PROCEEDINGS AND DEBATES OF THE 118th CONGRESS, SECOND SESSION

Vol. 170 WASHINGTON, TUESDAY, MARCH 5, 2024 *No. 39*

Senate

The Senate met at 3 p.m. and was called to order by the Honorable PETER WELCH, a Senator from the State of Vermont.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Most Holy and gracious God, who turns dark yesterdays into bright tomorrows, satisfy us with Your mercy, grace, and peace, that we may receive Your help for our time of need. Lift the light of Your countenance upon our lawmakers. Calm every troubled thought, and keep their feet on the path of peace. Lord, perfect Your strength in their weakness, and empower them to serve You in a way that honors Your Name. Guide their debates to expose truth, to produce creative compromise, and to bring solutions that will keep America strong. May they use their talents to renew peace in our Nation and world.

We pray in Your magnificent Name. Amen.

PLEDGE OF ALLEGIANCE

The Presiding Officer led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mrs. MURRAY).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, March 5, 2024.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable PETER WELCH, a Senator from the State of Vermont, to perform the duties of the Chair.

PATTY MURRAY,
President pro tempore.

Mr. WELCH thereupon assumed the Chair as Acting President pro tempore.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

MEASURE PLACED ON THE CALENDAR—S. 3853

Mr. SCHUMER. Mr. President, I understand there is a bill at the desk due for a second reading.

The ACTING PRESIDENT pro tempore. The clerk will read the bill by title for the second time.

The legislative clerk read as follows:

A bill (S. 3853) to extend the period for filing claims under the Radiation Exposure Compensation Act and to provide for compensation under such Act for claims relating to Manhattan Project waste, and to improve compensation for workers involved in uranium mining.

Mr. SCHUMER. In order to place the bill on the calendar under the provisions of rule XIV, I would object to further proceeding.

The ACTING PRESIDENT pro tempore. Objection having been heard, the bill will be placed on the Calendar.

CHANGE HEALTHCARE CYBER ATTACK

Mr. SCHUMER. Mr. President, today I come to the floor with good news. HHS and CMS has heeded my call from last Friday to provide hospitals and providers immediate relief in the aftermath of the devastating cyber attack asking for ransom. The announcement by CMS today will get cash flowing to providers while our healthcare system works to get fully back online after this attack.

It is an extremely encouraging first step, but the systems of many of the providers are complicated and they are varied, so I urge CMS to be persistent and patient as they work to get all the providers on board; and I will work with CMS to make sure that happens.

As you know, across New York and across America, tens of thousands of hospitals, pharmacies, doctors' offices, and other healthcare providers are still reeling from one of the worst cyber attacks ever launched on our healthcare system.

The February 21 attack against Change Healthcare, which is responsible for processing billions of insurance and payment claims annually for healthcare providers, has thrown providers, including hospitals and pharmacies, into a crisis. For nearly 2 weeks, they have been unable to submit medical claims; and many providers are facing imminent insolvency as cash reserves are drying up.

Yesterday, I was in Ithaca and met with Rome Health and Cayuga Health who told me they are losing hundreds of thousands of dollars every single day with stacks of claims nearly two feet high that they can't file.

Americans, meanwhile, are struggling to refill prescriptions, having their care delayed or denied and are unable to use patient assistance programs they need to stay healthy. Our hospitals, particularly our smaller ones without a cushion of cash reserve, could have ended up laying off people and not providing services had CMS not stepped up to the plate. I am so glad they did.

Probably even worse, our small pharmacies who have no financial cushion

Printed on recycled paper.

could have ended up shutting down and would have told millions of patients, millions of customers that they can't provide the medicines these customers need because they were not getting reimbursed.

This was a crisis, so last Friday, I called upon HHS and CMS to use their authority to accelerate payments to our hospitals and impacted providers. Hospitals and providers need help from the Federal Government so they can focus on their main mission as much as possible, which is providing care for their patients. I warned that the longer this crisis persists, the harder it will be for hospitals and other providers to stay open.

Today, I am pleased to see that HHS and CMS are heeding my call. This is a huge shot in the arm and will provide immediate relief to hospitals and providers, just like we saw during COVID. CMS had the ability to do this; and during COVID, when providers also were not being reimbursed, they filled the void. And I am glad they are doing it again.

What CMS has done is an encouraging first step, but the work cannot stop until every affected provider has the financial stability to weather this storm. We need CMS to cut through the redtape to make sure these advanced payments are done right. The systems of the different providers are varied. Some are very complicated. We need CMS to be both persistent and flexible.

And, of course, we have asked the FBI and other Justice Department Agencies to find out who these awful perpetrators of this ransomware were to put them out of business and see if they can seek punishment, depending on the country that these providers came from.

I thank the administration for its swift action, and I encourage it to do more. I will work daily with the administration and providers alike until the situation is resolved.

GOVERNMENT FUNDING

Mr. SCHUMER. Mr. President, now on government funding, well, it is the start of a busy and consequential week in Congress. Thursday evening, President Biden will deliver his annual State of the Union Address to the American people, where he will share the immense progress we have made as a country to bring down costs, strengthen our economy, and protect our country from threats around the world.

On Friday, Congress will face another funding deadline, whereupon the government will start shutting down unless both Chambers work quickly, decisively, and with bipartisan cooperation. On that front, we are, thankfully, off to a very, very good start. Sunday evening, negotiators reached a long-sought, bipartisan and bicameral funding deal on the first six appropriations bills. And we did it—we passed these bills—without devastating cuts or poison pill riders pushed by the MAGA right.

It has not been easy to complete the appropriations process in a divided government, but after a lot of persistence, we now have six bills that will preserve significant investments for American families, for moms and children, for America's clean energy, for America's veterans, and more.

It took a lot of work to make it happen. Appropriators worked through the entire weekend, so did my staff—so did I, in fact—and we have been working on this every day for months.

The important thing now is for both Chambers to move quickly. The House is set to take up these appropriations bills tomorrow, where, hopefully, they will pass. And as soon as the House sends the appropriations bills over to the Senate, I will put these bills on the floor so we can have them on President Biden's desk before Friday's deadline.

But the clock is ticking, and because of the State of the Union on Thursday, we need to cooperate to move extra fast to get these bills through. Between now and Friday, the watchwords for the Senate will be ''cooperation'' and ''speed.''

Now, let me take a moment to highlight some of the ways these appropriations bills will make a difference for the American people. This appropriations process—or this appropriations agreement—is a success in at least two ways: One, we protected almost all of the good investments for the American people and, two, we resisted practically all of the nasty riders from the MAGA right.

To moms and kids who rely on nutrition programs, you will be taken care of. Despite immense opposition from the other side, this agreement fully funds the WIC Program, meaning no mom or kid will be denied the nutrition assistance they qualify for. It is exceedingly good news that, in divided government, we were able to keep WIC whole, and I thank Senator MURRAY for her good, hard work on this issue, as well as Congress Member DELAURO.

Through this agreement, we will also protect funding to help Americans, especially rural Americans, to keep a roof over their head and afford the rent. We will increase funding for programs that support our veterans' health and wellbeing.

Child nutrition, including school lunch programs, school breakfast programs, and summer EBT programs remain fully funded. That means we will be able to provide nearly 5 billion school lunches and 2½ billion breakfasts to kids across America next year.

America's roads, bridges, and highways will get the funds they need for repairs and updates. We will be able to hire more air traffic controllers, food inspectors, and rail safety inspectors to keep Americans safe.

We will preserve pay raises for our Federal firefighters, and we will strengthen funding for cutting-edge scientific research.

I am also happy that we prevented the hard right from tainting these appropriations bills with devastating cuts and highly partisan policy riders.

Again, we fought hard to protect funding to build more affordable housing and provide nutrition assistance to low-income Americans, and we defeated the hard right's attempts to add even more restrictions to women's healthcare.

And even though the hard right tried repeatedly to undermine Democrats' clean energy agenda, we preserved practically all the progress we have made to fight climate change, while protecting critical jobs at the EPA.

So I am very glad and proud we have been able to reach such a strong agreement under divided government.

I thank Speaker JOHNSON, Leader JEFFRIES, Leader MCCONNELL, Appropriations Committee Chair PATTY MURRAY and Vice Chair SUSAN COLLINS, and all the staff who have dedicated so much work to get us to this point.

This agreement gives us much needed momentum to finish the next package of spending bills by the March 22 deadline. Once again, it will only be bipartisanship—only bipartisanship—that will get us across the finish line, as has proven in the past. We will keep working—keep working—until we finish the job.

REPRODUCTIVE RIGHTS

Mr. SCHUMER. Mr. President, now on over-the-counter birth control, as hard-right Republicans continue their all-out assault on reproductive rights, the American people just received some very big news: The first-ever over-the-counter birth control pill is headed to stores later this month.

The introduction of a safe, effective, over-the-counter birth control pill is a promising step toward improving access to contraception. The pill, Opill, will be available very soon at major stores and pharmacies and online, for anyone to buy without needing a prescription. It will be a new avenue for Americans to access reproductive care, so critical today as reproductive care comes under greater attack by the hard right.

Hard-right Republicans have shown they have no restraint when it comes to ripping away reproductive rights after the disastrous Dobbs decision. Whether it is pushing for a national abortion ban, as the hard right has been doing for decades; or blocking promotions of hundreds of military officers in protest of women in the military getting access to reproductive care, as one Republican Senator did repeatedly last year; or even threatening access to in vitro fertilization, as the Republican majority Alabama Supreme Court did, followed by Senate Republicans blocking legislation to protect IVF last week, Republicans have made it beyond clear they have not yielded one bit in their radical anti-women, anti-choice agenda.

That is why this historic announcement of an over-the-counter birth control pill is so important. It lands a blow against those who are trying so desperately to limit access to reproductive care.

Democrats, meanwhile, will continue fighting to make sure everyone who needs birth control can get it and to improve women's healthcare, women's access to healthcare, and the affordability of healthcare.

I yield the floor.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SCHUMER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

RECOGNITION OF THE MINORITY LEADER

The Republican leader is recognized.

GOVERNMENT FUNDING

Mr. MCCONNELL. Mr. President, last week, Congress avoided a harmful and unnecessary government shutdown, and, this week, we will take a major step forward on one of our most basic responsibilities of government.

Our colleagues, Senator COLLINS and Senator MURRAY, have been working hard on the fiscal year 2024 appropriations for the better part of a year. The Appropriations Committee advanced the bills we will consider this week back in June and July of last year, working in good faith through the regular order. And in all but one case, they received unanimous support.

This first tranche of annual appropriations accounts for a serious portion of our overall discretionary funding responsibilities, and thanks to Senator COLLINS' leadership, the bills the Appropriations Committee cleared last summer secured important Republican priorities up front.

By all reasonable measures, the conference with our House colleagues has made the legislation we will take up this week even stronger.

The Senate has an opportunity to strengthen protections for America's farmland by tightening oversight over foreign agricultural transactions and expand support for farmers, ranchers, and rural communities. We have a chance to strengthen protections for U.S. intellectual property and surge resources to State and local law enforcement agencies on the frontlines of the fight to curb violent crime and to bring the fentanyl crisis under control.

We can increase support for VA rural health and opioid treatment, protect the Second Amendment rights of America's veterans, and improve housing and facilities for Active-Duty servicemembers and their families, including thousands of Kentuckians stationed in harm's way.

We can fund urgent transportation and water infrastructure projects, support domestic enrichment of critical minerals, and invest in the long-term safety, security, and superiority of our nuclear arsenal.

We can do it all this week.

I am grateful to our colleagues on the Appropriations Committee for pushing sensible annual funding legislation one step closer to the President's desk, and I would certainly urge all of our colleagues to support it.

NOMINATION OF ADEEL ABDULLAH MANGI

Mr. President, on another matter, I have spoken repeatedly about President Biden's attempt to give life tenure on the Federal bench to an activist tied to an extremist group that unabashedly celebrates terrorism. I have already made absolutely clear that the Senate should not—should not—confirm the nomination of Adeel Mangi to the Third Circuit Court of Appeals.

But Mr. Mangi's alarming record doesn't stop at ties to terrorist sympathizers; it turns out he also has a history of support for anti-police activism. In fact, he serves on the advisory board of a group of apologists for convicted cop killers. The so-called Alliance of Families for Justice, AFJ, was founded in part by a woman who actually pled guilty to the murder of a police officer and whose name has graced a fellowship they fund. With Mr. Mangi on their advisory board, the AFJ celebrated her and other cop killers as—listen to this—''freedom fighters.'' Take, for example, the executive director of AFJ. She was counsel of record on a brief to spring from prison a notorious cop killer whom she later compared favorably to Che Guevara.

Honoring criminals and punishing law enforcement is the exact opposite of justice. One county police association in New York highlighted this irony by pointing out that ''Mr. Mangi's heroes executed our heroes who were protecting and serving the community.''

Naturally, law enforcement associations across the country share this concern. They are concerned that a nominee who would be responsible for interpreting and upholding our laws is willing to make common cause with an

organization that excuses the most heinous form of lawbreaking. Overwhelmingly, the thin blue line is worried that Mr. Mangi's inability to distinguish between criminals and heroes renders him incapable of administering justice.

As the National Association of Police Organizations put it, ''It is one thing to stand up for the rights of those shunned or mistreated by society. It is a far different thing to exalt unrepentant killers who were convicted following legal trials in courts of law. Mr. Mangi is smart enough to know the difference, and [he] has made his choice.''

The National Sheriffs' Association said that Mangi's connection with AFJ ''raises concerns about a potential bias against victims and law enforcement, which could impact his decision-making as a lifetime appointed judge.''

A State law enforcement group in New Jersey put it this way:

> We can respect a lawyer who represents criminal defendants to the best of their ability. But we can't respect, and can never support, a lawyer who so blatantly promotes the opinion that the police are criminals, and the cop-killers are the victims. He has disqualified himself as an impartial decider of facts where police are involved.

As far away as Arizona, the Phoenix Law Enforcement Association wrote:

> Mr. Mangi's conscious work with [the AFJ] shows an anti-victim and anti-police bias that would certainly cloud his decision making as a judge.

Now, it is worth noting here who is not involved. Even as law enforcement officers nationwide organize to sound the alarm, the country's largest police union has yet to weigh in. Each day, police work gets more dangerous thanks to the work of anti-cop activists like AFJ, but a member of their advisory board gets nominated to a Federal appeals court, and so far, it is silence—silence—from the Fraternal Order of Police.

Well, I hope that changes soon. The last thing our country needs right now is another Federal judge who thinks criminals are the real victims—especially ones with the blood of police on their hands.

American communities have been suffering for years under a coordinated leftwing campaign to coddle criminals and neuter our criminal justice system. District attorneys in deep-blue cities have put politics over prosecution and turned repeat violent offenders loose in their streets, and the Biden administration continues to encourage this sort of bad behavior.

It is time to acknowledge who are the criminals and who are the heroes, and it is certainly time to refuse a lifetime appointment to the judiciary to anyone who cannot tell the difference.

The ACTING PRESIDENT pro tempore. The majority whip.

Mr. DURBIN. Mr. President, I have a statement I am going to make on the Voting Rights Act, which I think is apropos as we are considering Super Tuesday and the millions of Americans who will participate. But first I would like to address the comments that were just made by the Republican Senate leader.

Mr. President, you are a member of the Senate Judiciary Committee, and you were there the day Adeel Mangi's nomination came before our committee. It is a unique nomination. It has never happened before—never in the history of the United States—because Mr. Mangi is a Muslim American, and he is being nominated to serve on the second highest court in the land.

When you read his biography—and I don't have it before me; I am going to come back when I do have all the information before me—you cannot help but believe that this is an extraordinary individual and an extraordinary lawyer who is seeking this spot.

The treatment he received in the Senate Judiciary Committee—you will remember it as well as I will—because he was a Muslim American was outrageous—outrageous. They believe that he must be a terrorist because he is Muslim, and it was suggested by a number of Senators questioning him that he has links with terrorism. In fact, one Republican Senator went so far as to ask him on the record: Do you celebrate 9/11 in your home? Do you celebrate 9/11 in your home?

He said: Of course not. It was a horrible thing. I condemn all forms of violence and terrorism, he said, and those people—many who died—were from the same community I was in in the States of New York and New Jersey.

Then there was a suggestion that because he was a Muslim American, he must be anti-Semitic. I can't tell you how many different times that was asked of him, and he condemned anti-Semitism on a wholesale basis, with no qualifications and no equivocation.

The questioning in that area was so outrageous against this individual, this Muslim American, so outrageous that the Anti-Defamation League, a national organization, highly respected, that stands up for Jewish Americans and their rights and speaks out without hesitation when people are being critical and prejudicial to Jewish Americans, sent us on the Senate Judiciary Committee—unsolicited—a response to the questioning he faced. I read it into the record at the committee meeting.

Mr. President, I want to tell you, politics is a beanbag, and I know that if you are seeking a lifetime appointment to the bench, you better be prepared to answer a lot of questions. Some of them will be fair, and some won't be fair, but be ready—it is going to happen. But what happened to Mr. Mangi in that committee was beyond anything acceptable by Senate standards, and it continues to this day.

To argue that he somehow is a cop killer—my God. What more are they going to throw at this man? I am going to come before the Senate on another day—maybe even tomorrow, if I can do it—and tell the whole story about his nomination, but to listen to what was just said about this man is breathtaking.

He is an extraordinary individual. He is overqualified for the job, if there is such a thing. He has certainly served his country and wants to do more. The fact that he is a Muslim American should not subject him to this type of a beating in the committee or on the floor of the Senate, and I will return to address that issue specifically at a later date.

VOTING RIGHTS ACT

Mr. President, it is Super Tuesday. Millions of Americans will vote in primaries in 16 different States. It is a day for Americans from all walks of life to express their political opinion and vote for the candidate they deem best suited for the highest office in the land.

As Americans, our most fundamental right is the right to vote. My dear friend and colleague, the late Congressman John Lewis, called voting ''the most powerful nonviolent tool we have to create a more perfect union.''

At our last Presidential election, more than 158 million Americans cast a ballot—the largest voter turnout in the history of the United States. But that record doesn't tell the whole story. Over the weekend, the Brennan Center for Justice released a report on the growing racial disparities in voting in America. They found that ''the racial turnout gap—or the difference in the turnout rate between white and nonwhite voters . . . has consistently grown since 2012 and is growing most quickly in parts of the country that were previously covered under Section 5 of the 1965 Voting Rights Act, which was suspended by the Supreme Court [of the United States] in its 2013 decision in Shelby County v. Holder.''

So although record numbers of Americans are making their voices heard in elections, we are also witnessing an explosion of sinister efforts to discourage and silence many of these voices.

Unfortunately, efforts to suppress the right to vote in this country are nothing new. Congress took action in 1965 when the U.S. Senate voted 77 to 19 to pass the Voting Rights Act, finally outlawing State practices that had denied millions of Americans—especially Black Americans—the right to vote.

Over the next almost 50 years, the Voting Rights Act was reauthorized five times, always—always—by large, bipartisan majorities. Each new version expanded the promise and protection of the Voting Rights Act. The most recent was signed into law by Republican President George W. Bush in 2006.

That all changed in 2013. The Supreme Court struck a deadly blow on the Voting Rights Act in Shelby County v. Holder. Before the Court's ruling in Shelby County, the Voting Rights Act required localities with a track record of disenfranchising voters of color to seek Federal approval for any changes in their voting laws. This requirement is known as preclearance, and it could have blocked many of the

restrictive voting provisions we have seen since that Supreme Court decision in States like Georgia and Texas.

In 2021, the Supreme Court weakened another critical section of the Voting Rights Act with a decision in a case known as Brnovich v. Democratic National Committee, making it more difficult for plaintiffs to prevail in lawsuits against discriminatory voting laws, decisions, or procedures.

With these rulings, the Supreme Court has fueled State-led efforts to suppress voters, particularly voters of color.

Justice Elena Kagan wrote in her dissent to the Brnovich decision that ''in the last decade, this Court has treated no statute worse'' than the Voting Rights Act of 1965.

This year's Presidential election will be the first general election since a wave of restrictive voting laws were passed in the aftermath of the 2020 election.

Mr. President, did you ever take a look at the videos and reporting of people standing in line and waiting to vote?

Did you ever notice, coincidentally, how many people standing in line are people of color? There always seems to be a lack of voting spaces for people of color when it comes to voting. Why is that? Well, I don't think it is an accident. I think it is a conscious decision. And before the Holder decision—the Shelby County v. Holder decision—there was a requirement for preclearance for the practices that lead to that.

Voters in 27 States, more than half the country, will face restrictions on the right to vote they have never faced before because of the Supreme Court decision. Last year alone, State legislators in 14 States enacted 17 laws that made it harder for people—particularly people of color—to vote. As Members of Congress, we must defend our democracy from these coordinated attacks on the fundamental right we have as Americans.

Last week, a group of my colleagues and I reintroduced a bill bearing the name of John Lewis, whom I mentioned before, that would preserve and protect the rights of voters in America. This legislation will restore and strengthen the Voting Rights Act. This bill honors the legacy of John Lewis and countless other Americans who have fought and some have died for the right to vote.

Last Congress, we tried to bring this legislation to the floor for a debate and a vote, but our Republican colleagues blocked it with a filibuster. This bill should unite Senators across the aisle, not divide us. In 2006, 98 Senators, Republicans and Democrats alike, voted to reauthorize the Voting Rights Act, with no votes in opposition. In 2006—not that long ago—98 Senators voted to reauthorize this bill. At the time, Senator MCCONNELL, who just spoke on the floor, said that ''this is a good piece of legislation that has served an important purpose over many, many years.''

That was the bipartisan support that greeted that bill in 2006. Yet, today, Senate Republicans have no interest in reauthorizing the Voting Rights Act to protect voters from efforts to suppress the right to vote.

Next week, the Senate Judiciary Committee will hold a hearing to examine the continued need to restore and expand the protections of the Voting Rights Act. This hearing is an important step, but we desperately need legislation, not just a hearing. Every year that goes by without passing this critical law leaves voters vulnerable—particularly voters of color. That is why I am calling on my colleagues to join me in supporting the John Lewis Voting Rights Act.

Congress has the power to restore voting rights, and we should do it because as John Lewis reminded us, ''Democracy is not a state. It is an act, and each generation must do its part to help build what we call the Beloved Community, a nation and world society at peace with itself.''

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Virginia.

TRIBUTE TO HAL MALCHOW

Mr. WARNER. Mr. President, I rise today to celebrate the incredible life of a dear friend and a great American, Hal Malchow, someone whom I think many of my colleagues on the Democratic side have known.

I first met Hal in 1985. I was visiting my dear friend from law school, Rob McDuff, in Oxford, MS. Hal and I were pretty young back in those days, both interested in politics, and the two of us really hit it off at a party that Rob hosted.

Now, Hal has long enjoyed a successful career as one of the country's premier political consultants, but before that, he went to Millsaps College and then the McGeorge School of Law in California. He did practice law for a bit in Jackson, MS. But Hal's real passion was never the law; it was always politics.

In fact, when young, aspiring lawyers would come to his office to get advice about following him into law, Hal was known to reach into his big, impressive wooden desk and pull out his latest rental car contract with Hertz.

''See that contract?'' he would ask the enterprising, would-be attorney, slapping it face down on the table. ''You go to law school, you are going to spend the rest of your career writing those kind of deals.''

So after a few years as a bond attorney in Mississippi, Hal turned his attention to politics. He took on three different candidates as a campaign manager and managed to lose all three races.

Undaunted, in 1984, Hal took on a new challenge. There was an up-and-coming young Congressman from Tennessee with a pretty good resume and a well-known family name who was thinking about running for the Senate. And despite his rather unimpressive track record so far, Hal managed to get an interview.

''So,'' Al Gore said to him, ''I've got one question for you, Hal. If I hire you to be my campaign manager, how am I supposed to explain it to my supporters?''

The way Hal tells it, he looked Gore in the eye and said, ''Everyone in Tennessee thinks you're a lock for this seat. But you can tell them you're taking nothing for granted because you hired the hungriest SOB in the country to run your race.''

Needless to say, Hal got the job, and Al Gore went on to the Senate that year. Soon, Hal moved to DC. Starting at his kitchen table in a small, one-room apartment, he managed to build the Nation's largest voter contact firm, pioneering the use of advanced data analytics to revolutionize political targeting, launching experiments to measure and improve campaign tactics, and revolutionizing direct mail and fundraising.

He brought the notion of the ''moneyball'' approach to politics a decade before anybody else was doing it. That will be one of Hal's greatest legacies to the Democratic Party and to American politics: the idea that spending decisions should actually be driven by data. He wanted to hold campaign consultants like himself accountable for being wise stewards of donor dollars. He measured success in effectiveness, hard proof that spending motivated voters one way or the other.

Hal worked on every one of my campaigns; and at one point or another, I suspect that Hal has worked with at least half of my colleagues on the Democratic side. But Hal was more than just a consultant; he is also my friend. I know him not only for his brilliant, strategic mind but as someone who is honest, loyal, and extraordinarily creative. My wife Lisa and I have looked forward to receiving his hilarious Christmas cards. He would create a different message and a different approach every holiday season.

In addition to writing a series of political books on moving and motivating voters, Hal is also an accomplished fiction writer. His writing career began when his then-8-year-old son approached him with an idea. Two years later, they completed the first draft of ''The Sword of Darrow,'' a highly acclaimed young-adult fantasy novel. In 2014, writing alone, he published a sequel, ''The Dragon and the Firefly,'' before penning two political thrillers, including ''42 Million to One,'' a finalist for a number of international and national book awards.

As that story illustrates, Hal is also a devoted father to his son, Alex. For many years, he served on the board of trustees at Alex's alma mater, the Lab School. After his son was diagnosed with dyslexia, Hal dove into the challenges facing other children like Alex, eventually becoming the president of the International Dyslexia Association.

Hal is also the biggest Cheesehead I know. Hal was very proud of the fact—

even though he had grown up in Mississippi—that his grandfather was one of the original shareholders in the Green Bay Packers. And Hal has followed in his grandfather's and his father's footsteps as a Packers fan. For the last several decades, Hal has organized annual trips to Green Bay to watch the Packers play, and I was lucky enough to join him in November for what has turned out to be Hal's final football season.

Now struggling with the effects of Alzheimer's, Hal has approached his illness the same way he has approached life: with no bitterness. He said to me, the last time I saw him, ''I'm the luckiest guy in the world, with the life I've lived.'' He tells me he has no regrets, so I can't have any either.

So Lisa and I will continue to keep Hal and his family—including Anne, Alex, and Astrid—in our thoughts and hold them close to our hearts during this difficult season.

I yield the floor.

The PRESIDING OFFICER (Mr. MARKEY). The Senator from Vermont.

ISRAEL

Mr. WELCH. Mr. President, every day we are reminded of the worsening humanitarian catastrophe in Gaza. Most of the infrastructure in the territory has been destroyed. Thousands of apartment buildings, schools, mosques, hospitals, shops, and markets have been reduced to piles of twisted metal and rubble, under which the bodies of an unknown number of people are buried.

Of the world's many humanitarian crises, the situation in Gaza is among the worst. This is due in large measure to the onerous impediments by the Netanyahu government to the delivery of sufficient food, water, medicines, shelter, and fuel.

Getting aid to those who are suffering and preventing starvation should be our most immediate and highest priority, along with obtaining the release of the hostages.

As I said when I spoke out for a cease-fire in November, an immediate and indefinite cease-fire is the only way to achieve these goals. I am very heartened by Vice President HARRIS's call for an immediate—if temporary—cease-fire to get aid in and hostages out, because the reality is, the supply of lifesaving aid has dwindled to a trickle.

Last week, the depth of the humanitarian emergency in Gaza exploded with the deaths of dozens of Palestinian civilians as they frantically tried to reach food supplies from aid trucks that were guarded by Israeli soldiers. People were trampled, people were run over by trucks, and they were shot.

It was a horrifying scene and a direct result of the Netanyahu government's failure to put in place workable procedures for the delivery of sufficient aid to starving people. As others have said, there is no legal or security justification for restricting humanitarian aid to civilians who are caught in the middle of an armed conflict.

The more desperate people become, the more chaotic and precarious the security situation, the more likely there will be other senseless tragedies just like this.

I recently introduced a resolution, along with 15 of my colleagues, calling for the urgent delivery of sufficient humanitarian aid.

The Biden administration has repeatedly called for greater access for more aid trucks to Gaza, but the number getting through remains far below prewar levels. And I am encouraged, nevertheless, that President Biden has directed the United States to begin airdropping aid in—a decision made with the understanding that, while not enough by any means, it could save lives.

Israel now occupies Gaza. It has an obligation under international law—not to mention the moral responsibility—to feed and shelter Palestinians under its occupation.

Beyond the moral imperative, the path to peace, security, and stability would be enhanced dramatically by facilitating the delivery of essentials for survival to the Palestinian people whose fate is imperiled. But as we saw last week, that is not happening.

The Netanyahu government's rejection of U.S. and international appeals to meet the basic needs of innocent Palestinians trapped in Gaza and the resulting loss of innocent lives, is really the latest in a pattern that we have seen for years.

The United States has long supported—and the United States will always support—Israel as a free and Jewish democratic state. But candor requires acknowledging that we have an ongoing, serious difference with Israeli leadership.

It is the longstanding U.S. policy that the Middle East conflict can only be solved through negotiations to create two independent states of Israel and Palestine. President Biden has reaffirmed this.

But Prime Minister Netanyahu has publicly rejected a two-state solution, and he has even credited himself for actively working to prevent the creation of a Palestinian state. I will use his words. He couldn't have been more clear. He said:

> I will not compromise on full Israeli security control over the entire area in the west of Jordan—and this is contrary to a Palestinian state.

The United States opposes settlements and the destruction of Palestinian homes, orchards, schools, and other infrastructure in the West Bank. It violates international law and is a severe obstacle to peace. Secretary of State Blinken has reaffirmed this.

Yet Prime Minister Netanyahu embraced the settlements. In 2017, he said:

> We will deepen our roots, build, strengthen and settle.

In 2019, he said:

> With God's help we will extend Jewish sovereignty to all the settlements as part of the land of Israel, as part of the state of Israel.

Under his leadership, settlements have expanded exponentially. Settlements bring extremist settler violence, some of it with firearms financed by American taxpayers.

Shootings of West Bank Palestinians, threats laced with hateful messages that if they don't leave their homes, they will be killed, and the destruction of land and other property have surged—surged—in recent months, including, in some instances, with Israeli soldiers passively standing by and watching.

It is the longstanding U.S. policy, codified by the Leahy law, that units of foreign security forces that violate human rights are not eligible for U.S. training or equipment or other assistance.

And according to multiple reports, that law has not been applied to the Israeli Defense Forces, despite numerous cases of shootings of Palestinian civilians.

We must face the contradiction of what we are doing. We are airdropping food to famine-stricken Gaza today and supplying bombs for Israel to drop on devastated Gaza tomorrow.

We call for humanitarian relief, but how can that call be meaningful when aid workers are killed in their effort to deliver it and Palestinians are killed in their effort to retrieve it?

It is time for us to acknowledge—all of us to acknowledge—what the entire world knows: It is impossible to deliver humanitarian aid in a very active war zone.

Israel is a great country, Jewish and democratic. Israel has been—and remains—our closest ally in the Middle East. For decades, Israel has been under attack by those who have sought to destroy it.

President Biden—and so many of us—understand the history of Israel and the history of the Jewish people. October 7 was the worst attack on the Jewish people since the Holocaust. And we cannot ever let that happen again.

But both of our countries right now are on a wrong path. Israel must stop its indiscriminate attacks that are killing so many Palestinian civilians—women and children, the majority among them who perished.

And the United States must end its unconditional support when Israeli policies are wrong that are unjustified; that are causing so much suffering; and that, in the view of many of us, are doomed to fail in the goal of achieving lasting peace.

How many times do we have to be repudiated by Prime Minister Netanyahu on the use of indiscriminate force; on the recklessness of expanding West Bank settlements; on impeding the delivery of aid; on advocating an endless Israeli post-conflict occupation of Gaza? How long and how often will Prime Minister Netanyahu reject our policies but take our money before we say, ''Enough''?

How many more than the 30,000 Palestinians already killed and the 70,000

wounded before we say to Prime Minister Netanyahu, ''Enough''? How many more homes and shops and schools and childcare centers and hospitals must be destroyed before we say to Prime Minister Netanyahu, ''Enough''?

Israel must—and Israel always will—make its own decisions as to who will be its political leaders. Israel must and Israel always will make its own decisions as to when and how to defend itself. It is their right.

But the United States, too, must make its own decisions consistent with our values, with our judgment, and with what we believe to be in our national interest. The Biden administration has taken important steps to bring accountability through diplomacy by issuing a national security memorandum that builds on the Leahy law, but it is time for us—and I include all of us in the U.S. Congress—to stop accommodating the Netanyahu government. It has consistently shown it does not share our goal of achieving peaceful coexistence between the Israeli and Palestinian people.

Our failure to act damages the authority, credibility, and reputation of the United States, not to mention our foreign policy and security interests. In my view, it undermines the security interests of Israel, which is increasingly isolated in the international community. Opposition to the disproportionate use of force in Gaza is widespread, including in our own country. So, too, regrettably, is the rise of anti-Semitism, which we must always condemn, and Islamophobia, likewise, which we must always condemn.

It has been said many times before: U.S. aid is not a blank check. When it comes to the Netanyahu government, it has, for many years, across Democratic and Republican administrations, been a blank check. It is long past time for the United States to stop supporting by commission and omission actions that are inconsistent with our principles and our policies, and which make peace between Israelis and Palestinians ever more elusive, ever more difficult to achieve.

I yield the floor.

The PRESIDING OFFICER. The Senator from Rhode Island.

NOMINATION OF RONALD T. KEOHANE

Mr. REED. Mr. President, I rise in support of tonight's vote to move forward the nomination of Mr. Ronald Keohane to be Assistant Secretary of Defense for Manpower and Reserve Affairs.

I need not remind my colleagues, with the instability throughout the world right now, how critical it is to ensure that strong civilian leadership is in place across the Department and the military services.

As the Commissioner of the National Defense Strategy concluded, ''The implementation of the National Defense Strategy must feature empowered civilians fulfilling their statutory responsibilities, particularly regarding issues of forced management. Strong civilian oversight is the central hallmark of U.S. civil-military relations, codified in the Constitution and embraced throughout the Nation's history.''

Mr. Keohane was reported out of the committee not once but twice—the first time on March 23, 2023, and then again this conference on February 8, 2024. Both times, he was reported out by voice vote with no one asking to be recorded as a no. To my knowledge, no one has raised any objections to his qualifications. The Assistant Secretary of Defense for Manpower and Reserve Affairs is the principal adviser to the Secretary of Defense and the Under Secretary of Defense for Personnel and Readiness on all matters related to civilian and military personnel policies, reserve integration, military community and family policy, and total force planning and requirements. Additionally, the Assistant Secretary exercises day-to-day supervision of the Department of Defense Education Activity and the Defense Commissary Agency, and provides oversight of the Armed Forces Retirement Homes.

Confirming Mr. Keohane is critical. The military's greatest asset is its people, and filling this void will help the Department navigate the myriad challenges associated with managing the total force—military and civil workforces—to field the most lethal military in the world, especially considering unprecedented recruiting challenges at the moment.

Mr. Keohane is being held not by reason of his qualifications, which are extensive, but because of the position for which he has been nominated has oversight of some matters that a few of my Republican colleagues find objectionable.

Mr. Keohane has previously served in the Department of Defense and other Federal Agencies, making him eminently qualified for this position. Notably, he previously served as the Department Assistant Secretary of Defense for Military Community and Family Policy in the Obama administration, where he was awarded the Defense Medal for Exceptional Public Service.

I urge my colleagues to vote yes to move this well-qualified individual with extensive experience—to move this nomination forward so we can do more to assist our men and women in the field by providing the kind of policy and direction that an experienced and already recognized talented individual can lend to the Department of Defense.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CRAPO. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CLOTURE MOTION

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The legislative clerk read as follows:

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the nomination of Ronald T. Keohane, of New York, to be an Assistant Secretary of Defense, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The legislative clerk called the roll.

MERGER FEES

Ms. KLOBUCHAR. Mr. President, I am here to talk about a provision in the appropriations bills that was unveiled just yesterday. I thank my colleagues for their work on these bills—it has been incredible—and the bipartisan effort in the Senate and the

House. I know how tough these negotiations can be. There are so many good things in it that I am sure I will be talking about myself over the next few weeks.

But I want to focus on one thing that I hope we can still clarify and change. I don't think it was the outcome that people thought when they voted on the floor a little over a year ago on something. This sort of seemingly technical language that was included in this appropriations bill on our Antitrust Division of the Department of Justice basically upends the work that Senator GRASSLEY and I have done—many others joining us—to update the merger fees after I think it is over 20 years. We worked very hard on this over a 5-year period and got buy-in from the Judiciary Committee. We worked with Senator LEE and had a combination amendment that got significant support in this body—well over 80 votes—that focused on Senator LEE's venue amendment that he and I had to make sure that cases in the tech arena stayed in the States, antitrust cases stayed in the States where they were brought; then, secondly, that we actually funded a division that has been underfunded by many measures with 300-plus less employees than they had in 1979. That is the Antitrust Division of the Justice Department.

It may not be the first thing on everyone's mind, but if you are someone wondering why does something cost so much or why don't I have a choice, you have got to look at the consolidation going on in this country. If you wonder why do I have to pay this much for a concert ticket, you might want to look at the fact that Ticketmaster has got a 90-percent monopoly on big events, an 80-percent monopoly on pro events—pro sports events—and a 70-percent monopoly on all events. So it is an issue that matters to people.

This Chamber, unfortunately—I see Senator KENNEDY here who has worked with me diligently on a bill about the news organizations and the monopoly tech companies. We have many good ideas here, some of which—including the bill I have with Senator KENNEDY—that have come through the Judiciary Committee, but we haven't been able to get the political support on both sides of the aisle to actually pass these bills. So that leaves us with one shiny light when it comes to consolidation, and that is the work that has been going on in bringing these cases.

For the tech cases, could I say, several of them were initiated during the Trump's Justice Department and have continued into the Biden administration's Justice Department. But to do that, to take on the biggest companies the world has ever known, to take on Google, with the 90 percent market share, you have to have resources. You can't have a Justice Department Antitrust Division that has, say, one-fourth or one-third of the staff of just one of these companies. That just isn't really going to work. And guess what. They know it.

That is why Senator GRASSLEY and I put together this merger fee bill. Today, he and I are sending a letter to the Appropriations Committee leaders asking them to take out some of this language that actually upends the bill that we not only worked on but we passed in this Chamber. It wasn't one of those things tucked in the bill. We actually had to have an amendment vote in this Chamber. Over 80 of our colleagues voted on it, and now it is being implemented.

There is less money that they have to pay for smaller mergers—which a lot of smaller companies like—and bigger fees for mergers over $500 million. Let's just say for them it is a drop in the bucket; well, not for the Justice Department Antitrust Division. We have now seen about 46 million more dollars come in, and somehow, through the magical Appropriations Committee process, that money has now vanished.

I have faith that the people on the Appropriations Committee did not mean to upend an act of Congress and take the money away from the antitrust enforcers. So this is what I came here to talk about today.

Monopoly companies are starting to reign over our economic and family lives, particularly in the tech area. And, of course, we have passed no updated competition laws since the invention of the internet, while other countries, of course, have, other countries, including—as I see Senator KENNEDY over there—in the area of news organizations.

Singapore just passed a law. Canada just passed a law. Australia has passed a law. Hundreds of millions of dollars are now being paid to actually pay for news content.

The provisions released this weekend are in direct contradiction to the work that was done in this Chamber. The bipartisan Merger Filing Fee Modernization Act passed less than 15 months ago. It passed in the Senate on an 88-to-8 vote, and then the bill passed the full Senate—the other provisions included, unrelated to this—on a vote of 68 to 29. It was signed into law December 29, 2022.

The Congressional Budget Office found that this would generate about $1.4 billion in revenue over 5 years, split between the FTC and the Department of Justice. That is an average of a more than $140 million increase in fee collections per year for each Agency.

For fiscal year 2024, the CBO estimated that the Department of Justice Antitrust Division would earn $278 million under the bill—an increase of $88 million from a year prior. Yet the budget released this week appropriated only $233 million to the Antitrust Division. That is an estimated $45 million in fees that were diverted away from antitrust enforcers.

But that is not all. The appropriation reverses decades of precedent—25 years it said the overage of fees would go to the Antitrust Division. So if they generate the fees, then they get to have those fees to help hire the lawyers to take on the big companies. That is how it has always worked. One pen, and they changed it. We weren't able to see it ahead of time. We worked with them after some language came out in July. Unbeknownst to us, they just took the money and ran. They took the money, and they put it in other parts of the government budget. This appropriation, as I said, reverses how this has been done.

So let's just get this straight. Senator GRASSLEY and I changed the law with 88 votes to get more money into that Division. Instead, going forward, they are not going to get any of the money. So it almost makes it ridiculous that we tried to help by passing the law, because if we hadn't done anything, then maybe no one would have noticed it, and then the Appropriations Committee wouldn't have taken the money.

When Congress acts to increase merger fees or makes a policy decision, I think the Appropriations Committee's job is then to follow that policy decision.

The CBO predicts an $88 million year-over-year increase in the fees, but enforcers at the DOJ only get to see $13 million of that increase, with no opportunity to collect more fees if merger and acquisition activity exceeds what appropriators predict.

On top of this, unlike in previous years, the budget fails to fund the Antitrust Division's non-fee-generating work, like criminal price-fixing and monopolization cases. Last year, appropriators gave the Antitrust Division $35 million to fund these efforts. This year, they gave zero. This may put the Antitrust Division in the untenable position of deciding whether to block an anti-competitive merger or sue an anti-competitive monopolist. They should have the resources to do both. They actually bring money into the government.

I understand the difficult choices that Appropriations Committee members face every year. There are always difficult tradeoffs in funding, especially when budgets are constrained. I have even been told that the reduction in the appropriations was driven by lower-than-expected fee collections in the first quarter, but this doesn't justify diverting fees away from the Antitrust Division if that purported shortfall is made up later in the year. As currently drafted, the Antitrust Division will not have the resources to do its job if merger activity increases later this year, as we have already observed during the second quarter.

This is not an appropriations decision; it is a policy against antitrust enforcement that undermines a bipartisan law. The clear intent of our legislation that received 88 votes out of 100 in the U.S. Senate—actual votes—was to provide antitrust enforcers with more resources. No one, when voting for this bill, believed the goal was to pay for anything but increased antitrust enforcement. It says it right in

the preamble to the bill. The act's purpose is ''to promote antitrust enforcement and protect competition through adjusting premerger filing fees, and increasing enforcement resources.''

The administration said the law would support its critical mission to ''enforce the antitrust laws to combat the excessive concentration of industry, the abuses of market power, and the harmful effects of monopoly and monopsony.''

Senator GRASSLEY said—and I am so pleased he joined me in an effort today—in a letter to say: Please, please clarify this. Maybe you didn't understand that it upended the law that we passed in this Chamber when you did it. You have a lot going on. You try to make compromises. I get it. You do all this stuff. But it is one thing to reduce someone's underlying budget, which happens from time to time; it is another to actually take the fees that we as a Chamber decided to go into a purpose and then decide that, well, we are just going to take away their merger fees that they have generated.

Grassley said this:

> It's important that these government agencies have the resources needed to protect consumers and taxpayers. I'm proud to co-author this bipartisan bill, which will improve fairness in the fee schedules for proposed mergers and strengthen the ability of these agencies to challenge anticompetitive transactions.

Now is not the time to kneecap the ability to enforce our antitrust laws. Over 75 percent of U.S. industries have become more concentrated since the late 1990s. Since 2008, American firms have engaged in more than $10 trillion in acquisitions—that is ''trillion'' with a ''t''—and the 5 most powerful tech companies have completed more than 700 acquisitions, combined, since 1987.

Some of those are great. Some of that is good. But we all know now, when you have Google with a market share of 90 percent in the search market and you have anti-competitive behavior where these companies are putting their own products at the top of the search engines and pushing down small businesses—which is why the National Federation of Independent Business has made one of their top priorities passing another bill that Senator GRASSLEY and I have to put some rules of the road in place—you know we are seeing an issue. And we are not just seeing it in tech. We see it in everything from agriculture to ticketing, from cat food to caskets. This is why the administration put forward the Executive order. This is why we repeatedly see bipartisan support to do something about monopolies.

As ADAM SMITH, the godfather of capitalism, said—he didn't just talk about the ''invisible hand,'' someone who influenced our Founding Fathers. As he said, beware the unbridled power of monopolies.

Today, antitrust enforcers—the cops on the beat—are being asked to do more with way too little. Between 2008 and 2020, the economy grew twice as fast as antitrust appropriations increased. For example, in 2010, the Antitrust Division received $163 million. In 2020, the number had increased only $3 million. At the same time, merger filings increased 80 percent, with 3,152 reportable mergers in 2022 alone. Yet, as of the fall of 2022, the Antitrust Division, as I noted, had 352 fewer employees than it did in 1979.

Think about the power we see out there with these companies. Do we not, as Americans, want some even playing field for small businesses and some rules of the road? That is why some of my most conservative colleagues have joined me—and some of our liberal colleagues and some people who are in the middle—in saying we need rules of the road. But if we are not going to do that, at least let our antitrust enforcers do their job.

It is no wonder we have this competition problem. Our competition enforcers don't have enough resources to effectively take on multibillion-dollar, much less multitrillion-dollar, companies.

Monopolies are spending millions to hold on to their power. Last Congress, I got to see up close how hard big tech companies are willing to fight to maintain their dominance.

I love these products. I have an iPhone. I have a Fitbit. I look at the platforms all the time. I get it. But I also believe in competition. You can still have these strong companies and make sure we have competition in these areas.

After an unprecedented lobbying effort by the dominant platforms, critical antitrust bills did not get a vote on the Senate floor, including ones that had come through the Judiciary Committee. It was reported that tech-funded groups spent more than $120 million in advertising against these bills and $90 million on lobbying over an 18-month period. That is more than $200 million, really, on one bill, the bill that Senator GRASSLEY and I have—not the merger fee bill, which was nearly unanimously supported until it was upended mysteriously this week, but on our other bill about self-preferencing.

While that one sector spent that much—that is one sector of our economy, $200 million on one bill—the appropriators just took $45 million in potential fees and hid them under a rock somewhere in the Federal Government. And in just 1 week last May, a single industry group spent $22 million on TV ads against the legislation I just mentioned—$22 million against one bill in 1 week on TV ads all over the country. That is more than four times the amount allocated to the Antitrust Division per week.

I remember scrolling through the news and seeing internet popup ads that displayed in Washington, DC, from industry groups. They would say things like: Senator KLOBUCHAR could break Google Maps. The lawyers made them put in the ''could,'' but you could hardly read it. Senator KLOBUCHAR could destroy FaceTime. Senator KLOBUCHAR could break up Amazon Basics and take away Amazon Basics. They just put that ''could'' in the smallest font possible, but the lawyers made them do it because they knew it wasn't true. That is what we are up against.

Now, I know it is hard to get these bills done now, but I thought, well, at least the Antitrust Division has brought very significant actions involving Google's dominance with ads and other platforms. Those are big-deal things. And the FTC has brought a case that started during the Trump administration against Facebook. These cases are big deals if we want to do something about it because it doesn't look like we are going to get anything done here.

It takes time, it takes talent, and it takes money to even the playing field. For example, the DOJ's case seeking to break up Google's search monopoly started in 2020, and closing arguments won't be heard until May of this year. And that case only confronts one of the monopolies.

The Antitrust Division is trying these cases while simultaneously reviewing and challenging anti-competitive mergers.

Just Monday, JetBlue abandoned its merger with Spirit after the DOJ prevailed at trial. Anyone who travels knows you want to have choices. You want to be able to look at different air fees. I am looking at the pages. They know what I mean. You look, and you try to find the cheapest airfare you can find. Well, you are not going to be able to do that if there are no low-cost carriers and you aren't able to choose.

In the last 3 years, the Antitrust Division has also successfully protected consumers by investigating and challenging mergers between Penguin and Random House, Adobe and Figma, and Visa and Plaid, among many others. Recent reports indicate that the DOJ is wrapping up investigations that could lead to monopolization cases involving Apple, involving Live Nation and Ticketmaster.

While public information about these potential cases is obviously not out there—it shouldn't be—one thing we absolutely know is that litigating against these companies will take significant resources. That is what this is about. Will I agree with every case they bring? No. But I believe in the principle of competition, and I just believe also in the principle that when the Senate takes a vote on something and decides that we are going to actually put more resources into an Agency generated by merger fees that we have designated to go to that Agency, we mean it. A little group in a committee behind closed doors can't change that decision. They shouldn't be allowed to change that decision even if they don't like some of the cases that are brought.

The next time someone complains to you about a Taylor Swift ticket and

how much it costs or a Bad Bunny ticket and wondering why things got screwed up and why it never got investigated the way they thought it should, I guess we will have to say: Well, there was this little group of a committee that made a decision, even though the whole Senate voted to put the funding into a Division of the Justice Department to be able to do its job. Then, over a few months, a group of us just decided: We don't really want to do that. We want to actually take that money and maybe help someone else.

I am sure it may be a good cause. We don't know where the money went.

But it is against and upends the intent of the U.S. Senate to do something that was woefully underfunded for years and decades. And Senator GRASSLEY knows this. That is why he did the bill with me. That is why today we joined together in a letter to the appropriators asking them—this just can't abandon your intent. I just don't believe it was their intent to—when we actually passed a law to add funding through these merger fees, their intent can't have been to say: We are actually going to take away any upside for you; if you do more work and get more fees in, we are going to take away the upside that you always had for 25 years.

Yes, did they increase the budget by 8, 10 million, whatever it was? Yes. Yes, is it a hard budget year to make decisions? It is. But the point is, sometimes—like we did with semiconductor chips or we do with other things—that Congress makes a decision through the committee process—a long, tenuous process—that we are going to take one area of the government and actually not just put bandaids on, not just increase the budget a little bit, that we are going to do a game-changing thing.

That is what we did with the merger fee change. That is why Senator GRASSLEY and I worked on it for so long and got it through the Judiciary Committee. We were tired of the 3 million, 4 million that would hire the lawyers and still be one-fourth the size of the legal department. We were tired of having 350 less employees in that division than they had in 1979.

We made a decision as a Senate to vote for that and do that. And I just don't think we should be upending that decision through an appropriations process.

I got involved in this a long time ago when I was in the private sector. I represented MCI. I did a lot of work in telecom. And I saw firsthand what happened when you actually got competition, when you actually took a part of monopoly. What happened? Long distance rates went way down. What happened? We had burgeoning cell phone industry.

But before that, it was like the cell phones were the size of a Gordon Gekko's phone in that movie ''Wall Street.'' They were like a brick.

Competition brought us that. Capitalism brought us that. But capitalism in America has always had the guardrails put around it, which is antitrust enforcement, as unsexy as it may sound.

It has made a difference in this country, and it is one of the reasons why we have this economy that can thrive, because we say at some point: Whoa, that is a monopoly, so we have to make sure there is some competition.

We can't do that here anymore. The Senate is not going to sit there and start deciding to break up this and break up that. Our antitrust enforcers do it. Our antitrust enforcers—maybe they don't break it up, but they say: Hey, you have to divest these areas of the country where you two companies that want to merge will become one and you will be the only game in town. That is not going to work for competition. It is incredibly complex.

So it isn't always a sympathetic case to make for having lawyers so they can take on the case against these companies, but it is a sympathetic case to make that we have too much consolidation, that we have to bring prices down, that you shouldn't have to pay all this money for concert tickets and all these hidden fees, that you shouldn't have to pay this much when there is so much consolidation in the grocery area and the like or in agriculture and things like that. That is what the antitrust division does.

I am hopeful. I see Senator MURRAY, who is such an incredible leader, here on the floor and hope we will be able to do something—a technical change to this bill—either this week, or we have another bill next week. So we can, at least, just bring back this part of the bill to the original intent of Congress.

I yield the floor.

The PRESIDING OFFICER (Mr. KELLY). The Senator from Washington.

The Secretary shall provide a copy of the Notice of Default to the tenants, the local government, any mortgagees, and any contract administrator. (2) environmental conditions that cannot be remedied in a cost-effective fashion, the Secretary may contract for project-based rental assistance payments with an owner or owners of other existing housing properties, or provide other rental assistance.

TITLE I

DEPARTMENT OF DEFENSE

MILITARY CONSTRUCTION OVERVIEW

Reprogramming Guidelines.—The following reprogramming guidelines apply for all military construction and family housing projects. A project or account (including the sub-elements of an account) which has been specifically reduced by the Congress in acting on the budget request is considered to be a congressional interest item and as such, prior approval is required. Accordingly, no reprogrammings to an item specifically reduced below the threshold by the Congress are permitted.

The reprogramming criteria that apply to military construction projects, as well as new housing construction projects and improvements, is $6,000,000 or 25 percent of the funded amount, whichever is less. To provide the Services the flexibility to proceed with construction contracts without disruption or delay, the costs associated with environmental hazard remediation such as asbestos removal, radon abatement, lead-based paint removal or abatement, and any other legislated environmental hazard remediation may be excluded, provided that such remediation requirements could not be reasonably anticipated at the time of the budget submission. This exclusion applies to projects authorized in this budget year, as well as projects authorized in prior years for which construction has not been completed.

Furthermore, in instances where prior approval of a reprogramming request for a project or account has been received from the Committees, the adjusted amount approved becomes the new base for any future increase or decrease via below-threshold reprogrammings (provided that the project or account is not a congressional interest item as defined above).

In addition to these guidelines, the Services are directed to adhere to the guidance for military construction reprogramming actions and notifications, including the pertinent statutory authorities contained in Department of Defense (DOD) Financial Management Regulation 7000.14–R and relevant updates and policy memoranda.

Facilities Sustainment, Restoration and Modernization (FSRM).—The Department of Defense is directed to continue describing on form 1390 the backlog of FSRM requirements at installations with future construction projects. For troop housing requests, form 1391 should describe any FSRM conducted in the past two years. Likewise, future requirements for unaccompanied housing at the corresponding installation should be included. Additionally, the forms should include English equivalent measurements for projects presented in metric measurement. Rules for funding repairs of facilities under the Operation and Maintenance accounts are described below:

(1) components of the facility may be repaired by replacement. Such replacement can be up to current standards or codes;

(2) interior arrangements and restorations may be included as repair;

(3) additions and new facilities may be done concurrently with repair projects, as long as the final conjunctively funded project is a complete and usable facility; and

(4) the appropriate Service Secretary shall notify the appropriate committees prior to carrying out any repair project with an estimated cost in excess of $7,500,000.

This language replaces the language under the heading ''FSRM'' in House Report 118–122 and the language under the heading ''Real Property Maintenance'' in Senate Report 118–43.

Military Construction Funding.—The agreement includes $18,675,000,000, which is $2,000,056,000 above the budget request, in a continued effort to support current and future force readiness through critical infrastructure investments. This funds unfunded requirements and addresses other priorities that have been historically neglected in budget requests, such as resiliency and quality of life projects. While Congress continues to provide funding above the budget request for military construction, the Committees again encourage the Department to adequately resource these accounts.

Strategic Construction in the Indo-Pacific Region.—Since fiscal year 2020 the Committees have provided more than $128,000,000 above the budget request to assist Indo-Pacific Command (INDOPACOM) in developing and executing military construction projects that enhance U.S. posture and partnerships in the region. The Committees are encouraged by the Department's proposed INDOPACOM construction investments and continue to fund additive efforts to effectively and efficiently address infrastructure requirements. The agreement provides $69,000,000 in planning and design and $62,000,000 in unspecified minor construction as identified on INDOPACOM's unfunded priorities list. Lastly, the Committees note that the additional unspecified minor construction funds provided are not limited to the Exercise Related Construction program but are available for any unspecified minor construction undertaken by INDOPACOM.

Military Installation Resilience.—Since fiscal year 2020 the Committees have provided dedicated planning and design and unspecified minor construction funding to support installation resilience. The primary intent of this funding has been to develop and carry out projects that mitigate climate change risks to military installations. The Committees believe that such investments are critical to installation readiness and therefore provide $30,000,000 for planning and design and unspecified minor construction in section 128 to continue to develop projects, conduct studies and analyses, and update Unified Facility Criteria that will directly enhance military installation resilience.

Child Development Centers (CDCs).—The Committees continue to recognize the importance of access to childcare in improving both readiness and quality of life for service members and their families. The agreement includes $336,320,000 for CDCs, which provides $276,820,000 for construction of six new CDCs and $59,500,000 in planning and design funding to help develop future construction projects. The Committees encourage the Services to continue to focus on improving and replacing aging facilities, especially at underserved installations.

Laboratory Infrastructure.—The Committees are concerned that aging laboratory infrastructure threatens the ability of Services to maintain the advanced technology necessary to keep ahead of U.S. adversaries across all domains. Accordingly, the agreement includes an additional $30,000,000 in section 129 for planning and design and unspecified minor construction for laboratory infrastructure projects.

Condition of DOD Barracks.—The Committees recognize ensuring the quality of DOD unaccompanied housing as a priority and provide resources throughout this bill for the planning and design and construction of barracks totaling $662,375,000. In addition, the Committees are concerned about the findings identified in the Government Accountability Office (GAO) report entitled, ''Military Barracks: Poor Living Conditions Undermine Quality of Life and Readiness'' (GAO–23–105797), and urge DOD to expeditiously address the recommendations. The Committees believe that changes to DOD policies and practices, such as establishing consistent habitability standards, and consistently identifying and addressing health and safety issues across the Services are necessary to ensure quality unaccompanied housing for servicemembers. As such, the agreement directs a report from each of the Services on how they are addressing GAO's recommendations, including a timeline for implementation, and how they are making systemic changes to the quality of barracks not later than 90 days after enactment of this Act.

Demolition of Excess Infrastructure.—The agreement includes $45,000,000 for unspecified minor military construction for demolition to address excess and obsolete infrastructure found on installations. While the Committees understand the need to balance demolition with other infrastructure needs, excess infrastructure can be costly to maintain and diverts resources away from current requirements.

Incremental Funding.—The Committees recognize that providing full funding for military construction projects if they are executable is ideal. However, it continues to be the practice of the Committees to provide incremental funding for certain large projects to enable the Services to more efficiently allocate military construction dollars among projects that can be executed in the year of appropriation. Therefore, the agreement includes eleven projects that have been incrementally funded.

Military Construction Funding Initiatives.—The agreement includes funding to address important unfunded priorities and cost to completes included in DOD's unfunded priority lists provided to Congress. This includes an additional $8,214,000 for the Army, $182,150,000 for the Navy and Marine Corps, $166,300,000 for the Air Force, $62,400,000 for Defense-Wide, $66,815,000 for the Army National Guard, $5,200,000 for the Air National Guard, and $23,000,000 for the Army Reserve.

Shipyard Infrastructure Optimization Plan (SIOP).—The Committees continue to recognize the importance of SIOP and the need to adequately resource investments in dry docks and shore infrastructure as well as the development of future projects. Therefore, in addition to fully funding the budget request of $2,285,000,000, the agreement further provides $164,080,000 above the request to advance design efforts and address additional construction costs.

The agreement reaffirms the Committees' belief that the management and oversight of SIOP is key to the program's success. As such, in lieu of the direction in House Report 118–122, the agreement directs the Comptroller General to submit a report or reports, as necessary, on options for improving the management and oversight of SIOP. The Comptroller General should assess, at a minimum, the following: (1) the Navy's acquisition strategy for procuring services and managing projects for SIOP across the shipyards; (2) the Navy's support to the public shipyards and local shipyard construction agents; and (3) how the Navy's policies and procedures for large facility improvements greater than $500,000,000 compare to those of other Federal agencies. The agreement further directs the Comptroller General to brief the Committees on Appropriations of both Houses of Congress on its preliminary findings not later than 180 days after enactment of this Act, and to provide a full report on the findings of each review to the Committees at a date agreed upon at the preliminary briefing.

The agreement includes $140,000,000, as requested, for

three projects to construct integrated command and training centers, as well as a missile handling complex. Recognizing the significant future investments needed and complex military construction environment moving forward, the Committees direct the Secretary of the Air Force to continue providing quarterly briefings on the infrastructure needs related to the Sentinel program.

U.S. Space Command.—The Committees recognize Section 2889 of the 2024 National Defense Authorization Act addresses the selection of the location for the United States Space Command Headquarters and restricts authorization for facilities related to the Headquarters until June 30, 2024. The Committees look forward to the completion of the reviews of the site selection process being conducted by the Inspector General of the Department of Defense and the Comptroller General of the United States, and in addition to the report on obligations and expenditures requested in House Report 118–122 and in Senate Report 118–43, the Department shall report to the congressional defense committees on the permanent location of the United States Space Command and a plan to fully address all recommendations of the Inspector General and Comptroller General.

Recognizing the active costs associated with ordnance disposal and other environmental cleanup requirements, the agreement also provides additional funding for the Services to remediate hazardous environmental sites at installations closed under previous Base Closure and Realignment rounds. Further, the agreement recognizes the Navy's efforts towards the demolition and removal of non-historically designated buildings and structures under Navy control where the sampling or remediation of radiologically contaminated materials have been the subject of substantiated allegations of fraud. The Services are directed to submit a spend plan for all additional funding to the Committees no later than 60 days after enactment of this Act.

FAMILY HOUSING

ITEM OF INTEREST

Housing Oversight.—The Committees continue to be concerned about poor housing conditions, inadequate maintenance response times, and other issues affecting the wellbeing of servicemembers and their families. The Committees believe that robust oversight over Military Housing Privatization Initiative (MHPI) management companies is necessary to ensure that servicemembers and their families can live in quality housing that is properly maintained. The agreement provides $30,000,000 above the budget request for oversight of DOD's housing portfolio, including government-owned and controlled family housing, privatized family, and unaccompanied housing. The Committees expect this funding to be utilized by the Services to improve their oversight of their housing portfolios, including housing inspections and improved training for individuals conducting those inspections. The Committees are concerned that current practices, such as inspections during tenant changes, are not being carried out consistently in all cases. The Committees recognize that changes in culture and procedures are necessary, in addition to funding, to achieve sufficient oversight of all DOD housing. The Committees direct the Services to continue to review their training and inspection processes, among other methods for ensuring quality housing and holding privatized housing partners accountable, to ensure they are providing proper management of their housing portfolios, and request a briefing on such efforts no later than 120 days after enactment of this Act.

DEPARTMENT OF VETERANS AFFAIRS

VETERANS BENEFITS ADMINISTRATION

COMPENSATION AND PENSIONS

(INCLUDING TRANSFER OF FUNDS)

The agreement provides $182,310,515,000 for Compensation and Pensions in advance for fiscal year 2025. Of the amount provided, not more than $22,109,000 is to be transferred to General Operating Expenses, Veterans Benefits Administration (VBA) and Information Technology Systems for reimbursement of necessary expenses in implementing provisions of title 38. The agreement provides an additional $15,072,388,000 above the fiscal year 2024 advance appropriation for the Compensation and Pensions account.

READJUSTMENT BENEFITS

The agreement provides $13,399,805,000 for Readjustment Benefits in advance for fiscal year 2025. The agreement provides an additional $374,852,000 above the fiscal year 2024 advance appropriation for the Readjustment Benefits account.

Veteran Employment Through Technology Education Courses.—The Committees expect the Department to fully fund the program consistent with current law, and encourage VA to take steps to expand the program to address increased demand, by including additional providers, particularly in areas of the country where the initiative is not currently available, as well as to help train and employ women veterans and veterans with disabilities.

Veteran Transitional Assistance Grant Program (VTAG).—The Committees continue to support VTAG and include an additional $5,000,000 above the fiscal year 2023 level, as requested.

VETERANS INSURANCE AND INDEMNITIES

The agreement provides $135,119,422 for Veterans Insurance and Indemnities in advance for fiscal year 2025. The agreement provides an additional $12,701,000 above the fiscal year 2024 advance appropriation for the Veterans Insurance and Indemnities account.

VETERANS HOUSING BENEFIT PROGRAM FUND

The agreement provides such sums as may be necessary for costs associated with direct and guaranteed loans for the Veterans Housing Benefit Program Fund. The agreement limits obligations for direct loans to not more than $500,000 and provides $316,742,419 to be available for administrative expenses.

Home Loan Guaranty Program.—The agreement notes the Committees are concerned about the impact that the expiration of emergency authorities is having on veterans who were seeking loan forbearance during the COVID–19 pandemic for VA-guaranteed loans. While understanding that VA lacks legal authority to require servicers to pause foreclosures, VA must do everything in its power to quickly institute regulations for a new program to assist veterans facing foreclosure. The Department is directed to provide a briefing to the Committees on Appropriations of both Houses of Congress, no later than 90 days after enactment of this Act, with information including the number of VA-guaranteed loans for which servicers will not pause foreclosures, and efforts undertaken to assist the nearly 4,000 veterans whose VA-guaranteed loans were foreclosed, as well as those who avoided foreclosure by accepting new loans with highly unfavorable terms.

VOCATIONAL REHABILITATION LOANS PROGRAM ACCOUNT

The agreement provides $78,337 for the cost of direct loans from the Vocational Rehabilitation Loans Program Account, plus $460,698 to be paid to the appropriation for General Operating Expenses, Veterans Benefits Administration. The agreement provides for a direct loan limitation of $2,026,000.

The agreement provides $2,718,546 for administrative expenses of the Native American Veteran Housing Loan Program Account. This is an increase of $1,318,546 over the fiscal year 2023 level.

GENERAL OPERATING EXPENSES, VETERANS BENEFITS ADMINISTRATION

The agreement provides $3,899,000,000 for General Operating Expenses, Veterans Benefits Administration and, of the amount provided, up to 10 percent is available for obligation until September 30, 2025. In addition, VA estimates to use $1,769,000,000 from the Toxic Exposures Fund to support GOE, VBA activities related to toxic exposures in fiscal year 2024.

Compensation and Pension (C&P) Claims and Medical Exams.—The Committees are reassured that the expected increase in disability claim applications by veterans because of new eligibilities in the Sergeant First Class Heath Robinson Honoring our Promise to Address Comprehensive Toxics (PACT) Act of 2022 (Public Law 117–168) is being realized. However, the Committees are concerned about a growing disability claims backlog and limited oversight of contracted providers for medical exams. As described in House Report 118–122 and Senate Report 118–43, the agreement continues to strongly encourage the implementation of special training protocols and oversight of C&P medical exams, especially for claims related to military sexual trauma.

In addition to the reporting requirements in Senate Report 118–43 on ''Contract Providers for Exams'', the agreement directs the Department to submit a report to the Committees on Appropriations of both Houses of Congress no later than 180 days after enactment of this Act on the use of third-party contractors to conduct medical disability examinations of veterans for purposes of obtaining disability compensation. The report should include the number of contractors used in each state to conduct disability compensation exams; contract performance and quality measures; the average miles a veteran is required to travel to attend a contract medical disability examination disaggregated by state; the average wait time for an individual to receive an exam; and a description of the process at the Department for handling complaints of veterans about their experience with a contracted medical disability examiner.

VETERANS HEALTH ADMINISTRATION

For fiscal year 2024, the agreement provides a total of $121,011,303,000 for VA's medical care, equal to the budget request, and in accordance with agreements related to the Fiscal Responsibility Act of 2023 (Public Law 118–5). In addition, VA estimates to use $17,116,000,000 from the Toxic Exposures Fund to support medical care, for a total of $138,127,303,000 in medical care funding in fiscal year 2024.

ITEMS OF INTEREST

American Indian/Alaska Native, Native Hawaiian, Pacific Islander and U.S.-Affiliated Pacific Islander Veterans.—The agreement reaffirms the Committees' appreciation for American Indian/Alaska Native, Native Hawaiian, Pacific Islander and U.S.-Affiliated Pacific Islander military service and recognizes the challenges they have in securing the benefits they have earned. As described in House Report 118–122 and Senate Report 118–43, the agreement continues to require reporting on efforts to improve and expand access to benefits, mental health, preventative and wellness programs, telehealth, among other programs, and reduce homelessness, among these veteran populations. The

agreement continues to support the establishment of the Center for Native Hawaiians, Pacific Islanders, and U.S.-Affiliated Pacific Islanders Health.

Child Care Assistance Expansion.—The Committees are disappointed in the Department's slower than anticipated progress to expand child care assistance to veterans receiving healthcare at all VA medical facilities by January 5, 2026, as required by the Johnny Isakson and David P. Roe, M.D. Veterans Health Care and Benefits Improvement Act of 2020 (Public Law 116–315). The agreement directs the Department to brief the Committees on Appropriations of both Houses of Congress no later than 30 days after enactment of this Act on the status of the regulatory process, the new timeline for expansion to the planned number of sites, and progress on completing the information technology systems necessary for this expansion. Further, the agreement directs the Department to include cost estimates, timelines, and actions taken by the Department in the justifications accompanying the fiscal year 2025 budget submission. The Committees encourage the Department to reevaluate under which program office the child care program should reside.

Special Modes of Transportation.—The Committees acknowledge the Department's actions to postpone the final effective date for reimbursement rates for ground and air ambulance services. Before modifying these rates in accordance with the new timeline, the Department is directed to communicate directly with service providers to fully understand the impact of the proposed rule change on veterans. Further, the Department should identify staff dedicated to facilitating contracting with providers of these services at fair and appropriate reimbursement rates, to include providing technical assistance on the contracting process, and to provide support for entities who are beginning the contracting process for the first time. The agreement directs the Department to report back to the Committees on Appropriations of both Houses of Congress no later than 90 days after enactment of this Act on the feedback received from industry stakeholders and its plan for ensuring zero harm to veterans.

Congressional Oversight.—The agreement does not include the direction regarding congressional oversight in the overview to Title II of House Report 118–122.

MEDICAL SERVICES

(INCLUDING RESCISSION OF FUNDS)

The agreement provides $71,000,000,000 in advance for fiscal year 2025 for Medical Services, with $2,000,000,000 available through fiscal year 2026. In addition, VA estimates to use $9,525,428,000 from the Toxic Exposures Fund to support medical services in fiscal year 2024. VA also has the authority to retain copayments and third-party collections.

Caregiver Support Program

The agreement includes $2,422,410,000 for VA's Caregivers Program, and continues the requirement for quarterly reporting on obligations.

Program of Comprehensive Assistance for Family Caregivers (PCAFC) Program.—The Committees support the Department's decision to suspend reassessments and discharges for legacy PCAFC participants, and again urges the Secretary to permit recently disqualified and denied applicants with a history in the program to have their applications automatically reconsidered under current requirements, rather than go through the appeals process.

Centers of Excellence

Neurology Centers of Excellence.—The Committees recognize the increasing number of veterans affected by neurologic conditions, including epilepsy, headache, multiple sclerosis, and Parkinson's disease. The Neurology Centers of Excellence provide essential innovative clinical care, education, and research efforts focused on these conditions. Further investment and collaboration of the Centers across disciplines is encouraged, and the agreement includes $70,000,000 for Neurology Centers of Excellence, $10,460,000 over the budget request and $20,460,000 over the fiscal year 2023 enacted level. This includes $25,000,000 for epilepsy; $24,000,000 for headache; $14,500,000 for Parkinson's; and $6,500,000 for multiple sclerosis.

HUD–VASH Case Management.—As included in House Report 118–122 and Senate Report 118–43, the agreement directs VA to increase funding for case managers commensurate with increases in the Department of Housing and Urban Development's budget for new HUD–VASH vouchers. The Committees are frustrated by the lack of progress in publishing joint VA–HUD guidance regarding approval of a Public Housing Authority to be a designated service provider. The Committees expect to see the necessary guidance published not later than 90 days after enactment of this Act, and direct the Department to coordinate with the Department of Housing and Urban Development and brief the Committees on Appropriations of both Houses of Congress no later than 30 days after enactment of this Act with an update on the progress and timeline for publishing its guidance.

Mental Health and Suicide Prevention Programs

The agreement provides $16,243,469,000 in discretionary funds for mental health programs, of which $558,794,000 is for suicide prevention outreach, including $300,500,000 for the Veterans Crisis Line (VCL), fully supporting the request. In addition to reporting requirements outlined in House Report 118–122 and Senate Report 118–43, VA is directed to ensure appropriate staffing for call centers and back-up centers, provide training necessary for the VCL staff to assist veterans in crisis, and ensure staff are able to respond to the needs of veterans appropriately and effectively. Additionally, the Committees direct VA to enable the VCL to utilize geolocation capabilities to facilitate accurate emergency dispatch to persons at risk of imminent harm to self or others. The Committees direct VA to focus on efforts to address parking lot suicides and to connect veterans to care. The Committees recognize the importance of suicide prevention coordinators and direct VA to fully staff these positions and improve veterans' access to these coordinators.

Opioid Safety Initiatives and Substance Use Disorder Care

The Committees recognize the importance of intervention and support programs for at-risk veterans and their families. The agreement includes $715,365,000 for Opioid Prevention and Treatment programs, which is $52,560,000 above the fiscal year 2023 enacted level. Of this total, $254,487,000 is to continue implementation of the Jason Simcakoski Memorial and Promise Act, as part of the Comprehensive Addiction and Recovery Act of 2016 (Public Law 114–198) and $230,947,000 for Substance Use Disorder programs.

Rural Health

The agreement provides $342,455,000 for the Office of Rural Health and the Rural Health Initiative, which is $5,000,000 above both the fiscal year 2023 enacted level and budget request. The Committees recognize the challenges and barriers to care for more than 3,000,000 enrolled rural and remote veterans and directs the Office of Rural Health to expand and improve transportation access to and from facilities that serve rural veterans.

Rural Access Network for Growth Enhancement (RANGE).—The RANGE Program provides case management and treatment services to mentally ill veterans in rural areas. The agreement includes sufficient funding to maintain the three new centers of the RANGE Program, as authorized by the Sgt. Ketchum Rural Veterans Mental Health Act of 2021 (Public Law 117–21).

The Committees direct VA to continue to expand telehealth availability, including mental health, primary care, and rehabilitation services as a means to deliver care, including in rural and underserved communities. In addition to fully funding costs associated with telehealth treatment, the agreement directs $5,000,000 for the purpose of expanding veteran access to telehealth technologies, including through new and innovative measures. The Department is directed to provide an expenditure plan for these funds no later than 180 days after enactment of this Act.

The plan should include data related to the cost of expansion, including for mobile mammography units, and be provided to the Committees on Appropriations of both Houses of Congress no later than 180 days after enactment of this Act. As noted in House Report 118–122, the Committees commend VA's decision to offer breast cancer screening and mammography to eligible women veterans and urge the Department to include younger veterans, as appropriate.

Workforce and Staffing Issues

VHA Staffing.—The Committees recognize the challenge VA has in recruiting and retaining physicians, physician assistants, nurses, mental health providers, other healthcare professionals, and related support staff, and encourage VA to explore all potential options to enhance recruitment and retention. Also, the Committees remind the Department to submit its annual staffing report to address critical workforce issues, as required by the Joint Explanatory Statement accompanying Public Law 117–103.

Long-Term Care

The agreement provides $12,940,784,000 for institutional and non-institutional care, equal to the budget request. The Committees are aware of the aging veteran population and support long-term care that focuses on facilitating veteran independence, enhancing quality of life, and supporting the family members of veterans. As such, the Committees support the Department's efforts to broaden veterans' options regarding non-institutional long-term care support and services, and to accommodate veterans' preferences in how and where they receive care and other services.

Data Sharing with State Cancer Registries.—The Committees direct the Secretary of Veterans Affairs to provide a plan no later than 90 days after enactment of this Act on how the Department will begin to share qualifying cancer related data with the State cancer registry of each state before the end of the fiscal year.

In addition, VA estimates to use $6,740,264,000 from the Toxic Exposures Fund to support medical community care in fiscal year 2024.

State Veterans Homes Per Diem.—The Committees understand the Department intends to revise the formula used for determining per diem rates at state veterans homes, and support this effort.

MEDICAL SUPPORT AND COMPLIANCE

(INCLUDING RESCISSION OF FUNDS)

The agreement provides $11,800,000,000 in advance for fiscal year 2025 for Medical Support and Compliance, with $350,000,000 available through fiscal year 2026. MEDICAL FACILITIES

The agreement provides $9,400,000,000 in advance for fiscal year 2025 for Medical Facilities, with $500,000,000 made available through fiscal year 2026. The agreement provides an additional $149,485,000 above the fiscal year 2024 advance appropriation for this account, bringing the Department's total budget authority for fiscal year 2024 to $8,949,485,000, consistent with the revised request.

The Department is directed to continue upgrading medical facilities to meet the needs of women veterans and is reminded of the annual reporting requirement included in the Joint Explanatory Statement accompanying Public Law 116–94 related to women's healthcare facilities.

Community-Based Outpatient Clinic in Bakersfield, California.—The Committees remain concerned that a new Bakersfield CBOC remains unbuilt more than a decade after Congress authorized this facility in Public Law 111–82. Recognizing the constraints due to ongoing litigation, the Committees direct the Secretary to expeditiously execute Lease No. 36C10F20L0008 and commence construction of the CBOC as soon as possible. The Committees direct the Secretary to provide monthly reports on the CBOC's progress until completion and activation.

MEDICAL AND PROSTHETIC RESEARCH

The agreement provides $943,000,000 for Medical and Prosthetic Research, available until September 30, 2025, which is $5,000,000 above the request. In addition, VA estimates to use $46,000,000 from the Toxic Exposures Fund to support medical and prosthetic research activities related to toxic exposures in fiscal year 2024.

Access to Clinical Oncology Trials.—The Committees continue to support the ongoing collaborative efforts between VA medical centers and National Cancer Institute (NCI)-designated comprehensive cancer centers, but notes the lack of infrastructure for clinical trials in other areas of the country. Expanding access to clinical oncology trials remains a priority and as such the Committees direct that not less than $10,000,000 be allocated to support partnerships between VA medical centers and NCI-designated comprehensive cancer centers.

Due to the lack of capacity to enhance and increase current clinical cancer trials into additional areas of the country, the Committees direct that up to an additional $5,000,000 be allocated to expand the Precision Oncology Program for Cancer of the Prostate (POPCaP) program to new sites in order to facilitate additional partnerships between VA medical centers and university cancer centers.

Animal Research.—As included in House Report 118–122, the agreement directs the Department to include in any report to Congress describing animal research details on the specific alternatives to animals that were considered, why those alternatives were not chosen, and an explanation for why these animal subjects were the only viable option for this research. The Committees remind the Department of the requirement to eliminate research conducted using canines, felines, or non-human primates by March 2026, and request a briefing on a plan to do so within 90 days of enactment of this Act.

Women Veterans Research.—The Committees continue to encourage VA to expand its research on the effects of toxic exposure and ensure women are appropriately represented in these efforts. The agreement directs VA to provide a briefing to the Committees on Appropriations on both Houses of Congress on how the Department is continuing to pursue efforts to be more inclusive of women in its research within 90 days of enactment of this Act.

Toxic Exposures Research.—As included in House Report 118–122 and Senate Report 118–43, the Committees encourage the Department to continue research on the effects of and treatments for veterans exposed to toxins, such as Agent Orange, burn pits, Per- and polyfluoroalkyl substances (PFAS), radiation, asbestos, and aqueous Film Forming Foam (AFFF), and looks forward to the requested report. The Committees continue to direct VA to collaborate with the Department of Defense PFAS Task Force, academia, and other health institutions and agencies to monitor research activities, results, and publications on the health effects from PFAS.

The agreement provides $480,000,000 for the National Cemetery Administration (NCA). Of the amount provided, up to 10 percent is available until September 30, 2025.

Rural Initiative National Cemetery Facilities.—The Committees support the National Cemetery Administration's efforts to construct additional infrastructure at its Rural Initiative national cemeteries. In order to ensure that these infrastructure projects are meeting the needs of veterans, volunteers, and visitors, the Department should conduct an assessment at each Rural Initiative National Cemetery site, with feedback from community stakeholders—to include veterans, veterans service organizations, volunteers, local leadership, adjacent landowners, and visitors, to determine if it is advisable to construct permanent support infrastructure. The Committees strongly encourage the Department to work with State and local entities, and non-profit organizations interested in constructing and donating facilities or donating funding for VA-built facilities, to include funds for construction and future operations and maintenance costs, to help meet location-specific needs, as appropriate.

DEPARTMENTAL ADMINISTRATION

The agreement continues to include bill language permitting the transfer

of funds from this account to General Operating Expenses, Veterans Benefits Administration.

The Committees direct the Secretary to provide a spend plan on how the Department allocates the General Administration funding by office to the Committees within 30 days of enactment of this Act. The Secretary may alter these allocations if the Committees have been notified and written approval is provided.

Lobbying Congress.—In lieu of language included in House Report 118–122, the Department is reminded of the statutory anti-lobbying restrictions in place in 18 U.S.C. 1913, which prohibits lobbying by federal agencies. The Secretary is directed to ensure compliance with these laws on all public statements, and to make all central office based employees of the Office of Public Affairs receive training on the Hatch Act and its application to ensure official Department resources are being used in a nonpartisan manner.

Office of Resolution Management, Diversity, and Inclusion (ORMDI).—In lieu of the direction in House Report 118–122, the agreement includes an additional $58,927,000 above the fiscal year enacted 2023 level to support compliance with Section 402 of Division U of the Consolidated Appropriations Act, 2023. The agreement does not include additional funds above the fiscal year 2023 level for diversity and inclusion programming for ORMDI.μ μThe agreement does not include the additional direction under this heading in House Report 118–122.

Predatory Representational Services to Veterans.—The Committees remain concerned about individuals and organizations aggressively marketing representational services to veterans using predatory tactics, often resulting in veterans having to pay exorbitant fees for representation for disability compensation claims, appeals, and Camp Lejeune related lawsuits. The VA Office of General Counsel is strongly encouraged to increase efforts to properly oversee claims representative accreditation, as well as ensure veterans are fully aware of their due process rights, VA's duty to assist, and the free representational services offered by accredited veterans service organizations.

BOARD OF VETERANS APPEALS

The agreement provides $287,000,000 for the Board of Veterans Appeals (BVA), of which up to 10 percent shall remain available until September 30, 2025. The agreement makes 25 percent of funds contingent upon the Secretary providing certain information to the Committees.

The agreement continues quarterly reporting of obligations, expenditures, and deployment schedule by facility. The Committees expect the Department to continue quarterly briefings on program implementation, including updates on progress resolving outstanding issues, and to provide quarterly updates to review timelines, performance milestones, implementation, and change management progress. The Department is directed to periodically report to the Committees on Appropriations of both Houses of Congress on changes to staffing levels, productivity compared to pre-implementation levels, and wait times for access to VA care and care in the community. The Committees also discourage the Department from retaliation against employees who raise patient safety concerns related to the EHR Modernization activities.

Enterprise Integration and Standardization.—In addition to the direction included in House Report 118–122, the Department is directed to provide a report within 45 days of enactment of this Act on its plans to ensure modifications and system customization at individual facilities is extremely limited. EXPLANATORY STATEMENT SUBMITTED BY MRS. MURRAY, CHAIR OF THE SENATE COMMITTEE ON APPROPRIATIONS, REGARDING H.R. 4366, CONSOLIDATED APPROPRIATIONS ACT, 2024

The following is an explanation of the Consolidated Appropriations Act, 2024.

DIVISION B—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2024

CONGRESSIONAL DIRECTIVES

The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 118–124 and Senate Report 118–44 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate or this explanatory statement has directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations no later than 60 days after enactment of this Act, unless otherwise directed.

Hereafter, in this Division of this statement, the term 'the Committees' refers to the Committees on Appropriations of the House of Representatives and the Senate.

For the appropriations provided by this Act and previous Acts, the departments and agencies funded by this agreement are reminded that the Committees use the definitions for transfer, reprogramming, and program, project, and activity as defined by the Government Accountability Office (GAO) in GAO–04–261SP Appropriations Law—Vol. I and GAO–05–734SP Budget Glossary.

A transfer is the shifting of funds between appropriations. It applies to (1) transfers from one agency to another, (2) transfers from one account to another within the same agency, and (3) transfers to an interagency or intra-agency working fund. In each instance, statutory authority is required.

Reprogramming is the utilization of funds in an appropriation account for purposes other than those contemplated at the time of appropriation. It is the shifting of funds from one object to another within an appropriation.

A program, project, or activity (PPA) is an element within a budget account. PPAs are identified by reference to include the most specific level of budget items identified in the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Act, 2024, accompanying Committee reports, explanatory statements, and budget justifications. Program activity structures are intended to provide a meaningful representation of the operations financed by a specific budget account by project, activity, or organization.

The agreement directs the Office of Budget and Program Analysis (OBPA) of the U.S. Department of Agriculture (USDA) to provide an organizational chart for each agency funded by this Act to the division and subdivision level, as appropriate, within 60 days of enactment of this Act. The agreement also directs the Food and Drug Administration (FDA) the Farm Credit Administration (FCA), and the Commodity Futures Trading Commission (CFTC) to provide an organizational chart of each agency, respectively, to the division and subdivision level, as appropriate, within 60 days of enactment of this Act.

Further, USDA, FDA, and CFTC should be mindful of Congressional authority to determine and set final funding levels for fiscal year 2025. Therefore, the agencies should not presuppose program funding outcomes and prematurely initiate action to redirect staffing prior to knowing final outcomes on fiscal year 2025 program funding. The agreement directs OBPA to provide the Committees with the number of staff years and employees on board for each agency funded by this Act on a monthly basis.

This agreement provides funding for Community Project Funding/Congressionally Directed Spending. The bill includes language in each account with such spending that the funding ''shall be for the purposes, and in the amounts, specified for [the relevant account] in the table titled 'Community Project Funding/Congressionally Directed Spending' in the explanatory statement described in section 4 (in the matter preceding division A of this consolidated Act).''

For these purposes, the agreement provides a $2,500,000 increase in the Office of Homeland Security for CFIUS reviews and a $1,000,000 increase in the Farm Production and Conservation Business Center to improve AFIDA reporting.

The agreement also provides $6,000,000, to be divided equally, to continue the Institute for Rural Partnerships at established land-grant universities, which were originally funded in fiscal year 2022.

The agreement includes a provision (Section 773) noting that the National Academies of Sciences, Engineering, and Medicine (NASEM) was tasked with providing findings and recommendations for alcohol consumption for inclusion in the 2025 Dietary Guidelines for Americans (DGA), and that such findings and recommendations shall be solely based on the preponderance of scientific and medical knowledge. The agreement therefore directs the Secretary of Agriculture and the Secretary of Health and Human Services to ensure that any recommendations related to alcohol consumption in the 2025 DGA that deviate from the 2020 DGA must be based upon peer reviewed, scientific, and medical knowledge and that such review was the result of a transparent process by any federal entity that may have been involved.

The agreement directs the Department to submit a report to the Committees no later than 90 days after enactment of this Act, describing a plan for improving staffing at the Farm Service Agency, the Natural Resources Conservation Service, and the Rural Development mission area at the county and area levels, including recommendations for actions that Congress may take. The agreement further directs the Secretary to prioritize hiring of these positions outside the National Capital Region.

TITLE II

FARM PRODUCTION AND CONSERVATION PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FARM PRODUCTION AND CONSERVATION

The agreement provides $1,527,000 for the Office of the Under Secretary for Farm Production and Conservation.

USDA requires producers and landowners to obtain a farm and tract number to participate in certain USDA programs. This requirement creates a barrier for some landowners, particularly those with heirs' property issues, who cannot enroll in these programs because they do not have—and have not been able to get—a farm and tract number. USDA is directed to submit a proposal to the Committees immediately that will allow these landowners to participate, while still maintaining a record that uniquely identifies participating landowners that will serve as an alternative means to achieve the purposes of the farm and tract number process.

The agreement is concerned with the Department's implementation of the Emergency Relief Program, 2022. The agreement expects the Department to carry out programs in a manner consistent with Congressional intent and in consultation with the Committees.

The agreement directs the Secretary to explore all options to assist aquaculture producers impacted by severe weather, including exercising the authority under Section 1501(d) of the Agricultural Act of 2014 to include drought as adverse weather for Farm-Raised Fish under the Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program (ELAP).

FARM SERVICE AGENCY

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The agreement provides $1,209,307,000 for Farm Service Agency, Salaries and Expenses.

The agreement notes that recent droughts have contributed to a dramatic increase in southern pine beetle infestations. The agreement is concerned about the severity of observed tree mortality, as well as the economic and ecological challenges posed to private forest landowners. The agreement emphasizes that the Emergency Forest Restoration Program (EFRP) was established to assist landowners impacted by natural disasters (including drought and insect infestations), and that previously appropriated funds are currently available to operate the program in fiscal year 2024. Of the unobligated balances available for EFRP, FSA is encouraged to address assistance to landowners impacted by southern pine beetle outbreaks in counties designated by USDA as primary natural disaster areas due to drought in the fourth quarter of fiscal year 2023 or first quarter of fiscal year 2024. The agreement urges the FSA National Office to work in coordination with the U.S. Forest Service and state forestry agencies to expedite the delivery of program assistance to landowners in areas impacted by drought and insect infestation.

In including, under the Further Continuing Appropriations and Other Extensions Act, 2024 (P.L. 118–22), the same formula used for supplemental dairy margin coverage (DMC) in Title I of the Agricultural Act of 2014 as an adjustment to production history for dairy margin coverage, Congress intended for the Secretary to administer without interruption such supplemental or adjusted coverage and to fulfill any contractual obligation of the Department to a dairy that paid a premium based on a full calendar year of coverage. Therefore, the agreement asserts that the Secretary had uninterrupted authority to make payments to participating dairies with which the Department was under a contract during any month of calendar year 2023 and to continue to address errors, omissions, and appeals from dairy operations arising out of the Supplemental DMC program.

The agreement notes that, since fiscal year 2014, Congress has increased FDA budget authority by $1,065,023,000 to meet operational needs so that the agency can respond to issues such as the infant formula crisis, as well as invest in new technologies to advance drug and device safety. In addition to this funding, the FDA has also received an additional $1,060,000,000 in emergency spending for public health emergencies to address COVID, Zika, and Ebola. In the current fiscal climate, funding decisions need to be reevaluated, therefore FDA is directed to submit to the Committees a table, totaling at

least $50,000,000 of funds that can be repurposed to meet the following items identified in the budget: ALS, Drug and Device Shortages, and Information Technology, and at least $8,500,000, of which $7,000,000 is for Cosmetics Regulation Implementation and $1,500,000 is to be used to Reduce Animal Testing through Alternative Methods. In addition, the agreement directs the FDA to maintain fiscal year 2023 funding levels for the Neurology Drug Program and the Emerging Chemical and Toxicology Issues Program. The agreement provides specific amounts by FDA activity as reflected in the following table:

The agreement applauds FDA's efforts to advance precision oncology, which is improving patients' access to new targeted therapies and immunotherapies, and notes that FDA has a voluntary pilot program intended to evaluate the risks when targeted cancer treatments are approved without a companion diagnostic. The agreement directs FDA to provide a report lining its goals and metrics for success (including how the pilot program is consistent with a risk-based approach designed to protect patients from inaccurate test results) prior to expanding the initial phase of the pilot program, initiating a reclassification, or proposing modifications to existing companion diagnostic guidance.

The agreement recognizes FDA has completed its first pre-market consultation for a human food made from cultured animal cells. The agreement requests a report to the Committees within 90 days of enactment of this Act outlining the pre-market consultation process for cell-cultured protein products and any agency plans to coordinate with its counterparts at USDA on further action regarding the same products.

The agreement recognizes that FDA has the authority, when necessary, to ban a device for one or more intended uses when it finds the device demonstrates substantial deception or unreasonable risk.

Prior to dedicating resources on front of package labeling activities, the agreement requests that FDA submit an explanation of FDA's statutory authority to impose such mandatory labeling requirements.

The agreement notes that there is some controversy regarding the use of enriched enrollment, randomized withdrawal (EERW) clinical trial designs. The agreement thus directs FDA to continue to review the value of EERW methodology for its use in evaluating new marketing applications for prescription opioid analgesics and to review EERW's use in approving opioid analgesics currently on the market.

In 2022, Congress passed legislation to update the Family Smoking Prevention and Tobacco Control Act to close a loophole that certain manufacturers were exploiting to circumvent regulation. The legislation stated that to remain in the market, manufacturers must receive an authorization from the FDA Center for Tobacco Products by July 14, 2022. To date, FDA has not granted any authorizations for synthetic products. The agreement understands that products containing synthetic nicotine continue to remain in the market. The agreement strongly urges the Center for Tobacco Products to immediately remove any product containing synthetic nicotine from the market whether or not such product is the subject of a pending Premarket Tobacco Product Application (PMTA) application filed in 2022, until such applications for synthetic products are authorized.

The agreement notes that the Tropical Disease Priority Review Voucher (PRV) Program was authorized in 2007 to provide an important incentive for the development of a drug or biological product for the prevention or treatment of a tropical disease from an established list of ''qualifying'' tropical diseases, and this list has not been updated since July 2020. Given that PRV programs are a critical pathway for the development of medical products to treat or prevent rare tropical diseases, FDA is directed to maintain the necessary resources to evaluate PRV candidates in a timely manner.

The agreement commends the strong and consistent leadership of the Center for Biologics and continues to closely monitor the promise of cell and gene therapy for patients, particularly children. The agreement expresses support for FDA leadership's commitment to remain the gold standard in understanding novel treatments and reviewing them based on current science and with all due urgency where unmet medical need exists.

The agreement notes that the Office of Congressional Appropriations has been operating without a permanent director since June of 2022 and directs the Commissioner to prioritize filling this position.

The agreement directs FDA to brief the Committee within 120 days of enactment of this Act regarding the agency's existing tools to comprehensively track prescription drugs imported into the U.S. through section 804 importation programs as well as enforcement resources available to ensure that FDA can ensure safe and effective imports.

The agreement is concerned by reports of both drug and device companies knowingly withholding research that showed their products had adverse health outcomes. The agreement requests a briefing within 90 days of enactment of this Act regarding the agency's surveillance and enforcement efforts to ensure accountability for companies that withhold material information concerning unsafe drug products.

DIVISION C—COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES APPROPRIATIONS ACT, 2024

The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in Senate Report 118–62 (''the Senate report'') carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement or the act. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein. In cases where the Senate report directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations (''the Committees'').

Each department and agency funded in this act shall follow the directions set forth in this act and the accompanying explanatory statement and shall not reallocate resources or reorganize activities except as provided herein. Reprogramming procedures shall apply to: funds provided in this act; unobligated balances from previous appropriations acts that are available for obligation or expenditure in fiscal year 2024; and non-appropriated resources such as fee collections that are used to meet program requirements in fiscal year 2024. These procedures are specified in section 505 of this act.

Any reprogramming request shall include any out-year budgetary impacts and a separate accounting of program or mission impacts on estimated carryover funds. Any program, project, or activity cited in this explanatory statement, or in the Senate report and not changed by this act, shall be construed as the position of the Congress and shall not be subject to reductions or reprogramming without prior approval of the Committees. Further, any department or agency funded in this act that plans a reduction-in-force shall notify the Committees by letter no later than 30 days in advance of the date of any such planned personnel action.

When a department or agency submits a reprogramming or transfer request to the Committees and does not receive identical responses, it shall be the responsibility of the department or agency seeking the reprogramming to reconcile the differences between the two bodies before proceeding. If reconciliation is not possible, the items in disagreement in the reprogramming or transfer request shall be considered unapproved. Departments and agencies shall not submit reprogramming notifications after July 1, 2024, except in extraordinary circumstances. Any such notification shall include a description of the extraordinary circumstances.

In compliance with section 528 of this act, each department and agency funded in this act shall submit spending plans, signed by the respective department or agency head, for the Committees' review not later than 45 days after the date of enactment of this act.

The Government Accountability Office (GAO) shall conduct ongoing reviews of large National Aeronautics and Space Administration (NASA) projects and major research equipment and facilities construction at the National Science Foundation, with reports to the Committees on a semiannual basis. The agencies shall provide access to all necessary data, as determined by GAO, in order for these reviews to be completed and provided to the Committees in a timely manner.

The departments and agencies funded in this act are directed to submit reports by the deadlines detailed herein or to provide advance notification if there is sufficient reason why deadlines cannot be met, along with the expected date of submission.

Some enduring reporting requirements from previous appropriations laws may no longer be necessary for congressional oversight purposes. In the interest of reducing government waste and expediting responses to current report mandates, each department or agency is invited to submit a list of reporting requirements that it considers outdated or no longer relevant for the review of the Committees. Any list submitted for review shall cite the original authority, as well as a justification for eliminating each reporting requirement.

For fiscal year 2024, all agencies and departments funded in this act are directed to follow prior year direction adopted in Public Law 116–93, on the following topics for this fiscal year: ''Fighting Waste, Fraud, and Abuse,'' ''Federal Vehicle Fleet Management,'' ''Reducing Duplication and Improving Efficiencies,'' ''Reprogrammings, Reorganizations, and Relocations,'' ''Congressional Budget Justifications,'' ''Reporting Requirements'' and ''Reductions-in-Force.''

The agreement urges the Departments of Commerce and Justice, the National Science Foundation, and NASA to work with the Office of Management and Budget to reduce printing and reproduction costs and directs each agency to report to the Committees within 60 days of enactment of this act on the steps it has taken to achieve this goal. The report should specifically identify how much funding each agency expects to save by implementing these measures.

The agreement directs each of the agencies funded by this act to comply with 31 U.S.C. 1115, including the development of their organizational priority goals and outcomes such as performance outcome measures, output measures, efficiency measures, and customer service measures. The agreement further directs agencies funded in this act to report on their plans to comply with the requirements of 31 U.S.C. 1115 within 90 days of enactment of this act.

Edward Byrne Memorial Justice Assistance Grant Program.—The Department is directed to continue following the directives in House Report 117–97 adopted by Public Law 117–103 on ''Byrne Memorial Justice Assistance Grant (Byrne JAG) Formula program'', and in the joint explanatory statement accompanying Public Law 117–103 on ''Uses of Byrne-JAG Funds.'' The agreement reinforces that Byrne JAG funds may be used by state, local, and Tribal law enforcement to combat and prevent hate crimes, to hire and train cybercrime personnel, and to train law enforcement and emergency dispatch personnel in cybercrime and encourages the use of these funds to support canine programs. The agreement urges the Department to release Byrne JAG funds as expeditiously as possible and clarifies that Byrne JAG funding may not be made available for luxury items, real estate, or construction projects.

Medication-assisted Treatment.—The agreement acknowledges concern about the impact of the growing epidemic of opioid and synthetic drug abuse and misuse on the law enforcement community and supports the use of Byrne JAG funds for the implementation of medication-assisted treatment programs to assist individuals in maintaining abstinence from all abused or misused drugs.

Forensic Genetic Genealogical (FGG) DNA Analysis.—Within amounts provided for the Office of Justice Programs, the agreement directs the Department to support efforts to use FGG to investigate unsolved violent crimes, without regard to the status of an applicant agency's sexual assault kit inventory. The Department is directed to track and report regularly on the number of FGG samples analyzed, the types of DNA technology deployed, and the number of perpetrators or human remains identified as a result. Further, the Department is encouraged to fund additional grants for the use of FGG technology under other appropriate programs including, but not limited to, the National Missing and Unidentified Persons System (NamUs) program.

The agreement directs the Department to assist with the initial costs associated with updating criminal history systems, integration with booking station systems, and purchasing new technologies associated with Rapid DNA.

Prescription Drug Monitoring Programs.—The agreement strongly supports the goals of the Harold Rogers Prescription Drug Monitoring Program and is concerned that a recent BJA reinterpretation of grant rules has effectively prohibited states from using PDMP grant funding to operate their PDMPs by requiring states to connect to a specific data hub solution in order to receive funding. The agreement notes that this is not consistent with allowing states to choose and operate the PDMP and data sharing hubs of their choice and directs BJA to allow states to utilize PDMP grant funding from the Harold Rogers Prescription Drug Monitoring Program to finance the PDMP of their choice and to connect to the interstate data exchange hub of their choice.

Mentally Ill Offender Act.—The Department is encouraged to prioritize Mentally Ill Offender Act grant funds for the operational expenses of mental health centers that assist those with severe mental health needs who are at risk of recidivism, such as crisis care, residential treatment, outpatient mental health and primary care services, and community re-entry support, and supports funding levels for grants be commensurate with demonstrated community needs.

Justice Reinvestment Initiative.—The agreement provides $32,000,000 for the Justice Reinvestment Initiative (JRI) and notes that OJP does not plan to support a program that promotes the closing or repurposing of youth detention facilities in fiscal year 2024. The agreement emphasizes that the Department should clearly detail how grant funds are being used in its spend plan prior to allocation, including JRI funds, and notify the Committees within 30 days of any intention to deviate from the previously proposed spend plan.

Comprehensive Opioid, Stimulant, and Substance Use Program (COSSUP).—The agreement provides $10,000,000 within COSSUP for grants to local nonprofits preventing substance use and misuse. BJA shall provide awards to local nonprofits working with law enforcement and community coalitions to educate youth in schools and in extracurricular programing on drug prevention. The agreement further directs the Department to prioritize nonprofit organizations with comprehensive approaches to combatting substance use, including investigations, treatment, and education.

DIVISION D—ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2024

The following statement to the House of Representatives and the Senate is submitted in explanation of the agreed upon Act making appropriations for energy and water development for the fiscal year ending September 30, 2024, and for other purposes.

The explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 118–126 and Senate Report 118–72 carries the same weight as the language included in this explanatory statement and should be complied with unless specifically addressed to the contrary in this explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein. Additionally, where this explanatory statement states that the ''agreement only includes'' or ''the following is the only'' direction, any direction included in the House or Senate report on that matter shall be considered as replaced with the direction provided within this explanatory statement. In cases where the House, the Senate, or this explanatory statement has directed a briefing or the submission of a report, such briefing or report is to be submitted to the Committees on Appropriations of both Houses of Congress, hereinafter referred to as the Committees. House or Senate reporting requirements with deadlines prior to or within 15 days of enactment of this Act shall be submitted not later than 60 days after enactment of this Act. All other reporting deadlines not changed by this explanatory statement are to be met.

Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

In fiscal year 2024, for purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99–177), the following information provides the definition of the term ''program, project, or activity'' for departments and agencies under the jurisdiction of the Energy and Water Development and Related Agencies Appropriations Act. The term ''program, project, or activity'' shall include the most specific level of budget items identified in the Energy and Water Development and Related Agencies Appropriations Act, 2024 and the explanatory statement accompanying this Act.

TITLE I—CORPS OF ENGINEERS—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

The summary tables included in this title set forth the dispositions with respect to the individual appropriations, projects, and activities of the Corps of Engineers (Corps). Additional items of this Act are discussed below.

Advanced Funds Agreements.—The agreement reiterates Senate direction.

Beneficial Use of Dredged Material.—The agreement reiterates Senate direction.

Continuing Contracts.—The agreement reiterates House and Senate direction.

Invasive Carp.—Congress has provided consistent funding to develop the program authorized in section 509 the Water Resources Development Act (WRDA) of 2020 and is frustrated with the lack of progress. The Corps is expected to finalize this program in fiscal year 2024. The agreement reiterates House and Senate direction with respect to this program and efforts to prevent invasive carp from reaching the Great Lakes.

Program Delivery.—The agreement reiterates House direction.

Reporting Requirement.—The agreement reiterates Senate direction.

ADDITIONAL FUNDING

In lieu of all House and Senate direction—under any heading—regarding additional funding, new starts, and the fiscal year 2024 work plan, the Corps shall follow the direction included in this explanatory statement.

The executive branch retains discretion over project-specific allocation decisions, subject to only the direction here and under the heading ''Additional Funding'' or ''Additional Funding for Ongoing Work'' within each of the Investigations, Construction, Mississippi River and Tributaries, and Operation and Maintenance accounts. The Administration is reminded that these funds are in addition to the budget request, and Administration budget metrics shall not be a reason to disqualify a study or project from being funded. A study or project may not be excluded from evaluation for funding due to being ''inconsistent with Administration policy.''

The agreement reiterates House direction regarding voluntary funding in excess of legally required cost shares.

It is expected that all of the additional funding provided will be allocated to specific programs, projects, or activities, and the allocation process shall favor the obligation, rather than expenditure, of funds. Additionally, the Administration shall consider the extent to which the Corps is able to obligate funds as it allocates the additional funding. The Corps shall evaluate all studies and projects only within accounts and categories consistent with previous congressional funding.

A project or study shall be eligible for additional funding within the Investigations, Construction, and Mississippi River and Tributaries accounts if: (1) it has received funding, other than through a reprogramming, in at least one of the previous three fiscal years; (2) it was previously funded and could reach a significant milestone, complete a discrete element of work, or produce significant outputs in fiscal year 2024; or (3) as appropriate, it is selected as one of the new starts allowed in accordance with this Act and the additional direction provided below. None of the additional funding in any account may be used for any item where funding was specifically denied or for projects in the Continuing Authorities Program (CAP). Funds shall be allocated consistent with statutory cost share requirements. The agreement reiterates Senate direction regarding allocating funds to projects consistent with categories and subcategories of Additional Funding provided.

Work Plan.—The Corps is directed to provide to the Committees not later than 60 days after enactment of this Act a work plan consistent with House and Senate direction regarding what information the work plan shall include. Such work plan shall also include a delineation of funds that were made available from Public Law 117–58, and in what amounts, to projects listed in the table titled ''Corps of Engineers—Construction.'' The agreement reiterates Senate direction with respect to apportioning funding for Congressionally Directed Spending. The Corps is directed to include with the work plan and future budget requests a list of studies and projects with adjusted cost share using the definition issued pursuant to section 160 of WRDA 2020 and the applicable cost share.

New Starts.—In addition to individual new starts specifically identified in this Act, the agreement includes three additional new starts in Investigations and one in Construction. The three new starts in Investigations shall be for flood and storm damage reduction studies that were authorized in WRDA 2022 and are in states that had a Federal Disaster Emergency declared in 2022. The new construction start shall be for flood and storm damage reduction. No further additional new starts are provided for in this Act.

The Corps is directed to notify the Committees at least seven days prior to execution of an agreement for construction of any project except environmental infrastructure projects and projects under the CAP. Neither study nor construction activities related to individual projects authorized under section 1037 of Water Resources Reform and Development Act of 2014 shall require a new start or new investment decision; these activities shall be considered ongoing work. No new start or new investment decision shall be required when moving from feasibility to preconstruction, engineering, and design (PED). The initiation of construction of an individually authorized project funded within a programmatic line item may not require a new start designation provided that some amount of construction funding under such programmatic line item was appropriated and expended during the previous fiscal year. No new start or new investment decision shall be required to initiate work on a separable element of a project when construction of one or more separable elements of that project was initiated previously, it shall be considered ongoing work. A new construction start shall not be required for work undertaken to correct a design deficiency on an existing federal project, it shall be considered ongoing work.

The Corps is directed to propose a single group of new starts as a part of the work plan. The Corps may not change or substitute the new starts selected once the work plan has been provided to the Committees. The Administration is reminded that only new starts with a willing and able non-federal sponsor should be included in the work plan.

INVESTIGATIONS

(INCLUDING RESCISSION OF FUNDS)

The agreement includes $142,990,000 for Investigations. The agreement also includes a rescission of $11,413,000 of unused, previously appropriated funds, for a net appropriation of $131,577,000.

The allocation for studies, projects and activities within the Investigations account is shown in the following table:

~ Funded in remaining items.
^ Funded in another account.
** Includes funds requested in Projects Listed Under States within this account.*

Updated Capabilities.—The agreement adjusts some project-specific allocations downward based on updated technical information from the Corps.

Additional Funding.—The Corps is expected to allocate the additional funding provided in this account primarily to specific feasibility and PED phases, rather than to remaining items as has been the case in previous work plans. The Corps shall include appropriate funding for studies initiated in fiscal year 2023.

Of the additional funding provided in the PED column in the table in this account, $7,000,000 shall be for Flood Risk Management PED activities.

The agreement reiterates House and Senate direction regarding priorities to be considered.

Arkansas Red River Chloride.—For the third consecutive year, the agreement rejects the budget request proposal to fund a disposition study for the Arkansas Red River Chloride Control project. The Corps is reminded that a project for which the agreement has explicitly denied funding shall not continue during the period covered by the most recently enacted appropriations bill or a subsequent continuing resolution.

Buffalo Bayou Tributaries and Resiliency Study.—The Corps is directed to provide not later than 60 days after enactment of this Act a briefing to the Committees on a final plan, cost estimate, and schedule for completion of the study.

Planning Support Program.—The agreement includes no direction.

Preconstruction, Engineering, and Design (PED).—The agreement recognizes a fundamental flaw with the current policies the Corps uses to plan and design projects. Specifically, the Corps shifts risk to PED to comply with study duration and cost metrics. At the same time water resources development projects are increasingly complex and more frequently multi-billion dollar projects. The combination of these two phenomena produces significant cost inaccuracies and uncertainties that are not discovered nor addressed until after a project is authorized, or worse, after construction begins. The budget recommendations fail to address or acknowledge this flaw because sufficient PED has not been completed to reduce risk before construction. Rather, the willingness to advance Chief's reports and move projects into construction with minimal design in order to keep an artificial cap on the Investigations account exacerbates increased costs over the duration of a construction project. The Corps is expected to make changes that address these challenges in order for non-federal sponsors, the Corps, and the Committees to have more clarity of project scope, challenges, and cost estimates before construction commences.

The Corps is directed to provide to the Committees not later than 60 days after enactment of this Act a briefing on technical information related to study and project execution specific to PED. The briefing shall address the appropriate level of design during feasibility studies, the appropriate level of PED required before a construction new start, and how cost estimate classifications may best be adjusted for changing environments. Finally, the briefing should address any system or database challenges that could hinder execution of these necessary changes.

Project Cost Updates.—Corps policy requires regular updates of the economics and costs of authorized projects that have not yet received construction funds, but such updates are not feasible without dedicated funds. The agreement provides funding for updates to authorized projects that have not received construction funds where those updates are necessary to recertify project costs or verify economic justification. The Corps is encouraged to recommend funding in future budget submissions for these activities.

Research and Development.—The agreement provides $4,000,000 to continue the modernization of existing Corps coastal and hydraulics models.

Research and Development, Biopolymers.—The agreement provides $6,000,000 to complete this effort.

Research and Development, Flood and Coastal Systems.—The agreement provides $5,000,000 to complete efforts to research and develop automated assessment and inspection of flood control systems, for the purpose of identifying levee deficiencies.

Research and Development, Modeling.—The agreement funds this effort in the Operation and Maintenance account, under the heading ''Regional Sediment Management, Geophysical Modeling.''

Research and Development, Urban Flood Damage Reduction.—The agreement funds this effort in the Operation and Maintenance account, under the heading ''Water Operations Technical Support, Urban Flood Damage Reduction and Stream Restoration in Arid Regions.''

CONSTRUCTION

(INCLUDING RESCISSION OF FUNDS)

The agreement includes $1,854,688,000 for Construction. The agreement also includes a rescission of $9,678,000 of unused, previously appropriated funds, for a net appropriation of $1,845,010,000. The agreement also includes $1,434,500,000 from the use of prior-year balances from Public Law 117–58. Of the funds made available from Public Law 117–58, not less than $113,537,000 shall be allocated to inland navigation purpose construction projects named in the following table.

The allocation for projects and activities within the Construction account is shown in the following table:

^ Includes funds requested in Projects Listed Under States within this account

Updated Capabilities.—The agreement adjusts some project-specific allocations downward based on updated technical information from the Corps.

Additional Funding.—Of the additional funding provided in this account for flood and storm damage reduction, the Corps shall allocate not less than $30,000,000 to additional nonstructural flood control projects and continue construction of projects that principally address drainage in urban areas, of which not less than $20,000,000 shall be for projects that principally include improvements to rainfall drainage systems that address flood damages.

Of the additional funding provided in this account, the Corps shall allocate not less than $20,000,000 to projects with riverfront development components.

Of the additional funding for other authorized project purposes and environmental restoration or compliance, the Corps shall allocate not less than $20,000,000 for execution of comprehensive restoration plans developed by the Corps for major bodies of water. The Corps is reminded that shore protection projects are eligible to compete for additional funding for flood and storm damage reduction.

Of the additional funding provided for Environmental Infrastructure, not less than $11,000,000 shall be for a multi-state environmental infrastructure program.

When allocating the additional funding provided in this account, the Corps is encouraged to evaluate authorized reimbursements in the same manner as if the projects were being evaluated for new or ongoing construction. The agreement reiterates House and Senate direction regarding priorities to be considered.

Aquatic Plant Control Program.—The agreement includes additional funding of $9,000,000 for watercraft inspection stations and related monitoring, consistent with Senate direction; $1,000,000 for activities related to monitoring, surveying and control of hydrilla verticillate and flowering rush; $5,000,000 for nationwide research; and $5,000,000 to address infestations of hydrilla in Lake Champlain and the Connecticut River basins. The agreement notes that there is no additional capability for activities authorized pursuant to section 509 of WRDA 2020; the agreement expects swift progress on these efforts using existing funds.

Aquatic Plant Control Program, Mississippi River Basin.—The agreement includes $150,000 consistent with Senate direction.

Charleston Harbor.—The funding provided is for reimbursement of the advanced funds provided by the non-federal sponsor.

Chicago Sanitary and Ship Canal Dispersal Barrier, Illinois.—The agreement reiterates Senate direction.

Environmental Infrastructure.—Funding is provided under the heading ''Additional Funding.''

Levisa and Tug Forks and Upper Cumberland River, VA, WV, & KY.—The funding is provided to initiate the Detailed Project Report for McDowell County, WV.

Prior-year Balances (CAP).—Prior-year balances shall be derived from unobligated, previously appropriated CAP funds.

Real Estate Requirements for Shore Protection Projects.—The agreement notes ongoing obstacles to carrying out authorized shore protection projects in the South Atlantic Division. The lack of progress is concerning. The Corps is directed to review its existing real estate policies that were developed to ensure compliance with WRDA 1986. Not later than 90 days after enactment of this Act the Corps shall provide to the appropriate committees of Congress a briefing that recommends alternatives to existing real estate requirements that would enable expeditious construction of delayed projects and incorporates the views of non-federal sponsors.

 # Includes funds requested in a Harbor Maintenance Trust Fund account.

Updated Capabilities.—The agreement adjusts some project-specific allocations downward based on updated technical information from the Corps.

Additional Funding for Ongoing Work.—The agreement reiterates House and Senate direction regarding priorities to be considered.

Of the additional funding provided in this account for navigation maintenance, the Corps shall allocate not less than $350,000 for the purpose of completing the report required in section 8205 of WRDA 2022. It is expected that completion of this report will enable Corps Districts to readily develop work packages for Harbor Maintenance Trust Fund (HMTF)-eligible work that reflects maintenance to authorized dimensions instead of historical maintenance levels.

Of the additional funding provided in this account for other authorized project purposes, $200,000 shall be to provide a report consistent with the direction under the heading ''Levee Rehabilitation Projects in the Northwestern Division.''

Of the additional funding provided in this account for other authorized project purposes, $2,600,000 shall be for cooperation and coordination with the Great Lakes States to develop sediment transport models for Great Lakes tributaries that discharge to federal navigation channels and for water control manual updates for non-Corps owned high hazard dams where: (1) the Corps has a responsibility for flood control operations under section 7 of the Flood Control Act of 1944; (2) the dam requires coordination of water releases with one or more other high-hazard dams for flood control purposes; and (3) the dam owner is actively investigating the feasibility of applying forecast-informed reservoir operations.

The Corps shall allocate the additional funding provided in this account consistent with the direction under the headings ''Donor & Energy Transfer Ports'' and ''Harbor Maintenance Trust Fund Targets.''

Aquatic Nuisance Control Research Program.—The agreement provides $5,000,000 to supplement activities related to harmful algal bloom research and control, consistent with House direction; $3,500,000 to develop next generation ecological models, consistent with House and Senate direction; $5,000,000 to continue work on the Harmful Algal Bloom Demonstration Program, as authorized by WRDA of 2020; and $4,000,000 to work with university partners, consistent with Senate direction.

Asset Management/Facilities and Equipment Maintenance (FEM).—The agreement provides $2,000,000 to continue research on novel approaches to repair and maintenance practices that will increase civil infrastructure intelligence and resilience.

Asset Management/FEM, Structural Health Monitoring.—The agreement includes $5,000,000 to support the structural health monitoring program to facilitate research to maximize operations, enhance efficiency, and protect asset life through catastrophic failure mitigation.

Coastal Inlets Research Program.—The agreement includes $14,200,000 in addition to the budget request for the Corps-led, multi-university effort to identify engineering frameworks to address coastal resilience needs; to develop adaptive pathways that lead to coastal resilience; for efforts that measure the coastal forces that lead to infrastructure damage and erosion during extreme storm events; to improve coupling of terrestrial and coastal models; and to continue work with the National Oceanic and Atmospheric Administration's National Water Center on protecting the nation's water resources.

Coastal Ocean Data System (CODS).—The agreement includes $9,800,000 to continue CODS base program activities, of which not less than $6,000,000 for long-term coastal wave and coastal sediment observations, research, and data products that support sustainable coastal and navigation projects.

Donor & Energy Transfer Ports.—The agreement directs the Corps to allocate any work plan HMTF funding for Donor and Energy Transfer Ports consistent with section 102 and section 104 of WRDA 2020. The Corps is reminded that Donor and Energy Transfer Ports are eligible to receive additional funding recommended in the deep-draft harbor and channel funding line for expanded uses.

Engineering With Nature.—The agreement includes $5,000,000 to support ongoing research with university partners and $5,000,000 to support research, development, and design of natural infrastructure solutions for the nation's bays and estuaries, consistent with House and Senate direction, as applicable.

Harbor Maintenance Trust Fund Targets.—The agreement expresses disappointment that the Corps has twice failed to recommend HMTF work to meet the section 102 WRDA 2020 targets and encourages the Corps to include full funding in future budget submissions. Donor and energy transfer ports are critical to the national supply chain and fundamental to maintaining international competitiveness. Stable HMTF funding for expanded uses can assist with capital improvements at these critical ports, which already pay a significant share of the collected tax. The agreement expects the Corps to meet the donor and energy target in the fiscal year 2024 work plan. In conjunction with the fiscal year 2024 work plan, the Corps is directed to provide to the Committees a list of all projects with HMTF funding amounts for each section 102 WRDA target, including expanded uses.

Inland Water Navigation Charts.—The agreement reiterates Senate direction.

Lake Sidney Lanier, GA.—The agreement notes local frustration stemming from the threat of closing campgrounds and other recreational services in the vicinity of Lake Lanier at the start of peak recreation season. The Corps is expected to partner and collaborate with local communities and stakeholders to find creative opportunities to maximize recreation opportunities.

Levee Safety.—The agreement includes $1,000,000 to meet the requirements of section 131 of WRDA 2020. The agreement notes that the Corps has paused the formation of the Levee Safety Committee to better incorporate the views of levee sponsors. The Corps is directed to provide a briefing to the Committees at least 30 days prior to resuming these efforts.

Levee Rehabilitation Projects in the Northwestern Division.—The agreement reiterates Senate direction. Funding for this work in the amount of $200,000 is provided under the heading ''Additional Funding for Ongoing Work''.

Monitoring of Completed Navigation Projects, Fisheries.—The Corps is directed to continue ongoing research. The agreement includes $3,000,000 for research to assist the Corps across all waterways, lock structures, lock operation methods, and fish species and that will more fully inform the Corps' operations. Additionally, the agreement provides $1,500,000 for the National Information Collaboration on Eco-hydraulics effort to research the impact of reduced lock operations on riverine fish, consistent with House and Senate direction, as applicable.

Monitoring of Completed Navigation Projects, Structural Health Monitoring.—Funding is provided under the heading ''Asset Management/Facilities and Equipment Maintenance (FEM).''

North Atlantic Division Report on Hurricane Barriers and Harbors of Refuge.—Within available funds for ''Reducing Civil Works Vulnerabilities'', the agreement includes $700,000 for the report mandated under section 1218 of America's Water Infrastructure Act (AWIA) of 2018.

Regional Dredge Contracting.—The agreement notes that the Corps has utilized regional dredge contracting in various regions but not in New England. The Corps is encouraged to enter into regional contracts to support increased efficiencies in the deployment of dredges for navigation projects in the New England region. The Corps is directed to brief the Committees not later than 45 days after enactment of this Act on the opportunities to implement regional dredge contracting processes in the New England region.

Regional Sediment Management.—The agreement includes $6,000,000 to develop integrated tools that build coastal resilience across navigation, flood risk management, and ecosystem projects within the program.

Regional Sediment Management, Geophysical Modeling.—The agreement reiterates Senate direction.

Water Operations Technical Support (WOTS), Forecast Informed Reservoir Operations (FIRO).—The agreement includes $10,000,000 to continue progress.

Water Operations Technical Support, Urban Flood Damage Reduction and Stream Restoration in Arid Regions.—The agreement reiterates Senate direction.

Water Operations Technical Support, Water Control Manual Updates.—Funding is provided under the heading ''Additional Funding for Ongoing Work.''

OFFICE OF THE ASSISTANT SECRETARY OF THE ARMY FOR CIVIL WORKS

The agreement includes $5,000,000 for the Office of the Assistant Secretary of the Army for Civil Works. The agreement includes a restriction on the obligation of funds related to written recommendations.

A timely and accessible executive branch in the course of fulfilling its constitutional role in the appropriations process is essential. The requesting and receiving of basic, factual information, such as budget justification materials and statutorily required reports, including execution reports and damage repair estimates, are vital in order to maintain a transparent and open governing process. The agreement recognizes that some discussions internal to the executive branch are pre-decisional in nature and, therefore, not subject to disclosure. However, the access to facts, figures, and statistics that inform these decisions are not subject to this same sensitivity and are critical to the appropriations process. The Administration shall ensure timely and complete responses to these inquiries. While the agreement notes initial progress in providing the

required reports, the regression to significant delays was swift and conspicuous. It is imperative that these reports are provided on a regular basis here forward.

WATER INFRASTRUCTURE FINANCE AND INNOVATION PROGRAM ACCOUNT

The agreement provides $7,200,000 for the Water Infrastructure Finance and Innovation Program Account, including $5,000,000 for program development, administration, and oversight and $2,200,000 for the financial assistance authorized by the Water Infrastructure Finance and Innovation Act (Public Law 113–121) program.

Additional Funding for Ongoing Work.—The agreement includes funds above the budget request for Water and Related Resources studies, projects, and activities. This funding is for additional work that either was not included in the budget request or was inadequately budgeted. Priority in allocating these funds should be given to advance and complete ongoing work, including preconstruction activities and where environmental compliance has been completed; improve water supply reliability; improve water deliveries; enhance national, regional, or local economic development; promote job growth; advance tribal and nontribal water settlement studies and activities; or address critical backlog maintenance and rehabilitation activities.

Of the additional funding provided under the heading ''Water Conservation and Delivery'', $134,000,000 shall be for water storage projects as authorized in section 4007 of the Water Infrastructure Improvements for the Nation (WIIN) Act (Public Law 114–322).

OFFICE OF THE INSPECTOR GENERAL

The agreement provides $86,000,000 for the Office of the Inspector General (OIG).

The Inspector General has requested extensive payroll and other sensitive and personally identifiable information from multiple Department contractors, spanning multiple years and covering thousands of employees. Subsequent to these requests, the Department published a proposed rulemaking in the

Federal Register on November 27, 2023, seeking to exempt the System of Records (SOR) in which this sensitive data would be maintained from certain protections of the Privacy Act, which it would otherwise be obligated to follow. Among the provisions the Department seeks to exempt are 5 U.S.C. 552a(e)(5), which requires the agency to ''maintain all records which are used by the agency in making any determination about any individual with such accuracy, relevance, timeliness, and completeness as is reasonably necessary to assure fairness to the individual in the determination''; and (e)(1), which requires the agency to ''maintain in its records only such information about an individual as is relevant and necessary to accomplish a purpose of the agency required to be accomplished by statute or by executive order of the President.''

The agreement expresses concern over both the breadth of the data collected and how the Department has proposed to store it. There is also concern over the lack of transparency about the source and amounts of funding that would be required in FY24 and subsequent fiscal years to maintain such a system, including providing adequate safeguards for the data, any required infrastructure, and dedicated FTEs. Accordingly, prior to obligating any funds provided in this Act to modify the SOR or collect additional data to populate it, the Department and OIG shall provide to the Committees a report, which shall include at a minimum:

- The specific purposes for the information collected;
- The estimated cost and sources of funds for such data collection and storage prior to the date of enactment of this Act;
- An estimate, by fiscal year and source, of costs associated with collecting, analyzing, securing, and maintaining the data proposed to be stored in the SOR, including costs (maintenance or otherwise) of any infrastructure;
- A detailed description of the safeguards the Department and OIG will use to protect the sensitive data;
- Any applicable policies that exist to protect the sensitive data from abuse or disclosure, including limits on accessing the data only for official purposes;
- An estimate of the length of time the Department and OIG proposes to retain the collected data; and
- Whether the aggregation of data may require additional safeguards.

DIVISION E—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2024

The following statement is an explanation of the effects of Division E, which provides appropriations for the Department of the Interior, the Environmental Protection Agency (EPA), the Forest Service, the Indian Health Service, and related agencies for fiscal year 2024.

The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 118–155 and Senate Report 118–83 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein.

In cases where the House Report, Senate Report, or this joint explanatory statement direct the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. Where this joint explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Interior, Environment, and Related Agencies and the Senate Subcommittee on Interior, Environment, and Related Agencies.

Each department and agency funded in this Act is directed to follow the directions set forth in this Act and the accompanying statement and to not reallocate resources or reorganize activities except as provided herein or otherwise approved by the House and Senate Appropriations Committees through the reprogramming process as referenced in this Act. This joint explanatory statement addresses only those agencies and accounts for which there is a need for greater explanation than provided in the Act itself. Funding levels for appropriations by account, program, and activity, with comparisons to the fiscal year 2023 enacted level and the fiscal year 2024 budget request, can be found in the table at the end of this division.

Unless expressly stated otherwise, any reference to ''this Act'' or ''at the end of this statement'' shall be treated as referring only to the provisions of this division.

Bighorn Sheep.—The Committees are aware that the Forest Service and the Bureau of Land Management use the Western Association of Fish and Wildlife Agencies' occupied bighorn habitat maps, telemetry data, and recent bighorn observations in conducting Risk of Contact analyses and that risk of contact models are currently being run on a State-wide basis where sufficient data exists. The Committees direct the agencies to complete Risk of Contact analyses using the Western Association of Fish and Wildlife Agencies' data where it exists. The Committees expect the agencies to continue to share findings transparently and promptly with other Federal land management agencies, State and local governments, State wildlife agencies, and State and Federal animal health professionals, including the Agricultural Research Service, permittees, and stakeholders.

Gay Mine Superfund.—The Bureau of Indian Affairs, the Environmental Protection Agency, and the Bureau of Land Management are directed to collaborate to provide a status update to the Committees on reclamation efforts at the site and potential reclamation solutions, as well as their efforts to ensure engagement with the Shoshone-Bannock Tribes and industry stakeholders, within 90 days of enactment of this Act.

Grizzly Bears.—Not less than 90 days after the date of enactment of this Act, the Fish and Wildlife Service and the National Park Service are directed to provide an in-depth briefing regarding the draft environmental impact statement and the accompanying 10(j) proposal under the Endangered Species Act on the Establishment of a Nonessential Experimental Population of Grizzly Bear in the North Cascades Ecosystem. The Fish and Wildlife Service and the National Park Service must also brief on their plans to work collaboratively with Tribes, other Federal agencies, States, local communities, and landowners on recovery actions for this species.

Lake Boehmer.—The Committees are concerned about high levels of arsenic and radionuclide in Lake Boehmer and direct the Department of the Interior and the Environmental Protection Agency to provide a report within 90 days of enactment of this Act identifying potential opportunities within their existing authorities to work with the State of Texas and the Middle Pecos Groundwater Conservation District to assess the public health concerns at Lake Boehmer and remediate the damage.

Land Use.—The Committees direct the Bureau of Land Management and other land management agencies to follow the multiple use mandate, as required by Federal Land Policy and Management Act (FLPMA), when developing resource management plans (RMPs). During the RMP development process, land management agencies are to take into account the long-term needs of future generations for renewable and nonrenewable resources including, but not limited to, recreation, range, timber, minerals, watershed, wildlife and fish, natural scenic, scientific and historical values. Additionally, plans should be developed in close coordination and consultation with local communities, State and Tribal governments, and other stakeholders.

Litigation.—The agreement does not include the language in House Report 118–155 in the third paragraph under the heading ''Cost of Litigation and Lack of Transparency.''

National Parks and Public Land Legacy Restoration Fund.—The Committees emphasize that, pursuant to the Great American Outdoors Act, project allocations are final and must be adhered to.

Onshore and Offshore Leasing.—The agreement does not include the language in House Report 118–155 under the headings ''Onshore and Offshore Leasing and Permitting Transparency''; ''Pending Applications for Permits to Drill''; ''Staff Planning''; and ''Public Availability of Data.''

Procurement of Personal Protective Equipment (PPE).—The Department of the Interior Office of Wildland Fire and the Forest Service are directed to evaluate the provision of supplies during this fire season and provide a briefing to the Committees within 90 days of enactment of this Act on any issues related to cost trends, supply chain or other challenges to providing the appropriate materials. Additionally, the briefing should cover the standard list of PPE, any trends of regions with higher than average replacement needs, regions with current higher than average outstanding replacement needs and how replacement of such is managed by the two agencies.

Transportation Initiatives.—The agreement does not include the funding direction in House Report 118–155 under the headings ''Light-Duty Vehicle Fleet.''

Water Rights.—The Committees direct the Forest Service and the Department of the Interior to provide a briefing within 90 days of enactment of this Act on current authorities and practices related to agency actions and water rights granted under state law, including engagement with local landowners and other constituents.

LAND AND WATER CONSERVATION FUND

With enactment of the Great American Outdoors Act (GAOA) (Public Law 116–152), Congress provided a permanent appropriation of $900,000,000 per year from the Land and Water Conservation Fund (LWCF). Along with other mandatory appropriations, LWCF programs are subject to a 5.7 percent sequestration, with those sequestered amounts becoming available in the subsequent fiscal year. GAOA also mandated that account allocations and detailed project information be proposed by the administration each year through the President's annual budget submission, and that such allocations, following review by the Committees on Appropriations, may be modified through an alternate allocation.

A detailed table accompanying this explanatory statement shows the LWCF allocation for fiscal year 2024 by agency, account, activity, and project, including lists of specific Federal land acquisition projects and Forest Legacy Program projects. Additional tables provide details for the reallocation of unobligated balances appropriated in previous years to projects that have been completed, deferred, or terminated and are being transferred to currently viable projects.

The agencies are expected to continue to follow the directions included in the explanatory statement accompanying the Consolidated Appropriations Act, 2021 (Public Law 116–260) under General Implementation. The Committees continue to monitor the Department of the Interior and the Forest Service's progress to ameliorate concerns with the appraisal process and expect regular updates on these efforts.

U.S. Fish and Wildlife Service.—Fiscal year 2024 funds provided to the Fish and Wildlife Service for the Flint Hills Conservation Area shall only be used to acquire land easements in areas which lie North of Township 22 South and/or East of Range 13 East, as well as those in Township 22 South and Range 3 East through Range 9 East, all of the Sixth Principal Meridian within the U.S. Public Lands Survey System.

The Service is expected to provide outreach to all units of the National Wildlife Refuge System, including Clarks, Edwards, Green River, Loxahatchee, McKinney, and Ottawa, to ensure these refuges are accessing all available funding tools, including recreational access and inholdings. The Service is strongly encouraged to begin due diligence work on the accumulating backlog of parcels available at Clarks River National Wildlife Refuge.

National Park Service.—The Committees are aware of unobligated discretionary balances not associated with any state or specific project within the Service's state assistance programs. Further, since this discretionary funding has passed the three-year time period for obligation, a portion has been rescinded in this bill. Sufficient funding is available for programs to continue at current levels. Along with balances of prior year discretionary funding, the Committees are also aware mandatory funds are starting to accrue beyond the three-year window for formula grant obligation and a reasonable timeframe for competitive grant obligation. The Service is directed to brief the Committees within 30 days of enactment of this Act regarding the status of the mandatory balances and how reallocating unobligated formula funding as part of the annual allocation to states in the subsequent year could reduce those balances.

Forest Legacy Program.—The Forest Service is directed to use unobligated balances as

needed to complete all of the projects listed in the table accompanying this explanatory statement.

REPROGRAMMING GUIDELINES

The following are the procedures governing reprogramming actions for programs and activities funded in the Department of the Interior, Environment, and Related Agencies Appropriations Act. The agencies funded in this Act are reminded that these reprogramming guidelines are in effect, and must be complied with, until such time as the Committees modify them through bill or report language.

Definitions.—''Reprogramming,'' as defined in these procedures, includes the reallocation of funds from one budget activity, budget line-item, or program area to another within any appropriation funded in this Act. In cases where either the House or Senate Committee on Appropriations report displays an allocation of an appropriation below that level, the more detailed level shall be the basis for reprogramming.

For construction, land acquisition, and forest legacy accounts, a reprogramming constitutes the reallocation of funds, including unobligated balances, from one construction, land acquisition, or forest legacy project to another such project.

A reprogramming shall also consist of any significant departure from the program described in the agency's budget justifications. This includes all proposed reorganizations or other workforce actions detailed below which affect a total of 10 staff members or 10 percent of the staffing of an affected program or office, whichever is less, even without a change in funding. Any change to the organization table presented in the budget justification shall also be subject to this requirement.

Agencies are reminded that this agreement continues longstanding General Guidelines for Reprogramming that require agencies funded by this Act to submit reorganization proposals for the Committees' review prior to their implementation. It is noted that such reprogramming guidelines apply to proposed reorganizations, workforce restructure, reshaping, transfer of functions, or bureau-wide downsizing and include closures, consolidations, and relocations of offices, facilities, and laboratories. In addition, no agency shall implement any part of a reorganization that modifies regional or State boundaries for agencies or bureaus that were in effect as of the date of enactment of this Act unless approved consistent with the General Guidelines for Reprogramming procedures specified herein. Any such reprogramming request submitted to the Committees on Appropriations shall include a description of anticipated benefits, including anticipated efficiencies and cost-savings, as well as a description of anticipated personnel impacts and funding changes anticipated to implement the proposal.

General Guidelines for Reprogramming.—

(a) A reprogramming should be made only when an unforeseen situation arises, and then only if postponement of the project or the activity until the next appropriation year would result in actual loss or damage.

(b) Any project or activity, which may be deferred through reprogramming, shall not later be accomplished by means of further reprogramming, but instead, funds should again be sought for the deferred project or activity through the regular appropriations process.

(c) Except under the most urgent situations, reprogramming should not be employed to initiate new programs or increase allocations specifically denied or limited by Congress, or to decrease allocations specifically increased by the Congress.

(d) Reprogramming proposals submitted to the House and Senate Committees on Appropriations for approval will be considered as expeditiously as possible, and the Committees remind the agencies that in order to process reprogramming requests, adequate and timely information must be provided.

Criteria and Exceptions.—A reprogramming must be submitted to the Committees in writing prior to implementation if it exceeds $1,000,000 annually or results in an increase or decrease of more than 10 percent annually in affected programs or projects, whichever amount is less, with the following exceptions:

(a) With regard to the Tribal priority allocations of the Bureau of Indian Affairs (BIA) and Bureau of Indian Education (BIE), there is no restriction on reprogrammings among these programs. However, the Bureaus shall report on all reprogrammings made during a given fiscal year no later than 60 days after the end of the fiscal year.

(b) With regard to the EPA, the Committees do not require reprogramming requests associated with the States and Tribes Partnership Grants or up to a cumulative total of $5,000,000 from carryover balances among the individual program areas delineated in the Environmental Programs and Management account, with no more than $1,000,000 coming from any individual program area. No funds, however, shall be reallocated from individual Geographic Programs.

(c) With regard to the National Park Service, the Committees do not require reprogramming requests associated with the park base within the Park Management activity in the Operation of the National Park System Account. The Service is required to brief the House and Senate Committees on Appropriations on spending trends for the park base within 60 days of enactment of this Act.

Assessments.—''Assessment'' as defined in these procedures shall refer to any charges, reserves, or holdbacks applied to a budget activity or budget line item for costs associated with general agency administrative costs, overhead costs, working capital expenses, or contingencies.

(a) No assessment shall be levied against any program, budget activity, subactivity, budget line item, or project funded by the Interior, Environment, and Related Agencies Appropriations Act unless such assessment and the basis therefor are presented to the Committees in the budget justifications and are subsequently approved by the Committees. The explanation for any assessment in the budget justification shall show the amount of the assessment, the activities assessed, and the purpose of the funds.

(b) Proposed changes to estimated assessments, as such estimates were presented in annual budget justifications, shall be submitted through the reprogramming process and shall be subject to the same dollar and reporting criteria as any other reprogramming.

(c) Each agency or bureau which utilizes assessments shall submit an annual report to the Committees, which provides details on the use of all funds assessed from any other budget activity, line item, subactivity, or project.

(d) In no case shall contingency funds or assessments be used to finance projects and activities disapproved or limited by Congress or to finance programs or activities that could be foreseen and included in the normal budget review process.

(e) New programs requested in the budget should not be initiated before enactment of the bill without notification to, and the approval of, the Committees. This restriction applies to all such actions regardless of whether a formal reprogramming of funds is required to begin the program.

Quarterly Reports.—All reprogrammings between budget activities, budget line-items, program areas, or the more detailed activity levels shown in this agreement, including those below the monetary thresholds established above, shall be reported to the Committees within 60 days of the end of each quarter and shall include cumulative totals for each budget activity or budget line item, or construction, land acquisition, or forest legacy project.

Land Acquisitions, Easements, and Forest Legacy.—Lands shall not be acquired for more than the approved appraised value, as addressed in section 301(3) of Public Law 91–646, unless such acquisitions are submitted to the Committees on Appropriations for approval in compliance with these procedures.

Land Exchanges.—Land exchanges, wherein the estimated value of the Federal lands to be exchanged is greater than $1,000,000, shall not be consummated until the Committees have had 30 days in which to examine the proposed exchange. ln addition, the Committees shall be provided advance notification of exchanges valued between $500,000 and $1,000,000.

Budget Structure.—The budget activity or line item structure for any agency appropriation account shall not be altered without advance approval of the Committees.

Ensure Safe Water.—Within available funds, the agreement provides no less than $5,000,000 for the Agency's continued work within the Underground Injection Control (UIC) program related to Class VI wells for geologic sequestration to help develop expertise and capacity at the Agency. These funds should be used by the Agency to expeditiously review and process Class VI permits and primacy applications from States and Tribes.

In addition, the agreement provides $1,200,000 to support Class VI regulator education and training programs in conjunction with States or other eligible entities such as an association of States.

Within 270 days of enactment of this Act, the Agency is directed to provide a report to the Committees detailing a plan for consideration of guidance regarding the transition of UIC Class II wells used for long-term geologic storage of carbon dioxide to UIC Class VI wells under the existing regulatory structure.

Within the available funds, the agreement continues the enacted level of $3,000,000 for the Agency to complete the needs assessment for nationwide rural and urban low-income community water assistance authorized in section 50108 of the Infrastructure Investment and Jobs Act (Public Law 117–58). The Agency is directed to brief the Committees on plans for survey implementation within 120 days of enactment of this Act.

Additional Guidance.—The following additional guidance is included:

Transboundary Watersheds.—The Committees direct the Agency to continue and expand its work coordinating with Federal, State, local, and Tribal agencies to monitor and reduce transboundary mining pollution in the Kootenai watershed and other U.S.-British Columbia transboundary watersheds. The Committees provide $2,000,000 for such monitoring, management, and interagency activities in U.S.-British Columbia transboundary watersheds. The Committees remind the Agency of the direction in the explanatory statement accompanying Public Law 117–103 to brief the Committees on the Agency's progress to document baseline conditions and mining-related impacts, and any additional staff or resources needed for this project. The Committees direct the Agency to allocate these funds in its fiscal year 2024 operating plan to the appropriate program project area for carrying out these activities.

Small Refinery Relief.—The Committees recognize that the Renewable Fuels Standard [RFS] under Clean Air Act Section 211(o)(9) provides that the Agency may exempt small refineries from compliance with the RFS in certain circumstances and that a small refinery ''may at any time petition the Administrator for an extension of the exemption for the reason of disproportionate economic hardship.''

Pre-Commercial Thinning.—The Committees recognize that pre-commercial thinning from non-Federal forestland that is not ecologically sensitive forestland can qualify as renewable biomass for purposes of the RFS under the provisions detailed in 40 C.F.R. 80.1401. The Committees direct the Agency to support other Federal agencies leading efforts to enhance markets for low-grade and low-value wood. The Agency is further directed to brief the Committees on these efforts within 180 days of enactment of this Act.

(INCLUDING RESCISSION OF FUNDS)

The bill provides $4,418,938,000 for the State and Tribal Assistance Grants program and includes the following specific funding levels and direction:

Community Project Funding Items/Congressionally Directed Spending Items.—From within funds provided for capitalization grants for the Clean Water State Revolving Fund and the Drinking Water State Revolving Fund, the agreement provides $787,652,267 from the Clean Water SRF and $631,659,905 from the Drinking Water SRF for Community Project Funding/Congressionally Directed Spending grants for the construction of drinking water, wastewater, and stormwater infrastructure and for water quality protection.

Infrastructure Projects.—Each project shall provide not less than 20 percent matching funds from non-Federal sources, unless approved for a waiver. Applicable Federal requirements that would apply to a Clean Water State Revolving Fund or Drinking Water State Revolving Fund project grant recipient shall apply to a grantee receiving a Congressionally directed spending grant under this section. The Committees note that the following funds are to be treated as non-Federal funds and can be used to meet the non-Federal matching fund requirement: U.S. Department of Housing and Urban Development, Community Development Block Grant Program; U.S. Department of Agriculture, Rural Development Program; Appalachian Regional Commission grants; and Delta Regional Authority grants. Funding made available to jurisdictions through the American Rescue Plan Act of 2021 (Public Law 117–2) is considered Federal funding and may not be applied towards the non-Federal cost share requirement.

The Committees remain concerned that EPA does not have sufficient resources necessary to expeditiously implement this program and fully support recipients as they address applicable Federal grant requirements.

Accordingly, the agreement provides $13,300,000 in funding for salaries, expenses, and administration for Congressionally Directed Spending and Community Project Funding grants provided in fiscal year 2022 and fiscal year 2023 and this Act. While the Committees appreciate the technical assistance the Agency has provided in recent months, the Committees remain concerned that more work is needed to resolve the Agency's significant backlog of projects, as discussed in the fiscal year 2024 Senate appropriations hearing. Required by a provision in the bill, the Committees direct the Agency to provide a briefing within 45 days and a subsequent report within 90 days of enactment of this Act proposing efficient solutions for substantially increasing the Agency's effectiveness and timeliness in administering Community Project Funding and Congressionally Directed Spending projects. This briefing and report must include: ways to streamline environmental reviews, additional statutory authority that may be helpful to the Agency, and any additional options the Agency sees fit to recommend to the Committees, other than increased staffing at the Agency. The report must include detailed legislative text, including bill language, if necessary, for these proposals.

The agreement further directs the Agency to include in the above-mentioned required report, a detailed legislative structure to allow States to implement and manage Community Project Funding/Congressionally Directed Spending grants. The proposed legislative structure must include the following elements: allow States to apply or elect to manage a project or projects, including where recipients of Community Project Funding/Congressionally Directed Spending projects may opt-out of State management; align the requirements of the grants managed by the States with those that apply to SRF loans; and, an administrative funding set-aside for States to utilize when they elect to manage projects.

The Agency is directed to immediately begin consulting with the States and Tribes on this proposal, solicit their feedback, and the Agency is strongly encouraged to incorporate State and Tribal feedback into its report and legislative proposal.

The Agency shall not obligate or expend the funding provided for salaries, expenses, and administration unless written confirmation is provided by the Committees. If the Committees find the report lacking, the Committees reserve the right to withhold approval for obligation until the Agency provides the Committees with an adequate response. The Committees remind the Agency of previous commitments to seriously engage with the Committees on finding long-term solutions to the growing backlog of projects.

Diesel Emission Reductions Grants (DERA).—The Committees support the use of DERA funding in transportation electrification projects.

Targeted Airshed Grants.—The Committees direct the Agency to follow the directive in Senate Report 118–83.

These grants shall be distributed on a competitive basis to States, federally recognized Tribes, public preschools, local educational agencies as defined in 20 U.S.C. 7801(30), and non-profit organizations, for assessment, prevention, control, or abatement of wildfire smoke hazards in community buildings, including schools as defined in 20 U.S.C. 3610(6), and related activities. The Federal share of the costs of such activities shall not exceed 90 percent except that the Administrator may waive such cost share requirement in the case of facilities located in economically distressed communities. A maximum of 25 percent of grant funding under this paragraph during this fiscal year may go to recipients in any one State. Further, the Committees direct the Agency to allow for grants to be made for research purposes, in addition to current eligibility categories.

Categorical Grants.—The agreement provides $1,106,333,000 for Categorical Grants. Funding levels are specified in the table at the end of this division.

Categorical Grant: Resource Recovery and Hazardous Waste Grants.—The Agency is directed to follow the directive contained in House Report 118–155 pertaining to coal combustion residuals and the agreement provides $4,000,000 from the Hazardous Waste Financial Assistance categorical grants program project for this purpose.

Additionally, of the funding provided, $5,000,000 is to support post-consumer materials management or recycling facilities, consistent with section 302(a) of the Save Our Seas 2.0 Act (Public Law 116–224).

Categorical Grants: Nonpoint Source Section 319.—The Committees expect the Agency to examine the allocation formula to ensure that resources are spent in areas with the most pressing need.

Categorical Grant: Public Water System Supervision.—Of the funds provided, $12,000,000 is to further support States, Territories, and Tribes in addressing PFAS and other contaminants of emerging concern as they carry out their Public Water System Supervision programs.

In implementing this funding, the Committees direct the Agency to encourage States to prioritize beneficiaries that make less than the average household income for the State.

Use of Iron and Steel.—The bill includes language in title IV general provisions that stipulates requirements for the use of iron and steel in State Revolving Fund projects, and the agreement includes only the following guidance: the Committees acknowledge that the Agency may issue a waiver of said requirements for de minimis amounts of iron and steel building materials. The Committees emphasize that any coating processes that are applied to the external surface of iron and steel components that otherwise qualify under the procurement preference shall not render such products ineligible for the procurement preference regardless of where the coating processes occur, provided that final assembly of the products occurs in the United States.

Regional Water Commissions.—The Infrastructure Investment and Jobs Act makes clear that regional water partnerships to address water shortages are eligible for grant funding through the Midsize and Large Drinking Water System Infrastructure Resilience and Sustainability Program.

The following is an explanation of the Consolidated Appropriations Act, 2024.

DIVISION F—TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2024

CONGRESSIONAL DIRECTIVES

The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 118–154 and Senate Report 118–70 carry the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein. In cases where the House and Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. The Department of Transportation [DOT] and the Department of Housing and Urban Development [HUD] are directed to notify the House and Senate Committees on Appropriations 7 days prior to the announcement of a new program, initiative, or authority.

OPERATING PLANS AND REPROGRAMMING GUIDELINES

Reprogramming requests must be submitted to the Committees on Appropriations no later than June 30, 2024, and include funding provided by this act and division J of Public Law 117–58, consistent with Senate direction.

The table in the operating plan required by the House and Senate Committees on Appropriations shall apply to all items for which a dollar amount is specified and to all programs for which new budget (obligational) authority is provided, as well as to discretionary grants and discretionary grant allocations. The operating plan must also identify items of special congressional interest.

REPORTING REQUIREMENTS

Each DOT and HUD agency is expected to comply with report deadlines, as directed by the House, Senate, and this joint explanatory statement. In lieu of House Section 422, DOT and HUD are directed to provide the Committee with quarterly written notifications on the status of pending reports required by this and prior appropriations acts.

Of the total, not more than $468,000,000 is for performance-based contract administrators [PBCAs], which, in addition to unobligated balances available in the housing certificate fund, will be sufficient to support PBCAs. The agreement does not include additional funding for HUD to provide budget-based rent adjustments to PBRA contracts that have been renewed through the mark-to-market program.

Performance-based contract administrators.—The agreement prohibits HUD from issuing a solicitation or accepting bids on any solicitation that is substantially equivalent to the draft solicitation entitled ''Housing Assistance Payments (HAP) Contract Support Services (HAPSS)'' issued by HUD on July 27, 2022. The agreement directs HUD to ensure that any future funding arrangements for PBCAs do not impede housing finance agencies or PHAs from competing on a statebasis. Should HUD determine that a subsequent draft solicitation that is not substantially equivalent to the July 27, 2022 draft solicitation is not feasible, the agreement directs HUD to include a legislative proposal as part of the fiscal year 2025 budget request with detailed analysis for why such changes are needed in order to avoid a disruption in PBCA activities. If HUD determines that a

legislative proposal is necessary, HUD is directed to work with relevant stakeholders to ensure any potential legislative proposal results in effective and efficient oversight and monitoring of the PBRA program, quality services offered to property owners in each state, and maintains safe, stable, and affordable housing for the over 1,300,000 households living in PBRA properties across the country. The agreement recognizes that HUD faces a complicated task of developing new PBCA arrangements before the existing agreements expire and expects the Department to liaise with the House and Senate Committees on Appropriations, the House Committee on Financial Services, and the Senate Committee on Banking, Housing, and Urban Affairs on any necessary changes.

Non-personnel expenses.—The agreement notes the important role the Government National Mortgage Association [GNMA] plays in the U.S. mortgage market and global economy and the resources needed to support this work, particularly during times of budgetary uncertainties. However, the agreement notes its expressed concern about the GNMA's understanding of its resource needs as operational changes emerge. The agreement directs the GNMA to continue to consult and confer with the appropriations attorneys in the OCFO and to refer all appropriations law issues to such attorneys within the OCFO. These appropriations law staff routinely provide prompt, accurate, and reliable information on various appropriations law matters, including training HUD staff in funds control procedures and directives, as required by section 215 of this act. The agreement reiterates that all communications regarding budget and appropriations issues should be conducted through proper official channels, consistent with the Office of Management and Budget guidance and 18 U.S.C. 1913. The agreement also directs the GNMA to submit quarterly reports to the House and Senate Committees on Appropriations on the status of all non-personnel expenses, including travel, training, conferences, contracts and supplies, and how it is using carryover balances of contingent spending authority from offsetting collections.

LEGISLATIVE SESSION

MORNING BUSINESS

Mrs. MURRAY. Mr. President, I ask unanimous consent that the Senate proceed to legislative session and be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRIBUTE TO CAITLIN CLARK

Mr. GRASSLEY. Mr. President, I am proud to recognize University of Iowa's Caitlin Clark, a true generational talent, for her historic achievements in women's collegiate basketball. Clark is a West Des Moines native.

In the Hawkeyes' February 15, 2024, matchup against the Michigan Wolverines, Clark became the alltime leading scorer in NCAA women's basketball history. She clinched the record in the opening 2 minutes with three baskets, including a logo 3-point shot. She put up 49 total points that game in the Carver Hawkeye Arena, a new school and personal best.

Less than 3 weeks later, during her last regular season game with the Hawkeyes, Clark surpassed ''Pistol'' Pete Maravich's 1970 record for highest number of points scored in the NCAA. To date, Clark has racked up 3,685 career points, more than any Division I player in history, men's or women's.

Clark's success is undoubtedly the dividend of her hard work, discipline, and dedication. It seems to have earned her a suffix: ''the first.''

Clark, the first player to record a 40-point triple-double in men's or women's NCAA tournament history.

Clark, the first player to drop consecutive 40-point games in the women's NCAA tournament.

Clark, the first Division I player to top 3,000 points, 1,000 assists, and 800 rebounds.

Clark, the first Big Ten player to win every major national player of the year award: AP Player of the Year, the Honda Sports Award, the John R. Wooden Award, Naismith College Player of the Year, USBWA National Player of the Year, and the Wade Trophy.

She is a team player, too. In the 2022–23 season, Clark was responsible for 48 percent of the team's assists—another first. No other Division I player, male or female, had ever accounted for more than 42 percent of their team's assists.

Clark is captivating the world with her talent, competitiveness, team spirit, sportsmanship, leadership, work ethic, and evident love for the game of basketball. Already, she has become one of history's most influential women in sports.

Public engagement in women's college basketball has never before reached today's heights. During the 2023 NCAA Tournament, the championship boasted a sellout crowd of 19,482 ticket holders and 9.9 million at-home viewers. The Hawkeyes' Final Four faceoff garnered 5.5 million viewers, making it the most-watched Women's NCAA Tournament semifinals game on the books. Weeks ahead of the Hawkeyes' 2023–24 season opener, the team broke the alltime attendance record for a single women's basketball game when 55,646 spectators packed Kinnick Stadium for a charity-benefit exhibition. The 2024 Big Ten Women's Basketball Tournament is sold out for the first time ever.

The ''Caitlin Clark Effect'' is not just changing women's college basketball; it is inspiring athletes of all ages, across all sports. As Clark continues to rise through the ranks of the ''all-time greats,'' I congratulate her on behalf of the Hawkeye State. Keep making us proud. Go Hawks.

TRIBUTE TO JON SHAW

Mr. SCOTT of Florida. Mr. President, I stand to recognize and congratulate Mr. Jon Shaw on his retirement from Federal Civilian Service after serving over 16 years in U.S. Central Command's Special Staff Office of Legislative Affairs. Mr. Shaw served in various legislative affairs positions including legislative analyst, deputy director, and executive director. In his civilian service, Mr. Shaw has served under nine commanders from Admiral Fallon, General Dempsey, General Petraeus, General Allen, General Mattis, General Austin, General Votel, General McKenzie, and U.S. Central Command's present commander, General Kurilla. During his time in the civil service, Mr. Shaw has been a part of numerous operational planning teams, crisis action teams, councils, and boards providing legislative expertise.

Mr. Shaw's 44 years of faithful service to our Nation began on April 4, 1980, when he enlisted in the U.S. Army. His 23 years of military service culminated with his retirement as a sergeant major from U.S. Central Command on 1 October 2003. Once again, congratulations to Mr. Shaw on his retirement and for his service to the United States of America.

ADDITIONAL STATEMENTS

RECOGNIZING DUNGEY'S FURNITURE & FLOORS

● Ms. ERNST. Mr. President, as ranking member of the Senate Committee on Small Business and Entrepreneurship, each week, I recognize an outstanding Iowa small business that exemplifies the American entrepreneurial spirit. This week it is my privilege to recognize Dungey's Furniture & Floors of New Hampton, IA, as the Senate Small Business of the Week.

Dungey's Furniture & Floors was founded by Everett Dungey in 1963 on East Main Street in New Hampton. Dungey's Furniture & Floors offers high-quality furniture, flooring, bedding, and window treatments to customers throughout Northeast Iowa. In 1983, Everett Dungey's sons Mark and Trace took over the business and have been running it ever since. In 1987, Mark and Trace expanded to a second location in Osage, IA. In 2014, 1 year after they celebrated their 50th business anniversary, their New Hampton location was tragically destroyed by a fire. Dungey's Furniture & Floors moved to a temporary location on Industrial Avenue in New Hampton and broke ground on a new permanent New Hampton location in 2016. In October 2017, their new location opened on Canty Avenue in New Hampton, thanks to the perseverance of the Dungey family, their employees, and their community.

Today, the 25,000-square-foot New Hampton store is open and proudly serving the Iowa community. Dungey's Furniture & Floors are members of the Horizons Chamber of Commerce and the New Hampton Economic Development. They are also members of the Furniture First Buying Group, a national cooperative of independently owned retail furniture dealers.

The Dungey's Furniture & Floors team is actively involved in the New Hampton community. They have participated in the New Hampton Light Project, a New Hampton community project that decorates the town around the holiday season. In 2023, Dungey's Furniture & Floors were named the marshals for the New Hampton Heartland Days. Due to their hard work, Dungey's Furniture & Floors celebrated its 61st business anniversary in 2024.

I want to commend the Dungey family for achieving their American dream and operating a fantastic small business. Congratulations to the Dungey family and the entire Dungey's Furniture & Floors team on their incredible commitment to our communities. I look forward to seeing your continued growth and success in Iowa.●

TRIBUTE TO PEDRO MARIN

● Mr. OSSOFF. Mr. President, I rise today to honor State Representative Pedro ''Pete'' Marin, Georgia's longest serving Hispanic State legislator, as he concludes his distinguished career in Georgia's State House.

Earlier this year, Representative Marin announced he would not seek reelection to Georgia's State House after over two decades of service representing the people of Gwinnett County. Born in Puerto Rico, Representative Marin moved to Georgia in 1995. He was elected to Georgia's State House in 2002, among a trio who became the first Hispanic lawmakers in Georgia's history. Throughout his tenure, Representative Marin has been a tireless advocate for his constituents, championing causes like education and social justice, helping bring the needs of Georgia's Latino community to the forefront of the legislative discussion. Representative Marin's commitment to education has been unwavering, ensuring that children in Georgia have access to a quality education, regardless of their background. His dedication to empowering Hispanic youth has and will continue to leave a lasting impact on the future of our State. Representative Marin has long worked to break down barriers and create opportunities for all communities, not just Georgia's Latino community.

As we reflect on Representative Marin's remarkable career, let us express our gratitude for his service and leadership. His integrity and dedication to public service serve as an inspiration to us all.

As Georgia's U.S. Senator, I recognize and commend Georgia State Representative Pedro Marin for his outstanding contributions to the State of Georgia, for his tireless efforts on behalf of Georgia's beloved Latino community, and for his decades of public service.●

TRIBUTE TO NICK SELIMOS

● Mr. RUBIO. Mr. President, I honor Nick Selimos in celebration of his 50 years as manager and maître d' at The Monocle Restaurant, a fixture on Capitol Hill.

Nick Selimos was born in Sparta in the Peloponnese region of Greece. He spent his childhood there before immigrating to the United States of America to study physics at the University of Maryland. On Friday, March 8, 1974, Nick started what he expected to be a part-time job working with a Greek family but ended up with a 50-year career at The Monocle.

When you enter The Monocle, it is Nick that who greet you by name, firm handshake, and a smile. He always asks about your day, your family, and enjoys a little political banter as he walks you to your table. An avid reader, Nick takes current events seriously; he is always on top of what is happening on Capitol Hill, across the country, and internationally.

Nick embodies true ''Greek hospitality'' by always treating everyone with respect and familial ease. The magic of Nick's charm is evidenced by the regular customers who dine at The Monocle who enjoy spending time with him. His tireless work ethic has set a standard for excellence in the industry. Please join me in congratulating Nick Selimos on his remarkable career.●

RECOGNIZING THE KIEL OPERA HOUSE

● Mr. SCHMITT. Mr. President, I rise today to honor the Kiel Opera House, now known as the Stifel Theatre, for 90 years of professional entertainment and creativity.

In 1917, Mayor Henry Kiel, opera impresario Guy Golterman, and Parks Commissioner Nelson Cunliff committed to building a civic opera house in downtown St. Louis that would rival those of Europe. Citizens of St. Louis passed the 1923 bond issue to improve the infrastructure of St. Louis, including the creation of the Municipal Auditorium complex on Market Street with the opera house and large auditorium as the centerpiece. The Municipal Auditorium was inaugurated in April 1934, opening with 61 shows, concerts, operas, and special events.

Kiel Opera House served admirably for five decades. In its early years, the theatre was home to the St. Louis Symphony Orchestra and celebrities like Rex Harrison and Jose Ferrer. Between the 1950s and 1980s, stars like Louis Armstrong, Ella Fitzgerald, Johnny Cash, Tony Bennett, Aretha Franklin, Frank Sinatra, Bob Dylan, The Rolling Stones and others graced the stage.

In October 2011, after nearly 20 years vacant, the Kiel Opera House was restored. Its economic strength inspired community leaders and catalyzed 13 years of development and redevelopment across Missouri from Market West to Jefferson and north to Washington.

The Kiel Opera House is a historic gemstone that highlights St. Louis's commitment to the arts, and I hope it continues to be a treasured host of the arts for years to come.●

RECOGNIZING SOUTH CAROLINA CITIZENS FOR LIFE

● Mr. SCOTT of South Carolina. Mr. President, as the junior Senator from the great State of South Carolina, it is my pleasure to honor the legacy of South Carolina Citizens for Life, SCCL, as they celebrate their 50th jubilee anniversary. Formed in the wake of Roe v. Wade, SCCL's tireless work has been instrumental in saving hundreds of thousands of lives over the past five decades. Today, I ask my colleagues to join me in celebrating all they have done to create a culture of life in South Carolina and across the country.

South Carolina Citizens for Life has an incredible record of successfully fighting to nurture life at every stage. Their efforts have championed a total of 16 pro-life measures that became law, including legislation which banned doctor prescribed suicide and the Parental Consent Act, which resulted in a 16 percent drop in abortions the year following its passage.

Additionally, South Carolina Citizens for Life spreads awareness about the value of every human life through its booth at the South Carolina State Fair. As SCCL's largest educational resource, this booth has been instrumental in helping millions encounter the humanity of the unborn, many for the first time. For the past 45 years, fair volunteers have faithfully provided crucial information and resources, empowering vulnerable pregnant mothers to choose life.

In 2022, South Carolina Citizens for Life rejoiced when the U.S. Supreme Court overturned Roe v. Wade, ushering in a new chapter for the pro-life movement. While they celebrated the lifesaving decision, SCCL continues to press forward, leading the Palmetto State in fighting abortion on demand and helping expectant women choose life. Whether they are fighting to pass the Human Life Protection Act or continuing to spread the pro-life message at our State fair, SCCL's unwavering commitment to the sanctity of life remains stronger than ever.

Congratulations to SCCL on their 50th jubilee anniversary and for championing the unborn for half a century.●

SENATE RESOLUTION 573—COMMEMORATING THE 50TH ANNIVERSARY OF THE BOLDT DECISION OF 1974

Mrs. MURRAY (for herself, Ms. CANTWELL, Mr. WYDEN, and Mr. MERKLEY) submitted the following resolution; which was referred to the Committee on Indian Affairs:

S. RES. 573

Whereas, since time immemorial, fish have been an integral part of Native American cultural, spiritual, and economic life in the Northwest;

Whereas, between 1854 and 1859, the United States Government signed a series of treaties with Indian Tribes across the Northwest, reserving to the Indian Tribes the right to fish in their usual and accustomed places, in common with the citizens of the Washington Territory;

Whereas article VI of the Constitution of the United States recognizes treaties as the supreme law of the land, including those with Indian Tribes;

Whereas, after the Indian Tribes signed these treaties, their right to fish in accordance with these treaties was not upheld, leading to more than 100 years of litigation;

Whereas, following decades of arrests and fish-ins during which Billy Frank Jr. and other Tribal members exercised their treaty-protected fishing rights, Indian Tribes won a historic legal victory protecting those rights;

Whereas, on February 12, 1974, United States District Court Judge George Boldt ruled in *United States v. State of Washington*, 384 F. Supp. 312 (W.D. Wash. 1974), that—

(1) Indian Tribes that were parties to treaties which reserved their right to fish could take up to 50 percent of the fish harvest that passed through their recognized fishing grounds, to be calculated on a river-by-river, run-by-run basis;

(2) State law could not regulate treaty-based tribal fishing rights; and

(3) Treaty Tribes would co-manage fisheries in Washington State;

Whereas the decision was affirmed by the United States Court of Appeals for the Ninth Circuit in *United States v. State of Washington*, 520 F.2d 676 (9th Cir. 1976);

Whereas Tribal co-management of Washington fisheries led to the creation of the Northwest Indian Fisheries Commission and the Columbia River Inter-Tribal Fish Commission;

Whereas the Northwest Indian Fishing Commission member Indian Tribes include the Lummi, Nooksack, Swinomish, Upper Skagit, Sauk-Suiattle, Stillaguamish, Tulalip, Muckleshoot, Puyallup, Nisqually, Squaxin Island, Skokomish, Suquamish, Port Gamble S'Klallam, Jamestown S'Klallam, Lower Elwha Klallam, Makah, Quileute, Quinault, and Hoh Tribes;

Whereas the Columbia River Inter-Tribal Fish Commission member Indian Tribes include the Nez Perce Tribe, the Confederated Tribes of the Umatilla Indian Reservation, the Confederated Tribes of the Warm Springs Reservation of Oregon, and the Confederated Tribes and Bands of the Yakama Nation;

Whereas sharply declining salmon populations continue to threaten the ability of the Indian Tribes to exercise their treaty rights, secure their economic futures, and protect important cultural practices; and

Whereas the Boldt decision reinforced Tribal sovereignty, elevated the legal status of Tribal treaty rights, and advanced resource co-management: Now, therefore, be it

Resolved, That the Senate—

(1) commemorates the 50th anniversary of the Boldt decision;

(2) recognizes the importance of Tribal treaty rights;

(3) acknowledges the invaluable role that the Northwest Indian Fisheries Commission and the Columbia River Inter-Tribal Fish Commission play in fisheries management; and

(4) reaffirms its commitment to support salmon recovery.

ORDER FOR ADJOURNMENT

Mrs. MURRAY. Mr. President, if there is no further business to come before the Senate, I ask that it stand adjourned under the previous order, following the remarks of Senator KENNEDY.

The PRESIDING OFFICER. Without objection, it is so ordered.

The PRESIDING OFFICER. The Senator from Louisiana.

MAYORKAS IMPEACHMENT

Mr. KENNEDY. Mr. President, I would like to begin with a quotation:

> Let me tell you something, New Yorkers, never in my life have I had a problem that I did not see an ending to [but] I don't see an ending to this. This issue will destroy New York City.

''This issue will destroy New York City.''

That is New York Mayor Eric Adams. He was responding to the crisis at our border. Mayor Adams is the mayor of our country's largest city.

Now, New York City is about 2,000 miles from Eagle Pass, TX, but the breathtaking influx of illegal immigrants into our country and the Secretary of Homeland Security's refusal to detain or deport them has brought New York City to its knees—to its knees.

Mayor Adams now knows what Secretary Alejandro Mayorkas won't admit. When reality calls, you can only ignore it for so long.

Secretary Mayorkas's actions have had consequences, and time is up. Time is up.

I am only going to say a brief word about the open, bleeding wound that is our southern border, which has been open wide to unknown people—to criminals, to cartels, and, yes, to terrorists.

No. 1, I know you know that fentanyl is now the No. 1 killer of Americans between the ages of 18 and 45 and that fentanyl is coming across our open southern border.

No. 2, we know that under Secretary Mayorkas's watch, human traffickers have built a $13 billion—not $13 million—$13 billion business trafficking human beings across our border.

No. 3, we also know that roughly 450,000 children unaccompanied have shown up at the border. And most of them have been released into our country. Many of them—we don't know how many—many of them have ended up in dangerous places with dangerous, evil people.

And, finally, as best we can tell, since President Biden has been President and Secretary Mayorkas has been Secretary of the Department of Homeland Security, we have had 8.6 million people—8.6 million people—come into our country illegally. That is four Nebraskas—that is four Nebraskas. And we don't have the slightest idea who they are.

Now, the U.S. House of Representatives has investigated this crisis, and it has found that some of the blame for this crisis lies with Secretary Mayorkas. And the U.S. House of Representatives has impeached Secretary Mayorkas for it.

In its first Article of Impeachment, the House alleges that Secretary Mayorkas has ''willfully and systematically refused to comply with Federal immigration law.'' The House says that Secretary Mayorkas has refused to detain some illegal immigrants, as the law requires them to do, and has, instead, embraced his own catch-and-release scheme in which he has released huge numbers—I think any fair-minded American would call 8.6 million people huge—huge numbers of illegal immigrants into the United States.

The House says that Secretary Mayorkas has refused to follow unambiguous and clear Federal laws that require him to detain illegal immigrants who are subject to deportation for engaging in criminal or terrorism-related behavior.

The House says that Secretary Mayorkas has failed to make case-by-case parole determinations, which the law clearly requires—clearly. And, instead, he has, on his own, paroled millions of people illegally into the United States en masse.

In its second Article of Impeachment, the House alleges that Secretary Mayorkas has breached the public trust in two respects: by knowingly making false statements to Congress that the border is ''secure'' and that the Department of Homeland Security has ''operational control'' of the border and by failing to comply with subpoenas issued by congressional committees seeking to exercise oversight over DHS activities.

Any fairminded person can see that these are serious charges. And they demand a full trial.

Let me say that again. They demand a full trial.

The Senate must let the House present its case. And then we must do our job and give that case careful consideration. If the Senate dismisses these charges without trial—as if it is just a parking ticket being fixed by some politician—it will be the first time—the very first time—in the Senate's long history that it has dismissed impeachment charges against an official it has jurisdiction over without that official first resigning—the very first time.

The House of Representatives of the U.S. Congress has voted to impeach 21 times—only 21 times—in the history of this country. The Senate has only dismissed those cases three times—three times. And two of the cases the Senate dismissed, the impeached official chose to resign instead of facing a trial in the Senate. As a result, the Senate dismissed the charges.

Secretary Mayorkas has not resigned.

In one of those cases—the last remaining case—the impeached official was a U.S. Senator. Perhaps some remember it. And the Senate concluded that the Constitution did not give it jurisdiction to remove a U.S. Senator through its impeachment process.

Now, in this case, everyone agrees that the Constitution gives Congress the power to impeach and remove a sitting Cabinet Secretary.

I repeat: The U.S. Senate cannot and should not turn a deaf ear to the democratically elected Members of the U.S. House of Representatives by dismissing their charges against Secretary Mayorkas without a full and fair trial.

Precedent demands a trial. Respect for the House of Representatives demands a trial. Respect for the law demands a trial. And the American people demand a trial, and they deserve it. The U.S. Senate should do its job.

I yield the floor.
