the testing requirements of a standard revised under paragraph (2)(A) may be demonstrated either through the performance of a new or revised test under paragraph (2)(A) or the performance of the tests otherwise required under a standard promulgated under this section.

(3) TREATMENT OF RULES.—Any rule promulgated under this subsection, including any modification or revision made under this subsection, shall be treated as a consumer product safety rule promulgated under section 9 of the Consumer Product Safety Act (15 U.S.C. 2058).
