(4) the extent to which sentencing enhancements within the Federal sentencing guidelines and the court's authority to impose a sentence in excess of the applicable guideline range are adequate to ensure punishment at or near the maximum penalty for the most egregious conduct covered by the offense;

(5) the extent to which Federal sentencing guideline sentences for the offense have been constrained by statutory maximum penalties;

(6) the extent to which Federal sentencing guidelines for the offense adequately achieve

the purposes of sentencing as set forth in section 3553(a)(2) of title 18, United States Code;

(7) the relationship of Federal sentencing guidelines for the offense to the Federal sentencing guidelines for other offenses of comparable seriousness; and

(8) any other factors that the Commission considers to be appropriate.

COMMENDING THE LATE ERNEST BURGESS, MD, FOR HIS SERVICE TO THE NATION

Mr. GRAMS. Mr. President, I ask unanimous consent that the Senate now proceed to the immediate consideration of S. Res. 363, submitted earlier today by Senator KERREY of Nebraska.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read a follows:

A resolution (S. Res. 363) commending the late Ernest Burgess, MD, for his service to the Nation and the international community, and expressing the condolences of the Senate to his family on his death.

There being no objection, the Senate proceeded to consider the resolution.

Mr. GRAMS. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and finally that any statements relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 363) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 363

Whereas Dr. Ernest Burgess practiced medicine for over 50 years;

Whereas Dr. Burgess was a pioneer in the field of prosthetic medicine, spearheading groundbreaking advances in hip replacement surgery and new techniques in amputation surgery;

Whereas in 1964, recognizing his work in prosthetic medicine, the United States Veterans' Administration chose Dr. Burgess to establish the Prosthetic Research Study, a leading center for postoperative amputee treatment;

Whereas Dr. Burgess was the recipient of the 1985 United States Veterans' Administration Olin E. League Award and honored as the United States Veterans' Administration Distinguished Physician;

Whereas Dr. Burgess' work on behalf of disabled veterans has allowed thousands of veterans to lead full and healthy lives;

Whereas Dr. Burgess was internationally recognized for his humanitarian work;

Whereas Dr. Burgess established the Prosthetics Outreach Foundation, which since 1988, has enabled over 10,000 children and adults in the developing world to receive quality prostheses;

Whereas Dr. Burgess' lifelong commitment to humanitarian causes led him to establish a demonstration clinic in Vietnam to provide free limbs to thousands of amputees;

Whereas Dr. Burgess received numerous professional and educational distinctions recognizing his efforts on behalf of those in need of care;

Whereas Dr. Burgess' exceptional service and his unfailing dedication to improving the lives of thousands of individuals merit high esteem and admiration; and

Whereas the Senate learned with sorrow of the death of Dr. Burgess on September 26, 2000: Now, therefore, be it

Resolved, That the Senate—

(1) extends its deepest condolences to the family of Ernest Burgess, M.D.;

(2) commends and expresses its gratitude to Ernest Burgess, M.D. and his family for a life devoted to providing care and service to his fellow man; and

(3) directs the Secretary of the Senate to communicate this resolution to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

NATIONAL LAW ENFORCEMENT MUSEUM ACT

Mr. GRAMS. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of Calendar No. 664, S. 1438.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 1438) to establish the National Law Enforcement Museum on Federal lands in the District of Columbia.

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Energy and Natural Resources, with an amendment to strike all after the enacting clause and insert the part printed in italic.

SECTION 1. SHORT TITLE.

This Act may be cited as the ''National Law Enforcement Museum Act''.

SEC. 2. FINDING.

Congress finds that there should be established a National Law Enforcement Museum to honor and commemorate the service and sacrifice of law enforcement officers in the United States.

SEC. 3. DEFINITIONS.

In this Act:

(1) MEMORIAL FUND.—The term ''Memorial Fund'' means the National Law Enforcement Officers Memorial Fund, Inc.

(2) MUSEUM.—The term ''Museum'' means the National Law Enforcement Museum established under section 4(a).

(3) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

SEC. 4. NATIONAL LAW ENFORCEMENT MUSEUM.

(a) ESTABLISHMENT.—The Memorial Fund may construct a National Law Enforcement Museum on Federal land located on United States Reservation #7, on the property directly south of the National Law Enforcement Officers Memorial, bounded by—

(1) E Street, NW., on the north;

(2) 5th Street, NW., on the west;

(3) 4th Street, NW., on the east; and

(4) Indiana Avenue, NW., on the south.

(b) DESIGN AND PLANS.—

(1) IN GENERAL.—In carrying out subsection (a), the Memorial Fund shall be responsible for preparation of the design and plans for the Museum.

(2) APPROVAL.—The design and plans for the Museum shall be subject to the approval of—

(A) the Secretary;

(B) the Commission of Fine Arts; and

(C) the National Capital Planning Commission.

(3) DESIGN REQUIREMENT.—The Museum shall be designed so that not more than 35 percent of the volume of the structure is above the floor elevation at the north rear entry of Court Building D, also known as ''Old City Hall''.

(c) OPERATION.—The Memorial Fund shall own, operate, and maintain the Museum after completion of construction.

(d) FEDERAL SHARE.—The United States shall pay no expense incurred in the establishment or construction of the Museum.

(e) FUNDING VERIFICATION.—The Secretary shall not permit construction of the Museum to begin unless the Secretary determines that sufficient amounts are available to complete construction of the Museum in accordance with the design and plans approved under subsection (b).

(f) FAILURE TO CONSTRUCT.—If the Memorial Fund fails to begin construction on the Museum by the date that is 10 years after the date of enactment of this Act, the authority to construct the Museum shall terminate on that date.

Mr. CAMPBELL. Mr. President, I am pleased that the Senate is about to consider and pass S. 1438, the National Law Enforcement Museum Act of 1999. This legislation will authorize the construction of a National Law Enforcement Museum to be built here in our Nation's Capital.

As a former deputy sheriff, I know first-hand the risks peace officers face in enforcing our laws. Throughout our nation's history, nearly 15,000 federal, state, and local law enforcement officers have lost their lives in the line of duty. Based on FBI statistics, nearly 63,000 officers are assaulted each year in this country, resulting in more than 21,000 injuries. On average, one police officer is killed somewhere in America every 54 hours. Approximately 740,000 law enforcement professionals are continuing to put their lives on the line for the safety and protection of others.

We owe all of those officers a huge debt of gratitude, and it is only fitting that we properly commemorate this outstanding record of service and sacrifice.

My legislation seeks to achieve this important goal by authorizing the National Law Enforcement Officers Memorial Fund, a nonprofit organization, to establish a comprehensive law enforcement museum and research repository on federal land in the District of Columbia. The Fund is the same group that so ably carried out the congressional mandate of 1984 to establish the National Law Enforcement Officers Memorial, which was dedicated in 1991 just a few blocks from the Capitol. Clearly, their record of achievement speaks volumes about their ability to meet this important challenge.

Since 1993, the Fund has efficiently operated a small-scale version of the National Law Enforcement Museum at a site located about two blocks from the Memorial. The time has come to broaden the scope of this museum and move it in closer proximity to the National Law Enforcement Officers Memorial.

This museum would serve as a repository of information for researchers,

practitioners, and the general public. The museum will become the premiere source of information on issues related to law enforcement history and safety, and obviously a popular tourist attraction in Washington, DC, as well.

The ideal location for this museum is directly across from the National Law Enforcement Officers Memorial on a parcel of federal-owned property that now functions as a parking lot.

I introduced this legislation on July 27, 1999, and after committee hearings and extensive testimony, the Senate Committee on Energy and Natural Resources reported the bill in July of this year. Although the bill was pending on the Senate calendar awaiting final action by the Senate, I was pleased to work with my colleagues, Senator THOMPSON, Chairman of the Government Affairs Committee, and Senator DURBIN, the Ranking Member of the Subcommittee on Oversight of Government Management, Restructuring and the District of Columbia, on a compromise amendment.

After over two months of negotiations, the National Law Enforcement Officers Memorial Fund and the District of Columbia Courts reached an agreement to clarify that the building of this museum will in no way conflict with court expansion and renovation plans. As a result of this agreement, Senators THOMPSON and DURBIN have offered an amendment with my support to reflect this agreement with the courts.

Under my legislation, no federal dollars are being proposed to build this museum. Rather, the Fund would raise all of the money necessary to construct the museum through private donations. The legislation places the responsibility of operating the museum in the hands of the Fund.

Finally, let me add that this legislation is supported by 15 national law enforcement organizations: the Concerns of Police Survivors; the Federal Law Enforcement Officers Association; the Fraternal Order of Police; the Fraternal Order of Police Auxiliary; the International Association of Chiefs of Police; the International Brotherhood of Police Officers; the International Union of Police Associations/AFL–CIO; the National Association of Police Organizations; the National Black Police Association; the National Organization of Black Law Enforcement Executives; the National Sheriffs Association; the National Troopers Coalition; the Police Executive Research Forum; the Police Foundation; the United Federation of Police; and the National Law Enforcement Council. Together, these organizations represent virtually every law enforcement officer, family member and police survivor in the United States.

As we remember the sacrifices made by our brave officers, I strongly urge my colleagues to support passage of this legislation. I also call on our colleagues in the House to pass this important bill before the Congress adjourns for the year.

AMENDMENT NO. 4279

(Purpose: To provide a complete substitute)

Mr. GRAMS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Minnesota [Mr. GRAMS], for Mr. THOMPSON, proposes an amendment numbered 4279.

The amendment is as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the ''National Law Enforcement Museum Act''.

SEC. 2. FINDING.

Congress finds that there should be established a National Law Enforcement Museum to honor and commemorate the service and sacrifice of law enforcement officers in the United States.

SEC. 3. DEFINITIONS.

In this Act:

(1) MEMORIAL FUND.—The term ''Memorial Fund'' means the National Law Enforcement Officers Memorial Fund, Inc.

(2) MUSEUM.—The term ''Museum'' means the National Law Enforcement Museum established under section 4(a).

(3) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

SEC. 4. NATIONAL LAW ENFORCEMENT MUSEUM.

(a) CONSTRUCTION.—

(1) IN GENERAL.—The Memorial Fund may construct a National Law Enforcement Museum on Federal land located on United States Reservation #7, on the property bounded by—

(A) the National Law Enforcement Officers Memorial on the north;

(B) the United States Court of Appeals for the Armed Forces on the west;

(C) Court Building C on the east; and

(D) Old City Hall on the south.

(2) UNDERGROUND FACILITY.—The Memorial Fund shall be permitted to construct part of the Museum underground below E Street, NW.

(3) CONSULTATION.—The Museum Fund shall consult with and coordinate with the Joint Committee on Administration of the District of Columbia courts in the planning, design, and construction of the Museum.

(b) DESIGN AND PLANS.—

(1) IN GENERAL.—In carrying out subsection (a), the Memorial Fund shall be responsible for preparation of the design and plans for the Museum.

(2) APPROVAL.—The design and plans for the Museum shall be subject to the approval of—

(A) the Secretary;

(B) the Commission of Fine Arts; and

(C) the National Capital Planning Commission.

(3) DESIGN REQUIREMENTS.—The Museum shall be designed so that—

(A) there is available for underground planned use by the courts of the District of Columbia for renovation and expansion of Old City Hall—

(i) an area extending to a line that is at least 57 feet, 6 inches, north of the northernmost facade of Old City Hall and parallel to that facade; plus

(ii) an area extending beyond that line and comprising a part of a circle with a radius of 40 feet measured from a point that is 59 feet, 9 inches, from the center of that facade;

(B) the underground portion of the Museum has a footprint of not less than 23,665 square feet;

(C) above ground, there is a no-build zone of 90 feet out from the northernmost face of the north portico of the existing Old City Hall running east to west parallel to Old City Hall;

(D) the aboveground portion of the Museum consists of 2 entrance pavilions totaling a maximum of 10,000 square feet, neither of which shall exceed 6,000 square feet and the height of neither of which shall exceed 25 feet, as measured from the curb of the westernmost pavilion; and

(E) no portion of the aboveground portion of the Museum is located within the 100-foot-wide area centered on the north-south axis of the Old City Hall.

(4) PARKING.—The courts of the District of Columbia and the United States Court of Appeals for the Armed Forces may construct an underground parking structure in the southwest quadrant of United States Reservation #7.

(c) OPERATION AND USE.—The Memorial Fund shall own, operate, and maintain the Museum after completion of construction.

(d) FEDERAL SHARE.—The United States shall pay no expense incurred in the establishment or construction of the Museum.

(e) FUNDING VERIFICATION.—The Secretary shall not permit construction of the Museum to begin unless the Secretary determines that sufficient amounts are available to complete construction of the Museum in accordance with the design and plans approved under subsection (b).

(f) FAILURE TO CONSTRUCT.—If the Memorial Fund fails to begin construction of the Museum by the date that is 10 years after the date of enactment of this Act, the authority to construct the Museum shall terminate on that date.

Mr. GRAMS. Mr. President, I ask unanimous consent that the amendment be agreed to, the committee amendment, as amended, be agreed to, the bill be read the third time and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 4279) was agreed to.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The bill (S. 1438), as amended, was read the third time, and passed.

UNITED STATES HOLOCAUST MEMORIAL MUSEUM

Mr. GRAMS. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of Calendar No. 858, H.R. 4115.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 4115) to authorize appropriations for a United States Holocaust Memorial Museum, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. GRAMS. Mr. President, I ask unanimous consent that the bill be read the third time and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 4115) was read the third time and passed.

MEASURE READ THE FIRST TIME—H.R. 5272

Mr. GRAMS. Mr. President, I understand that H.R. 5272 is at the desk, and I ask for its first reading.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 5272) to provide for a United States response in the event of a unilateral declaration of a Palestinian state.

Mr. GRAMS. Mr. President, I ask for its second reading, and object to my own request.

The PRESIDING OFFICER. The bill will receive its second reading on the next legislative day.

MEASURE READ THE FIRST TIME—S. 3137

Mr. GRAMS. Mr. President, I understand that S. 3137 is at the desk, and I ask for its first reading.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 3137) to establish a commission to commemorate the 258th anniversary of the birth of James Madison.

Mr. GRAMS. Mr. President, I ask for its second reading and object to my own request.

The PRESIDING OFFICER. The bill will receive its second reading on the next legislative day.

AUTHORITY TO FILE LEGISLATIVE OR EXECUTIVE MATTERS

Mr. GRAMS. Mr. President, I ask unanimous consent that notwithstanding a recess or adjournment, Senate committees have from 10 a.m. until 12 p.m. on Friday, September 29, in order to file legislative or executive matters.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR MONDAY, OCTOBER 2, 2000

Mr. GRAMS. Mr. President, I ask unanimous consent that when the Senate completes its business today, it recess until the hour of 12 noon on Monday, October, 2. I further ask consent that on Monday, immediately following the prayer, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and the Senate then begin a period of morning business until 2 p.m., with Senators speaking for up to 5 minutes each, with the following exceptions: Senator BYRD, or his designee, 60 minutes; Senator THOMAS, or his designee, 60 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. GRAMS. For the information of all Senators, the Senate will be in a period of morning business until 2 p.m. on Monday. Following morning business, the Senate will resume consideration of the motion to proceed to S. 2557, the bill regarding America's dependency on foreign oil. No votes will occur prior to 5:30 p.m. on Monday. However, at 5:30 p.m., the Senate will proceed to a vote on the conference report to accompany the energy and water appropriations bill.

RECESS UNTIL MONDAY, OCTOBER 2, 2000

Mr. GRAMS. Mr. President, if there is no further business to come before the Senate, I now ask unanimous consent that the Senate stand in recess under the previous order.

There being no objection, the Senate, at 7:18 p.m., recessed until Monday, October 2, 2000, at 12 noon.

GREGORY E. SEELY, 0000

IN THE ARMY

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE RESERVE OF THE ARMY TO THE GRADE INDICATED UNDER TITLE 10, U.S.C., SECTION 12203:

To Be Major General

BRIG. GEN. BRUCE B. BINGHAM, 0000

EXTENSIONS OF REMARKS

CONGRATULATING MONTGOMERY JUNIOR COLLEGE ON ITS 50TH ANNIVERSARY

HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mrs. MORELLA. Mr. Speaker, I would like to extend my sincere congratulations to Montgomery Junior College as you celebrate the 50th anniversary of the Takoma Park Campus. Since the summer of 1950, MC has continued to uphold its original purpose of providing a quality education to anyone with a desire to learn. MC has maintained this commitment to both its students and faculty for 50 years. For this, I applaud your institution.

The success of the Takoma Park campus is evident in the constantly expanding curricula. Some of the more notable programs include the one-year Bliss program designed for electricians, a medical technician curriculum, and the nursing program. Each of these allow the students of MC to be competitive and skilled in the workforce.

MC is a source of pride not only in Montgomery County but also in the surrounding community. Through projects such as the Spitz Company Planetarium and the currently developing community health clinic, MC provides unique experiences and services to all. The planetarium has introduced hundreds of school children and residents to the basics of astronomy, allowing imaginations to soar. The community health clinic, as part of a new Health Sciences Building, will give hands-on experience to students while providing a comfortable environment for residents in need of medical attention.

MC's commitment and vision are the backbone of your reputation. With more than 4,000 students of all ages and backgrounds and a dedicated faculty, there is no doubt that the next 50 years will be equally rewarding. Again, congratulations to everyone at Montgomery Junior College for your educational excellence. I wish you the best as you continue to expand and serve.

PROTECTION OF THE AMERICAN DREAM ACT

HON. JAMES V. HANSEN

OF UTAH

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. HANSEN. Mr. Speaker, for far too long, the Federal Government has required FHA loan holders to pay millions in mortgage insurance even after the risk of loss to the the government had passed. The reason I introduced the Protection of the American Dream act is that insuring people for a risk they do not have is just wrong.''

Since the passage of the Home Owners Protection Act two years ago, which provided for the cancellation of private mortgage insurance once a conventional loan reached an 80% loan to value, many FHA borrowers began to ask why this law did not apply to their loans. After looking into the matter, I came to agree with these Americans, that like private lenders, there is no reason for FHA to charge mortgage insurance for the entire life of that loan. One of the reasons for this is that according to a Price Waterhouse Actuarial Review, less than one percent of consumers who reach an 80% loan to value default on their loan. Moreover, when a consumer with an 80% loan to value does default, in most cases no loss is incurred by the FHA or any other home loan lender.

The Protection of the American Dream Act is a pretty basic bill. I merely amends the Homeowners Protection Act to include loans made by HUD for single family homes. By doing this, FHA borrowers would not only be able to cancel their Mutual Mortgage Insurance once they reach an 80% loan to value, but HUD would also be required to disclose what mutual mortgage insurance was and whom it insures.

Mr. Speaker, insurance should only be required when the risk warrants its purchase. in the case of the FHA's Mutual Mortgage Insurance Program, FHA is forcing the people who can least afford it, to pay for insurance when there is almost no risk. The only thing we are risking is keeping people from grasping the American dream of home ownership.

PERSONAL EXPLANATION

HON. BOBBY L. RUSH

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. RUSH. Mr. Speaker, on September 27, I was unavoidably detained in a Commerce Committee hearing. However, had I been present I would have voted ''yes'' on rollcall No. 496 (H.R. 4365) the Children's Health Act of 2000.

TRIBUTE TO STEVEN P. AUSTIN AND EILEEN DOYLE FOR THEIR SERVICE TO THE CITIZENS OF DELAWARE

HON. MICHAEL N. CASTLE

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. CASTLE. Mr. Speaker, during my service as a Member of the House of Representatives, it has been my honor and privilege to rise and pay tribute to organizations and people who really make a difference in the Delaware community. Today, I rise to recognize Steve Austin, president of the Delaware Volunteer Firemen's Association (DVFA) and Eileen Doyle, president of the Ladies Auxiliary of the DVFA.

Mr. Speaker, on behalf of my fellow Delawareans I would like to honor these two outstanding individuals, not only for their tireless efforts on behalf of the citizens of the First State, but for their tremendous contributions to the DVFA and the Ladies Auxiliary of the DVFA.

Volunteer fire departments are the cornerstone of our Nation's emergency response capability. Each year, fire kills over 6,000 people, injures about 28,000 more, and destroys more than $7 billion in property. Volunteer firefighters are among the most dedicated public servants. They are willing to put the safety and property of their neighbors ahead of their own on a daily basis. All too often, these brave men and women do not receive the recognition they deserve. Without the services of institutions, such as the DVFA and the Ladies Auxiliary, the number of fatalities would be even greater and the threat of fire and destruction to our communities could be even more devastating. In addition to battling fires, Delaware volunteer firefighters are involved in fire protection and safety as well as providing first aid and emergency resources in the event of major disasters. This type of dedication is rare.

Steve Austin is a life member of the Aetna Hose and Ladder Company in Newark, DE. As a fire service advisor of the Congressional Fire Services Institute, Steve has worked tirelessly in these very halls on legislative issues that would improve training and emergency medical services for volunteer fire organizations throughout our country. Through his leadership, fire and emergency medical services have remained a vital and integral part of our community. For all of these national and local accomplishments, I was not at all surprised that the Congressional Fire Service Institute chose him as the Fire Service Person of the Year in 1996.

Eileen Doyle has also played a critical role in keeping our communities safe. Whether it is as a member of the Brandywine Fire Company working on innovative and creative fundraising ventures or providing much needed assistance and comfort to those individuals devastated by the effects of Hurricane Floyd, Eileen Doyle's dedication to the fire service and our community shines as a bright beacon every day. The Ladies Auxiliary has a long and rich history and their dedication to the community is to be commended. I salute Steve Austin and Eileen Doyle for their efforts to keep the Volunteer Fire Association and Ladies Auxiliary a strong and vital part of Delaware.

This week, the DVFA and the Ladies Auxiliary of the DVFA will gather at their 2000 Annual Conference to celebrate the anniversaries

of safety and first aid to the people of Delaware. As a former Governor, I know first hand the important role that these dedicated and vital organizations play in recruiting and retaining young men and women in the public service arena. Mr. Speaker, I am proud to have this privilege to extend my warmest wishes for a successful conference. I salute and thank them for their unwavering commitment to excellence and the example they set for all of us. Their efforts are deeply appreciated.

A TRIBUTE TO REVEREND VERTANES KALAYJIAN

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. PALLONE. Mr. Speaker, I am honored today to recognize the achievements and spiritual leadership of the Rev. Fr. Archpriest Vertanes Kalayjian, pastor of St. Mary's Armenian Church in Washington, DC. On October 1, the Washington-Baltimore Armenian community will be honoring this most outstanding religious and community leader among Armenian-Americans in the United States. On this date, parishioners and many others will recognize the 40th anniversary of Rev. Kalayjian's ordination into the priesthood.

Those who gather from across the country and the world on October 1 will also recognize the 25th anniversary of the service to St. Mary's of Rev. Kalayjian and Yeretzgin Anahid Kalayjian, his wife of 31 years.

Mr. Speaker, as the cochairman of the Congressional Caucus on Armenian Issues, I am acutely aware of the many extraordinary contributions Father Kalayjian and Mrs. Kalayjian have made to the Armenian community in the United States. Over the years, his outstanding missionary and humanitarian efforts have also been of immeasurable help to the struggling families and youth of Armenia, as well as Armenian families spread throughout Eastern Europe and the world.

In his important assignment as the head of the pastorate in Washington, DC, he has played a crucial role representing the diocese in the Congress, the State and Justice Departments and the Brookings Institute. Every year, Father Kalayjian briefs the Appeal of Conscience Conferences, the State Department's Foreign Service Institute, on the status of the Armenian communities in Eastern Europe and in the former Soviet Union republics.

Father Kalayjian was born in Aleppo, Syria, and was ordained on February 7, 1960, at the St. James Seminary of Jerusalem Armenian Patriarchate. He came to the United States in December 1964 and was assigned to the St. George Parish in Waukegan, IL. In addition to his pastoral work, he did Christian Education; Biblical Studies and Public Administration at Lake Forest, Carthage College and Southeastern University.

In subsequent years, he served the parishes of Holy Cross, Union City, NJ; and St. Mary's Church in Elberon, NJ (now St. Stephanos and in my congressional district.)

In 1976, he assumed the pastorate here in Washington, where he serves the St. Mary's community, including nearby Baltimore city and the neighboring towns.

During most of this career as a servant of God, Mrs. Kalayjian has been a partner, colleague and spiritual supporter to her husband's ministry. She has contributed invaluably to the growth and spiritual well-being of St. Mary's Parish. She has been surrogate mother, nurse, chaplain, Armenian Cultural Program director and advisor to successive camp directors and committees at the Armenian General Benevolent Union's Camp Nubar in the Catskills in New York. The AGBU promotes philanthropy, human rights land education throughout the world.

Her services to the Armenian people have included numerous other missionary and humanitarian initiatives in Armenia, including missionary outreach in the aftermath of the earthquake. Her early training and work as a pediatric nurse and nursing supervisor only added to the invaluable contributions she has made to families in need here and in Armenia.

Mr. Speaker, I am proud to call these tireless and devoted humanitarians my friends. I wish them both a most deserved and joyous celebration on October 1.

DRUG PROFITS DISTORTING HOW DOCTORS PRESCRIBE?

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. STARK. Mr. Speaker, in the September 19th CONGRESSIONAL RECORD, I provided some documentation of how profits from prescribing drugs may be causing some doctors to over-prescribe or change their prescribing patters, not on the basis of medical need, but simply for the sake of money.

The enormous profits available to many doctors on the "spread" between what Medicare and other payers reimburse for a drug (the average wholesale price), and what that drug is really available for 'on the street' may be one of the most serious ethical issues in American medicine today.

I submit into the CONGRESSIONAL RECORD a letter I've sent to the Agency for Healthcare Research and Quality on why this is a problem which must be investigated as soon as possible and a memo in reference to physician prescribing practices in Japan.

The Justice Department and the HHS Inspector General have, I believe, documents which show how drug companies have manipulated the AWP to move doctors to prescribe various drugs. These documents raise the most serious questions about the integrity of health care delivery.

The letters follow:

COMMITTEE ON WAYS AND MEANS,
SUBCOMMITTEE ON HEALTH,
Washington, DC, August 18, 2000.

Dr. JOHN EISENBERG,
Administrator, Agency for Healthcare Research and Quality, Washington, DC.

DEAR JOHN: Nice Norman Rockwell exhibit at the National Gallery—and nice paintings of doctors the way we want them to be: grandfatherly figures we can totally trust our lives with.

But the data in various areas of health care show that physicians are just like the rest of us mortals: they are economic animals; they respond to financial incentives. We see this economic influence in the fact that for-profit hospitals do more Caesarian sections than not-for-profit hospitals, because the fees and profits are higher for a C-section. We see this in the extensive literature that physicians who own or invest in a downstream service (such as a lab or MRI) tend to order many more tests (and more expensive tests) than doctors who do not invest in such facilities. We see this in foreign countries where physician income is much lower than it is in the United States on average, but physicians are allowed to make money on each prescription that they write. As a result in Japan (and in the past Italy) the patients get many more pills than Americans do. Doctors in those countries make money by pushing medicines on their unsuspecting patients.

I fear the same thing may be happening here in the United States on certain drugs, and I would like to request AHRQ's help in determining whether Medicare's Average Wholesale Price system of paying doctors for certain medicines may have caused some distortions in prescribing practice.

As you know, after years of work, the Justice Department and the HHS OIG have finally persuaded Medicare and Medicaid to use a more realistic set of data for purposes of paying doctors 95% of the AWP. The use of the more accurate AWP data will save taxpayers and patients hundreds of millions of dollars a year. Of course, the physicians the savings are coming from are lobbying furiously to block the cuts, saying that they have used the profits from the difference between 95% of the AWP and the real purchase price to run their offices. HCFA is investigating whether the practice expense (PE) payment to doctors needs to be adjusted to pay more accurately for the cost of administering the drugs. If the PE payment is inadequate, we certainly should adjust it.

But we should not, I believe, pay more for the drug than the cost to the doctor of purchasing the drug. Otherwise, if these other domestic and foreign examples apply, we will see a misuse of the drug.

To determine whether there has been misuse, would it be possible for AHRQ to examine the use of chemotherapy drugs in settings where there is no financial incentive to either over use or not use (e.g., Kaiser, VA, DoD, etc.) versus chemotherapy drug use in private, for profit, physician-run oncology practices? Adjusting for severity of illness, are the outcomes (remission, deaths, etc.) similar in these settings? Is more or less chemotherapy medicine used? for patients who die, is chemotherapy administered longer in one setting versus another? is chemotherapy administered beyond a point where the patient might be considered terminal?

Thank you for your help in understanding whether there are different patterns of chemotherapy drug use, depending on whether one profits from the drugs' use, and if so, whether there is any better outcome and quality as a result of additional chemotherapy usage.

Sincerely,

PETE STARK,
Ranking Member.

In Japan, where physicians and hospitals are allowed to make money on each prescription they write, there are high levels of drug utilization and incentives for drug overperscribing. For example—

Health Affairs (Healthcare Reform in Japan), found that pharmaceutical dispensing is more profitable for doctors since physicians dispense drugs directly and profit by buying from wholesalers at a discount and selling at the fee-schedule price. Japan has the highest per capita drug consumption in the world.

According to Asahi News Service, the cost of prescription drugs represents 30% of all medical expenses in Japan. And according to Financial Times, this is the highest proportion in the EOCD and far higher than the 11% in the US and 16% in the UK.

Like physicians, hospitals in Japan also can make a profit on the sale of medicines to their patients. The Asahi News Service found that ''medications of dubious value are used carelessly because information about their effects is not made public . . . and that the more prescriptions hospitals issue, the greater their profits will be, because of the huge gap between the government-designated base prices and the market price.''

The Nikkei Weekly reported that in April of 1997, the Japanese government proposed revision of the ''. . . drug-payment system, which has been criticized for enabling doctors to line their pockets and causing overprescription.''

Based on these facts, it is highly likely that Medicare's Average Wholesale Price (AWP) system of paying doctors for certain medicines causes distortions in prescribing practices.

European countries, in contrast, have, in the last ten years, instituted practices to curb overutilization by eliminating some financial incentives. Italy, Germany, Sweden, Denmark and the Netherlands have introduced ''reference pricing'' as a financial disincentive for patients to accept and doctors to prescribe non-reference drugs. These countries are probably not the best examples of countries with overutilization. Japan is the best in this regard (we are still trying to find another clear cut case, like Japan).

It's interesting to note that, on the flip side, reimbursements for surgery are low in Japan and, as a consequence, one third as much surgery is done in Japan as the U.S.

COMMEMORATING THE THIRTIETH ANNIVERSARY OF AIR STATION CAPE COD

HON. WILLIAM D. DELAHUNT

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. DELAHUNT. Mr. Speaker, I rise today to recognize the thirtieth anniversary of U.S. Coast Guard Air Station Cape Cod. For all of us who go to the sea, for pleasure or by profession, the Air Station has been an enormously reassuring presence all these years.

Since its commissioning in 1970, Air Station Cape Cod has performed more than 10,000 search-and-rescue missions, saved 3,500 lives and saved more than $450 million in property—all this while safeguarding our natural resources and seizing shipments of illegal drugs bound for our shores. It's all in a long day's work—and often a long night's work as well—for the personnel of the U.S. Coast Guard.

While the breathtaking heroics of the men and women of the Air Station have recently been made famous by recent feature films, perhaps the most fitting tribute comes from the grateful communities served by the men and women of the Air Station. I am pleased to enter in today's CONGRESSIONAL RECORD the following words of appreciation from a recent edition of the Cape Cod Times newspaper.

[From the Cape Cod Times, Aug. 30, 2000]

AIR STATION CAPE COD TURNS 30

(By Kevin Dennehy)

AIR STATION CAPE COD—Ed Greiner won't soon forget the week last summer he moved his family to Cape Cod to assume his duty as executive officer at the local Coast Guard installation.

That same weekend, John F. Kennedy Jr.'s airplane dove into the Atlantic Ocean. And within hours, the tragedy sparked one of the largest Coast Guard searches ever undertaken off Cape shores, and a media swarm that enveloped the Upper Cape air station for several days.

But then, it was not that much different than what the Coast Guard does on a regular basis, Greiner says.

''Sure, it was hectic,'' he said yesterday. ''But it was a large version of what we're trained to do, and do everyday.''

They've been doing what they do at Air Station Cape Cod since August 1970. Yesterday, the Coast Guard marked its 30th anniversary with a quiet ceremony at one of the station's hangars.

It's been a busy three decades. Since 1970, pilots and crews have responded to more than 9,500 calls—nearly one search-and-rescue mission per day during that time. As of yesterday, they'd saved 3,312 lives and prevented the loss of $455 million worth of property.

''For recreational boaters and those who use the water to make a living, it adds a measure of safety,'' Greiner said. ''If folks get into trouble, we're always standing ready to assist.''

One of the busiest of America's 24 air stations, Air Station Cape Cod started operating when Air Station Salem and Air Detachment Quonset Point, R.I., were consolidated in 1970.

About 400 employees work at the station, including 250 active-duty members.

And with more than 2,000 people—including those from other military branches—living in the nearly 700 units of Coast Guard housing, it's the largest continuous presence on the base.

These days, the Coast Guard uses four Jayhawks and four HU–25 Falcon jets to conduct nearly 300 rescue missions each year.

The Coast Guard also assists in law enforcement and fishing zone enforcement; is involved in drug interdiction; and repairs navigational aids throughout the northern Atlantic.

''It's a great job,'' said Lt. Bill Bellatty, who flies a HH–60 Jayhawk helicopter at the station. ''It's always great when you save lives. It's when it's nasty out that it's terrible. That's when we earn our money.''

FIFTIETH BIRTHDAY OF LINDA FAYE SOFFER

HON. JAY DICKEY

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. DICKEY. Mr. Speaker, I want to recognize one of my constituents, Linda Faye Soffer (nee Cook) of White Hall, Arkansas, who will be celebrating her 50th birthday on October 15, 2000. Linda was born on October 15, 1950 in Memphis, Tennessee to William Allen Cook and Dorothy Annice Cook (nee McGill) of Earle, Arkansas. I want to join Stu Soffer, her husband, in wishing her a Happy Birthday with best wishes for the upcoming year.

HONORING CHRIST LUTHERAN CHURCH FOR ITS 200TH YEAR OF SERVICE

HON. WILLIAM F. GOODLING

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. GOODLING. Mr. Speaker, I rise today to honor Christ Lutheran Church, Filey's Parish, for its 200th year of service to the Gospel in their community.

Christ Lutheran Church is a small country church in a growing area of Dillsburg, Pennsylvania. It was founded in 1800 by the New German community, and in 1811 a building was erected for worship and it also served as a school. In 1938 Jacob Filey donated the land on which the church is presently located. Today, the congregation is made up of 90 people that attend weekly services. The church houses a daycare, with a nursery school located nearby, named Filey's Nursery School.

I ask my colleagues to join me in recognizing the congregation of the Christ Lutheran Church for their 200th year of outstanding service to the community. I wish them continued strength and unity as their parish continues to grow and thrive.

IN HONOR OF MICHAEL ZONE, MARY ZONE, AND THE ZONE FAMILY

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. KUCINICH. Mr. Speaker, I rise today to acknowledge the Neighborhood Social Club and Archives' posthumous recognition of former City of Cleveland Councilman Michael Zone and his surviving wife, former City Councilwoman Mary Zone for their contributions to the Italian American neighborhood that is part of the Mount Carmel West neighborhood. The organization will present the Giuseppe T. Focca Award to the Zone family on October 1.

Michael Zone, whose family immigrated from the region of Campania near the City of Caserta, was among the early Italian families to settle in this westside neighborhood. Michael was instrumental in the early development of the current Our Lady of Mount Carmel Church and School and the development of Villa Mercedes, a senior citizen assisted high-rise.

As a councilman, Michael Zone worked hard for the Italian American residents he represented. He helped many gain meaningful employment and assisted them with immigration and government services. He put his constituents first, and demonstrated that public service is a higher calling.

The Neighborhood Social Club and Archives was founded by Rose A. Zitiello in 1993 to preserve the Italian American history of the neighborhood. Association President Sherri Scarcipina DeLeva has presided over the last three annual award presentations to Joseph T. Fiocca, Yolanda Craciun, and Father Vincent Caruso, who served as the parish's first pastor in 1926.

Mr. Speaker, I ask my fellow colleagues in the U.S. House of Representatives to join me in honoring Michael Zone, Mary Zone, and the Zone family who have contributed so much to Cleveland's Mount Carmel West neighborhood and the city as a whole. Please also join me in acknowledging the contribution that the Neighborhood Social Club and Archives is making toward preserving the great heritage that the Zones and the Italian American community of Cleveland has made and continues to make.

DRUG COMPANY ABUSE OF AVERAGE WHOLESALE PRICE SYSTEM: PUBLIC DESERVES RETURN OF BILLIONS OF DOLLARS

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. STARK. Mr. Speaker, I have today sent the following letter to the Pharmaceutical Research Manufacturers of America (PhRMA), the chief trade association representing U.S. pharmaceutical companies.

The letter details what I believe to be the bilking of the Medicare system by a number of large, powerful drug companies. The evidence I have been provided shows that certain drug companies are making enormous profits available to many doctors on the "spread" between what Medicare and other payers reimburse for a drug (the average wholesale price), and what that drug is really available for.

These companies have increased their sales by abusing the public trust and exploiting America's seniors and disabled. It is my firm belief that these practices must stop and that these companies must return the money to the public that is owed because of their abusive practices.

The letter follows:

COMMITTEE ON WAYS AND MEANS,
SUBCOMMITTEE ON HEALTH,
Washington, DC, September 28, 2000.

ALAN F. HOLMER,
President, Pharmaceutical Research and Manufacturers of America, Washington, DC.

DEAR MR. HOLMER. I am writing to share with you evidence and concerns I have, that certain PhRMA members, are employing false and fraudulent marketing schemes and other deceptive business practices in order to manipulate and inflate the prices of their drugs. Drug company deception costs federal and state governments, private insurers and others billions of dollars per year in excessive drug costs. This corruptive scheme is perverting the financial integrity of the Medicare program and harming beneficiaries who are required to pay 20% of Medicare's current limited drug benefit. Furthermore, these deceptive, unlawful practices have a devastating financial impact upon the states' Medicaid Program.

As you may be aware, some state Medicaid administrators have been placed in the unenviable position of having to ration needed health care services to the poor due to a lack of funds. For example, major newspapers such as the Washington Post reported that the Administration abandoned its effort to extend Medicaid coverage for AIDS therapies due to the high cost of drugs needed to treat HIV patients (December 5, 1997).

The national media continues to report on the staggering cost of prescription drugs in the United States. By way of example, the shared Federal/State cost of providing a California Medicaid prescription drug benefit alone is now approximately $2.4 billion dollars a year and that cost has risen by approximately 100% in the past four years. Through a Congressional subpoena, I have recently obtained internal drug company documents, together with documents from an industry insider, that explicitly expose the deliberate fraud that some of your PhRMA members are perpetrating on our nation's health care delivery system.

The evidence I have obtained indicates that at least some of your members have knowingly and deliberately falsely inflated their representations of the average wholesale price (''AWP''), wholesaler acquisition cost (''WAC'') and direct price (''DP'') which are utilized by the Medicare and Medicaid programs in establishing drug reimbursements to providers. The evidence clearly establishes and exposes the drug manufacturers themselves that were the direct and sometimes indirect sources of the fraudulent misrepresentation of prices. Moreover, this unscrupulous ''cartel'' of companies has gone to extreme lengths to ''mask'' their drugs' true prices and their fraudulent conduct from federal and state authorities. I have learned that the difference between the falsely inflated representations of AWP and WAC verses the true prices providers are paying is regularly referred to in your industry as ''the spread''. The fraudulently manipulated discrepancies are staggering—for example in 1997 Pharmacia & Upjohn reported an AWP for its chemotherapy drug Vincasar of $741.50, when in truth, its list price was $593.20 (Exhibit #1 PHARMACIA 000867).

Exhibit #2 is a chart provided by an industry insider that lists a number of Medicare covered drugs where the Medicare beneficiaries' 20% co-payment exceeds the entire costs of the drug. These rogue drug companies then market their drugs to physicians and pharmacies based on this windfall profit which in reality is nothing more than a government funded kick-back to the provider.

The evidence is overwhelming that this ''spread'' did not occur accidentally but is the product of conscious and fully informed business decisions by certain PhRMA members. The following examples excerpted from the subpoenaed documents clearly indicate the companies' fraudulent efforts to manipulate Medicare and Medicaid reimbursements as contained in Composite Exhibit #3.

Pharmacia: ''Some of the drugs on the multi-source list offer you savings of over 75% below list price of the drug. For a drug like Adriamycin, the reduced pricing offers AOR a reimbursement of over $8,000,000 profit when reimbursed at AWP. The spread from acquisition cost to reimbursement on the multisource products offered on the contract give AOR a wide margin for profit.'' (000025)

Bayer: ''Chris, if Baxter has increased their AWP then we must do the same. Many of the Homecare companies are paid based on a discount from AWP. If we are lowed [sic] than Baxter then the return will be lower to the HHC. It is a very simple process to increase our AWP, and can be done overnight''. (BAY003101)

Alpha: ''Pharmacy billing and management services can bill for product based on the published AWP and thereby net incremental margin with Venoglobulin S usage. Margin for the pharmacy is the difference between AWP and acquisition cost. ($76.15/g-$30.00/g=$46.15/g margin).'' (AA000529)

Fujisawa: ''Many thanks to Rick and Bruce for adjusting the AWP on the five gram Vanco. This should lead to more business . . . I would have liked to see us match Abbott's AWP for our complete Vanco, and Cefazolin line. I will settle for the five gram at $1 below Abbott but that means that we will still have to compete at the other end of the equation. For example, if Abbott's AWP is $163 and their contract is $30 and if our AWP is 162 we will have to be at least $29 to have the same spread. Follow?'' (F13206 & F13207)

Baxter: ''Increasing AWP's was a large part of our negotiations with the large homecare companies'' (0003153)

And the implications of the fraudulent manipulation of prices were clearly recognized by your member manufacturers who participated in this false pricing scheme. A series of memos from a pricing committee concerned with Glaxo's antiemetic, Zofran, show the committee's development of an enhanced spread for Zofran through increases in AWP and decreases in net purchase price (Exhibit #4).

Glaxo: ''If Glaxo chooses to increase the NWP and AWP for Zofran in order to increase the amount of Medicaid reimbursement for clinical oncology practices, we must prepare for the potential of a negative reaction from a number of quarters . . . If we choose to explain the price increase by explaining the pricing strategy, which we have not done before, then we risk further charges that we are cost shifting to government in an attempt to retain market share. Congress has paid a good deal of attention to pharmaceutical industry pricing practices and is likely to continue doing so in the next session. How do we explain to Congress an 8% increase in the NWP between January and November of 1994, if this policy is implemented this year? How do we explain a single 9% increase in the AWP? What arguments can we make to explain to congressional watchdogs that we are cost-shifting at the expense of government? How will this new pricing structure compare with costs in other countries? Is the [pharmaceutical] industry helping to moderate healthcare costs when it implements policies that increase the cost of pharmaceuticals to government?'' (GWIG/7:00014 & 00015)

Internal documents from a contractor of SmithKline, (Glaxo's competitor) likewise reveal its recognition of the inflationary effect on government reimbursement of these pricing practices and the potential for an adverse counter-offensive (Exhibit #5):

''. . . highlighting the difference between the actual acquisition cost and the published AWP may not only increase attention to Glaxo's pricing practices, but may provide the impetus for HCFA to implement a system that could impact not only reimbursement of anti-emetics, but all pharmaceutical and biological products. The ramifications could extend well past Medicare to include Medicaid programs . . .'' (SB01915)

Perhaps the most striking example of the manufacturers' recognition of the spread and the companies' fraudulent abuse it represents is found in a revealing exchange of

correspondence between corporate counsel from Glaxo and SmithKline Beecham in which each accuse the other's company of Medicaid fraud and abuse (Exhibit #6).

Glaxo: ''. . . In addition, a significant number of these pieces (see Exhibits F–J) contain direct statements or make references as to how institutions can increase their ''profits'' from Medicare through the use of Kytril. Some even go so far as to recommend that the medical professional use one vial of Kytril for two patients (see Exhibit F) but charge Medicaid for three vials. This raises significant fraud and abuse issues which I am sure you will want to investigate.'' (SB04075)

And SmithKline's response was (Exhibit #7):

SmithKline: ''In an apparent effort to increase reimbursement to physicians and clinics, effective 1/10/95, Glaxo increased AWP for Zofran by 8.5%, while simultaneously fully discounting this increase to physicians. The latter was accomplished by a 14% rebate . . . The net effect of these adjustments is to increase the amount of reimbursement available to physicians from Medicare and other third party payors whose reimbursement is based on AWP. Since the net price paid to Glaxo for the non-hospital sales of the Zofran multi-dose vial is actually lower, it does not appear that the increase in AWP was designed to increase revenue per unit to Glaxo. Absent any other tenable explanation, this adjustment appears to reflect an intent to induce physicians to purchase Zofran based on the opportunity to receive increased reimbursement from Medicare and other third party payors.'' (SB044277) (In fact, we have had numerous verbal reports from the field concerning Glaxo representatives who are now selling Zofran based on the opportunity for physicians to receive a higher reimbursement from Medicare and other third-party payors while the cost to the physician of Zofran has not changed.)

Some drug companies have also utilized a large array of other impermissible inducements to stimulate sales of their drugs. These inducements, including bogus ''educational grants'', volume discounts, rebates or free goods, were designed to result in a lower net cost to the purchaser while concealing the actual cost price beneath a high invoice price. A product invoiced at $100 for ten units of a drug item might really only cost the purchaser half that amount. Given, for instance, a subsequent shipment of an additional ten units at no charge, or a ''grant'', ''rebate'' or ''credit memo'' in the amount of $50, the transaction would truly cost a net of only $5.00 per unit. Through all these ''off-invoice'' means, drug purchasers were provided the substantial discounts that induced their patronage while maintaining the fiction of a higher invoice price—the price that corresponded to reported AWP's and inflated reimbursement from the government composite Exhibit #8.

Bayer: ''I have been told that our present Kogennate price, $.66, is the highest price that Quantum is paying for recombinant factor VIII. In order to sell the additional 12mm/u we will need a lower price. I suggest a price of $.60 to $.62 to secure this volume. From Quantum's stand point, a price off invoice, is the most desirable. We could calculate our offer in the form of a marketing grant, a special educational grant, payment for specific data gathering regarding Hemophilia treatment, or anything else that will produce the same dollar benefit to Quantum Health Resources.'' (BAY005241)

Baxter: ''The attached notice from Quantum Headquarters was sent on April 10th to all their centers regarding the reduction of Recombinate pricing. Please note that they want to continue to be invoiced at the $.81 price. They have requested that we send them free product every quarter calculated by looking at the number of units purchased in that quarter and the $.13 reduction in price . . . free product given to achieve overall price reduction.'' (0003632)

Gensia: ''Hospital—Concentrate field reps on the top 40 AIDS hospitals using a $54.00 price in conjunction with a 10% free goods program to mask the final price. Provides the account with an effective price of $48.60 per vial.'' (G00888)

Gensia: ''FSS—Establish a price of $52.00/vial for Q1 and Q2.''

The above document is particularly disturbing as it indicates that at least one purpose of ''masking'' the final price with free goods is so that it falsely appears that the Federal Supply Schedule (''FSS'') is less than that of the Hospital Price.

This insidious behavior by some PhRMA members has a profound and dangerous additional effect by influencing some medical practitioners' judgements. This is acknowledged by Bristol-Myers Squibb (''BMS'') who developed a second generation etoposide, namely, Etopophos (Composite Exhibit #9).

BMS. ''The Etopohos product profile is significantly superior to that of etoposide for injection . . .'' (BMS: 3: 000013)

''Currently, physician practices can take advantage of the growing disparity between VePesid's list price (and, subsequently, the Average Wholesale Price [AWP]) and the actual acquisition cost when obtaining reimbursement for etoposide purchase. If the acquisition price of Etopophos is close to the list price, the physicians' financial incentive for selecting the brand is largely diminished.'' (BMS: 3: 000014)

This influence is further demonstrated by SmithKline Beecham and TAP:

SmithKline: ''In the clinic setting however, since Medicare reimbursement is based on AWP, product selection is largely based upon the spread between acquisition cost and AWP. . . . Therefore, the spread between the AWP and clinic cost represents a profit to the clinic of $50.27 for the medication alone. . . . From this analysis, there seems to be no other reason, other than profitability, to explain uptake differentials between the hospital and clinic settings, therefore explaining why physicians are willing to use more expensive drug regimens.'' (SB00878)

TAP: ''As we have also discussed, Northwest Iowa Urology is very upset about the allowable not going up. I personally met with the doctors to discuss the issue 4/17. The physicians have started using Zoladex but would stop if the allowable issue was taken care of. NWI Urology has 180 patients on Lupron''. (TAP–BLI0036469)

The documents further expose the fact that certain of your members deliberately concealed and misrepresented the source of AWP's:

In a 1996 Barron's article entitled ''Hooked On Drugs'', the following quote from Immunex appeared (Composite Exhibit #11):

Immunex: ''But Immunex, with a thriving generic cancer-drug business, says its average wholesale prices aren't its own'' ''The drug manufacturers have no control over the AWPs published . . . '' says spokeswoman, Valerie Dowell. (IMNX003079)

However, Immunex's own internal documents indisputably establish the knowledge of the origin of their AWPs and their active concealment:

Letter from Red Book to Immunex:

''Kathleen Stamm, Immunex Corporation . . .

''Dear Kathleen: This letter is a confirmation letter that we have received and entered your latest AWP price changes in our system. The price changes that were effective January 3, 1996 were posted in our system on January 5, 1996. I have enclosed an updated copy of your Red Book listing for your files. If there is anything else I could help you with do not hesitate to call.

''Sincerely, Lisa Brandt, Red Book Data Analyst.'' (IMNX 002262)

These examples of deception appear to be ''only the tip of the iceberg'' as demonstrated by the evidence contained in Composite Exhibit #12. Exhibit #12 contains the following:

1. Copy of advertisement sent to the insider from Oncology Therapeutics Network (''OTN'') representing the true wholesale prices to the industry insider for Anzemet.

2. A copy of a fax sent to a Florida Medicaid pharmacy official by Hoechst containing Hoechst representations of its prices.

The following chart represents a comparison of Hoechst's fraudulent price representations for its injectable form of the drug versus the truthful prices paid by the industry insider. It is also compares Hoescht's price representations for the tablet form of Anzemet and the insider's true prices. It is extremely interesting that Hoescht did not create a spread for its tablet form of Anzemet but only the injectable form. This is because Medicare reimburses Doctors for the injectable form of this drug and by giving them a profit, can influence prescribing. The tablet form is dispensed by pharmacists, who accept the Doctor's order. And this underscores the frustration that federal and state regulators have experienced in their attempts to estimate the truthful prices being paid by providers in the marketplace for prescription drugs and underscores the fact that, if we cannot rely upon the drug companies to make honest and truthful representations of their prices, Congress will be left with no alternative other than to legislate price controls.

	NDC NO.	Unit size/type	Quantity	Net price as represented to Florida Medicaid	True wholesale price	Variance
Price Representations for:						
Anzemet injection	0088-1206-32	100 mg/5ml injectable	1	$124.90	$70.00	Represented price 78% higher than true wholesale price.
Anzemet tablets	0088-1203-05	100 mg tablets	5	275.00	289.75	Represented price 5% less than true wholesale price.

Hoescht thus falsely inflated the reported price of its Anzemet to create an improper financial incentive and thus capture market share. The following excerpt from an internal Glaxo document reveals that Hoescht directly benefitted from this diversion of tax dollars:

(Exhibit #13) Glaxo: ''There is a decline in Zofran usage at Louisiana Oncology in Baton Rouge, Louisiana. Kevin Turner (H1JCO2) has seen a drastic decline in Zofran usage at this clinic over the last few months. The reason for this decline is strictly a reimbursement issue. This clinic has started using Anzemet because it is more profitable. Kevin has learned that this clinic is buying Anzemet for $58.00 for a 100mg vial, which gives them a $84.29 profit from Medicare. They are buying a 40mg vial of Zofran for $145.28. If they use 32 mg of Zofran, which is $3.63 per mg. this will net this clinic $69.60 from Medicare reimbursement. Clearly Anzemet has a reimbursement advantage over Zofran. . . .'' (GWZ 085003)

The above evidence leads to some shocking conclusions.

First—Certain drug manufacturers have abused their position of privilege in the United States by reporting falsely inflated drug prices in order to create a de facto improper kick-back for their customers.

Second—Certain drug manufacturers have routinely acted with impunity in arranging improper financial inducements for their physician and other healthcare provider customers.

Third—Certain drug manufacturers engage in fraudulent price manipulation for the express purpose of causing federally funded healthcare programs to expend scarce tax dollars in order to arrange de facto kickbacks for the drug manufacturers' customers at a cost of billions of dollars.

Fourth—Certain drug manufacturers arrange kick-backs to improperly influence physicians' medical decisions and judgments notwithstanding the severely destructive affect upon the physician/patient relationship and the exercise of independent medical judgement.

Fifth—Certain drug manufacturers engage in illegal price manipulation in order to increase the utilization of their drugs beyond that which is necessary and appropriate based on the exercise of independent medical judgment not affected by improper financial incentives.

As the principal association representing the pharmaceutical manufacturing industry, I believe you owe it to the citizens of the United States to advise Congress as to whether the above evidence reflects the standards of the pharmaceutical industry in this country. If it does, then explicit price regulation will clearly be necessary to counter your industry's inability to report prices will integrity and its propensity to engage in price manipulation. If, on the other hand, the above evidence does not reflect the standards in the pharmaceutical industry, then your association owes it to the American people to support and assist with the efforts of the federal and state enforcement authorities, including the U.S. Department of Justice, to correct the actions of the drug manufacturers engaging in this conduct and to require them to compensate Medicare, Medicaid and other federally funded programs for the damages they have caused.

Sincerely,

PETE STARK,
Ranking Member,
Subcommittee on Health.

RECOGNIZING IRONWORKERS LOCAL #395

HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. VISCLOSKY. Mr. Speaker, it is my distinct honor to congratulate some of the most dedicated and skilled workers in Northwest Indiana. On September 30, 2000, the Ironworkers Local #395, of Hammond, Indiana, will honor their newly retired members as well as their members with fifty, forty, thirty-five and twenty-five years of continued service. These individuals, in addition to the other Local #395 members who have served Northwest Indiana so diligently throughout the years, are a testament to the American worker: loyal, dedicated, and hardworking.

The men and women of Local #395 are a fine representation of America's working families. I am proud to represent such dedicated men and women in Congress. Those members who recently retired from Ironworkers #395 include: Anthony Bobrowski, Steve Bodak, Bruce Brown, Jack Bullard, Howard Cassidy, Jimmy Chandler, Nicholas Danko, Stanley Downs, LeRoy Garmany, Frank Hall, Richard Haynes, James Hendon, Harvey Hollifield, Peter Leon, Jr., Robert Morton, Harold Mowry, William Rathjen, Joe Rumble, Jacob Stoyakovich, Fred Strayer, George Ward, Dallas Woodall, and Austin Yale. The members who will be honored for fifty years of service include: Glen Bacon, Norman Barnhouse, Robert Bird, Alfred Bruce, Charles Coleman, Paul Condry, Joe Demo, Harold Eason, Floyd Evans, Herbert Goodrich, Wilbur Kissinger, Willard Lail, George Rosich, Russell Thomas, and Van Walker. Those members who will be recognized for their forty years of service include: Gerald Black, John Bowman, Howard Cassidy, Jimmy Chandler, Nicholas Danko, Jr., Donald Eagen, Arthur Erickson, Jr., Wayne Fiscus, Lowell T. Hannah, James P. Harrison, Richard Haynes, Donald Hendrix, Robert Jackson, Edgar Johnson, Karl Langbeen, Jerry Lee, William Libich, Roger Long, Gerald McBride, Robert C. McDonald, William McNorton, Richard Ogle, John Peyton, Joseph Quaglia, Ace Robertson, Richard Samplawski, Larry J. Sausman, Charles Schwartz, Louis D. Sewell, John Spicer, Larry M. Strayer, Joseph Sullivan, Robert D. Swanson, Ned Toneff, Gerald Trimble, Donald Vick, Lawrence D. Watson, Frank Wheeler, and Gerald Wilson. The members who will be honored for thirty-five years of service include: Thomas Anderson, Tony Bobrowski, Michael Cary, Ed Corrie, Joseph Dado, James E. Davis, James Eagen, Terry Evans, Arthur Gass, Jr., Arthur Gaynor, Franklin Gerwing, Donald E. Goodrich, Kenneth Hamilton, John Haugh, Dennis Hummel, Dennis Hutchens, Richard Jemenko, Barney Kerr, Michael Klaker, Kenneth Kollasch, Max Korte, Charles Langston, Robert Langston, Eugene Lemons, William Lundy, William Okeley, Jr., James Penix, Ronald Penix, Wilbert Risch, Terry D. Sausman, Tim Skertich, Daniel Stevens, Gerald Vasko, John Ward, William Weigus, Gerald Wheeler, David Wilmeth, Dallas Woodall. The members who will be honored for their twenty-five years of dedicated service include: Henry Abegg, Donald Barringer, Paul Beck, Robert Brunner, Jr., Lenard Campbell, Everett Cleveland, Jr., James A. Curry, Clint Denault, John Grube, James Guzikowski, John Hillier, Timothy Jones, Sr., Thomas Kintz, Gary Komacko, Jack Kramarzewski, Dennis Quinn, William Robertson, John Schuljak, Stanley Siwinski, Douglas Splitgerber, John Williams. I would also like to congratulate those individuals that graduated from the apprenticeship program. These individuals include: James Anderson, John Anderson, Eric Blevins, Robert Brazeal, Jeremy Camplan, Steven Elliott, Thomas Franciski, Jr., Geno George, Anthony Gutierrez, Michael Hamilton, Anthony Hammerstein, Benjamin Lauper, David Maday, George Martinez, Brian McClain, David Ross, John Sechrest, Brian Swisher, Robert Thomas, Timothy Tinsley, Corey Weiland, and James Wilkie.

Mr. Speaker, I ask that you and my distinguished colleagues join me in congratulating these admirable and outstanding members of the Ironworkers Local #395 for their efforts in fulfilling the American ideal of success through hard work and determination. I offer my heartfelt congratulations to these individuals, as they have worked arduously to make this dream possible for others. They have proven themselves to be distinguished advocates for the labor movement, and they have made Northwest Indiana a better place to live, work, and raise a family.

HONORING A DEDICATED HUSBAND, FATHER, GRANDFATHER, VETERAN AND PHYSICIAN—JOHN CHARLES LUNGREN, M.D. (APRIL 27, 1916–FEBRUARY 28, 2000)

HON. JAMES E. ROGAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. ROGAN. Mr. Speaker, today, it is my distinct honor to pay tribute to an American who gave of himself during his 83 years of life—John Charles Lungren, M.D.

Dr. Lungren was born in Sioux City, Iowa on April 27, 1916. He attended the University of Notre Dame, graduating with a Bachelor's Degree in Science in 1938. Dr. Lungren subsequently received his Medical Degree in 1942 from the University of Pennsylvania.

During World War II, Dr. Lungren served with the United States as a Battalion Surgeon and Captain, 30th Infantry Division receiving four Battle Stars and a Purple Heart. This included participating in the pivotal battles of St. Lo and Mortain and in the Normandy Invasion in June of 1944.

After World War II, Dr. Lungren returned to his wife, Lorain Kathleen Lungren and, at that time, their first child. He settled in Long Beach, California specializing in internal medicine and cardiology which included various positions in the medical profession, including chief of staff for Long Beach Memorial Medical Center, member of the California State Board of Medical Quality Assurance and an emeritus associate clinical professor of medicine, UCLA School of Medicine, 1960–1977.

Dr. Lungren's dedication with and contributions to the University of Notre Dame were many. From 1966–1973, Dr. Lungren served as a member of the National Alumni Association's Board of Directors and President of the Alumni Association. In 1971, he was honored as "Man of the Year."

In 1969, President Nixon appointed Dr. Lungren as the medical consultant to the President of the United States; a member of the National Advisory Committee, Selective Service System and the National Health Resources Advisory Committee.

After President Nixon's resignation over Watergate in August of 1974, Dr. Lungren is credited with saving Nixon's life. Nixon had developed phlebitis, a swelling of the leg that threatened the former President's life with blood clots. After surgery to prevent a blood clot from traveling to his lung and brain. Nixon suffered post-traumatic shock and nearly died. During the last few years of his life, Dr. Lungren completed a manuscript on his more than 40-year relationship with President Nixon, titled Anguish and Redemption: The Final Peace of Richard Nixon.

Dr. Lungren is survived by his wife, Lorain Kathleen Lungren, their seven children, John, Jr., Daniel, Christine, Loretta, Brian, Patricia and Elizabeth and 16 grandchildren.

Mr. Speaker, as his eldest son, John, Jr. offered during his eulogy for his father, Dad is blessed for moral honor, spiritual dignity and purity of heart which leads us on the royal road that El Camino Real of a life committed in Christ, I ask my colleagues here today to join me in honoring an American who gave of himself to his country, family, medicine and community at large. Dr. Lungren spoke little of his heroic acts, albeit during World War II, raising his children or consoling a patient, hence, Dr. Lungren was a humble man. It seems that unknown to Dr. Lungren, as one his physicians who cared for him expressed to John, Jr., Your dad is in a special class, his reputation precedes him.

Lastly, my fellow colleagues, as we gather together today, allow me to paraphrase Dr. Lungren's personal physician, colleague and dear friend, Dr. Winnie Waider, who whispered, as Dr. Lungren drew his last breath, How often do you see a complete life completed, a consummate life consummated? How poignant and thought provoking as we pay our deepest respects to an honorable man, Dr. John Charles Lungren.

HONORING THE SURVIVORS OF THE BATTLE OF MALMADY

HON. GEORGE W. GEKAS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. GEKAS. Mr. Speaker, today I rise to honor a group of men that survived a massacre over 50 years ago. It was a cold December day when the gentlemen we honor today were caught up in the confusion that would eventually be called the Battle of the Bulge. They were members of Battery B, 285th Field Artillery Observation Battalion, a unit with many Central Pennsylvanians in its ranks.

Attacked by an SS Panzer Division, nearly half the battery was compelled to surrender. Although dazed and depressed about the prospect of spending Christmas as prisoners of war, few expected the nightmare about to be unleashed by their Nazi captors.

Completely unprovoked, the guards fired systematically into the group of defenseless prisoners, killing or wounding most of them. Many of those still living, suffering from exposure and wounds, were murdered by prowling SS guards.

A handful of soldiers escaped by either playing dead or hiding in buildings close by. They lived to tell the tale of one of the most brutal crimes inflicted on U.S. troops during the war in Europe. Some were given aid by friendly Belgians, others were rescued by Colonel Pegrin, commander of the 291st Engineer Battalion. Some were lucky enough to limp back to American lines.

The story of these men is a story of valor and sacrifice. Each of them gave selflessly of themselves to liberate a continent from Nazi tyranny. When their nation called, they went, regardless of danger and personal loss. They saw their friends die at the hands of SS thugs and wondered helplessly whether they were next. By escaping that bloody field, these men gave their comrades and their families at home a rallying cry which helped carry America to final victory over Hitler's Nazi empire.

I know that the entire United States House of Representatives joins me in saluting the survivors and the fallen for their courage and perseverance that overcame the greatest menace to freedom the world has ever known. Their sacrifice remains an inspiration to our entire nation.

ON PRESIDENT CLINTON'S CHINA LEGACY

HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. WOLF. Mr. Speaker, in reference to President Clinton's foreign policy towards China, last Wednesday's front page of the Washington Post Business section had the headline: "Score One for the Legacy" because of passage in the Senate of Permanent Normal Trade Relations (PNTR) with China.

While it lies in the future to determine the success or failure of PNTR upon improving China's horrible human rights record or in bringing about effective change in China's communist regime, we do know certain facts that have to be calculated into the picture that will be President Clinton's legacy on China.

We know that on this Administration's watch, more people are in prison because of their faith than at any time in recent memory.

There are thousands of Muslim Uighurs in prison because of their faith.

The Chinese government is pillaging Tibet, while the Clinton Administration remains silent and obsequious. Thousands of Tibetan Buddhist monks, nuns, and believers are in Chinese prisons because of their faith. The Chinese government has repressed, oppressed, and persecuted the Tibetans with impunity. There is no doubt, things have gotten worse in Tibet during the Clinton years. With certainty, President Clinton's actions and lack of action have to be figured into a formulation of his legacy on China.

The 1999 State Department Human Rights Report on China states numerous aspects of how the situation in China has deteriorated during President Clinton's tenure and ought to be included in determining his legacy on China:

Government interference in daily personal and family life continues to decline for the average person;

The Government increased monitoring of the Internet during the year, and placed restrictions on information available on the Internet;

The Government continued to implement comprehensive and often intrusive family planning policies;

The [Communist] Party and Government continue to control many—and, on occasion, all—print and broadcast media tightly and use them to propagate the current ideological line; and

The Government intensified efforts to suppress dissent, particularly organized dissent. By years end, almost all of the key leaders of the China Democracy Party were serving long prison terms or were in custody without formal charges, and only a handful of dissidents nationwide dared to remain active publicly.

We know that the State Department's 2000 Report on International Religious Freedom says that the Chinese ". . . Government's respect for religious freedom deteriorated markedly . . ."

We know from this report that ". . . unregistered groups, including Protestant and Catholic groups, continued to experience varying degrees of official interference, harassment, and repression." We know from this report that "The Government's efforts to maintain a strong degree of control over religion, and its crackdown on groups that it perceived to pose a threat, continued."

We know that the Chinese regime continues to persecute, arrest, and imprison 80 year-old Roman Catholic bishops and priests. According to an article in the September 18, 2000 New York Times, while the Senate was preparing to vote on passage of PNTR, the Chinese government was busy sending back to prison 81 year-old Roman Catholic Bishop Zeng Jingmu. Bishop Zeng had already spent close to 30 years in Chinese prisons and prison labor camps, just because of his faith.

There are some 13 Roman Catholic Bishops suffering in Chinese prisons and prison through labor camps because of their faith. Their languishing in prison is part of President Clinton's China legacy. That President Clinton was silent, that he bent over backwards to placate a regime that persecutes old and frail people of faith—this has to be factored into compiling President Clinton's China legacy.

That there are hundreds of Protestant House Church leaders in prison or prison through labor camps because of their faith has to be included in assessing President Clinton's legacy.

President Clinton used tough words about China to help get himself elected in 1992, criticizing President Bush's policy of engagement

with China. It is too bad that President Clinton did not live up to his campaign rhetoric and campaign promises about China. Now with the passing of PNTR, with all of this talk about Clinton's China legacy being shaped by the passage of PNTR, it is imperative to focus on the truth and history.

History will show, that Clinton's China legacy is that the U.S. government kowtowed to a Chinese regime that worsened in its persecution and oppression of its own people. Clinton's China legacy will be that more people of faith and lovers of freedom in China languish in forced labor camps and bear the scars of torture and imprisonment because of their beliefs.

TRIBUTE TO MR. DONALD HAMILTON

HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. VISCLOSKY. Mr. Speaker, it gives me great pleasure to pay tribute to an outstanding resident of Indiana's First Congressional District, Mr. Donald Hamilton. On September 29, 2000, Mr. Hamilton, along with his friends and family, will be honored for his 32 years of dedicated service to the Laborer's International Union Local #41, at a dinner to be held at the International Union of Operating Engineers Local #150, in Merrillville, Indiana. Mr. Hamilton's distinguished career in the labor movement has contributed to the safety and security of workers in his community and improved the quality of life for laborers throughout Northwest Indiana.

Mr. Hamilton has devoted his entire working career toward the expansion of labor ideals and fair standards for all working people. For more than 30 years, Mr. Hamilton has been a member of Local #41, and has held several positions throughout his tenure. His peers were sorry to see him retire from perhaps his most important role at Local #41, that of Business Agent, on August 1, 2000. Don served admirably as Business Agent for Local #41 since his election 18 years ago. While this was his longest held position, and the one for which his co-workers at Local #41 will always remember him, he never limited his dedication to that one position. Mr. Hamilton served as vice-president of the Indiana State District Council of Laborers and HOD Carriers for eight years, sat on the executive board for six years, and served as auditor for three years. For five years, Don served as president of the Northwest Indiana Building and Construction Trades Council, two years as its vice president and three years as its secretary-treasurer.

Don's contributions are not limited to labor causes. He regularly finds time to serve his community as well. He is the past president of the Lake County Planning Commission and was a board member for eight years. He has also spent two years as a board member of the Lake County Association for Retarded of Northwest Indiana. Don Hamilton has dedicated much of his life to efforts that benefit his fellow union members and advance the prosperity and strength of his community of Northwest Indiana and the entire state.

On this special day, I offer my heartfelt congratulations to Don Hamilton. His large circle of family and friends can be proud of the contributions this prominent individual has made. His work in the labor movement provided union workers in Northwest Indiana with opportunities they certainly would not have otherwise enjoyed. Mr. Hamilton's leadership kept the region's labor force strong and helped keep Americans working. Those who have worked with him in the labor movement and in his community will surely miss Mr. Hamilton's dedication and sincerity. I hope my distinguished colleagues will join me in wishing Don Hamilton a long, happy, and productive retirement.

HONORING GRANDMASTER DAE WOONG CHUNG

HON. GARY G. MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. GARY MILLER of California. Mr. Speaker, it is with great pleasure that I honor Grandmaster Dae Woong Chung, who has been teaching the traditions of Taekwondo to the citizens of Pomona and the surrounding area for over 35 years. Grandmaster Chung has a 9th degree black belt.

Eighteen years ago, Grandmaster Chung started a program of teaching high school students at Pomona Unified School District at no cost to them. He also has instructors teaching at many local churches and service organizations, such as Boys' and Girls' Clubs and YMCA's.

Grandmaster Chung is currently the Director of the Saehan Bank, which has four locations in the counties of Los Angeles and Orange. In fact, the newest location opens today, in the my district, in the city of Rowland Heights.

Grandmaster Chung was the first Taekwondo master to teach Taekwondo in California, starting back in 1965, and has since dedicated his life to teaching the martial art of his mother country to the citizens in the Pomona Valley.

Mr. Speaker, I ask that this House please join me in recognizing, honoring and commending Grandmaster Chung for his 35 years of commitment and outstanding service to our community.

HONORING OLYMPIAN GARRETT LOWNEY

HON. MARK GREEN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. GREEN of Wisconsin. Mr. Speaker, today I offer a brief tribute to a young man from my district, Garrett Lowney, who this week was awarded the Bronze Medal at the Summer Olympic Games in Sydney, Australia.

Garrett, a U.S. Olympian competing in Greco-Roman wrestling, overcame injury and adversity to bring the Bronze Medal home to the United States in a sport typically dominated by other nations. I know all of us back in northeastern Wisconsin are very proud of his achievements, and folks across America should share that pride. For Garrett's medal is as much an achievement for our nation as it is for Garrett himself.

To win his victory, Garrett defeated a two-time champion Silver Medal winner, a five-time world champion, and another two-time world champion, among others. Despite a neck injury and being forced to battle through overtime in four of his matches, Garrett managed to win every match except one—and became the youngest American ever to win a wrestling medal in the Olympic games.

So today, I say thank you, Garrett Lowney. Thank you for making us proud. Thank you for devoting so much of yourself, your time, and your talents to excellence and to our Nation.

PERSONAL EXPLANATION

HON. THOMAS W. EWING

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. EWING. Mr. Speaker, on September 26 and 27, 2000, I was attending to business in my district, and as a result, missed 6 rollcall votes. The votes I missed are rollcalls: Nos. 494, 495, 496, 497, 498, and 499. Had I been present, I would have voted ''aye'' on all six rollcall votes.

CONGRATULATING PURDUE UNIVERSITY CALUMET

HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. VISCLOSKY. Mr. Speaker, it is with great pleasure that I rise before you to congratulate Purdue University Calumet as it holds its Chancellor's Gala and Hall of Fame Reception tonight, September 28, 2000, at the Center for Visual and Performing Arts in Munster, Indiana.

Part of the internationally renowned Purdue University system, Purdue University Calumet, located in Hammond, Indiana, is a comprehensive regional university with some 9,300 students and 80 academic programs focused on the educational needs of the people in Northwest Indiana. Tonight's dinner will be in recognition of the people who helped make Purdue Calumet what it is today. As part of the gala event, Purdue Calumet Chancellor James Yackel and new Purdue University President Martin Jischke have the honor and privilege to induct this year's honorees into Purdue Calumet's Hall of Fame. The Purdue University Calumet Hall of Fame was founded in 1996 in honor of Purdue Calumet's 50th Anniversary. It is awarded to alumni and friends of Purdue Calumet who have made significant accomplishments and have displayed a lifelong dedication to the university, the community, and the world. This year's honorees include Steven C. Beering, the recently retired Purdue University President, Adam Benjamin,

Jr., the late Northwest Indiana Congressman, and the Northern Indiana Public Service Company.

Steven C. Beering, Purdue University President Emeritus, will receive the Chancellor's Award for Dedication to Higher Education and Extraordinary Public Service, and will be inducted into the Purdue University Calumet Hall of Fame for his long-time support of the Purdue Calumet campus. He served as president of Purdue University for 17 years before his retirement last month. During his tenure, the Purdue system experienced significant growth in both enrollment and facilities. Clear examples of his commitment to expanding facilities and services at Purdue Calumet can be seen in the development of the Donald S. Powers Computer Education Building, the Classroom Office Building, the Charlotte R. Riley Child Center, the Challenger Learning Center of Northwest Indiana, and Purdue Calumet's newest facility, the Center at Purdue University Calumet, a conference and special events facility. His colleagues at Purdue Calumet will sincerely miss President Beering and his commitment to educational and administrative excellence.

The Chancellor's Award for Extraordinary Public Service will be presented posthumously to Congressman Adam Benjamin, Jr. Congressman Benjamin represented Indiana's First Congressional District from 1976 until his death in 1982. Prior to his election to Congress, Benjamin served as the zoning administrator and the executive secretary to the mayor in Gary, Indiana. He was elected to the Indiana State House in 1966 and to the Indiana State Senate in 1970. The late Congressman Benjamin tirelessly devoted himself to advancing the interests of his constituents in Northwest Indiana. He was characterized by many as a dedicated and effective public servant, sharing the hopes and dreams of the people he served and the community he represented.

Northern Indiana Public Service Company (NIPSCO) will receive the Carl H. Elliott Award for exceptional Philanthropy for its extensive support of non-profit organizations in Northwest Indiana. Notably, NIPSCO has established an endowed scholarship at Purdue Calumet, and has provided start-up funding for the University's Resource Center and Entrepreneurship Center. The company's investment in the educational opportunities of those in its community has earned it the acclaim of students, educators, and administrators at Purdue Calumet.

Mr. Speaker, I ask you and my other distinguished colleagues to join me in congratulating Purdue University Calumet and this year's Hall of Fame inductees for their lifetime dedication not only to the university, but to all of Northwest Indiana.

A TRIBUTE TO COMMANDER TEMPLE L. ALLEN

HON. DUNCAN HUNTER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. HUNTER. Mr. Speaker, today I rise to recognize the outstanding service and dedication of my friend from San Diego, Lieutenant Commander Temple L. Allen. His career in the United States Navy spans three decades and has earned many awards and recognitions, including Navy Commendation Medal presented to him by the Secretary of the Navy. I would like to take a moment a commend Temple's exceptional service to our country.

Temple began half a century ago in Ontario, California where he enlisted, and upon finishing submarine school was assigned to the U.S.S. *Catfish.* Since then, Temple went on to provide expert organizational guidance and leadership that was required to effectively repair many submarines at the NEREUS facility. He was recognized by his peers for his outstanding responsiveness in the NEREUS repair department and the high quality of work that was directly attributed to him. Throughout his tenure in the Navy, Temple inspired leadership, professionalism, and devotion to duty to those he served with and has continually conducted himself with the highest traditions of the United States Navy.

Mr. Speaker, in an era when the U.S. military is often not given sufficient recognition, outstanding leaders, such as Temple, exemplify the commitment our armed forces has to superior performance. As a veteran and Chairman of the House Subcommittee on Military Procurement, I would like to commend Commander Temple L. Allen for all of his efforts and years of service and to the United States Navy and our country.

TRIBUTE TO ''ANGELS IN ADOPTION'' KEVIN AND EILEEN GILLIGAN

HON. JAMES T. WALSH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. WALSH. Mr. Speaker, each year in an effort to improve adoption policy and practice, the Congressional Coalition on Adoption holds a national award ceremony honoring ''Angels in Adoption.'' The purpose of the ''Angels in Adoption'' campaign is to help raise public awareness of the many different ways committed individuals in our country can help children and families through adoption. This crusade is an opportunity to recognize these unsung heroes who make a difference for needy children all across the world.

Today, I would like to recognize two of this year's ''Angels in Adoption'' from my congressional district, Kevin and Eileen Gilligan of LaFayette, New York. As a couple, the Gilligans epitomize the loving, caring commitment found in all adoptive parents. In June of 1999, Kevin Gilligan wrote a journal for his new and youngest son, Louis, chronicling their trip to the Russia Republic to adopt him, which became front-page stories in the Syracuse Newspapers. Previously, the Gilligans adopted their daughter, Addie, who is now 13 years old, and their son, Min, who is 11 years old, from Korea.

I want to commend the Gilligans for the warmth and compassion they have extended to children in need. When Kevin and Eileen met Louis for the first time, he did not even know how to express the most simple of affections, a kiss. As a family, they welcomed him and their two other children into their home and showed them how to love and be loved.

I use this opportunity to recognize Central New York's ''Angels in Adoption,'' Kevin and Eileen Gilligan, and salute all adopted families in our nation.

IN RECOGNITION OF STATE SENATOR M. ADELA ''DELL'' EADS' OUTSTANDING SERVICE TO THE PEOPLE OF CONNECTICUT

HON. NANCY L. JOHNSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mrs. JOHNSON of Connecticut. Mr. Speaker, I rise today to mark the end of an era in the government of my home state of Connecticut. With the retirement of State Senator M. Adela ''Dell'' Eads, the Connecticut Legislature is losing more than just a valued and respected member, it is losing a woman who represents the best that Connecticut has to offer, the epitome of the finest tradition of public service.

With over 24 years of service in the Connecticut State Legislature, Dell has left her mark on countless pieces of landmark legislation. From her work to establish the Connecticut Office of the Child Advocate to her leadership on welfare reform, Dell always championed the cause of Connecticut's children and families and acted to protect their interests.

But while Dell's legislative accomplishments are too numerous to mention, the one quality she will be remembered for is clear: leadership. Whether it was as leader of the Republican caucus or as President Pro Tem of the Senate, Dell commanded the respect of adversaries and allies alike. Her career in the legislature is a testament to the fact that civility, intelligence, integrity and strength are qualities that can be found in one individual. Such a public servant is a gift to be treasured in a democracy.

Connecticut and our country are the beneficiaries of the outstanding service provided by M. Adela Eads. I have been privileged to serve with her and to enjoy her friendship as well. I wish her all the best for a happy, healthy and productive retirement.

TRIBUTE TO THE HISPANIC PARADE COMMITTEE, INC.

HON. JOSÉ E. SERRANO

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. SERRANO. Mr. Speaker, it is with great joy that I today pay tribute to the Hispanic Parade Committee, Inc. on its 36th Grand Parade. The parade will be held on October 8, 2000, in New York City.

In 1965 the Hispanic Societies met in New York for the purpose of celebrating the discovery of America by Christopher Columbus

on October 12, 1492. This was to be accomplished through a parade, which would celebrate the heritage and spirit of the children of the Hispanic American union with a message from Spain and the Latin American nations, representing each country's culture, traditions and folklore.

Mr. Speaker, this project came to fruition in August of 1965 when the Hispanic Societies agreed to celebrate with a true Fiesta in the Latin American spirit that every year in the city of New York on the Sunday closest to the 12th of October. From that year on, the Hispanic Parade Committee has organized the memorable annual event now known as ''Desfile de la Hispanidad'' with the participation of Spain and all Hispanic American nations, to commemorate and celebrate Hispanic culture, races, language, religion, and traditions through colorful presentations of each country's costumes, folklore, and music, marching up Fifth Avenue from 44th Street to 72nd Street.

The Hispanic Parade Committee is made up of 50 organizations and a board of 27 representatives who spend a whole year preparing and organizing this complex multinational public event, with numerous cultural and entertainment activities. Among the many activities are the Spring Dance in honor of the reigning Queen of the Parade and her Court of Honor; the Salute to the Americas, which are series of conferences and lectures given by important authorities of the Hispanic world; the Art Exhibits where Latin American artists are invited to exhibit their art; the Sports Championships, which include soccer and softball competitions; the election of the Queen of the Hispanic Parade; a Catholic Mass of the Hispanic Parade, which is celebrated in St. Patrick's Cathedral and dedicated to a Patron Saint of a participating country; and the Great Gala Banquet to celebrate and recognize outstanding individuals of the Hispanic world.

The Hispanic Parade Committee has been growing every year. Fifty organizations belonging to the twenty-one Hispanic-American countries are now affiliated in the Parade, there will be a band, 40 allegorical carriages, and 30 folkloric groups representing these organizations.

Mr. Speaker, it is with great pride that I ask my colleagues to join me in recognizing the Hispanic Parade Committee, Inc. and in wishing them continued success on October 8 and in the future.

HONORING THE 50TH ANNIVERSARY OF THE RAVENNA CHURCH OF THE NAZARENE

HON. ERNIE FLETCHER

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. FLETCHER. Mr. Speaker, it is my honor to recognize the Ravenna Church of the Nazarene during its 50th Anniversary celebration. This quaint church, nestled in Central Kentucky, has served the community and its members in many different ways over the past 50 years—now they come together to reflect on the many memories and years of fellowship.

Located on Main Street in Ravenna, Kentucky, the Church of the Nazarene holds services in the same building that was dedicated in November of 1956. Now, 50 years later, the Church still stands on a strong foundation, rich with faith and a strong desire to serve its congregation and the surrounding community. It's an active congregation, with weekly services and children's groups. Each year, the congregation comes together for the annual homecoming, where stories are shared and many past years are revisited with joy.

It is a pleasure to recognize the Ravenna Church of the Nazarene on the House floor today, during its 50th Anniversary celebration. I wish this church and its members the very best for many, many years to come.

THE COLORADO COALITION FOR NEW ENERGY TECHNOLOGIES

HON. MATT SALMON

OF ARIZONA

HON. MARK UDALL

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. SALMON. Mr. Speaker, though my colleague, Mr. UDALL of Colorado, and I are from different states and opposite political parties, we join together today in saluting the Colorado Coalition for New Energy Technologies. This coalition, established early this year, brings together Colorado businesses and non-profit groups in support of environmentally responsible economic growth through the efficient use of Colorado's abundant and clean sources of energy.

This new coalition has already accomplished several successes in its short tenure, but perhaps one of the most notable was to help key members of the Colorado state legislature establish the Colorado Renewables and Energy Efficiency Caucus. Modeled on the U.S. House Renewables and Energy Efficiency Caucus, of which we are co-chairs, this state caucus was founded in March 2000 by seven state Senators and Representatives of both parties. Within two months of its founding, this caucus more than doubled in size to 17 state legislators before the 2000 Colorado General Assembly adjourned. Like the U.S. House Caucus, the primary goal of the Colorado caucus is to educate legislators about cutting-edge advances in renewable energy and efficiency technologies, many of which are developed in Colorado at the National Renewable Energy Laboratory in Golden.

Throughout its activities, the Colorado Coalition for New Energy Technologies seeks to emphasize how investment in new energy technologies helps sustain the economic prosperity of Colorado and of the United States. In its short existence, it has proven to be a resource for its members, as well as to Colorado state legislators seeking timely and accurate information on new energy technologies.

We salute the Colorado Coalition for New Energy Technologies, its members and its leadership for the valuable contribution it is making to the formation of energy policy in Colorado.

ANNUAL BANKING FEE SURVEY EXTENSION ACT

HON. JOHN J. LaFALCE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. LAFALCE. Mr. Speaker, I am today introducing legislation to extend and expand provisions in current law that require the Federal Reserve Board to report annually to Congress on the cost and availability of retail banking services. These annual bank fee studies have been an invaluable source of information about banking costs and trends that have benefitted consumers and assisted the Banking Committee's oversight of financial activities. The Federal Reserve Board acted last year, under existing law, to terminate all future bank fee reporting. My legislation would amend current law to continue these reports and expand them to reflect broader market activity. The House has passed broader legislation reauthorizing a number of important consumer reports, including the bank fee report in its current form, but that bill is currently awaiting Senate action.

In 1989, Congress directed the Federal Reserve Board, as part of the Financial Institutions Reform, Recovery and Enforcement Act (FIRREA), to study and report annually on discernible changes in the cost and availability of certain retail banking services. The purpose was to determine whether banks would pass on the expense of higher deposit insurance costs resulting from the savings and loan crisis to consumers. These annual studies were expanded, under the Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994, to include more detailed state-by-state reporting on discernible changes in the cost and availability of retail banking services resulting from the lifting of bank interstate branching restrictions.

Last year, the Federal Reserve Board determined that its annual banking fee surveys and reports were no longer needed. Responding to provisions of the 1995 Federal Reports Elimination and Sunset Act that permit federal agencies to eliminate outdated or unnecessary reports, the Board included the annual bank fees surveys among a number of Congressionally mandated reports that it proposed to eliminate. The Board's rationale was that the original intent of the reports, determining whether the added costs of deposit insurance were being passed on to consumers, was no longer relevant since banks are now paying minimal premiums for FDIC deposit insurance, and consumers now have broader access to bank fee information over the Internet.

While concerns with higher banking costs arising from the S&L crisis have certainly subsided, the annual service fee reports have taken on increased importance in recent years with the passage of interstate branching and increased consolidation within the banking industry. Passage of the landmark Financial Service Modernization Act last year also creates a continuing imperative to understand how increased integration and cross marketing of services among banks, investment firms and insurance companies will affect the cost and availability of basic financial services.

Consumer groups have raised very credible arguments that the annual bank fee reports are more necessary now than at any time in the past to determine what effect more rapid consolidation among financial services providers is having on consumers—whether the costs of mergers and acquisition are being passed on to consumers and whether consumers realize any of the promised cost benefits of financial modernization.

I have also found the Federal Reserve's annual fee reports to be the only official source of information documenting several extremely important changes within the retail banking sector. In recent years, non-interest income from fees and services has replaced interest income as the major contributor to the record levels of bank profits. In the past three years alone, bank non-interest income has increased on average by 18 percent, with interest income growing by roughly 4 percent annually. Non-interest income has quickly replaced traditional interest charges as the major contributor to bank earnings. As a result, banks of all sizes have sought out new sources of fee income to maintain earnings as greater competition among lenders has shrunk bank lending margins.

These changes have prompted banks and thrift institutions to institute a pay-for-service approach to basic banking and a ''penalty pricing'' approach to credit cards and ATMs that have generated significant new revenue for banks while antagonizing increasing numbers of consumers. The Federal Reserve Board's annual reports have documented these changes, showing significant and steady growth in over 20 categories of banking service fees. The report has also shown substantially higher average growth in fees among larger multi-state banks and thrifts than among smaller local institutions. This has provided important comparison shopping information for consumers and may help explain why many of the nation's largest banking institutions support the Board's decision to eliminate these reports.

Given the changing financial marketplace and the marked changes in retail banking services, the information provided in the bank fee reports is more important now than at any time in the past decade. It should be Congress, not the Federal Reserve Board, that determines when the information provided in these annual reports is no longer needed by Congress or relevant to consumers.

My legislation, the ''Annual Banking Fee Survey Extension Act,'' proposes two changes in current law to assure that the Federal Reserve Board continues reporting annually to Congress on the cost and availability of retail banking services until such time that Congress determines it is no longer relevant or necessary. First, it amends the Federal Reports Elimination and Sunset Act of 19956 to exempt the annual bank fee reports from the discretionary authority provided the Federal Reserve Board to discontinue outdated or unnecessary reporting requirements. Second, it amends the 1994 Riegle-Neal Interstate Branching Act to repeal a provision that would sunset aspects of the fee study requirement in late 2001.

In addition, the bill expands the mandate for annual fee reporting to include the fees for retail services charged by credit unions. Past surveys and reports have included only the fees charged by bank and thrift institutions. A large and growing segment of our population currently obtains checking and other financial services from credit unions. Inclusion of credit union fees would make the annual reports more broadly representative of the broader consumer marketplace. It would also document differences in costs between banks, thrifts and credit unions that will enhance competition and benefit consumers.

My legislation also expands the focus of the annual fee studies to include various fees and charges associated with credit cards. Past fee reports have included data only on basic checking and savings account services and only those additional fees specifically requested by statute, such as fees associated with ATM transactions. Institutions that offer credit cards now impose a large and growing array of charges and penalties, such as late payment fees, annual fees, over-the-limit fees, cash advance fees, convenience check fees, foreign currency conversion fees, and many more. I have received more complaints from my constituents about credit card fees than all other banking fees combined. Credit cards, in general, are one of the foremost concerns among consumers in my district and, I believe, among consumers in all parts of the country. The fees and penalties charged in connection with credit cards clearly should be incorporated in any future study of retail banking costs.

Mr. Speaker, the financial marketplace has changed dramatically over the past half decade and will continue to change in response to the landmark financial modernization legislation we enacted last year. It is imperative that Congress have all the information necessary to assess whether these changes will enhance the services available to consumers or only benefits financial institutions at the expense of consumers. My legislation merely extends Congress' prior request for annual reporting on banking fees and costs. This is reasonable and responsible legislation that Congress should enact before adjournment this year.

HONG KONG TRANSITION TASK FORCE

HON. DOUG BEREUTER

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. BEREUTER. Mr. Speaker, following his visit to Hong Kong in April 1997, Speaker Gingrich tasked this Member with the responsibility of creating the Speaker's Task Force on the Hong Kong Transition and of observing and reporting on Hong Kong's status following its return to the People's Republic of China. The Task Force is bipartisan in nature and all members of it have been drawn from the Subcommittee on Asia and the Pacific, of which this Member is the Chairman.

On behalf of the Task Force, this Member would like to inform his colleagues that the eighth report of the Speaker's Task Force on the Hong Kong Transition has been filed. In summary, the Task Force continues to believe that the transition has progressed satisfactorily, although concerns remain in areas such as press self-censorship and controls, export controls and most notably, rule of law. The recent controversial remarks by Chinese officials warning against press coverage of issues regarding Taiwan and of business support for Taiwan independence have been a concern, as has the issue of judicial independence and the rule of law as a result of the ''right of abode'' case. These issues will need to be watched closely.

Hong Kong's political system continues to evolve, although progress towards further democratization has not been as rapid as many would like. The Hong Kong press remains free and continues to comment critically on the People's Republic of China (PRC), although threatening remarks by PRC officials in reference to press coverage related to Taiwan is worrisome. Public demonstrations continue to be held. Indeed, there is a vigorous public debate on the issues of democracy and law. The legislature and free press have used their roles to increase government accountability and transparency.

Mr. Speaker, a copy of the Task Force's eighth report is available on the internet website of the Subcommittee on Asia and the Pacific: www.house.gov/international__relations/ap/ap.htm. It is also available in hardcopy from the Subcommittee office.

REPUBLIC OF CHINA'S NATIONAL DAY

HON. PETER T. KING

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. KING. Mr. Speaker, as President Chen Shui-bian, Vice President Annette Lu and the people of the Republic of China prepare to celebrate their National Day on October 10, 2000, I wish to extend to them my congratulations.

The Republic of China on Taiwan has a lot to be proud of. Taiwan's economy is very strong. For instance, export orders reached US $74 billion from January to June, up 21 percent from the same period last year. In June of this year, exports and imports enjoyed almost 25 percent growth from the year-earlier period. It is the government's policy to continue to develop Taiwan's new economy based on information and high technologies. Furthermore, Taiwan's citizens enjoy one of the highest living standards in the world. Politically, Taiwan is a true democracy with free island-wide elections, press independence and political pluralism.

Mr. Speaker, Taiwan is a model of success for many countries in the world, and we need to give Taiwan our approbation and support.

ADDRESSING ALCOHOL AND THE COLLEGE CAMPUS

HON. DEBORAH PRYCE

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Ms. PRYCE of Ohio. Mr. Speaker, I rise today to discuss a serious problem facing our society today—the misuse of beverage alcohol on our nation's college and university campuses. This problem negatively impacts students, universities and industry as well as our communities. Therefore, it is essential that these entities work together to solve this national problem. Mr. Speaker I would like to draw the attention of my colleagues to the creative solutions being pursued by community-based partnerships across America.

On October 23rd to 25th in Washington, D.C., a number of colleges and universities, along with the Distilled Spirits Council of the United States, will convene a national conference to discuss best practices, create new partnerships and share information on solutions to this complex problem. During this weekend, students, retailers, community leaders, manufacturers, university administrators, law enforcement officials and parents will come together in partnership to discuss solutions to this challenge.

I commend these institutions of higher education and the distilled spirits industry for their leadership on this issue. As is the case with many societal problems, solutions are most effective when everyone works together.

Mr. Speaker, I know I speak for many of my colleagues in saying we eagerly await the action-oriented plans this conference will produce. I wish all the participants, supporters and planning partners the best as they work together toward a common goal.

92ND DIVISION REUNION

HON. WILLIAM J. COYNE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. COYNE. Mr. Speaker, I rise today to call the House's attention to a reunion that will take place in my congressional district on October 6th through 8th. The U.S. Army's 92nd Infantry Division, the ''Buffalo Division,'' will be holding a reunion at the Wyndham Garden Hotel in Pittsburgh.

The 92nd Infantry Division was an Army division composed of African American soldiers which saw action in both World War I and World War II. The 92nd Infantry Division served in the Meuse-Argonne region and Lorraine in World War I, and it participated in the hard fighting up the Italian peninsula during World War II. The Division saw action in World War II in the North Apennines and the Po Valley. It participated in the crossing of the Arno River, the occupation of Lucca, and the penetration of the Gothic Line, as well as an advance north along the Ligurian coast. The 92nd Division's actions demonstrated the bravery and dedication of African Americans to their country.

Until this year, the 92nd Infantry Division's annual reunions had always been held in Washington, D.C., but thanks to the initiative of the Reverend James Tillman, a veteran of the 92nd Infantry Division, the unit's 58th reunion will be held in Pittsburgh. Reverend Tillman and retired Army Lieutenant Colonel Patricia Tucker are co-chairing this reunion. The decision to hold this reunion in Pittsburgh reflects the fact that Alleghany County is home to roughly 100 of these ''Buffalo Soldiers,'' but it also provides an excellent opportunity for raising the awareness of the region's residents about the combat service of patriotic African Americans in the U.S. Army at a time when it was operating under the shadow of racism, segregation, and discrimination. Mr. Speaker, I am proud that the veterans of the 92nd Infantry Division have chosen Pittsburgh for their annual reunion. I want to thank them for their herioc service to their country, and I want to extend a warm welcome to all of the reunion participants on behalf of the people of Pennsylvania's 14th Congressional District.

VIOLENCE AGAINST WOMEN ACT

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Ms. LEE. Mr. Speaker, I am pleased that the House passed H.R. 1248, the Violence Against Women Act (VAWA) of 1999 by a vote of 415–3. H.R. 1248 will reauthorize the act for 5 years and expand preventive measures against violence against women.

This measure will maintain and expand battered women's shelter programs, rape prevention programs as well as provide assistance to the growing number of victims.

While I was a state senator in California, I introduced similar legislation because I believed then, as I do now, that this issue is extremely important to the lives of women and their children. It has been ignored for too long.

In the past, domestic violence was not considered a crime. Today, however, police officers are getting trained to understand these crimes as well improve their ability to enforce the law.

VAWA has provided critical services to thousands of battered women. Since VAWA passed, the Department of Justice and Health and Human Services have awarded over $1.6 billion in grants nationwide to support the work of prosecutors, law enforcement officials, the courts, victims' advocates, health care and social service professionals, and intervention and prevention programs.

In addition, VAWA established a domestic violence hotline, which has received over half a million calls.

Unfortunately, domestic violence still devastates the lives of many women and children. Nearly 900,000 women experience violence at the hands of an intimate partner every year. Close to one-third of women murdered each year are killed by their husbands or significant other; and domestic violence accounts for over 20% of all violent crimes against women.

Children should not have to watch their mothers get beaten. Unfortunately, some of these children grow up to continue the cycle of abuse. And, they end up in prison.

Again, I am pleased with the passage of the VAWA because it has helped to save numerous lives of women and their children. This law has provided battered women and their children, a safe haven, and the support necessary for their physical and emotional security.

VAWA has given a second chance to these women as well as saved many of their lives.

Violence against women should not be tolerated. This legislation provides greater protections to all the women who have been victimized and abused.

AMERICAN INTERESTS IN THE MIDDLE EAST PEACE PROCESS

SPEECH OF

HON. JOHN D. DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 26, 2000

Mr. DINGELL. Mr. Speaker, yesterday, the House passed H.R. 5272, the inappropriately named ''Peace Through Negotiations Act of 2000.'' This legislation is unnecessary, ill timed and not in the best interest of our country or the Middle East peace process. I believe, like the Administration, that the Palestinian Authority should not unilaterally declare statehood outside the framework of a negotiated peace settlement. Unilateral actions by either the Palestinians or Israelis can erode, disrupt, and possibly derail a peace process that we all support and want to see to conclusion in order for future generations to be able to live a normal and stable life.

For starters, this legislation was wholly unnecessary given President Arafat's recent decision not to unilaterally declare a state because it would jeopardize the peace process. Instead of acknowledging the fact that the Palestinian Authority acted with considerable restraint in making this decision, which I will note was not popular among the Palestinian people, we have unfairly and unnecessarily condemned the Palestinian Authority at the very time discussion between Arafat and Prime Minister Barak were underway.

I ask my colleagues, have you read this legislation known as the ''Peace Through Negotiations Act?'' I have and that is why I am concerned, because while the message sent by H.R. 5272 was bad, its substance is worse.

In particular, I am concerned that Section 4a(1) of the legislation supercedes a portion of the Middle East Peace Facilitation Act and reverses a presidential determination on the national security of the United States. Reversing a standing law that has successfully guided our policy in the Middle East peace process should only be done after serious deliberations. Reversing a Presidential action that he determines is in the national security of the United States is even more serious. Both these actions are done by this legislation without a single hearing or public request for the President's views. Members of the International Relations Committee were given less than twenty-four hours notice of the mark-up of this legislation. The bill passed the Committee on Tuesday with barely half the Members present and voting. The full House

passed it on Wednesday under restrictive procedures denying anyone the opportunity to amend it. This legislation is too important to be acted upon in such a rushed fashion. To have done so does not speak highly of the Republican leadership of the House of Representatives.

Moreover, the legislation is flawed because it does not address unilateral actions of all parties. In my view, the unwillingness of the legislation to address unilateral actions of both sides puts our Middle East peace process negotiators in a terrible position. We in Congress should not take actions that make the efforts of American peacemakers more difficult.

My hope is that our colleagues in the Senate do not follow the House's sad example and rush to action without sufficient consideration of all of the ramifications of this legislation.

HONORING U.S. REPRESENTATIVE SOLOMON P. ORTIZ IN RECOGNITION OF THE PORT OF CORPUS CHRISTI'S DEDICATION OF ITS WATERFRONT DEVELOPMENT AS THE CONGRESSMAN SOLOMON P. ORTIZ INTERNATIONAL CENTER

HON. GRACE F. NAPOLITANO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mrs. NAPOLITANO. Mr. Speaker, the Members of the Congressional Hispanic Caucus rise today to honor a respected colleague, an extraordinary Texan and effective public servant, Congressman SOLOMON P. ORTIZ. Since 1982, Congressman ORTIZ has served as a strong advocate for his constituents in the 27th Congressional District of Texas. During his 18 years of service, he has fought tirelessly to bring jobs and enhance the quality of life for residents of the Bay of Corpus Christi to the international border with Mexico.

In recognition of Congressman ORTIZ's lifetime of remarkable leadership and his work on behalf of the Port of Corpus Christi in the area of economic development and trade, Members from the Congressional Hispanic Caucus will join South Texans in Corpus Christi on September 29, 2000 to dedicate the Port of Corpus Christi's new international meeting facility and cruise terminal as ''The Congressman Solomon P. Ortiz International Center.''

According to William Dodge III, Port Commission Chairman, Congressman ORTIZ ''. . . is a strong advocate for the Port of Corpus Christi. He continues to be a leader on international trade issues that significantly impact the Port and the South Texas region. The Congressman recognizes the importance of the Port to the region and always works to ensure that the Port has the necessary resources to help fulfill the mission of diversification. Naming the waterfront development in his honor is a tribute to his contributions and support of the Port.''

Working with Congressman ORTIZ in the U.S. House of Representatives, and knowing first-hand of his endless passion and dedication to public service, we, the Members of the Congressional Hispanic Caucus applaud and endorse the actions of the citizens of South Texas in naming the International Center in his honor. Congressman ORTIZ will continue his significant work to support and strengthen the Port of Corpus Christi, promote international commerce, and ensure that global trade benefits his constituents and the people of the United States.

We urge all our colleagues to join us today in recognition of his 18 remarkable years of service and offer our personal congratulations on the occasion of the dedication of the Port of Corpus Christi's waterfront development as ''The Congressman Solomon P. Ortiz International Center.''

INTRODUCTION OF THE HOME HEALTH CARE PROTECTION ACT OF 2000

HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. MARKEY. Mr. Speaker, this week I introduced the Home Health Care Protection Act of 2000, H.R. 5303, the companion bill to the Senate version introduced by Senator JEFFORDS. This bill will clarify the definition of ''homebound'' and improve the lives of millions of Americans who are confined to the home as well as their caregivers.

In my own family, my mother who was afflicted with Alzheimer's Disease was confined to the home for over eight years. My father was her caregiver. I was awed by his utter devotion and dedication to her care, day in and day out. Taking care of an Alzheimer's patient is grueling. It's a 24 hour a day job, 7 days a week. For many caregivers the only break in attending to the needs of the Alzheimer's patient is through adult day care services. Adult day care not only provides therapy for the Alzheimer's patient but a desperately needed break for the caregiver.

But, Mr. Speaker, the unfortunate truth is that Medicare beneficiaries are unable to attend adult day care without losing their home health benefits because of a narrow interpretation of the Medicare law. Alzheimer's patients may not attend adult day care without losing their home health benefits even though we know that adult day care services are a complement to home health benefits, relieve caregiver burdens and delay nursing home placement—all at zero cost to the Medicare program.

However, yesterday in the Commerce Committee we took a step toward correcting this situation—a victory was won for Alzheimer's patients and their caregivers. The BBA giveback package which was passed out of Committee unanimously by voice vote included language clarifying the ''homebound'' definition in the law allowing for Medicare beneficiaries with Alzheimer's disease who are confined to the home to attend adult day care services without losing their home health benefits.

While we took a step in addressing this important issue with respect to Alzheimer's patient's broader language to encompass ALL beneficiaries who are confined to the home was not included by the Chairman's mark. Furthermore, this language will not allow any beneficiaries who are confined to the home to attend religious services, or to take a slow, arduous walk around the block, or to attend once in a lifetime events like a granddaughter's graduation, or a grandson's wedding.

Mr. Speaker, this isn't right.

However, H.R. 5303, The Home Health Care Protection Act of 2000, is designed to correct this flaw. H.R. 5303, is the companion bill to the Senate version introduced by Senator JEFFORDS. It further clarifies the ''homebound'' definition to allow for those who have had the misfortune of an illness which confines them to the home, to attend a graduation, to go to their place of worship and to attend adult day care services.

It's time we clarify the definition of ''homebound'' in the Medicare law. Homebound beneficiaries should be free to leave the home under special circumstances without fear of losing their home health benefits. It's only right, Mr. Speaker. Americans who are confined to their homes deserve better. We can and should do more for them. Making the Home Health Care Protection Act of 2000 the law of the land will do just that.

COLLEAGUES PRAISE CHAIRMAN SHUSTER'S LEADERSHIP AT TRANSPORTATION COMMITTEE HELM

HON. JOHN J. DUNCAN, JR.

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 28, 2000

Mr. DUNCAN. Mr. Speaker, I rise today to pay tribute to one of the greatest committee chairmen we have seen during the past few years in the House. He has served in the House of Representatives for 28 years, 6 of those as Chairman of the Transportation and Infrastructure Committee, the largest and most productive committee in the Congress.

Following the committee's final full committee meeting Wednesday of this week, my colleagues and I surprised Chairman SHUSTER with the presentation of a plaque to him commemorating his achievements as Chairman.

During that presentation and speaking on behalf of Committee Democrats, Ranking Member JIM OBERSTAR (D–MN) said:

Mr. Chairman, a few short moments ago we passed a bill designating a courthouse for President Theodore Roosevelt.

I quote Roosevelt's ''The Man in the Arena'' speech:

''It is not the critic who counts, not the man who points out how other strong men stumbled or how the doer of deeds could have done better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood, who strives valiantly, who errs and comes up short again, and again, because there is no effort without some error or shortcoming, but who knows the great enthusiasm, the great devotion, who, spends himself for a worthy cause; who at best, knows in the end the triumph of the high achievement, and who, at the worst, if he fails, at least he fails while daring greatly so that his place shall never be with those cold and timid souls who know neither victory nor defeat.''

Mr. Chairman, you are a man in the arena—and your achievements as Chairman speak for themselves. Everyone in this room knows the enormous accomplishments of TEA 21, AIR 21, and trust fund firewalls. Some may not know the ''smaller'' accomplishments that do not get the headlines—such as reauthorization of the Economic Development Administration and the Appalachian Regional Commission—''little'' programs that make a real difference in the lives of our people. We all serve on this Committee because we believe that its transportation, infrastructure, and environmental programs make a real difference in our constituents', and all American's lives.

Mr. Chairman, part of the joy of serving on this Committee is the way in which we work together to develop bipartisan bills. In this Congress, the Committee has: Held 114 hearings; reported 98 bills, 30 percent of bills reported by all Committees in the House (325); passed 92 bills, 22 percent of all bills passed by the House (427); and 30 Transportation Committee bills have become law, 11 percent of all public laws enacted in the 106th Congress (269).

And that is the record only so far—I can say with confidence that many more Transportation Committee bills will become law before the 106th Congress adjourns.

Mr. Chairman, we, as a Committee, have worked extraordinarily well over the last 6 years under your leadership. We do not know what the elections hold this November and I am not here to predict. However, under current House Rules, you will be unable to chair the Committee in the 107th Congress. I did not want this opportunity to pass without recognizing your effective bipartisan leadership of this Committee.

On behalf of our Committee's Democrats and particularly myself, I present you with a plaque to commemorate your chairmanship. For the 104th and 105th Congresses, it lists the number of hearings held, Committee bills passed by the House of Representatives, and bills that have become law. It has a spot for the 106th Congress; we will fill that in when we have completed our work.

It also has a gavel—a gavel that you have wielded so well for these 6 years. Congratulations, Mr. Chairman.

In addition to Mr. OBERSTAR, Mr. THOMAS PETRI (R-WI), Chairman of the Ground Transportation Subcommittee, said, ''Chairman SHUSTER's historic leadership deservedly has been recognized by the prestigious Congressional Quarterly which named him one of the five top 'Legislative Drivers' in the Congress, (the other four being U.S. Senators), and the National Journal recently reported that 'SHUSTER has chalked up a remarkable record. Not surprisingly, his colleagues regard him as one of the last great chairmen on Capitol Hill.' We all salute Chairman SHUSTER for his extraordinary accomplishments. This has been the 6 most productive years in the Committee's history.''

I have said many times that if a young Member of Congress wanted to see how to get things accomplished in the Congress, he should follow Chairman BUD SHUSTER for awhile.

Chairman SHUSTER is respected by everyone, on both sides of the aisle, and staff as well as Members.

Chairman SHUSTER has spent his career building America. The fruits of his work can be seen all over this Nation, and improvements that he started will be going on for many years.

Our economy is much stronger, and, more importantly, lives are being saved because of projects which owe their genesis in major part to BUD SHUSTER.

I personally appreciate the kindness shown to me by Chairman SHUSTER. I could not have been the Chairman of the Aviation Subcommittee, the highlight of my service in the Congress, if it had not been for BUD SHUSTER.

I owe him a great personal debt, but I believe our country does as well. I believe that this Nation is a much better place today because of Chairman BUD SHUSTER, and I am very proud to call him my friend and my leader.

HOUSE OF REPRESENTATIVES—*Friday, September 29, 2000*

The House met at 12 noon and was called to order by the Speaker pro tempore (Mr. THORNBERRY).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
September 29, 2000.

I hereby appoint the Honorable MAC THORNBERRY to act as Speaker pro tempore on this day.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

God of truth, You are our salvation. Ready us in our defense whenever we are called to account for placing all our trust in You. Our defense will be modest and all our ways clothed with reverence if we keep our conscience clear.

By Your spirit, You will so guide the conduct of this Nation that those who malign us will themselves be put to shame. For we place our trust in You, O Lord.

Since it is better to suffer for doing good than to suffer for doing evil, if it be Your holy will, give us the power to embrace sacrificial suffering, now and forever. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. The Chair will lead the House in the Pledge of Allegiance.

The Speaker pro tempore (Mr. THORNBERRY) led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate agreed to the following resolution:

S. RES. 363

Whereas Dr. Ernest Burgess practiced medicine for over 50 years;

Whereas Dr. Burgess was a pioneer in the field of prosthetic medicine, spearheading groundbreaking advances in hip replacement surgery and new techniques in amputation surgery;

Whereas in 1964, recognizing his work in prosthetic medicine, the United States Veterans' Administration chose Dr. Burgess to establish the Prosthetic Research Study, a leading center for postoperative amputee treatment;

Whereas Dr. Burgess was the recipient of the 1985 United States Veterans' Administration Olin E. League Award and honored as the United States Veterans' Administration Distinguished Physician;

Whereas Dr. Burgess' work on behalf of disabled veterans has allowed thousands of veterans to lead full and healthy lives;

Whereas Dr. Burgess was internationally recognized for his humanitarian work;

Whereas Dr. Burgess established the Prosthetics Outreach Foundation, which since 1988, has enabled over 10,000 children and adults in the developing world to receive quality prostheses;

Whereas Dr. Burgess' lifelong commitment to humanitarian causes led him to establish a demonstration clinic in Vietnam to provide free limbs to thousands of amputees;

Whereas Dr. Burgess received numerous professional and educational distinctions recognizing his efforts on behalf of those in need of care;

Whereas Dr. Burgess' exceptional service and his unfailing dedication to improving the lives of thousands of individuals merit high esteem and admiration; and

Whereas the Senate learned with sorrow of the death of Dr. Burgess on September 26, 2000: Now, therefore, be it

Resolved, That the Senate—

(1) extends its deepest condolences to the family of Ernest Burgess, M.D.;

(2) commends and expresses its gratitude to Ernest Burgess, M.D. and his family for a life devoted to providing care and service to his fellow man; and

(3) directs the Secretary of the Senate to communicate this resolution to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

The message also announced that the Senate has passed without amendment bills of the House of the following titles:

H.R. 3363. An act for the relief of Akal Security, Incorporated.

H.R. 4115. An act to authorize appropriations for the United States Holocaust Memorial Museum, and for other purposes.

H.R. 4931. An act to provide for the training or orientation of individuals, during a Presidential transition, who the President intends to appoint to certain key positions, to provide for a study and report on improving the financial disclosure process for certain Presidential nominees, and for other purposes.

H.R. 5193. An act to amend the National Housing Act to temporarily extend the applicability of the downpayment simplification provisions for the FHA single family housing mortgage insurance program.

The message also announced that the Senate agrees to the amendment of the House to the bill (S. 704) ''An Act to amend title 18, United States Code, to combat the overutilization of prison health care services and control rising prisoner health care costs.''.

The message also announced that the Senate has passed with amendment in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 3646. An act for the relief of certain Persian Gulf evacuees.

The message also announced that the Senate has passed bills and a concurrent resolution of the following titles in which the concurrence of the House is requested:

S. 11. An act for the relief of Wei Jingsheng.

S. 113. An act to increase the criminal penalties for assaulting or threatening Federal judges, their family members, and other public servants, and for other purposes.

S. 150. An act for the relief of Marina Khalina and her son, Albert Miftakhov.

S. 451. An act for the relief of Saeed Rezai.

S. 785. An act for the relief of Francis Schochenmaier and Mary Hudson.

S. 869. An act for the relief of Mina Vahedi Notash.

S. 893. An act to amend title 46, United States Code, to provide equitable treatment with respect to State and local income taxes for certain individuals who perform duties on vessels.

S. 1078. An act for the relief of Mrs. Elizabeth Eka Bassey, Emmanuel O. Paul Bassey, and Mary Idongesit Paul Bassey.

S. 1438. An act to establish the National Law Enforcement Museum on Federal land in the District of Columbia.

S. 1513. An act for the relief of Jacqueline Salinas and her children Gabriela Salinas, Alejandro Salinas, and Omar Salinas.

S. 1534. An act to reauthorize the Coastal Zone Management Act, and for other purposes.

S. 2000. An act for the relief of Guy Taylor.

S. 2002. An act for the relief of Tony Lara.

S. 2019. An act for the relief of Malia Miller.

S. 2289. An act for the relief of Jose Guadalupe Tellez Pinales.

S. 2487. An act to authorize appropriations for Fiscal Year 2001 for certain maritime programs of the Department of Transportation.

S. Con. Res. 139. Concurrent resolution authorizing the use of the Capitol grounds for the dedication of the Japanese-American Memorial to Patriotism.

CONFERENCE REPORT ON H.R. 4578, DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES APPROPRIATIONS ACT, 2001

Mr. YOUNG of Florida submitted the following conference report and statement on the bill (H.R. 4578) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2001, and for other purposes.

CONFERENCE REPORT (H. REPT. 106–914)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4578) ''making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2001, and for other purposes'', having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the Department of the Interior and related agencies for the fiscal year ending September 30, 2001, and for other purposes, namely:

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

For expenses necessary for protection, use, improvement, development, disposal, cadastral surveying, classification, acquisition of easements and other interests in lands, and performance of other functions, including maintenance of facilities, as authorized by law, in the management of lands and their resources under the jurisdiction of the Bureau of Land Management, including the general administration of the Bureau, and assessment of mineral potential of public lands pursuant to Public Law 96–487 (16 U.S.C. 3150(a)), $709,733,000, to remain available until expended, of which $3,898,000 shall be available for assessment of the mineral potential of public lands in Alaska pursuant to section 1010 of Public Law 96–487 (16 U.S.C. 3150); and of which not to exceed $1,000,000 shall be derived from the special receipt account established by the Land and Water Conservation Act of 1965, as amended (16 U.S.C. 460l–6a(i)); and of which $3,000,000 shall be available in fiscal year 2001 subject to a match by at least an equal amount by the National Fish and Wildlife Foundation, to such Foundation for cost-shared projects supporting conservation of Bureau lands and such funds shall be advanced to the Foundation as a lump sum grant without regard to when expenses are incurred; in addition, $34,328,000 for Mining Law Administration program operations, including the cost of administering the mining claim fee program; to remain available until expended, to be reduced by amounts collected by the Bureau and credited to this appropriation from annual mining claim fees so as to result in a final appropriation estimated at not more than $709,733,000, and $2,000,000, to remain available until expended, from communication site rental fees established by the Bureau for the cost of administering communication site activities: Provided, That appropriations herein made shall not be available for the destruction of healthy, unadopted, wild horses and burros in the care of the Bureau or its contractors.

WILDLAND FIRE MANAGEMENT

For necessary expenses for fire preparedness, suppression operations, research, emergency rehabilitation and hazardous fuels reduction by the Department of the Interior, $425,513,000, to remain available until expended, of which not to exceed $30,000,000 shall be for the renovation or construction of fire facilities: Provided, That such funds are also available for repayment of advances to other appropriation accounts from which funds were previously transferred for such purposes: Provided further, That unobligated balances of amounts previously appropriated to the ''Fire Protection'' and ''Emergency Department of the Interior Firefighting Fund'' may be transferred and merged with this appropriation: Provided further, That persons hired pursuant to 43 U.S.C. 1469 may be furnished subsistence and lodging without cost from funds available from this appropriation: Provided further, That notwithstanding 42 U.S.C. 1856d, sums received by a bureau or office of the Department of the Interior for fire protection rendered pursuant to 42 U.S.C. 1856 et seq., protection of United States property, may be credited to the appropriation from which funds were expended to provide that protection, and are available without fiscal year limitation.

For an additional amount for ''Wildland Fire Management'', $200,000,000, to remain available until expended, for emergency rehabilitation and wildfire suppression activities: Provided, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That this amount shall be available only to the extent that an official budget request for a specific dollar amount, that includes designation of the entire amount of the request as an emergency requirement as defined by such Act, is transmitted by the President to the Congress.

CENTRAL HAZARDOUS MATERIALS FUND

For necessary expenses of the Department of the Interior and any of its component offices and bureaus for the remedial action, including associated activities, of hazardous waste substances, pollutants, or contaminants pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (42 U.S.C. 9601 et seq.), $10,000,000, to remain available until expended: Provided, That notwithstanding 31 U.S.C. 3302, sums recovered from or paid by a party in advance of or as reimbursement for remedial action or response activities conducted by the Department pursuant to section 107 or 113(f) of such Act, shall be credited to this account to be available until expended without further appropriation: Provided further, That such sums recovered from or paid by any party are not limited to monetary payments and may include stocks, bonds or other personal or real property, which may be retained, liquidated, or otherwise disposed of by the Secretary and which shall be credited to this account.

CONSTRUCTION

For construction of buildings, recreation facilities, roads, trails, and appurtenant facilities, $16,860,000, to remain available until expended.

PAYMENTS IN LIEU OF TAXES

For expenses necessary to implement the Act of October 20, 1976, as amended (31 U.S.C. 6901–6907), $150,000,000, of which not to exceed $400,000 shall be available for administrative expenses: Provided, That no payment shall be made to otherwise eligible units of local government if the computed amount of the payment is less than $100.

LAND ACQUISITION

For expenses necessary to carry out sections 205, 206, and 318(d) of Public Law 94–579, including administrative expenses and acquisition of lands or waters, or interests therein, $31,100,000, to be derived from the Land and Water Conservation Fund, to remain available until expended.

OREGON AND CALIFORNIA GRANT LANDS

For expenses necessary for management, protection, and development of resources and for construction, operation, and maintenance of access roads, reforestation, and other improvements on the revested Oregon and California Railroad grant lands, on other Federal lands in the Oregon and California land-grant counties of Oregon, and on adjacent rights-of-way; and acquisition of lands or interests therein including existing connecting roads on or adjacent to such grant lands; $104,267,000, to remain available until expended: Provided, That 25 percent of the aggregate of all receipts during the current fiscal year from the revested Oregon and California Railroad grant lands is hereby made a charge against the Oregon and California land-grant fund and shall be transferred to the General Fund in the Treasury in accordance with the second paragraph of subsection (b) of title II of the Act of August 28, 1937 (50 Stat. 876).

FOREST ECOSYSTEMS HEALTH AND RECOVERY FUND

(REVOLVING FUND, SPECIAL ACCOUNT)

In addition to the purposes authorized in Public Law 102–381, funds made available in the Forest Ecosystem Health and Recovery Fund can be used for the purpose of planning, preparing, and monitoring salvage timber sales and forest ecosystem health and recovery activities such as release from competing vegetation and density control treatments. The Federal share of receipts (defined as the portion of salvage timber receipts not paid to the counties under 43 U.S.C. 1181f and 43 U.S.C. 1181–1 et seq., and Public Law 103–66) derived from treatments funded by this account shall be deposited into the Forest Ecosystem Health and Recovery Fund.

RANGE IMPROVEMENTS

For rehabilitation, protection, and acquisition of lands and interests therein, and improvement of Federal rangelands pursuant to section 401 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701), notwithstanding any other Act, sums equal to 50 percent of all moneys received during the prior fiscal year under sections 3 and 15 of the Taylor Grazing Act (43 U.S.C. 315 et seq.) and the amount designated for range improvements from grazing fees and mineral leasing receipts from Bankhead-Jones lands transferred to the Department of the Interior pursuant to law, but not less than $10,000,000, to remain available until expended: Provided, That not to exceed $600,000 shall be available for administrative expenses.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

For administrative expenses and other costs related to processing application documents and other authorizations for use and disposal of public lands and resources, for costs of providing copies of official public land documents, for monitoring construction, operation, and termination of facilities in conjunction with use authorizations, and for rehabilitation of damaged property, such amounts as may be collected under Public Law 94–579, as amended, and Public Law 93–153, to remain available until expended: Provided, That notwithstanding any provision to the contrary of section 305(a) of Public Law 94–579 (43 U.S.C. 1735(a)), any moneys that have been or will be received pursuant to that section, whether as a result of forfeiture, compromise, or settlement, if not appropriate for refund pursuant to section 305(c) of that Act (43 U.S.C. 1735(c)), shall be available and may be expended under the authority of this Act by the Secretary to improve, protect, or

rehabilitate any public lands administered through the Bureau of Land Management which have been damaged by the action of a resource developer, purchaser, permittee, or any unauthorized person, without regard to whether all moneys collected from each such action are used on the exact lands damaged which led to the action: Provided further, That any such moneys that are in excess of amounts needed to repair damage to the exact land for which funds were collected may be used to repair other damaged public lands.

MISCELLANEOUS TRUST FUNDS

In addition to amounts authorized to be expended under existing laws, there is hereby appropriated such amounts as may be contributed under section 307 of the Act of October 21, 1976 (43 U.S.C. 1701), and such amounts as may be advanced for administrative costs, surveys, appraisals, and costs of making conveyances of omitted lands under section 211(b) of that Act, to remain available until expended.

ADMINISTRATIVE PROVISIONS

Appropriations for the Bureau of Land Management shall be available for purchase, erection, and dismantlement of temporary structures, and alteration and maintenance of necessary buildings and appurtenant facilities to which the United States has title; up to $100,000 for payments, at the discretion of the Secretary, for information or evidence concerning violations of laws administered by the Bureau; miscellaneous and emergency expenses of enforcement activities authorized or approved by the Secretary and to be accounted for solely on his certificate, not to exceed $10,000: Provided, That notwithstanding 44 U.S.C. 501, the Bureau may, under cooperative cost-sharing and partnership arrangements authorized by law, procure printing services from cooperators in connection with jointly produced publications for which the cooperators share the cost of printing either in cash or in services, and the Bureau determines the cooperator is capable of meeting accepted quality standards.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

For necessary expenses of the United States Fish and Wildlife Service, for scientific and economic studies, conservation, management, investigations, protection, and utilization of fishery and wildlife resources, except whales, seals, and sea lions, maintenance of the herd of longhorned cattle on the Wichita Mountains Wildlife Refuge, general administration, and for the performance of other authorized functions related to such resources by direct expenditure, contracts, grants, cooperative agreements and reimbursable agreements with public and private entities, $776,595,000, to remain available until September 30, 2002, except as otherwise provided herein, of which not less than $2,000,000 shall be provided to local governments in southern California for planning associated with the Natural Communities Conservation Planning (NCCP) program and shall remain available until expended: Provided, That not less than $1,000,000 for high priority projects which shall be carried out by the Youth Conservation Corps as authorized by the Act of August 13, 1970, as amended: Provided further, That not to exceed $6,355,000 shall be used for implementing subsections (a), (b), (c), and (e) of section 4 of the Endangered Species Act, as amended, for species that are indigenous to the United States (except for processing petitions, developing and issuing proposed and final regulations, and taking any other steps to implement actions described in subsection (c)(2)(A), (c)(2)(B)(i), or (c)(2)(B)(ii)): Provided further, That of the amount available for law enforcement, up to $400,000 to remain available until expended, may at the discretion of the Secretary, be used for payment for information, rewards, or evidence concerning violations of laws administered by the Service, and miscellaneous and emergency expenses of enforcement activity, authorized or approved by the Secretary and to be accounted for solely on his certificate: Provided further, That of the amount provided for environmental contaminants, up to $1,000,000 may remain available until expended for contaminant sample analyses.

CONSTRUCTION

For construction, improvement, acquisition, or removal of buildings and other facilities required in the conservation, management, investigation, protection, and utilization of fishery and wildlife resources, and the acquisition of lands and interests therein; $63,015,000, to remain available until expended: Provided, That, notwithstanding any provision of law or regulation, funds appropriated in Public Law 106–113 for exhibits at the J.N. Ding Darling National Wildlife Refuge Education Center in Florida shall be transferred immediately to the Ding Darling Wildlife Society for the purpose of constructing the exhibits.

LAND ACQUISITION

For expenses necessary to carry out the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 460l–4 through 11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the United States Fish and Wildlife Service, $62,800,000, to be derived from the Land and Water Conservation Fund, to remain available until expended.

COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND

For expenses necessary to carry out the provisions of the Endangered Species Act of 1973 (16 U.S.C. 1531–1543), as amended, $26,925,000, to be derived from the Cooperative Endangered Species Conservation Fund, to remain available until expended.

NATIONAL WILDLIFE REFUGE FUND

For expenses necessary to implement the Act of October 17, 1978 (16 U.S.C. 715s), $11,439,000.

NORTH AMERICAN WETLANDS CONSERVATION FUND

For expenses necessary to carry out the provisions of the North American Wetlands Conservation Act, Public Law 101–233, as amended, $20,000,000, to remain available until expended.

WILDLIFE CONSERVATION AND APPRECIATION FUND

For necessary expenses of the Wildlife Conservation and Appreciation Fund, $797,000, to remain available until expended.

MULTINATIONAL SPECIES CONSERVATION FUND

For expenses necessary to carry out the African Elephant Conservation Act (16 U.S.C. 4201–4203, 4211–4213, 4221–4225, 4241–4245, and 1538), the Asian Elephant Conservation Act of 1997 (Public Law 105–96; 16 U.S.C. 4261–4266), and the Rhinoceros and Tiger Conservation Act of 1994 (16 U.S.C. 5301–5306), $2,500,000, to remain available until expended: Provided, That funds made available under this Act and Public Law 105–277 for rhinoceros, tiger, and Asian elephant conservation programs are exempt from any sanctions imposed against any country under section 102 of the Arms Export Control Act (22 U.S.C. 2799aa–1).

ADMINISTRATIVE PROVISIONS

Appropriations and funds available to the United States Fish and Wildlife Service shall be available for purchase of not to exceed 79 passenger motor vehicles, of which 72 are for replacement only (including 41 for police-type use); repair of damage to public roads within and adjacent to reservation areas caused by operations of the Service; options for the purchase of land at not to exceed $1 for each option; facilities incident to such public recreational uses on conservation areas as are consistent with their primary purpose; and the maintenance and improvement of aquaria, buildings, and other facilities under the jurisdiction of the Service and to which the United States has title, and which are used pursuant to law in connection with management and investigation of fish and wildlife resources: Provided, That notwithstanding 44 U.S.C. 501, the Service may, under cooperative cost sharing and partnership arrangements authorized by law, procure printing services from cooperators in connection with jointly produced publications for which the cooperators share at least one-half the cost of printing either in cash or services and the Service determines the cooperator is capable of meeting accepted quality standards: Provided further, That the Service may accept donated aircraft as replacements for existing aircraft: Provided further, That notwithstanding any other provision of law, the Secretary of the Interior may not spend any of the funds appropriated in this Act for the purchase of lands or interests in lands to be used in the establishment of any new unit of the National Wildlife Refuge System unless the purchase is approved in advance by the House and Senate Committees on Appropriations in compliance with the reprogramming procedures contained in Senate Report 105–56.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

For expenses necessary for the management, operation, and maintenance of areas and facilities administered by the National Park Service (including special road maintenance service to trucking permittees on a reimbursable basis), and for the general administration of the National Park Service, including not less than $2,000,000 for high priority projects within the scope of the approved budget which shall be carried out by the Youth Conservation Corps as authorized by 16 U.S.C. 1706, $1,389,144,000, of which $9,227,000 for research, planning and interagency coordination in support of land acquisition for Everglades restoration shall remain available until expended, and of which not to exceed $7,000,000, to remain available until expended, is to be derived from the special fee account established pursuant to title V, section 5201 of Public Law 100–203: Provided, That the only funds in this account which may be made available to support United States Park Police operations are those needed to continue services at the same level as was provided in fiscal year 2000 at the Statue of Liberty and Gateway National Recreation Area, and those funds approved for emergency law and order incidents pursuant to established National Park Service procedures and those funds needed to maintain and repair United States Park Police administrative facilities.

UNITED STATES PARK POLICE

For expenses necessary to carry out the programs of the United States Park Police, $78,048,000, of which $1,607,000 for security enhancements in the Washington, DC area shall remain available until expended.

NATIONAL RECREATION AND PRESERVATION

(INCLUDING TRANSFER OF FUNDS)

For expenses necessary to carry out recreation programs, natural programs, cultural programs, heritage partnership programs, environmental compliance and review, international park affairs, statutory or contractual aid for other activities, and grant administration, not otherwise provided for, $58,359,000: Provided, That $1,595,000 appropriated in Public Law 105–277 for the acquisition of interests in Ferry Farm, George Washington's Boyhood Home, shall be transferred to this account and shall be available until expended for a cooperative agreement

for management of George Washington's Boyhood Home, Ferry Farm, as authorized in Public Law 105–355.

URBAN PARK AND RECREATION FUND

For expenses necessary to carry out the provisions of the Urban Park and Recreation Recovery Act of 1978 (16 U.S.C. 2501 et seq.), $10,000,000, to remain available until expended.

HISTORIC PRESERVATION FUND

For expenses necessary in carrying out the Historic Preservation Act of 1966, as amended (16 U.S.C. 470), and the Omnibus Parks and Public Lands Management Act of 1996 (Public Law 104–333), $79,347,000, to be derived from the Historic Preservation Fund, to remain available until September 30, 2002, of which $7,177,000 pursuant to section 507 of Public Law 104–333 shall remain available until expended: Provided, That of the total amount provided, $35,000,000 shall be for Save America's Treasures for priority preservation projects, including preservation of intellectual and cultural artifacts, preservation of historic structures and sites, and buildings to house cultural and historic resources and to provide educational opportunities: Provided further, That any individual Save America's Treasures grant shall be matched by non-Federal funds: Provided further, That individual projects shall only be eligible for one grant, and all projects to be funded shall be approved by the House and Senate Committees on Appropriations prior to the commitment of grant funds: Provided further, That Save America's Treasures funds allocated for Federal projects shall be available by transfer to appropriate accounts of individual agencies, after approval of such projects by the Secretary of the Interior: Provided further, That none of the funds provided for Save America's Treasures may be used for administrative expenses, and staffing for the program shall be available from the existing staffing levels in the National Park Service.

CONSTRUCTION

For construction, improvements, repair or replacement of physical facilities, including the modifications authorized by section 104 of the Everglades National Park Protection and Expansion Act of 1989, $242,174,000, to remain available until expended: Provided, That $650,000 for Lake Champlain National Historic Landmarks, $300,000 for the Kendall County Courthouse, and $365,000 for the U.S. Grant Boyhood Home National Historic Landmark shall be derived from the Historic Preservation Fund pursuant to 16 U.S.C. 470a.

LAND AND WATER CONSERVATION FUND

(RESCISSION)

The contract authority provided for fiscal year 2001 by 16 U.S.C. 460l–10a is rescinded.

LAND ACQUISITION AND STATE ASSISTANCE

For expenses necessary to carry out the Land and Water Conservation Act of 1965, as amended (16 U.S.C. 460l–4 through 11), including administrative expenses, and for acquisition of lands or waters, or interest therein, in accordance with the statutory authority applicable to the National Park Service, $110,540,000, to be derived from the Land and Water Conservation Fund, to remain available until expended, of which $40,500,000 is for the State assistance program including $1,500,000 to administer the State assistance program, and of which $12,000,000 may be for State grants for land acquisition in the State of Florida: Provided, That the Secretary may provide Federal assistance to the State of Florida for the acquisition of lands or waters, or interests therein, within the Everglades watershed (consisting of lands and waters within the boundaries of the South Florida Water Management District, Florida Bay and the Florida Keys, including the areas known as the Frog Pond, the Rocky Glades and the Eight and One-Half Square Mile Area) under terms and conditions deemed necessary by the Secretary to improve and restore the hydrological function of the Everglades watershed: Provided further, That funds provided under this heading for assistance to the State of Florida to acquire lands within the Everglades watershed are contingent upon new matching non-Federal funds by the State and shall be subject to an agreement that the lands to be acquired will be managed in perpetuity for the restoration of the Everglades: Provided further, That none of the funds provided for the State Assistance program may be used to establish a contingency fund: Provided further, That not to exceed $50,000,000 derived from unexpended balances previously appropriated in Public Laws 106–113 and 103–211 for land acquisition assistance to the State of Florida shall be available until expended for project modifications authorized by section 104 of the Everglades National Park Protection and Expansion Act.

ADMINISTRATIVE PROVISIONS

Appropriations for the National Park Service shall be available for the purchase of not to exceed 340 passenger motor vehicles, of which 273 shall be for replacement only, including not to exceed 319 for police-type use, 12 buses, and 9 ambulances: Provided, That none of the funds appropriated to the National Park Service may be used to process any grant or contract documents which do not include the text of 18 U.S.C. 1913: Provided further, That none of the funds appropriated to the National Park Service may be used to implement an agreement for the redevelopment of the southern end of Ellis Island until such agreement has been submitted to the Congress and shall not be implemented prior to the expiration of 30 calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) from the receipt by the Speaker of the House of Representatives and the President of the Senate of a full and comprehensive report on the development of the southern end of Ellis Island, including the facts and circumstances relied upon in support of the proposed project.

None of the funds in this Act may be spent by the National Park Service for activities taken in direct response to the United Nations Biodiversity Convention.

The National Park Service may distribute to operating units based on the safety record of each unit the costs of programs designed to improve workplace and employee safety, and to encourage employees receiving workers' compensation benefits pursuant to chapter 81 of title 5, United States Code, to return to appropriate positions for which they are medically able.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

For expenses necessary for the United States Geological Survey to perform surveys, investigations, and research covering topography, geology, hydrology, biology, and the mineral and water resources of the United States, its territories and possessions, and other areas as authorized by 43 U.S.C. 31, 1332, and 1340; classify lands as to their mineral and water resources; give engineering supervision to power permittees and Federal Energy Regulatory Commission licensees; administer the minerals exploration program (30 U.S.C. 641); and publish and disseminate data relative to the foregoing activities; and to conduct inquiries into the economic conditions affecting mining and materials processing industries (30 U.S.C. 3, 21a, and 1603; 50 U.S.C. 98g(1)) and related purposes as authorized by law and to publish and disseminate data; $862,046,000, of which $62,879,000 shall be available only for cooperation with States or municipalities for water resources investigations; and of which $16,400,000 shall remain available until expended for conducting inquiries into the economic conditions affecting mining and materials processing industries; and of which $1,525,000 shall remain available until expended for ongoing development of a mineral and geologic data base; and of which $32,822,000 shall be available until September 30, 2002 for the operation and maintenance of facilities and deferred maintenance; and of which $157,923,000 shall be available until September 30, 2002 for the biological research activity and the operation of the Cooperative Research Units: Provided, That none of these funds provided for the biological research activity shall be used to conduct new surveys on private property, unless specifically authorized in writing by the property owner: Provided further, That no part of this appropriation shall be used to pay more than one-half the cost of topographic mapping or water resources data collection and investigations carried on in cooperation with States and municipalities.

ADMINISTRATIVE PROVISIONS

The amount appropriated for the United States Geological Survey shall be available for the purchase of not to exceed 53 passenger motor vehicles, of which 48 are for replacement only; reimbursement to the General Services Administration for security guard services; contracting for the furnishing of topographic maps and for the making of geophysical or other specialized surveys when it is administratively determined that such procedures are in the public interest; construction and maintenance of necessary buildings and appurtenant facilities; acquisition of lands for gauging stations and observation wells; expenses of the United States National Committee on Geology; and payment of compensation and expenses of persons on the rolls of the Survey duly appointed to represent the United States in the negotiation and administration of interstate compacts: Provided, That activities funded by appropriations herein made may be accomplished through the use of contracts, grants, or cooperative agreements as defined in 31 U.S.C. 6302 et seq.

MINERALS MANAGEMENT SERVICE

ROYALTY AND OFFSHORE MINERALS MANAGEMENT

For expenses necessary for minerals leasing and environmental studies, regulation of industry operations, and collection of royalties, as authorized by law; for enforcing laws and regulations applicable to oil, gas, and other minerals leases, permits, licenses and operating contracts; and for matching grants or cooperative agreements; including the purchase of not to exceed eight passenger motor vehicles for replacement only, $133,410,000, of which $86,257,000, shall be available for royalty management activities; and an amount not to exceed $107,410,000, to be credited to this appropriation and to remain available until expended, from additions to receipts resulting from increases to rates in effect on August 5, 1993, from rate increases to fee collections for Outer Continental Shelf administrative activities performed by the Minerals Management Service over and above the rates in effect on September 30, 1993, and from additional fees for Outer Continental Shelf administrative activities established after September 30, 1993: Provided, That to the extent $107,410,000 in additions to receipts are not realized from the sources of receipts stated above, the amount needed to reach $107,410,000 shall be credited to this appropriation from receipts resulting from rental rates for Outer Continental Shelf leases in effect before August 5, 1993: Provided further, That $3,000,000 for computer acquisitions shall remain available until September 30, 2002: Provided further, That funds appropriated under this Act shall be available for the payment of interest in accordance with 30 U.S.C. 1721(b) and (d): Provided further, That not to exceed $3,000

shall be available for reasonable expenses related to promoting volunteer beach and marine cleanup activities: Provided further, That notwithstanding any other provision of law, $15,000 under this heading shall be available for refunds of overpayments in connection with certain Indian leases in which the Director of the Minerals Management Service (MMS) concurred with the claimed refund due, to pay amounts owed to Indian allottees or tribes, or to correct prior unrecoverable erroneous payments: Provided further, That MMS may under the royalty-in-kind pilot program use a portion of the revenues from royalty-in-kind sales, without regard to fiscal year limitation, to pay for transportation to wholesale market centers or upstream pooling points, and to process or otherwise dispose of royalty production taken in kind: Provided further, That MMS shall analyze and document the expected return in advance of any royalty-in-kind sales to assure to the maximum extent practicable that royalty income under the pilot program is equal to or greater than royalty income recognized under a comparable royalty-in-value program.

OIL SPILL RESEARCH

For necessary expenses to carry out title I, section 1016, title IV, sections 4202 and 4303, title VII, and title VIII, section 8201 of the Oil Pollution Act of 1990, $6,118,000, which shall be derived from the Oil Spill Liability Trust Fund, to remain available until expended.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

For necessary expenses to carry out the provisions of the Surface Mining Control and Reclamation Act of 1977, Public Law 95–87, as amended, including the purchase of not to exceed 10 passenger motor vehicles, for replacement only; $100,801,000: Provided, That the Secretary of the Interior, pursuant to regulations, may use directly or through grants to States, moneys collected in fiscal year 2001 for civil penalties assessed under section 518 of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1268), to reclaim lands adversely affected by coal mining practices after August 3, 1977, to remain available until expended: Provided further, That appropriations for the Office of Surface Mining Reclamation and Enforcement may provide for the travel and per diem expenses of State and tribal personnel attending Office of Surface Mining Reclamation and Enforcement sponsored training.

ABANDONED MINE RECLAMATION FUND

For necessary expenses to carry out title IV of the Surface Mining Control and Reclamation Act of 1977, Public Law 95–87, as amended, including the purchase of not more than 10 passenger motor vehicles for replacement only, $202,438,000, to be derived from receipts of the Abandoned Mine Reclamation Fund and to remain available until expended; of which up to $10,000,000, to be derived from the Federal Expenses Share of the Fund, shall be for supplemental grants to States for the reclamation of abandoned sites with acid mine rock drainage from coal mines, and for associated activities, through the Appalachian Clean Streams Initiative: Provided, That grants to minimum program States will be $1,600,000 per State in fiscal year 2001: Provided further, That of the funds herein provided up to $18,000,000 may be used for the emergency program authorized by section 410 of Public Law 95–87, as amended, of which no more than 25 percent shall be used for emergency reclamation projects in any one State and funds for federally administered emergency reclamation projects under this proviso shall not exceed $11,000,000: Provided further, That prior year unobligated funds appropriated for the emergency reclamation program shall not be subject to the 25 percent limitation per State and may be used without fiscal year limitation for emergency projects: Provided further, That pursuant to Public Law 97–365, the Department of the Interior is authorized to use up to 20 percent from the recovery of the delinquent debt owed to the United States Government to pay for contracts to collect these debts: Provided further, That funds made available under title IV of Public Law 95–87 may be used for any required non-Federal share of the cost of projects funded by the Federal Government for the purpose of environmental restoration related to treatment or abatement of acid mine drainage from abandoned mines: Provided further, That such projects must be consistent with the purposes and priorities of the Surface Mining Control and Reclamation Act: Provided further, That the State of Maryland may set aside the greater of $1,000,000 or 10 percent of the total of the grants made available to the State under title IV of the Surface Mining Control and Reclamation Act of 1977, as amended (30 U.S.C. 1231 et seq.), if the amount set aside is deposited in an acid mine drainage abatement and treatment fund established under a State law, pursuant to which law the amount (together with all interest earned on the amount) is expended by the State to undertake acid mine drainage abatement and treatment projects, except that before any amounts greater than 10 percent of its title IV grants are deposited in an acid mine drainage abatement and treatment fund, the State of Maryland must first complete all Surface Mining Control and Reclamation Act priority one projects.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

For expenses necessary for the operation of Indian programs, as authorized by law, including the Snyder Act of November 2, 1921 (25 U.S.C. 13), the Indian Self-Determination and Education Assistance Act of 1975 (25 U.S.C. 450 et seq.), as amended, the Education Amendments of 1978 (25 U.S.C. 2001–2019), and the Tribally Controlled Schools Act of 1988 (25 U.S.C. 2501 et seq.), as amended, $1,741,212,000, to remain available until September 30, 2002 except as otherwise provided herein, of which not to exceed $93,225,000 shall be for welfare assistance payments and notwithstanding any other provision of law, including but not limited to the Indian Self-Determination Act of 1975, as amended, not to exceed $125,485,000 shall be available for payments to tribes and tribal organizations for contract support costs associated with ongoing contracts, grants, compacts, or annual funding agreements entered into with the Bureau prior to or during fiscal year 2001, as authorized by such Act, except that tribes and tribal organizations may use their tribal priority allocations for unmet indirect costs of ongoing contracts, grants, or compacts, or annual funding agreements and for unmet welfare assistance costs; and up to $5,000,000 shall be for the Indian Self-Determination Fund which shall be available for the transitional cost of initial or expanded tribal contracts, grants, compacts or cooperative agreements with the Bureau under such Act; and of which not to exceed $423,056,000 for school operations costs of Bureau-funded schools and other education programs shall become available on July 1, 2001, and shall remain available until September 30, 2002; and of which not to exceed $60,194,000 shall remain available until expended for housing improvement, road maintenance, attorney fees, litigation support, self-governance grants, the Indian Self-Determination Fund, land records improvement, and the Navajo-Hopi Settlement Program; and of which not to exceed $108,000 shall be for payment to the United Sioux Tribes of South Dakota Development Corporation for the purpose of providing employment assistance to Indian clients of the Corporation, including employment counseling, follow-up services, housing services, community services, day care services, and subsistence to help Indian clients become fully employed members of society: Provided, That notwithstanding any other provision of law, including but not limited to the Indian Self-Determination Act of 1975, as amended, and 25 U.S.C. 2008, not to exceed $43,160,000 within and only from such amounts made available for school operations shall be available to tribes and tribal organizations for administrative cost grants associated with the operation of Bureau-funded schools: Provided further, That any forestry funds allocated to a tribe which remain unobligated as of September 30, 2002, may be transferred during fiscal year 2003 to an Indian forest land assistance account established for the benefit of such tribe within the tribe's trust fund account: Provided further, That any such unobligated balances not so transferred shall expire on September 30, 2003.

CONSTRUCTION

For construction, repair, improvement, and maintenance of irrigation and power systems, buildings, utilities, and other facilities, including architectural and engineering services by contract; acquisition of lands, and interests in lands; and preparation of lands for farming, and for construction of the Navajo Indian Irrigation Project pursuant to Public Law 87–483, $357,404,000, to remain available until expended: Provided, That such amounts as may be available for the construction of the Navajo Indian Irrigation Project may be transferred to the Bureau of Reclamation: Provided further, That not to exceed 6 percent of contract authority available to the Bureau of Indian Affairs from the Federal Highway Trust Fund may be used to cover the road program management costs of the Bureau: Provided further, That any funds provided for the Safety of Dams program pursuant to 25 U.S.C. 13 shall be made available on a nonreimbursable basis: Provided further, That for fiscal year 2001, in implementing new construction or facilities improvement and repair project grants in excess of $100,000 that are provided to tribally controlled grant schools under Public Law 100–297, as amended, the Secretary of the Interior shall use the Administrative and Audit Requirements and Cost Principles for Assistance Programs contained in 43 CFR part 12 as the regulatory requirements: Provided further, That such grants shall not be subject to section 12.61 of 43 CFR; the Secretary and the grantee shall negotiate and determine a schedule of payments for the work to be performed: Provided further, That in considering applications, the Secretary shall consider whether the Indian tribe or tribal organization would be deficient in assuring that the construction projects conform to applicable building standards and codes and Federal, tribal, or State health and safety standards as required by 25 U.S.C. 2005(a), with respect to organizational and financial management capabilities: Provided further, That if the Secretary declines an application, the Secretary shall follow the requirements contained in 25 U.S.C. 2505(f): Provided further, That any disputes between the Secretary and any grantee concerning a grant shall be subject to the disputes provision in 25 U.S.C. 2508(e).

INDIAN LAND AND WATER CLAIM SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

For miscellaneous payments to Indian tribes and individuals and for necessary administrative expenses, $37,526,000, to remain available until expended; of which $25,225,000 shall be available for implementation of enacted Indian land and water claim settlements pursuant to Public Laws 101–618 and 102–575, and for implementation of other enacted water rights settlements; of which $8,000,000 shall be available for

Tribal compact administration, economic development and future water supplies facilities under Public Law 106–163; of which $2,127,000 shall be available pursuant to Public Laws 99–264, 100–383, 100–580 and 103–402; and of which $2,000,000 shall be available for the consent decree entered by the U.S. District Court, Western District of Michigan in United States v. Michigan, Case No. 2:73 CV 26.

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

For the cost of guaranteed loans, $4,500,000, as authorized by the Indian Financing Act of 1974, as amended: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That these funds are available to subsidize total loan principal, any part of which is to be guaranteed, not to exceed $59,682,000.

In addition, for administrative expenses to carry out the guaranteed loan programs, $488,000.

ADMINISTRATIVE PROVISIONS

The Bureau of Indian Affairs may carry out the operation of Indian programs by direct expenditure, contracts, cooperative agreements, compacts and grants, either directly or in cooperation with States and other organizations.

Appropriations for the Bureau of Indian Affairs (except the revolving fund for loans, the Indian loan guarantee and insurance fund, and the Indian Guaranteed Loan Program account) shall be available for expenses of exhibits, and purchase of not to exceed 229 passenger motor vehicles, of which not to exceed 187 shall be for replacement only.

Notwithstanding any other provision of law, no funds available to the Bureau of Indian Affairs for central office operations, pooled overhead general administration (except facilities operations and maintenance), or provided to implement the recommendations of the National Academy of Public Administration's August 1999 report shall be available for tribal contracts, grants, compacts, or cooperative agreements with the Bureau of Indian Affairs under the provisions of the Indian Self-Determination Act or the Tribal Self-Governance Act of 1994 (Public Law 103–413).

In the event any tribe returns appropriations made available by this Act to the Bureau of Indian Affairs for distribution to other tribes, this action shall not diminish the Federal Government's trust responsibility to that tribe, or the government-to-government relationship between the United States and that tribe, or that tribe's ability to access future appropriations.

Notwithstanding any other provision of law, no funds available to the Bureau, other than the amounts provided herein for assistance to public schools under 25 U.S.C. 452 et seq., shall be available to support the operation of any elementary or secondary school in the State of Alaska.

Appropriations made available in this or any other Act for schools funded by the Bureau shall be available only to the schools in the Bureau school system as of September 1, 1996. No funds available to the Bureau shall be used to support expanded grades for any school or dormitory beyond the grade structure in place or approved by the Secretary of the Interior at each school in the Bureau school system as of October 1, 1995. Funds made available under this Act may not be used to establish a charter school at a Bureau-funded school (as that term is defined in section 1146 of the Education Amendments of 1978 (25 U.S.C. 2026)), except that a charter school that is in existence on the date of the enactment of this Act and that has operated at a Bureau-funded school before September 1, 1999, may continue to operate during that period, but only if the charter school pays to the Bureau a pro rata share of funds to reimburse the Bureau for the use of the real and personal property (including buses and vans), the funds of the charter school are kept separate and apart from Bureau funds, and the Bureau does not assume any obligation for charter school programs of the State in which the school is located if the charter school loses such funding. Employees of Bureau-funded schools sharing a campus with a charter school and performing functions related to the charter school's operation and employees of a charter school shall not be treated as Federal employees for purposes of chapter 171 of title 28, United States Code (commonly known as the ''Federal Tort Claims Act''). Not later than June 15, 2001, the Secretary of the Interior shall evaluate the effectiveness of Bureau-funded schools sharing facilities with charter schools in the manner described in the preceding sentence and prepare and submit a report on the finding of that evaluation to the Committees on Appropriations of the Senate and of the House.

DEPARTMENTAL OFFICES

INSULAR AFFAIRS

ASSISTANCE TO TERRITORIES

For expenses necessary for assistance to territories under the jurisdiction of the Department of the Interior, $75,471,000, of which: (1) $71,076,000 shall be available until expended for technical assistance, including maintenance assistance, disaster assistance, insular management controls, coral reef initiative activities, and brown tree snake control and research; grants to the judiciary in American Samoa for compensation and expenses, as authorized by law (48 U.S.C. 1661(c)); grants to the Government of American Samoa, in addition to current local revenues, for construction and support of governmental functions; grants to the Government of the Virgin Islands as authorized by law; grants to the Government of Guam, as authorized by law; and grants to the Government of the Northern Mariana Islands as authorized by law (Public Law 94–241; 90 Stat. 272); and (2) $4,395,000 shall be available for salaries and expenses of the Office of Insular Affairs: Provided, That all financial transactions of the territorial and local governments herein provided for, including such transactions of all agencies or instrumentalities established or used by such governments, may be audited by the General Accounting Office, at its discretion, in accordance with chapter 35 of title 31, United States Code: Provided further, That Northern Mariana Islands Covenant grant funding shall be provided according to those terms of the Agreement of the Special Representatives on Future United States Financial Assistance for the Northern Mariana Islands approved by Public Law 104–134: Provided further, That of the amounts provided for technical assistance, not to exceed $300,000 may be made available for transfer to the Disaster Assistance Direct Loan Program Account of the Federal Emergency Management Agency for the purpose of covering the cost of forgiving a portion of the obligation of the Government of the Virgin Islands to pay interest which has accrued on Community Disaster Loan 841 during fiscal year 2000, as required by section 504 of the Congressional Budget Act of 1974, as amended (2 U.S.C. 661c): Provided further, That of the amounts provided for technical assistance, sufficient funding shall be made available for a grant to the Close Up Foundation: Provided further, That of the amounts provided for technical assistance, the amount of $700,000 shall be made available to the Prior Service Benefits Trust Fund for its program of benefit payments to individuals: Provided further, That none of this amount shall be used for administrative expenses of the Prior Service Benefits Trust Fund: Provided further, That the funds for the program of operations and maintenance improvement are appropriated to institutionalize routine operations and maintenance improvement of capital infrastructure in American Samoa, Guam, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Republic of the Marshall Islands, and the Federated States of Micronesia through assessments of long-range operations maintenance needs, improved capability of local operations and maintenance institutions and agencies (including management and vocational education training), and project-specific maintenance (with territorial participation and cost sharing to be determined by the Secretary based on the individual territory's commitment to timely maintenance of its capital assets): Provided further, That any appropriation for disaster assistance under this heading in this Act or previous appropriations Acts may be used as non-Federal matching funds for the purpose of hazard mitigation grants provided pursuant to section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170c).

COMPACT OF FREE ASSOCIATION

For economic assistance and necessary expenses for the Federated States of Micronesia and the Republic of the Marshall Islands as provided for in sections 122, 221, 223, 232, and 233 of the Compact of Free Association, and for economic assistance and necessary expenses for the Republic of Palau as provided for in sections 122, 221, 223, 232, and 233 of the Compact of Free Association, $20,745,000, to remain available until expended, as authorized by Public Law 99–239 and Public Law 99–658.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

For necessary expenses for management of the Department of the Interior, $64,319,000, of which not to exceed $8,500 may be for official reception and representation expenses, of which up to $1,000,000 shall be available for workers compensation payments and unemployment compensation payments associated with the orderly closure of the United States Bureau of Mines, and of which $300,000 shall be for a grant to Alaska Pacific University for the development of an ANILCA training curriculum.

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

For necessary expenses of the Office of the Solicitor, $40,196,000.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

For necessary expenses of the Office of Inspector General, $27,846,000.

OFFICE OF SPECIAL TRUSTEE FOR AMERICAN INDIANS

FEDERAL TRUST PROGRAMS

For operation of trust programs for Indians by direct expenditure, contracts, cooperative agreements, compacts, and grants, $82,628,000, to remain available until expended: Provided, That funds for trust management improvements may be transferred, as needed, to the Bureau of Indian Affairs ''Operation of Indian Programs'' account and to the Departmental Management ''Salaries and Expenses'' account: Provided further, That funds made available to Tribes and Tribal organizations through contracts or grants obligated during fiscal year 2001, as authorized by the Indian Self-Determination Act of 1975 (25 U.S.C. 450 et seq.), shall remain available until expended by the contractor or grantee: Provided further, That notwithstanding any other provision of law, the statute of limitations shall not commence to run on any claim, including any claim in litigation pending on the date of the enactment of this Act, concerning losses to or mismanagement of trust funds, until the affected tribe or individual Indian has been furnished with an accounting of

such funds from which the beneficiary can determine whether there has been a loss: Provided further, That notwithstanding any other provision of law, the Secretary shall not be required to provide a quarterly statement of performance for any Indian trust account that has not had activity for at least 18 months and has a balance of $1.00 or less: Provided further, That the Secretary shall issue an annual account statement and maintain a record of any such accounts and shall permit the balance in each such account to be withdrawn upon the express written request of the account holder.

INDIAN LAND CONSOLIDATION

For implementation of a program for consolidation of fractional interests in Indian lands and expenses associated with redetermining and redistributing escheated interests in allotted lands by direct expenditure or cooperative agreement, $9,000,000, to remain available until expended and which may be transferred to the Bureau of Indian Affairs and Departmental Management, of which not to exceed $1,000,000 shall be available for administrative expenses: Provided, That the Secretary may enter into a cooperative agreement, which shall not be subject to Public Law 93–638, as amended, with a tribe having jurisdiction over the reservation to implement the program to acquire fractional interests on behalf of such tribe: Provided further, That the Secretary may develop a reservation-wide system for establishing the fair market value of various types of lands and improvements to govern the amounts offered for acquisition of fractional interests: Provided further, That acquisitions shall be limited to one or more reservations as determined by the Secretary: Provided further, That funds shall be available for acquisition of fractional interests in trust or restricted lands with the consent of its owners and at fair market value, and the Secretary shall hold in trust for such tribe all interests acquired pursuant to this program: Provided further, That all proceeds from any lease, resource sale contract, right-of-way or other transaction derived from the fractional interests shall be credited to this appropriation, and remain available until expended, until the purchase price paid by the Secretary under this appropriation has been recovered from such proceeds: Provided further, That once the purchase price has been recovered, all subsequent proceeds shall be managed by the Secretary for the benefit of the applicable tribe or paid directly to the tribe.

NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION

NATURAL RESOURCE DAMAGE ASSESSMENT FUND

To conduct natural resource damage assessment activities by the Department of the Interior necessary to carry out the provisions of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (42 U.S.C. 9601 et seq.), Federal Water Pollution Control Act, as amended (33 U.S.C. 1251 et seq.), the Oil Pollution Act of 1990 (Public Law 101–380) (33 U.S.C. 2701 et seq.), and Public Law 101–337, as amended (16 U.S.C. 19jj et seq.), $5,403,000, to remain available until expended.

ADMINISTRATIVE PROVISIONS

There is hereby authorized for acquisition from available resources within the Working Capital Fund, 15 aircraft, 10 of which shall be for replacement and which may be obtained by donation, purchase or through available excess surplus property: Provided, That notwithstanding any other provision of law, existing aircraft being replaced may be sold, with proceeds derived or trade-in value used to offset the purchase price for the replacement aircraft: Provided further, That no programs funded with appropriated funds in the ''Departmental Management'', ''Office of the Solicitor'', and ''Office of Inspector General'' may be augmented through the Working Capital Fund or the Consolidated Working Fund.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

SEC. 101. Appropriations made in this title shall be available for expenditure or transfer (within each bureau or office), with the approval of the Secretary, for the emergency reconstruction, replacement, or repair of aircraft, buildings, utilities, or other facilities or equipment damaged or destroyed by fire, flood, storm, or other unavoidable causes: Provided, That no funds shall be made available under this authority until funds specifically made available to the Department of the Interior for emergencies shall have been exhausted: Provided further, That all funds used pursuant to this section are hereby designated by Congress to be ''emergency requirements'' pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, and must be replenished by a supplemental appropriation which must be requested as promptly as possible.

SEC. 102. The Secretary may authorize the expenditure or transfer of any no year appropriation in this title, in addition to the amounts included in the budget programs of the several agencies, for the suppression or emergency prevention of wildland fires on or threatening lands under the jurisdiction of the Department of the Interior; for the emergency rehabilitation of burned-over lands under its jurisdiction; for emergency actions related to potential or actual earthquakes, floods, volcanoes, storms, or other unavoidable causes; for contingency planning subsequent to actual oil spills; for response and natural resource damage assessment activities related to actual oil spills; for the prevention, suppression, and control of actual or potential grasshopper and Mormon cricket outbreaks on lands under the jurisdiction of the Secretary, pursuant to the authority in section 1773(b) of Public Law 99–198 (99 Stat. 1658); for emergency reclamation projects under section 410 of Public Law 95–87; and shall transfer, from any no year funds available to the Office of Surface Mining Reclamation and Enforcement, such funds as may be necessary to permit assumption of regulatory authority in the event a primacy State is not carrying out the regulatory provisions of the Surface Mining Act: Provided, That appropriations made in this title for wildland fire operations shall be available for the payment of obligations incurred during the preceding fiscal year, and for reimbursement to other Federal agencies for destruction of vehicles, aircraft, or other equipment in connection with their use for wildland fire operations, such reimbursement to be credited to appropriations currently available at the time of receipt thereof: Provided further, That for wildland fire operations, no funds shall be made available under this authority until the Secretary determines that funds appropriated for ''wildland fire operations'' shall be exhausted within thirty days: Provided further, That all funds used pursuant to this section are hereby designated by Congress to be ''emergency requirements'' pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, and must be replenished by a supplemental appropriation which must be requested as promptly as possible: Provided further, That such replenishment funds shall be used to reimburse, on a pro rata basis, accounts from which emergency funds were transferred.

SEC. 103. Appropriations made in this title shall be available for operation of warehouses, garages, shops, and similar facilities, wherever consolidation of activities will contribute to efficiency or economy, and said appropriations shall be reimbursed for services rendered to any other activity in the same manner as authorized by sections 1535 and 1536 of title 31, United States Code: Provided, That reimbursements for costs and supplies, materials, equipment, and for services rendered may be credited to the appropriation current at the time such reimbursements are received.

SEC. 104. Appropriations made to the Department of the Interior in this title shall be available for services as authorized by 5 U.S.C. 3109, when authorized by the Secretary, in total amount not to exceed $500,000; hire, maintenance, and operation of aircraft; hire of passenger motor vehicles; purchase of reprints; payment for telephone service in private residences in the field, when authorized under regulations approved by the Secretary; and the payment of dues, when authorized by the Secretary, for library membership in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members.

SEC. 105. Appropriations available to the Department of the Interior for salaries and expenses shall be available for uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901–5902 and D.C. Code 4–204).

SEC. 106. Annual appropriations made in this title shall be available for obligation in connection with contracts issued for services or rentals for periods not in excess of 12 months beginning at any time during the fiscal year.

SEC. 107. No funds provided in this title may be expended by the Department of the Interior for the conduct of offshore leasing and related activities placed under restriction in the President's moratorium statement of June 26, 1990, in the areas of northern, central, and southern California; the North Atlantic; Washington and Oregon; and the eastern Gulf of Mexico south of 26 degrees north latitude and east of 86 degrees west longitude.

SEC. 108. No funds provided in this title may be expended by the Department of the Interior for the conduct of offshore oil and natural gas preleasing, leasing, and related activities, on lands within the North Aleutian Basin planning area.

SEC. 109. No funds provided in this title may be expended by the Department of the Interior to conduct offshore oil and natural gas preleasing, leasing and related activities in the eastern Gulf of Mexico planning area for any lands located outside Sale 181, as identified in the final Outer Continental Shelf 5-Year Oil and Gas Leasing Program, 1997–2002.

SEC. 110. No funds provided in this title may be expended by the Department of the Interior to conduct oil and natural gas preleasing, leasing and related activities in the Mid-Atlantic and South Atlantic planning areas.

SEC. 111. Advance payments made under this title to Indian tribes, tribal organizations, and tribal consortia pursuant to the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) or the Tribally Controlled Schools Act of 1988 (25 U.S.C. 2501 et seq.) may be invested by the Indian tribe, tribal organization, or consortium before such funds are expended for the purposes of the grant, compact, or annual funding agreement so long as such funds are—

(1) invested by the Indian tribe, tribal organization, or consortium only in obligations of the United States, or in obligations or securities that are guaranteed or insured by the United States, or mutual (or other) funds registered with the Securities and Exchange Commission and which only invest in obligations of the United States or securities that are guaranteed or insured by the United States; or

(2) deposited only into accounts that are insured by an agency or instrumentality of the United States, or are fully collateralized to ensure protection of the funds, even in the event of a bank failure.

SEC. 112. Notwithstanding any other provisions of law, the National Park Service shall not develop or implement a reduced entrance fee program to accommodate non-local travel through a unit. The Secretary may provide for and regulate local non-recreational passage through units of the National Park System, allowing each unit to develop guidelines and permits for such activity appropriate to that unit.

SEC. 113. Refunds or rebates received on an on-going basis from a credit card services provider under the Department of the Interior's charge card programs, hereafter may be deposited to and retained without fiscal year limitation in the Departmental Working Capital Fund established under 43 U.S.C. 1467 and used to fund management initiatives of general benefit to the Department of the Interior's bureaus and offices as determined by the Secretary or his designee.

SEC. 114. Appropriations made in this Act under the headings Bureau of Indian Affairs and Office of Special Trustee for American Indians and any available unobligated balances from prior appropriations Acts made under the same headings, shall be available for expenditure or transfer for Indian trust management activities pursuant to the Trust Management Improvement Project High Level Implementation Plan.

SEC. 115. Notwithstanding any provision of law, hereafter the Secretary of the Interior is authorized to negotiate and enter into agreements and leases, without regard to section 321 of chapter 314 of the Act of June 30, 1932 (40 U.S.C. 303b), with any person, firm, association, organization, corporation, or governmental entity for all or part of the property within Fort Baker administered by the Secretary as part of Golden Gate National Recreation Area. The proceeds of the agreements or leases shall be retained by the Secretary and such proceeds shall be available, without future appropriation, for the preservation, restoration, operation, maintenance and interpretation and related expenses incurred with respect to Fort Baker properties.

SEC. 116. A grazing permit or lease that expires (or is transferred) during fiscal year 2001 shall be renewed under section 402 of the Federal Land Policy and Management Act of 1976, as amended (43 U.S.C. 1752) or if applicable, section 510 of the California Desert Protection Act (16 U.S.C. 410aaa–50). The terms and conditions contained in the expiring permit or lease shall continue in effect under the new permit or lease until such time as the Secretary of the Interior completes processing of such permit or lease in compliance with all applicable laws and regulations, at which time such permit or lease may be canceled, suspended or modified, in whole or in part, to meet the requirements of such applicable laws and regulations. Nothing in this section shall be deemed to alter the Secretary's statutory authority.

SEC. 117. Notwithstanding any other provision of law, for the purpose of reducing the backlog of Indian probate cases in the Department of the Interior, the hearing requirements of chapter 10 of title 25, United States Code, are deemed satisfied by a proceeding conducted by an Indian probate judge, appointed by the Secretary without regard to the provisions of title 5, United States Code, governing the appointments in the competitive service, for such period of time as the Secretary determines necessary: Provided, That the basic pay of an Indian probate judge so appointed may be fixed by the Secretary without regard to the provisions of chapter 51, and subchapter III of chapter 53 of title 5, United States Code, governing the classification and pay of General Schedule employees, except that no such Indian probate judge may be paid at a level which exceeds the maximum rate payable for the highest grade of the General Schedule, including locality pay.

SEC. 118. Notwithstanding any other provision of law, the Secretary of the Interior is authorized to redistribute any Tribal Priority Allocation funds, including tribal base funds, to alleviate tribal funding inequities by transferring funds to address identified, unmet needs, dual enrollment, overlapping service areas or inaccurate distribution methodologies. No tribe shall receive a reduction in Tribal Priority Allocation funds of more than 10 percent in fiscal year 2001. Under circumstances of dual enrollment, overlapping service areas or inaccurate distribution methodologies, the 10 percent limitation does not apply.

SEC. 119. None of the funds in this Act may be used to establish a new National Wildlife Refuge in the Kankakee River basin that is inconsistent with the United States Army Corps of Engineers' efforts to control flooding and siltation in that area. Written certification of consistency shall be submitted to the House and Senate Committees on Appropriations prior to refuge establishment.

SEC. 120. The Great Marsh Trail at the Mason Neck National Wildlife Refuge in Virginia is hereby named for Joseph V. Gartlan, Jr. and shall hereafter be referred to in any law, document, or records of the United States as the ''Joseph V. Gartlan, Jr. Great Marsh Trail''.

SEC. 121. Funds appropriated for the Bureau of Indian Affairs for postsecondary schools for fiscal year 2001 shall be allocated among the schools proportionate to the unmet need of the schools as determined by the Postsecondary Funding Formula adopted by the Office of Indian Education Programs.

SEC. 122. (a) Notwithstanding any other provision of law, with respect to amounts made available for tribal priority allocations in Alaska, such amounts shall only be provided to tribes the membership of which on June 1, 2000 is composed of at least 25 individuals who are Natives (as such term is defined in section 3(b) of the Alaska Native Claims Settlement Act) who reside in the area generally known as the village for such tribe.

(b) Amounts that would have been made available for tribal priority allocations in Alaska but for the limitation contained in subsection (a) shall be provided to the respective Alaska Native regional nonprofit corporation (as listed in section 103(a)(2) of Public Law 104–193, 110 Stat. 2159) for the respective region in which a tribe subject to subsection (a) is located, notwithstanding any resolution authorized under federal law to the contrary.

SEC. 123. (a) In this section—

(1) the term ''Huron Cemetery'' means the lands that form the cemetery that is popularly known as the Huron Cemetery, located in Kansas City, Kansas, as described in subsection (b)(3); and

(2) the term ''Secretary'' means the Secretary of the Interior.

(b)(1) The Secretary shall take such action as may be necessary to ensure that the lands comprising the Huron Cemetery (as described in paragraph (3)) are used only in accordance with this subsection.

(2) The lands of the Huron Cemetery shall be used only—

(A) for religious and cultural uses that are compatible with the use of the lands as a cemetery; and

(B) as a burial ground.

(3) The description of the lands of the Huron Cemetery is as follows:

The tract of land in the NW quarter of sec. 10, T. 11 S., R. 25 E., of the sixth principal meridian, in Wyandotte County, Kansas (as surveyed and marked on the ground on August 15, 1888, by William Millor, Civil Engineer and Surveyor), described as follows:

''Commencing on the Northwest corner of the Northwest Quarter of the Northwest Quarter of said Section 10;

''Thence South 28 poles to the 'true point of beginning';

''Thence South 71 degrees East 10 poles and 18 links;

''Thence South 18 degrees and 30 minutes West 28 poles;

''Thence West 11 and one-half poles;

''Thence North 19 degrees 15 minutes East 31 poles and 15 feet to the 'true point of beginning', containing 2 acres or more.''.

SEC. 124. None of the Funds provided in this Act shall be available to the Bureau of Indian Affairs or the Department of the Interior to transfer land into trust status for the Shoalwater Bay Indian Tribe in Clark County, Washington, unless and until the tribe and the county reach a legally enforceable agreement that addresses the financial impact of new development on the county, school district, fire district, and other local governments and the impact on zoning and development.

SEC. 125. None of the funds provided in this Act may be used by the Department of the Interior to implement the provisions of Principle 3(C)ii and Appendix section 3(B)(4) in Secretarial Order 3206, entitled ''American Indian Tribal Rights, Federal-Tribal Trust Responsibilities, and the Endangered Species Act''.

SEC. 126. No funds appropriated for the Department of the Interior by this Act or any other Act shall be used to study or implement any plan to drain Lake Powell or to reduce the water level of the lake below the range of water levels required for the operation of the Glen Canyon Dam.

SEC. 127. Notwithstanding any other provision of law, in conveying the Twin Cities Research Center under the authority provided by Public Law 104–134, as amended by Public Law 104–208, the Secretary may accept and retain land and other forms of reimbursement: Provided, That the Secretary may retain and use any such reimbursement until expended and without further appropriation: (1) for the benefit of the National Wildlife Refuge System within the State of Minnesota; and (2) for all activities authorized by Public Law 100–696; 16 U.S.C. 460zz.

SEC. 128. Section 112 of Public Law 103–138 (107 Stat. 1399) is amended by striking ''permit LP–GLBA005–93'' and inserting ''permit LP–GLBA005–93 and in connection with a corporate reorganization plan, the entity that, after the corporate reorganization, holds entry permit CP–GLBA004–00 each''.

SEC. 129. Notwithstanding any other provision of law, the Secretary of the Interior shall designate Anchorage, Alaska, as a port of entry for the purpose of section 9(f)(1) of the Endangered Species Act of 1973 (16 U.S.C. 1538(f)(1)).

SEC. 130. (a) The first section of Public Law 92–501 (86 Stat. 904) is amended by inserting after the first sentence ''The park shall also include the land as generally depicted on the map entitled 'subdivision of a portion of U.S. Survey 407, Tract B, dated May 12, 2000' ''.

(b) Section 3 of Public Law 92–501 is amended to read as follows: ''There are authorized to be appropriated such sums as are necessary to carry out the terms of this Act.''.

SEC. 131. (a) All proceeds, including bonuses, rents, and royalties, of Oil and Gas Lease sale 991, held by the Bureau of Land Management on May 5, 1999, or subsequent lease sales in the National Petroleum Reserve—Alaska (hereafter ''proceeds'') attributable to the area subject to withdrawal for Kuukpik Corporation's selection under section 22(j)(2) of the Alaska Native Claims Settlement Act, Public Law 92–203 (85 Stat. 688), shall be deposited into a separate fund of the Treasury (hereafter ''fund'').

(b) Within 120 days after the date of enactment of this Act, the Secretary of the Treasury shall transfer from the General Fund to the fund an amount determined by the Secretary of

the Treasury, in consultation with the Secretary of the Interior, to be equal to the amount of interest income that would have been credited in the fund between May 5, 1999 and the date of enactment of this Act. For the purposes of this subsection (b), the Secretary of the Treasury shall calculate the interest income using a yield for a 52-week Treasury bill issued on or about May 5, 1999.

(c) On the date of the enactment of this Act, the Secretary of the Interior shall request the Secretary of the Treasury to invest such portion of the fund as is not, in the Secretary of the Interior's judgment, required to meet current payment requirements from the fund as determined under subsection (d). Such investments shall be made by the Secretary of the Treasury in public debt securities with maturities suitable to the needs of the fund, as determined by the Secretary of the Interior, and bearing interest at a rate determined by the Secretary of the Treasury, taking into consideration current market yields on outstanding marketable obligations of the United States of comparable maturity.

(d) Hereafter, amounts in the fund shall be available to the Secretary of the Interior, without fiscal year limitation, and the Secretary of the Interior shall pay to Arctic Slope Regional Corporation and the State of Alaska the amount of their entitlement when determined in accordance with applicable law, together with interest, as calculated by the Secretary of the Interior, from the date of receipt of the proceeds by the United States to the date of payment on the proportionate share of the fund distributed. Any remainder shall revert to the General Fund of the Treasury.

SEC. 132. Notwithstanding any other provision of law, the Secretary of the Interior shall convey to Harvey R. Redmond of Girdwood, Alaska, at no cost, all right, title, and interest of the United States in and to United States Survey No. 12192, Alaska, consisting of 49.96 acres located in the vicinity of T. 9N., R., 3E., Seward Meridian, Alaska.

SEC. 133. CLARIFICATION OF TERMS OF CONVEYANCE TO NYE COUNTY, NEVADA. Section 132(b)(3) of the Department of the Interior and Related Agencies Appropriations Act, 2000 (113 Stat. 1535, 1501A–165), is amended—

(1) by redesignating subparagraph (B) as subparagraph (C); and

(2) by inserting after subparagraph (A) the following:

''(B) LEASE.—Notwithstanding any provision of the Act of June 14, 1926 (commonly known as the 'Recreation and Public Purposes Act') (43 U.S.C. 869 et seq.), the county may enter into a long-term lease of any of the parcels described in paragraph (2) with a nonprofit organization under which the nonprofit organization would own and operate the Nevada Science and Technology Center for public, non-commercial purposes.''.

SEC. 134. MISSISSIPPI RIVER ISLAND NO. 228, IOWA, LAND EXCHANGE. (a) IDENTIFICATION OF LAND TO BE RECEIVED IN EXCHANGE.—Not later than 180 days after the date of enactment of this Act, the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service (referred to in this section as the ''Secretary''), shall provide Dubuque Barge & Fleeting Services, Inc. (referred to in this section as ''Dubuque''), a notice that identifies parcels of land or interests in land—

(1) that are of a value that is approximately equal to the value of a parcel comprising a 150-foot wide strip of land on the west side of the northern half of Mississippi River Island No. 228, as determined through an appraisal conducted in conformity with the Uniform Appraisal Standards for Federal Land Acquisition; and

(2) that the Secretary would consider acceptable in exchange for all right, title, and interest of the United States in and to that parcel.

(b) LAND FOR WILDLIFE AND FISH REFUGE.—Land or interests in land that the Secretary may consider acceptable for the purposes of subsection (a) include land or interests in land that would be suitable for inclusion in the Upper Mississippi River Wildlife and Fish Refuge.

(c) EXCHANGE.—Not later than 180 days after Dubuque offers land or interests in land identified in the notice under subsection (a), the Secretary shall convey all right, title, and interest of the United States in and to the parcel described in subsection (a) in exchange for the land or interests in land offered by Dubuque, and shall permanently discontinue barge fleeting at the Mississippi River island, Tract JO–4, Parcel A, in the W/2 SE/4, Section 30, T.29N., R.2W., Jo Daviess County, Illinois, located between miles #578 and #579, commonly known as Pearl Island.

SEC. 135. (a) FINDINGS.—The Senate makes the following findings—

(1) in 1990, pursuant to the Indian Self-Determination and Education Assistance Act (ISDEAA), 25 U.S.C. 450 et seq., a class action lawsuit was filed by Indian tribal contractors and tribal consortia against the United States, the Secretary of the Interior and others seeking money damages, injunctive relief, and declaratory relief for alleged violations of the ISDEAA (Ramah Navajo Chapter v. Lujan, 112 F.3d 1455 (10th Cir. 1997));

(2) the parties negotiated a partial settlement of the claim totaling $76,200,000, plus applicable interest, which was approved by the court on May 14, 1999;

(3) the partial settlement was paid by the United States in September 1999, in the amount of $82,000,000;

(4) the Judgment Fund was established to pay for legal judgments awarded to plaintiffs who have filed suit against the United States;

(5) the Contract Disputes Act of 1978 requires that the Judgment Fund be reimbursed by the responsible agency following the payment of an award from the Fund; and

(6) the shortfall in contract support payments found by the Court of Appeals for the 10th Circuit in Ramah resulted primarily from the non-payment or underpayment of indirect costs by agencies other than the Bureau of Indian Affairs and the Indian Health Service.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) repayment of the Judgment Fund for the partial settlement in Ramah from the accounts of the Bureau of Indian Affairs and Indian Health Service would significantly reduce funds appropriated to benefit tribes and individual Native Americans; and

(2) the Secretary of the Interior should work with the Director of the Office of Management and Budget to secure funding for repayment of the judgment in Ramah within the budgets of the agencies that did not pay indirect costs to plaintiffs during the period 1988 to 1993 or paid indirect costs at less than rates provided under the Indian Self-Determination Act during such period.

SEC. 136. In fiscal year 2001 and thereafter and notwithstanding any other provision of law, the United States Fish and Wildlife Service shall establish and implement a fee schedule to permit a return to the Service for forensic laboratory services provided to non-Department of the Interior entities. Fees shall be collected as determined appropriate by the Director of the Fish and Wildlife Service and shall be credited to this appropriation and be available for expenditure without further appropriation until expended.

SEC. 137. BOUNDARY ADJUSTMENT TO EXCLUDE PRIVATE LAND AND ACCESS ROAD, ARGUS RANGE WILDERNESS, CALIFORNIA DESERT CONSERVATION AREA. (a) BOUNDARY ADJUSTMENT.—The boundary of the Argus Range Wilderness in the California Desert Conservation Area, as designated by section 102(a)(1) of the California Desert Protection Act of 1994 (Public Law 103–433; 16 U.S.C. 1132 note) is adjusted to exclude from the area encompassed by the wilderness—

(1) a parcel of private property located in the southwest quarter of the northeast quarter of section 35, township 21 south, range 42 east, Mount Diablo meridian, Inyo County, California; and

(2) the roadway described in subsection (b) that is used to access the private property.

(b) DESCRIPTION OF ROADWAY.—The roadway referred to in subsection (a) means—

(1) the main stem of the road running east and west through sections 35 and 36, township 21 south, range 42 east, and section 31, township 21 south, range 43 east, Mount Diablo meridian, to the point where the main stem first divides into two branches to provide access to the parcel of private property described in subsection (a) from the east and the north; and

(2) each of the two branches of that road, as described in paragraph (1).

(c) LEGAL DESCRIPTION OF EXCLUDED AREA.—The exact acreage and legal description of the area to be excluded from the wilderness area pursuant to subsection (a) shall be determined by a survey satisfactory to the Secretary. The cost of the survey shall be borne by the Secretary. In connection with the main stem of the roadway described in subsection (b)(1), the Secretary shall exclude, at a minimum, all lands within 30 feet of the center line of the roadway.

SEC. 138. (a) Pursuant to the provisions of section 4(a)(3) of the National Wildlife Refuge System Administration Act (16 U.S.C. 668dd(a)(3)), the Secretary of the Interior is directed to remove from the Columbia National Wildlife Refuge all right, title and interest of the United States in and to the following described properties:

Lots 1 and 2 of Block 144, in Othello Land Company's First Addition to Othello according to the recorded plat thereof, together with all lands presently or formerly occupied by public thoroughfares or rights of way abutting or adjoining the above described land, in the County of Adams, State of Washington, T.16 N., R.29E., W.M.

and to transfer said property without compensation to the City of Othello, Washington.

(b) The property conveyed under this section shall be used for public housing or other public purpose, and all right, title and interest in and to such property shall revert to the United States if it is used for any other purpose.

(c) The City of Othello shall hold the United States harmless, and shall indemnify the United States, for all claims, costs, damages, and judgements arising out of any act or omission relating to the property conveyed under this section.

SEC. 139. Section 412(b) of the National Parks Omnibus Management Act of 1998, as amended (16 U.S.C. 5961) is amended by striking ''2000'' and inserting ''2001''.

SEC. 140. Notwithstanding other provisions of law, the National Park Service may authorize, through cooperative agreement, the Golden Gate National Parks Association to provide fee-based education, interpretive and visitor service functions within the Crissy Field and Fort Point areas of the Presidio.

SEC. 141. The building housing the visitors center within the boundaries of the Chincoteague National Wildlife Refuge on Assateague Island, Virginia, shall be known and designated as the ''Herbert H. Bateman Educational and Administrative Center'' and shall hereafter be referred to in any law, map, regulation, document, paper, or other record of

the United States as the ''Herbert H. Bateman Educational and Administrative Center''.

SEC. 142. Notwithstanding 31 U.S.C. 3302(b), sums received by the Bureau of Land Management for the sale of seeds or seedlings including those collected in fiscal year 2000, may be credited to the appropriation from which funds were expended to acquire or grow the seeds or seedlings and are available without fiscal year limitation.

SEC. 143. Public Law 105–83 (111 Stat. 1556) is amended as follows: Under the heading ''Operation of Indian Programs'' in the Bureau of Indian Affairs strike ''non-Federal'' in the last proviso and insert in lieu thereof ''non-Department of the Interior''.

SEC. 144. (a) Notwithstanding any other provision of law, and subject to subsections (b) and (c), all conveyances to the city of Valley City, a municipal corporation of Barnes County, North Dakota, of lands described in subsection (b), heretofore or hereafter made directly by The Burlington Northern and Santa Fe Railway Company or its successors, are hereby validated to the extent that the conveyances would be legal and valid if all right, title, and interest of the United States, except minerals, were held by The Burlington Northern and Santa Fe Railway Company.

(b) LANDS DESCRIBED.—The lands referred to in subsection (a) are the land that formed part of the railroad right-of-way granted to the Northern Pacific Railroad Company, a predecessor to The Burlington Northern and Santa Fe Railway Company, by an Act of Congress on July 2, 1864, specifically a 400-foot wide right-of-way, being 200 feet wide on each side of the centerline of the rail track as originally located and constructed between milepost 69.05 and milepost 61.10 within Barnes County, North Dakota, as shown and described on the map entitled ''City of Valley City—Railroad Parcels'' dated September 1, 2000. Such map shall be placed on file and available for inspection in the offices of the Director of the Bureau of Land Management.

(c) ACCESS AND MINERAL RIGHTS.—

(1) PRESERVATION OF RIGHTS OF ACCESS.—Nothing in this section shall impair any rights of access in favor of the public or any owner of adjacent lands over, under, or across the lands described in section 2.

(2) MINERALS.—The United States reserves any federally owned mineral rights in the lands described in subsection (b), except that the United States disclaims any and all right of surface entry to the mineral estate of such lands.

SEC. 145. (a) SHORT TITLE.—This section may be cited as the ''First Ladies National Historic Site Act of 2000''.

(b) FIRST LADIES NATIONAL HISTORIC SITE.—

(1) FINDINGS.—The Congress finds the following:

(A) Throughout the history of the United States, First Ladies have had an important impact on our Nation's history.

(B) Little attention has been paid to the role of First Ladies and their impact on our Nation's history.

(C) Establishment of the First Ladies National Historic Site will provide unique opportunities for education and study into the impact of First Ladies on our history.

(2) PURPOSES.—The purposes of this section are the following:

(A) To preserve and interpret the role and history of First Ladies for the benefit, inspiration, and education of the people of the United States.

(B) To interpret the impact of First Ladies on the history of the United States.

(C) To provide to school children and scholars access to information about the contributions of First Ladies through both a physical educational facility and an electronic virtual library.

(D) To establish the First Ladies National Historic Site in Canton, Ohio, the home of First Lady Ida Saxton McKinley.

(E) To create a public-private partnership between the National Park Service and the National First Ladies Library.

(3) ESTABLISHMENT OF FIRST LADIES NATIONAL HISTORIC SITE.—

(A) ESTABLISHMENT.—There is established in Canton, Ohio, the First Ladies National Historic Site.

(B) DESCRIPTION.—The historic site shall consist of—

(i) the land and improvements comprising the National Park Service property located at 331 Market Avenue South in Canton, Ohio, known as the Ida Saxton McKinley House; and

(ii) if acquired under subsection (b)(4), National Park Service property located at 205 Market Avenue South in Canton, Ohio, known as the City National Bank Building.

(4) ACQUISITION OF CITY NATIONAL BANK BUILDING.—The Secretary may acquire by donation, for inclusion in the historic site, the property located at 205 Market Avenue South in Canton, Ohio, known as the City National Bank Building.

(5) ADMINISTRATION OF THE HISTORIC SITE.—

(A) IN GENERAL.—The Secretary shall administer the historic site in accordance with this section and the provisions of law generally applicable to units of the National Park System, including the Act entitled ''An Act to establish a National Park Service, and for other purposes'', approved August 25, 1916 (16 U.S.C. 1 et seq.), and the Act of August 21, 1935 (49 Stat. 666, chapter 593; 16 U.S.C. 461 et seq.).

(B) COOPERATIVE AGREEMENTS.—

(i) To further the purposes of this section, the Secretary may enter into a cooperative agreement with the National First Ladies Library (a nonprofit corporation established under the laws of the District of Columbia) under which the National First Ladies Library may operate and maintain the site.

(ii) To further the purposes of this section, the Secretary may enter into cooperative agreements with other public and private organizations.

(C) ASSISTANCE.—The Secretary may provide to the National First Ladies Library—

(i) technical assistance for the preservation of historic structures of, the maintenance of the cultural landscape of, and local preservation planning for, the historic site; and

(ii) subject to the availability of appropriations, financial assistance for the operation and maintenance of the historic site.

(D) ADMISSION FEES.—The Secretary may authorize the National First Ladies Library to—

(i) charge fees for admission to the historic site; and

(ii) retain and use for the historic site amounts paid as such fees.

(E) MANAGEMENT OF PROPERTY.—The Secretary may authorize the National First Ladies Library—

(i) to manage any property within the historic site;

(ii) to lease to other public or private entities any property managed under subparagraph (i) by the National First Ladies Library; and

(iii) to retain and use for the historic site amounts received under such leases.

(6) GENERAL MANAGEMENT PLAN.—

(A) IN GENERAL.—Not later than the last day of the third full fiscal year beginning after the date of enactment of this Act, the Secretary shall, in consultation with the officials described in paragraph (B), prepare a general management plan for the historic site.

(B) CONSULTATION.—In preparing the general management plan, the Secretary shall consult with an appropriate official of—

(i) the National First Ladies Library; and

(ii) appropriate political subdivisions of the State of Ohio that have jurisdiction over the area where the historic site is located.

(C) SUBMISSION OF PLAN TO CONGRESS.—Upon the completion of the general management plan, the Secretary shall submit a copy of the plan to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives.

(7) DEFINITIONS.—In this section:

(A) HISTORIC SITE.—The term ''historic site'' means the First Ladies National Historic Site established by subsection (b)(3).

(B) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

SEC. 146. (a) CONTRIBUTIONS TOWARD ESTABLISHMENT OF ABRAHAM LINCOLN INTERPRETIVE CENTER.—

(1) GRANTS AUTHORIZED.—Subject to subsections (a)(2) and (a)(3), the Secretary of the Interior shall make grants to contribute funds for the establishment in Springfield, Illinois, of an interpretive center to preserve and make available to the public materials related to the life of President Abraham Lincoln and to provide interpretive and educational services which communicate the meaning of the life of Abraham Lincoln.

(2) PLAN AND DESIGN.—

(A) SUBMISSION.—Not later than 18 months after the date of the enactment of this Act, the entity selected by the Secretary of the Interior to receive grants under subsection (a)(1) shall submit to the Secretary a plan and design for the interpretive center, including a description of the following:

(i) The design of the facility and site.

(ii) The method of acquisition.

(iii) The estimated cost of acquisition, construction, operation, and maintenance.

(iv) The manner and extent to which non-Federal entities will participate in the acquisition, construction, operation, and maintenance of the center.

(B) CONSULTATION AND COOPERATION.—The plan and design for the interpretive center shall be prepared in consultation with the Secretary of the Interior and the Governor of Illinois and in cooperation with such other public, municipal, and private entities as the Secretary considers appropriate.

(3) CONDITIONS ON GRANT.—

(A) MATCHING REQUIREMENT.—A grant under subsection (a)(1) may not be made until such time as the entity selected to receive the grant certifies to the Secretary of the Interior that funds have been contributed by the State of Illinois or raised from non-Federal sources for use to establish the interpretive center in an amount equal to at least double the amount of that grant.

(B) RELATION TO OTHER LINCOLN-RELATED SITES AND MUSEUMS.—The Secretary of the Interior shall further condition the grant under subsection (a)(1) on the agreement of the grant recipient to operate the resulting interpretive center in cooperation with other Federal and non-Federal historic sites, parks, and museums that represent significant locations or events in the life of Abraham Lincoln. Cooperative efforts to promote and interpret the life of Abraham Lincoln may include the use of cooperative agreements, cross references, cross promotion, and shared exhibits.

(4) PROHIBITION ON CONTRIBUTION OF OPERATING FUNDS.—Grant amounts may not be used for the maintenance or operation of the interpretive center.

(5) NON-FEDERAL OPERATION.—The Secretary of the Interior shall have no involvement in the actual operation of the interpretive center, except at the request of the non-Federal entity responsible for the operation of the center.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the

Secretary of the Interior a total of $50,000,000 to make grants under subsection (a)(1). Amounts so appropriated shall remain available for expenditure through fiscal year 2006.

SEC. 147. (a) SHORT TITLE.—This section may be cited as the ''Palace of the Governors Annex Act''.

(b) CONSTRUCTION OF PALACE OF THE GOVERNORS ANNEX, SANTA FE, NEW MEXICO.—

(1) FINDINGS.—Congress finds that—

(A) the United States has a rich legacy of Hispanic influence in politics, government, economic development, and cultural expression;

(B) the Palace of the Governors—

(i) has been the center of administrative and cultural activity over a vast region of the Southwest since its construction as New Mexico's second capitol in Santa Fe by Governor Pedro de Peralta in 1610;

(ii) is the oldest continuously occupied public building in the continental United States, having been occupied for 390 years; and

(iii) has been designated as a National Historic Landmark;

(C) since its creation, the Museum of New Mexico has worked to protect and promote Southwestern, Hispanic, and Native American arts and crafts;

(D) the Palace of the Governors houses the history division of the Museum of New Mexico;

(E) the Museum has an extensive, priceless, and irreplaceable collection of—

(i) Spanish Colonial paintings (including the Segesser Hide Paintings, paintings on buffalo hide dating back to 1706);

(ii) pre-Columbian Art; and

(iii) historic artifacts, including—

(I) helmets and armor worn by the Don Juan de Oñate expedition conquistadors who established the first capital in the territory that is now the United States, San Juan de los Caballeros, in July 1598;

(II) the Vara Stick used to measure land grants and other real property boundaries in Dona Ana County, New Mexico;

(III) the Columbus, New Mexico Railway Station clock that was shot, stopping the pendulum, freezing for all history the moment when Pancho Villa's raid began;

(IV) the field desk of Brigadier General Stephen Watts Kearny, who was posted to New Mexico during the Mexican War and whose Army of the West traveled the Santa Fe trail to occupy the territories of New Mexico and California; and

(V) more than 800,000 other historic photographs, guns, costumes, maps, books, and handicrafts;

(F) the Palace of the Governors and its contents are included in the Mary C. Skaggs Centennial Collection of America's Treasures;

(G) the Palace of the Governors and the Segesser Hide paintings have been declared national treasures by the National Trust for Historic Preservation; and

(H) time is of the essence in the construction of an annex to the Palace of the Governors for the exhibition and storing of the collection described in paragraph (E), because—

(i) the existing facilities for exhibiting and storing the collection are so inadequate and unsuitable that existence of the collection is endangered and its preservation is in jeopardy; and

(ii) 2010 marks the 400th anniversary of the continuous occupation and use of the Palace of the Governors and is an appropriate date for ensuring the continued viability of the collection.

(2) DEFINITIONS.—In this section:

(A) ANNEX.—The term ''Annex'' means the annex for the Palace of the Governors of the Museum of New Mexico, to be constructed behind the Palace of the Governors building at 110 Lincoln Avenue, Santa Fe, New Mexico.

(B) OFFICE.—The term ''Office'' means the State Office of Cultural Affairs.

(C) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

(D) STATE.—The term ''State'' means the State of New Mexico.

(3) GRANT.—

(A) IN GENERAL.—Subject to the availability of appropriations, the Secretary shall make a grant to the Office to pay 50 percent of the costs of the final design, construction, management, inspection, furnishing, and equipping of the Annex.

(B) REQUIREMENTS.—Subject to the availability of appropriations, to receive a grant under this paragraph (A), the Office shall—

(i) submit to the Secretary a copy of the architectural blueprints for the Annex; and

(ii) enter into a memorandum of understanding with the Secretary under subsection (b)(4).

(4) MEMORANDUM OF UNDERSTANDING.—At the request of the Office, the Secretary shall enter into a memorandum of understanding with the Office that—

(A) requires that the Office award the contract for construction of the Annex after a competitive bidding process and in accordance with the New Mexico Procurement Code; and

(B) specifies a date for completion of the Annex.

(5) NON-FEDERAL SHARE.—The non-Federal share of the costs of the final design, construction, management, inspection, furnishing, and equipping of the Annex—

(A) may be in cash or in kind fairly evaluated, including land, art and artifact collections, plant, equipment, or services; and

(B) shall include any contribution received by the State (including contributions from the New Mexico Foundation and other endowment funds) for, and any expenditure made by the State for, the Palace of the Governors or the Annex, including—

(i) design;

(ii) land acquisition (including the land at 110 Lincoln Avenue, Santa Fe, New Mexico);

(iii) acquisitions for and renovation of the library;

(iv) conservation of the Palace of the Governors;

(v) construction, management, inspection, furnishing, and equipping of the Annex; and

(vi) donations of art collections and artifacts to the Museum of New Mexico on or after the date of enactment of this section.

(6) USE OF FUNDS.—The funds received under a grant awarded under subsection (b)(3) shall be used only for the final design, construction, management, inspection, furnishing and equipment of the Annex.

(7) AUTHORIZATION OF APPROPRIATIONS.—

(A) IN GENERAL.—Subject to paragraph (B), subject to the availability of appropriations, there is authorized to be appropriated to the Secretary to carry out this section $15,000,000, to remain available until expended.

(B) CONDITION.—Paragraph (A) authorizes sums to be appropriated on the condition that—

(i) after the date of enactment of this section and before January 1, 2010, the State appropriate at least $8,000,000 to pay the costs of the final design, construction, management, inspection, furnishing, and equipping of the Annex; and

(ii) other non-Federal sources provide sufficient funds to pay the remainder of the 50 percent non-Federal share of those costs.

SEC. 148. (a) Section 104 of the Act entitled ''An Act to establish in the Department of the Interior the Southwestern Pennsylvania Heritage Preservation Commission, and for other purposes'', approved November 19, 1988 (Public Law 100–698) is amended—

(1) in the flush material at the end of subsection (a), by striking ''10 years'' and inserting ''20 years''; and

(2) in subsection (e), by striking ''10 years'' and inserting ''20 years''.

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 105 of the Act entitled ''An Act to establish in the Department of the Interior the Southwestern Pennsylvania Heritage Preservation Commission, and for other purposes'', approved November 19, 1988 (Public Law 100–698) is amended by inserting ''for each of fiscal years 2001 through 2010'' after ''$3,000,000''.

(c) EFFECTIVE DATE.—The amendment made by section 1 shall be deemed to have taken effect on November 18, 1998.

SEC. 149. REDESIGNATION OF CUYAHOGA VALLEY NATIONAL RECREATION AREA AS CUYAHOGA VALLEY NATIONAL PARK. (a) REDESIGNATION.—The Cuyahoga Valley National Recreation Area is redesignated as Cuyahoga Valley National Park.

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the Cuyahoga Valley National Recreation Area is deemed to be a reference to Cuyahoga Valley National Park.

(c) CONFORMING AMENDMENTS.—The Act entitled ''An Act to provide for the establishment of the Cuyahoga Valley National Recreation Area'' (Public Law 93–555; 16 U.S.C. 460ff et seq.), approved December 27, 1974, is amended—

(1) in section 1 by striking ''National Recreation Area'' and inserting ''National Park''; and

(2) by striking ''recreation area'' each place it appears and inserting ''park''.

(d) CLERICAL AMENDMENTS.—Section 5 of such Act (16 U.S.C. 460ff–4) is repealed, and section 6 of such Act (16 U.S.C. 460ff–5) is redesignated as section 5.

Sec. 150. (a) SHORT TITLE.—This section may be cited as the ''National Underground Railroad Freedom Center Act''.

(b) FINDINGS AND PURPOSES.—

(1) FINDINGS.—Congress finds that—

(A) the National Underground Railroad Freedom Center (hereinafter ''Freedom Center'') is a nonprofit organization incorporated under the laws of the State of Ohio in 1995;

(B) the objectives of the Freedom Center are to interpret the history of the Underground Railroad through development of a national cultural institution in Cincinnati, Ohio, that will house an interpretive center, including museum, educational, and research facilities, all dedicated to communicating to the public the importance of the quest for human freedom which provided the foundation for the historic and inspiring story of the Underground Railroad;

(C) the city of Cincinnati has granted exclusive development rights for a prime riverfront location to the Freedom Center;

(D) the Freedom Center will be a national center linked through state-of-the-art technology to Underground Railroad sites and facilities throughout the United States and to a constituency that reaches across the United States, Canada, Mexico, the Caribbean and beyond; and

(E) the Freedom Center has reached an agreement with the National Park Service to pursue a range of historical and educational cooperative activities related to the Underground Railroad, including but not limited to assisting the National Park Service in the implementation of the National Underground Railroad Network to Freedom Act.

(2) PURPOSES.—The purposes of this section are—

(A) to promote preservation and public awareness of the history of the Underground Railroad;

(B) to assist the Freedom Center in the development of its programs and facilities in Cincinnati, Ohio; and

(C) to assist the National Park Service in the implementation of the National Underground Railroad Network to Freedom Act (112 Stat. 679; 16 U.S.C. 469l and following).

(c) DEFINITIONS.—In this section:

(1) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

(2) PROJECT BUDGET.—The term ''project budget'' means the total amount of funds expended by the Freedom Center on construction of its facility, development of its programs and exhibits, research, collection of informative and educational activities related to the history of the Underground Railroad, and any administrative activities necessary to the operation of the Freedom Center, prior to the opening of the Freedom Center facility in Cincinnati, Ohio.

(3) FEDERAL SHARE.—The term ''Federal share'' means an amount not to exceed 20 percent of the project budget and shall include all amounts received from the Federal Government under this legislation and any other Federal programs.

(4) NON-FEDERAL SHARE.—The term ''non-Federal share'' means all amounts obtained by the Freedom Center for the implementation of its facilities and programs from any source other than the Federal Government, and shall not be less than 80 percent of the project budget.

(5) THE FREEDOM CENTER FACILITY.—The term ''the Freedom Center facility'' means the facility, including the building and surrounding site, which will house the museum and research institute to be constructed and developed in Cincinnati, Ohio, on the site described in subsection (d)(3).

(d) AUTHORIZATION OF APPROPRIATIONS.—

(1) PROGRAM AUTHORIZED.—From sums appropriated pursuant to the authority of subsection (d)(4) in any fiscal year, the Secretary is authorized and directed to provide financial assistance to the Freedom Center, in order to pay the Federal share of the cost of authorized activities described in subsection (e).

(2) EXPENDITURE ON NON-FEDERAL PROPERTY.—The Secretary is authorized to expend appropriated funds under subsection (d)(1) of this section to assist in the construction of the Freedom Center facility and the development of programs and exhibits for that facility which will be funded primarily through private and non-Federal funds, on property owned by the city of Cincinnati, Hamilton County, and the State of Ohio.

(3) DESCRIPTION OF THE FREEDOM CENTER FACILITY SITE.—The facility referred to in subsections (d)(1) and (d)(2) will be located on a site described as follows: a 2-block area south of new South Second, west of Walnut Street, north of relocated Theodore M. Berry Way, and east of Vine Street in Cincinnati, Ohio.

(4) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $16,000,000 for the 4 fiscal year period beginning October 1, 1999. Funds not to exceed that total amount may be appropriated in 1 or more of such fiscal years. Funds shall not be disbursed until the Freedom Center has commitments for a minimum of 50 percent of the non-Federal share.

(5) AVAILABILITY OF FUNDS.—Notwithstanding any other provision of law, funds appropriated to carry out the provisions of this section shall remain available for obligation and expenditure until the end of the fiscal year succeeding the fiscal year for which the funds were appropriated.

(6) OTHER PROVISIONS.—Any grant made under this section shall provide that—

(A) no change or alteration may be made in the Freedom Center facility except with the agreement of the property owner and the Secretary;

(B) the Secretary shall have the right of access at reasonable times to the public portions of the Freedom Center facility for interpretive and other purposes; and

(C) conversion, use, or disposal of the Freedom Center facility for purposes contrary to the purposes of this section, as determined by the Secretary, shall result in a right of the United States to compensation equal to the greater of—

(i) all Federal funds made available to the grantee under this section; or

(ii) the proportion of the increased value of the Freedom Center facility attributable to such funds, as determined at the time of such conversion, use, or disposal.

(e) AUTHORIZED ACTIVITIES.—

(1) IN GENERAL.—The Freedom Center may engage in any activity related to its objectives addressed in subsection (b)(1), including, but not limited to, construction of the Freedom Center facility, development of programs and exhibits related to the history of the Underground Railroad, research, collection of information and artifacts and educational activities related to the history of the Underground Railroad, and any administrative activities necessary to the operation of the Freedom Center.

(2) PRIORITIES.—The Freedom Center shall give priority to—

(A) construction of the Freedom Center facility;

(B) development of programs and exhibits to be presented in or from the Freedom Center facility; and

(C) providing assistance to the National Park Service in the implementation of the National Underground Railroad Network to Freedom Act (16 U.S.C. 469l).

(f) APPLICATION.—

(1) IN GENERAL.—The Freedom Center shall submit an application to the Secretary at such time, in such manner, and containing or accompanied by such information as the Secretary may reasonably require. Each application shall—

(A) describe the activities for which assistance is sought;

(B) provide assurances that the non-Federal share of the cost of activities of the Freedom Center shall be paid from non-Federal sources, together with an accounting of costs expended by the Freedom Center to date, a budget of costs to be incurred prior to the opening of the Freedom Center facility, an accounting of funds raised to date, both Federal and non-Federal, and a projection of funds to be raised through the completion of the Freedom Center facility.

(2) APPROVAL.—The Secretary shall approve the application submitted pursuant to subsection (f)(1) unless such application fails to comply with the provisions of this section.

(g) REPORTS.—The Freedom Center shall submit an annual report to the appropriate committees of the Congress not later than January 31, 2000, and each succeeding year thereafter for any fiscal year in which Federal funds are expended pursuant to this section. The report shall—

(1) include a financial statement addressing the Freedom Center's costs incurred to date and projected costs, and funds raised to date and projected fundraising goals;

(2) include a comprehensive and detailed description of the Freedom Center's activities for the preceding and succeeding fiscal years; and

(3) include a description of the activities taken to assure compliance with this section.

(h) AMENDMENT TO THE NATIONAL UNDERGROUND RAILROAD NETWORK TO FREEDOM ACT OF 1998.—The National Underground Railroad Network to Freedom Act of 1998 (112 Stat. 679; 16 U.S.C. 469l and following) is amended by adding at the end the following:

''SEC. 4. PRESERVATION OF HISTORIC SITES OR STRUCTURES.

''(a) AUTHORITY TO MAKE GRANTS.—The Secretary of the Interior may make grants in accordance with this section for the preservation and restoration of historic buildings or structures associated with the Underground Railroad, and for related research and documentation to sites, programs, or facilities that have been included in the national network.

''(b) GRANT CONDITIONS.—Any grant made under this section shall provide that—

''(1) no change or alteration may be made in property for which the grant is used except with the agreement of the property owner and the Secretary;

''(2) the Secretary shall have the right of access at reasonable times to the public portions of such property for interpretive and other purposes; and

''(3) conversion, use, or disposal of such property for purposes contrary to the purposes of this Act, as determined by the Secretary, shall result in a right of the United States to compensation equal to all Federal funds made available to the grantee under this Act.

''(c) MATCHING REQUIREMENT.—The Secretary may obligate funds made available for a grant under this section only if the grantee agrees to match, from funds derived from non-Federal sources, the amount of the grant with an amount that is equal to or greater than the grant. The Secretary may waive the requirement of the preceding sentence with respect to a grant if the Secretary determines that an extreme emergency exists or that such a waiver is in the public interest to assure the preservation of historically significant resources.

''(d) FUNDING.—There are authorized to be appropriated to the Secretary for purposes of this section $2,500,000 for fiscal year 2001 and each subsequent fiscal year. Amounts authorized but not appropriated in a fiscal year shall be available for appropriation in subsequent fiscal years.''.

SEC. 151. PRIORITY ABANDONED MINE AND ACID MINE REMEDIATION. For expenses necessary to reclaim abandoned coal mine sites and for acid mine drainage remediation caused by past coal mining practices in the anthracite region of Pennsylvania and other purposes consistent with title IV of the Surface Mining Control and Reclamation Act of 1977, Public Law 95–87, as amended, to be granted to the Commonwealth of Pennsylvania in addition to the amount granted under sections 402(g)(1) and 402(g)(5) of the Surface Mining Control and Reclamation Act, $12,600,000, to be derived from funds pursuant to section 402(g)(2) of the Surface Mining Control and Reclamation Act, to remain available until expended: Provided, That of these funds, $600,000 will be specifically used to continue a demonstration project funded in Public Law 106–113, in accordance with section 401(c)(6) of the Act to determine the efficacy of improving water quality by removing metals from eligible waters polluted by acid mine drainage.

SEC. 152. Notwithstanding any other provision of law, from the unobligated balances derived from the Land and Water Conservation Fund appropriated in fiscal year 2000 for acquisition of land at Nisqually National Wildlife Refuge (Black River), $850,000, together with other sums as may become available, is for the Nisqually Indian Tribe to acquire the fee title to the Kenneth W. Braget farm under the terms and conditions of the existing Purchase and Sale Agreement. The Nisqually Indian Tribe shall enter into a 25 year cooperative agreement/renewable lease with the U.S. Fish and Wildlife Service to manage those lands within the approved refuge boundary as part of the Nisqually National Wildlife Refuge. Such lands within the approved refuge boundary shall be managed in perpetuity for refuge purposes.

SEC. 153. TRIBAL SCHOOL CONSTRUCTION DEMONSTRATION PROGRAM. (a) DEFINITIONS.—In this section:

(1) CONSTRUCTION.—The term ''construction'', with respect to a tribally controlled school, includes the construction or renovation of that school.

(2) INDIAN TRIBE.—The term ''Indian tribe'' has the meaning given that term in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)).

(3) SECRETARY.—The term ''secretary'' means the Secretary of the Interior.

(4) TRIBALLY CONTROLLED SCHOOL.—The term ''tribally controlled school'' has the meaning given that term in section 5212 of the Tribally Controlled Schools Act of 1988 (25 U.S.C. 2511).

(5) DEPARTMENT.—The term ''Department'' means the Department of the Interior.

(6) DEMONSTRATION PROGRAM.—The term ''demonstration program'' means the Tribal School Construction Demonstration Program.

(b) IN GENERAL.—The Secretary shall carry out a demonstration program to provide grants to Indian tribes for the construction of tribally controlled schools.

(1) IN GENERAL.—Subject to the availability of appropriations, in carrying out the demonstration program under subsection (b), the Secretary shall award a grant to each Indian tribe that submits an application that is approved by the Secretary under paragraph (2). The Secretary shall ensure that an eligible Indian tribe currently on the Department's priority list for constructing of replacement educational facilities receives the highest priority for a grant under this section.

(2) GRANT APPLICATIONS.—An application for a grant under the section shall—

(A) include a proposal for the construction of a tribally controlled school of the Indian tribe that submits the application; and

(B) be in such form as the Secretary determines appropriate.

(3) GRANT AGREEMENT.—As a condition to receiving a grant under this section, the Indian tribe shall enter into an agreement with the Secretary that specifies—

(A) the costs of construction under the grant;

(B) that the Indian tribe shall be required to contribute towards the cost of the construction a tribal share equal to 50 percent of the costs; and

(C) any other term or condition that the Secretary determines to be appropriate.

(4) ELIGIBILITY.—Grants awarded under the demonstration program shall only be for construction on replacement tribally controlled schools.

(c) EFFECT OF GRANT.—A grant received under this section shall be in addition to any other funds received by an Indian tribe under any other provision of law. The receipt of a grant under this section shall not affect the eligibility of an Indian tribe receiving funding, or the amount of funding received by the Indian tribe, under the Tribally Controlled Schools Act of 1988 (25 U.S.C. 2501 et seq.) or the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).

SEC. 154. WHITE RIVER OIL SHALE MINE, UTAH. (a) SALE.—The Administrator of General Services (referred to in this section as the ''Administrator'') shall sell all right, title, and interest of the United States in and to the improvements and equipment described in subsection (b) that are situated on the land described in subsection (c) (referred to in this section as the ''Mine'').

(b) DESCRIPTION OF IMPROVEMENTS AND EQUIPMENT.— The improvements and equipment referred to in subsection (a) are the following improvements and equipment associated with the Mine:

(1) Mine Service Building.

(2) Sewage Treatment Building.

(3) Electrical Switchgear Building.

(4) Water Treatment Building/Plant.

(5) Ventilation/Fan Building.

(6) Water Storage Tanks.

(7) Mine Hoist Cage and Headframe.

(8) Miscellaneous Mine-related equipment.

(c) DESCRIPTION OF LAND.—The land referred to in subsection (a) is the land located in Uintah County, Utah, known as the ''White River Oil Shale Mine'' and described as follows:

(1) T. 10 S., R 24 E., Salt Lake Meridian, sections 12 through 14, 19 through 30, 33, and 34.

(2) T. 10 S., R. 25 E., Salt Lake Meridian, sections 18 and 19.

(d) USE OF PROCEEDS.—The proceeds of the sale under subsection (a)—

(1) shall be deposited in a special account in the Treasury of the United States; and

(2) shall be available until expended, without further Act of appropriation—

(A) first, to reimburse the Administrator for the direct costs of the sale; and

(B) second, to reimburse the Bureau of Land Management Utah State Office for the costs of closing and rehabilitating the Mine.

(e) MINE CLOSURE AND REHABILITATION.—The closing and rehabilitation of the Mine (including closing of the mine shafts, site grading, and surface revegetation) shall be conducted in accordance with—

(1) the regulatory requirements of the State of Utah, the Mine Safety and Health Administration, and the Occupational Safety and Health Administration; and

(2) other applicable law.

SEC. 155. BLUE RIDGE PARKWAY. (a) The Blue Ridge Parkway headquarters building located at 199 Hemphill Knob in Asheville, North Carolina, shall be known and designated as the ''Gary E. Everhardt Headquarters Building''.

(b) Any reference in a law, map, regulation, document, paper, or other record of the United States to the headquarters building referred to in subsection (a) shall be deemed to be a reference to the ''Gary E. Everhardt Headquarters Building''.

SEC. 156. None of the funds in this Act or any other Act shall be used, by the Secretary of the Interior to promulgate final rules to revise 43 C.F.R. subpart 3809, except that the Secretary, following the public comment period required by section 3002 of Public Law 106–31, may issue final rules to amend 43 C.F.R. subpart 3809 which are not inconsistent with the recommendations contained in the National Research Council report entitled ''Hardrock Mining on Federal Lands'' so long as these regulations are also not inconsistent with existing statutory authorities. Nothing in this section shall be construed to expand the existing statutory authority of the Secretary.

SEC. 157. (a) SHORT TITLE.—This section may be cited as the ''Wheeling National Heritage Area Act of 2000''.

(b) FINDINGS AND PURPOSES.—

(1) FINDINGS.—The Congress finds that—

(A) the area in an around Wheeling, West Virginia, possesses important historical, cultural, and natural resources, representing major heritage themes of transportation, commerce and industry, and Victorian culture in the United States;

(B) the City of Wheeling has played an important part in the settlement of this country by serving as—

(i) the western terminus of the National Road of the early 1800's;

(ii) the ''Crossroads of America'' throughout the nineteenth century;

(iii) one of the few major inland ports in the nineteenth century; and

(iv) the site for the establishment of the Restored State of Virginia, and later the State of West Virginia, during the Civil War and as the first capital of the new State of West Virginia;

(C) the City of Wheeling has also played an important role in the industrial and commercial heritage of the United States, through the development and maintenance of many industries crucial to the Nation's expansion, including iron and steel, textile manufacturing, boat building, glass manufacturing, and stogie and chewing tobacco manufacturing facilities, many of which are industries that continue to play an important role in the national economy;

(D) the city of Wheeling has retained its national heritage themes with the designations of the old custom house (now Independence Hall) and the historic suspension bridge as National Historic Landmarks; with five historic districts; and many individual properties in the Wheeling area listed or eligible for nomination to the National Register of Historic Places;

(E) the heritage themes and number and diversity of Wheeling's remaining resources should be appropriately retained, enhanced, and interpreted for the education, benefit, and inspiration of the people of the United States; and

(F) in 1992 a comprehensive plan for the development and administration of the Wheeling National Heritage Area was completed for the National Park Service, the City of Wheeling, and the Wheeling National Task Force, including—

(i) an inventory of the national and cultural resources in the City of Wheeling;

(ii) criteria for preserving and interpreting significant natural and historic resources;

(iii) a strategy for the conservation, preservation, and reuse of the historical and cultural resources in the City of Wheeling and the surrounding region; and

(iv) an implementation agenda by which the State of West Virginia and local governments can coordinate their resources as well as a complete description of the management entity responsible for implementing the comprehensive plan.

(2) PURPOSES.—The purposes of this section are—

(A) to recognize the special importance of the history and development of the Wheeling area in the cultural heritage of the Nation;

(B) to provide a framework to assist the City of Wheeling and other public and private entities and individuals in the appropriate preservation, enhancement, and interpretation of significant resources in the Wheeling area emblematic of Wheeling's contributions to the Nation's cultural heritage;

(C) to allow for limited Federal, State and local capital contributions for planning and infrastructure investments to complete the Wheeling National Heritage Area, in partnership with the State of West Virginia, the City of Wheeling, and other appropriate public and private entities; and

(D) to provide for an economically self-sustaining National Heritage Area not dependent on Federal financial assistance beyond the initial years necessary to establish the heritage area.

(c) DEFINITIONS.—As used in this section—

(1) the term ''city'' means the City of Wheeling;

(2) the term ''heritage area'' means the Wheeling National Heritage Area established in subsection (d);

(3) the term ''plan'' means the ''Plan for the Wheeling National Heritage Area'' dated August, 1992;

(4) the term ''Secretary'' means the Secretary of the Interior; and

(5) the term ''State'' means the State of West Virginia.

(d) WHEELING NATIONAL HERITAGE AREA.—

(1) ESTABLISHMENT.—In furtherance of the purposes of this section, there is established in the State of West Virginia the Wheeling National Heritage Area, as generally depicted on

the map entitled ''Boundary Map, Wheeling National Heritage Area, Wheeling, West Virginia'' and dated March, 1994. The map shall be on file and available for public inspection in the appropriate offices of the National Park Service.

(2) MANAGEMENT ENTITY.—

(A) The management entity for the heritage area shall be the Wheeling National Heritage Corporation, a non-profit corporation chartered in the State of West Virginia.

(B) To the extent consistent with this section, the management entity shall manage the heritage area in accordance with the plan.

(e) DUTIES OF THE MANAGEMENT ENTITY.—

(1) MISSION.—

(A) The primary mission of the management entity shall be—

(i) to implement and coordinate the recommendations contained in the plan;

(ii) ensure integrated operation of the heritage area; and

(iii) conserve and interpret the historic and cultural resources of the heritage area.

(B) The management entity shall also direct and coordinate the diverse conservation, development, programming, educational, and interpretive activities within the heritage area.

(2) RECOGNITION OF PLAN.—The management entity shall work with the State of West Virginia and local governments to ensure that the plan is formally adopted by the City and recognized by the State.

(3) IMPLEMENTATION.—To the extent practicable, the management entity shall—

(A) implement the recommendations contained in the plan in a timely manner pursuant to the schedule identified in the plan;

(B) coordinate its activities with the City, the State, and the Secretary;

(C) ensure the conservation and interpretation of the heritage area's historical, cultural, and natural resources, including—

(i) assisting the City and the State in the preservation of sites, buildings, and objects within the heritage area which are listed or eligible for listing on the National Register of Historic Places;

(ii) assisting the City, the State, or a nonprofit organization in the restoration of any historic building in the heritage area;

(iii) increasing public awareness of and appreciation for the natural, cultural, and historic resources of the heritage area;

(iv) assisting the State or City in designing, establishing, and maintaining appropriate interpretive facilities and exhibits in the heritage area;

(v) assisting in the enhancement of public awareness and appreciation for the historical, archaeological, and geologic resources and sites in the heritage area; and

(vi) encouraging the City and other local governments to adopt land use policies consistent with the goals of the plan, and to take actions to implement those policies;

(D) encourage intergovernmental cooperation in the achievement of these objectives;

(E) develop recommendations for design standards within the heritage area; and

(F) seek to create public-private partnerships to finance projects and initiatives within the heritage area.

(4) AUTHORITIES.—The management entity may, for the purposes of implementing the plan, use Federal funds made available by this section to—

(A) make grants to the State, City, or other appropriate public or private organizations, entities, or persons;

(B) enter into cooperative agreements with, or provide technical assistance to Federal agencies, the State, City or other appropriate public or private organizations, entities, or persons;

(C) hire and compensate such staff as the management entity deems necessary;

(D) obtain money from any source under any program or law requiring the recipient of such money to make a contribution in order to receive such money;

(E) spend funds on promotion and marketing consistent with the resources and associated values of the heritage area in order to promote increased visitation; and

(F) contract for goods and services.

(5) ACQUISITION OF REAL PROPERTY.—

(A) Except as provided in paragraph (B), the management entity may not acquire any real property or interest therein within the heritage area, other than the leasing of facilities.

(B)(i) Subject to subparagraph (ii), the management entity may acquire real property, or an interest therein, within the heritage area by gift or devise, or by purchase from a willing seller with money which was donated, bequeathed, appropriated, or otherwise made available to the management entity on the condition that such money be used to purchase real property, or interest therein, within the heritage area.

(ii) Any real property or interest therein acquired by the management entity pursuant to this paragraph shall be conveyed in perpetuity by the management entity to an appropriate public or private entity, as determined by the management entity. Any such conveyance shall be made as soon as practicable after acquisition, without consideration, and on the condition that the real property or interest therein so conveyed shall be used for public purposes.

(6) REVISION OF PLAN.—Within 18 months after the date of enactment, the management entity shall submit to the Secretary a revised plan. Such revision shall include, but not be limited to—

(A) a review of the implementation agenda for the heritage area;

(B) projected capital costs; and

(C) plans for partnership initiatives and expansion of community support.

(f) DUTIES OF THE SECRETARY.—

(1) INTERPRETIVE SUPPORT.—The Secretary may, upon request of the management entity, provide appropriate interpretive, planning, educational, staffing, exhibits, and other material or support for the heritage area, consistent with the plan and as appropriate to the resources and associated values of the heritage area.

(2) TECHNICAL ASSISTANCE.—The Secretary may upon request of the management entity and consistent with the plan, provide technical assistance to the management entity.

(3) COOPERATIVE AGREEMENTS AND GRANTS.—The Secretary may, in consultation with the management entity and consistent with the management plan, make grants to, and enter into cooperative agreements with the management entity, the State, City, non-profit organization or any person.

(4) PLAN AMENDMENTS.—No amendments to the plan may be made unless approved by the Secretary. The Secretary shall consult with the management entity in reviewing any proposed amendments.

(g) DUTIES OF OTHER FEDERAL AGENCIES.—Any Federal department, agency, or other entity conducting or supporting activities directly affecting the heritage area shall—

(1) consult with the Secretary and the management entity with respect to such activities.

(2) cooperate with the Secretary and the management entity in carrying out their duties under this Act, and to the extent practicable, coordinate such activities directly with the duties of the Secretary and the management entity.

(3) to the extent practicable, conduct or support such activities in a manner which the management entity determines will not have an adverse effect on the heritage area.

(h) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There is authorized to be appropriated to carry out this section $10,000,000, except that not more than $1,000,000 may be appropriated to carry out this section for any fiscal year.

(2) MATCHING FUNDS.—Federal funding provided under this section shall be matched at least 25 percent by other funds or in-kind services.

(i) SUNSET.—The Secretary may not make any grant or provide any assistance under this section after September 30, 2015.

TITLE II—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

FOREST AND RANGELAND RESEARCH

For necessary expenses of forest and rangeland research as authorized by law, $229,616,000, to remain available until expended.

STATE AND PRIVATE FORESTRY

For necessary expenses of cooperating with and providing technical and financial assistance to States, territories, possessions, and others, and for forest health management, cooperative forestry, and education and land conservation activities and conducting an international program as authorized, $238,455,000, to remain available until expended, as authorized by law: Provided, That none of the funds made available by this Act shall be used for the urban resources partnership program.

For an additional amount to cover necessary expenses for emergency pest management and forest health activities on Federal, State and private lands, $12,500,000, to remain available until expended: Provided, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That these funds shall be available only to the extent that an official budget request for a specific dollar amount, that includes designation of the entire amount as an emergency requirement as defined by such Act, is transmitted by the President to the Congress.

NATIONAL FOREST SYSTEM

For necessary expenses of the Forest Service, not otherwise provided for, for management, protection, improvement, and utilization of the National Forest System, $1,280,693,000, to remain available until expended, which shall include 50 percent of all moneys received during prior fiscal years as fees collected under the Land and Water Conservation Fund Act of 1965, as amended, in accordance with section 4 of the Act (16 U.S.C. 460l–6a(i)), of which not less than an additional $500,000 shall be available for use for law enforcement purposes in the national forest that, during calendar year 2000, had both the greatest number of methamphetamine dumps and the greatest number of methamphetamine laboratory law enforcement actions in the National Forest System, and of which not less than an additional $500,000 shall be available for law enforcement purposes on the Pisgah and Nantahala National Forests, and of which for the purpose of implementing the Valles Caldera Preservation Act, $990,000, to remain available until expended, shall be available to the Secretary for the management of the Valles Caldera National Preserve: Provided, That any remaining balances available for implementing the Valles Caldera Preservation Act be provided to the Valles Caldera Trust upon its assumption of the management of the Preserve: Provided further, That notwithstanding the limitations of 107(e)(2) of the Valles Caldera Preservation Act (Public Law 106–248), for fiscal years 2001 and 2002, the members of the Board of Trustees of the Valles Caldera Trust may receive, upon request, compensation for each day (including

travel time) that they are engaged in the performance of the functions of the Board. Compensation shall not exceed the daily equivalent of the annual rate in effect for members of the Senior Executive Service at the ES–1 level, and shall be in addition to any reimbursement for travel, subsistence and other necessary expenses incurred by them in the performance of their duties. Members of the Board who are officers or employees of the United States shall not receive any additional compensation by reason of service on the Board: Provided further, That unobligated balances available at the start of fiscal year 2001 shall be displayed by extended budget line item in the fiscal year 2002 budget justification: Provided further, That of the amount available for vegetation and watershed management, the Secretary may authorize the expenditure or transfer of such sums as necessary to the Department of the Interior, Bureau of Land Management for removal, preparation, and adoption of excess wild horses and burros from National Forest System lands: Provided further, That $5,000,000 shall be allocated to the Alaska Region, in addition to its normal allocation for the purposes of preparing additional timber for sale, to establish a 3-year timber supply and such funds may be transferred to other appropriations accounts as necessary to maximize accomplishment: Provided further, That of the funds provided for Forest Products, $700,000 shall be provided to the State of Alaska for monitoring activities at Forest Service log transfer facilities, in the form of an advance, direct lump sum payment.

WILDLAND FIRE MANAGEMENT

For necessary expenses for forest fire presuppression activities on National Forest System lands, for emergency fire suppression on or adjacent to such lands or other lands under fire protection agreement, and for emergency rehabilitation of burned-over National Forest System lands and water, $839,129,000, to remain available until expended: Provided, That such funds are available for repayment of advances from other appropriations accounts previously transferred for such purposes: Provided further, That not less than 50 percent of any unobligated balances remaining (exclusive of amounts for hazardous fuels reduction) at the end of fiscal year 2000 shall be transferred, as repayment for post advances that have not been repaid, to the fund established pursuant to section 3 of Public Law 71–319 (16 U.S.C. 576 et seq.): Provided further, That notwithstanding any other provision of law, up to $8,600,000 of funds appropriated under this appropriation may be used for Fire Science Research in support of the Joint Fire Science Program: Provided further, That all authorities for the use of funds, including the use of contracts, grants, and cooperative agreements, available to execute the Forest Service and Rangeland Research appropriation, are also available in the utilization of these funds for Fire Science Research.

For an additional amount to cover necessary expenses for emergency rehabilitation, presuppression due to emergencies, and wildfire suppression activities of the Forest Service, $426,000,000, to remain available until expended: Provided, That the entire amount is designated by Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That these funds shall be available only to the extent an official budget request for a specific dollar amount, that includes designation of the entire amount of the request as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, is transmitted by the President to the Congress.

CAPITAL IMPROVEMENT AND MAINTENANCE

For necessary expenses of the Forest Service, not otherwise provided for, $468,568,000, to remain available until expended for construction, reconstruction, maintenance and acquisition of buildings and other facilities, and for construction, reconstruction, repair and maintenance of forest roads and trails by the Forest Service as authorized by 16 U.S.C. 532–538 and 23 U.S.C. 101 and 205: Provided, That up to $15,000,000 of the funds provided herein for road maintenance shall be available for the decommissioning of roads, including unauthorized roads not part of the transportation system, which are no longer needed: Provided further, That no funds shall be expended to decommission any system road until notice and an opportunity for public comment has been provided on each decommissioning project: Provided further, That any unobligated balances of amounts previously appropriated to the Forest Service ''Construction'', ''Reconstruction and Construction'', or ''Reconstruction and Maintenance'' accounts as well as any unobligated balances remaining in the ''National Forest System'' account for the facility maintenance and trail maintenance extended budget line items may be transferred to and merged with the ''Capital Improvement and Maintenance'' account.

LAND ACQUISITION

For expenses necessary to carry out the provisions of the Land and Water Conservation Fund Act of 1965, as amended (16 U.S.C. 460l–4 through 11), including administrative expenses, and for acquisition of land or waters, or interest therein, in accordance with statutory authority applicable to the Forest Service, $102,205,000 to be derived from the Land and Water Conservation Fund, to remain available until expended.

ACQUISITION OF LANDS FOR NATIONAL FORESTS SPECIAL ACTS

For acquisition of lands within the exterior boundaries of the Cache, Uinta, and Wasatch National Forests, Utah; the Toiyabe National Forest, Nevada; and the Angeles, San Bernardino, Sequoia, and Cleveland National Forests, California, as authorized by law, $1,069,000, to be derived from forest receipts.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

For acquisition of lands, such sums, to be derived from funds deposited by State, county, or municipal governments, public school districts, or other public school authorities pursuant to the Act of December 4, 1967, as amended (16 U.S.C. 484a), to remain available until expended.

RANGE BETTERMENT FUND

For necessary expenses of range rehabilitation, protection, and improvement, 50 percent of all moneys received during the prior fiscal year, as fees for grazing domestic livestock on lands in National Forests in the 16 Western States, pursuant to section 401(b)(1) of Public Law 94–579, as amended, to remain available until expended, of which not to exceed 6 percent shall be available for administrative expenses associated with on-the-ground range rehabilitation, protection, and improvements.

GIFTS, DONATIONS AND BEQUESTS FOR FOREST AND RANGELAND RESEARCH

For expenses authorized by 16 U.S.C. 1643(b), $92,000, to remain available until expended, to be derived from the fund established pursuant to the above Act.

MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES

For necessary expenses of the Forest Service to manage federal lands in Alaska for subsistence uses under title VIII of the Alaska National Interest Lands Conservation Act (Public Law 96–487), $5,500,000, to remain available until expended.

SOUTHEAST ALASKA ECONOMIC DISASTER FUND

For purposes of the Southeast Alaska Economic Disaster Fund as set forth in section 101(c) of Public Law 104–314, the direct grants provided from the Fund shall be considered direct payments for purposes of all applicable law except that these direct grants may not be used for lobbying activities: Provided, That a total of $5,000,000 is hereby appropriated and shall be deposited into the Southeast Alaska Economic Disaster Fund established pursuant to Public Law 104–134, as amended, without further appropriation or fiscal year limitation. The Secretary of Agriculture shall distribute these funds to the City of Craig in fiscal year 2001.

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

Appropriations to the Forest Service for the current fiscal year shall be available for: (1) purchase of not to exceed 132 passenger motor vehicles of which 13 will be used primarily for law enforcement purposes and of which 129 shall be for replacement; acquisition of 25 passenger motor vehicles from excess sources, and hire of such vehicles; operation and maintenance of aircraft, the purchase of not to exceed six for replacement only, and acquisition of sufficient aircraft from excess sources to maintain the operable fleet at 192 aircraft for use in Forest Service wildland fire programs and other Forest Service programs; notwithstanding other provisions of law, existing aircraft being replaced may be sold, with proceeds derived or trade-in value used to offset the purchase price for the replacement aircraft; (2) services pursuant to 7 U.S.C. 2225, and not to exceed $100,000 for employment under 5 U.S.C. 3109; (3) purchase, erection, and alteration of buildings and other public improvements (7 U.S.C. 2250); (4) acquisition of land, waters, and interests therein, including the Oscoda-Wurtsmith land exchange in Michigan, pursuant to 7 U.S.C. 428a; (5) for expenses pursuant to the Volunteers in the National Forest Act of 1972 (16 U.S.C. 558a, 558d, and 558a note); (6) the cost of uniforms as authorized by 5 U.S.C. 5901–5902; and (7) for debt collection contracts in accordance with 31 U.S.C. 3718(c).

None of the funds made available under this Act shall be obligated or expended to abolish any region, to move or close any regional office for National Forest System administration of the Forest Service, Department of Agriculture without the consent of the House and Senate Committees on Appropriations.

Any appropriations or funds available to the Forest Service may be transferred to the Wildland Fire Management appropriation for forest firefighting, emergency rehabilitation of burned-over or damaged lands or waters under its jurisdiction, and fire preparedness due to severe burning conditions if and only if all previously appropriated emergency contingent funds under the heading ''Wildland Fire Management'' have been released by the President and apportioned.

Funds appropriated to the Forest Service shall be available for assistance to or through the Agency for International Development and the Foreign Agricultural Service in connection with forest and rangeland research, technical information, and assistance in foreign countries, and shall be available to support forestry and related natural resource activities outside the United States and its territories and possessions, including technical assistance, education and training, and cooperation with United States and international organizations.

None of the funds made available to the Forest Service under this Act shall be subject to transfer under the provisions of section 702(b) of the Department of Agriculture Organic Act of 1944 (7 U.S.C. 2257) or 7 U.S.C. 147b unless the proposed transfer is approved in advance by the House and Senate Committees on Appropriations in compliance with the reprogramming

procedures contained in House Report No. 105–163.

None of the funds available to the Forest Service may be reprogrammed without the advance approval of the House and Senate Committees on Appropriations in accordance with the procedures contained in House Report No. 105–163.

No funds appropriated to the Forest Service shall be transferred to the Working Capital Fund of the Department of Agriculture without the approval of the Chief of the Forest Service.

Funds available to the Forest Service shall be available to conduct a program of not less than $2,000,000 for high priority projects within the scope of the approved budget which shall be carried out by the Youth Conservation Corps as authorized by the Act of August 13, 1970, as amended by Public Law 93–408.

Of the funds available to the Forest Service, $1,500 is available to the Chief of the Forest Service for official reception and representation expenses.

Pursuant to sections 405(b) and 410(b) of Public Law 101–593, of the funds available to the Forest Service, up to $2,250,000 may be advanced in a lump sum as Federal financial assistance to the National Forest Foundation, without regard to when the Foundation incurs expenses, for administrative expenses or projects on or benefitting National Forest System lands or related to Forest Service programs: Provided, That of the Federal funds made available to the Foundation, no more than $400,000 shall be available for administrative expenses: Provided further, That the Foundation shall obtain, by the end of the period of Federal financial assistance, private contributions to match on at least one-for-one basis funds made available by the Forest Service: Provided further, That the Foundation may transfer Federal funds to a non-Federal recipient for a project at the same rate that the recipient has obtained the non-Federal matching funds: Provided further, That hereafter, the National Forest Foundation may hold Federal funds made available but not immediately disbursed and may use any interest or other investment income earned (before, on, or after the date of the enactment of this Act) on Federal funds to carry out the purposes of Public Law 101–593: Provided further, That such investments may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States.

Pursuant to section 2(b)(2) of Public Law 98–244, $2,650,000 of the funds available to the Forest Service shall be available for matching funds to the National Fish and Wildlife Foundation, as authorized by 16 U.S.C. 3701–3709, and may be advanced in a lump sum as Federal financial assistance, without regard to when expenses are incurred, for projects on or benefitting National Forest System lands or related to Forest Service programs: Provided, That the Foundation shall obtain, by the end of the period of Federal financial assistance, private contributions to match on at least one-for-one basis funds advanced by the Forest Service: Provided further, That the Foundation may transfer Federal funds to a non-Federal recipient for a project at the same rate that the recipient has obtained the non-Federal matching funds.

Funds appropriated to the Forest Service shall be available for interactions with and providing technical assistance to rural communities for sustainable rural development purposes.

Notwithstanding any other provision of law, 80 percent of the funds appropriated to the Forest Service in the ''National Forest System'' and ''Capital Improvement and Maintenance'' accounts and planned to be allocated to activities under the ''Jobs in the Woods'' program for projects on National Forest land in the State of Washington may be granted directly to the Washington State Department of Fish and Wildlife for accomplishment of planned projects. Twenty percent of said funds shall be retained by the Forest Service for planning and administering projects. Project selection and prioritization shall be accomplished by the Forest Service with such consultation with the State of Washington as the Forest Service deems appropriate.

Funds appropriated to the Forest Service shall be available for payments to counties within the Columbia River Gorge National Scenic Area, pursuant to sections 14(c)(1) and (2), and section 16(a)(2) of Public Law 99–663.

The Secretary of Agriculture is authorized to enter into grants, contracts, and cooperative agreements as appropriate with the Pinchot Institute for Conservation, as well as with public and other private agencies, organizations, institutions, and individuals, to provide for the development, administration, maintenance, or restoration of land, facilities, or Forest Service programs, at the Grey Towers National Historic Landmark: Provided, That, subject to such terms and conditions as the Secretary of Agriculture may prescribe, any such public or private agency, organization, institution, or individual may solicit, accept, and administer private gifts of money and real or personal property for the benefit of, or in connection with, the activities and services at the Grey Towers National Historic Landmark: Provided further, That such gifts may be accepted notwithstanding the fact that a donor conducts business with the Department of Agriculture in any capacity.

Funds appropriated to the Forest Service shall be available, as determined by the Secretary, for payments to Del Norte County, California, pursuant to sections 13(e) and 14 of the Smith River National Recreation Area Act (Public Law 101–612).

Notwithstanding any other provision of law, any appropriations or funds available to the Forest Service not to exceed $500,000 may be used to reimburse the Office of the General Counsel (OGC), Department of Agriculture, for travel and related expenses incurred as a result of OGC assistance or participation requested by the Forest Service at meetings, training sessions, management reviews, land purchase negotiations and similar non-litigation related matters. Future budget justifications for both the Forest Service and the Department of Agriculture should clearly display the sums previously transferred and the requested funding transfers.

No employee of the Department of Agriculture may be detailed or assigned from an agency or office funded by this Act to any other agency or office of the department for more than 30 days unless the individual's employing agency or office is fully reimbursed by the receiving agency or office for the salary and expenses of the employee for the period of assignment.

The Forest Service shall fund indirect expenses, that is expenses not directly related to specific programs or to the accomplishment of specific work on-the-ground, from any funds available to the Forest Service: Provided, That the Forest Service shall implement and adhere to the definitions of indirect expenditures established pursuant to Public Law 105–277 on a nationwide basis without flexibility for modification by any organizational level except the Washington Office, and when changed by the Washington Office, such changes in definition shall be reported in budget requests submitted by the Forest Service: Provided further, That the Forest Service shall provide in all future budget justifications, planned indirect expenditures in accordance with the definitions, summarized and displayed to the Regional, Station, Area, and detached unit office level. The justification shall display the estimated source and amount of indirect expenditures, by expanded budget line item, of funds in the agency's annual budget justification. The display shall include appropriated funds and the Knutson-Vandenberg, Brush Disposal, Cooperative Work-Other, and Salvage Sale funds. Changes between estimated and actual indirect expenditures shall be reported in subsequent budget justifications: Provided, That during fiscal year 2001 the Secretary shall limit total annual indirect obligations from the Brush Disposal, Knutson-Vandenberg, Reforestation, Salvage Sale, and Roads and Trails funds to 20 percent of the total obligations from each fund. Obligations in excess of 20 percent which would otherwise be charged to the above funds may be charged to appropriated funds available to the Forest Service subject to notification of the Committees on Appropriations of the House and Senate.

Any appropriations or funds available to the Forest Service may be used for necessary expenses in the event of law enforcement emergencies as necessary to protect natural resources and public or employee safety: Provided, That such amounts shall not exceed $750,000.

Section 551 of the Land Between the Lakes Protection Act of 1998 (16 U.S.C. 460lll–61) is amended by adding at the end the following new subsection:

''(c) TRANSITION.—Until September 30, 2002, the Secretary of Agriculture may expend amounts appropriated or otherwise made available to carry out this title in a manner consistent with the authorities exercised by the Tennessee Valley Authority, before the transfer of the Recreation Area to the administrative jurisdiction of the Secretary, regarding procurement of property, services, supplies, and equipment.''.

The Secretary of Agriculture shall pay $4,449 from available funds to Joyce Liverca as reimbursement for various expenses incurred as a Federal employee in connection with certain high priority duties performed for the Forest Service.

The Secretary of Agriculture may authorize the sale of excess buildings, facilities, and other properties owned by the Forest Service and located on the Green Mountain National Forest, the revenues of which shall be retained by the Forest Service and available to the Secretary without further appropriation and until expended for maintenance and rehabilitation activities on the Green Mountain National Forest.

DEPARTMENT OF ENERGY

CLEAN COAL TECHNOLOGY

(DEFERRAL)

Of the funds made available under this heading for obligation in prior years, $67,000,000 shall not be available until October 1, 2001: Provided, That funds made available in previous appropriations Acts shall be available for any ongoing project regardless of the separate request for proposal under which the project was selected.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

(INCLUDING TRANSFERS OF FUNDS)

For necessary expenses in carrying out fossil energy research and development activities, under the authority of the Department of Energy Organization Act (Public Law 95–91), including the acquisition of interest, including defeasible and equitable interests in any real property or any facility or for plant or facility acquisition or expansion, and for conducting inquiries, technological investigations and research concerning the extraction, processing, use, and disposal of mineral substances without objectionable social and environmental costs (30 U.S.C. 3, 1602, and 1603), performed under the minerals and materials science programs at the

Albany Research Center in Oregon $540,653,000, to remain available until expended, of which $12,000,000 for oil technology research shall be derived by transfer from funds appropriated in prior years under the heading ''Strategic Petroleum Reserve, SPR Petroleum Account'' and of which $95,000,000 shall be derived by transfer from funds appropriated in prior years under the heading ''Clean Coal Technology'', such funds to be available for a general request for proposals for the commercial scale demonstration of technologies to assure the reliability of the Nation's energy supply from existing and new electric generating facilities for which the Department of Energy upon review may provide financial assistance awards: Provided, That the request for proposals shall be issued no later than one hundred and twenty days following enactment of this Act, proposals shall be submitted no later than ninety days after the issuance of the request for proposals, and the Department of Energy shall make project selections no later than one hundred and sixty days after the receipt of proposals: Provided further, That no funds are to be obligated for selected proposals prior to September 30, 2001: Provided further, That funds provided shall be expended only in accordance with the provisions governing the use of funds contained under the heading under which they were originally appropriated: Provided further, That provisions for repayment of government contributions to individual projects shall be identical to those included in the Program Opportunity Notice (Solicitation Number DE–PS01–89FE 61825), issued by the Department of Energy on May 1, 1989, except that repayments from sale or licensing of technologies shall be from both domestic and foreign transactions: Provided further, That such repayments shall be deposited in this account to be retained for future projects: Provided further, That any project approved under this program shall be considered a Clean Coal Technology Demonstration Project, for the purposes of Chapters 51, 52, and 60 of title 40 of the Code of Federal Regulations: Provided further, That no part of the sum herein made available shall be used for the field testing of nuclear explosives in the recovery of oil and gas: Provided further, That up to 4 percent of program direction funds available to the National Energy Technology Laboratory may be used to support Department of Energy activities not included in this account.

ALTERNATIVE FUELS PRODUCTION

(RESCISSION)

Of the unobligated balances under this heading, $1,000,000 are rescinded.

NAVAL PETROLEUM AND OIL SHALE RESERVES

For expenses necessary to carry out engineering studies to determine the cost of development, the predicted rate and quantity of petroleum recovery, the methodology, and the equipment specifications for development of Shannon Formation at Naval Petroleum Reserve Numbered 3 (NPR–3), utilizing a below-the-reservoir production method, $1,600,000, to remain available until expended: Provided, That the requirements of 10 U.S.C. 7430(b)(2)(B) shall not apply to fiscal year 2001 and any fiscal year thereafter: Provided further, That, notwithstanding any other provision of law, unobligated funds remaining from prior years shall be available for all naval petroleum and oil shale reserve activities.

ELK HILLS SCHOOL LANDS FUND

For necessary expenses in fulfilling installment payments under the Settlement Agreement entered into by the United States and the State of California on October 11, 1996, as authorized by section 3415 of Public Law 104–106, $36,000,000, to become available on October 1, 2001 for payment to the State of California for the State Teachers' Retirement Fund from the Elk Hills School Lands Fund.

ENERGY CONSERVATION

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses in carrying out energy conservation activities, $816,940,000, to remain available until expended, of which $2,000,000 shall be derived by transfer from unobligated balances in the Biomass Energy Development account: Provided, That $191,000,000 shall be for use in energy conservation programs as defined in section 3008(3) of Public Law 99–509 (15 U.S.C. 4507): Provided further, That notwithstanding section 3003(d)(2) of Public Law 99–509, such sums shall be allocated to the eligible programs as follows: $153,000,000 for weatherization assistance grants and $38,000,000 for State energy conservation grants: Provided further, That notwithstanding any other provision of law, the Secretary of Energy may waive up to fifty percent of the cost-sharing requirement for weatherization assistance provided for by Public Law 106–113 for a State which he finds to be experiencing fiscal hardship or major changes in energy markets or suppliers or other temporary limitations on its ability to provide matching funds, provided that the State is demonstrably engaged in continuing activities to secure nonfederal resources and that such waiver is limited to one fiscal year and that no state may be granted such waiver more than twice: Provided further, That, hereafter, Indian tribal direct grantees of weatherization assistance shall not be required to provide matching funds.

ECONOMIC REGULATION

For necessary expenses in carrying out the activities of the Office of Hearings and Appeals, $2,000,000, to remain available until expended.

STRATEGIC PETROLEUM RESERVE

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses for Strategic Petroleum Reserve facility development and operations and program management activities pursuant to the Energy Policy and Conservation Act of 1975, as amended (42 U.S.C. 6201 et seq.), $165,000,000, to remain available until expended, of which $4,000,000 shall be derived by transfer of unobligated balances of funds previously appropriated under the heading ''SPR Petroleum Account'', and of which $8,000,000 shall be available for maintenance of a Northeast Home Heating Oil Reserve.

ENERGY INFORMATION ADMINISTRATION

For necessary expenses in carrying out the activities of the Energy Information Administration, $75,675,000, to remain available until expended.

ADMINISTRATIVE PROVISIONS, DEPARTMENT OF ENERGY

Appropriations under this Act for the current fiscal year shall be available for hire of passenger motor vehicles; hire, maintenance, and operation of aircraft; purchase, repair, and cleaning of uniforms; and reimbursement to the General Services Administration for security guard services.

From appropriations under this Act, transfers of sums may be made to other agencies of the Government for the performance of work for which the appropriation is made.

None of the funds made available to the Department of Energy under this Act shall be used to implement or finance authorized price support or loan guarantee programs unless specific provision is made for such programs in an appropriations Act.

The Secretary is authorized to accept lands, buildings, equipment, and other contributions from public and private sources and to prosecute projects in cooperation with other agencies, Federal, State, private or foreign: Provided, That revenues and other moneys received by or for the account of the Department of Energy or otherwise generated by sale of products in connection with projects of the Department appropriated under this Act may be retained by the Secretary of Energy, to be available until expended, and used only for plant construction, operation, costs, and payments to cost-sharing entities as provided in appropriate cost-sharing contracts or agreements: Provided further, That the remainder of revenues after the making of such payments shall be covered into the Treasury as miscellaneous receipts: Provided further, That any contract, agreement, or provision thereof entered into by the Secretary pursuant to this authority shall not be executed prior to the expiration of 30 calendar days (not including any day in which either House of Congress is not in session because of adjournment of more than three calendar days to a day certain) from the receipt by the Speaker of the House of Representatives and the President of the Senate of a full comprehensive report on such project, including the facts and circumstances relied upon in support of the proposed project.

No funds provided in this Act may be expended by the Department of Energy to prepare, issue, or process procurement documents for programs or projects for which appropriations have not been made.

In addition to other authorities set forth in this Act, the Secretary may accept fees and contributions from public and private sources, to be deposited in a contributed funds account, and prosecute projects using such fees and contributions in cooperation with other Federal, State or private agencies or concerns.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE

INDIAN HEALTH SERVICES

For expenses necessary to carry out the Act of August 5, 1954 (68 Stat. 674), the Indian Self-Determination Act, the Indian Health Care Improvement Act, and titles II and III of the Public Health Service Act with respect to the Indian Health Service, $2,240,658,000, together with payments received during the fiscal year pursuant to 42 U.S.C. 238(b) for services furnished by the Indian Health Service: Provided, That funds made available to tribes and tribal organizations through contracts, grant agreements, or any other agreements or compacts authorized by the Indian Self-Determination and Education Assistance Act of 1975 (25 U.S.C. 450), shall be deemed to be obligated at the time of the grant or contract award and thereafter shall remain available to the tribe or tribal organization without fiscal year limitation: Provided further, That $15,000,000 shall remain available until expended, for the Indian Catastrophic Health Emergency Fund: Provided further, That $431,756,000 for contract medical care shall remain available for obligation until September 30, 2002: Provided further, That of the funds provided, up to $22,000,000 shall be used to carry out the loan repayment program under section 108 of the Indian Health Care Improvement Act: Provided further, That funds provided in this Act may be used for one-year contracts and grants which are to be performed in two fiscal years, so long as the total obligation is recorded in the year for which the funds are appropriated: Provided further, That the amounts collected by the Secretary of Health and Human Services under the authority of title IV of the Indian Health Care Improvement Act shall remain available until expended for the purpose of achieving compliance with the applicable conditions and requirements of titles XVIII and XIX of the Social Security Act (exclusive of planning, design, or construction of new facilities): Provided further, That funding contained herein, and in any earlier appropriations Acts for scholarship programs under the Indian Health

Care Improvement Act (25 U.S.C. 1613) shall remain available for obligation until September 30, 2002: Provided further, That amounts received by tribes and tribal organizations under title IV of the Indian Health Care Improvement Act shall be reported and accounted for and available to the receiving tribes and tribal organizations until expended: Provided further, That, notwithstanding any other provision of law, of the amounts provided herein, not to exceed $248,781,000 shall be for payments to tribes and tribal organizations for contract or grant support costs associated with contracts, grants, self-governance compacts or annual funding agreements between the Indian Health Service and a tribe or tribal organization pursuant to the Indian Self-Determination Act of 1975, as amended, prior to or during fiscal year 2001, of which not to exceed $10,000,000 may be used for such costs associated with new and expanded contracts, grants, self-governance compacts or annual funding agreements: Provided further, That funds available for the Indian Health Care Improvement Fund may be used, as needed, to carry out activities typically funded under the Indian Health Facilities account.

INDIAN HEALTH FACILITIES

For construction, repair, maintenance, improvement, and equipment of health and related auxiliary facilities, including quarters for personnel; preparation of plans, specifications, and drawings; acquisition of sites, purchase and erection of modular buildings, and purchases of trailers; and for provision of domestic and community sanitation facilities for Indians, as authorized by section 7 of the Act of August 5, 1954 (42 U.S.C. 2004a), the Indian Self-Determination Act, and the Indian Health Care Improvement Act, and for expenses necessary to carry out such Acts and titles II and III of the Public Health Service Act with respect to environmental health and facilities support activities of the Indian Health Service, $363,904,000, to remain available until expended: Provided, That notwithstanding any other provision of law, funds appropriated for the planning, design, construction or renovation of health facilities for the benefit of an Indian tribe or tribes may be used to purchase land for sites to construct, improve, or enlarge health or related facilities: Provided further, That from the funds appropriated herein, $5,000,000 shall be designated by the Indian Health Service as a contribution to the Yukon-Kuskokwim Health Corporation (YKHC) to start a priority project for the acquisition of land, planning, design and construction of 79 staff quarters at Bethel, Alaska, subject to a negotiated project agreement between the YKHC and the Indian Health Service: Provided further, That this project shall not be subject to the construction provisions of the Indian Self-Determination and Education Assistance Act and shall be removed from the Indian Health Service priority list upon completion: Provided further, That the Federal Government shall not be liable for any property damages or other construction claims that may arise from YKHC undertaking this project: Provided further, That the land shall be owned or leased by the YKHC and title to quarters shall remain vested with the YKHC: Provided further, That notwithstanding any provision of law governing Federal construction, $2,240,000 of the funds provided herein shall be provided to the Hopi Tribe to reduce the debt incurred by the Tribe in providing staff quarters to meet the housing needs associated with the new Hopi Health Center: Provided further, That $5,000,000 shall remain available until expended for the purpose of funding joint venture health care facility projects authorized under the Indian Health Care Improvement Act, as amended: Provided further, That priority, by rank order, shall be given to tribes with outpatient projects on the existing Indian Health Services priority list that have Service-approved planning documents, and can demonstrate by March 1, 2001, the financial capability necessary to provide an appropriate facility: Provided further, That joint venture funds unallocated after March 1, 2001, shall be made available for joint venture projects on a competitive basis giving priority to tribes that currently have no existing Federally-owned health care facility, have planning documents meeting Indian Health Service requirements prepared for approval by the Service and can demonstrate the financial capability needed to provide an appropriate facility: Provided further, That the Indian Health Service shall request additional staffing, operation and maintenance funds for these facilities in future budget requests: Provided further, That not to exceed $500,000 shall be used by the Indian Health Service to purchase TRANSAM equipment from the Department of Defense for distribution to the Indian Health Service and tribal facilities: Provided further, That not to exceed $500,000 shall be used by the Indian Health Service to obtain ambulances for the Indian Health Service and tribal facilities in conjunction with an existing interagency agreement between the Indian Health Service and the General Services Administration: Provided further, That not to exceed $500,000 shall be placed in a Demolition Fund, available until expended, to be used by the Indian Health Service for demolition of Federal buildings: Provided further, That notwithstanding the provisions of title III, section 306, of the Indian Health Care Improvement Act (Public Law 94–437, as amended), construction contracts authorized under title I of the Indian Self-Determination and Education Assistance Act of 1975, as amended, may be used rather than grants to fund small ambulatory facility construction projects: Provided further, That if a contract is used, the IHS is authorized to improve municipal, private, or tribal lands, and that at no time, during construction or after completion of the project will the Federal Government have any rights or title to any real or personal property acquired as a part of the contract.

ADMINISTRATIVE PROVISIONS, INDIAN HEALTH SERVICE

Appropriations in this Act to the Indian Health Service shall be available for services as authorized by 5 U.S.C. 3109 but at rates not to exceed the per diem rate equivalent to the maximum rate payable for senior-level positions under 5 U.S.C. 5376; hire of passenger motor vehicles and aircraft; purchase of medical equipment; purchase of reprints; purchase, renovation and erection of modular buildings and renovation of existing facilities; payments for telephone service in private residences in the field, when authorized under regulations approved by the Secretary; and for uniforms or allowances therefore as authorized by 5 U.S.C. 5901–5902; and for expenses of attendance at meetings which are concerned with the functions or activities for which the appropriation is made or which will contribute to improved conduct, supervision, or management of those functions or activities: Provided, That in accordance with the provisions of the Indian Health Care Improvement Act, non-Indian patients may be extended health care at all tribally administered or Indian Health Service facilities, subject to charges, and the proceeds along with funds recovered under the Federal Medical Care Recovery Act (42 U.S.C. 2651–2653) shall be credited to the account of the facility providing the service and shall be available without fiscal year limitation: Provided further, That notwithstanding any other law or regulation, funds transferred from the Department of Housing and Urban Development to the Indian Health Service shall be administered under Public Law 86–121 (the Indian Sanitation Facilities Act) and Public Law 93–638, as amended: Provided further, That funds appropriated to the Indian Health Service in this Act, except those used for administrative and program direction purposes, shall not be subject to limitations directed at curtailing Federal travel and transportation: Provided further, That notwithstanding any other provision of law, funds previously or herein made available to a tribe or tribal organization through a contract, grant, or agreement authorized by title I or title III of the Indian Self-Determination and Education Assistance Act of 1975 (25 U.S.C. 450), may be deobligated and reobligated to a self-determination contract under title I, or a self-governance agreement under title III of such Act and thereafter shall remain available to the tribe or tribal organization without fiscal year limitation: Provided further, That none of the funds made available to the Indian Health Service in this Act shall be used to implement the final rule published in the Federal Register on September 16, 1987, by the Department of Health and Human Services, relating to the eligibility for the health care services of the Indian Health Service until the Indian Health Service has submitted a budget request reflecting the increased costs associated with the proposed final rule, and such request has been included in an appropriations Act and enacted into law: Provided further, That funds made available in this Act are to be apportioned to the Indian Health Service as appropriated in this Act, and accounted for in the appropriation structure set forth in this Act: Provided further, That with respect to functions transferred by the Indian Health Service to tribes or tribal organizations, the Indian Health Service is authorized to provide goods and services to those entities, on a reimbursable basis, including payment in advance with subsequent adjustment, and the reimbursements received therefrom, along with the funds received from those entities pursuant to the Indian Self-Determination Act, may be credited to the same or subsequent appropriation account which provided the funding, said amounts to remain available until expended: Provided further, That reimbursements for training, technical assistance, or services provided by the Indian Health Service will contain total costs, including direct, administrative, and overhead associated with the provision of goods, services, or technical assistance: Provided further, That the appropriation structure for the Indian Health Service may not be altered without advance approval of the House and Senate Committees on Appropriations.

OTHER RELATED AGENCIES

OFFICE OF NAVAJO AND HOPI INDIAN RELOCATION

SALARIES AND EXPENSES

For necessary expenses of the Office of Navajo and Hopi Indian Relocation as authorized by Public Law 93–531, $15,000,000, to remain available until expended: Provided, That funds provided in this or any other appropriations Act are to be used to relocate eligible individuals and groups including evictees from District 6, Hopi-partitioned lands residents, those in significantly substandard housing, and all others certified as eligible and not included in the preceding categories: Provided further, That none of the funds contained in this or any other Act may be used by the Office of Navajo and Hopi Indian Relocation to evict any single Navajo or Navajo family who, as of November 30, 1985, was physically domiciled on the lands partitioned to the Hopi Tribe unless a new or replacement home is provided for such household: Provided further, That no relocatee will be provided with more than one new or replacement home: Provided further, That the Office shall relocate any certified eligible relocatees who have selected

and received an approved homesite on the Navajo reservation or selected a replacement residence off the Navajo reservation or on the land acquired pursuant to 25 U.S.C. 640d–10.

INSTITUTE OF AMERICAN INDIAN AND ALASKA NATIVE CULTURE AND ARTS DEVELOPMENT

PAYMENT TO THE INSTITUTE

For payment to the Institute of American Indian and Alaska Native Culture and Arts Development, as authorized by title XV of Public Law 99–498, as amended (20 U.S.C. 56 part A), $4,125,000.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES

For necessary expenses of the Smithsonian Institution, as authorized by law, including research in the fields of art, science, and history; development, preservation, and documentation of the National Collections; presentation of public exhibits and performances; collection, preparation, dissemination, and exchange of information and publications; conduct of education, training, and museum assistance programs; maintenance, alteration, operation, lease (for terms not to exceed 30 years), and protection of buildings, facilities, and approaches; not to exceed $100,000 for services as authorized by 5 U.S.C. 3109; up to five replacement passenger vehicles; purchase, rental, repair, and cleaning of uniforms for employees, $387,755,000, of which not to exceed $47,088,000 for the instrumentation program, collections acquisition, Museum Support Center equipment and move, exhibition reinstallation, the National Museum of the American Indian, the repatriation of skeletal remains program, research equipment, information management, and Latino programming shall remain available until expended, and including such funds as may be necessary to support American overseas research centers and a total of $125,000 for the Council of American Overseas Research Centers: Provided, That funds appropriated herein are available for advance payments to independent contractors performing research services or participating in official Smithsonian presentations: Provided further, That the Smithsonian Institution may expend Federal appropriations designated in this Act for lease or rent payments for long term and swing space, as rent payable to the Smithsonian Institution, and such rent payments may be deposited into the general trust funds of the Institution to the extent that federally supported activities are housed in the 900 H Street, N.W. building in the District of Columbia: Provided further, That this use of Federal appropriations shall not be construed as debt service, a Federal guarantee of, a transfer of risk to, or an obligation of, the Federal Government: Provided further, That no appropriated funds may be used to service debt which is incurred to finance the costs of acquiring the 900 H Street building or of planning, designing, and constructing improvements to such building.

REPAIR, RESTORATION AND ALTERATION OF FACILITIES

For necessary expenses of repair, restoration, and alteration of facilities owned or occupied by the Smithsonian Institution, by contract or otherwise, as authorized by section 2 of the Act of August 22, 1949 (63 Stat. 623), including not to exceed $10,000 for services as authorized by 5 U.S.C. 3109, $57,600,000, to remain available until expended, of which $7,600,000 is provided for repair, rehabilitation and alteration of facilities at the National Zoological Park: Provided, That contracts awarded for environmental systems, protection systems, and repair or restoration of facilities of the Smithsonian Institution may be negotiated with selected contractors and awarded on the basis of contractor qualifications as well as price.

CONSTRUCTION

For necessary expenses for construction, $9,500,000, to remain available until expended.

ADMINISTRATIVE PROVISIONS, SMITHSONIAN INSTITUTION

None of the funds in this or any other Act may be used to initiate the design for any proposed expansion of current space or new facility without consultation with the House and Senate Appropriations Committees.

The Smithsonian Institution shall not use Federal funds in excess of the amount specified in Public Law 101–185 for the construction of the National Museum of the American Indian.

None of the funds in this or any other Act may be used for the Holt House located at the National Zoological Park in Washington, D.C., unless identified as repairs to minimize water damage, monitor structure movement, or provide interim structural support.

NATIONAL GALLERY OF ART

SALARIES AND EXPENSES

For the upkeep and operations of the National Gallery of Art, the protection and care of the works of art therein, and administrative expenses incident thereto, as authorized by the Act of March 24, 1937 (50 Stat. 51), as amended by the public resolution of April 13, 1939 (Public Resolution 9, Seventy-sixth Congress), including services as authorized by 5 U.S.C. 3109; payment in advance when authorized by the treasurer of the Gallery for membership in library, museum, and art associations or societies whose publications or services are available to members only, or to members at a price lower than to the general public; purchase, repair, and cleaning of uniforms for guards, and uniforms, or allowances therefor, for other employees as authorized by law (5 U.S.C. 5901–5902); purchase or rental of devices and services for protecting buildings and contents thereof, and maintenance, alteration, improvement, and repair of buildings, approaches, and grounds; and purchase of services for restoration and repair of works of art for the National Gallery of Art by contracts made, without advertising, with individuals, firms, or organizations at such rates or prices and under such terms and conditions as the Gallery may deem proper, $64,781,000, of which not to exceed $3,026,000 for the special exhibition program shall remain available until expended.

REPAIR, RESTORATION AND RENOVATION OF BUILDINGS

For necessary expenses of repair, restoration and renovation of buildings, grounds and facilities owned or occupied by the National Gallery of Art, by contract or otherwise, as authorized, $10,871,000, to remain available until expended: Provided, That contracts awarded for environmental systems, protection systems, and exterior repair or renovation of buildings of the National Gallery of Art may be negotiated with selected contractors and awarded on the basis of contractor qualifications as well as price.

JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS

OPERATIONS AND MAINTENANCE

For necessary expenses for the operation, maintenance and security of the John F. Kennedy Center for the Performing Arts, $14,000,000.

CONSTRUCTION

For necessary expenses for capital repair and restoration of the existing features of the building and site of the John F. Kennedy Center for the Performing Arts, $20,000,000, to remain available until expended.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

SALARIES AND EXPENSES

For expenses necessary in carrying out the provisions of the Woodrow Wilson Memorial Act of 1968 (82 Stat. 1356) including hire of passenger vehicles and services as authorized by 5 U.S.C. 3109, $7,310,000.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

For necessary expenses to carry out the National Foundation on the Arts and the Humanities Act of 1965, as amended, $98,000,000 shall be available to the National Endowment for the Arts for the support of projects and productions in the arts through assistance to organizations and individuals pursuant to sections 5(c) and 5(g) of the Act, for program support, and for administering the functions of the Act, to remain available until expended: Provided, That funds previously appropriated to the National Endowment for the Arts ''Matching Grants'' account may be transferred to and merged with this account.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

For necessary expenses to carry out the National Foundation on the Arts and the Humanities Act of 1965, as amended, $104,604,000, shall be available to the National Endowment for the Humanities for support of activities in the humanities, pursuant to section 7(c) of the Act, and for administering the functions of the Act, to remain available until expended.

MATCHING GRANTS

To carry out the provisions of section 10(a)(2) of the National Foundation on the Arts and the Humanities Act of 1965, as amended, $15,656,000, to remain available until expended, of which $11,656,000 shall be available to the National Endowment for the Humanities for the purposes of section 7(h): Provided, That this appropriation shall be available for obligation only in such amounts as may be equal to the total amounts of gifts, bequests, and devises of money, and other property accepted by the chairman or by grantees of the Endowment under the provisions of subsections 11(a)(2)(B) and 11(a)(3)(B) during the current and preceding fiscal years for which equal amounts have not previously been appropriated.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES

OFFICE OF MUSEUM SERVICES

GRANTS AND ADMINISTRATION

For carrying out subtitle C of the Museum and Library Services Act of 1996, as amended, $24,907,000, to remain available until expended.

ADMINISTRATIVE PROVISIONS

None of the funds appropriated to the National Foundation on the Arts and the Humanities may be used to process any grant or contract documents which do not include the text of 18 U.S.C. 1913: Provided, That none of the funds appropriated to the National Foundation on the Arts and the Humanities may be used for official reception and representation expenses: Provided further, That funds from nonappropriated sources may be used as necessary for official reception and representation expenses.

CHALLENGE AMERICA ARTS FUND

CHALLENGE AMERICA GRANTS

For necessary expenses as authorized by Public Law 89–209, as amended, $7,000,000 for support for arts education and public outreach activities to be administered by the National Endowment for the Arts, to remain available until expended.

COMMISSION OF FINE ARTS

SALARIES AND EXPENSES

For expenses made necessary by the Act establishing a Commission of Fine Arts (40 U.S.C. 104), $1,078,000: Provided, That the Commission is authorized to charge fees to cover the full

costs of its publications, and such fees shall be credited to this account as an offsetting collection, to remain available until expended without further appropriation.

NATIONAL CAPITAL ARTS AND CULTURAL AFFAIRS

For necessary expenses as authorized by Public Law 99–190 (20 U.S.C. 956(a)), as amended, $7,000,000.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

SALARIES AND EXPENSES

For necessary expenses of the Advisory Council on Historic Preservation (Public Law 89–665, as amended), $3,189,000: Provided, That none of these funds shall be available for compensation of level V of the Executive Schedule or higher positions.

NATIONAL CAPITAL PLANNING COMMISSION

SALARIES AND EXPENSES

For necessary expenses, as authorized by the National Capital Planning Act of 1952 (40 U.S.C. 71–71i), including services as authorized by 5 U.S.C. 3109, $6,500,000: Provided, That all appointed members of the Commission will be compensated at a rate not to exceed the daily equivalent of the annual rate of pay for positions at level IV of the Executive Schedule for each day such member is engaged in the actual performance of duties.

UNITED STATES HOLOCAUST MEMORIAL COUNCIL

HOLOCAUST MEMORIAL COUNCIL

For expenses of the Holocaust Memorial Council, as authorized by Public Law 96–388 (36 U.S.C. 1401), as amended, $34,439,000, of which $1,900,000 for the museum's repair and rehabilitation program and $1,264,000 for the museum's exhibitions program shall remain available until expended.

PRESIDIO TRUST

PRESIDIO TRUST FUND

For necessary expenses to carry out title I of the Omnibus Parks and Public Lands Management Act of 1996, $23,400,000 shall be available to the Presidio Trust, to remain available until expended. The Trust is authorized to issue obligations to the Secretary of the Treasury pursuant to section 104(d)(3) of the Act, in an amount not to exceed $10,000,000.

TITLE III—GENERAL PROVISIONS

SEC. 301. The expenditure of any appropriation under this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

SEC. 302. No part of any appropriation under this Act shall be available to the Secretary of the Interior or the Secretary of Agriculture for the leasing of oil and natural gas by noncompetitive bidding on publicly owned lands within the boundaries of the Shawnee National Forest, Illinois: Provided, That nothing herein is intended to inhibit or otherwise affect the sale, lease, or right to access to minerals owned by private individuals.

SEC. 303. No part of any appropriation contained in this Act shall be available for any activity or the publication or distribution of literature that in any way tends to promote public support or opposition to any legislative proposal on which congressional action is not complete.

SEC. 304. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 305. None of the funds provided in this Act to any department or agency shall be obligated or expended to provide a personal cook, chauffeur, or other personal servants to any officer or employee of such department or agency except as otherwise provided by law.

SEC. 306. No assessments may be levied against any program, budget activity, subactivity, or project funded by this Act unless advance notice of such assessments and the basis therefor are presented to the Committees on Appropriations and are approved by such committees.

SEC. 307. None of the funds in this Act may be used to plan, prepare, or offer for sale timber from trees classified as giant sequoia (Sequoiadendron giganteum) which are located on National Forest System or Bureau of Land Management lands in a manner different than such sales were conducted in fiscal year 2000.

SEC. 308. None of the funds made available by this Act may be obligated or expended by the National Park Service to enter into or implement a concession contract which permits or requires the removal of the underground lunchroom at the Carlsbad Caverns National Park.

SEC. 309. None of the funds appropriated or otherwise made available by this Act may be used for the AmeriCorps program, unless the relevant agencies of the Department of the Interior and/or Agriculture follow appropriate reprogramming guidelines: Provided, That if no funds are provided for the AmeriCorps program by the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2001, then none of the funds appropriated or otherwise made available by this Act may be used for the AmeriCorps programs.

SEC. 310. None of the funds made available in this Act may be used: (1) to demolish the bridge between Jersey City, New Jersey, and Ellis Island; or (2) to prevent pedestrian use of such bridge, when it is made known to the Federal official having authority to obligate or expend such funds that such pedestrian use is consistent with generally accepted safety standards.

SEC. 311. (a) LIMITATION OF FUNDS.—None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to accept or process applications for a patent for any mining or mill site claim located under the general mining laws.

(b) EXCEPTIONS.—The provisions of subsection (a) shall not apply if the Secretary of the Interior determines that, for the claim concerned: (1) a patent application was filed with the Secretary on or before September 30, 1994; and (2) all requirements established under sections 2325 and 2326 of the Revised Statutes (30 U.S.C. 29 and 30) for vein or lode claims and sections 2329, 2330, 2331, and 2333 of the Revised Statutes (30 U.S.C. 35, 36, and 37) for placer claims, and section 2337 of the Revised Statutes (30 U.S.C. 42) for mill site claims, as the case may be, were fully complied with by the applicant by that date.

(c) REPORT.—On September 30, 2001, the Secretary of the Interior shall file with the House and Senate Committees on Appropriations and the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on actions taken by the Department under the plan submitted pursuant to section 314(c) of the Department of the Interior and Related Agencies Appropriations Act, 1997 (Public Law 104–208).

(d) MINERAL EXAMINATIONS.—In order to process patent applications in a timely and responsible manner, upon the request of a patent applicant, the Secretary of the Interior shall allow the applicant to fund a qualified third-party contractor to be selected by the Bureau of Land Management to conduct a mineral examination of the mining claims or mill sites contained in a patent application as set forth in subsection (b). The Bureau of Land Management shall have the sole responsibility to choose and pay the third-party contractor in accordance with the standard procedures employed by the Bureau of Land Management in the retention of third-party contractors.

SEC. 312. Notwithstanding any other provision of law, amounts appropriated to or earmarked in committee reports for the Bureau of Indian Affairs and the Indian Health Service by Public Laws 103–138, 103–332, 104–134, 104–208, 105–83, 105–277, and 106–113 for payments to tribes and tribal organizations for contract support costs associated with self-determination or self-governance contracts, grants, compacts, or annual funding agreements with the Bureau of Indian Affairs or the Indian Health Service as funded by such Acts, are the total amounts available for fiscal years 1994 through 2000 for such purposes, except that, for the Bureau of Indian Affairs, tribes and tribal organizations may use their tribal priority allocations for unmet indirect costs of ongoing contracts, grants, self-governance compacts or annual funding agreements.

SEC. 313. Notwithstanding any other provision of law, for fiscal year 2001 the Secretaries of Agriculture and the Interior are authorized to limit competition for watershed restoration project contracts as part of the ''Jobs in the Woods'' component of the President's Forest Plan for the Pacific Northwest or the Jobs in the Woods Program established in Region 10 of the Forest Service to individuals and entities in historically timber-dependent areas in the States of Washington, Oregon, northern California and Alaska that have been affected by reduced timber harvesting on Federal lands. The Secretaries shall consider the benefits to the local economy in evaluating bids and designing procurements which create economic opportunities for local contractors.

SEC. 314. None of the funds collected under the Recreational Fee Demonstration program may be used to plan, design, or construct a visitor center or any other permanent structure without prior approval of the House and the Senate Committees on Appropriations if the estimated total cost of the facility exceeds $500,000.

SEC. 315. All interests created under leases, concessions, permits and other agreements associated with the properties administered by the Presidio Trust, hereafter shall be exempt from all taxes and special assessments of every kind by the State of California and its political subdivisions.

SEC. 316. None of the funds made available in this or any other Act for any fiscal year may be used to designate, or to post any sign designating, any portion of Canaveral National Seashore in Brevard County, Florida, as a clothing-optional area or as an area in which public nudity is permitted, if such designation would be contrary to county ordinance.

SEC. 317. Of the funds provided to the National Endowment for the Arts—

(1) The Chairperson shall only award a grant to an individual if such grant is awarded to such individual for a literature fellowship, National Heritage Fellowship, or American Jazz Masters Fellowship.

(2) The Chairperson shall establish procedures to ensure that no funding provided through a grant, except a grant made to a State or local arts agency, or regional group, may be used to make a grant to any other organization or individual to conduct activity independent of the direct grant recipient. Nothing in this subsection shall prohibit payments made in exchange for goods and services.

(3) No grant shall be used for seasonal support to a group, unless the application is specific to the contents of the season, including identified programs and/or projects.

SEC. 318. The National Endowment for the Arts and the National Endowment for the Humanities are authorized to solicit, accept, receive, and invest in the name of the United States, gifts, bequests, or devises of money and other property or services and to use such in furtherance of the functions of the National Endowment for the Arts and the National Endowment for the Humanities. Any proceeds from such gifts, bequests, or devises, after acceptance by the National Endowment for the Arts or the National Endowment for the Humanities, shall be paid by the donor or the representative of the donor to the Chairman. The Chairman shall enter the proceeds in a special interest-bearing account to the credit of the appropriate endowment for the purposes specified in each case.

SEC. 319. (a) In providing services or awarding financial assistance under the National Foundation on the Arts and the Humanities Act of 1965 from funds appropriated under this Act, the Chairperson of the National Endowment for the Arts shall ensure that priority is given to providing services or awarding financial assistance for projects, productions, workshops, or programs that serve underserved populations.

(b) In this section:

(1) The term ''underserved population'' means a population of individuals, including urban minorities, who have historically been outside the purview of arts and humanities programs due to factors such as a high incidence of income below the poverty line or to geographic isolation.

(2) The term ''poverty line'' means the poverty line (as defined by the Office of Management and Budget, and revised annually in accordance with section 673(2) of the Community Services Block Grant Act (42 U.S.C. 9902(2))) applicable to a family of the size involved.

(c) In providing services and awarding financial assistance under the National Foundation on the Arts and Humanities Act of 1965 with funds appropriated by this Act, the Chairperson of the National Endowment for the Arts shall ensure that priority is given to providing services or awarding financial assistance for projects, productions, workshops, or programs that will encourage public knowledge, education, understanding, and appreciation of the arts.

(d) With funds appropriated by this Act to carry out section 5 of the National Foundation on the Arts and Humanities Act of 1965—

(1) the Chairperson shall establish a grant category for projects, productions, workshops, or programs that are of national impact or availability or are able to tour several States;

(2) the Chairperson shall not make grants exceeding 15 percent, in the aggregate, of such funds to any single State, excluding grants made under the authority of paragraph (1);

(3) the Chairperson shall report to the Congress annually and by State, on grants awarded by the Chairperson in each grant category under section 5 of such Act; and

(4) the Chairperson shall encourage the use of grants to improve and support community-based music performance and education.

SEC. 320. ADVISORY COMMITTEE ON FOREST COUNTIES PAYMENTS.

(a) DEFINITIONS.—In this section:

(1) ADVISORY COMMITTEE.—The term ''Advisory Committee'' means the Forest Counties Payments Committee established by this section.

(2) COMMITTEES OF JURISDICTION.—The term ''committees of jurisdiction'' means the Committee on Agriculture, the Committee on Resources, and the Committee on Appropriations of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry, the Committee on Energy and Natural Resources, and the Committee on Appropriations of the Senate.

(3) ELIGIBLE COUNTY.—The term ''eligible county'' means a county that, for one or more of the fiscal years 1986 through 1999, received—

(A) a payment under title II of the Act of August 28, 1937 (chapter 876; 50 Stat. 875; 43 U.S.C. 1181f), or the Act of May 24, 1939 (chapter 144; 53 Stat. 753; 43 U.S.C. 1181f–1 et seq.); or

(B) a portion of an eligible State's payment, as described in paragraph (4).

(4) ELIGIBLE STATE.—The term ''eligible State'' means a State that, for one or more of the fiscal years 1986 through 1999, received a payment under the sixth paragraph under the heading of ''FOREST SERVICE'' in the Act of May 23, 1908 (35 Stat. 260; 16 U.S.C. 500), or section 13 of the Act of March 1, 1911 (36 Stat. 963; 16 U.S.C. 500).

(5) FEDERAL LANDS.—The term ''Federal lands'' means the following:

(A) Lands within the National Forest System, as defined in section 11(a) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1609(a)), exclusive of the National Grasslands and land utilization projects designated as National Grasslands administered pursuant to the Act of July 22, 1937 (7 U.S.C. 1010–1012).

(B) Such portions of the Oregon and California Railroad grant lands revested in the United States by the Act of June 9, 1916 (chapter 137; 39 Stat. 218), and the Coos Bay Wagon Road grant lands reconveyed to the United States by the Act of February 26, 1919 (chapter 47; 40 Stat. 1179), as are or may hereafter come under the jurisdiction of the Secretary of the Interior, which have heretofore or may hereafter be classified as timberlands, and power-site lands valuable for timber, that shall be managed, except as provided in the former section 3 of the Act of August 28, 1937 (50 Stat. 875; 43 U.S.C. 1181c), for permanent forest production.

(6) SUSTAINABLE FORESTRY.—The term ''sustainable forestry'' means the practice of meeting the forest resource needs and values of the present without compromising the similar capability of future generations.

(b) ESTABLISHMENT OF ADVISORY COMMITTEE.—

(1) ESTABLISHMENT REQUIRED.—There is hereby established an advisory committee, to be known as the Forest Counties Payments Committee, to develop recommendations, consistent with sustainable forestry, regarding methods to ensure that States and counties in which Federal lands are situated receive adequate Federal payments to be used for the benefit of public education and other public purposes.

(2) MEMBERS.—The Advisory Committee shall be composed of the following members:

(A) The Chief of the Forest Service, or a designee of the Chief who has significant expertise in sustainable forestry.

(B) The Director of the Bureau of Land Management, or a designee of the Director who has significant expertise in sustainable forestry.

(C) The Director of the Office of Management and Budget, or the Director's designee.

(D) Two members who are elected members of the governing branches of eligible counties; one such member to be appointed by the President pro tempore of the Senate (in consultation with the chairmen and ranking members of the committees of jurisdiction of the Senate) and one such member to be appointed by the Speaker of the House of Representatives (in consultation with the chairmen and ranking members of the committees of jurisdiction of the House of Representatives) within 60 days of the date of the enactment of this Act.

(E) Two members who are elected members of school boards for, superintendents from, or teachers employed by, school districts in eligible counties; one such member to be appointed by the President pro tempore of the Senate (in consultation with the chairmen and ranking members of the committees of jurisdiction of the Senate) and one such member to be appointed by the Speaker of the House of Representatives (in consultation with the chairmen and ranking members of the committees of jurisdiction of the House of Representatives) within 60 days of the date of the enactment of this Act.

(3) GEOGRAPHIC REPRESENTATION.—In making appointments under subparagraphs (D) and (E) of paragraph (2), the President pro tempore of the Senate and the Speaker of the House of Representatives shall seek to ensure that the Advisory Committee members are selected from geographically diverse locations.

(4) ORGANIZATION OF ADVISORY COMMITTEE.—

(A) CHAIRPERSON.—The Chairperson of the Advisory Committee shall be selected from among the members appointed pursuant to subparagraphs (D) and (E) of paragraph (2).

(B) VACANCIES.—Any vacancy in the membership of the Advisory Committee shall be filled in the same manner as required by paragraph (2). A vacancy shall not impair the authority of the remaining members to perform the functions of the Advisory Committee under this section.

(C) COMPENSATION.—The members of the Advisory Committee who are not officers or employees of the United States, while attending meetings or other events held by the Advisory Committee or at which the members serve as representatives of the Advisory Committee or while otherwise serving at the request of the Chairperson of the Advisory Committee, shall each be entitled to receive compensation at a rate not in excess of the maximum rate of pay for grade GS–15, as provided in the General Schedule, including traveltime, and while away from their homes or regular places of business, shall each be reimbursed for travel expenses, including per diem in lieu of subsistence as authorized by section 5703 of title 5, United States Code, for persons in Government service employed intermittently.

(5) STAFF AND RULES.—

(A) EXECUTIVE DIRECTOR.—The Advisory Committee shall have an Executive Director, who shall be appointed by the Advisory Committee and serve at the pleasure of the Advisory Committee. The Executive Director shall report to the Advisory Committee and assume such duties as the Advisory Committee may assign. The Executive Director shall be paid at a rate not in excess of the maximum rate of pay for grade GS–15, as provided in the General Schedule.

(B) OTHER STAFF.—In addition to authority to appoint personnel subject to the provisions of title 5, United States Code, governing appointments to the competitive service, and to pay such personnel in accordance with the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, the Advisory Committee shall have authority to enter into contracts with private or public organizations which may furnish the Advisory Committee with such administrative and technical personnel as may be necessary to carry out the functions of the Advisory Committee under this section. To the extent practicable, such administrative and technical personnel, and other necessary support services, shall be provided for the Advisory Committee by the Chief of the Forest Service and the Director of the Bureau of Land Management.

(C) COMMITTEE RULES.—The Advisory Committee may establish such procedural and administrative rules as are necessary for the performance of its functions under this section.

(6) FEDERAL AGENCY COOPERATION.—The heads of the departments, agencies, and instrumentalities of the executive branch of the Federal Government shall cooperate with the Advisory Committee in the performance of its functions under this section and should furnish, as practicable, to the Advisory Committee information which the Advisory Committee deems necessary to carry out such functions.

(c) FUNCTIONS OF ADVISORY COMMITTEE.—

(1) DEVELOPMENT OF RECOMMENDATIONS.—

(A) IN GENERAL.—The Advisory Committee shall develop recommendations for policy or legislative initiatives (or both) regarding alternatives for, or substitutes to, the payments required to be made to eligible States and eligible counties under the provisions of law referred to in paragraphs (3) and (4) of subsection (a) in order to provide a long-term method to generate annual payments to eligible States and eligible counties.

(B) REPORTING REQUIREMENTS.—Not later than 18 months after the date of the enactment of this Act, the Advisory Committee shall submit to the committees of jurisdiction a final report containing the recommendations developed under this subsection. The Advisory Committee shall submit semiannual progress reports on its activities and expenditures to the committees of jurisdiction until the final report has been submitted.

(2) GUIDANCE FOR COMMITTEE.—In developing the recommendations required by paragraph (1), the Advisory Committee shall—

(A) evaluate the method by which payments are made to eligible States and eligible counties under the provisions of law referred to in paragraphs (3) and (4) of subsection (a), and related laws, and the use of such payments;

(B) consider the impact on eligible States and eligible counties of revenues derived from the historic multiple use of the Federal lands.

(C) evaluate the economic, environmental, and social benefits which accrue to counties containing Federal lands, including recreation, natural resources industries, and the value of environmental services that result from Federal lands; and

(D) evaluate the expenditures by counties on activities on Federal lands which are Federal responsibilities.

(3) MONITORING AND RELATED REPORTING ACTIVITIES.—The Advisory Committee shall monitor the payments made to eligible States and eligible counties under the provisions of law referred to in paragraphs (3) and (4) of subsection (a), and related laws, and submit to the committees of jurisdiction an annual report describing the amounts and sources of such payments and containing such comments as the Advisory Committee may have regarding such payments.

(4) TESTIMONY.—The Advisory Committee shall make itself available for testimony or comments on the reports required to be submitted by the Advisory Committee and on any legislation or regulations to implement any recommendations made in such reports in any congressional hearings or any rulemaking or other administrative decision process.

(d) FEDERAL ADVISORY COMMITTEE ACT REQUIREMENTS.—The provisions of the Federal Advisory Committee Act (5 U.S.C. App.) shall apply to the Advisory Committee.

(e) TERMINATION OF ADVISORY COMMITTEE.—The Advisory Committee shall terminate three years after the date of the enactment of this Act.

(f) FUNDING SOURCE.—At the request of the Executive Director of the Advisory Committee, the Secretary of Agriculture shall provide funds from any account available to the Secretary, not to exceed $200,000 in fiscal year 2001, for the work of the Advisory Committee necessary to meet the requirements of this section.

SEC. 321. No part of any appropriation contained in this Act shall be expended or obligated to complete and issue the 5-year program under the Forest and Rangeland Renewable Resources Planning Act.

SEC. 322. None of the funds in this Act may be used to support Government-wide administrative functions unless such functions are justified in the budget process and funding is approved by the House and Senate Committees on Appropriations.

SEC. 323. Notwithstanding any other provision of law, none of the funds in this Act may be used for GSA Telecommunication Centers or the President's Council on Sustainable Development.

SEC. 324. None of the funds in this Act may be used for planning, design or construction of improvements to Pennsylvania Avenue in front of the White House without the advance approval of the House and Senate Committees on Appropriations.

SEC. 325. Amounts deposited during fiscal year 2000 in the roads and trails fund provided for in the fourteenth paragraph under the heading ''FOREST SERVICE'' of the Act of March 4, 1913 (37 Stat. 843; 16 U.S.C. 501), shall be used by the Secretary of Agriculture, without regard to the State in which the amounts were derived, to repair or reconstruct roads, bridges, and trails on National Forest System lands or to carry out and administer projects to improve forest health conditions, which may include the repair or reconstruction of roads, bridges, and trails on National Forest System lands in the wildland-community interface where there is an abnormally high risk of fire. The projects shall emphasize reducing risks to human safety and public health and property and enhancing ecological functions, long-term forest productivity, and biological integrity. The Secretary shall commence the projects during fiscal year 2001, but the projects may be completed in a subsequent fiscal year. Funds shall not be expended under this section to replace funds which would otherwise appropriately be expended from the timber salvage sale fund. Nothing in this section shall be construed to exempt any project from any environmental law.

SEC. 326. None of the funds provided in this or previous appropriations Acts for the agencies funded by this Act or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies funded by this Act, shall be transferred to and used to fund personnel, training, or other administrative activities of the Council on Environmental Quality or other offices in the Executive Office of the President for purposes related to the American Heritage Rivers program.

SEC. 327. Other than in emergency situations, none of the funds in this Act may be used to operate telephone answering machines during core business hours unless such answering machines include an option that enables callers to reach promptly an individual on-duty with the agency being contacted.

SEC. 328. No timber sale in Region 10 shall be advertised if the indicated rate is deficit when appraised under the transaction evidence appraisal system using domestic Alaska values for western red cedar: Provided, That sales which are deficit when appraised under the transaction evidence appraisal system using domestic Alaska values for western red cedar may be advertised upon receipt of a written request by a prospective, informed bidder, who has the opportunity to review the Forest Service's cruise and harvest cost estimate for that timber. Program accomplishments shall be based on volume sold. Should Region 10 sell, in fiscal year 2001, the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan in sales which are not deficit when appraised under the transaction evidence appraisal system using domestic Alaska values for western red cedar, all of the western red cedar timber from those sales which is surplus to the needs of domestic processors in Alaska, shall be made available to domestic processors in the contiguous 48 United States at prevailing domestic prices. Should Region 10 sell, in fiscal year 2001, less than the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan in sales which are not deficit when appraised under the transaction evidence appraisal system using domestic Alaska values for western red cedar, the volume of western red cedar timber available to domestic processors at prevailing domestic prices in the contiguous 48 United States shall be that volume: (i) which is surplus to the needs of domestic processors in Alaska; and (ii) is that percent of the surplus western red cedar volume determined by calculating the ratio of the total timber volume which has been sold on the Tongass to the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan. The percentage shall be calculated by Region 10 on a rolling basis as each sale is sold (for purposes of this amendment, a ''rolling basis'' shall mean that the determination of how much western red cedar is eligible for sale to various markets shall be made at the time each sale is awarded). Western red cedar shall be deemed ''surplus to the needs of domestic processors in Alaska'' when the timber sale holder has presented to the Forest Service documentation of the inability to sell western red cedar logs from a given sale to domestic Alaska processors at price equal to or greater than the log selling value stated in the contract. All additional western red cedar volume not sold to Alaska or contiguous 48 United States domestic processors may be exported to foreign markets at the election of the timber sale holder. All Alaska yellow cedar may be sold at prevailing export prices at the election of the timber sale holder.

SEC. 329. None of the funds appropriated by this Act shall be used to propose or issue rules, regulations, decrees, or orders for the purpose of implementation, or in preparation for implementation, of the Kyoto Protocol which was adopted on December 11, 1997, in Kyoto, Japan at the Third Conference of the Parties to the United Nations Framework Convention on Climate Change, which has not been submitted to the Senate for advice and consent to ratification pursuant to article II, section 2, clause 2, of the United States Constitution, and which has not entered into force pursuant to article 25 of the Protocol.

SEC. 330. In fiscal years 2001 through 2005, the Secretaries of the Interior and Agriculture may pilot test agency-wide joint permitting and leasing programs, subject to annual review of Congress, and promulgate special rules as needed to test the feasibility of issuing unified permits, applications, and leases. The Secretaries of the Interior and Agriculture may make reciprocal delegations of their respective authorities, duties and responsibilities in support of the ''Service First'' initiative agency-wide to promote customer service and efficiency. Nothing herein shall alter, expand or limit the applicability of any public law or regulation to lands administered by the Bureau of Land Management or the Forest Service.

SEC. 331. FEDERAL AND STATE COOPERATIVE WATERSHED RESTORATION AND PROTECTION IN COLORADO. (a) USE OF COLORADO STATE FOREST SERVICE.—Until September 30, 2004, the Secretary of Agriculture, via cooperative agreement or contract (including sole source contract) as appropriate, may permit the Colorado State Forest Service to perform watershed restoration and protection services on National Forest System lands in the State of Colorado when similar and complementary watershed restoration and protection services are being performed by the State Forest Service on adjacent State or private lands. The types of services that may be extended to National Forest System lands include treatment of insect infected trees, reduction of hazardous fuels, and other activities to restore or improve watersheds or fish and wildlife habitat across ownership boundaries.

(b) STATE AS AGENT.—Except as provided in subsection (c), a cooperative agreement or contract under subsection (a) may authorize the State Forester of Colorado to serve as the agent for the Forest Service in providing all services necessary to facilitate the performance of watershed restoration and protection services under subsection (a). The services to be performed by the Colorado State Forest Service may be conducted with subcontracts utilizing State contract procedures. Subsections (d) and (g) of section 14 of the National Forest Management Act of 1976 (16 U.S.C. 472a) shall not apply to services performed under a cooperative agreement or contract under subsection (a).

(c) RETENTION OF NEPA RESPONSIBILITIES.—With respect to any watershed restoration and protection services on National Forest System lands proposed for performance by the Colorado State Forest Service under subsection (a), any decision required to be made under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) may not be delegated to the State Forester of Colorado or any other officer or employee of the Colorado State Forest Service.

SEC. 332. None of the funds appropriated or otherwise made available by this Act may be used to issue a record of decision implementing the Interior Columbia Basin Ecosystem Management Project until the Secretaries of Agriculture and the Interior submit to Congress a report evaluating, for the area to be covered by the project, both the effect of the year 2000 wildfires and the President's initiative for managing the impact of wildfires on communities and the environment.

SEC. 333. The Forest Service, in consultation with the Department of Labor, shall review Forest Service campground concessions policy to determine if modifications can be made to Forest Service contracts for campgrounds so that such concessions fall within the regulatory exemption of 29 CFR 4.122(b). The Forest Service shall offer in fiscal year 2001 such concession prospectuses under the regulatory exemption, except that, any prospectus that does not meet the requirements of the regulatory exemption shall be offered as a service contract in accordance with the requirements of 41 U.S.C. 351–358.

SEC. 334. A project undertaken by the Forest Service under the Recreation Fee Demonstration Program as authorized by section 315 of the Department of the Interior and Related Agencies Appropriations Act for Fiscal Year 1996, as amended, shall not result in—

(1) displacement of the holder of an authorization to provide commercial recreation services on Federal lands. Prior to initiating any project, the Secretary shall consult with potentially affected holders to determine what impacts the project may have on the holders. Any modifications to the authorization shall be made within the terms and conditions of the authorization and authorities of the impacted agency.

(2) the return of a commercial recreation service to the Secretary for operation when such services have been provided in the past by a private sector provider, except when—

(A) the private sector provider fails to bid on such opportunities;

(B) the private sector provider terminates its relationship with the agency; or

(C) the agency revokes the permit for noncompliance with the terms and conditions of the authorization.

In such cases, the agency may use the Recreation Fee Demonstration Program to provide for operations until a subsequent operator can be found through the offering of a new prospectus.

SEC. 335. Section 801 of the National Energy Conservation Policy Act (42 U.S.C. 8287(a)(2)(D)(iii)) is amended by striking ''$750,000'' and inserting ''$10,000,000''.

SEC. 336. In section 315(f) of title III of section 101(c) of Public Law 104–134 (16 U.S.C. 460l–6a note), as amended, strike ''September 30, 2001'' and insert ''September 30, 2002'', and strike ''September 30, 2004'' and insert ''September 30, 2005''.

SEC. 337. None of the funds in this Act may be used by the Secretary of the Interior to issue a prospecting permit for hardrock mineral exploration on Mark Twain National Forest land in the Current River/Jack's Fork River—Eleven Point Watershed (not including Mark Twain National Forest land in Townships 31N and 32N, Range 2 and Range 3 West, on which mining activities are taking place as of the date of the enactment of this Act): Provided, That none of the funds in this Act may be used by the Secretary of the Interior to segregate or withdraw land in the Mark Twain National Forest, Missouri under section 204 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1714).

SEC. 338. The authority to enter into stewardship and end result contracts provided to the Forest Service in accordance with section 347 of title III of section 101(e) of division A of Public Law 105–825 is hereby expanded to authorize the Forest Service to enter into an additional 28 contracts subject to the same terms and conditions as provided in that section: Provided, That of the additional contracts authorized by this section at least 9 shall be allocated to Region 1 and at least 3 to Region 6.

SEC. 339. Any regulations or policies promulgated or adopted by the Departments of Agriculture or the Interior regarding recovery of costs for processing authorizations to occupy and use Federal lands under their control shall adhere to and incorporate the following principle arising from Office of Management and Budget Circular, A–25; no charge should be made for a service when the identification of the specific beneficiary is obscure, and the service can be considered primarily as benefiting broadly the general public.

SEC. 340. None of the funds made available in this Act may be used by the Secretary of the Interior or the Secretary of Agriculture to implement a final rule for estimating fair market value land use rental fees for fiberoptic communications rights-of-way on Federal lands that amends or replaces the linear right-of-way rental fee schedule published on July 8, 1987 (43 CFR 2803.1–2(c)(1)(I)). In determining rental fees for fiberoptic rights-of-way, the Secretaries shall use the rates contained in the linear right-of-way rental fee schedules in place on May 1, 2000.

SEC. 341. Notwithstanding any other provision of law, for fiscal year 2001, the Secretary of Agriculture is authorized to limit competition for fire and fuel treatment and watershed restoration contracts in the Giant Sequoia National Monument and the Sequoia National Forest. Preference for employment shall be given to dislocated and displaced workers in Tulare, Kern and Fresno Counties, California, for work associated with the establishment of the Giant Sequoia National Monument.

SEC. 344. From funds previously appropriated under the heading ''DEPARTMENT OF ENERGY, FOSSIL ENERGY RESEARCH AND DEVELOPMENT'', $4,000,000 is available for computational services at the National Energy Technology Laboratory.

SEC. 345. BACKCOUNTRY LANDING STRIP ACCESS. (a) IN GENERAL.—Funds made available by this Act shall not be used to permanently close aircraft landing strips, officially recognized by State or Federal aviation officials, without public notice, consultation with cognizant State and Federal aviation officials and the consent of the Federal Aviation Administration.

(b) AIRCRAFT LANDING STRIPS.—An aircraft landing strip referred to in subsection (a) is a landing strip on Federal land administered by the Secretary of the Interior or the Secretary of Agriculture that is commonly known, and is consistently used for aircraft landing and departure activities.

(c) PERMANENT CLOSURE.—For the purposes of subsection (a), an aircraft landing strip shall be considered to be closed permanently if the intended duration of the closure is more than 180 days in any calendar year.

SEC. 346. COLUMBIA RIVER GORGE NATIONAL SCENIC AREA. (a) LAND ACQUISITION.—Section 9 of the Columbia River Gorge National Scenic Area Act (16 U.S.C. 544g) is amended:

(1) by redesignating subsection (e) as subsection (g); and

(2) by inserting after subsection (d) the following:

''(e) APPRAISALS.—

''(1) DEFINITION OF LANDOWNER.—In this subsection, the term 'landowner' means the owner of legal or equitable title as of September 1, 2000.

''(2) APPRAISAL STANDARDS.—Except as provided in paragraph (3), land acquired or conveyed by purchase or exchange under this section shall be appraised in conformity with the Uniform Appraisal Standards for Federal Land Acquisitions.

''(3) SPECIAL MANAGEMENT AREAS.—

''(A) BEFORE APRIL 1, 2001.—Land within a special management area for which the landowner, before April 1, 2001, makes a written bona fide offer to convey to the Secretary for fair market value shall be appraised—

''(i) without regard to the effect of any zoning or land use restriction made in response to this Act; but

''(ii) subject to any other current zoning or land use restriction imposed by the State or locality in which the land is located on the date of the offer.

''(B) ON OR AFTER APRIL 1, 2001.—Land within a special management area for which the landowner, on or after April 1, 2001, makes a written bona fide offer to convey to the Secretary for fair market value shall be appraised subject to—

''(i) any zoning or land use restriction made in response to this Act; and

''(ii) any other current zoning or land use restriction that applies to the land on the date of the offer.

''(f) AUTHORIZATION FOR CERTAIN LAND EXCHANGES.—

''(1) IN GENERAL.—To facilitate priority land exchanges through which land within the boundaries of the White Salmon Wild and Scenic River or within the scenic area is conveyed to the United States, the Secretary may accept title to such land as the Secretary determines to be appropriate within the States, regardless of the State in which the land conveyed by the Secretary in exchange is located, in accordance with land exchange authorities available to the Secretary under applicable law.

''(2) SPECIAL RULE FOR LAND CERTAIN EXCHANGES.—Notwithstanding any other provision of law—

''(A) any exchange described in paragraph (1) for which an agreement to initiate has been executed as of September 30, 2000, shall continue; and

''(B) any timber stumpage proceeds collected under the exchange shall be retained by the Forest Service to complete the exchange.''.

(b) ADMINISTRATION OF SPECIAL MANAGEMENT AREAS.—Section 8(o) of the Columbia River Gorge National Scenic Area Act (16 U.S.C. 544f) is amended—

(1) by striking ''Any ordinance'' and inserting the following:

''(1) IN GENERAL.—Any ordinance'';

(2) in the first sentence, by striking ''the Uniform Appraisal Standards for Federal Land Acquisitions (Interagency Land Acquisition Conference, 1973).'' and inserting ''section 9(e).''; and

(3) by adding at the end the following:

''(2) APPLICABILITY.—This subsection shall not apply to any land offered to the Secretary for acquisition after March 31, 2001.''.

(c) PUBLICATION OF NOTICE.—

(1) Not later than November 1, 2000, the Secretary of Agriculture shall provide notice of the provisions contained in the amendments made by subsections (a) and (b) through—

(A) publication of a notice in the Federal Register and in newspapers of general circulation in the counties in the Columbia River Gorge National Scenic Area; and

(B) posting of a notice in each facility of the United States Postal Service located in those counties.

(2) If the counties wherein special management areas are located provide the Forest Service administrator of the Columbia River Gorge National Scenic Area lists of the names and addresses of landowners within the special management areas as of September 1, 2000, the Forest Service shall send to such names and addresses by certified first class mail notice of the provisions contained in the amendments made by subsections (a) and (b);

(A) The mailing shall occur within twenty working days of the receipt of the list; and

(B) The mailing shall constitute constructive notice to landowners, and proof of receipt by the addressee shall not be required.

(d) DESIGNATION OF SPECIAL MANAGEMENT AREAS.—Section 4(b)(2) of the Columbia River Gorge National Scenic Area Act (16 U.S.C. 544b(b)(2)) is amended—

(1) in paragraph (2), by striking ''in this section'' and inserting ''by paragraph (1)''; and

(2) by adding at the end the following:

''(3) MODIFICATION OF BOUNDARIES.—The boundaries of the special management areas are modified as depicted on a map dated September 20, 2000, which shall be on file and available for public inspection in the office of the Chief of the Forest Service in Washington, District of Columbia, and copies shall be available in the office of the Commission, and the headquarters of the scenic area.''.

(e) PAYMENTS TO LOCAL GOVERNMENTS.—Section 14(c)(3) of the Columbia River Gorge National Scenic Area Act (16 U.S.C. 544l(c)(3)) is amended—

(1) by striking ''(3) No payment'' and inserting the following:

''(3) LIMITATION.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), no payment'';

(2) by striking ''fifth'' and inserting ''eighth''; and

(3) by adding at the end the following:

''(B) CONTINUATION OF CERTAIN PAYMENTS.—For any land or interest in land for which the Secretary is making a payment in fiscal year 2000, such payment shall be continued for a total of eight fiscal years.''.

SEC. 347. (a) EXCHANGE REQUIRED.—In exchange for the non-Federal lands and the additional consideration described in subsection (b), the Secretary of Agriculture shall convey to Kern County, California, all right, title, and interest of the United States in and to four parcels of land under the jurisdiction of the Forest Service in Kern County, as follows:

(1) Approximately 70 acres known as Camp Owen as depicted on the map entitled ''Camp Owen'', dated June 15, 2000.

(2) Approximately 4 acres known as Wofford Heights Park as depicted on the map entitled ''Wofford Heights Park'', dated June 15, 2000.

(3) Approximately 4 acres known as the French Gulch maintenance yard as depicted on the map entitled ''French Gulch Maintenance Yard'', dated June 15, 2000.

(4) Approximately 14 acres known as the Kernville Fish Hatchery as depicted on the map entitled ''Kernville Fish Hatchery'', dated June 15, 2000.

(b) CONSIDERATION.—

(1) CONVEYANCE OF NON-FEDERAL LANDS.—As consideration for the conveyance of the Federal lands referred to in subsection (a), Kern County shall convey to the Secretary a parcel of land for fair market value consisting of approximately 52 acres as depicted on the map entitled ''Greenhorn Mountain Park'', located in Kern County, California, dated June 18, 2000.

(2) REPLACEMENT FACILITY.—As additional consideration for the conveyance of the storage facility located at the maintenance yard referred to in subsection (a)(3), Kern County shall provide a replacement storage facility of comparable size and condition, as acceptable to the Secretary, at the Greenhorn Ranger District Lake Isabella Maintenance Yard property.

(3) CASH EQUALIZATION PAYMENT.—As additional consideration for the conveyance of the Federal lands referred to in subsection (a), Kern County shall tender a cash equalization payment specified by the Secretary. The cash equalization payment shall be based upon an appraisal performed at the option of the Forest Service pursuant to section 206(b) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716(b)).

(c) CONDITIONS ON ACCEPTANCE.—Title to the non-Federal lands to be conveyed under this section must be acceptable to the Secretary, and the conveyance shall be subject to valid existing rights of record. The non-Federal lands shall conform with the title approval standards applicable to Federal land acquisitions.

(d) TIME FOR CONVEYANCE.—Subject to subsection (c), the Secretary shall complete the conveyance of the Federal lands under subsection (a) within 3 months after Kern County tenders to the Secretary the consideration required by subsection (b).

(e) STATUS OF ACQUIRED LANDS.—Upon approval and acceptance of title by the Secretary, the non-Federal lands conveyed to the United States under this section shall become part of Sequoia National Forest, and the boundaries of the national forest shall be adjusted to include the acquired lands. The Secretary shall manage the acquired lands for recreational purposes in accordance with the laws and regulations pertaining to the National Forest System. For purposes of section 7 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460l–9), the boundaries of the national forest, as adjusted pursuant to this section, shall be considered to be the boundaries of the national forest as of January 1, 1965.

(f) RELATIONSHIP TO ENVIRONMENTAL LIABILITY.—In connection with the conveyances under this section, the Secretary may require such additional terms and conditions related to environmental liability as the Secretary considers appropriate to protect the interests of the United States.

(g) LEGAL DESCRIPTIONS.—The exact acreage and legal description of the real property to be exchanged under this section shall be determined by a survey or surveys satisfactory to the Secretary. The costs of any such survey, as well as other administrative costs incurred to execute the land exchange (other than costs incurred by Kern County to comply with subsection (h)), shall be divided equally between the Secretary and Kern County.

(h) TREATMENT OF EXISTING UTILITY LINES AT CAMP OWEN.—Upon receipt of the Federal lands described in subsection (a)(1), Kern County shall grant an easement, and record the easement in the appropriate office, for permitted or licensed uses of those lands that are unrecorded as of the date of the conveyance.

(i) APPLICABLE LAW.—Except as otherwise provided in this section, any exchange of National Forest System land under this section shall be subject to the laws (including regulations) applicable to the conveyance and acquisition of land for the National Forest System.

SEC. 348. (a) ESTABLISHMENT.—Not later than March 1, 2001, the Secretary shall cause to be established an advisory group to provide continuing expert advice and counsel to the Director of the National Energy Technology Laboratory (NETL) with respect to the research and development activities NETL conducts and manages.

(b) MEMBERSHIP.—

(1) IN GENERAL.—The advisory group shall be composed of—

(A) a balanced group of—

(i) representatives of academia;

(ii) representatives of industry;

(iii) representatives of non-governmental organizations; and

(iv) representatives of energy regulatory agencies;

(B) a representative of the DOE's Office of Fossil Energy;

(C) a representative of the DOE's Office of Energy Efficiency and Renewable Energy;

(D) a representative of the DOE's Office of Science; and

(E) others, as appropriate.

(c) DUTIES.—The advisory group shall provide advice, information, and recommendations to the Director—

(1) on management and strategic issues affecting the laboratory; and

(2) on the scientific and technical direction of the laboratory's R&D program;

(d) COMPENSATION; SUPPORT; PROCEDURES.—

(1) COMPENSATION AND TRAVEL.—Members of the advisory group who are not officers or employees of the United States, while attending conferences or meetings of the group or otherwise engaged in its business, or while serving away from their homes or regular places of business, may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

(2) ADMINISTRATIVE SUPPORT.—The NETL shall furnish to the advisory group clerical and administrative support.

(3) PROCEDURES AND REQUIREMENTS.—In carrying out its functions, the advisory group shall comply with the procedures and requirements that apply to similar groups providing advice and counsel to entities operating other Department of Energy laboratories rather than the procedures and requirements that apply to such a group providing advice directly to a Federal entity.

SEC. 349. (a) In furtherance of the purposes of the Umpqua Land Exchange Project (ULEP) and previous Congressional appropriations therefor, there is hereby appropriated the sum of $4,300,000 to be derived from the Land and Water Conservation Fund. Such amount shall be available to the Foundation for Voluntary Land Exchanges (''Foundation'') working in conjunction with the Secretary of the Interior, and with the U.S. Bureau of Land Management as the lead Federal agency, to complete a Final Land Ownership Adjustment Plan (''Plan'') for the area (''Basin''), comprising approximately 675,000 acres, as generally depicted on a map entitled ''Coast Range-Umpqua River Basin,'' dated August 2000. No more than 15 percent of this appropriation shall be used by the agency for defraying administrative overhead.

(b) In preparing the Plan, the Secretary shall identify, no later than March 31, 2001, those lands or interests in land with willing sellers which merit emergency purchase by the United States due to critical environmental values or possibility of imminent development. For lands

or interests in land so identified, the Secretary and the Foundation shall arrange with landowners to complete appraisals and purchase clearances required by law so that the Secretary may thereafter consummate purchases as soon as funds therefor are appropriated by the Congress.

(c) Pursuant to the funding and direction of subsection (a), the Secretary shall, in cooperation with the Foundation, no later than December 31, 2002, complete the Plan utilizing the Multi-Resource Land Allocation Model (''Model'') developed for the ULEP. The Plan shall identify: (1) non-Federal Lands or interests in land in the Basin which, with the concurrence of willing non-Federal landowners, are recommended for acquisition or exchange by the United States; (2) Federal lands or interests in land in the Basin recommended for disposal into non-Federal ownership in exchange for the acquired lands of equal value; and (3) specific land exchanges or purchases to implement the Plan. In addition, no later than December 31, 2002, the Secretary, in cooperation with the Foundation, shall complete a draft Habitat Conservation Plan (''HCP'') covering the lands to be disposed of by the United States and consistent with the Plan, a comprehensive Final Environmental Impact Statement covering the Plan, and a comprehensive Biological Opinion analyzing the net impacts of the Plan at Plan scale over time in 5 year increments, taking into consideration all expected benefits to be achieved by the Plan and HCP, and any consistency determinations or amendments to any applicable Federal land management plans. The HCP shall cover all species analyzed in the Model (including species under the jurisdiction of the Secretary of Commerce).

(d) No later than March 31, 2002, the Secretary and the Foundation shall submit to the Committee on Resources of the U.S. House of Representatives, Committee on Energy and Natural Resources of the United States Senate, and the House and Senate Committees on Appropriations, a joint report summarizing the Plan and the land exchanges or purchases identified to implement the Plan, and outlining: (1) any Fiscal Year 2003 funding needed for land purchases; (2) any recommendations for actions to expedite or facilitate the specific land exchanges or purchases identified to implement the Plan, or the HCP; and (3) an action Plan for making the Model publicly available for additional land exchanges or other purposes upon completion of the exchanges.

(e) No later than June 15, 2003: (1) the Secretary with the Foundation and the financial participation and commitment of willing private landowners shall complete appraisals and other land purchase or exchange clearances required by law, including those pertaining to cultural and historic resources and hazardous materials and (2) the Secretary shall consummate with willing non-Federal landowners the specific land exchanges previously identified in subsection (c) to implement the Plan, and together with the Secretary of Commerce, shall issue the HCP.

SEC. 350. Notwithstanding section 351 of section 101(e) of division A, Public Law 105–277, the Indian Health Service is authorized to provide additional contract health service funds to Ketchikan Indian Corporation's recurring budget for hospital-related services for patients of Ketchikan Indian Corporation and the Organized Village of Saxman.

SEC. 351. (a) SHORT TITLE.—This section may be cited as the ''Boise Laboratory Replacement Act of 2000''.

(b) FINDINGS AND PURPOSE.—

(1) FINDINGS.—Congress finds that—

(A) the existing facilities of the Rocky Mountain Research Station Boise laboratory are outdated and no longer serve as a modern research facility;

(B) the Boise laboratory site is in the heart of a Boise city redevelopment zone, and the existing laboratory facilities detract from community improvement efforts;

(C) it is desirable to colocate the Boise laboratory with 1 of the State institutions of higher learning in the Boise metropolitan area—

(i) to facilitate communications and sharing of research data between the agency and the Idaho scientific community;

(ii) to facilitate development and maintenance of the Boise laboratory as a modern, high quality research facility; and

(iii) to reduce costs, better use assets, and better serve the public; and

(D) it is desirable to make the Boise laboratory site available for inclusion in a planned facility that is being developed on adjacent property by the University of Idaho or the University of Idaho Foundation, a not-for-profit corporation acting on behalf of the University of Idaho, as a multiagency research and education facility to serve various agencies and educational institutions of the United States and the State.

(2) PURPOSE.—The purpose of this section is to authorize the Secretary—

(A) to sell or exchange the land and improvements currently occupied by the Boise laboratory site; and

(B) to acquire land, facilities, or interests in land and facilities, including condominium interests, to colocate the Rocky Mountain Research Station Boise laboratory with 1 of the State institutions of higher learning in the Boise metropolitan area, using—

(i) funds derived from sale or exchange of the existing Boise laboratory site; and

(ii) to the extent the funds received are insufficient to carry out the acquisition of replacement research facilities, funds subsequently made available by appropriation for the acquisition, construction, or improvement of the Rocky Mountain Research Station Boise laboratory.

(c) DEFINITIONS.—In this section:

(1) BOISE LABORATORY SITE.—The term ''Boise laboratory site'' means the approximately 3.26 acres of land and all improvements in section 10, T. 3 N., R. 2 E., Boise Meridian, as depicted on that Plat of Park View Addition to Boise, Ada County, Idaho, labeled ''Boise Lab Site—May 22, 2000'', located at 316 East Myrtle Street, Boise, Idaho.

(2) CONDOMINIUM INTEREST.—The term ''condominium interest'' means an estate in land consisting of (in accordance with law of the State)—

(A) an undivided interest in common of a portion of a parcel of real property; and

(B) a separate fee simple interest in another portion of the parcel.

(3) FAIR MARKET VALUE.—The term ''fair market value'' means the cash value of land on a specific date, as determined by an appraisal acceptable to the Secretary and prepared in accordance with the Uniform Appraisal Standards for Federal Land Acquisitions.

(4) SECRETARY.—The term ''Secretary'' means the Secretary of Agriculture.

(5) STATE.—The term ''State'' means the State of Idaho.

(d) SALE OR EXCHANGE OF BOISE LABORATORY SITE.—

(1) IN GENERAL.—The Secretary may, under such terms and conditions as the Secretary may prescribe and subject to valid existing rights, sell or exchange any or all right, title, and interest of the United States in and to the Boise laboratory site.

(2) RIGHT OF FIRST REFUSAL.—

(A) IN GENERAL.—After a determination of fair market value of the Boise laboratory site is approved by the Secretary, the University of Idaho or the University of Idaho Foundation, a not-for-profit organization acting on behalf of the University of Idaho, shall be allowed 210 days from the effective date of value to exercise a right of first refusal to purchase the Boise laboratory site at fair market value.

(B) COOPERATIVE DEVELOPMENT.—If the University of Idaho or the University of Idaho Foundation exercises the right of first refusal under paragraph (A), to accomplish the purpose described in section (b)(2)(B), the Secretary shall, to the maximum extent practicable, cooperate with the University of Idaho in the development of a multiagency research and education facility on the Boise laboratory site and adjacent property.

(3) SOLICITATION OF OFFERS.—If the right of first refusal described in subsection (d)(2) is not exercised, the Secretary may solicit offers for purchase through sale or competitive exchange of any and all right, title, and interest of the United States in and to the Boise laboratory site.

(4) CONSIDERATION.—Consideration for sale or exchange of land under this subsection—

(A) shall be at least equal to the fair market value of the Boise laboratory site; and

(B) may include land, existing improvements, or improvements to be constructed to the specifications of the Secretary, including condominium interests, and cash, notwithstanding section 206(b) of Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716(b)).

(5) REJECTION OF OFFERS.—The Secretary may reject any offer made under this subsection if the Secretary determines that the offer is not adequate or not in the public interest.

(e) DISPOSITION OF FUNDS.—

(1) DEPOSIT OF PROCEEDS.—The Secretary shall deposit the proceeds of a sale or exchange under subsection (d) in the fund established under Public Law 90–171 (16 U.S.C. 484a) (commonly known as the ''Sisk Act'').

(2) USE OF PROCEEDS.—Funds deposited under subsection (a) shall be available to the Secretary, without further Act of appropriation, for—

(A) the acquisition of or interest in land, or the acquisition of or construction of facilities, including condominium interests—

(i) to colocate the Boise laboratory with 1 of the State institutions of higher learning in the Boise metropolitan area; and

(ii) to replace other functions of the Boise laboratory; and

(B) to the extent the funds are not necessary to carry out paragraph (A), the acquisition of other land or interests in land in the State.

TITLE IV—WILDLAND FIRE EMERGENCY APPROPRIATIONS

DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

WILDLAND FIRE MANAGEMENT

For necessary expenses for fire suppression operations, burned areas rehabilitation, hazardous fuels reduction, and rural fire assistance by the Department of the Interior, $353,740,000 to remain available until expended, of which $21,829,000 is for hazardous fuels reduction, $120,300,000 is for removal of hazardous fuels to alleviate immediate emergency threats to urban wildland interface areas as defined by the Secretary of Interior, $116,611,000 is for wildfire suppression, $85,000,000 is for burned areas rehabilitation, and $10,000,000 is for rural fire assistance: Provided, That using the amounts designated under this title of this Act, the Secretary of the Interior may enter into procurement contracts, grants, or cooperative agreements, for hazardous fuels reduction activities, and for training and monitoring associated with such hazardous fuels reduction activities, on Federal land, or on adjacent non-Federal land

for activities that benefit resources on Federal land: Provided further, That the costs of implementing any cooperative agreement between the Federal government and any non-Federal entity may be shared, as mutually agreed on by the affected parties: Provided further, That in entering into such grants or cooperative agreements, the Secretary may consider the enhancement of local and small business employment opportunities for rural communities, and that in entering into procurement contracts under this section on a best value basis, the Secretary may take into account the ability of an entity to enhance local and small business employment opportunities in rural communities, and that the Secretary may award procurement contracts, grants, or cooperative agreements under this section to entities that include local non-profit entities, Youth Conservation Corps or related partnerships, or small or disadvantaged businesses: Provided further, That funds in this account are also available for repayment of advances to other appropriation accounts from which funds were previously transferred for such purposes: Provided further, That unobligated balances of amounts previously appropriated to the ''Fire Protection'' and ''Emergency Department of the Interior Firefighting Fund'' may be transferred and merged with this appropriation: Provided further, That persons hired pursuant to 43 U.S.C. 1469 may be furnished subsistence and lodging without cost from funds available from this appropriation: Provided further, That notwithstanding 42 U.S.C. 1856d, sums received by a bureau or office of the Department of the Interior for fire protection rendered pursuant to 42 U.S.C. 1856 et seq., Protection of United States Property, may be credited to the appropriation from which funds were expended to provide that protection, and are available without fiscal year limitation: Provided further, That the entire amount appropriated is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That this amount shall be made available only to the extent that an official budget request for a specific dollar amount, that includes designation of the entire amount as an emergency requirement as defined by such Act, is transmitted by the President to the Congress.

RELATED AGENCY

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

WILDLAND FIRE MANAGEMENT

For an additional amount to cover necessary expenses for emergency rehabilitation, hazard reduction activities in the urban-wildland interface, support to federal emergency response, repaying firefighting funds borrowed from programs, and wildfire suppression activities of the Forest Service, $619,274,000, to remain available until expended, of which $179,000,000 is for wildfire suppression, $120,000,000 is for removal of hazardous fuels to alleviate immediate emergency threats to urban wildland interface areas as defined by the Secretary of Agriculture, $142,000,000 is for emergency rehabilitation, $44,000,000 is for capital improvement and maintenance of fire facilities, $16,000,000 is for research activities and to make competitive research grants pursuant to the Forest and Rangeland Renewable Resources Research Act, as amended (16 U.S.C. 1641 et seq.), $50,494,000 is for state fire assistance, $8,280,000 is for volunteer fire assistance, $12,000,000 is for forest health activities on state, private, and federal lands, $12,500,000 is for economic action programs, and $35,000,000 is for assistance to non-federal entities most affected by fire using all existing authorities under the State and Private Forestry appropriation; and of which $320,274,000 may be transferred to the ''State and Private Forestry'', ''National Forest System'', ''Forest and Rangeland Research'', and ''Capital Improvement and Maintenance'' accounts to fund state fire assistance, volunteer fire assistance, and forest health management, vegetation and watershed management, heritage site rehabilitation, wildlife and fish habitat management, trails and facilities maintenance and restoration: Provided, That transfers of any amounts in excess of those authorized in this title, shall require approval of the House and Senate Committees on Appropriations in compliance with reprogramming procedures contained in House Report No. 105–163: Provided further, That the costs of implementing any cooperative agreement between the Federal government and any non-Federal entity may be shared, as mutually agreed on by the affected parties: Provided further, That in entering into such grants or cooperative agreements, the Secretary may consider the enhancement of local and small business employment opportunities for rural communities, and that in entering into procurement contracts under this section on a best value basis, the Secretary may take into account the ability of an entity to enhance local and small business employment opportunities in rural communities, and that the Secretary may award procurement contracts, grants, or cooperative agreements under this section to entities that include local non-profit entities, Youth Conservation Corps or related partnerships with State, local or non-profit youth groups, or small or disadvantaged businesses: Provided further, That the entire amount appropriated is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: Provided further, That this amount shall be made available only to the extent that an official budget request for a specific dollar amount, that includes designation of the entire amount as an emergency requirement as defined by such Act, is transmitted by the President to the Congress: Provided further, That:

(1) In expending the funds provided with respect to this title for hazardous fuels reduction, the Secretary of the Interior and the Secretary of Agriculture may conduct fuel reduction treatments on Federal lands using all contracting and hiring authorities available to the Secretaries applicable to hazardous fuel reduction activities under the wildland fire management accounts. Notwithstanding Federal government procurement and contracting laws, the Secretaries may conduct fuel reduction treatments on Federal lands using grants and cooperative agreements. Notwithstanding Federal government procurement and contracting laws, in order to provide employment and training opportunities to people in rural communities, the Secretaries may award contracts, including contracts for monitoring activities, to—

(A) local private, nonprofit, or cooperative entities;

(B) Youth Conservation Corps crews or related partnerships, with State, local and nonprofit youth groups;

(C) small or micro-businesses; or

(D) other entities that will hire or train a significant percentage of local people to complete such contracts. The authorities described above relating to contracts, grants, and cooperative agreements are available until all funds provided in this title for hazardous fuels reduction activities in the urban wildland interface are obligated.

(2) Within 60 days after enactment, the Secretary of Agriculture and the Secretary of the Interior shall, after consultation with State and local fire-fighting agencies, jointly publish in the Federal Register a list of all urban wildland interface communities, as defined by the Secretaries, within the vicinity of Federal lands that are at high risk from wildfire, as defined by the Secretaries. This list shall include:

(A) an identification of communities around which hazardous fuel reduction treatments are ongoing; and

(B) an identification of communities around which the Secretaries are preparing to begin treatments in fiscal year 2001.

(3) Prior to May 1, 2001, the Secretary of Agriculture and the Secretary of the Interior shall jointly publish in the Federal Register a list of all urban wildland interface communities, as defined by the Secretaries, within the vicinity of Federal lands and at high risk from wildfire that are included in the list published pursuant to paragraph (2) but that are not included in subparagraphs (A) and (B) of paragraph (2), along with an identification of reasons, including but not limited to lack of available funds, why there are no treatments ongoing or being prepared for these communities.

(4) Within 30 days after enactment of this Act, the Secretary of Agriculture shall publish in the Federal Register the Forest Service's Cohesive Strategy for Protecting People and Sustaining Resources in Fire-Adapted Ecosystems. The documentation required by section 102(2)(C) of the National Environmental Policy Act accompanying the proposed regulations revising the National Forest System transportation policy; proposed roadless area protection regulation; and proposed Interior Columbia Basin Project; and the Sierra Nevada Framework/Sierra Nevada Forest Plan shall contain an analysis and explanation of any differences between the Cohesive Strategy and the policies and rule-making listed in this paragraph. Nothing in this title is intended or should require a delay in the rulemakings listed in this paragraph.

(5)(A) Funds provided to the Secretary of Agriculture by this title and to the Secretary of the Interior, the Secretary of Commerce, and the Council on Environmental Quality by this Act and any other applicable act appropriating funds for fiscal year 2001 shall be used as necessary to establish and implement the expedited procedures set forth in this paragraph for decisions to conduct hazardous fuel reduction treatments pursuant to paragraphs (1) and (2), and any post-burn treatments within the perimeters of areas burned by wildfire, on federal lands.

(B) The Secretary of Agriculture, the Secretary of the Interior, the Secretary of Commerce, and the Chairman of the Council on Environmental Quality shall use such funds specified in subparagraph (A) as necessary to evaluate the need for revised or expedited environmental compliance procedures including expedited procedures for the preparation of documentation required by section 102(2) of the National Environmental Policy Act (42 U.S.C. 4332(2)) for treatment decisions referred to in subparagraph (A). The Secretary of Agriculture, the Secretary of the Interior, the Chairman of the Council on Environmental Quality shall report to the relevant congressional committee of jurisdiction within 60 days of enactment of this Act to apprise the Congress of the decision to develop any expedited procedures or adopt or recommend any other measures. Each Secretary may employ any expedited procedures developed pursuant to this subsection for a treatment decision when the Secretary determines the procedures to be appropriate for the decision. These procedures shall ensure that the period of preparation for environmental documentation be expedited to the maximum extent practicable. Each Secretary and the Council shall effect any modifications to existing regulations and guidance as may be necessary to provide for the expedited procedures within 180 days of the date of enactment of this Act.

(C) With the funds specified in subparagraph (A), the Secretary, as defined in section 3(15) of

the Endangered Species Act of 1973 (16 U.S.C. 1532(15)), may accord priority as appropriate to consultation or conferencing under section 7 of such Act (16 U.S.C. 1536) concerning any treatment decision referred to in subparagraph (A) for which consultation or conferencing is required.

(D) With the funds specified in subparagraph (A), administrative review of any treatment decision referred to in subparagraph (A) shall be conducted as expeditiously as possible but under no circumstances shall exceed any statutory deadline applicable to such review.

(E) No provision in this title shall be construed to override any existing environmental law.

TITLE V—EMERGENCY SUPPLEMENTAL APPROPRIATIONS

DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

For an additional amount for ''Management of Lands and Resources'', $17,172,000 to remain available until expended, of which $15,687,000 shall be used to address restoration needs caused by wildland fires and $1,485,000 shall be used for the treatment of grasshopper and Mormon Cricket infestations on lands managed by the Bureau of Land Management: Provided, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

For an additional amount for ''Resource Management'', $1,500,000, to remain available until expended, for support of the preparation and implementation of plans, programs, or agreements, identified by the State of Idaho, that address habitat for freshwater aquatic species on non-federal lands in the State voluntarily enrolled in such plans, programs, or agreements, of which $200,000 shall be made available to the Boise, Idaho field office to participate in the preparation and implementation of the plans, programs, or agreements, of which $300,000 shall be made available to the State of Idaho for preparation of the plans, programs, or agreements, including data collection and other activities associated with such preparation, and of which $1,000,000 shall be made available to the State of Idaho to fund habitat enhancement, maintenance, or restoration projects consistent with such plans, programs, or agreements: Provided, That the entire amount made available under this paragraph is designated by the Congress as an emergency requirement under section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

For an additional amount for salmon restoration and conservation efforts in the State of Maine, $5,000,000, to remain available until expended, which amount shall be made available to the National Fish and Wildlife Foundation to carry out a competitively awarded grant program for State, local, or other organizations in Maine to fund on-the-ground projects to further Atlantic salmon conservation or restoration efforts in coordination with the State of Maine and the Maine Atlantic Salmon Conservation Plan, including projects to: (1) assist in land acquisition and conservation easements to benefit Atlantic salmon; (2) develop irrigation and water use management measures to minimize any adverse effects on salmon habitat; and (3) develop and phase in enhanced aquaculture cages to minimize escape of Atlantic salmon: Provided, That, of the amounts appropriated under this paragraph, $2,000,000 shall be made available to the Atlantic Salmon Commission for salmon restoration and conservation activities, including installing and upgrading weirs and fish collection facilities, conducting risk assessments, fish marking, and salmon genetics studies and testing, and developing and phasing in enhanced aquaculture cages to minimize escape of Atlantic salmon, and $500,000 shall be made available to the National Academy of Sciences to conduct a study of Atlantic salmon: Provided further, That amounts made available under this paragraph shall be provided to the National Fish and Wildlife Foundation not later than 15 days after the date of enactment of this Act: Provided further, That the entire amount made available under this paragraph is designated by Congress as an emergency requirement under section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

CONSTRUCTION

For an additional amount for ''Construction'', $8,500,000, to remain available until expended, to repair or replace buildings, equipment, roads, bridges, and water control structures damaged by natural disasters and conduct critical habitat restoration directly necessitated by natural disasters: Provided, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

NATIONAL PARK SERVICE

CONSTRUCTION

For an additional amount for ''Construction'', $5,300,000, to remain available until expended, to repair or replace visitor facilities, equipment, roads and trails, and cultural sites and artifacts at national park units damaged by natural disasters: Provided, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

For an additional amount for ''Surveys, Investigations, and Research'', $2,700,000, to remain available until expended, to repair or replace stream monitoring equipment and associated facilities damaged by natural disasters: Provided, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

For an additional amount for ''Operation of Indian Programs'', $1,200,000, to remain available until expended, for repair of the portions of the Yakama Nation's Signal Peak Road that have the most severe damage: Provided, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

OFFICE OF SPECIAL TRUSTEE FOR AMERICAN INDIANS

FEDERAL TRUST PROGRAMS

For an additional amount for ''Federal Trust Programs'' for unanticipated trust reform projects and costs related to the ongoing Cobell litigation, $27,600,000, to remain available until expended: Provided, That funds provided herein for trust management improvements and litigation support may, as needed, be transferred to or merged with the ''Operations of Indian Programs'' account in the Bureau of Indian Affairs, the ''Salaries and Expenses'' account in the Office of the Solicitor, the ''Salaries and Expenses'' account in Departmental Management, the ''Royalty and Offshore Minerals Management'' account in the Minerals Management Service, and the ''Management of Lands and Resources'' account in the Bureau of Land Management: Provided further, That the entire amount provided under this heading is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

RELATED AGENCY

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

STATE AND PRIVATE FORESTRY

For an additional amount for the Forest Service, notwithstanding any other provision of law, $9,294,000 for the Alaska Railroad for:

(1) safety related track repair, damage, and control costs from avalanches, hurricane force winds, and severe winter storms, and

(2) oil spill clean-up, recovery, and remediation arising out of the related train derailments during the period of winter blizzards beginning December 21, 1999 for which the President declared a disaster on February 17, 2000 pursuant to the Stafford Act, as amended, (FEMA DR–1316–AK) as a direct lump sum payment and an additional $2,000,000 for an avalanche prevention program in the Chugach National Forest, Kenai National Park, Kenai National Wildlife Refuge and nearby public lands to remain available until expended: Provided, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

NATIONAL FOREST SYSTEM

For an additional amount for emergency expenses resulting from damage from windstorms, $7,249,000 to become available upon enactment of this Act, and to remain available until expended: Provided, That the entire amount shall be available only to the extent that the President submits to Congress an official budget request for a specific dollar amount that includes designation of the entire amount of the request as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

TITLE VI—USER FEES UNDER FOREST SYSTEM RECREATION RESIDENCE PROGRAM

SEC. 601. SHORT TITLE.

This title may be cited as the ''Cabin User Fee Fairness Act of 2000''.

SEC. 602. FINDINGS.

Congress finds that—

(1) cabins located on forest land have provided a unique recreation experience to a large number of cabin owners, their families, and guests each year since Congress authorized the recreation residence program in 1915; and

(2) the fact that current appraisal procedures have, in certain circumstances, been inconsistently applied in determining fair market values for residential lots demonstrates that problems exist in accurately reflecting market values.

SEC. 603. PURPOSES.

The purposes of this title are—

(1) to ensure, to the maximum extent practicable, that the National Forest System recreation residence program is managed to preserve the opportunity for individual and family-oriented recreation; and

(2) to develop and implement a more consistent procedure for determining cabin user fees, taking into consideration the limitations of an authorization and other relevant market factors.

SEC. 604. DEFINITIONS.

In this title:

(1) AGENCY.—The term ''agency'' means the Forest Service.

(2) AUTHORIZATION.—The term ''authorization'' means a special use permit for the use and occupancy of National Forest System land by a cabin owner under the authority of the program.

(3) BASE CABIN USER FEE.—The term ''base cabin user fee'' means the fee for an authorization that results from the appraisal of a lot as determined in accordance with sections 606 and 607.

(4) CABIN.—The term ''cabin'' means a privately built and owned recreation residence that is authorized for use and occupancy on National Forest System land.

(5) CABIN OWNER.—The term ''cabin owner'' means—

(A) a person authorized by the agency to use and to occupy a cabin on National Forest System land; and

(B) an heir or assign of such a person.

(6) CABIN USER FEE.—The term ''cabin user fee'' means a special use fee paid annually by a cabin owner to the Secretary in accordance with this title.

(7) CARETAKER CABIN.—The term ''caretaker cabin'' means a caretaker residence occupied in limited cases in which caretaker services are necessary to maintain the security of a tract.

(8) CURRENT CABIN USER FEE.—The term ''current cabin user fee'' means the most recent cabin user fee that results from an annual adjustment to the base cabin user fee in accordance with section 608.

(9) LOT.—The term ''lot'' means a parcel of land in the National Forest System—

(A) on which a cabin owner is authorized to build, use, occupy, and maintain a cabin and related improvements; and

(B) that is considered to be in its natural, native state at the time at which a use of the lot described in subparagraph (A) is first permitted by the Secretary.

(10) NATURAL, NATIVE STATE.—The term ''natural, native state'' means the condition of a lot or site, free of any improvements, at the time at which the lot or site is first authorized for recreation residence use by the agency.

(11) PROGRAM.—The term ''program'' means the recreation residence program established under the authority of the last paragraph under the heading ''FOREST SERVICE'' in the Act of March 4, 1915 (38 Stat. 1101, chapter 144; 16 U.S.C. 497).

(12) SECRETARY.—The term ''Secretary'' means the Secretary of Agriculture, acting through the Chief of the Forest Service.

(13) TRACT.—The term ''tract'' means an established location within a National Forest containing 1 or more cabins authorized in accordance with the program.

(14) TRACT ASSOCIATION.—The term ''tract association'' means a cabin owner association in which all cabin owners within a tract are eligible for membership.

(15) TYPICAL LOT.—The term ''typical lot'' means a cabin lot, or a group of cabin lots, in a tract that is selected for use in an appraisal as being representative of, and that has similar value characteristics as, other lots or groups of lots within the tract.

SEC. 605. ADMINISTRATION OF RECREATION RESIDENCE PROGRAM.

The Secretary shall ensure, to the maximum extent practicable, that the basis and procedure for calculating cabin user fees results in a fee for an authorization that reflects, in accordance with this title—

(1) the market value of a lot; and

(2) regional and local economic influences.

SEC. 606. APPRAISALS.

(a) REQUIREMENTS FOR CONDUCTING APPRAISALS.—In implementing and conducting an appraisal process for determining cabin user fees, the Secretary shall—

(1) complete an inventory of improvements that were paid for by—

(A) the agency;

(B) third parties; or

(C) cabin owners (or predecessors of cabin owners);

during the completion of which the Secretary shall presume that a cabin owner, or a predecessor of the owner, has paid for the capital costs of any utility, access, or facility serving the lot being appraised, unless the Forest Service produces evidence that the agency or a third party has paid for the capital costs;

(2) establish an appraisal process to determine the market value of the fee simple estate of a typical lot or lots considered to be in a natural, native state, subject to subsection (b)(4)(A);

(3) enter into a contract with an appropriate professional appraisal organization to manage the development of specific appraisal guidelines in accordance with subsection (b), subject to public comment and congressional review;

(4) require that an appraisal be performed by a State-certified general real estate appraiser, selected by the Secretary and licensed to practice in the State in which the lot is located;

(5) provide the appraiser with appraisal guidelines developed in accordance with this title;

(6) notwithstanding any other provision of law, require the appraiser to coordinate the appraisal closely with affected parties by seeking information, cooperation, and advice from cabin owners and tract associations;

(7) require that the appraiser perform the appraisal in compliance with—

(A) the most current edition of the Uniform Standards of Professional Appraisal Practice in effect on the date of the appraisal;

(B) the most current edition of the Uniform Appraisal Standards for Federal Land Acquisitions that is in effect on the date of the appraisal; and

(C) the specific appraisal guidelines developed in accordance with this title;

(8) require that the appraisal report—

(A) be a full narrative report, in compliance with the reporting standards of the Uniform Standards of Professional Appraisal Practice; and

(B) comply with the reporting guidelines established by the Uniform Appraisal Standards for Federal Land Acquisitions; and

(9) before accepting any appraisal, conduct a review of the appraisal to ensure that the guidelines made available to the appraiser have been followed and that the appraised values are properly supported.

(b) SPECIFIC APPRAISAL GUIDELINES.—In the development of specific appraisal guidelines in accordance with subsection (a)(3), the instructions to an appraiser shall require, at a minimum, the following:

(1) APPRAISAL OF A TYPICAL LOT.—

(A) IN GENERAL.—In conducting an appraisal under this section, the appraiser—

(i) shall not appraise each individual lot;

(ii) shall appraise a typical lot or lots, selected by the cabin owners and the agency in a manner consistent with the policy of the program; and

(iii) shall be provided, and give appropriate consideration to, any information contained in the inventory of improvements relating to the lot being appraised.

(B) ESTIMATE OF MARKET VALUE OF TYPICAL LOT.—

(i) IN GENERAL.—The appraiser shall estimate the market value of a typical lot in accordance with this title.

(ii) EQUIVALENCE TO LEGALLY SUBDIVIDED LOT.—In selecting a comparable sale under this title, the appraiser shall recognize that the typical lot will not usually be equivalent to a legally subdivided lot.

(2) EXCEPTION FOR CERTAIN SALES OF LAND.—In conducting an appraisal under this title, the appraiser—

(A) shall not select sales of comparable land that are sales of land within developed urban areas; and

(B) should not, in most circumstances, select a sale of comparable land that includes land that is encumbered by a conservation or recreational easement that is held by a government or institution, except land that is limited to use as a site for 1 home.

(3) ADJUSTMENTS FOR TYPICAL VALUE INFLUENCES.—

(A) IN GENERAL.—The appraiser shall consider, and adjust as appropriate, the price of sales of comparable land for all typical value influences described in subparagraph (B).

(B) VALUE INFLUENCES.—The typical value influences referred to in subparagraph (A) include—

(i) differences in the locations of the parcels;

(ii) accessibility, including limitations on access attributable to—

(I) weather;

(II) the condition of roads or trails;

(III) restrictions imposed by the agency; or

(IV) other factors;

(iii) the presence of marketable timber;

(iv) limitations on, or the absence of, services such as law enforcement, fire control, road maintenance, or snow plowing;

(v) the condition and regulatory compliance of any site improvements; and

(vi) any other typical value influences described in standard appraisal literature.

(4) ADJUSTMENTS TO SALES OF COMPARABLE PARCELS.—

(A) UTILITIES, ACCESS, OR FACILITIES.—

(i) AGENCY.—Utilities, access, or facilities serving a lot that are provided by the agency shall be included as features of the lot being appraised.

(ii) CABIN OWNERS.—Utilities, access, or facilities serving a lot that are provided by the cabin owner (or a predecessor of the cabin owner) shall not be included as a feature of the lot being appraised.

(iii) THIRD PARTIES.—Utilities, access, or facilities serving a lot that are provided by a third party shall not be included as a feature of the lot being appraised unless, in accordance with subsection (a)(1), the agency determines that the capital costs have not been or are not being paid by the cabin owner (or a predecessor of the cabin owner).

(iv) WITHDRAWAL OF UTILITY OR ACCESS BY AGENCY.—If, during the term of an authorization, the agency or an act of God creates a substantial and materially adverse change in—

(I) the provision or maintenance of any utility or access; or

(II) a qualitative feature of the lot or immediate surroundings;

the cabin owner shall have the right to request, and, at the discretion of the Secretary, obtain a new determination of the base cabin user fee at the expense of the agency.

(B) ADJUSTMENT FOR EXCLUSION.—In a case in which any comparable sale includes utilities, access, or facilities that are to be excluded in the appraisal of the subject lot, the price of the comparable sale shall be adjusted, as appropriate.

(C) ADJUSTMENT PROCESS.—

(i) IN GENERAL.—The appraiser shall consider and adjust, as appropriate, the price of each sale of a comparable parcel for all nonnatural features referred to in subparagraph (A)(ii) that—

(I)(aa) are present at, or add value to, the comparable parcel; but

(bb) are not present at the lot being appraised; or

(II) are not included in the appraisal as described in subparagraph (A).

(ii) ADJUSTMENTS.—

(I) IN GENERAL.—In a case in which the price of a parcel sold is to be adjusted in accordance with subparagraph (B), the adjustment may be based on an analysis of market or cost information or both.

(II) COST INFORMATION.—If cost information is used as the basis of an adjustment under subclause (I), the cost information shall be supported by direct market evidence.

(iii) ANALYSIS OF COST INFORMATION.—An analysis of cost information under clause (ii)(I) should include allowances, as appropriate, if the allowances are consistent with—

(I) the Uniform Standards of Professional Appraisal Practice in effect on the date of the analysis; and

(II) the Uniform Appraisal Standards for Federal Land Acquisition.

(D) REAPPRAISAL FOR AND RECALCULATION OF BASE CABIN USER FEE.—Periodically, but not less often than once every 10 years, the Secretary shall recalculate the base cabin user fee (including conducting any reappraisal required to recalculate the base cabin user fee).

SEC. 607. CABIN USER FEES.

(a) IN GENERAL.—The Secretary shall establish the cabin user fee as the amount that is equal to 5 percent of the market value of the lot, as determined in accordance with section 606, reflecting an adjustment to the typical market rate of return due to restrictions imposed by the permit, including—

(1) the limited term of the authorization;

(2) the absence of significant property rights normally attached to fee simple ownership; and

(3) the public right of access to, and use of, any open portion of the lot on which the cabin or other enclosed improvements are not located.

(b) FEE FOR CARETAKER CABIN.—The base cabin user fee for a lot on which a caretaker cabin is located shall not be greater than the base cabin user fee charged for the authorized use of a similar typical lot in the tract.

(c) ANNUAL CABIN USER FEE IN THE EVENT OF DETERMINATION NOT TO REISSUE AUTHORIZATION.—If the Secretary determines that an authorization should not be reissued at the end of a term, the Secretary shall—

(1) establish as the new base cabin user fee for the remaining term of the authorization the amount charged as the cabin user fee in the year that was 10 years before the year in which the authorization expires; and

(2) calculate the current cabin user fee for each of the remaining 9 years of the term of the authorization by multiplying—

(A) 1/10 of the new base cabin user fee; by

(B) the number of years remaining in the term of the authorization after the year for which the cabin user fee is being calculated.

(d) ANNUAL CABIN USER FEE IN EVENT OF CHANGED CONDITIONS.—If a review of a decision to convert a lot to an alternative public use indicates that the continuation of the authorization for use and occupancy of the cabin by the cabin owner is warranted, and the decision is subsequently reversed, the Secretary may require the cabin owner to pay any portion of annual cabin user fees that were forgone as a result of the expectation of termination of use and occupancy of the cabin by the cabin owner.

(e) TERMINATION OF FEE OBLIGATION IN LOSS RESULTING FROM ACTS OF GOD OR CATASTROPHIC EVENTS.—On a determination by the agency that, because of an act of God or a catastrophic event, a lot cannot be safely occupied and the authorization for the lot should accordingly be terminated, the fee obligation of the cabin owner shall terminate effective on the date of the occurrence of the act or event.

SEC. 608. ANNUAL ADJUSTMENT OF CABIN USER FEE.

(a) IN GENERAL.—The Secretary shall adjust the cabin user fee annually, using a rolling 5-year average of a published price index in accordance with subsection (b) or (c) that reports changes in rural or similar land values in the State, county, or market area in which the lot is located.

(b) INITIAL INDEX.—

(1) IN GENERAL.—For the period of 10 years beginning on the date of enactment of this title, the Secretary shall use changes in agricultural land prices in the appropriate State or county, as reported in the Index of Agricultural Land Prices published by the Department of Agriculture, to determine the annual adjustment to the cabin user fee in accordance with subsections (a) and (d).

(2) STATEWIDE CHANGES.—In determining the annual adjustment to the cabin user fee for an authorization located in a county in which agricultural land prices are influenced by the value influences described in section 606(b)(3), the Secretary shall use average statewide changes in the State in which the lot is located.

(c) NEW INDEX.—

(1) IN GENERAL.—Not later than 10 years after the date of enactment of this title, the Secretary may select and use an index other than the method of adjustment of a cabin user fee described in subsection (b)(2) to adjust a cabin user fee if the Secretary determines that a different index better reflects change in the value of a lot over time.

(2) SELECTION PROCESS.—Before selecting a new index, the Secretary shall—

(A) solicit and consider comments from the public; and

(B) not later than 60 days before the date on which the Secretary makes a final index selection, submit any proposed selection of a new index to—

(i) the Committee on Resources of the House of Representatives; and

(ii) the Committee on Agriculture, Nutrition, and Forestry of the Senate.

(d) LIMITATION.—In calculating an annual adjustment to the base cabin user fee as determined by the initial index described in section (b), the Secretary shall—

(1) limit any annual fee adjustment to an amount that is not more than 5 percent per year when the change in agricultural land values exceeds 5 percent in any 1 year; and

(2) apply the amount of any adjustment that exceeds 5 percent to the annual fee payment for the next year in which the change in the index factor is less than 5 percent.

SEC. 609. PAYMENT OF CABIN USER FEES.

(a) DUE DATE FOR PAYMENT OF FEES.—A cabin user fee shall be prepaid annually by the cabin owner.

(b) PAYMENT OF EQUAL OR LESSER FEE.—If, in accordance with section 607, the Secretary determines that the amount of a new base cabin user fee is equal to or less than the amount of the current base cabin user fee, the Secretary shall require payment of the new base cabin user fee by the cabin owner in accordance with subsection (a).

(c) PAYMENT OF GREATER FEE.—If, in accordance with section 607, the Secretary determines that the amount of a new base cabin user fee is greater than the amount of the current base cabin user fee, the Secretary shall—

(1) require full payment of the new base cabin user fee in the first year following completion of the fee determination procedure if the increase in the amount of the new base cabin user fee is not more than 100 percent of the current base cabin user fee; or

(2) phase in the increase over the current base cabin user fee in approximately equal increments over 3 years if the increase in the amount of the new base cabin user fee is more than 100 percent of the current base cabin user fee.

SEC. 610. RIGHT OF SECOND APPRAISAL.

(a) RIGHT OF SECOND APPRAISAL.—On receipt of notice from the Secretary of the determination of a new base cabin user fee, the cabin owner—

(1) not later than 60 days after the date on which the notice is received, may notify the Secretary of the intent of the cabin owner to obtain a second appraisal; and

(2) may obtain, within 1 year following the date of receipt of the notice under this subsection, at the expense of the cabin owner, a second appraisal of the typical lot on which the initial appraisal was conducted.

(b) CONDUCT OF SECOND APPRAISAL.—In conducting a second appraisal, the appraiser selected by the cabin owner shall—

(1) have qualifications equivalent to the appraiser that conducted the initial appraisal in accordance with section 606(a)(4);

(2) use the appraisal guidelines used in the initial appraisal in accordance with section 606(a)(5);

(3) consider all relevant factors in accordance with this title (including guidelines developed under section 606(a)(3)); and

(4) notify the Secretary of any material differences of fact or opinion between the initial appraisal conducted by the agency and the second appraisal.

(c) REQUEST FOR RECONSIDERATION OF BASE CABIN USER FEE.—A cabin owner shall submit to the Secretary any request for reconsideration of the base cabin user fee, based on the results of the second appraisal, not later than 60 days after the receipt of the report for the second appraisal.

(d) RECONSIDERATION OF BASE CABIN USER FEE.—On receipt of a request from the cabin owner under subsection (c) for reconsideration of a base cabin user fee, not later than 60 days after the date of receipt of the request, the Secretary shall—

(1) review the initial appraisal of the agency;

(2) review the results and commentary from the second appraisal;

(3) determine a new base cabin user fee in an amount that is—

(A) equal to the base cabin user fee determined by the initial or the second appraisal; or

(B) within the range of values, if any, between the initial and second appraisals; and

(4) notify the cabin owner of the amount of the new base cabin user fee.

SEC. 611. RIGHT OF APPEAL AND JUDICIAL REVIEW.

(a) RIGHT OF APPEAL.—Notwithstanding any action of a cabin owner to exercise rights in accordance with section 610, the Secretary shall by regulation grant the cabin owner the right to an administrative appeal of the determination of a new base cabin user fee.

(b) JUDICIAL REVIEW.—A cabin owner that is adversely affected by a final decision of the Secretary under this title may bring a civil action in United States district court.

SEC. 612. CONSISTENCY WITH OTHER LAW AND RIGHTS.

(a) CONSISTENCY WITH RIGHTS OF THE UNITED STATES.—Nothing in this title limits or restricts any right, title, or interest of the United States in or to any land or resource.

(b) SPECIAL RULE FOR ALASKA.—In determining a cabin user fee in the State of Alaska, the Secretary shall not establish or impose a cabin user fee or a condition affecting a cabin user fee that is inconsistent with 1303(d) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3193(d)).

SEC. 613. REGULATIONS.

Not later than 2 years after the date of enactment of this title, the Secretary shall promulgate regulations to carry out this title.

SEC. 614. TRANSITION PROVISIONS.

(a) ASSESSMENT OF ANNUAL FEES.—For the period of time determined under subsection (b), the Secretary shall charge each cabin owner an annual fee as follows:

(1) LOTS NOT APPRAISED SINCE SEPTEMBER 30, 1995.—For a lot that has not been appraised since September 30, 1995, the annual fee shall be equal to the amount of the annual fee in effect on the date of enactment of this title, adjusted annually to reflect changes in the Implicit Price Deflator-Gross National Product Index.

(2) LOTS APPRAISED ON OR AFTER SEPTEMBER 30, 1995.—

(A) IN GENERAL.—Except as provided in subparagraph (B), for a lot that has been appraised on or after September 30, 1995, the annual fee shall be equal to the amount of the fee in effect on the date of enactment of this title, adjusted annually to reflect changes in the Implicit Price Deflator-Gross National Product Index.

(B) APPRAISALS RESULTING IN BASE FEE INCREASE.—

(i) IN GENERAL.—Except as provided in clause (ii), for a lot that has been appraised on or after September 30, 1995, for which the appraisal resulted in an increase of the base fee by an amount greater than $3,000, the annual fee shall be equal to the sum of $3,000 plus the amount of the annual fee in effect on October 1, 1996, adjusted annually to reflect the percentage change in the Implicit Price Deflator-Gross National Product Index.

(ii) FEES PAID AFTER REQUEST OF NEW APPRAISAL OR PEER REVIEW.—If—

(I) the cabin owner of a lot described in clause (i) requests a new appraisal or peer review under subsection (c); and

(II) the base cabin user fee established as a result of the appraisal or peer review is determined to be an amount that is 90 percent or more of the fee in effect for the lot as determined by an appraisal conducted on or after September 30, 1995;

the Secretary shall charge the cabin owner, in addition to the annual fee that would otherwise have been due under section 609, the difference between the base cabin user fee determined through the conduct of the new appraisal or peer review and the annual fee that would otherwise have been due under section 609, to be assessed retroactively for each year beginning with the year in which the previous appraisal was conducted, and to be paid in 3 equal annual installments.

(b) TERM.—

(1) LOTS NOT APPRAISED SINCE SEPTEMBER 30, 1995.—For a lot that has not been appraised since September 30, 1995, the Secretary shall charge fees in accordance with subsection (a)(2)(A) until—

(A) a base cabin user fee is determined in accordance with—

(i) this title; or

(ii) regulations and policies in effect on the date of enactment of this title; and

(B) the right of the cabin owner to a second appraisal under section 610 is exhausted.

(2) LOTS APPRAISED ON OR AFTER SEPTEMBER 30, 1995.—For a lot that has been appraised on or after September 30, 1995, the Secretary shall charge fees under subsection (a)(2) until—

(A) the cabin owner requests a new appraisal or peer review, and a base cabin user fee is established, under subsection (c); or

(B) in the absence of a request for a peer review or a new appraisal under subsection (c), the date that is 2 years after the date on which the Forest Service promulgates regulations and policies and develops appraisal guidelines under this title.

(c) REQUEST FOR NEW APPRAISAL UNDER NEW LAW.—

(1) IN GENERAL.—Not later than 2 years after the promulgation of final regulations and policies and the development of appraisal guidelines in accordance with section 606(a)(5), cabin owners that are subject to appraisals completed after September 30, 1995, but before the date of promulgation of final regulations under section 613, may request, in accordance with paragraph (2), that the Secretary—

(A) conduct a new appraisal and determine a new base cabin user fee in accordance with this title; or

(B) commission a peer review of the existing appraisals in accordance with paragraph (4).

(2) APPRAISAL GROUPINGS BY TYPICAL LOT.—A request for a new appraisal or for a peer review of existing appraisals under paragraph (1) shall be made by a majority of the cabin owners in a group of cabins represented in the appraisal process by a typical lot.

(3) CONDUCT OF NEW APPRAISAL.—On receipt of a request for an appraisal and fee determination in accordance with paragraph (2), the Secretary shall conduct the new appraisal and fee determination in accordance with this title.

(4) PEER REVIEW OF EXISTING APPRAISALS.—

(A) IN GENERAL.—On receipt of a request for peer review in accordance with paragraph (2), the Secretary shall obtain from an independent professional appraisal organization a review of the appraisal (including any report on the appraisal) that was used to establish the estimated fee simple value of the lots within the subject grouping.

(B) INCONSISTENCY.—If peer review described in subparagraph (A) results in a determination that an appraisal or appraisal report includes provisions or procedures that were implemented or conducted in a manner inconsistent with this title, the Secretary shall, as appropriate and in accordance with this title—

(i) revise an existing base cabin user fee; or

(ii) subject to an agreement with the cabin owners, conduct a new appraisal and fee determination.

(5) PAYMENT OF COSTS.—Cabin owners and the Secretary shall share, in equal proportion, the payment of all reasonable costs of any new appraisal or peer review.

(d) ASSUMPTION OF NEW BASE CABIN USER FEE.—In the absence of a request under subsection (c) for a new appraisal and fee determination from a cabin owner whose cabin user fee was determined as a result of an appraisal conducted after September 30, 1995, but before the date of promulgation of final regulations under section 613, the Secretary may consider the base cabin user fee resulting from the appraisal conducted between September 30, 1995 and the date of promulgation of the final regulations under section 613 to be the base cabin user fee that complies with this section.

TITLE VII—TREATMENT OF CERTAIN FUNDS FOR MINER BENEFITS

SEC. 701. (a) REALLOCATION OF INTEREST.—Notwithstanding any other provision of law, interest credited to the fund established by section 401 of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1231) for fiscal years 1992 through 1995 not transferred to the Combined Fund identified in section 402(h)(2) of such Act prior to the date of enactment of this Act shall be transferred to such Combined Fund—

(1) in such amounts as estimated by the trustees of such Fund to offset the amount of any deficit in net assets in the Combined Fund through August 31, 2001;

(2) in the amount of $2,200,000 for the purpose of the Combined Fund providing a refund of any premium (as described in section 9704(a) of the Internal Revenue Code of 1988), on a proportional basis, to those signatory operators or any related persons to such operators (as defined in section 9701(c) of the Internal Revenue Code of 1988) who have been denied such refunds as the result of final judgments or settlements if prior to the date of enactment of this Act such signatory operator (or any related persons to such operator)—

(A) had all of its beneficiary assignments made under section 9706 of the Internal Revenue Code of 1986 voided by the Commissioner of the Social Security Administration;

(B) was subject to a final judgment or final settlement of litigation adverse to a claim by such operator that the assignment of beneficiaries under section 9706 of the Internal Revenue Code of 1986 was unconstitutional as applied to it; and

(C) paid to the Combined Fund any premium amount that had not been refunded; and

(3) in such amounts as necessary for the purpose of the Combined Fund providing a monthly refund of any premium (as described in section 9704(a) of the Internal Revenue Code of 1986) paid by an assigned operator (as defined by section 9701(c)(5) of the Internal Revenue Code of 1986) commencing with the first monthly premium due date after the date of enactment of this Act and ending August 31, 2001, if according to the records of the Combined Fund such operator (or any related persons of such operator)—

(A) was not a signatory to the 1981 or later National Bituminous Coal Wage Agreement or any ''me too'' agreement related to such Coal Wage Agreement;

(B) reported credit hours to the UMWA 1974 Pension Plan on fewer than ten classified mine workers in every month during its last year of operations under the National Bituminous Coal Wage Agreement of 1978 or any ''me too'' agreement related to such Coal Wage Agreement;

(C) has had not more than 60 beneficiaries, including eligible dependents of retired miners, assigned to it under section 9706 of the Internal Revenue Code of 1986 not including beneficiary assignments relieved by the Social Security Administration;

(D) was assessed premiums by the Combined Fund in October 1999, made payments pursuant to that assessment and has no delinquency as of September 30, 2000; and

(E) is not directly engaged in the production or sale of coal and has no related person engaged in the production of coal as of September 30, 2000.

(b) SEPARABILITY CLAUSE.—If any provision of this title or the application thereof to any person or circumstances is held invalid, the remainder of the title and the application of such provision to other persons or circumstances shall not be affected thereby.

TITLE VIII—LAND CONSERVATION, PRESERVATION AND INFRASTRUCTURE IMPROVEMENT

For activities authorized by law for the acquisition, conservation, and maintenance of Federal and non-Federal lands and resources, and for Payments in Lieu of Taxes, in addition to the amounts provided under previous titles of this Act, $686,000,000, to remain available until expended, of which $179,000,000 is for the acquisition of lands or interests in lands; and of which $50,000,000 is for ''National Park Service, Land Acquisition and State Assistance'' for the state assistance program; and of which $20,000,000 is for ''Forest Service, National Forest System'' for inventory and monitoring activities and planning; and of which $78,000,000 is for ''United States Fish and Wildlife Service, Cooperative Endangered Species Fund''; and of which $20,000,000 is for ''United States Fish and Wildlife Service, North American Wetlands Conservation Fund''; and of which $20,000,000 is for ''United States Geological Survey, Surveys, Investigations, and Research'' for science and cooperative programs; and of which $30,000,000 is for ''Forest Service, State and Private Forestry'' for the Forest Legacy program; and of which $50,000,000 is for ''United States Fish and Wildlife Service, State Wildlife Grants''; and of which $20,000,000 is for ''National Park Service,

Urban Park and Recreation Fund''; and of which $15,000,000 is for ''National Park Service, Historic Preservation Fund'' for grants to states and Indian tribes; and of which $4,000,000 is for ''Forest Service, State and Private Forestry'' for urban and community forestry programs; and of which $50,000,000 is for ''Bureau of Land Management, Payments in Lieu of Taxes''; and of which $150,000,000 is for ''Federal Infrastructure Improvement'' for the deferred maintenance needs of the Federal land management agencies: Provided, That of the funds provided under this heading for the acquisition of lands or interests in lands, $130,000,000 shall be available to the Department of the Interior and $49,000,000 shall be available to the Department of Agriculture, Forest Service: Provided further, That none of the funds provided under this heading for the acquisition of lands or interests in lands shall be available until the House Committee on Appropriations and the Senate Committee on Appropriations provide to the Secretaries, in writing, a list of specific acquisitions to be undertaken with such funds: Provided further, That of the funds provided under this heading for ''Federal Infrastructure Improvement'' for the deferred maintenance needs of the Federal land management agencies, $25,000,000 shall be for the Bureau of Land Management, $25,000,000 shall be for the United States Fish and Wildlife Service, $50,000,000 shall be for the National Park Service and $50,000,000 shall be for the Forest Service.

SEC. 801. (a) CATEGORIES.—Section 251(c) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901(c)) is amended—

(1) in paragraph (6), by—

(A) in subparagraph (B), by striking ''and'' after the semicolon;

(B) in subparagraph (C), by inserting ''and'' after the semicolon; and

(C) adding at the end the following:

''(D) for the conservation spending category: $1,760,000,000, in new budget authority and $1,232,000,000 in outlays;'';

(2) in paragraph (7), by—

(A) in subparagraph (A), by striking ''and'' after the semicolon;

(B) in subparagraph (B), by striking the period and inserting ''; and''; and

(C) adding at the end the following:

''(C) for the conservation spending category: $1,920,000,000, in new budget authority and $1,872,000,000 in outlays;''; and

(3) by inserting after paragraph (7) the following:

''(8) with respect to fiscal year 2004 for the conservation spending category: $2,080,000,000, in new budget authority and $2,032,000,000 in outlays;

''(9) with respect to fiscal year 2005 for the conservation spending category: $2,240,000,000, in new budget authority and $2,192,000,000 in outlays;

''(10) with respect to fiscal year 2006 for the conservation spending category: $2,400,000,000, in new budget authority and $2,352,000,000 in outlays;

''(11) with respect to each fiscal year 2002 through 2006 for the Federal and State Land and Water Conservation Fund sub-category of the conservation spending category: $540,000,000 in new budget authority and the outlays flowing therefrom;

''(12) with respect to each fiscal year 2002 through 2006 for the State and Other Conservation sub-category of the conservation spending category: $300,000,000 in new budget authority and the outlays flowing therefrom;

''(13) with respect to each fiscal year 2002 through 2006 for the Urban and Historic Preservation sub-category of the conservation spending category: $160,000,000 in new budget authority and the outlays flowing therefrom;

''(14) with respect to each fiscal year 2002 through 2006 for the Payments in Lieu of Taxes sub-category of the conservation spending category: $50,000,000 in new budget authority and the outlays flowing therefrom;

''(15) with respect to each fiscal year 2002 through 2006 for the Federal Deferred Maintenance sub-category of the conservation spending category: $150,000,000 in new budget authority and the outlays flowing therefrom;

''(16) with respect to fiscal year 2002 for the Coastal Assistance sub-category of the conservation spending category: $440,000,000 in new budget authority and the outlays flowing therefrom; with respect to fiscal year 2003 for the Coastal Assistance sub-category of the conservation spending category: $480,000,000 in new budget authority and the outlays flowing therefrom; with respect to fiscal year 2004 for the Coastal Assistance sub-category of the conservation spending category: $520,000,000 in new budget authority and the outlays flowing therefrom; with respect to fiscal year 2005 for the Coastal Assistance sub-category of the conservation spending category: $560,000,000 in new budget authority and the outlays flowing therefrom; and with respect to fiscal year 2006 for the Coastal Assistance sub-category of the conservation spending category: $600,000,000 in new budget authority and the outlays flowing therefrom;''.

(b) ADDITION TO DISCRETIONARY SPENDING LIMITS.—Section 251(b)(2) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901(b)(2)) is amended by adding at the end the following:

''(H) CONSERVATION SPENDING.—(i) If a bill or resolution making appropriations for any fiscal year appropriates an amount for the conservation spending category that is less than the limit for the conservation spending category as specified in subsection (c), then the adjustment for new budget authority and outlays for the following fiscal year for that category shall be the amount of new budget authority and outlays that equals the difference between the amount appropriated and the amount of that category specified in subsection (c).

''(ii) If a bill or resolution making appropriations for any fiscal year appropriates an amount for any conservation spending sub-category that is less than the limit for that conservation spending sub-category as specified in subsections (c)(11)–(c)(16), then the adjustment for new budget authority for the following fiscal year for that sub-category shall be the amount of new budget authority that equals the difference between the amount appropriated and the amount of that sub-category specified in subsection (c)(11)–(c)(16).

''(iii) The total amount provided for any conservation activity within the conservation spending category may not exceed any authorized ceiling for that activity.''.

(c) CATEGORIES DEFINED.—Section 250(c)(4) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 900(c)(4)) is amended by adding at the end the following:

''(E) The term 'conservation spending category' means discretionary appropriations for conservation activities in the following budget accounts or portions thereof providing appropriations to preserve and protect lands, habitat, wildlife, and other natural resources, to provide recreational opportunities, and for related purposes:

''(i) 14–5033 Bureau of Land Management Land Acquisition.

''(ii) 14–5020 Fish and Wildlife Service Land Acquisition.

''(iii) 14–5035 National Park Service Land Acquisition and State Assistance.

''(iv) 12–9923 Forest Service Land Acquisition.

''(v) 14–5143 Fish and Wildlife Service Cooperative Endangered Species Conservation Fund.

''(vi) 14–5241 Fish and Wildlife Service North American Wetlands Conservation Fund.

''(vii) 14–1694 Fish and Wildlife Service State Wildlife Grants.

''(viii) 14–0804 United States Geological Survey Surveys, Investigations, and Research, the State Planning Partnership programs: Community/Federal Information Partnership, Urban Dynamics, and Decision Support for Resource Management.

''(ix) 12–1105 Forest Service State and Private Forestry, the Forest Legacy Program, Urban and Community Forestry, and Smart Growth Partnerships.

''(x) 14–1031 National Park Service Urban Park and Recreation Recovery program.

''(xi) 14–5140 National Park Service Historic Preservation Fund.

''(xii) Youth Conservation Corps.

''(xiii) 14–1114 Bureau of Land Management Payments in Lieu of Taxes.

''(xiv) Federal Infrastructure Improvement (as established in title VIII of the Department of the Interior and Related Agencies Appropriations Act, 2001).

''(xv) 13–1460 NOAA Procurement Acquisition and Construction, the National Marine Sanctuaries and the National Estuarine Research Reserve Systems.

''(xvi) 13–1450 NOAA Operations, Research, and Facilities, the Coastal Zone Management Act programs, the National Marine Sanctuaries, the National Estuarine Research Reserve Systems, and Coral Restoration programs.

''(xvii) 13–1451 NOAA Pacific Coastal Salmon Recovery.

''(F) The term 'Federal and State Land and Water Conservation Fund sub-category' means discretionary appropriations for activities in the accounts described in (E)(i)–(E)(iv) or portions thereof.

''(G) The term 'State and Other Conservation sub-category' means discretionary appropriations for activities in the accounts described in (E)(v)–(E)(ix), with the exception of Urban and Community Forestry as described in (E)(ix), or portions thereof.

''(H) The term 'Urban and Historic Preservation sub-category' means discretionary appropriations for activities in the accounts described in (E)(ix)–(E)(xii), with the exception of Forest Legacy and Smart Growth Partnerships as described in (E)(ix), or portions thereof.

''(I) The term 'Payments in Lieu of Taxes sub-category' means discretionary appropriations for activities in the account described in (E)(xiii) or portions thereof.

''(J) The term 'Federal Deferred Maintenance sub-category' means discretionary appropriations for activities in the account described in (E)(xiv) or portions thereof.

''(K) The term 'Coastal Assistance sub-category' means discretionary appropriations for activities in the accounts described in (E)(xv)–(E)(xvii) or portions thereof.''.

TITLE IX

DEPARTMENT OF THE TREASURY

BUREAU OF THE PUBLIC DEBT

GIFTS TO THE UNITED STATES FOR REDUCTION OF THE PUBLIC DEBT

For deposit of an additional amount into the account established under section 3113(d) of title 31, United States Code, to reduce the public debt, $5,000,000,000.

This Act may be cited as the ''Department of the Interior and Related Agencies Appropriations Act, 2001''.

And the Senate agree to the same.

Managers on the part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4578), making appropriations for the Department of the Interior and Related Agencies for the fiscal year ending September 30, 2001, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The conference agreement on H.R. 4578 incorporates some of the provisions of both the House and the Senate versions of the bill. Report language and allocations set forth in either House Report 106–646 or Senate Report 106–312 that are not changed by the conference are approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not negate the language referenced above unless expressly provided herein.

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

The conference agreement provides $709,733,000 for management of lands and resources instead of $670,571,000 as proposed by the House and $689,133,000 as proposed by the Senate.

Increases above the House for land resources include $1,500,000 for noxious weeds, $500,000 for the national laboratory grazing study, $500,000 for Montana State University weed program, $750,000 for Idaho weed control, $50,000 for petroglyphs protection and $4,000,000 for the horse and burro program.

Increases above the House for wildlife and fisheries include $900,000 for Yukon River salmon and $500,000 for the National Fish and Wildlife Foundation.

Increases above the House for threatened and endangered species include $2,000,000 for the sagebrush and prairie grasslands.

Increases above the House for recreation management include $1,000,000 for Missouri River activities associated with the Lewis and Clark Bicentennial celebration, $500,000 for the Missouri River undaunted stewardship program and $8,000,000 for public land treasures.

The managers have provided an additional $8,000,000 for public land treasures under recreation resources management, of which $5,000,000 is for National conservation areas and $3,000,000 is for National historic trails and scenic rivers. These funds should be allocated to the appropriate activities and subactivities as proposed in the Bureau's budget request.

Increases above the House for energy and minerals include $1,000,000 for the minerals at risk program, $700,000 for the development of a mining claim information system in Alaska, and $500,000 for a coalbed methane EIS in Montana.

Increases above the House for realty and ownership management include $847,000 for uncontrollable costs, $145,000 for rights of way backlog, $650,000 for the Montana cadastral project, $300,000 for the Utah geographic reference project, and $2,400,000 for Alaska conveyance.

Increases above the House for resources protection and maintenance include $130,000 for additional personnel, $10,000,000 for updating land management plans, and a $750,000 addition to the base program.

Increases above the House level for transportation and facilities maintenance include an increase of $1,540,000 for deferred maintenance.

Increases above the House level for mining law administration include $799,000 for uncontrollable costs and $163,000 for program delivery.

The managers have provided a total increase of $19,000,000 for land use planning. At the request of the Bureau, the managers have agreed to place the entire amount in the land use planning subactivity instead of distributing these funds across numerous subactivities as was presented in the budget request. This should allow for a simpler accounting, fund distribution, and management of these funds within the Bureau. However, the managers expect the Bureau to inform the House and Senate Committees on Appropriations prior to making any significant changes from the land use priorities presented in the budget request. It is expected that these funds will be allocated primarily to those plans at greatest risk of legal challenge.

Instead of $500,000 within available funds for the Montana Bureau of Mines and Geology, Montana Tech University to perform an assessment of coal bed methane (CBM) development on water resources in the Powder River Basin as proposed by the Senate, the managers have included an additional $500,000 to prepare an EIS for future CBM and conventional oil and gas development in the Montana portion of the Powder River Basin. The managers expect that this EIS will address the impacts of CBM development on water resources in the Basin and that the agency will contract with entities such as Montana Tech University who have existing agreements with the agency for work of this nature.

The managers have provided $500,000 for the Undaunted Stewardship program, which will allow for local input and participation in grants to protect historic sites along the Lewis and Clark Trail. This program is designed to provide educational courses, develop best management practices, and establish conservation easements. This program is to be cooperatively administered by the Bureau and Montana State University.

The managers have provided an additional $9,000,000 for the implementation of the Bureau's new horse and burro strategy to achieve appropriate management levels of wild horse and burro populations on all herd management areas by 2005. This is the first time the Bureau has developed a scientific strategy with detailed program cost analysis based on extensive use of a wild horse and burro population model. This population model has been validated by the university community and the Biological Resources Division of the U.S. Geological Survey. The Managers direct that as part of the Bureau's annual budget request to the Congress, the Bureau provide an annual report on its progress towards achieving appropriate management levels.

The managers have clarified language contained in House report 106–646 dealing with wilderness reinventory efforts by the Bureau. The House language was meant to apply only to the State of Utah where the Bureau has already completed its wilderness reinventory. The managers urge the Bureau to brief the Congress, as appropriate, prior to commencing any new large-scale wilderness inventory in Utah.

The managers are pleased with the work the land managing agencies are doing in the area of bat conservation. The managers understand that the North American Strategic Plan for Bat Conservation is on the verge of completion. The managers recommend that the land management agencies cooperatively review this plan and are encouraged to develop implementation strategies when it is finalized. In addition, the agencies should continue to develop and implement cooperative cost-sharing bat conservation efforts with the States, Mexico and Canada, as well as non-governmental partners. Lastly, the agencies are encouraged to fund jointly a Federal bat coordinator position to help oversee the vast array of Federal and non-Federal bat conservation projects.

The managers encourage the Bureau to work with the Waste Management Education and Research Consortium (WERC) at New Mexico State University in addressing the problem of abandoned mine sites in the western United States. WERC can assist the Bureau by helping to establish a science-based inventory of abandoned mine sites and recommend priorities for remediation.

The managers encourage the BLM to conduct a full investigation, including review of documents and evidence provided by the Voisin family to determine if the government transferred the ownership of Last Island, Louisiana while the property was owned by ancestors of the Voisin family. Should the BLM determine that the property was transferred inappropriately, the report shall include recommendations for the resolution of this issue.

WILDLAND FIRE MANAGEMENT

The conference agreement provides $625,513,000 for wildland fire management instead of $292,197,000 as proposed by the House and $292,679,000 as proposed by the Senate.

Changes to the House included increases of $132,834,000 for preparedness and $482,000 for an Alaska rural fire suppression program. The managers have also included a contingent emergency appropriation of $200,000,000 as an emergency contingency reserve to ensure adequate funding is available to fund critical fire programs in fiscal year 2001.

The managers recognize that the severity of the 2000 fire season is attributable to a variety of factors including unusual weather conditions and accumulated wildland fuels that overwhelmed available Federal agency

resources. To prepare better for fires in 2001 and beyond, the managers propose significant improvements to preparedness, fuels treatments, and other aspects of fire management. For the Department of the Interior, the managers provide a total of $979,253,000 in both emergency and non-emergency funds for: the Department's revised calculation for normal year readiness and certain one-time improvements to preparedness capability; a greatly expanded fuels treatment program that places primary emphasis on community protection; stabilization and rehabilitation of burned areas; and community assistance programs that may be used to develop local capability and homeowner education. The following discussion includes instructions pertaining to both the title I wildfire funds as well as title IV wildfire funds.

The managers have provided $625,513,000 in Title I for wildland fire management, of which $315,406,000 in non-emergency funds for preparedness, an increase of $133,316,000 over the budget request. The conference agreement includes a $200,000,000 emergency contingency reserve, to ensure that adequate funds are immediately available to fund these critical programs in FY 2001. The managers have included in title IV for wildland fire management an emergency appropriation of $353,740,000 which includes $116,611,000 for wildfire suppression, $142,129,000 for hazardous fuels, $85,000,000 for emergency stabilization and rehabilitation, and $10,000,000 for a new rural fire assistance program. The managers strongly believe that this FY 2001 funding will only be of value in increasing the Nation's firefighting capability and ability to protect communities if it is sustained in future years.

The managers direct the Departments of the Interior and Agriculture to continue to work together to formulate complementary budget requests that reflect the same principles and budget organization. In addition, the managers expect the agencies to seek the advice of governors and local and tribal government representatives in setting priorities for fuels treatments, burned area rehabilitation, and public outreach and education.

WILDLAND FIRE PREPAREDNESS

For wildland fire preparedness, the managers provide $315,406,000 as a non-emergency appropriation in title I, $132,834,000 above the Senate, including: $254,838,000 for readiness and program management, $8,000,000 for fire sciences, $30,000,000 for deferred maintenance and capital improvement, $22,086,000 for one-time capital investments, and $482,000 for a rural Alaska fire suppression program.

The managers understand that the increased scope and intensity of the 1999 and 2000 fire seasons, as well as the increased frequency and severity of fires over the preceding decade, have led Federal fire managers to reassess the assumptions underlying an average fire season. Based on actual experience, especially over the past two years, Federal fire managers have concluded that the variables used to determine the optimal level of preparedness need to be revised. Numerous variables, including changing assumptions about fire personnel, deployment strategies and other factors affecting cost calculations underlie the recommendations in the agencies' recent report to the President. For example, the duration of the average fire season has steadily increased—by two to three months—over the past several years. The expanded fire season increases the duration of the season for which fire employees are paid and results in increased personnel costs.

The managers support the conclusions of wildfire managers that initial attack capability should be increased to address the number and severity of wildfires that have burned the landscape over the past few years. To address this revised assumption, the managers support full funding for: eight new hotshot crews that will be used for both initial attack on small fires and extended attack on larger fires; twenty new smokejumpers that serve as the primary initial attack force in remote areas; and additional air resources.

Recent experience dictates the need to increase staffing for engines from the current level of five days a week to seven days a week to combat the increasingly volatile fire season. Fire managers have also concluded that more of the firefighting workforce should be permanent seasonal, an employment status that entitles workers to benefits not earned by temporary employees. The managers support the recommendation to convert more than 1,000 positions to permanent seasonal status, as a retention incentive to ensure that a sustained cadre of professional firefighters is available when needed. This increase in overall readiness costs should prove beneficial in the long run to the government's ability to address fire readiness, overall program management, and reduce overall costs by putting out wildfires when they are small.

It is the managers' understanding that readiness and program management cost calculations have increased due to changes in resource objectives such as protection of newly discovered cultural artifacts and new land ownership patterns. In recent years costs associated with human settlement into the urban-wildland interface have risen faster than models could accurately describe and are underrepresented in average cost calculations. The managers also understand that additional wildfire management personnel will require additional equipment and appropriate work environments, and that work conditions must emphasize firefighter and public safety. Therefore, the managers have included within the preparedness activity sufficient resources to provide the equipment, office, and storage space necessary to provide safe and efficient operations. Additional funds provided under this appropriation for facilities are to be used to fund the highest priority health and safety needs, as identified in the Department's five-year plan for deferred maintenance and capital improvements.

The managers support an acceleration of research activities and expanded emphasis for the Joint Fire Science Program and have provided an additional $4,000,000 respectively to the Departments of the Interior and Agriculture to support the recommendations regarding scientific support for fuels treatments and other science needs beyond hazardous fuels. These funds are in addition to the $4,000,000 provided for each agency as part of the Administration's original budget request. Additional funds should be used for such efforts as increased rapid response projects to ensure necessary resources are available for testing and evaluation of post-fire rehabilitation, assessment of post-fire and fire behavior effects, use of aircraft-based remote sensing operations, implementation of protocols for evaluating post-fire stabilization and rehabilitation, and the development of effective means for collecting and disseminating information about treatment techniques. The managers expect the increased funds to be made available to the Joint Fire Science activities of the Departments for the direct benefit of fire management programs, including burned area rehabilitation.

One means of directly benefiting wildfire management programs is to address locally and regionally important science and technology needs associated with wildfire management and suppression, fuels management, and post-fire rehabilitation without requiring national-level requests for proposals. Thus, the managers expect the Joint Fire Sciences Governing Board to make a significant portion of the increased funds directly available to the fire management programs of the Agriculture and Interior Departments to fund projects that directly address locally and regionally important science and technology needs associated with fire management and suppression, fuels management, and post-fire rehabilitation. The managers further expect the Departments to ensure that these programs are implemented within existing structures without new program management or other overhead activities that might reduce the direct benefit of funds provided.

The January 1998 Joint Fire Science Plan developed by the two Departments and submitted to the Congress included provisions for a Stakeholder Advisory Group of technical experts from land management organizations, private industry, academia, other Federal agencies, and the public to formulate recommendations for program priorities and advise the Joint Fire Science Program Governing Board. This Group is to be established under the provisions of the Federal Advisory Committee Act. The managers are concerned that nearly three years have passed without establishment of this group. The managers direct the Secretaries to establish the group by December 31, 2000.

WILDLAND FIRE OPERATIONS

For wildland fire operations, the managers provide $468,847,000 of which $353,740,000 is funded in title IV as an emergency appropriation. This funding level includes $153,447,000 to cover costs of the ten-year average of suppression, $195,400,000 for hazardous fuels reduction, and $85,000,000 for rehabilitation of burned areas.

The managers encourage continued emphasis on safety as a priority in the suppression program. Funding provided under this appropriation is expected to provide for the most efficient and safe strategy for the protection of life, property, and resources. Funding is included to cover the projected 10–year average of suppression expenditures for the Department.

The managers have provided $195,000,000 for hazardous fuels management activities. These funds are to support activities on Federal lands and adjacent non-Federal lands, which reduce the risks and consequences of wildfire, both in and around communities and in wildland areas. Treatment methods include application of prescribed fire, mechanical removal, mulching, and application of chemicals. In many areas a combination of these methods will be necessary over a period of several years to reduce risks and to maintain healthy and viable forests and rangelands. The increased funding included in this appropriation will expand the existing fuels management program to reduce risks to communities and risks to natural resources in high-risk areas. As proposed by the Senate, the managers have included $120,300,000 for the Department of the Interior to accelerate treatments, planning efforts, and collaborative projects with non-Federal partners in the wildland-urban interface. This funding is provided as part of the

Department's ongoing fuels treatment program, but must be dedicated to projects within the urban-wildland interface.

The managers understand that fuels treatment accomplishments have been constrained by a lack of funding to conduct planning, assessments, clearances, consultation, and environmental analyses necessary for the land management and regulatory agencies to ensure that fuels treatments are accomplished quickly and in an environmentally sound manner. The managers agree that additional funding should be made available from this appropriation to conduct such assessments and clearances, in the interests of expediting fuels treatments in an environmentally sound manner. Funds may be used directly by the Bureau of Land Management, or on a reimbursable basis with National Park Service, Fish and Wildlife Service, Bureau of Indian Affairs, or National Marine Fisheries Service, to provide for appropriate planning and clearances. Funding will also be available for supporting community-based efforts to address defensible space and fuels management issues and to support outreach and education efforts associated with fuels management and risk reduction activities. In conducting treatments, local contract personnel are to be used wherever possible. The managers expect the Department to show planned and actual funding and accomplishments for fuels management activities in future budget requests to Congress. The managers understand that actual amounts may differ from planned levels and agree that the agencies have the ability to fund additional projects and amounts based on actual needs.

Within the amounts provided for wildland-urban treatments, $8,800,000 is to be made available to the Ecological Restoration Institute (ERI) of Northern Arizona University, through a cooperative agreement with the Bureau of Land Management, to support new and existing ecologically-based forest restoration activities in ponderosa pine forests. The managers' goal is to develop a scientifically based model that will promote restoration of the ecological health of forests in the southwest, while reducing the threat of wildfire to forest communities. Under this agreement, the managers expect that ERI will: (1) research, develop, monitor, and conduct fuels treatments in partnership with all Federal, Tribal, State, and private landowners to demonstrate the feasibility of restoration-based fuels treatments on a community-level; (2) conduct an adaptive ecosystem analysis of ponderosa pine and related forests as a prototype for larger ecosystem analyses, and to fill the gap between project or district/forest level analyses and regional analyses to support future operational scale treatments; (3) develop options and recommendations for developing markets for by-products of fuels treatment activities; (4) hold community workshops to design suitable treatments, training and information transfer to land managers, and information development and transfer to inform the public and land managers about ecologically-based treatments. Recognizing the importance of cooperative agreements, the managers request that the Bureau place a priority on timely negotiation and implementation of this agreement to ensure the prompt availability of funding pursuant to it, and that the Bureau conduct negotiations at the national level. The agreement shall not include funding for facilities or capital equipment like buildings and vehicles.

Included within the amounts for wildland fire operations is increased funding for burned area rehabilitation to address short term and long-term detrimental consequences of wildfires. The managers note that wildland fires burning under the right conditions, are beneficial and even essential to the health of forests and rangelands. However, some severe wildfires can trigger a wide array of detrimental impacts, ranging from short term floods, debris flow, and loss of water quality to longer term invasion by non-native species and loss of productivity of the land. The increased funding for burned area rehabilitation is designed to prevent further degradation of resources following wildland fire through (1) short-term stabilization activities to protect life and property, protect municipal watersheds, and prevent unacceptable degradation of critical natural and cultural resources, and (2) longer-term rehabilitation activities to repair and improve lands unlikely to recover naturally from severe fire damage. The managers direct the agencies to develop a long-term program to manage and supply native plant materials for use in various Federal land management restoration and rehabilitation needs. The managers recommend that the interagency native plant conservation initiative lead this effort.

It is essential to monitor over the long-term various wildfire operations and rehabilitation activities and use this evaluation to alter future activities where indicated. The managers expect that funding for burned area rehabilitation will be available from this appropriation for only a limited period of time, after which ongoing site maintenance must be funded from the land management bureaus' appropriate operating accounts. In conducting stabilization and rehabilitation treatments, local contract personnel should be used wherever possible. The managers expect the Department to show planned and actual funding and accomplishments for stabilization and rehabilitation activities in future budget requests to Congress. The managers understand that actual amounts may differ from planned levels, and agree that the agencies have the ability to fund additional projects and amounts based on actual needs.

The managers direct the Departments of the Interior and Agriculture to report to the Appropriations Committees, by December 1, 2000, on criteria for rehabilitation projects to be funded from this appropriation.

Rural fire assistance

For rural fire assistance, the managers provide $10,000,000 for the Department of the Interior in a pilot effort to enhance the fire protection capability of rural fire districts. Training, equipment purchase, and prevention activities are to be conducted on a cost-shared basis. The managers recognize that safe and effective protection in the urban-wildland interface demands close coordination between local, State, Tribal, and Federal firefighting resources. When large Interior landholdings are present, the managers support an expanded relationship between the Interior Department and other governments for purposes of developing local fire prevention capability on a cost-shared basis.

CENTRAL HAZARDOUS MATERIALS FUND

The conference agreement provides $10,000,000 for the central hazardous materials fund as proposed by the House and Senate.

CONSTRUCTION

The conference agreement provides $16,860,000 for construction instead of $5,300,000 as proposed by the House and $15,360,000 as proposed by the Senate.

Increases Above the House by Project

Project	*Cost*
Rock Springs admin. Building	$3,000,000
Caliente admin. Building	1,605,000
Susie Creek bridge	295,000
Hult Pond dam	400,000
Margie's Cove trail	95,000
Muskrat Springs water system	70,000
Dutch Joe road	235,000
Escalante science center	1,000,000
Coldfoot visitor center	3,760,000
Fort Benton visitor center	400,000
California Trail interpretive center	200,000
Blackwell Island facility	500,000

The managers encourage the Bureau to work with the town of Escalante and Garfield County, UT to ensure that the construction of the science center is consistent with the Escalante Center master plan.

PAYMENTS IN LIEU OF TAXES

The conference agreement provides $150,000,000 for payments in lieu of taxes instead of $144,385,000 as proposed by the House and $148,000,000 as proposed by the Senate.

LAND ACQUISITION

The conference agreement provides $31,100,000 for land acquisition instead of $19,000,000 as proposed by the House and $10,600,000 as proposed by the Senate. Funds should be distributed as follows:

Area (State)	*Amount*
Cerbat Foothills (AZ)	$750,000
El Dorado County (native plant preserve) (CA)	5,000,000
Gunnison Basin ACEC (CO)	2,000,000
Lower Salmon River ACEC (ID)	2,000,000
North Platte River (WY)	250,000
Organ Mtns. (NM)	2,000,000
Otay Mountain/Kuchamaa HCP (CA)	1,000,000
Potomac River (MD)	1,000,000
Potrero Creek (CA)	2,000,000
San Pedro Ecosystem (easements only) (AZ)	3,000,000
Sandy River (OR)	750,000
Santa Rosa Mtns. NSA (CA)	1,000,000
Snake River Birds of Prey NCA (ID)	500,000
Upper Crab Creek (WA)	2,000,000
Upper Snake/S. Fork Snake R. (ID)	2,000,000
West Eugene Wetlands (OR)	1,350,000
Subtotal	26,600,000
Emergency/hardship/ inholding	1,500,000
Acquisition management	3,000,000
Total	31,100,000

The amounts provided for the Santa Rosa Mountains and the Potomac River complete the Federal investment in these areas.

The managers have included $2,000,000 for acquisition of the Potrero Creek property in Southern California. These funds may not be expended until the BLM has completed an appraisal using accepted and standard government land appraisal techniques. The managers direct the BLM to begin work on the appraisal within 30 days of enactment of this Act.

OREGON AND CALIFORNIA GRANT LANDS

The conference agreement provides $104,267,000 for Oregon and California grant lands as proposed by the Senate instead of $100,467,000 as proposed by the House.

Increases above the House include $350,000 for uncontrollable costs, $3,000,000 for survey and manage, and $350,000 for annual maintenance.

RANGE IMPROVEMENTS

The conference agreement provides an indefinite appropriation for range improvements of not less than $10,000,000 as proposed by the House and Senate.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The conference agreement provides an indefinite appropriation for service charges, deposits, and forfeitures which is estimated to be $7,500,000 as proposed by the House and Senate.

MISCELLANEOUS TRUST FUNDS

The conference agreement provides an indefinite appropriation of $7,700,000 for miscellaneous trust funds as proposed by the House and Senate.

UNITED STATES FISH AND WILDIFE SERVICE

RESOURCE MANAGEMENT

The conference agreement provides $776,595,000 for resource management instead of $731,400,000 as proposed by the House and $763,442,000 as proposed by the Senate. The numerical changes described below are to the House recommended level.

In the endangered species listing program, there is a decrease of $40,000 for the borderlands program. In consultation, there are increases of $18,000 for forest planning, $2,000 for Everglades, $1,500,000 for cold water fish in Montana and Idaho, $270,000 for the California/Nevada desert resource initiative, $1,000,000 for Central Valley and Southern California habitat conservation planning, $500,000 for bighorn sheep conservation in Nevada and a general increase of $1,000,000 for other consultations.

Increases in the recovery program include $5,000,000 for matching grants for Pacific salmon conservation and restoration in Washington, $100,000 for the Citizens' Management Committee as defined by alternative one of the final EIS for grizzly bear recovery in the Bitterroot ecosystem, $288,000 for wolf recovery in Idaho, $100,000 for wolf monitoring by the Nez Perce tribe, $600,000 for eider research at the Alaska SeaLife Center, $600,000 for Lahontan cutthroat trout restoration and $500,000 for the black capped vireo in Texas. Decreases in the recovery program include $498,000 for the Bruneau Hot Springs snail and $398,000 for the Prebles meadow jumping mouse.

In habitat conservation, increases include $1,400,000 for Washington salmon enhancement, $4,000 for bull trout recovery in Washington, $500,000 for private lands conservation efforts in Hawaii, $50,000 for rehabilitation of the White River in Indiana in response to a recent fish kill, $252,000 in project planning for the Middle Rio Grande Bosque program and $350,000 for Long Live the Kings and Hood Canal Salmon Enhancement Group.

In the environmental contaminants program, there is an increase of $400,000 for baseline data on subsistence foods in Alaska.

Changes in refuge operations and maintenance include a general increase of $314,000 for refuge operations and a decrease of $445,000 for the borderlands program.

In migratory bird management, increases include $575,000 to reduce sea bird by-catch in Alaska, $2,050,000 for joint ventures, subject to the distribution described below, and a general increase of $1,000,000.

Law enforcement operations increases include $7,000,000 to fill vacancies and to train and equip new personnel and $360,000 for staffing and operations associated with the new port of entry designation in Anchorage, Alaska.

Increases in hatchery operations and maintenance include $5,000,000 for the Washington Hatchery Improvement Project, $184,000 for marking of hatchery salmon in Washington and $400,000 for the hatchery restoration/recovery program proposed in the budget request. In fish and wildlife management, there are increases of $8,000 for whirling disease research to be distributed as proposed by the Senate, $50,000 for the Regional Mark Processing Center, $11,051,000 for the Alaska subsistence program, $750,000 for the Klamath River flow study, $500,000 for Trinity River restoration, $200,000 for Yukon River fisheries management studies and $100,000 for Yukon River Salmon Treaty education efforts.

The $5,000,000 proposed by the Senate as an emergency appropriation for Atlantic salmon restoration is addressed in the emergency title of the conference agreement.

In general administration, increases include $100,000 in international affairs for the tundra to tropics program, $500,000 for the National Fish and Wildlife Foundation and $2,000,000 for Pingree Forest non-development easements in Maine to be handled through the National Fish and Wildlife Foundation.

Bill Language.—The conference agreement earmarks $1,000,000 for the Youth Conservation Corps as proposed by the House instead of $2,000,000 as proposed by the Senate. The earmark for endangered species listing programs is $6,355,000 as proposed by the Senate rather than $6,395,000 as proposed by the House. The Senate proposal to provide $5,000,000 in emergency funding for Atlantic salmon restoration in Maine has been modified to require a cost share and included in the emergency appropriations title.

The managers agree to the following:

1. The increase provided in consultation for cold water fish in Montana and Idaho are for preparation and implementation of plans, programs, or agreements identified by the States of Idaho and Montana that will address habitat for freshwater aquatic species on non-Federal lands. These funds will supplement funds that have already been allocated by the States and will only be expended for landowners that are voluntarily enrolled in such plans, programs, or agreements. The amount provided is to be split equally between Montana and Idaho.

2. While there is no specific earmark for the Prebles meadow jumping mouse in the recovery program, the managers expect the Service to continue work in this area.

3. The increase proposed by the Senate in habitat conservation for an Alaska Village Initiative for a commercial management program is not included in this account but is addressed under the Bureau of Indian Affairs.

4. While there is no specific increase for alien species control in the refuge operations and maintenance account, the Service is encouraged to place a priority on these activities in the refuge operating needs system.

5. The Service, within its fixed cost increases should ensure that a base increase is provided to cover the recently hired maintenance worker at the Ohio River Islands NWR, WV. The cost for fiscal year 2001 is estimated to be $45,000. The Service should ensure that the annualized costs for new personnel are adequately reflected in its fixed cost increase budget estimates each year.

6. Any future funding for the Klamath River flow study and the Trinity River restoration study will only be considered after the Administration has clearly identified the full estimated costs for these programs and the appropriate amounts to be budgeted by the various agencies involved for each year. The fiscal year 2002 budget justification should include an interagency crosscut table for each of these programs.

7. The managers have not agreed to the Senate language requiring ''conclusive evidence'' that the recovery zone can support grizzly bears prior to their relocation in Idaho and Montana. The managers, however, agree that no funds appropriated in this Act should be spent on the physical relocation of grizzly bears into the Selway-Bitterroot Ecosystem in Idaho and Montana prior to the completion of a peer review of the habitat study, and a conclusion based upon the best available scientific data that the recovery zone can adequately support the proposed grizzly population.

8. The managers have not agreed to the Senate language requiring that wolves that stray into Oregon be removed. The managers, however, expect the Service to learn from the mistakes made in the New Mexico wolf introduction program and to coordinate extensively with the public at every stage of the wolf reintroduction and recovery program. The protocols to be followed should be developed in close consultation with the public.

9. The managers are concerned by the Service's failure to conduct population estimation, population reassessment, and desert tortoise monitoring as described in the 1994 Desert Tortoise Recovery Plan. The managers expect the Service to undertake such work in fiscal year 2001. The methodology to be used in conducting the monitoring should be designed to permit correlation with the data gathered between 1980 and 2000.

10. General increases have been provided for refuge operations and maintenance. These increases should be distributed in accordance with the priorities set forth in the refuge operating needs system and the maintenance management system.

11. The increase provided in the environmental contaminants program is to develop baseline data on contaminants identified by the Arctic Council as threats in wildlife that are subsistence foods in Alaska. The funding also may be used to sample, in partnership with scientists employed by local governments, wildlife remains found in sudden, unexpected die-offs.

12. The projects proposed by the Senate for the Canaan Valley NWR, WV, and the Kealia Pond NWR, HI are addressed in the construction account.

13. The Service should follow the direction in the Senate report with respect to the release of prokelisia to control Spartina grass in conjunction with mowing and spraying.

14. The September 1, 2000 reprogramming request submitted by the Service to address administrative cost realignments, rental cost increases and increased administrative costs is approved. The Service should ensure that all necessary base adjustments are made in the 2002 budget within the fixed cost category to reflect correctly these ''uncontrollable'' costs.

15. The managers have recently become aware of a General Accounting Office review of procedures in the Carlsbad, CA, ecological services office. In particular, the managers are concerned by reports from GAO that automated systems are inadequate. The fiscal year 2002 budget request should address this problem.

Joint Ventures.—Funds for joint venture programs are to be distributed in fiscal year

2001 as shown in the following table. In addition, the managers expect the Service to phase in additional funding over the next three years to achieve the levels specified in the table for fiscal year 2004. To the extent that the funding specified for 2004 is insufficient, the managers do not object to a proposal for higher funding levels for joint ventures. The Service is urged to re-evaluate all their ''optimal'' funding calculations and, in particular, the sea duck joint venture calculation and report to the House and Senate Committees on Appropriations if any of those amounts should be raised. The managers note that the joint venture programs have leveraged a small amount of Federal funding many times over to accomplish much needed habitat improvements throughout the country.

JOINT VENTURES FUNDING

	Fiscal year 2001	Target level fiscal year 2004
Atlantic Coast	$380,000	$800,000
Lower Mississippi	502,000	750,000
Upper Mississippi	240,000	650,000
Prairie Pothole	1,185,000	1,400,000
Gulf Coast	340,000	700,000
Playa Lakes	225,000	700,000
Rainwater Basin	225,000	400,000
Intermountain West	240,000	1,000,000
Central Valley	360,000	550,000
Pacific Coast	240,000	700,000
San Francisco Bay	225,000	370,000
Sonoran	225,000	400,000
Arctic Goose	140,000	370,000
Black Duck	110,000	370,000
Sea Duck	250,000	550,000
Administration	599,000	750,000
Total	5,486,000	10,460,000

CONSTRUCTION

The conference agreement provides $63,015,000 for construction instead of $48,395,000 as proposed by the House and $54,803,000 as proposed by the Senate.

Funds are to be distributed as follows:

Project	Description	Amount
Alaska Maritime NWR, AK	Headquarters/Visitor Center	$593,000
Alchesay/Williams Creek NFH, AZ.	Environmental Pollution Control—Phase II (c).	927,000
Anahuac NWR, TX	Bridge Rehab/Replacement—Phase I (p/d/ic).	673,000
Bear River NWR, UT	Water management facilities (c).	500,000
Bear River NWR, UT	Education Center (c)	3,600,000
Blackwater NWR, MD	Carpentry/Auto Shop	300,000
Bozeman FTC, MT	Laboratory/Administration Building—Phase II (c).	1,600,000
Bridge Safety Inspection		495,000
Cabo Rojo NWR, PR	Replace Office Building (Seismic)—Phase I (p/d).	500,000
Canaan Valley NWR, WV	Heavy equipment replacement.	350,000
Chincoteague NWR, VA	Headquarters & Visitor Center—Phase II (c).	3,500,000
Clarks River NWR, KY	Garage and visitor access	500,000
Coleman NFH, CA	Seismic Safety Rehab of 3 buildings—Phase I (p/d).	301,000
Dam Safety Inspection		570,000
Ennis NFH, MT	Raceway Enclosure—Phase II (c).	1,000,000
Great Dismal Swamp NWR, VA.	Planning and public use	250,000
Hagerman NWR, TX	Bridge Rehabilitation—Phase I (p/d).	368,000
Jackson NFH, WY	Seismic Safety Rehab of 2 Buildings—Phase I (p/d).	373,000
John Heinz NWR, PA	Administrative wing	800,000
Kealia Pond NWR, HI	Water control structures	700,000
Kodiak NWR, AK	Visitor Center/planning	180,000
Lake Thibadeau NWR, MT	Lake Thibadeau Diversion Dam—Phase II (c).	450,000
Leavenworth NFH, WA	Nada Dam—Phase II SEED Study.	300,000
Mason Neck NWR, VA	ADA accessibility (c)	130,000
Mason Neck NWR, VA	Non-motorized trail	600,000
Nat'l Eagle Repository, CO	Relocation of National Eagle Repository—Phase II (d/c).	400,000
Nat'l Wildlife Repository, CO	Renovation of National Wildlife Property Repository—Phase II (d/c).	950,000
Nat'l Conservation Training Ctr, WV.	Fourth Dormitory (p/d/c)	12,750,000
NFW Forensics Lab, OR	Forensics Laboratory Expansion—Phase II (d/ic).	1,838,000
Noxubee NWR, MS	Visitor Center (c)	2,000,000
Parker River NWR, MA	Headquarters Complex (c)	1,230,000
Pittsford NFH, VT	Planning and design/hatchery rehabilitation.	300,000
San Pablo Bay NWR, CA	Renovate Office—Phase I (p/d).	275,000
Seatuck & Sayville NWRs, NY	Visitor facilities	115,000
Silvio O. Conte NWR, VT	Education Center	1,512,000
Six NFHs	Water Treatment Improvement—Phase II (c).	2,500,000
Sonny Bono Salton Sea NWR, CA.	Seismic Safety Rehab of 1 Building—Phase I (p/d).	55,000
Tern Island NWR, HI	Rehabilitate Seawall—Phase III (c).	8,600,000
Tishomingo NFH, OK	Pennington Creek Foot Bridge—Phase II (c).	229,000
White River NWR, AR	Visitor Center construction	1,100,000
White Sulphur Springs NFH, WV.	Holding and propagation	350,000
White Sulphur Springs NFH, WV.	Office renovations	20,000
Subtotal: Line item Construction.		53,784,000
Nationwide Engineering Services:		
Demolition Fund		1,389,000
Env. Compliance		1,860,000
Seismic Safety Program		200,000
Other Engineering Services.		5,782,000
Subtotal: Engineering Services.		9,231,000
Grant total		63,015,000

The managers agree to the following:

1. Funds for the Clarks River NWR, KY, garage and visitor contact station complete the project.

2. The Downeast Heritage Center, ME, project proposed by the Senate is addressed in the National Park Service.

3. The administrative wing at the John Heinz NWR, PA, will eliminate the need for rent associated with temporary office space. The managers note that the John Heinz refuge has done an admirable job in raising private funds for visitors' center construction.

4. The Service should pursue cost-sharing opportunities for the Kealia Pond NWR, HI, water control structure project.

5. The total cost for the Kodiak NWR, AK, Administrative and Visitors' Center should not exceed $10 million of which the Fish and Wildlife Service maximum share is $7 million and the cost share is $3 million.

6. The funding provided for a fourth dormitory at the National Conservation Training Center, WV, will complete the dormitory project and fully fund the connection of the facility to the city water supply.

7. Funds for the Noxubee NWR, MS, Administrative and Visitors' Center will complete the Fish and Wildlife Service commitment to the project.

8. The Service should, as soon as possible, notify the House and Senate Committees on Appropriations, of the total estimated cost for the Pittsford NFH, VT, hatchery rehabilitation project.

9. Funds for the Silvio O. Conte NWR, VT, Education Center will complete the Fish and Wildlife Service commitment to the project. Any additional funding requirements should be accommodated with non-Department of the Interior funds.

10. No funds are included for the Waccamaw NWR, SC, Visitors' Center. This refuge has not yet been opened. The managers urge the Service to include this project, as appropriate, in their priority system for future consideration.

11. Funds for the White River NWR, AR, Administrative and Visitors' Center, in combination with previously appropriated funds, will complete the Fish and Wildlife Service commitment to the project. The remaining $600,000 required for the visitors' center portion of the project should be accommodated with non-Department of Interior funds.

12. Funds for the holding and propagation facility at the White Sulphur Springs NFH, WV, will complete the project.

Bill Language.—The conference agreement includes bill language directing the release of previously appropriated funds for exhibits at the Ding Darling NWR, FL.

LAND ACQUISITION

The conference agreement provides $62,800,000 for land acquisition instead of $30,000,000 as proposed by the House and $46,100,000 as proposed by the Senate. Funds should be distributed as follows:

Area (State)	*Amount*
Archie Carr NWR (FL)	$2,000,000
Back Bay NWR (VA)	500,000
Balcones Canyonlands NWR (TX)	1,750,000
Big Muddy NWR (MO)	1,000,000
Bon Secour NWR (AL)	1,000,000
Buenos Aires NWR (AZ)	1,000,000
Canaan Valley NWR (WV)	500,000
Cat Island NWR (LA)	1,500,000
Centennial Valley NWR (MT)	1,750,000
Clarks River NWR (KY)	500,000
Dakota Tallgrass Prairie Project (SD)	2,100,000
Edwin B. Forsythe NWR (NJ)	1,000,000
Grand Bay NWR (AL)	1,150,000
Great Meadows Complex (MA)	1,000,000
Hakalau Forest NWR (HI)	1,000,000
Lake Umbagog NWR (NH)	1,500,000
Leslie Canyon NWR (AZ)	2,000,000
Louisiana Black Bear NWR (LA)	1,000,000
Lower Rio Grande Valley NWR (TX)	500,000
Minnesota Valley NWR (MN)	500,000
Montezuma NWR (NY)	2,000,000
Neal Smith NWR (IA)	600,000
North Dakota Prairie Project (ND)	800,000
Northern Tallgrass NWR (MN)	1,000,000
Ohio River Islands NWR (WV)	500,000
Palmyra Atoll/Kingman Reef (HI)	1,000,000
Patoka River NWR (IN)	800,000
Pelican Island NWR (Lear tract) (FL)	3,200,000
Prime Hook NWR (DE)	1,300,000
Rachel Carson NWR (ME)	1,000,000
Rappahannock River NWR (VA)	1,000,000
Rhode Island NWR Complex (RI)	1,500,000
San Diego NWR (CA)	3,000,000
Silvio O. Conte NWR (CT/MA/NH/VT)	750,000
Stewart B. McKinney NWR (CT)	1,500,000
Waccamaw NWR (SC)	1,000,000
Walkill River NWR (NJ)	1,000,000
Wertheim NWR (NY)	2,000,000
Western Montana Project (MT)	1,000,000
Whittlesey Creek NWR (WI)	500,000
Willapa NWR (WA)	2,000,000
Subtotal	50,700,000
Emergencies/Hardships	750,000
Exchanges	850,000
Inholdings	1,000,000
Acquisition Management	9,500,000
Total	$62,800,000

COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND

The conference agreement provides $26,925,000 for the cooperative endangered

species conservation fund as proposed by the Senate instead of $23,000,000 as proposed by the House. The increase above the House is for habitat conservation planning land acquisition.

NATIONAL WILDLIFE REFUGE FUND

The conference agreement provides $11,439,000 for the National wildlife refuge fund instead of $10,439,000 as proposed by the House and $10,000,000 as proposed by the Senate. The managers urge the Service to request increased funds for this account in future budget requests commensurate with increases in land acquisition.

NORTH AMERICAN WETLANDS CONSERVATION FUND

The conference agreement provides $20,000,000 for the North American wetlands conservation fund instead of $15,499,000 as proposed by the House and $16,500,000 as proposed by the Senate. Within this amount, $19,200,000 is for wetlands conservation and $800,000 is for administration.

WILDLIFE CONSERVATION AND APPRECIATION FUND

The conference agreement provides $797,000 for the wildlife conservation and appreciation fund as proposed by both the House and the Senate.

MULTINATIONAL SPECIES CONSERVATION FUND

The conference agreement provides $2,500,000 for the multinational species conservation fund as proposed by the Senate instead of $2,391,000 as proposed by the House.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

The conference agreement provides $1,389,144,000 for the operation of the National park system instead of $1,426,476,000 as proposed by the House and $1,367,554,000 as proposed by the Senate (excluding U.S. Park Police funding, which is included in a new appropriations account). The agreement provides $283,465,000 for Resource Stewardship instead of $275,124,000 as proposed by the House and $279,375,000 as proposed by the Senate. Changes to the House level include $900,000 for Learning Centers, $1,107,000 for native and exotic species management, $1,034,000 for Alaska subsistence fisheries, $1,750,000 for vegetation mapping, $825,000 for water resources restoration and protection, $1,275,000 for water quality monitoring, $500,000 for the Everglades Task Force, $250,000 for museum management, $400,000 for Vanishing Treasures and $300,000 for the ongoing Civil War Soldiers and Sailors Partnership. These funds are not intended to be used to initiate any portion of the proposed digitization initiative in the budget.

The conference agreement provides $279,871,000 for Visitor Services as proposed by the Senate. Changes to the House level include $1,000,000 for the 2001 Presidential Inaugural and $235,000 for Regional office park support.

The conference agreement provides $78,048,000 for the U.S. Park Police in a new appropriations account that follows this account.

The conference agreement provides $469,703,000 for maintenance instead of $446,661,000 as proposed by the House and $449,203,000 as proposed by the Senate. Increases to the House level include $20,000,000 for additional maintenance and operational needs of the Service. Following enactment of the Bill, the National Park Service should make the necessary adjustments to align these additional funds for the purposes approved by the House and Senate Committees on Appropriations with the proper budget subactivity. Two specific needs provided for in this increase are $975,000 for the 9 National Trails and a $2,300,000 base increase for Harpers Ferry Design Center.

In addition, the managers have provided increases of $42,000 for regional office park support, $2,000,000 for facility management software and $1,000,000 for condition assessments. The conference agreement does not include the general increase for maintenance as proposed by the House. Although the managers have provided funds for the maintenance management system and building condition assessments, the managers remain concerned that the improvements provided by these efforts will take too long to implement and may still not fully document the complete maintenance backlog of the Service, as required by the House and Senate Committees on Appropriations and by statute, within the next few years. Therefore, by April 2001, a report is to be provided to the Committees that describes how and when the Service will provide a park by park comprehensive listing, with cost estimates, of deferred maintenance affecting all facilities in the National Park Service, including buildings, historic structures, roads, trails, utility systems, campgrounds, picnic areas and all other items requiring maintenance and repair. The Service should also address the issue raised by the Committees concerning why large parks cannot conduct their own condition assessment internally and without additional funds.

Within in the amounts provided for repair and rehabilitation, the managers earmark the following projects: $350,000 to repair the lighthouse at Fire Island NS (this amount is not intended to initiate planning for a new visitor center), $75,000 to repair the Ocean Beach Pavilion at Fire Island, NS, $309,000 for repairs of the Bachlott House and $100,000 for the Alberty House which are both located at Cumberland Island NS, and $500,000 for maintenance projects at the Ozark National Scenic Riverways Park.

The conference agreement provides $259,178,000 for Park Support instead of $254,628,000 as proposed by the House and $262,178,000 as proposed by the Senate. Changes to the House level include $500,000 for regional office park support, $750,000 for mid-level management intake training program, $100,000 for Wild and Scenic Rivers (existing partnership rivers), $200,000 for a wilderness study at Apostle Islands NL and $3,000,000 for the Challenge cost share program for activities related to the anniversary of the Lewis and Clark expedition. The amount provided for Lewis and Clark related activities are for the purposes described in the Senate report, but include $2,000,000 for a major national traveling exhibition that will include more than 200 Lewis and Clark original artifacts, artworks and manuscripts. This funding must be matched by private sources.

The conference agreement provides $96,927,000 for External Administrative Costs as proposed by the Senate. Changes to the House include $2,000,000 for GSA rental space needs. The conference agreement does not include the $66,500,000 general increase proposed by the House.

Through a combination of appropriated funds, recreational fee demonstration project revenues, partnerships, and other sources, the National Park system has unprecedented levels of funding available to it to address critical resource protection and visitor service requirements. The managers emphasize the importance of applying prudent and sound financial management practices to ensure the integrity of these funding sources, particularly with regard to tracking for accountability purposes. Consistent with Comptroller General opinions, appropriations are not to be augmented with other funding sources. Projects that are identified to be completed for an identified amount of funding, regardless of fund source, are to be completed as proposed. Any additional resources to be applied to a project constitute a reprogramming and are subject to the established guidelines. The managers are particularly concerned about construction projects for which bids come in above estimates, and the proposed solution is to defer exhibits and to fund the remaining elements at a later date using a different fund source, such as fees. This is not an appropriate use of the fee program.

The managers direct that the National Park Service make sufficient funds available to assure that signs marking the Lewis and Clark route in the State of North Dakota are adequate to meet National Park Service standards.

The managers support the decision of the Ozark National Scenic Riverways to retain the carpentry and maintenance positions. The managers recognize the urgent needs at ONSR for key carpentry and maintenance personnel who have specialized skills in properly maintaining park facilities. The managers expect that these positions will be retained at ONSR.

The managers are aware of a recommendation by the National Park Service's National Leadership Council to consolidate funding for all aspects of the ongoing intake program into a centralized program. Currently, the salary costs are paid by the parks, regions, and program offices participating in the program. The managers have no objection to the internal reprogramming necessary (not to exceed $1,106,000) to allow for centralized funding for this important program. This approach results in no net change in costs and should allow for greater participation in the program by more parks throughout the system.

The managers are aware that the EPA, through cooperative agreements with the National Park Service, has maintained a long-term environmental and air quality monitoring site in the Great Smoky Mountains National Park through the demonstration intensive site project and sites in wilderness areas of the Nantahala National Forest and Pisgah National Forest. The managers are concerned, however, by reports that the EPA may be considering terminating funding support for these monitoring sites. Because of the wealth of information provided to Federal, State and local stakeholders by the sites, the managers expect the EPA to continue its monitoring partnerships with the Great Smoky Mountains NP and both national forests. The managers are also aware of the vital role played by the Southern Appalachian Mountains Initiative (SAMI), through the EPA, in studying the effects of air pollutants on the Great Smoky Mountains NP and nearby forests.

The managers wish to reiterate the concern expressed by the Senate with respect to the lack of adequate ambulance service at the Hawaii Volcanoes National Park Systems. The managers therefore direct that, within the amounts provided for operation of the National Park System, the Service shall provide the necessary funds, not to exceed $350,000, for the Federal share of the cooperative effort to provide emergency medical services in the Hawaii Volcanoes National Park. This support should be in addition to the Park's base operating funds.

The managers are aware that legislation currently under consideration would authorize the inclusion of the Wills House within Gettysburg National Military Park. Should such legislation be enacted, the managers encourage the Service to initiate rehabilitation of the House within available repair and rehabilitation funds.

The managers expect that funding for the First Ladies National Historic Site will be included in the fiscal year 2002 Park Service request and in all future budget requests.

UNITED STATES PARK POLICE

The conference agreement provides $78,048,000 for the United States Park Police as a new appropriations account instead of $75,641,000 as proposed by the House and $76,441,000 as proposed by the Senate under the operation of the National park system account.

The increases to the budget request are associated only with the Washington Monument and several other nationally recognized park sites in Washington, D.C. and in certain cases represent one time only costs. The increases include $235,000 for design costs associated with a visitor screening facility and x-ray machine at the Washington Monument, $275,000 for design of a parkwide key system, $997,000 to design and install closed circuit television and alarm systems at five specific monuments and $100,000 for planning for a parkwide communication system. Plans for any of these items that require additional appropriations should be carefully reviewed by the leadership of the National Park Service as well as the Development Advisory Board to ensure that the scope and costs are carefully and frugally estimated. The managers have also included $800,000 for the 2001 Presidential Inaugural.

The managers note that funds available for U.S. Park Police (USPP) operations have grown at a rate well above nearly every account in the Interior appropriations bill. Since fiscal year 1987, the USPP operating account has increased nearly 80 percent above inflation. By comparison, over the same period, the operating accounts for several large national parks grew by lesser amounts. The entire operation of the national park system account grew by 50 percent during this period, while accommodating the requirements of 43 new park areas. Despite the growth during this period, the House and Senate Committees on Appropriations have continued to receive requests for items that have been funded in prior years, such as anti- and counter-terrorism, drug enforcement, recruit classes, and equipment replacement. The recommendations which follow are intended to improve accountability and oversight of the USPP budget.

To strengthen fund controls that apply to the USPP, the managers have established a separate appropriation account for USPP activities. The only extent to which USPP will be able to draw on the operation of the national park system account is limited to the funds contained in that appropriation account for ongoing USPP activities at the Statue of Liberty and Gateway National Recreation Area and the purposes identified below. Bill language is included in the Operations account. The establishment of this separate appropriations account, to be managed as discussed below, will preclude funds from being transferred from the USPP to other park purposes, and vice versa.

This account covers the operational costs of the United States Park Police, including those costs for uniformed and civilian staff assigned to the USPP, supplies, materials, utilities, equipment, and pension costs for retired officers. The USPP may receive additional funds on a reimbursable basis from non-NPS entities. No other funds are to be used to augment the USPP operational budget.

As stated above, the funding recommended for this appropriation activity in fiscal year 2001 is $78,048,000, which represents the budget request and additional funds to cover the four specific items detailed above. The only other funds which may be allocated to the park police are for those USPP costs assumed in the ONPS budget as continuing in the park bases of the Statue of Liberty and Gateway National Recreation Area, to respond to approved emergency law and order incidents and to maintain and repair USPP administrative facilities. When the Director has determined the appropriate amounts of the funding of these two units that should be devoted to USPP purposes, and the level of service that the USPP must continue to provide with those resources, the House and Senate Committees on Appropriations should be informed. In developing the fiscal year 2002 budget, the Service should make the necessary adjustments to show these funding increments entirely in the USPP appropriation account.

The managers are concerned about the ongoing reports of financial shortfalls and funding discrepancies involving the USPP budget. The managers expect the USPP to prepare a detailed financial plan on the proposed use of the fiscal year 2001 funds appropriated in the separate account as well as to be made available from ONPS, within 30 days of enactment of this Act. The financial plan should include information such as existing and planned staffing levels, pay and benefits, overtime pay, recruitment classes, planned expenditures for equipment, and complete object class data for each USPP program. Once the financial plan has been reviewed and approved by the regional director for the National Capital Region, the National Park Service's comptroller, and the National Academy of Public Administration, it is to be followed.

The budget function for the USPP is to be carefully controlled by the regional director's office. Any proposed deviation from the financial plan must be approved in advance by the regional director, and if it constitutes a reprogramming pursuant to the reprogramming guidelines, must come before the House and Senate Committees on Appropriations for approval. The USPP is directed to manage its expenditures using the same financial management system as the rest of the National Park Service, and should cease use of other systems immediately. The managers expect the USPP to engage in the same budget formulation, execution, and reporting practices as the rest of the Service.

With regard to recruitment classes, the funding level recommended by the managers continues the $2,361,000 provided in fiscal year 2000 for the conduct of two recruit classes (each with a class size of 24 recruits). These funds cover salary costs for the 48 recruits as well as their training costs, travel, lodging, initial uniform, equipment, applicant physicals, and background checks. At the end of training, these recruits will fill existing funded vacancies. It is the managers' expectation that two recruit classes will be conducted in fiscal year 2001. This assumption should be reflected in the financial plan; any proposed reallocation of funds from recruit classes to other operating expenses is considered a reprogramming and must be approved by the House and Senate Committees on Appropriations.

In addition to the financial controls imposed above, the managers also expect the USPP to identify the necessary funds to pay for an independent review of the structure and financial plan of the USPP. This funding should be reflected in the financial plan. The managers direct the National Park Service to contract with the National Academy of Public Administration for this assessment within 30 days of enactment of this Act. The assessment should include: (1) an evaluation of the mission and goals of the USPP in accordance with statutory and regulatory requirements, (2) an assessment of the USPP mission vis-a-vis other Federal agencies and law enforcement entities, including a review of the extent to which the USPP is involved in supporting law enforcement functions which go beyond the mission of the National Park Service, including estimated costs associated with these activities, (3) an evaluation of current and future staffing requirements to meet mission and goals, and an examination of the methodology used by the USPP to determine staffing needs, and (4) an analysis of the spending patterns of the USPP over the last three fiscal years, with particular regard to the extent to which actual expenditures tracked against approved financial plans, the adequacy of budget projections for items such as overtime and special deployments versus actual expenses, the extent to which the USPP assessed the costs of new activities before committing personnel, a review of the operating costs for the helicopters for NPS purposes versus other jurisdictions, and an assessment of the expenditures for equipment replacement against an identified plan.

NATIONAL RECREATION AND PRESERVATION

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides $58,359,000 for National recreation and preservation instead of $47,956,000 as proposed by the House and $61,249,000 as proposed by the Senate (excluding urban parks funding, which is included in a separate appropriations account). The agreement provides $542,000 for recreation programs as proposed by the House and Senate. The agreement provides $10,805,000 for natural programs instead of $11,205,000 proposed by the House and $10,505,000 as proposed by the Senate. This includes increases of $300,000 for the Rivers and Trails program and $300,000 for hydro relicensing. While the managers have not earmarked the River and Trails program, consideration should be given to groups involved in hiking and biking trails in southeastern Michigan and the Service is encouraged to work cooperatively with groups in this area.

The conference agreement includes $20,753,000 for cultural programs instead of $19,853,000 as proposed by the House and $20,253,000 as proposed by the Senate. This includes $250,000 for the ongoing Revolutionary War/War of 1812 study, and increases of $100,000 for Gettysburg NMP technical assistance, $250,000 for the National Center for Preservation Technology and $300,000 for Heritage Preservation, Inc.

The managers are aware of efforts to commemorate and interpret underground railroad sites in Wilmington, Delaware, and the surrounding area, and encourage the National Park Service to provide technical assistance and such other support for these efforts as is consistent with the National Underground Railroad Network to Freedom Act and other appropriate Service programs.

The conference agreement includes $10,307,000 for Heritage Partnership Programs instead of $9,420,000 as proposed by the House and $9,787,000 as proposed by the Senate. Funds are to be distributed as follows:

America's Agricultural Heritage Partnership	$500,000
Augusta Canal National Heritage Area	700,000
Automobile National Heritage Area	338,000
Cache La Poudre River Corridor	50,000
Cane River National Heritage Area	400,000
Delaware and Lehigh National Heritage Corridor	600,000
Essex National Heritage Area	1,000,000
Hudson River Valley National Heritage Area	902,000
Illinois and Michigan Canal National Heritage Corridor	240,000
John H. Chafee Blackstone River Valley National Heritage Corridor	600,000
Lackawanna Heritage Area	500,000
National Coal Heritage	245,000
Ohio and Erie Canal National Heritage Center	1,000,000
Quinebaug and Shetucket Rivers Valley National Heritage Corridor	515,000
Rivers of Steel National Heritage Area	1,000,000
Schuykill National Heritage Center	200,000
Shenandoah Valley Battlefields National Historic District	400,000
South Carolina National Heritage Corridor	1,000,000
Project total	10,190,000
Overhead/fixed costs	117,000
Total	$10,307,000

The managers have reallocated the technical assistance funds requested in the budget to the individual heritage areas, which are in a better position to decide their needs. These funds are for technical assistance to local governments and partner organizations to help implement locally supported projects consistent with the overall plans for these designated areas. These funds may be used to contract for government or private sector services to respond to local requests for assistance. Within the total provided, the managers have included $17,000 for fixed costs and $100,000 for administrative overhead.

The managers direct that implementation funds for the Hudson River Valley National Heritage Area are contingent upon National Park Service approval of the management and interpretive plans that are currently being developed.

The conference agreement provides $12,296,000 for Statutory or Contractual Aid instead of $3,280,000 as proposed by the House and $16,506,000 as proposed by the Senate. The funds are to be distributed as follows:

Alaska Native Cultural Center	$742,000
Aleutian World War II National Historic Area	100,000
Brown Foundation	101,000
Chesapeake Bay Gateways	2,300,000
Dayton Aviation Heritage Commission	300,000
Four Corners Interpretive Center	2,250,000
Ice Age National Scientific Reserve	798,000
Johnstown Area Heritage Association	49,000
Lamprey River	500,000
Mandan On-a-Slant Village	500,000
Martin Luther King, Jr. Center	529,000
National First Ladies Library	500,000
Native Hawaiian culture and arts program	742,000
New Orleans Jazz Commission	66,000
Roosevelt Campobello International Park Commission	730,000
Route 66 National Historic Highway	500,000
Sewall-Belmont House	495,000
Vancouver National Historic Reserve	400,000
Wheeling National Heritage Area	594,000
Women's Progress Commission	100,000

The managers have provided $2,300,000 for the Chesapeake Bay Gateway program. Within this amount is $800,000 for grants and technical assistance and $1,500,000 for the purchase of the Holly Farm Beach property requested in the President's budget. The acquisition dollars are subject to at least an equal match by State or private funds. Should the $1,500,000 not be expended for the purchase of the Holly Farm Beach property, the Service should submit a reprogramming for other needs within the National Park Service. These funds will not be made available in addition to the $800,000 provided for the base program. The managers have not provided $2,000,000 for the Urban Parks Program in the account as proposed by the House and Senate. A total of $10 million is provided in a separate account.

The managers have included language in the bill providing for the transfer to this account of $1,595,000 previously appropriated for the acquisition of Ferry Farm, George Washington's Boyhood Home. Since an easement on this property has been acquired at the appraised fair market value, these funds are not required for further acquisition. The transferred funds are to be provided as a grant to the George Washington's Fredericksburg Foundation for the conduct of archaeological investigations at the site, research into the life of George Washington's family at Ferry Farm, development of interactive education programs, development of visitor programs, and other activities that complement the National Park Service's programs and mission in the Fredericksburg area.

URBAN PARK AND RECREATION FUND

The conference agreement provides $10,000,000 for the urban park and recreation fund instead of the $2,000,000 proposed by the House and Senate as part of the National recreation and preservation account.

HISTORIC PRESERVATION FUND

The conference agreement provides $79,347,000 for the historic preservation fund instead of $41,347,000 as proposed by the House and $44,347,000 as proposed by the Senate. Changes to the House level include $3,000,000 for State Historic Preservation Offices as proposed by the Senate.

The managers have also provided $35,000,000 for Save America's Treasures. These funds are subject to a fifty percent cost share, and no single project may receive more than one grant from this program. The funds are to be distributed as follows:

Alexandria Academy, VA	$200,000
Arlington House, VA	150,000
Ashland Depot, WI	500,000
Athens State Founders Hall, AL	100,000
Belle of Louisville, KY	500,000
Berman Museum, PA	250,000
Bodie Lighthouse, NC	200,000
Boston Symphony Hall, MA	200,000
Darwin Martin House, NY	1,000,000
Delf Norona Museum, WV	500,000
Durst-Taylor House, TX	275,000
First Avenue National Register District (Fairbanks), AK	300,000
Grays Harbor County Courthouse, WA	500,000
Barre Heritage Museum, VT	950,000
Hopewell Museum, KY	250,000
Huntsville Depot, AL	75,000
Old Danforth Street Bridge, MA	500,000
Lewes Maritime Park, DE	1,000,000
Liberty Theater, OR	400,000
Lincoln Pond/Colonial Theatre, FL	837,000
Loudoun House, KY	750,000
Marine Science Center Historic site, WA	150,000
Mark Twain House (annex), Hartford, CT	1,000,000
Mary O'Keefe Cultural Center for Arts and Education, MS	300,000
Monitor Barns project, VT	200,000
Museo de las Americas, CO	110,000
New Bedford Whaling NHP (Corson Building), MA	150,000
Ochre Court, RI	300,000
Ohio Company of Associations papers, OH	200,000
Old Dutch Church National Historic Site, NY	300,000
Osceola Courthouse, FL	500,000
Point Retreat Lighthouse, AK	300,000
Pond Spring, AL	363,000
Princess Theater, AL	125,000
Rice Museum (Brown's Ferry), SC	250,000
Rosa Parks Museum, AL	405,000
Rowan Oak, MS	300,000
Shaker Village Museum, NY	750,000
Southside Sportsman Club, NY	400,000
Titan Missile Museum, AZ	200,000
Truman Memorial, MO	250,000
Voting Rights Museum, GA	250,000
Vulcan statue, AL	1,500,000
Wausau Grand Theater, WI	400,000
Wheeler Block Building, VT	175,000
Woodward Opera House, OH	900,000
Yokut Tribe Heritage Center, CA	275,000
York Farmers' Market, PA	260,000
Subtotal	20,000,000
Undistributed	15,000,000
Total	35,000,000

Additional project recommendations for funding shall be subject to formal approval of the House and Senate Committees on Appropriations prior to any distribution of funds. Within the undistributed funds provided, the managers have no objection to the project identified in the budget request.

CONSTRUCTION

The conference agreement provides $242,174,000 for construction instead of $141,004,000 as proposed by the House and $204,450,000 as proposed by the Senate. The funds are to be distributed as follows:

[Dollars in thousands]

Project	Planning	Construction
Antietam NB, MD (stabilize/restore battlefield structures)		500
Apostle Islands NL, WI (erosion control)		1,360
Apostle Islands NL, WI (rehab Outer Island lighthouse)		600
Arches NP, UT (visitor center)	514	
Big Bend NP, TX (rehabilitate water system)		770
Canaveral NS, FL (Seminole Rest)	300	300
Cape Cod NS, MA (rehabilitate visitor center)		2,753
Castillo San Marcos NM, FL (stabilize and restore fort)		828
Chiricahua NM, AZ (replace water system)		1,128
Colonial NHP, VA (erosion control)		3,064
Corinth NB, MS (construct visitor center)		4,000
Cumberland Island NS, GA (St. Mary's visitor center)	779	
Cuyahoga NRA, OH (stabilize riverbank)		3,000
Dayton Aviation NHP, OH (east exhibits)		1,300
Delaware Water Gap NRA, PA/NJ (Depew site)	114	
Down East Heritage Center, ME	350	
Dry Tortugas NP, FL (stabilize and restore fort)		500
Edison NHS, NJ (preserve historic buildings and museum collections)	129	1,175
Everglades NP, FL (modified water delivery system)		9,000
Fire Island NS, NY (rehabilitate and protect beach facilities, dunes, wetlands)		1,933
Ft. Stanwix NM, NY (completes rehabilitation)		1,500
Ft. Washington Park, MD (repair masonry wall)	386	
Gateway NRA, NY/NJ (preservation of artifacts at Sandy Hook unit)	300	
George Washington Memorial Parkway, MD/VA (rehabilitate Glen Echo facilities)		2,200
George Washington Memorial Parkway, MD/VA (Belle Haven)	100	
George Washington Memorial Parkway, MD/VA (Mt. Vernon trail)		300
Gettysburg NMP, PA (install fire suppression)		1,323
Glacier NP, MT (rehabilitate sewage treatment system)		4,544
Grand Portage NM, MN (heritage center)	511	
Harpers Ferry NHP, WV (rehabilitate maintenance building)	153	1,086
Hispanic Cultural Center, NM (construct cultural center)		1,500
Hot Springs NP, AR (rehabilitation)		3,000
Independence NHP, PA (rehabilitate Merchant's Exchange building)		7,250
John H. Chafee Blackstone River Valley NHC, RI/MA		2,500
Kenai Fjords NP, AK (completes interagency visitor center design)	795	
Kendall Courthouse, IL (restoration)		300
Keweenaw NHP, MI (restore historic Calumett, Hecla and Union building)	400	
Lake Champlain NHLs, VT (including Mt. Independence)		650
Lincoln Library, IL		10,000
Lincoln Home NHS, IL (restore historic structures)	290	
Longfellow NHS, MA (carriage barn)		487
Maggie Walker NHS, VA (stabilize and restore historic structures)		1,867
Mammoth Cave NP, KY (resolve OSHA violations/resource deterioration)		3,650
Manzanar NHS, CA (establish interpretive center and headquarters)		5,124
Minute Man NHP, MA (restore Battle Road Trail historic structures)		818
Missouri Recreation River Research & Education Center, NE (Ponca State Park)	193	2,350
Morristown NHP, NJ	500	
Morris Thompson Visitor and Cultural Center, AK (planning)	500	
Mt. Rainier NP, WA (exhibit planning and film)	150	
National Capital Parks—Central, DC (preserve Jefferson Memorial)		936
National Constitution Center, PA (Federal contribution)		10,000
National Underground RR Freedom Center, OH		6,000
New Jersey Coastal Heritage Trail, NJ (exhibits, signage)		338
New River Gorge NR, WV (repair retaining wall, visitor facilities, technical support)	445	800
North Cascades NP, WA (stabilize and repair visitor center)		2,370
Olympic NP, WA (removal of Elwha dam & related facilities; water protection facilities)		15,000
Palace of the Governors, NM (build museum)		10,000
Palo Alto Battlefield NHS, TX (completes visitor center)	203	1,614
Petersburg NB, VA (preserve historic earthen forts)		666
Redwood NP, CA (remove failing roads)		713
Salem Maritime NHP, MA (rehabilitate historic Polish Club)		1,002
Santa Monica Mountains NRA, CA (rehabilitate unsafe facilities)		1,345
Sequoia NP, CA (remove facilities and restore Giant Forest)		8,381
Shiloh NMP, TN (erosion control)		1,000
Southwest Pennsylvania Heritage, PA (rehabilitation)		3,000
St. Croix NSR, WI (planning for VC/headquarters; rehabilitate river launch site)	240	330
St. Gaudens NHS, NH (collections building, fire suppression)	20	445
Statue of Liberty and Ellis Island, NY/NJ (ferry terminal utilities)	340	2,000
Tuskegee Airmen NHS, AL (stabilization planning)	500	
U.S. Grant Boyhood Home, OH (rehabilitation)		365
Vancouver NHR, WA (exhibits, rehabilitation)		2,000
Vicksburg NMP, MS (various)	739	550
Washita Battlefield NHS, OK (visitor center planning)	788	
Wheeling Heritage Area, WV		4,000
Wilson's Creek NB, MO (complete library)		38
Wright Brothers NM, NC (planning for visitor center restoration)	200	
Yellowstone NP, WY (replace water and wastewater treatment facilities)		5,077
Subtotal	9,939	160,630
Line-item projects (from above)		160,630
Emergency or Unscheduled Projects		3,500
Housing replacement		5,000
Dam safety		1,440
Equipment replacement		18,000
Construction planning (PB 10,840 plus amounts from above for add-ons)		20,779
Pre-design and supplementary services		4,500
Construction program management and operations		17,100
General management planning		11,225
Total, NPS Construction		242,174

The managers have provided $1,500,000 to complete the Federal investment at Fort Stanwix NM in New York.

The managers expect the Service to provide the necessary funds, within the amounts provided for Equipment Replacement, to replace the landing craft at Cumberland Island NS and replace the airplane at Glen Canyon National Recreation Area.

Within the amounts provided for special resource studies are funds to initiate a Lincoln Highway Study ($300,000), to initiate a study to define the cultural significance and value to the Nation of the Congaree Creek site in Lexington County, SC, as part of the Congaree National Swamp Monument, and a study for a national heritage area in the Upper Housatonic Valley in Northwest Connecticut. These three studies are subject to separate authorizations.

The managers support continuation of research activities initiated as part of the Women's Rights (NHP) trail study and direct the Service to continue this effort throughout fiscal year 2001. It is the managers' understanding that prior to any discussions about implementation of the plan, this project must be authorized by the appropriate House and Senate legislative committees.

The managers are aware that the Service is in the process of drafting a new management plan for the Niobrara National Scenic

River. The managers firmly believe that this plan should embody a strong and central role for a local management council as envisioned in the Niobrara Scenic River Designation Act of 1991, and as recommended by the Niobrara Scenic River Advisory Commission established pursuant to the Act. The Council should be a full partner with the National Park Service in managing the Niobrara National Scenic River, and this relationship should be reflected in the General Management Plan.

The managers are aware of a proposal by the National Park Service regarding the use of $2.6 million in unobligated funds remaining for the visitor transportation system at Grand Canyon National Park. Approximately $7.4 million was appropriated in recent years for improvements to the existing visitor transportation system at Grand Canyon. The funds were provided to meet equipment needs to expand the loop system available to South Rim visitors; to retrofit buses to natural gas; to purchase both electric and natural gas buses; and to conduct planning associated with the proposed new visitor transit system from outside the park. The managers have no objections to the use of the balance of the funds to purchase new bus trailer units as well as to install a permanent natural gas fueling station.

The managers are aware of serious information technology requirements facing the Service, and urge the Service to prioritize the necessary investments in order to foster improved management of information and business practices across the Service. Towards that end, the managers have no objection to the recommendation of the National Leadership Council that the IT equipment replacement funds appropriated herein ($1,985,000) be used to address information infrastructure costs associated with the new network design. In addition, $2,700,000 of the $20,000,000 added by the managers in the ONPS account for maintenance should be used for this purpose. Improvements to the NPS bandwidth capability should improve the ability of parks, however remote, to use systems such as the Project Management Information System, ParkNet, the Operations Formulation System, the Interior Department Electronic Acquisition System, and the Project Management Development System.

As part of the Memorandum of Understanding (MOU) directed in last year's conference agreement, the managers urge the City of Port Angeles and the Park Service to agree on the water supply facilities necessary to mitigate the impact of Elwha River dam removal. If the City and Park Service cannot agree on the type and scope of new water supply facilities by March 1, 2001 (or within a reasonable time prior to designing the facilities), the managers direct that the water supply facilities included in the MOU minimally meet the water quality standards mandated by, and be acceptable to, the Washington State Department of Health.

LAND AND WATER CONSERVATION FUND

(RESCISSION)

The conference agreement rescinds the contract authority provided for fiscal year 2001 by 16 U.S.C. 460l–10a as proposed by both the House and the Senate.

LAND ACQUISITION AND STATE ASSISTANCE

The conference agreement provides $110,540,000 for land acquisition and State assistance instead of $104,000,000 as proposed by the House and $87,140,000 as proposed by the Senate. Funds should be distributed as follows:

Area (State)	*Amount*
Apostle Islands NL (WI)	$200,000
Appalachian NST (Ovoka Farm) (VA)	1,200,000
Black Canyon of the Gunnison NP/Curecanti NRA (CO)	1,300,000
Brandywine Battlefield (PA)	1,000,000
Cape Cod NS (MA)	500,000
Chickamauga/Chattanooga NMP (TN)	1,200,000
Cumberland Gap NHP-Tunnel (TN)	40,000
Cuyahoga Valley NRA (OH)	1,500,000
Delaware Water Gap NRA (PA)	1,000,000
Ebey's Landing NHR (WA)	3,250,000
Everglades—Grant to the State of Florida	12,000,000
Fredericksburg/Spotsylvania NMP (VA)	2,500,000
Gettysburg NMP (PA)	2,000,000
Gulf Islands NS (Cat Island) (MS)	2,000,000
Harpers Ferry NHP (WV) ...	2,000,000
Homestead NHS (NE)	400,000
Ice Age NST (Wilke Tract) (WI)	2,000,000
Indiana Dunes NL (IN)	2,000,000
Mississippi National River RA (Lower Phalen Creek) (MN)	1,300,000
Manassas NB (VA)	1,000,000
Petroglyph NM (NM)	2,700,000
Piscataway Park (MD)	200,000
Saguaro NP (AZ)	2,200,000
Santa Monica Mountains NRA (CA)	2,000,000
Shenendoah NHA (VA)	1,000,000
Sitka NHP (Sheldon Jackson College) (AK)	1,300,000
Sleeping Bear Dunes NL (MI)	1,100,000
Stones River NB (TN)	1,500,000
Vicksburg NMP (MS)	150,000
Wrangell-St. Elias NP & Pres. (AK)	1,500,000
Subtotal	52,040,000
Emergency & Hardship	4,000,000
Inholdings & Exchanges	2,500,000
Acquisition Management ..	11,500,000
Stateside Grants	39,000,000
Administrative Assistance to States	1,500,000
Total	110,540,000

The managers have not included additional funds for acquisition at Big Cypress National Preserve, Florida due to a prior year unobligated balance of $11,000,000. The managers understand that these funds cannot be obligated in fiscal year 2001 due to a lack of willing sellers.

The conference agreement provides $1,300,000 for the Black Canyon of the Gunnison National Park and for the Curecanti National Recreation Area, located in Colorado. The managers direct the Service to use the funds to complete the acquisition project in the Black Canyon of the Gunnison NP and to purchase the Fitti parcel in the Curecanti NRA.

The $1.2 million identified for the purchase of a portion of the Ovoka Farm for inclusion within the Appalachian National Scenic Trail shall not be expended until an agreement with the United States is signed for the purchase of four tracts containing 75.14 acres within the current boundary of the Appalachian NST and owned by Phillip S. Thomas. The price to be paid by the National Park Service for these tracts and for the portion of Ovoka farm shall not exceed the approved appraised value as established by the National Park Service. The acquisition of these tracts and a portion of Ovoka Farm shall be subject only to restrictions the Park Service finds acceptable.

The $2 million identified for the purchase of Cat Island, MS, is subject to authorization.

The $1,000,000 included for the Shenandoah Valley Battlefields National Historic District is contingent upon the final approval by the Secretary of the Interior of the Commission plan and the establishment of the management entity to manage and administer the district as authorized by Public Law 104–333. The funds are to be used only for land acquisitions as authorized in Public Law 104–333.

The $1,100,000 included for the Sleeping Bear Dunes National Lakeshore are for the following parcels: #34–127 (160 acres), and #34–169 (31 acres). Seven acres of parcel #34–169 as negotiated are to remain with the current owner.

In fiscal year 2000, Congress provided $1,500,000 for land acquisition at the Hawaii Volcanoes National Park. The managers are aware that the negotiations have stalled with the seller of the Great Crack property, which was the Service's intended purchase with these funds. The managers are also aware of the Park's long standing interest in acquiring the Kahuku Ranch, which is contiguous to the Park and that the owners of the Kahuku Ranch have offered the ranch for sale. The managers, therefore, direct that the $1,500,000 provided in fiscal year 2000 be used toward the purchase of the Kahuku Ranch for an addition to Hawaii Volcanoes National Park. The current authorizing language, however, puts a restriction on lands added to ''round out'' the park. The restriction only allows these additions to the Park through donation of land or purchase with donated funds. As such, the above direction is subject to the removal of this restriction from the authorizing language. The managers further direct the Service to conduct a full review and public scoping process with respect to adding Kahuku Ranch to Hawaii Volcanoes National Park prior to expending any of these funds for purchase of the Kahuku property.

The managers have provided $1.5 million for the intended purchase of patented mining claims in Wrangell-St. Elias National Park by the National Park Service. The managers note that the Director of the National Park Service recently announced that an appraisal on certain patented claims will commence in October, 2000. It is the express intent of the managers that the National Park Service works with the holders of mining claims in Wrangell-St. Elias National Park in order to reach a purchase price that is objectively fair and equitable, both to the citizens of the United States and to the affected claim owners. To that end, and in order to facilitate the acquisition process, the managers instruct the National Park Service to consult with claim owners to attempt to select property appraisers who will be mutually agreeable. Upon completion of any appraisal in anticipation of the acquisition of the mining claims in Wrangell-St. Elias National Park, the National Park Service is further instructed to negotiate with the claim owners in a good faith effort to arrive at a price for the purchase of the claims that is acceptable to all parties.

Language is included in the bill which allows $50,000,000, in unexpended Everglades land acquisition funds appropriated in fiscal years 1994 and 2000, to be used for the implementation of the Modified Water Deliveries

project, including implementation of the Recommended Plan for the 8.5 square mile area component of the project. The managers also agree to the Department's proposal to redirect $3,796,000 in unexpended land acquisition funds appropriated originally for the construction of the Modified Water Deliveries project, but later transferred for land acquisition projects pursuant to discretionary authority granted to the Secretary in Public Law 103–219, for the Modified Water Deliveries Project. The Modified Water Deliveries Project provides a base upon which further hydrologic improvements for the park will be made in the form of the proper quantity, quality, timing, and distribution of water to the park as anticipated under the Comprehensive Everglades Restoration Plan.

Language is also included in the bill, as proposed by the Senate which prohibits Stateside land and water funds from being used to establish a reserve or contingency fund.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

The conference agreement provides $862,046,000 for surveys, investigations, and research instead of $816,676,000 as proposed by the House and $848,396,000 as proposed by the Senate.

Changes to the House funding level for the national mapping program include increases of $2,096,000 for uncontrollable costs, $500,000 for the national atlas, and $3,400,000 for Landsat operations, and a decrease of $100,000 for hyperspectral remote sensing.

Increases above the House for geologic hazards, resources and processes include $4,296,000 for uncontrollable costs, $1,000,000 for earthquake hazards, $250,000 for the Hawaiian volcano program, $1,525,000 for minerals at risk, $475,000 for Yukon Flats geology surveys, $1,200,000 for the Nevada gold study, $500,000 for geologic mapping, and $300,000 for Lake Mead/Mojave research.

Changes to the House level for water resources include increases of $5,292,000 for uncontrollable costs, $1,370,000 for real time hazards, $300,000 for the Lake Champlain toxic study, $450,000 for Hawaiian water monitoring, $2,000,000 for the ground water program, and $300,000 for the Southern Maryland aquifer study, and a decrease of $500,000 from the Molokai well project.

Increases above the House for biological research include $3,177,000 for uncontrollable costs, $400,000 for the cooperative research units, $180,000 for a Yukon River chum salmon study, $8,000,000 for science center funding, $500,000 for ballast water research, $500,000 for sea otter research for the Fish and Wildlife Service, $4,000,000 for the National Biological Information Infrastructure and $750,000 for the continuation of the Mark Twain National Forest mining study to be accomplished in cooperation with the water resources division and the Forest Service.

The managers recognize the importance of the National Biological Information Infrastructure (NBII), which can provide valuable information to assist private and governmental entities in developing cost-effective responses to problems of environmental pollution, natural disasters, and many other issues. Therefore, the managers have provided $4,000,000 to create NBII ''nodes'' to work in conjunction with private and public partners to provide increased access to and organization of information to address these and other challenges. These funds are to be used to create a nationwide network covering the following regions: Pacific Basin, Hawaii, $350,000; Southwest, Texas, $1,000,000; Southern Appalachian, Tennessee, $1,000,000; Pacific Northwest, Washington, $200,000; Central Region, Ohio, $250,000; North American Avian Conservation, Maryland, $200,000; Network Standards and Technology, Colorado, $250,000; Fisheries Node, Virginia and Pennsylvania, $400,000; California/Southwest Ecosystems Node, California, $200,000; Greater Yellowstone Ecosystem Node, Montana, $150,000.

Increases above the House for science support include $1,791,000 for uncontrollable costs. Increases above the House for facilities include $1,418,000 for uncontrollable costs.

The managers have provided $500,000 to the Western Fisheries Research Center to conduct a pilot project on the pre- and post-treatment of ballast water for biological activity. The center should develop a protocol for the sampling/monitoring of discharge of exchanged ballast water; develop an attainable standard for treated ballast water that can be effectively monitored; evaluate the treatment effectiveness; and develop and publish a report of the project results.

The managers have included an additional $500,000 for the continued development of the National Geologic Map Data Base as authorized by the National Geologic Mapping Act. With the development of the prototype data base, the managers expect the Survey to work with State geological surveys in converting maps to digital format.

The managers direct that within available funds, the Leetown Science Center should begin to conduct drug efficiency research. In addition, of the $920,000 earmarked in Senate report 106–312 for the Leetown Science Center, $300,000 is for engineering and design and $620,000 is for the repair and rehabilitation of heating, ventilation, and air conditioning and other activities outlined in the budget request.

Within the funds provided for the Biological Research Division, the managers have earmarked $3,400,000 for mission-critical science support for the Fish and Wildlife Service (FWS). The managers reiterate that these funds are for research needs solely identified by FWS and, as such, are provided to establish a parallel program similar to the Natural Resources Preservation program in the National Park Service.

The managers support the expansion of the Gateway to the Earth program to other organizations across the country as provided in House report 106–646. Further, the managers encourage the Ohio View consortium to provide leadership and expertise to the new program participants.

The managers have maintained funding for light distancing and ranging (LIDAR) technology to assist with recovery of Chinook Salmon and Summer Chum Salmon under the Endangered Species Act. These funds should be used in Mason County, WA, to contract for the continued mapping of drainage systems and stream systems, and to identify potentially unstable slopes.

The managers commend the progress the Survey has made to date in increasing the use of private sector services in the conduct of its work, as well as developing ongoing dialogue with the private sector. The managers continue to encourage that, where appropriate, the Survey make use of private sector services in all areas including scientific research, technical support, and administrative activities, to achieve an appropriate balance to best meet the mission of the Survey.

The managers endorse the concept that the Department of the Interior, as primary steward of the Nation's public lands, is the appropriate agency to manage the Landsat program in partnership with the National Aeronautics and Space Administration. As such the managers have provided an additional $3,400,000 for Landsat 7 operations.

With respect to USGS at-cost pricing of Landsat 7 products, as called for by the Land Remote Sensing Policy Act of 1992, the managers realize that this creates a perception of competition with private sector operators of remote-sensing satellites. Therefore, the managers are pleased to learn that the Survey has taken steps at the highest levels to improve communication with the private sector and to work toward mutually beneficial partnerships wherever feasible. The managers urge the Survey to increase and sustain such efforts.

MINERALS MANAGEMENT SERVICE

ROYALTY AND OFFSHORE MINERALS MANAGEMENT

The conference agreement provides $133,410,000 for royalty and offshore minerals management instead of $127,200,000 as proposed by the House and $134,010,000 as proposed by the Senate. The total amount available for this account is $240,820,000, which includes $107,410,000 in offsetting receipts, which offset partially the 2001 funding requirements for the royalty and offshore minerals management program.

Changes to the House include an increase of $6,620,000 for uncontrollable costs. In addition, the managers have agreed to an increase in offsetting receipts of $410,000 as proposed by the Senate.

The managers have modified language proposed by the House for the continuation of the royalty-in-kind pilot programs. The modification allows the Service to pay transportation not only to wholesale market centers but also to upstream pooling points.

The managers have again provided $1,400,000 to the Offshore Technology Research Center (OTRC) for research in support of the Bureau's offshore minerals program. The managers expect the full amount to be spent on the OTRC in College Station, TX. The managers note that this research effort is to be a cooperative one in which OTRC and MMS work together to develop projects that meet the Bureau's critical research needs, and the new technical, safety, and environmental challenges the nation faces as offshore drilling moves into deeper water. As such, OTRC is expected to work closely with MMS to develop an appropriate list of projects that meet the Bureau's critical research needs.

Within the funds provided for royalty and offshore minerals management, the managers have included $600,000 for the Center for Marine Resources and Environmental Technology.

OIL SPILL RESEARCH

The conference agreement provides $6,118,000 for oil spill research as proposed by both the House and the Senate.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

The conference agreement provides $100,801,000 for regulation and technology as proposed by the Senate instead of $97,478,000 as proposed by the House. Funding for the activities should follow the Senate recommendation. An additional $275,000 is estimated to be available for use from performance bond forfeitures.

ABANDONED MINE RECLAMATION FUND

The conference agreement provides $202,438,000 for the abandoned mine reclamation fund instead of $197,873,000 as proposed

by the House and $201,438,000 as proposed by the Senate. Funding for technology development, financial management and executive direction should follow the Senate recommended levels. The managers have also included the Senate recommended funding level for the Appalachian Clean Streams Initiative which increases the cap to $10,000,000. The managers have also included the Senate proposed bill language for minimum program States and bill language included in previous years dealing with certain aspects of the State of Maryland program. The conference agreement does not provide the Senate recommended funding in this appropriation for a reforestation demonstration in Kentucky although funding for this activity is included in the Forest Service, State and Private forestry appropriation. The managers have also provided separate funding for the House recommended program on priority abandoned mine reclamation and acid mine remediation in the anthracite region of Pennsylvania in the Title I general provisions.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

The conference agreement provides $1,741,212,000 for the operation of Indian programs instead of $1,657,446,000 as proposed by the House and $1,704,620,000 as proposed by the Senate.

Increases above the House for tribal priority allocations include $11,175,000 for uncontrollable costs, $5,000,000 for the Indian self determination fund, $11,000,000 for the housing improvement program $1,600,000 for general trust revenues, $2,571,000 for real estate services, and $1,089,000 for real estate appraisals.

Increases above the House for other recurring programs include $10,910,000 for uncontrollable costs, $3,575,000 for the FACE program, $2,925,000 for the model, therapeutic residential $1,000,000 for administrative cost grants, $500,000 for Alaska subsistence, $176,000 for the Reindeer Herders Association, and $1,891,000 for the tribally controlled community colleges.

Increases above the above the House for non recurring programs include $555,000 for uncontrollable costs, $2,300,000 for real estates services, $1,000,000 for a distance learning, telemedicine, fiber optic pilot program in Montana, $146,000 for Alaska legal services, $200,000 for forest inventory for the Uintah and Ouray tribes, and $300,000 for a tribal guiding program in Alaska.

Increases above the House for central office operations include $727,000 for uncontrollable costs and $500,000 for trust services.

Increases above the House for regional office operations include $899,000 for uncontrollable costs $1,400,000 for general trust services, $2,500,000 for real estate services, $1,040,000 for land title records, $1,000,000 for land record improvements, and $500,000 for general trust services.

Increases above the House for special programs and pooled overhead include $7,637,000 for uncontrollable costs, $9,000,000 for the law enforcement initiative, and $650,000 for the Crownpoint Institute.

The managers continue to support the Tribally Controlled Community Colleges (TCCC) and the technical schools of United Tribes Technical College (UTTC) and the Crownpoint Institute of Technology (CIT). To understand better how the House and Senate Committees on Appropriations can further assist the TCCCs and technical schools, the managers direct the TCCCs, UTTC, and CIT to provide a report that describes the programs and services of each institution. The report will also include all sources of funding that support each institution's operations and facilities, and the amount of funding by source for the school's most recent fiscal year, the past fiscal year, and any proposed program expansion or changes in operations for the budget year. This report should be submitted to the Bureau of Indian Affairs by December 31st each year. The Bureau is directed to provide a consolidated summary of the reports in conjunction with its annual budget submission to the Congress.

The managers have provided $1,000,000 for the distance learning project on the Crow, Fort Peck, and Northern Cheyenne reservations. These funds are for a fiber optic system to benefit these communities in a broad array of areas from health care to education and will eventually provide many new opportunities for reservation residents. The Rocky Mountain Technology Foundation will oversee the expenditure of these funds and is expected to provide a cost share to the project using in-kind or monetary donations from private and public sources. The Foundation is directed to provide an annual report to the House and Senate Committees on Appropriations through the Bureau of Indian Affairs. The report will describe the complete proposal for this Distance Learning Project, its relationship to other similar projects, and what has been accomplished to date with these funds.

The managers have been informed that severe seepage may occur when the Shoshone and Arapaho tribes complete the first fill protocols on the reservation's newly renovated Washaki Dam next spring. The managers direct the Bureau to assess the condition of the dam by February 1, 2001, and determine whether funds are needed to pro-actively address the situation. If it is determined that funds are needed, the Bureau should submit a reprogramming request if funds are available.

A number of concerns have been raised concerning whether tribes have been complying with the Single Audit Act. To address this potentially serious issue, the managers direct the Department to report back to the House and Senate Committees on Appropriations detailing to what extent tribes in the lower 48 States, as well as those tribes in Alaska, have been in compliance with the requirements of this Act. If it is found that the tribes are not conforming with these audit requirements, the Secretary shall provide recommendations to the Committees that could be put in place to ensure that tribes comply with the Single Audit Act.

The managers have restored funding for the housing improvement program as proposed by the Senate. The managers direct the Bureau to maintain the current distribution of funds between repair and rehabilitation and construction of new housing stock.

CONSTRUCTION

The conference agreement provides $357,404,000 for construction instead of $184,404,000 as proposed by the House and $341,004,000 as proposed by the Senate.

Increases above the House for education construction include $395,000 for uncontrollable costs, $79,690,000 for replacement school construction, $7,000,000 for a new tribal school construction demonstration program as discussed below, $5,000,000 for advance planning and design, $593,000 for employee housing, and $80,109,000 for facilities improvement and repair.

Changes to the House for public safety and justice include an increase of $4,000 for uncontrollable costs.

Changes to the House for resources management include an increase of $72,000 for uncontrollable costs.

Changes to the House for general administration include an increase of $137,000 for uncontrollable costs.

The Administration's request for replacement school construction assumed full funding for all school replacement construction projects in the budget year based on guidance from the Office of Management and Budget. The managers note that the Lummi Tribal school was short funded by $8,400,000 in the President's budget. The managers have corrected this error. The conference agreement provides full funding for the next six schools on the BIA priority list.

As mentioned above, the managers provide an additional $7,000,000 to establish a new tribal school construction demonstration program. This new program will allow tribes to cost share 50 percent of the cost for replacement schools. Under this new demonstration program the Secretary is directed to give priority consideration to those tribes that are on the BIA priority list for construction of a replacement school.

INDIAN LAND AND WATER CLAIM SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

The conference agreement provides $37,526,000 for Indian land and water claim settlements and miscellaneous payments to Indians instead of $34,026,000 as proposed by the House and $35,276,000 as proposed by the Senate.

Increases above the House include $1,250,000 for Aleutian Pribilof church repairs, which completes this program as authorized, $50,000 for Walker River (Weber Dam), $200,000 for Pyramid Lake and $2,000,000 for the Great Lakes Fishing Settlement.

The managers understand that an agreement has finally been reached between the tribes, the State of Michigan and the Federal government in United States v. Michigan, Case No. 2:73 CV 26. Pursuant to the consent agreement entered by the Court in this case, the managers provide $2,000,000 as part of the Federal government's obligation. The managers direct the Bureau to include the Great Lakes Fisheries settlement agreement in its fiscal year 2002 budget request. The managers intend to address the remaining Federal government obligations under the consent agreement in the fiscal year 2002 appropriation.

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

The conference agreement provides $4,988,000 for the Indian guaranteed loan program account as proposed by the Senate instead of $4,985,000 as proposed by the House.

ADMINISTRATIVE PROVISIONS

The managers have agreed to a technical change in language relating to charter schools as proposed by the Senate.

DEPARTMENTAL OFFICES

INSULAR AFFAIRS

ASSISTANCE TO TERRITORIES

The conference agreement provides $75,471,000 for assistance to territories, instead of $69,471,000 proposed by the House and $68,471,000 as proposed by the Senate. The managers have agreed to follow the funding levels proposed by the House for the activities except additional funds which have been provided for compact input in the technical assistance activity. The managers have also included bill language recommended by the House directing a $300,000 payment to the Virgin Islands for disaster assistance loans and $700,000 for the Prior Service Benefits Fund. The managers direct that funding for the Close-Up Foundation activities should be maintained at least at the fiscal year 1999

level. The managers have added compact impact assistance funding of $5,000,000 for Guam and $1,000,000 for the Commonwealth of the Northern Marian Islands.

In fiscal year 1999, language was included in the conference agreement concerning the withholding of American Samoa construction funds in the amount of $2,000,000. These funds were to be withheld until issues associated with unpaid island medical bills were resolved. The managers understand that the American Samoa government has taken significant steps to address this problem and, therefore, direct the Department to release these funds.

COMPACT OF FREE ASSOCIATION

The conference agreement provides $20,745,000 for the Compact of Free Association as proposed by the House instead of $20,545,000 as proposed by the Senate.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The conference agreement provides $64,319,000 for salaries and expenses for departmental management, instead of $62,406,000 as proposed by the House and $64,019,000 as proposed by the Senate. Funds should be distributed as follows:

Departmental direction	$12,241,000
Management and coordination	23,798,000
Hearings and appeals	8,288,000
Central services	19,104,000
Bureau of Mines workers compensation/unemployment	888,000
Total	$64,319,000

Language is included in the bill directing that funds be provided to Alaska Pacific University for development of an ANILCA training curriculum as described in section 347 of the Senate bill. Within the total for Departmental direction, $300,000 is included to implement this provision.

One of the highest priorities of the Department and the managers has been reducing the backlog of maintenance needs in the Department. Congress and the Department have worked together to institute an aggressive Safe Visits to Public Lands Initiative and thereby improve management and accountability for the Department's infrastructure, and focus maintenance and construction funding on the highest priority health and safety and resource protection needs.

The managers are pleased that the National Park Service has made progress in developing a comprehensive maintenance management system that will provide consistent and reliable maintenance information tools for local staff to carry out day-to-day maintenance of public assets efficiently as well as to provide information to managers and Congress. To that end, the managers have provided the requested funds to continue this initiative.

In addition, the Secretary is directed to work with the Bureau of Land Management, the U.S. Geological Survey, and the Fish and Wildlife Service to evaluate the adoption and implementation of the core system used by NPS. The Managers believe that it is critical that the Department coordinate the development and use of consistent facilities management and condition assessment systems Department-wide.

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

The conference agreement provides $40,196,000 for salaries and expenses of the Office of the Solicitor as proposed by the House instead of $39,206,000 as proposed by the Senate. Funds should be distributed as follows:

Legal services	$33,630,000
General administration	6,566,000
Total	40,196,000

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The conference agreement provides $27,846,000 for salaries and expenses of the Office of Inspector General as proposed by the Senate instead of $26,086,000 as proposed by the House. Funds should be distributed as follows:

Audit	$15,809,000
Investigations	5,566,000
Administration	6,471,000
Total	27,846,000

OFFICE OF SPECIAL TRUSTEE FOR AMERICAN INDIANS

FEDERAL TRUST PROGRAMS

The conference agreement provides $82,628,000 for Federal trust programs as proposed by the Senate instead of $82,428,000 as proposed by the House.

The managers have provided $27,600,000 in emergency appropriations (in title V) to address trust fund reform issues that could not be anticipated prior to the submission of the fiscal year 2001 budget request. These funds will: support work to address the breaches of trust identified in the recent District Court decision; allow the government to begin preparation for the second trial relating to an accounting for Individual Indian Money Accounts (IIM); and address critical trust fund reform shortfalls.

The Department of the Interior has announced its intention to explore the use of sampling as the best, most cost effective approach to provide an accounting for IIM beneficiaries. While the Indian Trust Fund Reform Act contemplated that such an accounting would sometime occur, the managers have been concerned for years about the potential cost and effectiveness of any approach that might be used. After investing $20 million over five years in a tribal account reconciliation process, there has been no resolution of issues surrounding tribal accounts. The cost of a similar accounting for the approximately three hundred thousand IIM account holders could conceivably cost hundreds of millions of dollars.

Therefore while approving the request to begin an IIM sampling approach, the managers direct the Department to develop a detailed plan for the sampling methodology it adopts, its costs and benefits, and the degree of confidence that can be placed on the likely results. This plan must be provided to the House and Senate Committees on Appropriations prior to commencing a full sampling project. Finally, the determination of the use of funds for sampling or any other approach for reconciling a historical IIM accounting must be done within the limits of funds made available by the Congress for such purposes.

Ultimately, the managers believe that resolution of the long standing issues of the performance of the Department of the Interior's management of Indian trusts is best worked out through a negotiation and settlement process, and not by spending millions of dollars for accountants to reconcile relatively small sums of funds over decades. If the sampling approach provides a reasonable basis for settlement of these claims or can provide a basis for a greater level of confidence on the part of beneficiaries about the past, this investment will be useful. Given the tremendous needs in Indian country for public services from education to health care, the managers will be extremely judicious in allocating funds for an historical accounting or sampling study.

INDIAN LAND CONSOLIDATION

The conference agreement provides $9,000,000 for Indian land consolidation programs instead of $5,000,000 as proposed by the House and $10,000,000 as proposed by the Senate.

NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION

NATURAL RESOURCE DAMAGE ASSESSMENT FUND

The conference agreement provides $5,403,000 for the natural resource damage assessment fund as proposed by the Senate instead of $5,374,000 as proposed by the House.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

The conference agreement includes sections 101 through 112 and section 117 which were identical in both the House and the Senate bills. These sections continue provisions carried in past years.

Section 113 retains the text of section 113 as proposed by the House which makes permanent a provision permitting the retention of rebates from credit card services for deposit to the Department Working Capital Fund. Section 113 proposed by the Senate continued the provision carried last year providing the exemption for one year.

Section 114 modifies the text of section 114 as proposed by both the House and the Senate to make a technical correction for funds transfer authority.

Section 115 retains the text of section 115 as proposed by the House which makes permanent a provision permitting the retention of proceeds from agreements and leases at Fort Baker, Golden Gate National Recreation Area. Section 115 proposed by the Senate continued the provision carried last year providing the exemption for one year.

Section 116 retains the language included in last year's Interior Appropriations Act regarding grazing permit extensions as proposed by the Senate. The House had identical language with the exception of the use of the word ''may'' in the House bill versus ''shall'' in the Senate bill.

Section 118 retains the text of section 118 as proposed by the House which permits the redistribution of Tribal Priority Allocation and tribal base funds to alleviate funding inequities. The Senate had no similar provision.

Section 119 retains the text of section 119 as proposed by the House which requires a written certification of consistency from the Corps of Engineers prior to establishment of a Kankakee National Wildlife Refuge in Indiana and Illinois. This language is identical to that included in last year's Interior Appropriations Act. The Senate language on this issue required submission of a plan consistent with an April 16, 1999 partnership agreement between the Service and the Corps prior to refuge establishment.

Section 120 retains the text of section 120 as proposed by the House which renames the Great Marsh Trail at the Mason Neck National Wildlife Refuge in Virginia the ''Joseph V. Gartlan, Jr. Great Marsh Trail.'' The Senate had no similar provision.

Section 121 retains the text of section 121 as proposed by the House and section 124 as proposed by the Senate which continues a provision carried last year requiring the allocation of Bureau of Indian Affairs postsecondary schools funds consistent with unmet needs.

Section 122 modifies the text of section 118 as proposed by the Senate which prohibits distribution of Tribal Priority Allocation (TPA) funds to tribes in the State of Alaska with memberships of less than 25 individuals living in the village and provides for the redistribution of funds that would have been provided to such tribes. The modification adds the requirement that at least 25 members reside in the service area of any tribe which remains eligible to receive TPA funding directly.

Section 123 retains the text of section 120 as proposed by the Senate which continues a provision carried last year protecting lands at Huron Cemetery in Kansas for religious and cultural uses and as a burial ground. The House had no similar provision.

Section 124 retains the text of section 121 as proposed by the Senate which continues a provision carried last year prohibiting the use of funds to transfer land into trust status for the Shoalwater Bay Indian Tribe in Clark County, Washington, until the tribe and the county reach agreement on development issues. The House had no similar provision.

Section 125 retains the text of section 122 as proposed by the Senate, which continues a provision from last year's Interior Appropriations Act with regard to two provisions in Secretarial Order 3206 regarding Indian tribes and the Endangered Species Act. The House had no similar provision.

Section 126 retains the text of section 123 as proposed by the Senate which continues a provision carried last year prohibiting studies or implementation of a plan to drain Lake Powell in Arizona and Utah. The House had no similar provision.

Section 127 retains the text of section 126 as proposed by the Senate which permits the Secretary of the Interior to retain and use land and other forms of reimbursement associated with the previously authorized conveyance of the Twin Cities Research Center for the benefit of the National Wildlife Refuge System in Minnesota. The House had no similar provision. This is a repetition of language included in last year's Interior Appropriations Act.

Section 128 retains the text of section 127 as proposed by the Senate which protects historic rights associated with pre-ANILCA entry permits. The House had no similar provision.

Section 129 retains the text of section 128 as proposed by the Senate which designates Anchorage, Alaska, as a port of entry for purposes of the Endangered Species Act. The House had no similar provision. Funding for operation of this port of entry is included under the Fish and Wildlife Service resource management account.

Section 130 retains the text of section 129 as proposed by the Senate which adjusts the boundaries of Sitka National Historic Park in Alaska. The House had no similar provision.

Section 131 makes technical changes to language proposed by the Senate in section 130 regarding the treatment of proceeds from certain lease sales in the National Petroleum Reserve-Alaska. The House had no similar provision.

Section 132 retains the text of section 131 as proposed by the Senate which conveys land in Alaska to Harvey R. Redmond. The House had no similar provision.

Section 133 modifies the text of section 132 as proposed by the Senate, which clarifies the terms and conditions of a land conveyance to Nye County, Nevada, which was authorized in the FY 2000 Interior and Related Agencies Appropriations Act. This section allows the County, notwithstanding any provision of the Recreation and Public Purposes Act, to lease the land to a non-profit organization, so that the organization could then construct, own, and operate the Nevada Science and Technology Center. The County would retain title to the conveyed lands and the organization would own the facilities, but could only build facilities for public, non-commercial purposes. In effect, the lands would still be used for a public function, consistent with the purposes of the Recreation and Public Purposes Act, but the County would be contracting this function out to the non-profit organization.

Section 134 modifies the text of section 133 as proposed by the Senate which requires a land exchange regarding the Mississippi River Wildlife and Fish Refuge. The House had no similar provision. The modification extends the time period by 60 days and specifies that the area in question is a 150 foot wide strip.

Section 135 retains the text of section 134 as proposed by the Senate which expresses the sense of the Senate regarding repayment of Indian judgment claims. The House had no similar provision.

Section 136 provides authority for the Fish and Wildlife Service to charge fees including, as appropriate, fees to foreign countries for forensics services provided by the National Fish and Wildlife Forensics Laboratory in Oregon. These fees are to be retained for operational expenses of the lab.

Section 137 adjusts the boundaries of the Argus Wilderness Area in California.

Section 138 authorizes a land exchange in Washington between the Fish and Wildlife Service and the Othello Housing Authority.

Section 139 continues a provision carried last year providing contract authority regarding transportation at Zion National Park in Utah.

Section 140 authorizes the National Park Service to enter into a cooperative agreement with the Golden Gate National Parks Association to provide fee-based education, interpretive and visitor service functions within the Crissy Field and Fort Point areas of the Presidio.

Section 141 names the visitor's center and administrative building at the Chincoteague National Wildlife Refuge in Virginia the ''Herbert H. Bateman Educational and Administrative Center''.

Section 142 allows the Bureau of Land Management to retain revenues derived from the sale of surplus seedlings.

Section 143 makes a technical change to P.L. 105–83 to allow the completion of construction of the Cibecue Community School in Arizona.

Section 144 clarifies title conveyances of land transfers related to abandoned railroad rights-of-way in Valley City, ND.

Section 145 authorizes the establishment of the First Ladies National Historic Site in Canton, Ohio, to provide unique opportunities for education and study into the impact of first ladies on our nation's history.

Section 146 authorizes the establishment of an interpretive center in Springfield, Illinois, to preserve and make available to the public materials related to the life of President Abraham Lincoln.

Section 147 authorizes the Palace of the Governors in New Mexico.

Section 148 authorizes the Southwestern Pennsylvania Heritage Preservation Commission, which provides the region with the ability to tell its nationally significant stories to a broad audience.

Section 149 renames the Cuyahoga Valley National Recreation Area in Ohio the Cuyahoga Valley National Park.

Section 150 authorizes the establishment of the National Underground Railroad Freedom Center in Cincinnati, Ohio, that will house an interpretive center, museum, educational and research facilities all dedicated to communicating the importance of the quest for human freedom which provided the foundation of the Underground Railroad.

Section 151 provides for priority abandoned mine reclamation and acid mine remediation activities. Funding of $12,000,000 is provided to the Commonwealth of Pennsylvania for its large backlog in the anthracite region. Projects should use the standard cost-sharing mechanisms of the Surface Mining Control and Reclamation Act of 1977, as amended. These funds are derived from the portion of AML fees allocated to the RAMP program and will not affect other normal State allocations for abandoned mine reclamation. The provision also provides $600,000 to continue a priority demonstration project in Pennsylvania to determine the efficacy of improving water quality by removing metals from waters polluted by acid mine drainage.

Section 152 provides for the use of previously appropriated funds for the Nisqually Indian Tribe to acquire land for the Nisqually NWR, WA, and to manage those lands for refuge purposes.

Section 153 establishes a cost-shared tribal school construction program. This item is discussed in more detail under the Bureau of Indian Affairs construction account.

Section 154 permits the sale of improvements and equipment at the White River Oil Shale Mine in Utah, and the retention and use of those funds by the Bureau of Land Management and the General Services Administration.

Section 155 names the Blue Ridge Parkway headquarters building the ''Gary E. Everhardt Headquarters Building''.

Section 156 allows the Bureau of Land Management to promulgate new hardrock mining regulations that are not inconsistent with the National Research Council Report entitled ''Hardrock Mining on Federal Lands.'' This provision reinstates a requirement that was included in Public Law 106–113. In that Act, Congress authorized changes to the hardrock mining regulations that are ''not inconsistent with'' the Report. The statutory requirement was based on a consensus reached among Committee Members and the Administration. On December 8, 1999, the Interior Solicitor wrote an opinion concluding that this requirement applies only to a few lines of the Report, and that it imposes no significant restrictions on the Bureau's rulemaking authority. The Committee does not agree with the solicitor's opinion, and does not intend the language in this section to constitute any ratification of or agreement with that opinion.

Section 157 authorizes the Wheeling National Heritage Area in West Virginia.

The conference agreement does not include language proposed by the House in section 122 regarding National Park Service construction in Florida and in section 123 regarding limitations in Title III general provisions, and by the Senate in section 125 regarding Caspian Tern nesting at Rice Island. The managers however, note that they agree with the House and Senate report language regarding Caspian terns.

TITLE II—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

FOREST AND RANGELAND RESEARCH

The conference agreement provides $229,616,000 for forest and rangeland research

instead of $224,966,000 as proposed by the House or $221,966,000 as proposed by the Senate. The managers have agreed to the Senate proposal to direct $1,400,000 to the Northeast ecosystem research cooperative program and $250,000 to the University of Washington silviculture effort at the Olympic Natural Resource Center. The managers have also agreed with Senate direction concerning funding levels for the wood utilization laboratory in Sitka, AK, and for operations of the Forest Research Laboratories located in Princeton, Parsons, and Morgantown, WV, and funds for the CROP study on the Colville National Forest, WA. The managers have provided funding for the U.S. Geological Survey to study hydrological and biological impacts of lead and zinc mining on the Mark Twain National Forest, MO, rather than the Forest Service as was proposed by the Senate. The managers have not agreed to the Senate proposals to reduce funding for fixed costs or for a general program reduction. The managers have included $3,000,000 in funding for small diameter tree and low-value resource research. The managers would support the Forest Service looking for other additional funding for this latter effort. The managers have not agreed to the Senate proposal to increase funding in this account for the Forest Inventory and Analysis program; however the managers have agreed to the House proposal to provide $5,000,000 in new funding for this program within the State and private forestry program. The managers expect that given the additional money provided in the State and private forestry account on a matching basis the research program will attempt to adjust, to the extent practicable, its funding allocations to address the needs of States which are unable to meet this matching requirement. The managers direct the Forest Service to provide total operational funding of $750,000 to the Rapid City, SD, lab; the funds and the funding increase above the fiscal year 2000 level should come out of the national allocation and should be used to hire a range scientist to work on invasive plants and other range ecology and management issues. The conference agreement does not include a special allocation recommended by the Senate for small diameter research at the Princeton, WV, lab nor are new funds provided for the Northern Forest Research Cooperative, although the managers would support both of these efforts if additional funding became available. The managers direct the Forest Service to provide $502,000 in appropriated funds for the Wind River canopy crane, WA.

STATE AND PRIVATE FORESTRY

The conference agreement provides $250,955,000 for State and private forestry instead of $197,337,000 as proposed by the House and $226,266,000 as proposed by the Senate. These funds include $12,500,000 as contingent emergency funds for priority pest management on Federal, State and private lands. These funds were not included in the House or Senate bills, nor in the Administration request. These funds should assist efforts to combat a variety of pests, including southern pine beetle, gypsy moth, bark beetle, Douglas-fir tussock moth, and several fungal pests.

The agreement provides non-emergency funding of $41,383,000 for Federal lands forest health management and $22,561,000 for cooperative lands forest health management. The managers have agreed to the House proposal on Asian long-horn beetle work in urban areas and the Senate proposal for the Vermont forest cooperative. The managers direct the Forest Service to keep the insect and disease maps up-to-date and publicly available, such as on the agency web-site, and submit them to the House and Senate Committees on Appropriations annually.

The conference agreement includes $25,000,000 for State fire assistance as recommended by the House. Additional priority emergency funds for State and volunteer assistance are included in title IV. The managers have agreed to redirect the Senate proposal for Kenai Peninsula Borough, AK, assistance to the emergency wildfire management provisions included in title IV. The managers have not included the Senate proposal for a special allocation for Kentucky though the additional funds provided in title IV may assist these needs. The conference agreement includes $5,000,000 for volunteer fire assistance as recommended by both the House and the Senate; this is more than double the administration request. The managers do not agree to the Senate report language concerning volunteer fire assistance allocations and fuel loads.

The conference agreement includes $32,854,000 for forest stewardship instead of $31,454,000 as proposed by the House and $30,454,000 as proposed by the Senate. This funding includes the House proposed funding for the New York City watershed and the Senate proposed funding for Utah technical education and State of Washington stewardship activities. The managers have also added an additional $750,000 for an update of the cooperative study on the New York-New Jersey highlands area.

The conference agreement includes $30,000,000 for the forest legacy program as proposed by the Senate instead of $10,000,000 proposed by the House. The managers agree to the Senate proposal of directing $1,400,000 to the Ossippee Mountain conservation, easement NH, and also to direct no less than $2,000,000 to the Great Mountain, CT, easement, and no less than $2,000,000 for the West Branch, ME, project. The managers also acknowledge the importance of forest protection in South Carolina and encourage the Forest Service to work with the appropriate State agencies to ensure continuation of these much needed protections.

The conference agreement includes $31,721,000 for the urban and community forestry program instead of $31,521,000 proposed by the House and $31,021,000 proposed by the Senate. The managers agree to the House proposal for the NE Pennsylvania forestry program and the Senate proposal for the Chicago, IL, wilderness program. In addition, the managers agree to provide $500,000 for cooperative activities in Forest Park in St. Louis, MO, and to a general reduction below the House proposed level of $1,000,000. The managers do not agree to the Senate direction concerning the funding allocation process or State funding limits for the urban and community forestry program. The managers have modified bill language proposed by the House concerning the urban resources partnership. The conference agreement maintains a one-year moratorium on funding this program, but the managers encourage funding of inner-city activities through the normal urban and forestry competitive grants program. The managers await communication from the Inspector General's office regarding any progress in this area and hope that the Forest Service can rectify the many concerns published by the Inspector General.

The conference agreement includes the following distribution of funds for the economic action programs:

Economic Action Programs	*Conference*
Project:	
Economic recovery base program	$3,642,000
Rural development base program	2,192,000
NE & Midwest allocation	2,500,000
Forest Prod. Cons. & Recycling	1,080,000
Wood in transportation	922,000
Special Projects:	
4 Corners forestry	1,000,000
Graham County, NC econ. Plan	10,000
Hawaii training	200,000
NY City watershed rural development	300,000
NY City watershed enhancement	500,000
Brevard College, NC Cradle of Forestry	300,000
Mosier beach, Col. Riv Gorge NSA	500,000
Lake Tahoe erosion grants (CA, NV)	2,000,000
Univ. of WA landscape ecology	300,000
Travelers' Rest-Lewis & Clark Trail, MT	500,000
Grand Canyon Forests Foundation, AZ	0
Wind River-Skamania County, WA	200,000
Ketchikan Wood Tech Center et al, AK	750,000
Envi Sci-Public Policy Research Inst, ID	0
Michigan St. Univ. Victor Center	150,000
Kiln facilities, AK	2,000,000
Sealaska Corp ethanol biomass, AK	2,000,000
Wood educ. & resource center (WV)	2,500,000
Little Applegate river, OR	500,000
State of KY reforestation on mine lands	1,000,000
NC recreational lake economic study	40,000
United Fisherman of AK ed prog.	250,000
Kake land exchange, AK	5,000,000
Total	30,336,000

The conference agreement provides $250,000 in a direct lump sum payment for the United Fisherman of Alaska to implement an educational program to deal with subsistence management and other fisheries issues; these funds may not be used for any lobbying activities affecting Federal or State regulations or legislation. While the managers have fully funded the base operating budget for the Wood Education and Resource Center, the managers encourage the Center's efforts to generate income and hope that such income can be used to offset operating expenses in the near future. The managers have also included $5,000,000 to assist a land transfer for Kake, AK; these funds are contingent upon an authorization bill being enacted. The conference agreement also includes $2,000,000 to cost-share kiln-drying facilities in southeast and south-central Alaska. The managers expect that the funds provided for reforestation on abandoned mine lands in Kentucky are to be matched with funds provided in this bill to the Department of Energy for carbon sequestration research, as well as other non-federal funds.

The conference agreement includes $9,600,000 for Pacific Northwest Assistance

instead of $6,822,000 proposed by the House and $9,880,000 proposed by the Senate. This funding includes Senate-proposed allocations of $900,000 for the University of Washington and Washington State University extension forestry effort and $1,878,000 for Columbia River Gorge economic development in the States of Washington and Oregon. The agreement does not include funding proposed by the Senate concerning payments for counties in the Columbia River Gorge because the managers understand that there are significant unobligated balances available for this purpose which are more than enough to meet the needs for this fiscal year. The managers expect to be informed if additional funds are necessary.

The conference agreement includes $5,000,000 for forest resource information and analysis as proposed by the House; the Senate had no similar provision. This funding should aid the forest inventory and analysis program as directed by the House by enhancing cooperation with the States. The conference agreement also includes $5,000,000 for the International program as proposed by the Senate instead of $4,500,000 proposed by the House.

NATIONAL FOREST SYSTEM

The conference agreement provides $1,280,693,000 for the National forest system instead of $1,207,545,000 as proposed by the House and $1,232,814,000 as proposed by the Senate. Funds should be distributed as follows:

Land Management Planning	$68,907,000
Inventory and Monitoring	163,852,000
Vegetation & watershed management	182,034,000
Wildlife & Fish habitat Management	129,028,000
Recreation, Heritage & wilderness	230,270,000
Forest Products	255,844,000
Grazing Management	33,856,000
Landownership Management	86,609,000
Minerals and Geology Management	47,945,000
Law Enforcement Operations	74,358,000
Quincy Library Group, CA	2,000,000
Valles Caldera, NM operations	990,000
Tongass timber pipeline, AK	5,000,000
Total	1,280,693,000

The managers have modified language contained in the Senate report regarding limiting the size of the land management planning and inventory and monitoring expenditures in the Washington Office as well as language specific to the Natural Resource Information System. The managers concur that funds used for National Commitments and other headquarters expenditures are excessive. The managers expect priority for funding allocations in these budget line items to emphasize field efforts to revise, maintain, and amend forest plans and for conducting appropriate inventory and monitoring activities at the field level in order to assure multiple use management on national forest lands. Technology investments that support these activities should be pursued over a timeframe that minimizes impacts on accomplishing field level work. The managers note the potential benefits of the Natural Resource Information system and encourage its continued development and implementation. The managers expect a thorough agency review to assure this system is consistent with strategic objectives. This review should assess the effectiveness of implementation that results in efficient management of information through the use of standardized methods of collecting and using data to evaluate natural resource conditions on National Forest System lands.

The conference agreement includes the following congressional priorities in the vegetation and watershed management activity: $300,000 for the CROP project on the Colville NF, WA; $1,000,000 for acid mine clean-up on the Wayne NF, OH; $360,000 for the Rubio Canyon waterline analysis on the Angeles NF, CA; $1,500,000 increase for aquatic restoration in Washington and Oregon; $1,250,000 increase for Lake Tahoe watershed protection; and $300,000 for invasive weed programs on the Okanogan NF and other eastern Washington national forests with no more than five percent of these funds to be assessed as indirect costs. The wildlife and fisheries habitat funding includes $200,000 proposed by the Senate for the Batten Kill River, VT, project; the Alaska State payment proposed by the Senate is not funded and the funding for the Little Applegate project, OR is included in the State and private forestry account. The recreation, heritage and wilderness activity includes: $700,000 for operations of the Continental Divide trail; $100,000 for the Monongahela Institute effort at Seneca Rocks, WV; $120,000 for the Monongahela NF, Cheat Mountain assessment, WV; $100,000 for cooperative recreational site planning on the Wayne NF, OH; $100,000 for cooperative efforts regarding radios for use at Tuckerman's Ravine on the White Mountain NF, NH; and $68,000 for the Talimena scenic byway which the Senate had included in the vegetation management activity. The managers direct the Forest Service to conduct a feasibility study on constructing a recreational lake on the Bienville NF in Smith County, MS. The managers agree to the House report direction concerning national scenic and historic trails and Region 5 grazing monitoring. The managers do not agree to the Senate report direction concerning allocation of funds for the Washington office and national commitments in the inventory and monitoring activity or the land management planning activity. The forest products activity includes $700,000 proposed by the Senate for the State of Alaska to monitor log transfer facilities as well as the $790,000 proposed by the Senate for forestry treatments on the Apache-Sitgreaves NF, AZ. The House proposal for $250,000 for a Pacific Crest trail lands team is funded. The managers have added $500,000 to the law enforcement activity for the special needs caused by methamphetamine dumps and $500,000 for special needs on the Pisgah and Nantahala NFs. The conference agreement also includes additional funds for Senate proposals of $2,000,000 for the Quincy Library Group project, CA, $5,000,000 for Tongass NF, AK, timber pipeline, and $990,000 for Valles Caldera, NM, management.

The managers have provided $255,844,000, an increase of $10,700,000 above the House and $10,000,000 above the Senate for the forest products activity. The total funds provided for the timber sales program in combination with the increase provided for engineering support within the capital improvement and maintenance appropriation should be more than sufficient to attain the 3.6 billion board foot offer level using the agency's own unit cost estimates. Accordingly, the managers urge the agency to offer no less than 3.6 billion board feet for sale in fiscal year 2001. The conference agreement does not include bill language proposed by the Senate concerning mandatory reprogramming of funds to attain the Congressionally directed sale offer level.

The managers have included an additional $500,000 in the minerals and geology management activity to support necessary administrative duties related to the Kensington Mine in southeast Alaska, including completion of a supplemental environmental impact statement.

The managers are generally pleased with the Land Between the Lakes National Recreation Area management transition from the Tennessee Valley Authority to the Forest Service. The managers direct the administration to use the environmental education trust fund established in the authorization of this area strictly for the authorized purposes and not for general operations of the NRA.

WILDLAND FIRE MANAGEMENT

The conference agreement provides $1,265,129,000 for wildland fire management instead of $618,343,000 as proposed by the House and $767,629,000 as proposed by the Senate. The managers note that this funding total includes $426,000,000 in contingent emergency appropriations which will repay previously advanced sums as well as establish an available contingency fund for future emergencies. This emergency contingency funding includes the $150,000,000 in the Senate passed bill as well as $276,000,000 recommended in the Administration's wildfire report. The managers have also addressed other priority wildfire needs in title IV where an additional $619,274,000 for the Forest Service is provided for a variety of emergency needs. The managers have not included additional funds above the request for acquisition of a high band radio system at the Monogahela NF, WV, as proposed by the Senate because funds for this project were included in the request.

The following discussion includes instructions pertaining both to the title II funds as well the Title IV funds provided for the Forest Service.

The managers recognize that the severity of the 2000 fire season is attributable to a combination of unusual weather conditions and accumulated wildland fuels that overwhelmed available Federal agency resources. To prepare better for fires in 2001 and beyond, the managers propose significant improvements to preparedness, fuels treatments, and other aspects of fire management. The managers expect the agencies to work closely with States and local communities to maximize benefits to the environment and to local communities.

The conference agreement has responded to special needs and the Administration's recent wildfire report with additional funding here and in title IV for additional emergency funds. The conference agreement includes funding for all of the Administration's supplemental request as well as strategic enhancements for certain priority activities. Overall, for the Forest Service, the managers provide $1,884,403,000 to fund: repayment of previously advanced funds, additional wildfire suppression activities; the agency's revised calculation for normal year readiness; certain one-time improvements to preparedness capability; an expanded fuels treatment program that places primary emphasis on community protection; stabilization, rehabilitation, and restoration of burned areas; assistance to State and local governments for enhanced protection of communities; control and eradication of invasive species;

development of new technologies and businesses to economically harvest small diameter forest products; and community assistance programs that may be used to develop local capability and homeowner education. The managers have funded $1,045,274,000 as ''emergency'', including $426,000,000 in title II to ensure that adequate funds are immediately available if needed to fund suppression activities in fiscal year 2001, and to repay funds borrowed from agency trust funds during the fiscal year 2000 season. The remaining $619,274,000 in emergency funding is included in title IV for a variety of items needed to protect lands and communities.

The managers strongly believe this FY 2001 funding will only be of value in increasing the Nation's firefighting capability and ability to protect communities if it is sustained in future years. Accordingly, the House and Senate Committees on Appropriations expect that the fiscal year 2002 budget request will continue initiatives begun under this appropriation that ensure a significant commitment to these programs. The managers also direct the Departments of the Interior and Agriculture to continue to work together to formulate complementary budget requests that reflect the same principles and budget organization. In addition, the managers expect the agencies to seek the advice of governors, and local and tribal government representatives in setting priorities for fuels treatments, burned area rehabilitation, and public outreach and education.

FIRE PREPAREDNESS

For fire preparedness, the managers provide $612,490,000, $208,147,000 above the initial request and $204,147,000 above the House passed level. This funding includes $574,890,000 to enhance wildfire readiness by attaining a most efficient level of 100 percent, $4,000,000 for joint fire sciences, $12,000,000 for the development of new systems and technology, and $17,000,000 to restructure the agency workforce to respond better to future fire preparedness, operations, and suppression needs. In addition, $600,000 is provided for cooperative research and technology development between Federal fire research and fire management agencies and the University of Montana National Center for Landscape Fire Analysis. These activities should be funded through normal Joint Fire Science Program peer review procedures and focus on developing remote sensing and other landscape scale applications for fire management in areas of fuel mapping, fire and smoke monitoring, and fire modeling and prediction in order to support and enhance existing efforts in these areas by the Forest Service, Department of the Interior, National Aeronautics and Space Administration, universities, and other agency researchers and collaborators.

The managers understand that the increased scope and intensity of the 1999 and 2000 fire seasons, as well as the increased frequency and severity of fires over the preceding decade, have led Federal fire managers to reassess the assumptions underlying an average fire season. Variables, addressed in the Administration's Report on Managing Impacts of Wildfires on Communities and the Environment, including changing assumptions about fire personnel, deployment strategies, duration of the average fire season, needs for new technologies for rapid response, coordinated response needs with State and local agencies, and other factors, will require a major adjustment in funding strategies for the preparedness program. The managers expect future budget requests for this line item will reflect this new level of agency preparedness.

The managers concur that initial attack capability should be increased to address the number and severity of fires that have burned the landscape over the past few years and have included full funding for approximately: 2,800 additional firefighters, 412 engines, and other resources necessary to achieve a 100 percent most efficient level.

Within the funds provided is $17,000,000 to facilitate restructuring of the agency's firefighting workforce. The managers concur with recommendations for conversion of temporary seasonal employees to permanent seasonal status in order to encourage workforce retention. The managers expect the Departments to devote resources necessary to increase staffing for engines from the current level of five days a week to seven days a week to combat increasingly volatile fire seasons. Additionally the managers support agency plans to increase potentially permanent staffing by approximately 500 to respond to projected retirements and other changes in the workforce.

The managers support an acceleration of research activities and expanded emphasis for the Joint Fire Science Program and have provided an additional $4,000,000, respectively, to the Departments of the Interior and Agriculture to support the recommendations regarding scientific support for fuels treatments and other programs contained in the report to the President. These funds are in addition to the $4,000,000 provided for each agency as part of the Administration's original budget request. The funds provided are to be used for such efforts as increased rapid response projects to assure necessary resources are available for testing and evaluation of post-fire rehabilitation, assessment of post-fire and fire behavior effects, use of aircraft-based remote sensing operations, implementation of protocols for evaluating post-fire stabilization and rehabilitation, and the development of effective means for collecting and disseminating information about treatment techniques. The managers expect the increased funds to be made available to the Joint Fire Science activities of the Departments for the direct benefit of fire management programs, including burned area rehabilitation.

The managers expect the Joint Fire Sciences Governing Board to make a significant portion of the increased funds directly available to the fire management programs of the Agriculture and Interior Departments to fund projects that directly address locally and regionally important science and technology needs associated with fire management and suppression, fuels management, and post-fire rehabilitation. The managers further expect the Departments to assure that these programs are implemented within existing structures with a minimum of new program management or other overhead activities that might reduce the direct benefit of funds provided. The January 1998 Joint Fire Science Plan developed by the two Departments and submitted to the Congress included provisions for a Stakeholder Advisory Group of technical experts from land management organizations, private industry, academia, other Federal agencies, and the public to formulate recommendations for program priorities and advise the Joint Fire Science Program Governing Board. This Group is to be established under the provisions of the Federal Advisory Committee Act. The managers are concerned that nearly three years have passed without establishment of this group. The managers direct the Secretaries to establish the group by December 31, 2000.

In addition to funds provided for the Joint Fire Sciences Program, $12,000,000 is provided for development of systems to support financial and logistic support to fire operations and technologies to support such activities as fire management planning, additional research for measurement, technology transfer, and remote sensing, and funds for improving and validating models for fire weather, fire hazard, behavior, emissions and smoke dispersion.

Fire operations

The conference agreement provides $226,639,000 for fire operations in the normal title II non-emergency program, which is $16,639,000 above the House passed level and $10,610,000 above the original Administration request. This funding includes $141,029,000 for wildfire suppression activities and $85,610,000 for the non-emergency hazardous fuels program. The conference agreement provides for the following Congressional priorities within the hazardous fuels program: $263,000 for Apache-Sitgreaves NF, AZ, urban interface; $1,000,000 for the Quincy Library Group project, CA; $6,947,000 for windstorm damage in Minnesota; $1,500,000 for the Lake Tahoe basin; and $2,400,000 for work on the Giant Sequoia National Monument and Sequoia National Forests. The managers have also provided $426,000,000 in title II as an emergency contingent appropriation for future emergency fire suppression needs and for repayment of funds borrowed from agency trust funds in fiscal year 2000.

The conference agreement also provides $619,274,000 in emergency funds for wildfire operations in title IV for a variety of needs including: $179,000,000 in additional funds to cover annual suppression costs based on the ten-year average; $120,000,000 in additional funds for hazardous fuels reduction; $142,000,000 for rehabilitation and restoration of burned areas; $16,000,000 to support wildfire related research and development; $44,000,000 for immediate reconstruction of severely deficient wildfire facilities; $50,494,000 for State fire assistance to support State and local fire readiness and fuel treatment activities; $8,280,000 in additional funds for priority volunteer fire assistance; $12,000,000 in additional funds for forest health treatments to help control and eradicate invasive species; $12,500,000 in additional funds for priority projects and incentives for economic use of small diameter forest products; and $35,000,000 for community and private land fire assistance.

The funding included in title IV, fire operations for hazardous fuels management activities is $25,000,000 above the level included in the Administration's wildfire report; the total includes $11,500,000 for analysis, monitoring and planning activities. The managers direct that the increased funding provided be dedicated to projects within the wildland-urban interface on Federal lands or adjacent non-Federal lands. These funds are to support activities necessary to reduce the risks and consequences of wildfire, both in and around communities and in wildland areas. Treatment methods include application of prescribed fire, mechanical removal, mulching, and application of chemicals. In many areas a combination of these methods will be necessary over a period of several years to reduce risks and to maintain healthy and viable forests and rangelands. The increased funding included in this appropriation will expand the existing fuels management program to reduce risks to communities and natural resources in high-risk areas. The managers understand that fuels treatment accomplishments have been constrained by

lack of funding to conduct planning, assessments, clearances, consultation, and environmental analyses necessary for the land management and regulatory agencies to ensure that fuels treatments are accomplished quickly and in an environmentally sound manner. In conducting treatments, local contract personnel are to be used wherever possible. The managers expect the agency to show planned and actual funding and accomplishments for fuels management activities in future budget requests to Congress. The managers understand that actual amounts may differ from planned levels. The managers expect the agencies to work closely with States and local communities in implementing this program in an effective and efficient manner.

The managers intend that $15 million of the additional funding provided for fuels reduction in title IV be used to carry out and implement the Quincy Library Group plan. This will be in addition to other funding appropriated in title II.

The managers have included $142,000,000 within wildfire operations for rehabilitation and restoration; this is $97,000,000 above the total in the Administration's wildfire report. These funds are needed for priority burned area rehabilitation and restoration to address short term and longer term detrimental consequences of wildfires. The managers are disturbed that the Administration failed to propose sufficient funding for this activity in view of the catastrophic damage which occurred in burned areas. Accordingly, a total of $142,000,000 for restoration activities is provided. The managers note that wildland fires burning at the right times and places, and under the right burning conditions, are beneficial or even essential to the health of forests and rangelands. However, some severe wildfires can trigger a wide array of detrimental impacts, ranging from short-term floods, debris flow, and loss of water quality to longer-term invasion by non-native species and loss of productivity of the land. The increased funding for burned area rehabilitation and restoration is designed to prevent further degradation of resources following wildland fire through (1) short-term stabilization and rehabilitation activities to protect life and property, protect municipal watersheds, and prevent unacceptable degradation of critical natural and cultural resources, and (2) longer-term restoration activities to repair and improve lands unlikely to recover naturally from severe fire damage. The managers direct the agencies to develop a long-term program to manage and supply native plant materials for use in various Federal land management restoration and rehabilitation needs. The managers recommend that the interagency native plant conservation initiative lead this effort.

Long-term monitoring of treatment effectiveness and dissemination of results are essential components of successful restoration in order to develop better treatment plans for future fires. Longer-term projects may include replacement and repair of facilities or reforestation activities if such facilities or reforestation is part of a previously approved land management plan. The managers expect that funding for these activities will be available from this appropriation only concurrent with this emergency situation and in the future will be requested within the agency's existing budget structure. In conducting rehabilitation and restoration activities, local contract personnel should be used wherever possible. The managers expect the agency to show planned and actual funding and accomplishments for stabilization and rehabilitation activities in future budget requests to Congress. The managers understand that actual amounts may differ from planned levels, and agree that the agencies have the ability to fund additional projects and amounts based on actual needs. The managers direct the Departments of the Interior and Agriculture to report to the House and Senate Appropriations Committees, by December 1, 2000, on criteria for restoration projects to be funded from this appropriation.

The managers have provided funds for emergency reconstruction and maintenance of the agency's rapidly deteriorating fire facilities. The managers note that the Administration failed to request adequate funding to support these critical infrastructure needs. Accordingly, the managers have included on a one-time basis, $44,000,000 for this purpose. Included in the amount is $12,000,000 for reconstruction and repair of air tanker bases and $32,000,000 for reconstruction and repair of additional fire related facilities. The managers direct that the fiscal year 2002 budget justification contain an exhibit which shows project specific information on the accomplishments with these funds. The managers have provided funding for these activities from this appropriation only concurrent with this emergency situation. In the future the managers expect the agency to request such funds within the agency's existing budget structure.

Within the title IV funding for fire operations, the managers have included $16,000,000 to support basic and applied wildfire related research and development. Funding is provided for such activities as developing new strategies to reduce fuels in wildland urban interface areas, improve capability to monitor, predict, prevent and decrease invasive species in burned areas, study impacts of alternative fire regimes and management activities, and study the interactions between fire, land management treatments and other disturbances. The managers have provided funding for these activities from this appropriation only concurrent with this emergency situation. In the future the managers expect the agency to request such funds within the agency's existing budget structure.

The managers have provided $118,274,000 within title IV for emergency activities consistent with the authorizations the agency has to support State and private forestry programs. The managers have provided funding for these activities from this appropriation only concurrent with this emergency situation and in the future expect the agency to request such funds within the agency's existing budget structure.

The managers concur that effective management of fire related issues in the wildland urban interface requires strong commitment and resources from State, tribal, and local governments. Fire readiness capability must be on an equal par between State, local and Federal organizations, including availability of resources, adequacy of planning, and commitment to training. Of the amount provided for State and private related activities, $50,494,000 is designated for State fire assistance, including support for the FIREWISE program and the use of cost share incentives. The managers expect cost sharing incentives to use one-to-one cost sharing, not three-to-one Federal to State as recommended by the Administration. Of the State fire assistance funding, $7,500,000 is a direct lump sum payment to the Kenai Peninsula Borough to complete the activities outlined in the spruce bark beetle task force action plan. Ten percent of these funds shall be made available to the Cook Inlet Tribal Council for reforestation on Native inholdings and Federal lands identified by the task force. In order to improve the ability of rural volunteer fire fighting departments to respond to wildfire, the managers have provided $8,280,000 within funds designated for State and private type activities to improve the capability and readiness of these critical front line firefighting resources. The managers note that this funding, coupled with the $5,000,000 provided for volunteer fire assistance in title II, equals the Administration's request for these activities.

The managers have included $59,500,000 in title IV within funds provided for other State and private type activities; this includes $12,000,000 for the management and control of invasive species in cooperation with State and tribal governments; $12,500,000 to provide technical and financial assistance through the development and expansion of markets for traditionally underutilized wood products to enhance utilization of materials removed during hazardous fuels management activities; and $35,000,000 for community and private land fire assistance.

The community and private land fire assistance funds are provided because the managers recognize the serious impacts of wildfires on State and private lands. These funds are additional funds beyond the Administration's request for programs which assist State and private groups in addressing damage caused by fire. This additional $35,000,000 for community and private land fire assistance should be allocated primarily to Western States such as Montana and Idaho which have had the most severe fire damage. The managers are particularly concerned that many miles of fencing in Montana were burned and the Departments of Agriculture and of the Interior have generally only reimbursed persons who have constructed these fences the depreciated value, even though authority exists to provide replacement value. The managers direct that up to $9,000,000 be made available to reimburse affected parties at replacement value. The managers expect that the allocation of some of these funds for longer term restoration of facilities such as roads and trails should take into account the severe impacts of fire in particular States such as Idaho and Montana which sustained serious damage to miles of roads and trails and other similar facilities.

Furthermore, the managers are especially concerned about the potential impacts of invasive species and insects on Federal, State, and private lands that have been severely burned. The managers understand that in some States suffering the most severe fire damage, such as Montana, that the spread of pine beetle infestations has increased as much as threefold. With the funds provided for cooperative forestry health management the managers encourage the agency to work through the use of cooperative agreements with State and private groups which can enhance accomplishments on the ground in the efforts to combat the spread of invasive species and insect and disease problems. In Western States severely impacted by fire such as Idaho and Montana, the managers are particularly concerned that highly rural, dispersed populations may lack adequately equipped volunteer fire departments and State firefighting resources which may have contributed to the severity of fires and resulting damage. Accordingly, the managers direct the agency to consider

these factors in making allocations to the States for State fire assistance and for volunteer fire assistance.

CAPITAL IMPROVEMENT AND MAINTENANCE

The conference agreement provides $468,568,000 for capital improvement and maintenance instead of $434,466,000 as proposed by the House and $448,312,000 as proposed by the Senate. The conference agreement provides for the following distribution of funds:

Project	*Conference*
Facilities:	
Maintenance	$73,306,000
Capital Improvement requested program	74,535,000
Allegheny NF Marienville RS (PA)	1,000,000
Allegheny NF visitor services (PA)	500,000
Angeles NF water & sewer rehab (CA)	900,000
Big Bear Lake center, phase II (CA)	1,300,000
Cedar Lake rec area (OK)	740,000
Coweeta research rehab (NC)	110,000
Cradle of Forestry projects (NC)	380,000
Franklin County Lake project (MS)	2,000,000
Gladie Creek center (KY)	1,250,000
Grey Towers NHS site rehab (PA)	500,000
Hardwood research center plan (IN)	300,000
Hubbard Brook (NH)	600,000
Indian Boundary cmp rehab, (TN)	350,000
Inst. of Pacific Island Forestry (HI)	2,000,000
Lake Sherwood rec area (WV)	150,000
Mount Tabor Work Center (VT)	175,000
Mt Baker Snoqualmie NF cmpgrnd	2,000,000
Nantahala NF Fontana Lake (NC)	600,000
Ocoee River sites and cons. Center (TN)	800,000
Ouachita NF Albert rec area (AR)	600,000
Ouachita NF Camp Clearfolk (AR)	400,000
Uwharrie NF Badin Lake (NC)	400,000
Uwharrie NF Kings Mtn Pt (NC)	900,000
Waldo Lake rehab (OR)	500,000
Total facilities	$166,296,000
Roads:	
Maintenance	130,000,000
Lake Tahoe Basin (CA-NV)	1,500,000
Beartooth Highway snow removal	0
Capital improvement requested prog	103,447,000
Highland Scenic Hiway (WV)	600,000
Total roads	$235,547,000
Trails:	
Maintenance	31,000,000
Capital improvement requested prog	34,025,000
FL National scenic trail	500,000
Virginia Creeper Trail	200,000
Continental Divide Trail line	1,000,000
Total trails	$66,725,000
Total Cap Improvement and Maintenance	468,568,000

The conference agreement does not include funding proposed by the Senate for snow removal and repairs on the Beartooth Highway near Yellowstone National Park; existing funding is not rescinded as was proposed by the Senate. The managers expect the Forest Service to follow Senate directions concerning the roads program. The managers emphasize the need for a cost-share for the Grey Towers, PA, funding; the Forest Service is encouraged to work with Tulare County, CA, on plans for recreational facilities. The conference agreement includes $2,000,000 for the Forest Service to develop a campground in the Middle Fork Snoqualmie Valley in the Mt. Baker-Snoqualmie National Forest, WA. The managers expect that the preliminary planning, environmental and ecological analysis necessary to design and locate the campground will occur in conjunction with the reconstruction of King County's Lake Dorothy Highway and Forest Service Road 56. The managers understand that the new road will terminate at mile post 12 at the Taylor River Bridge and an existing trailhead parking lot. The managers expect that the campground will be located adjacent to these existing facilities.

LAND ACQUISITION

The conference agreement provides $102,205,000 for land acquisition instead of $52,000,000 as proposed by the House and $76,320,000 as proposed by the Senate. Funds should be distributed as follows:

Area (State)	*Amount*
Angeles NF (CA)	$2,000,000
Arapaho NF (Beaver Brook Watershed) (CO)	2,000,000
Black Hills NF (Spearfish Canyon) (SD)	1,000,000
Bonneville Shoreline Trail (UT)	2,500,000
Chattooga WSR (GA/NC/SC)	2,000,000
Chugach NF (Seward multi-agency ctr.) (AK)	1,630,000
Coconino NF (Bar T Bar Ranch) (AZ)	3,200,000
Coconino NF (Sedona Red Rock) (AZ)	3,000,000
Daniel Boone NF (KY)	2,000,000
DeSoto NF (U. of Mississippi) (MS)	10,800,000
Dry Lake (AZ)	750,000
Florida National Scenic Trail (FL)	5,000,000
Francis Marion NF (Tibwin Forests & Waterways) (SC)	2,000,000
Green Mountain NF (VT)	2,000,000
Hoosier NF (Unique Areas) (IN)	1,000,000
I–90/Plum Creek escrow lands (WA)	8,600,000
Lake Tahoe Ecosystem (CA/NV)	4,000,000
Lewis and Clark Historic Trail (ID/MT)	2,000,000
Los Padres NF (Big Sur Ecosystem) (CA)	3,000,000
Mark Twain NF (Ozark Mt. Streams & Rivers) (MO)	1,500,000
Monongahela NF (WV)	925,000
Mountains to Sound (WA)	5,000,000
Pacific Crest Trail (CA/OR/WA)	3,000,000
Pacific Northwest Streams (OR/WA)	1,500,000
Pisgah NF (Lake James) (NC)	4,000,000
Rye Creek (MT)	2,800,000
San Bernardino NF (CA)	2,500,000
Sawtooth NF (Sawtooth NRA) (ID)	2,000,000
Wayne NF (Sunday Creek) (OH)	4,000,000
White Mountain NF (NH)	2,000,000
Wisconsin Wild Waterways (WI)	2,500,000
Subtotal	90,205,000
Forest Inholdings	1,500,000
Wilderness Protection	500,000
Cash Equalization	1,500,000
Acquisition Management	8,500,000
Total	$102,205,000

The managers have provided $2,000,000 to purchase non-development scenic easements in Pingree Forest, ME, in cooperation with the National Fish and Wildlife Foundation under the resource management account in the U.S. Fish and Wildlife Service.

The managers are concerned with the urban lot purchase program at the Lake Tahoe Basin Management Unit. The role of the Forest Service in acquiring, administering and maintaining the urban lots appears inappropriate and often ineffective. Considering the mission of the Forest Service and limited operating funds, opportunities should be explored to transfer the urban lots currently administered by the Forest Service to State and local governments for their management and protection.

None of the funding provided for Federal land acquisition shall be used to acquire additional lots. Acquisition of larger resource lands adjacent to National Forest System land to protect watershed values and provide recreation opportunities should be the focus of the Forest Service land acquisition program at Lake Tahoe.

The managers direct the Forest Service to provide a report to the House and Senate Committees on Appropriations by April 30, 2001. The report should provide a detailed view of past Federal and State acquisitions at the Lake Tahoe Basin Management Unit, the costs and challenges of managing these fragmented properties, and legislative options for the Federal government to turn over this program to State and local authorities.

The managers note that the conference agreement has provided substantial resources in other activities to help protect Lake Tahoe. This funding includes $2,000,000 for cooperative erosion grants in State and private forestry, $1,250,000 for the NFS vegetation and watershed activity to enhance restoration of sensitive watersheds, $1,500,000 in capital improvement and maintenance to help fix the ailing road system, and $1,500,000 in wildfire management funding to enhance forest health by reducing hazardous fuel.

The Forest Service should acquire land in Spearfish Canyon, SD, but it should have flexibility and responsibility to make selections that would provide the highest and best beneficial public use for the expenditure.

The managers have not provided specific funding in land acquisition for the Craig, AK, and Kake, AK, projects as was proposed by the Senate. Funding for the Kake, AK, land transfer is included in State and private forestry, contingent upon authorization, and funding for Craig, AK, is provided in the

southeast Alaska economic disaster fund. Bill language and funding for the Umpqua land exchange project is included in title III.

ACQUISITION OF LANDS FOR NATIONAL FORESTS SPECIAL ACTS

The conference agreement provides $1,069,000 for the acquisition of lands for national forests special acts, an increase of $1,000 above the House and the Senate proposals.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

The conference agreement provides an indefinite appropriation estimated to be $234,000 for the acquisition of lands to complete land exchanges as proposed by both the House and the Senate.

RANGE BETTERMENT FUND

The conference agreement provides an indefinite appropriation estimated to be $3,300,000 for the range betterment fund as proposed by both the House and the Senate.

GIFTS, DONATIONS AND BEQUESTS FOR FOREST AND RANGELAND RESEARCH

The conference agreement provides $92,000 for gifts, donations and bequests for forest and rangeland research as proposed by both the House and the Senate.

MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES

The conference agreement provides $5,500,000 for management of national forest system lands for subsistence uses in Alaska as proposed by the Senate. No funding was proposed by the House. The managers do not agree to the Senate proposal to transfer a portion of these funds to the State of Alaska for this program. Funds are provided in State and private forestry for educational efforts of the United Fishermen proposed by the Senate.

SOUTHEAST ALASKA ECONOMIC DISASTER FUND

The conference agreement provides $5,000,000 for the Southeast Alaska Economic Disaster fund; this was not included in the Senate or House proposals. These funds should be used for Craig, AK, to assist with economic development.

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

The managers have included bill language proposed by the Senate concerning the National Forest Foundation and the National Fish and Wildlife Foundation. The conference agreement includes: the Senate proposal to increase the limit on funding advances for law enforcement emergencies; the House language providing certain contracting procedures during the transition phase at the Land Between the Lakes NRA; the Senate proposal to reimburse a former employee for certain expenses; the Senate proposal to allow certain activities on the Green Mountain National Forest, VT, concerning the sale of excess buildings; and technical changes to language concerning definitions of indirect costs. The Forest Service is encouraged to give priority to projects for the Alaska jobs-in-the-woods program that enhance the southeast Alaska economy, such as the Southeast Alaska Intertie.

The managers are concerned about reports that certain Forest Service officials have spent large sums when purchasing new vehicles to get them painted to the agency standard green color. The managers expect the agency to acquire its vehicles in the most cost effective manner possible. The managers direct the agency to change its policy to prevent such expensive purchases. The managers have not included section 501 of the House passed bill which legislatively required all vehicles purchased to be white. With the exception of specific vehicles, such as are used for law enforcement and fire prevention, where a specific color is an essential element of agency recognition and public safety, the managers expect vehicle paint standards to emphasize economical acquisitions.

The managers remain extremely concerned about the size of the headquarters office and emphasize the need to get funding to field units. The managers expect full adherence, as was directed by both the House and the Senate, to the National Academy of Public Administration report dealing with staffing size limits for the Chief Financial Officer. If the workload proves too pressing for the existing staff, the managers encourage the use of contractors to accomplish short term efforts. The Congress has provided substantial resources and many technical reforms, such as the major simplification of the budget structure in this Act, which aid the financial management reform effort. The managers expect to continue to receive regular updates on progress in agency accountability and financial management.

DEPARTMENT OF ENERGY

The managers encourage the Department to work with State and Federal environmental and energy organizations to integrate energy and environmental policies, programs and regulations. In particular strategies should be developed to reduce multiple pollutants, improve energy efficiency and enhance reliability. The Department should work with the Environmental Protection Agency, the Environmental Council of the States, The State and Territorial Air Pollution Prevention Administrators/Association of Local Air Pollution Control Officials, The National Association of State Energy Officials and the National Association of Regulatory Utility Commissioners. This effort should be directed at avoiding contradictory programs, duplicative activities and related problems.

CLEAN COAL TECHNOLOGY

(DEFERRAL)

The conference agreement provides for the deferral of $67,000,000 in previously appropriated funds for the clean coal technology program as proposed by the Senate instead of a deferral of $89,000,000 as proposed by the House. The managers also have agreed, under the fossil energy research and development account, to transfer $95,000,000 in previously appropriated clean coal technology funding to the fossil energy research and development account for a power plant improvement initiative. This initiative is particularly timely, given the current electricity shortages in certain parts of the country and the changing make-up of the industry as electric power deregulation is implemented.

The managers agree that a report required by the Senate dealing with a potential new round of clean coal technology projects is not necessary. This issue should be addressed in the context of the power plant improvement initiative funded under the fossil energy research and development account.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides a total of $540,653,000 for fossil energy research and development instead of $365,439,000 as proposed by the House and $401,338,000 as proposed by the Senate. Of the amount provided, $433,653,000 is new budget authority, $95,000,000 is derived by transfer from previously appropriated funds from the clean coal technology account for a power plant improvement initiative and $12,000,000 is derived by transfer from the SPR petroleum account in the Strategic Petroleum Reserve. The numerical changes described below are to the House recommended level.

In central, systems increases include $1,000,000 for the international clean energy initiative, $1,000,000 for a study of the use of clean coal alternatives for replacement of the Capitol power plant and $2,000,000 for electro-catalytic oxidation technology.

In the indirect fired cycle program there is a decrease of $1,000,000. In the turbine program there is an increase of $3,000,000 for ramgen technology. In the fuel cell program a one-time increase of $2,000,000 is provided for a demonstration of solid oxide technology in Nuiqsut, Alaska, and there is an increase of $8,000,000 for the solid state energy conversion alliance. In the innovative concepts program there is a decrease of $1,500,000, which leaves an increase above fiscal year 2000 of $2,000,000 for multi-layer ceramic technology. In the transportation fuels and chemicals program there is an increase of $500,000 for the international clean energy initiative.

In advanced fuels research there are increases of $839,000 for hydrogen enabling science, $1,000,000 for advanced concepts/Vision 21 and $1,000,000 for advanced separation technology and decreases of $650,000 for molecular modeling and catalyst development and $489,000 for C–1 chemistry. In the technology crosscut program there is an increase of $30,000 for the National Energy Technology Laboratory center of excellence for computational energy science.

In natural gas programs there is an increase of $7,000,000 for the methane hydrates program.

For oil exploration and production research there is an increase of $1,000,000 for sonication technology for oil recovery and a decrease of $500,000 for analysis and planning. For emerging processing technology applications there is an increase of $2,600,000 for biodesulfurization of diesel fuel. There is also a decrease of $12,000,000, which reflects the use of previously appropriated Strategic Petroleum Reserve funds from the SPR petroleum account.

In other programs there is an increase of $700,000 for cooperative research and development; $951,000 for headquarters program direction fixed costs; $3,833,000 for fixed costs at energy technology centers, including $1,933,000 for salaries and benefits and $1,900,000 for contractor services; $1,900,000 for general plant projects, of which $1,300,000 is for National Energy Technology Center renovation projects; and $45,000,000, which reverses a general reduction adopted in House floor action.

The managers agree to the following:

1. The materials research program under the central systems activity should focus on hazardous air pollutants in general and mercury in particular.

2. Future funding for the Capitol power plant is the responsibility of the Architect of the Capitol and the $1,000,000 provided for a study of clean coal alternatives completes the funding commitment through Interior and Related Agencies appropriations.

3. Emphasis in the indirect fired cycle program should be placed on co-production, novel hybrid cycles and systems integration to complement the Vision 21 program. In fiscal year 2001 the program should move towards hybrid gasification/combustion technology.

4. The Department should continue and expand the advanced separation technology initiative in its fiscal year 2002 and later budget requests.

5. Within the methane hydrates program, the Department is strongly encouraged to consider the expertise of the Gulf of Mexico Hydrate Research Consortium, as well as the expertise of the Center for Marine Resources and Environmental Technology in gas hydrate research related to geohazard and sea floor stability in the Gulf of Mexico.

6. The ultra clean fuels initiative should not exclude coal-based fuels.

7. The report required by the House dealing with financial incentives for reducing emissions from existing coal-fired plants is not necessary. This issue should be addressed in the context of the power plant improvement initiative.

8. Research on the biodesulfurization of gasoline should be continued within this account and coordinated with programs in this area in the petroleum industries of the future program in the energy conservation account.

Power plant improvement initiative.—In the coming years, the surge in U.S. demand for electric power shows no signs of abating. Yet, in many regions, our expanding 21st century economy is being powered by an out-of-date and undersized electric power system. The result has been an increasing frequency of power supply disruptions and sharp increases in the electric bills of many Americans. For the sick and the elderly, access to reliable electricity can be a matter of life and death. Without reliable and affordable electric power, commercial and industrial businesses can grind to a halt. We risk short-circuiting the continued expansion of digital commerce and e-business that are integral to economic prosperity.

More than half of our nation's electricity is currently supplied by coal, and for decades into the future, plentiful American coal will continue to provide low cost and reliable electricity. Coal-fired electric power is fundamental to the U.S. economy and domestic energy security. As the U.S. electric industry transitions to a new and competitive business structure, the demands on the existing fleet of coal-based electric generating facilities are changing. Power plants must operate in a fashion that reduces environmental impacts, achieves greater efficiency in operation, reduces carbon dioxide and other emissions, remains cost-competitive, and responds quickly to changing customer demand. By achieving greater efficiency, these generating plants will be capable of supplying more electricity, which is needed in today's economy and for the future.

The managers have agreed to fund a power plant improvement initiative that will demonstrate advanced coal-based technologies applicable to existing and new power plants including co-production plants, for example, plants that produce heat, electric power and liquid fuels, and new technologies such as the introduction of coal fines into fuel streams at power plants. The managers expect that there will be at least a 50 percent industry cost share for each of these projects and that the program will focus on technology that can be commercialized over the next few years. Such demonstrations must advance the efficiency, environmental controls and cost-competitiveness of coal-fired capacity well beyond that which is in operation now or has been demonstrated to date.

The managers have included bill language that provides for a request for proposals 120 days after enactment of this Act. The Department should circulate a draft for comment and receive input from outside groups and industry before issuing the final request for proposals. The language provides for obligation of funds after September 30, 2001, and incorporates the governing provisions of previous demonstration programs for the expenditure of funds, including repayment of government contributions that are to be retained for future demonstration projects.

The managers expect the Department of Energy to use the draft solicitation and public review process to specify the criteria for the technical and financial evaluation of projects. The criteria should include as a minimum: (1) the approximate size of a commercial scale project to ensure a commercially viable demonstration and, if intended for existing facilities, applicability to a large portion of existing capacity and (2) the increase in performance factors, such as efficiency, cost-competitiveness, and/or emissions removal required for both existing and new facilities.

Bill Language.—The conference agreement includes language, as proposed by the Senate, transferring $12,000,000 from the SPR petroleum account to offset partially fossil energy research and development funding requirements for fiscal year 2001. Language also is included transferring $95,000,000 from the clean coal technology account for a power plant improvement initiative. The conference agreement also includes Senate proposed language permitting the use of up to 4 percent of National Energy Technology Center program direction funds to support other Department of Energy activities. Language also is included under title III—General Provisions requiring the National Energy Technology Laboratory to establish an advisory group under the same terms and conditions as such groups at other National Laboratories.

ALTERNATIVE FUELS PRODUCTION

(RESCISSION)

The conference agreement provides for the rescission of $1,000,000 in unobligated balances from the alternative fuels production account as proposed by both the House and the Senate.

NAVAL PETROLEUM AND OIL SHALE RESERVES

The conference agreement provides $1,600,000 in new funding for the Naval petroleum and oil shale reserves for an advanced oil recovery program at Naval Petroleum Reserve Number 3. No funds are provided, as proposed by both the House and the Senate, for ongoing operations at the Reserves because unobligated balances from previous fiscal years should be sufficient to continue necessary operations in fiscal year 2001. The $7,000,000 rescission proposed by the Senate is not agreed to. The $1,600,000 is for engineering studies to determine project scope, cost, revenue projections and a timetable for demonstration of technology that has the potential to increase significantly oil production at NPR–3, extend the life of the field and increase revenues to the Federal government. If the results of the engineering studies are acceptable to the Department, it may enter into an agreement with a non-Federal entity to develop a cost shared demonstration project for below-the-reservoir production at NPR–3.

ELK HILLS SCHOOL LANDS FUND

The conference agreement provides $36,000,000 for the third payment from the Elk Hills school lands fund as proposed by both the House and the Senate. The managers have agreed to delay this payment until October 1, 2001, and expect the payment to be made on that date or as soon thereafter as possible.

ENERGY CONSERVATION

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes $816,940,000 for energy conservation instead of $649,672,000 as proposed by the House and $763,937,000 as proposed by the Senate, including $2,000,000 to be derived by transfer from the biomass energy development account. The numerical changes described below are to the House recommended level.

In technology roadmaps and competitive research and development for buildings there is an increase of $762,000 for roadmaps and a decrease of $500,000 for competitive R&D. Increases in residential buildings integration include $750,000 for Building America and $100,000 for residential building codes. In commercial buildings integration there are increases of $600,000 for research and development and $100,000 for commercial building energy codes.

In equipment, materials and tools there are increases of $300,000 for lighting research and development to increase the base budget for the hybrid lighting partnership, $1,645,000 for residential absorption heat pumps, $3,000,000 for desiccants and chillers, $1,000,000 for refrigeration, $1,950,000 for cogeneration/fuel cells, $500,000 for appliances and emerging technology research and development, $500,000 for windows research and $1,000,000 for lighting and appliance standards.

There are also increases of $13,000,000 for the weatherization assistance program and $1,000,000 for the State energy conservation program.

In the Federal energy management program increases include $1,000,000 for program activities and $300,000 for program direction. The managers expect the Department to incorporate the use of distributed generation into the Federal energy management program. Onsite power options should be considered for all Federal facility power needs based on a balance between economic and environmental considerations. Distributed generation technologies can provide improved reliability, quality of power, total cost of ownership, environmental benefits and remote power needed to achieve Federal missions. The Department of Energy should set the example immediately in its own facilities and report to the House and Senate Committees on Appropriations within 90 days of enactment of this Act with a plan for doing so at DOE sites in fiscal year 2001 and throughout the Federal government in fiscal year 2001 and beyond.

For industries of the future (specific) programs increases include $178,000 for aluminum, $30,000 for glass, $250,000 for mining, $2,000,000 for agriculture and $1,800,000 for supporting industries. In industries of the future (crosscutting) there are increases of $450,000 for inventions and innovations and $3,000,000 for distributed generation and a decrease of $450,000 for the National Competitiveness through Energy, Environment and Economics grants program. In management and planning for industry sector programs there is an increase of $590,000 for fixed costs in program direction and a decrease of $390,000 in evaluation and planning.

In transportation hybrid systems increases include $4,000,000 for high power energy storage and $4,000,000 for heavy vehicle propulsion. For fuel cell programs there are increases of $1,600,000 for systems work and $4,500,000 for fuel processor/storage work. In the advanced combustion engine program increases include $3,000,000 for combustion and

after treatment, $1,000,000 for heavy truck engine research, and $1,000,000 for health impacts of fuels. Other vehicle technology research and development increases include $1,500,000 for cooperative automotive research for advanced technologies, $500,000 for heavy vehicles/truck safety and $1,000,000 for a cost shared program on engine boosting technology for light trucks and sport utility vehicles.

In fuels utilization there are increases of $500,000 for petroleum based fuels and, in the alternative fuels program, $500,000 for medium trucks, $500,000 for heavy trucks and $500,000 for environmental impacts. There is also a decrease of $1,000,000 for health impacts of fuels because this program has been funded in the vehicle technology/advanced combustion engine activity.

Other changes in transportation programs include increases of $2,900,000 in materials technology for heavy vehicle high strength weight reduction, $2,300,000 for the clean cities program in technology deployment and $126,500,000, which reverses the House floor action that eliminated funding for the Partnership for a New Generation of Vehicles program.

There is also a decrease of $21,500,000, which reverses a general increase adopted in House floor action. That increase has been spread across various programs.

Finally, in policy and management there are increases of $225,000 for the working capital fund and $278,000 for the Golden, CO, field office and a decrease of $1,000,000 for the one-time cost associated with the National Academy of Sciences study funded in last year's Act.

The managers agree to the following:

1. The recently approved reorganization to separate distributed generation functions into a new office should be appropriately shown in future budget requests as should the realignment of management support services.

2. The Department should evaluate ambient temperature cure glass technology for air conditioning, which has the potential to reduce energy use for air conditioning, and incorporate that technology, as appropriate, in the Federal Energy Management Program.

3. Given the increases provided in the conference agreement, projects at the Northwest Alliance for Transportation Technologies should be funded at substantially higher levels than previous years.

4. Work with and at the National Transportation Research Center should also be continued and expanded.

5. The report required by the House dealing with engine boosting technology is not necessary. This issue should be addressed in the new program on this subject which is funded in the vehicle technology research and development activity.

6. With respect to the House direction on Postal Service vehicles, no funds should be used for electric vehicle purchases. Such purchases are the responsibility of the Postal Service and the cooperating States.

7. The managers are aware of recent technological advances that may increase opportunities for the application of homogenous charge combustion ignition technologies in mobile systems. This technology has the potential to reduce dramatically NO_X and particulate emissions. The managers direct the Office of Energy Efficiency to submit a report that outlines recent developments in this technology, describes related research being performed with Federal support, and discusses potential future directions for research and development. This report should be submitted by April 1, 2001. The managers further urge the Department to work with the National Research Council to address the potential of homogenous charge combustion ignition technology in its next annual review of the PNGV program.

8. Research on the biodesulfurization of gasoline should be continued in the petroleum industries of the future program and coordinated with programs in this area in Fossil Energy.

Bill Language.—The conference agreement earmarks a total of $191,000,000 for energy conservation programs of which $153,000,000 is earmarked for weatherization assistance grants and $38,000,000 is earmarked for State energy conservation grants. The conference agreement modifies language proposed by the Senate permitting the waiver of cost sharing for weatherization assistance grants. Such waivers can be granted no more than twice. The modification specifies that such waivers can be granted for no more than 50 percent of the required cost share. In addition, the cost-sharing requirement for direct grants for weatherization assistance to Indian tribes is permanently waived.

ECONOMIC REGULATION

The conference agreement provides $2,000,000 for economic regulation as proposed by the Senate instead of $1,992,000 as proposed by the House.

STRATEGIC PETROLEUM RESERVE

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides a total of $165,000,000 for the strategic petroleum reserve, including the transfer of $4,000,000 from the SPR petroleum account. The increase above the House is $8,000,000 for the maintenance of a Northeast Home Heating Oil Reserve. The House did not include the transfer from the SPR petroleum account. The Senate proposed a transfer of $3,000,000 from the SPR petroleum account and a $1,000,000 transfer from the Naval petroleum and oil shale reserves account to pay for the Northeast Home Heating Oil Reserve.

ENERGY INFORMATION ADMINISTRATION

The conference agreement provides $75,675,000 for the Energy Information Administration instead of $70,368,000 as proposed by the House and $74,000,000 as proposed by the Senate. The increase above the House level includes $4,632,000 to continue core programs and $675,000 for petroleum data improvements, of which $150,000 is for an outlet level sampling frame for gasoline and diesel fuels, $125,000 is to expand the current gasoline sample to allow the weekly publication of gasoline prices for key States and cities, $100,000 is to upgrade the weekly petroleum information system to improve the reliability and accuracy of the data and $300,000 is to institute a biweekly survey of companies during the heating season to monitor interruptible natural gas contracts.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE

INDIAN HEALTH SERVICES

The conference agreement provides $2,240,658,000 for Indian health services instead of $2,106,178,000 as proposed by the House and $2,184,421,000 as proposed by the Senate. The numerical changes described below are to the House recommended level.

In hospital and clinic programs there are increases of $32,106,000 for pay costs, $8,100,000 for staffing of new facilities, $30,000,000 for the Indian health care improvement fund, $225,000 for the Shoalwater Bay infant mortality prevention program, $500,000 for technology improvements and AIDS research at epidemiology centers, $5,000,000 for loan repayment with emphasis on critical shortage specialties such as pharmacists, dentists and podiatrists, $220,000 for the pharmacy residents program, $1,000,000 for emergency medical services, $1,000,000 to hire podiatrists and $3,000,000 for technology upgrades.

For dental health programs, increases include $2,365,000 for pay costs, $792,000 for staffing of new facilities and $8,000,000 for increased dental services. Increases in mental health programs include $1,488,000 for pay costs and $384,000 for staffing of new facilities. There is an increase of $3,717,000 for pay costs associated with alcohol and substance abuse programs and a program increase of $40,000,000 for contract health services. Increases of $1,099,000 for pay costs and $643,000 for staffing of new facilities are provided for public health nursing.

Health education programs are increased by $326,000 for pay costs and $134,000 for staffing of new facilities. The community health representative program is increased by $1,787,000 for pay costs. Increases for the Alaska immunization program include $70,000 for pay costs and $2,000 for additional immunizations.

Increases for urban health programs include $1,096,000 for pay costs and $1,000,000 to incorporate the Southwest Indian Polytechnic Institute dental program into the urban Indian health program in the Albuquerque, NM, area. The urban program for that area is funded pursuant to title V of the Indian Health Care Improvement Act and run by First Nations Community HealthSources. With these additional funds, dental services will be available for the large urban Indian population in the Albuquerque, NM, area.

Other pay cost increases include $62,000 for Indian health professions, $2,075,000 for direct operations and $294,000 for self-governance. Contract support costs increases include up to $10,000,000 for new and expanded contracts and $10,000,000 for existing contracts.

Finally, there are decreases of $10,005,000 for staffing of new facilities because these costs have been spread among the appropriate accounts and $22,000,000, which was a general increase in House floor action that has been spread among various accounts in the conference agreement.

The managers agree to the following:

1. The Service needs to do a better job of estimating costs, including the distribution of pay cost increases. These numbers should not be a ''moving target'' that changes substantially and continuously after the budget submission as was the case this year.

2. The Service should distribute the Indian health care improvement fund in accordance with the level of need methodology to ensure that the most underfunded tribes are funded at more equitable levels. There should be no set-aside of a portion of these funds to be distributed under an alternative methodology. The managers recognize that the LNF methodology may need some improvements and the Service should continue to make the necessary refinements.

3. The Service should report to the House and Senate Committees on Appropriations prior to finalizing any policy on the distribution of the Indian health care improvement fund for fiscal year 2001. The managers urge the Service to establish a minimum level of funds to be provided to individual service units. The Service also should provide a report on how the fiscal year 2000 funds were

used to improve services to Indians and Alaska Natives.

4. Despite the reprimand in the House report, the Service has still not provided the required plan of action to augment and strengthen its podiatric care program. Because of the pressing need in this area, the managers have taken actions in this conference report to address the problem. The report is still required as requested last year, and the managers expect that the directed consultation with outside groups will be fully and clearly explained in that report.

5. The Service should accept the offer from the American Podiatric Medical Association to assist in the recruitment and screening of candidates to fill podiatry positions in the Service. The APMA deserves credit for pursuing much needed improvements in the podiatry programs at IHS and has an excellent record with respect to prevention of diabetic amputations. The Service should consult with APMA on both the use of the $1,000,000 increase provided to hire additional podiatrists and the use of the loan repayment program for podiatrists.

6. The Senate-required report on the proposed distribution of the general funding increase is not necessary because the increase has been distributed across the various programs in the conference agreement.

7. The Senate requirement to investigate possible inequities in funding allocations applies not only to the Ponca and the Salish and Kootenai tribes but to all tribes. The House has received several complaints from Oklahoma tribes. This investigation should be done in the context of the Indian Health Care Improvement Fund and the level of need methodology and does not require a separate report.

8. Within the funding provided for contract health services, the Indian Health Service should allocate an increase to the Ketchikan Indian Corporation's (KIC) recurring budget for hospital-related services for patients of KIC and the Organized Village of Saxman (OVS) to help implement the agreement reached by the Indian Health Service, KIC, OVS and the Southeast Alaska Regional Health Corporation on September 12, 2000. The additional funding will enable KIC to purchase additional related services at the local Ketchikan General Hospital. The managers remain concerned that the viability of Alaska Native regional entities must be preserved. The accommodation by the managers of the September 12, 2000 agreement in no way is intended to imply that similar requests for similar arrangements will be encouraged or supported elsewhere in Alaska.

Bill Language.—The conference agreement does not include language proposed by the Senate preventing contract health payments in excess of Medicare and Medicaid rates. The Secretary of Health and Human Services has authority to address this issue through the regulatory process. The conference agreement does not include language proposed by the Senate giving tribes access to prime vendor rates that are available to the Service. This authority was enacted earlier this year. Language is included raising the amount for the Catastrophic Health Emergency Fund from $12,000,000 to $15,000,000 and raising the cap for the loan repayment program from $17,000,000 to $22,000,000.

The conference agreement includes language proposed by the Senate providing up to $10,000,000 for contract support costs associated with new and expanded self-determination contracts and self-governance compacts. The managers note that, unlike the Bureau of Indian Affairs, that funds all contract support cost requirements at the same rate, the Service has a varying scale. The managers urge the Office of Management and Budget to work with the BIA and the IHS to address discrepancies between the two bureaus with respect to the calculation and distribution of contract support costs. At present, the IHS pays many more categories of costs than does BIA, and the rate of contract support cost payments relative to the level of need is higher in IHS than in BIA. These discrepancies should be addressed, and the managers suggest that the Office of Management and Budget is the appropriate organization to do so.

INDIAN HEALTH FACILITIES

The conference agreement provides $363,904,000 for Indian health facilities instead of $336,423,000 as proposed by the House and $349,350,000 as proposed by the Senate. The numerical changes described below are to the House recommended level.

In maintenance and improvement, increases include $2,000,000 to address the maintenance backlog and $1,000,000 for the Northwest Portland area AMEX program with the understanding that AMEX includes cost sharing in excess of 50 percent and there will be no increase for base funding requirements for these projects. Increases for sanitation facilities include $206,000 for pay costs and a program increase of $1,500,000.

For hospital and clinic construction, there are increases of $118,000 for the Parker, AZ, clinic, $5,000,000 for small ambulatory facilities with the understanding that there will be no additional operating funds associated with these projects, $5,000,000 for staff quarters in Bethel, AK, $5,000,000 for joint ventures and $2,000,000 for Hopi, AZ, staff quarters.

For facilities and environmental health support, increases include $3,657,000 for pay costs and $1,665,000 for staffing of new facilities. There is also an increase of $2,000,000 for equipment to raise the total annual funding available for equipment at tribally built facilities from $3 million to $5 million and a decrease of $1,665,000 for staffing of new facilities because this amount has been included in the facilities and environmental health support activity.

The managers agree to the following:

1. The Service is urged to package together several staff quarters projects whenever possible to attract more bidders for construction projects and to lower costs. The various projects on the priority list for Navajo and other tribes in the area should be reviewed as potential candidates for packaging as should staff quarters projects in other areas where such projects can be combined to attract additional interest and achieve savings.

2. For the joint venture program, up to 3 projects may be funded, at least 2 of which are replacement facilities.

3. Any funds not needed for completion of individual construction projects should be reported to the House and Senate Committees on Appropriations as soon as identified. These funds should subsequently be used to offset requirements for other projects on the priority list. To the extent that such funds become available in fiscal year 2001, they may be used for clinic design for the next three facilities on the outpatient priority list.

Bill Language.—The conference agreement includes language, as proposed by the Senate, directing funds to the Yukon-Kuskokwim Health Corporation for construction of the Bethel, AK, staff quarters and earmarking $5,000,000 for the joint venture program with specific instructions on program implementation. The House had no similar provisions. Language also is included increasing the earmark for funds to be provided to the Hopi Tribe from $240,000 to $2,240,000 to reduce the debt incurred by the Tribe in providing staff quarters associated with the new Hopi Health Center. Language also is included permitting the use of contracts for small ambulatory facilities.

OTHER RELATED AGENCIES

OFFICE OF NAVAJO AND HOPI INDIAN RELOCATION

SALARIES AND EXPENSES

The conference agreement provides $15,000,000 for salaries and expenses of the Office of Navajo and Hopi Indian Relocation as proposed by the Senate instead of $8,000,000 as proposed by the House.

INSTITUTE OF AMERICAN INDIAN AND ALASKA NATIVE CULTURE AND ARTS DEVELOPMENT

PAYMENT TO THE INSTITUTE

The conference agreement provides $4,125,000 for payment to the institute as proposed by the Senate instead of zero funding as proposed by the House.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES

The conference agreement provides $387,755,000 for salaries and expenses of the Smithsonian Institution as proposed by the Senate instead of $375,230,000 as proposed by the House.

REPAIR, RESTORATION AND ALTERATION OF FACILITIES

The conference agreement provides $57,600,000 for repair, restoration and alteration of facilities as proposed by the Senate instead of $47,900,000 as proposed by the House. Of this amount, $50,000,000 is provided to address repair and rehabilitation work required throughout the Smithsonian complex and $7,600,000 is provided for similar activities at the National Zoo. In addition, the managers instruct the Zoo to dedicate the remainder of funds previously designated for an aquatics exhibit to higher priority safety and security work referred to in the fiscal year 2001 budget estimate.

In 1995, the Smithsonian's Commission on the Future issued a report indicating that an amount of $50,000,000 annually, applied to repair and renovation work over the next decade, would eliminate the Institution's $500,000,000 maintenance backlog. In the five fiscal years following the issuance of that report, Congress appropriated approximately $200,000,000 for repair and rehabilitation.

In recent months, as Smithsonian officials have brought renewed attention to the poor physical condition of their buildings, the managers have been concerned by statements that still point to a $500,000,000 maintenance backlog despite an increased appropriation. Further, the agency has now pointed to the need for a funding level in the neighborhood of $100 million annually—approximately twice the current amount—although the House and Senate Committees on Appropriations have received no additional documentation to substantiate this request. The managers do not doubt that there is a considerable maintenance backlog at the Smithsonian and have made a significant effort to assist the Institution in this area. However, the apparent lack of progress, the large unobligated carryover balances in past years, a commitment of funds to projects of lower priority, the absense of a detailed plan for implementation of a coordinated maintenance program and grossly underestimated

projects such as the Patent Office Building, which has tripled in cost, all are issues that should be explained prior to any substantial increase in funding.

In light of the above, the managers direct the Smithsonian to contract with the National Academy of Public Administration (NAPA) in order to provide the House and Senate Committees on Appropriations with a better understanding of the expenditure of Federal funds to date, the strides that have been made since 1996 and the task that lies ahead. In addition, the Academy is directed to review carefully any future plan submitted by the Smithsonian to the House and Senate Committees on Appropriations for additional dollars for critical maintenance backlog. This should be done on a building-by-building basis for the needed facilities improvements during the next eight to ten years. Any planned expenditures for building maintenance in conjunction with the National Museum of the American Indian, the Patent Office Building and the extension of the Air and Space Museum should also be reviewed by the Academy.

CONSTRUCTION

The conference agreement provides $9,500,000 for construction instead of $4,500,000 as proposed by the Senate and no funding as proposed by the House. Within the amount recommended, $4,500,000 is provided for construction of the Smithsonian Astrophysical Observatory's facility at Hilo, Hawaii and $5,000,000 is provided for construction of an American Agriculture exhibit at the National Zoo. This exhibit has been in the planning stages for several years. The Hilo funds are subject to authorization.

NATIONAL GALLERY OF ART

SALARIES AND EXPENSES

The conference agreement provides $64,781,000 for salaries and expenses of the National Gallery of Art as proposed by the Senate instead of $61,279,000 as proposed by the House. The managers agree that the government-wide reduction in fiscal year 2000 should be spread appropriately across the various Gallery programs in future budget submissions.

REPAIR, RESTORATION AND RENOVATION OF BUILDINGS

The conference agreement provides $10,871,000 for repair, restoration and renovation of buildings as proposed by the Senate instead of $8,903,000 as proposed by the House.

JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS

OPERATIONS AND MAINTENANCE

The conference agreement provides $14,000,000 for operations and maintenance of the Kennedy Center as proposed by the Senate instead of $13,947,000 as proposed by the House.

CONSTRUCTION

The conference agreement provides $20,000,000 for construction as proposed by the Senate instead of $19,924,000 as proposed by the House.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

SALARIES AND EXPENSES

The conference agreement provides $7,310,000 for salaries and expenses of the Woodrow Wilson International Center for Scholars as proposed by the Senate instead of $6,763,000 as proposed by the House. Funds should be distributed as follows:

Fellowship program	$1,169,000
Scholar support	643,000
Public service	2,217,000
General administration	1,522,000
Smithsonian fee	135,000
Conference planning	1,459,000
Space	165,000
Total	7,310,000

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

The conference agreement includes $98,000,000 for grants and administration of the National Endowment for the Arts as proposed by the House instead of $105,000,000 as proposed by the Senate.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

The conference agreement provides $104,604,000 for grants and administration as proposed by the Senate instead of $100,604,000 as proposed by the House.

MATCHING GRANTS

The conference agreement provides $15,656,000 for matching grants as proposed by the Senate instead of $14,656,000 as proposed by the House.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES

OFFICE OF MUSEUM SERVICES

GRANTS AND ADMINISTRATION

The conference agreement provides $24,907,000 for grants and administration of the Office of Museum Services as proposed by the Senate instead of $24,307,000 as proposed by the House.

CHALLENGE AMERICA ARTS FUND

CHALLENGE AMERICA GRANTS

The conference agreement includes $7,000,000 for the Challenge America Arts Fund, a new account, to provide additional funding for arts education and outreach activities for rural and underserved areas. These funds should be used for matching grants that expand service to more of the Nation and enhance arts education and community activities. This account will be administered by the National Endowment for the Arts following all previous authorized requirements including prohibitions on obscenity and restrictions on grants to individuals, subgrants and grants for seasonal support. The managers direct the NEA to provide a detailed report to the House and Senate Committees on Appropriations describing the use of these funds.

The managers note that in recent years the Congress has instituted several reforms concerning arts funding for obscene materials. The managers emphasize that the reforms to the NEA established by Congress are retained in title III of the bill. In addition to underscoring the need to serve rural and underserved communities, these reforms include restrictions on grants to individuals, subgrants and grants for seasonal support; a cap on the funds provided to any one State in a given year; an emphasis on grants that encourage public knowledge, education, understanding and appreciation of the arts; the appointment of six Members of Congress to the National Council on the Arts; and a provision allowing the NEA to solicit and invest private funds for arts support.

COMMISSION OF FINE ARTS

SALARIES AND EXPENSES

The conference agreement provides $1,078,000 for salaries and expenses of the Commission of Fine Arts as proposed by the Senate instead of $1,021,000 as proposed by the House.

NATIONAL CAPITAL ARTS AND CULTURAL AFFAIRS

The conference agreement provides $7,000,000 for National Capital Arts and Cultural Affairs as proposed by the Senate instead of $6,973,000 as proposed by the House.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

SALARIES AND EXPENSES

The conference agreement provides $3,189,000 for salaries and expenses of the Advisory Council on Historic Preservation as proposed by the Senate instead of $2,989,000 as proposed by the House.

NATIONAL CAPITAL PLANNING COMMISSION

SALARIES AND EXPENSES

The conference agreement provides $6,500,000 for salaries and expenses of the National Capital Planning Commission as proposed by the Senate instead of $6,288,000 as proposed by the House.

UNITED STATES HOLOCAUST MEMORIAL COUNCIL

HOLOCAUST MEMORIAL COUNCIL

The conference agreement provides $34,439,000 for the Holocaust Memorial Council as proposed by the Senate instead of $33,161,000 as proposed by the House.

PRESIDIO TRUST

PRESIDIO TRUST FUND

The conference agreement provides $33,400,000 for the Presidio Trust Fund as proposed by both the House and the Senate.

TITLE III—GENERAL PROVISIONS

The conference agreement includes sections 301 through 306 that were identical in both the House and the Senate bills. These sections continue provisions carried in past years.

The conference agreement does not include language proposed by the House in section 307 concerning compliance with ''Buy American'' procedures. This provision was made permanent in the fiscal year 2000 Interior Appropriations Act.

The conference agreement includes sections 307 through 310, 314, 316 through 319, 321 through 327, and 329 as proposed by the Senate. Identical language was proposed by the House in sections 308 through 311, 315, 317 through 320, 322 through 328, and 330. These sections continue provisions carried in past years.

Section 311 retains the text of section 312 as proposed by the House, which continues the mining patent moratorium provision carried last year. The text of section 311 as proposed by the Senate differed only in the use of capitalization.

Section 312 retains the text of section 313 as proposed by the House which continues a provision carried last year limiting BIA and IHS liability for prior year contract support costs through 2000. Section 312 proposed by the Senate continued this provision through 2001.

Section 313 modifies the text of section 313 as proposed by the Senate and section 314 as proposed by the House which continues a provision carried last year concerning the Jobs-in-the-Woods program. The modified text encourages the agencies to consider various factors when awarding contracts.

Section 315 retains the text of section 316 as proposed by the House, which makes permanent a provision exempting the Presidio Trust from State and local taxes and assessments. Section 315 proposed by the Senate continued the provision for one year.

Section 320 establishes an advisory commission to provide recommendations concerning payments to counties having Federal

forest lands. This section was in neither the House or Senate passed bills. The commission will have 18 months after enactment to provide to the Congress recommendations concerning long-term funding for forest counties and other matters. The commission will terminate three years after enactment.

Section 328 retains the text of section 328 as proposed by the Senate, which continues a provision carried last year regulating the export of Western red cedar from National Forest System lands in Alaska. The text of section 329 as proposed by the House differed only in the numbering convention used.

Section 330 modifies the text of section 332 as proposed by the House which allows the Forest Service and the Bureau of Land Management to pilot test the ''Service First'' initiative. The Senate had no similar provision. The managers are encouraged by these interdepartmental efforts and expect that this provision will assist the expansion of these efforts in many more areas of the agencies involved. The managers have clarified the language proposed by the House to make it clear that this authority may be used agency-wide.

Section 331 retains the text of section 333 as proposed by the House establishing a four-year program between the Forest Service and the State of Colorado for cooperative watershed protection and restoration. The Senate had no similar provision. The managers will watch the implementation of this program carefully to determine if this authority provides enhanced coordination and cooperation between Federal and State interests. A cooperative effort will greatly enhance efforts to reduce fuel loadings and provide greater safety to communities in the wildland urban interface.

Section 332 modifies the text of section 334 as proposed by the House addressing the Interior Columbia Basin Ecosystem Management Project. The managers instruct the agencies to review the environmental analyses and documents regarding the Interior Columbia Basin Ecosystem Management Project and bring this analysis and documentation into full conformance with the requirements of the National Environmental Policy Act requirements when new information or conditions arise, including procedures when there are significant new circumstances or information relevant to environmental concerns and bearing on the proposed action or its impacts. Such analysis and documentation should include the summer 2000 wildfires and the President's initiative for managing the impact of wildfires on communities and the environment. None of the funds appropriated or otherwise made available by this Act may be used to issue a record of decision for the Interior Columbia Basin Ecosystem Management Plan until this analysis is completed and included in a report submitted to the House and Senate Committees on Appropriations.

Section 333 retains the text of section 330 as proposed by the Senate allowing the Forest Service, in consultation with the Department of Labor, to modify concession contracts for campgrounds. The House had no similar provision.

Section 334 retains the text of section 331 as proposed by the Senate prohibiting the Forest Service from using the recreation fee demonstration program to supplant existing recreation concessions.

Section 335 retains the text of section 332 as proposed by the Senate raising the reporting threshold for energy savings performance contracts through the Department of Energy's Federal Energy Management Program. The House had no similar provision.

Section 336 retains the text of section 334 as proposed by the Senate extending the Recreation Fee Demonstration Program for one additional year. The managers are greatly encouraged by the progress being made in this effort and expect the four land management agencies to continue emphasis on this program. The House had no similar provision.

Section 337 retains the text of section 335 as proposed by the Senate which continues a provision carried last year limiting mining and prospecting on the Mark Twain National Forest in Missouri. The House had no similar provision.

Section 338 retains the text of section 336 as proposed by the Senate authorizing the Forest Service to enter into additional stewardship contracts in Regions 1 and 6. The House had no similar provision.

Section 339 retains the text of section 337 as proposed by the Senate which limits cost recovery for special use permits issued by the Bureau of Land Management and the Forest Service. The House had no similar provision.

Section 340 modifies the text of section 339 as proposed by the Senate prohibiting fee increases for fiberoptic cable rights-of-way. The House had no similar provision. The managers are concerned that the Forest Service needs to work closely with the Department of the Interior to establish common practices concerning the determination of rental fees for fiberoptic cable rights-of-way uses on Federal lands. The conference agreement stops the Forest Service from implementing rental fee direction in a letter issued on May 2, 2000, which, in some cases, resulted in large increases in rental fees by using a case-by-case appraisal process. The conference agreement prevents the issuance of a final rule during fiscal year 2001 although the managers expect the Secretaries to continue their work on a common, updated rental fee schedule and procedure. The managers encourage the two departments to issue common regulations using the accepted rule-making process. This will ensure full opportunity for public comment and allow time for appropriate Congressional attention to this important issue.

Section 341 includes the text of section 340 as proposed by the Senate limiting competition for fire and fuel treatment and watershed restoration contracts in California. The House had no similar provision.

Section 344 retains the text of section 345 as proposed by the Senate, which makes available $4 million in prior year funding for the National Energy Technology Laboratory. The House had no similar provision.

Section 345 modifies the text of section 348 as proposed by the Senate prohibiting the closure of backcountry landing strips. The House had no similar provision. The managers have modified the Senate proposed language so that public notice and consent of the Federal Aviation Administration, in consultation with appropriate State and Federal aviation officials, is made before permanently closing aircraft landing strips. Landing strips, which are deemed hazardous for use by general aviation, may be closed temporarily until repairs are made; landing strips which are known to contribute to illegal activities may be closed temporarily as deemed necessary to support law enforcement efforts; landing strips damaging soil and water resources or impeding agency compliance with existing laws and/or regulations may be closed following appropriate public notice, consultation and consent. Short-term closures are not affected by this provision.

Section 346 amends the Columbia River Gorge National Scenic Area Act (CRGNSA) to expedite the acquisition of critical lands within the NSA. The purpose of this section is to address the land appraisal assumptions utilized by the Forest Service to acquire land within the Columbia River Gorge National Scenic Area. Among other things, Public Law 99–663 authorized the Forest Service to acquire land within the CRGNSA for the fair market value of the land as determined by an appraisal. In the CRGNSA, the application of zoning to the determination of value has led to local anomalies in the Federal appraisal process.

The practical effect of this section is that privately-held property in the CRGNSA offered for Federal acquisition after March 31, 2001, will be appraised taking into account all zoning and other land use restrictions in the affected States and counties. For lands offered for sale to the Forest Service on or before March 31, 2001, fair market value will be appraised as set out in section 9(e)(2) by not considering the impacts on value of zoning enacted pursuant to Public Law 99–663. This will take into account land use restrictions that would be in effect but for the passage of the scenic area act, including but not limited to land use restrictions resulting from the Washington State Growth Management Act or Oregon statewide land use program.

The language used in this section is prospective only and intended to address explicitly the question of appraisal procedures to be used for future CRGNSA land acquisitions by the Forest Service in a way that provides an administrative framework for important land acquisitions to occur. Given the managers' intent, this language should not be construed to apply generally to Federal land acquisitions elsewhere in the Nation, nor change the intent and interpretation of the Uniform Relocation Assistance and Land Acquisition Policies Act of 1970 (Public Law 91–646).

The section also modifies the application of section 8(o) of Public Law 99–663 which provides, in part, for landowners to offer their land for purchase by the Forest Service and the nonapplicability of certain zoning restrictions if the land is not purchased after three years. As modified by this section, persons who own land as of September 1, 2000, may offer to sell their land to the Forest Service by March 31, 2001, and still be afforded the rights under section 8(o). The Secretary should continue the practice to treat all landowners' written offers to sell as bona fide and, therefore, as efforts to initiate the three-year period for Forest Service acquisition unless a landowner refuses to cooperate with the Forest Service. Examples of refusing to cooperate would be withholding permission for Forest Service staff to access the offered property or rejecting a purchase for fair market value. Another example would be an attempt by a landowner to revoke a previously provided written offer to initiate the three-year section 8(o) process.

Nothing in this section is intended to modify the basic structure or operation of the land use regime established with the 1986 enactment of Public Law 99–663, nor is anything intended to affect any exposure of the Federal, State or local governments to claims arising under the Fifth Amendment of the Constitution for the taking of private property for public purposes. The managers believe that the Gorge Commission and the Secretary should exercise their administrative authorities in a manner which reduces the possibility of taking claims including

modifications of the management plan if necessary.

Subsection (c) of this section provides for the Forest Service to provide notice to the communities and landowners of the amendments to the CRGNSA Act contained in this section. Specifically, the Forest Service will contact private landowners in the Special Management Areas by first-class mail based on ownership records provided by the counties located in the CRGNSA. The counties are urged to provide such records to the Forest Service as soon as possible. Such cooperation will provide private landowners the opportunity to consider the acquisition opportunities made available by these amendments. The mailing by the Forest Service to those landowners listed by the counties will provide constructive notice to landowners, but the Forest Service is not required to provide proof of receipt by addressee.

The managers expect a considerable, but temporary, increase in the workload of the Columbia River Gorge National Scenic Area office of the Forest Service as a result of this amendment. The managers expect the Secretary to dedicate the requisite level of resources to this office to process section 8(o) offers. Further, the managers understand the Secretary has adequate appropriated funds to clear the current backlog of properties ready for acquisition in FY 2001. The managers are aware, however, that the demand for appropriations for acquisitions may increase on a temporary basis over the next three years to respond to offers made under the auspices of this section.

Section 347 authorizes a land exchange, which conveys Forest Service property in Kern County in California in exchange for county lands suitable for inclusion in the Sequoia National Forest.

Section 348 requires the Department of Energy to establish an advisory committee for the National Energy Technology Laboratory under the same terms and conditions as such groups at other National laboratories.

Section 349 provides the framework for the development of an Environmental Impact Statement and Habitat Conservation Plan for the Umpqua Land Exchange Project, comprising 675,000 acres in the Coast Range-Umpqua Basin in Douglas County, Oregon. The project will be managed by the Voluntary Land Exchanges Foundation in cooperation with the Bureau of Land Management. The conference agreement provides $4,300,000 for the development of the EIS and HCP, and the managers expect the private landowners to bear their full cost of any future supplemental EIS.

Section 350 provides authority for contract health services funding increases in the Indian Health Service for the Ketchikan Indian Corporation and the Organized Village of Saxman in Alaska.

Section 351 permits the sale of the Forest Service Boise, ID, laboratory site, occupied by the Rocky Mountain Research Station, and the use of the proceeds to purchase interests in a multi-agency facility at the University of Idaho.

The conference agreement does not include language proposed by the House in section 331 prohibiting new or expanded Indian self-determination contracts or self-governance compacts, nor does it include section 335 as proposed by the House concerning national monuments (superseded by House section 123). The Senate had no similar provisions.

The conference agreement does not include language proposed by the Senate in section 320 restricting National Forest planning, in section 333 rescinding funding for the Beartooth Highway in Montana, in section 338 exempting residents in the White Mountain National Forest in New Hampshire from the recreation fee demonstration program, in section 341 concerning the White River National Forest in Colorado, in section 342 concerning roadless area in the White Mountain National Forest in New Hampshire, in section 343 concerning the release of funds appropriated in fiscal year 1999 for the Department of Energy, in section 344 concerning funding for tribally controlled community colleges, in section 346 concerning Indian gaming procedures, in section 347 concerning providing a grant to Alaska Pacific University, and in section 349 prohibiting the use of certain pesticides by the Department of the Interior. The House had no similar provisions.

The conference agreement does not include language proposed by the House in section 501 regarding the color of Forest Service vehicles, in section 502 concerning the Federal wildland fire policy and controlled burns, and in section 503 concerning national monuments. The Senate had no similar provisions. The painting issue is addressed in detail under the Forest Service Administrative Provisions heading. The wildland fire policy is discussed in detail, along with other urgent hazardous fuels management issues, in title IV.

TITLE IV—WILDLAND FIRE EMERGENCY APPROPRIATIONS

DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

WILDLAND FIRE MANAGEMENT

The conference agreement provides $353,740,000 for wildland fire management instead of $120,300,000 as proposed by the Senate. Detailed instructions for these funds are provided below under the Forest Service heading and also under the title I heading for this account.

RELATED AGENCY

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

WILDLAND FIRE MANAGEMENT

The conference agreement provides $619,274,000 for wildland fire management instead of $120,000,000 as proposed by the Senate. Detailed instructions for these funds are provided below and also under the title II heading for this account.

General instructions.—The following instructions apply to both the Department of the Interior and the Forest Service. The managers are providing substantial resources for priority emergency needs. The Administration has submitted a report including requests for an additional $1,578,376,000 for activities at both the Forest Service and the Department of the Interior. The conference agreement includes $1,803,116,000 responding to these needs by protecting communities and lands.

The following table summarizes the funding provided under this Title. Additional funds are provided under title I and title II.

Summary of Allocations for Wildland Fire

	Conference action
BLM title IV emergency operations:	
Wildfire suppression	$116,611,000
Hazardous fuels	142,129,000
Rehabilitation	85,000,000
Rural fire assistance	10,000,000
BLM emergency title IV subtotal	353,740,000

Summary of Allocations for Wildland Fire—Continued

	Conference action
Forest Service title IV emergency operations:	
Wildfire suppression	179,000,000
Hazardous fuels	120,000,000
Rehabilitation	142,000,000
Fire facilities backlog	44,000,000
Research & development	16,000,000
State fire assistance	50,494,000
Volunteer fire assistance ...	8,280,000
Forest health	12,000,000
Economic action	12,500,000
Community and private land fire assistance	35,000,000
FS title IV subtotal	619,274,000
Total wildland fire emergency in title IV	973,014,000
Other wildfire emergency funds added to Title I, II	626,000,000
Wildfire preparedness funds added to titles I, II	341,463,000
Grand total	1,940,477,000

The managers have included detailed instructions for the allocations and activities for these funds within the statement of the managers text for wildland fire management accounts for the Department of the Interior and the Forest Service. The managers encourage the Secretaries to recognize the need to maximize the use of streamlined administrative procedures and systems in recognition of the exigent circumstances, and direct the Departments to ensure that all procedures available on a government-wide basis for acquisition and employment in emergency situations are utilized to assure prompt action without burden of additional, unnecessary internal requirements.

The managers responded to the emergency situation using the best available data. The managers recognize that additional fire, State and community assistance may still be needed. The managers direct the Secretaries to work with Governors of the affected States to submit a report summarizing additional needs, if warranted. The Secretaries should also work with the Governors on a long-term strategy to deal with the wildland fire and hazardous fuels situation, as well as needs for habitat restoration and rehabilitation in the Nation. The managers expect that a collaborative structure, with the States and local governments as full partners, will be the most efficient and effective way of implementing a long term program.

The managers are very concerned that the agencies need to work closely with the affected States, including Governors, county officials and other citizens. Successful implementation of this program will require close collaboration among citizens and governments at all levels. The managers direct the Secretaries to engage Governors in a collaborative structure to cooperatively develop a coordinated, National ten-year comprehensive strategy with the States as full partners in the planning, decision making, and implementation of the plan. Key decisions should be made at local levels.

The managers have agreed to modified language from the Senate bill relating to hazardous fuels reduction in the urban wildland interface. This provision has been altered to make clear that the contracting authorities provided to the Secretary of the Interior and the Secretary of Agriculture are those associated with hazardous fuels reduction activities. Other significant modifications have

also been made. Waivers from government procurement and contracting laws provided in paragraph (1) which were permanent in the Senate proposal are now available only until the sums for hazardous fuels reduction in this title have been obligated. The managers expect that, in expending these funds, the Secretaries shall recognize the needs in certain States that have been most impacted by fires, such as those states in Regions 1, 3, and 4 of the Forest Service.

The purpose of paragraph (1) is to provide the Secretaries with the flexibility to provide employment and training opportunities to people in rural communities. The managers direct the Secretaries to give preference to local workers and youth groups such as the Youth Conservation Corps, in developing projects under this section to the maximum extent feasible consistent with funding limitations. The provisions of this section are not intended to expand the number of stewardship contracts authorized by section 347 of the FY 1999 Interior and Related Agencies Appropriations Act, (Public Law 105–277, section 347).

Consistent with paragraph (3) and accompanying Senate instruction, the managers direct the Secretary of Agriculture, within 60 days after enactment of this Act, to publish in the Federal Register the Forest Service's cohesive strategy for protecting fire-adapted ecosystems and an explanation of any differences between the strategy and other related ongoing policymaking activities including: revising regulations for the national forest system transportation policy; roadless area protection; the Interior Columbia Basin Draft Supplemental Environmental Impact Statement; and the Sierra Nevada Framework/Sierra Nevada Forest Plan Draft Environmental Impact Statement. The Secretary shall also provide 30 days for public comment on the cohesive strategy and accompanying explanation. The managers expect that, as appropriate, input received will be considered in other appropriate ongoing policymaking activities in the related rulemakings listed in this section.

The managers expect the Secretaries to report jointly to Congress, by May 1, 2001, with recommendations for additional funding needs; an inventory of communities at risk that require hazardous fuel reduction treatments; and additional authorities needed, if any, to increase the amount of fuel reduction treatments in high fire risk urban wildland interface areas.

Paragraph (4) modifies language in the original Senate bill concerning publication of the Forest Service's Cohesive Strategy for Protecting People and Sustaining Resources in Fire-Adapted Ecosystems, and explaining any differences between this strategy and certain rulemaking and planning efforts of the agency. The language as modified by the conference agreement provides that documentation required by section 102(2)(C) of the National Environmental Policy Act which accompanies the rulemakings and planning activities identified in paragraph (4) must contain an analysis of any differences between the Cohesive Strategy and the policies and rulemaking listed in this paragraph.

Paragraph (5) has been added to the original Senate proposal. It requires the Secretaries of Commerce, the Interior and Agriculture and the Chairman of the Council on Environmental Quality, to evaluate the need for revised or expected environmental compliance procedures. These officials must then report to Congress within 60 days of enactment to apprise the Congress of their decision whether to develop any expedited procedures, or to adapt or recommend any other measures. Paragraph (5) also provides discretionary authority for priority to be given to consultations or conferencing under the Endangered Species Act for hazardous fuels reduction projects. The managers emphasize that nothing in paragraph (5) is intended to override any existing environmental laws.

The managers are also especially concerned that the agencies perform. Accordingly, the managers provide the following instructions to facilitate effective and efficient use of these resources. The managers direct that not more than 20 percent of the total funds appropriated by this section may be spent on indirect costs as defined in this Act for the Forest Service and in Department of the Interior directives. Furthermore, the managers direct that all funds appropriated in this section are to be used only for the purposes outlined in the detailed discussions included in the title I and title II wildland fire management accounts. None of these funds may be diverted to other uses, including but not limited to, roadless area policy formulation, national monument designation, or other agency rulemakings not directly related to the purposes for which these funds are appropriated. The managers encourage the Secretaries to use all expedited NEPA procedures allowed under current law or regulation in order to ensure that projects funded by these appropriations are completed in the most timely fashion possible. The managers expect that as much of this work as possible will be completed with the use of local contractors. The managers also stress that they expect the normal, every-day programs of these agencies will also be implemented.

Accountability.—In order to ensure accountability for the funds appropriated under this title, the managers require that the Secretary of the Interior and Agriculture provide the House and Senate Committees on Appropriations and the Resources Committee of the House and the Energy and Natural Resources Committee in the Senate, within 90 days of enactment, a financial plan and an action plan as follows:

Financial Plan.—Not more than 90 days from the enactment of this act, the Secretaries shall deliver a financial plan showing how they intend to spend all of the funds included under this title. It is essential that the Congress and the public be informed and consulted as implementation proceeds. None of the funds should be retained by either Secretary's office. The Financial Plan shall include the following information separately for each Program Component described in the above table as follows:

Total funds allocated to each Agency within each Department;

Within each Agency, total funds retained by the National or Headquarters Office and total funds to be used to repay accounts used to cover suppression costs during the 2000 fire season, by account;

Within each Agency, total funds allocated to each administrative level of each Agency. For the Forest Service, this will include allocations to each region, national forest, research station, area, and State. For the Interior Department, this will include each Regional and State Office.

Action Plan.—Within ninety days of enactment, the Secretaries shall deliver an action plan describing in detail the work proposed to be accomplished with each of the various funding allocations described in the table. This Action Plan will include at a minimum the following items:

Preparedness.—Estimates of the number of personnel to be hired; description of any equipment to be purchased or leased; description of services to be contracted; descriptions of research projects funded, by research work unit.

Operations/Fuels Management.—Estimated number of acres to be treated, by treatment type (prescribed fire alone, mechanical treatment alone, mechanical plus fire, and other); and which portions of those treatments are considered to be in the wildland urban interface.

Operations/Burned Area Rehabilitation.—Estimated number of acres previously burned to be treated, by type of treatment; and which portions of those treatments are considered to be in the wildland urban interface.

State and Volunteer Assistance (FS only).—Estimated acres to be treated on State and private lands, by State. The Secretaries should acquire these data from the affected States.

Rural Fire Assistance (DOI only).—Estimated number of rural fire communities assisted and the distribution of funds by State.

Forest Health Management (FS only).—Estimated number of acres which will be treated to manage and control invasive species and which portions of those treatments are considered to be in the wildland urban interface.

Economic Action Program (FS only).—A summary of anticipated projects by State.

In addition, the managers direct the Secretaries to provide a performance report not more than 90 days following the end of the fiscal year covered by this appropriation for all activities covered by this title. The performance report shall include:

An updated financial report following the same format as the financial plan described above showing final expenditures for each item included in the original financial plan, plus any additional expenditures for items not included in the financial plan, by the same administrative and program component categories.

2. An updated action report following the same format as the action plan described above showing final accomplishments for each item included in the original financial plan, with maps for each national forest and for each State showing where hazardous fuel treatments were accomplished, plus any additional accomplishments for items not included in the action plan, by the same administrative and program component categories.

TITLE V—EMERGENCY SUPPLEMENTAL APPROPRIATIONS

DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

The conference agreement provides $17,172,000 for management of lands and resources, of which $15,687,000 is to address the consequences of the 1999 fire season on the lands managed by the Bureau. These funds are provided to restore damaged biotic resources and infrastructure to prevent a decline in fish and wildlife habitat. Accordingly, the managers provide these funds for restoration activities, including but not limited to, fence replacement, wild horse removal, tree and shrub seedling purchase and planting, and cheatgrass control. The managers also recognize the severity of the grasshopper and Mormon cricket infestation on lands managed by the Bureau and have provided $1,485,000 to address this problem. The managers expect coordination with

State, local and other Federal entities in addressing these efforts.

UNITED STATES FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

The conference agreement provides $6,500,000 for resource management, of which $1,500,000 are to be expended for the preparation and implementation of plans, programs, or agreements identified by the State of Idaho that will address habitat for freshwater aquatic species on non-Federal lands in the State. These funds will supplement funds that have already been allocated by the State and will only be expended for landowners that are voluntarily enrolled in such plans, programs, or agreements. The remaining $5,000,000 is for the conservation and restoration of Atlantic salmon in the Gulf of Maine.

The condition of the Atlantic salmon population is at a critical point, and the decision regarding the listing of the Atlantic salmon under the Endangered Species Act appears imminent. Therefore, the funds are needed to assist in the prevention of the listing of the Atlantic salmon. The funds will support efforts to acquire lands and conservation easements to benefit Atlantic salmon, to address adverse effects on salmon habitat, and to develop and phase in enhanced aquaculture cages to minimize escape of salmon. The funds provided for the Atlantic Salmon Commission for salmon restoration and conservation will support the installation and upgrading of weirs and fish collection facilities, the conduct of risk assessments, fish marking, salmon genetics studies and testing, and the development of enhanced aquaculture cages. Funds are also provided for the National Academy of Sciences study on Atlantic salmon. Funds administered by the National Fish and Wildlife Foundation are subject to cost sharing.

CONSTRUCTION

The conference agreement provides $8,500,000 for construction to repair Service facilities damaged by hurricanes and winter storms. The managers understand that these funds will used for repairs to Service property in the States of Maryland, New Jersey, North Carolina, Pennsylvania, South Carolina, Virginia, and Washington.

NATIONAL PARK SERVICE

CONSTRUCTION

The conference agreement provides $5,300,000 for construction to repair or replace visitor facilities, equipment, roads and trails, visitor facilities, and cultural sites and artifacts at national park units damaged by hurricanes, tropical storms, ice storms, lightning, and floods.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

The conference agreement provides $2,700,000 for surveys, investigations, and research, to repair or replace stream monitoring equipment and facilities damaged by storms, floods, and hurricanes. Within this amount, the managers have provided $900,000 to repair the storm damaged roof at the EROS Data Center. The managers understand that the remaining funds will be used for repairs in Alaska, Colorado, Connecticut, Florida, Georgia, Kansas, Maryland-Delaware-Washington, D.C., Massachusetts-Rhode Island, Nevada, New Hampshire-Vermont, New Jersey, New York, North Carolina, North Dakota, Pennsylvania, South Carolina, South Dakota, and Virginia.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

The conference agreement provides $1,200,000 for the operation of Indian programs to repair portions of the Yakama Nation's Signal Peak Road. The Yakama Nation shall provide $645,750 towards completion of road repairs, of which $100,000 have already been spent by the tribe. These funds are necessary to repair portions of the road that were significantly damaged in the past year due to a massive increase in traffic resulting from efforts to combat a spruce budworm infestation and to salvage timber in the infested area.

OFFICE OF SPECIAL TRUSTEE FOR AMERICAN INDIANS

FEDERAL TRUST PROGRAMS

The conference agreement provides $27,600,000 for Federal trust programs to address trust fund reform efforts that were unanticipated prior to the submission of the Administration's budget request. Of this amount, $2,900,000 is provided to address breaches of trust, $10,000,000 is to begin the process of providing an accounting of Individual Indian Money accounts, $4,000,000 is provided for trial preparation, and $10,700,000 is provided for trust fund reform program shortfalls.

RELATED AGENCY

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

STATE AND PRIVATE FORESTRY

The conference agreement provides $11,294,000 for State and private forestry for emergency needs of the Alaska Railroad caused by avalanches in the Chugach National Forest. The managers are aware that at least 19 avalanches occurred in the national forest and other public lands which caused train derailments resulting in a serious oil spill and the death of an Alaska Railroad employee. The President declared the area a disaster on February 17, 2000, pursuant to the Stafford Act, but no funds are available under that declaration to clean up the oil spill to prevent contamination of the Susitna River watershed. Of these funds, $2,000,000 is directed to the Forest Service, State and private forestry, to establish an avalanche prevention program in the Chugach National Forest and nearby public lands.

NATIONAL FOREST SYSTEM

The conference agreement provides $7,249,000 to the National forest system for damage caused by severe windstorms in the States of Minnesota and Wisconsin. The fallen timber caused by these storms in the National forests has caused serious environmental and other damage which must be addressed as soon as possible.

TITLE VI

USER FEES UNDER FOREST SYSTEM RECREATION RESIDENCE PROGRAM

The conference agreement includes the ''Cabin User Fee Fairness Act of 2000''.

TITLE VII

TREATMENT OF CERTAIN FUNDS FOR MINER BENEFITS

Title VII provides for transfers of certain interest earned by the Abandoned Mine Reclamation Fund to the United Mine Workers of America Combined Benefit Fund for the purpose of supplementing the amount of interest transferred under existing law in such amounts as the trustees of the Combined Benefit Fund estimate are necessary to pay the amount of any deficit in net assets in the Combined Fund through August 31, 2001. The managers note that the transfers may take place at any time between October 1, 2000 and August 31, 2001. The provision also provides for two other relatively minor transfers of interest to the Combined Benefit Fund for the purpose of making certain refunds.

As a general manager, the managers note that it has been the practice for the amount of the annual interest transfers under current law to be based on a calculation which multiplies the number of unassigned beneficiaries by that year's per beneficiary premium rate established by the Social Security Administration (SSA) with adjustments made later (normally two years after the initial transfer) to reflect the Combined Benefit Fund's actual expenditures for unassigned beneficiaries. This practice has an adverse effect on the Combined Benefit Fund's cash flow and is contributing to its financial difficulties. Further, there is no basis in the Coal Industry Retiree Health Benefit Act of 1992 for the annual transfer to be based on the SSA established beneficiary premium rate. The managers believe that the interest transfer at the beginning of each fiscal year should be based on the Combined Benefit Fund trustee's estimate of the year's expenditures for unassigned beneficiaries which may be adjusted to the actual amount of those expenditures at a later time if the initial transfer provides to be either too high or too low. This approach is completely consistent with the underlying statutory provision found in section 402(h) of the Surface Mining Control and Reclamation Act of 1977 which provides that the amount of interest transferred ''shall not exceed the amount of expenditures that the trustees of the Combined Fund *estimate* will be debited against the unassigned beneficiaries premium account. * * *'' [emphasis added].

The managers are extremely frustrated that the issue of the long term solvency of the Combined Benefit Fund has not been addressed by the Committees of jurisdiction over the past year as the managers had requested in the fiscal year 2000 conference report (106–479). The managers reiterate that it is not the responsibility of the Committees on Appropriations to provide health care benefits to the retired mine workers, their spouses and dependents through an annual transfer of interest from the Abandoned Mine Reclamation Fund. The managers are providing this funding to the Combined Benefit Fund with the full expectation that this is the final time the Interior will provide funds to the Combined Benefit Fund. The managers strongly urge all of the parties associated with the Combined Benefit Fund, including the so-called ''super reach back'' companies, the ''reach back'' companies, the United Mine Workers of America and the Bituminous Coal Operators Association to work together to rectify this situation.

The managers note that the Office of Surface Mining estimates that over $3 billion worth of priorities one and two reclamation program needs remain in the inventory of abandoned mined land problems nationwide. The Abandoned Mine Reclamation Fund should be conserved, to the extent possible, in order to fund these necessary projects as well as other authorized uses of interest earned by this fund.

TITLE VIII

LAND CONSERVATION, PRESERVATION AND INFRASTRUCTURE IMPROVEMENT

The conference agreement inserts a new title to the bill creating a six-year Land Conservation, Preservation and Infrastructure Improvement program within the Federal budget and provides increased funding for the first year of this program, fiscal year

2001. This action recognizes land conservation and related activities as critical National priorities and provides a mechanism to guarantee significantly increased funding for critical land acquisition and other land protection programs. The program is not mandatory and does not guarantee annual appropriations. The House and Senate Committees on Appropriations have discretion in the amounts to be appropriated each year, subject to certain maximum amounts as described herein. The program is authorized for a period of six years. Extension beyond six years is a decision that is left to future Congresses.

The new program created by this title, in addition to augmenting funding for land conservation and preservation tools, also recognizes the need to address critical maintenance problems on our Federal lands and permits the use of a portion of fiscal year 2001 funding and future years' funding for the most critical problems in our parks, refuges, forests and other public lands. Likewise, a portion of funding for payments in lieu of taxes are permitted and these funds are in addition to base funding under the Bureau of Land Management in title I.

The managers believe that, when acquiring new lands, the Federal government has a responsibility to provide funding for the maintenance of those lands and for payments in lieu of taxes to the local communities where those lands are located. The funds for maintenance and payments in lieu of taxes, provided by the Land Conservation, Preservation and Infrastructure Improvement program are in addition to baseline funding for maintenance and payments in lieu of taxes provided in the operational accounts of the land management agencies funded in this Act.

Part A: Fiscal year 2001 funding.—The conference agreement provides for total maximum funding of $1,600,000,000 for the first year of the six-year Land Conservation, Preservation and Infrastructure Improvement program. It includes appropriations totaling $1,200,000,000 for fiscal year 2001 for programs in the Departments of the Interior and Agriculture. The $1,200,000,000 is approximately triple the historic funding for such activities. This includes $686,000,000 for activities in this title to augment the $514,000,000 for such activities provided in other titles of the Interior bill.

The remaining $400,000,000, which is authorized herein, is for programs under the jurisdiction of the Commerce-Justice-State Appropriations Subcommittee, including the Pacific Coastal Salmon Recovery program, and will be considered in that bill.

The specific amounts provided for the Departments of the Interior and Agriculture for these programs in fiscal year 2001 are as follows:

Program category	This title	Other titles	Total this bill
Federal and State LWCF programs	$229 million	$311 million	$540 million.
State and other conservation programs	$218 million	$82 million	$300 million.
Urban & historic preservation programs	$39 million	$121 million	$160 million.
Additional funding for maintenance	$150 million	NA	+$150 million.
Additional funding for payments in lieu of taxes	$50 million	NA	+$50 million.
Coastal programs (NOAA)	NA	NA	Commerce/State/Justice bill.
Total	$686 million	$514 million	$1.2 billion.

The distribution of the funds for fiscal year 2001 among the land management agencies and the U.S. Geological Survey is specified in the bill. The managers have not, however, mandated a distribution of individual land acquisition projects or Forest Service Forest legacy funds. These decisions are left to the Committees on Appropriations in consultation with the land management agencies. The final distribution will be based on programmatic needs and will be determined by the Committees during fiscal year 2001.

In making funding distributions for maintenance projects, the managers expect the agencies to address critical maintenance backlogs. These additional funds are for repair and rehabilitation of existing facilities or roads and may not be used for new and expanded facilities or roads.

The managers expect the U.S. Fish and Wildlife Service to develop a cost-shared, competitively-awarded, project-based program for the use of State wildlife grant funding and to present their proposal to the House and Senate Committees on Appropriations for review and approval prior to the use of any funds for these grants. The funds should not be distributed on a formula basis and every effort should be made to leverage Federal funding to the maximum extent possible. The managers point to the joint venture program as a good model to pursue.

The managers expect the U.S. Fish and Wildlife Service to work with the States to develop wildlife conservation plans. The managers do not object to the use of a portion of the funds provided for State wildlife grants for such required plans, subject to cost sharing by the States. Each State plan should meet requirements that are eastblished by the Service. Each plan should provide for the conservation of the State's full array of wildlife and their habitats, with emphasis placed on those species conservation efforts that are most underfunded and have the greatest conservation need. The Service shall not provide a grant to any State unless the State has, or commits to develop by a mutually agreed date certain, the required plan.

The specific amounts for programs within each category for the Departments of the Interior and Agriculture are shown in the following table:

LAND CONSERVATION, PRESERVATION AND INFRASTRUCTURE PROGRAM

[Dollars in thousands]

Program categories	This title	Other titles	Total in this bill

Total	$686,000	$513,938	$1,199,938

[1] C/J/S Bill.

The $78,000,000 provided for the cooperative endangered species conservation fund includes $28,000,000 for grants to the States and $50,000,000 for habitat conservation planning land acquisition.

The $20,000,000 provided in this title for science programs in the U.S. Geological Survey includes $7,000,000 for national mapping of which $5,000,000 is for national cooperative geologic mapping and $2,000,000 is for earth science information management and delivery, $5,000,000 for water resources/stream gauges, $3,000,000 for biological research of which $2,000,000 is to initiate aquatic GAP analysis and $1,000,000 is to accelerate GAP analysis in the contiguous 48 States, and $5,000,000 for science support/accessible data transfer.

The additional $20,000,000 for Forest Service planning, inventory and monitoring should be used to address high priority needs for these activities within the National Forest System.

The $15,000,000 provided in this title for historic preservation includes $12,000,000 for State historic preservation offices and $3,000,000 for tribal grants.

The additional $150,000,000 provided in this title for maintenance includes $25,000,000 for the Bureau of Land Management, $25,000,000 for the U.S. Fish and Wildlife service, $50,000,000 for the National Park Service and $50,000,000 for the Forest Service.

Part B: Land Conservation, Preservation and Infrastructure Improvement Trust Fund.—Part B of this title establishes the Land Conservation, Preservation and Infrastructure Improvement program budget mechanism which provides a six-year funding priority within the Federal budget for land conservation activities by setting aside funds each year over and above the amounts available under Congressional Budget Resolutions for all other discretionary activities of the government. The amounts for each year are as follows:

Fiscal year:

2001	$1,600,000,000
2002	1,760,000,000
2003	1,920,000,000
2004	2,080,000,000
2005	2,240,000,000
2006	2,400,000,000

These amounts are set aside and automatically available under the Budget Resolution each year for Land Conservation, Preservation and Infrastructure Improvement programs but are subject to annual appropriations. The exact amount and the distribution

among programs will be set in annual appropriation bills based on need and program performance. The language provides a ''fencing'' mechanism, however, so that funds are only available for the specific set of budget activities and accounts listed in the Land Conservation, Preservation and Infrastructure Improvement program. The text of the language in Part B follows the model established in 1995 for the Violent Crime Trust Fund.

There are six identified program categories for each year. Each category has an identified ''fenced cap'' for each fiscal year. The amount of each cap does not assure appropriations for that amount but does assure that funds from within one category are not shifted to another category. The caps by category are shown in the following table:

Program category	*Fenced cap*
Federal and State LWCF	$540,000,000
State and other conservation programs	300,000,000
Urban and historic preservation programs	160,000,000
Additional funding for maintenance	150,000,000
Additional funding for payments in lieu of taxes	50,000,000
Coastal programs (Department of Commerce/NOAA	400,000,000
Total	1,600,000,000

Any funds not appropriated within the caps will be available in the next fiscal year for appropriation for activities within the same program category. In addition, each year, the total amount available for appropriation is increased by $160,000,000 for the Land Conservation, Preservation and Infrastructure Improvement Program. That increase is not subject to the ''fenced caps'', but is available for the eligible programs herein, in addition to the capped amounts. The House and Senate Committees on Appropriations have the discretion to determine the extent to which these funds will be appropriated. The additional, ''unfenced'' amount available will be $160,000,000 in fiscal year 2002, $320,000,000 in fiscal year 2003, $480,000,000 in fiscal year 2004, $640,000,000 in fiscal year 2005 and $800,000,000 in fiscal year 2006.

Eligible programs include:

Federal land acquisition
State land and water conservation grants
Urban Park and Recreation Recovery Program
Backlog maintenance (land management agencies)
Payments in Lieu of Taxes
Historic Preservation
Youth Conservation Corps
U.S. Geological Survey's State Planning Partnership programs, Community/Federal Information Partnership, Urban Dynamics, and Decision Support for Resource Management
U.S. Fish and Wildlife Service's North American Wetlands Conservation Fund, Cooperative Endangered Species Conservation Fund, and State Wildlife Grants
Forest Service's State and Private Forestry, Forest Legacy Program, Urban and Community Forestry, Smart Growth Partnerships and additional funding for planning, inventory and monitoring
Department of Commerce/NOAA's Pacific Coastal Salmon Recovery, NOAA Operations, Research, and Facilities, the Coastal Zone Management Act programs, the National Marine Sanctuaries, the National Estuarine Research Reserve Systems, Coral Restoration programs, Coastal Impact Assistance and the Pacific Coastal Salmon Recovery Program

(The following Members (at the request of Mr. YOUNG of Florida) to revise and extend their remarks and include extraneous material:)

Mr. GEKAS, for 5 minutes, October 3 and 4.

Mr. BILIRAKIS, for 5 minutes, October 4.

SENATE BILLS AND A CONCURRENT RESOLUTION REFERRED

Bills and a concurrent resolution of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 11. An act for the relief of Wei Jingsheng; to the Committee on the Judiciary.

S. 113. An act to increase the criminal penalties for assaulting or threatening Federal judges, their family members, and other public servants, and for other purposes; to the Committee on the Judiciary.

S. 150. An act for the relief of Marina Khalina and her son, Albert Miftakhov; to the Committee on the Judiciary.

S. 785. An act for the relief of Francis Schochenmaier and Mary Hudson; to the Committee on the Judiciary.

S. 869. An act for the relief of Mina Vahedi Notash; to the Committee on the Judiciary.

S. 893. An act to amend title 46, United States Code, to provide equitable treatment with respect to State and local income taxes for certain individuals who perform duties on vessels; to the Committee on the Judiciary and Transportation and Infrastructure.

S. 1078. An act for the relief of Mrs. Elizabeth Eka Bassey, Emanuel O. Paul Bassey, and Mary Idongesit Paul Bassey; to the Committee on the Judiciary.

S. 1513. An act for the relief of Jacqueline Salinas and her children Gabriela Salinas, Alejandro Salinas, and Omar Salinas; to the Committee on the Judiciary.

S. 2000. An act for the relief of Guy Taylor; to the Committee on the Judiciary.

S. 2002. An act for the relief of Tony Lara; to the Committee on the Judiciary.

S. 2019. An act for the relief of Malia Miller; to the Committee on the Judiciary.

S. 2289. An act for the relief of Jose Guadalupe Tellez Pinales; to the Committee on the Judiciary.

S. Con. Res. 139. Concurrent resolution authorizing the use of the Capitol grounds for the dedication of the Japanese-American Memorial to Patriotism; to the Committee on Transportation and Infrastructure.

ADJOURNMENT

Mr. YOUNG of Florida. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 12 o'clock and 06 minutes p.m.), under its previous order, the House adjourned until Monday, October 2, 2000, at 12:30 p.m., for morning hour debates.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

10374. A letter from the Administrator, RMA, Department of Agriculture, transmitting the Department's final rule—Common Crop Insurance Regulations; Rice Crop Insurance Provisions—received September 28, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

10375. A letter from the Associate Administrator, Agricultural Marketing Service, Department of Agriculture, transmitting the Department's final rule—Increase in Fees and Charges for Egg, Poultry, and Rabbit Grading [Docket No. PY–00–002] (RIN: 0581–AB89) received September 28, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

10376. A letter from the Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Triallate, (S–2,3,3-trichloroallyl diisopropylthiocarbamate); Pesticide Tolerance [OPP–301063; FRL–6744–8] (RIN: 2070–AB78) received September 26, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

10377. A letter from the Chairmen, Board of Governors of the Federal Reserve System and Securities and Exchange Commission, transmitting a report on the Markets for Small Business and Commercial Mortgage-Related Securities; to the Committee on Banking and Financial Services.

10378. A letter from the Director, Federal Emergency Management Agency, transmitting a draft of proposed legislation to amend the National Flood Insurance Act of 1968 to reduce losses to properties for which multiple flood insurance claim payments have been made, and for other purposes; to the Committee on Banking and Financial Services.

10379. A letter from the Director, Office of Equal Opportunity Programs, Agency for International Development, transmitting the Agency's final rule—Nondiscrimination on the Basis of Sex in Education Programs or Activities Receiving Federal Financial Assistance—received September 28, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and the Workforce.

10380. A letter from the Assistant Secretary, Indian Affairs, Department of the Interior, transmitting the Department's ''Major'' final rule—Southwestern Indian Polytechnic Institute Personnel System (RIN: 1076–AE02) received September 22, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and the Workforce.

10381. A letter from the Assistant Secretary for Employment and Training, Department of Labor, transmitting the Department's final rule—Workforce Investment Act (RIN: 1205–AB20) received September 26, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and the Workforce.

10382. A letter from the Director, Office of Small Business and Civil Rights, Nuclear Regulatory Commission, transmitting the Commission's final rule—Nondiscrimination on the Basis of Sex in Education Programs or Activities Receiving Federal Financial Assistance—received September 28, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Education and the Workforce.

10383. A letter from the Director, Lieutenant General, Defense Security Cooperation Agency, transmitting notification concerning the Department of the Army's Proposed Letter(s) of Offer and Acceptance (LOA) to the Taipei Economic and Cultural Representative Office in the United States for defense articles and services (Transmittal No. 00–68), pursuant to 22 U.S.C. 2776(b); to the Committee on International Relations.

10384. A letter from the Director, Lieutenant General, Defense Security Cooperation Agency, transmitting notification concerning the Department of the Navy's Proposed Letter(s) of Offer and Acceptance (LOA) to the Taipei Economic and Cultural Representative Office in the United States for defense articles and services (Transmittal No. 00–70), pursuant to 22 U.S.C. 2776(b); to the Committee on International Relations.

10385. A letter from the Director, Lieutenant General, Defense Security Cooperation Agency, transmitting notification concerning the Department of the Air Force's Proposed Letter(s) of Offer and Acceptance (LOA) to the Taipei Economic and Cultural Representative Office in the United States for defense articles and services (Transmittal No. 00–71), pursuant to 22 U.S.C. 2776(b); to the Committee on International Relations.

10386. A letter from the Director, Lieutenant General, Defense Security Cooperation Agency, transmitting notification concerning the Department of the Air Force's Proposed Letter(s) of Offer and Acceptance (LOA) to Singapore for defense articles and services (Transmittal No. 00–72), pursuant to 22 U.S.C. 2776(b); to the Committee on International Relations.

10387. A letter from the Director, Lieutenant General, Defense Security Cooperation Agency, transmitting notification concerning the Department of the Army's Proposed Letter(s) of Offer and Acceptance (LOA) to Israel for defense articles and services (Transmittal No. 00–77), pursuant to 22 U.S.C. 2776(b); to the Committee on International Relations.

10388. A letter from the Director, USAF, Department of Defense, Defense Security Cooperation Agency, transmitting notification concerning the Department of the Army's Proposed Letter(s) of Offer and Acceptance (LOA) to Italy for defense articles and services (Transmittal No. 00–76), pursuant to 22 U.S.C. 2776(b); to the Committee on International Relations.

10389. A letter from the Director, USAF, Department of Defense, Defense Security Cooperation Agency, transmitting notification concerning the Department of the Army's Proposed Letter(s) of Offer and Acceptance (LOA) to the Taipei Economic and Cultural Representative Office in the United States for defense articles and services(Transmittal No. 00–69), pursuant to 22 U.S.C. 2776(b); to the Committee on International Relations.

10390. A letter from the Assistant Secretary for Legislative Affairs, Department of State, transmitting certification of a proposed license for the export of defense articles or defense services sold commercially under a contract to the Netherlands [Transmittal No. DTC 138–00], pursuant to 22 U.S.C. 2776(c); to the Committee on International Relations.

10391. A letter from the Assistant Secretary for Legislative Affairs, Department of State, transmitting a report on the redesignation of Burma, China, Iran, Iraq and Sudan as ''countries of particular concern'' for having engaged in or tolerated particulary severe violations of religious freedom; to the Committee on International Relations.

10392. A letter from the Assistant Administrator for Fisheries Services, Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—An Emergency Interim Rule to Amend the Regulations Implementing the Summer Flounder, Scup and Black Sea Bass Fishery Management Plan (FMP)—Revision to the FMP Objective to be Achieved—by the Annual Specifications for the 2001 Summer Flounder Fishery—received September 28, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Resources.

10393. A letter from the Chief, Regulations Unit, Internal Revenue Service, transmitting the Service's final rule—Last-in; First-out Inventories [Rev. Rul. 2000–46] received September 27, 2000, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

10394. A letter from the Secretary, Department of Health and Human Services, transmitting a report on the Fiscal Year 1996 Low Income Home Energy Assistance Program; jointly to the Committees on Commerce and Education and the Workforce.

10395. A letter from the Administrator, National Aeronautics and Space Administration, transmitting a draft of proposed legislation entitled the ''National Aeronautics and Space Administration Federal Employment Reduction Assistance Act Amendments''; jointly to the Committees on Science and Government Reform.

10396. A letter from the Secretary of Health and Human Services, transmitting a draft bill entitled, ''Nursing Home Staffing and Quality Improvement Act of 2000''; jointly to the Committees on Ways and Means and Commerce.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. REGULA: Committee of Conference. Conference report on H.R. 4578. A bill making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2001, and for other purposes (Rept. 106–914). Ordered to be printed.

Mr. YOUNG of Alaska: Committee on Resources. H.R. 4503. A bill to provide for the preservation and restoration of historic buildings at historically women's public colleges or universities; with an amendment (Rept. 106–915). Referred to the Committee of the Whole House on the State of the Union.

Mr. YOUNG of Alaska: Committee on Resources. H.R. 3118. A bill to direct the Secretary of the Interior to issue regulations under the Migratory Bird Treaty Act that authorize States to establish hunting seasons for double-crested cormorants (Rept. 106–916). Referred to the Committee of the Whole House on the State of the Union.

Mr. YOUNG of Alaska: Committee on Resources. H.R. 4126. A bill to authorize funding for the expansion annex of the historic Palace of the Governors, a public history museum located, and relating to the history of Hispanic and Native American culture, in the Southwest, and for other purposes (Rept. 106–917). Referred to the Committee of the Whole House on the State of the Union.

Mr. YOUNG of Alaska: Committee on Resources. H.R. 2710. A bill to establish the National Law Enforcement Museum on Federal land in the District of Columbia; with an amendment (Rept. 106–918). Referred to the Committee of the Whole House on the State of the Union.

Mr. BURTON: Committee on Government Reform. H.R. 4049. A bill to establish the Commission for the Comprehensive Study of Privacy Protection; with an amendment (Rept. 106–919). Referred to the Committee of the Whole House on the State of the Union.

DISCHARGE OF COMMITTEE

Pursuant to clause 5 of rule X the Committee on the Judiciary discharged. H.R. 4419 referred to the Committee of the Whole House on the State of the Union, and ordered to be printed.

TIME LIMITATION OF REFERRED BILL

Pursuant to clause 5 of rule X the following action was taken by the Speaker:

H.R. 1882. Referral to the Committee on Ways and Means extended for a period ending not later than October 6, 2000.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. CUNNINGHAM (for himself, Mr. MARKEY, Mr. BILBRAY, Mr. LEWIS of California, Mr. FARR of California, and Mr. HUNTER):

H.R. 5345. A bill to amend the Internal Revenue Code of 1986 to provide incentives to introduce new technologies to reduce energy consumption in buildings; to the Committee on Ways and Means.

By Mr. DINGELL:

H.R. 5346. A bill to provide for demolition, environmental cleanup, and reversion of the Department of Veterans Affairs medical center in Allen Park, Michigan; to the Committee on Veterans' Affairs, and in addition to the Committee on Government Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. GIBBONS:

H.R. 5347. A bill to direct the Secretary of Transportation to issue regulations relating to the transfer of airline tickets and to amend title 49, United States Code, relating to air carrier ticket pricing policies; to the Committee on Transportation and Infrastructure.

By Mr. PALLONE:

H.R. 5348. A bill to amend title XVIII of the Social Security Act to limit the application of the one-year lag in the intern and resident-to-bed ration and the rolling average for the number of residents for which payments to hospitals are made under the Medicare Program for the indirect costs of graduate medical education to residents in the fields of allopathic and osteopathic medicine; to the Committee on Ways and Means, and in addition to the Committee on Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. SANFORD (for himself, Mr. BACHUS, Mr. BALDACCI, Mr. BARTLETT of Maryland, Mr. BARTON of Texas, Mrs. BIGGERT, Mr. BILBRAY, Mr. BOUCHER, Mr. BRYANT, Mr. BURTON of Indiana, Mr. CAMPBELL, Mrs. CAPPS, Mr. CLEMENT, Mr. COBURN, Mr. CONDIT, Mr. CRANE, Mr. CUNNINGHAM, Mr. DEAL of Georgia, Mr. DELAHUNT, Mr. DEMINT, Mr. DICKEY, Mr. DOYLE, Mr. DUNCAN, Ms. ESHOO, Mr. EVERETT, Mr. EWING, Mr. GORDON, Mr. GRAHAM, Mr. GREEN of Texas, Mr. GREEN of Wisconsin, Mr. HALL of Texas, Mr. HAYWORTH, Mr. HERGER, Mr. HILL of Indiana, Mr. HOEKSTRA, Ms. HOOLEY of Oregon, Mr. HOSTETTLER, Mr. HUTCHINSON, Mr. JOHN, Mr. JONES of North Carolina, Mr. KINGSTON, Mr. LARGENT, Mr. LATOURETTE, Mr. LEWIS of Kentucky, Mr. LINDER, Mr. MANZULLO, Ms. MCCARTHY of Missouri, Mr.

MCINTOSH, Mr. MCCRERY, Mr. METCALF, Mr. MICA, Mr. GARY MILLER of California, Mr. MINGE, Mr. MORAN of Virginia, Mrs. MYRICK, Mr. ORTIZ, Mr. PAUL, Mr. PICKERING, Mr. PITTS, Mr. PORTMAN, Mr. RILEY, Mr. ROYCE, Mr. RYUN of Kansas, Mr. SALMON, Mr. SANDLIN, Mr. SCHAFFER, Mr. SESSIONS, Mr. SHADEGG, Mr. SMITH of Texas, Mr. SMITH of Michigan, Mr. SOUDER, Mr. STENHOLM, Mr. TANCREDO, Mr. TERRY, Mr. THOMPSON of California, Mr. TOOMEY, Mr. UDALL of Colorado, Mr. VITTER, Mr. WAMP, Mr. WATKINS, Mr. WELDON of Florida, and Mr. WICKER):

H.R. 5349. A bill to amend the Internal Revenue Code of 1986 to allow individuals to designate $3 or more on their income tax returns to be used to reduce the public debt; to the Committee on Ways and Means.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 207: Mr. UDALL of New Mexico.
H.R. 2512: Mrs. ROUKEMA.
H.R. 2562: Ms. SCHAKOWSKY.
H.R. 4239: Mr. BACA and Mr. KLINK.
H.R. 4538: Ms. MCCARTHY of Missouri.
H.R. 5328: Mr. BAIRD.
H.J. Res. 107: Mr. WAXMAN.
H. Con. Res. 376: Mr. WISE and Mr. STUMP.

PETITIONS, ETC.

Under clause 3 of rule XII, petitions and papers were laid on the clerk's desk and referred as follows:

114. The SPEAKER presented a petition of American Bar Association & Federal Bar Association, relative to Documentation providing proof of the existence and text of the constitution established and ordained for the Washington republic, the member of the union of the several United States of America; to the Committee on the Judiciary.

115. Also, a petition of the City Commission of the City of Hollywood, Florida, relative to Resolution No. R–2000–301 petitioning the United States Senate and House of Representatives to support ''The Restoration of the Everglades, An American Legacy Act''; jointly to the Committees on Transportation and Infrastructure and Resources.

EXTENSIONS OF REMARKS

CONGRATULATIONS TO JOSEPH CULLMAN

HON. JIM SAXTON

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, September 29, 2000

Mr. SAXTON. Mr. Speaker, it is my privilege to recognize Joseph F. Cullman III, a hero of the global environmental conservation movement, a successful businessman, generous philanthropist and Honorary Director of the World Wildlife Fund. In more than 26 years of leadership at WWF, Mr. Cullman has enthusiastically and unwaveringly worked to sustain the quality and vibrancy of our natural world.

An alumnus of Yale, Mr. Cullman is director emeritus and chairman emeritus of Philip Morris Companies, Inc., where he served as president, chairman of the board and chief executive officer. His service on numerous corporative boards, including IBM, Ford Motor Company, Levi Strauss and Company and Walt Disney Company, attests to his business acumen and stature.

His travels around the world, particularly in Africa, instilled in him a deep commitment to protecting wildlife, their habitats and the people who live in harmony with them and led him to place conservation among his highest priorities. He untiringly has applied his considerable talents, energy and resources to the cause of saving life on Earth.

As Mr. Cullman and his wife Joan Cullman are honored by World Wildlife Fund on October 3 in New York, it is fitting to reflect on the quality of his commitment and the results of his crusade for conservation. He has helped to save African elephants by working to secure and maintain a ban on the trade in elephant ivory. And he has worked with communities in Kenya and Tanzania to stop poaching of elephants, rhinos, and other large animals and to provide alternative livelihoods for local people. His concern for the plight of the world's fisheries has caused him to focus on saving species in crisis including tunas, swordfish, and his favorite Atlantic salmon.

All along the way, he has persuaded dozens of friends and colleagues to join him in the cause of conservation. Joseph Cullman's example of conservation leadership sends a call to action, reminding each of us that we can and must take up the urgent cause of protecting our living planet for future generations.

HONORING THE LATE DOROTHY LUND OF PACIFIC GROVE, CALIFORNIA

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 29, 2000

Mr. FARR of California. Mr. Speaker, today I honor the life of an exceptional woman, Ms. Dorothy Lund of Pacific Grove, California. Dorothy was a much loved teacher and political activist. The community mourns her death, Dorothy passed on September 2, 2000.

Born January 18, 1924 in Champaign, Illinois, Dorothy Lund graduated from the University of North Carolina at Chapel Hill, where she earned a degree in journalism. She also earned credentials in speech and language at St. Cloud State University before serving in the Women's Army Corps during the Korean War. During her time of service, she was awarded a regular Army commission after graduating with honors from Officer Candidate School.

On returning to civilian life, Ms. Lund taught in communities across this country, in Columbus, Georgia, later in Oakland, California, and eventually in Salinas, California, where she taught for 27 years. Dorothy grew to reflect the voices of this exciting region, serving as an outspoken member of the California Teachers Association at the local, state and national level. She became an advocate for the needs of children in schools that were changing demographically, that are overcrowded, and under-served. She was also involved with organizations such as the Episcopal Homes Foundation, the League of Women Voters, the Democratic Women's Club of Monterey County, and the Monterey County Democratic Central Committee, serving on their boards of directors. She was also a member of the Daughters of the American Revolution, the Clan McKenzie Society, and Phi Delta Kappa.

A dynamic force in Monterey County, California, and beyond, Dorothy will be sorely missed by her two daughters, Annabel of Juneau, Alaska, and Christina of Washington, DC, as well as countless teachers, students and other community members who were touched by her life.

TRIBUTE TO THE WOMEN'S OLYMPIC SOFTBALL TEAM

HON. DAVE CAMP

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, September 29, 2000

Mr. CAMP. Mr. Speaker, I pay tribute to the Women's Olympic Softball Team for winning the gold medal at the 2000 Olympics in Sydney.

The U.S. team beat Japan to win the gold medal for the second straight Olympics. In a remarkable comeback, the U.S. won four consecutive games to advanced to the gold medal round. They did that over the past three days, winning the last two victories in a ten hour span. Beating the Japanese team was quite a challenge. This goal medal represents more than just great athleticism, it is a tribute to hard work, determination and positive thinking. Facing adversity, the U.S. Women's team regrouped after unexpected losses and again established themselves as the World's premier softball team.

I would also like to take this opportunity to recognize Margo Jonker, who serves as an assistant coach for the USA softball team. In addition to her duties as an Olympic softball coach, Margo also coaches softball for Central Michigan University. Entering her 21st season at the helm of the Chippewa program, Margo is one of the most successful coaches in college softball. She has a career record of 697 wins to 380 losses. Coach Jonker has led Central Michigan to eight Mid-American Conference (MAC) titles, nine NCAA regional appearances and a spot in the 1987 College World Series.

Mr. Speaker, the competition associated with the Olympic games tests the body, mind and soul of individuals. The Women's Softball Team and Coach Jonker met the challenge head on and emerged victorious. I want to commend the U.S. Softball Team for winning Olympic gold. But, I would also like to personally thank Coach Jonker, for the pride that she has brought this Nation at the Olympics and for her wonderful service to Central Michigan University and the Fourth District.

INTRODUCTION OF THE ENERGY EFFICIENT BUILDINGS INCENTIVES ACT

HON. RANDY "DUKE" CUNNINGHAM

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 29, 2000

Mr. CUNNINGHAM. Mr. Speaker, today I introduce the Energy Efficient Buildings Incentives Act. I am joined in this effort by a substantial and diverse coalition of my colleagues including Mr. MARKEY of Massachusetts, Mr. BILBRAY of California, Mr. LEWIS of California, and Mr. FARR of California, as well as Mr. SMITH of New Hampshire in the Senate, and many others. This bill is supported by a strong coalition of industries and organizations. I have submitted a list of supporters below.

My constituents in San Diego have been suffering from outrageously high-energy prices for the entire summer. Our citizens and city have been forced into a crisis by the State legislature's deregulation of the electricity market. While I and my colleagues from San

Diego are seeking solutions to this terrible crisis, I am introducing this bill in an effort to formulate a long-term energy plan.

The Energy Efficient Buildings Incentives Act will provide tax incentives for the construction of energy efficient buildings. Structures of this nature could potentially cut energy usage by as much as 50 percent. This would result in a nearly 6 percent reduction in air emissions over the next 10 years—equivalent to taking 40 percent of the automobiles off the road.

The bill will offer tax incentives to encourage the production and sale of technologically advanced, energy-efficient buildings and equipment. The legislation is structured to promote the creation of competitive markets for new technologies and designs that are not widely available today, but have the possibility of being cost effective to the consumer in the future. The incentives will apply to:

Efficient new residential buildings that save 30% to 50% in energy costs compared to national model codes, including a higher incentive for higher savings. Efficient heating, cooling, and water heating equipment that reduce emissions and peak electric loads by about 20% (lower incentives) and 30%–50% (higher incentives) compared to national standards. Efficient commercial buildings with 50% energy and power cost savings. Residential-scale solar hot water and photovoltaic equipment.

The design and administration for these energy efficient structures is based on the track record of successful state programs over the past decade. Buildings account for some 35% of air pollution emissions nationwide, and cost their owners over $250 billion a year in energy costs. They also contribute to well over half of peak electric power demand. If enacted promptly the incentives in this bill will begin to mitigate electric peak reliability problems by the summer of 2001.

This bill will help both families and businesses reduce annual energy costs, saving over $80 billion in present value over the next decade. Energy costs of businesses are tax deductible under current law, so reductions in energy costs means billions of dollars in saving to the Federal government.

Please join me in supporting the Energy Efficient Buildings Incentives Act which will provide for a cleaner environment and help reduce energy needs, thus postponing the need for building new power plants as well as helping to save our environment.

VIOLENCE AGAINST WOMEN ACT OF 2000

SPEECH OF

HON. JACK QUINN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 26, 2000

Mr. QUINN. Mr. Speaker, every day, at least one child will die as a result of domestic violence. Every few minutes, approximately nine women are abused around the nation. For this reason, we must reaffirm our commitment to combating domestic violence by reauthorizing the Violence Against Women Act.

H.R. 1248, the Violence Against Women Act, provides women and their local law enforcement offices the necessary resources to escape domestic violence. The reauthorization of this Act would preserve funding for abused women, grants for training police forces, a national domestic violence hotline, and grants for victim services and prevention programs.

Women seeking to escape abusive relationships require legal assistance to be free from such abuse, including assistance in obtaining a divorce, custody of their children, or even to obtain a change of address or social security number for safety. Since 1994, The Violence Against Women Act has provided over $1.5 billion in grants that have been used to encourage arrests, train police, prosecutors and judges, as well as provide critical victim services.

Reauthorization of this Act includes new support for transitional housing, allowing up to $30 million over four years to assist domestic violence survivors move beyond shelters into safe permanent housing. The new Act would expand the reach of the program to support groups such as elderly, disabled and Native American women. Furthermore, the reauthorization of the Violence Against Women Act would allow states and local communities to engage in long-range planning without continually fearing that funds will be lost in the next fiscal year.

There is much evidence of the success the Violence Against Women Act has had in providing assistance to women at risk of abuse. Calls to the National Domestic Violence Hotline have doubled in the last six months, to a rate of 13,000 calls per month, and use of battered women's shelters has been steadily increasing, all since the inception of the Violence Against Women Act. These programs need to be funded at the highest possible levels so that families in need of safety and protection have full and adequate access to such assistance.

The passage of H.R. 1248 is necessary to confirm congressional commitment to fighting violence against women for the next five years. We must do what we can to protect and assist women and children who are the unfortunate victims of domestic violence.

A TRIBUTE TO THE 2000 ''SPIRIT OF ACHIEVEMENT AWARD'' WINNERS

HON. WILLIAM O. LIPINSKI

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 29, 2000

Mr. LIPINSKI. Mr. Speaker, I rise today to congratulate the participants of my 2000 Spirit of Achievement Award program. In 1982, when the current citizens of the 3rd District of Illinois elected me to represent them in the United States Congress, I introduced this very successful program. Since then, every middle school in the 23rd Ward of Chicago annually selects a graduating 8th grade boy and girl who they feel represents overall outstanding academic achievement, community service and extracurricular activities. Today, it gives me great pleasure to recognize the hard work of 28 young achievers and future leaders from the 23rd Ward of Chicago.

St. Jane De Chantal School: Nora Krause and Christopher Paluch
Our Lady of Snows School: Amanda Hartman and Jeffrey Mikula
St. Camillus School: Amanda Kurmpel and Kevin Jasionowski
St. Bruno School: David Szwajnos
St. Rene Elementary School: Anthony Garcia and Catherine O'Connell
St. Daniel the Prophet School: Deanna Maida and Paul Bruton
St. Richards School: Monika Dlugopolski and Christopher Dyrdak
Gloria Dei School: Faith Krasowski and Jeremiah Jurevis
Hale Elementary School: Emily Fisher and Xavier Hernandez
Peck Elementary School: Maribel Pantoja and Anthony Naranjo
Dore Elementary School: Robert Bradel and Jennifer Collins
Kinzie Elementary School: Victoria Okrzesik and Patrick Forbes
Byrne Elementary School: Jennifer Turner and Ryan Nabor
Twain Elementary School: Sebastian Gawenda
Edwards Elementary School: Mustafaa Saleh and Lisa Matteson

These students are all credit to their families and the Chicago community. I wish them tremendous success in their continuing education and future aspirations. Furthermore, I charge all of them to use their strength and leadership in service to this great nation. Mr. Speaker, I am again pleased to offer my sincere congratulations the winners of my 2000 Spirit of Achievement Award program.

HMONG VETERANS' NATURALIZATION ACT AMENDMENT OF 2000

SPEECH OF

HON. STEVEN T. KUYKENDALL

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 25, 2000

Mr. KUYKENDALL. Mr. Speaker, earlier this week we passed H.R. 5234, a bill to correct a technical problem with the Hmong Veterans' Naturalization Act of 2000, which was passed by Congress and signed into law earlier this year. Unfortunately, I was unable to speak during general debate. I would however, like to add these remarks to the record to say thank you, and to further honor a little known group of individuals who routinely went above and beyond the call of duty to help American servicemen during the Viet Nam war.

Many Americans are unaware that Hmong veterans, operating out of Laos, collected critical intelligence, provided protection to remote American outposts, and routinely rescued downed American airmen. As a result of American forces in Viet Nam, these men and their families lived in constant danger of retaliation by Communist forces. Predictably, when America withdrew from Viet Nam, many Hmong families suffered and died at the hands of the Communist North Vietnamese and Laotian forces.

I was glad to cosponsor and support the Hmong people on May 2, 2000 when the House passed H.R. 371, the Hmong Veterans' Naturalization Act of 2000. This bill was subsequently signed into law on May 26, 2000. The law waives the English language requirement and provides special consideration for the civics requirement with respect to the naturalization of eligible Hmong veterans and their immediate families. I am equally glad that this Congress was able to resolve so quickly to correct a technical problem that was discovered in the law, which prevented some deserving Hmong individuals from gaining the citizenship that they fought so valiantly to preserve.

I am thankful that the House passed this bill unanimously under suspension of the rules, and appreciate this opportunity to raise America's awareness of these courageous people.

ITALIAN AMERICANS OF LUZERNE COUNTY HONOR CHARLES GIUNTA AS PERSON OF YEAR

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 29, 2000

Mr. KANJORSKI. Mr. Speaker, I rise today to pay tribute to Charles A. Giunta, who has been chosen by the Italian American Association of Luzerne County as their 2000 Person of the Year. The association will honor him at their annual dinner on Oct. 8.

The officers of this fine organization are Herman Castellani, president; Judy Russo, vice president; Michael Delconte, secretary; and Leonard Cumbo, treasurer. Charlie has been a member of the association for the past six years, having served on the board of directors and other various committees.

Charles is a graduate of Pittston High School and Wilkes-Barre Business College and attended Wilkes College. He served in the U.S. Army during World War II from 1942 to 1946, a year after the war ended. He was recalled to active duty during the Korean War with the rank of captain to command the 487th Transportation Truck Company.

In addition to serving his country and the cause of freedom, he has also served his community well. He was past president of the Columbus League of Luzerne County and was an active member of the committee responsible for obtaining and erecting the statue of Christopher Columbus that now stands in Pittston.

Charles has been an active member of the Wilkes-Barre chapter of UNICO for the past 40 years and is a past president, secretary and treasurer of the organization, in addition to having served on several of its committees.

He has also served St. Anthony's Church of Exeter as a volunteer worker in the rectory and currently serves as chairman of the church's finance committee.

Charles resides in Exeter with his wife of 55 years, the former Nancy Berto. They have three sons, Joseph, of Dallas; Samuel, of North Wales; and Charles, of State College; as well as two grandchildren, Joseph and Bridget Giunta.

Mr. Speaker, I salute Charles Giunta on the occasion of this honor, and I am pleased to call his long service to the attention of the House of Representatives.

END HEALTH DISPARITIES IN MEDICARE BASED ON RACE AND ETHNICITY

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 29, 2000

Mr. STARK. Mr. Speaker, there is a large body of literature that shows people of color disproportionately lack access to health care, vital treatments, and preventive screening measures. Several of us on Ways and Means have called for a hearing to discuss differences in medical care due to race and ethnicity. Although ensuring a fair and equitable quality health care system for all Americans is extremely important, Congress has failed to address existing disparities.

Our country is becoming increasingly diverse. Currently, people of color represent an estimated 18% of our nation's residents, and will comprise more than 25% in 2050. In a state such as California, ''minority'' populations have already become the majority.

Among those of Medicare age, racial and ethnic minorities currently represent 16% of the population; however, by 2050, that percentage will increase to 36% at the same time that the number of elderly is expected to increase by 250%.

The growing populations of minorities, however, have not been able to eliminate the vestiges of racism—conscious and unconscious—that still remains in our society and in our institutions. The health care system is no exception. A Century Foundation Report entitled, ''Vulnerable Populations and Medicare Services'' by Marian Gornick contributes more strong evidence that disparities continue to exist even when individuals have similar health insurance coverage.

For example, Medicare covers influenza vaccines for beneficiaries on an annual basis at no cost. Coverage and financial costs are not barriers, but African Americans are only half as likely to receive flu shots even though influenza, a forerunner to pneumonia, is responsible for excess hospitalizations among elderly with heart and pulmonary disease.

Among those Medicare beneficiaries with coronary artery disease, African Americans are less than half as likely to receive coronary artery bypass graft or percutaneous transluminal coronary angioplasty, two common procedures for treating the disease.

The following statistics illustrate numerous additional examples of the disparities that persist in medical care and treatment. In order to truly be an inclusive society, we must continue to attack conscious and unconscious racism in all its forms and work towards an equitable and just health care system. I hope everyone in Congress can join in continuing our efforts in this area.

EXAMPLES OF HEALTH DISPARITIES

[From Vulnerable Populations and Medicare Services]

(By Marian E. Gornick)

African Americans have 20% less physician visits, and 23% less specialist visits, despite greater rates of certain chronic diseases, limitations in activities of daily living, and reporting of health as fair or poor. But, they receive 38% more hospital inpatient visits and 40% more emergency room visits.

African Americans have 11% less ophthalmology visits even though the prevalence of eye disease is greater.

African Americans are half as likely to receive flu shots even though the vaccines prevent influenza, a forerunner to pneumonia responsible for excess hospitalizations among elderly with heart and pulmonary disease. There is no cost-sharing for this service so financial barriers are not a cause.

African American women are 21% less likely to receive a mammography even though they are more likely to have later-stage breast cancer at diagnosis and lower survival rates.

The rate of sigmoidoscopies and colonoscopies among African Americans is 39% and 12% less although the rate of late-stage colon cancer and death rate of colon cancer is greater.

A sonography was performed at a 24% lower rate among African Americans than whites, possibly contributing to their higher rate of strokes.

African Americans are more than half as likely to not receive a coronary artery bypass graft or percutaneous transluminal coronary angioplasty, common elective procedures for treating coronary artery disease.

Thromboendarterectomy, a procedure to treat blocked carotid arteries, was performed at a rate 67% lower among African Americans than whites.

African Americans are 28% less likely to receive cataract removal/lens insertion to improve vision, but they are 56% more likely to have more severe vision problems that require treatment.

African Americans are more than 3 times as likely to receive amputations, partly due to diabetes being 1.7 times more prevalent, but also partly due to poor outcomes.

Arteriovenostomy procedures are more than 4 times as frequent for African Americans, reflecting the greater prevalence of end stage renal disease.

African Americans are 2.5 times more likely to receive excisional debridement, a procedure for infection and skin breakdown, outcomes associated with quality of care.

INTRODUCTION OF THE ENERGY EFFICIENT BUILDINGS INCENTIVES ACT

HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Friday, September 29, 2000

Mr. MARKEY. Mr. Speaker, I am pleased to join with the gentleman from California (Mr. CUNNINGHAM) and a bipartisan coalition of other Members in introducing the ''Energy Efficient Buildings Incentives Act''.

Energy use in buildings in this country accounts for approximately 35% of polluting air emissions nationwide—about twice as much as the pollution from cars. It costs the average American $1500 to heat and cool their homes every year, which amounts to an annual cost of $150 billion nationwide. Commercial buildings and schools incur $100 billion in annual utility bills. And yet, the tax code fails to provide sufficient incentives to reduce wasteful and unnecessary energy use. This is bad policy, and it must be changed. In these times of ''brown outs'' and ''black outs'' in communities across this nation and in times of rising fuel prices, we should be looking for ways to ensure that energy is never wasted.

That is why we have introduced the ''Energy Efficient Buildings Incentives Act.'' Our bill would spur use of energy efficient technologies, such as super-efficient air conditioning units, which could result in a substantial drop in peak electricity demand of at least 20,000 megawatts—the equivalent of the output of 40 large power plants. At a time when many communities are currently facing electricity supply shortages, and the local political issues involved with siting and building new power plants are difficult and contentious, our bill provides tax incentives for:

Efficient residential buildings, saving 30% or 50% of energy cost to the homeowner compared to national model codes, with a higher incentive for the higher savings.

Efficient heating, cooling, and water heating equipment that reduces consumer energy costs, and, for air conditioners, reduces peak electric power demand, by about 20% (lower incentives) and 30%–50% (higher incentives) compared to national standards.

New and existing commercial buildings with 50% reductions in energy costs to the owner or tenant, and

Solar hot water and photovoltaic systems.

If only 50% of new buildings reach the energy efficiency goals of this legislation, air pollution emissions in this country could be reduced by over 3% in the next decade, and decrease even more dramatically over time. In that same ten-year period, this legislation could result in direct economic savings of $40 billion to consumers and businesses. For example, a family that installs an energy efficient water heater can get $250 to $500 back from the tax code changes and an additional $50 to $200 every year in reduced utility bills. Or a family that purchases a new home that meets the standards in this bill can get as much as $2,000 returned to them by the tax incentives, in addition to the $300 or more in continuing energy savings.

I urge other Members to join us in saving American consumers money, improving the air we breathe and the water we drink, increasing the competitiveness of American industries, and eliminating inefficiencies in the tax code by encouraging energy efficiency in our schools and our commercial and residential buildings.

SENATE—*Monday, October 2, 2000*

(Legislative day of Friday, September 22, 2000)

The Senate met at 12 noon, on the expiration of the recess, when called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Almighty God, source of enabling strength, we thank You that You have promised, ''As your days, so shall your strength be.''

As we begin a new week, it is a source of both comfort and courage that You will be with us to provide the power to finish the work to be accomplished before the recess. Help us to trust You each step of the way, hour by hour, issue after issue. Free us to live each moment to the fullest. We commit to Your care any personal worries that might cripple our effectiveness. Bless the negotiations on the budget. We ask that agreement may be reached.

Father, be with the Senators. Replace rivalry with resilience, party prejudice with patriotism, weariness with well-being, anxiety with assurance, and caution with courage. Reclaim that magnificent promise through Isaiah, ''But those who wait on the Lord shall renew their strength; they shall mount up with wings like eagles; they shall run and not be weary; they shall walk and not faint.'' Is. 40:31. May it be so for the Senators all through this week. You are our Lord and Saviour. Amen.

PLEDGE OF ALLEGIANCE

The honorable JEFF SESSIONS, a Senator from the State of Alabama, led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDENT pro tempore. The able majority leader is recognized.

Mr. LOTT. I thank the Chair.

THE PRESIDENT PRO TEMPORE

Mr. LOTT. Mr. President, we note with great pleasure that the distinguished President pro tempore, Senator THURMOND of South Carolina, is present and accounted for, as always. We are truly blessed and thankful for the indomitable spirit and the magnificent personality and the leadership of Senator THURMOND. It is good to see him here looking great this morning.

Mr. THURMOND. Thank you very much.

SCHEDULE

Mr. LOTT. Mr. President, today the Senate will be in a period of morning business until 2 p.m. with Senators THOMAS and BYRD in control of the time.

Following morning business, the Senate will resume consideration of the motion to proceed to S. 2557, the bill regarding America's dependency on foreign oil. At 5:30 p.m. the Senate will proceed to a vote on the conference report accompanying the energy and water appropriations bill unless some other agreement is reached. As a reminder, on Tuesday morning the Senate will begin final debate on the H–1B visa bill with a vote scheduled to occur at 10 a.m. Therefore, Senators can expect votes at 5:30 p.m. this evening and 10 a.m. tomorrow.

I thank my colleagues for their attention.

I might also note that we could have a vote or votes on the Executive Calendar this afternoon. So there could be at least two votes beginning sometime around 5:30, maybe as many as three. And then, of course, there will be the other vote at 10 a.m.

Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. SESSIONS). The Senator from West Virginia is recognized now for 60 minutes.

Mr. BYRD. I do not expect to take 60 minutes, but I thank our floor staff for arranging for me to use that time.

A CATSKILL EAGLE

Mr. BYRD. Mr. President, on a cold winter afternoon in 1941, a young boy of fourteen went about his daily business, engaged in his humble profession. I can imagine that to many of the pedestrians who made their way down Central Park West that day, this youngster perhaps was nothing extraordinary, just another shoeshine boy. However, this was not just another winter day; it was December 7, 1941. It marked the beginning of America's active participation in the greatest struggle of the twentieth century, a war that would take this boy and make him a man. And it was, perhaps, the last time DANIEL PATRICK MOYNIHAN was left standing on the sidelines as the controversies and events that would affect our Nation unfolded. So this was not just another boy. Today, I honor this man and commemorate his transformation from a humble shoeshine boy to the senior Senator from the State of New York. It is with a heavy heart, a heart that is filled with admiration, that I bid Senator MOYNIHAN farewell and thank him for his ceaseless efforts on behalf of the people of New York and this Nation.

He will not be leaving this afternoon or tomorrow or the next day, but this is his final year, by his own choice, in which he will serve the Nation and his State of New York from his position in this Chamber.

Raised by a journalist and a bar-keep in Manhattan's melting pot, Senator MOYNIHAN climbed the ladder of academia with the callused hands of a blue-collar day laborer to become a man of accomplishment and great learning, the embodiment of the American Dream. He once arrived for an examination at City College of New York with a dockworker's loading hook tucked into his back pocket next to his pencils, as if it were a study in contrasting worlds.

It was this unrelenting desire, this hunger, this thirst for knowledge that led this former shoeshine boy from the sidewalks of New York, that led this longshoreman who had worked out in the cold with the swirling snow and the wintry winds about him, to his improbable destiny in the life of our Nation.

Having served honorably in the U.S. Navy during World War II as a gunnery officer aboard the U.S.S. *Quirinus*, he earned a doctorate from the Fletcher School of Law and Diplomacy in 1961. He taught briefly at both Harvard University and Tufts University and then worked in a series of high positions in the Kennedy, Johnson, Nixon, and Ford administrations. Now get that, high positions in four administrations—the Kennedy, the Johnson, the Nixon, and the Ford administrations. He became the first and only man ever to serve in the Cabinets or subcabinets of four successive Presidents.

What an outstanding career. What an outstanding man for that career. However, this was only the beginning, for this great thinker among politicians. He was also to become one of the finest politicians among thinkers.

A true visionary, Senator MOYNIHAN is the kind of philosopher-politician

who the Founding Fathers had fervently hoped would populate the Senate. Men, who, like Socrates' philosopher-kings described in Plato's Republic, ''are awake rather than dreaming''—men who have broken the bonds of ignorance and have sought the truth of fine and just and good things, not simply the shapes and the half-defined shadows of the unthinking world; men who have shared the light of their learning, illuminating the path for others—some of whom always seem to be left in the dark.

If there is, in fact, one man among those of us in the Senate who truly epitomizes Socrates' philosopher-king, it is surely, indubitably, and without question, the senior Senator from the State of New York, Mr. MOYNIHAN.

With a pragmatic eye and a unique talent for seeing the issues that face our Nation on a larger scale—on a grand scale—Senator MOYNIHAN has spent most of his life breaking through the partisan politics inside this beltway. He possesses both a startling ability to foresee future problems, far beyond the ken of most men, and the courage to address these problems before they become apparent to common men. Issues that few others tackle with insight, such as Social Security, health care, and welfare reform, he has passionately addressed for many years—crossing party lines, challenging every administration—and all without personal concern for political backlash. Simply put, Senator MOYNIHAN states facts, the cold, hard truths that many others in high places refuse to face and that some are unable to see. His conscience is his compass, and his heart is steadied by his unfaltering belief in the power of knowledge and the possibilities of government.

As Senator MOYNIHAN steps away from his desk on the Senate floor for the final time—he will never step away from it in my memory. I will always see him at that desk. I will always see his face—that unkempt hair, the bow tie, the spectacles which he frequently readjusts. I can hear him say: ''sir; sir.''

As he steps away from his desk on the Senate floor for the final time, he will walk away with his head held high, with his legacy intact, and with a distinguished and singular place in our Nation's history well secured. He will always be looked to as a leader of men, as an author of many books—more books than most Senators have read—and as a compassionate intellectual who has no peer in this Senate, who has used his considerable talents to become one of the principal architects of our Nation's foreign policy and our Nation's social security safety net. He will be remembered thusly, for these and more.

U.S. Permanent Representative to the United Nations, author of the Welfare Reform Act of 1988 and the Intermodal Surface Transportation Efficiency Act of 1991, chairman of the Senate Committee on the Environment and Public Works from 1992 to 1993, chairman of the Senate Committee on Finance from 1993 to 1994, DANIEL PATRICK MOYNIHAN has left his indelible mark on this country.

He served as the chairman of that Finance Committee, one of the oldest of the few committees that sprang into being early, I believe it was in 1816. It was from that Committee on Finance that the Appropriations Committee was carved in 1867, a half century later. In the beginning, the Finance Committee handled both the finance and the appropriations business of the Senate. The Finance Committee was well led when DANIEL PATRICK MOYNIHAN sat in the chair.

I certainly will never forget the role that Senator MOYNIHAN played in our battle against the line-item veto. Like Socrates' quoting the shade of the dead Achilles in Homer's epic, the ''Odyssey,'' Senator MOYNIHAN would rather, '' 'work the Earth as a serf to another, one without possessions,' and go through any sufferings, than share their opinions and live as they do.''

Incapable of indifference and unable to sit by as others were paralyzed by ignorance, Senator MOYNIHAN rose up and fought the good fight—the just fight—and he won, sir. He won.

In the 24 years that Senator MOYNIHAN has walked the marble halls of the Capitol, he has graced us all with intellectual vigor and a stellar level of scholarship. He has helped us all to ascend the path of true knowledge and reach for wisdom. Each of us, Democrat and Republican alike, recognizes that when Senator MOYNIHAN speaks, we should listen for we may learn something that could fundamentally shift our thinking on a given matter. Senator MOYNIHAN has been a guiding light, a sage of sages, the best of colleagues, and always, always a gentleman—always a gentleman.

On this day, when I state this encomium in my feeble way—feeble because I cannot meet the challenge, strive though I must, I cannot meet the challenge to gropingly find the appropriate words to express my true and deep abiding admiration and love. I cannot find it for this man.

I have served with many men and women in this Senate. Everyone here knows of my great admiration for some of those men—I say ''men'' because, for the most part, of these more than two centuries, only men served in this body. Every colleague of mine knows of my deep admiration for certain former Senators—Senator Richard Russell, Senator Russell Long, Senator Lister Hill, Senator Everett Dirksen, and others—and yet Senator MOYNIHAN is uniquely unique. He is not the keeper of the rules as was Senator Russell. He is not the great orator that was Senator Dirksen, but this man is unique in his knowledge, in his grasp of great issues, in his ability to foresee the future and to point the way, always unassuming, always courteous, always a gentleman. Ah, that we could all be like this man!

I wish I could have been so fortunate as to sit in Senator MOYNIHAN's classes at Harvard or, to paraphrase Garfield, on a log in the West Virginia hills with PAT MOYNIHAN on one end and me on the other. That is the picture I have of one to whom I look up, one whom I admire and at whose feet I would gladly sit to learn the lessons, the philosophy, the chemistry of the times.

Erma and I offer our best wishes to his lovely and gracious wife Elizabeth as our esteemed colleague, Senator MOYNIHAN, embarks on yet another adventure—retirement. I thank him for being this special man, always a philosopher-Senator. He will be sorely missed here. Whence cometh another like him?

Herman Melville, in his classic work, Moby Dick, said this:

> There is a Catskill Eagle in some souls that can alike dive down into the blackest gorges and soar out of them again and become invisible in the sunny spaces. And even if he forever flies within the gorge, that gorge is in the mountains; so that even in his lowest swoop, the Mountain Eagle is still higher than the other birds upon the plain, even though they soar.

Many who have passed through these halls have soared, but very, very few could ever truly be likened to a Catskill Eagle.

The PRESIDING OFFICER. The Senator from New York.

Mr. MOYNIHAN. When I arrived at the Senate near 25 years ago, it was very clear to me that I would look to ROBERT C. BYRD as my mentor; and he has been. I have sat at the foot of this Gamaliel for a quarter century. As I leave, sir, he is my mentor still. I am profoundly grateful.

If I have met with your approval, sir, it is all I have hoped for. I thank you beyond words. And I thank you for your kind remarks about Elizabeth. And my great respect and regard to Erma.

Thank you, Mr. President.

Mr. BYRD. Mr. President, I thank the Senator.

REMEMBERING CARL ROWAN

Mr. BYRD. Mr. President, recently, a great voice was silenced when Carl Thomas Rowan passed away. As a newspaper columnist, he articulated the problems and predicaments of working Americans. As a Presidential advisor, Mr. Rowan spoke for the rights not only of minorities but also for all Americans who were getting the short end of the stick, as we say back in the West Virginia hills.

Carl Rowan and I came from similar backgrounds. We both grew up in poor

coal-mining communities and we never forgot our roots. Carl often talked about growing up without running water, without electricity, without those basic amenities that so many people take for granted today. As they did for me, those humble beginnings provided Carl Rowan with the burning desire to make a difference in his community and in his country. And make a difference he did.

The only thing stronger than Carl Rowan's voice was his conviction. He stood for basic principles—equality and freedom—and those principles guided him at every step in his life. Earlier this year, Carl Rowan wrote:

> Men and women do not live only by what is attainable; they are driven more by what they dream of and aspire to that which might be forever beyond their grasp.

That ideal resonated not only in his columns but also in his life. Instead of simply bemoaning the fact that a college education was too expensive for many underprivileged children, Mr. Rowan in 1987 created the Project Excellence Foundation, which has made nearly $80 million available to students for academic scholarships. Instead of allowing the amputation of part of his right leg to slow him down, Mr. Rowan walked—and even danced; even danced—faster than doctors expected, and he then pushed for greater opportunities for the disabled. When others saw obstacles, Carl Rowan saw challenges. When others saw impossibilities, Carl Rowan saw opportunities. Instead of cursing the darkness, Carl Rowan lighted the candles.

Mr. Rowan wrote:

> Wise people will remember that the Declaration of Independence and the Preamble to our Constitution are mostly unattainable wishful thinking or make-believe assertions that were horizons beyond the reality of life at the time they were written.

Carl Rowan always reached beyond the horizon—he always went beyond the horizon—and he helped others to aspire to do the same. With the passing of Carl Rowan, journalism has lost one of its best, the underprivileged have lost a friend, and the Nation has lost a part of its social conscience.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SPECTER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

JOSEPH A. BALL

Mr. SPECTER. Mr. President, I have sought recognition to comment upon the death of one of America's great lawyers, Joseph A. Ball. On Saturday, the New York Times carried an extensive account of his background and history and accomplishments. I ask unanimous consent that at the conclusion of my remarks the copy of the New York Times article be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See Exhibit 1.)

Mr. SPECTER. The Times article details the specifics on the positions held by Mr. Ball in the lawyers associations, his professorial associations as a teacher, his experience as a criminal lawyer, and his experience, most pointedly, as one of the senior counsel to the Warren Commission, the President's commission which investigated the assassination of President Kennedy. It was on the Warren Commission staff that I came to know Joe Ball.

The original complexion of the Warren Commission on staffing was that there were six senior counsel who were appointed and six junior counsel. That distinction was replaced by putting all of the lawyers under the category of assistant counsel. But if there was a senior counsel, it was Joe Ball.

Then, in his early sixties, he was a tower of strength for the younger lawyers. When the commission began its work, I was 33. Most of the junior lawyers were about the same age. We looked to Joe Ball for his experience and for his guidance. He had a special relationship with Chief Justice Earl Warren, which was also helpful because Joe Ball could find out what Chief Justice Warren had in mind in his capacity as chairman and provide some valuable insights that some of the younger lawyers were unable to attain.

Joe Ball worked on what was called area two, along with the very distinguished younger lawyer, David Belin from Des Moines, IA. Area two was the area which was structured to identify the assassin. Although the initial reports had identified Lee Harvey Oswald as the assassin, and on television, on November 24, America saw Jack Ruby walk into the Dallas police station, put a gun in Oswald's stomach and kill him, the Warren Commission started off its investigation without any presumptions but looking at the evidence to make that determination as to who the assassin was.

My area was area one, which involved the activities of the President on November 22, 1963. There was substantial interaction between the work that Joe Ball and Dave Belin did and the work which was assigned to me and Francis W.H. Adams, who was senior counsel on area one.

Frank Adams had been New York City police commissioner and had been asked to join the Warren Commission staff when Mayor Wagner sat next to Chief Justice Warren at the funeral of former Governor and former Senator, Herbert Lehman. Mayor Wagner told Chief Justice Warren that Frank Adams, the police commissioner, knew a lot about Presidential protection and had designed protection for motorcades in New York City, with dangers from tall buildings, which was an analogy to what happened to President Kennedy.

There was question as to how we would coordinate our work, and it was sort of decided that Joe Ball and Dave Belin would investigate matters when the bullet left the rifle of the assassin in flight, which was no man's land, and when it struck the President. That came into area one, which was my area: the bullet wounds on President Kennedy, the bullet wounds on Governor Connally, what happened with the doctors at Parkland Hospital, what happened with the autopsy, all matters related to what had happened with President Kennedy.

We had scheduled the autopsy surgeons for a Monday in early March. They were Lieutenant Commander Boswell, Lieutenant Commander Humes and Lieutenant Colonel Pierre Finck. The autopsy was done at Bethesda, where President Kennedy was taken, because of the family's preference that he go to a naval installation because he was a Navy man, so to speak, who had served in the Navy.

The testimony was to be taken on this Monday in March. There was quite a debate going on with the Warren Commission staff as to whether we should talk to witnesses in advance. It seemed to many of us that we should talk to witnesses in advance so we would have an idea as to what they would testify to so we could have an orderly presentation, which is the way any lawyer talks to a witness whom he is about to call. The distinguished Presiding Officer has been a trial lawyer and knows very well to what I am referring. There was a segment on the Warren Commission staff which thought we should not talk to any witnesses in advance, lest there be some overtone of influencing their testimony. Finally, this debate had to come to a head, and it came to a head the week before the autopsy searchers were to testify.

And on Friday afternoon, Joe Ball and I went out to Bethesda to talk to the autopsy surgeons. It was a Friday afternoon, much like a Friday afternoon in the Senate. Nobody else was around. It was my area, but I was looking for some company, so I asked Joe Ball to accompany me—the autopsy surgeons falling in my area. We took the ride out to Bethesda and met the commanding admiral and introduced ourselves. We didn't have any credentials. The only thing we had to identify ourselves as working on the Warren Commission was a building pass for the VFW. My building pass had my name typed crooked on the line, obviously having been typed in after it was signed. They sign them all and then type them in. It didn't look very official at all.

So when Commander Humes and Commander Bozwell came down to be interviewed, Commander Humes was very leery about talking to anybody. He had gone through some travail with having burned his notes and having been subjected to a lot of comment and criticism about what happened at the autopsy, and there were FBI agents present when the autopsy was conducted. A report had come out that the bullet that had entered the base of the President's neck had been dislodged during the autopsy by massage. It had fallen out backward as opposed to having gone through the President's body, which was what the medical evidence had shown.

That FBI report that the bullet had entered partially into the President's body and then been forced out had caused a lot of controversy before the whole facts were known. Later, it was determined that the first shot which hit the President—he was hit by two bullets—well, the second shot, which hit him in the base of the skull, was fatal, entering the base of the skull and exiting at the top at 13 centimeters, 5 inches—the fatal wound. The first bullet which hit the President passed between two large strap muscles, sliced the pleural cavity, hit nothing solid and came out, and Governor Connally was seated right in front of the President and the bullet would have to have hit either Governor Connally or someone in the limousine.

After extensive tests were conducted, it was concluded that the bullet hit Governor Connally. There has been a lot of controversy about the single bullet theory, but time has shown that it is correct. A lot of tests were conducted on the muzzle velocity of the Oswald rifle. It was identified as having been Oswald's, purchased from a Chicago mail order store. He came into the building with a large package which could have contained the rifle. He said they were curtain rods for an apartment which already had curtains. The muzzle velocity was about 2,200 feet per second, and the velocity after traveling about 275 feet was about 1,900 feet per second.

At any rate, as Joe Ball and I went through it with the autopsy surgeons, we found for the first time—because we had only seen the FBI reports—that the bullet did go through President Kennedy and decreased very little in velocity. It was at that moment when we talked to Dr. Humes and Dr. Finck that we came to hypothesize that that bullet might have gone through Governor Connally. We didn't come to a conclusion on that until we had reviewed very extensive additional notes, but it was on that occasion that Joe Ball and I had interviewed the autopsy surgeons. It was a marvel to watch Joe Ball work with his extensive experience as a lawyer and as a fact finder.

He lived to the ripe old age of 97. The New York Times obituary had very extensive compliments about a great deal of his work and focused on his contribution to the Warren Commission, where he had written an extensive portion of the Warren Report, as he was assigned to area two which compiled a fair amount of the report.

America has lost a great patriot in Joe Ball, a great citizen, a great lawyer, and a great contributor. I had the pleasure of knowing him and working with him on the Warren Commission staff and have had occasion to reminisce with him about his work. I noted that on his office wall in California is his elegantly framed building pass.

In the absence of any other Senator seeking recognition, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

EXHIBIT 1

[From the New York Times, Sept. 30]

J.A. BALL, 97, COUNSEL TO WARREN COMMISSION

(By Eric Pace)

Joseph A. Ball, a California trial attorney who was a senior counsel to the Warren Commission, which investigated the assassination of President John F. Kennedy, died on Sept. 21 in Long Beach, Calif. He was 97 and a longtime resident of Long Beach.

At his death, Mr. Ball was a partner in the Los Angeles office of the Hawaii-based law firm Carlsmith Ball. He had been a partner in that firm and its predecessor in Los Angeles for five decades.

Mr. Ball, who wrote crucial portions of the commission's report, was selected for the commission by United States Chief Justice Earl Warren, who had come to know him in California's political world.

At that time, Mr. Ball was 61, a leading criminal lawyer, a member of the Supreme Court's Advisory Committee on the Federal Rules of Criminal Procedure and a professor at the University of Southern California Law School.

In January 1964, he was appointed as one of six senior lawyers who, each assisted by a younger colleague, were to handle one of six broad areas of inquiry.

Mr. Ball and David W. Belin, a lawyer from Des Moines who was chosen to assist him, concentrated on the area they called ''the determination of who was the assassin of President Kennedy.''

''About 10,000 pieces of paper were then rolled into my office; the written reports of various investigative agencies, including the F.B.I., the Dallas Police and the Central Intelligence Agency,'' Mr. Ball wrote in 1993. ''During the first month of the investigation, we classified the information found in the reports by means of a card index system. This permitted the immediate retrieval of this information.'' Witnesses were also questioned during the inquiry.

Mr. Belin wrote in 1971, after the Commission's report had been criticized, that ''despite the success of the assassination sensationalists in deceiving a large body of world opinion, the Warren Commission Report will stand the test of history for one simple reason: The ultimate truth beyond a reasonable doubt is that Lee Harvey Oswald killed both John F. Kennedy and J.D. Tippit on that tragic afternoon of Nov. 22, 1963.''

Office Tippit was a Dallas police officer whom Oswald shot shortly before shooting Kennedy.

The commission's final report was sent to President Lyndon B. Johnson in September 1964.

Mr. Ball was a president of the American College of Trial Lawyers and of the State Bar of California.

The Joseph A. Ball Fund to benefit American Bar Association programs of public service and education and to honor excellent attorneys was named in his honor.

He was born in Stuart, Iowa, and received a bachelor's decree in 1925 from Creighton University in Nebraska and his law degree in 1927 from the University of Southern California.

He married Elinor Thon in 1931. After her death, he remarried. He also outlived his second wife, Sybil.

He is survived by a daughter JoEllen; two grandchildren; and two great-grandchildren.

Mr. Ball recalled in 1993: ''In 1965, I called Chief Justice Warren on the telephone. I said, 'Chief, these critics of the report are guilty of misrepresentation and dishonest reporting.' He replied, 'Be patient; history will prove that we are right.' ''

The PRESIDING OFFICER (Mr. KYL). The Senator from Iowa is recognized.

Mr. GRASSLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

DRUG FIGHTING AGENCIES

Mr. GRASSLEY. Mr. President, I am often critical of this Administration's happy-go-lucky ways when it comes to drug policy. The administration is like the grasshopper in the old fable. It's out there fiddling around when it ought to be working. That said, I do not mean this criticism to detract from the fine work done by the many men and women in our law enforcement agencies. These fine people risk their lives every day to do important and difficult work on behalf of the public.

I want to take a moment to highlight some of the achievements and invaluable service provided to this nation by the men and women of the Drug Enforcement Administration (DEA), the U.S. Customs Service, and the U.S. Coast Guard. As chairman of the Senate Caucus on International Narcotics Control, I would like to express my thanks and make known the tremendous pride that I think we should all have in the good people in these agencies.

The men and women of the DEA, Customs, and the Coast Guard are dedicated to the protection of the United States and to ensuring the safety of our children and our lives from the devastating effects of the drug trade. They are called on daily to place their lives in harm's way in an effort to keep our nation secure. When they are boarding smugglers' vessels on the seas. When they stop terrorists at the border. When they investigate narcotics trafficking organizations around

the globe. When they dismantle clandestine methamphetamine labs, engage in undercover operations, safeguard our ports of entry, or shut down ecstasy peddling night clubs, these fine people risk their lives and well being for all of us.

DEA efforts this year include Operation Mountain Express, which arrested 140 individuals in 8 cities, seized $8 million and 10 metric tons of pseudoephedrine tablets, which could have produced approximately 18,000 pounds of methamphetamine. In addition, DEA's Operation Tar Pit, in cooperation with the FBI, resulted in nearly 200 arrests in 12 cities and the seizure of 41 pounds of heroin. The heroin ring they busted was peddling dope to kids, many of whom died. DEA, in conjunction with State and local law enforcement, has also aggressively dismantled hundreds of clandestine methamphetamine labs that poison our urban streets and rural communities.

The United States Customs Service has seized over 9,000,000 Ecstasy tablets in the last 10 months. Ecstasy is an emerging problem that affects not only our large cities but many rural areas, including my home State of Iowa. In addition, their Miami River operations have resulted in the seizure of 18 vessels, mostly arriving from Haiti, and over 7,000 pounds of cocaine—a small portion of the over 122,000 pounds of cocaine seized this fiscal year. Finally, the Customs Service has seized over 1 million pounds of marijuana and over 2,000 pounds of heroin as well, often in very risky situations.

Coast Guard successes this year include a record-breaking seizure total of over 123,000 pounds of cocaine, including many major cases in the Eastern Pacific. This effort went forward even while still interdicting over 4,000 illegal alien migrants bound for U.S. shores. In addition, the deployment of two specially equipped interdiction helicopters in Operation New Frontier had an unprecedented success rate of six seized go-fast vessels in six attempts.

Finally, as announced last month, a joint DEA and Customs investigation—supported by the Coast Guard and Department of Defense—concluded a 2 year multinational case against a Colombian drug transportation organization. The result was the arrest of 43 suspects and the seizure of nearly 25 tons of cocaine, with a retail street value of $1 billion. Operation Journey targeted an organization that used large commercial vessels to haul multi-ton loads of cocaine. This organization may have shipped a total of 68 tons of cocaine to 12 countries in Europe and North America.

I believe we should all be proud of the jobs these folks do on our behalf.

FAST PITCH IS FOUL BALL

Mr. GRASSLEY. Mr. President, the administration is at it again. Late last month, it issued its findings from the latest Household Survey on drug use in America. You would have to look fast to find anything about it. As usual, the administration chose to release the information when no one was looking. And as usual, they did this hoping no one would notice. Given that the majority of the press did not bother to do more than rephrase the press release from the Department of Health and Human Services, it would be hard to figure out just what the 300-odd page report actually said anyway. But neither the press release nor the news accounts do justice to what is not happening. What is not happening is the fact that the drug use picture is not getting any better.

When it comes to drugs, the administration just can't say it straight.

It continues the trend of its incumbency of labeling bad news or good news and counting on the press to not look beyond the hype. In releasing the latest data, Secretary Shalala says that the report shows the continuing downward trend in drug use. She remarked at the press conference that, ''We've not only turned the corner—we're heading for home plate,''—suggesting that the report shows that the administration has hit a home run.

I'm not sure at which game Secretary Shalala is playing, but the most generous interpretation is that she clearly is not reading her own reports or her staff is not telling her what's in them. She needs new glasses or new staff. Despite this happy talk, even HHS's own press release notes that, ''Illicit drug use among the overall population 12 and older remained flat.'' That may be a home run down at HHS but in plain English that means ''no change.'' In my book, ''flat'' does not mean continuing a downward trend.

I suppose in an election year ''no change'' in how many people are using drugs is a sign of success. Least ways, that's how this administration sees it. Or, wants you and me to see it. But when you actually get down into the numbers, this ''success'' is not all it appears to be. It shares something with the Cheshire cat—it disappears when you look at it. In true Alice in Wonderland logic, down is not always not up. To follow Shalala's analogy with baseball, what we have here is not a home run but the runner rounding the bases on a foul ball.

Before I get to actual numbers, let me say something on background about this year's report. The thing to note is that the administration has changed the methodology for how it collects data for the report. Why is that important? Here's what the report says: ''Because of the differences in methodology and impact of the new survey design on data collection, only limited comparisons can be made between data from the 1999 survey and data from surveys prior to 1999.''

Now, in those years since 1993, that data show dramatic increases in drug use on this administration's watch. During each of those years, however, the administration tried to put a ''spin'' on the information, calling bad news good news. Instead of doing that any more, they have decided to play hide and seek with the information. Don't like the results? Well . . . Change the way you figure them and declare success. As with the Cheshire cat, pretty soon all you're left with is the smile. Even this little bit of sleight of hand, however, does not wholly work.

It's really very simple. There has been no significant change for the better in the rate of past month drug use on this administration's watch. More seniors graduating from high school today report using drugs than in any year since 1975. Almost 55 percent of high school seniors now report using an illegal drug before graduation.

Use of heroin among young people is on the rise. We are in the midst of a methamphetamine epidemic. If reports are accurate, we are awash in Ecstasy and its use among the young is accelerating. The rate of illicit drug use has increased in six out of the last seven years.

The administration tries to hide this fact by reporting on a decline of use among 12–17-year-olds in hopes no one will notice an increase among 18–25-year-olds. But this is a statistical game. Although there is an unfortunate trend in the onset of drug use at earlier ages, onset begins most typically among 15–18-year-olds. By including the earlier years in the count, you disguise the true rate of increase.

Even allowing for the moment that the administration spin is true, however, does not change the fact that youthful use of drugs continues spiraling upwards.

Today's use levels are 70 percent higher than when this administration took office. The numbers are not getting better. Yet, we have another report and another press release touting victory. This is shameful and to call it anything else is a sham.

And just as bad, fewer kids are reporting that using illicit drugs is dangerous—a sure sign of future problems. Especially at a time when we have a well-monied, aggressive legalization campaign that this administration has done little to counter. And this despite a $200 million-a-year ad campaign aimed at exactly these age groups that this administration touts as a success. The most optimistic thing a recent GAO report had to say about this much-troubled effort is the hope that it might do better.

The administration also continues the game of trying to hide its record by

lumping the increasing use figures on its watch with the decreasing use figures in earlier administrations. I have complained repeatedly about this gimmick. This is just plain deception.

Mr. President, I am often critical of this administration's happy-go-lucky ways when it comes to drug policy. The administration is like the grasshopper in the old fable. It's out there fiddling around when it ought to be working. That said, I do not mean this criticism to detract from the fine work done by the many men and women in our law enforcement agencies. These fine people risk their lives every day to do important and difficult work on behalf of the public.

I want to take a moment to highlight some of the achievements and invaluable service provided to this nation by the men and women of the Drug Enforcement Administration (DEA), the U.S. Customs Service, and the U.S. Coast Guard. As chairman of the Senate Caucus on International Narcotics Control, I would like to express my thanks and make known the tremendous pride that I think we should all have in the good people in these agencies.

The men and women of the DEA, Customs, and the Coast Guard are dedicated to the protection of the United States and to ensuring the safety of our children and our lives from the devastating affects of the drug trade. They are called on daily to place their lives in harm's way in an effort to keep our nation secure. When they are boarding smuggler's vessels on the seas. When they stop terrorists at the border. When they investigate narcotics trafficking organizations around the globe. When they dismantle clandestine methamphetamine labs, engage in undercover operations, safeguard our ports of entry, or shut down ecstasy peddling night clubs, these fine people risk their lives and well being for all of us.

DEA efforts this year include Operation Mountain Express, which arrested 140 individuals in 8 cities, seized $8 million and 10 metric tons of pseudoephedrine tablets, which could have produced approximately 18,000 pounds of methamphetamine. In addition, DEA's Operation Tar Pit, in cooperation with the FBI, resulted in nearly 200 arrests in 12 cities and the seizure of 41 pounds of heroin. The heroin ring they busted was peddling dope to kids, many of these kids died. DEA, in conjunction with State and local law enforcement, has also aggressively dismantled hundreds of clandestine methamphetamine labs that poison our urban and rural communities.

The United States Customs Service has seized over 9,000,000 Ecstasy tablets in the last 10 months. Ecstasy is an emerging problem that affects not only our large cities but many rural areas, including my home State of Iowa. In addition, their Miami River operations have resulted in the seizure of 18 vessels, mostly arriving from Haiti, and over 7,000 pounds of cocaine—a small portion of the over 122,000 pounds of cocaine seized this fiscal year. Finally, the Customs Service has seized over 1 million pounds of marijuana and over 2,000 pounds of heroin as well, often in very risky situations.

Coast Guard successes this year include a record-breaking seizure total of over 123,000 pounds of cocaine, including many major cases in the Eastern Pacific. This effort went forward even while still interdicting over 4,000 illegal alien migrants bound for U.S. shores. In addition, the deployment of two specially equipped interdiction helicopters in Operation New Frontier had an unprecedented success rate of six seized go-fast vessels in six attempts.

Finally, as announced last month, a joint DEA and Customs investigation—supported by the Coast Guard and Department of Defense—concluded a 2-year multinational case against a Colombian drug transportation organization. The result was the arrest of 43 suspects and the seizure of nearly 25 tons of cocaine, with a retail street value of $1 billion. Operation Journey targeted an organization that used large commercial vessels to haul multi-ton loads of cocaine. This organization may have shipped a total of 68 tons of cocaine to 12 countries in Europe and North America.

I believe we should all be proud of the jobs these folks do on our behalf.

Mr. SESSIONS. Will the Senator yield for a comment on his previous remarks?

Mr. GRASSLEY. I am happy to yield to the Senator.

Mr. SESSIONS. I thank Senator GRASSLEY for speaking forthrightly and with integrity. He chairs our drug caucus in the Senate. He personally travels his State and has led efforts against methamphetamines, Ecstacy, and other drugs. He understands those issues clearly.

He is correct; there is too much spin. These drugs do not justify the positive spin being put on them. During the administrations of Presidents Bush and Reagan, I served as a Federal prosecutor. According to the University of Michigan Authoritative Study of Drug Use Among High School Students, drug use fell every single year for 12 consecutive years; it jumped after this administration took office. They have, in fact, made a number of mistakes that have undermined the progress made.

I appreciate serving with Senator GRASSLEY on the drug caucus and in the Judiciary Committee where we have discussed these issues.

Mr. GRASSLEY. I thank the Senator from Alabama for the support he has given to the drug caucus. Most importantly, he is a regular attender of our meetings and hearings. His support and interest in this issue, particularly coming from his background as a U.S. attorney, have been very helpful to the work of the drug caucus as well. I thank him for that.

ENERGY POLICY

Mr. GRASSLEY. Mr. President, I indicate to my colleagues I will take a few minutes to speak about the administration's energy policy; however, as I think about it, it is better to entitle it the administration's ''no energy'' policy.

Mr. President, I rise today to express my frustration and anger with the Clinton/Gore administration's lack of an energy policy.

Each weekend I travel back to my home state of Iowa. In recent weeks I have spent many hours explaining to my constituents why fuel prices are so high, and unfortunately, explaining why prices will likely rise past current levels. I've continually had the displeasure of looking truckers and farmers in the eye and telling them there is no relief in sight.

In my home state we are experiencing price levels not seen in a decade, but all I can tell my farmers and truckers is that it is likely going to get worse.

In recent weeks, the price of crude oil reached more than $37 a barrel, the highest price in 10 years. Natural gas is $5.10 per million Btu's, double over a year ago. Heating oil in Iowa is around $1.25 a gallon, up 40 cents from this time last year. And propane, a critical fuel which farmers use to dry grain, is up 55 percent since last year.

These increases are simply unacceptable. Iowans and the rest of the nation should not have been subjected to these price spikes.

Unfortunately, it is the Clinton/Gore administration's lack of an energy policy over the past 7½ years that have directly led to the situation we are facing today. Mr. President, two weeks ago, Vice President GORE stated, and I quote: ''I will work toward the day when we are free forever from the dominance of big oil and foreign oil.''

Yet, since 1992, U.S. oil production is down 18 percent—the lowest level since 1954. At the same time, U.S. oil consumption has risen 14 percent.

The result: U.S. dependence on foreign oil under the Clinton/Gore administration has increased 34 percent. We now depend on foreign oil cartels for 58 percent of our crude oil, compared to just 36 percent during the Arab oil embargo of 1973.

Some may be wondering how we got here. The answer is clear. This administration is opposed to the use of coal. Opposed to nuclear energy production. Opposed to hydroelectric dams. Opposed to new oil refineries; 36 have been closed, but none has been built in

the past eight years. And, this administration is opposed to domestic oil and gas exploration and production.

This administration opposes nearly every form of domestic energy production.

They do, however, support the use of clean, efficient, and domestically produced natural gas. Currently, 50 percent of American homes are heated with natural gas. In addition, 15 percent of our nation's electric power is generated by natural gas. And while demand for natural gas is expected to increase by 30 percent over the next decade, the administration has not provided the land access necessary to increase supply.

As this map demonstrates, federal lands in the Rocky Mountains and the Gulf of Mexico, along with offshore areas in the Atlantic and the Pacific, contain over 200 trillion cubic feet of natural gas. Access to this land could provide the resources necessary to meet current demand for nearly ten years.

Unfortunately, this land and millions of acres of forest are either closed to exploration or effectively off limits. Simply put, our nation's producers can't meet demand without greater access to the resources God gave us.

I am a strong supporter of alternative and renewable energy. I have been a leader in the Senate in promoting alternative energy sources as a way of protecting our environment and increasing our energy independence.

My support for expanding the production of ethanol, wind and biomass energy has directly led to the increased use of these abundant renewable energy resources. But right now, these are only part of the solution, and President Clinton and Vice President GORE know that.

The administration does not have a plan to deal with our current energy needs. I believe the solution is clear.

It is time to support and encourage responsible resource development—using our best technology to protect our environment—to increase domestic energy production. It is time to make use of the vast resources this great country has to offer. Only then will we be free from so much dependence on foreign sources of energy.

I yield the floor.

The PRESIDING OFFICER. The Senator from Alabama.

Mr. SESSIONS. Mr. President, I express my appreciation to Senator GRASSLEY for his wise remarks about our energy policy. Certainly natural gas is the cleanest burning of our fossil fuels. We will need it more and more because every electric powerplant that is being built is a natural gas plant. The Senator makes an outstanding and valuable point that we have to do a better job of producing more.

(The remarks of Mr. SESSIONS and Mr. HUTCHINSON pertaining to the introduction of S. 3143 are located in today's RECORD under ''Statements on Introduced Bills and Joint Resolutions.'')

The PRESIDING OFFICER. The Senator from Arkansas.

AN ATTACK ANSWERED

Mr. HUTCHINSON. Mr. President, when I was elected to the House of Representatives back in 1992, I spent 2 years serving in the minority—2 years; in 1993 and 1994—before the Republican victories in the 1994 elections brought about the first Republican majority in the House of Representatives in 40 years.

Having now been on the majority side for 5½ years, I am very appreciative of the 2 years I served in the minority. Having had the experience of knowing what it is to be in the minority, to have the agenda set by the majority side, to have the frustration of having vote after vote in which you come up on the short end, is important. I think it helps me in understanding the frustrations the other side has experienced. It also helps me understand now, being in the majority, how hard it is to lead and to govern.

I remember in those first 2 years, we were pretty organized in lobbing criticisms and lobbing objections and in presenting our agenda to the American people. We didn't have to worry about legislating. We didn't have to worry about passing anything. We didn't have the votes to do that. But we could do a lot in framing the debate.

As we approach the end of this session, it is much easier to criticize in the minority than to govern in the majority. It is easy to say no; it is easy to find even the slightest flaw with a legislative proposal as a rationale for opposing it and blocking it. When you are in the majority, the job of calling up tough bills, debating the very tough issues, taking the very tough votes, that is what governing is about.

That is why I have come to the floor this afternoon. I believe an attack unanswered is an attack assumed.

Last week, Senator BYRD, for whom I have the greatest admiration, came to the floor and noted that few Members in this body have ever witnessed how the Senate is really supposed to function. I concur with that; I agree entirely. I believe it takes a commitment, a commitment from both sides of the aisle to complete our appropriations obligations in a timely fashion and to ensure the Senate is governing and functioning the way it is supposed to.

The fact is, there are a number of Senators who don't seem to want bills signed into law but who want issues. Why? Because it is easier to demagogue an issue than it is to legislate an issue. So who gets left holding the buck? Who gets the blame if legislation, for any reason, does not pass? It is clearly the majority in the Congress who will get blamed if the Government shuts down, as we have already found out. It is those who are in the majority in Congress, clearly, who get the blame.

In terms of another Government shutdown, I assure the American people and my colleagues that despite any dispute over issues pending, the Government will not shut down if we have anything to say about it or anything to do about it, if it can be prevented in any way. Social Security checks will be delivered, health care services under Medicare will be funded, and our Nation's veterans will not be left out in the cold.

That being said, we still have 11 appropriations bills unsigned and multiple unrelated issues on the table. The education of our kids, prescription drugs, and a Patients' Bill of Rights are all there, still on the table. Since these unrelated issues seem to get tossed around a great deal, let me talk about them plainly for a few minutes and why the minority continues to insist on their passage by holding up our Nation's spending bills.

First of all, in the area of education, the other side maintains that we are not having a debate on education in the 106th Congress. I suggest that the other side of the aisle doesn't really want a bill; they want an issue. They say that unless we vote for their few education proposals, which, by the way, would concentrate even more power in the Department of Education, we are not having a debate on education. I think that is not fair, and it is not accurate.

During the 106th Congress, we have already voted six times on the class size reduction initiative. Six times we have all been called upon to cast our vote, to go on the record, even though that has been misconstrued and misrepresented to the American people. We have been willing to debate it. We have been willing to cast votes a half dozen times during this Congress alone.

As my distinguished colleague from Alabama pointed out, the Department of Education has failed to pass an audit for 3 years in a row. They can't even account for how the money is being spent currently. So it is not unreasonable that many of us have reservations in giving them more power and more authority in the area of school construction and the hiring of 100,000 new teachers.

According to the Congressional Daily Monitor, a press conference was held recently with Treasury Secretary Larry Summers and Education Secretary Dick Riley, ''demanding that Republicans accept their positions.'' So after voting six times against the class size reduction initiative in the Senate, you would think the attitude would not be their way is the only way. Our side of the aisle has been more than accommodating in providing funding that

was reserved for class size reduction. In the fiscal year 2001 Labor-HHS appropriations bill, Republicans have appropriated the $1.3 billion for class size reduction in the title VI State grant so that schools who want to use the funding for this initiative are able to do so. But schools that have already achieved the goal of class size reduction or have more pressing problems can use the funding for other priority items such as professional development or new textbooks.

One would think that is a reasonable, acceptable compromise, a middle ground. But instead, we hear the other side saying: It is our way or no way. We are going to block the appropriations bills unless you do it exactly the way we want it. They contend, again, unless we are voting for class size reduction, we are avoiding the issue of education, even though we have already voted on class size reduction six times in this Congress.

The Democrats considered bringing this issue up again in the HELP Committee just last week as an amendment to a bipartisan bill to fully fund the IDEA program. If a debate on education is what the other side really wants, then why did they object to multiple unanimous consent requests on the reauthorization of the Elementary and Secondary Education Act to keep the debate on education?

The ESEA debate was moving along very well on the Senate floor. There was a consensus that only a few amendments should be offered and they should be germane. They should relate to education. But then on the other side of the aisle there were those who objected to those agreements to keep the debate limited to education. I know that I and my colleagues on this side of aisle would be more than willing to return to S. 2, the reauthorization of this critical elementary and secondary education bill, to debate education, if we would simply have that agreement to limit the amendments not to everything under the sun, not to prescription drugs and a Patients' Bill of Rights and minimum wage and everything else, but to limit that debate to education.

I am not going to allow Members on the other side of the aisle to have it both ways. You claim that we are not dealing with education and then object to agreements to keep education debates on education bills. I suggest you are looking for an issue, not the passage of legislation.

Then on the issue of prescription drugs, my distinguished colleague from Illinois, Senator DURBIN, last week—I had the opportunity to preside as he made this speech, but I want to quote him—said:

> On the other side, they make a proposal which sounds good but just will not work. Under Governor Bush's proposal on prescription drugs, he asserts for 4 years we will let the States handle it. There are fewer than 20 States that have any drug benefits. Illinois is one of them, I might say. His home State of Texas has none. But he says let the States handle it for 4 years. Let them work it out. In my home State of Illinois, I am glad we have it, but it certainly is not a system that one would recommend for the country. Our system of helping to pay for prescription drugs for seniors applies to certain illnesses and certain drugs. If you happen to be an unfortunate person without that kind of coverage and protection, you are on your own.

The PRESIDING OFFICER (Mr. BUNNING). The Senator's time has expired.

Mr. HUTCHINSON. I ask unanimous consent for 5 additional minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HUTCHINSON. I know Senator MCCAIN is waiting. I appreciate very much his graciousness.

The fact is, while Senator DURBIN made that comment, every State does have a Medicaid program that offers prescription drugs today. In addition, they have State employee drug programs already in existence. These programs are separate from the State pharmaceutical assistance programs, of which 25 currently exist. So Senator DURBIN's argument is unfair and unjustified because the money given to the States is not required to be used to only start a new pharmaceutical assistance program.

They can be used to expand the existing Medicaid drug programs. So Governor Bush's helping hand drug plan provides greater assistance to low-income seniors, and provides it now, while Vice President GORE's plan requires an 8-year phase-in for those drug benefits. So I suggest that we are getting a lot of demagogy.

The Patients' Bill of Rights is the final issue I wanted to talk about, but I will reserve that for another time. I will say this, and say it clearly: We have an active conference that has been working, and working hard. We had numerous votes on the Patients' Bill of Rights. We had endless amendments in the committee on the Patients' Bill of Rights. To suggest this isn't a deliberative body, as the Democratic leader suggested last week, is unfair. This issue has been debated, and debated thoroughly. It is the Democrats who stifled the debate by walking out on the conference in the spring. We can still have a Patients' Bill of Rights enacted if we have cooperation. There are two sides to every story, and both should be told. Let's not allow two competing agendas to prevent us from getting our work done on the spending bills. They are too important.

I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. MCCAIN. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

MOTOR VEHICLE AND MOTOR VEHICLE EQUIPMENT DEFECT NOTIFICATION IMPROVEMENT ACT

Mr. MCCAIN. Mr. President, first I want to discuss an issue that is of sometimes importance, the Motor Vehicle and Motor Vehicle Equipment Defect Notification Improvement Act.

Last week, the Commerce Committee reported S. 3059, the Motor Vehicle and Motor Vehicle Equipment Defect Notification Improvement Act. The bill is in response to the systemic failure of the National Highway Traffic Safety Administration and the motor vehicle industry to share information that could have prevented the fatalities that resulted in the recent recall of millions of Bridgestone/Firestone tires.

The key provisions of the bill would insure that NHTSA has the information that it needs from manufacturers to make sound decisions, including information about recalls in foreign countries. This legislation would increase penalties to deter manufacturers from withholding valuable information about recalls and establish appropriate penalties for the most egregious actions that place consumers in danger. It would also require NHTSA to upgrade the Federal motor vehicle safety standard for tires, which has not been updated since its adoption more than 30 years ago.

It is my understanding that a few Members have placed holds on this bill for various reasons—I think there are two—including opposition to the inclusion of criminal penalties for violating motor vehicle safety standards. Clearly, each member is entitled to place a hold on measures to which they object, but I hope that members can understand the importance of acting on the key provisions of this bill before Congress adjourns.

The criminal penalties provision in this bill have been the subject of much discussion. The provision is intended to allow for the assessment of criminal penalties in instances where a manufacturer's conduct is so egregious as to render civil penalties meaningless. An article in this week's Business Week, addresses the application of criminal penalties to such conduct. It reports that ''prosecutors have been waking up to the fact that criminal sanctions may be a more effective deterrent and punishment than the worst civil penalties.'' Furthermore, a criminal penalties provision is not a novel inclusion. Multiple agencies are authorized to assess criminal penalties, including, among others, the Department of Labor, the Consumer Product Safety Commission, and the Environmental Protection Agency.

Already, NHTSA has linked more than 100 deaths to these tire failures.

Last week, NHTSA announced that other models of Bridgestone/Firestone tires may be defective as well. We must act quickly to correct the problems that could lead to further loss of life. As I have repeated throughout the process, I am willing to work with my colleagues to address their concerns so that this vital legislation may be passed prior to the adjournment of this Congress.

In summary, more than 100 people have died. It is clear that we need this legislation. It is supported by the administration and by every consumer group in America. It passed through the Commerce Committee unanimously. I intend to come to the floor and ask that we consider this piece of legislation.

I expect those who are putting a hold on this bill to come forward and give their reasons for putting a hold on this very important safety bill. We are talking about the lives of our citizens. This is a serious issue. That is why I intend to come to the floor again and ask that we move the bill. I hope those Senators who object will come forward and state their objections or remove their so-called holds on the bill.

CONFERENCE REPORT FOR ENERGY AND WATER APPROPRIATIONS FOR FISCAL YEAR 2001

Mr. MCCAIN. Mr. President, this year's energy and water appropriations bill is very critical, particularly at a time when our Nation is facing rising gas and energy prices, national security disasters at federal facilities, and massive backlogs to complete multimillion projects for water infrastructure. That is why I am utterly disappointed that the final agreement for this bill blatantly disregards these national priorities in favor of special interests giveaways.

Mr. President, approving the annual budget is among our most serious responsibilities. We are the trustees of billions of taxpayer dollars, and we should evaluate every spending decision with great deliberation and without prejudice.

Unfortunately, each year, I am constantly amazed how the appropriators find new ways to violate budget policy. Appropriators have employed every sidestepping method in the book to circumvent Senate rules and common budget principles that are supposed to strictly guide the appropriations process. The excessive fodder and trickery have never been greater, resulting in the shameless waste of millions of taxpayer dollars. This final report is no exception.

This year's final agreement for the energy and water appropriations bill is only a minor reflection of the previous Senate-passed bill.

A grand total of $1.2 billion is added in pork-barrel spending, a figure that is three times the amount from the Senate-passed bill and about $400 million more than the amount of last year's total. I have twenty-one pages of pork-barrel spending found in this report.

An additional $214 million is provided for designated ''emergency'' spending.

The latest epidemic here as we approach the appropriations issue, in order to avoid any budget restraints that may be remaining—and there are few—is the designation of ''emergency spending.''

Explicit directives are included for favorable consideration of special interest projects; and more than 30 policy riders are added in to conveniently sidestep a fair and deliberative legislative review.

I rise today to tell my colleagues that I object.

I object to the $1.2 billion in directed earmarks for special interest projects in this bill. I object to sidestepping the legislative process by attaching erroneous riders to an appropriations bill. I object to speeding through appropriations bills without adequate review by all Members. I object to the callous fashion which we disregard our national interests in favor of pet projects.

Some of my colleagues have said that the pork doesn't really matter much in these spending bills because it's not a lot of money. But, Mr. President, adding billions more in pork barrel spending is a lot of money to me and to the millions of American taxpayers who are footing the bill for this spending free-for-all.

While America's attention has been focused on the Olympic games in Sydney, Australia, our constituents back home may be interested to know that a gold medal performance is taking place in their own government. If gold medals were awarded for pork-barrel spending, then the budget negotiators would all be gleaming in gold from their award-winning spending spree.

However, I doubt many Americans would be appreciative if they knew that this spending spree will be at their expense with money that should be set aside to provide tax relief to American families, shore up Social Security and Medicare, or pay down the federal debt.

The figures speak for themselves. Again, this year's grand pork total is close to $400 million more than the amount from last year's bill and more than three times the amount included in the recent Senate passed bill.

Unless I am grievously mistaken, I was under the distinct and very clear understanding that the purpose of Senate-House appropriations conferences are to resolve differences only between the two versions and make tough decisions to determine what stays in the final agreement. As a rule, no new spending could be added.

The rules are flung out the window once again. The overall total budget for this year's conference agreement has been fattened up by as much as $2 billion more than the House bill, and about a billion more than both the amount included in the Senate-passed bill and the amount requested by the administration.

Let me give this to you straight. You have a certain amount passed by the Senate and a certain amount by the House. They are supposed to go to conference and reconcile their differences. Instead of that, we add billions of dollars in conference, and neither Senate nor House Members, nor members of the Appropriations Committee have a voice or a vote. That is disgraceful—disgraceful.

Each year, appropriators employ new spending tricks to avoid sticking to allocations in the budget resolution. It has become quite clear that these closed-door conferences, which no other Member can participate in or have any voting privileges, is simply another opportunity for members to take another trip to the trough to add in millions previously unconsidered for individual member projects.

What was described earlier in the Senate this year as a ''modest'' bill has now become a largesse take-home prize for many Members. Numerous earmarks are provided for such projects that, while on its own merit may not be objectionable, were not included in the budget request or tacked on without any review by either the Senate or the House.

For example, within this final agreement, nearly 250 earmarks are added for individual Army Corps projects which are clearly not included in the budget request, and, more than 150 Army Corps projects were given additional amounts about the budget request.

The inconsistency between the administration's request, which is responsible for carrying out these projects, and the views of the appropriators on just how much funding should be dedicated to a project, is troubling. As a result, various other projects that may be equally deserving or higher in priority do not receive an appropriate amount of funding, or none at all.

This year's budget for Army Corps has been inflated to $4.5 billion in funding for local projects. Yet, we have no way of knowing whether, at best, all or part of this $4.5 billion should have been spent on different projects with greater national need or, at worst, should not have been spent at all. There's no doubt we should end the practice of earmarking projects for funding based on political clout and focus our resources in a more practical way, instead, on those areas with the greatest need nation-wide.

Other earmarks are rampant in this bill that appear that are clearly demonstrative of wasteful spending at the expense of taxpayers:

An earmark of $20 million was added in during conference, without previous

consideration by either the House or Senate, for an unauthorized project in California, the CALFED Bay-Delta restoration project. Certainly, I have no objections to restoring the ecological health of the Bay Delta area, however, any amount of funding for unauthorized projects flies in the face of comments by the managers who pledged not to fund unauthorized projects.

Also, $400,000 is earmarked for aquatic weed control in Lake Champlain, Vermont. This particular earmark has resurfaced in appropriations bills for at least the past three years and it appears a bit preposterous that we continually fund a project such as this on an annual basis which has nebulous impacts on our nation's energy and security needs.

An earmark of $800,000 is provided to continue work on ''a detailed project report'' for a project in Buchanan County, Virginia. Government spending is truly getting out of control if nearly a million dollars is necessary simply to compile a report.

Another earmark of $250,000 is included for a 'study' of drainage problems in the Winchester, Kentucky area. Granted, I do not object to trying to fix any water problems facing any local community, but is a quarter of a million really necessary to only study the problem and not fix it?

More padded spending includes $150,000 to determine what the ''federal interest'' is for a project in southeastern Pennsylvania. Why is $150,000 necessary to determine if the federal government should care about a specific project? Dozens of earmarks like this one, in the hundreds of thousands each, are riddled throughout this conference report without any explanation as to why such high amounts of funding are justifiable.

Among the worst pork in this bill are earmarks that will benefit the ethanol industry, a fiscal boondoggle industry that already reaps substantial benefits from existing federal subsidies at the expense of taxpayers. It is a blatant insult to taxpayers to ask them to supplement the ethanol industry even more by spending $600,000 for ethanol production at the University of Louisville, and $2,000,000 for the design and construction of a demonstration facility for regional biomass ethanol manufacturing in southeast Alaska.

My colleagues will note that each of these earmarks have a specific geographic location or institution associated with them. Is there another organization besides the one proposed in southeast Alaska that could design and construct a demonstration facility for regional biomass ethanol manufacturing?

A similar earmark of $2 million is included for this specific Alaskan ethanol manufacturing facility in the Interior appropriations bill this year. So they have $4 million for one specific spot without any authorization and without any discussion.

There is $4.5 million for the removal of aquatic growth in Florida, which is about $1.2 million higher than the budget request;

An additional $250,000 for the Texas Investigations Program, for which no explanation is provided as to what constitutes an ''investigations'' program;

$2,000,000 for the multi-year demonstration of an underground mining locomotive and an earth loader powered by hydrogen in Nevada;

And, $3,000,000 to establish a program the University of Nevada-Las Vegas for Department-wide management of electronic records.

Get this, all of my colleageus who have a college or university in their State: $3 million at the University of Nevada Las Vegas for department-wide management of electronic records;

$2,000,000 for the Discovery Science Center in Orange County, California;

$2,000,000 for the Livingston Digital Millennium Center at Tulane University; and

$2,000,000 for modernization upgrades at the University of South Carolina.

How are any of these earmarks directly related to the national security and energy interests of our nation?

Also, the tactic of using the ''emergency funding'' stigma returns strongly in this bill. I am very disappointed to see that the Appalachian Regional Commission will not only be funded again this year, but it is also the recipient of an ''emergency appropriation'' of $11 million.

My dear friends, the Appalachian Commission was established as a temporary commission in 1965. Somehow this year it needs to be the recipient of $11 million for ''emergency appropriations.'' My curiosity is aroused as to what the emergency is at the Appalachian Regional Commission. This commission was established as a temporary commission in 1965, but has managed to hook itself into the annual appropriations spending spree to extend its so-called temporary life to 35 years. This program singles out one region for special economic development grants when the rest of the nation has to rely on their share of community development block grant and loans.

Certainly, the Appalachian region does not have a monopoly on poor, depressed communities in need of assistance. I know that in my own state, despite the high standard of living enjoyed in many areas, some communities are extremely poor and have long been without running water or sanitation. It would be more cost-beneficial to provide direct assistance to impacted communities, again based on national priority, rather than spending millions each year for a commission which may have outlived its purpose.

Again, I remind my colleagues that I do not object to these projects based on their merit nor do I intend to belittle the importance of specific projects to local communities. However, it is no surprise that many of these earmarks are included for political glamour rather than practical purposes. Members can go back to their districts to rally in public parades, trying to win favor by bringing home the bacon.

The House of Representatives passed this conference report last Friday by a majority margin, despite the fact that most of the voting Members did not have adequate time, if any at all, to review the contents of this report. This is another appalling demonstration to the American public of the egregious violation of one of our most sacred duties—ensuring the proper use of taxpayer dollars. How can we make sound policy and budget decisions with this type of budget steam-rolling?

I know I speak for many hardworking Americans when I express my hope for reform in the way the Congress conducts the business of the people so that we might reclaim the faith and confidence of those we are sworn to serve. Yet, we are mired in another yearly ritual of budget chaos. Sadly, the only message that we send to the American public is that our budgetary process is at an all-time low.

Unfortunately, this may be only a foreboding of what is to come at this end of year final budget negotiations. The end-of-year rush to complete the fiscal year 2001 budget is outpaced only by the rush to drain the taxpayers' pockets and deplete the budget surplus.

At the end of the day, special interests win and the taxpayers lose. It's a broken record that the American people are tired of listening to.

I will vote against this bill and any other appropriations bill that so flagrantly disregards our fiscal responsibility and violates the trust of the American people.

Today's Wall Street Journal article by David Rogers is a very enlightening one, in case some of my colleagues and friends have not read it.

In the scramble to wrap up budget negotiations, Congress could overshoot the Republicans' spending target for this fiscal year by $35 billion to $45 billion.

The willingness to spend reflects a new synergy between President Clinton, eager to cement his legacy, and the GOP leadership, increasingly worried about losing seats in November and more disposed to use government dollars to shore up candidates. While the largest increases are in areas popular with voters—education, medical and science research, land conservation, veterans' care and the military—the bargaining invites pork-barrel politics on a grand scale, with top Republicans leading the way.

Just this weekend, for example, a bidding war escalated over highway and transit projects that are part of the transportation budget to be negotiated this week. House Speaker Dennis Hastert of Illinois opened the door by asking to add legislative language to expedite the distribution of about $850 million for Chicago-area transit projects. While the Hastert amendment

wouldn't add directly to next year's costs, it became an excuse for others to pile on.

The Virginia delegation jumped in early, winning the promise of $600 million to help pay for a bridge over the Potomac River. By late Friday night, dozens of projects for both political parties were being added. House Transportation Committee Chairman Bud Shuster laid claim to millions for his home state of Pennsylvania. Mississippi, home of Senate Majority Leader Trent Lott, is in the running for funds in the range of $100 million. In all, the price tag for the extras tops $1.6 billion.

The whole enterprise, which could yet collapse under its own weight, dramatizes a breakdown in discipline in these last weeks before the November elections. In the spring, the GOP set a spending cap of $600 billion for the fiscal year that began yesterday—a number that was never considered realistic politically.

After devoting long summer nights to debating cuts from Mr. Clinton's $626 billion budget, Republicans will end up appropriating significantly more than that. If total appropriations rise to between $635 billion and $645 billion or even higher, as the numbers indicate, the ripple effect will pare surplus estimates by hundreds of billions of dollars over the next 10 years.

I cannot overemphasize the importance of this. We have the rosy scenario of a multitrillion dollar surplus in the years ahead, and if we keep spending this kind of money, everybody knows that the surplus will disappear. There is an open and honest debate as to whether we should have tax cuts or whether we should save Social Security, Medicare, or pay down the debt. We are not going to be able to do any of it if we are spending this kind of money. I was told by a Member not long ago that if we agree to what is presently the overspending in this budget, it could mean as much as $430 billion out of the surplus in the next few years.

Both an $18.9 billion natural-resources bill and a $23.6 billion measure that funds energy and water programs are expected to be sent to the White House, and the transportation bill soon could follow. The Republican leadership believes it has reached a compromise to free up the measure funding the Treasury and the operations of the White House and Capitol.

That still leaves the heart of the domestic budget—massive bills funding education, health, housing and environmental programs. Negotiations on those bills are hovering near or even above the president's spending requests.

The natural-resources bill agreed to last week illustrates the steady cost escalation: The $18.9 billion price tag is about $4 billion over the bill passed by the House in June.

In a landmark commitment to conservation, the legislation would devote as much as $12 billion during the next six years, mainly to buy lands and wildlife habitat threatened by development. As the annual commitment grows from $1.6 billion to $2.4 billion in 2006, more and more dollars would go for sorely needed maintenance work in the nation's parks.

Regarding the national parks, that is something with which I don't disagree.

I have suggested from time to time when my colleagues say there is nothing we can do because the President has the leverage over us in order to shut down the Government for which we would get the blame, if just once, with one appropriations bill, just one, we could send to the President a bill that doesn't have a single earmark, have a single legislative rider on it, then we would go into negotiations of the issue with the President with clean hands. When we add billions in pork barrel spending on our appropriations bills and then go into negotiations with the President, there is no difference except in priorities. It is wrong.

I have been spending a lot of time campaigning around the country for candidates for the House and for the Senate, and for our candidate for President, my party's candidate for President and Vice President of the United States. I can tell my colleagues, clearly the American people have it figured out. They don't like it. They want this practice to stop. They want us to fulfill a promise we made in 1994 when we asked them and they gave us the majorities in both Houses of Congress.

Mr. President, this appropriations pork barreling has got to stop. I intend to come to the floor with every bill, and if it keeps on, I will then take additional measures. We all know what is coming up: The train wreck. If it is as much as $45 billion more then our original $600 billion spending cap, I am not sure how such action is justified.

I yield the floor.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business is closed.

NATIONAL ENERGY SECURITY ACT OF 2000—MOTION TO PROCEED—Resumed

The PRESIDING OFFICER. The clerk will report the motion to proceed.

The assistant legislative clerk read as follows:

A bill (S. 2557) to protect the energy security of the United States and decrease America's dependence on the foreign oil source to 50 percent by the year 2010 by enhancing the use of renewable energy resources, conserving energy resources, improving energy efficiencies, and increasing domestic energy supplies, mitigating the effect of increases in energy prices on the American consumer, including the poor and the elderly, and for other purposes.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. CRAIG. Has there been a time agreement on the legislation just proposed?

The PRESIDING OFFICER. We have until 5:30 when we have a scheduled vote on another matter.

Mr. CRAIG. Mr. President, I will consume up to 15 minutes of time in relation to the energy issue.

The PRESIDING OFFICER. The Senator is recognized.

Mr. CRAIG. Mr. President, I came to the floor to speak on this important issue before the Senate and to talk once again to my colleagues about what I believe to be the dark cloud of a national emergency. The American consumer has begun to detect a problem because the price of gasoline at the pump has gone up 25 or 30 percent in the last year. When they begin to pay their home heating bills this winter, I think they will recognize where the problem lies.

We have had the President and the Vice President trying to position themselves politically over the last month and a half on energy because of the spike in prices, but frankly they have articulated little. Now just in the last week we have had the Vice President present an energy policy for the country, and we have had Governor George Bush talking about an energy policy that he would propose.

Here is why these things are happening. Finally, I hope, the American people are beginning to focus on the very critical state of the availability of energy in this country, to run the economy, to make the country work, turn the lights on, move our cars, and do all that it takes to run an economy based on a heavy use of energy.

We are now importing between 56 to 58 percent of our crude oil needs. Some will remember that during the era of the oil embargo of the mid-1970s we were only importing 35 percent of our needs. Even at that time there were gas lines and fighting at the gas pumps because American consumers were frustrated over the cost of gas. What I am saying, America, is we no longer control our energy availability, our energy supplies, our energy needs.

Is it any wonder why prices have more than tripled in the last 2 years from a low of about $11 per barrel of crude oil to a high late last month of $38? The reason is somebody else is setting the price by creating either a scarcity of supply or by the appearance that there would be a scarcity of supply. It is not American producers controlling prices and supply, it is foreign producer countries.

The items we do control in the marketplace are demand and supplies we might be able to produce from our own resources. Natural was selling for $2 per 1,000 cubic feet last year, just a year ago, and on Friday of last week natural gas was selling for $5.20 for every 1,000 cubic feet. That is better than a doubling of that price.

As winter approaches, Americans likely will face the highest energy prices ever. Let me say that again. As the winter approaches, Americans are going to awaken to the highest energy prices they have ever paid. If the winter is colder than usual, energy prices will be even higher.

Electricity prices will move right along with gas and oil because many of the electrical-generating facilities of our country are fueled by natural gas. While petroleum and natural gas supplies appear to be adequate, no one can doubt that the supply and demand for crude oil, natural gas, and other energy sources is very tight, resulting in increased prices for these commodities. While many observers believe supplies of oil and natural gas will be sufficient to meet our needs in the coming months, I am concerned these important resources will likely remain in very short supply and, therefore, will be very costly to the American consumer.

I believe, and I mean this most sincerely, as a member of the Senate Energy Committee who for the last 10 years has tried to move policy and has seen this administration either say ''no'' by the veto or ''no'' by the budget, I sincerely believe the Clinton-Gore administration, by its failure to produce a national energy policy, is risking a slowdown, perhaps even a downturn, in this economy.

Some expect energy prices to remain high throughout the first quarter of 2001, above $30 a barrel for oil and as high as $4 per thousand cubic feet for natural gas. If this is true and that cost ripples through the economy, then they—and by ''they'' I mean the Clinton administration—are truly risking a slowdown in the economy. This means Americans will be paying more than $1.50 per gallon of gas and perhaps twice as much as they paid for residential natural gas use last year. Driving, heating homes, providing services and manufacturing goods will be much, much more expensive under this new high-cost energy economy.

It is not only the price at the pump you worry about anymore; it is the plastics; it is the supply of goods; it is everything within our economy that is made of the hydrocarbons that will go up in price. Since energy costs are factored into the cost of all goods and services, we can expect food, appliances, clothing—essentially everything—to become more expensive. As these costs rise, the amount of capital available for investment automatically begins to decline, pulling the economy down along with it. As we devote more of our money to the daily need for energy, we have less to spend on the goods and services that we need, the goods and services that have fired our economy. As budgets shrink, consumers will be forced to make hard choices. If we have to spend 10 or 15 percent more of our income to fill up the tank or to buy the services and goods that are energy intensive, then, of course, we will have less money to spend elsewhere.

We are in this undesirable position not because we are short on energy resources such as oil, natural gas, or coal; we are here because this administration, in my opinion, has deliberately tried to drive us away from these energy sources. Look at their budgets and look at their policy over the last 8 years. AL GORE himself has spoken openly about how much he hates fossil fuels, how he wants to force the U.S. off fossil fuels no matter the cost. He has proposed many times to do so. Twice in the last 8 years the Clinton-Gore administration has tried to drive up the cost of conventional fuels. Isn't that interesting? Just in the last few weeks they have been trying to drive down the costs by releasing crude oil from the Strategic Petroleum Reserve into our market, but for the last 8 years it has been quite the opposite. America, are you listening? Are you observing? Why this change of heart? Why this change of personality?

First, Clinton and GORE proposed a Btu tax, which the Republican Congress defeated. They had to settle for a 4.3-cent gas tax. The Republicans in every way tried to resolve that and to eliminate it, but that was how they spread it into the market. They took that and said: We are not going to use it for highway transportation as we have historically done. We want it for deficit reduction.

During debate on the Btu tax, the administration admitted that its intent was to encourage conservation, or discourage use, and therefore cause us to move more toward renewable energy sources by dramatically increasing the cost of conventional fuels. In other words, tax America away from gasoline and oil.

Next, the Clinton-Gore administration designed the Kyoto Protocol. We all know about that. That is the great international agreement that will cool the country, cool the world down because the Administration asserts that the world is warming due to the use of fossil fuels. They said it is necessary that we do it, critically important that we do it. But if implemented, it would substantially penalize the nations that use fossil fuels by forcing reductions in fossil fuel usage. The Vice President has publicly taken credit for negotiating this document.

I don't think you hear him talking much about it today. He is a bit of a born-again gas and oil user of in last couple of weeks. But clearly for the last 8 years that is all he has talked about, his Kyoto Protocol, penalizing the user nations to try to get them to use less energy, all in the name of the environment. The protocol could result in a cost of nearly $240 per ton of carbon emissions reduction.

What does that mean to the average consumer out there who might be listening? This results in a higher cost of oil and gas and coal. What would it mean? About a 4-percent reduction in the gross domestic product of this country. If we raise the cost of those three items—oil, gas, and coal then we will drive down the economy 4-percent. Simply translated, that means thousands and thousands of U.S. jobs would be lost and our strong economy weakened. Yet the Vice President takes credit for flying to Tokyo and getting directly involved in the negotiations of the Kyoto Protocol. This is AL GORE's document. Yet he talks very little bit about it today.

Why is this administration so wholeheartedly committed to forcing us to stop using fossil fuels at almost any cost? Because they buy into the notion that our economic success has been at the expense of the world's environment. I do not buy into that argument. I think quite the opposite is true. I believe our success has benefited the world. Our technology is the technology that the rest of the world wants today to clean up their environment, to make their air cleaner, to make their water more pure. It is not in spite of us; it is because of us that the world has an opportunity today, through the use of our technology, to make the world a cleaner place to live.

The challenge now is to ensure we go on in the production of these technologies through the growth and the strength of our economy so we can pass these technologies through to developing nations so they can use them, whether it be for their energy resources or whether it is simply to create greater levels of efficiency, and a cleaner economy for their people.

The message to Vice President GORE is don't shut us down. Let us work. Let us develop. Let us use the technologies we have and expand upon them. You don't do that through the absence of energy. You don't do that with 2,300 windmills spread across the Rocky Mountain front. You do that by the use of what you have, to be used wisely and hopefully efficiently at the least cost to provide the greatest amount of energy that you can to the economy.

To ensure that we all succeed, we must pay attention to our strengths. The United States has an abundant supply of oil, natural gas, and coal, and we must, if we wish to have an influence on the price of these commodities, develop our own resources in an intelligent, responsible, and environmentally sound way.

Were we to produce oil from the Arctic National Wildlife Refuge, we could produce up to 1.5 million barrels of oil a day. Some say that will destroy the refuge. Envision the refuge in your mind as a spot on a map, and compare it to putting a pencil point down on the map of the United States. The impact of that pencil point on the map of the United States is the same impact as drilling for oil in the Arctic National Wildlife Refuge.

Shame on you, Mr. President, for vetoing that legislation a few years ago. If you had not, we might have 1.5

million barrels of additional crude oil a day flowing into our markets for 30-some years. We would not have to beg at the throne of OPEC. We would not have to go to them with our tin cup, saying: Would you please give us a little more oil? Your high prices are hurting our economy.

The President was not listening in 1995 when he vetoed that legislation. Other oil and gas resources can come from production from the Federal Outer Continental Shelf and from onshore Federal lands in the Rocky Mountain front. The abundance of our crude oil and the abundance of our gas is phenomenal. Yet, a year ago, in the northeastern part of the United States in New Hampshire, AL GORE, now a candidate for President of the United States, said he would stop all drilling. He does not want us to drill anywhere, and he would do it in the name of the environment.

These resources can be obtained today, under the new technologies we have, with little to no environmental impact. When we have finished, if any damage has occurred, we clean it up, we rehabilitate it, and the footprint that was made at the time of development is hardly noticeable. That is what we can do today.

There is no question that the road to less reliance on oil, natural gas, and coal is a responsible one, but it is a long one. You do not shut it off overnight without damaging an economy and frustrating a people.

We have these resources, and they are in abundance. We ought to be producing them at relatively inexpensive cost to the American consumer while we are investing in better photovoltaic and solar technologies and biomass, wind, and all of the other things that can help in the total package for energy.

The problem is simply this: This administration stopped us from producing additional energy supplies at a time of unprecedented growth in our economy. Of course, that economy has been based on the abundance and relatively low costs of energy.

Creating punitive regulatory demands, such as the Btu tax and the Kyoto Protocol, is not the way to go if you want an economy to prosper and you want the opportunities of that economy to be affordable and benefit all of our citizens. Such policies create—the policies of which I have spoken, Btu tax and Kyoto Protocol—winners and losers. The great tragedy is that the American consumer ultimately becomes the loser.

The path to stable energy prices is through a free market that rewards efficiency and productivity and does not punish economies for favoring one form of energy over another. The American consumer will make that decision ultimately if he or she has an adequate number of choices in the marketplace.

The Vice President, in his recent speech on energy, simply repeated the tired, old rhetoric of the Carter administration and every Democrat candidate in past presidential elections. Each placed reliance on solar, wind, and other renewables and on energy conservation—all admirable goals that Presidents Reagan and Bush also encouraged, but Presidents Reagan and Bush supported renewables with the clear understanding that renewables could not be relied upon to replace fossil-fuel-fired electrical generating capacity that currently supplies our baseload of electricity. And that baseload demand will continue to rise as our economy grows.

Presidents Reagan and Bush also recognized that somehow the automobile was not just going to disappear overnight and that it was not going to be replaced by electric cars within the near future. They understood that. They rewarded production and encouraged production. For 8 years now, domestic oil and gas production has been discouraged and restricted, and the American consumer is paying the price at the pump. This winter the American consumer will also pay a dramatic price as their furnaces turn on.

Can it be turned around overnight? Absolutely not. We must begin to invest in the business of producing, whether it be electricity or whether it be oil from domestic reserves or gas. It is there. It awaits us. We simply have to reward the marketplace, and the marketplace will produce. We cannot continue to squeeze it, penalize it, and refuse access to the supplies the American consumer needs.

It is a simple message but a complicated one, especially complicated by an administration that says: No, no, no, let the wind and the Sun make up the difference. Probably not in my lifetime or in the lifetime of any of the youngest people listening today can and will that be possible. But a combination of all of those elements of energy coming together—hydro, nuclear, or the production of crude oil and gas from our own reserves, supplies from abroad, and renewables and conservation—will be necessary to carry us through a crisis that clearly could spell a major hit to our economy.

Mr. President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. THOMAS. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Ms. COLLINS). Without objection, it is so ordered.

Mr. THOMAS. I understand the order of business is the energy bill.

The PRESIDING OFFICER. The Senator is correct. We are on the motion to proceed.

Mr. THOMAS. I thank the Chair.

As I have said before, energy is terribly important to all of us. It is particularly important to those of us who come from producer States. But perhaps if you come from a part of the country where there is no production and the cost continues to go up, you are even more concerned. In New England, that is pretty much the case.

In any event, we do have a problem in energy and we have to find solutions. We have two very different points of view in terms of what our needs are and how we meet them.

Many wonder, of course, why gas and diesel prices are so high. Heating oil will be very expensive. I come from a production State, and it wasn't long ago that oil in our oil fields was bringing less than $10 a barrel. Now, of course, in the world price, we are up in the thirties. Part of that, of course—I think the major part—is that we have relatively little impact on the price. We have allowed ourselves, over a period of time, to become dependent upon importation of oil. We have not had, in my view, an energy policy. We have had 8 years of an administration that really has not wanted to deal with the idea of having a policy in terms of where we are going.

I have become more and more convinced—it is not a brand new idea, but I think it doesn't often get applied—that we have to set policies and goals for where we need to be over a period of time. And then, as we work toward that, we can measure the various things we do with respect to attaining that goal. If our goal is—and I think it should be—that we become less dependent upon imported oil, then we have to make some arrangements to be there. That has not been the case.

This administration, on the other hand, has basically gone the other way and has indicated that we ought to reduce our domestic production. In fact, our consumption requirements have gone up substantially over the last couple of years—about 14 percent. During the same period of time, domestic production has gone down approximately 17 percent.

In 1990, U.S. jobs in exploring and producing oil and gas were about 400,000 or 500,000 people. In 1999, the number of people doing the same thing was about 293,000—a 27-percent decline.

Why is this? Part of it is because we haven't really had this goal of how we were going to meet our energy demands and then measure some of the things that have brought us to where we are. On the contrary, the policy pursued from this administration has been one that has made domestic production even more difficult than it was in the beginning—and more difficult than it needs to be, as a matter of fact.

So I guess you can talk about releasing oil from our strategic storage. I don't make as big a thing out of it as

some, but that is not a long-term answer. It is a relatively small amount of oil compared to our usage—about a day and a half's usage—and it is not going to make a big difference in terms and no difference to where we are in being able to have domestic production in the future. I set that aside. I only warn that that can't be offered as a solution to the energy problem. That seems to be about all this administration is prepared to do.

On the contrary, going back over some time, in 1993 the first Btu tax increased the cost of a gallon of gas about 8 cents. The compromise was about 3 cents, with the Vice President casting the deciding vote. Now, of course, the effort is to manipulate the price of the storage oil, but it won't do that. As I said, it is only about 1 and a half day's supply.

We find our refineries now producing at about 95-percent capacity, partly because of some of the restrictions placed on these facilities. Some have gone out of business, and practically none has been built. We find natural gas, of course, becoming increasingly important. Fifty percent of U.S. homes and 56 million people rely on natural gas for heating. It provides 15 percent of our power. It will provide more in that this administration has also moved basically against the use of coal, which is our largest producer of electric energy, instead of finding ways to make coal more acceptable. The coal industry has been working hard on that. We have low-sulfur coal in my State. This administration has pushed against that, and we have therefore had less use than we had before.

So what do we do? I think certainly there are a number of things we can do. There does need to be a policy. A policy is being talked about by George Bush, which is supported generally here in the Senate—that would be No. 1—to help low-income households with their energy bills and put some more money in as a short-term solution to help with the low-income energy assistance program. We can do that. We can direct a portion of all the gas royalty payments to that program and offset some of the costs over time. We are always going to have the need, it seems to me, regardless of the price, for low-income assistance. We can do that. And we can establish a Northeast management home heating reserve to make sure home heating is available for the Northeast. We should use the Strategic Petroleum Reserve only in times of real crises—not price, but crises such as the wars of several years ago.

We need to make energy security a priority of U.S. foreign policy. We can do a great deal with Canada and Mexico. It seems we ought to be able to exercise a little more influence with the Middle East. Certainly, we have had a lot to do with those countries in the past—being helpful there. I think we can make more of an impact in Venezuela than we have. I think we can support meetings of the G–8 energy ministers, or their equivalent, more often.

Maybe most importantly, we have lots of resources domestically, and instead of making them more difficult to reach, we ought to make it easier. I come from a State that is 50-percent owned by the Federal Government. Of course, there are places such as Yellowstone Park and Teton Park where you are never going to do minerals and should not. Much of that land is Bureau of Land Management land that is not set aside for any particular purpose. It was there when the homestead stopped and was simply residual and became public land. It is more multiple use. We can protect the environment and continue to use it—whether it is for hiking, hunting, grazing, or whether indeed for mineral exploration and production, as we now do.

This administration has made it difficult to do that. We can improve the regulatory process. I not only serve on the Energy Committee, but on the Environment and Public Works Committee. Constantly we are faced with new regulations that make it more difficult, particularly for small refineries, to live within the rules. Many times they just give it up and close those. We can change that. It depends on what we want to do with the policy. It depends on our goals and what we want to do with domestic production and whether or not these kinds of things contribute to the attainment of those goals. It is pretty clear that they don't.

I think we can find ways to establish clear rules to have some nuclear plants that are safe, so they indeed can operate. They are very efficient. We talk about the environment. They are friendly to the environment. We need to do something. Of course, if we are going to do that, as they do in France and the Scandinavian countries, we can recycle the waste, or at least after a number of years we can have a waste storage at Yucca Mountain, NV. This administration has resisted that entirely, as have many Members on the other side of the aisle.

So these are all things that could be done and are being talked about. We are talking about breaching dams. I think everybody wants to look for alternative sources. We ought to use wind and solar. But the fact is that those really generate now about 2 percent of the total usage that we have. Maybe they will do more one of these days. I hope they do. We have some of that in my State as well. As a matter of fact, my business built a building about 20 years ago, and we fixed it up with solar power. I have to admit it didn't work very well. It works better now, and we can continue to make it work better, but it is not the short-term answer to our energy problems.

We can do something with ANWR. I have gone up to the North Slope of Alaska. You can see how they do the very careful extraction. You have to get the caribou out of the way. But you can see what is going on. That can be done. I am confident it can be done.

Those are some of the things that are suggested and which I think ought to have real consideration. It is difficult sometimes to try to reconcile environmental issues. I don't know of anyone who doesn't want to do that. Environmental protection has to be considered, but it doesn't mean you have to do away with access.

Quite frankly, one of the real problems we have in some States is how to use open spaces. We are doing something in my State about protecting the environment and protecting public land. Too many people say you just shouldn't use it for anything at all. When some States, such as Nevada and others, are up as high as 85 percent in Federal ownership, I can tell you it is impossible to have an economy in those States and take that attitude. On the other hand, I am persuaded that we can have reasonable kinds of programs that allow multiple use and at the same time protect the future use of those lands. It seems to me those are the kinds of things we ought to be doing.

It is very difficult. It is certainly easy to set energy policy back, particularly when the price has gone up as it has. I think all of us remember a year or so ago when the price at the gas pump was down as low as 86 cents a gallon. Now in my State it is as high as $1.60. You think about it a lot more when it is $1.60 than when it is 86 cents. We didn't complain much about the producers then. But now we are pretty critical. We need a policy.

That is the opportunity we have in this Congress—to really establish some of the byways and roadways to help us achieve a reduction on our dependency on foreign oil. We need to move toward changes in consumption and in the way we travel. I have no objection to that. The fact is, that is going to take time. The economy, the prosperity, and the security of this country depends a great deal on an ample and available energy source. It requires an energy policy. It requires the administration to step up to the plate and work with this Congress to continue to work to establish an energy policy.

That is our task. That is our challenge. I think it is a necessary movement in order to continue to have freedom and economic prosperity.

I yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DASCHLE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. HUTCHISON). Without objection, it is so ordered.

ENERGY AND WATER DEVELOPMENT APPROPRIATIONS ACT, 2001—CONFERENCE REPORT

Mr. DASCHLE. Madam President, we are about to cast a vote at 5:30. I think in many ways this is a very difficult situation. I come to the floor this afternoon expressing my gratitude to the distinguished chair of the Energy and Water Subcommittee and certainly to the ranking member, the Senator from Nevada, our extraordinary assistant Democratic leader, for the great work they have done in responding to many of the issues and concerns that our colleagues have raised. I think in large measure it is a very balanced bill.

Unfortunately, we were unable to resolve what is a very significant matter relating to the Missouri River and the precedent that it sets for all rivers. The Corps of Engineers must, from time to time, update the master manual for the rivers that it manages. Unfortunately, some of our colleagues on the other side of the aisle have indicated that they were unwilling to compromise with regard to finding a way they could address their concerns without calling a complete halt to a multiyear process that has been underway to revise and update a master manual that is now over 40 years old. That is the issue: a manual that affects thousands of miles of river, hundreds of thousands, if not billions, of dollars of revenue generated from hydroelectric power, navigation, irrigation, municipal water, and bank stabilization.

There is perhaps no more complicated management challenge than the one affecting the Missouri and, for that matter, the Mississippi Rivers.

So our challenge has been to address the concerns of the two Senators from Missouri in a way that recognizes their legitimate questions regarding the Corps' intent on management, and also to recognize that there are stretches of the river both affecting the Mississippi in downstream States as well as all of the upstream States that also must be addressed, that also have to be worked out, that have to be recognized and achieved in some way.

We have gone to our distinguished colleagues on the other side on a number of occasions indicating a willingness to compromise, indicating a willingness to sit down to try to find a way to resolve this matter. I must say, we have been rebuffed at every one of those efforts. So we are left today with no choice.

What I hope will happen is that we can vote in opposition to the bill in numbers sufficient enough to indicate our ability to sustain a veto; the President will then veto this legislation, as he has now noted publicly and privately on several occasions; and that we come down together to the White House, or anywhere else, work out a compromise, work out some suitable solution that accommodates the Senators from Missouri as well as all other Senators on the river. That is all we are asking.

It is unfortunate that it has to come to this, to a veto. I warned that it would if we were not able to resolve it. I am disappointed we are now at a point where that appears to be the only option available to us.

Before he came to the floor, I publicly commended the chair of the Energy and Water Subcommittee for his work. And I will say so privately to my colleagues that what he has done and what the ranking member has done is laudable and ought to be supported. But the overriding concern is a concern that has been addressed now on several occasions. It was my hope that it was a concern that could have been addressed in a way that would have avoided the need for a veto. Unfortunately, that is not the case. So we are left with no choice, Madam President. I regret that fact.

I hope that my colleagues will understand that this legislation is important. I hope after the veto, after it is sustained—if that is required—we can go back, get to work, and find the compromise that I have been seeking now for weeks, and find a way with which to move this legislation along.

I yield the floor.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Could I make a parliamentary inquiry?

Are we scheduled by unanimous consent to vote at 5:30 on the conference report?

The PRESIDING OFFICER. The Senator is correct.

Mr. DASCHLE. Madam President, will the Senator from New Mexico yield?

Mr. DOMENICI. I am pleased to yield.

Mr. DASCHLE. As I understand it, the senior Senator from Montana would like a minute or two to talk on this subject. Perhaps it would be better for him to do it now, and then you could close the debate, if that would be appropriate.

Mr. DOMENICI. I was just going to ask. I saw him on the floor and he mentioned he might want to speak. I need about 6 minutes, so could you take the intervening time before the 6 minutes?

Mr. BAUCUS. I say to my colleague, I need only 5 or 6 minutes.

Mr. DOMENICI. I only need about 6 minutes. I will yield the rest to the Senator.

Mr. BAUCUS. I inquire of the minority leader and the Senator from New Mexico if we could get perhaps an extra 5 minutes before the vote.

Mr. DASCHLE. Madam President, it appears we have 10 minutes remaining before the vote.

I ask unanimous consent that the vote occur at 5:32 and the time be equally divided.

Mr. DOMENICI. Thank you.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The Senator from Montana is recognized.

Mr. BAUCUS. Madam President, I strongly urge my colleagues to vote against adoption of the Conference Report for the Energy and Water Appropriations. Section 103 is an anti-environmental rider that prevents the sound management of the Missouri River.

As my colleagues will recall, during Senate consideration of this bill last month, Senator DASCHLE and I proposed to delete this provision. Unfortunately we were not successful.

Now, rather than attempting to work out a compromise, the conferees have included the very same language in the conference report before us tonight.

I will not repeat all of the arguments made in the earlier debate about why this amendment is bad for the river and the people of my state. The important point is, nothing has changed from that debate and the need to remove this rider remains as true today as it did then.

First, the Army Corps of Engineers is managing the Missouri River on the basis of a master manual that was written in 1960 and hasn't changed much since then.

Today, conditions are much different. Priorities are different.

Under the current master manual—40 years old—water levels in Ft. Peck lake are often drawn down in the summer months, largely to support barge traffic downstream, which is an industry that is dying and, according to the Corps' own analysis, has much less economic value than the recreation value upstream.

These drawdowns have occurred time and time again. Their effect is devastating: Moving ramps to put boats in the lake a mile away, severely curtail boating and fishing that are enjoyed by thousands of Montanans and tourists alike. They also reduce the numbers of walleye, sturgeon, and other fish.

The drawdowns are the big reason why eastern Montana has been getting an economic raw deal for years. More balanced management of the Missouri River, which takes better account of upstream economic benefits, is absolutely critical to reviving the economy in that part of our State.

Now there has been some talk that the proposed split season will affect hydropower production. While detailed studies are not yet complete, in fact, the Corps estimates that the split season will have ''essentially no impact to the total hydropower benefits.'' So there really should be no doubt. The split season is a better deal for Montana. It is a better deal for the whole river.

Of course, this rider is about more than just Ft. Peck.

It also prevents the Corps of Engineers from obeying the law of the land. Specifically, the Endangered Species Act.

If we create a loophole here, there will be pressure to create another loophole somewhere else. And then another. Before you know it, the law will be shredded into tatters.

We all know the Endangered Species Act is not perfect. I believe we need to reform it so it will work better for landowners and for species.

We are working hard to pass returns, but those reforms haven't passed. So the Endangered Species Act remains the law of the land, and we have to respect it. And so should the Corps.

Forget about the species for a minute. Think about basic fairness. We require private landowners to comply with the Endangered Species Act.

Why should the Federal Government get a free pass?

The answer is, they should not. The Army Corps of Engineers should be held to the same standard as everybody else, and the Corps agrees.

We have a public process in place, to carefully revise the master manual. It's been underway for 10 years.

Now, at the last minute, when the end is in sight, a rider in an appropriations bill would derail the process by taking one of the alternatives right off the table.

That's not fair. It's not right. It's not the way we ought to make this decision.

Instead, we should give the open process that we began ten years ago a chance to work.

We should give people an opportunity to comment on the biological opinion and the environmental impact statement.

So the final decision will not be made in a vacuum.

But this rider makes a mockery of that process. The rider allows for an extensive period for public comment. But then it prohibits the public agencies from acting on those comments.

A better way is to allow the agencies and the affected parties to continue to work together to strike a balance to manage this mighty and beautiful river: for upstream states, for downstream states, and for the protection of endangered species; that is, for all of us.

Mrs. BOXER. Madam President, along with many of my colleagues, I voted in support of an amendment to the energy and water appropriations bill when it moved through the Senate to strike an anti-environment rider from that bill. Unfortunately, that amendment failed and the rider remains in the conference report we consider today.

For that reason, I must vote against this legislation. I understand that the President has indicated that he will veto this legislation because of this antienvironment provision.

The antienvironment rider included in this bill stops changes in the management of the Missouri River called for by existing law. Those changes would ensure that the river is managed not only for navigation, but also for the benefit of the fish and wildlife that depend on the river for survival.

It is critical that those changes go into effect promptly because without them several endangered species may become extinct.

The Missouri River management changes that this antienvironment rider blocks are called for by a 600-page Fish and Wildlife Service study. The study is itself based upon hundreds of published peer-reviewed studies, and would modify the 40-year-old Corps of Engineers policy of managing the flows of the Missouri River primarily to benefit a $7 million downstream barge industry.

That old Corps policy is largely responsible for the endangerment of three species—the piping plover, the least interior tern, and the pallid sturgeon—that depend upon the river for survival. Two other fish species are also headed toward extinction.

It is very unfortunate that this provision was included in a bill that otherwise has much to commend it.

I appreciate the conferees' hard work in crafting a bill that funds several important California priorities. The Hamilton Wetlands Project funded in this bill would restore approximately 1,000 acres to wetlands and wildlife habitat at Hamilton Army Airfield. The American River Common Elements funded in this bill would result in 24 miles of levee improvements along the American River and 12 miles of improvements along the Sacramento River levees, flood gauges upstream of Folsom Dam, and improvements to the flood warning system along the lower American River. Finally, the Solana Beach-Encinitas Shoreline Feasibility Study funded in this bill would assist both cities in their efforts to battle beach erosion, and would provide needed data for the restoration of these beaches. Projects such as these are extremely important to California.

Because of these and the other benefits of this bill for California, I find it unfortunate that I must vote against this legislation. I do so, however, because a vote for this bill is a vote to support an antienvironment rider that may well lead to the irreversible damage of causing the extinction of several endangered species.

I expect that this legislation will be taken up by the Senate without this rider in the next few weeks, and that we will move forward with important energy and water projects without doing irreversible damage to our environment.

Mr. L. CHAFEE. Madam President, the FY 2001 Energy and Water Appropriations conference report includes $24 billion in funding for the Department of Energy, civil projects of the Army Corps of Engineers, the Department of Interior's Bureau of Reclamation, and a number of independent agencies. I understand the difficulty of reaching a consensus on such a comprehensive bill. I would like to thank the Managers of the legislation for all their hard work in reaching this consensus.

I am particularly pleased with the nearly $4 million in funding included in the bill for a number of important Rhode Island coastal restoration and water development projects. The bill contains $1.95 million in funding for authorized repairs to the Fox Point Hurricane Barrier. Since its construction in 1966, the barrier has provided critical flood protection to the City of Providence. The bill contains $191,000 for Rhode Island Ecosystem Restoration to assist the Army Corps of Engineers and the Rhode Island Department of Environmental Management to restore degraded salt marshes and freshwater wetlands, improve overall fish and wildlife habitats, and restore anadramous fisheries. The bill also contains $54,000 for South Coast Erosion to complete feasibility study work on potential coastal protection projects along the southern coastline of Rhode Island.

Additionally, the bill contains $584,000 in funding for the final Environmental Impact Statement and design work associated with maintenance dredging of the Providence River and Harbor federal navigation channel. The proposed maintenance dredging project involves the removal of approximately four million cubic yards of material from the Providence River and Harbor. The Environmental Impact Statement process will allow for full and open debate on the placement of dredge spoils from the project. We certainly cannot overlook the importance of protecting and minimizing the impact on our environment, especially the impact on our fisheries.

As we move into the heating season, funding Environmental Impact Statements for Providence Harbor dredging projects cannot be overstated. Specifically, until dredging Providence Harbor is completed, deep draft vessels carrying precious heating oil to Rhode Island and other points in the Northeast will have to continue the dangerous and inefficient practice of offloading their cargoes into small barges, in the middle of Narragansett Bay, for delivery to the pierside terminals in Providence Harbor. Anyone who has experienced the fury of winter wind, ice, and rough waters on the Narragansett recognizes this practice is an accident waiting to happen—one with disastrous consequences.

While I voted in support of the conference report last night, I was disappointed to find that the Missouri River provision I objected to during Senate consideration of the bill was not removed during conference. I firmly object to this provision which would block funding for consideration of one of the alternatives to the Missouri River Master Water Control Manual. The targeted alternative would require seasonal river flow changes along the Missouri River in order to recover three endangered species including the pallid sturgeon, interior least tern, and piping plover. During my past year in the Senate, I have voted to remove environmental riders such as this one from appropriations bills. In my view, the Missouri River provision inappropriately transfers the decision regarding endangered species protection along the Missouri River from the Army Corps of Engineers and the authorizing committees to the Senate and House Appropriations Committees.

I was one of two Republican Senators that voted in favor of an amendment offered by Senator DASCHLE and Senator BAUCUS to strike this provision during Senate consideration of the FY 2001 Energy and Water Development Appropriations bill. When the vote failed, however, I voted in favor of the legislation because of its important funding for Rhode Island. The FY 2001 Energy and Water Development Appropriations bill, and the Missouri River provision contained within, passed overwhelmingly in the Senate by a vote of 93 to 1.

The legislation still has a probable Presidential veto. I am hopeful we will be able to revisit the Missouri River provision before the end of this session, and ensure its elimination from the legislation.

Mr. MCCAIN. Madam President, during a statement I made on the Senate floor today regarding various pork-barrel spending in the final conference report for the FY 2001 energy and water appropriations, I incorrectly referred to a $20 million earmark for the CALFED Bay-Delta restoration project. I was informed by the Senate Energy and Natural Resources Committee that the conference agreement does not include any funding for this specific California project. I wanted to state for the RECORD that I will correct my statement that will be included on my Senate web page and remove this reference to the CALFED project.

Mr. ROBB. Madam President, I intend to vote against the energy and water appropriations conference report this afternoon. I support the vast majority of the bill, in fact, there are a number of projects I have worked for years to have included. But, once again, in addition to those projects, an anti-environmental rider was also attached to this legislation.

The President has announced his intention to veto this bill because of that anti-environmental rider. So we will be back here in the next few days considering this legislation again. And I have been assured that when we take up this legislation again, our Virginia projects will be included, since they are not the subject of the dispute. I hope that in the intervening period, we can remove the rider which would prevent the Corps of Engineers from reviewing its procedures to protect the Missouri river and its environment.

Mr. HARKIN. Madam President, I rise today in continuing concern over the National Ignition Facility, a massive stockpile stewardship facility being built at the Department of Energy's Lawrence Livermore Labs in California. This program has been beset by cost overruns, delays, and poor management. The House in its Energy & Water bill included $74.1 million for construction of NIF. The Senate adopted an amendment I offered that capped spending at the same level, and also requested an independent review of the project from the National Academy of Sciences.

I know the Chairman and Ranking Member of the Subcommittee each have their own concerns about NIF, and I greatly appreciate their efforts to bring this program under control. But frankly I am disappointed in what has come out of conference. The funding for NIF construction has risen from $74 million to $199 million. $74 million in the House, $74 million in the Senate, and $199 million out of conference.

That is a lot of money to spend on a program that is out of control. Projected costs of constructing this facility have almost doubled in the last year. We don't know if the optics will work. We don't know how to design the target. Even if the technical problems are solved, we don't know if the National Ignition Facility will achieve ignition. We don't even know if this facility is needed. DOE's recent ''rebaselining'' specified massive budget increases for NIF for several years, but, despite Congressional requests, did not say where this money would come from or what impact it would have on the stockpile stewardship program.

This is the time to slow down, conduct some independent studies, reconsider how we can best maintain the nuclear weapons stockpile and whether this risky program really is critical to that effort. Instead we are saying full steam ahead.

It is true that part of the money, $69 million, is held back until DOE arranges for studies of some of these issues and certifies that the program is on schedule and on budget. These issues are critical to future Congressional action on NIF. Unfortunately, the bill does not clearly specify who will conduct those studies.

I wish we could entrust DOE with these reviews, but history suggests they have not earned our trust. A recent article in the journal Nature describes ten years of failed peer review on this project: so-called ''independent'' reports that were not independent, that were written by stacked panels with conflicts of interest, that even were edited by project officials. A recent GAO report notes that reviews ''did not discover and report on NIF's fundamental project and engineering problems, bringing into question their comprehensiveness and independence.'' DOE is currently under threat of a second lawsuit regarding violations of the Federal Advisory Committee Act in NIF studies.

We need a truly independent review. I am pleased that the Chairman and Ranking Member agreed to join me in a colloquy on this concern, and hope the studies mandated in this bill will be fully independent and credible. Otherwise, I fear that the $199 million we are appropriating will be poured down a bottomless pit with the $800 million already spent. We've seen this happen too many times, with the Superconducting Supercollider, the Clinch River Breeder Reactor, the Space Station, and on and on. I will continue to strive to protect our taxpayers, keep our nuclear stockpile safe, and end wasteful spending on NIF before more billions are spent.

Mr. ASHCROFT. Madam President, I rise today in support of the conference report on the energy and water appropriations bill. This is a very important bill, for it contains a provision that will protect the citizens of Missouri from a risky Administration scheme to flood the Missouri River Basin. Section 103 of this bill is a provision that is necessary for the millions of Americans who live and work along the Missouri and Mississippi Rivers. This is the section of the bill that was subject to an amendment to strike when the Senate considered this legislation on September 7, 2000. The Senate defeated the attempt to strike at that time, and I want to thank the subcommittee chairman, Senator DOMENICI, for maintaining Section 103 in the conference report now before us.

Madam President, as you know, the use of the Missouri River is governed by what is known as the Missouri River Master Manual. Right now, there is an effort underway to update that manual. The specific issue that is at the crux of the debate over Section 103 is what is called a spring rise. A spring rise, in this case, is a release of huge amounts of water from above Gavins Point Dam on the Nebraska-South Dakota border during the flood-prone spring months.

In an effort to protect the habitat of the pallid sturgeon, the least tern, and the piping plover, the U.S. Fish and Wildlife Service issued an ultimatum to the Army Corps of Engineers insisting that the Corps immediately agree to its demand for a spring rise. The

Corps was given one week to respond to the request of Fish and Wildlife for immediate implementation of a spring rise. The Corps' response was a rejection of the spring rise proposal, and they called for further study of the effect of the spring rise.

The language in section 103 will allow for the studies the Corps recommends. Section 103, inserted in the bill during the subcommittee markup, is a commonsense provision that states in its entirety:

None of the funds made available in this act may be used to revise the Missouri River Master Water Control Manual if such provisions provide for an increase in the springtime water release program during the spring heavy rainfall and snow melt period in States that have rivers draining into the Missouri River below the Gavins Point Dam.

This policy—this exact language—has been included in the last four energy and water appropriations bills, all of which the President signed without opposition. Let's look at the support that the Energy and Water appropriations bills, with the exact same language, have enjoyed in the past.

In October, 1995, the Senate agreed to the energy and water appropriations conference report by a bipartisan vote of 89–6.

In September, 1996, the Senate agreed to the energy and water appropriations conference report by a bipartisan vote of 92–8.

In September, 1998, the Senate agreed to the energy and water appropriations conference report by unanimous consent.

In September, 1999, the Senate agreed to the energy and water appropriations conference report by a bipartisan vote of 96–3.

In addition, this year, the Senate voted 93–1 in favor of final passage of the energy and water appropriations bill on September 7, 2000, following the defeat of the amendment to strike Section 103.

This lengthy record of support is part of the reason I am shocked and astounded to report that last week, the President's Chief of Staff, John Podesta, sent a letter to the Energy and Water Appropriations Subcommittee chairman stating that the President would veto this bill if section 103 is included. In other words, the Clinton-Gore administration is threatening to veto the entire energy and water appropriations bill if it contains language to protect the lives and property of all citizens living and working along the lower Missouri and Mississippi Rivers.

If the President follows through with a veto of the bill, after having signed this provision four times previously, he will be sending a very clear message to the citizens of the Midwest. It is very easy to understand. Unfortunately, it would be very hard to digest and accommodate. But the message would be this: The Clinton-Gore administration is willing to flood downstream communities as part of an unscientific, risky scheme that will hurt, not help, the endangered species it seeks to protect. If that is the message, I wouldn't want to be the messenger.

The President's Chief of Staff, Mr. Podesta, made a number of interesting, yet untrue, claims in his veto threat letter. We have corrected and clarified these points before, but allow me to do so again, in the hope that the administration will reconsider its position when confronted with the real facts on this issue.

First, the administration claims in its veto letter that section 103 would, ''prevent the Corps from carrying out a necessary element of any reasonable and prudent alternative to avoid jeopardizing the continued existence of the endangered least tern, pallid sturgeon, and the piping plover.'' This statement is false.

Under section 103, alternatives can be studied and all alternatives can be implemented—with the exception of a spring rise.

What is ironic is that spring flooding could hurt the wildlife more than it will protect them. And it will do so in a way that will increase the risks of downstream flooding and interferes with the shipment of cargo on our nation's highways.

Dr. Joe Engeln, assistant director of the Missouri Department of Natural Resources, stated in a June 24 letter that there are several major problems with the Fish and Wildlife Service's proposed plan that may have the perverse effect of harming the targeted species rather than helping them.

In his letter, he writes that, ''the higher reservoir levels [that would result from a spring rise] would also reduce the habitat for the terns and plovers that nest along the shorelines of the reservoirs.''

Dr. Engeln also points out that because the plan calls for a significant drop in flow during the summer, predators will be able to reach the islands upon which the terns and plovers nest, giving them access to the young still in the nests.

Second, the administration claims that the Missouri Master Manual is outdated and, ''does not provide and appropriate balance among the competing interests, both commercial and recreational, of the many people who seek to use this great American river.'' This, also, is untrue.

This administration's plan for ''controlled flood'' or spring rise places every citizen who lives or works downstream from the point of release in jeopardy by disturbing the balance at a time when downstream citizens are most vulnerable to flooding.

Section 103 protects citizens of Missouri and other states from dangerous flooding while allowing for cost efficient transportation of grain and cargo.

Section 103 is supported by bipartisan group representing farmers, manufacturers, labor unions, shippers, citizens and port authorities from 15 Midwest states.

Also supporting Section 103 are major national organizations including the American Farm Bureau, American Waterways associations, National Grange, and the National Soybean Association.

The strong support for Section 103 and against the spring rise undermines the administration's claim that the Master Manual must be immediately changed.

In addition to the illusory argument that the spring rise is necessary to protect endangered species, some advocates of the spring rise claim that this plan is a return to more ''natural flow conditions'' and that the river should be returned to its condition at the time of the Lewis and Clark expedition.

Not only is this unrealistic because the Midwest was barely habitable because of the erratic flooding conditions at that time, according to Dr. Engeln of the Missouri DNR, the proposal would benefit artificial reservoirs at the expense of the river and create flow conditions that have never existed along the river in Iowa, Nebraska, Kansas, and Missouri.

Over 90 organizations representing farmers, shippers, cities, labor unions, and port authorities recently sent a letter to Congress saying: ''The spring rise demanded by the Fish and Wildlife Service is based on the premise that we should 'replicate the natural hydrograph' that was responsible for devastating and deadly floods as well as summertime droughts and even dustbowls.''

I think it is pretty clear that there is not sound science to support some protection of these species. There is a clear disagreement among scientists, and a strong argument that the implementation of this plan would, in fact, damage the capacity of some of these species to continue.

I urge the Senate to support this conference report. I ask the President to rethink his threatened veto and side with the bipartisan consensus to protect the citizens living and working in the lower Missouri River Basin from the Fish and Wildlife Service's plan to flood the region.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Madam President, I rise to tell the Senate this is a good bill. I hope we will pass it.

The Senate passed this bill 97–1. It went to conference. Obviously, there were some changes made in conference but clearly not significant enough to have somebody vote against this bill.

When the call of the roll occurs, we are going to hear that a number of Senators on the other side of the aisle are going to vote against the bill. I hope

everybody understands that most of them have asked for things in this bill, and they have been granted things in this bill their States desperately need. I don't know how all that will work out, but they are being asked to vote against this because the President of the United States, after signing similar language regarding the Missouri River four different times, has suggested that this year, if it is in this bill, he will veto it.

This bill has taken much work on the defense side; that is, for the nuclear deterrent, nuclear weapons activities of America, and those activities related to it that have to do with nonproliferation. We have done an excellent job in increasing some of the very important work of these National Laboratories and our nuclear defense deterrent, people, equipment, and facilities. Sooner or later many more Senators are going to have to recognize the significance of that part of this bill.

The second part of it has to do with nondefense discretionary appropriations; that is, mostly water and water projects across this great land. Many of them are in here for Senators on the Democrat side of the aisle. We were pleased to work with them on that.

I hope the bill will get sent to the President and we will be able to work something out with reference to the Missouri River. The President indicates now that he doesn't want that paragraph, that provision, so-called section 103, in this bill. I am not going to argue as eloquently as KIT BOND, the Senator from Missouri, did with reference to why that provision should be in the bill. But I can say that a compelling majority of Senators agreed with him when we had a vote on it, and then agreed to vote on final passage which included that.

To make sure everybody understands a little bit about where we have been and where we are going, I will not talk much about this chart, except I will ask that we take a quick look at the orange part of this chart. You see how big that keeps growing while people worry about this bill, and legitimately so. Senator MCCAIN argues that perhaps there are some things in this bill that should not be in it. He may be right.

Let me tell my colleagues, when you have to put something together for a whole House and a whole Senate, sometimes you have to do some things that maybe one Senator wouldn't want done.

This orange shows what is happening to the American budget of late. This is the 2000 estimate, the orange part of the entitlements and interest we pay in our budget for the people. See how it continues to grow. The yellow is the Defense Department. If you will focus for a moment on this purple piece, that number, $319 billion out of a budget of $1.8 trillion, is the 11 appropriations bills that have not yet been passed.

May I point it out again. This is the entitlements plus the interest. This is defense, which has been passed. And this, which you can see from this year to this year to this year, not very big changes compared to the other parts of the budget, this is what the 11 appropriations bills will amount to more or less, including this one.

It means that one-sixth of the Federal budget is at issue when we discuss the 11 appropriations bills that remain. Two of them were defense, and they belong in this portion of the budget. But if you look out, as we try to project 2005 and beyond, to see what keeps growing even though we are paying down the national debt, the entitlement programs keep growing. And the difference in this part, the purple part, is rather insignificant in terms of growth.

This bill is slightly over the President's budget in the nuclear deterrent, nuclear laboratory, nuclear weapons activities, and is slightly over the President on all of the water projects. I failed to mention the science projects that are in this bill, which are nondefense projects. They go on at all of the laboratories, and they are the cutting edge of real science across America—in this bill we are talking about. All of these, this and 11 others, belong in this small amount. Even for those who think it is growing too much, our projections beyond the year 2005 are that it still will be a very small portion of our Federal budget with a very large amount going to entitlements.

I wish I had one more I could predict, the surpluses along here, because I don't believe you need to worry about having adequate surpluses to take care of priorities in the future, to take care of Medicare, prescription drugs, and Medicare reform. Nor do I think there will be a shortage of money, some of which we should give back to the American people before we spend it.

My closing remarks have to do with what should we do with the great surplus the American people are giving us by way of taxes, which they have never paid so much of in the past. I look to the person who had most to do with our great thriving economy, Dr. Alan Greenspan. He mentions three things to us: First, you should put as much of it as you can on the national debt. The second thing is, you should give the people back some of it by way of taxes. That is the second best thing. He comments, ''If you are going to look at the big picture, the worst thing you can do with the surplus for the future of our children and grandchildren is to spend it on new programs.''

So I suggest we all ought to be worried about the future. But today we ought to get an appropriation bill passed. I hope our people will understand that in spite of the plea from the minority leader that you vote against it because of the Missouri language, we can pass it today and see if in the next few days we can work something out with the President if he remains dedicated to vetoing this bill over the one issue of which the Senator from Montana spoke.

Mr. BAUCUS. Madam President, I very much admire the work and the effort the Senator from New Mexico has put into this bill, and I hope after the President vetoes this bill, and it is sustained, we can work out this one problem so we can get the bill passed.

Mr. DOMENICI. I thank the Senator.

Madam President, have the yeas and nays been ordered?

The PRESIDING OFFICER. They have not.

Mr. DOMENICI. Madam President, I ask for the yeas and nays on final passage.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The question is on agreeing to the conference report.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. NICKLES. I announce that the Senator from Utah, (Mr. HATCH) and the Senator from Minnesota (Mr. GRAMS) are necessarily absent.

I further announce that, if present and voting, the Senator from Utah (Mr. HATCH) would vote ''yea.''

Mr. REID. I announce that the Senator from California (Mrs. FEINSTEIN), the Senator from Massachusetts (Mr. KENNEDY), the Senator from Connecticut (Mr. LIEBERMAN), and the Senator from Oregon (Mr. WYDEN) are necessarily absent.

I further announce that, if present and voting, the Senator from Massachusetts (Mr. KENNEDY) would vote ''no.''

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 57, nays 37, as follows:

[Rollcall Vote No. 261 Leg.]

YEAS—57

Abraham	Enzi	Miller
Allard	Fitzgerald	Murkowski
Ashcroft	Frist	Murray
Bennett	Gorton	Nickles
Bingaman	Gramm	Roberts
Bond	Grassley	Roth
Brownback	Gregg	Santorum
Bunning	Hagel	Sessions
Burns	Helms	Shelby
Byrd	Hutchinson	Smith (NH)
Campbell	Hutchison	Smith (OR)
Chafee, L.	Inhofe	Snowe
Cochran	Jeffords	Specter
Collins	Kyl	Stevens
Craig	Lincoln	Thomas
Crapo	Lott	Thompson
DeWine	Lugar	Thurmond
Domenici	Mack	Voinovich
Edwards	McConnell	Warner

NAYS—37

Akaka	Bryan	Durbin
Baucus	Cleland	Feingold
Bayh	Conrad	Graham
Biden	Daschle	Harkin
Boxer	Dodd	Hollings
Breaux	Dorgan	Inouye

Johnson	Levin	Rockefeller
Kerrey	McCain	Sarbanes
Kerry	Mikulski	Schumer
Kohl	Moynihan	Torricelli
Landrieu	Reed	Wellstone
Lautenberg	Reid	
Leahy	Robb	

NOT VOTING—6

Feinstein	Hatch	Lieberman
Grams	Kennedy	Wyden

The conference report was agreed to.

Mr. DOMENICI. Madam President, I move to reconsider the vote.

Mr. MACK. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. LOTT. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. LOTT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LOTT. Mr. President, we have been working on a number of issues. I want to enter one, and then we will have another quorum call while we conclude some other agreements. The first has to do with the intelligence authorization bill. Obviously, this is very important legislation. It has been agreed to on both sides.

INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 2001

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 654, S. 2507.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 2507) to authorize appropriations for fiscal year 2001 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

There being no objection, the Senate proceeded to consider the bill which had been reported from the Select Committee on Intelligence with amendments to omit the parts in black brackets and insert the parts printed in italic.

S. 2507

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Intelligence Authorization Act for Fiscal Year 2001''.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

TITLE I—INTELLIGENCE ACTIVITIES

SEC. 101. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION OF APPROPRIATIONS FOR FISCAL YEAR 2001.—Funds are hereby authorized to be appropriated for fiscal year 2001 for the conduct of the intelligence and intelligence-related activities of the following elements of the United States Government:

(1) The Central Intelligence Agency.
(2) The Department of Defense.
(3) The Defense Intelligence Agency.
(4) The National Security Agency.
(5) The National Reconnaissance Office.
(6) The National Imagery and Mapping Agency.
(7) The Department of the Army, the Department of the Navy, and the Department of the Air Force.
(8) The Department of State.
(9) The Department of the Treasury.
(10) The Department of Energy.
(11) The Federal Bureau of Investigation.

(b) AUTHORIZATION OF APPROPRIATIONS FOR CERTAIN ELEMENTS FOR FISCAL YEARS 2002 THROUGH 2005.—Funds are hereby authorized to be appropriated for each of fiscal years 2002 through 2005 for the conduct in each such fiscal year of the intelligence and intelligence-related activities of the following elements of the United States Government:

(1) The Central Intelligence Agency.
(2) The Defense Intelligence Agency.
(3) The National Security Agency.
(4) The National Reconnaissance Office.

SEC. 102. CLASSIFIED SCHEDULE OF AUTHORIZATIONS.

(a) SPECIFICATIONS OF AMOUNTS AND PERSONNEL CEILINGS.—The amounts authorized to be appropriated under section 101, and the authorized personnel ceilings as of September 30, 2001, for the conduct of the intelligence and intelligence-related activities of the elements listed in such section, are those specified in the classified Schedule of Authorizations prepared to accompany the conference report on the bill _____ of the One Hundred Sixth Congress.

(b) AVAILABILITY OF CLASSIFIED SCHEDULE OF AUTHORIZATIONS.—The Schedule of Authorizations shall be made available to the Committees on Appropriations of the Senate and House of Representatives and to the President. The President shall provide for suitable distribution of the Schedule, or of appropriate portions of the Schedule, within the Executive Branch.

SEC. 103. PERSONNEL CEILING ADJUSTMENTS.

(a) AUTHORITY FOR ADJUSTMENTS.—With the approval of the Director of the Office of Management and Budget, the Director of Central Intelligence may authorize employment of civilian personnel in excess of the number authorized for fiscal year 2001 under section 102 when the Director of Central Intelligence determines that such action is necessary to the performance of important intelligence functions, except that the number of personnel employed in excess of the number authorized under such section may not, for any element of the intelligence community, exceed two percent of the number of civilian personnel authorized under such section for such element.

(b) NOTICE TO INTELLIGENCE COMMITTEES.—The Director of Central Intelligence shall promptly notify the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives whenever the Director exercises the authority granted by this section.

SEC. 104. COMMUNITY MANAGEMENT ACCOUNT.

(a) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There is authorized to be appropriated for the Community Management Account of the Director of Central Intelligence for fiscal year 2001 the sum of $232,051,000.

(2) AVAILABILITY FOR ADVANCED RESEARCH AND DEVELOPMENT COMMITTEE.—Within the amount authorized to be appropriated in paragraph (1), amounts identified in the classified Schedule of Authorizations referred to

in section 102(a) for the Advanced Research and Development Committee shall remain available until September 30, 2002.

(b) AUTHORIZED PERSONNEL LEVELS.—The elements within the Community Management Account of the Director of Central Intelligence are authorized a total of 618 full-time personnel as of September 30, 2001. Personnel serving in such elements may be permanent employees of the Community Management Account element or personnel detailed from other elements of the United States Government.

(c) CLASSIFIED AUTHORIZATIONS.—

(1) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts authorized to be appropriated for the Community Management Account by subsection (a), there is also authorized to be appropriated for the Community Management Account for fiscal year 2001 such additional amounts as are specified in the classified Schedule of Authorizations referred to in section 102(a).

(2) AUTHORIZATION OF PERSONNEL.—In addition to the personnel authorized by subsection (b) for elements of the Community Management Account as of September 30, 2001, there is hereby authorized such additional personnel for such elements as of that date as is specified in the classified Schedule of Authorizations.

(d) REIMBURSEMENT.—Except as provided in section 113 of the National Security Act of 1947 (50 U.S.C. 404h), during fiscal year 2001, any officer or employee of the United States or member of the Armed Forces who is detailed to the staff of an element within the Community Management Account from another element of the United States Government shall be detailed on a reimbursable basis, except that any such officer, employee, or member may be detailed on a non-reimbursable basis for a period of less than one year for the performance of temporary functions as required by the Director of Central Intelligence.

(e) NATIONAL DRUG INTELLIGENCE CENTER.—

(1) IN GENERAL.—Of the amount authorized to be appropriated in subsection (a), $27,000,000 shall be available for the National Drug Intelligence Center. Within such amount, funds provided for research, development, test, and evaluation purposes shall remain available until September 30, 2002, and funds provided for procurement purposes shall remain available until September 30, 2003.

(2) TRANSFER OF FUNDS.—The Director of Central Intelligence shall transfer to the Attorney General of the United States funds available for the National Drug Intelligence Center under paragraph (1). The Attorney General shall utilize funds so transferred for activities of the National Drug Intelligence Center.

(3) LIMITATION.—Amounts available for the National Drug Intelligence Center may not be used in contravention of the provisions of section 103(d)(1) of the National Security Act of 1947 (50 U.S.C. 403–3(d)(1)).

(4) AUTHORITY.—Notwithstanding any other provision of law, the Attorney General shall retain full authority over the operations of the National Drug Intelligence Center.

TITLE II—CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM

SEC. 201. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated for the Central Intelligence Agency Retirement and Disability Fund for fiscal year 2001 the sum of $216,000,000.

TITLE III—GENERAL PROVISIONS

SEC. 301. INCREASE IN EMPLOYEE COMPENSATION AND BENEFITS AUTHORIZED BY LAW.

Appropriations authorized by this Act for salary, pay, retirement, and other benefits for Federal employees may be increased by such additional or supplemental amounts as may be necessary for increases in such compensation or benefits authorized by law.

SEC. 302. RESTRICTION ON CONDUCT OF INTELLIGENCE ACTIVITIES.

The authorization of appropriations by this Act shall not be deemed to constitute authority for the conduct of any intelligence activity which is not otherwise authorized by the Constitution or the laws of the United States.

SEC. 303. PROHIBITION ON UNAUTHORIZED DISCLOSURE OF CLASSIFIED INFORMATION.

(a) IN GENERAL.—Chapter 37 of title 18, United States Code, is amended—

(1) by redesignating section 798A as section 798B; and

(2) by inserting after section 798 the following new section 798A:

''§ 798A. Unauthorized disclosure of classified information

''(a) PROHIBITION.—Whoever, being an officer or employee of the United States, a former or retired officer or employee of the United States, any other person with authorized access to classified information, or any other person formerly with authorized access to classified information, knowingly and willfully discloses, or attempts to disclose, any classified information to a person who is not both an officer or employee of the United States and who is not authorized access to the classified information shall be fined not more than $10,000, imprisoned not more than 3 years, or both.

''(b) CONSTRUCTION OF PROHIBITION.—Nothing in this section shall be construed to establish criminal liability for disclosure of classified information in accordance with applicable law to the following:

''(1) Any justice or judge of a court of the United States established pursuant to article III of the Constitution of the United States.

''(2) The Senate or House of Representatives, or any committee or subcommittee thereof, or joint committee thereof, or any member of Congress.

''(c) DEFINITIONS.—In this section:

''(1) The term 'authorized', in the case of access to classified information, means having authority or permission to have access to the classified information pursuant to the provisions of a statute, Executive Order, regulation, or directive of the head of any department or agency who is empowered to classify information, an order of any United States court, or a provision of any Resolution of the Senate or Rule of the House of Representatives which governs release of classified information by the such House of Congress.

''(2) The term 'classified information' means information or material designated and clearly marked or represented, or that the person knows or has reason to believe has been determined by appropriate authorities, pursuant to the provisions of a statute or Executive Order, as requiring protection against unauthorized disclosure for reasons of national security.

''(3) The term 'officer or employee of the United States' means the following:

''(A) An officer or employee (as those terms are defined in sections 2104 and 2105 of title 5).

''(B) An officer or enlisted member of the Armed Forces (as those terms are defined in section 101(b) of title 10).''.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of that chapter is amended by striking the item relating to section 798A and inserting the following new items:

''798A. Unauthorized disclosure of classified information.

''798B. Temporary extension of section 794.''.

SEC. 304. POW/MIA ANALYTIC CAPABILITY WITHIN THE INTELLIGENCE COMMUNITY.

Title I of the National Security Act of 1947 (50 U.S.C. 402 et seq.) is amended by adding at the end the following:

''POW/MIA ANALYTIC CAPABILITY

''SEC. 115. (a) REQUIREMENT.—(1) The Director of Central Intelligence shall, in consultation with the Secretary of Defense, establish and maintain in the intelligence community an analytic capability with responsibility for intelligence in support of the activities of the United States relating to prisoners of war and missing persons (as that term is defined in section 1513(1) of title 10, United States Code).

''(2) The analytic capability maintained under paragraph (1) shall be known as the 'POW/MIA analytic capability of the intelligence community'.

''(b) SCOPE OF RESPONSIBILITY.—The responsibilities of the analytic capability maintained under subsection (a) shall—

''(1) extend to any activities of the Federal Government with respect to prisoners of war and missing persons after December 31, 1990; and

''(2) include support for any department or agency of the Federal Government engaged in such activities.''.

SEC. 305. APPLICABILITY TO LAWFUL UNITED STATES INTELLIGENCE ACTIVITIES OF FEDERAL LAWS IMPLEMENTING INTERNATIONAL TREATIES AND AGREEMENTS.

The National Security Act of 1947 (50 U.S.C. 401 et seq.) is amended by adding at the end the following:

''TITLE X—MISCELLANEOUS

''APPLICABILITY TO UNITED STATES INTELLIGENCE ACTIVITIES OF FEDERAL LAWS IMPLEMENTING INTERNATIONAL TREATIES AND AGREEMENTS

''SEC. 1001. (a) IN GENERAL.—No Federal law enacted on or after the date of the enactment of the Intelligence Authorization Act for Fiscal Year 2001 that implements a treaty or other international agreement shall be construed as making unlawful an otherwise lawful and authorized intelligence activity of the United States Government or its employees, or any other person acting at their direction to the extent such other person is carrying out such activity on behalf of the United States, unless such Federal law specifically addresses such intelligence activity.

''(b) AUTHORIZED ACTIVITIES.—An activity shall be treated as authorized for purposes of subsection (a) if the activity is authorized by an appropriate official of the United States Government, acting within the scope of the official duties of that official and in compliance with Federal law and any applicable Presidential directive.''.

SEC. 306. LIMITATION ON HANDLING, RETENTION, AND STORAGE OF CERTAIN CLASSIFIED MATERIALS BY THE DEPARTMENT OF STATE.

(a) CERTIFICATION REGARDING FULL COMPLIANCE WITH REQUIREMENTS.—The Director of Central Intelligence shall certify to the appropriate committees of Congress whether or

not each covered element of the Department of State is in full compliance with all applicable directives of the Director of Central Intelligence, and all applicable Executive Orders, relating to the handling, retention, or storage of covered classified materials.

(b) LIMITATION ON CERTIFICATION.—The Director of Central Intelligence may not certify a covered element of the Department of State as being in full compliance with the directives and Executive Orders referred to in subsection (a) if the covered element is currently subject to a waiver of compliance with respect to any such directive or Executive Order.

(c) REPORT ON NONCOMPLIANCE.—Whenever the Director of Central Intelligence determines that a covered element of the Department of State is not in full compliance with any directive or Executive Order referred to in subsection (a), the Director shall promptly notify the appropriate committees of Congress of such determination.

(d) EFFECTS OF CERTIFICATION OF NON-FULL COMPLIANCE.—(1)(A) Effective as of January 1, 2001, no funds authorized to be appropriated by this Act may be obligated or expended by the Bureau of Intelligence and Research of the Department of State unless the Director of Central Intelligence has certified under subsection (a) as of such date that each covered element of the Department of State is in full compliance with the directives and Executive Orders referred to in subsection (a).

(B) If the prohibition in subparagraph (A) takes effect in accordance with that subparagraph, the prohibition shall remain in effect until the date on which the Director certifies under subsection (a) that each covered element of the Department of State is in full compliance with the directives and Executive Orders referred to in that subsection.

(2)(A) Subject to subsection (e), effective as of January 1, 2001, a covered element of the Department of State may not retain or store covered classified information unless the Director has certified under subsection (a) as of such date that the covered element is in full compliance with the directives and Executive Orders referred to in subsection (a).

(B) If the prohibition in subparagraph (A) takes effect in accordance with that subparagraph, the prohibition shall remain in effect until the date on which the Director certifies under subsection (a) that the covered element involved is in full compliance with the directives and Executive Orders referred to in that subsection.

(e) PRESIDENTIAL WAIVER.—(1) The President may waive the applicability of the prohibition in subsection (d)(2) to an element of the Department of State otherwise covered by such prohibition if the President determines that the waiver is in the national security interests of the United States.

(2) The President shall submit to appropriate committees of Congress a report on each exercise of the waiver authority in paragraph (1).

(3) Each report under paragraph (2) with respect to the exercise of authority under paragraph (1) shall set forth the following:

(A) The covered element of the Department of State addressed by the waiver.

(B) The reasons for the waiver.

(C) The actions taken by the President to protect any covered classified material to be handled, retained, or stored by such element.

(f) DEFINITIONS.—In this section:

(1) The term ''appropriate committees of Congress'' means the following:

(A) The Select Committee on Intelligence and the Committee on Foreign Relations of the Senate.

(B) The Permanent Select Committee on Intelligence and the Committee on International Relations of the House of Representatives.

(2) The term ''covered classified material'' means any material classified at the Sensitive Compartmented Information (SCI) level.

(3) The term ''covered element of the Department of State'' means each element of the Department of State that handles, retains, or stores covered classified material.

(4) The term ''material'' means any data, regardless of physical form or characteristic, including written or printed matter, automated information systems storage media, maps, charts, paintings, drawings, films, photographs, engravings, sketches, working notes, papers, reproductions of any such things by any means or process, and sound, voice, magnetic, or electronic recordings.

(5) The term ''Sensitive Compartmented Information (SCI) level'', in the case of classified material, means a level of classification for information in such material concerning or derived from intelligence sources, methods, or analytical processes that requires such information to be handled within formal access control systems established by the Director of Central Intelligence.

SEC. 307. CLARIFICATION OF STANDING OF UNITED STATES CITIZENS TO CHALLENGE CERTAIN BLOCKING OF ASSETS.

The Foreign Narcotics Kingpin Designation Act (title VIII of Public Law 106–120; 113 Stat. 1626; 21 U.S.C. 1901 et seq.) is amended by adding at the end the following new section:

''SEC. 811. STANDING OF UNITED STATES CITIZENS TO CHALLENGE BLOCKING OF ASSETS.

''No provision of this title shall be construed to prohibit a United States citizen from raising any challenge otherwise available to the United States citizen under subchapter II of chapter 5 and chapter 7 of title 5, United States Code (commonly referred to as the Administrative Procedure Act), or any other provision of law, with respect to the blocking of assets by the United States under this title.''.

SEC. 308. AVAILABILITY OF CERTAIN FUNDS FOR ADMINISTRATIVE COSTS OF COUNTERDRUG INTELLIGENCE EXECUTIVE SECRETARIAT.

Notwithstanding section 1346 of title 31, United States Code, or section 610 of the Treasury and General Government Appropriations Act, 2000 (Public Law 106–58; 113 Stat. 467), funds made available for fiscal year 2000 for any department or agency of the Federal Government with authority to conduct counterdrug intelligence activities, including counterdrug law enforcement information-gathering activities, may be available to finance an appropriate share of the administrative costs incurred by the Department of Justice for the Counterdrug Intelligence Executive Secretariat authorized by the General Counterdrug Intelligence Plan of February 12, 2000.

TITLE IV—CENTRAL INTELLIGENCE AGENCY

SEC. 401. EXPANSION OF INSPECTOR GENERAL ACTIONS REQUIRING A REPORT TO CONGRESS.

Section 17(d)(3) of the Central Intelligence Agency Act of 1949 (50 U.S.C. 403q(d)(3)) is amended by striking all that follows after subparagraph (A) and inserting the following:

''(B) an investigation, inspection, or audit carried out by the Inspector General should focus on any current or former Agency official who—

''(i) holds or held a position in the Agency that is subject to appointment by the President, by and with the advise and consent of the Senate, including such a position held on an acting basis; or

''(ii) holds or held the position in the Agency, including such a position held on an acting basis, of—

''(I) Executive Director;

''(II) Deputy Director for Operations;

''(III) Deputy Director for Intelligence;

''(IV) Deputy Director for Administration; or

''(V) Deputy Director for Science and Technology;

''(C) a matter requires a report by the Inspector General to the Department of Justice on possible criminal conduct by a current or former Agency official described or referred to in subparagraph (B);

''(D) the Inspector General becomes aware of the possible criminal conduct of a current or former Agency official described or referred to in subparagraph (B) through a means other than an investigation, inspection, or audit and such conduct is not referred to the Department of Justice; or

''(E) the Inspector General, after exhausting all possible alternatives, is unable to obtain significant documentary information in the course of an investigation, inspection, or audit,

the Inspector General shall immediately submit a report on such matter to the intelligence committees.''.

SEC. 402. SUBPOENA AUTHORITY OF THE INSPECTOR GENERAL.

(a) CLARIFICATION REGARDING REPORTS ON EXERCISE OF AUTHORITY.—Section 17 of the Central Intelligence Agency Act of 1949 (50 U.S.C. 403q) is amended—

(1) in subsection (d)(1), by striking subparagraph (E) and inserting the following new subparagraph (E):

''(E) a description of the exercise of the subpoena authority under subsection (e)(5) by the Inspector General during the reporting period; and''; and

(2) in subsection (e)(5), by striking subparagraph (E).

(b) SCOPE OF AUTHORITY.—Subsection (e)(5)(B) of that section is amended by striking ''Government'' and inserting ''Federal''.

SEC. 403. IMPROVEMENT AND EXTENSION OF CENTRAL SERVICES PROGRAM.

(a) DEPOSITS IN CENTRAL SERVICES WORKING CAPITAL FUND.—Subsection (c)(2) of section 21 of the Central Intelligence Agency Act of 1949 (50 U.S.C. 403u) is amended—

(1) by redesignating subparagraph (F) as subparagraph (H); and

(2) by inserting after subparagraph (E) the following new subparagraphs:

''(F) Receipts from individuals in reimbursement for utility services and meals provided under the program.

''(G) Receipts from individuals for the rental of property and equipment under the program.''.

(b) CLARIFICATION OF COSTS RECOVERABLE UNDER PROGRAM.—Subsection (e)(1) of that section is amended in the second sentence by inserting ''other than structures owned by the Agency'' after ''depreciation of plant and equipment''.

(c) FINANCIAL STATEMENTS OF PROGRAM.—Subsection (g)(2) of that section is amended in the first sentence by striking ''annual audits under paragraph (1)'' and inserting the following: ''financial statements to be prepared with respect to the program. Office of Management and Budget guidance shall also

determine the procedures for conducting annual audits under paragraph (1).''.

(d) EXTENSION OF PROGRAM.—Subsection (h)(1) of that section is amended by striking ''March 31, 2002'' and inserting ''March 31, 2005''.

SEC. 404. DETAILS OF EMPLOYEES TO THE NATIONAL RECONNAISSANCE OFFICE.

The Central Intelligence Agency Act of 1949 (50 U.S.C. 403a et seq.) is amended by adding at the end the following new section:

''DETAILS OF EMPLOYEES

''SEC. 22. The Director may—

''(1) detail any personnel of the Agency on a reimbursable basis indefinitely to the National Reconnaissance Office without regard to any limitation under law on the duration of details of Federal government personnel; and

''(2) hire personnel for the purpose of details under paragraph (1).''.

SEC. 405. TRANSFERS OF FUNDS TO OTHER AGENCIES FOR ACQUISITION OF LAND.

(a) IN GENERAL.—Section 8 of the Central Intelligence Agency Act of 1949 (50 U.S.C. 403j) is amended by adding at the end the following new subsection:

''(c) TRANSFERS FOR ACQUISITION OF LAND.—(1) Sums appropriated or otherwise made available to the Agency for the acquisition of land that are transferred to another department or agency for that purpose shall remain available for 3 years.

''(2) The Director shall submit to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives an annual report on the transfers of sums described in paragraph (1).''.

(b) CONFORMING STYLISTIC AMENDMENTS.—That section is further amended—

(1) in subsection (a), by inserting ''IN GENERAL.—'' after ''(a)''; and

(2) in subsection (b), by inserting ''SCOPE OF AUTHORITY FOR EXPENDITURE.—'' after ''(b)''.

(c) APPLICABILITY.—Subsection (c) of section 8 of the Central Intelligence Agency Act of 1949, as added by subsection (a) of this section, shall apply with respect to amounts appropriated or otherwise made available for the Central Intelligence Agency for fiscal years after fiscal year 2000.

SEC. 406. ELIGIBILITY OF ADDITIONAL EMPLOYEES FOR REIMBURSEMENT FOR PROFESSIONAL LIABILITY INSURANCE.

(a) IN GENERAL.—Notwithstanding any provision of section 363 of the Treasury, Postal Service, and General Government Appropriations Act, 1997 (5 U.S.C. prec. 5941 note), the Director of Central Intelligence may—

(1) designate as qualified employees within the meaning of subsection (b) of that section appropriate categories of employees not otherwise covered by that subsection; and

(2) use appropriated funds available to the Director to reimburse employees within categories so designated for one-half of the costs incurred by such employees for professional liability insurance in accordance with subsection (a) of that section.

(b) REPORTS.—The Director of Central Intelligence shall submit to the Select Committee on Intelligence of the Senate and the Permanent Select Committee of Intelligence of the House of Representatives a report on each designation of a category of employees under paragraph (1) of subsection (a), including the approximate number of employees covered by such designation and an estimate of the amount to be expended on reimbursement of such employees under paragraph (2) of that subsection.

TITLE V—DEPARTMENT OF DEFENSE INTELLIGENCE ACTIVITIES

[SEC. 501. TWO-YEAR EXTENSION OF AUTHORITY TO ENGAGE IN COMMERCIAL ACTIVITIES AS SECURITY FOR INTELLIGENCE COLLECTION ACTIVITIES.

[Section 431(a) of title 10, United States Code, is amended in the second sentence by striking ''December 31, 2000'' and inserting ''December 31, 2002''.

[SEC. 502. NUCLEAR TEST MONITORING EQUIPMENT.

[(a) IN GENERAL.—Subchapter II of chapter 138 of title 10, United States Code, is amended by adding at the end the following new section:

["§ 2350l. Nuclear test monitoring equipment

[''(a) AUTHORITY TO CONVEY OR PROVIDE.—Subject to subsection (b), the Secretary of Defense may, for purposes of satisfying nuclear test explosion monitoring requirements applicable to the United States—

[''(1) convey or otherwise provide to a foreign government monitoring and associated equipment for nuclear test explosion monitoring purposes; and

[''(2) install such equipment on foreign territory or in international waters as part of such conveyance or provision.

[''(b) AGREEMENT REQUIRED.—Nuclear test explosion monitoring equipment may be conveyed or otherwise provided under the authority in subsection (a) only pursuant to the terms of an agreement in which the foreign government receiving such equipment agrees as follows:

[''(1) To provide the Secretary of Defense timely access to the data produced, collected, or generated by such equipment.

[''(2) To permit the Secretary of Defense to take such measures as the Secretary considers necessary to inspect, test, maintain, repair, or replace such equipment, including access for purposes of such measures.

[''(c) DELEGATION OF RESPONSIBILITIES.—(1) The Secretary of Defense may delegate any or all of the responsibilities of that Secretary under subsection (b) to the Secretary of the Air Force.

[''(2) The Secretary of the Air Force may delegate any or all of the responsibilities delegated to that Secretary under paragraph (1).''.

[(b) CLERICAL AMENDMENT.—The table of sections at the beginning of subchapter II of such chapter is amended by inserting after the item relating to section 2350k the following new item:

[''2350l. Nuclear test monitoring equipment.''.

[SEC. 503. EXPERIMENTAL PERSONNEL MANAGEMENT PROGRAM FOR TECHNICAL PERSONNEL FOR CERTAIN ELEMENTS OF THE INTELLIGENCE COMMUNITY.

[(a) PROGRAM AUTHORIZED.—During the 5-year period beginning on the date of the enactment of this Act, the Director of Central Intelligence may carry out a program of experimental use of the special personnel management authority provided in subsection (b) in order to facilitate recruitment of eminent experts in science or engineering for research and development projects administered by the elements of the intelligence community specified in subsection (c).

[(b) SPECIAL PERSONNEL MANAGEMENT AUTHORITY.—Under the program, the Director of Central Intelligence may—

[(1) within the limitations specified in subsection (c), appoint scientists and engineers from outside the civil service and uniformed services (as such terms are defined in section 2101 of title 5, United States Code) to not more than 39 scientific and engineering positions in the elements of the intelligence community specified in that subsection without regard to any provision of title 5, United States Code, governing the appointment of employees in the civil service;

[(2) prescribe the rates of basic pay for positions to which employees are appointed under paragraph (1) at rates not in excess of the maximum rate of basic pay authorized for senior-level positions under section 5376 of title 5, United States Code, notwithstanding any provision of such title governing the rates of pay or classification of employees in the executive branch; and

[(3) pay any employee appointed under paragraph (1) payments in addition to basic pay within the limit applicable to the employee under subsection (e)(1).

[(c) SPECIFIED ELEMENTS AND LIMITATIONS.—The elements of the intelligence community in which individuals may be appointed under the program, and the maximum number of positions for which individuals may be appointed in each such element, are as follows:

[(1) The National Imagery and Mapping Agency (NIMA), 15 positions.

[(2) The National Security Agency (NSA), 12 positions.

[(3) The National Reconnaissance Office (NRO), 6 positions.

[(4) The Defense Intelligence Agency (DIA), 6 positions.

[(d) LIMITATION ON TERM OF APPOINTMENT.—(1) Except as provided in paragraph (2), the service of an employee under an appointment under subsection (b)(1) may not exceed 4 years.

[(2) The Director of Central Intelligence may, in the case of a particular employee, extend the period to which service is limited under paragraph (1) by up to 2 years if the Director determines that such action is necessary to promote the efficiency of the element of the intelligence community concerned.

[(e) LIMITATIONS ON ADDITIONAL PAYMENTS.—(1) The total amount of the additional payments paid to an employee under subsection (b)(3) for any 12-month period may not exceed the least of the following amounts:

[(A) $25,000.

[(B) The amount equal to 25 percent of the employee's annual rate of basic pay.

[(C) The amount of the limitation that is applicable for a calendar year under section 5307(a)(1) of title 5, United States Code.

[(2) An employee appointed under subsection (b)(1) is not eligible for any bonus, monetary award, or other monetary incentive for service except for payments authorized under subsection (b)(3).

[(f) PERIOD OF PROGRAM.—(1) The program authorized under this section shall terminate at the end of the 5-year period referred to in subsection (a).

[(2) After the termination of the program—

[(A) no appointment may be made under paragraph (1) of subsection (b);

[(B) a rate of basic pay prescribed under paragraph (2) of that subsection may not take effect for a position; and

[(C) no period of service may be extended under subsection (d)(2).

[(g) SAVINGS PROVISIONS.—In the case of an employee who, on the day before the termination of the program, is serving in a position pursuant to an appointment under subsection (b)(1)—

[(1) the termination of the program does not terminate the employee's employment in that position before the expiration of the lesser of—

[(A) the period for which the employee was appointed; or

[(B) the period to which the employee's service is limited under subsection (d), including any extension made under paragraph (2) of that subsection before the termination of the program; and

[(2) the rate of basic pay prescribed for the position under subsection (b)(2) may not be reduced for so long (within the period applicable to the employee under paragraph (1)) as the employee continues to serve in the position without a break in service.

[(h) ANNUAL REPORT.—(1) Not later than October 15 of each year, beginning in 2001 and ending in the year in which the service of employees under the program concludes (including service, if any, that concludes under subsection (g)), the Director of Central Intelligence shall submit a report on the program to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives.

[(2) The report submitted in a year shall cover the 12-month period ending on the day before the anniversary, in that year, of the date of the enactment of this Act.

[(3) The annual report shall contain, for the period covered by the report, the following:

[(A) A detailed discussion of the exercise of authority under this section.

[(B) The sources from which individuals appointed under subsection (b)(1) were recruited.

[(C) The methodology used for identifying and selecting such individuals.

[(D) Any additional information that the Director considers helpful for assessing the utility of the authority under this section.]

SEC. 501. PROHIBITION ON TRANSFER OF IMAGERY ANALYSTS FROM GENERAL DEFENSE INTELLIGENCE PROGRAM TO NATIONAL IMAGERY AND MAPPING AGENCY PROGRAM.

(a) PROHIBITION ON USE OF FUNDS FOR TRANSFER.—No funds authorized to be appropriated by this Act may be transferred from the General Defense Intelligence Program to the National Imagery and Mapping Agency Program for purposes of transferring imagery analysis personnel from the General Defense Intelligence Program to the National Imagery and Mapping Agency Program.

(b) ROLE OF DIRECTOR OF NIMA AS FUNCTIONAL MANAGER FOR IMAGERY AND GEOSPACIAL PROGRAMS.—(1) The Secretary of Defense shall, in consultation with the Director of Central Intelligence, review options for strengthening the role of the Director of the National Imagery and Mapping Agency as the functional manager for United States imagery and geospacial programs.

(2) Not later than March 15, 2001, the Secretary shall submit to the appropriate committees of Congress a report on the review required by subsection (b). The report shall include any recommendations regarding modifications in the role and duties of the Director of the National Imagery and Mapping Agency that the Secretary considers appropriate in light of the review.

(3) In this subsection, the term ''appropriate committees of Congress'' means the following:

(A) The Committee on Armed Services and the Select Committee on Intelligence of the Senate.

(B) The Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives.

SEC. 502. PROHIBITION ON TRANSFER OF COLLECTION MANAGEMENT PERSONNEL FROM GENERAL DEFENSE INTELLIGENCE PROGRAM TO COMMUNITY MANAGEMENT ACCOUNT.

No funds authorized to be appropriated by this Act may be transferred from the General Defense Intelligence Program to the Community Management Account for purposes of transferring intelligence collection management personnel.

SEC. 503. AUTHORIZED PERSONNEL CEILING FOR GENERAL DEFENSE INTELLIGENCE PROGRAM.

The authorized personnel ceiling for the General Defense Intelligence Program specified in the classified Schedule of Authorizations referred to in section 102 is hereby increased by 2,152 positions.

SEC. 504. MEASUREMENT AND SIGNATURE INTELLIGENCE.

(a) STUDY OF OPTIONS.—The Director of Central Intelligence shall, in coordination with the Secretary of Defense, conduct a study of the utility and feasibility of various options for improving the management and organization of measurement and signature intelligence, including the option of establishing a centralized tasking, processing, exploitation, and dissemination facility for measurement and signature intelligence.

(b) REPORT.—Not later than April 1, 2001, the Director and the Secretary shall jointly submit to the appropriate committees of Congress a report on their findings as a result of the study required by subsection (a). The report shall set forth any recommendations that the Director and the Secretary consider appropriate.

(c) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this section, the term ''appropriate committees of Congress'' means the following:

(1) The Committee on Armed Services and the Select Committee on Intelligence of the Senate.

(2) The Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives.

Mr. LOTT. Mr. President, I ask unanimous consent that the committee amendments be agreed to.

The committee amendments were agreed to.

AMENDMENTS NOS. 4280 THROUGH 4285, EN BLOC

Mr. LOTT. Mr. President, I ask unanimous consent that the Senate proceed en bloc to the following amendments which are at the desk: Warner amendment No. 4280, Specter amendment No. 4281, Feinstein amendment No. 4282, Moynihan amendment No. 4283, Kerrey amendment No. 4284, and the Shelby-Bryan amendment No. 4285. I further ask unanimous consent that the amendments be agreed to and the motions to reconsider be laid upon the table en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments (Nos. 4280 through 4285) were agreed to, en bloc, as follows:

AMENDMENT NO. 4280

(Purpose: To modify the provisions relating to Department of Defense intelligence activities)

On page 27, strike line 3 and all that follows through page 37, line 3, and insert the following:

TITLE V—DEPARTMENT OF DEFENSE INTELLIGENCE ACTIVITIES

SEC. 501. TWO-YEAR EXTENSION OF AUTHORITY TO ENGAGE IN COMMERCIAL ACTIVITIES AS SECURITY FOR INTELLIGENCE COLLECTION ACTIVITIES.

Section 431(a) of title 10, United States Code, is amended in the second sentence by striking ''December 31, 2000'' and inserting ''December 31, 2002''.

SEC. 502. ROLE OF DIRECTOR OF CENTRAL INTELLIGENCE IN EXPERIMENTAL PERSONNEL PROGRAM FOR CERTAIN SCIENTIFIC AND TECHNICAL PERSONNEL.

If the Director of Central Intelligence requests that the Secretary of Defense exercise any authority available to the Secretary under section 1101(b) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105–261; 5 U.S.C. 3104 note) to carry out a program of special personnel management authority at the National Imagery and Mapping Agency and the National Security Agency in order to facilitate recruitment of eminent experts in science and engineering at such agencies, the Secretary shall respond to such request not later than 30 days after the date of such request.

SEC. 503. PROHIBITION ON TRANSFER OF IMAGERY ANALYSTS FROM GENERAL DEFENSE INTELLIGENCE PROGRAM TO NATIONAL IMAGERY AND MAPPING AGENCY PROGRAM.

(a) PROHIBITION ON USE OF FUNDS FOR TRANSFER.—No funds authorized to be appropriated by this Act may be transferred from the General Defense Intelligence Program to the National Imagery and Mapping Agency Program for purposes of transferring imagery analysis personnel from the General Defense Intelligence Program to the National Imagery and Mapping Agency Program.

(b) ROLE OF DIRECTOR OF NIMA AS FUNCTIONAL MANAGER FOR IMAGERY AND GEOSPACIAL PROGRAMS.—(1) The Secretary of Defense shall, in consultation with the Director of Central Intelligence, review options for strengthening the role of the Director of the National Imagery and Mapping Agency as the functional manager for United States imagery and geospacial programs.

(2) Not later than March 15, 2001, the Secretary shall submit to the appropriate committees of Congress a report on the review required by subsection (b). The report shall include any recommendations regarding modifications in the role and duties of the Director of the National Imagery and Mapping Agency that the Secretary considers appropriate in light of the review.

(3) In this subsection, the term ''appropriate committees of Congress'' means the following:

(A) The Committee on Armed Services and the Select Committee on Intelligence of the Senate.

(B) The Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives.

SEC. 504. PROHIBITION ON TRANSFER OF COLLECTION MANAGEMENT PERSONNEL FROM GENERAL DEFENSE INTELLIGENCE PROGRAM TO COMMUNITY MANAGEMENT ACCOUNT.

No funds authorized to be appropriated by this Act may be transferred from the General Defense Intelligence Program to the Community Management Account for purposes of transferring intelligence collection management personnel.

SEC. 505. AUTHORIZED PERSONNEL CEILING FOR GENERAL DEFENSE INTELLIGENCE PROGRAM.

The authorized personnel ceiling for the General Defense Intelligence Program specified in the classified Schedule of Authorizations referred to in section 102 is hereby increased by 2,152 positions.

SEC. 506. MEASUREMENT AND SIGNATURE INTELLIGENCE.

(a) STUDY OF OPTIONS.—The Director of Central Intelligence shall, in coordination

with the Secretary of Defense, conduct a study of the utility and feasibility of various options for improving the management and organization of measurement and signature intelligence, including—

(1) the option of establishing a centralized tasking, processing, exploitation, and dissemination facility for measurement and signature intelligence;

(2) options for recapitalizing and reconfiguring the current systems for measurement and signature intelligence; and

(3) the operation and maintenance costs of the various options.

(b) REPORT.—Not later than April 1, 2001, the Director and the Secretary shall jointly submit to the appropriate committees of Congress a report on their findings as a result of the study required by subsection (a). The report shall set forth any recommendations that the Director and the Secretary consider appropriate.

(c) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this section, the term ''appropriate committees of Congress'' means the following:

(1) The Committee on Armed Services and the Select Committee on Intelligence of the Senate.

(2) The Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives.

AMENDMENT NO. 4281

(Purpose: To modify procedures under the Foreign Intelligence Surveillance Act of 1978 relating to orders for surveillance and searches for foreign intelligence purposes.)

(The text of the amendment is printed in today's RECORD under ''Amendments Submitted.'')

AMENDMENT NO. 4282

(Purpose: To require disclosure under the Freedom of Information Act regarding certain persons and records of the Japanese Imperial Army in a manner that does not impair any investigation or prosecution conducted by the Department of Justice or certain intelligence matters)

On page 37, after line 3, add the following:

TITLE VI—DISCLOSURE OF INFORMATION ON JAPANESE IMPERIAL ARMY

SEC. 601. SHORT TITLE.

This title may be cited as the ''Japanese Imperial Army Disclosure Act''.

SEC. 602. ESTABLISHMENT OF JAPANESE IMPERIAL ARMY RECORDS INTERAGENCY WORKING GROUP.

(a) DEFINITIONS.—In this section:

(1) AGENCY.—The term ''agency'' has the meaning given such term under section 551 of title 5, United States Code.

(2) INTERAGENCY GROUP.—The term ''Interagency Group'' means the Japanese Imperial Army Records Interagency Working Group established under subsection (b).

(3) JAPANESE IMPERIAL ARMY RECORDS.—The term ''Japanese Imperial Army records'' means classified records or portions of records that pertain to any person with respect to whom the United States Government, in its sole discretion, has grounds to believe ordered, incited, assisted, or otherwise participated in the experimentation and persecution of any person because of race, religion, national origin, or political option, during the period beginning September 18, 1931, and ending on December 31, 1948, under the direction of, or in association with—

(A) the Japanese Imperial Army;

(B) any government in any area occupied by the military forces of the Japanese Imperial Army;

(C) any government established with the assistance or cooperation of the Japanese Imperial Army; or

(D) any government which was an ally of the Imperial Army of Japan.

(4) RECORD.—The term ''record'' means a Japanese Imperial Army record.

(b) ESTABLISHMENT OF INTERAGENCY GROUP.—

(1) IN GENERAL.—Not later than 60 days after the date of the enactment of this Act, the President shall establish the Japanese Imperial Army Records Interagency Working Group, which shall remain in existence for 3 years after the date the Interagency Group is established.

(2) MEMBERSHIP.—The President shall appoint to the Interagency Group individuals whom the President determines will most completely and effectively carry out the functions of the Interagency Group within the time limitations provided in this section, including the Historian of the Department of State, the Archivist of the United States, the head of any other agency the President considers appropriate, and no more than 3 other persons. The head of an agency appointed by the President may designate an appropriate officer to serve on the Interagency Group in lieu of the head of such agency.

(3) INITIAL MEETING.—Not later than 90 days after the date of the enactment of this Act, the Interagency Group shall hold an initial meeting and begin the functions required under this section.

(c) FUNCTIONS.—Not later than 1 year after the date of the enactment of this Act, the Interagency Group shall, to the greatest extent possible consistent with section 603—

(1) locate, identify, inventory, recommend for declassification, and make available to the public at the National Archives and Records Administration, all classified Japanese Imperial Army records of the United States;

(2) coordinate with agencies and take such actions as necessary to expedite the release of such records to the public; and

(3) submit a report to Congress, including the Committee on Government Reform and Oversight of the House of Representatives, the Select Committee on Intelligence of the Senate, the Permanent Select Committee on Intelligence of the House of Representatives, and the Committee on the Judiciary of the Senate, describing all such records, the disposition of such records, and the activities of the Interagency Group and agencies under this section.

(d) FUNDING.—There is authorized to be appropriated such sum as may be necessary to carry out the provisions of this title.

SEC. 603. REQUIREMENT OF DISCLOSURE OF RECORDS.

(a) RELEASE OF RECORDS.—Subject to subsections (b), (c), and (d), the Japanese Imperial Army Records Interagency Working Group shall release in their entirety Japanese Imperial Army records.

(b) EXCEPTION FOR PRIVACY.—An agency head may exempt from release under subsection (a) specific information, that would—

(1) constitute a clearly unwarranted invasion of personal privacy;

(2) reveal the identity of a confidential human source, or reveal information about the application of an intelligence source or method, or reveal the identity of a human intelligence source when the unauthorized disclosure of that source would clearly and demonstrably damage the national security interests of the United States;

(3) reveal information that would assist in the development or use of weapons of mass destruction;

(4) reveal information that would impair United States cryptologic systems or activities;

(5) reveal information that would impair the application of state-of-the-art technology within a United States weapon system;

(6) reveal actual United States military war plans that remain in effect;

(7) reveal information that would seriously and demonstrably impair relations between the United States and a foreign government, or seriously and demonstrably undermine ongoing diplomatic activities of the United States;

(8) reveal information that would clearly, and demonstrably impair the current ability of United States Government officials to protect the President, Vice President, and other officials for whom protection services are authorized in the interest of national security;

(9) reveal information that would seriously and demonstrably impair current national security emergency preparedness plans; or

(10) violate a treaty or other international agreement.

(c) APPLICATIONS OF EXEMPTIONS.—

(1) IN GENERAL.—In applying the exemptions provided in paragraphs (2) through (10) of subsection (b), there shall be a presumption that the public interest will be served by disclosure and release of the records of the Japanese Imperial Army. The exemption may be asserted only when the head of the agency that maintains the records determines that disclosure and release would be harmful to a specific interest identified in the exemption. An agency head who makes such a determination shall promptly report it to the committees of Congress with appropriate jurisdiction, including the Committee on the Judiciary and the Select Committee on Intelligence of the Senate and the Committee on Government Reform and Oversight and the Permanent Select Committee on Intelligence of the House of Representatives.

(2) APPLICATION OF TITLE 5.—A determination by an agency head to apply an exemption provided in paragraphs (2) through (9) of subsection (b) shall be subject to the same standard of review that applies in the case of records withheld under section 552(b)(1) of title 5, United States Code.

(d) LIMITATION ON EXEMPTIONS.—

(1) IN GENERAL.—The exemptions set forth in subsection (b) shall constitute the only grounds pursuant to which an agency head may exempt records otherwise subject to release under subsection (a).

(2) RECORDS RELATED TO INVESTIGATION OR PROSECUTIONS.—This section shall not apply to records—

(A) related to or supporting any active or inactive investigation, inquiry, or prosecution by the Office of Special Investigations of the Department of Justice; or

(B) solely in the possession, custody, or control of the Office of Special Investigations.

SEC. 604. EXPEDITED PROCESSING OF FOIA REQUESTS FOR JAPANESE IMPERIAL ARMY RECORDS.

For purposes of expedited processing under section 552(a)(6)(E) of title 5, United States Code, any person who was persecuted in the manner described in section 602(a)(3) and who requests a Japanese Imperial Army record shall be deemed to have a compelling need for such record.

SEC. 605. EFFECTIVE DATE.

The provisions of this title shall take effect on the date that is 90 days after the date of the enactment of this Act.

AMENDMENT NO. 4283

(Purpose: To improve the identification, collection, and review for declassification of records and materials that are of archival value or extraordinary public interest to the people of the United States)

(The text of the amendment is printed in today's RECORD under ''Amendments Submitted.'')

AMENDMENT NO. 4284

(Purpose: To honor the outstanding contributions of Senator Daniel Patrick Moynihan toward the redevelopment of Pennsylvania Avenue, Washington, DC)

At the end of title III, add the following:

SEC. 3___. DESIGNATION OF DANIEL PATRICK MOYNIHAN PLACE.

(a) FINDINGS.—Congress finds that—

(1) during the second half of the twentieth century, Senator Daniel Patrick Moynihan promoted the importance of architecture and urban planning in the Nation's Capital, particularly with respect to the portion of Pennsylvania Avenue between the White House and the United States Capitol (referred to in this subsection as the ''Avenue'');

(2) Senator Moynihan has stressed the unique significance of the Avenue as conceived by Pierre Charles L'Enfant to be the ''grand axis'' of the Nation's Capital as well as a symbolic representation of the separate yet unified branches of the United States Government;

(3) through his service to the Ad Hoc Committee on Federal Office Space (1961–1962), as a member of the President's Council on Pennsylvania Avenue (1962–1964), and as vice-chairman of the President's Temporary Commission on Pennsylvania Avenue (1965–1969), and in his various capacities in the executive and legislative branches, Senator Moynihan has consistently and creatively sought to fulfill President Kennedy's recommendation of June 1, 1962, that the Avenue not become a ''solid phalanx of public and private office buildings which close down completely at night and on weekends,'' but that it be ''lively, friendly, and inviting, as well as dignified and impressive'';

(4)(A) Senator Moynihan helped draft a Federal architectural policy, known as the ''Guiding Principles for Federal Architecture,'' that recommends a choice of designs that are ''efficient and economical'' and that provide ''visual testimony to the dignity, enterprise, vigor, and stability'' of the United States Government; and

(B) the Guiding Principles for Federal Architecture further state that the ''development of an official style must be avoided. Design must flow from the architectural profession to the Government, and not vice versa.'';

(5) Senator Moynihan has encouraged—

(A) the construction of new buildings along the Avenue, such as the Ronald Reagan Building and International Trade Center; and

(B) the establishment of an academic institution along the Avenue, namely the Woodrow Wilson International Center for Scholars, a living memorial to President Wilson; and

(6) as Senator Moynihan's service in the Senate concludes, it is appropriate to commemorate his legacy of public service and his commitment to thoughtful urban design in the Nation's Capital.

(b) DESIGNATION.—The parcel of land located in the northwest quadrant of Washington, District of Columbia, and described in subsection (c) shall be known and designated as ''Daniel Patrick Moynihan Place''.

(c) BOUNDARIES.—The parcel of land described in this subsection is the portion of Woodrow Wilson Plaza (as designated by Public Law 103–284 (108 Stat. 1448)) that is bounded—

(1) on the west by the eastern facade of the Ronald Reagan Building and International Trade Center;

(2) on the east by the western facade of the Ariel Rios Building;

(3) on the north by the southern edge of the sidewalk abutting Pennsylvania Avenue; and

(4) on the south by the line that, bisecting the atrium of the Ronald Reagan Building and International Trade Center, continues east to bisect the western hemicycle of the Ariel Rios Building.

(d) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the parcel of land described in subsection (c) shall be deemed to be a reference to Daniel Patrick Moynihan Place.

AMENDMENT NO. 4285

On page 10, strike line 11 and all that follows through page 12, line 2, and insert the following:

''(a) PROHIBITION.—Whoever, being an officer or employee of the United States, a former or retired officer or employee of the United States, any other person with authorized access to classified information, or any other person formerly with authorized access to classified information, knowingly and willfully discloses, or attempts to disclose, any classified information acquired as a result of such person's authorized access to classified information to a person (other than an officer or employee of the United States) who is not authorized access to such classified information, knowing that the person is not authorized access to such classified information, shall be fined under this title, imprisoned not more than 3 years, or both.

''(b) CONSTRUCTION OF PROHIBITION.—Nothing in this section shall be construed to establish criminal liability for disclosure of classified information in accordance with applicable law to the following:

''(1) Any justice or judge of a court of the United States established pursuant to article III of the Constitution of the United States.

''(2) The Senate or House of Representatives, or any committee or subcommittee thereof, or joint committee thereof, or any member of Congress.

''(3) A person or persons acting on behalf of a foreign power (including an international organization) if the disclosure—

''(A) is made by an officer or employee of the United States who has been authorized to make the disclosure; and

''(B) is within the scope of such officer's or employee's duties.

''(4) Any other person authorized to receive the classified information.

''(c) DEFINITIONS.—In this section:

''(1) The term 'authorized', in the case of access to classified information, means having authority or permission to have access to the classified information pursuant to the provisions of a statute, Executive Order, regulation, or directive of the head of any department or agency who is empowered to classify information, an order of any United States court, or a provision of any Resolution of the Senate or Rule of the House of Representatives which governs release of classified information by such House of Congress.

''(2) The term 'classified information' means information or material properly classified and clearly marked or represented, or that the person knows or has reason to believe has been properly classified by appropriate authorities, pursuant to the provisions of a statute or Executive Order, as requiring protection against unauthorized disclosure for reasons of national security.

On page 12, strike line 21 and all that follows through page 13, line 16, and insert the following:

''SEC. 115. (a) REQUIREMENT.—(1) The Director of Central Intelligence shall, in consultation with the Secretary of Defense, establish and maintain in the intelligence community an analytic capability with responsibility for intelligence in support of the activities of the United States relating to unaccounted for United States personnel.

''(2) The analytic capability maintained under paragraph (1) shall be known as the 'POW/MIA analytic capability of the intelligence community'.

''(b) SCOPE OF RESPONSIBILITY.—The responsibilities of the analytic capability maintained under subsection (a) shall—

''(1) extend to any activities of the Federal Government with respect to unaccounted for United States personnel after December 31, 1999; and

''(2) include support for any department or agency of the Federal Government engaged in such activities.

''(c) UNACCOUNTED FOR UNITED STATES PERSONNEL DEFINED.—In this section, the term 'unaccounted for United States personnel' means the following:

''(1) Any missing person (as that term is defined in section 1513(1) of title 10, United States Code).

''(2) Any United States national who was killed while engaged in activities on behalf of the United States Government and whose remains have not been repatriated to the United States.''.

On page 14, beginning on line 11, strike ''acting at their direction''.

On page 14, line 13, insert '', and at the direction of,'' after ''on behalf of''.

On page 14, line 16, strike ''AUTHORIZED ACTIVITIES.—An activity'' and insert ''AUTHORIZED INTELLIGENCE ACTIVITIES.—An intelligence activity''.

On page 14, line 18, insert ''intelligence'' before ''activity''.

On page 15, beginning on line 9, strike '', and all applicable Executive Orders,''.

On page 15, line 11, strike ''materials'' and insert ''material''.

On page 15, line 15, strike ''and Executive Orders''.

On page 15, line 18, strike ''or Executive Order''.

On page 15, line 22, strike ''or Executive Order''.

On page 15, strike line 25 and all that follows through page 16, line 16, and insert the following:

(d) EFFECTS OF CERTIFICATION OF NON-FULL COMPLIANCE.—(1) Subject to subsection (e), effective as of January 1, 2001, a covered element of the Department of State

On page 16, line 20, strike ''and Executive Orders''.

On page 16, strike lines 22 and 23 and insert the following:

(2) If the prohibition in paragraph (1) takes effect in accordance with that paragraph, the prohibition

On page 17, beginning on line 1, strike ''and Executive Orders''.

On page 17, strike line 3 and insert the following:

(e) WAIVER BY DIRECTOR OF CENTRAL INTELLIGENCE.—(1) The Director of Central Intelligence may

On page 17, beginning on line 4, strike ''subsection (d)(2)'' and insert ''subsection (d)''.

On page 17, line 6, strike ''the President'' and insert ''the Director''.

On page 17, line 9, strike ''The President'' and insert ''The Director''.

On page 17, between lines 17 and 18, insert the following:

(C) The actions, if any, that will be taken to bring such element into full compliance with the directives referred to in subsection (a), including a schedule for completion of such actions.

On page 17, line 18, strike ''(C) The actions taken by the President'' and insert ''(D) The actions taken by the Director''.

On page 17, line 20, insert before the period the following: ''pending achievement of full compliance of such element with such directives''.

Mr. LOTT. Mr. President, I ask unanimous consent that the bill be read the third time and the Senate proceed to the consideration of H.R. 4392. Further, I ask unanimous consent that all after the enacting clause be stricken and the text of S. 2507, as amended, be inserted in lieu thereof, the bill be read the third time and passed, the Senate insist on its amendment, request a conference with the House, and the Chair be authorized to appoint conferees on the part of the Senate. Finally, I ask unanimous consent that S. 2507 be placed back on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 2507), as amended, was read the third time.

The bill (H.R. 4392), as amended, was read the third time and passed, as follows:

Resolved, That the bill from the House of Representatives (H.R. 4392) entitled ''An Act to authorize appropriations for fiscal year 2001 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.'', do pass with the following amendment:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Intelligence Authorization Act for Fiscal Year 2001''.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

TITLE I—INTELLIGENCE ACTIVITIES

SEC. 101. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION OF APPROPRIATIONS FOR FISCAL YEAR 2001.—Funds are hereby authorized to be appropriated for fiscal year 2001 for the conduct of the intelligence and intelligence-related activities of the following elements of the United States Government:

(1) The Central Intelligence Agency.
(2) The Department of Defense.
(3) The Defense Intelligence Agency.
(4) The National Security Agency.
(5) The National Reconnaissance Office.
(6) The National Imagery and Mapping Agency.
(7) The Department of the Army, the Department of the Navy, and the Department of the Air Force.
(8) The Department of State.
(9) The Department of the Treasury.
(10) The Department of Energy.
(11) The Federal Bureau of Investigation.

(b) AUTHORIZATION OF APPROPRIATIONS FOR CERTAIN ELEMENTS FOR FISCAL YEARS 2002 THROUGH 2005.—Funds are hereby authorized to be appropriated for each of fiscal years 2002 through 2005 for the conduct in each such fiscal year of the intelligence and intelligence-related activities of the following elements of the United States Government:

(1) The Central Intelligence Agency.
(2) The Defense Intelligence Agency.
(3) The National Security Agency.
(4) The National Reconnaissance Office.

SEC. 102. CLASSIFIED SCHEDULE OF AUTHORIZATIONS.

(a) SPECIFICATIONS OF AMOUNTS AND PERSONNEL CEILINGS.—The amounts authorized to be appropriated under section 101, and the authorized personnel ceilings as of September 30, 2001, for the conduct of the intelligence and intelligence-related activities of the elements listed in such section, are those specified in the classified Schedule of Authorizations prepared to accompany the conference report on the bill _____ of the One Hundred Sixth Congress.

(b) AVAILABILITY OF CLASSIFIED SCHEDULE OF AUTHORIZATIONS.—The Schedule of Authorizations shall be made available to the Committees on Appropriations of the Senate and House of Representatives and to the President. The President shall provide for suitable distribution of the Schedule, or of appropriate portions of the Schedule, within the Executive Branch.

SEC. 103. PERSONNEL CEILING ADJUSTMENTS.

(a) AUTHORITY FOR ADJUSTMENTS.—With the approval of the Director of the Office of Management and Budget, the Director of Central Intelligence may authorize employment of civilian

personnel in excess of the number authorized for fiscal year 2001 under section 102 when the Director of Central Intelligence determines that such action is necessary to the performance of important intelligence functions, except that the number of personnel employed in excess of the number authorized under such section may not, for any element of the intelligence community, exceed two percent of the number of civilian personnel authorized under such section for such element.

(b) NOTICE TO INTELLIGENCE COMMITTEES.—The Director of Central Intelligence shall promptly notify the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives whenever the Director exercises the authority granted by this section.

SEC. 104. COMMUNITY MANAGEMENT ACCOUNT.

(a) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There is authorized to be appropriated for the Community Management Account of the Director of Central Intelligence for fiscal year 2001 the sum of $232,051,000.

(2) AVAILABILITY FOR ADVANCED RESEARCH AND DEVELOPMENT COMMITTEE.—Within the amount authorized to be appropriated in paragraph (1), amounts identified in the classified Schedule of Authorizations referred to in section 102(a) for the Advanced Research and Development Committee shall remain available until September 30, 2002.

(b) AUTHORIZED PERSONNEL LEVELS.—The elements within the Community Management Account of the Director of Central Intelligence are authorized a total of 618 full-time personnel as of September 30, 2001. Personnel serving in such elements may be permanent employees of the Community Management Account element or personnel detailed from other elements of the United States Government.

(c) CLASSIFIED AUTHORIZATIONS.—

(1) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts authorized to be appropriated for the Community Management Account by subsection (a), there is also authorized to be appropriated for the Community Management Account for fiscal year 2001 such additional amounts as are specified in the classified Schedule of Authorizations referred to in section 102(a).

(2) AUTHORIZATION OF PERSONNEL.—In addition to the personnel authorized by subsection (b) for elements of the Community Management Account as of September 30, 2001, there is hereby authorized such additional personnel for such elements as of that date as is specified in the classified Schedule of Authorizations.

(d) REIMBURSEMENT.—Except as provided in section 113 of the National Security Act of 1947 (50 U.S.C. 404h), during fiscal year 2001, any officer or employee of the United States or member of the Armed Forces who is detailed to the staff of an element within the Community Management Account from another element of the United States Government shall be detailed on a reimbursable basis, except that any such officer, employee, or member may be detailed on a nonreimbursable basis for a period of less than one year for the performance of temporary functions as required by the Director of Central Intelligence.

(e) NATIONAL DRUG INTELLIGENCE CENTER.—

(1) IN GENERAL.—Of the amount authorized to be appropriated in subsection (a), $27,000,000 shall be available for the National Drug Intelligence Center. Within such amount, funds provided for research, development, test, and evaluation purposes shall remain available until September 30, 2002, and funds provided for procurement purposes shall remain available until September 30, 2003.

(2) TRANSFER OF FUNDS.—The Director of Central Intelligence shall transfer to the Attorney General of the United States funds available for the National Drug Intelligence Center under paragraph (1). The Attorney General shall utilize funds so transferred for activities of the National Drug Intelligence Center.

(3) LIMITATION.—Amounts available for the National Drug Intelligence Center may not be used in contravention of the provisions of section 103(d)(1) of the National Security Act of 1947 (50 U.S.C. 403–3(d)(1)).

(4) AUTHORITY.—Notwithstanding any other provision of law, the Attorney General shall retain full authority over the operations of the National Drug Intelligence Center.

TITLE II—CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM

SEC. 201. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated for the Central Intelligence Agency Retirement and Disability Fund for fiscal year 2001 the sum of $216,000,000.

TITLE III—GENERAL PROVISIONS

SEC. 301. INCREASE IN EMPLOYEE COMPENSATION AND BENEFITS AUTHORIZED BY LAW.

Appropriations authorized by this Act for salary, pay, retirement, and other benefits for Federal employees may be increased by such additional or supplemental amounts as may be necessary for increases in such compensation or benefits authorized by law.

SEC. 302. RESTRICTION ON CONDUCT OF INTELLIGENCE ACTIVITIES.

The authorization of appropriations by this Act shall not be deemed to constitute authority for the conduct of any intelligence activity which is not otherwise authorized by the Constitution or the laws of the United States.

SEC. 303. PROHIBITION ON UNAUTHORIZED DISCLOSURE OF CLASSIFIED INFORMATION.

(a) IN GENERAL.—Chapter 37 of title 18, United States Code, is amended—

(1) by redesignating section 798A as section 798B; and

(2) by inserting after section 798 the following new section 798A:

''§ 798A. Unauthorized disclosure of classified information

''(a) PROHIBITION.—Whoever, being an officer or employee of the United States, a former or retired officer or employee of the United States, any other person with authorized access to classified information, or any other person formerly with authorized access to classified information, knowingly and willfully discloses, or attempts to disclose, any classified information acquired as a result of such person's authorized access to classified information to a person (other than an officer or employee of the United States) who is not authorized access to such classified information, knowing that the person is not authorized access to such classified information, shall be fined under this title, imprisoned not more than 3 years, or both.

''(b) CONSTRUCTION OF PROHIBITION.—Nothing in this section shall be construed to establish criminal liability for disclosure of classified information in accordance with applicable law to the following:

''(1) Any justice or judge of a court of the United States established pursuant to article III of the Constitution of the United States.

''(2) The Senate or House of Representatives, or any committee or subcommittee thereof, or joint committee thereof, or any member of Congress.

''(3) A person or persons acting on behalf of a foreign power (including an international organization) if the disclosure—

''(A) is made by an officer or employee of the United States who has been authorized to make the disclosure; and

''(B) is within the scope of such officer's or employee's duties.

''(4) Any other person authorized to receive the classified information.

''(c) DEFINITIONS.—In this section:

''(1) The term 'authorized', in the case of access to classified information, means having authority or permission to have access to the classified information pursuant to the provisions of a statute, Executive Order, regulation, or directive of the head of any department or agency who is empowered to classify information, an order of any United States court, or a provision of any Resolution of the Senate or Rule of the House of Representatives which governs release of classified information by such House of Congress.

''(2) The term 'classified information' means information or material properly classified and clearly marked or represented, or that the person knows or has reason to believe has been properly classified by appropriate authorities, pursuant to the provisions of a statute or Executive Order, as requiring protection against unauthorized disclosure for reasons of national security.

''(3) The term 'officer or employee of the United States' means the following:

''(A) An officer or employee (as those terms are defined in sections 2104 and 2105 of title 5).

''(B) An officer or enlisted member of the Armed Forces (as those terms are defined in section 101(b) of title 10).''.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of that chapter is amended by striking the item relating to section 798A and inserting the following new items:

''798A. Unauthorized disclosure of classified information.

''798B. Temporary extension of section 794.''.

SEC. 304. POW/MIA ANALYTIC CAPABILITY WITHIN THE INTELLIGENCE COMMUNITY.

Title I of the National Security Act of 1947 (50 U.S.C. 402 et seq.) is amended by adding at the end the following:

''POW/MIA ANALYTIC CAPABILITY

''SEC. 115. (a) REQUIREMENT.—(1) The Director of Central Intelligence shall, in consultation with the Secretary of Defense, establish and maintain in the intelligence community an analytic capability with responsibility for intelligence in support of the activities of the United States relating to unaccounted for United States personnel.

''(2) The analytic capability maintained under paragraph (1) shall be known as the 'POW/MIA analytic capability of the intelligence community'.

''(b) SCOPE OF RESPONSIBILITY.—The responsibilities of the analytic capability maintained under subsection (a) shall—

''(1) extend to any activities of the Federal Government with respect to unaccounted for United States personnel after December 31, 1999; and

''(2) include support for any department or agency of the Federal Government engaged in such activities.

''(c) UNACCOUNTED FOR UNITED STATES PERSONNEL DEFINED.—In this section, the term 'unaccounted for United States personnel' means the following:

''(1) Any missing person (as that term is defined in section 1513(1) of title 10, United States Code).

''(2) Any United States national who was killed while engaged in activities on behalf of the United States Government and whose remains have not been repatriated to the United States.''.

SEC. 305. APPLICABILITY TO LAWFUL UNITED STATES INTELLIGENCE ACTIVITIES OF FEDERAL LAWS IMPLEMENTING INTERNATIONAL TREATIES AND AGREEMENTS.

The National Security Act of 1947 (50 U.S.C. 401 et seq.) is amended by adding at the end the following:

''TITLE X—MISCELLANEOUS

''APPLICABILITY TO UNITED STATES INTELLIGENCE ACTIVITIES OF FEDERAL LAWS IMPLEMENTING INTERNATIONAL TREATIES AND AGREEMENTS

''SEC. 1001. (a) IN GENERAL.—No Federal law enacted on or after the date of the enactment of the Intelligence Authorization Act for Fiscal Year 2001 that implements a treaty or other international agreement shall be construed as making unlawful an otherwise lawful and authorized intelligence activity of the United States Government or its employees, or any other person to the extent such other person is carrying out such activity on behalf of, and at the direction of, the United States, unless such Federal law specifically addresses such intelligence activity.

''(b) AUTHORIZED INTELLIGENCE ACTIVITIES.—An intelligence activity shall be treated as authorized for purposes of subsection (a) if the intelligence activity is authorized by an appropriate official of the United States Government, acting within the scope of the official duties of that official and in compliance with Federal law and any applicable Presidential directive.''.

SEC. 306. LIMITATION ON HANDLING, RETENTION, AND STORAGE OF CERTAIN CLASSIFIED MATERIALS BY THE DEPARTMENT OF STATE.

(a) CERTIFICATION REGARDING FULL COMPLIANCE WITH REQUIREMENTS.—The Director of Central Intelligence shall certify to the appropriate committees of Congress whether or not each covered element of the Department of State is in full compliance with all applicable directives of the Director of Central Intelligence relating to the handling, retention, or storage of covered classified material.

(b) LIMITATION ON CERTIFICATION.—The Director of Central Intelligence may not certify a covered element of the Department of State as being in full compliance with the directives referred to in subsection (a) if the covered element is currently subject to a waiver of compliance with respect to any such directive.

(c) REPORT ON NONCOMPLIANCE.—Whenever the Director of Central Intelligence determines that a covered element of the Department of State is not in full compliance with any directive referred to in subsection (a), the Director shall promptly notify the appropriate committees of Congress of such determination.

(d) EFFECTS OF CERTIFICATION OF NON-FULL COMPLIANCE.—(1) Subject to subsection (e), effective as of January 1, 2001, a covered element of the Department of State may not retain or store covered classified information unless the Director has certified under subsection (a) as of such date that the covered element is in full compliance with the directives referred to in subsection (a).

(2) If the prohibition in paragraph (1) takes effect in accordance with that paragraph, the prohibition shall remain in effect until the date on which the Director certifies under subsection (a) that the covered element involved is in full compliance with the directives referred to in that subsection.

(e) WAIVER BY DIRECTOR OF CENTRAL INTELLIGENCE.—(1) The Director of Central Intelligence may waive the applicability of the prohibition in subsection (d) to an element of the Department of State otherwise covered by such prohibition if the Director determines that the waiver is in the national security interests of the United States.

(2) The Director shall submit to appropriate committees of Congress a report on each exercise of the waiver authority in paragraph (1).

(3) Each report under paragraph (2) with respect to the exercise of authority under paragraph (1) shall set forth the following:

(A) The covered element of the Department of State addressed by the waiver.

(B) The reasons for the waiver.

(C) The actions, if any, that will be taken to bring such element into full compliance with the directives referred to in subsection (a), including a schedule for completion of such actions.

(D) The actions taken by the Director to protect any covered classified material to be handled, retained, or stored by such element pending achievement of full compliance of such element with such directives.

(f) DEFINITIONS.—In this section:

(1) The term ''appropriate committees of Congress'' means the following:

(A) The Select Committee on Intelligence and the Committee on Foreign Relations of the Senate.

(B) The Permanent Select Committee on Intelligence and the Committee on International Relations of the House of Representatives.

(2) The term ''covered classified material'' means any material classified at the Sensitive Compartmented Information (SCI) level.

(3) The term ''covered element of the Department of State'' means each element of the Department of State that handles, retains, or stores covered classified material.

(4) The term ''material'' means any data, regardless of physical form or characteristic, including written or printed matter, automated information systems storage media, maps, charts, paintings, drawings, films, photographs, engravings, sketches, working notes, papers, reproductions of any such things by any means or process, and sound, voice, magnetic, or electronic recordings.

(5) The term ''Sensitive Compartmented Information (SCI) level'', in the case of classified material, means a level of classification for information in such material concerning or derived from intelligence sources, methods, or analytical processes that requires such information to be handled within formal access control systems established by the Director of Central Intelligence.

SEC. 307. CLARIFICATION OF STANDING OF UNITED STATES CITIZENS TO CHALLENGE CERTAIN BLOCKING OF ASSETS.

The Foreign Narcotics Kingpin Designation Act (title VIII of Public Law 106–120; 113 Stat. 1626; 21 U.S.C. 1901 et seq.) is amended by adding at the end the following new section:

''SEC. 811. STANDING OF UNITED STATES CITIZENS TO CHALLENGE BLOCKING OF ASSETS.

''No provision of this title shall be construed to prohibit a United States citizen from raising any challenge otherwise available to the United States citizen under subchapter II of chapter 5 and chapter 7 of title 5, United States Code (commonly referred to as the Administrative Procedure Act), or any other provision of law, with respect to the blocking of assets by the United States under this title.''.

SEC. 308. AVAILABILITY OF CERTAIN FUNDS FOR ADMINISTRATIVE COSTS OF COUNTERDRUG INTELLIGENCE EXECUTIVE SECRETARIAT.

Notwithstanding section 1346 of title 31, United States Code, or section 610 of the Treasury and General Government Appropriations Act, 2000 (Public Law 106–58; 113 Stat. 467), funds made available for fiscal year 2000 for any department or agency of the Federal Government with authority to conduct counterdrug intelligence activities, including counterdrug law enforcement information-gathering activities, may be available to finance an appropriate share of the administrative costs incurred by the Department of Justice for the Counterdrug Intelligence Executive Secretariat authorized by the General Counterdrug Intelligence Plan of February 12, 2000.

SEC. 309. DESIGNATION OF DANIEL PATRICK MOYNIHAN PLACE.

(a) FINDINGS.—Congress finds that—

(1) during the second half of the twentieth century, Senator Daniel Patrick Moynihan promoted the importance of architecture and urban planning in the Nation's Capital, particularly with respect to the portion of Pennsylvania Avenue between the White House and the United States Capitol (referred to in this subsection as the ''Avenue'');

(2) Senator Moynihan has stressed the unique significance of the Avenue as conceived by Pierre Charles L'Enfant to be the ''grand axis'' of the Nation's Capital as well as a symbolic representation of the separate yet unified branches of the United States Government;

(3) through his service to the Ad Hoc Committee on Federal Office Space (1961–1962), as a member of the President's Council on Pennsylvania Avenue (1962–1964), and as vice-chairman of the President's Temporary Commission on Pennsylvania Avenue (1965–1969), and in his various capacities in the executive and legislative branches, Senator Moynihan has consistently and creatively sought to fulfill President Kennedy's recommendation of June 1, 1962, that the Avenue not become a ''solid phalanx of public and private office buildings which close down completely at night and on weekends,'' but that it be ''lively, friendly, and inviting, as well as dignified and impressive'';

(4)(A) Senator Moynihan helped draft a Federal architectural policy, known as the ''Guiding Principles for Federal Architecture,'' that recommends a choice of designs that are ''efficient and economical'' and that provide ''visual testimony to the dignity, enterprise, vigor, and stability'' of the United States Government; and

(B) the Guiding Principles for Federal Architecture further state that the ''development of an official style must be avoided. Design must flow from the architectural profession to the Government, and not vice versa.'';

(5) Senator Moynihan has encouraged—

(A) the construction of new buildings along the Avenue, such as the Ronald Reagan Building and International Trade Center; and

(B) the establishment of an academic institution along the Avenue, namely the Woodrow Wilson International Center for Scholars, a living memorial to President Wilson; and

(6) as Senator Moynihan's service in the Senate concludes, it is appropriate to commemorate his legacy of public service and his commitment to thoughtful urban design in the Nation's Capital.

(b) DESIGNATION.—The parcel of land located in the northwest quadrant of Washington, District of Columbia, and described in subsection (c) shall be known and designated as ''Daniel Patrick Moynihan Place''.

(c) BOUNDARIES.—The parcel of land described in this subsection is the portion of Woodrow Wilson Plaza (as designated by Public Law 103–284 (108 Stat. 1448)) that is bounded—

(1) on the west by the eastern facade of the Ronald Reagan Building and International Trade Center;

(2) on the east by the western facade of the Ariel Rios Building;

(3) on the north by the southern edge of the sidewalk abutting Pennsylvania Avenue; and

(4) on the south by the line that, bisecting the atrium of the Ronald Reagan Building and International Trade Center, continues east to bisect the western hemicycle of the Ariel Rios Building.

(d) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other

record of the United States to the parcel of land described in subsection (c) shall be deemed to be a reference to Daniel Patrick Moynihan Place.

TITLE IV—CENTRAL INTELLIGENCE AGENCY

SEC. 401. EXPANSION OF INSPECTOR GENERAL ACTIONS REQUIRING A REPORT TO CONGRESS.

Section 17(d)(3) of the Central Intelligence Agency Act of 1949 (50 U.S.C. 403q(d)(3)) is amended by striking all that follows after subparagraph (A) and inserting the following:

''(B) an investigation, inspection, or audit carried out by the Inspector General should focus on any current or former Agency official who—

''(i) holds or held a position in the Agency that is subject to appointment by the President, by and with the advise and consent of the Senate, including such a position held on an acting basis; or

''(ii) holds or held the position in the Agency, including such a position held on an acting basis, of—

''(I) Executive Director;

''(II) Deputy Director for Operations;

''(III) Deputy Director for Intelligence;

''(IV) Deputy Director for Administration; or

''(V) Deputy Director for Science and Technology;

''(C) a matter requires a report by the Inspector General to the Department of Justice on possible criminal conduct by a current or former Agency official described or referred to in subparagraph (B);

''(D) the Inspector General becomes aware of the possible criminal conduct of a current or former Agency official described or referred to in subparagraph (B) through a means other than an investigation, inspection, or audit and such conduct is not referred to the Department of Justice; or

''(E) the Inspector General, after exhausting all possible alternatives, is unable to obtain significant documentary information in the course of an investigation, inspection, or audit,

the Inspector General shall immediately submit a report on such matter to the intelligence committees.''.

SEC. 402. SUBPOENA AUTHORITY OF THE INSPECTOR GENERAL.

(a) CLARIFICATION REGARDING REPORTS ON EXERCISE OF AUTHORITY.—Section 17 of the Central Intelligence Agency Act of 1949 (50 U.S.C. 403q) is amended—

(1) in subsection (d)(1), by striking subparagraph (E) and inserting the following new subparagraph (E):

''(E) a description of the exercise of the subpoena authority under subsection (e)(5) by the Inspector General during the reporting period; and''; and

(2) in subsection (e)(5), by striking subparagraph (E).

(b) SCOPE OF AUTHORITY.—Subsection (e)(5)(B) of that section is amended by striking ''Government'' and inserting ''Federal''.

SEC. 403. IMPROVEMENT AND EXTENSION OF CENTRAL SERVICES PROGRAM.

(a) DEPOSITS IN CENTRAL SERVICES WORKING CAPITAL FUND.—Subsection (c)(2) of section 21 of the Central Intelligence Agency Act of 1949 (50 U.S.C. 403u) is amended—

(1) by redesignating subparagraph (F) as subparagraph (H); and

(2) by inserting after subparagraph (E) the following new subparagraphs:

''(F) Receipts from individuals in reimbursement for utility services and meals provided under the program.

''(G) Receipts from individuals for the rental of property and equipment under the program.''.

(b) CLARIFICATION OF COSTS RECOVERABLE UNDER PROGRAM.—Subsection (e)(1) of that section is amended in the second sentence by inserting ''other than structures owned by the Agency'' after ''depreciation of plant and equipment''.

(c) FINANCIAL STATEMENTS OF PROGRAM.—Subsection (g)(2) of that section is amended in the first sentence by striking ''annual audits under paragraph (1)'' and inserting the following: ''financial statements to be prepared with respect to the program. Office of Management and Budget guidance shall also determine the procedures for conducting annual audits under paragraph (1).''.

(d) EXTENSION OF PROGRAM.—Subsection (h)(1) of that section is amended by striking ''March 31, 2002'' and inserting ''March 31, 2005''.

SEC. 404. DETAILS OF EMPLOYEES TO THE NATIONAL RECONNAISSANCE OFFICE.

The Central Intelligence Agency Act of 1949 (50 U.S.C. 403a et seq.) is amended by adding at the end the following new section:

''DETAILS OF EMPLOYEES

''SEC. 22. The Director may—

''(1) detail any personnel of the Agency on a reimbursable basis indefinitely to the National Reconnaissance Office without regard to any limitation under law on the duration of details of Federal government personnel; and

''(2) hire personnel for the purpose of details under paragraph (1).''.

SEC. 405. TRANSFERS OF FUNDS TO OTHER AGENCIES FOR ACQUISITION OF LAND.

(a) IN GENERAL.—Section 8 of the Central Intelligence Agency Act of 1949 (50 U.S.C. 403j) is amended by adding at the end the following new subsection:

''(c) TRANSFERS FOR ACQUISITION OF LAND.—(1) Sums appropriated or otherwise made available to the Agency for the acquisition of land that are transferred to another department or agency for that purpose shall remain available for 3 years.

''(2) The Director shall submit to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives an annual report on the transfers of sums described in paragraph (1).''.

(b) CONFORMING STYLISTIC AMENDMENTS.—That section is further amended—

(1) in subsection (a), by inserting ''IN GENERAL.—'' after ''(a)''; and

(2) in subsection (b), by inserting ''SCOPE OF AUTHORITY FOR EXPENDITURE.—'' after ''(b)''.

(c) APPLICABILITY.—Subsection (c) of section 8 of the Central Intelligence Agency Act of 1949, as added by subsection (a) of this section, shall apply with respect to amounts appropriated or otherwise made available for the Central Intelligence Agency for fiscal years after fiscal year 2000.

SEC. 406. ELIGIBILITY OF ADDITIONAL EMPLOYEES FOR REIMBURSEMENT FOR PROFESSIONAL LIABILITY INSURANCE.

(a) IN GENERAL.—Notwithstanding any provision of section 363 of the Treasury, Postal Service, and General Government Appropriations Act, 1997 (5 U.S.C. prec. 5941 note), the Director of Central Intelligence may—

(1) designate as qualified employees within the meaning of subsection (b) of that section appropriate categories of employees not otherwise covered by that subsection; and

(2) use appropriated funds available to the Director to reimburse employees within categories so designated for one-half of the costs incurred by such employees for professional liability insurance in accordance with subsection (a) of that section.

(b) REPORTS.—The Director of Central Intelligence shall submit to the Select Committee on Intelligence of the Senate and the Permanent Select Committee of Intelligence of the House of Representatives a report on each designation of a category of employees under paragraph (1) of subsection (a), including the approximate number of employees covered by such designation and an estimate of the amount to be expended on reimbursement of such employees under paragraph (2) of that subsection.

TITLE V—DEPARTMENT OF DEFENSE INTELLIGENCE ACTIVITIES

SEC. 501. TWO-YEAR EXTENSION OF AUTHORITY TO ENGAGE IN COMMERCIAL ACTIVITIES AS SECURITY FOR INTELLIGENCE COLLECTION ACTIVITIES.

Section 431(a) of title 10, United States Code, is amended in the second sentence by striking ''December 31, 2000'' and inserting ''December 31, 2002''.

SEC. 502. ROLE OF DIRECTOR OF CENTRAL INTELLIGENCE IN EXPERIMENTAL PERSONNEL PROGRAM FOR CERTAIN SCIENTIFIC AND TECHNICAL PERSONNEL.

If the Director of Central Intelligence requests that the Secretary of Defense exercise any authority available to the Secretary under section 1101(b) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105–261; 5 U.S.C. 3104 note) to carry out a program of special personnel management authority at the National Imagery and Mapping Agency and the National Security Agency in order to facilitate recruitment of eminent experts in science and engineering at such agencies, the Secretary shall respond to such request not later than 30 days after the date of such request.

SEC. 503. PROHIBITION ON TRANSFER OF IMAGERY ANALYSTS FROM GENERAL DEFENSE INTELLIGENCE PROGRAM TO NATIONAL IMAGERY AND MAPPING AGENCY PROGRAM.

(a) PROHIBITION ON USE OF FUNDS FOR TRANSFER.—No funds authorized to be appropriated by this Act may be transferred from the General Defense Intelligence Program to the National Imagery and Mapping Agency Program for purposes of transferring imagery analysis personnel from the General Defense Intelligence Program to the National Imagery and Mapping Agency Program.

(b) ROLE OF DIRECTOR OF NIMA AS FUNCTIONAL MANAGER FOR IMAGERY AND GEOSPACIAL PROGRAMS.—(1) The Secretary of Defense shall, in consultation with the Director of Central Intelligence, review options for strengthening the role of the Director of the National Imagery and Mapping Agency as the functional manager for United States imagery and geospacial programs.

(2) Not later than March 15, 2001, the Secretary shall submit to the appropriate committees of Congress a report on the review required by subsection (b). The report shall include any recommendations regarding modifications in the role and duties of the Director of the National Imagery and Mapping Agency that the Secretary considers appropriate in light of the review.

(3) In this subsection, the term ''appropriate committees of Congress'' means the following:

(A) The Committee on Armed Services and the Select Committee on Intelligence of the Senate.

(B) The Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives.

SEC. 504. PROHIBITION ON TRANSFER OF COLLECTION MANAGEMENT PERSONNEL FROM GENERAL DEFENSE INTELLIGENCE PROGRAM TO COMMUNITY MANAGEMENT ACCOUNT.

No funds authorized to be appropriated by this Act may be transferred from the General Defense Intelligence Program to the Community Management Account for purposes of transferring intelligence collection management personnel.

SEC. 505. AUTHORIZED PERSONNEL CEILING FOR GENERAL DEFENSE INTELLIGENCE PROGRAM.

The authorized personnel ceiling for the General Defense Intelligence Program specified in the classified Schedule of Authorizations referred to in section 102 is hereby increased by 2,152 positions.

SEC. 506. MEASUREMENT AND SIGNATURE INTELLIGENCE.

(a) STUDY OF OPTIONS.—The Director of Central Intelligence shall, in coordination with the Secretary of Defense, conduct a study of the utility and feasibility of various options for improving the management and organization of measurement and signature intelligence, including—

(1) the option of establishing a centralized tasking, processing, exploitation, and dissemination facility for measurement and signature intelligence;

(2) options for recapitalizing and reconfiguring the current systems for measurement and signature intelligence; and

(3) the operation and maintenance costs of the various options.

(b) REPORT.—Not later than April 1, 2001, the Director and the Secretary shall jointly submit to the appropriate committees of Congress a report on their findings as a result of the study required by subsection (a). The report shall set forth any recommendations that the Director and the Secretary consider appropriate.

(c) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this section, the term ''appropriate committees of Congress'' means the following:

(1) The Committee on Armed Services and the Select Committee on Intelligence of the Senate.

(2) The Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives.

TITLE VI—COUNTERINTELLIGENCE MATTERS

SEC. 601. SHORT TITLE.

This title may be cited as the ''Counterintelligence Reform Act of 2000''.

SEC. 602. ORDERS FOR ELECTRONIC SURVEILLANCE UNDER THE FOREIGN INTELLIGENCE SURVEILLANCE ACT OF 1978.

(a) REQUIREMENTS REGARDING CERTAIN APPLICATIONS.—Section 104 of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1804) is amended by adding at the end the following new subsection:

''(e)(1)(A) Upon written request of the Director of the Federal Bureau of Investigation, the Secretary of Defense, the Secretary of State, or the Director of Central Intelligence, the Attorney General shall personally review under subsection (a) an application under that subsection for a target described in section 101(b)(2).

''(B) Except when disabled or otherwise unavailable to make a request referred to in subparagraph (A), an official referred to in that subparagraph may not delegate the authority to make a request referred to in that subparagraph.

''(C) Each official referred to in subparagraph (A) with authority to make a request under that subparagraph shall take appropriate actions in advance to ensure that delegation of such authority is clearly established in the event such official is disabled or otherwise unavailable to make such request.

''(2)(A) If as a result of a request under paragraph (1) the Attorney General determines not to approve an application under the second sentence of subsection (a) for purposes of making the application under this section, the Attorney General shall provide written notice of the determination to the official making the request for the review of the application under that paragraph. Except when disabled or otherwise unavailable to make a determination under the preceding sentence, the Attorney General may not delegate the responsibility to make a determination under that sentence. The Attorney General shall take appropriate actions in advance to ensure that delegation of such responsibility is clearly established in the event the Attorney General is disabled or otherwise unavailable to make such determination.

''(B) Notice with respect to an application under subparagraph (A) shall set forth the modifications, if any, of the application that are necessary in order for the Attorney General to approve the application under the second sentence of subsection (a) for purposes of making the application under this section.

''(C) Upon review of any modifications of an application set forth under subparagraph (B), the official notified of the modifications under this paragraph shall modify the application if such official determines that such modification is warranted. Such official shall supervise the making of any modification under this subparagraph. Except when disabled or otherwise unavailable to supervise the making of any modification under the preceding sentence, such official may not delegate the responsibility to supervise the making of any modification under that preceding sentence. Each such official shall take appropriate actions in advance to ensure that delegation of such responsibility is clearly established in the event such official is disabled or otherwise unavailable to supervise the making of such modification.''.

(b) PROBABLE CAUSE.—Section 105 of that Act (50 U.S.C. 1805) is amended—

(1) by redesignating subsections (b), (c), (d), (e), (f), and (g) as subsections (c), (d), (e), (f), (g), and (h), respectively;

(2) by inserting after subsection (a) the following new subsection (b):

''(b) In determining whether or not probable cause exists for purposes of an order under subsection (a)(3), a judge may consider past activities of the target, as well as facts and circumstances relating to current or future activities of the target.''; and

(3) in subsection (d), as redesignated by paragraph (1), by striking ''subsection (b)(1)'' and inserting ''subsection (c)(1)''.

SEC. 603. ORDERS FOR PHYSICAL SEARCHES UNDER THE FOREIGN INTELLIGENCE SURVEILLANCE ACT OF 1978.

(a) REQUIREMENTS REGARDING CERTAIN APPLICATIONS.—Section 303 of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1823) is amended by adding at the end the following new subsection:

''(d)(1)(A) Upon written request of the Director of the Federal Bureau of Investigation, the Secretary of Defense, the Secretary of State, or the Director of Central Intelligence, the Attorney General shall personally review under subsection (a) an application under that subsection for a target described in section 101(b)(2).

''(B) Except when disabled or otherwise unavailable to make a request referred to in subparagraph (A), an official referred to in that subparagraph may not delegate the authority to make a request referred to in that subparagraph.

''(C) Each official referred to in subparagraph (A) with authority to make a request under that subparagraph shall take appropriate actions in advance to ensure that delegation of such authority is clearly established in the event such official is disabled or otherwise unavailable to make such request.

''(2)(A) If as a result of a request under paragraph (1) the Attorney General determines not to approve an application under the second sentence of subsection (a) for purposes of making the application under this section, the Attorney General shall provide written notice of the determination to the official making the request for the review of the application under that paragraph. Except when disabled or otherwise unavailable to make a determination under the preceding sentence, the Attorney General may not delegate the responsibility to make a determination under that sentence. The Attorney General shall take appropriate actions in advance to ensure that delegation of such responsibility is clearly established in the event the Attorney General is disabled or otherwise unavailable to make such determination.

''(B) Notice with respect to an application under subparagraph (A) shall set forth the modifications, if any, of the application that are necessary in order for the Attorney General to approve the application under the second sentence of subsection (a) for purposes of making the application under this section.

''(C) Upon review of any modifications of an application set forth under subparagraph (B), the official notified of the modifications under this paragraph shall modify the application if such official determines that such modification is warranted. Such official shall supervise the making of any modification under this subparagraph. Except when disabled or otherwise unavailable to supervise the making of any modification under the preceding sentence, such official may not delegate the responsibility to supervise the making of any modification under that preceding sentence. Each such official shall take appropriate actions in advance to ensure that delegation of such responsibility is clearly established in the event such official is disabled or otherwise unavailable to supervise the making of such modification.''.

(b) PROBABLE CAUSE.—Section 304 of that Act (50 U.S.C. 1824) is amended—

(1) by redesignating subsections (b), (c), (d), and (e) as subsections (c), (d), (e), and (f), respectively; and

(2) by inserting after subsection (a) the following new subsection (b):

''(b) In determining whether or not probable cause exists for purposes of an order under subsection (a)(3), a judge may consider past activities of the target, as well as facts and circumstances relating to current or future activities of the target.''.

SEC. 604. DISCLOSURE OF INFORMATION ACQUIRED UNDER THE FOREIGN INTELLIGENCE SURVEILLANCE ACT OF 1978 FOR LAW ENFORCEMENT PURPOSES.

(a) INCLUSION OF INFORMATION ON DISCLOSURE IN SEMIANNUAL OVERSIGHT REPORT.—Section 108(a) of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1808(a)) is amended—

(1) by inserting ''(1)'' after ''(a)''; and

(2) by adding at the end the following new paragraph:

''(2) Each report under the first sentence of paragraph (1) shall include a description of—

''(A) each criminal case in which information acquired under this Act has been passed for law enforcement purposes during the period covered by such report; and

''(B) each criminal case in which information acquired under this Act has been authorized for use at trial during such reporting period.''.

(b) REPORT ON MECHANISMS FOR DETERMINATIONS OF DISCLOSURE OF INFORMATION FOR LAW ENFORCEMENT PURPOSES.—(1) The Attorney General shall submit to the appropriate committees of Congress a report on the authorities and procedures utilized by the Department of Justice for determining whether or not to disclose information acquired under the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.) for law enforcement purposes.

(2) In this subsection, the term ''appropriate committees of Congress'' means the following:

(A) The Select Committee on Intelligence and the Committee on the Judiciary of the Senate.

(B) The Permanent Select Committee on Intelligence and the Committee on the Judiciary of the House of Representatives.

SEC. 605. COORDINATION OF COUNTERINTELLIGENCE WITH THE FEDERAL BUREAU OF INVESTIGATION.

(a) TREATMENT OF CERTAIN SUBJECTS OF INVESTIGATION.—Subsection (c) of section 811 of the Intelligence Authorization Act for Fiscal Year 1995 (50 U.S.C. 402a) is amended—

(1) in paragraphs (1) and (2), by striking ''paragraph (3)'' and inserting ''paragraph (5)'';

(2) by redesignating paragraphs (3), (4), (5), and (6) as paragraphs (5), (6), (7), and (8), respectively;

(3) by inserting after paragraph (2) the following new paragraph (3):

''(3)(A) The Director of the Federal Bureau of Investigation shall submit to the head of the department or agency concerned a written assessment of the potential impact of the actions of the department or agency on a counterintelligence investigation.

''(B) The head of the department or agency concerned shall—

''(i) use an assessment under subparagraph (A) as an aid in determining whether, and under what circumstances, the subject of an investigation under paragraph (1) should be left in place for investigative purposes; and

''(ii) notify in writing the Director of the Federal Bureau of Investigation of such determination.

''(C) The Director of the Federal Bureau of Investigation and the head of the department or agency concerned shall continue to consult, as appropriate, to review the status of an investigation covered by this paragraph and to reassess, as appropriate, a determination of the head of the department or agency concerned to leave a subject in place for investigative purposes.''; and

(4) in paragraph (5), as so redesignated, by striking ''paragraph (1) or (2)'' and inserting ''paragraph (1), (2), or (3)''.

(b) TIMELY PROVISION OF INFORMATION AND CONSULTATION ON ESPIONAGE INVESTIGATIONS.—Paragraph (2) of that subsection is further amended—

(1) by inserting ''in a timely manner'' after ''through appropriate channels''; and

(2) by inserting ''in a timely manner'' after ''are consulted''.

(c) INTERFERENCE WITH FULL FIELD ESPIONAGE INVESTIGATIONS.—That subsection is further amended by inserting after paragraph (3), as amended by subsection (a) of this section, the following new paragraph (4):

''(4)(A) The Federal Bureau of Investigation shall notify appropriate officials within the executive branch, including the head of the department or agency concerned, of the commencement of a full field espionage investigation with respect to an employee within the executive branch.

''(B)(i) A department or agency may not conduct a polygraph examination, interrogate, or otherwise take any action that is likely to alert an employee covered by a notice under subparagraph (A) of an investigation described in that subparagraph without prior coordination with the Federal Bureau of Investigation.

''(ii) Any examination, interrogation, or other action taken under clause (i) shall be taken in consultation with the Federal Bureau of Investigation.''.

SEC. 606. ENHANCING PROTECTION OF NATIONAL SECURITY AT THE DEPARTMENT OF JUSTICE.

(a) AUTHORIZATION FOR INCREASED RESOURCES TO FULFILL NATIONAL SECURITY MISSION OF THE DEPARTMENT OF JUSTICE.—There are authorized to be appropriated to the Department of Justice for the activities of the Office of Intelligence Policy and Review to help meet the increased personnel demands to combat terrorism, process applications to the Foreign Intelligence Surveillance Court, participate effectively in counter-espionage investigations, provide policy analysis on national security issues, and enhance secure computer and telecommunications facilities—

(1) $7,000,000 for fiscal year 2001;

(2) $7,500,000 for fiscal year 2002; and

(3) $8,000,000 for fiscal year 2003.

(b) AVAILABILITY OF FUNDS.—(1) No funds authorized to be appropriated by subsection (a) for the Office of Intelligence Policy and Review may be obligated or expended until the later of the dates on which the Attorney General submits the reports required by paragraphs (2) and (3).

(2)(A) The Attorney General shall submit to the committees of Congress specified in subparagraph (B) a report on the manner in which the funds authorized to be appropriated by subsection (a) for the Office of Intelligence Policy and Review will be used by that Office—

(i) to improve and strengthen its oversight of Federal Bureau of Investigation field offices in the implementation of orders under the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.); and

(ii) to streamline and increase the efficiency of the application process under that Act.

(B) The committees of Congress referred to in this subparagraph are the following:

(i) The Select Committee on Intelligence and the Committee on the Judiciary of the Senate.

(ii) The Permanent Select Committee on Intelligence and the Committee on the Judiciary of the House of Representatives.

(3) In addition to the report required by paragraph (2), the Attorney General shall also submit to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives a report that addresses the issues identified in the semiannual report of the Attorney General to such committees under section 108(a) of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1808(a)) that was submitted in April 2000, including any corrective actions with regard to such issues. The report under this paragraph shall be submitted in classified form.

(4) Funds made available pursuant to subsection (a), in any fiscal year, shall remain available until expended.

(c) REPORT ON COORDINATING NATIONAL SECURITY AND INTELLIGENCE FUNCTIONS WITHIN THE DEPARTMENT OF JUSTICE.—The Attorney General shall report to the Select Committee on Intelligence and the Committee on the Judiciary of the Senate and the Permanent Select Committee on Intelligence and the Committee on the Judiciary of the House of Representatives within 120 days on actions that have been or will be taken by the Department to—

(1) promote quick and efficient responses to national security issues;

(2) centralize a point-of-contact within the Department on national security matters for external entities and agencies; and

(3) coordinate the dissemination of intelligence information within the appropriate components of the Department and the formulation of policy on national security issues.

SEC. 607. COORDINATION REQUIREMENTS RELATING TO THE PROSECUTION OF CASES INVOLVING CLASSIFIED INFORMATION.

The Classified Information Procedures Act (18 U.S.C. App.) is amended by inserting after section 9 the following new section:

''COORDINATION REQUIREMENTS RELATING TO THE PROSECUTION OF CASES INVOLVING CLASSIFIED INFORMATION

''SEC. 9A. (a) BRIEFINGS REQUIRED.—The Assistant Attorney General for the Criminal Division and the appropriate United States Attorney, or the designees of such officials, shall provide briefings to the senior agency official, or the designee of such official, with respect to any case involving classified information that originated in the agency of such senior agency official.

''(b) TIMING OF BRIEFINGS.—Briefings under subsection (a) with respect to a case shall occur—

''(1) as soon as practicable after the Department of Justice and the United States Attorney concerned determine that a prosecution or potential prosecution could result; and

''(2) at such other times thereafter as are necessary to keep the senior agency official concerned fully and currently informed of the status of the prosecution.

''(c) SENIOR AGENCY OFFICIAL DEFINED.—In this section, the term 'senior agency official' has the meaning given that term in section 1.1 of Executive Order No. 12958.''.

SEC. 608. SEVERABILITY.

If any provision of this title (including an amendment made by this title), or the application thereof, to any person or circumstance, is held invalid, the remainder of this title (including the amendments made by this title), and the application thereof, to other persons or circumstances shall not be affected thereby.

TITLE VII—DISCLOSURE OF INFORMATION ON JAPANESE IMPERIAL ARMY

SEC. 701. SHORT TITLE.

This title may be cited as the ''Japanese Imperial Army Disclosure Act''.

SEC. 702. ESTABLISHMENT OF JAPANESE IMPERIAL ARMY RECORDS INTERAGENCY WORKING GROUP.

(a) DEFINITIONS.—In this section:

(1) AGENCY.—The term ''agency'' has the meaning given such term under section 551 of title 5, United States Code.

(2) INTERAGENCY GROUP.—The term ''Interagency Group'' means the Japanese Imperial Army Records Interagency Working Group established under subsection (b).

(3) JAPANESE IMPERIAL ARMY RECORDS.—The term ''Japanese Imperial Army records'' means classified records or portions of records that pertain to any person with respect to whom the United States Government, in its sole discretion, has grounds to believe ordered, incited, assisted, or otherwise participated in the experimentation and persecution of any person because of race, religion, national origin, or political option, during the period beginning September 18, 1931, and ending on December 31, 1948, under the direction of, or in association with—

(A) the Japanese Imperial Army;

(B) any government in any area occupied by the military forces of the Japanese Imperial Army;

(C) any government established with the assistance or cooperation of the Japanese Imperial Army; or

(D) any government which was an ally of the Imperial Army of Japan.

(4) RECORD.—The term ''record'' means a Japanese Imperial Army record.

(b) ESTABLISHMENT OF INTERAGENCY GROUP.—

(1) IN GENERAL.—Not later than 60 days after the date of the enactment of this Act, the President shall establish the Japanese Imperial Army Records Interagency Working Group, which shall remain in existence for 3 years after the date the Interagency Group is established.

(2) MEMBERSHIP.—The President shall appoint to the Interagency Group individuals whom the

President determines will most completely and effectively carry out the functions of the Interagency Group within the time limitations provided in this section, including the Historian of the Department of State, the Archivist of the United States, the head of any other agency the President considers appropriate, and no more than 3 other persons. The head of an agency appointed by the President may designate an appropriate officer to serve on the Interagency Group in lieu of the head of such agency.

(3) INITIAL MEETING.—Not later than 90 days after the date of the enactment of this Act, the Interagency Group shall hold an initial meeting and begin the functions required under this section.

(c) FUNCTIONS.—Not later than 1 year after the date of the enactment of this Act, the Interagency Group shall, to the greatest extent possible consistent with section 703—

(1) locate, identify, inventory, recommend for declassification, and make available to the public at the National Archives and Records Administration, all classified Japanese Imperial Army records of the United States;

(2) coordinate with agencies and take such actions as necessary to expedite the release of such records to the public; and

(3) submit a report to Congress, including the Committee on Government Reform and Oversight of the House of Representatives, the Select Committee on Intelligence of the Senate, the Permanent Select Committee on Intelligence of the House of Representatives, and the Committee on the Judiciary of the Senate, describing all such records, the disposition of such records, and the activities of the Interagency Group and agencies under this section.

(d) FUNDING.—There is authorized to be appropriated such sum as may be necessary to carry out the provisions of this title.

SEC. 703. REQUIREMENT OF DISCLOSURE OF RECORDS.

(a) RELEASE OF RECORDS.—Subject to subsections (b), (c), and (d), the Japanese Imperial Army Records Interagency Working Group shall release in their entirety Japanese Imperial Army records.

(b) EXCEPTION FOR PRIVACY.—An agency head may exempt from release under subsection (a) specific information, that would—

(1) constitute a clearly unwarranted invasion of personal privacy;

(2) reveal the identity of a confidential human source, or reveal information about the application of an intelligence source or method, or reveal the identity of a human intelligence source when the unauthorized disclosure of that source would clearly and demonstrably damage the national security interests of the United States;

(3) reveal information that would assist in the development or use of weapons of mass destruction;

(4) reveal information that would impair United States cryptologic systems or activities;

(5) reveal information that would impair the application of state-of-the-art technology within a United States weapon system;

(6) reveal actual United States military war plans that remain in effect;

(7) reveal information that would seriously and demonstrably impair relations between the United States and a foreign government, or seriously and demonstrably undermine ongoing diplomatic activities of the United States;

(8) reveal information that would clearly, and demonstrably impair the current ability of United States Government officials to protect the President, Vice President, and other officials for whom protection services are authorized in the interest of national security;

(9) reveal information that would seriously and demonstrably impair current national security emergency preparedness plans; or

(10) violate a treaty or other international agreement.

(c) APPLICATIONS OF EXEMPTIONS.—

(1) IN GENERAL.—In applying the exemptions provided in paragraphs (2) through (10) of subsection (b), there shall be a presumption that the public interest will be served by disclosure and release of the records of the Japanese Imperial Army. The exemption may be asserted only when the head of the agency that maintains the records determines that disclosure and release would be harmful to a specific interest identified in the exemption. An agency head who makes such a determination shall promptly report it to the committees of Congress with appropriate jurisdiction, including the Committee on the Judiciary and the Select Committee on Intelligence of the Senate and the Committee on Government Reform and Oversight and the Permanent Select Committee on Intelligence of the House of Representatives.

(2) APPLICATION OF TITLE 5.—A determination by an agency head to apply an exemption provided in paragraphs (2) through (9) of subsection (b) shall be subject to the same standard of review that applies in the case of records withheld under section 552(b)(1) of title 5, United States Code.

(d) LIMITATION ON EXEMPTIONS.—

(1) IN GENERAL.—The exemptions set forth in subsection (b) shall constitute the only grounds pursuant to which an agency head may exempt records otherwise subject to release under subsection (a).

(2) RECORDS RELATED TO INVESTIGATION OR PROSECUTIONS.—This section shall not apply to records—

(A) related to or supporting any active or inactive investigation, inquiry, or prosecution by the Office of Special Investigations of the Department of Justice; or

(B) solely in the possession, custody, or control of the Office of Special Investigations.

SEC. 704. EXPEDITED PROCESSING OF FOIA REQUESTS FOR JAPANESE IMPERIAL ARMY RECORDS.

For purposes of expedited processing under section 552(a)(6)(E) of title 5, United States Code, any person who was persecuted in the manner described in section 702(a)(3) and who requests a Japanese Imperial Army record shall be deemed to have a compelling need for such record.

SEC. 705. EFFECTIVE DATE.

The provisions of this title shall take effect on the date that is 90 days after the date of the enactment of this Act.

TITLE VIII—DECLASSIFICATION OF INFORMATION

SEC. 801. SHORT TITLE.

This title may be cited as the ''Public Interest Declassification Act of 2000''.

SEC. 802. FINDINGS.

Congress makes the following findings:

(1) It is in the national interest to establish an effective, coordinated, and cost-effective means by which records on specific subjects of extraordinary public interest that do not undermine the national security interests of the United States may be collected, retained, reviewed, and disseminated to Congress, policymakers in the executive branch, and the public.

(2) Ensuring, through such measures, public access to information that does not require continued protection to maintain the national security interests of the United States is a key to striking the balance between secrecy essential to national security and the openness that is central to the proper functioning of the political institutions of the United States.

SEC. 803. PUBLIC INTEREST DECLASSIFICATION BOARD.

(a) ESTABLISHMENT.—There is established within the executive branch of the United States a board to be known as the ''Public Interest Declassification Board'' (in this title referred to as the ''Board'').

(b) PURPOSES.—The purposes of the Board are as follows:

(1) To advise the President, the Assistant to the President for National Security Affairs, the Director of the Office of Management and Budget, and such other executive branch officials as the Board considers appropriate on the systematic, thorough, coordinated, and comprehensive identification, collection, review for declassification, and release to Congress, interested agencies, and the public of declassified records and materials (including donated historical materials) that are of archival value, including records and materials of extraordinary public interest.

(2) To promote the fullest possible public access to a thorough, accurate, and reliable documentary record of significant United States national security decisions and significant United States national security activities in order to—

(A) support the oversight and legislative functions of Congress;

(B) support the policymaking role of the executive branch;

(C) respond to the interest of the public in national security matters; and

(D) promote reliable historical analysis and new avenues of historical study in national security matters.

(3) To provide recommendations to the President for the identification, collection, and review for declassification of information of extraordinary public interest that does not undermine the national security of the United States, to be undertaken in accordance with a declassification program that has been established or may be established by the President by Executive Order.

(4) To advise the President, the Assistant to the President for National Security Affairs, the Director of the Office of Management and Budget, and such other executive branch officials as the Board considers appropriate on policies deriving from the issuance by the President of Executive Orders regarding the classification and declassification of national security information.

(c) MEMBERSHIP.—(1) The Board shall be composed of nine individuals appointed from among citizens of the United States who are preeminent in the fields of history, national security, foreign policy, intelligence policy, social science, law, or archives, including individuals who have served in Congress or otherwise in the Federal Government or have otherwise engaged in research, scholarship, or publication in such fields on matters relating to the national security of the United States, of whom—

(A) five shall be appointed by the President;

(B) one shall be appointed by the Majority Leader of the Senate;

(C) one shall be appointed by the Minority Leader of the Senate;

(D) one shall be appointed by the Speaker of the House of Representatives; and

(E) one shall be appointed by the Minority Leader of the House of Representatives.

(2)(A) Of the members initially appointed to the Board, three shall be appointed for a term of four years, three shall be appointed for a term of three years, and three shall be appointed for a term of two years.

(B) Any subsequent appointment to the Board shall be for a term of three years.

(3) A vacancy in the Board shall be filled in the same manner as the original appointment. A member of the Board appointed to fill a vacancy before the expiration of a term shall serve for the remainder of the term.

(4) A member of the Board may be appointed to a new term on the Board upon the expiration

of the member's term on the Board, except that no member may serve more than three full terms on the Board.

(d) CHAIRPERSON; EXECUTIVE SECRETARY.—(1)(A) The President shall designate one of the members of the Board as the Chairperson of the Board.

(B) The term of service as Chairperson of the Board shall be two years.

(C) A member serving as Chairperson of the Board may be re-designated as Chairperson of the Board upon the expiration of the member's term as Chairperson of the Board, except that no member shall serve as Chairperson of the Board for more than six years.

(2) The Director of the Information Security Oversight Office shall serve as the Executive Secretary of the Board.

(e) MEETINGS.—The Board shall meet as needed to accomplish its mission, consistent with the availability of funds. A majority of the members of the Board shall constitute a quorum.

(f) STAFF.—Any employee of the Federal Government may be detailed to the Board, with the agreement of and without reimbursement to the detailing agency, and such detail shall be without interruption or loss of civil, military, or foreign service status or privilege.

(g) SECURITY.—(1) The members and staff of the Board shall, as a condition of appointment to or employment with the Board, hold appropriate security clearances for access to the classified records and materials to be reviewed by the Board or its staff, and shall follow the guidance and practices on security under applicable Executive Orders and agency directives.

(2) The head of an agency shall, as a condition of granting access to a member of the Board, the Executive Secretary of the Board, or a member of the staff of the Board to classified records or materials of the agency under this title, require the member, the Executive Secretary, or the member of the staff, as the case may be, to—

(A) execute an agreement regarding the security of such records or materials that is approved by the head of the agency; and

(B) hold an appropriate security clearance granted or recognized under the standard procedures and eligibility criteria of the agency, including any special access approval required for access to such records or materials.

(3) The members of the Board, the Executive Secretary of the Board, and the members of the staff of the Board may not use any information acquired in the course of their official activities on the Board for nonofficial purposes.

(4) For purposes of any law or regulation governing access to classified information that pertains to the national security of the United States, and subject to any limitations on access arising under section 806(b), and to facilitate the advisory functions of the Board under this title, a member of the Board seeking access to a record or material under this title shall be deemed for purposes of this subsection to have a need to know the contents of the record or material.

(h) COMPENSATION.—(1) Each member of the Board shall receive compensation at a rate not to exceed the daily equivalent of the annual rate of basic pay payable for positions at ES–1 of the Senior Executive Service under section 5382 of title 5, United States Code, for each day such member is engaged in the actual performance of duties of the Board.

(2) Members of the Board shall be allowed travel expenses, including per diem in lieu of subsistence at rates authorized for employees of agencies under subchapter of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of the duties of the Board.

(i) GUIDANCE; ANNUAL BUDGET.—(1) On behalf of the President, the Assistant to the President for National Security Affairs shall provide guidance on policy to the Board.

(2) The Executive Secretary of the Board, under the direction of the Chairperson of the Board and the Board, and acting in consultation with the Archivist of the United States, the Assistant to the President for National Security Affairs, and the Director of the Office of Management and Budget, shall prepare the annual budget of the Board.

(j) SUPPORT.—The Information Security Oversight Office may support the activities of the Board under this title. Such support shall be provided on a reimbursable basis.

(k) PUBLIC AVAILABILITY OF RECORDS AND REPORTS.—(1) The Board shall make available for public inspection records of its proceedings and reports prepared in the course of its activities under this title to the extent such records and reports are not classified and would not be exempt from release under the provisions of section 552 of title 5, United States Code.

(2) In making records and reports available under paragraph (1), the Board shall coordinate the release of such records and reports with appropriate officials from agencies with expertise in classified information in order to ensure that such records and reports do not inadvertently contain classified information.

(l) APPLICABILITY OF CERTAIN ADMINISTRATIVE LAWS.—The provisions of the Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the activities of the Board under this title. However, the records of the Board shall be governed by the provisions of the Federal Records Act of 1950.

SEC. 804. IDENTIFICATION, COLLECTION, AND REVIEW FOR DECLASSIFICATION OF INFORMATION OF ARCHIVAL VALUE OR EXTRAORDINARY PUBLIC INTEREST.

(a) BRIEFINGS ON AGENCY DECLASSIFICATION PROGRAMS.—(1) As requested by the Board, or by the Select Committee on Intelligence of the Senate or the Permanent Select Committee on Intelligence of the House of Representatives, the head of any agency with the authority under an Executive Order to classify information shall provide to the Board, the Select Committee on Intelligence of the Senate, or the Permanent Select Committee on Intelligence of the House of Representatives, on an annual basis, a summary briefing and report on such agency's progress and plans in the declassification of national security information. Such briefing shall cover the declassification goals set by statute, regulation, or policy, the agency's progress with respect to such goals, and the agency's planned goals and priorities for its declassification activities over the next two fiscal years. Agency briefings and reports shall give particular attention to progress on the declassification of records and materials that are of archival value or extraordinary public interest to the people of the United States.

(2)(A) The annual briefing and report under paragraph (1) for agencies within the Department of Defense, including the military departments, and the elements of the intelligence community shall be provided on a consolidated basis.

(B) In this paragraph, the term ''elements of the intelligence community'' means the elements of the intelligence community specified or designated under section 3(4) of the National Security Act of 1947 (50 U.S.C. 401a(4)).

(b) RECOMMENDATIONS ON AGENCY DECLASSIFICATION PROGRAMS.—(1) Upon reviewing and discussing declassification plans and progress with an agency, the Board shall provide to the head of the agency the written recommendations of the Board as to how the agency's declassification program could be improved. A copy of each recommendation shall also be submitted to the Assistant to the President for National Security Affairs and the Director of the Office of Management and Budget.

(2) Consistent with the provisions of section 803(k), the Board's recommendations to the head of an agency under paragraph (1) shall become public 60 days after such recommendations are sent to the head of the agency under that paragraph.

(c) RECOMMENDATIONS ON SPECIAL SEARCHES FOR RECORDS OF EXTRAORDINARY PUBLIC INTEREST.—(1) The Board shall also make recommendations to the President regarding proposed initiatives to identify, collect, and review for declassification classified records and materials of extraordinary public interest.

(2) In making recommendations under paragraph (1), the Board shall consider the following:

(A) The opinions and requests of Members of Congress, including opinions and requests expressed or embodied in letters or legislative proposals.

(B) The opinions and requests of the National Security Council, the Director of Central Intelligence, and the heads of other agencies.

(C) The opinions of United States citizens.

(D) The opinions of members of the Board.

(E) The impact of special searches on systematic and all other on-going declassification programs.

(F) The costs (including budgetary costs) and the impact that complying with the recommendations would have on agency budgets, programs, and operations.

(G) The benefits of the recommendations.

(H) The impact of compliance with the recommendations on the national security of the United States.

(d) PRESIDENT'S DECLASSIFICATION PRIORITIES.—(1) Concurrent with the submission to Congress of the budget of the President each fiscal year under section 1105 of title 31, United States Code, the Director of the Office of Management and Budget shall publish a description of the President's declassification program and priorities, together with a listing of the funds requested to implement that program.

(2) Nothing in this title shall be construed to substitute or supersede, or establish a funding process for, any declassification program that has been established or may be established by the President by Executive Order.

SEC. 805. PROTECTION OF NATIONAL SECURITY INFORMATION AND OTHER INFORMATION.

(a) IN GENERAL.—Nothing in this title shall be construed to limit the authority of the head of an agency to classify information or to continue the classification of information previously classified by an agency.

(b) SPECIAL ACCESS PROGRAMS.—Nothing in this title shall be construed to limit the authority of the head of an agency to grant or deny access to a special access program.

(c) AUTHORITIES OF DIRECTOR OF CENTRAL INTELLIGENCE.—Nothing in this title shall be construed to limit the authorities of the Director of Central Intelligence as the head of the intelligence community, including the Director's responsibility to protect intelligence sources and methods from unauthorized disclosure as required by section 103(c)(6) of the National Security Act of 1947 (50 U.S.C. 403–3(c)(6)).

(d) EXEMPTIONS TO RELEASE OF INFORMATION.—Nothing in this title shall be construed to limit any exemption or exception to the release to the public under this title of information that is protected under section 552(b) of title 5, United States Code (commonly referred to as the ''Freedom of Information Act''), or section 552a of title 5, United States Code (commonly referred to as the ''Privacy Act'').

(e) WITHHOLDING INFORMATION FROM CONGRESS.—Nothing in this title shall be construed to authorize the withholding of information from Congress.

SEC. 806. STANDARDS AND PROCEDURES.

(a) LIAISON.—(1) The head of each agency with the authority under an Executive Order to classify information and the head of each Federal Presidential library shall designate an employee of such agency or library, as the case may be, to act as liaison to the Board for purposes of this title.

(2) The Board may establish liaison and otherwise consult with such other historical and advisory committees as the Board considers appropriate for purposes of this title.

(b) LIMITATIONS ON ACCESS.—(1)(A) Except as provided in paragraph (2), if the head of an agency or the head of a Federal Presidential library determines it necessary to deny or restrict access of the Board, or of the agency or library liaison to the Board, to information contained in a record or material, in whole or in part, the head of the agency or the head of the library, as the case may be, shall promptly notify the Board in writing of such determination.

(B) Each notice to the Board under subparagraph (A) shall include a description of the nature of the records or materials, and a justification for the determination, covered by such notice.

(2) In the case of a determination referred to in paragraph (1) with respect to a special access program created by the Secretary of Defense, the Director of Central Intelligence, or the head of any other agency, the notification of denial of access under paragraph (1), including a description of the nature of the Board's request for access, shall be submitted to the Assistant to the President for National Security Affairs rather than to the Board.

(c) DISCRETION TO DISCLOSE.—At the conclusion of a declassification review, the head of an agency may, in the discretion of the head of the agency, determine that the public's interest in the disclosure of records or materials of the agency covered by such review, and still properly classified, outweighs the Government's need to protect such records or materials, and may release such records or materials in accordance with the provisions of Executive Order 12958 or any successor order to such Executive Order.

(d) DISCRETION TO PROTECT.—At the conclusion of a declassification review, the head of an agency may, in the discretion of the head of the agency, determine that the interest of the agency in the protection of records or materials of the agency covered by such review, and still properly classified, outweigh's the public's need for access to such records or materials, and may deny release of such records or materials in accordance with the provisions of Executive Order 12958 or any successor order to such Executive Order.

(e) REPORTS.—(1)(A) Except as provided in paragraph (2), the Board shall annually submit to the appropriate congressional committees a report on the activities of the Board under this title, including summary information regarding any denials by the head of an agency or the head of a Federal Presidential library of access of the Board to records or materials under this title.

(B) In this paragraph, the term ''appropriate congressional committees'' means the Select Committee on Intelligence and the Committee on Governmental Affairs of the Senate and the Permanent Select Committee on Intelligence and the Committee on Government Reform and Oversight of the House of Representatives.

(2) Notwithstanding paragraph (1), notice that the Board has been denied access to records and materials, and a justification for the determination in support of the denial, shall be submitted by the agency denying the access as follows:

(A) In the case of the denial of access to a special access program created by the Secretary of Defense, to the Committees on Armed Services and Appropriations of the Senate and to the Committees on Armed Services and Appropriations of the House of Representatives.

(B) In the case of the denial of access to a special access program created by the Director of Central Intelligence, or by the head of any other agency (including the Department of Defense) if the special access program pertains to intelligence activities, or of access to any information and materials relating to intelligence sources and methods, to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives.

(C) In the case of the denial of access to a special access program created by the Secretary of Energy or the Administrator for Nuclear Security, to the Committees on Armed Services and Appropriations and the Select Committee on Intelligence of the Senate and to the Committees on Armed Services and Appropriations and the Permanent Select Committee on Intelligence of the House of Representatives.

SEC. 807. JUDICIAL REVIEW.

Nothing in this title limits the protection afforded to any information under any other provision of law. This title is not intended and may not be construed to create any right or benefit, substantive or procedural, enforceable at law against the United States, its agencies, its officers, or its employees. This title does not modify in any way the substantive criteria or procedures for the classification of information, nor does this title create any right or benefit subject to judicial review.

SEC. 808. FUNDING.

(a) AUTHORIZATION OF APPROPRIATIONS.—There is hereby authorized to be appropriated to carry out the provisions of this title amounts as follows:

(1) For fiscal year 2001, $650,000.

(2) For each fiscal year after fiscal year 2001, such sums as may be necessary for such fiscal year.

(b) FUNDING REQUESTS.—The President shall include in the budget submitted to Congress for each fiscal year under section 1105 of title 31, United States Code, a request for amounts for the activities of the Board under this title during such fiscal year.

SEC. 809. DEFINITIONS.

In this title:

(1) AGENCY.—(A) Except as provided in subparagraph (B), the term ''agency'' means the following:

(i) An executive agency, as that term is defined in section 105 of title 5, United States Code.

(ii) A military department, as that term is defined in section 102 of such title.

(iii) Any other entity in the executive branch that comes into the possession of classified information.

(B) The term does not include the Board.

(2) CLASSIFIED MATERIAL OR RECORD.—The terms ''classified material'' and ''classified record'' include any correspondence, memorandum, book, plan, map, drawing, diagram, pictorial or graphic work, photograph, film, microfilm, sound recording, videotape, machine readable records, and other documentary material, regardless of physical form or characteristics, that has been determined pursuant to Executive Order to require protection against unauthorized disclosure in the interests of the national security of the United States.

(3) DECLASSIFICATION.—The term ''declassification'' means the process by which records or materials that have been classified are determined no longer to require protection from unauthorized disclosure to protect the national security of the United States.

(4) DONATED HISTORICAL MATERIAL.—The term ''donated historical material'' means collections of personal papers donated or given to a Federal Presidential library or other archival repository under a deed of gift or otherwise.

(5) FEDERAL PRESIDENTIAL LIBRARY.—The term ''Federal Presidential library'' means a library operated and maintained by the United States Government through the National Archives and Records Administration under the applicable provisions of chapter 21 of title 44, United States Code.

(6) NATIONAL SECURITY.—The term ''national security'' means the national defense or foreign relations of the United States.

(7) RECORDS OR MATERIALS OF EXTRAORDINARY PUBLIC INTEREST.—The term ''records or materials of extraordinary public interest'' means records or materials that—

(A) demonstrate and record the national security policies, actions, and decisions of the United States, including—

(i) policies, events, actions, and decisions which led to significant national security outcomes; and

(ii) the development and evolution of significant United States national security policies, actions, and decisions;

(B) will provide a significantly different perspective in general from records and materials publicly available in other historical sources; and

(C) would need to be addressed through ad hoc record searches outside any systematic declassification program established under Executive Order.

(8) RECORDS OF ARCHIVAL VALUE.—The term ''records of archival value'' means records that have been determined by the Archivist of the United States to have sufficient historical or other value to warrant their continued preservation by the Federal Government.

SEC. 810. SUNSET.

The provisions of this title shall expire four years after the date of the enactment of this Act, unless reauthorized by statute.

The PRESIDING OFFICER (Mr. FITZGERALD) appointed Mr. SHELBY, Mr. LUGAR, Mr. KYL, Mr. INHOFE, Mr. HATCH, Mr. ROBERTS, Mr. ALLARD, Mr. MACK, Mr. WARNER, Mr. BRYAN, Mr. GRAHAM, Mr. KERRY, Mr. BAUCUS, Mr. ROBB, Mr. LAUTENBERG, and Mr. LEVIN conferees on the part of the Senate.

Mr. LOTT. Mr. President, I yield to Senator BRYAN.

Mr. BRYAN. Mr. President, I thank the leader. I specifically thank the chairman, Senator SHELBY. We have worked to put this authorization bill together. It could not have happened but for his cooperation and the cooperation of a number of others of our colleagues on the Intelligence Committee. I thank them for their cooperation, the chairman in particular. I thank the majority leader and Senator DASCHLE as well. Again, I acknowledge the leadership of my chairman. He has been most helpful in working through this bill. I thank him, the majority leader, and our colleagues.

My remarks will echo many of the points made by the distinguished chairman of the Intelligence Committee, Senator SHELBY. Those who are not familiar with the workings of the Intelligence Committee may find it odd that members from different parties have such agreement on the substance

of this legislation. Most of my colleagues, however, know that the committee has a long tradition of bipartisanship and I am proud to say that under Senator SHELBY's leadership we have upheld that tradition. We have confronted difficult policy issues and budget choices, and the chairman has gone out of his way to ensure that the committee addressed these in a fair and nonpartisan way. I appreciate the courtesies he has shown me as vice chairman. I think we have produced a good bill that focuses on several critical areas of intelligence policy.

This important legislation authorizes the activities of the U.S. intelligence community and seeks to ensure that this critical function will continue to serve our national security interests into the 21st century. The community faces momentous challenges from both the proliferation of threats facing America and from the rapid pace of technological change occurring throughout society. How we respond to these challenges today will affect our ability to protect American interests in the years ahead.

Some have argued that the end of the cold war should have significantly reduced our need for a robust intelligence collection capability. In fact, the opposite is true. The bipolar world of the Soviet-United States confrontation provided a certain stability with a clear threat and a single principal adversary on which to focus. We now face a world with growing transnational threats of weapons proliferation, terrorism, and international crime and narcotics trafficking, and multiple regional conflicts which create instability and threaten U.S. interests. While we, of course, must continue to closely monitor Russia, which still possesses the singular capability to destroy our country, these emerging threats demand increasing attention and resources.

A decade after the collapse of Soviet communism, the intelligence community continues its difficult transition, from an organization which confronted one threat to one which now must focus on a variety of threats, each unique in its potential to harm the United States. At the same time, the community has been buffeted by the information revolution, which provides tremendous opportunity for intelligence collection, but threatens to overwhelm our ability to process and disseminate information. These twin challenges—new and qualitatively different threats, coupled with an information and technological explosion—threaten the community's ability to serve as an early warning system for our country and a force multiplier for our armed services.

Unfortunately, the intelligence community has often been too slow to confront these challenge and to adapt to these new realities. To make this transition will require the following:

First, the intelligence community must get its budget in order. Although I believe the community probably needs additional resources, the Congress first must be convinced that existing resources are being used effectively.

Second, the various intelligence agencies must begin to function ore corporately—as a community, rather than as separate entities, all with different and often conflicting priorities. This has been a topic of debate for some time. And yet, the passage of time does not seem to have brought us much closer to this objective.

Third, the intelligence community must do a better job of setting priorities. That means making hard decisions about what it will not do. Resources are stretched thin, often because community leadership has been unable to say no. The result is that agencies like the National Security Agency are starved for recapitalization funds necessary to keep pace with technological changes.

Fourth, the community must streamline its bureaucracy, eliminating unnecessary layers of management, particularly those that separate the collector of intelligence from the analyzer of that intelligence.

Finally, the community must revamp its information technology backbone so that agencies can easily and effectively communicate with one another.

These steps will not be easy but are essential if the intelligence community is to stay relevant in today's world. Good intelligence is more important than ever. As we deal with calls for military intervention in far flung locales, intelligence becomes a force multiplier. We rely on the intelligence community to keep us informed of developing crises, to describe the situation prior to any U.S. intervention, to help with force protection when U.S. personnel are on the ground, and to analyze foreign leadership intentions. Solid intelligence allows U.S. policymakers and military commanders to make and implement informed decisions.

Maintaining our intelligence capability is difficult and sometimes expensive but absolutely essential to national security. The committee has identified a few areas that we think are priorities that need additional attention. One area of particular concern is the need to recapitalize the National Security Agency to assure our ability to collect signals intelligence. Collecting and deciphering the communications of America's adversaries provides senior policymakers with a unique source of sensitive information. In 1998, and again this year, the committee asked a group of highly qualified technical experts to review NSA operations. The Technical Advisory Group's conclusions were unsettling. They identified significant shortcomings which have resulted from the sustained budget decline of the past decade. With limited available resources the NSA has maintained its day-to-day readiness but has not invested in needed modernization. Consequently, NSA's technological infrastructure and human resources are struggling to meet emerging challenges.

The NSA historically has led the way in development and use of cutting edge technology. This innovative spirit has helped keep the United States a step ahead of those whose interests are hostile to our own. Unfortunately, rather than leading the way, the NSA now struggles to keep pace with communications and computing advances.

There is, however, some reason for optimism. The current Director of NSA, General Hayden, has developed a strategy for recovery. He has undertaken an aggressive and ambitious modernization effort, including dramatic organizational changes and innovative business practices. These changes and the rebuilding of NSA's infrastructure will, however, require significant additional resources. The committee decided that this situation demands immediate attention, but the intelligence budget faces the same constrained fiscal situation as other areas of the Federal budget. We have, therefore, realigned priorities within existing resources in order to reverse this downward trend. This was not an easy process and we were forced to make some painful tradeoffs, but ensuring the future of the NSA is the committee's top priority. We cannot stand by and allow the United States to lose this capability. We have taken prudent steps in this legislation to make sure NSA will continue to be the premier signals intelligence organization in the world.

The bill also attempts to address an imbalance that has concerned the committee for some time. We have argued that our ability to collect intelligence far exceeds our ability to analyze and disseminate finished intelligence to the end user. We spend a tremendous amount of the budget developing and fielding satellites, unmanned aerial vehicles and all manner of other senors and collection platforms. These programs are important but too often new sensors are put into place without sufficient thought to how we will process and distribute the additional data. No matter how good a satellite is at collecting raw intelligence, it is useless if that intelligence never makes it into the hands of a competent analyst and then on to an end user.

This imbalance has been particularly acute at the National Imagery and Mapping Agency. At the request of Congress, NIMA has identified projected processing shortfalls associated with its future sensor acquisition plans. NIMA also outlined a three

phase modernization to address these shortfalls. Unfortunately, the future year funding profile creates a situation that will force the intelligence community to either cut deeply into other programs or abandon the modernization. The committee has rejected that approach and has realigned priorities in order to avoid this budgetary squeeze in the out years. It makes no sense to purchase expensive collection platforms when the rest of the system cannot handle the amount of intelligence produced.

Beyond the questions of resource allocation, this legislation also address several policy issues, including the problem of serious security breakdowns at the State Department. Over the course of the last 2½ years the Department has been beset by seemingly inexplicable security compromises, the latest being the disappearance of a laptop computer in January of this year. This incident, still unexplained, follows closely on the heels of the discovery of a Russian listening device planted in a seventh floor conference room. Subsequently we learned that there was no escort requirement for foreign visitors, including Russians, to the State Department. Finally, I must mention the 1998 tweed jacket incident. In this case an unidentified man wearing a tweed jacket entered the Secretary of State's office suite unchallenged by State Department employees and removed classified documents. No one knows who he was.

The only conclusion that I can draw is that the State Department culture does not place a priority on security. Despite Secretary Albright's efforts to correct procedural deficiencies and to emphasize the need for better security, we have not seen much progress. The authorization bill contains a provision requiring all elements of the State Department to be certified as in compliance with regulations for the handling of Sensitive Compartmented Information. This is the most highly classified information and is controlled by the Director of Central Intelligence. If a component of the State Department is not in compliance with the applicable regulations, then that office will no longer be allowed to retain or store this sensitive information. It is unfortunate that this provision is necessary, but we must make it clear to individuals who handle classified material that we are serious about enforcing security rules.

A broader but related area of concern is the ability of the U.S. Intelligence community to meet the counterintelligence threats of the 21st Century with current structures and programs. We can no longer worry only about the intelligence services of adversaries such as the old Soviet Union, North Korea, or Cuba. We must deal with ever more sophisticated terrorist organizations and international crime syndicates capable of launching their own intelligence and counterintelligence efforts. We also face challenges from friendly states seeking access to economic data and advanced U.S. technology.

All of these changes argue for a major retooling of a U.S. counterintelligence apparatus designed for the cold war. The Director of Central Intelligence, the Director of the FBI, and the Deputy Secretary of Defense have undertaken an effort, referred to as CI–21, to design the structures and policies that we will need to cope with cutting edge technology and with the emergence of threats from nontraditional sources. I have been encouraged by the early progress made on the CI–21 effort. We have chosen not to include legislative provisions in the bill with the hope that the agencies involved will reach agreement and finalize the CI–21 plan. The report accompanying the bill strongly encourages them to do so and I reiterate that encouragement.

One provision in the bill that has created a bit of controversy is the section that closes a gap in existing law related to the unauthorized disclosure of classified material. This provision will make it a felony for a U.S. government official to knowingly pass classified material to someone who is not authorized to receive it. I say that this provision closes a gap because many categories of classified information are covered by existing statutes. This includes nuclear weapons data and defense information. Unfortunately much sensitive intelligence information does not fall into one of the existing definitions. Disclosure of this information could compromise sensitive sources and in some cases endanger peoples lives. The provision in the bill has been carefully crafted to avoid first amendment concerns and the chairman and I will offer a technical amendment incorporating suggestions made by the Attorney General. It is my understanding that she supports the provision as amended.

Another provision which merits further explanation is the section dealing with treaty implementing legislation. This language provides that future criminal laws enacted to implement treaties will not apply to intelligence activities unless those activities are specifically named in the legislation. On its face this could be interpreted as exempting our intelligence community from the law regardless of the nature of the activity. In fact, this only applies to activities which are otherwise lawful and authorized. Intelligence activities are subject to an extensive set of statutes, regulations and presidential directives. These rules try to balance our need for intelligence to protect our national security with the American sense of values and ethical behavior.

Intelligence gathering—spying—is an inherently deceitful activity. To protect our military forces, thwart terrorist acts, or dismantle drug trafficking organizations, we gather information through surreptitious means. We either convince people to betray their country or cause, or we use intrusive technical means to find out what people are doing or saying. This may make some people uncomfortable, but it is absolutely essential to protecting American interests. Treaties that proscribe certain kinds of behavior should not inadvertently restrict these intelligence activities. If the Congress intends to apply treaty implementing legislation to intelligence activities, then we should say so explicitly. We want to be precise and ensure that intelligence operatives in the field understand what we expect of them. Ambiguity and uncertainty are more likely to create problems. This provision will put the burden on Congress to make the determination of which treaty restrictions we want to apply to intelligence activities.

I have served on the Intelligence Committee for almost 8 years now and I have had the privilege of serving as vice chairman since January. During that time I have made a few observations that I would like to share. Since I am leaving the committee and the Senate at the end of this year, I have no vested interest other than my continuing belief in the importance of the committee's work conducting oversight of the intelligence community.

My experience leads me to the conclusion that excessive turnover is seriously hampering the effectiveness of the Intelligence Committee—a committee the Senate relies upon and points to in reassuring the American people that the intelligence community is being appropriately monitored by their elected representatives. Because of the 8-year limitation, member turn-over can be, and often is dramatic. For example, when the 107th Congress convenes next January, 5 of the 7 currently serving Democrats will have departed the committee. At the end of the 107th Congress, 5 of the 8 currently serving Republicans will leave the committee.

Over time, this brain drain diminishes the committee's ability to discharge its responsibilities. For example, in 1994 the committee dealt with the Aldrich Ames espionage case, arguably the most devastating counterintelligence failure of the cold war. The committee produced a report extremely critical of the CIA in this case and of the way the CIA and FBI dealt with counterintelligence in general. The Ames debacle led to a major restructuring of our national counterintelligence system with significant legislative input. Yet today, there is only one member on the majority side who served on the committee during that period, and at the end of this year there will be no members on the Democratic side. This lack of corporate

memory greatly reduces the committee's effectiveness.

This committee deals with sensitive and complex issues, and much of the committee's business involves the technical agencies such as the National Security Agency and the National Reconnaissance Office. To understand these issues a Senator must invest significant time to committee briefings and hearings. There is no outside source to go to stay abreast of developments in the intelligence community. Just about the time members are beginning to understand these issues they are forced to rotate off the committee. This makes no sense.

The rationale behind the term limits was two fold. First, it was feared that the intelligence community could over time co-opt permanently serving members. In fact, new members who have little experience with the workings of the intelligence community are more dependent on information provided by the intelligence agencies. SSCI members are no more likely to be co-opted by the intelligence community than the members of other authorizing committees are likely to be co-opted by the Departments and agencies they oversee. The second reason term limits were enacted stemmed from the understandable view that the SSCI would benefit from a flow of fresh ideas that new members would bring. But because of naturally occurring turnover, new members have regularly joined the committee, irrespective of term limits. Since the SSCI was created 24 years ago, approximately sixty Senators have served on the committee. Members have served an average of just over 5 years—and approximately 60 percent of committee members have served on the committee less than 8 years. This historical record confirms that vacancies will continue to occur regularly on the SSCI, thus allowing the new faces and fresh ideas. At the same time, however, members who have a long-term interest in the area of intelligence should continue to serve and develop expertise.

My second observation relates to the committee's authority but also to a larger issue that is the question of declassifying the top line number for the intelligence budget. It is difficult to conduct a thorough and rationale debate concerning intelligence policy without mentioning how much money we spend on our intelligence system. Declassifying the top line budget would allow for a healthy debate within the Congress about the priority we place on intelligence. I would provide greater visibility and openness to average Americans, whose tax dollars fund these programs. Disclosure of the overall budget would provide these benefits without damaging U.S. national security. DCI Tenet declassified the budget numbers for top past budgets with no adverse effects, but has declined to continue this practice. I hope that the Congress and the next administration will revisit this issue and left this unnecessary veil of secrecy.

Finally, Mr. President, I want to thank the staff of the Intelligence Committee for the work they do and for the support they have given me as vice chairman. The committee is staffed by professionals dedicated to ensuring that the intelligence community enhances U.S. national security and does so in strict compliance with the intent of Congress. The staff is unique in the Senate in that the vast majority are nonpartisan and go about their business without regard to any political agenda. The four members of the staff with partisan affiliations, the staff directors and their deputies, approach their work with same spirit of bipartisanship that always has been a hallmark of the committee. Let me single our Bill Duhnke and Joan Grimson, the majority staff director and deputy for their excellent cooperation and the courtesy they have extended this year. I should note that Joan is not here today because she is off on maternity leave. I extend my congratulations to her and her husband on the birth of their first child, Jacqueline Anna. I also thank Melvin Dubee, my deputy minority staff director. Melvin brings a wealth of experience to the job, and it has been reflected in the sound advice I have come to depend on him to provide. Vicki Divoll, who joined the committee staff as counsel in January, also has been invaluable to me during the preparation of this legislation and in dealing with other legal issues.

Finally, I would have been lost as vice chairman without the guidance and advice of Al Cumming, the minority staff director. Al kept me well informed and helped me focus on issues that will have a lasting impact on the functioning of the intelligence community. The staff has done superb work on this legislation.

Mr. LOTT. Mr. President, I thank Senator BRYAN for his comments. Obviously, as I said, this is very important legislation. The Intelligence Committee does good work, important work for our committee. It has been partially delayed by misunderstandings which we have worked out. I think everybody is satisfied with this. I thank the chairman for his persistence. I yield to the chairman of the committee.

Mr. SHELBY. Mr. President, I want to take a minute or two and talk about my colleague from Nevada, Senator BRYAN. He is going to be leaving the Senate soon. As the vice chairman of the committee—a long-term and longtime member of the Senate Intelligence Committee—he has been a delight to work with most of the time. Seriously. He puts a lot of effort into what we do on the Senate Intelligence Committee.

I would be remiss if I did not bring that up as we pass this bill tonight. We have a conference to go to. We will be spending a lot of time together in the waning days of this Congress. DICK BRYAN served this country well, first as a State legislator, as the attorney general of his State, as the Governor of his State, and in two terms in the U.S. Senate. I have worked with him on a lot of issues, and I can say this: He is a hard worker, he is smart, he is going to be prepared, he is going to be tough, and he is going to put the Nation first.

Mr. BRYAN. Mr. President, if I may respond to the excessively generous comments of my chairman, my colleague, and my friend, the reality is that working with him has been a pleasure. Without his cooperation and, obviously, trying to work in a bipartisan way to process this piece of legislation and other things we have done since the two of us have been privileged to serve as chairman and vice chairman, we would not be here today with this bill.

I acknowledge his leadership. The good citizens of Alabama have a fine Member here and a person with whom I have been privileged to work for the last 12 years I have been in the Senate, and most especially this last year when we have served in our respective roles on the Intelligence Committee. I thank him publicly.

Mr. SPECTER. Mr. President, I have sought recognition to discuss legislation arising from the investigation by the Senate Judiciary Subcommittee on Administrative Oversight and the Courts, which has been conducting oversight on the way the Department of Justice and the Federal Bureau of Investigation have responded to allegations of espionage in the Department of Defense and the Department of Energy. This bipartisan proposal will improve the counterintelligence procedures used to detect and defeat efforts by foreign governments to gain unlawful access to our top national security information by improving the way that allegations of espionage are investigated and, where appropriate, prosecuted.

Together with Senators TORRICELLI, GRASSLEY, THURMOND, SESSIONS, SCHUMER, FEINGOLD, BIDEN, HELMS and LEAHY, I introduced the Counterintelligence Reform Act on February 24 of this year. The Judiciary Committee unanimously reported the bill on May 18, and it was referred to the Senate Select Committee on Intelligence which also deals with espionage matters.

The Senate Intelligence Committee unanimously reported the bill on July 20, and has included the measure as an amendment to the Intelligence Authorization bill which passed the Senate today.

Few tasks are more important than protecting our national security, so

building and maintaining bipartisan support for this legislation to correct the problems we identified during the course of our oversight was my top priority. The reforms contained in this legislation will ensure that the problems we found are fixed, and that the national security is better protected in the future.

To understand why this legislation is necessary, I would like to review two of the cases that the subcommittee looked at—the Wen Ho Lee case and the Peter Lee case. Former Los Alamos scientist Dr. Wen Ho Lee was arrested on December 10, 1999, and charged with 59 counts of violating the Atomic Energy Act of 1954 and unlawful gathering and retention of national defense information. In a stunning reversal on September 13, the government accepted a deal in which Dr. Lee would plead guilty to one count of unlawfully retaining national defense information and would be sentenced to time served, in exchange for telling what he had done with the tapes. There remains a question as to whether Department of Justice officials tried to make up for their blunders in this case by throwing the book at Dr. Lee. The Judiciary Subcommittee on Department of Justice Oversight will continue to hold hearings on this matter, but it has been clear from the beginning that the Department of Justice bungled the investigation of Dr. Lee.

The critical turning point in this case came on August 12, 1997, when the Department of Justice's Office of Intelligence Policy and Review (OIPR) turned down an FBI application for an electronic surveillance warrant under the Foreign Intelligence Surveillance Act, or FISA. OIPR believed that the application was deficient because it did not show sufficient probable cause, and therefore decided not to let the application go forward to the special FISA court.

In making this determination, the DoJ made several key errors. The Department of Justice used an unreasonably high standard for determining probable cause, a standard that is inconsistent with Supreme Court rulings on this issue. For example, one of the concerns raised by OIPR attorney Allan Kornblum was that the FBI had not shown that the Lees were the ones who passed the W–88 information to the PRC, to the exclusion of all the other possible suspects identified by the DoE Administrative Inquiry. That is the standard for establishing guilt at a trial, not for establishing probable cause to issue a search warrant.

DoJ was also wrong when Mr. Kornblum concluded that there was not enough to show that the Lees were ''presently engaged in clandestine intelligence activities.'' The information provided by the FBI made it clear that Dr. Lee's relevant activities continued from the 1980s to 1992, 1994 and 1997, yet that was deemed to be too stale, and the DoJ refused to send the FBI's surveillance request to the FISA court.

When FBI Assistant Director John Lewis raised the FISA problem with the Attorney General on August 20, 1997, she delegated a review of the matter to Mr. Dan Seikaly, who had virtually no experience in FISA issues. It is not surprising then, that Mr. Seikaly again applied the wrong standard for probable cause. He used the criminal standard, which requires that the facility in question be used in the commission of an offense, and with which he was more familiar, rather than the relevant FISA standard which simply requires that the facility ''is being used, or is about to be used, by a foreign power or an agent of a foreign power.''

The importance of DoJ's erroneous interpretation of the law as it applied to probable cause in this case should not be underestimated. Had the warrant been issued, and had the FBI been permitted to conduct electronic surveillance on Dr. Lee, the Government would probably not be in the position—as it is now—of trying to ascertain what really happened to the information that Dr. Lee downloaded. There should be no doubt that transferring classified information to an unclassified computer system and making unauthorized tape copies of that information—seven of which contain highly classified information and remain unaccounted for—created a substantial opportunity for foreign intelligence services to access our most important nuclear secrets.

The FISA warrant could have and should have been issued at several points, some before and some after it was rejected in 1997. Each key event where the FISA warrant was not requested and issued represents another lost opportunity to protect the national security. For example, Dr. Lee was identified by the Department of Energy's Network Anomaly Detection and Intrusion Recording system (NADIR) in 1993 for having downloaded a huge volume of files.

As the name of the system implies, it is designed to detect unusual computer activity and look out for possible intruders into the computer. Individuals who monitored the lab's computers knew that Dr. Lee's activities had generated a report from the NADIR system, but didn't do anything about it. They didn't even talk to him. An opportunity to correct a problem, to protect national security, just slipped away.

In 1994, Lee's massive downloading would have again showed up on NADIR, but DoE security people never took action. Now, we're told, they can't even find records of what happened. Yet another missed opportunity to protect the national security by looking into what was going on.

When Wen Ho Lee took a polygraph in December 1998, DoE misrepresented the results of this test to the FBI. DoE told the FBI that Dr. Lee passed this polygraph when, in fact, he had failed. This error sent the FBI off the trail for two months.

When Wen Ho Lee failed a polygraph on February 10, 1999, the FISA warrant should have been immediately requested and granted. It wasn't.

The need for legislation to address these problems is obvious. The unclassified information on this case shows clearly that it was mishandled. The classified files make that point even more clear. Last year the Attorney General asked an Assistant U.S. Attorney with substantial experience in prosecuting espionage cases to review the Wen Ho Lee matter. That prosecutor, Mr. Randy Bellows, conducted a thorough review of the case and confirmed all of our major findings: the case was badly mishandled, the FISA request should have gone forward to the court. The list goes on. Our counter-intelligence system failed in this case, and the information at risk is too important to let this dismal state of affairs continue.

The Counterintelligence Reform Act of 2000 will help to ensure that future investigations are conducted in a more thorough and effective manner. Among the key provisions in this legislation is one that amends the Foreign Intelligence Surveillance Act, FISA, by requiring that, upon the request of the Director of the FBI, the Secretary of State, the Secretary of Defense or the Director of Central Intelligence, the Attorney General shall personally review a FISA application. If the Attorney General decides not to forward the application to the FISA court, that decision must be communicated in writing to the requesting official, with recommendations for improving the showing of probable cause, or whatever defect OIPR is concerned with.

Under this legislation, when a senior official who is authorized to make FISA requests goes to the Attorney General for a personal review, that senior official must personally supervise the implementation of the recommendations. This provision will ensure that when the national security is at stake, and where there is a serious disagreement over how to proceed, the Attorney General and other senior officials are the ones who work together to resolve disputes, and that the matter is not delegated to attorneys who have never worked with FISA before.

The Counterintelligence Reform Act also addresses the matter of whether an individual is ''presently engaged'' in a particular activity to ensure that genuine acts of espionage which are belatedly discovered are not improperly eliminated from consideration. As FISA is currently worded, it is possible for someone like Mr. Kornblum to conclude that actions as recent as a couple of years ago or even a few months are

too stale to contribute to a finding of probable cause. Although I do not agree with Mr. Kornblum's interpretation of the law, I am confident that the changes contained in the Counterintelligence Reform Act will make it clear that activities within a reasonable period of time can be considered in determining probable cause.

The investigation of Dr. Lee was also mishandled in the field, where the FBI and the Department of Energy often failed to communicate. For example, after OIPR rejected the FBI's 1997 FISA application, the FBI told the Department of Energy that there was no longer an investigative reason to leave Dr. Lee in place, and that the DoE should do whatever was necessary to protect the national security. Unfortunately, no action was taken by DoE until December 1998, some 14 months after the FBI had said it was no longer necessary to have him in place for investigative reasons.

To address this problem, and to ensure that there is no misunderstanding about when the subject of an espionage investigation should be removed from classified access, the Counterintelligence Reform Act requires that decisions of this nature be communicated in writing. The bill requires the Director of the FBI to submit to the head of the department or agency concerned a written assessment of the potential impact of the actions of the department or agency on a counterintelligence investigation. The head of the affected agency will be required to respond in writing to the recommendation of the FBI. This requirement with ensure that what happened in the Wen Ho Lee case—where the FBI said he could be removed from access but the Energy Department didn't pull his clearance for another 14 months—won't happen again.

To avoid the kind of problems that happened when the DoE ordered a Wackenhut polygraph in December 1998, this legislation prohibits agencies from interfering in FBI espionage investigations.

The provisions of this bill will make an important contribution to improving the way counter-intelligence investigations are conducted. The subcommittee's investigation of the Wen Ho Lee case has made it abundantly clear that improvements in these procedures are necessary, and the reforms outlined in this legislation are specifically tailored to provide real solutions to real problems.

The subcommittee also looked at the espionage case of Dr. Peter Lee, who pleaded guilty in 1997 to passing classified nuclear secrets to the Chinese in 1985. According to a 17 February 1998 ''Impact Statement'' prepared by experts from the Department of Energy,

> The ICF data provided by Dr. [Peter] Lee was of significant material assistance to the PRC in their nuclear weapons development program. . . . For that reason, this analysis indicates that Dr. Lee's activities have directly enhanced the PRC nuclear weapons program to the detriment of U.S. national security.

Dr. Peter Lee also confessed to giving the Chinese classified anti-submarine warfare information on two occasions in 1997. Under the terms of the plea agreement the Department of Justice offered to Peter Lee, however, he got no jail time. He served one year in a half-way house, did 3,000 hours of community service and paid a $20,000 fine. Considering the magnitude of his offenses and his failure to comply with the terms of the plea agreement—which required his complete cooperation—the interests of the United States were not served by this outcome.

The subcommittee's review of the Peter Lee case led to the inevitable conclusion that better coordination between the Department of Justice, the investigating agency—which is normally the FBI—and the victim agency is necessary to ensure that the process works to protect the national security. One of the problems we saw in this case was the reluctance of the Department of the Navy to support the prosecution of Dr. Peter Lee. A Navy official, Mr. John Schuster, produced a memo that seriously undermined the Department of Justice's efforts to prosecute the case. This memorandum was based on incomplete information and did not reflect the full scope of what Dr. Peter Lee confessed to having revealed. As a consequence of the breakdown of communications between the Navy and the prosecution team, the 1997 revelations were not included as part of the plea agreement.

This legislation contains a provision that will ensure better coordination in espionage cases by requiring the Department of Justice to conduct briefings so that the affected agency will understand what is happening with the case, and will understand how the Classified Information Procedures Act, or CIPA, can be used to protect classified information even while carrying out a prosecution. In these briefings Department of Justice lawyers will be required to explain the right of the government to make in camera presentations to the judge and to make interlocutory appeals of the judge's rulings. These procedures are unique to CIPA, and the affected agency needs to understand that taking the case to trial won't necessarily mean revealing classified information. The Navy's position, as stated in the Schuster memo, that ''bringing attention to our sensitivity concerning this subject in a public forum could cause more damage to the national security that the original disclosure,'' was simply wrong. It was based on incomplete information and a misunderstanding of how the case could have been taken to trial without endangering national security. The provisions of this legislation which require the Department of Justice to keep the victim agency fully and currently informed of the status of the prosecution, and to explain how CIPA can be used to take espionage cases to trial without damaging the national security, will ensure that the mistakes of the Peter Lee case are not repeated.

I appreciate the efforts of my colleagues on the Judiciary Committee and the Senate Select Committee on Intelligence who have worked with me and the cosponsors of this bill. I am confident that the reforms we are about to pass will significantly improve the way espionage cases are investigated and, if necessary, prosecuted.

Mr. LOTT. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. LOTT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS CONSENT AGREEMENT—EXECUTIVE CALENDAR

Mr. LOTT. Mr. President, I ask unanimous consent that following the vote relative to the H–1B bill and the visa waiver bill on Tuesday, the Senate immediately proceed to executive session to consider the following nominations on the Executive Calendar, en bloc: No. 652, Michael Reagan; No. 654, Susan Bolton; and No. 655, Mary Murguia.

I further ask unanimous consent that following the en bloc consideration, the following Senators be recognized to speak for the allotted timeframes. They are: Senator HATCH for 20 minutes; Senator KYL for 20 minutes; Senator LOTT or designee for 20 minutes; Senator LEVIN for 20 minutes; Senator ROBB for 10 minutes; Senator HARKIN for 30 minutes; Senator LEAHY for 20 minutes; and Senator DURBIN for 10 minutes.

I further ask unanimous consent that following the use or yielding back of time, the nominations be temporarily set aside.

I also ask unanimous consent that following that debate, the Senate then proceed to the nomination of Calendar No. 656, James Teilborg, and there be up to 1 hour each for Senators HATCH, KYL, and LEAHY, and up to 3 hours for Senator HARKIN or his designee, and following the use or yielding back of the time, the Senate proceed to vote in relation to that nominee, without any intervening action or debate, to be followed immediately by a vote en bloc in relation to the three previously debated nominations. I further ask consent that the vote count as three separate votes on each of the nominations.

Finally, I ask consent that following the confirmation votes, the President be immediately notified of the Senate's action and the Senate then return to legislative session.

The PRESIDING OFFICER. Is there objection?

Mr. HARKIN. Reserving the right to object, I ask the distinguished majority leader, in good faith, if he would modify his unanimous consent request to discharge the Judiciary Committee on further consideration of the nomination of Bonnie Campbell, the nominee for the Eighth Circuit Court, and that her nomination be considered by the Senate under the same terms and at the same time as the nominees included in the majority leader's request?

I ask the majority leader if he would modify his request.

Mr. LOTT. Mr. President, I understand the Senator's interest in that additional nomination. I do not think I have ever moved to discharge the Judiciary Committee on a single nomination or a judge. There are other judges presumably that will also need to be considered. I do appreciate the agreement that has been reached here. I know that it has been difficult for the Senator from Iowa to even agree to this. But in view of the fact that the committee has not acted, I could not agree to that at this time, so I would have to object.

The PRESIDING OFFICER. Is there objection?

Mr. HARKIN. Mr. President, further reserving the right to object for just one more, again, I just want to say to the majority leader that on some of these nominees—I think maybe three of them were nominated, got their hearings and were reported out of committee all within one week in July. Yet Bonnie Campbell from Iowa was nominated early this year. She has had her hearing, and has been sitting there now for four months without being reported out. I just find this rather odd. I haven't heard of any objections to bringing her nomination out on the floor.

I just ask the majority leader whether or not we can expect to have at least some disposition of Bonnie Campbell before we get out of here.

Mr. LOTT. I respond, Mr. President, that I do not get into the background of all the nominees when they are before the committee. I do not know all of the background on these nominees. As majority leader, when nominations reach the calendar, I try to get them cleared. I do think the fact that we had not been able to clear these four, even though they were already on the calendar, has maybe had a negative impact on other nominations being reported on the assumption that, well, if we could not move these, which were, I think, unanimously cleared quickly without any reservations, that that had become an impediment. I do not know that this will remove that impediment, but it looks to me as if it is a positive step.

Mr. HARKIN. I just say to the leader, it seems odd we have a nominee that is supported by both of the Senators from her home State, on both sides of the aisle, on the Republican and Democratic side; and I think she is not getting her due process here in this body. I just want to make that point. I appreciate that.

Mr. LOTT. I say for the RECORD—and you know that it is true because I believe you were with me when he spoke to me—Senator GRASSLEY has indicated more than once his support for the nominee. So he has made it clear he does support her. I do not know all of the problems or if there are any. But perhaps further consideration could occur. I am sure you won't relent.

Mr. HARKIN. I plan to be here every day. I thank the leader.

The PRESIDING OFFICER. Is there objection to the majority leader's original request?

Without objection, it is so ordered.

Mr. LOTT. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KYL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. KYL. Mr. President, I ask unanimous consent, on behalf of the leader, that the Senate now be in a period of morning business with Senators speaking for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRIBUTE TO REAR ADMIRAL LOUIS M. SMITH, CIVIL ENGINEER CORPS, U.S. NAVY

Mr. LOTT. Mr. President, it is with great pleasure that I rise to take this opportunity to recognize the exemplary service and career of an outstanding naval officer, Rear Admiral Louis M. Smith, upon his retirement from the Navy at the conclusion of more than 33 years of honorable and distinguished service. Throughout his exemplary career, he has truly epitomized the Navy core values of honor, courage, and commitment and demonstrated an exceptional ability to advance the Navy's facilities requirements within the Department of Defense and the Congress. It is my privilege to commend him for a superb career of service to the Navy, our great Nation, and my home State of Mississippi.

Since September 1998, Rear Admiral Smith has served as the Commander, Naval Facilities Engineering Command, and Chief of Civil Engineers. As the senior civil engineer in the Navy, he is responsible for the planning, design, construction and maintenance of naval facilities around the globe. On Capital Hill, he is best known for his quick wit, entertaining and informative testimony, and ability to communicate the Navy's facilities requirements in addition to his role in developing and executing the Navy's Military Construction, Base Realignment and Closure and Environmental programs. He often testified before congressional committees and ensured that Members of Congress and their staffs fully understood the Navy's shore infrastructure requirements. In this capacity, Rear Admiral Smith was second to none.

Previously, he served as the Director, Facilities and Engineering Division for the Chief of Naval Operations where he had a hand in shaping the Navy's readiness ashore, as well as numerous quality-of-life initiatives to improve the lives of Sailors and Marines. A true shore facilities expert, his previous public works assignments included Assistant Public Works Officer, Naval Air Station, Brunswick, Maine; Public Works Officer, Naval Air Station, Keflavik, Iceland; and Commanding Officer, Public Works Center, San Diego, California.

As an acquisition professional, he has had numerous contracting assignments, including Officer-in-Charge of Construction, Mid Pacific, Pearl Harbor, Hawaii and Head of Acquisition and Vice Commander of Western Division, San Bruno, California. He embarked on his brilliant naval career as the Officer in Charge of Seabee Team 5301, making three deployments to Vietnam and earning the Bronze Star and Combat Action Ribbon.

The Navy will best remember Rear Admiral Smith for his mastery of the Navy's financial system and his prowess in effectively navigating the political waters within the Beltway. His eight tours in the Nation's Capital began with duty in the office of the Chief of Naval Operations as Facilities Engineer, Security Assistance Division (OP–63). After an exchange tour on the Strategic Air Command staff, he then served as the Director of the Chief of Naval Operations' Shore Activities Planning and Programming Division (OP–44), followed by a tour in the Office of the Comptroller of the Navy. Later, he served in the offices of the NAVFAC Comptroller and the Director of Programs and Comptroller, NAVFAC. After his Command tour in San Diego, he returned to NAVFAC Headquarters as Vice Commander and Deputy Chief of Civil Engineers. Rear Admiral Smith's knowledge of the Fleet, coupled with his unparalleled planning and

financial acumen, was absolutely vital to successfully charting the Navy's course through both the 1980s build-up and the post-Cold War draw-down.

Rear Admiral Smith is a native of Milwaukee, Wisconsin, and a graduate of Marquette University where he received his Bachelor of Science in Civil Engineering. He later attended Purdue University where he earned his Master of Science in Civil Engineering. Married to the former Susan Clare Kaufmann of Milwaukee, he and Susan have two sons, Brian and Michael.

My home State of Mississippi has benefitted greatly from the contributions of Rear Admiral Smith's visionary leadership, consummate professionalism, uncommon dedication, and enduring personality. For the State of Mississippi, he was there to assist in the disaster recovery from Hurricane George; he was there to provide outstanding facilities support for U.S. Navy bases in Mississippi; and he was there to assist my staff in providing the highest levels of facilities support for our Navy. On January 1, 2001, he will enter retirement and the Navy will wish him fair winds and following seas. On behalf of the Congress, I congratulate Rear Admiral Louis Martin Smith on the completion of an outstanding and successful career with very best wishes for even greater successes in the future.

ANGELS IN ADOPTION AWARD

Mr. ROCKEFELLER. Mr. President, as a member of the Congressional Coalition on Adoption, I would like to commend Senators MARY LANDRIEU and LARRY CRAIG for their leadership in creating the Angels in Adoption program. I am happy to join in this initiative to honor the special families that open their hearts and homes when they adopt a child. This year I want to recognize a special family from Falling Waters, West Virginia as our very own angels in adoption. The Merryman family has been nominated for the Angels in Adoption Award by Steve Wiseman, Executive Director of West Virginia Developmental Disability Council, for being outstanding examples of adoptive parents.

Scott and Faith Merryman have been happily married for 32 years and live in Berkeley County, West Virginia. They both work in the disability field, Scott as a supervisory mentor at the Autism Center and Faith at the West Virginia Parent Training Information Center, a resource center for parents of children with special needs.

They have 6 children, 8 grandchildren, and one great-grandchild. Two of their children, Richard and Hope, are adopted and they are in the process of adopting another foster child, Charity Megan.

Richard, who has cerebral palsy, is 26 years old, and now lives in his own apartment. Richard is a member of the West Virginia Team of the President's Committee on Mental Retardation and attended the International Academy in 1999. He is also a member of the West Virginia Developmental Disabilities Council and a self-directed activist on accessibility and other disability issues.

Hope was adopted at 13 days old because her birth parents were unable to take care of her. She is now 19 years old and enjoys working as an Assistant Manager in a local restaurant as well as spending time with her family.

Charity Megan came to the Merryman family when she was 14 months old from an institution. She is now 17 years old, and has severe disabilities including facial deformities, stunted growth, mental retardation, and a seizure disorder.

Despite the long hours of care and trips to the doctor, Scott and Faith say that they have learned a lot about the kind of things money can't buy—like love and laughter.

I am proud to honor the Merrymans for the love that they show their family, and to the commitment they share in promoting adoption. In my own state of West Virginia, we have had a 51 percent increase in the number of adoptions since 1995 because of caring families like the Merrymans.

We as a Nation need to continue to offer our support to these special families. As a member of Congress I will continue to introduce legislation that will build on the foundation of the 1997 Adoption and Safe Families Act to ensure our children a safe and stable home.

VICTIMS OF GUN VIOLENCE

Mr. BYRD. Mr. President, it has been more than a year since the Columbine tragedy, but still this Congress refuses to act on sensible gun legislation.

Since Columbine, thousands of Americans have been killed by gunfire. Until we act, Democrats in the Senate will read the names of some of those who have lost their lives to gun violence in the past year, and we will continue to do so every day that the Senate is in session.

In the name of those who died, we will continue this fight. Following are the names of some of the people who were killed by gunfire one year ago today.

October 2, 1999:

Dian Bailey, 29, Detroit, MI;

Charles L. Coron, 52, New Orleans, LA;

Joanel Facouloute, 46, Miami-Dade County, FL;

Filiberto Gamez, 21, Chicago, IL;

Lucretia Henderson, 13, Kansas City, MO;

Kenneth Holland, 39, Louisville, KY;

Leroy L. Lee, 31, Chicago, IL;

George Morris, 24, Washington, DC;

Hugo Najero, 15, San Antonio, TX;

Majid Radee, 30, Detroit, MI;

Edison Robinson, 25, Detroit, MI;

Harold Swan, 37, Louisville, KY;

Richard Thomas, 30, Philadelphia, PA;

Ruben Trevino, Jr., 46, Houston, TX;

Unidentified male, 17, Portland, OR.

One of the victims of gun violence I mentioned, 13-year-old Lucretia Henderson of Kansas City, Missouri, was shot and killed while riding in a car with her cousin and two friends. Lucretia was killed when her two friends in the backseat began playing with a handgun.

Following are the names of some of the people who were killed by gunfire one year ago on Friday, Saturday and Sunday.

September 29, 1999:

Jeffrey Dowell, 38, Philadelphia, PA;

Jose Escalante, 19, Philadelphia, PA;

Louis Grant, 17, Baltimore, MD;

James Heyden, 23, Detroit, MI;

Jose Martinez, 16, Houston, TX;

Tracey Massey, 25, Charlotte, NC;

Ismael Mena, 45, Denver, CO;

Antoine Moffett, 19, Chicago, IL;

Michael Rivera, 24, Philadelphia, PA;

Alexander Williams, 30, St. Louis, MO;

Christopher Worsley, 46, Atlanta, GA.

September 30, 1999:

William C. Benton, 46, Memphis, TN;

Ziyad Brown, 22, Baltimore, MD;

Carl D. Budenski, 84, New Orleans, LA;

John Cowling, 27, Detroit, MI;

Jason Curtis, 17, San Antonio, TX;

Ellen Davis, 74, Houston, TX;

Benacio Ortiz, 31, Chicago, IL;

Rovell Young, 35, Detroit, MI.

October 1, 1999:

Giles E. Anderson, 35, Hollywood, FL;

Terry Tyrone Dooley, 40, New Orleans, LA;

Vernon Hill, 62, Denver, CO;

Leroy Kranford, 67, Detroit, MI;

Michael Pendergraft, 43, Oklahoma City, OK;

Michael Preddy, 32, Minneapolis, MN;

Carmen Silayan, Daly City, CA;

James Stokes, 27, Washington, DC;

Joanne Suttons, 35, Detroit, MI.

We cannot sit back and allow such senseless gun violence to continue. The deaths of these people are a reminder to all of us that we need to enact sensible gun legislation.

THE JAMES MADISON COMMEMORATION COMMISSION ACT

Mr. WARNER. Mr. President, it is unfortunate that James Madison's legacy is sometimes overshadowed by other prominent Virginians who were also founding fathers of the United States. Most Americans can readily recite the accomplishments of George Washington and Thomas Jefferson. And while most people can identify James Madison as an important figure in American history, his exact accomplishments are sometimes less well

known than some of his contemporaries. As we approach the 250th anniversary of James Madison's birth, I wish to bring to your attention the outstanding contributions he made to the fledgling United States.

During the course of his life, James Madison exhibited all the best qualities of a politician and a scholar. As a politician, he served as a member of the Virginia House of Delegates, a member of the U.S. House of Representatives, U.S. Secretary of State, and two-term President of the United States. As a scholar, he is associated with three of the most important documents in American history: the U.S. Constitution, the Federalist Papers, and the Bill of Rights. In Virginia, we have paid tribute to James Madison by naming one of our fine state universities after him—James Madison University in Harrisonburg, Virginia.

More than any other American, Madison can be credited with creating the system of Federalism that has served the United States so well to this day. Madison's indelible imprint can be seen in the delicate balance struck in the Constitution between the executive and legislative branches and between the states and the Federal government. In addition to his contributions to the Constitution and the structure of American government, Madison kept the most accurate record of the Constitutional Convention in Philadelphia of any of the participants. Madison's notes from the Convention are a gift for which historians and students of government will forever owe a debt of gratitude.

After the Constitutional Convention, Madison worked toward ratification of the Constitution in two of the states most crucial for the new government: Virginia and New York. He narrowly secured Virginia's ratification of the Constitution over the objections of such prominent Virginians as George Mason and Patrick Henry. He assisted in the New York ratification effort through his contributions to the Federalist Papers.

The Federalist Papers, written by James Madison, Alexander Hamilton, and John Jay are used to this day to interpret the Constitution and explain American political philosophy. Federalist Number 10, written by Madison, is the most quoted of all the Federalist Papers.

As a member of the U.S. House of Representatives, Madison became the primary author of the first twelve proposed amendments to the Constitution. Ten of these were adopted and became known as the Bill of Rights.

James Madison presided over the Louisiana Purchase as Secretary of State under President Jefferson and prosecuted the War of 1812 as President. He was a named party in Marbury vs. Madison, the famous court case in which the Supreme Court defined its role as arbiter of the Constitution by asserting it had the authority to declare acts of Congress unconstitutional.

James Madison was born March 16, 1751, in Orange County, Virginia. Accordingly, I urge your support of the James Madison Commemoration Commission Act, legislation that will recognize the life and accomplishments of James Madison on the 250th anniversary of his birth.

PROPOSED MERGER OF UNITED AIRLINES AND US AIRWAYS

Mr. McCAIN. Mr. President, the Commerce Committee recently approved S. Res. 344, which expresses the Sense of the Senate that a merger of United Airlines and US Airways would hurt consumers' interests. A.G. Newmyer, managing director of U.S. Fiduciary Advisors, similarly addressed the public interest perspective in a guest editorial printed in The Washington Post. I ask unanimous consent that the piece be reprinted in the RECORD in its entirety.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Aug. 20, 2000]

UNITED WE STAND, IN LINE

(By A.G. Newmeyer)

Chicago was created, as the old joke goes, for New Yorkers who like the crime and traffic but wanted colder winters. And now, it seems, Chicago—like other United Airlines hubs—was created for travelers willing to spend their summer vacations waiting in lines at the airport. If United's proposed takeover of US airways goes through, Washington may have been created for Chicagoans who wanted to spend their days in lines at a smaller airport.

Given the size of US Airway's operations in our region (particularly its share of traffic at Reagan National Airport), as well as United's proposed rule in operations of the new DC Air frequent fliers worry that the Clinton administration and Congress might actually permit United's expansion.

United we stand, in line. Divided, we fly . . . at least, some of us.

Federal Aviation Administrator Jane Garvery recently pointed to myriad factors in explaining this summer's air travel debacle; a system operating at peak capacity in a booming economy, weather, labor, issues and so on. United's senior management, at least until its recent apologies seemed happy to point the finger anywhere but in the mirror.

Many of the excuses don't stand up to scrutiny. News reports, for example, have noted that United is quicker than other airlines to blame weather for cancellations. Seldom is it mentioned that a carrier's obligation to pay for hotel rooms and otherwise take care of passengers vanishes when nature is the culprit. Similarly, even if pilots are unwilling to fly their customary schedules, customer service agents at the counters and on the phones could be augmented to take care of the obvious resultant crush. Waiting times make a mockery of such customer-friendly tactics, particularly for passengers finding our exactly how inconvenient the convenience of ticket-less travel is.

Common sense would suggest that United management has a very full plate trying to fly its current fleet. Only the luckiest occasional traveler on United could conclude that the airline has been operating in the public interest this year. Interestingly, the federal government's review of the proposed merger may pay scant attention to common sense.

The government's review focuses largely on antitrust and competitive considerations, not on the broader public interest. Although the Department of Transportation has a role to play, responsibility for the willingness to treat customers like human beings may get short shrift in a review process that is both legal and laughable.

In the long term, business courses are likely to include discussion of how United's management ruined a world-class, respected brand, Labor's ownership role and board seats at United may cause other companies to wonder about the efficacy of such arrangements.

In the short term, the United mess deserves a more thorough governmental review before its management expands its chokehold on passengers to include US Airways and DC Air. Although time is short in this election year, Congress would find vast voter sympathy in reviewing whether applicable merger statutes are appropriate. And before President Clinton finds himself joining the rest of us on commercial flights, he should direct his administration to just say no to a broader role for United in today's unfriendly skies.

COASTAL ZONE MANAGEMENT ACT OF 2000

Mr. KERRY. Mr. President, I rise to make a few remarks on the Coastal Zone Management Act of 2000, legislation to reauthorize the Coastal Zone Management Act. This bill, S. 1534, was passed last Thursday evening by unanimous consent.

To begin, I want to thank Senator SNOWE, our chairman on the Oceans and Fisheries Subcommittee on the Commerce Committee, for putting this legislation on the Committee agenda this Congress and working for its enactment

When Congress enacted the Coastal Zone Management Act in 1972, it made the critical finding that, ''Important ecological, cultural, historic, and esthetic values in the coastal zone are being irretrievably damaged or lost.'' As we deliberated CZMA's reauthorization this session, I measured our progress against that almost 30-year-old congressional finding. And, I concluded that while we have made tremendous gains in coastal environmental protection, the increasing challenges have made this congressional finding is as true today as it was then.

At our oversight hearing on this legislation, Dr. Sylvia Earle testified on the current and future state of our coastal areas. Dr. Earle has dedicated her career to understanding the coastal and marine environment, and knows as much about it as anyone. She warned us that, ''We are now paying for the loss of wetlands, marshes, mangroves,

forests barrier beaches, natural dunes and other systems with increasing costs of dealing somehow with the services these systems once provided—excessive storm damage, benign recycling of wastes, natural filtration and cleansing of water, production of oxygen back to the atmosphere, natural absorption of carbon dioxide, stabilization of soil, and much more. Future generations will continue to pay, and pay and pay unless we can take measures now to reverse those costly trends.''

The Coastal States Organization, represented by their chair, Sarah Cooksey, told the Committee that, ''In both economic and human terms, our coastal challenges were dramatically demonstrated in 1998, by numerous fishkills associated with the outbreaks of harmful algal blooms, the expansion of the dead zone of the Gulf coast, and the extensive damage resulting from the record number of coastal hurricanes and el Nino events. Although there has been significant progress in protecting and restoring coastal resources since the CZMA and Clean Water Acts were passed in 1972, many shell fish beds remain closed, fish advisories continue to be issued, and swimming at bathing beaches across the country is too often restricted to protect public health.''

It is clear from the evidence presented to the Committee in our oversight process and from other input that I have received, that a great need exists for the federal government to increase its support for states and local communities that are working to protect and preserve our coastal zone. To accomplish that goal, the Committee has reported a bill that substantially increases annual authorizations for the CZMA program and targets funding at controlling coastal polluted runoff, one the more difficult challenges we face in the coastal environment.

S. 1534 would provide a significant increase to the CZMA Program. Total authorization levels would increase to $136.5 million in FY2001. For grants under Section 306, 306A, and 309, the bill would authorize $70 million beginning in FY00 and increasing to $90.5 million in FY04. For grants under section 309A, the bill would authorize $25 million in FY00, increasing to $29 million in FY 04; of this amount, $10 million or 35 percent, whichever is less, would be dedicated to approved coastal nonpoint pollution control strategies and measures. For the NERRS, the bill would provide $12 million annually for construction projects, and for operation costs, $12 million in FY 2001, increasing to $15 million in FY04. Finally, the bill would provide $6.5 million for CZMA administration.

This reauthorization also tackles the problem of coastal runoff pollution. This is one of the great environmental and economic challenges we face in the coastal zone. At the same time that pollution from industrial, commercial and residential sources has increased in the coastal zone, the destruction of wetlands, marshes, mangroves and other natural systems has reduced the capacity of these systems to filter pollution. Together, these two trends have resulted in environmental and economic damage to our coastal areas. These effects include beach closures around the nation, the discovery of a recurring ''Dead Zone'' covering more than 6,000 square miles in the Gulf of Mexico, the outbreak of Pfiesteria on the Mid-Atlantic, the clogging of shipping channels in the Great Lakes, and harm to the Florida Bay and Keys ecosystems. In Massachusetts, we've faced a dramatic rise in shell fish beds closures, which have put many of our fishermen out of work.

To tackle this problem, the Coastal Zone Management Act of 2000 targets up $10 million annually to, ''assist coastal communities to coordinate and implement approved coastal nonpoint pollution control strategies and measures that reduce the causes and impacts of polluted runoff on coastal waters and habitats.'' This is an important amendment. For the first time, we have elevated the local management of runoff as national priority within the context of the CZMA program. Runoff is not a state-by-state problem; the marine environment is far too dynamic. States share the same coastlines and border large bodies of waters, such as the Gulf of Mexico, the Chesapeake Bay or the Long Island Sound, so that pollutants from one state can detrimentally affect the quality of the marine environment in other states. We are seeing the effects of polluted runoff both in our coastal communities and on our nation's living marine resources and habitats. I'm pleased that we've included the runoff provision in S. 1534. It's an important step forward and I believe we will see the benefits in our coastal environment and economy.

The Coastal Zone Management Act of 2000, Mr. President, has been endorsed by the 35 coastal states and territories through the Coastal State Organization. It also has the endorsement of the Great Lakes Commission, American Oceans Campaign, Coast Alliance, Center for Marine Conservation, Sierra Club, Environmental Defense, California CoastKeeper and many other groups. It's a long list. I will ask unanimous consent to have printed into the RECORD a letter from support organizations. I add that S. 1534 passed the Senate Commerce Committee, with its regionally diverse membership, unanimously.

I want to thank some of those assisted my staff with this legislation, and helping us pass it in the Senate. They include the Massachusetts Coastal Zone Program office and its Director, Tom Skinner, who provided technical assistance on the program, as well as the Center for Marine Conservation, Natural Resources Defense Council, American Ocean Campaign, the Coastal States Organization and the Coast Alliance. And I thank my colleagues on the Commerce Committee.

I ask unanimous consent that the letter to which I referred be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

SEPTEMBER 18, 2000.

Hon. TRENT LOTT
Majority Leader, U.S. Senate,
Washington, DC.

DEAR SENATOR LOTT: On behalf of the following organizations, we are writing to urge you to schedule S. 1534, the Coastal Zone Management Act of 2000, for floor consideration as soon as possible. Sponsored by Senators SNOWE and KERRY, S. 1534 has been reported out of the Commerce Committee with unanimous bipartisan support.

Since its enactment in 1972, the Coastal Zone Management Act (CZMA) has helped protect and improve the quality of life along the coast by providing incentives to states to develop comprehensive programs to meet the challenges facing coastal communities reducing their vulnerability to storms and erosion, the effects of pollution on shellfish beds and bathing water quality, and loss of habitat, to name a few.

The CZMA has proven to be a model statute for promoting national, state and local objectives for balancing the many uses along the coasts. There is no better testament to the success of the state/federal partnership forged by the CZMA than the fact that 34 of 35 eligible coastal states, commonwealths and territories have chosen to participate in the program. Federal assistance provided under the Act is matched by states dollar for dollar. Each state can point to significant benefits resulting from the Act, such as improved coastal ecosystem health; revitalized waterfront communities; coastal habitat conservation and restoration; increased maritime trade, recreation, and tourism; and the establishment of estuarine research reserves which serve as living laboratories and classrooms.

The lands and waters of our coastal zone are subject to increasingly intensive and competing uses. More than half of the Nation's expanding population is located near the coast. S. 1534 will improve the Act by authorizing ''Coastal Community Grants'' to assist states in enabling communities to develop strategies for accommodating growth in a manner which protects the resources and uses which contribute to the quality of life in coastal communities. The bill will help build community capacity for growth management and resource protection; dedicate funding for communities to reduce the causes and impacts of polluted runoff on coastal waters and habitats; and reduce the pressure on natural resources caused by sprawl by targeting areas for revitalization.

As a measure of the support the CZMA has enjoyed, it is worth noting that in 1996, the CZMA reauthorization bill passed by a unanimous vote in the House, and passed the Senate by voice vote. We hope that passage of S. 1534 will form part of the legacy of significant accomplishments of the 106th Congress.

Sincerely,

Anthony B. MacDonald, Coastal States Organization.

Jeanne Christie, Association of State Wetlands managers.

Barbara Jean Polo, American Oceans Campaign.
Jacqueline Savitz, Coastal Alliance.
Dr. Michael Donahue, Great Lakes Commission.
David Hoskins, Center for Marine Conservation.
Cyn Sarthou, Gulf Restoration Network.
Tim Williams, Water Environment Federation.
Ed Hopkins, Sierra Club.
Richard Caplan, U.S. Public Interest Research Group.
Howard Page, Sierra Club—Gulf Coast Group, Mississippi Chapter.
Cindy Dunn, Salem Sound 2000.
Diane van DeHei, American Metropolitan Water Agencies.
Joseph E. Payne, Friends of Casco Bay.
Gay Gillespie, Westport River Watershed Alliance.
James Gomes, Environmental League of Massachusetts.
Judith Pederson, Ph.D., MIT Sea Grant College Program.
Bill Stanton, North & South Rivers Watershed Association.
Robert W. Howarth, Ph.D., Environmental Defense.
Michelle C. Kremer, Surfrider Foundation.
Enid Siskin, Gulf Coast Environmental Defense.
Elizabeth Sturcken, Coastal Advocacy Network.
Polly Bradley, SWIM.
Ken Kirk, Association of Metropolitan Sewerage Agencies.
Denise Washko, California CoastKeeper.
Roger Stern, Marine Studies Consortium.
Victor D'Amato, North Carolina Chapter Sierra Club.
Nina Bell, J.D., Northwest Environmental Advocates.
Donald L. Larson, Kitsap Diving Association.
Cliff McCreedy, Oceanwatch.
Richard Delaney, Urban Harbors Institute, Univ. of Massachusetts, Boston.
Dee Von Quirolo, Executive Director, Reef Relief, Key West, Florida.

CONGRESSMAN JAMES D. ''MIKE'' McKEVITT

Mr. HAGEL. Mr. President, few individuals ever touch the lives of people like the late Mike McKevitt did. Former Congressman and Assistant U.S. Attorney General James D. ''Mike'' McKevitt passed away last week here in Washington, DC. He was a remarkable man, a selfless public servant, and a loyal friend. He was always working on behalf of others to make the world better.

His positive attitude, personal warmth and absolute sense of fair play were most unique in a far too often cynical, and mean-spirited town called Washington, DC. For 30 years, he rose above the pettiness, nonsense and nastiness that often dominates the environment of the world's most powerful city. He made it more fun to be here. He made it all seem more noble than most of it is.

We will all miss Mike McKevitt. We are all better because of him. Our prayers and thoughts go out to his wonderful wife Judy and his daughters and grandchildren.

I ask unanimous consent that the attached obituary from The Washington Post on Congressman McKevitt be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Sept. 30, 2000]

CONGRESSMAN JAMES D. ''MIKE'' MCKEVITT, 71, DIES]

James D. ''Mike'' McKevitt, 71, a partner in the Washington government affairs firm of McKevitt & Schneier who was a former congressman and U.S. assistant attorney general, died Sept. 28 at Sibley Memorial Hospital after a heart attach. He lived in McLean.

Mr. McKevitt served in the House as a Colorado Republican for one term before losing a reelection bid in 1972. During his years in the House, he served on the Judiciary, Interior and Small Business committees.

In 1973, he served as assistant attorney general for legislative affairs, then in 1973 and 1974 was counsel to the White House Energy Policy Office.

From 1974 to 1986, he was federal legislation director of the National Federation of Independent Business. He then practiced law before founding the McKevitt & Schneier government affairs firm in 1986.

Mr. McKevitt was a founding member of the Korean War Veterans Memorial Board. In 1987, the former representative of Colorado's 1st District was honored by Sen. William Armstrong (R–Colo.) as a moving force in the enactment of legislation creating the memorial.

Over the years, he also had served on the board of the USO, the U.S. Capitol Historical Society and the International Consortium for Research on the Health Effects of Radiation. He was a past president of the University Club of Washington, parliamentarian of the 1986 White House Conference on Small Business and a member of the Bowen Commission on Medicare. His hobbies included sailing the Chesapeake Bay.

Mr. McKevitt, who was born in Spokane, Wash., was a 1951 graduate of the University of Idaho and a 1956 graduate of the University of Denver law school. During the Korean War, he served as an Air Force combat intelligence officer in Korea.

He was admitted to the Colorado Bar in 1956 and practiced law in Boulder before serving as an assistant attorney general of Colorado from 1958 to 1967. He then served as district attorney for the city and county of Denver until entering Congress in 1971.

Mr. McKevitt was a member of St. John's Episcopal Church at Lafayette Square in Washington.

His first wife, Doris L. McKevitt, died in 1994. Survivors include his wife, Judith Woolley McKevitt of McLean; two daughters from his first marriage, Kate McLagan of Austin and Julia Graf of Park City, Utah; and four grandchildren.

THE GOVERNMENT LAUNCHES WWW.FIRSTGOV.GOV

Mr. DORGAN. Mr. President, the Administration recently launched a new website, www.firstgov.gov. That website is the first all-government portal and will offer one stop information from over 20,000 separate federal websites. This promises to be a great tool. Throughout the country people will be able to download tax forms, read up on the status of legislation, better understand the Social Security system. But Mr. President, meaningful access to all of the important information depends on what side of the Digital Divide you find yourself. To benefit from websites like firstgov, you must have a computer and understand how to use it, and you must have an Internet connection with speeds fast enough to search databases, view graphics and download documents.

As the demand for high speed Internet access grows, numerous companies are responding in areas of dense population. While urban America is quickly gaining high speed access, rural America is being left behind. Ensuring that all Americans have the technological capability is essential in this digital age. It is not only an issue of fairness, but it is also an issue of economic survival.

To remedy the information gap between urban and rural America, I along with Senator DASCHLE introduced S. 2307, the Rural Broadband Enhancement Act, which gives new authority to the Rural Utilities Service to make low interest loans to companies that are deploying broadband technology to rural America.

The Rural Utilities Service has helped before; it can help again. When we were faced with electrifying all of the country, we enacted the Rural Electrification Act. When telephone service was only being provided to well-populated communities, we expanded the Rural Electrification Act and created the Rural Utilities Service to oversee rural telephone deployment. The equitable deployment of broadband services is only the next step in keeping American connected, and our legislation would ensure that.

If we fail to act, rural America will be left behind once again. As the economy moves further and further towards online transactions and communications, rural America must be able to participate. They must be able to start their own online business if they so desire and access information about government services efficiently.

I look forward to working with my colleagues in the Senate to address this problem and to bring meaningful data access to all parts of this country.

THE MARITIME ADMINISTRATION AUTHORIZATION ACT

Mr. MCCAIN. Mr. President, last Thursday, the Senate passed S. 2487, the Maritime Administration Authorization Act for Fiscal Year 2001. Passage of this measure will help to ensure our nation's maritime industry has the support and guidance it needs to continue to compete in the world market.

The bill authorizes appropriations for the Maritime Administration [MarAd] for fiscal year 2001. It covers operations

and training and the loan guarantee program authorized by title XI of the Merchant Marine Act 1936. The House Committee on Armed Services, which has jurisdiction of maritime matters in that body, has chosen to include provisions relating to these authorizations in the House-passed version of H.R. 4205, the National Defense Authorization Act for Fiscal Year 2001. Further, the House conferees on that measure have refused to fully accept S. 2487 as the Senate position as part of the ongoing House-Senate conference deliberations in part, due to the Senate's slow action on the measure. I hope by passing S. 2487 we will change that course.

In addition to the authorizations for operations and training and the loan guarantee program, S. 2487 amends Title IX of the Merchant Marine Act of 1936 to provide a wavier to eliminate the three year period that bulk and breakbulk vessels newly registered under the U.S. flag must wait in order to carry government-impelled cargo. The bill also provides a one year window of opportunity for vessels newly registered under the U.S.-flag to enter into the cargo preference trade without waiting the traditional three year period.

The bill also would amend the National Maritime Heritage Act of 1994 and allow the Secretary to scrap obsolete vessels in both domestic and international market. It would further convey ownership of the National Defense Reserve Fleet Vessel, *Glacier* to the Glacier Society for use as museum and require the Maritime Administration to including the source and intended use of all funding in reports to Congress. Finally, it amends Public Law 101–115 to recognize National Maritime Enhancement Institutes as if they were University Transportation Centers for purposes of the award of research funds for maritime and intermodal research and requires the Secretary of Transportation to review the funding of maritime research in relation to other modes of transportation.

I want to thank the cosponsors of this measure, Senator HOLLINGS and Senator INOUYE for the assistance in moving this measure forward. I hope my colleagues in the House will join us in supporting passage of this legislation so we can move it on to the President for his signature.

THE LATINO IMMIGRATION FAIRNESS ACT

Ms. LANDRIEU. Mr. President, last week, the Senate majority blocked efforts to bring the Latino Immigration Fairness Act to the floor. This bill embodies the essence of America: providing safe haven to the persecuted and down trodden, supporting equal opportunity for the disadvantaged, and promoting family values to our country's residents.

Many of my Senate colleagues perceive this provision to be a necessary addition to the H–1B Visa bill, which extends temporary residence to 195,000 foreign workers each year for the next two years. The Latino Immigration Fairness Act legitimates certain workers who have been living in the U.S. for over five years, and are ready, willing, and able to permanently contribute to our workforce and communities.

Unfortunately, the Majority's leadership has used parliamentary procedures to block this bill from coming to the floor. I am disappointed that too few Republican leaders support this meaningful legislation becoming law. I am convinced that the Latino Immigration Fairness bill has been proposed in the best interests of our country and in accordance with our obligations to promoting democracy and freedom in our hemisphere.

My support for this legislation is based on four fundamental reasons: First, this bill would provide Central American immigrants previously excluded under the Nicaraguan and Central American Relief Act, NACARA, the opportunity to legalize their status; it would allow immigrants applying for permanent residency to remain in the U.S. with their families instead of forcing them to return to their country of origin to apply (a process that can take months to years to complete); and it would change the registry cutoff date to 1986, which would resolve the 14-year bureaucratic limbo that has denied amnesty to qualified immigrants who sought to adjust their status under the 1986 Immigration Reform and Control Act. Finally, this bill would resolve the status of so many valuable members of American society. There are an estimated 6 million immigrants in the United States who are not yet citizens. A majority of these immigrants have been here for many years and are working hard, paying taxes, buying homes, opening businesses and raising families.

For years, U.S. immigration policy has provided refuge to tens of thousands of these Nicaraguans, Cubans, Salvadorans, Guatemalans, Hondurans, and Haitians fleeing civil war and social unrest in their own countries. In 1997 the Nicaraguan Adjustment and Central American Relief Act was signed into law. This statute protects Cuban and Nicaraguan nationals from deportation from the United States. Those residents who have been in the U.S. since December 1995 can now adjust to permanent resident status. But Salvadorans, Guatemalans, Hondurans, and Haitians are still not as fully protected.

In the last decade, Louisiana has provided refuge to thousands of Hondurans seeking relief from natural and human disasters. Displaced by storms, floods, war, and social unrest, many of these people have found warm and comforting homes for their families in the American Bayou.

My State, particularly in New Orleans, boasts a proud tradition of cultural diversity. The Honduran community was originally brought to Louisiana through a thriving banana trade between the Port of Louisiana and Gulf of Honduras in the early twentieth century. As the community grew, Louisiana's Honduran population became the largest outside of Honduras. For this reason, Louisiana seemed the most logical destination for Hondurans fleeing instability during the 1980s and 1990s. Once again, my state, like many others, opened her doors to our desperate Central American brothers.

The Latino Immigration Fairness Act will help fulfill a promise this government has made to these refugees, and attempt to finish the work of Presidents Reagan and Clinton. Under the Reagan Administration, the Immigration and Naturalization Service set up special asylum programs for these people to reside legally in the U.S.

Since then, they have greatly contributed to American society—raising children, paying taxes, and establishing successful businesses throughout our country—as well as contributed direct support to their relatives left behind in their homelands.

In a democracy such as ours, we must be consistent in the principles we uphold for our Latin neighbors seeking asylum. These people have fled political instability and social upheaval in their native lands.

As the guardian of Democratic ideals and chief opponent of repression in the Western Hemisphere, we must ensure that these residents adjust their status to legal resident under the same procedure permitted for Cubans and Nicaraguans.

In sum, I urge my colleagues to consider the United States' historic commitment to fair immigration policies. Our country has been built and continues to be sustained by immigrants.

In her poem, The Colossus, Emma Lazarus named our country the ''Mother of Exiles.'' Personified by the Statue of Liberty, the United States of America continues to shine her torch on refugees from instability and strife—We have opened our doors to people of all races and nationalities, and have prospered from their valuable contributions to labor, community, and culture.

Now, failure to pass Fairness legislation will take away our promise of freedom to so many deserving residents, and deny us the gifts they have imparted to our shores.

Contrary to what our critics say, supporting this bill does not condone illegal entry into this country. I am proud of our historic value of the rule of law and territorial integrity. At the same time, I am equally concerned that once certain people have resided in this country for years and contributed to

our country's prosperity, some would have us uproot such valuable members of our society.

Let us not eject Honduran, Haitian, Guatemalan, and Salvadoran nationals, who have, for so long, woven into the American fabric, making American families, paying American taxes, building American homes and businesses, and working for American labor.

Let us not revoke the American promise of freedom, and help deport so many valuable members of our society. Let us vote for passage of this very American legislation, the Latino Immigration Fairness Act.

THE VERY BAD DEBT BOXSCORE

Mr. HELMS. Mr. President, at the close of business Friday, September 29, 2000, the Federal debt stood at $5,674,178,209,886.86, five trillion, six hundred seventy-four billion, one hundred seventy-eight million, two hundred nine thousand, eight hundred eighty-six dollars and eighty-six cents. One year ago, September 29, 1999, the Federal debt stood at $5,645,399,000,000, five trillion, six hundred forty-five billion, three hundred ninety-nine million.

Five years ago, September 29, 1995, the Federal debt stood at $4,973,983,000,000, four trillion, nine hundred seventy-three billion, nine hundred eighty-three million.

Twenty-five years ago, September 29, 1975, the Federal debt stood at $552,824,000,000, five hundred fifty-two billion, eight hundred twenty-four million which reflects a debt increase of more than $5 trillion—$5,121,354,209,886.86, five trillion, one hundred twenty-one billion, three hundred fifty-four million, two hundred nine thousand, eight hundred eighty-six dollars and eighty-six cents during the past 25 years.

ADDITIONAL STATEMENTS

NEVADA'S OLYMPIC ATHLETES

● Mr. REID. Mr. President, the 27th Olympiad is now finished, and the United States of America should be very proud of our participants. They showed the world that Americans put their hearts and souls into everything that they do. Part of the reason that I support the Olympic tradition is that these special games are a reflection of the diversity, brotherhood, and spirit that the United States celebrates everyday. I am especially proud of my state and the Olympic participants we sent to Sydney, Australia.

Lori Harrigan, Tasha Schwikert, and Charlene Tagaloa were three Nevadan athletes who gave wholly to the U.S. team in their respective sports.

Lori Harrigan, a pitcher for the champion U.S. softball team, helped her team bring home a second gold medal in as many Olympic Games. Lori has had an amazing softball career for many years now, and since she graduated from UNLV, Lori has won 13 international medals for the United States. Lori will be remembered in Olympic history as the first softball player to pitch a complete no-hitter game, which she accomplished this summer in the opening round game. This summer she lived up to the legacy that she blazed as a UNLV Runnin' Rebel, and her softball accomplishments are properly hallmarked by her retired jersey that UNLV has proudly displayed since 1998.

Las Vegan Tasha Schwikert has been the sweet surprise of the Olympic Games. She was not one of the original members of the U.S. gymnastics team. However, she was later chosen as a second alternate. An unfortunate injury to another gymnast gave Tasha the chance that she deserved for an Olympic appearance. Although Tasha didn't medal, she still showed the world a strong performance. And because of her youth and newly developed international experience, we can expect to see Tasha as a leader in future gymnastic competitions.

The United States women's volleyball team was the underdog of the Olympic indoor volleyball competition, and many did not even expect the team to contend for a medal in Sydney. With the help of Las Vegan, Charlene Tagaloa, the women's volleyball team played in the bronze medal math.

Nevada demonstrated its miulticulturalism during the Olympic Games, because six other current or former UNLV Runnin' Rebels competed for their native countries. These unique individuals include four swimmers and two track runners. These athletes are as follows: swimmers Mike Mintenko of Canada, Jacint Simon of Hungary, Andrew Livingston of Puerto Rico, Lorena Diaconescu of Romania, and sprinters, Ayanna Hutchinson and Alicia Tyson, of Trinidad and Tobago.

Nevada's contribution to the Olympic Games does not end with the efforts of its athletes.

Karen Dennis is not only the head of the UNLV women's track team, but she was chosen to be the U.S. women's track coach. Her talent and expertise undoubtedly contributed to the multiple medals and stellar performances we saw from the U.S. track team this Olympics.

Las Vegan Jim Lykins was chosen to be one of the two umpires from the United States to referee women's softball. He gleefully did not umpire the championship game, because Olympic rules prevent umpires from working any games played by their home country. Not being able to umpire the championship match was a worthwhile sacrifice for the gold medal that we won in the fast pitch softball competition.

We should all remember the character of the 2000 Olympic Games, both the smile evoking and heartbreaking moments, and continue to support the Nevadan and American athletes who have the integrity, dedication, and ability to represent our nation, now and in the future. Congratulations to all of our Olympic participants.●

HONORING THE KARNES ON THEIR 50TH WEDDING ANNIVERSARY

● Mr. ASHCROFT. Mr. President, families are the cornerstone of America. Individuals from strong families contribute greatly to society. I believe it is both instructive and important to honor those who have taken the commitment of ''till death us do part'' seriously, demonstrating successfully the timeless principles of love, honor, and fidelity. These characteristics make our country strong.

For these important reasons, I rise today to honor Dorothy and Eddie Karnes, who on October 7, 2000, will celebrate their 50th wedding anniversary. My wife, Janet, and I look forward to the day we can celebrate a similar milestone. The Karnes' commitment to the principles and values of their marriage deserves to be saluted and recognized.●

PRIVATE RELIEF BILL FOR FRANCES SCHOCHENMAIER

● Mr. JOHNSON. Mr. President, on September 28, 2000, the United States Senate unanimously approved legislation to provide private relief for Frances Schochenmaier of Bonesteel, South Dakota. Frances' case clearly warrants action by the United States Congress to correct an injustice inflicted upon her family over 50 years ago. I am pleased that the Senate has taken this important step by passing the Private Relief Bill for Frances Schochenmaier, which I was proud to have introduced and was cosponsored by my friend and colleague from South Dakota Senator TOM DASCHLE. I will continue to work diligently with Members of the House of Representatives to ensure the legislation is passed before the end of this Congressional session and signed by the President.

Frances' husband, Hermann Schochenmaier, was one of the thousands of young men who valiantly answered his country's call to duty during World War II. While serving in Europe, Hermann was wounded—shot in the arm in what medical personnel referred to as a through-and-through'' wound. Upon returning home, the Department of Veterans Affairs awarded Hermann a 10 percent disability rating. For 50 years, Hermann received disability compensation for the injury he received during his service in the United States military. Then, in 1995, the Department of Veterans Affairs acknowledged that it was ''clearly and

unmistakably erroneous'' in rating Hermann's injury too low. Instead of a 10 percent rating, Hermann's injuries during World War II were consistent with a 30 percent disability rating.

Over these 50 years, Hermann received approximately $10,000, when he should have actually received closer to $70,000. Unfortunately, only one week prior to the Department of Veterans Affairs correcting this problem, Hermann Schochenmaier passed away. To further complicate matters, the Department of Veterans Affairs refused to give Hermann's family the disability benefits he rightfully earned.

For the past five years, I have worked with Frances to exhaust every avenue within the Department of Veterans Affairs. The answer was always the same: the law does not allow for veterans' widows to receive these lost benefits. So, I decided that it must take an act of Congress—literally—to ensure that a veteran's widow from Bonesteel received the benefits her husband earned, but was denied from receiving in his lifetime.

Thanks to the perseverance from members of my office, the continued faith of Frances and her family, and some bipartisanship among members of Congress, we were able to pass this important legislation in the Senate and put it on a track to be signed into law by the President before the end of this year.

My wife, Barbara, and I are parents of a son who serves our country in the Army, and we know the sacrifices families make when their loved-ones travel overseas in the military. I am sorry that fate denied Hermann the opportunity to see justice done with the correction of his disability rating. I am thankful that fate and old-fashioned elbow-grease over these past five years has given our country the opportunity to make things right with Frances and the Schochenmaier family.●

RECOGNITION OF THE WELLPINIT SCHOOL DISTRICT

● Mr. GORTON. Mr. President, I take the floor of the Senate today to tell you about the hard working teachers, faculty and parents of the Wellpinit School District and their efforts to improve their children's education by bringing technology to the classroom. For their dedication, I am delighted to present the Wellpinit School District with one of my ''Innovation in Education'' Awards.

The Wellpinit School District is located on the Spokane Indian Reservation in Eastern Washington and educates 440 students of which 95 percent are of Native American descent. The K–12 school has already far exceeded any other rural school in Washington state with its efforts to boost the use of technology in the classroom. Under the direction of Wellpinit's Board of Directors and Superintendent Reid Reidlinger, Wellpinit implemented an innovative program that includes increasing student access to computers and improving students' use of the internet and intranet.

Wellpinit reconfigured its curriculum, integrating it with a computer program that allows students from both elementary and secondary grades to access an individualized instructional program for any core subject. The computerized curriculum has been highly effective in increasing national test scores. In fact, Wellpinit was named the highest achieving Indian Reservation school based on the Iowa Test of Basic Skills. Wellpinit has also been selected as one of America's Top 100 Wired Schools by the editors of Family PC Magazine.

Earlier this year, I awarded Quillayute Valley School District one of my ''Innovation in Education'' Awards for developing the Washington Virtual Classroom Consortium (WVCC), which links rural schools together via the Internet in order to pool resources and expand learning opportunities for students and staff. Wellpinit has joined the WVCC to further enhance the educational opportunities for all students.

Superintendent Reid Reidlinger told me, ''Wellpinit has been a model for other schools. Federal grants have helped with bringing technology to our district, and as a result, we have very advanced students.''

I commend all those who have contributed to Wellpinit's technology plan and ask that the Senate join me in recognizing the hard work and commitment of the students, teachers and faculty at the Wellpinit School District.●

IN RECOGNITION OF TOM WILKENS

● Mr. TORRICELLI. Mr. President, I rise today to recognize one of the truly gifted athletes of the state of New Jersey. It gives me great pleasure to extend my congratulations to Tom Wilkens on winning the bronze medal in the men's 2000 meter individual medley event at the XXVIIth Olympic Games in Sydney, Australia.

Despite having asthma and a severe allergy to chlorine, Tom Wilkens has consistently performed as a champion. At the 1999 Pan Pacific Championships, he won a medal of each color, gold in the 200 meter individual medley, silver in the 200 meter breaststroke, and bronze in the 400 meter individual medley. To this impressive collection, he adds a bronze from the Games of the XXVIIth Olympiad.

Tom Wilkens represents the best of New Jersey's athletes. His outstanding representation of New Jersey and the United States at these Olympic Games is a testament to the dedication that has afforded him success in the face of diversity.

Through his efforts, Tom Wilkens has been able to achieve athletic greatness. His commitment to excellence serves as an inspiration and it is an honor for me to be able to recognize his accomplishments.●

TRIBUTE TO MRS. PATTY LEWIS

● Mr. WARNER. Mr. President, I would like to recognize the professional dedication, vision and public service of Mrs. Patty Lewis who will be leaving the staff of the Senate Armed Services Committee at the end of this year to return to the Department of Defense to serve in the Office of the Assistant Secretary of Defense for Health Affairs. It has been a privilege for me to work with Mrs. Lewis and it is an honor to recognize her many outstanding accomplishments.

I asked Mrs. Lewis to join the staff of the Armed Services Committee last October to assist me and the other Members of the Committee deal with the complex issues of improving the Military Health Care System, TRICARE, and providing health care to Medicare-eligible retired military personnel and their families. She is superbly competent and demonstrated a level of professionalism which far exceeded that of many of her contemporaries. Mrs. Lewis is an expert at cutting through the red tape of the military health care bureaucracy and never losing sight of the fact that taking care of the individual is paramount. Her focus was always on doing the right thing for our service members and their families.

Mrs. Lewis has earned a reputation as someone on whom we could rely to provide fresh ideas, detailed research, and practical solutions to complex problems. Her professional abilities and expertise have earned her the respect and trust of her colleagues on both sides of the aisle and in both Houses of the Congress. Mrs. Lewis' ability to clearly see a viable alternative when others could only see the fog of confusion contributed to the success of the Committee on Armed Services in developing the legislation that will, for the first time in history, definitively entitle retired military personnel to the lifetime of health care that they were promised when they were recruited and reenlisted. With Mrs. Lewis' help, we are finally able to fulfill that commitment.

Mr. President, initiative, caring service and professionalism are the terms used to describe Mrs. Lewis. Patty Lewis is a great credit to the Senate and the Nation. As she now departs to share her experience and expertise with the Department of Defense I call upon my colleagues on both sides of the aisle to recognize her service to the Senate and wish her well in her new assignment.●

HONORING INDUCTEES INTO THE HALL OF VALOR

● Mr. SANTORUM. Mr. President, I rise to day to honor the veterans who will be inducted into the Hall of Valor at Soldiers' & Sailors' Memorial Hall. On October 14, 2000, 15 veterans, all of whom served in World War II, will be inducted in the Hall of Valor. All the veterans being recognized have received either the Silver Star or the distinguished Flying Cross and are residents of Allegheny County and other areas of Pennsylvania.

Each inductee has distinguished himself through gallantry and courage at the risk of his own life, above and beyond the call of duty. This nation values their service and has recognized these acts of heroism and bravery and those of other servicemen and women. Today, I would like to remember and acknowledge the extraordinary valor each inductee displayed in the name of freedom.

Induction in the Hall of Valor is one way we can bear witness to and acknowledge the service of each inductee. I wish to extend my sincere gratitude for their sacrifice and dedication in the U.S. Armed Forces. All of the heroes we honor today—both those present and those who have gone before us—deserve the highest esteem and admiration. I ask my Senate colleagues to join me in recognizing a few of our nation's veterans as they are inducted into the Hall of Valor at Soldiers' & Sailors' Memorial Hall in Pittsburgh, PA.

In recognition of their actions, Joseph Burdis, Jr., Samuel L. Collier, James J. Fisher, James W. Regan, John A. Somma, William G. Stampahar, Leonard R. Tabish, and Arthur R. Kiefer, Jr. will be inducted in the Hall of Valor. The following veterans will be posthumously inducted: Richard Ascenzi, William John Beynon, Thomas J. Korenich, John Lipovsik, Jr., Joseph Anthony Papst, Michael J. Popko, and Sigmund J. Zelczak.●

TRIBUTE TO DAVID VILLOTTI

● Mr. SMITH of New Hampshire. Mr. President, I rise today to pay tribute to David Villotti of Amherst, NH, on being nominated for the ''Angels in Adoption'' award. David has worked tirelessly to improve the lives of many children throughout New Hampshire.

David's mission is to provide care and support to the neediest children and families in New Hampshire. David has worked to reunite ''his'' children at the Nashua Children's Home to their biological families or, if necessary, have them placed in foster care or adopted into loving families. Some of these children have experienced a tremendous amount of emotional and physical trauma. David creates an environment that is safe for these children to grow while they await word on their family situation.

When David first began working at the Nashua Children's Home 15 years ago, there were 18 children in residence. Today there are 46. David and his staff continue to provide support to families while allowing children the environment that they need to grow and mature into well-adjusted teenagers and adults. I am proud to have nominated David for the ''Angels in Adoption'' award for the state of New Hampshire.

David, it is an honor to serve you in the U.S. Senate. I wish you all the best in your future endeavors. May you always continue to inspire those around you.●

TRIBUTE TO DR. WENDELL WEART

● Mr. DOMENICI. Mr. President, I rise to commend a fellow New Mexican, Dr. Wendell Weart. He is a remarkable scientist, an international authority on radioactive waste management, and the Senior Fellow at Sandia National Laboratories in Albuquerque, New Mexico. After his distinguished career, he is retiring in October. His outstanding abilities have been crucial to the success of the world's first deep geologic repository for radioactive waste. It is highly appropriate that we recognize his contributions to that project and to the nation.

The Waste Isolation Pilot Plant in New Mexico began receiving defense-program radioactive wastes in 1999. The process that led to its opening was long and difficult, requiring the solution of innumerable technical and social problems. Although many people contributed to the solution of those problems, Dr. Weart's role was paramount throughout.

He led Sandia's technical support for the project from its beginnings in the early 1970s. In the early years his efforts were essential to the exploratory investigations and the final selection of the repository site. He then led the project through the conceptual design of the repository, through the formulation and implementation of the investigations that demonstrated the site's suitability, and through the arduous process of obtaining regulatory approvals. The rigorous scientific basis finally achieved for the repository was due in no small part to Dr. Weart's own scientific expertise and to his unmatched leadership.

At least as important as these highly technical contributions was Dr. Weart's ability to instill confidence among the scientific community and the public. His skill in explaining complex issues, his truthfulness in all controversies, and his tireless patience in dealing with questions and frustrations for more than twenty-five years—all were indispensable contributions to the project. Without the trust Dr. Weart engendered, the Waste Isolation Pilot Plant, though scientifically well grounded, might still have failed to obtain scientific, regulatory, and social approval.

The permanent disposal of radioactive wastes has proved intractable in many countries. Thanks largely to Wendell Weart, the United States now has an operating repository. Congress and the American taxpayers owe him our most sincere thanks and our best wishes.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Ms. Evans, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGE FROM THE HOUSE RECEIVED DURING RECESS

Under the authority of the order of the Senate of January 6, 1999, the Secretary of the Senate, on September 29, 2000, during the recess of the Senate, received a message from the House of Representatives announcing that the House disagrees to the amendment of the Senate to the bill (H.R. 4461) making appropriations for Agriculture, Rural Development, Food and Drug Administration and Related Agencies programs for the fiscal year ending September 30, 2001, and for other purposes, and agrees to the conference asked by the Senate on the disagreeing votes of the two Houses thereon. That Mr. SKEEN, Mr. WALSH, Mr. DICKEY, Mr. KINGSTON, Mr. NETHERCUTT, Mr. BONILLA, Mr. LATHAM, Mrs. EMERSON, Mr. YOUNG of Florida, Ms. KAPTUR, Ms. DELAURO, Mr. HINCHEY, Mr. FARR, Mr. BOYD, and Mr. OBEY be the managers of the conference on the part of the House.

ENROLLED BILL PRESENTED DURING RECESS

The Secretary of the Senate reported that during the recess of the Senate, on September 29, 2000, he had presented to the President of the United States, the following enrolled bill:

S. 1295. An act to designate the United States Post Office located at 3813 Main Street in East Chicago, Indiana, as the ''Lance Corporal Harold Gomez Post Office.''

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. JEFFORDS, from the Committee on Health, Education, Labor, and Pensions, with an amendment in the nature of a substitute:

S. 2829: A bill to provide for an investigation and audit at the Department of Education (Rept. No. 106–448).

By Mr. CAMPBELL, from the Committee on Indian Affairs, without amendment:

S. 1840: A bill to provide for the transfer of public lands to certain California Indian Tribes (Rept. No. 106–449).

By Mr. MURKOWSKI, from the Committee on Energy and Natural Resources, with an amendment:

S. 2400: A bill to direct the Secretary of the Interior to convey certain water distribution facilities to the Northern Colorado Water Conservancy District (Rept. No. 106–450).

By Mr. MURKOWSKI, from the Committee on Energy and Natural Resources, with amendments:

S. 2757: A bill to provide for the transfer or other disposition of certain lands at Melrose Air Force Range, New Mexico, and Yakima Training Center, Washington (Rept. No. 106–451).

By Mr. CAMPBELL, from the Committee on Indian Affairs, without amendment:

S. 2872: A bill to improve the cause of action for misrepresentation of Indian arts and crafts (Rept. No. 106–452).

By Mr. MURKOWSKI, from the Committee on Energy and Natural Resources, without amendment:

S. 2873: A bill to provide for all right, title, and interest in and to certain property in Washington County, Utah, to be vested in the United States (Rept. No. 106–453).

By Mr. MURKOWSKI, from the Committee on Energy and Natural Resources, with an amendment and an amendment to the title:

S. 2877: A bill to authorize the Secretary of the Interior to conduct a feasibility study on water optimization in the Burnt River basin, Malheur River basin, Owyhee River basin, and Powder River basin , Oregon (Rept. No. 106–454).

By Mr. MURKOWSKI, from the Committee on Energy and Natural Resources, without amendment:

S. 2977: A bill to assist in the establishment of an interpretive center and museum in the vicinity of the Diamond Valley Lake in southern California to ensure the protection and interpretation of the paleontology discoveries made at the lake and to develop a trail system for the lake for use by pedestrians and nonmotorized vehicles (Rept. No. 106–455).

By Mr. MURKOWSKI, from the Committee on Energy and Natural Resources, with amendments:

S. 2885: A bill to establish the Jamestown 400th Commemoration Commission, and for other purposes (Rept. No. 106–456).

By Mr. SMITH, of New Hampshire, from the Committee on Environment and Public Works, without amendment:

H.R. 2496: A bill to reauthorize the Junior Duck Stamp Conservation and Design Program Act of 1994 (Rept. No. 106–457).

By Mr. THOMPSON, from the Committee on Governmental Affairs, with amendments:

H.R. 3069: A bill to authorize the Administrator of General Services to provide for redevelopment of the Southeast Federal Center in the District of Columbia (Rept. No. 106–458).

By Mr. SMITH, of New Hampshire, from the Committee on Environment and Public Works, with amendments:

H.R. 3292: A bill to provide for the establishment of the Cat Island National Wildlife Refuge in West Feliciana Parish, Louisiana (Rept. No. 106–459).

By Mr. MURKOWSKI, from the Committee on Energy and Natural Resources, without amendment:

H.R. 4275: A bill to establish the Colorado Canyons National Conservation Area and the Black Ridge Canyons Wilderness, and for other purposes (Rept. No. 106–460).

By Mr. SMITH, of New Hampshire, from the Committee on Environment and Public Works, without amendment:

H.R. 4286: A bill to provide for the establishment of the Cahaba River National Wildlife Refuge in Bibb County, Alabama (Rept. No. 106–461).

H.R. 4318: A bill to establish the Red River National Wildlife Refuge (Rept. No. 106–462).

By Mr. MURKOWSKI, from the Committee on Energy and Natural Resources, without amendment:

H.R. 4579: A bill to provide for the exchange of certain lands within the State of Utah (Rept. No. 106–463).

By Mr. CAMPBELL, from the Committee on Indian Affairs, without amendment:

H.R. 1460: A bill to amend the Ysleta del Sur Pueblo and Alabama and Coushatta Indian Tribes of Texas Restoration Act to decrease the requisite blood quantum required for membership in the Ysleta del Sur Pueblo tribe (Rept. No. 106–464).

By Mr. STEVENS, from the Committee on Appropriations: Special Report entitled ''Further Revised Allocation to Subcommittees of Budget Totals'' (Rept. No. 106–465).

By Mr. HELMS, from the Committee on Foreign Relations, with an amendment in the nature of a substitute:

H.R. 4002: A bill to amend the Foreign Assistance Act of 1961 to revise and improve provisions relating to famine prevention and freedom from hunger.

By Mr. HELMS, from the Committee on Foreign Relations, without amendment:

S. 3076: A bill to establish an undergraduate grant program of the Department of State to assist students of limited financial means from the United States to pursue studies abroad.

By Mr. THOMPSON, from the Committee on Governmental Affairs, without amendment:

S. 3144: An original bill to amend the Inspector General Act of 1978 (5 U.S.C. App.) to establish police powers for certain Inspector General agents engaged in official duties and provide an oversight mechanism for the exercise of those powers.

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committee were submitted during the recess on Friday, September 29, 2000:

By Mr. HELMS for the Committee on Foreign Relations.

Treaty Doc. 106–39 Treaty With Mexico on Delimitation of Continental Shelf (Exec. Report No. 106–19).

TEXT OF COMMITTEE RECOMMENDED RESOLUTION OF ADVICE AND CONSENT

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of the United Mexican States on the Delimitation of the Continental Shelf in the Western Gulf of Mexico Beyond 200 Nautical Miles, signed at Washington on June 9, 2000 (Treaty Doc. 106–39), subject to the declaration of subsection (a) and the proviso of subsection (b).

(a) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding upon the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(b) PROVISIO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

Treaty Doc. 106–43 Protocol Amending the 1950 Consular Convention with Ireland (Exec. Report No. 106–20)

TEXT OF COMMITTEE RECOMMENDED RESOLUTION OF ADVICE AND CONSENT

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Protocol Amending the 1950 Consular Convention Between the United States of America and Ireland, signed at Washington on June 16, 1998 (Treaty Doc. 106–43), subject to the declaration of subsection (a) and the proviso of subsection (b).

(a) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding upon the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed forces in Europe, approved by the Senate on May 14, 1997.

(b) PROVISO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

Treaty Doc. 104–35 Inter-American Convention on Serving Criminal Sentences Abroad (Exec. Report No. 106–21)

TEXT OF COMMITTEE RECOMMENDED RESOLUTION OF ADVICE AND CONSENT

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Inter-American Convention on Serving Criminal Sentences Abroad, done in Managua, Nicaragua, on June 9, 1993, signed on behalf of the United States at the Organization of American States Headquarters in Washington on January 10, 1995 (Treaty Doc. 104–35), subject to the conditions of subsections (a) and (b).

(a) The advice and consent of the Senate is subject to the following conditions, which shall be included in the instrument of ratification of the Convention:

(1) RESERVATION.—With respect to Article V, paragraph 7, the United States of America will require that whenever one of its nationals is to be returned to the United States, the sentencing state provide the United States with the documents specified in that paragraph in the English language, as well as the language of the sentencing state. The United States undertakes to furnish a translation of those documents into the language of the requesting state in like circumstances.

(2) UNDERSTANDING.—The United States of America understands that the consent requirements in Articles III, IV, V and VI are cumulative; that is, that each transfer of a sentenced person under this Convention shall require the concurrence of the sentencing state, the receiving state, and the prisoner, and that in the circumstances specified in Article V, paragraph 3, the approval of the state or province concerned shall also be required.

(b) The advice and consent of the Senate is subject to the following conditions, which are binding upon the President but not required to be included in the instrument of ratification of the Convention:

(1) DECLARATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997

(2) PROVISO.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

Treaty Doc. 105–54 Treaty With Belize for the Return of Stolen Vehicles (Exec. Report No. 106–22)

TEXT OF COMMITTEE RECOMMENDED RESOLUTION OF ADVICE AND CONSENT

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of Belize for the Return of Stolen Vehicles, with Annexes and Protocol, signed at Belmopan on October 3, 1996 (Treaty Doc. 105–54), subject to the declaration of subsection (a) and the proviso of subsection (b).

(a) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding upon the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(b) PROVISO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUMMARY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

Treaty Doc. 106–40 Treaty With Costa Rica on Return of Vehicles and Aircraft (Exec. Report No. 106–22)

TEXT OF COMMITTEE RECOMMENDED RESOLUTION OF ADVICE AND CONSENT

Resolved, two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of the Republic of Costa Rica for the Return of Stolen, Robbed, Embezzled or Appropriated Vehicles and Aircraft, with Annexes and a related exchange of notes, signed at San Jose on July 2, 1999 (Treaty Doc. 106–40), subject to the declaration of subsection (a) and the proviso of subsection (b).

(a) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding upon the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(b) PROVISO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

Treaty Doc. 106–7 Treaty With Dominican Republic for the Return of Stolen or Embezzled Vehicles (Exec. Report No. 106–22)

TEXT OF COMMITTEE RECOMMENDED RESOLUTION OF ADVICE AND CONSENT

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of the Dominican Republic for the Return of Stolen or Embezzled Vehicles, with Annexes, signed at Santo Domingo on April 30, 1996 (Treaty Doc. 106–7), subject to the declaration of subsection (a) and the proviso of subsection (b).

(a) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding upon the President:

Treaty Interpretation.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(b) PROVISO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

Treaty Doc. 105–58 Treaty With Guatemala for the Return of Stolen or Robbed, Embezzled or Appropriated Vehicles and Aircraft (Exec. Report No. 106–22)

TEXT OF COMMITTEE RECOMMENDED RESOLUTION OF ADVICE AND CONSENT

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of the Republic of Guatemala for the Return of Stolen, Robbed, Embezzled or Appropriated Vehicles and Aircraft, with Annexes and a Related Exchange of Notes, signed at Guatemala City on October 6, 1997 (Treaty Doc. 105–58), subject to the declaration of subsection (a) and the proviso of subsection (b).

(a) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding upon the President:

Treaty Interpretation.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(b) PROVISO.—The resolution of ratification is subject to the following proviso, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

Treaty Doc. 106–44 Treaty With Panama on Return of Vehicles and Aircraft (Exec. Report No. 106–22)

TEXT OF COMMITTEE RECOMMENDED RESOLUTION OF ADVICE AND CONSENT

Resolved, (two thirds of the Senators present concurring therein), That the Senate advise and consent to the ratification of the Treaty Between the Government of the United States of America and the Government of the Republic of Panama for the Return of Stolen, Robbed, or Converted Vehicles and Aircraft, with Annexes, signed at Panama on June 6, 2000, and a related exchange of notes of July 25, 2000 (Treaty Doc. 106–44), subject to the declaration of subsection (a) and the proviso of subsection (b).

(a) DECLARATION.—The Senate's advice and consent is subject to the following declaration, which shall be binding upon the President:

TREATY INTERPRETATION.—The Senate affirms the applicability to all treaties of the constitutionally based principles of treaty interpretation set forth in Condition (1) of the resolution of ratification of the INF Treaty, approved by the Senate on May 27, 1988, and Condition (8) of the resolution of ratification of the Document Agreed Among the States Parties to the Treaty on Conventional Armed Forces in Europe, approved by the Senate on May 14, 1997.

(b) PROVISO.—The resolution of ratification is subject to the following provisio, which shall not be included in the instrument of ratification to be signed by the President:

SUPREMACY OF THE CONSTITUTION.—Nothing in this Treaty requires or authorizes legislation or other action by the United States of America that is prohibited by the Constitution of the United States as interpreted by the United States.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Ms. SNOWE:

S. 3141. A bill to amend title XVIII of the Social Security Act to provide for coverage under the Medicare Program of annual screening pap smear and screening pelvic exams; to the Committee on Finance.

By Mr. WARNER:

S. 3142. A bill to expand the boundary of the George Washington Birthplace National Monument, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. SESSIONS (for himself, Mr. JEFFORDS, Mr. BROWNBACK, Ms. COLLINS, Mr. HUTCHINSON, and Mr. STEVENS):

S. 3143. A bill to improve the integrity of the Federal student loan programs under title IV of the Higher Education Act of 1965 with respect to students at foreign institutions; to the Committee on Health, Education, Labor, and Pensions.

By Mr. THOMPSON:

S. 3144. An original bill to amend the Inspector General Act of 1978 (5 U.S.C. App.) to establish police powers for certain Inspector General agents engaged in official duties and provide an oversight mechanism for the exercise of those powers; from the Committee on Governmental Affairs; placed on the calendar.

By Mr. BREAUX:

S. 3145. A bill to amend the Internal Revenue Code of 1986 to clarify the treatment under the tax-exempt bond rules of prepayments for certain commodities; to the Committee on Finance.

By Mr. CAMPBELL:

S. 3146. A bill to preserve the sovereignty of the United States over public lands and acquired lands owned by the United States, and to preserve State sovereignty and private property rights in non-Federal lands surrounding those public lands and acquired lands; read the first time.

By Mr. ROBB (for himself, Mr. SARBANES, Ms. MIKULSKI, Mr. WARNER, Mr. LEVIN, Mr. DEWINE, and Mr. JEFFORDS):

S. 3147. A bill to authorize the establishment, on land of the Department of the Interior in the District of Columbia or its environs, of a memorial and gardens in honor and commemoration of Frederick Douglass; to the Committee on Energy and Natural Resources.

By Mr. DODD (for himself and Mr. KENNEDY):

S. 3148. A bill to provide children with better access to books and other reading materials and resources from birth to adulthood, including opportunities to own books; to the Committee on Health, Education, Labor, and Pensions.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. WARNER:

S. 3142. A bill to expand the boundary of the George Washington Birthplace National Monument, and for other purposes; to the Committee on Energy and Natural Resources.

GEORGE WASHINGTON BIRTHPLACE NATIONAL MONUMENT

Mr. WARNER. Mr. President, today, I am introducing legislation to expand the boundary of the George Washington Birthplace National Monument in Westmoreland County, Virginia by allowing the U.S. Park Service to acquire portions of the surrounding property from willing sellers. Previously, on September 28, 2000, I offered S. 3132 to allow the Park Service to acquire one acre of property adjacent to the park. The bill I introduce today will allow the Park Service to acquire 115 acres from willing sellers, including the one acre referenced in S. 3132. I urge my colleagues to support the preservation of George Washington's birthplace. I ask unanimous consent that the full text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 3142

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. GEORGE WASHINGTON BIRTHPLACE NATIONAL MONUMENT BOUNDARIES ADJUSTED.

(a) SHORT TITLE.—This Act may be cited as the ''George Washington Birthplace National Monument Boundary Adjustment Act of 2000''.

(b) BOUNDARY OF GEORGE WASHINGTON BIRTHPLACE NATIONAL MONUMENT.—The boundary of the George Washington Birthplace National Monument (hereinafter referred to as the ''monument'') is modified to include the area comprising approximately 115 acres, as generally depicted on the map entitled ''George Washington Birthplace National Monument Boundary Map Westmoreland County Virginia'', numbered 332/80,011B, and dated July 2000. The map shall be on file and available for inspection in the appropriate offices of the National Park Service, Department of the Interior.

(c) ACQUISITION OF LANDS.—The Secretary of the Interior may acquire land or interests in land described in subsection (b) by donation, purchase from willing sellers with donated or appropriated funds, or exchange.

(d) ADMINISTRATION OF LANDS.—Lands added to the monument pursuant to subsection (b) shall be administered by the Secretary of the Interior as part of the monument in accordance with the laws and regulations applicable hereto.

By Mr. SESSIONS (for himself, Mr. JEFFORDS, Mr. BROWNBACK, Ms. COLLINS, Mr. HUTCHINSON, and Mr. STEVENS):

S. 3143. A bill to improve the integrity of the Federal student loan programs under title IV of the Higher Education Act of 1965 with respect to students at foreign institutions; to the Committee on Health, Education, Labor, and Pensions.

FEDERAL STUDENT LOAN PROGRAMS IMPROVEMENTS ACT

Mr. SESSIONS. Mr. President, I am concerned that we as a Congress have not been effective enough in oversight; that is, looking at the Federal agencies and Departments of this Government to make sure they are operating effectively.

We ooh and ah and make complaints and express concern, but we do not often follow through. I know fundamentally it is the responsibility of the administration to run the executive branch, but Congress does fund that branch and has every right to insist that branch does its duty effectively, expeditiously, and economically with minimum waste, fraud, and abuse.

I had the pleasure about a year ago to have a conversation with a wonderful lady, Melanie DeMayo, who used to work with Senator Proxmire and was involved in his ''Golden Fleece Award'' presentations. She convinced me I could play a role in helping to make sure, when a dollar is extracted from a hard-working American citizen and is brought to this Senate, this Government, to be spent, that it is spent wisely and not wasted or abused or ineffectively utilized to carry out whatever worthwhile program was intended. I appreciate her insight and help in thinking this through.

I have developed what I call Integrity Watch. I spent a number of years as a Federal prosecutor. I believe we can do a better job of maintaining integrity in this Government. When we are spending $1.7 trillion a year, it is incumbent upon us to make sure there is oversight over these programs.

I have come to realize that we have a very large student loan program, and there are some problems with it. Today I am offering legislation to create a 12-month fraud control pilot program to reduce the incidence of fraud in the Federal Family Education Loan Program and other programs under title IV.

In recent years, there have been a number of cases of so-called students falsely claiming they are attending foreign schools, directing that their student loan checks be paid directly to them and not to the school, and then taking the money and spending it on themselves and not attending the foreign school. This fraud has been documented with many examples listed in a 1997 Department of Education inspector general's report.

In addition, the report contains recommendations on tightening controls for the program. Too often these reports are dry, detailed, and complicated. Nobody in this body even reads them, much less acts on them. Certainly, I doubt the President, who

says he wants to increase foreign student loans, has read the report. We certainly have not seen any request from the administration to improve this. I believe we can and should do it in Congress.

It is time, I believe, for this Congress to close the loopholes which allow these phantom students to defraud the Government.

On April 19, 2000, President Clinton and Secretary of Education Riley declared that international education is a priority with them. They want to encourage more students to study abroad. In fact, the President issued a memorandum to the heads of executive departments and agencies stating that the United States is committed to promoting study abroad by U.S. students. He stated:

> The Secretaries of State and Education shall support the efforts of schools and colleges to improve access to high-quality international educational experiences by increasing the number and diversity of students who study and intern abroad, encouraging students and institutions to choose nontraditional study-abroad locations, and helping under-represented United States institutions offer and promote study-abroad opportunities for their students.

Study abroad can be a wonderful experience for a student, and I do not oppose some form of student loan aid to students who want to take advantage of that. It can be an extraordinarily enriching experience. We do need to ensure that the program involves study and not a European vacation at the expense of hard-working American taxpayers for whom a visit to the ball park is often beyond their budget.

This new initiative by the administration will increase the risk of fraud unless we institute sound controls immediately. I am not referring to U.S. universities that have foreign programs or cooperative programs with foreign universities. I am talking about mainly the unsupervised foreign-based institutions. Some of these institutions have already been criticized by General Accounting Office studies. Often these marginal schools are the very schools the so-called students use in their fraud scam. Their fraud is committed when they state they are registering in these schools and then simply pocket the money with no one the wiser.

Since 1995, there have been 25 felony convictions of students who fraudulently claimed they were attending a foreign school, and then they just cashed their Government loan check and simply did not attend class. In the United States, the check is made out to the school and the student, but with regard to foreign schools, the check is made out simply to the students. These are only the students who were caught doing their fraudulent activity. I have no doubt there are many more who have not been apprehended. That is why we ought to take action. We must prevent cases such as this one.

Mr. Conrad Cortez claimed to be such a student, and he applied for student loans. In March of 2000, he admitted to charges of submitting 19 fraudulent student loan applications over a 3-year period. He pled guilty before a U.S. district court judge to numerous accounts of mail fraud, bank fraud, and Social Security account number fraud in the State of Massachusetts. The prosecutor told the court in that case that Cortez was responsible for dozens of other loans filed outside Massachusetts—in Florida and Texas.

The absolute disregard for the American taxpayers was epitomized by Conrad Cortez. Mr. Cortez was living high at the expense of American taxpayers and in violation of law by filing false documents to receive loan money from the Government.

During the period from 1996 through 1999, he bought gifts for his friends, including jewelry and cars, paid for private tennis lessons, made a downpayment on a house, sent some money back to his native Colombia, ate in the best restaurants, and even paid restitution for a previous charge of defrauding the Government, and he did this all with the American taxpayers' money.

Mr. Cortez' fraud only ended when he was turned in by his sister's boyfriend, who claimed that Mr. Cortez had used his identity to obtain additional loans. In fact, Mr. Cortez was about to help himself to $800,000 that you and I pay in income taxes. He had filed 37 false claims in all, spending the money as fast as it came in to him.

The inspector general's office of the Department of Education, with the FBI, and the attorney general's office in Boston combined forces to apprehend him before he could get all the money that was coming to him through those false loans. He did, however, pocket about $300,000 before he was caught.

This is not an isolated case. In 1994, the General Accounting Office found that the Department of Education had approved student loans to hundreds of students attending 91 foreign medical schools. Frankly, I am not sure there are 91 medical schools out there in this world, outside the United States, for which we ought to be funding education. If somebody comes to this country expecting to be a doctor, we need to know they have met certain quality education standards. But, at any rate, that is what we hear.

In applying its standards, the Department of Education relies exclusively on information submitted by those foreign schools as to their viability. Enforcement and oversight problems at the Department still abound. Who is to say how many students have fraudulently applied for loans? There isn't a report on that. Those are unknown unknowns, as they say in management. We cannot measure what we do not know.

Most likely, the greatest abuse of the system occurs when the student, for various reasons, just pockets the money and never goes to class. Under the present system, who will know? We do know that the system is broken. This legislation is one step toward fixing it.

Another abuse occurs when a foreign school is actually paid the tuition but does not insist that the student attend class and provides no real education to the student. I guess a foreign school could simply be glad to get the American money, the American check, and at that point it is up to the student whether or not he or she actually attends class or learns anything. I think we need to have the Department of Education look into that and make sure students are actually attending class and not taking a European vacation.

Mr. Cortez demonstrated a perfect example of why this program is high risk. There simply is not enough oversight. Currently, the methodology for approving and releasing student loan funds is vulnerable. Current law states that the student may request a check be issued directly to him or her, when claiming they are attending a foreign school, and a check will be sent directly to them, without the requirement of a cosignature by the school.

The Office of Inspector General at the Department of Education identified weaknesses and deficiencies in the following areas of the foreign school attendance programs: Verification of enrollment, the disbursement process, the determination of the borrowers' eligibility, standards of administrative and financial capability on the part of the foreign school, and general oversight of foreign schools.

The same Office of Inspector General report—that is the Department of Education's own inspector general's office within that Department—stated that the number of students claiming to attend foreign schools and applying for loans increased each academic year from 1993 to 1997 and went from 4,594 students to 10,715 students. Later figures show the number continues to increase. Indeed, in 1998–1999 there were 12,000 foreign loans.

My legislation will require the Secretary of Education to initiate a 12-month fraud control pilot program involving guaranty agencies—those are the people who put up the loan money guaranteed by the Federal Government—lenders, and a representative group of foreign schools to reduce the incidence of fraud in the student loan program. I believe the Secretary should look into a number of solutions.

Maybe the guaranty agencies should confirm that the student is enrolled in the foreign school before the loan is actually disbursed. After the money has been disbursed to the student, maybe the guaranty agencies should confirm that the student remains registered.

The Secretary should also determine whether it would be advantageous to

require a loan check to be endorsed by both the student and the foreign institution. I am inclined to think it is. But we shall see. Maybe this evaluation period can help us determine that.

The question then becomes, Why are we paying for students to go to foreign schools? These are American taxpayers' dollars flowing to foreign economies where the standards of education may not be as high as ours. I have checked with the higher education systems in my State. They certainly are not at full capacity and certainly can handle more students.

Perhaps there should be some limit on the number of years of study abroad. How many? Five? Six? Seven? Is that limited today? No, it is not. Maybe we ought to limit the number of years that the taxpayers will fund foreign education. Today there is no limit. Students can complete their entire education abroad, supported by the taxpayers, sometimes not in good institutions. Perhaps the quality of the institution should be verified, among other things. But this will not be an issue raised by our legislation today.

Our legislation will simply go to the question of whether or not we can improve the way we guard against actual fraud in these loans. It will begin the process of erasing the fraudulent behavior of ''students'' claiming they are attending foreign schools and then pocketing the money for their personal lifestyle.

So I introduce this legislation today and hope my colleagues will quickly support such a measure as this because I believe it will reduce the fraud that has been plainly demonstrated in a critical report by the Office of Inspector General of the U.S. Department of Education.

In the course of working on this, I would like to express my appreciation to a number of people who have played an important role in this. I thank the cosponsors of this legislation, including Senator JEFFORDS, who chairs the Health, Education, Labor, and Pensions Committee; Senator TIM HUTCHINSON of Arkansas, who is here, who has been a supporter and has had a great interest in this as a cosponsor; along with Senators BROWNBACK and COLLINS.

I also express my appreciation to Scott Giles of Senator JEFFORDS's office; to Melanie DeMayo, who has done such a tremendous job helping us identify and research this problem; and Anthony Leigh of my staff, who is with me now, who has helped me work on this.

We believe this is perhaps not a glamorous issue but an important issue, an important step we can take to eliminate plain fraud that is clearly occurring around this country to a substantial degree, defrauding the taxpayers of the money they have sent to Washington.

Mr. President, I thank the Chair and yield the floor.

The PRESIDING OFFICER. The Senator from Arkansas.

Mr. HUTCHINSON. Mr. President, I commend the distinguished Senator from Alabama for his work in this area. I am glad I am cosponsoring the bill. Senator SESSIONS has been one of the tireless leaders in education and in rooting out fraud and abuse in the Department of Education.

I also mention, with Senator SESSIONS' help on the Education Committee, we recently sent a bill out that I sponsored on the Senate side, that passed the House of Representatives, which would require a fraud audit of the Department of Education be performed by the General Accounting Office within 6 months.

While the Senator is dealing with one specific area of fraud that is very serious, for which this legislation needs to be enacted, there are other examples of fraud, mismanagement, and abuse within the Department of Education that have come to light in recent days.

We are hopeful that legislation can move before this session ends. It is ironic that there are those who want the Department of Education to have even more power, such as in the hiring of 100,000 teachers or in school construction projects, when it is clearly a troubled agency that has had a real problem in even having a clean audit of their books.

So I commend the Senator heartily and appreciate the work he is doing.

By Mr. ROBB (for himself, Mr. SARBANES, Ms. MIKULSKI, Mr. WARNER, Mr. LEVIN, Mr. DEWINE, and Mr. JEFFORDS):

S. 3147. A bill to authorize the establishment, on land of the Department of the Interior in the District of Columbia or its environs, of a memorial and gardens in honor and commemoration of Frederick Douglass; to the Committee on Energy and Natural Resources.

FREDERICK DOUGLASS MEMORIAL

Mr. ROBB. Mr. President, I rise to introduce legislation to authorize a memorial and gardens in honor and commemoration of Frederick Douglass. Frederick Douglass was a renowned abolitionist and civil rights leader. As a powerful orator, Douglass spoke out against slavery. As an advisor to President Abraham Lincoln, Douglass advocated for equal voting rights for African Americans. Frederick Douglass spent over 20 years living in the Anacostia region of Washington, D.C. and it is appropriate that we dedicate the National Memorial and Gardens to his memory in the community where he lived. As companion legislation gains momentum in the House, it is important that we pledge our support to this worthy endeavor.

Mr. DODD (for himself and Mr. KENNEDY):

S. 3148. A bill to provide children with better access to books and other reading materials and resources from birth to adulthood, including opportunities to own books; to the Committee on Health, Education, Labor, and Pensions.

ACCESS TO BOOKS FOR CHILDREN ACT

Mr. DODD. Mr. President, I rise today to offer a bill to enhance our efforts to provide children with opportunities to develop literacy skills and a love of reading through access to and ownership of books. I am pleased to be joined in this effort by Senator JEFFORDS, Senator KENNEDY, and Senator MURRAY.

This bill would continue the good work of the Inexpensive Book Distribution program which we know as Reading is Fundamental (RIF), and would authorize two new programs to support public/private partnerships with the mission of making books and reading an integral part of childhood and of providing books to children who may have no books of their own. Books opened a new world for me as a child and I want to make sure that all children have that same opportunity.

Books are almost magical in their power. They inspire children to dream, to imagine infinite possibilities and ultimately to work to make some of those possibilities real. But for too many children, the power of books is unrealized because of their own inability to read and because of limited access to books in their homes and communities. In 1998, 38 percent of fourth graders in America ranked below the basic level of reading according to the National Assessment of Educational Progress. Sixty-four percent of African American and 60 percent of Hispanic American fourth graders read below the basic level of reading.

These children are at high risk of never learning to read at an advanced level. When children do not learn to read in the early years of elementary school, it is virtually impossible to catch up in later years. Research shows that if a child cannot read well by third grade, the prospect of later success is significantly diminished. Seventy-five percent of students who score below grade level in reading in third grade will be behind grade level in high school.

But the foundation on which literacy is built, begins much earlier. Reading to babies teaches them the rhythms and sounds of language. As early as pre-school, children can recognize specific books, can understand how to handle them, and can listen to stories for in books. The National Research Council's 1998 landmark study, ''Preventing Reading Difficulties in Young Children,'' makes clear that to become good readers, children need to learn letters and sounds, they need to learn to read for meaning, and they must practice reading with many types of

books to gain the speed and fluency that makes reading rewarding.

We know that children who live in print-rich environments and are read to in their early years are much more likely to learn to read on schedule. However, parents of children living in poverty often lack the resources to buy books, rarely have easy access to children's books, and may face reading difficulties of their own. For many families, where the choice is between buying books to read at home and buying food or clothes, federal programs that support book donations and literacy can change lives.

This legislation creates what I call the Access to Books for Children program (or ABC). It provides children with better access to books and resources from birth to adulthood, including opportunities to own books. The success of the Inexpensive Book Distribution Program is well-known. This program has enabled Reading Is Fundamental, Inc. (RIF) to put books in the hands and homes of America's neediest and most at-risk children. RIF is the nation's largest children's and family literacy organization. Through a contract with the U.S. Department of Education, RIF provides federal matching funds to thousands of school and community based organizations that sponsor local RIF projects. Some 240,000 parents, educators, care givers, and community volunteers run RIF programs at more than 16,500 sites that reach out to serve 3.5 million kids nationwide. This bill would continue the good work of the Inexpensive Book Distribution Program and increase the authorization for this program to $25 million.

This legislation also supports two new public/private partnerships to reach children with books and literacy services. The Local Partnerships for Books programs is funded not to support a new literacy project, but to support the ones that already exist with low cost or donated books. The program would support local partnerships that link with grassroots organizations to provide them with low-cost or donated books for at-risk, low income children. Local Partnerships for Books is organized around the principle that the private sector should be a major player in this effort to put books in the hands of our Nation's children through donations and partnerships.

This legislation would also support Partnerships for Infants and Young Children—a program that makes early literacy part of pediatric primary care. This program would support linking literacy and a healthy childhood. Visits to a pediatrician are a regular part of early childhood and offer an excellent opportunity to empower parents to build the foundations for literacy. This initiative is modeled on Reach Out and Read (ROR) which utilizes a comprehensive approach—including volunteer readers in waiting rooms, physician training in literacy, and providing each child with an age appropriate book during each visit—to support parents in developing literacy in their children. An evaluation of this program found that parents are ten times more likely to read to their children if they received a book from their pediatrician.

Mr. President, this legislation is just one piece of the larger puzzle we must confront as we struggle to improve our children's literacy skills—but it is a piece that cannot be overlooked. To learn to read, kids need books to read; it is as simple as that. This legislation will harness the energies and commitment of volunteers, corporate America, local literacy programs, doctors and teachers to make books, and book ownership, a reality for every child.

I ask unanimous consent that the bill and an endorsement be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 3148

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Access to Books for Children Act'' or the ''ABC Act''.

SEC. 2. AMENDMENT TO THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965.

Part E of title X of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 8131 et seq.) is amended to read as follows:

''PART E—ACCESS TO BOOKS FOR CHILDREN (ABC)

''SEC. 10500. PURPOSE.

''It is the purpose of this part to provide children with better access to books and other reading materials and resources from birth to adulthood, including opportunities to own books.

''Subpart 1—Inexpensive Book Distribution Program

''SEC. 10501. INEXPENSIVE BOOK DISTRIBUTION PROGRAM FOR READING MOTIVATION.

''(a) AUTHORIZATION.—The Secretary is authorized to enter into a contract with Reading is Fundamental (RIF) (hereafter in this section referred to as 'the contractor') to support and promote programs, which include the distribution of inexpensive books to students, that motivate children to read.

''(b) REQUIREMENTS OF CONTRACT.—Any contract entered into under subsection (a) shall—

''(1) provide that the contractor will enter into subcontracts with local private nonprofit groups or organizations, or with public agencies, under which each subcontractor will agree to establish, operate, and provide the non-Federal share of the cost of reading motivation programs that include the distribution of books, by gift, to the extent feasible, or loan, to children from birth through secondary school age, including those in family literacy programs;

''(2) provide that funds made available to subcontractors will be used only to pay the Federal share of the cost of such programs;

''(3) provide that in selecting subcontractors for initial funding, the contractor will give priority to programs that will serve a substantial number or percentage of children with special needs, such as—

''(A) low-income children, particularly in high-poverty areas;

''(B) children at risk of school failure;

''(C) children with disabilities;

''(D) foster children;

''(E) homeless children;

''(F) migrant children;

''(G) children without access to libraries;

''(H) institutionalized or incarcerated children; and

''(I) children whose parents are institutionalized or incarcerated;

''(4) provide that the contractor will provide such technical assistance to subcontractors as may be necessary to carry out the purpose of this section;

''(5) provide that the contractor will annually report to the Secretary the number of, and describe, programs funded under paragraph (3); and

''(6) include such other terms and conditions as the Secretary determines to be appropriate to ensure the effectiveness of such programs.

''(c) RESTRICTION ON PAYMENTS.—The Secretary shall make no payment of the Federal share of the cost of acquiring and distributing books under any contract under this section unless the Secretary determines that the contractor or subcontractor, as the case may be, has made arrangements with book publishers or distributors to obtain books at discounts at least as favorable as discounts that are customarily given by such publisher or distributor for book purchases made under similar circumstances in the absence of Federal assistance.

''(d) DEFINITION OF 'FEDERAL SHARE'.—For the purpose of this section, the term 'Federal share' means, with respect to the cost to a subcontractor of purchasing books to be paid under this section, 75 percent of such costs to the subcontractor, except that the Federal share for programs serving children of migrant or seasonal farmworkers shall be 100 percent of such costs to the subcontractor.

''(e) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there are authorized to be appropriated $25,000,000 for fiscal year 2001 and such sums as may be necessary for each of the four succeeding fiscal years.

''Subpart 2—Local Partnerships for Books

''SEC. 10511. LOCAL PARTNERSHIPS FOR BOOKS.

''(a) AUTHORIZATION.—The Secretary is authorized to enter into a contract with a national organization (referred to in this section as the 'contractor') to support and promote programs that—

''(1) pay the Federal share of the cost of distributing at no cost new books to disadvantaged children and families primarily through tutoring, mentoring, and family literacy programs; and

''(2) promote the growth and strengthening of local partnerships with the goal of leveraging the Federal book distribution efforts and building upon the work of community programs to enhance reading motivation for at-risk children.

''(b) REQUIREMENTS OF CONTRACT.—Any contract entered into under subsection (a) shall—

''(1) provide that the contractor will provide technical support and initial resources to local partnerships to support efforts to provide new books to those tutoring, mentoring, and family literacy programs reaching disadvantaged children;

''(2) provide that funds made available to subcontractors will be used only to pay the Federal share of the cost of such programs;

''(3) provide that the contractor, working in cooperation with the local partnerships, will give priority to those tutoring, mentoring, and family literacy programs that serve children and families with special needs, predominantly those children from economically disadvantaged families and those children and families without access to libraries;

''(4) provide that the contractor will annually report to the Secretary regarding the number of books distributed, the number of local partnerships created and supported, the number of community tutoring, mentoring, and family literacy programs receiving books for children, and the number of children provided with books; and

''(5) include such other terms and conditions as the Secretary determines to be appropriate to ensure the effectiveness of the program.

''(c) RESTRICTION ON PAYMENTS.—The Secretary shall require the contractor to ensure that the discounts provided by publishers and distributors for the new books purchased under this section is at least as favorable as discounts that are customarily given by such publishers or distributors for book purchases made under similar circumstances in the absence of Federal assistance.

''(d) DEFINITION OF FEDERAL SHARE.—For the purpose of this section, the term 'Federal share' means, with respect to the cost of purchasing books under this section, 50 percent of the cost to the contractor, except that the Federal share for programs serving children of migrant or seasonal farmworkers shall be 100 percent of such costs to the contractor.

''(e) MATCHING REQUIREMENT.—The contractor shall provide for programs under this section, either directly or through private contributions, in cash or in-kind, non-Federal matching funds equal to not less than 50 percent of the amount provided to the contractor under this section.

''(f) AUTHORIZATION OF APPROPRIATION.—For the purpose of carrying out this section, there are authorized to be appropriated $10,000,000 for the fiscal year 2001 and such sums as may be necessary for each of the 4 succeeding fiscal years.

''Subpart 3—Partnerships for Infants and Young Children

''SEC. 10521. PARTNERSHIPS FOR INFANTS AND YOUNG CHILDREN.

''(a) PROGRAMS AUTHORIZED.—The Secretary is authorized to enter into a contract with a national organization (referred to in this section as the 'contractor') to support and promote programs that—

''(1) include the distribution of free books to children 5 years of age and younger, including providing guidance from pediatric clinicians to parents and guardians with respect to reading aloud with their young children; and

''(2) help build the reading readiness skills the children need to learn to read once the children enter school.

''(b) REQUIREMENTS OF CONTRACT.—Any contract entered into under subsection (a) shall—

''(1) provide that the contractor will enter into subcontracts with local private nonprofit groups or organizations or with public agencies under which each subcontractor will agree to establish, operate, and provide the non-Federal share of the cost of reading motivation programs that include the distribution of books by gift, to the extent feasible, or loan to children from birth through 5 years of age, including those children in family literacy programs;

''(2) provide that funds made available to subcontractors will be used only to pay the Federal share of the cost of such programs;

''(3) provide that in selecting subcontractors for initial funding under this section, the contractor will give priority to programs that will serve a substantial number or percentage of children with special needs, such as—

''(A) low-income children, particularly low-income children in high-poverty areas;

''(B) children with disabilities;

''(C) foster children;

''(D) homeless children;

''(E) migrant children;

''(F) children without access to libraries;

''(G) children without adequate medical insurance; and

''(H) children enrolled in a State medicaid program under title XIX of the Social Security Act;

''(4) provide that the contractor will provide such technical assistance to subcontractors as may be necessary to carry out this section;

''(5) provide that the contractor will annually report to the Secretary on the effectiveness of the national program and the effectiveness of the local programs funded under this section, including a description of the national program and of each of the local programs; and

''(6) include such other terms and conditions as the Secretary determines to be appropriate to ensure the effectiveness of such programs.

''(c) RESTRICTION ON PAYMENTS.—The Secretary shall make no payment of the Federal share of the cost of acquiring and distributing books under any contract under this section unless the Secretary determines that the contractor or subcontractor, as the case may be, has made arrangements with book publishers or distributors to obtain books at discounts at least as favorable as discounts that are customarily given by such publisher or distributor for book purchases made under similar circumstances in the absence of Federal assistance.

''(d) DEFINITION OF FEDERAL SHARE.—In this section with respect to the cost to a subcontractor of purchasing books to be paid under this section, the term 'Federal share' means 50 percent of such costs to the subcontractor, except that the Federal share for programs serving children of migrant or seasonal farmworkers shall be 100 percent of such costs to the subcontractor.

''(e) MATCHING REQUIREMENT.—The contractor shall provide for programs under this section, either directly or through private contributions, in cash or in-kind, non-Federal matching funds equal to not less than 50 percent of the amount provided to the contractor under this section.

''(f) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out this section, there are authorized to be appropriated $10,000,000 for fiscal year 2001 and such sums as may be necessary for each of the 4 succeeding fiscal years.

''Subpart 4—Evaluation

''SEC. 10531. EVALUATION.

''(a) IN GENERAL.—The Secretary shall annually conduct an evaluation of—

''(1) programs carried out under this part to assess the effectiveness of such programs in meeting the purpose of this part and the goals of each subpart; and

''(2) the effectiveness of local literacy programs conducted under this part that link children with book ownership and mentoring in literacy.

''(b) AUTHORIZATION OF APPROPRIATIONS.—For purposes of carrying out this section, there is authorized to be appropriated $500,000 for fiscal year 2001, and such sums as may be necessary in each of the 4 succeeding fiscal years.''.

REACH OUT AND READ
NATIONAL CENTER,
Boston, MA, June 23, 2000.

Hon. EDWARD M. KENNEDY,
U.S. Senate,
Washington, DC.

DEAR SENATOR KENNEDY: I enthusiastically welcome the ''Access to Books for Children Act'' that you, along with Senators JEFFORDS and DODD, are introducing before the U.S. Senate in the coming days.

In my years as a pediatrician, I have witnessed the wide-ranging impact of poverty on thousands of families, particularly as it relates to the healthy development of children. One particularly troublesome manifestation of poverty is the barrier that it erects to having books in the home.

We know that early brain development requires environmental stimulation, and we also know that book sharing assures the language stimulation essential for neuronal complexity and maturation. None of this will happen without books nearby—books in the home.

Making sure that all children have the opportunity to grow up with books requires the participation of all professionals that care for young children. Through the more than 740 Reach Out and Read sites across the country, we are mobilizing the pediatric community to do our part in meeting this challenge. We are delighted by the prospect of support for our efforts through this legislation.

I thank you for the leadership you continue to show in supporting parents in their efforts to help their children grow up healthy. We look forward to helping in any way we can.

Sincerely,

BARRY ZUCKERMAN, MD,
Chairman.

Mr. KENNEDY. Mr. President, I am proud to be a co-sponsor of the Access to Books for Children Act, the ''ABC'' Act. I commend Senator JEFFORDS, Senator DODD, and Senator MURRAY for their leadership on this legislation.

Many successful programs are helping children learn to read well. But too often, the best programs are not available to all children. As a result, large numbers of children are denied the opportunity to learn to read well. 40 percent of 4th grade students do not reach the basic reading level, and 70 percent of 4th graders are not proficient in reading.

Children who fail to acquire basic reading skills early in life are at a disadvantage throughout their education and later careers. They are more likely to drop out of school, and to be unemployed. This important grant will help many more children learn to read well—and learn to read well early—so that they have a greater chance for successful lives and careers.

The programs authorized in the ABC Act complement the work already under way in Massachusetts and other states under the Reading Excellence Act and under the America Reads program. In 1996, President Clinton and

the First Lady initiated a new effort to achieve greater national progress on child literacy by proposing their ''America Read Challenge.'' This worthwhile initiative encourages colleges and universities to use a portion of their Work-Study funds to support college students who serve as literacy tutors. Institutions of higher education across Massachusetts are already creating strong relationships with their surrounding communities, and participation in this initiative enhances those relationships. Today, over 1,400 colleges and universities are committed to the President's ''America Reads Work Study Program,'' and 74 of these institutions are in Massachusetts.

The Reading Excellence Act was enacted in 1999 to provide competitive reading and literacy grants to states. States that receive funding then award competitive subgrants to school districts to support local reading improvement programs. The lowest-achieving and poorest schools will benefit the most. The program will help children learn to read in their early childhood years and through the 3rd grade using effective classroom instruction, high-quality family literacy programs, and early literacy intervention for children who have reading difficulties. Massachusetts is one of 17 states to receive funding under this competitive program.

In addition to good instruction, children need to have reading materials outside of school—and even before they start school. They also need adults to read with them, so that they can develop a love of reading early in life.

The ABC Act authorizes three programs to provide children from birth through high school age with low-cost or no-cost books. The programs complement one another by reaching different communities through different means, so that every child can have a book to read.

The act reauthorizes $25 million for the successful Reading Is Fundamental Program, which distributes books to school-age children. This program has been especially effective in Massachusetts. It is helping over 45,000 children at 70 sites across the state obtain access to books. As a teacher from Methuen said, ''RIF continues to excite our students by providing them with books they can call their own, exposing them to a variety of literature, and offering these children worlds unknown.''

Founded in 1966, Reading Is Fundamental serves more than 3.5 million children annually at 17,000 sites in all 50 states, the District of Columbia, and U.S. territories. Over two-thirds of the children served have economic or learning needs that put them at risk of failing to achieve basic educational goals. By the end of 2000, it will have placed 200 million books in the hands and homes of America's children.

The act also authorizes $10 million for the Secretary of Education to award grants to organizations that provide low-cost or no-cost books for local tutoring, mentoring, and family literacy programs. Programs such as First Book have been very successful in encouraging reading. In 1998, First Book was able to distribute more than 2.4 million new books to children living below the poverty line throughout the United States. First book originally committed to distribute two million new books to children over 3 years and add 100 additional First Book communities. Through the extraordinary efforts of its Local Advisory Boards and national partners, First Book has met and far exceeded its book distribution pledge of 2 million books, and has met its expansion goals. We should continue to support programs like First Book that involve businesses and community resources in programs to help ensure that all children have access to books.

The ABC Act also authorizes $10 million for the Secretary of Education to award grants to the organizations that provide free books to children under age 5 in pediatric clinics. Programs like Reach Out and Read in Boston are shining examples of how to provide children with access to books and prereading skills through health check-ups with their pediatricians.

For the past 10 years, through private funding, Reach Out and Read has been helping young children ages 0–5 get the early reading skills they need to become successful readers. Reach Out and Read currently serves 930,000 children in 556 local sites in 48 states. Evaluations of the program show that Reach Out and Read increases parents' understanding of reading and their attitude towards reading—especially to their children. Parents are ten times more likely to read to their children if they have received a book from a pediatrician. Children's brain activity is stimulated by reading, enhancing their intellectual and language development. In addition, the program is cost-effective—on average, the cost is only $5 per child.

Holyoke Reach Out and Read is run by Holyoke Pediatric Associates, a large medical practice serving 30,000 clients from Holyoke and surrounding communities in Massachusetts. Sixty percent of the clients are low-income or medicaid eligible families. The program distributed over 3,000 books to children in 1999.

It may seem unusual to talk about literacy in a hospital, but it makes perfect sense. To see that children learn to read, everyone needs to lend a hand. Physicians can be a major part of being of the effort. They can help children and parents understand that reading will enhance the well-being of every child, just as milk and vitamins do. A good book may turn out to be the most important thing a doctor prescribes for a child.

Reach Out and Read is making it possible for many more young children to have access to books and take the first steps toward learning to read and toward becoming good readers in their early years. It is bringing books and the love of reading to many new children every day.

Reading is the foundation of learning and the golden door to opportunity. But for too many children, it becomes a senseless obstacle to the future. Children need and deserve programs like Reading Is Fundamental, First Book, and Reach Out and Read. None of us should rest until every child across the nation has the opportunity to own a book, enjoy a book, and read a book. The nation's future depends on it.

Mr. President, I ask unanimous consent that additional material be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

FIRST BOOK,
Washington, DC, June 29, 2000.

Hon. PATTY MURRAY,
U.S. Senate, Russell Senate Office Building, Washington, DC.

DEAR SENATOR MURRAY: On behalf of First Book's Board of Directors, national volunteer network, and the children and families we serve, I congratulate you and the other co-sponsors of The Access to Books for Children Act. This legislation will change the lives of millions of low-income children by providing these children with personal libraries of their very own. Yours is a piece of legislation whose time has come.

As you know, First Book is a national non-profit organization with a single mission: to provide an ongoing supply of free, new books to economically disadvantaged children and families participating in community-based tutoring, mentoring, and family literacy programs nationwide, as well as those children without access to libraries. Through our Local Advisory Board network, First Book effectively promotes the growth and strengthening of local partnerships with the goal of leveraging federal book distribution efforts and building upon the work of existing community programs designed to enhance reading motivation for at-risk children.

First Book Local Advisory Boards develop these local partnerships by identifying local resources and securing donations to meet the needs of community-based literacy programs serving low-income children by providing them with access to free books. I look forward to working with the Secretary to support and promote these local programs in order to consistently reach the children who need our help the most.

First Book is deeply grateful, Senator Murray, for your continual support of our mission as well as your commitment to the education of all children. Since we began our work together in 1997, First Book Local Advisory Boards in Washington state have distributed more than 250,000 new books to 48,000 children in 250 local programs. I am also proud to announce that there are currently 15 Local Advisory Boards leveraging the power of community-based partnerships in your home state. As you know, First Book is active nationally in hundreds of communities providing millions of new books to hundreds of thousands of disadvantaged children. Because of your efforts, the ABC Act

will enable First Book to build upon this great success in Washington state and across the country.

I also salute the co-sponsors of the ABC Act. Senators James Jeffords, Edward Kennedy, and Chris Dodd have each strongly supported First Book at both the national and local levels in our constant efforts to reach additional children. Through their own volunteer efforts working with low-income children, Senators Jeffords, Kennedy, and Dodd have served as inspiring examples in Washington, D.C. and nationally. In the same way, you and your co-sponsors have provided essential leadership to promote the education of children across the country and have also directly supported First Book, most notably through the First Book National Book Bank initiative launched last June on the grounds of the Capital.

In closing, I would like to share a quote from a letter I received this morning from an Even Start teacher who incorporates First Book books into home visits in which she teaches low-income parents how to read with their children. ''It has been very rewarding to be able to give the books to the children at the home visits. Before First Book, we took a book to share with the family and then had to take the book away with us. Many times there were screams of protest from young children. [After First Book] we find that the families are thrilled with the books and look forward to receiving them.''

Simply put, it shouldn't take ''screams of protest'' from young children to remind us of what we need to do. Thankfully, you and the other co-sponsors are aware of the many challenges facing these young children and you have developed a thoughtful and effective plan to meet their needs and strengthen on-going efforts at the community level. The Access to Books for Children Act will provide millions of new books to low-income children lacking books of their own. I look forward to working with you to bring the magic of book ownership to these many children still waiting for our help.

Sincerely,

KYLE ZIMMER,
President.

ADDITIONAL COSPONSORS

S. 61

At the request of Mr. DEWINE, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 61, a bill to amend the Tariff Act of 1930 to eliminate disincentives to fair trade conditions.

S. 198

At the request of Mrs. BOXER, the name of the Senator from Washington (Mrs. MURRAY) was added as a cosponsor of S. 198, a bill to amend the Public Health Service Act to provide for the training of health professions students with respect to the identification and referral of victims of domestic violence.

S. 459

At the request of Mr. BREAUX, the name of the Senator from Kansas (Mr. BROWNBACK) was added as a cosponsor of S. 459, a bill to amend the Internal Revenue Code of 1986 to increase the State ceiling on private activity bonds.

S. 662

At the request of Ms. SNOWE, the names of the Senator from Illinois (Mr. FITZGERALD) and the Senator from Montana (Mr. BURNS) were added as cosponsors of S. 662, a bill to amend title XIX of the Social Security Act to provide medical assistance for certain women screened and found to have breast or cervical cancer under a federally funded screening program.

S. 670

At the request of Mr. JEFFORDS, the name of the Senator from Illinois (Mr. FITZGERALD) was added as a cosponsor of S. 670, a bill to amend the Internal Revenue Code of 1986 to provide that the exclusion from gross income for foster care payments shall also apply to payments by qualifying placement agencies, and for other purposes.

S. 786

At the request of Ms. MIKULSKI, the name of the Senator from Washington (Mrs. MURRAY) was added as a cosponsor of S. 786, a bill to amend title II of the Social Security Act to provide that a monthly insurance benefit thereunder shall be paid for the month in which the recipient dies, subject to a reduction of 50 percent if the recipient dies during the first 15 days of such month, and for other purposes.

S. 1322

At the request of Mr. DASCHLE, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 1322, a bill to prohibit health insurance and employment discrimination against individuals and their family members on the basis of predictive genetic information or genetic services.

S. 1510

At the request of Mr. MCCAIN, the name of the Senator from Georgia (Mr. CLELAND) was added as a cosponsor of S. 1510, a bill to revise the laws of the United States appertaining to United States cruise vessels, and for other purposes.

S. 1536

At the request of Mr. DEWINE, the names of the Senator from South Carolina (Mr. HOLLINGS), the Senator from West Virginia (Mr. ROCKEFELLER), and the Senator from Nebraska (Mr. HAGEL) were added as cosponsors of S. 1536, a bill to amend the Older Americans Act of 1965 to extend authorizations of appropriations for programs under the Act, to modernize programs and services for older individuals, and for other purposes.

S. 2390

At the request of Mr. HATCH, the name of the Senator from Texas (Mrs. HUTCHISON) was added as a cosponsor of S. 2390, a bill to establish a grant program that provides incentives for States to enact mandatory minimum sentences for certain firearms offenses, and for other purposes.

S. 2505

At the request of Mr. JEFFORDS, the name of the Senator from South Carolina (Mr. HOLLINGS) was added as a cosponsor of S. 2505, a bill to amend title XVIII of the Social Security Act to provide increased assess to health care for medical beneficiaries through telemedicine.

S. 2591

At the request of Mr. JEFFORDS, the name of the Senator from Utah (Mr. BENNETT) was added as a cosponsor of S. 2591, a bill to amend the Internal Revenue Code of 1986 to allow tax credits for alternative fuel vehicles and retail sale of alternative fuels, and for other purposes.

S. 2601

At the request of Mr. ASHCROFT, the name of the Senator from Georgia (Mr. CLELAND) was added as a cosponsor of S. 2601, a bill to amend the Internal Revenue Code of 1986 to exclude from the gross income of an employee any employer provided home computer and Internet access.

S. 2698

At the request of Mr. MOYNIHAN, the names of the Senator from Hawaii (Mr. AKAKA) and the Senator from Connecticut (Mr. DODD) were added as cosponsors of S. 2698, a bill to amend the Internal Revenue Code of 1986 to provide an incentive to ensure that all Americans gain timely and equitable access to the Internet over current and future generations of broadband capability.

S. 2718

At the request of Mrs. MURRAY, her name was added as a cosponsor of S. 2718, a bill to amend the Internal Revenue Code of 1986 to provide incentives to introduce new technologies to reduce energy consumption in buildings.

S. 2725

At the request of Mr. ROBB, his name was added as a cosponsor of S. 2725, a bill to provide for a system of sanctuaries for chimpanzees that have been designated as being no longer needed in research conducted or supported by the Public Health Service, and for other purposes.

At the request of Mr. SMITH of New Hampshire, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 2725, supra.

S. 2841

At the request of Mr. ROBB, the name of the Senator from North Dakota (Mr. CONRAD) was added as a cosponsor of S. 2841, a bill to ensure that the business of the Federal Government is conducted in the public interest and in a manner that provides for public accountability, efficient delivery of services, reasonable cost savings, and prevention of unwarranted Government expenses, and for other purposes.

S. 2953

At the request of Mr. TORRICELLI, the name of the Senator from Georgia (Mr. MILLER) was added as a cosponsor of S. 2953, a bill to amend title 38, United States Code, to improve outreach programs carried out by the Department

of Veterans Affairs to provide for more fully informing veterans of benefits available to them under laws administered by the Secretary of Veterans Affairs.

S. 2954

At the request of Mr. HOLLINGS, the name of the Senator from Hawaii (Mr. INOUYE) was added as a cosponsor of S. 2954, a bill to establish the Dr. Nancy Foster Marine Biology Scholarship Program.

S. 2986

At the request of Mr. HUTCHINSON, the names of the Senator from Kansas (Mr. BROWNBACK) and the Senator from Colorado (Mr. ALLARD) were added as cosponsors of S. 2986, a bill to limit the issuance of regulations relating to Federal contractor responsibility, to require the Comptroller General to conduct a review of Federal contractor compliance with applicable laws, and for other purposes.

S. 3012

At the request of Mr. LEAHY, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. 3012, a bill to amend title 18, United States Code, to impose criminal and civil penalties for false statements and failure to file reports concerning defects in foreign motor vehicle products, and to require the timely provision of notice of such defects, and for other purposes.

S. 3020

At the request of Mr. GRAMS, the name of the Senator from Alabama (Mr. SESSIONS) was added as a cosponsor of S. 3020, a bill to require the Federal Communications Commission to revise its regulations authorizing the operation of new, low-power FM radio stations.

S. 3088

At the request of Mr. LEVIN, the name of the Senator from Michigan (Mr. ABRAHAM) was added as a cosponsor of S. 3088, a bill to require the Secretary of Health and Human Services to promulgate regulations regarding allowable costs under the medicaid program for school based services provided to children with disabilities.

S. 3089

At the request of Mr. HAGEL, the names of the Senator from Virginia (Mr. WARNER) and the Senator from Missouri (Mr. ASHCROFT) were added as cosponsors of S. 3089, a bill to authorize the design and construction of a temporary education center at the Vietnam Veterans Memorial

S. 3101

At the request of Mr. ASHCROFT, the names of the Senator from Vermont (Mr. JEFFORDS) and the Senator from New Mexico (Mr. BINGAMAN) were added as cosponsors of S. 3101, a bill to amend the Internal Revenue Code of 1986 to allow as a deduction in determining adjusted gross income the deduction for expenses in connection with services as a member of a reserve component of the Armed Forces of the United States.

S. 3105

At the request of Mr. BREAUX, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 3105, a bill to amend the Internal Revenue Code of 1986 to clarify the allowance of the child credit, the deduction for personal exemptions, and the earned income credit in the case of missing children, and for other purposes.

S. 3115

At the request of Mr. SARBANES, the name of the Senator from West Virginia (Mr. ROCKEFELLER) was added as a cosponsor of S. 3115, a bill to extend the term of the Chesapeake and Ohio Canal National Historic Park Commission.

S. 3137

At the request of Mr. GRAMS, his name was added as a cosponsor of S. 3137, a bill to establish a commission to commemorate the 250th anniversary of the birth of James Madison.

At the request of Mr. SESSIONS, the name of the Senator from Oklahoma (Mr. NICKLES) was added as a cosponsor of S. 3137, supra.

S. CON. RES. 111

At the request of Mr. NICKLES, the names of the Senator from New Jersey (Mr. TORRICELLI) and the Senator from Kentucky (Mr. MCCONNELL) were added as cosponsors of S. Con. Res. 111, a concurrent resolution expressing the sense of the Congress regarding ensuring a competitive North American market for softwood lumber.

S. CON. RES. 140

At the request of Mr. LOTT, the name of the Senator from Delaware (Mr. ROTH) was added as a cosponsor of S. Con. Res. 140, a concurrent resolution expressing the sense of Congress regarding high-level visits by Taiwanese officials to the United States.

S. RES. 292

At the request of Mr. CLELAND, the names of the Senator from Nebraska (Mr. KERREY), the Senator from Wisconsin (Mr. KOHL), the Senator from Michigan (Mr. LEVIN), the Senator from New York (Mr. MOYNIHAN), and the Senator from New York (Mr. SCHUMER) were added as cosponsors of S. Res. 292, a resolution recognizing the 20th century as the ''Century of Women in the United States.''

S. RES. 359

At the request of Mr. SCHUMER, the names of the Senator from Maine (Ms. COLLINS) and the Senator from Hawaii (Mr. AKAKA) were added as cosponsors of S. Res. 359, a resolution designating October 16, 2000, to October 20, 2000 as ''National Teach For America Week.''

AMENDMENTS SUBMITTED

INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 2001

WARNER AMENDMENT NO. 4280

Mr. LOTT (for Mr. WARNER) proposed an amendment to the bill (S. 2507) to authorize appropriations for fiscal year 2001 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes; as follows:

On page 27, strike line 3 and all that follows through page 37, line 3, and insert the following:

TITLE V—DEPARTMENT OF DEFENSE INTELLIGENCE ACTIVITIES

SEC. 501. TWO-YEAR EXTENSION OF AUTHORITY TO ENGAGE IN COMMERCIAL ACTIVITIES AS SECURITY FOR INTELLIGENCE COLLECTION ACTIVITIES.

Section 431(a) of title 10, United States Code, is amended in the second sentence by striking ''December 31, 2000'' and inserting ''December 31, 2002''.

SEC. 502. ROLE OF DIRECTOR OF CENTRAL INTELLIGENCE IN EXPERIMENTAL PERSONNEL PROGRAM FOR CERTAIN SCIENTIFIC AND TECHNICAL PERSONNEL.

If the Director of Central Intelligence requests that the Secretary of Defense exercise any authority available to the Secretary under section 1101(b) of the Strom Thurmond National Defense Authorization Act for Fiscal Year 1999 (Public Law 105–261; 5 U.S.C. 3104 note) to carry out a program of special personnel management authority at the National Imagery and Mapping Agency and the National Security Agency in order to facilitate recruitment of eminent experts in science and engineering at such agencies, the Secretary shall respond to such request not later than 30 days after the date of such request.

SEC. 503. PROHIBITION ON TRANSFER OF IMAGERY ANALYSTS FROM GENERAL DEFENSE INTELLIGENCE PROGRAM TO NATIONAL IMAGERY AND MAPPING AGENCY PROGRAM.

(a) PROHIBITION ON USE OF FUNDS FOR TRANSFER.—No funds authorized to be appropriated by this Act may be transferred from the General Defense Intelligence Program to the National Imagery and Mapping Agency Program for purposes of transferring imagery analysis personnel from the General Defense Intelligence Program to the National Imagery and Mapping Agency Program.

(b) ROLE OF DIRECTOR OF NIMA AS FUNCTIONAL MANAGER FOR IMAGERY AND GEOSPACIAL PROGRAMS.—(1) The Secretary of Defense shall, in consultation with the Director of Central Intelligence, review options for strengthening the role of the Director of the National Imagery and Mapping Agency as the functional manager for United States imagery and geospacial programs.

(2) Not later than March 15, 2001, the Secretary shall submit to the appropriate committees of Congress a report on the review required by subsection (b). The report shall include any recommendations regarding modifications in the role and duties of the Director of the National Imagery and Mapping Agency that the Secretary considers appropriate in light of the review.

(3) In this subsection, the term ''appropriate committees of Congress'' means the following:

(A) The Committee on Armed Services and the Select Committee on Intelligence of the Senate.

(B) The Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives.

SEC. 504. PROHIBITION ON TRANSFER OF COLLECTION MANAGEMENT PERSONNEL FROM GENERAL DEFENSE INTELLIGENCE PROGRAM TO COMMUNITY MANAGEMENT ACCOUNT.

No funds authorized to be appropriated by this Act may be transferred from the General Defense Intelligence Program to the Community Management Account for purposes of transferring intelligence collection management personnel.

SEC. 505. AUTHORIZED PERSONNEL CEILING FOR GENERAL DEFENSE INTELLIGENCE PROGRAM.

The authorized personnel ceiling for the General Defense Intelligence Program specified in the classified Schedule of Authorizations referred to in section 102 is hereby increased by 2,152 positions.

SEC. 506. MEASUREMENT AND SIGNATURE INTELLIGENCE.

(a) STUDY OF OPTIONS.—The Director of Central Intelligence shall, in coordination with the Secretary of Defense, conduct a study of the utility and feasibility of various options for improving the management and organization of measurement and signature intelligence, including—

(1) the option of establishing a centralized tasking, processing, exploitation, and dissemination facility for measurement and signature intelligence;

(2) options for recapitalizing and reconfiguring the current systems for measurement and signature intelligence; and

(3) the operation and maintenance costs of the various options.

(b) REPORT.—Not later than April 1, 2001, the Director and the Secretary shall jointly submit to the appropriate committees of Congress a report on their findings as a result of the study required by subsection (a). The report shall set forth any recommendations that the Director and the Secretary consider appropriate.

(c) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this section, the term ''appropriate committees of Congress'' means the following:

(1) The Committee on Armed Services and the Select Committee on Intelligence of the Senate.

(2) The Committee on Armed Services and the Permanent Select Committee on Intelligence of the House of Representatives.

SPECTER AMENDMENT NO. 4281

Mr. LOTT (for Mr. SPECTER) proposed an amendment to the bill (S. 2507) supra; as follows:

At the end of the bill, add the following:

TITLE VI—COUNTERINTELLIGENCE MATTERS

SEC. 601. SHORT TITLE.

This title may be cited as the ''Counterintelligence Reform Act of 2000''.

SEC. 602. ORDERS FOR ELECTRONIC SURVEILLANCE UNDER THE FOREIGN INTELLIGENCE SURVEILLANCE ACT OF 1978.

(a) REQUIREMENTS REGARDING CERTAIN APPLICATIONS.—Section 104 of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1804) is amended by adding at the end the following new subsection:

''(e)(1)(A) Upon written request of the Director of the Federal Bureau of Investigation, the Secretary of Defense, the Secretary of State, or the Director of Central Intelligence, the Attorney General shall personally review under subsection (a) an application under that subsection for a target described in section 101(b)(2).

''(B) Except when disabled or otherwise unavailable to make a request referred to in subparagraph (A), an official referred to in that subparagraph may not delegate the authority to make a request referred to in that subparagraph.

''(C) Each official referred to in subparagraph (A) with authority to make a request under that subparagraph shall take appropriate actions in advance to ensure that delegation of such authority is clearly established in the event such official is disabled or otherwise unavailable to make such request.

''(2)(A) If as a result of a request under paragraph (1) the Attorney General determines not to approve an application under the second sentence of subsection (a) for purposes of making the application under this section, the Attorney General shall provide written notice of the determination to the official making the request for the review of the application under that paragraph. Except when disabled or otherwise unavailable to make a determination under the preceding sentence, the Attorney General may not delegate the responsibility to make a determination under that sentence. The Attorney General shall take appropriate actions in advance to ensure that delegation of such responsibility is clearly established in the event the Attorney General is disabled or otherwise unavailable to make such determination.

''(B) Notice with respect to an application under subparagraph (A) shall set forth the modifications, if any, of the application that are necessary in order for the Attorney General to approve the application under the second sentence of subsection (a) for purposes of making the application under this section.

''(C) Upon review of any modifications of an application set forth under subparagraph (B), the official notified of the modifications under this paragraph shall modify the application if such official determines that such modification is warranted. Such official shall supervise the making of any modification under this subparagraph. Except when disabled or otherwise unavailable to supervise the making of any modification under the preceding sentence, such official may not delegate the responsibility to supervise the making of any modification under that preceding sentence. Each such official shall take appropriate actions in advance to ensure that delegation of such responsibility is clearly established in the event such official is disabled or otherwise unavailable to supervise the making of such modification.''.

(b) PROBABLE CAUSE.—Section 105 of that Act (50 U.S.C. 1805) is amended—

(1) by redesignating subsections (b), (c), (d), (e), (f), and (g) as subsections (c), (d), (e), (f), (g), and (h), respectively;

(2) by inserting after subsection (a) the following new subsection (b):

''(b) In determining whether or not probable cause exists for purposes of an order under subsection (a)(3), a judge may consider past activities of the target, as well as facts and circumstances relating to current or future activities of the target.''; and

(3) in subsection (d), as redesignated by paragraph (1), by striking ''subsection (b)(1)'' and inserting ''subsection (c)(1)''.

SEC. 603. ORDERS FOR PHYSICAL SEARCHES UNDER THE FOREIGN INTELLIGENCE SURVEILLANCE ACT OF 1978.

(a) REQUIREMENTS REGARDING CERTAIN APPLICATIONS.—Section 303 of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1823) is amended by adding at the end the following new subsection:

''(d)(1)(A) Upon written request of the Director of the Federal Bureau of Investigation, the Secretary of Defense, the Secretary of State, or the Director of Central Intelligence, the Attorney General shall personally review under subsection (a) an application under that subsection for a target described in section 101(b)(2).

''(B) Except when disabled or otherwise unavailable to make a request referred to in subparagraph (A), an official referred to in that subparagraph may not delegate the authority to make a request referred to in that subparagraph.

''(C) Each official referred to in subparagraph (A) with authority to make a request under that subparagraph shall take appropriate actions in advance to ensure that delegation of such authority is clearly established in the event such official is disabled or otherwise unavailable to make such request.

''(2)(A) If as a result of a request under paragraph (1) the Attorney General determines not to approve an application under the second sentence of subsection (a) for purposes of making the application under this section, the Attorney General shall provide written notice of the determination to the official making the request for the review of the application under that paragraph. Except when disabled or otherwise unavailable to make a determination under the preceding sentence, the Attorney General may not delegate the responsibility to make a determination under that sentence. The Attorney General shall take appropriate actions in advance to ensure that delegation of such responsibility is clearly established in the event the Attorney General is disabled or otherwise unavailable to make such determination.

''(B) Notice with respect to an application under subparagraph (A) shall set forth the modifications, if any, of the application that are necessary in order for the Attorney General to approve the application under the second sentence of subsection (a) for purposes of making the application under this section.

''(C) Upon review of any modifications of an application set forth under subparagraph (B), the official notified of the modifications under this paragraph shall modify the application if such official determines that such modification is warranted. Such official shall supervise the making of any modification under this subparagraph. Except when disabled or otherwise unavailable to supervise the making of any modification under the preceding sentence, such official may not delegate the responsibility to supervise the making of any modification under that preceding sentence. Each such official shall take appropriate actions in advance to ensure that delegation of such responsibility is clearly established in the event such official is disabled or otherwise unavailable to supervise the making of such modification.''.

(b) PROBABLE CAUSE.—Section 304 of that Act (50 U.S.C. 1824) is amended—

(1) by redesignating subsections (b), (c), (d), and (e) as subsections (c), (d), (e), and (f), respectively; and

(2) by inserting after subsection (a) the following new subsection (b):

''(b) In determining whether or not probable cause exists for purposes of an order

under subsection (a)(3), a judge may consider past activities of the target, as well as facts and circumstances relating to current or future activities of the target.''.

SEC. 604. DISCLOSURE OF INFORMATION ACQUIRED UNDER THE FOREIGN INTELLIGENCE SURVEILLANCE ACT OF 1978 FOR LAW ENFORCEMENT PURPOSES.

(a) INCLUSION OF INFORMATION ON DISCLOSURE IN SEMIANNUAL OVERSIGHT REPORT.—Section 108(a) of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1808(a)) is amended—

(1) by inserting ''(1)'' after ''(a)''; and

(2) by adding at the end the following new paragraph:

''(2) Each report under the first sentence of paragraph (1) shall include a description of—

''(A) each criminal case in which information acquired under this Act has been passed for law enforcement purposes during the period covered by such report; and

''(B) each criminal case in which information acquired under this Act has been authorized for use at trial during such reporting period.''.

(b) REPORT ON MECHANISMS FOR DETERMINATIONS OF DISCLOSURE OF INFORMATION FOR LAW ENFORCEMENT PURPOSES.—(1) The Attorney General shall submit to the appropriate committees of Congress a report on the authorities and procedures utilized by the Department of Justice for determining whether or not to disclose information acquired under the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.) for law enforcement purposes.

(2) In this subsection, the term ''appropriate committees of Congress'' means the following:

(A) The Select Committee on Intelligence and the Committee on the Judiciary of the Senate.

(B) The Permanent Select Committee on Intelligence and the Committee on the Judiciary of the House of Representatives.

SEC. 605. COORDINATION OF COUNTERINTELLIGENCE WITH THE FEDERAL BUREAU OF INVESTIGATION.

(a) TREATMENT OF CERTAIN SUBJECTS OF INVESTIGATION.—Subsection (c) of section 811 of the Intelligence Authorization Act for Fiscal Year 1995 (50 U.S.C. 402a) is amended—

(1) in paragraphs (1) and (2), by striking ''paragraph (3)'' and inserting ''paragraph (5)'';

(2) by redesignating paragraphs (3), (4), (5), and (6) as paragraphs (5), (6), (7), and (8), respectively;

(3) by inserting after paragraph (2) the following new paragraph (3):

''(3)(A) The Director of the Federal Bureau of Investigation shall submit to the head of the department or agency concerned a written assessment of the potential impact of the actions of the department or agency on a counterintelligence investigation.

''(B) The head of the department or agency concerned shall—

''(i) use an assessment under subparagraph (A) as an aid in determining whether, and under what circumstances, the subject of an investigation under paragraph (1) should be left in place for investigative purposes; and

''(ii) notify in writing the Director of the Federal Bureau of Investigation of such determination.

''(C) The Director of the Federal Bureau of Investigation and the head of the department or agency concerned shall continue to consult, as appropriate, to review the status of an investigation covered by this paragraph and to reassess, as appropriate, a determination of the head of the department or agency concerned to leave a subject in place for investigative purposes.''; and

(4) in paragraph (5), as so redesignated, by striking ''paragraph (1) or (2)'' and inserting ''paragraph (1), (2), or (3)''.

(b) TIMELY PROVISION OF INFORMATION AND CONSULTATION ON ESPIONAGE INVESTIGATIONS.—Paragraph (2) of that subsection is further amended—

(1) by inserting ''in a timely manner'' after ''through appropriate channels''; and

(2) by inserting ''in a timely manner'' after ''are consulted''.

(c) INTERFERENCE WITH FULL FIELD ESPIONAGE INVESTIGATIONS.—That subsection is further amended by inserting after paragraph (3), as amended by subsection (a) of this section, the following new paragraph (4):

''(4)(A) The Federal Bureau of Investigation shall notify appropriate officials within the executive branch, including the head of the department or agency concerned, of the commencement of a full field espionage investigation with respect to an employee within the executive branch.

''(B)(i) A department or agency may not conduct a polygraph examination, interrogate, or otherwise take any action that is likely to alert an employee covered by a notice under subparagraph (A) of an investigation described in that subparagraph without prior coordination with the Federal Bureau of Investigation.

''(ii) Any examination, interrogation, or other action taken under clause (i) shall be taken in consultation with the Federal Bureau of Investigation.''.

SEC. 606. ENHANCING PROTECTION OF NATIONAL SECURITY AT THE DEPARTMENT OF JUSTICE.

(a) AUTHORIZATION FOR INCREASED RESOURCES TO FULFILL NATIONAL SECURITY MISSION OF THE DEPARTMENT OF JUSTICE.—There are authorized to be appropriated to the Department of Justice for the activities of the Office of Intelligence Policy and Review to help meet the increased personnel demands to combat terrorism, process applications to the Foreign Intelligence Surveillance Court, participate effectively in counter-espionage investigations, provide policy analysis on national security issues, and enhance secure computer and telecommunications facilities—

(1) $7,000,000 for fiscal year 2001;

(2) $7,500,000 for fiscal year 2002; and

(3) $8,000,000 for fiscal year 2003.

(b) AVAILABILITY OF FUNDS.—(1) No funds authorized to be appropriated by subsection (a) for the Office of Intelligence Policy and Review may be obligated or expended until the later of the dates on which the Attorney General submits the reports required by paragraphs (2) and (3).

(2)(A) The Attorney General shall submit to the committees of Congress specified in subparagraph (B) a report on the manner in which the funds authorized to be appropriated by subsection (a) for the Office of Intelligence Policy and Review will be used by that Office—

(i) to improve and strengthen its oversight of Federal Bureau of Investigation field offices in the implementation of orders under the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1801 et seq.); and

(ii) to streamline and increase the efficiency of the application process under that Act.

(B) The committees of Congress referred to in this subparagraph are the following:

(i) The Select Committee on Intelligence and the Committee on the Judiciary of the Senate.

(ii) The Permanent Select Committee on Intelligence and the Committee on the Judiciary of the House of Representatives.

(3) In addition to the report required by paragraph (2), the Attorney General shall also submit to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives a report that addresses the issues identified in the semiannual report of the Attorney General to such committees under section 108(a) of the Foreign Intelligence Surveillance Act of 1978 (50 U.S.C. 1808(a)) that was submitted in April 2000, including any corrective actions with regard to such issues. The report under this paragraph shall be submitted in classified form.

(4) Funds made available pursuant to subsection (a), in any fiscal year, shall remain available until expended.

(c) REPORT ON COORDINATING NATIONAL SECURITY AND INTELLIGENCE FUNCTIONS WITHIN THE DEPARTMENT OF JUSTICE.—The Attorney General shall report to the Select Committee on Intelligence and the Committee on the Judiciary of the Senate and the Permanent Select Committee on Intelligence and the Committee on the Judiciary of the House of Representatives within 120 days on actions that have been or will be taken by the Department to—

(1) promote quick and efficient responses to national security issues;

(2) centralize a point-of-contact within the Department on national security matters for external entities and agencies; and

(3) coordinate the dissemination of intelligence information within the appropriate components of the Department and the formulation of policy on national security issues.

SEC. 607. COORDINATION REQUIREMENTS RELATING TO THE PROSECUTION OF CASES INVOLVING CLASSIFIED INFORMATION.

The Classified Information Procedures Act (18 U.S.C. App.) is amended by inserting after section 9 the following new section:

''COORDINATION REQUIREMENTS RELATING TO THE PROSECUTION OF CASES INVOLVING CLASSIFIED INFORMATION

''SEC. 9A. (a) BRIEFINGS REQUIRED.—The Assistant Attorney General for the Criminal Division and the appropriate United States Attorney, or the designees of such officials, shall provide briefings to the senior agency official, or the designee of such official, with respect to any case involving classified information that originated in the agency of such senior agency official.

''(b) TIMING OF BRIEFINGS.—Briefings under subsection (a) with respect to a case shall occur—

''(1) as soon as practicable after the Department of Justice and the United States Attorney concerned determine that a prosecution or potential prosecution could result; and

''(2) at such other times thereafter as are necessary to keep the senior agency official concerned fully and currently informed of the status of the prosecution.

''(c) SENIOR AGENCY OFFICIAL DEFINED.—In this section, the term 'senior agency official' has the meaning given that term in section 1.1 of Executive Order No. 12958.''.

SEC. 608. SEVERABILITY.

If any provision of this title (including an amendment made by this title), or the application thereof, to any person or circumstance, is held invalid, the remainder of this title (including the amendments made by this title), and the application thereof, to

other persons or circumstances shall not be affected thereby.

FEINSTEIN AMENDMENT NO. 4282

Mr. BRYAN (for Mrs. FEINSTEIN) proposed an amendment to the bill, S. 2507, supra; as follows:

On page 37, after line 3, add the following:

TITLE VI—DISCLOSURE OF INFORMATION ON JAPANESE IMPERIAL ARMY

SEC. 601. SHORT TITLE.

This title may be cited as the ''Japanese Imperial Army Disclosure Act''.

SEC. 602. ESTABLISHMENT OF JAPANESE IMPERIAL ARMY RECORDS INTERAGENCY WORKING GROUP.

(a) DEFINITIONS.—In this section:

(1) AGENCY.—The term ''agency'' has the meaning given such term under section 551 of title 5, United States Code.

(2) INTERAGENCY GROUP.—The term ''Interagency Group'' means the Japanese Imperial Army Records Interagency Working Group established under subsection (b).

(3) JAPANESE IMPERIAL ARMY RECORDS.—The term ''Japanese Imperial Army records'' means classified records or portions of records that pertain to any person with respect to whom the United States Government, in its sole discretion, has grounds to believe ordered, incited, assisted, or otherwise participated in the experimentation and persecution of any person because of race, religion, national origin, or political option, during the period beginning September 18, 1931, and ending on December 31, 1948, under the direction of, or in association with—

(A) the Japanese Imperial Army;

(B) any government in any area occupied by the military forces of the Japanese Imperial Army;

(C) any government established with the assistance or cooperation of the Japanese Imperial Army; or

(D) any government which was an ally of the Imperial Army of Japan.

(4) RECORD.—The term ''record'' means a Japanese Imperial Army record.

(b) ESTABLISHMENT OF INTERAGENCY GROUP.—

(1) IN GENERAL.—Not later than 60 days after the date of the enactment of this Act, the President shall establish the Japanese Imperial Army Records Interagency Working Group, which shall remain in existence for 3 years after the date the Interagency Group is established.

(2) MEMBERSHIP.—The President shall appoint to the Interagency Group individuals whom the President determines will most completely and effectively carry out the functions of the Interagency Group within the time limitations provided in this section, including the Historian of the Department of State, the Archivist of the United States, the head of any other agency the President considers appropriate, and no more than 3 other persons. The head of an agency appointed by the President may designate an appropriate officer to serve on the Interagency Group in lieu of the head of such agency.

(3) INITIAL MEETING.—Not later than 90 days after the date of the enactment of this Act, the Interagency Group shall hold an initial meeting and begin the functions required under this section.

(c) FUNCTIONS.—Not later than 1 year after the date of the enactment of this Act, the Interagency Group shall, to the greatest extent possible consistent with section 603—

(1) locate, identify, inventory, recommend for declassification, and make available to the public at the National Archives and Records Administration, all classified Japanese Imperial Army records of the United States;

(2) coordinate with agencies and take such actions as necessary to expedite the release of such records to the public; and

(3) submit a report to Congress, including the Committee on Government Reform and Oversight of the House of Representatives, the Select Committee on Intelligence of the Senate, the Permanent Select Committee on Intelligence of the House of Representatives, and the Committee on the Judiciary of the Senate, describing all such records, the disposition of such records, and the activities of the Interagency Group and agencies under this section.

(d) FUNDING.—There is authorized to be appropriated such sum as may be necessary to carry out the provisions of this title.

SEC. 603. REQUIREMENT OF DISCLOSURE OF RECORDS.

(a) RELEASE OF RECORDS.—Subject to subsections (b), (c), and (d), the Japanese Imperial Army Records Interagency Working Group shall release in their entirety Japanese Imperial Army records.

(b) EXCEPTION FOR PRIVACY.—An agency head may exempt from release under subsection (a) specific information, that would—

(1) constitute a clearly unwarranted invasion of personal privacy;

(2) reveal the identity of a confidential human source, or reveal information about the application of an intelligence source or method, or reveal the identity of a human intelligence source when the unauthorized disclosure of that source would clearly and demonstrably damage the national security interests of the United States;

(3) reveal information that would assist in the development or use of weapons of mass destruction;

(4) reveal information that would impair United States cryptologic systems or activities;

(5) reveal information that would impair the application of state-of-the-art technology within a United States weapon system;

(6) reveal actual United States military war plans that remain in effect;

(7) reveal information that would seriously and demonstrably impair relations between the United States and a foreign government, or seriously and demonstrably undermine ongoing diplomatic activities of the United States;

(8) reveal information that would clearly, and demonstrably impair the current ability of United States Government officials to protect the President, Vice President, and other officials for whom protection services are authorized in the interest of national security;

(9) reveal information that would seriously and demonstrably impair current national security emergency preparedness plans; or

(10) violate a treaty or other international agreement.

(c) APPLICATIONS OF EXEMPTIONS.—

(1) IN GENERAL.—In applying the exemptions provided in paragraphs (2) through (10) of subsection (b), there shall be a presumption that the public interest will be served by disclosure and release of the records of the Japanese Imperial Army. The exemption may be asserted only when the head of the agency that maintains the records determines that disclosure and release would be harmful to a specific interest identified in the exemption. An agency head who makes such a determination shall promptly report it to the committees of Congress with appropriate jurisdiction, including the Committee on the Judiciary and the Select Committee on Intelligence of the Senate and the Committee on Government Reform and Oversight and the Permanent Select Committee on Intelligence of the House of Representatives.

(2) APPLICATION OF TITLE 5.—A determination by an agency head to apply an exemption provided in paragraphs (2) through (9) of subsection (b) shall be subject to the same standard of review that applies in the case of records withheld under section 552(b)(1) of title 5, United States Code.

(d) LIMITATION ON EXEMPTIONS.—

(1) IN GENERAL.—The exemptions set forth in subsection (b) shall constitute the only grounds pursuant to which an agency head may exempt records otherwise subject to release under subsection (a).

(2) RECORDS RELATED TO INVESTIGATION OR PROSECUTIONS.—This section shall not apply to records—

(A) related to or supporting any active or inactive investigation, inquiry, or prosecution by the Office of Special Investigations of the Department of Justice; or

(B) solely in the possession, custody, or control of the Office of Special Investigations.

SEC. 604. EXPEDITED PROCESSING OF FOIA REQUESTS FOR JAPANESE IMPERIAL ARMY RECORDS.

For purposes of expedited processing under section 552(a)(6)(E) of title 5, United States Code, any person who was persecuted in the manner described in section 602(a)(3) and who requests a Japanese Imperial Army record shall be deemed to have a compelling need for such record.

SEC. 605. EFFECTIVE DATE.

The provisions of this title shall take effect on the date that is 90 days after the date of the enactment of this Act.

MOYNIHAN AMENDMENT NO. 4283

Mr. BRYAN (for Mr. MOYNIHAN) proposed an amendment to the bill (S. 2507) supra; as follows:

On page 37, after line 3, add the following:

TITLE VI—DECLASSIFICATION OF INFORMATION

SEC. 601. SHORT TITLE.

This title may be cited as the ''Public Interest Declassification Act of 2000''.

SEC. 602. FINDINGS.

Congress makes the following findings:

(1) It is in the national interest to establish an effective, coordinated, and cost-effective means by which records on specific subjects of extraordinary public interest that do not undermine the national security interests of the United States may be collected, retained, reviewed, and disseminated to Congress, policymakers in the executive branch, and the public.

(2) Ensuring, through such measures, public access to information that does not require continued protection to maintain the national security interests of the United States is a key to striking the balance between secrecy essential to national security and the openness that is central to the proper functioning of the political institutions of the United States.

SEC. 603. PUBLIC INTEREST DECLASSIFICATION BOARD.

(a) ESTABLISHMENT.—There is established within the executive branch of the United States a board to be known as the ''Public Interest Declassification Board'' (in this title referred to as the ''Board'').

(b) PURPOSES.—The purposes of the Board are as follows:

(1) To advise the President, the Assistant to the President for National Security Affairs, the Director of the Office of Management and Budget, and such other executive branch officials as the Board considers appropriate on the systematic, thorough, coordinated, and comprehensive identification, collection, review for declassification, and release to Congress, interested agencies, and the public of declassified records and materials (including donated historical materials) that are of archival value, including records and materials of extraordinary public interest.

(2) To promote the fullest possible public access to a thorough, accurate, and reliable documentary record of significant United States national security decisions and significant United States national security activities in order to—

(A) support the oversight and legislative functions of Congress;

(B) support the policymaking role of the executive branch;

(C) respond to the interest of the public in national security matters; and

(D) promote reliable historical analysis and new avenues of historical study in national security matters.

(3) To provide recommendations to the President for the identification, collection, and review for declassification of information of extraordinary public interest that does not undermine the national security of the United States, to be undertaken in accordance with a declassification program that has been established or may be established by the President by Executive Order.

(4) To advise the President, the Assistant to the President for National Security Affairs, the Director of the Office of Management and Budget, and such other executive branch officials as the Board considers appropriate on policies deriving from the issuance by the President of Executive Orders regarding the classification and declassification of national security information.

(c) MEMBERSHIP.—(1) The Board shall be composed of nine individuals appointed from among citizens of the United States who are preeminent in the fields of history, national security, foreign policy, intelligence policy, social science, law, or archives, including individuals who have served in Congress or otherwise in the Federal Government or have otherwise engaged in research, scholarship, or publication in such fields on matters relating to the national security of the United States, of whom—

(A) five shall be appointed by the President;

(B) one shall be appointed by the Majority Leader of the Senate;

(C) one shall be appointed by the Minority Leader of the Senate;

(D) one shall be appointed by the Speaker of the House of Representatives; and

(E) one shall be appointed by the Minority Leader of the House of Representatives.

(2)(A) Of the members initially appointed to the Board, three shall be appointed for a term of four years, three shall be appointed for a term of three years, and three shall be appointed for a term of two years.

(B) Any subsequent appointment to the Board shall be for a term of three years.

(3) A vacancy in the Board shall be filled in the same manner as the original appointment. A member of the Board appointed to fill a vacancy before the expiration of a term shall serve for the remainder of the term.

(4) A member of the Board may be appointed to a new term on the Board upon the expiration of the member's term on the Board, except that no member may serve more than three full terms on the Board.

(d) CHAIRPERSON; EXECUTIVE SECRETARY.—(1)(A) The President shall designate one of the members of the Board as the Chairperson of the Board.

(B) The term of service as Chairperson of the Board shall be two years.

(C) A member serving as Chairperson of the Board may be re-designated as Chairperson of the Board upon the expiration of the member's term as Chairperson of the Board, except that no member shall serve as Chairperson of the Board for more than six years.

(2) The Director of the Information Security Oversight Office shall serve as the Executive Secretary of the Board.

(e) MEETINGS.—The Board shall meet as needed to accomplish its mission, consistent with the availability of funds. A majority of the members of the Board shall constitute a quorum.

(f) STAFF.—Any employee of the Federal Government may be detailed to the Board, with the agreement of and without reimbursement to the detailing agency, and such detail shall be without interruption or loss of civil, military, or foreign service status or privilege.

(g) SECURITY.—(1) The members and staff of the Board shall, as a condition of appointment to or employment with the Board, hold appropriate security clearances for access to the classified records and materials to be reviewed by the Board or its staff, and shall follow the guidance and practices on security under applicable Executive Orders and agency directives.

(2) The head of an agency shall, as a condition of granting access to a member of the Board, the Executive Secretary of the Board, or a member of the staff of the Board to classified records or materials of the agency under this title, require the member, the Executive Secretary, or the member of the staff, as the case may be, to—

(A) execute an agreement regarding the security of such records or materials that is approved by the head of the agency; and

(B) hold an appropriate security clearance granted or recognized under the standard procedures and eligibility criteria of the agency, including any special access approval required for access to such records or materials.

(3) The members of the Board, the Executive Secretary of the Board, and the members of the staff of the Board may not use any information acquired in the course of their official activities on the Board for nonofficial purposes.

(4) For purposes of any law or regulation governing access to classified information that pertains to the national security of the United States, and subject to any limitations on access arising under section 606(b), and to facilitate the advisory functions of the Board under this title, a member of the Board seeking access to a record or material under this title shall be deemed for purposes of this subsection to have a need to know the contents of the record or material.

(h) COMPENSATION.—(1) Each member of the Board shall receive compensation at a rate not to exceed the daily equivalent of the annual rate of basic pay payable for positions at ES–1 of the Senior Executive Service under section 5382 of title 5, United States Code, for each day such member is engaged in the actual performance of duties of the Board.

(2) Members of the Board shall be allowed travel expenses, including per diem in lieu of subsistence at rates authorized for employees of agencies under subchapter of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of the duties of the Board.

(i) GUIDANCE; ANNUAL BUDGET.—(1) On behalf of the President, the Assistant to the President for National Security Affairs shall provide guidance on policy to the Board.

(2) The Executive Secretary of the Board, under the direction of the Chairperson of the Board and the Board, and acting in consultation with the Archivist of the United States, the Assistant to the President for National Security Affairs, and the Director of the Office of Management and Budget, shall prepare the annual budget of the Board.

(j) SUPPORT.—The Information Security Oversight Office may support the activities of the Board under this title. Such support shall be provided on a reimbursable basis.

(k) PUBLIC AVAILABILITY OF RECORDS AND REPORTS.—(1) The Board shall make available for public inspection records of its proceedings and reports prepared in the course of its activities under this title to the extent such records and reports are not classified and would not be exempt from release under the provisions of section 552 of title 5, United States Code.

(2) In making records and reports available under paragraph (1), the Board shall coordinate the release of such records and reports with appropriate officials from agencies with expertise in classified information in order to ensure that such records and reports do not inadvertently contain classified information.

(l) APPLICABILITY OF CERTAIN ADMINISTRATIVE LAWS.—The provisions of the Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the activities of the Board under this title. However, the records of the Board shall be governed by the provisions of the Federal Records Act of 1950.

SEC. 604. IDENTIFICATION, COLLECTION, AND REVIEW FOR DECLASSIFICATION OF INFORMATION OF ARCHIVAL VALUE OR EXTRAORDINARY PUBLIC INTEREST.

(a) BRIEFINGS ON AGENCY DECLASSIFICATION PROGRAMS.—(1) As requested by the Board, or by the Select Committee on Intelligence of the Senate or the Permanent Select Committee on Intelligence of the House of Representatives, the head of any agency with the authority under an Executive Order to classify information shall provide to the Board, the Select Committee on Intelligence of the Senate, or the Permanent Select Committee on Intelligence of the House of Representatives, on an annual basis, a summary briefing and report on such agency's progress and plans in the declassification of national security information. Such briefing shall cover the declassification goals set by statute, regulation, or policy, the agency's progress with respect to such goals, and the agency's planned goals and priorities for its declassification activities over the next two fiscal years. Agency briefings and reports shall give particular attention to progress on the declassification of records and materials that are of archival value or extraordinary public interest to the people of the United States.

(2)(A) The annual briefing and report under paragraph (1) for agencies within the Department of Defense, including the military departments, and the elements of the intelligence community shall be provided on a consolidated basis.

(B) In this paragraph, the term ''elements of the intelligence community'' means the elements of the intelligence community

specified or designated under section 3(4) of the National Security Act of 1947 (50 U.S.C. 401a(4)).

(b) RECOMMENDATIONS ON AGENCY DECLASSIFICATION PROGRAMS.—(1) Upon reviewing and discussing declassification plans and progress with an agency, the Board shall provide to the head of the agency the written recommendations of the Board as to how the agency's declassification program could be improved. A copy of each recommendation shall also be submitted to the Assistant to the President for National Security Affairs and the Director of the Office of Management and Budget.

(2) Consistent with the provisions of section 603(k), the Board's recommendations to the head of an agency under paragraph (1) shall become public 60 days after such recommendations are sent to the head of the agency under that paragraph.

(c) RECOMMENDATIONS ON SPECIAL SEARCHES FOR RECORDS OF EXTRAORDINARY PUBLIC INTEREST.—(1) The Board shall also make recommendations to the President regarding proposed initiatives to identify, collect, and review for declassification classified records and materials of extraordinary public interest.

(2) In making recommendations under paragraph (1), the Board shall consider the following:

(A) The opinions and requests of Members of Congress, including opinions and requests expressed or embodied in letters or legislative proposals.

(B) The opinions and requests of the National Security Council, the Director of Central Intelligence, and the heads of other agencies.

(C) The opinions of United States citizens.

(D) The opinions of members of the Board.

(E) The impact of special searches on systematic and all other on-going declassification programs.

(F) The costs (including budgetary costs) and the impact that complying with the recommendations would have on agency budgets, programs, and operations.

(G) The benefits of the recommendations.

(H) The impact of compliance with the recommendations on the national security of the United States.

(d) PRESIDENT'S DECLASSIFICATION PRIORITIES.—(1) Concurrent with the submission to Congress of the budget of the President each fiscal year under section 1105 of title 31, United States Code, the Director of the Office of Management and Budget shall publish a description of the President's declassification program and priorities, together with a listing of the funds requested to implement that program.

(2) Nothing in this title shall be construed to substitute or supersede, or establish a funding process for, any declassification program that has been established or may be established by the President by Executive Order.

SEC. 605. PROTECTION OF NATIONAL SECURITY INFORMATION AND OTHER INFORMATION.

(a) IN GENERAL.—Nothing in this title shall be construed to limit the authority of the head of an agency to classify information or to continue the classification of information previously classified by an agency.

(b) SPECIAL ACCESS PROGRAMS.—Nothing in this title shall be construed to limit the authority of the head of an agency to grant or deny access to a special access program.

(c) AUTHORITIES OF DIRECTOR OF CENTRAL INTELLIGENCE.—Nothing in this title shall be construed to limit the authorities of the Director of Central Intelligence as the head of the intelligence community, including the Director's responsibility to protect intelligence sources and methods from unauthorized disclosure as required by section 103(c)(6) of the National Security Act of 1947 (50 U.S.C. 403–3(c)(6)).

(d) EXEMPTIONS TO RELEASE OF INFORMATION.—Nothing in this title shall be construed to limit any exemption or exception to the release to the public under this title of information that is protected under section 552(b) of title 5, United States Code (commonly referred to as the ''Freedom of Information Act''), or section 552a of title 5, United States Code (commonly referred to as the ''Privacy Act'').

(e) WITHHOLDING INFORMATION FROM CONGRESS.—Nothing in this title shall be construed to authorize the withholding of information from Congress.

SEC. 606. STANDARDS AND PROCEDURES.

(a) LIAISON.—(1) The head of each agency with the authority under an Executive Order to classify information and the head of each Federal Presidential library shall designate an employee of such agency or library, as the case may be, to act as liaison to the Board for purposes of this title.

(2) The Board may establish liaison and otherwise consult with such other historical and advisory committees as the Board considers appropriate for purposes of this title.

(b) LIMITATIONS ON ACCESS.—(1)(A) Except as provided in paragraph (2), if the head of an agency or the head of a Federal Presidential library determines it necessary to deny or restrict access of the Board, or of the agency or library liaison to the Board, to information contained in a record or material, in whole or in part, the head of the agency or the head of the library, as the case may be, shall promptly notify the Board in writing of such determination.

(B) Each notice to the Board under subparagraph (A) shall include a description of the nature of the records or materials, and a justification for the determination, covered by such notice.

(2) In the case of a determination referred to in paragraph (1) with respect to a special access program created by the Secretary of Defense, the Director of Central Intelligence, or the head of any other agency, the notification of denial of access under paragraph (1), including a description of the nature of the Board's request for access, shall be submitted to the Assistant to the President for National Security Affairs rather than to the Board.

(c) DISCRETION TO DISCLOSE.—At the conclusion of a declassification review, the head of an agency may, in the discretion of the head of the agency, determine that the public's interest in the disclosure of records or materials of the agency covered by such review, and still properly classified, outweighs the Government's need to protect such records or materials, and may release such records or materials in accordance with the provisions of Executive Order 12958 or any successor order to such Executive Order.

(d) DISCRETION TO PROTECT.—At the conclusion of a declassification review, the head of an agency may, in the discretion of the head of the agency, determine that the interest of the agency in the protection of records or materials of the agency covered by such review, and still properly classified, outweigh's the public's need for access to such records or materials, and may deny release of such records or materials in accordance with the provisions of Executive Order 12958 or any successor order to such Executive Order.

(e) REPORTS.—(1)(A) Except as provided in paragraph (2), the Board shall annually submit to the appropriate congressional committees a report on the activities of the Board under this title, including summary information regarding any denials by the head of an agency or the head of a Federal Presidential library of access of the Board to records or materials under this title.

(B) In this paragraph, the term ''appropriate congressional committees'' means the Select Committee on Intelligence and the Committee on Governmental Affairs of the Senate and the Permanent Select Committee on Intelligence and the Committee on Government Reform and Oversight of the House of Representatives.

(2) Notwithstanding paragraph (1), notice that the Board has been denied access to records and materials, and a justification for the determination in support of the denial, shall be submitted by the agency denying the access as follows:

(A) In the case of the denial of access to a special access program created by the Secretary of Defense, to the Committees on Armed Services and Appropriations of the Senate and to the Committees on Armed Services and Appropriations of the House of Representatives.

(B) In the case of the denial of access to a special access program created by the Director of Central Intelligence, or by the head of any other agency (including the Department of Defense) if the special access program pertains to intelligence activities, or of access to any information and materials relating to intelligence sources and methods, to the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives.

(C) In the case of the denial of access to a special access program created by the Secretary of Energy or the Administrator for Nuclear Security, to the Committees on Armed Services and Appropriations and the Select Committee on Intelligence of the Senate and to the Committees on Armed Services and Appropriations and the Permanent Select Committee on Intelligence of the House of Representatives.

SEC. 607. JUDICIAL REVIEW.

Nothing in this title limits the protection afforded to any information under any other provision of law. This title is not intended and may not be construed to create any right or benefit, substantive or procedural, enforceable at law against the United States, its agencies, its officers, or its employees. This title does not modify in any way the substantive criteria or procedures for the classification of information, nor does this title create any right or benefit subject to judicial review.

SEC. 608. FUNDING.

(a) AUTHORIZATION OF APPROPRIATIONS.—There is hereby authorized to be appropriated to carry out the provisions of this title amounts as follows:

(1) For fiscal year 2001, $650,000.

(2) For each fiscal year after fiscal year 2001, such sums as may be necessary for such fiscal year.

(b) FUNDING REQUESTS.—The President shall include in the budget submitted to Congress for each fiscal year under section 1105 of title 31, United States Code, a request for amounts for the activities of the Board under this title during such fiscal year.

SEC. 609. DEFINITIONS.

In this title:

(1) AGENCY.—(A) Except as provided in subparagraph (B), the term ''agency'' means the following:

(i) An executive agency, as that term is defined in section 105 of title 5, United States Code.

(ii) A military department, as that term is defined in section 102 of such title.

(iii) Any other entity in the executive branch that comes into the possession of classified information.

(B) The term does not include the Board.

(2) CLASSIFIED MATERIAL OR RECORD.—The terms ''classified material'' and ''classified record'' include any correspondence, memorandum, book, plan, map, drawing, diagram, pictorial or graphic work, photograph, film, microfilm, sound recording, videotape, machine readable records, and other documentary material, regardless of physical form or characteristics, that has been determined pursuant to Executive Order to require protection against unauthorized disclosure in the interests of the national security of the United States.

(3) DECLASSIFICATION.—The term ''declassification'' means the process by which records or materials that have been classified are determined no longer to require protection from unauthorized disclosure to protect the national security of the United States.

(4) DONATED HISTORICAL MATERIAL.—The term ''donated historical material'' means collections of personal papers donated or given to a Federal Presidential library or other archival repository under a deed of gift or otherwise.

(5) FEDERAL PRESIDENTIAL LIBRARY.—The term ''Federal Presidential library'' means a library operated and maintained by the United States Government through the National Archives and Records Administration under the applicable provisions of chapter 21 of title 44, United States Code.

(6) NATIONAL SECURITY.—The term ''national security'' means the national defense or foreign relations of the United States.

(7) RECORDS OR MATERIALS OF EXTRAORDINARY PUBLIC INTEREST.—The term ''records or materials of extraordinary public interest'' means records or materials that—

(A) demonstrate and record the national security policies, actions, and decisions of the United States, including—

(i) policies, events, actions, and decisions which led to significant national security outcomes; and

(ii) the development and evolution of significant United States national security policies, actions, and decisions;

(B) will provide a significantly different perspective in general from records and materials publicly available in other historical sources; and

(C) would need to be addressed through ad hoc record searches outside any systematic declassification program established under Executive Order.

(8) RECORDS OF ARCHIVAL VALUE.—The term ''records of archival value'' means records that have been determined by the Archivist of the United States to have sufficient historical or other value to warrant their continued preservation by the Federal Government.

SEC. 610. SUNSET.

The provisions of this title shall expire four years after the date of the enactment of this Act, unless reauthorized by statute.

KERREY AMENDMENT NO. 4284

Mr. BRYAN (for Mr. KERREY) proposed an amendment to the bill, S. 2507, supra; as follows:

At the end of title III, add the following:

SEC. 3___. DESIGNATION OF DANIEL PATRICK MOYNIHAN PLACE.

(a) FINDINGS.—Congress finds that—

(1) during the second half of the twentieth century, Senator Daniel Patrick Moynihan promoted the importance of architecture and urban planning in the Nation's Capital, particularly with respect to the portion of Pennsylvania Avenue between the White House and the United States Capitol (referred to in this subsection as the ''Avenue'');

(2) Senator Moynihan has stressed the unique significance of the Avenue as conceived by Pierre Charles L'Enfant to be the ''grand axis'' of the Nation's Capital as well as a symbolic representation of the separate yet unified branches of the United States Government;

(3) through his service to the Ad Hoc Committee on Federal Office Space (1961–1962), as a member of the President's Council on Pennsylvania Avenue (1962–1964), and as vice-chairman of the President's Temporary Commission on Pennsylvania Avenue (1965–1969), and in his various capacities in the executive and legislative branches, Senator Moynihan has consistently and creatively sought to fulfill President Kennedy's recommendation of June 1, 1962, that the Avenue not become a ''solid phalanx of public and private office buildings which close down completely at night and on weekends,'' but that it be ''lively, friendly, and inviting, as well as dignified and impressive'';

(4)(A) Senator Moynihan helped draft a Federal architectural policy, known as the ''Guiding Principles for Federal Architecture,'' that recommends a choice of designs that are ''efficient and economical'' and that provide ''visual testimony to the dignity, enterprise, vigor, and stability'' of the United States Government; and

(B) the Guiding Principles for Federal Architecture further state that the ''development of an official style must be avoided. Design must flow from the architectural profession to the Government, and not vice versa.'';

(5) Senator Moynihan has encouraged—

(A) the construction of new buildings along the Avenue, such as the Ronald Reagan Building and International Trade Center; and

(B) the establishment of an academic institution along the Avenue, namely the Woodrow Wilson International Center for Scholars, a living memorial to President Wilson; and

(6) as Senator Moynihan's service in the Senate concludes, it is appropriate to commemorate his legacy of public service and his commitment to thoughtful urban design in the Nation's Capital.

(b) DESIGNATION.—The parcel of land located in the northwest quadrant of Washington, District of Columbia, and described in subsection (c) shall be known and designated as ''Daniel Patrick Moynihan Place''.

(c) BOUNDARIES.—The parcel of land described in this subsection is the portion of Woodrow Wilson Plaza (as designated by Public Law 103–284 (108 Stat. 1448)) that is bounded—

(1) on the west by the eastern facade of the Ronald Reagan Building and International Trade Center;

(2) on the east by the western facade of the Ariel Rios Building;

(3) on the north by the southern edge of the sidewalk abutting Pennsylvania Avenue; and

(4) on the south by the line that, bisecting the atrium of the Ronald Reagan Building and International Trade Center, continues east to bisect the western hemicycle of the Ariel Rios Building.

(d) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the parcel of land described in subsection (c) shall be deemed to be a reference to Daniel Patrick Moynihan Place.

SHELBY AMENDMENT NO. 4285

Mr. LOTT (for Mr. SHELBY) proposed an amendment to the bill, S. 2507. supra; as follows:

On page 10, strike line 11 and all that follows through page 12, line 2, and insert the following:

''(a) PROHIBITION.—Whoever, being an officer or employee of the United States, a former or retired officer or employee of the United States, any other person with authorized access to classified information, or any other person formerly with authorized access to classified information, knowingly and willfully discloses, or attempts to disclose, any classified information acquired as a result of such person's authorized access to classified information to a person (other than an officer or employee of the United States) who is not authorized access to such classified information, knowing that the person is not authorized access to such classified information, shall be fined under this title, imprisoned not more than 3 years, or both.

''(b) CONSTRUCTION OF PROHIBITION.—Nothing in this section shall be construed to establish criminal liability for disclosure of classified information in accordance with applicable law to the following:

''(1) Any justice or judge of a court of the United States established pursuant to article III of the Constitution of the United States.

''(2) The Senate or House of Representatives, or any committee or subcommittee thereof, or joint committee thereof, or any member of Congress.

''(3) A person or persons acting on behalf of a foreign power (including an international organization) if the disclosure—

''(A) is made by an officer or employee of the United States who has been authorized to make the disclosure; and

''(B) is within the scope of such officer's or employee's duties.

''(4) Any other person authorized to receive the classified information.

''(c) DEFINITIONS.—In this section:

''(1) The term 'authorized', in the case of access to classified information, means having authority or permission to have access to the classified information pursuant to the provisions of a statute, Executive Order, regulation, or directive of the head of any department or agency who is empowered to classify information, an order of any United States court, or a provision of any Resolution of the Senate or Rule of the House of Representatives which governs release of classified information by such House of Congress.

''(2) The term 'classified information' means information or material properly classified and clearly marked or represented, or that the person knows or has reason to believe has been properly classified by appropriate authorities, pursuant to the provisions of a statute or Executive Order, as requiring protection against unauthorized disclosure for reasons of national security.

On page 12, strike line 21 and all that follows through page 13, line 16, and insert the following:

''SEC. 115. (a) REQUIREMENT.—(1) The Director of Central Intelligence shall, in consultation with the Secretary of Defense, establish and maintain in the intelligence community an analytic capability with responsibility for intelligence in support of the activities of the United States relating to unaccounted for United States personnel.

''(2) The analytic capability maintained under paragraph (1) shall be known as the 'POW/MIA analytic capability of the intelligence community'.

''(b) SCOPE OF RESPONSIBILITY.—The responsibilities of the analytic capability maintained under subsection (a) shall—

''(1) extend to any activities of the Federal Government with respect to unaccounted for United States personnel after December 31, 1999; and

''(2) include support for any department or agency of the Federal Government engaged in such activities.

''(c) UNACCOUNTED FOR UNITED STATES PERSONNEL DEFINED.—In this section, the term 'unaccounted for United States personnel' means the following:

''(1) Any missing person (as that term is defined in section 1513(1) of title 10, United States Code).

''(2) Any United States national who was killed while engaged in activities on behalf of the United States Government and whose remains have not been repatriated to the United States.''.

On page 14, beginning on line 11, strike ''acting at their direction''.

On page 14, line 13, insert '', and at the direction of,'' after ''on behalf of''.

On page 14, line 16, strike ''AUTHORIZED ACTIVITIES.—An activity'' and insert ''AUTHORIZED INTELLIGENCE ACTIVITIES.—An intelligence activity''.

On page 14, line 18, insert ''intelligence'' before ''activity''.

On page 15, beginning on line 9, strike '', and all applicable Executive Orders,''.

On page 15, line 11, strike ''materials'' and insert ''material''.

On page 15, line 15, strike ''and Executive Orders''.

On page 15, line 18, strike ''or Executive Order''.

On page 15, line 22, strike ''or Executive Order''.

On page 15, strike line 25 and all that follows through page 16, line 16, and insert the following:

(d) EFFECTS OF CERTIFICATION OF NON-FULL COMPLIANCE.—(1) Subject to subsection (e), effective as of January 1, 2001, a covered element of the Department of State

On page 16, line 20, strike ''and Executive Orders''.

On page 16, strike lines 22 and 23 and insert the following:

(2) If the prohibition in paragraph (1) takes effect in accordance with that paragraph, the prohibition

On page 17, beginning on line 1, strike ''and Executive Orders''.

On page 17, strike line 3 and insert the following:

(e) WAIVER BY DIRECTOR OF CENTRAL INTELLIGENCE.—(1) The Director of Central Intelligence may

On page 17, beginning on line 4, strike ''subsection (d)(2)'' and insert ''subsection (d)''.

On page 17, line 6, strike ''the President'' and insert ''the Director''.

On page 17, line 9, strike ''The President'' and insert ''The Director''.

On page 17, between lines 17 and 18, insert the following:

(C) The actions, if any, that will be taken to bring such element into full compliance with the directives referred to in subsection (a), including a schedule for completion of such actions.

On page 17, line 18, strike ''(C) The actions taken by the President'' and insert ''(D) The actions taken by the Director''.

On page 17, line 20, insert before the period the following: ''pending achievement of full compliance of such element with such directives''.

SMALL BUSINESS INNOVATION RESEARCH PROGRAM REAUTHORIZATION ACT OF 2000

BOND (AND KERRY) AMENDMENT NO. 4286

Mr. KYL (for Mr. BOND (for himself and Mr. KERRY)) proposed an amendment to the House amendment to the Senate amendment to the bill (H.R. 2392) to amend the Small Business Act to extend the authorization for the Small Business Innovation Research Program, and for other purposes; as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Small Business Reauthorization Act of 2000''.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

TITLE I—SMALL BUSINESS INNOVATION RESEARCH PROGRAM

SECTION 101. SHORT TITLE.

(a) SHORT TITLE.—This title may be cited as the ''Small Business Innovation Research Program Reauthorization Act of 2000''.

SEC. 102. FINDINGS.

Congress finds that—

(1) the small business innovation research program established under the Small Business Innovation Development Act of 1982, and reauthorized by the Small Business Research and Development Enhancement Act of 1992 (in this Act referred to as the ''SBIR program'') is highly successful in involving small businesses in federally funded research and development;

(2) the SBIR program made the cost-effective and unique research and development capabilities possessed by the small businesses of the Nation available to Federal agencies and departments;

(3) the innovative goods and services developed by small businesses that participated in the SBIR program have produced innovations of critical importance in a wide variety of high-technology fields, including biology, medicine, education, and defense;

(4) the SBIR program is a catalyst in the promotion of research and development, the commercialization of innovative technology, the development of new products and services, and the continued excellence of this Nation's high-technology industries; and

(5) the continuation of the SBIR program will provide expanded opportunities for one of the Nation's vital resources, its small businesses, will foster invention, research, and technology, will create jobs, and will increase this Nation's competitiveness in international markets.

SEC. 103. EXTENSION OF SBIR PROGRAM.

Section 9(m) of the Small Business Act (15 U.S.C. 638(m)) is amended to read as follows:

''(m) TERMINATION.—The authorization to carry out the Small Business Innovation Research Program established under this section shall terminate on September 30, 2008.''.

SEC. 104. ANNUAL REPORT.

Section 9(b)(7) of the Small Business Act (15 U.S.C. 638(b)(7)) is amended by striking ''and the Committee on Small Business of the House of Representatives'' and inserting '', and to the Committee on Science and the Committee on Small Business of the House of Representatives,''.

SEC. 105. THIRD PHASE ASSISTANCE.

Section 9(e)(4)(C)(i) of the Small Business Act (15 U.S.C. 638(e)(4)(C)(i)) is amended by striking ''; and'' and inserting ''; or''.

SEC. 106. REPORT ON PROGRAMS FOR ANNUAL PERFORMANCE PLAN.

Section 9(g) of the Small Business Act (15 U.S.C. 638(g)) is amended—

(1) in paragraph (7), by striking ''and'' at the end;

(2) in paragraph (8), by striking the period at the end and inserting a semicolon; and

(3) by adding at the end the following:

''(9) include, as part of its annual performance plan as required by subsections (a) and (b) of section 1115 of title 31, United States Code, a section on its SBIR program, and shall submit such section to the Committee on Small Business of the Senate, and the Committee on Science and the Committee on Small Business of the House of Representatives; and''.

SEC. 107. OUTPUT AND OUTCOME DATA.

(a) COLLECTION.—Section 9(g) of the Small Business Act (15 U.S.C. 638(g)), as amended by section 106 of this Act, is further amended by adding at the end the following:

''(10) collect, and maintain in a common format in accordance with subsection (v), such information from awardees as is necessary to assess the SBIR program, including information necessary to maintain the database described in subsection (k).''.

(b) REPORT TO CONGRESS.—Section 9(b)(7) of the Small Business Act (15 U.S.C. 638(b)(7)), as amended by section 104 of this Act, is further amended by inserting before the period at the end '', including the data on output and outcomes collected pursuant to subsections (g)(10) and (o)(9), and a description of the extent to which Federal agencies are providing in a timely manner information needed to maintain the database described in subsection (k)''.

(c) DATABASE.—Section 9(k) of the Small Business Act (15 U.S.C. 638(k)) is amended to read as follows:

''(k) DATABASE.—

''(1) PUBLIC DATABASE.—Not later than 180 days after the date of enactment of the Small Business Innovation Research Program Reauthorization Act of 2000, the Administrator shall develop, maintain, and make available to the public a searchable, up-to-date, electronic database that includes—

''(A) the name, size, location, and an identifying number assigned by the Administrator, of each small business concern that has received a first phase or second phase SBIR award from a Federal agency;

''(B) a description of each first phase or second phase SBIR award received by that small business concern, including—

''(i) an abstract of the project funded by the award, excluding any proprietary information so identified by the small business concern;

''(ii) the Federal agency making the award; and

''(iii) the date and amount of the award;

''(C) an identification of any business concern or subsidiary established for the commercial application of a product or service for which an SBIR award is made; and

''(D) information regarding mentors and Mentoring Networks, as required by section 35(d).

''(2) GOVERNMENT DATABASE.—Not later than 180 days after the date of enactment of the Small Business Innovation Research Program Reauthorization Act of 2000, the Administrator, in consultation with Federal agencies required to have an SBIR program pursuant to subsection (f)(1), shall develop and maintain a database to be used solely for SBIR program evaluation that—

''(A) contains for each second phase award made by a Federal agency—

''(i) information collected in accordance with paragraph (3) on revenue from the sale of new products or services resulting from the research conducted under the award;

''(ii) information collected in accordance with paragraph (3) on additional investment from any source, other than first phase or second phase SBIR or STTR awards, to further the research and development conducted under the award; and

''(iii) any other information received in connection with the award that the Administrator, in conjunction with the SBIR program managers of Federal agencies, considers relevant and appropriate;

''(B) includes any narrative information that a small business concern receiving a second phase award voluntarily submits to further describe the outputs and outcomes of its awards;

''(C) includes for each applicant for a first phase or second phase award that does not receive such an award—

''(i) the name, size, and location, and an identifying number assigned by the Administration;

''(ii) an abstract of the project; and

''(iii) the Federal agency to which the application was made;

''(D) includes any other data collected by or available to any Federal agency that such agency considers may be useful for SBIR program evaluation; and

''(E) is available for use solely for program evaluation purposes by the Federal Government or, in accordance with policy directives issued by the Administration, by other authorized persons who are subject to a use and nondisclosure agreement with the Federal Government covering the use of the database.

''(3) UPDATING INFORMATION FOR DATABASE.—

''(A) IN GENERAL.—A small business concern applying for a second phase award under this section shall be required to update information in the database established under this subsection for any prior second phase award received by that small business concern. In complying with this paragraph, a small business concern may apportion sales or additional investment information relating to more than one second phase award among those awards, if it notes the apportionment for each award.

''(B) ANNUAL UPDATES UPON TERMINATION.—A small business concern receiving a second phase award under this section shall—

''(i) update information in the database concerning that award at the termination of the award period; and

''(ii) be requested to voluntarily update such information annually thereafter for a period of 5 years.

''(4) PROTECTION OF INFORMATION.—Information provided under paragraph (2) shall be considered privileged and confidential and not subject to disclosure pursuant to section 552 of title 5, United States Code.

''(5) RULE OF CONSTRUCTION.—Inclusion of information in the database under this subsection shall not be considered to be publication for purposes of subsection (a) or (b) of section 102 of title 35, United States Code.''.

SEC. 108. NATIONAL RESEARCH COUNCIL REPORTS.

(a) STUDY AND RECOMMENDATIONS.—The head of each agency with a budget of more than $50,000,000 for its SBIR program for fiscal year 1999, in consultation with the Small Business Administration, shall, not later than 6 months after the date of enactment of this Act, cooperatively enter into an agreement with the National Academy of Sciences for the National Research Council to—

(1) conduct a comprehensive study of how the SBIR program has stimulated technological innovation and used small businesses to meet Federal research and development needs, including—

(A) a review of the value to the Federal research agencies of the research projects being conducted under the SBIR program, and of the quality of research being conducted by small businesses participating under the program, including a comparison of the value of projects conducted under the SBIR program to those funded by other Federal research and development expenditures;

(B) to the extent practicable, an evaluation of the economic benefits achieved by the SBIR program, including the economic rate of return, and a comparison of the economic benefits, including the economic rate of return, achieved by the SBIR program with the economic benefits, including the economic rate of return, of other Federal research and development expenditures;

(C) an evaluation of the noneconomic benefits achieved by the SBIR program over the life of the program;

(D) a comparison of the allocation for fiscal year 2000 of Federal research and development funds to small businesses with such allocation for fiscal year 1983, and an analysis of the factors that have contributed to such allocation; and

(E) an analysis of whether Federal agencies, in fulfilling their procurement needs, are making sufficient effort to use small businesses that have completed a second phase award under the SBIR program; and

(2) make recommendations with respect to—

(A) measures of outcomes for strategic plans submitted under section 306 of title 5, United States Code, and performance plans submitted under section 1115 of title 31, United States Code, of each Federal agency participating in the SBIR program;

(B) whether companies who can demonstrate project feasibility, but who have not received a first phase award, should be eligible for second phase awards, and the potential impact of such awards on the competitive selection process of the program;

(C) whether the Federal Government should be permitted to recoup some or all of its expenses if a controlling interest in a

company receiving an SBIR award is sold to a foreign company or to a company that is not a small business concern;

(D) how to increase the use by the Federal Government in its programs and procurements of technology-oriented small businesses; and

(E) improvements to the SBIR program, if any are considered appropriate.

(b) PARTICIPATION BY SMALL BUSINESS.—

(1) IN GENERAL.—In a manner consistent with law and with National Research Council study guidelines and procedures, knowledgeable individuals from the small business community with experience in the SBIR program shall be included—

(A) in any panel established by the National Research Council for the purpose of performing the study conducted under this section; and

(B) among those who are asked by the National Research Council to peer review the study.

(2) CONSULTATION.—To ensure that the concerns of small business are appropriately considered under this subsection, the National Research Council shall consult with and consider the views of the Office of Technology and the Office of Advocacy of the Small Business Administration and other interested parties, including entities, organizations, and individuals actively engaged in enhancing or developing the technological capabilities of small business concerns.

(c) PROGRESS REPORTS.—The National Research Council shall provide semiannual progress reports on the study conducted under this section to the Committee on Science and the Committee on Small Business of the House of Representatives, and to the Committee on Small Business of the Senate.

(d) REPORT.—The National Research Council shall transmit to the heads of agencies entering into an agreement under this section and to the Committee on Science and the Committee on Small Business of the House of Representatives, and to the Committee on Small Business of the Senate—

(1) not later than 3 years after the date of enactment of this Act, a report including the results of the study conducted under subsection (a)(1) and recommendations made under subsection (a)(2); and

(2) not later than 6 years after that date of enactment, an update of such report.

SEC. 109. FEDERAL AGENCY EXPENDITURES FOR THE SBIR PROGRAM.

Section 9(i) of the Small Business Act (15 U.S.C. 638(i)) is amended—

(1) by striking ''(i) Each Federal'' and inserting the following:

''(i) ANNUAL REPORTING.—

''(1) IN GENERAL.—Each Federal''; and

(2) by adding at the end the following:

''(2) CALCULATION OF EXTRAMURAL BUDGET.—

''(A) METHODOLOGY.—Not later than 4 months after the date of enactment of each appropriations Act for a Federal agency required by this section to have an SBIR program, the Federal agency shall submit to the Administrator a report, which shall include a description of the methodology used for calculating the amount of the extramural budget of that Federal agency.

''(B) ADMINISTRATOR'S ANALYSIS.—The Administrator shall include an analysis of the methodology received from each Federal agency referred to in subparagraph (A) in the report required by subsection (b)(7).''.

SEC. 110. POLICY DIRECTIVE MODIFICATIONS.

Section 9(j) of the Small Business Act (15 U.S.C. 638(j)) is amended by adding at the end the following:

''(3) ADDITIONAL MODIFICATIONS.—Not later than 120 days after the date of enactment of the Small Business Innovation Research Program Reauthorization Act of 2000, the Administrator shall modify the policy directives issued pursuant to this subsection—

''(A) to clarify that the rights provided for under paragraph (2)(A) apply to all Federal funding awards under this section, including the first phase (as described in subsection (e)(4)(A)), the second phase (as described in subsection (e)(4)(B)), and the third phase (as described in subsection (e)(4)(C));

''(B) to provide for the requirement of a succinct commercialization plan with each application for a second phase award that is moving toward commercialization;

''(C) to require agencies to report to the Administration, not less frequently than annually, all instances in which an agency pursued research, development, or production of a technology developed by a small business concern using an award made under the SBIR program of that agency, and determined that it was not practicable to enter into a follow-on non-SBIR program funding agreement with the small business concern, which report shall include, at a minimum—

''(i) the reasons why the follow-on funding agreement with the small business concern was not practicable;

''(ii) the identity of the entity with which the agency contracted to perform the research, development, or production; and

''(iii) a description of the type of funding agreement under which the research, development, or production was obtained; and

''(D) to implement subsection (v), including establishing standardized procedures for the provision of information pursuant to subsection (k)(3).''.

SEC. 111. FEDERAL AND STATE TECHNOLOGY PARTNERSHIP PROGRAM.

(a) FINDINGS.—Congress finds that—

(1) programs to foster economic development among small high-technology firms vary widely among the States;

(2) States that do not aggressively support the development of small high-technology firms, including participation by small business concerns in the SBIR program, are at a competitive disadvantage in establishing a business climate that is conducive to technology development; and

(3) building stronger national, State, and local support for science and technology research in these disadvantaged States will expand economic opportunities in the United States, create jobs, and increase the competitiveness of the United States in the world market.

(b) FEDERAL AND STATE TECHNOLOGY PARTNERSHIP PROGRAM.—The Small Business Act (15 U.S.C. 631 et seq.) is amended—

(1) by redesignating section 34 as section 37; and

(2) by inserting after section 33 the following:

''SEC. 34. FEDERAL AND STATE TECHNOLOGY PARTNERSHIP PROGRAM.

''(a) DEFINITIONS.—In this section and section 35, the following definitions apply:

''(1) APPLICANT.—The term 'applicant' means an entity, organization, or individual that submits a proposal for an award or a cooperative agreement under this section.

''(2) BUSINESS ADVICE AND COUNSELING.—The term 'business advice and counseling' means providing advice and assistance on matters described in section 35(c)(2)(B) to small business concerns to guide them through the SBIR and STTR program process, from application to award and successful completion of each phase of the program.

''(3) FAST PROGRAM.—The term 'FAST program' means the Federal and State Technology Partnership Program established under this section.

''(4) MENTOR.—The term 'mentor' means an individual described in section 35(c)(2).

''(5) MENTORING NETWORK.—The term 'Mentoring Network' means an association, organization, coalition, or other entity (including an individual) that meets the requirements of section 35(c).

''(6) RECIPIENT.—The term 'recipient' means a person that receives an award or becomes party to a cooperative agreement under this section.

''(7) SBIR PROGRAM.—The term 'SBIR program' has the same meaning as in section 9(e)(4).

''(8) STATE.—The term 'State' means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.

''(9) STTR PROGRAM.—The term 'STTR program' has the same meaning as in section 9(e)(6).

''(b) ESTABLISHMENT OF PROGRAM.—The Administrator shall establish a program to be known as the Federal and State Technology Partnership Program, the purpose of which shall be to strengthen the technological competitiveness of small business concerns in the States.

''(c) GRANTS AND COOPERATIVE AGREEMENTS.—

''(1) JOINT REVIEW.—In carrying out the FAST program under this section, the Administrator and the SBIR program managers at the National Science Foundation and the Department of Defense shall jointly review proposals submitted by applicants and may make awards or enter into cooperative agreements under this section based on the factors for consideration set forth in paragraph (2), in order to enhance or develop in a State—

''(A) technology research and development by small business concerns;

''(B) technology transfer from university research to technology-based small business concerns;

''(C) technology deployment and diffusion benefiting small business concerns;

''(D) the technological capabilities of small business concerns through the establishment or operation of consortia comprised of entities, organizations, or individuals, including—

''(i) State and local development agencies and entities;

''(ii) representatives of technology-based small business concerns;

''(iii) industries and emerging companies;

''(iv) universities; and

''(v) small business development centers; and

''(E) outreach, financial support, and technical assistance to technology-based small business concerns participating in or interested in participating in an SBIR program, including initiatives—

''(i) to make grants or loans to companies to pay a portion or all of the cost of developing SBIR proposals;

''(ii) to establish or operate a Mentoring Network within the FAST program to provide business advice and counseling that will assist small business concerns that have been identified by FAST program participants, program managers of participating SBIR agencies, the Administration, or other entities that are knowledgeable about the SBIR and STTR programs as good candidates for the SBIR and STTR programs, and that would benefit from mentoring, in accordance with section 35;

''(iii) to create or participate in a training program for individuals providing SBIR outreach and assistance at the State and local levels; and

''(iv) to encourage the commercialization of technology developed through SBIR program funding.

''(2) SELECTION CONSIDERATIONS.—In making awards or entering into cooperative agreements under this section, the Administrator and the SBIR program managers referred to in paragraph (1)—

''(A) may only consider proposals by applicants that intend to use a portion of the Federal assistance provided under this section to provide outreach, financial support, or technical assistance to technology-based small business concerns participating in or interested in participating in the SBIR program; and

''(B) shall consider, at a minimum—

''(i) whether the applicant has demonstrated that the assistance to be provided would address unmet needs of small business concerns in the community, and whether it is important to use Federal funding for the proposed activities;

''(ii) whether the applicant has demonstrated that a need exists to increase the number or success of small high-technology businesses in the State, as measured by the number of first phase and second phase SBIR awards that have historically been received by small business concerns in the State;

''(iii) whether the projected costs of the proposed activities are reasonable;

''(iv) whether the proposal integrates and coordinates the proposed activities with other State and local programs assisting small high-technology firms in the State; and

''(v) the manner in which the applicant will measure the results of the activities to be conducted.

''(3) PROPOSAL LIMIT.—Not more than 1 proposal may be submitted for inclusion in the FAST program under this section to provide services in any one State in any 1 fiscal year.

''(4) PROCESS.—Proposals and applications for assistance under this section shall be in such form and subject to such procedures as the Administrator shall establish.

''(d) COOPERATION AND COORDINATION.—In carrying out the FAST program under this section, the Administrator shall cooperate and coordinate with—

''(1) Federal agencies required by section 9 to have an SBIR program; and

''(2) entities, organizations, and individuals actively engaged in enhancing or developing the technological capabilities of small business concerns, including—

''(A) State and local development agencies and entities;

''(B) State committees established under the Experimental Program to Stimulate Competitive Research of the National Science Foundation (as established under section 113 of the National Science Foundation Authorization Act of 1988 (42 U.S.C. 1862g));

''(C) State science and technology councils; and

''(D) representatives of technology-based small business concerns.

''(e) ADMINISTRATIVE REQUIREMENTS.—

''(1) COMPETITIVE BASIS.—Awards and cooperative agreements under this section shall be made or entered into, as applicable, on a competitive basis.

''(2) MATCHING REQUIREMENTS.—

''(A) IN GENERAL.—The non-Federal share of the cost of an activity (other than a planning activity) carried out using an award or under a cooperative agreement under this section shall be—

''(i) 50 cents for each Federal dollar, in the case of a recipient that will serve small business concerns located in one of the 18 States receiving the fewest SBIR first phase awards (as described in section 9(e)(4)(A));

''(ii) except as provided in subparagraph (B), 1 dollar for each Federal dollar, in the case of a recipient that will serve small business concerns located in one of the 16 States receiving the greatest number of such SBIR first phase awards; and

''(iii) except as provided in subparagraph (B), 75 cents for each Federal dollar, in the case of a recipient that will serve small business concerns located in a State that is not described in clause (i) or (ii) that is receiving such SBIR first phase awards.

''(B) LOW-INCOME AREAS.—The non-Federal share of the cost of the activity carried out using an award or under a cooperative agreement under this section shall be 50 cents for each Federal dollar that will be directly allocated by a recipient described in subparagraph (A) to serve small business concerns located in a qualified census tract, as that term is defined in section 42(d)(5)(C)(ii) of the Internal Revenue Code of 1986. Federal dollars not so allocated by that recipient shall be subject to the matching requirements of subparagraph (A).

''(C) TYPES OF FUNDING.—The non-Federal share of the cost of an activity carried out by a recipient shall be comprised of not less than 50 percent cash and not more than 50 percent of indirect costs and in-kind contributions, except that no such costs or contributions may be derived from funds from any other Federal program.

''(D) RANKINGS.—For purposes of subparagraph (A), the Administrator shall reevaluate the ranking of a State once every 2 fiscal years, beginning with fiscal year 2001, based on the most recent statistics compiled by the Administrator.

''(3) DURATION.—Awards may be made or cooperative agreements entered into under this section for multiple years, not to exceed 5 years in total.

''(f) REPORTS.—

''(1) INITIAL REPORT.—Not later than 120 days after the date of enactment of the Small Business Innovation Research Program Reauthorization Act of 2000, the Administrator shall prepare and submit to the Committee on Small Business of the Senate and the Committee on Science and the Committee on Small Business of the House of Representatives a report, which shall include, with respect to the FAST program, including Mentoring Networks—

''(A) a description of the structure and procedures of the program;

''(B) a management plan for the program; and

''(C) a description of the merit-based review process to be used in the program.

''(2) ANNUAL REPORTS.—The Administrator shall submit an annual report to the Committee on Small Business of the Senate and the Committee on Science and the Committee on Small Business of the House of Representatives regarding—

''(A) the number and amount of awards provided and cooperative agreements entered into under the FAST program during the preceding year;

''(B) a list of recipients under this section, including their location and the activities being performed with the awards made or under the cooperative agreements entered into; and

''(C) the Mentoring Networks and the mentoring database, as provided for under section 35, including—

''(i) the status of the inclusion of mentoring information in the database required by section 9(k); and

''(ii) the status of the implementation and description of the usage of the Mentoring Networks.

''(g) REVIEWS BY INSPECTOR GENERAL.—

''(1) IN GENERAL.—The Inspector General of the Administration shall conduct a review of—

''(A) the extent to which recipients under the FAST program are measuring the performance of the activities being conducted and the results of such measurements; and

''(B) the overall management and effectiveness of the FAST program.

''(2) REPORT.—During the first quarter of fiscal year 2004, the Inspector General of the Administration shall submit a report to the Committee on Small Business of the Senate and the Committee on Science and the Committee on Small Business of the House of Representatives on the review conducted under paragraph (1).

''(h) PROGRAM LEVELS.—

''(1) IN GENERAL.—There is authorized to be appropriated to carry out the FAST program, including Mentoring Networks, under this section and section 35, $10,000,000 for each of fiscal years 2001 through 2005.

''(2) MENTORING DATABASE.—Of the total amount made available under paragraph (1) for fiscal years 2001 through 2005, a reasonable amount, not to exceed a total of $500,000, may be used by the Administration to carry out section 35(d).

''(i) TERMINATION.—The authority to carry out the FAST program under this section shall terminate on September 30, 2005.''.

(c) COORDINATION OF TECHNOLOGY DEVELOPMENT PROGRAMS.—Section 9 of the Small Business Act (15 U.S.C. 638) is amended by adding at the end the following:

''(u) COORDINATION OF TECHNOLOGY DEVELOPMENT PROGRAMS.—

''(1) DEFINITION OF TECHNOLOGY DEVELOPMENT PROGRAM.—In this subsection, the term 'technology development program' means—

''(A) the Experimental Program to Stimulate Competitive Research of the National Science Foundation, as established under section 113 of the National Science Foundation Authorization Act of 1988 (42 U.S.C. 1862g);

''(B) the Defense Experimental Program to Stimulate Competitive Research of the Department of Defense;

''(C) the Experimental Program to Stimulate Competitive Research of the Department of Energy;

''(D) the Experimental Program to Stimulate Competitive Research of the Environmental Protection Agency;

''(E) the Experimental Program to Stimulate Competitive Research of the National Aeronautics and Space Administration;

''(F) the Institutional Development Award Program of the National Institutes of Health; and

''(G) the National Research Initiative Competitive Grants Program of the Department of Agriculture.

''(2) COORDINATION REQUIREMENTS.—Each Federal agency that is subject to subsection (f) and that has established a technology development program may, in each fiscal year, review for funding under that technology development program—

''(A) any proposal to provide outreach and assistance to 1 or more small business concerns interested in participating in the SBIR

program, including any proposal to make a grant or loan to a company to pay a portion or all of the cost of developing an SBIR proposal, from an entity, organization, or individual located in—

''(i) a State that is eligible to participate in that program; or

''(ii) a State described in paragraph (3); or

''(B) any proposal for the first phase of the SBIR program, if the proposal, though meritorious, is not funded through the SBIR program for that fiscal year due to funding restraints, from a small business concern located in—

''(i) a State that is eligible to participate in a technology development program; or

''(ii) a State described in paragraph (3).

''(3) ADDITIONALLY ELIGIBLE STATE.—A State referred to in subparagraph (A)(ii) or (B)(ii) of paragraph (2) is a State in which the total value of contracts awarded to small business concerns under all SBIR programs is less than the total value of contracts awarded to small business concerns in a majority of other States, as determined by the Administrator in biennial fiscal years, beginning with fiscal year 2000, based on the most recent statistics compiled by the Administrator.''.

SEC. 112. MENTORING NETWORKS.

The Small Business Act (15 U.S.C. 631 et seq.) is amended by inserting after section 34, as added by section 111(b)(2) of this Act, the following:

''SEC. 35. MENTORING NETWORKS.

''(a) FINDINGS.—Congress finds that—

''(1) the SBIR and STTR programs create jobs, increase capacity for technological innovation, and boost international competitiveness;

''(2) increasing the quantity of applications from all States to the SBIR and STTR programs would enhance competition for such awards and the quality of the completed projects; and

''(3) mentoring is a natural complement to the FAST program of reaching out to new companies regarding the SBIR and STTR programs as an effective and low-cost way to improve the likelihood that such companies will succeed in such programs in developing and commercializing their research.

''(b) AUTHORIZATION FOR MENTORING NETWORKS.—The recipient of an award or participant in a cooperative agreement under section 34 may use a reasonable amount of such assistance for the establishment of a Mentoring Network under this section.

''(c) CRITERIA FOR MENTORING NETWORKS.—A Mentoring Network established using assistance under section 34 shall—

''(1) provide business advice and counseling to high technology small business concerns located in the State or region served by the Mentoring Network and identified under section 34(c)(1)(E)(ii) as potential candidates for the SBIR or STTR programs;

''(2) identify volunteer mentors who—

''(A) are persons associated with a small business concern that has successfully completed one or more SBIR or STTR funding agreements; and

''(B) have agreed to guide small business concerns through all stages of the SBIR or STTR program process, including providing assistance relating to—

''(i) proposal writing;

''(ii) marketing;

''(iii) Government accounting;

''(iv) Government audits;

''(v) project facilities and equipment;

''(vi) human resources;

''(vii) third phase partners;

''(viii) commercialization;

''(ix) venture capital networking; and

''(x) other matters relevant to the SBIR and STTR programs;

''(3) have experience working with small business concerns participating in the SBIR and STTR programs;

''(4) contribute information to the national database referred to in subsection (d); and

''(5) agree to reimburse volunteer mentors for out-of-pocket expenses related to service as a mentor under this section.

''(d) MENTORING DATABASE.—The Administrator shall—

''(1) include in the database required by section 9(k)(1), in cooperation with the SBIR, STTR, and FAST programs, information on Mentoring Networks and mentors participating under this section, including a description of their areas of expertise;

''(2) work cooperatively with Mentoring Networks to maintain and update the database;

''(3) take such action as may be necessary to aggressively promote Mentoring Networks under this section; and

''(4) fulfill the requirements of this subsection either directly or by contract.''.

SEC. 113. SIMPLIFIED REPORTING REQUIREMENTS.

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this Act, is further amended by adding at the end the following:

''(v) SIMPLIFIED REPORTING REQUIREMENTS.—The Administrator shall work with the Federal agencies required by this section to have an SBIR program to standardize reporting requirements for the collection of data from SBIR applicants and awardees, including data for inclusion in the database under subsection (k), taking into consideration the unique needs of each agency, and to the extent possible, permitting the updating of previously reported information by electronic means. Such requirements shall be designed to minimize the burden on small businesses.''.

SEC. 114. RURAL OUTREACH PROGRAM EXTENSION.

(a) EXTENSION OF TERMINATION DATE.—Section 501(b)(2) of the Small Business Reauthorization Act of 1997 (15 U.S.C. 638 note; 111 Stat. 2622) is amended by striking ''2001'' and inserting ''2005''.

(b) EXTENSION OF AUTHORIZATION OF APPROPRIATIONS.—Section 9(s)(2) of the Small Business Act (15 U.S.C. 638(s)(2)) is amended by striking ''for fiscal year 1998, 1999, 2000, or 2001'' and inserting ''for each of the fiscal years 2000 through 2005,''.

TITLE II—GENERAL BUSINESS LOAN PROGRAM

SEC. 201. SHORT TITLE.

This title may be cited as the ''Small Business General Business Loan Improvement Act of 2000''.

SEC. 202. LEVELS OF PARTICIPATION.

Section 7(a)(2)(A) of the Small Business Act (15 U.S.C. 636(a)(2)(A)) is amended—

(1) in paragraph (i) by striking ''$100,000'' and inserting ''$150,000''; and

(2) in paragraph (ii)—

(A) by striking ''80 percent'' and inserting ''85 percent''; and

(B) by striking ''$100,000'' and inserting ''$150,000''.

SEC. 203. LOAN AMOUNTS.

Section 7(a)(3)(A) of the Small Business Act (15 U.S.C. 636(a)(3)(A)) is amended by striking ''$750,000,'' and inserting, ''$1,000,000 (or if the gross loan amount would exceed $2,000,000),''.

SEC. 204. INTEREST ON DEFAULTED LOANS.

Section 7(a)(4)(B) of the Small Business Act (15 U.S.C. 636(a)(4)(B)) is amended by adding at the end the following:

''(iii) APPLICABILITY.—Clauses (i) and (ii) shall not apply to loans made on or after October 1, 2000.''.

SEC. 205. PREPAYMENT OF LOANS.

Section 7(a)(4) of the Small Business Act (15 U.S.C. 636(a)(4)) is further amended—

(1) by striking ''(4) INTEREST RATES AND FEES.—'' and inserting ''(4) INTEREST RATES AND PREPAYMENT CHARGES.—''; and

(2) by adding at the end the following:

''(C) PREPAYMENT CHARGES.—

''(i) IN GENERAL.—A borrower who prepays any loan guaranteed under this subsection shall remit to the Administration a subsidy recoupment fee calculated in accordance with clause (ii) if—

''(I) the loan is for a term of not less than 15 years;

''(II) the prepayment is voluntary;

''(III) the amount of prepayment in any calendar year is more than 25 percent of the outstanding balance of the loan; and

''(IV) the prepayment is made within the first 3 years after disbursement of the loan proceeds.

''(ii) SUBSIDY RECOUPMENT FEE.—The subsidy recoupment fee charged under clause (i) shall be—

''(I) 5 percent of the amount of prepayment, if the borrower prepays during the first year after disbursement;

''(II) 3 percent of the amount of prepayment, if the borrower prepays during the second year after disbursement; and

''(III) 1 percent of the amount of prepayment, if the borrower prepays during the third year after disbursement.''.

SEC. 206. GUARANTEE FEES.

Section 7(a)(18) of the Small Business Act (15 U.S.C. 636(a)(18)) is amended to read as follows:

''(18) GUARANTEE FEES.—

''(A) IN GENERAL.—With respect to each loan guaranteed under this subsection (other than a loan that is repayable in 1 year or less), the Administration shall collect a guarantee fee, which shall be payable by the participating lender, and may be charged to the borrower, as follows:

''(i) A guarantee fee equal to 2 percent of the deferred participation share of a total loan amount that is not more than $150,000.

''(ii) A guarantee fee equal to 3 percent of the deferred participation share of a total loan amount that is more than $150,000, but less than $700,000.

''(iii) A guarantee fee equal to 3.5 percent of the deferred participation share of a total loan amount that is more than $700,000.

''(B) RETENTION OF CERTAIN FEES.—Lenders participating in the programs established under this subsection may retain not more than 25 percent of a fee collected under subparagraph (A)(i).''.

SEC. 207. LEASE TERMS.

Section 7(a) of the Small Business Act (15 U.S.C. 636(a)) is further amended by adding at the end the following:

''(28) LEASING.—In addition to such other lease arrangements as may be authorized by the Administration, a borrower may permanently lease to one or more tenants not more than 20 percent of any property constructed with the proceeds of a loan guaranteed under this subsection, if the borrower permanently occupies and uses not less than 60 percent of the total business space in the property.''.

SEC. 208. MICROLOAN PROGRAM.

(a) IN GENERAL.—Section 7(m) of the Small Business Act (15 U.S.C. 636(m)) is amended—

(1) in paragraphs (1)(B)(iii) and (3)(E), by striking ''$25,000'' each place it appears and inserting ''$35,000'';

(2) in paragraphs (1)(A)(iii)(I), (3)(A)(ii), and (4)(C)(i)(II), by striking ''$7,500'' each place it appears and inserting ''$10,000'';

(3) in paragraph (1)(B)(i), by striking ''short-term,'';

(4) in paragraph (2)(B), by inserting before the period '', or equivalent experience, as determined by the Administration'';

(5) in paragraph (3)(E), by striking ''$15,000'' and inserting ''$20,000'';

(6) in paragraph (4)(E)—

(A) by striking clause (i) and inserting the following:

''(i) IN GENERAL.—Each intermediary may expend the grant funds received under the program authorized by this subsection to provide or arrange for loan technical assistance to small business concerns that are borrowers or prospective borrowers under this subsection.''; and

(B) in clause (ii), by striking ''25'' and inserting ''35'';

(7) in paragraph (5)(A)—

(A) by striking ''25 grants'' and inserting ''55 grants''; and

(B) by striking ''$125,000'' and inserting ''$200,000'';

(8) in paragraph (6)(B), by striking ''$10,000'' and inserting ''$15,000'';

(9) in paragraph (7), by striking subparagraph (A) and inserting the following:

''(A) NUMBER OF PARTICIPANTS.—Under the program authorized by this subsection, the Administration may fund, on a competitive basis, not more than—

''(i) 250 intermediaries in fiscal year 2001;

''(ii) 300 intermediaries in fiscal year 2002; and

''(iii) 350 intermediaries in fiscal year 2003.''; and

(10) in paragraph (9), by adding at the end the following:

''(D) PEER-TO-PEER CAPACITY BUILDING AND TRAINING.—The Administrator may use not more than $1,000,000 of the annual appropriation to the Administration for technical assistance grants to subcontract with 1 or more national trade associations of eligible intermediaries under this subsection to provide peer-to-peer capacity building and training to lenders under this subsection and organizations seeking to become lenders under this subsection.''.

(b) CONFORMING AMENDMENTS.—Section 7(n)(11)(B) of the Small Business Act (15 U.S.C. 636(n)(11)(B)) is amended—

(1) by striking ''$25,000'' and inserting ''$35,000''; and

(2) by striking ''short-term,''.

TITLE III—CERTIFIED DEVELOPMENT COMPANY PROGRAM

SEC. 301. SHORT TITLE.

This title may be cited as the ''Certified Development Company Program Improvements Act of 2000''.

SEC. 302. WOMEN-OWNED BUSINESSES.

Section 501(d)(3)(C) of the Small Business Investment Act of 1958 (15 U.S.C. 695(d)(3)(C)) is amended by inserting before the comma ''or women-owned business development''.

SEC. 303. MAXIMUM DEBENTURE SIZE.

Section 502(2) of the Small Business Investment Act of 1958 (15 U.S.C. 696(2)) is amended to read as follows:

''(2) Loans made by the Administration under this section shall be limited to $1,000,000 for each such identifiable small business concern, except loans meeting the criteria specified in section 501(d)(3), which shall be limited to $1,300,000 for each such identifiable small business concern.''.

SEC. 304. FEES.

Section 503(f) of the Small Business Investment Act of 1958 (15 U.S.C. 697(f)) is amended to read as follows:

''(f) EFFECTIVE DATE.—The fees authorized by subsections (b) and (d) shall apply to financings approved by the Administration on or after October 1, 1996, but shall not apply to financings approved by the Administration on or after October 1, 2003.''.

SEC. 305. PREMIER CERTIFIED LENDERS PROGRAM.

Section 217(b) of the Small Business Administration Reauthorization and Amendments Act of 1994 (Public Law 103–403, 15 U.S.C. 697 note) (relating to section 508 of the Small Business Investment Act of 1958) is repealed.

SEC. 306. SALE OF CERTAIN DEFAULTED LOANS.

Section 508 of the Small Business Investment Act of 1958 (15 U.S.C. 697e) is amended—

(1) in subsection (a), by striking ''On a pilot program basis, the'' and inserting ''The'';

(2) by redesignating subsections (d) through (i) as subsections (e) through (j), respectively;

(3) in subsection (f) (as redesignated by paragraph (2)), by striking ''subsection (f)'' and inserting ''subsection (g)'';

(4) in subsection (h) (as redesignated by paragraph (2)), by striking ''subsection (f)'' and inserting ''subsection (g)''; and

(5) by inserting after subsection (c) the following:

''(d) SALE OF CERTAIN DEFAULTED LOANS.—

''(1) NOTICE.—If, upon default in repayment, the Administration acquires a loan guaranteed under this section and identifies such loan for inclusion in a bulk asset sale of defaulted or repurchased loans or other financings, it shall give prior notice thereof to any certified development company which has a contingent liability under this section. The notice shall be given to the company as soon as possible after the financing is identified, but not less than 90 days before the date the Administration first makes any records on such financing available for examination by prospective purchasers prior to its offering in a package of loans for bulk sale.

''(2) LIMITATIONS.—The Administration shall not offer any loan described in paragraph (1) as part of a bulk sale unless it—

''(A) provides prospective purchasers with the opportunity to examine the Administration's records with respect to such loan; and

''(B) provides the notice required by paragraph (1).''.

SEC. 307. LOAN LIQUIDATION.

(a) LIQUIDATION AND FORECLOSURE.—Title V of the Small Business Investment Act of 1958 (15 U.S.C. 695 et seq.) is amended by adding at the end the following:

''SEC. 510. FORECLOSURE AND LIQUIDATION OF LOANS.

''(a) DELEGATION OF AUTHORITY.—In accordance with this section, the Administration shall delegate to any qualified State or local development company (as defined in section 503(e)) that meets the eligibility requirements of subsection (b)(1) the authority to foreclose and liquidate, or to otherwise treat in accordance with this section, defaulted loans in its portfolio that are funded with the proceeds of debentures guaranteed by the Administration under section 503.

''(b) ELIGIBILITY FOR DELEGATION.—

''(1) REQUIREMENTS.—A qualified State or local development company shall be eligible for a delegation of authority under subsection (a) if—

''(A) the company—

''(i) has participated in the loan liquidation pilot program established by the Small Business Programs Improvement Act of 1996 (15 U.S.C. 695 note), as in effect on the day before promulgation of final regulations by the Administration implementing this section;

''(ii) is participating in the Premier Certified Lenders Program under section 508; or

''(iii) during the 3 fiscal years immediately prior to seeking such a delegation, has made an average of not less than 10 loans per year that are funded with the proceeds of debentures guaranteed under section 503; and

''(B) the company—

''(i) has one or more employees—

''(I) with not less than 2 years of substantive, decision-making experience in administering the liquidation and workout of problem loans secured in a manner substantially similar to loans funded with the proceeds of debentures guaranteed under section 503; and

''(II) who have completed a training program on loan liquidation developed by the Administration in conjunction with qualified State and local development companies that meet the requirements of this paragraph; or

''(ii) submits to the Administration documentation demonstrating that the company has contracted with a qualified third-party to perform any liquidation activities and secures the approval of the contract by the Administration with respect to the qualifications of the contractor and the terms and conditions of liquidation activities.

''(2) CONFIRMATION.—On request the Administration shall examine the qualifications of any company described in subsection (a) to determine if such company is eligible for the delegation of authority under this section. If the Administration determines that a company is not eligible, the Administration shall provide the company with the reasons for such ineligibility.

''(c) SCOPE OF DELEGATED AUTHORITY.—

''(1) IN GENERAL.—Each qualified State or local development company to which the Administration delegates authority under section (a) may with respect to any loan described in subsection (a)—

''(A) perform all liquidation and foreclosure functions, including the purchase in accordance with this subsection of any other indebtedness secured by the property securing the loan, in a reasonable and sound manner according to commercially accepted practices, pursuant to a liquidation plan approved in advance by the Administration under paragraph (2)(A);

''(B) litigate any matter relating to the performance of the functions described in subparagraph (A), except that the Administration may—

''(i) defend or bring any claim if—

''(I) the outcome of the litigation may adversely affect the Administration's management of the loan program established under section 502; or

''(II) the Administration is entitled to legal remedies not available to a qualified State or local development company and such remedies will benefit either the Administration or the qualified State or local development company; or

''(ii) oversee the conduct of any such litigation; and

''(C) take other appropriate actions to mitigate loan losses in lieu of total liquidation or foreclosures, including the restructuring of a loan in accordance with prudent loan servicing practices and pursuant to a workout plan approved in advance by the Administration under paragraph (2)(C).

''(2) ADMINISTRATION APPROVAL.—

''(A) LIQUIDATION PLAN.—

''(i) IN GENERAL.—Before carrying out functions described in paragraph (1)(A), a qualified State or local development company shall submit to the Administration a proposed liquidation plan.

''(ii) ADMINISTRATION ACTION ON PLAN.—

''(I) TIMING.—Not later than 15 business days after a liquidation plan is received by the Administration under clause (i), the Administration shall approve or reject the plan.

''(II) NOTICE OF NO DECISION.—With respect to any plan that cannot be approved or denied within the 15-day period required by subclause (I), the Administration shall within such period provide in accordance with subparagraph (E) notice to the company that submitted the plan.

''(iii) ROUTINE ACTIONS.—In carrying out functions described in paragraph (1)(A), a qualified State or local development company may undertake routine actions not addressed in a liquidation plan without obtaining additional approval from the Administration.

''(B) PURCHASE OF INDEBTEDNESS.—

''(i) IN GENERAL.—In carrying out functions described in paragraph (1)(A), a qualified State or local development company shall submit to the Administration a request for written approval before committing the Administration to the purchase of any other indebtedness secured by the property securing a defaulted loan.

''(ii) ADMINISTRATION ACTION ON REQUEST.—

''(I) TIMING.—Not later than 15 business days after receiving a request under clause (i), the Administration shall approve or deny the request.

''(II) NOTICE OF NO DECISION.—With respect to any request that cannot be approved or denied within the 15-day period required by subclause (I), the Administration shall within such period provide in accordance with subparagraph (E) notice to the company that submitted the request.

''(C) WORKOUT PLAN.—

''(i) IN GENERAL.—In carrying out functions described in paragraph (1)(C), a qualified State or local development company shall submit to the Administration a proposed workout plan.

''(ii) ADMINISTRATION ACTION ON PLAN.—

''(I) TIMING.—Not later than 15 business days after a workout plan is received by the Administration under clause (i), the Administration shall approve or reject the plan.

''(II) NOTICE OF NO DECISION.—With respect to any workout plan that cannot be approved or denied within the 15-day period required by subclause (I), the Administration shall within such period provide in accordance with subparagraph (E) notice to the company that submitted the plan.

''(D) COMPROMISE OF INDEBTEDNESS.—In carrying out functions described in paragraph (1)(A), a qualified State or local development company may—

''(i) consider an offer made by an obligor to compromise the debt for less than the full amount owing; and

''(ii) pursuant to such an offer, release any obligor or other party contingently liable, if the company secures the written approval of the Administration.

''(E) CONTENTS OF NOTICE OF NO DECISION.—Any notice provided by the Administration under subparagraphs (A)(ii)(II), (B)(ii)(II), or (C)(ii)(II)—

''(i) shall be in writing;

''(ii) shall state the specific reason for the Administration's inability to act on a plan or request;

''(iii) shall include an estimate of the additional time required by the Administration to act on the plan or request; and

''(iv) if the Administration cannot act because insufficient information or documentation was provided by the company submitting the plan or request, shall specify the nature of such additional information or documentation.

''(3) CONFLICT OF INTEREST.—In carrying out functions described in paragraph (1), a qualified State or local development company shall take no action that would result in an actual or apparent conflict of interest between the company (or any employee of the company) and any third party lender, associate of a third party lender, or any other person participating in a liquidation, foreclosure, or loss mitigation action.

''(d) SUSPENSION OR REVOCATION OF AUTHORITY.—The Administration may revoke or suspend a delegation of authority under this section to any qualified State or local development company, if the Administration determines that the company—

''(1) does not meet the requirements of subsection (b)(1);

''(2) has violated any applicable rule or regulation of the Administration or any other applicable law; or

''(3) fails to comply with any reporting requirement that may be established by the Administration relating to carrying out of functions described in paragraph (1).

''(e) REPORT.—

''(1) IN GENERAL.—Based on information provided by qualified State and local development companies and the Administration, the Administration shall annually submit to the Committees on Small Business of the House of Representatives and of the Senate a report on the results of delegation of authority under this section.

''(2) CONTENTS.—Each report submitted under paragraph (1) shall include the following information:

''(A) With respect to each loan foreclosed or liquidated by a qualified State or local development company under this section, or for which losses were otherwise mitigated by the company pursuant to a workout plan under this section—

''(i) the total cost of the project financed with the loan;

''(ii) the total original dollar amount guaranteed by the Administration;

''(iii) the total dollar amount of the loan at the time of liquidation, foreclosure, or mitigation of loss;

''(iv) the total dollar losses resulting from the liquidation, foreclosure, or mitigation of loss; and

''(v) the total recoveries resulting from the liquidation, foreclosure, or mitigation of loss, both as a percentage of the amount guaranteed and the total cost of the project financed.

''(B) With respect to each qualified State or local development company to which authority is delegated under this section, the totals of each of the amounts described in clauses (i) through (v) of subparagraph (A).

''(C) With respect to all loans subject to foreclosure, liquidation, or mitigation under this section, the totals of each of the amounts described in clauses (i) through (v) of subparagraph (A).

''(D) A comparison between—

''(i) the information provided under subparagraph (C) with respect to the 12-month period preceding the date on which the report is submitted; and

''(ii) the same information with respect to loans foreclosed and liquidated, or otherwise treated, by the Administration during the same period.

''(E) The number of times that the Administration has failed to approve or reject a liquidation plan in accordance with subparagraph (A)(i), a workout plan in accordance with subparagraph (C)(i), or to approve or deny a request for purchase of indebtedness under subparagraph (B)(i), including specific information regarding the reasons for the Administration's failure and any delays that resulted.''.

(b) REGULATIONS.—

(1) IN GENERAL.—Not later than 150 days after the date of enactment of this Act, the Administrator shall issue such regulations as may be necessary to carry out section 510 of the Small Business Investment Act of 1958, as added by subsection (a) of this section.

(2) TERMINATION OF PILOT PROGRAM.—Beginning on the date on which final regulations are issued under paragraph (1), section 204 of the Small Business Programs Improvement Act of 1996 (15 U.S.C. 695 note) shall cease to have effect.

TITLE IV—CORRECTIONS TO THE SMALL BUSINESS INVESTMENT ACT OF 1958

SEC. 401. SHORT TITLE.

This title may be cited as the ''Small Business Investment Corrections Act of 2000''.

SEC. 402. DEFINITIONS.

(a) SMALL BUSINESS CONCERN.—Section 103(5)(A)(i) of the Small Business Investment Act of 1958 (15 U.S.C. 662(5)(A)(i)) is amended by inserting before the semicolon at the end the following: ''regardless of the allocation of control during the investment period under any investment agreement between the business concern and the entity making the investment''.

(b) LONG TERM.—Section 103 of the Small Business Investment Act of 1958 (15 U.S.C. 662) is amended—

(1) in paragraph (15), by striking ''and'' at the end;

(2) in paragraph (16), by striking the period at the end and inserting ''; and''; and

(3) by adding at the end the following:

''(17) the term 'long term', when used in connection with equity capital or loan funds invested in any small business concern or smaller enterprise, means any period of time not less than 1 year.''.

SEC. 403. INVESTMENT IN SMALL BUSINESS INVESTMENT COMPANIES.

Section 302(b) of the Small Business Investment Act of 1958 (15 U.S.C. 682(b)) is amended—

(1) by striking ''(b) Notwithstanding'' and inserting the following:

''(b) FINANCIAL INSTITUTION INVESTMENTS.—

''(1) CERTAIN BANKS.—Notwithstanding''; and

(2) by adding at the end the following:

''(2) CERTAIN SAVINGS ASSOCIATIONS.—Notwithstanding any other provision of law, any Federal savings association may invest in any 1 or more small business investment companies, or in any entity established to invest solely in small business investment companies, except that in no event may the total amount of such investments by any such Federal savings association exceed 5 percent of the capital and surplus of the Federal savings association.''.

SEC. 404. SUBSIDY FEES.

(a) DEBENTURES.—Section 303(b) of the Small Business Investment Act of 1958 (15 U.S.C. 683(b)) is amended by striking ''plus an additional charge of 1 percent per annum which shall be paid to and retained by the Administration'' and inserting ''plus, for debentures issued after September 30, 2000, an additional charge, in an amount established annually by the Administration, of not more than 1 percent per year as necessary to reduce to zero the cost (as defined in section

502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a)) to the Administration of purchasing and guaranteeing debentures under this Act, which shall be paid to and retained by the Administration''.

(b) PARTICIPATING SECURITIES.—Section 303(g)(2) of the Small Business Investment Act of 1958 (15 U.S.C. 683(g)(2)) is amended by striking ''plus an additional charge of 1 percent per annum which shall be paid to and retained by the Administration'' and inserting ''plus, for participating securities issued after September 30, 2000, an additional charge, in an amount established annually by the Administration, of not more than 1 percent per year as necessary to reduce to zero the cost (as defined in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a)) to the Administration of purchasing and guaranteeing participating securities under this Act, which shall be paid to and retained by the Administration''.

SEC. 405. DISTRIBUTIONS.

Section 303(g)(8) of the Small Business Investment Act of 1958 (15 U.S.C. 683(g)(8)) is amended—

(1) by striking ''subchapter s corporation'' and inserting ''subchapter S corporation'';

(2) by striking ''the end of any calendar quarter based on a quarterly'' and inserting ''any time during any calendar quarter based on an''; and

(3) by striking ''quarterly distributions for a calendar year,'' and inserting ''interim distributions for a calendar year,''.

SEC. 406. CONFORMING AMENDMENT.

Section 310(c)(4) of the Small Business Investment Act of 1958 (15 U.S.C. 687b(c)(4)) is amended by striking ''five years'' and inserting ''1 year''.

TITLE V—REAUTHORIZATION OF SMALL BUSINESS PROGRAMS

SEC. 501. SHORT TITLE.

This title may be cited as the ''Small Business Programs Reauthorization Act of 2000''.

SEC. 502. REAUTHORIZATION OF SMALL BUSINESS PROGRAMS.

Section 20 of the Small Business Act (15 U.S.C. 631 note) is amended by adding at the end the following:

''(g) FISCAL YEAR 2001.—

''(1) PROGRAM LEVELS.—The following program levels are authorized for fiscal year 2001:

''(A) For the programs authorized by this Act, the Administration is authorized to make—

''(i) $45,000,000 in technical assistance grants as provided in section 7(m); and

''(ii) $60,000,000 in direct loans, as provided in 7(m).

''(B) For the programs authorized by this Act, the Administration is authorized to make $19,050,000,000 in deferred participation loans and other financings. Of such sum, the Administration is authorized to make—

''(i) $14,500,000,000 in general business loans as provided in section 7(a);

''(ii) $4,000,000,000 in financings as provided in section 7(a)(13) of this Act and section 504 of the Small Business Investment Act of 1958;

''(iii) $500,000,000 in loans as provided in section 7(a)(21); and

''(iv) $50,000,000 in loans as provided in section 7(m).

''(C) For the programs authorized by title III of the Small Business Investment Act of 1958, the Administration is authorized to make—

''(i) $2,500,000,000 in purchases of participating securities; and

''(ii) $1,500,000,000 in guarantees of debentures.

''(D) For the programs authorized by part B of title IV of the Small Business Investment Act of 1958, the Administration is authorized to enter into guarantees not to exceed $4,000,000,000 of which not more than 50 percent may be in bonds approved pursuant to section 411(a)(3) of that Act.

''(E) The Administration is authorized to make grants or enter cooperative agreements for a total amount of $5,000,000 for the Service Corps of Retired Executives program authorized by section 8(b)(1).

''(2) ADDITIONAL AUTHORIZATIONS.—

''(A) There are authorized to be appropriated to the Administration for fiscal year 2001 such sums as may be necessary to carry out the provisions of this Act not elsewhere provided for, including administrative expenses and necessary loan capital for disaster loans pursuant to section 7(b), and to carry out title IV of the Small Business Investment Act of 1958, including salaries and expenses of the Administration.

''(B) Notwithstanding any other provision of this paragraph, for fiscal year 2001—

''(i) no funds are authorized to be used as loan capital for the loan program authorized by section 7(a)(21) except by transfer from another Federal department or agency to the Administration, unless the program level authorized for general business loans under paragraph (1)(B)(i) is fully funded; and

''(ii) the Administration may not approve loans on its own behalf or on behalf of any other Federal department or agency, by contract or otherwise, under terms and conditions other than those specifically authorized under this Act or the Small Business Investment Act of 1958, except that it may approve loans under section 7(a)(21) of this Act in gross amounts of not more than $1,250,000.

''(h) FISCAL YEAR 2002.—

''(1) PROGRAM LEVELS.—The following program levels are authorized for fiscal year 2002:

''(A) For the programs authorized by this Act, the Administration is authorized to make—

''(i) $60,000,000 in technical assistance grants as provided in section 7(m); and

''(ii) $80,000,000 in direct loans, as provided in 7(m).

''(B) For the programs authorized by this Act, the Administration is authorized to make $20,050,000,000 in deferred participation loans and other financings. Of such sum, the Administration is authorized to make—

''(i) $15,000,000,000 in general business loans as provided in section 7(a);

''(ii) $4,500,000,000 in financings as provided in section 7(a)(13) of this Act and section 504 of the Small Business Investment Act of 1958;

''(iii) $500,000,000 in loans as provided in section 7(a)(21); and

''(iv) $50,000,000 in loans as provided in section 7(m).

''(C) For the programs authorized by title III of the Small Business Investment Act of 1958, the Administration is authorized to make—

''(i) $3,500,000,000 in purchases of participating securities; and

''(ii) $2,500,000,000 in guarantees of debentures.

''(D) For the programs authorized by part B of title IV of the Small Business Investment Act of 1958, the Administration is authorized to enter into guarantees not to exceed $5,000,000,000 of which not more than 50 percent may be in bonds approved pursuant to section 411(a)(3) of that Act.

''(E) The Administration is authorized to make grants or enter cooperative agreements for a total amount of $6,000,000 for the Service Corps of Retired Executives program authorized by section 8(b)(1).

''(2) ADDITIONAL AUTHORIZATIONS.—

''(A) There are authorized to be appropriated to the Administration for fiscal year 2002 such sums as may be necessary to carry out the provisions of this Act not elsewhere provided for, including administrative expenses and necessary loan capital for disaster loans pursuant to section 7(b), and to carry out title IV of the Small Business Investment Act of 1958, including salaries and expenses of the Administration.

''(B) Notwithstanding any other provision of this paragraph, for fiscal year 2002—

''(i) no funds are authorized to be used as loan capital for the loan program authorized by section 7(a)(21) except by transfer from another Federal department or agency to the Administration, unless the program level authorized for general business loans under paragraph (1)(B)(i) is fully funded; and

''(ii) the Administration may not approve loans on its own behalf or on behalf of any other Federal department or agency, by contract or otherwise, under terms and conditions other than those specifically authorized under this Act or the Small Business Investment Act of 1958, except that it may approve loans under section 7(a)(21) of this Act in gross amounts of not more than $1,250,000.

''(i) FISCAL YEAR 2003.—

''(1) PROGRAM LEVELS.—The following program levels are authorized for fiscal year 2003:

''(A) For the programs authorized by this Act, the Administration is authorized to make—

''(i) $70,000,000 in technical assistance grants as provided in section 7(m); and

''(ii) $100,000,000 in direct loans, as provided in 7(m).

''(B) For the programs authorized by this Act, the Administration is authorized to make $21,550,000,000 in deferred participation loans and other financings. Of such sum, the Administration is authorized to make—

''(i) $16,000,000,000 in general business loans as provided in section 7(a);

''(ii) $5,000,000,000 in financings as provided in section 7(a)(13) of this Act and section 504 of the Small Business Investment Act of 1958;

''(iii) $500,000,000 in loans as provided in section 7(a)(21); and

''(iv) $50,000,000 in loans as provided in section 7(m).

''(C) For the programs authorized by title III of the Small Business Investment Act of 1958, the Administration is authorized to make—

''(i) $4,000,000,000 in purchases of participating securities; and

''(ii) $3,000,000,000 in guarantees of debentures.

''(D) For the programs authorized by part B of title IV of the Small Business Investment Act of 1958, the Administration is authorized to enter into guarantees not to exceed $6,000,000,000 of which not more than 50 percent may be in bonds approved pursuant to section 411(a)(3) of that Act.

''(E) The Administration is authorized to make grants or enter into cooperative agreements for a total amount of $7,000,000 for the Service Corps of Retired Executives program authorized by section 8(b)(1).

''(2) ADDITIONAL AUTHORIZATIONS.—

''(A) There are authorized to be appropriated to the Administration for fiscal year 2003 such sums as may be necessary to carry out the provisions of this Act not elsewhere

provided for, including administrative expenses and necessary loan capital for disaster loans pursuant to section 7(b), and to carry out title IV of the Small Business Investment Act of 1958, including salaries and expenses of the Administration.

''(B) Notwithstanding any other provision of this paragraph, for fiscal year 2003—

''(i) no funds are authorized to be used as loan capital for the loan program authorized by section 7(a)(21) except by transfer from another Federal department or agency to the Administration, unless the program level authorized for general business loans under paragraph (1)(B)(i) is fully funded; and

''(ii) the Administration may not approve loans on its own behalf or on behalf of any other Federal department or agency, by contract or otherwise, under terms and conditions other than those specifically authorized under this Act or the Small Business Investment Act of 1958, except that it may approve loans under section 7(a)(21) of this Act in gross amounts of not more than $1,250,000.''.

SEC. 503. ADDITIONAL REAUTHORIZATIONS.

(a) DRUG-FREE WORKPLACE PROGRAM.—Section 27 of the Small Business Act (15 U.S.C. 654) is amended—

(1) in the section heading, by striking ''**DRUG-FREE WORKPLACE DEMONSTRATION PROGRAM**'' and inserting ''**PAUL D. COVERDELL DRUG-FREE WORKPLACE PROGRAM**''; and

(2) in subsection (g)(1), by striking ''$10,000,000 for fiscal years 1999 and 2000'' and inserting ''$5,000,000 for each of fiscal years 2001 through 2003''.

(b) HUBZONE PROGRAM.—Section 31 of the Small Business Act (15 U.S.C. 657a) is amended by adding at the end the following:

''(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the program established by this section $10,000,000 for each of fiscal years 2001 through 2003.''.

(c) WOMEN'S BUSINESS ENTERPRISE DEVELOPMENT PROGRAMS.—Section 411 of the Women's Business Ownership Act (Public Law 105–135; 15 U.S.C. 631 note) is amended by striking ''$600,000, for each of fiscal years 1998 through 2000,'' and inserting ''$1,000,000 for each of fiscal years 2001 through 2003,''.

(d) VERY SMALL BUSINESS CONCERNS PROGRAM.—Section 304(i) of the Small Business Administration Reauthorization and Amendments Act of 1994 (Public Law 103–403; 15 U.S.C. 644 note) is amended by striking ''September 30, 2000'' and inserting ''September 30, 2003''.

(e) SOCIALLY AND ECONOMICALLY DISADVANTAGED BUSINESSES PROGRAM.—Section 7102(c) of the Federal Acquisition Streamlining Act of 1994 (Public Law 103–355; 15 U.S.C. 644 note) is amended by striking ''September 30, 2000'' and inserting ''September 30, 2003''.

(f) SBDC SERVICES.—Section 21(c)(3)(T) of the Small Business Act (15 U.S.C. 648(c)(3)(T)) is amended by striking ''2000'' and inserting ''2003''.

SEC. 504. COSPONSORSHIP.

(a) IN GENERAL.—Section 8(b)(1)(A) of the Small Business Act (15 U.S.C. 637(b)(1)(A)) is amended to read as follows:

''(1)(A) to provide—

''(i) technical, managerial, and informational aids to small business concerns—

''(I) by advising and counseling on matters in connection with Government procurement and policies, principles, and practices of good management;

''(II) by cooperating and advising with—

''(aa) voluntary business, professional, educational, and other nonprofit organizations, associations, and institutions (except that the Administration shall take such actions as it determines necessary to ensure that such cooperation does not constitute or imply an endorsement by the Administration of the organization or its products or services, and shall ensure that it receives appropriate recognition in all printed materials); and

''(bb) other Federal and State agencies;

''(III) by maintaining a clearinghouse for information on managing, financing, and operating small business enterprises; and

''(IV) by disseminating such information, including through recognition events, and by other activities that the Administration determines to be appropriate; and

''(ii) through cooperation with a profit-making concern (referred to in this paragraph as a 'cosponsor'), training, information, and education to small business concerns, except that the Administration shall—

''(I) take such actions as it determines to be appropriate to ensure that—

''(aa) the Administration receives appropriate recognition and publicity;

''(bb) the cooperation does not constitute or imply an endorsement by the Administration of any product or service of the cosponsor;

''(cc) unnecessary promotion of the products or services of the cosponsor is avoided; and

''(dd) utilization of any 1 cosponsor in a marketing area is minimized; and

''(II) develop an agreement, executed on behalf of the Administration by an employee of the Administration in Washington, the District of Columbia, that provides, at a minimum, that—

''(aa) any printed material to announce the cosponsorship or to be distributed at the cosponsored activity, shall be approved in advance by the Administration;

''(bb) the terms and conditions of the cooperation shall be specified;

''(cc) only minimal charges may be imposed on any small business concern to cover the direct costs of providing the assistance;

''(dd) the Administration may provide to the cosponsorship mailing labels, but not lists of names and addresses of small business concerns compiled by the Administration;

''(ee) all printed materials containing the names of both the Administration and the cosponsor shall include a prominent disclaimer that the cooperation does not constitute or imply an endorsement by the Administration of any product or service of the cosponsor; and

''(ff) the Administration shall ensure that it receives appropriate recognition in all cosponsorship printed materials.''.

(b) EXTENSION OF COSPONSORSHIP AUTHORITY.—Section 401(a)(2) of the Small Business Administration Reauthorization and Amendments Act of 1994 (15 U.S.C. 637 note) is amended by striking ''September 30, 2000'' and inserting ''September 30, 2003''.

TITLE VI—HUBZONE PROGRAM

Subtitle A—HUBZones in Native America

SEC. 601. SHORT TITLE.

This subtitle may be cited as the ''HUBZones in Native America Act of 2000''.

SEC. 602. HUBZONE SMALL BUSINESS CONCERN.

Section 3(p)(3) of the Small Business Act (15 U.S.C. 632(p)(3)) is amended to read as follows:

''(3) HUBZONE SMALL BUSINESS CONCERN.—The term 'HUBZone small business concern' means—

''(A) a small business concern that is owned and controlled by 1 or more persons, each of whom is a United States citizen;

''(B) a small business concern that is—

''(i) an Alaska Native Corporation owned and controlled by Natives (as determined pursuant to section 29(e)(1) of the Alaska Native Claims Settlement Act (43 U.S.C. 1626(e)(1))); or

''(ii) a direct or indirect subsidiary corporation, joint venture, or partnership of an Alaska Native Corporation qualifying pursuant to section 29(e)(1) of the Alaska Native Claims Settlement Act (43 U.S.C. 1626(e)(1)), if that subsidiary, joint venture, or partnership is owned and controlled by Natives (as determined pursuant to section 29(e)(2)) of the Alaska Native Claims Settlement Act (43 U.S.C. 1626(e)(2))); or

''(C) a small business concern—

''(i) that is wholly owned by 1 or more Indian tribal governments, or by a corporation that is wholly owned by 1 or more Indian tribal governments; or

''(ii) that is owned in part by 1 or more Indian tribal governments, or by a corporation that is wholly owned by 1 or more Indian tribal governments, if all other owners are either United States citizens or small business concerns.''.

SEC. 603. QUALIFIED HUBZONE SMALL BUSINESS CONCERN.

(a) IN GENERAL.—Section 3(p)(5)(A)(i) of the Small Business Act (15 U.S.C. 632(p)(5)(A)(i)) is amended by striking subclauses (I) and (II) and inserting the following:

''(I) it is a HUBZone small business concern—

''(aa) pursuant to subparagraph (A) or (B) of paragraph (3), and that its principal office is located in a HUBZone and not fewer than 35 percent of its employees reside in a HUBZone; or

''(bb) pursuant to paragraph (3)(C), and not fewer than 35 percent of its employees engaged in performing a contract awarded to the small business concern on the basis of a preference provided under section 31(b) reside within any Indian reservation governed by 1 or more of the tribal government owners, or reside within any HUBZone adjoining any such Indian reservation;

''(II) the small business concern will attempt to maintain the applicable employment percentage under subclause (I) during the performance of any contract awarded to the small business concern on the basis of a preference provided under section 31(b); and''.

(b) HUBZONE PILOT PROGRAM FOR SPARSELY POPULATED AREAS.—Section 3(p)(5) of the Small Business Act (15 U.S.C. 632(p)(5)) is amended by adding at the end the following:

''(E) HUBZONE PILOT PROGRAM FOR SPARSELY POPULATED AREAS.—

''(i) IN GENERAL.—Notwithstanding subparagraph (A)(i)(I)(aa), during the period beginning on the date of enactment of the Small Business Reauthorization Act of 2000 and ending on September 30, 2003, a small business concern, the principal office of which is located in the State of Alaska, an Alaska Native Corporation under paragraph (3)(B)(i), or a direct or indirect subsidiary, joint venture, or partnership under paragraph (3)(B)(ii) shall be considered to be a qualified HUBZone small business concern if—

''(I) its principal office is located within a HUBZone within the State of Alaska;

''(II) not fewer than 35 percent of its employees who will be engaged in performing a

contract awarded to it on the basis of a preference provided under section 31(b) will perform their work in any HUBZone located within the State of Alaska; or

''(III) not fewer than 35 percent of its employees reside in a HUBZone located within the State of Alaska or in any Alaska Native Village within the State of Alaska.

''(ii) EXCEPTION.—

''(I) IN GENERAL.—Clause (i) shall not apply in any fiscal year following a fiscal year in which the total amount of contract dollars awarded in furtherance of the contracting goals established under section 15(g)(1) to small business concerns located within the State of Alaska is equal to more than 2 percent of the total amount of such contract dollars awarded to all small business concerns nationally, based on data from the Federal Procurement Data System.

''(II) LIMITATION.—Subclause (I) shall not be construed to disqualify a HUBZone small business concern from performing a contract awarded to it on the basis of a preference provided under section 31(b), if such concern was qualified under clause (i) at the time at which the contract was awarded.''.

(c) CLARIFYING AMENDMENT.—Section 3(p)(5)(D)(i) of the Small Business Act (15 U.S.C. 632(p)(5)(D)(i)) is amended by inserting ''once the Administrator has made the certification required by subparagraph (A)(i) regarding a qualified HUBZone small business concern and has determined that subparagraph (A)(ii) does not apply to that concern,'' before ''include''.

SEC. 604. OTHER DEFINITIONS.

Section 3(p) of the Small Business Act (15 U.S.C. 632(p)) is amended by adding at the end the following:

''(6) NATIVE AMERICAN SMALL BUSINESS CONCERNS.—

''(A) ALASKA NATIVE CORPORATION.—The term 'Alaska Native Corporation' has the same meaning as the term 'Native Corporation' in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602).

''(B) ALASKA NATIVE VILLAGE.—The term 'Alaska Native Village' has the same meaning as the term 'Native village' in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602).

''(C) INDIAN RESERVATION.—The term 'Indian reservation'—

''(i) has the same meaning as the term 'Indian country' in section 1151 of title 18, United States Code, except that such term does not include—

''(I) any lands that are located within a State in which a tribe did not exercise governmental jurisdiction on the date of enactment of this paragraph, unless that tribe is recognized after that date of enactment by either an Act of Congress or pursuant to regulations of the Secretary of the Interior for the administrative recognition that an Indian group exists as an Indian tribe (part 83 of title 25, Code of Federal Regulations); and

''(II) lands taken into trust or acquired by an Indian tribe after the date of enactment of this paragraph if such lands are not located within the external boundaries of an Indian reservation or former reservation or are not contiguous to the lands held in trust or restricted status on that date of enactment; and

''(ii) in the State of Oklahoma, means lands that—

''(I) are within the jurisdictional areas of an Oklahoma Indian tribe (as determined by the Secretary of the Interior); and

''(II) are recognized by the Secretary of the Interior as eligible for trust land status under part 151 of title 25, Code of Federal Regulations (as in effect on the date of enactment of this paragraph).''.

Subtitle B—Other HUBZone Provisions

SEC. 611. DEFINITIONS.

(a) QUALIFIED CENSUS TRACT.—Section 3(p)(4)(A) of the Small Business Act (15 U.S.C. 632(p)(4)(A)) is amended by striking ''(I)''.

(b) QUALIFIED NONMETROPOLITAN COUNTY.—Section 3(p)(4) of the Small Business Act (15 U.S.C. 632(p)(4)) is amended by striking subparagraph (B) and inserting the following:

''(B) QUALIFIED NONMETROPOLITAN COUNTY.—The term 'qualified nonmetropolitan county' means any county—

''(i) that was not located in a metropolitan statistical area (as defined in section 143(k)(2)(B) of the Internal Revenue Code of 1986) at the time of the most recent census taken for purposes of selecting qualified census tracts under section 42(d)(5)(C)(ii) of the Internal Revenue Code of 1986; and

''(ii) in which—

''(I) the median household income is less than 80 percent of the nonmetropolitan State median household income, based on the most recent data available from the Bureau of the Census of the Department of Commerce; or

''(II) the unemployment rate is not less than 140 percent of the Statewide average unemployment rate for the State in which the county is located, based on the most recent data available from the Secretary of Labor.''.

SEC. 612. ELIGIBLE CONTRACTS.

(a) COMMODITIES CONTRACTS.—Section 31(b) of the Small Business Act (15 U.S.C. 657a(b)) is amended—

(1) in paragraph (3)—

(A) by striking ''In any'' and inserting the following:

''(A) IN GENERAL.—Subject to subparagraph (B), in any''; and

(B) by adding at the end the following:

''(B) PROCUREMENT OF COMMODITIES.—For purchases by the Secretary of Agriculture of agricultural commodities, the price evaluation preference shall be—

''(i) 10 percent, for the portion of a contract to be awarded that is not greater than 25 percent of the total volume being procured for each commodity in a single invitation;

''(ii) 5 percent, for the portion of a contract to be awarded that is greater than 25 percent, but not greater than 40 percent, of the total volume being procured for each commodity in a single invitation; and

''(iii) zero, for the portion of a contract to be awarded that is greater than 40 percent of the total volume being procured for each commodity in a single invitation.''; and

(2) in paragraph (4), by striking ''paragraph (2) or (3)'' and inserting ''this subsection''.

(b) DEFINITIONS.—Section 3(p) of the Small Business Act (15 U.S.C. 632(p)), as amended by this Act, is amended—

(1) in paragraph (5)(A)(i)(III)—

(A) in item (aa), by striking ''and'' at the end; and

(B) by adding at the end the following:

''(cc) in the case of a contract for the procurement by the Secretary of Agriculture of agricultural commodities, none of the commodity being procured will be obtained by the prime contractor through a subcontract for the purchase of the commodity in substantially the final form in which it is to be supplied to the Government; and''; and

(2) by adding at the end the following:

''(7) AGRICULTURAL COMMODITY.—The term 'agricultural commodity' has the same meaning as in section 102 of the Agricultural Trade Act of 1978 (7 U.S.C. 5602).''.

SEC. 613. HUBZONE REDESIGNATED AREAS.

Section 3(p) of the Small Business Act (15 U.S.C. 632(p)) is amended—

(1) in paragraph (1)—

(A) in subparagraph (B), by striking ''or'' at the end;

(B) in subparagraph (C), by striking the period at the end and inserting ''; or''; and

(C) by adding at the end the following:

''(D) redesignated areas.''; and

(2) in paragraph (4), by adding at the end the following:

''(C) REDESIGNATED AREA.—The term 'redesignated area' means any census tract that ceases to be qualified under subparagraph (A) and any nonmetropolitan county that ceases to be qualified under subparagraph (B), except that a census tract or a nonmetropolitan county may be a 'redesignated area' only for the 3-year period following the date on which the census tract or nonmetropolitan county ceased to be so qualified.''.

SEC. 614. COMMUNITY DEVELOPMENT.

Section 3(p) of the Small Business Act (15 U.S.C. 632(p)), as amended by this Act, is amended—

(1) in paragraph (3)—

(A) in subparagraph (B), by striking ''or'' at the end;

(B) in subparagraph (C), by striking the period at the end and inserting ''; or''; and

(C) by adding at the end the following:

''(D) a small business concern that is—

''(i) wholly owned by a community development corporation that has received financial assistance under Part 1 of Subchapter A of the Community Economic Development Act of 1981 (42 U.S.C. 9805 et seq.); or

''(ii) owned in part by 1 or more community development corporations, if all other owners are either United States citizens or small business concerns.''; and

(2) in paragraph (5)(A)(i)(I)(aa), by striking ''subparagraph (A) or (B)'' and inserting ''subparagraph (A), (B), or (D)''.

SEC. 615. REFERENCE CORRECTIONS.

(a) SECTION 3.—Section 3(p)(5)(C) of the Small Business Act (15 U.S.C. 632(p)(5)(C)) is amended by striking ''subclause (IV) and (V) of subparagraph (A)(i)'' and inserting ''items (aa) and (bb) of subparagraph (A)(i)(III)''.

(b) SECTION 8.—Section 8(d)(4)(D) of the Small Business Act (15 U.S.C. 637(d)(4)(D)) is amended by inserting ''qualified HUBZone small business concerns,'' after ''small business concerns,''.

TITLE VII—NATIONAL WOMEN'S BUSINESS COUNCIL REAUTHORIZATION

SEC. 701. SHORT TITLE.

This title may be cited as the ''National Women's Business Council Reauthorization Act of 2000''.

SEC. 702. DUTIES OF THE COUNCIL.

Section 406 of the Women's Business Ownership Act of 1988 (15 U.S.C. 631 note) is amended to read as follows:

''SEC. 406. DUTIES OF THE COUNCIL.

''(a) IN GENERAL.—The Council shall—

''(1) provide advice and counsel to the President and to the Congress on economic matters of importance to women business owners;

''(2) promote initiatives designed to increase access to capital and to markets, training and technical assistance, research, resources, and leadership opportunities for and about women business owners;

''(3) provide a source of information and a catalyst for action to support women's business development;

''(4) promote the implementation of the policy agenda, initiatives and recommendations issued at Summit '98, the National Women's Economic Forum;

''(5) review, coordinate, and monitor plans and programs developed in the public and private sectors that affect the ability of women-owned small business concerns to obtain capital and credit;

''(6) work with—

''(A) the Federal agencies for the purpose of assisting them in meeting the 5 percent women's procurement goal established under section 15(g) of the Small Business Act; and

''(B) the private sector in increasing contracting opportunities for women-owned small business concerns;

''(7) promote and assist in the development of a women's business census and other statistical surveys of women-owned small business concerns;

''(8) support new and ongoing research on women-owned small business concerns;

''(9) monitor and promote the plans, programs, and operations of the departments and agencies of the Federal Government that may contribute to the establishment and growth of women's business enterprise;

''(10) develop and promote new initiatives, policies, programs, and plans designed to foster women's business enterprise; and

''(11) advise and consult with State and local leaders to develop and implement programs and policies that promote women's business ownership.

''(b) INTERACTION WITH THE INTERAGENCY COMMITTEE ON WOMEN'S BUSINESS ENTERPRISE.—The Council shall—

''(1) advise the Interagency Committee on Women's Business Enterprise (in this section referred to as the 'Committee') on matters relating to the activities, functions, and policies of the Committee, as provided in this title; and

''(2) meet jointly with the Committee at the discretion of the chairperson of the Council and the chairperson of the Committee, but not less frequently than biannually.

''(c) MEETINGS.—The Council shall meet separately at such times as the Council deems necessary. A majority of the members of the Council shall constitute a quorum for the approval of recommendations or reports issued pursuant to this section.

''(d) RECOMMENDATIONS AND REPORTS .—

''(1) IN GENERAL.—Not later than 90 days after the last day of each fiscal year, the Council shall—

''(A) make recommendations for consideration by the Committee; and

''(B) submit a report to the President, the Committee, the Administrator, the Committee on Small Business of the Senate, and the Committee on Small Business of the House of Representatives, as described in paragraph (2).

''(2) CONTENTS OF REPORTS.—The reports required by paragraph (1) shall contain—

''(A) a detailed description of the activities of the Council during the preceding fiscal year, including a status report on the progress of the Council toward meeting its duties under subsections (a);

''(B) the findings, conclusions, and recommendations of the Council; and

''(C) the recommendations of the Council for such legislation and administrative actions as the Council considers to be appropriate to promote the development of small business concerns owned and controlled by women.

''(e) SEPARATE SUBMISSIONS.—The Administrator shall submit any additional, concurring, or dissenting views or recommendations to the President, the Committee, and the Congress separately from any recommendations or report submitted by the Council under this section.''.

SEC. 703. MEMBERSHIP OF THE COUNCIL.

Section 407 of the Women's Business Ownership Act of 1988 (15 U.S.C. 631 note) is amended—

(1) in subsection (a), by striking ''Not later'' and all that follows through ''the President'' and inserting ''The President'';

(2) in subsection (b)—

(A) by striking ''Not later'' and all that follows through ''the Administrator'' and inserting ''The Administrator''; and

(B) by striking ''the Assistant Administrator of the Office of Women's Business Ownership and'';

(3) in subsection (d), by striking '', except that'' and all that follows through the end of the subsection and inserting a period; and

(4) in subsection (h), by striking ''Not later'' and all that follows through ''the Administrator'' and inserting ''The Administrator''.

SEC. 704. REPEAL OF PROCUREMENT PROJECT; STATE AND LOCAL ECONOMIC NETWORKS.

Section 409 of the Women's Business Ownership Act of 1988 (15 U.S.C. 631 note) is amended to read as follows:

''SEC. 409. STATE AND LOCAL ECONOMIC NETWORKS.

''The Council shall work with State and local officials and business leaders to develop the infrastructure for women's business enterprise for the purpose of increasing women's effectiveness in shaping the economic agendas of their States and communities.''.

SEC. 705. STUDIES AND OTHER RESEARCH.

Section 410 of the Women's Business Ownership Act of 1988 (15 U.S.C. 631 note) is amended to read as follows:

''SEC. 410. STUDIES, OTHER RESEARCH, AND ISSUE INITIATIVES.

''(a) IN GENERAL.—

''(1) AUTHORITY.—The Council may, as it determines to be appropriate, conduct such studies, research, and issue initiatives relating to—

''(A) the award of Federal, State, local, and private sector prime contracts and subcontracts to women-owned businesses; and

''(B) access to credit and investment capital by women entrepreneurs and business development assistance programs, including the identification of best practices.

''(2) PURPOSES.—Studies, research, and issue initiatives may be conducted under paragraph (1) for purposes including—

''(A) identification of several focused outreach initiatives in nontraditional industry sectors for the purpose of increasing contract awards to women in those areas;

''(B) supporting the growth and proliferation of programs designed to prepare women to successfully access the equity capital markets;

''(C) continuing to identify and report on financial best practices that have worked to increase credit and capital availability to women business owners; and

''(D) working with Women's Business Centers to develop programs and coordinate activities.

''(b) CONTRACT AUTHORITY.—In conducting any study or other research under this section, the Council may contract with 1 or more public or private entities.''.

SEC. 706. AUTHORIZATION OF APPROPRIATIONS.

Section 411 of the Women's Business Ownership Act of 1988 (15 U.S.C. 631 note) is amended to read as follows:

''SEC. 411. AUTHORIZATION OF APPROPRIATIONS.

''(a) IN GENERAL.—There is authorized to be appropriated to carry out this title $1,000,000, for each of fiscal years 2001 through 2003, of which $550,000 shall be available in each such fiscal year to carry out sections 409 and 410.

''(b) BUDGET REVIEW.—No amount made available under this section for any fiscal year may be obligated or expended by the Council before the date on which the Council reviews and approves the operating budget of the Council to carry out the responsibilities of the Council for that fiscal year.''.

TITLE VIII—MISCELLANEOUS PROVISIONS

SEC. 801. LOAN APPLICATION PROCESSING.

(a) STUDY.—The Administrator of the Small Business Administration shall conduct a study to determine the average time that the Administration requires to process an application for each type of loan or loan guarantee made under the Small Business Act (15 U.S.C. 631 et seq.).

(b) TRANSMITTAL.—Not later than 1 year after the date of enactment of this Act, the Administrator shall transmit to Congress the results of the study conducted under subsection (a).

SEC. 802. APPLICATION OF OWNERSHIP REQUIREMENTS.

(a) SMALL BUSINESS ACT.—Section 7(a) of the Small Business Act (15 U.S.C. 636(a)) is amended by adding at the end the following:

''(29) OWNERSHIP REQUIREMENTS.—Ownership requirements to determine the eligibility of a small business concern that applies for assistance under any credit program under this Act shall be determined without regard to any ownership interest of a spouse arising solely from the application of the community property laws of a State for purposes of determining marital interests.''.

(b) SMALL BUSINESS INVESTMENT ACT OF 1958.—Section 502 of the Small Business Investment Act of 1958 (15 U.S.C. 696) is amended by adding at the end the following:

''(6) OWNERSHIP REQUIREMENTS.—Ownership requirements to determine the eligibility of a small business concern that applies for assistance under any credit program under this title shall be determined without regard to any ownership interest of a spouse arising solely from the application of the community property laws of a State for purposes of determining marital interests.''.

SEC. 803. SUBCONTRACTING PREFERENCE FOR VETERANS.

Section 8(d) of the Small Business Act (15 U.S.C. 637(d)) is amended—

(1) in paragraph (1), by inserting ''small business concerns owned and controlled by veterans,'' after ''small business concerns,'' the first place that term appears in each of the first and second sentences;

(2) in paragraph (3)—

(A) in subparagraph (A), by inserting ''small business concerns owned and controlled by service-disabled veterans,'' after ''small business concerns owned and controlled by veterans,'' in each of the first and second sentences; and

(B) in subparagraph (F), by inserting ''small business concern owned and controlled by service-disabled veterans,'' after ''small business concern owned and controlled by veterans,''; and

(3) in each of paragraphs (4)(D), (4)(E), (6)(A), (6)(C), (6)(F), and (10)(B), by inserting ''small business concerns owned and controlled by service-disabled veterans,'' after ''small business concerns owned and controlled by veterans,''.

SEC. 804. SMALL BUSINESS DEVELOPMENT CENTER PROGRAM FUNDING.

(a) AUTHORIZATION.—

(1) IN GENERAL.—Section 20(a)(1) of the Small Business Act (15 U.S.C. 631 note) is

amended by striking ''For fiscal year 1985'' and all that follows through ''expended.'' and inserting the following: ''For fiscal year 2000 and each fiscal year thereafter, there are authorized to be appropriated such sums as may be necessary and appropriate, to remain available until expended, and to be available solely—

''(A) to carry out the Small Business Development Center Program under section 21, but not to exceed the annual funding level, as specified in section 21(a);

''(B) to pay the expenses of the National Small Business Development Center Advisory Board, as provided in section 21(i);

''(C) to pay the expenses of the information sharing system, as provided in section 21(c)(8);

''(D) to pay the expenses of the association referred to in section 21(a)(3)(A) for conducting the certification program, as provided in section 21(k)(2); and

''(E) to pay the expenses of the Administration, including salaries of examiners, for conducting examinations as part of the certification program conducted by the association referred to in section 21(a)(3)(A).''.

(2) TECHNICAL AMENDMENT.—Section 20(a) of the Small Business Act (15 U.S.C. 631 note) is amended by moving the margins of paragraphs (3) and (4), including subparagraphs (A) and (B) of paragraph (4), 2 ems to the left.

(b) FUNDING FORMULA.—Section 21(a)(4)(C) of the Small Business Act (15 U.S.C. 648(a)(4)(C)) is amended to read as follows:

''(C) FUNDING FORMULA.—

''(i) IN GENERAL.—Subject to clause (iii), the amount of a formula grant received by a State under this subparagraph shall be equal to an amount determined in accordance with the following formula:

''(I) The annual amount made available under section 20(a) for the Small Business Development Center Program, less any reductions made for expenses authorized by clause (v) of this subparagraph, shall be divided on a pro rata basis, based on the percentage of the population of each State, as compared to the population of the United States.

''(II) If the pro rata amount calculated under subclause (I) for any State is less than the minimum funding level under clause (iii), the Administration shall determine the aggregate amount necessary to achieve that minimum funding level for each such State.

''(III) The aggregate amount calculated under subclause (II) shall be deducted from the amount calculated under subclause (I) for States eligible to receive more than the minimum funding level. The deductions shall be made on a pro rata basis, based on the population of each such State, as compared to the total population of all such States.

''(IV) The aggregate amount deducted under subclause (III) shall be added to the grants of those States that are not eligible to receive more than the minimum funding level in order to achieve the minimum funding level for each such State, except that the eligible amount of a grant to any State shall not be reduced to an amount below the minimum funding level.

''(ii) GRANT DETERMINATION.—The amount of a grant that a State is eligible to apply for under this subparagraph shall be the amount determined under clause (i), subject to any modifications required under clause (iii), and shall be based on the amount available for the fiscal year in which performance of the grant commences, but not including amounts distributed in accordance with clause (iv). The amount of a grant received by a State under any provision of this subparagraph shall not exceed the amount of matching funds from sources other than the Federal Government, as required under subparagraph (A).

''(iii) MINIMUM FUNDING LEVEL.—The amount of the minimum funding level for each State shall be determined for each fiscal year based on the amount made available for that fiscal year to carry out this section, as follows:

''(I) If the amount made available is not less than $81,500,000 and not more than $90,000,000, the minimum funding level shall be $500,000.

''(II) If the amount made available is less than $81,500,000, the minimum funding level shall be the remainder of $500,000 minus a percentage of $500,000 equal to the percentage amount by which the amount made available is less than $81,500,000.

''(III) If the amount made available is more than $90,000,000, the minimum funding level shall be the sum of $500,000 plus a percentage of $500,000 equal to the percentage amount by which the amount made available exceeds $90,000,000.

''(iv) DISTRIBUTIONS.—Subject to clause (iii), if any State does not apply for, or use, its full funding eligibility for a fiscal year, the Administration shall distribute the remaining funds as follows:

''(I) If the grant to any State is less than the amount received by that State in fiscal year 2000, the Administration shall distribute such remaining funds, on a pro rata basis, based on the percentage of shortage of each such State, as compared to the total amount of such remaining funds available, to the extent necessary in order to increase the amount of the grant to the amount received by that State in fiscal year 2000, or until such funds are exhausted, whichever first occurs.

''(II) If any funds remain after the application of subclause (I), the remaining amount may be distributed as supplemental grants to any State, as the Administration determines, in its discretion, to be appropriate, after consultation with the association referred to in subsection (a)(3)(A).

''(v) USE OF AMOUNTS.—

''(I) IN GENERAL.—Of the amounts made available in any fiscal year to carry out this section—

''(aa) not more than $500,000 may be used by the Administration to pay expenses enumerated in subparagraphs (B) through (D) of section 20(a)(1); and

''(bb) not more than $500,000 may be used by the Administration to pay the examination expenses enumerated in section 20(a)(1)(E).

''(II) LIMITATION.—No funds described in subclause (I) may be used for examination expenses under section 20(a)(1)(E) if the usage would reduce the amount of grants made available under clause (i)(I) of this subparagraph to less than $85,000,000 (after excluding any amounts provided in appropriations Acts for specific institutions or for purposes other than the general small business development center program) or would further reduce the amount of such grants below such amount.

''(vi) EXCLUSIONS.—Grants provided to a State by the Administration or another Federal agency to carry out subsection (a)(6) or (c)(3)(G), or for supplemental grants set forth in clause (iv)(II) of this subparagraph, shall not be included in the calculation of maximum funding for a State under clause (ii) of this subparagraph.

''(vii) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this subparagraph $125,000,000 for each of fiscal years 2001, 2002, and 2003.

''(viii) STATE DEFINED.—In this subparagraph, the term 'State' means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.''.

SEC. 805. SURETY BONDS.

(a) CONTRACT AMOUNTS.—Section 411 of the Small Business Investment Act of 1958 (15 U.S.C. 694b) is amended—

(1) in subsection (a)(1), by striking ''$1,250,000'' and inserting ''$2,000,000''; and

(2) in subsection (e)(2), by striking ''$1,250,000'' and inserting ''$2,000,000''.

(b) EXTENSION OF CERTAIN AUTHORITY.—Section 207 of the Small Business Administration Reauthorization and Amendment Act of 1988 (15 U.S.C. 694b note) is amended by striking ''2000'' and inserting ''2003''.

SEC. 806. SIZE STANDARDS.

(a) INDUSTRY CLASSIFICATIONS.—Section 15(a) of the Small Business Act (15 U.S.C. 644(a)) is amended in the eighth sentence, by striking ''four-digit standard'' and all that follows through ''published'' and inserting ''definition of a 'United States industry' under the North American Industry Classification System, as established''.

(b) ANNUAL RECEIPTS.—Section 3(a)(1) of the Small Business Act (15 U.S.C. 632(a)(1)) is amended by striking ''$500,000'' and inserting ''$750,000''.

(c) CERTAIN PACKING HOUSES.—

(1) IN GENERAL.—Section 3(a)(1) of the Small Business Act (15 U.S.C. 632(a)(1)) is amended by inserting before the period the following: ''and, in the case of an enterprise that is a fresh fruit and vegetable packing house, has not more than 200 employees''.

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to any application to the Small Business Administration for emergency or disaster loan assistance that was pending on or after April 1, 1999.

SEC. 807. NATIVE AMERICAN SMALL BUSINESS DEVELOPMENT CENTERS.

(a) IN GENERAL.—The Small Business Act (15 U.S.C. 631 et seq.) is amended by inserting after section 21A the following:

''SEC. 21B. NATIVE AMERICAN SMALL BUSINESS DEVELOPMENT CENTER NETWORK.

''(a) DEFINITIONS.—In this section—

''(1) the term 'Alaska Native' means a Native (as such term is defined in section 3(b) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(b)));

''(2) the term 'Indian tribe' has the same meaning as in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e));

''(3) the terms 'Native American Small Business Development Center Network' and 'Network' mean 1 lead center small business development center with satellite locations located on Alaska Native, Indian, or Native Hawaiian lands;

''(4) the terms 'Native Hawaiian' and 'Native Hawaiian Organization' have the same meanings as in paragraphs (1) and (3), respectively, of section 9212 of the Native Hawaiian Education Act (20 U.S.C. 7912) and section 8(a)(15) of this Act;

''(5) the term 'Indian lands' includes lands within the definition of—

''(A) the term 'Indian country', as defined in section 1151 of title 18, United States Code; and

''(B) the term 'reservation', as defined in—

''(i) section 3(d) of the Indian Financing Act of 1974 (25 U.S.C. 1452(d)), except that such section shall be applied by treating the

term 'former Indian reservations in Oklahoma' as including only lands that are within the jurisdictional area of an Oklahoma Indian Tribe (as determined by the Secretary of the Interior) and are recognized by the Secretary of the Interior as eligible for trust land status under part 151 of title 25, Code of Federal Regulations, as in effect on the date of enactment of this section; and

''(ii) section 4(10) of the Indian Child Welfare Act (25 U.S.C. 1903(10));

''(6) the term 'Tribal Business Information Center' means a business information center established by the Administration and a tribal organization on Alaska Native, Indian, or Native Hawaiian lands, as authorized by this section;

''(7) the terms 'Tribal Electronic Commerce Small Business Resource Center' and 'Resource Center' mean an information sharing system and resource center providing research and resources to the Network, as authorized by this section; and

''(8) the term 'tribal organization' has the same meaning as in section 4(1) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(1)), except for the proviso contained in that paragraph, and includes Native Hawaiian Organizations and organizations of Alaska Natives.

''(b) AUTHORITY FOR NETWORK.—

''(1) IN GENERAL.—The Administration may establish a Native American Small Business Development Center Network and a Tribal Electronic Commerce Small Business Resource Center.

''(2) PURPOSE.—The purpose of the Network shall be to stimulate Alaska Native, Indian, and Native Hawaiian economies through the creation and expansion of small businesses.

''(3) ESTABLISHMENT.—The Administration may provide 1 or more contracts, grants, and cooperative agreements to any established tribal organization to establish the Network and the Resource Center. Awards made under this section may be subgranted.

''(c) USES OF ASSISTANCE.—Services provided by the Network shall include—

''(1) providing current business management and technical assistance in a cost-effective and culturally tailored manner that primarily serves Alaska Natives, members of Indian tribes, or Native Hawaiians;

''(2) providing Tribal Business Information Centers with current electronic commerce information, training, and other forms of technical assistance;

''(3) supporting the Resource Center; and

''(4) providing any of the services that a small business development center may provide under section 21.

''(d) GRANT AND COOPERATIVE AGREEMENT MATCHING REQUIREMENT.—

''(1) IN GENERAL.—As a condition for receiving a contract, grant, or cooperative agreement authorized by this section, the recipient organization shall agree to obtain, after its application has been approved and notice of award has been issued, cash or in kind contributions from non-Federal sources as follows:

''(A) One non-Federal dollar for each 4 Federal dollars in the first and second years of the term of the assistance.

''(B) One non-Federal dollar for each 3 Federal dollars in the third and fourth years of the term of the assistance.

''(C) One non-Federal dollar for each Federal dollar in the fifth and succeeding years of the term of the assistance.

''(2) WAIVER.—The Administration may waive or reduce the matching funds requirements in paragraph (1) with respect to a recipient organization if the Administration determines that such action is consistent with the purposes of this section and in the best interests of the program authorized by this section.

''(3) EXCEPTION.—The matching funds requirement of paragraph (1) does not apply to contracts, grants, or cooperative agreements made to a tribal organization for the Resource Center.

''(e) AUTHORIZATION.—There is authorized to be appropriated—

''(1) to carry out this section, $3,000,000 for fiscal year 2001 and each subsequent fiscal year; and

''(2) to fund the establishment and implementation of one Resource Center under the authority of this section, $500,000 for fiscal year 2001 and each subsequent fiscal year.''.

(b) NATIVE HAWAIIAN ORGANIZATIONS UNDER SECTION 8(a).—Section 8(a)(15)(A) of the Small Business Act (15 U.S.C. 637(a)(15)(A)) is amended to read as follows:

''(A) is a nonprofit corporation that has filed articles of incorporation with the director (or the designee thereof) of the Hawaii Department of Commerce and Consumer Affairs, or any successor agency,''.

NOTICES OF HEARINGS

COMMITTEE ON INDIAN AFFAIRS

Mr. CAMPBELL. Mr. President, I would like to announce that the Committee on Indian Affairs will meet on Wednesday, October 4, 2000, at 9:30 a.m. in room 366 of the Dirksen Senate Building to conduct an oversight hearing on alcohol and law enforcement in Alaska.

Those wishing additional information may contact committee staff at 202/224–2251.

MEASURE READ THE FIRST TIME—S. 3146

Mr. KYL. Mr. President, I understand that S. 3146 is at the desk. I ask for its first reading.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 3146) to preserve the sovereignty of the United States over public lands and acquired lands owned by the United States, and to preserve State sovereignty and private property rights in non-Federal lands surrounding those public lands and acquired lands.

Mr. KYL. Mr. President, I now ask for its second reading and object to my own request.

The PRESIDING OFFICER. Objection is heard.

SMALL BUSINESS INNOVATION RESEARCH PROGRAM AUTHORIZATION ACT OF 2000

Mr. KYL. Mr. President, I ask unanimous consent that the Chair lay before the Senate a message from the House of Representatives on the bill, H.R. 2392, an act to amend the Small Business Act to extend the authorization for the Small Business Innovation Research program, and for other purposes.

There being no objection, the Presiding Officer laid before the Senate the following message from the House of Representatives:

Resolved, That the House agree to the amendment of the Senate to the bill (H.R. 2392) entitled ''An Act to amend the Small Business Act to extend the authorization for the Small Business Innovation Research Program, and for other purposes,'' with the following amendment:

SECTION 1. TABLE OF CONTENTS.

The table of contents for this Act is as follows:

TITLE I—SMALL BUSINESS INNOVATION RESEARCH PROGRAM

SEC. 101. SHORT TITLE.

(a) SHORT TITLE.—This title may be cited as the ''Small Business Innovation Research Program Reauthorization Act of 2000''.

SEC. 102. FINDINGS.

Congress finds that—

(1) the small business innovation research program established under the Small Business Innovation Development Act of 1982, and reauthorized by the Small Business Research and Development Enhancement Act of 1992 (in this Act referred to as the ''SBIR program'') is highly successful in involving small businesses in federally funded research and development;

(2) the SBIR program made the cost-effective and unique research and development capabilities possessed by the small businesses of the Nation available to Federal agencies and departments;

(3) the innovative goods and services developed by small businesses that participated in the SBIR program have produced innovations of critical importance in a wide variety of high-technology fields, including biology, medicine, education, and defense;

(4) the SBIR program is a catalyst in the promotion of research and development, the commercialization of innovative technology, the development of new products and services, and the continued excellence of this Nation's high-technology industries; and

(5) the continuation of the SBIR program will provide expanded opportunities for one of the Nation's vital resources, its small businesses, will foster invention, research, and technology, will create jobs, and will increase this Nation's competitiveness in international markets.

SEC. 103. EXTENSION OF SBIR PROGRAM.

Section 9(m) of the Small Business Act (15 U.S.C. 638(m)) is amended to read as follows:

''(m) TERMINATION.—The authorization to carry out the Small Business Innovation Research Program established under this section shall terminate on September 30, 2008.''.

SEC. 104. ANNUAL REPORT.

Section 9(b)(7) of the Small Business Act (15 U.S.C. 638(b)(7)) is amended by striking ''and the Committee on Small Business of the House of Representatives'' and inserting '', and to the Committee on Science and the Committee on Small Business of the House of Representatives,''.

SEC. 105. THIRD PHASE ASSISTANCE.

Section 9(e)(4)(C)(i) of the Small Business Act (15 U.S.C. 638(e)(4)(C)(i)) is amended by striking ''; and'' and inserting ''; or''.

SEC. 106. REPORT ON PROGRAMS FOR ANNUAL PERFORMANCE PLAN.

Section 9(g) of the Small Business Act (15 U.S.C. 638(g)) is amended—

(1) in paragraph (7), by striking ''and'' at the end;

(2) in paragraph (8), by striking the period at the end and inserting a semicolon; and

(3) by adding at the end the following new paragraph:

''(9) include, as part of its annual performance plan as required by subsections (a) and (b) of section 1115 of title 31, United States Code, a section on its SBIR program, and shall submit such section to the Committee on Small Business of the Senate, and the Committee on Science and the Committee on Small Business of the House of Representatives; and''.

SEC. 107. OUTPUT AND OUTCOME DATA.

(a) COLLECTION.—Section 9(g) of the Small Business Act (15 U.S.C. 638(g)), as amended by section 106 of this Act, is further amended by adding at the end the following new paragraph:

''(10) collect, and maintain in a common format in accordance with subsection (v), such information from awardees as is necessary to assess the SBIR program, including information necessary to maintain the database described in subsection (k).''.

(b) REPORT TO CONGRESS.—Section 9(b)(7) of the Small Business Act (15 U.S.C. 638(b)(7)), as amended by section 104 of this Act, is further amended by inserting before the period at the end '', including the data on output and outcomes collected pursuant to subsections (g)(10) and (o)(9), and a description of the extent to which Federal agencies are providing in a timely manner information needed to maintain the database described in subsection (k)''.

(c) DATABASE.—Section 9(k) of the Small Business Act (15 U.S.C. 638(k)) is amended to read as follows:

''(k) DATABASE.—

''(1) PUBLIC DATABASE.—Not later than 180 days after the date of the enactment of the Small Business Innovation Research Program Reauthorization Act of 2000, the Administrator shall develop, maintain, and make available to the public a searchable, up-to-date, electronic database that includes—

''(A) the name, size, location, and an identifying number assigned by the Administrator, of each small business concern that has received a first phase or second phase SBIR award from a Federal agency;

''(B) a description of each first phase or second phase SBIR award received by that small business concern, including—

''(i) an abstract of the project funded by the award, excluding any proprietary information so identified by the small business concern;

''(ii) the Federal agency making the award; and

''(iii) the date and amount of the award;

''(C) an identification of any business concern or subsidiary established for the commercial application of a product or service for which an SBIR award is made; and

''(D) information regarding mentors and Mentoring Networks, as required by section 35(d).

''(2) GOVERNMENT DATABASE.—Not later than 180 days after the date of the enactment of the Small Business Innovation Research Program Reauthorization Act of 2000, the Administrator, in consultation with Federal agencies required to have an SBIR program pursuant to subsection (f)(1), shall develop and maintain a database to be used solely for SBIR program evaluation that—

''(A) contains for each second phase award made by a Federal agency—

''(i) information collected in accordance with paragraph (3) on revenue from the sale of new products or services resulting from the research conducted under the award;

''(ii) information collected in accordance with paragraph (3) on additional investment from any source, other than first phase or second phase SBIR or STTR awards, to further the research and development conducted under the award; and

''(iii) any other information received in connection with the award that the Administrator, in conjunction with the SBIR program managers of Federal agencies, considers relevant and appropriate;

''(B) includes any narrative information that a small business concern receiving a second phase award voluntarily submits to further describe the outputs and outcomes of its awards;

''(C) includes for each applicant for a first phase or second phase award that does not receive such an award—

''(i) the name, size, and location, and an identifying number assigned by the Administration;

''(ii) an abstract of the project; and

''(iii) the Federal agency to which the application was made;

''(D) includes any other data collected by or available to any Federal agency that such agency considers may be useful for SBIR program evaluation; and

''(E) is available for use solely for program evaluation purposes by the Federal Government or, in accordance with policy directives issued by the Administration, by other authorized persons who are subject to a use and nondisclosure agreement with the Federal Government covering the use of the database.

''(3) UPDATING INFORMATION FOR DATABASE.—

''(A) IN GENERAL.—A small business concern applying for a second phase award under this section shall be required to update information in the database established under this subsection for any prior second phase award received by that small business concern. In complying with this paragraph, a small business concern may apportion sales or additional investment information relating to more than one second phase award among those awards, if it notes the apportionment for each award.

''(B) ANNUAL UPDATES UPON TERMINATION.—A small business concern receiving a second phase award under this section shall—

''(i) update information in the database concerning that award at the termination of the award period; and

''(ii) be requested to voluntarily update such information annually thereafter for a period of 5 years.

''(4) PROTECTION OF INFORMATION.—Information provided under paragraph (2) shall be considered privileged and confidential and not subject to disclosure pursuant to section 552 of title 5, United States Code.

''(5) RULE OF CONSTRUCTION.—Inclusion of information in the database under this subsection shall not be considered to be publication for purposes of subsection (a) or (b) of section 102 of title 35, United States Code.''.

SEC. 108. NATIONAL RESEARCH COUNCIL REPORTS.

(a) STUDY AND RECOMMENDATIONS.—The head of each agency with a budget of more than $50,000,000 for its SBIR program for fiscal year 1999, in consultation with the Small Business Administration, shall, not later than 6 months after the date of the enactment of this Act, cooperatively enter into an agreement with the National Academy of Sciences for the National Research Council to—

(1) conduct a comprehensive study of how the SBIR program has stimulated technological innovation and used small businesses to meet Federal research and development needs, including—

(A) a review of the value to the Federal research agencies of the research projects being conducted under the SBIR program, and of the quality of research being conducted by small businesses participating under the program, including a comparison of the value of projects conducted under the SBIR program to those funded by other Federal research and development expenditures;

(B) to the extent practicable, an evaluation of the economic benefits achieved by the SBIR program, including the economic rate of return, and a comparison of the economic benefits, including the economic rate of return, achieved by the SBIR program with the economic benefits, including the economic rate of return, of other Federal research and development expenditures;

(C) an evaluation of the noneconomic benefits achieved by the SBIR program over the life of the program;

(D) a comparison of the allocation for fiscal year 2000 of Federal research and development funds to small businesses with such allocation for fiscal year 1983, and an analysis of the factors that have contributed to such allocation; and

(E) an analysis of whether Federal agencies, in fulfilling their procurement needs, are making sufficient effort to use small businesses that have completed a second phase award under the SBIR program; and

(2) make recommendations with respect to—

(A) measures of outcomes for strategic plans submitted under section 306 of title 5, United

States Code, and performance plans submitted under section 1115 of title 31, United States Code, of each Federal agency participating in the SBIR program;

(B) whether companies who can demonstrate project feasibility, but who have not received a first phase award, should be eligible for second phase awards, and the potential impact of such awards on the competitive selection process of the program;

(C) whether the Federal Government should be permitted to recoup some or all of its expenses if a controlling interest in a company receiving an SBIR award is sold to a foreign company or to a company that is not a small business concern;

(D) how to increase the use by the Federal Government in its programs and procurements of technology-oriented small businesses; and

(E) improvements to the SBIR program, if any are considered appropriate.

(b) PARTICIPATION BY SMALL BUSINESS.—

(1) IN GENERAL.—In a manner consistent with law and with National Research Council study guidelines and procedures, knowledgeable individuals from the small business community with experience in the SBIR program shall be included—

(A) in any panel established by the National Research Council for the purpose of performing the study conducted under this section; and

(B) among those who are asked by the National Research Council to peer review the study.

(2) CONSULTATION.—To ensure that the concerns of small business are appropriately considered under this subsection, the National Research Council shall consult with and consider the views of the Office of Technology and the Office of Advocacy of the Small Business Administration and other interested parties, including entities, organizations, and individuals actively engaged in enhancing or developing the technological capabilities of small business concerns.

(c) PROGRESS REPORTS.—The National Research Council shall provide semiannual progress reports on the study conducted under this section to the Committee on Science and the Committee on Small Business of the House of Representatives, and to the Committee on Small Business of the Senate.

(d) REPORT.—The National Research Council shall transmit to the heads of agencies entering into an agreement under this section and to the Committee on Science and the Committee on Small Business of the House of Representatives, and to the Committee on Small Business of the Senate—

(1) not later than 3 years after the date of the enactment of this Act, a report including the results of the study conducted under subsection (a)(1) and recommendations made under subsection (a)(2); and

(2) not later than 6 years after that date of the enactment, an update of such report.

SEC. 109. FEDERAL AGENCY EXPENDITURES FOR THE SBIR PROGRAM.

Section 9(i) of the Small Business Act (15 U.S.C. 638(i)) is amended—

(1) by striking ''(i) Each Federal'' and inserting the following:

''(i) ANNUAL REPORTING.—

''(1) IN GENERAL.—Each Federal''; and

(2) by adding at the end the following:

''(2) CALCULATION OF EXTRAMURAL BUDGET.—

''(A) METHODOLOGY.—Not later than 4 months after the date of the enactment of each appropriations Act for a Federal agency required by this section to have an SBIR program, the Federal agency shall submit to the Administrator a report, which shall include a description of the methodology used for calculating the amount of the extramural budget of that Federal agency.

''(B) ADMINISTRATOR'S ANALYSIS.—The Administrator shall include an analysis of the methodology received from each Federal agency referred to in subparagraph (A) in the report required by subsection (b)(7).''.

SEC. 110. POLICY DIRECTIVE MODIFICATIONS.

Section 9(j) of the Small Business Act (15 U.S.C. 638(j)) is amended by adding at the end the following:

''(3) ADDITIONAL MODIFICATIONS.—Not later than 120 days after the date of the enactment of the Small Business Innovation Research Program Reauthorization Act of 2000, the Administrator shall modify the policy directives issued pursuant to this subsection—

''(A) to clarify that the rights provided for under paragraph (2)(A) apply to all Federal funding awards under this section, including the first phase (as described in subsection (e)(4)(A)), the second phase (as described in subsection (e)(4)(B)), and the third phase (as described in subsection (e)(4)(C));

''(B) to provide for the requirement of a succinct commercialization plan with each application for a second phase award that is moving toward commercialization;

''(C) to require agencies to report to the Administration, not less frequently than annually, all instances in which an agency pursued research, development, or production of a technology developed by a small business concern using an award made under the SBIR program of that agency, and determined that it was not practicable to enter into a follow-on non-SBIR program funding agreement with the small business concern, which report shall include, at a minimum—

''(i) the reasons why the follow-on funding agreement with the small business concern was not practicable;

''(ii) the identity of the entity with which the agency contracted to perform the research, development, or production; and

''(iii) a description of the type of funding agreement under which the research, development, or production was obtained; and

''(D) to implement subsection (v), including establishing standardized procedures for the provision of information pursuant to subsection (k)(3).''.

SEC. 111. FEDERAL AND STATE TECHNOLOGY PARTNERSHIP PROGRAM.

(a) FINDINGS.—Congress finds that—

(1) programs to foster economic development among small high-technology firms vary widely among the States;

(2) States that do not aggressively support the development of small high-technology firms, including participation by small business concerns in the SBIR program, are at a competitive disadvantage in establishing a business climate that is conducive to technology development; and

(3) building stronger national, State, and local support for science and technology research in these disadvantaged States will expand economic opportunities in the United States, create jobs, and increase the competitiveness of the United States in the world market.

(b) FEDERAL AND STATE TECHNOLOGY PARTNERSHIP PROGRAM.—The Small Business Act (15 U.S.C. 631 et seq.) is amended—

(1) by redesignating section 34 as section 36; and

(2) by inserting after section 33 the following new section:

''SEC. 34. FEDERAL AND STATE TECHNOLOGY PARTNERSHIP PROGRAM.

''(a) DEFINITIONS.—In this section and section 35, the following definitions apply:

''(1) APPLICANT.—The term 'applicant' means an entity, organization, or individual that submits a proposal for an award or a cooperative agreement under this section.

''(2) BUSINESS ADVICE AND COUNSELING.—The term 'business advice and counseling' means providing advice and assistance on matters described in section 35(c)(2)(B) to small business concerns to guide them through the SBIR and STTR program process, from application to award and successful completion of each phase of the program.

''(3) FAST PROGRAM.—The term 'FAST program' means the Federal and State Technology Partnership Program established under this section.

''(4) MENTOR.—The term 'mentor' means an individual described in section 35(c)(2).

''(5) MENTORING NETWORK.—The term 'Mentoring Network' means an association, organization, coalition, or other entity (including an individual) that meets the requirements of section 35(c).

''(6) RECIPIENT.—The term 'recipient' means a person that receives an award or becomes party to a cooperative agreement under this section.

''(7) SBIR PROGRAM.—The term 'SBIR program' has the same meaning as in section 9(e)(4).

''(8) STATE.—The term 'State' means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.

''(9) STTR PROGRAM.—The term 'STTR program' has the same meaning as in section 9(e)(6).

''(b) ESTABLISHMENT OF PROGRAM.—The Administrator shall establish a program to be known as the Federal and State Technology Partnership Program, the purpose of which shall be to strengthen the technological competitiveness of small business concerns in the States.

''(c) GRANTS AND COOPERATIVE AGREEMENTS.—

''(1) JOINT REVIEW.—In carrying out the FAST program under this section, the Administrator and the SBIR program managers at the National Science Foundation and the Department of Defense shall jointly review proposals submitted by applicants and may make awards or enter into cooperative agreements under this section based on the factors for consideration set forth in paragraph (2), in order to enhance or develop in a State—

''(A) technology research and development by small business concerns;

''(B) technology transfer from university research to technology-based small business concerns;

''(C) technology deployment and diffusion benefiting small business concerns;

''(D) the technological capabilities of small business concerns through the establishment or operation of consortia comprised of entities, organizations, or individuals, including—

''(i) State and local development agencies and entities;

''(ii) representatives of technology-based small business concerns;

''(iii) industries and emerging companies;

''(iv) universities; and

''(v) small business development centers; and

''(E) outreach, financial support, and technical assistance to technology-based small business concerns participating in or interested in participating in an SBIR program, including initiatives—

''(i) to make grants or loans to companies to pay a portion or all of the cost of developing SBIR proposals;

''(ii) to establish or operate a Mentoring Network within the FAST program to provide business advice and counseling that will assist small business concerns that have been identified by FAST program participants, program managers of participating SBIR agencies, the Administration, or other entities that are knowledgeable about the SBIR and STTR programs as good

candidates for the SBIR and STTR programs, and that would benefit from mentoring, in accordance with section 35;

''(iii) to create or participate in a training program for individuals providing SBIR outreach and assistance at the State and local levels; and

''(iv) to encourage the commercialization of technology developed through SBIR program funding.

''(2) SELECTION CONSIDERATIONS.—In making awards or entering into cooperative agreements under this section, the Administrator and the SBIR program managers referred to in paragraph (1)—

''(A) may only consider proposals by applicants that intend to use a portion of the Federal assistance provided under this section to provide outreach, financial support, or technical assistance to technology-based small business concerns participating in or interested in participating in the SBIR program; and

''(B) shall consider, at a minimum—

''(i) whether the applicant has demonstrated that the assistance to be provided would address unmet needs of small business concerns in the community, and whether it is important to use Federal funding for the proposed activities;

''(ii) whether the applicant has demonstrated that a need exists to increase the number or success of small high-technology businesses in the State, as measured by the number of first phase and second phase SBIR awards that have historically been received by small business concerns in the State;

''(iii) whether the projected costs of the proposed activities are reasonable;

''(iv) whether the proposal integrates and coordinates the proposed activities with other State and local programs assisting small high-technology firms in the State; and

''(v) the manner in which the applicant will measure the results of the activities to be conducted.

''(3) PROPOSAL LIMIT.—Not more than one proposal may be submitted for inclusion in the FAST program under this section to provide services in any one State in any 1 fiscal year.

''(4) PROCESS.—Proposals and applications for assistance under this section shall be in such form and subject to such procedures as the Administrator shall establish.

''(d) COOPERATION AND COORDINATION.—In carrying out the FAST program under this section, the Administrator shall cooperate and coordinate with—

''(1) Federal agencies required by section 9 to have an SBIR program; and

''(2) entities, organizations, and individuals actively engaged in enhancing or developing the technological capabilities of small business concerns, including—

''(A) State and local development agencies and entities;

''(B) State committees established under the Experimental Program to Stimulate Competitive Research of the National Science Foundation (as established under section 113 of the National Science Foundation Authorization Act of 1988 (42 U.S.C. 1862g));

''(C) State science and technology councils; and

''(D) representatives of technology-based small business concerns.

''(e) ADMINISTRATIVE REQUIREMENTS.—

''(1) COMPETITIVE BASIS.—Awards and cooperative agreements under this section shall be made or entered into, as applicable, on a competitive basis.

''(2) MATCHING REQUIREMENTS.—

''(A) IN GENERAL.—The non-Federal share of the cost of an activity (other than a planning activity) carried out using an award or under a cooperative agreement under this section shall be—

''(i) 50 cents for each Federal dollar, in the case of a recipient that will serve small business concerns located in one of the 18 States receiving the fewest SBIR first phase awards (as described in section 9(e)(4)(A));

''(ii) except as provided in subparagraph (B), 1 dollar for each Federal dollar, in the case of a recipient that will serve small business concerns located in one of the 16 States receiving the greatest number of such SBIR first phase awards; and

''(iii) except as provided in subparagraph (B), 75 cents for each Federal dollar, in the case of a recipient that will serve small business concerns located in a State that is not described in clause (i) or (ii) that is receiving such SBIR first phase awards.

''(B) LOW-INCOME AREAS.—The non-Federal share of the cost of the activity carried out using an award or under a cooperative agreement under this section shall be 50 cents for each Federal dollar that will be directly allocated by a recipient described in subparagraph (A) to serve small business concerns located in a qualified census tract, as that term is defined in section 42(d)(5)(C)(ii) of the Internal Revenue Code of 1986. Federal dollars not so allocated by that recipient shall be subject to the matching requirements of subparagraph (A).

''(C) TYPES OF FUNDING.—The non-Federal share of the cost of an activity carried out by a recipient shall be comprised of not less than 50 percent cash and not more than 50 percent of indirect costs and in-kind contributions, except that no such costs or contributions may be derived from funds from any other Federal program.

''(D) RANKINGS.—For purposes of subparagraph (A), the Administrator shall reevaluate the ranking of a State once every 2 fiscal years, beginning with fiscal year 2001, based on the most recent statistics compiled by the Administrator.

''(3) DURATION.—Awards may be made or cooperative agreements entered into under this section for multiple years, not to exceed 5 years in total.

''(f) REPORTS.—

''(1) INITIAL REPORT.—Not later than 120 days after the date of the enactment of the Small Business Innovation Research Program Reauthorization Act of 2000, the Administrator shall prepare and submit to the Committee on Small Business of the Senate and the Committee on Science and the Committee on Small Business of the House of Representatives a report, which shall include, with respect to the FAST program, including Mentoring Networks—

''(A) a description of the structure and procedures of the program;

''(B) a management plan for the program; and

''(C) a description of the merit-based review process to be used in the program.

''(2) ANNUAL REPORTS.—The Administrator shall submit an annual report to the Committee on Small Business of the Senate and the Committee on Science and the Committee on Small Business of the House of Representatives regarding—

''(A) the number and amount of awards provided and cooperative agreements entered into under the FAST program during the preceding year;

''(B) a list of recipients under this section, including their location and the activities being performed with the awards made or under the cooperative agreements entered into; and

''(C) the Mentoring Networks and the mentoring database, as provided for under section 35, including—

''(i) the status of the inclusion of mentoring information in the database required by section 9(k); and

''(ii) the status of the implementation and description of the usage of the Mentoring Networks.

''(g) REVIEWS BY INSPECTOR GENERAL.—

''(1) IN GENERAL.—The Inspector General of the Administration shall conduct a review of—

''(A) the extent to which recipients under the FAST program are measuring the performance of the activities being conducted and the results of such measurements; and

''(B) the overall management and effectiveness of the FAST program.

''(2) REPORT.—During the first quarter of fiscal year 2004, the Inspector General of the Administration shall submit a report to the Committee on Small Business of the Senate and the Committee on Science and the Committee on Small Business of the House of Representatives on the review conducted under paragraph (1).

''(h) PROGRAM LEVELS.—

''(1) IN GENERAL.—There is authorized to be appropriated to carry out the FAST program, including Mentoring Networks, under this section and section 35, $10,000,000 for each of fiscal years 2001 through 2005.

''(2) MENTORING DATABASE.—Of the total amount made available under paragraph (1) for fiscal years 2001 through 2005, a reasonable amount, not to exceed a total of $500,000, may be used by the Administration to carry out section 35(d).

''(i) TERMINATION.—The authority to carry out the FAST program under this section shall terminate on September 30, 2005.''.

(c) COORDINATION OF TECHNOLOGY DEVELOPMENT PROGRAMS.—Section 9 of the Small Business Act (15 U.S.C. 638) is amended by adding at the end the following:

''(u) COORDINATION OF TECHNOLOGY DEVELOPMENT PROGRAMS.—

''(1) DEFINITION OF TECHNOLOGY DEVELOPMENT PROGRAM.—In this subsection, the term 'technology development program' means—

''(A) the Experimental Program to Stimulate Competitive Research of the National Science Foundation, as established under section 113 of the National Science Foundation Authorization Act of 1988 (42 U.S.C. 1862g);

''(B) the Defense Experimental Program to Stimulate Competitive Research of the Department of Defense;

''(C) the Experimental Program to Stimulate Competitive Research of the Department of Energy;

''(D) the Experimental Program to Stimulate Competitive Research of the Environmental Protection Agency;

''(E) the Experimental Program to Stimulate Competitive Research of the National Aeronautics and Space Administration;

''(F) the Institutional Development Award Program of the National Institutes of Health; and

''(G) the National Research Initiative Competitive Grants Program of the Department of Agriculture.

''(2) COORDINATION REQUIREMENTS.—Each Federal agency that is subject to subsection (f) and that has established a technology development program may, in each fiscal year, review for funding under that technology development program—

''(A) any proposal to provide outreach and assistance to one or more small business concerns interested in participating in the SBIR program, including any proposal to make a grant or loan to a company to pay a portion or all of the cost of developing an SBIR proposal, from an entity, organization, or individual located in—

''(i) a State that is eligible to participate in that program; or

''(ii) a State described in paragraph (3); or

''(B) any proposal for the first phase of the SBIR program, if the proposal, though meritorious, is not funded through the SBIR program for that fiscal year due to funding restraints, from a small business concern located in—

''(i) a State that is eligible to participate in a technology development program; or

''(ii) a State described in paragraph (3).

''(3) ADDITIONALLY ELIGIBLE STATE.—A State referred to in subparagraph (A)(ii) or (B)(ii) of paragraph (2) is a State in which the total value of contracts awarded to small business concerns under all SBIR programs is less than the total value of contracts awarded to small business concerns in a majority of other States, as determined by the Administrator in biennial fiscal years, beginning with fiscal year 2000, based on the most recent statistics compiled by the Administrator.''.

SEC. 112. MENTORING NETWORKS.

The Small Business Act (15 U.S.C. 631 et seq.) is amended by inserting after section 34, as added by section 111(b)(2) of this Act, the following new section:

''SEC. 35. MENTORING NETWORKS.

''(a) FINDINGS.—Congress finds that—

''(1) the SBIR and STTR programs create jobs, increase capacity for technological innovation, and boost international competitiveness;

''(2) increasing the quantity of applications from all States to the SBIR and STTR programs would enhance competition for such awards and the quality of the completed projects; and

''(3) mentoring is a natural complement to the FAST program of reaching out to new companies regarding the SBIR and STTR programs as an effective and low-cost way to improve the likelihood that such companies will succeed in such programs in developing and commercializing their research.

''(b) AUTHORIZATION FOR MENTORING NETWORKS.—The recipient of an award or participant in a cooperative agreement under section 34 may use a reasonable amount of such assistance for the establishment of a Mentoring Network under this section.

''(c) CRITERIA FOR MENTORING NETWORKS.—A Mentoring Network established using assistance under section 34 shall—

''(1) provide business advice and counseling to high technology small business concerns located in the State or region served by the Mentoring Network and identified under section 34(c)(1)(E)(ii) as potential candidates for the SBIR or STTR programs;

''(2) identify volunteer mentors who—

''(A) are persons associated with a small business concern that has successfully completed one or more SBIR or STTR funding agreements; and

''(B) have agreed to guide small business concerns through all stages of the SBIR or STTR program process, including providing assistance relating to—

''(i) proposal writing;

''(ii) marketing;

''(iii) Government accounting;

''(iv) Government audits;

''(v) project facilities and equipment;

''(vi) human resources;

''(vii) third phase partners;

''(viii) commercialization;

''(ix) venture capital networking; and

''(x) other matters relevant to the SBIR and STTR programs;

''(3) have experience working with small business concerns participating in the SBIR and STTR programs;

''(4) contribute information to the national database referred to in subsection (d); and

''(5) agree to reimburse volunteer mentors for out-of-pocket expenses related to service as a mentor under this section.

''(d) MENTORING DATABASE.—The Administrator shall—

''(1) include in the database required by section 9(k)(1), in cooperation with the SBIR, STTR, and FAST programs, information on Mentoring Networks and mentors participating under this section, including a description of their areas of expertise;

''(2) work cooperatively with Mentoring Networks to maintain and update the database;

''(3) take such action as may be necessary to aggressively promote Mentoring Networks under this section; and

''(4) fulfill the requirements of this subsection either directly or by contract.''.

SEC. 113. SIMPLIFIED REPORTING REQUIREMENTS.

Section 9 of the Small Business Act (15 U.S.C. 638), as amended by this Act, is further amended by adding at the end the following new subsection:

''(v) SIMPLIFIED REPORTING REQUIREMENTS.—The Administrator shall work with the Federal agencies required by this section to have an SBIR program to standardize reporting requirements for the collection of data from SBIR applicants and awardees, including data for inclusion in the database under subsection (k), taking into consideration the unique needs of each agency, and to the extent possible, permitting the updating of previously reported information by electronic means. Such requirements shall be designed to minimize the burden on small businesses.''.

SEC. 114. RURAL OUTREACH PROGRAM EXTENSION.

(a) EXTENSION OF TERMINATION DATE.—Section 501(b)(2) of the Small Business Reauthorization Act of 1997 (15 U.S.C. 638 note; 111 Stat. 2622) is amended by striking ''2001'' and inserting ''2005''.

(b) EXTENSION OF AUTHORIZATION OF APPROPRIATIONS.—Section 9(s)(2) of the Small Business Act (15 U.S.C. 638(s)(2)) is amended by striking ''for fiscal year 1998, 1999, 2000, or 2001'' and inserting ''for each of the fiscal years 2000 through 2005,''.

TITLE II—GENERAL BUSINESS LOAN PROGRAM

SEC. 201. SHORT TITLE.

This title may be cited as the ''Small Business General Business Loan Improvement Act of 2000''.

SEC. 202. LEVELS OF PARTICIPATION.

Section 7(a)(2)(A) of the Small Business Act (15 U.S.C. 636(a)(2)(A)) is amended—

(1) in paragraph (i) by striking ''$100,000'' and inserting ''$150,000''; and

(2) in paragraph (ii)—

(A) by striking ''80 percent'' and inserting ''85 percent''; and

(B) by striking ''$100,000'' and inserting ''$150,000''.

SEC. 203. LOAN AMOUNTS.

Section 7(a)(3)(A) of the Small Business Act (15 U.S.C. 636(a)(3)(A)) is amended by striking ''$750,000,'' and inserting, ''$1,000,000 (or if the gross loan amount would exceed $2,000,000),''.

SEC. 204. INTEREST ON DEFAULTED LOANS.

Subparagraph (B) of section 7(a)(4) of the Small Business Act (15 U.S.C. 636(a)(4)) is amended by adding at the end the following:

''(iii) APPLICABILITY.—Clauses (i) and (ii) shall not apply to loans made on or after October 1, 2000.''.

SEC. 205. PREPAYMENT OF LOANS.

Section 7(a)(4) of the Small Business Act (15 U.S.C. 636(a)(4)) is further amended—

(1) by striking ''(4) INTEREST RATES AND FEES.—'' and inserting ''(4) INTEREST RATES AND PREPAYMENT CHARGES.—''; and

(2) by adding at the end the following:

''(C) PREPAYMENT CHARGES.—

''(i) IN GENERAL.—A borrower who prepays any loan guaranteed under this subsection shall remit to the Administration a subsidy recoupment fee calculated in accordance with clause (ii) if—

''(I) the loan is for a term of not less than 15 years;

''(II) the prepayment is voluntary;

''(III) the amount of prepayment in any calendar year is more than 25 percent of the outstanding balance of the loan; and

''(IV) the prepayment is made within the first 3 years after disbursement of the loan proceeds.

''(ii) SUBSIDY RECOUPMENT FEE.—The subsidy recoupment fee charged under clause (i) shall be—

''(I) 5 percent of the amount of prepayment, if the borrower prepays during the first year after disbursement;

''(II) 3 percent of the amount of prepayment, if the borrower prepays during the second year after disbursement; and

''(III) 1 percent of the amount of prepayment, if the borrower prepays during the third year after disbursement.''.

SEC. 206. GUARANTEE FEES.

Section 7(a)(18)(B) of the Small Business Act (15 U.S.C. 636(a)(18)(B)) is amended to read as follows:

''(B) EXCEPTION FOR CERTAIN LOANS.—

''(i) IN GENERAL.—Notwithstanding subparagraph (A), if the total deferred participation share of a loan guaranteed under this subsection is less than or equal to $150,000, the guarantee fee collected under subparagraph (A) shall be in an amount equal to 2 percent of the total deferred participation share of the loan.

''(ii) RETENTION OF FEES.—Lenders participating in the programs established under this subsection may retain not more than 25 percent of the fee collected in accordance with this subparagraph with respect to any loan not exceeding $150,000 in gross loan amount.''.

SEC. 207. LEASE TERMS.

Section 7(a) of the Small Business Act (15 U.S.C. 636(a)) is further amended by adding at the end the following:

''(28) LEASING.—In addition to such other lease arrangements as may be authorized by the Administration, a borrower may permanently lease to one or more tenants not more than 20 percent of any property constructed with the proceeds of a loan guaranteed under this subsection, if the borrower permanently occupies and uses not less than 60 percent of the total business space in the property.''.

TITLE III—CERTIFIED DEVELOPMENT COMPANY PROGRAM

SEC. 301. SHORT TITLE.

This title may be cited as the ''Certified Development Company Program Improvements Act of 2000''.

SEC. 302. WOMEN-OWNED BUSINESSES.

Section 501(d)(3)(C) of the Small Business Investment Act (15 U.S.C. 695(d)(3)(C)) is amended by inserting before the comma ''or women-owned business development''.

SEC. 303. MAXIMUM DEBENTURE SIZE.

Section 502(2) of the Small Business Investment Act of 1958 (15 U.S.C. 696(2)) is amended to read as follows:

''(2) Loans made by the Administration under this section shall be limited to $1,000,000 for each such identifiable small business concern, except loans meeting the criteria specified in section 501(d)(3), which shall be limited to $1,300,000 for each such identifiable small business concern.''.

SEC. 304. FEES.

Section 503(f) of the Small Business Investment Act of 1958 (15 U.S.C. 697(f)) is amended to read as follows:

''(f) EFFECTIVE DATE.—The fees authorized by subsections (b) and (d) shall apply to financings approved by the Administration on or after October 1, 1996, but shall not apply to financings approved by the Administration on or after October 1, 2003.''.

SEC. 305. PREMIER CERTIFIED LENDERS PROGRAM.

Section 217(b) of the Small Business Reauthorization and Amendments Act of 1994 (relating to

section 508 of the Small Business Investment Act) is repealed.

SEC. 306. SALE OF CERTAIN DEFAULTED LOANS.

Section 508 of the Small Business Investment Act of 1958 (15 U.S.C. 697e) is amended—

(1) in subsection (a), by striking ''On a pilot program basis, the'' and inserting ''The'';

(2) by redesignating subsections (d) though (i) as subsections (e) though (j), respectively;

(3) in subsection (f) (as redesignated by paragraph (2)), by striking ''subsection (f)'' and inserting ''subsection (g)'';

(4) in subsection (h) (as redesignated by paragraph (2)), by striking ''subsection (f)'' and inserting ''subsection (g)''; and

(5) by inserting after subsection (c) the following:

''(d) SALE OF CERTAIN DEFAULTED LOANS.—

''(1) NOTICE.—If, upon default in repayment, the Administration acquires a loan guaranteed under this section and identifies such loan for inclusion in a bulk asset sale of defaulted or repurchased loans or other financings, it shall give prior notice thereof to any certified development company which has a contingent liability under this section. The notice shall be given to the company as soon as possible after the financing is identified, but not less than 90 days before the date the Administration first makes any records on such financing available for examination by prospective purchasers prior to its offering in a package of loans for bulk sale.

''(2) LIMITATIONS.—The Administration shall not offer any loan described in paragraph (1) as part of a bulk sale unless it—

''(A) provides prospective purchasers with the opportunity to examine the Administration's records with respect to such loan; and

''(B) provides the notice required by paragraph (1).''.

SEC. 307. LOAN LIQUIDATION.

(a) LIQUIDATION AND FORECLOSURE.—Title V of the Small Business Investment Act of 1958 (15 U.S.C. 695 et seq.) is amended by adding at the end the following:

''SEC. 510. FORECLOSURE AND LIQUIDATION OF LOANS.

''(a) DELEGATION OF AUTHORITY.—In accordance with this section, the Administration shall delegate to any qualified State or local development company (as defined in section 503(e)) that meets the eligibility requirements of subsection (b)(1) the authority to foreclose and liquidate, or to otherwise treat in accordance with this section, defaulted loans in its portfolio that are funded with the proceeds of debentures guaranteed by the Administration under section 503.

''(b) ELIGIBILITY FOR DELEGATION.—

''(1) REQUIREMENTS.—A qualified State or local development company shall be eligible for a delegation of authority under subsection (a) if—

''(A) the company—

''(i) has participated in the loan liquidation pilot program established by the Small Business Programs Improvement Act of 1996 (15 U.S.C. 695 note), as in effect on the day before promulgation of final regulations by the Administration implementing this section;

''(ii) is participating in the Premier Certified Lenders Program under section 508; or

''(iii) during the 3 fiscal years immediately prior to seeking such a delegation, has made an average of not less than 10 loans per year that are funded with the proceeds of debentures guaranteed under section 503; and

''(B) the company—

''(i) has one or more employees—

''(I) with not less than 2 years of substantive, decision-making experience in administering the liquidation and workout of problem loans secured in a manner substantially similar to loans funded with the proceeds of debentures guaranteed under section 503; and

''(II) who have completed a training program on loan liquidation developed by the Administration in conjunction with qualified State and local development companies that meet the requirements of this paragraph; or

''(ii) submits to the Administration documentation demonstrating that the company has contracted with a qualified third-party to perform any liquidation activities and secures the approval of the contract by the Administration with respect to the qualifications of the contractor and the terms and conditions of liquidation activities.

''(2) CONFIRMATION.—On request the Administration shall examine the qualifications of any company described in subsection (a) to determine if such company is eligible for the delegation of authority under this section. If the Administration determines that a company is not eligible, the Administration shall provide the company with the reasons for such ineligibility.

''(c) SCOPE OF DELEGATED AUTHORITY.—

''(1) IN GENERAL.—Each qualified State or local development company to which the Administration delegates authority under section (a) may with respect to any loan described in subsection (a)—

''(A) perform all liquidation and foreclosure functions, including the purchase in accordance with this subsection of any other indebtedness secured by the property securing the loan, in a reasonable and sound manner according to commercially accepted practices, pursuant to a liquidation plan approved in advance by the Administration under paragraph (2)(A);

''(B) litigate any matter relating to the performance of the functions described in subparagraph (A), except that the Administration may—

''(i) defend or bring any claim if—

''(I) the outcome of the litigation may adversely affect the Administration's management of the loan program established under section 502; or

''(II) the Administration is entitled to legal remedies not available to a qualified State or local development company and such remedies will benefit either the Administration or the qualified State or local development company; or

''(ii) oversee the conduct of any such litigation; and

''(C) take other appropriate actions to mitigate loan losses in lieu of total liquidation or foreclosures, including the restructuring of a loan in accordance with prudent loan servicing practices and pursuant to a workout plan approved in advance by the Administration under paragraph (2)(C).

''(2) ADMINISTRATION APPROVAL.—

''(A) LIQUIDATION PLAN.—

''(i) IN GENERAL.—Before carrying out functions described in paragraph (1)(A), a qualified State or local development company shall submit to the Administration a proposed liquidation plan.

''(ii) ADMINISTRATION ACTION ON PLAN.—

''(I) TIMING.—Not later than 15 business days after a liquidation plan is received by the Administration under clause (i), the Administration shall approve or reject the plan.

''(II) NOTICE OF NO DECISION.—With respect to any plan that cannot be approved or denied within the 15-day period required by subclause (I), the Administration shall within such period provide in accordance with subparagraph (E) notice to the company that submitted the plan.

''(iii) ROUTINE ACTIONS.—In carrying out functions described in paragraph (1)(A), a qualified State or local development company may undertake routine actions not addressed in a liquidation plan without obtaining additional approval from the Administration.

''(B) PURCHASE OF INDEBTEDNESS.—

''(i) IN GENERAL.—In carrying out functions described in paragraph (1)(A), a qualified State or local development company shall submit to the Administration a request for written approval before committing the Administration to the purchase of any other indebtedness secured by the property securing a defaulted loan.

''(ii) ADMINISTRATION ACTION ON REQUEST.—

''(I) TIMING.—Not later than 15 business days after receiving a request under clause (i), the Administration shall approve or deny the request.

''(II) NOTICE OF NO DECISION.—With respect to any request that cannot be approved or denied within the 15-day period required by subclause (I), the Administration shall within such period provide in accordance with subparagraph (E) notice to the company that submitted the request.

''(C) WORKOUT PLAN.—

''(i) IN GENERAL.—In carrying out functions described in paragraph (1)(C), a qualified State or local development company shall submit to the Administration a proposed workout plan.

''(ii) ADMINISTRATION ACTION ON PLAN.—

''(I) TIMING.—Not later than 15 business days after a workout plan is received by the Administration under clause (i), the Administration shall approve or reject the plan.

''(II) NOTICE OF NO DECISION.—With respect to any workout plan that cannot be approved or denied within the 15-day period required by subclause (I), the Administration shall within such period provide in accordance with subparagraph (E) notice to the company that submitted the plan.

''(D) COMPROMISE OF INDEBTEDNESS.—In carrying out functions described in paragraph (1)(A), a qualified State or local development company may—

''(i) consider an offer made by an obligor to compromise the debt for less than the full amount owing; and

''(ii) pursuant to such an offer, release any obligor or other party contingently liable, if the company secures the written approval of the Administration.

''(E) CONTENTS OF NOTICE OF NO DECISION.—Any notice provided by the Administration under subparagraphs (A)(ii)(II), (B)(ii)(II), or (C)(ii)(II)—

''(i) shall be in writing;

''(ii) shall state the specific reason for the Administration's inability to act on a plan or request;

''(iii) shall include an estimate of the additional time required by the Administration to act on the plan or request; and

''(iv) if the Administration cannot act because insufficient information or documentation was provided by the company submitting the plan or request, shall specify the nature of such additional information or documentation.

''(3) CONFLICT OF INTEREST.—In carrying out functions described in paragraph (1), a qualified State or local development company shall take no action that would result in an actual or apparent conflict of interest between the company (or any employee of the company) and any third party lender, associate of a third party lender, or any other person participating in a liquidation, foreclosure, or loss mitigation action.

''(d) SUSPENSION OR REVOCATION OF AUTHORITY.—The Administration may revoke or suspend a delegation of authority under this section to any qualified State or local development company, if the Administration determines that the company—

''(1) does not meet the requirements of subsection (b)(1);

''(2) has violated any applicable rule or regulation of the Administration or any other applicable law; or

''(3) fails to comply with any reporting requirement that may be established by the Administration relating to carrying out of functions described in paragraph (1).

''(e) REPORT.—

''(1) IN GENERAL.—Based on information provided by qualified State and local development companies and the Administration, the Administration shall annually submit to the Committees on Small Business of the House of Representatives and of the Senate a report on the results of delegation of authority under this section.

''(2) CONTENTS.—Each report submitted under paragraph (1) shall include the following information:

''(A) With respect to each loan foreclosed or liquidated by a qualified State or local development company under this section, or for which losses were otherwise mitigated by the company pursuant to a workout plan under this section—

''(i) the total cost of the project financed with the loan;

''(ii) the total original dollar amount guaranteed by the Administration;

''(iii) the total dollar amount of the loan at the time of liquidation, foreclosure, or mitigation of loss;

''(iv) the total dollar losses resulting from the liquidation, foreclosure, or mitigation of loss; and

''(v) the total recoveries resulting from the liquidation, foreclosure, or mitigation of loss, both as a percentage of the amount guaranteed and the total cost of the project financed.

''(B) With respect to each qualified State or local development company to which authority is delegated under this section, the totals of each of the amounts described in clauses (i) through (v) of subparagraph (A).

''(C) With respect to all loans subject to foreclosure, liquidation, or mitigation under this section, the totals of each of the amounts described in clauses (i) through (v) of subparagraph (A).

''(D) A comparison between—

''(i) the information provided under subparagraph (C) with respect to the 12-month period preceding the date on which the report is submitted; and

''(ii) the same information with respect to loans foreclosed and liquidated, or otherwise treated, by the Administration during the same period.

''(E) The number of times that the Administration has failed to approve or reject a liquidation plan in accordance with subparagraph (A)(i), a workout plan in accordance with subparagraph (C)(i), or to approve or deny a request for purchase of indebtedness under subparagraph (B)(i), including specific information regarding the reasons for the Administration's failure and any delays that resulted.''.

(b) REGULATIONS.—

(1) IN GENERAL.—Not later than 150 days after the date of the enactment of this Act, the Administrator shall issue such regulations as may be necessary to carry out section 510 of the Small Business Investment Act of 1958, as added by subsection (a) of this section.

(2) TERMINATION OF PILOT PROGRAM.—Beginning on the date which the final regulations are issued under paragraph (1), section 204 of the Small Business Programs Improvement Act of 1996 (15 U.S.C. 695 note) shall cease to have effect.

TITLE IV—CORRECTIONS TO THE SMALL BUSINESS INVESTMENT ACT OF 1958

SEC. 401. SHORT TITLE.

This title may be cited as the ''Small Business Investment Corrections Act of 2000''.

SEC. 402. DEFINITIONS.

(a) SMALL BUSINESS CONCERN.—Section 103(5)(A)(i) of the Small Business Investment Act of 1958 (15 U.S.C. 662(5)(A)(i)) is amended by inserting ''regardless of the allocation of control during the investment period under any investment agreement between the business concern and the entity making the investment'' before the semicolon at the end.

(b) LONG TERM.—Section 103 of the Small Business Investment Act of 1958 (15 U.S.C. 662) is amended—

(1) in paragraph (15), by striking ''and'' at the end;

(2) in paragraph (16), by striking the period at the end and inserting ''; and''; and

(3) by adding at the end the following new paragraph:

''(17) the term 'long term', when used in connection with equity capital or loan funds invested in any small business concern or smaller enterprise, means any period of time not less than 1 year.''.

SEC. 403. INVESTMENT IN SMALL BUSINESS INVESTMENT COMPANIES.

Section 302(b) of the Small Business Investment Act of 1958 (15 U.S.C. 682(b)) is amended—

(1) by striking ''(b) Notwithstanding'' and inserting the following:

''(b) FINANCIAL INSTITUTION INVESTMENTS.—

''(1) CERTAIN BANKS.—Notwithstanding''; and

(2) by adding at the end the following:

''(2) CERTAIN SAVINGS ASSOCIATIONS.—Notwithstanding any other provision of law, any Federal savings association may invest in any one or more small business investment companies, or in any entity established to invest solely in small business investment companies, except that in no event may the total amount of such investments by any such Federal savings association exceed 5 percent of the capital and surplus of the Federal savings association.''.

SEC. 404. SUBSIDY FEES.

(a) DEBENTURES.—Section 303(b) of the Small Business Investment Act of 1958 (15 U.S.C. 683(b)) is amended by striking ''plus an additional charge of 1 percent per annum which shall be paid to and retained by the Administration'' and inserting ''plus, for debentures issued after September 30, 2000, an additional charge, in an amount established annually by the Administration, of not more than 1 percent per year as necessary to reduce to zero the cost (as defined in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a)) to the Administration of purchasing and guaranteeing debentures under this Act, which shall be paid to and retained by the Administration''.

(b) PARTICIPATING SECURITIES.—Section 303(g)(2) of the Small Business Investment Act of 1958 (15 U.S.C. 683(g)(2)) is amended by striking ''plus an additional charge of 1 percent per annum which shall be paid to and retained by the Administration'' and inserting ''plus, for participating securities issued after September 30, 2000, an additional charge, in an amount established annually by the Administration, of not more than 1 percent per year as necessary to reduce to zero the cost (as defined in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a)) to the Administration of purchasing and guaranteeing participating securities under this Act, which shall be paid to and retained by the Administration''.

SEC. 405. DISTRIBUTIONS.

Section 303(g)(8) of the Small Business Investment Act of 1958 (15 U.S.C. 683(g)(8)) is amended—

(1) by striking ''subchapter s corporation'' and inserting ''subchapter S corporation'';

(2) by striking ''the end of any calendar quarter based on a quarterly'' and inserting ''any time during any calendar quarter based on an''; and

(3) by striking ''quarterly distributions for a calendar year,'' and inserting ''interim distributions for a calendar year,''.

SEC. 406. CONFORMING AMENDMENT.

Section 310(c)(4) of the Small Business Investment Act of 1958 (15 U.S.C. 687b(c)(4)) is amended by striking ''five years'' and inserting ''1 year''.

TITLE V—REAUTHORIZATION OF SMALL BUSINESS PROGRAMS

SEC. 501. SHORT TITLE.

This title may be cited as the ''Small Business Reauthorization Act of 2000''.

SEC. 502. REAUTHORIZATION OF SMALL BUSINESS PROGRAMS.

Section 20 of the Small Business Act (15 U.S.C. 631 note) is amended by adding at the end the following:

''(g) FISCAL YEAR 2001.—

''(1) PROGRAM LEVELS.—The following program levels are authorized for fiscal year 2001:

''(A) For the programs authorized by this Act, the Administration is authorized to make—

''(i) $45,000,000 in technical assistance grants as provided in section 7(m); and

''(ii) $60,000,000 in direct loans, as provided in 7(m).

''(B) For the programs authorized by this Act, the Administration is authorized to make $19,050,000,000 in deferred participation loans and other financings. Of such sum, the Administration is authorized to make—

''(i) $14,500,000,000 in general business loans as provided in section 7(a);

''(ii) $4,000,000,000 in financings as provided in section 7(a)(13) of this Act and section 504 of the Small Business Investment Act of 1958;

''(iii) $500,000,000 in loans as provided in section 7(a)(21); and

''(iv) $50,000,000 in loans as provided in section 7(m).

''(C) For the programs authorized by title III of the Small Business Investment Act of 1958, the Administration is authorized to make—

''(i) $2,500,000,000 in purchases of participating securities; and

''(ii) $1,500,000,000 in guarantees of debentures.

''(D) For the programs authorized by part B of title IV of the Small Business Investment Act of 1958, the Administration is authorized to enter into guarantees not to exceed $4,000,000,000 of which not more than 50 percent may be in bonds approved pursuant to section 411(a)(3) of that Act.

''(E) The Administration is authorized to make grants or enter cooperative agreements for a total amount of $5,000,000 for the Service Corps of Retired Executives program authorized by section 8(b)(1).

''(2) ADDITIONAL AUTHORIZATIONS.—

''(A) There are authorized to be appropriated to the Administration for fiscal year 2001 such sums as may be necessary to carry out the provisions of this Act not elsewhere provided for, including administrative expenses and necessary loan capital for disaster loans pursuant to section 7(b), and to carry out title IV of the Small Business Investment Act of 1958, including salaries and expenses of the Administration.

''(B) Notwithstanding any other provision of this paragraph, for fiscal year 2001—

''(i) no funds are authorized to be used as loan capital for the loan program authorized by section 7(a)(21) except by transfer from another Federal department or agency to the Administration, unless the program level authorized for general business loans under paragraph (1)(B)(i) is fully funded; and

''(ii) the Administration may not approve loans on its own behalf or on behalf of any other Federal department or agency, by contract or otherwise, under terms and conditions other than those specifically authorized under this Act or the Small Business Investment Act of 1958, except that it may approve loans under section 7(a)(21) of this Act in gross amounts of not more than $1,250,000.

''(h) FISCAL YEAR 2002.—

''(1) PROGRAM LEVELS.—The following program levels are authorized for fiscal year 2002:

''(A) For the programs authorized by this Act, the Administration is authorized to make—

''(i) $60,000,000 in technical assistance grants as provided in section 7(m); and

''(ii) $80,000,000 in direct loans, as provided in 7(m).

''(B) For the programs authorized by this Act, the Administration is authorized to make $20,050,000,000 in deferred participation loans and other financings. Of such sum, the Administration is authorized to make—

''(i) $15,000,000,000 in general business loans as provided in section 7(a);

''(ii) $4,500,000,000 in financings as provided in section 7(a)(13) of this Act and section 504 of the Small Business Investment Act of 1958;

''(iii) $500,000,000 in loans as provided in section 7(a)(21); and

''(iv) $50,000,000 in loans as provided in section 7(m).

''(C) For the programs authorized by title III of the Small Business Investment Act of 1958, the Administration is authorized to make—

''(i) $3,500,000,000 in purchases of participating securities; and

''(ii) $2,500,000,000 in guarantees of debentures.

''(D) For the programs authorized by part B of title IV of the Small Business Investment Act of 1958, the Administration is authorized to enter into guarantees not to exceed $5,000,000,000 of which not more than 50 percent may be in bonds approved pursuant to section 411(a)(3) of that Act.

''(E) The Administration is authorized to make grants or enter cooperative agreements for a total amount of $6,000,000 for the Service Corps of Retired Executives program authorized by section 8(b)(1).

''(2) ADDITIONAL AUTHORIZATIONS.—

''(A) There are authorized to be appropriated to the Administration for fiscal year 2002 such sums as may be necessary to carry out the provisions of this Act not elsewhere provided for, including administrative expenses and necessary loan capital for disaster loans pursuant to section 7(b), and to carry out title IV of the Small Business Investment Act of 1958, including salaries and expenses of the Administration.

''(B) Notwithstanding any other provision of this paragraph, for fiscal year 2002—

''(i) no funds are authorized to be used as loan capital for the loan program authorized by section 7(a)(21) except by transfer from another Federal department or agency to the Administration, unless the program level authorized for general business loans under paragraph (1)(B)(i) is fully funded; and

''(ii) the Administration may not approve loans on its own behalf or on behalf of any other Federal department or agency, by contract or otherwise, under terms and conditions other than those specifically authorized under this Act or the Small Business Investment Act of 1958, except that it may approve loans under section 7(a)(21) of this Act in gross amounts of not more than $1,250,000.

''(i) FISCAL YEAR 2003.—

''(1) PROGRAM LEVELS.—The following program levels are authorized for fiscal year 2003:

''(A) For the programs authorized by this Act, the Administration is authorized to make—

''(i) $70,000,000 in technical assistance grants as provided in section 7(m); and

''(ii) $100,000,000 in direct loans, as provided in 7(m).

''(B) For the programs authorized by this Act, the Administration is authorized to make $21,550,000,000 in deferred participation loans and other financings. Of such sum, the Administration is authorized to make—

''(i) $16,000,000,000 in general business loans as provided in section 7(a);

''(ii) $5,000,000,000 in financings as provided in section 7(a)(13) of this Act and section 504 of the Small Business Investment Act of 1958;

''(iii) $500,000,000 in loans as provided in section 7(a)(21); and

''(iv) $50,000,000 in loans as provided in section 7(m).

''(C) For the programs authorized by title III of the Small Business Investment Act of 1958, the Administration is authorized to make—

''(i) $4,000,000,000 in purchases of participating securities; and

''(ii) $3,000,000,000 in guarantees of debentures.

''(D) For the programs authorized by part B of title IV of the Small Business Investment Act of 1958, the Administration is authorized to enter into guarantees not to exceed $6,000,000,000 of which not more than 50 percent may be in bonds approved pursuant to section 411(a)(3) of that Act.

''(E) The Administration is authorized to make grants or enter into cooperative agreements for a total amount of $7,000,000 for the Service Corps of Retired Executives program authorized by section 8(b)(1).

''(2) ADDITIONAL AUTHORIZATIONS.—

''(A) There are authorized to be appropriated to the Administration for fiscal year 2003 such sums as may be necessary to carry out the provisions of this Act not elsewhere provided for, including administrative expenses and necessary loan capital for disaster loans pursuant to section 7(b), and to carry out title IV of the Small Business Investment Act of 1958, including salaries and expenses of the Administration.

''(B) Notwithstanding any other provision of this paragraph, for fiscal year 2003—

''(i) no funds are authorized to be used as loan capital for the loan program authorized by section 7(a)(21) except by transfer from another Federal department or agency to the Administration, unless the program level authorized for general business loans under paragraph (1)(B)(i) is fully funded; and

''(ii) the Administration may not approve loans on its own behalf or on behalf of any other Federal department or agency, by contract or otherwise, under terms and conditions other than those specifically authorized under this Act or the Small Business Investment Act of 1958, except that it may approve loans under section 7(a)(21) of this Act in gross amounts of not more than $1,250,000.''.

SEC. 503. ADDITIONAL REAUTHORIZATIONS.

(a) SMALL BUSINESS DEVELOPMENT CENTERS PROGRAM.—Section 21(a)(4)(C)(iii)(III) of the Small Business Act (15 U.S.C. 648(a)(4)(C)(iii)(III)) is amended by striking ''$95,000,000'' and inserting ''$125,000,000''.

(b) DRUG-FREE WORKPLACE PROGRAM.—Section 27 of the Small Business Act (15 U.S.C. 654) is amended—

*(1) in the section heading, by striking ''**DRUG-FREE WORKPLACE DEMONSTRATION PROGRAM**'' and inserting ''**PAUL D. COVERDELL DRUG-FREE WORKPLACE PROGRAM**''; and*

(2) in subsection (g)(1), by striking ''$10,000,000 for fiscal years 1999 and 2000'' and inserting ''$5,000,000 for each of fiscal years 2001 through 2003''.

(c) HUBZONE PROGRAM.—Section 31 of the Small Business Act (15 U.S.C. 657a) is amended by adding at the end the following new subsection:

''(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the program established by this section $10,000,000 for each of fiscal years 2001 through 2003.''.

(d) WOMEN'S BUSINESS ENTERPRISE DEVELOPMENT PROGRAMS.—Section 411 of the Women's Business Ownership Act (Public Law 105–135; 15 U.S.C. 631 note) is amended by striking ''$600,000, for each of fiscal years 1998 through 2000,'' and inserting ''$1,000,000 for each of fiscal years 2001 through 2003,''.

(e) VERY SMALL BUSINESS CONCERNS PROGRAM.—Section 304(i) of the Small Business Administration Reauthorization and Amendments Act of 1994 (Public Law 103–403; 15 U.S.C. 644 note) is amended by striking ''September 30, 2000'' and inserting ''September 30, 2003''.

(f) SOCIALLY AND ECONOMICALLY DISADVANTAGED BUSINESSES PROGRAM.—Section 7102(c) of the Federal Acquisition Streamlining Act of 1994 (Public Law 103–355; 15 U.S.C. 644 note) is amended by striking ''September 30, 2000'' and inserting ''September 30, 2003''.

TITLE VI—MISCELLANEOUS PROVISIONS

SEC. 601. LOAN APPLICATION PROCESSING.

(a) STUDY.—The Administrator of the Small Business Administration shall conduct a study to determine the average time that the Administration requires to process an application for each type of loan or loan guarantee made under the Small Business Act (15 U.S.C. 631 et seq.).

(b) TRANSMITTAL.—Not later than 1 year after the date of the enactment of this title, the Administrator shall transmit to Congress the results of the study conducted under subsection (a).

SEC. 602. APPLICATION OF OWNERSHIP REQUIREMENTS.

Section 2 of the Small Business Act (15 U.S.C. 631) is amended by adding at the end the following new subsection:

''(k) APPLICATION OF OWNERSHIP REQUIREMENTS.—Each ownership requirement established under this Act or the Small Business Investment Act of 1958 (15 U.S.C. 661 et seq.) shall be applied without regard to any possible future ownership interest of a spouse arising from the application of any State community property law established for the purpose of determining marital interest.''.

SEC. 603. ELIGIBILITY FOR HUBZONE PROGRAM.

Section 3(p)(5) of the Small Business Act (15 U.S.C. 632(p)(5)) is amended by adding at the end the following new subparagraph:

''(E) EXTENSION OF ELIGIBILITY.—If a geographic area that qualified as a HUBZone under this subsection ceases to qualify as a result of a change in official government data or boundary designations, each small business concern certified as HUBZone small business concern in connection with such geographic area shall remain certified as such for a period of 1 year after the effective date of the change in HUBZone status, if the small business concern continues to meet each of the other qualifications applicable to a HUBZone small business concern.''.

SEC. 604. SUBCONTRACTING PREFERENCE FOR VETERANS.

Section 8(d) of the Small Business Act (15 U.S.C. 637(d)) is amended—

(1) in paragraph (1), by inserting ''small business concerns owned and controlled by veterans,'' after ''small business concerns,'' the first place that term appears in each of the first and second sentences;

(2) in paragraph (3)—

(A) in subparagraph (A), by inserting ''small business concerns owned and controlled by service-disabled veterans,'' after ''small business concerns owned and controlled by veterans,'' in each of the first and second sentences; and

(B) in subparagraph (F), by inserting ''small business concern owned and controlled by service-disabled veterans,'' after ''small business concern owned and controlled by veterans,''; and

(3) in each of paragraphs (4)(D), (4)(E), (6)(A), (6)(C), (6)(F), and (10)(B), by inserting ''small business concern owned and controlled by service-disabled veterans,'' after ''small business concerns owned and controlled by veterans,''.

SEC. 605. SMALL BUSINESS DEVELOPMENT CENTER PROGRAM FUNDING.

(a) AUTHORIZATION.—

(1) IN GENERAL.—Section 20(a)(1) of the Small Business Act (15 U.S.C. 631 note) is amended by striking ''For fiscal year 1985'' and all that follows through ''expended.'' and inserting the following: ''For fiscal year 2000 and each fiscal year thereafter, there are authorized to be appropriated such sums as may be necessary and appropriate, to remain available until expended, and to be available solely—

''(A) to carry out the Small Business Development Center Program under section 21, but not to exceed the annual funding level, as specified in section 21(a);

''(B) to pay the expenses of the National Small Business Development Center Advisory Board, as provided in section 21(i);

''(C) to pay the expenses of the information sharing system, as provided in section 21(c)(8);

''(D) to pay the expenses of the association referred to in section 21(a)(3)(A) for conducting the certification program, as provided in section 21(k)(2); and

''(E) to pay the expenses of the Administration, including salaries of examiners, for conducting examinations as part of the certification program conducted by the association referred to in section 21(a)(3)(A).''.

(2) TECHNICAL AMENDMENT.—Section 20(a) of the Small Business Act (15 U.S.C. 631 note) is further amended by moving paragraphs (3) and (4), including subparagraphs (A) and (B) of paragraph (4), 2 ems to the left.

(b) FUNDING FORMULA.—Section 21(a)(4)(C) of the Small Business Act (15 U.S.C. 648(a)(4)(C)) is amended to read as follows:

''(C) FUNDING FORMULA.—

''(i) IN GENERAL.—Subject to clause (iii), the amount of a formula grant received by a State under this subparagraph shall be equal to an amount determined in accordance with the following formula:

''(I) The annual amount made available under section 20(a) for the Small Business Development Center Program, less any reductions made for expenses authorized by clause (v) of this subparagraph, shall be divided on a pro rata basis, based on the percentage of the population of each State, as compared to the population of the United States.

''(II) If the pro rata amount calculated under subclause (I) for any State is less than the minimum funding level under clause (iii), the Administration shall determine the aggregate amount necessary to achieve that minimum funding level for each such State.

''(III) The aggregate amount calculated under subclause (II) shall be deducted from the amount calculated under subclause (I) for States eligible to receive more than the minimum funding level. The deductions shall be made on a pro rata basis, based on the population of each such State, as compared to the total population of all such States.

''(IV) The aggregate amount deducted under subclause (III) shall be added to the grants of those States that are not eligible to receive more than the minimum funding level in order to achieve the minimum funding level for each such State, except that the eligible amount of a grant to any State shall not be reduced to an amount below the minimum funding level.

''(ii) GRANT DETERMINATION.—The amount of a grant that a State is eligible to apply for under this subparagraph shall be the amount determined under clause (i), subject to any modifications required under clause (iii), and shall be based on the amount available for the fiscal year in which performance of the grant commences, but not including amounts distributed in accordance with clause (iv). The amount of a grant received by a State under any provision of this subparagraph shall not exceed the amount of matching funds from sources other than the Federal Government, as required under subparagraph (A).

''(iii) MINIMUM FUNDING LEVEL.—The amount of the minimum funding level for each State shall be determined for each fiscal year based on the amount made available for that fiscal year to carry out this section, as follows:

''(I) If the amount made available is not less than $81,500,000 and not more than $90,000,000, the minimum funding level shall be $500,000.

''(II) If the amount made available is less than $81,500,000, the minimum funding level shall be the remainder of $500,000 minus a percentage of $500,000 equal to the percentage amount by which the amount made available is less than $81,500,000.

''(III) If the amount made available is more than $90,000,000, the minimum funding level shall be the sum of $500,000 plus a percentage of $500,000 equal to the percentage amount by which the amount made available exceeds $90,000,000.

''(iv) DISTRIBUTIONS.—Subject to clause (iii), if any State does not apply for, or use, its full funding eligibility for a fiscal year, the Administration shall distribute the remaining funds as follows:

''(I) If the grant to any State is less than the amount received by that State in fiscal year 2000, the Administration shall distribute such remaining funds, on a pro rata basis, based on the percentage of shortage of each such State, as compared to the total amount of such remaining funds available, to the extent necessary in order to increase the amount of the grant to the amount received by that State in 2000, or until such funds are exhausted, whichever first occurs.

''(II) If any funds remain after the application of subclause (I), the remaining amount may be distributed as supplemental grants to any State, as the Administration determines, in its discretion, to be appropriate, after consultation with the association referred to in subsection (a)(3)(A).

''(v) USE OF AMOUNTS.—

''(I) IN GENERAL.—Of the amounts made available in any fiscal year to carry out this section—

''(aa) not more than $500,000 may be used by the Administration to pay expenses enumerated in subparagraphs (B) through (D) of section 20(a)(1); and

''(bb) not more than $500,000 may be used by the Administration to pay the examination expenses enumerated in section 20(a)(1)(E).

''(II) LIMITATION.—No funds described in subclause (I) may be used for examination expenses under section 20(a)(1)(E) if the usage would reduce the amount of grants made available under clause (i)(I) to less than $85,000,000 (after excluding any amounts provided in appropriations Acts for specific institutions or for purposes other than the general small business development center program) or would further reduce the amount of such grants below such amount.

''(vi) EXCLUSIONS.—Grants provided to a State by the Administration or another Federal agency to carry out subsection (c)(3)(G) or (a)(6) or supplemental grants set forth in clause (iv)(II) of this subparagraph, shall not be included in the calculation of maximum funding for a State under clause (ii) of this subparagraph.

''(vii) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this subparagraph $125,000,000 for each of fiscal years 2001, 2002, and 2003.

''(viii) STATE DEFINED.—In this subparagraph, the term 'State' means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any other commonwealth, territory, or possession of the United States.''.

SEC. 606. SURETY BONDS.

(a) CONTRACT AMOUNTS.—Section 411 of the Small Business Investment Act of 1958 (15 U.S.C. 694b) is amended—

(1) in subsection (a)(1), by striking ''$1,250,000'' and inserting ''$2,000,000''; and

(2) in subsection (e)(2), by striking ''$1,250,000'' and inserting ''$2,000,000''.

(b) EXTENSION OF CERTAIN AUTHORITY.—Section 207 of the Small Business Administration Reauthorization and Amendment Act of 1988 (15 U.S.C. 694b note) is amended by striking ''2000'' and inserting ''2003''.

AMENDMENT NO. 4286

(Purpose: To provide for a complete substitute)

Mr. KYL. I ask unanimous consent that the Senate concur in the amendment of the House, with a further amendment which is at the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 4286) was agreed to.

(The text of the amendment is printed in today's RECORD under ''Amendments Submitted.'')

Mr. BOND. Mr. President, I rise today in support of important legislation to re-authorize the Small Business Innovation and Research (SBIR) program and other essential programs at the Small Business Administration (SBA). On Monday, September 25, 2000, the House of Representatives amended the Senate-passed version of H.R. 2392, the Small Business Innovation Research Program Reauthorization Act of 2000, by adding the following bills to this legislation: H.R. 2614 (The Certified Development Company Program Improvement Act of 2000), H.R. 2615, (to make improvements to the 7(a) guaranteed business loan program), H.R. 3843, (the Small Business Reauthorization Act of 2000), and H.R. 3845, (the Small Business Investment Corrections Act of 2000).

While the House-passed bill includes many important programs to help small businesses, there are some serious omissions. Although I strongly support H.R. 2392 as amended by the House, Senator JOHN KERRY and I are offering an amendment in the nature of a substitute to restore some of the most serious omissions to H.R. 2392. Our amendment adds to, but does not remove, any provisions from the House-passed bill.

The House-passed version of H.R. 2392 failed to include some very key provisions that are critical to the mission of SBA in Fiscal Year 2001. The House bill did include the Senate-passed bill to improve and extend the SBIR program for eight years, and it did adopt authorization levels for SBA programs included in the Senate version of the Small Business Reauthorization Act of 2000. However, the House bill failed to include many key provisions that were approved by the Senate Committee on Small Business earlier this year. Our Substitute Amendment will restore some of the most important omitted provisions.

The following is a list of the program amendments that were excluded from the House bill that we have included in the Bond-Kerry substitute amendment: Senator KERRY's Microloan program amendments that make extensive improvements in this key small business credit program; re-authorization of the National Women's Business Council, an amendment sponsored by Senator LANDRIEU during the committee markup; a change in the small business size standard system proposed by Senator FEINSTEIN that will help small fresh fruit and vegetable packing houses to qualify for Federal disaster relief; comprehensive amendments that I sponsored to improve the HUBZone program, which is designed to create jobs and investments in economically distressed inner cities and rural counties; the Native American Small Business Development Center Network; and 7(a) guarantee business loan guarantee fee simplification plan.

The Senate Committee on Small Business has approved the provisions being added to this legislation. In the case of the SBIR Reauthorization Act, the full Senate has also passed separate legislation. Most of the provisions included in the Bond-Kerry substitute amendment to H.R. 2392 are discussed at length in the following committee reports that have been filed in the Senate: Senate Report 106–289, Small Business Innovation Research Program Reauthorization Act of 2000; and Senate Report 106–422, Small Business Reauthorization Act of 2000.

There are two major provisions that were included in S. 3121, the Small Business Reauthorization Act of 2000, which was reported favorably from the Senate Committee on Small Business, but which have not been included in the Bond-Kerry substitute amendment. I have withdrawn the two provisions in order to expedite congressional passage and the enactment of this important SBA and SBIR re-authorization legislation. It is my intention to make passage of these provisions a high priority in the next Congress.

Earlier this year, the Committee on Small Business approved an important provision that would reverse a serious problem caused by the SBA in its implementation of the HUBZone Program, which the Congress enacted in 1997 as part of the Small Business Reauthorization Act. As many of my colleagues in the Senate know, the HUBZone Program directs a portion of the Federal contracting dollars into economically distressed areas of the country that have been out of the economic mainstream for far too long.

HUBZone areas, which include qualified census tracts, rural counties, and Indian reservations, often are relatively out-of-the-way places that the stream of commerce often by-passe. They tend to be low-traffic areas that do not have a reliable customer base to support business development. As a result, business has been reluctant to move into these areas. It simply has not been profitable absent a customer base to keep them operating.

The HUBZone Act seeks to overcome this problem by making it possible for the Federal government to become a customer for small businesses that locate in HUBZones. While a small business works to establish its regular customer base, a Federal contract can help it stabilize its revenues and its profitability. This program provides small business a chance to gain an economic foothold and to provide jobs to these areas. New businesses, more investments and new job opportunities mean new life and new hope for these communities.

When Congress enacted the HUBZone program in 1997, a lot of people were concerned about how the HUBZone program would interact with the 8(a) minority enterprise program. We in Congress agreed at that time to protect the 8(a) program by saying the two programs would have parity—neither one would have an automatic preference over the other in getting Federal government contracts.

Notwithstanding the 1997 Act, SBA has decided to disregard the instructions of the Congress and put 8(a) ahead of HUBZones in every case. Even if the Government is failing to reach its HUBZone goal and is meeting its Small Disadvantaged Business goal (of which 8(a) is a part), SBA insists that the 8(a) program still has a priority over the HUBZone Program.

SBA has abandoned the protection Congress included in the 1997 law when it enacted the HUBZone Program. Contrary to the law, SBA is setting up the two programs in competition with each other, which is precisely what Congress sought to prevent. Putting either program in competition with the other is a prescription for one of the programs to fail.

SBA's position does real harm to minority communities as well. The 8(a) program has a role to play in ensuring minority communities own assets in the economy. It ensures minority business owners get the opportunity to be self-supporting, independent citizens with a full stake in our economy. It's important that all Americans have a piece of the economic pie.

HUBZones and 8(a) are two prongs of the same fork. They both have a vital role to play in ensuring opportunity. That's why it's important to correct SBA's current position and to keep the two programs from competing with each other. The remedial language that I have withdrawn from the Substitute Amendment would have reversed the SBA position and restore the equal footing Congress established when it created the HUBZone program three years ago. I intend to pursue a comprehensive remedy to this problem early next year.

On November 5, 1999, the Senate approved unanimously S. 1346, a bill I introduced to make the SBA Office of Advocacy a stronger, more effective advocate for all small businesses throughout the United States. This bill was referred to the House Committee on Small Business on November 8, 1999, and it has failed since then to take action on this important legislation that has the strong support of almost every segment of the small business community.

Consequently, when the Senate Small Business Committee marked up the S. 3121, the Small Business Reauthorization Act of 2000, it incorporated the entire text of S. 1346 as a separate title. It was the committee's intention that this action might spur the House committee to take action on this bill. Unfortunately, the Houses remains adamant in its opposition. Both Chairman JIM TALENT and Ranking Democrat, NYDIA VELÁZQUEZ from the House Small Business Committee have insisted that the title to strengthen SBA's Office of Advocacy be stricken from the bill. Therefore, I am withdrawing S. 1346 in order to clear the way for swift passage by the Senate and House of Representatives of H.R. 2392 with the Bond/Kerry substitute amendment.

Senator KERRY and I have taken some very dramatic steps to insure that the Small Business Reauthorization Act of 2000 is enacted as soon as possible. It is critical that the Senate act quickly to adopt the substitute amendment to H.R. 2392. Our substitute amendment will have a positive impact on nearly every SBA program, from guaranteed business loans, to equity investments, to management and technical assistance for small businesses and budding entrepreneurs. Now is not the time to turn our backs on the critical role played by small businesses in our vibrant economy. We need to enact this comprehensive legislation now so that small businesses and their employees can receive the full benefit of these programs.

I urge my colleagues in the Senate to vote in favor of this much needed bill.

Mr. KERRY. Mr. President, let me say a few words about the Small Business Reauthorization Act of 2000 and the managers' amendment that the Senate is considering today. While I applaud the House for their action to ensure the continuation of important Small Business Administration (SBA) programs, the managers' amendment offered by Chairman BOND and myself includes key provisions extending and improving important SBA programs. This bill, with the inclusion of the managers' amendment, is comprehensive. It reauthorizes all of the SBA's programs, setting the funding levels for the credit and business development programs, and making improvements where needed. Without this legislation,

the 504 loan program would shut down; the venture capital debenture program would shut down; and funding to the states for their small business development centers would be in jeopardy. The list goes on. I just can't emphasize enough how important this legislation is.

The SBA's contribution is significant. In the past eight years, the SBA has helped almost 375,000 small businesses get more than $80 billion in loans. That's double what it has loaned in the preceding 40 years since the agency's creation. The SBA is better run than ever before, with four straight years of clean financial audits; it has a quarter less staff, but makes twice as many loans; and its credit and finance programs are a bargain. For a relatively small investment, taxpayers are leveraging their money to help thousands of small businesses every year and fuel the economy.

Let me just give you one example. In the 7(a) program, taxpayers spend $1.24 for every $100 loaned to small business owners. Well known successes like Winnebago and Ben & Jerry's are clear examples of the program's effectiveness.

Overall, I agree with the program levels in the three-year reauthorization bill. As I said during the Small Business Committee's hearing on SBA's budget earlier in the year, I believe the program levels are realistic and appropriate based on the growing demand for the programs and the prosperity of the country. I also think they are adequate should the economy slow down and lenders have less cash to invest. Consistent with SBA's mission, in good times or bad, we need to make sure that small businesses have access to credit and capital so that our economy benefits from the services, products and jobs they provide. As First Lady Hillary Rodham Clinton says, we don't want good ideas dying in the parking lot of banks. We also want a safety net when our states are hit hard by a natural disaster. There are many members of this Chamber, and their constituents, who know all too well the value of SBA disaster loans after floods, fires and tornadoes.

I will only take a short time to talk about some of important the provisions of this bill and our managers' amendment.

I am pleased that we are considering legislation to extend the Small Business Innovation Research (SBIR) program for 8 more years as part of this comprehensive SBA reauthorization bill. As many of my colleagues may know, this program is set to expire on September 30, along with many other important programs critical to our nation's small businesses. While I am sorry the process has taken this long, in no way should it imply that there is not strong support for the SBIR program, the Small Business Administration, or our nation's innovative small businesses.

The SBIR program is of vital importance to the high-technology sector throughout the country. For the past decade, growth in the high-technology field has been a major source of the resurgence of the American economy we now enjoy. While many Americans know of the success of Microsoft, Oracle, and many of the dot.com companies, few realize that it is America's small businesses that are working in industries like software, hardware, medical research, aerospace technologies, and bio-technology that are helping to fuel this resurgence—and that it is the SBIR program that makes much of this possible. By setting aside Federal research and development dollars specifically for small high-tech businesses, SBIR is making important contributions to our economy.

These companies have helped launch the space shuttle; found a vaccine for Hepatitis C; and made B–2 Bomber missions safer and more effective.

Since the start of the SBIR program in 1983, more than 17,600 firms have received over $9.8 billion in assistance. In 1999 alone, nearly $1.1 billion was awarded to small high-tech firms through the SBIR program, assisting more than 4,500 firms.

The SBIR program has been, and remains, an excellent example of how government and small business can work together to advance the cause of both science and our economy. Access to risk capital is vital to the growth of small high technology companies, which accounted for over 40 percent of all jobs in the high technology sector of our economy in 1998. The SBIR program gives these companies access to Federal research and development money and encourages those who do the research to commercialize their results. Because research is crucial to ensuring that our nation is the leader in knowledge-based industries, which will generate the largest job growth in the next century, the SBIR program is a good investment for the future.

I am proud of the many SBIR successes that have come from my state of Massachusetts. Companies like Advanced Magnetics of Cambridge, Massachusetts, illustrate that success. Advanced Magnetics used SBIR funding to develop a drug making it easier for hospitals to find tumors in patients. The development of this drug increased company sales and allowed Advanced Magnetics to hire additional employees. This is exactly the kind of economic growth we need in this nation, because jobs in the high-technology field pay well and raise everyone's standard of living. That is why I am such a strong supporter and proponent of the SBIR program and fully support its reauthorization.

This legislation also includes H.R. 2614, which reauthorizes SBA's 504 loan program, which passed the Senate on June 14, 2000. The bill and our managers' amendment make common-sense changes to this critical economic development tool. These changes will greatly increase the opportunity for small business owners to build a facility, buy more equipment, or acquire a new building. In turn, small business owners will be able to expand their companies and hire new workers, ultimately resulting in an improved local economy.

Since 1980, over 25,000 businesses have received more than $20 billion in fixed-asset financing through the 504 program. In my home state of Massachusetts, over the last decade small businesses have received $318 million in 504 loans that created more than 10,000 jobs. The stories behind those numbers say a lot about how SBA's 504 loans help business owners and communities. For instance, in Fall River, Massachusetts, owners Patricia Ladino and Russell Young developed a custom packing plant for scallops and shrimp that has grown from ten to 30 employees in just two short years and is in the process of another expansion that will add as many as 25 new jobs.

Under this reauthorization bill, the maximum debenture size for Section 504 loans has been increased from $750,000 to $1 million. For loans that meet special public policy goals, the maximum debenture size has been increased from $1 million to $1.3 million. It has been a decade since we increased the maximum guarantee amount. If we were to change it to keep pace with inflation, the maximum guarantee would be approximately $1.25 million instead of $1 million. Instead of implementing such a sharp increase, we are striking a balance between rising costs and increasing the government's exposure and only seeking to increase the cap to $1 million.

I am pleased to say that this legislation also includes a provision assisting women-owned businesses, which I first introduced in 1998 as part of S. 2448, the Small Business Loan Enhancement Act. This provision adds women-owned businesses to the current list of businesses eligible for the larger public policy loans. As the role of women-owned businesses in our economy continues to increase, we would be remiss if we did not encourage their growth and success by adding them to this list.

The 504 loan program gets results. It expands the opportunities of small businesses, creates jobs and betters communities. It is crucial that it be reauthorized, and that is what this legislation does.

Another important program reauthorized under this legislation and strengthened by the managers' amendment is the Microloan program. I have long been a believer in microloans and their power to help people gain economic independence while improving

the communities in which they live. This bill authorizes lower levels for the microloan program than the Administration requested. Of course, I would prefer to have full funding because I believe it is important to expand the program so that it is available everywhere. But, compromise is part of the legislative process, and a moderate increase is better than none at all. Nevertheless, I will be monitoring usage of microloan technical assistance and have told Chairman BOND that the Senate Committee on Small Business should revisit the issue before the end of the three-year reauthorization period if the level authorized is inadequate to meet program needs.

In addition to funding, our managers' amendment also makes important changes to the microloan program. We have heard from intermediaries and economic development activists around the country that with some administrative and legislative changes, this program could have a greater impact. This bill takes some important steps in the right direction. Right now we have 156 microlending intermediaries. This bill will permit the program to grow to 250 in FY 2001; to 300 in FY 2002, and to 350 in FY 2003. It also increases loan levels and technical assistance levels over three years. With more technical assistance, we will be able to increase the number of intermediaries, and therefore reach more borrowers in rural areas or large states. I also support the provision to raise the cap on microloans from $25,000 to $35,000, making it adequate to help micro-entrepreneurs in states and urban areas where operating costs are more expensive. Senator SNOWE's provision to establish $1 million for peer-to-peer training for microlenders is also included. I strongly support this concept because it will help the program grow while maintaining its high quality and low loss rates.

Small Business Development Centers (SBDC) are also reauthorized under this legislation. SBDCs serve tens of thousands of small business owners and prospective owners every year. This bill takes a giant step to retool the formula that determines how much funding each state receives. This is an important program for all of our states and we want no confusion about its funding. Without this change, some states would have suffered sharp decreases in funding, disproportionate to their needs. I appreciate and am glad that the SBA and the Association of Small Business Development Centers worked with me to develop an acceptable formula so that small businesses continue to be adequately served.

This legislation also reauthorized the National Women's Business Council. For such a tiny office, with minimal funding and staff, it has managed to make a significant contribution to our understanding of the impact of women-owned businesses in our economy. It has also done pioneer work in raising awareness of business practices that work against women-owned business, such as some in the area of Federal procurement. Recently, they completed two studies that documented the world of Federal procurement and its impact on women-owned businesses.

According to the National Foundation for Women Business Owners, over the past decade, the number of women-owned businesses in this country has grown by 103 percent to an estimated 9.1 million firms. These firms generate almost $3.6 trillion in sales annually and employ more than 27.5 million workers. With the impact of women-owned businesses on our economy increasing at an unprecedented rate, Congress relies on the Council to serve as its eyes and ears as it anticipates the needs of this burgeoning entrepreneurial sector. Since it was established in 1988, the bipartisan Council has provided important unbiased advice and counsel to Congress.

This Act recognizes the Council's work and reauthorizes it for three years, from FY 2001 to 2003. It also increases the annual appropriation from $600,000 to $1 million. The increase in funding will allow the council to: support new and ongoing research; produce and distribute reports and recommendations prepared by the Council; and create an infrastructure to assist states develop women's business advisory councils, coordinate summits and establish an interstate communication network.

The Historically Underutilized Business Zone, or ''HUBZone'' program, which passed this Committee in 1997, has tremendous potential to create economic prosperity and development in those areas of our Nation that have not seen great rewards, even in this time of unprecedented economic health and stability. This program is similar to my New Markets legislation in that it creates an incentive to hire from, and perform work in, areas of this country that need assistance the most. This bill would authorize the HUBZone program at $10 million for the next 3 years, which is $5 million above the Administration's request.

Additionally, the managers' amendment included very important provisions to include those areas which were inadvertently missed when this legislation was crafted—namely, Indian tribal lands. I appreciate the willingness of the Committee on Indian Affairs to work with our Committee to create HUBZone opportunities in the states of Alaska and Hawaii, and in other Indian tribal lands.

The HUBZone section does not contain any provision addressing the interaction of the HUBZone and 8(a) minority contracting programs. I believe that the 8(a) program is an important and necessary tool to help minority small businesses receive access to government contracts. The Chairman and I agree that there is a need to enhance the participation of both 8(a) and HUBZone companies in Federal procurement. It is my intention that the Senate Committee on Small Business consider the issue of enhancing small business procurement in the next Congress.

The Senate managers' amendment also includes a provision relating to SBA's cosponsorship authority. This authority allows SBA and its programs to cosponsor events and activities with private sector entities, thus leveraging the Agency's limited resources. The managers' amendment extends the authority for three additional years. This provision also adds ''information and education'' to the types of assistance that can be provided to small businesses by public and private sector organizations working with the SBA. This provision was recommended by the SBA as an effective change to training programs that are jointly run by the SBA and partner organizations.

Mr. President, let me conclude by reminding my colleagues that all of our states benefit from the success and abundance of small businesses. This legislation makes their jobs a little easier. I ask my colleagues for their support of this important legislation.

REFERRAL OF S. 1840

Mr. KYL. Mr. President, I ask unanimous consent that when the Committee on Indian Affairs reports S. 1840, a bill to provide for the transfer of public lands to certain California Indian tribes, it then be referred to the Energy Committee for a period not to exceed 7 calendar days. I further ask consent that if S. 1840 is not reported prior to the 7 days, the bill then be discharged from the Energy Committee and placed on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR TUESDAY, OCTOBER 3, 2000

Mr. KYL. Mr. President, I ask unanimous consent that when the Senate completes its business today, it recess until the hour of 9:30 a.m. on Tuesday, October 3. I further ask unanimous consent that on Tuesday, immediately following the prayer, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and the Senate then begin final remarks on the H–1B visa legislation under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KYL. I further ask unanimous consent that the Senate stand in recess for the weekly party conferences to meet from 12:30 to 2:15 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. KYL. For the information of all Senators, the Senate will begin closing remarks on the H–1B visa bill at 9:30 a.m. Following 30 minutes of debate, the Senate will proceed to vote on the bill. The Senate will then proceed to executive session with several hours of debate on judges and up to four votes could occur after 2 p.m.

RECESS UNTIL TUESDAY, OCTOBER 3, 2000

Mr. KYL. Mr. President, if there is no further business to come before the Senate, I now ask unanimous consent the Senate stand in recess under the previous order.

There being no objection, the Senate, at 6:32 p.m., recessed until Tuesday, October 3, 2000, at 9:30 a.m.

NOMINATIONS

Executive nominations received by the Senate October 2, 2000:

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

RANDOLPH J. AGLEY, OF MICHIGAN, TO BE A MEMBER OF THE BOARD OF DIRECTORS OF THE CORPORATION FOR NATIONAL AND COMMUNITY SERVICE FOR A TERM OF ONE YEAR. (NEW POSITION)

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

REGINALD EARL JONES, OF MARYLAND, TO BE A MEMBER OF THE EQUAL EMPLOYMENT OPPORTUNITY COMMISSION FOR A TERM EXPIRING JULY 1, 2005. (REAPPOINTMENT)

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

HSIN-MING FUNG, OF CALIFORNIA, TO BE A MEMBER OF THE NATIONAL COUNCIL ON THE ARTS FOR A TERM EXPIRING SEPTEMBER 3, 2006, VICE SPEIGHT JENKINS, TERM EXPIRED.

UNITED STATES PAROLE COMMISSION

EDWARD F. REILLY, JR., OF KANSAS, TO BE A COMMISSIONER OF THE UNITED STATES PAROLE COMMISSION FOR A TERM OF SIX YEARS, VICE JOHN R. SIMPSON, TERM EXPIRED.

SOCIAL SECURITY ADVISORY BOARD

MARK A. WEINBERGER, OF MARYLAND, TO BE A MEMBER OF THE SOCIAL SECURITY ADVISORY BOARD FOR A TERM EXPIRING SEPTEMBER 30, 2006, VICE HARLAN MATHEWS, RESIGNED.

IN THE AIR FORCE

THE FOLLOWING NAMED OFFICERS FOR REGULAR APPOINTMENT IN THE GRADE INDICATED IN THE UNITED STATES AIR FORCE UNDER TITLE 10, U.S.C., SECTION 2114:

TO BE CAPTAIN

JOHN B. STETSON, 0000
CHRISTINE E. THOLEN, 0000

HOUSE OF REPRESENTATIVES—*Monday, October 2, 2000*

The House met at 12:30 p.m. and was called to order by the Speaker pro tempore (Mr. STEARNS).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
October 2, 2000.

I hereby appoint the Honorable CLIFF STEARNS to act as Speaker pro tempore on this day.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

MORNING HOUR DEBATES

The SPEAKER pro tempore. Pursuant to the order of the House of January 19, 1999, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning hour debates. The Chair will alternate recognition between the parties, with each party limited to not to exceed 30 minutes, and each Member, except the majority leader, the minority leader, or the minority whip, limited to not to exceed 5 minutes.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12 of rule I, the Chair declares the House in recess until 2 p.m.

Accordingly (at 12 o'clock and 31 minutes p.m.), the House stood in recess until 2 p.m.

□ 1400

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. PEASE) at 2 p.m.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Throughout our religious history and the story of this Nation, You have tried to teach us, O Lord. In Jesus, in the prophets and even in our own times, You tell us: ''the just suffer for the unjust to lead us closer to You.''

If we read the stories with the eyes of faith, we come to see that even suffering has a purpose.

Any difficulty or period of trial can bring us closer to You, O Lord.

In the ancient story of Noah or in early patriotic stories of this Nation, You teach us that people cannot only come through periods of testing safely, they can, in their suffering, discover Your holy presence as never before.

As we listen to the stories of victims who become survivors, we marvel at the strength they find in You, O Lord. Their witness becomes our call to be renewed in faith.

Your faithfulness remains now and forever.

Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Ohio (Mr. LATOURETTE) come forward and lead the House in the Pledge of Allegiance.

Mr. LATOURETTE led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

PAY THE NATION'S BILLS

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, when I was getting ready to come to Washington today, I put on this suit which I had not worn in quite a while; and when I reached into my pocket, I found, much to my surprise, a $10 bill.

I pulled it out and said to my wife, Dawn, ''Look, honey, $10.'' It was kind of like having free money.

But she quickly reminded me and shook her head, took the $10, and told me that we still had bills to pay.

It reminded me of the budget battle that we are facing today here in this House. And since our Democrats like our Nation's surplus, think of it as free money, but it is not.

My colleagues, we still have a big bill to pay of our Nation's public debt. And the surplus would not have been possible without the common sense policies of this Republican Congress. And now we must exercise the same responsibility with the surplus and reject the Democrats' big spending plans.

We can pay down the national debt and meet this Nation's most pressing needs, like enacting prescription drug plans that offer seniors real choice. But we must commit 90 percent of the surplus to paying our bills to wiping out our public debt, because no one is going to reach into the pocket of an old suit and pull out $6.5 trillion.

SALUTING 100TH ANNIVERSARY OF BELLWOOD, ILLINOIS

(Mr. DAVIS of Illinois asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DAVIS of Illinois. Mr. Speaker, today I rise to salute the village of Bellwood, Illinois, which is celebrating its 100th year anniversary. It is a quiet, quaint little village made up of some of the finest people in this country.

One of the ways that they decided to celebrate their 100th year anniversary was to give away 100 appreciation slips to individuals who had performed acts of kindness. And so, anybody who wanted to submit a person who performed an act of kindness in the village of Bellwood, all they had to do was submit to the mayor.

So I commend Mayor Donald T. Lemm, all of the members of the board of trustees, and wish them another great 100 years.

STAR WITNESS IN PAN AM 103 TRIAL IS CIA INFORMANT

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, the star witness in the Pan Am 103 trial turns out to be a paid CIA informant who lied through his teeth. Reports say his testimony was so phoney his nose is still growing.

Beam me up, Mr. Speaker.

The families of the victims deserve the truth.

An original Mossad report said that Iran hired Ahmed Jibrial and all this attention on Malta is simply to cover up a drug run from Frankfurt to New York by an operative who was close to the CIA that embarrasses the CIA.

It is time to investigate the truth.

I yield back the fact that, if these two Libyans were responsible for blowing up Pan Am 103, they have already choked on a chicken bone in a jail cell of Qadhafi's.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to the provisions of clause 8 of rule XX, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Such record votes, if postponed, will be taken after debate has concluded on all motions to suspend the rules but not before 6 p.m. today.

LARRY SMALL POST OFFICE BUILDING

Mr. LATOURETTE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4315) to designate the facility of the United States Postal Service located at 3695 Green Road in Beachwood, Ohio, as the ''Larry Small Post Office Building.''

The Clerk read as follows:

H.R. 4315

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. LARRY SMALL POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 3695 Green Road in Beachwood, Ohio, shall be known and designated as the ''Larry Small Post Office Building''.

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the ''Larry Small Post Office Building''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Ohio (Mr. LATOURETTE) and the gentleman from Illinois (Mr. DAVIS) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. LATOURETTE).

GENERAL LEAVE

Mr. LATOURETTE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 4315.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 4315.

Mr. Speaker, today I ask my colleagues to support H.R. 4315, which will designate the post office located at 3695 Green Road in Beachwood, Ohio, as the ''Larry Small Post Office Building.''

I can really think of no person more deserving of this honor than Larry Small. My colleagues would be hard pressed, Mr. Speaker, to find a person who cares for, about, or has done more for the city of Beachwood, Ohio, a thriving Cleveland suburb. I am pleased that all 19 members of the Ohio delegation are supporting this measure, as required by the rules of our subcommittee.

Mr. Speaker, Larry Small, at the young age of 82, decided to retire last year after 32 years serving on the Beachwood City Council and numerous civic organizations. He prides himself on being a voice of the people and is just as accessible and helpful to the common man as those in loftier positions. He counts among his friends my good friend and colleague, the gentlewoman from Ohio (Mrs. JONES).

The gentlewoman from Ohio (Mrs. JONES) and I have the honor of splitting in this world of gerrymandering the city of Beachwood, Ohio; and she is a cosponsor of this legislation.

I would note, for the RECORD, that travel difficulties make it impossible for her to be here at this hour; and even though I have asked for general leave, Mr. Speaker, I specifically ask unanimous consent that the gentlewoman from Ohio (Mrs. JONES) have the opportunity to supplement the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. LATOURETTE. Mr. Speaker, Mr. Small also counts among his friends former Congressman Ed Feighan and also worked with George Stephanopolous when he was a staffer for Congressman Feighan.

Larry Small has witnessed the tremendous transformation and growth of Beachwood over the last four decades.

In 1960, when Beachwood first attained city status, it had a population of just over 6,000 residents. Today there are more than 2,900 homes, more than 21 apartments and condominiums, and the population exceeds 12,000. The city covers just six square miles.

When Larry Small was first elected to the Beachwood Council, the city has had a tax duplicate of less than $50 million. Today it is more than half a billion dollars.

Larry is credited with developing a full-time fire department and bringing parademics to the city's safety forces. He has been a loyal friend to the police and fire departments over the years. He is also responsible for enacting a city ordinance making gun owners responsible for the safe and secure handling and storage of their firearms.

Mr. Speaker, Larry Small was also behind the creation of the city's human services department. And let me tell my colleagues that that department is certainly responsive to the residents' needs, particularly those of the elderly.

For example, the department has joined forces with Beachwood High School to offer free driveway apron and walkway snow shoveling to the residents in the city over the age of 60. And I want to tell my colleagues that this is no small undertaking, as the city of Beachwood lies within the snowbelt in Cleveland.

In this unique program, members of the high school's freshman class have volunteered their time to shovel so the lives of the city's elderly population are made easier. All the older residents have to do is call up the high school, the human services department and the student will come to their home and shovel at their earliest convenience.

Larry Small also deserves credit for overseeing the development of most of the great recreational facilities in Beachwood, including the Beachwood pool. As a matter of fact, rumor has it that Larry carried around the blueprints of the swimming pool in the trunk of his car for 8 months after the pool was completed. He has been dubbed the ''Father of the Beachwood Pool'' by the local newspaper.

Larry Small, Mr. Speaker, is not just a wonderful guardian of the city of Beachwood but also anyone in need. When he was on the council, he personally responded to about a thousand calls from residents each year.

Now, though formally retired from the city council, Larry Small still gets up each day at 5:30 in the morning, heads to his day job as a seniors affair specialist for the county. He is always there to help other seniors or point them in the right direction. He is a champion of senior rights.

Mr. Speaker, the city of Beachwood, Ohio, honored Larry Small by designating December 20, 1999, as ''Larry Small Day.'' It is now time for the Congress to honor him as well and name the post office on Green Road in Beachwood the ''Larry Small Post Office Building.''

Mr. Speaker, I reserve the balance of my time.

Mr. DAVIS of Illinois. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as a member of the Subcommittee on the Postal Service, I am pleased to join with my subcommittee chairman, the gentleman from Ohio (Mr. LATOURETTE), in the consideration of H.R. 4315, a bill to designate a facility of the U.S. Postal Service after Larry Small.

H.R. 4315 was introduced by the gentleman from Ohio (Mr. LATOURETTE) on April 13, 2000, and originally cosponsored by the gentlewoman from Ohio (Mrs. JONES).

I am pleased to note that H.R. 4315 enjoys the support and cosponsorship of the entire Ohio congressional delegation.

Mr. Small, a young man of 82 years, has been recognized for his untiring efforts to serve his community of Beachwood, Ohio. He recently retired after serving 32 years as a member of the Beachwood City Council.

Anybody who would serve 32 years on a city council deserves all of the recognition and honor that they can get any time no matter which city they are from but certainly, from Beachwood. He is indeed deserving of the honor. Currently he serves as a senior affairs specialist for the county.

As an active member of the city council, Mr. Small was responsible for establishing a paramedic unit, creating a human resources department, and for ensuring the enactment of a city ordinance making gun owners responsible for the safe and secure handling of their firearms. And for that he should not just be honored, he should receive a badge of merit.

Mr. Speaker, the gentleman from Ohio (Mr. LATOURETTE) and the gentlewoman from Ohio (Mrs. JONES) are to be commended for seeking to honor such an individual, a man of wisdom whose commitment and vision are an inspiration to all of those who have known him. And so, accordingly, I would urge the swift consideration of this bill.

Mr. Speaker, I commend the gentleman from Ohio (Mr. LATOURETTE) on the selection of an outstanding individual to be honored.

Mr. Speaker, seeing that I have no further requests for time, I yield back the balance of my time.

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I just want to thank my distinguished colleague, the gentleman from Illinois (Mr. DAVIS) for his comments.

I urge our colleagues to support the bill.

Ms. JONES of Ohio. Mr. Speaker, it gives me great pleasure to speak on support of this legislation. I can think of no one more deserving of this tribute.

Larry Small served with distinction on the Beachwood City Council for 32 years, retiring just recently at the age of 82. Mr. Small is so well thought of by his neighbors that they paid tribute to him by declaring December 20, 1999 ''Larry Small Day.''

Larry Small is an exceedingly modest man never seeks to bring attention to his many accomplishments and contributions. So let me do it for him:

Over the years, Mr. Small has done many things, great and small, to improve his community and to enhance the lives of his neighbors. For example, he brought paramedics to the city's safety forces and vigorously supported the police and fire departments. He is also responsible for enacting a city ordinance making gun owners responsible for the safe and secure handling and storage of their firearms. He also created Beachwood's Human Services Department, a department that responds to residents' needs, particularly the elderly.

Retirement from City Council doesn't mean that Larry Small has retired from his commitment to his community. In fact, he continues at full pace to brighten the lives of others. Mr. Small still gets up at 5:30 a.m. and heads to his day job as a seniors affairs specialist for the county.

When we look back on these times, it won't be the great names and famous faces that we most remember, but those quiet, humble, yet so effective public servants like Larry Small who will stand out in our hearts and memories. We all owe a debt of gratitude to Larry Small and those like him who walk humbly and serve others. For this reason, I am so pleased that we can thank Mr. Small for all he has done for us by naming the post office in his beloved city of Beachwood after him.

So it gives me great pleasure to have a chance to support this piece of legislation. I stand wholeheartedly in support of this bill and congratulate my colleagues in moving to passing this legislation to rename the post office in Beachwood, Ohio after our great friend, Larry Small.

Mr. LATOURETTE. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. LATOURETTE) that the House suspend the rules and pass the bill, H.R. 4315.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

□ 1415

CELEBRATING THE BIRTH OF JAMES MADISON

Mr. LATOURETTE. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 396) celebrating the birth of James Madison and his contributions to the Nation.

The Clerk read as follows:

H. CON. RES. 396

Whereas March 16, 2001, is the 250th anniversary of the birth of James Madison, Father of the United States Constitution and fourth President of the United States;

Whereas the ideals of James Madison, as expressed in the Constitution he conceived for the American Nation and in the principles of freedom he established in the Bill of Rights, are the foundations of American Government and life;

Whereas James Madison's lifetime of public service, as a member of the Virginia House of Delegates, as a delegate to the Continental Congress during the American Revolution, as a delegate to the Constitutional Convention in 1787, as a leader in the House of Representatives, as Secretary of State, and as the Nation's fourth President, are an inspiration to all men, women, and children in the conduct of their personal and private lives; and

Whereas the ideals and inspiring example of James Madison are of utmost importance to the future of the American Nation as it enters a new millennium: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress—

(1) recognizes the historical significance of James Madison's birth, as well as his contributions to the Nation during his lifetime;

(2) urges all American patriotic and civil associations, labor organizations, schools, universities, historical societies, and communities of learning and worship, together with citizens throughout the United States, to develop appropriate programs and educational activities to recognize and celebrate the life and achievements of James Madison; and

(3) requests that the President issue a proclamation recognizing the 250th anniversary of the birth of James Madison and calling upon the people of the United States to observe the life and legacy of James Madison with appropriate ceremonies and activities.

The SPEAKER pro tempore (Mr. Pease). Pursuant to the rule, the gentleman from Ohio (Mr. LATOURETTE) and the gentleman from Maryland (Mr. CUMMINGS) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. LATOURETTE).

GENERAL LEAVE

Mr. LATOURETTE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Con. Res. 396.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

I am pleased today to rise in support of H. Con. Res. 396, which celebrates the 250th anniversary of James Madison's birth and his contributions to this great Nation.

This resolution recognizes the historical significance of Madison's birth and his many contributions to the United States during his lifetime. It also encourages American patriotic and civic associations, historical societies, schools, universities, and other organizations to develop appropriate programs and educational activities to recognize and celebrate the life of this remarkable man.

Finally, Mr. Speaker, the resolution asks that the President issue an appropriate resolution to recognize the importance of his birth and call upon the people of the United States to observe Madison's life and legacy with appropriate ceremonies and activities.

Mr. Speaker, it is impossible to do justice to James Madison's achievements and the importance of his life and thought to America in the brief time allotted to us today. His was truly one of the most consequential lives in American history. His biography is also a history of the founding of this great Nation.

Let me today simply attempt to sketch some aspects of his life. Madison was born in 1751 and was raised in Orange County, Virginia. He attended what is now Princeton University; and he became well read in history, government, and the law. He participated in the framing of the Virginia constitution in 1776, served in the Continental

Congress, and was an important figure in the Virginia Assembly. He was also, of course, Thomas Jefferson's Secretary of State and the fourth President of the United States.

Madison's greatest contribution, however, may have been his role in framing the Constitution of the United States. As a delegate to the Constitutional Convention at Philadelphia, Madison was a leading participant in the debates of that body. Along with John Jay and Alexander Hamilton, Madison also contributed to securing the ratification of the Constitution by authoring parts of the Federalist Papers. Not only were the Federalist Papers important in persuading his contemporaries to ratify the Constitution, they are consulted to this day by judges, lawyers, political scientists and others who seek an understanding of the framers' intent.

Madison's ''Notes on the Constitutional Convention'' are also our primary source of information on the debates at the Constitutional Convention. As a Member of Congress, Madison was instrumental in framing the Bill of Rights. Madison's contributions to the drafting and ratification of the Constitution were so great, Mr. Speaker, that he is often referred to as ''the father of the Constitution.''

Mr. Speaker, there is much more to say about James Madison and his continuing importance to all Americans, much more than can be covered here today. I encourage all Americans to learn about this man whose ideals and principles are, as the resolution recognizes, ''the foundations of American government and life.'' As the resolution states, the ''ideals and inspiring example of James Madison are of utmost importance to the future of the American Nation as it enters a new millennium.''

That is why I urge all Members to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. CUMMINGS. Mr. Speaker, I yield myself such time as I may consume.

I first of all want to thank the gentleman from Virginia (Mr. BLILEY) for this resolution. I want to thank the gentleman from Ohio (Mr. LATOURETTE), and I want to associate myself with his words that were just spoken.

Mr. Speaker, James Madison, a young aristocrat who began his public career in public service at age 23, would become indelibly linked to three great works of American democracy: the Constitution, the Federalist Papers, and the Bill of Rights.

In 1776, Madison was a member of the Virginia constitutional committee, a body that drafted Virginia's first constitution and a bill of rights which later would become a model for the Bill of Rights appended to the United States Constitution. When Madison was elected to the United States House of Representatives, he became the primary author of the first 12 proposed amendments to the Constitution. Ten of these, the Bill of Rights, were adopted.

At the Constitutional Convention, which opened on May 25, 1787, Madison set the tone by introducing a document he authored called ''The Virginia Plan.'' The plan called for a strong central government consisting of a supreme legislature, executive and judiciary. It provided for a national legislature consisting of two houses, one elected by the people and the other appointed by the first from a body of nominees submitted by State legislatures. Representation in these bodies would be based on the population of the States. It provided for an executive to be elected by this national legislature. The plan also defined a national judiciary and a council of revision charged with reviewing the constitutionality of legislation.

As the driving force in the formation of the Constitution, James Madison organized the convention, set the agenda, and worked through many obstacles that threatened the process. The notes he took throughout the convention constitute this country's best and most complete record of the 1787 Constitutional Convention. Madison's notes, which comprise a third of the Federalist Papers, were published in the 1830s.

As we honor James Madison today, we remember his role in the great debate on slavery. He openly acknowledged that slavery was a great evil, was a member of an antislavery society, and even authored a plan for the emancipation of slaves. Nevertheless, history documents that he continued to regard and hold slaves as property until his death. In fact, he himself said that slaves remain such in spite of the declarations that all men are born equally free.

As I reflect on this serious dichotomy, I am mindful of a quote from Madison's 1810 State of the Union address that is applicable to our modern society.

He stated that ''American citizens are instrumental in carrying on a traffic in enslaved Africans, equally in violation of the laws of humanity and in defiance of those of their own country. The same just and benevolent motives which produced interdiction in force against this criminal conduct will doubtless be felt by Congress in devising further means of suppressing the evil.''

It is my hope that 190 years later, this Congress heeds these words and makes a strong commitment to suppressing the evil of racism and prejudice against minorities that exists today.

As this Congress labors through this week to complete its work on the many pending appropriations bills, I urge my colleagues to keep one of Madison's messages on public leadership in mind. Mr. Speaker, he said, ''The aim of every political constitution is, or ought to be, first to obtain for rulers men and women who possess most wisdom to discern, and most virtue to pursue, the common good of the society.''

I believe that all of us who are elected, Mr. Speaker, to serve in the Congress come to serve the common good and hope that when we conclude this session it is reflected in the work we have done.

Mr. Speaker, I urge my colleagues to vote in favor of this very important and significant resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. LATOURETTE. Mr. Speaker, it is my pleasure to yield such time as he may consume to the gentleman from Virginia (Mr. BLILEY), the author of the resolution and the distinguished chairman of the Committee on Commerce.

Mr. BLILEY. I thank the gentleman for yielding me this time.

Mr. Speaker, as the proud holder of the congressional seat first held by James Madison, I introduce House Concurrent Resolution 396 in order to celebrate the 250th anniversary of his birth. I am hopeful that passage of this resolution will encourage our schools, museums, historical societies, and citizens to rediscover the important role James Madison played in founding this Nation.

While the actual anniversary is not until March 16, 2001, quick passage of this resolution will give these interested groups the time to plan events, exhibitions, and lessons in his honor. We can use this anniversary to highlight Madison's tireless service on behalf of the Commonwealth of Virginia and this country.

While many remember James Madison as our Nation's fourth President, he also served as a member of the Virginia House of Delegates, as a delegate to the Continental Congress during the American Revolution, as a delegate to the Constitutional Convention in 1787, as a leader in the House of Representatives, and as Secretary of State. For his many years in public service, we are a grateful Nation. The anniversary also affords us the opportunity to fully appreciate Madison's role as one of the Founding Fathers.

The United States has become a thriving, powerful Nation largely because of the sound principles established by our Founding Fathers in the Constitution. These principles have endured despite the passage of many years and having guided this Nation through challenging times.

As Members of this deliberative body, we have from time to time disagreed on the details of various legislative proposals. However, we remain steadfast

in our support for the fundamental principles which serve as the foundation of our government.

James Madison, commonly referred to as the Father of the Constitution, ensured the inclusion of these principles in the Constitution and therefore deserves due credit. I would also like to point out that we hear a lot of talk these days and have in the past few years about term limits. That matter was on the floor of the Constitutional Convention in 1787. Mr. Madison said, and I think quite rightly, the answer is not term limits; the answer is frequent elections so that the public can choose between experience and somebody new.

The contributions he made during his lifetime of public service are his enduring legacy and should be commemorated. I thank the gentleman from Maryland for his kind words.

Mr. CUMMINGS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to first associate myself with the distinguished gentleman from Virginia's comments. I just want to quote a letter to W.T. Barry from President Madison dated August 4, 1822. It is one of my favorite quotes, Mr. Speaker, and I will end with this. He said:

''A popular government, without popular information, or the means of acquiring it, is but a prologue to a farce or a tragedy, or perhaps both. Knowledge will forever govern ignorance and a people who mean to be their own governors must arm themselves with the power which knowledge gives.''

He goes on to say, ''Learned institutions ought to be favorite objects with every free people. They throw that light over the public mind which is the best security against crafty and dangerous encroachments on the public liberty.''

Mr. Speaker, I again thank everybody who had anything to do with bringing this resolution to this floor today. I urge all of my colleagues to vote in favor of it.

Mr. Speaker, I yield back the balance of my time.

Mr. LATOURETTE. Mr. Speaker, I yield myself the balance of my time. I want to commend the gentleman from Virginia (Mr. BLILEY) for not only introducing this resolution but also pushing so hard to make sure that it was brought to the floor today. I also want to thank the gentleman from Florida (Mr. SCARBOROUGH), who is the chairman of the Subcommittee on Civil Service of the Committee on Government Reform, and the gentleman from Maryland (Mr. CUMMINGS), who is the ranking member. Also thanks go out to the gentleman from Indiana (Mr. BURTON) and the gentleman from California (Mr. WAXMAN), the chairman and ranking member, for their support as well.

Mr. Speaker, this is a good resolution. I urge the House to support it.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. LATOURETTE) that the House suspend the rules and agree to the concurrent resolution, House Concurrent Resolution 396.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

CLIFFORD P. HANSEN FEDERAL COURTHOUSE

Mr. LATOURETTE. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1794) to designate the Federal courthouse at 145 East Simpson Avenue in Jackson, Wyoming, as the ''Clifford P. Hansen Federal Courthouse''.

The Clerk read as follows:

S. 1794

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION OF CLIFFORD P. HANSEN FEDERAL COURTHOUSE.

The Federal courthouse at 145 East Simpson Avenue in Jackson, Wyoming, shall be known and designated as the ''Clifford P. Hansen Federal Courthouse''.

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the Federal courthouse referred to in section 1 shall be deemed to be a reference to the Clifford P. Hansen Federal Courthouse.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Ohio (Mr. LATOURETTE) and the gentlewoman from the District of Columbia (Ms. NORTON) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. LATOURETTE).

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 1794 designates the Federal courthouse in Jackson, Wyoming, as the Clifford P. Hansen Federal Courthouse.

Senator Hansen was born in Zenith, Wyoming, in 1912. He attended the University of Wyoming where he would later serve on the university's board of trustees for over 2 decades. Shortly after graduating, he became a member of his local school board and began his lengthy and distinguished career as a public servant.

In 1963, he was elected governor of Wyoming and after completing his term was elected to serve Wyoming in the United States Senate. During his two terms as Senator, he was a crusader for the interests of the citizens of Wyoming and a guardian of private land ownership.

□ 1430

Upon completing his second term, Senator Hansen remained in his native State, continuing to serve the people of Wyoming in various capacities. The naming of this courthouse is a fitting tribute to a highly respected public servant. I urge my colleagues to support the bill.

Mr. Speaker, I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 1794 is a bill to designate the Federal Courthouse in Jackson, Wyoming, after one of Wyoming's most illustrious native sons, Clifford Hansen. Cliff Hansen was the Senator from Wyoming from 1967 until 1978. Prior to coming to the Senate, he served as the State's Governor from 1963 to 1966. His public career spans four decades of service to the citizens of Wyoming.

Beginning in the mid-1940s, Cliff Hansen worked to preserve the State's role in determining grazing issues, as well as tax issues associated with the creation of public lands. He was an advocate of mine safety and became a leader in determining the national energy policy.

Senator Hansen was vigilant in protecting Wyoming's fair share of royalties from oil and gas exploration. During his tenure in the Senate he worked with Senator Ribicoff to redefine the Tax Code to provide for equitable treatment of estate taxes for family-owned businesses.

It is fitting and proper to honor the former Governor and Senator, Cliff Hansen, by designating the Federal Courthouse in Jackson, Wyoming, in his honor, and I am pleased to join in doing so.

Mr. Speaker, I reserve the balance of my time.

Mr. LATOURETTE. Mr. Speaker, it is my pleasure to yield such time as she may consume to the gentlewoman from Wyoming (Mrs. CUBIN).

Mrs. CUBIN. Mr. Speaker, I rise today to honor one of Wyoming's most prized possessions and most precious assets, former United States Senator and Wyoming Governor Clifford P. Hansen.

Today I join my colleagues and the people of Wyoming to honor Cliff Hansen by designating the Jackson, Wyoming, Federal Courthouse in his name. Senator Hansen is a true Wyoming statesman. He has helped make our State special and our people proud of him and of our own heritage and who we are.

Senator Hansen and his wife, Martha, recently celebrated their 65th wedding anniversary. With their children, their grandchildren, and even great grandchildren, the Hansen family is a colorful thread in the fabric that makes Jackson Hole, Wyoming, and the surrounding areas and Wyoming itself unique.

Cliff Hansen lives in Jackson Hole at the foot of the famed Tetons. His achievements as both a United States Senator and a person are as majestic as those towering peaks. Our goal as fellow public servants should be to aspire to climb to the same personal heights that Senator Hansen achieved.

Senator Hansen has been a respected figure of public service in Wyoming and the American landscape for more than 40 years. He began at the local school board, was elected a Teton County Commissioner, moved on to the State House in Cheyenne as Wyoming's 26th Governor, and finally came here to Washington as a distinguished Member of the United States Senate.

Senator Hansen was so well regarded and his leadership so clear that President Ronald Reagan asked him to be Secretary of the Interior not once, but twice. With his experience and his expertise regarding our public lands and the environment, there is no doubt he would have done an excellent job had he accepted.

He is quick to care, astutely understanding, and finds the best solutions to fit the need placed before him. Next to my own father, Senator Cliff Hansen is the man that I admire most. He and his loving wife, Martha, are wise, dear and trusted friends. Senator Cliff Hansen's remarkable accomplishments and distinguished record have made for an admirable career.

Wyoming has enjoyed a rich history of outstanding leaders and strong individuals. These men and women have sought the best for our small towns with big expectations. They have exemplified what it means to be a community leader.

Gracing the Federal Courthouse in Jackson Hole, Wyoming, with the great name of Clifford P. Hansen, considering that great legacy, is an appropriate symbol for what he and Wyoming stand for.

I ask my colleagues for their support of this legislation.

Ms. NORTON. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. LATOURETTE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Ohio (Mr. LATOURETTE) that the House suspend the rules and pass the Senate bill, S. 1794.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

THEODORE ROOSEVELT UNITED STATES COURTHOUSE

Mr. LATOURETTE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5267) to designate the United States courthouse located at 100 Federal Plaza in Central Islip, New York, as the ''Theodore Roosevelt United States Courthouse.''

The Clerk read as follows:

H.R. 5267

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION.

The United States courthouse located at 100 Federal Plaza in Central Islip, New York, shall be known and designated as the ''Theodore Roosevelt United States Courthouse''.

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the United States courthouse referred to in section 1 shall be deemed to be a reference to the ''Theodore Roosevelt United States Courthouse''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Ohio (Mr. LATOURETTE) and the gentlewoman from the District of Columbia (Ms. NORTON) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. LATOURETTE).

Mr. LaTOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 5267 designates the United States Courthouse in Central Islip, New York, as the Theodore Roosevelt United States Courthouse.

Theodore Roosevelt was born in New York City in 1858. He attended Harvard University, where he was elected Phi Beta Kappa and graduated in 1880. At the age of 23, he became a Member of the New York State Assembly. He served in the Assembly until 1884, when President Benjamin Harrison appointed him to the United States Civil Service Commission.

In 1897, President William McKinley appointed him Assistant Secretary of the Navy. During the Spanish-American War he resigned as Assistant Secretary and organized the First Regiment, United States Volunteer Cavalry, known as Roosevelt's Rough Riders. In 1899, he was elected Governor of New York and served for 1 year before being elected Vice President of the United States on the Republican ticket headed by President McKinley.

In September 1901, President McKinley was shot and died 3 days later in Buffalo, New York. On September 14, 1901, President Roosevelt took the oath of office and became President of the United States at the tender age of 42.

President Roosevelt championed reform legislation such as the Pure Food and Drug Act, the Meat Inspection Act and the Hepburn Act, which empowered the government to set railroad rates. During Roosevelt's Presidency the government initiated 30 major irrigation projects, added 125 million acres to the national forest reserves, and doubled the number of national parks.

Upon leaving office, President Roosevelt settled in Oyster Bay in Nassau County, New York, and engaged in literary pursuits. He passed away in 1919.

This designation is a fitting tribute to the 26th President of the United States. President Roosevelt was a Nobel Peace Prize recipient and well regarded for his conservation efforts.

I support this measure and urge my colleagues to do the same.

Mr. Speaker, I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I strongly support H.R. 5267, a bill to designate the United States Courthouse in Central Islip, New York, in honor of Theodore Roosevelt, the 26th President of the United States.

When Mr. Roosevelt became President, at not quite the age of 43, he became the youngest President in our Nation's history. With his youth and vigor he brought new excitement and vision to the Presidency as he led the country and the Congress and the executive branch toward progressive reforms and a strong foreign policy.

His civic career began as a 23-year-old person, when he was elected to the New York Assembly. He served also as the Police Commissioner for his birthplace, the City of New York, as Assistant Secretary for the U.S. Navy, and as Governor of New York.

During the Spanish-American War, he was a lieutenant colonel in the Rough Rider Regiment and became one of the war's most conspicuous heroes.

As President, Roosevelt viewed his role as ''steward'' for the American public. He believed he should take any necessary action for the public welfare, unless expressly forbidden by the Constitution or by law.

He strongly believed and endorsed a central role for the government, especially in arbitrating conflict between capital and labor. He was a ''trust buster'' par excellence. He ensured the construction of the Panama Canal to strengthen America's strategic position.

He was a leader in conservation, and many of his accomplishments are with us today, for example, the Grand Canyon, Muirs Woods and Devils Tower. We are thankful to him for establishing the Park Service and the National Park System. He was a champion of reserving open land for public use, and fostered irrigation projects as well as preserving land for game and bird sanctuaries. He received the Nobel Peace Prize for negotiating peace in the Russo-Japanese War. An inspiring speaker, he advocated a strenuous outdoor life.

Roosevelt holds a revered place in American history, and this designation is a fitting honor to the extraordinary life of this great President.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. LATOURETTE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. LATOURETTE) that the House suspend the rules and pass the bill, H.R. 5267.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

OWEN B. PICKETT UNITED STATES CUSTOMHOUSE

Mr. LATOURETTE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 5284) to designate the United States customhouse located at 101 East Main Street in Norfolk, Virginia, as the ''Owen B. Pickett United States Customhouse''.

The Clerk read as follows:

H.R. 5284

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION.

The United States customhouse located at 101 East Main Street in Norfolk, Virginia, shall be known and designated as the ''Owen B. Pickett United States Customhouse''.

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the United States customhouse referred to in section 1 shall be deemed to be a reference to the ''Owen B. Pickett United States Customhouse''.

SEC. 3. EFFECTIVE DATE.

This Act shall take effect on January 3, 2001.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Ohio (Mr. LATOURETTE) and the gentlewoman from the District of Columbia (Ms. NORTON) each will control 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. LATOURETTE).

Mr. LATOURETTE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 5284 designates the United States customhouse, in Norfolk, Virginia, as the Owen B. Pickett United States Customhouse.

Congressman PICKETT was born in Richmond, Virginia, and attended public schools. He is a graduate of Virginia Tech and the University of Richmond School of Law. In addition to being admitted to the Virginia and District of Columbia bar, he is also a certified public accountant.

Congressman PICKETT began his distinguished career in public service in 1972, when he was elected to the Virginia House of Delegates. While he was in the House of Delegates, Congressman PICKETT served on numerous boards and committees within the local community.

After 14 years in the House of Delegates, Congressman PICKETT was elected to the United States House of Representatives in 1986. Representing Virginia's Second District, which consists of the Nation's largest military complex of facilities serving commands of the Navy, Army, Coast Guard and the NATO Atlantic Command, Congressman PICKETT has been an ardent supporter of our Nation's military. Accordingly, he sits on the Committee on Armed Services and is the ranking member of the Subcommittee on Military Research and Development.

Congressman PICKETT is also a member of the Congressional Study Group on Germany, as well as the Congressional Study Groups on Japan and the Duma-Congress. He participated in the first Congress-Bundestag-Japanese Diet Trilateral seminar.

OWEN PICKETT is retiring from his lengthy and productive career in this body at the conclusion of this 106th Congress. While we will be losing a valuable Member, this legislation is a fitting gesture of our appreciation of his fine service.

I urge my colleagues to support the bill.

Mr. Speaker, I reserve the balance of my time.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I support H.R. 5284 as a fitting tribute to OWEN PICKETT. His service to the citizens not only of the second district of Virginia, but also to the citizens of this Nation, is exemplary. We owe a debt of gratitude to Congressman PICKETT for his diligence in pursuing military matters in particular.

Since he was first elected to Congress in 1986, OWEN PICKETT has devoted himself to ensuring that the United States military is technologically ready and superior to any other military force. He supported veterans programs, and a strong U.S. flag merchant fleet.

In addition to being a dedicated public servant, OWEN PICKETT is a lawyer and a certified public accountant. He is a devoted husband, father and grandfather to seven grandchildren. Mr. PICKETT is known as tenacious, but also as a gentleman, a willing listener and a consensus builder.

Mr. Speaker, this bill has broad bipartisan support, and every member of the Virginia delegation supports the bill. It is a most fitting to honor Mr. PICKETT with this designation.

Mr. SCOTT. Mr. Speaker, it is my pleasure to speak in support of the bill H.R. 5284, to name the U.S. Customhouse in Norfolk, Virginia, after our colleague, OWEN PICKETT, who will be retiring at the end of this session.

Mr. Speaker, the Members of the Virginia Congressional Delegation pride ourselves on our ability to work together for the common good of all who reside within the Commonwealth of Virginia. The fact that the Customhouse continues to serve its role in Hampton Roads is a perfect example of that, because while this building is physically located in the Third Congressional District, which I represent, OWEN interceded in the effort to preserve this 141 year old structure, which has been symbolic of the history of Norfolk and all of Hampton Roads.

The American flag was first raised over this building during the Civil War, and it has seen numerous renovations in its history.

Norfolk was one of the first ports in the Nation to have a customs office, and the Customhouse in Norfolk remains the first Federal building constructed in Virginia for business operations. It has been designated as one of the 12 most outstanding buildings constructed in Virginia since the Revolutionary War, and it is listed on the National Register of Historic Places.

Notwithstanding that history, when the new Federal Building in Norfolk was completed, employees of the Customs Service were moved out of the Customhouse and it was contemplated that the building would be turned into a restaurant or museum. But OWEN PICKETT demonstrated the leadership that makes things happen. He brought together the interested parties within the City of Norfolk, the General Services Administration and the U.S. Customs Service and secured the necessary funding for the renovation. On September 19 of this year, I was proud to participate, along with OWEN, in a ceremony to reopen the newly refurbished Customhouse in Norfolk.

Mr. Speaker, this is but one example of OWEN's record of public service. For nearly 29 years, he has worked tirelessly for the residents of his district and the Nation. He served 15 years in the Virginia General Assembly, and almost 14 years now he has represented the Second Congressional District of Virginia in the House of Representatives.

Prior to our service in Congress, OWEN PICKETT and I both served in the Virginia House of Delegates, where he was known as a conscientious and dedicated public servant. This reputation has continued with his service in Congress.

Representative PICKETT serves on the Committee on Armed Services. He is the ranking member on the Subcommittee on Military Research and Development, and he serves on the Subcommittee on Readiness. Throughout his career he has been a staunch advocate of our military and has championed the quality of life issues affecting military families. The Hampton Roads community has a significant military presence, including Oceana Naval Air Station and the Norfolk Naval Base, and I know our military community will miss OWEN and his steadfast advocacy on their behalf.

In addition to ensuring that our country is prepared to overcome any threats to our national security, OWEN has been on the front line of protecting our Nation's environment. As a member of the Committee on Resources, he has fought hard to remind his colleagues in Congress of the importance of a balanced approach to the protection of our natural resources and the environment.

As we head into the final weeks of this legislative session, Congressman PICKETT will no doubt continue to demonstrate his leadership in the House. By passing the bill, H.R. 5284, the Owen B. Pickett U.S. Customhouse will serve as a lasting reminder of his leadership and his dedication to the Second District of Virginia and to our Nation.

□ 2000

Mr. WELDON of Pennsylvania. Will the gentleman yield?

Mr. SCOTT. I yield to the gentleman from Pennsylvania.

Mr. WELDON of Pennsylvania. I thank my friend for yielding to me.

Mr. Speaker, I want to add to the gentleman's comments. I could not agree more with everything that the gentleman from Virginia said. I have had the pleasure of serving as the chairman of the Subcommittee on Military Research and Development and the gentleman from Virginia (Mr. PICKETT) is the ranking member. There is probably no finer gentleman in this Congress in either party someone who is dedicated, hard-working, conscientious and someone who I have the highest respect for.

Mr. Speaker, I just wanted to add my comments to that of the gentleman from Virginia (Mr. SCOTT) and will associate everything that he said about the gentleman from Virginia (Mr. PICKETT), applaud him for his positive note of the leadership of the gentleman from Virginia (Mr. PICKETT), and hope that our colleagues on both sides of the aisle will join in supporting the legislation the gentleman referred to.

Mr. ORTIZ. Mr. Speaker, I rise in support of H.R. 5284, designating the Owen B. Pickett U.S. Customhouse.

I want to commend the House for considering this legislation today because our colleague who is retiring shortly is indeed worthy of such an honor. I have worked with OWEN for the entire time I have served in the U.S. House of Representatives and he is a man who epitomizes the sort of public servant whose service is dedicated to his community.

I have traveled all over the world with OWEN in the pursuit of understanding the evolving needs of our uniformed military service members. You learn much about your colleagues when you travel together.

In Washington, OWEN is a hard-working member of the House Armed Services Committee and the Resources Committee. When you see him on the House floor, you might never know that this easy-going guy is wild at heart. He is a Harley-rider. He is also a surfer. None of these pastimes seemed even remotely consistent with the things I knew about OWEN from our work together in the House.

Also, for the last Congress, OWEN has been my across-the-hall neighbor in the Rayburn building. He is a generous host for me when I seek a change of scenery and we visit in his office until we get interrupted.

Designating a customhouse for OWEN PICKETT is a fitting tribute for a man who understands the importance of international trade to the economic development and well-being of his Tidewater constituents in Virginia.

If there is one thing that I would want to make sure everyone knows about OWEN, it is this: he is a tireless advocate for the constituents in his congressional district and for the men and women who serve the United States in our military's uniform.

Mr. Speaker, I commend the House for considering this legislation, and I urge its passage.

Mr. DAVIS of Virginia. Mr. Speaker, it is my privilege to rise today to honor our colleague, OWEN PICKETT of Virginia's 2nd Congressional District. After 29 years of serving the citizens of Virginia Beach and Norfolk, as well as the entire Commonwealth of Virginia, Mr. PICKETT has decided to retire from the United States House of Representatives.

My colleague, Mr. PICKETT, is a member of the Armed Services Committee and is the ranking member of the Subcommittee on Military Research and Development and serves on the Readiness Subcommittee and the MWR Panel. The 2nd Congressional District is heavily dependent on the massive concentration of naval installations, shipbuilders and shipping firms in the Hampton Roads harbor area, which ranks first in export tonnage among the nation's Atlantic ports.

The United States Navy Atlantic Fleet berthed in its home port of Norfolk is one of the greatest awe-inspiring sights in America, or anywhere. The aggregation of destructive power in the line of towering gray ships is probably greater than that of any single port in history. Over 100 ships are based here, with some 100,000 sailors and Marines, some $2 billion in annual spending. For these reasons, Congressman PICKETT has been an outspoken advocate for a strong, technologically superior military and has been tenacious in supporting military bases in his district. Mr. PICKETT, together with Senator JOHN WARNER and the late Congressman Herbert H. Bateman, have provided tremendous leadership on behalf of Virginia. Other issues on which he has taken a strong position are the U.S.-flag merchant fleet, private property rights, public education, veterans programs and a balanced Federal budget.

Mr. PICKETT was born in Hanover County, Virginia, outside Richmond on August 31, 1930 and was the youngest of three children. He attended the public school system and is a graduate of Virginia Tech and the University of Richmond School of Law. He was first elected to the United States Congress in 1986. With old Virginia roots, he was elected to the Virginia House of Delegates in 1971, at the age of 41, where he was known as a fiscal conservative and for his hard work restructuring the state retirement system.

By the time Mr. PICKETT won the Congressional seat vacated by retiring Republican G. William Whitehurst in 1986, Mr. PICKETT had already served as chairman of the state Democratic Party, headed a Democratic presidential campaign in Virginia and served long enough in the state House of Delegates to be a senior member of the Appropriations Committee.

In the House, Mr. PICKETT showed his political acumen by getting a new seat created for him on the National Security Committee and getting a seat on the old Merchant Marine Committee as well—two crucial spots for any Norfolk congressman. Much of Mr. PICKETT's work has been in supporting Hampton Roads military bases and defense contractors, and revitalizing the shipbuilding industry and merchant marine. That work has been successful. Newport News Shipbuilding and Drydock has been building three *Nimitz*-class aircraft carriers in the 1990s, and has effectively ensured that there is no industry monopoly on building nuclear submarines. The Norfolk Navy Shipyard under Mr. PICKETT's guidance has survived four rounds of base-closings and calls for privatization.

Mr. Speaker, I join with my fellow Virginian colleagues in thanking Congressman OWEN PICKETT for his service to the Commonwealth and to our nation.

Mr. BLILEY. Mr. Speaker, I rise today in support of this legislation naming a U.S. customhouse in Norfolk in honor of my good friend and colleague OWEN PICKETT.

During his 14 years in Congress, OWEN has been an outspoken advocate of a strong military and his commitment to military personnel and their families will leave a lasting mark on this nation for years to come.

His expertise on these matters will always be remembered by a grateful nation.

Along with his commitment to military readiness, OWEN has been an avid proponent for veterans, better public schools and a balanced federal budget.

He has been a tireless advocate in supporting Hampton Roads military bases and revitalizing the shipbuilding industry and merchant marine.

Upon his retirement, this nation and this Congress will lose a conscientious and very able legislator.

I would like to thank Mr. SCOTT for introducing this fitting tribute to a true gentleman and friend.

I wish OWEN all the best in his retirement.

Mr. MORAN of Virginia. Mr. Speaker, I rise in strong support of H.R. 5284, which would name the United States Customhouse in Norfolk, Virginia, after our retiring colleague and friend, OWEN PICKETT. I want to commend Mr. SCOTT for introducing this bill and working with both sides to bring it to the floor today.

Let me just say at the outset how appropriate it is that this particular federal building should bear the name of OWEN PICKETT. As the other speakers have said, OWEN was extremely instrumental in securing the needed funding for the renovation of the Customhouse.

He worked hard, as he always does, to bring together the General Services Administration (GSA), the Customs Service and other interested parties to work out the details of this project. It is in large part because of his hard work that the renovation of this historic

building was completed earlier this year. OWEN's work on the project constitutes a victory for historic preservation in Virginia.

Beyond this particular project, I want to say what an honor it has been to serve with OWEN PICKETT during the past ten years. Mr. PICKETT is a true gentleman. Throughout his service, OWEN has worked tirelessly and effectively not only for people not only in southern Virginia, but for our entire Nation. He has championed the interests of our Nation's military, and the men and women who wear the uniform of the United States. He has been a particularly strong advocate for the Navy and for our commercial maritime interests.

OWEN is also uncompromising in his insistence that government be fiscally disciplined, a trait which he probably acquired during his long service in the Virginia House of Delegates. The fact that he is retiring at a time of record surpluses is somehow fitting. It certainly wasn't that way when he came to the House in 1987.

Mr. Speaker, all of us in the House will certainly miss the service and dedication of OWEN PICKETT. I commend the leadership for bringing this bill to the floor in such an expeditious manner.

Ms. NORTON. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. LATOURETTE. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. LATourette) that the House suspend the rules and pass the bill, H.R. 5284.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. LATOURETTE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on S. 1794, H.R. 5267 and H.R. 5284, the bills just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

□ 1445

PRIVACY COMMISSION ACT

Mr. HORN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4049) to establish the Commission for the Comprehensive Study of Privacy Protection, as amended.

The Clerk read as follows:

H.R. 4049

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Privacy Commission Act''.

SEC. 2. FINDINGS.

The Congress finds the following:

(1) Americans are increasingly concerned about their civil liberties and the security and use of their personal information, including medical records, educational records, library records, magazine subscription records, records of purchases of goods and other payments, and driver's license numbers.

(2) Commercial entities are increasingly aware that consumers expect them to adopt privacy policies and take all appropriate steps to protect the personal information of consumers.

(3) There is a growing concern about the confidentiality of medical records, because there are inadequate Federal guidelines and a patchwork of confusing State and local rules regarding privacy protection for individually identifiable patient information.

(4) In light of recent changes in financial services laws allowing for increased sharing of information between traditional financial institutions and insurance entities, a coordinated and comprehensive review is necessary regarding the protections of personal data compiled by the health care, insurance, and financial services industries.

(5) The use of Social Security numbers has expanded beyond the uses originally intended.

(6) Use of the Internet has increased at astounding rates, with approximately 5 million current Internet sites and 64 million regular Internet users each month in the United States alone.

(7) Financial transactions over the Internet have increased at an astounding rate, with 17 million American households spending $20 billion shopping on the Internet last year.

(8) Use of the Internet as a medium for commercial activities will continue to grow, and it is estimated that by the end of 2000, 56 percent of the companies in the United States will sell their products on the Internet.

(9) There have been reports of surreptitious collection of consumer data by Internet marketers and questionable distribution of personal information by on-line companies.

(10) In 1999, the Federal Trade Commission found that 87 percent of Internet sites provided some form of privacy notice, which represented an increase from 15 percent in 1998.

(11) The United States is the leading economic and social force in the global information economy, largely because of a favorable regulatory climate and the free flow of information. It is important for the United States to continue that leadership. As nations and governing bodies around the world begin to establish privacy standards, these standards will directly affect the United States.

(12) The shift from an industry-focused economy to an information-focused economy calls for a reassessment of the most effective way to balance personal privacy and information use, keeping in mind the potential for unintended effects on technology development, innovation, the marketplace, and privacy needs.

(13) This Act shall not be construed to prohibit the enactment of legislation on privacy issues by the Congress during the existence of the Commission. It is the responsibility of the Congress to act to protect the privacy of individuals, including individuals' medical and financial information. Various committees of the Congress are currently reviewing legislation in the area of medical and financial privacy. Further study by the Commission established by this Act should not be considered a prerequisite for further consideration or enactment of financial or medical privacy legislation by the Congress.

SEC. 3. ESTABLISHMENT.

There is established a commission to be known as the ''Commission for the Comprehensive Study of Privacy Protection'' (in this Act referred to as the ''Commission'').

SEC. 4. DUTIES OF COMMISSION.

(a) STUDY.—The Commission shall conduct a study of issues relating to protection of individual privacy and the appropriate balance to be achieved between protecting individual privacy and allowing appropriate uses of information, including the following:

(1) The monitoring, collection, and distribution of personal information by Federal, State, and local governments, including personal information collected for a decennial census, and such personal information as a driver's license number.

(2) Current efforts to address the monitoring, collection, and distribution of personal information by Federal and State governments, individuals, or entities, including—

(A) existing statutes and regulations relating to the protection of individual privacy, such as section 552a of title 5, United States Code (commonly referred to as the Privacy Act of 1974) and section 552 of title 5, United States Code (commonly referred to as the Freedom of Information Act);

(B) legislation pending before the Congress;

(C) privacy protection efforts undertaken by the Federal Government, State governments, foreign governments, and international governing bodies;

(D) privacy protection efforts undertaken by the private sector; and

(E) self-regulatory efforts initiated by the private sector to respond to privacy issues.

(3) The monitoring, collection, and distribution of personal information by individuals or entities, including access to and use of medical records, financial records (including credit cards, automated teller machine cards, bank accounts, and Internet transactions), personal information provided to on-line sites accessible through the Internet, Social Security numbers, insurance records, education records, and driver's license numbers.

(4) Employer practices and policies with respect to the financial and health information of employees, including—

(A) whether employers use or disclose employee financial or health information for marketing, employment, or insurance underwriting purposes;

(B) what restrictions employers place on disclosure or use of employee financial or health information;

(C) employee rights to access, copy, and amend their own health records and financial information;

(D) what type of notice employers provide to employees regarding employer practices with respect to employee financial and health information; and

(E) practices of employer medical departments with respect to disclosing employee health information to administrative or other personnel of the employer.

(5) The extent to which individuals in the United States can obtain redress for privacy violations.

(6) The extent to which older individuals and disabled individuals are subject to exploitation involving the disclosure or use of their financial information.

(b) FIELD HEARINGS.—

(1) IN GENERAL.—The Commission shall conduct at least 2 field hearings in each of the 5 geographical regions of the United States.

(2) BOUNDARIES.—For purposes of this subsection, the Commission may determine the boundaries of the five geographical regions of the United States.

(c) REPORT.—

(1) IN GENERAL.—Not later than 18 months after appointment of all members of the Commission—

(A) a majority of the members of the Commission shall approve a report; and

(B) the Commission shall submit the approved report to the Congress and the President.

(2) CONTENTS.—The report shall include a detailed statement of findings, conclusions, and recommendations, including the following:

(A) Findings on potential threats posed to individual privacy.

(B) Analysis of purposes for which sharing of information is appropriate and beneficial to consumers.

(C) Analysis of the effectiveness of existing statutes, regulations, private sector self-regulatory efforts, technology advances, and market forces in protecting individual privacy.

(D) Recommendations on whether additional legislation is necessary, and if so, specific suggestions on proposals to reform or augment current laws and regulations relating to individual privacy.

(E) Analysis of purposes for which additional regulations may impose undue costs or burdens, or cause unintended consequences in other policy areas, such as security, law enforcement, medical research, or critical infrastructure protection.

(F) Cost analysis of legislative or regulatory changes proposed in the report.

(G) Analysis of the impact of altering existing protections for individual privacy on the overall operation and functionality of the Internet, including the impact on the private sector.

(H) Recommendations on non-legislative solutions to individual privacy concerns, including education, market-based measures, industry best practices, and new technology.

(I) Review of the effectiveness and utility of third-party verification of privacy statements, including specifically with respect to existing private sector self-regulatory efforts.

(d) ADDITIONAL REPORT.—Together with the report under subsection (c), the Commission shall submit to the Congress and the President any additional report of dissenting opinions or minority views by a member or members of the Commission.

(e) INTERIM REPORT.—The Commission may submit to the Congress and the President an interim report approved by a majority of the members of the Commission.

SEC. 5. MEMBERSHIP.

(a) NUMBER AND APPOINTMENT.—The Commission shall be composed of 17 members appointed as follows:

(1) 4 members appointed by the President.

(2) 4 members appointed by the majority leader of the Senate.

(3) 2 members appointed by the minority leader of the Senate.

(4) 4 members appointed by the Speaker of the House of Representatives.

(5) 2 members appointed by the minority leader of the House of Representatives.

(6) 1 member, who shall serve as Chairperson of the Commission, appointed jointly by the President, the majority leader of the Senate, and the Speaker of the House of Representatives.

(b) DIVERSITY OF VIEWS.—The appointing authorities under subsection (a) shall seek to ensure that the membership of the Commission has a diversity of views and experiences on the issues to be studied by the Commission, such as views and experiences of Federal, State, and local governments, the media, the academic community, consumer groups, public policy groups and other advocacy organizations, business and industry (including small business), the medical community, civil liberties experts, and the financial services industry.

(c) DATE OF APPOINTMENT.—The appointment of the members of the Commission shall be made not later than 30 days after the date of the enactment of this Act.

(d) TERMS.—Each member of the Commission shall be appointed for the life of the Commission.

(e) VACANCIES.—A vacancy in the Commission shall be filled in the same manner in which the original appointment was made.

(f) COMPENSATION; TRAVEL EXPENSES.—Members of the Commission shall serve without pay, but shall receive travel expenses, including per diem in lieu of subsistence, in accordance with sections 5702 and 5703 of title 5, United States Code.

(g) QUORUM.—A majority of the members of the Commission shall constitute a quorum, but a lesser number may hold hearings.

(h) MEETINGS.—

(1) IN GENERAL.—The Commission shall meet at the call of the Chairperson or a majority of its members.

(2) INITIAL MEETING.—Not later than 45 days after the date of the enactment of this Act, the Commission shall hold its initial meeting.

SEC. 6. DIRECTOR; STAFF; EXPERTS AND CONSULTANTS.

(a) DIRECTOR.—

(1) IN GENERAL.—Not later than 30 days after the appointment of the Chairperson of the Commission, the Chairperson of the Commission shall appoint a Director without regard to the provisions of title 5, United States Code, governing appointments to the competitive service.

(2) PAY.—The Director shall be paid at the rate payable for level III of the Executive Schedule established under section 5314 of such title.

(b) STAFF.—The Director may appoint staff as the Director determines appropriate.

(c) APPLICABILITY OF CERTAIN CIVIL SERVICE LAWS.—

(1) IN GENERAL.—The staff of the Commission shall be appointed without regard to the provisions of title 5, United States Code, governing appointments in the competitive service.

(2) PAY.—The staff of the Commission shall be paid in accordance with the provisions of chapter 51 and subchapter III of chapter 53 of that title relating to classification and General Schedule pay rates, but at rates not in excess of the maximum rate for grade GS–15 of the General Schedule under section 5332 of that title.

(d) EXPERTS AND CONSULTANTS.—The Director may procure temporary and intermittent services under section 3109(b) of title 5, United States Code.

(e) STAFF OF FEDERAL AGENCIES.—

(1) IN GENERAL.—Upon request of the Director, the head of any Federal department or agency may detail, on a reimbursable basis, any of the personnel of that department or agency to the Commission to assist it in carrying out this Act.

(2) NOTIFICATION.—Before making a request under this subsection, the Director shall give notice of the request to each member of the Commission.

SEC. 7. POWERS OF COMMISSION.

(a) HEARINGS AND SESSIONS.—The Commission may, for the purpose of carrying out this Act, hold hearings, sit and act at times and places, take testimony, and receive evidence as the Commission considers appropriate. The Commission may administer oaths or affirmations to witnesses appearing before it.

(b) POWERS OF MEMBERS AND AGENTS.—Any member or agent of the Commission may, if authorized by the Commission, take any action which the Commission is authorized to take by this section.

(c) OBTAINING OFFICIAL INFORMATION.—

(1) IN GENERAL.—Except as provided in paragraph (2), if the Chairperson of the Commission submits a request to a Federal department or agency for information necessary to enable the Commission to carry out this Act, the head of that department or agency shall furnish that information to the Commission.

(2) EXCEPTION FOR NATIONAL SECURITY.—If the head of that department or agency determines that it is necessary to guard that information from disclosure to protect the national security interests of the United States, the head shall not furnish that information to the Commission.

(d) MAILS.—The Commission may use the United States mails in the same manner and under the same conditions as other departments and agencies of the United States.

(e) ADMINISTRATIVE SUPPORT SERVICES.—Upon the request of the Director, the Administrator of General Services shall provide to the Commission, on a reimbursable basis, the administrative support services necessary for the Commission to carry out this Act.

(f) GIFTS AND DONATIONS.—The Commission may accept, use, and dispose of gifts or donations of services or property to carry out this Act, but only to the extent or in the amounts provided in advance in appropriation Acts.

(g) CONTRACTS.—The Commission may contract with and compensate persons and government agencies for supplies and services, without regard to section 3709 of the Revised Statutes (41 U.S.C. 5).

(h) SUBPOENA POWER.—

(1) IN GENERAL.—The Commission may issue subpoenas requiring the attendance and testimony of witnesses and the production of any evidence relating to any matter that the Commission is empowered to investigate by section 4. The attendance of witnesses and the production of evidence may be required by such subpoena from any place within the United States and at any specified place of hearing within the United States.

(2) FAILURE TO OBEY A SUBPOENA.—If a person refuses to obey a subpoena issued under paragraph (1), the Commission may apply to a United States district court for an order requiring that person to appear before the Commission to give testimony, produce evidence, or both, relating to the matter under investigation. The application may be made within the judicial district where the hearing is conducted or where that person is found, resides, or transacts business. Any failure to obey the order of the court may be punished by the court as civil contempt.

(3) SERVICE OF SUBPOENAS.—The subpoenas of the Commission shall be served in the manner provided for subpoenas issued by a

United States district court under the Federal Rules of Civil Procedure for the United States district courts.

(4) SERVICE OF PROCESS.—All process of any court to which application is made under paragraph (2) may be served in the judicial district in which the person required to be served resides or may be found.

(i) RULES.—The Commission shall adopt other rules as necessary for its operation.

SEC. 8. TERMINATION.

The Commission shall terminate 30 days after submitting a report under section 4(c).

SEC. 9. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated to the Commission $5,000,000 to carry out this Act.

(b) AVAILABILITY.—Any sums appropriated pursuant to the authorization in subsection (a) shall remain available until expended.

SEC. 10. BUDGET ACT COMPLIANCE.

Any new contract authority authorized by this Act shall be effective only to the extent or in the amounts provided in advance in appropriation Acts.

SEC. 11. PRIVACY PROTECTIONS.

(a) DESTRUCTION OR RETURN OF INFORMATION REQUIRED.—Upon the conclusion of the matter or need for which individually identifiable information was disclosed to the Commission, the Commission shall either destroy the individually identifiable information or return it to the person or entity from which it was obtained, unless the individual that is the subject of the individually identifiable information has authorized its disclosure.

(b) DISCLOSURE OF INFORMATION PROHIBITED.—The Commission—

(1) shall protect individually identifiable information from improper use; and

(2) may not disclose such information to any person, including the Congress or the President, unless the individual that is the subject of the information has authorized such a disclosure.

(c) PROPRIETARY BUSINESS INFORMATION AND FINANCIAL INFORMATION.—The Commission shall protect from improper use, and may not disclose to any person, proprietary business information and proprietary financial information that may be viewed or obtained by the Commission in the course of carrying out its duties under this Act.

(d) INDIVIDUALLY IDENTIFIABLE INFORMATION DEFINED.—For the purposes of this Act, the term ''individually identifiable information'' means any information, whether oral or recorded in any form or medium, that identifies an individual, or with respect to which there is a reasonable basis to believe that the information can be used to identify an individual.

The SPEAKER pro tempore (Mr. PEASE). Pursuant to the rule, the gentleman from California (Mr. HORN) and the gentleman from California (Mr. WAXMAN) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. HORN).

GENERAL LEAVE

Mr. HORN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 4049, as amended.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. HORN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4049 would establish a commission to engage in one of the Nation's most comprehensive examinations of privacy protection issues in more than 20 years.

A few key strokes on a computer can yield a quantity of information that was unimaginable 26 years ago when the privacy act of 1974 became law. From e-mail and e-commerce to e-government, technology has changed the way people communicate, shop, and pay their bills.

The downside of these advances is that a vast amount of personal information, such as credit cards and Social Security numbers, flows freely from home computers to commercial and government Web sites. Today, everything from medical records to income tax returns is being maintained in an electronic form and is often transmitted over the Internet.

Growing concern over protecting the privacy of those records has led to the proposal of approximately 7,000 State and local laws, and more than 50 Federal laws. This bill before the House today will provide a most important function in this debate. The commission will examine privacy policies and laws throughout the Nation.

The commission's work will help determine the extent to which the Nation's privacy laws and policies may need to be revised for today's information technology.

Mr. Speaker, H.R. 4049 was introduced on March 21, 2000, by the gentleman from Arkansas (Mr. HUTCHINSON) and the gentleman from Virginia (Mr. MORAN), a true bipartisan bill.

The Committee on Government Reform's Subcommittee on Government Management Information and Technology held 3 days of legislative hearings on the issue, including a day of hearings at the behest of the subcommittee's minority members. The subcommittee approved the bill on June 14, 2000; and the full committee finalized its work on the bill on June 29, 2000.

During the full committee's consideration, a number of amendments offered by the minority were adopted, and the bill was favorably reported to the full House.

Mr. Speaker, I yield such time as he may consume to the honorable gentleman from Arkansas (Mr. HUTCHINSON), the chief author of the bill, for further discussion.

Mr. HUTCHINSON. Mr. Speaker, I thank the gentleman from California (Mr. HORN) for yielding the time to me.

Mr. Speaker, I certainly rise in support of this legislation, the Privacy Commission Act, and I want to thank the gentleman from California (Mr. HORN) for his leadership and cooperation on this.

I want to thank the Democrat gentleman from Texas (Mr. TURNER) for his coauthorship of it.

I want to thank the gentleman from California (Mr. WAXMAN), the ranking member of the full committee, for his participation through this process, his very constructive criticisms and suggestions that he has offered. I think because of the gentleman's participation we have certainly made this a better product that has moved to the floor today.

I certainly also want to thank the gentleman from the State of Virginia (Mr. MORAN), my cosponsor, who from the very beginning has helped make this a bipartisan product which we have presented to this body.

If we look back over the issue of privacy, the last comprehensive look at privacy that we have had in our Nation was 25 years ago in 1974, and the report after that privacy study commission was privacy in the information age. Certainly that has changed in 25 years. But even that last commission gave us the hallmark of our privacy legislation today, the foundation of privacy here in the Federal Government.

That was 1974. Basically, it is time that we need to do it again, and I do believe that Congress understands the issue of privacy and the importance of this issue to the American people. The NBC-Wall Street Journal poll indicated that the number one issue of Americans as they enter the next century is the concern about loss of personal privacy, and so Congress understands that.

If we look at the issue of video rental records, we understand the public, and we do not want our video rental records disclosed to third parties, and we passed a law that prohibited that.

We understand that driver's license information should not be passed along and sold to commercial enterprises. We passed a law that restricted that.

When you look at cable stations and the knowledge as to what an individual, a consumer, clicks his channels and where he goes, we do not want that information passed along; and we pass a law that restricted it.

Tax returns, we passed a law obviously that restricts the transfer of information from a tax return. So we deal with privacy, but Congress should not end its work with what we have done thus far.

How about medical records? How about State law protection dealing with medical records; is that sufficient? Do we need a new Federal standard? How about the financial records? What do we need to do to further protect the transfer of financial information? And the answer is that regardless of what we can agree upon now, and I have sponsored various portions of privacy legislation and have moved forward, but regardless of what we agree upon now, we cannot end here.

We need to build a consensus; and this bill, this privacy study commission, is designed to build this consensus that we have not been able to

form yet. I think it will help us to enhance personal privacy and do the work that Congress should do.

Let me go to some of the particulars of this legislation. Obviously, the commission will consist of 17 members appointed by the President, the majority leader, minorities leader, Speaker of the House. So it certainly is bipartisan in the way that it is formulated, but it is tasked with numerous responsibilities from studying the current state of laws on individual privacy, to conducting field hearings across the country, listening to the people, as well as privacy experts.

We are to submit a report to Congress, this commission will, within a timely fashion; and even though 18 months is a drop-dead date, hopefully they will come back sooner, and they have specifically the right to come back sooner if they can reach that consensus.

The Committee on Commerce has stepped in and suggested some very important changes but are not dramatic in its impact. One of them is that the commission should look at the impact on the Internet and its functionality. Certainly we want to do that. It says that any commissioner or group of commissioners may dissent and submit a record, so there is nothing dramatic about those changes; but those have been some suggested improvements from the Committee on Commerce.

I want to talk for a second about the processes as the gentleman from California (Mr. HORN) just indicated. We have gone through 3 days of hearings. We have gone through markup in subcommittee and full committee, and it was during that time that I think we really improved this legislation. One of the suggestions that came from the Democrat side was suggested by the gentleman from California (Mr. WAXMAN), the ranking member, who said that we should make it clear that this legislation in no way should impede the passage of individual privacy legislation. The language that was suggested by the gentleman from California (Mr. WAXMAN) was included.

The gentlewoman from New York (Mrs. MALONEY) suggested very appropriately that the commission should look at the extent that older individuals are subject to exploitation involving the disclosure of use of their financial information. That was adopted in subcommittee.

Then the third-party verification efforts, an amendment sponsored as well by the gentlewoman from New York (Mrs. MALONEY) was adopted.

The importance of having civil liberties represented on the commission was accepted as well, and so there was tremendous improvement through this process. We have really followed the regular order as we have come to this full House.

This is a very important commission that I believe will do good work. It is important that we have a good vote today, that will send it on its way in a bipartisan way; and I think that when it comes back with a report, hopefully, and I see the gentleman from Massachusetts (Mr. MARKEY) joining us, that we can continue to work on individual privacy legislation between now and the end of this year and into next Congress.

In the meantime, regardless of what else happens, we need to have this commission that will continue to recommend and supplement what we are doing in this body and to assist in our efforts, and I urge my colleagues to support this common sense approach to privacy.

Mr. HORN. Mr. Speaker, I reserve the balance of my time.

Mr. WAXMAN. Mr. Speaker, I yield myself 3½ minutes.

Mr. Speaker, I want to compliment the gentleman from Arkansas (Mr. HUTCHINSON) and the gentleman from Virginia (Mr. MORAN) for their efforts to focus attention on the important issue of privacy. I believe that H.R. 4049 is a well-intentioned bill. The authors' sincerity in their motivation to improve privacy protections is a real one.

I strongly object, however, to the decision to bring up this bill as a suspension bill. Until today, we have had no opportunity to consider fundamental privacy legislation that matters to millions of Americans. And now that we have a bill, we are only provided with 20 minutes of debate time and no chance for amendments. And I think that is wrong.

Mr. Speaker, the gentleman from Arkansas (Mr. HUTCHINSON) said that his bill could go forward and other legislation on the subject of privacy could be considered at the same time. Well, the reality is that other legislation on privacy is not being considered at all. For example, the gentlewoman from New York (Ms. SLAUGHTER) has introduced genetic nondiscrimination and privacy legislation that has broad support; yet there has not even been a hearing on it.

The gentleman from California (Mr. CONDIT) introduced legislation with the gentleman from Massachusetts (Mr. MARKEY), the gentleman from Michigan (Mr. DINGELL), myself and many other colleagues to provide comprehensive medical privacy protections for American consumers. That bill, which is in the subcommittee of the gentleman from California (Mr. HORN), has not even been given a hearing.

The gentleman from New York (Mr. LAFALCE) and the gentleman from Massachusetts (Mr. MARKEY) have introduced comprehensive financial privacy protections; yet there has not even been a hearing on their bills.

Today, with consideration of H.R. 4049, the leadership is finally taking up a bill concerning privacy, but the leadership has brought the bill up under suspension of the rules. This procedure blocks the gentleman from California (Mr. CONDIT), the gentleman from New York (Mr. LAFALCE), the gentleman from Massachusetts (Mr. MARKEY), the gentlewoman from New York (Ms. SLAUGHTER), and others from bringing up measures to provide privacy protections for American consumers.

We should not waste this opportunity to consider meaningful privacy protections. The Privacy Commission Act should be brought to the floor under regular order so that Members have an opportunity to discuss whether substantive privacy protections or other improvements should be added to the bill through amendment.

One of the main issues that has been raised about privacy, about the privacy commission bill, is whether its practical effect would be to delay the enactment of privacy protections.

People who advocate privacy protections have expressed concern about the potential for delay. For example, the Consumer Federation of America Consumers Union and U.S. PIRG have stated that ''the creation of a commission would delay efforts to put meaningful privacy protections on the book.''

People who oppose privacy protections have been happy that this bill could delay privacy initiatives. On April 17, 2000, there was an editorial in the National Underwriter magazine that urged insurance companies to support this measure, because the presence of such a commission will provide a strong argument for Congress and the State legislatures to wait for the results before enacting, as they put it, highly restrictive privacy legislation.

Under the right circumstances, establishing a privacy commission could be a helpful step in addressing privacy concerns. If Congress concurrently took action on enacting privacy legislation or at least made a binding commitment to take such action, American consumers could be confident that they would complement, rather than delay, this legislation.

Mr. Speaker, I want to emphasize this point and urge my colleagues to oppose this suspension.

Mr. Speaker, I reserve the balance of my time.

□ 1500

Mr. HORN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as I looked at the evolution of this legislation, every bill or an amendment that the Democratic minority gave us we accepted, and what we are going to have here is just on and on and on, and nothing is going to happen.

Five years ago when the gentleman from California (Mr. CONDIT) was in my position as chair of the subcommittee on Government Management, Information, and Technology, we had legislation that he submitted, a very fine bill.

We have had others. We have Senator LEAHY come over. He has a very fine bill. So it goes. Nobody can pull all the pieces together.

In the closing weeks of Congress, there is absolutely no way to have the floor time to start having amendments all over the place. I would love to have floor time and have a 3-day debate. It is going to be a 3-day debate, at least.

It has been a bipartisan proposal all the way, and I would hope we would get something done where it could be pulled together and we might look at it as a base bill, which does not preclude the gentleman from Massachusetts (Mr. MARKEY), the gentleman from Connecticut (Mr. SHAYS). We have a whole bunch of people here who want to have a privacy bill. I am not against that. I just want to get something done in a practical sense.

I would hope, Mr. Speaker, that my colleagues would support this and not have to go through the—we have the votes, I am sure, on the majority, but we ought to get this movement going.

Mr. Speaker, I reserve the balance of my time.

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I just want to point out that if we are going to be serious about doing something on privacy legislation, we should have had hearings in the Horn subcommittee, that is how we organize a consensus, not wait for one to happen. We ought to have hearings. We ought to have had leadership to develop legislation. We have not had that leadership to develop legislation.

Secondly, not every one of our amendments was adopted in committee. We wanted a deadline for action by the Commission and an opportunity for privacy protections to be put into place.

Mr. Speaker, I yield 3 minutes to the gentlewoman from the District of Columbia (Ms. NORTON), a very important member of our committee.

Ms. NORTON. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, normally bills to study serious problems are like apple pie and motherhood, but I will tell the Members, this one deserves the serious reservations of Members of this body in light of mounting concerns among the public about medical privacy and Internet privacy.

When I chaired the Women's Caucus last term, one of the bills at that time Democratic and the Republican women were able to get some kind of consensus on was a bill involving genetic privacy.

The notion that we are here talking about studying privacy at the end of yet another term pains me to even hear. This issue is at the top of the agenda of the American public. The concern of the public is so loud and so real, and has been there for so long after so many hearings about various aspects of this problem, that the expectation has been that we would do something about it at least by now.

Let us take medical privacy. That one is so long overdue, particularly with respect to genetic information. We now know the genetic code. That thing is traveling against us at such a speed. We are here talking about studying it with no time limit? People are thinking, will I lose my job if I go to the company doctor or to any doctor to talk about my condition? And all doctors use the Internet now.

Do we know where the public is on this? They are clamoring on the doors of this Congress, saying, ''Protect me.''

My own recent experience makes me come to the floor. I needed something, a fancy new telephone. Somebody found out that I could order it and get it in 24 hours over the Internet. I said, over my dead body. I have a recognizable name. I am not going to put the name of Eleanor Holmes Norton on the Internet, because at least in this region somebody might decide that that is the name to use.

Do Members know how many people have lost their identity fooling with the Internet? I am not going to lose what little identity I have left. That is one of the things people write again more and more. Yet, we say, here is our answer, we will study that for you. We are making people think we are doing something about something they have clamored for us to do something about for almost 10 years now.

This bill says that this commission is going to make recommendations on whether additional legislation is necessary? Give me a break. Tell that to the public, that we are trying to find out if it is necessary.

Or listen to what the FCC has just said: ''Legislation is now needed to ensure consumers online privacy is adequately protected.'' It is necessary. This bill does nothing about that necessity. It is very hard for me to advocate support of this bill. I do not do so.

Mr. HORN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I just want to answer the ranking member of the full committee on hearings. We had a full hearing on April 12, 2000. We had a full hearing on May 15. That is two major hearings on a rather simple bill, but it is the only way we are going to get something done.

Mr. Speaker, I yield 3 minutes to the gentleman from Texas (Mr. TURNER), the ranking member on the subcommittee.

Mr. TURNER. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, I appreciate the good work that the gentleman from California (Mr. HORN) has put in on this bill. It is clear to all of us that the American people are demanding action and that their privacy be protected by this Congress. I think it perhaps is one of the most critical issues and one of the most difficult issues we face.

I think we also understand that there are very complex issues surrounding the discussion of privacy, and there are many opinions that have been voiced to us in the course of proceedings on this bill and others that indicate that the Congress must carefully consider legislation in this area.

H.R. 4049 is a bipartisan measure which would establish a commission charged with studying issues relating to the protection of individual privacy and the balance to be achieved between protecting privacy and allowing appropriate uses of information.

The commission would submit a report to Congress and the President within 18 months after its appointment. As a cosponsor of the bill, I commend my colleagues, the gentleman from Arkansas (Mr. HUTCHINSON) and the gentleman from Virginia (Mr. MORAN) for their leadership on a topic of this importance.

I commend the ranking member, the gentleman from California (Mr. WAXMAN), on his willingness to work with us on the issue. I agree with him, that there are bills pending in this Congress that can be acted upon and should be acted upon prior to the final report of this commission.

The Subcommittee on Government Management, Information, and Technology of the Committee on Government Reform held 3 days of legislative hearings on this bill, heard from a number of witnesses, hearing various points of view. The witnesses testified regarding the commission's scope, the relationship of ongoing and past privacy efforts, the composition of the commission, and other issues.

I want to commend the gentleman from Arkansas (Mr. HUTCHINSON) for his willingness to accept an amendment, a manager's amendment, at the full committee level which clarified that the intent of this bill is not to delay or obstruct any pending, ongoing privacy initiatives in this Congress.

It has been more than 20 years since a privacy commission studied this issue. It is clear to me that we need a comprehensive reevaluation of the subject; that legislation that is pending can be considered and passed while we are studying this issue, but there are enough problems in the area of privacy regulation, privacy protection, to justify a commission with the expertise that is laid out in the bill as far as the creation of a commission and its membership.

I believe Congress should strictly adhere to the intent of the bill, which calls for the commission to be used as a supplement to and a sounding board for ongoing legislative privacy initiatives rather than any means of delay.

Again, I commend the gentleman from Arkansas (Mr. HUTCHINSON) and the gentleman from Virginia (Mr.

MORAN) for their good work, and I urge the House to adopt this bipartisan measure.

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, before yielding to the gentleman from Massachusetts (Mr. MARKEY), who is one of the champions on privacy questions in this Congress, I want to point out that the Horn subcommittee held three hearings, two at our request. They were all on the issue of this commission. There was not a single hearing on the medical privacy issue or the Internet privacy, which is also the jurisdiction of that committee.

I regret that, because it seems to me we could be much further down the road in directly enacting legislation if we had that leadership.

Mr. Speaker, I yield 6 minutes to the gentleman from Massachusetts (Mr. MARKEY), who has raised the privacy issue in a number of different spheres and has been such an enormous champion in trying to get legislation, and shown such leadership in trying to get that legislation.

Mr. MARKEY. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, this is a very important debate. I think it is important for everyone who is listening to the debate to understand what we are debating and what we are not debating.

We are debating a privacy commission. In fact, that is how it is described by the proponents. But for those that want real privacy, we are debating a privacy omission. That is what this debate is really all about.

We have bills before Congress. They have been sitting there for years. The gentleman was the chair of this subcommittee and did not have any hearings on the subject. The Committee on Banking and Financial Services, no hearings; the Committee on Commerce, no hearings.

Everyone understands what the problem is. The Internet industry understands, the banking industry understands, the health industry understands the issues. What frightens them most greatly is that the public understands them, as well.

These are not complicated issues. We over the years have made many decisions with regard to the privacy of the American public. It is not something that requires a lot of study.

We make it a requirement that a driver of an automobile have to opt in before any license information, driver's license information, can be transferred. If we rent a video cassette at a video rental store, they have to get our permission before they transfer that information. If we are watching cable TV and late at night we might flick over to one of those pay per view channels that maybe we don't want the rest of the family, much less everyone else in the neighborhood, understanding that we might have watched, the cable industry cannot tell anyone that we did that. They have to get our permission before they do so. If we call anyone on our phones, the phone company cannot tell anybody who we called without our permission.

If a child goes online to a commercial site for children and they are under the age of 13, that site cannot transfer that information to anyone else without the express permission of parents. But if the child is 13, if the child is 14, if the child is 15, there are no restrictions.

Do Members think this Congress could figure out that maybe we should protect 13- and 14- and 15-year-olds? We are told by the committee that they cannot figure that out. It is too hard for them to know whether or not a 13-year-old or a 14-year-old or a 15-year-old's information should be transferred. They need to get an expert panel of industry officials, primarily, I am going to bet that is the case, to tell us whether or not those children should be protected.

Mr. Speaker, that is why we run for office. People in this country know whether or not they want their health care records protected or not. They know whether or not they want their financial records protected. We do not need a Commission to study this. This is not beyond the ability of this Congress to deal with.

What the bill is really all about is punting for another 2 years, 18 months, for the commission to study it. It means it is right before the next Congress ends, in the year 2002, which is exactly what the industry wants. We do not have to be a genius to figure out what to do to protect children, to protect the medical record of Americans, to make sure that somebody cannot take all of our checks or all of our brokerage accounts, all of the medical exams we might have to take for an insurance policy, and then sell it as though it is a product.

Do we really have to study that? I don't think so. This is just a commission to make sure that this Congress can say that it did something; that is, put a fig leaf over this issue.

So Mr. Speaker, yes, we need a new economy, but we need a new economy with old values. We need commerce with a conscience. This Congress, by passing this bill, demonstrates that it is unwilling to grasp this moral issue of what corporate America is doing in taking the private, most sensitive information of American families and turning it into a product which is sold around the country and around the world.

So if Members want privacy and they want it to happen, vote no on this bill and force them to bring out the bills over this next week that ensure that on the Internet, on financial records, on the health care data of every American family, we give them the protections which they deserve.

Otherwise, this bill is going to guarantee that there will be no action in the next Congress either, because the report does not come back until 2 years from now, at the end of the next Congress.

□ 1515

So I think that, while they may have had all the hearings on their commission bill, that, without question, whether or not we are going to ensure that the new technology ennobles and enables Americans rather than degrades and debases, whether or not we come to grips with the fact that there is a sinister side of cyberspace and that we understand it and that we demonstrate to the American people that we do understand it, and that we become the privacy keepers as were our local bankers when we were younger, our doctors and nurses when we were younger, and that we identify with those privacy keepers rather than the privacy peepers and the information reapers which these new data banks are able to make possible, creating products out of the family information of each one of us in the United States. I do not believe that there is an issue more central to the integrity and the well-being of a family in the United States than whether or not we give them the rights today to protect that information from being turned into a product.

To say that we do not have the ability to understand it says that we do not understand cyberspace, we do not understand the world in which everyone is living, and we do not understand that 85 percent of the American public in every single poll are demanding us to give them the right to protect this information. Vote no on this commission.

Mr. HORN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, before I yield to the gentleman from Virginia (Mr. MORAN), the co-author of this legislation, I want to say that the gentleman from Massachusetts (Mr. MARKEY) is always very eloquent. Did he beat on the door of the chairman of the Committee on Commerce? Did he beat on the door of the chairman of the Committee on Judiciary? I did not hear him beating on my door.

But we knew the gentleman from Massachusetts and five others were out there, and we would have been glad to give them a hearing. But there are a lot of other committees around here that have the jurisdiction. I am not aware of the gentleman from Massachusetts ever going before any of those committees. But he always is eloquent, no question about it.

Mr. MARKEY. Mr. Speaker, will the gentleman yield?

Mr. HORN. Mr. Speaker, I yield 10 seconds to the gentleman from Massachusetts (Mr. MARKEY) to answer how

many doors did he knock on. When I have a bill out, I am knocking on doors.

Mr. MARKEY. Mr. Speaker, I was given an ironclad commitment by the other side when we were debating the financial services bill last November that they would have hearings all this year in the Committee on Banking and Financial Services on financial services and health care privacy. They had no hearings on this issue. That side over there did not, in fact, fulfill its commitment.

Mr. HORN. Mr. Speaker, I yield 4½ minutes to the gentleman from Virginia (Mr. MORAN).

Mr. MORAN of Virginia. Mr. Speaker, I want to start by thanking the distinguished gentleman from California (Mr. HORN). He made it clear from the outset that he wanted bipartisan constructive legislation, that he wanted hearings, and he wanted to do what we could do given the information that we had available to us.

I also want to thank the gentleman from Arkansas (Mr. HUTCHINSON). He has worked, again, in a constructive manner, listening to everyone that wanted to have input into this legislation, has never behaved, to my knowledge, in this context in any partisan fashion. He wanted this to be a bipartisan bill. So I was very pleased to work with him.

I thank the gentleman from Texas (Mr. TURNER), the ranking member of the subcommittee. Again, all they wanted to do was work in a constructive bipartisan manner.

Now, I also want to thank the gentleman from California (Mr. WAXMAN) whose leadership has been outstanding. In fact, I agree with the gentleman's emphasis on the need for privacy legislation and with the gentleman from Massachusetts (Mr. MARKEY).

I think that we ought to have privacy legislation right now, particularly with regard to the protection of medical records. No question. Let us do it. We will vote for it. I know that the gentleman from California (Mr. HORN) and the gentleman from Arkansas (Mr. HUTCHINSON) will and the gentleman from Texas (Mr. TURNER) will as well.

So I would say to the gentleman from Massachusetts (Mr. MARKEY), my very good friend, I wished that I had had the same rhetoric teachers as my colleague, but I did go to the Jesuits, and I remember some of this, and it is very effective and impressive.

But let me say to the gentleman from Massachusetts just do it. If he wants privacy legislation, do it. As the gentleman from California (Mr. HORN) suggested, the gentleman from Massachusetts is on the Committee on Commerce.

The reality is that it is not going to get done. This is all we have. We have made it clear, every speaker has made it clear this does not preclude any other privacy legislation. It is meant to compliment it. We do not have to take 18 months. We can do it in 6 months.

The problem is, while the gentleman from Massachusetts (Mr. MARKEY), my good friend, may have all the answers, I do not. I am not sure what to do. Given the fact that there are 7,000 privacy bills introduced in State legislatures, one out of every 5 legislative bills introduced around the country this year had to do with privacy, we have got dozens of bills pending before our committees on privacy, which one of them works? Which ones will create a consistency? I am not sure. I do not have those answers.

I am not even sure how we protect the consumer choice that is very important to many people while ensuring that we protect people's basic privacy which is a fundamental American right and freedom. I do not have those answers. I am not sure this Congress has those answers. Perhaps some of us do; and if they do, just do it. Come up with the legislation, and we will vote for it.

In the meantime, we want to get the experts together to bring out all the factors that need to be considered so that we can have the most thoughtful, the best considered legislation possible.

This is critically important. It is critically important to our economy and to our society. It is a basic American freedom, individual privacy. But let us not mess it up.

I know that privacy is off the charts on every poll we take. I know that all the voters want us to do something about privacy. But if we are going to do it, we ought to do it right. We ought to do it in a bipartisan way. We ought not politicize it. It ought to be good, public policy that is sustainable. That is what this legislation does. That is all it does.

We have worked on this. We have listened to everyone. I know the gentleman from California (Mr. WAXMAN), my friend and the distinguished leader will recall that, in fact, when we had hearings, the gentleman from Massachusetts (Mr. MARKEY) testified about medical records, about financial records.

I am not sure I got an answer about the question how do we make consistent privacy regulations on medical records, on financial records, on the children's privacy protection act that was just passed. How do we bring all these together and have a consistent Federal policy? How do we get consistency among the States without preempting their right to protect their citizens? I do not know. Let us ask the experts, and that is what this commission does.

Mr. Speaker, I rise today in strong support of H.R. 4049. I would like to thank my colleague ASA HUTCHINSON and JIM TURNER, the ranking member of the subcommittee, for their leadership and bipartisan efforts in introducing this bill.

This legislation has been criticized by some as a proposal to slow down other privacy legislation. On the other hand, the idea of a privacy commission has been criticized by at least some in the business community out of a concern that it may lead to the enactment of overbearing legislation.

Unfortunately, this way of thinking and operating has become a familiar pattern with a familiar result. Congress winds up doing nothing. That is really what we are talking about today. Do we engage in the same old partisan gridlock and do nothing or do we get serious about moving forward on some of the most important issues in this nation and pass this legislation.

I respect and appreciate much of the work that colleagues and friends like ED MARKEY and JOHN LAFALCE have done on privacy issues. I agree with them that there are some privacy issues, like the protection of medical records, that Congress should immediately move to protect.

That is why we purposely did not include any moratorium or preemption language that would prevent Congress or the states from enacting privacy legislation that may be needed before the work of this commission is done. But the reality is that there is not going to be any other privacy legislation passed this term. In the meantime, we can be doing something constructive.

Let me repeat that: Nothing in this bill precludes Congress or the states from moving forward on privacy legislation.

I do believe, however, that the work of the Privacy Commission will lead to better overall decisions about privacy, particularly as it relates to the Internet and electronic commerce.

Privacy has become a major public policy issue. Last year, the state legislatures considered over 7,000 privacy bills. Approximately one out of every five bills introduced in the state legislatures was a privacy bill. The Congress currently has before it dozens of privacy bills. The federal regulatory agencies are busy on numerous privacy initiatives.

And yet, it has been more than twenty years since the Privacy Protection Study Commission issued its landmark report in 1977. Since then, the personal computer and the Internet have transformed our economy. At the same time, they have raised and continue to raise new privacy issues that the 1977 study could not have envisioned. It is time to revisit the issues from the 1977 report as well as the broader new issues raised by the information economy. The Privacy Commission Act creates an opportunity to do just that.

Everyone agrees that getting privacy policy right will go a long way towards fully developing the potential of the Internet and e-commerce. The extent to which this exciting new medium will continue its incredible expansion depends in large measure on balancing legitimate consumer privacy rights with basic marketplace economics. An open and supportive legal environment has helped encourage the rapid development of the Internet. Companies and consumers alike realize that Internet privacy is the one issue that must be done right.

Americans are rightly concerned about their lack of privacy. We know and appreciate that

the public worries about cookies; worries about the capture of information regarding browsing behavior; and worries about profiling. But, we don't know what the dimensions are of the real privacy threats posed by these activities and what the economic payoffs are of these activities. We certainly don't know very much yet about the impact of recently enacted privacy protection legislation, such as the Children's Online Privacy Protection Act or the privacy protections in Title V of Gramm-Leach-Bliley.

There is a lack of consensus about whether the U.S. should move toward the establishment of some type of national privacy regulatory agency or whether the existing combination of courts, consumer protection authorities, Attorney Generals and various federal agencies provide a more than adequate privacy regulatory presence.

There is also the troubling question of preemption. In an electronic environment where information moves across local, state, and national borders in nanoseconds, does it really make any sense to allow the location of data, sometimes the momentary location of data, to dictate the rules that apply?

The stakes are high. As a nation, we must find a way to protect information privacy and to give our citizens confidence that they can engage in e-commerce and provide access to their personal information, knowing that the information will be used appropriately and in ways that are consistent with their understanding of the transaction.

At the same time, we must preserve the ability of the business community to use personal information effectively to promote consumer convenience and to drive down the cost and improve the quality of goods and services; and to personalize the marketplace—in a very real sense, revolutionize the marketplace—to spur growth and to give consumers information about the goods and services which consumers wish to receive.

The Privacy Commission created by H.R. 4049 will not answer every question to everyone's satisfaction. But, there is every reason to believe that this is exactly the right time for a Privacy Commission to look at these questions, as well as the profound changes in the underlying technology and the underlying business models that have ignited the current privacy debate. This will allow us to get to our destination with fewer mistakes and in a way that encourages the effective use of personal information while protecting privacy.

The Privacy Commission Act is supported by The Information Technology Industry Council, The Center for Democracy and Technology, The American Electronics Association, The Information Technology Association of America, and The Association for Competitive Technology.

I would like to thank ASA for his leadership on this issue and I urge my colleagues to support the serious study of these important issues and to vote for this important legislation.

Mr. WAXMAN. Mr. Speaker, may I inquire how much time each side has remaining.

The SPEAKER pro tempore (Mr. PEASE). The gentleman from California (Mr. WAXMAN) has 6½ minutes remaining. The gentleman from California (Mr. HORN) has 50 seconds remaining.

Mr. WAXMAN. Mr. Speaker, I yield 2 minutes to the gentleman from Louisiana (Mr. TAUZIN).

Mr. TAUZIN. Mr. Speaker, I thank the gentleman from California (Mr. WAXMAN) very much for yielding me this time.

Mr. Speaker, I rise in opposition to this legislation. Let me explain quickly why. First, it is important to know that this body has legislated for the past 30 years on privacy concerns. There are at least a dozen or so privacy bills that already have been passed by this body, some recently dealing with children online, some recently dealing with financial services, issues, or medical records. We continue to examine those before the Committee on Commerce and other committees of this body.

Recently, the Chamber of Commerce put on an extraordinary function at Lansdowne, Virginia where we brought in private sector individuals and learned a great deal more about the issue. The staff, as we speak, of the Committee on Commerce is working with my staff to see if we cannot have one additional hearing before we leave Congress this year as we prepare for what the Committee on Commerce expects to do in this area next year. But the last thing we need to do, in my opinion, is to give this issue to some commission to make decisions about these critical issues.

Let me tell my colleagues about a report that GAO just did at the request of the gentleman from Texas (Mr. ARMEY) and I. The gentleman from Texas (Mr. ARMEY) and I asked GAO to look at Federal Web sites to see how well they protected privacy and to use the FTC standard to find out which among our Federal sites were out of line.

Do my colleagues know how many sites on the Federal Web complied with the FTC guidelines? Three percent. Fourteen percent of them had cookies. Everyone of them was gathering personal information. Only 23 percent met the test for security, which means those Web sites are open to hackers every day.

The bottom line is the Federal Government itself does not have its act in order. Our own Federal Web sites, 3 percent only comply with the FTC. Yet, we are going to appoint a commission to tell us how the private sector should be adopting rules on privacy. No, I think that is our responsibility. I think our responsibility is, number one, number one, to get the Federal Web sites in line so that, on the Federal site where one has to give up information to the government, that information is protected properly; and then, two, for the Committee on Commerce and the legislature to come up with some good legislation for the private sector.

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, along the lines of the argument just made by the gentleman from Louisiana (Mr. TAUZIN), I want to point out that a number of privacy experts, including individuals from the Electronic Privacy Information Center, Consumer Action, Privacy Times, the Privacy Rights Clearinghouse, the Free Congress Foundation, Junk Busters and others, they said: ''We oppose this bill because it is unlikely to advance privacy protections in the United States. To the contrary, if adopted, it would likely retard the progress of legislation that would result in meaningful protections for Americans.

''Enacting this bill would give the appearance that Congress was finally doing something about protecting Americans' right to privacy when, in fact, it was not. Such a result would be unfair to the American people.''

I agree with the argument that the gentleman from Louisiana (Mr. TAUZIN) and others have made, and I would urge my colleagues to oppose this legislation.

Mr. Speaker, I am glad to yield 2 minutes to the gentleman from Massachusetts (Mr. MARKEY).

Mr. MARKEY. Mr. Speaker, I thank the gentleman from California for yielding me this time.

Mr. Speaker, let me give my colleagues an illustration of the problem that we have right now. The gentleman from Iowa (Mr. LEACH), Republican, passed a bill earlier out of his committee that would have given additional opt-in protections for medical information. It passed out of the Committee on Banking and Financial Services 26 to 14. That was back on June 29 of this year. The bill has not been heard from since.

It just sits over there with the leadership on the Republican side holding onto this bill even though, on a bipartisan basis, Democrats and Republicans have already come to an agreement that the financial records that include sensitive medical information should be protected with this extra level of an opt-in protection.

In addition, I mean, we can go down the litany, the gentleman from California already went down earlier the litany of bills which have been introduced in this Congress which are still awaiting hearings, still awaiting deliberation. But it is hard for Members of Congress to reach that bipartisan consensus if no hearings are being held by the Republican leadership on these very sensitive subjects.

And to basically subcontract out our responsibility to a commission when the American public expects us to be making those decisions ourselves, and we have the capacity to do so, while we feign ignorance, we are basically saying there is an invincible ignorance on our part, when we cannot understand

these issues, when in fact the reality is that, when we act on these issues, when we move, the Republican leadership then blocks them from coming out here on the floor because the industries that are affected do not want the American people to have any additional privacy.

That is the core issue that we are talking about here, whether or not we are going to take on those large industries who basically have a commercial stake in compromising the privacy of every single American.

At this point in time, if we look down the litany of bills that have been before the Congress over the past year, we can say that, without question, that there can only be a zero which is given to the Republican leadership in dealing with this issue of American privacy.

Mr. WAXMAN. Mr. Speaker, I yield 30 seconds to the gentleman from Virginia (Mr. MORAN).

Mr. MORAN of Virginia. Mr. Speaker, I thank the very distinguished gentleman from California for yielding me this time.

Mr. Speaker, I would ask my colleague if he is aware, I was the author of the opt-in requirement on licensing and registration of automobile vehicles, and it is working. But it was done in a bipartisan way if the gentleman will recall and we had adequate information.

I would suggest to my colleague that if he has legislation that can pass that the authors of this bill would be more than happy to sign on to that legislation and support it.

□ 1530

We just want to get something done that will work, that is constructive, and that is sustainable.

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume to point out that the predecessor of the gentleman from California (Mr. HORN) of the committee that has the jurisdiction over privacy legislation, the gentleman from California (Mr. CONDIT), worked for many years on the issue of medical privacy; and, as a result, the gentleman from California (Mr. CONDIT) introduced a bill that had conservatives to liberals in the House on his legislation.

Rather than build on that legislation and move it forward, the Republican leadership let it languish. Rather than work to resolve the issues of financial privacy, the Republican leadership in the Congress has not brought that to the floor. What the Republican leadership in the Congress has suggested we do about privacy is set up another commission. And many of us fear that setting up another commission is an excuse not to move forward. That is why, when this commission legislation was brought before the committee, we wanted a mandatory deadline to force actual action to protect people's privacy, not simply to continually study it.

So I regret we do not have legislation on the subject, and that is why I would urge that we do not agree to this bill on suspension. I urge my colleagues to vote ''no.''

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. HORN. Mr. Speaker, I yield myself such time as I may consume.

Obviously, this is the only thing that is going to happen, and it sounds like a lot of bipartisanship that we pride ourselves on in our subcommittee, with the gentleman Texas (Mr. TURNER) and the gentlewoman from New York (Mrs. MALONEY) over the years, is somehow missing here.

I am very sorry that the ranking Democrat on the full committee cannot go along on this. If the gentleman knew he was going to kill it, why did he not say it when we had it before the full committee instead of playing games here when we are getting near an election?

Mr. Speaker, I yield the balance of my time to the gentleman from Arkansas (Mr. HUTCHINSON), who spent a lot of hours and weeks and months on this legislation.

Mr. HUTCHINSON. Mr. Speaker, how much time remains?

The SPEAKER pro tempore (Mr. PEASE). The gentleman from Arkansas (Mr. HUTCHINSON) has 30 seconds.

Mr. HUTCHINSON. Mr. Speaker, one thing I believe we agree on is that we want to go in the same direction in protecting privacy. The bottom line here is that, for whatever reason, the bill of the gentleman from Massachusetts (Mr. MARKEY) is not moving through the Committee on Commerce.

Please do not disappoint people who want to do something about privacy by saying we are not going to do anything this year. This is our only opportunity. I hope we can come back and do something in the Committee on Commerce, but I also hope this bill can pass this year, and I ask for my colleagues' support.

Mr. STARK. Mr. Speaker, enactment of federal legislation to protect the medical privacy of Americans has been a subject of congressional debate for years. More recently, with passage of the financial modernization legislation last year, financial privacy has been on the minds of millions, and electronic privacy concerns are becoming a major source of friction for dot.com companies and consumers.

Legislative solutions in these areas are not simple. Inevitably, the rules that will do the most to protect consumers cause affected businesses to object that they would be burdensome and costly. But reasonable solutions are needed, or the fears that many harbor now—that public and private entities they know nothing about are somehow gaining access without their knowledge to intimate (and sometimes damaging and embarrassing) information about them—will increasingly cause privacy-protective consumers to take extreme measures to avoid releasing as much personal information as possible. Or, they may simply decide to lie.

Already, surveys tell us that some consumers are deciding not to seek certain medical treatments—genetic tests in particular—because they fear that the results could render them uninsurable. On the other hand, insurers insist that they have a right to seek and demand as much information as possible in order to accurately determine risk and premiums.

Legislation is urgently needed to set boundaries and rules that are fair, reasonable, broad and balanced. There are many such bills that are pending in this Congress that would do much to advance the privacy agenda. Regrettably, they have been bottled up in committee. Among these bills are:

H.R. 4380, a bill developed by the administration and introduced by Representative JOHN LAFALCE (D–NY). The legislation would inform and empower consumers in the area of financial privacy by giving them the choice of saying ''yes'' or ''no'' before any disclosure of their medical information that is gathered by financial institutions (which include insurers). It would also allow consumers who chose to take the initiative to stop the transfer of other personal financial information that would otherwise take place.

H.R. 4585, introduced by Representative JIM LEACH (R–Iowa) would also enhance financial privacy protections by giving consumers an affirmative ''opt in'' choice before their medical information could be shared by financial institutions. The bill also features a federal private right of action. It was marked up by the House Banking Committee on June 29, where it was approved 26–14.

H.R. 1941, introduced by Representative GARY CONDIT (D–Calif.) would give consumers control over the use and disclosure of their medical records, and private health plans, physicians, insurers, employers, and others clear rules for how medical records should be handled. Consumers whose privacy was violated would have legal redress through a private right of action.

H.R. 4611, introduced by Representative EDWARD MARKEY (D–Mass.) features the administration's proposals to strengthen privacy protections for use of Social Security numbers.

H.R. 3321, introduced by Representative MARKEY and Representative BILL LUTHER (D–Minn.) would provide comprehensive privacy protections on the Internet.

H.R. 4857, introduced by Representative CLAY SHAW (R–Fla.) and JERRY KLECZKA (D–Wisc.) was approved last week by the House Ways and Means Committee, and aims to curb identity theft with new rules restricting abuse of Social Security numbers. No floor action on the bill has yet been scheduled.

By comparison, the bill on today's suspension calendar, the Privacy Commission Act (H.R. 4049) offers no solutions. Instead, it calls for a 17-member commission to spend 18 months and $5 million to figure out what to do. There is nothing inherently wrong with studying privacy. But the majority party, in putting only this legislation on the floor during the 106th Congress, misses the main point, which is that we need to be legislating—not sitting on our hands and waiting for input from a

commission that may or may not provide additional worthwhile insights on crafting sound privacy policy in 2002.

Nor do we need a commission to second-guess the medical privacy regulations that will soon be issued by the Department of Health and Human Services. There are some in the health industry who are hoping a commission will call for further delay in the date on when the HHS regulations take effect, and who will use the commission to raise hypothetical concerns about their workability and cost. Yet the regulations are already subject to a 2-year implementation timeline, giving stakeholders a long lead-time to prepare and put in place some initial necessary safeguards to protect consumers' medical records from misuse and abuse.

I urge my colleagues to raise their voices in support of real privacy legislation that will provide comprehensive medical, financial, and Internet protections for all Americans.

Mr. DAVIS of Virginia. Mr. Speaker, I rise today in support of H.R. 4049, the Privacy Commission Act. I am proud to be an original sponsor of this bill, which would be a significant step forward toward creating a comprehensive framework for the protection of personal privacy.

The Privacy Commission would be unique in Congress because of its comprehensive approach to dealing with the growing concern Americans have regarding the protection of their personal privacy—whether that be online privacy, identity theft, or the protection of health, medical, financial, and governmental records. The Commission would be charged with investigating the problem of protecting personal privacy in a broad-based fashion, across-the-industry spectrum. After an extensive 18 month investigation, the commission will then be required to recommend whether additional legislation is necessary, what specific proposals would be effective, and proposals for non-governmental privacy protection efforts as well.

This bipartisan commission would be comprised of 17 members representing experts of various industries and organizations whose work impacts individual's personal privacy. Specifically, the commission would be representing federal, state, and local governments; business and industry groups; academics; consumer groups; financial services groups; public policy and advocacy groups; medical groups; civil liberties experts; and the media, though it is not limited to just these areas.

Mr. Speaker, in these times of rapidly changing technology, people are uncertain and fearful about who has access to their personal information and how that information is being used. The Privacy Commission would examine the entire spectrum of privacy issues and find solutions that will aggressively protect these growing concerns. I urge all my colleagues to vote in support of the Privacy Commission Act.

Ms. SLAUGHTER. Mr. Speaker, I rise in opposition to H.R. 4049, the Privacy Commission Act.

As my colleagues know, this legislation would establish a commission to study various aspects of privacy—financial, medical, electronic, and so on—and make recommendations to Congress. The 15 commission members would have 18 months to complete their work.

My objections to this bill have little to do with its actual substance. If the majority prefers to study an issue rather than act upon it, they are welcome to do so. I am deeply disturbed, however, that they would deny those of us who wish to act the opportunity to offer amendments.

In many cases, we know privacy does not exist, and we know how to provide the protections that American consumers are demanding. Just last week, the Institute for Health Freedom released a Gallup survey finding that 78 percent of those polled considered it very important that their medical records be kept confidential. Individuals are particularly concerned about their genetic privacy. Genetic information is perhaps the most personal information that can be learned about an individual, and can have enormous ramifications for their future. As a result, Americans are especially worried that their genetic information could fall into the wrong hands and be used to undermine, rather than advance, their best interests.

I am proud to sponsor H.R. 2457, the Genetic Nondiscrimination in Health Insurance and Employment Act. As its title states, this legislation would prevent insurers and employers from using genetic information to discriminate against individuals. The bill has the support of dozens of organizations, as well as over 130 bipartisan cosponsors. It was developed with the review and input of all the stakeholders, including consumers, health care professionals, and providers. H.R. 2457 has been enthusiastically endorsed by the administration, and the President has called repeatedly for its passage.

Nevertheless, this legislation languishes in committee without so much as a hearing. The majority has buried this reasonable, responsible, timely legislation in favor of establishing a commission that will, in this case, simply tell us what we already know.

I have traveled all over the nation to discuss genetic discrimination issues. At every turn, I am approached by individuals who tell me that they would like to take a genetic test, but have decided not to do so because they are afraid the results will be obtained by their insurer or employer. I am contacted by doctors who say that their relationships with their patients are being damaged because patients are afraid to have notes about a genetic disorder in their medical records. I receive calls and letters from researchers who tell me that it is getting more difficult every year to recruit participants in genetic research.

Congress has already waited too long to act on this issue. We cannot waste any more time by deferring to a commission that will not report for a year and a half. I urge my colleagues to vote against H.R. 4049, and to call for its consideration under regular order.

Mr. DINGELL. Mr. Speaker, I rise in opposition to H.R. 4049, the ''Privacy Commission Act.''

We don't need a commission to study consumer privacy rights. Consumers either have the right to determine how personal information they gave others will be used, or they don't. In my view, consumers deserve this right. Spending 18 months studying privacy and $5 million of the taxpayers money will not bring us any closer to deciding this fundamental issue. Only Members of the Congress, not members of a study commission, can decide whether to protect consumer privacy.

What consumers are demanding is a simple and clear statement from Congress that banks, insurance companies, securities firms, HMO's, and other entities cannot disseminate or use personal information in ways the consumer has not approved. That's not a complicated concept, although many who don't want to protect consumer privacy will maintain that it is. One hundred and thirty-eight of our colleagues are cosponsors of one such bill that we should have the opportunity to consider either as an amendment to the bill before us or on its own.

That legislation, H.R. 2457, is sponsored by our colleague, Mrs. SLAUGHTER, and prohibits genetic discrimination in determining eligibility for health insurance and employment. Polls show that more than 80 percent of those surveyed are afraid that genetic information could be used against them. One hundred and seventy-eight of our colleagues have signed a discharge petition to bring this matter to the floor for a vote. Outside medical professional groups, including the Director of the National Human Genome Research Institute, support the bill. The administration strongly support it, and the platforms of both major national parties include planks that call for legislation like H.R. 2457.

Clearly, Members are ready to act on genetic privacy, yet the Republican House leadership says we can't. The chairman of the Commerce Committee has repeatedly rejected requests from Democratic Members to let the committee act on this important legislation. In fact, Republican leadership won't even permit an amendment prohibiting genetic discrimination to be offered to the matter before us.

That's just plain wrong, and the Republican majority should not be allowed to cite passage of this meaningless commission bill as evidence that they have concerns for consumer privacy. If they truly were concerned about consumer privacy we'd be considering Mrs. SLAUGHTER's bill, or others like it that are intended to legally protect consumer privacy, not just study it. At the very least, Members should have the right to amend this bill with proposals that provide consumers real and needed protection.

Mr. Speaker, I urge my colleagues to vote ''no'' on H.R. 4049.

Mr. WATTS of Oklahoma. Mr. Speaker today I rise in support of H.R. 4049, the Privacy Commission Act. I commend the gentleman from Arkansas, Mr. HUTCHINSON, on this fine piece of legislation.

Mr. Speaker, as we enter into this new millennium, the Internet has taken the American economy to unseen levels of prosperity. The Internet has contributed to a stock market which has reached unimaginable highs.

However, with this amazing new medium, we must be cautious of the privacy of individuals. The Internet, this storehouse of financial, personal and medical information can be easily abused and unjustly destroy people's credit, reputation and security. America's families have a right to be concerned.'' This Congress

must take steps to assure families that their privacy will be protected in the modern age.

This piece of legislation will create a bipartisan committee to study privacy and its protection. Mr. Speaker this legislation will take monumental steps in protecting individual privacy in the 21st Century. This commission will spend 18 months discussing the question of privacy, and find the answers to these questions.

Mr. Speaker, I support this important piece of legislation and urge my colleagues to vote yes on H.R. 4049, the Privacy Commission Act.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. HORN) that the House suspend the rules and pass the bill, H.R. 4049, as amended.

The question was taken.

Mr. WAXMAN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8, rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

ENHANCED FEDERAL SECURITY ACT OF 2000

Mr. CANADY of Florida. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4827) to amend title 18, United States Code, to prevent the entry by false pretenses to any real property, vessel, or aircraft of the United States or secure area of any airport, to prevent the misuse of genuine and counterfeit police badges by those seeking to commit a crime, and for other purposes, as amended.

The Clerk read as follows:

H.R. 4827

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Enhanced Federal Security Act of 2000''.

SEC. 2. ENTRY BY FALSE PRETENSES TO ANY REAL PROPERTY, VESSEL, OR AIRCRAFT OF THE UNITED STATES, OR SECURE AREA OF AIRPORT.

(a) IN GENERAL.—Chapter 47 of title 18, United States Code, is amended by adding at the end the following:

''§ 1036. Entry by false pretenses to any real property, vessel, or aircraft of the United States or secure area of any airport

''(a) Whoever, by any fraud or false pretense, enters or attempts to enter—

''(1) any real property belonging in whole or in part to, or leased by, the United States;

''(2) any vessel or aircraft belonging in whole or in part to, or leased by, the United States; or

''(3) any secure area of any airport;

shall be punished as provided in subsection (b) of this section.

''(b) The punishment for an offense under subsection (a) of this section is—

''(1) a fine under this title or imprisonment for not more than five years, or both, if the offense is committed with the intent to commit a felony; or

''(2) a fine under this title or imprisonment for not more than six months, or both, in any other case.

''(c) As used in this section—

''(1) the term 'secure area' means an area access to which is restricted by the airport authority or a public agency; and

''(2) the term 'airport' has the meaning given such term in section 47102 of title 49.''.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 47 of title 18, United States Code, is amended by adding at the end the following new item:

''1036. Entry by false pretenses to any real property, vessel, or aircraft of the United States or secure area of any airport.''.

SEC. 3. POLICE BADGES.

(a) IN GENERAL.—Chapter 33 of title 18, United States Code, is amended by adding at the end the following:

''§ 716. Police badges

''(a) Whoever—

''(1) knowingly transfers, transports, or receives, in interstate or foreign commerce, a counterfeit police badge;

''(2) knowingly transfers, in interstate or foreign commerce, a genuine police badge to an individual, knowing that such individual is not authorized to possess it under the law of the place in which the badge is the official badge of the police;

''(3) knowingly receives a genuine police badge in a transfer prohibited by paragraph (2); or

''(4) being a person not authorized to possess a genuine police badge under the law of the place in which the badge is the official badge of the police, knowingly transports that badge in interstate or foreign commerce;

shall be fined under this title or imprisoned not more than six months, or both.

''(b) It is a defense to a prosecution under this section that the badge is used or is intended to be used exclusively—

''(1) as a memento, or in a collection or exhibit;

''(2) for decorative purposes;

''(3) for a dramatic presentation, such as a theatrical, film, or television production; or

''(4) for any other recreational purpose.

''(c) As used in this section—

''(1) the term 'genuine police badge' means an official badge issued by public authority to identify an individual as a law enforcement officer having police powers; and

''(2) the term 'counterfeit police badge' means an item that so resembles a police badge that it would deceive an ordinary individual into believing it was a genuine police badge.''.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 33 of title 18, United States Code, is amended by adding at the end the following new item:

''716. Police badges.''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. CANADY) and the gentleman from Virginia (Mr. SCOTT) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. CANADY).

GENERAL LEAVE

Mr. CANADY of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 4827, the legislation under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. CANADY of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 4827, the Enhanced Federal Security Act of 2000. H.R. 4827 will help make our Federal buildings and airports more secure by making it a Federal crime to enter or attempt to enter Federal property under false pretenses. Additionally, the bill will prohibit the trafficking in genuine and counterfeit police badges, which can be used by criminals, terrorists, and foreign intelligence agents to obtain unauthorized access to these secure facilities or to commit other crimes.

The gentleman from California (Mr. HORN) introduced H.R. 4827 in July, and it was reported by voice vote from the Committee on the Judiciary on September 20. The gentleman from California drafted this bill in response to the findings of an oversight investigation conducted by the Subcommittee on Crime, made public at a hearing on May 25 of this year, which revealed serious breaches of security at Federal buildings and airports.

At that hearing, GAO special agents testified that, while posing as plainclothes law enforcement officers, they targeted and penetrated 19 secure Federal buildings and two airports using fake police badges and credentials. In every case, these agents were able to enter agency buildings and secure airport areas while claiming to be armed and carrying briefcases, which were never searched, and were big enough to be packed with large quantities of explosives, chemical or biological agents. The agencies penetrated included the CIA, the Defense Department, the Pentagon, the FBI, the Justice Department, the State Department, and the Department of Energy.

To address the serious threat to our national security posed by individuals carrying fake badges and credentials, H.R. 4827 would do two things. First, it would make it a Federal crime to enter or attempt to enter Federal property or the secure area of an airport under false pretenses. A person entering such property under false pretenses would be subject to a fine and up to 6 months in prison. Additionally, a person entering such property under false pretenses, with the intent to commit a felony, would be subject to a fine and up to 5 years in prison.

H.R. 4827 would also prohibit trafficking in genuine and counterfeit police badges in interstate or foreign commerce. A person trafficking in police badges would be subject to a fine and up to 6 months in prison.

The bill creates a defense to prosecution to protect those who possess a badge as a memento, in a collection or exhibit, for decorative purposes, for dramatic presentation, or for recreational purposes.

Mr. Speaker, I want to thank the gentleman from California (Mr. HORN) for introducing this bill and the gentleman from Virginia (Mr. SCOTT) for working with us to improve it in the Committee on the Judiciary. This bill is an important step towards closing a major gap in security that currently exists at our Nation's most secure buildings and airports. We live in a time that some people call the age of terrorism. It is a time that calls for heightened vigilance and security. We must do all we can to thwart and punish those who would threaten our public safety and national security.

Mr. Speaker, I urge all my colleagues to support this important piece of legislation.

Mr. Speaker, I yield 5 minutes to the gentleman from California (Mr. HORN).

Mr. HORN. Mr. Speaker, H.R. 4827, as the gentleman noted, seeks to prohibit those who abuse forms of false identification, including the law enforcement badge, from committing crimes against innocent people.

This legislation prohibits entry under false pretense to Federal Government buildings and the secure area of any airport, but it also bans the interstate and foreign trafficking of counterfeit and genuine police badges among those not authorized to possess such a badge. There is no attempt to harm collectors in any way. These are just people that are crooks and are rapists, and there are a whole series of these.

There is currently no Federal law dealing with counterfeit badges of State and local law enforcement agencies. Existing law only prohibits the unauthorized sale or possession of a Federal Government badge. H.R. 4827 complements existing law by prohibiting the misuse of State and local law enforcement agency badges.

This problem first came to my attention when David Singer, police chief of Signal Hill, a wonderful little community in my district, informed me how easy it is to obtain police badges. The local Fox television affiliate in Los Angeles conducted an undercover investigation in which the undercover reporter easily bought a fake Los Angeles Police Department badge, a California Highway Patrol badge, and a Signal Hill Police Department badge for relatively low cost.

Earlier this year, at the request of the gentleman from Florida (Mr. MCCOLLUM), chairman of the Subcommittee on Crime of the Committee on the Judiciary, the General Accounting Office, as we all heard, conducted an undercover investigation of security in Federal Government buildings. This investigation revealed critical lapses in policy, and the gentleman from Florida (Mr. CANADY) has covered that.

These undercover agents flashed fake law enforcement badges, which were easily obtained through the Internet, to penetrate secure areas in 19 government offices and two major airports. The General Accounting Office agents acquired the fake badges from public sources. Counterfeit law enforcement identification was created using commercially available information downloaded from the Internet. The ease with which the General Accounting Office agents were able to penetrate security suggests that the same opportunity exists for criminals to assume false identities and engage in criminal behavior.

Fake badges are especially dangerous when used to commit crimes against innocent individuals who trust in the authority of law enforcement officials. In two separate incidents in Tampa, Florida, an unidentified man attempted to abduct a young boy by using a fake police badge. In Chicago, Illinois, police recently arrested a suspect who used a fake police badge to commit a series of home invasion and sexual assaults against women. Just last week a Newark man was charged with illegal weapons possession and impersonating an officer. After his arrest for drunken driving, an investigation revealed that he was using a fake Newark police badge to avoid arrest and mislead his family and friends.

Although the bill is focused on curbing the criminal activity associated with misuse of the badge, concern has been voiced, as I noted earlier, by legitimate badge collectors, and we have met their concerns. H.R. 4827 includes exceptions for cases where the badge is used exclusively in a collection or exhibit, for decorative purposes, or for a dramatic presentation such as a theater film or television production.

H.R. 4827 has bipartisan support as well as the support of the Fraternal Order of Police, the International Brotherhood of Police Officers, the California Peace Officers Association, and the California Narcotics Officers Association. Mr. Speaker, I urge my colleagues to support and pass H.R. 4827.

Mr. SCOTT. Mr. Speaker, I yield myself such time as I may consume, and I rise in support of the Enhanced Federal Security Act of 2000, which addresses in part the vulnerabilities of Federal agencies, which were exposed by the May 2000 GAO investigatory report referred to by the gentleman from Florida (Mr. CANADY).

In its original form, this bill would make it a Federal crime to enter or attempt to enter Federal property or a secure area of an airport under false pretenses. The person who enters Federal property under false pretenses is subject to a fine of up to 2 years in prison. If such an entry were done with the intent to commit a crime, the person would be punished with a fine and up to 5 years in prison.

The bill would also prohibit trafficking in police badges, whether real or counterfeit. A person trafficking in badges would be subject to a fine and up to 6 months in prison. A person is, however, permitted to possess a badge or badges in a collection or exhibit, for decorative purposes, or for dramatic presentations such as a theatrical film or television production.

Mr. Speaker, at the Subcommittee on Crime's mark of this legislation, I indicated that, while I support the purpose of the bill, I had concerns regarding certain provisions. Following discussions between our staffs, the chairman of the subcommittee, the gentleman from Florida (Mr. MCCOLLUM), offered an amendment at the full committee which addressed my concerns and which were ultimately adopted by the Committee on the Judiciary.

Specifically, the amendment reduced the possible term of imprisonment for simple trespass from 2 years to 6 months, a term which is consistent with other Federal criminal trespass provisions. Further, the amendment provides that the felony provisions under the law require entry by false pretenses with the intent to commit a felony, as opposed to any crime, which the original bill provided.

Finally, the amendment makes it clear that transferring, transporting, or receiving a replica of a police badge as a memento or for recreational purposes, such as a toy, would not constitute a criminal offense under the bill.

Mr. Speaker, with those changes, I believe that H.R. 4827 addresses the vulnerabilities of Federal agencies which were exposed in May of 2000 without sacrificing individual liberties or imposing penalties out of proportion with the underlying crime. I, therefore, commend the gentleman from California (Mr. HORN), the chairman of the subcommittee, the gentleman from Florida (Mr. MCCOLLUM), and the gentleman from Florida (Mr. CANADY) for their work on this matter; and I urge my colleagues to support the legislation.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. CANADY of Florida. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan (Mr. CAMP).

Mr. CAMP. Mr. Speaker, I thank the gentleman from Florida for yielding me this time.

Mr. Speaker, I would like to thank the gentleman from Illinois (Mr. HYDE), chairman of the Committee on the Judiciary, for all of his work, and the work of the entire committee for their work on this bill. I would also like to thank the gentleman from California (Mr. HORN) for his leadership in writing and drafting this bill. It is really about the safety of our citizens, and I believe he should be duly recognized for his efforts.

□ 1545

On June 29, the gentleman from California (Mr. HORN) brought H.R. 4827 before the Speaker's Advisory Group on Corrections. The Corrections Group is a bipartisan group that seeks to fix, update or repeal outdated or unnecessary laws, rules or regulations. This bill received unanimous support from the Corrections Advisory Group.

Earlier this year, agents of the General Accounting Office were able to enter Government buildings with ease by flashing fake badges and pretending to be law enforcement officers. These agents used badges purchased over the Internet. The agents passed through security at two airports without going through the regular security measures. Agents were also able to enter the Justice Department, State Department, FBI Headquarters, and the Pentagon.

H.R. 4827 would prohibit the transfer, transport or receiving in interstate or foreign commerce of a counterfeit or a genuine police badge to an individual not authorized to possess such a badge. The bill would also make it a crime to enter a Government building under false pretenses.

I am proud as chairman of the Advisory Group and as a cosponsor to be here today speaking in favor of H.R. 4827 and would urge support of this measure.

Mr. CANADY of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to join in congratulating the gentleman from California (Mr. HORN) for his leadership. I would like to again thank the gentleman from Virginia (Mr. SCOTT) for his cooperation.

Ms. JACKSON-LEE of Texas. Mr. Speaker, the light that has been shed on the Breaches of Security at Federal Agencies and Airports by the General Accounting Office's (GAO), Office of Special Investigation (OSI) is extremely disturbing to me. The GAO's security test of federal agencies resulted in the OSI being able to breach security at each of the nineteen federal agencies it visited, and two airports.

Mr. Speaker, the Judiciary committee's investigation has highlighted the practicing of selling stolen and counterfeit police badges on the internet and other sources, and the potential to use these items for illegal purposes including breaching the security at through the vessels of our Nation's security is very alarming, to put it mildly, and has led us to hold very informative oversight hearings on these breaches.

GAO agents testified that they breached the offices of several of the Administration's cabinet heads including the Pentagon, Department of Treasury and Department of Commerce. In each of these cases, the agents testified that after producing false badges purchased over the internet, they were waved through check points with their weapons and bags that could have contained explosive devices. In fact, the agents testified that on several occasions they were left unescorted as they wandered through the personal offices of several cabinet heads.

Under the bill, anyone who enters federal property or a secure airport by posing as a police officer would be subject to a fine and up to 6 months in prison. If that person intends to commit a felony, the felony would be a fine and up to 5 years in prison.

H.R. 4827 also prohibits transfer, transport or receipt of a counterfeit police badge through interstate or foreign commerce and provides a penalty of a fine and up to 6 months in prison for doing so. This prohibition also applies to individuals who transfer a real police badge to someone who is not authorized to have it.

Mr. Speaker, I support this legislation and urge my colleagues to pass this commonsense bill. We must not delay to act when the security of our Nation's fortress is in question.

Mr. CANADY of Florida. Mr. Speaker, having no further requests for time, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Florida (Mr. CANADY) that the House suspend the rules and pass the bill, H.R. 4827, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

DNA ANALYSIS BACKLOG ELIMINATION ACT OF 2000

Mr. CANADY of Florida. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4640) to make grants to States for carrying out DNA analyses for use in the Combined DNA Index System of the Federal Bureau of Investigation, to provide for the collection and analysis of DNA samples from certain violent and sexual offenders for use in such system, and for other purposes, as amended.

The Clerk read as follows:

H.R. 4640

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''DNA Analysis Backlog Elimination Act of 2000''.

SEC. 2. AUTHORIZATION OF GRANTS.

(a) AUTHORIZATION OF GRANTS.—The Attorney General may make grants to eligible States for use by the State for the following purposes:

(1) To carry out, for inclusion in the Combined DNA Index System of the Federal Bureau of Investigation, DNA analyses of samples taken from individuals convicted of a qualifying State offense (as determined under subsection (b)(3)).

(2) To carry out, for inclusion in such Combined DNA Index System, DNA analyses of samples from crime scenes.

(3) To increase the capacity of laboratories owned by the State or by units of local government within the State to carry out DNA analyses of samples specified in paragraph (2).

(b) ELIGIBILITY.—For a State to be eligible to receive a grant under this section, the chief executive officer of the State shall submit to the Attorney General an application in such form and containing such information as the Attorney General may require. The application shall—

(1) provide assurances that the State has implemented, or will implement not later than 120 days after the date of such application, a comprehensive plan for the expeditious DNA analysis of samples in accordance with this section;

(2) include a certification that each DNA analysis carried out under the plan shall be maintained pursuant to the privacy requirements described in section 210304(b)(3) of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 14132(b)(3));

(3) include a certification that the State has determined, by statute, rule, or regulation, those offenses under State law that shall be treated for purposes of this section as qualifying State offenses;

(4) specify the allocation that the State shall make, in using grant amounts to carry out DNA analyses of samples, as between samples specified in subsection (a)(1) and samples specified in subsection (a)(2); and

(5) specify that portion of grant amounts that the State shall use for the purpose specified in subsection (a)(3).

(c) CRIMES WITHOUT SUSPECTS.—A State that proposes to allocate grant amounts under paragraph (4) or (5) of subsection (b) for the purposes specified in paragraph (2) or (3) of subsection (a) shall use such allocated amounts to conduct or facilitate DNA analyses of those samples that relate to crimes in connection with which there are no suspects.

(d) ANALYSIS OF SAMPLES.—

(1) IN GENERAL.—The plan shall require that, except as provided in paragraph (3), each DNA analysis be carried out in a laboratory that satisfies quality assurance standards and is—

(A) operated by the State or a unit of local government within the State; or

(B) operated by a private entity pursuant to a contract with the State or a unit of local government within the State.

(2) QUALITY ASSURANCE STANDARDS.—(A) The Director of the Federal Bureau of Investigation shall maintain and make available to States a description of quality assurance protocols and practices that the Director considers adequate to assure the quality of a forensic laboratory.

(B) For purposes of this section, a laboratory satisfies quality assurance standards if the laboratory satisfies the quality control requirements described in paragraphs (1) and (2) of section 210304(b) of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 14132(b)).

(3) USE OF VOUCHERS FOR CERTAIN PURPOSES.—A grant for the purposes specified in paragraph (1) or (2) of subsection (a) may be made in the form of a voucher for laboratory services, which may be redeemed at a laboratory operated by a private entity approved by the Attorney General that satisfies quality assurance standards. The Attorney General may make payment to such a laboratory for the analysis of DNA samples using amounts authorized for those purposes under subsection (j).

(e) RESTRICTIONS ON USE OF FUNDS.—

(1) NONSUPPLANTING.—Funds made available pursuant to this section shall not be used to supplant State funds, but shall be used to increase the amount of funds that would, in the absence of Federal funds, be made available from State sources for the purposes of this Act.

(2) ADMINISTRATIVE COSTS.—A State may not use more than three percent of the funds it receives from this section for administrative expenses.

(f) REPORTS TO THE ATTORNEY GENERAL.—Each State which receives a grant under this section shall submit to the Attorney General, for each year in which funds from a grant received under this section is expended, a report at such time and in such manner as the Attorney General may reasonably require, which contains—

(1) a summary of the activities carried out under the grant and an assessment of whether such activities are meeting the needs identified in the application; and

(2) such other information as the Attorney General may require.

(g) REPORTS TO CONGRESS.—Not later than 90 days after the end of each fiscal year for which grants are made under this section, the Attorney General shall submit to the Congress a report that includes—

(1) the aggregate amount of grants made under this section to each State for such fiscal year; and

(2) a summary of the information provided by States receiving grants under this section.

(h) EXPENDITURE RECORDS.—

(1) IN GENERAL.—Each State which receives a grant under this section shall keep records as the Attorney General may require to facilitate an effective audit of the receipt and use of grant funds received under this section.

(2) ACCESS.—Each State which receives a grant under this section shall make available, for the purpose of audit and examination, such records as are related to the receipt or use of any such grant.

(i) DEFINITION.—For purposes of this section, the term ''State'' means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands.

(j) AUTHORIZATION OF APPROPRIATIONS.—Amounts are authorized to be appropriated to the Attorney General for grants under subsection (a) as follows:

(1) For grants for the purposes specified in paragraph (1) of such subsection—

(A) $15,000,000 for fiscal year 2001;

(B) $15,000,000 for fiscal year 2002; and

(C) $15,000,000 for fiscal year 2003.

(2) For grants for the purposes specified in paragraphs (2) and (3) of such subsection—

(A) $25,000,000 for fiscal year 2001;

(B) $50,000,000 for fiscal year 2002;

(C) $25,000,000 for fiscal year 2003; and

(D) $25,000,000 for fiscal year 2004.

SEC. 3. COLLECTION AND USE OF DNA IDENTIFICATION INFORMATION FROM CERTAIN FEDERAL OFFENDERS.

(a) COLLECTION OF DNA SAMPLES.—

(1) FROM INDIVIDUALS IN CUSTODY.—The Director of the Bureau of Prisons shall collect a DNA sample from each individual in the custody of the Bureau of Prisons who is, or has been, convicted of a qualifying Federal offense (as determined under subsection (d)) or a qualifying military offense, as determined under section 1565 of title 10, United States Code.

(2) FROM INDIVIDUALS ON RELEASE, PAROLE, OR PROBATION.—The probation office responsible for the supervision under Federal law of an individual on probation, parole, or supervised release shall collect a DNA sample from each such individual who is, or has been, convicted of a qualifying Federal offense (as determined under subsection (d)) or a qualifying military offense, as determined under section 1565 of title 10, United States Code.

(3) INDIVIDUALS ALREADY IN CODIS.—For each individual described in paragraph (1) or (2), if the Combined DNA Index System (in this section referred to as ''CODIS'') of the Federal Bureau of Investigation contains a DNA analysis with respect to that individual, or if a DNA sample has been collected from that individual under section 1565 of title 10, United States Code, the Director of the Bureau of Prisons or the probation office responsible (as applicable) may (but need not) collect a DNA sample from that individual.

(4) COLLECTION PROCEDURES.—(A) The Director of the Bureau of Prisons or the probation office responsible (as applicable) may use or authorize the use of such means as are reasonably necessary to detain, restrain, and collect a DNA sample from an individual who refuses to cooperate in the collection of the sample.

(B) The Director of the Bureau of Prisons or the probation office, as appropriate, may enter into agreements with units of State or local government or with private entities to provide for the collection of the samples described in paragraph (1) or (2).

(5) CRIMINAL PENALTY.—An individual from whom the collection of a DNA sample is authorized under this subsection who fails to cooperate in the collection of that sample shall be—

(A) guilty of a class A misdemeanor; and

(B) punished in accordance with title 18, United States Code.

(b) ANALYSIS AND USE OF SAMPLES.—The Director of the Bureau of Prisons or the probation office responsible (as applicable) shall furnish each DNA sample collected under subsection (a) to the Director of the Federal Bureau of Investigation, who shall carry out a DNA analysis on each such DNA sample and include the results in CODIS.

(c) DEFINITIONS.—In this section:

(1) The term ''DNA sample'' means a tissue, fluid, or other bodily sample of an individual on which a DNA analysis can be carried out.

(2) The term ''DNA analysis'' means analysis of the deoxyribonucleic acid (DNA) identification information in a bodily sample.

(d) QUALIFYING FEDERAL OFFENSES.—(1) The offenses that shall be treated for purposes of this section as qualifying Federal offenses are the following offenses under title 18, United States Code, as determined by the Attorney General:

(A) Murder (as described in section 1111 of such title), voluntary manslaughter (as described in section 1112 of such title), or other offense relating to homicide (as described in chapter 51 of such title, sections 1113, 1114, 1116, 1118, 1119, 1120, and 1121).

(B) An offense relating to sexual abuse (as described in chapter 109A of such title, sections 2241 through 2245), to sexual exploitation or other abuse of children (as described in chapter 110 of such title, sections 2251 through 2252), or to transportation for illegal sexual activity (as described in chapter 117 of such title, sections 2421, 2422, 2423, and 2425).

(C) An offense relating to peonage and slavery (as described in chapter 77 of such title).

(D) Kidnapping (as defined in section 3559(c)(2)(E) of such title).

(E) An offense involving robbery or burglary (as described in chapter 103 of such title, sections 2111 through 2114, 2116, and 2118 through 2119).

(F) Any violation of section 1153 involving murder, manslaughter, kidnapping, maiming, a felony offense relating to sexual abuse (as described in chapter 109A), incest, arson, burglary, or robbery.

(G) Any attempt or conspiracy to commit any of the above offenses.

(2) The initial determination of qualifying Federal offenses shall be made not later than 120 days after the date of the enactment of this Act.

(e) REGULATIONS.—

(1) IN GENERAL.—Except as provided in paragraph (2), this section shall be carried out under regulations prescribed by the Attorney General.

(2) PROBATION OFFICERS.—The Director of the Administrative Office of the United States Courts shall make available model procedures for the activities of probation officers in carrying out this section.

(f) COMMENCEMENT OF COLLECTION.—Collection of DNA samples under subsection (a) shall, subject to the availability of appropriations, commence not later than the date that is 180 days after the date of the enactment of this Act.

SEC. 4. COLLECTION AND USE OF DNA IDENTIFICATION INFORMATION FROM CERTAIN DISTRICT OF COLUMBIA OFFENDERS.

(a) COLLECTION OF DNA SAMPLES.—

(1) FROM INDIVIDUALS IN CUSTODY.—The Director of the Bureau of Prisons shall collect a DNA sample from each individual in the custody of the Bureau of Prisons who is, or has been, convicted of a qualifying District of Columbia offense (as determined under subsection (d)).

(2) FROM INDIVIDUALS ON RELEASE, PAROLE, OR PROBATION.—The Director of the Court Services and Offender Supervision Agency for the District of Columbia shall collect a DNA sample from each individual under the supervision of the Agency who is on supervised release, parole, or probation who is, or has been, convicted of a qualifying District of Columbia offense (as determined under subsection (d)).

(3) INDIVIDUALS ALREADY IN CODIS.—For each individual described in paragraph (1) or (2), if the Combined DNA Index System (in this section referred to as ''CODIS'') of the Federal Bureau of Investigation contains a DNA analysis with respect to that individual, the Director of the Bureau of Prisons or Agency (as applicable) may (but need not) collect a DNA sample from that individual.

(4) COLLECTION PROCEDURES.—(A) The Director of the Bureau of Prisons or Agency (as applicable) may use or authorize the use of such means as are reasonably necessary to detain, restrain, and collect a DNA sample from an individual who refuses to cooperate in the collection of the sample.

(B) The Director of the Bureau of Prisons or Agency, as appropriate, may enter into agreements with units of State or local government or with private entities to provide for the collection of the samples described in paragraph (1) or (2).

(5) CRIMINAL PENALTY.—An individual from whom the collection of a DNA sample is authorized under this subsection who fails to cooperate in the collection of that sample shall be—

(A) guilty of a class A misdemeanor; and

(B) punished in accordance with title 18, United States Code.

(b) ANALYSIS AND USE OF SAMPLES.—The Director of the Bureau of Prisons or Agency (as applicable) shall furnish each DNA sample collected under subsection (a) to the Director of the Federal Bureau of Investigation, who shall carry out a DNA analysis on each such DNA sample and include the results in CODIS.

(c) DEFINITIONS.—In this section:

(1) The term ''DNA sample'' means a tissue, fluid, or other bodily sample of an individual on which a DNA analysis can be carried out.

(2) The term ''DNA analysis'' means analysis of the deoxyribonucleic acid (DNA) identification information in a bodily sample.

(d) QUALIFYING DISTRICT OF COLUMBIA OFFENSES.—The Government of the District of Columbia may determine those offenses under the District of Columbia Code that shall be treated for purposes of this section as qualifying District of Columbia offenses.

(e) COMMENCEMENT OF COLLECTION.—Collection of DNA samples under subsection (a) shall, subject to the availability of appropriations, commence not later than the date that is 180 days after the date of the enactment of this Act.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Court Services and Offender Supervision Agency for the District of Columbia to carry out this section such sums as may be necessary for each of fiscal years 2001 through 2005.

SEC. 5. COLLECTION AND USE OF DNA IDENTIFICATION INFORMATION FROM CERTAIN OFFENDERS IN THE ARMED FORCES.

(a) IN GENERAL.—(1) Chapter 80 of title 10, United States Code, is amended by adding at the end the following new section:

''§ 1565. DNA identification information: collection from certain offenders; use

''(a) COLLECTION OF DNA SAMPLES.—(1) The Secretary concerned shall collect a DNA sample from each member of the armed forces under the Secretary's jurisdiction who is, or has been, convicted of a qualifying military offense (as determined under subsection (d)).

''(2) For each member described in paragraph (1), if the Combined DNA Index System (in this section referred to as 'CODIS') of the Federal Bureau of Investigation contains a DNA analysis with respect to that member, or if a DNA sample has been or is to be collected from that member under section 3(a) of the DNA Analysis Backlog Elimination Act of 2000, the Secretary concerned may (but need not) collect a DNA sample from that member.

''(3) The Secretary concerned may enter into agreements with other Federal agencies, units of State or local government, or private entities to provide for the collection of samples described in paragraph (1).

''(b) ANALYSIS AND USE OF SAMPLES.—The Secretary concerned shall furnish each DNA sample collected under subsection (a) to the Secretary of Defense. The Secretary of Defense shall—

(1) carry out a DNA analysis on each such DNA sample in a manner that complies with the requirements for inclusion of that analysis in CODIS; and

(2) furnish the results of each such analysis to the Director of the Federal Bureau of Investigation for inclusion in CODIS.

''(c) DEFINITIONS.—In this section:

''(1) The term 'DNA sample' means a tissue, fluid, or other bodily sample of an individual on which a DNA analysis can be carried out.

''(2) The term 'DNA analysis' means analysis of the deoxyribonucleic acid (DNA) identification information in a bodily sample.

''(d) QUALIFYING MILITARY OFFENSES.—(1) Subject to paragraph (2), the Secretary of Defense, in consultation with the Attorney General, shall determine those felony or sexual offenses under the Uniform Code of Military Justice that shall be treated for purposes of this section as qualifying military offenses.

''(2) An offense under the Uniform Code of Military Justice that is comparable to a qualifying Federal offense (as determined under section 3(d) of the DNA Analysis Backlog Elimination Act of 2000), as determined by the Secretary in consultation with the Attorney General, shall be treated for purposes of this section as a qualifying military offense.

''(e) EXPUNGEMENT.—(1) The Secretary of Defense shall promptly expunge, from the index described in subsection (a) of section 210304 of the Violent Crime Control and Law Enforcement Act of 1994, the DNA analysis of a person included in the index on the basis of a qualifying military offense if the Secretary receives, for each conviction of the person of a qualifying offense, a certified copy of a final court order establishing that such conviction has been overturned.

''(2) For purposes of paragraph (1), the term 'qualifying offense' means any of the following offenses:

''(A) A qualifying Federal offense, as determined under section 3 of the DNA Analysis Backlog Elimination Act of 2000.

''(B) A qualifying District of Columbia offense, as determined under section 4 of the DNA Analysis Backlog Elimination Act of 2000.

''(C) A qualifying military offense.

''(3) For purposes of paragraph (1), a court order is not 'final' if time remains for an appeal or application for discretionary review with respect to the order.

''(f) REGULATIONS.—This section shall be carried out under regulations prescribed by the Secretary of Defense, in consultation with the Secretary of Transportation and the Attorney General. Those regulations shall apply, to the extent practicable, uniformly throughout the armed forces.''.

(2) The table of sections at the beginning of such chapter is amended by adding at the end the following new item:

''1565. DNA identification information: collection from certain offenders; use.''.

(b) INITIAL DETERMINATION OF QUALIFYING MILITARY OFFENSES.—The initial determination of qualifying military offenses under section 1565(d) of title 10, United States Code, as added by subsection (a)(1), shall be made not later than 120 days after the date of the enactment of this Act.

(c) COMMENCEMENT OF COLLECTION.—Collection of DNA samples under section 1565(a) of such title, as added by subsection (a)(1), shall, subject to the availability of appropriations, commence not later than the date that is 60 days after the date of the initial determination referred to in subsection (b).

SEC. 6. EXPANSION OF DNA IDENTIFICATION INDEX.

(a) USE OF CERTAIN FUNDS.—Section 811(a)(2) of the Antiterrorism and Effective Death Penalty Act of 1996 (28 U.S.C. 531 note) is amended to read as follows:

''(2) the Director of the Federal Bureau of Investigation shall expand the combined DNA Identification System (CODIS) to include analyses of DNA samples collected from—

''(A) individuals convicted of a qualifying Federal offense, as determined under section 3(d) of the DNA Analysis Backlog Elimination Act of 2000;

''(B) individuals convicted of a qualifying District of Columbia offense, as determined under section 4(d) of the DNA Analysis Backlog Elimination Act of 2000; and

''(C) members of the Armed Forces convicted of a qualifying military offense, as determined under section 1565(d) of title 10, United States Code.''.

(b) INDEX TO FACILITATE LAW ENFORCEMENT EXCHANGE OF DNA IDENTIFICATION INFORMATION.—Section 210304 of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 14132) is amended—

(1) in subsection (b)(1), by inserting after ''criminal justice agency'' the following: ''(or the Secretary of Defense in accordance with section 1565 of title 10, United States Code)'';

(2) in subsection (b)(2), by striking '', at regular intervals of not to exceed 180 days,'' and inserting ''semiannual'';

(3) in subsection (b)(3), by inserting after ''criminal justice agencies'' in the matter preceding subparagraph (A) the following: ''(or the Secretary of Defense in accordance with section 1565 of title 10, United States Code)''; and

(4) by adding at the end the following new subsection:

''(d) EXPUNGEMENT OF RECORDS.—

''(1) BY DIRECTOR.—(A) The Director of the Federal Bureau of Investigation shall promptly expunge from the index described in subsection (a) the DNA analysis of a person included in the index on the basis of a qualifying Federal offense or a qualifying District of Columbia offense (as determined under section 3 and 4 of the DNA Analysis Backlog Elimination Act of 2000, respectively) if the Director receives, for each conviction of the person of a qualifying offense, a certified copy of a final court order establishing that such conviction has been overturned.

''(B) For purposes of subparagraph (A), the term 'qualifying offense' means any of the following offenses:

''(i) A qualifying Federal offense, as determined under section 3 of the DNA Analysis Backlog Elimination Act of 2000.

''(ii) A qualifying District of Columbia offense, as determined under section 4 of the DNA Analysis Backlog Elimination Act of 2000.

''(iii) A qualifying military offense, as determined under section 1565 of title 10, United States Code.

''(C) For purposes of subparagraph (A), a court order is not 'final' if time remains for an appeal or application for discretionary review with respect to the order.

''(2) BY STATES.—(A) As a condition of access to the index described in subsection (a), a State shall promptly expunge from that index the DNA analysis of a person included in the index by that State if the responsible agency or official of that State receives, for each conviction of the person of an offense on the basis of which that analysis was or could have been included in the index, a certified copy of a final court order establishing that such conviction has been overturned.

''(B) For purposes of subparagraph (A), a court order is not 'final' if time remains for an appeal or application for discretionary review with respect to the order.''.

SEC. 7. CONDITIONS OF RELEASE.

(a) CONDITIONS OF PROBATION.—Section 3563(a) of title 18, United States Code, is amended—

(1) in paragraph (7), by striking ''and'' at the end;

(2) in paragraph (8), by striking the period at the end and inserting ''; and''; and

(3) by inserting after paragraph (8) the following:

''(9) that the defendant cooperate in the collection of a DNA sample from the defendant if the collection of such a sample is authorized pursuant to section 3 of the DNA Analysis Backlog Elimination Act of 2000.''.

(b) CONDITIONS OF SUPERVISED RELEASE.—Section 3583(d) of title 18, United States Code, is amended by inserting before ''The court shall also order'' the following: ''The court shall order, as an explicit condition of supervised release, that the defendant cooperate in the collection of a DNA sample from the defendant, if the collection of such a sample is authorized pursuant to section 3 of the DNA Analysis Backlog Elimination Act of 2000.''.

(c) CONDITIONS OF PAROLE.—Section 4209 of title 18, United States Code, insofar as such section remains in effect with respect to certain individuals, is amended by inserting before ''In every case, the Commission shall also impose'' the following: ''In every case, the Commission shall impose as a condition of parole that the parolee cooperate in the collection of a DNA sample from the parolee, if the collection of such a sample is authorized pursuant to section 3 or section 4 of the DNA Analysis Backlog Elimination Act of 2000 or section 1565 of title 10.''.

(d) CONDITIONS OF RELEASE GENERALLY.—If the collection of a DNA sample from an individual on probation, parole, or supervised release is authorized pursuant to section 3 or 4 of this Act or section 1565 of title 10, United States Code, the individual shall cooperate in the collection of a DNA sample as a condition of that probation, parole, or supervised release.

SEC. 8. TECHNICAL AND CONFORMING AMENDMENTS.

(a) DRUG CONTROL AND SYSTEM IMPROVEMENT GRANTS.—Section 503(a)(12)(C) of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3753(a)(12)(C)) is amended by striking '', at regular intervals of not to exceed 180 days,'' and inserting ''semiannual''.

(b) DNA IDENTIFICATION GRANTS.—Section 2403(3) of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3796kk–2(3)) is amended by striking '', at regular intervals not exceeding 180 days,'' and inserting ''semiannual''.

(c) FEDERAL BUREAU OF INVESTIGATION.—Section 210305(a)(1)(A) of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 14133(a)(1)(A)) is amended by striking '', at regular intervals of not to exceed 180 days,'' and inserting ''semiannual''.

SEC. 9. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Attorney General to carry out this Act (including to reimburse the Federal judiciary for any reasonable costs incurred in implementing such Act, as determined by the Attorney General) such sums as may be necessary.

SEC. 10. PRIVACY PROTECTION STANDARDS.

(a) IN GENERAL.—Except as provided in subsection (b), any sample collected under, or any result of any analysis carried out under, section 2, 3, or 4 may be used only for a purpose specified in such section.

(b) PERMISSIVE USES.—A sample or result described in subsection (a) may be disclosed under the circumstances under which disclosure of information included in the Combined DNA Index System is allowed, as specified in subparagraphs (A) through (D) of section 210304(b)(3) of the Violent Crime Control and Law Enforcement Act of 1994 (42 U.S.C. 14132(b)(3)).

(c) CRIMINAL PENALTY.—A person who knowingly—

(1) discloses a sample or result described in subsection (a) in any manner to any person not authorized to receive it; or

(2) obtains, without authorization, a sample or result described in subsection (a),

shall be fined not more than $100,000.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. CANADY) and the gentleman from Virginia (Mr. SCOTT) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. CANADY).

GENERAL LEAVE

Mr. CANADY of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H.R. 4640.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. CANADY of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 4640, the DNA Analysis Backlog Elimination Act, was introduced by the gentleman from Florida (Mr. MCCOLLUM) together with the gentleman from Virginia (Mr. SCOTT) the ranking minority member, the gentleman from Ohio (Mr. CHABOT), the gentleman from New York (Mr. WEINER), and the gentleman from New York (Mr. GILMAN) to address an important problem, the massive backlog of biological samples awaiting DNA analysis in the States.

According to the Justice Department's Bureau of Justice Statistics, approximately 69 percent of publicly operated forensic crime labs across the country have a backlog of unprocessed samples awaiting DNA analysis. While we do not have solid numbers for the total of crime scene and victim samples awaiting analysis, some estimates run into the tens of thousands.

We do know that the backlog of unprocessed samples taken from convicted offenders is nearing 300,000. Even the FBI's own crime lab in Washington has a backlog of samples awaiting DNA analysis.

Our bill addresses this problem by authorizing funding to eliminate the backlog. States seeking funding under the program created by the bill will be required to make application for this funding through the Justice Department's Office of Justice Programs. States seeking these funds will be required to develop and submit to that office a comprehensive plan to eliminate any backlog of samples awaiting DNA analysis.

Many of the samples analyzed will be loaded into the FBI's Combined DNA Index System, known as ''CODIS,'' a national compute database authorized by Congress in 1994. The purpose of this database is to match DNA samples from crime scenes where there are no suspects with the DNA of convicted offenders.

Clearly, the more samples we have in the system, the greater the likelihood we will come up with matches and solve cases.

One glaring omission in the law that authorized CODIS is that it did not authorize the taking of DNA samples from persons convicted of Federal offenses, District of Columbia offences, and offenses under the Uniform Code of Military Justice. H.R. 4640 will correct that omission. The offenses triggering the sample requirement for Federal and military offenders are specified in the bill and consistent of a number of felony crimes, most involving violence or sex offenses.

The bill leaves it to the District of Columbia government to determine those offenses that will trigger the sample requirement under District of Columbia law. Also, as amended, the bill requires that samples of offenders whose convictions are overturned be removed from the CODIS database. This will be the requirement regardless of whether the offender was convicted of a Federal or State crime.

H.R. 4640 is similar to three bills introduced by the gentleman from Rhode Island (Mr. KENNEDY), the gentleman from New York (Mr. WEINER) and the gentleman from New York (Mr. GILMAN), all three of which were the subject of a hearing before the Subcommittee on Crime on March 23, 2000. The bill before us today builds on the foundation laid by those bills, and I am pleased that the sponsors of those bills are original cosponsors of H.R. 4640.

As this bill has moved through the committee, it has been approved by amendments on both sides. The result is a very good bill, and I am pleased that this bill is the product of that bipartisan cooperation.

I am also pleased to inform my colleagues that H.R. 4640 is supported by the administration, the Federal Law Enforcement Officers Association, and the Fraternal Order of Police.

I want to particularly acknowledge the leadership of the gentleman from Florida (Mr. MCCOLLUM) the chairman of the Subcommittee on Crime, on this important legislation. He has really made it possible for us to bring this legislation forward here today.

I also want to particularly thank the gentleman from Virginia (Mr. SCOTT) the ranking member of the Subcommittee on Crime, for all of his help in crafting the legislation and for being an original cosponsor of the bill which is before the House now.

I urge all of my colleagues to support this important legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. SCOTT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the DNA Analysis Backlog Elimination

Act of 2000. This bill represents a compilation of the fine effort by several of our colleagues to address the DNA analysis backlog that has accumulated at laboratories all over the country.

Earlier we conducted in the Subcommittee on Crime hearings on three DNA backlog elimination bills introduced by the gentleman from New York (Mr. GILMAN), the gentleman from Michigan (Mr. STUPAK), the gentleman from Rhode Island (Mr. KENNEDY) and members of the Committee on the Judiciary, the gentleman from New York (Mr. WEINER) and the gentleman from Ohio (Mr. CHABOT).

Elimination of the DNA analysis backlog would be a significant step forward in having our criminal justice system more accurately dispense justice. Not only will it greatly enhance the efficiency and effectiveness of our criminal justice systems throughout the country, but it would also save lives by allowing apprehension and detention of dangerous individuals while eliminating the prospects that innocent individuals would be wrongly held for crimes that they did not commit.

At the same time, I think it is important to recognize that with this expansion comes the increased likelihood that DNA samples and analyses may be misused. We must be ever mindful of our responsibility to protect the privacy of this DNA information, ensuring that it be used only for law enforcement purposes.

To that end, I was pleased that the Committee on the Judiciary agreed to an amendment that would impose criminal penalties for anyone who uses DNA samples or analyses for purposes not designated by the law enforcement officials.

I am also grateful that the majority provided for the expungement of DNA information on individuals whose convictions have been overturned on appeal.

In addition to the criminal penalties for misuse of DNA, I believe that we should encourage each State to develop a specific security protocol to prevent misuse of such samples, since the DNA does include sensitive personal information. This approach will be the only way to ensure that DNA analysis will not be used for unlawful purposes.

This legislation is a positive step for law enforcement, but I am disappointed that it does not include any requirement on States to provide access to DNA testing to convicted persons who did not have the opportunity for DNA testing at the time of their trial. I am hoping that the next Congress will consider additional legislation which would ensure that funds provided for H.R. 4640 might be made available to provide persons who want to prove that they were wrongfully convicted.

Nevertheless, Mr. Speaker, I am very aware of the benefits of this legislation. In fact, through his outstanding work in Virginia, Dr. Paul B. Ferrara, Virginia's Director of the Division of Forensic Sciences, has led efforts in this country on the use of DNA for criminal justice purposes. That is why I am pleased to be a cosponsor of this legislation and urge my colleagues to support the bill.

Mr. STUPAK. Mr. Speaker, I am pleased that the U.S. House is today taking up the DNA Analysis Backlog Elimination Act of 2000 bill. I originally introduced a bill addressing the DNA backlog problem with my colleagues Mr. GILMAN and Mr. RAMSTAD in November 1999. I am so pleased to support this bill on suspension today, as this body acts to bring desperately needed help to our law enforcement during these waning days of the 106th Congress.

This help does not come a moment too soon.

I would like to thank Mr. MCCOLLUM, Mr. SCOTT, Mr. CHABOT, Mr. WEINER and Mr. KENNEDY and all the other Judiciary Committee members who devoted their time and energy to move this important issue to the forefront. This bill would not be on the floor today without the hard work of these members, who held hearings and worked to craft this joint legislation.

This bill helps states and the FBI take a giant step in the fight against crime by eliminating the national backlog of DNA records. Federal, state and local law enforcement will be more connected, and better able to work together to solve crimes. It also closes significant loopholes that currently exist whereby the DNA samples of federal, military and District of Columbia serious offenders are not being collected. Lastly, it contains important privacy and expungement provisions, so that the rights of individual are protected as well.

Right now, state and local police departments cannot deal with the number of DNA samples from convicted offenders and unsolved crimes. These states simply do not have enough time, money, or resources to test and record these samples.

According to the Detroit Free Press, as of May 2000, Michigan has collected 15,000 blood samples from sex offenders since 1991, but state police have so far only run DNA analysis on 500 of them! This is truly frightening.

Unanalyzed and unrecorded DNA samples are useless to law enforcement and to criminal investigations. Let me illustrate why we need these samples tested and recorded, why we need this bill.

John Doe is a convicted offender serving time for a sexual assault. By law, his DNA has been collected, but because of the backlog, it has not been tested and is not in the law enforcement database. John Doe gets out of jail, he commits another sexual assault, and gets away, unidentified by the victim.

Even if the police collect his DNA from the subsequent crime scene, he will not be caught, and his DNA will not be matched up, because his previous DNA sample is sitting on a shelf, still waiting to be tested. In Michigan, his sample would be sitting with the almost 15,000 other samples—untested and therefore useless.

John Doe will stay on the streets, and he will commit more crimes.

This bill does not come a moment too soon, every day that goes by, a real John Doe is out there, committing more rapes, robberies, murders, when he could have been stopped.

This bill also ensures that the DNA samples of federal, District of Columbia, and military offenders are analyzed. The broader the database police have to work with, the better their ability to solve unsolved crimes and prevent future ones.

Because of this bill, you will see the number of unsolved cases go down, and you might see some people freed from jail, exonerated by the new DNA records available. It opens a door to better all around law enforcement and criminal investigation.

We are answering the call for help by police, communities, and victims, and it will save lives. This bill finally strikes back at criminals that until now have been able to strike and strike again and again at our society without being caught.

Mr. KENNEDY of Rhode Island. Mr. Speaker, I want to thank, Mr. MCCOLLUM, Mr. SCOTT, and the other Members of the Judiciary Committee for their hard work on this important crime issue.

In September of last year, I introduced, along with Congressman CHABOT and Congressman VISCLOSKY, The Violent Offender DNA Identification Act of 1999, H.R. 2810.

This bipartisan measure is the predecessor bill to H.R. 4640, which I also was proud to cosponsor.

These bills will put more criminals behind bars by correcting practical and legal obstacles that leave crucial DNA evidence unused and too many violent crimes unsolved.

Every week we hear stories about DNA evidence. Whether it is a prisoner on death row for a crime he didn't commit who is released by DNA evidence or a criminal suspect finally brought to justice using DNA evidence, DNA is making headlines.

Currently, all 50 states require DNA samples to be obtained from certain convicted offenders, and these samples can be shared through a national data base known as CODIS.

The data base is installed in over ninety laboratories and nearly five hundred thousand samples are classified and stored in it.

To date, the FBI has recorded hundreds of matches through DNA data bases, helping solve numerous crimes. As valuable as this system is, it is not being utilized effectively. The problems with the current system include backlog and jurisdiction.

The FBI estimates that there are several hundred thousand DNA samples that have been collected, but still need to be analyzed.

In my State of Rhode Island, the DNA collection began only a year and one half ago, but already there is a backlog of a hundred samples.

Today's bipartisan bill, which was crafted with input from organizations including the FBI and the ACLU, would address this backlog problem and ensure that more crimes will be solved through the matching of DNA evidence.

The bill does two critical things. First, it provides one hundred and seventy million dollars in grants to eliminate the backlog to states to increase their capability to perform DNA analysis. Second, the bill allows Federal, Military

and District of Columbia law enforcement agencies to collect DNA evidence.

Under current law, Federal Courts and the local courts of the District of Columbia do not have this ability.

The Federal Courts and the District of Columbia have indicated their support for the ability to conduct testing as states do.

From my home State of Rhode Island, I have heard from lab experts and local law enforcement leaders on the need for this legislation.

It is clear that law enforcement supports legislation in this area. And it is our job in Congress to balance this law enforcement need with the privacy needs of our citizens.

Recently, Congress has been very active on the DNA backlog issue.

I strongly feel that H.R. 4640, however, is the most effective piece of legislation on this topic because it has several provisions to guarantee civil liberties, excludes juveniles from this database and provides for the automatic right to expungement of a sample if a conviction is overturned.

The main sponsors of H.R. 4640, particularly the Ranking Member of the Crime Subcommittee, Mr. SCOTT, worked extensively with the ACLU to address many of their concerns, while taking our underlying model for the bill from the FBIs recommendations.

I feel strongly, that there are several areas of H.R. 4640 that could have been improved upon—including the clear prohibition on the use of funds for arrestee testing, and more specific requirements on States to provide DNA testing to convicted persons who did not have access at the time of their trial.

But, overall this bill has been crafted with the careful and attentive work of both sides of the aisle, in the hopes that it may be further improved during a conference with the other body.

In a bipartisan fashion, we attended to many civil liberty concerns and, therefore, narrowed the types of crimes covered, mandated stricter protocols for the use of DNA, and excluded juvenile offenders.

In this process, we came up with a bill that all members of the House can support.

Violent criminals should not be able to evade arrest simply because a state didn't analyze its DNA samples or because an inexcusable loophole leaves Federal and D.C. offenders out of the DNA data base.

We have the technology to revolutionize law enforcement and forensic science and the key to unlock the door of unsolved crimes—we must use this capacity and make these goals a reality.

Lastly, I want to recognize the hard work of several staffers who were integral in bringing this bill to the floor, most notably. Mr. Bobby Vassar, Minority Counsel for the Judiciary Committee, Mr. Glenn Schmitt with the Majority staff, and Ms. Elizabeth Treanor, Counsel for Mr. Chabot.

I urge all of my colleagues to support the ''DNA Analysis Backlog Elimination Act.''

Mr. GILMAN. Mr. Speaker, I would like to express my gratitude to Chairman MCCOLLUM for his dedication and diligence in bringing H.R. 4640, the DNA Analysis Backlog Elimination Act, to the floor today, and am pleased that this legislation reflects many of the provisions outlined in my measure, H.R. 3375, the Convicted Offender DNA Index System Support Act. I've had the pleasure of working closely with him, Ranking Member SCOTT, and Representatives RAMSTAD, STUPAK, KENNEDY, WEINER, and CHABOT, in developing this legislation, which will meet the needs of prosecutors, law enforcement, and victims throughout our Nation.

Mr. Speaker, in 1994, the Congress passed the DNA Identification Act, which authorized the construction of the Combined DNA Index System, or CODIS, to assist our Federal, State and local law enforcement agencies in fighting violent crime throughout the Nation. CODIS is a master database for all law enforcement agencies to submit and retrieve DNA samples of convicted violent offenders. Since beginning its operation in 1998, the system has worked extremely well in assisting law enforcement by matching DNA evidence with possible suspects and has accounted for the capture of over 200 suspects in unsolved violent crimes.

However, because of the high volume of convicted offender samples needed to be analyzed, a nationwide backlog of approximately 600,000 unanalyzed convicted offender DNA samples has formed. Furthermore, because the program has been so vital in assisting crime fighting and prevention efforts, our States are expanding their collection efforts. Recently, New York State Governor George Pataki enacted legislation to expand N.Y. State's collection of DNA samples to require all violent felons and a number of non-violent felony offenders, and, earlier this year, the use of the expanded system resulted in charges being filed in a 20-year-old Westchester County murder.

State forensic laboratories have also accumulated a backlog of evidence for cases for which there are no suspects. These are evidence ''kits'' for unsolved violent crimes which are stored away because our State forensic laboratories do not have the support necessary to analyze them and compare the evidence to our nationwide data bank. Presently, there are approximately 12,000 rape cases in New York City alone, and, it is estimated, approximately 180,000 rape cases nationwide, which are unsolved and unanalyzed. This number represents a dismal future for the success for CODIS and reflects the growing problem facing our law enforcement community. The DNA Analysis Backlog Elimination Act will provide States with the support necessary to combat these growing backlogs. The successful elimination of both the convicted violent offender backlog and the unsolved casework backlog will play a major role in the future of out State's crime prevention and law enforcement efforts.

The DNA Analysis Backlog Elimination Act will also provide funding to the Federal Bureau of Investigation to eliminate their unsolved casework backlog and close a loophole created by the original legislation. Although all 50 states require DNA collection from designated convicted offenders, for some inexplicable reason, convicted Federal, District of Columbia and Military offenders are exempt. H.R. 4640 closes that loophole by requiring the collection of samples from any Federal, Military, or D.C. offender convicted of a violent crime.

Mr. Speaker, as you are aware, our Nation's fight against crime is never over. Every day, the use of DNA evidence is becoming a more important tool to our nation's law enforcement in solving crimes, convicting the guilty and exonerating the innocent. The Justice Department estimates that erasing the convicted offender backlog nationwide could resolve at least 600 cases. The true amount of unsolved cases, both State and Federal, which may be concluded through the elimination of the both backlogs is unknown. However, if one more case is solved and one more violent offender is detained because of our efforts, we have succeeded.

In conclusion, we must ensure that our nation's law enforcement has the equipment and support necessary to fight violent crime and protect our communities. The DNA Analysis Backlog Elimination Act will assist our local, State and Federal law enforcement personnel by ensuring that crucial resources are provided to our DNA data-banks and crime laboratories.

Mr. THOMPSON of California. Mr. Speaker, I rise in strong support of H.R. 4640, which would assist the states in reducing the backlog of DNA samples that have been collected from convicted offenders and crime scenes.

Recent reports indicate that in my own home state of California there are more than 100,000 unprocessed DNA samples. Even using the state's most optimistic projections, it will take two years to clear that backlog.

Many states are similarly situated. Mired with both funding and collection problems, the U.S. solves far fewer crimes with DNA. But, the potential for improvement is great. While the U.S. may never match Great Britain, which has a long-established DNA database and is reported to crack 300 to 500 cases a week, reducing the backlog of DNA samples will provide both law enforcement with an increasingly important investigative and prosecutorial tool.

H.R. 4640 addresses the backlog by providing a series of grants to assist the states in processing DNA samples collected from violent offenders and samples collected from crime scenes and victims of crime. Specifically, the bill authorizes $15 million a year in grants for the next three years to process convicted offender DNA samples. In addition, it provides $25 million to reduce the backlog of crime scene samples, an intrinsically more expensive processing, by both expanding state laboratory facilities and allowing states to contract with private labs.

As important, the bill closes a loophole that has existed with respect to individuals convicted of violent federal crimes and held in federal facilities. Currently, there is no requirement that DNA samples be taken from persons convicted of certain federal crimes. H.R. 4640 fixes this oversight. Of particular interest to me is the bill's requirement that DNA be collected from individuals convicted of violent and sexual offenses under the Uniform Code of Military Justice (UCMJ).

I authored a similar provision in the House-passed FY01 National Defense Authorization Act (H.R. 4205). That language required the Department of Defense to collect, process and analyze DNA identification information from violent and sexual offenders and to provide that information to the Combined DNA Index

System (CODIS), national registry of DNA samples. Currently, the Department is not required to collect DNA samples from individuals convicted of qualifying UCMJ offenses.

There is clearly a need to close this loophole. In calendar year 1999, the total number of prisoners under confinement within the Department of Defense correctional facilities for terms other than life or a sentence of death was 963. Of those, 51.5% were confined because of violent and sexual offenses, the kind of offenses for which both H.R. 4640 and H.R. 4205 would require the DoD to collect DNA samples. Under both bills, the DoD would collect, process and analyze DNA samples and provide them to the CODIS database.

Several statistics about the characteristics of the civilian prison population underscore the importance of closing this loophole.

While the number of veterans in the prison facilities nationwide declined as a percentage of the total prison population between 1985 and 1998, the absolute number rose 46%, from 154,600 to 225,700. According to the most recent data available (1997), a majority (55%) of veterans was sentenced for a violent offense (compared to 46% for non-veterans). And, veterans were twice as likely as non-veterans to be sentenced for a sexual assault, including rape (18% versus 7%).

The data do not answer precisely the question of how many veterans have a prior conviction as a member of the Armed Forces before a subsequent contact with the federal, state or local criminal justice system. However, the data show that 13.8% of the veterans in local jails, 17.4% of veterans in state prison, and 14.9% of veterans in federal prison were not honorably discharged. Many of these veterans had more serious criminal histories than those incarcerated veterans who had been honorably discharged. In fact, 43% of veterans not honorably discharged had at least three prior sentences, compared to 36% of those honorably discharged.

These data support the argument for imposing on the Department of Defense the requirement to collect DNA samples from service members convicted of a qualifying violent or sexual offense. By requiring the collection of DNA, it is likely that service members convicted of a qualifying UCMJ offense may be more readily identified, and quite possibly cleared, should they be suspected of perpetrating a violent crime as a civilian.

I strongly support H.R. 4640. It makes major strides in assisting the states in reducing the DNA backlog and in closing a loophole by which DNA samples from certain federal prisoners was not collected nor added to the national DNA database.

I urge passage of the bill.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I want to extend my gratitude to my colleagues who are interested in providing the fairest possible procedures in the application of the death penalty, the most serious punishment in the criminal justice system.

Much progress has been made since the recent mark-up session regarding this bill. In general, H.R. 4640 provides for the collection and use of DNA identification information from individuals convicted of a qualifying violent or sexual offense under the Federal code, UCMJ, or District of Columbia Code.

DNA (deoxyribonucleic acid), a high tech genetic fingerprint, was first introduced into evidence in a United States court in 1986. After surviving many court challenges, DNA evidence is now admitted in all United States jurisdictions. In fact, it has become the predominant forensic technique for identifying criminals when biological issues are left at a crime scene.

In the Violent Crime Control and Law Act of 1994 (1994 Crime Bill), Congress authorized the FBI to create a national index of DNA samples taken from convicted offenders, crime scenes and victims, and unidentified human remains. This was a crucial step forward because DNA has played such a significant role in our criminal justice system.

In response, the FBI established the Combined DNA index System (CODIS). CODIS allows State and local forensic laboratories to exchange and compare DNA profiles electronically in an attempt to link evidence from crime scenes for which there are no suspects to DNA samples on file in the system. Today, CODIS is well established across the nation.

All fifty states have enacted statutes requiring certain convicted offenders to provide DNA samples for analysis and entry into the CODIS system. Nevertheless, it is important to point out that samples from persons convicted of federal crimes, crimes under the District of Columbia code, or offenses under the Uniform Code of Military Justice (UCMJ), are not presently being taken because there is no statutory authority to do so.

In addition, the Department of Justice's Bureau of Statistics (BJA) reports that as of December 1997, approximately 60 percent of the publicly operated forensic crime labs across the country reported a DNA backlog totaling 6,800 unprocessed DNA case samples and an additional 287,000 unprocessed convicted offender samples. While I am encouraged that forensic labs have responded by hiring additional staff and increasing overtime, Congress has merely appropriated $30 million toward solving the problem. Like some of my colleagues, I am concerned that the backlog continues to grow without adequate resources.

To qualify for funding under this legislation, a state must develop a plan to eliminate any backlog of samples and federal funding under the program may be awarded for up to 75 percent of the cost of the states plan. This is an important step forward in the use of DNA evidence in our federal courts.

I also believe that this legislation would ensure the collection and use of DNA identification information in CODIS from persons convicted of a qualifying violent or sexual offense under the federal code, UCMJ, or District of Columbia Code. Indeed, technical revisions have been made to the preliminary legislation that only strengthen the bill's application several offenses.

It is crucial for defendants to have access to the CODIS system in circumstances that possibly establish innocence. This is particularly important, for instance, in the growing number of capital cases where DNA identification information make a crucial difference.

Reducing the backlog regarding DNA identification information in federal courts is very important for our criminal justice system. To the extent that this legislation helps to eliminate the backlog through these grants, we can work towards establishing a more reliable justice system.

Mrs. SCOTT. Mr. Speaker, I yield back the balance of my time.

Mr. CANADY of Florida. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. CANADY) that the House suspend the rules and pass the bill, H.R. 4640, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

STOP MATERIAL UNSUITABLE FOR TEENS ACT

Mr. CANADY of Florida. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4147) to amend title 18, United States Code, to increase the age of persons considered to be minors for the purposes of the prohibition on transporting obscene materials to minors.

The Clerk read as follows:

H.R. 4147

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Stop Material Unsuitable for Teens Act''.

SEC. 2. AGE INCREASE.

Section 1470 of title 18, United States Code, is amended by striking ''16'' each place it appears and inserting ''18''.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. CANADY) and the gentleman from Virginia (Mr. SCOTT) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. CANADY).

GENERAL LEAVE

Mr. CANADY of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H.R. 4147.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. CANADY of Florida. Mr. Speaker, I yield such time as he may consume to the gentleman from Colorado (Mr. TANCREDO).

Mr. TANCREDO. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, I rise in support of H.R. 4147, the Stop Material Unsuitable for Teens Act.

In 1998, the Congress passed and the President signed into law the Protection of Children from Sexual Predators Act. This legislation sought to address

many practices carried out to the detriment of our youth. This included halting child pornography online to cracking down on violent offenders.

H.R. 4147 would simply include those children under the age of 18 to the list of those who should be protected from harmful and potentially damaging material.

The Protection of Children from Sexual Predators Act also contained new language which provided for enhanced penalties for individuals who knowingly transfer obscene materials to juveniles whether through the mail or interstate commerce. These enhanced penalties carry the weight of up to 10 years incarceration, and/or applicable fines, compared with previous federal statutes under Title 18 of the United States Code that only carried a penalty of 5 years.

The bill is important for it builds upon the efforts of this body to regulate and stem the flood of obscene material throughout this country.

H.R. 4147 would build upon the efforts taken in 1998 to increase penalties against transferring obscene materials to juveniles under 16 years of age. It would raise the age limit for enhanced penalties for transfer to juveniles to 18 years of age and close the loophole left in the law by not protecting youth between the ages of 16 and 18.

If this body is going to act on behalf of our children and concerned parents in limiting exposure to obscene materials, then we should act accordingly and across the board for all juveniles.

The bill would not limit any material that is protected by the First Amendment. It would only limit the material which is defined as obscene.

The Supreme Court has gone on record several times as saying that obscene material is not protected by the First Amendment. Additionally, the Supreme Court has defined ''obscenity'' on several other occasions.

The bill in no way will prohibit the exchange of protected material and is designed solely to protect all children from what is clearly inappropriate material. More than 32 years ago, the Court recognized the harm to minors from pornography and the need to protect minor children from pornography in the case of Ginsberg v. New York. The Court ruled that protecting children from exposure to pornography is a ''transcendent interest'' of government because it concerns ''the health, safety, welfare and morals of its community by barring the distribution to children of books recognized to be suitable for adults.''

Furthermore, obscene material is an effective tool in the hands of predators. Pedophiles use the material as part of the seduction process of children. It is used to engage children and lure them into activities that pedophiles find acceptable and the rest of us find deplorable.

This bill, in short, would extend protection from pedophiles to those under the age of 18.

□ 1600

I would ask all my colleagues to support our children and support this bill. We should make sure that those who would seek to spread this filth knowingly to our children be ready to pay the price of up to 10 years behind bars. I believe strongly that it is the role of this body to protect children across the Nation from both direct violent harm and also from the type of harm that comes from being confronted with this kind of material at such a young age.

Mr. SCOTT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this came to our attention late Friday afternoon that it would be on suspension and not available for amendment or any discussion. So I have been having a little trouble getting the details on it. We have contacted the sentencing commission that indicated a problem with the bill and, that is, there are certain sentencing inconsistencies. For example, if an 18-year-old were to have consensual sex with a 17-year-old, that would not be a Federal crime nor a crime in most States. However, if they shared dirty pictures, then that would be a Federal crime. Perhaps the sponsor of the bill or someone on the other side could explain to me what the probable effect of this legislation would be for the 18-year-old sharing pictures with a 17-year-old, what the effect of this legislation would be.

Mr. TANCREDO. Mr. Speaker, will the gentleman yield?

Mr. SCOTT. I yield to the gentleman from Colorado.

Mr. TANCREDO. Mr. Speaker, the bill sets out the parameters very specifically, referring only to materials unsolicited, and in a case where someone is transferring that kind of material using the interstate, transferring that kind of material, unsolicited to anybody, they would be affected by the measures in this bill.

Mr. SCOTT. If the gentleman would respond, what would be the difference in sentencing? If the two went from Washington, D.C. to Northern Virginia and had consensual sex and shared dirty pictures, what would be the effect of this bill? It is already illegal to share those dirty pictures right now. It would be a Federal offense. What would be the impact of this bill on that Federal crime?

Mr. TANCREDO. If the gentleman will yield further, I do not know that there would be any impact of this bill on the particular situation that the gentleman identifies. Two people engaged in consensual sex, of course, that has nothing to do with this piece of legislation. Sharing materials at that point in time has nothing to do with this legislation. Quote, ''dirty pictures,'' as the gentleman characterizes it, I do not know that that has anything to do with this legislation because, of course, the Supreme Court has already determined that you can distinguish between certain materials that some people would find objectionable to the kind of materials that this covers, which are strictly pornographic. It is the transfer of that material, unsolicited transfer of that material, from one person to another underage that this deals with. So I do not think, unless I mistook the gentleman's characterization of this particular action, that it would have any impact.

Mr. SCOTT. Mr. Speaker, in all due respect, I did not get an answer to my question. The bill would have an impact. I have not been able to determine exactly what that impact would be. But the point of the consensual sex was that they could be in bed not committing an offense and as soon as the 18-year-old showed some obscene pictures to the 17-year-old, then you would have a Federal crime. That is the present law. You cannot distribute obscene material. My question was, what would the impact of this bill have on that situation, because apparently there would be an enhanced punishment. I have not been able to ascertain what the enhancement would be.

Mr. TANCREDO. Once again, the bill is very specific about the method of transfer of the material we are talking about. In what you describe, there is no effect from this particular piece of legislation. It has got nothing to do with it.

Mr. CANADY of Florida. Mr. Speaker, will the gentleman yield?

Mr. SCOTT. I yield to the gentleman from Florida.

Mr. CANADY of Florida. This is a very simple bill. It amends a statutory provision, which I will read. It is short enough for us to read right here and see what is being amended. The prohibition is this:

''Whoever using the mail or any facility or means of interstate or foreign commerce knowingly transfers obscene matter to another individual who has not attained the age of 16 years, that is currently in the statute, the bill raises that to 18 years, knowing that such other individual has not attained the age of, raised from 16 years to 18 years, or attempts to do so shall be fined under this title, imprisoned not more than 10 years, or both.''

But it requires the use of the mail or other facilities or means of interstate or foreign commerce.

Mr. SCOTT. If the gentleman would respond, that would include e-mail or any other interstate commerce, could mean you could take it across the State line from Washington, D.C. to Northern Virginia.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise to voice concerns regarding H.R. 4147,

the Stop Material Unsuitable for Teens Act, which is before the House today under suspension. This bill should it become law would raise the age of minors to whom adults could be penalized for giving obscene materials from age 16 to age 18.

I would hope that this measure would offer some additional protection to children from those who would do them harm, but it appears that this bill will be going over ground that has already been covered by the passage into law of the Protection of Children From Sexual Predators Act (PL 105–314).

This law would amend the Protection of Children From Sexual Predators Act which prohibits transferring obscene material through the Internet or mail to children under 16 years of age. Violators under current law are subject to a mandatory prison sentence of 10 years.

Should the effort to pass this legislation be successful, I would hope that in keeping with the spirit of this change in the law I would hope that the definition of adult would also be amended. Because I believe that it would be judicially unproductive should an 18-year-old be found in violation of this law by providing inappropriate material to another 18-year-old and made to endure the full penalty that this bill provides for.

Mr. SCOTT. Mr. Speaker, I yield back the balance of my time.

Mr. CANADY of Florida. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Florida (Mr. CANADY) that the House suspend the rules and pass the bill, H.R. 4147.

The question was taken.

Mr. CANADY of Florida. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

NATIONAL POLICE ATHLETIC LEAGUE YOUTH ENRICHMENT ACT OF 2000

Mr. CANADY of Florida. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3235) to improve academic and social outcomes for youth and reduce both juvenile crime and the risk that youth will become victims of crime by providing productive activities conducted by law enforcement personnel during non-school hours, as amended.

The Clerk read as follows:

H.R. 3235

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''National Police Athletic League Youth Enrichment Act of 2000''.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) The goals of the Police Athletic League are to—

(A) increase the academic success of youth participants in PAL programs;

(B) promote a safe, healthy environment for youth under the supervision of law enforcement personnel where mutual trust and respect can be built;

(C) increase school attendance by providing alternatives to suspensions and expulsions;

(D) reduce the juvenile crime rate in participating designated communities and the number of police calls involving juveniles during nonschool hours;

(E) provide youths with alternatives to drugs, alcohol, tobacco, and gang activity;

(F) create positive communications and interaction between youth and law enforcement personnel; and

(G) prepare youth for the workplace.

(2) The Police Athletic League, during its 55-year history as a national organization, has proven to be a positive force in the communities it serves.

(3) The Police Athletic League is a network of 1,700 facilities serving over 3,000 communities. There are 320 PAL chapters throughout the United States, the Virgin Islands, and the Commonwealth of Puerto Rico, serving 1,500,000 youths, ages 5 to 18, nationwide.

(4) Based on PAL chapter demographics, approximately 82 percent of the youths who benefit from PAL programs live in inner cities and urban areas.

(5) PAL chapters are locally operated, volunteer-driven organizations. Although most PAL chapters are sponsored by a law enforcement agency, PAL chapters receive no direct funding from law enforcement agencies and are dependent in large part on support from the private sector, such as individuals, business leaders, corporations, and foundations. PAL chapters have been exceptionally successful in balancing public funds with private sector donations and maximizing community involvement.

(6) Today's youth face far greater risks than did their parents and grandparents. Law enforcement statistics demonstrate that youth between the ages of 12 and 17 are at risk of committing violent acts and being victims of violent acts between the hours of 3 p.m. and 8 p.m.

(7) Greater numbers of students are dropping out of school and failing in school, even though the consequences of academic failure are more dire in 1999 than ever before.

(8) Many distressed areas in the United States are still underserved by PAL chapters.

SEC. 3. PURPOSE.

The purpose of this Act is to provide adequate resources in the form of—

(1) assistance for the 320 established PAL chapters to increase of services to the communities they are serving; and

(2) seed money for the establishment of 250 (50 per year over a 5-year period) additional local PAL chapters in public housing projects and other distressed areas, including distressed areas with a majority population of Native Americans, by not later than fiscal year 2006.

SEC. 4. DEFINITIONS.

In this Act:

(1) ASSISTANT ATTORNEY GENERAL.—The term ''Assistant Attorney General'' means the Assistant Attorney General for the Office of Justice Programs of the Department of Justice.

(2) DISTRESSED AREA.—The term ''distressed area'' means an urban, suburban, or rural area with a high percentage of high-risk youth, as defined in section 509A of the Public Health Service Act (42 U.S.C. 290aa–8(f)).

(3) PAL CHAPTER.—The term ''PAL chapter'' means a chapter of a Police or Sheriff's Athletic/Activities League.

(4) POLICE ATHLETIC LEAGUE.—The term ''Police Athletic League'' means the private, nonprofit, national representative organization for 320 Police or Sheriff's Athletic/Activities Leagues throughout the United States (including the Virgin Islands and the Commonwealth of Puerto Rico).

(5) PUBLIC HOUSING; PROJECT.—The terms ''public housing'' and ''project'' have the meanings given those terms in section 3(b) of the United States Housing Act of 1937 (42 U.S.C. 1437a(b)).

SEC. 5. GRANTS AUTHORIZED.

(a) IN GENERAL.—Subject to appropriations, for each of fiscal years 2001 through 2005, the Assistant Attorney General shall award a grant to the Police Athletic League for the purpose of establishing PAL chapters to serve public housing projects and other distressed areas, and expanding existing PAL chapters to serve additional youths.

(b) APPLICATION.—

(1) SUBMISSION.—In order to be eligible to receive a grant under this section, the Police Athletic League shall submit to the Assistant Attorney General an application, which shall include—

(A) a long-term strategy to establish 250 additional PAL chapters and detailed summary of those areas in which new PAL chapters will be established, or in which existing chapters will be expanded to serve additional youths, during the next fiscal year;

(B) a plan to ensure that there are a total of not less than 570 PAL chapters in operation before January 1, 2004;

(C) a certification that there will be appropriate coordination with those communities where new PAL chapters will be located; and

(D) an explanation of the manner in which new PAL chapters will operate without additional, direct Federal financial assistance once assistance under this Act is discontinued.

(2) REVIEW.—The Assistant Attorney General shall review and take action on an application submitted under paragraph (1) not later than 120 days after the date of such submission.

SEC. 6. USE OF FUNDS.

(a) IN GENERAL.—

(1) ASSISTANCE FOR NEW AND EXPANDED CHAPTERS.—Amounts made available under a grant awarded under this Act shall be used by the Police Athletic League to provide funding for the establishment of PAL chapters serving public housing projects and other distressed areas, or the expansion of existing PAL chapters.

(2) PROGRAM REQUIREMENTS.—Each new or expanded PAL chapter assisted under paragraph (1) shall carry out not less than 4 programs during nonschool hours, of which—

(A) not less than 2 programs shall provide—

(i) mentoring assistance;

(ii) academic assistance;

(iii) recreational and athletic activities; or

(iv) technology training; and

(B) any remaining programs shall provide—

(i) drug, alcohol, and gang prevention activities;

(ii) health and nutrition counseling;

(iii) cultural and social programs;

(iv) conflict resolution training, anger management, and peer pressure training;

(v) job skill preparation activities; or

(vi) Youth Police Athletic League Conferences or Youth Forums.

(b) ADDITIONAL REQUIREMENTS.—In carrying out the programs under subsection (a), a PAL chapter shall, to the maximum extent practicable—

(1) use volunteers from businesses, academic communities, social organizations, and law enforcement organizations to serve as mentors or to assist in other ways;

(2) ensure that youth in the local community participate in designing the after-school activities;

(3) develop creative methods of conducting outreach to youth in the community;

(4) request donations of computer equipment and other materials and equipment; and

(5) work with State and local park and recreation agencies so that activities funded with amounts made available under a grant under this Act will not duplicate activities funded from other sources in the community served.

SEC. 7. REPORTS.

(a) REPORT TO ASSISTANT ATTORNEY GENERAL.—For each fiscal year for which a grant is awarded under this Act, the Police Athletic League shall submit to the Assistant Attorney General a report on the use of amounts made available under the grant.

(b) REPORT TO CONGRESS.—Not later than May 1 of each fiscal year for which amounts are made available to carry out this Act, the Assistant Attorney General shall submit to the Committees on the Judiciary of the Senate and the House of Representatives a report that details the progress made under this Act in establishing and expanding PAL chapters in public housing projects and other distressed areas, and the effectiveness of the PAL programs in reducing drug abuse, school dropouts, and juvenile crime.

SEC. 8. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated to carry out this Act $16,000,000 for each of fiscal years 2001 through 2005.

(b) FUNDING FOR PROGRAM ADMINISTRATION.—Of the amount made available to carry out this Act in each fiscal year—

(1) not less than 2 percent shall be used for research and evaluation of the grant program under this Act;

(2) not less than 1 percent shall be used for technical assistance related to the use of amounts made available under grants awarded under this Act; and

(3) not less than 1 percent shall be used for the management and administration of the grant program under this Act, except that the total amount made available under this paragraph for administration of that program shall not exceed 6 percent.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. CANADY) and the gentleman from Virginia (Mr. SCOTT) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. CANADY).

GENERAL LEAVE

Mr. CANADY of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. CANADY of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3235, the National Police Athletic League Youth Enrichment Act of 2000. The gentleman from Wisconsin (Mr. BARRETT) introduced H.R. 3235 last November and the Committee on the Judiciary reported the bill by voice vote on July 25 of this year.

The bill would direct the Office of Justice Programs of the Department of Justice to award a grant to the Police Athletic League for the purposes of establishing Police Athletic League chapters to serve public housing projects and other distressed areas and expanding existing chapters to serve additional youth. The bill was modeled on legislation enacted in 1997 to increase the number of Boys and Girls Clubs serving low-income areas.

The Police Athletic League was founded by police officers in New York City in 1914; and its goal is to offer an alternative to crime, drugs, and violence for our Nation's most at-risk youth. Since 1914, the Police Athletic League, also known as PAL, has grown into one of the largest youth crime prevention programs in the Nation, with a network of 320 local chapters and 1,700 facilities that serve more than 3,000 communities and 1.5 million children. Local chapters are volunteer-driven and receive most of their funding from private sources. In partnership with local law enforcement agencies, PAL chapters help to narrow the gap in trust between children and police, especially in low-income and high-crime neighborhoods. PAL offers after-school athletic, recreational, and educational programs designed to give children an alternative to gangs, drugs, and crime and to reinforce the values of responsibility, hard work, and community. These programs are geared to the after-school hours of 3 o'clock to 8 p.m., the peak hours for juvenile crime and other antisocial behavior.

H.R. 3235 would authorize the appropriation of $16 million a year for 5 years beginning with fiscal year 2001. The money would be used to enhance the services provided by the 320 established PAL chapters and provide seed money for the establishment of 250, 50 per year over a 5-year period, additional PAL chapters in public housing projects and other distressed areas, including distressed areas with a majority population of Native Americans.

In order to be eligible to receive a grant, the bill would require PAL to submit to the Assistant Attorney General an application which includes, one, a long-term strategy to establish 250 additional chapters; two, a plan to ensure that there is a total of not less than 570 chapters in operation before January 1, 2004; three, a certification that there will be appropriate coordination with those communities where new chapters will be located; and, four, an explanation of the manner in which new chapters will operate without additional direct Federal financial assistance once assistance under this act is discontinued.

Mr. Speaker, this is a very worthwhile piece of legislation. I urge all my colleagues to support it.

Mr. Speaker, I reserve the balance of my time.

Mr. SCOTT. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 3235, the National Police Athletic League Youth Enrichment Act of 2000. I am a cosponsor of this bill. Although we have not had hearings on it and I generally do not support consideration of legislation without hearings, I believe that the congressional record in this Congress sufficiently supports the passage of this legislation and to have its passage take place expeditiously.

H.R. 3235 would award grant moneys to the Police Athletic League to assist the establishment of Police Athletic League chapters in high-crime and low-income areas as well as enhance existing services provided by the Police Athletic League. They offer young people opportunities to engage in constructive activities, including recreational programming and activities in creative and performing arts. I am pleased to note that research on these programs shows that communities with this program show a decrease in juvenile crime. In a survey of the California Police Athletic League, for example, preliminary data shows that communities served by the program reported a 34 percent decrease in juvenile arrests, a 58 percent decrease in aggravated assaults committed by juveniles and a 47 percent drop in the number of armed robberies by juveniles.

In short, Mr. Speaker, the record reflects that prevention and early intervention as compared to other approaches to reducing juvenile crime and delinquency are the most effective. In March 1999, for example, the Committee on Education and the Workforce held a hearing on H.R. 1150, the Juvenile Crime Control and Delinquency Prevention Act. During that hearing, the Administrator of the Office of Juvenile Justice and Delinquency Prevention identified promoting prevention as the most cost-effective approach to reducing delinquency.

At the same hearing, the Commissioner at the Administration on Children, Youth and Families at Health and Human Services also summarized what should be our priorities and said the following:

> The early years are critical. We know that and we must continue to invest in early childhood. But we must also stick with kids as they grow older. Children are like gardens. It is critical that we prepare the soil and plant the seeds. But if that is all we do, we should not be surprised if they do not flourish. We have to pay attention to them on an ongoing basis. Just as one would fertilize a garden, we must stimulate growth in young people. Just as one would weed a garden, we must root out the negative influences, peer pressure and self-doubt that threaten to stunt the positive development of our children. Especially during preadolescence and adolescence, we must have continued youth development activities to provide something to which the young people can say yes instead of just asking them to say no to risky behaviors.

Mr. Speaker, as a result of hearings such as these, the Subcommittee on Early Childhood, Youth and Families of the Committee on Education and the Workforce passed in this Congress H.R. 1150, the Juvenile Crime Control and

Delinquency Prevention Act of 1999, which highlighted the importance of prevention and early intervention as the means of addressing juvenile crime. That passed out of the Committee on Education and the Workforce subcommittee with support from all of the subcommittee members. Similarly, the Subcommittee on Crime unanimously passed the first version of H.R. 1501, which provided for flexible accountability and early intervention approaches for juveniles before the court system with cosponsorship of the entire subcommittee.

Additionally, many of us had the opportunity to participate in a bipartisan task force to examine youth violence. The task force reviewed the research on the problem of youth violence and heard testimony from witnesses from academia, law enforcement, the judicial system, and advocacy groups.

□ 1615

I quote from the final report:

Overall, the need for prevention and early intervention programs at every step is paramount. Since the most important contributing factor to youth violence is the absence of a nurturing and supportive home environment, we know that youth can be steered away from crime. Building strong relationships between children and their parents and communities are the best way to ensure their health and well-being.

Mr. Speaker, experts who met with the bipartisan task force essentially agreed that early intervention and prevention efforts are essential to reducing youth violence. Furthermore, the task force concluded that such prevention efforts also require coordination and partnership with community organizations.

In sum, the record shows that we know how to reduce juvenile crime and delinquency. We must focus on prevention and early intervention, and we must seek help from community organizations such as police athletic leagues.

Mr. Speaker, H.R. 3235, the National Police Athletic League Youth Enrichment Act of 1999, would foster much-needed community partnerships and help to accomplish our goal of reducing juvenile crime. I therefore support the legislation and urge my colleagues to support the bill.

Mr. Speaker, I yield such time as he may consume to the gentleman from Wisconsin (Mr. BARRETT), the chief sponsor of the legislation.

Mr. BARRETT of Wisconsin. Mr. Speaker, I am pleased to rise today in support of H.R. 3235, a bill I introduced to make the programs of the Police Athletic League available to more kids across the country.

I would like to thank the gentleman from Florida (Chairman MCCOLLUM) and the gentleman from Virginia (Mr. SCOTT) of the Subcommittee on Crime for their work in moving this bill through committee and on to the floor before the House adjourns for this year.

I would also like to thank the gentleman from Florida (Mr. CANADY) for his support in helping move this bill. Since this is sort of the waning days of the gentleman's days in Congress, I want to publicly thank him for his service to the people of Florida and his country, and wish him and his young family the best of luck as he returns to life as a normal person.

I also would like to applaud Ron Exley, a board member of the National Police Athletic League, for his tireless efforts in promoting this bill.

Mr. Speaker, since you are going to be going back to Indiana, I want to thank you for the opportunity to serve with you as well. This is sort of a bittersweet time of year for many of us. Both of you have really done a great job for the people you represent.

The Police Athletic League is a network of more than 320 chapters in 42 states serving over 1.5 million kids each year. Individual chapters are volunteer-driven and receive most of their funding from private sources. In partnership with local law enforcement activities, PAL chapters help to narrow the gap in trust that exists between kids and the police, especially in low-income and high-crime neighborhoods.

PAL offers after-school athletic and recreation programs designed to give kids an alternative to gangs, drugs and crime, and to reinforce in them the values of responsibility, hard work and community.

Just last week I was reminded of what PAL means for our kids when I attended the ground breaking for the Milwaukee chapter's new facility. This event was the perfect illustration of what we are trying to accomplish with this legislation. The new facility will be located in a neighborhood plagued by high crime and poverty, bringing these valuable programs and activities to the kids who need them.

The National Police Athletic League Youth Enrichment Act is modeled after legislation enacted in 1997 to increase the number of Boys and Girls Clubs serving low-income areas. Similarly, this bill calls for the establishment of 250 new PAL chapters over 5 years in public housing projects in other distressed areas and would provide additional resources to help existing chapters expand and enhance their services in underserved areas.

In addition to recreational activities, the new PAL chapters would be required to offer mentoring and academic assistance, technology training and drug and alcohol counseling. The bill would also direct the chapters to seek volunteers and donations from the business, academic and law enforcement communities.

Mr. Speaker, one of the strengths of this program is that it allows young kids, who many times encounter police only in stressful situations, to encounter police in a meaningful, friendly situation. I think that is a huge plus for the young kids.

It is also a plus for the police officers, who many times encounter these young kids again in stressful situations, and for the police officers to see these young people in athletic settings and learning how to run computers I think is very important, positive.

I have always said I would much rather have kids shooting basketballs than shooting each other, and I would much rather have them pushing computer keys than pushing drugs, and this bill will go a long way in trying to provide young people with alternatives to crime.

I am a strong believer in giving kids an alternative to the temptations of the street. The Police Athletic League has established an impressive track record of providing such an alternative in America's cities. But there are many kids out there who do not have access to help and deserve our attention. I urge my colleagues to help these kids by supporting this bill.

Mr. SCOTT. Mr. Speaker, I yield back the balance of my time.

Mr. CANADY of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I again want to congratulate the gentleman from Wisconsin (Mr. BARRETT) for his outstanding leadership on this important legislation and to acknowledge the gentleman from Florida (Mr. MCCOLLUM) and the gentleman from Virginia (Mr. SCOTT) for helping move us to the point where this bill is considered by the House today.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise in strong support of H.R. 3235, the "National Police Athletic League Youth Enrichment Act of 1999." I commend my colleagues on the Judiciary Committee for reporting the bill by voice vote. As a cosponsor of this legislation, I am delighted that it enjoys bipartisan support. I does so for a good reason.

It helps our children find alternatives to crime through a sensible grant program administered by the Department of Justice. America urgently needs such legislation to allow children, especially at-risk youth, to obtain greater exposure through such legislative solutions. Our children need the right kind of incentives that allow them to learn in a welcoming environment without the threat of violence.

The Police Athletic League (PAL) was founded by police officers in New York city in 1914. Its goal is to offer an alternative to crime, drugs, and violence for at-risk youths. PAL offers after school numerous school athletic, prevention programs in the nation, with a network of 320 local chapters and 1,700 facilities that serve more than 3,000 communities and 1.5 million children. Local chapters are volunteer driven and receive most of their funding from private sources. That is certainly a record to be proud of.

H.R. 3235 would authorize the appropriation of $16 million a year for 5 years beginning with this fiscal year. The funds would be used

to enhance services provided by the present chapters, and provide seed money for the establishment of 250 additional chapters in public housing projects and other distressed areas. This could make an enormous difference to the life of so many children that need a fighting chance.

To be eligible to receive a grant, PAL would have to submit an application to DOJ with a few important requirements. First, a long-term strategy on how and where the 250 new chapters will be established and maintained, along with how the present 320 chapters will be maintained. Second, a certification that there will be coordination with the communities in which the new chapters are established. Third, an explanation of how the new chapters will continue to exist when the full federal funding stops.

Mr. Speaker, I believe these are very reasonable procedures to help find alternative steps to violence. These are reasonable and necessary incentives for communities to come together on behalf of our children.

Children need these after school athletic, recreational, and educational programs to improve their lives. As cosponsor of this important legislation, I urge my colleagues to embrace this measure in the widest bipartisan manner possible.

Mr. HORN. Mr. Speaker, I strongly support H.R. 3235. In California, the PAL programs play an integral role in our communities. PAL programs provide positive activities for youth to participate in as an alternative to gangs and violence. They instill family values, teach teamwork, honesty, and personal accountability. PAL programs keep our communities safe and our youth out of danger.

In Long Beach, California, a city I proudly represent, PAL programs have served thousands of youth in the area throughout the past ten years. Not only are young people enjoying recreational activities, they are receiving help with homework, learning to use computers, and positively influencing their peers to participate. This invaluable program has helped so many youngsters that would have otherwise been at risk of getting involved in criminal activity, gang violence or drug abuse.

Every community should be as fortunate to have a preventive program like the PAL program to help reduce juvenile crime. I commend the Long Beach chapter for their excellent work on behalf of our community and the lives of every youth that PAL has touched. I also look forward to hearing about more success stories from PAL programs across the country.

As a cosponsor and strong supporter of H.R. 3235, I encourage all of my colleagues to support and pass this bill. Our nation's youth deserves this commitment of resources.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Florida (Mr. CANADY) that the House suspend the rules and pass the bill, H.R. 3235, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

VICTIMS OF RAPE HEALTH PROTECTION ACT

Mr. CANADY of Florida. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3088) to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide additional protections to victims of rape.

The Clerk read as follows:

H.R. 3088

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Victims of Rape Health Protection Act''.

SEC. 2. BYRNE GRANT REDUCTION FOR NONCOMPLIANCE.

(a) GRANT REDUCTION FOR NONCOMPLIANCE.—Section 506 of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3756) is amended by adding at the end the following:

''(g) LAWS OF REGULATIONS.—

''(1) IN GENERAL.—The funds available under this subpart for a State shall be reduced by 10 percent and redistributed under paragraph (2) unless the State demonstrates to the satisfaction of the Director that the law or regulations of the State with respect to a defendant against whom an information or indictment is presented for a crime in which by force or threat of force the perpetrator compels the victim to engage in sexual activity, the State requires as follows:

''(A) That the defendant be tested for HIV disease if—

''(i) the nature of the alleged crime is such that the sexual activity would have placed the victim at risk of becoming infected with HIV; or

''(ii) the victim requests that the defendant be so tested.

''(B) That if the conditions specified in subparagraph (A) are met, the defendant undergo the test not later than 48 hours after the date on which the information or indictment is presented, and that as soon thereafter as is practicable the results of the test be made available to the victim; the defendant (or if the defendant is a minor, to the legal guardian of the defendant); the attorneys of the victim; the attorneys of the defendant; the prosecuting attorneys; and the judge presiding at the trial, if any.

''(C) That if the defendant has been tested pursuant to subparagraph (B), the defendant, upon request of the victim, undergo such follow-up tests for HIV as may be medically appropriate, and that as soon as is practicable after each such test the results of the test be made available in accordance with subparagraph (B) (except that this subparagraph applies only to the extent that the individual involved continues to be a defendant in the judicial proceedings involved, or is convicted in the proceedings).

''(D) That, if the results of a test conducted pursuant to subparagraph (B) or (C) indicate that the defendant has HIV disease, such fact may, as relevant, be considered in the judicial proceedings conducted with respect to the alleged crime.

''(2) REDISTRIBUTION.—Any funds available for redistribution shall be redistributed to participating States that comply with the requirements of paragraph (1).

''(3) COMPLIANCE.—The Attorney General shall issue regulations to ensure compliance with the requirements of paragraph (1).''.

(b) CONFORMING AMENDMENT.—Section 506(a) of title I of the Omnibus Crime Control and Safe Streets Act of 1968 is amended by striking ''subsection (f),'' and inserting ''subsections (f) and (g),''.

(c) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on the first day of each fiscal year succeeding the first fiscal year beginning 2 years after the date of the enactment of this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Florida (Mr. CANADY) and the gentleman from Virginia (Mr. SCOTT) each will control 20 minutes.

The Chair recognizes the gentleman from Florida (Mr. CANADY).

GENERAL LEAVE

Mr. CANADY of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 3088.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. CANADY of Florida. Mr. Speaker, I yield such time as he may consume to the gentleman from Florida (Mr. WELDON), the sponsor of this legislation.

Mr. WELDON of Florida. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, in the summer of 1996, a 7-year-old girl was brutally raped by a 57-year-old deranged man. The little girl and her 5-year-old brother had been lured to a secluded abandoned building. The man raped and sodomized this little girl. After the man's arrest, the accused refused to be tested for HIV. His refusal to take the test was permitted and protected under the State law. The man later admitted to police that he was infected with HIV.

The bill before us would ensure that families like this one, and numerous others, are not forced to endure torture beyond the assault that has already been inflicted upon their child.

I urge my colleagues to vote for passage of H.R. 3088, the Victims of Rape Health Protection Act. This bill will save the lives of victims of sexual assault. This bill ensures that the victims of sexual assault or their parents know as quickly as possible the HIV status of the perpetrator of the crime.

Sexual assault, sadly, occurs too often in our society. These victims suffer unimaginable cruelties and physical and emotional scars that usually last a lifetime. Furthermore, with the increased incidence of HIV infection in the population, these victims are often forced to wait months or years to know whether or not they were exposed to the HIV virus.

This bill puts an end to further torture of the victims and their families.

This bill ensures that the victims of sexual assault can require that the accused be tested as soon as an indictment or an information is filed against the person. No longer will a victim have to wait months or years for such a test of the accused. No longer will the perpetrators of these crimes be allowed to bargain for lighter sentences in exchange for undergoing HIV testing. This bill puts the rights of victims ahead of that of the sexual predators.

Why is it critical that the victim know as soon as possible if they were exposed? The new England Journal of Medicine published a study in April of 1997 finding that treatment with HIV drugs can prevent HIV infection, provided that the treatment is started within hours. The study reviews the treatment of health care workers with occupational exposure. That study found a 79 percent drop, almost 80 percent, drop in HIV infection with those individuals who are exposed to HIV and were started on treatment within hours of the initial exposure.

Furthermore, the study goes on to report the rate of transmission from needlestick injuries is similar to that of sexual exposure. Clearly, getting information to the victims of sexual assault as quickly as possible is critical in saving the lives of those if they have been exposed.

Some might suggest that all victims of sexual assault be given anti-HIV drugs as a precautionary measure. As a medical doctor myself who has administered these drugs many times in the past, I know firsthand that there can be serious side effects. Additionally, I will point out that a 4-week cost of these drugs can run anywhere from $500 to $800, an exposure that no person would want to needlessly be exposed to.

As a physician, I am particularly interested in seeing that we take steps that can ensure that the victims of sexual assault are given every available opportunity to protect themselves against HIV, a sentence of death, that could and has resulted from sexual assaults.

Many States already have this provision in law. H.R. 3088 builds on that. Let us approve this bill and place the rights of victims of crimes above those of the perpetrators of crime. Let us ensure the greatest protection possible for the victims of sexual assault.

Mr. SCOTT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill has not gone through committee. The issue being addressed is being addressed in the Violence Against Women Act, where we can have committee hearings and actually come up with a decent bill. There are several States that have already addressed this issue in different ways. But the way it has come to us today, it has not gone through the Committee on the Judiciary. It sounds like it does a good job, but there are a number of problems with the legislation. Frankly, there has been no attempt to fashion the bill to accomplish its worthy alleged goal by any constructive manner.

For example, there has been no opportunity for anybody to review the bill, there is no opportunity for amendments and there is no opportunity for any interested parties to comment. It was just sprung on us Friday afternoon, and here it is. Six weeks before an election, I guess it is important to pass the bill without any hearings and without the opportunity to be heard, so I guess this is the way we are going to have to legislate the last few weeks.

First of all, there are a number of problems with the bill. It requires a person to be subjected to an AIDS test, even if they are innocent, even if they can prove their innocence beyond a reasonable doubt.

Now, some people that may actually have AIDS, may actually be innocent, and maybe they want to keep that fact a secret, and here you are, notwithstanding the fact that they can show by clear and convincing evidence that they were hundreds of miles away at the time of the alleged offense, that it was not them. They do not have an opportunity to be heard. They get tested, and there is nothing in the bill for confidentiality. This information just goes all over the place.

It requires that the test be given, even though in some circumstances there is zero risk of transmission. It says a person, if requested by the victim, even though there is no chance of transmission, the tests can be given.

There is no protocol, as I indicated, about confidentiality. You may have a situation where the victim actually has AIDS and wants to keep it a secret, and, all of a sudden, whether or not the perpetrator had AIDS or not, you have her subjected to the possibility of this information getting out.

It is a shocking process that we are here on; no opportunity to comment, no opportunity to require any due process, no opportunity to conform this to what many of the other States have done. Six weeks before an election, here we are with legislation with a good title, and no opportunity to constructively deal with it.

We asked the patron for 24 hours so we could consider some of these issues, and, no, here it is on suspension; no opportunity to review, no opportunity to amend, no opportunity for interested groups to comment. Here we are, vote it up or down.

Mr. Speaker, I reserve the balance of my time.

Mr. CANADY of Florida. Mr. Speaker, I yield 3 minutes to the gentleman from Florida (Mr. WELDON).

Mr. WELDON of Florida. Mr. Speaker, I thank the gentleman for again yielding me time.

Mr. Speaker, I would like to respond to some of the concerns raised by my good friend, the gentleman from Virginia. First of all, regarding the issue of a probable cause hearing that the gentleman brought up, I believe that the language in my bill sufficiently addresses that issue, in that a charge has to be made, an information or an indictment.

□ 1630

That typically involves going before a grand jury, a jury of your peers, and those processes do not bring, in most instances, trivial incidents of somebody who was hundreds of miles away at the time of the alleged crime. Typically, there has been an arrest, for example, followed by an arraignment.

The reason this is so imperative, a lot of these crimes happen on Friday night, and if we have to insert in the process a probable cause hearing, we are going to get beyond a 72-hour window. And if we really look at the pathophysiology of how this virus is transmitted, the current recommendations are that if we cannot go on antiretroviral within 72 hours, then we might as well not even do it.

Mr. Speaker, while certainly respecting rights is something that I am very concerned about, we are talking about life and death here, a potential death sentence to somebody who has contracted AIDS. Yes, there are case reports in the medical literature of people contracting AIDS through rape; so we know that it happens. We know that the transmission rate is very, very similar to the rate on needlestick injuries.

We know if we institute antiretroviral therapy within 72 hours of a needlestick injury, we can lower the transmission rate of AIDS by almost 80 percent. It is for that reason that I feel that a probable cause hearing would lead to unnecessary and inappropriate delay.

We are balancing the life of the other person against the rights of the perpetrators of these crimes.

Mr. Speaker, I would like to additionally point out that several of the other bills that we have taken up today did not go before the committee. The committee frequently waives jurisdiction in a case where they feel that a piece of legislation is so inherently appropriate that it needs to move forward, and I think that is the case, the committee's acknowledgment in this particular piece of legislation.

Mr. SCOTT. Mr. Speaker, will the gentleman yield?

Mr. WELDON of Florida. I yield to the gentleman from Virginia.

Mr. SCOTT. Mr. Speaker, I would ask the gentleman from Florida, in an indictment, does a defendant have any opportunity to be heard?

Mr. WELDON of Florida. Reclaiming my time, Mr. Speaker, certainly I am well aware of the fact that the gentleman from Virginia points out something that is correct, the defendant

does not have any right to be heard; but the defendant has a period before a jury of his peers, a grand jury; and I believe that in that situation, a probable cause hearing would make unnecessary delay.

Mr. SCOTT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would just point out, as the gentleman commented, that in an indictment a person has no opportunity to be heard. If we can prove that it is a case of false identification, we never have an opportunity to bring compelling proof beyond a reasonable doubt that it could not have possibly been you; and, yet, you are subjected to the AIDS test.

The legislation before us also includes a provision that a person must be subjected to the AIDS test, even though there is no likelihood at all of a transmission taking place. The legislation talks about not rape, but sexual activity. That could be fondling. If requested by the defendant, the person could be subjected to an AIDS test.

Mr. WELDON of Florida. Mr. Speaker, will the gentleman yield?

Mr. SCOTT. I yield to the gentleman from Florida.

Mr. WELDON of Florida. Mr. Speaker, as the gentleman knows, being very familiar with the law, and, of course, I bring to this debate my experience as a physician having taken care of a lot of AIDS patients, most reputable prosecutors will look at exonerating information before they would bring an indictment before a grand jury; and those pieces of information are not totally excluded.

My concern with the gentleman's issue, the probable cause issue is that it would lead to sufficient level of delay that people would not be treated within the 72-hour window; and then, therefore, people would unnecessarily contract AIDS, and that the better good is to allow this provision to go forward; and that the rights of the accused would be sufficiently protected through the indictment process.

Mr. SCOTT. Reclaiming my time, Mr. Speaker, I would ask the gentleman to advise us as to how much time after an offense an indictment is normally obtained.

Mr. WELDON of Florida. If the gentleman would continue to yield, it is my understanding that frequently in cases where the information is compelling, that it can be brought within 72 hours.

Mr. SCOTT. Reclaiming my time, Mr. Speaker, an indictment 72 hours after the offense, including the investigation and the arrest and the convening of a grand jury is frequently done within 72 hours. Is that the information that we are going to base our consideration of this bill on?

I know the gentleman is a physician and not a lawyer, and perhaps if it had gone through the Committee on the Judiciary, we would find that a lot of these cases the indictment comes months after the offense.

Mr. WELDON of Florida. If the gentleman would continue to yield, I realize that all those things occurring within 72 hours can occur, but it is unusual, and that very often it takes longer. But I am also aware that we can place a patient on antiretroviral therapy while that process is working through, and that if we do run into problems with side effects from the drugs or if there are some serious concerns regarding the costs of the drugs, that, if at a later time, we are able to get an HIV test that comes back negative, we can discontinue the drugs. Whereas under current State law in some States, we wait months or years sometimes before you learn the HIV status.

Mr. Speaker, what I find even more egregious is some of these perpetrators engage in plea bargaining, trying to reduce a rape charge to an assault charge in exchange for an HIV test, which I think is reprehensible and should not be permissible by any State law, and that is why I decided to move forward with this legislation.

Mr. SCOTT. Reclaiming my time, Mr. Speaker, can the gentleman advise why it is necessary or what compelling reason there is if the activity would place the victim at no risk of becoming infected with AIDS, why the AIDS test ought to be required?

Mr. WELDON of Florida. Mr. Speaker, will the gentleman yield?

Mr. SCOTT. I yield to the gentleman from Florida.

Mr. WELDON of Florida. Mr. Speaker, I am confused by the gentleman's question.

Mr. SCOTT. Mr. Speaker, reclaiming my time, on page 2, lines 12 through 19, it says that the State shall require the following: an AIDS test if the nature of the activity would have placed the victim at risk of becoming infected or the victim requested the defendants to be so tested.

So if the victim requested the defendant to be so tested, even though there is no chance of a transmission, then the test goes forward anyway.

My question is, why do we have the provision that the defendant be tested even though there is no chance of them being infected?

Mr. WELDON of Florida. Will the gentleman continue to yield?

Mr. SCOTT. I yield to the gentleman from Florida.

Mr. WELDON of Florida. Mr. Speaker, I believe that there is a component of this that is necessary to put people's minds at ease in these cases. While it may be a scientific fact that HIV transmission is unlikely to occur from certain other types of exchange of bodily fluids and that the risk is quite low, the victims of these crimes have zero tolerance for risk.

And while it may be easy for the gentleman as a lawyer or for me as a doctor to say, oh, do not worry, what that perpetrator did to you puts you at virtually no risk, that is not acceptable to them; they want to know. They want zero risk, and that is why I put that provision in the bill.

Certainly, as this piece of legislation moves forward through the Senate and goes to a conference, there may be some opportunity to adjust this language to put some further provisions in there that may make the gentleman more comfortable with the legislation, but that is why I included that language in there.

Mr. SCOTT. Reclaiming my time, Mr. Speaker, that is why we asked for 24 hours so that we could work out some of these provisions including, perhaps, some kind of confidentiality, because the results of the AIDS test are being made available to at least six, and possibly unlimited numbers of, people.

Mr. Speaker, I reserve the balance of my time.

Mr. CANADY of Florida. Mr. Speaker, I yield 6 minutes to the gentleman from Oklahoma (Mr. COBURN).

Mr. COBURN. Mr. Speaker, I thank the gentleman for yielding me the time.

Mr. Speaker, I say to my associate, the gentleman from Virginia (Mr. SCOTT), that I would like to address three or four questions. Number one is, one of the bases of his arguments is that there is no integrity in the testing system in terms of confidentiality; that has been proven totally false, the basis of that claim.

We as a medical community, as a public health community have not allowed leaks; that is exactly the same argument that was stated when children are born to mothers with HIV that they would not come in and get tested because somebody would find out.

In fact, what has happened is we have even more women coming in and getting tested because all women are interested in their children.

Mr. Speaker, the assumption that there is not integrity in the testing process and somebody outside who absolutely needs to know will violate that person's right is an erroneous assumption, and it is one that is continually used in the HIV epidemic.

The other point that I would make, so that the gentleman would surely know this, is that out of the 1.2 million people who have been infected with HIV thus far in our country, 600,000 of them still do not know they have HIV; they still do not know if they have HIV.

So whether or not an HIV test is appropriate or a non-HIV test is appropriate, there is enough behavior in our country that is not malicious that is associated with HIV infection that nobody knows who is HIV infected and who is not, because they all look the

same. HIV is not a regarder of persons of color or sex or life-style. It does not care. It does infect.

The other question that I would ask from the gentleman is, this is really a question of squaring off of rights. The gentleman from Virginia (Mr. SCOTT) has a great record of protecting individual's rights, and I think that is very important, that we could not ignore it.

I want to read through a few sets of stories and tell me whether or not we ought to be protecting the rights of the rapist or the accused rapist or the accused molester or those that were, in fact, victims of it. 41-year-old Alabama man raped a 4-year-old girl, infecting her with HIV which later claimed her life, 1996.

Had we known at the time his HIV status, the little girl would be alive. As a matter of fact, what we know now is if, in fact, we treat early, multiple times, we eliminate the infection, even if there was positive HIV there.

That knowledge within a 72-hour frame will give us an opportunity to have at least one aspect of an assault reversed.

A 35-year-old man in Iowa raped a 15-year-old girl and her 69-year-old grandmother. He was infected with HIV. No access to know. They did not know it until after the fact, until somebody became positive.

In New Jersey, 3 boys gang raped a 10-year-old mentally retarded girl. The girl's family demanded that the boys be HIV tested. Three years after the girl was raped and the boys were convicted, the family was still fighting to learn the HIV status of the attackers.

I believe that our law is based on balance, balance of both sets of rights and the claim that we cannot know. As a matter of fact, let me just change direction. We would not even be having this discussion today if we handled HIV like the infectious disease that it should be. That fact, if we had proper partner notification, proper follow-up, proper exposure follow-up, this would not even be a question on the House floor, but because we did the politically correct thing at the wrong time and did not treat it like the disease it is, we now have 600,000 Americans that have died from it.

I think the question is, are we for the rapists or are we for the molesters? Are we for those people who take advantage of others in terms of life beyond the attempt to harm someone, or are we for the victims?

□ 1645

So the real test of this vote this evening in the Chamber is people are going to line up. They are either going to be for rapists and molesters, or they are going to be for the victims. That is certainly somewhat of an oversimplification, but we would not be here if we did not have the same rationalization that the gentleman put forward before, that we cannot test people and hold that confidential.

Mr. SCOTT. Mr. Speaker, will the gentleman yield?

Mr. COBURN. I yield to the gentleman from Virginia.

Mr. SCOTT. Mr. Speaker, I appreciate the gentleman yielding.

Frankly, we would not be having the discussion if we had 24 hours notice in which to discuss the bill. I think it could have been worked out.

Mr. COBURN. Reclaiming my time, Mr. Speaker, the gentleman knows that I have nothing to do with that. That is not changing the fact that we are here to discuss the facts of this bill.

Mr. SCOTT. When I was in the State Senate of Virginia, we dealt with the issue and gave the defendant an opportunty to be heard so that we are not imposing this test on innocent individuals.

The gentleman mentioned that there is confidentiality within the medical situation of the results of the test. The fact of the matter is that in the bill, the information is divulged not just to medical personnel but to the victim, the defendant, the attorneys for the victim, the atorneys for the defendant, the prosecuting attorneys, and the judge presiding at the trial.

The SPEAKER pro tempore (Mr. PEASE). The time of the gentleman from Oklahoma (Mr. COBURN) has expired.

Mr. SCOTT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the information is also given to the judge presiding at the trial, and it provides that if the results are positive, such facts may, as relevant, be considered in the judicial proceedings conducted with respect to the alleged crime, by means that it virtually has to become public information in the public trial.

Mr. COBURN. Mr. Speaker, will the gentleman yield?

Mr. SCOTT. I yield to the gentleman from Oklahoma.

Mr. COBURN. Right. And today we do the exact same thing on syphilis.

Let me put forward to the gentleman that, number one, do we serve society's greater good if in fact we limit the spread of the disease; number two, do we serve the victim's greater good; and, number three, if in fact all those individuals that the gentleman mentioned are professional, they can be held in conduct claims against their own professionalism if in fact they divulge it.

The final point I would make in terms of the gentleman's argument is that it should be exposed. If somebody, in law, has violated somebody else and has given them a disease, one of the things we do when one is convicted of a felony is they lose certain rights.

Mr. SCOTT. Reclaiming my time, Mr. Speaker, there has been no opportunity for the defendant to express himself or show conclusive evidence he is innocent of the underlying charge. The fact that they may have AIDS becomes public during the trial, before they have had an opportunity to be heard.

The reason we are discussing this is the fact that before this information is spread all over the world, before they can say, ''It was not me, I was 100 miles away, and can prove it,'' it is all over the world. We would not be having this discussion if we could work this out so we could have meaningful confidentiality, some meaningful opportunity to be heard. There would not have been this discussion. It was less than one business day, no opportunity to be heard, no opportunity to comment.

I will continue to read.

Mr. COBURN. Mr. Speaker, I would just ask the gentleman to think, if one of his family members——

Mr. SCOTT. Reclaiming my time, when I was a member of the State Senate, I worked on legislation just like this to give the victim the ability as soon as practicable to get the information. This does not have that.

The gentleman is talking about an innocent person who is having their private affairs exposed to the world. What good does that do?

Mr. COBURN. If the gentleman will yield, they are not exposed to the world, they are only exposed to the world if in fact it comes to trial. What is exposed today is those people who are plea bargaining to get out of the rape charge by granting testing for HIV.

Mr. SCOTT. Does the gentleman acknowledge that somebody could be factually innocent and could prove it by conclusive evidence, but does the gentleman disagree or will he acknowledge that that would become public?

Mr. COBURN. No, I will not acknowledge.

Mr. SCOTT. I ask the gentleman, how do they keep it private if the victim gets information, the defendant gets information, the attorneys for the victim, the attorneys for the defendant, the prosecuting attorneys, the judge, and the information can get used in a public trial? Then how does the gentleman keep that information private until the person can say, ''I was 100 miles away from the alleged incident, it was not me, and I can prove it?''

Mr. COBURN. If the gentleman will continue to yield, is the gentleman saying that people are not held accountable for confidentiality otherwise?

Mr. SCOTT. If the gentleman reads the bill, it requires the information to become public.

Mr. COBURN. I do not know Virginia, but other States, if you have the information of public health knowledge that is considered confidential, then there is no right to distribute that information.

Mr. SCOTT. If the gentleman would read the bill, it is not in there.

Mr. COBURN. I have read the bill.

Mr. SCOTT. This is the bill. The bill requires the disclosure of information.

Mr. COBURN. At what time?

Mr. SCOTT. During the trial, before the defendant ever has an opportunity to respond.

Mr. COBURN. Right.

Mr. SCOTT. To show that he was not there, he was not within 100 miles, and the fact that he has AIDS becomes a matter of public information.

Mr. COBURN. If the gentleman will continue to yield, the gentleman's contention is that for those people today presently infected by HIV, it is more important to maintain their confidentiality than to treat and keep somebody else from getting HIV? That is what the gentleman just said. That is exactly how we have handled this epidemic. That is what is wrong with it.

Mr. SCOTT. If the gentleman would think back to what I had said, if the person is innocent of the charge and can prove it, then I see no compelling interest to expose the fact that they have AIDS. If they are in fact guilty, then the fact that they might have an opportunity to be heard would not slow things down one iota.

Mr. Speaker, basically if the other side had offered us 24 hours, even, to discuss the bill, I think it could have been done in the same form that Virginia did it, that gives an expedited opportunity to be heard and a right to be tested so everyone's rights are protected.

This provides no such rights. If someone has AIDS and wants to keep that information private, they have essentially, under this bill, no opportunity to do it because that information would be part of a public trial. Then, after the fact that they have AIDS has been made public, then they get to present their evidence showing that they were 300 miles away and could not have possibly been the one who is accused of the crime.

Mr. Speaker, this requires testing even though there is no risk of becoming infected. There is no confidentiality of the information. It is spread to a minimum of six, possibly dozens of others, even possibly more. It says attorneys for the victim, attorneys for the defendant, and that could be an entire law firm. There is no telling how many people would get the information. None of them are physicians.

This bill should have gone through committee. I am sure we could have worked out legislation, just like we did in Virginia when I was in the State Senate, we worked out legislation like this. We could have done it with the Violence Against Women Act, where the law presently deals with this issue.

But no, 6 weeks before the election here we come, vote it up or down. We do not have to consider any of this, we do not have to be able to review it, we do not have to be able to amend it or give people the opportunity to be heard, we just have to be able to vote it up or down.

That is not the way we ought to be legislating. This bill is unfair and unreasonable. It could have been fixed with some minor amendments, but we do not have the opportunity because it is right before an election and we have to take it up or down, take it or leave it.

Mr. Speaker, I yield back the balance of my time.

Mr. CANADY of Florida. Mr. Speaker, I yield the balance of the time to the gentleman from Florida (Mr. WELDON), the sponsor of the legislation.

Mr. WELDON of Florida. Mr. Speaker, I thank the gentleman for yielding time to me.

Of course, I have the utmost respect for my colleague, the gentleman from Virginia, and his experience on this issue in the Virginia legislature. I will point out that it did occur prior to the development of a stronger body of knowledge on how to prevent HIV infection.

The article that I cited that this legislation is based on was published in 1997 prior to the Virginia statute being implemented, and the authors of this article appropriately point out that for HIV prophylaxis to occur, it needs to be initiated within 72 hours.

I also would point out that many States currently already comply with the provisions in this law, including my home State of Florida, and there have not been problems with release of information to the public.

I would also like to point out that any inappropriate distribution of information on HIV testing that was to be given by any legal professionals, then those people would be subject to the standard disciplinary actions that currently are in place.

Therefore, I feel that this is clearly a case of balancing the greater good. I believe the greater good is to protect the right of victims in this case because of the potential to save life. I urge all my colleagues on both sides of the aisle to support this legislation.

Mr. WAXMAN. Mr. Speaker, I rise to express my concerns over H.R. 3088, the Victims of Rape Health Protection Act of 2000. While I fully sympathize with the intent of this legislation, I am afraid that it lacks important safeguards with would allow for the full protection of victims' rights. I have no doubt that the absence of these crucial details can be attributed to the bill's hasty discharge from the committee of jurisdiction, and the complete absence of any deliberation by the Committee on Judiciary.

It is important that we understand current law as it applies to the rights of victims of sexual assault. According to the National Victim Center, 44 states have laws for the mandatory testing of sexual offenders. Of these states, 16 require mandatory testing before conviction, 33 require testing after conviction, and six require testing both before and after testing.

Under Federal law, HIV testing of convicted sexual offenders is a mandatory condition of States' receipt of certain prison grants. Under the Crime Control Act of 1994, Congress allowed victims of sexual assault to obtain a court order requiring the defendant to submit to testing.

Under current law, such an order may be obtained provided that probable cause has been determined, the victim seeks testing of the defendant after appropriate counseling, and the court determines both that test would provide information necessary to the victim's health and that the defendant's alleged conduct created a risk of transmission.

In contrast, this bill requires that States enact mandatory HIV testing laws where the alleged crime ''placed the victim at risk of becoming infected with HIV'' or if ''the victim requests that the defendant be so tested.''

For a bill that purports to protect the rights of victims of sexual offenses, I am troubled by its lack of important and fundamental considerations.

First, under this bill, it is possible that testing of the defendant would occur and the results of that testing be widely distributed—despite the express wishes of the victim. In other words, in cases of sexual assault with a resulting risk of HIV infection, this bill seeks to have States enact laws to compel testing—even if the victim did not request such testing.

This is not just a theoretical possibility. Victims may justly be concerned about the disclosure of test results. Despite our best efforts, there remains a stigma associated with HIV/AIDS. According to a recent Department of Justice report, New Directions from the Field: Victims' Rights and Services for the 21st Century, ''Advocates still report problems with insurance companies that, upon learning of the victim's HIV test or results, raise health insurance premiums or cancel the victim's policy altogether.'' This is clearly unconscionable, yet could easily result from this bill.

Second, we should be concerned with the converse situation, where only the victim's request will trigger testing of the defendant. Under this bill, testing must occur if a victim desires it, even in situations where one cannot reasonably believe the test is needed. I strongly support retaining the standard under current Federal law of having the court determine whether the test provides information necessary to the victim's health and whether the defendant's conduct may have created a risk of transmission.

Third, this bill fails to truly account for the interests of the victim. There is no provision of counseling, referrals or services for the victim. If we are going to expend scarce resources on timely testing of the defendant, we must ensure that their victims have complete access to counseling, testing and to health services—services which should include immediate, aggressive treatment. Nor is there any question that victims of sexual offenses should be entitled to testing for other very serious sexually—transmitted diseases, not just HIV/AIDS.

As the Department of Justice's report states, ''Although testing the offender may be important to the victim, it should be emphasized that testing the offender does not replace focusing on the victim's medical and emotional needs.'' Indeed, many states require counseling for

victims prior or in conjunction with the mandatory testing, as does current Federal law. But that would not be the case under this bill.

Finally, in another counterproductive departure from current law, the bill needlessly requires distribution of HIV test results—which are highly sensitive health information—to a large number of parties, some of whom in some situations may not require or even desire the information. Again, in contrast, states like Wisconsin have been sensitive to these legitimate victim's concerns, specifying that test results shall not become part of a person's permanent medical records.

I am troubled by these obvious deficiencies of H.R. 3088, and regret that neither the Committee on Judiciary nor the Members of this House were afforded an opportunity to correct them.

Mr. STARK. Mr. Speaker, I rise today to oppose H.R. 3088, the Victims of Rape Health Protection Act.

This bill places the wrong emphasis in dealing with the very important crime of rape by violating law-biding citizen's constitutional privacy rights and due process rights.

This bill inappropriately focuses on the defendant rather than helping the victim of rape. If the Congress really wants to aid the health of a rape victim, then this bill should include referrals or direct assistance for health services to rape victims. These health services should include making available the rapid testing for HIV and other sexually-transmitted diseases in order to allow the rape victim to take advantage of an aggressive treatment regimen that needs to begin within 48–72 hours after infection.

This legislation illegally encourages the violation of the due process rights of people who may well be innocent law-biding citizens. The bill threatens states with the partial loss of their drug control grants if they do not test individuals accused of rape for HIV. These individuals have not been convicted of a crime therefore it is not right to subject them to a mandatory health test. This action is a violation of these individuals' due process rights that are afforded to them during a search and seizure.

This bill violates the privacy of United States citizens. The law requires states to provide health information of individuals' accused—not convicted—of rape to court officials and to the prosecutor. This information is private medical documentation that this law encourages States to make public. The release of this information to the public could adversely affect innocent law biding individuals who are found not guilty. With the public misconceptions and lack of understanding surrounding the HIV virus, these individuals could experience job discrimination and social exclusion if these records become public.

Moreover, this legislation unfairly targets individuals with HIV and gives the implication that having HIV as being a crime rather than a medical condition. It is time that this Congress began treating diseases such as HIV as a medical condition and not a crime.

It is disgraceful that the majority has decided to put such a controversial bill on the suspension calendar. This bill has not had a hearing or a mark-up in committee and it only has eleven Republican cosponsors. This is another example of the Majority trying to score election year points rather than passing thoughtful legislation that improves the health and respects the rights of all United States citizens.

Mrs. FOWLER. Mr. Speaker, today I rise in support of H.R. 3088. I believe that we in Congress must do everything possible to insure the emotional, mental and physical health of the victims of violent crime.

In recent years Congress has worked very hard to elevate the status of the victim in the criminal court process—by recognizing the need for victims' rights and writing those rights into law.

Now we have the opportunity to expand upon doing the right thing for the victims of violent crime. HIV testing of those charged with violent crimes is a step in the right direction. The second step—making it legal to tell the victims the medical test results—is essential for their emotional, mental and physical health. And, of course, timeliness of testing and notification of the victim is of the essence.

We will never be able to undo the harm that has been done to the victim, but we can take steps to control its long-term effects. I urge my colleagues on both sides of the aisle to take a stand on victims' rights. Vote yes on H.R. 3088.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PEASE). The question is on the motion offered by the gentleman from Florida (Mr. CANADY) that the House suspend the rules and pass the bill, H.R. 3088.

The question was taken.

Mr. WELDON of Florida. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12 of rule I, the Chair declares the House in recess until approximately 6 p.m.

Accordingly (at 4 o'clock and 56 minutes p.m.), the House stood in recess until approximately 6 p.m.

□ 1800

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. LATOURETTE) at 6 p.m.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8, rule XX, the Chair will now put the question on each motion to suspend the rules on which further proceedings were postponed today in the order in which that motion was entertained.

Votes will be taken in the following order:

H.R. 4049, by the yeas and nays;

H.R. 4147, by the yeas and nays; and

H.R. 3088, by the yeas and nays.

The Chair will reduce to 5 minutes the time for any electronic vote after the first vote in this series.

PRIVACY COMMISSION ACT

The SPEAKER pro tempore. The pending business is the question of suspending the rules and passing the bill, H.R. 4049, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. HORN) that the House suspend the rules and pass the bill, H.R. 4049, as amended, on which the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 250, nays 146, not voting 37, as follows:

□ 1826

Messrs. JACKSON of Illinois, VISCLOSKY, BRYANT, PICKERING, POMBO, NORWOOD, BURR of North Carolina, GOODLATTE, EHRLICH, ROHRABACHER, BERMAN, BECERRA, and Ms. SANCHEZ and Ms. DANNER changed their vote from ''yea'' to ''nay.''

Mr. KLECZKA and Mrs. CAPPS changed their vote from ''nay'' to ''yea.''

So (two-thirds not having voted in favor thereof) the motion was rejected.

The result of the vote was announced as above recorded.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. LATOURETTE). Pursuant to clause 8 of rule XX, the Chair will reduce to 5 minutes the minimum time for electronic voting on each additional motion to suspend the rules on which the Chair has postponed further proceedings.

STOP MATERIAL UNSUITABLE FOR TEENS ACT

The SPEAKER pro tempore. The pending business is the question of suspending the rules and passing the bill, H.R. 4147.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. CANADY) that the House suspend the rules and pass the bill, H.R. 4147, on which the yeas and nays were ordered.

This is a 5-minute vote.

□ 1836

Mrs. JONES of Ohio and Mr. JACKSON of Illinois changed their vote from ''nay'' to ''yea.''

So (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

VICTIMS OF RAPE HEALTH PROTECTION ACT

The SPEAKER pro tempore (Mr. LATOURETTE). The pending business is the question of suspending the rules and passing the bill, H.R. 3088.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida (Mr. CANADY) that the House suspend the rules and pass the bill, H.R. 3088, on which the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 380, nays 19, not voting 34, as follows:

[Roll No. 505]

□ 1845

Ms. PELOSI changed her vote from ''yea'' to ''nay.''

So (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. FLETCHER. Mr. Speaker, due to my wife's illness and emergency surgery, I was not present for rollcoll votes No. 503, No. 504, and No. 505. Had I been present, I would have voted as follows: H.R. 4049—Privacy Commission Act—''yea''; H.R. 4147—Stop Material Unsuitable for Teens Act—''yea''; and H.R. 3088—Victims of Rape Health Protection Act—''yea''.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 4578, DEPARTMENT OF INTERIOR AND RELATED AGENCIES APPROPRIATIONS ACT, 2001

Mr. LINDER, from the Committee on Rules, submitted a privileged report (Rept. No. 106–924) on the resolution (H. Res. 603) waiving points of order against the conference report to accompany the bill (H.R. 4578) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 2001, and for other purposes, which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.J. RES. 110, MAKING FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 2001

Mr. LINDER, from the Committee on Rules, submitted a privileged report (Rept. No. 106–925) on the resolution (H. Res. 604) providing for consideration of

the joint resolution (H.J. Res. 110) making further continuing appropriations for the fiscal year 2001, and for other purposes, which was referred to the House Calendar and ordered to be printed.

CONGRATULATING THE REPUBLIC OF HUNGARY ON THE MILLENNIUM OF ITS FOUNDATION AS A STATE

Mr. GILMAN. Mr. Speaker, I ask unanimous consent that the Committee on International Relations be discharged from further consideration of the concurrent resolution (H. Con. Res. 400) congratulating the Republic of Hungary on the millennium of its foundation as a state, and ask for its immediate consideration in the House.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore (Mr. LATOURETTE). Is there objection to the request of the gentleman from New York?

Mr. LANTOS. Mr. Speaker, reserving the right to object, and I will not object, I would like to commend the authors of this resolution as well as all of my colleagues who, along with me, are cosponsors of this legislation. I think it is appropriate to pay tribute to a country 1,000 years old which at long last has decided to join the community of democratic and freedom loving nations.

It was my great pleasure to accompany our Secretary of State and the foreign ministers of Hungary, the Czech Republic and Poland to Independence, Missouri for the signing of the document that has made Hungary a part of NATO. I earnestly hope that Hungary, before long, will be able to join the European Union.

As we celebrate this momentous occasion, it is important, however, to hoist a flag of caution. Democracy in Hungary is functioning, but certainly not without its imperfections. There are still periodic outbursts of ethnic and racial harassment which the government needs to do more to put an end to. There are periodic attempts to destroy and desecrate Jewish cemeteries.

At soccer games, hooligans of the far right are engaging in racial and religious intimidation. There are indications that the television medium is not as objective and open as it needs to be in a free and democratic society.

So while I join my fellow sponsors of this legislation and congratulate Hungary for having put an end to its fascist and communist past and having joined the family of democratic and freedom loving nations, I call on all Hungarians to meticulously observe the rules of political democracy and pluralism without which a promising future certainly will not be there for the 10 million people who deserve a good future. I want to congratulate my colleagues.

Mr. GILMAN. Mr. Speaker, will the gentleman yield.

Mr. LANTOS. I am happy to yield to the distinguished gentleman from New York.

Mr. GILMAN. Mr. Speaker, I thank the gentleman from California for yielding to me.

Mr. Speaker, I support the adoption of House Concurrent Resolution 400. It is interesting to note, as this resolution does, that this year marks not just the 1,000th anniversary of the crowning of Hungarian King Stephen, Saint Stephen, by Pope Sylvester II, but also the tenth anniversary of Hungary's first postcommunist, free and democratic elections.

Just as King Stephen anchored Hungary in Europe and the Western civilization, the leadership of postcommunist Hungary has begun to anchor Hungary in Pan-European and trans-Atlantic institutions once again through that country's admission into the NATO alliance and its application to enter the European Union.

While congratulating Hungary on the 1,000th anniversary of the foundation of the Kingdom of Hungary, this resolution makes it clear that we in the United States commend Hungary's efforts to rejoin the Pan-European and trans-Atlantic community of democratic states and its efforts to move beyond the dark days of communist dictatorship to create a lasting, peaceful and prosperous democracy.

Mr. Speaker, I urge my colleagues to join in supporting the adoption of this important resolution.

Mr. LANTOS. Mr. Speaker, under my reservation, I am delighted to yield to the distinguished gentleman from New Jersey (Mr. PALLONE), one of the principal authors of this resolution.

Mr. PALLONE. Mr. Speaker, I thank the gentleman from California (Mr. LANTOS) for yielding to me, and I appreciate all his support in bringing this resolution to the floor.

Mr. Speaker, several months ago, I introduced this bipartisan resolution congratulating the Republic of Hungary on the millennium of its founding as a nation, and I am pleased that this bipartisan resolution has reached the House floor. The bill currently has more than 30 cosponsors from both parties, and of course the House Committee on International Relations has approved it.

As a Member of Congress representing one of the largest Hungarian-American constituencies in this country, I am particularly proud to have introduced this measure with the gentleman from Oklahoma (Mr. ISTOOK) and the gentleman from California (Mr. LANTOS) and others and to have it reach the floor. I hope it will be signed into law shortly.

More than 20,000 people of Hungarian descent reside in my congressional district in New Jersey with New Brunswick being a major center of Hungarian-American cultural life.

Located in the very heart of Europe, Hungary has been at the center of most of the epic historical events that have swept through the continent. Throughout the last thousand years, and particularly during the turbulent 20th century, Hungary has undergone wars, invasions and foreign occupations. Nevertheless, the Hungarian people have maintained their strong sense of nationhood and have preserved their unique language and culture. While the roots of the Hungarian nation lie in the East, in the last 1,000 years Hungary has been firmly attached to the West, an attachment that 45 years of Soviet domination could not break.

Today, Hungary is a crucial part of the Western alliance. Indeed, in 1990, Hungary became the first of the captive nations of the Warsaw Pact to hold free and fair elections. Now, as the gentleman from California (Mr. LANTOS) mentioned, it has become a member of NATO, too.

The celebration of 1,000 years of nationhood intends to look back at Hungary's past, remembering Hungarian intellectual and cultural values that enriched European culture in the past centuries, while also looking towards the future. Thus, during this year when Hungary and its people mark 1,000 years of its history, they also celebrate a decade of democracy.

Lastly, while paying tribute to our friend and ally in Central Europe, we should also honor the hundreds of thousands of Americans of Hungarian descent who have contributed their talents and hard work to this nation.

If I could just mention to my colleagues, many of the Hungarian-Americans in my district came here after the uprising in the mid-1950s, and of course their descendents are still there and contributing to our culture and our economy in central New Jersey.

But I assure my colleagues that, for those people who left after the 1956 uprising, there was nothing that they enjoyed more than seeing Hungary become a democracy and a part of NATO and to be able to increase every year their alliance with the West and to our democratic values.

Mr. LANTOS. Mr. Speaker, I thank the gentleman from New Jersey (Mr. PALLONE) for his eloquent and appropriate comments.

Mr. Speaker, under my reservation, I am delighted to yield to the distinguished gentleman from Oklahoma (Mr. ISTOOK), one of the principle authors of this legislation.

Mr. ISTOOK. Mr. Speaker, I thank the gentleman from California for yielding to me. I thank the gentleman from New York (Mr. GILMAN) for bringing this legislation up.

Mr. Speaker, as a principle sponsor, I think it is good that we talk about

what it means for a nation, for Hungary, to celebrate 1,000 years as a Nation. Many of us recall when the United States of America celebrated its bicentennial in 1976. That was for 200 years. We have not yet made it quite to 225 or 250 or 500, much less 1,000 years that Hungary is celebrating.

When one looks at the history when they came into the Carpathian Basin and they decided that they wanted to establish permanency, and they wanted to be a key part of Europe, and they had the crowning of Saint Stephen as the first king of Hungary, and founded the state that has endured despite the Nazi occupations, the Soviet occupations. We, who have visited Hungary both before and after the Iron Curtain came down, see the marvelous resiliency of a people who could not be suppressed, who retained everything that they could, that made an example before the world in 1956 as the first nation to try to throw off the yoke of Communist oppression and domination.

The Freedom Fighters of Hungary earned a special place in the hearts of the American people. I am proud of the fact that Hungary was the first country under communist domination to break out by holding free elections. As the gentleman from New Jersey (Mr. PALLONE) mentioned, in 1990, when Hungary did that, that really started the collapse of the Iron Curtain.

Now this is especially important to me, not just because I visited this beautiful land, but this is the land from which my grandparents came to the United States of America. My father's parents were immigrants from Hungary. My grandfather came here just before the first world war. He became an American citizen. Just after that war, he went back and married my grandmother. James and Rozalia Istook became U.S. citizens.

If one has a chance to see the difference, Hungarians as well as so many people from throughout the land gathered to the United States of America and made this the melting pot. Because of that, we feel special kinship and ties to those who remained as well as those who came having had a chance to visit with family that we still have in Hungary before, and to rejoice with them in knowing that they have opportunities because they would not give up. They would not surrender their hearts and their minds and their souls to the communist yoke.

□ 1900

In fact, when we were visiting in Hungary before the fall of the Iron Curtain, it was fascinating to us that because of the 1956 revolution and the resistance that they constantly had to the Soviet regime, they were allowed certain economic opportunities and freedoms that other nations in the Communist block did not have, and we found that people there often referred to Hungary as the ''Little USA.'' This was what they were saying among themselves, because they had that same yearning for freedom and for opportunity, economic as well as political.

There is a great sharing between our Nation and Hungary, and to know that Hungary has set an example of endurance of a thousand years, I think, is a great challenge for the United States of America. I would love to see the day when the parliament in Hungary is passing a resolution commending the United States of America on 1,000 years as a nation. Anyone who has never had a chance to visit Hungary and Budapest, this is one of the most beautiful spots in the entire world there on the Danube River where the Hungarian parliament is located. So as well as commemorating Hungary, we urge Americans to visit this great land.

Mr. Speaker, I thank the gentleman from California (Mr. LANTOS); and of course, for him, it is not just a matter of his ancestors but himself who was born there, and he sets the example, as I mentioned, of being part of the melting pot: E Pluribus Unum, out of many nations has come one, the United States. And we want to remember this special land of Hungary and congratulate them on their millennium.

Mr. LANTOS. Mr. Speaker, reclaiming my time, I want to thank my colleague and friend for his most eloquent remarks.

Mr. Speaker, in conclusion, may I just say that as one of Hungarian heritage, who is immensely proud of his heritage, it is important for us to realize that this small nation of 10 million people has been a leader globally in science, in music, in art, in sports, in almost every field of human endeavor. In the Sidney Olympics just concluded, again the Hungarian Olympic team acquitted itself with remarkable success. There is a tremendous list of Nobel laureates from Hungary, testifying to the scientific and educational and academic achievements of this small country.

I strongly urge all of my colleagues to support this resolution and, more importantly, to work along with those of us who have special interests in Hungary to continue building ties of business and culture and academic exchange and good fellowship with the people of Hungary.

Mr. GILMAN. Mr. Speaker, will the gentleman yield?

Mr. LANTOS. I yield to the gentleman from New York.

Mr. GILMAN. Mr. Speaker, I just want to thank the gentleman from California (Mr. LANTOS), the gentleman from Oklahoma (Mr. ISTOOK), and the gentleman from New Jersey (Mr. PALLONE) for their work on this measure and for their supporting statements. This is an important resolution, and I just want to urge my colleagues to fully support the measure.

Mr. LANTOS. Reclaiming my time, Mr. Speaker, I thank the distinguished chairman of the committee for his words.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. DICKEY). Is there objection to the request of the gentleman from New York?

There was no objection.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 400

Whereas the ancestors of the Hungarian nation, 7 tribes excelling in horsemanship and handicrafts, settled in the Carpathian basin around the end of the 9th century;

Whereas during the next century this tribal association had accommodated itself to a permanently settled status;

Whereas the ruler of the nation at the end of the first millennium, Prince Stephen, realized with great foresight that the survival of his nation depends on its adapting itself to its surroundings by becoming a Christian kingdom and linking its future to Western civilization;

Whereas in 1000 A.D. Stephen, later canonized as Saint Stephen, adopted the Christian faith and was crowned with a crown which he requested from Pope Sylvester II of Rome;

Whereas, by those acts, Saint Stephen, King of Hungary, established his domain as 1 of the 7 Christian kingdoms of Europe of the time and anchored his nation in Western civilization forever;

Whereas during the past 1,000 years, in spite of residing on the traditional crossroads of invaders from the East and the West, the Hungarian nation showed great vitality in preserving its unique identity, language, culture, and traditions;

Whereas in his written legacy, Saint Stephen called for tolerance and hospitality toward settlers migrating to the land from other cultures;

Whereas through the ensuing centuries other tribes and ethnic and religious groups moved to Hungary and gained acceptance into the nation, enriching its heritage;

Whereas since the 16th century a vibrant Protestant community has contributed to the vitality and diversity of the Hungarian nation;

Whereas, particularly after their emancipation in the second half of the 19th century, Hungarians of the Jewish faith have made an enormous contribution to the economic, cultural, artistic, and scientific life of the Hungarian nation, contributing more than half of the nation's Nobel Prize winners;

Whereas the United States has benefitted immensely from the hard work, dedication, scientific knowledge, and cultural gifts of hundreds of thousands of immigrants from Hungary; and

Whereas in this year Hungary also celebrates the 10th anniversary of its first post-communist free and democratic elections, the first such elections within the former Warsaw Pact: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress—

(1) congratulates the Republic of Hungary, and Hungarians everywhere, on the one thousandth anniversary of the founding of the Kingdom of Hungary by Saint Stephen; and

(2) commends the Republic of Hungary for the great determination, skill, and sense of purpose it demonstrated in its recent transition to a democratic state dedicated to upholding universal rights and liberties, a free

market economy, and integration into European and transatlantic institutions.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GILMAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on House Concurrent Resolution 400, the matter just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

PASS THE VIOLENCE AGAINST WOMEN ACT

(Mrs. MALONEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. MALONEY of New York. Mr. Speaker, over 900,000 women suffer violence each year at the hands of an intimate partner. We need the Violence Against Women Act to be reauthorized. It has provided over $1.6 billion in Federal grants to prosecutors, to law enforcement officials, and to victim assistance programs; yet it was allowed to expire this past weekend.

Last week, this body passed it overwhelmingly. There is deep support in the Senate, with over 70 co-sponsors. Yet the Senate is holding this important piece of legislation up. Meanwhile, women fleeing domestic violence and children who live in violent situations wait and wait and wait.

I urge the other body to pass this bill immediately. Women and children around this Nation are counting on us. We should have passed it in the other body last week. We should not have allowed it to expire.

VITAL LEGISLATION NEEDS ADDRESSING BEFORE CONGRESS ADJOURNS

(Ms. JACKSON-LEE of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON-LEE of Texas. Mr. Speaker, I want to offer my support for moving along the Violence Against Women Act. I believe that we have more than an important responsibility to deal with this legislation. As Chair of the Congressional Children's Caucus, I can tell my colleagues of the terrible and horrific results that come from a child that has experienced violence in the home.

In addition, Mr. Speaker, I think it is vital that we spend these last waning hours to address the question of a patients' bill of rights to address the question of a guaranteed Medicare drug prescription benefit for seniors. Having come from my district, I know what people are crying out for.

I also believe, Mr. Speaker, that as we have seen three recent votes on the floor of the House this evening, it is imperative when we look at serious issues dealing with privacy and violence against women that we have hearings and the opportunity to deliberate and add amendments to the bill so we can put forward to the American people important and vital and serious and valuable legislation.

Mr. Speaker, I think that the American people are not expecting us to be the ''do-nothing'' Congress. They, frankly, want us to do our jobs.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 1999, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

WIND FOR ELECTRICITY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. FILNER) is recognized for 5 minutes.

Mr. FILNER. Mr. Speaker, I represent San Diego, California, which is undergoing a tremendous crisis in terms of the price that we pay for electricity. In the last 3 months, prices have doubled and tripled. And while we have a short-term cap on those prices, we are looking to Congress to bring down the wholesale price of electricity and bring down the rates to consumers and small businesses.

Tonight, I want to speak about the long-range issue of energy and how that affects San Diego and the rest of our Nation. We all know that oil, natural gas, and home heating fuel prices are at a 10-year high. American consumers are facing record increases in domestic energy costs. This past summer households have been hit by soaring electricity rates in California, and motorists have faced astronomical gasoline price hikes. Now, in the coming winter months, high energy prices will affect households throughout the country.

The economic consequences are all too evident to individual consumers both at home and overseas. In Europe we see gasoline shortages, panic buying, and massive protests over rising prices. Furthermore, the impact does not stop with the individual consumer; the whole Nation bears the consequences. A surge in the price of energy can derail the economic expansion that we have worked so hard to achieve and maintain.

I think we know that energy supplies and prices are indeed cyclical. We have been lulled into inaction by the long downside half of that cycle. Oil and gas have been in adequate supply and the moderate energy prices have made us forget the upside of that cycle. The energy crises of the 1970s and 1980s are forgotten history. Consequently, we have failed to implement policies to increase our energy supplies and to promote stable prices. We have steadily grown more dependent on conventional and imported energy. Congress has done very little to protect the Nation from the inevitable upswing in that cycle.

In particular, we have failed to support the development of alternative energy resources. In terms of domestic resource potential, wind energy is the most overlooked fuel source in this Nation. This resource is available in almost every State and can be utilized for electric generation more quickly than any other energy resource. Although California has been a leader, other States, such as Wyoming, Wisconsin, Vermont, Texas, Pennsylvania, Oregon, New York, Minnesota and Iowa, are beginning to utilize their wind energy resources. The use of wind power for electric generation is slowly growing.

Compared with the tax incentives for conventional nuclear energy, Federal tax support for renewable energy resources, such as wind, is relatively small. Aside from accelerated depreciation, which is shared by other fast-evolving technologies, wind facilities now qualify only for a temporary Federal production tax credit. This credit helps provide a price floor, but if the price of wind-generated electricity rises above a certain benchmark, the tax credit phases out and this credit took effect in 1994.

It was originally decided to sunset this credit in June of 1999. But several years after the credit was enacted, Congress considered repealing it when energy prices were at an all-time low. Fortunately, Congress retained the credit and later extended it until 2002. Despite waivering congressional policy, the credit has promoted use of domestic wind energy resources and has promoted technological development.

An uncertain credit and a temporary extension, however, does not support long-term planning, development and construction of electric generation projects. The experience with another credit program proves my point. Between 1986 and 1992, when the section 48 solar and geothermal credit was finally made permanent, Congress extended this credit in 1-, 2-, and 3-year increments. Sizable projects could not be undertaken because of the short eligibility period; and small short-term projects that were attempted had to be rushed to completion at great cost to meet the qualification deadline. For both policy and practical reasons, the wind production credit should be made

permanent, like the credit for solar and geothermal resources.

Our long-time reliance on conventional fuels has created a mindset which ignores alternatives. Mr. Speaker, the resulting institutional practices resist the use of nonconventional energy resources. Power management, transmission, and pricing practices need to adjust to the requirement of utilizing a new alternative resource. With the threat of another energy crisis looming in the future, Congress needs to reassess and redirect our national energy programs.

To spur that analysis and redirection, I have introduced today the Wind for Electricity Act to specifically promote the development of wind energy resources in this Nation. I know that San Diego is looking to this Congress for short-term relief from the high prices of electricity and to long-term alternative energy resources. I hope we all act soon.

RESPONSE TO PREVIOUS SPECIAL ORDER

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania (Mr. WELDON) is recognized for 5 minutes.

Mr. WELDON of Pennsylvania. Mr. Speaker, I have had the pleasure of serving in this body for 14 years. And during the 14 years, one of the things that I have learned about our colleagues is that we all have a feeling of high regard for each other. If someone is going to say something about another Member, the protocol usually has been that the Member be told about it in advance.

This past Thursday that did not happen, as the gentleman from California (Mr. WAXMAN) got up after everyone left Washington, late Thursday, and did a special order for 1 hour; a tirade mentioning a number of Members of Congress. Now, I will not do to him what he did to our colleagues. He only mentioned me briefly, but I told the gentleman from California (Mr. WAXMAN) this morning that I would come here personally and respond to the things he said regarding me.

The gentleman from California (Mr. WAXMAN) said that we were too harsh in criticizing the administration for the possibility of having the administration transfer technology to China in return for campaign dollars. He went on to make two specific charges: number one, that the Cox Committee, which I served on, in fact totally exonerated the administration on those allegations; and, number two, that the Justice Department said there was no reason to believe there was any need to further investigate the transfer of campaign dollars for technology to China.

Well, let us look at the facts, Mr. Speaker. The fact is that this gentleman, the largest single contributor in the history of American politics, Mr. Bernard Schwartz, from 1995 to 2000, contributed personally $2,255,000 to Democratic national candidates, DNC, the Democratic Senatorial Committee and the Democratic Congressional Committee.

□ 1915

The allegation was in 1998 when he contributed $655,000 to those candidates that there was a potential quid pro quo because Bernard Schwartz had been lobbying for a permit waiver to transfer satellite technology to China.

Now, the Justice Department has said on the record they opposed that the President intervene to a make a waiver decision, but the President went ahead on his own.

Now, in fact, our Cox committee did not even look at this issue. In fact, if the gentleman from California (Mr. WAXMAN) would have bothered to read the Cox committee report, in the appendix under the scope of the investigation it says, we did not even consider the political contribution aspect of this because other committees were looking at it and because we could not get people to testify because they pled the fifth amendment or they left the country.

But let us look at what the Justice Department said. Here is what the Justice Department said in the LaBella memo, which I would encourage our colleague, the gentleman from California (Mr. WAXMAN), and every citizen in America to request from their Member of Congress:

''It is not a leap to conclude that having been the beneficiary of Schwartz's generosity in connection with the media campaign, the administration would do anything to help Bernie Schwartz and Loral if the need arose.''

This was written not by a Republican. This was written by Charles LaBella, Justice Department special investigator to Louis Freeh, which went to Janet Reno.

They further said this, Mr. Speaker: ''As suggested throughout this memo, there are many as yet unanswered questions. However, the information suggests these questions are more than sufficient to commence a criminal investigation.''

Who would that criminal investigation have been against? It would have been against four people: Bill Clinton, Hillary Clinton, Al Gore, and Harold Ickes, who is Hillary's campaign manager in New York. It would have been against the Loral Corporation and Bernard Schwartz.

So here we have it, Mr. Speaker. The two allegations made by the gentleman from California (Mr. WAXMAN) are totally false. He owes an apology to the American people. Because, number one, the Cox Committee never looked at these facts. And he should know that unless he cannot read very well. It is right here in the text. Number two, he claims the Justice Department dismissed these allegations out of hand.

Well, I trust the American people. I would urge all of our colleagues to have this report available to every constituent across America, the LaBella memo. It is 94 pages. It is redacted, but they can read for themselves and they can see what this Justice Department, what FBI Director Louis Freeh, what handpicked Janet Reno Investigator Charles LaBella said about the need for a criminal investigation.

They name the four people in this document, and the four people are those four I mentioned along with Bernard Schwartz and the possibility of a quid pro quo for the $655,000 and all this money being transferred.

In fact, Mr. Speaker, when I get more time, I will go through the specific findings in the LaBella memo where they raised the issue of the request coming in to the President and specifically on February 18, 1998, the President signed the waiver after the Justice Department advised him not to sign it.

On January 21 of that same year, Schwartz donated $30,000 to the DNC. On March 2 he donated $25,000. All through that year, he donated $655,000 dollars. And that is why Louis Freeh and that is why Charles LaBella said there needs to be a further investigation for criminal activities involving the transfer of campaign dollars to the Democratic party, to the President and the Vice President and the First Lady and Harold Ickes based on the technology transfer to China, especially through the waiver that Bernie Schwartz got even though the Justice Department advised the President not to grant that waiver.

Mr. Speaker, the gentleman from California (Mr. WAXMAN) owes this Congress an apology.

Mr. Speaker, I include for the RECORD the following documents that I just referenced:

H. Res. 463 also authorized the Select Committee to investigate PRC attempts to influence technology transfers through campaign contributions or other illegal means. In light of the fact that two other committees of the Congress have been engaged in the same inquiry and had begun their efforts long before the Select Committee's formation, the Select Committee did not undertake a duplicative review of these same issues. The Select Committee did, however, contact key witnesses who could have provided new evidence concerning such issues.

The Select Committee's efforts to obtain testimony from these witnesses were unsuccessful, however, because the witnesses either declined to testify on Fifth Amendment grounds or were outside the United States. Because the Select Committee was unable to pursue questions of illegal campaign contributions anew, no significance should be attributed, one way or the other, to the fact that the Select Committee has not made any findings on this subject. The same is true with respect to other topics as to which time

constraints or other obstacles precluded systematic inquiry.

Much of the information gathered by the Select Committee is extremely sensitive, highly classified, or proprietary in nature. In addition, the Select Committee granted immunity to, and took immunized testimony from, several key witnesses. Pursuant to an agreement reached with the Justice Department, this testimony must be protected from broad dissemination in order to avoid undermining any potential criminal proceedings by the Justice Department.

There are two documents which could form a basis upon which to predicate a federal criminal investigation. The first is a February 13, 1998, letter from Thomas Ross, Vice President of Government Relations for Loral, to Samuel Berger, Assistant to the President for National Security Affairs. It could be argued from this letter that Schwartz intended to advocate for a quick decision on the waiver issue by the President. In the letter, annexed as Tab 47, Ross wrote: ''Bernard Schwartz had intended to raise this issue (the waiver) with you (Berger) at the Blair dinner, but missed you in the crowd. In any event, we would greatly appreciate your help in getting a prompt decision for us.''

In the letter Ross also outlined for Berger how a delay in granting the waiver may result in a loss of the contract and, if the decision is not forthcoming in the next day or so, Loral stood to ''lose substantial amounts of money with each passing day.'' The President signed the waiver on February 18, 1998. On January 21, 1998, Schwartz had donated $30,000 to the DNC; on March 2, 1998, he donated an additional $25,000.

The second document is a memo from Ickes to the President dated September 20, 1994, in which Ickes wrote:

''In order to raise an additional $3,000,000 to permit the Democratic National Committee (''DNC'') to produce and air generic tv/radio spots as soon as Congress adjourns (which may be as early as 7 October), I request that you telephone Vernon Jordan, Senator Rockefeller and Bernard Schwartz either today or tomorrow. You should ask them if they will call ten to twelve CEO/business people who are very supportive of the Administration and who have had very good relationships with the Administration to have breakfast with you, as well as with Messrs. Jordan, Rockefeller and Schwartz, very late this week or very early next week.

''The purpose of the breakfast would be for you to express your appreciation for all they have done to support the Administration, to impress them with the need to raise $3,000,000 within the next two weeks for generic media for the DNC and to ask them if they, in turn, would undertake to raise that amount of money.

* * * * *

''There has been no preliminary discussion with Messrs. Jordan, Rockefeller or Schwartz as to whether they would agree to do this, although, I am sure Vernon would do it, and I have it on very good authority that Mr. Schwartz is prepared to do anything he can for the Administration.'' See Tab 12 (emphasis in original).

From this memo one could argue that Ickes and the President viewed Schwartz as someone who would do anything for the Administration—including raising millions of dollars in a short period of time to help the media campaign. We now know not only that the media campaign was managed by Ickes from the White House, but also that it played a critical role in the reelection effort. Consequently it is not a leap to conclude that having been the beneficiary of Schwartz' generosity in connection with the media campaign, the Administration would do anything it could to help Bernie Schwartz (and Loral) if the need arose.

If in fact there is anything to investigate involving the Loral ''allegations,'' it is—as set out in the Task Force's draft investigative plan—an investigation of the President. The President is the one who signed the waiver, the President is the one who has the relationship with Schwartz; and it was the President's media campaign that was the beneficiary of Schwartz' largess by virtue of his own substantial contributions and those which he was able to solicit. We do not yet know the extent of Schwartz solicitation efforts in connection with the media fund. However, if the matter is sufficiently serious to commence a criminal investigation, it is sufficiently serious to commence a preliminary inquiry under the ICA since it is the President who is at the center of the investigation.

For all these reasons, the Loral matter is something which, if it is to be investigated, should be handled pursuant to the provisions of the ICA.

CONCLUSION

We have been reviewing the facts and the evidence for the last ten months. During that time we have gained a familiarity with the cases, the documents and the characters sufficient to draw some solid conclusions. It seems that everyone has been waiting for that single document, witness, or event that will establish, with clarity, action by a covered person (or someone within the discretionary provision) that is violative of a federal law. Everyone can understand the implications of a smoking gun. However, these cases have not presented a single event, document or witness. Rather, there are bits of information (and evidence) which must be pieced together in order to put seemingly innocent actions in perspective. While this may take more work to accomplish, in our view it is no less compelling than the proverbial smoking gun in the end. As is evident from the items detailed above, when that is done, there is much information (and evidence) that is specific and from credible sources. Indeed, were this quantum of information amassed during a preliminary inquiry under the ICA, we would have to conclude that there are reasonable grounds to believe that further investigation is warranted. As suggested throughout this memo, there are many as yet unanswered questions. However, the information suggesting these questions is more than sufficient to commence a criminal investigation.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. DICKEY). Members are reminded not to make personal references toward the President or Vice President of the United States.

BREAST CANCER AWARENESS MONTH

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. BACA) is recognized for 5 minutes.

Mr. BACA. Mr. Speaker, this month is National Breast Cancer Awareness Month. This month is devoted to increasing the awareness of breast cancer and to promote a nationwide education effort for the love of life.

Breast cancer is a tragedy that we must fight to eliminate. A pink ribbon that I am wearing and many other individuals will be wearing this month means more than awareness. It stands for the love of your wife, your sister, your mother, your grandmother, your daughter, and your colleagues.

We must do everything to stop this disease. About 182,000 new cases of breast cancer will be diagnosed in the United States this year alone, not to mention how many currently have breast cancer now or how many have died because of breast cancer.

Breast cancer prevention and treatment is an issue fought in the State legislature. It is one that I fought and I carried the legislation for the breast cancer stamp, the license plate for treatment and prevention. We must raise the awareness that the best protection is early detection and action.

There are measures women and their doctors can take to catch this disease early, including clinical exam, self-examination, and mammograms. During this month, I encourage all Members to spread the message about the importance of prevention and treatment. I encourage the Members to speak to their friends, co-workers, their families, and their communities. Some of the locations that we can speak at are hospitals, mammography centers, the health centers, and breast cancer awareness presentations.

This week I spoke at Loma Linda on behalf of a nonprofit organization named the Candlelight Research for Children that received treatment for cancer. And just this last week alone I spoke at Fontana Kaiser Permanente where they actually had the pink ribbon highlighted at the hospital for many individuals to see.

Congress should continue to support legislation such as H.R. 4386, the Breast Cancer and Cervical Cancer Treatment Act. This bill, supported by a bipartisan majority of Congress, would provide the treatment to low-income women who currently receive screening under the Federal program.

We should also support legislation pending in Congress to extend the Federal breast cancer stamp which would fund breast cancer research. We must also fund Federal agency research efforts, such as the Department of Defense peer-reviewed breast cancer research program.

We must not stop. We must not quit. We must continue to fight. This is an important national priority. We need to encourage everyone to be aware of this issue and encourage them to pass information on to those that they love. It just might save their life or the life of someone they love.

To touch a life is to save a life.

AMERICA DEMANDS STRONG ENERGY POLICY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida (Mr. STEARNS) is recognized for 5 minutes.

Mr. STEARNS. Mr. Speaker, recently Governor Bush proposed a comprehensive energy policy which I believe will go a long way towards increasing our Nation's energy self-sufficiency and strikes the proper balance between energy production and protecting the environment.
