

for 1 minute and to revise and extend his remarks.)

Mr. HARIDOPOLOS. Mr. Speaker, I offer good news today. I rise to honor the extraordinary bravery of Judie Kent, a young woman and nurse from my district in Vero Beach, Florida.

This past week, Judie's quick thinking and courageous actions saved the life of a motorcyclist and father of five who was struck by a car on his way to work.

As she drove past the scene, Judie instinctively pulled over and used her incredible medical knowledge to administer critical aid. Her swift response stabilized his wounds, and she is credited with saving the man's leg and possibly even his life.

It is selfless acts like these that exemplify the best of our community, and I am honored to recognize Judie's heroism today.

Mr. Speaker, it is a privilege to share her story, and I thank her for her amazing service and resolve.

HONORING JOHN CROMAN

(Ms. OMAR asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. OMAR. Mr. Speaker, I rise today to honor the distinguished career of John Croman, an extraordinary member of our community and a political reporter.

John retired from his role as chief political reporter for KARE 11 after nearly 27 years of dedicated service, bringing Minnesotans reliable, informative, and timely political news.

Those who worked closely with John admired his wealth of knowledge about Minnesota politics and history and refer to him as the contact, and the context, for every story.

John was praised for his commitment to reporting on policy over fleeting trends of the moment and also for his tireless commitment for reporting the truth. He also brought joy to his colleagues and injected it into his work every single day.

We will miss his reporting and wish him well in his retirement.

HONORING MARINE CORPS AIR STATION CHERRY POINT

(Mr. MURPHY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MURPHY. Mr. Speaker, I rise today to honor and recognize Marine Corps Air Station Cherry Point in Havelock, North Carolina, for being named the Marine Corps Air Station of the Year.

This is the second year in the row they have received such an award, displaying their persistent and continuous excellence.

Established in 1942, Cherry Point has grown to be the largest Marine Corps air station in the United States, occu-

pying more than 29,000 acres of land in eastern North Carolina and controlling 9,000 square miles of airspace.

It is home to the 2nd Marine Aircraft Wing and Fleet Readiness Center East. Marine Corps Air Station Cherry Point is one of the best all-weather jet bases in the world.

This prestigious award is a testament to the performance and dedication of our marines. I am grateful to our brave servicemembers and their families, who sacrifice so much to protect us and our great Nation.

It is my honor to represent Marine Corps Air Station Cherry Point and its proud community.

Practice, persistence, and preparation is what safeguards our Nation's freedom.

I congratulate the marines for this well-deserved recognition. May God bless all of those serving at Cherry Point and all our servicemembers across the globe.

FIRED BY PRESIDENT TRUMP

(Ms. RIVAS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. RIVAS. Mr. Speaker, I rise to share the story of a Federal scientist from California who, in their words, was fired by President Trump and Elon Musk.

They wrote:

I was a Pathways student intern at the EPA. I was assisting and training under the ecotoxicology group studying the effects and bioaccumulation of PFAS. I am completely devastated and heartbroken.

The EPA Pathways Program creates a pathway to a career in the Federal Government for students and recent graduates. In this case, this is a student working on complex scientific issues involving PFAS, toxic chemicals that are all around us.

As the only Latino Member with a STEM background in Congress, I know how important it is to encourage our students and young professionals to pursue careers in STEM.

Firing our future STEM workforce just as they are getting started in their careers is shortsighted and irresponsible. These firings will decimate the future Federal STEM workforce that will keep American innovation competitive.

RECOGNIZING FLORIDA LIEUTENANT GOVERNOR JENNIFER CARROLL

(Mr. BEAN of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BEAN of Florida. Mr. Speaker, we all know that when you are the best of all time, you belong in the hall of fame, like Dan Marino, Don Shula, and Jacksonville's own Tony Boselli.

Now there is another Floridian, Mr. Speaker, who has rightfully earned her

place in the Florida Veterans Hall of Fame. I am talking about Lieutenant Governor Jennifer Carroll.

Lieutenant Governor Carroll's journey began in the United States Navy as a jet mechanic, one of the very first African-American females to serve in that capacity.

Then, after her military service, Lieutenant Governor Carroll brought her leadership and unwavering service to the people of Florida. She was the first Black Republican female to serve in the Florida Legislature.

Then, Mr. Speaker, in 2010, she made history again by becoming the first Black woman ever in the Sunshine State to be elected statewide as Lieutenant Governor.

Her efforts to improve education and to ensure veterans receive the support they deserve has left a lasting legacy.

Her induction into the Veterans Hall of Fame recognizes her impact on the Sunshine State and our country. We are proud of her and her service.

Mr. Speaker, please join me in congratulating my friend Lieutenant Governor Jennifer Carroll on being inducted in the Florida Veterans Hall of Fame.

She is indeed one of the best of the best.

REMOVING ROADBLOCKS

(Mr. MOULTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MOULTON. Mr. Speaker, in President Trump's first term, facing a crowd of protesters, he asked our military: Can't you just shoot them? Just shoot them in the legs or something?

Thankfully, his former Secretary of Defense shot down that idea.

Today, the President seems to be choosing military leadership he believes will say yes. He is purging dedicated, capable leaders with no explanation other than removing roadblocks.

This is a blatant attempt to politicize our military, replacing loyalty to our Constitution with political loyalty to Trump.

Our Founding Fathers designed our military to be explicitly apolitical. They must be rolling in their graves today.

When I joined the Marines in 2001, I raised my right hand and swore an oath to defend the Constitution of the United States just like every other servicemember and veteran. That oath is sacred. We swear our lives, to kill and to die, if necessary, to the United States, not to the President.

The Trump administration must not be allowed to undermine that oath.

MEANING OF RELIGIOUS FREEDOM

(Mr. BURCHETT asked and was given permission to address the House for 1
