My amendment would have targeted a specific increase for the counterterrorism program within the nonproliferation, anti-terrorism, demining and related programs account. This vital program was only funded at the President's request of $6 million, which is actually a reduction from the $7.4 million in last year's budget.

I appreciate the good work done by the chairwoman and by the committee in meeting the President's request. I understand that. But the President has not done a sufficient job in the area of counterterrorism, and there has been actually a reduction in this area.

As the cochair of the Task Force on Terrorism and Proliferation Financing, I have joined many of my colleagues, including the Chair, in meetings and hearings facing the challenges that we confront in the United States Government in battling terrorist financing.

Since the attacks on 9/11 Congress and this committee have taken significant steps towards utilizing investigation and data collection regarding terrorist financing as a viable intelligence tool for disrupting the financing of terrorist activities. Nevertheless, terrorists' proven ability to move money through innovative means necessitates continued progress in this critical counterterrorism area.

Al Qaeda's strength, for example, rests in its ability to continually adapt to U.S. tactics, and thus it requires greater innovation and greater resources in order to develop new strategies to counter those efforts.

In April, I had an opportunity to organize a trip to the Middle East where we met with high-ranking banking officials to discuss the issue of anti-terrorism financing in Jordan, in Afghanistan, in Iraq and in Istanbul, Turkey. I believe that through international financial pressure, we can effect real change in the policies of other countries towards these terrorist groups.

In the parts of the world where financial restrictions would have the greatest impact, unfortunately, U.S. influence is at its lowest. On the other hand, however, I know from our own experience that these countries do want to participate in the global economy. Thus, we have seen that these countries are more likely to adopt transparency in their finance laws for the purpose of gaining legitimacy in the eyes of global investors rather than simply responding to U.S. pressure. By allocating more resources to induce anti-money-laundering compliance and transparency, we can make significant gains in tracking terrorists and cutting off their funding.

While we made some progress, considerable work remains to be done in regulating, for instance, the hawala system, which is an informal transfer system used extensively in the Middle East, because anytime you have a lack of transparency and a lack of accountability regarding the movement of funds, there is a great likelihood that terrorists and criminals can harness the system for their own gain.

By closing off legitimate financial markets for terrorists, we force them to change tactics that are less secure and oftentimes easier to track. A perfect example is the example of December 14 and the arrest of Palestinian Prime Minister Haniyeh at the border crossing into Gaza from Egypt carrying an estimated $30 million in cash in suitcases for the Palestinian Authority and for Hamas. The reason that Hamas has to operate that way is because financial markets were not available to them. Instances like these highlight the importance and indeed the benefit of focusing on counterterrorism financing efforts.

In essence, I am greatly concerned that the President is not doing enough and that by meeting the President's request, we here are not doing enough to stop the financing of terrorist operations.

Mr. Chairman, I would yield back to the gentlewoman from New York for a response.

Mrs. LOWEY. Mr. Chairman, I would like to thank the gentleman. I agree that the counterterrorism financing program is a vital tool in assisting foreign countries' efforts to identify, freeze and prevent the use of financial institutions, businesses and charitable organizations as conduits for money to terrorist organizations, including giving countries an investigative ability to follow the money trail and arrest terrorists preemptively.

I support the work of the Department of State, the Department of Justice and the Department of Treasury in assisting countries who are at risk to terrorist financing. However, overall

budgetary constraints did not provide sufficient opportunity for us to increase the requested funding level at this time.

However, I want to assure you, this is a priority of this committee. This is a priority of this Congress. In fact, I have been a member for years of this same task force, the same committee of which you are cochair, I believe, and I look forward to working with you as the bill moves through this Congress to conference to see if we can bolster those funds.

I really do thank you for bringing this issue to our attention.

Mr. LYNCH. Mr. Chairman, I thank the chairwoman for the courtesy that has been extended to me, and I also look forward to working together on this very important issue.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT

For necessary expenses to carry out section 481 of the Foreign Assistance Act of 1961, $568,475,000, to remain available until September 30, 2010: *Provided,* That during fiscal year 2008, the Department of State may also use the authority of section 608 of the Foreign Assistance Act of 1961, without regard to its restrictions, to receive excess property from an agency of the United States Government for the purpose of providing it to a foreign country under chapter 8 of part I of that Act subject to the regular notification procedures of the Committees on Appropriations: *Provided further,* That the Secretary of State shall provide to the Committees on Appropriations not later than 45 days after the date of the enactment of this Act and prior to the initial obligation of funds appropriated under this heading, a report on the proposed uses of all funds under this heading on a country-by-country basis for each proposed program, project, or activity: *Provided further,* That of the funds appropriated under this heading, not less than $15,000,000 shall be made available for training programs and activities of the International Law Enforcement Academies: *Provided further,* That none of the funds provided under this heading for counter narcotics activities in Afghanistan shall be made available for eradication programs through the spraying of herbicides: *Provided further,* That $12,000,000 of the funds appropriated under this heading shall be made available for demand reduction and drug awareness programs: *Provided further,* That not less than $8,000,000 shall be made available for programs to combat transnational crime and criminal youth gangs: *Provided further,* That of the funds appropriated under this heading, not more than $38,000,000 may be available for administrative expenses.

ANDEAN COUNTERDRUG INITIATIVE

For necessary expenses to carry out section 481 of the Foreign Assistance Act of 1961 to support counterdrug activities in the Andean region of South America, $312,460,000, to remain available until September 30, 2010: *Provided,* That the Secretary of State, in consultation with the Administrator of the United States Agency for International Development, shall provide to the Committees on Appropriations not later than 45 days after the date of the enactment of this Act and prior to the initial obligation of funds appropriated under this heading, a report on the proposed uses of all funds under this heading on a country-by-country basis for each proposed program, project, or activity: *Provided further,* That section 482(b) of the Foreign Assistance Act of 1961 shall not apply to funds appropriated under this heading: *Provided further,* That assistance provided with funds appropriated under this heading that is made available notwithstanding section 482(b) of the Foreign Assistance Act of 1961 shall be made available subject to the regular notification procedures of the Committees on Appropriations: *Provided further,* That of the funds available under this heading for assistance for the Colombian National Police Support for Eradication program, not less than $5,000,000 shall be made available for program assistance to protect biodiversity, indigenous reserves and Afro-Colombian lands subject to spraying in Colombia: *Provided further,* That of the funds available for the Colombian national police support for eradication program for the procurement of chemicals for aerial coca and poppy fumigation programs, exclusive of funds made available pursuant to the previous proviso, not more than 10 percent of such funds may be made available for such fumigation programs unless the Secretary of State certifies to the Committees on Appropriations that (A) the herbicide is being used in accordance with label requirements of the Environmental Protection Agency for comparable use in the United States and with Colombian laws; (B) the aerial fumigation program does not pose unreasonable risks or adverse effects to humans or the environment including endemic species; (C) the social dislocation and changes in vegetative cover caused by the geographic shifts in coca and poppy cultivation resulting from the aerial spraying program have been thoroughly assessed on a regional level, and effective measures are being taken to minimize adverse impacts; (D) all certification reports on the aerial eradication program are being made available to the public in a timely manner in both English and Spanish; (E) complaints of harm to health or licit crops caused by such spraying are being thoroughly evaluated and fair compensation is being provided in a timely manner for meritorious claims; (F) all claims, evaluations, and compensation reports will be disclosed biannually to the public in both English and Spanish; (G) a minimum of 15 percent of sprayed fields will be subject to independent and randomly selected off-target damage assessments; (H) programs are being implemented by the United States Agency for International Development, the Government of Colombia, or other organizations, in consultation and coordination with local communities and existing local development initiatives, to provide alternative sources of income in municipalities where security permits for small-acreage growers whose illicit crops are targeted for fumigation; (I) programs to provide food security to affected families are operative in areas where security does not permit alternative development programs: *Provided further,* That funds may not be used for aerial fumigation in Colombia's national parks or reserves unless the Secretary of State determines that there are no effective alternatives to reduce drug cultivation in these areas and that the spraying is conducted in accordance with current Colombian laws: *Provided further,* That of funds provided for interdiction under this heading, not less than 10 percent of airtime allocated for aerial assets, (both fixed and rotary wing aircraft), shall be used annually for major drug interdiction operations, including assaults on large drug processing labs and high value narcotics related targets: *Provided further,* That no United States Armed Forces personnel or United States civilian contractor employed by the United States shall participate in any combat operation in connection with assistance made available by funds provided in this Act for Colombia: *Provided further,* That funds appropriated under this heading that are made available for assistance for the Bolivian military may be made available for such purposes only if the Secretary of State certifies that the Bolivian military is respecting human rights, and civilian judicial authorities are investigating and prosecuting, with the military's cooperation, military personnel who have been implicated in gross violations of human rights: *Provided further,* That of the funds appropriated under this heading, not more than $17,000,000 may be available for administrative expenses of the Department of State, and not more than $7,800,000 may be available, in addition to amounts otherwise available for such purposes, for administrative expenses of the United States Agency for International Development.

MIGRATION AND REFUGEE ASSISTANCE

For expenses, not otherwise provided for, necessary to enable the Secretary of State to provide, as authorized by law, a contribution to the International Committee of the Red Cross, assistance to refugees, including contributions to the International Organization for Migration and the United Nations High Commissioner for Refugees, and other activities to meet refugee and migration needs; salaries and expenses of personnel and dependents as authorized by the Foreign Service Act of 1980; allowances as authorized by sections 5921 through 5925 of title 5, United States Code; purchase and hire of passenger motor vehicles; and services as authorized by section 3109 of title 5, United States Code, $829,900,000, to remain available until expended: *Provided,* That not more than $22,500,000 may be available for administrative expenses: *Provided further,* That not less than $40,000,000 of the funds made available under this heading shall be made available for refugees from the former Soviet Union and Eastern Europe and other refugees resettling in Israel.

UNITED STATES EMERGENCY REFUGEE AND MIGRATION ASSISTANCE FUND

For necessary expenses to carry out the provisions of section 2(c) of the Migration and Refugee Assistance Act of 1962, as amended (22 U.S.C. 2601(c)), $45,000,000, to remain available until expended.

NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS

For necessary expenses for nonproliferation, anti-terrorism, demining and related programs and activities, $467,000,000, to carry out the provisions of chapter 8 of part II of the Foreign Assistance Act of 1961 for anti-terrorism assistance, chapter 9 of part II of the Foreign Assistance Act of 1961, section 504 of the FREEDOM Support Act, section 23 of the Arms Export Control Act or the Foreign Assistance Act of 1961 for demining activities, the clearance of unexploded ordnance, the destruction of small arms, and related activities, notwithstanding any other provision of law, including activities implemented through nongovernmental and international organizations, and section 301 of the Foreign Assistance Act of 1961 for a voluntary contribution to the International Atomic Energy Agency (IAEA), and for a United States contribution to the Comprehensive Nuclear Test Ban Treaty Preparatory Commission: *Provided,* That of this

amount not to exceed $38,000,000, to remain available until expended, may be made available for the Nonproliferation and Disarmament Fund, notwithstanding any other provision of law, to promote bilateral and multilateral activities relating to nonproliferation and disarmament: *Provided further,* That such funds may also be used for such countries other than the Independent States of the former Soviet Union and international organizations when it is in the national security interest of the United States to do so: *Provided further,* That funds appropriated under this heading may be made available for the International Atomic Energy Agency only if the Secretary of State determines (and so reports to the Congress) that Israel is not being denied its right to participate or being otherwise discriminated against in any of the activities of that Agency: *Provided further,* That of the funds made available for demining and related activities, not to exceed $700,000, in addition to funds otherwise available for such purposes, may be used for administrative expenses related to the operation and management of the demining program: *Provided further,* That funds appropriated under this heading that are available for ''Anti-terrorism Assistance'' and ''Export Control and Border Security'' shall remain available until September 30, 2009.

DEPARTMENT OF THE TREASURY

INTERNATIONAL AFFAIRS TECHNICAL ASSISTANCE

For necessary expenses to carry out the provisions of section 129 of the Foreign Assistance Act of 1961, $18,000,000, to remain available until September 30, 2010, which shall be available notwithstanding any other provision of law that restricts assistance to foreign countries.

DEBT RESTRUCTURING

For the cost, as defined in section 502 of the Congressional Budget Act of 1974, of modifying loans and loan guarantees, as the President may determine, for which funds have been appropriated or otherwise made available for programs within the International Affairs Budget Function 150, including the cost of selling, reducing, or canceling amounts owed to the United States as a result of concessional loans made to eligible countries, pursuant to parts IV and V of the Foreign Assistance Act of 1961, of modifying concessional credit agreements with least developed countries, as authorized under section 411 of the Agricultural Trade Development and Assistance Act of 1954, as amended, of concessional loans, guarantees and credit agreements, as authorized under section 572 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1989 (Public Law 100–461), and of canceling amounts owed, as a result of loans or guarantees made pursuant to the Export-Import Bank Act of 1945, by countries that are eligible for debt reduction pursuant to title V of H.R. 3425 as enacted into law by section 1000(a)(5) of Public Law 106–113, $200,300,000, to remain available until September 30, 2010: *Provided,* That not less than $20,000,000 of the funds appropriated under this heading shall be made available to carry out the provisions of part V of the Foreign Assistance Act of 1961: *Provided further,* That amounts paid to the HIPC Trust Fund may be used only to fund debt reduction under the enhanced HIPC initiative by—

(1) the Inter-American Development Bank;

(2) the African Development Fund;

(3) the African Development Bank; and

(4) the Central American Bank for Economic Integration:

Provided further, That funds may not be paid to the HIPC Trust Fund for the benefit of any country if the Secretary of State has credible evidence that the government of such country is engaged in a consistent pattern of gross violations of internationally recognized human rights or in military or civil conflict that undermines its ability to develop and implement measures to alleviate poverty and to devote adequate human and financial resources to that end: *Provided further,* That on the basis of final appropriations, the Secretary of the Treasury shall consult with the Committees on Appropriations concerning which countries and international financial institutions are expected to benefit from a United States contribution to the HIPC Trust Fund during the fiscal year: *Provided further,* That the Secretary of the Treasury shall inform the Committees on Appropriations not less than 15 days in advance of the signature of an agreement by the United States to make payments to the HIPC Trust Fund of amounts for such countries and institutions: *Provided further,* That the Secretary of the Treasury may disburse funds designated for debt reduction through the HIPC Trust Fund only for the benefit of countries that—

(1) have committed, for a period of 24 months, not to accept new market-rate loans from the international financial institution receiving debt repayment as a result of such disbursement, other than loans made by such institutions to export-oriented commercial projects that generate foreign exchange which are generally referred to as ''enclave'' loans; and

(2) have documented and demonstrated their commitment to redirect their budgetary resources from international debt repayments to programs to alleviate poverty and promote economic growth that are additional to or expand upon those previously available for such purposes:

Provided further, That any limitation of subsection (e) of section 411 of the Agricultural Trade Development and Assistance Act of 1954 shall not apply to funds appropriated under this heading: *Provided further,* That none of the funds made available under this heading in this or any other appropriations Act shall be made available for Sudan or Burma unless the Secretary of the Treasury determines and notifies the Committees on Appropriations that a democratically elected government has taken office.

TITLE IV—MILITARY ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

INTERNATIONAL MILITARY EDUCATION AND TRAINING

For necessary expenses to carry out the provisions of section 541 of the Foreign Assistance Act of 1961, $85,076,000, of which up to $3,000,000 may remain available until expended: *Provided,* That funds under this heading shall not be available for Equatorial Guinea: *Provided further,* That funds appropriated under this heading that are made available for assistance for Guatemala, other than for expanded international military education and training, shall be available only for the Guatemalan Air Force, Navy and Army Corps of Engineers: *Provided further,* That assistance provided under this heading for the Guatemalan Army Corps of Engineers is only available for training to improve disaster response capabilities and to participate in international peacekeeping operations: *Provided further,* That funds appropriated under this heading that are made available for assistance for the Guatemalan military, other than for expanded international military education and training, may be made available only if the Secretary of State certifies that the Guatemalan Air Force, Navy and Army Corps of Engineers are respecting human rights, and civilian judicial authorities are investigating and prosecuting, with the military's cooperation, military personnel who have been implicated in gross violations of human rights: *Provided further,* That funds appropriated under this heading for military education and training for Libya and Angola may only be made available for expanded international military education and training: *Provided further,* That the civilian personnel for whom military education and training may be provided under this heading may include civilians who are not members of a government whose participation would contribute to improved civil-military relations, civilian control of the military, or respect for human rights: *Provided further,* That funds made available in the previous proviso and funds made available for Haiti, Libya, Angola, the Democratic Republic of the Congo, Guatemala, and Nigeria may only be provided through the regular notification procedures of the Committees on Appropriations and any such notification shall include a detailed description of the proposed activities: *Provided further,* That the Secretary of State shall submit to the Committees on Appropriations, no later than 60 days after enactment of this Act, a report addressing how the Western Hemisphere Institute for Security Cooperation IMET program for fiscal year 2008 contributes to the promotion of human rights, respect for civilian authority and the rule of law, the establishment of legitimate judicial mechanisms for the military, and achieving the goal of right sizing military forces.

FOREIGN MILITARY FINANCING PROGRAM

For expenses necessary for grants to enable the President to carry out the provisions of section 23 of the Arms Export Control Act, $4,509,236,000: *Provided,* That of the funds appropriated under this heading, not less than $2,400,000,000 shall be available for grants only for Israel, and not less than $1,300,000,000 shall be made available for grants only for Egypt: *Provided further,* That the funds appropriated by this paragraph for Israel shall be disbursed within 30 days of the enactment of this Act: *Provided further,* That to the extent that the Government of Israel requests that funds be used for such purposes, grants made available for Israel by this paragraph shall, as agreed by Israel and the United States, be available for advanced weapons systems, of which not less than $631,200,000 shall be available for the procurement in Israel of defense articles and defense services, including research and development: *Provided further,* That of the funds appropriated by this paragraph, $200,000,000 shall be made available for assistance for Jordan: *Provided further,* That funds appropriated or otherwise made available by this paragraph shall be nonrepayable notwithstanding any requirement in section 23 of the Arms Export Control Act: *Provided further,* That funds made available under this paragraph shall be obligated upon apportionment in accordance with paragraph (5)(C) of title 31, United States Code, section 1501(a): *Provided further,* That $5,000,000 of the funds provided under this heading shall remain available until expended and shall not be subject to the sixth proviso of this paragraph: *Provided further,* That none of the funds appropriated pursuant to the previous proviso shall be made available except pursuant to the regular notification procedures of the Committees on Appropriations.

None of the funds made available under this heading shall be available to finance the procurement of defense articles, defense services, or design and construction services that are not sold by the United States Government under the Arms Export Control Act unless the foreign country proposing to make such procurements has first signed an agreement with the United States Government specifying the conditions under which such procurements may be financed with such funds: *Provided,* That all country and funding level increases in allocations shall be submitted through the regular notification procedures of section 615 of this Act: *Provided further,* That none of the funds appropriated under this heading shall be available for assistance for Sudan: *Provided further,* That none of the funds appropriated under this heading shall be available for assistance for the Guatemalan Army: *Provided further,* That funds appropriated under this heading that are made available for assistance for the Guatemalan military may be made available only if the Secretary of State certifies that (1) the Guatemalan Air Force, Navy and Army Corps of Engineers are respecting human rights; (2) civilian judicial authorities are investigating and prosecuting, with the military's cooperation, military personnel who have been implicated in gross violations of human rights; and (3) the Guatemalan Congress has adopted and the President has signed the International Commission Against Impunity in Guatemala (CICIG): *Provided further,* That none of the funds appropriated under this heading may be made available for assistance for Haiti and Guatemala except pursuant to the regular notification procedures of the Committees on Appropriations: *Provided further,* That funds made available under this heading may be used, notwithstanding any other provision of law, for demining, the clearance of unexploded ordnance, and related activities, and may include activities implemented through nongovernmental and international organizations: *Provided further,* That only those countries for which assistance was justified for the ''Foreign Military Sales Financing Program'' in the fiscal year 1989 congressional presentation for security assistance programs may utilize funds made available under this heading for procurement of defense articles, defense services or design and construction services that are not sold by the United States Government under the Arms Export Control Act: *Provided further,* That funds appropriated under this heading shall be expended at the minimum rate necessary to make timely payment for defense articles and services: *Provided further,* That not more than $41,900,000 of the funds appropriated under this heading may be obligated for necessary expenses, including the purchase of passenger motor vehicles for replacement only for use outside of the United States, for the general costs of administering military assistance and sales: *Provided further,* That not more than $395,000,000 of funds realized pursuant to section 21(e)(1)(A) of the Arms Export Control Act may be obligated for expenses incurred by the Department of Defense during fiscal year 2008 pursuant to section 43(b) of the Arms Export Control Act, except that this limitation may be exceeded only through the regular notification procedures of the Committees on Appropriations: *Provided further,* That foreign military financing program funds estimated to be outlayed for Egypt during fiscal year 2008 shall be transferred to an interest bearing account for Egypt in the Federal Reserve Bank of New York within 30 days of enactment of this Act.

PEACEKEEPING OPERATIONS

For necessary expenses to carry out the provisions of section 551 of the Foreign Assistance Act of 1961, $293,200,000: *Provided,* That none of the funds appropriated under this heading shall be obligated or expended except as provided through the regular notification procedures of the Committees on Appropriations.

□ 1530

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

I yield to the gentleman from Massachusetts (Mr. OLVER) for the purpose of a colloquy.

Mr. OLVER. I thank the gentlewoman for yielding.

Mr. Chairman, I want to thank first of all Chairwoman LOWEY and Ranking Member WOLF for their good work in bringing this good bill to the floor. But I rise today particularly to commend Chairwoman LOWEY, Ranking Member WOLF, and the subcommittee for their efforts to relieve the humanitarian crisis in Darfur. By providing over $200 million for peacekeeping and humanitarian aid to Darfur, this bill will provide desperately needed support for the 2.5 million people driven from Darfur or displaced within Darfur by the Sudanese's deliberate actions.

Yet even as I acknowledge the significant resources that have been included in this bill, I cannot contain my outrage and frustration that the genocide in Darfur continues. Hundreds of villages and small towns have been razed, burned to the ground, and obliterated, the men killed, the women systematically raped, children slaughtered as if they were vermin, survivors fleeing for their lives into the squalor of refugee camps.

A common tactic of this horror has been to stuff the villages' water wells with the bodies of the dead so there will be no water for people who try to return to their ancestral homes.

Just last week, Sudanese President Omar Bashir agreed, yet again, to the deployment of a joint United Nations-African Union peacekeeping force in Darfur. This proposal calls for 20,000 African Union peacekeepers to be led and paid for by the United Nations. President Bashir has apparently offered his unconditional acceptance to the plan.

But do we have any reason to believe that this latest agreement is anything but one more delaying tactic? After all, President Bashir already agreed to a joint U.N.–A.U. peacekeeping force in November only to renege a couple of months later. Each time the international community moves even timidly towards imposing punitive measures against Sudan, President Bashir briefly acquiesces and then promptly resumes his unconscionable obstruction of peacekeeping efforts. How are we to know if this latest concession is any different?

Just last week, activists representing 36 organizations addressed a letter to the U.N. Security General, Ban Ki-moon, decrying the escalating attacks in Darfur and documenting the flight of aid organizations from the region. The conference on Darfur to occur next week in Paris will provide one more opportunity for the United States, France and other nations to join together in outlining tough consequences for Sudanese failure to accept prompt deployment of the twice-agreed-upon U.N.–A.U. peacekeeping force.

We know that the Sudanese Government responds to international pressure, but it must be fierce and sustained if it is to finally end the vicious and senseless slaughter of the people of Darfur.

I would like to ask simply five questions, Mr. Chairman. How many times in this Congress have we and will we congratulate ourselves for passing virtually unanimously powerless resolutions condemning the Bashir regime's actions in Darfur?

Second, Will President Bush build on the study provision in the House-passed Armed Services authorization for fiscal year 2008 to develop a robust base in Chad for the deployment of peacekeeping forces and for the delivery of food and services to the millions of refugees?

Or three, Is this administration so committed to other dealings with Sudan that all of President Bush's statements about the genocide in Darfur are just words?

Four, Why should America participate in the 2008 Olympic Games in China when China repeatedly obstructs U.N. action on Darfur?

Finally, When will America's 4-year demonstrated impotence be perceived as complicity in the horror of Darfur?

It is time to stop the shilly-shallying, stop the attacks on civilians, and bring peace to Darfur. Today as we again provide funding for humanitarian assistance, let us remember that our lack of more effective action will be judged harshly by future generations who will wonder why we didn't act decisively to stop the genocide in Darfur.

Mrs. LOWEY. I thank the gentleman and I appreciate your constancy and your passion on this issue. I know you are aware that our committee put in over $100 million above the President's request to assist the financing of the African Union mission. And I do hope that at some point in the near future we can talk with equal passion about what is being done to address this disaster.

I yield to the gentleman.

Mr. OLVER. I understand and applaud you and the ranking member for that $100 million above the President's request. That is very commendable, but the atrocity and the genocide continue.

Mrs. LOWEY. Absolutely. I thank you very, very much.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

TITLE V—MULTILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

INTERNATIONAL FINANCIAL INSTITUTIONS

GLOBAL ENVIRONMENT FACILITY

For the United States contribution for the Global Environment Facility, $106,763,000 to the International Bank for Reconstruction and Development as trustee for the Global Environment Facility (GEF), by the Secretary of the Treasury, to remain available until expended.

CONTRIBUTION TO THE INTERNATIONAL DEVELOPMENT ASSOCIATION

For payment to the International Development Association by the Secretary of the Treasury, $950,000,000, to remain available until expended.

CONTRIBUTION TO THE ENTERPRISE FOR THE AMERICAS MULTILATERAL INVESTMENT FUND

For payment to the Enterprise for the Americas Multilateral Investment Fund by the Secretary of the Treasury, for the United States contribution to the fund, $25,000,000, to remain available until expended.

CONTRIBUTION TO THE ASIAN DEVELOPMENT FUND

For the United States contribution by the Secretary of the Treasury to the increase in resources of the Asian Development Fund, as authorized by the Asian Development Bank Act, as amended, $115,306,000, to remain available until expended.

CONTRIBUTION TO THE AFRICAN DEVELOPMENT BANK

For payment to the African Development Bank by the Secretary of the Treasury, $2,037,000, for the United States paid-in share of the increase in capital stock, to remain available until expended.

LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the African Development Bank may subscribe without fiscal year limitation for the callable capital portion of the United States share of such capital stock in an amount not to exceed $31,919,000.

CONTRIBUTION TO THE AFRICAN DEVELOPMENT FUND

For the United States contribution by the Secretary of the Treasury to the increase in resources of the African Development Fund, $135,684,000, to remain available until expended.

CONTRIBUTION TO THE INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT

For the United States contribution by the Secretary of the Treasury to increase the resources of the International Fund for Agricultural Development, $18,072,000, to remain available until expended.

INTERNATIONAL ORGANIZATIONS AND PROGRAMS

For necessary expenses to carry out the provisions of section 301 of the Foreign Assistance Act of 1961, and of section 2 of the United Nations Environment Program Participation Act of 1973, $333,400,000: *Provided*, That section 307(a) of the Foreign Assistance Act shall not apply to contributions to the United Nations Democracy Fund.

AMENDMENT OFFERED BY MS. ROS-LEHTINEN

Ms. ROS-LEHTINEN. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Ms. ROS-LEHTINEN:

Page 72, line 5, after the dollar amount, insert the following: ''(increased by $20,000,000) (reduced by $20,000,000)''.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentlewoman from Florida (Ms. ROS-LEHTINEN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Florida.

Ms. ROS-LEHTINEN. Mr. Chairman, I yield myself such time as I may consume.

I want to begin by thanking Chairman LOWEY, Mr. WOLF, Mr. OBEY, and Mr. LEWIS for their great cooperation and working with me to find an acceptable compromise on the important issues in this amendment. I am grateful for their agreement to support the amendment text before us today.

This amendment serves two basic purposes. First, it seeks to restore funding for two initiatives: it restores funding for the U.N. Democracy Fund at the administration's requested $14 million level, which had been zeroed out in the committee report.

The Democracy Fund, an initiative proposed by President Bush in 2004, increases cooperation between democratic countries and supports new and transitional democracies. It has been successful in making grants to programs in more than 100 countries around the world to support civil education, voter registration, access to information, and democratic dialogue.

In recent weeks, I have been working with the chairman of Foreign Affairs, Chairman LANTOS, and his staff to ensure that a $14 million authorization for the Democracy Fund stays intact in preconference meetings with the Senate on H.R. 1 and H.R. 982, the Advanced Democracy Act.

I am glad that this amendment provides us with another opportunity to continue our bipartisan support for this critical work. The amendment also would restore $6 million out of the $10 million requested by the administration for the U.N. Innovation and Entrepreneurship Initiative.

This initiative, modeled on the Democracy Fund, is designed as a voluntarily funded, freestanding trust that will make technical assistance grants to promote positive environments for business and innovation around the world.

Second, in addition to restoring those deleted funds, this amendment will strike $20 million from the proposed U.S. contributions to the U.N. Development Program. The past 6 months have brought a series of very serious revelations and questions about the UNDP activities in North Korea, Mr. Chairman, a rogue regime under sanctions by the U.N. Security Council.

While we appreciate the fact that the program has been terminated in North Korea, there has not been sufficient investigation and cooperation from UNDP in answering questions that bear on the fundamental issues that are of national security interest to the United States.

The $20 million cut proposed in my amendment will send a clear signal about our demands and expectations for greater transparency and accountability from the United Nations Development Program while also continuing to make a substantial contribution to UNDP's core programs.

Again I thank my colleagues for their bipartisan support for this important amendment.

Mrs. LOWEY. Would the gentlelady yield?

Ms. ROS-LEHTINEN. I yield to the chairwoman.

Mrs. LOWEY. I understand the intent of this amendment, and we have worked to craft an amendment we both can accept.

As you know, I believe that the United Nations Development Program is a key partner in our efforts to address global poverty. Their programs work to spread democracy, to address global HIV/AIDS, to improve the environment, and to respond to natural disasters and crises. All of these programs are critically important and they are working.

Because of their broad mandate, they often work under very difficult circumstances, and it is their work in North Korea that has led to the recent allegations of inadequate controls on funds to North Korea. These are serious concerns and need to be addressed.

However, I want to point out to my colleagues that UNDP has reacted swiftly to these concerns by suspending its program and closing the office in North Korea. In addition, UNDP is working with its executive board to put new accountability and transparency measures in place.

In light of congressional concerns that have been raised on both sides of the aisle, I worked with the gentlelady to negotiate this agreement which reduces UNDP resources in order to provide support to the U.N. Democracy Fund and the U.N. Entrepreneurship Fund. I appreciate the gentlewoman's interest in this issue and accept her amendment.

Ms. ROS-LEHTINEN. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentlewoman from Florida (Ms. ROS-LEHTINEN).

The amendment was agreed to.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I yield to the gentleman from Virginia (Mr. MORAN).

Mr. MORAN of Virginia. Mr. Chairman, I thank the chairwoman of the subcommittee, and I want to express my support for the bill and express my

appreciation specifically for the significant increases in funding for global health issues, peacekeeping, and trade capacity building, especially in Colombia. And I know that the chairlady shares the frustration that was articulated by the preceding speaker, Mr. OLVER, on Darfur. We wish we could do far more than we are able to on the horrific situation in Darfur.

□ 1545

But I also want to express my support for the work of an international nongovernmental organization, the International Commission on Missing Persons, otherwise known as the ICMP. The ICMP is an organization whose work in Bosnia, Iraq, Vietnam and the tsunami-affected areas has brought relief to thousands of families with missing relatives resulting from armed conflict and natural disaster. This commission, which was established in 1996 from the Dayton Peace Accords, has received U.S. Government support in the past and is widely acclaimed throughout the international community. But is in desperate need of funds in Iraq today.

I would strongly urge the committee to consider this organization for possible congressional support in this year's conference or in future appropriations.

Mrs. LOWEY. I thank the gentleman for his passion. I know you're concerned with so many issues in this bill. I appreciate your comments and I look forward to continue working together.

Mr. MORAN of Virginia. I thank the gentlelady for her support.

Mrs. LOWEY. Mr. Chairman, I ask unanimous consent that the bill, through page 95, line 9, be considered as read, printed in the RECORD, and open to amendment at any point.

The CHAIRMAN. Is there objection to the request of the gentlewoman from New York?

There was no objection.

The text of that portion of the bill is as follows:

TITLE VI—GENERAL PROVISIONS

COMPENSATION FOR UNITED STATES EXECUTIVE DIRECTORS TO INTERNATIONAL FINANCIAL INSTITUTIONS

SEC. 601. (a) No funds appropriated by this Act may be made as payment to any international financial institution while the United States Executive Director to such institution is compensated by the institution at a rate which, together with whatever compensation such Director receives from the United States, is in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while any alternate United States Director to such institution is compensated by the institution at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

(b) For purposes of this section ''international financial institutions'' are: the International Bank for Reconstruction and Development, the Inter-American Development Bank, the Asian Development Bank, the Asian Development Fund, the African Development Bank, the African Development Fund, the International Monetary Fund, the North American Development Bank, and the European Bank for Reconstruction and Development.

RESTRICTIONS ON VOLUNTARY CONTRIBUTIONS TO UNITED NATIONS AGENCIES

SEC. 602. None of the funds appropriated by this Act may be made available to pay any voluntary contribution of the United States to the United Nations if the United Nations implements or imposes any taxation on any United States persons.

LIMITATION ON RESIDENCE EXPENSES

SEC. 603. Of the funds appropriated or made available pursuant to title III of this Act, not to exceed $100,500 shall be for official residence expenses of the United States Agency for International Development during the current fiscal year: *Provided*, That appropriate steps shall be taken to assure that, to the maximum extent possible, United States-owned foreign currencies are utilized in lieu of dollars.

UNOBLIGATED BALANCES REPORT

SEC. 604. Any Department or Agency to which funds are appropriated or otherwise made available by this Act shall provide to the Committees on Appropriations a quarterly accounting of cumulative balances by program, project, and activity of the funds received by such Department or Agency in this fiscal year or any previous fiscal year that remain unobligated and unexpended.

LIMITATION ON REPRESENTATIONAL ALLOWANCES

SEC. 605. Of the funds appropriated or made available pursuant to titles II through V of this Act, not to exceed $250,000 shall be available for representation and entertainment allowances, of which not to exceed $2,500 shall be available for entertainment allowances, for the United States Agency for International Development during the current fiscal year: *Provided*, That no such entertainment funds may be used for the purposes listed in section 647 of this Act: *Provided further*, That appropriate steps shall be taken to assure that, to the maximum extent possible, United States-owned foreign currencies are utilized in lieu of dollars: *Provided further*, That of the funds made available by this Act for general costs of administering military assistance and sales under the heading ''Foreign Military Financing Program'', not to exceed $4,000 shall be available for entertainment expenses and not to exceed $130,000 shall be available for representation allowances: *Provided further*, That of the funds made available by this Act under the heading ''International Military Education and Training'', not to exceed $55,000 shall be available for entertainment allowances: *Provided further*, That of the funds made available by this Act for the Inter-American Foundation, not to exceed $2,000 shall be available for entertainment and representation allowances: *Provided further*, That of the funds made available by this Act for the Peace Corps, not to exceed a total of $4,000 shall be available for entertainment expenses: *Provided further*, That of the funds made available by this Act under the heading ''Trade and Development Agency'', not to exceed $4,000 shall be available for representation and entertainment allowances: *Provided further*, That of the funds made available by this Act under the heading ''Millennium Challenge Corporation'', not to exceed $115,000 shall be available for representation and entertainment allowances.

PROHIBITION ON TAXATION OF UNITED STATES ASSISTANCE

SEC. 606. (a) PROHIBITION ON TAXATION.—None of the funds appropriated under titles II through V of this Act may be made available to provide assistance for a foreign country under a new bilateral agreement governing the terms and conditions under which such assistance is to be provided unless such agreement includes a provision stating that assistance provided by the United States shall be exempt from taxation, or reimbursed, by the foreign government, and the Secretary of State shall expeditiously seek to negotiate amendments to existing bilateral agreements, as necessary, to conform with this requirement.

(b) REIMBURSEMENT OF FOREIGN TAXES.—An amount equivalent to 200 percent of the total taxes assessed during fiscal year 2008 on funds appropriated by this Act by a foreign government or entity against commodities financed under United States assistance programs for which funds are appropriated by this Act, either directly or through grantees, contractors and subcontractors shall be withheld from obligation from funds appropriated for assistance for fiscal year 2009 and allocated for the central government of such country and for the West Bank and Gaza Program to the extent that the Secretary of State certifies and reports in writing to the Committees on Appropriations that such taxes have not been reimbursed to the Government of the United States.

(c) DE MINIMIS EXCEPTION.—Foreign taxes of a de minimis nature shall not be subject to the provisions of subsection (b).

(d) REPROGRAMMING OF FUNDS.—Funds withheld from obligation for each country or entity pursuant to subsection (b) shall be reprogrammed for assistance to countries which do not assess taxes on United States assistance or which have an effective arrangement that is providing substantial reimbursement of such taxes.

(e) DETERMINATIONS.—

(1) The provisions of this section shall not apply to any country or entity the Secretary of State determines—

(A) does not assess taxes on United States assistance or which has an effective arrangement that is providing substantial reimbursement of such taxes; or

(B) the foreign policy interests of the United States outweigh the policy of this section to ensure that United States assistance is not subject to taxation.

(2) The Secretary of State shall consult with the Committees on Appropriations at least 15 days prior to exercising the authority of this subsection with regard to any country or entity.

(f) IMPLEMENTATION.—The Secretary of State shall issue rules, regulations, or policy guidance, as appropriate, to implement the prohibition against the taxation of assistance contained in this section.

(g) DEFINITIONS.—As used in this section—

(1) the terms ''taxes'' and ''taxation'' refer to value added taxes and customs duties imposed on commodities financed with United States assistance for programs for which funds are appropriated by this Act; and

(2) the term ''bilateral agreement'' refers to a framework bilateral agreement between the Government of the United States and the

government of the country receiving assistance that describes the privileges and immunities applicable to United States foreign assistance for such country generally, or an individual agreement between the Government of the United States and such government that describes, among other things, the treatment for tax purposes that will be accorded the United States assistance provided under that agreement.

PROHIBITION AGAINST DIRECT FUNDING FOR CERTAIN COUNTRIES

SEC. 607. None of the funds appropriated or otherwise made available pursuant to this Act shall be obligated or expended to finance directly any assistance or reparations to Cuba, Libya, North Korea, Iran, or Syria: *Provided*, That for purposes of this section, the prohibition on obligations or expenditures shall include direct loans, credits, insurance and guarantees of the Export-Import Bank or its agents: *Provided further*, That for purposes of this section, the prohibition shall not include activities of the Overseas Private Investment Corporation in Libya: *Provided further*, That the prohibition shall not include direct loans, credits, insurance and guarantees made available by the Export-Import Bank or its agents for or in Libya: *Provided further*, That the prohibition shall not apply to funds made available under the heading ''INTERNATIONAL MILITARY EDUCATION AND TRAINING'' for Libya.

MILITARY COUPS

SEC. 608. None of the funds appropriated or otherwise made available pursuant to titles II through V of this Act shall be obligated or expended to finance directly any assistance to the government of any country whose duly elected head of government is deposed by military coup or decree: *Provided*, That assistance may be resumed to such government if the President determines and certifies to the Committees on Appropriations that subsequent to the termination of assistance a democratically elected government has taken office: *Provided further*, That the provisions of this section shall not apply to assistance to promote democratic elections or public participation in democratic processes: *Provided further*, That funds made available pursuant to the previous provisos shall be subject to the regular notification procedures of the Committees on Appropriations.

TRANSFER AUTHORITY

SEC. 609. (a) DEPARTMENT OF STATE AND BROADCASTING BOARD OF GOVERNORS.—Not to exceed 5 percent of any appropriation made available for the current fiscal year for the Department of State under title I of this Act may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfers: *Provided*, That not to exceed 5 percent of any appropriation made available for the current fiscal year for the Broadcasting Board of Governors under title I of this Act may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfers: *Provided further*, That any transfer pursuant to this section shall be treated as a reprogramming of funds under section 615 (a) and (b) of this Act and shall not be available for obligation or expenditure except in compliance with the procedures set forth in that section.

(b) EXPORT FINANCING TRANSFER AUTHORITIES.—Not to exceed 5 percent of any appropriation other than for administrative expenses made available for fiscal year 2008, for programs under title II of this Act may be transferred between such appropriations for use for any of the purposes, programs, and activities for which the funds in such receiving account may be used, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 25 percent by any such transfer: *Provided*, That the exercise of such authority shall be subject to the regular notification procedures of the Committees on Appropriations.

(c)(1) LIMITATION ON TRANSFERS BETWEEN AGENCIES.—None of the funds made available under titles II through V of this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to a transfer made by, or transfer authority provided in, this Act or any other appropriation Act.

(2) Notwithstanding paragraph (1), in addition to transfers made by, or authorized elsewhere in, this Act, funds appropriated by this Act to carry out the purposes of the Foreign Assistance Act of 1961 may be allocated or transferred to agencies of the United States Government pursuant to the provisions of sections 109, 610, and 632 of the Foreign Assistance Act of 1961.

(d) TRANSFERS BETWEEN ACCOUNTS.—None of the funds made available under titles II through V of this Act may be obligated under an appropriation account to which they were not appropriated, except for transfers specifically provided for in this Act, unless the President, not less than 5 days prior to the exercise of any authority contained in the Foreign Assistance Act of 1961 to transfer funds, consults with and provides a written policy justification to the Committees on Appropriations.

(e) AUDIT OF INTER-AGENCY TRANSFERS.—Any agreement for the transfer or allocation of funds appropriated by this Act, or prior Acts, entered into between the United States Agency for International Development and another agency of the United States Government under the authority of section 632(a) of the Foreign Assistance Act of 1961 or any comparable provision of law, shall expressly provide that the Office of the Inspector General for the agency receiving the transfer or allocation of such funds shall perform periodic program and financial audits of the use of such funds: *Provided*, That funds transferred under such authority may be made available for the cost of such audits.

COMMERCIAL LEASING OF DEFENSE ARTICLES

SEC. 610. Notwithstanding any other provision of law, and subject to the regular notification procedures of the Committees on Appropriations, the authority of section 23(a) of the Arms Export Control Act may be used to provide financing to Israel, Egypt and NATO and major non-NATO allies for the procurement by leasing (including leasing with an option to purchase) of defense articles from United States commercial suppliers, not including Major Defense Equipment (other than helicopters and other types of aircraft having possible civilian application), if the President determines that there are compelling foreign policy or national security reasons for those defense articles being provided by commercial lease rather than by government-to-government sale under such Act.

AVAILABILITY OF FUNDS

SEC. 611. (a) No part of any appropriation contained in this Act shall remain available for obligation after the expiration of the current fiscal year unless expressly so provided in this Act.

(b) Funds appropriated for the purposes of chapters 1, 8, 11, and 12 of part I, section 667, chapters 4, 5, 6, 8, and 9 of part II of the Foreign Assistance Act of 1961, section 23 of the Arms Export Control Act, and funds provided under the heading ''ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES'', shall remain available for an additional four years from the date on which the availability of such funds would otherwise have expired, if such funds are initially obligated before the expiration of their respective periods of availability contained in this Act: *Provided*, That, notwithstanding any other provision of this Act, any funds made available for the purposes of chapter 1 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961 which are allocated or obligated for cash disbursements in order to address balance of payments or economic policy reform objectives, shall remain available until expended.

LIMITATION ON ASSISTANCE TO COUNTRIES IN DEFAULT

SEC. 612. No part of any appropriation provided under titles II through V in this Act shall be used to furnish assistance to the government of any country which is in default during a period in excess of one calendar year in payment to the United States of principal or interest on any loan made to the government of such country by the United States pursuant to a program for which funds are appropriated under this Act unless the President determines, following consultations with the Committees on Appropriations, that assistance to such country is in the national interest of the United States.

COMMERCE AND TRADE

SEC. 613. (a) None of the funds appropriated or made available pursuant to titles II through V of this Act for direct assistance and none of the funds otherwise made available to the Export-Import Bank and the Overseas Private Investment Corporation shall be obligated or expended to finance any loan, any assistance or any other financial commitments for establishing or expanding production of any commodity for export by any country other than the United States, if the commodity is likely to be in surplus on world markets at the time the resulting productive capacity is expected to become operative and if the assistance will cause substantial injury to United States producers of the same, similar, or competing commodity: *Provided*, That such prohibition shall not apply to the Export-Import Bank if in the judgment of its Board of Directors the benefits to industry and employment in the United States are likely to outweigh the injury to United States producers of the same, similar, or competing commodity, and the Chairman of the Board so notifies the Committees on Appropriations.

(b) None of the funds appropriated by this or any other Act to carry out chapter 1 of part I of the Foreign Assistance Act of 1961 shall be available for any testing or breeding feasibility study, variety improvement or introduction, consultancy, publication, conference, or training in connection with the growth or production in a foreign country of an agricultural commodity for export which would compete with a similar commodity grown or produced in the United States: *Provided*, That this subsection shall not prohibit—

(1) activities designed to increase food security in developing countries where such activities will not have a significant impact on the export of agricultural commodities of the United States; or

(2) research activities intended primarily to benefit American producers.

SURPLUS COMMODITIES

SEC. 614. The Secretary of the Treasury shall instruct the United States Executive Directors of the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation, the Inter-American Development Bank, the International Monetary Fund, the Asian Development Bank, the Inter-American Investment Corporation, the North American Development Bank, the European Bank for Reconstruction and Development, the African Development Bank, and the African Development Fund to use the voice and vote of the United States to oppose any assistance by these institutions, using funds appropriated or made available pursuant to titles II through V of this Act, for the production or extraction of any commodity or mineral for export, if it is in surplus on world markets and if the assistance will cause substantial injury to United States producers of the same, similar, or competing commodity.

REPROGRAMMING NOTIFICATION REQUIREMENTS

SEC. 615. (a) None of the funds made available in this Act, or in prior appropriations Acts to the agencies and departments funded by this Act that remain available for obligation or expenditure in fiscal year 2008, or provided from any accounts in the Treasury of the United States derived by the collection of fees or of currency reflows or other offsetting collections, or made available by transfer, to the agencies and departments funded by this Act, shall be available for obligation or expenditure through a reprogramming of funds that: (1) creates new programs; (2) eliminates a program, project, or activity; (3) increases funds or personnel by any means for any project or activity for which funds have been denied or restricted; (4) relocates an office or employees; (5) closes or opens a mission or post; (6) reorganizes or renames offices; (7) reorganizes programs or activities; or (8) contracts out or privatizes any functions or activities presently performed by Federal employees; unless the Committees on Appropriations are notified 15 days in advance of such reprogramming of funds.

(b) For the purposes of providing the executive branch with the necessary administrative flexibility, none of the funds provided under title I of this Act, or provided under previous appropriations Acts to the agencies or department funded under title I of this Act that remain available for obligation or expenditure in fiscal year 2008, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agencies or department funded by title I of this Act, shall be available for obligation or expenditure for activities, programs, or projects through a reprogramming of funds in excess of $750,000 or ten percent, whichever is less, that: (1) augments existing programs, projects, or activities; (2) reduces by 10 percent funding for any existing program, project, or activity, or numbers of personnel by ten percent as approved by Congress; or (3) results from any general savings, including savings from a reduction in personnel, which would result in a change in existing programs, activities, or projects as approved by Congress; unless the Committees on Appropriations are notified 15 days in advance of such reprogramming of funds.

(c) For the purposes of providing the executive branch with the necessary administrative flexibility, none of the funds made available in this Act for the headings ''CHILD SURVIVAL AND HEALTH PROGRAMS FUND'', ''DEVELOPMENT ASSISTANCE'', ''INTERNATIONAL ORGANIZATIONS AND PROGRAMS'', ''TRADE AND DEVELOPMENT AGENCY'', ''INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT'', ''ANDEAN COUNTERDRUG INITIATIVE'', ''ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES'', ''ASSISTANCE FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION'', ''ECONOMIC SUPPORT FUND'', ''GLOBAL HIV/AIDS INITIATIVE'', ''PEACEKEEPING OPERATIONS'', ''CAPITAL INVESTMENT FUND'', ''OPERATING EXPENSES OF THE UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT'', ''OPERATING EXPENSES OF THE UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT OFFICE OF INSPECTOR GENERAL'', ''NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS'', ''MILLENNIUM CHALLENGE CORPORATION'' (by country only), ''FOREIGN MILITARY FINANCING PROGRAM'', ''INTERNATIONAL MILITARY EDUCATION AND TRAINING'', ''PEACE CORPS'', and ''MIGRATION AND REFUGEE ASSISTANCE'', shall be available for obligation for activities, programs, projects, type of materiel assistance, countries, or other operations not justified or in excess of the amount justified to the Committees on Appropriations for obligation under any of these specific headings unless the Committees on Appropriations are notified 15 days in advance: *Provided*, That the President shall not enter into any commitment of funds appropriated for the purposes of section 23 of the Arms Export Control Act for the provision of major defense equipment, other than conventional ammunition, or other major defense items defined to be aircraft, ships, missiles, or combat vehicles, not previously justified to Congress or 20 percent in excess of the quantities justified to Congress unless the Committees on Appropriations are notified 15 days in advance of such commitment: *Provided further*, That this paragraph shall not apply to any reprogramming for an activity, program, or project for which funds are appropriated under title III or title IV, of this Act of less than 10 percent of the amount previously justified to the Congress for obligation for such activity, program, or project for the current fiscal year.

(d) The requirements of this section or any similar provision of this Act or any other Act, including any prior Act requiring notification in accordance with the regular notification procedures of the Committees on Appropriations, may be waived if failure to do so would pose a substantial risk to human health or welfare: *Provided*, That in case of any such waiver, notification to the Congress, or the appropriate Congressional committees, shall be provided as early as practicable, but in no event later than 3 days after taking the action to which such notification requirement was applicable, in the context of the circumstances necessitating such waiver: *Provided further*, That any notification provided pursuant to such a waiver shall contain an explanation of the emergency circumstances.

LIMITATION ON AVAILABILITY OF FUNDS FOR INTERNATIONAL ORGANIZATIONS AND PROGRAMS

SEC. 616. Subject to the regular notification procedures of the Committees on Appropriations, funds appropriated under titles II through V of this Act or any previously enacted Act making appropriations for foreign operations, export financing, and related programs, which are returned or not made available for organizations and programs because of the implementation of section 307(a) of the Foreign Assistance Act of 1961, shall remain available for obligation until September 30, 2009.

INDEPENDENT STATES OF THE FORMER SOVIET UNION

SEC. 617. (a) None of the funds appropriated under the heading ''ASSISTANCE FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION'' shall be made available for assistance for a government of an Independent State of the former Soviet Union if that government directs any action in violation of the territorial integrity or national sovereignty of any other Independent State of the former Soviet Union, such as those violations included in the Helsinki Final Act: *Provided*, That such funds may be made available without regard to the restriction in this subsection if the President determines that to do so is in the national security interest of the United States.

(b) None of the funds appropriated under the heading ''ASSISTANCE FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION'' shall be made available for any state to enhance its military capability: *Provided*, That this restriction does not apply to demilitarization, demining or nonproliferation programs.

(c) Funds appropriated under the heading ''ASSISTANCE FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION'' for the Russian Federation, Armenia, and Uzbekistan shall be subject to the regular notification procedures of the Committees on Appropriations.

(d) Funds made available in this Act for assistance for the Independent States of the former Soviet Union shall be subject to the provisions of section 117 (relating to environment and natural resources) of the Foreign Assistance Act of 1961.

(e) In issuing new task orders, entering into contracts, or making grants, with funds appropriated by this Act or prior appropriations Acts under the heading ''ASSISTANCE FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION'' and under comparable headings in prior appropriations Acts, for projects or activities that have as one of their primary purposes the fostering of private sector development, the Coordinator for United States Assistance to Europe and Eurasia and the implementing agency shall encourage the participation of and give significant weight to contractors and grantees who propose investing a significant amount of their own resources (including volunteer services and in-kind contributions) in such projects and activities.

PROHIBITION ON FUNDING FOR ABORTIONS AND INVOLUNTARY STERILIZATION

SEC. 618. None of the funds made available to carry out part I of the Foreign Assistance Act of 1961, as amended, may be used to pay for the performance of abortions as a method of family planning or to motivate or coerce any person to practice abortions. None of the funds made available to carry out part I of the Foreign Assistance Act of 1961, as amended, may be used to pay for the performance of involuntary sterilization as a method of family planning or to coerce or provide any financial incentive to any person to undergo sterilizations. None of the funds made available to carry out part I of the Foreign Assistance Act of 1961, as amended, may be used to pay for any biomedical research which relates in whole or in part, to

methods of, or the performance of, abortions or involuntary sterilization as a means of family planning. None of the funds made available to carry out part I of the Foreign Assistance Act of 1961, as amended, may be obligated or expended for any country or organization if the President certifies that the use of these funds by any such country or organization would violate any of the above provisions related to abortions and involuntary sterilizations.

STATEMENT

SEC. 619. (a) Funds provided in this Act for the following accounts shall be made available for programs and countries in the amounts contained in the respective tables included in the report accompanying this Act:

''ECONOMIC SUPPORT FUND'';

''ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES'';

''ASSISTANCE FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION'';

''ANDEAN COUNTERDRUG INITIATIVE'';

''NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS'';

''FOREIGN MILITARY FINANCING PROGRAM''; and

''INTERNATIONAL ORGANIZATIONS AND PROGRAMS''.

(b) Any proposed increases or decreases to the amounts contained in such tables in the accompanying report shall be subject to the regular notification procedures of the Committees on Appropriations and section 634A of the Foreign Assistance Act of 1961.

SPECIAL NOTIFICATION REQUIREMENTS

SEC. 620. None of the funds appropriated under titles II through V of this Act shall be obligated or expended for assistance for Liberia, Serbia, Sudan, Zimbabwe, Pakistan, or Cambodia except as provided through the regular notification procedures of the Committees on Appropriations.

AMENDMENT OFFERED BY MS. MOORE OF WISCONSIN

Ms. MOORE of Wisconsin. Mr. Chairman, I have an amendment at the desk.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Ms. MOORE of Wisconsin:

In section 620 of the bill (relating to special notification requirements), strike ''Liberia,''.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentlewoman from Wisconsin (Ms. MOORE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Wisconsin.

Ms. MOORE of Wisconsin. Thank you, Mr. Chairman.

My amendment would repeal a section of U.S. law that requires a report to Congress 15 days before any U.S. assistance can be obligated for Liberia. The obligating agency, whether State or USAID, would be required to submit this paperwork in addition to information they may have already provided in their annual budget documents.

I should note that the only other countries that are currently subjected to this requirement are Sudan, Zimbabwe, Serbia, Pakistan and Cambodia.

Mr. Chairman, as you and many of my colleagues know, for over 20 years, the people of Liberia have been subjected to the ravages of poverty, conflict, coups, and corruption. As one observer put it, ''seldom has a country sunk as far as Liberia did under the leadership of Charles Taylor and his predecessors.'' I do think I need to recount the number of casualties from wars, including the last civil war which only a few years ago with the assistance of U.S. leadership, which killed a quarter of a million of the country's 3 million people and displaced most of the rest.

In 2005, the people of the Republic of Liberia had the opportunity to go to the polls, some lining up for many hours, and open a new chapter in that country's tortuous history. When it was all said and done, Ellen Johnson-Sirleaf was elected President, becoming the first female president of any African country. In recognition of this historic election and the tremendous opportunity presented by these elections, last March, the House welcomed President Johnson-Sirleaf on her visit to the U.S. during which she addressed Congress, the U.N. Security Council, and met with President Bush.

In the year and a half since then, President Johnson-Sirleaf has been busy trying to rebuild the nation's education and health system, devastated by years of war, oversee the deactivation and reintegration of the old security forces and ex-combatants, and accommodate the return of thousands who fled the country during the wars.

Today, I am offering a very small and simple amendment which I believe would help make a difference in helping President Johnson-Sirleaf succeed in the monumental task—and it is monumental—that lays before her.

My amendment would repeal a section of U.S. law that requires a report to Congress 15 days before any U.S. assistance can be obligated for Liberia for any purpose. The obligating agency (whether State or USAID) must submit paperwork for all obligated funds in addition to any information they may have already provided to Congress about these projects in the annual budget documents. I should note the only other countries that are currently subjected to this requirement are Sudan, Zimbabwe, Serbia, Pakistan, and Cambodia.

According to State Department and USAID officials, such requirements impose reporting, program review, and other requirements that, in some cases, substantially slow the disbursement of reconstruction assistance to Liberia. This requirement was placed on Liberia funds beginning in the early 1990's and were put in place to give Congress the ability to exercise additional oversight when the ruthless and corrupt Charles Taylor and his predecessors ran Liberia and when U.S. assistance was relatively small. From 1996–2003, U.S. assistance ranged from $3 to $6 million.

As you know, in light of the recent elections and optimism about the future of Liberia, Congress in the last few years has significantly increased U.S. assistance to Liberia. However, some have expressed concerns, including President Johnson Sirleaf, that the current laws notification requirements are delaying the receipt of these funds for important projects to help rebuild Liberia as it emerges from conflict. According to the State Department, these delays can be as long as 4 to 6 weeks and dependent on the Appropriations Committee being available to receive them—such as in the middle of the August recess. Given Liberia's 6-month rainy season (May to October) when much work cannot be done on many projects, these delays could push projects on the ground much farther behind schedule in reality.

My amendment would prevent U.S. assistance from Liberia from being subjected to these additional reporting requirements in FY 2008. The State Department supports removing Liberia, noting that it will speed up the obligation of U.S. funds to this important country. The State Department notes, as do I, that these reporting requirements have outlived their usefulness with respect to Liberia. In the past, when we were dealing with the regime of Charles Taylor, they were absolutely useful and necessary.

Today, as Congress continues to express its support to President Johnson-Sirleaf and the people of Liberia, including $100 million more in aid in the bill before the House, let us support efforts to speed up—and likewise remove obstacles that would hinder—the establishment in Liberia of social and economic conditions that foster reintegration, economic growth, and rebuilding of infrastructure—including access to basic education and health services.

In these crucial but surprisingly fast moving first few months of President Sirleaf Johnson's administration, it is critical that we not only support her with words of encouragement, but remove bureaucratic obstacles that help prevent needed aid from being timely delivered to implement reforms and show that a democratically elected government can meet the people's needs.

Removal of Liberia would not set a new precedent. Over the years. the following countries have been under and then removed from this reporting requirement: Somalia, Democratic Republic of Congo, Haiti, Colombia, Panama, Peru, Nicaragua, Jordan, and Uganda, just to name a few. It can hardly be argued that Congress exercises less oversight over assistance to those countries now than it did when they were subject to the obligation reporting requirement. Additionally, the FY 2006 Foreign Operations Appropriations bill that was passed by the House removed Liberia from this provision.

Why would we want to delay development assistance such as education funds to a country where more than half of the people today cannot read or write? Where male life expectancy at birth is slightly under 38 years and for females, slightly under 42 years. Infant mortality: 157 infants per 1,000 live births die before there first birthday.

I certainly appreciate the need for Congress to retain and exercise oversight over these funds to ensure that they are being properly used, just as we do with the other nations receiving under this bill. Indeed, most of the countries receiving funding in this bill are not subjected to this reporting requirement. Once removed from these requires, the same regular Congressional Notification process would

apply to Liberia that applies to all other countries.

Let me be clear. Removing this requirement does not mean that Liberia is somehow a perfect country without problems or challenges. In fact, removing this requirement would recognize those challenges and serve to remove one more obstacle to ensure that this country and its new leaders have every opportunity to succeed.

As President Sirleaf-Johnson said in her address before Congress last March: ''They (the Liberian people) are counting on me and my administration to create the conditions that will guarantee the realization of their dreams. We must not betray their trust. All the children I meet, when I ask what they want most, say, 'I want to learn.' 'I want to go to school.' 'I want an education.' We must not betray their trust.''

I know that the gentlewoman from New York, the chairperson of the subcommittee, Ms. LOWEY has been keenly aware of this issue. I certainly appreciate the efforts made by her, her staff, and Members of the Committee as they put together this very important bill and note the Committee's appropriate role in oversight and ensuring that funds are properly spent.

I would like to yield to the distinguished gentleman from North Carolina, Mr. DAVID PRICE, for 2 minutes.

Mr. PRICE of North Carolina. Mr. Chairman, I rise in support of Representative MOORE's amendment striking the requirement of congressional notification for foreign assistance to Liberia.

I joined Ms. MOORE on a recent delegation to Liberia under the auspices of the House Democracy Assistance Commission, which has an ongoing partnership with the Liberian Congress. We are working to support the new democratic government in Liberia, under the leadership of President Ellen Johnson Sirleaf, a government that is attempting to lift Liberia from the wreckage of its recent history of civil war and dictatorship.

We met with President Sirleaf, and she told us that the window of opportunity for this democratic government to demonstrate progress is brief. Liberia is facing enormous challenges: intractable poverty, an unemployment rate of 85 percent, crumbling infrastructure, and a public health crisis. The Liberian government simply must find a way to deliver significant advances if it is to convince its citizens that democracy is a viable option.

Our foreign assistance is critical to helping President Sirleaf show rapid progress. It is supporting the development of the economy, the strengthening of the government, the provision of basic services like electricity, and the reintegration of civil war combatants into productive roles in society.

But the biggest hindrance to our assistance efforts in Liberia is an outdated notification requirement that sets up a series of bureaucratic hurdles, delaying the delivery of our aid, often by several months. With time so critical in accomplishing progress, we cannot afford these delays. I urge my colleagues to support Representative MOORE's well-designed and well-considered amendment to eliminate this outdated requirement and to give Liberia the chance it deserves to succeed.

Ms. MOORE of Wisconsin. Thank you so much, sir.

I just want to acknowledge that this administration has done a great deal for Liberia. Certainly Chairwoman LOWEY has been exceptional. Liberia is a huge priority for her. I noted that my colleague, Ms. SHEILA JACKSON-LEE, earlier, Mr. Chairman, added money to this bill, and as my colleague, Mr. PRICE, has said, this will make or break, I think, this administration that we are all so hopeful of the beautiful democracy that is budding in Liberia. This would be a precedent-setting form of assistance that will cost us no extra money.

Thank you so much.

I yield to the gentlewoman from New York.

Mrs. LOWEY. Mr. Chairman, I rise in support of this amendment. I agree with the intention of this amendment and thank my friend for raising this very important issue. As you know, the subcommittee agrees with you that Liberia should be a priority. We support the efforts currently under way by President Johnson Sirleaf to move her country out of poverty. We provided a total of $40 million in the fiscal year 2007 supplemental and in this bill we provide a total of $106.5 million for Liberia.

We look forward to continuing to work with the gentlewoman and others in Congress to support Liberia. I appreciate the gentlewoman's interest in this issue and would be happy to accept this amendment.

Ms. MOORE of Wisconsin. Thank you so much.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentlewoman from Wisconsin (Ms. MOORE).

The amendment was agreed to.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

SEC. 621. For the purpose of titles II through V of this Act ''program, project, and activity'' shall be defined at the appropriations Act account level and shall include all appropriations and authorizations Acts funding directives, ceilings, and limitations with the exception that for the following accounts: ''ECONOMIC SUPPORT FUND'' and ''FOREIGN MILITARY FINANCING PROGRAM'', ''program, project, and activity'' shall also be considered to include country, regional, and central program level funding within each such account; for the development assistance accounts of the United States Agency for International Development ''program, project, and activity'' shall also be considered to include central, country, regional, and program level funding, either as:

(1) justified to the Congress; or

(2) allocated by the executive branch in accordance with a report, to be provided to the Committees on Appropriations within 30 days of the enactment of this Act, as required by section 653(a) of the Foreign Assistance Act of 1961.

CHILD SURVIVAL AND HEALTH ACTIVITIES

SEC. 622. Up to $13,500,000 of the funds made available by this Act in title III for assistance under the heading ''CHILD SURVIVAL AND HEALTH PROGRAMS FUND'' account, may be used to reimburse United States Government agencies, agencies of State governments, institutions of higher learning, and private and voluntary organizations for the full cost of individuals (including for the personal services of such individuals) detailed or assigned to, or contracted by, as the case may be, the United States Agency for International Development for the purpose of carrying out activities under that heading: *Provided,* That up to $3,500,000 of the funds made available by this Act for assistance under the heading ''DEVELOPMENT ASSISTANCE'' may be used to reimburse such agencies, institutions, and organizations for such costs of such individuals carrying out other development assistance activities: *Provided further,* That funds appropriated by titles III and IV of this Act that are made available for assistance for child survival activities or disease programs including activities relating to research on, and the prevention, treatment and control of, HIV/AIDS may be made available notwithstanding any other provision of law except for the provisions under the heading ''CHILD SURVIVAL AND HEALTH PROGRAMS FUND'' and the United States Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act of 2003 (117 Stat. 711; 22 U.S.C. 7601 et seq.), as amended: *Provided further,* That of the funds appropriated under title III and IV of this Act, not less than $441,000,000 shall be made available for family planning/reproductive health: *Provided further*, That, in order to prevent unintended pregnancies, abortions, and the transmission of sexually transmitted infections, including HIV/AIDS, no contract or grant which includes funding for the provision of contraceptives in developing countries, shall be denied to any nongovernmental organization solely on the basis of the policy contained in the President's March 28, 2001, Memorandum to the Administrator of the United States Agency for International Development with respect to providing contraceptives in developing countries, or any comparable administration policy regarding the provision of contraceptives.

AMENDMENT OFFERED BY MRS. LOWEY

Mrs. LOWEY. Mr. Chairman, I have an amendment at the desk.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mrs. LOWEY:

Page 97, beginning on line 10, strike '': *Provided further*,'' and all that follows through line 21 and insert the following: '': *Provided further*, That, in order to prevent unintended pregnancies, abortions, and the transmission of sexually transmitted infections, including HIV/AIDS, no contract or grant for the exclusive purpose of providing donated contraceptives in developing countries shall be denied to any nongovernmental organization solely on the basis of the policy contained in the President's March 28, 2001, Memorandum

to the Administrator of the United States Agency for International Development with respect to providing contraceptives in developing countries, or any comparable administration policy regarding the provision of contraceptives.''.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentlewoman from New York (Mrs. LOWEY) and the gentleman from Virginia (Mr. WOLF) each will control 22½ minutes.

The Chair recognizes the gentlewoman from New York.

Mrs. LOWEY. Mr. Chairman, under current law, the global gag rule, also known as the Mexico City policy, prohibits foreign nongovernmental organizations, NGOs, from receiving any U.S. assistance unless they agree not to use their own funds to perform or refer patients for abortion or to even advocate the legalization of abortion. This policy applies even when abortion is illegal in a country or when NGOs promote the legalization of abortion for cases of rape and incest.

The bill before us keeps the global gag rule intact with one important exception. It would allow for the provision of contraceptives, not direct funding, the provision of contraceptives to foreign NGOs to help reduce abortion, unintended pregnancy and the spread of HIV/AIDS.

Let me repeat that. The intent of the bill is to provide international NGOs U.S.-donated contraceptives, not funds for millions of men and women who desperately need them. The provision provides absolutely no assistance for abortion. It is strictly prohibited in 10 other sections of this bill.

While I have made clear my intent to allow only for the provision of donated contraceptives, some of my colleagues have brought to my attention concerns that the language as currently written could be interpreted more broadly than intended. Therefore, to make it absolutely clear to my colleagues on both sides of the aisle who may have concerns about the language, I am offering this amendment to my own bill to clarify the existing language by narrowing the provision in question by replacing it with the following language beginning on page 97, line 10 of the bill:

''That, in order to prevent unintended pregnancies, abortions, and the transmission of sexually transmitted infections, including HIV/AIDS, no contract or grant award exclusively for the purpose of providing donated contraceptives in developing countries shall be denied to any nongovernmental organization solely on the basis of the policy contained in the President's March 28, 2001 Memorandum to the Administrator of the United States Agency for International Development with respect to providing contraceptives in developing countries, or any comparable administration policy regarding the provision of contraceptives.''

This amendment, which replaces the current provision in the bill with the one I just read, can leave no doubt in any reasonable individual's mind that the provision will provide contraceptives. It will not provide funding to foreign NGOs. In fact, this amendment would advance the Bush administration's stated goal of the Mexico City policy ''to make abortion more rare'' and protect women and children.

Filling the unmet need for contraceptives could prevent 52 million unwanted pregnancies, an estimated 29 million abortions, 142,000 pregnancy-related deaths, and 505,000 children from losing their mothers in just 1 year. These are statistics. How much more evidence do my colleagues need to be convinced that contraception reduces abortion, saves lives? It is simply not enough to say that you support family planning as long as the current restrictions remain in law, denying millions of the poorest men and women around the world access to contraceptives.

In my judgment, support for my amendment represents a good-faith effort to find common ground on this issue. I really do hope that we can all agree that voting against family planning and the provision of contraceptives, which my colleague from New Jersey will ask you to do in a later amendment, and against the opportunity to provide more than 200 million men and women in developing countries with access to contraceptives is the most extreme vote any of us can take.

I urge my colleagues to support my amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. WOLF. Mr. Chairman, I yield 3 minutes to the gentleman from Pennsylvania (Mr. PITTS).

Mr. PITTS. Mr. Chairman, I rise to oppose the Lowey amendment because it does not address the underlying problem. Whether we support pro-abortion organizations through cash donations or items of cash value, the result is the same. The amendment before us today attempts to undermine the Mexico City policy. The Mexico City policy exists to draw a bright line between U.S. family planning policy and abortion. However, it appears that there are some out there who wish to blur this line. Mr. Chairman, a blurred line is what leads to coercive abortions and forced sterilizations.

The Mexico City policy is critical for several reasons. First, money is fungible. Every U.S. tax dollar or commodity that goes to an abortion provider frees up funds to pay for more abortions and more pro-abortion lobbying. Secondly, our population grantees are seen as representatives of the United States in the countries in which we operate. When organizations prominently associated with United States family planning programs perform and promote abortions, people in these countries logically associate these activities with the United States.

It is important to note that this policy does not in any way reduce funds for family planning. As this chart shows, before Smith-Stupak, there are $441 million for international family planning, including contraceptive commodities. After Smith-Stupak, there will still be $441 million for international family planning, including contraceptive commodities. It simply requires that any foreign nongovernmental organizations that receive taxpayer dollars agree not to perform or actively promote abortions.

□ 1600

I urge my colleagues to oppose the Lowey amendment, support the Smith-Stupak amendment to restore the Mexico City policy and to protect the taxpayers' rights to neither directly nor indirectly fund abortion.

Mrs. LOWEY. It is such a pleasure for me to yield 2½ minutes to the distinguished gentleman from Ohio (Mr. RYAN).

Mr. RYAN of Ohio. I thank the gentlelady.

I just want to make a comment. The money will not change; there is not going be an increase or a decrease with regard to the amendment. This is about where the money is going to go, and there are 20 countries at least where we are not able to get contraceptives to women and men in these countries who need it. This is not about increase or decrease. This is about getting the money to where it needs to be.

The gentleman before me stated, how can we support coercive abortions. There are many prolife Republicans and prolife Democrats who voted for trade with China, to increase investment in China. We all don't have to rehash what China does with their pro-abortion policy. So the coercive argument needs to at least be consistent.

I just want to share with my friends, I am a prolife Democrat, but I believe that this will reduce the number of abortions around the world. This is the only way to do it.

The example I want to share with my colleagues is Ghana, where abortion is illegal. The oldest and the largest family planning organization in Ghana previously provided a third of the contraceptives in the nation with no abortion services. It has received no U.S. assistance for family planning, which has decreased access to contraceptives by 56 percent.

This has led to an increase of almost 500 abortions in Ghana because we were not providing prevention. The abortion debate in the 21st century needs to be about prevention. That is exactly what this bill does, this amendment does, and what Ms. LOWEY is trying to do.

I also want to share with our colleagues, because we seem to get mixed

information, prevention and family planning does reduce the number of abortions. We have many countries where we have implemented this, and it has worked.

In the last two decades, in the last two decades, there have been significant declines in abortion rates in a number of countries like Bangladesh, Bulgaria, Chile, Czech Republic, Estonia, Hungary, Latvia, Romania, Russia and Turkey. In Russia the abortion rate declined by 61 percent between 1988 and 2001 because of an increase of 74 percent of preventive and contraceptive use.

We know prevention works. If you want to reduce abortion, we need to provide the prevention. Mrs. LOWEY just went to great lengths to say we are just shipping the product. This is not money; this is not funds. We are going to ship the product, and then those organizations will be able to take the money they save and buy more contraceptives, not provide abortion, especially in these countries where abortion is already illegal.

I want to support the amendment from the Chair.

Mr. WOLF. Mr. Chairman, I yield 3 minutes to the gentleman from New Jersey (Mr. SMITH).

Mr. SMITH of New Jersey. I thank my good friend for yielding.

Mr. Chairman, the Lowey amendment reiterates the unambiguous intention of the underlying language in the bill that Mr. STUPAK and I will seek to strike later on, that, if enacted, provides in-kind U.S. taxpayer assistance to pro-abortion organizations around the world. That's what's happening here, nothing more and nothing less.

Prolife Members, especially some of my colleagues on the other side of the aisle, know and fully understand that in-kind contributions are of no less value than money. In-kind or cash, it is a distinction without a difference.

The intended recipients of the Lowey amendment are precisely those pro-abortion organizations that have refused to divest themselves of abortion and agree to the Mexico City provisions. The Mexico City policy, separates family planning from abortion. The Mexico City policy helps to ensure that foreign nongovernment organizations that want U.S. grants, be they in the form of cash or in-kind commodities contraceptives, only engage themselves in family planning, as advertised.

It stands to reason, if we support pro-abortion organizations, unborn children and their mothers, and the laws that today protect them, will be put into jeopardy; and the violence of abortion will increase and not be diminished.

Let me just note that neither the Mexico City policy, nor the amendment that Mr. STUPAK and I will offer today, reduces family planning by so much as a penny. It simply strikes the language in the bill that carves out an exception to the Mexico City policy for who? The pro-abortion organizations.

As a matter of fact, since the restoration of the Mexico City policy, several countries, including Ethiopia, DR Congo, Nigeria, Uganda, Haiti, Pakistan, have gotten huge increases in contraceptives and family planning assistance. Ethiopia, for example, went from $4.9 million to $19.5 million in 2007 under the Mexico City policy, almost a 300 percent increase.

Congo went from $1 million to $9 million. Pakistan for 1.4 to 16.5. U.S. funding to Nigeria and Uganda doubled while Haiti tripled. USAID has made it clear that it targets what its analysts say is unmet need. Even Ghana has seen its average annual contraception shipment rise, from $1.5 million in calendar years 1998–2001 to $2.3 million for calendar years 2002–2003.

Under the Mexico City policy, the U.S. has remained the largest donor nation by far to international family planning. We just insist and direct that those funds are used in a way and go to the groups that are about family planning and are not double hatted, trying to enable abortionists and abortion lobbyists overseas.

I would point out, as Mrs. LOWEY stated earlier when she talked about lobbying, the Mexico City policy, I have a copy for anybody to read, makes it very clear that when it comes to lobbying, we are only talking about lobbying for abortion as a method for birth control. Exempted explicitly, unlike what she said earlier, are rape, incest and life-of-the-mother provision.

I hope she will correct the record. It is clearly false.

Mrs. LOWEY. Mr. Chairman, I yield to the gentleman from Rhode Island.

Mr. LANGEVIN. I thank the gentlelady for yielding for the purpose of engaging in a colloquy with Chairwoman LOWEY and the gentleman from Texas (Mr. CUELLAR).

Madam Chairman, thank you for engaging in this discussion to clarify the language related to international family planning and abortion restrictions in the bill. I understand that you have included a provision in the underlying bill that makes certain exemptions for contraceptives from the Mexico City policy.

I further understand that the intent of this provision is to allow international nongovernmental organizations, otherwise known as NGOs, to receive U.S.-donated contraceptives for distribution to the poorest men and women in the poorest regions of the world.

As the chairwoman knows, I do not support providing direct funding to international NGOs that do not adhere to the Mexico City policy. I have concerns that the language, as it is currently drafted, could be interpreted more broadly than intended and could be construed to permit not only the provision of contraceptives, but also the provision of funding directly to organizations that perform or advocate for abortions.

I yield to the gentleman from Texas.

Mr. CUELLAR. Thank you for yielding. I would like to associate myself with the gentleman's remarks and his concerns that the language could, in fact, be interpreted to have a broader application, not only allowing for the provision of contraceptives.

Would the chairwoman explain her provision and clarify her legislative intent?

Mrs. LOWEY. Will the gentleman from Texas yield?

Mr. CUELLAR. I yield to the chairwoman.

Mrs. LOWEY. I do thank my two friends and colleagues for their work on this important issue and for this opportunity to clarify the intent of the provision. I want to be very clear. The intent of this provision is only to allow for the donation of the contraceptives and not to provide funding.

While I disagree with broader interpretations of this language, I wanted to offer an amendment to clarify this provision. My amendment is crystal clear. It would only allow NGOs to receive U.S.-donated contraceptives, not funds, for distribution to millions of men and women across the globe in desperate need of these products.

I hope that our discussion and my clarifying amendment that I intend to offer will alleviate any concerns that you or other Members have about the intent behind this provision.

Mr. CUELLAR. Madam Chairwoman, does your amendment do anything to alter or weaken the 15 provisions currently in the underlying bill that bans U.S. funding for abortions abroad or places restrictions on the use of family-planning funds?

Mrs. LOWEY. Absolutely not. My amendment would not alter or weaken these long-standing provisions which I chose to retain in the fiscal year 2008 bill, 15 different provisions that were offered by various Members of Congress. Every provision is still in this bill that prohibits the use of U.S. tax dollars for abortion or restricts family planning.

Mr. CUELLAR. I thank the chairwoman for clarification and her legislative intent that her amendment would only allow donated contraceptives to be provided to international NGOs and that no funds, no funds in this bill, will be used to provide or advocate for abortions overseas.

I also would like to be clear that I support your decision to retain the long-standing provisions in the bill to prohibit U.S. funds from being used to provide or advocate for abortions overseas and place reasonable restrictions on the use of family planning funds.

Mr. LANGEVIN. I thank the gentleman. I would like to thank the chairwoman for her comments and her willingness to offer this clarifying amendment and to make it absolutely clear that the bill would only allow for the provision of contraceptives and not for direct funding.

Mrs. LOWEY. Mr. Chairman, I reserve the balance of my time.

Mr. WOLF. Mr. Chairman, I yield myself 3 minutes.

Mr. Chairman, the question here is who really gets the money. That's the question. I think that it hasn't been addressed adequately.

I want to say at the outset, I support, I, FRANK WOLF, support family planning, period.

A May 22 Washington Post article described a recent crackdown on Chinese families that have violated China's one-child policy. The article stated that Chinese birth control bureaucrats showed up in a half-dozen towns in Guangxi Province carrying sledgehammers and electric cattle prods to destroy the homes and businesses of those who had failed to pay their fines under China's coercive one-child policy. The article described family-planning officials as ransacking businesses owned by parents of more than one child. Those who protested were bloodied in the struggle, and villages reported people being killed in the violence.

Now, I heard that on NPR too. It was brutal. So that's really what we are talking about, because the United States-Mexico City policy prevents funding from going to international organizations that promote abortion as a means of family planning, including in China.

Two prime examples of these organizations are the International Planned Parenthood Federation and Marie Stopes International, both of which are closely tied to the Chinese one-child policy. They are, in essence, the ones that will get this. They never, ever speak out.

In fact, China was the second country to become ''officially recognized as a qualified member of the International Planned Parenthood Federation.'' On its Web site, International Planned Parenthood Foundation recently touted, saluted, just said it was a great thing, China's effort to exploit, its exploitation policy, family-planning policy regime worldwide.

I don't want to get off too far on this, but this is a country getting aid for these groups that are poisoning your toothpaste, poisoning your pets, and, if you read the article the other day, painting Thomas the Tank Engine trains with lead paint that most people here, their children and grandchildren have. This country is the country.

We restrict UNFPA funds to China expressly because China is coercive and this is a coercive government. This is a government that single-handedly could be stopping the genocide in Darfur today.

□ 1615

Organizations that will receive funds under the new family planning language in this bill will be able to help China continue these unconscionable, and, I would say, immoral activities.

I support family planning, but I can't support, will not support giving family planning taxpayer funds to these kind of organizations that not only never speak out, but actually participate.

Mr. JACKSON of Illinois. Will the gentleman yield?

Mr. WOLF. I'd be glad to yield.

The CHAIRMAN. The gentleman's time has expired.

Mr. JACKSON of Illinois. Mr. Chairman, I offer a unanimous consent request to give the gentleman an additional minute.

The CHAIRMAN. The gentleman still controls time.

Mr. JACKSON of Illinois. I'd like to offer a unanimous consent request to yield the gentleman an additional minute on both sides, and if the gentleman will accept my UC, to yield a minute.

The CHAIRMAN. The gentleman has 14 minutes remaining on his time. He yielded himself 3 minutes. That has expired.

Mr. JACKSON of Illinois. I asked a unanimous consent request to yield both sides an additional minute in the debate.

The CHAIRMAN. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. JACKSON of Illinois. If the gentleman would be so kind as to yield.

Mr. WOLF. I yield to the gentleman from Illinois.

Mr. JACKSON of Illinois. Would the gentleman please share with the committee the specific provision in Ms. LOWEY's amendment that says funds are being used for this purpose, the specific provision.

Mr. WOLF. These groups that I just referenced, and Mr. JACKSON, if you could have heard the NPR, I will get you the text of the NPR story. In fact, I will get it and I will insert it in the RECORD.

Mr. JACKSON of Illinois. If the gentleman would continue to yield. I'm asking specifically about the language in the statute that the gentlelady is advancing in her amendment. Could you show us the specific language in the statute, the recommended statute?

Mr. WOLF. Yes. These groups, under this provision would be allowed to get the support that are now active doing this in China.

Mr. JACKSON of Illinois. I thank the gentleman for yielding.

Mr. WOLF. Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. I just would like to respond quickly, before I recognize Mr. KIRK, to my good friend, Mr. WOLF. As Mr. WOLF knows, no money is going to China. China has no participation in this debate at all. It's very clear. In fact, not only did we not address UNFPA in this bill, we strengthened the prohibition so that not a dime would be spent in China. So I just wanted to clarify that China has nothing to do with this debate on contraceptives.

I am delighted to yield 2 minutes to the gentleman from Illinois (Mr. KIRK).

Mr. KIRK. Mr. Chairman, I want to rise and maybe remove some of the partisan tension as a Republican Member in support of this amendment that otherwise, without action, the global gag rule would cut off critical providers of family planning assistance.

In this Congress the issue of illegal immigration is at the top of our agenda. And women in developing countries consistently report that they would like to have two to three children rather than five to seven.

As population pressures rise, so does the move to enter the United States, legally or illegally. To reduce the illegal immigration pressure on our borders, we need short-term solutions like border enforcement, and long-term solutions like backing voluntary family planning to help women in developing counties have the smaller family that they want.

The global gag rule has been used to cut off the International Planned Parenthood Federation because it used less than 1 percent of its own privately raised funds for abortion-related services. And when we cut off IPPF, we might have another provider of family planning assistance to the women of Mexico for example, like the UNFPA, but we cut them off too.

Mr. Chairman, I would argue that the American people would strongly agree with the principle that if Mexican women wanted to have fewer children, then we should help them.

Voluntary family planning would boost child survival rates. It would also lower the rate of growth of Mexico's population. A slower rate of growth of Mexico's population would improve the economy of Mexico. It would also reduce the environmental pressure on Mexico's ecosystem. But a slower rate of growth would also reduce the long-term illegal immigration pressure on America's borders.

We should adopt this bipartisan amendment. We should help women in developing countries have the smaller families that they want. We should also adopt policies which reduce the population pressure on our own borders with a policy that supports the rights of women and lowers the pressure on our environment.

I commend the Chair for offering this amendment.

Mr. WOLF. Mr. Chairman, I yield 3½ minutes to the gentleman from Georgia (Mr. GINGREY).

Mr. GINGREY. Mr. Chairman, I thank the gentleman for yielding. And I want to say that I, Doctor, Representative PHIL GINGREY as a pro-life OB–GYN, in the interest of full disclosure, I want to say that I'm very supportive of family planning, but not family planning that includes definition of abortion as part of family planning.

In the Lowey amendment, which I'm opposed to, I'm not questioning her integrity or intent in what she says in explanation, but I think it's a very confusing amendment. And when we just heard the two Democratic Members engaging in a colloquy with the chairwoman, the gentleman from Texas (Mr. CUELLAR) and the gentleman from Rhode Island (Mr. LANGEVIN), as they said that they were very much in favor of the Mexico City policy and wanted to make sure that no money would be spent, and I think the chairlady tried to explain that.

But then just a second ago, the gentleman from Illinois (Mr. JACKSON), stood up to ask our ranking member if there was anything in the Lowey amendment that spoke to the issue of funding.

But I would say to the gentleman, Mr. Chairman, and my colleagues, funding versus commodity. If you tell me that you're going to give me $75, that's funding, I guess. If you're going to say, no, I'm not going to give you $75, I'm going to give you a tank of gas, it's the same value.

And I think as the gentleman from New Jersey (Mr. SMITH) was explaining earlier with his poster, that you ultimately take money away from the countries that need it. And we don't want to do that.

If you really want to make sure that we don't export abortion to another country, then we're going to have an amendment coming up momentarily, the Stupak-Chris Smith amendment, that strikes the language and restores the Mexico City policy.

Mr. RYAN of Ohio. Mr. Chairman, will the gentleman yield?

Mr. GINGREY. I'll be glad to yield to my friend from Ohio.

Mr. RYAN of Ohio. I'd just like some clarification. You said this money is going to come from countries that need it, and it's going to go to other countries. Are you suggesting that those other countries do not need this kind of contraceptives and the preventative care?

Mr. GINGREY. Reclaiming my time, I will quote USAID on this, Mr. RYAN. Twenty countries that currently do not receive USAID family planning would not receive donations under this amendment because the countries in question that you're talking about, have comparatively low need for family planning. And furthermore, they lack USAID presence necessary to monitor compliance with other statutory provisions.

Mr. SMITH of New Jersey. Will the gentleman yield?

Mr. GINGREY. I yield to the gentleman from New Jersey.

Mr. SMITH of New Jersey. USAID has done, I think, a remarkable job in focusing on unmet needs, not just in the area of family planning, but child survival, microcredit lending and a whole host of other very important interventions that help poor people.

It's all about prioritization. I showed you earlier one country after another that has had a doubling and a tripling of their money and commodities and contraceptives since the Mexico City policy was reinstated in 2001. It's all about prioritization.

Let me also say, because Ghana was mentioned earlier today, just because Planned Parenthood of Ghana is so obsessed with abortion promotion that it won't sign the policy, other NGOs and other providers have stepped into the breach and provide family planning and not abortions to the people of Ghana.

Mrs. LOWEY. I'm very pleased to yield 2 minutes to my good friend, a distinguished Member of this Congress from New York, Mr. JOSEPH CROWLEY.

Mr. CROWLEY. Mr. Chairman, I rise in strong support of the amendment offered by my good friend from New York, Ms. LOWEY, the chair of the Subcommittee on the State Foreign Operations Committee.

And I think we have to make something really clear, perfectly clear; that in this bill, in this bill there are 10 provisions, 10 provisions that specifically outlaw or prohibit the use of U.S. funds in foreign assistance for abortion or the promotion of abortion. We have it right here on these charts. Ten provisions, in total, that prohibit the spending of any U.S. funds on the promotion of abortion or abortion.

This amendment and this legislation is not about abortion. It is about prevention. And there's an opportunity here for our colleagues to support prevention. Here we have the gentlelady from New York, what she's trying to do is prevent 52 million unplanned pregnancies each year, 29 million abortions each year, 1.4 million infant deaths each year, 142,000 pregnancy-related deaths each year, and over a half a million children from losing their mothers each year. That's what this amendment is about. That's what the gentlelady is trying to accomplish.

The other side of the aisle is saying that they're for family planning. Well, here is your opportunity to demonstrate that. Here is your opportunity to show, not only the Congress, but the United States and the world, and especially the developing world, that you are for family planning and helping to extend not only life, but the quality of life in many of these countries.

I think we ought to be applauding what the gentlelady from New York is trying to do today, as opposed to trying to derail that. If you are for family planning, here is your opportunity. If you're for prevention of transmittable sexual diseases here is your opportunity to stand up. Stand up for family planning and support the gentlelady from New York in her motion, in her amendment and the underlying bill as well.

Mr. WOLF. Mr. Chairman, I yield 1 minute to the gentleman from Indiana (Mr. BURTON).

Mr. BURTON of Indiana. Mr. Chairman, I've always supported the right-to-life position. And I've listened to this debate with great interest.

Money is fungible. Tens of millions of dollars are going to go to NGOs. And these NGOs can take money that they already have and use it for abortions, because they'll have money that they can use for the family planning that they're talking about tonight. They'll be able to free up money to do what we don't want them to do.

Intent is one thing Mrs. LOWEY's talking about. What happens is quite sometimes another.

The American taxpayers who are for abortion, and who are pro-life, don't want their tax dollars used for abortion, across the spectrum. They just don't want it to happen.

No tax dollars can be or should be used for abortion. I've had town meetings, and people who are pro-choice have come up to me and said they don't want their tax dollars used for it. They're pro-choice, but they want people to do it with their own dollars.

I'd just like to say to my colleague, money is fungible, and this will be tax dollars used for abortion.

Mrs. LOWEY. Mr. Chairman, I yield 10 seconds to the gentleman from Ohio (Mr. RYAN).

Mr. RYAN of Ohio. Just to clarify the record, Mr. Chairman, this is not money. This is a product that will be shipped. And the other side keeps distorting the debate. This is about the product going over there.

You can't say you're for family planning and then we provide some of the contraceptives to ship over, and then they vote against it.

Mrs. LOWEY. Mr. Chairman, I would also suggest before I yield to the gentleman, Mr. LEVIN, that these provisions, the charts disappeared. If you would like to refresh your memory, there are 15 provisions that I left in this bill that make it absolutely clear that no U.S. dollars may go for abortion.

I yield 1½ minutes to the gentleman from Michigan (Mr. LEVIN).

Mr. LEVIN. Mr. Chairman, over 25 years ago I was assistant administrator of AID, running the population program. This issue of fungibility came up. We were assiduously implementing

the Hyde amendment. So we tried through accounting mechanisms to address the fungibility issue.

So then it was said that's not enough. So then Mexico City was proposed and implemented.

This is not a repeal of the Mexico City policy. Whatever one thinks of it, it is not.

□ 1630

This isn't about abortion, and it really isn't about fungibility.

Mr. WOLF, if you take your position far enough, we should give no military assistance to any country that has a policy on family planning that you don't like because in that sense it is fungible. But that carries it beyond a rule of reason. And what this proposal does is to apply a rule of reason, as has been said, to contraceptives provided in kind to people who need these contraceptives. That is the long and the short of this. And, essentially, you are the ones who are blurring the issue, not us. And if you take your logic to the extreme, you will tie this appropriation process for numerous countries into knots. This is trying to untie a knot, if you want to put it that way, only in the sense of providing products in kind to people who need them. And if you say you are for family planning and you vote otherwise, you are voting against family planning.

Mr. WOLF. Mr. Chairman, I yield 15 seconds to Mr. BURTON to respond to something that was said.

Mr. BURTON of Indiana. Mr. Chairman, I would like to say to my colleagues I understand what you have been saying. You are going to give product to them. But when you give them product, that frees up money that they have for abortions. So you are indirectly going to be funding abortions. That is what I said. And the American taxpayers don't want their money in any way to be used, indirectly or directly, for abortions.

Mr. WOLF. Mr. Chairman, I yield 1 minute to the gentlewoman from Ohio (Mrs. SCHMIDT).

Mrs. SCHMIDT. Mr. Chairman, I rise in strong opposition to the Lowey amendment.

Mr. Chairman, the Mexico City policy was first promulgated in 1984 and renewed by the current administration in 2001. This policy simply requires that, as a condition for receipt of U.S. family-planning aid, whether commodities or cash, foreign nongovernmental and international organizations certify that they neither perform nor actively promote abortion as a method of family planning. This is a sound policy, and we should not undermine it in any way.

The Lowey amendment is an attempt to blur this line by diverting contraceptive commodities from organizations that do not promote or provide abortion to those that do.

Abortion is a tragic loss of life not only to the child but to the mother. We know from the affidavits that were produced from the Gonzales v. Carhart case, 180 post-abortive women, what they had to say. Let me give you an example of one:

''How has abortion affected you?''

''My life is worthless to me. There is nothing in it. Shame, guilt, and regret is hard to live with. I am 50 years old now.''

Mr. Chairman, the Mexico City policy at issue here establishes a bright line between noncontroversial family planning activities and abortion. We should not blur this line with the Lowey amendment in any way.

Mr. WOLF. Mr. Chairman, how much time does each side have?

The CHAIRMAN. The gentleman from Virginia has 8¼ minutes, and the gentlewoman from New York has 4 minutes.

Mrs. LOWEY. Mr. Chairman, I am pleased to yield 1¼ minutes to the gentleman from Virginia (Mr. MORAN).

Mr. MORAN of Virginia. Mr. Chairman, what we should be doing here is eliminating the gag rule. But that is not what we are doing. All that this amendment does is to allow family-planning organizations to receive free donations of contraceptives and condoms.

Now, instead, the opposition wants to prohibit even this, even though you suggest that you are for family planning. You would never do this to the women of America because they have control over their lives. But the women of the Third World don't have control over their lives, and you know that.

What is going to happen without access to contraceptives is that 52 million unwanted pregnancies will occur, and there will be almost 30 million abortions as a result. Where is the sense in that?

We have got to find a way for women to control their lives in the Third World. The fact is a vast majority of women in the Third World don't have any control over when the sex act is performed. That is not their choice. Most of them are married and most of them are in faithful relationships irregardless of their husband's conduct. They are overwhelmed by the number of children they have to provide for. But you want to deny them the ability to control the number of children in their family?

Not to pass this amendment is punitive. This is punishing of those women. It is wrong. It is immoral, in fact. This moderate amendment certainly should be passed by this Congress in the 21st century.

PARLIAMENTARY INQUIRY

Mr. JACKSON of Illinois. Mr. Chairman, I have a parliamentary inquiry about the remaining time on both sides.

The CHAIRMAN. The gentleman from Illinois may inquire.

Mr. JACKSON of Illinois. Specifically, Mr. Chairman, under my unanimous consent request, an additional minute was given to their side and an additional minute to our side, and I wanted to make sure that the additional minute has been calculated in the remaining time.

The CHAIRMAN. The additional time has been added. The time remaining is 8¼ minutes for the gentleman from Virginia and 2¾ minutes for the gentlewoman from New York.

Mr. JACKSON of Illinois. I thank the Chairman.

Mr. WOLF. Mr. Chairman, before I recognize the gentlewoman from Oklahoma (Ms. FALLIN), I would say to my friend, my very good friend, I would increase the funding for family planning. I would gladly increase it. So I think the question is how much money would be good if we could actually increase it with that.

Mr. Chairman, I yield 2 minutes to the gentlewoman from Oklahoma (Ms. FALLIN).

Ms. FALLIN. Mr. Chairman, I am listening to this debate today, and it seems to me that the question is not if there is money going to family planning. I understand there is $441 million already allocated, U.S. money, that goes to foreign countries for family planning. But the question is whom is the money going to and do the organizations that receive the money for family planning promote abortion as a method of family planning. And that is what this whole debate is on our side.

And the way I see it, if we supplement the budgets of other organizations in foreign countries who use abortion as family planning by giving them contraceptives, which we already do, by the way, $441 million worth of family-planning help, then we are supplementing their budgets so that they can have freed-up money to continue down the route of doing abortions for family planning. So it is just kind of logical that that is what we are doing here by changing this policy. And that is why I support the Smith-Stupak amendment.

And the gentlewoman has been kind to say that she wants to work in good faith and find common ground, and she has said it is her goal to get contraceptives to other countries. So if that is our goal and our goal is not to help other countries with abortions for family planning, then let's accept this amendment, the Smith-Stupak amendment, and let's pass it and let's show that the United States will not be in the business of exporting abortions to foreign countries.

Mrs. LOWEY. Mr. Chairman, I reserve the balance of my time.

Mr. WOLF. Mr. Chairman, I yield 2 minutes to Marilyn Musgrave of Colorado.

Mrs. MUSGRAVE. Mr. Chairman, as we are debating this, I think that one

thing we have to be mindful of is every Member of Congress knows what an in-kind contribution is. And I would just like to say that we know that we have to account for in-kind contributions and we have to consider this in the Lowey amendment.

I oppose this because I really feel that we need to protect the international family planning integrity. We know what the Mexico City policy was put in effect to do. We know that people in this country do not want their taxpayer dollars used to provide for abortion as a means of family planning.

Another thing that has not been brought into this debate is this amendment really is a poison pill. I think that it undermines the Mexico City policy, and I think that it could possibly subject this bill to a veto. And I think we need to be very mindful of that as we engage in this debate.

And we need to be mindful that this amendment doesn't increase USAID funding for contraceptives. It simply diverts contraceptive commodities from organizations that do not promote or provide abortions as a method of family planning.

So I rise in opposition to the Lowey amendment. I understand the intention. But, again, we all know what an in-kind contribution does, and we know what it does to the budgets of those organizations that promote abortion as a method of family planning.

The Smith-Stupak amendment is the only amendment that removes the poison pill, restores the Mexico City policy, and allows the USAID to continue to direct the U.S. family-planning resources to organizations that are not engaged in pro-abortion activities.

Mrs. LOWEY. Mr. Chairman, I am pleased to yield 1 minute to the gentleman from New Jersey (Mr. SIRES).

Mr. SIRES. Mr. Chairman, I rise in support of the Lowey amendment.

This amendment would clarify existing language in the Foreign Operations bill that would only, and I repeat, only allow for NGOs to receive U.S.-donated contraceptives. This amendment makes it clear that only contraceptives will be donated and made available to millions of men and women around the world. Not funding.

By increasing global contraceptive supplies, this will help many women and men overseas plan their families, protect against sexually transmitted diseases, and minimize at-risk pregnancies.

Mr. Chairman, since the administration reinstated this policy in 2001, 20 nations have stopped receiving U.S. shipments of contraceptives. Women and children in these countries often suffer from high maternal and child mortality rates because of a lack of adequate health care and access to family planning. I believe we must give hope to these women and families by providing them with the contraceptives they need to make their own decisions regarding their families. And I also think it is essential to provide individuals with the tools they need to protect themselves against the spread of HIV/AIDS.

I rise in support, and I urge all the Members to support this amendment.

Mr. WOLF. Mr. Chairman, I yield 2 minutes to the gentleman from Indiana (Mr. PENCE).

Mr. PENCE. Mr. Chairman, I thank the gentleman for yielding.

I rise in opposition to the Lowey amendment, although I do want to express my appreciation to Chairman LOWEY for preserving, as she indicated, the 15 different restrictions that are in this bill on the use of American taxpayer dollars overseas to directly fund abortion.

But I want to say respectfully to my colleagues on the other side of the aisle, come on. Legislation that disallows contributions to fund abortions in family-planning organizations around the globe ought to also disallow in-kind contributions to those same organizations.

Money is fungible. We know that. Organizations that receive commodities can take the resources that they would have used to purchase those commodities and use it to promote abortion. We all know. We are adults in this room. We all know that we are seeing here a concerted, sincere, and I would like to say respectfully creative legislative effort to undermine a policy known as the Mexico City policy that I think my colleagues on the other side of the aisle know is broadly supported by the American people.

Whatever the view is on abortion in this country, the American people don't want to see their taxpayer dollars used to fund abortions at home or abroad. They don't want to see their taxpayer dollars used through the foreign aid program to fund organizations that promote abortion as a means of family planning. And the possibility of making tens of millions, if not hundreds of millions, of dollars available to organizations that promote abortion around the globe, making it available in the form of commodities is still making resources available to organizations that promote abortion.

□ 1645

And so I say very respectfully, the American people don't want to see their tax dollars used to fund abortion overseas, and the American people don't want to see their taxpayer dollars used to make in-kind contributions to organizations that fund abortion and promote abortion as well.

Mrs. LOWEY. I am pleased to yield 1 minute to the gentlewoman from Connecticut.

Ms. DELAURO. Chairwoman LOWEY has made it perfectly clear her intent to allow only for the provision of donated contraceptives. Some of our colleagues have expressed concerns that the language, as currently written, could be interpreted more broadly than intended. Therefore, Chairwoman LOWEY is offering this amendment to clarify this provision.

This amendment is crystal clear, my friends. It would only allow nongovernmental organizations to receive U.S. donated contraceptives, not funds, for distribution to millions of men and women in desperate need of these products.

Mr. Chairman, we cannot reduce abortions without contraception. That is a fact. Contraception is about prevention. My colleagues on the other side of the aisle want to talk about prevention, that is the focus of this amendment.

And let me just say this to all of my colleagues; for those in this body who proclaim to want to protect lives and to save lives and that is your mission, you have but one choice in this debate, and that is to support the Lowey amendment.

Mr. WOLF. Mr. Chairman, I have one more speaker in this round.

The gentlelady has the right to close, is that correct?

The CHAIRMAN. The gentleman from Virginia who is in opposition to the amendment has the right to close.

Mr. WOLF. Would the gentlewoman like to proceed, then?

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. The gentlewoman is recognized for 5 minutes.

Mrs. LOWEY. Mr. Chairman, I yield 1 minute to the gentleman from Ohio (Mr. RYAN).

Mr. RYAN of Ohio. I thank the gentlelady.

Mr. Chairman, I just want to make one point. We heard the word ''fungible'' and ''fungibility'' more than once today. I just want to apply that logic to China because we've heard about China today.

According to the logic of money being fungible, all of the money that our friends on the other side over the past 6 years who have borrowed from China, allowed China to make money on the interest, and therefore use that money to have forced abortions in China, that's fungible.

Mr. Chairman, I wish the other side was as concerned about forced abortions in China when they were busting the budget over the last 6 years.

Mrs. LOWEY. Mr. Chairman, I am pleased to yield 2 minutes to the gentleman from Rhode Island (Mr. LANGEVIN).

The CHAIRMAN. The gentlewoman is reminded that she is not allowed to yield blocks of time. She is allowed to yield time, but not in set amounts.

Mrs. LOWEY. I yield to the gentleman from Rhode Island.

Mr. LANGEVIN. I thank the gentlelady for yielding.

Mr. Chairman, I am grateful to have this opportunity to rise in support of the Lowey amendment.

I share Chairwoman LOWEY's concerns about the lack of access to contraceptives, the lifesaving tool for disease prevention in the developing world.

The World Health Organization estimates that 80 million women face unwanted pregnancies each year. More than 150 million couples have no access to family planning, and more than 75,000 women die each year due to complications related to unsafe abortion. These staggering statistics reflect the dire situation in countries such as Ghana, Ethiopia, Romania and many others as nations struggle to provide health care and basic services to their citizens.

It is a tragedy that 24.5 million people are living with HIV in sub-Saharan Africa, where more than 12 million children have been orphaned by AIDS. I know that I speak for the vast majority of Americans when I say that we have a responsibility to respond to this crisis.

Like so many of my colleagues, I am opposed to abortion. And this position compels me to work to promote access to contraception and other methods of pregnancy prevention. I also feel that being pro-life means working to protect life at all stages, and to alleviate suffering wherever I am able to do so is an important priority. Rarely has the world known such intense suffering as that faced by sub-Saharan Africa today.

Mr. Chairman, we must do everything in our power to ensure that the money we spend on international family planning, $441 million in this bill, will be used in the most effective way. The Lowey amendment makes sure that we do that.

I want to thank Chairwoman LOWEY for her leadership.

Mrs. LOWEY. Mr. Chairman, I yield back the balance of my time.

Mr. WOLF. Mr. Chairman, I yield 2 minutes to the gentleman from Indiana (Mr. SOUDER).

Mr. SOUDER. Mr. Chairman, this debate has been crystal clear. You know, at times we've kind of passed over each other, but it isn't about abortion. I also want to thank the gentlelady for putting clauses on abortion in the bill. And it's not about family planning, because this doesn't change the family planning fund.

There is only one debate here, and that is, should family planning money go to organizations that advocate or perform abortion? And that is really what this is about. Those organizations are restricted under the Mexico City Policy. And that is in fact, in the view of people who are against abortion, providing public funds if you provide the condoms or whatever you're giving in in-kind aid.

Now, for example, as a Republican candidate, I'm not likely to get cash funding from anybody on your side of the aisle. But I have a feeling that if somebody donated stamps to me or donated a mailing to me or donated things in my office, your side would view that the same as a cash contribution. And people back home can understand that money this direct is, in fact, fungible. We have had this debate since I've been in Congress on faith-based. Every time the faith-based argument comes up, your side of the aisle argues that giving money to pay for preachers' expenses, for electricity at a Christian organization, is in fact the same as a direct contribution to those faith-based organizations. You can't have it both ways.

In fact, this is fungible money. The debate if you're against abortion is, you do not believe that money should go to organizations, taxpayer money, taken and collected from people who have a passionate opposition to abortion as well as those who favor abortion, should go to organizations that advocate that. If you're for abortion, you believe that should be allowed. And that's clearly what we've established in this debate. It's crystal clear.

Mr. WOLF. Mr. Chairman, I move to strike the requisite number of words.

The CHAIRMAN. The gentleman is recognized for 5 minutes.

Mr. WOLF. Mr. Chairman, this is the article that I referred to, Public Radio, I'll put it in the RECORD. It says, Morning Edition, April 23. ''During the past week, dozens of women in southwest China have been forced to have abortions even as late as 9 months into the pregnancy, according to evidence uncovered by NPR.'' It goes on, mentions a family which Liang describes how they told her that she would have to have an abortion. ''You don't have any more room for maneuver,'' he says they told her. ''If you don't go to the hospital, we'll carry you.'' The couple was then driven to Youjiang district maternity ward in Baise City. ''I was scared,'' Wei told NPR. ''The hospital was full of women who had been brought in forcibly. There wasn't a single spare bed. The family planning people said forced abortions or forced sterilization were both being carried out. We saw women being pulled in one by one.''

Now, in answer to Mr. RYAN's comment, Mr. RYAN, I led the opposition over here in opposition to PNTR. President Clinton was one of the biggest supporters. He accused President Bush, criticized him, and then switched and strongly supported it.

I have sent your office, with due respect, probably 25 letters asking you as a Blue Dog member to cosponsor a bill that I have, and I'll do it again, on the SAFE Commission. On my SAFE Commission I have eight Members from the Democratic Party, eight Members from the Republican Party, and I put everything on the table, tax policy. Someone on your side said there is no Republican over there that would do it. I put tax policy on it. Some of my people don't like it, but we do. We also put all the entitlements to save the country.

I agree with you. God bless you. I agree that the debt that the Saudis hold is terrible. The debt that the Chinese hold. And I would beg you, because I know you're a good person, I watch you in committee, I followed your campaigns, join me in the SAFE Commission. We can get a handle on this deficit that we have in the country. This places a partisan political pit, and both sides are at each other.

So what I want to do is what we did on the Iraq Study Group, get eight Republicans and eight Democrats, give 1 year, this is modeled after David Walker, the GAO, to go around the country and educate and talk to the American people and listen. And then we use the Base Closing Commission concept whereby this Congress has to vote.

You're right. The amount of debt that the Chinese hold is horrible and that the Saudis hold. And I have written you over and over. The fact is, I will say it right now, I've been surprised that I haven't had anybody from your side cosponsor, because I will stipulate you care about the deficit as much as I do, maybe as a newer Member you may actually care about it more. But I agree with you, and the SAFE Commission is the opportunity to deal with this.

If you look at the language in the package I'll send to your office, I put every single thing on the table. And if you would join me, I don't know if we could pass it in this Congress or not, but I think you're exactly right, we could help save this country because we are living off of Chinese money and Saudi money. And keep in mind, the Saudis funded all the madrasses up at the border. There were 15 Saudis funding the Wahhabis. The Saudis are funding radical, anti-Christian, anti-Semitic. So if we could come together and do that.

Mr. JACKSON of Illinois. Will the gentleman yield?

Mr. WOLF. I yield to the gentleman from Illinois.

Mr. JACKSON of Illinois. I thank the ranking member for yielding.

I think that clearly the ranking member is one of the extraordinary Members of this Congress, who has enormous credibility across a wide range of issues. But I think, given that the ranking member's arguments in committee are so substantive and so sound, I want to make it clear, at least for Members, about the context of the debate. And if the chairman would correct me if I'm wrong.

Many of the NGOs that we are talking about are also the same NGOs that

provide primary care in many of these villages for which the language is directed. If we provide them with Child Survival funds, are these medicines fungible for the same NGOs? In many of these villages in the Third World, it's not that there are three or four doctors in the village, it's the same doctor. There is a shortage of doctors and nurses. It's the same doctors being sponsored by the same NGOs on the ground in these villages. They're either providing primary care, preventive care, making recommendations to people within the village on how they should behave and/or what are necessary to address their primary care issues.

If we provide them with AIDS treatments, are those same AIDS treatments fungible? And how is it that we can sit here and argue, at least from Washington, a different reality that is taking place on the ground where these issues are taking place? If the chairman would respond. I ask for the committee's indulgence.

Mr. WOLF. The gentleman's concern, and the gentleman is a very good Member, and I appreciate when he speaks a lot of times in committee. I agree with him, and not only do I agree in my conscience, I vote with him, and sometimes I even speak for him. But it is an issue here of going to the groups that are involved, and I will put a copy of the article in the RECORD, but the two that I mention, and to give them the support whereby they would do these things. I can't speak for other people, but I think it would be wrong.

JUNE 21, 2007

CASES OF FORCED ABORTIONS SURFACE IN CHINA

(By Louisa Lim)

MORNING EDITION, APRIL 23, 2007.—During the past week, dozens of women in southwest China have been forced to have abortions even as late as nine months into the pregnancy, according to evidence uncovered by NPR.

China's strict family planning laws permit urban married couples to have only one child each, but in some of the recent cases—in Guangxi Province—women say they were forced to abort what would have been their first child because they were unmarried. The forced abortions are all the more shocking because family planning laws have generally been relaxed in China, with many families having two children.

Liang Yage and his wife Wei Linrong had one child and believed that—like many other couples—they could pay a fine and keep their second baby. Wei was 7 months pregnant when 10 family planning officials visited her at home on April 16.

Liang describes how they told her that she would have to have an abortion: ''You don't have any more room for maneuver,'' he says they told her. ''If you don't go [to the hospital], we'll carry you.'' The couple was then driven to Youjiang district maternity hospital in Baise city.

''I was scared,'' Wei told NPR. ''The hospital was full of women who'd been brought in forcibly. There wasn't a single spare bed. The family planning people said forced abortions and forced sterilizations were both being carried out. We saw women being pulled in one by one.''

The couple was given a consent agreement to sign. When Liang refused, family planning officials signed it for him. He and his wife are devout Christians—he is a pastor—and they don't agree with abortion.

The officials gave Wei three injections in the lower abdomen. Contractions started the next afternoon, and continued for almost 16 hours. Her child was stillborn.

''I asked the doctor if it was a boy or girl,'' Wei said. ''The doctor said it was a boy. My friends who were beside me said the baby's body was completely black. I felt desolate, so I didn't look up to see the baby.''

Medical sources say fetuses aborted in this manner would have been dead for some time, so the tissue is necrotic and thus dark in color.

''The nurses dealt with the body like it was rubbish,'' Wei said. ''They wrapped it up in a black plastic bag and threw it in the trash.''

This was also the treatment given to the stillborn baby of He Caigan. Family planning officials turned up at her house, in the countryside several hours outside Baise, before dawn on April 17 to force her to go to the hospital. This would have been her first baby—but she hadn't married the father, in contravention of family planning laws. She was already 9 months pregnant, just days away from delivery.

''They told me I'm too young, I couldn't keep the child and I should have an abortion,'' she said. ''I'm too young to get a marriage certificate—I'm only 19 and my boyfriend's only 21.''

After the forced abortion, her boyfriend left her. She said that she's still in great physical pain and that her life had been ruined.

An eyewitness, who requested anonymity for fear of the consequences, said that he counted 41 occupied beds on just one floor of the maternity hospital in Baise and that he believed none of the women he saw had come to the hospital of their own free will.

Coerced abortions such as these were not unusual after China's one-child policy was first introduced in 1980. But a law passed five years ago guarantees China's citizens a degree of choice in family matters. When contacted for comment, an official at China's State Commission for Population and Family Planning said she'd heard nothing about forced abortions in Guangxi and asked for more details. But in Baise, a family planning official surnamed Nong acknowledged that such behavior would violate regulations. Despite the fact that these allegations refer to events that happened just within the last week, he said an investigation had already been held.

''We were very surprised to hear of these accusations,'' Nong said, ''but our investigation concluded some individuals who were dissatisfied with our family planning policies were fabricating stories. These facts simply don't exist. We really love and care for women here.''

Official figures published by the Xinhua news agency shed some light on why a forced abortion campaign might be judged necessary. They show that the Baise government missed its family planning targets last year. The recorded birth rate was 13.61 percent, slightly higher than the goal of 13.5 percent. This is significant because the career prospects of local officials depend upon meeting these goals.

Wei Linrong and her husband Liang Yage, were incensed by their treatment, seeing it as little short of murder.

''I think their methods are too cruel,'' said Wei, ''my heart really hurts. Such a tiny baby, it was innocent. And they killed it.''

''Every time we talk about this child, we both cry,'' Liang added. ''We can't bear talking about this child.''

Liang and his wife risked further official disapproval by contacting a Christian group overseas to publicize their plight. China may once have depended on its state apparatus of control and fear to silence those who suffer human rights abuses at the hands of its officials. But China's victims are angry, and they want their voices to be heard.

Mr. TERRY. Mr. Chairman, I rise to speak in opposition to the Lowey Amendment to the State Department and Foreign Operations Appropriations bill. This amendment is a poison pill that will result in a veto by the President.

The original Mexico City policy, which was emasculated in the Appropriations Committee, prevents U.S. population assistance funds from going to foreign organizations which ''perform or actively promote abortion as a method of family planning.'' This was done to ensure compliance with the long-standing law that taxpayer dollars cannot be used to finance abortion, except in the case of rape, incest, or danger to the life of the mother. The Stupak-Smith amendment restores the Mexico City policy to its original intent.

On the other hand Mr. Chairman, the Lowey amendment, masks the effort to fund pro-abortion organizations with U.S. tax dollars. This amendment would provide economic support in the form of valuable commodities and other items to organizations that promote and provide abortion as a method of family planning. Additionally, this amendment does not increase USAID funding for contraceptives, as the amendment's supporters have claimed.

In fact, it does nothing to increase contraception and simply diverts contraceptive commodities from organizations that DO NOT promote or provide abortion to organizations that DO promote or provide abortion as a method of family planning.

This ''stealth amendment'' further undermines the Mexico City policy that President Reagan established in 1984. Prior to the implementation of the Mexico City policy by President Reagan in 1984, organizations which support abortion such as Planned Parenthood kept two sets of books in order to qualify for U.S. funds: one tracking the use of taxpayer dollars for services such as family planning counseling and contraception distribution, and another chronicling the use of private organization funds for abortion-related expenses. Mr. Chairman, we all know that money is fungible. Such double bookkeeping ensured that taxpayer dollars for family planning inevitably subsidized abortion by freeing up more private funds for this purpose. The Mexico City policy was adopted to stop this practice.

Mr. Chairman, while President Clinton revoked this policy, it was reinstated by President Bush to ensure American citizens are not forced to pay for a procedure many find morally abhorrent.

Additionally Mr. Chairman, I would like to point out to my colleagues that the President has threatened to veto any legislation that weakens existing pro-life protections. Opposing the Lowey amendment and supporting the

Stupak-Smith amendment will ensure that the hard work our colleagues have put into this appropriations bill is not for nothing.

I urge my colleagues to oppose the Lowey amendment and support the Stupak-Smith Amendment to restore the Mexico City Policy to its original intent.

Mr. LOEBSACK. Mr. Chairman, I rise in strong support of this amendment and of the underlying bill, which provides overseas family planning providers with a targeted exemption from the restrictions of the Global Gag Rule.

As this amendment makes crystal clear, the contraceptive exemption in this bill allows for only the provision of donated contraceptives—not funding—to NGOs that would otherwise be barred from receiving U.S. assistance. In so doing, this bill will provide millions of men and women with contraceptive products.

Since President Bush reinstated the Global Gag Rule in 2001, U.S. government shipments of contraceptives and condoms have ceased to twenty developing countries, including Cote d'Ivoire and Vietnam—two focus countries of the President's Emergency Plan for AIDS Relief.

Restricting access to U.S.-donated contraceptives and condoms is counterproductive to our country's unprecedented commitment to the fight against HIV/AIDS.

Furthermore, providing modern contraceptives to the 200 million women in the developing world who desire this health care would avert 52 million unwanted pregnancies, prevent 22 million abortions, and would keep 505,000 children from losing their mothers each year.

Put simply, contraceptives prevent unintended pregnancies which often end in abortion, and condoms prevent the transmission of HIV/AIDS. These facts are undisputable.

I commend Chairwoman LOWEY for her willingness to offer this amendment to clarify the legislative intent of this important provision, and I urge my colleagues to support this amendment in order to protect access to common-sense prevention measures that will improve the health and well-being of individuals, families, and communities worldwide.

Mr. TIAHRT. Mr. Chairman, it is unfortunate that the State, Foreign Operations, and Related Programs Appropriations bill, H.R. 2764, contains language that undermines the Mexico City Policy. While the State-Foreign Operations Appropriations Subcommittee Chairwoman NINA LOWEY (D–NY) drafted a bill that included excellent funding levels for foreign nations in need of assistance, her amendment would essentially gut the Mexico City Policy. This will have a devastating effect on women and families overseas.

The Reagan administration, in 1984, restricted U.S. population aid by terminating USAID support for any foreign NGO that was involved in promoting or performing abortions as a method of family planning in other nations. This was called the ''Mexico City Policy,'' named after the location of the United Nations population conference where the policy was first announced. In 1993, President Clinton rescinded the policy imposed by the Reagan and Bush administrations. As his first act in office, President George W. Bush restored the Mexico City Policy on January 20, 2001 and released a letter stating, ''I will veto any legislation that weakens current Federal policies and laws on abortion, or that encourages the destruction of human life at any stage.''

The Mexico City Policy should not have been weakened. Taxpayer dollars should not, in any way, be used to promote abortion as a method of family planning. The United States should never be active in promoting abortions overseas. Instead, the U.S. should offer family planning programs that support the health of the mother, child and family unit.

There are several known organizations that use U.S. foreign aid funding to promote and provide abortions, as well as sterilizations, overseas. In 1998, newspapers were filled with stories of women participating in U.S. funded family planning programs who were forced to undergo sterilization procedures, especially in Peru. There were also stories of women coerced to participate in family planning programs by threatening to withhold food, clothing and shelter from their family.

In response to these atrocities, I introduced an amendment to the State, Foreign Operations Appropriations bill in 1998 that defined the meaning of ''voluntary participation'' in family planning programs. It was to ensure the NGOs receiving USAID funding for family planning programs understood what voluntary participation meant and required informed consent for women on the benefits and risks associated with different family planning methods. Since it was enacted for fiscal year 1999, there have been several violations and vulnerabilities in countries receiving funding. These violations and vulnerabilities were identified and corrected by USAID.

Without strong direction from the United States on how taxpayer dollars are spent, we will continue to find violations that are destructive to women and families.

It is due to the Lowey amendment, which undermines the Mexico City Policy, that I will be voting against final passage of a bill that contained important foreign aid for countries in need, such as Israel. It is unfortunate this amendment was adopted, and organizations that promote and perform abortions to the women overseas will be able to receive U.S. taxpayer funding. It is my hope the Senate will take up this bill and strike this harmful language.

Tonight, I will vote against H.R. 2476 on the basis that it clearly undermines good policy and subjects what could have been a good piece of legislation to a veto by the President. I urge my colleagues to vote against final passage of this bill.

The CHAIRMAN. The question is on the amendment offered by the gentlewoman from New York (Mrs. LOWEY).

The question was taken; and the Chairman announced that the ayes appeared to have it.

Mr. WOLF. Mr. Chairman, I demand a recorded vote.

The CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentlewoman from New York will be postponed.

AMENDMENT OFFERED BY MR. SMITH OF NEW JERSEY

Mr. SMITH of New Jersey. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. SMITH of New Jersey:

Strike the last proviso of section 622 of the bill.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from New Jersey (Mr. SMITH) and the gentlewoman from New York (Mrs. LOWEY) each will control 22½ minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. SMITH of New Jersey. Mr. Chairman, someday future generations of Americans will look back on us and wonder how and why such a rich and seemingly enlightened society, so blessed and endowed with the capacity to protect and enhance vulnerable human life, could have instead so aggressively promoted death to children by abortion.

They will note that we prided ourselves on our human rights rhetoric and record, while precluding unusually all protection to the most persecuted minority in the world today, unborn children. They will indeed wonder why it took so long to stop just one hideous method of death, partial-birth abortion—and why dismembering a child with sharp knives, pulverizing a child with powerful suction devices or chemically poisoning a baby with any number of toxic chemicals, failed to elicit so much as a scintilla of empathy, mercy or compassion for the victims.

□ 1700

Abortion is violence against children, Mr. Chairman. It is extreme child abuse. It is cruelty to children. It exploits women. In America, it has destroyed 49 million unborn babies and wounded countless numbers of women.

Now, as in previous years, some Members of Congress want to export the violence of abortion to Africa, Latin America and parts of Asia and Europe by reversing the prolife Mexico City policy and by providing in-kind assistance to some of the most vociferous pro-abortion organizations on the Earth. To counter that, Mr. STUPAK and I are offering an amendment, to strike the pro-abortion enabling language contained in this bill.

First announced by the Reagan administration at a 1984 U.N. Population Conference held in Mexico City, hence its name, the current policy simply requires that foreign nongovernmental organizations agree, as a condition of their receipt of Federal assistance for family-planning activities, to neither perform nor actively promote abortion as a method of family planning.

The three exceptions in the Mexico City policy are rape, incest and life of the mother.

Mr. Chairman, today, scores of countries throughout the world are literally under siege in a well-coordinated, exceedingly well-funded campaign to legalize abortion on demand, putting women and children at risk. Most of the pressure is coming directly from foreign nongovernmental organizations like the International Planned Parenthood Federation based in London. IPPF and its country affiliates perform abortions and lobby aggressively for abortion on demand.

IPPF, you will recall, in 1992 adopted an abortion manifesto called Vision 2000, a sweeping ''action plan.'' Vision 2000 says that IPPF and its affiliates, and I quote this, ''Will bring pressure on governments and campaign for policy and legislative changes to remove restrictions against abortions.'' The Mexico City policy puts a stop to enabling IPPF and likeminded groups from doing just that.

So it couldn't be more clear, Mr. Chairman, that if we provide either cash or in-kind contributions to abortion organizations, we empower them and we enable them to campaign to expand abortion. Instead, we should direct our funds and in-kind assistance, including commodities and contraceptives, to organizations committed only to family planning.

IPPF's vision, Mr. Chairman, is what I call a nightmare. Earlier my friend, Mr. JACKSON, was talking about the least of our brethren in found Matthew is Gospel, Chapter 25. Who in this world fits the definition of the least of our brethren more than a helpless unborn child who is being killed by dismemberment or chemical poison? I don't know who. Unborn babies are the most vulnerable people on Earth, I say to my good friend.

IPPF's vision is a world of free abortion and unfettered access to subsidized abortion rights right up until birth. It is all in their documents. They're for abortions for minors even without any parental notification or consent, and they don't like conscience clauses for doctors and health care practitioners, either.

One only has to look at Planned Parenthood here in the United States to understand where their affiliates would take the rest of the world. The Planned Parenthood Federation of America has, for example, colocated family planning clinics with abortion mills. They annually perform 265,000 abortions every year in America, a quarter of all the abortions in our country a staggering loss of children's lives. One organization. They lobby and litigate to stop women's right-to-know laws and parental consent laws. They lobby in favor of partial birth abortion. If that is not child abuse, I don't know what is. Make no mistake about it, Mr. Chairman, that is what they want to do everywhere. We kid ourselves if we don't realize that and appreciate that.

The Mexico City policy, on the other hand, separates abortion from family planning in certain foreign aid programs. It ensures that family planning is the exclusive activity of the organization and not abortion. If we provide other cash or in-kind contributions or anything of value, we again empower, we enrich and we enable these organizations. It is all about whom we give to.

Finally, I would like to say with deep respect to my prolife colleagues, especially on the Democratic side of the aisle, some of whom are under intense pressure to support the other side and to oppose Mr. STUPAK and me, if protecting babies and women from abortion matters to you, and I mean really, really matters to you, there is no way that any of us could work to overturn the Mexico City policy. This is the time to stand for the innocent and the inconvenient ones who can't speak for themselves.

I would remind my colleagues again that nothing in our language today cuts by a penny the money that is allocated in this appropriations bill for family planning. If you look, and we will do this again later, at one country after another, we have seen doubling and tripling, quadrupling even, of money going to countries, especially in Africa, for family planning under the Mexico City policy.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I yield myself such time as I may consume, and I rise in strong opposition to the Smith amendment.

Mr. Chairman, the bill before us keeps the global gag rule intact, with one important exception. It would allow for the provision of contraceptives, not direct funding, to foreign NGOs to help reduce abortion, unintended pregnancy, and the spread of HIV/AIDS. The amendment I offer today makes absolutely clear that no funding would be provided to international organizations that do not comply with the Mexico City policy. In addition, the provision provides absolutely no assistance for abortion.

This is strictly prohibited in 10 other sections of the bill. Every provision in this bill has been kept there that forbids U.S. dollars going to abortion.

There are tremendous unmet needs for contraception in developing countries that most need this assistance to address population and health crises, including the spread of HIV/AIDS and unintended and high-risk pregnancies.

The global gag rule has only made matters worse for decreasing access in many countries. U.S. shipments of contraceptives have ceased to 20 developing nations, including in Africa, Asia and the Middle East. In some areas, the largest distribution centers for contraceptives have experienced decreased access for over 50 percent of the women they serve. This decline in access to contraceptives has led to increases in unintended pregnancy and in the number of women seeking postabortion care.

It is clear that withholding contraceptives, my friends, does not reduce abortion. Providing contraceptives is the way to reduce unintended pregnancies and abortions. The numbers speak for themselves. Increased use of contraceptives in the last two decades has been accompanied by significant declines in abortion rates in a number of countries. For example, in Russia, the abortion rate declined by 61 percent, as has been mentioned, between 1988 and 2001, as modern contraceptive use increased by 74 percent.

Proponents of the Smith amendment will make several false claims. They may say that this provision would provide funding or assistance for services and products other than contraceptives directly to international NGOs who are not compliant with Mexico City. It absolutely will not.

□ 1715

They will argue that the Smith amendment will not cut family planning funds in this bill. However, it will dramatically decrease the effectiveness of our international family planning aid by withholding contraceptives to the areas of the world that need them most to prevent unintended pregnancies, abortions and the spread of HIV/AIDS.

The other side will also say that my provision encourages abortion as a means of family planning. Nothing could be further from the truth. Abortion is already illegal in many of the areas that would receive contraceptives under my provision, particularly in African countries. Furthermore, these organizations do not promote abortion as a means of family planning. They provide family planning to prevent unintended pregnancies, thereby reducing abortion.

You may also hear that by providing contraceptives, these organizations will be able to use their own funds for other purposes prohibited by Mexico City. I have already made clear the incredible unmet need for contraceptives. In Uganda alone, the average number of births per woman is 7.1, while the unmet need for family planning is reported by married women at 35 percent. The bill will provide donated contraceptives, not funding, to groups that are unable to provide enough contraceptives in areas with severe shortages.

Furthermore, contraceptives are not fungible. They are used for contraception. Period. By filling the unmet need for contraceptives, each year we can prevent 52 million unwanted pregnancies, an estimated 29 million abortions, 142,000 pregnancy-related deaths, and 505,000 children from losing their mothers.

It is clear that voting for the Smith amendment and against contraceptives is an extreme position that will in fact hurt our efforts to decrease abortion. So if you really want to decrease abortion, if you really say you are for family planning, if you really want to save lives, if you really want to decrease HIV/AIDS, which is spreading throughout the world, vote no on the Smith amendment.

Mr. SMITH of New Jersey. Mr. Chairman, I yield 3 minutes to the distinguished gentleman from Michigan (Mr. STUPAK), the coauthor of this amendment.

Mr. STUPAK. Mr. Chairman, I rise today in support of the Smith-Stupak amendment, which is the only amendment before the House that would restore the Mexico City Policy. This policy is a vital, pro-life provision intended to protect the integrity of U.S. family planning programs around the world by establishing a clear wall of separation between abortion and family planning. By directing support to organizations that agree not to promote or perform abortion as a method of family planning, we ensure that U.S.-supported programs are not in the abortion business.

Let me be clear: Our amendment does not, does not, reduce international family planning funding for services or contraceptives by a single penny. Instead, the policy that we are promoting improves the credibility of international family planning programs by ensuring that they are entirely separated from abortion activities.

Despite misleading statements to the contrary, the previous Lowey amendment is not about contraceptives or HIV. We have provisions in the legislation where that language can be put, and it would be perfectly acceptable to all of us. Instead, the Lowey amendments are a direct assault on the Mexico City Policy.

The Smith-Stupak amendment restores the Mexico City Policy and in no way reduces funding for contraceptives. U.S. family planning funded in this bill at $441 million should be directed to organizations that do not promote or perform abortions.

The effort to prevent unplanned pregnancy by providing contraceptives continues robustly under the Mexico City Policy. As you can see from the chart here before me, U.S.-funded family planning increased dramatically in countries where USAID has found the need to be the greatest.

Mrs. LOWEY claims Ethiopia and some of these others have actually decreased money. It is simply not true. If you look, in Ethiopia funding has nearly quadrupled, increasing from $4.9 million to $19.5 million under the Mexico City Policy. In Uganda, funding has almost doubled, from $5.2 million to $9.8 million.

International family planning is funded at $441 million in this bill, and it will still be funded at $441 million in this bill under the Smith-Stupak amendment.

I would give the previous speaker, Mrs. LOWEY, credit for being ingenious. It is an ingenious amendment which really undermines the Mexico City language.

I urge all Members to support our pro-life and pro-family amendment. Support the Smith-Stupak amendment.

Mrs. LOWEY. Mr. Chairman, I am very pleased to yield 2 minutes to the gentlewoman from Minnesota (Ms. MCCOLLUM), a distinguished member of the committee.

Ms. MCCOLLUM of Minnesota. Mr. Chairman, the Smith amendment does nothing to reinstate the Mexico City executive order. It is an executive order. What is in statute and what continues to be in statute, on page 93 of H.R. 2764, section 618, ''None of the funds may be made available to be paid for the performance of abortion as a method of family planning.''

On line 13, ''None of the funds,'' and then it goes on to say, ''may be used for the performance of involuntary sterilization as a method of family planning or to coerce or provide financial incentive to any person undergoing sterilization. None of the funds may be made available to carry out part of the Foreign Assistance Act of 1961, as amended, that may be used to pay for biomedical research for the performance of abortions or involuntary sterilization.'' None of the funds. None of the funds. That is all protected in here. The Smith language doesn't change anything.

President George Bush in fact himself has said that one of the best ways to prevent an abortion is to provide quality family planning programs. And here are the facts, folks.

In developing countries, 120 million married couples would like to postpone their next pregnancy or have no more children, but they don't have access to modern contraceptives. In sub-Sahara Africa, 26 percent of the women who desire to delay or end their child bearing remain without access to volunteer family planning and then they risk an unintended pregnancy. Every year more than 525,000 women die from causes related to pregnancy in childbirth, with 99 percent of these deaths occurring in developing countries. An additional 8 million women each year suffer needless complications from pregnancy and birth. And lack of spacing birth, this is really key, because I have spoken to women in Africa and in Latin America, lack of spacing birth results in intervals of 9 to 14 months, which raises the increased maternal death rate by 250 percent.

Vote for voluntary family planning. Vote for 22 more additional countries receiving voluntary planning. Vote against Smith.

Mr. SMITH of New Jersey. Mr. Chairman, I yield 3 minutes to the distinguished gentlewoman from North Carolina (Ms. FOXX).

Ms. FOXX. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I rise today in support of the Smith-Stupak amendment that guards against policies that would lead to taxpayer funding of abortions abroad. This amendment would ensure that the Mexico City Policy is included in this spending bill.

The Mexico City Policy, first enacted by President Reagan in 1984 and reinstated in 2001, ensures that organizations that do international population assistance work and that promote abortion as a method of family planning do not receive United States funding.

This is a critical policy that underscores the sanctity of human life by telling groups that if they want to promote abortion, they better find a source of funding other than the U.S. taxpayer. It is quite simple: If a group demonstrates a disregard for human life, they don't get funding.

Let me be clear, the Mexico City policy and this funding do not reduce funding for family planning programs. The focus instead is on channeling funds to organizations that agree not to promote abortion. There is, therefore, no overall reduction of family planning funds. Again, the guidelines are simple. If you promote abortion, the U.S. Government will not be giving you money.

Under the current language in the State-Foreign Operations appropriation bill, funding would once again flow to groups that promote abortion. The Smith-Stupak amendment would eliminate language that allows funding to go to even the most aggressively pro-abortion groups.

This amendment is about our Nation's abortion policy. As such, it is entirely focused on ensuring our government does not fund groups that promote abortion. I support this amendment because it wisely guards against any erosion of our protection of the sanctity of human life.

Mrs. LOWEY. Mr. Chairman, I am delighted to yield 2½ minutes to the gentlewoman from California (Ms. LEE), an outstanding member of the committee.

Ms. LEE. Mr. Chairman, I want to thank the gentlewoman for yielding and once again for her very valiant efforts to save lives of women and children throughout the world.

Let me first say I rise in strong opposition to the Smith amendment. This bill includes a very narrow provision to allow foreign NGOs to receive only U.S.-provided contraceptives. Chairwoman LOWEY has additionally offered the amendment that clarifies the existing language in the bill to make it absolutely clear that this provision only allows for the donation of the contraceptives.

This provision has absolutely nothing to do with funding. The bill does not provide financial assistance to clinics or to NGOs. It simply allows those family planning organizations that have been denied USAID family planning funding under the global gag rule to receive contraceptives from USAID and domestic NGOs.

Again, it has nothing to do with providing assistance for abortions, which are already strictly and clearly prohibited in 10 other provisions in this bill, which, I must say, I am very disappointed with. But the fact is that those provisions are there.

By providing contraceptives, we will actually help to reduce abortions, reduce the spread of HIV and AIDS and save the lives of mothers and infants by reducing the number of high-risk and unintended pregnancies.

The negative impact of the gag rule, which, of course, as I said earlier, and you all know this, this bill leaves the gag rule in place, but the negative impact is well documented. Since it was reinstated in 2001, shipments of United States-donated contraceptives have ceased in 20 developing countries in Africa, Asia and the Middle East.

The NGOs most affected are often the ones with the most extensive distribution networks and the largest outreach to young women in rural areas. They often provide the only family planning program in a region and they have suffered severely from the cutoff of contraceptive shipments. The Smith amendment would continue to punish these NGOs for running successful family planning programs and would effectively undermine the goal we all share to reduce abortions and HIV and AIDS around the world.

For the life of me, I don't understand why we are doing this, Mr. SMITH. You know and I know that this does not tamper with, unfortunately, the global gag rule or Mexico City language.

So let's be straightforward. Let's be honest. What we are trying to do today is just save the lives of women and children.

Mr. SMITH of New Jersey. Mr. Chairman, I yield 1 minute to the distinguished gentlewoman from Tennessee.

Mrs. BLACKBURN. Thank you, Mr. SMITH, for the opportunity to speak.

Mr. Chairman, what this is about is a philosophical difference of how we approach things. This is about respect for life, our's and those in other countries. I commend the gentleman on the amendment, and I do rise in support of this amendment and of the Mexico City Policy and making certain that we pass the Smith-Stupak amendment. It will strike the language that would undermine that policy.

It is not going to take away the $441 million for family planning. It is going to put a bright line of separation between abortion and family planning. The U.S. should not be in the business of exporting abortion overseas. It has been a tragedy for women here in the U.S., and it will carry the same hurt, it will carry the same trauma if it is used abroad.

So I commend the gentleman for his amendment. I rise in support.

Mrs. LOWEY. Madam Chairman, I am pleased to yield 2 minutes to the distinguished gentleman from Missouri (Mr. CARNAHAN).

Mr. CARNAHAN. Mr. Chairman, it bears repeating, the statistics we have heard so many times about the language that is in this bill and what is not in this bill. There are at least 10 provisions in the bill that prohibit U.S. foreign assistance from being used to promote or perform abortions. In many of these countries, abortion is illegal. That could not be more clear.

I want to thank Chairwoman LOWEY for her leadership on this bill and for including this commonsense, common ground, family planning provision to include contraceptives only, and not funding.

I rise today in strong support of both the Lowey amendment and of the contraceptives-only provision in the bill, and in opposition to the Smith amendment.

Under current U.S. policy, too many people in the developing world, especially Africa, contraceptives are in short supply, placing the health and well-being of millions of people at risk. President Bush has recognized the crisis and proposed a major Africa initiative.

The very specific and narrowly tailored language of Chairwoman LOWEY's language allows the U.S. to provide contraceptives only so NGOs can provide contraceptives in developing countries. This provision is, as I say, a commonsense, common ground solution to a very real problem. This provision will reduce the number of unintended pregnancies, help prevent abortions and help stem the spread of disease, including HIV/AIDS.

The far-reaching impacts of this provision are immeasurable. This will make a substantive difference in the lives of women and families around the world by allowing them to protect themselves and plan and space their births. It will help slow rapid population growth, which results in poverty and instability. It will help stop the spread of HIV/AIDS.

I urge all my colleagues who are committed to family planning to oppose the Smith amendment, vote to support the Lowey amendment and the underlying bill.

Mr. SMITH of New Jersey. Mr. Chairman, I yield 1 minute to the gentlewoman from Florida (Ms. ROS-LEHTINEN), the ranking member of the Foreign Affairs Committee.

Ms. ROS-LEHTINEN. Mr. Chairman, I rise in support of the amendment offered by my good friend Congressman SMITH of New Jersey and Mr. STUPAK, which seeks to restore the Mexico City Policy. It is a longstanding guideline for receiving U.S. family planning assistance.

This policy, as we know, prevents U.S. funding for foreign nongovernmental organizations, NGOs, that perform or promote abortion as a method of family planning. This standard is consistent with our domestic policy, as regulations prohibit taxpayer dollars from programs that support abortion as a method of family planning.

The Mexico City Policy applies the same standard of domestic funding to global family planning, and therefore reinforces the belief that the fundamental goal of family planning programs should be to reduce abortions. By eliminating the Mexico City Policy, we are devaluing the importance of other preventative methods of family planning.

As the ranking member of the House Foreign Affairs Committee, I am seriously concerned about the effect that such a policy change would have on our ability to protect the respect for innocent human life and human rights worldwide.

□ 1730

Mrs. LOWEY. Mr. Chairman, I am very pleased to yield 2 minutes to the distinguished gentlewoman from New York (Mrs. MALONEY).

Mrs. MALONEY of New York. Mr. Chairman, I rise in opposition to the Smith amendment.

We have heard it so many times before, but the global gag rule is not about abortion. It is about women dying to the tune of 600,000 a year. That is equal to one or two jumbo jets crashing each day. The fact remains that, since 1973, no U.S. Federal funds have been or are being used around the world for abortions.

My colleagues on the other side of the aisle say that they respect life, but during the time that we have been debating this bill, 65 women around the world will die from pregnancy because of many related complications; and they are dying because they do not have access to the most basic health care such as contraceptives.

I commend my colleague, Mrs. LOWEY, for her commonsense approach to refining the global gag rule. Although I support a full repeal of the global gag rule, it would be unconstitutional in our country, and it is unconscionable that we are exporting it to the world's poorest women.

But the Lowey amendment merely allows NGOs and organizations to receive contraceptives, which are proven to prevent unintended pregnancies, abortions and sexually transmitted diseases. That is what it does. It is family planning.

So I ask my colleagues, what do we tell a Somalian mother whose teenage

daughter has just died in childbirth? Do we explain there are some politicians in Washington who do not think that she deserves the same information and health care services that their own daughters have?

These programs are about saving women and girls' lives and helping both men and women get access to reproductive health services. So if you oppose abortion and oppose the spread of HIV/AIDS, it makes common sense, good sense to support access to contraceptives and oppose the Smith amendment. Support the Lowey provision.

Mr. SMITH of New Jersey. Mr. Chairman, I yield 1 minute to the gentlewoman from Colorado (Mrs. MUSGRAVE).

Mrs. MUSGRAVE. Mr. Chairman, I rise in support of the Smith-Stupak amendment.

I believe women in developing nations, these poor women are not asking help to abort their children. They are asking for help with food, housing and medical care for them and their families. It costs roughly $5 to spray a house with the cheapest insecticide to protect entire families from being infected with malaria.

The drug Nevirapine reduces the risk of prenatal HIV infection by 50 percent. One dose is given to the mother and one to the baby, and these two doses only cost $5.

Mr. Chairman, I believe this is how our foreign aid dollars should be spent, saving lives, not destroying them. Most preventable child deaths are from malnutrition, diarrhea, pneumonia, infections of newborns and malaria.

The United States has contributed more than $1.5 billion in the last 5 years to treat almost 5 billion episodes of child diarrhea with lifesaving oral rehydration therapy, and we have reduced deaths from diarrheal disease by more than half since 1990.

These are the success stories of how U.S. tax dollars are saving lives, and we need to continue to preserve lives. The money in this bill should be spent on newborn care programs and not on destructive abortion procedures destroying the life of the child and harming women.

I believe we need to export lifesaving policy that provides poor women with the food, with the housing and the medicine that they need so desperately.

Mrs. LOWEY. Mr. Chairman, I am very pleased to yield 2 minutes to the gentleman from New York (Mr. ISRAEL).

Mr. ISRAEL. Mr. Chairman, I rise in opposition to this amendment. Let me say at the outset, I have the deepest respect for the opinions expressed in this Chamber. I may not agree with them, but I respect them.

We are all try to reduce unintended pregnancies. We are all trying to reduce abortion. In contrast to what a prior speaker said, there is nobody here in this Congress, right or left, who doesn't have respect for human life; and that kind of verbiage really ought not to be expressed in this Chamber.

I will say, however, that while I respect my opponents' arguments, the arguments do lose some credibility on the issue of fungibility. The fact of the matter is, as has been stated before, not one penny in Mrs. LOWEY's bill is spent promoting or providing abortion. It is on in-kind contraceptives.

My friends on the other side of the aisle have said, whoa, whoa, but that is promoting the funding of abortion, because every single in-kind contraceptive that is donated means that there is more money by that country to fund an abortion.

Well, if you are going to apply that argument, my friends, then you better just admit defeat on the global war on terror right now. Because the fact of the matter is that many of the same countries that we are providing in-kind military assistance to to help us in the global war on terror allow for legal abortion. Some even provide abortion services.

Here is a map. If you are going to argue the fungibility issue, then in fact every time that we provide funding to Pakistan, we are promoting abortions, because in some cases abortion is legal in Pakistan.

Every time we are providing military funding and assistance to India, we are promoting abortions. Australia, Japan, South Korea. When we are providing funding for the Colombian antidrug initiative, we are promoting abortions in Colombia under that argument. Canada. Russia. When we provide military assistance to secure loose nukes in Russia, under your argument that money is fungible. They can take our assistance, secure the loose nukes and then use that money in order to provide and promote abortions.

If you use that argument, my friends, you need to go back to your districts today and admit to your constituents that every time you have supported that military aid you have supported abortion, because the money is fungible.

The Czech Republic. Many of you support providing military assistance and in-kind assistance to the Czech Republic for the national missile defense system. They permit abortions. Albania, Armenia, Bulgaria, NATO countries, South Africa, the Ukraine.

The fact of the matter is that the fungibility argument has no credibility. You can only have fungibility if you have money. There is no money in this bill for abortion services.

If we are going to have an honest debate on this issue, let's be honest and let's be consistent. What this language does is say we want to reduce unintended pregnancies. We want to reduce abortions. The way to do it is to allow for in-kind contributions of contraceptives. This is important language.

I oppose the amendment, and I urge Members to be consistent.

Mr. SMITH of New Jersey. Mr. Chairman, I yield myself 10 seconds just to say that the previous speaker's comments missed by a mile what this is all about.

The Mexico City policy does not apply to a single country. It applies to organizations. Countries are expressly excluded from Mexico City policy. It is all about pro-abortion organizations, and whether or not we want to enrich and enable them to expand abortion. We want to put our money and in-kind contributions to those that have divested themselves from the killing of unborn children.

I yield 2 minutes to the gentleman from Nebraska (Mr. FORTENBERRY), a member of the Foreign Affairs Committee.

Mr. FORTENBERRY. Mr. Chairman, I rise in support of the Smith-Stupak amendment and encourage my colleagues to support this measure to prevent the U.S.-taxpayer-funded export of abortion.

The purpose of U.S. foreign assistance is to strengthen the foundation for international stability by fostering civil society, supporting institutions that foster self-determination, and helping the vulnerable by bringing healing and hope and basic sustenance.

As a leading provider of foreign assistance worldwide, the United States has made extraordinary strides towards alleviating suffering throughout the world. Unfortunately, an element of the Foreign Operations bill before us today risks undermining this noble legacy.

The Mexico City policy, first announced by President Reagan in 1984, requires that as a condition for receiving Federal funds for family planning, foreign nongovernmental organizations agree that they will neither perform abortions nor lobby to change abortion laws or otherwise actively promote abortion as a method of family planning.

The Foreign Operations bill, as it currently stands, would undo this policy and subsidize abortion providers overseas. U.S. taxpayers should not be forced to do this, nor should other countries be forced to accept it. Abortion is so often the result of abandonment, Mr. Chairman; and I believe women deserve better.

Mr. Chairman, many Americans aren't comfortable about the rightness or wrongness of it. Many Americans are unsure in their heart of hearts about the ethics of abortion. Americans agonize about this difficult issue, and our collective experience as a society demonstrates the grave consequences.

Given these considerations, is abortion really the best we can offer to

some of the most vulnerable populations in the world? Is this really how we wish to be identified as a Nation?

Mr. Chairman, I urge my colleagues to retain the long-standing Mexico City policy and not to compromise the reputation and legitimacy of our foreign assistance programs.

Mrs. LOWEY. Before I yield to the distinguished gentlewoman from California, I would like to yield an additional 30 seconds for clarification to my good friend from New York (Mr. ISRAEL).

Mr. ISRAEL. I thank the gentlewoman.

I do seek a clarification. The distinguished gentleman from New Jersey attempted to clarify, but I am now a little more confused. As I understood his argument, he said that when an organization promotes abortion, we are looking to punish it. But when a country that we happen to like promotes abortion, then we can provide them with $300 million or $400 million in budget support.

Mr. SMITH of New Jersey. Mr. Chairman, will the gentleman yield?

Mr. ISRAEL. I yield to the gentleman from New Jersey.

Mr. SMITH of New Jersey. First of all, we are not punishing. We are saying that, as a matter of human rights principle, that the killing of an unborn child rises to a sufficient level that we will pick other NGOs to whom we will give our dollars.

Mrs. LOWEY. I yield to the distinguished gentlewoman from California (Ms. WOOLSEY).

Ms. WOOLSEY. Mr. Chairman, maybe, just maybe, if a woman has access to contraceptives, abortion will be prevented.

What is wrong with you people? Where do you come from?

Oh, that's right, you come from the United States of America, where all women are allowed, rich or poor, to have access to and choices over family planning. Lucky us.

There are many choices for preventing unwanted pregnancies, and let us not forget prevention of HIV/AIDS. If you are against abortion, at least support prevention. If you are concerned about HIV/AIDS, support contraception.

Our Nation has a long history of generosity and caring. That should not end today. What are we doing? We are up here with the Lowey amendment ensuring that women in the poorest villages in the poorest countries have access to contraceptives. We are doing that by providing medically approved and necessary contraceptives to women who would otherwise have no other means to prevent unwanted pregnancies and/or to prevent HIV/AIDS.

Unintended pregnancies and illegal abortions have been on the rise in areas where access to family planning has been denied. Chairwoman LOWEY's provision is just plain common sense. Let's put women's health above politics and vote ''no'' on the Smith-Stupak amendment.

Mr. SMITH of New Jersey. Mr. Chairman, I yield 1 minute to the gentleman from Colorado (Mr. LAMBORN).

Mr. LAMBORN. Mr. Chairman, I rise today in support of the Smith-Stupak amendment. The Mexico City policy does not reduce family planning funding at all. It only requires that funds, support and supplies are directed to NGOs that do not promote abortion as part of family planning.

U.S. taxpayers should not be forced to hand their hard-earned tax money over to organizations that practice policies that these taxpayers morally oppose. The Mexico City policy has established that clear bright line that allows us to provide assistance in a morally acceptable manner.

President Bush has clearly indicated his intent to veto this bill if it weakens current Federal policies and laws on abortion or that encourages the destruction of human life at any stage. Enough of us, myself included, have pledged to sustain this veto that it will, indeed, be sustained.

We must ensure that taxpayer funds do not underwrite organizations that perform or promote abortion as a method of family planning. I urge my colleagues to support the Smith-Stupak amendment today.

□ 1745

Mrs. LOWEY. Mr. Chairman, I am pleased to yield 2 minutes to the gentleman from Rhode Island (Mr. LANGEVIN).

Mr. LANGEVIN. Mr. Chairman, I unfortunately must rise in opposition to the Smith-Stupak amendment. I have great respect for the passion displayed by Mr. SMITH and Mr. STUPAK and I share their opposition to abortion. However, in this instance I must strongly disagree with their decision to prevent the distribution of contraception to some of the most poor and needy people and nations in the world.

Mr. Chairman, we are asked to make an important decision in this year's debate on the Foreign Operations bill. Our commitment to providing international family planning speaks volumes about who we are as a nation. These funds reach some of the most vulnerable populations in the world and can literally mean the difference between life and death.

I know that Americans regardless of their position on abortion are horrified by the statistics on HIV/AIDS in Africa and the number of unwanted pregnancies and abortions throughout the developing world. I believe that it is our responsibility, as people committed to the sanctity of life and the basic human dignity of all people, to respond to this crisis. I believe that it is also our responsibility to do so in the most effective manner possible while staying true to our core values. The language that Chairwoman LOWEY proposes makes it possible for the United States to provide developing nations access to contraceptive products, products that save lives. The Lowey language ensures that the organizations best equipped to distribute these products to the neediest, poorest parts of the world are able to do so. Finally, it respects the law of the land that prohibits Federal financial assistance to organizations that provide abortions or abortion counseling.

I know that crafting this language was no easy feat and I commend Mrs. LOWEY for her dedication to moving forward with a bill that reflects the values of our Nation and respects the strong feelings that Members have on both sides of the abortion debate. I urge my colleagues to vote ''no'' on the Smith-Stupak amendment and allow this critical, lifesaving assistance to reach those who so desperately need it.

I thank the gentlelady for yielding.

Mr. SMITH of New Jersey. Mr. Chairman, I yield 30 seconds to the distinguished gentleman from Florida, Dr. DAVE WELDON.

Mr. WELDON of Florida. I just want to clarify a point just made by the gentleman from Rhode Island. Under the Smith language, contraceptive devices will be distributed. This whole debate is about whether we're going to give contraceptives to Planned Parenthood, Parenthood International, aggressively trying to overturn the pro-life laws in countries all over the world.

We have dramatically increased distribution under Mexico City of contraceptive devices. Ethiopia, from 4.9 million to 19.5 million. A big, long list here. This is about Planned Parenthood and their effort to overturn pro-life laws all over the world and we don't want to give money to them. That's what this debate is about.

Mrs. LOWEY. Mr. Chairman, I reserve the balance of my time.

Mr. SMITH of New Jersey. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Alabama (Mr. ADERHOLT).

Mr. ADERHOLT. First of all, I would like to thank Mr. SMITH and Mr. STUPAK for their leadership on this amendment. What we are doing here on this amendment is no small thing.

Mr. Chairman, I believe it should be noted for the record that most Americans do not believe that abortion is an appropriate form of family planning. To suggest it is simply wrong. It would never be considered proper within the United States and it isn't proper that taxpayers' money be spent for this purpose overseas.

The amendment that we are debating today in question is not anti-family planning. There are a number of alternatives to abortion which do not rise to the level of concern that this proposal engenders. This is only anti-family planning if one considers abortion

to be a method of family planning. I reject this way of thinking and urge the adoption of this amendment.

When President Bush adopted our Nation's current policy, he was right. Prohibiting the expenditure of taxpayer dollars to fund abortions outside the United States is a policy that has been in place for many years. Therefore, I urge all of my colleagues who care about the sanctity of human life to vote in favor of the Smith-Stupak amendment.

Mrs. LOWEY. May I ask how much time is remaining on both sides, Mr. Chairman.

The CHAIRMAN. The gentlewoman from New York has 30 seconds. The gentleman from New Jersey has 3¼ minutes.

Mrs. LOWEY. Mr. Chairman, I reserve the balance of my time.

Mr. SMITH of New Jersey. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Ohio (Mr. JORDAN).

Mr. JORDAN of Ohio. I thank the gentleman from New Jersey and the Congressman from Michigan for their work on this amendment and their longstanding commitment to protecting human life.

This is about two fundamental issues that have been talked about here on the floor. First, taxpayer dollars shouldn't go to organizations, whether those dollars are cash or in-kind, shouldn't go to organizations that perform or promote the taking of innocent human life. Second, it recognizes the more fundamental principle, life is precious, life is sacred, and government's fundamental responsibility is to protect the weak from the strong, to protect those innocent individuals whose lives are being taken.

This is good public policy. We should keep it in place. It's consistent, frankly, with our heritage and with our history. I always like to remind folks of what the founders said when they talked about that fundamental document that started this great experience we call America: Life, liberty and the pursuit of happiness.

It's interesting to note the order the founders placed the rights they chose to mention. Can you pursue happiness, your goals and dreams, if you first don't have liberty? And do you ever have true liberty, true freedom, if government does not protect your most fundamental right, your right to live?

This amendment is consistent with the founders' vision, it's good policy, and we should adopt it.

Mrs. LOWEY. Mr. Chairman, I yield 30 seconds to my good friend, Mr. RYAN.

Mr. RYAN of Ohio. I just would like to end this debate to say that we all have the same goals here. We all want to reduce the number of abortions. Nobody wants to celebrate it. I'm a pro-life Democrat. I voted for the ban on partial-birth abortion and I'm proud of my vote. But we do have an honest disagreement on how we reduce the number of unintended pregnancies. And to me it is clear that if we do not provide contraception to these poor women in these poor countries, then we will have more abortions. The statistics bear this out, the facts bear this out, and that's why this amendment needs to go down and we need to pass the chairwoman's language here, because I believe that if this amendment passes, there will be more abortions, not less.

And one final comment to the gentleman from New Jersey, we were not pressured to support this position. We came to this position by honestly looking at the facts. No leadership pressured us, me and Mr. LANGEVIN and those of us who have a different voting record than some people over here. So this is our choice. Please vote down this amendment and let's reduce the number of abortions.

Mr. SMITH of New Jersey. Mr. Chairman, I ask unanimous consent that the gentleman from Virginia (Mr. WOLF) control the remainder of the time.

The CHAIRMAN. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. WOLF. Mr. Chairman, I yield 1 minute to the gentleman from Virginia (Mr. CANTOR).

Mr. CANTOR. I thank the gentleman.

I rise today in support of the Smith-Stupak amendment to strike the language eliminating the vitally important protections of the Mexico City Policy. I just believe it's wrong to force American taxpayers to subsidize organizations who actively promote abortion in foreign nations.

In response to some of the arguments on the other side that this is not about promoting abortion or not, I disagree. It's really not about providing contraceptives. This is about promoting abortion. Because as the gentleman from New Jersey was trying to say before he was cut off, there are NGOs that are in compliance with the Mexico City Policy which means that they neither perform nor actively promote abortions as a method of family planning in other nations. It is they who are eligible for assistance under the Mexico City Policy. It is they who should be getting the benefit, not those organizations that are promoting abortions around the world that can substitute the provision of these contraceptives to then use that money available to go and pursue their other agenda.

Mr. WOLF. Mr. Chairman, I yield the balance of my time to the gentleman from Texas (Mr. HENSARLING).

The CHAIRMAN. The gentleman is recognized for 1¼ minutes.

Mr. HENSARLING. I thank the gentleman for yielding.

Mr. Chairman, I rise today in support of the Smith-Stupak amendment to restore the pro-life Mexico City Policy protections that were effectively stripped from this bill.

Human life is a precious commodity and around the globe it is still too often taken for granted. Like millions, in my heart and in my mind, I believe that life begins at conception. And as a Member of this body, I feel I have an obligation to protect the right to life wherever I can. The most effective way to do that now, today, is to support the Mexico City Policy which would prevent our international aid from going to foreign organizations that support or promote abortions.

This policy is based on the simple idea that American taxpayers should not be forced to export abortions with their money. Again, we're talking about taking money away from the American taxpayer and using it to subsidize foreign abortions. For most, this defies common sense. It defies fiscal sense. And it is reprehensible to the millions who believe in the fundamental right to life.

I urge all Members to support the Smith-Stupak amendment.

Mr. WOLF. Mr. Chairman, I move to strike the requisite number of words.

The CHAIRMAN. The gentleman is recognized for 5 minutes.

Mr. WOLF. I yield to the gentleman from Indiana (Mr. PENCE).

Mr. PENCE. I thank the gentleman for yielding.

Mr. Chairman, I rise today in strong support of the Stupak-Smith amendment. This amendment very simply ensures that our taxpayer Foreign Operation funds will not be used to support abortion overseas. The Mexico City Policy, which was first instituted in 1984 by President Ronald Reagan, simply states that any U.S. funding for family planning cannot be used to promote abortions as a suitable option in family planning.

As divisive as this issue is among many Americans, this issue is a consensus issue. The American people know whatever your view of abortion, whether it is morally right or morally acceptable, most Americans agree that it is morally wrong to take the taxpayer dollars of millions of Americans who cherish the sanctity of human life and use it to fund and to underwrite organizations that promote abortion overseas.

It is precisely for that reason that I rise today in strong support of this thoughtful amendment and urge my colleagues to preserve the Mexico City Policy and vote ''aye'' on the Stupak-Smith amendment.

Mr. WOLF. Reclaiming my time, I yield the balance of my time to the gentleman from New Jersey (Mr. SMITH).

Mr. SMITH of New Jersey. Mr. Chairman, recently a new organization formed in the United States called the Silent No More Awareness Campaign.

It is made up entirely of women who have had abortions. One of the women, Dr. Alveda King, niece of the late Dr. Martin Luther King, has had two abortions. She is now one of the most passionate spokeswomen on earth in favor of the unborn child and in favor of protecting women from abortion and assisting women harmed and wounded by abortion. She has pointed out that women in America, and increasingly in the world in countries where it has been legalized, become the walking wounded and carry with them the deep emotional and physical scars of having had an abortion under the cheap sophistry choice. Dr. King used to be on the other side of the issue and she, like the other women in Silent No More, are now adamantly pro-life. Dr. King and so many others call on us today to defend life and not export abortion.

The Appropritions bill on the floor today provides $441 million for overseas family planning. That is in the bill. It's untouched by the Smith-Stupak amendment. But who we give grant money or inkind donations to matters. When you pour in-kind contributions into pro-abortion organizations whose raison d'être, and just read their literature and Web sites and look at what they're doing in those countries, is to legalize abortion on demand and to promote abortion by way of clinics, you realize that a vote against the Smith-Stupak amendment is a vote to enable abortion on demand.

Abortion is child abuse. That may not be something nice to say on this floor, some of you may cringe over it because you think it's all about choice. Choice to do what? Dismember, chemically poison a child. These are children. Welcome to 2007. Ultrasound technology has shattered the myth that an unborn child is not human or not alive. Birth is an event that happens to each and every one of us. It's not the beginning of life.

□ 1800

Prenatal surgery has shattered myths concerning the unborn as well. Unborn children are patients. So let's give the money to the family planners overseas that are all about family planning, not abortion promotion.

Mrs. LOWEY. Mr. Chairman, I move to strike the requisite number of words.

I yield to my good friend, the gentleman from Ohio (Mr. RYAN).

Mr. RYAN of Ohio. Mr. Chairman, I cannot let that go unanswered. We are not promoting abortion. We are trying to reduce the number of abortions by providing contraception.

The fact of the matter is the Republican party has no plan on reducing the number of abortions, none. There is only one way to do it, and you provide contraception to poor people. That's what we are trying to do.

You're right. It's not about who's getting; it's about who's not getting. There are poor women who are not getting contraception and contraceptives. We are trying to provide it.

I commend what you are trying to do. We are trying to reduce number of abortions, and all the explicit details of an abortion procedure are exactly why we are trying to do this.

Mrs. LOWEY. I thank the gentleman.

Mr. Chairman, I want to make it very clear in closing, we all may have different views about abortion. I respect your views. I may differ. Each person is entitled to their own conscience and their own views on abortion.

But this is not about abortion. Every provision forbidding U.S. dollars going to abortion is in this bill, and it remains in this bill. The choice is clear, my friend.

My amendment will provide donated contraceptives, reduce unintended pregnancies, reduce the number of abortions, prevent HIV/AIDS, save lives, save the lives of millions of poor people around the world. This amendment will save lives. Mr. SMITH's amendment will lead to more abortions, put more lives at risk.

My friend, the choice is very clear. If you want to reduce the number of unintended pregnancies, if you want to save lives, if you want to prevent abortion, you vote for the Lowey amendment and against the Smith amendment.

Mr. GINGREY. Mr. Chairman, I rise in strong support of the amendment offered by both the gentleman from Michigan, Mr. STUPAK and the gentleman from New Jersey, Mr. SMITH.

This amendment would simply reaffirm our country's long standing commitment to not using federal taxpayer money to fund or support abortions. More specifically, this amendment would preserve the decades-old, internationally agreed upon Mexico City Policy that defends the sanctity of life by preventing taxpayer dollars from funding overseas family planning organizations that promote or perform abortions.

Mr. Chairman, while many Americans may disagree on the issue of abortion, a vast majority of them do not believe that abortions should be publicly funded. This Mexico City Policy significantly prevents the exploitation of developing nations where some non-governmental organizations aggressively advocate the use of abortion as birth control—birth control, Mr. Chairman. The tactics of these NGOs are simply and utterly unconscionable, and I know Americans don't want their tax dollars funding these activities.

Now, opponents of the amendment have tried to assert that it would take away funding from international family planning. Quite to the contrary, this Amendment does not take one single cent from these activities, but rather maintains the current policy preventing Federal funding of foreign abortions. We must remain resolute in the preservation of this policy.

Having practiced as a pro-life OB–GYN for nearly 30 years, I firmly believe that we have an obligation to protect life at each and every stage—and this obligation does not just apply to unborn Americans.

Any human life—regardless of geography, regardless of circumstance—has the right to exist. Foreign abortions are just as tragic as abortions here at home.

We should not and we cannot allow the Mexico City Policy to be abandoned. Therefore, I urge my colleagues to support Stupak/Smith.

Mr. MANZULLO. Mr. Chairman, today I rise in support of the amendment to reinstate the Mexico City Policy. This policy ensures that U.S. bilateral family planning programs are not conduits for exporting abortions internationally.

Let me be clear from the beginning: the Mexico City Policy is NOT anti-family planning. In no way does this policy reduce the $425 million that the United States provides in family planning assistance. What this amendment does do is to put a wall between contraception and abortion, thereby preventing this Congress from making the American taxpayers an implicit partner in the aborting of unborn children. It sends the message that as Americans, we stand for the life and liberty of all individuals—those whose voices can be heard, and those whose voices cry from the womb.

This Democrat-led Congress has voted to protect roosters from cockfighting and horses from slaughter. Doesn't it would seem logical that this Congress would stand up and protect the fragile lives of the unborn?

But this Congress has shown that it is only selectively sympathetic to the furtherance of life. As when horses are killed, or roosters are hurt. But not when a tiny, human life is stamped out with the approval of our government.

I urge my colleagues to adopt this amendment.

Ms. SLAUGHTER. Mr. Chairman, I rise today in strong opposition to this amendment before us.

The Foreign Operations Appropriations measure in its current form will reduce the number of unintended pregnancies globally, curb the deadly spread of HIV/AIDS, and improve infant and maternal survival rates throughout the developing world.

I want to commend my friend and colleague, Congresswoman LOWEY, for including a provision in this measure which provides a targeted exemption from the Global Gag Rule.

This will allow NGOs to receive U.S.-donated contraception and condoms.

For the past 6 years, the global gag rule has jeopardized access to comprehensive health care for women in developing countries. It has denied NGOs the resources they need to provide necessary medical advice and treatments.

The intent of the Global Gag Rule was to restrict abortion. However, by denying access to contraception and condoms, the Gag Rule denies women the opportunity to prevent unintended pregnancies in the first place.

With population levels rising and efforts to prevent the spread of HIV increasing, the demand for contraception is higher then ever.

More than 200 million women around the world want to control when they have children and protect themselves from HIV, but they can't do so because they lack access to condoms and contraception.

Since the Global Gag Rule was reinstated, shipments of contraceptives from the U.S. government have been denied to 20 developing countries throughout Africa, Asia, and the Middle East. Its effect on healthcare in these nations has been devastating.

In the face of this, the Smith amendment would deny access to contraception and condoms to some of our most valuable NGOs reaching at-risk people of all ages.

What would the impact of this cutoff be?

Consider that access to contraceptives would prevent an estimated 52 million unintended pregnancies each year.

That, in turn, would prevent 22 million abortions. It would also prevent 23 million unplanned births; 142,000 pregnancy-related deaths, and 1.4 million infant deaths.

Family planning helps women to have their children during the healthiest times for both mother and child. It has proved critical to the reduction of infant mortality in numerous developing countries.

Contraceptive access is also critical to disease prevention. According to the WHO, the leading cause of last year's 4.3 million new HIV cases was unprotected sex. Access to condoms is a matter of life and death.

And of those millions, how many were parents? More than 13 million children under the age of 15 have lost one or both parents to AIDS. That is 12 percent of all the orphaned children in the world—more than 10 million children.

Cutting off the flow of contraceptives would be an enormous step back for the health of the world's women, children and families. The underlying bill before us takes a commonsense approach to global health that will reduce unintended pregnancies and the need for abortion. It will also help stop the spread of HIV/AIDS and improve infant and child survival rates.

This amendment would take us in the opposite direction. I urge all of my colleagues to vote no on the Smith/Stupak amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New Jersey (Mr. SMITH).

The question was taken; and the Chairman announced that the noes appeared to have it.

Mr. SMITH of New Jersey. Mr. Chairman, I demand a recorded vote.

The CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from New Jersey will be postponed.

ANNOUNCEMENT BY THE CHAIRMAN

The CHAIRMAN. Pursuant to clause 6 of rule XVIII, proceedings will now resume on those amendments on which further proceedings were postponed, in the following order:

An amendment by Mrs. LOWEY of New York.

An amendment by Mr. SMITH of New Jersey.

The Chair will reduce to 5 minutes the time for any electronic vote after the first vote in this series.

AMENDMENT OFFERED BY MRS. LOWEY

The CHAIRMAN. The unfinished business is the demand for a recorded vote on the amendment offered by the gentlewoman from New York (Mrs. LOWEY) on which further proceedings were postponed and on which the ayes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 223, noes 201, not voting 14, as follows:

[Roll No. 533]

Davis, Jo Ann	Pickering	

□ 1825

Ms. FALLIN changed her vote from ''aye'' to ''no.''

Mr. FALEOMAVAEGA, Ms. KILPATRICK, Mr. CONYERS and Ms. SLAUGHTER changed their vote from ''no'' to ''aye.''

So the amendment was agreed to.

The result of the vote was announced as above recorded.

AMENDMENT OFFERED BY MR. SMITH OF NEW JERSEY

The CHAIRMAN. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from New Jersey (Mr. SMITH) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIRMAN. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 205, noes 218, not voting 14, as follows:

ANNOUNCEMENT BY THE CHAIRMAN

The CHAIRMAN (during the vote). Members are advised that there are 2 minutes remaining in this vote.

□ 1832

So the amendment was rejected.

The result of the vote was announced as above recorded.

(By unanimous consent, Mr. HOYER was allowed to speak out of order.)

LEGISLATIVE PROGRAM

Mr. HOYER. Mr. Chairman, I have had conversations with Mr. BLUNT and I have also had conversations with Mr. OBEY, and I want to tell the Members of the House that it would be my intention if we complete this bill and we can complete the Legislative appropriations bill tonight in the next 5½ hours, then it would be my intention that we would not meet tomorrow.

I want all the Members to understand that we will complete the Legislative appropriations bill this week, but if we can complete both of those bills tonight, it would be my intention that we would not be meeting tomorrow.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

AFGHANISTAN

SEC. 623. Of the funds appropriated under titles III and IV of this Act, not less than $1,057,050,000 shall be made available for humanitarian, reconstruction, and related assistance for Afghanistan: *Provided*, That of the funds made available pursuant to this section, $3,000,000 should be made available for reforestation activities: *Provided further*, That funds made available pursuant to the previous proviso should be matched, to the maximum extent possible, with contributions from American and Afghan businesses: *Provided further*, That of the funds allocated for assistance for Afghanistan from this Act not less than $75,000,000 shall be made available to support programs that directly address the needs of Afghan women and girls, including for the Afghan Independent Human Rights Commission, the Afghan Ministry of Women's Affairs, and for women-led nonprofit organizations in Afghanistan.

NOTIFICATION ON EXCESS DEFENSE EQUIPMENT

SEC. 624. Prior to providing excess Department of Defense articles in accordance with section 516(a) of the Foreign Assistance Act of 1961, the Department of Defense shall notify the Committees on Appropriations to the same extent and under the same conditions as are other committees pursuant to subsection (f) of that section: *Provided*, That before issuing a letter of offer to sell excess defense articles under the Arms Export Control Act, the Department of Defense shall notify the Committees on Appropriations in accordance with the regular notification procedures of such Committees if such defense articles are significant military equipment (as defined in section 47(9) of the Arms Export Control Act) or are valued (in terms of original acquisition cost) at $7,000,000 or more, or if notification is required elsewhere in this Act for the use of appropriated funds for specific countries that would receive such excess defense articles: *Provided further*, That such Committees shall also be informed of the original acquisition cost of such defense articles.

GLOBAL FUND ACCOUNTABILITY

SEC. 625. (a) Notwithstanding any other provision of this Act, 20 percent of the funds that are appropriated by this Act for a contribution to support the Global Fund to Fight AIDS, Tuberculosis and Malaria (the

''Global Fund'') shall be withheld from obligation to the Global Fund until the Secretary of State certifies to the Committees on Appropriations that the Global Fund—

(1) is releasing incremental disbursements only if grantees demonstrate progress against clearly defined performance indicators;

(2) is providing support and oversight to country-level entities, such as country coordinating mechanisms, principal recipients, and Local Fund Agents (LFAs), to enable them to fulfill their mandates;

(3) has a full-time, professional, independent Office of Inspector General that is fully operational;

(4) requires LFAs to assess whether a principal recipient has the capacity to oversee the activities of sub-recipients;

(5) is making progress toward implementing a reporting system that breaks down grantee budget allocations by programmatic activity;

(6) has adopted a policy on the public release of documents produced by the Office of the Inspector General;

(7) is tracking and encouraging the involvement of civil society, including faith-based organizations, in country coordinating mechanisms and program implementation; and

(8) has provided to the Secretary of State a report on faith-based organizations as described in subsection (b).

(b) The report referred to in subsection (a)(8) is a report that provides a description and assessment of grants and sub-grants provided by the Global Fund to faith-based organizations. The report shall include—

(1) on a county-by-country basis—

(A) a description of the amount of grants and sub-grants provided to faith-based organizations; and

(B) an assessment of the extent to which faith-based organizations have been or are involved in the Country Coordinating Mechanism (CCM) process of the Global Fund; and

(2) a description of actions the Global Fund has taken and will take to enhance the involvement of faith-based organizations in the CCM process, particularly in countries in which the involvement of faith-based organizations has been underrepresented.

PROHIBITION ON BILATERAL ASSISTANCE TO TERRORIST COUNTRIES

SEC. 626. (a) Funds appropriated for bilateral assistance under any heading of this Act and funds appropriated under any such heading in a provision of law enacted prior to the enactment of this Act, shall not be made available to any country which the President determines—

(1) grants sanctuary from prosecution to any individual or group which has committed an act of international terrorism; or

(2) otherwise supports international terrorism.

(b) The President may waive the application of subsection (a) to a country if the President determines that national security or humanitarian reasons justify such waiver. The President shall publish each waiver in the Federal Register and, at least 15 days before the waiver takes effect, shall notify the Committees on Appropriations of the waiver (including the justification for the waiver) in accordance with the regular notification procedures of the Committees on Appropriations.

DEBT-FOR-DEVELOPMENT

SEC. 627. In order to enhance the continued participation of nongovernmental organizations in debt-for-development and debt-for-nature exchanges, a nongovernmental organization which is a grantee or contractor of the United States Agency for International Development may place in interest bearing accounts local currencies which accrue to that organization as a result of economic assistance provided under title III of this Act and, subject to the regular notification procedures of the Committees on Appropriations, any interest earned on such investment shall be used for the purpose for which the assistance was provided to that organization.

SEPARATE ACCOUNTS

SEC. 628. (a) SEPARATE ACCOUNTS FOR LOCAL CURRENCIES.—

(1) If assistance is furnished to the government of a foreign country under chapters 1 and 10 of part I or chapter 4 of part II of the Foreign Assistance Act of 1961 under agreements which result in the generation of local currencies of that country, the Administrator of the United States Agency for International Development shall—

(A) require that local currencies be deposited in a separate account established by that government;

(B) enter into an agreement with that government which sets forth—

(i) the amount of the local currencies to be generated; and

(ii) the terms and conditions under which the currencies so deposited may be utilized, consistent with this section; and

(C) establish by agreement with that government the responsibilities of the United States Agency for International Development and that government to monitor and account for deposits into and disbursements from the separate account.

(2) USES OF LOCAL CURRENCIES.—As may be agreed upon with the foreign government, local currencies deposited in a separate account pursuant to subsection (a), or an equivalent amount of local currencies, shall be used only—

(A) to carry out chapter 1 or 10 of part I or chapter 4 of part II (as the case may be), for such purposes as—

(i) project and sector assistance activities; or

(ii) debt and deficit financing; or

(B) for the administrative requirements of the United States Government.

(3) PROGRAMMING ACCOUNTABILITY.—The United States Agency for International Development shall take all necessary steps to ensure that the equivalent of the local currencies disbursed pursuant to subsection (a)(2)(A) from the separate account established pursuant to subsection (a)(1) are used for the purposes agreed upon pursuant to subsection (a)(2).

(4) TERMINATION OF ASSISTANCE PROGRAMS.—Upon termination of assistance to a country under chapter 1 or 10 of part I or chapter 4 of part II (as the case may be), any unencumbered balances of funds which remain in a separate account established pursuant to subsection (a) shall be disposed of for such purposes as may be agreed to by the government of that country and the United States Government.

(5) REPORTING REQUIREMENT.—The Administrator of the United States Agency for International Development shall report on an annual basis as part of the justification documents submitted to the Committees on Appropriations on the use of local currencies for the administrative requirements of the United States Government as authorized in subsection (a)(2)(B), and such report shall include the amount of local currency (and United States dollar equivalent) used and/or to be used for such purpose in each applicable country.

(b) SEPARATE ACCOUNTS FOR CASH TRANSFERS.—

(1) If assistance is made available to the government of a foreign country, under chapter 1 or 10 of part I or chapter 4 of part II of the Foreign Assistance Act of 1961, as cash transfer assistance or as non-project sector assistance, that country shall be required to maintain such funds in a separate account and not commingle them with any other funds.

(2) APPLICABILITY OF OTHER PROVISIONS OF LAW.—Such funds may be obligated and expended notwithstanding provisions of law, which are inconsistent with the nature of this assistance including provisions which are referenced in the Joint Explanatory Statement of the Committee of Conference accompanying House Joint Resolution 648 (House Report No. 98–1159).

(3) NOTIFICATION.—At least 15 days prior to obligating any such cash transfer or non-project sector assistance, the President shall submit a notification through the regular notification procedures of the Committees on Appropriations, which shall include a detailed description of how the funds proposed to be made available will be used, with a discussion of the United States interests that will be served by the assistance (including, as appropriate, a description of the economic policy reforms that will be promoted by such assistance).

(4) EXEMPTION.—Non-project sector assistance funds may be exempt from the requirements of subsection (b)(1) only through the notification procedures of the Committees on Appropriations.

ENTERPRISE FUND RESTRICTIONS

SEC. 629. (a) Prior to the distribution of any assets resulting from any liquidation, dissolution, or winding up of an Enterprise Fund, in whole or in part, the President shall submit to the Committees on Appropriations, in accordance with the regular notification procedures of the Committees on Appropriations, a plan for the distribution of the assets of the Enterprise Fund.

(b) Funds made available under titles II through V of this Act for Enterprise Funds shall be expended at the minimum rate necessary to make timely payment for projects and activities.

FINANCIAL MARKET ASSISTANCE

SEC. 630. Of the funds appropriated by this Act under the headings ''TRADE AND DEVELOPMENT AGENCY'', ''DEVELOPMENT ASSISTANCE'', ''TRANSITION INITIATIVES'', ''ECONOMIC SUPPORT FUND'', ''INTERNATIONAL AFFAIRS TECHNICAL ASSISTANCE'', ''ASSISTANCE FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION'', ''NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS'', and ''ASSISTANCE FOR EASTERN EUROPE AND BALTIC STATES'', not less than $40,000,000 should be made available for building capital markets and financial systems in countries eligible to receive United States assistance.

AUTHORITIES FOR THE PEACE CORPS, INTER-AMERICAN FOUNDATION AND AFRICAN DEVELOPMENT FOUNDATION

SEC. 631. Unless expressly provided to the contrary, provisions of this or any other Act, including provisions contained in prior Acts authorizing or making appropriations for foreign operations, export financing, and related programs, shall not be construed to prohibit activities authorized by or conducted under the Peace Corps Act, the Inter-

American Foundation Act or the African Development Foundation Act. The agency shall promptly report to the Committees on Appropriations whenever it is conducting activities or is proposing to conduct activities in a country for which assistance is prohibited.

IMPACT ON JOBS IN THE UNITED STATES

SEC. 632. None of the funds appropriated under titles II through V of this Act may be obligated or expended to provide—

(1) any financial incentive to a business enterprise currently located in the United States for the purpose of inducing such an enterprise to relocate outside the United States if such incentive or inducement is likely to reduce the number of employees of such business enterprise in the United States because United States production is being replaced by such enterprise outside the United States; or

(2) assistance for any program, project, or activity that contributes to the violation of internationally recognized workers rights, as defined in section 507(4) of the Trade Act of 1974, of workers in the recipient country, including any designated zone or area in that country: *Provided,* That the application of section 507(4) (D) and (E) of such Act should be commensurate with the level of development of the recipient country and sector, and shall not preclude assistance for the informal sector in such country, micro and small-scale enterprise, and smallholder agriculture.

SPECIAL AUTHORITIES

SEC. 633. (a) AFGHANISTAN, IRAQ, PAKISTAN, LEBANON, MONTENEGRO, VICTIMS OF WAR, DISPLACED CHILDREN, AND DISPLACED BURMESE.—Funds appropriated by this Act that are made available for assistance for Afghanistan may be made available notwithstanding section 612 of this Act or any similar provision of law and section 660 of the Foreign Assistance Act of 1961, and funds appropriated in titles II and III of this Act that are made available for Iraq, Lebanon, Montenegro, Pakistan, and for victims of war, displaced children, and displaced Burmese, and to assist victims of trafficking in persons and, subject to the regular notification procedures of the Committees on Appropriations, to combat such trafficking, may be made available notwithstanding any other provision of law.

(b) TROPICAL FORESTRY AND BIODIVERSITY CONSERVATION ACTIVITIES.—Funds appropriated by this Act to carry out the provisions of sections 103 through 106, and chapter 4 of part II, of the Foreign Assistance Act of 1961 may be used, notwithstanding any other provision of law, for the purpose of supporting tropical forestry and biodiversity conservation activities and energy programs aimed at reducing greenhouse gas emissions: *Provided,* That such assistance shall be subject to sections 116, 502B, and 620A of the Foreign Assistance Act of 1961.

(c) PERSONAL SERVICES CONTRACTORS.—Funds appropriated by this Act to carry out chapter 1 of part I, chapter 4 of part II, and section 667 of the Foreign Assistance Act of 1961, and title II of the Agricultural Trade Development and Assistance Act of 1954, may be used by the United States Agency for International Development to employ up to 25 personal services contractors in the United States, notwithstanding any other provision of law, for the purpose of providing direct, interim support for new or expanded overseas programs and activities managed by the agency until permanent direct hire personnel are hired and trained: *Provided,* That not more than 10 of such contractors shall be assigned to any bureau or office: *Provided further,* That such funds appropriated to carry out title II of the Agricultural Trade Development and Assistance Act of 1954, may be made available only for personal services contractors assigned to the Office of Food for Peace.

(d)(1) WAIVER.—The President may waive the provisions of section 1003 of Public Law 100–204 if the President determines and certifies in writing to the Speaker of the House of Representatives and the President pro tempore of the Senate that it is important to the national security interests of the United States.

(2) PERIOD OF APPLICATION OF WAIVER.—Any waiver pursuant to paragraph (1) shall be effective for no more than a period of 6 months at a time and shall not apply beyond 12 months after the enactment of this Act.

(e) SMALL BUSINESS.—In entering into multiple award indefinite-quantity contracts with funds appropriated by this Act, the United States Agency for International Development may provide an exception to the fair opportunity process for placing task orders under such contracts when the order is placed with any category of small or small disadvantaged business.

(f) RECONSTITUTING CIVILIAN POLICE AUTHORITY.—In providing assistance with funds appropriated by this Act under section 660(b)(6) of the Foreign Assistance Act of 1961, support for a nation emerging from instability may be deemed to mean support for regional, district, municipal, or other subnational entity emerging from instability, as well as a nation emerging from instability.

(g) WORLD FOOD PROGRAM.—Of the funds managed by the Bureau for Democracy, Conflict, and Humanitarian Assistance of the United States Agency for International Development, from this or any other Act, not less than $10,000,000 shall be made available as a general contribution to the World Food Program, notwithstanding any other provision of law.

(h) EXTENSION OF AUTHORITY.—

(1) With respect to funds appropriated by this Act that are available for assistance for Pakistan, the President may waive the prohibition on assistance contained in section 608 of this Act subject to the requirements contained in section 1(b) of Public Law 107–57, as amended, for a determination and certification, and consultation, by the President prior to the exercise of such waiver authority.

(2) Section 612 of this Act and section 620(q) of the Foreign Assistance Act of 1961 shall not apply with respect to assistance for Pakistan from funds appropriated by this Act.

(3) Notwithstanding the date contained in section 6 of Public Law 107–57, as amended, the provisions of sections 2 and 4 of that Act shall remain in effect through the current fiscal year.

(i) MIDDLE EAST FOUNDATION.—Of the funds appropriated in this Act under the heading ''ECONOMIC SUPPORT FUND'' that are available for the Middle East Partnership Initiative, may be made available, including as an endowment, notwithstanding any other provision of law and following consultations with the Committees on Appropriations, to establish and operate a Middle East Foundation, or any other similar entity, whose purposes include to support democracy, governance, human rights, and the rule of law: *Provided,* That such funds may be made available to the Foundation only to the extent that the Foundation has commitments from sources other than the United States Government to at least match the funds provided under the authority of this subsection: *Provided further,* That provisions contained in section 201 of the Support for East European Democracy (SEED) Act of 1989 (excluding the authorizations of appropriations provided in subsection (b) of that section and the requirement that a majority of the members of the board of directors be citizens of the United States provided in subsection (d)(3)(B) of that section) shall be deemed to apply to any such foundation or similar entity referred to under this subsection, and to funds made available to such entity, in order to enable it to provide assistance for purposes of this section: *Provided further,* That prior to the initial obligation of funds for any such foundation or similar entity pursuant to the authorities of this subsection, other than for administrative support, the Secretary of State shall take steps to ensure, on an ongoing basis, that any such funds made available pursuant to such authorities are not provided to or through any individual or group that the management of the foundation or similar entity knows or has reason to believe, advocates, plans, sponsors, or otherwise engages in terrorist activities: *Provided further,* That section 629 of this Act shall apply to any such foundation or similar entity established pursuant to this subsection: *Provided further,* That the authority of the Foundation, or any similar entity, to provide assistance shall cease to be effective on September 30, 2010.

(j) EXTENSION OF AUTHORITY.—The Foreign Operations Export Financing, and Related Programs Appropriations Act, 1990 (Public Law 101–167) is amended—

(1) in section 599D (8 U.S.C. 1157 note)—

(A) in subsection(b)(3), before ''2007'' by striking ''and'', and after ''2007'' by inserting, ''and 2008,'' and

(B) in subsection (e), by striking ''2007'' each place it appears and inserting ''2008''; and

(2) in section 599E (8 U.S.C. 1255 note) in subsection (b)(2), by striking ''2007'' and inserting ''2008''.

ARAB LEAGUE BOYCOTT OF ISRAEL

SEC. 634. It is the sense of the Congress that—

(1) the Arab League boycott of Israel, and the secondary boycott of American firms that have commercial ties with Israel, is an impediment to peace in the region and to United States investment and trade in the Middle East and North Africa;

(2) the Arab League boycott, which was regrettably reinstated in 1997, should be immediately and publicly terminated, and the Central Office for the Boycott of Israel immediately disbanded;

(3) all Arab League states should normalize relations with their neighbor Israel;

(4) the President and the Secretary of State should continue to vigorously oppose the Arab League boycott of Israel and find concrete steps to demonstrate that opposition by, for example, taking into consideration the participation of any recipient country in the boycott when determining to sell weapons to said country; and

(5) the President should report to Congress annually on specific steps being taken by the United States to encourage Arab League states to normalize their relations with Israel to bring about the termination of the Arab League boycott of Israel, including those to encourage allies and trading partners of the United States to enact laws prohibiting businesses from complying with the boycott and penalizing businesses that do comply.

ELIGIBILITY FOR ASSISTANCE

SEC. 635. (a) ASSISTANCE THROUGH NONGOVERNMENTAL ORGANIZATIONS.—Restrictions contained under titles II through V of this or any other Act with respect to assistance for a country shall not be construed to restrict assistance in support of programs of nongovernmental organizations from funds appropriated by this Act to carry out the provisions of chapters 1, 10, 11, and 12 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961, and from funds appropriated under the heading ''ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES'': *Provided,* That before using the authority of this subsection to furnish assistance in support of programs of nongovernmental organizations, the President shall notify the Committees on Appropriations under the regular notification procedures of those committees, including a description of the program to be assisted, the assistance to be provided, and the reasons for furnishing such assistance: *Provided further,* That nothing in this subsection shall be construed to alter any existing statutory prohibitions against abortion or involuntary sterilizations contained in this or any other Act.

(b) PUBLIC LAW 480.—During fiscal year 2008, restrictions contained in this or any other Act with respect to assistance for a country shall not be construed to restrict assistance under the Agricultural Trade Development and Assistance Act of 1954: *Provided,* That none of the funds appropriated to carry out title I of such Act and made available pursuant to this subsection may be obligated or expended except as provided through the regular notification procedures of the Committees on Appropriations.

(c) EXCEPTION.—This section shall not apply—

(1) with respect to section 620A of the Foreign Assistance Act of 1961 or any comparable provision of law prohibiting assistance to countries that support international terrorism; or

(2) with respect to section 116 of the Foreign Assistance Act of 1961 or any comparable provision of law prohibiting assistance to the government of a country that violates internationally recognized human rights.

RESERVATIONS OF FUNDS

SEC. 636. (a) Funds appropriated under titles II through V of this Act which are specifically designated may be reprogrammed for other programs within the same account notwithstanding the designation if compliance with the designation is made impossible by operation of any provision of this or any other Act: *Provided,* That any such reprogramming shall be subject to the regular notification procedures of the Committees on Appropriations: *Provided further,* That assistance that is reprogrammed pursuant to this subsection shall be made available under the same terms and conditions as originally provided.

(b) In addition to the authority contained in subsection (a), the original period of availability of funds appropriated by this Act and administered by the United States Agency for International Development that are specifically designated for particular programs or activities by this or any other Act shall be extended for an additional fiscal year if the Administrator of such agency determines and reports promptly to the Committees on Appropriations that the termination of assistance to a country or a significant change in circumstances makes it unlikely that such designated funds can be obligated during the original period of availability: *Provided,* That such designated funds that are continued available for an additional fiscal year shall be obligated only for the purpose of such designation.

CEILINGS AND DESIGNATED FUNDING LEVELS

SEC. 637. Ceilings and specifically designated funding levels contained in this Act shall not be applicable to funds or authorities appropriated or otherwise made available by any subsequent Act unless such Act specifically so directs: *Provided,* That specifically designated funding levels or minimum funding requirements contained in any other Act shall not be applicable to funds appropriated by this Act.

PROHIBITION ON PUBLICITY OR PROPAGANDA

SEC. 638. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes within the United States not authorized before the date of the enactment of this Act by the Congress: *Provided,* That not to exceed $25,000 may be made available to carry out the provisions of section 316 of Public Law 96–533.

PROHIBITION OF PAYMENTS TO UNITED NATIONS MEMBERS

SEC. 639. None of the funds appropriated or made available pursuant to titles II through V of this Act for carrying out the Foreign Assistance Act of 1961, may be used to pay in whole or in part any assessments, arrearages, or dues of any member of the United Nations or, from funds appropriated by this Act to carry out chapter 1 of part I of the Foreign Assistance Act of 1961, the costs for participation of another country's delegation at international conferences held under the auspices of multilateral or international organizations.

NONGOVERNMENTAL ORGANIZATIONS—DOCUMENTATION

SEC. 640. None of the funds appropriated or made available pursuant to titles II through V of this Act shall be available to a nongovernmental organization which fails to provide upon timely request any document, file, or record necessary to the auditing requirements of the United States Agency for International Development.

PROHIBITION ON ASSISTANCE TO FOREIGN GOVERNMENTS THAT EXPORT LETHAL MILITARY EQUIPMENT TO COUNTRIES SUPPORTING INTERNATIONAL TERRORISM

SEC. 641. (a) None of the funds appropriated or otherwise made available by titles II through V of this Act may be available to any foreign government which provides lethal military equipment to a country the government of which the Secretary of State has determined is a terrorist government for purposes of section 6(j) of the Export Administration Act of 1979. The prohibition under this section with respect to a foreign government shall terminate 12 months after that government ceases to provide such military equipment. This section applies with respect to lethal military equipment provided under a contract entered into after October 1, 1997.

(b) Assistance restricted by subsection (a) or any other similar provision of law, may be furnished if the President determines that furnishing such assistance is important to the national interests of the United States.

(c) Whenever the waiver authority of subsection (b) is exercised, the President shall submit to the appropriate Congressional committees a report with respect to the furnishing of such assistance. Any such report shall include a detailed explanation of the assistance to be provided, including the estimated dollar amount of such assistance, and an explanation of how the assistance furthers United States national interests.

WITHHOLDING OF ASSISTANCE FOR PARKING FINES AND REAL PROPERTY TAXES OWED BY FOREIGN COUNTRIES

SEC. 642. (a) Subject to subsection (c), of the funds appropriated under titles II through V of this Act that are made available for assistance for a foreign country, an amount equal to 110 percent of the total amount of the unpaid fully adjudicated parking fines and penalties and unpaid property taxes owed by the central government of such country shall be withheld from obligation for assistance for the central government of such country until the Secretary of State submits a certification to the appropriate congressional committees stating that such parking fines and penalties and unpaid property taxes are fully paid.

(b) Funds withheld from obligation pursuant to subsection (a) may be made available for other programs or activities funded by this Act, after consultation with and subject to the regular notification procedures of the appropriate congressional committees, provided that no such funds shall be made available for assistance for the central government of a foreign country that has not paid the total amount of the fully adjudicated parking fines and penalties and unpaid property taxes owed by such country.

(c) Subsection (a) shall not include amounts that have been withheld under any other provision of law.

(d)(1) The Secretary of State may waive the requirements set forth in subsection (a) with respect to parking fines and penalties no sooner than 60 days from the date of enactment of this Act, or at any time with respect to a particular country, if the Secretary determines that it is in the national interests of the United States to do so.

(2) The Secretary of State may waive the requirements set forth in subsection (a) with respect to the unpaid property taxes if the Secretary of State determines that it is in the national interests of the United States to do so.

(e) Not later than six months after the initial exercise of the waiver authority in subsection (d), the Secretary of State, after consultations with the City of New York, shall submit a report to the Committees on Appropriations describing a strategy, including a timetable and steps currently being taken, to collect the parking fines and penalties and unpaid property taxes and interest owed by nations receiving foreign assistance under this Act.

(f) In this section:

(1) The term ''appropriate congressional committees'' means the Committee on Appropriations of the Senate and the Committee on Appropriations of the House of Representatives.

(2) The term ''fully adjudicated'' includes circumstances in which the person to whom the vehicle is registered—

(A)(i) has not responded to the parking violation summons; or (ii) has not followed the appropriate adjudication procedure to challenge the summons; and

(B) the period of time for payment of or challenge to the summons has lapsed.

(3) The term ''parking fines and penalties'' means parking fines and penalties—

(A) owed to—

(i) the District of Columbia; or

(ii) New York, New York; and

(B) incurred during the period April 1, 1997, through September 30, 2007.

(4) The term ''unpaid property taxes'' means the amount of unpaid taxes and interest determined to be owed by a foreign country on real property in the District of Columbia or New York, New York in a court order or judgment entered against such country by a court of the United States or any State or subdivision thereof.

LIMITATION ON ASSISTANCE FOR THE PLO FOR THE WEST BANK AND GAZA

SEC. 643. None of the funds appropriated under titles II through V of this Act may be obligated for assistance for the Palestine Liberation Organization (PLO) for the West Bank and Gaza unless the President has exercised the authority under section 604(a) of the Middle East Peace Facilitation Act of 1995 (title VI of Public Law 104–107) or any other legislation to suspend or make inapplicable section 307 of the Foreign Assistance Act of 1961 and that suspension is still in effect: *Provided,* That if the President fails to make the certification under section 604(b)(2) of the Middle East Peace Facilitation Act of 1995 or to suspend the prohibition under other legislation, funds appropriated by this Act may not be obligated for assistance for the Palestine Liberation Organization for the West Bank and Gaza.

WAR CRIMES TRIBUNALS DRAWDOWN

SEC. 644. If the President determines that doing so will contribute to a just resolution of charges regarding genocide or other violations of international humanitarian law, the President may direct a drawdown pursuant to section 552(c) of the Foreign Assistance Act of 1961 of up to $30,000,000 of commodities and services for the United Nations War Crimes Tribunal established with regard to the former Yugoslavia by the United Nations Security Council or such other tribunals or commissions as the Council may establish or authorize to deal with such violations, without regard to the ceiling limitation contained in paragraph (2) thereof: *Provided,* That the determination required under this section shall be in lieu of any determinations otherwise required under section 552(c): *Provided further,* That the drawdown made under this section for any tribunal shall not be construed as an endorsement or precedent for the establishment of any standing or permanent international criminal tribunal or court: *Provided further,* That funds made available for tribunals other than Yugoslavia, Rwanda, or the Special Court for Sierra Leone shall be made available subject to the regular notification procedures of the Committees on Appropriations.

LANDMINES

SEC. 645. Notwithstanding any other provision of law, demining equipment available to the United States Agency for International Development and the Department of State and used in support of the clearance of landmines and unexploded ordnance for humanitarian purposes may be disposed of on a grant basis in foreign countries, subject to such terms and conditions as the President may prescribe.

RESTRICTIONS CONCERNING THE PALESTINIAN AUTHORITY

SEC. 646. None of the funds appropriated under titles II through V of this Act may be obligated or expended to create in any part of Jerusalem a new office of any department or agency of the United States Government for the purpose of conducting official United States Government business with the Palestinian Authority over Gaza and Jericho or any successor Palestinian governing entity provided for in the Israel-PLO Declaration of Principles: *Provided,* That this restriction shall not apply to the acquisition of additional space for the existing Consulate General in Jerusalem: *Provided further,* That meetings between officers and employees of the United States and officials of the Palestinian Authority, or any successor Palestinian governing entity provided for in the Israel-PLO Declaration of Principles, for the purpose of conducting official United States Government business with such authority should continue to take place in locations other than Jerusalem. As has been true in the past, officers and employees of the United States Government may continue to meet in Jerusalem on other subjects with Palestinians (including those who now occupy positions in the Palestinian Authority), have social contacts, and have incidental discussions.

PROHIBITION OF PAYMENT OF CERTAIN EXPENSES

SEC. 647. None of the funds appropriated or otherwise made available under titles III or IV of this Act under the heading ''INTERNATIONAL MILITARY EDUCATION AND TRAINING'' or ''FOREIGN MILITARY FINANCING PROGRAM'' for Informational Program activities or under the headings ''CHILD SURVIVAL AND HEALTH PROGRAMS FUND'', ''DEVELOPMENT ASSISTANCE'', and ''ECONOMIC SUPPORT FUND'' may be obligated or expended to pay for—

(1) alcoholic beverages; or

(2) entertainment expenses for activities that are substantially of a recreational character, including but not limited to entrance fees at sporting events, theatrical and musical productions, and amusement parks.

HAITI

SEC. 648. (a) The Government of Haiti shall be eligible to purchase defense articles and services under the Arms Export Control Act (22 U.S.C. 2751 et seq.), for the Coast Guard.

(b) Of the funds appropriated by this act under titles III and IV, not less than $201,584,000 shall be available for assistance for Haiti: *Provided,* That not less than the following amounts of funds appropriated by this Act under the following heading shall be made available—

(1) $20,000,000 from ''CHILD SURVIVAL AND HEALTH PROGRAMS FUND'';

(2) $25,000,000 from ''DEVELOPMENT ASSISTANCE'';

(3) $83,000,000 from ''GLOBAL HIV/AIDS INITIATIVE'';

(4) $63,394,000 from ''ECONOMIC SUPPORT FUND'';

(5) $9,000,000 from ''INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT'';

(6) $990,000 from ''FOREIGN MILITARY FINANCING PROGRAM''; and

(7) $200,000 from ''INTERNATIONAL MILITARY EDUCATION AND TRAINING''.

(c) None of the funds made available in this Act under the heading ''INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT'' may be used to transfer excess weapons, ammunition or other lethal property of an agency of the United States Government to the Government of Haiti for use by the Haitian National Police until the Secretary of State certifies to the Committees on Appropriations that:

(1) the United Nations Mission in Haiti has carried out the vetting of the senior levels of the Haitian National Police and has ensured that those credibly alleged to have committed serious crimes, including drug trafficking and human rights violations, have been suspended; and

(2) the Haitian National Government is cooperating in a reform and restructuring plan for the Haitian National Police and the reform of the judicial system as called for in United Nations Security Council Resolution 1608 adopted on June 22, 2005.

COLOMBIA

SEC. 649. (a) AVAILABILITY OF FUNDS FOR ASSISTANCE FOR COLOMBIA.—Of the funds appropriated in titles III and IV of this Act, not more than $530,608,000 shall be available for assistance for Colombia: *Provided,* That not more than $49,500,000 shall be available from funds appropriated by this Act under the headings ''FOREIGN MILITARY FINANCING PROGRAM'' and ''INTERNATIONAL MILITARY EDUCATION AND TRAINING'' for assistance for Colombia: *Provided further,* That not less than $22,250,000 shall be available for rule of law activities from funds appropriated by this Act under the heading ''INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT'': *Provided further,* That of the funds appropriated by this act under the heading ''ECONOMIC SUPPORT FUND'', not less than $218,500,000 shall be apportioned directly to the United States Agency for International Development (USAID) for alternative development/institution building and sustainable development programs, of which not less than $15,000,000 shall be made available for economic development activities in Afro-Colombian and indigenous communities, in consultation with Afro-Colombian and indigenous authorities and community members: *Provided further,* That with respect to funds apportioned to USAID under the previous proviso, the responsibility for policy decisions for the use of such funds, including what activities will be funded and the amount of funds that will be provided for each of those activities, shall be the responsibility of the Administrator of USAID in consultation with the Assistant Secretary of State for International Narcotics and Law Enforcement Affairs: *Provided further,* That with respect to funds apportioned to USAID under the third proviso of this section, not less than $16,500,000 shall be available for judicial reform programs in Colombia; not less than $8,250,000 shall be made available for assistance for organizations and programs to protect human rights; and not less than $5,000,000 shall be made available for assistance for the Fiscalía: *Provided further,* That funds made available to furnish assistance to the Government of Colombia in this Act and prior year Acts making appropriations for foreign operations, export financing, and related programs, may be used (1) to support a unified campaign against narcotics trafficking and terrorist organizations and activities; and (2) to take actions to protect human health and welfare in emergency circumstances, including undertaking rescue operations: *Provided further,* That the authority contained in the previous proviso shall cease to be effective if the Secretary of State has credible evidence that the Colombian Government is not conducting vigorous operations to restore government authority and respect for human rights in areas under the effective control of paramilitary, illegal self-defense groups, illegal security cooperatives, or other criminal and guerrilla organizations: *Provided further,* That the President shall ensure that if any helicopter procured with funds in this Act or prior Acts making appropriations for foreign operations, export financing, and related programs, is used to aid or abet the operations of any illegal self-defense group or illegal security cooperative, such helicopter shall be immediately returned to the United States.

LIMITATION ON ASSISTANCE TO THE PALESTINIAN AUTHORITY

SEC. 650. (a) PROHIBITION OF FUNDS.—None of the funds appropriated by this Act to carry out the provisions of chapter 4 of part II of the Foreign Assistance Act of 1961 may be obligated or expended with respect to providing funds to the Palestinian Authority.

(b) WAIVER.—The prohibition included in subsection (a) shall not apply if the President certifies in writing to the Speaker of the House of Representatives and the President pro tempore of the Senate that waiving such prohibition is important to the national security interests of the United States.

(c) PERIOD OF APPLICATION OF WAIVER.—Any waiver pursuant to subsection (b) shall be effective for no more than a period of 6 months at a time and shall not apply beyond 12 months after the enactment of this Act.

(d) REPORT.—Whenever the waiver authority pursuant to subsection (b) is exercised, the President shall submit a report to the Committees on Appropriations detailing the steps the Palestinian Authority has taken to arrest terrorists, confiscate weapons and dismantle the terrorist infrastructure. The report shall also include a description of how funds will be spent and the accounting procedures in place to ensure that they are properly disbursed.

LIMITATION ON ASSISTANCE TO SECURITY FORCES

SEC. 651. None of the funds made available by this Act may be provided to any unit of the security forces of a foreign country if the Secretary of State has credible evidence that such unit has committed gross violations of human rights, unless the Secretary determines and reports to the Committees on Appropriations that the government of such country is taking effective measures to bring the responsible members of the security forces unit to justice: *Provided,* That nothing in this section shall be construed to withhold funds made available under titles II through V of this Act from any unit of the security forces of a foreign country not credibly alleged to be involved in gross violations of human rights: *Provided further,* That in the event that funds are withheld from any unit pursuant to this section, the Secretary of State shall promptly inform the foreign government of the basis for such action and shall, to the maximum extent practicable, assist the foreign government in taking effective measures to bring the responsible members of the security forces to justice.

FOREIGN MILITARY TRAINING REPORT

SEC. 652. The annual foreign military training report required by section 656 of the Foreign Assistance Act of 1961 shall be submitted by the Secretary of Defense and the Secretary of State to the Committees on Appropriations of the House of Representatives and the Senate by the date specified in that section.

AUTHORIZATION REQUIREMENT

SEC. 653. Funds appropriated by this Act, except funds appropriated under the headings ''TRADE AND DEVELOPMENT AGENCY'', ''OVERSEAS PRIVATE INVESTMENT CORPORATION'', and ''GLOBAL HIV/AIDS INITIATIVE'', may be obligated and expended notwithstanding section 10 of Public Law 91–672 and section 15 of the State Department Basic Authorities Act of 1956.

LIBYA

SEC. 654. None of the funds made available in this Act may be used to carry out any diplomatic operations in Libya or accept the credentials of any representative of the Government of Libya until such time as the President certifies to Congress that Libya has taken irrevocable steps to pay, in its entirety, the total amount of the settlement commitment of $10,000,000 to the surviving families of each descendent of Pan Am Flight 103 and certifies to Congress that Libya will continue to work in good faith to resolve the outstanding cases of United States victims of terrorism sponsored or supported by Libya, including the settlement of the La Belle Discotheque bombing.

PALESTINIAN STATEHOOD

SEC. 655. (a) LIMITATION ON ASSISTANCE.—None of the funds appropriated under titles II through V of this Act may be provided to support a Palestinian state unless the Secretary of State determines and certifies to the appropriate congressional committees that—

(1) a new leadership of a Palestinian governing entity has been democratically elected through credible and competitive elections;

(2) the elected governing entity of a new Palestinian state—

(A) has demonstrated a firm commitment to peaceful co-existence with the State of Israel;

(B) is taking appropriate measures to counter terrorism and terrorist financing in the West Bank and Gaza, including the dismantling of terrorist infrastructures;

(C) is establishing a new Palestinian security entity that is cooperative with appropriate Israeli and other appropriate security organizations; and

(3) the Palestinian Authority (or the governing body of a new Palestinian state) is working with other countries in the region to vigorously pursue efforts to establish a just, lasting, and comprehensive peace in the Middle East that will enable Israel and an independent Palestinian state to exist within the context of full and normal relationships, which should include—

(A) termination of all claims or states of belligerency;

(B) respect for and acknowledgement of the sovereignty, territorial integrity, and political independence of every state in the area through measures including the establishment of demilitarized zones;

(C) their right to live in peace within secure and recognized boundaries free from threats or acts of force;

(D) freedom of navigation through international waterways in the area; and

(E) a framework for achieving a just settlement of the refugee problem.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the newly-elected governing entity should enact a constitution assuring the rule of law, an independent judiciary, and respect for human rights for its citizens, and should enact other laws and regulations assuring transparent and accountable governance.

(c) WAIVER.—The President may waive subsection (a) if he determines that it is vital to the national security interests of the United States to do so.

(d) EXEMPTION.—The restriction in subsection (a) shall not apply to assistance intended to help reform the Palestinian Authority and affiliated institutions, or a newly-elected governing entity, in order to help meet the requirements of subsection (a), consistent with the provisions of section 650 of this Act (''Limitation on Assistance to the Palestinian Authority'').

LIMITATIONS ON ASSISTANCE TO COLOMBIA

SEC. 656. (a) WITHHOLDING OF FUNDS FOR ASSISTANCE TO THE COLOMBIAN ARMED FORCES.—

(1) REQUIREMENT TO WITHHOLD ASSISTANCE FUNDING.—Notwithstanding any other provision of law, of the funds appropriated by this Act under the headings ''ANDEAN COUNTERDRUG INITIATIVE'' and ''FOREIGN MILITARY FINANCING PROGRAM'' that are available for assistance for the Colombian Armed Forces—

(A) 25 percent of such funds under each such heading shall be withheld from obligation until the Secretary of State consults with, and submits a written certification to the Committees on Appropriations that the Government of Colombia has met the requirements described in subparagraphs (A) through (D) of paragraph (2); and

(B) An additional 15 percent of such funds under each such heading shall be withheld from obligation until July 31, 2008, and shall only be obligated after the Secretary of State consults with, and submits a written certification to, the Committees on Appropriations that, the Government of Colombia is continuing to meet the requirements described in subparagraphs (A) through (D) of paragraph (2) and has met the requirements described in subparagraphs (E) and (F) of such paragraph.

(2) REQUIREMENTS.—The requirements referred to in paragraph (1) are as follows:

(A) The Commander General of the Colombian Armed Forces is suspending from the Colombian Armed Forces those members, of whatever rank, who, according to the Minister of Defense or the Procuraduria General de la Nacion, have been credibly alleged to have committed gross violations of human rights, including extra-judicial killings, or to have aided or abetted paramilitary organizations.

(B) The Government of Colombia is investigating and prosecuting, in the civilian justice system, those members of the Colombian Armed Forces, of whatever rank, who have been credibly alleged to have committed human rights violations, including extra-judicial killings, torture, or attacks against human rights defenders, or to have aided or abetted paramilitary organizations or successor armed groups, is suspending such members during the course of investigation, and is promptly punishing those members of the Colombian Armed Forces found to have committed such violations of human rights or to have aided or abetted paramilitary organizations or successor armed groups.

(C) The Colombian Armed Forces have made demonstrable efforts to cooperate fully with civilian prosecutors and judicial authorities in cases referred to in subparagraph (B) (including providing requested information, such as the identity of persons suspended from the Armed Forces and the nature and cause of the suspension, and access to witnesses, relevant military documents, and other requested information).

(D) The Government of Colombia is ensuring that the Colombian Armed Forces are not violating the land and property rights of Colombia's indigenous and Afro-Colombian communities, and that the Colombian Armed Forces are appropriately distinguishing between civilians, including displaced persons, and combatants in their operations.

(E) The Colombian Armed Forces have made substantial progress in and are severing links (including denying access to military intelligence, vehicles, and other equipment or supplies, and ceasing other forms of active or tacit cooperation) at all levels, with paramilitary organizations or successor armed groups, especially in regions in which such organizations have or had a significant presence.

(F) The civilian judicial authorities of the Government of Colombia are making demonstrable progress in dismantling paramilitary leadership and financial networks by arresting and vigorously prosecuting under civilian criminal law individuals who have provided financial, planning, or logistical support, or have otherwise aided or abetted paramilitary organizations or successor armed groups, by identifying and confiscating land and other assets illegally acquired by paramilitary organizations or their associates and returning such land or assets to their rightful owners, by revoking reduced sentences for demobilized paramilitaries who engage in new criminal activity, and by arresting, prosecuting under civilian criminal law, and when requested, promptly extraditing to the United States, new, re-armed, and non-demobilized members of successor groups, especially in regions in which these networks have or had a significant presence.

(3) CERTAIN FUNDS EXEMPTED.—The requirement to withhold funds from obligation pursuant to subparagraphs (A) and (B) of paragraph (1) shall not apply with respect to funds made available under the heading ''ANDEAN COUNTERDRUG INITIATIVE'' for continued support for the Critical Flight Safety Program or any alternative development programs in Colombia administered by the Bureau of International Narcotics and Law Enforcement Affairs of the Department of State.

(4) REPORT.—At the time the Secretary of State submits the certifications required by paragraph (1)(A) and (1)(B) of this subsection, the Secretary shall also submit to the Committees on Appropriations a report that contains, with respect to each such paragraph, a detailed description of the specific actions taken by both the Colombian Government and Colombian Armed Forces which supports each requirement of the certification, and the cases or issues brought to the attention of the Secretary for which the response or action taken by the Colombian Government or Armed Forces has been inadequate.

(b) CONGRESSIONAL NOTIFICATION.—Funds made available by this Act for the Colombian Armed Forces shall be subject to the regular notification procedures of the Committees on Appropriations.

(c) CONSULTATIVE PROCESS.—Not later than 60 days after the date of enactment of this Act, and every 90 days thereafter until September 30, 2010, the Secretary of State shall consult with internationally recognized human rights organizations regarding progress in meeting the requirements contained in subsection (a)(2).

(d) DEFINITIONS.—In this section:

(1) AIDED OR ABETTED.—The term ''aided or abetted'' means to provide any support to paramilitary or successor armed groups, including taking actions which allow, facilitate, or otherwise foster the activities of such groups.

(2) PARAMILITARY GROUPS.—The term ''paramilitary groups'' means illegal self-defense groups and illegal security cooperatives, including those groups and cooperatives that have formerly demobilized but continue illegal operations, as well as parts thereof.

PROHIBITION ON ASSISTANCE TO THE PALESTINIAN BROADCASTING CORPORATION

SEC. 657. None of the funds appropriated or otherwise made available by this Act may be used to provide equipment, technical support, consulting services, or any other form of assistance to the Palestinian Broadcasting Corporation.

SUPPORT OF PEACE PROCESS AND DEMOBILIZATION IN COLOMBIA

SEC. 658. (a) ASSISTANCE FOR DEMOBILIZATION AND DISARMAMENT OF FORMER IRREGULAR COMBATANTS IN COLOMBIA.—(1) Of the funds appropriated in title III of this Act under the heading ''ECONOMIC SUPPORT FUND'', up to $23,000,000 shall be available for assistance for the demobilization and full dismantlement of foreign terrorist organizations in Colombia in accordance with the funding designations contained in paragraph (2) and, in the case of assistance under paragraph (2)(D), the certification requirements contained in paragraph (3).

(2) FUNDING DESIGNATION.—Of the funds made available pursuant to paragraph (1)—

(A) $10,000,000 shall be made available to support the Justice and Peace and Human Rights Units of the Fiscalía for implementation of the Justice and Peace Law;

(B) not less than $5,000,000 shall be made available to support the Fiscalía, Procuraduría, or Defensoría for establishment of a victims' protection program;

(C) not less than $3,000,000 shall be made available to the Defensoría to support legal representation of victims as required by the Justice and Peace Law; and

(D) up to $5,000,000 shall be made available for assistance for the demobilization, disarmament, and reintegration of former members of foreign terrorist organizations (FTOs) in Colombia, specifically the United Self-Defense Forces of Colombia (AUC), the Revolutionary Armed Forces of Colombia (FARC) and the National Liberation Army (ELN), if the Secretary of State submits a certification described in paragraph (3) to the Committees on Appropriations prior to the initial obligation of amounts for such assistance.

(3) CERTIFICATION.—The certification required by paragraph (2)(D) is a certification that—

(A) assistance for the fiscal year will be provided only for individuals who:

(i) have verifiably renounced and terminated any affiliation or involvement with FTOs or other illegal armed groups;

(ii) are meeting all the requirements of the Colombia Demobilization Program, including having fully and truthfully disclosed their involvement in past crimes and their knowledge of the foreign terrorist organizations structure, financing sources, illegal assets, and the location of kidnapping victims and bodies of the disappeared; and

(iii) are not involved in threatening or intimidating human rights defenders.

(B) the Government of Colombia is providing full cooperation to the Government of the United States to extradite the leaders and members of the FTOs who have been indicted in the United States for murder, kidnapping, narcotics trafficking, and other violations of United States law, and is immediately extraditing to the United States those commanders, leaders and members indicted in the United States who are credibly alleged to have breached the terms of the Colombia Demobilization Program, including by failing to fully confess their crimes, failing to disclose their assets, or committing new crimes since the approval of the Justice and Peace Law;

(C) the Government of Colombia is not taking any steps to legalize the titles of land or other assets illegally obtained and held by FTOs, their associates, or successors, has established effective procedures to identify such land and assets, and is vigorously confiscating and returning such land and other assets to their rightful owners; and the Government of Colombia's reintegration programs exclude any projects that would leave illegally obtained land or assets in the possession of FTO members, their associates, or successors;

(D) members of FTOs who receive sentence reductions under the Colombian Justice and Peace Law are serving their sentences in maximum-security penitentiary establishments, under conditions of detention that are appropriate to deter and effectively prevent them from continuing to engage in criminal activity;

(E) the Government of Colombia is implementing a concrete and workable framework for dismantling the organizational structures of foreign terrorist organizations;

(F) funds are not made available as cash payments to individuals and are available only for activities relating to demobilization, disarmament, reintegration (including training and education), and vetting; and

(G) the Government of Colombia is promptly, impartially, and thoroughly investigating all attacks against human rights defenders allegedly committed by FTOs or other illegal armed groups.

(4) REPORT.—The report accompanying the certification required by paragraph (3) shall specify, with respect to each condition described in subparagraphs (A) through (G) of paragraph (3)—

(A) the action taken by the Colombian Government which supports the certification;

(B) the cases or issues brought to the attention of the Secretary for which the response or action taken by the Colombian Government has been inadequate; and

(C) the views of the Colombian Attorney General and the Inspector General with respect to the Colombian Government's actions in relation to the conditions described in subparagraphs (A) through (G) of paragraph (3).

(5) CONSULTATIVE PROCESS.—Not later than 60 days after the date of enactment of this Act, and every 180 days thereafter until September 30, 2010, the Secretary of State shall consult with internationally recognized human rights and justice organizations, including organizations representing internally displaced persons, and representatives of victims of demobilized FTOs, regarding progress in meeting the conditions contained in paragraph (3).

(6) FOREIGN TERRORIST ORGANIZATION DEFINED.—In this subsection the term ''foreign terrorist organization'' means an organization designated as a terrorist organization under section 219 of the Immigration and Nationality Act.

(7) CONGRESSIONAL NOTIFICATION.—Funds made available in title III of this Act for demobilization/reintegration of former members of FTOs in Colombia shall be subject to prior consultation with, and the regular notification procedures of, the Committees on Appropriations.

(b) ASSISTANCE TO THE ORGANIZATION OF AMERICAN STATES (OAS) MISSION TO SUPPORT THE PEACE PROCESS IN COLOMBIA.—Of the funds appropriated by this Act under the heading ''ECONOMIC SUPPORT FUND'', not less than $3,000,000 shall be made available to support the peace process in Colombia, as follows:

(1) not less than $2,700,000 shall be made available to the OAS Mission to Support the Peace Process in Colombia to assist the mission to fulfill its mandate of independent international verification of the paramilitary demobilization process; and

(2) not less than $300,000 may be made available to the Inter-American Commission

on Human Rights to conduct monitoring of the demobilization process.

WEST BANK AND GAZA PROGRAM

SEC. 659. (a) OVERSIGHT.—For fiscal year 2008, 30 days prior to the initial obligation of funds for the bilateral West Bank and Gaza Program, the Secretary of State shall certify to the Committees on Appropriations that procedures have been established to assure the Comptroller General of the United States will have access to appropriate United States financial information in order to review the uses of United States assistance for the Program funded under the heading ''ECONOMIC SUPPORT FUND'' for the West Bank and Gaza.

(b) VETTING.—Prior to the obligation of funds appropriated by this Act under the heading ''ECONOMIC SUPPORT FUND'' for assistance for the West Bank and Gaza, the Secretary of State shall take all appropriate steps to ensure that such assistance is not provided to or through any individual, private or government entity, or educational institution that the Secretary knows or has reason to believe advocates, plans, sponsors, engages in, or has engaged in, terrorist activity nor those that have as a trustee any member of a certified foreign terrorist organization. The Secretary of State shall, as appropriate, establish procedures specifying the steps to be taken in carrying out this subsection and shall terminate assistance to any individual, entity, or educational institution which she has determined to be involved in or advocating terrorist activity.

(c) PROHIBITION.—

(1) None of the funds appropriated under titles II thourgh V of this Act for assistance under the West Bank and Gaza program may be made available for the purpose of recognizing or otherwise honoring individuals who commit, or have committed acts of terrorism.

(2) Notwithstanding any other provision of law, none of the funds made available by this or prior appropriations act, including funds made available by transfer, may be made available for obligation for security assistance for the West Bank and Gaza until the Secretary of State reports to the Committee on Appropriations of the House of Representatives on the benchmarks that have been established for security assistance for the West Bank and Gaza and reports on the extent of Palestinian compliance with such benchmarks.

(d) AUDITS.—

(1) The Administrator of the United States Agency for International Development shall ensure that Federal or non-Federal audits of all contractors and grantees, and significant subcontractors and sub-grantees, under the West Bank and Gaza Program, are conducted at least on an annual basis to ensure, among other things, compliance with this section.

(2) Of the funds appropriated by this Act up to $1,000,000 may be used by the Office of the Inspector General of the United States Agency for International Development for audits, inspections, and other activities in furtherance of the requirements of this subsection.

(e) Subsequent to the certification specified in subsection (a), the Comptroller General of the United States shall conduct an audit and an investigation of the treatment, handling, and uses of all funds for the bilateral West Bank and Gaza Program in fiscal year 2008 under the heading ''ECONOMIC SUPPORT FUND''. The audit shall address—

(1) the extent to which such Program complies with the requirements of subsections (b) and (c), and

(2) an examination of all programs, projects, and activities carried out under such Program, including both obligations and expenditures.

(f) Not later than 180 days after enactment of this act, the secretary of state shall submit a report to the committees on appropriations updating the report contained in section 2106 of chapter 2 of title II of Public Law 109–13.

CONTRIBUTIONS TO THE UNITED NATIONS POPULATION FUND

SEC. 660. (a) LIMITATIONS ON AMOUNT OF CONTRIBUTION.—Of the amounts made available under ''International Organizations and Programs'' and ''Child Survival and Health Programs Fund'' accounts for fiscal year 2008, $40,000,000 shall be made available for the United Nations Population Fund (UNFPA): *Provided*, That of this amount, not less than $23,000,000 shall be derived from funds appropriated under the heading ''International Organizations and Programs''.

(b) AVAILABILITY OF FUNDS.—Funds appropriated under the heading ''INTERNATIONAL ORGANIZATIONS AND PROGRAMS'' in this Act that are available for UNFPA, that are not made available for UNFPA because of the operation of any provision of law, shall be transferred to the ''CHILD SURVIVAL AND HEALTH PROGRAMS FUND'' account and shall be made available for family planning, maternal, and reproductive health activities, subject to the regular notification procedures of the Committees on Appropriations.

(c) PROHIBITION ON USE OF FUNDS IN CHINA.—None of the funds made available under this Act may be used by UNFPA for a country program in the People's Republic of China.

(d) CONDITIONS ON AVAILABILITY OF FUNDS.—Amounts made available under this Act for UNFPA may not be made available to UNFPA unless—

(1) UNFPA maintains amounts made available to UNFPA under this section in an account separate from other accounts of UNFPA;

(2) UNFPA does not commingle amounts made available to UNFPA under this section with other sums; and

(3) UNFPA does not fund abortions.

(e) REPORT TO CONGRESS AND DOLLAR-FOR-DOLLAR WITHHOLDING OF FUNDS.—

(1) Not later than four months after the date of enactment of this Act, the Secretary of State shall submit a report to the appropriate Congressional committees indicating the amount of funds that the UNFPA is budgeting for the year in which the report is submitted for a country program in the People's Republic of China.

(2) If a report under subparagraph (d) indicates that the UNFPA plans to spend funds for a country program in the People's Republic of China in the year covered by the report, then the amount of such funds that the UNFPA plans to spend in the People's Republic of China shall be deducted from the funds made available to the UNFPA after March 1 for obligation for the remainder of the fiscal year in which the report is submitted.

(f) Nothing in this section shall be construed to limit the authority of the President to deny funds to any organization by reason of the application of another provision of this Act or any other provision of law.

WAR CRIMINALS

SEC. 661. (a)(1) None of the funds appropriated or otherwise made available under titles II through V of this Act may be made available for assistance, and the Secretary of the Treasury shall instruct the United States Executive Director at each international financial institution to vote against any new project involving the extension by such institutions of any financial or technical assistance, to any country, entity, or municipality whose competent authorities have failed, as determined by the Secretary of State, to take necessary and significant steps to implement its international legal obligations to apprehend and transfer to the International Criminal Tribunal for the former Yugoslavia (the ''Tribunal'') all persons in their territory who have been indicted by the Tribunal and to otherwise cooperate with the Tribunal.

(2) The provisions of this subsection shall not apply to humanitarian assistance or assistance for democratization.

(b) The provisions of subsection (a) shall apply unless the Secretary of State determines and reports to the appropriate Congressional committees that the competent authorities of such country, entity, or municipality are—

(1) cooperating with the Tribunal, including access for investigators to archives and witnesses, the provision of documents, and the surrender and transfer of indictees or assistance in their apprehension; and

(2) are acting consistently with the Dayton Accords.

(c) Not less than ten days before any vote in an international financial institution regarding the extension of any new project involving financial or technical assistance or grants to any country or entity described in subsection (a), the Secretary of the Treasury, in consultation with the Secretary of State, shall provide to the Committees on Appropriations a written justification for the proposed assistance, including an explanation of the United States position regarding any such vote, as well as a description of the location of the proposed assistance by municipality, its purpose, and its intended beneficiaries.

(d) In carrying out this section, the Secretary of State, the Administrator of the United States Agency for International Development, and the Secretary of the Treasury shall consult with representatives of human rights organizations and all government agencies with relevant information to help prevent indicted war criminals from benefiting from any financial or technical assistance or grants provided to any country or entity described in subsection (a).

(e) The Secretary of State may waive the application of subsection (a) with respect to projects within a country, entity, or municipality upon a written determination to the Committees on Appropriations that such assistance directly supports the implementation of the Dayton Accords.

(f) DEFINITIONS.—As used in this section:

(1) COUNTRY.—The term ''country'' means Bosnia and Herzegovina, Croatia and Serbia.

(2) ENTITY.—The term ''entity'' refers to the Federation of Bosnia and Herzegovina, Kosovo, Montenegro and the Republika Srpska.

(3) MUNICIPALITY.—The term ''municipality'' means a city, town or other subdivision within a country or entity as defined herein.

(4) DAYTON ACCORDS.—The term ''Dayton Accords'' means the General Framework Agreement for Peace in Bosnia and Herzegovina, together with annexes relating thereto, done at Dayton, November 10 through 16, 1995.

USER FEES

SEC. 662. The Secretary of the Treasury shall instruct the United States Executive

Director at each international financial institution (as defined in section 1701(c)(2) of the International Financial Institutions Act) and the International Monetary Fund to oppose any loan, grant, strategy or policy of these institutions that would require user fees or service charges on poor people for primary education or primary healthcare, including prevention, treatment and care efforts for HIV/AIDS, malaria, tuberculosis, and infant, child, and maternal well-being, in connection with the institutions' financing programs.

FUNDING FOR SERBIA

SEC. 663. (a) Funds appropriated by this Act may be made available for assistance for the central Government of Serbia and the Government of Montenegro after May 31, 2008, if the President has made the determination and certification contained in subsection (c).

(b) After May 31, 2008, the Secretary of the Treasury should instruct the United States Executive Director at each international financial institution to support loans and assistance to the Government of Serbia and Government of Montenegro subject to the conditions in subsection (c): *Provided,* That section 576 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1997, as amended, shall not apply to the provision of loans and assistance to the Governments of Serbia and Montenegro through international financial institutions.

(c) The determination and certification referred to in subsection (a) is a determination by the President and a certification to the Committees on Appropriations that the Government of Serbia and the Government of Montenegro is—

(1) cooperating with the International Criminal Tribunal for the former Yugoslavia including access for investigators, the provision of documents, timely information on the location, travel, and sources of financial support of indictees, and the surrender and transfer of indictees or assistance in their apprehension, including Ratko Mladic;

(2) taking steps that are consistent with the Dayton Accords to end Serbian financial, political, security and other support which has served to maintain separate Republika Srpska institutions; and

(3) taking steps to implement policies which reflect a respect for minority rights and the rule of law.

(d) This section shall not apply to Kosovo and Montenegro, humanitarian assistance or assistance to promote democracy.

COMMUNITY-BASED POLICE ASSISTANCE

SEC. 664. (a) AUTHORITY.—Funds made available by title III of this Act to carry out the provisions of chapter 1 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961, may be used, notwithstanding section 660 of that Act, to enhance the effectiveness and accountability of civilian police authority through training and technical assistance in human rights, the rule of law, strategic planning, and through assistance to foster civilian police roles that support democratic governance including assistance for programs to prevent conflict, respond to disasters, address gender-based violence, and foster improved police relations with the communities they serve.

(b) NOTIFICATION.—Assistance provided under subsection (a) shall be subject to prior consultation with, and the regular notification procedures of, the Committees on Appropriations.

SPECIAL DEBT RELIEF FOR THE POOREST

SEC. 665. (a) AUTHORITY TO REDUCE DEBT.—The President may reduce amounts owed to the United States (or any agency of the United States) by an eligible country as a result of—

(1) guarantees issued under sections 221 and 222 of the Foreign Assistance Act of 1961;

(2) credits extended or guarantees issued under the Arms Export Control Act; or

(3) any obligation or portion of such obligation, to pay for purchases of United States agricultural commodities guaranteed by the Commodity Credit Corporation under export credit guarantee programs authorized pursuant to section 5(f) of the Commodity Credit Corporation Charter Act of June 29, 1948, as amended, section 4(b) of the Food for Peace Act of 1966, as amended (Public Law 89–808), or section 202 of the Agricultural Trade Act of 1978, as amended (Public Law 95–501).

(b) LIMITATIONS.—

(1) The authority provided by subsection (a) may be exercised only to implement multilateral official debt relief and referendum agreements, commonly referred to as ''Paris Club Agreed Minutes''.

(2) The authority provided by subsection (a) may be exercised only in such amounts or to such extent as is provided in advance by appropriations Acts.

(3) The authority provided by subsection (a) may be exercised only with respect to countries with heavy debt burdens that are eligible to borrow from the International Development Association, but not from the International Bank for Reconstruction and Development, commonly referred to as ''IDA-only'' countries.

(c) CONDITIONS.—The authority provided by subsection (a) may be exercised only with respect to a country whose government—

(1) does not have an excessive level of military expenditures;

(2) has not repeatedly provided support for acts of international terrorism;

(3) is not failing to cooperate on international narcotics control matters;

(4) does not engage in a consistent pattern of gross violations of internationally recognized human rights (including its military or other security forces); and

(5) is not ineligible for assistance because of the application of section 527 of the Foreign Relations Authorization Act, Fiscal Years 1994 and 1995.

(d) AVAILABILITY OF FUNDS.—The authority provided by subsection (a) may be used only with regard to the funds appropriated by this Act under the heading ''DEBT RESTRUCTURING''.

(e) CERTAIN PROHIBITIONS INAPPLICABLE.—A reduction of debt pursuant to subsection (a) shall not be considered assistance for the purposes of any provision of law limiting assistance to a country. The authority provided by subsection (a) may be exercised notwithstanding section 620(r) of the Foreign Assistance Act of 1961 or section 321 of the International Development and Food Assistance Act of 1975.

AUTHORITY TO ENGAGE IN DEBT BUYBACKS OR SALES

SEC. 666. (a) LOANS ELIGIBLE FOR SALE, REDUCTION, OR CANCELLATION.—

(1) AUTHORITY TO SELL, REDUCE, OR CANCEL CERTAIN LOANS.—Notwithstanding any other provision of law, the President may, in accordance with this section, sell to any eligible purchaser any concessional loan or portion thereof made before January 1, 1995, pursuant to the Foreign Assistance Act of 1961, to the government of any eligible country as defined in section 702(6) of that Act or on receipt of payment from an eligible purchaser, reduce or cancel such loan or portion thereof, only for the purpose of facilitating—

(A) debt-for-equity swaps, debt-for-development swaps, or debt-for-nature swaps; or

(B) a debt buyback by an eligible country of its own qualified debt, only if the eligible country uses an additional amount of the local currency of the eligible country, equal to not less than 40 percent of the price paid for such debt by such eligible country, or the difference between the price paid for such debt and the face value of such debt, to support activities that link conservation and sustainable use of natural resources with local community development, and child survival and other child development, in a manner consistent with sections 707 through 710 of the Foreign Assistance Act of 1961, if the sale, reduction, or cancellation would not contravene any term or condition of any prior agreement relating to such loan.

(2) TERMS AND CONDITIONS.—Notwithstanding any other provision of law, the President shall, in accordance with this section, establish the terms and conditions under which loans may be sold, reduced, or canceled pursuant to this section.

(3) ADMINISTRATION.—The Facility, as defined in section 702(8) of the Foreign Assistance Act of 1961, shall notify the administrator of the agency primarily responsible for administering part I of the Foreign Assistance Act of 1961 of purchasers that the President has determined to be eligible, and shall direct such agency to carry out the sale, reduction, or cancellation of a loan pursuant to this section. Such agency shall make adjustment in its accounts to reflect the sale, reduction, or cancellation.

(4) LIMITATION.—The authorities of this subsection shall be available only to the extent that appropriations for the cost of the modification, as defined in section 502 of the Congressional Budget Act of 1974, are made in advance.

(b) DEPOSIT OF PROCEEDS.—The proceeds from the sale, reduction, or cancellation of any loan sold, reduced, or canceled pursuant to this section shall be deposited in the United States Government account or accounts established for the repayment of such loan.

(c) ELIGIBLE PURCHASERS.—A loan may be sold pursuant to subsection (a)(1)(A) only to a purchaser who presents plans satisfactory to the President for using the loan for the purpose of engaging in debt-for-equity swaps, debt-for-development swaps, or debt-for-nature swaps.

(d) DEBTOR CONSULTATIONS.—Before the sale to any eligible purchaser, or any reduction or cancellation pursuant to this section, of any loan made to an eligible country, the President should consult with the country concerning the amount of loans to be sold, reduced, or canceled and their uses for debt-for-equity swaps, debt-for-development swaps, or debt-for-nature swaps.

(e) AVAILABILITY OF FUNDS.—The authority provided by subsection (a) may be used only with regard to funds appropriated by this Act under the heading ''DEBT RESTRUCTURING''.

BASIC EDUCATION

SEC. 667. Of the funds appropriated by title III of this Act, not less than $750,000,000 shall be made available for assistance for developing countries for basic education. Of this amount, not less than $265,000,000 shall be provided and implemented in countries that have an approved national education plan.

(a) COORDINATOR.—There shall be established within the Department of State in the immediate office of the Secretary of State, a Coordinator of United States Government activities to provide basic education assistance in developing countries (hereinafter in

this section referred to as the ''Coordinator'').

(b) RESPONSIBILITIES.—That this Coordinator shall have primary responsibility for the oversight and coordination of all resources and international activities of the United States Government that provide assistance in developing countries for basic education. The individual serving as the Coordinator may not hold any other position in the Federal Government during the individual's time of service as Coordinator.

(c) STRATEGY.—The President shall develop a comprehensive integrated United States Government strategy to provide assistance in developing countries for basic education within 90 days of enactment of this Act.

(d) REPORT TO CONGRESS.—Not later than September 30, 2008, the Secretary of State shall report to the Committees on Appropriations on the implementation of United States Government assistance programs in developing countries for basic education.

(e) Funds appropriated by title II of Public Law 109–102 and provided to the Comptroller General pursuant to section 567 of that Act shall be available until expended and are also available to the Comptroller General to conduct further evaluations of basic education programs in developing countries under the direction of the Committees on Appropriations.

RECONCILIATION PROGRAMS

SEC. 668. Of the funds appropriated by title III of this Act under the heading ''ECONOMIC SUPPORT FUND'', not less than $12,000,000 shall be made available to support Conflict Resolution and Reconciliation Programs and an additional amount of $11,000,000 shall be made available to support Middle East People to People Coexistence Programs to promote activities which bring together individuals of different ethnic, religious, and political backgrounds from areas of civil conflict and war.

SUDAN

SEC. 669. (a) LIMITATION ON ASSISTANCE.—Subject to subsection (d):

(1) Notwithstanding any other provision of law, none of the funds appropriated by this Act may be made available for assistance for the Government of Sudan.

(2) None of the funds appropriated by this Act may be made available for the cost, as defined in section 502, of the Congressional Budget Act of 1974, of modifying loans and loan guarantees held by the Government of Sudan, including the cost of selling, reducing, or canceling amounts owed to the United States, and modifying concessional loans, guarantees, and credit agreements.

(b) Subsection (a) shall not apply if the Secretary of State determines and certifies to the Committees on Appropriations that—

(1) The Government of Sudan honors its pledges to cease attacks upon civilians and disarms and demobilizes the Janjaweed and other government-supported militias;

(2) The Government of Sudan and all government-supported militia groups are honoring their commitments made in all previous cease-fire agreements;

(3) The Government of Sudan is allowing unimpeded access to Darfur to humanitarian aid organizations, the human rights investigation and humanitarian teams of the United Nations, including protection officers, and the international monitoring team that is based in Darfur and has the support of the United States;

(c) EXCEPTIONS.—The provisions of subsection (b) shall not apply to—

(1) humanitarian assistance;

(2) assistance for the Darfur region, Southern Sudan, Southern Kordofan/Nuba Mountains State, Blue Nile State, and Abyei; and

(3) assistance to support implementation of the Comprehensive Peace Agreement and the Darfur Peace Agreement or any other internationally-recognized viable peace agreement in Sudan.

(d) DEFINITIONS.—For the purposes of this Act, the term ''Government of Sudan'', shall not include the Government of Southern Sudan.

(e) Notwithstanding any other law, assistance in this Act may be made available to the Government of Southern Sudan to provide non-lethal military assistance, military education and training, and defense services controlled under the International Traffic in Arms Regulations (22 CRF 120.1 et seq.) if the Secretary of State—

(1) determines that the provision of such items is in the national interest of the United States; and

(2) not later than 15 days before the provision of any such assistance, notifies the Committees on Appropriations and the Committee on Foreign Relations in the Senate and the Committee on Foreign Affairs in the House of Representatives of such determination.

TRADE CAPACITY BUILDING

SEC. 670. Of the funds appropriated by this Act, under the headings ''DEVELOPMENT ASSISTANCE'', ''ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES'', ''ECONOMIC SUPPORT FUND'', ''ANDEAN COUNTERDRUG INITIATIVE'', and ''ASSISTANCE FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION'', not less than $525,000,000 should be made available for trade capacity building assistance: *Provided,* That $10,000,000 of the funds appropriated in this Act under the heading ''ECONOMIC SUPPORT FUND'' shall be made available for labor and environmental capacity building activities relating to the free trade agreement with the countries of Central America and the Dominican Republic.

EXCESS DEFENSE ARTICLES FOR CENTRAL AND SOUTH EUROPEAN COUNTRIES AND CERTAIN OTHER COUNTRIES

SEC. 671. Notwithstanding section 516(e) of the Foreign Assistance Act of 1961 (22 U.S.C. 2321j(e)), during fiscal year 2008, funds available to the Department of Defense may be expended for crating, packing, handling, and transportation of excess defense articles transferred under the authority of section 516 of such Act to Albania, Afghanistan, Bulgaria, Croatia, Estonia, Former Yugoslavian Republic of Macedonia, Georgia, India, Iraq, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Moldova, Mongolia, Pakistan, Romania, Slovakia, Tajikistan, Turkmenistan, and Ukraine.

ASSISTANCE TO COLOMBIA LAW ENFORCEMENT TO COMBAT ILLEGAL ARMED GROUPS

SEC. 672. (a) ASSISTANCE TO LAW ENFORCEMENT AND INTELLIGENCE AGENCIES.—

(1) WITHHOLDING OBLIGATIONS OF FUNDS.—The Secretary of State shall withhold the obligation of funds for assistance to any Colombian law enforcement or intelligence agency, including the Colombian National Police, the Fiscalía, and the Departamento Administrativo de Seguridad (the Intelligence Service), if the Secretary determines that—

(A) there has been significant infiltration of the agency by the Revolutionary Armed Forces of Colombia (FARC), the National Liberation Army (ELN), or the United Self-Defense Forces of Colombia (AUC), successor groups, or criminal organizations; or

(B) the agency's leadership has willfully provided any support to such groups, including taking actions or failing to take actions which allow, facilitate, or otherwise foster the activities of such groups.

(2) RESUMPTION OF ASSISTANCE.—The Secretary of State may resume the obligation of funds suspended under paragraph (1) if the Secretary determines and certifies to the Committees on Appropriations, based on a careful review of the structure and membership of the agency involved, that it has credibly and effectively eliminated the penetration of individuals associated with illegal armed groups, and removed those leaders and members who were providing support to such groups.

(b) ILLEGAL ARMED GROUPS.—

(1) DENIAL OF VISAS TO SUPPORTERS OF COLOMBIAN ILLEGAL ARMED GROUPS.—Subject to paragraph (2), the Secretary of State shall not issue a visa to any alien who the Secretary determines, based on credible evidence—

(A) has willfully provided any support to the Revolutionary Armed Forces of Colombia (FARC), the National Liberation Army (ELN), or the United Self-Defense Forces of Colombia (AUC), or successor groups, including taking actions or failing to take actions which allow, facilitate, or otherwise foster the activities of such groups; or

(B) has committed, ordered, incited, assisted, or otherwise participated in the commission of gross violations of human rights, including extra-judicial killings, in Colombia.

(2) WAIVER.—Paragraph (1) shall not apply if the Secretary of State determines and certifies to the Committees on Appropriations, on a case-by-case basis, that the issuance of a visa to the alien is necessary to support the peace process in Colombia or for urgent humanitarian reasons.

CUBA

SEC. 673. None of the funds appropriated by this Act under the heading ''INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT'' may be made available for assistance to the Government of Cuba.

GENDER-BASED VIOLENCE

SEC. 674. Programs funded under titles III and IV of this Act that provide training for foreign police, judicial, and military officials, shall include, where appropriate, programs and activities that address gender-based violence.

LIMITATION ON ECONOMIC SUPPORT FUND ASSISTANCE FOR CERTAIN FOREIGN GOVERNMENTS THAT ARE PARTIES TO THE INTERNATIONAL CRIMINAL COURT

SEC. 675. (a) None of the funds made available in this Act under the heading ''ECONOMIC SUPPORT FUND'' may be used to provide assistance to the government of a country that is a party to the International Criminal Court and has not entered into an agreement with the United States pursuant to Article 98 of the Rome Statute preventing the International Criminal Court from proceeding against United States personnel present in such country.

(b) The President may, with prior notice to Congress, waive the prohibition of subsection (a) with respect to a North Atlantic Treaty Organization (''NATO'') member country, a major non-NATO ally (including Australia, Egypt, Israel, Japan, Jordan, Argentina, the

Republic of Korea, and New Zealand), Taiwan, or such other country as he may determine if he determines and reports to the appropriate congressional committees that it is important to the national interests of the United States to waive such prohibition.

(c) The President may, with prior notice to Congress, waive the prohibition of subsection (a) with respect to a particular country if he determines and reports to the appropriate congressional committees that such country has entered into an agreement with the United States pursuant to Article 98 of the Rome Statute preventing the International Criminal Court from proceeding against United States personnel present in such country.

(d) The prohibition of this section shall not apply to countries otherwise eligible for assistance under the Millennium Challenge Act of 2003, notwithstanding section 606(a)(2)(B) of such Act.

TIBET

SEC. 676. (a) The Secretary of the Treasury should instruct the United States Executive Director at each international financial institution to use the voice and vote of the United States to support projects in Tibet if such projects do not provide incentives for the migration and settlement of non-Tibetans into Tibet or facilitate the transfer of ownership of Tibetan land and natural resources to non-Tibetans; are based on a thorough needs-assessment; foster self-sufficiency of the Tibetan people and respect Tibetan culture and traditions; and are subject to effective monitoring.

(b) Notwithstanding any other provision of law, not less than $5,000,000 of the funds appropriated by title III of this Act under the heading ''ECONOMIC SUPPORT FUND'' should be made available to nongovernmental organizations to support activities which preserve cultural traditions and promote sustainable development and environmental conservation in Tibetan communities in the Tibetan Autonomous Region and in other Tibetan communities in China, and not less than $250,000 should be made available to the National Endowment for Democracy for human rights and democracy programs relating to Tibet.

WESTERN HEMISPHERE

SEC. 677. (a) Not less than the amounts of funds initially allocated for the fiscal year 2007 pursuant to section 653(a) of the Foreign Assistance Act of 1961 for El Salvador, Guatemala, Nicaragua, and Honduras under the headings ''CHILD SURVIVAL AND HEALTH PROGRAMS FUND'' and ''DEVELOPMENT ASSISTANCE'', should be made available for each such country from funds appropriated under such headings by this Act.

(b) Not less than the aggregate amount of funds initially allocated for the fiscal year 2007 pursuant to section 653(a) of the Foreign Assistance Act of 1961 for countries in the Western Hemisphere under the heading ''FOREIGN MILITARY FINANCING PROGRAM'', should be made available for such countries from funds appropriated under such heading by this Act: *Provided,* That not less than the following amounts from funds appropriated by this Act under such heading shall be made available to enhance security in the Western Hemisphere consistent with democratic principles and the rule of law—

(1) $48,000,000 for assistance for Colombia;

(2) $4,800,000 for assistance for El Salvador;

(3) $500,000 for assistance for Honduras;

(4) $300,000 for assistance for Bolivia;

(5) $250,000 for assistance for Guatemala; and

(6) $100,000 for assistance for Belize.

(c) Funds made available pursuant to subsection (b) shall be subject to the regular notification procedures of the Committees on Appropriations.

UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT MANAGEMENT

(INCLUDING TRANSFER OF FUNDS)

SEC. 678. (a) AUTHORITY.—Up to $81,000,000 of the funds made available in title III of this Act to carry out the provisions of part I of the Foreign Assistance Act of 1961, including funds appropriated under the heading ''ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES'', may be used by the United States Agency for International Development (USAID) to hire and employ individuals in the United States and overseas on a limited appointment basis pursuant to the authority of sections 308 and 309 of the Foreign Service Act of 1980.

(b) RESTRICTIONS.—

(1) The number of individuals hired in any fiscal year pursuant to the authority contained in subsection (a) may not exceed 175.

(2) The authority to hire individuals contained in subsection (a) shall expire on September 30, 2009.

(c) CONDITIONS.—The authority of subsection (a) may only be used to the extent that an equivalent number of positions that are filled by personal services contractors or other non-direct hire employees of USAID, who are compensated with funds appropriated to carry out part I of the Foreign Assistance Act of 1961, including funds appropriated under the heading ''ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES'', are eliminated.

(d) PRIORITY SECTORS.—In exercising the authority of this section, primary emphasis shall be placed on enabling USAID to meet personnel positions in technical skill areas currently encumbered by contractor or other non-direct hire personnel.

(e) CONSULTATIONS.—The USAID Administrator shall consult with the Committees on Appropriations at least on a quarterly basis concerning the implementation of this section.

(f) PROGRAM ACCOUNT CHARGED.—The account charged for the cost of an individual hired and employed under the authority of this section shall be the account to which such individual's responsibilities primarily relate. Funds made available to carry out this section may be transferred to and merged and consolidated with funds appropriated for ''OPERATING EXPENSES OF THE UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT''.

(g) MANAGEMENT REFORM PILOT.—Of the funds made available in subsection (a), USAID may use, in addition to funds otherwise available for such purposes, up to $10,000,000 to fund overseas support costs of members of the Foreign Service with a Foreign Service rank of four or below: *Provided,* That such authority is only used to reduce USAID's reliance on overseas personal services contractors or other non-direct hire employees compensated with funds appropriated to carry out part I of the Foreign Assistance Act of 1961, including funds appropriated under the heading ''ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES''.

(h) DISASTER SURGE CAPACITY.—Funds appropriated under title III of this Act to carry out part I of the Foreign Assistance Act of 1961, including funds appropriated under the heading ''ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES'', may be used, in addition to funds otherwise available for such purposes, for the cost (including the support costs) of individuals detailed to or employed by the United States Agency for International Development whose primary responsibility is to carry out programs in response to natural disasters.

OPIC TRANSFER AUTHORITY

(INCLUDING TRANSFER OF FUNDS)

SEC. 679. Whenever the President determines that it is in furtherance of the purposes of the Foreign Assistance Act of 1961, up to a total of $20,000,000 of the funds appropriated under title III of this Act may be transferred to and merged with funds appropriated by this Act for the Overseas Private Investment Corporation Program Account, to be subject to the terms and conditions of that account: *Provided*, That such funds shall not be available for administrative expenses of the Overseas Private Investment Corporation: *Provided further,* That designated funding levels in this Act shall not be transferred pursuant to this section: *Provided further,* That the exercise of such authority shall be subject to the regular notification procedures of the Committees on Appropriations.

REPORTING REQUIREMENT

SEC. 680. The Secretary of State shall provide the Committees on Appropriations, not later than April 1, 2008, and for each fiscal quarter, a report in writing on the uses of funds made available under the headings ''FOREIGN MILITARY FINANCING PROGRAM'', ''INTERNATIONAL MILITARY EDUCATION AND TRAINING'', and ''PEACEKEEPING OPERATIONS'': *Provided,* That such report shall include a description of the obligation and expenditure of funds, and the specific country in receipt of, and the use or purpose of the assistance provided by such funds.

ANTICORRUPTION PROVISIONS

SEC. 681. Twenty percent of the funds appropriated under title V of this Act under the heading ''INTERNATIONAL DEVELOPMENT ASSISTANCE'', shall be withheld from disbursement until the Secretary of the Treasury reports to the appropriate Congressional committees on the extent to which the World Bank has completed the following:

(1) World Bank procurement guidelines have been applied to all procurement financed in whole or in part by a loan from the World Bank or a credit agreement or grant from the International Development Association (IDA).

(2) The World Bank proposal ''Increasing the Use of Country Systems in Procurement'' dated March 2005 has been withdrawn.

(3) The World Bank maintains a strong central procurement office staffed with senior experts who are designated to address commercial concerns, questions, and complaints regarding procurement procedures and payments under IDA and World Bank projects.

(4) Thresholds for international competitive bidding have been established to maximize international competitive bidding in accordance with sound procurement practices, including transparency, competition, and cost-effective results for the Borrowers.

(5) All tenders under the World Bank's national competitive bidding provisions are subject to the same advertisement requirements as tenders under international competitive bidding.

(6) Loan agreements between the World Bank and the Borrowers have been made public.

INDONESIA

SEC. 682. Of the funds appropriated by this Act under the heading ''FOREIGN MILITARY FINANCING PROGRAM'', not more

than $6,000,000 may be made available for assistance for Indonesia, until the Secretary of State reports to the Committees on Appropriations on steps taken by the Government of Indonesia on the following—

(1) prosecution and punishment, in a manner proportional to the crime, for members of the Armed Forces who have been credibly alleged to have committed gross violations of human rights;

(2) cooperation by the Armed Forces, at the direction of the President of Indonesia, with civilian judicial authorities and with international efforts to resolve cases of gross violations of human rights in East Timor and elsewhere; and

(3) implementation by the Armed Forces, at the direction of the President of Indonesia, of reforms to increase the transparency and accountability of their operations and financial management.

ESTABLISHMENT OF THE GROWTH FUND

SEC. 683. ESTABLISHMENT OF THE GROWTH FUND.—

(a) ESTABLISHMENT.—

(1) IN GENERAL.—The Secretary of State, acting through the Director of United States Foreign Assistance, shall establish the Global Resources and Opportunities for Women to Thrive (GROWTH) Fund for the purpose of enhancing economic opportunities for very poor, poor, and low-income women in developing countries with a focus on—

(A) increasing women-owned enterprise development;

(B) increasing property rights for women;

(C) increasing women's access to financial services;

(D) increasing women in leadership in implementing organizations, such as indigenous nongovernmental organizations, community-based organizations, and regulated financial intermediaries;

(E) improving women's employment benefits and conditions; and

(F) increasing women's ability to benefit from global trade.

(2) ROLE OF USAID MISSIONS.—The Fund shall be available to USAID missions to apply for additional funding to support specific additional activities that enhance women's economic opportunities or to integrate gender into existing economic opportunity programs.

(b) ACTIVITIES SUPPORTED.—The Fund shall be available to USAID missions to support—

(1) initiatives to eliminate legal and institutional barriers to women's ownership of assets, access to credit, access to information and communication technologies, and engagement in business activities within or outside of the home;

(2) microfinance and microenterprise development programs that—

(A) specifically target women with respect to outreach and marketing; and

(B) provide products specifically to address women's assets, needs, and the barriers women encounter with respect to participation in enterprise and financial services;

(3) programs, projects, and activities for enterprise development for women in developing countries that—

(A) in coordination with developing country governments and interested individuals and organizations, encourage or enhance laws, regulations, enforcement, and other practices that promote access to banking and financial services for women-owned small- and medium-sized enterprises, and eliminate or reduce regulatory barriers that may exist in this regard;

(B) promote access to information and communication technologies (ICT) with training in ICT for women-owned small- and medium-sized enterprises;

(C) provide training, through local associations of women-owned enterprises or nongovernmental organizations in record keeping, financial and personnel management, international trade, business planning, marketing, policy advocacy, leadership development, and other relevant areas;

(D) provide resources to establish and enhance local, national, and international networks and associations of women-owned small- and medium-sized enterprises;

(E) provide incentives for nongovernmental organizations and regulated financial intermediaries to develop products, services, and marketing and outreach strategies specifically designed to facilitate and promote women's participation in small- and medium-sized business development programs by addressing women's assets, needs, and the barriers they face to participation in enterprise and financial services; and

(F) seek to award contracts to qualified indigenous women-owned small- and medium-sized enterprises, including for post-conflict reconstruction and to facilitate employment of indigenous women, including during post-conflict reconstruction in jobs not traditionally undertaken by women;

(4) programs, projects, and activities for the promotion of private property rights and land tenure security for women in developing countries that are implemented by local, indigenous nongovernmental and community-based organizations dedicated to addressing the needs of women, especially women's organizations that—

(A) advocate to amend and harmonize statutory and customary law to give women equal rights to own, use, and inherit property;

(B) promote legal literacy among women and men about property rights for women and how to exercise such rights;

(C) assist women in making land claims and protecting women's existing claims; and

(D) advocate for equitable land titling and registration for women;

(5) activities to increase women's access to employment and to higher quality employment with better remuneration and working conditions in developing countries, including access to insurance and other social safety nets, in informal and formal employment relative to core labor standards determined by the International Labor Organization. Such activities should include—

(A) public education efforts to inform poor women and men of their legal rights related to employment;

(B) education and vocational training tailored to enable poor women to access opportunities in potential growth sectors in their local economies and in jobs within the formal and informal sectors where women are not traditionally highly represented;

(C) efforts to support self-employed poor women or wage workers to form or join independent unions or other labor associations to increase their income and improve their working conditions; and

(D) advocacy efforts to protect the rights of women in the workplace, including—

(i) developing programs with the participation of civil society to eliminate gender-based violence; and

(ii) providing capacity-building assistance to women's organizations to effectively research and monitor labor rights conditions;

(6) assistance to governments and organizations in developing countries seeking to design and implement laws, regulations, and programs to improve working conditions for women and to facilitate their entry into and advancement in the workplace;

(7) training and education to women in civil society, including those organizations representing poor women, and to women-owned enterprises and associations of such enterprises, on how to respond to economic opportunities created by trade preference programs, trade agreements, or other policies creating market access, including training on United States market access requirements and procedures;

(8) capacity-building for women entrepreneurs, including microentrepreneurs, on production strategies, quality standards, formation of cooperatives, market research, and market development;

(9) capacity-building to women, including poor women, to promote diversification of products and value-added processing;

(10) training to official government negotiators representing developing countries in order to enhance the ability of such negotiators to formulate trade policy and negotiate agreements that take into account the respective needs and priorities of a country's poor women and men;

(11) training to local, indigenous women's groups in developing countries in order to enhance their ability to collect information and data, formulate proposals, and inform and impact official government negotiators representing their country in international trade negotiations of the respective needs and priorities of a country's poor women and men; and

(12) technical assistance and capacity-building to local, indigenous civil society for—

(A) local indigenous women's organizations to the maximum extent practicable; and

(B) nongovernmental organizations and regulated financial intermediaries that demonstrate a commitment to gender equity in their leadership either through current practice or through specific programs to increase the representation of women in their governance and management.

PEACEKEEPING CAP

SEC. 684. (a) IN GENERAL.—Section 404(b)(2)(B) of the Foreign Relations Authorization Act, Fiscal Years 1994 and 1995, (22 U.S.C. 287e note) is amended at the end by adding the following: ''(v) For assessments made during calendar year 2008, 27.1 percent.''.

LIMITATION ON BASING IN IRAQ

SEC. 685. None of the funds made available in this Act may be used by the Government of the United States to enter into a basing rights agreement between the United States and Iraq.

Mrs. LOWEY (during the reading). Mr. Chairman, I ask unanimous consent that the bill through page 190, line 26, be considered as read, printed in the RECORD, and open to amendment at any point.

The CHAIRMAN. Is there objection to the request of the gentlewoman from New York?

There was no objection.

AMENDMENT OFFERED BY MR. KING OF IOWA

Mr. KING of Iowa. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. KING of Iowa:

Page 190, line 25, insert ''permanent'' before ''basing rights agreement''.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Iowa (Mr. KING) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Iowa.

Mr. KING of Iowa. Mr. Chairman, this amendment that I bring to the floor of the House under limitation on bases in Iraq is an amendment that addresses the subject matter that we have debated on the floor at least twice before that I recall. And I believe there is a consensus here in this Congress, and certainly there has been a message that has been put forth by the President, that we are not interested in permanent bases in Iraq but we do have bases there and we do have temporary basing agreements.

So as I read through this appropriations bill and it says that ''None of the funds made available in this act may be used by the Government of the United States to enter into a basing rights agreement between the United States and Iraq,'' that language clearly forbids any agreements, however temporary they might be. And so the amendment that I bring to the floor simply adds the word ''permanent'' to that language. So that now, if the amendment is adopted, it will read that none of the funds may be used to enter into a ''permanent'' basing rights agreement.

I think it is a matter of language and semantics here but a matter of clarity, too. And I would point out that in our last debate in the 2007 DOD approps, Mr. MURTHA made the statement, what we are saying with this bill is that at this point in time there shouldn't be any permanent bases in Iraq. What I have done is offer an amendment that simply says there won't be any of the funds used to promote permanent bases in Iraq out of this Foreign Ops bill.

Mrs. LOWEY. Mr. Chairman, will the gentleman yield?

Mr. KING of Iowa. I yield to the gentlewoman from New York.

Mrs. LOWEY. Mr. Chairman, I am prepared to accept the amendment. And I want to be clear to my colleague from Iowa we all agree that the United States should not be an occupying power in Iraq, but in no way does my acceptance of this amendment come to my or the American people's acquiescence to establishing any other kind of short- or long-term basing agreements in Iraq. But we are accepting the amendment.

Mr. KING of Iowa. Mr. Chairman, I would say that we may not have the same view on how to proceed in Iraq, but it is my intention to foreclose any permanent bases in Iraq and allow those that are under agreement now and perhaps temporary ones that might be negotiated to get us through this process. I think that is the intent on both sides of the aisle. I think that is the intent of the White House. So I believe we are consistent in our understanding.

Mrs. LOWEY. I thank the gentleman.

Ms. LEE. Mr. Chairman, while I understand that the Chairwoman is prepared to accept it, this amendment causes me great concern.

Given Mr. KING's history in opposition to the underlying provision, I believe that this amendment is nothing more than a backdoor attempt to leaving U.S. troops in Iraq long-term.

The bottom line is, Mr. Chairman, when our troops come home, they should all come home.

And three times, twice in 2006 and once this year Congress passed—and the President signed into law—legislation prohibiting permanent military bases in Iraq.

The prospect of having long-term military bases would send the wrong message to our troops, the Iraqi people, and the world.

The prospect of an indefinite occupation fuels the insurgency by serving as a recruiting tool for insurgents and places targets on the backs of our troops.

The Iraq Study Group has recognized the importance of unequivocally declaring that we have no intention of remaining in Iraq permanently.

Key administration officials, including Secretary Gates have pronounced that we are not going to establish permanent military bases in Iraq.

Even President Bush has declared that we 'do not support an indefinite occupation' in Iraq.

Again, Mr. Chairman, I wish this were a genuine attempt to prohibit an indefinite occupation in Iraq.

I'm concerned that it is not.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Iowa (Mr. KING).

The amendment was agreed to.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

PROHIBITION ON USE OF TORTURE

SEC. 686. None of the funds made available in this Act shall be used in any way whatsoever to support or justify the use of torture by any official or contract employee of the United States Government.

REPORT ON INDONESIAN COOPERATION

SEC. 687. Funds available under the heading ''INTERNATIONAL MILITARY EDUCATION AND TRAINING'' may only be made available for assistance for Indonesia if the Secretary of State submits a report to the Committees on Appropriations that describes—

(1) Steps taken by the Indonesian government to deny promotion to and to remove from service military officers indicted for serious crimes; the extent to which the Indonesian Government is cooperating with international efforts to bring current and past officials to justice; and that past and present Indonesian military officials are cooperating with domestic inquiries into past abuses, including the forced disappearance and killing of student activists in 1998 and 1999;

(2) The Indonesian government's response to the report of the Commission for Reception, Truth and Reconciliation in Timor-Leste and the June 2006 report of the report to the Secretary-General of the Commission of Experts to Review the Prosecution of Serious Violations of Human Rights in Timor-Leste in 1999;

(3) Steps taken by the Indonesian government to implement and enforce the 2004 Indonesian law which requires the Indonesian military to divest itself of legal and illegal businesses before 2009; and

(4) The extent to which the Indonesian government has removed restrictions impending access to and travel within the provinces of Papua and West Irian Jaya by United Nations personnel, diplomats, journalists, international non-governmental organization personnel and researchers, humanitarian and human rights workers and others.

LIMITATION ON ASSISTANCE TO FOREIGN COUNTRIES THAT REFUSE TO EXTRADITE TO THE UNITED STATES ANY INDIVIDUAL ACCUSED IN THE UNITED STATES OF KILLING A LAW ENFORCEMENT OFFICER

SEC. 688. None of the funds made available in this Act for the Department of State may be used to provide assistance to the central government of a country which has notified the Department of State of its refusal to extradite to the United States any individual indicted in the United States for killing a law enforcement officer, as specified in a United States extradition request.

GOVERNMENTS THAT HAVE FAILED TO PERMIT CERTAIN EXTRADITIONS

SEC. 689. None of the funds made available in this Act for the Department of State, other than funds provided under the heading ''INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT'', may be used to provide assistance to the central government of a country with which the United States has an extradition treaty and which government has notified the Department of State of its refusal to extradite to the United States any individual charged with a criminal offense for which the maximum penalty is life imprisonment without the possibility of parole.

INTERNATIONAL MONETARY FUND BUDGET AND HIRING CEILINGS

SEC. 690. The Secretary of the Treasury shall instruct the United States Executive Director at the International Monetary Fund to use the voice of the United States to ensure that any loan, project, agreement, memorandum, instrument, plan or other program of the International Monetary Fund does not penalize countries for increased government spending on healthcare or education by exempting such increases from national budget caps or restraints, hiring or wage bill ceilings or other limits imposed by the International Monetary Fund.

ENVIRONMENT PROGRAMS

SEC. 691. (a) FUNDING.—Of the funds appropriated under the heading ''DEVELOPMENT ASSISTANCE'', not less than $501,000,000 shall be made available for programs and activities which directly protect biodiversity and promote clean energy.

(b) CLIMATE CHANGE REPORT.—Not later than 60 days after the date on which the President's fiscal year 2009 budget request is submitted to Congress, the President shall submit a report to the Committees on Appropriations describing in detail the following—

(1) all Federal agency obligations and expenditures, domestic and international, for climate change programs and activities in fiscal year 2009, including an accounting of expenditures by agency with each agency identifying climate change activities and associated costs by line item as presented in the President's Budget Appendix; and

(2) all fiscal year 2007 obligations and estimated expenditures, fiscal year 2008 estimated expenditures and estimated obligations, and fiscal year 2009 requested funds by

the United States Agency for International Development, by country and central program, for each of the following:

(A) to promote the transfer and deployment of a wide range of United States clean energy and energy efficiency technologies;

(B) to assist in the measurement, monitoring, reporting, verification, and reduction of greenhouse gas emissions;

(C) to promote carbon capture and sequestration measures;

(D) to help meet such countries' responsibilities under the Framework Convention on Climate Change; and

(E) to develop assessments of the vulnerability to impacts of climate change and mitigation and adaptation response strategies.

(c) EXTRACTION OF NATURAL RESOURCES.—(1) The Secretary of the Treasury shall inform the managements of the international financial institutions and the public that it is the policy of the United States that any assistance by such institutions (including but not limited to any loan, credit, grant, or guarantee) for the extraction and export of oil, gas, coal, timber, or other natural resource should not be provided unless the government of the country has in place or is taking the necessary steps to establish functioning systems for:

(A) accurately accounting for revenues and expenditures in connection with the extraction and export of the type of natural resource to be extracted or exported;

(B) the independent auditing of such accounts and the widespread public dissemination of the audits; and

(C) verifying government receipts against company payments including widespread dissemination of such payment information, and disclosing such documents as Host Government Agreements, Concession Agreements, and bidding documents, allowing in any such dissemination or disclosure for the redaction of, or exceptions for, information that is commercially proprietary or that would create competitive disadvantage.

(2) Not later than 180 days after the enactment of this Act, the Secretary of the Treasury shall submit a report to the Committees on Appropriations describing, for each international financial institution, the amount and type of assistance provided, by country, for the extraction and export of oil, gas, coal, timber, or other national resource since September 30, 2005.

UZBEKISTAN

SEC. 692. Assistance may be provided to the central Government of Uzbekistan only if the Secretary of State determines and reports to the Committees on Appropriations that the Government of Uzbekistan is making substantial and continuing progress in meeting its commitments under the ''Declaration on the Strategic Partnership and Cooperation Framework Between the Republic of Uzbekistan and the United States of America'', including respect for human rights, establishing a genuine multi-party system, and ensuring free and fair elections, freedom of expression, and the independence of the media, and that a credible international investigation of the May 31, 2005, shootings in Andijan is underway with the support of the Government of Uzbekistan: *Provided*, That for the purposes of this section ''assistance'' shall include excess defense articles.

DISCRIMINATION AGAINST MINORITY RELIGIOUS FAITHS IN THE RUSSIAN FEDERATION

SEC. 693. None of the funds appropriated for assistance under this Act may be made available for the Government of the Russian Federation, after 180 days from the date of the enactment of this Act, unless the President determines and certifies in writing to the Committees on Appropriations that the Government of the Russian Federation has implemented no statute, executive order, regulation or similar government action that would discriminate, or which has as its principal effect discrimination, against religious groups or religious communities in the Russian Federation in violation of accepted international agreements on human rights and religious freedoms to which the Russian Federation is a party.

WAR CRIMES IN AFRICA

SEC. 694. (a) The Congress reaffirms its support for the efforts of the International Criminal Tribunal for Rwanda (ICTR) and the Special Court for Sierra Leone (SCSL) to bring to justice individuals responsible for war crimes and crimes against humanity in a timely manner.

(b) Funds appropriated by this Act, including funds for debt restructuring, may be made available for assistance to the central government of a country in which individuals indicted by ICTR and SCSL are credibly alleged to be living, if the Secretary of State determines and reports to the Committees on Appropriations that such government is cooperating with ICTR and SCSL, including the surrender and transfer of indictees in a timely manner: *Provided*, That this subsection shall not apply to assistance provided under section 551 of the Foreign Assistance Act of 1961 or to project assistance under title II of this Act: *Provided further*, That the United States shall use its voice and vote in the United Nations Security Council to fully support efforts by ICTR and SCSL to bring to justice individuals indicted by such tribunals in a timely manner.

(c) The prohibition in subsection (b) may be waived on a country by country basis if the President determines that doing so is in the national security interest of the United States: *Provided*, That prior to exercising such waiver authority, the President shall submit a report to the Committees on Appropriations, in classified form if necessary, on:

(1) the steps being taken to obtain the cooperation of the government in surrendering the indictee in question to the court of jurisdiction;

(2) a strategy, including a timeline, for bringing the indictee before such court; and

(3) the justification for exercising the waiver authority.

COMBATTING PIRACY OF UNITED STATES COPYRIGHTED MATERIALS

SEC. 695. (a) PROGRAM AUTHORIZED.—The Secretary of State may carry out a program of activities to combat piracy in countries that are not members of the Organization for Economic Cooperation and Development (OECD), including activities as follows:

(1) The provision of equipment and training for law enforcement, including in the interpretation of intellectual property laws.

(2) The provision of training for judges and prosecutors, including in the interpretation of intellectual property laws.

(3) The provision of assistance in complying with obligations under applicable international treaties and agreements on copyright and intellectual property.

(b) CONSULTATION WITH WORLD INTELLECTUAL PROPERTY ORGANIZATION.—In carrying out the program authorized by subsection (a), the Secretary shall, to the maximum extent practicable, consult with and provide assistance to the World Intellectual Property Organization in order to promote the integration of countries described in subsection (a) into the global intellectual property system.

(c) FUNDING.—Of the amount appropriated or otherwise made available under the heading ''INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT'', $5,000,000 may be made available in fiscal year 2008 for the program authorized by subsection (a).

OVERSIGHT OF IRAQ RECONSTRUCTION

SEC. 696. (a) Section 3001 of the Emergency Supplemental Appropriations Act for Defense and for the Reconstruction of Iraq and Afghanistan, 2004 (Public Law 108–106; 117 Stat. 1238; 5 U.S.C. App., note to section 8G of Public Law 95–452), as amended by section 1054(b) of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109–364; 120 Stat. 2397), section 2 of the Iraq Reconstruction Accountability Act of 2006 (Public Law 109–440), and section 3801 of the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (Public Law 110–28) is amended—

(1) in subsection (h)(1) by striking ''pay rates.'' and inserting ''pay rates, and may exercise the authorities of subsections (b) through (i) of section 3161 of title 5, United States Code (without regard to subsection (a) of such section).'';

(2) in subsection (o)(1)(B) by striking ''fiscal year 2006 or fiscal year 2007'' and inserting ''fiscal years 2006 through 2008''; and

(3) by adding at the end of such section the following subsection:

''(p) RULE OF CONSTRUCTION.—For the purposes of carrying out the duties of the Inspector General, any United States funds appropriated or otherwise made available for fiscal years 2006 through 2008 for the reconstruction of Iraq, irrespective of the designation of such funds, shall be deemed to be amounts appropriated or otherwise made available to the Iraq Relief and Reconstruction Fund.''.

(b) Section 1054(a) of Public Law 109–364 is amended by striking ''fiscal year 2006'' and inserting ''fiscal years 2006 through 2008''.

UNITED NATIONS HEADQUARTERS RENOVATION

SEC. 697. It is the sense of the Congress that the amount of any loan for the renovation of the United Nations headquarters building located in New York, New York, should not exceed $600,000,000: *Provided*, That if any loan exceeds $600,000,000, the Secretary of State shall notify the Congress of the current cost of the renovation and cost containment measures.

NEGLECTED DISEASES

SEC. 698. Of the funds appropriated under the heading ''Child Survival and Health Programs Fund'', not less than $18,000,000 shall be made available to support an integrated response to the control of neglected diseases including intestinal parasites, schistosomiasis, lymphatic filariasis, onchocerciasis, trachoma and leprosy: *Provided*, That the Administrator of the United States Agency for International Development shall consult with the Committees on Appropriations, representatives from the relevant international technical and nongovernmental organizations addressing the specific diseases, recipient countries, donor countries, the private sector, UNICEF and the World Health Organization: (1) on the most effective uses of such funds to demonstrate the health and economic benefits of such an approach; and (2) to develop a multilateral, integrated initiative to control these diseases that will enhance coordination and effectiveness and

maximize the leverage of United States contributions with those of other donors: *Provided further,* That funds made available pursuant to this section shall be subject to the regular notification procedures of the Committees on Appropriations.

ASSISTANCE FOR EGYPT

SEC. 699. (a) FOREIGN MILITARY FINANCING PROGRAM.—Of the funds appropriated by this Act for Egypt under the heading ''FOREIGN MILITARY FINANCING PROGRAM'', $200,000,000 shall not be made available for obligation until the Secretary of State certifies and reports to the Committees on Appropriations that the Government of Egypt has taken concrete and measurable steps to—

(1) enact and implement a new judicial authority law that protects the independence of the judiciary;

(2) review criminal procedures and train police leadership in modern policing to curb police abuses; and

(3) detect and destroy the smuggling network and smuggling tunnels that lead from Egypt to Gaza.

□ 1845

AMENDMENT OFFERED BY MR. BOUSTANY

Mr. BOUSTANY. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. BOUSTANY:

Strike section 699 of the bill (relating to assistance for Egypt).

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Louisiana (Mr. BOUSTANY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Louisiana.

Mr. BOUSTANY. Mr. Chairman, first let me start by saying I have deep respect for the work that Chairwoman LOWEY and Ranking Member WOLF have done with this bill. I also have shared the major concerns that both of you have with regard to the internal Egyptian reforms that you're advocating. I share those same concerns. I am also deeply concerned about the border situation between Egypt and Gaza and the smuggling of arms that's ongoing.

My amendment takes a step to strike the language in section 699 from the bill that I believe unnecessarily places restrictions on the FMF funding for Egypt. I believe these restrictions are actually harmful to U.S. national strategic interests.

I have to say that clearly Egypt has been a vital strategic partner in the region for many, many years, and this is not the way that the U.S. should treat its friends and reward its friends.

If you look at the record, Egypt has worked with us to expedite the processing of our nuclear warships going through the Suez Canal when otherwise it would take weeks. Also, the Egyptian Government has shared critical intelligence with us across the board, and there has been significant military cooperation for quite some time now.

The other things that have happened is that Egypt has worked hard to maintain the March 1979 Egyptian-Israeli Peace Treaty. And even as we speak tonight, there are plans being facilitated by Egypt to bring Ehud Olmert and Mahmoud Abbas together at Sharm el-Sheikh next week. So clearly Egypt is trying to do what it can to help facilitate the peace process.

I believe this funding is a critical part of keeping the peace with Israel, maintaining balance in this part of the region. And also I believe it's in the interest of Israel's national security as well, in addition to being in our national security interest.

The current language in the bill would place, I believe, unrealistic restrictions. It requires the Secretary of State to provide certain certifications which are going to be very difficult to provide. And it may just simply end up being political cover. And in the interest of good policy, without browbeating our important ally Egypt in this process, I think we can work with them in a more cooperative way as we go forward to achieve the things that we're trying to achieve, such as getting stability on the border with Gaza, reducing the smuggling or arms, and also moving forward on internal reforms in Egypt itself.

This ally is important. I think we need to work with them. We need to understand their timelines, and work with them and respect that timeline as we go forward.

I urge adoption of this amendment.

Mr. Chairman, I yield to my good friend from Nebraska (Mr. FORTENBERRY), who is a member of the Foreign Affairs Committee.

Mr. FORTENBERRY. I thank the gentleman from Louisiana.

Mr. Chairman, I rise in support of his amendment.

Section 699, as proposed in this Foreign Operations bill, risks undermining the significant progress we have made in a vital strategic partnership.

Mr. Chairman, it is critical to remember that our friend and ally Egypt led the Arab world in establishing a model for peaceful cooperation in the Middle East. The Camp David Accords ushered in an unprecedented era of cooperation between Egypt and the United States, as well as between Egypt and Israel. This peace has held for nearly 30 years. The benefits to the world have been very significant, and the consequences, particularly to Egypt, have also been considerable, including the assassination of former President Anwar Sadat.

Egypt has been the cultural and historical center of the Arab world and is poised to play a significant role in fostering peace and maintaining a very delicate balance of stability in the Middle East. Even now, as my colleague mentioned, Egyptian President Mubarak is preparing for an emergency summit with Israeli Prime Minister Olmert, King Abdullah of Jordan, and Palestinian President Abbas to address the potentially explosive situation in Gaza.

Mr. Chairman, I had actually hoped to offer an amendment today to section 699 to help address the serious concerns involving the smuggling of arms, weapons and contraband across the border into Gaza, a pressing concern which has become even more urgent given recent news. However, this amendment would not have been ruled in order.

Mr. Chairman, I fully understand the desire of my colleagues on the Appropriations Committee to see progress on human rights and civil reform in Egypt. I deeply share this concern as well and eagerly look for the right mechanism to achieve this goal. But I oppose the methodology of penalizing our diplomatic and military cooperation efforts.

U.S.-Middle East policy is complex and a delicate undertaking, at best. And despite the good intentions here, I fear that section 699 could backfire and harm one of our best and most vital strategic relationships in the region.

Mr. BOUSTANY. I thank my colleague. I think he's right on the spot.

Mrs. LOWEY. Mr. Chairman, I rise in opposition to the amendment.

The CHAIRMAN. The gentlewoman is recognized for 5 minutes.

Mrs. LOWEY. My colleagues, this is a difficult and sensitive issue that the House has debated many times before in many different ways.

We all know that Egypt is an important ally of the United States. We all know that Egypt plays a very important role in the Middle East, and that role will even be more crucial in the months ahead. We all know that Egypt was the first Arab country to have made peace with Israel, and that the peace, while not nearly as warm or as forward-leaning as many of us would have liked, has held for close to 30 years. That is why Egypt has consistently received more foreign assistance in this bill than virtually any country other than Israel. And that is true of this year's bill as well.

Nevertheless, there is a frustration level with our very good ally over two key issues, the Egyptian Government's increasingly harsh response to dissent of any kind and the government's failure to take serious steps to stopping the smuggling from Egypt to Gaza.

When Israel withdrew all of its population and military forces from Gaza nearly 2 years ago, one of the biggest concerns was what to do about Gaza's border with Egypt. Some in Israel argued that Israeli forces should remain at the border to ensure that it did not become an opening to allow the smuggling of weapons and terrorists to Gaza. Those who argue that Israel

needed to completely withdraw and that Egypt could effectively play that role ultimately prevailed. Israel and Egypt even reworked parts of their peace agreement to allow for an expanded Egyptian force on that border. Unfortunately, however, those forces have not done the job, have not stopped the smuggling.

As was highlighted so vividly during the recent fighting in Gaza, the forces of Hamas are very well equipped. The bulk of that equipment has come through that border. Especially now that Hamas has effectively taken over in Gaza, it is critically important that Egypt do everything within its power, including stopping these armed shipments before they even get to the Gaza border, to put an end to this deadly arms trade.

The language in the bill does not cut aid to Egypt, which many have wanted to do, I can assure you. It simply fences off a portion of Egypt's assistance, pending a report and certification by the Secretary of State that Egypt is taking steps to, one, enact a new judicial law; two, to curb police abuses; three, to detect and destroy the smuggling network into Gaza.

I believe it is a moderate and reasonable approach to two very difficult and important issues that we have discussed on numerous occasions, to no avail, with our good friends in Egypt.

Mr. Chairman, I'm very pleased to yield to my good friend from California, the chairman of the House Foreign Affairs Committee, Mr. LANTOS.

Mr. LANTOS. I thank my colleague for yielding, and I want to speak very strongly to support her position.

The nightmare that is unfolding in Gaza is in no small measure the responsibility of the Government of Egypt.

Egypt has a huge military, and it boggles the mind to assume that the Egyptian military would not have been able to seal Gaza from the constant flow of drugs, weapons and persons being trafficked into Gaza had they attempted to do so.

Now, we all understand that the prime culprit in Gaza is Hamas, the terrorist organization. A secondary culprit is the previous corrupt regime of Yasser Arafat, which led to the parliamentary victory of Hamas. But the Egyptian Government has a heavy responsibility for what is the present situation in Gaza. It is a terrorist-controlled area, weapons flowing in, drugs flowing in, trafficked persons flowing in. And to have the minimum of a certification by our Secretary of State that at the very least Egypt at long last has decided to control this very dangerous border is an extremely modest measure. I would have preferred far more severe measures in this regard, but I strongly support this measure.

Mrs. LOWEY. Mr. Chairman, I yield 1 minute to the gentleman from Minnesota (Mr. ELLISON).

The CHAIRMAN. The gentlewoman's time has expired.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. The gentlewoman is recognized for 5 minutes.

Mrs. LOWEY. Mr. Chairman, I'm delighted to yield 1 minute to Mr. ELLISON.

□ 1900

Mr. ELLISON. Mr. Chairman, let me thank the gentlewoman and commend the gentlewoman for her good wisdom and excellent intentions behind section 699 which would conditionalize aid to Egypt. However, I must rise in support of the amendment that has been brought by Mr. BOUSTANY because I believe that the impact of this piece in the bill would signal to the region a very hostile and unhealthy message.

The message that we should be sending to allies in the region is that we want to work constructively and productively to seal that border. I would point out that sealing borders is no easy enterprise. But I also believe that with a greater amount of help and with proper resources that the border could well be sealed between Gaza and Egypt.

This conditionalizing sends a signal that Egypt, that it is criticism of Egypt, that Egypt is somehow not putting forth the proper effort. Given that Egypt is such a long-standing and important ally, I think this is not the right message to send.

Mr. OBEY. Mr. Chairman, I rise to strike the last word.

Mr. Chairman, I think it is fair to say that no subcommittee chairman presided over the provision of more financial aid to Egypt than I did during the 10 years that I was chairman of the subcommittee.

I think it is also fair to say that I have, on many occasions, tried to see to it that when this body looked at questions in the Middle East that it looked at the interests of all of the parties fairly. But I rise to oppose the gentleman's amendment.

We have a dilemma. Egypt is an important and welcome ally. I have always considered them to be a friend. They have played a very constructive role in the Middle East. But in recent years, I am sad to say, Egypt has displayed an increasingly brutal repression of freedom that is contrary to everything that America is supposed to stand for. We have seen the beating of demonstrators in Bull Connor fashion. We have seen the jailing of political opponents.

We have to speak out. Unlike some wildly romantic beliefs of some of the neocons in this country, like Paul Wolfowitz, Richard Perle and the Vice President, I do not naively believe that we can force democracy down the throats of a region that has had little experience with it. We have seen in the case of Hamas how democratic forms can be abused and subverted by undemocratic means. But, nonetheless, I do believe that we have an obligation to expect that countries with whom we are so closely associated will perform within certain norms of decency when it comes to the question of human rights.

To indicate our concern, while still expressing our respect for a treasured friend, we have fenced $200 million in military aid until the administration can honesty certify that Egypt has greatly improved its human rights conduct and has done more to effectively prevent the illicit supply of arms from being smuggled into Gaza.

In my view, this is a balanced approach. It does not cut off aid. It leaves options open. It certainly leaves a very large amount of military aid to Egypt unfettered in any way whatsoever, enough to continue all existing ongoing military contracts.

It is a balanced approach. It is a nuanced approach. It is aimed at military aid, because only the military in the Egyptian government, in my view, has the influence to make this come to a responsible and friendly conclusion.

Mr. Chairman, I would urge rejection of the gentleman's amendment so that America can send a message consistent with our values, while still recognizing our geopolitical relationships.

Mr. Chairman, I yield back the balance of my time.

Mr. WOLF. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in opposition to the amendment and in support of the committee's language. In fact, I think the language is very moderate, perhaps even, from my own perspective, a little bit too moderate because I think we could have put some other conditions on it.

Ayman Nour is still in prison. I visited Ayman Nour's wife. He is still in prison. He is not very, very well. We have interceded on his behalf, the Congress and everyone else. But Ayman Nour is still in prison.

The Coptic Christians. The life of the Coptic Christians is worse today than it has been for a long while. So if you're a Coptic Christian in Egypt, you're in trouble.

For the Baha'is, the Baha'is in Egypt just live the most miserable life that you can possibly live. They are not even recognized. They cannot even get a card for a driver's license. They are a nonentity. They are not even there. They are not. So they can't move. They can't do anything.

There is anti-Semitic and anti-Christian editorials and cartoons in their newspapers. Just look at what they say. The government controls those newspapers. So if a government controls a newspaper and anti-Semitism and anti-Christian language is in there, does that not mean that someone in the government is saying that?

Also, the language is moderate. They gunned down the Sudanese. I was there shortly after they gunned down the Sudanese. There are many Sudanese that live there, and they gunned them down. There is police brutality.

The Gaza. The gentleman, Mr. LANTOS, was right with regard to the Gaza. They have a powerful military. They could be doing much, much more.

Egypt is a great nation. It is a great nation. They are great people. They are our friends. But friends have to be honest with friends.

Mr. OBEY was exactly right. We have given them, Mr. OBEY would have this figure better than I would, over $15 billion. Martin Luther King said, in the end, we will remember not the words that were of our enemies but the silence of our friend. As a friend, for us not to speak out on this issue, we would be derelict in our duty. We would be derelict in our duty.

So, Mr. Chairman, I rise in opposition to the gentleman's amendment, and in support of it, and would say to the gentlewoman, the Chairwoman, it would have sent a very refreshing message if one of the other conditionalities had been with regard to the Coptic Christians, who are very patriotic people in Egypt and who love their country and who always speak proudly of their country and who always honor their country; and also if we had conditionality language with regard to the Baha'is. But I think Mr. OBEY is right. I agree with the Chairwoman. I would hope that we would defeat the amendment.

Ms. KILPATRICK. Mr. Chairman, during times of crisis, the United States has always supported her friends. Egypt is our friend. Egypt is not only our friend, Egypt is our strategic partner, our peace partner and our military partner in the Middle East. It is shameful how we are treating our friend with the restrictions on military aid to Egypt in this bill. As such, I rise in strong opposition to the amendment by Rep. ANTHONY WEINER removing $200 million in military aid to Egypt, and in strong support of the amendment by Rep. CHARLES BOUSTANY allowing military support to continue to Egypt without conditions. Egypt and the United States have a valuable, key and strategic partnership, one that has been underscored by the recent developments in the Gaza Strip. It would be toxic to the relationship that the United States has with Egypt, and our relationship to those moderate Arab states in the Middle East, for this bill to be adopted with these restrictions.

In April of this year, Secretary of Defense Robert Gates said that: ''I have long considered Egypt one of America's most important, even indispensable, partners. . . Security challenges in the Middle East are significant, but can be overcome by Egypt and the United States working closely together in the region.'' Just last week, the world saw Hamas take over the Gaza Strip. Hundreds, if not thousands, of men, women, children, senior citizens, and the disabled are fleeing this region as refugees, many ending up in Egypt.

In response to this crisis, Egypt's President, Hosni Mubarak, has invited Israel's Prime Minister, Ehud Olmert, Palestinian President Mahmoud Abbas, and Jordan's President King Abdullah II for a summit this Monday, June 25, 2007 in an effort to negotiate peace in this region. I commend to my colleagues the following portion of an article dated June 21, 2007 from the Associated Press that goes into more detail about the summit:

RAMALLAH, WEST BANK.—Closing ranks against Hamas, Egypt's president invited Israeli, Palestinian and Jordanian leaders to a peace summit, officials said Thursday, the biggest show of support yet by moderate Arab states for beleaguered Palestinian President Mahmoud Abbas.

The meeting will take place Monday in the Red Sea resort of Sharm el-Sheikh, said Israeli government spokeswoman Miri Eisin. Egyptian President Hosni Mubarak has invited Abbas, Israeli Prime Minister Ehud Olmert and Jordan's King Abdullah II. Jordan confirmed Abdullah would attend.

Abbas will call for a resumption of peace talks with Israel, arguing that only progress toward Palestinian statehood can serve as a true buffer against Hamas, which took control of Gaza by force last week, Abbas aide Saeb Erekat said.

''The most important thing to realize is that time is of the essence,'' Erekat said. ''We need to deliver the end of occupation, a Palestinian state. If we don't have hope, Hamas will export despair to the people.''

As immediate steps, Abbas will ask Israel to remove West Bank checkpoints that disrupt daily life and trade, and to transfer hundreds of millions of dollars in Palestinian tax funds Israel froze after Hamas came to power last year.

Also on Thursday, Palestinian dual nationals and foreigners working in Gaza were allowed to pass through Israel for other points. About 60 Palestinian-Americans left Gaza for Jordan, and eight World Bank employees left the coastal strip, an Israeli army spokeswoman said.

Late Wednesday, 35 Gazans who had been stuck at the main Gaza-Israel passenger crossing for several days were sent to Egypt via Israel, the spokeswoman said. Among those who left were gunmen from Abbas' Fatah movement, their wives and children.

Hundreds of men, women and children rushed to the crossing after the Hamas takeover, among them Fatah loyalists who feared they'd be harmed by Hamas, despite the militants' offer of amnesty. By Thursday, the passage, rank with the stench of urine and garbage, was nearly empty after it became clear that a mass exit to the West Bank was not approved.

Earlier Wednesday, Israel took in several of the sick and wounded in the crowd.

In Washington, Olmert said he would propose to his Cabinet on Sunday that it unlock frozen funds, though he did not say how much money he thought Israel should free. Israel is holding about $550 million in tax revenues it collects on behalf of the Palestinians.

Despite the talk about peace, however, the Hamas takeover has dealt a setback to statehood efforts, with the Islamic militants in charge of Gaza and Abbas in charge of the West Bank.''

This Amendment is even opposed by the President. In a statement of White House policy, the Office on Management and Budget says:

''The Administration opposes the prohibition on a portion of the foreign military financing to Egypt contained in section 699. Military assistance is critical to our strategic partnership with Egypt and has contributed to a broad range of U.S. objectives in the region. Such a restriction will undermine the U.S. relationship with Egypt and send the wrong message to this important ally in the region.''

As a former Member of this subcommittee, I personally appreciate the challenges that Chairwoman LOWEY and Ranking Minority Member WOLF not only face, but surpass. This bill provides significant funding increases for many programs that I have, and will continue to, support.

My objection is to Section 699 of the bill, a new provision, which sets conditions on $200 million of the $1.3 billion in military assistance to Egypt. This assistance is pending certification of the Secretary of State that Egypt is taking steps toward enactment of a new judicial law, including the principal components of the law and separation of the budget of the judiciary from that of the Ministry of Justice; steps to review criminal procedures and mass demonstrations by Egypt's police force; and steps to detect and destroy the smuggling network into the Gaza strip.

The Thirteenth Congressional District of Michigan contains one of the highest concentrations of Arabs in the United States. These tax-paying, hard-working Americans demand that the United States respect not just their homeland, but the past, present and future effort that Egypt has made manifest over the years as a strategic partner and toward peace. To remove this key support from Egypt, at this point, would signal an unnecessary reticence by the United States toward one of the few allies we have in the Middle East.

I strongly urge my colleagues to support Egypt, to support peace in the Middle East, and to support the amendment offered by my colleague from Louisiana, Congressman BOUSTANY and oppose the amendment offered by my colleague from New York, Congressman WEINER.

Mr. WOLF. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Louisiana (Mr. BOUSTANY).

The question was taken; and the Chairman announced that the noes appeared to have it.

Mr. BOUSTANY. Mr. Chairman, I demand a recorded vote.

The CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Louisiana will be postponed.

The CHAIRMAN. The Clerk will read:

The Clerk read as follows:

RELIEF FOR THE HMONG AND MONTAGNARDS

SEC. 699A. AUTOMATIC RELIEF FOR THE HMONG AND MONTAGNARDS.—Section 212(a)(3)(B) of the Immigration and Nationality Act (8 U.S.C. §1182(a)(3)(B)), is amended by adding at the end the following new clause: ''Clause (vi) shall not apply to the Hmong or Montagnards on the basis of any act or event occurring in or before 1975''.

TECHNICAL CORRECTION.—(1) IN GENERAL.—Section 212(a)(3)(B)(ii) of the Immigration

and Nationality Act (8 U.S.C. §1182(a)(3)(B)(ii)) is amended by striking ''Subclause (VII)'' and replacing it with ''Subclause (IX)''.

REPORT ON ANTI-CORRUPTION ACTIVITIES

SEC. 699B. (a) REPORT REQUIRED.—Not later than May 1, 2008, the Secretary of State, in consultation with the Administrator of the United States Agency for International Development and the Chief Executive Officer of the Millennium Challenge Corporation, shall submit to Committees on Appropriations a report on the level of corruption in each country that receives assistance in this Act under the heading ''Development Assistance'', ''Assistance for Eastern Europe and the Baltic States'', or ''Assistance for the States of the Former Soviet Union''.

(b) MATTERS TO BE INCLUDED.—The report required by subsection (a) shall—

(1) assess the level of corruption in each country's political, economic, and judicial sectors, including detailed information regarding specific acts of corruption;

(2) assess the extent to which recent elections in each country have been free and fair;

(3) include information regarding steps each country has taken to combat corruption;

(4) describe at the program, project, and activity level how the United States assistance is designed to strengthen anti-corruption activities in each country, including specific outcome goals and objectives; and

(5) include an identification of countries that the Secretary of State determines require special scrutiny for fiscal year 2009, including an identification of countries that the Secretary determines are not making significant efforts to comply with minimum standards for anti-corruption activities.

(c) METHODOLOGY.—Not later than September 30, 2007, the Secretary of State shall provide to the Committees on Appropriations a detailed description of—

(1) the methodology for assessing the level of corruption in each country for purposes of preparing the report required by subsection (a) and for evaluating each country's annual progress in fighting corruption; and

(2) the indicators upon which the Secretary will make such assessments.

PROGRAMS TO IMPROVE DEMOCRACY, THE RULE OF LAW, AND GOVERNANCE IN IRAN

SEC. 699C. Of the funds appropriated in this Act, $50,000,000 should be made available for programs to improve democracy, the rule of law, and governance in Iran.

□ 1915

AMENDMENT NO. 4 OFFERED BY MR. GINGREY

Mr. GINGREY. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 4 offered by Mr. GINGREY:

At the end of the bill, before the short title, insert the following new section:

SEC. ____. None of the funds made available in this Act may be used for negotiating the participation of additional countries under the visa waiver program described in section 217 of the Immigration and Nationality Act (8 U.S.C. 1187).

The CHAIRMAN. Pursuant to the order of the House of June 20, 2007, the gentleman from Georgia (Mr. GINGREY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Georgia.

Mr. GINGREY. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I believe our Nation needs to secure its points of entry, and specifically I believe that we should prevent additional countries from joining the United States visa waiver program until we have technical and human resources to secure our points of entry. I do not believe our Nation can afford to allow more visitors in the United States without screening them prior to arrival.

This amendment would prevent funds from being used to negotiate additional visa waiver countries. The State Department should not be using funds to negotiate new visa waivers until the machine-readable and tamper-resistant biometric identification standards that were mandated by the U.S. PATRIOT Act as a cornerstone of the entry-exit system are fully operational. We refer to that, Mr. Chairman, as the US–VISIT program. There are currently 27 visa waiver countries, and I believe it is too risky to negotiate additional countries without first having our security screening system in place.

Mr. Chairman, we cannot afford to provide more opportunities for terrorists to breach a loophole in our security. How much time does our Nation have before ICE, the Immigration Customs Enforcement, the air marshals or the TSA, Transportation Security Administration, misses the next Richard Reid?

For example, Habib Zacarias Moussaoui, a French citizen of Moroccan descent, a name we all know very well, actually used his French passport, without a U.S. visa, on February 23, 2001. He flew from London to Chicago and on to Oklahoma City, where he began the flight training at an aviation school.

Fortunately, on August 16, 2001, INS arrested Moussaoui because he had remained in the United States well beyond the 90 days that were allowed under the visa waiver program entrants and he was in violation of the requirement that visa waiver program travelers enter for business or tourism. Had INS and law enforcement not been literally on top of their game, Mr. Speaker, Moussaoui could have been a part of the 9/11 attacks. That was his intent. We stopped him, but he was here on a visa waiver.

A more recent example can be summarized in a June 18, just this month, 2007, ABC News reported about suicide bombers who were sent to the United States and Europe after being trained in Afghanistan. The story references this recent terrorist video where the Taliban military commander, Mansoor Dadullah, is found saying in this video, ''These Americans, Canadians, British and Germans, come here to Afghanistan from faraway places.'' This story further confirms, Mr. Speaker, what we already know: Terrorist forces are recruiting from the Western World, the same countries who are established members of our visa waiver program.

I feel that we cannot continue a loophole that allows homegrown European terrorists access to the United States.

Mr. Chairman, the visa waiver program was only designed to be a temporary program for a small and select group of nations, starting with the U.K., Japan and France. Now, 27 countries participate in the visa waiver program, believe me, enough to keep ICE and TSA exceedingly busy. Do we really need to fund efforts to add a 28th and 29th country to their list of responsibilities?

I just don't want to see our Nation attacked because we couldn't carry through with our commitment to security first. I ask my colleagues, please, support this commonsense Gingrey amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. OBEY. Mr. Chairman, I move to strike the last word.

Mr. Chairman, frankly, I have mixed feelings about this amendment. I don't think that the appropriations bill is the proper place to consider issues that are clearly authorization issues, and yet I know that there is considerable concern about this program.

Let me simply say that in the interests of time and because I think the equities are split, that we would be willing to accept the gentleman's amendment, with the understanding that we would need to give the administration an opportunity in conference to express any concerns about it and consider any adjustments that might be made that would be mutually agreed to.

Mr. Chairman, I yield to the gentleman.

Mr. GINGREY. Mr. Chairman, I thank the chairman of the full committee for yielding, and I certainly appreciate his willingness to understand the necessity of the amendment. Indeed, I appreciate it and will agree to that, and hope the administration will follow through on the amendment. I thank the gentleman.

Mr. OBEY. Mr. Chairman, I yield back my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Georgia (Mr. GINGREY).

The amendment was agreed to.

AMENDMENT NO. 10 OFFERED BY MR. TANCREDO

Mr. TANCREDO. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 10 offered by Mr. TANCREDO:

At the end of the bill (before the short title), insert the following new section:

LIMITATION ON USE OF FUNDS RELATING TO RESTRICTIONS ON RELATIONS WITH TAIWAN

SEC. 6xx. None of the funds made available in this Act may be used to enforce any of the provisions in the Memorandum to all Department and Agency Executive Secretaries dated, February 2, 2001, and entitled ''Guidelines on Relations With Taiwan''.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Colorado (Mr. TANCREDO) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Colorado.

Mr. TANCREDO. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the Tancredo-Chabot amendment would prevent the State Department from expending any funds to enforce several arbitrary and archaic guidelines that inhibit or altogether prevent U.S. officials from communicating with their counterparts in Taiwan. These restrictions range from just silly to downright absurd.

Among other things, the so-called guidelines do not permit meetings with Taiwanese diplomats or elected officials in State Department buildings, the White House or Old Executive Office Building. They prevent executive branch personnel from the Foreign Affairs agencies and those above the rank of GS–14 from attending Taiwan's annual reception in Washington. They prevent executive branch personnel from attending meetings at Twin Oaks, the former residence of Taiwan's Ambassador here in Washington. They prevent travel to Taiwan by officials above a certain rank from the Defense Department and the State Department. They prohibit executive branch personnel from corresponding directly with Taiwan officials.

Mr. OBEY. Mr. Chairman, if the gentleman would yield, I would be prepared to accept the gentleman's amendment, with the understanding that the committee will continue to investigate the effect of the amendment as we take it to conference with the other body later in the year.

Mr. TANCREDO. Mr. Chairman, I would like to yield 1 minute to the gentleman from Ohio (Mr. CHABOT).

Mr. CHABOT. Mr. Chairman, I thank the gentleman for yielding, and I will be very brief. I appreciate the gentleman and I don't want to take time here. I would just make a couple of points.

This amendment is long overdue. Taiwan is our friend. It is a longtime democratic ally and a major trading partner. Just across the Taiwan Strait you have Communist China, with its more than 900 missiles pointed directly at Taiwan. China operates under a dictatorship. Its human rights record is abysmal. It ignores the rule of law. It practices religious persecution. It warehouses political prisoners. It carries out an unconscionable coercive abortion policy. Yet when it comes to dealing with the two nations diplomatically, we often treat Taiwan like a pariah nation and kowtow to the Beijing bullies.

So I would commend the gentleman from Colorado for bringing forth this amendment, and I want to thank the distinguished chairman for accepting the amendment.

Ms. BERKLEY. Mr. Chairman, as co-chair of the Congressional Taiwan Caucus, I rise in strong support of this amendment.

Mr. Chairman, for too long, we have allowed China to dictate our relationship with Taiwan. If anything, it should be the other way around. Taiwan consistently holds free and fair democratic elections. Taiwan respects human rights and labor standards. Taiwan is a free, democratic nation.

As the greatest democracy in the history of the world, we have an obligation to support other democracies and nurture them around the globe. We must be a beacon, a light to the world, showing the way forward for other democracies. Only then, will democracy finally flourish—and only if we show the way.

Mr. Chairman, our priorities are backwards when we place China's concerns ahead of a democratic country's. We must end these arbitrary and archaic restrictions on our relations with Taiwan. I urge support for this amendment.

Mr. TANCREDO. Mr. Chairman, I certainly appreciate the gentleman's offer, and I yield back the balance of my time and accept the offer you have made to accept the amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Colorado (Mr. TANCREDO).

The amendment was agreed to.

AMENDMENT NO. 27 OFFERED BY MS. HERSETH SANDLIN

Ms. HERSETH SANDLIN. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 27 offered by Ms. HERSETH SANDLIN:

At the end of the bill, before the short title, insert the following new section:

SEC. ____. None of the funds made available in this Act may be used to carry out the diversity visa program under sections 201(e), 203(c), or 204(a)(1)(I) of the Immigration and Nationality Act (8 U.S.C. 1151(e), 1153(c), and 1154(a)(1)(I)).

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentlewoman from South Dakota (Ms. HERSETH SANDLIN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from South Dakota.

Ms. HERSETH SANDLIN. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, this is a bipartisan amendment that is cosponsored by my colleague and good friend from Virginia, Mr. GOODLATTE, as well as Mr. DEFAZIO of Oregon, Mr. LAMAR SMITH of Texas, Mr. SHERMAN of California and Mr. TANCREDO of Colorado.

The amendment is simple and straightforward. It would prohibit the use of funds in the bill to implement the Diversity Visa Program otherwise known as the ''visa lottery.''

The visa lottery program was established in 1990 and awards about 50,000 permanent-resident visas to foreign nationals by conducting a random lottery. In the last Congress, the State Department's inspector general testified before Congress that the Office of the Inspector General ''continues to believe that the Diversity Visa Program contains significant risks to national security from hostile intelligence officers, criminals and terrorists attempting to use the program for entry into the United States as permanent residents.''

If for no other reason, national security is too important to allow this institutional randomness in our immigration policy. The visa lottery injects a level of unnecessary and responsible uncertainty into the immigration process. Our amendment is a practical provision that will make our Nation safer.

When the House considered its immigration bill in the 109th Congress, the gentleman from Virginia and I joined together to offer an amendment eliminating the visa lottery program, and it passed with strong bipartisan support. I urge my colleagues to provide similarly strong support to this amendment.

Mr. Chairman, I yield 2 minutes to the gentleman from Virginia (Mr. GOODLATTE).

Mr. GOODLATTE. Mr. Chairman, I thank the gentlewoman from South Dakota for yielding and for her leadership in bringing forth this amendment, which corrects a grievous problem with our immigration system.

This visa lottery program is clearly unfair to lawful immigrant applicants who are abiding by our rules and going through the process. It pushes 50,000 people chosen totally at random ahead of hundreds of thousands of law-abiding immigrants waiting to be reunified with their families.

The program is wrought with fraud. The State Department inspector general has said that the visa lottery program is subject to widespread abuse, and that identity fraud is endemic, and fraudulent documents are commonplace.

A simple click on the State Department's visa lottery Web site is very revealing. The first thing you will notice on that Web site is a warning in bold red font about fraudulent websites and individuals. Indeed, a cottage industry has sprung up of individuals using the visa lottery program to take advantage of foreign nationals.

No skills are necessary to enter the lottery. As we look around the country for programs that help meet needs of

reunifying families or job skills for which there is a shortage in the United States, we have a program that gives 50,000 visas based on pure luck, and the applicants must only have the equivalent of a high school diploma. But the State Department has indicated they often have very few resources to make even this determination in countries that do not have systems similar to the United States.

Finally, and perhaps most importantly, it is a national security threat. This program of selection purely at random makes it possible for visa lottery participants to be people who are from countries that are known to be state sponsors of terror. Nothing would prevent terrorist organizations from submitting numerous names for the lottery, and, as long as they don't have criminal backgrounds, they can receive not just a temporary visa like the 9/11 hijackers had, but a permanent-resident visa to be permanently in the United States.

Mr. Chairman, I urge my colleagues to support this amendment.

Ms. HERSETH SANDLIN. Mr. Chairman, I yield the balance of my time to the gentleman from California (Mr. SHERMAN).

Mr. SHERMAN. Mr. Chairman, I thank the gentlewoman. The visa lottery program is based on the absurd notion that the group of people coming to the United States are insufficiently diverse. There has never been such a diverse group of people.

The diversity lottery discriminates against those who live in Mexico, China or the Philippines on the theory, an absurd theory, that an immigrant from Paraguay will add more to American culture than one from Mexico. I think it is time to end this absurd cultural discrimination.

It makes sense for our country to let people come here for family unification or because the immigrant brings special skills. The diversity lottery admits people who bring neither. They need no family ties nor special skills.

Our other immigration programs require that the person either have a job or a family member who will issue an affidavit of support. Those coming here under the visa lottery have neither, and therefore are free to become a charge to our taxpayers.

I look forward to having a comprehensive immigration law so that our immigration laws make sense, but let's kill the one element of our immigration laws that make the least sense now. We shouldn't discriminate against those with family in the United States, those with special skills, or those from Mexico, China or the Philippines, on the theory that somehow we enhance our culture more by admitting immigrants from one country as opposed to another.

Mr. WOLF. Mr. Chairman, I move to strike the requisite number of words.

I yield to the gentleman from Arizona (Mr. FRANKS) for a brief discussion on the issue of the persecution of Coptic Christians in Egypt.

Mr. FRANKS of Arizona. Mr. Chairman, I thank the gentleman very much.

Mr. Chairman, I just wanted to see a subject touched on here and would hope that Chairman OBEY would be aware that under the State and Foreign Operations appropriations bill for 2008, $200 million of the $1.3 billion military assistance for Egypt will be withheld until the Secretary of State certifies that the Government of Egypt has taken concrete steps to reform its judiciary, to curb police abuses and address concerns about the smuggling of weapons from Egypt to Gaza.

I strongly support this provision, Mr. Chairman, and I would like to request that an additional provision, if the chairman would consider it at some point, be added to ensure that the Government of Egypt also increase protections for human rights according to Egypt's own international human rights commitments, including the religious freedom of members of religious minorities, such as the Coptic Christians and Baha'is, among others.

I just hope, Mr. Chairman, that the chairman of the committee would be so inclined at some point, if we could work with him in any way.

Mr. OBEY. Mr. Chairman, if the gentleman would yield, at this point I am simply standing in for the subcommittee chair, but I would simply say that while I am not frankly as totally familiar with the issue as I am with, for instance, the record of the Egyptian Government in jailing Mr. Nour and other political opponents, I certainly have seen that concern expressed many times, and I would think the conferees would be interested in improving human rights records on Egypt's part with respect to all groups, including Coptic Christians.

□ 1930

Mr. WOLF. I thank the chairman of the committee and thank the gentleman from Arizona.

The CHAIRMAN. Does any Member claim the time in opposition to the amendment of the gentlewoman from South Dakota?

Mr. OBEY. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. The gentleman from Wisconsin is recognized for 5 minutes.

Mr. OBEY. With respect to the amendment of the gentlewoman, I have some considerable disquiet about the Appropriations Committee on the basis of 3 minutes discussion pronouncing judgment on complicated matters with respect to immigration, but let me simply say I would be willing to accept the amendment as an expression of concern on the subject and would hope that the administration would deal with the concerns as the committee goes to conference.

The CHAIRMAN. The question is on the amendment offered by the gentlewoman from South Dakota (Ms. HERSETH SANDLIN).

The amendment was agreed to.

AMENDMENT OFFERED BY MR. TANCREDO

Mr. TANCREDO. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. TANCREDO:

At the end of the bill, before the short title, insert the following new section:

SEC. ____. None of the funds made available in this Act may be expended in violation of section 243(d) of the Immigration and Nationality Act (8 U.S.C. 1253(d)) (relating to discontinuing granting visas to nationals of countries denying or delaying accepting aliens removed from the United States).

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Colorado (Mr. TANCREDO) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Colorado.

Mr. TANCREDO. Mr. Chairman, my amendment would simply prevent the State Department from continuing to selectively ignore Federal statute.

The Federal statute in question instructs the State Department to discontinue the issuance of immigrant and nonimmigrant visas to citizens of countries who refuse our attempts to repatriate or deport their nationals. As I mentioned, the State Department often chooses to disregard this statute.

In fact, some dozen nations around the world routinely refuse to accept their citizens who have come here illegally or violated the terms of their visas. Iraq is just one example. As a result, Iraqi aliens who would otherwise be deported are free to remain in the United States.

Last year, I sent a letter to Secretary Chertoff asking why an Iraqi national by the name of Gavan Alkadi was not deported but instead was released into the public. Gavan Alkadi have been convicted of an aggravated felony and has been arrested nearly 70 times in Colorado.

Mr. OBEY. Would the gentleman yield?

Mr. TANCREDO. I would yield to the chairman.

Mr. OBEY. As I understand this amendment, it simply indicates that the Department ought to enforce the law. I am not really inclined to object to that. In the interest of time, I am willing to accept the amendment.

Mr. TANCREDO. I appreciate the gentleman's offer.

Mr. POE. Mr. Chairman, I want to thank the gentleman from Colorado for offering this amendment with me. I'll be brief because I

don't think many Members here need to be convinced that we need our Government agencies to enforce the laws we give them and that they aren't arbitrary.

Section 243(d) of the Immigration and Nationality Act allows the State Department to discontinue the issuance of visas to nations who fail to take back their nationals who have been ordered removed by our Government.

Unfortunately, this step by our Government has never been taken. Why? The gentleman from Colorado and I joined on a letter to the Secretary of Homeland Security and the Attorney General to ask this very question. The chart I have here indicates the response we received and I quote:

Department of Homeland Security Response: ''While visa sanctions under Section 243(d) of the Immigration and Nationality Act may be an effective tool in obtaining repatriation cooperation, the severity that makes them potentially effective also has the potential to negatively impact other U.S. foreign relations objectives if not used judiciously. When considering the use of 243(d) sanctions, DHS must consider the potential repercussions to U.S. foreign policy. Because the United States is pursuing a number of initiatives with China on foreign policy issues, implementing Section 243(d) sanctions could have counterproductive effects.''—Donald H. Kent, Assistant Secretary, U.S. Department of Homeland Security, January 10, 2007.

Mr. Chairman, how this reads to me is that our trade with nations like China is more important than providing for the safety of the American people. Many of the people who we are trying to remove are hardened criminals, violent felons that we want off our streets. Because of two recent Supreme Court decisions, our government is limited in the length of time we can hold them in our jails while working to remove them. If we can't remove them in 6 months, they are to be set free. Now how many are we talking about here? As this chart shows, here are the top offending countries and the number roaming America:

TABLE 14.—BREAKDOWN IN THE NUMBER OF ILLEGAL ALIENS FROM COUNTRIES THAT BLOCK OR INHIBIT REPATRIATION

[As of June 29, 2004]

Eight countries	Detained criminal/non-criminal	Non-detained criminal/non-criminal	Total
Vietnam	352	5,807	6,159
Jamaica	715	11,568	12,283
Iran	105	7,039	7,144
India	253	28,540	28,793
Ethiopia	108	4,454	4,562
Eritrea	21	637	658
China	885	72,315	73,200
Laos	140	3,302	3,442
Total	2,579	133,662	136,241

During FY 2003, the detention of criminal/non-criminal aliens from the top eight uncooperative countries that block or inhibit repatriation consumed 981,202 detention days and $83 million.

Source: DRO.

According to a Department of Homeland Security Inspector General audit in April 2006, ''The difficulty that ICE is experiencing removing illegal aliens with final orders has, in effect, created a mini-amnesty program for tens of thousands of illegal aliens that are subject to removal from the U.S. It also encourages individuals from non-cooperating countries such as China, India, and Iran to make attempts to enter the U.S. illegally.''

So let me close by again saying this amendment that I and the gentleman from Colorado are offering just says to enforce existing law. Unless these nations believe that they will not obtain a visa in the future, nothing is ever going to change.

Mr. TANCREDO. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Colorado (Mr. TANCREDO).

The amendment was agreed to.

Amendment Offered by Mr. LIPINSKI

Mr. LIPINSKI. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

AMENDMENT OFFERED BY MR. LIPINSKI:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds made available in this Act may be used to purchase light bulbs for operations in the United States unless the light bulbs have the ''ENERGY STAR'' or ''Federal Energy Management Program'' designation.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Illinois (Mr. LIPINSKI) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Illinois.

Mr. LIPINSKI. Mr. Chairman, this amendment says that none of the funds made available in this bill may be used to purchase light bulbs for operation in the United States unless the light bulbs have the ''Energy Star'' or the ''Federal Energy Management Program'' designation. What this means is that light bulbs purchased will have to be high-efficiency light bulbs.

Right now, the most common high-efficiency bulbs are the compact fluorescent light bulb, known as a CFL. CFLs use approximately 75 percent less energy than incandescent bulbs to provide the same amount of light. They also last approximately eight to ten times longer. Replacing an ordinary bulb with a comparable CFL saves up to $74 in energy costs over the bulb's lifetime.

Today, Americans are rightly concerned about the impact of foreign energy dependence on our national security and the effect of global climate change on the future of our planet. This amendment helps us address both of these issues, while at the same time saving millions of taxpayer dollars.

Mr. OBEY. Would the gentleman yield?

Mr. LIPINSKI. I yield to the chairman.

Mr. OBEY. In light of the fact that you and the other sponsors of the amendment have worked to narrow the scope of the amendment to just the funds that are involved to operations in the United States, the committee would be happy to accept the amendment.

Mr. LIPINSKI. Reclaiming my time, I would like to thank the chairman for accepting this. This is part of what we are working on.

I introduced a bill to require all GSA buildings to use high-efficiency bulbs. Mr. INGLIS and I introduced this earlier this year. It is included in a comprehensive climate change bill which was reported by the Transportation and Infrastructure Committee yesterday. I am very hopeful we can get this done through that piece of legislation for all GSA buildings, but this amendment here is a good start.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Illinois (Mr. LIPINSKI).

The amendment was agreed to.

AMENDMENT NO. 17 OFFERED BY MR. BLUMENAUER

Mr. BLUMENAUER. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 17 offered by Mr. BLUMENAUER:

At the end of the bill (before the short title), insert the following:

SEC. ____. (a) LIMITATION ON USE OF FUNDS.—Of the funds appropriated in this Act under the heading ''Foreign Military Financing Program'', not more than $250,000,000 may be made available for Pakistan.

(b) CORRESPONDING TRANSFER OF FUNDS.—The amounts otherwise provided by this Act are revised by increasing the amount made available for ''United States Emergency Refugee and Migration Assistance Fund'', and reducing the amount made available for ''Foreign Military Financing Program'', by $50,000,000.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Oregon (Mr. BLUMENAUER) and a Member opposed each will control 5 minutes.

Mr. OBEY. Mr. Chairman, I reserve a point of order on the amendment.

The CHAIRMAN. A point of order is reserved.

The Chair recognizes the gentleman from Oregon.

Mr. BLUMENAUER. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the amendment which I am offering with my good friends from Washington and New York simply shifts $50 million from military aid for Pakistan to the Emergency Refugee and Mitigation Assistance Account. It would leave $250 million in Pakistani military aid, the same level that appeared in the chairwoman's original mark.

In many areas of Federal spending, Congress has to make tough choices amongst important competing priorities. However, the choice between

more military aid for Pakistan and assistance for refugees should be an easy one.

Anybody who has witnessed the news in recent weeks understands the military dictatorship in Pakistan has had serious problems in terms of its treatment of civil society. It is one of the worst nuclear proliferators, which could not occur without the knowledge of the Pakistani government. Yet it has been the third-largest recipient of military aid from the United States since 9/11, receiving $10 billion over the last 6 years.

Despite all that, Pakistan continues to allow the Taliban to operate in many parts of Pakistan and launch attacks against U.S. troops in Afghanistan. In fact, according to CQ Weekly, a U.S. Army officer stationed in Pakistan recently recalled watching a 2-mile-long line of Taliban fighters and suicide bombers walk across the border into Afghanistan unchallenged by Pakistani security forces.

Pakistan even has a ''peace agreement'' with the Taliban and other terrorists in one province along the Afghan border and agreed to slash military patrols in areas with a substantial al Qaeda presence.

At the same time, Pakistan's military dictator, General Musharraf, has dismissed the chief justice of the Supreme Court of Pakistan and attempted to introduce restrictions on its television media.

Forty pro-democracy protesters recently killed by security forces; and, since 2001, over 1,000 people have disappeared.

On the other hand, Iraq is the fastest-growing refugee crisis in the world. There have been 4 million innocent Iraqis who have been driven from their homes by violence and threats, including tens of thousands who are at risk because they helped the United States.

This humanitarian crisis is rapidly becoming a regional security crisis, as Jordan and Syria are at risk of being destabilized by the millions of Iraqis they have taken in, 2 million Iraqis in Jordan and Syria.

Despite this, efforts to provide assistance in the region are dramatically underfunded. The United States has admitted only 70 refugees since October, only one in April and one in May. It is not getting better. It is getting worse. I think this is a blot on Congress as well as the administration, turning its back on these refugees.

Adding $50 million in Emergency Refugee and Migration Assistance will allow assistance to reach more displaced Iraqis and help mitigate the impacts of the refugee crisis on other countries in the Middle East. This amendment offered by Mr. MCDERMOTT, Mr. CROWLEY and myself has the support of the United States Committee for Refugees and Immigrants, Refugees International, the U.S.-India PAC, the U.S.-India Business Alliance and others who are deeply concerned about this humanitarian crisis.

I strongly urge my colleagues to support this amendment.

Mr. Chairman, I reserve the balance of my time.

POINT OF ORDER

Mr. OBEY. Mr. Chairman, I must very reluctantly lodge a point of order against the gentleman's amendment.

The amendment proposes to appropriate funds in excess of the authorized amount. It therefore violates clause 2 of rule XXI, and I would ask for a ruling from the Chair.

The CHAIRMAN. Does any Member wish to be heard on the point of order?

If not, the Chair will rule. The proponent of an item of appropriation carries the burden of persuasion on the question whether it is supported by an authorization in law.

Section 2 of the Migration and Refugee Assistance Act of 1962, codified at 22 U.S.C. 2601, establishes the Emergency Refugee and Migration Assistance Fund and provides an authorization of appropriation not to exceed $100 million at any given time. The bill appropriates $45 million, and the amendment by the gentleman from Oregon appropriates another $50 million.

Although the amendment would take the total for the fund to $95 million in the bill, and thus ostensibly within the authorized level, the committee report on page 112 states that an additional $55 million was appropriated by Public Law 110–28. Those funds remain available until expended.

Having reviewed this information, the Chair is unable to conclude that the item of appropriation in question is authorized in law.

The Chair is therefore constrained to sustain the point of order under clause 2 of rule XXI.

AMENDMENT OFFERED BY MR. FORBES

Mr. FORBES. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. FORBES:

At the end of the bill (before the short title), insert the following:

SEC. ___. None of the funds made available in this Act under the heading ''Economic Support Fund'' may be made available for Ethiopia.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Virginia (Mr. FORBES) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Virginia.

Mr. FORBES. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the amendment I have at the desk is a simple, straightforward amendment. This amendment says that none of the funds under the Economic Support Fund may be made available to Ethiopia.

In 2005, Ethiopia held democratic elections for the first time. As in any election, there were winners and losers. The opposition party won so many seats in that election that the ruling party immediately moved to limit the power of the parliament, stripping it of the power to craft a budget and allowing discussion exclusively on issues approved by the prime minister.

When protests grew after several members refused to participate in the new government, violence ensued; and the opposition political leaders were arrested. Thousands of protesters were arrested since October 31, 2005; and, thankfully, most of them have been released. However, nearly 2 years later, 38 prisoners from the protest remain incarcerated.

Mr. OBEY. Would the gentleman yield?

Mr. FORBES. I would yield to the chairman of the committee.

Mr. OBEY. The gentleman has persuaded me. I would be happy to accept the amendment in the interest of time.

Mr. FORBES. Mr. Chairman, I yield back the balance of my time.

Mr. WOLF. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. The gentleman from Virginia is recognized for 5 minutes.

Mr. WOLF. I thank the gentleman, and I yield to the gentlewoman from Virginia Beach, Mrs. DRAKE.

Mrs. DRAKE. I rise today to speak about a true freedom fighter, a man whose sense of the rule of law and democracy has kept him in prison for the past 2 years. Mr. Chairman, I rise today to speak for my constituent from Virginia Beach, Dr. Yacob Haile-Mariam.

In 2005, Ethiopia held their national parliamentary elections. Dr. Yacob Haile-Mariam, a citizen of Ethiopia, resigned his position as professor at Norfolk State University and was elected to the parliament as a member of the opposition party.

Soon after the election, Dr. Haile-Mariam was arrested. Last week, the Ethiopian tribunal, adjudicating this matter hastily and without notice, terminated the proceedings and found him guilty of the charges against him. Dr. Haile-Mariam faces sentencing, including the possibility of the death sentence.

□ 1945

Mr. Chairman, the conviction of Dr. Haile-Mariam and other members of the opposition party is adverse to the principles of democracy, freedom and human rights that the United States promotes across the globe. More importantly, the conviction of these individuals is contrary to the commitment Ethiopia has made in recent years to

engage in a civil society and establish a democratic government which respects the rule of law, due process and international principles of human rights.

The injustice of Dr. Haile-Mariam's imprisonment has been felt throughout Hampton Roads, most particularly by his loving and supportive family. I have been in contact with his brave wife, Tegist, and officials at the State Department since 2005 seeking a positive resolution to this unfortunate situation. While I do not believe decreasing funds from this particular account would expedite the release of Dr. Haile-Mariam, I could not stand by without speaking for a man whose voice has been taken from him.

Mr. WOLF. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Virginia (Mr. FORBES).

The amendment was agreed to.

AMENDMENT NO. 7 OFFERED BY MR. MCGOVERN

Mr. MCGOVERN. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 7 offered by Mr. MCGOVERN:

At the end of the bill (before the short title), insert the following new section:

LIMITATION ON ASSISTANCE FOR THE WESTERN HEMISPHERE INSTITUTE FOR SECURITY COOPERATION

SEC. 6xx. None of the funds made available in this Act may be used for programs at the Western Hemisphere Institute for Security Cooperation located at Fort Benning, Georgia.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Massachusetts (Mr. MCGOVERN) and a Member opposed each will control 15 minutes.

The Chair recognizes the gentleman from Massachusetts.

Mr. MCGOVERN. Mr. Chairman, I yield myself 4 minutes.

Mr. Chairman, this is a very simple amendment. It ensures that no funds in this bill can be used for programs at the Western Hemisphere Institute for Security Cooperation, otherwise known as WHINSEC. It does not affect the funds in the Defense appropriations bill where the majority of WHINSEC's funding is provided.

Last year was the first debate on the WHINSEC, the successor to the U.S. Army School of the Americas. Since last year, the WHINSEC has made a number of very disturbing decisions that bring into question its much-vaunted commitment to transparency and democratic values.

For example, last year's debate brought to light a number of human rights cases involving WHINSEC students and instructors. Instead of using these cases as an opportunity to review its practices and procedures, instead of strengthening the vetting process and fixing any problems that might exist, the WHINSEC chose to attack the messengers.

It asserted that Salvadoran Colonel Francisco del Cid Diaz, responsible for the notorious 1983 Las Hojas massacre, never attended the WHINSEC. I guess they didn't check their own records because here is his name on the list of 2003 graduates.

They attacked the reputation of the current Bolivian Human Rights Ombudsman, Waldo Albarracin, saying that he has no recollection of the military captain who had him kidnapped and tortured in 1997, the same Major Urzagaste who was at the WHINSEC in 2002. When Mr. Albarracin heard of this slander, he sent me a letter describing what happened to him and the role of Urzagaste.

Mr. Chairman, like similar cases regarding corruption charges against three Colombian officers who attended the school, the WHINSEC dismissed the horror of Mr. Albarracin's torture as without merit because the courts dropped the case. Are WHINSEC officials ignorant about how military officers acted with impunity in Bolivia during the 1990s? Or in El Salvador during the 1980s? Are they ignorant of how the Colombian military benefits from the worst culture of impunity in the hemisphere today? The fact that charges of kidnapping, torture, murder, drug trafficking and corruption are routinely dropped is a major problem with Latin American militaries, not a virtue. Even more disturbing is how the WHINSEC responded to criticism. It chose to build a fortress around itself, to make sure that no one in the public, no human rights organization, no foreign policy analyst, would be able to review the names of WHINSEC's graduates and instructors.

For the first time in the history of WHINSEC, including the 40-year history of its infamous predecessor, the School of the Americas, Freedom of Information Act requests are being denied. I have in my hands the school's response regarding 2005 graduates. Every single name is blacked out. Look at it, 18 pages, completely redacted. Is this anyone's idea of transparency? Of open relations with human rights and other policy organizations? This was a deliberate choice. The practice of secrecy extends to WHINSEC's public relations materials, where not a single solitary name of any of its Latin American students or teachers appears. So blacking out the names of graduates wasn't a mistake. It wasn't an anomaly. It's a deliberate decision to keep information secret, to avoid any kind of independent scrutiny or oversight.

Is this the example we want our Latin American counterparts to copy? I hope not, Mr. Chairman.

With that, I reserve the balance of my time.

Mr. WOLF. Mr. Chairman, I rise in opposition to the amendment, and I yield the balance of my time to the gentleman from Georgia (Mr. GINGREY).

The Acting CHAIRMAN (Mr. POMEROY). The gentleman from Georgia is recognized for 15 minutes.

Mr. GINGREY. Mr. Chairman, I thank you and I thank the ranking member for yielding to me.

Yes, Mr. Chairman, there is a security fence around Fort Benning, but I would not describe the home of the Infantry as a fortress by any stretch of the imagination, as my colleague just referred.

Mr. Chairman, here we go again. Once more, my good friend, and he is my good friend, from Massachusetts has so confused the record that it's really tough to know where to begin. But let me try.

He argues that we need to shut down WHINSEC because nearly 30 years ago, several graduates of a different program, the School of the Americas, were found to have committed atrocities in their home countries, a tenuous conclusion indeed. I wonder if he would argue that we should shut down Harvard because the Unabomber actually took some classes there. Mr. Chairman, of course he wouldn't. Because my friend knows that when a student does something awful years after graduating, you can't reasonably hold the school accountable. And to do so would let one man's action deny thousands more the opportunity to grow and to learn. Essentially it would be throwing the baby out with the bath water.

So let's set the record straight, Mr. Chairman. Over 60,000 members of Latin American security forces have trained at WHINSEC and its predecessor since the inception of the school; 99.99 percent have served their countries with honor and distinction. This is the fact.

In order to ensure that known human rights offenders are not attending WHINSEC, potential participants undergo background checks by the Bureau of Western Hemisphere Affairs, the Bureau of Democracy, Human Rights and Labor and the Department of State, not vetted by WHINSEC.

So I am proud to say, Mr. Chairman, that not one single credible accusation of human rights violations has been lodged against a graduate of WHINSEC. Not one. And I don't want the gentleman or my colleagues necessarily to take my word for this. I want to submit for the RECORD a letter from the United States Department of State, actually from the Deputy Assistant Secretary, Patrick Duddy, in response to the Chairman of the Board of Visitors, the school board, WHINSEC school board, to Bishop Morlino dated January 7, 2007.

UNITED STATES DEPARTMENT OF STATE,
Washington, DC, January 7, 2007.

Bishop ROBERT C. MORLINO,
Chairman, Board of Visitors, Western Hemisphere Institute of Security Cooperation.

DEAR BISHOP MORLINO: I would like to extend my congratulations on your unanimous selection by the Board of Visitors (BoV) members as incoming chairman for 2007. My representative at the December 2006 meeting has conveyed to me the BoV's request for additional information regarding vetting of attendees at U.S. Government-funded security training covered by the Leahy Amendment. As I mentioned in my previous letter, the Department of State is committed to implementing that law's restrictions on support for security units for which credible evidence of human rights violations exists. The Department has vetted tens of thousands of training participants. We have expanded the scope of our vetting to include individuals as well as units. The vetting process includes a local background check by our embassies, as well as checks by bureaus with regional responsibilities (e.g., the Bureau of Western Hemisphere Affairs) and by the Bureau of Democracy, Human Rights, and Labor. The Department of State maintains the Abuse Case Evaluation System (ACES), which is a central database that aggregates human rights abuse data into a single, searchable location and facilitates analysis of the data's validity. Personnel involved in the Leahy vetting process use this database as a resource for checking abuse allegations when conducting vetting requests. If all checks come back negative, the Embassy is notified that the individual is cleared for participation in training. The Department vetting process is extremely thorough, and one in which WHINSEC itself plays no role.

As we have noted earlier, we find no evidence to substantiate any claims that the individuals in my previous letter were not properly vetted. We have no additional information Colonel Francisco Del Cid of El Salvador. As you will recall, I stated in my previous letter that we have no record of Del Cid participating in any programs subject to the provisions of the Leahy Amendment. Additional information regarding the other cases is as follows:

Captain Filmann Urzagaste of Bolivia attended a WHINSEC program in 2002. It was alleged that he was involved the 1997 kidnapping of Waldo Albarracin, then a Bolivian human rights official. The Bolivian Supreme Court declared the charges to be without merit. Albarracin himself, in a recent interview with U.S. Embassy personnel in La Paz, made no mention of Urzagaste. When directly asked whether Urzagaste had been involved, Albarracin indicated that he had no recollection of Urzagaste. The Bolivian Supreme Court's website may be consulted for further information:
http://www.tribunalconstitucional.gov.bo/resolucion1040.html

With regard to the three Colombian officers mentioned (Captain Dario Sierro Chapeta; Lieutenant Colonel Francisco Patino Fonseca, and Captain Luis Benavides Guancha), we have no record of any allegations regarding human rights violations. Our records indicate that Dario Sierro and Patino Fonseca attended WHINSEC in 2002, followed by Benavides Guancha in 2003. A Colombian police internal investigation into alleged corruption by the three came to light after they attended WHINSEC and were back in Colombia. The three were absolved as the charges were found to be unfounded and described as unsubstantiated allegations. The Colombian Attorney General's office has posted a short article on the case at: http://www.fiscalia.gov.co/pag/divulgainoticias2005/anticorrup/corrupNasNov17.htm.

Thank you for your inquiry.

Sincerely,

PATRICK DUDDY,
Deputy Assistant Secretary.

Mr. Chairman, every year the gentleman from Massachusetts states that participation in WHINSEC is declining as Latin American nations grow weary of our influence. However, the numbers tell a different story. In 2005, 686 students from Latin America attended WHINSEC. In 2006 that number doubled, up to 1,217. And we saw Brazil for the first time, a fact that can't be overlooked as they have begun to participate, and they are the neighbors of who else but Hugo Chavez in Venezuela.

Another important fact the gentleman eschews is that the School of the Americas closed in 1999. That school closed. WHINSEC opened a year and a half later, in 2001, totally revamped its curriculum. The mission for WHINSEC, Mr. Chairman, could not be clearer. It's threefold: to provide professional education and training to military personnel, law enforcement officials and civilians. Number two, foster cooperation among participating nations. Thirdly, to promote democratic values and, let me emphasize, respect for human rights.

Mr. Chairman, WHINSEC has consistently accomplished all of these goals, strengthening security cooperation between the United States and Latin America. In fact, the House Armed Services Committee recognized this as much as 2 weeks ago when we unanimously voted to recommend that the Department of Defense continue utilizing WHINSEC to strengthen security cooperation in the western hemisphere. The fiscal year 08 National Defense Authorization Act, which included this provision, passed this body overwhelmingly by a vote of 397–27.

Mr. Chairman, I reserve the balance of my time.

Mr. MCGOVERN. Mr. Chairman, I yield myself 1 minute. The gentleman hasn't been listening to me. The State Department letter that he is quoting is essentially a whitewash. That State Department letter says that Cid Diaz, who I mentioned who is responsible for the Las Hojas massacre, never attended the WHINSEC. I just showed you right here. This is from the WHINSEC. He did. So the State Department was wrong. The State Department letter says that the Human Rights Ombudsman in Bolivia can't remember who his torturer was. I have a letter here from the Bolivian Ombudsman that says he feels he was slandered. So that letter is wrong. And I have proof that it is wrong.

And you talk about accountability. Where's the accountability? This is the first time ever that we can't track the graduates. The school doesn't want to track the graduates. They say they don't have the time. So it has been up to human rights organizations. This is what we get in return. How do we know? How does anybody know? We need to do a better job.

So you didn't listen to my statement, I would say respectfully to the gentleman from Georgia. What the State Department sent to you is wrong and I have the proof.

Mr. Chairman, I yield 2½ minutes to the gentlewoman from Connecticut (Ms. DELAURO).

Ms. DELAURO. Mr. Chairman, I rise in strong support of the amendment and I thank my colleague from Massachusetts for offering it.

By prohibiting any funding in this bill from being used for the Western Hemisphere Institute for Security Cooperation, formerly the infamous U.S. Army School of the Americas located at Fort Benning, Georgia, we can stand up for human rights, we can honor our principles and send a strong message to the world.

The School of the Americas has been associated with human rights abuses, with many of its students linked to Latin American coups and vicious death squads. In 1989, graduates from the school killed six Jesuit priests, a housekeeper and her daughter in El Salvador. And today they have a new name, but they have not changed the school's old patterns of abuse and conflict. The institute continues admitting and graduating known human rights abusers. Yes, Colonel Francisco del Cid Diaz, for example, who commanded a unit responsible for a notorious massacre of indigenous people in El Salvador in 1983, then attended the institute on our own soil as recently as 2003. And there are others just like him. It is clear that the institute continually fails not only to fully investigate the prior history of its students but also to track their activity after graduation. That is why nations like Costa Rica, Argentina and Uruguay have terminated their relationship with the institute. It is clear neither those nations nor this one have anything to gain by supporting an institution with such a marred, violent history.

One hundred sixty-seven U.S. Catholic bishops agree. They have written Congress in support of this amendment and called for the institute's closure, recognizing that many of its graduates have consistently targeted Catholic clergy and lay workers across Latin America. As a Congresswoman, a Catholic and an American, I believe every action that we take sends the whole world a clear message about our priorities and values as a Nation.

I urge my colleagues to support the McGovern amendment, make it clear we are serious about human rights and that the United States of America does not train murderers or killers and that

we take the loss of human life seriously.

□ 2000

Mr. GINGREY. Mr. Chairman, I yield 4 minutes to my good friend and colleague from the great State of Georgia. The gentleman represents Fort Benning in Muscogee County, and it gives me great pleasure at this time to yield to my colleague from Georgia (Mr. WESTMORELAND).

Mr. WESTMORELAND. I want to thank my friend, Mr. GINGREY, for doing this and his tireless work on presenting the WHINSEC good faith that they do.

Mr. Chairman, it's a shame that every year defenders of the Western Hemisphere Institute for Security Cooperation have to fight for its very existence. But the annual efforts of my colleague, Mr. MCGOVERN, and others to close this important institution at least gives us a regular opportunity to discuss the great work done at WHINSEC in a national forum.

It also gives Members of the House a chance to show their support for this educational institution that spreads American know-how and American values to our neighbors and allies throughout Latin America.

At least since the administration of Woodrow Wilson, presidents and congressional leaders of both parties have included promotion of democracy throughout our hemisphere and the rest the world as a central tenet of U.S. foreign policy. The last 20 years have witnessed significant global progress in scores of countries. From the southern tip of South America to the northern reaches of Central Europe and throughout the Pacific Rim, the oppressed have become liberated.

From the beginning of our Nation, we have belief that the right to life, liberty and the pursuit of happiness comes not from man or from law; those rights are God-given. Thus, we knows as Americans that we can't take all the credit for the growth of liberty and human rights, but we can take pride that our Nation has served for more than 100 years as the loudest voice, the greatest advocate and the fiercest defender of democracy, liberty and individual determination.

When we must, we wield the stick. We have fought and shed blood for democracy on the beaches of Normandy, the jungles of Vietnam and the deserts of Iraq.

When we can, we wield the carrot. We promote our values to foreign students and our world-leading university system by increasing development through trade agreements and through targeted foreign aid.

WHINSEC is a great example of the carrot approach. It's a positive influence through soft power. In other words, it's a positive influence through education and training.

WHINSEC is based at Fort Benning, the world's largest infantry training center, which is in my district. Fort Benning plays a huge role in training the U.S. Army, the greatest fighting force in the history of the world. Manuals currently used at WHINSEC are identical to those used to train all U.S. Army personnel. WHINSEC operates the most advanced and sophisticated military human rights training program in the world.

Comparable training is not available from any other nation or in any other American training facility. Without WHINSEC, Latin American militaries would not have any access to training in military human rights.

In the past 20 to 30 years, we have seen great transition in the Latin American countries from the chains of totalitarianism towards the freedom of democracy. We have seen democratically elected governments become more stable, we have seen progress on free trade and more open markets, and we have seen economic growth.

It's getting better, but challenges in the region remain. Fidel Castro and Hugo Chavez remain vocal adversaries to freedom in the American values.

The arc of the universe bends toward justice, and these foes of freedom will fail in time, but the United States must continue to be the lighthouse among rocky waters. We must cooperate, educate, and assist our friends and our neighbors in Latin America. We do that best by supporting WHINSEC and the crucial work that is done there.

I urge my colleagues to defeat the McGovern amendment and let freedom ring throughout the Western Hemisphere.

Mr. MCGOVERN. Mr. Chairman, there seems to be a disconnect here. Let me again try to be crystal clear.

The problem is that the WHINSEC takes no responsibility for knowing anything about the human rights records of their students before they come to the U.S. or when they return home. They say the vetting process is done by the State Department, and then they say they will not, will not, do follow-up after their students return to their home countries.

How can they then claim that their training is effective? Doesn't that require some kind of follow-up or tracking of graduates? Nobody has addressed the fact that, up until just now, we would have access. There was public access to the people who went to the WHINSEC.

That's how we knew about those who violated human rights, because we had the list. This is now the response that we get from this school about the people who attend the school, not just the students, but the instructors that they bring in. Where is the transparency? Where is the accountability? What's wrong with laying a little sunshine in?

Look, our standing around the world has never been lower. I hate to tell you something, but in Latin America this is one of the most unpopular schools that exists in the United States of America. People think that this is a school responsible for training or at least turning a blind eye to human rights violators, not just from years ago but recently.

But, then again, we really can't tell you accurately and neither can you tell me accurately what the human rights records are of these people who are attending. Because it's all blacked out. I mean, this is not the way a school in the United States that trains for our military should operate.

Mr. Chairman, I reserve the balance of my time.

Mr. GINGREY. Mr. Chairman, may I ask how much time I have remaining?

The Acting CHAIRMAN. The gentleman from Georgia has 6½ minutes.

Mr. GINGREY. Mr. Chairman, at this time, it gives me great pleasure to yield up to 5 minutes to the distinguished chairman of the House Armed Services Committee, the gentleman from Missouri (Mr. SKELTON).

Mr. SKELTON. Mr. Chairman, we are speaking about today and not 1983.

I have had the opportunity, since being a Member of Congress, to work in the area of professional military education. I must tell you it's important not just for American students, American leaders, American service personnel, but it's important for our friends and allies as well.

I have nothing but great respect, great respect for my friend, my colleague from Massachusetts. I know how strongly he feels in his beliefs. But I must say that we are doing the right thing by keeping this school going and going well.

We do not teach human rights abuse. This school bestows upon its students standards. It teaches them military art. It teaches them military-to-military relationships. It also instructs in the area of human rights.

I have been to Latin America several times. Three weeks ago, I travelled again to the region with Dr. GINGREY and Mr. CONAWAY, visited Colombia and Panama. There we met with President Uribe of Colombia, President Torrijos of Panama, and other senior military and political leaders. Without exception, the leaders of those countries touted the WHINSEC program in Georgia as an exceptional opportunity for their men and women in uniform to gain not only technical knowledge but a deeper understanding of human rights.

Furthermore, spending time in the United States gives them an opportunity to learn of American values, gives them the opportunity to make friends within the American military, with whom they will undoubtedly, in days and years ahead, will have the opportunity to work.

I spoke with our American commanders in the field. They reiterated

what I have heard many times before. Individuals who have been trained at WHINSEC performed better on their missions in their host country than those who have not.

Our military commanders also cherished the relationships that they have built with their Latin American counterparts who participated in the program.

In addition to comprehending our military culture and its operations, the school of graduates often are promoted and rapidly rise through the ranks. They understand what it is to have American values, and they understand about human rights which are taught there. The message from everyone was simple: Please keep that school open.

Professional military education is so important, but it's also extremely important to allow our neighbors, our friends to the south. We can't forget them to participate in the professional military education of our country.

Mr. MCGOVERN. Mr. Chairman, let me again make a point here that is that last year when we were debating this same issue, an Army officer trained at the School of the Americas murdered a DEA-trained anti-narcotics unit in Colombia. This is still happening every day.

We were told a little while ago that everything, we are referring to the distant past. Well, again, I mentioned the Bolivian ombudsman, Mr. Albarracin, who was tortured in Bolivia in 1997, and his torturer, Major Urzagaste, went to WHINSEC in 2002.

Again, I am going to keep on saying this. I don't have a problem with training foreign militaries. What I have a problem with is this: the secrecy, the lack of accountability, the lack of transparency.

I am going to tell you something. We are going to find out, sooner or later, who some of these people are; and we are going to find out that they are responsible for atrocities. I gave them an example of somebody who was admitted to the school after he had been accused of torture.

I mean, where is the vetting process? We need to do much better.

Mr. Chairman, I yield 2 minutes to the distinguished chairwoman of the subcommittee, Mrs. LOWEY.

Mrs. LOWEY. Mr. Chairman, I rise in support of this amendment. For years, many Members of Congress and activists, including the Maryknoll nuns based in my congressional district, fought to shut down the School of the Americas. The school's very existence was undermining United States efforts to promote civilian control of the military and respect for human rights in Latin America.

So the Army closed the school of the Americas and reopened it a few weeks later with a new name, WHINSEC. Past questions about the School of the Americas has still not been resolved, giving us no basis on which to build a better, more credible, effective program at WHINSEC. We need to shine the light on the past of the School of the Americas in order to put WHINSEC on track to be a beacon of light for the militaries of Latin America.

I urge my colleagues to support this amendment.

Mr. GINGREY. Mr. Chairman, how much additional time do I have?

The Acting CHAIRMAN. The gentleman from Georgia has 3 minutes remaining.

Mr. GINGREY. Mr. Chairman, I yield 2 minutes to the gentleman from southwest Georgia (Mr. BISHOP), who also represents Muscogee County, Columbus and Fort Benning.

Mr. BISHOP of Georgia. I thank the gentleman for yielding.

Mr. Chairman, I represent Fort Benning; and I represent the WHINSEC, the Western Hemisphere Institute for Security Cooperation. This is a fine institution. It's designed and it is functioning, created just in 2001 in response to the critique that you have heard today over and over again to promote professional education and training to eligible nations in the Western Hemisphere in democratic principles that are set forth in the charter of the Organization of American States.

You have heard all of this critique, but if you look at the bill itself that we are debating tonight, on page 65, language is put in here specifically to address these concerns. It says, ''That the Secretary of State shall submit to the Committee on Appropriations, no later than 60 days after enactment of this Act, a report addressing how the Western Hemisphere Institute for Security Cooperation IMET program for fiscal year 2008 contributes to the promotion of human rights, respect for civilian authority and the rule of law, the establishment of legitimate judicial mechanisms for the military, and achieving the goal of right sizing military forces.''

Mr. GINGREY. Mr. Chairman, I ask unanimous consent for an additional minute on our side and the proponents' side so the gentleman can conclude his thoughts and we can have our last speaker.

The Acting CHAIRMAN. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. BISHOP of GEORGIA. The points that have been made and the critiques that have been made can all be addressed by the legislation written by the subcommittee, by the full committee in the bill and hopefully will be adopted by the House tonight.

□ 2015

And so I would urge the defeat of this amendment. I think that we need to proceed. We need to continue promoting democracy in our own neighborhood in the Western Hemisphere, and I think that the Western Hemisphere Institute for Security Cooperation does just that, and I'd like for us to keep it and defeat this amendment.

Mr. MCGOVERN. Mr. Chairman, I yield myself 30 seconds.

I don't want any more reports. What I want is accountability. I want to know whose going there. I want to know what happens to them when they go back to their country. I want to know their backgrounds before they go to the school.

You know, we knew, we found out that 19 of the 26 trigger men who murdered in cold blood six Jesuit priests in El Salvador were graduates of the school because we had access to the names. We don't have access to the names anymore. And no report is going to give us access to the names.

We want transparency. We want accountability. There are problems here. We need to address them. That's our job.

Mr. GINGREY. Mr. Chairman, I yield 1 minute to the gentleman from Texas (Mr. CONAWAY).

Mr. CONAWAY. I want to thank the gentleman for allowing me to speak in opposition to this amendment.

There are anecdotes for folks who have gone through this school at various stages over the last 50 years or 40 years, who have turned bad and been bad people. But there are hundreds, literally thousands, of men and women who've been trained at these schools, have gone back to their country of origin and taken with them the values that they get here, the respect for civilian authority. The human rights training that's gone on since the WHINSEC was reformulated, that is invaluable.

I've been to Colombia and Panama recently with my good colleagues, Chairman SKELTON and Dr. GINGREY and listened to the firsthand reports from the men and women who serve in our military who tell us that the men and women who are trained in this school come back to those countries better prepared to lead their country down a path that we would respect and we would want them to lead.

So I respectfully ask my colleagues to vote against this amendment.

Mr. MCGOVERN. Mr. Chairman, I yield myself 30 seconds.

I have great regard for the gentleman from Texas. But my question is, how do you know? Do you track all these people individually? Can you tell me that all these people whose names have been crossed out are pure, that they are following a code of human rights; that they're not guilty of atrocities against their people?

That's the point here. I'm not arguing against the U.S. being involved in training programs. What I'm saying is that there's something fundamentally wrong with a training program where

everything is secret; where we're told everybody is great, but yet we can't have access to track down the people who go to that school. We need to change that.

Mr. GINGREY. Mr. Chairman, what is truly disingenuous is that nobody here tonight speaking against WHINSEC, to my knowledge, has ever taken the time to visit the school.

The gentleman, the author of the amendment, my good friend, talked about transparency. It's not because folks have not been invited. WHINSEC is so proud of its operation and record on human rights that it maintains an open-door policy. And Mr. Chairman, that would be true even for the School of the Americas Watch Group. They are welcome at any time to come in and look and talk to Colonel Perez, the director of the school, and look at the curriculum. Any Member of this body can show up unannounced to see for themselves what's being taught at WHINSEC.

Those of us who've taken the time to visit understand the critical importance of engaging the leaders and the law enforcement personnel of our closest neighbors while spreading democracy and respect for human rights. We understand that unlike its predecessor, the School of the Americas, WHINSEC has a substantial human rights component that goes well beyond the training required by law.

In fact, at a recent HASC hearing, Admiral Stavridis, the Commander of Southern Command, referred to WHINSEC as the military's crown jewel for human rights training.

Mr. Chairman, as we've made clear, those who advocate cutting funding for WHINSEC do so in the absence of fact. WHINSEC has a spotless human rights record and a tremendous record of success in the Western Hemisphere.

I urge all my colleagues, please vote ''no'' on the McGovern amendment.

Mr. MCGOVERN. Mr. Chairman, I'm not interested in going to visit a school and having hors d'oeuvres and a cocktail.

I'm interested in who goes to the school. That's what I'm interested in. I want to follow-up who goes to the school, who's admitted to the school. And we used to be able to have access to that information. And even though the school didn't track the graduates, human rights organizations did. We are now being denied access. I mean, where's the transparency? You all talk about all the great graduates of this school. How do you know when you get this in return? This is not an open, transparent process.

Furthermore, more and more countries in Latin America are saying we don't want to have anything to do with this school. Uruguay, Bolivia, Argentina, Costa Rica have all pulled out of the school. They don't want to have anything more to do with WHINSEC.

Mr. Chairman, we've heard a great deal today that without the WHINSEC the U.S. would not be engaged in Latin America. Well, with all due respect, the U.S. trains 15,000 or more Latin American military officers and troops each and every year, less than 1,000 of them at the WHINSEC. We are very engaged in Latin American militaries, and none of these other programs carry the negative baggage that the WHINSEC does.

We have heard that WHINSEC has trained the future leaders of Latin America. But, again, with all due respect, one of Latin America's problems has been that too many of its national leaders were from the military. We should be spending our time and our efforts on strengthening civilian and democratic institutions.

We have heard assertions that that the WHINSEC is transparent and promotes democratic values. But WHINSEC's own actions show those claims to be a lie. What else do you need to see? I mean, what else do you need to see?

Now, I suggest that instead of WHINSEC, we should support the model of Argentina. After separating from the WHINSEC last year, Argentina just opened a new military school where civilian, legal and human rights experts will teach every single military officer about the role of the military in a modern democratic state.

Mr. Chair, America's reputation with the people of Latin America is at the lowest level ever. Cutting the funding for the WHINSEC will send a powerful message to the people of Latin America who, hopefully, will be the real future leaders of their nations, that the U.S. Congress finally gets it.

Mr. Chairman, I would like to just close with a few personal remarks. When I was working for our dear friend and former colleague, Congressman Joe Moakley, six Jesuit priests, their housekeeper, and her 16-year old daughter were murdered in cold blood at the University of Central America in San Salvador.

It made me sick to my stomach when I learned that 19 of the 26 soldiers who murdered these priests are graduates of the School of the Americas. These priests were my friends, and I knew them. And over the years, we have raised concerns first about the School of the Americas and then its successor, the WHINSEC.

We have asked for transparency. We have called for accountability. We have asked for specific follow-up with the graduates.

Let me be perfectly clear. There's a reason why WHINSEC does not share information on its graduates and its teachers. They don't want us to do the follow-up. They don't want us to point out what they should be doing.

Passage of this amendment will send a strong signal to Latin America that we do care about human rights. But it will also send a signal to our own military that business as usual is not acceptable.

Vote ''yes'' on the McGovern-Lewis amendment.

LA PAZ, BOLIVIA, *June 18, 2007*.

DEAR HONORABLE JAMES MCGOVERN: I am writing to you in regards to the participation of police Captain Filmann Urzagaste Rodriguez in human rights violations in Bolivia, specifically in relation to his involvement in my kidnapping, detention and torture.

The events took place in January of 1997, while I held the presidential seat of the Permanent Assembly for Human Rights of Bolivia (the country's largest non governmental human rights organization). On the morning of January 25th of the aforementioned year I left my residence and hailed a taxi in direction to the University. After traveling approximately 300 meters, the taxi was intercepted by two other vehicles from which a group of men dressed in civilian clothing forced me out of the taxi and dragged me into one of the vehicles. I did not have enough time to count the number of people but I estimate the number to be between 8 to 10 men. Once in the vehicle they proceeded to cover my eyes and forced me to lie face down on the floor of the backseat. The vehicle then drove to the outside of the city, I was able to notice the difference as I felt the dust from the road hitting my face. With the vehicle in motion I was subjected to torture by my kidnappers. I could not see their faces and was unable to identify them. By their actions I concluded that the objective was to physically eliminate me or make me disappear. Nonetheless, during the terrorist operative I noticed a sudden change; I could hear an intensive exchange of communications taking place between the men in the vehicle and another source through hand held transmitters or walkie-talkies. The vehicle made a sharp turn and seemed to head in a direction back towards the city. After approximately two hours I was placed in a closed room, surrounded by silence. After noticing that I couldn't hear anybody breathing close to me I removed the blindfolds and realized that I was in a police holding cell, thus concluding who had carried out the operation, there was no doubt that the police were responsible.

Sometime during the night I was taken from the cell and moved to a police administered clinic due to the lesions on my body (I could feel a few broken ribs and I was unable to move my body). Until that point, neither my family nor the other members of the Human Rights Assembly were aware of my whereabouts, but thanks to one of the doctors, whose identity I guard to this day, who was kind enough to contact them over phone on my behalf. Thanks to this information, a lot of people were informed of my whereabouts within the hour.

Under international pressure and public scrutiny, the then President of the Republic, Gonzalo Sanchez de Lozada, fired the Police Chief. Nonetheless, the government protected the identities of the authors of my kidnapping due to the involvement of Minister Carlos Sanchez Berzain. This is why those responsible have not been brought to justice.

The then Captain of the Bolivian Police, Filmann Urzagaste Rodríguez, played a role in the events. This information was obtained through the Bolivian police force, given that at the time the event became public, high commanding police officers began accusing one another. Unfortunately the officer [i.e.

Urzagaste] and others benefited by the impunity provided by the powers of the political sphere.

This is what I can inform in summary of this particular case.

In my condition as the current Defender of the People of Bolivia [i.e. Ombudsman] and a human rights activist I consider that the work your office has been carrying out to obtain the definitive closing of the institution formerly known as the ''School of the Americas'' to be of great importance. Said entity is marked by a sad and shameful history in our continent, it was there that the main protagonists and authors of some of the worst crimes against humanity executed in Latin America received instruction. I send you my support and express my unconditional solidarity in hopes that the legislative authorities of the United Status attend to your request.

Sincerely,

WALDO ALBARRACIN SÁNCHEZ,
Defender of the People of Bolivia.

Mr. Chairman, I yield back my time.

Mr. WOLF. Mr. Chairman, I move to strike the last word. I yield 1 minute to the gentleman from Pennsylvania (Mr. SESTAK).

Mr. SESTAK. With great respect to the Representative from Massachusetts, I'd be remiss not to say the following:

I have seen in 31 years in our military, us be resisted throughout this world for the power of our economy and the power of our military. But I've watched us be admired for the power of our ideals. And the story I'm about to tell I saw many times over.

In command of a small ship, I pulled into a country. A young officer got underway with us. As we pulled back in, after an overnight, he said Captain, you treat your men, enlisted men, different than we do. I said, what do you mean? He said, you treat them as though they're equal to you. I said, they say yes, sir or no, sir. He said, no, you treat them as though they're equal human beings. We don't.

My only comment is, I have seen that so many times, that that picture of a GI with the candy bar is true. We do make mistakes.

But I truly ask, don't close this school. Improve it. It has made mistakes. It is needed for engagement of a good men and women in a good military to show the ideals of our country.

Mr. WOLF. Reclaiming my time, if I may, Mr. Chairman. I'd like to just yield 1 minute to the gentleman from Georgia (Mr. GINGREY).

Mr. GINGREY. Mr. Chairman, once you sift through the mountain of misinformation presented on the floor tonight, it's clear that those who advocate cutting funding from WHINSEC do so, as I say, in the absence of fact. WHINSEC is not the School of the Americas. WHINSEC has a spotless human rights record and is exceeding in helping the United States develop critical relationships with our closer neighbors.

Mr. Chairman, in fact, it is time to let the School of the Americas go, and to give WHINSEC a chance.

And so I urge all my colleagues to vote ''no.''

Mr. WOLF. Mr. Chair, I yield back the balance of my time.

Mrs. LOWEY. I move to strike the last word, and I'm pleased to yield to my colleague, Mr. MCGOVERN.

Mr. MCGOVERN. Let me say to the gentleman from Georgia, their record isn't spotless. We presented five cases last year. I mean, maybe you weren't listening to the debate, but we did. And the problem with this year is this is what the WHINSEC gave us, so we can't follow up.

And to the gentleman from Pennsylvania, who I have great respect for, you know, I'm not against military training. And yeah, we need to do better. My amendment, by the way, doesn't cut off all funding for the WHINSEC. Most of that money is in the Defense bill. It only cuts off the money that is under the jurisdiction of this bill.

And yes, it does need to be improved. I don't know how anybody can vote against this amendment in light of the fact that this is their, WHINSEC's, example of transparency. How do we follow up on the graduates? How can we follow up on whether the people that are going there are human rights abusers when we get this in return?

Even under the infamous School of the Americas, we were given the names. That's how I found out that 19 of the 22 trigger men who murdered the Jesuit priests were graduates of the School of Americas. If I got this I never would have known that. This is what they have given us.

Now, this is not transparency. This is not accountability. You want that school to do better, we need to send a message on the floor of the House today that we're not satisfied with business as usual, and the way to do

that is vote for the McGovern amendment.

I urge all my colleagues to vote for the McGovern-Lewis amendment. Let's take a stand for human rights. If this country stands for anything, it needs to stand out loud and four square for human rights, and this is one way to prove it. Vote for this amendment.

Ms. LEE. Mr. Chairman, I rise in strong support of the McGovern-Lewis amendment.

This important amendment will prohibit funding to the infamous Western Hemisphere Institute for Security Cooperation (WHINSEC) formerly known as the School of the Americas.

We all know the history of this Institute that has long been associated with human rights abuses and many of its students have been tied to death squads and international coups.

Despite assurances to the contrary by supporters of the WHINSEC, the continuing legacy of blood and terror by these graduates calls into question how these candidates are recruited and vetted.

Mr. Chairman, at a time when our occupation of Iraq has greatly damaged our credibility and standing in the world, the last thing we need to be doing is funding an organization like WHINSEC that is drenched in a legacy of secrecy, terror, and violence.

I urge my colleagues to support the McGovern-Lewis amendment.

Ms. SCHAKOWSKY. Mr. Chairman, I rise in support of the McGovern-Lewis amendment. It is time to close the School of the Americas, or WHINSEC. After so many decades of human rights abuses and threats to democracy, the U.S. should not be giving a privileged position to Latin American militaries by maintaining a special school in the United States just for them. Nearly every month in Latin America, a perpetrator of human rights crimes, corruption, or drug-trafficking is found to have attended the School of the Americas. There's a reason that the SOA has been called the ''School of the Atrocities.''

WHINSEC, as well as current U.S. foreign policies, are making the United States lose ground with the people of Latin America. Our relations with Latin America are at their lowest ebb in several decades. The Abu Ghraib scandal, the doctrine of preemptive war, secret prisons and the debate over detentions in Guantanamo Bay are reported widely and critically in Latin American media. I have traveled to Latin America and seen for myself that the WHINSEC, as the direct heir of the School of the Americas, is viewed throughout Latin America as a symbol of the U.S. priority of strengthening brutal military regimes instead of encouraging development.

Suspending part of the aid to the WHINSEC would show that the United States wants to avoid repeating the mistakes of the past. Such a move would be a significant and positive step forward in repairing our damaged image and credibility. It would also be a blow to those who have strengthened themselves politically by accusing the United States of hypocrisy on human rights and democracy. A more cooperative, less unilateral foreign policy, including the suspension of funding for WHINSEC, will clearly demonstrate our respect for international human rights standards and would help the United States regain influence and build connections in Latin America.

The United States should work with Latin American nations on common solutions to common problems, and our programs should invest in helping Latin American communities help themselves. Instead of providing funds to train human rights abusers, we should provide assistance for clean water, vaccinations for children, micro-credit, technical assistance for small farmers and small business, shelter for refugees and generous disaster relief to build goodwill with our neighbors.

Just last month Nobel Peace Prize Recipient Oscar Arias, President of Costa Rica, announced that Costa Rica would no longer send its police to the WHINSEC for training. We should join Costa Rica (and other Latin American countries who have withdrawn their police from training at WHINSEC) in changing course by withdrawing funding from this criminal training ground.

Mr. MCGOVERN. Mr. Chairman, I rise today in support of the amendment to close down the Western Hemisphere Institute for Security Cooperation. It is time to stop and examine our history so that we can avoid repeating the mistakes of the past. Our relations with our neighbors in Latin America are at their lowest ebb ever. The people of Latin America think the U.S. is more concerned with achieving goals through military means no matter the consequences. They think the U.S. is not concerned with human and democratic rights in Latin America. We need to start winning over the citizens of our planet and show them our desire to bring human rights to everyone.

The time has come for our country to cease our support of this Institution, to put down the swords, and instead show our neighbors in Latin America that our actions adhere to our preaching. U.S. assistance has been increasingly weighted towards harsh and ineffective counter-narcotics and military aid.

After so many decades of human rights abuses and threats to democracy, why is the U.S. Government still giving so privileged a position to Latin American militaries, such that it maintains a special school in the United States just for them? Our neighbors need assistance for clean water, vaccinations for children, micro-credit, technical assistance for small farmers and small business, shelter for refugees and generous disaster relief builds good will with our neighbors.

If we end this Institute once and for all, we will show that the priorities of the United States are with democratic and civil institutions. A more cooperative, less unilateral foreign policy that clearly demonstrates respect for international human rights standards would help the United States regain influence around the world.

It is time to sow the seeds of peace; we must stop sowing the seeds of war. As a great Nation and blessed people, we must heed the words of the spiritual—''I am going to lay my burden down, down by the riverside. I ain't gonna study war no more.'' We do not need this school. My colleagues, I urge you to vote in favor of this amendment.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Massachusetts (Mr. MCGOVERN).

The question was taken; and the Acting Chairman announced that the noes appeared to have it.

Mr. MCGOVERN. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Massachusetts will be postponed.

AMENDMENT OFFERED BY MS. ROS-LEHTINEN

Ms. ROS-LEHTINEN. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Ms. ROS-LEHTINEN:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds made available in this Act may be used by the Department of State as a contribution for the United Nations Human Rights Council.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007 the gentlewoman from Florida (Ms. ROS-LEHTINEN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Florida.

Ms. ROS-LEHTINEN. Mr. Chairman, I want to begin by thanking the gentlelady from New York, the chair of the subcommittee, Ms. LOWEY, and my dear friend from Virginia, Mr. WOLF, for agreeing to accept this amendment and for their support and their leadership on this and other human rights issues.

I also want to recognize my good friends, my esteemed colleagues who joined me in offering this amendment: Mr. ROHRABACHER, Mr. STEARNS, Mr. MCCAUL, and Judge POE.

This amendment makes clear that the United States will not spend millions of U.S. taxpayer dollars to support the travesty of the U.N. Human Rights Council, more appropriately named the Human Wrongs Council. It does not cut off U.S. contributions to the U.N. regular budget, but actually prohibits them from being used to support the Council in any way.

Two days ago the so-called U.N. Human Rights Council celebrated its first birthday by giving gifts to repressive dictators and Islamic radicals, by halting unfinished investigations into human rights conditions in Cuba and Belarus, and creating a permanent agenda item relating to Israel.

The actions against Israel took place as news reports documented the horrific actions by Hamas against innocent Palestinians, including those in Gaza clamoring to enter Israel. The Council has been fatally flawed from its inception in the year 2006, and has proven even more problematic than the already discredited U.N. Human Rights Commission that it was designated to replace.

□ 2030

Instead of becoming part of the solution, Mr. Chairman, the United Nations

Human Rights Council continues to perpetuate intolerance, serving as a forum for hateful attacks against Israel by some of the worst violators of human rights.

To cite just one of many examples, the Iranian representative to the Human Rights Council stated on December 12 of last year: ''There is an Israeli holocaust against Palestinian people here on a daily basis for more than 60 years, which was already noted by three special sessions.'' This is a human rights activist?

In contrast, the Council has failed to condemn the genocide in Darfur, has failed to condemn the sprawling gulag in North Korea, has failed to condemn the political and human rights daily abuses in China and the bloody repression in Burma and Zimbabwe.

Simply put, the U.N. Human Rights Council is a failure. We were right to refuse to dignify this poisonous talkshop with our membership, and we must refuse to support it with our tax dollars.

Mr. Chairman, I am pleased to yield the balance of my time to my colleague from Florida (Mr. STEARNS), who has taken for many years a leadership substance on this issue.

Mr. STEARNS. Mr. Chairman, let me thank my distinguished colleague for yielding.

And I think her comment about the ''human wrong commission'' is appropriate, and I think that is a very apt way to explain it. When you talk about all the work they did, and she mentioned Darfur, that the Human Rights Council of the U.N. was unable to even pass a simple resolution dealing with it, that is unbelievable.

But where did they spend most of their time? That is a good question we could ask. Do you know where they spent most of their time? Condemning Israel. The Council's sole country-specific resolution censured Israel and adopted a decision to discuss human rights violations committed by Israel in the Palestinian territories permanently and in all the Council's meetings. Every Council meeting would discuss Israel's alleged abuses against Palestinians, without mentioning Palestinian provocations or their aggression. It is just unbelievable. In fact, the Council adopted a resolution that strongly condemned Israel for ''violations of human rights and breaches of international humanitarian law in Lebanon.'' In Lebanon, without reference to provocations by Hezbollah. Talk about a ''human wrong commission.'' This is it.

So I am so gratified that this amendment has been accepted. I have a bill, H.R. 225, that outlines this amendment. I had an amendment last year on this subject in this appropriations process. We got 163 votes. But we lost. And I think a lot of people said, well, the U.N. is starting reforms in house. Let's give it a chance with its Human Rights Council. So we said, okay, we'll give it a chance. But, by all assessment it failed. In fact, the words of Peggy Hicks, the global advocacy director of Human Rights Watch, sums it up when she said: ''The new Human Rights Council must be more than the dysfunctional old commission by another name.''

So from that, to the comment of the Miami Herald when they wrote, ''Why should these wolves guard the hen house?''

I ask that we pass this amendment, and I thank my colleagues.

Take the so-called reforms to the membership of the council. The original proposal by the former Secretary General Annan (AH–NON) was to reduce membership to enable the council to be smaller and more agile in acting against human rights offenses. Indeed, the UN did reduce the number of members—from 53 down to 47. These 47 UN members are elected to three-year terms on the UNHRC. The new geographic quota system ensures a majority of membership slots for the world's least democratic regions. The African and Asian regional groups control a 55% majority—even more than they did on the former commission. Governments that routinely violate fundamental freedoms in their own countries shouldn't be setting the standards for anyone else.

Under the new council, a country can be suspended from council membership due to continuing human rights abuses only if two-thirds of the members of the General Assembly agree to do so. That is the only protection against human rights abusers being elected to the council. However, in practice this provision is useless. Less than half of the General Assembly agreed that Sudan is guilty of any human rights violations. If the General Assembly cannot agree on such a blatantly clear cut case of human rights abuse, how can we expect them to agree on suspending membership of countries that are human rights? The answer is, we can't. Known abusers like Russia, China, Azerbaijan, Cuba, and Algeria were all elected members this last session.

Finally, let us look at their actions. Under a General Assembly resolution, the Council has responsibility for ''promoting universal respect for the protection of all human rights and fundamental freedoms for all, without distinction of any kind and in a fair and equal manner'' and it must ''address situations of violations of human rights, including gross and systematic violations, and make recommendations thereon.'' There have been several opportunities for the Council to act with numerous cases of human rights abuses around the world. In Darfur, there are 2.5 million people displaced by the violence, 385,000 people in immediate risk of starvation, and over two million dead in the 22 years of violence. But the Human Rights Council was unable to pass a resolution on Darfur. Neither did it act regarding the lack of civil and political rights across China, the 13 million women in Saudi Arabia who live in fear of beatings if they go anywhere alone, or the dire human-rights conditions of 23 million people in North Korea. It also failed to address the Iranian President's incitement to genocide or the fact that his country's legal system includes crucifixion, stoning and amputation as viable punishments.

Ambassador Bolton stated at the creation of the new council, ''We want a butterfly. We're not going to put lipstick on a caterpillar and declare it a success.'' As a result, the Administration announced that it would not seek a seat on the council in 2006 but would continue financial support, and may seek membership in 2007 if the Council proves effective.

Mrs. LOWEY. Mr. Chairman, I rise in support of this amendment.

I agree with the intention of the amendment and thank my friend for raising this very important issue.

I want to reiterate my support for the United Nations. I strongly believe in the mission of the United Nations. That plays an indispensable role in the world today. In fact, it has often been said that if the United Nations did not already exist, we would surely need to invent it.

The U.N. plays an important role in maintaining international peace and security, promoting economic and social development, alleviating hunger, championing human rights, and supporting efforts to address humanitarian crises.

However, the U.N. is by no means perfect. It is often too slow to act in times of crisis, and too often the U.N. is a reflection of the lowest common denominator, rather than the best and the brightest.

A perfect example of the problems with the U.N. is the Human Rights Council. My friend and I agree that there are problems, and I want to assure my friend that as we move toward conference that we will ensure that none of the funds in the CIO account will go toward paying the costs of the United Nations Human Rights Council.

And, again, I thank my friend.

Mr. Chairman, I am very pleased to yield to my friend (Ms. BERKLEY).

Ms. BERKLEY. Mr. Chairman, I want to particularly thank our subcommittee chairman, NITA LOWEY. I think she has done a remarkable job throughout the day and during her entire service in the United States Congress.

And to my good friend ILEANA ROS-LEHTINEN, I want to thank her for her leadership on this issue.

Mr. Chairman, the time has come to put an end to the shenanigans at the United Nations. While murderous and dictatorial regimes in North Korea, Zimbabwe, and Sudan have starved and burned and raped and killed hundreds of thousands of their own countrymen, the United Nations Human Rights Council focuses its attention on the only democratic country in the Middle East: Israel. Israel, with a free press, a country with free elections, a vibrant economy, and an open society; a nation that has to defend itself from terrorists and terrorism, terrorists who would wipe it from the face of the Earth if

they had half a chance. Now that is a human rights issue worth looking into.

Mr. Chairman, the United Nations' Orwellian hypocrisy on human rights is so well known it has become a cliche. This body must take a stand against this mockery of a Human Rights Council. Let us cut off funding for this shameful and outrageous organization.

Ms. ROS-LEHTINEN. Mr. Chairman, I yield back the balance of my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentlewoman from Florida (Ms. ROS-LEHTINEN).

The amendment was agreed to.

AMENDMENT OFFERED BY MR. POE

Mr. POE. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. POE:

At the end of the bill, before the short title, insert the following new section:

SEC. ____. None of the funds made available in this Act may be used to provide an immigrant or nonimmigrant visa to a national or citizen of a country with which the United States maintains diplomatic relations and the central government of which has notified the Secretary of State of its refusal to extradite to the United States any individual indicted in the United States for killing a law enforcement officer, as specified in a United States extradition request.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Texas (Mr. POE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Texas.

Mr. POE. Mr. Chairman, as a former prosecutor and felony court judge in Texas, I tried a lot of cases where the victims of homicide were peace officers. Like any victim, these officers came from all ages and all races. The murder of a peace officer is one of the most serious crimes that can occur in any community.

Unlike other victims, Mr. Chairman, peace officers carry the daily burden of protecting their communities from crime, everything from petty theft to the most violent and vicious of crimes. Every day these defenders of our cities put their lives on the line. They have asked to be in harm's way, and then when one is killed in the line of duty, their loss is deeply felt by the entire community.

There are cases, however, when peace officers are killed and their killers happen to be immigrants from foreign countries, some legal immigrants, some illegal. And there are many cases where the home countries of these immigrants refuse to send them back to the United States to face their charges once they are requested to be extradited to the United States from their home country.

In 2002, a Los Angeles County sheriff was murdered by a Mexican citizen who was illegally in the country. However, the Mexican government refused for 5 years to extradite him to the United States to stand trial, and it only occurred this January when the charge was reduced.

The same occurred in Denver in 2005 when a police officer by the name of Donnie Young was murdered, and only after the charges were reduced was the killer extradited back to this country.

Killing police officers seems to also be a popular pastime for a few immigrants in Texas. In my hometown, a Houston police officer by the name of Rodney Johnson was shot four times and killed by an illegal immigrant in September of 2006. In fact, the last three law enforcement officers shot in Harris County, Texas, were shot by people who were illegally here in the United States.

Fortunately, each of these killers were captured before they fled to their home country, and they will have their day in court. But what about the ones that don't get caught and flee to some other country? This problem is only increasing in States that border Mexico, where travel across the border is easy; and now violent drug cartels rule the area and certainly have no qualms about shooting at American peace officer.

So this country should not be spending money toward admitting immigrants to the United States from any country that refuses to allow the United States to try police killers by harboring those killers in their country.

I ask my fellow Members of Congress to join me, along with the Fraternal Order of Police that has endorsed this amendment, to support limiting funds in this bill to be used for issuing visas to nationals or citizens of countries that have notified our State Department of their refusal to extradite to the United States an individual indicted for killing a peace officer in this country. We owe this to our peace officers and their families.

Mrs. LOWEY. Mr. Chairman, will the gentleman yield?

Mr. POE. I yield to the gentlewoman from New York.

Mrs. LOWEY. Mr. Chairman, I rise to express reservations regarding the gentleman's amendment.

I do share his deep concern over the refusal of certain countries to extradite to the United States any individual indicted in the United States for killing a law enforcement officer. I certainly do not condone the refusal of those governments to extradite those accused of murdering a law enforcement officer in order to allow the families of fallen law enforcement officers to see the person or persons involved face justice.

However, the remedy that the gentleman is proposing is not targeted at the central government but at all persons from those countries applying for a visa. I just have some reservations about punishing the people of a country because their government is doing something objectionable that goes against the way we would like to be seen in the world.

But I am prepared to accept the amendment and bring this matter to conference.

Mr. POE. Mr. Chairman, reclaiming my time, I understand the chairman's concerns about this amendment, but it will be an effort to, of course, get those people back in the United States who are charged with the specific crime of killing a peace officer.

Mr. Chairman, I yield back the balance of my time.

Mr. WOLF. Mr. Chairman, I move to strike the last word.

I know it has been accepted, but this is an important amendment. My father was a policeman for 20 years in the city of Philadelphia.

If a country isn't prepared to send somebody back, then we ought to do what the gentleman from Texas said. We ought to deny them the visa. And I will push for this when we get to conference. I think this is a good amendment.

We just can't go to all these meetings and say we love our police officers and we honor them and then all of a sudden we walk away from them. The gentleman is exactly right. Let's pass this. I appreciate its being accepted. But I think we ought to pass it because they think we are a patsy.

We also had a young man in my district who was run over and killed around Christmastime. And the guy left and went back to El Salvador, and that family hurts, are in pain every day, and they can't get this guy back. So I think if there is any deficiency in it, it probably ought to cover every felon but at least peace officers.

So it is a good amendment, and it has been accepted. But, frankly, I think we should have asked for a roll call vote to get every Member on record for it. But since it has been accepted, let's keep it in the bill.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Texas (Mr. POE).

The amendment was agreed to.

AMENDMENT OFFERED BY MR. BLUNT

Mr. BLUNT. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. BLUNT:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds made available in this Act may be used for the International Seabed Authority or the Enterprise of the International Seabed Authority.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday,

June, 20, 2007, the gentleman from Missouri (Mr. BLUNT) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Missouri.

Mr. BLUNT. Mr. Chairman, nearly 25 years ago, President Ronald Reagan was given the option of signing what was at that time a little-known international treaty promising to bring the world's countries together to seamlessly and equitably manage the vast expanses of ocean covering the Earth.

That accord, all 17 parts, 320 articles, and 9 annexes of it, was known the United Nations Convention on the Law of the Sea. It was presented to the President as a key national security imperative, an important economic opportunity, and a powerful message of cooperation and trust to send to our current and future friends around the globe.

Mr. Chairman, it didn't take President Reagan more than a few days to separate the rhetoric from the reality. He rightly interpreted the Law of the Sea Treaty, LOST, as a direct affront to American sovereignty and envisioned, presciently, as it turned out, that it might some day be used as a tool by foreign governments to exercise direct authority over American interests, activities, and industries.

□ 2045

President Reagan not only refused to sign the treaty, he fired the staffers that were responsible for negotiating it in the first place.

More than a generation later, there is talk in the U.S. Senate that they may dust off this stale treaty once again and bring it to a vote. Before it does, I believe this House has an obligation to take a close look at one element of this accord, which will impact the way American companies invest in new technology, it will impede their ability to produce new energy, and has long-range implications.

Mr. Chairman, the amendment I have at the desk tonight will ensure that none of the funds spent in the State and Foreign Operations budget are used to support what's called the International Seabed Authority. It's a semi-autonomous, unelected body of the United Nations with authority to directly levy taxes and fines against American operators with or without their approval. Worse still, it would have the power to force a direct transfer of minerals and technology rights from the American companies that develop them to any competitor it sees fit.

The Treaty's collision course with autonomous American Government is obvious, Mr. Chairman; the Seabed Authority is not only an obvious and very direct example of a U.N. effort to raise revenue without the input of the United States Government, but the Authority would also disincentivize private investment in offshore energy exploration which, in our current energy climate, is something this Congress should be working to avoid at all costs.

We need all the energy we can get, whenever and wherever we find it. Submitting ourselves to an unelected, unaccountable, international ocean bureaucracy when it comes to distributing what American companies rightly explore doesn't strike me as the thing to do 25 years ago or today.

Tonight, Mr. Chairman, I've come to the floor to ask my colleagues to consider the implications of ceding unprecedented authority to an agency of the U.N. without proper oversight, without legitimate safeguards, and without a whole lot of concern about the economic and security well-being of the United States.

I urge adoption of this amendment, Mr. Chairman.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. I rise to accept the amendment, and I thank you.

Mr. Chairman, I yield back the balance of my time.

Mr. BLUNT. I thank the gentlelady for accepting, and I yield back the balance of my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Missouri (Mr. BLUNT).

The amendment was agreed to.

AMENDMENT NO. 26 OFFERED BY MR. JORDAN OF OHIO

Mr. JORDAN of Ohio. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 26 offered by Mr. JORDAN of Ohio:

At the end of the bill (before the short title), insert the following:

SEC. ___. Appropriations made in this Act are hereby reduced in the amount of $2,956,000,000.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Ohio (Mr. JORDAN) and the gentlewoman from New York (Mrs. LOWEY) each will control 10 minutes.

The Chair recognizes the gentleman from Ohio.

Mr. JORDAN of Ohio. Thank you, Mr. Chairman.

Mr. Chairman, Members of the House, I don't pretend to know exactly how the billions of dollars in the Foreign Operations bill should be exactly split up and allocated, that's the work of the committee. And I appreciate the work of the Chair, the ranking member and those Members of the Congress who are part of that important committee.

What I do understand is this: Government spends too much money. In fact, if you would talk to the American people, go out and poll the American people, talk to the families across this country and ask the simple question, does government spend too little or does government spend too much, is government too small or is government too big, does government take too much of your money in taxes, my guess is the vast majority of Americans across this country would say government is too big, takes way too much of my money and spends way too much.

This amendment simply says this: We're not going to cut anything. We're just going to say it's appropriate for government to live on last year's level, just like all kinds of individuals, all kinds of families, all kinds of businesses across this country have to do.

Specifically it would do this: It would reduce the total appropriations in the bill by $2.9 billion, taking it right back, keeping it right where it is at last year's spending level, while providing discretion for the administration to avoid any reductions in funding for the State of Israel. In simple terms it says this: We understand that special bond that the United States has with the State of Israel, and we're going to protect that; but we also understand government spends too much money, and it's appropriate that we say enough is enough, we have to hold the line on spending.

And here's why it's critical: There is a financial crisis around the corner waiting for the United States, the people of this great country. Read Pete Peterson's book, ''Running on Empty,'' talking about the entitlement problems, what's happening with us, if we don't get spending under control, what it's going to mean to our economy in the future.

Read today's Washington Post, front page of the business section, the entitlement column has pictures of the six leading Presidential candidates, three from each party. It says, ''Stumping for Attention to Deficit Disorder.'' It talks about this very problem.

There is a financial crisis around the corner that we have to deal with. It's important we start now by simply saying let's hold the line.

Second big thing why this is so important. Spending inevitably leads to tax increases. Spend, spend, spend leads to tax, tax, tax. The American people are overtaxed, we don't want to tax them anymore. In fact, we need to lower taxes so we can compete in the international marketplace we're in right now.

We've got to deal with the financial situation that confronts us. We've got to hold taxes down. That's why it's important for us to start here and simply say we're going to hold the line on spending. Millions of families, millions of individuals, millions of businesses across this country are doing that very thing. It's not too much to ask the

United States Congress to do the same thing.

With that, Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I think this amendment is fiscally irresponsible, it will harm our national security, and I strongly oppose it.

Mr. Chairman, I reserve the balance of my time.

Mr. JORDAN of Ohio. Mr. Chairman, I yield 3 minutes to the minority whip, the gentleman from the great State of Missouri (Mr. BLUNT).

Mr. BLUNT. Mr. Chairman, I thank the gentleman for yielding.

This amendment is really another test of the Congress' commitment to fiscal discipline.

Today we're considering a State and Foreign Operations bill that is close to another record increase. I think it is below the President's number, but I've voted on a number of bills over the last several years that were below the President's number. And the fact is the President's number was too high, 9½ percent increase over last year's spending is too high. We can cut more than that, we can cut back to last year's spending, we can cut a percent, we can cut 2 percent, we can cut, go maybe even below last year's spending, but 9½ percent over last year's spending is too much money for this bill at this time.

Not very many American families saw an increase last year of 9½ percent. First, you have to figure out where these massive increases are going. Fourteen and 15 percent increases for the U.S. Agency for International Development, $203 million, or a 17.6 percent, increase for the United States contribution to various international organizations.

Second, you have to look at where this wasteful spending is going. We're funding things in this bill at increased levels like the International Copper Study Group in Lisbon, Portugal; the International Lead and Zinc Study Group at Lisbon, Portugal; the International Hydrographic Organization at Monte Carlo; the International Rubber Study Group in London, England; the International Tropical Timber Organization at Yokohama, Japan. A 9½ percent increase in a budget that American families will pay for, where not very many American families got a 9½ percent increase.

We're going to have some legitimate debates about increases on spending in this country. I think increases on spending in other countries at this level are unacceptable. This is an important debate to have, it's an important vote to have. I encourage the gentleman to continue to make these kinds of principled stands.

Mrs. LOWEY. Mr. Chairman, I am pleased to yield 2 minutes to the gentleman from Illinois (Mr. JACKSON).

Mr. JACKSON of Illinois. I thank the gentlelady for yielding.

Mr. Chairman, I rise in strong opposition to this amendment. I don't plan to use all of the 2 minutes.

This amendment jeopardizes greatly the national security of the United States. It devastates program increases in key diplomatic functions that the Secretary of State has requested, in particular in the State Department.

This bill is already $700 million below the President of the United States' request. And for the gentleman to offer an amendment to cut this bill $2.9 billion across the board has profound implications for the committee product.

I would encourage Members of Congress on both sides of the aisle to reject this amendment.

Mr. JORDAN of Ohio. Mr. Chairman, I yield 2 minutes to the gentleman from Texas (Mr. POE).

Mr. POE. I thank the gentleman for yielding.

Mr. Chairman, this bill increases funding in the Foreign Operations bill to foreign countries almost at 10 percent. And as already stated, most Americans did not get a 10 percent increase in their income last year, but yet we are going to spend money in foreign countries. And much of this money is waste, total waste that Americans should not be funding at all. It gives money also to nations that constantly and consistently vote against us in the United Nations.

It's important to note, however, none of this funding decrease will affect aid to our strongest ally to the Middle East, Israel; money that is well spent for the security of not only Israel, but the United States.

So, increasing funding in this Foreign Operations bill is not acceptable. All we're doing in the gentleman from Ohio's amendment is to put in it at last year's level, and that's a good idea.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word, and I yield to the gentleman from Massachusetts.

Mr. TIERNEY. Mr. Chairman, at this time I want to talk about an amendment that I would have offered but won't do so because I understand it's subject to a point of order.

Pakistan is scheduled to have crucial parliamentary elections in the fall of 2007 and the early winter of 2008. My amendment would withhold a portion of military aid to Pakistan unless those elections occurred and were free, fair and democratic.

Specifically, the amendment would have withheld $175 million out of a total of $250 million that's allocated under this bill for foreign military financing in Pakistan. These funds would be released when the Secretary of State determined, giving due consideration to the credible, independent judgment of reliable agencies that elections in Pakistan were free, fair and democratic. The amendment also asks that all steps of the election process, from voter registration on through vote tabulation, be reviewed in reaching any such judgment.

This amendment would send a powerful message to the people of Pakistan about the importance the United States places on the democratic process. Instead of just talking about the importance of democracy and saying that all peoples of the world should have these rights, the amendment quite literally would give Congress a chance to act consistently with its word.

Since the coup in which he rose to power 8 years ago, President Musharraf has taken some positive steps, but his record is, at best, mixed, especially recently. Today, President Musharraf is fighting the most serious challenge to his 8-year dictatorship. The United States is supporting him fully, and I guess that means that the message from the United States to the Pakistani public would seem clear: The Bush administration sees the war on terrorism as topping everything, even support for democracy.

On March 9, President Musharraf suspended Iftikhar Mohammed Chaudhry, the Chief Justice of the Supreme Court, who was apparently seen as threatening to President Musharraf's plans to consolidate his power. That triggered street protests demanding Musharraf's resignation, followed by a government-led crackdown on lawyers, the opposition political parties, and the media. Thousands of lawyers nationwide have led marches joined by women's groups, journalists and opposition politicians.

The roots of this crisis go back to a blind bargain that Washington made after 9/11 with a general and the army that had, up until then, been the main patrons of the Taliban. The administration ignored Musharraf's despotism in return for his promises to crack down on al Qaeda and the Taliban. Now, despite $10 billion in U.S. aid to Pakistan since 2001, that deal is shattered.

In December of 2005, the 9/11 Commission's Public Discourse Project issued a report card noting that Musharraf has made efforts to take on the threat of extremism, but has not shut down extremist-linked madrassas or terrorist camps.

Taliban forces still pass freely across the Pakistan-Afghani border and operate in Pakistani tribal areas. These border groups gained political legitimacy last year when President Musharraf signed a series of dubious peace deals with the Pakistan Taliban.

Extremist madrassas remain, and the extremism only becomes more pervasive and dangerous. Madrassa students are burning books, CDs and DVDs. Women in Islamabad have had acid doused in their faces for their failure to wear burkas, and have been harassed for driving cars.

The military has refused to put a brake on their extremism. As terrorism

author Ahmed Rashid said, Musharraf promised the international community that he would purge pro-Taliban elements from his security service and convinced the Bush administration that his philosophy of ''enlightened moderation'' was the only way to fend off Islamic extremism, but Pakistan today is still the center of global Islamic terrorism. Our own State Department concluded the same thing several weeks ago.

Mr. Rashid is correct in saying that instead of confronting this threat, the army has focused on keeping Musharraf in power. In trying to spook the West into continuing to support him, he exaggerates grossly the strength of the Islamic parties and warns that they might take over his nuclear-armed country.

□ 2100

Mr. Chairman, the fact is the United States would be far safer if we supported a truly representative Pakistan government that could marginalize the Jihadists rather than placing all of its eggs in a Musharraf basket. A better outcome for all would be that everybody participate in free and fair elections, and we should act in favor of democracy with those policies.

Mrs. LOWEY. Mr. Chairman, I thank the gentleman for his willingness to withdraw the amendment. I know we'll work together on these very important issues. The discussion certainly will continue between this Congress and the administration as we move forward. I thank the gentleman again for withdrawing.

Mr. JORDAN of Ohio. Mr. Chairman, I will just say I appreciate the gentleman's speech and his passion, even though it had nothing to do with the subject at hand.

Mr. Chairman, I would yield 2 minutes to the gentleman from Tennessee (Mr. DAVID DAVIS).

Mr. DAVID DAVIS of Tennessee. Mr. Chairman, I would like to thank my friend from Ohio for yielding.

It is interesting as I hear this debate, I am a new Member of Congress. I have been here 6 months now. I've heard speakers on the majority side talk about ''your amendment is irresponsible.'' I have a hard time understanding that.

Quite frankly, coming from Tennessee, holding the line on spending is not irresponsible. I heard another speaker talk about cuts. Well, actually there is no cut. What your amendment actually does is hold it at the levels of last year's spending. That is not a cut.

I have not gotten used to ''Washington speak'' yet, coming from the mountains in East Tennessee. In East Tennessee, a cut actually means you spend less money this year than you did last year. Your amendment says you're going to spend the same amount of money. We are talking about $34.2 billion. In East Tennessee, that is a lot of money. That goes a long way.

Actually, what we are looking at in this appropriation bill is a 9.5 percent increase in spending. When the rate of inflation is less than 3 percent, this is a growth in spending of almost three to four times the rate of inflation.

We have men and women all around America right now sitting at their kitchen tables trying to decide how they are going to balance their budgets. Why in the world are we in Congress trying to grow our budgets almost 10 percent when we have people across America that are trying to just balance their budget? Gas prices are high. They are worried about increases in taxes.

The least we can do, the very least we can do, is just hold the line on spending. That is not a cut. That is not how I learned about cuts back in East Tennessee.

I just hope that we will do everything we can to support your budget. I encourage support of your amendment. I encourage my colleagues to do so. Still, we are looking at, again, $34.2 billion. I think that is enough spending. We need to hold the line. Thank you for your amendment.

Mrs. LOWEY. Mr. Chairman, I reserve the balance of my time.

Mr. JORDAN of Ohio. Mr. Chairman, I yield the balance of my time to the gentleman from Georgia (Mr. GINGREY).

Mr. GINGREY. Mr. Chairman, I thank the gentleman from Ohio for yielding.

Mr. Chairman, I notice as I walk down the halls of the House office buildings these easels and these poster boards, I have been seeing those for last 3 or 4 years, talking about the national debt and what percentage of it is attributed to every man, woman and child in this country. I think that national debt is something like $8.77 trillion now. It is $29,000 for each man, woman and child.

Well, the Democrats have come with these 11 spending bills, Mr. Chairman, to increase that spending an additional $23 billion. If my math is correct, then that raises the amount of debt for every man, woman and child in this country from $29,000 to $30,000.

But wait just a second, Mr. Chairman. The way they are going to avert that is, you guessed it, raising taxes. They are going to put the largest tax increase in United States history on the backs of the American people. That is why the gentleman from Ohio has such a good amendment, to just simply say, let's go back to 2007 levels.

Our hardworking men and women in this country, many of them, if not most of them, during this past year probably got no raise. Their cost of living went up. It didn't go down. So they are in a negative situation.

Let's not make the matter worse by putting additional tax burden on the backs of the American people.

Mrs. LOWEY. Mr. Chairman, I want to remind the gentleman that this bill is $700 million below the President's request. We all understand that the Nation is at war. We have tremendous challenges. This bill provides important resources to address these challenges internationally. It is absolutely irresponsible, in my judgment. It is not in the national security interests of the United States of America. I strongly oppose this irresponsible amendment.

Mr. Chairman, I yield back my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Ohio (Mr. JORDAN).

The question was taken; and the Acting Chairman announced that the noes appeared to have it.

Mr. JORDAN. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Ohio will be postponed.

AMENDMENT OFFERED BY MR. PRICE OF GEORGIA

Mr. PRICE of Georgia. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. PRICE of Georgia.

At the end of the bill (before the short title), insert the following:

SEC. ____. Appropriations made in this Act are hereby reduced in the amount of $342,430,000.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Georgia (Mr. PRICE) and the gentlewoman from New York (Mrs. LOWEY) each will control 10 minutes.

The Chair recognizes the gentleman from Georgia.

Mr. PRICE of Georgia. Mr. Chairman, I appreciate the opportunity to offer this amendment. This amendment is what is affectionately referred to as the Hefley amendment. Former Congressman Hefley, who served in this body, offered an across-the-board decrease in spending in appropriations bills by 1 percent in an effort to try to bring about some fiscal responsibilities. I commend him at this time.

I also want to recognize Congresswoman BLACKBURN, Congressman HENSARLING, Congressman FEENEY and Congressman CAMPBELL for also offering similar amendments and commend them for their fiscal responsibility.

There has been a lot of talk about money, and properly so, during this appropriation season. It is important, Mr. Chairman, however, to remember where that money comes from. That money comes from hardworking American taxpayers. It is their money. It is not the government's money. It is their

money. It is easy here in Washington to lose sight of that fact.

□ 2115

But it is imperative that we remember with great responsibility and act with great reason as we move and spend the hard working American taxpayers' money.

The big picture in this bill is that last year in this area of the Federal budget we spent as a Nation $31.2 billion. That is with a B, Mr. Chairman, $31.2 billion. The proposal today is to spend $34.2 billion. That is an increase of 9.5 percent. This amendment would decrease that by 1 percent. By 1 percent. One penny out of every dollar savings for the American people. A savings of $342 million.

I would suggest, Mr. Chairman, that this is a small step, a symbolic step but is an important step, to let the American people know that, yes, we do believe that we respect the hard work that they do, and we also believe that it is important for Washington to get its fiscal house in order.

I encourage my colleagues to support this amendment. I am pleased to have the support of so many of my colleagues in this House on this amendment.

Mr. Chairman, I reserve the balance of my time.

Ms. LOWEY. Mr. Chairman, I rise in strong opposition to the gentleman's amendment. Now is exactly the wrong time to cut funding for foreign assistance programs. This is not the way to balance the budget. Instead of an overall cut, we should work to decrease instability worldwide and address the underlying problems that cause that instability.

The programs in this bill are pivotal to winning back the hearts and minds overseas. They address the most difficult problems in the world today, HIV/AIDS, famine, disease and disasters. The bill includes programs that work to address the root causes of global instability that require us to devote so many of our tax dollars to failed and failing states to ensure that we protect our Nation. It is these problems that have gotten us into the disastrous deficit that we are in and it is these problems that the programs in this bill will address.

This bill is a carefully crafted, bipartisan measure. It is currently $700 million below the President's request. We have already cut enough from these important foreign assistance programs, and this amendment would cut an additional $324 million.

Think about the most vulnerable and susceptible among us. This amendment would take $51 million from addressing global HIV/AIDS. Our goal is to turn the tide on this horrendous pandemic, not turn our backs. This bill currently has the funding to ramp up treatment, care and prevention activities. We can't turn around now.

I strongly oppose this irresponsible amendment. It is not consistent with our national security. I urge my colleagues to reject this amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. PRICE of Georgia. Mr. Chairman, I appreciate those comments. However, only in Washington by this majority party can a cut be an actual increase of $2.56 billion. Adopting this amendment would result in an increase of $2.56 billion. It is just a decrease in the slope of the increase.

Mr. Chairman, I am pleased to yield 2 minutes to my good friend from Texas (Mr. HENSARLING).

Mr. HENSARLING. I thank the gentleman from Georgia for yielding and I thank him for his leadership.

Again, how amazing. What an amazing place this is, when you are debating whether or not you are going to increase something called Foreign Operations 9.5 percent versus 8.5 percent growth, and somehow that is called a cut. Only in Washington, DC can you call an 8.5 percent increase a cut.

Now, the only thing that I see that is being cut is the family budget of hard working American families as our friends on the other side of the aisle want to enact the single largest tax increase in American history. The average family in America, when this tax increase plan is complete, will have to pay an extra $3,000 a year in taxes. Mr. Chairman, that is a cut.

Mr. Chairman, somehow I have heard that this amendment, the gentleman from Georgia is irresponsible for offering such an amendment. People who work hard for their paychecks in America would be lucky to have an 8.5 percent increase.

We are dealing with Foreign Operations here. Maybe we ought to be thinking about family budget operations. Already the Federal Government is spending $23,289 per American family. Our friends on the other side of the aisle now, as we are debating this appropriation bill, have a plan to spend an extra $23 billion in non-defense discretionary, on top of the $6 billion in the omnibus, on top of the $17 billion in the war supplemental, all to be paid for by the single largest tax increase in history. And it is irresponsible to only increase Foreign Operations 8.5 percent?

Let's protect the family budget from the Federal budget and support this amendment.

Mrs. LOWEY. Mr. Chairman, I am pleased to yield 2 minutes to the distinguished gentleman from New Jersey (Mr. ANDREWS).

Mr. ANDREWS. Mr. Chairman, I thank the gentlewoman for yielding. I rise in strong support of this bill and in opposition to this amendment.

Mr. Chairman, it is very important the record be clear about this endless rhetoric about tax increases. Here are the facts: The budget resolution that was adopted by the House does not raise taxes in this fiscal year or the next on anyone.

When the tax cuts that the erstwhile majority enacted expire at the end of 2009, our budget resolution calls for us to look at the state of the economy, the state of the budget and the state of the situation, and, unlike the erstwhile majority, make a choice as to what to do. There is no tax increase in this fiscal year or the next one.

What there is in this amendment is a strange sense of irresponsibility, that in a world where we are threatened by all kinds of threats and difficult problems, in a budget that is going to spend less than 1.5 percent out of every dollar we spend in improving our relations with countries around the world, that we have an irresponsible proposal like this.

There is no tax increase this year. This amendment should be defeated.

Mr. PRICE of Georgia. Mr. Chairman, I am pleased to yield 2 minutes to my good friend from New Jersey (Mr. GARRETT).

Mr. GARRETT of New Jersey. Mr. Chairman, I thank the gentleman.

Mr. Chairman, here we are tonight, 6 months under control of the Democrat majority, and what has that majority wrought? The largest tax increase in U.S. history, an attempt in the past to change the rules of the House that have been in place since the times of Jefferson. And, of course, last week we saw the creation or attempted creation of slush funds to conceal where they wish to spend their increase of dollars.

The gentleman from New Jersey who just spoke a moment ago said, quite candidly, that there is no tax increase this year or next year. What he didn't finish in his statement, of course, was, Mr. Chairman, that there will be a tax increase within the budget cycle that is before us.

And these are not just my words, Mr. Chairman. I quote from the New York Times, who has looked at the budget that the Democrats have given us, and they have looked at that budget increase and the spending increase, and they too have said and agree with us that there is a tax increase coming on the American public and they even gave us numbers. If you are an average family in the State of New Jersey, a family of four making $70,000, you will see a tax increase of upwards to $1,500 on you because of the budget of Democrats who are now in charge.

In the bill before us, I come to the floor right now to commend the gentleman for his modest proposal to simply reduce the increase by the Democrats of 1 percent, a mere, in terms of Washington, $342 million.

Mr. Chairman, we are still looking at an increase in spending for foreign aid of almost 10 percent, around an 8.5 percent increase for foreign aid. Quite

honestly, when I go back to my districts and talk to my constituents, their interest is in their families here at home, in Sussex County, Bergen County, Passaic County and Warren County in the good State of New Jersey. They are asking, why are we increasing to such a dramatic extent for all this money on foreign aid when we have problems right here at home?

Mr. Chairman, how many times have you heard from the other side of the aisle when they rail against spending for our brave men and women overseas on our military aid, when they say we should be spending those dollars here at home? We concur when it comes to foreign aid, we should direct those funds here at home.

I support the gentleman's amendment.

Mrs. LOWEY. Mr. Chairman, I yield to the gentleman from Illinois (Mr. JACKSON) to shed some light on the misinformation that we have been hearing this evening about tax increases.

It seems to me, Mr. JACKSON, that we have this huge deficit that has been brought about by the Republican majority in the past 10 years, at least. Would you like to comment on it for 3 minutes?

Mr. JACKSON of Illinois. I thank the gentlelady for yielding.

While talking about how we arrived at this deficit for new Members who are joining the body can be long and drawn out, but the number of tax decreases that we have voted on in this Congress under their leadership which greatly contributed to the enormous deficit that we presently confront, it would require several hours of discussion and probably pull some scabs off of some wounds that aren't worthy of discussion.

I do want to talk about the implications, however, of this particular cut on this bill.

This bill is already $700 million beneath the President's request. The last I checked, the President of the United States is not from the majority party. The President of the United States is from the minority party. He is already suggesting that the bill itself is beneath the funding levels that he is requesting for the national security of the United States.

But don't believe me. Believe the ranking member of the committee, Mr. WOLF, who said last night that he believes this is a good bill, that this bill has the potential to do a lot of good.

I quote him: ''And I want to say that this bill will help save a lot of lives, not only here but around the world. This is the work of the Lord. And I know Members are going to come down here, and here they come, and they are going to be against this bill. And I hope that we can change some of the things to prevent a veto. But this bill eventually, when it passes,'' as the ranking member said, ''assuming it will be vetoed, is really about feeding the poor, about the hungry, the naked and the sick. Almost a better title would be the Matthew 25 bill. So it is has the potential to do a lot of good, and I hope to work with Chairwoman LOWEY to ensure that the State Department has what it needs to do these things, the war on terror, to provide humanitarian assistance to the most needy, and to improve human rights around the world.''

And the gentleman offers a cut to the ranking member's acknowledgment of how important this product is.

So, Mr. Chairman, if this is the Matthew 25 bill, according to Matthew 25, which I repeated earlier, and these gentleman who obviously have come down here at the 11th hour to message on this bill, they missed this part of the statement when I read it earlier, but I will be happy to read it again:

Then the king will say to those on the right: ''Come you who are blessed by my father. Take your inheritance, the kingdom prepared for you since the creation of the world. For I was hungry and you gave me something to eat. I was thirsty and you gave me something to drink. I was a stranger and you invited me in. I needed clothes and you clothed me. I was sick and you looked after me. I was in prison and you came to visit me.''

Then the righteous will answer him: ''Lord, when did we see you hungry and feed you? Or thirsty and give you something to drink? When did we see you a stranger and invite you in? Or needing clothes to clothe you? When did we see you sick or in prison go to visit you?''

The king will reply: ''I tell you, whatever you have done for the least of these, my brethren, you have done it unto me.''

Reject the gentleman's amendment. The gentleman's amendment goes to the heart of this bill, which is designed to feed the hungry, clothe the naked and liberate the captive.

Mr. OBEY. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I had not wanted to take any more time this evening, but I was in my office and I heard several silly suggestions that somehow bills like this are going to seriously add to the deficit and require a tax increase and all of that other frothy nonsense.

I would simply like to quote from a document by the Center on Budget and Policy Priorities, one of the most respected organizations in this country in terms of keeping everybody honest about budget facts. This is what they said in a report issued today:

''The main dispute between the administration and Congress is over a $21 billion difference in domestic appropriations. The administration proposes to cut these programs $16 billion below the 2000 levels after adjusting for inflation and threatens to veto bills that do not contain these cuts. Congress would reject these cuts and instead provide a modest increase to these programs of $5 billion or 1.4 percent.''

The report then goes on to say the following: ''Some 81 percent of the increases in appropriations under the emerging bills consist of increases for military and homeland security programs that the President himself requested. Less than one-tenth, or $5 billion of the funding increases reflected in the congressional targets for the 2008 appropriation bills, are for increases for eight domestic appropriations bills.''

Then it goes on to say, ''Under the planned appropriations, those bills would increase a modest 1.4 percent above the Congressional Budget Office baseline.''

Then, get this: ''In real per capita terms, that is, after adjustment for both inflation and population growth, funding for these programs would barely increase at all.''

And as for the nonsense that somehow these bills will require a tax increase or add to the deficit, the report goes on to say, ''As a share of the economy, funding for these programs would actually edge down slightly.'' Then it points out also that the increases in these bills rise more slowly than the expected increase in revenues.

What that means, for anybody who has been through second-grade math, is that you cannot add to the deficit, if that is the case, unless you decide to pass further tax cuts paid for with borrowed money, as the former majority so blithely did over the past 5 years.

I would also say one other thing. It is easy for any citizen and any Member to demagogue foreign aid. I chaired that subcommittee for 10 years. And let me tell you, there is no piece of legislation that this Congress passes each year that saves the lives of more children than this bill. If you take a look at what we do for children's health, if you take a look at what we do through immunizations and these other programs, there is no program that we pass that saves the lives of more children.

We spent a lot of time talking about the right to life today. Well, this bill is a whole lot more effective than lectures from politicians about celibacy or any other matter. This bill actually delivers the goods in terms of the practical things we can do to help our fellow creatures on this planet.

I want to say one other thing. My religious values teach me that we are not Americans because of any special merit that we have. We were just lucky enough that God decided to infuse our soul in a body born in the USA. He could just as easily have made us a child born in Bangladesh, Sudan, or any of the other most troublesome spots in the world, the most agonized spots in the world.

□ 2130

Any idiot can put together an across-the-board cut. All that means is that you don't think. This is supposed to be not the mandatory part of the budget, but the discretionary part of the budget. It means you are supposed to think and apply your values to what you do. That is what this bill does, and I urge you to reject these amendments.

PARLIAMENTARY INQUIRY

Mr. PRICE of Georgia. Mr. Chairman, I would just ask a parliamentary inquiry of the Chair, if the Chair might opine as to words that might offend and be inappropriate to the decorum of the House being spoken, and the Chair might want to admonish individuals to refrain from making those kind of statements.

The Acting CHAIRMAN. The Chair would remind all Members to refrain from any disparaging remarks of a personal character against another Member.

Mr. PRICE of Georgia. And I thank the Chair for that.

Mr. OBEY. Would the gentleman yield?

Mr. PRICE of Georgia. I think you are able to get time on your side. I don't believe I have time to spare.

The Acting CHAIRMAN. The gentleman from Georgia controls the time.

Mr. PRICE of Georgia. Mr. Chairman, I yield myself such time as I may consume.

I do appreciate the chairman's passion and also appreciate his reference to ''frothy nonsense.'' I would suggest that frothy nonsense in my district and across this Nation comes due in the form of a tax bill when we increase spending across this Nation and that my constituents, and I suspect constituents around this Nation, would prefer that we decrease the frothy nonsense going on here in Washington.

I yield 2 minutes to the gentlewoman from Tennessee (Mrs. BLACKBURN).

Mrs. BLACKBURN. Mr. Chairman, this is quite a debate that we are having tonight, and I appreciate the vigor and the energy that colleagues on both sides are bringing to this debate.

Mr. Chairman, I do have to stand and really oppose some of the things that are being said here. How interesting it is that we are hearing spending reductions called irresponsible, that we are hearing that it is jeopardizing our foreign operations, that it is devastating.

You know, what we may want to do is reframe this debate. I want to commend the gentleman from Georgia for trying to make a 1 percent reduction.

Now we heard this referred to as the Matthew 25 bill. Maybe we should make it the Genesis 1:1 bill and go back and look at the beginning and talk about how did we get where we are today.

They want to talk about deficits. Well, it is historically what my colleagues on the left have done to grow a huge bureaucracy that continues to need to be fed and programs that grow and grow and grow.

Now one of the things that we have heard is that we are going to have to fix this now. My colleagues only want to talk about today, yesterday or the day before. They don't want to go back and talk about previous administrations where we have piled on, we have piled on, we have piled on, and now we want to grow this budget 9½ percent. We want to pay for it with the largest tax increase in history.

I would offer to my friends that, yes, indeed, let's go back and make it a Genesis 1:1 bill and look at the very beginning. You tax too much; you spend too much. And it is right that we would choose to find a 1 percent reduction. What we are irresponsible to is the American taxpayer who is sick and tired. They are truly ill and fatigued when it comes to paying more and more of their budget.

Mrs. LOWEY. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from New York (Mr. ISRAEL).

Mr. ISRAEL. Mr. Chairman, I thank the chairwoman.

I just cannot let this go. Pile on and pile on and pile on? Let me tell you what has been piled on, $3 trillion in debt, piled on by the other side.

Growing government? The other side was in charge for the past many years. Their party ran the White House, the Senate and the House of Representatives; and they piled on $3 trillion of debt.

And now we hear the unmitigated audacity of suggesting that we are the problem. Mr. Chairman, we are not the problem. We are trying to solve the problem.

And I would say with all due respect to the gentlewoman and to those on the other side who believe that this foreign operations bill is too expensive, is the gentlewoman advocating cutting by 1 percent foreign military financing or international military education and training? Is the gentlewoman suggesting to her constituents that we should slash budgets to professionalize other militaries to assist us in the global war on terror, to make sure that they have the technology and the equipment to help win the global war on terror?

Because if you are suggesting a 1 percent cut or 2 percent cut or 3 percent cut in this bill, you are suggesting a cut in our national security. You are suggesting reducing the amount of military assistance, education, and foreign military sales that we are providing to our allies around the world.

Mr. Chairman, they are costing their own congressional districts jobs, defense contractors who are part of this Nation's defense. We will lose revenues because of these cuts to foreign military financing.

This is not just a foreign operations bill. This is a national security bill. It is a homeland security bill. They go hand in hand, and we should not be advocating slicing off one of those hands while we are fighting a global war on terror surrounded by threats.

We Democrats believe that we need a robust ability to meet that threat, not cut defense budgets as the other side is suggesting.

Mr. WOLF. Mr. Chairman, I move to strike the requisite number of words.

The Acting CHAIRMAN. The gentleman from Virginia is recognized for 5 minutes.

Mr. WOLF. I yield to the gentlewoman from Tennessee (Mrs. BLACKBURN) to finish her speech.

Mrs. BLACKBURN. Mr. Chairman, I thank the gentleman from Virginia.

Mr. Chairman, as I said, what an incredibly wonderful debate we are having. It is a philosophical debate. Government is not the answer. Government many times is the problem. More spending is not the answer. It is priorities and where you choose to put that money. That is where you find your answers in this.

Now one of the things that we are saying is make a reduction. My goodness, look at the States. Many of our States have made across-the-board reductions. You know what? Across-the-board reductions work.

My State of Tennessee, oh, my goodness, we were going to have to have an income tax. Oh, my goodness, they were going to shut down every program in the State, had to have it, had to raise taxes. You know what? We defeated that income tax, Mr. Chairman. The people of our State said, no, we have had it. We are not putting another penny into the State treasury.

Now what we see is a, believe it or not, Democrat Governor who came in and took what we Republicans had said and made across-the-board cuts. Not 1 percent. Not 2. Not 5 percent. 9½ percent. 9½ percent. And I would encourage my colleagues to know that greater efficiencies were there, that they now have record surpluses.

One of the things that we have to realize, the American taxpayer is tired of sending money to Washington and see it go into a bureaucracy and know that they are not seeing the results that they get.

Mr. Chairman, maybe it is because I have the old Davy Crockett district. I know that what you have to do is be very careful with the money that you have to spend. You have to make priorities.

And yes, indeed, national security is a priority. We know that. We know that border security is a priority. We know that. But what we have to realize is we have to be a good steward of the taxpayer dollar.

Maybe it is time for the bureaucracy to start to tighten its belt. Maybe it is time for the bureaucracy to realize it cannot grow. Maybe it is time for the

bureaucracy to realize we need to be responsible to the taxpayer and reduce what we are spending at the Federal level. They are tired of paying for the largest tax increase in history. They know that government spends too much. They know that this budget is bigger than it ought to be, and they don't like it, and we are hearing about it.

What my colleagues and I are saying is, you know what, let's find some ways to make some reductions. Let's make certain that we are good stewards of every dollar that comes our way.

Mrs. LOWEY. Mr. Chairman, I yield back the balance of my time.

Mr. PRICE of Georgia. Mr. Chairman, how much time remains?

The Acting CHAIRMAN. The gentleman from Georgia has 1 minute remaining.

Mr. PRICE of Georgia. Mr. Chairman, I yield that minute to my good friend from Georgia (Mr. WESTMORELAND).

Mr. WESTMORELAND. Mr. Chairman, I want to thank the learned orthopedic surgeon from Georgia for yielding me this time.

I want to say something to the chairman of the Appropriations Committee. When he was talking about an idiot can offer a 1 percent cut amendment, I certainly hope he wasn't talking about my good friend from Georgia.

Now if you want to talk about fuzzy math and idiots, we can do that here tonight. Because this bill increases the spending 9½ percent. What the learned surgeon's amendment does is cut that by 1 percent.

Now you can say this isn't going to cause a tax increase, you can say it is not going to cost people more money, you can say anything you want to, but the people of this country are smarter than that because they know every day that if they spend more money it is going to cost somebody at some point.

So they can say anything they want to. They can talk about all of the fuzzy math, whether it is going to be a tax increase or not a tax increase. But when you spend 10 percent more money, somebody is going to pay for it.

Mr. WOLF. Mr. Chairman, I move to strike the requisite number of words.

The Acting CHAIRMAN. The gentleman from Virginia (Mr. WOLF) has already exercised the prerogative of striking the requisite number of words and was recognized for 5 minutes in that regard.

Mr. PRICE of Georgia. Mr. Chairman, I ask unanimous consent that each side be granted an additional minute.

The Acting CHAIRMAN. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. PRICE of Georgia. Mr. Chairman, I yield 1 minute to the gentleman from Ohio (Mr. BOEHNER).

Mr. BOEHNER. Mr. Chairman, let me thank my colleague for yielding.

We are having a debate here about whether we should cut spending. Most American families go through a process of trying to decide what it is they can afford in their family budget. The American people send us here to make the same kind of decisions. But when we just add spending and add spending and add spending, which we have done all year, guess what, we don't have to make decisions.

That is exactly what is happening here. The majority wants to denigrate this amendment because they think it is frivolous. They think it is an across-the-board 1 percent cut; you don't have to think.

The point I am trying to make and my colleagues are trying to make, we are sent here to make decisions; and if the majority isn't going to make decisions, we are going to try to make the decisions easier. Let's just have a 1 percent across-the-board cut, bring this budget in line with what the President requested on behalf of the American people.

I have been hearing all year from my friends on the other side that we heard the electorate and we heard the message they sent to us. Well, I have to tell you that one of the messages they sent to us is that we here in Congress need to be more fiscally responsible.

We are going to have a debate over spending all summer. We are going to have a debate over spending all fall. Because, at some point, how much government do we need? How much of the American family budget to we need to take in taxes?

I think my colleague has a very good amendment here. I urge my colleagues to support the gentleman's amendment.

Mrs. LOWEY. Mr. Chairman, I am pleased to yield 1 minute to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Mr. Chairman, talk about crocodile tears. This bill is $700 million below the amount requested by the President of the United States. The other side cries about the fact that it is $2.9 billion over last year, and they say this is the baby that is going to break the bank.

This is the same crowd that has supported over $600 billion, all borrowed money, to pay for the most misguided, misbegotten, destructive war in the modern history of the United States, all paid for with borrowed money.

□ 2145

I didn't hear any cries about fiscal responsibility then. No, no, no. They spent it blindly, and now they are saying that this bill, which is really an attempt to clean up a lot of the world's messes left over from past wars, that somehow this bill is the one that broke the bank. That is so silly, I would laugh if it wasn't so serious.

Mrs. LOWEY. Mr. Chairman, I move to strike the requisite number of words.

The Acting CHAIRMAN. The gentlewoman is recognized for 5 minutes.

Mrs. LOWEY. I am pleased to yield to the majority leader.

Mr. HOYER. I thank the gentlelady for yielding and I congratulate her for the work she has done.

First of all, this bill is $700 million below what the Republican President asked us to spend. All of this stuff about how we're the big spenders, when this bill is $700 million less than President Bush asked us to spend. Number one.

I have been in this House for 26 years. Eighteen of those years we have had Republican Presidents. During those 18 years, we have run up $4.5 trillion of deficit spending. One person in America can stop spending: a President. During those 26 years, a veto of a President that was vetoed because we spent too much money has never been overridden. Not once. $4.5 trillion of deficit spending under Ronald Reagan, George Bush I, and 6 years of George Bush II.

Now, Bill Clinton was President for 8 years during those 26 years that I have served. And we ended up with a $62.5 billion surplus in those 8 years. And perhaps if you come to this floor and say it enough, the big lie said over and over and over and over again, just like Frank Luntz wrote it for you, maybe the American public will believe it. Isn't it a shame, however, that Frank Luntz can't fix the figures in your budget document.

You have been in control, of course, for the last 6 years of everything. And guess what happened? We doubled the rate of spending from the Clinton administration to the last 6 years. Doubled it. And we, I can't know what the geometric figure is in terms of escalating the debt and going from a $5.6 trillion surplus which George Bush, President of the United States, said Bill Clinton left him, and you turned that into a $3 trillion deficit in 72 months. I daresay nobody in the history of the world has done that. Nobody in the history of the world has been that fiscally irresponsible. And for the large part you did it without a single Democratic vote. And you didn't need us to vote, because you were in control of everything.

And I sit there and listen to this, and I won't characterize it as my chairman characterized it, although I can't say that I come here and disagree with my chairman, but I won't characterize it. But honesty at some point in time has a virtue. You ought to try it. Just for a little bit.

POINT OF ORDER

Mr. PRICE of Georgia. Mr. Chairman, point of order.

The Acting CHAIRMAN. For what purpose does the gentleman from Georgia rise?

Mr. PRICE of Georgia. Are comments not supposed to be addressed to the Chair?

The Acting CHAIRMAN. Members are reminded that their remarks shall be addressed to the Chair.

The gentleman from Maryland is recognized.

Mr. HOYER. My remarks are always addressed to the Chair, in case you need interpretation. Just assume that I am addressing the Chair.

Now, if any of my friends when they hear about me talking about irresponsibility would take that personally, understand that it is meant simply to be addressed to the Chair.

But if the shoe fits, put it on.

My friends, you have been a part for the last 6 years of the most fiscally irresponsible leadership in our history. The facts speak to that. Your budget book speaks to that. And what did you do, this family budget leadership group that we hear talking about? They jettisoned, they abandoned, they eliminated PAYGO provision which, by the way, was adopted in a bipartisan fashion in 1997 after we adopted it in 1990 in a bipartisan fashion. But you said, no, we can't live within PAYGO. That's too tight for us. Families might have to live in that, but we can't live in it.

So what did you do? You simply eliminated PAYGO. Well, we've reinstituted PAYGO, and our budget reaches balance. And we don't raise taxes. You like to say we raise taxes because, after all, Frank Luntz told you, Just say they're raising taxes. Doesn't matter whether it's true. The American public will believe it.

Ladies and gentlemen, this debate is designed to mislead the American public, because they don't read the budgets and the fine print. They perhaps do not remember that in 18 years, Republicans ran up $4.5 trillion of deficit spending while under Bill Clinton's administration we created a $62.5 billion net surplus with 4 years of surplus, the first time that has happened in the lifetime of anybody in this Chamber.

So I say to my friends that we can debate the substance of this bill, which is $700 million less than your President asked us to spend. The gentlewoman from New York has brought a responsible bill to this floor. The problem with these across-the-board cuts and what Mr. OBEY really meant, Mr. Chairman, is that it is simple to say cut across the board, because you don't have to make any decisions. You don't have to defend any premise. You just have to say cut 1 percent. And as was pointed out earlier by Mr. ISRAEL, does that mean 1 percent in defense spending? Does that mean 1 percent in military financing? Where they purchase, by the way, weapons from the United States of America. Does it mean a 1 percent cut in salaries or administration of critical programs that might be small programs? You don't have to decide. It's so simple. One percent. Won't hurt anybody. Fine. Then say where you want to cut.

I was an appropriator for 25 years and I don't like the across-the-board cuts because they are simplistic, imprecise, and cut the good with the bad. May there be bad in this bill? There may be. Offer an amendment to cut the bad and let's debate that, whether it's good or bad.

So, my friends, don't talk to me about fiscal responsibility. I've been here too long and I know too many of the facts. You cannot fool me. You can fool some of the people some of the time. You didn't fool them last November. And I don't think you're going to fool them in the future.

This is a responsible bill. If you don't like some portions of it, we've had 50-plus amendments for you to strike certain portions of it. But don't come to the floor and pontificate on fiscal responsibility. And, by the way, my friend, the government today is larger than the government when you inherited it.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Georgia (Mr. PRICE).

The question was taken; and the Acting Chairman announced that the noes appeared to have it.

Mr. PRICE of Georgia. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Georgia will be postponed.

AMENDMENT OFFERED BY MRS. MUSGRAVE

Mrs. MUSGRAVE. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mrs. MUSGRAVE:

At the end of the bill (before the short title), insert the following new section:

ACROSS-THE-BOARD REDUCTION

SEC. ____. Each amount appropriated or otherwise made available by this Act (other than for assistance for Israel) that is not required to be appropriated or otherwise made available by a provision of law is hereby reduced by 0.5 percent.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentlewoman from Colorado (Mrs. MUSGRAVE) and the gentlewoman from New York (Mrs. LOWEY) each will control 10 minutes.

The Chair recognizes the gentlewoman from Colorado.

Mrs. MUSGRAVE. Mr. Chairman, this debate has gotten very interesting. There are some of us in the Chamber, Mr. Chairman, that have been concerned about fiscal discipline for a long time. We have been called things like budget hawks. Mr. Chairman, we were willing to take on our own party on that issue and we were also willing to take on our colleagues on the other side of the aisle, because, Mr. Chairman, when I think about this debate tonight and I think about the national debt being over $8.8 trillion, you know, I would have to think that there are people around this Nation tonight watching this debate and wondering why in the world Congress, and there have been many mistakes in the past, why Congress can't get serious about the way we spend taxpayers' dollars.

My amendment would offer an across-the-board cut. And I know that has been criticized by my friends on the other side of the aisle, but, you know, sometimes an across-the-board cut makes a lot of sense. And I am interested to think about spending levels where we cannot cut 50 cents out of each $100 that we spend.

I offered an amendment that was not accepted in the unanimous consent agreement that would have highlighted one of the more egregious forms of waste and abuse of the funding in this bill, and this was an article in the Boston Globe that I read, and they broke a story last February about the former executive director of the Global Fund and how he used Global Fund dollars. I want to tell you what the Global Fund is supposed to do. It's an organization that is supposed to combat global diseases like AIDS and malaria and tuberculosis.

Let me tell you how he spent our American tax dollars. He spent between $91 and $930 a day for limousines in London and Paris and Washington and San Francisco, averaging almost $400 a day for limousines. He spent $1,695 for a dinner for 12 at the United States Senate Dining Room here at the Capitol. Then he spent $8,780 for a boat cruise on Lake Geneva in Switzerland; $8,436 for a dinner in Davos, Switzerland; and then they had champagne and expensive meals. I wonder if the American taxpayer thinks that this is frivolous nonsense. You know they do. They would be outraged to think that they get up, go to work every day, work for their children, work to pay for their home, work to buy the college education for those kids that they dream of, and people are spending their tax dollars like this.

You know, I think an across-the-board cut sounds great. I would like a larger one, but I'm asking for a modest half of 1 percent, 50 cents out of $100. You know, when you look at your children and you look at your grandchildren, Mr. Chairman, and you think about that debt, and I don't care who you want to blame it on, Republicans, Democrats, Republican Presidents, Democrat President, we at this time in history have an opportunity to be responsible with the American taxpayers' dollars and cut this increase in this budget from 9.5 percent to 9.

I ask my colleagues to support this amendment.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, we have expressed our real concerns about these cuts and I strongly oppose this amendment.

In addition to the cuts that have been mentioned by my colleagues, I wonder if my colleagues on the other side of the aisle, the gentlewoman from Colorado in particular, really understands the impact of this across-the-board cut.

First of all, this bill has already been cut 2 percent from the President's request. Two percent. Now you are recommending another half percent.

You support a $120 million cut for Israel, Mrs. MUSGRAVE? You support a $120 million cut in aid for our ally Israel? You support a $250 million cut for HIV/AIDS?

□ 2200

You support $200 million for foreign military financing; and my colleague, Mr. ISRAEL, talked about the impact on the military that these cuts would cause.

My colleagues, this is a bill that is in the national security interest of the United States of America. We have heard many people on the other side of the aisle that we have to fight it over there. We don't want to fight it over here.

Well, when you are funding HIV/AIDS, when you are preventing avian flu, when you are funding our colleagues in the war on terror, we are fighting it over there rather than fighting it over here.

I strongly, strongly, would not support the cuts which you are recommending. I strongly oppose them.

Mr. Chairman, I reserve the balance of my time.

Mrs. MUSGRAVE. Mr. Chairman, I would like to correct a statement I made. I referred to a cut.

My amendment would take a 9.5 percent increase in funding in this bill over the last one to a 9 percent increase.

Mr. Chairman, I yield 1½ minutes to the gentleman from Indiana.

Mr. PENCE. Mr. Chairman, I thank the gentlelady for yielding and for bringing this creative amendment to the floor.

While I address the Chair, let me also acknowledge there may be others looking in. I want to be very clear on the point that what we are asking here is for this foreign operations budget to get by on only a 9 percent increase instead of a 9.5 percent increase.

Back in Indiana, we just call this a haircut. But it is a haircut, as the gentlelady from Colorado said, that is a reduction of the increase.

As I listened to the distinguished majority leader, who I enjoy and admire more than anyone else in this Chamber, he said if the shoe fits, wear it.

I understand the frustration of looking across the aisle and seeing many of my colleagues in my party who voted for an awful lot of government programs over the last 6 years complaining about government spending, but then there is another saying that says if it does not fit, you must acquit.

I would offer that for many of us asking for this very small haircut tonight, it does not fit us. We fought these budget increases. We fought the creation of new entitlements. Now we are coming before this majority in a spirit of collegiality and asking might we not do with $171 million less. Might we not do with just, instead of a 9.5 percent increase, how about a 9 percent increase.

Mrs. MUSGRAVE. Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, may I ask you the time remaining on both sides?

The CHAIRMAN. The gentlewoman from New York has 8 minutes remaining; the gentlewoman from Colorado has 5 minutes remaining.

Mrs. LOWEY. I yield 2½ minutes to the gentleman from Illinois (Mr. EMANUEL).

Mr. EMANUEL. I would like to thank my colleague from New York and also my colleague from Indiana.

Mr. Chairman, you know, it's interesting to have that discussion about what is a haircut. At this very time this would lead, if I am not mistaken, this actual amendment would lead to about a $150 million cut to assistance in Israel. At no time is there a more precarious moment in Israel's history since the founding of the State of Israel, since you have now a war in Lebanon that is affecting the security of the State of Israel. You have the Gaza strip, which has been turned over to Hamas, an enemy of the United States. There is no time that is a more precarious moment in Israel's security.

You have what's going on in Lebanon on its northern side. You have what's going on in Iraq, Jordan, dealing with over 1 million Iraqi refugees; Gaza being taken over by Hamas, which is committed to Israel's destruction.

And what do our Republican colleagues recommend? A cut in assistance to the only democracy in the Middle East that is facing its most serious threat on its northern border, its southern border and, in fact, what's going on to its near eastern border. This is a precarious moment in Israel security.

I do believe there can be cuts. I find every time we want to cut assistance to big oil companies, you guys can't find the will. But when it comes to cutting assistance to Israel, you find the will to do that. When it comes to cutting assistance, when it realizes with our military commitment to our allies around the world, you know what, since everybody wants to make a quote, talk is cheap. Talk is cheap when it comes to standing next to your allies. We must put our resources to the only democracy in the Middle East.

This would directly affect Israel. It would directly affect Egypt. It would directly affect the countries we rely on as the bulwark against the spread of terrorism in the Middle East.

I would hope you understand. I see the politics. I know a little bit about politics. I see the politics in a simple half-percent cut. It happens to be politics at the expense of our allies who are on the front line in the fight against terrorism.

I would think better of you, of what you have always said rhetorically on the floor about your commitment to democracies in the Mideast.

Mrs. MUSGRAVE. Mr. Chairman, I would like to make it perfectly clear that if you had read the amendment you would see that no assistance to Israel is cut. We have common enemies, we have common values, and I am a strong supporter of Israel.

If the gentleman who just made the remarks would look at the amendment, he would see there are no cuts to Israel.

Mr. Chairman, I yield 1½ minutes to the gentleman from Texas (Mr. CULBERSON).

Mr. CULBERSON. Mr. Chairman, I want to thank the gentlelady for offering this amendment, which is offered as one of a series of amendments put forward by the fiscal conservatives in this House in a modest effort to try to restrain spending when the new majority has adopted a budget that assumes the largest tax increase in history by assuming that the Bush tax cuts are going to go away.

On the contrary, the President's budget, which we are trying to stay within, assumes that those tax cuts are going to stay in place.

So it's important, Mr. Chairman, for everyone listening to know that these cuts, which we are offering in spending, which are very modest, can also be seen as tax cuts. Every dollar we save in this appropriations process is a dollar that will not be spent in the future, which the Democrats assume in their budget is going to come from the repeal of the Bush tax cuts.

So I applaud the gentlewoman from Colorado for offering this amendment, and it's important to remember, also, as we go through this debate, that all of the Members who are offering these amendments voted against most of those big spending increases over these last many years. I, for one, got reelected because I voted against most of those big new entitlements and spending increases.

I know that the gentlewoman from Colorado, the gentleman from Georgia, my colleague from Georgia, my colleague from Indiana joined me, along with many other members of the Republican Study Committee, in voting against those big spending increases. So the shoe indeed does not fit these conservative Members.

We are proud to stand up here to try to do our best, one brick at a time, to control the out-of-control spending by Congress and to prevent the biggest tax increase in American history.

Mrs. LOWEY. I am pleased to yield 2 minutes to the distinguished gentleman from California (Mr. FARR).

Mr. FARR. Thank you for yielding.

Mr. Chairman, I rise to put a little bit of a face on this across-the-board cut, squeeze and trim, the sort of idiotic approach to spending here in this United States government, particularly in this budget.

We happen to have a global war of terrorism going on. In that global war, there are a lot of people that don't like the United States.

But there is a program that the United States has that they very much like. They like it because countries are asking at an all-time high, send us more; we want more. More countries signing up wanting more people.

What is that program? It's the Peace Corps. And guess what? It's funded in this program.

You know what? The American public out there wants to join the Peace Corps at an all-time high. No, it doesn't matter. Just cut the program. Cut the program. Don't separate the good from the bad. Just cut it.

Well, this is why it's also idiotic. Because, as you have heard, this program funds an international military education program.

A few months ago at this roster, we had a Joint Session of Congress; and giving that address was King Abdullah of Jordan. Guess where King Abdullah found his love for the United States? Studying at the Naval postgraduate school in Monterey, California, where 500 foreign officers come and study along with our officers every year.

But, no, that doesn't count. We want to work on trying to get mutual understanding to our allies. Cut that program. Cut it across the board.

Ladies and gentlemen, we have heard from a lot of cut, squeeze and trim fiscal conservatives on the other side of the aisle tonight. I would hope that their hometown press is looking whether they, example of leadership, are cutting their own budgets from what they have spent last year. If they have done that in their own offices, cut their own spending, then they have a leg to stand on. But to come up here and tell everybody else we ought to cut across the board foreign aid is a danger to Americans all over the world.

Mrs. MUSGRAVE. Mr. Chairman, may I inquire as to how much time is remaining?

The CHAIRMAN. The gentlewoman from Colorado has 3 minutes remaining, and the gentlewoman from New York has 4 minutes remaining.

Mrs. MUSGRAVE. Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I yield 2½ minutes to the distinguished gentleman from New Jersey, a member of the subcommittee, Mr. ROTHMAN.

Mr. ROTHMAN. Mr. Chairman, what would my Republican friends have said if the Democrats had offered to cut the President's requested spending on foreign affairs by $700 million last year when they were in the majority? They would have said that the Democrats were irresponsible.

This year, now that the Democrats are in the majority, we are proposing to cut $700 million from President Bush's request for spending on foreign aid. The Democrats, to cut $700 million from President Bush's request for spending, and that's what we are proposing.

But my Republican friends, who were in the majority all those years rubberstamping the out-of-control Bush budgets every single year, rubber-stamping those budgets, they say that this year, when the Democrats want to reduce President Bush's spending on foreign aid versus his request by $700 million, should be doing it another $170 million more if we Democrats were really serious.

I think people can see through that as the political argument that it is, the partisan attack when there is nothing else going for you.

Because, after all, this is the same group that says there is going to be a tax increase under the Democratic majority this year. They say it over and over again.

But, of course, that's not true. So why would someone keep repeating something, attacks on the Democrats, saying we are raising taxes this year, when it's not true? Why would the Republicans continue to say that time and time again?

Well, you would have to say, well, they must not have much else to talk about, other than to make up something that's not true.

Well, how about this for values, my friends? They talk about values. The Democrats' proposal on foreign aid will fund training of foreign troops to help us fight the war on terror, aid our allies like Israel, fighting HIV/AIDS all over the world and feeding the hungry all over the world. And they say we cut $700 million from the President's request, we should cut even more if we are responsible, when they rubberstamped their President's high budgets before.

They are criticizing $170 million in spending, which we think is essential. They are spending $50 billion, not $170 million, they are spending $50 billion on tax cuts for Americans with incomes of $1 million a year. Americans with $1 million a year get $150 billion in tax cuts. I think the values are wrong on the other side.

Mrs. MUSGRAVE. Mr. Chairman, I yield 1½ minutes to my friend from Texas (Mr. CONAWAY).

Mr. CONAWAY. I thank the gentlelady from Colorado.

Mr. Chairman, the other side has been very good tonight, as they are most every night since they have been in the majority of retelling and retelling over and over the sins of the past.

Quite frankly, those sins are hard to deny, given the empirical evidence is there. We have spent a lot of money and raised the size of this government.

That being said, though, my colleagues' arguments seem to rest on the premise that, because the Republicans were spending more and screwing this thing up, that somehow this gives the Democrats, gives them some license to continue that process, to continue building on this growing government and spending more money in fiscal 2008 than we will bring in.

Now, we have heard some arguments that this is not deficit spending, but, quite frankly, there will be more money spent under this budget in 2008 than we will take in. In the simplest form, that is a deficit.

I am not, personally, a big fan of across-the-board cuts. I agree with some of the arguments said on the other side that it's mechanical, but, quite frankly, we need to start somewhere on the path to fiscal responsibility, and this is a modest start down that path.

I urge support for that amendment.

□ 2215

Mrs. LOWEY. I yield 1½ minutes to the gentleman from New York (Mr. ISRAEL).

Mr. ISRAEL. Mr. Chairman, I think that we're all beginning to figure this out now. When this original amendment was offered, it was advertised as a cut to the foreign assistance budget, despite the fact that Democrats already cut the foreign assistance budget.

Then we were told, oh, except it doesn't really include Israel. We're exempting Israel.

Then we were told, oh, it's Israel, and also, any appropriations that are not required to be appropriated or otherwise made available by a provision of law.

And so we start off with a cut, and then we say, well, not really a cut. We're going to void this and ignore that and sequester this and sequester that.

We're down to Secretary of State licensed chauffeur, my colleagues. That's what we're down to. We're down to the linens at state dinners. If you want to do a cut, do a cut. If my colleagues want to do a cut, do a cut. But don't try and fool the American people.

All we've heard from the other side is we have to ferret out waste, fraud and abuse, except we can't exactly find it, so we'll let you figure out.

Well, the American people have figured it out. You said you don't want to hurt national security, and yet this is a cut to foreign military financing.

You've said you want to win the global war on terror, and yet this is a cut to international military education and training.

You've said you want to cut, but not here, there, or anywhere else.

As our distinguished majority leader said previously, the truth is important, and it ought to be tried every once in a while.

What we have heard over the past several minutes is nothing but a hoax on the American people, and they're not going to fall for it.

Mrs. MUSGRAVE. Mr. Chairman, some people would not call it a hoax if we save 50 cents on every $100 dollars that we spend, that the hardworking taxpayers of this country have provided for us.

I yield 1½ minutes to my friend from Georgia (Mr. WESTMORELAND).

Mr. WESTMORELAND. I love coming down and listening to the majority leader when he comes down. You know, I was a real estate salesman. I felt like I was a pretty good real estate salesman. And a good salesman loves to hear another salesman. And I think the majority leader could sell an Eskimo ice cubes.

But let me say this. He made a statement that the Republicans did not fool the people in November. We didn't. Y'all did. And I think the joke is up. I think the gig is up. I think the foolish is up, because now the ratings of this Congress are at 13 percent, which is about half of what they were when the Republicans in charge.

So you're right. You can fool some of the people some of the time, but you can't fool all the people all the time.

Mrs. MUSGRAVE. I would like to recognize the ranking member.

Mr. LEWIS of California. I thank the gentlelady for yielding. And I would like to recognize, if I can, ROY BLUNT for whatever time he may consume. And I will ask to strike the last word to do so.

The Acting CHAIRMAN. The gentleman is recognized for 5 minutes.

Mr. LEWIS of California. I'd like to yield to my colleague, Mr. BLUNT.

Mr. BLUNT. I thank the gentleman for yielding. And this is a good debate. It's a little more spirited at moments than I think it could be. In fact, I didn't mean to speak again on this until I heard the second-grade math explanation from my good friend, Mr. OBEY. And I did pretty good in second-grade math. I even did fairly good in 12-grade math. And I did okay in college math. But second-grade math was a little bit of a stretch, I thought, because I tried to follow the second-grade math outline we had on why this was actually, according to some group, a cut in spending.

According to my friend, Mr. OBEY, if I heard this right, if you took inflation, and then you took the population growth of the world, I thought that was an interesting element to the equation, and then if you took the deficit as a percentage of the economy, that that actually might be a cut.

This spending is 9½ percent over last year's spending. I've never seen the President's numbers so praised by our friends on the other side as it's been tonight. It may be the only time that the President had either a perfect number or a number that was just slightly too high.

In fact, I understand this is $700 million less than the President's number. That's a lot of money. But it's not as much money as the $2.6 billion this is over last year's spending. That's a lot more money.

Now, this is a 9½ percent increase. And somebody else said, is this going to be the baby that's going to break the bank? Probably not. But if every one of these bills goes up, it's going to have a big impact.

And my good friend, Mr. HOYER, said the government today is larger than the government you inherited, pointing at us. And then I guess the point is, and we're going to make it bigger. I didn't get that at all. The government's larger than the government you inherited, he said, pointing to us. So we're going to increase these spending bills, this one by 9½ percent.

Very few American families got a 9½ percent increase last year. And almost none of them got to take the rate of inflation, the population growth somewhere, and whatever they had as a percent of the entire national economy and decide how that number added up.

This is a 9½ percent growth in the foreign assistance part of the budget. This amendment says, let's just do a little less than we did last year and see if we can't make up with that with efficiency. One of the other amendments said, let's just do what we did last year.

But this is a $2.6 billion growth. Let's not anybody be confused that that's a cut, or it relates to some complicated formula, or somehow if you didn't understand second-grade math, you would realize this wasn't a real increase. This is an increase. This is too much of an increase.

We need to start doing the kinds of things on this bill and the other bill that hold the line, as we did hold the line on the discretionary non-defense budget in the past Congresses. We looked at the entitlement programs in the past Congress. None of that's happening in this Congress. So those programs are going to grow until we're told the budget's balanced.

And by the way, in 35 of the last 39 Congresses, the budget wasn't balanced. And in seven of those, that was our fault, and the circumstances we dealt with. In the other 28, the majority party's party was in control.

We need to be doing better. We need to start now. This is real growth that families couldn't just pass off as some complicated formula. We shouldn't either. We should be able to cut this budget by the one-half of 1 percent that the gentlelady from Colorado has suggested.

Mrs. MUSGRAVE. Mr. Chairman, tonight I again am amazed that our President's numbers have been so highly esteemed by my colleagues on the other side of the aisle. And I don't believe I've ever heard a debate where so much Scripture was quoted by the folks that constantly talk about the separation of church and state. So it's been quite an amazing evening here.

When the American people see all this, perhaps their heads spin as we talk about all these things, and maybe they don't understand everything we say because we're in this political arena. We're serving in Congress. And they're working hard every day trying to provide for their families.

But I think what the American people would understand, Mr. Chairman, I have 2 quarters in this hand. This is 50 cents. In this other hand I have a dollar bill, a $100 bill. The American people know that government spends too much money. All I'm asking for in this amendment is for us not to spend this 50 cents.

I yield back the balance of my time.

Mr. OBEY. I move to strike the last word.

The Acting CHAIRMAN. The gentleman is recognized for 5 minutes.

Mr. OBEY. Mr. Chairman, I won't take the 5 minutes. But let me say that I find it rather humorous that our good friends on the other side of the aisle would utter not one peep when this President decides to spend over $600 billion on a war in Iraq which he misled the country into, which he didn't have a clue of how to get out of, and now he's asking us to make a commitment that will lead over the next 20 years to the expenditure of at least $1 trillion more for that same misguided cause. Not a peep; most of their buttons wired right to the White House, wired right to Karl Rove's desk.

And yet, it's the same crowd that will then make a Federal case out of the fact that when we cut the President's budget for foreign aid we didn't cut it quite enough. And so they're making a Federal case out of one-half of 1 percent.

My good friend, Archie the Cockroach observed once, ''Remember the importance of proportion. Of what use is it for a queen bee to fall in love with a bull?''

Think about it. If you do, you'll realize just how silly and misguided this debate is, because this is a crowd who spent willingly $600 billion on the most damaging war in recent American history, and yet are now objecting to the President's request to fund a bill which is traditionally meant to repair our relationships around the world and to

pay a little bit of the cost of citizenship on a planet where many millions of people are a whole lot less fortunate than we are.

I'm also amused by the fact that we hear a constant cry from the other side of the aisle, ''We need bipartisanship. Politics ends at the water's edge.'' And then when we try to demonstrate a little bipartisanship by giving the President most of what he asked, but not all, we then get the White House complaining because we've cut this bill too deeply, and we get their supporters in this House crying that we didn't cut it deeply enough. I get whiplash trying to follow the direction of a party that is that schizophrenic.

So with all due respect, we understand that this is a marginal debate. It is a debate ginned up to try to find any excuse whatsoever to bring down this bill.

It's not going to do it. Let's get on with the public's business. Let's be responsible. Let's reject this amendment.

The Acting CHAIRMAN. The question is on the amendment offered by the gentlewoman from Colorado (Mrs. MUSGRAVE).

The question was taken; and the Acting Chairman announced that the noes appeared to have it.

Mrs. MUSGRAVE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentlewoman from Colorado will be postponed.

AMENDMENT OFFERED BY MR. FLAKE

Mr. FLAKE. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following new section:

SEC. ____. None of the funds made available in this Act may be used to fund nongovernmental organizations, specifically named in the report accompanying the Act, outside of a competitive bidding process.

Mrs. LOWEY. Mr. Chairman, I reserve a point of order on the gentleman's amendment.

The Acting CHAIRMAN. The point of order is reserved.

Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

□ 2230

Mr. FLAKE. Mr. Chairman, I recognize that a point of order has been lodged and will prevail, and I will withdraw this. But let me just make the point here.

This bill, like previous years' bills making appropriations for the State Department and for foreign operations, doesn't include earmarks in the traditional sense. In other words, it doesn't direct agencies to fund specific programs for parochial interests.

However, the report accompanying the bill makes reference to several nongovernmental organizations by name. I think it is most accurate to refer to these as ''soft earmarks.''

Scattered throughout the report is language which reads as follows: ''The committee is aware of the work of,'' and you can insert your favorite organization here, ''and encourages USAID to consider supporting such work in fiscal year 2008.''

I would suppose that, given the agencies we are funding, some of these NGOs are based overseas or are international organizations, and I have no doubt that many of them are doing good work. But why are they any more worthy than the hundreds of other organizations that are not named?

My amendment does not strike funding for any NGO. Rather, it simply would remove any funding preference for any of the organizations that are listed in the bill over organizations that are not listed in the bill. This amendment simply would prevent funding from going to any of these organizations outside of a competitive bidding process. With the efforts to shine more light on the earmarking process, I am concerned that we might see increasingly creative ways to steer funding to recipients of funding that Members of Congress want to see it go to.

I would like to know how these organizations managed to get mentioned by those named in the report. Who made these requests? Was it the administration? Was it Members of Congress? Was it the committee as a whole? Or the organizations themselves? Will the committee disclose this kind of information? Are these agencies going to be under any undue pressure to give preference to these organizations? Will there be any accounting for whether they have received funding or whether they had gone through a fair bidding process? Are we going to see similar soft earmarking in the future now that there is a brighter spotlight on earmarking in Congress?

I would welcome any answers to this question now or I would like to work with the committee to understand the rationale for this type of soft earmarking.

With that, unless the chairwoman would explain this or enlighten me as to what these soft earmarks are doing or how they come about, I would be glad to withdraw this amendment.

Mrs. LOWEY. Mr. Chairman, will the gentleman yield?

Mr. FLAKE. I yield to the gentlewoman from New York.

Mrs. LOWEY. Mr. Chairman, as I understand it, the committee is going to follow the House rules, and I understand the gentleman is going to withdraw the amendment.

Mr. FLAKE. Yes.

Mr. Chairman, I ask unanimous consent to withdraw my amendment.

The Acting CHAIRMAN. Is there objection to the request of the gentleman from Arizona?

There was no objection.

AMENDMENT OFFERED BY MR. GARRETT OF NEW JERSEY

Mr. GARRETT of New Jersey. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. GARRETT of New Jersey:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds made available in this Act may be used to send or otherwise pay for the attendance of more than 50 employees from a Federal department or agency at any single conference occurring outside the United States.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from New Jersey (Mr. GARRETT) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. GARRETT of New Jersey. Mr. Chairman, perhaps I will not use the entire 5 minutes, because the amendment I present tonight is one similar to what I offered previously on other sessions of this Congress which have passed on voice vote in a bipartisan manner.

This is an amendment which simply looks to the number of U.S. Government employees who attend international conferences.

Mrs. LOWEY. Mr. Chairman, will the gentleman yield?

Mr. GARRETT of New Jersey. I yield to the gentlewoman from New York.

Mrs. LOWEY. Mr. Chairman, I want to advise the gentleman that we are happy to accept the amendment.

Mr. GARRETT of New Jersey. I appreciate that.

And I will just conclude then, Mr. Chairman, by pointing out what the purpose of the amendment was. And that is there have been certain cases where upwards of 150 employees of single government agencies have attended international conferences such as in Africa and other places, and we are just simply saying that it is not wrong for U.S. Government agencies to send their valuable employees over to these international conferences, but we should put some limit on them. Just as small businesses and families have to rein in their budgets and decide what is appropriate as far as their staff going to conferences and the like, so should the Federal Government.

And I appreciate the gentlewoman for accepting the amendment.

I will conclude by saying that perhaps, maybe not in this session but in

future sessions, that these amendments may not be necessary on the floor; and I will be glad to work with the gentlewoman in the future to incorporate such language similar to this in the actual underlying bill.

Mrs. LOWEY. We are happy to work with you in the future on this amendment or any other amendments, and I am pleased that we are accepting this amendment.

Mr. GARRETT of New Jersey. Mr. Chairman, I yield back the balance.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from New Jersey (Mr. GARRETT).

The amendment was agreed to.

AMENDMENT NO. 6 OFFERED BY MR. CONAWAY

Mr. CONAWAY. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 6 offered by Mr. CONAWAY:

At the end of the bill (before the short title), insert the following:

DEFICIT REDUCTION

SEC. ____. It is the sense of the House of Representatives that any reduction in the amount appropriated by this Act achieved as a result of amendments adopted by the House should be dedicated to deficit reduction.

Mrs. LOWEY. Mr. Chairman, I reserve a point of order on the gentleman's amendment.

The Acting CHAIRMAN. The point of order is reserved.

Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Texas (Mr. CONAWAY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Texas.

Mr. CONAWAY. Mr. Chairman, the amendment is pretty straightforward.

We have heard hours and hours today of debate on whether or not we should cut spending out of this proposed appropriations bill that has been brought forward. The elephant in the room that we don't talk about is, under the mechanics of the law under House rules, were any of these amendments that we will be voting on in a few minutes to pass, they would not actually reduce spending. The amounts would still remain within the 302(b) allocation and would be spent somewhere else within the subcommittee's jurisdiction.

What my amendment would do would be to say that, instead of that being the occurrence, the savings would actually go against the deficit; and should we ever have a surplus, it would actually include that surplus.

I intend to withdraw the amendment. I understand the point of order. But, before I do, Mr. Chairman, I want to make one other comment.

Mr. Chairman, I am a Christian, and I take very seriously the instructions in the New Testament, particularly verses like Luke 12:48 that says, ''To whom much is given, much is required.'' I understand the parable of the sick and the unclothed and the jailed. But I see those instructions to me personally, to take my personal assets, my personal wealth, and deal with those issues for my fellow man. I see no instruction that tells me to take someone else's blessings and wealth to fix those problems.

So I would urge my colleagues to be very careful when they invoke those instructions.

Mr. Chairman, I ask unanimous consent to withdraw my amendment if I could have some help from the other side in working towards a solution that would allow spending cuts that actually are voted on and passed to reduce deficits and increase surpluses, rather than staying within the 302(b) allocation.

The Acting CHAIRMAN. Without objection, the amendment is withdrawn.

There was no objection.

AMENDMENT OFFERED BY MR. PENCE

Mr. PENCE. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. PENCE:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds made available in this Act may be used to provide direct aid to the Palestinian Authority, except as otherwise provided by existing law.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Indiana (Mr. PENCE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Indiana.

Mr. PENCE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the legislation before us today includes in various ways tens of millions of dollars that would be directed to advancing U.S. interests in areas known as the West Bank and Gaza.

Given the recent violent and tragic events in the Palestinian territories and the strong commitment of this body to prevent taxpayer funding from reaching the hands of terrorists, I offer an amendment that reinforces previous prohibitions on funding Palestinian terrorist organizations and offer it for my colleagues' consideration on both sides of the aisle.

Mr. Chairman, my amendment simply states: ''None of the funds made available in this Act may be used to provide direct aid to the Palestinian Authority, except as otherwise provided by existing law.''

So what is existing law? The Foreign Assistance Act of 1961 was amended by the Palestinian Anti-Terrorism Act last year, in 2006. It was signed into law in December. It states that, ''No ministry, agency or instrumentality of the Palestinian Authority effectively controlled by Hamas'' would be eligible for funding unless it meets the basic preconditions of civil society, namely, recognition of Israel and the renunciation of violence.

The purpose of this amendment today is to clarify that assistance may be provided to the Fattah elements of the PA government, assuming such elements are not engaged in the terrorism or compromise by the terrorism of Hamas. Concern about the application of this provision may have led the distinguished subcommittee chairman, Mrs. LOWEY, to put a hold and request information from Secretary Rice about her intent to release funding to the PA.

Now, these safeguards and other relevant laws are critical because they prohibit assistance to terrorists, including to a Hamas-controlled Palestinian Authority, but they permit assistance to a PA government that is in compliance with the principles of recognition of Israel, previous peace agreements, and a renunciation of violence.

Why is it necessary? Well, because, given the systematic instability, we simply don't know what shape the Palestinian government will take in the coming months. Large portions of the Palestinian territories are in virtual anarchy at this moment. Even worse, Gaza is completely dominated by Hamas, a universally recognized terrorist organization. We cannot permit one red cent of U.S. dollars to find its way to Hamas.

After lengthy discussions with the Department of State, including Secretary of State Rice herself, I would like my colleagues to know that this amendment is not opposed by the State Department. In fact, I had a warm and candid conversation today with the Secretary of State, and I told her then that it is critical that we clarify that the Palestinian Anti-Terrorism Act of 2006 is still the law of the land and reiterate its intent, namely, to deny funding to terrorist entities within the Palestinian leadership.

Mr. Chairman, we cannot permit any ambiguity to exist on this subject. This body should be on the record today, as we have before, that no American tax dollars can be delivered to any authority within the Palestinian territories that is compromised or even tainted by Hamas or other terrorist interests.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I am prepared to accept this amendment.

It is my understanding that it reiterates the restrictions on direct aid to the PA that are already in current law that are clearly included in this bill. I certainly expect the administration to abide by these restrictions, and I thank

the gentleman for his amendment. In fact, I am wondering why the gentleman is offering the amendment if it is already included in the bill.

I also understand that my good friends on the other side of the aisle are whipping against this bill. This bill provides millions of dollars for Israel and for many good causes all around the world. So for those who are standing up as friends of Israel and want to protect Israel, I wonder why you are whipping against a bill that is providing millions of dollars for Israel.

And I thank the gentleman for your amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. PENCE. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Illinois (Mr. KIRK).

Mr. KIRK. Mr. Chairman, I want to thank the gentleman from Indiana for yielding.

He makes a good point. I am actually for this bill coming forward, but we need to send an important signal.

The administration has said that they are going to provide direct aid to the Palestinian Authority and provide $40 million to the U.N. Relief and Works Agency in Gaza. U.S. taxpayers should not be forced to finance a culture of ''welfare terrorism.''

This morning, Secretary Rice agreed to work with us in upgrading the auditing regime of UNRWA, and we hope that that will include an end to Cash Assistance payments to terrorists and martyr families, with a full independent audit of UNRWA programs outside the U.N. structure.

We have looked in the past at our errors, in the 1990s, when the U.S. poured hundreds of millions of dollars into assistance for the Yassar Arafat government and the return on taxpayer investments was very low indeed. In haste, we should not repeat our errors made just a few short fiscal years ago.

Mrs. LOWEY. Mr. Chairman, I reserve the balance of my time.

Mr. PENCE. Mr. Chairman, I yield myself the balance of my time.

Let me thank the distinguished chairman of the subcommittee for her support of this amendment. Let me also say to the gentlewoman that I intend to support the underlying legislation and appreciate her strong work in support of Israel.

□ 2245

The reason for bringing this bill, to answer the gentlelady's question, Mr. Chairman, is very simple. In recent days, the State Department has indicated its intent to ''lift restrictions on aid to Palestinians.'' And the Pence amendment today will simply say that any aid that would go to the Palestinian Authority must, with an exclamation point, only go to the Palestinian Authority under current restrictions in current law. That is my sincere intent.

The Acting CHAIRMAN. The gentleman's time has expired.

Mrs. LOWEY. I want to thank the gentleman for his amendment. I also am delighted to know that you will support the bill. It is a good bill. The ranking member and I worked very closely in a bipartisan way. I have the greatest respect for my friend and ranking member, Mr. WOLF. It was really disappointing for me to hear that the whip's office was working against the bill.

I thank you so much. It's a good bill. I appreciate your support, and I'm happy to accept this amendment because the current restrictions, which you rightly suggest, are in this bill.

Mr. Chairman, I yield back the balance of my time.

Mr. OBEY. Mr. Chairman, I move to strike the last word.

The Acting CHAIRMAN. The gentleman is recognized for 5 minutes.

Mr. OBEY. Mr. Chairman, I won't take the 5 minutes. I simply want to say that I appreciate the fact that the committee has accepted this amendment. But let me simply make one point.

Because we have heard on this side of the aisle that the minority party is whipping against the bill, let me simply say that I would hope that there are no Members of this House who would engage in an act which would give hypocrisy a bad name by voting for this amendment, which in essence simply repeats existing law, and then use that as cover as an excuse to then vote against the bill in final passage. I don't think that friends of Israel would be conned by that. And I would hope, and I have full confidence, that no Member of this House would engage in such hypocrisy.

Ms. BERKLEY. Mr. Chairman, I want to thank the gentleman from Indiana for his leadership on this issue. I am proud to associate myself with his efforts though I believe it does not go far enough.

Mr. Chairman, I would like to ask my colleagues when we will learn from our mistakes?

Did we learn anything when Arafat took our money and stashed it in his Swiss bank accounts instead of providing for his own people?

Did we learn anything when Fatah was exposed as nothing but a corrupt gang of thugs?

Did we learn anything when Abu Mazen refused to rout Hamas when he had the chance and showed that his backbone is no stronger than a wet noodle?

Did we learn anything when Israel unilaterally withdrew from the Gaza and Fatah failed to build one school, one hospital, one road, did one thing to improve the lives of its own people, but still came to us with their palms open for more money?

Did we learn when the Palestinian Finance Minister Salam Fayad admitted that hundreds of millions of dollars of foreign aid had been siphoned off, thanks to corruption and malfeasance?

Mr. Chairman, let's stop throwing good after bad. We should cut off funding to the corrupt and ineffectual Palestinian Authority. If I have learned anything it is this: If the U.S. gives Abu Mazen 50 cents or $50 million or $500 million more dollars he will be incapable of uniting the Palestinian people, leading the Palestinian people or bringing peace to a very troubled part of the world. I thank the gentleman from Indiana again for addressing this important issue and I yield back.

Mr. OBEY. Mr. Chairman, I yield back the balance of my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Indiana (Mr. PENCE).

The question was taken; and the Acting Chairman announced that the ayes appeared to have it.

Mr. PENCE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Indiana will be postponed.

AMENDMENT NO. 2 OFFERED BY MS. BERKLEY

Ms. BERKLEY. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 2 offered by Ms. BERKLEY:

At the end of the bill (before the short title), insert the following:

PROHIBITION AGAINST ASSISTANCE TO SAUDI ARABIA

SEC. ___. None of the funds appropriated or otherwise made available pursuant to this Act—

(1) shall be obligated or expended to finance any assistance to Saudi Arabia; or

(2) shall be used to execute a waiver of section 571 or 614 of the Foreign Assistance Act of 1961 (22 U.S.C. 2349aa or 2364) with regard to assistance to Saudi Arabia.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentlewoman from Nevada (Ms. BERKLEY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Nevada.

Ms. BERKLEY. I thank the Chair.

Mr. Chairman, I rise today on behalf of Mr. WEINER, Mr. CROWLEY, Mr. FERGUSON and myself to offer an important amendment to cut off funding to the Saudi Arabian regime.

Mr. Chairman, there are many reasons that we need not be sending foreign aid to Saudi Arabia. First, Saudi Arabia does not need our money. They are one of the wealthiest countries in the world, with a GDP of over $286 billion a year. With poor countries begging us for help, why are we giving money to this oil-rich kingdom? Is not 60, 70, $80 a barrel enough?

Second, Saudi Arabia exports and funds terrorists and terrorism. Need I remind anyone in this body that 15 of the 9/11 hijackers were Saudi? But the story goes on. By 2005, over 2,500 Saudi

youths had entered Iraq to wage jihad against the Americans. That's waging jihad against us. By last month, 3,000 Saudis had been killed or captured in Iraq. Why are all these Saudis fighting in Iraq? Because their government is financing and teaching terrorism.

Israeli officials believe that over half of Hamas' budget comes from Saudi Arabia. Just this week, two indictments were served against Saudi charities that are accused of funding Hamas. Their textbooks still teach Saudi children that Jews are apes, Christians are pigs, and that every other religion other than Islam is false. Their newspapers print anti-Semitic cartoons depicting the Jews as thiefs, and, most insulting of all, as Nazis. Already this year our State Department has counted 14 human rights abuses in Saudi Arabia, including beatings, arbitrary arrests, violations of religious freedom, and limitation on workers rights.

The Saudis are not our allies. They are not our friends. King Abdullah called our invasion of Iraq an illegal foreign occupation. Those are not the words of a friend.

Mr. Chairman, we cannot trust them and we should not fund them. That is why every year more and more Members of this body vote to cut off funding to the terrorist regime. And yet, despite all this, the funding for Saudi Arabia has increased. Let me repeat that. It has increased each year because of an obscure loophole in the Foreign Assistance Act, up to $1.5 million in 2006. Well, this year we're closing that loophole. Our amendment will ensure that funding to Saudi Arabia is cut off once and for all.

Enough is enough. Let's come to our senses and end this senseless promotion of terrorism. I urge support for the Weiner-Crowley-Ferguson-Berkley amendment.

Mr. Chairman, I reserve the balance of my time.

The Acting CHAIRMAN. Who seeks time in opposition?

Mr. WOLF. I am not opposed to the amendment. I am for the amendment. So I will strike the requisite number of words.

The Acting CHAIRMAN. The gentleman is recognized for 5 minutes.

Mr. WOLF. I yield to the gentleman from New Jersey.

Mr. FERGUSON. Thank you, Mr. Chairman.

I thank the gentleman from Virginia for the time. And I of course rise in strong support of this amendment. I am delighted to, once again this year, work with Mr. WEINER, Mr. CROWLEY and Ms. BERKLEY.

We've offered this amendment in the past. And each year that this Foreign Operations bill includes funding for Saudi Arabia we've offered this amendment, and each year we gain more and more support. Obviously we're disappointed that this bill does include some money for Saudi Arabia, but I'm pleased that offering this bipartisan amendment with broad support on both sides of the aisle, once again we will seek to strip that money.

The bill before us provides $115,000 in foreign aid for a country that has time and time and time and again proven that it doesn't deserve one cent of American taxpayers' dollars, not only because Saudi Arabia is one of the wealthiest countries in the world, but also because it's not a partner with the United States and other nations in our efforts to combat terrorism.

Saudi Arabia has a pretty poor record on a number of fronts. It's not just a poor record in joining with other allies around the world to combat terrorism. They have a pretty terrible record on human rights, pretty poor record on religious freedom, and they continue to support and participate in the Arab League's boycott of Israel. Now, even recently there was an Arab League boycott meeting in Damascus. The Saudi Government continued to participate in that meeting. All of this despite Saudi Arabia's repeated promises to dismantle the boycott and to support most-favored-nation status for Israel. And Israel, of course, our closest and most important ally in the Middle East, Saudi Arabia continues to undermine the efforts that we are building in the Middle East.

Clearly, Saudi Arabia is not a country that is struggling to make ends meet. Saudi Arabia doesn't need financial support from other nations. And they certainly can't be considered a strong ally of the United States or the global war on terror.

Last year, more than 300 Members of the House supported this amendment. I am really looking forward to continued broad bipartisan support for this amendment once again this year. And I'm really delighted, once again, to be working with Mr. WEINER and Mr. CROWLEY and Ms. BERKLEY in offering this amendment.

I thank you for yielding.

Mr. WOLF. Reclaiming my time, perhaps the amendment really doesn't go far enough in the sense that to do something that really matters, there is a real concern that many American Ambassadors to Saudi Arabia are now out working for the Saudi Government. And I have an amendment that we're trying to get through the Rules Committee. Mr. LANTOS and I are working on asking various groups to look into this. There are actually, I understand, CIA station chiefs, American CIA station chiefs who were station chiefs in Saudi Arabia that may be now working for the Saudis.

The Saudis funded the madrassas up along the Pakistan-Afghan border. There were 15 Saudis on the aircraft, one of them went into the Pentagon and killed 30 people from my congressional district. The first person killed in Afghanistan was Michael Spann, a CIA agent from my district, because of the activities of the Saudis.

The Saudis are funding anti-Semitic, anti-Christian activities in some of the schools. This is Wahhabism. I've been kind of shocked. This is a milquetoast amendment. This is a weak amendment. There should be something really strong to get control of this Wahhabism that is spreading.

So, yes, let's pass it. But I would hope the next time we really do something that really can make a difference because this is dangerous. Had they not funded those madrassas, frankly maybe what took place on 9/11 may have never taken place.

With that, Mr. Chairman, I yield back the balance of my time.

Mrs. LOWEY. Mr. Chairman, I'm pleased to accept the amendment from the gentlelady from Nevada.

Ms. BERKLEY. I want to thank the gentlelady from New York and thank Mr. WOLF. It's nice to be on the same side of an issue for a change, and this is certainly one that I appreciate your support. Perhaps next year we can work on an amendment that will be even stronger than this. I quite agree with you.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentlewoman from Nevada (Mrs. Berkley).

The amendment was agreed to.

AMENDMENT OFFERED BY MR. KING OF IOWA

Mr. KING of Iowa. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. KING of Iowa:

At the end of the bill (before the short title), insert the following:

LIMITATION ON FUNDS FOR TRAVEL BY THE SPEAKER OF THE HOUSE OF REPRESENTATIVES TO COUNTRIES THAT ARE STATE SPONSORS OF TERRORISM

SEC. 6__. None of the funds appropriated or otherwise made available in this Act may be used to fund or support travel by the Speaker of the House of Representatives to Cuba, Iran, North Korea, Sudan, or Syria.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Iowa (Mr. KING) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Iowa.

Mr. KING of Iowa. Thank you, Mr. Chairman.

My amendment is a fairly simple amendment. It goes into the section and limits the funds for travel by the Speaker of the House of Representatives to countries that are state sponsors of terrorism. And it simply says none of the funds may be used to support travel by the Speaker to the nations specifically of Cuba, Iran, North

Korea, Sudan or Syria. And the reason for that, Mr. Chairman, is that there are two constraints on the Speaker of the House. One of them is a constitutional constraint that vests the authority of foreign policy into the President of the United States. And that's clear. And that's established in the Constitution and codified by our founders specifically so there wouldn't be a division of messages, that we would speak with one voice on foreign policy.

And when they had problems with that even after the ratification of the Constitution, then they passed the Logan Act, which has been in law for over 200 years. And the Logan Act prohibits anyone representing the United States, without the authority of the administration, to conduct foreign policy. And it's clear that's what happened in Syria, and it was reported in newspapers all over this country in April.

And so this legislation, this appropriation, without my amendment, would allow taxpayers' dollars to support what I believe is unconstitutional behavior and statutory violations.

I urge support of this bill.

Mr. Chairman, I reserve the balance of my time.

Mr. LANTOS. Mr. Chairman, I claim the time in opposition.

The Acting CHAIRMAN. The gentleman is recognized for 5 minutes.

Mr. LANTOS. Mr. Chairman, first I would like to thank my good friend from Iowa for providing comic relief at this late hour of this debate.

This carefully constructed, exquisitely constructed absurdity masquerading as an amendment, and on the west coast there are still children watching this program, and I hope they are watching it because this is a rare moment in the history of the Congress of the United States.

There are 435 Members in this body, every single one of us elected by our constituents. The Speaker of the House, at the moment, happens to be the Representative from the Eighth District of California. Now, if the gentleman were to offer an amendment saying that 434 Members may travel to Cuba and Sudan and Iran and Syria, but the Representative from the Tenth District of Illinois or the Seventh District of Texas may not, he would be laughed out of court. But that is precisely what this so-called amendment purports to do. It says nothing about any other Member of the Congress of the United States.

□ 2300

We are free to travel to Syria. We are free to travel to North Korea. But one of our colleagues, who happens to represent the Eighth District of California, may not.

Now, San Francisco happens to have two Representatives; Ms. PELOSI, who represents the Eighth District, and I represent the Twelfth District. The absurdity that you pretend is an amendment allows the person representing a part of San Francisco to travel to North Korea, to travel to Syria, to travel to Sudan, but the person representing the other part of San Francisco may not.

Now, I really don't think that this amendment can be taken seriously at its face value. There is a hidden message here. That hidden message is a low blow, a pathetically low blow, aimed at our most distinguished Speaker of this body.

I was with the Speaker on her visit, not only to Syria, but to Lebanon and Saudi Arabia. She represented the United States with eloquence, dignity and distinction. It turns my stomach that this sickening partisan attempt to get at the Speaker's performance of her legitimate duties is presented here as an amendment.

Let me, however, deal with the underlying issue. The underlying issue relates to travel to countries with which we disagree. May I point out, Mr. Chairman, that beginning in 1981, at the height of the Cold War, I was appointed chair of our Parliamentary Liaison to the European Parliament. It became obvious to me that most of our colleagues in 1981 had never traveled in the Soviet Union or behind the Iron Curtain. So, every year I took it upon myself to lead a congressional delegation to the Soviet Union and to all the Communist countries of the Soviet bloc.

Many of my colleagues at that time had no passport. But as a result of year after year after year going to these Communist countries, many Members of this body became familiar with the circumstances. Their commitment of anti-Communism was enhanced, and their understanding of the Soviet Union and the Central and East European satellites became much clearer.

The Acting CHAIRMAN. The time of the gentleman has expired.

Mr. OBEY. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I yield to the gentleman from California (Mr. LANTOS).

Mr. LANTOS. Mr. Chairman, I thank the distinguished chairman of the Appropriations Committee.

Mr. Chairman, the primitive, absurd, stupid notion that we should not allow Members of Congress to travel to countries with which we have disagreement is really beneath contempt. This know-nothingism has no place in this body. The discriminatory approach of allowing 434 Members of the House of Representatives to travel to the Sudan, to look at Darfur and the tragedy unfolding there, but not to allow the Speaker of the House of Representatives to see with her own eyes the genocide which is taking place in Darfur is not worthy of this body.

I hope that my friend from Iowa will withdraw this pathetic absurdity masquerading as an amendment. It is not an amendment. It is a low blow at the distinguished Speaker of the House of Representatives. I hope that if the gentleman does not withdraw it, it will be overwhelmingly defeated.

This body is a body of adult men and women who are prepared to go to Syria, Sudan, Cuba, North Korea, and, if the Iranians will let us in, to Iran. At this moment, the Ahmadinejad government does not offer visas to any Member of Congress. I have been attempting to go there for well over 10 years. I hope, one of these days, a group of us will go there.

But the notion of proposing an ostrich policy aimed at the Speaker of the House of Representatives, that she may not go to Cuba, while scores of Republicans and Democrats go, while scores of Republicans and Democrats go to the Sudan and to Syria, is a cheap partisan blow. Days before we went to Syria, three Republican colleagues were in Syria, and I salute them; days after we went there, another Republican colleague went there.

Mr. OBEY. Mr. Chairman, reclaiming my time, I think after that speech, there is absolutely no need to say anything more. The amendment says a whole lot more about the gentleman from Iowa (Mr. KING) than it says about the Speaker of the House.

Mr. Chairman, I yield back the balance of my time.

Mr. WOLF. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I oppose the amendment for three reasons. One, I would hope in the next Congress we have a Republican Speaker, and so I wouldn't want to see that side limit our Speaker. That is number one.

Number two, Senator SAM BROWNBACK and I were one of the first ones to go to Darfur. I wish more Members would go to Darfur. I think it is genocide. I think one of the problems is that this place hasn't moved fast enough because people haven't seen it. They couldn't smell it. They just couldn't feel it. And so to say you couldn't go to Darfur where there is a genocide taking place now is just not a good idea. I have been to Sudan five times. Certainly you couldn't limit the Speaker to go some place that I, as a lowly Member, could go to.

The third reason is that I was one of the Members who went to Syria. Now, I am not a weak person. I used to go to the Soviet Union during the days of Communism and speak out for the dissidents. CHRIS SMITH and I went into Perm Camp 35 and interviewed Sharansky's cellmate and did a lot of things that really made a difference.

When I went to Syria, here is what I said to Assad. With me was ROBERT ADERHOLT, not exactly a liberal Member of the House; JOE PITTS, again, God bless him, a very conservative Member of the House, a good person. Here is

what we said to Assad four times, and it was good that he heard it. I said it twice, and Mr. PITTS said it once, and Mr. ADERHOLT said it once. We said, one, stop allowing foreign fighters to come and transit your border. I am not saying it is because of our effort, but 2 weeks after that, the Commanding General in Afghanistan said that the foreign fighters had slowed down. They actually saw the results.

Secondly, Israel's right to exist. Assad should have heard Members. More Members should go tell Assad, Israel has the right to exist.

Thirdly, I said stop supporting Hezbollah and Hamas. We were 4 feet from him. We looked at him directly in the eye and said no more support. We know and they know where Hamas and Hezbollah have their offices. They're in Damascus.

Lastly, we said to them with regard to this, stop interfering in Lebanon's right to exist.

So, I am of the mind, and I may be in the minority of my party, I take the Ronald Reagan approach. Ronald Reagan, when he called the Soviet Union the evil empire, his greatest speech was to the National Association of Evangelicals, Orlando, Florida, 1983. He called them the evil empire. But as he called them the evil empire, he sent people out to talk.

If you recall his speech he gave at Danilov Monastery, where he talked about freedom, Gorbachev was there. Ronald Reagan defeated the Soviets because he went and engaged, not in weakness. He put the Cruise Missiles in in Europe in 1983 when people complained. But he was able to do it.

So, one, I hope we have a Republican Speaker, and I would hope everyone on our side agrees when we have a Republican Speaker in the next Congress.

Two, I went to Sudan. I think everybody in this body ought to go to Sudan. They ought to go to Darfur. Maybe it was because of the failure of people to go to Rwanda. Maybe that wouldn't have taken place.

Lastly, intellectually it would be impossible to say this was a good idea if I was one of the ones that went. I think by going I served the interests of our Government. I was criticized. I had people criticize me.

□ 2315

But I thought it was good that Assad heard that.

Lastly, I met with the leading dissident in Syria, and I said, ''Should we put your name in our release?'' And he said, ''Please, put my name in.'' Sharansky used to tell us, ''When you spoke out for me, when you said things for me, my life got better.''

This dissident said, ''Mention my name. Mention my name. I will stand with you,'' because, he said, ''nobody else is coming to meet with me and stand with me.'' We stood with him, and when we left Syria, after we left, the Syrian Government criticized us for the tone of what they thought we said.

But, God bless, I would hope that every Member of this body would go to Syria and sit down with Assad and say, stop the foreign fighters; Israel's right to exist; stop the support for Hezbollah and Hamas; and stop messing around in Lebanon and let these people who want freedom to have freedom.

For that reason, I urge a ''no'' vote on the amendment.

Mr. KING of Iowa. Mr. Chairman, I yield myself 15 seconds.

Mr. Chairman, I would point out that no one here that has traveled to a foreign country has announced a new foreign policy but the Speaker of the House. No one here has pointed out how it is you can contravene the Constitution. We all take an oath, solemnly swear to uphold this Constitution. And no one here has pointed to a law that supersedes the Logan Act.

Mr. Chairman, I yield 2¼ minutes to the gentleman from Virginia (Mr. CANTOR).

Mr. CANTOR. Mr. Chairman, I thank the gentleman.

Mr. Chairman, in all due respect to my good friend from California who knows I have a great deal of respect for him, this is not a sickening or pathetic amendment. It is not primitive, stupid or absurd, as it was described. It is not an ostrich amendment. And this is not a low blow, nor is anyone saying that the Speaker of this House is not an eloquent speaker and Representative as she goes forward out into the world as Speaker of this institution.

Nor would I tell my colleagues, is this an amendment about Member travel. No one says that we should not be about educating ourselves so that we can better effect public policy here in our roles as Members of this Congress and as Representatives of the constituents that elect us.

What this is about is about travel by an individual who is second in line to the President of the United States. Like it or not, for the 434 others of us, it does mean something different when the Speaker of the House goes somewhere.

As my friend from Iowa indicates, all reports say when the trip to Syria occurred, that somehow it was perceived on the ground and in the region that somehow the United States was embarking upon new foreign policy.

Frankly, Mr. Chairman, I would say from Iran's hot pursuit of nuclear weapons to Syria's eagerness to stir violence against our interests in the Middle East, America faces a growing list of terrorist states, as my good friend from California is well aware. And amidst such threats, the United States must speak forthrightly and with one voice.

Iran, Syria, North Korea, Sudan, Cuba, they all are feeble states whose interests are diametrically opposed to ours. Their regimes are vulnerable to international sanction, and they will not change until America and its allies apply enough pressure to endanger their regimes.

I would just say when the Speaker of the House goes to these nations and it is perceived that somehow we are capitulating, it goes against our interests. That is what this amendment is about.

Mr. KING of Iowa. Mr. Chairman, I yield myself the balance of my time to conclude.

The Acting CHAIRMAN. The gentleman has 1 minute remaining.

Mr. KING of Iowa. Mr. Chairman, I take us to this path where we are, and I haven't heard the response to the issue of the constitutional constraints that we all have.

I have traveled foreign and I have sat in there in diplomatic discussions and debates and I have heard us get off track. I have heard us put our national security at risk, because sometimes the people that were there on the codel weren't tuned in with the administration's policy. I have not seen us take us to the crisis moment, but I have seen the precipice of the crisis moment.

But our founders understood this clearly and that is why they laid that responsibility in the hands of the President of the United States to conduct our foreign policy. That is why he appoints the Ambassadors. That is why he negotiates the treaties. That is why 200 years of tradition and history and constitutional law takes us down this path.

And if we can ignore our oath to the Constitution, then on top of that, how can we ignore the Logan Act, which is the only controlling Federal statute that we have? The Logan Act says no citizen of the United States shall take foreign policy into their own hands.

Our Speaker clearly traveled to a terrorist-sponsored state against the express wishes of the President of the United States.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Iowa (Mr. KING).

The question was taken; and the Acting Chairman announced that the noes appeared to have it.

Mr. KING of Iowa. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Iowa will be postponed.

AMENDMENT OFFERED BY MR. LAMBORN

Mr. LAMBORN. Mr. Chairman, I offer an amendment. Unfortunately, I will shortly withdraw it, for reasons I will explain.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. LAMBORN:

At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds made available in this Act for assistance under the West Bank and Gaza program may be made available to or through any individual, private or government entity, or educational institution that does not expressly recognize the right of the State of Israel to exist.

Mrs. LOWEY. Mr. Chairman, I reserve a point of order against the gentleman's amendment.

The Acting CHAIRMAN. A point of order is reserved.

Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Colorado (Mr. LAMBORN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Colorado.

Mr. LAMBORN. Mr. Chairman, my amendment would have ensured that none of the funds made available in this bill under the West Bank and Gaza program may be made available to any individual or entity that does not expressly recognize the right of the State of Israel to exist. I brought this amendment to the floor to emphasize the strong sense of this Congress and the United States that the peace process in this region requires all participants to publicly acknowledge the fundamental right of the State of Israel to exist.

Funding an organization that fails to recognize Israel is not acceptable and should not be tolerated by this Congress.

While there have been many opportunities for the Palestinian Liberation Organization in particular to officially recognize Israel's right to exist, it has failed to do so. Until it is held accountable for its failure to make recognition of Israel a formal part of its charter, we as a Nation and in this Congress must be careful not to reward and enable this organization.

Because Hamas controlled the Palestinian Authority after the recent elections, the last Congress felt the need to pass a law, the Palestinian Antiterrorism Act of 2006, to ensure that U.S. funds would not be provided to this terrorist regime. This law, however, does not go far enough, because it fails to make Israel's right to exist part of the law as it applies to the PLO.

In contrast, my amendment would have created a simple formula for determining where to provide assistance and who would be eligible to receive funds by making the recognition of Israel's right to exist as well as refraining from terrorism a prerequisite for U.S. funding of all organizations.

For the peace process to be successful, and everyone here sincerely wants this, it is imperative that all of the parties involved expressly understand and recognize the rights of the other parties. Until this happens, true peace, Mr. Chairman, cannot be achieved.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I continue to reserve my point of order.

Mr. Chairman, I move to strike the last word, and I yield to the gentleman from New York (Mr. ISRAEL).

Mr. ISRAEL. Mr. Chairman, I thank my distinguished chairwoman.

Mr. Chairman, I want to thank the gentleman for bringing this very important amendment to the floor. I think it is a critical reminder to the Palestinian Authority that they need to get their act together and that we are losing patience with them. I want to thank the gentleman for a very constructive dialogue earlier today.

Mr. Chairman, I was at the border of Israel and Gaza when the gate fell down. The Israeli people said to the Palestinians, ''You can take this. You can have it. Try and build capability here. Try and build a country here. Try and build peace here.''

Do you know what they did with it? They sent rockets over the border into Israel. They violated every commitment they made. They didn't develop a capability. They developed Qassam rockets.

Israel is surrounded by threat in the north with Lebanon, where Hezbollah violated the border, kidnapped Israeli soldiers, rained rockets on the north; in Gaza, which has imploded; has an existential threat from Iran, which is our threat as well. In between all those places, you have people running around with grenades strapped around their bodies blowing up themselves and everybody else they can take with them.

Israel has tried to negotiate and negotiate and negotiate, and every time it has negotiated, the result has been an interlocutor that has said, we can't really keep our promises nor can we keep the peace.

So the gentleman's amendment is very, very important, and I want to pledge to work with the distinguished chairwoman, who has had these concerns and who has led this Congress in these concerns for as long as she has been in Congress, with Mr. WOLF, the ranking member, who has led the fight on these concerns, and with the gentleman, so that the Palestinian Authority gets the message that we are losing patience and we will not continue to sit by and allow them to pursue a policy of destructiveness.

Mrs. LOWEY. Mr. Chairman, I thank the gentleman, and I thank the gentleman who offered the amendment. I appreciate your offer to withdraw the amendment. I pledge to continue to work with you and Mr. ISRAEL and the other members of the committee and the Congress. We thank you very much for your intent and your willingness to withdraw.

Ms. BERKLEY. Mr. Chairman, I thank the gentleman for yielding and I rise in strong support of this amendment.

Mr. Chairman, is it too much to ask, after nearly 60 years, that Israel's neighbors recognize its basic right to exist. There is simply no reason for the U.S. to be funding entities that do not recognize Israel, the Middle East's only democracy and our staunch ally.

Mr. Chairman, we can argue about the Palestinian Authority and whether we should fund that corrupt and ineffectual government. But there should be no debate when talking about terrorist organizations whose singular purpose is to wipe Israel off the map.

We must send a clear and firm message to Hamas and Hezbollah: as long as you are committed to Israel's destruction, we will commit ourselves to not aiding your survival. End of story.

I thank the gentleman for his clear sighted amendment.

Mr. LAMBORN. Mr. Chairman, I want to thank the gentlewoman and the gentleman, both from New York.

Mr. Chairman, knowing that this amendment is vulnerable to a point of order because it goes beyond appropriating and into the legislative realm, I ask unanimous consent to withdraw the amendment.

The Acting CHAIRMAN. Is there objection to the request of the gentleman from Colorado?

There was no objection.

ANNOUNCEMENT BY THE ACTING CHAIRMAN

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, proceedings will now resume on those amendments on which further proceedings were postponed, in the following order:

An amendment by Mr. BOUSTANY of Louisiana.

Amendment No. 7 by Mr. MCGOVERN of Massachusetts.

An amendment by Mr. JORDAN of Ohio.

Amendment No. 52 by Mr. PRICE of Georgia.

An amendment by Mrs. MUSGRAVE of Colorado.

An amendment by Mr. PENCE of Indiana.

An amendment by Mr. KING of Iowa.

The Chair will reduce to 2 minutes the time for any electronic vote after the first vote in this series.

AMENDMENT OFFERED BY MR. BOUSTANY

The Acting CHAIRMAN. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Louisiana (Mr. BOUSTANY) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The Acting CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 74, noes 343, not voting 20, as follows:

ANNOUNCEMENT BY THE ACTING CHAIRMAN

The Acting CHAIRMAN (during the vote). One minute remains in the vote.

□ 0009

Mr. BISHOP of Georgia changed his vote from ''no'' to ''aye.''

So the amendment was agreed to.

The result of the vote was announced as above recorded.

AMENDMENT OFFERED BY MR. KING OF IOWA

The Acting CHAIRMAN. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Iowa (Mr. KING) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The Acting CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The CHAIRMAN. This will be a 2-minute vote.

The vote was taken by electronic device, and there were—ayes 84, noes 337, not voting 16, as follows:

ANNOUNCEMENT BY THE ACTING CHAIRMAN

The Acting CHAIRMAN (during the vote). There is 1 minute remaining in the vote.

□ 0013

Mr. HERGER changed his vote from ''aye'' to ''no.''

So the amendment was rejected.

The result of the vote was announced as above recorded.

The Acting CHAIRMAN. The Clerk will read the last three lines.

The Clerk read as follows:

This Act may be cited as ''The Department of State, Foreign Operations and Related Programs Appropriations Act, 2008''.

Mr. VAN HOLLEN. Mr. Chairman, I'd like to congratulate the Appropriations Committee for putting together a bipartisan bill that provides assistance for such important issues as global health, humanitarian assistance in Sudan, the environment and peacekeeping operations around the world.

The 2008 State and Foreign Operations Appropriations bill reinforces the notion that foreign policy is about more than the use of military force and that foreign assistance and humanitarian aid are important components of foreign policy making.

The bill provides $949 million for Sudan, of which $210 million is for critical humanitarian and peacekeeping programs in Darfur. The remaining funds are for development assistance and to strengthen democratic institutions in southern Sudan.

Global health efforts also receive funding in this bill. The bill provides $5 billion for HIV/AIDS treatment, prevention and care programs around the world.

The bill also includes $501 million for clean energy and biodiversity programs worldwide. Educational and cultural exchanges receive more than $500 million to fund participation of over 42,000 individuals in educational, cultural, and professional exchange programs including Fulbright exchanges.

The bill also contains funding for programs in many countries around the world, including Pakistan.

The U.S. appreciates Pakistan's effort in the fight against global terrorism. However, President Musharraf's decision to enter into a non-

aggression pact with tribal leaders in the Waziristan region appears to have provided a safe haven for the Taliban and has led to an increase in Taliban and al Qaeda attacks inside Afghanistan. We should encourage the Pakistani Government to reconsider this policy.

As we provide additional support to Pakistan, we must also make it clear that we stand with those calling for free and fair elections. The firing of the Chief Justice of the Supreme Court Muhammad Chaudhury raises serious questions about President Musharraf's commitment to an independent judiciary and the rule of law. The U.S. must make clear to the people of Pakistan that we support the democratic process and expect President Musharraf to honor his pledge to abandon his dual role as both head of state and head of the armed forces.

The United States has long stood as a beacon for human rights, democracy, and the rule of law. That beacon has been dimmed as a result of the Bush administration's blunders and abuses in places like Iraq and Guantanamo Bay. These practices have created a perception that the United States has a double standard when it comes to the rule of law and the promotion of democracy. We must speak with a clear and consistent voice on these issues or we will continue to lose our credibility, erode our ability to influence decisions, and weaken our national security.

Mr. HOLT. Mr. Chairman, I rise today in support of the Fiscal Year 2008 State-Foreign Operations Appropriations bill and also to congratulate Chairwoman LOWEY for her impressive job in crafting a spending bill that meets our important commitments to the international community.

I would especially like to thank Chairwoman LOWEY and the State-Foreign Operations Subcommittee for including language in the Committee Report that I requested regarding the science and technology literacy and capacity in the U.S. Department of State. Additionally, the Committee Report includes language I requested supporting the variety of science fellowship programs in the Department of State, including the science-diplomacy fellows of the American Association for the Advancemnt of Science (AAAS), the professional society fellows, and the recently established Jefferson Fellows Program.

The Office of the Science and Technology Adviser to the Secretary of State (STAS) has played an important role at the Department of State since 2000. As the chief scientist at State, the Adviser has brought greater visibility to ''science for diplomacy'' and ''diplomacy for science.'' STAS has increased the number of PhD scientists and engineers employed at the Department, including AAAS fellows, professional society fellows, and most recently, Jefferson Science Fellows program.

I am glad that the Committee Report includes language applauding the work of the STAS for continuing to promote the essential role of science and technology in diplomacy. More importantly, the committee strongly encourages the Department to continue to increase science and technology capacity and literacy within the Department and the role of science and technology in our Nation's foreign policy. And the committee requests that the Secretary of State be prepared to report during hearings on the Fiscal Year 2009 request on progress made during the 2008 fiscal year.

I look forward to working with the State Department and the Appropriations Committee to ensure that advances are made to achieve these stated goals during this upcoming fiscal year.

Second, language included in the Committee Report supports the JSF and the other science fellowship programs in the Department of State and makes clear that the committee believes they are valuable programs that should be expanded in the years ahead.

As a former AAAS science fellow I know first hand about the important role that science fellows serve in helping policymakers better understand and are able to advance science and technology as a major component of diplomacy.

One such program, the Jefferson Science Fellows (JSF) program was established Secretary of State Condoleezza Rice in 2003. By providing 1-year fellowships to tenured academic scientists and engineers from our Nation's colleges and universities, the JSF program works to incorporate the American science, technology, and engineering communities into the formulation and implementation of U.S. foreign policy. Each Jefferson Science Fellow is hosted during their fellowship at the Department of State or a foreign embassy abroad. Jefferson Science Fellows are now contributing their scientific expertise to such challenging problems as nuclear non-proliferation, assessments of nanotechnology, pandemics like avian flu, and extreme weather. As the JSF program matures, this growing cadre of practicing experts with first-hand knowledge of the workings within the Department of State will be an increasingly important resource throughout the government.

Again, I would like to thank the committee for including this language and I look forward to working with the committee as we build the role of science in our Nation's diplomacy.

Mr. MORAN of Virginia. Mr. Chairman, I rise in support of the Fiscal 2008 State and Foreign Operations Appropriations Act and to express my appreciation for the significant increase in funding for trade capacity building.

This bill raises the Federal appropriation to $214 million, $87 million more than the administration requested.

Regardless of one's position on trade, helping our trading partners, particularly those in developing countries, with the financial assistance to improve enforcement of their labor and environmental laws is a good thing.

I would encourage the State and Foreign Operations Subcommittee to consider holding a hearing to assess how these funds have been effective at building capacity in these developing countries.

I think there is a good story that should be told.

Looking forward, however, we have several free trade agreements that we will be asked to consider in the next few months, Peru, Panama, Colombia, and Korea.

Three, Peru, Panama and Colombia, are with developing countries that are eligible to receive trade capacity assistance.

And while none of these agreements is a done deal, Colombia appears to be the one with the greatest level of concern.

A number of our colleagues are rightly concerned about Colombia's record on human rights and the alarmingly high number of labor leaders that have been killed in recent years.

Given this concern, I would like to see this appropriation clarify that some portion of the $214 million should go specifically to the Colombian Government, the attorney general's office, which is charged with investigating these killings and bringing the perpetrators to justice.

The attorney general has is no easy task.

President Uribe's effort to disband the paramilitary groups and bring about a peace agreement with the insurgents has made progress, but it has also overwhelmed the attorney general's office and the courts with a backlog of petitions to adjudicate.

Thousands of cases of former paramilitary soldiers and insurgents must be investigated before any seeking amnesty can be pardoned.

Only those proven innocent of any human rights abuses are granted amnesty.

I understand that the killing of labor leaders is being investigated, but the progress is slow and complicated by competing demands to clear the backlog of requests for pardons and amnesties.

I think Colombia would welcome our financial assistance to expedite the investigations into human rights abuses and killings of labor leaders.

I also think an offer of assistance would be a tangible demonstration of our willingness to help them address our concerns.

I encourage you to consider this request when you begin your discussions with the Senate on a final conference agreement.

Mr. TOM DAVIS of Virginia. Mr. Chairman, I rise today to strongly object to the reduction in assistance to Colombia and the significant redirection of funding for counternarcotic programs in this legislation.

Now is not the time to turn our backs on one of our most important democratic allies in the Western Hemisphere. We need to reaffirm, not dismantle, our commitment to these programs, to the people of Colombia, and to American citizens.

The drug trade in Colombia is a major factor in the instability in Latin America; it is killing Americans every day, and is a source of funding for terrorism in the hemisphere.

I have traveled to Colombia several times over the past few years and can say firsthand our significant investment is beginning to pay dividends. Under the leadership of President Uribe, Colombia has experienced success in fighting narcoterrorism and bringing democratic stability to the country.

Now is not the time to cut funding—when progress is being made.

We must recognize the difficult work of President Uribe and the challenges he faces with guerillas, paramilitary groups, drug traffickers, and terrorists.

Despite these difficulties, Uribe has rescued his country from a near-failed-state status and has reestablished state presence in areas of the country that for decades lacked it. Drug traffickers are being captured and extradited to the U.S. for prosecution, kidnapping rates have decreased significantly, and the Colombian people finally feel safe traveling within their own country.

We are also seeing tremendous results in illegal crop eradication, and Plan Colombia's efforts have produced record reductions in coca cultivation and in the destruction of drug labs. Each week brings news of new seizures of cocaine and heroin—interdictions that are usually the result of U.S. supplied intelligence.

Of course obstacles remain, and progress may be slower than my colleagues on the other side of the aisle would like it to be.

But now is not the time to turn our backs on this battle which is so intrinsically tied to our war on terrorism and the scourge of illegal drug use. The Uribe administration is committed to this war but it needs U.S. assistance to improve mobility, intelligence, and training.

Congress must continue to provide sustained funding for Plan Colombia and Andean Counterdrug Initiative programs and approve a free trade agreement.

The administration requested $589 million for promoting development and fighting drugs in Colombia.

Full funding of programs coupled with a free trade agreement is critical to sustaining our success in Colombia, fostering development and investment, and protecting our interests in Latin America.

It's simple, Mr. Chairman, we cannot win this war on drugs and drug-supported terrorism without the proper tools and resources.

Colombia is a key ally in an increasingly anti-American region—we must do everything we can to ensure it remains a political and economic partner.

Ms. JACKSON-LEE of Texas. Mr. Chairman, I rise in support of H.R. 2764, the State-Foreign Operations Appropriations for FY 2008 and to commend Chairwoman LOWEY for her exceptional leadership in shepherding this bill through the legislative process.

I strongly support this legislation because it is an indispensable measure in restoring America's international prestige and leadership position in the global community. Equally important, this legislation reflects what is good about America: its generosity, its concern for the less fortunate, its commitment to protecting the weak and uplifting the downtrodden, and the recognition that we live in an interdependent world. You will recall the wise counsel of the Rev. Dr. Martin Luther King, Jr., who said, ''we will either live together as brothers or we will perish as fools.''

Mr. Chairman, I support H.R. 2764 because it rests upon a solid foundation supported by four pillars or guiding principles: (1) the United States must respond to humanitarian suffering and health crises; (2) the United States should set an example for the world in providing development assistance because development efforts play a crucial role in increasing global stability; (3) the United States must continue to make addressing global HIV/AIDS a key priority; and (4) the United States must increase its efforts to support its allies in the global war on terror. This legislation accomplishes all of these goals and does so in a fiscally responsible manner. In fact, the $34.2 billion dollars appropriated in H.R. 2764 is substantially less—$700 million less—than the amount requested by the administration.

Mr. Chairman, as founder and co-chair of the Congressional Children's Caucus I am constantly reminded of the importance of programs to enhance the health of women and children the world over. In fact, the best way to improve the life chances of poor children living in the poorest countries is to elevate the quality of maternal health of their mothers.

In Sub-Saharan African countries, 1 out of every 14 girls entering adolescence will die before the end of her childbearing years. More than 11 million children will die before reaching their fifth birthday from preventable causes like pneumonia, diarrhea, measles, malaria, and malnutrition. That translates to about 30,000 children deaths a day. It is unconscionable to lose these lives when they can be saved with low-cost interventions.

Mr. Chairman, during my last visit to the United Nations I was proud to attend the United Nations Special Session on Children, where I pledged my commitment to improving the lives of children over the next decade. H.R. 2764 takes a big step toward fulfilling this commitment.

The bill provides $1.9 billion for the Child Survival and Health Programs Fund, intended to reduce infant mortality and to improve the health and nutrition of children, especially in the poorest nations. This is an increase of 25 percent over the administration's short-sighted request. In addition the bill allocates $750 million in grants to organizations that support basic education programs, $300 million for safe water programs, and $501 million for environment and clean energy programs.

Mr. Chairman, perhaps nowhere on earth is America's commitment to its fundamental values more on trial than in the crucible of human misery and suffering that is Darfur in Sudan. Since 2003, we have witnessed a systematic campaign of displacement, starvation, rape, mass murder, and terror in the Sudanese region of Darfur. In the years since the conflict began, we have commemorated the 10th anniversary of the 1994 Rwandan genocide and the 60th anniversary of the liberation of Auschwitz, but promises of ''never again'' ring empty as genocide is allowed to continue in Sudan. As violence persists despite peace treaties and African Union peacekeeping efforts, now is the time to follow admirable rhetoric with definitive action to stop the violence in Darfur.

The Government of Sudan, through both support of the Janjaweed militia and direct military action, is responsible for systematic assaults against civilians belonging to the Fur, Zaghawa, and Masalit ethnic groups. In the past 4 years, the genocide in Darfur has claimed more than 450,000 lives and has displaced well over 2 million civilians. While some of these have made their way to overcrowded refugee camps in neighboring Chad, most remain trapped within Sudan. These displaced persons are completely dependent on international aid for their survival, the arrival and distribution of which has been impeded by the Sudanese Government.

It has been nearly a year since the United Nations Security Council adopted Resolution 1706, authorizing the deployment of 20,000 U.N. peacekeepers to bolster the 7,000-strong African Union force already active in the area. It has now been over a year since I traveled to Chad and walked across the border to Sudan. I had the opportunity to meet with these African Union troops, who pleaded for expanded peacekeeping authority and the resources to protect the refugees from violence.

In addition to the ongoing suffering of civilians within Sudan, the violence has now spilled across the borders into both Chad and the Central African Republic, and is undermining any prospects for stability in the entire region. Relations between Chad and Sudan have rapidly deteriorated, and, in addition to the flood of refugees moving across the border, the two nations have become locked in a proxy war. Chadian rebel groups, based in Darfur and supported by the Sudanese Government, have been launching cross-border attacks on civilians in Chad since late 2005. Similarly, fighting between rebels and government troops has displaced over 70,000 people in the northeastern region of the Central African Republic. The situation in these neighboring nations has deteriorated to the point where the United Nations is working towards the deployment of a peacekeeping force to these two countries.

In short, the humanitarian crisis in the Darfur region of Sudan also continues. International observers, including the Bush administration, have determined what is taking place in Darfur is genocide. As we demonstrated in Kosovo, once roused to act in the face of evil, America will be resolute and triumphant. That it is why I am so pleased that H.R. 2764 provides $210.5 million for critical humanitarian and peacekeeping programs in Darfur, which is 90 percent above the President's request.

The bill also provides an additional $738.8 million, $4 million above the President's request, for Sudan, primarily for development assistance to build the economic base and strengthen democratic institutions in southern Sudan. The bill prohibits any funds for the Sudanese Government unless the Secretary of State certifies that Sudan has ended all support for Arab militias attacking black Muslims in Darfur and unless Sudan allows unimpeded access for humanitarian assistance.

Likewise I welcome the $1.3 billion in funding provided in the bill for U.N. peacekeeping missions. These funds will support peacekeeping operations throughout the world. The bill also provides $293 million, which is 31 percent above FY 2007 and 33 percent above the President's request, for targeted peacekeeping operations, missions that are of particular interest to the United States. This total includes an additional $100 million, not requested by the President, to provide critical support to the African Union Peacekeepers in Darfur.

Mr. Chairman, when it comes to HIV/AIDS, we are talking about a tragedy of epic proportions, domestically and internationally. In my home State of Texas 3,298 new AIDS cases were reported in 2006, fourth highest in the country. Texas also claims the fourth largest population living with AIDS, nearly 30,000 people or 14.7 per 100,000. Of these new cases in Texas, nearly 42 percent involved African Americans. HIV/AIDS is an issue that affects all of us, according to the U.N., 2.9 million people died of AIDS in 2006; further there are now 39.5 million people living with HIV around the world.

The $5.1 billion provided in H.R. 2764 for HIV/AIDS prevention, treatment, care programs, TB and Malaria assistance programs is desperately needed to resolve human suffering. It is also 33 percent above FY 2007

and 13 percent more than the President requested.

Mr. Chairman, as a member of the Foreign Affairs Subcommittee on the Middle East and South Asia, I know how important it is for the United States to be engaged in the quest for peace in the Middle East. That is why I am pleased that the bill provides $2.4 billion in assistance for Israel, our strong ally, and the only flourishing democracy in that region.

Another key ally, Egypt, warrants our continued assistance. H.R. 2764 provides $1.3 billion for military grants and $415 million in economic assistance. However, the bill withholds $200 million of the military grants until the Secretary of State certifies that Egypt is taking steps to address human rights concerns by reforming its judiciary and training its police, as well as addressing concerns about smuggling of weapons from Egypt to Gaza. Since Egypt has proven itself over the years to be a reliable friend and partner in the search for peace, I am confident that the Secretary of State will soon be able to make their required certification.

While there will be those who have the view that the war in Afghanistan is over and we should shift our view, the truth is that Afghanistan is as vital to our Nation now as it was shortly after September 11. Operation Enduring Freedom was a success in removing the Taliban leadership and giving the Afghan people new hope; however our work there is far from done. We must ensure that Afghanistan has a bright and productive future ahead of itself, in which peace and prosperity will be possible. The bill provides $1.1 billion in humanitarian, reconstruction and related assistance to Afghanistan—including $235 million in counternarcotics funding and $75 million for programs specifically related to helping women. The measure withholds all but $225 million of the economic support funds until the Secretary of State certifies that the national and local governments in Afghanistan are fully cooperating with U.S.-funded narcotics eradication and interdiction efforts.

Although there is legitimate concern about what appears to be the Pakistani Government's disappointing progress in the area of democratic governance and the rule of law, we must remember Pakistan has proven to be a strong ally during both the cold war and the current global war on terror. Pakistan's strategically important location and the firm support of President Musharraf have played a major role in toppling the Taliban regime and preventing it from regaining power in Afghanistan. Pakistan is an important part of our national security and critical to regional stability. The bill provides $350 million for general economic assistance and $300 million in foreign military financing for Pakistan.

Additionally, through various cooperative efforts between the United States and Pakistan, there has been a marked improvement in such fields as economic trade and investment, health care, democracy human rights, education, and science and technology.

Colombia is a vital partner and ally of the United States. Recognizing the strategic importance of Colombia as I do, I strongly support the $530.6 million provided for drug interdiction and eradication efforts in Colombia, coupled with economic development assistance for drug-affected communities in Latin America.

Finally, Mr. Chairman, let me speak approvingly about the bill's funding of key State Department operations. H.R. 2764 fully funds the President's request of $1.8 billion for ongoing security upgrades to ensure that our embassies remain safe and secure for the tens of thousands of military and civilian staff serving in roughly 260 posts worldwide. Additionally, the bill provides $501 million, which is 11 percent above FY 2007 and 3 percent above the President's request, to fund the participation of over 42,000 individuals in educational, cultural and professional exchange programs worldwide. I know the value of these exchange programs. In fact, last year I attended the 6th Annual Doha Forum in Qatar as an invited panelist at a special symposium focusing on this very subject.

To conclude, Mr. Chairman, I strongly support H.R. 2764 because it is an indispensable measure in restoring America's international prestige and leadership position in the global community. I thank Chairwoman LOWEY on her fine work in bringing this exceptional legislation to the House floor where it should receive an overwhelmingly favorable vote.

Mr. HOLT. Mr. Chairman, I rise today in opposition to two destructive amendments to the State-Foreign Operations Appropriations bill for fiscal year 2008.

First, I oppose the amendment offered by my colleague from Pennsylvania, Mr. PITTS.

This amendment will strike an essential provision in this bill for preventing the spread of HIV and AIDS around the world. Mr. PITTS' amendment would strike a provision included in the bill which give the President greater flexibility and the ability for U.S. funded HIV/AIDS programs to better respond to the epidemics in each country.

This does not have to be a pro-choice or pro-life debate. In fact, it is short-sighted for us to think of it that way. This debate should be about prevention. It should be about providing necessary tools for proper prevention including providing contraception, ensuring access to condoms and providing educational information to those in need.

We have the ability to reduce the number of cases of HIV/AIDS around the world by allowing for greater flexibility in how we implement prevention funding. Instead of taking an approach where we require that one-third of all HIV/AIDS prevention funds be spent on abstinence only programs, that are not only ineffective in preventing sexual activity, but in fact harmful to the health and well being of young women, we should be allowing for greater flexibility in how we allocate these essential funds.

The statistics on the number of cases of HIV around the world are startling. In 2006, there were 4.2 million new HIV infections. According to UNAIDS, women and girls make up half of all HIV infections worldwide. And according to the World Health Organization, unprotected heterosexual sex is the leading cause of HIV infections around the world and 80 percent of new infections in sub-Saharan Africa.

Clearly, calls for abstinence alone are not working. We must admit to ourselves that young people, whether by choice or through coercion, are engaging in sexual activity. We have the tools to prevent less unintended pregnancies. We need to use them efficiently and effectively.

In order for any HIV/AIDS prevention program to be successful, we must make sure that we use proper prevention tools like condoms and contraception. I urge my colleagues to oppose the Pitts amendment.

Further, I rise today in strong opposition to the amendment offered by my colleague from New Jersey, Mr. SMITH and my colleague from Michigan, Mr. STUPAK.

Access to contraceptives and condoms is essential to stop the number of cases of HIV/AIDS around the world. With good reasons, the Subcommittee under the leadership of Ms. LOWEY from New York has included a provision that will allow foreign organizations that are currently prohibited from received family planning assistance under the global gag rule to receive in kind contributions of condoms and contraceptives.

I believe that the global ''gag rule'' is onerous and should be lifted because it not only bans foreign non-governmental organizations, NGOs, from using their own funds to engage in free speech and assembly activities on a woman's right to choose, but it also prevents health care providers from counseling the world's poorest women about all their legal health care options.

But the provisions in this bill do not lift the global gag rule. What these provisions do is promote proper family planning information and services. As a basic prevention form of healthcare, family planning services can improve maternal and child health in developing countries, lead to better diagnosis and treatment of sexually transmitted diseases, and reduce the incidence of unintended pregnancy and abortion. The global gag rule has stopped U.S.-donated contraceptives from reaching 16 countries with people in desperate need in Africa, Asia and the Middle East. Simply allowing access to contraceptives is a small and necessary step in prevention.

I urge my colleagues to oppose the Smith amendment.

Mr. ORTIZ. Mr. Chairman, I rise in support of the Fiscal Year 2008 State and Foreign Operations Appropriations bill, through which this Congress and this government speak to the world about our international priorities.

The past decade has seen this nation pull into a shell like a turtle, something the rest of the world took as not caring about the fundamental challenges elsewhere in the world . . . before those challenges became full-fledged hot spots. We are a great Nation, a leader among nations. We must only act in that fashion. Today, we begin a new direction in foreign policy.

While this Foreign Operations bill deals specifically with our global footprint, it also has benefit for those that live near international borders. For instance, I am pleased the bill includes $15.5 million for the Rio Grande Flood Control System Rehabilitation, a matter my border colleagues and I have been working on for several years.

These funds will allow the International Boundary and Water Commission to begin repairing and restoring the 270 miles of levees along the Rio Grande River. This is only a first

step to fully restore the integrity of the levees, the cost for restoration is estimated at $125 million. These funds were requested by the South Texas Delegation, including Congressman HINOJOSA and Congressman CUELLAR.

Over the last few years, budget limitations have not allowed the IBWC to properly maintain the levees. Used by Border Patrol to patrol the border and farmers to manage their land, the levees have severely deteriorated to the point that some areas are flat. In their current form, the IBWC is unable to certify the levees meaning the 1.3 million residents along this area are in danger of severe flooding. Hurricane Katrina showed us the awesome and dangerous power of Mother Nature. This funding is critical to prevent an international flooding disaster . . . a disaster that will remain possible until all the levees are repaired so IBWC can certify them. This is—quite literally—the least we can do to begin to fix this damage.

I thank the appropriators for including this funding and their recognition of the danger that is as far away as a powerful flooding event. I urge the House negotiators to keep this amount of funding included in this bill through conference.

Ms. SCHAKOWSKY. Mr. Chairman, I rise in support of the realignment of funding for Colombia in the FY2008 State and Foreign Operations Appropriations bill. I would like to begin by thanking Chairwoman LOWEY for her leadership on the issues facing Colombia and for crafting such a forward-thinking piece of legislation.

I visited Colombia a few years ago, and learned so much about that beautiful country. On that trip I heard chilling accounts of the tragedy that our policies have created. A lot has changed since my trip, but many of the fundamental problems still exist, and in some cases, have worsened.

I heartily support the new balance of aid in the FY2008 Foreign Operations bill. As outlined in the bill, now 55 percent of aid for Colombia will go toward military functions while 45 percent will go to rural development, social development, and strengthening the judicial system. This new approach is a dramatic change that will help remedy the problems that our policies have caused.

Just this month, the Office of National Drug Control Policy announced that more than 387,900 acres of coca were detected in Colombia in 2006, an increase of 32,120 acres from the previous year. The increase in coca production is a huge blow to the proponents of Plan Colombia, which was created in 2000 to reduce drug cultivation.

This Foreign Ops bill recognizes the failure of past policies—especially our counter-drug initiatives, and moves U.S. policy in the right direction. The funding in this bill will help families persecuted by paramilitaries, farmers struggling to grow crops other than coca, those displaced by fighting, and the Colombian justice system, which is valiantly struggling to bring justice to victims of violence.

Thank you, once again to Chairwoman LOWEY. I urge all of my colleagues to support this important legislation.

Mrs. MALONEY of New York. Mr. Chairman, I rise today in support of H.R. 2764, the FY08 Department of State, Foreign Operations, and related appropriations Act.

I am pleased that the bill includes $75 million in funding for programs that address the needs of Afghan women and girls including the Afghan Independent Human Rights Commission, the Afghan Ministry of Women's Affairs, and women-led nonprofit organizations in Afghanistan. The Committee directs $15 million of these funds to be made available as grants to support training and equipment to improve the capacity of women-led Afghan NGOs as well as their activities. This funding builds upon funding for Afghan women and girls included in an amendment that I offered to the FY2004 Emergency Supplemental Appropriations bill and funding included in subsequent appropriations bills.

During the past several years, the United States has invested in the reconstruction and development of Afghanistan both because it is the right thing to do and because it is critical to our security. However, I, like many of my colleagues, am troubled by the circumstances facing women in Afghanistan. We have heard from Dr. Sima Samar, head of the Afghan Independent Human Rights Commission, that Afghan women are losing ground. Many women continue to endure hardships including targeted violence, limited mobility, illiteracy, and a high rate of maternal mortality. I also am very concerned about reports that schools continue to be targeted for violence, including dozens in the past year. Clearly, we have more work to do.

While I hope that all the aid for Afghanistan will help women, I commend the Appropriations Committee for continuing to recognize the needs of Afghan women.

I would also like to commend Chairman LOWEY for her commonsense approach to refining the Global Gag Rule. Though I support a full repeal of this harmful policy, the Lowey provision is a first step toward eliminating the Gag Rule altogether—it will allow organizations to receive contraceptives which are proven to prevent unintended pregnancies and sexually transmitted diseases, It makes sense and it's the right thing to do.

As a co-chair of the Human Trafficking Caucus and a long-time proponent of increased efforts to combat this global human rights travesty, I am pleased to note the language regarding trafficking in the report that accompanies this bill. Earlier this year, I sent a letter to the Department of State and Foreign Operations Subcommittee expressing my support for these critical initiatives to combat trafficking. The committee report includes a recommendation that the Trafficking in Persons (TIP) Office at the Department of State retain control of the monies appropriated for TIP programs and not be subject to decentralized influence of field posts and to enable the TIP Office to disburse the necessary anti-trafficking funding to grantees more quickly. The committee also recommends the addition of six full-time equivalent (FTE) positions to the TIP office so that it can effectively monitor its anti-trafficking grants and can effectively fulfill the vital, congressionally assigned responsibility given to the Senior Policy Operating Group, which it chairs, of monitoring and coordinating the domestic and international anti-trafficking grants and policies of all U.S. agencies.

The committee also has directed $14,000,000 to the Trafficking in Persons program, which is $5,300,000 above the President's request, and $6,000,000 in INCLE (International Narcotics Control and Law Enforcement) funding for activities to prevent trafficking in persons. I have worked closely with Ranking Member WOLF on this issue over the past few years, and I thank him for his leadership in the fight against trafficking and human rights abuses worldwide.

Finally, as a co-chair and co-founder of the Hellenic Caucus, I am pleased that the committee has restored funding for the Greek desk at Voice of America. Because Greece is located at the crossroads of Europe, Asia, and the Middle East, maintaining this critical program is vital to U.S. interests in this important region of the world.

I commend Chairwoman LOWEY and Ranking Member WOLF for their work in bringing this bill forward, and I urge my colleagues to support this legislation.

Mr. SALI. Mr. Chairman, I am dismayed by the votes on issues related to abortion and foreign aid.

I joined with all but 12 of my colleagues on my side of the aisle and 25 Members of the Majority in voting against legislation that would overturn what commonly is known as the ''Mexico City'' policy.

First enacted by President Reagan and sustained by the first President Bush, this policy has been, for the past 6 years, the policy of our country under our current President. Put simply, the policy says this: Federal resources provided to international family planning organizations cannot be used by them to pay for abortion or efforts to overturn pro-life laws in the countries where such groups operate.

This is entirely consistent with the Hyde Amendment, which prohibits the use of American taxpayer dollars to pay for abortions in our own country.

Yet now, only 6 months into the new Congress, the majority has decided that tying federal funding of abortions in other countries to family planning assistance is somehow acceptable.

Moreover, my friends across the aisle have enacted within the Foreign Operations Appropriations bill a provision that would make optional the requirement that 33 percent of all prevention funding be used for abstinence and marital fidelity programs.

Mr. Chairman, abstinence and faithfulness to your spouse are the only sure ways of preventing the spread of HIV/AIDS and a large number of sexually transmitted diseases. Yet now we are giving programs and groups that work against such diseases the opportunity to rely more on condoms than common sense and commitment to sexual probity.

Additionally troubling is that the State/Foreign Operations bill contained $2.4 billion for the State of Israel. This funding is especially imperative given the fact that Hamas has just gained control of the Gaza Strip.

I voted against the Foreign Operations bill because of its strange insistence that American taxpayers fund overseas abortions. That's morally wrong. It affronts the convictions of tens of millions of our fellow citizens. It is an expression of ideology, not sound foreign policy.

Mr. Chairman, Israel has no stronger supporter in Congress than me. I have cosponsored legislation to counter Iran's efforts to obtain nuclear weapons and another measure

recognizing the 40th anniversary of the reunification of Jerusalem and calling upon the President to begin the process of relocating the United States Embassy in Israel to Jerusalem. I have worked closely with my friends in Idahoans United for Israel and am proud of my association with supporters of Israel across the political spectrum.

Mr. Chairman, I urge you to bring a clean bill to the House floor so that my colleagues and I can vote for Israel and for funding for our State Department and its vital mission and for so many other important foreign relations-related programs.

The American people are weary of the legislative process being used to score political points. Both sides are guilty of this kind of maneuver and it needs to change. Support for Israel is too important for it to be held up by the vagaries of domestic politics. Let's have a clean bill and a clean vote.

Mr. ANDREWS. Mr. Chairman, I rise in strong support of the Foreign Affairs Appropriations bill passed last week, which included language authored by myself and Congressman MARK KIRK ordering the State Department to report to Congress on the feasibility of restricting gasoline to Iran. Restricting refined gasoline to Iran is one way to pressure the regime to give up its efforts to develop nuclear weapons.

Due to economic mismanagement by the Iranian government, this leading OPEC nation now heavily depends on refined gasoline from abroad to run its economy. One Dutch company, Vitol, is the main broker of Iranian gasoline imports and one British company, Lloyd's of London, insures most of the tankers transporting gasoline to Iran.

I have long advocated for economic sanctions against Iran as part of an international diplomatic effort to halt the regime's pursuit of nuclear weapons in defiance of the United Nations. An international restriction on the supply of gasoline would serve as a critical diplomatic tool to deny Iran the ability to further its efforts to acquire nuclear weapons. Therefore, I strongly urge the State Department to advocate for a gasoline embargo on Iran as a sanction at the United Nations Security Council.

Mrs. LOWEY. Mr. Chairman, I move that the Committee do now rise and report the bill back to the House with sundry amendments, with the recommendation that the amendments be agreed to and that the bill, as amended, do pass.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mrs. TAUSCHER) having assumed the chair, Mr. POMEROY, Acting Chairman of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 2764) making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2008, and for other purposes, he reported the bill back to the House with sundry amendments, with the recommendation that the amendments be agreed to and that the bill, as amended, do pass.

The SPEAKER pro tempore. Pursuant to House Resolution 498, the previous question is ordered.

Is a separate vote demanded on any amendment reported from the Committee of the Whole? If not, the Chair will put them en gros.

The amendments were agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the bill.

Under clause 10 of rule XX, the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 241, nays 178, not voting 13, as follows:

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. JOHNSON of Georgia (at the request of Mr. HOYER) for today after 7:30 p.m.

Ms. NAPOLITANO (at the request of Mr. HOYER) for today after 8:00 p.m.

Mr. ABERCROMBIE (at the request of Mr. HOYER) for today from 2:30 p.m. until 4:30 p.m.

Mr. SULLIVAN (at the request of Mr. BOEHNER) for today on account of a long-standing family commitment.

Mr. BONNER (at the request of Mr. BOEHNER) for today and tomorrow on account of traveling to Alabama with the President of the United States and the First Lady.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. HOYER) to revise and extend their remarks and include extraneous material:)

Ms. WATERS, for 5 minutes, today.

Ms. WOOLSEY, for 5 minutes, today.

Mr. DEFAZIO, for 5 minutes, today.

Mr. DAVIS of Illinois, for 5 minutes, today.

Ms. KAPTUR, for 5 minutes, today.

Mr. SESTAK, for 5 minutes, today.

BILLS PRESENTED TO THE PRESIDENT

Lorraine C. Miller, Clerk of the House reports that on June 20, 2007, she presented to the President of the United States, for his approval, the following bills.

H.R. 57. To repeal certain sections of the Act of May 26, 1936, pertaining to the Virgin Islands.

H.R. 692. To amend title 4, United States Code, to authorize the Governor of a State, territory, or possession of the United States to order that the National flag be flown at half-staff in that State, territory, or possession in the event of the death of a member of the Armed Forces from that State, territory, or possession who dies while serving on active duty.

ADJOURNMENT

Mr. HOYER. Madam Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 12 o'clock and 33 minutes a.m.), the House adjourned until today, Friday, June 22, 2007, at 9 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

2277. A letter from the Acting Director, Office of Surface Mining, Department of the Interior, transmitting the Department's final rule—Maryland Regulatory Program [MD–055–FOR] received June 12, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2278. A letter from the Deputy Assistant Administrator For Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries Off West Coast States; Coastal Pelagic Species Fisheries; Reporting Requirements and Conservation Measures [Docket No. 061127309–7100–02; I.D. 110706D] (RIN: 0648–AU72) received June 13, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2279. A letter from the Deputy Assistant Administrator For Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Northeastern United States; Atlantic Sea Scallop Fishery; Interim Rule Extension [Docket No. 061213334–6334–01; I.D. 120806B] (RIN: 0648–AV05) received June 13, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2280. A letter from the Acting Director Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule—Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Closure of the 2007 Deep-Water Grouper Commercial Fishery [Docket No. 040205043–4043–01] (RIN: 0648–XA46) received June 13, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2281. A letter from the Regulations Coordinator, Department of Health and Human Services, transmitting the Department's final rule—Section 506 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003—Limitation on Charges for Services Furnished by Medicare Participating Inpatient Hospitals to Individuals Eligible for Care Purchased by Indian Health Programs [CMS–2206–F] (RIN: 0917–AA02) received June 15, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

2282. A letter from the Chief, Trade and Commercial Regulations Branch, Department of Homeland Security, transmitting the Department's final rule—United States-Singapore Free Trade Agreement [USCBP–2007–0057; CBP Dec. 07–28] (RIN: 1505–AB48) received June 13, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

2283. A letter from the Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting the Service's final rule—Industry Director Directive #1 on Backdated Stock Options [LMSB Control No. 04–0407–036 Impacted IRM 4.51.5] received June 13, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Ways and Means.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. GORDON: Committee on Science and Technology. H.R. 2313. A bill to establish research, development, demonstration, and commercial application programs for marine renewable energy technologies; with an amendment (Rept. 110–202). Referred to the Committee of the Whole House on the State of the Union.

Mr. GORDON: Committee on Science and Technology. H.R. 2304. A bill to direct the Secretary of Energy to conduct a program of research, development, demonstration, and commercial application for geothermal energy, and for other purposes; with an amendment (Rept. 110–203). Referred to the Committee of the Whole House on the State of the Union.

Mr. FRANK: Committee on Financial Services. H.R. 1980. A bill to authorize appropriations for the Housing Assistance Council (Rept. 110–204). Referred to the Committee of the Whole House on the State of the Union.

Mr. FRANK: Committee on Financial Services. H.R. 1982. A bill to authorize appropriations for the rural housing and economic development program of the Department of Housing and Urban Development; with an amendment (Rept. 110–205). Referred to the Committee of the Whole House on the State of the Union.

Mr. FRANK: Committee on Financial Services. H.R. 2139. A bill to modernize the manufactured housing loan insurance program under title I of the National Housing Act; with an amendment (Rept. 110–206). Referred to the Committee of the Whole House on the State of the Union.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions were introduced and severally referred, as follows:

By Mr. DOYLE (for himself and Mr. TERRY):

H.R. 2802. A bill to implement the recommendations of the Federal Communications Commission report to the Congress regarding low-power FM service; to the Committee on Energy and Commerce.

AMENDMENT NO. 63: At the end of the bill (before the short title), insert the following:

SEC. ___. None of the funds made available in this Act may be used to provide a United States contribution to the United Nations Relief and Works Agency (UNRWA).

H.R. 2764

OFFERED BY: MR. PENCE

AMENDMENT NO. 64: At the end of the bill (before the short title), insert the following:

SEC. ___. None of the funds made available in this Act may be used to provide direct aid to the Palestinian Authority, except as otherwise provided by existing law.

SENATE—*Thursday, June 21, 2007*

The Senate met at 10:30 a.m. and was called to order by the Honorable BARACK OBAMA, a Senator from the State of Illinois.

PRAYER

The PRESIDING OFFICER. Today's opening prayer will be offered by guest Chaplain, Pastor Linda Arey, New Harvest Church, Waynesboro, VA.

The guest Chaplain offered the following prayer:

Let us pray.

Father God, we acknowledge You as the Ruler of all nations and we pray for peace and justice in our world.

We pray First Timothy 2:1–4:

I exhort therefore, that, first of all, supplications, prayers, intercessions, and giving of thanks, be made for all men; for kings; and for all that are in authority; that we may lead a quiet and peaceable life in all godliness and honesty. For this is good and acceptable in the sight of God our Savior, who will have all men to be saved and to come unto the knowledge of the truth.

Father, I pray for our President and First Lady. Bless them this day and give them the wisdom to do all that is set before them.

I pray for the Senate, to have Your wisdom to accomplish all that is set before them. Bless them for their commitment to serve the people of our Nation and to carry out their duties.

Father, in Jesus' name I call this United States of America blessed. In Jesus' name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable BARACK OBAMA led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, June 21, 2007.

To the Senate:

Under the provisions of rule I, paragraph 3 of the Standing Rules of the Senate, I hereby appoint the Honorable BARACK OBAMA, a Senator from the State of Illinois, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. OBAMA thereupon assumed the chair as Acting President pro tempore.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

PRESIDENTIAL VETOES

Mr. REID. Mr. President, Senator ENSIGN and I hold, every Thursday, in a room right off the Chamber, in the Johnson Room, the LBJ Room, a breakfast where we have Nevadans come and visit with us.

Today it was a larger crowd than we usually have because school is out. Even if it were not a larger crowd, there were a lot more kids there.

One of the young people who was there is Anna Ressell. Anna is from Sparks, NV. She came to see me the day before yesterday with some other Nevada girls because she is a diabetic. She was there today with all of her family—a wonderful child. She is 13 years old.

During her lifetime, this young lady has had 20,000 finger pokes, 35,000 injections. She is a diabetic, I repeat. Think about that. When we go to the doctor and they draw blood or give you a shot, we always wince because it hurts. We try to have a backbone of steel, but it hurts. This young lady has had 20,000 finger pokes to determine what her blood sugar levels are and 35,000 injections.

That is why it is so sad, when we see this young girl with her family, that that hope has been taken away. She came here with these other girls to talk about the need for stem cell research.

The President, yesterday, in his message to the Senate, snuffed out hope for tens of thousands of people in Nevada, people such as Anna and many others suffering from Parkinson's, Alzheimer's, spinal cord injuries—millions of Americans. Their hope was snuffed out with the President vetoing this bill. It is too bad.

I also think it is so important that I mention to everyone, as I said on the floor—I get up every morning and do my exercises and listen to public radio. I get the news at the top of the hour and the middle of the hour. I try to be up to date on what is going on in the world today that is not in the morning newspaper.

It was not on the morning news this morning, the tragic, sad news from Iraq, that 14 more of our soldiers were killed in the last 36 hours—14. I don't know if any are from Nevada.

Meanwhile, we see further evidence that the Iraqi leaders are frozen in an increasingly dangerous stalemate. The Vice President resigned. The fact is, our troops are caught in the middle of this civil war in faraway Iraq, trying to give Iraqi leaders the space and security to bring their country together. We have 160,000 to 180,000 troops there now, protecting the Shias, protecting the Sunnis, protecting the Kurds. They are all after our soldiers.

Unfortunately, Iraq's leaders continue to drag their feet, while our troops are getting killed; 14 more brave American soldiers.

But the problems aren't just in Iraq. The Middle East is engulfed in civil war in Lebanon, civil war in Iraq, civil war among the Palestinians. The Israelis do not know where to turn. Iran is thumbing its nose at us.

That is why we have fought so hard, as Democrats, and will continue to fight, to change the course in Iraq. We need a new mission, one that is aligned with our strategic interests. We need to begin redeploying our troops from Iraq so we can reduce our large combat footprint and extricate forces from this Civil War.

We need more than two Republicans to help us. We have had two, and I so appreciate that. They made it so we were able to pass a bill, send it to the President, and he vetoed it. We need more.

I have signaled to my colleagues that the Defense authorization bill will be coming up shortly. We intend to wage our battle on Iraq, changing the course of the war in Iraq.

SCHEDULE

Mr. REID. This morning, under an order entered yesterday, the Senate will resume the energy legislation. We will have 70 minutes of debate on the matter of the Kyl amendment, which is No. 1733, and a motion to invoke cloture on the Baucus-Grassley energy tax amendment, with that time equally divided and controlled. Once the time is used or yielded back, the Senate will conduct two rollcall votes: The first vote will be in relation to the Kyl amendment, followed by cloture on the Baucus-Grassley amendment. As Members are aware, if cloture is invoked on the Baucus amendment, then post-cloture time runs and the second-degree amendments which have been

timely filed and are germane postcloture are in order. The filing deadline for germane second-degree amendments is 11 a.m. this morning, 20 minutes from now.

The ACTING PRESIDENT pro tempore. The Senator from Arizona.

ORDER OF BUSINESS

Mr. KYL. Mr. President, to advise those on the other side how Senator DOMENICI and I intend to divide our time, I have 15 minutes. I think what I will do is take 5 minutes right now and then defer to Senator DOMENICI for his 20 minutes. Then I will conclude. Of course, the majority will be fitting their time in there as well. That is what we intend to do.

CREATING LONG-TERM ENERGY ALTERNATIVES FOR THE NATION ACT OF 2007

The ACTING PRESIDENT pro tempore. Will the Senator suspend to allow the Senate to report pending business.

Under the previous order, the Senate will resume consideration of H.R. 6, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 6) to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

Pending:

Reid amendment No. 1502, in the nature of a substitute.

Reid (for Bingaman) amendment No. 1537 (to amendment No. 1502), to provide for a renewable portfolio standard.

Klobuchar (for Bingaman) amendment No. 1573 (to amendment No. 1537), to provide for a renewable portfolio standard.

Bingaman (for Klobuchar) amendment No. 1557 (to amendment No. 1502), to establish a national greenhouse gas registry.

Corker amendment No. 1608 (to amendment No. 1502), to allow clean fuels to meet the renewable fuel standard.

Cardin modified amendment No. 1520 (to amendment No. 1502), to promote the energy independence of the United States.

Collins amendment No. 1615 (to amendment No. 1502), to provide for the development and coordination of a comprehensive and integrated U.S. research program that assists the people of the United States and the world to understand, assess, and predict human-induced and natural processes of abrupt climate change.

Baucus amendment No. 1704 (to amendment No. 1502), to amend the Internal Revenue Code of 1986 to provide for energy advancement and investment.

Kyl-Lott modified amendment No. 1733 (to amendment No. 1704), to provide a condition precedent for the effective date of the revenue raisers.

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be 70 minutes of debate equally divided prior to a vote in relation to amendment No. 1733, offered by the Senator from Arizona, Mr. KYL, and the motion to invoke cloture on amendment No. 1704, offered by the Senator from Montana, Mr. BAUCUS.

The Senator from Arizona is recognized.

AMENDMENT NO. 1733

Mr. KYL. Mr. President, resuming debate on the amendment which I offered, the amendment is very straightforward. It simply says that notwithstanding the tax increases, $28.6 billion in tax increases in the amendment pending on the floor, they shall not take effect unless the Secretary of Energy certifies that those tax increases will not increase retail gasoline prices or the reliance of the United States on foreign sources of energy.

The point of the amendment is to make it clear that sometimes tax increases on business can be passed on to consumers. If that happens in this case, we are going to see higher gasoline prices at the pump, not lower prices. One of the concerns many of us have with the underlying bill is it doesn't produce any new energy. Yet it spends $28.5 billion. To make up for that spending, it taxes an additional $28.6 billion.

Somebody has to end up paying that tax. Most people in America know that when you put a tax on a business, that gets passed on to the consumers who buy the product—in this case, gasoline. So instead of reducing gasoline prices, this bill, if the underlying amendment passes, is going to add to the cost of gasoline.

Yesterday I mentioned a Heritage Foundation study that confirmed that what I was saying was not simply my opinion but the facts as a result of a study that the Heritage Foundation had done. I would like to expand on that a little bit because we actually have the figures for two States, the State of the chairman of the committee, Montana, and my State of Arizona, to illustrate the point.

The study projects that gas prices in Montana, for example, in May averaged at $3.17 per gallon. They would be $3.48 per gallon next year as a result of the Energy bill before the Senate. A Montana taxpayer would see spending on gasoline increase by $1,632.95 next year, as a result of the bill.

In Arizona, we are paying about $3.09 per gallon. That would go up to $3.40 next year as a result of this bill, so Arizona taxpayers will see spending on gasoline increase by $1,140.51 next year as a result of this Energy bill. That is a huge increase in consumers' payment for gasoline. When we realize that for many people driving is not a luxury, it is a requirement—to get to work or perform work—it is clear we are costing the American consumer a huge amount of money that is important for our economy and for them to make a living. That is an unintended consequence of the tax increases embodied in this bill but real nevertheless.

What we are saying is, if that is the result of tax increases, then those tax increases would not go into effect. I think that is an important principle for us to establish.

I would like to respond to a couple of points made by opponents of my amendment. The chairman of the Finance Committee argued the tax increases in the underlying bill are simply loophole closers, but that is not true. The largest tax increase in the bill is a brandnew tax. It is not a loophole closer, it is a new 13-percent tax on new oil production in the Gulf of Mexico. How is that going to help bring down gasoline prices? I suggest it is not. It will help to raise prices.

The second largest tax increase in the bill raises the corporate tax rate. That is not a loophole closer either, it is simply needed to pay for the other costs of the bill, so it was a ready source of revenue that they decided to tap.

This is a raise in the corporate tax rate for oil and gas companies, which would then make it higher on those companies than others in manufacturing—something we were trying to promote when we passed the bill 2 years ago.

Raising the corporate tax rate is obviously not a loophole closer. I suggest when you raise marginal tax rates, you either get less production or higher prices—more likely, both—not good results from raising taxes.

Finally, the Senator from Oregon argued yesterday that with oil over $55 a barrel, oil companies should not need incentives to drill for new oil and gas. I certainly agree with that; they do not need any new incentives to drill for oil and gas. I have always been against those kinds of targeted incentives or taxpayer subsidies for any form of energy. But imposing a new tax or raising the corporate rate is not the same thing as repealing targeted incentives, which is what we should be doing. Moreover, with oil over $60 a barrel right now, renewable energy companies should not need any further taxpayer subsidies either. The market is providing all the incentives necessary to produce hybrid cars and advanced fuels.

These tax increases are not necessary. They are going to be counterproductive to our economic growth. They are going to hurt our producers vis-a-vis foreign producers, they are going to further increase our dependence on foreign oil and, most importantly, they are going to raise the cost of gasoline at the pump for American consumers.

All my amendment says is if that happens, then these tax increases should not go into effect. If it doesn't have that effect, then the tax increases would go into effect.

I urge my colleagues to support my amendment.

I reserve the remainder of my time.

The ACTING PRESIDENT pro tempore. The Senator from New Mexico.

Mr. DOMENICI. Mr. President, I rise today to oppose the Baucus amendment and urge my colleagues to vote against cloture.

There are only two things wrong with the Baucus amendment: One, it raises taxes in the wrong places; and, secondly, it spends these taxes on the wrong policies. I want to make two points upfront before I start my remarks.

When we speak of American big oil, let me remind people that America's five big oil companies hold less reserves than Hugo Chavez, the state-owned company of Hugo Chavez in his country.

My second point is, very seldom does the United States tax businesses that are in competition overseas. Let me repeat that. We in America hardly ever tax American businesses that are in competition overseas. Of course, that is exactly what we have done here, and what is going to happen is not going to be good. It is not going to help the American consumer one bit.

There are only two things, as I indicated, that are wrong with the Baucus amendment. I would repeat: It raises taxes in the wrong places, and then it spends them on the wrong policies.

I cast this vote, and I think it is an informed vote based on my experience. It is with a deep sense of responsibility to do what is right, with a keen interest and understanding of energy policy, because I have been forced to work on it with many who know a lot about it. With a real appreciation of the importance of this vote, I will oppose cloture.

The tax provisions in this bill will increase the cost of gasoline at the pump for Americans, increase electricity bills for families, and work severe hardship on our natural gas supply. Additionally, this amendment could seriously harm our economy. The Federal Reserve Chairman, Ben Bernanke, recently noted that: A significant increase in energy prices can simultaneously slow the economy, and raise inflation.

I cannot vote for that consequence. I urge that my colleagues not do so either. I do not cast this vote lightly, and I arrive at the decision after a great deal of reflection. There are many good and important provisions contained in this amendment. In the area of renewable energy, while there may be questions about how long certain tax credits should be extended, there should be no doubt that in the past I have supported renewable energy.

In the Energy Policy Act of 2005, with Senator BINGAMAN, we passed the largest tax incentives for renewable energy, a variety of renewable energies, than we ever have in American history. My friend and colleague Senator ALEXANDER has often referred to the bill that we passed as the ''Clean Energy Act.'' He is right. In 2005, in the Energy Policy Act we provided renewable energy production tax credits, automobile tax credits, and we can keep going. We provided tax credits for energy efficient improvements, biodiesel, and for ethanol. We included tax credits for installing alternative refueling property, tax credits for the installation of solar. The world demanded cleaner energy, and the Energy Policy Act answered the call.

Between 2004 and 2006, global private capital investment in clean energy rose from around $30 billion to $60 billion a year. It rose because we set the framework into law, and it was invested on the private side. In the public market and in venture capital and in private equity, in corporate research, development, and demonstration, and government research and development and asset financing, the answer has been the same. Both the private and public sector are excited about the future of clean energy, and they are busy, under our 2005 act, investing heavily in it.

The weakness is in the amendment I am talking about. Without question, some of the tax incentives in this bill could have a positive impact on the landscape of American energy future. To deny that would be to debate unfairly the merits of this amendment.

Cellulosic ethanol production credits, plug-in hybrid vehicle credits, and clean coal energy bonds are smart financial incentives, and those tax policies complement many of the goals we have sought to achieve in the previous legislation. I think that is good.

Supporting the great things that we accomplished together in the Energy bill 2 years ago made us all feel good. However, the tax incentives in this bill focus on too narrow a field of energy policy. The Finance Committee has reported this amendment with a pricetag of $32.1 billion, a very large tax increase. In a few minutes I will speak about the troubling revenue-raising proposals in this amendment.

But, first, I ask myself and I ask others, so our people would get a feeling of what $32.1 billion is, what it can be better used for or what it might be used for in the American economy if it were free to be invested or other things bought with it: $32.1 billion would purchase 15 biorefineries, 16,000 barrels-per-day coal-to-liquid refineries, 5 gasoline refineries, and 4 nuclear powerplants, 10 bio-energy research centers, and 500 miles of transmission lines.

Now, I am not suggesting we would buy them with this bill, but I am suggesting that everyone should know the huge size of this tax, taken out of the economy, and what it would invest in similar dollars, that it could invest in the American economy. I just told you what they were.

We could use this money for commercial demonstrations in oil shale, fund demonstrations for energy from coal using IGCC, and we all know we must do that. We do not have any money to do them, and we are having difficulty getting loans from the Government, and here we are taking $32 billion and not providing anything for these kinds of investments that we must do if we are going to keep pace with China, which is going full speed ahead with all of those things, including nuclear power, and nuclear powerplants in this country. We must get there also.

But in the meantime, we are taking an awful lot of revenue flow out of the economy, right away from the energy companies that know how to invest it, where to invest it, how to pick up reserves, and how to keep the price of oil as much within bounds as the world market will permit.

Without question, the revenue-raising proposals in the amendment will increases the cost of exploring for and producing our Nation's oil and gas and natural gas. As a result, Americans will pay higher prices for gasoline at the pump, and we will suffer increased electricity costs as our Nation's natural gas supply is weakened. We will pay higher prices, obviously, for natural gas.

The excise tax on oil and gas exploration increases taxes $10 billion over 10 years on producers on our Nation's Outer Continental Shelf. Frankly, I believe that entire tax is wrong. We should not be taxing the most productive—the places where more money is being put for exploration than anywhere else, the Outer Continental Shelf. Yet one-third of the taxes here come from imposing a fee, a very high fee, on the Outer Continental Shelf. Who would have thought it? The place in America where we have a chance of producing, we have imposed a heavy tax. Proponents of this amendment claim these tax provisions only affect the five largest U.S. oil and gas companies. Not true. But I have already told you who they are and what they represent in the world markets.

In fact, there are 40 lessee companies. Nearly 75 percent of all entities leasing on the OCS hold leases that would be subject to a 13-percent punitive tax. I hardly thought I would see that on the floor of the Senate. Yet here it is, bragged about as a very big source of money that we can do other things with, without regard to the prices the American people are going to pay in the increased prices for oil and gas coming from the shelf.

This is the lifeblood of our domestic oil and gas production. It makes absolutely no sense to advocate for independence from foreign oil, and then turn right around and raise taxes on our domestic companies that are producing America's oil and natural gas.

It will mean higher prices for consumers.

Oil and gas production in the Outer Continental Shelf amounts to approximately 1.7 million barrels of oil per day, and 12½ billion cubic feet of natural gas. Annually, this production equals approximately 600 million barrels of oil per year and 4.7 trillion cubic feet of natural gas per year.

Now, that is good. They are doing fine. So why don't we put a tax on them of 13.5 surtax? It makes no sense. The price will go up, production will come down. These amounts produce 30 percent of our domestic oil production per year, and 23 percent of our domestic natural gas. Placing a punitive tax on this production is serious business backed by very serious facts, and I say serious consequences.

Activities on the OCS provide an average of over $6 billion a year in revenue to the Treasury. In the future the offshore will be even more important. The Minerals Management Service estimates about 60 percent of the oil and 40 percent of the natural gas resources estimated to be contained in remaining undiscovered fields in the United States are located where? Where might you guess? In the Outer Continental Shelf, upon which we are going to place a very stiff, very high tax.

Furthermore, the intent of the OCS excise tax and the effect of this tax is crystal clear. The provision charges 13 percent of the removal price of taxable crude oil and natural gas, with a credit available to those who have price thresholds on their oil and natural gas leases. In plain English, this amendment seeks to legislatively breach valid contracts from 1998 and 1999, because the Clinton administration failed to include a term in these agreements.

In other words, there was no fault of the companies. The Clinton administration either made a mistake or did not want to put the fee on; it just didn't happen. So for those 2 years, we have royalty leases with no royalty thresholds.

Congress cannot rewrite contracts after the fact merely because we do not like the contracts or the results. I predict when we are all finished, the courts of the land are going to say: This part of this tax is illegal and unconstitutional, and out the window will go a very large portion of this tax because the rights are clearly there. We have to think about it and think about what we are doing.

I do not like the idea of the United States of America going back on its contracts. It sounds and looks and smells like some foreign country. But we are close to doing it here in the name of some new answer, and at the same time saying it is going to yield revenues for us to use for various things in this bill.

As we consider this amendment, the Senate should be on notice that legal precedent would not be on our side. The U.S. Supreme Court and Federal circuit court precedents suggest that the Government cannot avoid the obligations of its contracts by using its taxing power to take back benefits it has given up pursuant to an agreement. I suggest to the Senate that a Federal court will recognize this tax for what it is and, therefore, this $10 billion we are counting on in this bill will be lost.

The Department of the Interior has already testified before Congress expressing its concern about protracted litigation over this issue and the potential for a loss of billions in revenue as well as the delay of oil and gas production.

There are 2 other provisions among the revenue raising proposals that are very troubling. One provision would amend the Job Creation Act of 2004, which created tax relief for more than 200,000 U.S. corporations and businesses. This proposal increases taxes by almost $10 billion over 10 years.

Instead of the Jobs Creation Act, we could call this provision the Jobs Destruction Act.

Finally, the increase in taxes by the U.S. Government on American companies competing overseas—through the foreign oil tax provision—increases taxes $3.1 billion over 10 years.

This amendment also attacks American interests and cedes control to foreign interests. It says we would rather buy energy from the likes of Hugo Chavez in Venezuela than produce it ourselves.

To put the proper context on this, Saudi Aramco, the Saudi Arabian state-owned oil company, has nearly 3 times more daily output per million barrels per day than the largest U.S. oil company and holds nearly 10 times the oil and natural gas reserves.

To make it more difficult for American companies to compete overseas for this global commodity at a time when oil prices are nearly $70 per barrel is simply wrong. The Senate should reject this political expediency that will hurt American businesses, and the American consumer.

I began my remarks by conveying to this Senate the seriousness with which I cast this vote.

In my judgment, this amendment will have significant negative consequences on America's energy security. The Baucus amendment will increase the cost of producing oil and gas in America and will undermine the ability of American businesses to compete against state-owned oil companies run by foreign governments. The result for our Nation will be a greater reliance on crude oil from hostile regions of the world and an increase in the price of gasoline for the American people.

That is an unacceptable consequence and not what the American people expect of us.

For the reasons that I have stated, I must vote no on the motion to invoke cloture on the Baucus amendment, and I urge my colleagues to do the same.

The PRESIDING OFFICER (Mr. BROWN). The Senator from Idaho.

Mr. CRAIG. How much time remains?

The PRESIDING OFFICER. Eight minutes.

Mr. CRAIG. I thank the Senator for yielding.

I come to the floor to oppose the tax that has been proposed and is now before us brought by the Finance Committee.

It is very easy politically to stick it to the big boys, and that is the political game which is being played out on the floor of the Senate as we speak. Stick it to the big boys. OK, we are going to stick it to the big boys, $32.1 billion worth of taxes. What will it do for us? Will it change the price at the gas pump today? No. In fact, we have just heard the Senator from New Mexico say it could possibly raise the price of gas in the long term. Hasn't this Senate heard the plea of the American consumer over the last 6 months about $3 gas? Don't we get it today or do we just want to play petrol politics? That is what the Finance Committee has done; they have played petrol politics. They are sticking it to the big boys, and they are going to put it in the green machine. The green machine may yield some energy in the future, but it sure isn't going to change the price at the gas pump tomorrow or the next day or next week or next year. If they argue in disagreement with me, my answer is simple: Prove it. Prove that you will change the price at the pump. Or will the big boys simply try to pass it through to the consumer? We will find out, won't we, if this bill passes. That is why I am going to have to oppose cloture on the Baucus provision of taxes, the petrol politics of this issue.

Let me show you the petrol politics of the real issue. Here is where the reserves in the world exist today. Here are the big boys of America—Exxon, Chevron, Marathon. Do we really think if we stick it to these three and more we will change the world? No. The world today from the standpoint of energy is controlled over here on the left-hand side of the chart. It is controlled by Saudi Arabia, Iran, Iraq, and so on down the line. They control the known reserves. They control the world's oil supply. They are the big boys. We are not sticking it to them. In fact, we are handing them a golden leaf. We are saying: You control the world oil supply, and we are dependent upon you for 60 percent of our supply. But we are going to penalize our producers because of the petrol politics of this issue.

There is another petrol game being played out. Petrol politics is being played out on the floor of the Senate, but petrol nationalism is being played

out by these companies and countries of known reserve. Every one of these producers controls their supply; their nation's government and their nation's government's companies control the supply of oil. They can turn the valve on or off. Every time they do, the American consumer ultimately pays more. That is called petrol nationalism. I believe when we talk about the war of energy today, that is what we are involved in. We are involved in a war on who can produce energy and can we become energy secure so that we don't have to be dependent upon Saudi Arabia and Iraq and Iran.

We know what is happening in that area of the world today, the phenomenal instability. Not only do these nations play petrol nationalism, they also play with something else: They have the weapon of mass disruption. Let me repeat that. These nations hold the weapon of mass disruption. You change the price at the pump a couple of dollars because you turn the valve off in these countries, and you hit this economy like a freight train.

What are we going to do today? We are going to tax it a little more. That is all this Congress really knows how to do, is tax. They don't know how to produce. We don't produce. We get out of the way of production. We encourage production, but this bill will not produce one barrel of oil. ExxonMobil will produce a barrel of oil. Chevron will. Marathon will. The rest of these countries will. But we don't. We are now stepping in the way of that production. We are now penalizing that production.

The senior Senator from New Mexico talked about where the greatest reserves of America lie today—offshore. Yet we are saying: If you want to play out there, if you want to go out, find it, drill, we are going to tax you. We are going to penalize you instead of encourage you and incentivize you to discover, to bring it to the wellhead and to bring it to America's shores and to refine it for the American consumer.

Anybody in a reasonable way who doesn't want to play the political game being played out on the floor as we speak—petrol politics—needs to vote no on cloture.

If the American consumer thinks these companies are going to pay the $32.1 billion in taxes, they have it wrong. They are going to pay it at the pump. The Baucus bill pumps tax dollars out of the back pocket of the American consumer. It does not allow oil to be pumped out of the ground. It does not allow us to hold a stronger political position in the world of petrol nationalism. That is the debate we are going through right now. It is about windmills. It is about cellulosic. It is about all the things I like. But it really isn't. It is antiproduction. It is anticonsumer. It is anti-American to deny our Nation's economy access to the world energy supply. That is what we are doing. Let's allow Saudi Arabia and Iraq and Iran to grab us by the gas nozzle and jerk us around every time they choose. This tax package suggests that could start again tomorrow because we are not going to get ourselves back into the business of production.

I yield the floor and retain the remainder of my time.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Mr. President, this is a very interesting series of statements we have heard in the last 15 minutes, half hour, statements basically trying to lead Americans to believe that this Finance Committee tax package, as well as the provisions of the tax package to pay for incentives so we can wean ourselves away from OPEC, away from all these countries, is going to result somehow in some cataclysmic event; namely, gasoline prices are going to go up, according to statements we have heard. We have also heard that we are going to reduce domestic exploration and development of American oil companies; we are putting ourselves in the hands of foreign countries. The fact is, the exact opposite is the case. These statements are amazing. It is good political rhetoric, but it has nothing to do with the facts.

First, it is more important that people understand that the amendment offered by the Senator from Arizona, Mr. KYL, basically delegates to the Secretary of Energy whether $30 billion worth of tax provisions will be enacted. I am astounded that anybody in the Senate wants to delegate that decision to the Secretary of Energy instead of the U.S. Congress deciding whether the tax needs to be imposed.

The Kyl amendment basically says that unless the Energy Secretary can determine that the effect of this will not increase the price of gasoline at the pump, that he, the Energy Secretary, or she, the Energy Secretary—whoever the Energy Secretary is—will automatically be forced to rescind the pay-fors in this bill. That is astounding. It is basically delegating to the Energy Secretary a policy which should be made by the Congress, and that is a huge dereliction of responsibility. I am appalled that anybody would dare suggest it. But that is a fact.

Second, if we look at the whole bill, the Finance Committee package in the Energy bill and also the Kyl amendment, several things are striking. The first is the major underlying Finance Committee bill is designed to accomplish the objective that the Senator from Idaho is complaining about. The Senator from Idaho is complaining that this amendment transfers power to Venezuela or to Saudi Arabia, other countries. The whole point of this bill is the exact opposite. It is to wean ourselves away from OPEC, wean ourselves away from those countries, so that we Americans are in a better position to determine our own destiny, in a better position to get more energy production here in America.

How do we do that? The committee bill does that through all kinds of incentives. It reduces taxes in lots of different ways for alternative energy, renewable energy, cellulosic development, encouraging more American clean coal technology so we can tap into our vast reserves of coal. It has lots of ways we could help America be more self-sufficient and wean ourselves away from these very high gasoline prices we are forced to pay partly because OPEC is forcing us to pay those prices; the truth is, partly because the major oil companies are charging whatever the market will bear. That is why they are charging such high prices to the American consumer. What evidence do I have of that? It is very simple and direct.

I was stunned because of the candor of the CEO of ExxonMobil when he made this statement. This was last year at a Judiciary Committee hearing. I was not there; I was watching on C–SPAN. At that hearing, the exchange was essentially between the Senator from Wisconsin, Mr. KOHL, and the CEO of Exxon. I think Senator KOHL asked the question. This was an open hearing.

He said: Sir, why are gasoline prices so high now?

The answer: Well, Exxon has to pay more because OPEC is charging us more. So we to have pay more, and we transfer those price increases down to the American consumer.

The Senator from Wisconsin asked the head of ExxonMobil: Explain this to me, please. At the same time, your profits have exploded. They have gone up about $35 billion this year. Your profits have expanded.

Senator KOHL said: I am a businessman. Ordinarily, if my costs go up, my profits go down. Please explain to me why you would say your costs are going up because OPEC is charging you more and yet your profits are going way up. Why?

His answer was very illustrative of the point here. He said, in all candor: Senator, my responsibility is not to the American consumer; my responsibility is to my stockholders. I will charge whatever the market will bear because I have a duty to protect my stockholders and get whatever I can for my stockholders. I am going to charge whatever I can.

That is why profits are so high, because Americans can't put milk in their car or their truck. They can't put in water. They have to put in diesel fuel or gasoline. Americans are stuck. The majors are passing on through their distribution system these very high gasoline prices because they can get away with it and because it fattens profits and because they are beholden

to stockholders, not the American consumers.

What about these provisions which the Senator from Arizona wants to strike. There are three of them. It is very simple, and there is a reason why they are there and why they will not have the disastrous effect the Senator from Arizona claims.

The first one is to rescind a tax break we gave to the five major oil companies back in 2004. It is called section 199.

We gave that tax break, frankly, to all American domestic manufacturers, including the oil companies. It was as a response to a WTO ruling a year or two earlier which said our American tax laws—which gave incentives for American products to be exported—were WTO illegal. So we came up with a backup plan. The backup plan was basically section 199 in the code, enacted in the 2004 Jobs Act, which says, OK, we will give an extra little break to domestic production in the United States. If they export the products, fine; if they do not, that is fine. We will still give them a break. That is what that is.

What has happened to domestic oil production in the United States since that was enacted in 2004? Well, one would think it probably increased a little bit because the major oil companies get a little tax break. The fact is, the exact opposite has happened.

Let me quote a couple statistics. In 2004, when that provision was put in effect, domestic production was about 170 million barrels a month. It was 170 million barrels a month in 2004. Well, you would think it would go up because of that tax break for domestic production. Oh, no, that is not what happened. It actually went down. It is down to about 160 million barrels.

Look at the price of oil. Back in 2004, the price of oil was $40 a barrel. Now it is about $65 a barrel. Well, gee, you would think—that is more money in the oil companies' coffers—they would want to use that for more exploration, more development. No. Again, there is less domestic production, even with the price of oil so high over that period of time and even though they have had a tax break. I might add, too, the price of gasoline at the pump back then was about $2 a gallon. Today, it is above $3 a gallon. So that did not help.

So, gee, we thought: We will take that away. It did not help, so we will take it away. So, therefore, it seems to me it is not going to cause an increase in the price of gasoline at the pump.

I might say, the statistics cited by the Senator from Arizona are based on the Heritage Foundation. I am not going to get into the question of who financed that study—I have an idea who financed that study; and, therefore, it drove the results they would like to get—but that is the same organization that said Iraqi oil is going to pay for Iraq reconstruction too. They were dead wrong then, and they are dead wrong now. They are an organization which, frankly, I think is not the most objective, independent organization in the world. That is the first one. That is why we made that first change.

The second provision in the Finance Committee bill the Senator's amendment wants to strike is a loophole closer. We are trying to close a loophole. The Joint Committee on Taxation said—that is a bipartisan organization, the Joint Committee on Taxation, which serves both the House and the Senate, Republicans and Democrats—their independent study shows there is a big loophole the major oil companies take with respect to foreign tax breaks in this area; that is, ordinarily a company gets to reduce its income taxes in the amount of the foreign taxes that company pays to a foreign country.

Now, the law is different between exploration costs and distribution downstream costs. The companies game the system. They offset one against the other. Joint Tax saw this big loophole. Let's close it. That is the second provision. Also, I do not see how anybody could argue against that. It is a big loophole closer. It makes the Tax Code more fair.

Then we get to the third provision. This is the so-called confiscatory excise tax on the oil produced in the Gulf of Mexico. Let's be honest. First of all, the President of the United States, himself, believes there is insufficient revenue paid to Uncle Sam on these OCS leases. The best evidence: The President of the United States, himself, has enacted a 6⅔-percent royalty on all new leases in the gulf. He thinks they are not paying enough. He has increased the current royalty—it was 12 percent. The bill has a 13-percent severance tax. The President, himself, has enacted a whole new higher royalty provision on new leases in the gulf. He thinks they are undertaxed. Right now it is about a 12-percent royalty. This provision in our Finance Committee bill says a 13-percent severance tax.

Clearly, Congress has the power to enact a tax. The royalties paid by any company are credited against the 13 percent, and so it is a net lower than what the President thinks the amount should be in revenue paid by the oil and gas companies in the gulf.

I might also say the General Accounting Office has done a study of how much America taxes oil and gas compared with how other countries tax oil and gas. What is the result of the GAO study? The result of the GAO study is we Americans basically tax oil and gas less than other jurisdictions around the world—or other States. The State of Alaska is taxing more. Other countries tax more now. We Americans are pretty easy and soft compared to other countries on how much we tax oil and gas revenues.

So this argument that somehow, oh, my gosh, America is going to tax oil and gas companies with these provisions—that it is confiscatory; they are going to go overseas—it is just nonsense. It is just total nonsense because, already, oil and gas revenue in the United States is not taxed as much as it is in other jurisdictions. It seems to me, therefore, it is not unfair to enact this provision.

The main point is if the Kyl amendment passes, then the Finance Committee tax title of this bill is dead because we are not paying for it, effectively. That is because the Energy Secretary, under the Kyl amendment, probably would rule that maybe prices might go up at the pump, given the politics of it all, and that means we do not have a bill anymore.

Therefore, I urge Senators to say: OK, let's do what is right. Let's start to wean ourselves from OPEC. Let's start to give some incentives to American domestic producers of alternative fuels, renewable fuels, and have more conservation measures to help America again take control of our own destiny.

This is not a perfect bill. Nothing is perfect. But it is a good bill. It is a very good bill. It helps put America back on track, helps America turn the corner toward more energy independence, and enhances our national security so we are less reliant upon OPEC, less reliant upon those countries to which some Senators say this bill gives a break. It does not. This bill does the exact opposite. It helps America become America again.

Mr. President, I yield 5 minutes to the Senator from Iowa.

The PRESIDING OFFICER. The senior Senator from Iowa is recognized.

Mr. GRASSLEY. Mr. President, I want to address why we should have cloture on this bill to get to finality—and that is going to take 60 votes—and why you should not support the Kyl amendment.

In the debate on some of this bill, particularly in committee, we had the issue of, well, we are taxing oil companies to promote renewable fuels; that this is an industrial policy, and it is bad for Congress to be involved in industrial policy. Basically, I agree.

But, remember, throughout the history of this country, Congress has been involved in a lot of industrial policy. There would not be a farmstead today that would have electricity if we did not have rural electric cooperatives. Railroads would have a monopoly on hauling things if we did not have river improvements so that barges could work as well. Railroads would still be hauling most of our commerce if we had not built an interstate system. Airports and airlines are all about the Government promoting competition.

Also, we are involved in where we are, taxing the oil industry to get a renewable energy industry started—as we

have been for 20 years now just with ethanol, and expanding it beyond ethanol, but we would not have an ethanol industry today if we had not had tax incentives over the last few years. There will be, someday—just like we are saying to the oil companies today: You got your start because of tax policy, a lot of tax benefits, because the oil industry was infant at one time and needed to get started. The same thing is true of alternative energy. If we do not give some tax incentives to get alternative energy—and I mean beyond ethanol: biodiesel, wind energy, things that maybe we do not even have on our mind today—we are talking a little bit about cellulosic ethanol, but it is around the corner yet—we are not going to develop these industries to the strong capability they need to be when there is less and less and less transportation provided by petroleum products.

So I think we ought to look at the reality of how a gigantic oil industry got started in the United States—through tax incentives. We are talking about tax incentives to get alternative energy started. That is why I hope you will abide by the decisions the Committee on Finance made to have these situations where there is some tax on oil companies for the benefit of tax credits for alternative energy.

I hope you also appreciate the fact that maybe a lot of us would like to have the tax incentives without offsets, but we are in an environment of pay-go. We are not in a reconciliation situation. We are in a situation where we have to provide the necessary offsets in order to get this legislation through.

So I hope you will think of the history of where we have been with tax policies to promote an industry that is out there now. I hope you will understand that God only made so much fossil fuel and there has to be a follow-on if we are going to have the growth of our economy.

I would like to state this one last point that I have heard the President of the United States make many times when I have been to the White House in the Oval Office to talk energy. The President has said many times that with these high prices of oil the way they are, we do not need any more incentives for the oil companies to get more energy.

The President has been a friend of alternative energy, most often expressing his support of ethanol, but a supporter of alternative energy, and I hope he is in support of this legislation as well.

Mr. President, I yield the floor because I think the Senator's time is about up. Thank you.

The PRESIDING OFFICER. The senior Senator from Montana is recognized.

Mr. BAUCUS. Mr. President, I yield 7 minutes to the Senator from New Mexico, Mr. BINGAMAN.

The PRESIDING OFFICER. The Senator from New Mexico is recognized.

Mr. BINGAMAN. Mr. President, I thank my colleague from Montana. I want to publicly state what I have stated several times in the last few days, and that is my appreciation to Senator BAUCUS and Senator GRASSLEY for their leadership in putting this tax package together that has been reported favorably by the Finance Committee on which I am privileged to serve.

Let me speak, briefly, about the Kyl amendment and then talk about the tax package more generally and why we should vote to invoke cloture on this tax package and proceed.

On the Kyl amendment, my first concern is the obvious one: that adoption of the Kyl amendment would be totally irresponsible as a fiscal matter. The Kyl amendment says ''notwithstanding any other provision of the subtitle,'' the subtitle being those provisions that raise revenue to pay for this. We are in a pay-go situation in the Senate under our budgetary arrangements, so if we are going to provide tax credits and tax benefits to some parts of the economy, we need to pay for that. We need to find some way to obtain the revenue. The way the committee has found is to reduce the tax benefits that some other parts of the economy are enjoying today.

So Senator KYL's amendment says ''notwithstanding the provisions of''—the provisions in the tax package that raise revenue—none of this shall ''take effect unless the Secretary of Energy'' positively decides, that is, ''certifies that such amendments shall not increase gasoline retail prices and the reliance of the United States on foreign sources of energy.''

So, essentially, we are saying it is up to the Secretary of Energy whether we pay for this set of tax provisions. I do not think it is responsible for this Congress to take that position. I mean it is great, and I know everybody likes to be able to go home and say: I didn't oppose the production tax credit extension which is in the bill, I didn't oppose the investment tax credit for solar energy which is in the bill, I didn't oppose the provisions that would incentivize more biofuels production; all I opposed was the idea that we should pay for them. I don't think that is a responsible position for us to take.

On the general tax package and the cloture issue, let me say, the arguments I have heard are three. Some have argued this is going to reduce production; some have argued it is going to increase the price of gas; some have argued this is going to hurt the energy companies. Let me address each of those points briefly.

On reducing production, I don't think this is going to reduce domestic production of oil and gas. I think Senator BAUCUS made the point very clearly that the two big items that are being used to pay for this tax package are this section 199 provision, which was not even in the law until 2004. We are taking that away as it applies to certain large companies.

Then, of course, the severance tax provision. Let me talk a minute about that. I wasn't here last evening when Senator BUNNING was speaking, but I noticed he referred to it as Senator BINGAMAN's ''scheme'' in his comments last night. The severance tax proposal is not that; it is a 13-percent tax which would apply prospectively; there is nothing retrospective about it. It is prospective. It applies to all production of oil and gas that occurs in the Outer Continental Shelf and in the Gulf of Mexico. It is designed so it will not be unduly burdensome on any company that is producing in the Gulf of Mexico. I think we have done a good job in accomplishing that. It does not abrogate contracts. It is a forward-looking tax provision which I think is eminently reasonable.

It would raise some revenue that is sorely needed if we are going to extend these tax provisions, including the production tax credit, the investment tax credit, and the other provisions that are in this bill. I feel very strongly that we should keep it in place, and it is an appropriate way for this Congress to proceed.

The second argument we heard was if we adopt this, we are going to see an increase in the price of gas. The truth is we all know the price of oil is determined on the world market. Our producers produce something like 5 percent of the oil that goes into the world market. So the idea that for us to raise some revenue here is going to affect the price of gas at the pump is not true. If the world price of oil goes up, we wind up paying more at the pump; if the world price of oil goes down, we wind up paying less at the pump. I think American consumers have watched that occur year after year and they understand that is the circumstance.

The other argument is this is going to hurt our energy companies, that this is an undue burden on them. When you look at the reality, the reported profits of the top five integrated oil and gas producers last year were over $111 billion. I don't begrudge them that, but that is 1 year, and that is 5 companies. If profits continue at somewhere in that range, we can reasonably expect very conservatively that producers—large producers of oil and gas—will have over the next 10 years over $1 trillion in profits.

The PRESIDING OFFICER. The Senator has used 7 minutes.

Mr. BINGAMAN. I ask unanimous consent for 1 additional minute.

Mr. BAUCUS. I yield 1 minute to the Senator from New Mexico.

Mr. BINGAMAN. I thank the Senator from Montana.

The PRESIDING OFFICER. The Senator from New Mexico is recognized.

Mr. BINGAMAN. So we have $1 trillion of profits over the next 10 years. This package calls for raising $27 billion over the next 10 years. So that is something in the range of 2.5 percent of profits, a much smaller percentage of revenues, of total revenues. So I point out that is not an undue burden on anyone, and I think all of these screams that this is the end of the world for the oil and gas industry are not founded on any kind of basis in fact.

I think the whole purpose here is to do some very good things in the Tax Code, which I compliment the Senator from Montana and the Senator from Iowa for proposing, and to do so by—under our pay-go rules, find revenue where it will reduce production at the very least, and I think they have done an excellent job in accomplishing that.

I urge my colleagues to support the tax package and vote for cloture on the tax package when it comes up for a vote following the Kyl amendment, and obviously I urge all Members to oppose the Kyl amendment.

Mr. BAUCUS. Mr. President, I very much thank the chairman of the Energy Committee who I think has put together a very good energy bill. I thank him very much for his instructive comments here. They are very helpful.

Mr. President, I yield 3 minutes to the Senator from Oregon.

Mr. WYDEN. Mr. President, when oil was $55 a barrel, President Bush said oil companies don't need taxpayer subsidies to drill. Oil is now just under $70 a barrel, and certainly oil companies truly don't need taxpayer subsidies to drill for oil.

The Finance Committee amendment begins to reverse decades of policies that equated what was good for the major oil companies was good for America, and that oil companies would get us cheap and plentiful energy supplies here in America. The reality is, if you go to the gas pump today, you see gas is not cheap. If you look at the impact of a refinery fire or a pipeline problem or a cold snap and the impact on heating oil prices, you see energy is not plentiful. If you look at the growing level of oil imports from countries around the world that don't have our best interests at heart, you will see that what has been good for the major oil companies has not been good for the well-being of the citizens of America.

The Kyl amendment is just the latest in a long line of arguments that has been advanced on the theory that we ought to keep subsidizing the oil industry or energy prices will go up, oil imports will go up, and America will be less secure.

The fact is our people and our country have now experienced the results of past policies based on the idea that we ought to send billions and billions of dollars of subsidies to the major companies. It is time to end those subsidies. It is time to stop the major oil companies from fleecing taxpayers when they drill for oil on public lands, and it is time to embrace the very different vision of a more positive energy future, largely constructed by the chairman of the Finance Committee and the chairman of the Energy Committee.

I urge my colleagues to vote against the Kyl amendment and to support the work of the Finance Committee.

Mr. ENZI. Mr. President, I would like to take this opportunity to discuss my opposition to a few of the provisions in the Finance Committee-passed energy tax package. Before I begin, I would like to take a moment to thank Chairman BAUCUS and Ranking Member GRASSLEY for their work on this amendment. I know they have exerted an incredible amount of energy to get this legislation to the floor so that we can debate it as part of this Energy bill.

The package we are debating includes a number of important provisions. It includes additional funding for clean renewable energy bonds, which are important to rural electric cooperatives who seek to build clean generation. It includes accelerated depreciation for carbon dioxide pipelines, which will encourage more carbon sequestration. It also includes a carbon capture credit that will make it more economical for some carbon dioxide to be used in enhanced oil recovery and for some carbon dioxide to be sequestered. These are important provisions, and I am pleased to see them included in this package.

Although that is the case, I have grave concerns about the impact of this tax package. I am specifically concerned about its impact on consumers. When taken as a whole, I believe that the package will lead to increased gas prices and will have a detrimental impact on our country's quest to become energy independent by discouraging domestic energy production.

The amendment contains approximately $28.6 billion in ''revenue raisers'' over the next 10 years. The phrase ''revenue raisers'' is Washington speak for tax increases, and I find it hard to believe that we can increase taxes by $28.6 billion and have no impact on the price of gasoline at the pump for the average American. Businesses are in business to make money, and when we increase their taxes, they pass that increase along to the consumer.

It is not ExxonMobil or Shell or BP that will pay for these tax increases. It is the senior citizen on a fixed income who fills up her station wagon. It is the soccer mom who drives her children to school. This tax title is not punishing the companies. It is punishing the American people who rely on energy to fuel their daily lives.

Specifically, I am concerned that three provisions of this bill will increase gas prices and will discourage energy production at a time when our Nation's supply does not meet our Nation's demand. Last week, I joined a number of my colleagues in a letter to the Senate Finance Committee that urged the committee not to repeal the section 199 manufacturing deduction, and I am disappointed to note that this was included. The Joint Tax Committee estimates that the repeal of the section 199 deduction will raise $9.43 billion over a 10-year period. That is $9.43 billion that will be passed along to the American people.

I am also disappointed that the legislation includes a new 13-percent severance tax for oil produced in the Outer Continental Shelf, OCS. The OCS represents one of America's greatest energy sources, and raising taxes on those who hope to produce in the OCS will most certainly not encourage the domestic energy production that we all believe is so important.

Finally, I am concerned that this legislation changes what is known as the foreign tax credit. This change, which amounts to double taxation, will increase taxes by $3.2 billion over the next 10 years. Someone has to pay for that tax increase, and I am concerned that it will be the American people.

While I appreciate the work of my colleagues, at the end of the day, I am extremely concerned that this legislation will slow domestic energy production and increase the prices paid by consumers. There are a number of good provisions in this bill that I do support. However, at the end of the day, raising taxes is not the way to increase energy production and decrease energy prices. I would urge my colleagues to oppose cloture on this amendment.

I yield the floor.

The PRESIDING OFFICER. The senior Senator from Montana is recognized.

Mr. BAUCUS. Mr. President, how much time is remaining on each side?

The PRESIDING OFFICER. The Senator from Montana has 4½ minutes and the Senator from Arizona has 8 minutes.

Mr. KYL. Mr. President, I would be happy to take half of my time right now and then let the Senator from Montana close, and I will close after that.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. KYL. Mr. President, I want to respond to some of the arguments that have been made. First, I do appreciate the candor of both the Senator from New Mexico and the Senator from Iowa. Rather than arguing that these tax increases are loophole closers, as has been suggested, they candidly acknowledge the reason for the tax increases is to pay for the costs of the bill. As the Senator from Iowa said, we

want to avoid offsets, but we can't. We have to pay for the costs of the bill. So, so much for the argument that these tax increases are loophole closers. They are, very plainly, necessary to pay for the cost of the bill, so they are tax increases. I appreciate that.

Another bit of candor: The Senator from Montana quoting—or paraphrasing, anyway—the former chairman of Exxon Oil Company, essentially argued that it is OK to add these taxes on oil companies because they make too much money, and they make too much profit, so we are justified in taxing them.

I am not going to argue with that theory. If they make too much money, we are going to tax them, if that is the argument for imposing these new taxes. All I say is as long as it doesn't raise the price of gasoline for American consumers, then I guess the question would be: Who cares? But if they do raise the cost of gasoline for American consumers, then I think we should care. That is all this amendment does. It says: If it doesn't raise the cost of gasoline, go ahead and impose the tax. If these oil companies are making too much money, go ahead and tax them. But if the result of it is not just to hurt the oil companies but to hurt the American consumer, then Congress says: Wait a minute; not so fast. We are not going to allow that to happen. That is all this amendment does. So we don't say you can't tax. What we say is, you can't tax if it has a negative impact on the American consumer.

Now, there was a question about the Heritage study. I noticed there was no attack on the numbers, no refutation of the numbers, just: Well, who paid for the study? I don't know who paid for the study. I presume Heritage paid for the study. It is their study. What does it say and why is it such a burr under the saddle of those who oppose my amendment? Well, it found that the tax provisions in this bill, setting aside the other mandates, will likely increase gas prices by 21 cents per gallon over the next 8 years, and taking all of the provisions of the bill together, it can increase the price of regular unleaded gas from $3.14 a gallon to $6.40 a gallon in the year 2016, over the next 10 years. That is a 104-percent increase.

If that is the case, even if it is only half that much, it is a huge hit to the American consumer and we shouldn't even be thinking about that kind of a hit on the American consumer.

I ask unanimous consent to have printed in the RECORD at this point a letter from the Chamber of Commerce of the United State of America. It is dated June 20, 2007.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CHAMBER OF COMMERCE,
Washington, DC, June 20, 2007.

TO THE MEMBERS OF THE UNITED STATES SENATE: The U.S. Chamber of Commerce, the world's largest business federation representing more than three million businesses and organizations of every size, sector, and region, supports the Kyl amendment, to H.R. 6, the ''Renewable Fuels, Consumer Protection, and Energy Efficiency Act of 2007.''

This amendment would require the Secretary of Energy to certify that the tax provisions included in H.R. 6 will not lead to increased reliance on foreign oil or higher gasoline prices for American consumers.

The Chamber strongly opposes the tax title of this bill because it contains many proposals that amount to little more than a modern-day Windfall Profits Tax. When that tax increase was enacted in 1980, it resulted in higher prices for consumers, long waits at gasoline lines, and increased consumption of foreign oil.

The economic reality is that oil and gas are necessities for the nation's economic growth and well being. Even assuming the development of viable alternatives and increased efficiency, the U.S. will continue to rely on these traditional energy sources. It is imperative that the Senate ensure that the American consumer not be saddled with higher prices due to the consequences of the tax changes included in H.R. 6.

Sincerely,

R. BRUCE JOSTEN.

Mr. KYL. This is a letter from R. Bruce Josten, who makes the point that the U.S. Chamber of Commerce opposes the tax increases in the bill and supports the amendment which I offer, which would condition that tax increase on not hurting American consumers.

He says:

This amendment would require the Secretary of Energy to certify that the tax provisions included in H.R. 6 will not lead to increased reliance on foreign oil or higher gasoline prices for American consumers.

As a result, they support the amendment, and I believe they will key it as a key vote.

He goes on to say:

The Chamber strongly opposes the tax title of this bill because it contains many proposals that amount to little more than a modern-day Windfall Profits Tax. When that tax was enacted in 1980, it resulted in higher prices for consumers, long waits at gasoline lines, and increased consumption of foreign oil.

That is what we are concerned about here. If the tax increases don't have that effect, then nobody has to worry about it. But if they do have that effect on the American consumers, they would not go into effect.

My penultimate point is the argument that we have to do something to wean ourselves from OPEC, so what do we do? We slap a new 13-percent tax on the production of new oil. How does that help wean us from OPEC? What it does is to say to the producers of oil: You go out and find some, and by the way, if you do, we are going to hit you with a new tax. This is a perverse incentive, not a proper incentive.

Mr. President, I also ask unanimous consent to add Senator CORNYN as a cosponsor of my amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KYL. Mr. President, I note that the U.S. Chamber of Commerce and Americans For Tax Reform I expect will also key vote the Kyl-Lott amendment.

I reserve the remainder of my time.

The PRESIDING OFFICER. The senior Senator from Montana is recognized.

Mr. BAUCUS. Mr. President, how much time is remaining on each side?

The PRESIDING OFFICER. The Senator from Montana has 4 minutes 20 seconds.

Mr. BAUCUS. Mr. President, I yield 2 minutes and—how many seconds?

The PRESIDING OFFICER. Ten seconds.

Mr. BAUCUS. I yield 2 minutes 10 seconds to the Senator from Vermont.

The PRESIDING OFFICER. The Senator from Vermont is recognized.

Mr. SANDERS. Mr. President, I thank the Senator from Montana and the Senator from New Mexico for all of the work they have done.

I think the argument we are hearing today is we should have trust in the oil companies and that ExxonMobil and their friends are staying up nights and days worrying about high gas prices in the best interests of the American people. If anyone believes that, I think we have some good bridges to sell you right now.

The truth is the oil companies are ripping off the American people. This moment in American history is a time that our country needs to radically change the way it does energy, and the Finance Committee, in a bipartisan way, and the Energy Committee, in a bipartisan way, are making some very clear statements.

What they are saying is that global warming is a huge problem for this Nation today, and if we do not get a handle on it, that problem will only intensify in years to come.

What we must begin to do, and what this legislation is making clear, is that we have to break our dependency on fossil fuel, we have to move to energy efficiency, we have to move toward sustainable energy, and in that process not only can we substantially lower greenhouse gas emissions but we can also create millions of good-paying jobs for the American people.

As the chairman of the Energy Committee made clear a moment ago, the oil companies, year after year, are making recordbreaking profits. I for one do not stay up nights worrying about ExxonMobil, when a few years ago they were able to provide a $400 million retirement package to their former CEO.

The PRESIDING OFFICER. The Senator's 2 minutes has expired.

Mr. SANDERS. I thank the Senator for yielding me the time.

The PRESIDING OFFICER. The Senator from Montana is recognized.

Mr. BAUCUS. Mr. President, I will take the remaining 2 minutes. This

whole debate boils down to something pretty simple and basic; that is, do we as Americans want to begin to become more self-sufficient in our energy production? Do we want to be less reliant on OPEC? Do we want to give incentives to new clean energy industries to develop in America—not just renewables and alternatives but also clean coal technologies and other ways to help America be more self-sufficient?

Congress, for many years, has provided some very significant tax incentives to the oil and gas industry to help America be strong, to make sure we as Americans have a strong industrial base and a strong energy base to fuel our industries. That was probably the right thing to do over the years from 1926, and the various provisions that have helped America. I think the time has come for us to give incentives to other industries, alternative energy, renewable fuels, clean coal technologies, cellulosic, and so forth—the same kinds of incentives that the oil and gas industry have enjoyed for decades and decades.

We are not taking away these incentives from the oil and gas industry at all. We are just saying the time has come for us to give incentives to make America more self-sufficient in the production of energy. This bill helps accomplish that result, and the way we do that is very fair and balanced. It will not have the horrible results that are claimed here. I urge our colleagues to begin to take—we will still have huge breaks for the oil and gas, but we give help on the margin to new independent energy sources in America.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. KYL. Mr. President, in closing the debate on this amendment, I will respond to the point that both the Senator from Vermont and the chairman have just made, and that is the need to promote renewable energy and to give incentives to those producers. That is a fine sentiment, but my amendment has nothing to do with that. My amendment doesn't affect these incentives one iota. It doesn't speak to them at all. So that is a straw man, just as it is a straw man to argue that we ought to have the right to sock it to the oil companies because they are making huge profits. I am not arguing that proposition. In fact, yesterday, I offered an amendment to eliminate a real loophole in one of those subsidies that one oil company is going to be taking advantage of, and both of the Senators whom I mentioned voted to support that subsidy. I voted to eliminate it.

I am not trying to protect the oil companies, obviously. I am trying to protect the American consumer. My amendment says if the American consumer comes out OK, tax the oil companies. My amendment says if the American consumers are going to lose, then we say no, and then there are unintended consequences to these sentiments of socking it to the oil companies, creating subsidies for renewable energy producers and so on, fine. But if it adversely affects American consumers and increases our dependency upon foreign oil, then does anybody argue that we should do this? Wouldn't they instead try to find another way to achieve the objective? I think the answer is yes.

My amendment says: Do what you want to do here, but if it adversely affects the American consumer or increases our dependence on foreign oil, that is where we say no, we need to find another way to do this.

My amendment doesn't affect the underlying subsidies and doesn't say that you cannot impose additional taxes. These arguments are straw men. All I say is, if the American consumers end up being the losers, as they sometimes have been with our tax policies, if these are the unintended consequences and we become more dependent upon foreign oil, then we say no. That is all this amendment does.

I urge my colleagues to think carefully about this, and I hope they will support my amendment. We are going to vote on it right now, but first I think the chairman wants to raise a point of order. I yield the floor at this time for him to do that.

The PRESIDING OFFICER. The question occurs in relation to the amendment.

Mr. BAUCUS. Mr. President, I ask unanimous consent to have printed in the RECORD a letter to Senator BINGAMAN regarding a study by professors of law John Leshy and Brian Gray.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

UNIVERSITY OF CALIFORNIA,
HASTINGS COLLEGE OF THE LAW,
San Francisco, CA, June 18, 2007.

Re proposed severance tax on oil and gas production in the Gulf of Mexico.

Hon. JEFF BINGAMAN,
Chairman, Subcommittee on Energy, Natural Resources, and Infrastructure, Committee on Finance, U.S. Senate, Washington, DC.

DEAR SENATOR BINGAMAN: At your request, we have examined your proposal for a severance tax on production from federal oil and gas leases in the Gulf of Mexico with an eye toward potential constitutional takings and breach of contract issues. We also have reviewed the June 14, 2007, memorandum from the Congressional Research Service on this subject.

We are thoroughly familiar with the legal issues posed. Professor Leshy teaches them as part of his law school course in Federal Lands and Resources Law. In fact, he includes a section on these takings and contracts issues in the standard law text that he co-authors on the subject: Federal Public Land and Resources Law, 6th Ed., 2007 (which will appear next month). Professor Gray has litigated several cases that involved similar takings and breach of contract questions, including *Madera Irrigation District* v. *Hancock*, 985 F.2d 1397 (9th Cir. 1993); and *Peterson* v. *Department of the Interior*, 899 F.2d 799 (9th Cir. 1990). He also has written several articles on the subject and teaches these materials in his own courses.

In our judgment, the argument that this proposal raises a serious takings issue has a steep uphill climb. The Supreme Court has long been reluctant (for good reason) to give much scrutiny to takings arguments in the context of federal tax proposals. See, e.g., *Houck* v. *Little River Drainage Dist.*, 239 U.S. 254, 264–65 (1915) (special tax assessment not a taking ''unless the exaction is a flagrant abuse. and by reason of its arbitrary character is mere confiscation of particular property''); *Cole* v. *LaGrange*, 113 U.S. 1, 8 1885) (''the taking of property by taxation requires no other compensation than the taxpayer receives in being protected by the government to the support of which he contributes''); *County of Mobile* v. *Kimball*, 102 U.S. 691, 703 (1880) (''neither is taxation for a public purpose, however great, the taking of private property for public use, in the sense of the Constitution'').

Even if a court were to apply the basic *Penn Central* takings analysis to the proposed severance tax, we believe the proposal would easily satisfy that test. The tax is for an important public purpose: funding of clean energy tax initiatives, including renewable energy, energy efficiency, and other clean energy programs. The proposed 13 percent royalty is modest and would leave the lessees significant net revenue from the production of oil and natural gas. And the tax, of course, would not physically encroach on the companies' property. See *Penn Central Transportation Co.* v. *New York City*, 438 U.S. 104, 123–28 (1978); cj. *Lingle* v. *Chevron U.S.A.*, 544 U.S. 528, 538–40 (2005) (confirming the *Penn Central* standards as the general takings test).

The contract question is slightly more complicated, because the severance tax proposal contains a provision that allows lessees to credit against the severance tax the royalties they pay on oil and gas production from their federal leases. While companies with leases that require them to pay less royalty to the United States than other lessees might argue that the credit provision effectively rewrites their leases, we believe this argument also would not withstand careful legal scrutiny.

The proposed legislation does not target these leases. Rather, it is aimed at a generic category of activity—Gulf of Mexico OCS production—to serve a general and important public policy—viz. raising revenue for green energy tax initiatives. In our judgment; the severance tax therefore falls within the standard government contract principle, recognized for more than a century by the United States Supreme Court, that protects ''public and general'' acts by Congress from breach of contract claims.

In *Merrion* v. *Jicarilla Apache Tribe*, 455 U.S. 130 (1982), for example. the Court upheld the application of a severance tax on oil and natural gas production to long-term leases. The lessees claimed that the tax effectively increased the royalties on oil and gas production set forth in their contracts with the Tribe. The Supreme Court rejected this claim inter alia on the ground that ''Contractual arrangements remain subject to subsequent legislation by the presiding sovereign. Even where the contract at issue requires payment of a royalty for a license or franchise issued by the governmental entity, the government's power to tax remains unless it 'has been specifically surrendered in terms which admit of no other reasonable interpretation.' ''

Id. at 147–48 (citations omitted); see also *Bowen* v. *Public Agencies Opposed to Social Security Entrapment*, 477 U.S. 41 (1986). In *United States* v. *Winstar*, 518 U.S. 839 (1996), the Court modified this principle of contract interpretation in suits for damages—allowing certain government contractors to sue for breach of contract on the ground that a new law altered the terms of performance of their existing contracts with the United States. The Court maintained the sovereign acts/unmistakable waiver doctrine in cases involving new taxes however, because the consequence of refunding tax payments in the form of damages would be to nullify the tax. In the Court's words: ''The application of the doctrine will therefore differ according to the different kinds of obligations the Government may assume and the consequences of enforcing them. At one end of the wide spectrum are claims for enforcement of contractual obligations that could not be recognized without effectively limiting sovereign authority, such as a claim for rebate under an agreement for a tax exemption. Granting a rebate, like enjoining enforcement, would simply block the exercise of the taxing power, and the unmistakability doctrine would have to be satisfied.''

Id. at 994 (citation omitted).

There is nothing in the existing OCS leases that purport to waive or to limit Congress' sovereign taxing authority. Accordingly, we conclude that existing lessees that are not presently paying royalties for deep water oil and natural gas production would be unlikely successfully to challenge the proposed severance tax on grounds of breach of contract.

Please let us know if we may be of any additional assistance.

Sincerely yours,

JOHN D. LESHY,
Harry D. Sunderland, Distinguished Professor of Law.

BRIAN E. GRAY,
Professor of Law.

Mr. BAUCUS. Mr. President, I raise a pay-go point of order that the pending Kyl amendment would worsen the deficit, in violation of section 201 of S. Con. Res. 21, the concurrent resolution on the budget for fiscal year 2008.

Mr. KYL. Mr. President, I move to waive the applicable points of order with respect to my amendment, and I ask for the yeas and nays on the motion.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second. The question is on agreeing to the motion.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from California (Mrs. BOXER) and the Senator from South Dakota (Mr. JOHNSON) are necessarily absent.

Mr. LOTT. The following Senators are necessarily absent: the Senator from Kansas (Mr. BROWNBACK), the Senator from Oklahoma (Mr. COBURN), the Senator from Arizona (Mr. MCCAIN), and the Senator from Alabama (Mr. SESSIONS).

Further, if present and voting, the Senator from Alabama (Mr. SESSIONS) would have voted ''yea.''

The PRESIDING OFFICER (Mr. TESTER). Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 38, nays 55, as follows:

[Rollcall Vote No. 222 Leg.]

YEAS—38

Alexander	DeMint	Martinez
Allard	Dole	McConnell
Bayh	Domenici	Murkowski
Bennett	Ensign	Roberts
Bond	Enzi	Shelby
Bunning	Graham	Smith
Burr	Hagel	Specter
Chambliss	Hatch	Stevens
Cochran	Hutchison	Sununu
Corker	Inhofe	Thune
Cornyn	Isakson	Vitter
Craig	Kyl	Warner
Crapo	Lott	

NAYS—55

Akaka	Grassley	Nelson (FL)
Baucus	Gregg	Nelson (NE)
Biden	Harkin	Obama
Bingaman	Inouye	Pryor
Brown	Kennedy	Reed
Byrd	Kerry	Reid
Cantwell	Klobuchar	Rockefeller
Cardin	Kohl	Salazar
Carper	Landrieu	Sanders
Casey	Lautenberg	Schumer
Clinton	Leahy	Snowe
Coleman	Levin	Stabenow
Collins	Lieberman	Tester
Conrad	Lincoln	Voinovich
Dodd	Lugar	Webb
Dorgan	McCaskill	Whitehouse
Durbin	Menendez	Wyden
Feingold	Mikulski	
Feinstein	Murray	

NOT VOTING—6

Boxer	Coburn	McCain
Brownback	Johnson	Sessions

The PRESIDING OFFICER. On this vote, the ayes are 38, the nays are 55. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected. The point of order is sustained, and the amendment falls.

TRIBUTE TO SENATOR FRANK LAUTENBERG

Mr. REID. Mr. President, a few minutes ago, a record was broken. Senator FRANK LAUTENBERG has passed Senator Clifford Case's record for the most votes cast by a Senator from the State of New Jersey.

Senator LAUTENBERG's career can't possibly be summed up, though, on numbers alone. I have had the good fortune of serving with this man in the Senate since I came here. Sometimes the term ''American Dream'' is thrown around, and probably a bit too much, but if there were ever a Member of this body who exemplifies the American Dream, it is FRANK LAUTENBERG, the Senator from New Jersey.

FRANK LAUTENBERG was born without privilege to immigrant parents. He served his country bravely in World War II and put himself through Columbia University on the GI bill. He is an example of what the GI Bill of Rights did for America.

FRANK LAUTENBERG achieved great personal success in the business world, but he wanted to do more than be a successful businessman. And he was a successful businessman, both in reputation and in the ability to make money in our great free enterprise system. He was an exemplar of that.

He decided he would seek public service, and, very unusually, he shot for the top. He ran for the Senate—and ran and ran and ran—and was elected in 1982. Senator LAUTENBERG's legislative record is fantastic. It is terrific. He has been a titan here.

Guns and crime: Author of the Domestic Violence Ban, and sponsored countless laws to make neighborhoods safer.

Health and safety: He led the fight regarding drunk driving by toughening Federal laws and penalties relating thereto in the States.

The environment: I had the good fortune of serving with him on the Environment Committee from the first day I arrived in the Senate, and I do say to FRANK, and he knows this, that as a result of his having a very short retirement, voluntarily, I was fortunate enough to be able to become the chairman of that committee twice. Had he been here, he would have been the chairman on those two occasions.

But no one, and I say it without any reservation, has a better environmental record in the history of our country than FRANK LAUTENBERG. He sponsored countless laws to reduce pollution; clean up Superfund sites. One of the real battles of the Senate in recent years was the battle he and the ranking member had—and the chairman, they went back and forth—as to what would happen regarding the Superfund in the Environment and Public Works Committee. He has followed that like no one else has ever followed it.

He has promoted recycling by legislation. He has done legislation to protect our drinking water. Very importantly, he has ensured the public's right to know about environmental hazards in our communities.

For me, personally, the legislative accolade that I wish to give him relates to what he did regarding smoking cigarettes. I have five children, and traveling back and forth to Nevada as we have done, one of my boys was terribly affected by cigarette smoke. They tried something where you could only smoke in certain parts of the airplane, but that didn't work. If you are allergic to cigarette smoke, that didn't work. And my boy, Key, suffered as a result of people smoking in those airplanes.

When FRANK LAUTENBERG took on this battle, people actually made fun of him—why would he take on the tobacco industry; and if he did, did he mind losing? Well, he lost a few battles, but he won the war, and my boy is extremely happy he did win that war. Today they do not even have ashtrays on commercial airlines anymore.

The list is longer than I can possibly enumerate of his legislative accomplishments, but one of the things that is not a legislative accomplishment that I so admire about FRANK LAUTENBERG is his sense of humor. There is a story he tells, and he tells a number of

stories, and I would go around and ask him, would you tell your story again, and he would tell it just as good as the last time. The one reason I so admire his humor is he reminds me of Red Skelton, because even though he has retold those jokes many times, in my presence, he laughed harder each time at his own jokes.

Suffice to say, when the day has come, and it will come, when historians write about Senator FRANK LAUTENBERG, he will be hailed as a great legislator for the State of New Jersey, a legend in the Senate, and a foremost legislator of great repute standing up for the health, safety, and welfare of every single American, not just those from New Jersey.

His record-breaking vote is reason enough to honor him, but his tremendous record is an accomplishment that will endure for many generations to come. Congratulations, FRANK.

(Applause.)

CLOTURE MOTION

The PRESIDING OFFICER. Under the previous order, pursuant to rule XXII, the clerk will report the motion to invoke cloture.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the Baucus tax amendment No. 1704 to H.R. 6, the Energy bill.

Max Baucus, Jay Rockefeller, Kent Conrad, Jeff Bingaman, John Kerry, Blanche L. Lincoln, Charles Schumer, Amy Klobuchar, Byron L. Dorgan, Ron Wyden, Maria Cantwell, Ken Salazar, Daniel K. Akaka, Daniel K. Inouye, Sheldon Whitehouse, Sherrod Brown, Harry Reid.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived. The question is, Is it the sense of the Senate that debate on amendment No. 1704, offered by Mr. BAUCUS of Montana, to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from California (Mrs. BOXER) and the Senator from South Dakota (Mr. JOHNSON) are necessarily absent.

Mr. LOTT. The following Senators are necessarily absent: the Senator from Kansas (Mr. BROWNBACK), the Senator from Oklahoma (Mr. COBURN), the Senator from Arizona (Mr. MCCAIN), and the Senator from Alabama (Mr. SESSIONS).

Further, if present and voting, the Senator from Alabama (Mr. SESSIONS) would have voted ''nay.''

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 57, nays 36, as follows:

[Rollcall Vote No. 223 Leg.]

YEAS—57

Akaka	Feingold	Nelson (FL)
Baucus	Feinstein	Nelson (NE)
Bayh	Grassley	Obama
Biden	Harkin	Pryor
Bingaman	Inouye	Reed
Brown	Kennedy	Roberts
Byrd	Kerry	Rockefeller
Cantwell	Klobuchar	Salazar
Cardin	Kohl	Sanders

Cornyn	Inhofe	Vitter
Craig	Isakson	Voinovich
DeMint	Kyl	Warner

NOT VOTING—6

Boxer	Coburn	McCain
Brownback	Johnson	Sessions

The PRESIDING OFFICER. On this vote, the yeas are 57, the nays are 36. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected.

The majority leader is recognized.

Mr. REID. Mr. President, I enter a motion to reconsider the vote by which cloture was not invoked.

The PRESIDING OFFICER. The motion is entered.

Mr. REID. Mr. President, if I could have the attention of Senators?

The PRESIDING OFFICER. The Senate will come to order.

HONORING SENATOR ROBERT C. BYRD ON HIS 18,000TH VOTE

Mr. REID. Mr. President, the man seated behind me, ROBERT BYRD, just voted for the 18,000th time, more than any other Senator in history.

Let me tell a couple of things that are important to me about my relationship with this unusually brilliant man.

I had returned from Nevada to Washington. I was a new Senator. I asked Senator BYRD what he had done that weekend—he was standing back here. He said: I have been studying the Roman Empire. I am reading, for the third time, Gibbon's ''The Decline and Fall of the Roman Empire.''

He said: What did you do? I was a little chagrined. I said: Well, I grabbed a little pocketbook out of my library at home. It was ''The Adventures of Robinson Crusoe.''

He looked—we all know Senator BYRD when he is thinking about something. He rolled his head back, and he looked up and he said:

Robinson Crusoe, let's see. How long was he on that island? Twenty-eight years, two months, two weeks, and five days.

I looked at him like: What are you talking about? I just read the book. I didn't know how long he had been there. So I went home that night and looked. Senator BYRD was right. Robinson Crusoe had been on that island 28 years, 2 months, 2 weeks, and 5 days. I bet he hadn't read the book in 45 or 50 years, but he remembered that.

All of us will remember how he disliked the line-item veto. He came to the Senate floor once a week for 10 weeks and gave a lecture on the evils of the line-item veto. But he did it in a unique way because it was all about the fall of the Roman Empire. His thesis was that the Roman Empire fell because the executive took power away from the legislative branch of government. He gave 10 lectures, every lecture lasting exactly 1 hour.

There is not a professor who teaches Roman history who could give the detailed lecture on the Roman Empire that Senator BYRD did, but he gave it. It was so good. At the University of Las Vegas they had a political science department, and they took those lectures and turned them into a course, a graduate course.

What was quite remarkable is he did it without a note. He just walked out here and gave his lecture. As we know, he referred to the Emperors and how long they were there and the battles that took place and the times they took place.

I said: Senator BYRD, tell me how you do that without a note.

He looked at me and said, ''I memorized what I was going to say.'' So he gave 10 hours of lectures, and every word of it he memorized.

I could tell stories about this man for a long time. Let me just tell one more. I was a fairly new Senator. Some of the Senators may be listening to this who went on this little trip we took to West Virginia. He invited the British parliamentarians to meet with us, a few Senators, in the hills of West Virginia. It was beautiful. They had bluegrass music there. It was a festive occasion for a relatively small number of British parliamentarians and Senators. He even sang.

I can still remember him singing: ''There's More Pretty Girls Than One.'' Senator BYRD sang that. But the music stopped, and he said: OK, if anybody hears anything that I have said that is wrong, I have given a little notebook and pencil. You write it down and we'll talk about it later.

He proceeded to tell us and the British parliamentarians about the reign of

the British monarchs, starting from the beginning. Remember, he has no notes, he is just standing there, starting from the beginning. If it was necessary, he would spell the name of the monarch. Every one of them he gave the years they reigned. If it was something interesting that happened during their reign, he would tell us about it. It took him about 1 hour and 20 minutes to do this.

The British parliamentarians were dumbfounded. Here is this American Senator telling them far more than they knew about their own country.

This man has been such an inspiration to all of us, with his mind, this incredible mind. I just finished reading Walter Isakson's ''Einstein''—a wonderful book, 528 pages, that talks about this brilliant genius. I did not know and I did not have the opportunity to meet Albert Einstein, but I had the opportunity to meet this genius. He has an unparalleled knowledge of the Rules of the Senate. He has a reverence for this institution that is unsurpassed. One of the things that I think is so important is that he believes in the Constitution. I have here with me—the other one is worn out, but I have here, with a very nice inscription that I prize—I have it with me virtually every day—signed by the Senator from West Virginia, ROBERT BYRD.

These gifts he has been given by the Almighty bring to my mind words from Ralph Waldo Emerson in his ''Essays on Self-Reliance,'' which was 10,000 words long. Now, Senator BYRD, if he were familiar with this, would recite it. I cannot. I can't give you 10,000 words, but I am going to give you the last paragraph of this brilliant essay by Ralph Waldo Emerson, which I think talks about who this man is.

Use all that is called Fortune.

Most men gamble with her, and gain all, and lose all, as her wheel rolls.

But do thou leave as unlawful these winnings, and deal with Cause and Effect, the chancellors of God. In the Will work and acquire, and thou hast chained the wheel of Chance, and shalt sit hereafter out of fear from her rotations.

A political victory, a rise of rents, the recovery of your sick, or the return of your absent friend, or some other favorable event raises your spirits, and you think good days are preparing for you.

Do not believe it. Nothing can bring you peace but yourself. Nothing can bring you peace but the triumph of principles.

So said Ralph Waldo Emerson. I congratulate the Senator from West Virginia, ROBERT BYRD, for accomplishing all he has done as a Member of the Senate.

The PRESIDING OFFICER. The minority leader is recognized.

Mr. MCCONNELL. Mr. President, of all the many milestones along the way of the extraordinary career of Senator ROBERT BYRD—and, by the way, we have celebrated a few of those on the floor of the Senate since I have been here, as he achieves more and more distinction by setting more and more records about Senate service, I am always reminded that Senator BYRD said his greatest accomplishment was his extraordinary marriage to Erma for a longer period of time than many Americans live. I would suspect that if Senator BYRD were to list his most important achievement, it would be his incredible, successful marriage to his beloved Erma.

Mr. President, let me add, on behalf of those on this side of the aisle, our congratulations to the distinguished senior Senator from West Virginia.

Mr. BYRD. I thank the Senator.

The PRESIDING OFFICER. The majority leader.

Mr. REID. Mr. President, I ask unanimous consent that the filing deadline be extended until 2 p.m. for second-degree amendments.

The PRESIDING OFFICER. Without objection, it is so ordered.

CLOTURE MOTION

The PRESIDING OFFICER. Under the previous order, pursuant to rule XXII the clerk will report the motion to invoke cloture.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the Reid substitute amendment No. 1502 to Calendar No. 9, H.R. 6, the Energy bill.

Jeff Bingaman, Barbara Boxer, Patty Murray, John Kerry, Robert Menendez, Kent Conrad, Pat Leahy, Russell Feingold, Jack Reed, Christopher Dodd, Ken Salazar, Joe Biden, Frank R. Lautenberg, Daniel K. Inouye, Dianne Feinstein, Jay Rockefeller, Byron L. Dorgan.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on amendment No. 1502, offered by the Senator from Nevada, Mr. REID, to H.R. 6, a bill to reduce our Nation's dependence on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from California (Mrs. BOXER) and the Senator from South Dakota (Mr. JOHNSON) are necessarily absent.

Mr. LOTT. The following Senators are necessarily absent: the Senator from Kansas (Mr. BROWNBACK), the Senator from Oklahoma (Mr. COBURN), the Senator from Arizona (Mr. MCCAIN), and the Senator from Alabama (Mr. SESSIONS).

Further, if present and voting, the Senator from Alabama (Mr. SESSIONS) would have voted ''nay.''

The PRESIDING OFFICER (Mr. NELSON of Nebraska). Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 61, nays 32, as follows:

[Rollcall Vote No. 224 Leg.]

NOT VOTING—6

Boxer	Coburn	McCain
Brownback	Johnson	Sessions

The PRESIDING OFFICER. On this vote, the yeas are 61, the nays are 32. Three-fifths of the Senators duly chosen and sworn having voted in the affirmative, the motion is agreed to.

The majority leader.

Mr. REID. Mr. President, we are all partisans here, but I really do believe this vote we just took is going to change the complexion of the Senate. The American people are upset at us—Democrats and Republicans—because we are not getting things done. We have to get over that.

I so appreciate Democrats and Republicans doing what is good for the country on this vote. There are still things with this bill I do not particularly like. There are things my colleagues on the other side of the aisle do not like. But we have to start legislating. I really do say—and I repeat—I think this could be the beginning of our being able to legislate.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The majority leader.

Mr. REID. Mr. President, I withdraw that suggestion so the distinguished

Senator from West Virginia can be recognized.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I ask unanimous consent that the Senator from Maryland, Ms. MIKULSKI, be allowed to follow the statement by Senator BYRD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from West Virginia.

18,000TH ROLLCALL VOTE

Mr. BYRD. Mr. President, each Senator—every Senator—has a responsibility to vote. The people of West Virginia expect me to do the job they sent me here to do, and I am doing it. This 18,000th rollcall vote is a testament to their faith in me and to my work for them.

I love this Senate. I love it dearly. I love the Senate for its rules. I love the Senate for its precedents. I love the Senate for the difference it can make in people's lives.

The Senate was viewed by the Framers as a place where mature wisdom would reside. The Senate was intended to serve as a check on both the House of Representatives and the Executive. The longer terms, the older age requirements, the special functions delegated to the Senate regarding treaties, appointments, impeachment—all of these are indicative of the intent by the Framers to have the Senate be the stabilizer, the fence, the check on attempts at tyranny, and the calmer political passions. Partisanship was not viewed as necessary or constructive in that day in time so long ago, nor, may I say, is total devotion to partisanship constructive in this day in time or in any day in time.

I have served in this Chamber for nearly five decades—nearly 50 years. Times have changed. The world has changed. But our responsibilities, our duties, as Senators have not changed. We have a responsibility, a duty, to the people to make our country a better place. The people send us here to do a job. They do not send us here to score political points or to advance our personal agenda.

If I could have one wish as I cast this 18,000th vote, it could be that the Senate could put aside the political games, roll up our sleeves, and get back to work for the great people of this great country of America.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Maryland.

Ms. MIKULSKI. Mr. President, today, the Senate is trying to come up with an energy bill. I know Senators have been working very hard on all sides of the aisle to come up with consensus legislation we can support, and I really do support them. I wish to particularly call to the attention of the Senate the efforts of Senators PRYOR, LEVIN, and STABENOW to try to come up with a compromise on the CAFE. But we are now where we are. We are at a very important juncture in our history.

You know me. I am a blue-collar Senator. My heart and soul lies with the blue-collar American. I spent most of my life in a blue-collar neighborhood. When Bethlehem Steel went on strike, my dad gave those workers credit. When UAW was having a hard time, my father and mother tried to smooth the way by helping them in the grocery store. My career and my public service is one of deep commitment to the working people. So when automobile manufacturers told me they could not meet the increased CAFE standards, I listened. I listened year after year, and now I have listened for more than 20 years. When they told me they needed more time, I agreed. When they told me an increase in CAFE standards was unattainable with existing technology, I voted against the increase to give more time so we could come up with attainable and existing technology.

But 20 years have gone by since the last increase in fuel efficiency standards. I was here when we voted for those CAFE standards. Now, after 20 years, I firmly do believe it is time for a change—not any kind of change—a smart change, a feasible change, an affordable change. That is why I support the Energy bill that is before us. I support the framework that has been generally presented by Senator FEINSTEIN of California. I know that American automobile manufacturers and their workers are true patriots. They want what is best for our Nation. They have faced challenges before and they have met them and I believe they will face these challenges now. I believe they want to build vehicles that are safer and more energy efficient.

The time has now come to increase fuel efficiency standards. We need a national effort. We need a national standard. It is time for our automobile industry to make the changes because they need to be able to do that to help their own industry survive and also for the interest of the Nation.

I believe our world and our Nation is facing a crisis. When you look at the increased gas prices at the pump, it is hurting every single one of us. When you talk to families, you learn it now costs $90 to fill up a minivan. A commuter who has no other way to get to work than an automobile is now paying more to get to work than they are for their food bill in certain areas. As the Presiding Officer knows, small businesses need those vans to make those deliveries, whether they own a flower shop, whether they are a heating and air-conditioning guy, whether they are a plumber or whether they are the person delivering pharmaceuticals to nursing homes. In my own State right now, the watermen, those fishermen are out on the Chesapeake Bay trying to harvest ever-diminishing crabs with ever-increasing fuel prices.

It is time to conserve our energy resources and to deal with the crisis we are facing. We know that energy and gasoline and petroleum products are in limited supply and are going up. We know that America's dependence on foreign oil presents a very serious national security challenge.

I am on the Intelligence Committee, and I know what these transnational threats are. I know that energy independence is absolutely crucial to fighting the global war against terrorism. If we follow the money, we know that every time we are putting money into the tank, we are putting money into the pockets of the petro jihadists, those petro jihadists who are trying to undermine us everywhere around the world. They are undermining and attacking our troops in Iraq. They are funding Hezbollah so they can attack Israel; Hugo Chavez, shake, rattling, and rolling in Latin America. Do we want our money going to the petro jihadists who want to plot and destroy not only American lives but the American way of life? I don't want to support al-Qaida by buying more gasoline than I have to, but this is what Iran, Venezuela, and others are doing.

We need to reduce our dependence on foreign oil, and that is one of the most important ways we can as the public is by fighting the war against terrorism. There are 150,000 men and women fighting in Iraq today. The temperature is 110 degrees. We already have lost 14 more military. While we are doing that, though, there are 300 million of us who don't have to share in the sacrifice of the battle in Iraq, but we can share in that sacrifice if we embrace energy conservation and are serious about it. At the same time, we know there is a dangerous increase in the climate crisis that affects the life of our planet. It, too, is a national security issue because, make no mistake, the climate crisis will affect our food supply and will create a climate in which infectious disease will grow and natural disasters will increase.

What can we do about it? How can we sign up to have a safer America, a safer planet? Well, I believe the most sensible foundation of an energy plan must begin with conservation. We have to make better use of what we have in our homes, in our businesses, in our cars, and in our airplanes. We also need incentives for new renewable energy and energy-efficient technologies that we can use in our homes and in our businesses and an increase in fuel efficiency standards for our vehicles on the road and our vehicles in the air.

Now, in considering any fuel efficiency standard, otherwise known as CAFE, I come back to where I began: My heart and soul lies with the American worker, so I believe anything we do must preserve American jobs, but it also must achieve real savings in oil consumption. It also has to be realizable and achievable. That means a real

technological ability to accomplish it. That means a reasonable lead time to adjust our production.

I also believe we have to create incentives to enable companies to achieve those goals. I don't believe in an industrial policy where we pick winners and losers, but if we are going to pick a winning energy policy, we have to provide some type of help to the industry to help them get where we need for them to go.

In the 1950s, when part of the world saw the Iron Curtain come down and they went into communism, many against their own will, such as Poland, Latvia, and Estonia, there was a whole other world that chose to go with what they called a Socialist tendency. We saw industrial democracies such as England, France, and Canada develop a national health system. We said: Oh, no, we are Americans. We don't want to go that way. We don't want to have a national health system. So we said to the private sector: Provide health care, provide pensions, and we will support that. So our American manufacturing base went to a defined benefit. They did provide health care. They did provide pensions. Now, they should not be penalized for it. Yet you look at the fact that our American manufacturers and our automobile industry itself does carry the legacy cost of health care; we asked them to do it and they did do it. General Motors provides more health care than the VA system. They provide more health care than some countries around the world. They have legacy costs to retirees. So if we are going to make the move in CAFE, we have to acknowledge that issue and how that impacts their competitiveness.

Let's put our thinking caps on. Let's not only help one industry. Maybe this is the time to motivate us to get serious about having universal health care and a real prescription drug benefit so we don't dump it on the private sector to do.

I also know, when we look at this in terms of preserving jobs, we need to also make sure that the technology is achievable, and I believe it is. I believe also there are certain waivers in this bill that help them achieve—that deal with the fact that if they cannot increase some of these standards, the mandates can be waived. But you don't get an energy policy by mandates alone. We can't mandate and regulate our way out of this.

I am going to vote to raise fuel efficiency standards, only because I am so convinced it is in our national security interests. But I do not want to ignore the economic impact that this is going to have on the automobile industry. We can't just mandate and we can't just regulate. So I say to my colleagues, if we are going to go energy, then let's go to health care. If we are going to go energy, then let's fix the prescription drug benefit and don't talk about vetoes and filibusters. Let's now work in our national interests. Let's now work for our manufacturing base.

Out-of-control health care costs mean that companies are less able to be innovative and invest in technology. Our current President likes to talk a lot about relieving the tax burden, but to our business community, the cost of health care is a tax because we have not gotten serious about how to provide affordable health care, both to the people who want to buy it and businesses who want to provide it. So let's get rid of that health care tax on American business and come up with universal health care. Last year we made some progress in helping manufacturers meet their pension obligations, and we can do it in health care.

The time has come to raise the CAFE standards, but the time has come also to put our thinking caps on, to be an innovation society, and to come up with new ideas for efficiency, new technologies for energy efficiency, new composite materials to make cars lighter but keep them safe, and at the same time to seriously come to grips with health care.

This is not an easy vote for me. I am telling you, this is not an easy vote for me. I have always, for 20 years, stood with colleagues such as Senators LEVIN and STABENOW. I stand with them now. But I also know that if the American automobile industry is going to survive and that if we are going to deal with the petro jihadists, we need to get serious about fuel efficiency. Let's get serious about the legislation. Let's get serious about health care. Let's be serious about the American workers, and let's get the job done the people want us to do.

So today, I know we voted for cloture on the bill, but we have to continue to speak up on what we need to do to make us a safer country, but to keep a stronger economy, and for God's sake, could we start to be smarter about it.

Mr. President, I yield the floor, and I note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LAUTENBERG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. SALAZAR). Without objection, it is so ordered.

Mr. LAUTENBERG. Mr. President, I ask unanimous consent to speak as if in morning business, the time to be charged to the time allotted for cloture. I will probably take up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

EMPLOYEE FREE CHOICE ACT

Mr. LAUTENBERG. Mr. President, the first thing I want to do is take a minute to publicly thank the majority leader for the kindness he extended to me earlier when he announced the fact that I have cast the second-highest number of votes of any Senator from the State of New Jersey.

Mr. President, I am as surprised as anybody in this Chamber that this event took place and that kind of longevity has been extended to me by the people of New Jersey. I now enter the middle of my 23rd year in the Senate and I want to continue to serve. But that is a discussion for another time.

The majority leader was very generous in his comments about me. Coming from a person who has provided so much by way of leadership and contribution to the country as HARRY REID, it is a touching experience. We are busy, but Senator REID took time out of the business of the day to note the fact that I had achieved that record.

The biggest surprise of all is, for me, the fact that I have been in this Chamber as long as I have been. I spent 30 years building a company with a couple of colleagues.

That is the legend of America—what can happen even if you are born poor but you have some assistance. I wore the uniform of this country proudly during World War II. I was a beneficiary of the GI Bill of Rights. That is how they defined the educational opportunity that was given.

Mr. President, my surprise—my awe, if I may—was that I was able to go to Columbia University, a distinguished educational facility, which was something I never dreamed possible because of the humble roots that my family had. They gave me values—nothing of value but values. My parents' admonition throughout my life was to always be honest, always tell the truth, always work hard, and remember one thing, son: There are people as poor as we are. As difficult as it is at times, there are always people less fortunate.

My grandmother had a little bank in the house, which we shared with her many times, in which we would put small coins, to be used for—I cannot say charity but for others who were less fortunate.

So I stand in this Chamber at this moment, and I want to talk about something related to roots—to my roots. My father and my mother struggled to make a living. My father worked in the silk mills of Paterson, NJ, a textile city. Others like my dad and mother were brought to this country by their parents, hoping for an opportunity to make a living and to have some degree of opportunity.

My father worked in the silk mill with a dear friend of his who was later very active in union organization. My father made a plea to his foreman for a holiday off. It was an important religious holiday. He wasn't looking for any pay, Heaven forbid. He just wanted to have the time off for observance of

the holiday. He and his very close friend asked the foreman if it would be all right if they took the day off for the observance of the holiday, which was the week following. The reply was very quick: Oh, sure, you can take the day off, but don't come back to work here anymore. With that, you can imagine the view of my father and his friend not being able to continue a job that was scarce and difficult to get. So they waited, hat in hand.

In those days, people would wear hats to work in common labor at a mill. They described that, hat in hand, the two of them nervously waited for the owner of the company to come by. They would not let them go into the owner's office. Heaven forbid, that is no place for people like you. But the owner was a kind, generous man. When he walked out, they stopped him and explained that they desperately wanted to take the holiday off, but they needed their jobs. The owner was a kind, sympathetic person, and he said: Take the time off, and you are going to be paid for that holiday.

That was the beginning days of union representation in this country—very active, very confrontational, very difficult, and sometimes violent. But my father saw and his friend saw that they had to have a better way to do things than stand hat in hand and beg for a day off. Fortunately, they found a kind man who listened and gave them the day off. But the experience was searing, and they never forgot that working people had to have representation.

Both of them then became active in union organization. Those were difficult days. We have all heard stories about employees who wanted some representation, wanted a voice in how they were paid, wanted a voice in what conditions were like.

My father worked in a mill. My father was a health faddist even in those days. He took very good care of himself. He was a man with muscles. He would go to the gym, and he would lift weights. He belonged to the local Y. He never smoked, was light on coffee, and no liquor. He died when he was 43 years old. He contracted cancer when he was 42. The cause was almost undeterminable, but they realized that there were materials they used when they worked with the silk to keep the silk brittle and to keep the machinery working that ultimately caused my father's cancer. His brother died at age 56 also from cancer. Their father died at age 52 also from cancer induced by the environment at the factory in which they worked.

The fact is that people who work in places like this should have a voice—and we see disparities, such as taking 10 years to raise the minimum wage.

It is time to give unions, to give working people a chance to have a voice in their work or their opportunity to take care of their families, or the opportunity, as my father said, to hold your head high, be proud, be proud you are a worker, be proud you are contributing something to your country.

What we see now is distressing, which is why we are discussing freedom of choice for workers, to give them a chance have their voice heard without having to go through a hassle about whether they are organized. I have seen what happens. I ran a very big company. When I left the company, it had 16,000 employees. Today it has 40,000 employees, a company I started with 2 other poor kids from the neighborhood. We were always very conscious of our responsibility to our employees. That is why the company was so successful. It had the longest growth of any company in American history of 10 percent or more on the bottom line.

We had a case in New Jersey where a bus driver was fired for being a union supporter and giving testimony to the National Labor Relations Board. Even as we gather here, we see that employers are still using all kinds of tactics to harass, threaten, or fire workers who try to exercise their right to form a union. Ninety-two percent of employers make their employees sit through one-sided, anti-union presentations, according to a study by Cornell University.

The Cornell study also said that 78 percent of employers have supervisors hold repeated closed-door, one-on-one meetings with workers to intimidate them to oppose the union.

I don't think those kinds of tactics are appropriate. Decent jobs are ever more scarce in this country as we ship so many jobs abroad, as technology—and I come from the computer business; I know something about technology—as technology takes jobs away from people whose only skills are manual skills, and they need a way to make a living. You don't have to be a new immigrant to need a job where you use your hands, use your body, or use your strength to make a living. But these jobs are going further and further afield because of the technology.

We should not allow employers to prevent workers from having a greater voice in their workplace on issues of pay and benefits and working conditions.

We can improve this situation by passing the Employee Free Choice Act to protect workers and to protect their rights—again I use the expression—hold their heads high, know they can provide for their families, know they don't have to apologize to their kids for having to work as hard as so many do, two jobs in many cases.

The bill that is in front of us will let employees select a union if a majority signs cards saying they want representation. They don't want to take over the ownership of the company. They don't want to deprive senior executives from making their salaries or their benefits. When we see what is happening in America today, there is a frightening specter out there, and I talk as someone who came from the corporate boardroom. I can be accused of being a tree hugger because I care about the environment. I can be accused of other things. But I can't be accused of not understanding what it is like to run a business, a successful business.

If people want representation, when we see that there are people in this country making $1.8 billion for a single year's work, and many others earning $240 million or more. The salaries are adequate enough, as they said in an article in the New York Times a couple of weeks ago, that if you took the combined wages of people who made $240 million or more in the year, you could pay 80,000 school teachers in the city of New York for 3 years.

There are disparities, and what has to happen is that people who work for a living have to understand their work, their effort, their contribution to the country. We have Tom Brokaw here for lunch right now. He wrote a book, ''The Greatest Generation.'' What was it? It was working people who made the contribution. It was working people who on D–Day—I didn't arrive in Europe on D–Day; I arrived a little bit later—those who were there, those who were the heroes, those who saved their companions, working people. They are entitled to be heard.

Workers cannot be hassled or harassed to be kept from expressing their interests in a union. This bill says employees can select a union as soon as a majority signs a card saying they want representation. Current law allows for this majority signup, but only at the employer's discretion. The employer can instead demand an election and use that time before that election to scare workers away from joining a union.

The Employee Free Choice Act will protect and enhance the right of workers to join a union, and there is good reason for some to choose a union. As President Bush helps the wealthy get wealthier, helps the corporations develop ever more earnings, I see nothing wrong with that as long as there is a fairness, an equity. When a company such as ExxonMobil earns almost $40 billion in a year, and Americans pull up to the pump and very often they are giving away a significant part of their purchasing power at that gasoline pump, we have to be sure we don't totally demoralize the working people of this country.

Union wages can help low- and middle-wage workers earn their way to new opportunities and financial stability. Everybody knows it costs more to live these days. It costs more to send a kid to college. It costs more to get health care. It costs more for gasoline. It costs more for mortgages. It costs more for everything.

We have to make sure that the people who work for a living, who do the building, who do the lifting, are able to make a living.

When it comes to wages, union wages are almost 30 percent higher than nonunion wages, and union workers are almost twice as likely to have employer-sponsored health benefits.

In 2005, 1.3 million New Jersey residents were uninsured for health. That is 300,000 more residents than 5 years ago. Union membership can make a huge difference to them and their families. Hard-working Americans deserve these benefits. We need the Employee Free Choice Act so workers can express themselves without intimidation. They have to be certified if they make that kind of choice. But we also want employers to be accountable when they violate the law. This bill will strengthen penalties for employer violations of the National Labor Relations Act so that employers are deterred from breaking the law.

Workers deserve an atmosphere where they can choose a union without intimidation or coercion. They need a strong law to allow them to make their own choice without interference from management. The Employee Free Choice Act is that law. It will give employees a stronger voice in shaping the workplace and will help employees earn more money, benefits, and improve their futures.

I am proud to support this bill for New Jersey's and America's current union members and for those who want to unionize.

I urge my colleagues to support the bill. Permit people to make their choice and make it freely and not have to be worried about intimidation or harassment. If you want to join a union, simple: Fill out a card. Why should they be deprived from doing so for their future? I don't think they should be.

Madam President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER (Mrs. MCCASKILL). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. GRAHAM. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Ms. KLOBUCHAR). Without objection, it is so ordered.

Mr. GRAHAM. Madam President, I ask unanimous consent to speak for 5 minutes.

The PRESIDING OFFICER (Ms. CANTWELL). Without objection, it is so ordered.

HEROES OF CHARLESTON

Mr. GRAHAM. Madam President, my colleagues have been very kind to me in passing on their condolences from the people of their States regarding Charleston. I publicly acknowledge all the kindness they have shown to me and Senator DEMINT regarding the loss of the firefighters in South Carolina. It was a huge blow to the community of Charleston. Nine very brave souls lost their lives trying to protect their fellow citizens. Senator KENNEDY spoke very eloquently of the life of a firefighter. Senator DODD and so many people have offered their condolences.

There will be a memorial service tomorrow in Charleston. I will be going with other members of the delegation, and we will have a resolution before the Senate tomorrow honoring these heroes.

I learned, talking with Senators KENNEDY and KERRY, that there were six or seven firefighters lost in Worcester, MA, not that long ago. I have been told the Charleston fire was the largest loss of life among firefighters since 9/11.

Those who have been to Charleston, SC, know what a wonderful, beautiful community it is. It is one of the most open, welcoming communities in the country. To the families, we grieve with you. We can only imagine the pain you are going through. I hope you do realize you have so many people in your corner saying prayers for your well-being and deeply appreciative of the sacrifice your loved ones made.

It is human nature for most people to run away from fires. Only firemen run into them. Thank God people are willing to do that, go off and serve in the military, be policemen, EMTs, many of the other jobs that require self-preservation to take a backseat to the common good. Self-preservation is a strong instinct. I know parents would do anything for their children, and that is a very understandable emotion, taking care of your loved ones and your family. That probably trumps self-preservation—most of the time, anyway. Doing it for somebody you don't know makes you a hero. When you are willing to give your life, risk your life for someone you don't know, that is where the term ''hero'' applies.

To the families who have lost loved ones, I do hope you have some comfort knowing that what your loved one was doing was so important. In this case, there was a belief that a civilian was left in the warehouse unaccounted for, so the firemen went back in to look for this person. Unfortunately, the worst happened. The building collapsed on them, and there was a tremendous tragedy.

There are so many ways to thank firemen, and I am very inadequate in that regard.

Similar to most young kids, I thought being a fireman was about the top of the pyramid. It seemed like the neatest job in the world. But as you get older, you realize how dangerous it is. It is one of those occupations, such as being a policeman or other occupations—but particularly firemen—that every day is a real risk you take.

To the people of Charleston, SC: I know you are banded together. I know you are mourning together. You have the wishes of this body. All the Senators—Republicans and Democrats—very much have you in their prayers.

To the families: Tomorrow will be a difficult day. It will be a very touching day. It will be a day of remembrance and mourning. It will also be a day of celebration, celebrating the lives of those brave firefighters who represent the best of my State and the best of humanity.

I would like to end this statement with the understanding that there is nothing we can do to replace your loss. But we can and we will be there by your side as you move forward.

God bless.

I yield back the remainder of my time.

I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. WHITEHOUSE). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I make a point of order that the pending amendments are either nongermane or are drafted improperly and are out of order.

The PRESIDING OFFICER. Without objection, the majority leader may make a combined point of order against the pending amendments.

The point of order is sustained, and the amendments fall.

Mr. STEVENS. Mr. President, is the pending business the Reid substitute?

The PRESIDING OFFICER. That is correct.

AMENDMENT NO. 1792, AS MODIFIED

Mr. STEVENS. Mr. President, I ask unanimous consent that my amendment No. 1792 be called up and modified by amendment No. 1843.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered. The clerk will report.

The legislative clerk read as follows:

The Senator from Alaska (Mr. STEVENS) proposes an amendment numbered 1792, as modified.

The amendment is as follows:

On page 239, beginning with line 16, strike through line 5 on page 277 and insert the following:

TITLE V—CORPORATE AVERAGE FUEL ECONOMY STANDARDS

SEC. 501. SHORT TITLE.

This title may be cited as the ''Ten-in-Ten Fuel Economy Act''.

SEC. 502. AVERAGE FUEL ECONOMY STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.

(a) INCREASED STANDARDS.—Section 32902 of title 49, United States Code, is amended—

(1) by striking ''**NON-PASSENGER AUTOMOBILES**.—'' in subsection (a) and inserting

''**PRESCRIPTION OF STANDARDS BY REGULATION**.—'';

(2) by striking ''(except passenger automobiles)'' in subsection (a); and

(3) by striking subsection (b) and inserting the following:

''(b) STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.—

''(1) IN GENERAL.—The Secretary of Transportation, after consultation with the Administrator of the Environmental Protection Agency, shall prescribe average fuel economy standards for—

''(A) automobiles manufactured by manufacturers in each model year beginning with model year 2011 in accordance with subsection (c); and

''(B) commercial medium-duty or heavy-duty on-highway vehicles in accordance with subsection (k).

''(2) FUEL ECONOMY TARGET FOR AUTOMOBILES.—

''(A) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2011 THROUGH 2020.—The Secretary shall prescribe average fuel economy standards for automobiles in each model year beginning with model year 2011 to achieve a combined fuel economy average for model year 2020 of at least 35 miles per gallon for the fleet of automobiles manufactured or sold in the United States. The average fuel economy standards prescribed by the Secretary shall be the maximum feasible average fuel economy standards for model years 2011 through 2019.

''(B) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2021 THROUGH 2030.—For model years 2021 through 2030, the average fuel economy required to be attained by the fleet of automobiles manufactured or sold in the United States shall be the maximum feasible average fuel economy standard for the fleet.

''(C) PROGRESS TOWARD STANDARD REQUIRED.—In prescribing average fuel economy standards under subparagraph (A), the Secretary shall prescribe annual fuel economy standard increases that increase the applicable average fuel economy standard ratably beginning with model year 2011 and ending with model year 2020.''.

(b) FUEL ECONOMY TARGET FOR COMMERCIAL MEDIUM-DUTY AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—Section 32902 of title 49, United States Code, is amended by adding at the end thereof the following:

''(k) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—

''(1) STUDY.—No later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall examine the fuel efficiency of commercial medium- and heavy-duty on-highway vehicles and determine—

''(A) the appropriate test procedures and methodologies for measuring commercial medium- and heavy-duty on-highway vehicle fuel efficiency;

''(B) the appropriate metric for measuring and expressing commercial medium- and heavy-duty on-highway vehicle fuel efficiency performance, taking into consideration, among other things, the work performed by such on-highway vehicles and types of operations in which they are used;

''(C) the range of factors, including, without limitation, design, functionality, use, duty cycle, infrastructure, and total overall energy consumption and operating costs that effect commercial medium- and heavy-duty on-highway vehicle fuel efficiency; and

''(D) such other factors and conditions that could have an impact on a program to improve commercial medium- and heavy-duty on-highway vehicle fuel efficiency.

''(2) RULEMAKING.—No later than 24 months after completion of the study required by paragraph (1), the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, by regulation, shall determine in a rulemaking procedure how to implement a commercial medium- and heavy-duty on-highway vehicle fuel efficiency improvement program designed to achieve the maximum feasible improvement, and shall adopt appropriate test methods, measurement metrics, fuel economy standards, and compliance and enforcement protocols that are appropriate, cost-effective, and technologically feasible for commercial medium- and heavy-duty on-highway vehicles.

''(3) LEAD-TIME; REGULATORY STABILITY.—Any commercial medium- and heavy-duty on-highway vehicle fuel efficiency regulatory program adopted pursuant to this subsection shall provide no less than 4 full model years of regulatory lead-time and 3 full model years of regulatory stability.

''(4) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLE DEFINED.—In this subsection, the term 'commercial medium- and heavy-duty on-highway vehicle' means an on-highway vehicle with a gross vehicle weight rating of more than 8,500 pounds, and that, in the case of a vehicle with a gross vehicle weight rating of less than 10,000 pounds, is not an automobile.''.

(c) AUTHORITY OF SECRETARY.—Section 32902 of title 49, United States Code, as amended by subsection (b), is further amended by adding at the end thereof the following:

''(l) AUTHORITY OF THE SECRETARY.—

''(1) VEHICLE ATTRIBUTES; MODEL YEARS COVERED.—The Secretary shall—

''(A) prescribe by regulation average fuel economy standards for automobiles based on vehicle attributes related to fuel economy and to express the standards in the form of a mathematical function; and

''(B) issue regulations under this title prescribing average fuel economy standards for 1 or more model years.

''(2) PROHIBITION OF UNIFORM PERCENTAGE INCREASE.—When the Secretary prescribes a standard, or prescribes an amendment under this section that changes a standard, the standard may not be expressed as a uniform percentage increase from the fuel-economy performance of attribute classes or categories already achieved in a model year by a manufacturer.''.

SEC. 503. AMENDING FUEL ECONOMY STANDARDS.

(a) IN GENERAL.—Section 32902(c) of title 49, United States Code, is amended to read as follows:

''(c) AMENDING FUEL ECONOMY STANDARDS.—Notwithstanding subsections (a) and (b), the Secretary of Transportation—

''(1) may prescribe a standard higher than that required under subsection (b); or

''(2) may prescribe an average fuel economy standard for automobiles that is the maximum feasible level for the model year, despite being lower than the standard required under subsection (b), if the Secretary determines, based on clear and convincing evidence, that the average fuel economy standard prescribed in accordance with subsections (a) and (b) for automobiles in that model year is shown not to be cost-effective.''.

(b) FEASIBILITY CRITERIA.—Section 32902(f) of title 49, United States Code, is amended to read as follows:

''(f) DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.—

''(1) IN GENERAL.—When deciding maximum feasible average fuel economy under this section, the Secretary shall consider—

''(A) economic practicability;

''(B) the effect of other motor vehicle standards of the Government on fuel economy;

''(C) environmental impacts; and

''(D) the need of the United States to conserve energy.

''(2) LIMITATIONS.—In setting any standard under subsection (b), (c), or (d), the Secretary shall ensure that each standard is the highest standard that—

''(A) is technologically achievable;

''(B) can be achieved without materially reducing the overall safety of automobiles manufactured or sold in the United States;

''(C) is not less than the standard for that class of vehicles from any prior year; and

''(D) is cost-effective.

''(3) COST-EFFECTIVE DEFINED.—In this subsection, the term 'cost-effective' means that the value to the United States of reduced fuel use from a proposed fuel economy standard is greater than or equal to the cost to the United States of such standard. In determining cost-effectiveness, the Secretary shall give priority to those technologies and packages of technologies that offer the largest reduction in fuel use relative to their costs.

''(4) FACTORS FOR CONSIDERATION BY SECRETARY IN DETERMINING COST-EFFECTIVENESS.—The Secretary shall consult with the Administrator of the Environmental Protection Agency, and may consult with such other departments and agencies as the Secretary deems appropriate, and shall consider in the analysis the following factors:

''(A) Economic security.

''(B) The impact of the oil or energy intensity of the United States economy on the sensitivity of the economy to oil and other fuel price changes, including the magnitude of gross domestic product losses in response to short term price shocks or long term price increases.

''(C) National security, including the impact of United States payments for oil and other fuel imports on political, economic, and military developments in unstable or unfriendly oil-exporting countries.

''(D) The uninternalized costs of pipeline and storage oil seepage, and for risk of oil spills from production, handling, and transport, and related landscape damage.

''(E) The emissions of pollutants including greenhouse gases over the lifecycle of the fuel and the resulting costs to human health, the economy, and the environment.

''(F) Such additional factors as the Secretary deems relevant.

''(5) MINIMUM VALUATION.—When considering the value to consumers of a gallon of gasoline saved, the Secretary of Transportation shall use as a minimum value the greater of—

''(A) the average value of gasoline prices projected by the Energy Information Administration over the period covered by the standard; or

''(B) the average value of gasoline prices for the 5-year period immediately preceding the year in which the standard is established.''.

(c) CONSULTATION REQUIREMENT.—Section 32902(i) of title 49, United States Code, is

amended by inserting ''and the Administrator of the Environmental Protection Agency'' after ''Energy''.

(d) COMMENTS.—Section 32902(j) of title 49, United States Code, is amended—

(1) by striking paragraph (1) and inserting ''(1) Before issuing a notice proposing to prescribe or amend an average fuel economy standard under subsection (b), (c), or (g) of this section, the Secretary of Transportation shall give the Secretary of Energy and Administrator of the Environmental Protection Agency at least 30 days after the receipt of the notice during which the Secretary of Energy and Administrator may, if the Secretary of Energy or Administrator concludes that the proposed standard would adversely affect the conservation goals of the Secretary of Energy or environmental protection goals of the Administrator, provide written comments to the Secretary of Transportation about the impact of the standard on those goals. To the extent the Secretary of Transportation does not revise a proposed standard to take into account comments of the Secretary of Energy or Administrator on any adverse impact of the standard, the Secretary of Transportation shall include those comments in the notice.''; and

(2) by inserting ''and the Administrator'' after ''Energy'' each place it appears in paragraph (2).

(e) ALTERNATIVE FUEL ECONOMY STANDARDS FOR LOW VOLUME MANUFACTURERS AND NEW ENTRANTS.—Section 32902(d) of title 49, United States Code, is amended to read as follows:

''(d) ALTERNATIVE AVERAGE FUEL ECONOMY STANDARD.—

''(1) IN GENERAL.—Upon the application of an eligible manufacturer, the Secretary of Transportation may prescribe an alternative average fuel economy standard for automobiles manufactured by that manufacturer if the Secretary determines that—

''(A) the applicable standard prescribed under subsection (a), (b), or (c) is more stringent than the maximum feasible average fuel economy level that manufacturer can achieve; and

''(B) the alternative average fuel economy standard prescribed under this subsection is the maximum feasible average fuel economy level that manufacturer can achieve.

''(2) APPLICATION OF ALTERNATIVE STANDARD.—The Secretary may provide for the application of an alternative average fuel economy standard prescribed under paragraph (1) to—

''(A) the manufacturer that applied for the alternative average fuel economy standard;

''(B) all automobiles to which this subsection applies; or

''(C) classes of automobiles manufactured by eligible manufacturers.

''(3) IMPORTERS.—Notwithstanding paragraph (1), an importer registered under section 30141(c) may not be exempted as a manufacturer under paragraph (1) for an automobile that the importer—

''(A) imports; or

''(B) brings into compliance with applicable motor vehicle safety standards prescribed under chapter 301 for an individual described in section 30142.

''(4) APPLICATION.—The Secretary of Transportation may prescribe the contents of an application for an alternative average fuel economy standard.

''(5) ELIGIBLE MANUFACTURER DEFINED.—In this section, the term 'eligible manufacturer' means a manufacturer that—

''(A) is not owned in whole or in part by another manufacturer that sold greater than 0.5 percent of the number of automobiles sold in the United States in the model year prior to the model year to which the application relates;

''(B) sold in the United States fewer than 0.4 percent of the number of automobiles sold in the United States in the model year that is 2 years before the model year to which the application relates; and

''(C) will sell in the United States fewer than 0.4 percent of the automobiles sold in the United States for the model year for which the alternative average fuel economy standard will apply.

''(6) LIMITATION.—For purposes of this subsection, notwithstanding section 32901(a)(4), the term 'automobile manufactured by a manufacturer' includes every automobile manufactuered by a person that controls, is controlled by, or is under common control with the manufacturer.

(f) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Section 32902(d) of title 49, United States Code, is amended by striking ''passenger'' each place it appears.

(2) Section 32902(g) of title 49, United States Code, is amended—

(A) by striking ''subsection (a) or (d)'' each place it appears in paragraph (1) and inserting ''subsection (b), (c), or (d)''; and

(B) striking ''(and submit the amendment to Congress when required under subsection (c)(2) of this section)'' in paragraph (2).

SEC. 504. DEFINITIONS.

(a) IN GENERAL.—Section 32901(a) of title 49, United States Code, is amended—

(1) by striking paragraph (3) and inserting the following:

''(3) except as provided in section 32908 of this title, 'automobile' means a 4-wheeled vehicle that is propelled by fuel, or by alternative fuel, manufactured primarily for use on public streets, roads, and highways and rated at not more than 10,000 pounds gross vehicle weight, except—

''(A) a vehicle operated only on a rail line;

''(B) a vehicle manufactured by 2 or more manufacturers in different stages and less than 10,000 of which are manufactured per year; or

''(C) a work truck.''; and

(2) by adding at the end the following:

''(17) 'work truck' means an automobile that the Secretary determines by regulation—

''(A) is rated at between 8,500 and 10,000 pounds gross vehicle weight; and

''(B) is not a medium-duty passenger vehicle (as defined in section 86.1803–01 of title 40, Code of Federal Regulations).''.

(b) DEADLINE FOR REGULATIONS.—The Secretary of Transportation—

(1) shall issue proposed regulations implementing the amendments made by subsection (a) not later than 1 year after the date of enactment of this Act; and

(2) shall issue final regulations implementing the amendments not later than 18 months after the date of the enactment of this Act.

(c) EFFECTIVE DATE.—Regulations prescribed under subsection (b) shall apply beginning with model year 2010.

SEC. 505. ENSURING SAFETY OF AUTOMOBILES.

(a) IN GENERAL.—Subchapter II of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

''§ 30129. Vehicle compatibility standard

''(a) STANDARDS.—The Secretary of Transportation shall issue a motor vehicle safety standard to reduce automobile incompatibility. The standard shall address characteristics necessary to ensure better management of crash forces in multiple vehicle frontal and side impact crashes between different types, sizes, and weights of automobiles with a gross vehicle weight of 10,000 pounds or less in order to decrease occupant deaths and injuries.

''(b) CONSUMER INFORMATION.—The Secretary shall develop and implement a public information side and frontal compatibility crash test program with vehicle ratings based on risks to occupants, risks to other motorists, and combined risks by vehicle make and model.''.

(b) RULEMAKING DEADLINES.—

(1) RULEMAKING.—The Secretary of Transportation shall issue—

(A) a notice of a proposed rulemaking under section 30129 of title 49, United States Code, not later than January 1, 2012; and

(B) a final rule under such section not later than December 31, 2014.

(2) EFFECTIVE DATE OF REQUIREMENTS.—Any requirement imposed under the final rule issued under paragraph (1) shall become fully effective not later than September 1, 2018.

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 301 is amended by inserting after the item relating to section 30128 the following:

''30129. Vehicle compatibility standard''.

SEC. 506. CREDIT TRADING PROGRAM.

Section 32903 of title 49, United States Code, is amended—

(1) by striking ''passenger'' each place it appears;

(2) by striking ''section 32902(b)–(d) of this title'' each place it appears and inserting ''subsection (a), (c), or (d) of section 32902'';

(3) by striking ''3 consecutive model years'' in subsection (a)(2) and inserting ''5 consecutive model years'';

(4) in subsection (a)(2), by striking ''clause (1) of this subsection,'' and inserting ''paragraph (1)''; and

(5) by striking subsection (e) and inserting the following:

''(e) CREDIT TRADING AMONG MANUFACTURERS.—The Secretary of Transportation may establish, by regulation, a corporate average fuel economy credit trading program to allow manufacturers whose automobiles exceed the average fuel economy standards prescribed under section 32902 to earn credits to be sold to manufacturers whose automobiles fail to achieve the prescribed standards such that the total oil savings associated with manufacturers that exceed the prescribed standards are preserved when transferring credits to manufacturers that fail to achieve the prescribed standards.''.

SEC. 507. LABELS FOR FUEL ECONOMY AND GREENHOUSE GAS EMISSIONS.

Section 32908 of title 49, United States Code, is amended—

(1) by redesignating subparagraph (F) of subsection (b)(1) as subparagraph (H) and inserting after subparagraph (E) the following:

''(F) a label (or a logo imprinted on a label required by this paragraph) that—

''(i) reflects an automobile's performance on the basis of criteria developed by the Administrator to reflect the fuel economy and greenhouse gas and other emissions consequences of operating the automobile over its likely useful life;

''(ii) permits consumers to compare performance results under clause (i) among all automobiles; and

''(iii) is designed to encourage the manufacture and sale of automobiles that meet or exceed applicable fuel economy standards under section 32902.

''(G) a fuelstar under paragraph (5).''; and

(2) by adding at the end of subsection (b) the following:

''(4) GREEN LABEL PROGRAM.—

''(A) MARKETING ANALYSIS.—Not later than 2 years after the date of the enactment of the Ten-in-Ten Fuel Economy Act, the Administrator shall implement a consumer education program and execute marketing strategies to improve consumer understanding of automobile performance described in paragraph (1)(F).

''(B) ELIGIBILITY.—Not later than 3 years after the date described in subparagraph (A), the Administrator shall issue requirements for the label or logo required under paragraph (1)(F) to ensure that an automobile is not eligible for the label or logo unless it—

''(i) meets or exceeds the applicable fuel economy standard; or

''(ii) will have the lowest greenhouse gas emissions over the useful life of the vehicle of all vehicles in the vehicle attribute class to which it belongs in that model year.

''(5) FUELSTAR PROGRAM.—

''(A) IN GENERAL.—The Secretary shall establish a program, to be known as the 'Fuelstar Program', under which stars shall be imprinted on or attached to the label required by paragraph (1).

''(B) GREEN STARS.—Under the Fuelstar Program, a manufacturer may include on the label maintained on an automobile under paragraph (1)—

''(i) 1 green star for any automobile that meets the average fuel economy standard for the model year under section 32902; and

''(ii) 1 additional green star for each 2 miles per gallon by which the automobile exceeds such standard.

''(C) GOLD STARS.—Under the Fuelstar Program, a manufacturer may include a gold star on the label maintained on an automobile under paragraph (1) if the automobile attains a fuel economy of at least 50 miles per gallon.''.

SEC. 508. CONTINUED APPLICABILITY OF EXISTING STANDARDS.

Nothing in this title, or the amendments made by this title, shall be construed to affect the application of section 32902 of title 49, United States Code, to passenger automobiles or non-passenger automobiles manufactured before model year 2011.

SEC. 509. NATIONAL ACADEMY OF SCIENCES STUDIES.

(a) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary of Transportation shall execute an agreement with the National Academy of Sciences to develop a report evaluating vehicle fuel economy standards, including—

(1) an assessment of automotive technologies and costs to reflect developments since the Academy's 2002 report evaluating the corporate average fuel economy standards was conducted;

(2) an analysis of existing and potential technologies that may be used practically to improve automobile and medium-duty and heavy-duty truck fuel economy;

(3) an analysis of how such technologies may be practically integrated into the automotive and medium-duty and heavy-duty truck manufacturing process; and

(4) an assessment of how such technologies may be used to meet the new fuel economy standards under chapter 329 of title 49, United States Code, as amended by this title.

(b) QUINQUENNIAL UPDATES.—After submitting the initial report, the Academy shall update the report at 5 year intervals thereafter through 2025.

(c) REPORT.—The Academy shall submit the report to the Secretary, the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce, with its findings and recommendations no later than 18 months after the date on which the Secretary executes the agreement with the Academy.

SEC. 510. STANDARDS FOR EXECUTIVE AGENCY AUTOMOBILES.

(a) IN GENERAL.—Section 32917 of title 49, United States Code, is amended to read as follows:

''§ 32917. Standards for Executive agency automobiles

''(a) FUEL EFFICIENCY.—The head of an Executive agency shall ensure that each new automobile procured by the Executive agency is as fuel efficient as practicable.

''(b) DEFINITIONS.—In this section:

''(1) EXECUTIVE AGENCY.—The term 'Executive agency' has the meaning given that term in section 105 of title 5.

''(2) NEW AUTOMOBILE.—The term 'new automobile', with respect to the fleet of automobiles of an executive agency, means an automobile that is leased for at least 60 consecutive days or bought, by or for the Executive agency, after September 30, 2008. The term does not include any vehicle designed for combat-related missions, law enforcement work, or emergency rescue work.''.

(b) REPORT.—The Administrator of the General Services Administration shall develop a report describing and evaluating the efforts of the heads of the Executive agencies to comply with section 32917 of title 49, United States Code, for fiscal year 2009. The Administrator shall submit the report to Congress no later than December 31, 2009.

SEC. 511. INCREASING CONSUMER AWARENESS OF FLEXIBLE FUEL AUTOMOBILES.

Section 32908 of title 49, United States Code, is amended by adding at the end the following:

''(g) INCREASING CONSUMER AWARENESS OF FLEXIBLE FUEL AUTOMOBILES.—(1) The Secretary of Energy, in consultation with the Secretary of Transportation, shall prescribe regulations that require the manufacturer of automobiles distributed in interstate commerce for sale in the United States—

''(A) to prominently display a permanent badge or emblem on the quarter panel or tailgate of each such automobile that indicates such vehicle is capable of operating on alternative fuel; and

''(B) to include information in the owner's manual of each such automobile information that describes—

''(i) the capability of the automobile to operate using alternative fuel;

''(ii) the benefits of using alternative fuel, including the renewable nature, and the environmental benefits of using alternative fuel; and

''(C) to contain a fuel tank cap that is clearly labeled to inform consumers that the automobile is capable of operating on alternative fuel.

''(2) The Secretary of Transportation shall collaborate with automobile retailers to develop voluntary methods for providing prospective purchasers of automobiles with information regarding the benefits of using alternative fuel in automobiles, including—

''(A) the renewable nature of alternative fuel; and

''(B) the environmental benefits of using alternative fuel.''.

SEC. 512. PERIODIC REVIEW OF ACCURACY OF FUEL ECONOMY LABELING PROCEDURES.

Beginning in December, 2009, and not less often than every 5 years thereafter, the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Transportation, shall—

(1) reevaluate the fuel economy labeling procedures described in the final rule published in the Federal Register on December 27, 2006 (71 Fed. Reg. 77,872; 40 C.F.R. parts 86 and 600) to determine whether changes in the factors used to establish the labeling procedures warrant a revision of that process; and

(2) submit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce that describes the results of the reevaluation process.

SEC. 513. TIRE FUEL EFFICIENCY CONSUMER INFORMATION.

(a) IN GENERAL.—Chapter 301 of title 49, United States Code, is amended by inserting after section 30123 the following new section:

''§ 30123A. Tire fuel efficiency consumer information

''(a) RULEMAKING.—

''(1) IN GENERAL.—Not later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation shall, after notice and opportunity for comment, promulgate rules establishing a national tire fuel efficiency consumer information program for tires designed for use on motor vehicles to educate consumers about the effect of tires on automobile fuel efficiency.

''(2) ITEMS INCLUDED IN RULE.—The rulemaking shall include—

''(A) a national tire fuel efficiency rating system for motor vehicle tires to assist consumers in making more educated tire purchasing decisions;

''(B) requirements for providing information to consumers, including information at the point of sale and other potential information dissemination methods, including the Internet;

''(C) specifications for test methods for manufacturers to use in assessing and rating tires to avoid variation among test equipment and manufacturers; and

''(D) a national tire maintenance consumer education program including, information on tire inflation pressure, alignment, rotation, and tread wear to maximize fuel efficiency.

''(3) APPLICABILITY.—This section shall not apply to tires excluded from coverage under section 575.104(c)(2) of title 49, Code of Federal Regulations, as in effect on date of enactment of the Ten-in-Ten Fuel Economy Act.

''(b) CONSULTATION.—The Secretary shall consult with the Secretary of Energy and the Administrator of the Environmental Protection Agency on the means of conveying tire fuel efficiency consumer information.

''(c) REPORT TO CONGRESS.—The Secretary shall conduct periodic assessments of the rules promulgated under this section to determine the utility of such rules to consumers, the level of cooperation by industry, and the contribution to national goals pertaining to energy consumption. The Secretary shall transmit periodic reports detailing the findings of such assessments to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce.

''(d) TIRE MARKING.—The Secretary shall not require permanent labeling of any kind on a tire for the purpose of tire fuel efficiency information.

''(e) PREEMPTION.—When a requirement under this section is in effect, a State or political subdivision of a State may adopt or

enforce a law or regulation on tire fuel efficiency consumer information only if the law or regulation is identical to that requirement. Nothing in this section shall be construed to preempt a State or political subdivision of a State from regulating the fuel efficiency of tires not otherwise preempted under this chapter.''.

(b) ENFORCEMENT.—Section 30165(a) of title 49, United States Code, is amended by adding at the end the following:

''(4) SECTION 30123a.—Any person who fails to comply with the national tire fuel efficiency consumer information program under section 30123A is liable to the United States Government for a civil penalty of not more than $50,000 for each violation.''.

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 301 of title 49, United States Code, is amended by inserting after the item relating to section 30123 the following:

''30123A. Tire fuel efficiency consumer information''.

SEC. 514. ADVANCED BATTERY INITIATIVE.

(a) IN GENERAL.—The Secretary of Energy, in consultation with the Secretary of Transportation, shall establish and carry out an Advanced Battery Initiative in accordance with this section to support research, development, demonstration, and commercial application of battery technologies.

(b) INDUSTRY ALLIANCE.—Not later than 180 days after the date of enactment of this Act, the Secretary shall competitively select an Industry Alliance to represent participants who are private, for-profit firms headquartered in the United States, the primary business of which is the manufacturing of batteries.

(c) RESEARCH.—

(1) GRANTS.—The Secretary shall carry out research activities of the Initiative through competitively-awarded grants to—

(A) researchers, including Industry Alliance participants;

(B) small businesses;

(C) National Laboratories; and

(D) institutions of higher education.

(2) INDUSTRY ALLIANCE.—The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify advanced battery technology and battery systems needs relevant to—

(i) electric drive technology; and

(ii) other applications the Secretary deems appropriate;

(B) an assessment of the progress of research activities of the Initiative; and

(C) assistance in annually updating advanced battery technology and battery systems roadmaps.

(d) AVAILABILITY TO THE PUBLIC.—The information and roadmaps developed under this section shall be available to the public.

(e) PREFERENCE.—In making awards under this subsection, the Secretary shall give preference to participants in the Industry Alliance.

(f) COST SHARING.—In carrying out this section, the Secretary shall require cost sharing in accordance with section 120(b) of title 23, United States Code.

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for each of fiscal years 2008 through 2012.

SEC. 515. BIODIESEL STANDARDS.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Transportation and the Secretary of Energy, shall promulgate regulations to ensure that all diesel-equivalent fuels derived from renewable biomass that are introduced into interstate commerce are tested and certified to comply with appropriate American Society for Testing and Materials standards.

(b) DEFINITIONS.—In this section:

(1) BIODIESEL.—

(A) IN GENERAL.—The term ''biodiesel'' means the monoalkyl esters of long chain fatty acids derived from plant or animal matter that meet—

(i) the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545); and

(ii) the requirements of the American Society of Testing and Materials D6751.

(B) INCLUSIONS.—The term ''biodiesel'' includes esters described in subparagraph (A) derived from—

(i) animal waste, including poultry fat, poultry waste, and other waste material; and

(ii) municipal solid waste, sludge, and oil derived from wastewater or the treatment of wastewater.

(2) BIODIESEL BLEND.—The term ''biodiesel blend'' means a mixture of biodiesel and diesel fuel, including—

(A) a blend of biodiesel and diesel fuel approximately 5 percent of the content of which is biodiesel (commonly known as ''B5''); and

(B) a blend of biodiesel and diesel fuel approximately 20 percent of the content of which is biodiesel (commonly known as ''B20'').

SEC. 516. USE OF CIVIL PENALTIES FOR RESEARCH AND DEVELOPMENT.

Section 32912 of title 49, United States Code, is amended by adding at the end thereof the following:

''(e) USE OF CIVIL PENALTIES.—For fiscal year 2008 and each fiscal year thereafter, from the total amount deposited in the general fund of the Treasury during the preceding fiscal year from fines, penalties, and other funds obtained through enforcement actions conducted pursuant to this section (including funds obtained under consent decrees), the Secretary of the Treasury, subject to the availability of appropriations, shall—

''(1) transfer 50 percent of such total amount to the account providing appropriations to the Secretary of Transportation for the administration of this chapter, which shall be used by the Secretary to carry out a program of research and development into fuel saving automotive technologies and to support rulemaking under this chapter; and

''(2) transfer 50 percent of such total amount to the Energy Security Fund established by section 517(a) of the Ten-in-Ten Fuel Economy Act.''.

SEC. 517. ENERGY SECURITY FUND AND ALTERNATIVE FUEL GRANT PROGRAM.

(a) ESTABLISHMENT OF FUND.—

(1) IN GENERAL.—There is established in the Treasury a fund, to be known as the ''Energy Security Fund'' (referred to in this section as the ''Fund''), consisting of—

(A) amounts transferred to the Fund under section 32912(e)(2) of title 49, United States Code; and

(B) amounts credited to the Fund under paragraph (2)(C).

(2) INVESTMENT OF AMOUNTS.—

(A) IN GENERAL.—The Secretary of the Treasury shall invest in interest-bearing obligations of the United States such portion of the Fund as is not, in the judgment of the Secretary of the Treasury, required to meet current withdrawals.

(B) SALE OF OBLIGATIONS.—Any obligation acquired by the Fund may be sold by the Secretary of the Treasury at the market price.

(C) CREDITS TO FUND.—The interest on, and the proceeds from the sale or redemption of, any obligations held in the Fund shall be credited to, and form a part of, the Fund in accordance with section 9602 of the Internal Revenue Code of 1986.

(3) USE OF AMOUNTS IN FUND.—Amounts in the Fund shall be made available to the Secretary of Energy, subject to the availability of appropriations, to carry out the grant program under subsection (b).

(b) ALTERNATIVE FUELS GRANT PROGRAM.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary of Energy, acting through the Clean Cities Program of the Department of Energy, shall establish and carry out a program under which the Secretary shall provide grants to expand the availability to consumers of alternative fuels (as defined in section 32901(a) of title 49, United States Code).

(2) ELIGIBILITY.—

(A) IN GENERAL.—Except as provided in subparagraph (B), any entity that is eligible to receive assistance under the Clean Cities Program shall be eligible to receive a grant under this subsection.

(B) EXCEPTIONS.—

(i) CERTAIN OIL COMPANIES.—A large, vertically-integrated oil company shall not be eligible to receive a grant under this subsection.

(ii) PROHIBITION OF DUAL BENEFITS.—An entity that receives any other Federal funds for the construction or expansion of alternative refueling infrastructure shall not be eligible to receive a grant under this subsection for the construction or expansion of the same alternative refueling infrastructure.

(C) ENSURING COMPLIANCE.—Not later than 30 days after the date of enactment of this Act, the Secretary of Energy shall promulgate regulations to ensure that, before receiving a grant under this subsection, an eligible entity meets applicable standards relating to the installation, construction, and expansion of infrastructure necessary to increase the availability to consumers of alternative fuels (as defined in section 32901(a) of title 49, United States Code).

(3) MAXIMUM AMOUNT.—

(A) GRANTS.—The amount of a grant provided under this subsection shall not exceed $30,000.

(B) AMOUNT PER STATION.—An eligible entity shall receive not more than $90,000 under this subsection for any station of the eligible entity during a fiscal year.

(4) USE OF FUNDS.—

(A) IN GENERAL.—A grant provided under this subsection shall be used for the construction or expansion of alternative fueling infrastructure.

(B) ADMINISTRATIVE EXPENSES.—Not more than 3 percent of the amount of a grant provided under this subsection shall be used for administrative expenses.

SEC. 518. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary of Transportation $25,000,000 for each of fiscal years 2009 through 2021 to carry out the provisions of chapter 329 of title 49, United States Code.

SEC. 519. APPLICATION WITH CLEAN AIR ACT.

Nothing in this title shall be construed to conflict with the authority provided by sections 202 and 209 of the Clean Air Act (42 U.S.C. 7521 and 7543, respectively).

SEC. 520. ALTERNATIVE FUEL VEHICLE ACTION PLAN.

(a) IN GENERAL.—The Secretary of Transportation shall, establish and implement an action plan which takes into consideration the availability cost effectiveness of alternative fuels, which will ensure that, beginning with model year 2015, the percentage of new automobiles for sale in the United States that are alternative fuel automobiles is not less than 50 percent.

(b) DEFINITIONS.—In this section:

(1) ALTERNATIVE FUEL AUTOMOBILE.—The term ''alternative fuel automobile'' means the following but not limited to—

(A) a new advanced lean burn technology motor vehicle (as defined in section 30B(c)(3) of the Internal Revenue Code of 1986) that achieves at least 125 percent of the model year 2002 city fuel economy;

(B) an alternative fueled automobile;

(C) a flexible fuel automobile;

(D) a new qualified fuel cell motor vehicle (as defined in section 30B(e)(4) of such Code).

(E) a new qualified hybrid motor vehicle (as defined in section 30B(d)(3) of such Code);

(F) a plug-in hybrid automobile;

(G) an electric automobile;

(H) a hydrogen internal combustion engine automobile; and

(I) any other automobile that uses substantially new technology and achieves at least 175 percent of the model year 2002 city fuel economy, as determined by the Secretary of Transportation, by regulation.

(2) OTHER TERMS.—Any term used in this section that is defined in section 32901 of title 49, United States Code, has the meaning given that term in that section.

Mr. STEVENS. Mr. President, the fuel economy compromise that I filed yesterday, as now amended, is a step toward addressing our energy crisis. I thank my dear friend chairman INOUYE and his staff for working across the aisle to ensure a bipartisan measure. I support the notion articulated by the President in his State of the Union Address that we need to modernize the Nation's fuel economy program, and save a significant amount of fuel over the next decade. I believe the provision we now consider would effectuate that policy goal in a thoughtful and functional way.

Once again, our Nation stands at a crossroads in our history. The United States faces an energy crisis, but we find ourselves trapped in a vicious cycle which will only make its consequences more severe. While our Nation is blessed with enormous natural resource potential, inconsistent government policies discourage their exploration and development. As a direct result, the amount of oil imported each year is increasing, and our Federal lands, including those in my home State of Alaska, are being withdrawn from oil and gas development and exploration. These policies have been—and will continue to be detrimental to our national security and long-term environmental economic health. The time has come for those of us in Congress, as the custodians of the public trust, to make the difficult energy policy decisions that will serve to benefit future generations.

Those who advocate a one-approach-fixes-all solution are misleading the American public. The only way our Nation will achieve energy independence is through a combination of initiatives. Conservation, domestic production, and the development of alternative sources of energy are all parts of the broader solution. The end to our crisis lies in the balance between them, and the advancement of each will also reduce greenhouse gas emissions. One initiative without the others will simply not be enough to achieve our energy objective.

The fuel economy provisions of this bill would enhance conservation. The measure would remove the legal ambiguity that for years has inhibited the Secretary of Transportation from raising fuel economy standards for passenger cars, and mandate significant fuel economy increases for both passenger cars and light trucks.

By providing authority to increase standards for passenger vehicles, and challenging automobile makers to invest toward the achievement of a specific fuel economy target, this amendment would provide consumers with fuel savings at the pump, limit our Nation's dependence on foreign oil, and significantly reduce greenhouse gas emissions.

I am fully aware of the aggressiveness of the target standard set forth in this bill and the challenges involved with reaching the fuel economy standard for the domestic vehicle fleet. And I thank Chairman INOUYE for agreeing to allow regulatory flexibility in the event that the targets set forth by this legislation are not feasible. But the overall charge to the auto industry set forth in this measure is not unfamiliar to the industry during times of geopolitical instability. In fact, the CAFE program was born out of very similar circumstances in 1973, during the Arab oil embargo. At the time, our Nation recognized that it was in our national interest to reduce our dependence on foreign sources of oil by demanding better fuel economy from our automobiles. History has now repeated itself and a combination of events, including the aftermath of Hurricane Katrina and geopolitical unrest, has precipitated once again the need for difficult energy conservation determinations.

Mr. President, the terrorist attacks waged on this country on September 11, 2001, and the ongoing turmoil in the Middle East have brought into focus the need to reduce our dependence on all foreign oil. The United States imports almost 11 million barrels of crude oil every day, compared with only 5 million produced here at home. And more than 2 million imported barrels arrive from the Persian Gulf each day. Domestic consumption has increased since 1993 from 17 million to 21 million barrels per day. The savings achieved by increasing fuel economy standards for the entire domestic passenger vehicle fleet is an essential component of our comprehensive strategy to increase our energy independence and national security.

But any change to fuel economy standards requires the careful balance of many factors, including national security, consumer preference, domestic employment, as well as the need for powerful and durable vehicles in rural America, including my home State of Alaska. While the fuel economy provisions in this amendment would set aggressive goals, they would also provide the Secretary the authority to balance these market and national security considerations, and to make the appropriate and necessary fuel economy increases.

By significantly improving fuel economy in our passenger vehicle fleet, we will inherently reduce greenhouse gas emissions. While the cause of global climate change has yet to be fully determined, its speed and impacts are more evident in Alaska than anywhere in the country.

Many believe global climate change is attributable partly to manmade activities. Temperatures are rising in the Arctic region at more than twice the rate of the rest of the world, according to the 2004 Arctic Climate Impact Assessment, and many impacts in Alaska such as erosion and flooding exacerbated by climate change require immediate attention and planning of responses.

Mr. President, our Nation needs a new energy paradigm. The 21st century will be the proving ground for our commitment to achieve both energy independence and a clean, sustainable environment. The fuel economy provisions in the amendment address conservation and are intended as an aggressive first step of a more holistic energy policy.

The current energy crisis cannot be resolved through conservation alone, and we cannot suspend the law of supply and demand while we anticipate alternative technologies and energy sources. I remain steadfast in my belief that allowing for the development of our domestic resources, particularly in my State of Alaska, is an essential component of a successful energy policy.

While my colleagues in the past have narrowly defeated efforts to effectuate that calling, I will not give up on advancing the need for such production. The development of our domestic resources would generate billions of dollars for the Federal Government, which could aid in our quest for alternative sources of energy if we use this new revenue to invest in research efforts and infrastructure development.

Mr. President, I ask for action on the amendment.

The PRESIDING OFFICER. The question is on agreeing to the amendment, as modified.

The amendment (No. 1792), as modified, was agreed to.

Mr. REID. Mr. President, I move to reconsider the vote.

Mr. STEVENS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. REID. Mr. President, the managers of the bill, Senators BINGAMAN and DOMENICI, are now going to try to see if there are amendments that can be called up, so that a quorum call will be entered into. Hopefully, we can have other amendments in this matter as soon as possible.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. STEVENS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. NELSON of Florida). Without objection, it is so ordered.

Mr. STEVENS. Mr. President, I ask that the sponsors of the amendment that has just been adopted be myself, Senator INOUYE, Senator FEINSTEIN, Senator LOTT, Senator KERRY, Senator CARPER, Senator HAGEL, Senator SNOWE, Senator DORGAN, Senator ALEXANDER, Senator CANTWELL, Senator CORKER, Senator DOLE, Senator CRAIG, and Senator SUNUNU, in that order.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STEVENS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, in this downtime, the managers are working. At this time, what we are trying to do is clear amendments. There are a number of amendments that have been filed, some of which are germane. We are working to see if we can clear amendments without a lot of determination at this time as to whether they are germane or not. Managers are working on this real hard and speaking to the individual Senators and staffs.

Senator DOMENICI has been notified of this situation. Senator CRAIG is here from the committee representing the minority at this time. We hope they can expedite the clearing of some of these amendments, and then we will make a determination after that to see if there are any other votes we have to have on some of these germane amendments.

Mr. CRAIG. Will the leader yield?

Mr. REID. I will be happy to yield.

Mr. CRAIG. Mr. President, on behalf of our colleagues, is it possible at this time for the leader to give us some timeframe as it relates to the packaging and possible activity this evening and into tomorrow?

Mr. REID. I thank the Senator from Idaho very much. I say to my dear friend from a neighboring State of Nevada, we are trying—and I have had a number of conversations this afternoon with the Republican leader—to see if we can expedite the time. It is very possible that we could move forward on this legislation and not have to work the weekend because a lot of the weekend would be spent just standing around.

If we can accomplish what we need to do without a lot of standing around time, we would be better off, and then we can move early next week to finish the debate on immigration. We have a limited number of items left to do. We have to finish the germane amendments. I have already indicated the managers are willing even to take a look at some nongermane amendments. We need to finish the germane amendments, and we have to have cloture on the bill if, in fact, that is required. Sometimes it isn't. Most of the time it isn't. I said that earlier. And then we would have final passage on the bill. Then we would have 20 minutes on card check. That is the time for the vote. There would be no debate on that. I have a strong suspicion that cloture will not be invoked on that legislation. Following that, we would move to immigration.

Mr. CRAIG. I thank the leader.

Mr. REID. One of the proposals, I say to my friend, was to start immigration on Monday and maybe some other odds and ends around here on this matter. The other proposal Senator MCCONNELL and I have talked about is starting everything Tuesday morning. We would arrive at the same end time. It would just be we wouldn't have to be in session with people standing around guarding to make sure somebody isn't going to do something when the quorum call is on. We could wind up at the same place and accomplish just as much. That doesn't take away how difficult it is going to be once we get on immigration.

There are meetings being held on that today and progress is even being made.

I suggest the absence of a quorum.

I withhold for a minute. We are going to be in a quorum call. If someone wants to give a speech for 10 minutes, recognizing they will speak as in morning business just for that 10-minute period, that would certainly be appropriate. But we are not going to do any business on this bill until the managers give us some direction.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, my understanding is the floor is available for some discussion while we are waiting for the managers to work on amendments and perhaps clear amendments, and I wanted to take a few minutes along with my colleague Senator CRAIG to talk about some information in a piece of legislation we have previously introduced called the SAFE Energy Act, Security and Fuel Efficiency Energy Act.

That legislation represents legislation trying to reduce the oil intensity of the American economy. The calculation of where we are with respect to oil in this country is that we are dangerously dependent on foreign sources of oil, dangerously dependent on oil that comes from very troubled parts of the world—Saudi Arabia, Kuwait, Iraq, Venezuela, and more. That dependence now is over 60 percent. In other words, over 60 percent of the oil we need to run this country's economy comes from other parts of the world, much of it very troubled.

If, God forbid, tomorrow a terrorist were to interrupt the supply of oil coming to this country, our economy would be flat on its back. So how do we reduce the oil intensity in this country? Well, you do a lot of things. I mentioned that 60 percent plus of our oil comes from outside of our country. About 70 percent of the oil we use in this country is used in vehicles. So while 60 percent comes from other countries, 70 percent is running through a carburetor or fuel injector to make our vehicle fleet go, and we are in a hopeless pursuit of becoming less dependent on foreign sources of energy if we don't make our vehicle fleet more efficient.

So that is one. You have to make your vehicle fleet more efficient. We have just passed a piece of legislation that moves in that direction. But you need a lot of things: You need efficiency, you need conservation, you need renewable energy, you need additional production of energy; yes, even fossil fuels, but done in an environmentally acceptable way. So conservation.

We misuse, we waste, an enormous amount of energy in this country. The cheapest form of energy available to us is through conservation. There is no question about that. Efficiency. Almost everything we do in this country, from the time we get up in the morning until we go to bed at night, we are using all kinds of appliances that require energy. We flip on a switch and a

light bulb turns on. We plug in a razor and shave and use electricity. We jump in the shower and that water is heated by electricity or perhaps natural gas. But the fact is everything we do can be made more efficient.

There are strange terms, such as SEER 13 standards for air conditioners. Some don't know what that means. I know it is kind of an arcane language, talking about SEER 13 standards, but it means much more efficient air conditioners. We fought for a long time about that and finally got a SEER 13 standard, and it is going to use much less electricity and be much more efficient.

So conservation, efficiency, renewables. The bill on the floor of the Senate is a significant piece of legislation dealing with renewable energy, solar energy, biomass, wind energy, and then the biofuels, including ethanol, biodiesel, and all of these issues that deal with renewable energy. That is another significant step toward being less dependent on foreign sources of oil. Conservation, efficiency, renewables.

But there is another piece that has received too little notice, in my judgment, too little notice on the floor of the Senate, and that is additional production. We are going to use additional coal. As chairman of the Energy and Water appropriations subcommittee that funds those energy accounts, we are going to use clean power and clean coal technology to, I hope one of these days, be able to have a coal-fired electric generating plant that is a zero-emission coal-fired electric generating plant. I believe we can get there through technology and better science. We have all these issues we are working on.

With respect to fossil fuel, coal, oil, and natural gas, we need to find additional ways to produce additional quantities of oil here as well. As I look at this issue, and my colleague Senator CRAIG and I have evaluated this issue, there are quantities of oil offshore—yes, in Alaska and on the west coast, in the gulf—and the largest quantity is in the Gulf of Mexico. We know we have passed some legislation in the last 2 years, within the last year and a half or so, opening up what is called lease 181. It was modified, through the work of the Senators from Florida and others, in a way that was acceptable to them.

We opened up a portion of the Gulf of Mexico for additional production. Senator CRAIG and I believe there are additional tracts and significant tracts that can be open for additional production of oil, oil and natural gas, and that such production can be done without destruction of our environment. That production can be done by expanding the supply, which must be part of the answer to addressing this energy problem we have.

The oil intensity in our country makes us dangerously dependent on foreign sources of oil, and so as we look at how we deal with that, we deal with it in a lot of ways, but one of those ways must, in my judgment, include some additional production with proper and certain environmental protections. That can be done. That should be done, in my judgment.

Now, Senator CRAIG and I understand that portion of the plan we introduced here in the Senate that deals with offshore production is controversial. We understand when you try to do something such as that, people come to the floor and put up a pretty vigorous fight. I might say the Presiding Officer, being from Florida, has been very active and very aggressive in protecting his State's interests, and very effective at protecting his State's interests. Both Senators from Florida have been active and involved in that. We understand that.

We also understand it is not likely at this point that we have the votes here in the Senate at this moment to expand the kind of production we wish to expand in the Gulf of Mexico, but that doesn't mean we shouldn't be discussing and considering how at some point in the future we access those significant additional quantities of oil and natural gas our country needs, and how we access them with the kind of certain protections for our economy and our environment that would be necessary to accompany that.

That is why Senator CRAIG and I introduced a piece of legislation that has this production side to it, and we feel it has not been much discussed on the floor of the Senate. Everything else has been—conservation, efficiency, renewables—all of which I support, all of which I am excited about, all of which I think advance this country's interest, but the production side has not been discussed in as significant a way as I believe it should. So I wanted to simply take this moment to say that the proposal offered by my colleague from Idaho and myself is one that believes that whether it is now or in the future, the construct of how we put together a comprehensive energy plan to reduce the dangerous dependence we have on foreign sources of oil must include some additional production, and the most likely place, with the greatest potential, if you look at all of the potential areas, is in the Gulf of Mexico.

Mr. President, I yield the floor so my colleague from Idaho can express himself as well.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. CRAIG. Mr. President, let me thank the Senator from North Dakota for a very succinct presentation about the reality of why we have spent the last couple of weeks debating energy in the Senate.

There is another reality check that I think most Americans fail to understand when it comes to why they are paying $3-plus at the pump, and that reality is that clearly demand in this country has outstripped supply by a significant amount. We have increasingly, since the 1950s, begun to have to go elsewhere than just in and around our country to meet the hydrocarbon or the crude oil needs of our refiners and, ultimately, the gasoline needs of our consumers. As that dependency has grown on foreign sources of energy, I would argue that America became increasingly less secure.

Now, I am one who in the 1980s, and probably the early 1990s, thought it would be just production, production, and more production. I have changed. I have spent a lot of time looking at the energy equation of our country over the last couple of decades and said, no, you have to do a variety of different things.

Production is important. Our President said we are hooked on hydrocarbons. We are ''gasaholics,'' if you will. We are and we will be for an extended period of time. We have been there a long while. We have a multi, multibillion dollar infrastructure that supplies that energy out to the suburban access points, and you don't change those overnight. You don't change the technology that ultimately gets you there, but you do change. And America must change.

Some say you don't need anymore production, you can go to efficiency, you can go to new technology, and that alone will change the equation fast enough to save America's consumers and the economy.

I disagree with that. I think we are going to go there. In fact, the Senate by a voice vote a few moments ago passed a new efficiency standard for automobiles that I support. I am a Senator who has never supported that in the 27 years I have been in the Senate. So while I may be asking the Presiding Officer from Florida to change a little bit as it relates to the resources that are offshore Florida because I now know the technologies can bring those resources out without damaging the environment, here is a Senator who has changed also because I do believe that when you get to a fleet that burns less fuel, you are going to get to an America that needs less hydrocarbons over time.

That is why the Senator from North Dakota and I introduced legislation earlier this year that talked about conservation, and it talked about innovation, but it also talked about production and the reality of having to get more production out of our own resources instead of relying on one of the most unstable, riskiest areas of the world to gain that production.

If the world were at total peace today and the world's oil supplies were managed by companies and not countries, my guess is crude would not be at $60-plus a barrel. It would be at $40-plus a

barrel and the American consumer would probably be paying a dollar less at the pump. But that is not reality. Reality is reflected at the pump and therein lies one of our greatest problems.

Earlier in the day, we had a great debate about a tax bill, to tax the oil companies by about $30 billion. Somehow that was going to change the equation; it was going to make the world a safer and better place. It was not going to change the price at the pump, not one dime. In fact it had the potential of taking it up.

Here is the reason why. It did not change this equation. What is this equation? These are the known reserves of oil on the globe. Here are the big boys, as we think of them—the big companies. Here is Exxon and here is the British Petroleum and here is Texaco and over here is Marathon.

You can hardly see them on the chart. They don't own the world's oil supply. They manage and own very little of it.

Who owns it? Hugo Chavez, Venezuela—who would love to jerk this country around by its tail—Saudi Arabia, Iran, Iraq. I have named some of the most unstable areas of the world. They own the oil today. We need it because we are dependent on it, because we have done very little about it. That is why the Senator from North Dakota and I said we have to go where the oil is in our country, and the oil is not onshore anymore. The oil is not onshore. It is offshore. We know it is, and we know there is a substantial supply of it. But we have allowed States to put on moratoria and establish a political environment that denies the Federal Government access to its own resources, so the taxpayers of Idaho are paying a higher price for gasoline, in part, because the State of California—the Senator from California is here, the State of Florida, and other States have said you can't drill off our shore. No. No. Even though in California, with the old leases, they are still drilling in the State waters—not drilling but producing—the ghost of Santa Barbara is long gone. There are some who still like to talk about it, but my guess is these young folks sitting around here tonight, who are our pages, don't even remember Santa Barbara or the oilspill that resulted from the catastrophe of a wellhead blowing off offshore years ago.

The reason you don't is because it doesn't happen anymore. The technology of today, the safety of today, the regulations of today have changed the equation.

The Senator from North Dakota talked about a compromise the Senator from Florida worked with us on this past year. This is lease sale 181, where there may be millions of barrels of oil and trillions of cubic feet of gas. We don't know. There is a pretty good idea it is there and it can be produced and pushed into the current infrastructure and America, for a moment in time, will be a little bit more energy secure.

What I am proposing and what many are talking about is what about this area? What about the rest of the eastern gulf? Ought we not be talking about that? Looking at it? Understanding what is there, if technology allows us to produce?

Here is where America's oil is being produced today, in the Gulf of Mexico. We are finding more and more out there as the technologies improve and as we can get deeper into the waters. That is reality. There are those who will give a lot of different arguments about why you should not do it. But I will argue you can do it and that the oil is there and America ought to know about it and they ought to be asking why we are not going there but, instead, why are we increasingly dependent upon foreign nations for our source of oil?

It is a reasonable question to ask. Right now, America has grown increasingly angry because of the price it is paying at the pump. People are not accustomed to using their disposable income for the price of energy as we know it today. That is not what we have done in an economy such as ours. But that is where we are today.

Here is what happens when we rely on other countries to produce our energy for us. We are at war with terrorism today around the globe. This is the French oil tanker off the coast of Yemen in October 6 of 2002, when an al-Qaida suicide boat hit it and set it afire. Here is the vulnerability of all of our oil moving on water. I suggest the ecological problems resulting from this are greater than from any drilling that could occur offshore America today because we expose ourselves to a high risk by the shipment of oil on our ocean surfaces around the world.

That is why I think it is important that we keep talking and allowing America to understand we are not without oil and not without oil reserves. The progressive and environmentally sound development of them over time will help us in this period of transition that will take several decades to move to flex-fueled cars—hydrogen cars, electric cars, all of the kinds of things we think America wants and that in public policy and incentivizing the marketplace we are moving America toward.

It will not happen overnight. In that period of time, while it is happening, America remains extremely vulnerable. Our economy is at risk. There is no question about it. What I have said is this picture demonstrates something that ought to be repeated and repeated again: The weapon of mass ''disruption'' in this country is an al-Qaida suicide boat hitting the side of an oil tanker, time and time again. That is the weapon of mass disruption. The high risk involved, the driving up of the oil prices, the movement of gas by $2 or $3 a gallon in this economy creates havoc everywhere. Certainly, in my State of Idaho it creates tremendous problems.

It is important that I and other Senators recognize that you do not conserve your way out of an energy crisis. You do not innovate your way out of an energy crisis. You do not produce your way out. You do all three.

I am going to continue to work while I am in the Senate to encourage this Senate in public policy to do all three. I think it is in the best interests of America, our economy, and our national security that we do so. As an American today, I am not only frustrated, I am sometimes angered and embarrassed that we, through public policy, have allowed our country to become so dependent on other parts of the world.

Great nations should not allow that to happen, but we have. Then we make excuses all around us why we can't produce. Petropolitics is a fascinating thing. America gets it. The consumer understands it, and the consumer will grow increasingly angry when they understand that public policy doesn't allow the marketplace to do what it can do best in an environmentally sound way, to provide our country with the kind of energy it needs.

Again, as we debate this bill on the floor and finalize it, my guess is we will do a lot about conservation, we will do a lot about innovation, but we will do little to nothing about production. In the next 5 to 6 years, production is where it is. As we work on innovation, as we move technology from the laboratory to the street to commercial use, production still remains critically important.

I call upon my colleagues to stand up and be counted in all three of these areas. It is important for our country. It is important for our economy. Without question, it is important for our national security. The rest of the world should not tell America what its foreign policy is or will be based on their willingness or lack thereof to produce the oil supply our economy needs.

I yield the floor.

The PRESIDING OFFICER. The Senator from California.

Mrs. FEINSTEIN. Mr. President, the Senate works in strange ways. I think there is no question about that. Some of us were upstairs holding a press conference on the fact that we had come together around a substitute amendment, and Senator KERRY, who had participated, came back up and said the amendment was agreed to.

For me, I began this in 1993, so it has been a very long time. Senator SNOWE and I have worked, first, for the SUV loophole closer and then for this ten-over-ten bill for 6 years now. So it was

adopted by the Senate, and there are some people I would like to thank.

I would like to begin thanking Senator SNOWE, who has been the cosponsor of this legislation—10 miles improvement in mileage efficiency over 10 years—since we started; the chairman of the committee, Senator INOUYE; the ranking member, Senator STEVENS; Senator CARPER, who was so helpful all the way along; Senator DORGAN, who had one part of the legislation, who agreed to a change and came into the compromise; Senator KERRY, who worked very hard with Senator CANTWELL on the flex-fuel part of this; Senator LOTT, Senator CORKER; Senator KLOBUCHAR; and many others. You, Mr. President, we thank you for being a cosponsor of this compromise effort as well.

We have pushed the rock for so long I think it is hard to feel anything once the rock goes over the hill. But the amendment was adopted and it is in the base bill. For this, we are very grateful.

I would quickly like to say what this agreement does. It increases the fleetwide average fuel economy for all cars, SUVs, and light trucks by 10 miles per gallon over 10 years or from 25 miles per gallon to 35 miles per gallon by model year 2020.

Second, it requires the National Highway Traffic Safety Administration, which we call NHTSA, to establish an attribute-based system that sets mileage standards based on size, weight or type of vehicle. This is important because it creates a level playing field for all automobiles.

From 2011 to 2019, the National Highway Traffic Safety Administration must set fuel economy standards that are the maximum feasible and ratchet these standards up, making steady progress to meet the 35-miles-per-gallon fleetwide average by 2020. The fleetwide average must be met unless NHTSA determines, based on clear and convincing evidence, that a 35-mile-per-gallon fleetwide average would not be cost effective for the Nation.

From 2021 to 2030, NHTSA must set fuel economy standards that are the maximum feasible and ratchet even these standards up at a reasonable rate.

In addition, the agreement establishes a credit system that NHTSA would design, run, and operate. This would allow automakers to buy credits if you exceed the standard, and essentially sell those credits to those who cannot make the standards in a given year. So the credit trading program gives an automaker a financial incentive to exceed the standard.

It can bank its credits also for up to 5 years. That is insurance if it falls below the standard in a later year. If an automaker cannot meet the standard in a given year, it can purchase credits, use banked credits or borrow from projected surpluses in future years.

This provision was strongly recommended by the National Academy of Sciences in 2002. In part of the negotiation we negotiated with the two Senators from Michigan, both distinguished Senators, Ms. STABENOW and Mr. LEVIN. And I want to say this: There are no two Senators from any single State that I have seen fight harder for their State's industries than Senator STABENOW and Senator LEVIN. We could not reach an accommodation. Those of us who have watched this fight for CAFE standards and participated in it for the last 13 years, I have just found, for me, the automobile industry has never responded. They have fought everything we have proposed every time. When this happens, when an industry is not forthcoming and does not come to you and say: Look, I cannot support this, but I can support that, could you make some changes, just something—instead, it is a stone wall. It is: No, it does not work in this agreement, the arena, with those of us who feel strongly.

I come from a huge State. We have two nonattainment pollution areas, the central valley of California and the Los Angeles area. We are having a huge problem meeting the attainment standards. If we do not, it can stop everything dead.

Therefore, this, which reduces pollution, which reduces carbon dioxide, reduces global warming gases, and saves oil to the tune of 1.2 million barrels a day, is something that is going to happen when you try, try, try year after year and decade after decade.

I am very sorry we could not make an accommodation with these two Senators. But those of us who have worked on this felt so strongly that after all these years, 23 years, where Detroit has said: No, no, no, the time had come to say: Yes, yes, yes.

I, for one, want to help with leap-ahead technology. I, for one, want to help with financing, wherever I can, to make it possible. I believe I speak for all of the cosponsors of this bill. I believe we all want to help. So I hope the next step these Senators will take is to say: Here is a bill that we want to help on, that will provide the leap-ahead technology, and here is something that would help financially the American automakers meet these standards.

We who have worked on this, we who asked in the early 1990s—I was the one who asked for the National Academy of Sciences study. They took a period of years to do it. We have read it. I think those of us who have been at that for so long gave up any hope that we could work with the automakers. We do not believe this will stifle the American auto industry. We believe the technology is now available, we believe it is cost effective to use this technology. It is not just based on reducing weight; there are new materials, new engineering strategies, new types of engines that can be employed.

I want to summarize by saying with this amendment, 206 million metric tons of carbon dioxide will not be pumped into the air in 2020; between 345 million metric tons and 428 million metric tons by 2025. We estimate savings for consumers at the pump, at $3-a-gallon gasoline, to be $55.6 billion in 2020, and $93 billion to $116 billion by 2025. As I said, oil savings of 1.2 million barrels per day, or 438 million barrels per year in 2020, and between 2 and 2½ million barrels per day by 2025. That is about what we import from the Middle East.

I thank everybody who participated. There are some of those Senators on the floor. I want to particularly thank Senator CANTWELL for her efforts on flex fuel. She is extraordinarily knowledgeable. She is also determined. She perseveres. Her amendment was added as a modification to the amendment that passed.

I thank Senator CARPER for his steadfast help. The Senator from Delaware has been there every step of the way, in every meeting.

Most of all, I thank the chairman of the Commerce Committee. What can I say about this chairman? Well, I can begin by saying how lucky we are to have you, DAN INOUYE. You run a fine committee. We are so grateful for your leadership in this matter. I do not believe it would have happened had you not, A, been chairman of the committee; B, been committed to this legislation; C, wanted us to come together and find a solution. You were so right, because we did come together, and the solution happened quicker than any of us might guess.

I also want to, if I might, thank your staff. David Strickland is a technological wizard on this. He also has the dedication. He is sitting here today. I know he has worked very long hours. But we are very grateful for his help.

Mr. Chairman, I say thank you very much.

I would be remiss if I did not thank my staff, particularly John Watts, who has been with us for some time, as my environmental counsel, and has worked on this issue; and Matthew Nelson, who is new to our staff, but came in and got his feet wet very fast. I am very grateful to both of them as well.

Mr. President, I ask unanimous consent to add Senator BILL NELSON as a cosponsor to this amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. FEINSTEIN. I know others want to speak. This is one of the great days in the Senate. When you work on something for a long time, and you find yourself cut out year after year, you are determined you are going to persevere to find new ways to do it, and for Senator SNOWE and for me, it is a

very special day. I thank everyone for making it possible for all of us in the United States.

I yield the floor.

The PRESIDING OFFICER. The Senator from Delaware is recognized.

Mr. CARPER. While Senator FEINSTEIN is still on the floor, I would tell her: In my life, as I have had a chance to meet great leaders in this country and in other places, other countries, in all walks of life, I have taken over the years to asking those leaders: To what do you attribute your success—whether they happen to be a leader in business or academia or government. More often than not they say to me, among other things, I work hard. They also say: I don't give up. I don't give up.

I say to my colleague Senator FEINSTEIN, to my colleague OLYMPIA SNOWE: You do not give up. And we are going to be a better country, a country less dependent on foreign oil because of those efforts, a country with a cleaner environment, a country and a world less threatened by global warming because of your efforts.

If we are smart, we will pull together and find ways to make sure this legislation, rather than being the death knell for the auto industry in this country, can be like a second wind and help to restore us to the kind of vigor we once enjoyed.

Thank you very much. Thank you for your kindness in giving so many other people credit. I echo Senator FEINSTEIN's comments with respect to our staffs, committee staff, and there are a bunch of them sitting back here. David and the first team are back here. I want to say you have done a remarkable job.

I have been in the Senate for 7 years. This is my first year on the Commerce Committee. I have never seen staff as helpful, Democratic and Republicans, like one team working together, and Beth Osborne, who works on my personal staff, continues to rave about the great support we get from the committee staff. I think they key off Senator INOUYE, our chairman, and Senator STEVENS, the senior Republican. It is a wonderful kind of relationship, the way this place ought to work. When it does, we get the kind of results I hope we are going to get with respect to fuel efficiency for our cars, trucks, and vans.

I believe it was Thomas Edison who said, and I am going to paraphrase Thomas Edison, that: Sometimes people miss opportunity. And they miss opportunity because it comes wearing overalls and looks a lot like work.

There is opportunity in the legislation we are prepared, I believe, to pass with respect to fuel efficiencies for our cars, trucks, and vans. I think there is an opportunity here for the U.S. domestic auto industry. We have to help make sure that opportunity is not missed.

We have all seen the Home Depot commercials where the folks from Home Depot say: You can do this; we can help. And with respect to meeting the goal of 35-miles-per-gallon fuel efficiency standards for cars and trucks by 2020, that is an aggressive goal. But for the auto industry, Ford, GM, and Chrysler, it is important for us to be there to help them to meet that goal. If you look closely at the legislation we are preparing to pass here in the next—maybe tonight, maybe in the next day or two—if you look at the legislation, there is a variety of ways where we do help. I will mention a few of those now, if I might.

One of those is the infusion of Federal dollars in research and development with respect to new battery technology. The coolest car I saw at the Detroit auto show in January of this year was a Chevrolet. It is called a Chevrolet Volt. It is a flex-fuel plug-in hybrid vehicle. The mileage it will get is probably close to 75, 80, 90 miles per gallon. You plug it in your garage at night, go out the next day, drive 40 miles or so on the battery, push on the brakes, and recharge the battery. But also it comes with an auxiliary battery unit. It can be biocell, it could be flex-fuel diesel, it could be flex-fuel ethanol powered, internal combustion engine, recharging the battery and getting this remarkable fuel economy from what I call an elegant solution.

That is the kind of creativity we have in this country; not just Chevrolet, not just Ford, not just Chrysler, but all of us together, working together. It is a wonderful concept, as that car is. It is not going to be a reality in 2010 or 2011 or 2012 if we don't have the next generation lithium ion battery to be able to plug in the garage at night and provide the kind of charge to carry us 30, 40 miles the next day, plug it in at work, and on and on.

We have an opportunity, I think we have an obligation as the Federal Government, to make sure tax dollars are appropriately spent. Fifty million dollars a year at least for the next 5 years goes to help fund the technologies so that vehicle and other flex-fuel plug-in hybrid vehicles can be built and get us, if not ahead of the rest of the world, at least at the starting line with them as we begin this next part of the race, the competitive race for market share in the world.

One way we can help within the Federal Government is through our R&D investment. A second way we can help is by using our Federal purchasing power to commercialize these new technologies as they come to market. We do that in this legislation in one way, by calling for the development of major steps toward a game plan as early as 2009 for the Federal Government to use its purchasing power to buy new technology, highly energy-efficient vehicles.

In the underlying language of this bill, it actually says that 70 percent, up to 70 percent of the vehicles that GSA, General Services Administration, purchases on the civilian side for the Federal Government have to be highly energy efficient, next-generation kind of technology—70 percent.

In a week or two we are going to take up legislation on the reauthorization of the Defense bill. If we are smart, we will put a similar kind of requirement in there for the defense side of our Government to do what we are preparing to do in this legislation for the civilian side of our Government in terms of purchasing power, to say to the Department of Defense, when they go to the marketplace and they are buying cars, trucks, and vans, and they buy a lot of them, to make sure that early in the next decade maybe 70 percent of what we are purchasing on the defense side is these new technology energy-efficient, low-emission vehicles.

That is a smart thing to do. That is the second thing we can do, use the Federal Government's purchasing power to commercialize new technologies.

The third thing we can do is make sure our tax policy marries up with the goals we are setting for more highly energy-efficient, low-emission vehicles. In 2005, we passed legislation that said when people buy hybrid-powered vehicles, they can earn a tax credit from about $300 to up to $3,500. That tax credit brings down the cost of the energy-efficient hybrid vehicles and encourages people to buy them. Unfortunately, most of the hybrids people are buying these days happen to be built in other countries. That is going to change very soon, as GM product comes on the market. Chrysler product comes on the market early next year, and we will have the opportunity to buy not just hybrid vehicles built in other countries but a lot of hybrids built here. We have a Tax Code that is set to infuse and encourage American consumers to buy those vehicles as soon as they hit the road.

There is also a provision in the 2005 Energy bill that incentivizes consumers to buy low-emission, highly efficient diesel-powered vehicles. The full effect of that will not be felt until 2009. But Chrysler, in a partnership with DaimlerChrysler, is beginning to bring to the roads a highly energy-efficient, far lower emission diesel that increases performance by 40 percent or more in terms of fuel efficiency. It reduces the emission of bad stuff, including CO_2, into the air. Beginning in 2009, when emissions really go down on diesel, the tax policy is there to incentivize folks to buy those vehicles. That is a smart thing to do.

The fourth area we tried to work into this legislation—and we need to do more—deals with the kind of infrastructure we have for folks who buy

fuel cell-powered vehicles in this decade and the next. We don't have a hybrid highway. It is not as if you can take your fuel cell vehicle and go to the corner gas station and fill up, even in this city or its neighboring States. We in the Federal Government have an obligation, particularly if we want to encourage people to get into fuel cell-powered vehicles, hydrogen-powered vehicles, to make sure the infrastructure is there so people can fill up. The same is true with biodiesel, ethanol. It is no good for us to have vehicles run on biodiesel or ethanol if there is no place to fill up. We tried, in the context of this legislation, to fix that problem.

I am sure our present Presiding Officer remembers when we were trying to get folks to buy unleaded cars powered by unleaded gas. Finally, we said: Every gas station has to have at least one pump where you can get unleaded gas. We made it a mandate. Today it is hard to find a gas pump that has leaded gas. But it took a while to do that. We need a similar kind of approach with respect to biofuels and ethanol, not that they would supplant completely the petroleum products—that is not going to happen any time soon—but to make sure people have the fuel to meet the kinds of needs of their vehicles.

Those are four things we can do in the context of this legislation. We are going to find ways to do more. The best way to do that is to ask the auto industry: How can we help? We want you to meet these goals. We realize you think they are maybe difficult to achieve, some would say impossible to achieve. I don't think so.

This is the United States of America. This is the Nation which invented cars. This is the Nation which invented airplanes. This is the Nation which invented televisions and CD players. This is the Nation which invented the Internet, computers. This is the Nation which unleashed the power of the atom. This is the Nation which put a man on the Moon, did it in less than 10 years, when we said we were going to do it. This is the United States of America. We are creative, hard working. We are smart. If we are really smart, we will find a way to make this new approach to fuel efficiency for our cars, trucks, and vans work; to make it work for the domestic auto companies as well as for others who come to our shores; to make it work for the shareholders and for their employees; and, most importantly, to make it work for our Nation so that we will have reduced our dependence on foreign oil, reduced the amount of harmful emissions put into the air, and made this country a little better place to live.

I yield the floor.

The PRESIDING OFFICER (Mr. SANDERS). The Senator from Florida.

Mr. NELSON of Florida. Mr. President, I congratulate Senator FEINSTEIN for her quest over a number of years and thank all of our colleagues on the Commerce Committee, Members and staff, for bringing this possibility about. It came about as a result of the other side not having the votes. All they had to get was 41 votes. Fortunately, that did not occur. It allowed us to come together and massage the bill a little bit more with these amendments. Thus, we get the end result.

This Senator has filed an amendment for 40 miles per gallon. It simply wasn't practical. We weren't going to have the votes for that because we were trying hard enough to get the votes for 35 miles a gallon in 13 years, in 2020, and then with the compromises that were made, instead of thereafter being at a 4-percent increase in miles per gallon per year, which would compound, leaving it to NHTSA, with the criteria of what is practically feasible. That is a reasonable compromise.

Then totally apart from that, on a separate issue, flex-fuel vehicles, wherever we can encourage that, it is certainly to our advantage because the more we can have a fuel that is something other than derived from oil, the better off we are. If we have the vehicles that use E85, then the question is, Do we have the gas stations that have the ethanol distributed to them in order to get E85? We have to start working on that. As a matter of fact, in my State of Florida, we have one company that is seriously thinking about ethanol plants all over the State so that it could then have the ability to get the ethanol distributed to the gas stations.

While the chairman of the Commerce Committee is here, I wanted to say, in handing out all of these congratulations, under his leadership, under his tutoring, under his mentoring, and under his encouragement, he has allowed the committee to come forth with this work product that is a signal achievement. Now if we can get the Energy bill passed on final passage and then if we can survive the process, if the House can pass an energy bill, in conference committee, then, of course, if we can survive not having a veto by the President, this is all doable now because we are where we are thanks to the leadership of the chairman of the Commerce Committee.

I wanted to make another comment on another subject in response to my colleagues, Senator DORGAN and Senator CRAIG from Idaho. Senator CRAIG puts up a chart there as if all the oil in the United States is in the Gulf of Mexico off of Florida. That is not what the geology says. To the contrary, over the last 50 years where they have drilled, they have come up with a number of dry holes.

That was why last year this Senator was willing to compromise for those who wanted a lease sale called 181 that basically had boiled down to about 2 million acres, to be able to expand that to 8.3 million acres but to keep it away from the coastline of Florida, where we happen to have a $50 billion-a-year tourism industry that depends on pristine beaches, but equally as important, that kept it away from the military mission line, which is the edge of the largest testing and training area in the world for our military. It is there where we are doing significant testing of weapons systems and new sophisticated technology, often with live ordnance. Over and over, the Secretary of Defense has issued letters and said: You can't drill in this area because oil rigs are incompatible with live fire and testing of live ordnance on new weapons systems.

Senator CRAIG in his comments would have us believe the answer is drill, drill, drill. By his chart, he was suggesting drilling off the coast of Florida. That simply is not true. It is interesting that he said that at the very time in which we are on this Energy bill through which we are now doing something about lessening the consumption of oil by the amendment we just adopted, an amendment that goes to the very heart of where we consume most of our oil, and that is in the transportation sector. Where in transportation is it most consumed? It is in our personal vehicles. Thus, we are doing something about that tonight.

I wanted to add these comments while we are still on the Energy bill.

I yield the floor.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. WEBB. Mr. President, I ask unanimous consent to speak for 5 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

EMPLOYEE FREE CHOICE ACT

Mr. WEBB. Mr. President, I rise in support of the Employee Free Choice Act, S. 1041. This bill was introduced by our esteemed colleague, Senator KENNEDY, along with myself and 45 other Members of the Senate.

This bill takes the long overdue step of returning to workers a measure of negotiating power and ensuring that workers have a free choice and fair chance to form a union. Everyone needs an agent, and for too long workers have not had an agent in the Congress or, in many cases, in the workplace.

The bargain this country has promised workers—that if you work hard, you will get ahead—is broken. Hard-working Americans are losing ground. Real wages are lower today than in 1973, despite the fact that productivity has risen over 80 percent. The benefits of rising productivity are going to the richest members of our society. CEO compensation today is 420 times what it is for our workers. Medical costs have skyrocketed. Good manufacturing jobs are being sent overseas. Many workers are squeezed between the impact of corporate outsourcing on the

one hand and wage-depressing effects of immigration on the other. In Virginia, real median hourly wages fell by 3.6 percent just in the past 2 years. Hundreds of thousands of Virginians, just like millions of Americans, have no health insurance.

As I heard so often during my campaign for the Senate last year and what I continue to hear since I took office, our workers are under tremendous pressure. Only 38 percent of the public says their families are getting ahead financially, and less than one-third believes the next generation of Americans is going to be better off than this generation.

Our unions have historically provided a ladder for workers to get ahead. According to a national survey by Peter Hart Research, 60 million Americans report, right now, they would join a union if they could. The Bureau of Labor Statistics reports that workers who belong to unions earn 30 percent more than their nonunion counterparts and are 63 percent more likely to have employer-provided health care.

Unfortunately, many workers who try to form unions in this country are being blocked by employers. In an analysis of union organizing drives in Chicago, the University of Illinois found that 30 percent of employers tended to fire prounion workers, that 82 percent of employers hired consultants to fight union organization drives, and that 78 percent of employers required supervisors to deliver antiunion messages to their workers. Union membership in this country is now at an alltime low, just comprising 12 percent of our workforce.

The ability to form a union should not require heroic efforts. Yet American workers all too often face employer coercion and run the risk of losing their livelihoods simply because they want to organize their workplace in accordance with existing law. Hardworking Americans should have the freedom to make their own choice about whether to join a union, and they should be able to make that choice freely and fairly. The best opportunity for hard-working Americans to get ahead is to join their coworkers and negotiate in one way or another for better wages and benefits.

We can help workers improve their bargaining position. The National Labor Relations Act already permits workers to form unions through majority signup. In fact, more workers join unions through majority signup than through National Labor Relations Board elections. Employees of Cingular Wireless joined the Communications Workers of America following a majority signup that was supported by the company.

This bill makes the much needed change of allowing workers to form unions by majority signup where employers oppose the union. This bill also levels the playing field for workers by strengthening penalties against employers that coerce or intimidate employees. The fundamental sense of fairness that runs so deep in our Nation's character demands that we take this step on behalf of our working men and women.

Let us measure our success in the Senate by the number of hard-working Americans we bring back to the table, the number of families with health care, the number of workers with pensions and fair wages, and the number of children who are able to go to college. Passing the Employee Free Choice Act puts us on the road to achieving this type of success.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Washington.

Ms. CANTWELL. Mr. President, I rise tonight because we are on the precipice of passing new energy legislation—new energy legislation that will point our country in a new direction, on an energy strategy that is about cleaner, renewable alternative fuel, and, yes, on research and development, on many other ways that will help us, as Americans, be energy leaders again.

It is exciting to be here tonight on the Senate floor as new legislation is being adopted that does change the direction in ways my colleagues have been fighting for many years and many of the staff who are behind me have been fighting for much of their legislative careers on the Hill. But we are here tonight because Senator REID, early this year, asked six different committees to come up with energy legislation and point our country in a new direction. He asked each of those committees to put those proposals on the Senate floor by passing them out in a bipartisan fashion, and those committees have done so.

Now, while we have not gotten all those packages together, we do have a proposal before us that would save the United States 20 percent on the oil consumption of today. That is a great goal. It does it in two fundamental ways: by making sure we produce alternative fuel—and what is before us tonight is 36 billion gallons of alternative fuel, mostly done by advanced technologies of cellulosic that will be a much bigger reduction of CO_2 emissions than corn-based ethanol, and that is a huge direction change—and the amendment of the Senator from California to make sure we have fuel-efficient cars.

For the first time in decades, we are passing legislation that will allow Americans to get more out of a tank of gas. In fact, with this new standard for fuel efficiency, Americans, when they fill up their tank, will be able to go anywhere from 100 to 150 more miles on that tank of gas when these fuel efficiency standards are fully implemented.

Because we are also including a flex-fuel provision, we are giving Americans a chance to have their automobiles run on two different fuel choices: fossil fuel or new advanced green renewable fuels that will be a great reduction of CO_2 and carbon emissions and will help in the reduction of demand for gasoline and thereby help lower the price of gasoline. This is exactly what America wants us to do in a new energy direction.

We should also emphasize that the underlying bill tonight also has protections for consumers on price gouging and to make sure the Federal Trade Commission stops any manipulative practices. It also has a provision that the Federal Government do its job as one of the leading energy consumers in America. It says they have to use 30 percent less electricity and 20 percent less fuel.

Now, while I would like to see the provisions the Finance Committee passed that literally take the incentives which have been given to the fossil fuel industry in the past—take those and apply those to renewable technologies—we will have to wait another day for that battle to occur.

I certainly join my colleagues in wanting to see more of our electricity grid supplied with green energy technology, to incentivize solar, to incentivize wind. I believe this is one of the best ways we can keep our electricity costs down in the future. Right now, we are too dependent on natural gas, for which we have seen a 70-percent increase in the last several years. Natural gas, which is also used in fertilizer as a product, is putting pressure on our electricity grid prices. We do not want to be just dependent on natural gas and coal for electricity generation.

So coming back to this renewable standard and getting more of our national grid to rely on clean energy is very important to help consumers keep down price in the future. But those two provisions, we will have to come back to. We were not able to reach agreement on those.

But in this landmark legislation, we are going to give Americans more for their tank of gas by passing fuel efficiency and passing the opportunity to fill up their gas tank with something other than fossil fuel. Driving down the price of fossil fuel is a great accomplishment. We would not have gotten here if it was not for the chairman of the Commerce Committee and the ranking member, Senators INOUYE and STEVENS, who worked very hard to make sure this was bipartisan legislation, as did Senator SNOWE, working with Senator FEINSTEIN, making sure this legislation made it the full way through the process.

While this is only the Senate taking action tonight, we are clearly turning our country in a new direction. This is a greener energy bill than the Senate has passed before but rightly so because the 2005 bill did set us on a

course of making sure we were investing in alternatives. The fact that we were putting a downpayment on those alternatives has led to job creation, not just in my State, Washington State, but throughout the country. But it is time for us to accelerate that, to bring job opportunities to Americans across the country, by making sure these new technologies are implemented. We are well poised to do that tonight.

I hope my colleagues understand the significance of this new energy direction. I thank all of the chairs of the various committees who have worked hard on a bipartisan basis—the Finance Committee, the EPW Committee, the Energy Committee, the Commerce Committee, and even the Homeland Security Committee—in making sure our Federal Government is more energy efficient. This is a great time for us to continue the bipartisan effort in working not just across the aisle but working with the House of Representatives in making sure this energy legislation passes as soon as possible.

Again, I applaud the great work of my colleague, Senator FEINSTEIN, for her perseverance over at least 10 years in trying to close the loopholes that have existed in CAFE, the car efficiency standards, by making sure the loopholes for SUVs were closed. Even though she did not win that battle, she persevered tonight to make sure this new efficiency standard, applied across the Nation, can bring real savings to American consumers.

I thank the Presiding Officer, and I yield the floor.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CRISIS IN DARFUR

Mr. DURBIN. Mr. President, for the last several months, I have come to the floor on a weekly—a regular basis—to remind my colleagues about the crisis in Darfur. I would like to highlight two recent developments. Last week, the regime in Sudan finally agreed, after months of international pressure, to accept a joint African Union-United Nations peacekeeping force for the Darfur region.

If my colleagues will recall, this is a region where our Government has declared a genocide. We know at least 200,000 people, maybe 400,000 people, have been brutally murdered, over 1 million have been displaced, and the killing and displacement, the raping and the pillaging continues.

For years after the declaration of this genocide, many people around the world have lamented this tragic state of affairs, but so little has been done. We have tried through the United Nations to send a peacekeeping force to protect innocent people from the jingaweit militia force that is killing on a wanton basis, but we have been unsuccessful. There has been resistance from the Sudanese Government in Khartoum. Unfortunately, a lot of lip service has been made, but very little attention has been paid to resolving this issue.

Last week the Sudanese said they would accept a joint African Union-United Nations peacekeeping force for that region. Well, the Government of Sudan has agreed to allow 17,000 to 19,000 troops. That is a good sign, or at least good words.

Let's not forget the Sudanese regime has agreed to similar plans in the past, only to renege on its promises and allow the suffering and killing to continue. It is critical at this moment in time that the Bush administration and our allies continue to pressure the Sudanese to take actions beyond their words. Darfur has been on the agenda for the European Union summit this week, and the Chinese Government made positive statements as well. I encourage the Bush administration to keep pressuring all of our allies and the United Nations to act.

Next week there is a prime opportunity. Secretary of State Rice has just announced plans to attend an international meeting in France that will focus on the crisis in Darfur. Representatives from the Chinese Government and other places have committed to join her. I urge the Bush administration to use this opportunity to ensure that the global community continues to act on this crisis and to fully support the rapid and full deployment of U.N. forces to Darfur. Only a unified message from the international community will succeed in convincing the Sudanese Government to meet its obligations. Only then will the crisis begin to come to an end. This crisis must end immediately.

I have said on this floor many times that as a young college student, I found it hard to understand how the Holocaust could occur and people would know of it and not try to stop it. Now I understand. This genocide in Darfur was declared by our Government years ago and little or nothing has been done.

Last week, the United Nations World Food Programme did launch a highly complex operation to try to bring in emergency food supplies to the over 2,600 refugees from Darfur who recently crossed into the remote northeast corner of the Central African Republic. The Director of the World Food Programme and the Central African Republic, Jean-Charles Dei, said the following:

These people are in one of the least accessible regions in the world, but they need help now. This is just the latest example of how the conflict in Darfur has a destabilizing effect across the region.

It is certainly positive that food is on the way to these starving refugees, but the need for this airlift is symbolic of how bad the crisis has become and how destabilizing the situation is becoming for the whole region.

The United States and civilized nations around the world who acknowledge this genocide and this humanitarian disaster must act.

What can we do in the Senate? As a start, we can pass the Sudan Disclosure and Enforcement Act. I introduced it 2 weeks ago with bipartisan support, and after consultation with the Bush administration. The act provides the administration and all Americans with more resources and information so that we can use our investments as individuals and as institutions to strike a nonviolent blow for peace in Darfur. It creates real financial consequences for those companies that bear some complicity in the bloodshed by supporting the murderous Sudanese regime of Khartoum. Most important, it requires members of the administration and the relevant congressional committees to meet in about 3 months' time to reassess the steps that are being taken to end the crisis and decide what we should do beyond them.

To repeat what the bill does for the benefit of my colleagues who are considering supporting it, here is a summary.

First, it expresses the sense of the Congress that the international community should continue to bring pressure against the Government of Sudan to convince that region that the world will not allow this crisis to continue.

Second, it authorizes greater resources for the Office of Foreign Assets Control within the Department of Treasury to strengthen its capabilities of tracking Sudanese economic activity and pursuing sanctions violations.

Third, it requires more detailed SEC disclosures by U.S.-listed companies that operate in the Sudanese petroleum sector so that investors can make informed decisions regarding divestment from these companies.

I might add that during the course of researching this issue, I learned that my own company that I have had my family mutual fund investments with for 20 years sadly was one of the largest—it was a company with one of the largest holdings in Petrochina, the Chinese oil company whose parent company does the most business in Sudan. I contacted this major company, asked them if they were going to change their policy, and they said no. I then removed my investments from that company. I am in the process of making sure they are all transferred to another company. It is a small thing, and it probably won't make a big difference to anyone, but I feel better that at

least I am trying to do a small part—and I hope others will too—to ask important questions, whether your brokerage house, your mutual fund has holdings in Petrochina, which is this Chinese oil company whose parent is the major oil company in Sudan whose revenues support this Government.

Fourth, this bill dramatically increases civil and criminal penalties for violating American economic sanctions to create a true deterrent against transacting with barred Sudanese companies.

Fifth, it requires the administration to report on the effectiveness of current sanctions and recommend additional steps to Congress to end the crisis.

I look forward to working with Chairman CHRIS DODD of Connecticut, the chairman of the Banking Committee, to send this to the President for his signature.

I will repeat again what President Bush said in April:

You who have survived evil know that the only way to defeat it is to look it in the face and not back down. It is evil we are now seeing in Sudan—

President Bush said—

and we're not going to back down.

I completely agree with President Bush's remarks. The African Union and the United Nations forces should be on the way soon, but we still must do more. Every Member of Congress and everyone interested in doing something meaningful to end this genocide must take action and not allow this to continue.

The President once said he didn't want the moral burden of this genocide on his conscience, on his watch. The President's watch is coming to a close. It is time for those of conscience and those who care not only in our Government, but around the world, to act to spare those who are victims of this genocide in Darfur.

I yield the remainder of my time, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Ms. SNOWE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. SNOWE. Mr. President. I rise today to speak on the successful adoption, moments ago, of the Stevens Amendment, which I have cosponsored. Its incorporation into the underlying bill clears the way for passage of the most significant fuel efficiency legislation the Senate has seriously considered in decades. If this legislation is eventually adopted by the full Congress, it will be the first time since 1975 that effective fuel efficiency legislation will have been enacted.

First of all, I want to thank my good friend and colleague, Senator DIANNE FEINSTEIN, for her unrivaled leadership on the issue of fuel economy standards. We have worked together for 6 years to bolster CAFE standards and her commitment and passion for implementing critical and long-overdue changes has only grown. Our efforts have culminated this year in the introduction of the Ten in Ten Fuel Economy Act, which is the key component of the underlying energy bill that currently sits before the Senate. All of us in this fight can be deeply appreciative of her voice and her tireless advocacy.

I also want to express my deepest appreciation to Senator TED STEVENS, the author of this amendment, who has shown strong resolve on this issue by working to forge a compromise in the face of obstacles that often seemed insurmountable. I likewise want to thank and commend he chairman of the Commerce Committee, Senator INOUYE, who has been instrumental both as an original cosponsor of the ''Ten in Ten'' bill and in deftly shepherding this bill through his committee and on the floor. Both gentlemen have again demonstrated that compromise is possible in this body and, without their bridge building, this day would not have been possible.

Likewise, I want to recognize the principled leadership of Senators LOTT, CARPER, ALEXANDER, DORGAN, KERRY, CANTWELL, KLOBUCHAR, CRAIG, all of whom have been critical in arriving at the consensus fuel efficiency legislation which we have before us today.

The Senate now stands at a landmark moment. Thirty-two years have passed since Congress last took action on fuel economy standards, dating all the way back to 1975. It has been an entire generation since we said that—as a Nation—we can and must do better when it comes to saving fuel, saving money at the pump, and saving our environment.

We have a lot of catching up to do. From 1985—the last time fuel economy standards were administratively increased for passenger vehicles—not by Congress, mind you, but administratively—oil imports have increased substantially from 4.3 million barrels a day to 13.8 million barrels a day, while our efficiency standards have virtually been stagnant. Indeed, over the past 25 years, fuel economy standards in the ''light truck'' category have only increased by a measly 4.7 miles per gallon—that's an average of two-tenths of a gallon improvement every year.

Let me repeat that—it's taken a quarter of a century to wring a grand total of an additional 4.7 miles per gallon out of light trucks—which currently include SUVs—for a current average of just 22.2 mpg. Meanwhile, think about this—in that same period of time since 1982, we have gone from land-lines to cell phones, from record players to CDs to Ipods, from big mainframe computers to minuscule handhelds, from encyclopedias to the Internet. So are we really to believe that over the next 10 years we can't manage an average of 10 additional miles per gallon of gasoline across America's entire fleet of passenger vehicles?

Indeed, as a Nation built on innovation, built on the ''can-do'' spirit, we ought to be asking ourselves exactly how it is we couldn't have done better already—never mind questioning if we can do better in the future.

That's why Senator FEINSTEIN and I introduced legislation 6 years ago to close the SUV loophole, whereby SUVs were exempt from increased fuel efficiency requirements because they were classified as light trucks. It's also the reason we introduced this year a bipartisan measure to raise the average fuel economy standards for all vehicles, including SUVs, from a combined 25 miles per gallon to 35 miles per gallon by model year 2020.

As I will explain more in-depth, this legislation was carefully crafted to reflect not what we wish we could achieve, but what we know we can actually achieve. And I'm pleased that mandate was embraced and passed in the Senate Commerce Committee; now, it is vital that this provision in the underlying bill be preserved.

Now, we have heard mischaracterizations of this measure—there have been omissions when it comes to describing this bill from those who oppose this measure—so let me just begin by stating plainly what this bill will do. Let me repeat, it requires that the average fuel economy standard for all vehicles under 8,500 pounds reach 35 miles per gallon by model year 2020. This bill has no such requirement for vehicles over 8,500 pounds.

With respect to those vehicles, we allow the Secretary of EPA and Energy to determine an appropriate fuel efficiency improvement program. Again, there are no specific mandates for vehicles over 8,500 pounds—just a direction that the standards are set at the maximum feasible level—we assign no numerical goal.

Furthermore, we preserve the separate standard for fuel efficiency or the existing light truck category until 2011—recognizing that our manufacturers already have these vehicles in the works for the next three model years and it would be impossible, as a practical matter, for them to reengineer those vehicles at this juncture.

After 2011, there will no longer be separate categories for light trucks and passenger vehicles, as the legislation switches to a fleet-wide standard based on vehicle attributes such as weight, as I just described. The world has already adopted this system because it is the most efficient framework. In fact, Taiwan, Japan, China, and South Korea have all established an attribute-based system that is either based on size of

the engine or the weight of the vehicle. Now, the U.S. Congress must expand the framework of our attribute-based system to a structure that does not distinguish between passenger cars and light trucks but that does create an efficient and logical system.

And let me emphasize, this is a change that automakers themselves have sought, because it provides them greater flexibility and choices across product lines to achieve the overall goal of a fleet-wide fuel efficiency standard.

And let me elaborate on that point. Not only will manufacturers no longer have to contend with specific CAFE targets for specific vehicle segments, they won't even have to meet a specific target for their specific company. So how do we achieve the goal? That will be up to NHTSA to determine—not Congress—which is yet another change that the auto industry has sought.

In other words, the industry has asked that the arbitrary and artificial lines between vehicle categories be eliminated; this bill does so. Even the alternative amendment filed by my friend and colleague, the junior Senator from Arkansas, also incorporates our ''attribute-based'' approach precisely because that's what the industry is seeking. The industry has also asked that the experts—and not Congress—determine specifically how fuel economy standards are met, and by placing those decisions in the hands of NHTSA this bill does so on that score as well.

The bottom line is, our bill provides our car companies with the flexibility they require. It doesn't place a mandate on vehicles over 8,500 pounds. It absolutely will not mean the end of light trucks. That is a red herring, Mr. President, and as I will detail in a few moments, the experts tell us that an additional 10 miles per gallon in 10 years over the entire American fleet of passenger vehicles is achievable.

Of course, there are some who argue that Congress shouldn't even be in the business of setting these fuel economy requirements. Well, first of all, let's look back at what happened the last time Congress became involved.

In the wake of the 1973 oil crisis, Congress delivered a long-term significant increase in CAFE standards, which the New York Times has labeled as the most successful energy-saving measure this country has ever seen. The congressional challenge in 1975 worked to reduce our Nation's demand for energy. Does anyone seriously believe that the fuel economy for America's vehicles would have improved by 40 percent from 1978 to 1985—just a seven year period—if Congress hadn't stepped in? And just imagine where we'd be today if our energy independence efforts hadn't been dormant for the past 22 years.

Moreover, there should be no question of the critical national security component to reducing our dependence on foreign oil. Every day, we import 2.1 million barrels of oil from the Persian Gulf. Every day, our rising gas prices shift billions of dollars from the American consumer to authoritarian governments in some of the most volatile regions of the world. Reflecting the critical involvement of energy security in our national security, an organization called the Energy Security Leadership Council has formed in an effort to advance a fundamental shift of our national energy policy.

The Energy Security Leadership Council is a nonpartisan organization that aims to build bipartisan support for policies to reduce our Nation's dependence on foreign oil and improve our energy security. The Council is co-chaired by Frederick W. Smith, chairman, president, and CEO of FedEx Corporation, and Retired General P.X. Kelley, the 8th Commandant of the U.S. Marine Corps. The Membership consists of generals, admirals, and a former Secretary of the Navy. These are prominent, experienced, and highly credible leaders who understand the consequences of a reliance of foreign oil. The Energy Security Leadership Council has recommended for increasing fuel economy standards, and has endorsed this bill before us. They understand that our Nation must finally curtail our energy demand from these volatile regions.

Mr. Smith testified just last week before the Senate Small Business Committee on the impact of rising gas prices. Noting that most oil shipments pass through a handful of maritime chokepoints such as the Suez Canal and the Strait of Hormuz, Mr. Smith observed that ''a mere 4 percent shortfall in global daily oil supplies could push the price of oil to more than $120 per barrel.'' What's the solution? According to the Energy Security Leadership Council, it is the bill before us today. Mr. Smith testified that ''the Senate has made great strides . . . through bipartisan support for'' the Ten-in-Ten bill. Mr. Smith further applauded our bill's use of an attribute-based system, noting that ''[t]his focus on attributes will also ensure that Americans will still be able to purchase different types of vehicles that cater to different transportation needs.'' He concluded, ''This is truly path-breaking legislation that merits broad support.''

Similarly, General Kelly has recently articulated, ''Current events only serve to confirm the unacceptable security risks created by our extraordinary level of oil dependence. Significantly, reducing the projected growth in U.S. oil consumption must become a compelling national priority.'' We ought to heed General Kelly's assessment and protect American security. I ask my colleagues, since when should Congress excuse itself from issues of vital national security?

As the 2002 National Academy of Sciences report stated, the trade-offs on these vital matters ''rightly reside with elected officials''. Furthermore, they also conclude that it is ''appropriate for the Federal Government to ensure fuel economy levels beyond those expected to result from market forces alone.'' So we ought to get beyond the question of the proper role for Congress in this debate. We have an indispensable and undeniable role to play.

Now, there are some who are concerned that we will inadvertently limit consumer choice, and let me say emphatically that we address those concerns.

From 1978 to 1985 vehicles did not disappear from the road and during that period we witnessed a 40 percent increase in fuel economy. In fact, I would argue the American consumer finally had the opportunity to purchase the more fuel efficient cars they wish they had years earlier.

But most importantly, let me reiterate this bill before the Senate does not mandate a certain fuel economy for any specific type of vehicle. Rather, it ensures that all of America's vehicles improve, in the aggregate, to the 35 mile per gallon standard while leaving the specifics on how to attain that requirement to the experts at the Department of Transportation and, specifically, the National Highway and Traffic Safety Administration. As a result, the engineers and economists at NHTSA are empowered to ensure that we accomplish the oil savings in the most efficient mechanism. And what does this mean for consumer choice?

Because the bill doesn't mandate particular fuel economy targets for any specific category of passenger vehicle, there is greater flexibility in how the 35 mpg mandate can be reached. For example, the Secretary of Transportation may decide that pick-up trucks can't realistically achieve any substantial gains, but other segments have that capacity. Manufacturers will have greater latitude in how they contribute to the attainment of the overall target of 35 mpg. So this bill will not remove any vehicles from the road, but it will abate the sting at the pump.

Our approach in this bill also addresses another concern we share—that increased fuel efficiency doesn't translate to unaffordable sticker prices on America's new vehicles. Figuring in the cost-savings based on $1.50 per gallon of gas, the 2002 NAS study outlined that any initial cost in additional technology that saves gasoline would be recovered over the life of the vehicle.

Of course, with fuel costs now more than double that amount, it's logical to assume the savings on fuel costs of more efficient vehicles will be even greater. In fact, even at $2.00 per gallon, the net consumer savings would be

$20 billion in 2020. In short, as the Congressional Research Service summarizes the NAS report, it ''concluded that it was possible to achieve more than a 40 percent improvement in light truck and SUV fuel economy over a 10 to 15 year period at costs that would be recoverable over the lifetime of ownership.''

If there's any doubt about the importance of this, just take a look at the example of the impact of fuel economy—or the current lack thereof—on Pottle Transportation, based in Bangor, ME.

Owner Barry Pottle stated this past year that their fuel economy has drifted from between 4 miles per gallon to 7 miles per gallon in the 25 years that he has led his company. I have a chart which indicates the gallons of consumption over a year for one vehicle and the corresponding cost as a result of current diesel prices. The aggregate cost over a year just for an increase of 2 miles per gallon is a staggering $20,000 for each truck. This bill will finally consider these heavy trucks in the fuel economy framework for the very first time in history. As indicated from Pottle Transportation, it is perfectly clear that these fuel economy increases will result in substantial dividends for America's small businesses.

The fact is that the current system does not provide fuel efficient vehicles on the market for large commercial and heavy duty trucks greater than 8,500 pounds. Just last week before the Senate Small Business Committee, Janet Myhre of Chuckals a company that distributes office products, stated that ''fuel cost impact each and every transaction that our organization manages and is the third largest expense item on our financial statement.''

Ms. Myhre was then asked if the company had considered switching to more efficient vehicles or alternative vehicles for their delivery trucks to minimize fuel costs. Ms. Myhre responded that Chuckals had investigated the market and found that there were ''no commercial options'' available for these vehicles. The market has not provided companies with the options of utilizing fuel efficient vehicles and for the sake of our Nation's small businesses, this Congress must begin to increase standards for vehicles over 8,500 pounds.

Still others have argued that this bill would place our domestic automobile manufacturers at an unacceptable disadvantage, but that is simply not the case it would be regrettable to view this debate in terms of fuel efficiency versus the future of our auto industry. When did energy independence and the strength of our domestic companies become mutually exclusive?

For those who say our proposal is unrealistic and unreachable, the National Academy of Sciences reported 5 years ago that it is feasible to reach a 40 percent increase in fuel economy in 15 years—and that is with existing technology. Relatively simple improvements such as hybrid technologies, variable valve engines, high strength steel and aluminum, and continuously variable transmissions are all advancements the experts say could be implemented now.

So do we really want to argue we don't have the technological wherewithal to make our vehicles travel more miles per gallon? Is it really the American Way to say, ''We can't do that?'' To the contrary, we should have already witnessed progress in these areas. If we had, perhaps our auto makers would be in better financial shape today. In fact, I certainly wish it were an American automaker who had recently announced surpassing the one million mark in sales of hybrids. In fact, in 2006, Toyota's Prius was the company's third best-selling passenger car. So someone out there must want to buy more efficient vehicles. Talk about providing consumer choice, if anything consumers will have more choices for more cost-effective cars and SUVs and light trucks.

Indeed, there are auto company business models that have demonstrated that consumers value fuel economy. In testimony before the House Energy and Commerce's Subcommittee on Energy and Air Quality on March 14 of this year, Toyota's North American president, James Press, remarked, ''2007 marks the 10th year of the Prius, our first hybrid. I am happy to say the introduction of Prius was a sound business decision.''

Furthermore, let me reiterate, we do not mandate any fuel economy increase for any specific model or any specific car company. Rather, we crafted the legislation so that the entirety of America's passenger fleet—cars, light trucks, and SUVs—must increase from an average of 25.2 miles per gallon now to an average of 35 miles per gallon by the year 2020. What we don't mandate is how exactly we get there.

Right now, each company is required to meet a corporate average fuel economy. Currently those standards are 22.2 miles per gallon for light trucks and 27.5 for passenger vehicles. However, the problem with fuel economy standards does not reside in one company; it exists throughout the entire transportation sector. As a result, we initiated a fleet-wide solution rather than a piece-meal, company-by-company approach. In fact, the corporate average fuel economy standard actually ceases to exist under this bill; rather, it focuses results for the entire industry—a fleet wide average as opposed to a corporate average. This is a much broader and more flexible framework that will help domestic automakers.

Indeed, some opponents have maintained that any legislation must not be ''discriminatory against our companies,'' and that the ''numbers should be set . . . by experts who understand what can and cannot be done from a technology standpoint.'' Well, we couldn't agree more—and, once again, this is exactly what our initiative accomplishes by leaving the details to the experts at NHTSA.

Our bill ensures that NHTSA will establish a mathematical function that alters fuel economy requirements based on attributes, like weight. Because I agree that companies that focus on larger vehicles should not be unfairly punished, we have provided maximum latitude to preserve our domestic manufacturers, foster consumer choice, and improve fuel economy.

The bottom line is, this measure navigates the narrow waters between doing less than we should, and more than we realistically can. In contrast, the amendment advanced by opponents of this legislation would only raise standards to an estimated fleetwide average of 30.6 by 2020. Furthermore, their proposal retains rigid categories for cars and light trucks and assigns different efficiency targets for each—36 miles per gallon by 2022 for cars, and 30 miles per gallon by 2025 for trucks. But if you calculate for the entire U.S. fleet overall, accounting for the number of vehicles in each category estimated to be on the road at that time, you arrive at 30.6 miles per gallon by 2020 under this amendment.

In other words, the proposal advanced by my colleague from Arkansas is a 5 mpg increase in 10 years, while our proposal is 10 miles per gallon in 10 years. And at the end of the day, the amendment would save, at best, merely 400,000 barrels of oil a day in 2020—accounting for just 3 percent of our daily import of oil—a mere drop in the bucket. So the ramifications between the proposals are significant, with ours saving 1.3 million barrels each day by 2020. Furthermore, in roughly 2023 this bill will save 2.1 million barrels of oil each day—the equivalent to what we are currently importing from the Persian Gulf.

Mr. President. This is clearly not a time for timidity. The current gas prices in Presque Isle, ME, right now is $3.13; in Arkansas, $2.99; in North Dakota, $3.14. These prices have and are continuing to raise transportation costs and the price of goods and services. Lower-income families and small businesses are financially strained beyond their capacity. It's been estimated that every time oil prices increase 10 percent, 150,000 Americans lose their job.

And the critical relevance to our environment is unambiguous, with the Intergovernmental Panel on Climate Change report this year dispelling any doubt about the reality of human induced climate change, and the reality that while the U.S. represents 4.6 percent of the world's population, we emit

23 percent of the planet's CO_2. Our legislation would remove 358 million metric tons of global warming emissions in 2025 alone. This is nearly the same amount that India's entire economy current emits. As the Washington Post stated just yesterday in advocating for this bill, ''There's a climate crisis brewing, and the transportation sector, which accounts for 33 percent of global warming pollution, must do its part to combat.''

Mr. President, shouldn't we be leaving a better legacy than that? Shouldn't we be striving to challenge and harness the innovative and entrepreneurial spirit that built America to the greatest extent possible, rather than settling for less? Just look at where our Nation has come with cell phones. This technological revolution has occurred, while our fuel economy standards have stagnated. We can do better. The underlying bill does do better while providing an achievable solution.

I applaud today's result and look forward to continuing to push for full adoption of this legislation into law.

Mr. President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. OBAMA. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. OBAMA. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. OBAMA. Mr. President, I rise to speak about the compromise amendment that has been offered by Senator STEVENS. I appreciate the hard work and the long hours expended by the proponents of this amendment to craft an approach that bridges the significant differences on this issue. I commend all who were involved for their good work, their diligent work.

This amendment is a good start, and I intend to support it. I also believe we can and should do more to improve the fuel efficiency of our cars and our trucks. With this bill, we have a great opportunity to finally end a 20-year stalemate and accomplish something that will benefit all of us—require our cars to go further on a tank of gas. This is the moment. The window is open, and I believe a bold approach is needed to achieve a major reduction in our Nation's dependence on foreign oil and the emission of greenhouse gases. A bold approach is what made all of the difference almost three decades ago when Congress first established the Corporate Average Fuel Economy, or CAFE, program. At the time, auto executives protested, much as they protest today, saying there is no way to increase fuel economy without making cars smaller. One company predicted Americans would all be driving subcompact cars as a result of CAFE. Anyone can see today that some of our SUVs are the size of about three or four subcompacts put together.

The fact is, CAFE worked. It nearly doubled the average gas mileage of cars from 14 miles per gallon in 1976 to 27.5 miles per gallon in 1985. The increase in fuel economy saves us almost 3 million barrels of oil per day and prevents the emission of over 1 million tons of carbon dioxide per day.

But our oil dependence has only gotten worse, and that is why we need a major improvement in fuel economy standards. Americans are now paying more than $3 a gallon for gas. We are importing 60 percent of our oil, much of it from the Middle East. Osama bin Laden has identified this dependence as a weakness, urging his supporters to ''focus your operations on oil, especially in Iraq and the gulf area, since this will cause [the Americans] to die off.''

The environmental effects of our oil dependence are also severe. The oil used in transportation accounts for a third of our Nation's emissions of greenhouse gases. Just in the last few months, we heard from a panel of top climate change experts from around the world that global warming is a certainty and that most of the temperature increase is likely due to rising greenhouse gas concentrations.

All this, and yet the CAFE standards have not changed in 20 years. This deadlock deepens our dependence on foreign oil and impedes our efforts to address global climate change. Since 1985, efforts to raise the CAFE standards have been blocked by opponents who argued Congress does not possess the expertise to set specific benchmarks and that an inflexible congressional mandate would result in a sacrifice of safety.

I am confident we could achieve higher fuel efficiency standards, and we could do this in a cost-effective manner without sacrificing safety. According to a recent report by the International Council on Clean Transportation, technologies exist today that can improve light-duty vehicle fuel economy by up to 50 percent over the next 10 years without any sacrifice in safety, through improvements in engines, transmissions, aerodynamics, and tires. Fuel savings would be more than enough to cover the cost of these improvements when gas is at $3 per gallon.

Last year, I first joined with Senators LUGAR, BIDEN, SMITH, BINGAMAN, HARKIN, COLEMAN, and DURBIN to introduce the Fuel Economy Reform Act. This bill set a new course by establishing regular, continual, and incremental progress on fuel economy standards, targeting a 4-percent annual increase but preserving some flexibility for the National Highway Traffic Safety Administration to determine how to meet those targets.

I also believe we should look for ways to help automakers meet higher CAFE standards. The Health Care for Hybrids Act that I introduced is an example of how we can offer constructive assistance. This bill would establish a voluntary program in which automakers could choose to receive Federal financial assistance toward their retiree health care costs in return for investing the savings into developing fuel-efficient vehicles. This proposal could jump-start the industry's efforts to develop new technology, improve the competitiveness of U.S. automakers in the growing market for hybrid vehicles, and help auto workers to get the health care they have been promised.

Today's agreement makes long overdue progress on weaning America off our dependence on foreign oil and fighting climate change. It is an important step forward but bolder action will be necessary if we want to solve the dual problem facing our country.

I will support this bill and this increase in fuel efficiency standards.

Again, I commend all those who have worked so diligently to move this amendment forward. I do have to say, though, that I regret we have missed an opportunity to do more today. I will continue to work in the months to come to see if we can make some further progress on this front.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mrs. CLINTON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

EMPLOYEE FREE CHOICE ACT

Mrs. CLINTON. Mr. President, I come to the floor on two very important issues, issues that really do go to the heart of the kind of economy and future that our Nation will have. One is the Employee Free Choice Act, which we will be voting on in the next day or two, and the other is the very important Energy bill that we have been debating.

With respect to the Employee Free Choice Act, for me, this is about preserving, supporting, and growing the American middle class. The middle class is the backbone of the American economy, and our unions are the backbone of the American middle class. It is time we passed into law the Employee Free Choice Act to give unions a level playing field so they can organize for fair wages, safe working conditions, and the hard-won rights and responsibilities that American workers demand and deserve.

This is a moment of profound challenge for our country. There is a deep sense of concern that I have certainly heard and listened to as I have traveled throughout America. Americans know they cannot win in the global economy unless the middle class wins, but there is a feeling that some people are betting against the American middle class. Some people have assumed that in a global economy one of the changes that will have to be made is that the middle class will have to shrink; that inequity is inevitable; that globalization is a harsh phenomenon that we have to accept. Well, I do not, and our families are right to be concerned.

In 2005 all income gains went to the top 10 percent of households. The vast majority of people—the other 90 percent—saw their incomes decline. Health care costs are up, gas prices are up, the cost of college is up, and for 6 straight years worker productivity, which means how hard people work—because American workers are the hardest working people in the world—has gone up. But wages have either been stagnant or falling. 2005 was the first year since the Great Depression that average personal savings were negative for a whole year. There is a sense that we are losing something in America; that basic bargain that allowed our country to succeed: if you work hard, you and your family can reach the middle class. You can have that American dream.

So it is not surprising that we are seeing the weakening of the American middle class at the same time we see unions under assault. In the early years of the National Labor Relations Act, the majority sign-up procedure was the presumptively valid way in which employees could choose a union. Over the years, however, culminating in the 1960s, a number of decisions shifted us to a new regime, a regime where employers can choose to require their employees to vote for unions through a one-sided election process, dominated by employers, in order to secure collective bargaining rights. Some employers even began to make efforts to push unions out of the workplace.

Just consider these comparative facts: In the 1950s, companies illegally fired or punished during organizing campaigns, or they otherwise violated National Labor Relations Act rights, fewer than 1,000 employees. The number increased to 6,000 workers in 1969. And now, today, it is 31,000 workers who have been illegally fired or otherwise punished for wanting to exercise a fundamental right, one that we believe people should be able to exercise not only here in our country but around the world. As the number of labor violations have increased, we have seen it become harder and harder for workers to organize.

In 1956, unions represented 35 percent of the private workforce. The number today is only 7 percent. Our middle class, which unions helped to build in the 1930s, the 1940s, the 1950s, and the 1960s is suffering as a result. Studies show that the decline in union membership has been responsible for at least 20 percent of the rise in income inequality over the last three decades. I think it is probably much more than that, but that is what we can quantify.

It is time, therefore, that we modernize labor laws that are stacked against working people and stacked against their right to unionize. Right now, employers have unlimited access to employees in one-sided union representation elections. Employers are given every opportunity to dissuade workers in mandatory one-to-one meetings. They can delay votes for years. There are no fines or penalties or sanctions if an employer illegally fires or discriminates against a worker for collective bargaining.

At most, the worker is reinstated with backpay, an award that is, on average, so small that many employers regard it as a cost of doing business. Finally, 32 percent of workers who choose to unionize, still do not have a contract after a year of making that choice.

The system is broken. It is not only our collective bargaining and unionization system, it is our economy as it affects our middle class. Our country needs reforms that will bring balance to our labor laws, and our workers need the opportunity to unite with their coworkers to obtain the protections and benefits of America's labor movement.

Union wages are 20 percent higher than nonunion wages. Union members are almost twice as likely to be covered by health insurance and to participate in employer-provided retirement plans.

Unions improve safety conditions. For example, deaths in nonunion mines are almost twice as likely as deaths in mines where the workers are union members.

Unions certainly provide opportunities for women and minorities. Women in unions earn an extra $179 per week. African Americans in unions earn an extra $187 per week. Latinos in unions earn an extra $217 per week. Nonunion employees benefit from the efforts of the unions to seek benefits and protections. That is why it is so important we pass the Employee Free Choice Act.

It is long past time to enact real financial penalties against those employers who illegally fire or retaliate against workers during an organizing campaign. It is long past time to allow employees to decide if they want to use majority sign-up to organize.

Finally, it is long past time to allow either employers or employees to request mediation if they are unable to negotiate a contract after 90 days of collective bargaining.

These changes will finally give employers an incentive to bargain in good faith and to avoid situations where years, and even decades, can pass without a bargaining agreement.

I believe in the basic bargain. I believe that unions help keep that bargain for America's working people. I hope this Congress will uphold its end of that basic bargain; that this Congress will pass the Employee Free Choice Act; that the Senate will join the House, which has done so, to give employees the real, fair chance to garner the protections and benefits of unions and to give unions the opportunity to help bring workers into the middle class.

That is part of the equation; to respect and protect the rights of those in the workplace and to give them the opportunity to unionize. The other part of the equation is to have good jobs, good jobs with rising incomes. We need a source of new, good jobs in America. That is why this Energy bill is so important. Much of the debate about the Energy bill has been, rightly so, about the need to reduce our dependence on foreign oil—which I agree with 100 percent; the need to begin, finally, to address seriously global warming—which I think is way overdue.

But there has not been enough talk about why this Energy bill is critical to the economy of the United States in the way it will help to create millions of new jobs. As the Presiding Officer knows, he and I offered an amendment, which we are pleased the managers accepted, to provide incentives for training and equipping and preparing the workforce to do what are called green-collar jobs. These are jobs that can't be outsourced, by and large. If we finally get serious—and I hope we will get back to visit some of the financial incentives that need to be in this bill that unfortunately we were unable to include—we will begin to join other countries that have gotten smart about this.

Germany gets a lot of its electricity now generated by solar—you know, panels on the roofs of residences and offices. The last time I checked, Germany was not a tropical climate, but they have taken advantage of government-incentives to move the market toward using solar.

Denmark is also moving toward more wind energy. The United Kingdom, which went into Kyoto when our country left it, has created tens of thousands of new jobs weatherizing homes, installing new energy technology such as solar, such as wind. We could do this many times over. We believe we could create millions of new, good-paying jobs for hard-working Americans.

Every so often we have to regenerate our job creation in America. During the 1990s, we had a lot of new jobs that were related to telecom and information technology. We saw the creation of 22 million new jobs between 1993 and 2001. We saw more people lifted out of

poverty than at any time in our country's history. We saw shared prosperity—not what we are seeing today, where the bulk of the benefits go to a very small sliver of us.

This Energy bill is about jobs, it is about creating new, good-paying jobs for hard-working Americans. What I am looking at when I think of the Employee Free Choice Act and when I think of this Energy bill is how we get back into balance, how we get back to where the economy works for everybody, where the market is not stacked against those who are not already privileged, where unions can once again be a vehicle for people moving into and staying in the middle class and, comparably, where we can have a new source of jobs.

We also have to recognize how we have to look at the jobs that are already in the economy and how the Energy bill will affect them. I am hopeful we will think seriously about lifting the health care costs off a lot of our labor-intensive, energy-intensive, capital-intensive industries in America, such as the automobile industry, because laboring under the costs of health care is an uncompetitive position for them in the global economy.

There is a lot to be done. I wish to be sure that as we look at the economy and begin to try to get it back into that balance that works best for America, that we vote for the Employee Free Choice Act, which is a way of giving employees the choice to have a better life for themselves and their families. There is a lot to be done in our country. I am very optimistic we can begin tackling our challenges. But so much of what we have to do to create the framework for our people to have that better future has to come from this Chamber.

Let's look at the future together. Let's make decisions that will give the tools to our people to show they are the best workers and the most competitive and productive people in the world, to unleash that dynamism in the American economy, and to demonstrate clearly that we stand with the American middle class.

I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. CONRAD. Mr. President, in this body we are on the brink of something that is momentous, and that is significant energy legislation to reduce our dependence on foreign fuels. The bill before us will break new ground. We will have fuel efficiency standards increased for the first time since 1975. This is the result of compromise, of principled compromise that advances the cause of reducing our dependence on foreign fuel.

Last year I introduced the BOLD act, Breaking Our Long-term Dependence. That was perhaps the most comprehensive energy legislation introduced in this body all last year. It had many provisions, many provisions to encourage further development of ethanol and biodiesel and wind energy and solar energy—all the renewables. But more than that, it had provisions to expand domestic production of oil and gas in a responsible way; also providing clean coal incentives because, after all, over 50 percent of our electricity in this country comes from coal. That is not going to fundamentally change anytime soon. So we have to take measures to increase the environmentally friendly aspects of coal usage and to improve our ability to produce and use that resource in a clean way.

While I am delighted we are on the brink of passing something significant and the beginning of something that could be much bigger, I am very disappointed the provisions that passed the Senate Finance Committee on an overwhelming bipartisan vote did not get the 60 votes required to advance. Those provisions would have also taken us in a new direction, and they contained many of the provisions contained in the BOLD Act that I introduced last year.

Those provisions shifted our incentives away from fossil fuels because, with the high price of fossil fuels, incentives aren't required there. Instead, we took money that had previously gone to fossil fuels and shifted the funds to renewables and conservation—again, in a vote that passed on a bipartisan basis, a very strong vote out of the Senate Finance Committee.

Let me say there are some who have argued it costs too much money to have those incentives for renewables and for conservation. It is true, that bill costs $28.6 billion over the next 10 years—$28.6 billion over the next 10 years. But we are going to spend, over that same period, $3,000 billion on imported oil. In fact, that is probably a low-side estimate because last year alone we spent over $270 billion importing foreign oil, much of it from the least stable parts of the world.

Yes, $28 billion is a lot of money over 10 years. But $3,000 billion on imported oil dwarfs it. It is over 100 times as much. Isn't it a good investment to spend 1 percent of what we are going to spend importing foreign oil to develop our own resources in this country? How much better would it be for a President of the United States, instead of depending on the Middle East, to be able to look to the Midwest of this country to help grow our way out of this crisis by using ethanol and biodiesel? Instead of sending $270 billion to places that are unfavorable to us, to spend $270 billion right here in America—how different would our country look if that money, instead of going abroad, was staying at home?

No one should think we are not going to have another possibility on the legislation that came out of the Finance Committee. There will be another opportunity. We will have a chance in the House of Representatives, in the conference committee, to add back those provisions that passed on a strong majority vote, not only in the Finance Committee but on the floor of the Senate.

We didn't have a supermajority, we didn't have the 60 votes. We had 57. Of course the leader changed his vote to be on the prevailing side so he could move to reconsider. We are missing another Senator because of a family obligation and, of course, we are missing our colleague, Senator JOHNSON, because of his illness. But Senator JOHNSON will be back, and the Senator who was missing because of a family obligation will be back. And Senator REID will switch his vote. Then we will have the 60 votes necessary.

No one should be under any illusion that we are not going to take this opportunity to strengthen our country and to reduce our dependence on foreign oil because we will have that additional opportunity and the votes will be here and we will have a comprehensive energy package to take to the Nation.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Mr. President, I wonder, while the Senator is still standing, if I could ask him a question. I was standing someplace where I caught an echo on your last 2 or 3 minutes. Could you maybe repeat it, because it hit my ear wrong. I did not quite get it. What did you talk about when it went to the House and came back and what?

Mr. CONRAD. What I am saying is there will be another opportunity to vote on the package that came out of the Finance Committee.

Mr. DOMENICI. When is that? When you come back from the House?

Mr. CONRAD. When we come back from conference committee.

Mr. DOMENICI. The same people who voted here will vote again then, will they not? Are you expecting some Senators to leave in the meantime from this side?

Mr. CONRAD. No. It is unfortunate the Senator did not hear my remarks. I made it very clear in the remarks what I think will happen. We were missing one Senator because of a family obligation, missing another Senator because of illness. Senator REID, of course, changed his vote to be on the prevailing side. That will provide the 60 votes required.

Mr. DOMENICI. I see.

Mr. CONRAD. I think with the passage of time, I say to my colleague and friend, we will have more votes as people think about the consequences of the failure to get a stronger package; that there is time now to work out an agreement to add votes.

Mr. DOMENICI. I see. Well, it would be good if you would add to that there might be a little opportunity to work together on that, too, you know. If you get a few people a little anxious, you might find you could not get cloture again. That could happen.

Mr. CONRAD. It could. I prefer to be an optimist. I prefer to think of the extraordinary vote we had out of the Finance Committee, a bipartisan vote, very strong, and the fact that we have more than a majority here with votes missing. Those votes are going to come back.

Mr. DOMENICI. Yes.

Mr. CONRAD. I hope. I believe before this year is out, we will have a chance to have a more comprehensive package than the one we will be able to move on this floor in the next several days. I believe it will be a package that will enjoy strong bipartisan support, just as the package did that came out of the Finance Committee.

Mr. DOMENICI. Well, you are inviting some of us not to approve anything tonight, to have another cloture, and you have nothing going to conference.

Mr. CONRAD. Well, that would be a tragedy for the Nation, and those who would engage in that tactic, I think, would pay the consequences.

Mr. DOMENICI. Senator, you know, you and I have been here long enough that we go through these tragedies every now and then. But they get worked out. Then as long as you do not try to defy reality—there were a lot of people who didn't want this to happen; a lot of people did. That is the Senate. Now we will see.

Mr. CONRAD. That is the great thing about our country. Some people do not want to advance on the question of reducing our dependence; some want to stay stuck where we have been; others want to move forward. I believe those who want to move forward are ultimately going to prevail.

Mr. DOMENICI. So do I.

Mr. CONRAD. That is a good thing for this country. I welcome this debate, because I think the American people think it is long overdue that we make this advance, and it is to the credit of this body that we are prepared to move forward tonight.

Mr. DOMENICI. Well, there is no doubt in my mind we are going to move ahead. We have had some terrific movement ahead in the past 3½, 4 years. Some of us who are questioning how you think it is going to happen have been part of that over the last couple of years. We are not—nobody is going to sit here and say: There is one way, only one group of Senators knows how to do this. We did our share in this pretty good bill you voted for a couple of years ago. Had we implemented the provisions of that with financing that went with it, we would already be a long way toward the development of both supply and conservation; supply of the type you want, and supply of the type some others want. We would already have that going. Instead, we do not, because we haven't financed it. We should have. You were with us on the financing. It should have happened.

Mr. CONRAD. I say to my colleague and my friend, I was proud to support that bill. I was proud of the leadership shown by the Senator from New Mexico on that legislation. I am proud of the leadership shown by the Senators from New Mexico on this bill. I just think, at the end of the day, we are going to have even stronger legislation before we complete our work this year. That was the point I was making in my earlier remarks. Look, we all know the genius of this body is that there are those who agree and those who disagree; those who favor, those who oppose. Tonight we can celebrate together. We are making progress. That is important for the country, but more needs to be done.

I don't think any Senator would leave here tonight saying this legislation alone is all we can do. We can do more this year, and we should.

I yield the floor.

The PRESIDING OFFICER (Mr. SANDERS). The Senator from Wyoming.

Mr. CRAIG. Mr. President, I oftentimes laugh. It is either Iowa, or Ohio, or Idaho. The other side of that equation with the late Craig Thomas, I am LARRY CRAIG, Craig Thomas. His wife is Susan, my wife is Suzanne. It was not at all unusual that sometimes we would get mixed up. People would come to my office looking for Craig Thomas, and would find out they needed to be on the other side of a mountain range and out across a rather wide expanse of land toward Casper, Wyoming, instead of Boise, Idaho.

But I understand. Thank you very much, Mr. President.

I will be brief. We are very close, I believe, toward the final passage of an energy bill that many of us have spent a good deal of time with.

I want to thank a few folks who have spent a lot more time with this issue than I or than the principals on it. Cory McDaniel on my staff, legislative LA for energy, who has spent a great deal of time over the last good many months as we have fashioned the SAFE Act, as we have fashioned a clean portfolio standard versus a renewable portfolio standard, I thank Cory for that effort.

I also thank Frank Macciarola, the minority staff director, and Bob Simon, the majority staff director. We worked closely with them as we have worked our way through this issue. Sam Fowler, counsel for the majority, and Judy Pensabene, minority counsel, have all been very helpful.

I have worked closely with Senator DORGAN and his staff. Franz Wuerfmannsdobler and Nate Hill on his staff have been very helpful; also Colin Jones, a fellow from the National Lab in Idaho on my staff, and Darren Parker, a research assistant, have been extremely helpful. A couple of interns, J.C. Dunkelberger and Brian Riga, have been very helpful throughout all of this effort.

I think those of us who have been in the Senate a long time know this work gets done certainly by us in some instances but by our staff in most instances. They spend a lot of time, they develop a level of expertise in working with us on some of these issues.

I thank these men and woman for their assistance in a complicated process. I hope we can finish and produce a work product that will come back to us in a reasonable form that many of us can support.

I am frustrated we are potentially moving a bill out of the Senate that does not have any production. It is all about the future and the outyears. I do not think America worries about the outyears when they go to a pump and pay $3 and 10 or 15 or 20 cents a gallon. They worry about tomorrow and next year and the next year. That is what I think all of us have voiced in this debate.

Somehow it is not right anymore to drill holes in the ground and pull out oil and refine it. I do believe that still fits into the equation and will for several decades to come, as we move to flex fuel, as we move to hybrids, as we move to hydrogen, as we move to electricity, as we are, and as we will continue to, and we must.

But in the meantime, it is a reality that this Nation has to continue to produce. As loudly as I and some on the other side have spoken about it, the Senate collectively does not want to seem to go there anymore. My guess is the American consumer, tragically enough, is going to pay the price. I hope that ultimately we do get some more production built into this legislation or other public policy as we move down the road because it is the reality of where we are. While we work our way away from it and take this great economy and start shifting it and moving it around to new economies in the field of energy, it takes a great deal of investment that the private sector will make, and it takes the kinds of incentives, and it takes a substantial amount of time that I do not think is as reflected in this policy as I would hope, and as I have hoped it would be.

I yield the floor.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. SALAZAR. Mr. President, I come to the floor to speak tonight as we get

close to the point hopefully of passing an energy bill here in the Senate.

I first acknowledge the leadership of both Senator BINGAMAN and Senator DOMENICI. When we look at where we are today on energy, much of it started, the bipartisan cooperation, between Senator BINGAMAN and Senator DOMENICI, in the passage of the 2005 Energy Policy Act. I know there have been critics of that act, but it was a creation that was put out in a bipartisan fashion, a significant step forward on energy.

This legislation that came out of the Energy Committee, which is included in the bill which we are about to vote on, in large part is a very good step forward in terms of trying to address the goals we had in that particular legislation.

I also congratulate both Senator STEVENS and Senator INOUYE. I think when you think about the people who have made such a mark, an imprint on the Senate today and on our country, two of our national heroes are TED STEVENS and DAN INOUYE. I never get tired of hearing the story of Senator INOUYE and his service to our country. Every time I see him and I remember his great contribution and sacrifice to our country, I remember those are the greatest of the greatest generation, and certainly both Senator STEVENS and Senator INOUYE embody that greatness.

I also thank the chairman and ranking member of the Finance Committee for their great work. As a member of the Finance Committee, we worked very hard to come up with legislation that would help us move forward in dealing with the reality of getting energy independence.

While I am disappointed that part of the package is not included as we move forward toward final passage here, it nonetheless represented the best of our thinking about how we could invest in this new imperative of America, and gets us to a new energy future for the 21st century.

I also thank the rest of my colleagues who were involved in some of the discussions that have been underway today. Let my say that from my point of view, there is no more important issue we must deal with here in Washington, here in the Congress, than the issue of energy.

If we look at the big issues of our time in the 21st century, I think in my mind there are three issues we have to deal with. We have to deal with the issue of foreign relations and how we put the world back together again and restore America's greatness in the world.

We also need to make sure we embark on a new clean energy future for the 21st century.

We also need to deal with other issues that are very difficult, the enormous challenge that we face with the health care in America today. That issue is bankrupting America's families and America's businesses day by day. So how we move forward with those three issues is very important.

But tonight we are at the doorstep of taking a significant step forward on one of those huge issues; that is, the issue of energy and moving forward to establishing a clean energy future.

Now, when I often talk about energy, I think back to what happened in the early 1970s and through the 1970s with both President Nixon and President Jimmy Carter, where President Nixon declared the need for us to be energy independent, and coined that term.

Then following him, President Carter spoke about energy independence as being something that was the moral equivalent of war. Well, the fact is that in those days the driver for those statements and the coining of that term came from the economic volatility that was caused by the formation of OPEC and their ability to be able to influence the world markets on oil.

I think today we have three inescapable forces that drive us to look at the clean energy future as the imperative of the 21st century. Those inescapable forces are, first and foremost, our national security. When we see what is happening in the Middle East with Hezbollah and in Lebanon with Hamas in the Gaza, you know that terrorist organizations such as those are being funded by the very oil that is being consumed by the free world.

So for us to become energy independent is our way of making sure we are not held hostage to those kinds of organizations, to the oil barons and sheiks of this world. It is an imperative we do that from a national security point of view.

Secondly, I think it is now beyond argument in our world today that the issue of global warming is here, and we will have some debate that will come on down the road with respect to how we address the issue of global warming here in America and across the world.

It is inescapable that we must do something about global warming if we are to save civilization for our children and grandchildren and save this planet we have been given the humble privilege of inhabiting. That is an inescapable force that will drive us to a clean energy future in the 21st century.

Last is the economic opportunity and dealing with the economic volatility that happens when you are hostage to someone who controls supplies such as OPEC can today. The economic opportunity is one that you already see happening throughout our great Nation.

In my State of Colorado, where 2 years ago, before passage of the 2005 act, there was really nothing going on in terms of renewable energy, we have totally turned that around. We have now ethanol plants in places such as Fort Morgan and Yuma. We have a number of other ethanol plants springing up in Windsor and Devon, down in the southern part of the State, places which were part of the forgotten rural America which had been hanging on by a shoestring just to keep their communities alive. There is a new breath of activity, a new breath of hope and opportunity and optimism in rural America, in large part because we believe we can grow our way to energy independence.

I believe strongly we are headed in the right track with the legislation that has been put forward. I am hopeful that we will move forward and conclude our effort on this energy legislation tonight.

I want to go back for a minute and reflect upon the legislation that came out of the Energy Committee which was led in a remarkable fashion by Senator BINGAMAN, with the support of Senator DOMENICI. It was a bipartisan effort that focused on three major issues, all of which are included in the underlying legislation.

The first of those was moving forward with alternative fuels. If you think about what we have done with the renewable fuels standard, we will be quintupling the amount of energy we create from biofuels. We will be opening a new chapter with cellulosic ethanol that will make the biofuels targets a reality.

Secondly, the efficiency measures are important to make sure we stop wasting the energy we consume. When we look at what the experts tell us, from the Department of Energy, the National Renewable Energy Lab, we know we waste 60 percent of the energy that is consumed in America today. Therefore, the lowest hanging fruit for all of us is to move forward with efficiency measures. We are doing that in the part of the legislation that was created in the Energy Committee. We also are doing it very much with the CAFE standards, the fuel efficiency standards that were negotiated today with the leadership of Senators STEVENS and INOUYE, Senator FEINSTEIN, and many others who were involved. That will help us achieve the oil savings targets and goals we have set forth in this legislation.

Finally, we take some movement forward in terms of dealing with the issue of carbon by making sure that we are dealing with carbon sequestration mapping in the United States and that we develop the way forward in terms of how we sequester carbon. There has been debate about coal. Not everybody agrees on how we ought to move forward with respect to coal. I believe it is important that we look at coal as a possible resource because it currently generates about 50 percent of our electricity today and it is the most abundant resource we have in this country. We have enough coal resources for the next 200 years of energy for America's

use. Coal is to the United States what oil is to Saudi Arabia. So it is important that we not turn a blind eye and say we are a nation that is not going to look at all at coal.

Some of the new technologies we have with respect to IGCC—the creation of electricity in a way that can help us with the hybrid plug-ins—will open a whole new chapter today and build on the 2005 act. That will all be very important. Carbon sequestration needs to be a part of the equation. We know there are formations throughout this country where, in fact, we can sequester carbon. The technology is not all that complex. The enhanced oil recovery efforts and the technology we have with EOR is technology that has been used in the oilfields for decades. We know there are formations out there where we can, in fact, store carbon. So we can find ways of utilizing this abundant fuel we have in the United States to help us fuel the energy needs of the country.

In addition to the many Members who have worked on making this a possibility—and I hope we do get the 60 votes we need—there have been a lot of people on many staffs on both the majority side and the minority side who have worked to make this happen. I thank each and every one of them for getting us to the point we are today. I know the countless hours and nights and days they have spent working on this issue. Without them, we would not be where we are tonight.

I thank the people in my office who have been working hard on this legislation for a long time, both in the Energy Committee and in the Finance Committee. I say thank you to Steve Black, who has been an enormous player on the energy issue, in 2005 as well as today; Matt Lee-Ashley, Suzanne Wells in my office, Grant Leslie, and Sam Mitchell, who have done an enormous job pulling all of this together.

This is a major step we are about ready to take. I look forward to being a part of the celebration when we get this all done, hopefully in the not too distant future before we go into the wee hours of tomorrow morning.

EFFICIENCY TITLE

Mrs. LINCOLN. Mr. President, I applaud the efforts of the Energy Committee, its chairman and ranking member, in crafting this bill. However, I have concerns about some aspects of the efficiency title specifically as they relate to regional standards for heating and cooling products and the possibility of more than one energy standard such as SEER or EER being applied to these products. I sincerely hope that we can work on resolving these issues following the passage of this legislation.

Mr. BINGAMAN. I am happy to work with my colleague from Arkansas to improve this bill, and will work with her on this issue following the passage of this legislation.

Mrs. LINCOLN. I appreciate the chairman's good-faith commitment to work with us on this issue. I raised these concerns when this bill was being discussed in the Energy Committee, and I continue to have reservations about how the language, as written, can be implemented.

RPS

Mr. BINGAMAN. Mr. President, I would ask the majority leader, through the President, if he is in agreement with me on a matter of some importance. I offered an amendment last week to require that 15 percent of the electricity sold in the Nation come from renewable energy resources by the year 2020. We have not been able to get an agreement to have a vote on this amendment, or on other forms of it that might have provided more flexibility to States in meeting the goals of the amendment. We would have been agreeable to accepting a supermajority threshold for passage of the amendment. We still could not reach agreement. That implies, to me, that opponents of the measure believe that 60 or more Senators support the amendment. I believe that they may be correct in assuming so.

This amendment would have been as significant an amendment as we could have added to the bill. Such a standard would increase the generation of renewables in the Nation from something over 2 percent to a much greater share of our generation supply. We have tried again and again to provide, in law, mechanisms to allow renewable energy technologies to take the place in the market that they deserve. The Senate has passed similar amendments three times. This provision would result in cleaner electricity generation, be the source of extensive creation of new jobs, enhance our energy security, lower the price of natural gas, and could even result in lower electricity prices.

Given the importance of this provision of the Nation, and the clear, strong support for it in the Senate, I would ask if it is the intention of the majority leader, should we conclude business on the Energy Bill without passing it, to seek another vehicle for the passage of the renewable electricity standard?

Mr. REID. Mr. President, I would answer the chairman of the Energy Committee, who has done great work in managing this complicated energy bill, that I agree with him as to the importance of this amendment to the Nation, and on the broad support that it enjoys in the Senate.

There is little that we could do in the electricity sector that would bring more benefits—in terms of consumer savings, reducing natural gas demand, and slowing the growth of greenhouse gas emissions. We have sought in this bill to broaden the range of energy resources that we depend on for motor fuels to include renewable resources. We must do the same for our electricity supply. I share his strong belief that enactment of a national renewable electricity standard is critical for the Nation's efforts to become more energy independent and to reduce the risks of global warming, as well as create new jobs in the clean energy industry. I promise to work with him to see that proposal gets fair consideration, a vote and, if at all possible, enacted into law this Congress.

Mr. LAUTENBERG. Mr. President, right now, people are at gas stations across America, filling up cars and trucks to get to work, take their kids to school, and run their errands.

In May of 2002, a gallon of gas cost $1.40. Today that same gallon of gas costs $3.22. In just 5 years, the price of gas has more than doubled.

Gas isn't the only energy cost that has spiked in the last 5 years. In New Jersey, individuals, families, and businesses are paying 25 percent more for electricity than they were just 5 years ago. These high prices are hurting our families—families whose budgets are already stretched thin.

We also know that our energy policies are hurting our environment. The emissions from our cars and trucks, electric utilities, and factories are causing global warming—a fact recently verified by a United Nations Panel on Climate Change. The energy bill before us marks the first serious attempt in years to address our energy crisis.

First, it takes a measured but appropriate approach to improving CAFE standards governing the fuel efficiency of our cars and trucks. Right now, Japan leads the world in fuel efficiency. Many of their cars and trucks get more than 40 miles per gallon. The United States is far behind. Our passenger cars have been stuck at CAFE standards of 27.5 miles per gallon since 1990—and our light trucks get just 21.6 miles per gallon. We must do better, and with this bill, we will.

Our energy bill calls for increasing fuel efficiency to 35 miles per gallon by the year 2020. As we improve our fuel efficiency, we decrease both the amount of gas Americans have to pay for and the greenhouse gases our cars emit. But despite what many think, greenhouse gases don't only come from cars and trucks. Buildings have a significant impact on the environment and on the health of every American—accounting for nearly 40 percent of America's greenhouse gases. The Federal Government is the largest owner and renter of buildings in the Nation and is one of the largest emitters of greenhouse gases in the world.

In addition, poorly designed schools can cause the air inside to be unhealthy. This poor air quality increases childhood asthma.

More than 67 percent of schools have a design problem that contributes to

asthma. For those reasons, I introduced the High Performance Green Buildings Act, which is now included in the Energy bill. This legislation focuses on making our Federal buildings ''green'' and improving the environmental and health impacts of our schools. I worked with our former colleague, Senator Jeffords, on this bill in the past—and the language now in the Energy bill represents a collaborative effort between myself, Senator BOXER, and Senators SNOWE and WARNER.

In comparison to standard buildings, the average green building has better air quality, uses 30 percent less energy, and results in nearly 40 percent fewer emissions. Green buildings also have smaller electric bills, which saves owners and tenants on their bottom lines.

The Federal Government must lead by example and achieve those results for its buildings. Accordingly, my green buildings bill will direct the General Services Administration to use a green building certification that all Federal buildings should achieve. It also provides grants and voluntary guidelines for schools to lessen their environmental impacts—and improve the health of the students, teachers, and staff inside them.

Finally, the bill calls for demonstration projects to show the public that green buildings are environmentally sound, benefit people's health, and are both cost-effective and practical.

The States are doing their part. New Jersey and 21 other States have already signed bills similar to my legislation. Many private companies are doing their part as well. For example, Bank of America is building a new highrise office tower in Manhattan—a building that will be entirely green. It is time for the Federal Government to do its part.

We need a solution to our energy problems: one that protects the American pocketbook, improves our CAFE standards, reduces our dependence on foreign oil, and promotes green building. This energy bill will be an important step forward toward achieving these goals.

AMENDMENT NO. 1792

Mr. INOUYE. Mr. President, I rise in support of amendment No. 1792, filed by Senators STEVENS, SNOWE, ALEXANDER, and CARPER, and cosponsored by Senators FEINSTEIN and KERRY, among others. This bipartisan compromise reflects the input of Members, industry, and consumers, and is good policy for our Nation.

I particularly wish to congratulate Senator DIANNE FEINSTEIN for her dedicated efforts over the years to update our Nation's fuel economy standards. The success of the amendment today is a tribute to her tenacious and skilled advocacy.

At every step of the legislative process following the introduction of S. 357, the Ten in Ten Fuel Economy Act, by Senators FEINSTEIN and OLYMPIA SNOWE, the authors and cosponsors of S. 357 and members of the Senate Commerce Committee have worked together in a bipartisan manner to address the concerns of the automotive industry. In particular, this group worked hard to ensure that automakers will not face a significant burden when meeting the first improvements to fuel economy standards in more than 30 years.

I am pleased that Members from both sides of the aisle continued to work together to produce the amendment adopted today. While addressing a number of the concerns raised by automakers regarding the Feinstein-Snowe Ten in Ten Fuel Economy Act as reported by the Commerce Committee, the amendment preserves the core goals and fuel savings of Ten in Ten.

The amendment directs the Secretary of Transportation to increase fuel economy for automobiles to 35 miles per gallon by 2020, as in Ten in Ten. But in the years that follow from 2021 to 2030, the Secretary shall increase fuel economy at a maximum feasible rate instead of at a pace of 4 percent per annum.

If we have a breakthrough in battery technology, then 4 percent per year may well be too low. If there are unforeseen problems, 4 percent may be too high. The amendment will allow the Secretary to set an appropriate standard in the future.

The Kerry-Cantwell second degree amendment to the Stevens-Carper-Feinstein-Snowe-Kerry amendment also directs the Secretary to establish and implement an action plan to ensure that 50 percent of the vehicles for sale in 2015 are alternative fuel automobiles. We must encourage manufacturers to improve their fleets' fuel economy by exploring new technologies and producing alternative fuel vehicles. I commend Senators KERRY and CANTWELL for developing this compromise amendment that addresses this important goal.

By adopting the bipartisan compromise amendment and H.R. 6 as amended, we will place the country on a path toward reducing our Nation's dependence on foreign oil, protecting the environment, and helping consumers deal with rising gas prices.

Finally, I wish to express my appreciation for the excellent efforts of the dedicated staff on the Senate Commerce Committee including David Strickland, Alex Hoehn-Saric, Ken Nahigian, Mia Petrini, and Jason Bomberg.

Mr. DODD. Mr. President, I rise today to speak on the pending energy bill and the future of energy in the U.S. I commend Chairman BINGAMAN for crafting this compromise bill and bringing it before the full Senate for consideration. Like many of us, he recognizes that the energy crisis we face will be long-term and life-altering, and that we must enlist all Americans, and the cooperation of governments worldwide, to solve it.

Let's be honest. We have only gotten to this critical point because we have put off for too long momentous energy decisions. In fact, the main answer to our energy dilemma from the party across the aisle while they were in power in Congress was the 2005 energy bill, a scandalous mix of billions in drilling subsidies and other giveaways to big oil companies which even some of them admitted were unnecessary. That effort was doomed from the start: While we consume 25 percent of the world's oil, we only hold 3 percent of its reserves—so we can't, we never could, drill our way out of the problem. The results of that bill in the last 2 years haven't been surprising: skyrocketing oil and gas prices; no slackening of demand; increased U.S. dependence on foreign oil; underfunding of renewable energy initiatives; and slashed conservation funding. This bill takes us in a much better direction, with progressive new policies. And that is critical. If we are to address honestly the threat posed by America's addiction to carbon-based fossil fuels, and especially imported oil, it is long past time to move in a better direction, and to make some difficult choices.

We have known for a long time about the three-fold threat—to our national security, our economic vitality, and our environmental health—posed by our over-reliance on foreign oil. To our national security, because we now import about 60 percent of our oil from some of the most politically unstable regions of the world, governed by authoritarian regimes, some serving as breeding grounds for terror. To our economic vitality, through high gasoline prices, rising home heating costs, and electricity price spikes which strain family budgets, burden businesses, and make our Nation less competitive. To our environmental health, due to smog, climate change, increased asthma risks, cancer and other diseases caused or exacerbated by pollution. We continue on this path to our peril. A better way forward is to embark now on a course of dramatic change in our energy policies, including setting clear long-term goals and enforceable benchmarks; backing our rhetoric on conservation, renewable energy and other initiatives with real funding; scaling back wasteful oil industry subsidies, and including all Americans in energy conservation efforts. If we do it right, Middle East imports will decline and vital U.S. interests will be made less vulnerable; our air will be cleaner; new jobs in the renewable sector will be created, our rural communities will be revitalized through energy innovation, and our relationships with allies and overall position in the world will be strengthened.

Our over-reliance on foreign oil, especially from the Middle East, makes us vulnerable to price spikes, supply disruptions, and market uncertainty. We also, sadly, pay for the privilege of propping up authoritarian regimes that use oil reserves to bolster their own power, insulate themselves from demands for political and economic liberalization, and protect themselves from the need to improve their human rights records—what NYT columnist Tom Friedman calls ''petro-authoritarianism.'' This is why the government of Iran can suppress its own people; it's why Russia can crush Chechnya and intimidate its neighbors; it's why China, a major owner of Sudan's main oil consortium, can continue to block effective U.N. action on Darfur. We are effectively financing them to do it through our oil purchases.

And we have been doing this for decades. I was first elected to Congress in 1974, in the wake of an energy crisis prompted by an OPEC oil embargo. It was a summer of gas lines and shortages, of steps large and small taken to address the problem. And now here we are, fighting another uphill battle to enact a good energy bill, which contains an important set of incremental steps to address these problems. I would like us to go much farther than this bill does. But at least with its passage we would finally be headed in the right direction.

I think almost everyone in this Chamber would agree that the future of energy in this country, to the maximum extent possible, should be clean, green, domestic, and renewable. We know that our dependence on foreign oil leaves us vulnerable, increases our trade deficit, and creates volatility in energy prices and hardships for American consumers and businesses. We know that emissions from fossil-fuel fired powerplants cause unnecessary illnesses and deaths. And we know that our emissions of greenhouse gases are causing global climate change, which is leading to higher sea levels, melting glaciers, shifting ecosystems, and ocean acidification.

Our national energy policy must be retooled to address those threats directly, and to encourage the development and deployment of technologies that will encourage the use of clean, domestic, renewable energy. This bill, modest as it is, does that, I applaud Senators STEVENS, INOUYE, FEINSTEIN, and others for crafting a compromise on fuel economy standards, though we must recognize that it is a compromise: the new fuel economy standards contained in this bill do not do enough to achieve the full potential of current technologies to increase fuel efficiency. Even so, setting the CAFE target at 35 miles per gallon by 2020, is an important advance for a Congress that has not managed to increase standards at all for over 20 years. There was no increase in fuel economy standards to blame for the decline in American auto manufacturers' market share from 73 percent in 1986 to 55 percent in 2006; the future strength or weakness of those manufacturers will depend far more on the extent to which they transform themselves by taking advantage of new green vehicle technologies in the coming years. The same arguments we have heard for many years—that the technology is unavailable to enable these higher standards, that they will make cars less safe, that we will hurt our own manufacturers—are the ones made in the late 1970's; they are no more true now than they were then.

We have spent much of this debate on a few contentious issues, but there are many significant provisions in the bill that have not been as widely discussed, including creating research and demonstration programs for carbon capture and sequestration, substantially increasing appliance efficiency standards, and making the Federal Government a leader in the use of renewable energy and green construction. Moreover, this legislation puts the Senate on record in our support of engagement with other countries, especially those in the Western Hemisphere, to better coordinate energy security and assure diverse and reliable energy supplies. While it is not perfect, it is a step in the right direction.

Mr. President, let me say a final word about the elephant in the room, which we have scarcely acknowledged thus far in this debate about energy policy: climate change. Climate and energy policy are inextricable—any energy policy we adopt will have an enormous impact on the climate. I recognize that this body is not yet ready to adopt a comprehensive measure to substantially limit emissions of greenhouse gases, or to take the bold step of imposing some form of a comprehensive corporate carbon tax. If we were honest with the American people, that is the kind of bold step we would take to help resolve our energy dilemma.

The truth is that, on energy and climate issues, Americans are ahead of their political leaders. They understand the serious, long-term cumulative threat climate change poses to their children and grandchildren; they're willing to make tough choices to address it. They understand that cleaner energy is possible; they know that fuel-efficient vehicles and appliances are within reach—but they're worried that American manufacturers are falling behind. Americans overwhelmingly support the development of alternative energy, higher mileage standards, hybrid vehicles, and incentives to produce and install more energy efficient appliances. They see the potential for savings generated by energy-efficient technologies, both for their families and for a more efficient, more effective use of their tax dollars by government. And they want change. They understand that the threats of climate change are not geographically remote or far off in time; they are real and urgent. I hope that the day when we can take up and pass tough new controls on carbon dioxide and other greenhouse gases arrives soon. But however we address emissions and efficiency, conservation, bio-fuels, fuel economy, and other important provisions, I urge my colleagues to support this bill, and to start us on the road towards a future of clean, domestic, and renewable energy.

Mr. LEVIN. Mr. President, I regret that I cannot support the Energy bill that we are voting on tonight. I will vote against cloture on the bill and against final passage. There are many good provisions of this bill—particularly in the areas of energy efficiency and renewable fuels—but at its core, the bill contains CAFE provisions that will needlessly harm the American auto industry.

I believe we had a real opportunity to make significant strides in improving fuel economy and reducing our dependence on foreign oil, and doing it in a sensible way that would support American manufacturing and American workers. Instead, the bill before the Senate tonight has chosen the path that is most likely to harm our workers by combining trucks with cars for new standards that are overly aggressive and unachievable and may have a particularly harmful effect on those manufacturers who produce a high percentage of light trucks and produce small cars in America.

America has lost 3 million manufacturing jobs since 2001, over 200,000 jobs in the automotive sector. Our companies face enormous competition in the global marketplace without support from the U.S. Government. Our companies are not competing against companies overseas they are competing against other governments that strongly support their manufacturing sectors with currency manipulation and trade barriers against our products. American companies must compete against those who are protected from import competition by their government, have cheap labor costs, do not pay health insurance and legacy costs, or do not have to meet our strict environmental standards. Our manufacturers can compete with anyone on a level playing field but right now that field is tilted against them.

Tonight, we are choosing to follow a path that will continue that uneven playing field for our manufacturers through our own regulatory process—no other countries would do that to its companies. The proponents of these provisions—a combined car-truck standard of 35 miles per gallon by 2020 claim that these standards will be easy

to meet with new advanced technology and suggest that these fuel economy numbers are supported by the National Academy of Sciences. But that is simply not true. In fact, the National Academy of Sciences, in its 2002 report that is frequently cited, specifically stated that the conclusions it drew about technologies should not be interpreted as fuel economy recommendations.

There was a better way. An amendment sponsored by Senator PRYOR that I cosponsored, along with Senators BOND, VOINOVICH, STABENOW and MCCASKILL, offered that alternative approach. Our amendment would have taken bold steps forward to improve fuel economy, reduce our dependence on foreign oil, and protect the environment. We did that in our amendment by establishing aggressive, yet achievable, new and different fuel economy standards for cars and light trucks and by setting clear interim milestones for reaching these new standards.

Our amendment would have required a thirty-percent increase in fuel economy standards for cars by 2022 and a thirty-five-percent increase in standards for trucks by 2025, and our amendment would have provided certainty that these standards will be met. It also would have provided the predictability needed by our auto companies to plan ahead and utilize new advanced technology to the maximum extent possible. Our amendment would have provided the National Highway Traffic Safety Administration, NHTSA—the agency that would set these standards—tools necessary to establish the standards in a sensible way that would have ensured the standards would be at the maximum feasible level, even if that level proved to be higher than the number included in this amendment. To ensure that the technology would be available to meet these standards, our amendment also would have provided a significant new infusion of Federal dollars to support advanced technology research, development, and demonstration programs across a wide spectrum of technologies—from advanced batteries and lightweight materials to advanced clean diesel, hybrids, plug-in hybrids, and fuel cells. Our amendment also would have put more advanced technology out on the road immediately by requiring each auto manufacturer to make a certain percentage of their new vehicles either flexible fuel vehicles or advanced technology vehicles—increasing to 50 percent of their fleets by 2015.

To be sure, meeting the new fuel economy standards under our amendment would have been a stretch and a challenge for all of our country's auto manufacturers—both our traditional American manufacturers, who built the foundation of the auto industry in this country, as well as manufacturers such as Toyota, Mazda, and Mitsubishi. But it would not have pushed our companies to the breaking point, as I fear the provisions of this legislation will do.

So I cannot support this bill tonight, and I regret that we did not take a different path. I was encouraged that the Commerce Committee leaders were willing to take some of our suggestions and make some improvements in their bill. Through our negotiations, we received a few significant concessions. Specifically, the standards in the final bill are for the industry as a whole and not standards to be met company by company, ending a procedure which has discriminated against the domestic industry. The bill also makes clear that NHTSA is required to set standards according to an attribute based system that will look at the different attributes of cars and trucks, and make clear that the fuel economy standards after 2020 will be set at the maximum feasible level rather than requiring an arbitrary and unrealistic increase of four percent annually and was true with the Commerce Committee bill.

I believe that we can reduce our dependence on oil, reduce our greenhouse gas emissions, and improve the overall fuel economy of our vehicles on the road while supporting our American manufacturers in the global market place. To do that, we need a major public-private partnership and major investments in leap-ahead energy technologies, including advanced technology vehicles. We need a huge infusion of resources and a commitment from both the private sector and the Federal government to support efforts to reach these important goals. At a minimum, we cannot have our government act in ways that will unfairly disadvantage our American manufacturers against their global competitors.

Mr. SALAZAR. Mr. President, I rise today to urge my colleagues to support the improvements to vehicle efficiency that are included in H.R. 6. It is time for us to make reasonable, achievable, and meaningful increases to the corporate average fuel economy standards.

In the past 2 weeks I have spoken repeatedly about the national security, economic security, and environmental security implications of the energy debate that we are holding. The converging and growing risks of our overdependence on foreign oil are well understood among Americans, who see the impacts of our failed energy policy on a daily basis.

At the gas station, consumers see prices spike at OPEC's whim or with the threat of supply disruptions in countries like Venezuela or Nigeria. In their businesses, Americans feel the pain of soaring oil prices—fuel prices for farmers are so high that some do not know if they will be able to complete the harvest in the fall. And in their land, air, and natural surroundings, Americans are beginning to understand the impacts that global warming could have over the coming decades.

This week we have already made significant progress in our quest to reduce our dependence on foreign oil. Not only is the underlying bill an important step forward, but we have passed several amendments that strengthen the foundations of a new, clean energy economy for the United States.

So far we have increased the oil savings targets in this bill by 50 percent, so that by 2016, we are saving as much oil as we are currently importing from the Middle East. We have passed provisions from the DRIVE Act that will bring high-efficiency vehicles, such as plug-in hybrids, to consumers. And we set a goal of producing 25 percent of our energy from renewable sources by 2025. These are important improvements that will accelerate the pace at which we are moving toward energy independence.

Today, though, I want to talk more specifically about a provision of this bill that has been a point of intense debate for some time. Vehicle efficiency standards in this country have been stagnant for too long. Although our vehicle manufacturers have made impressive improvements to the safety, strength, and power of our vehicles, the average fuel economy of new cars and trucks was actually lower in 2006 than it was 20 years ago. Passenger cars sold in the U.S. only get around 27.5 miles per gallon on average.

The result? American consumers and businesses are suffering disproportionately from $3-a-gasoline. $50 and $80 visits to the gas station are now the norm, and transportation costs are taking a growing slice out of family budgets.

People who live in rural areas are hit the hardest by low fuel-efficiency standards. They drive around 15 percent more miles than people who live in cities, they rarely have the choice of using public transit, and they use work vehicles, like pickups, that get fewer miles to the gallon. As a result, gas bills in rural households have risen almost $1,300 in the past 5 years.

The question of how to improve vehicle efficiency standards is not an easy one, and is not to be taken lightly. But today the path forward is clearer than it has been in some time. Not only is the need for improved efficiency evident, but we have the technological know-how to make these changes to our vehicle-fleet in a safe and cost-effective manner.

The bill before us raises the CAFE standards for cars and light trucks to 35 mpg by 2020. This is a reasonable and appropriate goal for efficiency. The bill also gives manufacturers tremendous flexibility to meet the standards. The National Highway Traffic Safety Administration, NHTSA, will have the ability to set a national fleet-wide average fuel economy standard of 35 mpg

by 2020 that will be tailored to the weight, size, type of use and towing capabilities of each car type. Under this flexible system, the standards for light trucks will likely be significantly lower than the standards for passenger cars, and standards will vary for passenger cars: smaller cars will have higher standards than larger cars.

The bill also includes an important exemption for work-trucks between 8,500 and 10,000 pounds—these are the trucks that are essential to the daily operations of farmers, ranchers, and small business owners.

The CAFE standards in this bill are achievable by incorporating a group of modest, proven conventional technologies into vehicles. The technologies would add about $1,100 to the price of an average vehicle in 2019, an investment that would be recovered in less than 3 years of driving, assuming that gasoline costs $2.00 per gallon. Over the lifetime of the vehicle the owner would save a total of more than $3,600 in gasoline costs.

And the technologies are only getting better. Our national labs and universities are making breakthroughs in research that will allow us to make even greater advances in fuel efficiency. At the Colorado School of Mines, for example, researchers are developing a way to cast metal alloy composite materials for high strength, lightweight vehicle parts. This technology will reduce the weight of vehicle components by as much as 60 percent without compromising vehicle performance, cost, or safety.

While I am a champion for the responsible development of our domestic energy supplies and I firmly believe that we need to make smart investments in a renewable energy economy, improving efficiency is the cheapest, cleanest and quickest way for us to extend our energy supplies, get a handle on rising gas prices, and reduce our dependence on foreign oil.

I am proud of the responsible, bipartisan approach we have taken to improving vehicle standards. I want to again thank Senator BINGAMAN and Senator DOMENICI for their leadership on this bill and I look forward to passing it as soon as possible.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. CASEY). Without objection, it is so ordered.

Mr. REID. First of all, Mr. President, the distinguished Republican leader and I apologize to everyone.

However, I ask unanimous consent that at 11 p.m. tonight the substitute amendment be agreed to; the bill be read a third time, and the Senate vote on cloture on H.R. 6; that if cloture is invoked, the Senate vote immediately on passage of the bill with the preceding all occurring without any intervening action or debate; further, that the cloture vote on the motion to proceed to H.R. 800 occur at 11:30 a.m. on Tuesday, June 26; that if cloture is invoked, the motion be agreed to and the Senate vote immediately on cloture on the motion to proceed to S. 1639, the immigration bill; that if cloture is invoked, the motion be agreed to; and further that if cloture is invoked on S. 1639, it be in order upon the disposition of all postcloture debate time there be 20 minutes equally divided for debate only on a motion to waive the Budget Act in response to a budget point of order against the bill made by Senator JEFF SESSIONS or his designee; further, that on Wednesday, if the Senate is considering the immigration bill, Senator SESSIONS be recognized for debate only for up to 2 hours.

The PRESIDING OFFICER. Is there objection?

Mr. DEMINT. Reserving the right to object.

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. DEMINT. I would just like a few minutes to look at the language.

Mr. REID. I renew my consent request.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. TESTER). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I have spoken to my colleagues on the other side of the aisle, and they are concerned about some ability to get in conference the cloture motion; that is, the tax aspects of the Energy bill that was defeated. It is not part of this matter we are working on now. As I told my friend, the distinguished Republican leader, if he could figure out a way to do it, he should let me know. I want everyone to cool their jets. The Republican leader and I have had a pretty good agreement on matters that pass this body, as to what goes to conference.

Now, we have preconferenced—we don't need to run through the things we have preconferenced, but I think the Republican leader will tell everyone here that I have been on the level with him, and I intend to be on this matter. So if anyone is concerned about some trick to put this energy tax package in the bill in conference, they need to tell me how to do it because I don't know how. It takes three cloture votes for me to get to conference. I have been through that. They are procedural votes. Although I wish I had the magic wand to tell a lot of you how to vote on the procedural votes, I haven't been too successful so far.

So everyone just relax on that issue. I don't know what more I can say. I have told the Republican leader personally about that. That is how I feel.

The PRESIDING OFFICER. The Republican leader.

Mr. MCCONNELL. Mr. President, what I assume my good friend, the majority leader, is talking about is that there are three filibusterable motions prior to going to conference. What he is suggesting here is, in fact, the case, which is that rather than simply going to conference without any discussion of what might come out of conference, the matter could be discussed in some detail before we go to conference. I know that is what my good friend, the majority leader, was talking about.

Our concern, of course, was that Senator CONRAD said, right here on the floor of the Senate tonight—I won't read it word for word, but these are direct quotes from the floor of the Senate tonight—that was the game plan, to simply put the tax component, which was defeated earlier today, back in the measure. That created a considerable amount of angst on this side of the aisle for obvious reasons. There was substantial opposition to this massive tax increase which would have been added to the bill.

So we will have a lengthy discussion before going to conference. Let me just say, as one of the States that does not find much to applaud in the bill in any event, there are ample reasons for voting against cloture. I certainly am going to vote against cloture and would hope that a number of our colleagues, sufficient to deny cloture, would have a similar vote.

The PRESIDING OFFICER. The majority leader.

Mr. REID. Mr. President, I say to my friend the Republican leader, I hope we would proceed on the basis—I gave a little speech here earlier today, after cloture was invoked, talking about a new day having arrived. I hope people would vote the way they have in the past on this issue earlier today. It would be a real bad day for this Congress now, after the progress we have made, not to pass this bill.

The PRESIDING OFFICER. The Senator from New Mexico.

AMENDMENTS NOS. 1639; 1677; 1798; 1698; 1568, AS MODIFIED; 1569; 1597, AS MODIFIED; 1624; 1764, AS MODIFIED; 1799; 1602; 1660; 1513, AS MODIFIED; 1683; 1729, AS MODIFIED; 1675; 1687, AS MODIFIED; 1688; 1689; 1525, AS MODIFIED; 1567, AS MODIFIED; 1717; 1710; 1759, AS MODIFIED; 1797, AS MODIFIED; 1702; 1706, AS MODIFIED; 1595, AS MODIFIED; 1676, AS MODIFIED; 1679, AS MODIFIED; 1615, AS MODIFIED; 1520, AS MODIFIED; 1700, AS MODIFIED; AND 1724, EN BLOC

Mr. BINGAMAN. Mr. President, I ask unanimous consent that it be in order to consider en bloc the list of cleared amendments at the desk that have been approved by Senator DOMENICI and his staff and myself and my staff, that they be considered and agreed to en bloc, and that the motions to reconsider be laid upon the table en bloc.

Mr. DOMENICI. Mr. President, we have reviewed the amendments and cleared them on our side. We have no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments were agreed to, as follows:

AMENDMENT NO. 1639

(Purpose: To make certain technical edits to title III)

On page 180, line 7, insert ''and storage'' before ''of carbon''.

On page 180, line 11, strike ''the compression'' and insert ''advanced compression''.

On page 180, line 18, strike ''and''.

Beginning on page 180, strike line 19 and all that follows through page 181, line 9, and insert the following:

''(v) research and development of new and improved technologies for—

''(I) carbon use, including recycling and reuse of carbon dioxide; and

''(II) the containment of carbon dioxide in the form of solid materials or products derived from a gasification technology that does not involve geologic containment or injection; and

''(vi) research and development of new and improved technologies for oxygen separation from air.

On page 181, line 10, strike ''(3)'' and insert ''(2)''.

On page 182, line 2, strike ''and''.

On page182, line 4, strike the period and insert ''; and''.

On page 182, between lines 4 and 5, insert the following:

''(vii) coal-bed methane recovery.

On page 183, line 8, strike ''(4)'' and insert ''(3)''.

On page 183, line 12, insert ''involving at least 1,000,000 tons of carbon dioxide per year'' after ''tests''.

On page 183, line 14, insert ''collect and'' before ''validate''.

On page 184, line 1, strike ''(5)'' and insert ''(4)''.

On page 184, line 7, strike ''(6)'' and insert ''(5)''.

On page 184, line 11, strike ''(7)'' and insert ''(6)''.

On page 186, strike lines 18 through 20 and insert the following:

(6) the work done to develop the Carbon Sequestration Atlas of the United States and Canada that was completed by the Department of Energy.

On page 189, strike lines 14 through 18 and insert the following:

(A) IN GENERAL.—On completion of the assessment, the Secretary of Energy and the Secretary of the Interior shall incorporate the results of the assessment using—

(i) the NatCarb database, to the maximum extent practicable; or

(ii) a new database developed by the Secretary of Energy, as the Secretary of Energy determines to be necessary.

On page 190, line 25, strike ''or''.

On page 191, line 2, strike the period and insert ''; or''.

On page 191, between lines 2 and 3, insert the following:

(G) manufacture biofuels.

On page 191, strike lines 10 through 15 and insert the following:

(2) SCOPE OF AWARD.—An award under this section shall be only for the portion of the project that—

(A) carries out the large-scale capture (including purification and compression) of carbon dioxide;

(B) provides for the cost of transportation and injection of carbon dioxide; and

(C) incorporates a comprehensive measurement, monitoring, and validation program.

On page 192, line 7, insert ''carbon dioxide by volume'' after ''95 percent''.

AMENDMENT NO. 1677

On page 7, line 11, insert ''(including landfill gas and sewage waste treatment gas)'' after ''biogas''.

On page 7, strike lines 13 through 16 and insert the following:

biomass;

(vi) butanol or other alcohols produced through the conversion of organic matter from renewable biomass; and

(vii) other fuel derived from cellulosic biomass.

On page 9, line 13, strike '', boiler fuel,''.

On page 9, line 20, strike '', boiler,''.

On page 10, lines 17 and 18, strike ''motor vehicle fuel, home heating oil, and boiler fuel'' and insert ''motor vehicle fuel and home heating oil''.

On page 11, line 11, strike ''built'' and insert ''that commence operations''.

On page 44, lines 4 and 5, strike ''local biorefineries'' and insert ''local biorefineries, including by portable processing equipment''.

On page 44, lines 13 and 14, strike ''local biorefineries'' and insert ''local biorefineries, including by portable processing equipment''.

On page 47, strike lines 9 through 15 and insert the following:

(1) QUALITY REGULATIONS.—Not later than 180 days after the date of enactment of this Act, the President shall promulgate regulations to ensure that each diesel-equivalent fuel derived from renewable biomass and introduced into interstate commerce is tested and certified to comply with applicable standards of the American Society for Testing and Materials.

AMENDMENT NO. 1798

Beginning on page 79, strike line 8 and all that follows through page 80, line 4, and insert the following:

''(6) ENERGY CONSERVATION STANDARD.—

''(A) IN GENERAL.—The term 'energy conservation standard' means 1 or more performance standards that—

''(i) for covered products (excluding clothes washers, dishwashers, showerheads, faucets, water closets, and urinals), prescribe a minimum level of energy efficiency or a maximum quantity of energy use, determined in accordance with test procedures prescribed under section 323;

''(ii) for showerheads, faucets, water closets, and urinals, prescribe a minimum level of water efficiency or a maximum quantity of water use, determined in accordance with test procedures prescribed under section 323; and

''(iii) for clothes washers and dishwashers—

''(I) prescribe a minimum level of energy efficiency or a maximum quantity of energy use, determined in accordance with test procedures prescribed under section 323; and

''(II) may include a minimum level of water efficiency or a maximum quantity of water use, determined in accordance with those test procedures.

''(B) INCLUSIONS.—The term 'energy conservation standard' includes—

''(i) 1 or more design requirements, if the requirements were established—

''(I) on or before the date of enactment of this subclause; or

''(II) as part of a consensus agreement under section 325(hh); and

''(ii) any other requirements that the Secretary may prescribe under section 325(r).

''(C) EXCLUSION.—The term 'energy conservation standard' does not include a performance standard for a component of a finished covered product, unless regulation of the component is authorized or established pursuant to this title.''.

Beginning on page 87, strike line 16 and all that follows through page 90, line 25, and insert the following:

SEC. 224. EXPEDITED RULEMAKINGS.

(a) PROCEDURE FOR PRESCRIBING NEW OR AMENDED STANDARDS.—Section 325(p) of the Energy Policy and Conservation Act (42 U.S.C. 6295(p)) is amended by adding at the end the following:

''(5) DIRECT FINAL RULES.—

''(A) IN GENERAL.—On receipt of a statement that is submitted jointly by interested persons that are fairly representative of relevant points of view (including representatives of manufacturers of covered products, States, and efficiency advocates), as determined by the Secretary, and contains recommendations with respect to an energy or water conservation standard—

''(i) if the Secretary determines that the recommended standard contained in the statement is in accordance with subsection (o) or section 342(a)(6)(B), as applicable, the Secretary may issue a final rule that establishes an energy or water conservation standard and is published simultaneously with a notice of proposed rulemaking that proposes a new or amended energy or water conservation standard that is identical to the standard established in the final rule to establish the recommended standard (referred to in this paragraph as a 'direct final rule'); or

''(ii) if the Secretary determines that a direct final rule cannot be issued based on the statement, the Secretary shall publish a notice of the determination, together with an explanation of the reasons for the determination.

''(B) PUBLIC COMMENT.—The Secretary shall—

''(i) solicit public comment with respect to each direct final rule issued by the Secretary under subparagraph (A)(i); and

''(ii) publish a response to each comment so received.

''(C) WITHDRAWAL OF DIRECT FINAL RULES.—

''(i) IN GENERAL.—Not later than 120 days after the date on which a direct final rule issued under subparagraph (A)(i) is published in the Federal Register, the Secretary shall withdraw the direct final rule if—

''(I) the Secretary receives 1 or more adverse public comments relating to the direct final rule under subparagraph (B)(i); and

''(II) based on the complete rulemaking record relating to the direct final rule, the Secretary tentatively determines that the adverse public comments are relevant under subsection (o), section 342(a)(6)(B), or any other applicable law.

''(ii) ACTION ON WITHDRAWAL.—On withdrawal of a direct final rule under clause (i), the Secretary shall—

''(I) proceed with the notice of proposed rulemaking published simultaneously with the direct final rule as described in subparagraph (A)(i); and

''(II) publish in the Federal Register the reasons why the direct final rule was withdrawn.

''(iii) TREATMENT OF WITHDRAWN DIRECT FINAL RULES.—A direct final rule that is withdrawn under clause (i) shall not be considered to be a final rule for purposes of subsection (o).

''(D) EFFECT OF PARAGRAPH.—Nothing in this paragraph authorizes the Secretary to issue a direct final rule based solely on receipt of more than 1 statement containing recommended standards relating to the direct final rule.''.

(b) CONFORMING AMENDMENT.—Section 345(b)(1) of the Energy Policy and Conservation Act (42 U.S.C. 6316(b)(1)) is amended in the first sentence by inserting ''section 325(p)(5),'' after ''The provisions of''.

Beginning on page 91, strike line 20 and all that follows through page 95, line 25, and insert the following:

(b) ENERGY CONSERVATION STANDARDS.—Section 325(m) of the Energy Policy and Conservation Act (42 U.S.C. 6295(m)) is amended—

(1) by designating the first and second sentences as paragraphs (1) and (4), respectively;

(2) by striking paragraph (1) (as so designated) and inserting the following:

''(1) IN GENERAL.—After issuance of the last final rules required for a product under this part, the Secretary shall, not later than 5 years after the date of issuance of a final rule establishing or amending a standard or determining not to amend a standard, publish a final rule to determine whether standards for the product should or should not be amended based on the criteria in subsection (n)(2).

''(2) ANALYSIS.—Prior to publication of the determination, the Secretary shall publish a notice of availability describing the analysis of the Department and provide opportunity for written comment.

''(3) FINAL RULE.—Not later than 3 years after a positive determination under paragraph (1), the Secretary shall publish a final rule amending the standard for the product.''; and

(3) in paragraph (4) (as so designated), by striking ''(4) An'' and inserting the following:

''(4) APPLICATION OF AMENDMENT.—An''.

(c) STANDARDS.—Section 342(a)(6) of the Energy Policy and Conservation Act (42 U.S.C. 6313(a)(6)) is amended by striking ''(6)(A)(i)'' and all that follows through the end of subparagraph (A) and inserting the following:

''(6) AMENDED ENERGY EFFICIENCY STANDARDS.—

''(A) IN GENERAL.—

''(i) ANALYSIS OF POTENTIAL ENERGY SAVINGS.—If ASHRAE/IES Standard 90.1 is amended with respect to any small commercial package air conditioning and heating equipment, large commercial package air conditioning and heating equipment, very large commercial package air conditioning and heating equipment, packaged terminal air conditioners, packaged terminal heat pumps, warm-air furnaces, packaged boilers, storage water heaters, instantaneous water heaters, or unfired hot water storage tanks, not later than 180 days after the amendment of the standard, the Secretary shall publish in the Federal Register for public comment an analysis of the energy savings potential of amended energy efficiency standards.

''(ii) AMENDED UNIFORM NATIONAL STANDARD FOR PRODUCTS.—

''(I) IN GENERAL.—Except as provided in subclause (II), not later than 18 months after the date of publication of the amendment to the ASHRAE/IES Standard 90.1 for a product described in clause (i), the Secretary shall establish an amended uniform national standard for the product at the minimum level specified in the amended ASHRAE/IES Standard 90.1.

''(II) MORE STRINGENT STANDARD.—Subclause (I) shall not apply if the Secretary determines, by rule published in the Federal Register, and supported by clear and convincing evidence, that adoption of a uniform national standard more stringent than the amended ASHRAE/IES Standard 90.1 for the product would result in significant additional conservation of energy and is technologically feasible and economically justified.

''(iii) RULE.—If the Secretary makes a determination described in clause (ii)(II) for a product described in clause (i), not later than 30 months after the date of publication of the amendment to the ASHRAE/IES Standard 90.1 for the product, the Secretary shall issue the rule establishing the amended standard.''.

Beginning on page 96, strike line 22 and all that follows through page 98, line 13, and insert the following:

SEC. 226. ENERGY EFFICIENCY LABELING FOR CONSUMER ELECTRONIC PRODUCTS.

(a) IN GENERAL.—Section 324(a) of the Energy Policy and Conservation Act (42 U.S.C. 6294(a)) is amended—

(1) in paragraph (2), by adding at the end the following:

''(H) LABELING REQUIREMENTS.—

''(i) IN GENERAL.—Subject to clauses (ii) through (iv), not later than 18 months after the date of issuance of applicable Department of Energy testing procedures, the Commission, in consultation with the Secretary and the Administrator of the Environmental Protection Agency (acting through the Energy Star program), shall, by regulation, promulgate labeling or other disclosure requirements for the energy use of—

''(I) televisions;

''(II) personal computers;

''(III) cable or satellite set-top boxes;

''(IV) stand-alone digital video recorder boxes; and

''(V) personal computer monitors.

''(ii) ALTERNATE TESTING PROCEDURES.—In the absence of applicable testing procedures described in clause (i) for products described in subclauses (I) through (V) of that clause, the Commission may by regulation promulgate labeling requirements for a consumer product category described in clause (i) if the Commission—

''(I) identifies adequate non-Department of Energy testing procedures for those products; and

''(II) determines that labeling of those products is likely to assist consumers in making purchasing decisions.

''(iii) DEADLINE AND REQUIREMENTS FOR LABELING.—

''(I) DEADLINE.—Not later than 18 months after the date of promulgation of any requirements under clause (i) or (ii), the Commission shall require labeling of electronic products described in clause (i).

''(II) REQUIREMENTS.—The requirements promulgated under clause (i) or (ii) may include specific requirements for each electronic product to be labeled with respect to the placement, size, and content of Energy Guide labels.

''(iv) DETERMINATION OF FEASIBILITY.—Clause (i) or (ii) shall not apply in any case in which the Commission determines that labeling in accordance with this subsection—

''(I) is not technologically or economically feasible; or

''(II) is not likely to assist consumers in making purchasing decisions.''; and

(2) by adding at the end the following:

''(6) AUTHORITY TO INCLUDE ADDITIONAL PRODUCT CATEGORIES.—The Commission may require labeling in accordance with this subsection for any consumer product not specified in this subsection or section 322 if the Commission determines that labeling for the product is likely to assist consumers in making purchasing decisions.''.

(b) CONTENT OF LABEL.—Section 324(c) of the Energy Policy and Conservation Act (42 U.S.C. 6924(c)) is amended by adding at the end the following:

''(9) DISCRETIONARY APPLICATION.—The Commission may apply paragraphs (1), (2), (3), (5), and (6) of this subsection to the labeling of any product covered by paragraph (2)(H) or (6) of subsection (a).''.

On page 157, line 5, strike ''and if'' and insert the following: ''the Secretary of Housing and Urban Development or the Secretary of Agriculture make a determination that the revised codes do not negatively affect the availability or affordability of new construction of assisted housing and single family and multifamily residential housing (other than manufactured homes) subject to mortgages insured under the National Housing Act (12 U.S.C. 1701 et seq.) or insured, guaranteed, or made by the Secretary of Agriculture under title V of the Housing Act of 1949 (42 U.S.C. 1471 et seq.), respectively, and''.

On page 106, line 23, strike ''2012'' and insert ''2015''.

On page 106, line 24, strike ''2012'' and insert ''2015''.

On page 107, line 3, strike ''2012'' and insert ''2015''.

On page 147, line 20, strike ''from a public utility service''.

On page 166, line 15, insert '', Indian tribal,'' after ''State''.

On page 166, line 18, insert ''of Indian tribes or'' after ''activities''.

On page 166, line 21, insert '', Indian tribes,'' after ''States''.

On page 167, line 12, insert '', INDIAN TRIBES,'' after ''STATES''.

On page 167, line 17, strike ''70'' and insert ''68''.

On page 167, line 18, strike ''and''.

On page 167, line 19, strike ''30'' and insert ''28''.

On page 167, line 19, strike the period and insert ''; and''.

On page 167, between lines 19 and 20, insert the following:

''(iii) 4 percent to Indian tribes.

On page 169, between lines 11 and 12, insert the following:

''(D) DISTRIBUTION TO INDIAN TRIBES.—

''(i) IN GENERAL.—The Secretary shall establish a formula for the distribution of amounts under subparagraph (A)(iii) to eligible Indian tribes, taking into account any factors that the Secretary determines to be

appropriate, including the residential and daytime population of the eligible Indian tribes.

''(ii) CRITERIA.—Amounts shall be distributed to eligible Indian tribes under clause (i) only if the eligible Indian tribes meet the criteria for distribution established by the Secretary for Indian tribes.

On page 170, line 1, strike ''(B)(ii) or (C)(ii)'' and insert ''(B)(ii), (C)(ii), or (D)(ii)''.

On page 170, lines 10 and 11, strike ''(B)(ii) or (C)(ii)'' and insert ''(B)(ii), (C)(ii), or (D)(ii)''.

On page 171, line 7, insert ''tribal,'' after ''State,''.

On page 171, line 20, insert '', Indian tribes,'' after ''States''.

On page 171, line 24, insert ''Indian tribe,'' after ''State,''.

AMENDMENT NO. 1698

(Purpose: To modify the definition of renewable biomass)

In section 102(4), strike subparagraph (A) and insert the following:

(A) nonmerchantable materials or precommercial thinnings that—

(i) are byproducts of preventive treatments, such as trees, wood, brush, thinnings, chips, and slash, that are removed—

(I) to reduce hazardous fuels;

(II) to reduce or contain disease or insect infestation; or

(III) to restore forest health;

(ii) would not otherwise be used for higher-value products; and

(iii) are harvested from National Forest System land or public land (as defined in section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702))—

(I) where permitted by law; and

(II) in accordance with—

(aa) applicable land management plans; and

(bb) the requirements for old-growth maintenance, restoration, and management direction of paragraphs (2), (3), and (4) of subsection (e) and the requirements for large-tree retention of subsection (f) of section 102 of the Healthy Forests Restoration Act of 2003 (16 U.S.C. 6512); or

AMENDMENT NO. 1568, AS MODIFIED

At the appropriate place, insert the following:

SEC. _____. COORDINATION OF PLANNED REFINERY OUTAGES.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATOR.—The term ''Administrator'' means the Administrator of the Energy Information Administration.

(2) PLANNED REFINERY OUTAGE.—

(A) IN GENERAL.—The term ''planned refinery outage'' means a removal, scheduled before the date on which the removal occurs, of a refinery, or any unit of a refinery, from service for maintenance, repair, or modification.

(B) EXCLUSION.—The term ''planned refinery outage'' does not include any necessary and unplanned removal of a refinery, or any unit of a refinery, from service as a result of a component failure, safety hazard, emergency, or action reasonably anticipated to be necessary to prevent such events.

(3) REFINED PETROLEUM PRODUCT.—The term ''refined petroleum product'' means any gasoline, diesel fuel, fuel oil, lubricating oil, liquid petroleum gas, or other petroleum distillate that is produced through the refining or processing of crude oil or an oil derived from tar sands, shale, or coal.

(4) REFINERY.—The term ''refinery'' means a facility used in the production of a refined petroleum product through distillation, cracking, or any other process.

(5) SECRETARY.—The term ''Secretary'' means the Secretary of Energy.

(b) REVIEW AND ANALYSIS OF AVAILABLE INFORMATION.—The Administrator shall, on an ongoing basis—

(1) review information on planned refinery outages that is available from commercial reporting services;

(2) analyze that information to determine whether the scheduling of a planned refinery outage may nationally or regionally affect the price or supply of any refined petroleum product by—

(A) decreasing the production of the refined petroleum product; and

(B) causing or contributing to a retail or wholesale supply shortage or disruption;

(3) not less frequently than twice each year, submit to the Secretary a report describing the results of the review and analysis under paragraphs (1) and (2); and

(4) specifically alert the Secretary of any planned refinery outage that the Administrator determines may nationally or regionally affect the price or supply of a refined petroleum product.

(c) ACTION BY SECRETARY.—On a determination by the Secretary, based on a report or alert under paragraph (3) or (4) of subsection (b), that a planned refinery outage may affect the price or supply of a refined petroleum product, the Secretary shall make available to refinery operators information on planned refinery outages to encourage reductions of the quantity of refinery capacity that is out of service at any time.

(d) LIMITATION.—Nothing in this section shall alter any existing legal obligation or responsibility of a refinery operator, or create any legal right of action, nor shall this section authorize the Secretary—

(1) to prohibit a refinery operator from conducting a planned refinery outage; or

(2) to require a refinery operator to continue to operate a refinery.

AMENDMENT NO. 1569

(Purpose: To provide an alternate sulfur dioxide removal measurement for certain coal gasification project goals)

At the appropriate place, insert the following:

SEC. _____. TECHNICAL CRITERIA FOR CLEAN COAL POWER INITIATIVE.

Section 402(b)(1)(B)(ii) of the Energy Policy Act of 2005 (42 U.S.C. 15962(b)(1)(B)(ii)) is amended by striking subclause (I) and inserting the following:

''(I)(aa) to remove at least 99 percent of sulfur dioxide; or

''(bb) to emit not more than 0.04 pound SO_2 per million Btu, based on a 30-day average;''.

AMENDMENT NO. 1597, AS MODIFIED

On page 22, strike lines 1 through 17.

Beginning on page 56, line 17, strike through line 4 of page 59.

On page 277, between lines 5 and 6, insert the following:

SEC. ———. STUDY OF THE ADEQUACY OF TRANSPORTATION OF DOMESTICALLY-PRODUCED RENEWABLE FUEL BY RAILROADS AND OTHER MODES OF TRANSPORTATION.

(a) STUDY.—

(1) IN GENERAL.—The Secretary of Transportation and the Secretary of Energy shall jointly conduct a study of the adequacy of transportation of domestically-produced renewable fuels by railroad and other modes of transportation as designated by the Secretaries.

(2) COMPONENTS.—In conducting the study under paragraph (1), the Secretaries shall—

(A) consider the adequacy of existing railroad and other transportation infrastructure, equipment, service and capacity to move the necessary quantities of domestically-produced renewable fuel within the timeframes required by section 111;

(B)(i) consider the projected costs of moving the domestically-produced renewable fuel by railroad and other modes transportation; and

(ii) consider the impact of the projected costs on the marketability of the domestically-produced renewable fuel;

(C) identify current and potential impediments to the reliable transportation of adequate supplies of domestically-produced renewable fuel at reasonable prices, including practices currently utilized by domestic producers, shippers, and receivers of renewable fuels;

(D) consider whether inadequate competition exists within and between modes of transportation for the transportation of domestically-produced renewable fuel and, if such inadequate competition exists, whether such inadequate competition leads to an unfair price for the transportation of domestically-produced renewable fuel or unacceptable service for transportation of domestically-produced renewable fuel;

(E) consider whether Federal agencies have adequate legal authority to address instances of inadequate competition when inadequate competition is found to prevent domestic producers for renewable fuels from obtaining a fair and reasonable transportation price or acceptable service for the transportation of domestically-produced renewable fuels;

(F) consider whether Federal agencies have adequate legal authority to address railroad and transportation service problems that may be resulting in inadequate supplies of domestically-produced renewable fuel in any area of the United States;

(G) consider what transportation infrastructure capital expenditures may be necessary to ensure the reliable transportation of adequate supplies of domestically-produced renewable fuel at reasonable prices within the United States and which public and private entities should be responsible for making such expenditures; and

(K) provide recommendations on ways to facilitate the reliable transportation of adequate supplies of domestically-produced renewable fuel at reasonable prices.

(b) REPORT.—Not later than 180 days after the date of enactment of this Act, the Secretaries shall jointly submit to the Committee on Commerce, Science and Transportation, the Committee on Energy and Natural Resources, and the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure and the Committee on Energy and Commerce of the House of Representatives a report that describes the results of the study conducted under subsection (a).

AMENDMENT NO. 1624

(Purpose: To expand the scope of the applied research program on energy storage systems to include flow batteries)

On page 127, line 5, insert ''(including flow batteries)'' after ''batteries''.

AMENDMENT NO. 1764, AS MODIFIED

At the end of title II, add the following:

Subtitle G—Marine and Hydrokinetic Renewable Energy Promotion

SEC. 281. DEFINITION OF MARINE AND HYDROKINETIC RENEWABLE ENERGY.

(a) IN GENERAL.—In this subtitle, the term ''marine and hydrokinetic renewable energy'' means electrical energy from—

(1) waves, tides, and currents in oceans, estuaries, and tidal areas;

(2) free flowing water in rivers, lakes, and streams;

(3) free flowing water in man-made channels, including projects that utilize non-mechanical structures to accelerate the flow of water for electric power production purposes; and

(4) differentials in ocean temperature (ocean thermal energy conversion).

(b) EXCLUSION.—Except as provided in subsection (a)(3), the term ''marine and hydrokinetic renewable energy'' does not include energy from any source that uses a dam, diversionary structure, or impoundment for electric power purposes.

SEC. 282. RESEARCH AND DEVELOPMENT.

(a) PROGRAM.—The Secretary, in consultation with the Secretary of Commerce and the Secretary of the Interior, shall establish a program of marine and hydrokinetic renewable energy research, including—

(1) developing and demonstrating marine and hydrokinetic renewable energy technologies;

(2) reducing the manufacturing and operation costs of marine and hydrokinetic renewable energy technologies;

(3) increasing the reliability and survivability of marine and hydrokinetic renewable energy facilities;

(4) integrating marine and hydrokinetic renewable energy into electric grids;

(5) identifying opportunities for cross fertilization and development of economies of scale between offshore wind and marine and hydrokinetic renewable energy sources;

(6) identifying, in conjunction with the Secretary of Commerce and the Secretary of the Interior, the potential environmental impacts of marine and hydrokinetic renewable energy technologies and measures to minimize or prevent adverse impacts, and technologies and other means available for monitoring and determining environmental impacts;

(7) identifying, in conjunction with the Commandant of the United States Coast Guard, the potential navigational impacts of marine and hydrokinetic renewable energy technologies and measures to minimize or prevent adverse impacts;

(8) standards development, demonstration, and technology transfer for advanced systems engineering and system integration methods to identify critical interfaces; and

(9) providing public information and opportunity for public comment concerning all technologies.

(b) REPORT.—Not later than 18 months after the date of enactment of this Act, the Secretary, in consultation with the Secretary of Commerce and the Secretary of the Interior, shall provide to the appropriate committees of Congress a report that addresses—

(1) the potential environmental impacts of hydrokinetic renewable energy technologies in free-flowing water in rivers, lakes, and streams;

(2) the means by which to minimize or prevent any adverse environmental impacts;

(3) the potential role of monitoring and adaptive management in addressing any adverse environmental impacts; and

(4) the necessary components of such an adaptive management program.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this section $50,000,000 for each of the fiscal years 2008 through 2017.

SEC. 283. NATIONAL OCEAN ENERGY RESEARCH CENTERS.

(a) IN GENERAL.—Subject to the availability of appropriations under subsection (e), the Secretary shall establish not less than 1, and not more than 6, national ocean energy research centers at institutions of higher education for the purpose of conducting research, development, demonstration, and testing of ocean energy technologies and associated equipment.

(b) EVALUATIONS.—Each Center shall (in consultation with developers, utilities, and manufacturers) conduct evaluations of technologies and equipment described in subsection (a).

(c) LOCATION.—In establishing centers under this section, the Secretary shall locate the centers in coastal regions of the United State in a manner that, to the maximum extent practicable, is geographically dispersed.

(d) COORDINATION.—Prior to carrying out any activity under this section in waters subject to the juridiction of the United States, the Secretary shall identify, in conjunction with the Secretary of Commerce and the Secretary of the Interior, the potential environmental impacts of such activity and measures to minimize or prevent adverse impacts.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this section.

AMENDMENT NO. 1799

(Purpose: To reduce emissions of carbon dioxide from the Capitol power plant)

On page 192, after line 21, add the following:

SEC. 305. CAPITOL POWER PLANT CARBON DIOXIDE EMISSIONS DEMONSTRATION PROGRAM.

The first section of the Act of March 4, 1911 (2 U.S.C. 2162; 36 Stat. 1414, chapter 285), is amended in the seventh undesignated paragraph (relating to the Capitol power plant), under the heading ''PUBLIC BUILDINGS'', under the heading ''UNDER THE DEPARTMENT OF THE INTERIOR''—

(1) by striking ''ninety thousand dollars:'' and inserting ''$90,000.''; and

(2) by striking ''*Provided*, That hereafter the'' and all that follows through the end of the proviso and inserting the following:

''(a) DESIGNATION.—The heating, lighting, and power plant constructed under the terms of the Act approved April 28, 1904 (33 Stat. 479, chapter 1762), shall be known as the 'Capitol power plant', and all vacancies occurring in the force operating that plant and the substations in connection with the plant shall be filled by the Architect of the Capitol, with the approval of the commission in control of the House Office Building appointed under the first section of the Act of March 4, 1907 (2 U.S.C. 2001).

''(b) CAPITOL POWER PLANT CARBON DIOXIDE EMISSIONS DEMONSTRATION PROGRAM.—

''(1) DEFINITIONS.—In this subsection:

''(A) ADMINISTRATOR.—The term 'Administrator' means the Administrator of the Environmental Protection Agency.

''(B) CARBON DIOXIDE ENERGY EFFICIENCY.—The term 'carbon dioxide energy efficiency', with respect to a project, means the quantity of electricity used to power equipment for carbon dioxide capture and storage or use.

''(C) PROGRAM.—The term 'program' means the competitive grant demonstration program established under paragraph (2)(B).

''(2) ESTABLISHMENT OF PROGRAM.—

''(A) FEASIBILITY STUDY.—Not later than 180 days after the date of enactment of this section, the Architect of the Capitol, in cooperation with the Administrator, shall complete a feasibility study evaluating the available methods to proceed with the project and program established under this section, taking into consideration—

''(i) the availability of carbon capture technologies;

''(ii) energy conservation and carbon reduction strategies; and

''(iii) security of operations at the Capitol power plant.

''(B) COMPETITIVE GRANT PROGRAM.—The Architect of the Capitol, in cooperation with the Administrator, shall establish a competitive grant demonstration program under which the Architect of the Capitol shall, subject to the availability of appropriations, provide to eligible entities, as determined by the Architect of the Capitol, in cooperation with the Administrator, grants to carry out projects to demonstrate, during the 2-year period beginning on the date of enactment of this subsection, the capture and storage or use of carbon dioxide emitted from the Capitol power plant as a result of burning coal.

''(3) REQUIREMENTS.—

''(A) PROVISION OF GRANTS.—

''(i) IN GENERAL.—The Architect of the Capitol, in cooperation with the Administrator, shall provide the grants under the program on a competitive basis.

''(ii) FACTORS FOR CONSIDERATION.—In providing grants under the program, the Architect of the Capitol, in cooperation with the Administrator, shall take into consideration—

''(I) the practicability of conversion by the proposed project of carbon dioxide into useful products, such as transportation fuel;

''(II) the carbon dioxide energy efficiency of the proposed project; and

''(III) whether the proposed project is able to reduce more than 1 air pollutant regulated under this Act.

''(B) REQUIREMENTS FOR ENTITIES.—An entity that receives a grant under the program shall—

''(i) use to carry out the project of the entity a technology designed to reduce or eliminate emission of carbon dioxide that is in existence on the date of enactment of this subsection that has been used—

''(I) by not less than 3 other facilities (including a coal-fired power plant); and

''(II) on a scale of not less than 5 times the size of the proposed project of the entity at the Capitol power plant; and

''(ii) carry out the project of the entity in consultation with, and with the concurrence of, the Architect of the Capitol and the Administrator.

''(C) CONSISTENCY WITH CAPITOL POWER PLANT MODIFICATIONS.—The Architect of the Capitol may require changes to a project under the program that are necessary to carry out any modifications to be made to the Capitol power plant.

''(4) INCENTIVE.—In addition to the grant under this subsection, the Architect of the Capitol may provide to an entity that receives such a grant an incentive award in an amount equal to not more than $50,000, of which—

''(A) $15,000 shall be provided after the project of the entity has sustained operation for a period of 100 days, as determined by the Architect of the Capitol;

''(B) $15,000 shall be provided after the project of the entity has sustained operation for a period of 200 days, as determined by the Architect of the Capitol; and

''(C) $20,000 shall be provided after the project of the entity has sustained operation

for a period of 300 days, as determined by the Architect of the Capitol.

''(5) TERMINATION.—The program shall terminate on the date that is 2 years after the date of enactment of this subsection.

''(6) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the program $3,000,000.''.

AMENDMENT NO. 1602

(Purpose: To provide transitional assistance for farmers who plant dedicated energy crops for a local cellulosic refinery)

At the appropriate place, insert the following:

SEC. _____. TRANSITIONAL ASSISTANCE FOR FARMERS WHO PLANT DEDICATED ENERGY CROPS FOR A LOCAL CELLULOSIC REFINERY.

(a) DEFINITIONS.—In this section:

(1) CELLULOSIC CROP.—The term ''cellulosic crop'' means a tree or grass that is grown specifically—

(A) to provide raw materials (including feedstocks) for conversion to liquid transportation fuels or chemicals through biochemical or thermochemical processes; or

(B) for energy generation through combustion, pyrolysis, or cofiring.

(2) CELLULOSIC REFINER.—The term ''cellulosic refiner'' means the owner or operator of a cellulosic refinery.

(3) CELLULOSIC REFINERY.—The term ''cellulosic refinery'' means a refinery that processes a cellulosic crop.

(4) QUALIFIED CELLULOSIC CROP.—The term ''qualified cellulosic crop'' means, with respect to an agricultural producer, a cellulosic crop that is—

(A) the subject of a contract or memorandum of understanding between the producer and a cellulosic refiner, under which the producer is obligated to sell the crop to the cellulosic refiner by a certain date; and

(B) produced not more than 70 miles from a cellulosic refinery owned or operated by the cellulosic refiner.

(5) SECRETARY.—The term ''Secretary'' means the Secretary of Agriculture.

(b) TRANSITIONAL ASSISTANCE PAYMENTS.—The Secretary shall make transitional assistance payments to an agricultural producer during the first year in which the producer devotes land to the production of a qualified cellulosic crop.

(c) AMOUNT OF PAYMENT.—

(1) DETERMINED BY FORMULA.—Subject to paragraph (2), the Secretary shall devise a formula to be used to calculate the amount of a payment to be made to an agricultural producer under this section, based on the opportunity cost (as determined in accordance with such standard as the Secretary may establish, taking into consideration land rental rates and other applicable costs) incurred by the producer during the first year in which the producer devotes land to the production of the qualified cellulosic crop.

(2) LIMITATION.—The total of the amount paid to a producer under this section shall not exceed an amount equal to 25 percent of the amounts made available under subsection (e) for the applicable fiscal year.

(d) REGULATIONS.—The Secretary shall promulgate such regulations as the Secretary determines to be necessary to carry out this section.

(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $4,088,000 for each of fiscal years 2008 through 2012, to remain available until expended.

AMENDMENT NO. 1660

(Purpose: To modify sections to provide for the use of geothermal heat pumps)

Strike sections 402 through 404 and insert the following:

SEC. 402. COST-EFFECTIVE AND GEOTHERMAL HEAT PUMP TECHNOLOGY ACCELERATION PROGRAM.

(a) DEFINITION OF ADMINISTRATOR.—In this section, the term ''Administrator'' means the Administrator of General Services.

(b) ESTABLISHMENT.—

(1) IN GENERAL.—The Administrator shall establish a program to accelerate the use of more cost-effective technologies and practices and geothermal heat pumps at GSA facilities.

(2) REQUIREMENTS.—The program established under this subsection shall—

(A) ensure centralized responsibility for the coordination of cost reduction-related and geothermal heat pump-related recommendations, practices, and activities of all relevant Federal agencies;

(B) provide technical assistance and operational guidance to applicable tenants to achieve the goal identified in subsection (c)(2)(B)(ii); and

(C) establish methods to track the success of Federal departments and agencies with respect to that goal.

(c) ACCELERATED USE OF TECHNOLOGIES.—

(1) REVIEW.—

(A) IN GENERAL.—As part of the program under this section, not later than 90 days after the date of enactment of this Act, the Administrator shall conduct a review of—

(i) current use of cost-effective lighting technologies and geothermal heat pumps in GSA facilities; and

(ii) the availability to managers of GSA facilities of cost-effective lighting technologies and geothermal heat pumps.

(B) REQUIREMENTS.—The review under subparagraph (A) shall—

(i) examine the use of cost-effective lighting technologies, geothermal heat pumps, and other cost-effective technologies and practices by Federal agencies in GSA facilities; and

(ii) as prepared in consultation with the Administrator of the Environmental Protection Agency, identify cost-effective lighting technology and geothermal heat pump technology standards that could be used for all types of GSA facilities.

(2) REPLACEMENT.—

(A) IN GENERAL.—As part of the program under this section, not later than 180 days after the date of enactment of this Act, the Administrator shall establish, using available appropriations, a cost-effective lighting technology and geothermal heat pump technology acceleration program to achieve maximum feasible replacement of existing lighting, heating, cooling technologies with cost-effective lighting technologies and geothermal heat pump technologies in each GSA facility.

(B) ACCELERATION PLAN TIMETABLE.—

(i) IN GENERAL.—To implement the program established under subparagraph (A), not later than 1 year after the date of enactment of this Act, the Administrator shall establish a timetable, including milestones for specific activities needed to replace existing lighting, heating, cooling technologies with cost-effective lighting technologies and geothermal heat pump technologies, to the maximum extent feasible (including at the maximum rate feasible), at each GSA facility.

(ii) GOAL.—The goal of the timetable under clause (i) shall be to complete, using available appropriations, maximum feasible replacement of existing lighting, heating, and cooling technologies with cost-effective lighting technologies and geothermal heat pump technologies by not later than the date that is 5 years after the date of enactment of this Act.

(d) GSA FACILITY TECHNOLOGIES AND PRACTICES.—Not later than 180 days after the date of enactment of this Act, and annually thereafter, the Administrator shall—

(1) ensure that a manager responsible for accelerating the use of cost-effective technologies and practices and geothermal heat pump technologies is designated for each GSA facility; and

(2) submit to Congress a plan, to be implemented to the maximum extent feasible (including at the maximum rate feasible) using available appropriations, by not later than the date that is 5 years after the date of enactment of this Act, that—

(A) with respect to cost-effective technologies and practices—

(i) identifies the specific activities needed to achieve a 20-percent reduction in operational costs through the application of cost-effective technologies and practices from 2003 levels at GSA facilities by not later than 5 years after the date of enactment of this Act;

(ii) describes activities required and carried out to estimate the funds necessary to achieve the reduction described in clause (i);

(B) includes an estimate of the funds necessary to carry out this section;

(C) describes the status of the implementation of cost-effective technologies and practices and geothermal heat pump technologies and practices at GSA facilities, including—

(i) the extent to which programs, including the program established under subsection (b), are being carried out in accordance with this subtitle; and

(ii) the status of funding requests and appropriations for those programs;

(D) identifies within the planning, budgeting, and construction processes, all types of GSA facility-related procedures that inhibit new and existing GSA facilities from implementing cost-effective technologies or geothermal heat pump technologies;

(E) recommends language for uniform standards for use by Federal agencies in implementing cost-effective technologies and practices and geothermal heat pump technologies and practices;

(F) in coordination with the Office of Management and Budget, reviews the budget process for capital programs with respect to alternatives for—

(i) permitting Federal agencies to retain all identified savings accrued as a result of the use of cost-effective technologies and geothermal heat pump technologies; and

(ii) identifying short- and long-term cost savings that accrue from the use of cost-effective technologies and practices and geothermal heat pump technologies and practices;

(G)(i) with respect to geothermal heat pump technologies, achieves substantial operational cost savings through the application of the technologies; and

(ii) with respect to cost-effective technologies and practices, achieves cost savings through the application of cost-effective technologies and practices sufficient to pay the incremental additional costs of installing the cost-effective technologies and practices by not later than the date that is 5 years after the date of installation; and

(H) includes recommendations to address each of the matters, and a plan for implementation of each recommendation, described in subparagraphs (A) through (G).

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this section, to remain available until expended.

SEC. 403. ENVIRONMENTAL PROTECTION AGENCY DEMONSTRATION GRANT PROGRAM FOR LOCAL GOVERNMENTS.

(a) GRANT PROGRAM.—

(1) IN GENERAL.—The Administrator of the Environmental Protection Agency (referred to in this section as the ''Administrator'') shall establish a demonstration program under which the Administrator shall provide competitive grants to assist local governments (such as municipalities and counties), with respect to local government buildings—

(A) to deploy cost-effective technologies and practices; and

(B) to achieve operational cost savings, through the application of cost-effective technologies and practices, as verified by the Administrator.

(2) COST SHARING.—

(A) IN GENERAL.—The Federal share of the cost of an activity carried out using a grant provided under this section shall be 40 percent.

(B) WAIVER OF NON-FEDERAL SHARE.—The Administrator may waive up to 100 percent of the local share of the cost of any grant under this section should the Administrator determine that the community is economically distressed, pursuant to objective economic criteria established by the Administrator in published guidelines.

(3) MAXIMUM AMOUNT.—The amount of a grant provided under this subsection shall not exceed $1,000,000.

(b) GUIDELINES.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Administrator shall issue guidelines to implement the grant program established under subsection (a).

(2) REQUIREMENTS.—The guidelines under paragraph (1) shall establish—

(A) standards for monitoring and verification of operational cost savings through the application of cost-effective technologies and practices reported by grantees under this section;

(B) standards for grantees to implement training programs, and to provide technical assistance and education, relating to the retrofit of buildings using cost-effective technologies and practices; and

(C) a requirement that each local government that receives a grant under this section shall achieve facility-wide cost savings, through renovation of existing local government buildings using cost-effective technologies and practices, of at least 40 percent as compared to the baseline operational costs of the buildings before the renovation (as calculated assuming a 3-year, weather-normalized average).

(c) COMPLIANCE WITH STATE AND LOCAL LAW.—Nothing in this section or any program carried out using a grant provided under this section supersedes or otherwise affects any State or local law, to the extent that the State or local law contains a requirement that is more stringent than the relevant requirement of this section.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $20,000,000 for each of fiscal years 2007 through 2012.

(e) REPORTS.—

(1) IN GENERAL.—The Administrator shall provide annual reports to Congress on cost savings achieved and actions taken and recommendations made under this section, and any recommendations for further action.

(2) FINAL REPORT.—The Administrator shall issue a final report at the conclusion of the program, including findings, a summary of total cost savings achieved, and recommendations for further action.

(f) TERMINATION.—The program under this section shall terminate on September 30, 2012.

SEC. 404. DEFINITIONS.

In this subtitle:

(1) COST-EFFECTIVE LIGHTING TECHNOLOGY.—

(A) IN GENERAL.—The term ''cost-effective lighting technology'' means a lighting technology that—

(i) will result in substantial operational cost savings by ensuring an installed consumption of not more than 1 watt per square foot; or

(ii) is contained in a list under—

(I) section 553 of Public Law 95–619 (42 U.S.C. 8259b); and

(II) Federal acquisition regulation 23–203.

(B) INCLUSIONS.—The term ''cost-effective lighting technology'' includes—

(i) lamps;

(ii) ballasts;

(iii) luminaires;

(iv) lighting controls;

(v) daylighting; and

(vi) early use of other highly cost-effective lighting technologies.

(2) COST-EFFECTIVE TECHNOLOGIES AND PRACTICES.—The term ''cost-effective technologies and practices'' means a technology or practice that—

(A) will result in substantial operational cost savings by reducing utility costs; and

(B) complies with the provisions of section 553 of Public Law 95–619 (42 U.S.C. 8259b) and Federal acquisition regulation 23–203.

(3) OPERATIONAL COST SAVINGS.—

(A) IN GENERAL.—The term ''operational cost savings'' means a reduction in end-use operational costs through the application of cost-effective technologies and practices or geothermal heat pumps, including a reduction in electricity consumption relative to consumption by the same customer or at the same facility in a given year, as defined in guidelines promulgated by the Administrator pursuant to section 403(b), that achieves cost savings sufficient to pay the incremental additional costs of using cost-effective technologies and practices or geothermal heat pumps by not later than—

(i) for cost-effective technologies and practices, the date that is 5 years after the date of installation; and

(ii) for geothermal heat pumps, as soon as practical after the date of installation of the applicable geothermal heat pump.

(B) INCLUSIONS.—The term ''operational cost savings'' includes savings achieved at a facility as a result of—

(i) the installation or use of cost-effective technologies and practices; or

(ii) the planting of vegetation that shades the facility and reduces the heating, cooling, or lighting needs of the facility.

(C) EXCLUSION.—The term ''operational cost savings'' does not include savings from measures that would likely be adopted in the absence of cost-effective technology and practices programs, as determined by the Administrator.

(4) GEOTHERMAL HEAT PUMP.—The term ''geothermal heat pump'' means any heating or air conditioning technology that—

(A) uses the ground or ground water as a thermal energy source to heat, or as a thermal energy sink to cool, a building; and

(B) meets the requirements of the Energy Star program of the Environmental Protection Agency applicable to geothermal heat pumps on the date of purchase of the technology.

(5) GSA FACILITY.—

(A) IN GENERAL.—The term ''GSA facility'' means any building, structure, or facility, in whole or in part (including the associated support systems of the building, structure, or facility) that—

(i) is constructed (including facilities constructed for lease), renovated, or purchased, in whole or in part, by the Administrator for use by the Federal Government; or

(ii) is leased, in whole or in part, by the Administrator for use by the Federal Government—

(I) except as provided in subclause (II), for a term of not less than 5 years; or

(II) for a term of less than 5 years, if the Administrator determines that use of cost-effective technologies and practices would result in the payback of expenses.

(B) INCLUSION.—The term ''GSA facility'' includes any group of buildings, structures, or facilities described in subparagraph (A) (including the associated energy-consuming support systems of the buildings, structures, and facilities).

(C) EXEMPTION.—The Administrator may exempt from the definition of ''GSA facility'' under this paragraph a building, structure, or facility that meets the requirements of section 543(c) of Public Law 95–619 (42 U.S.C. 8253(c)).

AMENDMENT NO. 1513, AS MODIFIED

At the appropriate place, insert the following:

SEC. _____. ADMINISTRATION.

Section 106 of the Alaska Natural Gas Pipeline Act (15 U.S.C. 720d) is amended by adding at the end the following:

''(h) ADMINISTRATION.—

''(1) PERSONNEL APPOINTMENTS.—

''(A) IN GENERAL.—The Federal Coordinator may appoint and terminate such personnel as the Federal Coordinator determines to be appropriate.

''(B) AUTHORITY OF FEDERAL COORDINATOR.—Personnel appointed by the Federal Coordinator under subparagraph (A) shall be appointed without regard to the provisions of title 5, United States Code, governing appointments in the competitive service.

''(2) COMPENSATION.—

''(A) IN GENERAL.—Subject to subparagraph (B), personnel appointed by the Federal Coordinator under paragraph (1)(A) shall be paid without regard to the provisions of chapter 51 and subchapter III of chapter 53 of title 5, United States Code (relating to classification and General Schedule pay rates).

''(B) MAXIMUM LEVEL OF COMPENSATION.—The rate of pay for personnel appointed by the Federal Coordinator under paragraph (1)(A) shall not exceed the maximum level of rate payable for level III of the Executive Schedule.

''(C) APPLICABILITY OF SECTION 5941.—Section 5941 of title 5, United States Code, shall apply to personnel appointed by the Federal Coordinator under paragraph (1)(A).

''(3) TEMPORARY SERVICES.—

''(A) IN GENERAL.—The Federal Coordinator may procure temporary and intermittent services in accordance with section 3109(b) of title 5, United States Code.

''(B) MAXIMUM LEVEL OF COMPENSATION.—The level of compensation of an individual employed on a temporary or intermittent basis under subparagraph (A) shall not exceed the maximum level of rate payable for level III of the Executive Schedule.

''(4) FEES, CHARGES, AND COMMISSIONS.—

''(A) IN GENERAL.—The Federal Coordinator shall have the authority to establish, change, and abolish reasonable filing and service fees, charges, and commissions, require deposits of payments, and provide refunds as provided to the Secretary of the Interior in section 304 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1734), except that the authority shall be with respect to the duties of the Federal Coordinator, as delineated in the Alaska Natural Gas Pipeline Act (15 U.S.C. 720 et seq.), as amended.

''(B) AUTHORITY OF SECRETARY OF THE INTERIOR.—Subparagraph (A) shall not affect the authority of the Secretary of the Interior to establish, change, and abolish reasonable filing and service fees, charges, and commissions, require deposits of payments, and provide refunds under section 304 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1734).

''(C) USE OF FUNDS.—The Federal Coordinator is authorized to use, without further appropriation, amounts collected under subparagraph (A) to carry out this section.''.

AMENDMENT NO. 1683

(Purpose: To implement the Convention on Supplementary Compensation for Nuclear Damage)

At the end of title VII, add the following:

SEC. 7___. CONVENTION ON SUPPLEMENTARY COMPENSATION FOR NUCLEAR DAMAGE CONTINGENT COST ALLOCATION.

(a) FINDINGS AND PURPOSE.—

(1) FINDINGS.—Congress finds that—

(A) section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) (commonly known as the ''Price-Anderson Act'')—

(i) provides a predictable legal framework necessary for nuclear projects; and

(ii) ensures prompt and equitable compensation in the event of a nuclear incident in the United States;

(B) section 170 of that Act, in effect, provides operators of nuclear powerplants with insurance for damage arising out of a nuclear incident and funds the insurance primarily through the assessment of a retrospective premium from each operator after the occurrence of a nuclear incident;

(C) the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997, will establish a global system—

(i) to provide a predictable legal framework necessary for nuclear energy projects; and

(ii) to ensure prompt and equitable compensation in the event of a nuclear incident;

(D) the Convention benefits United States nuclear suppliers that face potentially unlimited liability for a nuclear incidents outside the coverage of section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) by replacing a potentially open-ended liability with a predictable liability regime that, in effect, provides nuclear suppliers with insurance for damage arising out of such an incident;

(E) the Convention also benefits United States nuclear facility operators that may be publicly liable for a Price-Anderson incident by providing an additional early source for a Price-Anderson incident by providing an additional early source of funds to compensate damage arising out of the Price-Anderson incident;

(F) the combined operation of the Convention, section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210), and this section will augment the quantity of assured funds available for victims in a wider variety of nuclear incidents while reducing the potential liability of United States suppliers without increasing potential costs to United States operators;

(G) the cost of those benefits is the obligation of the United States to contribute to the supplementary compensation fund established by the Convention;

(H) any such contribution should be funded in a manner that neither upsets settled expectations based on the liability regime established under section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) nor shifts to Federal taxpayers liability risks for nuclear incidents at foreign installations;

(I) with respect to a Price-Anderson incident, funds already available under section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) should be used; and

(J) with respect to a nuclear incident outside the United States not covered by section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210), a retrospective premium should be prorated among nuclear suppliers relieved from potential liability for which insurance is not available.

(2) PURPOSE.—The purpose of this section is to allocate the contingent costs associated with participation by the United States in the international nuclear liability compensation system established by the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997—

(A) with respect to a Price-Anderson incident, by using funds made available under section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) to cover the contingent costs in a manner that neither increases the burdens nor decreases the benefits under section 170 of that Act; and

(B) with respect to a covered incident outside the United States that is not a Price-Anderson incident, by allocating the contingent costs equitably, on the basis of risk, among the class of nuclear suppliers relieved by the Convention from the risk of potential liability resulting from any covered incident outside the United States.

(b) DEFINITIONS.—In this section:

(1) COMMISSION.—The term ''Commission'' means the Nuclear Regulatory Commission.

(2) CONTINGENT COST.—The term ''contingent cost'' means the cost to the United States in the event of a covered incident the amount of which is equal to the amount of funds the United States is obligated to make available under paragraph 1(b) of Article III of the Convention.

(3) CONVENTION.—The term ''Convention'' means the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997.

(4) COVERED INCIDENT.—The term ''covered incident'' means a nuclear incident the occurrence of which results in a request for funds pursuant to Article VII of the Convention.

(5) COVERED INSTALLATION.—The term ''covered installation'' means a nuclear installation at which the occurrence of a nuclear incident could result in a request for funds under Article VII of the Convention.

(6) COVERED PERSON.—

(A) IN GENERAL.—The term ''covered person'' means—

(i) a United States person; and

(ii) an individual or entity (including an agency or instrumentality of a foreign country) that—

(I) is located in the United States; or

(II) carries out an activity in the United States.

(B) EXCLUSIONS.—The term ''covered person'' does not include—

(i) the United States; or

(ii) any agency or instrumentality of the United States.

(7) NUCLEAR SUPPLIER.—The term ''nuclear supplier'' means a covered person (or a successor in interest of a covered person) that—

(A) supplies facilities, equipment, fuel, services, or technology pertaining to the design, construction, operation, or decommissioning of a covered installation; or

(B) transports nuclear materials that could result in a covered incident.

(8) PRICE-ANDERSON INCIDENT.—The term ''Price-Anderson incident'' means a covered incident for which section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) would make funds available to compensate for public liability (as defined in section 11 of that Act (42 U.S.C. 2014)).

(9) SECRETARY.—The term ''Secretary'' means the Secretary of Energy.

(10) UNITED STATES.—

(A) IN GENERAL.—The term ''United States'' has the meaning given the term in section 11 of the Atomic Energy Act of 1954 (42 U.S.C. 2014).

(B) INCLUSIONS.—The term ''United States'' includes—

(i) the Commonwealth of Puerto Rico;

(ii) any other territory or possession of the United States;

(iii) the Canal Zone; and

(iv) the waters of the United States territorial sea under Presidential Proclamation Number 5928, dated December 27, 1988 (43 U.S.C. 1331 note).

(11) UNITED STATES PERSON.—The term ''United States person'' means—

(A) any individual who is a resident, national, or citizen of the United States (other than an individual residing outside of the United States and employed by a person who is not a United States person); and

(B) any corporation, partnership, association, joint stock company, business trust, unincorporated organization, or sole proprietorship that is organized under the laws of the United States.

(c) USE OF PRICE-ANDERSON FUNDS.—

(1) IN GENERAL.—Funds made available under section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) shall be used to cover the contingent cost resulting from any Price-Anderson incident.

(2) EFFECT.—The use of funds pursuant to paragraph (1) shall not reduce the limitation on public liability established under section 170 e. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(e)).

(d) EFFECT ON AMOUNT OF PUBLIC LIABILITY.—

(1) IN GENERAL.—Funds made available to the United States under Article VII of the Convention with respect to a Price-Anderson incident shall be used to satisfy public liability resulting from the Price-Anderson incident.

(2) AMOUNT.—The amount of public liability allowable under section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) relating to a Price-Anderson incident under paragraph (1) shall be increased by an amount equal to the difference between—

(A) the amount of funds made available for the Price-Anderson incident under Article VII of the Convention; and

(B) the amount of funds used under subsection (c) to cover the contingent cost resulting from the Price-Anderson incident.

(e) RETROSPECTIVE RISK POOLING PROGRAM.—

(1) IN GENERAL.—Except as provided in paragraph (2), each nuclear supplier shall

participate in a retrospective risk pooling program in accordance with this section to cover the contingent cost resulting from a covered incident outside the United States that is not a Price-Anderson incident.

(2) DEFERRED PAYMENT.—

(A) IN GENERAL.—The obligation of a nuclear supplier to participate in the retrospective risk pooling program shall be deferred until the United States is called on to provide funds pursuant to Article VII of the Convention with respect to a covered incident that is not a Price-Anderson incident.

(B) AMOUNT OF DEFERRED PAYMENT.—The amount of a deferred payment of a nuclear supplier under subparagraph (A) shall be based on the risk-informed assessment formula determined under subparagraph (C).

(C) RISK-INFORMED ASSESSMENT FORMULA.—

(i) IN GENERAL.—Not later than 3 years after the date of enactment of this Act, and every 5 years thereafter, the Secretary shall, by regulation, determine the risk-informed assessment formula for the allocation among nuclear suppliers of the contingent cost resulting from a covered incident that is not a Price-Anderson incident, taking into account risk factors such as—

(I) the nature and intended purpose of the goods and services supplied by each nuclear supplier to each covered installation outside the United States;

(II) the quantity of the goods and services supplied by each nuclear supplier to each covered installation outside the United States;

(III) the hazards associated with the supplied goods and services if the goods and services fail to achieve the intended purposes;

(IV) the hazards associated with the covered installation outside the United States to which the goods and services are supplied;

(V) the legal, regulatory, and financial infrastructure associated with the covered installation outside the United States to which the goods and services are supplied; and

(VI) the hazards associated with particular forms of transportation.

(ii) FACTORS FOR CONSIDERATION.—In determining the formula, the Secretary may—

(I) exclude—

(aa) goods and services with negligible risk;

(bb) classes of goods and services not intended specifically for use in a nuclear installation;

(cc) a nuclear supplier with a de minimis share of the contingent cost; and

(dd) a nuclear supplier no longer in existence for which there is no identifiable successor; and

(II) establish the period on which the risk assessment is based.

(iii) APPLICATION.—In applying the formula, the Secretary shall not consider any covered installation or transportation for which funds would be available under section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210).

(iv) REPORT.—Not later than 5 years after the date of enactment of this Act and every 5 years thereafter, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Energy and Commerce of the House of Representatives a report on whether there is a need for continuation or amendment of this section, taking into account the effects of the implementation of the Convention on the United States nuclear industry and suppliers.

(f) REPORTING.—

(1) COLLECTION OF INFORMATION.—

(A) IN GENERAL.—The Secretary may collect information necessary for developing and implementing the formula for calculating the deferred payment of a nuclear supplier under subsection (e)(2).

(B) PROVISION OF INFORMATION.—Each nuclear supplier and other appropriate persons shall make available to the Secretary such information, reports, records, documents, and other data as the Secretary determines, by regulation, to be necessary or appropriate to develop and implement the formula under subsection (e)(2)(C).

(2) PRIVATE INSURANCE.—The Secretary shall make available to nuclear suppliers, and insurers of nuclear suppliers, information to support the voluntary establishment and maintenance of private insurance against any risk for which nuclear suppliers may be required to pay deferred payments under this section.

(g) EFFECT ON LIABILITY.—Nothing in any other law (including regulations) limits liability for a covered incident to an amount equal to less than the amount prescribed in paragraph 1(a) of Article IV of the Convention, unless the law—

(1) specifically refers to this section; and

(2) explicitly repeals, alters, amends, modifies, impairs, displaces, or supersedes the effect of this subsection.

(h) PAYMENTS TO AND BY THE UNITED STATES.—

(1) ACTION BY NUCLEAR SUPPLIERS.—

(A) NOTIFICATION.—In the case of a request for funds under Article VII of the Convention resulting from a covered incident that is not a Price-Anderson incident, the Secretary shall notify each nuclear supplier of the amount of the deferred payment required to be made by the nuclear supplier.

(B) PAYMENTS.—

(i) IN GENERAL.—Except as provided in clause (ii), not later than 60 days after receipt of a notification under subparagraph (A), a nuclear supplier shall pay to the general fund of the Treasury the deferred payment of the nuclear supplier required under subparagraph (A).

(ii) ANNUAL PAYMENTS.—A nuclear supplier may elect to prorate payment of the deferred payment required under subparagraph (A) in 5 equal annual payments (including interest on the unpaid balance at the prime rate prevailing at the time the first payment is due).

(C) VOUCHERS.—A nuclear supplier shall submit payment certification vouchers to the Secretary of the Treasury in accordance with section 3325 of title 31, United States Code.

(2) USE OF FUNDS.—

(A) IN GENERAL.—Amounts paid into the Treasury under paragraph (1) shall be available to the Secretary of the Treasury, without further appropriation and without fiscal year limitation, for the purpose of making the contributions of public funds required to be made by the United States under the Convention.

(B) ACTION BY SECRETARY OF TREASURY.—The Secretary of the Treasury shall pay the contribution required under the Convention to the court of competent jurisdiction under Article XIII of the Convention with respect to the applicable covered incident.

(3) FAILURE TO PAY.—If a nuclear supplier fails to make a payment required under this subsection, the Secretary may take appropriate action to recover from the nuclear supplier—

(A) the amount of the payment due from the nuclear supplier;

(B) any applicable interest on the payment; and

(C) a penalty of not more than twice the amount of the deferred payment due from the nuclear supplier.

(i) LIMITATION ON JUDICIAL REVIEW; CAUSE OF ACTION.—

(1) LIMITATION ON JUDICIAL REVIEW.—

(A) IN GENERAL.—In any civil action arising under the Convention over which Article XIII of the Convention grants jurisdiction to the courts of the United States, any appeal or review by writ of mandamus or otherwise with respect to a nuclear incident that is not a Price-Anderson incident shall be in accordance with chapter 83 of title 28, United States Code, except that the appeal or review shall occur in the United States Court of Appeals for the District of Columbia Circuit.

(B) SUPREME COURT JURISDICTION.—Nothing in this paragraph affects the jurisdiction of the Supreme Court of the United States under chapter 81 of title 28, United States Code.

(2) CAUSE OF ACTION.—

(A) IN GENERAL.—Subject to subparagraph (B), in any civil action arising under the Convention over which Article XIII of the Convention grants jurisdiction to the courts of the United States, in addition to any other cause of action that may exist, an individual or entity shall have a cause of action against the operator to recover for nuclear damage suffered by the individual or entity.

(B) REQUIREMENT.—Subparagraph (A) shall apply only if the individual or entity seeks a remedy for nuclear damage (as defined in Article I of the Convention) that was caused by a nuclear incident (as defined in Article I of the Convention) that is not a Price-Anderson incident.

(C) EFFECT OF PARAGRAPH.—Nothing in this paragraph limits, modifies, extinguishes, or otherwise affects any cause of action that would have existed in the absence of enactment of this paragraph.

(j) RIGHT OF RECOURSE.—This section does not provide to an operator of a covered installation any right of recourse under the Convention.

(k) PROTECTION OF SENSITIVE UNITED STATES INFORMATION.—Nothing in the Convention or this section requires the disclosure of—

(1) any data that, at any time, was Restricted Data (as defined in section 11 of the Atomic Energy Act of 1954 (42 U.S.C. 2014));

(2) information relating to intelligence sources or methods protected by section 102A(i) of the National Security Act of 1947 (50 U.S.C. 403–1(i)); or

(3) national security information classified under Executive Order 12958 (50 U.S.C. 435 note; relating to classified national security information) (or a successor regulation).

(l) REGULATIONS.—

(1) IN GENERAL.—The Secretary or the Commission, as appropriate, may prescribe regulations to carry out section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) and this section.

(2) REQUIREMENT.—Rules prescribed under this subsection shall ensure, to the maximum extent practicable, that—

(A) the implementation of section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) and this section is consistent and equitable; and

(B) the financial and operational burden on a Commission licensee in complying with section 170 of that Act is not greater as a result of the enactment of this section.

(3) APPLICABILITY OF PROVISION.—Section 553 of title 5, United States Code, shall apply with respect to the promulgation of regulations under this subsection.

(4) EFFECT OF SUBSECTION.—The authority provided under this subsection is in addition to, and does not impair or otherwise affect, any other authority of the Secretary or the Commission to prescribe regulations.

(m) EFFECTIVE DATE.—This section takes effect on the date of enactment of this Act.

AMENDMENT NO. 1729, AS MODIFIED

At the appropriate place, insert the following:

SEC. ___. OFFSHORE RENEWABLE ENERGY.

(a) LEASES, EASEMENTS, OR RIGHTS-OF-WAY FOR ENERGY AND RELATED PURPOSES.—Section 8(p) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(p)) is amended—

(1) by inserting after ''Secretary of the Department in which the Coast Guard is operating'' the following: '', the Secretary of Commerce,'';

(2) by striking paragraph (3) and inserting the following:

''(3) COMPETITIVE OR NONCOMPETITIVE BASIS.—Any lease, easement, or right-of-way under paragraph (1) shall be issued on a competitive basis, unless—

''(A) the lease, easement, or right-of-way relates to a project that meets the criteria established under section 388(d) of the Energy Policy Act of 2005 (43 U.S.C. 1337 note; Public Law 109–58);

''(B) the lease, easement, or right-of-way—

''(i) is for the placement and operation of a meteorological or marine data collection facility; and

''(ii) has a term of not more than 5 years; or

''(C) the Secretary determines, after providing public notice of a proposed lease, easement, or right-of-way, that no competitive interest exists.''; and

(3) by adding at the end the following:

''(11) CLARIFICATION.—

''(A) IN GENERAL.—Subject to subparagraph (B), the Federal Energy Regulatory Commission shall not have authority to approve or license a wave or current energy project on the Outer Continental Shelf under part I of the Federal Power Act (16 U.S.C. 792 et seq.)

''(B) TRANSMISSION OF POWER.—Subparagraph (A) shall not affect any authority of the Commission with respect to the transmission of power generated from a project described in subparagraph (A).''.

(b) CONSIDERATION OF CERTAIN REQUESTS FOR AUTHORIZATION.—In considering a request for authorization of a project pending before the Commission on the Outer Continental Shelf as of the date of enactment of this Act, the Secretary of the Interior shall rely, to the maximum extent practicable, on the materials submitted to the Commission before that date.

(c) SAVINGS PROVISION.—Nothing in this section or an amendment made by this section requires the resubmission of any document that was previously submitted, or the reauthorization of any action that was previously authorized, with respect to a project on the Outer Continental Shelf for which a preliminary permit was issued by the Commission before the date of enactment of this Act.

AMENDMENT NO. 1675

(Purpose: To provide for a study on the effect of laws limiting the siting of privately owned electric distribution wires on the development of combined heat and power facilities)

At the end, add the following:

TITLE VIII—MISCELLANEOUS

SEC. 801. STUDY OF THE EFFECT OF PRIVATE WIRE LAWS ON THE DEVELOPMENT OF COMBINED HEAT AND POWER FACILITIES.

(a) STUDY.—

(1) IN GENERAL.—The Secretary, in consultation with the States and other appropriate entities, shall conduct a study of the laws (including regulations) affecting the siting of privately owned electric distribution wires on and across public rights-of-way.

(2) REQUIREMENTS.—The study under paragraph (1) shall include—

(A) an evaluation of—

(i) the purposes of the laws; and

(ii) the effect the laws have on the development of combined heat and power facilities;

(B) a determination of whether a change in the laws would have any operating, reliability, cost, or other impacts on electric utilities and the customers of the electric utilities; and

(C) an assessment of—

(i) whether privately owned electric distribution wires would result in duplicative facilities; and

(ii) whether duplicative facilities are necessary or desirable.

(b) REPORT.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to Congress a report that describes the results of the study conducted under subsection (a).

AMENDMENT NO. 1687, AS MODIFIED

(Purpose: To express the sense of Congress that the Department of Energy should be the lead United States Government agency in charge of formulating and coordinating the national energy security policy of the United States)

On page 293, line 6, insert the following:

(4) the Department of Energy should be designated as the lead United States Government agency in charge of formulating and coordinating the national energy security policy of the United States, and in furtherance of these goals, there should be established within the Department of Energy an Assistant Secretary of Energy for Energy Security whose responsibilities should include—

(A) directing the development of the national energy security strategy of the United States;

(B) coordinating the national energy security policy of the United States with the Department of Defense, the Department of State, and the National Security Council, as appropriate, to address the impact of, and integrate national security and foreign policy on, the national energy security policy of the United States;

(C) monitoring international and domestic energy developments to gauge their impact on the national energy security policy of the United States and implementing changes in such policy as necessary to maintain the national security and energy security of the United States;

(D) identifying foreign sources of energy critical to the national energy security of the United States and developing strategies in conjunction with the Department of State for ensuring United States access to critical foreign energy resources;

(E) developing strategies for reducing United States dependence on foreign sources of energy, including demand reduction, efficiency improvement, and development of alternative and new sources of domestic energy; and

(F) developing strategies in conjunction with the Department of State for working with major international producers and consumers, including China, Russia, the European Union, and Africa, to minimize politicization of global energy resources while ensuring access through global energy markets.

AMENDMENT NO. 1688

(Purpose: To require the President to submit to Congress an annual national energy security strategy report)

On page 313, strike lines 20 and 21 and insert the following:

SEC. 707. ANNUAL NATIONAL ENERGY SECURITY STRATEGY REPORT.

(a) REPORTS.—

(1) IN GENERAL.—Subject to paragraph (2), on the date on which the President submits to Congress the budget for the following fiscal year under section 1105 of title 31, United States Code, the President shall submit to Congress a comprehensive report on the national energy security of the United States.

(2) NEW PRESIDENTS.—In addition to the reports required under paragraph (1), the President shall submit a comprehensive report on the national energy security of the United States by not later than 150 days after the date on which the President assumes the office of President after a presidential election.

(b) CONTENTS.—Each report under this section shall describe the national energy security strategy of the United States, including a comprehensive description of—

(1) the worldwide interests, goals, and objectives of the United States that are vital to the national energy security of the United States;

(2) the foreign policy, worldwide commitments, and national defense capabilities of the United States necessary—

(A) to deter political manipulation of world energy resources; and

(B) to implement the national energy security strategy of the United States;

(3) the proposed short-term and long-term uses of the political, economic, military, and other authorities of the United States—

(A) to protect or promote energy security; and

(B) to achieve the goals and objectives described in paragraph (1);

(4) the adequacy of the capabilities of the United States to protect the national energy security of the United States, including an evaluation of the balance among the capabilities of all elements of the national authority of the United States to support the implementation of the national energy security strategy; and

(5) such other information as the President determines to be necessary to inform Congress on matters relating to the national energy security of the United States.

(c) CLASSIFIED AND UNCLASSIFIED FORM.—Each national energy security strategy report shall be submitted to Congress in—

(1) a classified form; and

(2) an unclassified form.

SEC. 708. APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.

AMENDMENT NO. 1689

(Purpose: To amend the National Security Act of 1947 to add the Secretary of Energy to the National Security Council in recognition of the role energy and energy security issues play in the United States national security)

After section 706, insert the following:

SEC. 707. NATIONAL SECURITY COUNCIL REORGANIZATION.

Section 101(a) of the National Security Act of 1947 (50 U.S.C. 402(a)) is amended—

(1) by redesignating paragraphs (5), (6), and (7) as paragraphs (6), (7), and (8), respectively; and

(2) by inserting after paragraph (4) the following:

''(5) the Secretary of Energy;''.

AMENDMENT NO. 1525, AS MODIFIED

On page 161, between lines 2 and 3, insert the following:

SEC. 269. STANDARD RELATING TO SOLAR HOT WATER HEATERS.

Section 305(a)(3)(A) of the Energy Conservation and Production Act (42 U.S.C. 6834(a)(3)(A)) (as amended by section 266) is amended—

(1) in clause (i)(III), by striking ''and'' at the end;

(2) in clause (ii), by striking the period at the end and inserting ''; and''; and

(3) by adding at the end the following:

''(iii) if life-cycle cost-effective, as compared to other reasonably available technologies, not less than 30 percent of the hot water demand for each new or substantially modified Federal building be met through the installation and use of solar hot water heaters.''.

AMENDMENT NO. 1567, AS MODIFIED

On page 133, between lines 9 and 10, insert the following:

SEC. 246. COMMERCIAL INSULATION DEMONSTRATION PROGRAM.

(a) DEFINITIONS.—In this section:

(1) ADVANCED INSULATION.—The term ''advanced insulation'' means insulation that has an R value of not less than R35 per inch.

(2) COVERED REFRIGERATION UNIT.—The term ''covered refrigeration unit'' means any—

(A) commercial refrigerated truck;

(B) commercial refrigerated trailer; and

(C) commercial refrigerator, freezer, or refrigerator-freezer described in section 342(c) of the Energy Policy and Conservation Act (42 U.S.C. 6313(c)).

(b) REPORT.—Not later than 90 days after the date of enactment of this Act, the Secretary shall submit to Congress a report that includes an evaluation of—

(1) the state of technological advancement of advanced insulation; and

(2) the projected amount of cost savings that would be generated by implementing advanced insulation into covered refrigeration units.

(c) DEMONSTRATION PROGRAM.—

(1) ESTABLISHMENT.—If the Secretary determines in the report described in subsection (b) that the implementation of advanced insulation into covered refrigeration units would generate an economically justifiable amount of cost savings, the Secretary, in cooperation with manufacturers of covered refrigeration units, shall establish a demonstration program under which the Secretary shall demonstrate the cost-effectiveness of advanced insulation.

(2) DISCLOSURE.—Section 623 of the Energy Policy Act of 1992 (42 U.S.C. 13293) may apply to any project carried out under this subsection.

(3) COST-SHARING.—Section 988 of the Energy Policy Act of 2005 (42 U.S.C. 16352) shall apply to any project carried out under this subsection.

(d) AUTHORIZATION OF APPROPRIATIONS.—Of the funds authorized under section 911(b) of Public Law 109–58, the Energy Policy Act of 2005, such sums shall be allocated to carry out this program.

AMENDMENT NO. 1717

(Purpose: To require the Secretary of the Interior, acting through the Director of the Minerals Management Service, to conduct a study to assess each offshore wind resource located in the region of the eastern outer Continental Shelf)

On page 59, after line 21, add the following:

SEC. 151. STUDY OF OFFSHORE WIND RESOURCES.

(a) DEFINITIONS.—In this section:

(1) ELIGIBLE INSTITUTION.—The term ''eligible institution'' means a college or university that—

(A) as of the date of enactment of this Act, has an offshore wind power research program; and

(B) is located in a region of the United States that is in reasonable proximity to the eastern outer Continental Shelf, as determined by the Secretary.

(2) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior, acting through the Director of the Minerals Management Service.

(b) STUDY.—The Secretary, in cooperation with an eligible institution, as selected by the Secretary, shall conduct a study to assess each offshore wind resource located in the region of the eastern outer Continental Shelf.

(c) REPORT.—Upon completion of the study under subsection (b), the Secretary shall submit to Congress a report that includes—

(1) a description of—

(A) the locations and total power generation resources of the best offshore wind resources located in the region of the eastern outer Continental Shelf, as determined by the Secretary;

(B) based on conflicting zones relating to any infrastructure that, as of the date of enactment of this Act, is located in close proximity to any offshore wind resource, the likely exclusion zones of each offshore wind resource described in subparagraph (A);

(C) the relationship of the temporal variation of each offshore wind resource described in subparagraph (A) with—

(i) any other offshore wind resource; and

(ii) with loads and corresponding system operator markets;

(D) the geological compatibility of each offshore wind resource described in subparagraph (A) with any potential technology relating to sea floor towers; and

(E) with respect to each area in which an offshore wind resource described in subparagraph (A) is located, the relationship of the authority under any coastal management plan of the State in which the area is located with the Federal Government; and

(2) recommendations on the manner by which to handle offshore wind intermittence.

(d) INCORPORATION OF STUDY.—Effective beginning on the date on which the Secretary completes the study under subsection (b), the Secretary shall incorporate the findings included in the report under subsection (c) into the planning process documents for any wind energy lease sale—

(1) relating to any offshore wind resource located in any appropriate area of the outer Continental Shelf, as determined by the Secretary; and

(2) that is completed on or after the date of enactment of this Act.

(e) EFFECT.—Nothing in this section—

(1) delays any final regulation to be promulgated by the Secretary of the Interior to carry out section 8(p) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(p)); or

(2) limits the authority of the Secretary to lease any offshore wind resource located in any appropriate area of the outer Continental Shelf, as determined by the Secretary.

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $5,000,000, to remain available until expended.

AMENDMENT NO. 1710

(Purpose: To clarify the purposes of the energy and environmental block grant program)

On page 166, strike lines 17 through 19, and insert the following:

''(1) to reduce fossil fuel emissions created as a result of activities within the boundaries of the States or units of local government in an environmentally sustainable way that, to the maximum extent practicable, maximizes benefits for local and regional communities;

AMENDMENT NO. 1759, AS MODIFIED

On page 192, after line 21, add the following:

SEC. 305. ASSESSMENT OF CARBON SEQUESTRATION AND METHANE AND NITROUS OXIDE EMISSIONS FROM TERRESTRIAL ECOSYSTEMS.

(a) DEFINITIONS.—In this section:

(1) ADAPTATION STRATEGY.—The term ''adaptation strategy'' means a land use and management strategy that can be used to increase the sequestration capabilities of any terrestrial ecosystem.

(2) ASSESSMENT.—The term ''assessment'' means the national assessment authorized under subsection (b).

(3) COVERED GREENHOUSE GAS.—The term ''covered greenhouse gas'' means carbon dioxide, nitrous oxide, and methane gas.

(4) NATIVE PLANT SPECIES.—The term ''native plant species'' means any noninvasive, naturally occurring plant species within a terrestrial ecosystem.

(5) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

(6) FEDERAL LAND.—The term ''Federal land'' means—

(A) land of the National Forest System (as defined in section 11(a) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1609(a))) administered by the Secretary of Agriculture, acting through the Chief of the Forest Service; and

(B) public lands (as defined in Section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702)), the surface of which is administered by the Secretary of the Interior, acting through the Director of the Bureau of Land Management.

(7) TERRESTRIAL ECOSYSTEM.—

(A) IN GENERAL.—The term ''terrestrial ecosystem'' means any ecological and surficial geological system on Federal land.

(B) INCLUSIONS.—The term ''terrestrial ecosystem'' includes—

(i) forest land;

(ii) grassland; and

(iii) freshwater aquatic ecosystems.

(b) AUTHORIZATION OF ASSESSMENT.—Not later than 2 years after the date on which the final methodology is published under subsection (f)(3)(D), the Secretary shall complete a national assessment of—

(1) the quantity of carbon stored in and released from terrestrial ecosystems; including from man-caused and natural fires; and

(2) the annual flux of covered greenhouse gases in and out of terrestrial ecosystems.

(c) COMPONENTS.—In conducting the assessment under subsection (b), the Secretary shall—

(1) determine the processes that control the flux of covered greenhouse gases in and out of each terrestrial ecosystem;

(2) estimate the technical and economic potential for increasing carbon sequestration in natural and managed terrestrial ecosystems through management activities or restoration activities in each terrestrial ecosystem;

(3) develop near-term and long-term adaptation strategies or mitigation strategies that can be employed—

(A) to enhance the sequestration of carbon in each terrestrial ecosystem;

(B) to reduce emissions of covered greenhouse gases; and

(C) to adapt to climate change; and

(4) estimate annual carbon sequestration capacity of terrestrial ecosystems under a range of policies in support of management activities to optimize sequestration.

(d) USE OF NATIVE PLANT SPECIES.—In developing restoration activities under subsection (c)(2) and management strategies and adaptation strategies under subsection (c)(3), the Secretary shall emphasize the use of native plant species (including mixtures of many native plant species) for sequestering covered greenhouse gas in each terrestrial ecosystem.

(e) CONSULTATION.—In conducting the assessment under subsection (b) and developing the methodology under subsection (f), the Secretary shall consult with—

(1) the Secretary of Energy;

(2) the Secretary of Agriculture;

(3) the Administrator of the Environmental Protection Agency;

(4) the heads of other relevant agencies;

(5) consortia based at institutions of higher education and with research corporations; and

(6) Federal forest and grassland managers.

(f) METHODOLOGY.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall develop a methodology for conducting the assessment.

(2) REQUIREMENTS.—The methodology developed under paragraph (1)—

(A) shall—

(i) determine the method for measuring, monitoring, quantifying, and monetizing covered greenhouse gas emissions and reductions, including methods for allocating and managing offsets or credits; and

(ii) estimate the total capacity of each terrestrial ecosystem to—

(I) sequester carbon; and

(II) reduce emissions of covered greenhouse gases; and

(B) may employ economic and other systems models, analyses, and estimations, to be developed in consultation with each of the individuals described in subsection (e).

(3) EXTERNAL REVIEW AND PUBLICATION.—On completion of a proposed methodology, the Secretary shall—

(A) publish the proposed methodology;

(B) at least 60 days before the date on which the final methodology is published, solicit comments from—

(i) the public; and

(ii) heads of affected Federal and State agencies;

(C) establish a panel to review the proposed methodology published under subparagraph (A) and any comments received under subparagraph (B), to be composed of members—

(i) with expertise in the matters described in subsections (c) and (d); and

(ii) that are, as appropriate, representatives of Federal agencies, institutions of higher education, nongovernmental organizations, State organizations, industry, and international organizations; and

(D) on completion of the review under subparagraph (C), publish in the Federal register the revised final methodology.

(g) ESTIMATE; REVIEW.—The Secretary shall—

(1) based on the assessment, prescribe the data, information, and analysis needed to establish a scientifically sound estimate of—

(A) the carbon sequestration capacity of relevant terrestrial ecosystems;

(B) a national inventory of covered greenhouse gas sources that is consistent with the inventory prepared by the Environmental Protection Agency entitled the ''Inventory of U.S. Greenhouse Gas Emissions and Sinks: 1990–2005''; and

(C) the willingness of covered greenhouse gas emitters to pay to sequester the covered greenhouse gases emitted by the applicable emitters in designated terrestrial ecosystems; and

(2) not later than 180 days after the date on which the assessment is completed, submit to the heads of applicable Federal agencies and the appropriate committees of Congress a report that describes the results of the assessment.

(h) DATA AND REPORT AVAILABILITY.—On completion of the assessment, the Secretary shall incorporate the results of the assessment into a web-accessible database for public use.

AMENDMENT NO. 1797, AS MODIFIED

On page 141, after line 23, add the following:

SEC. 255. SMART GRID SYSTEM REPORT.

(a) IN GENERAL.—The Secretary, acting through the Director of the Office of Electricity Delivery and Energy Reliability (referred to in this section as the ''Secretary''), shall, after consulting with any interested individual or entity as appropriate, no later than one year after enactment, report to Congress concerning the status of smart grid deployments nationwide and any regulatory or government barriers to continued deployment

SEC. 256. SMART GRID TECHNOLOGY RESEARCH, DEVELOPMENT, AND DEMONSTRATION.

(a) POWER GRID DIGITAL INFORMATION TECHNOLOGY.—The Secretary, in consultation with the Federal Energy Regulatory Commission and other appropriate agencies, electric utilities, the States, and other stakeholders, shall carry out a program—

(1) to develop advanced techniques for measuring peak: load reductions and energy-efficiency savings from smart metering, demand response, distributed generation, and electricity storage systems;

(2) to investigate means for demand response, distributed generation, and storage to provide ancillary services;

(3) to conduct research to advance the use of wide-area measurement and control networks, including data mining, visualization, advanced computing, and secure and dependable communications in a highly-distributed environment;

(4) to test new reliability technologies in a grid control room environment against a representative set of local outage and wide area blackout scenarios;

(5) to investigate the feasibility of a transition to time-of-use and real-time electricity pricing;

(6) to develop algorithms for use in electric transmission system software applications;

(7) to promote the use of underutilized electricity generation capacity in any substitution of electricity for liquid fuels in the transportation system of the United States; and

(8) in consultation with the Federal Energy Regulatory Commission, to propose interconnection protocols to enable electric utilities to access electricity stored in vehicles to help meet peak demand loads.

(b) SMART GRID REGIONAL DEMONSTRATION INITIATIVE.—

(1) IN GENERAL.—The Secretary shall establish a smart grid regional demonstration initiative (referred to in this subsection as the ''Initiative'') composed of demonstration projects specifically focused on advanced technologies for use in power grid sensing, communications, analysis, and power flow control. The Secretary shall seek to leverage existing smart grid deployments.

(2) GOALS.—The goals of the Initiative shall be—

(A) to demonstrate the potential benefits of concentrated investments in advanced grid technologies on a regional grid;

(B) to facilitate the commercial transition from the current power transmission and distribution system technologies to advanced technologies;

(C) to facilitate the integration of advanced technologies in existing electric networks to improve system performance, power flow control, and reliability;

(D) to demonstrate protocols and standards that allow for the measurement and validation of the energy savings and fossil fuel gas emission reductions associated with the installation and use of energy efficiency and demand response technologies and practices; and

(E) to investigate differences in each region and regulatory environment regarding best practices in implementing smart grid technologies.

(3) DEMONSTRATION PROJECTS.—

(A) IN GENERAL.—In carrying out the Initiative, the Secretary shall carry out smart grid demonstration projects in up to 5 electricity control areas, including rural areas and at least 1 area in which the majority of generation and transmission assets are controlled by a tax-exempt entity.

(B) COOPERATION.—A demonstration project under subparagraph (A) shall be carried out in cooperation with the electric utility that owns the grid facilities in the electricity control area in which the demonstration project is carried out.

(C) FEDERAL SHARE OF COST OF TECHNOLOGY INVESTMENTS.—The Secretary shall provide to an electric utility described in subparagraph (B) financial assistance for use in paying an amount equal to not more than 50 percent of the cost of qualifying advanced grid technology investments made by the electric utility to carry out a demonstration project.

(4) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated—

(A) to carry out subsection (a), such sums as are necessary for each of fiscal years 2008 through 2012; and

(B) to carry out subsection (b), $100,000,000 for each of fiscal years 2008 through 2012.

SEC. 257. SMART GRID INTEROPERABILITY FRAMEWORK.

(a) INTEROPERABILITY FRAMEWORK.—The Federal Energy Regulatory Commission (referred to in this section as the ''Commission''), in cooperation with other relevant federal agencies, shall coordinate with smart grid stakeholders to develop protocols for the establishment of a flexible framework for the connection of smart grid devices and systems that would align policy, business, and technology approaches in a manner that would enable all electric resources, including demand-side resources, to contribute to an efficient, reliable electricity network.

(c) SCOPE OF FRAMEWORK.—The framework developed under subsection (b) shall be designed—

(1) to accommodate traditional, centralized generation and transmission resources and consumer distributed resources, including distributed generation, renewable generation, energy storage, energy efficiency, and demand response and enabling devices and systems;

(2) to be flexible to incorporate—

(A) regional and organizational differences; and

(B) technological innovations; and

(3) to consider voluntary uniform standards for certain classes of mass-produced electric appliances and equipment for homes and businesses that enable customers, at their election and consistent with applicable state and federal laws, and are manufactured with the ability to respond to electric grid emergencies and demand response signals by curtailing all, or a portion of, the electrical power consumed by the appliances or equipment in response to an emergency or demand response signal, including through—

(A) load reduction to reduce total electrical demand;

(B) adjustment of load to provide grid ancillary services; and

(C) in the event of a reliability crisis that threatens an outage, short-term load shedding to help preserve the stability of the grid.

(4) Such voluntary standards should incorporate appropriate manufacturer lead time.

SEC. 258. STATE CONSIDERATION OF SMART GRID.

Section 111 (d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:

''(16) CONSIDERATION OF SMART GRID INVESTMENTS.—Each State shall consider requiring that, prior to undertaking investments in nonadvanced grid technologies, an electric utility of the State demonstrate to the State that the electric utility considered an investment in a qualified smart grid system based on appropriate factors, including—

''(i) total costs;

''(ii) cost-effectiveness;

''(iii) improved reliability;

''(iv) security;

''(v) system performance; and

''(vi) societal benefit.

''(B) RATE RECOVERY.—Each State shall consider authorizing each electric utility of the State to recover from ratepayers any capital, operating expenditure, or other costs of the electric utility relating to the deployment of a qualified smart grid system, including a reasonable rate of return on the capital expenditures of the electric utility for the deployment of the qualified smart grid system.

''(e) OBSOLETE EQUIPMENT.—Each State shall consider authorizing any electric utility or other party of the State to deploy a qualified smart grid system to recover in a timely manner the remaining book-value costs of any equipment rendered obsolete by the deployment of the qualified smart grid system, based on the remaining depreciable life of the obsolete equipment.

''(17) SMART GRID CONSUMER INFORMATION.—

AMENDMENT NO. 1702

(Purpose: To authorize loans for renewable energy systems and energy efficiency projects under the Express Loan Program of the Small Busines Administration)

On page 161, between lines 2 and 3, insert the following:

SEC. 269. EXPRESS LOANS FOR RENEWABLE ENERGY AND ENERGY EFFICIENCY.

Section 7(a)(31) of the Small Business Act (15 U.S.C. 636(a)(31)) is amended by adding at the end the following:

''(F) EXPRESS LOANS FOR RENEWABLE ENERGY AND ENERGY EFFICIENCY.—

''(i) DEFINITIONS.—In this subparagraph—

''(I) the term 'biomass'—

''(aa) means any organic material that is available on a renewable or recurring basis, including—

''(AA) agricultural crops;

''(BB) trees grown for energy production;

''(CC) wood waste and wood residues;

''(DD) plants (including aquatic plants and grasses);

''(EE) residues;

''(FF) fibers;

''(GG) animal wastes and other waste materials; and

''(HH) fats, oils, and greases (including recycled fats, oils, and greases); and

''(bb) does not include—

''(AA) paper that is commonly recycled; or

''(BB) unsegregated solid waste;

''(II) the term 'energy efficiency project' means the installation or upgrading of equipment that results in a significant reduction in energy usage; and

''(III) the term 'renewable energy system' means a system of energy derived from—

''(aa) a wind, solar, biomass (including biodiesel), or geothermal source; or

''(bb) hydrogen derived from biomass or water using an energy source described in item (aa).

''(ii) LOANS.—Loans may be made under the 'Express Loan Program' for the purpose of—

''(I) purchasing a renewable energy system; or

''(II) an energy efficiency project for an existing business.''.

AMENDMENT NO. 1706, AS MODIFIED

(Purpose: To establish a small business energy efficiency program, and for other purposes)

On page 161, between lines 2 and 3, insert the following:

SEC. 269. SMALL BUSINESS ENERGY EFFICIENCY.

(a) DEFINITIONS.—In this section—

(1) the terms ''Administration'' and ''Administrator'' mean the Small Business Administration and the Administrator thereof, respectively;

(2) the term ''association'' means the association of small business development centers established under section 21(a)(3)(A) of the Small Business Act (15 U.S.C. 648(a)(3)(A));

(3) the term ''disability'' has the meaning given that term in section 3 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102);

(4) the term ''electric utility'' has the meaning given that term in section 3 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2602);

(5) the term ''on-bill financing'' means a low interest or no interest financing agreement between a small business concern and an electric utility for the purchase or installation of equipment, under which the regularly scheduled payment of that small business concern to that electric utility is not reduced by the amount of the reduction in cost attributable to the new equipment and that amount is credited to the electric utility, until the cost of the purchase or installation is repaid;

(6) the term ''small business concern'' has the meaning given that term in section 3 of the Small Business Act (15 U.S.C. 636);

(7) the term ''small business development center'' means a small business development center described in section 21 of the Small Business Act (15 U.S.C. 648);

(8) the term ''telecommuting'' means the use of telecommunications to perform work functions under circumstances which reduce or eliminate the need to commute; and

(9) the term ''veteran'' has the meaning given that term in section 101 of title 38, United States Code.

(b) IMPLEMENTATION OF SMALL BUSINESS ENERGY EFFICIENCY PROGRAM.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator shall promulgate final rules establishing the Government-wide program authorized under subsection (d) of section 337 of the Energy Policy and Conservation Act (42 U.S.C. 6307) that ensure compliance with that subsection by not later than 6 months after such date of enactment.

(2) PLAN.—Not later than 90 days after the date of enactment of this Act, the Administrator shall publish a detailed plan regarding how the Administrator will—

(A) assist small business concerns in becoming more energy efficient; and

(B) build on the Energy Star for Small Business Program of the Department of Energy and the Environmental Protection Agency.

(3) ASSISTANT ADMINISTRATOR FOR SMALL BUSINESS ENERGY POLICY.—

(A) IN GENERAL.—There is in the Administration an Assistant Administrator for Small Business Energy Policy, who shall be appointed by, and report to, the Administrator.

(B) DUTIES.—The Assistant Administrator for Small Business Energy Policy shall—

(i) oversee and administer the requirements under this subsection and section 337(d) of the Energy Policy and Conservation Act (42 U.S.C. 6307(d)); and

(ii) promote energy efficiency efforts for small business concerns and reduce energy costs of small business concerns.

(4) REPORTS.—The Administrator shall submit to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business of the House of Representatives an annual report on the progress of the Administrator in encouraging small business concerns to become more energy efficient, including data on the rate of use of the Small Business Energy Clearinghouse established under section 337(d)(4) of the Energy Policy and Conservation Act (42 U.S.C. 6307(d)(4)).

(c) SMALL BUSINESS ENERGY EFFICIENCY.—

(1) AUTHORITY.—The Administrator shall establish a Small Business Energy Efficiency Pilot Program (in this subsection referred to as the ''Efficiency Pilot Program'') to provide energy efficiency assistance to small business concerns through small business development centers.

(2) SMALL BUSINESS DEVELOPMENT CENTERS.—

(A) IN GENERAL.—In carrying out the Efficiency Pilot Program, the Administrator shall enter into agreements with small business development centers under which such centers shall—

(i) provide access to information and resources on energy efficiency practices, including on-bill financing options;

(ii) conduct training and educational activities;

(iii) offer confidential, free, one-on-one, in-depth energy audits to the owners and operators of small business concerns regarding energy efficiency practices;

(iv) give referrals to certified professionals and other providers of energy efficiency assistance who meet such standards for educational, technical, and professional competency as the Administrator shall establish; and

(v) act as a facilitator between small business concerns, electric utilities, lenders, and the Administration to facilitate on-bill financing arrangements.

(B) REPORTS.—Each small business development center participating in the Efficiency Pilot Program shall submit to the Administrator and the Administrator of the Environmental Protection Agency an annual report that includes—

(i) a summary of the energy efficiency assistance provided by that center under the Efficiency Pilot Program;

(ii) the number of small business concerns assisted by that center under the Efficiency Pilot Program;

(iii) statistics on the total amount of energy saved as a result of assistance provided by that center under the Efficiency Pilot Program; and

(iv) any additional information determined necessary by the Administrator, in consultation with the association.

(C) REPORTS TO CONGRESS.—Not later than 60 days after the date on which all reports under subparagraph (B) relating to a year are submitted, the Administrator shall submit to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business of the House of Representatives a report summarizing the information regarding the Efficiency Pilot Program submitted by small business development centers participating in that program.

(3) ELIGIBILITY.—A small business development center shall be eligible to participate in the Efficiency Pilot Program only if that center is certified under section 21(k)(2) of the Small Business Act (15 U.S.C. 648(k)(2)).

(4) SELECTION OF PARTICIPATING STATE PROGRAMS.—

(A) GROUPINGS.—

(i) SELECTION OF PROGRAMS.—The Administrator shall select the small business development center programs of 2 States from each of the groupings of States described in clauses (ii) through (xi) to participate in the pilot program established under this subsection.

(ii) GROUP 1.—Group 1 shall consist of Maine, Massachusetts, New Hampshire, Connecticut, Vermont, and Rhode Island.

(iii) GROUP 2.—Group 2 shall consist of New York, New Jersey, Puerto Rico, and the Virgin Islands.

(iv) GROUP 3.—Group 3 shall consist of Pennsylvania, Maryland, West Virginia, Virginia, the District of Columbia, and Delaware.

(v) GROUP 4.—Group 4 shall consist of Georgia, Alabama, North Carolina, South Carolina, Mississippi, Florida, Kentucky, and Tennessee.

(vi) GROUP 5.—Group 5 shall consist of Illinois, Ohio, Michigan, Indiana, Wisconsin, and Minnesota.

(vii) GROUP 6.—Group 6 shall consist of Texas, New Mexico, Arkansas, Oklahoma, and Louisiana.

(viii) GROUP 7.—Group 7 shall consist of Missouri, Iowa, Nebraska, and Kansas.

(ix) GROUP 8.—Group 8 shall consist of Colorado, Wyoming, North Dakota, South Dakota, Montana, and Utah.

(x) GROUP 9.—Group 9 shall consist of California, Guam, American Samoa, Hawaii, Nevada, and Arizona.

(xi) GROUP 10.—Group 10 shall consist of Washington, Alaska, Idaho, and Oregon.

(5) MATCHING REQUIREMENT.—Subparagraphs (A) and (B) of section 21(a)(4) of the Small Business Act (15 U.S.C. 648(a)(4)) shall apply to assistance made available under the Efficiency Pilot Program.

(6) GRANT AMOUNTS.—Each small business development center selected to participate in the Efficiency Pilot Program under paragraph (4) shall be eligible to receive a grant in an amount equal to—

(A) not less than $100,000 in each fiscal year; and

(B) not more than $300,000 in each fiscal year.

(7) EVALUATION AND REPORT.—The Comptroller General of the United States shall—

(A) not later than 30 months after the date of disbursement of the first grant under the Efficiency Pilot Program, initiate an evaluation of that pilot program; and

(B) not later than 6 months after the date of the initiation of the evaluation under subparagraph (A), submit to the Administrator, the Committee on Small Business and Entrepreneurship of the Senate, and the Committee on Small Business of the House of Representatives, a report containing—

(i) the results of the evaluation; and

(ii) any recommendations regarding whether the Efficiency Pilot Program, with or without modification, should be extended to include the participation of all small business development centers.

(8) GUARANTEE.—The Administrator may guarantee the timely payment of a loan made to a small business concern through an on-bill financing agreement on such terms and conditions as the Administrator shall establish through a formal rule making, after providing notice and an opportunity for comment.

(9) AUTHORIZATION OF APPROPRIATIONS.—

(A) IN GENERAL.—There are authorized to be appropriated from such sums as are already authorized under section 21 of the Small Business Act to carry out this subsection—

(i) $5,000,000 for the first fiscal year beginning after the date of enactment of this Act; and

(ii) $5,000,000 for each of the 3 fiscal years following the fiscal year described in clause (i).

(B) LIMITATION ON USE OF OTHER FUNDS.—The Administrator may carry out the Efficiency Pilot Program only with amounts appropriated in advance specifically to carry out this subsection.

(10) TERMINATION.—The authority under this subsection shall terminate 4 years after the date of disbursement of the first grant under the Efficiency Pilot Program.

(d) SMALL BUSINESS TELECOMMUTING.—

(1) PILOT PROGRAM.—

(A) IN GENERAL.—In accordance with this subsection, the Administrator shall conduct, in not more than 5 of the regions of the Administration, a pilot program to provide information regarding telecommuting to employers that are small business concerns and to encourage such employers to offer telecommuting options to employees (in this subsection referred to as the ''Telecommuting Pilot Program'').

(B) SPECIAL OUTREACH TO INDIVIDUALS WITH DISABILITIES.—In carrying out the Telecommuting Pilot Program, the Administrator shall make a concerted effort to provide information to—

(i) small business concerns owned by or employing individuals with disabilities, particularly veterans who are individuals with disabilities;

(ii) Federal, State, and local agencies having knowledge and expertise in assisting individuals with disabilities, including veterans who are individuals with disabilities; and

(iii) any group or organization, the primary purpose of which is to aid individuals with disabilities or veterans who are individuals with disabilities.

(C) PERMISSIBLE ACTIVITIES.—In carrying out the Telecommuting Pilot Program, the Administrator may—

(i) produce educational materials and conduct presentations designed to raise awareness in the small business community of the benefits and the ease of telecommuting;

(ii) conduct outreach—

(I) to small business concerns that are considering offering telecommuting options; and

(II) as provided in subparagraph (B); and

(iii) acquire telecommuting technologies and equipment to be used for demonstration purposes.

(D) SELECTION OF REGIONS.—In determining which regions will participate in the Telecommuting Pilot Program, the Administrator shall give priority consideration to regions in which Federal agencies and private-sector employers have demonstrated a strong regional commitment to telecommuting.

(2) REPORT TO CONGRESS.—Not later than 2 years after the date on which funds are first appropriated to carry out this subsection, the Administrator shall transmit to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business of the House of Representatives a report containing the results of an evaluation of the Telecommuting Pilot Program and any recommendations regarding whether the pilot program, with or without modification, should be extended to include the participation of all regions of the Administration.

(3) TERMINATION.—The Telecommuting Pilot Program shall terminate 4 years after the date on which funds are first appropriated to carry out this subsection.

(4) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Administration $5,000,000 to carry out this subsection.

(e) ENCOURAGING INNOVATION IN ENERGY EFFICIENCY.—Section 9 of the Small Business Act (15 U.S.C. 638) is amended by adding at the end the following:

''(z) ENCOURAGING INNOVATION IN ENERGY EFFICIENCY.—

''(1) FEDERAL AGENCY ENERGY-RELATED PRIORITY.—In carrying out its duties under this section to SBIR and STTR solicitations by Federal agencies, the Administrator shall—

''(A) ensure that such agencies give high priority to small business concerns that participate in or conduct energy efficiency or renewable energy system research and development projects; and

''(B) include in the annual report to Congress under subsection (b)(7) a determination of whether the priority described in subparagraph (A) is being carried out.

''(2) CONSULTATION REQUIRED.—The Administrator shall consult with the heads of other Federal agencies and departments in determining whether priority has been given to small business concerns that participate in or conduct energy efficiency or renewable energy system research and development projects, as required by this section.

''(3) GUIDELINES.—The Administrator shall, as soon as is practicable after the date of enactment of this subsection, issue guidelines and directives to assist Federal agencies in meeting the requirements of this section.

''(4) DEFINITIONS.—In this subsection—

''(A) the term 'biomass'—

''(i) means any organic material that is available on a renewable or recurring basis, including—

''(I) agricultural crops;

''(II) trees grown for energy production;

''(III) wood waste and wood residues;

''(IV) plants (including aquatic plants and grasses);

''(V) residues;

''(VI) fibers;

''(VII) animal wastes and other waste materials; and

''(VIII) fats, oils, and greases (including recycled fats, oils, and greases); and

''(ii) does not include—

''(I) paper that is commonly recycled; or

''(II) unsegregated solid waste;

''(B) the term 'energy efficiency project' means the installation or upgrading of equipment that results in a significant reduction in energy usage; and

''(C) the term 'renewable energy system' means a system of energy derived from—

''(i) a wind, solar, biomass (including biodiesel), or geothermal source; or

''(ii) hydrogen derived from biomass or water using an energy source described in clause (i).''.

AMENDMENT NO. 1595, AS MODIFIED

On page 122, between lines 19 and 20, insert the following:

(e) SET ASIDE FOR SMALL AUTOMOBILE MANUFACTURERS AND COMPONENT SUPPLIERS.—

(1) DEFINITION OF COVERED FIRM.—In this subsection, the term ''covered firm'' means a firm that—

(A) employs less than 500 individuals; and

(B) manufactures automobiles or components of automobiles.

(2) SET ASIDE.—Of the amount of funds that are used to provide awards for each fiscal year under this section, the Secretary shall use not less than 30 percent of the amount to provide awards to covered firms or consortia led by a covered firm.

AMENDMENT NO. 1676, AS MODIFIED

On page 161, between lines 2 and 3, insert the following:

SEC. 26__. RENEWABLE ENERGY INNOVATION MANUFACTURING PARTNERSHIP.

(a) ESTABLISHMENT.—The Secretary shall carry out a program, to be known as the Renewable Energy Innovation Manufacturing Partnership Program (referred to in this section as the ''Program''), to make assistance awards to eligible entities for use in carrying out research, development, and demonstration relating to the manufacturing of renewable energy technologies.

(b) SOLICITATION.—To carry out the Program, the Secretary shall annually conduct a competitive solicitation for assistance awards for an eligible project described in subsection (e).

(c) PROGRAM PURPOSES.—The purposes of the Program are—

(1) to develop, or aid in the development of, advanced manufacturing processes, materials, and infrastructure;

(2) to increase the domestic production of renewable energy technology and components; and

(3) to better coordinate Federal, State, and private resources to meet regional and national renewable energy goals through advanced manufacturing partnerships.

(d) ELIGIBLE ENTITIES.—An entity shall be eligible to receive an assistance award under the Program to carry out an eligible project described in subsection (e) if the entity is composed of—

(1) 1 or more public or private nonprofit institutions or national laboratories engaged in research, development, demonstration, or technology transfer, that would participate substantially in the project; and

(2) 1 or more private entities engaged in the manufacturing or development of renewable energy system components (including solar energy, wind energy, biomass, geothermal energy, energy storage, or fuel cells).

(e) ELIGIBLE PROJECTS.—An eligible entity may use an assistance award provided under this section to carry out a project relating to—

(1) the conduct of studies of market opportunities for component manufacturing of renewable energy systems;

(2) the conduct of multiyear applied research, development, demonstration, and deployment projects for advanced manufacturing processes, materials, and infrastructure for renewable energy systems; and

(3) other similar ventures, as approved by the Secretary, that promote advanced manufacturing of renewable technologies.

(f) CRITERIA AND GUIDELINES.—The Secretary shall establish criteria and guidelines for the submission, evaluation, and funding of proposed projects under the Program.

(g) COST SHARING.—Section 988 of the Energy Policy Act of 2005 (42 U.S.C. 16352) shall apply to a project carried out under this section.

(h) DISCLOSURE.—Section 623 of the Energy Policy Act of 1992 (42 U.S.C. 13293) shall apply to a project carried out under this subsection.

(i) SENSE OF THE SENATE.—It is the sense of the Senate that the Secretary should ensure that small businesses engaged in renewable manufacturing be considered for loan guarantees authorized under title XVII of the Energy Policy Act of 2005 (42 U.S.C. 16511 et seq.).

(j) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated out of funds already authorized to carry out this section $25,000,000 for each of fiscal years 2008 through 2013, to remain available until expended.

AMENDMENT NO. 1679, AS MODIFIED

On page 26, strike lines 19 through 21 and insert the following:

(j) STUDY OF IMPACT OF RENEWABLE FUEL STANDARD.—

(1) IN GENERAL.—The Secretary shall enter into an arrangement with the National Academy of Sciences under which the Academy shall conduct a study to assess the impact of the requirements described in subsection (a)(2) on each industry relating to the production of feed grains, livestock, food, and energy.

(2) PARTICIPATION.—In conducting the study under paragraph (1), the National Academy of Sciences shall seek the participation, and consider the input, of—

(A) producers of feed grains;

(B) producers of livestock, poultry, and pork products;

(C) producers of food and food products;

(D) producers of energy;

(E) individuals and entities interested in issues relating to conservation, the environment, and nutrition; and

(F) users of renewable fuels.

(3) CONSIDERATIONS.—In conducting the study, the National Academy of Sciences shall consider—

(A) the likely impact on domestic animal agriculture feedstocks that, in any crop year, are significantly below current projections; and

(B) policy options to alleviate the impact on domestic animal agriculture feedstocks that are significantly below current projections.

(4) COMPONENTS.—The study shall include—

(A) a description of the conditions under which the requirements described in subsection (a)(2) should be suspended or reduced to prevent adverse impacts to domestic animal agriculture feedstocks described in paragraph (3)(B); and

(B) recommendations for the means by which the Federal Government could prevent or minimize adverse economic hardships and impacts.

(5) DEADLINE FOR COMPLETION OF STUDY.—Not later than 270 days after the date of enactment of this Act, the Secretary shall submit to Congress a report that describes the results of the study.

(6) PERIODIC REVIEWS.—

(A) IN GENERAL.—To allow for the appropriate adjustment of the requirements described in subsection (a)(2), the Secretary shall conduct periodic reviews of—

(i) existing technologies;

(ii) the feasibility of achieving compliance with the requirements; and

(iii) the impacts of the requirements described in subsection (a)(2) on each individual and entity described in paragraph (2).

(k) EFFECTIVE DATE.—Except as otherwise specifically provided in this section, this section takes effect on the date on which the National Academies of Science completes the study under subsection (j).

AMENDMENT NO. 1615, AS MODIFIED

At the end of title III, insert the following:

SEC. 305. ABRUPT CLIMATE CHANGE RESEARCH PROGRAM.

(a) ESTABLISHMENT OF PROGRAM.—The Secretary of Commerce shall establish within the Office of Oceanic and Atmospheric Research of the National Oceanic and Atmospheric Administration, and shall carry out, a program of scientific research on abrupt climate change.

(b) PURPOSES OF PROGRAM.—The purposes of the program are as follows:

(1) To develop a global array of terrestrial and oceanographic indicators of paleo-climate in order to sufficiently identify and describe past instances of abrupt climate change.

(2) To improve understanding of thresholds and nonlinearities in geophysical systems related to the mechanisms of abrupt climate change.

(3) To incorporate such mechanisms into advanced geophysical models of climate change.

(4) To test the output of such models against an improved global array of records of past abrupt climate changes.

(c) ABRUPT CLIMATE CHANGE DEFINED.—In this section, the term ''abrupt climate change'' means a change in the climate that occurs so rapidly or unexpectedly that human or natural systems have difficulty adapting to the climate as changed.

(d) AUTHORIZATION OF APPROPRIATIONS.—Of such sums previously authorized, there is authorized to be appropriated to the Department of Commerce for each of fiscal years 2009 through 2014, to remain available until expended, such sums as are necessary, not to exceed $10,000,000, to carry out the research program required under this section.

AMENDMENT NO. 1520, AS MODIFIED

At the end of subtitle D of title II, add the following:

SEC. 255. SUPPORT FOR ENERGY INDEPENDENCE OF THE UNITED STATES.

It is the policy of the United States to provide support for projects and activities to facilitate the energy independence of the United States so as to ensure that all but 10 percent of the energy needs of the United States are supplied by domestic energy sources.

SEC. 256. ENERGY POLICY COMMISSION.

(a) ESTABLISHMENT.—

(1) IN GENERAL.—There is established a commission, to be known as the ''National Commission on Energy Independence'' (referred to in this section as the ''Commission'').

(2) MEMBERSHIP.—The Commission shall be composed of 15 members, of whom—

(A) 3 shall be appointed by the President;

(B) 3 shall be appointed by the majority leader of the Senate;

(C) 3 shall be appointed by the minority leader of the Senate;

(D) 3 shall be appointed by the Speaker of the House of Representatives; and

(E) 3 shall be appointed by the minority leader of the House of Representatives.

(3) CO-CHAIRPERSONS.—

(A) IN GENERAL.—The President shall designate 2 co-chairpersons from among the members of the Commission appointed.

(B) POLITICAL AFFILIATION.—The co-chairpersons designated under subparagraph (A) shall not both be affiliated with the same political party.

(4) DEADLINE FOR APPOINTMENT.—Members of the Commission shall be appointed not later than 90 days after the date of enactment of this Act.

(5) TERM; VACANCIES.—

(A) TERM.—A member of the Commission shall be appointed for the life of the Commission.

(B) VACANCIES.—Any vacancy in the Commission—

(i) shall not affect the powers of the Commission; and

(ii) shall be filled in the same manner as the original appointment.

(b) PURPOSE.—The Commission shall conduct a comprehensive review of the energy policy of the United States by—

(1) reviewing relevant analyses of the current and long-term energy policy of, and conditions in, the United States;

(2) identifying problems that may threaten the achievement by the United States of long-term energy policy goals, including energy independence;

(3) analyzing potential solutions to problems that threaten the long-term ability of the United States to achieve those energy policy goals; and

(4) providing recommendations that will ensure, to the maximum extent practicable, that the energy policy goals of the United States are achieved.

(c) REPORT AND RECOMMENDATIONS.—

(1) IN GENERAL.—Not later than December 31 of each of calendar years 2009, 2011, 2013, and 2015, the Commission shall submit to Congress and the President a report on the progress of United States in meeting the long-term energy policy goal of energy independence, including a detailed statement of the consensus findings, conclusions, and recommendations of the Commission.

(2) LEGISLATIVE LANGUAGE.—If a recommendation submitted under paragraph (1) involves legislative action, the report shall include proposed legislative language to carry out the action.

(d) COMMISSION PERSONNEL MATTERS.—

(1) STAFF AND DIRECTOR.—The Commission shall have a staff headed by an Executive Director.

(2) STAFF APPOINTMENT.—The Executive Director may appoint such personnel as the Executive Director and the Commission determine to be appropriate.

(3) EXPERTS AND CONSULTANTS.—With the approval of the Commission, the Executive Director may procure temporary and intermittent services under section 3109(b) of title 5, United States Code.

(4) FEDERAL AGENCIES.—

(A) DETAIL OF GOVERNMENT EMPLOYEES.—

(i) IN GENERAL.—Upon the request of the Commission, the head of any Federal agency may detail, without reimbursement, any of the personnel of the Federal agency to the Commission to assist in carrying out the duties of the Commission.

(ii) NATURE OF DETAIL.—Any detail of a Federal employee under clause (i) shall not interrupt or otherwise affect the civil service status or privileges of the Federal employee.

(B) TECHNICAL ASSISTANCE.—Upon the request of the Commission, the head of a Federal agency shall provide such technical assistance to the Commission as the Commission determines to be necessary to carry out the duties of the Commission.

(e) RESOURCES.—

(1) IN GENERAL.—The Commission shall have reasonable access to materials, resources, statistical data, and such other information from Executive agencies as the Commission determines to be necessary to carry out the duties of the Commission.

(2) FORM OF REQUESTS.—The co-chairpersons of the Commission shall make requests for access described in paragraph (1) in writing, as necessary.

AMENDMENT NO. 1700, AS MODIFIED

At the end of subtitle B of title I, add the following:

SEC. 13__. RESEARCH AND DEVELOPMENT IN SUPPORT OF LOW-CARBON FUELS.

(a) DECLARATION OF POLICY.—Congress declares that, in order to achieve maximum reductions in greenhouse gas emissions, enhance national security, and ensure the protection of wildlife habitat, biodiversity, water quality, air quality, and rural and regional economies throughout the lifecycle of each low-carbon fuel, it is necessary and desirable to undertake a combination of basic and applied research, as well as technology development and demonstration, involving the colleges and universities of the United States, in partnership with the Federal Government, State governments, and the private sector.

(b) PURPOSE.—The purpose of this section is to provide for research support to facilitate the development of sustainable markets and technologies to produce and use woody biomass and other low-carbon fuels for the production of thermal and electric energy, biofuels, and bioproducts.

(c) DEFINITION OF FUEL EMISSION BASELINE.—In this section, the term ''fuel emission baseline'' means the average lifecycle greenhouse gas emissions per unit of energy of the fossil fuel component of conventional transportation fuels in commerce in the United States in calendar year 2008, as determined by the President.

(d) GRANT PROGRAM.—The President shall establish a program to provide to eligible entities (as identified by the President) grants for use in—

(1) providing financial support for not more than 4 nor less than 6 demonstration facilities that—

(A) use woody biomass to deploy advanced technologies for production of thermal and electric energy, biofuels, and bioproducts; and

(B) are targeted at regional feedstocks and markets;

(2) conducting targeted research for the development of cellulosic ethanol and other liquid fuels from woody or other biomass that may be used in transportation or stationary applications, such as industrial processes or industrial, commercial, and residential heating;

(3) conducting research into the best scientifically-based and periodically-updated methods of assessing and certifying the impacts of each low-carbon fuel with respect to—

(A) the reduction in lifecycle greenhouse gas emissions of each fuel as compared to—

(i) the fuel emission baseline; and

(ii) the greenhouse gas emissions of other sectors, such as the agricultural, industrial, and manufacturing sectors;

(B) the contribution of the fuel toward enhancing the energy security of the United States by displacing imported petroleum and petroleum products;

(C) any impacts of the fuel on wildlife habitat, biodiversity, water quality, and air quality; and

(D) any effect of the fuel with respect to rural and regional economies;

(4) conducting research to determine to what extent the use of low-carbon fuels in the transportation sector would impact greenhouse gas emissions in other sectors, such as the agricultural, industrial, and manufacturing sectors;

(5) conducting research for the development of the supply infrastructure that may provide renewable biomass feedstocks in a consistent, predictable, and environmentally-sustainable manner;

(6) conducting research for the development of supply infrastructure that may provide renewable low-carbon fuels in a consistent, predictable, and environmentally-sustainable manner; and

(7) conducting policy research on the global movement of low-carbon fuels in a consistent, predictable, and environmentally-sustainable manner.

(e) AUTHORIZATION OF APPROPRIATIONS.—Of the funding authorized under section 122, there are authorized to be appropriated to carry out this section—

(1) $45,000,000 for fiscal year 2009;

(2) $50,000,000 for fiscal year 2010;

(3) $55,000,000 for fiscal year 2011;

(4) $60,000,000 for fiscal year 2012; and

(5) $65,000,000 for fiscal year 2013.

AMENDMENT NO. 1724

(Purpose: To modify the deadline by which the President is required to approve or disapprove a certain State petition)

On page 21, line 17, strike ''90'' and insert ''30''.

The PRESIDING OFFICER. Under the previous order, amendment No. 1502, as amended, is agreed to.

The amendment (No. 1502), as amended, was agreed to.

The PRESIDING OFFICER. Under the previous order, the question is on the engrossment of the amendments and third reading of the bill.

The amendments were ordered to be engrossed and the bill to be read a third time.

The bill was read the third time.

CLOTURE MOTION

The PRESIDING OFFICER. Under the previous order and pursuant to rule

XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will report.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on Calendar No. 9, H.R. 6, Comprehensive Energy legislation.

Jeff Bingaman, Barbara Boxer, Patty Murray, John Kerry, Robert Menendez, Kent Conrad, Pat Leahy, Russell Feingold, Jack Reed, Christopher Dodd, Ken Salazar, Joe Biden, Frank R. Lautenberg, Daniel K. Inouye, Dianne Feinstein, Jay Rockefeller, Byron L. Dorgan.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the bill (H.R. 6) to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from California (Mrs. BOXER) and the Senator from South Dakota (Mr. JOHNSON) are necessarily absent.

Mr. LOTT. The following Senators are necessarily absent: the Senator from Kansas (Mr. BROWNBACK), the Senator from Oklahoma (Mr. COBURN), and the Senator from Arizona (Mr. MCCAIN).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 62, nays 32, as follows:

[Rollcall Vote No. 225 Leg.]

YEAS—62

Akaka	Ensign	Nelson (FL)
Alexander	Feingold	Nelson (NE)
Baucus	Feinstein	Obama
Biden	Graham	Reed
Bingaman	Grassley	Reid
Brown	Gregg	Rockefeller
Byrd	Harkin	Salazar
Cantwell	Inouye	Sanders
Cardin	Kennedy	Schumer
Carper	Kerry	Smith
Casey	Klobuchar	Snowe
Clinton	Kohl	Specter
Coleman	Lautenberg	Stevens
Collins	Leahy	Sununu
Conrad	Lieberman	Tester
Corker	Lincoln	Thune
Craig	Lugar	Warner
Crapo	Menendez	Webb
Dodd	Mikulski	Whitehouse
Dorgan	Murkowski	Wyden
Durbin	Murray	

NAYS—32

Allard	Bennett	Bunning
Bayh	Bond	Burr
Chambliss	Hutchison	McConnell
Cochran	Inhofe	Pryor
Cornyn	Isakson	Roberts
DeMint	Kyl	Sessions
Dole	Landrieu	Shelby
Domenici	Levin	Stabenow
Enzi	Lott	Vitter
Hagel	Martinez	Voinovich
Hatch	McCaskill	

NOT VOTING—5

Boxer	Coburn	McCain
Brownback	Johnson	

The PRESIDING OFFICER. On this vote, the yeas are 62, the nays are 32. Three-fifths of the Senators duly chosen and sworn having voted in the affirmative, the motion is agreed to.

Under the previous order, the question is, Shall the bill pass?

Mr. DURBIN. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from California (Mrs. BOXER) and the Senator from South Dakota (Mr. JOHNSON) are necessarily absent.

Mr. LOTT. The following Senators are necessarily absent: the Senator from Missouri (Mr. BOND), the Senator from Kansas (Mr. BROWNBACK), the Senator from Oklahoma (Mr. COBURN), the Senator from Arizona (Mr. MCCAIN), and the Senator from Alabama (Mr. SHELBY).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 65, nays 27, as follows:

[Rollcall Vote No. 226 Leg.]

YEAS—65

Akaka	Durbin	Nelson (NE)
Alexander	Ensign	Obama
Baucus	Feingold	Pryor
Bayh	Feinstein	Reed
Biden	Grassley	Reid
Bingaman	Gregg	Rockefeller
Brown	Harkin	Salazar
Byrd	Inouye	Sanders
Cantwell	Kennedy	Schumer
Cardin	Kerry	Sessions
Carper	Klobuchar	Smith
Casey	Kohl	Snowe
Clinton	Lautenberg	Specter
Coleman	Leahy	Stevens

NOT VOTING—7

Bond	Coburn	Shelby
Boxer	Johnson	
Brownback	McCain	

The bill (H.R. 6), as amended, was passed, as follows:

(The bill will be printed in a future edition of the RECORD.)

Ms. KLOBUCHAR. Mr. President, I move to reconsider the vote, and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. REID. Mr. President, due to a family obligation, Senator BOXER was unable to attend today's session. Had she been present for the vote to invoke cloture on the Baucus energy tax package, she would have cast a vote of ''aye''. She would have also cast a vote of ''aye'' on the motion to invoke cloture on the Reid substitute, cloture on the underlying bill, and on final passage of H.R. 6.

MORNING BUSINESS

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that there now be a period for the transaction of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRIBUTE TO SENATOR ROBERT C. BYRD

Mr. DURBIN. Mr. President, I want to join Senator REID, and all of my colleagues, in congratulating Senator ROBERT BYRD on reaching yet another historic milestone in his lifetime of public service.

To have the privilege of casting even one vote in the U.S. Senate is an honor. To cast 18,000 votes in this Senate is a legend.

It is a feat that has never been achieved before, and very likely never will be again.

His 18,000 votes in this Senate are more than a singular statistic. They are yet another measure of ROBERT C. BYRD's lifetime of devotion to his state, our Nation, this institution, and to the U.S. Constitution.

Senator BYRD is, of course, a great student of history—and the author of the definitive work on the history of the U.S. Senate. In fact, one could say that ROBERT C. BYRD is Senate history.

Think about this: In addition to being the only Senator ever to cast 18,000 votes, Senator BYRD is also the first U.S. Senator ever to cast 15,000 votes.

Senator BYRD has served with—not under, with—11 Presidents.

He has served as majority leader and held more leadership positions than any Senator in history.

To help put the length of his service in perspective, consider a few facts: When Senator BYRD cast his first vote in the Senate—on January 8, 1959 his colleagues included Senators John Kennedy and Lyndon Johnson. Vice President Richard Nixon was the presiding officer. Hawaii was not yet a

state. And a state-of-the-art computer would have taken up half of the space of this Chamber and had roughly the same amount of computing power as a Palm Pilot.

Today, Senator BYRD is a hero among bloggers and so many others because of his unyielding dedication to our Constitution and his obvious love of our Nation and the principles for which it stands.

He is the unrivaled expert on Senate rules.

He has been a candidate for election 12 times—9 times as a candidate for the U.S. Senate and 3 times as a candidate for the U.S. House. He won every time.

And he has become perhaps the most popular political figure in West Virginia history. He was named West Virginian of the Century by the residents of his home State.

It is an honor to serve with this giant of Senate history, and to share with him this milestone. Again, I commend him and congratulate him.

Mr. ROCKEFELLER. Mr. President. I stand today to honor my dear friend and colleague, Senator ROBERT C. BYRD.

Few of us can truly hold claim to the title of living legend—but ROBERT C. BYRD can. This afternoon he cast his 18,000th vote. A remarkable record that reflects his years of dedicated, passionate and heartfelt service to the people of West Virginia and the Republic he so loves.

Eighteen thousand is an impressive number. But what is more impressive is the change that those votes had on America. He voted to strengthen Social Security for all Americans. He voted to turn the dream of college education into a reality for all students. He voted to ensure that those who put in an honest day's work receive an honest day's wage. He voted to protect the health and safety of coal miners. And, he voted to ensure that those who serve in uniform would get the benefits they deserve. Quite frankly, his voting record, and its impact on the fabric of our country, is immeasurable.

Along the way, his votes and his voice became the conscience of the Senate. Reminding us all that change is never easy, and that following the rules matters. That we can disagree with each other, even an administration, but we can ill afford to be disagreeable with each other.

It is impossible to picture the history of the last 50 years without thinking of ROBERT C. BYRD's impact and influence on all of our lives. I am incredibly honored to serve every day with my dear friend and colleague—he is an inspiration to us all.

S. CON. RES. 21 CHANGES

Mr. CONRAD. Mr. President, section 309 of S. Con. Res. 21, the 2008 Budget Resolution, permits the chairman of the Senate Budget Committee to revise the allocations, aggregates, and other appropriate levels and limits for legislation that reauthorizes the Secure Rural Schools and Community Self-Determination Act of 2000, makes changes to the Payments in Lieu of Taxes Act of 1976, or both, so long as that legislation does not worsen the deficit over the period of fiscal years 2007 through 2012 or fiscal years 2007 through 2017.

I find that Senate amendment No. 1704 offered by Senator BAUCUS to Senate amendment No. 1502 satisfies the conditions of the deficit-neutral reserve fund for county payments legislation. Therefore, pursuant to section 309, I am adjusting the aggregates in the 2008 budget resolution, as well as the allocation provided to the Senate Energy and Natural Resources Committee.

I ask unanimous consent that the following revisions to S. Con. Res. 21 be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CONCURRENT RESOLUTION ON THE BUDGET FOR FISCAL YEAR 2008—S. CON. RES. 21; REVISIONS TO THE CONFERENCE AGREEMENT PURSUANT TO SECTION 309 DEFICIT-NEUTRAL RESERVE FUND FOR COUNTY PAYMENTS LEGISLATION

[In billions of dollars]

Section 101:	
(1)(A) Federal Revenues:	
FY 2007	1,901.520
FY 2008	2,018.073
FY 2009	2,114.167
FY 2010	2,169.484
FY 2011	2,350.294
FY 2012	2,489.580
(1)(B) Change in Federal Revenues:	
FY 2007	−3.186
FY 2008	−32.723
FY 2009	7.241
FY 2010	5.763
FY 2011	−44.256
FY 2012	−107.516
(2) New Budget Authority:	
FY 2007	2,376.348
FY 2008	2,496.522
FY 2009	2,517.896
FY 2010	2,570.370
FY 2011	2,685.483
FY 2012	2,719.714
(3) Budget Outlays:	
FY 2007	2,299.749
FY 2008	2,468.780
FY 2009	2,566.479
FY 2010	2,600.013
FY 2011	2,692.447
FY 2012	2,703.920

CONCURRENT RESOLUTION ON THE BUDGET FOR FISCAL YEAR 2008—S. CON. RES. 21; REVISIONS TO THE CONFERENCE AGREEMENT PURSUANT TO SECTION 309 DEFICIT-NEUTRAL RESERVE FUND FOR COUNTY PAYMENTS LEGISLATION

[In billions of dollars]

Current Allocation to Senate Energy and Natural Resources Committee:	
FY 2007 Budget Authority	5,016

FY 2008 Budget Authority	5,636
FY 2008 Outlays	5,322
FY 2008–2012 Budget Authority	29,583
FY 2008–2012 Outlays	28,475

TRAGEDY IN CHARLESTON, SOUTH CAROLINA

Mr. DODD. Mr. President, I rise briefly to speak for a few moments about the horrible tragedy we witnessed Tuesday morning in Charleston, SC: the death of nine firefighters: Captain Wiliam ''Billy'' Hutchinson, Captain Mike Benke, Captain Louis Mulkey, Engineer Mark Kelsey, Engineer Bradford ''Billy'' Baity, Assistant Engineer Michael French, Firefighter James ''Earl'' Drayton, Firefighter Brendon Thompson, and Firefighter Melvin Champaign.

Clearly, this loss is one of profound sadness for the Charleston community and, indeed, for the entire Nation. My thoughts and prayers go out to these firefighters' loved ones, families, friends, and colleagues.

These nine brave men died while fighting a horrific multialarm fire in which two people were ultimately saved. In other words, they selflessly gave their lives while ensuring the safety and well-being of others. This is the ultimate sacrifice of a firefighter—a sacrifice that has been made by 3,148 men and women since 1981.

We must never forget the dangers firefighters across our Nation dauntlessly face each and every day—dangers that have their roots in nature or mankind. Whether responding to fires, natural disasters, or acts of terrorism, our firefighters risk and give their lives extinguishing fires, delivering lifesaving emergency medical services, conducting search and rescue missions, and responding to and handling hazardous biological and radiological agents. Our Nation's firefighters certainly do not perform these duties for any self-glorification. They perform these duties because each and every one of them answers a noble call to serve this country and protect its people from harm.

Woodrow Wilson once wrote that ''. . . loyalty means nothing unless it has at its heart the absolute principle of self-sacrifice.'' Clearly, the loyalty of these nine firefighters—loyalty to duty, country, and each other—were tragically demonstrated overnight Monday. May we mourn them and draw

inspiration from their actions. May we never forget them.

Mr. BIDEN. Mr. President, tomorrow in Charleston will be a citywide day of mourning for the nine firefighters who died, rushing into the blazing furniture store to try to save a life. I rise to pay my respects to those fallen heroes and to their families.

The other day, when I heard the fire chief, Rusty Thomas, say he lost nine of his best friends, I know what he meant. So does every Senator in this Chamber because firefighters are the best things our communities have.

They risk their lives every day we lay a heavy, heavy responsibility on them. But think of how many countless lives are saved because of their dedication, because they will find the people trapped inside a burning building.

I remember when our former colleague from Charleston, Senator Hollings, had the terrible fire that burned his home, it was those same South Carolina firefighters who came to help one of our own.

Whether they are in Charleston or the volunteers in Claymont, DE, where I come from, when they are done putting out a blaze, you can find them organizing the little league teams or grating the baseball diamonds or taking care of the boy and girl scouts. They are the grit that makes this country great.

What happened in South Carolina reminds all of us just how important firefighters are to our communities, how brave these people are, and how dangerous their work is.

We saw it during Hurricane Katrina, when 1,000 firefighters who themselves lost their homes and their cars, whose whole lives were turned upside down, spent day after day rescuing people from rooftops.

We saw it on September 11, when that grizzled fireman came out of the debris of human flesh and cement and steel to become the face around the world of America's determination.

Three hundred forty-three firemen were lost on that terrible day. And the tragedy in Charleston is the single greatest loss of firefighters in the nation since then.

Just as the spirit of those firefighters on September 11 helped lift America off our knees, I hope that the grief Charleston feels this week will be lifted by the legacy of their fallen heroes.

HONORING OUR ARMED FORCES

STAFF SERGEANT MICHAEL A. BECHERT

Mr. BAYH. Mr. President, I rise today with a heavy heart and deep sense of gratitude to honor the life of the brave staff sergeant from Indiana. Michael Bechert, 24 years old, died on June 14 from injuries sustained on May 30, 2007, in Baghdad, Iraq, when his vehicle encountered an improvised explosive device. With his whole life before him, Michael risked everything to fight for the values Americans hold close to our hearts, in a land halfway around the world.

An Indiana native, Michael last resided in Germany where he met his wife Daniela. In addition to his military service, Michael was a devoted husband and the father of their 20-month-old boy, Branden. ''He was a great father, husband. A young, fresh young man. He fought for his country and died for it,'' said Daniela. Along with his wife and son, he leaves behind his father Michael L. Bechert and his grandparents George and Doris Bechert who raised him.

Michael was assigned to C Company, 1st Battalion, 18th Infantry Regiment, 1st Infantry Division in Schweinfurt, Germany. He was killed during his second deployment in Iraq, while serving his country in Operation Iraqi Freedom. During his first tour of duty he was injured and deservingly awarded the Purple Heart.

Today, I join Michael's family and friends in mourning his death. While we struggle to bear our sorrow over this loss, we can also take pride in the example he set, bravely fighting to make the world a safer place. It is his courage and strength of character that people will remember when they think of Michael, a memory that will burn brightly during these continuing days of conflict and grief.

Michael was known for his dedication to his family and his love of country. Today and always, Michael will be remembered by family members, friends and fellow Hoosiers as a true American hero, and we honor the sacrifice he made while dutifully serving his country.

As I search for words to do justice in honoring Michael's sacrifice, I am reminded of President Lincoln's remarks as he addressed the families of the fallen soldiers in Gettysburg:

> We cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it, far above our poor power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here.

This statement is just as true today as it was nearly 150 years ago, as I am certain that the impact of Michael's actions will live on far longer that any record of these words.

It is my sad duty to enter the name of Michael A. Bechert in the RECORD of the U.S. Senate for his service to this country and for his profound commitment to freedom, democracy and peace. When I think about this just cause in which we are engaged, and the unfortunate pain that comes with the loss of our heroes, I hope that families like Michael's can find comfort in the words of the prophet Isaiah who said, ''He will swallow up death in victory; and the Lord God will wipe away tears from off all faces.''

May God grant strength and peace to those who mourn, and may God be with all of you, as I know He is with Michael.

SPECIALIST FIRST CLASS DAVID A. WILKEY, JR.

Mr. President, I also rise today with a heavy heart and deep sense of gratitude to honor the life of the brave specialist first class from Indiana. David Wilkey, 22 years old, died on June 18th, 2007, from injuries sustained on June 17th, in Baghdad, Iraq, when an improvised explosive device detonated near his dismounted patrol. With an optimistic future before him, David risked everything to fight for the values Americans hold close to our hearts, in a land halfway around the world.

Although David was extremely proud of his military service, he prided himself most on his family. He was a devoted husband to Melinda and loving father of 4-year-old stepson Christian Clark and 1-year-old son Blayke. They also have another child due in October. David's love for his family drove him to enlist, in order to continue his support of them. David is also survived by his mother Cindy, his father David Sr., stepmother Margaret, as well as two sisters and a brother.

David was on his first deployment in Iraq and had been there since February 2007. Assigned to C Company, 1st Battalion, 28th Infantry Regiment, 1st Infantry Division, Fort Riley, Kansas, he was killed while serving his country in Operation Iraqi Freedom. ''He had a big heart, and he's a son that any father could be proud of,'' David Sr. said.

Today, I join David's family and friends in mourning his death. While we struggle to bear our sorrow over this loss, we can also take pride in the example he set, bravely fighting to make the world a safer place. It is his courage and strength of character that people will remember when they think of David, a memory that will burn brightly during these continuing days of conflict and grief.

David was known for his dedication to his family and his love of country. Today and always, David will be remembered by family members, friends and fellow Hoosiers as a true American hero, and we honor the sacrifice he made while dutifully serving his country.

As I search for words to do justice in honoring David's sacrifice, I am reminded of President Lincoln's remarks as he addressed the families of the fallen soldiers in Gettysburg:

> We cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it, far above our poor power to add or detract. The world will little note nor long remember what we say here, but it can never forget what they did here.

This statement is just as true today as it was nearly 150 years ago, as I am

certain that the impact of David's actions will live on far longer that any record of these words.

It is my sad duty to enter the name of David A Wilkey, Jr. in the RECORD of the U.S. Senate for his service to this country and for his profound commitment to freedom, democracy and peace. When I think about this just cause in which we are engaged, and the unfortunate pain that comes with the loss of our heroes, I hope that families like David's can find comfort in the words of the prophet Isaiah who said, ''He will swallow up death in victory; and the Lord God will wipe away tears from off all faces.''

May God grant strength and peace to those who mourn, and may God be with all of you, as I know He is with David.

WORLD DAY OF REMEMBRANCE

Mr. DODD. Mr. President, I am proud to add my voice in support of H. Con. Res. 86, a resolution supporting the goals and ideals of a world day of remembrance for road crash victims.

Each crash might seem to us, in its immediacy, like an isolated tragedy, but when we step back, we see that each has its part in a global crisis that is deepening year by year. The day of remembrance—set by the United Nations General Assembly for the third Sunday of November—is not just for the 40,000 people who die in road crashes each year in America. It is for the 1.2 million who die in crashes in every part of the world and for the staggering 20 to 50 million who are injured. In fact, the World Health Organization predicts that, by the year 2020, the death rate from crashes each year will surpass the death rate from AIDS.

True, many of these crashes are unique disasters, but that leaves many more whose causes are systemic and preventable. Unsafe roads, poor medical facilities, and inadequate driver education all contribute their share to the death toll. Unsurprisingly, the toll is highest, and rising, in middle- and low-income countries. Road safety, then, is an issue of economic justice.

On the world day of remembrance, we will recall all of the victims of road crashes; we keep their families in our thoughts, and we pray for the full recovery of those still living. But our compassion for individuals must not obscure the bigger picture. ''We have to change the way we think about crashes,'' said Diza Gonzaga, the mother of a car-crash victim in Brazil. ''The majority of people think that crashes are due to fate. We have to think of a crash as a preventable event.''

EMPLOYEE FREE CHOICE ACT

Mr. HARKIN. Mr. President, I have always supported organized labor, for a simple reason: When workers join together and act collectively, they can achieve economic gains that they would never be able to negotiate individually. History tells us this: Union members were on the front lines fighting for the 40-hour workweek, the minimum wage, employer-provided health insurance and pensions. Organized labor led the way in passing legislation to ensure fair and safe workplaces and in championing many other employee safety nets, including Social Security, Medicare, and the Family and Medical Leave Act.

Unfortunately, continued forward progress is not inevitable. We have seen this in recent years, as union membership has declined, wages have stagnated, the numbers of uninsured have risen, and private companies have been allowed to default on their pensions, threatening the retirement security of millions of Americans. It is clear to me that to rebuild economic security, we must first rebuild strong and vibrant unions. And to rebuild strong unions, we must first reduce unfair barriers to union organizing.

To rebuild the promise of health care and pension benefits, we must reduce unfair barriers to union organizing. A recent study by the Institute for America's Future confirms this. By comparing organizing campaigns in the United States and Canada, the study found that more worker-friendly certification rules increase union participation.

Of course, this is all just common sense. If you reduce the barriers to workers joining unions, more workers will join. But what does it mean? Well, as this study makes clear, by passing the Employee Free Choice Act, and by making it easier for workers to band together, more than 3.5 million Americans would be able to secure health coverage, and nearly 3 million more Americans would have access to employer-based pensions.

Middle class families in this country have an increasingly difficult time making ends meet. More than 47 million Americans lack health insurance—including 251,000 Iowans—and even those with coverage find that if often covers less and less. This should not be happening in America. When productivity rises, everyone should see their fair share of that gain, but in the past several years, increasing productivity has gone hand-in-hand with a growing wage gap. According to the nonpartisan Congressional Research Service:

> Adjusted for inflation, average worker pay rose 8 percent from 1995 to 2005; median CEO pay at the 350 largest firms rose about 150 percent over the same period.

In my home State of Iowa, real median household income fell by 3.4 percent between 1999 and 2005, dropping from $48,142 in 1999 to $46,500 in 2005.

By passing the Employee Free Choice Act, by giving workers a seat at the table, we can start to reverse this negative trend. Union participation in the workplace means everybody wins. When employees have a voice—not just to ask for better wages and benefits, but to make suggestions about how to do things better—employers benefit, too. Union employees take pride in their work and work to get more training. And they are happy to help find other efficiencies in the operation, because they get a share of the savings.

Unfortunately, scaremongers are trying to tell us that the Employee Free Choice Act takes away employee rights to a ''secret ballot.'' Nothing could be further from the truth. This bill does not establish a new election process; it merely requires employers to honor employee choice. Right now, the company gets to decide whether it will recognize a majority sign-up vote. Under the aptly named Employee Free Choice Act, the employees get to decide. If the workers want to use the National Labor Relations Board process, they are perfectly free to do so. But, as we know from hard experience, that process can be threatening and intimidating to many employees.

In addition to making it easier to form a union in the first place, the Employee Free Choice Act provides for arbitration for the first contract. I know from personal experience how simply stalling negotiations of a contract can bust a union and cause major economic hardship for people. My brother Frank was a proud UAW member for 23 years. He worked at the old Delavan manufacturing plant in Des Moines. In 23 years, he missed only 5 days of work—all of them because of blizzards. He made a good living. He was a dedicated employee. During those 23 years, there was never one strike or work stoppage. Delavan made good money.

But then Old Man Delavan decided to retire and sell the company. A group of investors bought it. And one of the new owners bragged that, ''If you want to see how to get rid of a union, come to Delavan, and we'll show you how.''

He made good on that boast. When the contract came up, the company put forward conditions that no union could agree to in good conscience. The owners refused to budge, and the UAW local had no choice but to go out on strike for the first time. When they did, the company brought in replacement workers. It was a long, bitter strike. And after 1 year as allowed by labor law—they had a decertification vote. Who votes to decertify the union? The workers who are there—the replacement workers. They didn't want to lose their jobs, so they voted to decertify.

So after 23 years Frank was out of a job. He lost his union job with excellent pay, vacation time, and a pension. And what does a 54-year-old deaf man do in a predicament like that? He got a job as a janitor at a shopping mall—working nights for minimum wage,

with no benefits and no vacation time. It didn't just destroy his livelihood. It broke his spirit.

My friends, that is what happens when unions are weakened and destroyed. It jeopardizes our standard of living and our whole middle-class way of life. And, my friends, that is exactly what is happening, today, to tens of millions of people all across America.

I quote a December, 2005 letter signed by 11 Nobel Peace Prize laureates calling for greater international labor rights:

> Even the wealthiest nation in the world—the United States of America—fails to adequately protect workers' rights to form unions and bargain collectively. Millions of U.S. workers lack any legal protection to form unions and thousands are discriminated against every year for trying to exercise these rights.

It is time to level the playing field for workers in this country. It is time to give them a truly free and fair election process to decide if they want representation in the workplace. It's time to pass the Employee Free Choice Act.

HONORING AUNG SAN SUU KYI

Mrs. FEINSTEIN. Mr. President, I rise today with Senator MCCONNELL and the cochair of the United States Senate Women's Caucus on Burma, Senator KAY BAILEY HUTCHISON, to introduce a resolution honoring Nobel Peace laureate and leader of Burma's democratic opposition, Aung San Suu Kyi.

We are joined in this effort by Senator BOXER, Senator MCCAIN, Senator MIKULSKI, Senator CLINTON, Senator LINCOLN, Senator MURKOWSKI, and Senator DOLE.

Our resolution: honors Aung San Suu Kyi for her courage and devotion to the people of Burma and their struggle for democracy, and; calls for the immediate release of Suu Kyi and other political prisoners by the ruling military junta, the State Peace and Development Council.

Two days ago, we celebrated the 62nd birthday of Aung San Suu Kyi. Sadly, she spent the day as she has for most of the past 17 years: alone and under house arrest. And just last month, the State Peace and Development Council renewed her sentence for yet another year.

Yet I am heartened to know that the Senate and the international community are coming together to ensure that the abuses and injustices of the military junta in Burma do not go unnoticed.

Earlier this year, 45 United States Senators signed a letter to United Nations Secretary General Ban ki-Moon urging him to get personally involved in pressing for Suu Kyi's release.

In a recent letter addressed to the State Peace and Development Council, a distinguished group of 59 former heads of state—including former Filipino President Corazon Aquino, former Czech President Vaclav Havel, former British Prime Minister John Major and former Presidents Bill Clinton, Jimmy Carter, and George H.W. Bush—called for the regime to release Aung San Suu Kyi.

They correctly noted that ''Aung San Suu Kyi is not calling for revolution in Burma, but rather peaceful, nonviolent dialogue between the military, National League for Democracy, and Burma's ethnic groups.''

The calls for Suu Kyi's release are also coming from Burma's neighbors.

The Association of Southeast Asian Nations, ASEAN, now recognizes that Burma's actions are not an ''internal matter'' but a significant threat to peace and stability in the region. At a meeting of senior diplomats last month, ASEAN made a clear call for Aung San Suu Kyi's release.

Last month, the women of the United States Senate came together to form the Women's Caucus on Burma to express our solidarity with Suu Kyi, call for her immediate release urge the United Nations to pass a binding resolution on Burma.

At our inaugural event, we were pleased to be joined by First Lady Laura Bush, who added her own voice to those calling for peace and democracy in Burma.

And last week, Senator MCCONNELL along with 58 of our colleagues introduced legislation to renew the import ban on Burma for another year.

Our message is clear: We will not remain silent, we will not stand still until Aung San Suu Kyi and all political prisoners are released and democratic government is restored in Burma.

I urge my colleagues to support this resolution.

ADDITIONAL STATEMENTS

TRIBUTE TO JUDGE RALPH BURNETT

● Mr. CARDIN. Mr. President, today I honor the memory of the Honorable Ralph M. Burnett, a Maryland district court judge and a pioneer in the fight against prostate cancer. He was an exemplary citizen of our State, and his contributions to the Maryland judicial system and the advocacy groups he worked with will not be forgotten. On May 9, 2007, Judge Burnett died from complications related to prostate cancer at the age of 64.

Judge Burnett was born in 1943 in Seneca Falls, NY. After graduating from St. Paul's High School in 1961, he earned a bachelor's degree from Dickinson College in 1965. A Vietnam veteran, Judge Burnett was stationed in Korea as a first lieutenant in the U.S. Army until 1969. After returning to America, he enrolled in the Baltimore School of Law, where he received his law degree in 1972.

Judge Burnett began his private practice in Oakland, MD, in 1972 and he lived in the Oakland area until his passing. He served as Garrett County's State attorney from 1974 until 1978, and in December 1993, he was appointed as an associate district court judge for Garrett County by then-Maryland Governor William Donald Schaefer. Judge Burnett was a member of the executive committee of the Maryland Judicial Conference and served on the editorial board of Justice Matters until his death.

After being diagnosed with prostate cancer in 1996, Judge Burnett became a devoted advocate and tenacious leader for the prostate cancer community. In 1997, he was elected to the board of the National Prostate Cancer Coalition, NPCC, and served as chairman of the organization from 1999 until 2001. Under Judge Burnett's leadership, the National Prostate Cancer Coalition tripled in size during his tenure. After stepping down as chairman, Judge Burnett remained active as a member of the board and continued to pursue patient rights and greater treatment options for men with prostate cancer.

Judge Burnett was an advocate for Johns Hopkins University's Specialized Program of Research Excellence, SPORE, and also served on Department of Defense, DOD, research panels. As a member of the DOD Prostate Cancer Research Program Integration Panel, Judge Burnett worked to find the best ways to leverage the Department's investment in prostate cancer research. He was also a committed member of the Consortium Panel of the Congressionally Directed Medical Research Program, which discovered the lethal phenotype that causes prostate cancer.

Mr. President, I ask my colleagues to join me in extending condolences to Judge Burnett's family and friends and in expressing appreciation for his life of community service and his commitment to prostate cancer research.●

125TH ANNIVERSARY OF EDINBURG, NORTH DAKOTA

● Mr. CONRAD. Mr. President, I am pleased today to recognize a community in North Dakota that will be celebrating its 125th anniversary. On July 6–8, the residents of Edinburg will gather to celebrate their community's history and founding.

The town of Edinburg is located on the edge of the Red River Valley and the western prairies. Although it is a small town, Edinburg has the drive, dreams, and heart of cities ten times its size. The father of Edinburg was a Norwegian by the name of Christian Buck. He became the first postmaster of Edinburg when the post office was

established in 1882. The town of Edinburg was named in honor of the university where Mr. Buck obtained his college education. The first establishments in Edinburg included a blacksmith shop and a drug store.

Despite a significant fire that destroyed nearly all of the town's businesses in 1900, Edinburg has grown and flourished since its beginning. Known as the Bird Capital of North Dakota, Edinburg offers many opportunities for bird enthusiasts to observe nature at its finest. A city park offers the chance for family gatherings and picnics. The Edinburg Fire Department is boasted as one of the best in the area.

The town of Edinburg is a beautiful place for people to live and visitors to visit. To celebrate its 125th anniversary, the town will hold an all school reunion, a street dance, a parade and fireworks.

I ask the U.S. Senate to join me in congratulating Edinburg, ND, and its residents on their first 125 years and in wishing them well in the future. By honoring Edinburg and all other historic small towns of North Dakota, we keep the great pioneering frontier spirit alive for future generations. It is places such as Edinburg that have helped shape this country into what it is today, which is why this fine community is deserving of our recognition.

Edinburg has a proud past and a bright future.●

125TH ANNIVERSARY OF HOPE, NORTH DAKOTA

● Mr. CONRAD. Mr. President, I am pleased to recognize a community in North Dakota that will be celebrating its 125th anniversary. On July 5–8, the residents of Hope will gather to celebrate their community's history and founding.

Founded in 1882, Hope is a small town in Steele County located in eastern North Dakota. The post office was established in 1881, and it became a city in 1904. The community was named in honor of Hope A. Hubbard Steele, wife of E.H. Steele, for whom the county was named.

The residents of Hope describe their town as an active and close-knit community. When a function or task needs to be completed, the residents work together to accomplish it. Many of the recreational facilities, such as the outdoor swimming pool and the nine hole golf course, are supported by local organizations and the community. The local Sportsmen's Club purchased a building from the community for one dollar and converted it into a 24-hour youth recreational facility. A further investment into the community was made by residents when they purchased La Rinascente Pasta, a New Jersey based pasta company, that was relocated to Hope.

The residents are excited to commemorate their upcoming anniversary with a weekend celebration that will include a parade, a Texas Hold 'em Tournament, a tractor pull, and many other activities. In addition, there will be a Veterans Memorial dedication that will feature a cannon from the Civil War.

I ask the U.S. Senate to join me in congratulating Hope, ND, and its residents on their first 125 years and in wishing them well in the future. By honoring Hope and all the other historic small towns of North Dakota, we keep the great pioneering frontier spirit alive for future generations. It is places such as Hope that have helped to shape this country into what it is today, which is why this fine community is deserving of our recognition.

Hope has a proud past and a bright future.●

100TH ANNIVERSARY OF LIGNITE, NORTH DAKOTA

● Mr. CONRAD. Mr. President, I am pleased today to honor a community in North Dakota that is celebrating its 100th anniversary. On July 6–8, the residents of Lignite will celebrate their community's history and founding.

Lignite is a vibrant community located in northwestern North Dakota. It was founded in April 1907 as a coal town. The first post office followed within the same month. Today the name Lignite pays tribute to the coal veins located in and around the town. Lignite is also the first town in North Dakota to drill an oil well within the city limits.

Today, Lignite remains a small but thriving town with a strong sense of community. Many different local organizations are proud to call Lignite home. These include local chapters of 4–H, FFA, American Legion, and the Boy and Girl Scouts of America.

There are also many recreational opportunities for the citizens of Lignite, from quilting to hunting, camping to golf, softball to ice fishing. The town also boasts a large public park for residents and campers alike. For its centennial celebration, Lignite has planned a four-day-long festival that includes softball and golf tournaments, a day-long street festival, and a local fashion show.

I ask the U.S. Senate to join me in congratulating Lignite, ND, and its residents on their first 100 years and in wishing them well in the next century. By honoring Lignite and all the other historic small towns of North Dakota, we keep the great tradition of the pioneering frontier spirit alive for future generations. It is places such as Lignite that have helped to shape this country into what it is today, which is why this fine community is deserving of our recognition.

Lignite has a proud past and a bright future.●

125TH ANNIVERSARY OF PETERSBURG, NORTH DAKOTA

● Mr. CONRAD. Mr. President, today I wish to recognize a community in North Dakota that will be celebrating its 125th anniversary. On July 13–15, the residents of Petersburg will gather to celebrate their community's history and founding.

Petersburg is a vibrant community in the northeastern part of North Dakota, not far from Grand Forks Air Force Base. Petersburg holds an important place in North Dakota's history. Founded by Levi Peterson and Martin N. Johnson, the name of the community was determined by a coin toss. Peterson won the coin toss and declared the city name Petersburg in honor of his birthplace in Petersborg, Norway.

Today, Petersburg is a farming community with an assortment of clubs. Some of these organizations like the Sons of Norway, Red River Valley Scandinavian Singers Association, and the Norwegian Singers and Association of America are keeping the region's Scandinavian culture alive. Petersburg also takes much pride in its curling club.

For those who call Petersburg home, it is a comfortable place to live, work, and play. The community has planned an exciting 125th anniversary weekend. There will be a parade, food, bands, dancing, a craft show, flea market, magicians, games, an all school reunion, and much more.

I ask the U.S. Senate to join in me congratulating Petersburg, ND, and its residents on their first 125 years and wishing them well in the future. By honoring Petersburg and all the other historic small towns of North Dakota, we keep the great pioneering frontier spirit alive for future generations. It is places such as Petersburg that have helped to shape this country into what it is today, which is why this fine community is deserving of our recognition.

Petersburg has a proud past and a bright future.●

COMMENDING THE EFFORTS OF DAVID JOSEPH LYNCH

● Mr. CRAPO. Mr. President, today I pay tribute to a very special Idahoan who has undertaken a very important and challenging mission. Many people are moved by a cause; few are inspired to take action and leadership in support of such cause. David Joseph Lynch is one of the few. In 2004, Mr. Lynch was moved by the plight of Israeli schoolchildren—Jewish, Muslim, Druze, Bedouin, Baha'i and Christian—who do not have ready access to English language books because of limited financial resources and demands on the Israeli government in its ongoing war against terrorism. He read an article about the Jade Bar-Shalom Books for Israel Project and knew immediately that this was his calling.

This grandfather of three and great grandfather of four who will be 89 next month, founded the Idaho flagship of the international Books for Israel project.

Between 2004 and 2006, Mr. Lynch gathered over 10,000 books from Idaho schools to send to Israel for the schoolchildren there. His goal is to have books donated from all the counties in Idaho. Mr. Lynch has enlisted supporters from the community including school officials, bookstore owners, a restaurant franchise, Office Depot, Boise State University, and even members of the criminal justice community in Boise.

I commend Mr. Lynch on his outstanding efforts and thank him also for his esteemed service in the U.S. Navy before and during World War II. Clearly, David Joseph Lynch embodies a life of service and a commitment to improving humanity. He is an inspiration to all—a man whose singular efforts are felt across the globe by our friends in Israel.●

SVIHOVEC FAMILY TRIBUTE

● Mr. DORGAN. Mr. President, this year marks the 100th anniversary of the last great wave of homesteading upon the prairies of America. Mr. President 1907 was the high water mark of the western boom, the last real chance for entrepreneurs and pioneers to capture 160 acres of free land.

Homesteading was one of those singular inventions that proved a triumphant success—one that gave families of modest means a genuine opportunity to share in the American dream.

Among the tens of thousands who surged west to take part in this great enterprise was a family of Bohemian emigrants—the Svihovecs. They are particularly intriguing because seven brothers homesteaded side by side. While it was not unusual for family groups to homestead near each other, the uniqueness of seven brothers doing so was unprecedented in homesteading history.

Although only two decades removed from their near feudal farm existence in the Austro-Hungarian Empire, the Svihovecs were shrewd enough to strategically locate their homesteads to nearly surround a section of railroad-owned land, thereby protecting it for their own use and future purchase.

These brothers and their equally hearty Czech spouses were Frank and Rose Svihovec, Charles and Anna Svihovec, Vincent and Anna Svihovec, Joseph and Annie Svihovec, Emil and Barbara Svihovec, and two single brother, James, and Louis. Their homesteads were in southwestern North Dakota, along the Hettinger and Adams County line. Two more brothers, Rudolph—and his wife Nellie—and Edward—and his wife Terezie—opted to become businessmen, one in Minneapolis and other in the New York City area.

The homesteaders' beginning was inauspicious. There was a train wreck on the way west. Upon their arrival, they were met by the blackened desolation of one of the great western prairie fires which had burned the expected winter feed for their livestock. Snowbound the first winter, they ran out of food.

There were other setbacks and tragedies, but a life was created for themselves and almost 40 offspring, so many children that the school became known as the Svihovec School.

A hundred years later, descendants of these Svihovec pioneers are scattered from London to Los Angeles. A number still remain near the homesteads, in the communities of Mott and Hettinger, and one couple, John and Arlyce Frieze, still actively farm and ranch part of the original homestead lands. Most of the original homesteads, in fact, remain in the ownership of one of the Svihovec families.

It is a remarkable saga, a tale of grit and courage, one that illustrates the kind of strength of character and hardy determination that has served America so well for so many years. The Svihovec tribe has a proud, vital, and continuing legacy that I am honored to acknowledge and salute today in the Senate.●

TRIBUTE TO SUPHADA ROM

● Mr. LEAHY. I want to speak briefly about a remarkable event that happened last Friday, June 15, 2007, in the small town of Windsor in my home State of Vermont. But first a bit of history.

In January 1989, a member of my staff, Tim Rieser, traveled to the Thai-Cambodia border to locate a young Cambodian woman whose mother and two brothers, all of them survivors of the Khmer Rouge holocaust, had resettled in Vermont. The woman, Rhumdoul Rom, had been kidnapped and smuggled back into Cambodia, but she had escaped and was in a Thai refugee camp.

When Rhumdoul was located she was holding her 5-day-old baby daughter, whose name was Suphada. A few days and several long airplane rides later, the two of them arrived in Vermont where they were reunited with the rest of their family. Sadly, Suphada's grandfather and other family members were among the 2 million Cambodians who were murdered or starved to death by the Khmer Rouge. One of Rhumdoul's sisters survived, and is living in Cambodia today.

Adjusting to Vermont was not easy. Imagine traveling for the first time on an airplane and arriving from the tropics in a foreign land in the middle of winter, ice and snow everywhere, and not speaking a word of English.

But the family persevered, supported by the generosity of the Windsor community. As the years passed, Rhumdoul learned English, graduated from high school and then community college, and became a skilled medical technician, at the same time that she was raising her daughter as a single mother.

Suphada, coming to America so young, learned English easily and over time became an outstanding student and athlete. She won a prize for her writing, learned to play the flute, served meals at a local nursing home, and this year she was the captain of the Windsor girls' basketball team. She is also a very outgoing and friendly person.

Recently, tragedy struck the family again, when Rhumdoul's mother and Suphada's grandmother, Prak Soy, died suddenly of meningitis. My wife Marcelle and I had the privilege of meeting Prak Soy, for whom living in the Unites States was not easy. I will always remember her as a selfless person who cared deeply for her children and grandchildren. They meant the world to her.

This is a family that has experienced great loss, but they are also an example for those of us who have never known what it is to live through something as horrifying as genocide.

On June 15, Suphada graduated from Windsor High School, and I understand that she has been accepted to several colleges, including, I am proud to say, my own alma mater, St. Michael's College in Colchester, VT. It is also the alma mater of another accomplished Cambodian refugee, Loung Ung, who years ago resettled in Vermont and has since become a world renowned author for her book ''First They Killed My Father,'' and a tireless campaigner against the scourge of landmines.

I, Marcelle, and my staff would have liked to attend Suphada's graduation, but it was not possible due to the Senate's schedule and other commitments. But I want to congratulate her and her mother for her outstanding scholastic and athletic achievements, and wish her the best in the coming year at whichever college she chooses.●

HONORING JOSEPH SIMUNOVICH

● Mr. MENENDEZ. Mr. President, today I honor Joseph Simunovich for his leadership, dedication, and accomplishments at Hackensack University Medical Center and the New Jersey Turnpike Authority. Joe retired as chairman of the board of these great New Jersey institutions earlier this year.

Joe's life of public service spans more than three decades. In 1972, he was elected to serve as a Hudson County freeholder, a position he held for 12 years, 3 of them as director/chairman of the board. In 1986, Joe was appointed by New Jersey Governor Thomas Kean to serve on the New Jersey Economic

Development Authority. Reappointed by Governors Jim Florio and Christine Whitman, for a total of six consecutive terms, Joe is the longest serving member in the organization's history.

In 2002, Joe was chosen by Governor James McGreevey to serve as the chairman of the New Jersey Turnpike Authority, where he led the organization through the consolidation with the New Jersey Highway Authority. Additionally, Joe oversaw the remediation of New Jersey's E–Z Pass system, and the introduction of Express E–Z Pass.

Over the past 17 years of Joe's service on the Board of Governors of Hackensack University Medical Center, no one has had a greater hand in making Hackensack the respected and sought out institution it is today. As chairman of the board, Joe has worked tirelessly to raise money for the expansion of hospital programs. This money means more access to medical treatments, increased technology, and better financial assistance for low-income patients.

Additionally, Joe has dutifully served on numerous boards of directors, including New Jersey City University, the New Brunswick Development Corporation, the National Association of Water Companies, and the National Council for Public-Private Partnerships. As a result of his hard work, Joseph Simunovich has helped improve the quality of life for thousands of families living throughout New Jersey.

Dedicated to both his community and family, Joe is married and has two children and several grandchildren. He received his bachelor's degree from Colgate University and masters in business management equivalent from Fairleigh Dickinson University, and completed postgraduate coursework at the Carnegie Institute and guest lectured at Rutgers University School of Business.

There is no doubt Joseph Simunovich is an exemplary leader and a profoundly committed individual who is a true role model for the nation. Therefore, I am pleased to pay tribute to Joseph Simunovich, and know my colleagues will join in wishing him continued success.●

TRIBUTE TO WARNE NUNN

● Mr. SMITH. Mr. President, one of the privileges of representing Oregon in the U.S. Senate is having the honor of serving in the seat held for 30 years by Mark Hatfield. During his nearly half century of service to the people of Oregon as a State Representative, State Senator, Secretary of State, Governor, and U.S. Senator, Mark Hatfield earned a reputation for honesty and integrity. He also earned a reputation for having an outstanding staff—staff who often went on to outstanding careers in public service in their own right.

I rise today to pay tribute to one of the most distinguished of the ''Hatfield Alumni,'' Warne Nunn, who passed away earlier this week in Oregon at the age of 86. Warne Nunn served as chief of staff to Mark Hatfield during his 8 years as Oregon's Governor, and when Oregonians sent Mark Hatfield to the U.S. Senate in 1966, Warne Nunn came east to help open up the Senate office.

Mr. Nunn's heart, however, was in his beloved Oregon, and he soon returned home, where he was to make numerous positive contributions for four more decades. As a long-time executive with Pacific Power and Light, Warne Nunn was a respected leader in Oregon's business community. It was, however, through his philanthropic leadership where Warne Nunn left a legacy that should inspire us all.

As a long-time member and chairman of the Willamette University Board of Trustees, Warne Nunn was a passionate advocate for quality education. His commitment to education could also be seen in the leadership he provided as a long-time trustee of the Meyer Memorial Trust, one of the largest and most generous philanthropies in the Pacific Northwest. During its 25-year history—throughout which Warne Nunn has served as a trustee or trustee emeritus—Meyer Memorial Trust has donated nearly $420 million to countless worthy causes.

Senator Hatfield once told me of a journey he made to the Calcutta slums with Mother Teresa. During that journey, Senator Hatfield asked Mother Teresa how she could go on day after day, knowing that for every life she touched, there were thousands of lost souls she would never reach. She responded by saying: ''God does not call us to be successful. He calls us to be faithful.''

There can be no doubt that Warne Nunn lived a successful life. But his family and friends will tell you that more important to Warne was the fact that he lived a faithful life. He was a faithful husband, father, grandfather, and great-grandfather. He was a faithful friend. He was a faithful businessman, public servant, and philanthropic leader. Above all, he was a faithful servant of God. I join many fellow Oregonians in paying tribute to the life and legacy of Warne Nunn, and in extending my sincere condolences to his wife Delores and his entire family.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Ms. Evans, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations and a treaty which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGE FROM THE HOUSE

At 1:18 p.m., a message from the House of Representatives, delivered by Ms. Brandon, one of its reading clerks, announced that the House has passed the following bills:

H.R. 923. An act to provide for the investigation of certain unsolved civil rights crimes, and for other purposes.

H.R. 2284. An act to amend the Small Business Act to expand and improve the assistance provided by Small Business Development Centers to Indian tribe members, Alaska Natives, and Native Hawaiians.

H.R. 2359. An act to reauthorize programs to assist small business concerns, and for other purposes.

The message also announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 21. Concurrent resolution calling on the United Nations Security Council to charge Iranian leader Mahmoud Ahmadinejad with violating the 1948 Convention on the Prevention and Punishment of the Crime of Genocide and the United Nations Charter because of his call for the destruction of the State of Israel.

The message further announced that pursuant to 10 U.S.C. 9355(a), amended by Public Law 108–375, and the order of the House of January 4, 2007, the Speaker appoints the following Members of the House of Representatives to the Board of Visitors to the United States Air Force Academy: Mr. DEFAZIO of Oregon, Ms. LORETTA SANCHEZ of California, and Mr. LAMBORN of Colorado.

MEASURES REFERRED

The following bill was read the first and the second times by unanimous consent, and referred as indicated:

H.R. 2284. An act to amend the Small Business Act to expand and improve the assistance provided by Small Business Development Centers to Indian tribe members, Alaska Natives, and Native Hawaiians; to the Committee on Small Business and Entrepreneurship.

The following concurrent resolution was read, and referred as indicated:

H. Con. Res. 21. Calling on the United Nations Security Council to charge Iranian leader Mahmoud Ahmadinejad with violating the 1948 Convention on the Prevention and Punishment of the Crime of Genocide and United Nations Charter because of his calls for the destruction of the State of Israel; to the Committee on Foreign Relations.

MEASURE DISCHARGED

The following measure was discharged from the Committee on Health, Education, Labor and Pensions, and referred as indicated:

S. 1650. A bill to establish a digital and wireless network technology program, and for other purposes; to the Committee on Commerce, Science, and Transportation.

MEASURES PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

H.R. 2366. An act to reauthorize the veterans entrepreneurial development programs of the Small Business Administration, and for other purposes.

MEASURES READ THE FIRST TIME

The following bill was read the first time:

H.R. 2359. An act to reauthorize programs to assist small business concerns, and for other purposes.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–2316. A communication from the Publications Control Officer, Department of Defense, transmitting, pursuant to law, the report of a rule entitled ''Law Enforcement Reporting'' (RIN0702–AA56) received on June 18, 2007; to the Committee on Armed Services.

EC–2317. A communication from the General Counsel, National Credit Union Administration, transmitting, pursuant to law, the report of a rule entitled ''Share Insurance Appeals; Clarification of Enforcement Authority of the NCUA Board'' (12 CFR Parts 745 and 747) received on June 20, 2007; to the Committee on Banking, Housing, and Urban Affairs.

EC–2318. A communication from the President and Chief Executive Officer of the Federal Home Loan Bank of Seattle, transmitting, pursuant to law, the Bank's 2006 Annual Report; to the Committee on Banking, Housing, and Urban Affairs.

EC–2319. A communication from the Administrator, National Aeronautics and Space Administration, transmitting, legislative proposals relative to the National Aeronautics and Space Act of 1958 and the NASA Transition Act of 2007; to the Committee on Commerce, Science, and Transportation.

EC–2320. A communication from the Secretary of Energy, transmitting, pursuant to law, a report entitled ''Report to Congress on the Progress of the Federal Government in Meeting the Renewable Energy Goals of the Energy Policy Act of 2005''; to the Committee on Energy and Natural Resources.

EC–2321. A communication from the Deputy Secretary of the Interior, transmitting, the report of draft legislation entitled ''Cooperative Conservation Enhancement Act''; to the Committee on Energy and Natural Resources.

EC–2322. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Approval and Promulgation of Implementation Plans; North Carolina: Charlotte, Raleigh-Durham, and Winston-Salem Areas Second 10-Year Maintenance Plan for the Carbon Monoxide National Ambient Air Quality Standard; Clarification'' (FRL No. 8328–6) received on June 19, 2007; to the Committee on Environment and Public Works.

EC–2323. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Imidacloprid; Pesticide Tolerance'' (FRL No. 8135–5) received on June 19, 2007; to the Committee on Environment and Public Works.

EC–2324. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Lactofen; Pesticide Tolerance'' (FRL No. 8132–9) received on June 19, 2007; to the Committee on Environment and Public Works.

EC–2325. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''Thiamethoxam; Pesticide Tolerance'' (FRL No. 8133–6) received on June 19, 2007; to the Committee on Environment and Public Works.

EC–2326. A communication from the Principal Deputy Associate Administrator, Office of Policy, Economics and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled ''National Emission Standards for Hazardous Air Pollutants for Area Sources: Acrylic and Modacrylic Fibers Production, Carbon Black Production, Chemical Manufacturing: Chromium Compounds, Flexible Polyurethane Foam Production and Fabrication, Lead Acid Battery Manufacturing, and Wood Preserving'' ((RIN2060–AN44)(FRL No. 8330–1)) received on June 19, 2007; to the Committee on Environment and Public Works.

EC–2327. A communication from the Deputy Secretary of the Interior, transmitting, the report of draft legislation entitled ''Conservation Grant User Equity Act''; to the Committee on Finance.

EC–2328. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Deemed IRAs in Governmental Plans/Qualified Nonbank Trustee Rules'' ((RIN1545–BG46)(TD 9331)) received on June 19, 2007; to the Committee on Finance.

EC–2329. A communication from the Associate Director, Office of Foreign Assets Control, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Burmese Sanctions Regulations'' (31 CFR Part 537) received on June 18, 2007; to the Committee on Finance.

EC–2330. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, a certification regarding the proposed transfer of major defense equipment, including 15 F–5 A/B aircraft spare parts, valued at $14,000,000 or more; to the Committee on Foreign Relations.

EC–2331. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, the certification of a proposed license for the export of firearms sold commercially under contract in the amount of $1,000,000 or more to Colombia; to the Committee on Foreign Relations.

EC–2332. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, the certification of a proposed manufacturing license agreement for the manufacture of Gunner's Thermal Systems for Norway; to the Committee on Foreign Relations.

EC–2333. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, the certification of a proposed technical assistance agreement for the transfer of defense articles, technical data, and defense services for the LITENING Advanced Targeting Pods in support of the Australian F/A–18 Program; to the Committee on Foreign Relations.

EC–2334. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, the certification of a proposed technical assistance agreement for the export of defense articles and services in the amount of $50,000,000 or more for the manufacture of selected components, and the assembly of the Korean Electro-Optical Tracing System for use by the Republic of Korea; to the Committee on Foreign Relations.

EC–2335. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, a report relative to the Presidential Determination that suspends certain limitations contained in the Jerusalem Embassy Act of 1995; to the Committee on Foreign Relations.

EC–2336. A communication from the Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, a report summarizing the Department's activities during fiscal year 2006 under the Enterprise for the Americas Initiative and the Tropical Forest Conservation Act of 1998; to the Committee on Foreign Relations.

EC–2337. A communication from the Chairman, Labor Member, and Management Member of the Railroad Retirement Board, transmitting, pursuant to law, a report relative to the actuarial status of the railroad retirement system; to the Committee on Health, Education, Labor, and Pensions.

EC–2338. A communication from the Chairman, Labor Member, and Management Member of the Railroad Retirement Board, transmitting, pursuant to law, the Board's 2007 Annual Report on the financial status of the railroad unemployment insurance system; to the Committee on Health, Education, Labor, and Pensions.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM–138. A joint resolution adopted by the General Assembly of the State of Colorado concerning the 2007 Farm Bill, and, in connection therewith, continuing support for the Federal food stamp program; to the Committee on Agriculture, Nutrition, and Forestry.

SENATE JOINT MEMORIAL 07–003

Whereas, the provisions of the federal ''Farm Security and Rural Investment Act of 2002'' (Farm Bill) that govern national food assistance programs are set to expire this year; and

Whereas, the Food Stamp Program (Program), our nation's first defense against hunger and a major component of the Farm Bill, bolsters the efforts of the national emergency food assistance system; and

Whereas, the Program is efficiently targeted to reach the urgent needs of people

who have the most difficulty purchasing adequate food; and

Whereas, over 95% of benefits from the Program go to households with incomes below the poverty level, 80% of which benefits go to families with children, and nearly all of the remaining beneficiaries are elderly or disabled; and

Whereas, the error rates for overpayment and underpayment to beneficiaries under the Program have steadily declined for the last six years and are now at an all-time low; and

Whereas, the federal government fed some 26 million low-income people at a cost of $31 billion, nearly double the federal expenditure for welfare cash assistance programs; and

Whereas, $323 million in federal food stamp funds are currently received by Colorado, yet, if an additional 185,000 eligible individuals participated in the Program, as much as an additional $158 million from federal funds would flow into the state; and

Whereas, the United States Department of Agriculture estimates that, for every $5.00 in food stamp benefits, an additional $9.20 is generated in local economic activity; and

Whereas, the Program pays dividends for low-income consumers, food producers and manufacturers, grocery retailers, and communities; and

Whereas, as food stamp purchases made with Program benefits flow through grocery checkout lines, farmers' markets, and other outlets, those benefits generate almost double their value in economic activity, especially for many hard-pressed rural and urban communities desperately in need of business and job stimulus; and

Whereas, hunger has adverse consequences for all Coloradans, particularly for children and mothers; and

Whereas, too many people in our communities lack the resources to consistently put food on their tables for themselves and their families; and

Whereas, while the Program has substantially decreased malnutrition in our country and helps prevent the problem of hunger from becoming worse in our communities, the Program currently reaches only about one-half of eligible low-income working families; and

Whereas, food stamps outreach and nutrition education programs are useful tools in the fight against hunger, but these efforts need more resources in order to fully reach their potential; Now, therefore, be it

Resolved by the Senate of the Sixty-sixth General Assembly of the State of Colorado, the House of Representatives concurring herein,

(1) That we, the Colorado General Assembly, support the passage of the 2007 Farm Bill;

(2) That we strongly urge Congress to place top priority on implementing a section of the Farm Bill on nutrition that would renew the provisions of, and improve upon, the Program; and

(3) That we further urge Congress: To improve the adequacy of benefits to help reduce hunger and ensure that everyone in the Program has the resources to assist them in purchasing and preparing a nutritionally adequate diet; to simplify the Program for clients and their caseworkers; and to continue to simplify and streamline the administrative aspects of the Program; and, be it further

Resolved, That copies of this Joint Memorial be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, United States Senator Tom Harkin, United States Representative Collin Peterson, the Colorado Anti-Hunger Network, and to each member of Colorado's Congressional delegation.

POM–139. A resolution .adopted by the Legislature of the State of Arizona urging Congress to take action regarding space exploration; to the Committee on Commerce, Science, and Transportation.

SENATE MEMORIAL 1005

Whereas, the United States is a nation of explorers; and

Whereas, when Christopher Columbus made his voyages across the Atlantic in the fifteenth and sixteenth centuries his ships carried the inscription ''Following the light of the sun, we left the Old World''; and

Whereas, exploration and discovery have been especially important to the American experience, providing vision, hope and economic stimulus, from New World pioneers and American frontiersmen to the Apollo program; and

Whereas just as Lewis and Clark could not have predicted the settlement of the American west within a hundred years of the start of their famous nineteenth century expedition, the total benefits of a single exploratory undertaking or discovery cannot be predicted in advance; and

Whereas, the desire to explore is part of our character and history has shown that space exploration benefits all humankind through new technologies for everyday application, new jobs across the entire economic enterprise economic contributions through new markets, commercial products, education, inspiration, leadership, increased security and a legacy for future generations; and

Whereas, Arizona has been a leader in the exploration since the dawn of the space age, accounting for hundreds of millions of dollars in direct contracts in the entire state; and

Whereas, our nation's new vision for space exploration charts a new, ''building block'' strategy to explore destinations across our solar system with robots and humans, allowing our nation to remain competitive in the new industry of space commerce.

Wherefore your memorialist, the Senate of the State of Arizona, prays:

1. That the Congress of the United States enact and fully fund the proposed vision for space exploration, as submitted to Congress in the fiscal year 2008 budget of the United States government, to enable the United States to remain a leader in the exploration and development of space.

2. That the Secretary of State transmit copies of this Memorial to the President of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives and each Member of the Congress from the State of Arizona.

POM–140. A joint resolution adopted by the House of Representatives of the State of Maine urging Congress to raise the weight limit on Interstate 95; to the Committee on Environment and Public Works.

JOINT RESOLUTION

Whereas, Interstate 95 in the State of Maine, which is part of the Dwight D. Eisenhower System of Interstate and Defense Highways and is governed by the Federal-Aid Highway Act of 1956, is central to Maine's commerce and industry; and

Whereas, the weight limit on the Interstate Highway System is set at 80,000 pounds by the Federal-Aid Highway Act of 1956 and consequently by Maine statute, yet the State of Maine has a 100,000-pound limit on its secondary roads, which does not match the national limit; and

Whereas, the Federal Government has given the State of Maine an exemption from the 80,000-pound limit for the last 5 miles of the Maine Turnpike and Interstate 95, which allows for a 100,000-pound limit, and this exemption matches the limit for the rest of the State; Now, therefore, be it

Resolved, That We, your Memorialists, on behalf of the people we represent, take this opportunity to request that the United States Congress allow the State of Maine a 100,000-pound limit on all of the Interstate Highway System in Maine, not only the authorized 5 miles, and that the United States Congress review this request when the Highway Bill comes up for reauthorization; and be it further

Resolved, That suitable copies of this resolution, duly authenticated by the Secretary of State, be transmitted to the President of the United States Senate, to the Speaker of the United States House of Representatives and to each Member of the Maine Congressional Delegation.

POM–141. A joint resolution adopted by the Legislature of the State of Maine urging Congress to enact the Social Security Fairness Act of 2007; to the Committee on Finance.

JOINT RESOLUTION

Whereas, Social Security is a trust fund that is intended as a compact between generations, yet it has not always been treated in a manner similar to other trust funds; and

Whereas, Maine's educators, transportation workers, police, firefighters and other civil servants, as well as their spouses, have collectively contributed tens of billions of dollars to Social Security and should in good faith receive such benefits as have been projected to them annually in their personalized Social Security statements; and

Whereas, the federal ''government pension offset provision'' and the federal ''windfall elimination provision,'' enacted, respectively, in 1977 and 1983, have effectively treated state government pensions as if they were a provenance of Social Security, which they are not, and have in this treatment appropriated hundreds of billions of dollars previously entrusted to Social Security by the civil servants of 15 states and by their spouses; and

Whereas, by unfairly taking these hundreds of billions of dollars from just 15 states, including Maine, these twin federal policies have adversely and disproportionately affected Maine's ability to attract and retain effective and qualified workers, as well as Maine's overall economy, its schools, its tax base and its taxpayers and other residents; and

Whereas, the State of Maine has worked hard, over generations, to attract, retain and provide for its state workers in their retirement and has scrupulously guarded and invested the funds entrusted to its retirement system, bringing those reserves to 100 times the value they had just 4 decades ago; and

Whereas, federal legislation has been introduced entitled the Social Security Fairness Act of 2007, proposing to repeal these unfair takings from Maine and from other states; and

Whereas, all Members of the Maine Congressional Delegation are cosponsors of this legislation, along with more than 200 other members of Congress as of mid-February; Now, therefore, be it

Resolved, That We, your Memorialists, respectfully urge and request that the United States Congress enact the Social Security Fairness Act of 2007; and be it further

Resolved, That suitable copies of this resolution, duly authenticated by the Secretary of State, be transmitted to the Honorable George W. Bush, President of the United States, the President of the Senate of the United State, the Speaker of the House of Representatives of the United States and each Member of the Maine Congressional Delegation.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. LEAHY, from the Committee on the Judiciary, without amendment and with a preamble:

S. Res. 225. A resolution designating the month of August 2007 as ''National Medicine Abuse Awareness Month''.

S. Res. 230. A resolution designating the month of July 2007 as ''National Teen Safe Driver Month''.

S. Res. 235. A resolution designating July 1, 2007 as ''National Boating Day''.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. HAGEL (for himself, Mr. OBAMA, and Mr. BROWN):

S. 1672. A bill to direct the Secretary of Veterans Affairs to establish a scholarship program for students seeking a degree or certificate in the areas of visual impairment and orientation and mobility; to the Committee on Veterans' Affairs.

By Mr. BAUCUS (for himself, Mr. CRAPO, Mr. BINGAMAN, Ms. CANTWELL, Mrs. LINCOLN, Ms. STABENOW, Mr. WYDEN, Mr. HARKIN, Ms. LANDRIEU, Mr. ROBERTS, Mr. DORGAN, Mr. ENZI, and Mr. PRYOR):

S. 1673. A bill to facilitate the export of United States agricultural products to Cuba as authorized by the Trade Sanctions Reform and Export Enhancement Act of 2000, to remove impediments to the export to Cuba of medical devices and medicines, to allow travel to Cuba by United States citizens, to establish an agricultural export promotion program with respect to Cuba, and for other purposes; to the Committee on Finance.

By Mr. SALAZAR:

S. 1674. A bill to amend the Food Security Act of 1985 to give preference to local communities in the application consideration process for the conservation reserve program; to the Committee on Agriculture, Nutrition, and Forestry.

By Ms. CANTWELL (for herself and Mr. MCCAIN):

S. 1675. A bill to implement the recommendations of the Federal Communications Commission report to the Congress regarding low-power FM service; to the Committee on Commerce, Science, and Transportation.

By Mr. AKAKA (for himself and Mr. INOUYE):

S. 1676. A bill to extend eligibility for certain Federal benefits to citizens of the Freely Associated States; to the Committee on Finance.

By Mr. DODD (for himself, Mr. SHELBY, Mr. BAYH, Mr. BUNNING, Mr. CARPER, Mr. BROWN, Mr. CASEY, and Ms. STABENOW):

S. 1677. A bill to amend the Exchange Rates and International Economic Coordination Act of 1988 and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Ms. COLLINS (for herself, Mr. CONRAD, Mr. SMITH, Ms. MIKULSKI, and Mr. INOUYE):

S. 1678. A bill to amend title XVIII of the Social Security Act to ensure more timely access to home health services for Medicare beneficiaries under the Medicare program; to the Committee on Finance.

By Ms. LANDRIEU (for herself and Mr. OBAMA):

S. 1679. A bill to provide that the great hall of the Capitol Visitor Center shall be known as Emancipation Hall; to the Committee on Rules and Administration.

By Ms. MURKOWSKI (for herself and Mr. STEVENS):

S. 1680. A bill to provide for the inclusion of certain non-Federal land in the Izembek National Wildlife Refuge and the Alaska Peninsula National Wildlife Refuge in the State of Alaska, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. DODD (for himself and Mr. STEVENS):

S. 1681. A bill to provide for a paid family and medical leave insurance program, and for other purposes; to the Committee on Finance.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. BROWN:

S. Res. 248. A resolution honoring the life and achievements of Dame Lois Browne Evans, Bermuda's first female barrister and Attorney General, and the first female Opposition Leader in the British Commonwealth; to the Committee on the Judiciary.

ADDITIONAL COSPONSORS

S. 21

At the request of Mr. REID, the name of the Senator from New Mexico (Mr. BINGAMAN) was added as a cosponsor of S. 21, a bill to expand access to preventive health care services that help reduce unintended pregnancy, reduce abortions, and improve access to women's health care.

S. 156

At the request of Mr. WYDEN, the names of the Senator from Colorado (Mr. ALLARD), the Senator from Mississippi (Mr. COCHRAN) and the Senator from Georgia (Mr. CHAMBLISS) were added as cosponsors of S. 156, a bill to make the moratorium on Internet access taxes and multiple and discriminatory taxes on electronic commerce permanent.

S. 335

At the request of Mr. DORGAN, the name of the Senator from Minnesota (Ms. KLOBUCHAR) was added as a cosponsor of S. 335, a bill to prohibit the Internal Revenue Service from using private debt collection companies, and for other purposes.

S. 431

At the request of Mr. SCHUMER, the name of the Senator from Minnesota (Ms. KLOBUCHAR) was added as a cosponsor of S. 431, a bill to require convicted sex offenders to register online identifiers, and for other purposes.

S. 558

At the request of Mr. DOMENICI, the name of the Senator from Ohio (Mr. VOINOVICH) was added as a cosponsor of S. 558, a bill to provide parity between health insurance coverage of mental health benefits and benefits for medical and surgical services.

S. 582

At the request of Mr. SMITH, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 582, a bill to amend the Internal Revenue Code of 1986 to classify automatic fire sprinkler systems as 5-year property for purposes of depreciation.

S. 604

At the request of Mr. LAUTENBERG, the names of the Senator from Illinois (Mr. DURBIN) and the Senator from Montana (Mr. BAUCUS) were added as cosponsors of S. 604, a bill to amend title 10, United States Code, to limit increases in the certain costs of health care services under the health care programs of the Department of Defense, and for other purposes.

S. 630

At the request of Mr. COLEMAN, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 630, a bill to amend part C of title XVIII of the Social Security Act to provide for a minimum payment rate by Medicare Advantage organizations for services furnished by a critical access hospital and a rural health clinic under the Medicare program.

S. 704

At the request of Mr. NELSON of Florida, the names of the Senator from Alaska (Mr. STEVENS) and the Senator from Minnesota (Ms. KLOBUCHAR) were added as cosponsors of S. 704, a bill to amend the Communications Act of 1934 to prohibit manipulation of caller identification information.

S. 773

At the request of Mr. WARNER, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 773, a bill to amend the Internal Revenue Code of 1986 to allow Federal civilian and military retirees to pay health insurance premiums on a pretax basis and to allow a deduction for TRICARE supplemental premiums.

S. 813

At the request of Mr. SPECTER, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor

of S. 813, a bill to amend the Internal Revenue Code of 1986 to allow an above-the-line deduction for attorney fees and costs in connection with civil claim awards.

S. 814

At the request of Mr. SPECTER, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 814, a bill to amend the Internal Revenue Code of 1986 to allow the deduction of attorney-advanced expenses and court costs in contingency fee cases.

S. 838

At the request of Mr. SMITH, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 838, a bill to authorize funding for eligible joint ventures between United States and Israeli businesses and academic persons, to establish the International Energy Advisory Board, and for other purposes.

S. 911

At the request of Mr. COLEMAN, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. 911, a bill to amend the Public Health Service Act to advance medical research and treatments into pediatric cancers, ensure patients and families have access to the current treatments and information regarding pediatric cancers, establish a population-based national childhood cancer database, and promote public awareness of pediatric cancers.

S. 969

At the request of Mr. DODD, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 969, a bill to amend the National Labor Relations Act to modify the definition of supervisor.

S. 1026

At the request of Mr. HAGEL, his name was added as a cosponsor of S. 1026, a bill to designate the Department of Veterans Affairs Medical Center in Augusta, Georgia, as the ''Charlie Norwood Department of Veterans Affairs Medical Center''.

S. 1028

At the request of Mr. KOHL, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. 1028, a bill to require the Secretary of Energy to establish a strategic refinery reserve, and for other purposes.

S. 1215

At the request of Mr. AKAKA, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of S. 1215, a bill to amend title 38, United States Code, to extend and improve certain authorities of the Secretary of Veterans Affairs, and for other purposes.

S. 1224

At the request of Mr. ROCKEFELLER, the name of the Senator from Washington (Mrs. MURRAY) was added as a cosponsor of S. 1224, a bill to amend title XXI of the Social Security Act to reauthorize the State Children's Health Insurance Program, and for other purposes.

S. 1239

At the request of Mr. ROCKEFELLER, the name of the Senator from Colorado (Mr. SALAZAR) was added as a cosponsor of S. 1239, a bill to amend the Internal Revenue Code of 1986 to extend the new markets tax credit through 2013, and for other purposes.

S. 1282

At the request of Mr. CARDIN, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 1282, a bill to amend the Internal Revenue Code of 1986 to provide for the exclusion from gross income of certain wages of a certified master teacher, and for other purposes.

S. 1295

At the request of Mr. FEINGOLD, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 1295, a bill to amend the African Development Foundation Act to change the name of the Foundation, modify the administrative authorities of the Foundation, and for other purposes.

S. 1359

At the request of Mrs. MURRAY, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of S. 1359, a bill to amend the Public Health Service Act to enhance public and health professional awareness and understanding of lupus and to strengthen the Nation's research efforts to identify the causes and cure of lupus.

S. 1363

At the request of Mrs. CLINTON, the name of the Senator from Montana (Mr. BAUCUS) was added as a cosponsor of S. 1363, a bill to improve health care for severely injured members and former members of the Armed Forces, and for other purposes.

S. 1409

At the request of Mrs. CLINTON, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 1409, a bill to provide and enhance education, housing, and entrepreneur assistance for veterans who serve in the Armed Forces after September 11, 2001, and for other purposes.

S. 1418

At the request of Mr. DODD, the names of the Senator from Washington (Mrs. MURRAY) and the Senator from Illinois (Mr. DURBIN) were added as cosponsors of S. 1418, a bill to provide assistance to improve the health of newborns, children, and mothers in developing countries, and for other purposes.

S. 1431

At the request of Mr. BROWN, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. 1431, a bill to provide for a statewide early childhood education professional development and career system, and for other purposes.

S. 1457

At the request of Mr. HARKIN, the name of the Senator from Delaware (Mr. BIDEN) was added as a cosponsor of S. 1457, a bill to provide for the protection of mail delivery on certain postal routes, and for other purposes.

S. 1469

At the request of Mr. HARKIN, the name of the Senator from Rhode Island (Mr. WHITEHOUSE) was added as a cosponsor of S. 1469, a bill to require the closure of the Department of Defense detention facility at Guantanamo Bay, Cuba, and for other purposes.

S. 1482

At the request of Mr. ROCKEFELLER, the name of the Senator from Rhode Island (Mr. WHITEHOUSE) was added as a cosponsor of S. 1482, a bill to amend part A of title IV of the Social Security Act to require the Secretary of Health and Human Services to conduct research on indicators of child well-being.

S. 1494

At the request of Mr. DOMENICI, the names of the Senator from Washington (Ms. CANTWELL) and the Senator from Michigan (Mr. LEVIN) were added as cosponsors of S. 1494, a bill to amend the Public Health Service Act to reauthorize the special diabetes programs for Type I diabetes and Indians under that Act.

S. 1514

At the request of Mr. DODD, the name of the Senator from Rhode Island (Mr. WHITEHOUSE) was added as a cosponsor of S. 1514, a bill to revise and extend provisions under the Garrett Lee Smith Memorial Act.

S. 1518

At the request of Mr. REED, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 1518, a bill to amend the McKinney-Vento Homeless Assistance Act to reauthorize the Act, and for other purposes.

S. 1571

At the request of Mr. BINGAMAN, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 1571, a bill to reform the essential air service program, and for other purposes.

S. 1588

At the request of Mr. COLEMAN, the name of the Senator from Oregon (Mr. SMITH) was added as a cosponsor of S. 1588, a bill to amend the Public Health Service Act, the Employee Retirement Income Security Act of 1974, and the Internal Revenue Code of 1986 to require that group and individual health insurance coverage and group health plans provide coverage for treatment of a minor child's congenital or developmental deformity or disorder due to trauma, infection, tumor, or disease.

S. 1592

At the request of Mr. BROWN, the names of the Senator from Indiana (Mr. LUGAR) and the Senator from Mississippi (Mr. COCHRAN) were added as cosponsors of S. 1592, a bill to reauthorize the Underground Railroad Educational and Cultural Program.

S. 1606

At the request of Mr. LEVIN, the name of the Senator from Georgia (Mr. ISAKSON) was added as a cosponsor of S. 1606, a bill to provide for the establishment of a comprehensive policy on the care and management of wounded warriors in order to facilitate and enhance their care, rehabilitation, physical evaluation, transition from care by the Department of Defense to care by the Department of Veterans Affairs, and transition from military service to civilian life, and for other purposes.

S. 1649

At the request of Mr. FEINGOLD, the name of the Senator from Massachusetts (Mr. KENNEDY) was added as a cosponsor of S. 1649, a bill to provide for 2 programs to authorize the use of leave by caregivers for family members of certain individuals performing military service, and for other purposes.

S. 1658

At the request of Mr. GREGG, the name of the Senator from Kansas (Mr. ROBERTS) was added as a cosponsor of S. 1658, a bill to amend the Servicemembers Civil Relief Act to provide protection for child custody arrangements for parents who are members of the Armed Forces deployed in support of a contingency operation.

S. 1661

At the request of Mr. STEVENS, the name of the Senator from Oregon (Mr. SMITH) was added as a cosponsor of S. 1661, a bill to communicate United States travel policies and improve marketing and other activities designed to increase travel in the United States from abroad.

S. CON. RES. 31

At the request of Mr. FEINGOLD, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. Con. Res. 31, a concurrent resolution expressing support for advancing vital United States interests through increased engagement in health programs that alleviate disease and reduce premature death in developing nations, especially through programs that combat high levels of infectious disease improve children's and women's health, decrease malnutrition, reduce unintended pregnancies, fight the spread of HIV/AIDS, encourage healthy behaviors, and strengthen health care capacity.

S. RES. 242

At the request of Mrs. MURRAY, the names of the Senator from Texas (Mrs. HUTCHISON) and the Senator from Mississippi (Mr. COCHRAN) were added as cosponsors of S. Res. 242, a resolution celebrating the accomplishments of title IX of the Education Amendments of 1972, also known as the Patsy Takemoto Mink Equal Opportunity in Education Act, and recognizing the need to continue pursuing the goal of educational opportunities for women and girls.

AMENDMENT NO. 1561

At the request of Mr. KOHL, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of amendment No. 1561 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1627

At the request of Mr. KOHL, the name of the Senator from Tennessee (Mr. CORKER) was added as a cosponsor of amendment No. 1627 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1694

At the request of Mr. BINGAMAN, the name of the Senator from Maryland (Mr. CARDIN) was added as a cosponsor of amendment No. 1694 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1695

At the request of Mr. BINGAMAN, the name of the Senator from Maryland (Mr. CARDIN) was added as a cosponsor of amendment No. 1695 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1704

At the request of Mr. BAUCUS, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of amendment No. 1704 proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1731

At the request of Mr. SUNUNU, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of amendment No. 1731 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1733

At the request of Mr. KYL, the name of the Senator from Texas (Mr. CORNYN) was added as a cosponsor of amendment No. 1733 proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1771

At the request of Mr. DURBIN, the names of the Senator from Hawaii (Mr. AKAKA), the Senator from Ohio (Mr. BROWN), the Senator from Missouri (Mr. BOND) and the Senator from Missouri (Mrs. MCCASKILL) were added as cosponsors of amendment No. 1771 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1792

At the request of Mr. STEVENS, the names of the Senator from Hawaii (Mr. INOUYE), the Senator from North Carolina (Mrs. DOLE), the Senator from California (Mrs. FEINSTEIN), the Senator from Washington (Ms. CANTWELL), the Senator from North Dakota (Mr. DORGAN), the Senator from Nebraska (Mr. HAGEL), the Senator from Idaho (Mr. CRAIG) and the Senator from New Hampshire (Mr. SUNUNU) were added as cosponsors of amendment No. 1792 proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency

and Renewables Reserve to invest in alternative energy, and for other purposes.

At the request of Mrs. FEINSTEIN, the name of the Senator from Florida (Mr. NELSON) was added as a cosponsor of amendment No. 1792 proposed to H.R. 6, supra.

AMENDMENT NO. 1793

At the request of Mr. STEVENS, the names of the Senator from North Carolina (Mrs. DOLE), the Senator from California (Mrs. FEINSTEIN), the Senator from Washington (Ms. CANTWELL) and the Senator from North Dakota (Mr. DORGAN) were added as cosponsors of amendment No. 1793 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1794

At the request of Mr. STEVENS, the names of the Senator from North Carolina (Mrs. DOLE), the Senator from California (Mrs. FEINSTEIN), the Senator from Washington (Ms. CANTWELL) and the Senator from North Dakota (Mr. DORGAN) were added as cosponsors of amendment No. 1794 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1795

At the request of Mr. STEVENS, the names of the Senator from North Carolina (Mrs. DOLE), the Senator from California (Mrs. FEINSTEIN), the Senator from Washington (Ms. CANTWELL) and the Senator from North Dakota (Mr. DORGAN) were added as cosponsors of amendment No. 1795 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1799

At the request of Mr. BENNETT, his name was added as a cosponsor of amendment No. 1799 proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

At the request of Mr. BINGAMAN, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of amendment No. 1799 proposed to H.R. 6, supra.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BAUCUS (for himself, Mr. CRAPO, Mr. BINGAMAN, Ms. CANTWELL, Mrs. LINCOLN, Ms. STABENOW, Mr. WYDEN, Mr. HARKIN, Ms. LANDRIEU, Mr. ROBERTS, Mr. DORGAN, Mr. ENZI, and Mr. PRYOR):

S. 1673. A bill to facilitate the export of United States agricultural products to Cuba as authorized by the Trade Sanctions Reform and Export Enhancement Act of 2000, to remove impediments to the export to Cuba of medical devices and medicines, to allow travel to Cuba by United States citizens, to establish an agricultural export promotion program with respect to Cuba, and for other purposes; to the Committee on Finance.

Mr. BAUCUS. Mr. President, today I am proud to introduce legislation with Senator MIKE CRAPO, House Ways and Means Chairman CHARLIE RANGEL, and Congresswoman JO ANN EMERSON to help open a promising market to American exports. That market is Cuba.

For too long, we have maintained ideologically driven restrictions that have undermined our export competitiveness in a market 90 miles away from us.

Just beyond our shoreline, our trading partners—especially Canada and China—are making multi billion-dollar investments in a Cuban economy that is growing at a rate of 7 to 12 percent per year. But the United States just stands by while these and other countries capitalize on opportunities in our own backyard.

Our economic policy toward Cuba simply is not working. This bill changes that.

The greatest opportunities exist in Cuba's agriculture sector. When Congress passed legislation allowing food and medicine sales to Cuba in 2000, some people said Cuba would never buy. Fidel Castro himself predicted that Cuba would buy ''not one grain'' from the United States.

But Mr. Castro was wrong. Agricultural sales happened. In 2004 alone, Cubans bought more than $375 million in American agricultural products. And, today, nearly every state in the union wants to get into the largest agriculture market in the Caribbean.

I have worked tirelessly to market Montana's high quality agriculture products, and it has paid off. In 2003, I inked a $10 million deal with Cuba. After we completed that deal, I went back to Havana and signed another deal—for $15 million. We have sent Montana wheat, beans and peas to Cuba, and that is just the beginning.

But it has not been easy. In 2005, the Treasury Department issued a rule to undermine the will of Congress. In landmark legislation, Congress in 2000 facilitated agriculture exports to Cuba by authorizing the use of cash basis sales. But the Treasury rule made such transactions impossible. Instead, sellers had to resort to foreign letters of credit, which are time-consuming, complicated, and expensive, especially for smaller exporters.

The Treasury rule stunted what had been meteoric growth in American agriculture exports to Cuba. This rule flies in the face of the law, and it will not stand.

Today's bill overturns the Treasury rule. It clarifies that not only do we intend to let these cash basis sales go forward, we mean to expand and promote them. This bill also ensures that exporters and commodity groups looking to get into the Cuban market get help from the Department of Agriculture. And it would require our Agriculture Department to promote American agricultural exports for Cuba.

Increased agriculture sales will allow Cubans to become familiar with more and more American branded food products. But a little-known provision of U.S. law—known as section 211—invites Cuba to withhold trademark protection from these and other American food exports. Today's bill also addresses that problem.

Section 211 bars U.S. courts from hearing claims of foreign nationals to trademarks similar to or associated with expropriated properties. It also forbids the United States from allowing foreign nationals to register or renew such trademark rights. In other words, it denies trademark protection to Cuban assets. If we are not going to recognize Cuban brands, why should Cuba, in the future, recognize American brands?

The World Trade Organization has already struck down section 211 as inconsistent with U.S. international trade obligations. It is time for this Congress to do the same. My bill repeals this wrong-headed and WTO-inconsistent provision. It ensures the continued security of thousands of American-owned trademarks already registered in Cuba.

I am a big proponent of getting American food products into Cuba. But I also fundamentally believe that we should never use food and medicine as a weapon against a people, no matter what we think of their government.

Many of my colleagues agree with me on this. This is why Congress, in the 1992 Cuban Democracy Act, authorized medicine and medical supplies sales to Cuba. But, at that time, we didn't get it quite right. We passed a law with

good intent but loaded it up with so many restrictions that we have made medical sales to Cuba more difficult than medical sales to Iran or North Korea.

My bill will correct this lopsided and inhumane policy. It will allow Cubans access to our medicines and medical products—which are the best money can buy—on the same terms that we offer to other regimes. There is no sound reason to deny our products to our Cuban neighbors but allow such sales to Iran and North Korea.

I have taken Montana farmers and ranchers to Cuba to explore export opportunities. But such opportunities are rare because our government, with limited exceptions, does not permit travel to Cuba. And those exceptions are so riddled with red tape as to discourage applicants from making use of them.

Many Americans are ready and willing to travel to Cuba, and not just to make agriculture sales. Religious organizations have deep roots on the island—since before the Castro government. They are a lifeline, bringing hope, help, and brotherhood to their counterparts in Cuba. American academics and professionals engage in thoughtful exchanges of research and ideas. American students visit with Cuban students, and they learn lessons a teacher cannot imbue.

Nearly everyone in Cuba has a dear friend or relative living in the United States. Tens of thousands of Cubans who found their way to America save their hard earned dollars on frequent trips home, their bags packed with medicine, vitamins, and clothing.

Rather than encourage these meaningful contacts between Cubans and Americans, our government stifles our interaction. Rather than unite the Cuban family, our government seeks to divide it further.

Americans do not benefit from this policy. The Cuban people do not benefit from this policy. Only those who seek to keep Americans and Cubans apart benefit from our misguided policy of isolation.

It is time to reach out to the Cuban people. It is time to restore Americans' fundamental right to travel anywhere they want. It is time to lift the travel ban.

I am proud of our bill. It spells out the right policy during this fundamental transition in Cuba. It helps farmers and ranchers in Montana and elsewhere seek opportunities in a nearby market. And it affords our citizens the opportunity to spread American generosity, assistance, and values to Cuba.

I look forward to working with Senator CRAPO, Chairman RANGEL, Congresswoman EMERSON, and others to put our trade relationship with Cuba on the right path.

By Mr. DODD (for himself, Mr. SHELBY, Mr. BAYH, Mr. BUNNING, Mr. CARPER, Mr. BROWN, Mr. CASEY, and Ms. STABENOW):

S. 1677. A bill to amend the Exchange Rates and International Economic Coordination Act of 1988 and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. DODD. Mr. President, I rise to introduce the Currency Reform and Financial Markets Access Act of 2007 on behalf of myself, Senator SHELBY, Senator BAYH, Senator CARPER, Senator BROWN, and Senator CASEY.

Nearly two decades ago, the Senate Banking Committee enacted legislation which required the Treasury Department to identify countries that manipulate their currency for purposes of gaining an unfair competitive trade advantage and to take prompt action to eliminate the unfair trade advantage when manipulation is found.

One of the very first actions that I undertook as chairman-elect of the Senate Banking Committee in December 2006 was to write a letter with then-Chairman Shelby to the Treasury Secretary about the report required under this legislation, the International Economic and Exchange Rate Policy Report and the inaugural U.S.-China strategic economic dialogue, SED. In that letter, we expressed our concern that the Treasury Department had not cited China, and potentially other nations, as currency manipulators.

At one of the very first hearings I held as chairman, in January 2007, Treasury Secretary Paulson provided his first congressional testimony since his confirmation, on the SED and the exchange rate report. At that hearing, Secretary Paulson testified that China did not meet the technical requirement for designation as a currency manipulator and that the SED is the ''best chance to get some progress [on the currency issue].''

Senator SHELBY and I wrote to Secretary Paulson in advance of the most recent exchange rate report and the May SED urging him to consider steps beyond dialogue to eliminate the unfair trade advantage resulting from China's ongoing currency manipulation and discriminatory market access practices. But instead of taking action, the Treasury Department once again chose not to cite China as a currency manipulator in its latest report to the Senate Banking Committee, despite acknowledging ''heavy foreign exchange market intervention by China's central bank to manage the currency tightly.''

Secretary Paulson's efforts to engage the Chinese through dialogue are commendable, but after two meetings of the strategic economic dialogue, numerous congressional hearings, and the shortcomings of the most recent exchange rate reports, it is clear that dialogue alone is not enough to make progress and legislative action is needed.

Therefore, Senator SHELBY and I are today introducing the Currency Reform and Financial Markets Access Act of 2007 which will provide the Treasury Department and Congress new, tough authority to recognize and remedy currency manipulation without ambiguity or delay.

Under current law, Treasury claims that no countries meet the technical finding of intent to manipulate their currencies. Treasury reiterated this point in its most recent exchange rate report, stating:

> The Department of the Treasury concluded that, although the Chinese currency is undervalued, China did not meet the technical requirements for designation under the terms of Section 3004 of the Act during the period under consideration. Treasury was unable to determine that China's exchange rate policy was carried out for the purpose of preventing effective balance of payments adjustment or gaining unfair competitive advantage in international trade.

The Currency Reform and Financial Markets Access Act of 2007 requires a Treasury designation of currency manipulation based on objective data, and without regard to subjective factors such as purpose or intent, removing a technicality that the Treasury Department has been using to defend its inaction.

Once currency manipulation is found, the bill requires the Treasury Department to submit a detailed plan of action to the Congress within 30 days of such finding. The plan of action sets specific timeframes and benchmarks, with the goal of remedying the manipulation. The bill also requires the Treasury to initiate both bilateral and multilateral negotiations, including immediate IMF consultations and to use the Treasury's voice and vote at the IMF to address the manipulation.

Our bill also provides new authority for the Treasury to file a WTO article XV case to remedy currency manipulation if the goals and benchmarks for progress are not met within 9 months of designation.

If the Treasury continues to avoid designating countries as currency manipulators, our bill creates a new process by which Congress, led by either the Senate Banking or House Financial Services Committee, can originate a joint resolution of disapproval of the Treasury's inaction and provides for an expedited process for such a motion through the floors of both Chambers.

Finally, the Currency Reform and Financial Markets Access Act of 2007 promotes market access for U.S. financial services firms to level the playing field for American businesses and to help develop the financial sector reform needed to support a freely floating currency in China. It also requires the Treasury Department to report on the progress of the SED, as well as on opening foreign markets to American financial services firms. It is time for American firms to be afforded the same open and

fair treatment abroad that our country provides to foreign firms in the United States.

I am confident that in a free and fair environment American business and entrepreneurship will flourish. Our bill will require Treasury to assume its responsibility as a referee and will fight to level this playing field by identifying and addressing unfair practices and market access barriers.

During the SED events in Beijing, Federal Reserve Chairman Bernanke talked about the market distortions that result from ''an effective subsidy that an undervalued currency provides for Chinese firms that focus on exporting.'' I agree with Chairman Bernanke that undervalued currency is an export subsidy causing market disruptions and fully dealing with such subsidies can involve some trade remedies that are not within the Banking Committee's jurisdiction and hence not within the scope of this bill. But, remedying countervailable export subsidies is a policy that could be fully appropriate and supported by myself and my colleagues through other legislative proposals.

I ask unanimous consent that the text of the bill, a one page summary of the bill, and letters of support be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1677

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Currency Reform and Financial Markets Access Act of 2007''.

TITLE I—EXCHANGE RATES AND INTERNATIONAL ECONOMIC POLICY COORDINATION ACT OF 1988

SEC. 101. STATEMENT OF POLICY.

Section 3003 of the Exchange Rates and International Economic Policy Coordination Act of 1988 (22 U.S.C. 5303) is amended—

(1) by striking ''and'' at the end of paragraph (3);

(2) by striking the period at the end of paragraph (4) and inserting a semicolon; and

(3) by adding at the end the following:

''(5) the United States, and other major industrialized countries, should, where appropriate, work together, through bilateral and multilateral discussions and international economic institutions, to ensure that the rate of exchange of the currencies of the major trading nations and the United States dollar—

''(A) reflect economic fundamentals and market forces; and

''(B) contribute to the growth and balance of the international economy; and

''(6) the United States should take all appropriate and necessary measures to ensure that the major trading partners of the United States are not engaged in hidden or unfair subsidies through management of their currency or international exchange rates.''.

SEC. 102. FAIR CURRENCY.

(a) IN GENERAL.—Section 3004(b) of the Exchange Rates and International Economic Policy Coordination Act of 1988 (22 U.S.C. 5304(b)) is amended to read as follows:

''(b) BILATERAL NEGOTIATIONS.—

''(1) ANALYSIS.—The Secretary of the Treasury shall analyze on an annual basis the exchange rate policies of foreign countries, in consultation with the International Monetary Fund, and consider whether any country, regardless of intent, manipulates the rate of exchange between its currency and the United States dollar in a manner that—

''(A) prevents effective balance of payments adjustments;

''(B) gains an unfair competitive advantage in international trade; or

''(C) results in an accumulation of substantial dollar currency reserves.

''(2) DETERMINATION.—The Secretary shall make an affirmative determination that a country is manipulating its currency and take the action described in paragraphs (3), (4), and (5) with respect to any country the Secretary considers is manipulating its currency as described in paragraph (1), if that country—

''(A) has a material global current account surplus; and

''(B) has significant bilateral trade surpluses with the United States; and

''(C) has engaged in prolonged one-way intervention in the currency markets.

''(3) ACTION.—

''(A) IN GENERAL.—In the case of any country with respect to which the Secretary makes an affirmative determination under paragraph (2), the Secretary shall, not later than 30 days after the determination is made, establish a plan of action to remedy the currency manipulation, and submit a report regarding that plan, to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives.

''(B) BENCHMARKS.—The report described in subparagraph (A) shall include specific benchmarks and timeframes for correcting the currency manipulation.

''(4) INITIAL NEGOTIATIONS.—The Secretary shall initiate, on an expedited basis, bilateral negotiations with each country with respect to which an affirmative determination is made under paragraph (2) for the purpose of ensuring that the country regularly and promptly adjusts the rate of exchange between its currency and the United States dollar to permit effective balance of payment adjustments and to eliminate the unfair competitive advantage.

''(5) COORDINATION WITH THE INTERNATIONAL MONETARY FUND.—The Secretary, within 30 days of the determination made under paragraph (2), shall instruct the Executive Director to the International Monetary Fund to use the voice and vote of the United States, including requesting consultations under Article IV of the Articles of Agreement of the International Monetary Fund, for the purpose of ensuring that each country with respect to which an affirmative determination is made under paragraph (2) regularly and promptly adjusts the rate of exchange between its currency and the United States dollar to permit effective balance of payments adjustments and to eliminate the unfair competitive advantage in trade.

''(6) FOLLOW-UP REPORT.—Not later than 300 days after an affirmative determination is made under paragraph (2), if the country with respect to which the affirmative determination is made continues to manipulate the rate of exchange between its currency and the United States dollar and the benchmarks in the report required under paragraph (3) have not been met, the Secretary shall initiate action pursuant to the Understanding on Rules and Procedures Governing the Settlement of Disputes annexed to the WTO Agreement to address the country's currency manipulation and violations of the country's obligations under article XV of GATT 1994.

''(7) EXCEPTION.—The Secretary is not required to initiate action in any case in which the President determines that the action will have a serious detrimental impact on the vital economic and security interests of the United States. If the President makes a determination under the preceding sentence, the President shall inform the chairman and the ranking minority member of the Committee on Banking, Housing, and Urban Affairs of the Senate and of the Committee on Financial Services of the House of Representatives of the President's determination.''.

(b) DEFINITIONS.—Section 3006 of the Exchange Rates and International Economic Coordination Act of 1988 (22 U.S.C. 5306) is amended by adding at the end the following:

''(3) GATT 1994.—The term 'GATT 1994' has the meaning given such term in section 2(1)(B) of the Uruguay Round Agreements Act (19 U.S.C. 3501(1)(B)).

''(4) WTO AGREEMENT.—The term 'WTO Agreement' means the Agreement Establishing the World Trade Organization entered into on April 15, 1994.''.

SEC. 103. REPORTING REQUIREMENTS.

Section 3005 of the Exchange Rates and International Economic Policy Coordination Act of 1988 (22 U.S.C. 5305) is amended—

(1) in subsection (a)—

(A) by striking ''In furtherance'' and inserting the following:

''(1) IN GENERAL.—In furtherance''; and

(B) by striking the last sentence; and

(2) by adding at the end the following:

''(2) APPEARANCES BEFORE THE CONGRESS.—The Secretary shall appear before the Congress at semi-annual hearings to provide testimony on the reports referred to in paragraph (1)—

''(A) before the Committee on Banking, Housing and Urban Affairs of the Senate on or about October 15 of each even numbered calendar year and on or about April 15 of each odd numbered calendar year;

''(B) before the Committee on Financial Services of the House of Representatives on or about April 15 of each even numbered calendar year and on or about October 15 of each odd numbered calendar year;

''(C) before either Committee referred to in subparagraph (A) or (B), upon request of the Chairman, following the scheduled appearance of the Secretary before the other Committee.''.

SEC. 104. CONGRESSIONAL DETERMINATION OF CURRENCY MANIPULATION.

The Exchange Rates and International Economic Policy Coordination Act of 1988 (22 U.S.C. 5301 et seq.) is amended by inserting after section 3004 the following:

''SEC. 3004A. ACTION BASED ON COMMITTEE RESOLUTION.

''(a) IN GENERAL.—In this section, the term '*joint resolution*' means only a joint resolution introduced in the period beginning on the date on which the report referred to section 3004(b)(3) of the Exchange Rates and International Economic Policy Coordination Act of 1988 is received by the Committee on Banking, Housing and Urban Affairs of the Senate or the Committee on Financial Services of the House of Representatives and ending 60 days thereafter (excluding days either House of Congress is adjourned for more than

3 days during a session of Congress), the matter after the resolving clause of which is as follows: 'That Congress disapproves of the determination of the Secretary of the Treasury relating to the finding of currency manipulation as described in section 3004(b) of the Exchange Rates and International Economic Policy Coordination Act of 1988 in the report relating to _____, submitted on _____.', with the first blank space being filled with the name of the country (or countries) to which the determination relates and the second blank space being filled with the date the report was submitted.

''(b) PROCEDURES FOR CONSIDERING RESOLUTIONS.—

''(1) ORIGINAL RESOLUTIONS.—Resolutions of disapproval shall be original resolutions, which—

''(A) in the House of Representatives shall originate from the Committee on Financial Services and, in addition, be referred to the Committee on Rules; and

''(B) in the Senate shall originate from the Committee on Banking, Housing, and Urban Affair.

''(2) FLOOR CONSIDERATION.—

''(A) IN GENERAL.—Except as otherwise provided in this section, the provisions of subsections (d) through (f) of section 152 of the Trade Act of 1974 (19 U.S.C. 2192(d) through (f)) (relating to floor consideration of certain resolutions in the House and Senate) apply to a joint resolution of disapproval under this section to the same extent as such subsections apply to joint resolutions under such section 152.

''(B) MODIFICATION OF SECTION 152.—Section 152(f) of the Trade Act of 1974 shall be applied—

''(i) by substituting 'described in section 3004A of the Exchange Rates and International Economic Policy Coordination Act of 1988' for 'described in section 152 or 153(a), whichever is applicable,' in paragraph (2); and

''(ii) by substituting 'a joint resolution described in section 3004A of the Exchange Rates and International Economic Policy Coordination Act of 1988' for 'a joint resolution described in subsection (a)(2)(B)' in paragraph (3).

''(c) RULES OF HOUSE OF REPRESENTATIVES AND SENATE.—This section is enacted by the Congress—

''(1) as an exercise of the rulemaking power of the House of Representatives and the Senate, respectively, and as such are deemed a part of the rules of each House, respectively, and such procedures supersede other rules only to the extent that they are inconsistent with such other rules; and

''(2) with the full recognition of the constitutional right of either House to change the rules (so far as relating to the procedures of that House) at any time, in the same manner, and to the same extent as any other rule of that House.''.

TITLE II—FINANCIAL REPORTS ACT OF 1988

SEC. 201. SHORT TITLE.

This title may be cited as the ''Promoting Market Access for Financial Services Act''.

SEC. 202. REPORT ON FOREIGN TREATMENT OF UNITED STATES FINANCIAL INSTITUTIONS.

The Financial Reports Act of 1988 (22 U.S.C. 5351 et seq.) is amended—

(1) in section 3602—

(A) by striking ''QUADRENNIAL'' and inserting ''ANNUAL'' in the heading; and

(B) by striking ''not less frequently than every 4 years, beginning December 1, 1990'' and inserting ''beginning July 1, 2008, and annually thereafter,'';

(C) by striking ''to the Congress'' and inserting ''to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives'';

(2) in section 3603—

(A) by redesignating subsections (b), (c), and (d) as subsections (c), (d), and (e), respectively; and

(B) by inserting after subsection (a), the following:

''(b) REPORT ON SED.—The Secretary shall include in the initial report required under section 3602 a summary of the results of the most recent US–China Strategic Economic Dialogue (SED) and the results of the SED as it relates to promoting market access for financial institutions. The reports required under section 3602 shall include a progress report on the implementation of any agreements resulting from the SED, a description of the remaining challenges, if any, in improving market access for financial institutions, and a plan, including benchmarks and timeframes, for dealing with the remaining challenges. Each report shall specifically address issues regarding—

''(1) foreign investment rules;

''(2) the problems of a dual-share stock market;

''(3) the openness of the derivatives market;

''(4) restrictions on foreign bank branching;

''(5) the ability to offer insurance (including innovative products); and

''(6) regulatory and procedural transparency.''.

THE CURRENCY REFORM AND FINANCIAL MARKETS ACCESS ACT OF 2007—

JUNE 12, 2007

The Dodd-Shelby legislation would take significant new action to recognize and remedy currency manipulation by China and other countries, which has been harming the American economy, hurting our manufacturing base and driving record U.S. trade deficits. The bill also promotes Treasury's role in enhancing the competitiveness of U.S. financial services firms.

Strengthens Treasury's ability to find currency manipulation: Strengthens the definition of currency manipulation to identify countries that have both a material global current account surplus and a significant bilateral trade surplus with the United States as currency manipulators, without regard to intent.

Requires Treasury to address and remedy currency manipulation: Requires the Treasury Department to submit a detailed plan of action to the Congress within 30 days of a finding by Treasury of manipulation. The plan of action shall set specific timeframes and benchmarks, with the goal of remedying the manipulation; Requires Treasury to engage in bilateral and multilateral negotiations with countries that manipulate their currency. The Treasury must immediately seek IMF consultations when manipulation is found and requires Treasury to use its voice and vote at the IMF to that end; Provides Treasury the authority to file a WTO Article XV case to remedy currency manipulation if the goals and benchmarks are not met within 9 months.

Authorizes a Congressional disapproval process: Creates a process by which Congress, led by either the Senate Banking or House Financial Services Committee, can originate a joint resolution of disapproval when Treasury fails to cite manipulation. Provides for an expedited process for such a motion through the floors of both chambers.

Promotes market access for U.S. financial services firms: Requires Treasury to annually monitor and report to the Senate Banking Committee and the House Financial Services Committee on market access barriers for U.S. financial services firms, to identify challenges, and to develop plans to address those barriers; Requires the Treasury's initial report to include the status of the US-China Strategic Economic Dialogue (SED) as it relates to financial services firms. This would become the only congressionally required report on the progress of the SED.

THE FINANCIAL SERVICES FORUM,

June 21, 2007.

Hon. CHRISTOPHER J. DODD,
Russell Senate Office Building,
Washington, DC.

DEAR CHAIRMAN DODD: We are writing to applaud the focus you have given to market access in Title II of the Currency Reform and Markets Access Act of 2007. We commend your bipartisan effort to introduce legislation that recognizes the importance of further access for U.S. financial services firms to China's markets.

The Forum is encouraged by the Senators' interest in the U.S.-China Strategic Economic Dialogue and efforts to remove market access barriers for U.S. financial services firms.

A more open, modern, and effective financial sector in China is a prerequisite to successfully addressing issues that have complicated the U.S.-China economic relationship such as currency reform and the trade imbalance.

The fastest way for China to develop the modern financial system it needs to achieve more sustainable economic growth, allow for a more flexible currency, and increase consumer consumption—thereby opening new markets for U.S. products and services—is to import it by opening its financial sector to greater participation by foreign financial services firms.

We look forward to working with all of Congress in continuing to draw focus and attention to this key issue for economic reform and financial modernization in China and other emerging markets.

Sincerely,

DONALD L. EVANS.

CHINA CURRENCY COALITION,
Washington, DC., June 21, 2007.

CHINA CURRENCY COALITION WELCOMES INTRODUCTION OF DODD-SHELBY BILL AS A HELPFUL STEP TO ADDRESS CURRENCY MANIPULATION

(WASHINGTON, DC).—The China Currency Coalition (''CCC''), an alliance of industry, agriculture, and worker organizations whose mission is to support U.S. manufacturing, voiced its support of the Dodd-Shelby bill introduced today as a positive development in on-going efforts needed by the United States and the international community to rein in dangerous trade imbalances attributable to currency manipulation.

''Enactment of the Dodd-Shelby bill would be a key step forward in addressing the China currency issue,'' said David A. Hartquist, counsel to the CCC. ''The Treasury Department and the International Monetary Fund should make every effort to discourage and correct protracted undervaluation of countries' currencies as a monetary problem,'' he continued, ''and the Dodd-Shelby bill is a significant help in this regard. We appreciate that Chairman Dodd recognizes

that additional legislation may be appropriate to address countervailable subsidies resulting from China's currency manipulation.''

''At the same time,'' noted Hartquist, ''when a currency is seriously undervalued for a protracted period of time, as China's has been since 1994, there are very damaging effects on trade. It is vitally important that the hybrid nature of this sort of exchange-rate misalignment is acknowledged so that both the negative monetary and trade aspects of such behavior by a country are addressed. That is why the CCC continues to urge passage of the Bunning-Stabenow-Bayh-Snowe bill, S. 796, and its counterpart in the House, the Ryan-Hunter bill, H.R. 782. These bills recognize that undervalued exchange-rate misalignment by China or any other country is countervailable prohibited export subsidy under U.S. and international law. The CCC is very grateful to Senators Bayh, Bunning, and Stabenow and to Congressmen Ryan and Hunter for their leadership on this important issue.''

The China Currency Coalition's co-chairs are AFL-CIO Secretary-Treasurer Richard L. Trumka and Doug Bartlett, Chairman of Bartlett Manufacturing Company, Inc., in Cary, Illinois, and also Chairman of the United States Business & Industry Council. David A. Hartquist is a senior partner at the Washington, D.C. office of Kelley Drye Collier Shannon where he heads the international trade practice.

For more information on the China Currency Coalition, visit www.chinacurrencycoalition.org.

By Ms. COLLINS (for herself, Mr. CONRAD, Mr. SMITH, Ms. MIKULSKI, and Mr. INOUYE):

S. 1678. A bill to amend title XVIII of the Social Security Act to ensure more timely access to home health services for Medicare beneficiaries under the Medicare program; to the Committee on Finance.

Ms. COLLINS. Mr. President, I rise today on behalf of myself, Senator CONRAD, Senator SMITH, Senator MIKULSKI, and Senator INOUYE, to introduce legislation to ensure that our seniors and disabled citizens have timely access to home health services under the Medicare Program.

Nurse practitioners, physician assistants, certified nurse midwives, and clinical nurse specialists are all playing increasingly important roles in the delivery of health care services, particularly in rural and medically underserved areas of our country where physicians may be in scarce supply. In recognition of their growing role, Congress, in 1997, authorized Medicare to begin paying for physician services provided by these health professionals as long as those services are within their scope of practice under State law.

Despite their expanded role, these advanced practice registered nurses and physician assistants are currently unable to order home health services for their Medicare patients. Under current law, only physicians are allowed to certify or initiate home health care for Medicare patients, even though they may not be as familiar with the patient's case as the non-physician provider. In fact, in many cases, the certifying physician may not even have a relationship with the patient and must rely upon the input of the nurse practitioner, physician assistant, clinical nurse specialist or certified nurse midwife to order the medically necessary home health care. At best, this requirement adds more paperwork and a number of unnecessary steps to the process before home health care can be provided. At worst, it can lead to needless delays in getting Medicare patients the home health care they need simply because a physician is not readily available to sign the form.

The inability of advanced practice registered nurses and physician assistants to order home health care is particularly burdensome for Medicare beneficiaries in medically underserved areas, where these providers may be the only health care professionals available. For example, needed home health care was delayed by more than a week for a Medicare patient in Nevada because the physician assistant was the only health care professional serving the patient's small rural town, and the supervising physician was located 60 miles away.

A nurse practitioner told me about another case in which her collaborating physician had just lost her father and was not available. As a consequence, the patient experienced a 2-day delay in getting needed care while they waited to get the paperwork signed by another physician. Another nurse practitioner pointed out that it is ridiculous that she can order physical and occupational therapy in a subacute facility but cannot order home health care. One of her patients had to wait 11 days after being discharged before his physical and occupational therapy could continue simply because the home health agency had difficulty finding a physician to certify the continuation of the same therapy that the nurse practitioner had been able to authorize when the patient was in the facility.

The Home Health Care Planning Improvement Act will help to ensure that our Medicare beneficiaries get the home health care they need when they need it by allowing physician assistants, nurse practitioners, clinical nurse specialists and certified nurse midwives to order home health services. Our legislation is supported by the National Association for Home Care and Hospice, the American Nurses Association, the American Academy of Physician Assistants, the American College of Nurse Practitioners, the American College of Nurse Midwives, the American Academy of Nurse Practitioners, and the Visiting Nurse Associations of America.

I urge my colleagues to sign onto this legislation as cosponsors. I ask unanimous consent that letters of support be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

AMERICAN NURSES ASSOCIATION,
June 6, 2007.

Hon. SUSAN COLLINS,
U.S. Senate, Washington, DC.
Hon. GORDON SMITH,
U.S. Senate, Washington, DC.

DEAR SENATORS COLLINS AND SMITH: I am writing on behalf of the American Nurses Association, ANA, to express support for the Home Health Care Planning Improvement Act of 2007. ANA is the only full- service national association representing registered nurses, RNs. Through our 54 state and territorial nursing associations, we represent RNs across the nation in all practice settings.

ANA applauds your efforts to improve access to home health services. Advanced practice registered nurses, APRNs, are playing an increasing role in American health care delivery. Nurse practitioners, clinical nurse specialists, and certified nurse midwives can practice independent of physicians in most states. Many studies have shown that APRNs provide cost-effective, high quality care. In addition, they are often willing to provide services in areas where access to physicians is limited.

Medicare has recognized the independent practice of APRNs for nearly two decades, and these health care professionals now provide the majority of skilled care to home health patients. Unfortunately, a quirk in Medicare law has kept APRNs from signing home health plans of care and from certifying Medicare patients for the home health benefit. In areas where access to physicians is limited, this outdated prohibition has lead to delays in health care delivery. These delays in care inconvenience patients and their families. In addition, delays can also result in increased cost to the Medicare system when patients are unnecessarily left in more expensive institutional settings.

The Home Health Care Planning Improvement Act of 2007 would address these problems by specifically allowing nurse practitioners, clinical nurse specialists, and certified nurse midwives to certify home health services. ANA looks forward to working with you to support the enactment of this important legislation.

Sincerely,

ROSE GONZALEZ,
MPS, RN Director, Government Affairs.

AMERICAN COLLEGE OF NURSE-MIDWIVES,
Silver Spring, MD, June 14, 2007.

Hon. SUSAN COLLINS,
U.S. Senate, Dirksen Senate Office Building, Washington, DC.

DEAR SENATOR COLLINS: On behalf of the certified nurse-midwife, CNM, and certified midwife, CM, members of the American College of Nurse-Midwives, ACNM, I am writing to express strong support for the legislation you plan to introduce this week to ensure appropriate and timely access to necessary home health services for women that might be in the care of a certified nurse-midwife or other primary care provider.

As you know, currently Medicare only allows a physician to order home health services for Medicare beneficiaries. ACNM believes this is an antiquated requirement that fails to recognize the role advanced practice nurses, including certified nurse-midwives, play in the delivery of high quality, primary care services. Your legislation would ensure

that a patient under the care of a certified nurse-midwife can receive necessary home health services in a timely manner. This is particularly important for those women with disabilities who are covered by the Medicare program and are of childbearing age. It is also important for senior women who might be under the care of a certified nurse-midwife for primary care services.

Thank you again for your leadership on this important matter. ACNM looks forward to working with you to see this legislation's passage during the 110th Congress. For further information on this matter, please contact Mr. Patrick Cooney, ACNM's Federal Representative, at (202) 347–0034.

Sincerely,

EUNICE K.M. ERNST,
CNM, MPH, DSn(Hon), FACNM, President.

NATIONAL ASSOCIATION FOR
HOME CARE & HOSPICE,
Washington, DC, June 6, 2007.

Hon. SUSAN COLLINS,
U.S. Senate,
Washington, DC.

DEAR SENATOR COLLINS: On behalf of the National Association for Home Care & Hospice, NAHC, I am writing to offer our appreciation and support for the Home Health Care Planning Improvement Act of 2007 that would allow nurse practitioners, NPs, clinical nurse specialists, CNSs, certified nurse midwives, CNMs, and physicians' assistants, PAs, to sign Medicare home health plans of care. We commend you for this much needed legislation that will help ensure timely access to home health services while reducing Medicare expenditures on more costly institutional care.

NPs, CNSs, CNMs, and PAs are playing an increasing role in the delivery of our nation's health care, especially in rural and underserved areas, and are providing necessary medical services to Medicare beneficiaries. They are often more familiar with particular cases than the attending physician. In addition, they are sometimes more readily available than physicians to expedite the processing of necessary paperwork, ensuring that home health agencies will be reimbursed in a timely manner and that care to the beneficiary will not be interrupted. Studies have shown that the expanded use of these professionals can result in dramatic decreases in expensive hospitalizations and nursing home stays.

We appreciate the outstanding leadership you have shown in helping make home and community-based services more readily available to our nation's elderly population and those with disabilities.

With our highest regards,

VAL J. HALAMANDARIS,
President.

AMERICAN ACADEMY,
OF NURSE PRACTITIONERS,
Washington, DC. June 7, 2007.

Senator SUSAN COLLINS,
U.S. Senate,
Washington, DC.

DEAR SENATOR COLLINS: I am writing in behalf of the American Academy of Nurse Practitioners to endorse the introduction of the Home Health Improvement Act of 2007. This bill will authorize nurse practitioners to order home health services for patients for whose care they are responsible.

As you know, nurse practitioners have been authorized Part B Medicare providers since 1998. Under the provisions of this law, nurse practitioners render, order and refer for services under their own PIN and UPIN numbers. They may order physical therapy, occupational therapy, bill as consultant and consultees when providing services through telemedicine and order and bill for performing and interpreting diagnostic tests within their scope of practice. Despite their ability to provide and bill for services in all of these areas, they are still unable to refer patients for home health care.

Nurse practitioners have been demonstrated to provide safe and responsible care to the patients they serve. They have expert knowledge that allows them to provide high level assessments of patient needs and recognize when additional care, such as home health care is needed or not needed by their patients. Given their proven track record in the care of the elderly, it is not logical that nurse practitioners are authorized to be Part B providers, but are unable to order home health care and hospice care for their patients.

Currently nurse practitioners with patients needing home health care services must locate a physician who will see the patient and write the orders for this care. Not only is the patient's well being jeopardized by the delays that are incurred by this requirement, but added cost is incurred by the Medicare program through extra visits to providers with higher reimbursement rates than nurse practitioners. Passage of this bill will increase the quality and timeliness of care to patients who need home health nursing services.

Sincerely,

JAN TOWERS,
PhD, NP-C, CRNP, FAANP,
Director of Health Policy.

AMERICAN COLLEGE,
OF NURSE PRACTITIONERS,
June 7, 2007.

Hon. SUSAN COLLINS,
United States Senate,
Washington, DC.

DEAR SENATOR COLLINS: On behalf of the American College of Nurse Practitioners (ACNP), a national, non-profit membership organization whose mission is to ensure a solid policy and regulatory foundation that enables Nurse Practitioners to continue providing accessible, high quality healthcare to the nation—I am writing to express our appreciation to you for introducing the Home Health Care Planning Improvement Act of 2007.

The Home Health Care Planning Improvement Act importantly will amend the Social Security Act by broadening access to home health services for Medicare beneficiaries. A patient's Nurse Practitioner, physicians' assistant, or certified nurse midwife will now have the right to make changes to their home health care plan. Your critical legislation will safeguard the patient's continuity of care by preventing interruptions due to delays in paperwork from an oftentimes offsite physician who may never have even seen the patient.

The bill also recognizes the professional training and qualifications of Nurse Practitioners and ensures quality patient care, especially in rural and underserved areas where Nurse Practitioners are often more familiar with particular cases than the attending physician. ACNP thanks you for your ongoing support of the Nurse Practitioner community. Please know that ACNP stands ready to work with you and your staff to ensure Medicare beneficiaries have access to the highest quality care. If we can be of any assistance, please feel free to contact our Health Policy Advisor, Jodie Curtis (Jodie.Curtis@dbr.com) or our Chief Executive Officer, Carolyn Hutcherson (Carolyn@acnpweb.org).

Sincerely,

SUSAN APOLD, *PhD, ANP,*
President.

AMERICAN ACADEMY
OF PHYSICIAN ASSISTANTS,
Alexandria, VA, June 6, 2007.

Hon. SUSAN M. COLLINS,
United States Senate,
Washington, DC.

DEAR SENATOR COLLINS: On behalf of the more than 60,000 clinically practicing physician assistants (PAs) in the United States represented by the American Academy of Physician Assistants (AAPA), I thank you for introducing the Home Health Care Planning Improvement Act of 2007. The AAPA strongly supports this important piece of legislation, and looks forward to working with you to secure its passage during the 110th Congress.

In 2006, nearly 231 million patient visits were made to physician assistants (PAs) and over 286 million prescriptions were written by PAs. PAs have a longstanding history of providing care in medically underserved communities, and have been credited with improving access to quality and cost-effective health care for many among the nation's most vulnerable patient populations.

Although the 1997 Balanced Budget Act extended Medicare coverage of medical services provided by PAs, as allowed by state law, PAs are not able to order home health care for Medicare beneficiaries. At best, PAs and their supervising physicians are forced to go through unnecessary extra steps to ensure that all home health orders are signed by the physician before the care is provided. At worst, Medicare beneficiaries experience needless delays in receiving home health care because a physician is not available onsite to sign the form.

The inability of PAs to order home health care is particularly burdensome for Medicare beneficiaries in medically underserved communities where a PA may be the only health care professional available. For example,

Needed home health care was delayed by over a week for a Medicare patient in Nevada, because the PA's supervising physician was located 60 miles away. The PA, who holds a full-time job in another part of the state, is the only health care professional for the patient's small rural town, providing care two weekends a month;

critical access hospitals in Nevada and other states are having difficulty with discharge planning. By law, critical access hospitals must have a PA or nurse practitioner on site fifty percent of the time. However, Medicare will not accept home health orders that have been signed by a PA;

PAs in orthopedic practice regularly work after-hours and on weekends. However, necessary home health care must be delayed for Medicare beneficiaries until a physician is available to sign the order.

The Home Health Care Planning Improvement Act of 2007 increases Medicare beneficiaries' access to needed care by allowing PAs to order home health care. The AAPA is pleased to endorse the Home Health Care Planning Improvement Act of 2007.

Sincerely yours,

MARY P. ETTARI, *MPH, PA–C,*
President.

By Ms. MURKOWSKI (for herself and Mr. STEVENS):

S. 1680. A bill to provide for the inclusion of certain non-Federal land in

the Izembek National Wildlife Refuge and the Alaska Peninsula National Wildlife Refuge in the State of Alaska, and for other purposes; to the Committee on Energy and Natural Resources.

Ms. MURKOWSKI. Mr. President, the Izembek and Alaska Peninsula Wildlife Refuge and Wilderness Enhancement Act authorizes a land exchange among the U.S. Department of the Interior, the State of Alaska, and the people of King Cove. King Cove is an Alaska Native village and many of its present day residents descend from the indigenous Aleut people who have lived and thrived in this isolated area of the Alaska Peninsula for over 4,000 years.

This bill provides the land for a road on which to travel to the nearest all-weather airport which is located in Cold Bay. The people of King Cove do not have a road to their airport today because a National Wildlife Refuge wilderness sits between their village and Cold Bay.

World War II prompted the construction of a major air facility at Cold Bay, which is about 25 miles north of King Cove. Today, the Cold Bay Airport with a 10,000 foot main runway and a 6,500 foot crosswind runway is one of the largest airport facilities in Alaska and is accessible 365 days a year. However, the problem for King Cove residents has always been their inability to get to the airport on a predictable basis due to constant, ever changing weather conditions, combined with King Cove's topographic constraints.

These topographic constraints are directly related to the location of King Cove's small gravel airstrip nestled between 3,000 foot volcanic peaks. To access the airstrip in King Cove, pilots must navigate a narrow opening in the mountains.

Over the past 30 years, efforts by King Cove residents attempting to reach the Cold Bay Airport have resulted in numerous small plane crashes, some fatal. Neither King Cove nor Cold Bay have the sort of hospital facilities that are found in Anchorage. When King Cove people have a serious medical condition, they need to be ''medevaced'' to Anchorage from Cold Bay. That assumes that they can reach the airport at Cold Bay.

This legislation accomplishes the goal of providing the King Cove people with a road to the airport. It accomplishes this goal in a way that provides a net gain, rather than a net loss, to wilderness. The exchange provided for in this bill will add 61,723 acres to the Izembek and Alaska Peninsula National Wildlife Refuges. It adds 45,456 acres of wilderness, the first new wilderness areas designated by the Congress in Alaska in a generation. Not since the passage of the Alaska National Interest Lands Conservation Act, ANILCA, has new wilderness been designated in Alaska.

More importantly, this bill will add key areas of wildlife habitat to these two world-class wildlife refuges. Habitat for some of the largest and wildest brown bears in the world will transfer from private to public ownership. Other areas include key habitat for internationally valued waterfowl such as stellar eiders and brants.

I am sad to say that this is not a new issue for this body. The people of King Cove have been seeking justice in the form of a simple road to Cold Bay for decades. Congress attempted to make things right for the people of King Cove about a decade ago and came up with an imperfect solution.

This imperfect solution involved the construction of a 17-mile road from King Cove to a point near the border of the Izembek Refuge wilderness and a very expensive hovercraft to ferry King Cove residents across the rough waters of Cold Bay. The community has concluded that it cannot afford the cost of the hovercraft solution.

This bill will finish the job started by the Congress a few years ago. This bill provides a wonderful combination of wilderness additions in return for a small road corridor within the Izembek Wildlife Refuge to permit the current 17-mile road to be completed all the way to Cold Bay. This is the fairest and most logical process by which the King Cove residents and the nation can all benefit.

I want to commend the parties who have worked on this bill. The State of Alaska, has brought nearly 43,000 acres to this exchange. Without this land, the exchange would not be possible. The King Cove Native Corporation, which is a Village Corporation created by the Alaska Native Claim Settlement Act, ANCSA, is donating approximately 2,500 acres of high value wetland habitat in Kinzaroff Lagoon. This lagoon is part of the Izembek National Wildlife Refuge and will be designated as wilderness, so that the mouth of this lagoon will be in public ownership. The corporation is also offering another 10,500 acres, which will be made part of the Alaska Peninsula Wildlife Refuge while relinquishing another 5,400 acres of their ANCSA land in the Refuge.

The only land, which will leave Federal ownership in the area, is approximately 206 acres for a narrow road to connect the existing road from King Cove to the Cold Bay Airport. The route and alignment of the road, within the corridor established by the bill, will be determined through an inclusive, cooperative planning process.

It has been suggested by some that we should not reopen this issue—it has always been so controversial. People who fought this battle before, and still have the scars to prove it, were told that putting a road in a national wildlife refuge creates a bad precedent. I have been warned that every environmental group in the Nation will line up against me if I pursue the exchange.

That may be true but this is how I see it. In the 25 years that have passed since the Alaska National Interest Lands Conservation Act, ANILCA, became law, I think most Alaskans have come to appreciate the value of setting aside land in Alaska for preservation. That appreciation took time. Many Alaskans, as you know, resisted ANILCA.

In return, it is appropriate for Alaskans to expect the conservation system units to be good neighbors to the aboriginal communities that they border. That hasn't always been the case. The Aleut people of King Cove inhabited their lands long before there was an Izembek National Wildlife Refuge. The King Cove people steadfastly maintain that they were not consulted before the decision was made to make the land that stands between their community and the airport a wilderness. It is their contention that thousands of others across the United States, Canada, and Europe were invited by the Federal Govermment to make their views known in this process, yet they were denied a voice in this most crucial decision affecting their native homeland.

To me the King Cove road isn't just a matter of transportation. It is a matter of respect for Native people. That is why I am willing to take up this cause on behalf of the Native people of King Cove. I ask my colleagues to join with me and with the Aleut people of King Cove to make their dream of a road to the airport, something that those in the Lower 48 take for granted, a reality.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1680

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Izembek and Alaska Peninsula Refuge and Wilderness Enhancement Act of 2007''.

SEC. 2. FINDINGS.

Congress finds that—

(1) King Cove, Alaska, is—

(A) located 625 air miles from Anchorage, Alaska, on the south side of the Alaska Peninsula, on a sand spit fronting Deer Passage and Deer Island;

(B) accessible only by air and water; and

(C) 1 of the most geographically isolated areas of the State of Alaska;

(2) constant adverse weather and limiting physical topography make traveling in and out of King Cove directly by air dangerous and impractical much of the time;

(3) King Cove is the homeland of Aleut people who—

(A) are federally recognized as indigenous peoples of the United States;

(B) have fished, hunted, and subsisted in King Cove for over 4,000 years; and

(C) refer to the King Cove community as ''Agdaagux'';

(4) the Agdaagux Tribal Council, which is the federally recognized tribal government for King Cove, recognizes that most of residents of King Cove are direct descendants of the original Aleut inhabitants;

(5) in the 1940s, an airport capable of access by jets was constructed by the United States Army at Cold Bay, which is approximately 25 surface miles north of King Cove, to support World War II related national security needs;

(6) while the Cold Bay Airport, which is now a civilian airport operated by the State of Alaska, is the lifeline for the King Cove people to the outside world, particularly for the life, safety, and health needs of the indigenous residents, there is no surface access between King Cove and the airport;

(7) nearly all of the land between King Cove and Cold Bay is—

(A) owned by the Federal Government as part of the Izembek National Wildlife Refuge; and

(B) managed as wilderness; and

(8) the Agdaagux Tribal Council—

(A) maintains that the Council and the indigenous Aleut people of King Cove were not consulted before the land that separates residents from the nearest all-weather airport was designated as wilderness, even though approximately 1,292 people across the United States, Canada, and Europe—

(i) received notice of the potential designation; and

(ii) during 1969 and 1970, were expressly invited by the Bureau of Sport Fisheries and Wildlife, the predecessor of the United States Fish and Wildlife Service, to participate in the process of considering whether the land should be managed as wilderness;

(B) regards the failure of the Federal Government to consult with the Council and the indigenous Aleut people of King Cove as a ''wrong and troubling action taken by the federal government'';

(C) submits that dozens of King Cove residents have died or suffered grave health consequences in the past 30 years because the residents could not reach timely medical assistance in Anchorage, Alaska, that can only be accessed via the all-weather Cold Bay Airport; and

(D) has expressed the full endorsement and support of the Council for the construction of a road between King Cove and the Cold Bay Airport as an expression of, and commitment to, self-determination for the Aleut people of King Cove who were not consulted before the land vital to the survival of the Aleut people of King Cove was designated as wilderness.

SEC. 3. DEFINITIONS.

In this Act:

(1) FEDERAL LAND.—The term ''Federal land'' means—

(A) the approximately 206 acres of Federal land within the Izembek National Wildlife Refuge in the State that is depicted on the map as ''King Cove Road''; and

(B) the approximately 1,600 acres of Federal land that is depicted on the map as ''Sitkinak Island''.

(2) LANDOWNER.—The term ''landowner'' means—

(A) the State; and

(B) the other owners of the non-Federal land, including King Cove Corporation.

(3) MAP.—The term ''map'' means the map entitled ''Proposed Land Enhancements'' and dated June 2007.

(4) NON-FEDERAL LAND.—The term ''non-Federal land'' means the approximately 61,723 acres of non-Federal land authorized to be added to the Refuges under this Act, as depicted on the map.

(5) REFUGE.—The term ''Refuge'' means each of the Izembek National Wildlife Refuge and the Alaska Peninsula National Wildlife Refuge in the State.

(6) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

(7) STATE.—The term ''State'' means the State of Alaska.

SEC. 4. CONVEYANCE OF LAND.

(a) IN GENERAL.—The Secretary shall convey to the State all right, title, and interest of the United States in and to the Federal land on—

(1) conveyance by the landowner to the Secretary of title to the non-Federal land that is acceptable to the Secretary; and

(2) certification by the Governor of the State that the State-owned land at Kinzaroff Lagoon has been designated under State law as a State refuge.

(b) MAP.—

(1) AVAILABILITY.—The map shall be on file and available for public inspection in the appropriate offices of the Secretary.

(2) REVISED MAP.—Not later than 180 days after the date of completion of the conveyance of Federal land and non-Federal land under this section, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives a revised map that depicts the Federal land and non-Federal land conveyed under this section.

(c) KING COVE ROAD CONVEYANCE.—

(1) IN GENERAL.—The land described in section 3(1)(A) shall be used for construction of a State road.

(2) TERMS AND CONDITIONS.—

(A) CABLE BARRIER.—A road constructed under this subsection shall include a cable barrier on each side of the road, as described in the record of decision entitled ''Mitigation Measure MM–11, King Cove Access Project Final Environmental Impact Statement Record of Decision'' and dated January 22, 2004.

(B) SUPPORT FACILITIES.—Support facilities for a road constructed under this subsection shall not be located on federally owned land in the Izembek National Wildlife Refuge.

(3) COOPERATIVE RIGHT-OF-WAY PLANNING PROCESS.—

(A) IN GENERAL.—On request of the State, the Secretary, in cooperation with the Secretary of Transportation, the State, the Agdaagux Tribal Council, the Aleutians East Borough, the City of King Cove, and the King Cove Corporation, shall undertake a process to determine the route for the road required to be constructed under paragraph (1) within the corridor that is depicted on the map as ''King Cove Road''.

(B) DEADLINE.—Not later than 18 months after the date on which the State submits a request under subparagraph (A), the Secretary shall complete the planning process required under that subparagraph.

(C) COMPATIBILITY.—The route for the road recommended by the Secretary under this paragraph shall be considered to be compatible with the purposes for which the Refuge was established.

(D) CONSTRUCTION.—Construction of the road along the route recommended by the Secretary under this paragraph is authorized in accordance with this Act.

(4) RECONVEYANCE.—The Secretary shall, on receipt of a written request from the State or the King Cove Corporation, immediately reconvey the applicable non-Federal land to the appropriate landowner that contributed the land if—

(A) a preliminary or permanent injunction is entered by a court of competent jurisdiction enjoining construction or use of the road; or

(B) the State or the King Cove Corporation determines before construction of the road that the road cannot be feasibly constructed or maintained.

(d) APPLICABLE LAW.—

(1) IN GENERAL.—The conveyance of Federal land and non-Federal land shall not be subject to any requirements for valuation, appraisal, and equalization under any other Federal law.

(2) ANCSA.—The use of existing roads and the construction of new roads on King Cove Corporation land to access the road authorized under this Act shall be considered—

(A) to be consistent with subsection (g) of section 22 of the Alaska Native Claims Settlement Act (43 U.S.C. 1621) and any patents issued under that subsection; and

(B) not to interfere with the purposes for which the Refuge was established.

(e) NOTICE.—The Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives notice of the completion of the conveyance of Federal land and non-Federal land under this section.

(f) DESIGNATION OF WILDERNESS.—On conveyance of the non-Federal land to the Secretary, the approximately 45,493 acres of land generally depicted on the map entitled ''Wilderness additions to Izembek and Alaska Peninsula Wildlife Refuges'' and dated June 2007, shall be designated as wilderness.

(g) ADMINISTRATION.—The Secretary shall administer the non-Federal land acquired under this Act—

(1) in accordance with the laws generally applicable to units of the National Refuge System;

(2) as wilderness, in accordance with the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101 et seq.); and

(3) subject to valid existing rights.

By Mr. DODD (for himself and Mr. STEVENS):

S. 1681. A bill to provide for a paid family and medical leave insurance program, and for other purposes; to the Committee on Finance.

Mr. DODD. Mr. President, I am pleased to introduce the Family Leave Insurance Act of 2007 and especially pleased to be joined by my colleague Senator STEVENS. This bill, which would provide 8 weeks of paid benefits to workers who take time off for reasons allowed under the Family and Medical Leave Act, FMLA, is an important step in continuing to help our Nation's workers to be both productive employees and responsible family members.

Before the FMLA, workers had no guarantee that their jobs would still be there if they took time off to care for loved ones or recover from illness themselves. Millions of Americans were forced into a challenging dilemma: care for their families, or provide for them.

That is why I worked to create the FMLA in 1985, and that is why I fought for its passage through 7 years of obstruction and two presidential vetoes, pointing out that its denial of guaranteed leave put America virtually alone

among nations, industrialized or otherwise.

Finally, on February 5, 1993, the Family and Medical Leave Act was signed into law. Under its protection, eligible workers receive 12 weeks of leave every year, so that they can watch over a newborn or adopted baby, or help a parent through an illness, or get better themselves, knowing that their job will be there when they return. To date, more than 50 million Americans have taken that opportunity. The FMLA isn't just good for American workers, it is good for American business. Ninety percent of employers have reported that the FMLA had a neutral or positive effect on profits.

Today, the idea of guaranteed leave seems obvious; but now, it is time to take another step in making that hardwon leave a possibility for even more Americans. In the 21st century, working families should not have to give up the leave they earned because they cannot afford it, they deserve paid leave.

Why do we offer nothing, when the European standard is 14 paid weeks? Why are we one of only four countries in the world to deny paid maternity leave, leaving us in the company of Swaziland, Liberia, and Papua New Guinea?

For every worker who can weather a day without pay, three more can't afford the loss. To these workers, unpaid leave is a hollow promise, an impossible choice between the family they love and the job they need.

I believe it is a choice that no American should ever again be forced to make. When Congress passed and President Clinton signed the FMLA, we affirmed that health and family should never have to suffer because of the demands of work. I fail to see why that right should only be afforded to Americans in a certain income bracket.

With the introduction of the Family Leave Insurance Act, we take a huge step toward making family leave a possibility for all Americans. Its 8 weeks of paid leave per year will apply to employees who need time off for any of the reasons included in the FMLA: birth of a child; placement of an adopted or foster child; the care for a child, parent, or spouse with a serious medical condition; or recovery from a serious personal medical condition. Benefits will be tiered on the basis of wages, with the tiers themselves indexed to inflation. This structure will provide the greatest benefit to those with the lowest salaries. And workers who are covered by the FMLA will retain their health insurance and will be guaranteed a return to their job, or a comparable position, on their return.

The act creates a new Family Leave Insurance Fund into which premiums are paid, to finance benefit payments, allowing stakeholders to pool risk and lower costs, and funded through small, shared premiums. Those costs will be shared by employees and employers; the Federal Government will pay for administrative costs. Participation will be mandatory for all businesses with 50 employees or more; those with fewer employees can choose to participate and receive a discount on premium payments. To reduce administrative burdens for employers and employees, employers will pay leave benefits to employees through their regular payroll, with prompt reimbursement from the Family Leave Insurance Fund.

We know that many employers, both large and small, offer very generous leave policies, exemplifying best business practices. Through this legislation, we seek to support companies who offer paid leave so they continue to do so, and to create an incentive for smaller companies to offer paid leave. A provision in the bill allows employers to maintain their own paid leave plan, if it is certified to be equivalent or better to the plan in this legislation.

Our bill will also allow States flexibility in maintaining their existing programs. Several States already have systems to provide paid family and medical leave, and several more have legislation pending to create such systems. In recent years, more than 25 States have introduced legislation to create paid leave programs. The landscape in the States is changing quickly on policies for working families and there are complex issues around the interaction between this legislation, State programs and employers within States. We look forward to collaborating with States so they can maintain maximum flexibility, and provide the best leave policy, as the bill moves forward.

As the FMLA has demonstrated so strongly, family leave benefits both workers and businesses, and that is certainly the case for paid family leave. Paid leave cuts down on employee turnover and the high costs of training replacements; it has been shown to raise morale and productivity; and it levels the playing field by allowing small businesses to adopt a benefit that many of their larger competitors have been offering for years.

Our changing workforce demonstrates the strong need for paid family and medical leave. Almost 80 percent of the workforce is made up of dual earner couples, who struggle to find time to care for their sick children or their own illnesses. In addition, approximately 40 percent of the workforce will be caring for older parents by 2010. For these and many other reasons, this bill is the right policy.

The FMLA established the principle, and now the Family Leave Insurance Act puts it into practice and into reach for more Americans. Its passage will bring America closer to the world's standards, help our businesses, and protect our workforce. In the lives of millions of Americans, it will help reduce the dilemma of balancing work and family. Let us continue to work together: Government, business and employees need to continue this conversation and improve our policies for working families and individual employees who need paid leave. I strongly urge my colleagues to support this bill.

Mr. STEVENS. Mr. President, earlier today, Senator DODD and I introduced the Family Leave Insurance Act of 2007, which builds upon important protections established by the Family and Medical Leave Act, FMLA, of 1993.

Our legislation would provide 8 weeks of paid benefits to private and Federal employees who take leave for reasons permitted by the FMLA. These include a serious health condition; care for a critically ill child, spouse, or parent; and the birth or adoption of a child.

Benefits would be provided to workers based on their annual income level. As an example, those earning less than $20,000 per year would receive 100 percent of their benefits, while those earning $60,000 to $97,000 would receive 40 percent. This scaled approach has two advantages: it will keep program costs low, and offer the greatest help to those who need it most.

In the past, many have expressed apprehension over the costs associated with family and medical leave. These concerns are valid, and steps must be taken to ensure neither employees nor employers are burdened by this or any similar program.

As introduced, this insurance fund would be financed by employees, employers, and the Federal Government. Employees would contribute 0.2 percent of their earnings, employers would match this percentage, and the Federal Government would pay any administrative expenses not covered by those payments. In truth, these costs are minimal for all involved. A worker who receives a $1,000 paycheck would disburse just $2 to receive full coverage.

While my support for this bill is not absolute, it does address an important shortcoming of the FMLA: employees who need leave often do not take time off because they simply cannot afford to do so. Senator DODD has rightly described this as a terrible choice for individuals—one which forces a decision between ''the job they need and the family they love.'' Those of us in the Senate must do everything we can to help hard-working American families, and this bill represents a significant first step in those efforts.

As the father of six children, I deeply understand the challenges families face following childbirth, in times of sickness, and when loved ones fall ill. In Alaska, the majority of parents hold full-time jobs outside the home, which often makes this pressure even more intense.

I commend Senator DODD for his continued leadership on this issue, and look forward to working with my Senate colleagues and leaders in the business community to improve this bill as it moves through the legislative process.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 248—HONORING THE LIFE AND ACHIEVEMENTS OF DAME LOIS BROWNE EVANS, BERMUDA'S FIRST FEMALE BARRISTER AND ATTORNEY GENERAL, AND THE FIRST FEMALE OPPOSITION LEADER IN THE BRITISH COMMONWEALTH

Mr. BROWN submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 248

Whereas Dame Lois Browne Evans was born in 1927 in Bermuda, and attended the Central School and Middle Temple at London's Inns of Court in the United Kingdom;

Whereas, in June 1952, at the age of 26, Dame Lois Browne Evans was called to the London Bar, and the following December called to the Bermuda Bar and opened her own practice;

Whereas Dame Lois Browne Evans became Bermuda's first female barrister and went on to a distinguished career as a leading counsel;

Whereas Dame Lois Browne Evans was a lifelong advocate for the rights of workers and black Bermudians and a prominent member of the Progressive Labour Party (PLP);

Whereas Dame Lois Browne Evans was elected to Parliament in 1963 and became the first black female to serve in Parliament;

Whereas, in 1968, in Bermuda's first general election in which all adults were entitled to vote, Dame Lois Browne Evans was elected the PLP's Parliamentary Leader and became the first female Opposition Leader in the British Commonwealth;

Whereas Dame Lois Browne Evans held the position of Opposition Leader until 1972 and, in 1973, became Jamaica's Honorary Counsel in Bermuda, the first Bermudian to serve in this capacity;

Whereas in 1976 Dame Lois Browne Evans was again elected to Parliament and served as the Opposition Leader until 1985;

Whereas the PLP won its first election in 1998 and Dame Lois Browne Evans was appointed Minister of Legislative Affairs;

Whereas in 1999 Dame Lois Browne Evans became Bermuda's first elected Attorney General and first female Attorney General;

Whereas Dame Lois Browne Evans was Bermuda's longest serving Member of Parliament;

Whereas Dame Lois Browne Evans debated at the historic London and Bermuda Constitutional Conferences and served as a delegate to numerous international conferences in Africa, New Zealand, the United States, and the Caribbean;

Whereas Dame Lois Brown Evans was a member of the International Federation of Women Lawyers and a founding member of the Bermuda Business and Professional Women's Club;

Whereas Dame Lois Browne Evans led an exceptional life in which she played a major role in the racial integration of Bermuda and advanced the cause of civil, human, and minority rights in Bermuda and throughout the world; and

Whereas Dame Lois Browne Evans passed away on May 29, 2007, at the age of 79: Now, therefore, be it

Resolved, That the Senate—

(1) expresses its profound sympathy to the family of Dame Lois Browne Evans and the citizens of Bermuda on the passing of Dame Lois Browne Evans; and

(2) commends the exemplary lifetime achievements of Dame Lois Browne Evans, her commitment to public service, and the singular role she played as a true pioneer who forged the way ahead for women and minorities.

AMENDMENTS SUBMITTED AND PROPOSED

SA 1820. Mr. BAYH submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table.

SA 1821. Mr. LEVIN (for himself and Ms. STABENOW) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1822. Mr. ALEXANDER (for himself and Mr. DOMENICI) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1823. Mr. ALEXANDER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1824. Mr. HATCH submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1825. Ms. LANDRIEU submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1826. Mr. CRAPO (for himself and Mr. CONRAD) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1827. Mr. HATCH submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1828. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1829. Ms. SNOWE (for herself, Mr. CARPER, Mrs. LINCOLN, Mr. SMITH, Mr. KERRY, Mr. LIEBERMAN , and Mr. ISAKSON) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1830. Ms. SNOWE (for herself, Mr. CARPER, Mrs. LINCOLN, Mr. SMITH, Mr. KERRY, Mr. LIEBERMAN , and Mr. ISAKSON) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1831. Mr. HARKIN submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1832. Mr. NELSON, of Nebraska (for himself, Mr. CRAIG, Mr. CRAPO, Mr. KOHL, and Mr. ALLARD) submitted an amendment intended to be proposed by him to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1833. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1834. Mr. SMITH (for himself, Ms. SNOWE, and Ms. CANTWELL) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6 , supra; which was ordered to lie on the table.

SA 1835. Mr. SMITH (for himself and Ms. CANTWELL) submitted an amendment intended to be proposed to amendment SA 1704

proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1836. Mr. REID (for himself and Mr. ENSIGN) submitted an amendment intended to be proposed to amendment SA 1753 submitted by Mr. DEMINT (for himself, Mr. CRAIG, Mr. GRAHAM, Mr. INHOFE, Mr. BURR, Ms. MURKOWSKI, and Mr. CRAPO) and intended to be proposed to the bill S. 1419, to move the United States toward greater energy independence and security, to increase the production of clean renewable fuels, to protect consumers from price gouging, to increase the energy efficiency of products, buildings and vehicles, to promote research on and deploy greenhouse gas capture and storage options, and to improve the energy performance of the Federal Government, and for other purposes; which was ordered to lie on the table.

SA 1837. Mr. SALAZAR submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table.

SA 1838. Mr. SMITH submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1839. Mr. SMITH submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1840. Mr. OBAMA submitted an amendment intended to be proposed to amendment SA 1712 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H .R. 6, supra; which was ordered to lie on the table.

SA 1841. Mr. MCCONNELL (for Mr. COBURN) submitted an amendment intended to be proposed by Mr. McConnell to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1842. Mr. STEVENS (for himself, Ms. MURKOWSKI, Mr. VITTER, and Mr. CRAIG) submitted an amendment intended to be proposed to amendment SA 1741 submitted by Mr. STEVENS and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1843. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1792 proposed by Mr. STEVENS (for himself, Ms. SNOWE, Mr. ALEXANDER, Mr. KERRY, Mr. CARPER, Mr. LOTT, and Mr. CORKER) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1844. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table.

SA 1845. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1846. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1847. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1848. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1849. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1850. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1851. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1852. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1853. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1854. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1855. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1856. Mr. INHOFE submitted an amendment intended to be proposed to amendment SA 1786 submitted by Mr. BIDEN (for himself and Mr. LUGAR) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table.

SA 1857. Mr. INHOFE submitted an amendment intended to be proposed to amendment SA 1787 submitted by Mr. BIDEN (for himself and Mr. LUGAR) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1858. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1792 proposed by Mr. STEVENS (for himself, Ms. SNOWE, Mr. ALEXANDER, Mr. KERRY, Mr. CARPER, Mr. LOTT, and Mr. CORKER) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1859. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1711 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1860. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1712 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1861. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1713 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1862. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table.

SA 1863. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1864. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1865. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1866. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 1820. Mr. BAYH submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy, technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 73, after line 18, insert the following:

(c) LIMITATION OF INELIGIBLE REFINERY PROPERTY.—Subsection (f)(1) of section 179C is amended by inserting ''virgin'' before ''lube oil facility''.

SA 1821. Mr. LEVIN (for himself and Ms. STABENOW) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in

clean, renewable, and alternative energy resources, promoting new emerging energy, technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. ADVANCED TECHNOLOGY MOTOR VEHICLE COMPONENT MANUFACTURING CREDIT.

(a) IN GENERAL.—Subpart B of part IV of subchapter A of chapter 1 (relating to foreign tax credit, etc.) of the Internal Revenue Code of 1986, as amended by this Act, is amended by adding at the end the following new section:

''SEC. 30E. ADVANCED TECHNOLOGY MOTOR VEHICLE COMPONENT MANUFACTURING CREDIT.

''(a) CREDIT ALLOWED.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to 35 percent of the qualified investment of an eligible taxpayer for such taxable year.

''(b) QUALIFIED INVESTMENT.—For purposes of this section—

''(1) IN GENERAL.—The qualified investment for any taxable year is equal to the incremental costs incurred during such taxable year—

''(A) to re-equip, expand, or establish any manufacturing facility in the United States of the eligible taxpayer to produce eligible advanced technology motor vehicle components,

''(B) for engineering integration performed in the United States of such components as described in subsection (d),

''(C) for research and development performed in the United States related to such components, and

''(D) for employee retraining with respect to the manufacturing of such components (determined without regard to wages or salaries of such retrained employees).

''(2) ATTRIBUTION RULES.—In the event a facility of the eligible taxpayer produces both eligible advanced technology motor vehicle components and non-eligible advanced technology motor vehicle components, only the qualified investment attributable to production of eligible advanced technology motor vehicle components shall be taken into account.

''(c) DEFINITIONS.—In this section:

''(1) ELIGIBLE ADVANCED TECHNOLOGY MOTOR VEHICLE COMPONENT.—

''(A) IN GENERAL.—The term 'eligible advanced technology motor vehicle component' means any component inherent to any advanced technology motor vehicle, including—

''(i) with respect to any gasoline or diesel-electric new qualified hybrid motor vehicle—

''(I) electric motor or generator;

''(II) power split device;

''(III) power control unit;

''(IV) power controls;

''(V) integrated starter generator; or

''(VI) battery;

''(ii) with respect to any hydraulic new qualified hybrid motor vehicle—

''(I) accumulator or other energy storage device;

''(II) hydraulic pump;

''(III) hydraulic pump-motor assembly;

''(IV) power control unit; and

''(V) power controls;

''(iii) with respect to any new advanced lean burn technology motor vehicle—

''(I) diesel engine;

''(II) turbo charger;

''(III) fuel injection system; or

''(IV) after-treatment system, such as a particle filter or NOx absorber; and

''(iv) with respect to any advanced technology motor vehicle, any other component submitted for approval by the Secretary.

''(B) ADVANCED TECHNOLOGY MOTOR VEHICLE.—The term 'advanced technology motor vehicle' means—

''(i) any qualified electric vehicle (as defined in section 30(c)(1)),

''(ii) any new qualified fuel cell motor vehicle (as defined in section 30B(b)(3)),

''(iii) any new advanced lean burn technology motor vehicle (as defined in section 30B(c)(3)),

''(iv) any new qualified hybrid motor vehicle (as defined in section 30B(d)(2)(A) and determined without regard to any gross vehicle weight rating),

''(v) any new qualified alternative fuel motor vehicle (as defined in section 30B(e)(4), including any mixed-fuel vehicle (as defined in section 30B(e)(5)(B)), and

''(vi) any other motor vehicle using electric drive transportation technology (as defined in paragraph (3)).

''(C) ELECTRIC DRIVE TRANSPORTATION TECHNOLOGY.—The term 'electric drive transportation technology' means technology used by vehicles that use an electric motor for all or part of their motive power and that may or may not use off-board electricity, such as battery electric vehicles, fuel cell vehicles, engine dominant hybrid electric vehicles, plug-in hybrid electric vehicles, and plug-in hybrid fuel cell vehicles.

''(2) ELIGIBLE TAXPAYER.—The term 'eligible taxpayer' means any taxpayer if more than 20 percent of the taxpayer's gross receipts for the taxable year is derived from the manufacture of automotive components.

''(d) ENGINEERING INTEGRATION COSTS.—For purposes of subsection (b)(1)(B), costs for engineering integration are costs incurred prior to the market introduction of advanced technology vehicles for engineering tasks related to—

''(1) establishing functional, structural, and performance requirements for component and subsystems to meet overall vehicle objectives for a specific application,

''(2) designing interfaces for components and subsystems with mating systems within a specific vehicle application,

''(3) designing cost effective, efficient, and reliable manufacturing processes to produce components and subsystems for a specific vehicle application, and

''(4) validating functionality and performance of components and subsystems for a specific vehicle application.

''(e) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for the taxable year shall not exceed the excess of—

''(1) the sum of the regular tax liability (as defined in section 26(b)) for such taxable year plus the tax imposed by section 55 for such taxable year, over

''(2) the sum of the credits allowable under subpart A and sections 27, 30, and 30B for the taxable year.

''(f) REDUCTION IN BASIS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this paragraph) result from such expenditure shall be reduced by the amount of the credit so allowed.

''(g) NO DOUBLE BENEFIT.—

''(1) COORDINATION WITH OTHER DEDUCTIONS AND CREDITS.—Except as provided in paragraph (2), the amount of any deduction or other credit allowable under this chapter for any cost taken into account in determining the amount of the credit under subsection (a) shall be reduced by the amount of such credit attributable to such cost.

''(2) RESEARCH AND DEVELOPMENT COSTS.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), any amount described in subsection (b)(1)(C) taken into account in determining the amount of the credit under subsection (a) for any taxable year shall not be taken into account for purposes of determining the credit under section 41 for such taxable year.

''(B) COSTS TAKEN INTO ACCOUNT IN DETERMINING BASE PERIOD RESEARCH EXPENSES.—Any amounts described in subsection (b)(1)(C) taken into account in determining the amount of the credit under subsection (a) for any taxable year which are qualified research expenses (within the meaning of section 41(b)) shall be taken into account in determining base period research expenses for purposes of applying section 41 to subsequent taxable years.

''(h) BUSINESS CARRYOVERS ALLOWED.—If the credit allowable under subsection (a) for a taxable year exceeds the limitation under subsection (e) for such taxable year, such excess (to the extent of the credit allowable with respect to property subject to the allowance for depreciation) shall be allowed—

''(1) as a credit carryback to the taxable year preceding the unused credit year, and

''(2) as a carryforward to each of the 20 taxable years immediately following the unused credit year.

For purposes of this subsection, rules similar to the rules of section 39 shall apply.

''(i) SPECIAL RULES.—For purposes of this section, rules similar to the rules of section 179A(e)(4) and paragraphs (1) and (2) of section 41(f) shall apply

''(j) ELECTION NOT TO TAKE CREDIT.—No credit shall be allowed under subsection (a) for any property if the taxpayer elects not to have this section apply to such property.

''(k) REGULATIONS.—The Secretary shall prescribe such regulations as necessary to carry out the provisions of this section.

''(l) TERMINATION.—This section shall not apply to any qualified investment after December 31, 2012.''.

(b) CONFORMING AMENDMENTS.—

(1) Section 1016(a) of such Code, as amended by this Act, is amended by striking ''and'' at the end of paragraph (36), by striking the period at the end of paragraph (37) and inserting '', and'', and by adding at the end the following new paragraph:

''(38) to the extent provided in section 30E(f).''.

(2) Section 6501(m) of such Code is amended by inserting ''30E(j),'' after ''30D(e)(9),''.

(3) The table of sections for subpart B of part IV of subchapter A of chapter 1, as amended by this Act, is amended by inserting after the item relating to section 30D the following new item:

''Sec. 30E. Advanced technology motor vehicles manufacturing credit.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts incurred in taxable years beginning after the date of the enactment of this Act.

SEC. ___. INCREASE IN ALTERNATIVE FUEL VEHICLE REFUELING PROPERTY CREDIT.

(a) IN GENERAL.—

(1) INCREASE IN CREDIT PERCENTAGE.—Subsection (a) of section 30C (relating to alternative fuel vehicle refueling property credit) is amended by striking ''30 percent'' and inserting ''50 percent''.

(2) INCREASED LIMITATION AMOUNT FOR BUSINESSES.—Paragraph (1) of section 30C(b) is amended by striking ''$30,000'' and inserting ''$50,000''.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

SA 1822. Mr. ALEXANDER (for himself and Mr. DOMENICI) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy, technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 5, line 6, strike ''2014'' and insert ''2011''.

On page 157, after line 14, insert the following:

SEC. 879. ACCELERATED DEPRECIATION FOR SCRUBBERS.

(a) IN GENERAL.—Subparagraph (A) of section 168(e)(3) (relating to 3-year property) is amended—

(1) by striking ''and'' at the end of clause (ii),

(2) by striking the period at the end of clause (iii) and inserting '', and'', and

(3) by adding at the end the following new clause:

''(iv) any qualifying scrubber, as defined in subsection (i)(19).''.

(b) QUALIFYING SCRUBBER.—Section 168(i) (relating to definitions and special rules), as amended by this Act, is amended by adding at the end the following new paragraph:

''(19) QUALIFYING SCRUBBER.—For purposes of this section the term 'qualifying scrubber' means any wet or dry scrubber or scrubber system which—

''(A) meets all standards issued by the Environmental Protection Agency applicable to such scrubber or scrubber system, and

''(B) receives approval for treatment under subsection (e)(3)(iv) by the Secretary under an allocation process developed by the Secretary to limit the application of this treatment to 12 scrubbers per taxable year.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act.

SA 1823. Mr. ALEXANDER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy, technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 5, line 6, strike ''2014'' and insert ''2011''.

On page 114, after line 16, insert the following:

SEC. 855. EXTENSION OF ENERGY EFFICIENT APPLIANCE CREDIT.

Subsection (b) of section 45M (as amended by this Act) is amended by striking ''calendar year 2008, 2009, or 2010'' each place it appears in paragraphs (1)(A), (2)(B), (2)(C), (3)(B), and (3)(C) and inserting ''calendar years 2008 through 2017''.

SA 1824. Mr. HATCH submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 158, line 5, strike ''refining, processing'' and insert ''processing (other than refining)''.

SA 1825. Ms. LANDRIEU submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 173 of the amendment, strike line 14 and insert the following:

(b) COASTAL IMPACT ASSISTANCE FUND.—

(1) ESTABLISHMENT.—There is established in the general fund of the Treasury a fund, to be known as the ''Coastal Impact Assistance Fund'' (referred to in this subsection as the ''Fund''), to consist of amounts deposited in the Fund under paragraph (2).

(2) DEPOSITS.—The Secretary of the Treasury shall deposit into the Fund an amount equal to 37.5 percent of the total amount of revenue received as a result of the taxes imposed under chapter 56 of subtitle E of the Internal Revenue Code of 1986 (as added by subsection (a)).

(3) DISTRIBUTION.—For each of fiscal years 2007 through 2016, of amounts in the Fund, the Secretary of the Treasury shall transfer to the Secretary of the Interior, without further appropriation, not more than $2,500,000,000 for allocation in accordance with paragraph (4).

(4) ALLOCATION.—Of amounts transferred to the Secretary of the Interior under paragraph (3), the Secretary of the Interior shall, without further appropriation—

(A) allocate not more than $1,500,000,000 for disbursement to Gulf producing States and coastal political subdivisions (as defined in section 31(a) of the Outer Continental Shelf Lands Act (43 U.S.C. 1356a(a))), in accordance with section 31 of that Act (43 U.S.C. 1356a);

(B) deposit not more than $1,000,000,000 into the land and water conservation fund established under section 2 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460l–5), which shall be considered income to the Land and Water Conservation Fund for purposes of that section; and

(C) deposit the remainder into the general fund of the Treasury.

(c) DEDUCTIBILITY OF TAX.—The first sentence of * * *.

SA 1826. Mr. CRAPO (for himself and Mr. CONRAD) submitted an amendment intended to be proposed to the amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 45, after line 20, add the following:

SEC. _____. TAX-EXEMPT FINANCING OF CERTAIN ELECTRIC TRANSMISSION FACILITIES.

(a) IN GENERAL.—Subsection (a) of section 142 is amended—

(1) by striking ''or'' at the end of paragraph (14),

(2) by striking the period at the end of paragraph (15) and inserting '', or'', and

(3) by inserting at the end the following new paragraph:

''(16) qualified electric transmission facilities.''.

(b) DEFINITION.—Section 142 is amended by inserting at the end the following new subsection:

''(n) QUALIFIED ELECTRIC TRANSMISSION FACILITIES.—

''(1) IN GENERAL.—For purposes of subsection (a)(16), the term 'qualified electric transmission facility' means any electric transmission facility which is owned by—

''(A) a State or political subdivision of a State, or any agency, authority, or instrumentality of any of the foregoing, providing electric service, directly or indirectly to the public, or

''(B) a State or political subdivision of a State expressly authorized under State law

to finance and own electric transmission facilities.

''(2) TERMINATION.—Subsection (a)(16) shall not apply with respect to any bond issued after December 31, 2010.''.

(c) EFFECTIVE DATE.—The amendment made by this section shall apply to bonds issued after December 31, 2007.

SA 1827. Mr. HATCH submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. WYDEN, Mr. SCHUMER, and Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 214, after line 19, insert the following:

SEC. 895. CONDITIONAL SUNSET OF REVENUE RAISING PROVISIONS; ADDITIONAL DUTY ON OIL AND GAS PRODUCTS OF VENEZUELA.

Notwithstanding any other provision of this subititle or any other provision of law, on and after the date on which the Government of Venezuela withdraws as a member of the World Trade Organization—

(1) the amendments made by this subtitle shall cease to have force or effect; and

(2) there shall be imposed on any oil or gas product imported from Venezuela, in addition to any other duty that would otherwise apply to such product, a rate of duty of 5 percent ad valorem.

SA 1828. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 97, line 10, strike all through page 99, line 19, and insert the following:

''(i) PLUG-IN CONVERSION CREDIT.—

''(1) IN GENERAL.—For purposes of subsection (a), the plug-in conversion credit determined under this subsection with respect to any motor vehicle which is converted to a qualified plug-in electric drive motor vehicle is an amount equal to 20 percent of the cost of the plug-in traction battery module installed in such vehicle as part of such conversion.

''(2) LIMITATIONS.—The amount of the credit allowed under this subsection shall not exceed $2,500 with respect to the conversion of any motor vehicle.

''(3) DEFINITIONS AND SPECIAL RULES.—For purposes of this subsection—

''(A) QUALIFIED PLUG-IN ELECTRIC DRIVE MOTOR VEHICLE.—The term 'qualified plug-in electric drive motor vehicle' means any new qualified plug-in electric drive motor vehicle (as defined in section 30D(c), determined without regard to paragraphs (4) and (6) thereof).

''(B) PLUG-IN TRACTION BATTERY MODULE.—The term 'plug-in traction battery module' means an electro-chemical energy storage device which—

''(i) has a traction battery capacity of not less than 2.5 kilowatt hours,

''(ii) is equipped with an electrical plug by means of which it can be energized and recharged when plugged into an external source of electric power,

''(iii) consists of a standardized configuration and is mass produced,

''(iv) has been tested and approved by the National Highway Transportation Safety Administration as compliant with applicable motor vehicle and motor vehicle equipment safety standards when installed by a mechanic with standardized training in protocols established by the battery manufacturer as part of a nationwide distribution program, and

''(v) is certified by a battery manufacturer as meeting the requirements of clauses (i) through (iv).

''(C) CREDIT ALLOWED TO LESSOR OF BATTERY MODULE.—In the case of a plug-in traction battery module which is leased to the taxpayer, the credit allowed under this subsection shall be allowed to the lessor of the plug-in traction battery module.

''(D) CREDIT ALLOWED IN ADDITION TO OTHER CREDITS.—The credit allowed under this subsection shall be allowed with respect to a motor vehicle notwithstanding whether a credit has been allowed with respect to such motor vehicle under this section (other than this subsection) in any preceding taxable year.

''(4) TERMINATION.—This subsection shall not apply to conversions made after December 31, 2010.''.

SA 1829. Ms. SNOWE (for herself, Mr. CARPER, Mrs. LINCOLN, Mr. SMITH, Mr. KERRY, Mr. LIEBERMAN, and Mr. ISAKSON) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

Subpart —Reuse and Recycling Property

SEC. __. SPECIAL DEPRECIATION ALLOWANCE FOR CERTAIN REUSE AND RECYCLING PROPERTY.

(a) IN GENERAL.—Section 168 (relating to accelerated cost recovery system), as amended by this Act, is amended by adding at the end the following new subsection:

''(n) SPECIAL ALLOWANCE FOR CERTAIN REUSE AND RECYCLING PROPERTY.—

''(1) IN GENERAL.—In the case of any qualified reuse and recycling property—

''(A) the depreciation deduction provided by section 167(a) for the taxable year in which such property is placed in service shall include an allowance equal to 50 percent of the adjusted basis of the qualified reuse and recycling property, and

''(B) the adjusted basis of the qualified reuse and recycling property shall be reduced by the amount of such deduction before computing the amount otherwise allowable as a depreciation deduction under this chapter for such taxable year and any subsequent taxable year.

''(2) QUALIFIED REUSE AND RECYCLING PROPERTY.—For purposes of this subsection—

''(A) IN GENERAL.—The term 'qualified reuse and recycling property' means any reuse and recycling property—

''(i) to which this section applies,

''(ii) which has a useful life of at least 5 years,

''(iii) the original use of which commences with the taxpayer after December 31, 2007, and

''(iv) which is—

''(I) acquired by purchase (as defined in section 179(d)(2)) by the taxpayer after December 31, 2007, but only if no written binding contract for the acquisition was in effect before January 1, 2008, or

''(II) acquired by the taxpayer pursuant to a written binding contract which was entered into after December 31, 2007.

''(B) EXCEPTIONS.—

''(i) ALTERNATIVE DEPRECIATION PROPERTY.—The term 'qualified reuse and recycling property' shall not include any property to which the alternative depreciation system under subsection (g) applies, determined without regard to paragraph (7) of subsection (g) (relating to election to have system apply).

''(ii) ELECTION OUT.—If a taxpayer makes an election under this clause with respect to any class of property for any taxable year, this subsection shall not apply to all property in such class placed in service during such taxable year.

''(C) SPECIAL RULE FOR SELF-CONSTRUCTED PROPERTY.—In the case of a taxpayer manufacturing, constructing, or producing property for the taxpayer's own use, the requirements of clause (iv) of subparagraph (A) shall be treated as met if the taxpayer begins manufacturing, constructing, or producing the property after December 31, 2007.

''(D) DEDUCTION ALLOWED IN COMPUTING MINIMUM TAX.—For purposes of determining alternative minimum taxable income under section 55, the deduction under subsection (a) for qualified reuse and recycling property shall be determined under this section without regard to any adjustment under section 56.

''(3) DEFINITIONS.—For purposes of this subsection—

''(A) REUSE AND RECYCLING PROPERTY.—

''(i) IN GENERAL.—The term 'reuse and recycling property' means any machinery and equipment (not including buildings or real estate), along with all appurtenances thereto, including software necessary to operate such equipment, which is used exclusively to collect, process, or reuse qualified reuse and recyclable materials.

''(ii) EXCLUSION.—Such term does not include rolling stock or other equipment used to transport reuse and recyclable materials.

''(B) QUALIFIED REUSE AND RECYCLABLE MATERIALS.—

''(i) IN GENERAL.—The term 'qualified reuse and recyclable materials' means scrap plastic, scrap glass, scrap textiles, scrap rubber including used tires, scrap packaging, recovered fiber, scrap ferrous and nonferrous metals, or electronic scrap generated by an individual or business.

''(ii) ELECTRONIC SCRAP.—For purposes of clause (i), the term 'electronic scrap' means—

''(I) any cathode ray tube, flat panel screen, or similar video display device with a screen size greater than 4 inches measured diagonally, or

''(II) any central processing unit.

''(C) RECYCLING OR RECYCLE.—The term 'recycling' or 'recycle' means that process (including sorting) by which worn or superfluous materials are manufactured or processed into specification grade commodities that are suitable for use as a replacement or substitute for virgin materials in manufacturing tangible consumer and commercial products, including packaging.''.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after December 31, 2007.

SEC. _. TAX-EXEMPT BOND FINANCING OF RECYCLING FACILITIES.

(a) IN GENERAL.—Section 142 (defining exempt facility bond) is amended by adding at the end the following new subsection:

''(n) SOLID WASTE DISPOSAL FACILITIES.—

''(1) IN GENERAL.—For purposes of subsection (a)(6) only, the term 'solid waste disposal facilities' means any facility used to perform a solid waste disposal function.

''(2) SOLID WASTE DISPOSAL FUNCTION.—

''(A) IN GENERAL.—For purposes of this subsection only, the term 'solid waste disposal function' means the collection, separation, sorting, storage, treatment, disassembly, handling, or processing of solid waste in any manner designed to dispose of the solid waste, including processing the solid waste into a useful energy source or product.

''(B) EXTENT OF FUNCTION.—For purposes of this subsection only, the solid waste disposal function ends at the later of—

''(i) the point of final disposal of the solid waste,

''(ii) immediately after the solid waste is incinerated or otherwise transformed or processed to generate heat, and the resulting heat is put into a form such as steam in which such heat is in fact sold or used, or

''(iii) the point at which the solid waste has been converted into a material or product that can be sold in the same manner as comparable material or product produced from virgin material.

''(C) FUNCTIONALLY RELATED AND SUBORDINATE FACILITIES.—For purposes of this subsection only, in the case of a facility used to perform both a solid waste disposal function and another function—

''(i) the costs of the facility allocable to the solid waste disposal function are determined using any reasonable method based upon facts and circumstances, and

''(ii) if during the period that bonds issued as part of an issue described in subsection (a)(6) are outstanding with respect to any facility at least 65 percent of the materials processed in such facility are solid waste materials as measured by weight or volume, then all of the costs of the property used to perform such process are allocable to a solid waste disposal function.

''(3) SOLID WASTE.—For purposes of this subsection only—

''(A) IN GENERAL.—The term 'solid waste' means garbage, refuse, or discarded solid materials, including waste materials resulting from industrial, commercial, agricultural, or community activities.

''(B) GARBAGE, REFUSE OR DISCARDED SOLID MATERIALS.—For purposes of subparagraph (A), the term 'garbage, refuse, or discarded solid materials' means materials that are useless, unused, unwanted, or discarded, regardless of whether or not such materials have value.

''(C) EXCLUSION.—The term 'solid waste' does not include materials in domestic sewage, pollutants in industrial or other water resources, or other liquid or gaseous waste materials.''.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to bonds issued before, on, or after the date of the enactment of this Act.

SEC. _. INCREASE IN INFORMATION RETURN PENALTIES.

(a) FAILURE TO FILE CORRECT INFORMATION RETURNS.—

(1) IN GENERAL.—Section 6721(a)(1) is amended—

(A) by striking ''$50'' and inserting ''$250'', and

(B) by striking ''$250,000'' and inserting ''$3,000,000''.

(2) REDUCTION WHERE CORRECTION IN SPECIFIED PERIOD.—

(A) CORRECTION WITHIN 30 DAYS.—Section 6721(b)(1) is amended—

(i) by striking ''$15'' and inserting ''$50'',

(ii) by striking ''$50'' and inserting ''$250'', and

(iii) by striking ''$75,000'' and inserting ''$500,000''.

(B) FAILURES CORRECTED ON OR BEFORE AUGUST 1.—Section 6721(b)(2) is amended—

(i) by striking ''$30'' and inserting ''$100'',

(ii) by striking ''$50'' and inserting ''$250'', and

(iii) by striking ''$150,000'' and inserting ''$1,500,000''.

(3) LOWER LIMITATION FOR PERSONS WITH GROSS RECEIPTS OF NOT MORE THAN $5,000,000.—Section 6721(d)(1) is amended—

(A) in subparagraph (A)—

(i) by striking ''$100,000'' and inserting ''$1,000,000'', and

(ii) by striking ''$250,000'' and inserting ''$3,000,000'',

(B) in subparagraph (B)—

(i) by striking ''$25,000'' and inserting ''$175,000'', and

(ii) by striking ''$75,000'' and inserting ''$500,000'', and

(C) in subparagraph (C)—

(i) by striking ''$50,000'' and inserting ''$500,000'', and

(ii) by striking ''$150,000'' and inserting ''$1,500,000''.

(4) PENALTY IN CASE OF INTENTIONAL DISREGARD.—Section 6721(e) is amended—

(A) by striking ''$100'' in paragraph (2) and inserting ''$500'',

(B) by striking ''$250,000'' in paragraph (3)(A) and inserting ''$3,000,000''.

(b) FAILURE TO FURNISH CORRECT PAYEE STATEMENTS.—

(1) IN GENERAL.—Section 6722(a) is amended—

(A) by striking ''$50'' and inserting ''$250'', and

(B) by striking ''$100,000'' and inserting ''$1,000,000''.

(2) PENALTY IN CASE OF INTENTIONAL DISREGARD.—Section 6722(c) is amended—

(A) by striking ''$100'' in paragraph (1) and inserting ''$500'', and

(B) by striking ''$100,000'' in paragraph (2)(A) and inserting ''$1,000,000''.

(c) FAILURE TO COMPLY WITH OTHER INFORMATION REPORTING REQUIREMENTS.—Section 6723 is amended—

(1) by striking ''$50'' and inserting ''$250'', and

(2) by striking ''$100,000'' and inserting ''$1,000,000''.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to information returns required to be filed on or after January 1, 2008.

SA 1830. Ms. SNOWE (for herself, Mr. CARPER, Mrs. LINCOLN, Mr. SMITH, Mr. KERRY, Mr. LIEBERMAN, and Mr. ISAKSON) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

Subpart _—Reuse and Recycling Property

SEC. _. SPECIAL DEPRECIATION ALLOWANCE FOR CERTAIN REUSE AND RECYCLING PROPERTY.

(a) IN GENERAL.—Section 168 (relating to accelerated cost recovery system), as amended by this Act, is amended by adding at the end the following new subsection:

''(n) SPECIAL ALLOWANCE FOR CERTAIN REUSE AND RECYCLING PROPERTY.—

''(1) IN GENERAL.—In the case of any qualified reuse and recycling property—

''(A) the depreciation deduction provided by section 167(a) for the taxable year in which such property is placed in service shall include an allowance equal to 50 percent of the adjusted basis of the qualified reuse and recycling property, and

''(B) the adjusted basis of the qualified reuse and recycling property shall be reduced by the amount of such deduction before computing the amount otherwise allowable as a depreciation deduction under this chapter for such taxable year and any subsequent taxable year.

''(2) QUALIFIED REUSE AND RECYCLING PROPERTY.—For purposes of this subsection—

''(A) IN GENERAL.—The term 'qualified reuse and recycling property' means any reuse and recycling property—

''(i) to which this section applies,

''(ii) which has a useful life of at least 5 years,

''(iii) the original use of which commences with the taxpayer after December 31, 2007, and

''(iv) which is—

''(I) acquired by purchase (as defined in section 179(d)(2)) by the taxpayer after December 31, 2007, but only if no written binding contract for the acquisition was in effect before January 1, 2008, or

''(II) acquired by the taxpayer pursuant to a written binding contract which was entered into after December 31, 2007.

''(B) EXCEPTIONS.—

''(i) ALTERNATIVE DEPRECIATION PROPERTY.—The term 'qualified reuse and recycling property' shall not include any property to which the alternative depreciation system under subsection (g) applies, determined without regard to paragraph (7) of subsection (g) (relating to election to have system apply).

''(ii) ELECTION OUT.—If a taxpayer makes an election under this clause with respect to any class of property for any taxable year, this subsection shall not apply to all property in such class placed in service during such taxable year.

''(C) SPECIAL RULE FOR SELF-CONSTRUCTED PROPERTY.—In the case of a taxpayer manufacturing, constructing, or producing property for the taxpayer's own use, the requirements of clause (iv) of subparagraph (A) shall be treated as met if the taxpayer begins manufacturing, constructing, or producing the property after December 31, 2007.

''(D) DEDUCTION ALLOWED IN COMPUTING MINIMUM TAX.—For purposes of determining alternative minimum taxable income under section 55, the deduction under subsection (a) for qualified reuse and recycling property shall be determined under this section without regard to any adjustment under section 56.

''(3) DEFINITIONS.—For purposes of this subsection—

''(A) REUSE AND RECYCLING PROPERTY.—

''(i) IN GENERAL.—The term 'reuse and recycling property' means any machinery and equipment (not including buildings or real estate), along with all appurtenances thereto, including software necessary to operate such equipment, which is used exclusively to sort or process, qualified reuse and recyclable materials or the primary purpose of which is the shredding and processing of qualified reuse and recyclable material.

''(ii) EXCLUSION.—Such term does not include rolling stock or other equipment used to transport reuse and recyclable materials.

''(B) QUALIFIED REUSE AND RECYCLABLE MATERIALS.—

''(i) IN GENERAL.—The term 'qualified reuse and recyclable materials' means scrap plastic, scrap glass, scrap textiles, scrap rubber including used tires, scrap packaging, recovered fiber, scrap ferrous and nonferrous metals, or electronic scrap generated by an individual or business.

''(ii) ELECTRONIC SCRAP.—For purposes of clause (i), the term 'electronic scrap' means—

''(I) any cathode ray tube, flat panel screen, or similar video display device with a screen size greater than 4 inches measured diagonally, or

''(II) any central processing unit.

''(C) RECYCLING OR RECYCLE.—The term 'recycling' or 'recycle' means that process (including sorting) by which worn or superfluous materials are manufactured or processed into specification grade commodities that are suitable for use as a replacement or substitute for virgin materials in manufacturing tangible consumer and commercial products, including packaging.''.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after December 31, 2007.

SEC. _. TAX-EXEMPT BOND FINANCING OF RECYCLING FACILITIES.

(a) IN GENERAL.—Section 142 (defining exempt facility bond) is amended by adding at the end the following new subsection:

''(n) SOLID WASTE DISPOSAL FACILITIES.—

''(1) IN GENERAL.—For purposes of subsection (a)(6) only, the term 'solid waste disposal facilities' means any facility used to perform a solid waste disposal function.

''(2) SOLID WASTE DISPOSAL FUNCTION.—

''(A) IN GENERAL.—For purposes of this subsection only, the term 'solid waste disposal function' means the collection, separation, sorting, storage, treatment, disassembly, handling, or processing of solid waste in any manner designed to dispose of the solid waste, including processing the solid waste into a useful energy source or product.

''(B) EXTENT OF FUNCTION.—For purposes of this subsection only, the solid waste disposal function ends at the later of—

''(i) the point of final disposal of the solid waste,

''(ii) immediately after the solid waste is incinerated or otherwise transformed or processed to generate heat, and the resulting heat is put into a form such as steam in which such heat is in fact sold or used, or

''(iii) the point at which the solid waste has been converted into a material or product that can be sold in the same manner as comparable material or product produced from virgin material.

''(C) FUNCTIONALLY RELATED AND SUBORDINATE FACILITIES.—For purposes of this subsection only, in the case of a facility used to perform both a solid waste disposal function and another function—

''(i) the costs of the facility allocable to the solid waste disposal function are determined using any reasonable method based upon facts and circumstances, and

''(ii) if during the period that bonds issued as part of an issue described in subsection (a)(6) are outstanding with respect to any facility at least 65 percent of the materials processed in such facility are solid waste materials as measured by weight or volume, then all of the costs of the property used to perform such process are allocable to a solid waste disposal function.

''(3) SOLID WASTE.—For purposes of this subsection only—

''(A) IN GENERAL.—The term 'solid waste' means garbage, refuse, or discarded solid materials, including waste materials resulting from industrial, commercial, agricultural, or community activities.

''(B) GARBAGE, REFUSE OR DISCARDED SOLID MATERIALS.—For purposes of subparagraph (A), the term 'garbage, refuse, or discarded solid materials' means materials that are useless, unused, unwanted, or discarded, regardless of whether or not such materials have value.

''(C) EXCLUSION.—The term 'solid waste' does not include materials in domestic sewage, pollutants in industrial or other water resources, or other liquid or gaseous waste materials.''.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to bonds issued before, on, or after the date of the enactment of this Act.

SEC. _. INCREASE IN INFORMATION RETURN PENALTIES.

(a) FAILURE TO FILE CORRECT INFORMATION RETURNS.—

(1) IN GENERAL.—Section 6721(a)(1) is amended—

(A) by striking ''$50'' and inserting ''$250'', and

(B) by striking ''$250,000'' and inserting ''$3,000,000''.

(2) REDUCTION WHERE CORRECTION IN SPECIFIED PERIOD.—

(A) CORRECTION WITHIN 30 DAYS.—Section 6721(b)(1) is amended—

(i) by striking ''$15'' and inserting ''$50'',

(ii) by striking ''$50'' and inserting ''$250'', and

(iii) by striking ''$75,000'' and inserting ''$500,000''.

(B) FAILURES CORRECTED ON OR BEFORE AUGUST 1.—Section 6721(b)(2) is amended—

(i) by striking ''$30'' and inserting ''$100'',

(ii) by striking ''$50'' and inserting ''$250'', and

(iii) by striking ''$150,000'' and inserting ''$1,500,000''.

(3) LOWER LIMITATION FOR PERSONS WITH GROSS RECEIPTS OF NOT MORE THAN $5,000,000.—Section 6721(d)(1) is amended—

(A) in subparagraph (A)—

(i) by striking ''$100,000'' and inserting ''$1,000,000'', and

(ii) by striking ''$250,000'' and inserting ''$3,000,000'',

(B) in subparagraph (B)—

(i) by striking ''$25,000'' and inserting ''$175,000'', and

(ii) by striking ''$75,000'' and inserting ''$500,000'', and

(C) in subparagraph (C)—

(i) by striking ''$50,000'' and inserting ''$500,000'', and

(ii) by striking ''$150,000'' and inserting ''$1,500,000''.

(4) PENALTY IN CASE OF INTENTIONAL DISREGARD.—Section 6721(e) is amended—

(A) by striking ''$100'' in paragraph (2) and inserting ''$500'',

(B) by striking ''$250,000'' in paragraph (3)(A) and inserting ''$3,000,000''.

(b) FAILURE TO FURNISH CORRECT PAYEE STATEMENTS.—

(1) IN GENERAL.—Section 6722(a) is amended—

(A) by striking ''$50'' and inserting ''$250'', and

(B) by striking ''$100,000'' and inserting ''$1,000,000''.

(2) PENALTY IN CASE OF INTENTIONAL DISREGARD.—Section 6722(c) is amended—

(A) by striking ''$100'' in paragraph (1) and inserting ''$500'', and

(B) by striking ''$100,000'' in paragraph (2)(A) and inserting ''$1,000,000''.

(c) FAILURE TO COMPLY WITH OTHER INFORMATION REPORTING REQUIREMENTS.—Section 6723 is amended—

(1) by striking ''$50'' and inserting ''$250'', and

(2) by striking ''$100,000'' and inserting ''$1,000,000''.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to information returns required to be filed on or after January 1, 2008.

SA 1831. Mr. HARKIN submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 76, line 24, insert ''or eligible for a credit under section 40(b)(2) or 40A(b)(2)'' after ''6426''.

At the end of the section add the following: ''For heat fuels, this section shall be effective after December 31, 2012.''

SA 1832. Mr. NELSON of Nebraska (for himself, Mr. CRAIG, Mr. CRAPO, Mr. KOHL, and Mr. ALLARD) submitted an amendment intended to be proposed by him to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. CREDIT FOR PRODUCTION OF BIOGAS FROM CERTAIN RENEWABLE FEEDSTOCKS.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by inserting after section 40A the following new section:

''SEC. 40B. BIOGAS PRODUCED FROM CERTAIN RENEWABLE FEEDSTOCKS.

''(a) GENERAL RULE.—For purposes of section 38, the qualified biogas production credit for any taxable year is an amount equal to the product of—

''(1) $4.27, and

''(2) each million British thermal units (mmBtu) of biogas—

''(A) produced by the taxpayer—

''(i) from qualified energy feedstock, and

''(ii) at a qualified facility, and

''(B) either—

''(i) sold by the taxpayer to an unrelated person during the taxable year, or

''(ii) used by the taxpayer during the taxable year.

''(b) DEFINITIONS.—

''(1) BIOGAS.—The term 'biogas' means a gas that—

''(A) is derived by processing qualified energy feedstock through anaerobic digestion, gasification, or other similar processes, and

''(B) is an energy or fuel alternative to fossil fuels such as coal, natural gas, or petroleum-based products.

''(2) QUALIFIED ENERGY FEEDSTOCK.—

''(A) IN GENERAL.—The term 'qualified energy feedstock' means—

''(i) manure of agricultural livestock, including litter, wood shavings, straw, rice hulls, bedding material, and other materials incidentally collected with the manure,

''(ii) any nonhazardous, cellulosic, or other organic agricultural or food industry byproduct or waste material that is derived from—

''(I) harvesting residues,

''(II) wastes or byproducts from fermentation processes, ethanol production, biodiesel production, slaughter of agricultural livestock, food production, food processing, or food service, or

''(III) other organic wastes, byproducts, or sources, or

''(iii) solid wood waste materials, including waste pallets, crates, dunnage, manufacturing and construction wood wastes, and landscape or right-of-way tree trimmings.

''(B) EXCLUSIONS.—The term 'qualified energy feedstock' does not include—

''(i) pressure-treated, chemically-treated, or painted wood wastes,

''(ii) municipal solid waste,

''(iii) landfills, or

''(iv) paper that is commonly recycled.

''(C) AGRICULTURAL LIVESTOCK.—The term 'agricultural livestock' means poultry, cattle, sheep, swine, goats, horses, mules, and other equines.

''(3) QUALIFIED FACILITY.—The term 'qualified facility' means a facility that—

''(A) uses anaerobic digestion technology, gasification technology, or other similar technologies to process qualified energy feedstock into biogas,

''(B) is owned by the taxpayer,

''(C) is located in the United States,

''(D) is originally placed in service before January 1, 2018, and

''(E) the biogas output of which is—

''(i) marketed through interconnection with a gas distribution or transmission pipeline, or

''(ii) used on-site or off-site in a quantity that is sufficient to offset the consumption of at least 50,000 mmBtu annually of commercially–marketed fuel derived from coal, crude oil, natural gas, propane, or other fossil fuel.

''(c) SPECIAL RULES.—For purposes of this section—

''(1) PRODUCTION ATTRIBUTABLE TO THE TAXPAYER.—In the case of a facility in which more than 1 person has an ownership interest, except to the extent provided in regulations prescribed by the Secretary, production from the qualified facility shall be allocated among such persons in proportion to their respective ownership interests in the gross sales from such qualified facility.

''(2) RELATED PERSONS.—Persons shall be treated as related to each other if such persons would be treated as a single employer under the regulations prescribed under section 52(b). In the case of a corporation which is a member of an affiliated group of corporations filing a consolidated return, such corporation shall be treated as selling biogas to an unrelated person if such biogas is sold to such a person by another member of such group.

''(3) PASS-THRU IN THE CASE OF ESTATES AND TRUSTS.—Under regulations prescribed by the Secretary, rules similar to the rules of subsection (d) of section 52 shall apply.

''(4) COORDINATION WITH CREDIT FROM PRODUCING FUEL FROM A NONCONVENTIONAL SOURCE.—The amount of biogas produced and sold or used by the taxpayer during any taxable year which is taken into account under this section shall be reduced by the amount of biogas produced and sold by the taxpayer in such taxable year which is taken into account under section 45K.

''(5) CREDIT ELIGIBILITY IN THE CASE OF GOVERNMENT-OWNED FACILITIES USING POULTRY WASTE.—In the case of a facility using poultry waste to produce biogas and owned by a governmental unit, subparagraph (B) of subsection (b)(3) shall be applied by substituting 'is leased or operated by the taxpayer' for 'is owned by the taxpayer'.

''(d) TRANSFERABILITY OF CREDIT.—

''(1) IN GENERAL.—A taxpayer may transfer the credit under this section through an assignment to any person. Such transfer may be revoked only with the consent of the Secretary.

''(2) REGULATIONS.—The Secretary shall prescribe such regulations as necessary to ensure that any credit transferred under paragraph (1) is claimed once and not reassigned by such other person.

''(e) ADJUSTMENT BASED ON INFLATION.—

''(1) IN GENERAL.—The $4.27 amount under subsection (b)(1) shall be adjusted by multiplying such amount by the inflation adjustment factor for the calendar year in which the sale occurs. If any amount as increased under the preceding sentence is not a multiple of 0.1 cent, such amount shall be rounded to the nearest multiple of 0.1 cent.

''(2) COMPUTATION OF INFLATION ADJUSTMENT FACTOR.—

''(A) IN GENERAL.—The Secretary shall, not later than April 1 of each calendar year, determine and publish in the Federal Register the inflation adjustment factor in accordance with this paragraph.

''(B) INFLATION ADJUSTMENT FACTOR.—The term 'inflation adjustment factor' means, with respect to a calendar year, a fraction the numerator of which is the GDP implicit price deflator for the preceding calendar year and the denominator of which is the GDP implicit price deflator for calendar year 2007. The term 'GDP implicit price deflator' means the most recent revision of the implicit price deflator for the gross domestic product as computed and published by the Department of Commerce before March 15 of the calendar year.

''(f) APPLICATION OF SECTION.—This section shall apply with respect to biogas produced and sold—

''(1) after the date of the enactment of this section, and

''(2) before the date on which the Secretary of Energy certifies that 100,000,000 British thermal units of biogas have been produced at qualified facilities after such date.''.

(b) CREDIT TREATED AS BUSINESS CREDIT.—Section 38(b) of such Code, as amended by this Act, is amended by striking ''plus'' at the end of paragraph (32), by striking the period at the end of paragraph (33) and inserting '', plus'', and by adding at the end the following new paragraph:

''(34) the qualified biogas production credit under section 40B(a).''.

(c) CREDIT ALLOWED AGAINST AMT.—Section 38(c)(4)(B) of such Code is amended by striking ''and'' at the end of clause (i), by striking the period at the end of clause (ii)(II) and inserting '', and'', and by adding at the end the following new clause:

''(iii) the credit determined under section 40B.''.

(d) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1 of such Code is amended by inserting after the item relating to section 40A the following new item:

''Sec. 40B. Biogas produced from certain renewable feedstocks.''.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to biogas produced and sold or used in taxable years beginning after the date of the enactment of this Act.

SA 1833. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 42, line 5, insert ''(except that, in the case of any project principally employing gasification for transportation grade liquid fuels, such project must also have lifecycle greenhouse gas emissions which are at least 20 percent lower than conventional facilities)'' after ''emissions''.

On page 71, line 22, insert ''and which has life-cycle greenhouse gas emissions which are at least 20 percent lower than conventional facilities'' after ''sions''.

SA 1834. Mr. SMITH (for himself, Ms. SNOWE, and Ms. CANTWELL) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 9, after line 19, insert the following:

(g) CREDIT RATE INCREASE FOR OPEN-LOOP BIOMASS.—Section 45(b)(4)(A) (relating to credit rate), as amended by this section, is amended by striking ''(3),''.

At the appropriate place, insert the following:

SEC. __. MODIFICATIONS TO WHISTLEBLOWER REFORMS.

(a) MODIFICATION OF TAX THRESHOLD FOR AWARDS.—Subparagraph (B) of section 7623(b)(5), as added by the Tax Relief and Health Care Act of 2006, is amended by striking ''$2,000,000'' and inserting ''$20,000''.

(b) WHISTLEBLOWER OFFICE.—

(1) IN GENERAL.—Section 7623 is amended by adding at the end the following new subsections:

''(c) WHISTLEBLOWER OFFICE.—

''(1) IN GENERAL.—There is established in the Internal Revenue Service an office to be known as the 'Whistleblower Office' which—

''(A) shall at all times operate at the direction of the Commissioner and coordinate and consult with other divisions in the Internal Revenue Service as directed by the Commissioner,

''(B) shall analyze information received from any individual described in subsection (b) and either investigate the matter itself or assign it to the appropriate Internal Revenue Service office,

''(C) shall monitor any action taken with respect to such matter,

''(D) shall inform such individual that it has accepted the individual's information for further review,

''(E) may require such individual and any legal representative of such individual to not disclose any information so provided,

''(F) in its sole discretion, may ask for additional assistance from such individual or any legal representative of such individual, and

''(G) shall determine the amount to be awarded to such individual under subsection (b).

''(2) FUNDING FOR OFFICE.—There is authorized to be appropriated $10,000,000 for each fiscal year for the Whistleblower Office. These funds shall be used to maintain the Whistleblower Office and also to reimburse other Internal Revenue Service offices for related costs, such as costs of investigation and collection.

''(3) REQUEST FOR ASSISTANCE.—

''(A) IN GENERAL.—Any assistance requested under paragraph (1)(F) shall be under the direction and control of the Whistleblower Office or the office assigned to investigate the matter under subparagraph (A). No individual or legal representative whose assistance is so requested may by reason of such request represent himself or herself as an employee of the Federal Government.

''(B) FUNDING OF ASSISTANCE.—From the amounts available for expenditure under subsection (b), the Whistleblower Office may, with the agreement of the individual described in subsection (b), reimburse the costs incurred by any legal representative of such individual in providing assistance described in subparagraph (A).

''(d) REPORTS.—The Secretary shall each year conduct a study and report to Congress on the use of this section, including—

''(1) an analysis of the use of this section during the preceding year and the results of such use, and

''(2) any legislative or administrative recommendations regarding the provisions of this section and its application.''.

(2) CONFORMING AMENDMENT.—Section 406 of division A of the Tax Relief and Health Care Act of 2006 is amended by striking subsections (b) and (c).

(3) REPORT ON IMPLEMENTATION.—Not later than 6 months after the date of the enactment of this Act, the Secretary of the Treasury shall submit to Congress a report on the establishment and operation of the Whistleblower Office under section 7623(c) of the Internal Revenue Code of 1986.

(c) PUBLICITY OF AWARD APPEALS.—Paragraph (4) of section 7623(b), as added by the Tax Relief and Health Care Act of 2006, is amended to read as follows:

''(4) APPEAL OF AWARD DETERMINATION.—

''(A) IN GENERAL.—Any determination regarding an award under paragraph (1), (2), or (3) may, within 30 days of such determination, be appealed to the Tax Court (and the Tax Court shall have jurisdiction with respect to such matter).

''(B) PUBLICITY OF APPEALS.—Notwithstanding sections 7458 and 7461, the Tax Court may, in order to preserve the anonymity, privacy, or confidentiality of any person under this subsection, provide by rules adopted under section 7453 that portions of filings, hearings, testimony, evidence, and reports in connection with proceedings under this subsection may be closed to the public or to inspection by the public.''.

(d) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply to information provided on or after the date of the enactment of this Act.

(2) PUBLICITY OF AWARD APPEALS.—The amendment made by subsection (c) shall take effect as if included in the amendments made by section 406 of the Tax Relief and Health Care Act of 2006.

SEC. __. PARTICIPANTS IN GOVERNMENT SECTION 457 PLANS ALLOWED TO TREAT ELECTIVE DEFERRALS AS ROTH CONTRIBUTIONS.

(a) IN GENERAL.—Section 402A(e)(1) (defining applicable retirement plan) is amended by striking ''and'' at the end of subparagraph (A), by striking the period at the end of subparagraph (B) and inserting '', and'', and by adding at the end the following:

''(C) an eligible deferred compensation plan (as defined in section 457(b)) of an eligible employer described in section 457(e)(1)(A).''.

(b) ELECTIVE DEFERRALS.—Section 402A(e)(2) (defining elective deferral) is amended to read as follows:

''(2) ELECTIVE DEFERRAL.—The term 'elective deferral' means—

''(A) any elective deferral described in subparagraph (A) or (C) of section 402(g)(3), and

''(B) any elective deferral of compensation by an individual under an eligible deferred compensation plan (as defined in section 457(b)) of an eligible employer described in section 457(e)(1)(A).''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2007.

SA 1835. Mr. SMITH (for himself and Ms. CANTWELL) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 9, after line 19, insert the following:

(g) CREDIT RATE INCREASE FOR OPEN-LOOP BIOMASS.—Section 45(b)(4)(A) (relating to credit rate), as amended by this section, is amended by striking ''(3),''.

SA 1836. Mr. REID (for himself and Mr. ENSIGN) submitted an amendment intended to be proposed to amendment SA 1753 submitted by Mr. DEMINT (for himself, Mr. CRAIG, Mr. GRAHAM, Mr. INHOFE, Mr. BURR, Ms. MURKOWSKI, and Mr. CRAPO) and intended to be proposed to the bill S. 1419, to move the United States toward greater energy independence and security, to increase the production of clean renewable fuels, to protect consumers from price gouging, to increase the energy efficiency of products, buildings and vehicles, to promote research on and deploy greenhouse gas capture and storage options, and to improve the energy performance of the Federal Government, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 1 of the amendment, line ____, strike everything after ''**SEC.**'' and insert the following:

_____. REQUIREMENT FOR PROMULGATION OF A RADIATION STANDARD BEFORE DATE OF YUCCA MOUNTAIN LICENSE APPLICATION ACCEPTANCE.

(a) REQUIREMENT.—Notwithstanding any other provision of law, the license application of the Department of Energy for the proposed geologic repository at Yucca Mountain shall not be considered by the Nuclear Regulatory Commission to be complete and accurate in all material respects for purposes of section 63.10 of title 10, Code of Federal Regulations (as in effect on the date of enactment of this section), until the date that is 180 days after the date on which the Administrator of the Environmental Protection Agency promulgates final health and

environmental radiation protection standards for Yucca Mountain, in accordance with the findings and recommendations contained in the report of the National Academy of Sciences entitled ''Technical Bases for Yucca Mountain Standards'' and dated 1995.

(b) EFFECT OF SECTION.—Nothing in this section abrogates or limits any other applicable criteria of the Nuclear Regulatory Commission relating to the treatment of a license application as complete and accurate in all material respects.

(c) EXPEDITED JUDICIAL REVIEW.—A United States court of appeals of competent jurisdiction shall review any challenge to the license application described in subsection (a) on an expedited basis.

SA 1837. Mr. SALAZAR submitted an amendment intended to be proposed to amendment SA 1704 submitted by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____. CREDIT FOR PLUG-IN ELECTRIC DRIVE RECHARGING PROPERTY.

(a) CREDIT ALLOWED FOR PLUG-IN ELECTRIC DRIVE RECHARGING PROPERTY.—Subsection (a) of section 30C is amended by striking ''an amount equal to 30 percent of the cost of'' and all that follows and inserting ''an amount equal to the sum of—

''(1) 30 percent of the cost of any qualified alternative fuel vehicle refueling property placed in service by the taxpayer during the taxable year, and

''(2) 30 percent of the cost of any qualified plug-in electric drive vehicle recharging property.''.

(b) LIMITATION.—Subsection (b) of section 30C, as amended by this Act, is amended to read as follows:

''(b) LIMITATIONS.—

''(1) LIMITATION FOR QUALIFIED ALTERNATIVE FUEL VEHICLE REFUELING PROPERTY.—The credit allowed under subsection (a) with respect to any qualified alternative fuel vehicle refueling property placed in service by the taxpayer at a location shall not exceed—

''(A) $30,000 in the case of a property of a character subject to an allowance for depreciation, and

''(B) $1,000 in any other case.

''(2) LIMITATIONS FOR QUALIFIED PLUG-IN ELECTRIC DRIVE VEHICLE RECHARGING PROPERTY.—

''(A) IN GENERAL.—The credit allowed under subsection (a) with respect to any qualified plug-in electric drive vehicle recharging property placed in service by the taxpayer at a location shall not exceed—

''(i)(I) $225, in the case of property of a character subject to an allowance for depreciation, and

''(II) $400 per recharging space in any other case, multiplied by

''(ii) the number of recharging locations placed in service by the taxpayer during the taxable year.

''(B) MINIMUM COSTS LIMITATION FOR CERTAIN PROPERTY.—In the case of any property to which subparagraph (A)(i) applies, no credit shall be allowed under this section for costs incurred for qualified plug-in electric drive vehicle recharging property placed in service during the taxable year unless such costs exceed $600.''.

(c) QUALIFIED PLUG-IN ELECTRIC DRIVE VEHICLE RECHARGING PROPERTY.—

(1) IN GENERAL.—Subsection (c) of section 30C, as amended by this Act, is amended to read as follows:

''(c) DEFINITIONS.—For purposes of this section—

''(1) QUALIFIED ALTERNATIVE FUEL VEHICLE REFUELING PROPERTY.—The term 'qualified alternative fuel vehicle refueling property' has the same meaning as the term 'qualified clean-fuel vehicle refueling property' would have under section 179A if—

''(A) paragraph (1) of section 179A(d) did not apply to property installed on property which is used as the principal residence (within the meaning of section 121) of the taxpayer, and

''(B) only the following were treated as clean burning fuels for purposes of section 179A(d):

''(i) Any fuel at least 85 percent of the volume of which consists of one or more of the following: ethanol, natural gas, compressed natural gas, liquified natural gas, liquefied petroleum gas, or hydrogen.

''(ii) Biodiesel (as defined in section 40A(d)(1)).

''(iii) Any mixture—

''(I) which consists of two or more of the following: biodiesel (as so defined), diesel fuel (as defined in section 4083(a)(3)), or kerosene, and

''(II) at least 20 percent of the volume of which consists of biodiesel (as so defined) determined without regard to any kerosene in such mixture.

''(2) QUALIFIED PLUG-IN ELECTRIC DRIVE RECHARGING PROPERTY.—The term 'qualified plug-in electric drive recharging property' means property (not including a building and its structural components)—

''(A) the original use of which commences with the taxpayer, and

''(B) which is a charging station or related electric infrastructure used for the recharging of motor vehicles propelled by electricity, but only if the property is located on the taxpayer's property.

''(3) RECHARGING LOCATION.—The term 'recharging location' means a location dedicated to the recharging of 1 motor vehicle propelled by electricity.

''(4) MOTOR VEHICLE.—The term 'motor vehicle' has the meaning given such term under section 179A(e)(2).''.

(2) CONFORMING AMENDMENT.—Subsection (d)(3)(B) of section 179A is amended—

(A) by inserting ''a charging station or related electric infrastructure'' before ''for the recharging of'', and

(B) by striking ''at the point where the motor vehicles are recharged'' and inserting ''on the taxpayer's property''.

(d) EXTENSION.—Subsection (g) of section 30C, as amended by this Act, is amended to read as follows:

''(e) TERMINATION.—This section shall not apply to any property placed in service—

''(1) in the case qualified plug-in electric drive recharging property and qualified alternative fuel vehicle refueling property relating to hydrogen, after December 31, 2014, and

''(2) in the case of any other qualified alternative fuel vehicle refueling property, after December 31, 2012.''.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act.

SEC. ____. IDLING REDUCTION TAX CREDIT.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following new section:

''SEC. 45P. IDLING REDUCTION CREDIT.

''(a) GENERAL RULE.—For purposes of section 38, the idling reduction credit determined under this section for the taxable year is an amount equal to 50 percent of the amount paid or incurred for the purchase and installation of qualifying idle reduction infrastructure equipment placed in service by the taxpayer during the taxable year.

''(b) LIMITATION.—The maximum amount allowed as a credit under subsection (a) shall not exceed $2,000.

''(c) DEFINITIONS.—For purposes of this section—

''(1) QUALIFYING IDLE REDUCTION INFRASTRUCTURE EQUIPMENT.—

''(A) IN GENERAL.—The term 'qualifying idle reduction infrastructure equipment' means equipment described in subparagraph (B)—

''(i) which is designed for use by a heavy duty diesel powered highway vehicle in order to prevent long-duration idling,

''(ii) the original use of which commences with the taxpayer, and

''(iii) which is acquired by the taxpayer for use and not for resale.

''(B) EQUIPMENT DESCRIBED.—Equipment is described in this subparagraph if such equipment is—

''(i) off-truck equipment to supply electric power, including electric receptacles, boxes, wiring, conduit, and other connections to one truck space, or

''(ii) off-truck equipment that directly provides air conditioning, heating, electric power, and other connections and services to one truck space.

''(2) HEAVY-DUTY DIESEL-POWERED ON-HIGHWAY VEHICLE.—The term 'heavy-duty diesel-powered on-highway vehicle' means any vehicle, machine, tractor, trailer, or semi-trailer propelled or drawn by mechanical power and used upon the highways in the transportation of passengers or property, or any combination thereof determined by the Federal Highway Administration.

''(3) LONG-DURATION IDLING.—The term 'long-duration idling' means the operation of a main drive engine, for a period greater than 15 consecutive minutes, where the main drive engine is not engaged in gear. Such term does not apply to routine stoppages associated with traffic movement or congestion.

''(d) NO DOUBLE BENEFIT.—For purposes of this section—

''(1) REDUCTION IN BASIS.—If a credit is determined under this section with respect to any property by reason of expenditures described in subsection (a), the basis of such property shall be reduced by the amount of the credit so determined.

''(2) OTHER DEDUCTIONS AND CREDITS.—No deduction or credit shall be allowed under any other provision of this chapter with respect to the amount of the credit determined under this section.

''(e) ELECTION NOT TO CLAIM CREDIT.—This section shall not apply to a taxpayer for any taxable year if such taxpayer elects to have this section not apply for such taxable year.

''(f) APPLICATION OF SECTION.—This section shall apply with respect to qualifying idle reduction infrastructure equipment placed in service—

''(1) after December 31, 2007, and

''(2) before the end of the calendar year in which the Secretary, in consultation with the Administrator of the Environmental Protection Agency, certifies that qualifying idle reduction infrastructure equipment units has been placed in service at 50,000 spaces after such date.''.

(b) CREDIT TO BE PART OF GENERAL BUSINESS CREDIT.—Subsection (b) of section 38, as amended by this Act, is amended by striking ''plus'' at the end of paragraph (31), by striking the period at the end of paragraph (32) and inserting '', plus'' , and by adding at the end the following new paragraph:

''(33) the idling reduction credit determined under section 45P(a).''.

(c) CONFORMING AMENDMENTS.—

(1) Section 1016(a), as amended by this Act, is amended by striking ''and'' at the end of paragraph (36), by striking the period at the end of paragraph (37) and inserting '', and'', and by adding at the end the following:

''(38) in the case of a facility with respect to which a credit was allowed under section 45P, to the extent provided in section 45P(d)(1).''.

(2) Section 6501(m) of such Code is amended by inserting ''45P(e),'' after ''45D(c)(4),''.

(3) The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by inserting after the item relating to section 45O the following new item:

''Sec. 45P. Idling reduction credit.''.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2007.

SA 1838. Mr. SMITH submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr, BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate plaee in'the amendment, insert the following:

''SEC. . ELECTION TO EXPENSE TELEWORKING PROPERTY.

''(a) TREATMENT AS EXPENSES.—A taxpayer may elect to treat the cost of any qualified teleworking property as an expense which is not chargeable to capital account. Any cost so treated shall be allowed as a deduction for the taxable year in which the qualified teleworking property is placed in service.

''(b) ELECTION.—

''(1) IN GENERAL.—An election under this section for any taxable year shall be made on the taxpayer's return of the tax imposed by this chapter for the taxable year. Such election shall be made in such manner as the Secretary may by regulations prescribe.

''(2) ELECTION IRREVOCABLE.—Any election made under this section may not be revoked except with the consent of the Secretary.

''(c) QUALIFIED TELEWORKING PROPERTY.—

''(1) IN GENERAL.—The term 'qualified teleworking property' means property—

''(A) which is tangible property (to which section 168 applies),

''(B) which is section 1245 property (as defined in section 1245(a)(3)),

''(C) which is acquired by purchase (as defined in section 179(d)(2)) for use by an eligible employee for the purpose of teleworking, and

''(D) with respect to which an election under section 179 is not in effect.

Such term shall not include any property described in section 50(b).

''(2) ELIGIBLE EMPLOYEE.—The term 'eligible employee' means an employee who has an arrangement to telework not less than 75 days per year.

''(3) TELEWORK.—The term 'telework' means to perform work functions using electronic information and communication technologies, thereby reducing or eliminating the physical commute to and from the traditional worksite.

''(d) RECAPTURE.—The Secretary shall, by regulations, provide for the recapturing of the benefit of any deduction allowable under subsection (a) with respect to any qualified teleworking property if such property is not used in accordance with subsection (c)(1)(C).''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to properties placed in service after the date of the enactment of this Act.

SA 1839. Mr. SMITH submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in the amendment, insert the following:

SEC. EXTENSION OF TRANSPORTATION FRINGE BENEFIT TO BICYCLE COMMUTERS.

(a) IN GENERAL.—Paragraph (1) of section 132(f) (relating to general rule for qualified transportation fringe) is amended by adding at the end the following:

''(D) Bicycle commuting allowance.''.

(b) BICYCLE COMMUTING ALLOWANCE DEFINED.—Paragraph (5) of section 132(f) (relating to definitions) is amended by adding at the end the following:

''(F) BICYCLE COMMUTING ALLOWANCE.—The term 'bicycle commuting allowance' means an amount provided to an employee for transportation on a bicycle if such transportation is in connection with travel between the employee's residence and place of employment.''.

(c) LIMITATION ON EXCLUSION.—Paragraph (2) of section 132(f) is amended by striking ''and'' at the end of subparagraph (A), by striking the period at the end of subparagraph (B) and inserting ''and'', and by adding at the end the following new subparagraph:

''(C) $50 per month in the case of a bicycle commuting allowance.''

(d) COST OF LIVING ADJUSTMENT.—

(1) IN GENERAL.—Paragraph (6) of section 132(f) is amended by redesignating subparagraph (B) as subparagraph (C) and by inserting after sub- paragraph (A) the following new subparagraph:

''(B) BICYCLE COMMUTING ALLOWANCE.—In the. case of any taxable year beginning in a calendar year after 2006, the $50 amount in paragraph (2)(C) shall be increased by an amount equal to—

''(i) such dollar amount, multiplied by

''(ii) the cost-of-living adjustment determined under section 1(f)(3) for the calendar year in which the taxable year begins, by substituting 'calendar year 2005' for 'calendar year 1992'.''.

(2) CONFORMING AMENDMENT.—Subparagraph (C) of section 132(f)(6), as redesignated by paragraph (1), is amended by inserting ''or (B)'' after ''subparagraph (A)''.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after 20 December 31, 2007.

SA 1840. Mr. OBAMA submitted an amendment intended to be proposed to amendment SA 1712 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 1, strike line 5 and all that follows through page 51, line 12, and insert the following:

SEC. 501. FINDINGS.

Congress makes the following findings:

(1) United States dependence on oil imports imposes tremendous burdens on the economy, foreign policy, and military of the United States.

(2) According to the Energy Information Administration, 60 percent of the crude oil and petroleum products consumed in the United States between April 2005 and March 2006 (12,400,000 barrels per day) were imported. At a cost of $75 per barrel of oil, people in the United States remit more than $600,000 per minute to other countries for petroleum.

(3) A significant percentage of these petroleum imports originate in countries controlled by regimes that are unstable or openly hostile to the interests of the United States. Dependence on production from these countries contributes to the volatility of domestic and global markets and the ''risk premium'' paid by consumers in the United States.

(4) The Energy Information Administration projects that the total petroleum demand in the United States will increase by 23 percent between 2006 and 2026, while domestic crude production is expected to decrease by 11 percent, resulting in an anticipated 28 percent increase in petroleum imports. Absent significant action, the United States will become more vulnerable to oil price increases, more dependent upon foreign oil, and less able to pursue national interests.

(5) Two-thirds of all domestic oil use occurs in the transportation sector, which is 97 percent reliant upon petroleum-based fuels. Passenger vehicles, including light trucks under 10,000 pounds gross vehicle weight, represent over 60 percent of the oil used in the transportation sector.

(6) Corporate average fuel economy of all cars and trucks improved by 70 percent between 1975 and 1987. Between 1987 and 2006, fuel economy improvements have stagnated and the fuel economy of the United States is lower than many developed countries and some developing countries.

(7) Significant improvements in engine technology occurred between 1986 and 2006. These advances have been used to make vehicles larger and more powerful, and have not focused solely on increasing fuel economy.

(8) According to a 2002 fuel economy report by the National Academies of Science, fuel economy can be increased without negatively impacting the safety of cars and trucks in the United States. Some new technologies can increase both safety and fuel economy (such as high strength materials, unibody design, lower bumpers). Design changes related to fuel economy also present opportunities to reduce the incompatibility of tall, stiff, heavy vehicles with the majority of vehicles on the road.

(9) Significant change must occur to strengthen the economic competitiveness of the domestic auto industry. According to a recent study by the University of Michigan, a sustained gasoline price of $2.86 per gallon would lead Detroit's Big 3 automakers' profits to shrink by $7,000,000,000 as they absorb 75 percent of the lost vehicle sales. This would put nearly 300,000 people in the United States out of work.

(10) Opportunities exist to strengthen the domestic vehicle industry while improving fuel economy. A 2004 study performed by the University of Michigan concludes that providing $1,500,000,000 in tax incentives over a 10-year period to encourage domestic manufacturers and parts facilities to produce clean cars will lead to a gain of nearly 60,000 domestic jobs and pay for itself through the resulting increase in domestic tax receipts.

SEC. 502. DEFINITION OF AUTOMOBILE AND PASSENGER AUTOMOBILE.

(a) DEFINITION OF AUTOMOBILE.—

(1) IN GENERAL.—Paragraph (3) of section 32901(a) of title 49, United States Code, is amended by striking ''rated at—'' and all that follows through the period at the end and inserting ''rated at not more than 10,000 pounds gross vehicle weight.''.

(2) FUEL ECONOMY INFORMATION.—Section 32908(a) of such title is amended, by striking ''section—'' and all that follows through ''(2)'' and inserting ''section, the term''.

(3) EFFECTIVE DATE.—The amendments made by paragraphs (1) and (2) shall apply to model year 2010 and each subsequent model year.

(b) DEFINITION OF PASSENGER AUTOMOBILE.—

(1) IN GENERAL.—Paragraph (16) of section 32901(a) of such title is amended by striking '', but does not include'' and all that follows through the end and inserting a period.

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to model year 2012 and each subsequent model year.

SEC. 503. AVERAGE FUEL ECONOMY STANDARDS.

(a) STANDARDS.—Section 32902 of title 49, United States Code, is amended—

(1) in subsection (a)—

(A) in the heading, by inserting ''MANUFACTURED BEFORE MODEL YEAR 2013'' after ''NON-PASSENGER AUTOMOBILES''; and

(B) by adding at the end the following: ''This subsection shall not apply to automobiles manufactured after model year 2012.'';

(2) in subsection (b)—

(A) in the heading, by inserting ''MANUFACTURED BEFORE MODEL YEAR 2013'' after ''PASSENGER AUTOMOBILES'';

(B) by inserting ''and before model year 2010'' after ''1984''; and

(C) by adding at the end the following: ''Such standard shall be increased by 4 percent per year for model years 2010 through 2012 (rounded to the nearest 1/10 mile per gallon)'';

(3) by amending subsection (c) to read as follows:

''(c) AUTOMOBILES MANUFACTURED AFTER MODEL YEAR 2012.—(1)(A) Not later than 18 months before the beginning of each model year after model year 2012, the Secretary of Transportation shall prescribe, by regulation—

''(i) an average fuel economy standard for automobiles manufactured by a manufacturer in that model year; or

''(ii) based on 1 or more vehicle attributes that relate to fuel economy—

''(I) separate average fuel economy standards for different classes of automobiles; or

''(II) average fuel economy standards expressed in the form of a mathematical function.

''(B)(i) Except as provided under paragraphs (3) and (4) and subsection (d), average fuel economy standards under subparagraph (A) shall attain a projected aggregate level of average fuel economy of 27.5 miles per gallon for all automobiles manufactured by all manufacturers for model year 2013.

''(ii) The projected aggregate level of average fuel economy for model year 2014 and each model year thereafter shall be increased by 4 percent over the level of the prior model year (rounded to the nearest 1/10 mile per gallon).

''(2) In addition to the average fuel economy standards under paragraph (1), each manufacturer of passenger automobiles shall be subject to an average fuel economy standard for passenger automobiles manufactured by a manufacturer in a model year that shall be equal to 92 percent of the average fuel economy projected by the Secretary for all passenger automobiles manufactured by all manufacturers in that model year. An average fuel economy standard under this subparagraph for a model year shall be promulgated at the same time as the standard under paragraph (1) for such model year.

''(3) If the actual aggregate level of average fuel economy achieved by manufacturers for each of 3 consecutive model years is 5 percent or more less than the projected aggregate level of average fuel economy for such model year, the Secretary may make appropriate adjustments to the standards prescribed under this subsection.

''(4)(A) Notwithstanding paragraphs (1) through (3) and subsection (b), the Secretary of Transportation may prescribe a lower average fuel economy standard for 1 or more model years if the Secretary of Transportation, in consultation with the Secretary of Energy, finds, by clear and convincing evidence, that the minimum standards prescribed under paragraph (1)(B) or (3) or subsection (b) for each model year—

''(i) are technologically not achievable;

''(ii) cannot be achieved without materially reducing the overall safety of automobiles manufactured or sold in the United States and no offsetting safety improvements can be practicably implemented for that model year; or

''(iii) is shown not to be cost effective.

''(B) If a lower standard is prescribed for a model year under subparagraph (A), such standard shall be the maximum standard that—

''(i) is technologically achievable;

''(ii) can be achieved without materially reducing the overall safety of automobiles manufactured or sold in the United States; and

''(iii) is cost effective.

''(5) In determining cost effectiveness under paragraph (4)(A)(iii), the Secretary of Transportation shall take into account the total value to the United States of reduced petroleum use, including the value of reducing external costs of petroleum use, using a value for such costs equal to 50 percent of the value of a gallon of gasoline saved or the amount determined in an analysis of the external costs of petroleum use that considers—

''(A) value to consumers;

''(B) economic security;

''(C) national security;

''(D) foreign policy;

''(E) the impact of oil use—

''(i) on sustained cartel rents paid to foreign suppliers;

''(ii) on long-run potential gross domestic product due to higher normal-market oil price levels, including inflationary impacts;

''(iii) on import costs, wealth transfers, and potential gross domestic product due to increased trade imbalances;

''(iv) on import costs and wealth transfers during oil shocks;

''(v) on macroeconomic dislocation and adjustment costs during oil shocks;

''(vi) on the cost of existing energy security policies, including the management of the Strategic Petroleum Reserve;

''(vii) on the timing and severity of the oil peaking problem;

''(viii) on the risk, probability, size, and duration of oil supply disruptions;

''(ix) on OPEC strategic behavior and long-run oil pricing;

''(x) on the short term elasticity of energy demand and the magnitude of price increases resulting from a supply shock;

''(xi) on oil imports, military costs, and related security costs, including intelligence, homeland security, sea lane security and infrastructure, and other military activities;

''(xii) on oil imports, diplomatic and foreign policy flexibility, and connections to geopolitical strife, terrorism, and international development activities;

''(xiii) on all relevant environmental hazards under the jurisdiction of the Environmental Protection Agency; and

''(xiv) on well-to-wheels urban and local air emissions of 'pollutants' and their uninternalized costs;

''(F) the impact of the oil or energy intensity of the United States economy on the sensitivity of the economy to oil price changes, including the magnitude of gross domestic product losses in response to short term price shocks or long term price increases;

''(G) the impact of United States payments for oil imports on political, economic, and military developments in unstable or unfriendly oil exporting countries;

''(H) the uninternalized costs of pipeline and storage oil seepage, and for risk of oil spills from production, handling, and transport, and related landscape damage; and

''(I) additional relevant factors, as determined by the Secretary.

''(6) When considering the value to consumers of a gallon of gasoline saved, the Secretary of Transportation may not use a value that is less than the greatest of—

''(A) the average national cost of a gallon of gasoline sold in the United States during the 12-month period ending on the date on which the new fuel economy standard is proposed;

''(B) the most recent weekly estimate by the Energy Information Administration of the Department of Energy of the average national cost of a gallon of gasoline (all grades) sold in the United States; or

''(C) the gasoline prices projected by the Energy Information Administration for the 20-year period beginning in the year following the year in which the standards are established.

''(7) In prescribing standards under this subsection, the Secretary may prescribe standards for 1 or more model years.

''(8)(A) Not later than December 31, 2016, the Secretary of Transportation, the Secretary of Energy, and the Administrator of the Environmental Protection Agency shall submit a joint report to Congress on the state of global automotive efficiency technology development, and on the accuracy of tests used to measure fuel economy of automobiles under section 32904(c), utilizing the study and assessment of the National Academy of Sciences referred to in subparagraph (B).

''(B) The Secretary of Transportation shall enter into appropriate arrangements with the National Academy of Sciences to conduct a comprehensive study of the technological opportunities to enhance fuel economy and an analysis and assessment of the accuracy of fuel economy tests used by the Administrator of the Environmental Protection Agency to measure fuel economy for each model under section 32904(c). Such analysis and assessment shall identify any additional factors or methods that should be included in tests to measure fuel economy for each model to more accurately reflect actual fuel economy of automobiles. The Secretary of Transportation and the Administrator of the Environmental Protection Agency shall furnish, at the request of the Academy, any information that the Academy determines to be necessary to conduct the study, analysis, and assessment under this subparagraph.

''(C) The report submitted under subparagraph (A) shall include—

''(i) the study of the National Academy of Sciences referred to in subparagraph (B); and

''(ii) an assessment by the Secretary of Transportation of technological opportunities to enhance fuel economy and opportunities to increase overall fleet safety.

''(D) The report submitted under subparagraph (A) shall identify and examine additional opportunities to reform the regulatory structure under this chapter, including approaches that seek to merge vehicle and fuel requirements into a single system that achieves equal or greater reduction in petroleum use and environmental benefits than the amount of petroleum use and environmental benefits that have been achieved as of the date of the enactment of this Act.

''(E) The report submitted under subparagraph (A) shall—

''(i) include conclusions reached by the Administrator of the Environmental Protection Agency, as a result of detailed analysis and public comment, on the accuracy of fuel economy tests as in use during the period beginning on the date that is 5 years before the completion of the report and ends on the date of such completion;

''(ii) identify any additional factors that the Administrator determines should be included in tests to measure fuel economy for each model to more accurately reflect actual fuel economy of automobiles; and

''(iii) include a description of options, formulated by the Secretary of Transportation and the Administrator, to incorporate such additional factors in fuel economy tests in a manner that will not effectively increase or decrease average fuel economy for any automobile manufacturer.''; and

(4) in subsection (g)(2), by striking ''(and submit the amendment to Congress when required under subsection (c)(2) of this section)''.

(b) CONFORMING AMENDMENTS.—

(1) IN GENERAL.—Chapter 329 of title 49, United States Code, is amended—

(A) in section 32903—

(i) by striking ''passenger'' each place it appears;

(ii) by striking ''section 32902(b)–(d) of this title'' each place it appears and inserting ''subsection (c) or (d) of section 32902'';

(iii) by striking subsection (e); and

(iv) by redesignating subsection (f) as subsection (e); and

(B) in section 32904—

(i) in subsection (a)—

(I) by striking ''passenger'' each place it appears; and

(II) in paragraph (1), by striking ''subject to'' and all that follows through ''section 32902(b)–(d) of this title'' and inserting ''subject to subsection (c) or (d) of section 32902''; and

(ii) in subsection (b)(1)(B), by striking ''under this chapter'' and inserting ''under section 32902(c)(2)''.

(2) EFFECTIVE DATE.—The amendments made by this section shall apply to automobiles manufactured after model year 2012.

SEC. 504. CREDIT TRADING, COMPLIANCE, AND JUDICIAL REVIEW.

(a) CREDIT TRADING.—Section 32903(a) of title 49, United States Code, is amended—

(1) by inserting ''Credits earned by a manufacturer under this section may be sold to any other manufacturer and used as if earned by that manufacturer, except that credits earned by a manufacturer described in clause (i) of section 32904(b)(1)(A) may only be sold to a manufacturer described such clause (i) and credits earned by a manufacturer described in clause (ii) of such section may only be sold to a manufacturer described in such clause (ii).'' after ''earns credits.'';

(2) by striking ''3 consecutive model years immediately'' each place it appears and inserting ''model years''; and

(3) effective for model years after 2012, the sentence added by paragraph (1) of this subsection is amended by inserting ''for purposes of compliance with section 32902(c)(2)'' after ''except that''.

(b) MULTI-YEAR COMPLIANCE PERIOD.—Section 32904(c) of such title is amended—

(1) by inserting ''(1)'' before ''The Administrator''; and

(2) by adding at the end the following:

''(2) The Secretary, by rule, may allow a manufacturer to elect a multi-year compliance period of not more than 4 consecutive model years in lieu of the single model year compliance period otherwise applicable under this chapter.''.

(c) JUDICIAL REVIEW OF REGULATIONS.—Section 32909(a)(1) of such title is amended by striking out ''adversely affected by'' and inserting ''aggrieved or adversely affected by, or suffering a legal wrong because of,''.

SEC. 505. CONSUMER TAX CREDIT.

(a) ELIMINATION ON NUMBER OF NEW QUALIFIED HYBRID AND ADVANCED LEAN BURN TECHNOLOGY VEHICLES ELIGIBLE FOR ALTERNATIVE MOTOR VEHICLE CREDIT.—

(1) IN GENERAL.—Section 30B of the Internal Revenue Code of 1986 is amended—

(A) by striking subsection (f); and

(B) by redesignating subsections (g) through (j) as subsections (f) through (i), respectively.

(2) CONFORMING AMENDMENTS.—

(A) Paragraphs (4) and (6) of section 30B(h) of such Code are each amended by striking ''(determined without regard to subsection (g))'' and inserting ''determined without regard to subsection (f))''.

(B) Section 38(b)(25) of such Code is amended by striking ''section 30B(g)(1)'' and inserting ''section 30B(f)(1)''.

(C) Section 55(c)(2) of such Code is amended by striking ''section 30B(g)(2)'' and inserting ''section 30B(f)(2)''.

(D) Section 1016(a)(36) of such Code is amended by striking ''section 30B(h)(4)'' and inserting ''section 30B(g)(4)''.

(E) Section 6501(m) of such Code is amended by striking ''section 30B(h)(9)'' and inserting ''section 30B(g)(9)''.

(b) EXTENSION OF ALTERNATIVE VEHICLE CREDIT FOR NEW QUALIFIED HYBRID MOTOR VEHICLES.—Paragraph (3) of section 30B(i) of such Code (as redesignated by subsection (a)) is amended by striking ''December 31, 2009'' and inserting ''December 31, 2011''.

(c) COMPUTATION OF CREDIT.—Section 30B of such Code is amended by striking ''city'' each place it appears and inserting ''combined''.

(d) EFFECTIVE DATES.—The amendments made by subsections (a) and (b) of this section shall apply to property placed in service after December 31, 2007, in taxable years ending after such date. The amendments made by subsection (c) shall apply to vehicles acquired after the date of the enactment of this Act.

SEC. 506. ADVANCED TECHNOLOGY MOTOR VEHICLES MANUFACTURING CREDIT.

(a) IN GENERAL.—Subpart B of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 (relating to foreign tax credit, etc.) is amended by adding at the end the following new section:

''SEC. 30D. ADVANCED TECHNOLOGY MOTOR VEHICLES MANUFACTURING CREDIT.

''(a) CREDIT ALLOWED.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to 35 percent of the qualified investment of an eligible taxpayer for such taxable year.

''(b) QUALIFIED INVESTMENT.—For purposes of this section—

''(1) IN GENERAL.—The qualified investment for any taxable year is equal to the incremental costs incurred during such taxable year—

''(A) to re-equip, expand, or establish any manufacturing facility in the United States of the eligible taxpayer to produce advanced technology motor vehicles or to produce eligible components,

''(B) for engineering integration performed in the United States of such vehicles and components as described in subsection (d),

''(C) for research and development performed in the United States related to advanced technology motor vehicles and eligible components, and

''(D) for employee retraining with respect to the manufacturing of such vehicles or components (determined without regard to wages or salaries of such retrained employees).

''(2) ATTRIBUTION RULES.—In the event a facility of the eligible taxpayer produces both advanced technology motor vehicles and conventional motor vehicles, or eligible and non-eligible components, only the qualified investment attributable to production of advanced technology motor vehicles and eligible components shall be taken into account.

''(c) DEFINITIONS.—In this section:

''(1) ADVANCED TECHNOLOGY MOTOR VEHICLE.—The term 'advanced technology motor vehicle' means—

''(A) any qualified electric vehicle (as defined in section 30(c)(1)),

''(B) any new qualified fuel cell motor vehicle (as defined in section 30B(b)(3)),

''(C) any new advanced lean burn technology motor vehicle (as defined in section 30B(c)(3)),

''(D) any new qualified hybrid motor vehicle (as defined in section 30B(d)(2)(A) and determined without regard to any gross vehicle weight rating),

''(E) any new qualified alternative fuel motor vehicle (as defined in section 30B(e)(4), including any mixed-fuel vehicle (as defined in section 30B(e)(5)(B)), and

''(F) any other motor vehicle using electric drive transportation technology (as defined in paragraph (3)).

''(2) ELECTRIC DRIVE TRANSPORTATION TECHNOLOGY.—The term 'electric drive transportation technology' means technology used by vehicles that use an electric motor for all or part of their motive power and that may or may not use off-board electricity, such as battery electric vehicles, fuel cell vehicles, engine dominant hybrid electric vehicles, plug-in hybrid electric vehicles, and plug-in hybrid fuel cell vehicles.

''(3) ELIGIBLE COMPONENTS.—The term 'eligible component' means any component inherent to any advanced technology motor vehicle, including—

''(A) with respect to any gasoline or diesel-electric new qualified hybrid motor vehicle—

''(i) electric motor or generator;

''(ii) power split device;

''(iii) power control unit;

''(iv) power controls;

''(v) integrated starter generator; or

''(vi) battery;

''(B) with respect to any hydraulic new qualified hybrid motor vehicle—

''(i) accumulator or other energy storage device;

''(ii) hydraulic pump;

''(iii) hydraulic pump-motor assembly;

''(iv) power control unit; and

''(v) power controls;

''(C) with respect to any new advanced lean burn technology motor vehicle—

''(i) diesel engine;

''(ii) turbo charger;

''(iii) fuel injection system; or

''(iv) after-treatment system, such as a particle filter or NOx absorber; and

''(D) with respect to any advanced technology motor vehicle, any other component submitted for approval by the Secretary.

''(4) ELIGIBLE TAXPAYER.—The term 'eligible taxpayer' means any taxpayer if more than 20 percent of the taxpayer's gross receipts for the taxable year is derived from the manufacture of motor vehicles or any component parts of such vehicles.

''(d) ENGINEERING INTEGRATION COSTS.—For purposes of subsection (b)(1)(B), costs for engineering integration are costs incurred prior to the market introduction of advanced technology vehicles for engineering tasks related to—

''(1) establishing functional, structural, and performance requirements for component and subsystems to meet overall vehicle objectives for a specific application,

''(2) designing interfaces for components and subsystems with mating systems within a specific vehicle application,

''(3) designing cost effective, efficient, and reliable manufacturing processes to produce components and subsystems for a specific vehicle application, and

''(4) validating functionality and performance of components and subsystems for a specific vehicle application.

''(e) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for the taxable year shall not exceed the excess of—

''(1) the sum of—

''(A) the regular tax liability (as defined in section 26(b)) for such taxable year, plus

''(B) the tax imposed by section 55 for such taxable year and any prior taxable year beginning after 1986 and not taken into account under section 53 for any prior taxable year, over

''(2) the sum of the credits allowable under subpart A and sections 27, 30, and 30B for the taxable year.

''(f) REDUCTION IN BASIS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this paragraph) result from such expenditure shall be reduced by the amount of the credit so allowed.

''(g) NO DOUBLE BENEFIT.—

''(1) COORDINATION WITH OTHER DEDUCTIONS AND CREDITS.—Except as provided in paragraph (2), the amount of any deduction or other credit allowable under this chapter for any cost taken into account in determining the amount of the credit under subsection (a) shall be reduced by the amount of such credit attributable to such cost.

''(2) RESEARCH AND DEVELOPMENT COSTS.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), any amount described in subsection (b)(1)(C) taken into account in determining the amount of the credit under subsection (a) for any taxable year shall not be taken into account for purposes of determining the credit under section 41 for such taxable year.

''(B) COSTS TAKEN INTO ACCOUNT IN DETERMINING BASE PERIOD RESEARCH EXPENSES.—Any amounts described in subsection (b)(1)(C) taken into account in determining the amount of the credit under subsection (a) for any taxable year which are qualified research expenses (within the meaning of section 41(b)) shall be taken into account in determining base period research expenses for purposes of applying section 41 to subsequent taxable years.

''(h) BUSINESS CARRYOVERS ALLOWED.—If the credit allowable under subsection (a) for a taxable year exceeds the limitation under subsection (e) for such taxable year, such excess (to the extent of the credit allowable with respect to property subject to the allowance for depreciation) shall be allowed as a credit carryback to each of the 15 taxable years immediately preceding the unused credit year and as a carryforward to each of the 20 taxable years immediately following the unused credit year.

''(i) SPECIAL RULES.—For purposes of this section, rules similar to the rules of section 179A(e)(4) and paragraphs (1) and (2) of section 41(f) shall apply.

''(j) ALLOCATION OF CREDIT TO PURCHASERS.—

''(1) ELECTION TO ALLOCATE.—

''(A) IN GENERAL.—In the case of an eligible taxpayer, any portion of the credit determined under subsection (a) for the taxable year may, at the election of such taxpayer, be apportioned among purchasers of qualifying vehicles from the taxpayer in the taxable year (or in any year in which the credit may be carried over).

''(B) QUALIFYING VEHICLES.—For purposes of this subsection, the term 'qualifying vehicle' means an advanced technology vehicle manufactured at a facility described in subsection (b)(1)(A).

''(C) FORM AND EFFECT OF ELECTION.—An election under subparagraph (A) for any taxable year shall be made on a timely filed return for such year. Such election, once made, shall be irrevocable for such taxable year.

''(2) TREATMENT OF TAXPAYER AND PURCHASERS.—The amount of the credit apportioned to any purchaser under paragraph (1)—

''(A) shall not be included in the amount determined under subsection (a) with respect to the eligible taxpayer for the taxable year; and

''(B) shall be treated as an amount determined under subsection (a) for the taxable year of the purchaser which ends in the calendar year of purchase.

''(3) SPECIAL RULES FOR DECREASE IN CREDITS FOR TAXABLE YEAR.—If the amount of the credit of an eligible taxpayer determined under subsection (a) for a taxable year is less than the amount of such credit shown on the return of the taxpayer for such year, an amount equal to the excess of—

''(A) such reduction, over

''(B) the amount not apportioned to such purchasers under paragraph (1) for the taxable year,

shall be treated as an increase in tax imposed by this chapter on the eligible taxpayer.

''(4) WRITTEN NOTICE TO PURCHASERS.—If any portion of the credit available under subsection (a) is allocated to purchasers under paragraph (1), the eligible taxpayer shall provide any purchaser receiving an allocation written notice of the amount of the allocation. Such notice may be provided either at the time of purchase or at any time not later than 60 days after the close of the calendar year in which the vehicle is purchased.

''(k) ELECTION NOT TO TAKE CREDIT.—No credit shall be allowed under subsection (a) for any property if the taxpayer elects not to have this section apply to such property.

''(l) REGULATIONS.—The Secretary shall prescribe such regulations as necessary to carry out the provisions of this section.

''(m) TERMINATION.—This section shall not apply to any qualified investment after December 31, 2011.''.

(b) CONFORMING AMENDMENTS.—

(1) Section 1016(a) of the Internal Revenue Code of 1986 is amended by striking ''and'' at the end of paragraph (36), by striking the period at the end of paragraph (37) and inserting '', and'', and by adding at the end the following new paragraph:

''(38) to the extent provided in section 30D(g).''.

(2) Section 6501(m) of such Code is amended by inserting ''30D(k),'' after ''30C(e)(5),''.

(3) The table of sections for subpart B of part IV of subchapter A of chapter 1 of such Code is amended by inserting after the item relating to section 30C the following new item:

''Sec. 30D. Advanced technology motor vehicles manufacturing credit.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts incurred in taxable years beginning after December 31, 1999.

SA 1841. Mr. MCCONNELL (for Mr. COBURN) submitted an amendment intended to be proposed by Mr. MCCONNELL to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____. LIMITATIONS ON EXPENSES FOR CONFERENCES AND RELATED TRAVEL EXPENSES OF FEDERAL AGENCIES.

(a) DEFINITIONS.—In this section, the term—

(1) ''agency'' means an Executive agency as defined under section 105 of title 5, United States Code; and

(2) ''conference''—

(A) means a meeting that—

(i) is held for consultation, education, or discussion;

(ii) includes participants who are not all employees of the same agency;

(iii) is not held entirely at an agency facility;

(iv) involves costs associated with travel and lodging for some participants; and

(v) is sponsored by 1 or more agencies, 1 or more organizations that are not agencies, or a combination of such agencies or organizations; and

(B) shall not include any routine meeting between employees of an agency and individuals who are not Federal employees that—

(i) is for the purpose of—

(I) the discussion of an ongoing project; or

(II) providing training; or

(ii) is related to international diplomacy or national security.

(b) LIMITATIONS ON ANNUAL CONFERENCES AND RELATED TRAVEL EXPENSES.—In the case of each of the fiscal years 2008 through 2013, each agency may not make, or obligate to make, expenditures for conferences including related travel expenses, in an aggregate amount greater than the amount determined for that agency under subsection (c)(1).

(c) OFFICE OF MANAGEMENT AND BUDGET.—

(1) MAXIMUM AMOUNT FOR EACH AGENCY.—Subject to paragraph (2), with respect to each of the fiscal years 2008 through 2013, the Office of Management and Budget shall determine a maximum amount that each agency may make, or obligate to make, for expenditures for conferences including related travel expenses for each fiscal year. The maximum amount determined under this subparagraph for any agency may vary from the maximum amount determined under this subparagraph for any other agency.

(2) MAXIMUM AMOUNT FOR ALL AGENCIES.—With respect to each of the fiscal years 2008 through 2013, the total amount that all agencies may make, or obligate to make, for expenditures for conferences including related travel expenses may not exceed $350,000,000.

(3) IDENTIFICATION OF TRAVEL EXPENSES.—Not later than September 1, 2007, the Director of the Office of Management and Budget, after consultation with the Administrator of General Services, shall establish guidelines for the determination of what expenses constitute expenses for conferences including related travel expenses for purposes of this section.

(d) LIMITATION ON CONFERENCES OUTSIDE THE UNITED STATES.—No agency may pay the travel expenses for more than 50 employees of that agency who are stationed in the United States, for any conference occurring outside the United States.

SA 1842. Mr. STEVENS (for himself, Ms. MURKOWSKI, Mr. VITTER, and Mr. CRAIG) submitted an amendment intended to be proposed by Mr. STEVENS and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

TITLE —COASTAL AND OCEAN DEVELOPMENT GRANTS

SEC. —01. COASTAL AND OCEAN ASSISTANCE FOR STATES FUND.

(a) IN GENERAL.—There is established in the Treasury of the United States a fund to be known as the Coastal and Ocean Assistance for States Fund.

(b) CREDITS.—Beginning with fiscal year 2008, the Fund shall be credited with an amount equal to 5 percent of the amounts deposited in the Treasury of the United States under section 9 of the Outer Continental Shelf Lands Act (43 U.S.C. 1338).

SEC. —02. COASTAL AND OCEAN ASSISTANCE PROGRAM.

(a) IN GENERAL.—The Secretary shall—

(1) establish a grant program to provide grants to eligible coastal States in accordance, with this title; and

(2) make 85 percent of the amounts available in the Fund for each fiscal year available for grants under the program.

(b) ELIGIBLE COASTAL STATES.—To be eligible for a grant under the program, a coastal State shall—

(1) submit an application to the Secretary at such time, in such form, and containing such information as the Secretary may require; and

(2) include in its application a multi-year plan, subject to approval by the Secretary, for the use of funds received under the grant program;

(3) demonstrate to the satisfaction of the Secretary that it has established a trust fund, or other accounting measures, subject to approval by the Secretary, to ensure the accurate accounting of funds received under the grant program, to administer funds received under the grant program;

(4) specify in its application how it will allocate any funds received among the eligible activities described in section —03; and

(5) describe with specificity in its application each activity to be financed, in whole or in part, with funds provided by the grant.

(c) ALLOCATION OF GRANT FUNDS.—

(1) IN GENERAL.—The Secretary shall allocate grants under the program among the eligible coastal States according to a formula under which—

(A) 31 percent of the funds are allocated equally among coastal States that have a coastal management program approved under to the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.);

(B) 31 percent of the funds are allocated on the basis of the ratio of tidal shoreline miles in a State to the tidal shoreline miles of all States;

(C) 31 percent of the funds are allocated on the basis of the ratio of coastal population of a State to the coastal population of all States; and

(D) 7 percent of the funds are allocated on the basis of the ratio of—

(i) the square miles of national marine sanctuaries, marine monuments, and national estuarine research reserves within the offshore administrative boundaries of an eligible coastal State formed by the extension of the seaward lateral boundaries of the State, calculated using the conventions established to delimit international lateral boundaries under the law of the sea, to

(ii) to the total square miles of all such sanctuaries, monuments, and reserves within the seaward boundaries of all eligible coastal States.

(2) TERRITORIES.—For purposes of paragraph (1), Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, and American Samoa shall be treated collectively as a single State.

(3) REALLOCATION.—If, at the end of any fiscal year, funds available for distribution under the program remain unexpended and unobligated, the Secretary may—

(A) carry such remaining funds forward for not more than 3 fiscal years; and

(B) reallocate any such remaining funds among eligible coastal States in accordance with the formula described in paragraph (1).

(d) LOCAL GOVERNMENT SHARE.—In awarding grants under the program, the Secretary shall ensure that not more than 20 percent of the funds made available to a State in each fiscal year pursuant to this title shall be made available to local governments of such State, based upon a formula giving equal weight to coastal population and shoreline miles, to carry out eligible activities under section —03.

SEC. —03. ELIGIBLE USE OF FUNDS.

Grant funds under section —02 may only be used for—

(1) coastal management planning and implementation, as provided for under the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.);

(2) coastal and estuarine land protection, including the protection of the environmental integrity of important coastal and estuarine areas, including wetlands and forests, that have significant conservation, recreation, ecological, historical, or aesthetic values, or that are threatened by conversion from their natural, undeveloped, or recreational state to other uses;

(3) efforts to protect and manage living marine resources, including fisheries, coral reefs, research, management, and enhancement;

(4) programs and activities in coordination with the National Oceanic and Atmospheric Administration designed to improve or complement the management and mission of national marine sanctuaries, marine monuments, and national estuarine research reserves;

(5) mitigation, restoration, protection, and relocation of native and rural coastal communities threatened by erosion;

(6) mitigation of the effects of offshore activities, including environmental restoration;

(7) efforts to protect and restore coastal lands and wetlands, and to restore or prevent damage to wetlands in the coastal zone, coastal estuaries, and lands, life, and property in the coastal zone;

(8) long-term coastal and ocean research and education, monitoring, and natural resource management;

(9) regional multi-State management efforts designed to manage, protect, or restore the coastal zone and ocean resources; or

(10) management and administration of grants authorized under this section.

SEC.—04. FISH AND WILDLIFE IMPROVEMENT GRANTS.

Within 6 months after the date of enactment of this Act, the Secretary, in consultation with the Secretary of the Interior, shall—

(1) establish by regulation a grant program to provide grants to States to manage, protect, and improve fish and wildlife habitat and non-point sources of coastal pollution; and

(2) make 10 percent of the amounts available in the Fund for each fiscal year available for grants under the program.

(b) ELIGIBLE STATES.—To be eligible to participate in the grant program, a State shall submit an application to the Secretary at such time, in such form, and containing such information as the Secretary may require.

SEC. —05. ADMINISTRATION.

Except as otherwise expressly provided in this title, not more than 5 percent of the amounts available in the Fund for a fiscal year may be used by the Secretary for administrative expenses and for activities and programs related to the protection of coastal, fishery, and ocean resources.

SEC. —06. AUDITS.

The Secretary shall establish such rules regarding recordkeeping by State and local governments and the auditing of expenditures made by State and local governments from funds made available under this title as may be necessary. Such rules shall be in addition to other requirements established regarding recordkeeping and the auditing of such expenditures under other authority of law.

SEC. —07. DISPOSITION OF FUNDS.

Notwithstanding any other provision of this title, a coastal State or local government may use funds received under this title to make any payment that is eligible to be made with funds provided to States under section 35 of the Mineral Leasing Act (30 U.S.C. 191) for a purpose described in section —03.

SEC. —08. DEFINITIONS.

In this title:

(1) COASTAL POPULATION.—The term ''coastal population'' means the population of all political subdivisions, as determined by the most recent official data of the Census Bureau, contained in whole or in part within the designated coastal boundary of a State as defined in a State's coastal zone management program under the Coastal Zone Management Act (16 U.S.C. 1451 et seq) as of the date of enactment of this Act.

(2) COASTAL STATE.—The term ''coastal State'' has the meaning given that term by section 304(4) of the Coastal Zone Management Act (16 U.S.C. 1453(4)).

(3) The term ''Fund'' means the Coastal and Ocean Assistance for States Fund established by section —01(a).

(4) LOCAL GOVERNMENT.—The term ''local government'' means a political subdivision all or part of which is within a coastal zone (as defined in section 304 of the Coastal Zone Management Act (16 U.S.C. 1453(1))) as of the date of enactment of this Act.

(5) SECRETARY.—The term ''Secretary'' means the Secretary of Commerce.

(6) STATE.—The term ''State'' means

(A) each of the several States;

(B) the District of Columbia; and

(C) Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, and American Samoa.

(7) TIDAL SHORELINE.—The term ''tidal shoreline'' has the same meaning as when used in section 923.110(c)(2)(i) of title 15, Code of Federal Regulations, as that section is in effect as of the date of enactment of this Act.

TITLE —OCEAN POLICY TRUST FUND

SEC. —01. OCEAN POLICY TRUST FUND.

(a) IN GENERAL.—There is established in the Treasury of the United States a fund to be known as the Ocean Policy Trust Fund.

(b) CREDITS.—For fiscal year 2008 and each fiscal year thereafter, the Fund shall be credited with an amount equal to 5 percent of the amounts deposited in the Treasury of the United States under section 9 of the Outer Continental Shelf Lands Act (43 U.S.C. 1338).

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for each fiscal year—

(1) amounts in the aggregate not in excess of 95 percent of the amounts available in the Fund for that fiscal year for grants under this title; and

(2) such sums as may be necessary, not in excess of 5 percent of the amounts available in the Fund for that fiscal year, to the Secretary of Commerce for administrative expenses of managing the grant program established by section —03 of this title.

(d) REVERSION.—Unless otherwise provided in the grant terms, any grant funds that are not obligated nor expended at the end of the 2-year period beginning on the date on which the grant funds become available to the grantee shall be returned to the Fund.

SEC. —02. OCEAN POLICY TRUST FUND COUNCIL.

(a) MEMBERSHIP.—

(1) An Ocean Policy Trust Fund Council is established which shall consist of 12 members as follows:

(A) The Assistant Administrator of the National Oceanic and Atmospheric Administration for oceanic and atmospheric research.

(B) The Assistant Administrator of the National Marine Fisheries Service.

(C) The Assistant Administrator of the National Ocean Service.

(D) An employee of the Department of the Interior with expertise in ocean resource management, to be designated by the Secretary of the Interior.

(E) 4 representatives of the private sector, of which at least 2 shall be from the commercial fishing industry, to be appointed by the Secretary of Commerce, of whom 1 shall be appointed from the East Coast, 1 shall be appointed from the Gulf of Mexico, 1 shall be appointed from the West Coast, and 1 shall be appointed from Alaska.

(F) 2 representatives of non-profit conservation organizations, appointed by the Secretary of Commerce.

(G) 2 representatives of academia with strong scientific or technical credentials and experience in marine affairs, appointed by the Secretary of Commerce.

(b) APPOINTMENT AND TERMS.—

(1) Except as provided in paragraphs (2), (3), and (4), the term of office of a member of the Council appointed under subsection (a)(1)(E), (a)(1)(F), or (a)(1)(G) of this section is 3 years.

(2) Of the Council members first appointed under subsection (a)(1)(E) of this section, 1 shall be appointed for a term of 1 year and 1 shall be appointed for a term of 2 years.

(3) Of the Council members first appointed under subsection (a)(1)(F) of this section, 1 shall be appointed for a term of 2 years.

(4) Of the Council members first appointed under subsection (a)(1)(G) of this section, 1 shall be appointed for a term of 1 year and one shall be appointed for a term of 2 years.

(5) Whenever a vacancy occurs among members of the Council appointed under subparagraph (E), (F), or (G) of subsection (a)(1) of this section, the Secretary shall appoint an individual in accordance with that subparagraph to fill that vacancy for the remainder of the applicable term.

(c) CHAIRMAN.—The Council shall have a Chairman, who shall be elected by the Council from its members. The Chairman shall serve for a 3-year term, except that the first Chairman may be elected for a term of less than 3 years, as determined by the Council.

(d) QUORUM.—8 members of the Council shall constitute a quorum for the transaction of business.

(e) MEETINGS.—The Council shall meet at the call of the Chairman at least once per year. Council meetings shall be open to the public, and the Chairman shall take appropriate steps to provide adequate notice to the public of the time and place of such meetings. If a Council member appointed under subparagraph (E), (F), or (G) of subsection (a)(1) of this section misses 3 consecutively scheduled meetings, the Secretary may remove that individual in accordance with subsection (b)(5) of this section.

(f) COORDINATOR.—The Secretary shall appoint an individual, who shall serve at the pleasure of the Secretary—

(1) to be responsible, with assistance from the National Oceanic and Atmospheric Administration, for facilitating consideration of Fund grant applications by the Council and otherwise assisting the Council in carrying out its responsibilities; and

(2) who shall be compensated with the funds appropriated under section —01(c)(2) of this title.

(g) FUNCTIONS.—The Council shall—

(1) receive and review grant applications under section —03; and

(2) make recommendations to the Senate Appropriations Committee and the House of Representatives Appropriations Committee concerning—

(A) which grant requests should be funded;

(B) the amount of each such grant request that should be funded; and

(C) any specific requirements, conditions, or limitations on a grant recommended for funding.

SEC. —03. OCEAN POLICY TRUST FUND GRANT PROGRAM.

(a) IN GENERAL.—There is established a grant program under which grants are to be funded, as provided by appropriations Acts, from amounts in the Fund. The grant program shall be administered by the Secretary, who shall establish applications, review, oversight, and financial accountability procedures and administer any funds appropriated under subsection (b). The Secretary shall establish criteria for entities who are eligible to submit an application for a grant under the program, including Federal agencies, State and local government entities, fishery management organizations, and nonprofit conservation organizations.

(b) AWARD BY APPROPRIATION.—Grants under the program shall be awarded by appropriations Act on the basis of the Council's recommendations.

(c) APPLICATIONS.—An entity that meets the applicant eligibility criteria established by the Secretary under subsection (a) may submit an application, in accordance with the procedures established by the Secretary under subsection (a), to the Council—

(1) containing such information and assurances as the Secretary may require; and

(2) describing how the grant proceeds will be allocated among the eligible purposes described in subsection (d).

(d) ELIGIBLE PURPOSES.—A grant under the program may be used for—

(1) efforts to protect and manage living marine resources and their habitat, including fisheries, fisheries enforcement, research, management, and enhancement;

(2) programs and activities in coordination with the National Oceanic and Atmospheric Administration designed to improve or complement the management and mission of national marine sanctuaries, marine monuments and national estuarine research reserves;

(3) coastal management planning and implementation, as provided for under the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.);

(4) coastal and estuarine land protection and erosion control, including protection of the environmental integrity of important coastal and estuarine areas;

(5) mitigation of the effects of offshore activities, including environmental restoration; and

(6) ocean literacy and education.

SEC. —04. DEFINITIONS.

In this title:

(1) COUNCIL.—The term ''Council'' means the Ocean Policy Trust Fund Council established by section —02.

(2) FUND.—The term ''Fund'' means the Ocean Policy Trust Fund established by section —01.

(3) SECRETARY.—Except where otherwise provided, the term ''Secretary'' means the Secretary of Commerce.

SA 1843. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1792 proposed by Mr. STEVENS (for himself, Ms. SNOWE, Mr. ALEXANDER, Mr. KERRY, Mr. CARPER, Mr. LOTT, and Mr. CORKER) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of the matter proposed to be inserted, add the following:

SEC. 520. ALTERNATIVE FUEL VEHICLE ACTION PLAN.

(a) IN GENERAL.—The Secretary of Transportation shall establish and implement an action plan which takes into consideration the availability of cost effectiveness of alternative fuels, which will ensure that, beginning with model year 2015, the percentage of new automobiles for sale in the United States that are alternative fuel automobiles is not less than 50 percent.

(b) DEFINITIONS.—In this section:

(1) ALTERNATIVE FUEL AUTOMOBILE.—The term ''alternative fuel automobile'' means the following but not limited to—

(A) a new advanced lean burn technology motor vehicle (as defined in section 30B(c)(3) of the Internal Revenue Code of 1986) that achieves at least 125 percent of the model year 2002 city fuel economy;

(B) an alternative fueled automobile;

(C) a flexible fuel automobile;

(D) a new qualified fuel cell motor vehicle (as defined in section 30B(e)(4) of such Code).

(E) a new qualified hybrid motor vehicle (as defined in section 30B(d)(3) of such Code);

(F) a plug-in hybrid automobile;

(G) an electric automobile;

(H) a hydrogen internal combustion engine automobile; and

(I) any other automobile that uses substantially new technology and achieves at least 175 percent of the model year 2002 city fuel economy, as determined by the Secretary of Transportation, by regulation.

(2) OTHER TERMS.—Any term used in this section that is defined in section 32901 of title 49, United States Code, has the meaning given that term in that section.

SA 1844. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 213, between lines 30 and 31, insert the following:

SEC. 403A. INELIGIBILITY FOR UNITED STATES BIRTHRIGHT CITIZENSHIP.

(a) IN GENERAL.—Section 101 of the Immigration and Nationality Act (8 U.S.C. 1101) is amended by inserting after subsection (c) the following:

''(d) Acknowledging that the right of birthright citizenship mandated under section 1 of the Fourteenth Amendment to the United States Constitution applies only to children born in the United States to a parent who is subject to the full and exclusive jurisdiction of the United States, a person born in the United States shall not be considered to be 'subject to the jurisdiction of the United States' for purposes of section 301(a) if the person was born in the United States to parents who are not legally present in the United States.''.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to people born on or after the date of the enactment of this Act.

SA 1845. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 4, between lines 3 and 4, insert the following:

(7) US–VISIT SYSTEM.—The integrated entry and exit data system required under section 110 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1365a), which was required to be implemented not later than December 21, 2005, has been fully implemented and is functioning at every land, sea, and air port of entry into the United States.

SA 1846. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 15, strike line 38 and all that follows through page 16, line 18, and insert the following:

SEC. 113. DETENTION OF ALIENS FROM NONCONTIGUOUS COUNTRIES.

Section 236(a) of the Immigration and Nationality Act (8 U.S.C. 1226(a)) is amended—

(1) in paragraph (1), by striking ''and'' at the end;

(2) in paragraph (2)(B), by striking ''but'' at the end;

(3) in paragraph (3), by striking the period at the end and inserting ''; and''; and

(4) by adding at the end the following:

''(4) may not provide the alien with release on bond or with conditional parole if the alien—

''(A) is a national of a noncontiguous country;

''(B) has not been admitted or paroled into the United States; and

''(C) was apprehended within 100 miles of the international border of the United States or presents a flight risk, as determined by the Secretary of Homeland Security.''.

SA 1847. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

Strike section 607 and insert the following:

SEC. 607. PRECLUSION OF SOCIAL SECURITY CREDITS PRIOR TO ENUMERATION OR FOR ANY PERIOD WITHOUT WORK AUTHORIZATION.

(a) INSURED STATUS.—Section 214 of the Social Security Act (42 U.S.C. 414) is amended by adding at the end, the following new subsections:

''(d)(1) Except as provided in paragraph (2)—

''(A) no quarter of coverage shall be credited for purposes of this section if, with respect to any individual who is assigned a social security account number on or after the date of enactment of the Secure Borders, Economic Opportunity and Immigration Reform Act of 2007, such quarter of coverage is earned prior to the year in which such social security account number is assigned; and

''(B) no quarter of coverage shall be credited for purposes of this section for any calendar year, with respect to an individual who is not a natural-born United States citizen, unless the Commissioner of Social Security determines, on the basis of information provided to the Commissioner in accordance with an agreement entered into under subsection (e) or otherwise, that the individual was authorized to be employed in the United States during such quarter.

''(2) Paragraph (1) shall not apply with respect to any quarter of coverage earned by an individual who, at such time such quarter of coverage is earned, satisfies the criterion specified in subsection (c)(2).

''(e) Not later than 180 days after the date of the Secure Borders, Economic Opportunity and Immigration Reform Act of 2007, the Secretary of Homeland Security shall enter into an agreement with the Commissioner of Social Security to provide such information as the Commissioner determines necessary to carry out the limitations on crediting quarters of coverage under subsection (d), however, this provision shall not be construed to establish an effective date for purposes of this section.

(b) BENEFIT COMPUTATION.—Section 215(e) of such Act (42 U.S.C. 415(e)) is amended—

(1) by striking ''and'' at the end of paragraph (1);

(2) by striking the period at the end of paragraph (2) and inserting ''; and''; and

(3) by adding at the end the following new paragraph:

''(3) in computing the average indexed monthly earnings of an individual who is assigned a social security account number on

or after the date of enactment of the Secure Borders, Economic Opportunity and Immigration Reform Act of 2007, there shall not be counted any wages or self-employment income for which no quarter of coverage may be credited to such individual as a result of the application of section 214(d).''.

(c) EFFECTIVE DATE.—The amendments made by this section shall be effective as of the date of enactment of this Act.

SA 1848. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

In section 602(a), strike paragraph (6).

Beginning on page 646, strike line 17 and all that follows through page 647 line 6.

SA 1849. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

In section 602(a), strike paragraph (6).

SA 1850. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was rdered to lie on the table; as follows:

Beginning on page 646, strike line 17 and all that follows through page 647 line 6.

SA 1851. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 524, strike line 1 and all that follows through page 525, line 6.

On page 527 in the table preceding line 1, strike the items relating to supplemental schedule for Zs.

Beginning on page 542, strike line 20 and all that follows through page 543 line 25.

SA 1852. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was rdered to lie on the table; as follows:

Beginning on page 524, strike line 1 and all that follows through page 525, line 6.

SA 1853. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 542, strike line 20 and all that follows through page 543 line 25.

SA 1854. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 658, strike line 20 and all that follows through page 659, line 21 and insert the following:

(——) PAYMENT OF INCOME TAXES—

(i) IN GENERAL.—Not later than the date on which status is adjusted under this section, the alien establishes the payment of any applicable Federal tax liability and State and Local tax liability by establishing that—

(I) no such tax liability exists;

(II) all outstanding liabilities have been paid; or

(III) the alien has entered into an agreement for payment of all outstanding liabilities with the Internal Revenue Service.

(ii) DEFINITIONS—

(I) APPLICABLE FEDERAL TAX LIABILITY—For purposes of clause (i), the term 'applicable Federal tax liability' means liability for Federal taxes, including penalties and interest, owed for any year during the period of employment required by subparagraph (D)(i) for which the statutory period for assessment of any deficiency for such taxes has not expired.

(II) STATE AND LOCAL TAX LIABILITY—For purposes of clause (i), 'State and Local tax liability' means any tax liability, including penalties and interest, due to any State or Local jurisdiction in which the alien worked prior to being issued a probationary Z visa pursuant to Section 601 of this Act, if such State or Local jurisdiction establishes a program by which aliens who are issued such visa are required to pay such tax liability.

(iii) IRS COOPERATION— The Secretary of the Treasury shall establish rules and procedures under which the Commissioner of Internal Revenue shall provide documentation to an alien upon request to establish the payment of all taxes required by this subparagraph.

(iv) LIMITATION—Provided further that an alien required to pay taxes under this subparagraph, or who otherwise satisfies the requirements of clause (i), shall not be allowed to collect any tax refund for any taxable year prior to 2007, or to file any claim for the Earned Income Tax Credit, or any other tax credit otherwise allowable under the tax code, prior to such taxable year.

SA 1855. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in title VII, strike the section that requires the Secretary of Education to develop an Internet-based English Learning Program.

SA 1856. Mr. INHOFE submitted an amendment intended to be proposed to amendment SA 1786 submitted by Mr. BIDEN (for himself and Mr. LUGAR) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, add the following:

SEC. 7___. SENSE OF SENATE REGARDING THE NEED FOR THE UNITED STATES TO ADDRESS GLOBAL CLIMATE CHANGE.

(a) FINDINGS.—Congress finds that—

(1) global climate change has become a widely discussed concern on both the national and international level;

(2) efforts to reduce greenhouse gases globally are best achieved through cooperation and active participation from the largest-emitting countries;

(3) global greenhouse gas emissions are projected to increase 25 to 90 percent during the period of calendar years 2000 through 2030, with up to 75 percent of that increase coming from emerging markets;

(4) the emissions from both the developed and developing countries are key components of overall global emissions;

(5) China is expected to surpass the United States in emissions of greenhouse gases within the year;

(6) on June 7, 2007, the G8 issued a Summit Declaration entitled ''Growth and Responsibility in the World Economy'' declaring its current approach to addressing global climate change;

(7) on June 8, 2007, the G8 and the governments of Brazil China, India, Mexico and South Africa issued a joint statement declaring a cooperative approach to addressing global climate change;

(8) the G8 has committed to enhancing energy efficiency, diversifying energy supplies and developing and deploying new and transformational technologies;

(9) the United States has committed to building upon the successful Asia-Pacific Partnership in reaching out to industry participation in meeting the goals of the G8 declaration addressing climate and energy;

(10) the G8 has declared that frameworks to address climate change ''must address not only climate change but also energy security, economic growth, and sustainable development objectives in an integrated approach'';

(11) the United States has committed to working with emerging markets to develop a stronger program of measuring performance and making data more transparent so that measurement standards are comparable across countries;

(12) the United States has committed to leading the way to the development of a new framework on climate change for the time after the Kyoto Protocol expires in 2012 by trying to find consensus among the 15 countries that are responsible for the most energy use and greenhouse gas emissions;

(13) the G8 has endorsed the convening in the United States of such a meeting this year to engage major emitting economies on how best to address climate change, developing a framework by the end of 2008;

(14) the G8 agreed that this dialogue will support the UN climate process and report back to the UNFCCC, contributing to a global agreement under the UNFCCC by 2009; and

(15) the United States led the effort to craft a new approach adopted by the G8 that frames climate change within a broader context of energy security and economic growth—an approach strongly supported by major emerging markets.

(b) SENSE OF SENATE.—It is the sense of the Senate that the United States should continue its leadership role in addressing climate change, clean energy development and deployment, and energy security on an international scale by—

(1) participating in further negotiations regarding a post-Kyoto agreement—

(A) in accordance with the principles laid out by the G8 in the Summit Declaration entitled ''Growth and Responsibility in the World Economy;''

(B) through which it leads efforts to obtain constructive participation and comparable actions by major emerging economies;

(C) to develop an international approach that enhances energy security;

(D) that promotes economic growth, does not harm the United States economy, and produces emissions reductions; and

(E) that achieves its objectives though development and investment in advanced technologies and practices; and

(2) establishing a bipartisan observer group, the members of which shall be designated by the Majority Leader and Minority Leader of the Senate—

(A) to monitor any international negotiations, agreements, or other arrangements on climate change; and

(B) to ensure that the advice and consent function of the Senate is exercised in a manner to facilitate timely consideration of any applicable treaty submitted to the Senate.

SA 1857. Mr. INHOFE submitted an amendment intended to be proposed to amendment SA 1787 submitted by Mr. BIDEN (for himself and Mr. LUGAR) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, add the following:

SEC. 7___. SENSE OF SENATE REGARDING THE NEED FOR THE UNITED STATES TO ADDRESS GLOBAL CLIMATE CHANGE.

(a) FINDINGS.—Congress finds that—

(1) global climate change has become a widely discussed concern on both the national and international level;

(2) efforts to reduce greenhouse gases globally are best achieved through cooperation and active participation from the largest-emitting countries;

(3) global greenhouse gas emissions are projected to increase 25 to 90 percent during the period of calendar years 2000 through 2030, with up to 75 percent of that increase coming from emerging markets;

(4) the emissions from both the developed and developing countries are key components of overall global emissions;

(5) China is expected to surpass the United States in emissions of greenhouse gases within the year;

(6) on June 7, 2007, the G8 issued a Summit Declaration entitled ''Growth and Responsibility in the World Economy'' declaring its current approach to addressing global climate change;

(7) on June 8, 2007, the G8 and the governments of Brazil China, India, Mexico and South Africa issued a joint statement declaring a cooperative approach to addressing global climate change;

(8) the G8 has committed to enhancing energy efficiency, diversifying energy supplies and developing and deploying new and transformational technologies;

(9) the United States has committed to building upon the successful Asia-Pacific Partnership in reaching out to industry participation in meeting the goals of the G8 declaration addressing climate and energy;

(10) the G8 has declared that frameworks to address climate change ''must address not only climate change but also energy security, economic growth, and sustainable development objectives in an integrated approach'';

(11) the United States has committed to working with emerging markets to develop a stronger program of measuring performance and making data more transparent so that measurement standards are comparable across countries;

(12) the United States has committed to leading the way to the development of a new framework on climate change for the time after the Kyoto Protocol expires in 2012 by trying to find consensus among the 15 countries that are responsible for the most energy use and greenhouse gas emissions;

(13) the G8 has endorsed the convening in the United States of such a meeting this year to engage major emitting economies on how best to address climate change, developing a framework by the end of 2008;

(14) the G8 agreed that this dialogue will support the UN climate process and report back to the UNFCCC, contributing to a global agreement under the UNFCCC by 2009; and

(15) the United States led the effort to craft a new approach adopted by the G8 that frames climate change within a broader context of energy security and economic growth—an approach strongly supported by major emerging markets.

(b) SENSE OF SENATE.—It is the sense of the Senate that the United States should continue its leadership role in addressing climate change, clean energy development and deployment, and energy security on an international scale by—

(1) participating in further negotiations regarding a post-Kyoto agreement—

(A) in accordance with the principles laid out by the G8 in the Summit Declaration entitled ''Growth and Responsibility in the World Economy;''

(B) through which it leads efforts to obtain constructive participation and comparable actions by major emerging economies;

(C) to develop an international approach that enhances energy security;

(D) that promotes economic growth, does not harm the United States economy, and produces emissions reductions; and

(E) that achieves its objectives though development and investment in advanced technologies and practices; and

(2) establishing a bipartisan observer group, the members of which shall be designated by the Majority Leader and Minority Leader of the Senate—

(A) to monitor any international negotiations, agreements, or other arrangements on climate change; and

(B) to ensure that the advice and consent function of the Senate is exercised in a manner to facilitate timely consideration of any applicable treaty submitted to the Senate.

SA 1858. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1792 proposed by Mr. STEVENS (for himself, Ms. SNOWE, Mr. ALEXANDER, Mr. KERRY, Mr. CARPER, Mr. LOTT, and Mr. CORKER) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of the matter proposed to be inserted, add the following:

SEC. 520. ALTERNATIVE FUEL VEHICLE ACTION PLAN.

(a) IN GENERAL.—The Secretary of Transportation shall establish and implement an action plan which takes into consideration the availability of alternative fuel and cost effectiveness of technologies, which will ensure that, beginning with model year 2015, the percentage of new automobiles for sale in the United States that are alternative fuel automobiles is not less than 50 percent.

(b) DEFINITIONS.—In this section:

(1) ALTERNATIVE FUEL AUTOMOBILE.—The term ''alternative fuel automobile'' means the following, but is not limited to—

(A) a new advanced lean burn technology motor vehicle (as defined in section 30B(c)(3) of the Internal Revenue Code of 1986) that achieves at least 125 percent of the model year 2002 city fuel economy;

(B) an alternative fueled automobile;

(C) a flexible fuel automobile;

(D) a new qualified fuel cell motor vehicle (as defined in section 30B(e)(4) of such Code).

(E) a new qualified hybrid motor vehicle (as defined in section 30B(d)(3) of such Code);

(F) a plug-in hybrid automobile;

(G) an electric automobile;

(H) a hydrogen internal combustion engine automobile;

(I) a diesel-fueled automobile; and

(J) any other automobile that uses substantially new technology and achieves at least 175 percent of the model year 2002 city fuel economy, as determined by the Secretary of Transportation, by regulation.

(2) OTHER TERMS.—Any term used in this section that is defined in section 32901 of title 49, United States Code, has the meaning given that term in that section.

SA 1859. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1711 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

TITLE V—CORPORATE AVERAGE FUEL ECONOMY STANDARDS

SEC. 501. SHORT TITLE.

This title may be cited as the ''Ten-in-Ten Fuel Economy Act''.

SEC. 502. AVERAGE FUEL ECONOMY STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.

(a) INCREASED STANDARDS.—Section 32902 of title 49, United States Code, is amended—

(1) by striking ''**NON-PASSENGER AUTOMOBILES**.—'' in subsection (a) and inserting

''**PRESCRIPTION OF STANDARDS BY REGULATION**.—'';

(2) by striking ''(except passenger automobiles)'' in subsection (a); and

(3) by striking subsection (b) and inserting the following:

''(b) STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.—

''(1) IN GENERAL.—The Secretary of Transportation, after consultation with the Administrator of the Environmental Protection Agency, shall prescribe average fuel economy standards for—

''(A) automobiles manufactured by manufacturers in each model year beginning with model year 2011 in accordance with subsection (c); and

''(B) commercial medium-duty or heavy-duty on-highway vehicles in accordance with subsection (k).

''(2) FUEL ECONOMY TARGET FOR AUTOMOBILES.—

''(A) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2011 THROUGH 2020.—The Secretary shall prescribe average fuel economy standards for automobiles in each model year beginning with model year 2011 to achieve a combined fuel economy average for model year 2020 of at least 35 miles per gallon for the fleet of automobiles manufactured or sold in the United States. The average fuel economy standards prescribed by the Secretary shall be the maximum feasible average fuel economy standards for model years 2011 through 2019.

''(B) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2021 THROUGH 2030.—For model years 2021 through 2030, the average fuel economy required to be attained by the fleet of automobiles manufactured or sold in the United States shall be the maximum feasible average fuel economy standard for the fleet.

''(C) PROGRESS TOWARD STANDARD REQUIRED.—In prescribing average fuel economy standards under subparagraph (A), the Secretary shall prescribe annual fuel economy standard increases that increase the applicable average fuel economy standard ratably beginning with model year 2011 and ending with model year 2020.''.

(b) FUEL ECONOMY TARGET FOR COMMERCIAL MEDIUM-DUTY AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—Section 32902 of title 49, United States Code, is amended by adding at the end thereof the following:

''(k) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—

''(1) STUDY.—No later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall examine the fuel efficiency of commercial medium- and heavy-duty on-highway vehicles and determine—

''(A) the appropriate test procedures and methodologies for measuring commercial medium- and heavy-duty on-highway vehicle fuel efficiency;

''(B) the appropriate metric for measuring and expressing commercial medium- and heavy-duty on-highway vehicle fuel efficiency performance, taking into consideration, among other things, the work performed by such on-highway vehicles and types of operations in which they are used;

''(C) the range of factors, including, without limitation, design, functionality, use, duty cycle, infrastructure, and total overall energy consumption and operating costs that effect commercial medium- and heavy-duty on-highway vehicle fuel efficiency; and

''(D) such other factors and conditions that could have an impact on a program to improve commercial medium- and heavy-duty on-highway vehicle fuel efficiency.

''(2) RULEMAKING.—No later than 24 months after completion of the study required by paragraph (1), the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, by regulation, shall determine in a rulemaking procedure how to implement a commercial medium- and heavy-duty on-highway vehicle fuel efficiency improvement program designed to achieve the maximum feasible improvement, and shall adopt appropriate test methods, measurement metrics, fuel economy standards, and compliance and enforcement protocols that are appropriate, cost-effective, and technologically feasible for commercial medium- and heavy-duty on-highway vehicles.

''(3) LEAD-TIME; REGULATORY STABILITY.—Any commercial medium- and heavy-duty on-highway vehicle fuel efficiency regulatory program adopted pursuant to this subsection shall provide no less than 4 full model years of regulatory lead-time and 3 full model years of regulatory stability.

''(4) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLE DEFINED.—In this subsection, the term 'commercial medium- and heavy-duty on-highway vehicle' means an on-highway vehicle with a gross vehicle weight rating of more than 8,500 pounds, and that, in the case of a vehicle with a gross vehicle weight rating of less than 10,000 pounds, is not an automobile.''.

(c) AUTHORITY OF SECRETARY.—Section 32902 of title 49, United States Code, as amended by subsection (b), is further amended by adding at the end thereof the following:

''(l) AUTHORITY OF THE SECRETARY.—

''(1) VEHICLE ATTRIBUTES; MODEL YEARS COVERED.—The Secretary shall—

''(A) prescribe by regulation average fuel economy standards for automobiles based on vehicle attributes related to fuel economy and to express the standards in the form of a mathematical function; and

''(B) issue regulations under this title prescribing average fuel economy standards for 1 or more model years.

''(2) PROHIBITION OF UNIFORM PERCENTAGE INCREASE.—When the Secretary prescribes a standard, or prescribes an amendment under this section that changes a standard, the standard may not be expressed as a uniform percentage increase from the fuel-economy performance of attribute classes or categories already achieved in a model year by a manufacturer.''.

SEC. 503. AMENDING FUEL ECONOMY STANDARDS.

(a) IN GENERAL.—Section 32902(c) of title 49, United States Code, is amended to read as follows:

''(c) AMENDING FUEL ECONOMY STANDARDS.—Notwithstanding subsections (a) and (b), the Secretary of Transportation—

''(1) may prescribe a standard higher than that required under subsection (b); or

''(2) may prescribe an average fuel economy standard for automobiles that is the maximum feasible level for the model year, despite being lower than the standard required under subsection (b), if the Secretary determines, based on clear and convincing evidence, that the average fuel economy standard prescribed in accordance with subsections (a) and (b) for automobiles in that model year is shown not to be cost-effective.''.

(b) FEASIBILITY CRITERIA.—Section 32902(f) of title 49, United States Code, is amended to read as follows:

''(f) DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.—

''(1) IN GENERAL.—When deciding maximum feasible average fuel economy under this section, the Secretary shall consider—

''(A) economic practicability;

''(B) the effect of other motor vehicle standards of the Government on fuel economy;

''(C) environmental impacts; and

''(D) the need of the United States to conserve energy.

''(2) LIMITATIONS.—In setting any standard under subsection (b), (c), or (d), the Secretary shall ensure that each standard is the highest standard that—

''(A) is technologically achievable;

''(B) can be achieved without materially reducing the overall safety of automobiles manufactured or sold in the United States;

''(C) is not less than the standard for that class of vehicles from any prior year; and

''(D) is cost-effective.

''(3) COST-EFFECTIVE DEFINED.—In this subsection, the term 'cost-effective' means that the value to the United States of reduced fuel use from a proposed fuel economy standard is greater than or equal to the cost to the United States of such standard. In determining cost-effectiveness, the Secretary shall give priority to those technologies and packages of technologies that offer the largest reduction in fuel use relative to their costs.

''(4) FACTORS FOR CONSIDERATION BY SECRETARY IN DETERMINING COST-EFFECTIVENESS.—The Secretary shall consult with the Administrator of the Environmental Protection Agency, and may consult with such other departments and agencies as the Secretary deems appropriate, and shall consider in the analysis the following factors:

''(A) Economic security.

''(B) The impact of the oil or energy intensity of the United States economy on the sensitivity of the economy to oil and other fuel price changes, including the magnitude of gross domestic product losses in response to short term price shocks or long term price increases.

''(C) National security, including the impact of United States payments for oil and other fuel imports on political, economic, and military developments in unstable or unfriendly oil-exporting countries.

''(D) The uninternalized costs of pipeline and storage oil seepage, and for risk of oil spills from production, handling, and transport, and related landscape damage.

''(E) The emissions of pollutants including greenhouse gases over the lifecycle of the fuel and the resulting costs to human health, the economy, and the environment.

''(F) Such additional factors as the Secretary deems relevant.

''(5) MINIMUM VALUATION.—When considering the value to consumers of a gallon of gasoline saved, the Secretary of Transportation shall use as a minimum value the greater of—

''(A) the average value of gasoline prices projected by the Energy Information Administration over the period covered by the standard; or

''(B) the average value of gasoline prices for the 5-year period immediately preceding the year in which the standard is established.''.

(c) CONSULTATION REQUIREMENT.—Section 32902(i) of title 49, United States Code, is

amended by inserting ''and the Administrator of the Environmental Protection Agency'' after ''Energy''.

(d) COMMENTS.—Section 32902(j) of title 49, United States Code, is amended—

(1) by striking paragraph (1) and inserting ''(1) Before issuing a notice proposing to prescribe or amend an average fuel economy standard under subsection (b), (c), or (g) of this section, the Secretary of Transportation shall give the Secretary of Energy and Administrator of the Environmental Protection Agency at least 30 days after the receipt of the notice during which the Secretary of Energy and Administrator may, if the Secretary of Energy or Administrator concludes that the proposed standard would adversely affect the conservation goals of the Secretary of Energy or environmental protection goals of the Administrator, provide written comments to the Secretary of Transportation about the impact of the standard on those goals. To the extent the Secretary of Transportation does not revise a proposed standard to take into account comments of the Secretary of Energy or Administrator on any adverse impact of the standard, the Secretary of Transportation shall include those comments in the notice.''; and

(2) by inserting ''and the Administrator'' after ''Energy'' each place it appears in paragraph (2).

(e) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Section 32902(d) of title 49, United States Code, is amended by striking ''passenger'' each place it appears.

(2) Section 32902(g) of title 49, United States Code, is amended—

(A) by striking ''subsection (a) or (d)'' each place it appears in paragraph (1) and inserting ''subsection (b), (c), or (d)''; and

(B) striking ''(and submit the amendment to Congress when required under subsection (c)(2) of this section)'' in paragraph (2).

SEC. 504. DEFINITIONS.

(a) IN GENERAL.—Section 32901(a) of title 49, United States Code, is amended—

(1) by striking paragraph (3) and inserting the following:

''(3) except as provided in section 32908 of this title, 'automobile' means a 4-wheeled vehicle that is propelled by fuel, or by alternative fuel, manufactured primarily for use on public streets, roads, and highways and rated at not more than 10,000 pounds gross vehicle weight, except—

''(A) a vehicle operated only on a rail line;

''(B) a vehicle manufactured by 2 or more manufacturers in different stages and less than 10,000 of which are manufactured per year; or

''(C) a work truck.''; and

(2) by adding at the end the following:

''(17) 'work truck' means an automobile that the Secretary determines by regulation—

''(A) is rated at between 8,500 and 10,000 pounds gross vehicle weight; and

''(B) is not a medium-duty passenger vehicle (as defined in section 86.1803–01 of title 40, Code of Federal Regulations).''.

(b) DEADLINE FOR REGULATIONS.—The Secretary of Transportation—

(1) shall issue proposed regulations implementing the amendments made by subsection (a) not later than 1 year after the date of enactment of this Act; and

(2) shall issue final regulations implementing the amendments not later than 18 months after the date of the enactment of this Act.

(c) EFFECTIVE DATE.—Regulations prescribed under subsection (b) shall apply beginning with model year 2010.

SEC. 505. ENSURING SAFETY OF AUTOMOBILES.

(a) IN GENERAL.—Subchapter II of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

''§ 30129. Vehicle compatibility standard

''(a) STANDARDS.—The Secretary of Transportation shall issue a motor vehicle safety standard to reduce automobile incompatibility. The standard shall address characteristics necessary to ensure better management of crash forces in multiple vehicle frontal and side impact crashes between different types, sizes, and weights of automobiles with a gross vehicle weight of 10,000 pounds or less in order to decrease occupant deaths and injuries.

''(b) CONSUMER INFORMATION.—The Secretary shall develop and implement a public information side and frontal compatibility crash test program with vehicle ratings based on risks to occupants, risks to other motorists, and combined risks by vehicle make and model.''.

(b) RULEMAKING DEADLINES.—

(1) RULEMAKING.—The Secretary of Transportation shall issue—

(A) a notice of a proposed rulemaking under section 30129 of title 49, United States Code, not later than January 1, 2012; and

(B) a final rule under such section not later than December 31, 2014.

(2) EFFECTIVE DATE OF REQUIREMENTS.—Any requirement imposed under the final rule issued under paragraph (1) shall become fully effective not later than September 1, 2018.

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 301 is amended by inserting after the item relating to section 30128 the following:

''30129. Vehicle compatibility standard''.

SEC. 506. CREDIT TRADING PROGRAM.

Section 32903 of title 49, United States Code, is amended—

(1) by striking ''passenger'' each place it appears;

(2) by striking ''section 32902(b)–(d) of this title'' each place it appears and inserting ''subsection (a), (c), or (d) of section 32902'';

(3) by striking ''3 consecutive model years'' in subsection (a)(2) and inserting ''5 consecutive model years'';

(4) in subsection (a)(2), by striking ''clause (1) of this subsection,'' and inserting ''paragraph (1)''; and

(5) by striking subsection (e) and inserting the following:

''(e) CREDIT TRADING AMONG MANUFACTURERS.—The Secretary of Transportation may establish, by regulation, a corporate average fuel economy credit trading program to allow manufacturers whose automobiles exceed the average fuel economy standards prescribed under section 32902 to earn credits to be sold to manufacturers whose automobiles fail to achieve the prescribed standards such that the total oil savings associated with manufacturers that exceed the prescribed standards are preserved when transferring credits to manufacturers that fail to achieve the prescribed standards.''.

SEC. 507. LABELS FOR FUEL ECONOMY AND GREENHOUSE GAS EMISSIONS.

Section 32908 of title 49, United States Code, is amended—

(1) by redesignating subparagraph (F) of subsection (b)(1) as subparagraph (H) and inserting after subparagraph (E) the following:

''(F) a label (or a logo imprinted on a label required by this paragraph) that—

''(i) reflects an automobile's performance on the basis of criteria developed by the Administrator to reflect the fuel economy and greenhouse gas and other emissions consequences of operating the automobile over its likely useful life;

''(ii) permits consumers to compare performance results under clause (i) among all automobiles; and

''(iii) is designed to encourage the manufacture and sale of automobiles that meet or exceed applicable fuel economy standards under section 32902.

''(G) a fuelstar under paragraph (5).''; and

(2) by adding at the end of subsection (b) the following:

''(4) GREEN LABEL PROGRAM.—

''(A) MARKETING ANALYSIS.—Not later than 2 years after the date of the enactment of the Ten-in-Ten Fuel Economy Act, the Administrator shall implement a consumer education program and execute marketing strategies to improve consumer understanding of automobile performance described in paragraph (1)(F).

''(B) ELIGIBILITY.—Not later than 3 years after the date described in subparagraph (A), the Administrator shall issue requirements for the label or logo required under paragraph (1)(F) to ensure that an automobile is not eligible for the label or logo unless it—

''(i) meets or exceeds the applicable fuel economy standard; or

''(ii) will have the lowest greenhouse gas emissions over the useful life of the vehicle of all vehicles in the vehicle attribute class to which it belongs in that model year.

''(5) FUELSTAR PROGRAM.—

''(A) IN GENERAL.—The Secretary shall establish a program, to be known as the 'Fuelstar Program', under which stars shall be imprinted on or attached to the label required by paragraph (1).

''(B) GREEN STARS.—Under the Fuelstar Program, a manufacturer may include on the label maintained on an automobile under paragraph (1)—

''(i) 1 green star for any automobile that meets the average fuel economy standard for the model year under section 32902; and

''(ii) 1 additional green star for each 2 miles per gallon by which the automobile exceeds such standard.

''(C) GOLD STARS.—Under the Fuelstar Program, a manufacturer may include a gold star on the label maintained on an automobile under paragraph (1) if the automobile attains a fuel economy of at least 50 miles per gallon.''.

SEC. 508. CONTINUED APPLICABILITY OF EXISTING STANDARDS.

Nothing in this title, or the amendments made by this title, shall be construed to affect the application of section 32902 of title 49, United States Code, to passenger automobiles or non-passenger automobiles manufactured before model year 2011.

SEC. 509. NATIONAL ACADEMY OF SCIENCES STUDIES.

(a) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary of Transportation shall execute an agreement with the National Academy of Sciences to develop a report evaluating vehicle fuel economy standards, including—

(1) an assessment of automotive technologies and costs to reflect developments since the Academy's 2002 report evaluating the corporate average fuel economy standards was conducted;

(2) an analysis of existing and potential technologies that may be used practically to improve automobile and medium-duty and heavy-duty truck fuel economy;

(3) an analysis of how such technologies may be practically integrated into the automotive and medium-duty and heavy-duty truck manufacturing process; and

(4) an assessment of how such technologies may be used to meet the new fuel economy standards under chapter 329 of title 49, United States Code, as amended by this title.

(b) QUINQUENNIAL UPDATES.—After submitting the initial report, the Academy shall update the report at 5 year intervals thereafter through 2025.

(c) REPORT.—The Academy shall submit the report to the Secretary, the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce, with its findings and recommendations no later than 18 months after the date on which the Secretary executes the agreement with the Academy.

SEC. 510. STANDARDS FOR EXECUTIVE AGENCY AUTOMOBILES.

(a) IN GENERAL.—Section 32917 of title 49, United States Code, is amended to read as follows:

''§ 32917. Standards for Executive agency automobiles

''(a) FUEL EFFICIENCY.—The head of an Executive agency shall ensure that each new automobile procured by the Executive agency is as fuel efficient as practicable.

''(b) DEFINITIONS.—In this section:

''(1) EXECUTIVE AGENCY.—The term 'Executive agency' has the meaning given that term in section 105 of title 5.

''(2) NEW AUTOMOBILE.—The term 'new automobile', with respect to the fleet of automobiles of an executive agency, means an automobile that is leased for at least 60 consecutive days or bought, by or for the Executive agency, after September 30, 2008. The term does not include any vehicle designed for combat-related missions, law enforcement work, or emergency rescue work.''.

(b) REPORT.—The Administrator of the General Services Administration shall develop a report describing and evaluating the efforts of the heads of the Executive agencies to comply with section 32917 of title 49, United States Code, for fiscal year 2009. The Administrator shall submit the report to Congress no later than December 31, 2009.

SEC. 511. INCREASING CONSUMER AWARENESS OF FLEXIBLE FUEL AUTOMOBILES.

Section 32908 of title 49, United States Code, is amended by adding at the end the following:

''(g) INCREASING CONSUMER AWARENESS OF FLEXIBLE FUEL AUTOMOBILES.—(1) The Secretary of Energy, in consultation with the Secretary of Transportation, shall prescribe regulations that require the manufacturer of automobiles distributed in interstate commerce for sale in the United States—

''(A) to prominently display a permanent badge or emblem on the quarter panel or tailgate of each such automobile that indicates such vehicle is capable of operating on alternative fuel; and

''(B) to include information in the owner's manual of each such automobile information that describes—

''(i) the capability of the automobile to operate using alternative fuel;

''(ii) the benefits of using alternative fuel, including the renewable nature, and the environmental benefits of using alternative fuel; and

''(C) to contain a fuel tank cap that is clearly labeled to inform consumers that the automobile is capable of operating on alternative fuel.

''(2) The Secretary of Transportation shall collaborate with automobile retailers to develop voluntary methods for providing prospective purchasers of automobiles with information regarding the benefits of using alternative fuel in automobiles, including—

''(A) the renewable nature of alternative fuel; and

''(B) the environmental benefits of using alternative fuel.''.

SEC. 512. PERIODIC REVIEW OF ACCURACY OF FUEL ECONOMY LABELING PROCEDURES.

Beginning in December, 2009, and not less often than every 5 years thereafter, the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Transportation, shall—

(1) reevaluate the fuel economy labeling procedures described in the final rule published in the Federal Register on December 27, 2006 (71 Fed. Reg. 77,872; 40 C.F.R. parts 86 and 600) to determine whether changes in the factors used to establish the labeling procedures warrant a revision of that process; and

(2) submit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce that describes the results of the reevaluation process.

SEC. 513. TIRE FUEL EFFICIENCY CONSUMER INFORMATION.

(a) IN GENERAL.—Chapter 301 of title 49, United States Code, is amended by inserting after section 30123 the following new section:

''§ 30123A. Tire fuel efficiency consumer information

''(a) RULEMAKING.—

''(1) IN GENERAL.—Not later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation shall, after notice and opportunity for comment, promulgate rules establishing a national tire fuel efficiency consumer information program for tires designed for use on motor vehicles to educate consumers about the effect of tires on automobile fuel efficiency.

''(2) ITEMS INCLUDED IN RULE.—The rulemaking shall include—

''(A) a national tire fuel efficiency rating system for motor vehicle tires to assist consumers in making more educated tire purchasing decisions;

''(B) requirements for providing information to consumers, including information at the point of sale and other potential information dissemination methods, including the Internet;

''(C) specifications for test methods for manufacturers to use in assessing and rating tires to avoid variation among test equipment and manufacturers; and

''(D) a national tire maintenance consumer education program including, information on tire inflation pressure, alignment, rotation, and tread wear to maximize fuel efficiency.

''(3) APPLICABILITY.—This section shall not apply to tires excluded from coverage under section 575.104(c)(2) of title 49, Code of Federal Regulations, as in effect on date of enactment of the Ten-in-Ten Fuel Economy Act.

''(b) CONSULTATION.—The Secretary shall consult with the Secretary of Energy and the Administrator of the Environmental Protection Agency on the means of conveying tire fuel efficiency consumer information.

''(c) REPORT TO CONGRESS.—The Secretary shall conduct periodic assessments of the rules promulgated under this section to determine the utility of such rules to consumers, the level of cooperation by industry, and the contribution to national goals pertaining to energy consumption. The Secretary shall transmit periodic reports detailing the findings of such assessments to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce.

''(d) TIRE MARKING.—The Secretary shall not require permanent labeling of any kind on a tire for the purpose of tire fuel efficiency information.

''(e) PREEMPTION.—When a requirement under this section is in effect, a State or political subdivision of a State may adopt or enforce a law or regulation on tire fuel efficiency consumer information only if the law or regulation is identical to that requirement. Nothing in this section shall be construed to preempt a State or political subdivision of a State from regulating the fuel efficiency of tires not otherwise preempted under this chapter.''.

(b) ENFORCEMENT.—Section 30165(a) of title 49, United States Code, is amended by adding at the end the following:

''(4) SECTION 30123a.—Any person who fails to comply with the national tire fuel efficiency consumer information program under section 30123A is liable to the United States Government for a civil penalty of not more than $50,000 for each violation.''.

(c) Conforming Amendment.—The chapter analysis for chapter 301 of title 49, United States Code, is amended by inserting after the item relating to section 30123 the following:

''30123A. Tire fuel efficiency consumer information''.

SEC. 514. ADVANCED BATTERY INITIATIVE.

(a) IN GENERAL.—The Secretary of Energy, in consultation with the Secretary of Transportation, shall establish and carry out an Advanced Battery Initiative in accordance with this section to support research, development, demonstration, and commercial application of battery technologies.

(b) INDUSTRY ALLIANCE.—Not later than 180 days after the date of enactment of this Act, the Secretary shall competitively select an Industry Alliance to represent participants who are private, for-profit firms headquartered in the United States, the primary business of which is the manufacturing of batteries.

(c) RESEARCH.—

(1) GRANTS.—The Secretary shall carry out research activities of the Initiative through competitively-awarded grants to—

(A) researchers, including Industry Alliance participants;

(B) small businesses;

(C) National Laboratories; and

(D) institutions of higher education.

(2) INDUSTRY ALLIANCE.—The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify advanced battery technology and battery systems needs relevant to—

(i) electric drive technology; and

(ii) other applications the Secretary deems appropriate;

(B) an assessment of the progress of research activities of the Initiative; and

(C) assistance in annually updating advanced battery technology and battery systems roadmaps.

(d) AVAILABILITY TO THE PUBLIC.—The information and roadmaps developed under this section shall be available to the public.

(e) PREFERENCE.—In making awards under this subsection, the Secretary shall give preference to participants in the Industry Alliance.

(f) COST SHARING.—In carrying out this section, the Secretary shall require cost sharing in accordance with section 120(b) of title 23, United States Code.

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to

carry out this section such sums as may be necessary for each of fiscal years 2008 through 2012.

SEC. 515. BIODIESEL STANDARDS.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Transportation and the Secretary of Energy, shall promulgate regulations to ensure that all diesel-equivalent fuels derived from renewable biomass that are introduced into interstate commerce are tested and certified to comply with appropriate American Society for Testing and Materials standards.

(b) DEFINITIONS.—In this section:

(1) BIODIESEL.—

(A) IN GENERAL.—The term ''biodiesel'' means the monoalkyl esters of long chain fatty acids derived from plant or animal matter that meet—

(i) the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545); and

(ii) the requirements of the American Society of Testing and Materials D6751.

(B) INCLUSIONS.—The term ''biodiesel'' includes esters described in subparagraph (A) derived from—

(i) animal waste, including poultry fat, poultry waste, and other waste material; and

(ii) municipal solid waste, sludge, and oil derived from wastewater or the treatment of wastewater.

(2) BIODIESEL BLEND.—The term ''biodiesel blend'' means a mixture of biodiesel and diesel fuel, including—

(A) a blend of biodiesel and diesel fuel approximately 5 percent of the content of which is biodiesel (commonly known as ''B5''); and

(B) a blend of biodiesel and diesel fuel approximately 20 percent of the content of which is biodiesel (commonly known as ''B20'').

SEC. 516. USE OF CIVIL PENALTIES FOR RESEARCH AND DEVELOPMENT.

Section 32912 of title 49, United States Code, is amended by adding at the end thereof the following:

''(e) USE OF CIVIL PENALTIES.—For fiscal year 2008 and each fiscal year thereafter, from the total amount deposited in the general fund of the Treasury during the preceding fiscal year from fines, penalties, and other funds obtained through enforcement actions conducted pursuant to this section (including funds obtained under consent decrees), the Secretary of the Treasury, subject to the availability of appropriations, shall—

''(1) transfer 50 percent of such total amount to the account providing appropriations to the Secretary of Transportation for the administration of this chapter, which shall be used by the Secretary to carry out a program of research and development into fuel saving automotive technologies and to support rulemaking under this chapter; and

''(2) transfer 50 percent of such total amount to the Energy Security Fund established by section 517(a) of the Ten-in-Ten Fuel Economy Act.''.

SEC. 517. ENERGY SECURITY FUND AND ALTERNATIVE FUEL GRANT PROGRAM.

(a) ESTABLISHMENT OF FUND.—

(1) IN GENERAL.—There is established in the Treasury a fund, to be known as the ''Energy Security Fund'' (referred to in this section as the ''Fund''), consisting of—

(A) amounts transferred to the Fund under section 32912(e)(2) of title 49, United States Code; and

(B) amounts credited to the Fund under paragraph (2)(C).

(2) INVESTMENT OF AMOUNTS.—

(A) IN GENERAL.—The Secretary of the Treasury shall invest in interest-bearing obligations of the United States such portion of the Fund as is not, in the judgment of the Secretary of the Treasury, required to meet current withdrawals.

(B) SALE OF OBLIGATIONS.—Any obligation acquired by the Fund may be sold by the Secretary of the Treasury at the market price.

(C) CREDITS TO FUND.—The interest on, and the proceeds from the sale or redemption of, any obligations held in the Fund shall be credited to, and form a part of, the Fund in accordance with section 9602 of the Internal Revenue Code of 1986.

(3) USE OF AMOUNTS IN FUND.—Amounts in the Fund shall be made available to the Secretary of Energy, subject to the availability of appropriations, to carry out the grant program under subsection (b).

(b) ALTERNATIVE FUELS GRANT PROGRAM.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary of Energy, acting through the Clean Cities Program of the Department of Energy, shall establish and carry out a program under which the Secretary shall provide grants to expand the availability to consumers of alternative fuels (as defined in section 32901(a) of title 49, United States Code).

(2) ELIGIBILITY.—

(A) IN GENERAL.—Except as provided in subparagraph (B), any entity that is eligible to receive assistance under the Clean Cities Program shall be eligible to receive a grant under this subsection.

(B) EXCEPTIONS.—

(i) CERTAIN OIL COMPANIES.—A large, vertically-integrated oil company shall not be eligible to receive a grant under this subsection.

(ii) PROHIBITION OF DUAL BENEFITS.—An entity that receives any other Federal funds for the construction or expansion of alternative refueling infrastructure shall not be eligible to receive a grant under this subsection for the construction or expansion of the same alternative refueling infrastructure.

(C) ENSURING COMPLIANCE.—Not later than 30 days after the date of enactment of this Act, the Secretary of Energy shall promulgate regulations to ensure that, before receiving a grant under this subsection, an eligible entity meets applicable standards relating to the installation, construction, and expansion of infrastructure necessary to increase the availability to consumers of alternative fuels (as defined in section 32901(a) of title 49, United States Code).

(3) MAXIMUM AMOUNT.—

(A) GRANTS.—The amount of a grant provided under this subsection shall not exceed $30,000.

(B) AMOUNT PER STATION.—An eligible entity shall receive not more than $90,000 under this subsection for any station of the eligible entity during a fiscal year.

(4) USE OF FUNDS.—

(A) IN GENERAL.—A grant provided under this subsection shall be used for the construction or expansion of alternative fueling infrastructure.

(B) ADMINISTRATIVE EXPENSES.—Not more than 3 percent of the amount of a grant provided under this subsection shall be used for administrative expenses.

SEC. 518. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary of Transportation $25,000,000 for each of fiscal years 2009 through 2021 to carry out the provisions of chapter 329 of title 49, United States Code.

SEC. 519. APPLICATION WITH CLEAN AIR ACT.

Nothing in this title shall be construed to conflict with the authority provided by sections 202 and 209 of the Clean Air Act (42 U.S.C. 7521 and 7543, respectively).

SEC. 520. ALTERNATIVE FUEL VEHICLE ACTION PLAN.

(a) IN GENERAL.—The Secretary of Transportation shall establish and implement an action plan which takes into consideration the availability of alternative fuel and cost effectiveness of technologies, which will ensure that, beginning with model year 2015, the percentage of new automobiles for sale in the United States that are alternative fuel automobiles is not less than 50 percent.

(b) DEFINITIONS.—In this section:

(1) ALTERNATIVE FUEL AUTOMOBILE.—The term ''alternative fuel automobile'' means the following, but is not limited to—

(A) a new advanced lean burn technology motor vehicle (as defined in section 30B(c)(3) of the Internal Revenue Code of 1986) that achieves at least 125 percent of the model year 2002 city fuel economy;

(B) an alternative fueled automobile;

(C) a flexible fuel automobile;

(D) a new qualified fuel cell motor vehicle (as defined in section 30B(e)(4) of such Code).

(E) a new qualified hybrid motor vehicle (as defined in section 30B(d)(3) of such Code);

(F) a plug-in hybrid automobile;

(G) an electric automobile;

(H) a hydrogen internal combustion engine automobile;

(I) a diesel-fueled automobile; and

(J) any other automobile that uses substantially new technology and achieves at least 175 percent of the model year 2002 city fuel economy, as determined by the Secretary of Transportation, by regulation.

(2) OTHER TERMS.—Any term used in this section that is defined in section 32901 of title 49, United States Code, has the meaning given that term in that section.

SA 1860. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1712 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

TITLE V—CORPORATE AVERAGE FUEL ECONOMY STANDARDS

SEC. 501. SHORT TITLE.

This title may be cited as the ''Ten-in-Ten Fuel Economy Act''.

SEC. 502. AVERAGE FUEL ECONOMY STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.

(a) INCREASED STANDARDS.—Section 32902 of title 49, United States Code, is amended—

(1) by striking ''**NON-PASSENGER AUTOMOBILES**.—'' in subsection (a) and inserting

''**PRESCRIPTION OF STANDARDS BY REGULATION**.—'';

(2) by striking ''(except passenger automobiles)'' in subsection (a); and

(3) by striking subsection (b) and inserting the following:

''(b) STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.—

''(1) IN GENERAL.—The Secretary of Transportation, after consultation with the Administrator of the Environmental Protection Agency, shall prescribe average fuel economy standards for—

''(A) automobiles manufactured by manufacturers in each model year beginning with model year 2011 in accordance with subsection (c); and

''(B) commercial medium-duty or heavy-duty on-highway vehicles in accordance with subsection (k).

''(2) FUEL ECONOMY TARGET FOR AUTOMOBILES.—

''(A) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2011 THROUGH 2020.—The Secretary shall prescribe average fuel economy standards for automobiles in each model year beginning with model year 2011 to achieve a combined fuel economy average for model year 2020 of at least 35 miles per gallon for the fleet of automobiles manufactured or sold in the United States. The average fuel economy standards prescribed by the Secretary shall be the maximum feasible average fuel economy standards for model years 2011 through 2019.

''(B) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2021 THROUGH 2030.—For model years 2021 through 2030, the average fuel economy required to be attained by the fleet of automobiles manufactured or sold in the United States shall be the maximum feasible average fuel economy standard for the fleet.

''(C) PROGRESS TOWARD STANDARD REQUIRED.—In prescribing average fuel economy standards under subparagraph (A), the Secretary shall prescribe annual fuel economy standard increases that increase the applicable average fuel economy standard ratably beginning with model year 2011 and ending with model year 2020.''.

(b) FUEL ECONOMY TARGET FOR COMMERCIAL MEDIUM-DUTY AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—Section 32902 of title 49, United States Code, is amended by adding at the end thereof the following:

''(k) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—

''(1) STUDY.—No later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall examine the fuel efficiency of commercial medium- and heavy-duty on-highway vehicles and determine—

''(A) the appropriate test procedures and methodologies for measuring commercial medium- and heavy-duty on-highway vehicle fuel efficiency;

''(B) the appropriate metric for measuring and expressing commercial medium- and heavy-duty on-highway vehicle fuel efficiency performance, taking into consideration, among other things, the work performed by such on-highway vehicles and types of operations in which they are used;

''(C) the range of factors, including, without limitation, design, functionality, use, duty cycle, infrastructure, and total overall energy consumption and operating costs that effect commercial medium- and heavy-duty on-highway vehicle fuel efficiency; and

''(D) such other factors and conditions that could have an impact on a program to improve commercial medium- and heavy-duty on-highway vehicle fuel efficiency.

''(2) RULEMAKING.—No later than 24 months after completion of the study required by paragraph (1), the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, by regulation, shall determine in a rulemaking procedure how to implement a commercial medium- and heavy-duty on-highway vehicle fuel efficiency improvement program designed to achieve the maximum feasible improvement, and shall adopt appropriate test methods, measurement metrics, fuel economy standards, and compliance and enforcement protocols that are appropriate, cost-effective, and technologically feasible for commercial medium- and heavy-duty on-highway vehicles.

''(3) LEAD-TIME; REGULATORY STABILITY.—Any commercial medium- and heavy-duty on-highway vehicle fuel efficiency regulatory program adopted pursuant to this subsection shall provide no less than 4 full model years of regulatory lead-time and 3 full model years of regulatory stability.

''(4) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLE DEFINED.—In this subsection, the term 'commercial medium- and heavy-duty on-highway vehicle' means an on-highway vehicle with a gross vehicle weight rating of more than 8,500 pounds, and that, in the case of a vehicle with a gross vehicle weight rating of less than 10,000 pounds, is not an automobile.''.

(c) AUTHORITY OF SECRETARY.—Section 32902 of title 49, United States Code, as amended by subsection (b), is further amended by adding at the end thereof the following:

''(l) AUTHORITY OF THE SECRETARY.—

''(1) VEHICLE ATTRIBUTES.—The Secretary shall—

''(A) prescribe by regulation average fuel economy standards for automobiles based on vehicle attributes related to fuel economy and to express the standards in the form of a mathematical function; and

''(B) issue regulations under this title prescribing average fuel economy standards for 1 or more model years.

''(2) PROHIBITION OF UNIFORM PERCENTAGE INCREASE.—When the Secretary prescribes a standard, or prescribes an amendment under this section that changes a standard, the standard may not be expressed as a uniform percentage increase from the fuel-economy performance of attribute classes or categories already achieved in a model year by a manufacturer.''.

SEC. 503. AMENDING FUEL ECONOMY STANDARDS.

(a) IN GENERAL.—Section 32902(c) of title 49, United States Code, is amended to read as follows:

''(c) AMENDING FUEL ECONOMY STANDARDS.—Notwithstanding subsections (a) and (b), the Secretary of Transportation—

''(1) may prescribe a standard higher than that required under subsection (b); or

''(2) may prescribe an average fuel economy standard for automobiles that is the maximum feasible level for the model year, despite being lower than the standard required under subsection (b), if the Secretary determines, based on clear and convincing evidence, that the average fuel economy standard prescribed in accordance with subsections (a) and (b) for automobiles in that model year is shown not to be cost-effective.''.

(b) FEASIBILITY CRITERIA.—Section 32902(f) of title 49, United States Code, is amended to read as follows:

''(f) DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.—

''(1) IN GENERAL.—When deciding maximum feasible average fuel economy under this section, the Secretary shall consider—

''(A) economic practicability;

''(B) the effect of other motor vehicle standards of the Government on fuel economy;

''(C) environmental impacts; and

''(D) the need of the United States to conserve energy.

''(2) LIMITATIONS.—In setting any standard under subsection (b), (c), or (d), the Secretary shall ensure that each standard is the highest standard that—

''(A) is technologically achievable;

''(B) can be achieved without materially reducing the overall safety of automobiles manufactured or sold in the United States;

''(C) is not less than the standard for that class of vehicles from any prior year; and

''(D) is cost-effective.

''(3) COST-EFFECTIVE DEFINED.—In this subsection, the term 'cost-effective' means that the value to the United States of reduced fuel use from a proposed fuel economy standard is greater than or equal to the cost to the United States of such standard. In determining cost-effectiveness, the Secretary shall give priority to those technologies and packages of technologies that offer the largest reduction in fuel use relative to their costs.

''(4) FACTORS FOR CONSIDERATION BY SECRETARY IN DETERMINING COST-EFFECTIVENESS.—The Secretary shall consult with the Administrator of the Environmental Protection Agency, and may consult with such other departments and agencies as the Secretary deems appropriate, and shall consider in the analysis the following factors:

''(A) Economic security.

''(B) The impact of the oil or energy intensity of the United States economy on the sensitivity of the economy to oil and other fuel price changes, including the magnitude of gross domestic product losses in response to short term price shocks or long term price increases.

''(C) National security, including the impact of United States payments for oil and other fuel imports on political, economic, and military developments in unstable or unfriendly oil-exporting countries.

''(D) The uninternalized costs of pipeline and storage oil seepage, and for risk of oil spills from production, handling, and transport, and related landscape damage.

''(E) The emissions of pollutants including greenhouse gases over the lifecycle of the fuel and the resulting costs to human health, the economy, and the environment.

''(F) Such additional factors as the Secretary deems relevant.

''(5) MINIMUM VALUATION.—When considering the value to consumers of a gallon of gasoline saved, the Secretary of Transportation shall use as a minimum value the greater of—

''(A) the average value of gasoline prices projected by the Energy Information Administration over the period covered by the standard; or

''(B) the average value of gasoline prices for the 5-year period immediately preceding the year in which the standard is established.''.

(c) CONSULTATION REQUIREMENT.—Section 32902(i) of title 49, United States Code, is

amended by inserting ''and the Administrator of the Environmental Protection Agency'' after ''Energy''.

(d) COMMENTS.—Section 32902(j) of title 49, United States Code, is amended—

(1) by striking paragraph (1) and inserting ''(1) Before issuing a notice proposing to prescribe or amend an average fuel economy standard under subsection (b), (c), or (g) of this section, the Secretary of Transportation shall give the Secretary of Energy and Administrator of the Environmental Protection Agency at least 30 days after the receipt of the notice during which the Secretary of Energy and Administrator may, if the Secretary of Energy or Administrator concludes that the proposed standard would adversely affect the conservation goals of the Secretary of Energy or environmental protection goals of the Administrator, provide written comments to the Secretary of Transportation about the impact of the standard on those goals. To the extent the Secretary of Transportation does not revise a proposed standard to take into account comments of the Secretary of Energy or Administrator on any adverse impact of the standard, the Secretary of Transportation shall include those comments in the notice.''; and

(2) by inserting ''and the Administrator'' after ''Energy'' each place it appears in paragraph (2).

(e) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Section 32902(d) of title 49, United States Code, is amended by striking ''passenger'' each place it appears.

(2) Section 32902(g) of title 49, United States Code, is amended—

(A) by striking ''subsection (a) or (d)'' each place it appears in paragraph (1) and inserting ''subsection (b), (c), or (d)''; and

(B) striking ''(and submit the amendment to Congress when required under subsection (c)(2) of this section)'' in paragraph (2).

SEC. 504. DEFINITIONS.

(a) IN GENERAL.—Section 32901(a) of title 49, United States Code, is amended—

(1) by striking paragraph (3) and inserting the following:

''(3) except as provided in section 32908 of this title, 'automobile' means a 4-wheeled vehicle that is propelled by fuel, or by alternative fuel, manufactured primarily for use on public streets, roads, and highways and rated at not more than 10,000 pounds gross vehicle weight, except—

''(A) a vehicle operated only on a rail line;

''(B) a vehicle manufactured by 2 or more manufacturers in different stages and less than 10,000 of which are manufactured per year; or

''(C) a work truck.''; and

(2) by adding at the end the following:

''(17) 'work truck' means an automobile that the Secretary determines by regulation—

''(A) is rated at between 8,500 and 10,000 pounds gross vehicle weight; and

''(B) is not a medium-duty passenger vehicle (as defined in section 86.1803–01 of title 40, Code of Federal Regulations).''.

(b) DEADLINE FOR REGULATIONS.—The Secretary of Transportation—

(1) shall issue proposed regulations implementing the amendments made by subsection (a) not later than 1 year after the date of enactment of this Act; and

(2) shall issue final regulations implementing the amendments not later than 18 months after the date of the enactment of this Act.

(c) EFFECTIVE DATE.—Regulations prescribed under subsection (b) shall apply beginning with model year 2010.

SEC. 505. ENSURING SAFETY OF AUTOMOBILES.

(a) IN GENERAL.—Subchapter II of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

''§ 30129. Vehicle compatibility standard

''(a) STANDARDS.—The Secretary of Transportation shall issue a motor vehicle safety standard to reduce automobile incompatibility. The standard shall address characteristics necessary to ensure better management of crash forces in multiple vehicle frontal and side impact crashes between different types, sizes, and weights of automobiles with a gross vehicle weight of 10,000 pounds or less in order to decrease occupant deaths and injuries.

''(b) CONSUMER INFORMATION.—The Secretary shall develop and implement a public information side and frontal compatibility crash test program with vehicle ratings based on risks to occupants, risks to other motorists, and combined risks by vehicle make and model.''.

(b) RULEMAKING DEADLINES.—

(1) RULEMAKING.—The Secretary of Transportation shall issue—

(A) a notice of a proposed rulemaking under section 30129 of title 49, United States Code, not later than January 1, 2012; and

(B) a final rule under such section not later than December 31, 2014.

(2) EFFECTIVE DATE OF REQUIREMENTS.—Any requirement imposed under the final rule issued under paragraph (1) shall become fully effective not later than September 1, 2018.

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 301 is amended by inserting after the item relating to section 30128 the following:

''30129. Vehicle compatibility standard''.

SEC. 506. CREDIT TRADING PROGRAM.

Section 32903 of title 49, United States Code, is amended—

(1) by striking ''passenger'' each place it appears;

(2) by striking ''section 32902(b)–(d) of this title'' each place it appears and inserting ''subsection (a), (c), or (d) of section 32902'';

(3) by striking ''3 consecutive model years'' in subsection (a)(2) and inserting ''5 consecutive model years'';

(4) in subsection (a)(2), by striking ''clause (1) of this subsection,'' and inserting ''paragraph (1)''; and

(5) by striking subsection (e) and inserting the following:

''(e) CREDIT TRADING AMONG MANUFACTURERS.—The Secretary of Transportation may establish, by regulation, a corporate average fuel economy credit trading program to allow manufacturers whose automobiles exceed the average fuel economy standards prescribed under section 32902 to earn credits to be sold to manufacturers whose automobiles fail to achieve the prescribed standards such that the total oil savings associated with manufacturers that exceed the prescribed standards are preserved when transferring credits to manufacturers that fail to achieve the prescribed standards.''.

SEC. 507. LABELS FOR FUEL ECONOMY AND GREENHOUSE GAS EMISSIONS.

Section 32908 of title 49, United States Code, is amended—

(1) by redesignating subparagraph (F) of subsection (b)(1) as subparagraph (H) and inserting after subparagraph (E) the following:

''(F) a label (or a logo imprinted on a label required by this paragraph) that—

''(i) reflects an automobile's performance on the basis of criteria developed by the Administrator to reflect the fuel economy and greenhouse gas and other emissions consequences of operating the automobile over its likely useful life;

''(ii) permits consumers to compare performance results under clause (i) among all automobiles; and

''(iii) is designed to encourage the manufacture and sale of automobiles that meet or exceed applicable fuel economy standards under section 32902.

''(G) a fuelstar under paragraph (5).''; and

(2) by adding at the end of subsection (b) the following:

''(4) GREEN LABEL PROGRAM.—

''(A) MARKETING ANALYSIS.—Not later than 2 years after the date of the enactment of the Ten-in-Ten Fuel Economy Act, the Administrator shall implement a consumer education program and execute marketing strategies to improve consumer understanding of automobile performance described in paragraph (1)(F).

''(B) ELIGIBILITY.—Not later than 3 years after the date described in subparagraph (A), the Administrator shall issue requirements for the label or logo required under paragraph (1)(F) to ensure that an automobile is not eligible for the label or logo unless it—

''(i) meets or exceeds the applicable fuel economy standard; or

''(ii) will have the lowest greenhouse gas emissions over the useful life of the vehicle of all vehicles in the vehicle attribute class to which it belongs in that model year.

''(5) FUELSTAR PROGRAM.—

''(A) IN GENERAL.—The Secretary shall establish a program, to be known as the 'Fuelstar Program', under which stars shall be imprinted on or attached to the label required by paragraph (1).

''(B) GREEN STARS.—Under the Fuelstar Program, a manufacturer may include on the label maintained on an automobile under paragraph (1)—

''(i) 1 green star for any automobile that meets the average fuel economy standard for the model year under section 32902; and

''(ii) 1 additional green star for each 2 miles per gallon by which the automobile exceeds such standard.

''(C) GOLD STARS.—Under the Fuelstar Program, a manufacturer may include a gold star on the label maintained on an automobile under paragraph (1) if the automobile attains a fuel economy of at least 50 miles per gallon.''.

SEC. 508. CONTINUED APPLICABILITY OF EXISTING STANDARDS.

Nothing in this title, or the amendments made by this title, shall be construed to affect the application of section 32902 of title 49, United States Code, to passenger automobiles or non-passenger automobiles manufactured before model year 2011.

SEC. 509. NATIONAL ACADEMY OF SCIENCES STUDIES.

(a) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary of Transportation shall execute an agreement with the National Academy of Sciences to develop a report evaluating vehicle fuel economy standards, including—

(1) an assessment of automotive technologies and costs to reflect developments since the Academy's 2002 report evaluating the corporate average fuel economy standards was conducted;

(2) an analysis of existing and potential technologies that may be used practically to improve automobile and medium-duty and heavy-duty truck fuel economy;

(3) an analysis of how such technologies may be practically integrated into the automotive and medium-duty and heavy-duty truck manufacturing process; and

(4) an assessment of how such technologies may be used to meet the new fuel economy standards under chapter 329 of title 49, United States Code, as amended by this title.

(b) QUINQUENNIAL UPDATES.—After submitting the initial report, the Academy shall update the report at 5 year intervals thereafter through 2025.

(c) REPORT.—The Academy shall submit the report to the Secretary, the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce, with its findings and recommendations no later than 18 months after the date on which the Secretary executes the agreement with the Academy.

SEC. 510. STANDARDS FOR EXECUTIVE AGENCY AUTOMOBILES.

(a) IN GENERAL.—Section 32917 of title 49, United States Code, is amended to read as follows:

''§ 32917. Standards for Executive agency automobiles

''(a) FUEL EFFICIENCY.—The head of an Executive agency shall ensure that each new automobile procured by the Executive agency is as fuel efficient as practicable.

''(b) DEFINITIONS.—In this section:

''(1) EXECUTIVE AGENCY.—The term 'Executive agency' has the meaning given that term in section 105 of title 5.

''(2) NEW AUTOMOBILE.—The term 'new automobile', with respect to the fleet of automobiles of an executive agency, means an automobile that is leased for at least 60 consecutive days or bought, by or for the Executive agency, after September 30, 2008. The term does not include any vehicle designed for combat-related missions, law enforcement work, or emergency rescue work.''.

(b) REPORT.—The Administrator of the General Services Administration shall develop a report describing and evaluating the efforts of the heads of the Executive agencies to comply with section 32917 of title 49, United States Code, for fiscal year 2009. The Administrator shall submit the report to Congress no later than December 31, 2009.

SEC. 511. ALTERNATIVE FUEL VEHICLE ACTION PLAN.

(a) IN GENERAL.—The Secretary of Transportation shall establish and implement an action plan which takes into consideration the availability of alternative fuel and cost effectiveness of technologies, which will ensure that, beginning with model year 2015, the percentage of new automobiles for sale in the United States that are alternative fuel automobiles is not less than 50 percent.

(b) DEFINITIONS.—In this section:

(1) ALTERNATIVE FUEL AUTOMOBILE.—The term ''alternative fuel automobile'' means the following, but is not limited to—

(A) a new advanced lean burn technology motor vehicle (as defined in section 30B(c)(3) of the Internal Revenue Code of 1986) that achieves at least 125 percent of the model year 2002 city fuel economy;

(B) an alternative fueled automobile;

(C) a flexible fuel automobile;

(D) a new qualified fuel cell motor vehicle (as defined in section 30B(e)(4) of such Code).

(E) a new qualified hybrid motor vehicle (as defined in section 30B(d)(3) of such Code);

(F) a plug-in hybrid automobile;

(G) an electric automobile;

(H) a hydrogen internal combustion engine automobile;

(I) a diesel-fueled automobile; and

(J) any other automobile that uses substantially new technology and achieves at least 175 percent of the model year 2002 city fuel economy, as determined by the Secretary of Transportation, by regulation.

(2) OTHER TERMS.—Any term used in this section that is defined in section 32901 of title 49, United States Code, has the meaning given that term in that section.

SA 1861. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1713 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

TITLE V—CORPORATE AVERAGE FUEL ECONOMY STANDARDS

SEC. 501. SHORT TITLE.

This title may be cited as the ''Ten-in-Ten Fuel Economy Act''.

SEC. 502. AVERAGE FUEL ECONOMY STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.

(a) INCREASED STANDARDS.—Section 32902 of title 49, United States Code, is amended—

(1) by striking ''**NON-PASSENGER AUTOMOBILES**.—'' in subsection (a) and inserting ''**PRESCRIPTION OF STANDARDS BY REGULATION**.—'';

(2) by striking ''(except passenger automobiles)'' in subsection (a); and

(3) by striking subsection (b) and inserting the following:

''(b) STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.—

''(1) IN GENERAL.—The Secretary of Transportation, after consultation with the Administrator of the Environmental Protection Agency, shall prescribe average fuel economy standards for—

''(A) automobiles manufactured by manufacturers in each model year beginning with model year 2011 in accordance with subsection (c); and

''(B) commercial medium-duty or heavy-duty on-highway vehicles in accordance with subsection (k).

''(2) FUEL ECONOMY TARGET FOR AUTOMOBILES.—

''(A) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2011 THROUGH 2020.—The Secretary shall prescribe average fuel economy standards for automobiles in each model year beginning with model year 2011 to achieve a combined fuel economy average for model year 2020 of at least 35 miles per gallon for the fleet of automobiles manufactured or sold in the United States. The average fuel economy standards prescribed by the Secretary shall be the maximum feasible average fuel economy standards for model years 2011 through 2019.

''(B) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2021 THROUGH 2030.—For model years 2021 through 2030, the average fuel economy required to be attained by the fleet of automobiles manufactured or sold in the United States shall be the maximum feasible average fuel economy standard for the fleet.

''(C) PROGRESS TOWARD STANDARD REQUIRED.—In prescribing average fuel economy standards under subparagraph (A), the Secretary shall prescribe annual fuel economy standard increases that increase the applicable average fuel economy standard ratably beginning with model year 2011 and ending with model year 2020.''.

(b) FUEL ECONOMY TARGET FOR COMMERCIAL MEDIUM-DUTY AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—Section 32902 of title 49, United States Code, is amended by adding at the end thereof the following:

''(k) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—

''(1) STUDY.—No later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall examine the fuel efficiency of commercial medium- and heavy-duty on-highway vehicles and determine—

''(A) the appropriate test procedures and methodologies for measuring commercial medium- and heavy-duty on-highway vehicle fuel efficiency;

''(B) the appropriate metric for measuring and expressing commercial medium- and heavy-duty on-highway vehicle fuel efficiency performance, taking into consideration, among other things, the work performed by such on-highway vehicles and types of operations in which they are used;

''(C) the range of factors, including, without limitation, design, functionality, use, duty cycle, infrastructure, and total overall energy consumption and operating costs that effect commercial medium- and heavy-duty on-highway vehicle fuel efficiency; and

''(D) such other factors and conditions that could have an impact on a program to improve commercial medium- and heavy-duty on-highway vehicle fuel efficiency.

''(2) RULEMAKING.—No later than 24 months after completion of the study required by paragraph (1), the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, by regulation, shall determine in a rulemaking procedure how to implement a commercial medium- and heavy-duty on-highway vehicle fuel efficiency improvement program designed to achieve the maximum feasible improvement, and shall adopt appropriate test methods, measurement metrics, fuel economy standards, and compliance and enforcement protocols that are appropriate, cost-effective, and technologically feasible for commercial medium- and heavy-duty on-highway vehicles.

''(3) LEAD-TIME; REGULATORY STABILITY.—Any commercial medium- and heavy-duty on-highway vehicle fuel efficiency regulatory program adopted pursuant to this subsection shall provide no less than 4 full model years of regulatory lead-time and 3 full model years of regulatory stability.

''(4) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLE DEFINED.—In this subsection, the term 'commercial medium- and heavy-duty on-highway vehicle' means an on-highway vehicle with a gross vehicle weight rating of more than 8,500 pounds, and that, in the case of a vehicle with a gross vehicle weight rating of less than 10,000 pounds, is not an automobile.''.

(c) AUTHORITY OF SECRETARY.—Section 32902 of title 49, United States Code, as amended by subsection (b), is further amended by adding at the end thereof the following:

''(l) AUTHORITY OF THE SECRETARY.—

''(1) VEHICLE ATTRIBUTES.—The Secretary shall—

''(A) prescribe by regulation average fuel economy standards for automobiles based on vehicle attributes related to fuel economy and to express the standards in the form of a mathematical function; and

''(B) issue regulations under this title prescribing average fuel economy standards for 1 or more model years.

''(2) PROHIBITION OF UNIFORM PERCENTAGE INCREASE.—When the Secretary prescribes a standard, or prescribes an amendment under this section that changes a standard, the standard may not be expressed as a uniform percentage increase from the fuel-economy performance of attribute classes or categories already achieved in a model year by a manufacturer.''.

SEC. 503. AMENDING FUEL ECONOMY STANDARDS.

(a) IN GENERAL.—Section 32902(c) of title 49, United States Code, is amended to read as follows:

''(c) AMENDING FUEL ECONOMY STANDARDS.—Notwithstanding subsections (a) and (b), the Secretary of Transportation—

''(1) may prescribe a standard higher than that required under subsection (b); or

''(2) may prescribe an average fuel economy standard for automobiles that is the maximum feasible level for the model year, despite being lower than the standard required under subsection (b), if the Secretary determines, based on clear and convincing evidence, that the average fuel economy standard prescribed in accordance with subsections (a) and (b) for automobiles in that model year is shown not to be cost-effective.''.

(b) FEASIBILITY CRITERIA.—Section 32902(f) of title 49, United States Code, is amended to read as follows:

''(f) DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.—

''(1) IN GENERAL.—When deciding maximum feasible average fuel economy under this section, the Secretary shall consider—

''(A) economic practicability;

''(B) the effect of other motor vehicle standards of the Government on fuel economy;

''(C) environmental impacts; and

''(D) the need of the United States to conserve energy.

''(2) LIMITATIONS.—In setting any standard under subsection (b), (c), or (d), the Secretary shall ensure that each standard is the highest standard that—

''(A) is technologically achievable;

''(B) can be achieved without materially reducing the overall safety of automobiles manufactured or sold in the United States;

''(C) is not less than the standard for that class of vehicles from any prior year; and

''(D) is cost-effective.

''(3) COST-EFFECTIVE DEFINED.—In this subsection, the term 'cost-effective' means that the value to the United States of reduced fuel use from a proposed fuel economy standard is greater than or equal to the cost to the United States of such standard. In determining cost-effectiveness, the Secretary shall give priority to those technologies and packages of technologies that offer the largest reduction in fuel use relative to their costs.

''(4) FACTORS FOR CONSIDERATION BY SECRETARY IN DETERMINING COST-EFFECTIVENESS.—The Secretary shall consult with the Administrator of the Environmental Protection Agency, and may consult with such other departments and agencies as the Secretary deems appropriate, and shall consider in the analysis the following factors:

''(A) Economic security.

''(B) The impact of the oil or energy intensity of the United States economy on the sensitivity of the economy to oil and other fuel price changes, including the magnitude of gross domestic product losses in response to short term price shocks or long term price increases.

''(C) National security, including the impact of United States payments for oil and other fuel imports on political, economic, and military developments in unstable or unfriendly oil-exporting countries.

''(D) The uninternalized costs of pipeline and storage oil seepage, and for risk of oil spills from production, handling, and transport, and related landscape damage.

''(E) The emissions of pollutants including greenhouse gases over the lifecycle of the fuel and the resulting costs to human health, the economy, and the environment.

''(F) Such additional factors as the Secretary deems relevant.

''(5) MINIMUM VALUATION.—When considering the value to consumers of a gallon of gasoline saved, the Secretary of Transportation shall use as a minimum value the greater of—

''(A) the average value of gasoline prices projected by the Energy Information Administration over the period covered by the standard; or

''(B) the average value of gasoline prices for the 5-year period immediately preceding the year in which the standard is established.''.

(c) CONSULTATION REQUIREMENT.—Section 32902(i) of title 49, United States Code, is amended by inserting ''and the Administrator of the Environmental Protection Agency'' after ''Energy''.

(d) COMMENTS.—Section 32902(j) of title 49, United States Code, is amended—

(1) by striking paragraph (1) and inserting ''(1) Before issuing a notice proposing to prescribe or amend an average fuel economy standard under subsection (b), (c), or (g) of this section, the Secretary of Transportation shall give the Secretary of Energy and Administrator of the Environmental Protection Agency at least 30 days after the receipt of the notice during which the Secretary of Energy and Administrator may, if the Secretary of Energy or Administrator concludes that the proposed standard would adversely affect the conservation goals of the Secretary of Energy or environmental protection goals of the Administrator, provide written comments to the Secretary of Transportation about the impact of the standard on those goals. To the extent the Secretary of Transportation does not revise a proposed standard to take into account comments of the Secretary of Energy or Administrator on any adverse impact of the standard, the Secretary of Transportation shall include those comments in the notice.''; and

(2) by inserting ''and the Administrator'' after ''Energy'' each place it appears in paragraph (2).

(e) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Section 32902(d) of title 49, United States Code, is amended by striking ''passenger'' each place it appears.

(2) Section 32902(g) of title 49, United States Code, is amended—

(A) by striking ''subsection (a) or (d)'' each place it appears in paragraph (1) and inserting ''subsection (b), (c), or (d)''; and

(B) striking ''(and submit the amendment to Congress when required under subsection (c)(2) of this section)'' in paragraph (2).

SEC. 504. DEFINITIONS.

(a) IN GENERAL.—Section 32901(a) of title 49, United States Code, is amended—

(1) by striking paragraph (3) and inserting the following:

''(3) except as provided in section 32908 of this title, 'automobile' means a 4-wheeled vehicle that is propelled by fuel, or by alternative fuel, manufactured primarily for use on public streets, roads, and highways and rated at not more than 10,000 pounds gross vehicle weight, except—

''(A) a vehicle operated only on a rail line;

''(B) a vehicle manufactured by 2 or more manufacturers in different stages and less than 10,000 of which are manufactured per year; or

''(C) a work truck.''; and

(2) by adding at the end the following:

''(17) 'work truck' means an automobile that the Secretary determines by regulation—

''(A) is rated at between 8,500 and 10,000 pounds gross vehicle weight; and

''(B) is not a medium-duty passenger vehicle (as defined in section 86.1803–01 of title 40, Code of Federal Regulations).''.

(b) DEADLINE FOR REGULATIONS.—The Secretary of Transportation—

(1) shall issue proposed regulations implementing the amendments made by subsection (a) not later than 1 year after the date of enactment of this Act; and

(2) shall issue final regulations implementing the amendments not later than 18 months after the date of the enactment of this Act.

(c) EFFECTIVE DATE.—Regulations prescribed under subsection (b) shall apply beginning with model year 2010.

SEC. 505. ENSURING SAFETY OF AUTOMOBILES.

(a) IN GENERAL.—Subchapter II of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

''§ 30129. Vehicle compatibility standard

''(a) STANDARDS.—The Secretary of Transportation shall issue a motor vehicle safety standard to reduce automobile incompatibility. The standard shall address characteristics necessary to ensure better management of crash forces in multiple vehicle frontal and side impact crashes between different types, sizes, and weights of automobiles with a gross vehicle weight of 10,000 pounds or less in order to decrease occupant deaths and injuries.

''(b) CONSUMER INFORMATION.—The Secretary shall develop and implement a public information side and frontal compatibility crash test program with vehicle ratings based on risks to occupants, risks to other motorists, and combined risks by vehicle make and model.''.

(b) RULEMAKING DEADLINES.—

(1) RULEMAKING.—The Secretary of Transportation shall issue—

(A) a notice of a proposed rulemaking under section 30129 of title 49, United States Code, not later than January 1, 2012; and

(B) a final rule under such section not later than December 31, 2014.

(2) EFFECTIVE DATE OF REQUIREMENTS.—Any requirement imposed under the final rule issued under paragraph (1) shall become fully effective not later than September 1, 2018.

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 301 is amended by inserting after the item relating to section 30128 the following:

''30129. Vehicle compatibility standard''.

SEC. 506. CREDIT TRADING PROGRAM.

Section 32903 of title 49, United States Code, is amended—

(1) by striking ''passenger'' each place it appears;

(2) by striking ''section 32902(b)–(d) of this title'' each place it appears and inserting ''subsection (a), (c), or (d) of section 32902'';

(3) by striking ''3 consecutive model years'' in subsection (a)(2) and inserting ''5 consecutive model years'';

(4) in subsection (a)(2), by striking ''clause (1) of this subsection,'' and inserting ''paragraph (1)''; and

(5) by striking subsection (e) and inserting the following:

''(e) CREDIT TRADING AMONG MANUFACTURERS.—The Secretary of Transportation may establish, by regulation, a corporate average fuel economy credit trading program to allow manufacturers whose automobiles exceed the average fuel economy standards prescribed under section 32902 to earn credits to be sold to manufacturers whose automobiles fail to achieve the prescribed standards such that the total oil savings associated with manufacturers that exceed the prescribed standards are preserved when transferring credits to manufacturers that fail to achieve the prescribed standards.''.

SEC. 507. LABELS FOR FUEL ECONOMY AND GREENHOUSE GAS EMISSIONS.

Section 32908 of title 49, United States Code, is amended—

(1) by redesignating subparagraph (F) of subsection (b)(1) as subparagraph (H) and inserting after subparagraph (E) the following:

''(F) a label (or a logo imprinted on a label required by this paragraph) that—

''(i) reflects an automobile's performance on the basis of criteria developed by the Administrator to reflect the fuel economy and greenhouse gas and other emissions consequences of operating the automobile over its likely useful life;

''(ii) permits consumers to compare performance results under clause (i) among all automobiles; and

''(iii) is designed to encourage the manufacture and sale of automobiles that meet or exceed applicable fuel economy standards under section 32902.

''(G) a fuelstar under paragraph (5).''; and

(2) by adding at the end of subsection (b) the following:

''(4) GREEN LABEL PROGRAM.—

''(A) MARKETING ANALYSIS.—Not later than 2 years after the date of the enactment of the Ten-in-Ten Fuel Economy Act, the Administrator shall implement a consumer education program and execute marketing strategies to improve consumer understanding of automobile performance described in paragraph (1)(F).

''(B) ELIGIBILITY.—Not later than 3 years after the date described in subparagraph (A), the Administrator shall issue requirements for the label or logo required under paragraph (1)(F) to ensure that an automobile is not eligible for the label or logo unless it—

''(i) meets or exceeds the applicable fuel economy standard; or

''(ii) will have the lowest greenhouse gas emissions over the useful life of the vehicle of all vehicles in the vehicle attribute class to which it belongs in that model year.

''(5) FUELSTAR PROGRAM.—

''(A) IN GENERAL.—The Secretary shall establish a program, to be known as the 'Fuelstar Program', under which stars shall be imprinted on or attached to the label required by paragraph (1).

''(B) GREEN STARS.—Under the Fuelstar Program, a manufacturer may include on the label maintained on an automobile under paragraph (1)—

''(i) 1 green star for any automobile that meets the average fuel economy standard for the model year under section 32902; and

''(ii) 1 additional green star for each 2 miles per gallon by which the automobile exceeds such standard.

''(C) GOLD STARS.—Under the Fuelstar Program, a manufacturer may include a gold star on the label maintained on an automobile under paragraph (1) if the automobile attains a fuel economy of at least 50 miles per gallon.''.

SEC. 508. CONTINUED APPLICABILITY OF EXISTING STANDARDS.

Nothing in this title, or the amendments made by this title, shall be construed to affect the application of section 32902 of title 49, United States Code, to passenger automobiles or non-passenger automobiles manufactured before model year 2011.

SEC. 509. NATIONAL ACADEMY OF SCIENCES STUDIES.

(a) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary of Transportation shall execute an agreement with the National Academy of Sciences to develop a report evaluating vehicle fuel economy standards, including—

(1) an assessment of automotive technologies and costs to reflect developments since the Academy's 2002 report evaluating the corporate average fuel economy standards was conducted;

(2) an analysis of existing and potential technologies that may be used practically to improve automobile and medium-duty and heavy-duty truck fuel economy;

(3) an analysis of how such technologies may be practically integrated into the automotive and medium-duty and heavy-duty truck manufacturing process; and

(4) an assessment of how such technologies may be used to meet the new fuel economy standards under chapter 329 of title 49, United States Code, as amended by this title.

(b) QUINQUENNIAL UPDATES.—After submitting the initial report, the Academy shall update the report at 5 year intervals thereafter through 2025.

(c) REPORT.—The Academy shall submit the report to the Secretary, the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce, with its findings and recommendations no later than 18 months after the date on which the Secretary executes the agreement with the Academy.

SEC. 510. STANDARDS FOR EXECUTIVE AGENCY AUTOMOBILES.

(a) IN GENERAL.—Section 32917 of title 49, United States Code, is amended to read as follows:

''§ 32917. Standards for Executive agency automobiles

''(a) FUEL EFFICIENCY.—The head of an Executive agency shall ensure that each new automobile procured by the Executive agency is as fuel efficient as practicable.

''(b) DEFINITIONS.—In this section:

''(1) EXECUTIVE AGENCY.—The term 'Executive agency' has the meaning given that term in section 105 of title 5.

''(2) NEW AUTOMOBILE.—The term 'new automobile', with respect to the fleet of automobiles of an executive agency, means an automobile that is leased for at least 60 consecutive days or bought, by or for the Executive agency, after September 30, 2008. The term does not include any vehicle designed for combat-related missions, law enforcement work, or emergency rescue work.''.

(b) REPORT.—The Administrator of the General Services Administration shall develop a report describing and evaluating the efforts of the heads of the Executive agencies to comply with section 32917 of title 49, United States Code, for fiscal year 2009. The Administrator shall submit the report to Congress no later than December 31, 2009.

SEC. 511. ALTERNATIVE FUEL VEHICLE ACTION PLAN.

(a) IN GENERAL.—The Secretary of Transportation shall establish and implement an action plan which takes into consideration the availability of alternative fuel and cost effectiveness of technologies, which will ensure that, beginning with model year 2015, the percentage of new automobiles for sale in the United States that are alternative fuel automobiles is not less than 50 percent.

(b) DEFINITIONS.—In this section:

(1) ALTERNATIVE FUEL AUTOMOBILE.—The term ''alternative fuel automobile'' means the following, but is not limited to—

(A) a new advanced lean burn technology motor vehicle (as defined in section 30B(c)(3) of the Internal Revenue Code of 1986) that achieves at least 125 percent of the model year 2002 city fuel economy;

(B) an alternative fueled automobile;

(C) a flexible fuel automobile;

(D) a new qualified fuel cell motor vehicle (as defined in section 30B(e)(4) of such Code).

(E) a new qualified hybrid motor vehicle (as defined in section 30B(d)(3) of such Code);

(F) a plug-in hybrid automobile;

(G) an electric automobile;

(H) a hydrogen internal combustion engine automobile;

(I) a diesel-fueled automobile; and

(J) any other automobile that uses substantially new technology and achieves at least 175 percent of the model year 2002 city fuel economy, as determined by the Secretary of Transportation, by regulation.

(2) OTHER TERMS.—Any term used in this section that is defined in section 32901 of title 49, United States Code, has the meaning given that term in that section.

SA 1862. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 3, strike lines 5 through 12, and insert the following:

(3) CATCH AND RETURN.—The Department of Homeland Security is detaining all removable aliens apprehended crossing the southern border, except as specifically mandated by law, and United States Immigration and Customs Enforcement (ICE) has the resources to maintain this practice, including resources to detain up to 45,000 aliens per day on an annual basis.

SA 1863. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

Strike the first title VI (relating to Nonimmigrants in the United States previously in unlawful status).

SA 1864. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 2, line 26, strike ''20,000'' and insert ''23,000''

SA 1865. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform

and for other purposes; which was ordered to lie on the table; as follows:

At the end of section 1, insert the following:

(e) SECURE FENCE ACT OF 2007.—Notwithstanding subsection (a) or any other provision of law, this Act and the amendments made by this Act shall not take effect until the President certifies to the Congress that the Secretary of Homeland Security has taken all actions necessary to comply with the provisions of, and the amendments made by, the Secure Fence Act of 2006 (Public Law 109-367; 120 Stat. 2638), including completing the installation of all fencing and barriers required by such provisions and amendments.

SA 1866. Mr. VITTER submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 2, beginning on line 5, strike ''the probationary benefits conferred by section 601(h),''

NOTICE OF HEARING

COMMITTEE ON SMALL BUSINESS AND ENTREPRENEURSHIP

Mr. KERRY. Mr. President. I would like to inform the Members that the Committee on Small Business and Entrepreneurship will hold a public markup of S. 1671, ''Entrepreneurial Development Act of 2007,'' S. 1622 ''Small Business Venture Capital Act of 2007,'' and other pending business on Tuesday, June 26, 2007 at 10. a.m. in room 428A of the Russell Senate Office Building.

AUTHORITY FOR COMMITTEES TO MEET

AD HOC SUBCOMMITTEE ON STATE, LOCAL, AND PRIVATE SECTOR PREPAREDNESS AND INTEGRATION

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Ad Hoc Subcommittee on State, Local, and Private Sector Preparedness and Integration of the Committee on Homeland Security and Governmental Affairs be authorized to meet on Thursday, June 21, 2007, at 2 p.m. in order to conduct a hearing entitled ''Private Sector Preparedness I—defining the problem and proposing solutions.''

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ARMED SERVICES

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet during the session of the Senate on Thursday, June 21, 2007, at 9:30 a.m., in closed session to mark up, under sequential referrel, S. 1538, the Intelligence Authorization Act for Fiscal Year 2008, and to consider certain military nominations pending before the committee.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on June 21, 2007, at 10 a.m., in order to conduct a hearing entitled ''Working towards ending homelessness: Reauthorization of the McKinney-Vento Homeless Assistance Act.''

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to hold a hearing during the session of the Senate on Thursday, June 21, 2007, at 10 a.m., in room 253 of the Russell Senate Office Building.

The hearing will focus on legislation introduced by Sen. BILL NELSON (D–FL), S. 704, the Truth in Caller ID Act of 2007, to protect consumers from deceptive practices involving caller identification information also known as caller ID ''spoofing.'' The hearing will also address issues related to the ability of consumers to port telephone numbers between competing voice service providers.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to hold a hearing during the session of the Senate on Thursday, June 21, 2007, at 2:30 p.m., in room 253 of the Russell Senate Office Building.

The hearing will consider currently available technologies, and both State-sponsored and corporate programs that reduce total energy use and decrease greenhouse gas emissions.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FINANCE

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on Thursday, June 21, 2007, at 10 a.m., in 215 Dirksen Senate Office Building, in order to hear testimony on ''Barriers to work for individuals receiving social security disability benefits.''

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Thursday, June 21, 2007, at 9:30 a.m. to hold a hearing on a strategic assessment of U.S.-Russian relations.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Thursday, June 21, 2007, at 2 p.m. to hold a nomination hearing.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON INDIAN AFFAIRS

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Committee on Indian Affairs be authorized to meet on Thursday, June 21, 2007, at 9:30 a.m., in room 485 of the Russell Senate Office Building, in order to conduct an oversight hearing on law enforcement in Indian country.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Senate Committee on the Judiciary be authorized to meet in order to conduct a hearing entitled ''Civil Rights Division Oversight'' on Thursday, June 21, 2007 at 2:00 p.m. in Dirksen Senate Office Building room 226. Witness list:

Panel I: Wan Kim, Assistant Attorney General, Civil Rights Division, U.S. Department of Justice, Washington, DC.

Panel II: Wade Henderson, President and CEO, Leadership Conference on Civil Rights, Washington, DC.

Brian Landsberg, Professor, McGeorge School of Law, University of the Pacific, Sacramento, CA.

Helen Norton, Visiting Assistant Professor, School of Law, University of Maryland, Baltimore, MD.

Roger Clegg, President and General Counsel, Center for Equal Opportunity, Falls Church, VA.

Robert N. Driscoll, Partner, Alston & Bird LLP, Washington, DC.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet in order to conduct a markup hearing on Thursday, June 21, 2007, at 10 a.m. in Dirksen Room 226.

Agenda

I. Committee Authorization: Authorization of Subpoenas in Connection with Investigation of Legal Basis for Warrantless Wiretap Program.

II. Bills: S. 1145, Patent Reform Act of 2007 (Leahy, Hatch, Schumer, Cornyn, Whitehouse).

III. Nominations: Leslie Southwick to be United States Circuit Judge for the Fifth Circuit.

IV. Resolutions: S. Res. 230, Designating July as National Teen Safe Driver Month (Isakson); S. Res. 235, Designating July 1, 2007, as ''National

Boating Day'' (Whitehouse, Vitter); S. Res. 225, Designating the month of August 2007 as ''National Medicine Abuse Awareness Month'' (Biden, Grassley).

THE PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON SMALL BUSINESS AND ENTREPRENEURSHIP

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Committee on Small Business and Entrepreneurship be authorized to meet during the session of the Senate in order to conduct a roundtable entitled ''SBA Reauthorization: Small Business Venture Capital Programs,'' on Thursday, June 21, 2007, beginning at 10 a.m. in room 428A of the Russell Senate Office Building.

THE PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INTELLIGENCE

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on June 21, 2007 at 2:30 p.m. to hold a closed hearing.

The PRESIDING OFFICER. Without objection, it is so ordered.

SPECIAL COMMITTEE ON AGING

Ms. MIKULSKI. Mr. President, I ask unanimous consent that the Special Committee on Aging be authorized to meet today, Thursday, June 21, 2007 from 11 a.m.–12:30 p.m. in Russell 325 for the purpose of conducting a hearing. The hearing will be concerning: America's farming population.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. BINGAMAN. I ask unanimous consent that Mark Wenzel, a fellow in Senator DODD's office, be granted the privileges of the floor during the pendency of H.R. 6.

The PRESIDING OFFICER. Without objection, it is so ordered.

REMOVAL OF INJUNCTION OF SECRECY—TREATY DOCUMENT NO. 110–3

Ms. KLOBUCHAR. Mr. President, as in executive session, I ask unanimous consent that the injunction of secrecy be removed from the following treaty transmitted to the Senate on June 21, 2007, by the President of the United States: Tax Convention with Belgium, Treaty Document No. 110–3.

I further ask unanimous consent that the treaty be considered as having been read the first time, that it be referred, with accompanying papers, to the Committee on Foreign Relations and ordered to be printed, and that the President's message be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The message of the President is as follows:

To the Senate of the United States:

I transmit herewith, for Senate advice and consent to ratification, the Convention Between the Government of the United States of America and the Government of the Kingdom of Belgium for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income, and accompanying Protocol, signed on November 27, 2006, at Brussels (the ''proposed Treaty''). The proposed Treaty will replace the existing income tax treaty between the two countries that was concluded in 1970 and amended by protocol in 1987. Also transmitted for the information of the Senate is the report of the Department of State with respect to the proposed Treaty.

The proposed Treaty eliminates the withholding tax on certain cross-border dividend payments, including dividend payments to pension funds. The proposed Treaty also provides for mandatory arbitration of certain cases brought before the competent authorities. This provision is only the second of its kind in a proposed U.S. tax treaty. In addition, the proposed Treaty includes provisions, consistent with current U.S. tax-treaty policy, that are designed to prevent so-called treaty shopping.

I recommend that the Senate give early and favorable consideration to the proposed Treaty and give its advice and consent to ratification.

GEORGE W. BUSH.

THE WHITE HOUSE, *June 21, 2007.*

DISCHARGE AND REFERRAL—S. 1650

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the HELP Committee be discharged from further consideration of S. 1650 and that the bill be referred to the Committee on Commerce.

The PRESIDING OFFICER. Without objection, it is so ordered.

MEASURE PLACED ON THE CALENDAR—H.R. 2366

Ms. KLOBUCHAR. Mr. President, I understand that H.R. 2366 is at the desk and due for a second reading.

The PRESIDING OFFICER. The clerk will report the bill by title for a second time.

The assistant legislative clerk read as follows:

A bill (H.R. 2366) to reauthorize the veterans entrepreneurial development programs of the Small Business Administration, and for other purposes.

Ms. KLOBUCHAR. Mr. President, I object to any further proceedings at this time.

The PRESIDING OFFICER. Objection is heard. The bill will be placed on the calendar.

MEASURE READ THE FIRST TIME—H.R. 2359

Ms. KLOBUCHAR. Mr. President, I understand that H.R. 2359 has been received from the House and is at the desk.

The PRESIDING OFFICER. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2359) to reauthorize programs to assist small business concerns, and for other purposes.

Ms. KLOBUCHAR. Mr. President, I ask for its second reading and object to my own request.

The PRESIDING OFFICER. Objection is heard.

ORDERS FOR FRIDAY, JUNE 22, 2007

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand adjourned until 10 a.m., Friday, June 22; that on Friday, following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, and the time for the two leaders reserved for their use later in the day; that there then be a period of morning business with Senators permitted to speak therein for up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADJOURNMENT UNTIL 10 A.M. TOMORROW

Ms. KLOBUCHAR. If there is no further business to come before the Senate today, I now ask unanimous consent that the Senate stand adjourned under the previous order.

There being no objection, the Senate, at 11:51 p.m., adjourned until Friday, June 22, 2007, at 10 a.m.

NOMINATIONS

Executive nominations received by the Senate June 21, 2007:

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES AIR FORCE TO THE GRADE INDICATED WHILE ASSIGNED TO A POSITION OF IMPORTANCE AND RESPONSIBILITY UNDER TITLE 10, U.S.C., SECTION 601:

To be general

GEN. JOHN D.W. CORLEY, 0000

EXTENSIONS OF REMARKS

PERSONAL EXPLANATION

HON. SUE WILKINS MYRICK

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mrs. MYRICK. Madam Speaker, I mistakenly voted "no" on Rollcall Vote 523, the Shadegg of Arizona amendment to H.R. 2641. I should have voted "aye."

U.N. WORLD REFUGEE DAY

HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Ms. EDDIE BERNICE JOHNSON of Texas. Madam Speaker, I rise today to recognize and honor U.N. World Refugee Day. Some 40 million people worldwide are uprooted by violence and persecution.

It is likely that in the future we will see even more people on the run—as a growing number of push factors compound one another to create conditions for further forced displacement.

People do not just flee persecution and war but also injustice, exclusion, environmental pressures, competition for scarce resources and all the miserable human consequences of dysfunctional states. We need to rise together to advocate for the plight of refugees.

We need to raise global awareness to remedy the conditions for which people are forced to leave their homes and become refugees.

IN HONOR OF PINE-RICHLAND MIDDLE SCHOOL

HON. JASON ALTMIRE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. ALTMIRE. Madam Speaker, I rise to pay tribute to the faculty and staff of Pine-Richland Middle School in Gibsonia, Pennsylvania. Pine-Richland Middle School was recently given the extraordinary honor of being designated as a School to Watch by the National Forum to Accelerate Middle Grades Reform, a distinction bestowed upon only 34 middle schools nationwide this year.

In order to become recognized as a School to Watch, middle schools must meet rigorous criteria set forth by the National Forum. To comply with these standards, schools must not only promote academic excellence among their students, but also provide adolescents with an environment that is sensitive to and supportive of their particular developmental needs. Additionally, schools must ensure that their resources are used equitably to assist and challenge students at all levels of achievement.

By earning recognition as a School to Watch, Pine-Richland Middle School has demonstrated its commitment to providing the best possible education to every one of its students. I am honored to have the opportunity to recognize the talented faculty and staff who earned this award. Every day, they dedicate themselves to the task of producing enlightened students and virtuous citizens. I commend them for their work and wish them continued success.

MARSH ELEMENTARY STUDENTS CHOSEN AS THE WINNER OF THE 2007 TOSHIBA/NATIONAL SCIENCE TEACHERS ASSOCIATION EXPLORA VISION AWARDS

HON. DONALD A. MANZULLO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. MANZULLO. Madam Speaker, I am pleased to honor a group of students from Marsh Elementary School in Rockford, Illinois, for their selection as the winner of the 2007 Toshiba/National Science Teachers Association Explora Vision Awards.

Each year, students in grades K–12 around the Nation compete in the Explora Vision program, which is designed to encourage students to combine their imagination with their knowledge of science and technology to explore visions of the future. Teams of students select a technology, research how it works and why it was invented, and then project how that technology may change in the future. They must then identify what breakthroughs are required for their vision to become a reality and describe the positive and negative consequences of their technology on society.

I am honored to have these students in the district that I am privileged to represent. I support them wholeheartedly as they pursue different areas of technological research at such an early age. I hope that their experiences will kindle an interest in science and technology that could possibly lead to a career in these fields.

RECOGNIZING THE RETIREMENT OF BART DIRECTOR THOMAS E. MARGRO

HON. ELLEN O. TAUSCHER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mrs. TAUSCHER. Madam Speaker, I rise with the support of my colleagues, Hon. NANCY PELOSI, Hon. ANNA G. ESHOO, Hon. MIKE HONDA, Hon. BARBARA LEE, Hon. TOM LANTOS, Hon. ZOE LOFGREN, Hon. JERRY MCNERNEY, Hon. GEORGE MILLER, Hon. PETE STARK, Hon. LYNN WOOLSEY of California, in the House of Representatives—to recognize Thomas E. Margro who has served the San Francisco Bay Area Rapid Transit District as general manager since September 1996.

Mr. Margro is the longest serving general manager in the district's history and held the post of assistant general manager, transit system development from 1990 to 1995, after a distinguished career with the Southeastern Pennsylvania Transportation Authority.

Mr. Margro guided the development, design, and construction of the $2.7 billion BART extensions program, expanding the system in the counties of Alameda, Contra Costa, and San Mateo including extensions to Pittsburg/Bay Point, Dublin/Pleasanton, and also spearheaded the successful modernization of the district with a 10 year, $1.2 billion system renovation program.

In addition, he lead the development of the $1.5 billion San Francisco Airport, SFO, extension in partnership with the Bay Area congressional delegation, which created a state-of-the-art train to plane connection at SFO and also created an 9.8, 5-station extension through the Peninsula cities of Colma, South San Francisco, Bruno, Millbrae and Burlingame.

Mr. Margro also partnered with the Bay Area congressional delegation to highlight the security needs of transit systems, and advocated for additional Federal transit dollars and greater regional cooperation to ensure that BART riders would receive their fair share of Federal security dollars.

Along with the Bay Area congressional delegation, he successfully partnered to boost the amount of transit dollars returning to California as a part of the SAFETEA–LU authorization process—successfully getting significant increases in BART formula funding through that process.

Managing the district through difficult financial times, Mr. Margro ensured that BART maintained a stellar safety record, a 92 percent on-time performance rating and an 85 percent customer satisfaction rating all the while; the efforts culminated in BART being awarded the coveted title "#1 Transit System in America" in 2004 by the American Public Transportation Association (APTA).

The members of the San Francisco Bay area congressional delegation recognizance the immeasurable contribution Mr. Margro has made to the bay area region and we wish him success and happiness in his future endeavors.

TRIBUTE TO FRANK DENZINGER AND JOEL WHITE

HON. BARON P. HILL

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. HILL. Madam Speaker, on Monday evening, June 18, 2007, the community of Floyd County, Indiana, experienced a tragic event that resulted in the loss of 2 lives. Two members of the Floyd County Sheriff's Department, Frank Denzinger and Joel White, were shot when they arrived on the scene at a home to which they had been called. Deputy Sheriff Denzinger did not survive the shooting, Deputy Sheriff White was seriously injured, and later that evening, police discovered that the teenage boy who shot them had also fatally shot himself. This small, southern Indiana community has not experienced a tragedy of this proportion in decades, and is still reeling from it. I would like to first of all commend the noble work, day in and day out, of the Floyd County Sheriff's Department and all of our local law enforcement in Indiana. I would like to offer my sincere condolences to Deputy Sheriff Denzinger's family and friends. Frank Denzinger, 32, of Lanseville, Indiana, leaves behind a loving wife, Tara, and young daughter, Avery Grace. Frank was known as not only a loyal peer to his fellow law enforcement agents, but also to his family. He was taken much too soon from his wife and daughter. I want to thank Deputy Sheriff Denzinger and his family for their service to our community, as well as remind all Hoosiers to pray for both the Denzinger and White families.

PRAISING THE SUCCESS OF THE SCHOOL VIOLENCE PREVENTION DEMONSTRATION PROGRAM IN ALLENTOWN, PENNSYLVANIA

HON. CHARLES W. DENT

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. DENT. Madam Speaker, it is with great enthusiasm that I share with my colleagues an article prepared by Mr. Myron Yoder, the Social Studies Curriculum Coordinator for the Allentown School District in Allentown, Pennsylvania, regarding the School Violence Prevention Demonstration Program.

The School Violence Prevention Demonstration Program is administered by the Center for Civic Education through the U.S. Department of Education. The program explores how civic education can be used as a strategy to foster civic engagement, law-abiding behavior, the peaceful management of conflict, and the prevention of violence in schools. Currently, the program is being implemented at grades 4 through 12 in urban, suburban, rural, and Native American school districts at 24 sites in 19 States across the Nation. The article is below.

CIVIC EDUCATION TO BE CELEBRATED IN ASD SCHOOLS JUNE 5: A CALL TO THE ALLENTOWN COMMUNITY. JOIN US

(By Myron Yoder)

Good civics—practice and recognition—is a concern and part of the fabric of every healthy community. To a school, civics is a fundamental part of instruction; to a diverse society, it is an imperative to maintain and grow our civilized way of life. The Allentown School District has been involved in a federal grant administered through the Center for Civic Education called the School Violence Prevention Demonstration Program, or SVPDP, for short. This civics-based curricular program has become ASD's elementary civics component for social studies in grades K–5. The goal behind the program is essential to our society: If you build good civics practices with students in school communities, then you proactively deal with issues of student attitudes, behavior and, theoretically, head off school violence by more students. This year, the Allentown School District civics program is in over 400 classrooms and reaches over 8,000 students.

The many planned ''culminating'' activities at the end of students' studies this spring are deliberately performance-based not only to allow for creativity and self-expression by our students and teachers but also to provide a means to integrate learning and foster even stronger academic growth. Many parents notice students discussing issues at home with them as well as noticing a desire to become involved in issues our community faces. These culminating activities are occurring in many of our schools over the months of May and June. You can check with your neighborhood school for when these events are planned. We invite you to observe our students showcasing their learning this year.

Best of all, the SVPDP program helps ASD students become citizens of our community, our state and our nation. Further, we see a difference in many of our students, not only academically but also with attitudes and behaviors that we believe will proactively prevent school violence in many of our students.

The time has come to recognize, celebrate and thank our staff and students for this very committed effort on their part. On June 5, 2007 there will be a ''Civic Celebration'' lunch served by ASD's Child Nutrition Services department to celebrate SVPDP efforts in the schools and to recognize the work of our students and staff in this program.

Many schools will have culminating activities going on, community service activities, award ceremonies, school clean up, community awareness or simply taking a moment over lunch to say thank you to the staff and students for their efforts. Each school will be doing something different that day, but all will celebrate civic participation with the lunch.

Citizens of Allentown, here are some of the expressions of understanding and change that ASD children and their teachers are experiencing with this program:

''Because I was a bully, I had a little bit of friends. Most of them were bullies, too. The responsibility book helped me stop being a bully. And now I have friends cause I am not a bully. Bullying is not for me!''—Fourth grader, Jackson ES.

''I ask the children what they have learned through the stories and plays and they say: Be fair to others so that they will be fair to you; There are consequences for our actions; Share with other people; Don't be a bully; Be nice to your friends; Be helpful to other people; Obey the laws.''—Lou Ann Hein, Teacher, 2nd Grade, Dodd ES.

''I just wanted to tell you how much I have enjoyed teaching SVPDP and how much my students enjoyed it and learned from it. It covers so many issues students need in order to be good citizens and addresses issues they often don't understand. It has always been difficult to fit social studies into first grade but the journal coordinated exactly with what I was teaching in reading and writing, so there was plenty of time for social studies!''—Elizabeth Harting, Teacher, 1st Grade, Cleveland ES.

Allentown School District has a clear and dedicated commitment to teaching the qualities and values important to our society. We ask parents and the Allentown Community to join us in educating for America's future by celebrating civics on June 5, 2007.

CONGRATULATING LANCE CORPORAL ROBERT DRAPER

HON. THOMAS G. TANCREDO

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. TANCREDO. Madam Speaker, I rise today to pay tribute to one of my constituents, LCpl Robert Draper.

Lance Corporal Draper recently returned from Haditha, Iraq, where he served a 7-month deployment. He was assigned to Company E of the Second Battalion, Third Marine Regiment of the United States Marine Corps.

The city of Haditha saw unprecedented improvements when Lance Corporal Draper's Company E served. Upon arrival, Haditha was considered one of the most dangerous regions in Iraq. By the end of Lance Corporal Draper's deployment, the police force was rapidly growing, attacks on Iraqi Police and Marine patrols were steadily decreasing, and relations with the Iraqi people were improving.

Madam Speaker, please join me in paying tribute to Lance Corporal Draper, whose selfless actions benefit all Americans. Our Nation owes Lance Corporal Draper and his fellow soldiers a great debt of gratitude for their service.

IN HONOR OF SPECIALIST VAL JOHN BORM

HON. ADRIAN SMITH

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. SMITH of Nebraska. Madam Speaker, I rise today with a sense of sadness and regret to honor the short life of Specialist Val John Borm, of Sidney, Nebraska. Val, an infantryman in B Company, 2nd Battalion with the 35th Infantry, was killed late last week when a roadside bomb exploded near his Humvee.

A 2005 graduate of Sidney High School, Val has been described as an enthusiastic soldier who enjoyed his service for our country. My heart goes out to his parents, Larry and Lolita, and the rest of the Sidney community as they come to terms with this loss.

As we head into the July 4th holiday season, let us remember Val and his comrades who have paid such a high price defending freedom. We owe them our very best.

HONORING MRS. SANDRA L. MERIN

HON. JOHN S. TANNER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. TANNER. Madam Speaker, I rise today to honor the work and achievements of Mrs. Sandra L. Merin, president of the Board of Directors of the District of Columbia Children's Advocacy Center, also known as Safe Shores. This week Mrs. Merin is being honored by the National Children's Alliance as its 2007 Volunteer of the Year for her extraordinary service and leadership on behalf of abused children in the Nation's Capital.

Established pursuant to the Children's Advocacy Center model created over two decades ago by our distinguished colleague Representative ROBERT ''BUD'' CRAMER of Alabama, Safe Shores is a nonprofit organization that each year helps over 800 children whose lives have been marred by physical abuse, sexual abuse or other violence. Safe Shores' mission is to ensure the safety, health and well-being of abused children in the District of Columbia by uniting the strengths of public, private and community partners.

Mrs. Merin has been a volunteer with Safe Shores for 6 years, during which time she has shown tremendous energy, persistence, and determination in being a voice for children who face abuse, neglect, and painful realities that no individual should ever know.

Mrs. Merin leads the volunteer board of directors, helping to guide the governance of the organization and the board's development and expansion; she has helped forge a relationship between a respected local university and Safe Shores; she has served on the organization's 10th Anniversary Event Committee.

In the true spirit of community service and philanthropy, Mrs. Merin does all her fine work for Safe Shores humbly and without seeking praise or reward. A devoted wife and mother, Sandra Merin exemplifies the spirit that made this country great and continues to sustain us.

Madam Speaker, please join me in congratulating Mrs. Sandra Merin for her dedicated and invaluable support of Safe Shores and its crucial efforts to reduce trauma and promote healing for the youngest and most vulnerable of Washington, DC's residents.

RETIREMENT OF MIAMI EAST HIGH SCHOOL TEACHER FRED WORTH

HON. JOHN A. BOEHNER

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. BOEHNER. Madam Speaker, I rise to recognize the retirement of Fred Worth, a History and Government teacher at Miami East High School in Miami County, Ohio, and to express my appreciation for his dedication and commitment to the youth of our Nation.

For the last 30 years, Fred has contributed his time and his talents to the betterment of so many young adults and for this I offer him my utmost congratulations and thanks. Whether it is coaching baseball, volunteering at St. Patrick's Church or teaching in the classroom, his students and players exhibit the best of our younger generations. I know many of Fred's former students and players have blossomed into wonderful adults and he's played a big part in shaping their character.

I'm proud to call Fred my friend and for that I express my most sincere gratitude. His leadership will be missed, but the footprint he leaves will inspire many to dream big, reach high and achieve great things.

I consider it an honor to represent Fred in Congress and I wish him and his wife Janet a long, happy and healthy retirement.

CONGRATULATING SERGEANT JOHN HUNSBERGER

HON. THOMAS G. TANCREDO

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. TANCREDO. Madam Speaker, I rise today to pay tribute to one of my constituents, SGT John Hunsberger.

Sergeant Hunsberger recently returned from Haditha, Iraq, where he served a 7-month deployment. He was assigned to Company E of the Second Battalion, Third Marine Regiment of the United States Marine Corps.

The city of Haditha saw unprecedented improvements when Sergeant Hunsberger's Company E served. Upon arrival, Haditha was considered one of the most dangerous regions in Iraq. By the end of Sergeant Hunsberger's deployment, the police force was rapidly growing, attacks on Iraqi Police and Marine patrols were steadily decreasing, and relations with the Iraqi people were improving.

Sergeant Hunsberger earned the purple heart while in service in Haditha.

Madam Speaker, please join me in paying tribute to Sergeant Hunsberger, whose selfless actions benefit all Americans. Our Nation owes Sergeant Hunsberger and his fellow soldiers a great debt of gratitude for their service.

THE TOWN OF JANE LEW'S 100TH BIRTHDAY

HON. SHELLEY MOORE CAPITO

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mrs. CAPITO. Madam Speaker, I rise today to join the residents of Lewis County, West Virginia, in recognizing the town of Jane Lew on its 100th birthday.

Situated in north central West Virginia, Jane Lew traces its origins back to 1773. The small community grew slowly over the years before being issued a charter of incorporation by the State Legislature in 1907.

Today, at 100 years young, Jane Lew continues as a thriving small town. Known for being a friendly tight-knit community, the town is home to 40 businesses, a thriving senior center and 1 of the region's largest Labor Day craft shows.

I congratulate the residents of Jane Lew and look forward to many more birthday celebrations in the future.

RECOGNIZING DALLAS PEACE CENTER

HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Ms. EDDIE BERNICE JOHNSON of Texas. Madam Speaker, I rise today to recognize a milestone that was achieved by the oldest and largest peace and justice organization in north Texas. This year the Dallas Peace Center will celebrate its 25th anniversary.

The Dallas Peace Center is based on a vision of reconciliation to promote education, dialogue, and action for peace and justice. Along with other contributions, the Dallas Peace Center hosts forums and conferences advocating for peace in America and the world. Moreover, the center hosts community service initiatives that help promote justice in the north Texas area. The heart of the Dallas Peace Center reaches well beyond its members through its dedication and commitment to the community.

The Dallas Peace Center also meets with other organizations that promote peace including the National Association for the Advancement of Colored People and Amnesty International. The center hosts free workshops and book club meetings so that members and nonmembers can learn about pertinent subject areas.

This year, the Dallas Peace Center is supporting the upcoming 3rd Women's International Peace Conference, which will bring women leaders from across the world to Dallas to engage in dialogue leading to peace.

On behalf of the 30th Congressional District of Texas, I am elated to congratulate such an invaluable asset to the Dallas community on its 25th anniversary. I thank the members of this center on their dedicated service to Dallas and the great State of Texas and I wish them many more years of prosperity.

HONORING THE SERVICE OF CHIEF YEOMAN MICHAEL ''JOHN'' FOY DAY

HON. GENE GREEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. GENE GREEN of Texas. Madam Speaker, I rise today to honor a native Houstonian, who has spent the last 25 years of his life serving our country in the United States Navy.

After graduating from Lubbock Christian University where he was actively involved in the Army ROTC Program, Chief Day entered the Navy on October 16, 1983, and for the next 5 years was involved in 3 different SEAL teams.

While accomplishing numerous tasks with the SEALS, Chief Day committed much of his time to his community. He served as President of the Gateway Housing Council, Director of the Neighborhood Watch Program, and was a member of the San Diego School Board.

After being transferred to Europe in 1989, Chief Day continued achieving duties with the

Personnel Support Detachment and many community organizations. Some of those organizations include: Leader of the Scottish Boy Scouts, member of the Veterans of Foreign Wars, and was recipient of the 1995 Outstanding United Services Organization (USO) Award of Europe.

In June 1996, Chief Day was reassigned to Ingleside, Texas, and continued participating in community involvement. During the completion of his assignment with the Afloat Training Group (ATG) and Mine Warfare Training Center, Chief Day became Commander of the Veterans of Foreign Wars chapter in Ingleside. During his time as commander he received the highest award in the Department of Texas. The J.T. Rutherford honor is awarded to the number one ranked volunteer member in Texas.

In June 1998, Chief Day was relocated to the Middle East and honorably carried out various missions with the Navy and Marine Corps TAFT unit, under the Joint Military Order of the Royal Saudi Navy and Marine Corps forces. After being selected as the number one sailor in Europe and promoted to his current rank of Chief Petty Officer, Chief Day volunteered and deployed to Iraq during Operation Iraqi Freedom.

Throughout his military career Chief Day earned 42 awards, was selected 5 times as sailor of the quarter, and 3 times as Sailor of the Year.

Chief Day is a loving father, husband, and a prime example of a leader who promotes citizenship by participation. As Chief Day's military career comes to a close, I am proud to stand before you and honor a man who has represented his community, State, and country with dignity.

TRIBUTE TO STAFF SERGEANT MICHAEL A. BECHERT

HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. VISCLOSKY. Madam Speaker, it is with great sadness and deep respect that I wish to commend Army SSG Michael A. Bechert for his bravery and his willingness to fight for his country. Staff Sergeant Bechert was assigned to C Company, 1st Battalion, 18th Infantry Regiment, 1st Infantry Division in Schweinfurt, Germany. Tragically, Staff Sergeant Bechert passed away on June 14, 2007, due to injuries sustained on May 30, 2007, when his vehicle encountered an improvised explosive device in Baghdad, Iraq. His sacrifice for his country will forever be remembered by a community that has been devastated by the loss of one of its own.

Staff Sergeant Bechert felt tremendous pride for his country, and it will never be forgotten that he was willing to endanger his own life to protect the lives of his fellow citizens. His courage and heroism will always be remembered, and his sacrifice will forever live in the hearts and minds of those for whom he battled. Staff Sergeant Bechert enlisted in the United States Army, fully aware that danger could arise in any situation. He accepted this so that the freedoms and values he treasured could be enjoyed by men, women, and children around the world.

For his efforts, Staff Sergeant Bechert was awarded several military medals and honors, including: the Expert Infantryman Badge, the Combat Infantryman Badge, and the Army Commendation Medal for heroism, as well as a Purple Heart for previous injuries sustained in battle. In addition, he will be posthumously awarded an additional Purple Heart and a Bronze Star medal.

Although he loved his unit and his country, Michael treasured his family above all else. He is survived by his wife, Daniela, and his son, Branden Andrew, as well as many other friends and family members whose lives he has touched. My condolences go out to all who knew and loved Michael. His eagerness to serve and his willingness to sacrifice himself is worthy of the highest admiration.

Madam Speaker, at this time I ask that you and my other distinguished colleagues join me in honoring a fallen hero, United States Army SSG Michael Bechert. He will forever remain a hero in the eyes of his family, his community, and his country. Let us never forget the sacrifice he made to preserve the ideals of freedom and democracy.

INTRODUCING THE FAIR BALANCE PRESCRIPTION DRUG ADVERTISEMENT ACT

HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. STARK. Madam Spearker, I rise today to introduce the Fair Balance Prescription Drug Advertisement Act. This bill would place long overdue restrictions on direct-to-consumer, DTC, prescription drug advertisements. All too often, these poorly regulated ads provide incomplete and misleading information about new pills, pushing unnecessary prescriptions and promoting drugs before doctors and scientists have time to learn enough about their dangers.

Consumers, at whom these ads are targeted, don't realize that FDA approves drugs without confirming that they are safe for every treatment circumstance. As a result, many new drugs are widely marketed before the FDA discovers serious side effects and takes corrective action. Examples include drugs for conditions as common as arthritis and high blood sugar.

As scientists have discovered, ''DTCA (direct to consumer advertising) is a successful method of generating prescriptions.'' Since ad restrictions were gutted in the U.S., drug advertising has grown at a startling rate, to a whopping $4.2 billion in 2005. No surprise, drug costs have grown dramatically as well, from 78 billion in 1997 to more than 2 trillion in 2005. Pharmaceutical companies spend billions of dollars trying to convince consumers their drugs will fix everything from bad sex lives to bad moods. These ads lead consumers to demand drugs that may not be medically necessary or appropriate for their condition.

In many instances, DTC ads promote drugs that are later found to harm patients. In 2003, for example, Johnson & Johnson ran ads where Procrit seemed to rescue a cancer victim from disabling lethargy. Then new research came out showing cancer patients did no better on Procrit. In fact, some cancer patients actually did worse.

The FDA has now given Procrit a black box warning cautioning against the use of this drug in certain circumstances. The agency has also warned Johnson & Johnson and Amgen that there is no evidence to support marketing efforts suggesting the drug reduces fatigue for patients in chemotherapy.

By increasing demand for pricey new drugs when cheaper ones will do, DTC advertising also drives up the costs of prescriptions. Sadly when patients find they can't afford these expensive drugs, they skip doses or don't even start the treatment. Unbalanced ads for expensive pills therefore contribute to both higher costs and to poor control of chronic disease.

The Fair Balance Prescription Drug Advertisement Act will empower the FDA to determine whether pharmaceutical companies present information about their products in a fair manner, balancing risks and benefits. Any advertisements found to violate this standard would be denied currently allowed business expense tax deductions for advertising costs.

Based on recommendations from the Institute of Medicine, the bill goes one step further and eliminates the business exemption for all new medications for the first 2 years that they are in the marketplace. This provision would provide doctors and scientists the opportunity to learn more about drugs' effects on a general population before consumers are bombarded with marketing pitches. Had this regulation been in effect when Procrit was introduced, many people would be better off today.

There are freedom of speech concerns with directly prohibiting advertising, accurate or not. This legislation therefore takes a different approach, hitting drug companies where it hurts them most, their bottom lines. While companies could continue running misleading ads, they would have to pay significantly more to do so. This will discourage drug companies from engaging in dishonest marketing practices.

The Fair Balance Prescription Drug Advertisement Act sets forth new guidelines that will help the pharmaceutical industry appropriately educate the public, enabling consumers to make informed decisions based on a fair and balanced presentation of risks and benefits. Today's DTC ads simply don't meet that standard. Given rapidly rising health care and prescription drug costs, we need to take every step we can to make prescription drugs safer and more affordable. We have to make sure advertisements aid consumers in making informed decisions, rather than simply increasing demand for the newest drugs.

Since the pharmaceutical industry already argues that their ads inform consumers, they should have nothing to fear from this bill. We should pass this bill immediately and take a concrete step to improve the safety and efficacy of prescription drugs for America's consumers. I urge all my colleagues to join me in support of the Fair Balance Prescription Drug Advertisement Act.

TRIBUTE TO THELMA BERTIE

HON. JOSEPH CROWLEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. CROWLEY. Madam Speaker, I rise today to pay tribute to one of my constituents, Ms. Thelma Bertie of the Bronx, NY, and to recognize her on the celebration of her 90th birthday. Ms. Bertie is an 87-year resident of New York and has exhibited steadfast commitment to American ideals by faithfully voting in every local and national election since reaching voting age. I commend her on this great dedication to her civic duty and I wish her a joyous day with many more happy moments ahead beside her loved ones.

Ms. Bertie has asserted herself as an active and conscientious citizen and has earned appreciation for her contributions to the community. Her life and accomplishments are true inspirations to the lives of all those she touches and I am honored that my district is called home by such an outstanding citizen. Ms. Bertie truly understands the value of being not only a New Yorker but an American as well, and the entire Bronx community is privileged to count her among its residents.

Madam Speaker, I join to congratulate Ms. Bertie on this birthday milestone and I wish her good health and fortune in the future.

CONGRATULATING LANCE CORPORAL WILLIAM BURKE JR.

HON. THOMAS G. TANCREDO

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. TANCREDO. Madam Speaker, I rise today to pay tribute to one of my constituents, LCpl William Burke Jr.

Lance Corporal Burke recently returned from Haditha, Iraq, where he served a 7-month deployment. He was assigned to Company E of the Second Battalion, Third Marine Regiment of the United States Marine Corps.

The city of Haditha saw unprecedented improvements when Lance Corporal Burke's Company E served. Upon arrival, Haditha was considered one of the most dangerous regions in Iraq. By the end of Lance Corporal Burke's deployment, the police force was rapidly growing, attacks on Iraqi Police and Marine patrols were steadily decreasing, and relations with the Iraqi people were improving.

Madam Speaker, please join me in paying tribute to Lance Corporal Burke, whose selfless actions benefit all Americans. Our Nation owes Lance Corporal Burke and his fellow soldiers a great debt of gratitude for their service.

IN RECOGNITION OF THE 100TH ANNIVERSARY OF THE CLEBURNE COUNTY COURTHOUSE

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. ROGERS of Alabama. Madam Speaker, I respectfully ask the attention of the House today to pay recognition to the citizens of Cleburne County, Alabama, who will soon celebrate the 100th anniversary of the Cleburne County Courthouse.

The cornerstone of this historic structure was laid on July 4, 1907, following a referendum to decide the final location of the courthouse. The location chosen was Heflin, Alabama. Over the past century, the Cleburne County Courthouse has housed numerous departments serving the people of Cleburne County, including the office of the judge of probate, veterans affairs office, the superintendent of education, and the county commission.

On June 30, 2007, the citizens of Cleburne County will gather to commemorate this important milestone. At that time local leaders are expected to open the cornerstone, and local citizens will hear presentations by community leaders and enjoy a community-wide gathering.

I would like to congratulate the people of Cleburne County for reaching this important milestone in their county's history, and join the community in wishing another prosperous 100 years for this important landmark.

RECOGNIZING THE MACARTHUR FOUNDATION AND THE LOCAL INITIATIVES SUPPORT CORPORATION OF CHICAGO

HON. RAHM EMANUEL

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 21, 2007

Mr. EMANUEL. Madam Speaker, I rise today in recognition of the MacArthur Foundation and the Local Initiatives Support Corporation (LISC) of Chicago for their efforts to support communities throughout the city of Chicago. Recently, the MacArthur Foundation announced it will invest $26 million to support the New Communities Program. The New Communities Program is a project of Local Initiatives Support Corporation of Chicago that seeks to help lower income neighborhoods grapple with safety, employment, health care, affordable housing and development.

Chicago is a city of neighborhoods, which is why the MacArthur Foundation's most recent donation is so exciting. The Foundation's $26 million contribution will invest in 16 different Chicago neighborhoods—Auburn Gresham, Chicago Lawn, Douglas, North Kenwood-Oakland, Grand Boulevard, East Garfield Park, Englewood, Humboldt Park, Little Village, Logan Square, North Lawndale, Pilsen, South Chicago, Washington Park, West Haven and Woodlawn.

Since 2002 the MacArthur Foundation has donated over $21 million annually to the New Communities Program, providing seed money that has blossomed into over $255 million in private investment. The new investment in our communities is expected to multiply into another $500 million in private funds over the next 5 years, which will provide thousands of new jobs and opportunities to residents of some of Chicago's overlooked neighborhoods.

The Local Initiatives Support Corporation was created in 1979. Since then, LISC has provided 215,000 units of affordable housing, created funding for schools and day care for over 40,000 children annually, and added parks and playing fields to accommodate 150,000 people. In Chicago alone, LISC has dedicated more than $100 million into housing and economic development since 1980, and they remain committed to their vision of building whole communities.

Madam Speaker, the New Communities Program has served as a model to other community development organizations across the country and around the globe, and thanks in part to the Local Initiatives Support Corporation of Chicago and the MacArthur Foundation, our neighborhoods will continue to be some of the best in the world.

SENATE—*Friday, June 22, 2007*

The Senate met at 10 a.m. and was called to order by the Honorable SHERROD BROWN, a Senator from the State of Ohio.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Almighty and everlasting God whom the heavens of heavens cannot contain, illumine us by Your grace, that we may accurately represent You.

May our Senators today show You their gratitude through humble service to this land that we love. Help them to do Your will by bringing deliverance to captives, guidance for the lost, and relief to the oppressed. Direct their steps and give them the wisdom to focus on the things that truly matter. When bewildered by vicissitudes, may they look to You as the one whom they must seek to please.

Touch us all with Your unfailing love, particularly the many staffers and other unsung heroes and heroines who labor long hours in the background for liberty. We pray in Your merciful Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable SHERROD BROWN led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, June 22, 2007.

To the Senate:

Under the provisions of rule I paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable SHERROD BROWN, a Senator from the State of Ohio, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. BROWN thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

SCHEDULE

Mr. REID. Mr. President, the Senate will conduct morning business this morning. It will be announced as soon as I sit down. Members will speak for up to 10 minutes each under the order. There will be no rollcall votes today or during Monday's session.

CREATING LONG-TERM ENERGY ALTERNATIVES FOR THE NATION ACT OF 2007

AMENDMENT NO. 1867

Mr. REID. I ask unanimous consent that the title amendment to H.R. 6, which is at the desk, be considered and agreed to and the motion to reconsider be laid on the table.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

Amend the title so as to read: ''An Act to move the United States toward greater energy independence and security, to increase the production of clean renewable fuels, to protect consumers from price gouging, to increase the energy efficiency of products, buildings, and vehicles, to promote research on and deploy greenhouse gas capture and storage options, and to improve the energy performance of the Federal Government, and for other purposes.''.

MEASURE PLACED ON THE CALENDAR—H.R. 2359

Mr. REID. Mr. President, I know that H.R. 2359 is at the desk and due for a second reading.

The ACTING PRESIDENT pro tempore. The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 2359) to reauthorize programs to assist small business concerns, and for other purposes.

Mr. REID. I object to any further proceedings at this time, Mr. President.

The ACTING PRESIDENT pro tempore. Objection is heard. The bill will be placed on the calendar.

HONORING OUR ARMED FORCES

PRIVATE FIRST CLASS JOSHUA MODGLING
SERGEANT FIRST CLASS WILLIAM ZAPFE

Mr. REID. Mr. President, a few weeks ago, on Memorial Day, I spent a good part of the day in Boulder City, NV, where we have a veterans cemetery. It is new but growing fast. There are almost 25,000 graves in that cemetery which started less than 15 years ago.

On that day, I joined veterans, family, and friends to pay thanks to the Nevadans who have lost their lives in the Iraq and Afghanistan wars.

On that occasion, I shared the words of President Lincoln when our country was torn apart by the Civil War. Lincoln said:

My dream is of a place and a time where America will once again be seen as the last best hope of Earth.

With the war raging in Iraq, with the whole area destabilized, his words ring loudly and clearly. My dream, as Lincoln's, is of a place and time where America will once again be seen as the last, best hope on Earth.

The day before yesterday, PFC Joshua Modgling, of Henderson, NV, lost his life in pursuit of that dream. He was 22 years old. Joshua and Army SFC William Zapfe, from Kentucky, both died of wounds from a roadside bomb. They were 2 of the 15 killed within 36 hours, the day before yesterday, in that bloody civil war raging in Iraq.

There is not much that can be said, other than our hearts are with the families of Joshua and William and all those who knew them. I speak for my colleagues and all Americans in praying that every brave man and woman serving overseas will come home safe and come home soon.

PASSAGE OF H.R. 6

Mr. REID. Mr. President, leaving that subject, which is certainly a subject that concerns us all, turning to the subject of this morning, around midnight, when we passed the Energy bill, it was a tremendous accomplishment for this body. As I said yesterday when, with the first vote, cloture was invoked, I hope that set a new tone and pattern in Washington, where we can work together to pass things.

It would be one thing if the bill that was before the Senate for the last couple of weeks was a Democratic bill, but it wasn't. I took what was passed out of the Energy Committee on a bipartisan basis, I took what was passed out of the Commerce Committee on a bipartisan basis, I took what was passed out of the Environment and Public Works Committee on a bipartisan basis and put

them into one bill and that is what we have been working on. It is bipartisan legislation.

It is too bad some tried to make it a partisan issue. There is nothing partisan about it. It was a bipartisan bill. But some who do not want any accomplishments in the Senate, who resent the fact we have been able to pass minimum wage; drought relief for farmers for the first time in 3 years; for the first time since President Bush has been President, we have gotten money for homeland security, over his objection—we had tried many times—we got $1 billion; we funded SCHIP; we funded the Government. You know, the Republicans left town and funded the Government only until February 1. We funded the Government until October 1. We passed a balanced budget, even though our majority, because of Senator JOHNSON's illness, was 50 to 49. Republicans with 55 to 45 couldn't pass a budget. We did, and some resent that.

We have focused attention on Iraq, which has been unfocused for the entire course of that war. We had 80 hearings. The Judiciary Committee has focused attention on the scandals at the Justice Department, led by Attorney General Gonzales. We have reestablished the legislative branch of Government. The Presiding Officer served for many years in the other body, such as I did. The House and the Senate make up the legislative branch of Government, set forth in the Constitution many years ago to be a separate and equal branch of Government—the legislative, executive and judicial branches of Government.

For the first 6 years of this Presidency, there was no legislative branch of Government. It did not exist. The President ignored it because the Republican-dominated House and Senate gave the President a big rubber stamp. We have changed that, and rightfully so, for the American people.

A number of people made possible passage of the bill late last night, or this morning. Senator BINGAMAN, Senator BOXER. And let me say this about that wonderful Senator from the State of California, Mrs. BOXER. Senator BOXER has one grandchild, Zach. I have watched him grow up. I don't know, he must be 10, 11 years old now. I watched him when he was a little boy crawling around on the floor. She was so excited.

I had the good fortune, my wife and I, to spend a weekend with them in one of their homes in California, she and Stu. They were so excited they were going to have their second grandchild. That second grandchild was born last night about 6 o'clock eastern time. She flew to California and was headed toward the airport, actually had entered the airport, when the vote occurred last night. She was coming back here to be here this morning to take that vote.

She is a real soldier. I so admire Senator BOXER. We came to Washington together in 1982. She was able to go back and spend some more time with her grandson because we didn't need her here this morning, but the vote was that close.

The bill is important. The overall manager of the bill was Senator BINGAMAN. He did a tremendous job. This quiet, effective man—Stanford and Harvard degrees—has done a wonderful job with this legislation, as he does with everything.

The CAFE standards in this bill which we have passed are so important. For 25 years, we have been trying to get increased fuel efficiency. Each time we have tried we have been defeated. People had enough. Senators had enough. We have voted against CAFE standards for too long. We were told they said that if you voted for increased fuel efficiency, we are going to close production plants, we are going to lay people off, we are going to lose market share.

They were right, except it didn't take increased fuel efficiency. They simply became not competitive. Other cars coming into this market that people wanted to buy, fuel-efficient vehicles, were bought. So we increased fuel efficiency. It is great for this country. It will save millions of barrels of oil every year.

There was legislation that was drafted by a number of people to make this effective. It came out of the Commerce Committee originally, but the people who worked so hard the last few days were Senator FEINSTEIN, Senator KERRY, Senator SNOWE, Senator STEVENS, and let me say, I have the good fortune in working very closely with the senior Senator from Washington, Mrs. MURRAY. She is the secretary of the Democratic caucus. I have worked with her very closely.

She is a tremendous Senator, a tremendous asset to me, the caucus, of course the State of Washington, and the country.

One of the quiet, effective Members of the Senate is MARIA CANTWELL. Those of us who watched her the last 3 days on this Senate floor, making sure there were enough votes to pass the aspect of the bill we call CAFE standards, saw her effectiveness. She, at any given time with votes changing back and forth knew—that piece of paper she carried—where the votes were. I went to her many times yesterday and said what happens if this happens and what happens if this happens? She knew right away.

Senator INOUYE, the chairman of the Commerce Committee, reported that out. He worked with Senator STEVENS to make sure that as the matter changed a little bit, it was done properly. I hope I mentioned Senator KERRY's name; I meant to. He is such a believer. He has written books. He is so concerned about the environment.

Words cannot describe how important Senator CANTWELL was in our being able to pass this legislation. Of course, my friend Senator DURBIN, who is the whip, assistant leader, is always around, always helpful in doing things I and others ask him to do, and does so much on his own.

I wish I could express my appreciation adequately to all of the people whose names I mentioned. If I slighted someone, I certainly did not mean to do that. But I have mentioned some names that have come to my mind.

With strong bipartisan support, we passed an energy bill that will grow our economy, strengthen our national security, and protect our environment. If passed into law, this bill will put us on a path toward reducing our reliance on oil by increasing supply of renewable fuels produced right here at home, and decreasing the amount of energy we use in our cars, homes, and offices.

Why do we say it will strengthen our economy? Because especially in rural America there will be biofuel buildings, factories to make biofuels.

We have done things to protect our environment by reducing greenhouse gases and other toxins that are emitted using fossil fuel. For the first time since 1975, our bill raises standards for new cars and trucks, as I have mentioned, from 25 to 35 miles per gallon, which is really important. That still puts us behind Europe, Japan, and China, but it is a critical step in the right direction and will save up to 1 billion gallons of gas every day. Think about that—1 billion gallons of gasoline every day. I don't know how big a tank a billion gallons is. I do know that we use 21 billion barrels of oil every day in America, 65 percent of which is imported. I know how big a hole that is. It is the width of a football field, 11 miles long and 10 feet deep.

For the automakers still wavering on increasing fuel efficiency, I say this: Do not fight the change; embrace it. There is no reason our automobile manufacturers cannot do this. There is no reason. Others do it all over the world. Cannot we as Americans do it? Of course we can. They need to embrace the opportunity to build the high performance cars and trucks Americans want to buy and drive and which we so desperately need for the sake of our national security and global warming. It is time for American automobile manufacturers to lead the world once again. That will only come through a commitment to clean innovation.

The next part of the bill that passed reduces crude oil consumption by more than 10 percent over the next 15 years by producing more renewable fuels, by producing them right here at home, more renewable fuels on America's farms, fields, and in our forests, which will create tens of thousands of new American jobs.

We set new energy efficiency standards with light bulbs, light fixtures, appliances, water heaters, boilers, air

conditioners, which will save half a trillion gallons of water every year. For a State such as Nevada—Las Vegas gets 4 inches of rain every year—that is dramatic.

Because Government should lead by example, we also dramatically improved the energy efficiency of Federal buildings and vehicles, as relates to energy, which will save billions of American taxpayer dollars.

Senator BOXER has a provision in this bill that relates to the capture of carbon. It is a carbon capture study at the Capitol powerplant, and it also requires 15 percent of every bit of energy we use on this Capitol Hill complex—by the way, there are more than 10,000 employees here—that we need to get that from renewable sources.

We need to invest in the technologies that will drive our energy future, such as carbon capture and storage, that hold the hope of containing carbon emissions from producing power sources before they ever reach the air.

Last night's passage of the Energy bill was a great victory for the American people. Here is why: We will save American consumers tens of billions of dollars annually, cut our oil consumption by 7 million barrels a day within 20 years, reduce our dependence on foreign energy sources now, and take critical steps in these early stages of our fight against global warming. There is a long way to go to secure the kind of clean and safe energy future we need. This bill is a first step, but it is an important first step.

The bill is not perfect. It is unfortunate that in passing this bill the administration and most Senate Republicans blocked an effort to require more of our Nation's electricity to come from renewable sources as well as incentives to spur the production of more renewable fuels right here in America. But this fight is not over. Our friends in the House will pass their bill quickly so we can send it to the President for his signature. But this bill, once again, shows us when we find common ground, we can accomplish uncommon good.

Mr. President, I see that my friend and partner in what happens here in the Senate is here, Senator DURBIN.

I have already expressed, Senator DURBIN, my appreciation for the work you did in getting to the final passage of this bill. You and I spend so much time alone that I do not often get to say anything publicly about you, so I will take a brief moment to say you and I have been in the legislature, on a national basis, since 1982 together. We have had good days and bad days. That is what legislation is all about. But I so appreciate having you as a partner here in the Senate. You have been stalwart. The people of Illinois are so fortunate to have you representing them in the Senate. I hope I can tell you in this manner how much I admire and appreciate your advocacy, your friendship, and the good work you do for all of our country.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of morning business, with Senators permitted to speak for up to 10 minutes each.

The assistant majority leader is recognized.

PASSAGE OF H.R. 6

Mr. DURBIN. Mr. President, thank you for recognizing me. Also I want to thank the majority leader for his kind words. He and I work very closely together, spend more time together than we ever imagined as we embarked on this journey, now in leadership, to try to serve the people of this Nation.

I want to say a word about my friend from Nevada. Senator HARRY REID is misunderstood by many Americans. Because he is soft spoken, and not as assertive as some politicians are, there are many on the outside who question his leadership capacity. No one on the inside questions it. He is the most highly respected leader I have ever had the good fortune to work with. It is based on the fact that he is inclusive, he is honest, outspoken, and stands by those who are willing to work harder to achieve our agenda.

Last night was a perfect illustration of this. The Energy bill was just a dream, a theory, for so long. The question was, could we put together a bipartisan coalition. We had to find a level of compromise and a level of cooperation or we did not have a chance. It was not easy to try to put into law, for the first time in over 20 years, a new national goal for fuel efficiency of our cars and trucks. It changed a lot of things and was viewed as threatening by many people.

My wife and I have made a point of doing our very best to buy American cars. We are loyal to the American automobile industry. With very few exceptions we have tried to make sure our purchases were on behalf of American workers. It was painful last night to be engaged in a debate where my good friends in the automobile industry, not just management—but I guess I have to be totally open with you, I am closer to those who work the lines, in Belvidere, IL and Bloomington, the United Auto Worker employees. I know these men and women. These are good people. They are hard-working people. They take pride in what they do.

They have been disappointed. I have as well. But our automobile industry in this country has been falling farther and farther behind. Just a few months ago, the CEOs, the major corporate officers of the Big Three came, just a few feet away, and met with the leadership in Congress. I had a chance to ask a question of the CEOs of Ford and General Motors and Chrysler. I asked a pretty hard question, but it was one that has been bothering me.

I said to them at the time: You know, I am one of your most loyal customers. I have owned cars and trucks from each of your companies and plan on continuing to try to buy your products in the future. But I am troubled because of the simple fact—I asked them—I said: Have any of you ever heard of a magazine called ''Consumer Reports''?

There was this kind of embarrassed silence in the room. I said: Well, I want you to explain something to me. Why, for the last 20 years, have American cars consistently shown poorer performance results than imported cars? Why have foreign cars, particularly from Japan, over the last 20 years consistently shown better performance results, better trade-in value? Why? What has been happening out there? We have the best engineering schools in the world. We started this industry, at least on a mass volume basis. Why is there such a difference in quality?

There was this pained silence while they waited for one of them to respond. Finally, one of the CEOs said: Well, we are getting better.

I said: I hope you are.

But the bottom line is, this industry now has been challenged. If the bill we passed last night is passed in the House of Representatives and becomes law, they will face a challenge. I, for one, believe they can rise to this challenge. I honestly do. It is going to call for a different mindset among the management at the highest levels in our automobile companies. It is going to call for the same spirit of can-do approach we have seen on the assembly lines from the workers. I think they can rise to this challenge.

I think America wants them to. I want to buy a car made in this country by American workers that is of the highest quality, that I can take pride in driving, knowing it is not only a good bargain for my family, but also a good deal for the environment.

That, I think, is what most Americans want to do. Now, that means there is going to have to be some new thinking. It means a lot of people in the boardrooms of those major companies are going to have to sit down and rethink their game plan.

I met with the man who is about to become the leader of Chrysler Corporation. He was talking about the fact that his private equity bought Chrysler because of their patriotic feelings.

They do not want this great American car manufacturer to go away.

Well, I know if you are in business, sentimentality takes you so far. At some point you have to produce a profitable product. I think there is a profitability product built into the Energy bill we talked about last night. I believe if there is a conscious effort by our automobile manufacturers, they can meet these fuel efficiency standards we have included in our bill.

They can convince a lot of skeptical Americans it is time to come back home, to start buying these American cars. Now, it will be a painful process. There will be winners and losers. But, ultimately, I have confidence in this country, in the companies that work in this country, and in the workers of this country. When they come together, they can achieve great things.

Last night we set down a challenge to them: Change what you are selling in America. Make it a better product. Make it a more efficient product. Make it a product that is going to help us deal with global warming and climate change.

I think most American families are on board for that agenda. That is why I think the passage of this was so important. We never would have passed this energy bill late last night were it not for a bipartisan effort. We had many Republicans who crossed the aisle to join us. I think ultimately 17 or 18 came over to join the Democrats in the key procedural vote that moved this forward. Then the final vote was 65 to 27; there were even more.

We could have never achieved this goal of a new energy bill were it not for bipartisan cooperation, if Republicans had not come forward.

For some, it wasn't easy. When the Republican Senate leader, Mr. MCCONNELL of Kentucky, stood up last night late in the debate and said: I want this debate to end, I want this bill to be defeated, I am going to vote no on the cloture motion—I heard him make that announcement—I was stunned. This is a bill which the administration believes has good elements relative to fuel economy. Yet the Republican leader stood on the floor and said: I am going to try to stop this bill. He did not prevail because 17 or 18 of his colleagues thought it was more important that the bill move forward. I salute them. It took extraordinary courage for them to do what they did.

There was another element in the Energy bill which is important to me because of my midwestern roots and because of my determination to see America shake its dependence on foreign oil. I am sick and tired of the United States hat in hand begging for oil from countries overseas. Many of these nations we turn to for oil don't share our values. In fact, some of them are on the wrong side in the war on terrorism. To think that every time you swipe that credit card through the gasoline pump or put the money on the counter, a portion of that is going to a nation which is funding terrorism is an outrage. It has to end. To think that time and again our brave soldiers, men and women in uniform, are drawn into conflicts in the Middle East because of oil is unacceptable. I don't want my grandchildren to face that. I want America to be as close to energy independent as possible. How do we reach that goal? Homegrown fuel, homegrown energy. We grow it in my State every year, a new crop of corn. With that new crop of corn, more ethanol, more alcohol fuels, and more biodiesel come from the soybean fields. That means we have less of a need to import oil.

Last night, in this bill, we raised to a much higher level our national goals when it comes to alcohol fuels, renewable fuels. It means a growing industry in my part of the world, in the Midwest, in Iowa, Illinois, Ohio, where ethanol plants are being built. These plants use local production of agriculture, corn by and large, and turn it into alcohol. The construction workers are building the plants, good-paying jobs. There are people at the plants making sure they are producing ethanol. They are shipping products in trucks driven by Americans to put in the cars driven by Americans. I feel good about this. We are moving in the right direction.

This bill made a significant commitment to strengthen the market for alcohol fuels. I was disappointed that my biodiesel program was not included. I wish it had been. I am not giving up. We have a farm bill coming up. We will have several other opportunities. I think biodiesel is great. It uses soybeans and other oilseeds to produce a vegetable oil added to diesel fuel so that we don't see that huge plume of black smoke coming out of the tailpipes of diesel trucks and cars, so there is less pollution. More homegrown energy is a good thing for the country. I want to include it as part of the energy picture.

This was a hard debate over the last 2 weeks. I am sorry it took 2 weeks. We wasted more time on the floor. I am sure the people who have C–SPAN on their cable often turn to it and say: What in the world is going on in the Senate? It doesn't look like there is any movement. Is anybody alive down there? The floor looks empty except for the handsome and beautiful staff we have here who are on television during the day. Many times there are periods when there is no activity. Time is wasted. There was time wasted on this bill. Time and again, the Republican minority forced us to wait 30 hours, file a motion, wait another 30 hours.

We have a lot to do. I think we owe it to the American people to roll up our sleeves and get it done. We need more bipartisan cooperation. We need to put an end to these endless motions and procedural delays. Let's get down to business. Wouldn't the American people cheer us if we said: Let's pass the 9/11 recommendations and turn them into law to make America safer; let's do something immediately about No Child Left Behind to send money to the schools so they can hire the very best teachers and produce students who are ready to compete in the 21st century. Wouldn't the American people cheer us if, instead of being lost in some procedural morass day after weary day, we came up with a way to help working families pay for college education expenses for their children so they don't end up graduating deep in debt and unable to take the jobs they had their hearts set on?

There are so many things we need to do. With a little cooperation from the other side of the aisle and a better approach, we can say to our Republican friends: You are entitled under the rules of the Senate to produce amendments, to ask for a vote, to ask for debate. But at some point, it has to come to an end. At some point, we have to move forward.

EMPLOYEE FREE CHOICE ACT

Mr. DURBIN. Mr. President, we are going to have a bill come up next week, a critically important bill known as the Employee Free Choice Act. I confess I come into this debate with strong feelings. I am a product of a family where my mother and father, my two brothers, and I were all members of labor unions. This was during a period where the labor movement created the middle class in America. It was World War II's aftermath. All of the returning veterans had an appetite to build homes, start families, open schools, and create the kind of middle-income working families who are the bedrock of America's democracy. The organization that helped these Americans move forward was the labor movement. Organized labor went into plants and factories and offices across America and said: Workers, if you stand together, if you bargain together, great things can happen.

They did. We created health insurance as we know it today, pension plans that have provided the kind of security people dream of in retirement, good-paying jobs in safe workplaces. The American dream was realized. People bought the second car, put the kids through college, had enough time for a vacation, and enjoyed the good life in America.

It is no coincidence that as the strength of America's labor movement has declined. So, too, have the wages of working families. Not that those working families aren't doing a good job; they are. They are producing more goods and services than ever. They are

more productive than ever, but they are not being paid for their hard work. They are not receiving a decent, livable wage so they can work one job and still have time with their family. They are not receiving the kind of health insurance protection they once received and fewer and fewer are receiving.

Taking a look at the numbers, in Illinois the median hourly wage fell in 2003, 2004, 2005, and 2006 by 4.4 percent. Think about that. The median wage of people getting up and going to work every day is not keeping up with inflation; it is falling behind. Health care benefits in Illinois, the share of the population under the age of 65 with employer-provided health insurance fell from 71.9 percent in 1999 to 68.2 percent in 2004. Fewer people had health insurance through their employers over a 5-year period. That is the wrong direction. Pensions are the same. In my State, 52.6 percent of the people had employer-provided pensions in the years 1998 to 2000. By 2003 to 2005, the share had dropped to under 50 percent.

I honestly believe if workers can organize, if they can bargain, we could have profitable corporations with quality goods and services, good employee morale, and employees treated decently. That can happen.

The Employer Free Choice Act says that we want to give employees who want to organize a fighting chance. Some will say during the debate: If a majority of the workers in the workplace sign a card and say, I want to be part of a union, the process moves forward. Currently, if 30 percent of the workers sign a card, they move toward an election. Do you know how long it takes to have this election? Do you know how long it takes for the employees to finally get their chance to vote today as to whether they want a union? The Chicago Tribune pointed out in March of this year that the average National Labor Relations Board disputed election—and so many of them are disputed—takes 802 days to resolve, more than 2 years. Just think for a moment: if we said that the interminable campaigns we now have for public office would double in length—instead of a year from announcing your candidacy to a vote, we will make it over 2 years—is it possible voters would lose interest in that period of time? Is it possible people could work on their minds about prejudices against a candidate or for a candidate during that time? Of course it is. We need to make this a reasonable period and a reasonable process that comes to the ultimate question: Do a majority of the workers at this location want to organize collectively to try to represent their best interests and the interests of their family? I believe that is only fair.

Tuesday morning, we will have a vote. I hope my colleagues on both sides will take a close look at the legislation. If we give more opportunities for workers to express their heartfelt intentions about creating a union and they do, what is going to happen in America is as positive as what happened after World War II. We are going to see more workers in safer workplaces with decent living wages, good health insurance, and good pension benefits, and the corporations will still make a profit. Instead of giving some CEO $600 million for very little performance, they may have to make do with $300 million. I know it is going to be tough, but I think they can get by and then take that $300 million and give it to the workers so they have a chance to enjoy a good life without indebtedness and without the worries that come with the current situation.

I hope my colleagues will join me on Tuesday in supporting this effort. I hope in joining me, we will see a change in the law and, with this change, we will see a dramatic improvement in the economic fate of American families.

PROTECTION OF CLASSIFIED INFORMATION

Mr. DURBIN. Mr. President, this morning's Washington Post had a front-page story that troubles me. It is about Vice President CHENEY and his attempts to exempt the Office of the Vice President of the United States of America from the Presidential Executive order that establishes a uniform, government-wide system for safeguarding classified national security information. The decision by Vice President CHENEY to exempt his office from this system for protecting classified information troubles me. It could place national security secrets at risk.

It is hard to believe the Vice President is taking this action given the history of security breaches involving high-ranking officials in his office. Scooter Libby, the Vice President's former Chief of Staff, has been convicted of several felonies: perjury, obstruction of justice, and false statements. He has been sentenced to prison in part for his role in disclosing the identity of a covert CIA agent and then misrepresenting that fact to a grand jury. Worse, it appears, at least according to these press reports, Vice President CHENEY has attempted to block inspection of Federal agencies and White House offices to ensure compliance with the security procedures required by the President.

According to the National Archives, the agency responsible for conducting the oversight, Vice President CHENEY asserted that his office is not ''an entity within the executive branch'' and, therefore, not subject to Presidential Executive orders. The Vice President is arguing that his office is not in the executive branch of Government? It is hard to imagine the tortured logic Vice President CHENEY is using to avoid the requirements of the law and Executive orders.

Then he recommended that the Executive order be amended to abolish the Information Security Oversight Office. Here is a Vice President who has already been challenged as to the groups he meets with and the people he consults with in making some of the most important decisions for the country's policy. Here is a Vice President who has sadly misrepresented this war in Iraq over and over again, from the initiation of the war, the existence of weapons of mass destruction, and now is saying that he is not covered by the law when it comes to the disclosure of classified information within his own office. This is evidence of arrogance of power, and it is unacceptable.

The Vice President of the United States and his former Chief of Staff are not above the law. They have to be held to the same high standard of performance as Members of Congress and every member of our Government. For the Vice President to believe he has no responsibility to meet this requirement of the law is, in my mind, a dereliction of duty and responsibility to the people of the United States. And then for him to attempt to abolish the agency that was putting pressure on him to follow the law shows he has gone entirely too far.

Vice President CHENEY is not above the law. He is required to follow the law, as every American citizen should. This situation and the prosecution of his former Chief of Staff are evidence of an attitude toward governmental responsibility which has to change. I sincerely hope the Vice President will make it clear in the week ahead that he is finally going to comply with these Executive orders, that he is going to make sure we protect classified information moving through his office so we do not compromise this important intelligence data that keeps America safe.

Mr. President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

HONORING OUR ARMED FORCES

PRIVATE FIRST CLASS THEODORE M. ''COTY'' WEST

Mr. MCCONNELL. Mr. President, I rise today to honor the legacy left behind by a brave young Kentuckian. In Berea, KY, people remember Theodore M. ''Coty'' West as a devoted husband, a caring older brother, a loving son, and a steadfast friend.

His fellow soldiers remember him as a sturdy soldier who cared about his buddies. His legacy remains in the form of a charity he founded that sends care packages to soldiers serving in Iraq. This work is now carried on by his family, in his memory.

PFC Theodore M. West—''Coty'' was his nickname—enlisted in the U.S.

Army in August 2005, and was assigned to the 2nd Battalion, 5th Cavalry Regiment, 1st Brigade, 1st Cavalry Division, at Fort Hood, TX.

He was deployed in Iraq in support of Operation Iraqi Freedom in November 2006. Just a few weeks later, on November 29, 2006, an improvised explosive device detonated near his vehicle during combat operations in Baghdad, tragically ending Coty's life. He was 23 years old.

For his valorous service, Private First Class West received the Bronze Star and the Purple Heart, along with numerous other medals and awards.

Private First Class West understood the values that set America apart have been paid for by freedom's defenders, and he wanted to join their ranks. In a letter to his church that arrived on the day he died, Coty urged his friends at home to ''sleep well tonight . . . because tonight we stand guard on the wall, and no one will get through to hurt you.''

That kind of courage to stand up to any enemy, that strength of spirit, made Coty West one of America's finest sons.

Coty grew up amidst the rolling hills of Berea, KY, surrounded by a loving family, a circle of friends, and a devoted young wife. All of these members of Coty's community hold special memories of him, from when he was a little boy to the day he left for Fort Hood.

It was in Berea, when Coty was only 4 years old, that he told his parents he and his brother Ben would go out and dig for treasure. His parents told their young treasure hunters to be safe and stay within sight. Imagine their surprise when Coty and Ben returned home with a collection of 14 antique silver dollars and some antique jewelry they had dug up in the yard.

Coty's family was important to him. They remember him gallantly saddling up and taking out his horse at the age of 8, in a saddle as big as he was, desperately trying to be brave, when he must have been scared to death.

And the time he and his younger sister Sheri enrolled in a hunting safety course so they could get their hunting licenses. The younger Sheri bested Coty by 10 points on the test, a fact he was never allowed to live down.

Coty and his family especially enjoyed taking road trips. They would travel to NASCAR races, State parks, and Civil War battlefields. It was something the family cherished, especially as the kids grew up. It gave them a way of all getting back together again.

On July 5, 2006, Coty married Jennifer Gregory in a military ceremony near her home in Greenville, KY. His father later wrote that ''the ceremony really fit Coty, as it was beautiful, it was country, and it was military.'' Jennifer remembers her husband as ''an angel . . . and perfect.'' I am certain Coty felt the same about her.

After graduating from Estill County High School, Coty worked in his family's energy and construction business as an operator and foreman. He was certain, though, that his career lay in the military. His father describes Coty as neither a hawk nor a dove, but a soldier. He viewed his job as protecting those he loved and waging war on those who would harm them.

Early on in his military career, Coty became aware of the financial burden combat could have on his fellow soldiers. He also felt for those with little or no family, who lacked the messages from home that so often sustain a young soldier.

So Coty began a charity to help his fellow soldiers going to Iraq. His efforts evolved into ''Coty and Friends,'' a circle of military families and supporters who would send soldiers needed supplies before their deployment.

But Coty never lived to see his plans come to fruition. He was killed before the first box of Coty and Friends supplies arrived in Iraq. The group's efforts still continue, in his memory.

The night Coty was deployed to Iraq, the last thing he told his family was: ''I love you all, I know you love me, I am good at my job, and I will see you soon.''

Coty leaves behind a beloved family. He is missed and cherished by his wife, Jennifer Gregory West, his mother, Rene Brandenburg, his father, Bill West, his stepmother, Mary Ann West, his sister, Sheri Miller, his brothers Dee, Matt, and Ben West, his grandparents Rufus West and Jessie Mae Brandenburg, and many others.

Coty West understood the price of freedom. He wanted his family to be safe here at home, and he saw that they would be, as he and his fellow soldiers stood guard on the wall. He gave of himself so others could enjoy what he fought to protect.

The Coty and Friends charity still brings his family together, and it still sustains our brave sons and daughters in Iraq who stand guard on the wall, so that others may live in peace and security.

This country will never forget PFC Theodore West's sacrifice. Neither will the soldier in Iraq who opens a Coty and Friends care package tonight. I ask the Senate to send their thoughts and prayers to the West family, who continue to give to their country, even after they have already given so much.

Mr. President, I yield the floor.

The ACTING PRESIDENT pro tempore. The senior Senator from Massachusetts is recognized.

Mr. KENNEDY. Mr. President, we are all thankful for those comments given by our Members about the extraordinary bravery and heroism of our men and women who serve in the Armed Forces of our country. All of us, day after day, salute their courage and their dedication to the country, and it reminds us of our responsibility of making sure we are going to get the policy right in Iraq. More about that at another time.

THE ECONOMY AND WORKING FAMILIES

Mr. KENNEDY. Mr. President, we find ourselves now in the middle of June, and it is important, as we move through the legislative agenda—and more on that next week—that we pause for a few moments and take stock about where our country is in terms of the economy of this Nation and take stock about where our country is with regard to working families in this Nation.

We often get tied up on particular pieces of legislation, but I think all of us are very mindful it is the working families of this Nation who have made America great. If America is great—and it is great—it is because of working families in all parts of our Nation.

We are mindful of our recent history: of those extraordinary men and women who lifted our Nation out of the Great Depression of the 1920s and the 1930s; the extraordinary exploitation of workers that took place, even prior to that time and during that period of time; and the struggle workers had in order to have a voice in the decisionmaking part of this Nation, in the workplace as well as in governmental policies, that influenced the conditions by which they worked. It was a long, continuing struggle. It was a long, continuing struggle, with a loss of life and blood that was shed and with battles that were fought—physically fought.

Out of the end of it came the trade union movement, which has made such a difference in terms of the life of this country, the fairness of the country, the economic fairness and economic justice of the Nation.

It has always impressed me—as one who has been a sponsor of the increase in the minimum wage, with a number of our colleagues—that even though many of these union members are making a good deal more than the minimum wage, that any time issues about the working conditions of fellow Americans who are at the short end of the economic ladder arise, they are always out there. They are always there. They are always not only speaking for but in support of their fellow workers in this country.

That was seen in this last year in the six different States that had initiatives about the increase in the minimum wage, where the representatives of the trade union movement were out there going door-to-door, working with other families, shoulder to shoulder, to try to indicate and reflect that this Nation wanted to make sure that work paid, that those on the short end of the economic ladder—primarily women—were going to be able to receive a decent wage for a decent hour's work.

We need to recognize, again, the majority of women who are out there receiving the minimum wage have children, so it is a children's issue, it is a women's issue. It is a civil rights issue because so many of those who earn the minimum wage are men and women of color. Most of all, it is a fairness issue. Americans understand fairness.

What we have seen over the more recent years is enormously distressing and disturbing because we have seen that those efforts of the trade union movement are targeted by unscrupulous employers and companies who are bent upon destroying the trade union movement and to move us back into a different time and a different circumstance for those workers.

We saw, in fact, it took 10 years for us to get an increase in the minimum wage. The minimum wage was purchasing, at the end of those 10 years, perhaps less than at any time in the history of the minimum wage. We have seen it reflected in the policies of this administration, when they cut about 6 million workers out of overtime and when they refused to include Davis-Bacon provisions for the restoration of the buildings and constructions down in the gulf coast because of Katrina and with a whole series of additional kinds of activities. We see the courts, as well, striking down protections in the last few weeks—protections for an increase in the minimum wage and overtime pay for homecare workers. We see the Supreme Court also effectively striking down equal pay for women. There is really an assault—an assault—on working families.

As we look back at the history of this country, what really reflects—these are general statements and comments, but let's look at what were the circumstances and what were the conditions I speak about. If you look at 1947 to 1973—and we are looking at the economic growth in the United States of America; this is the Economic Policy Institute—and you look over this chart and you see each segment of the American economy is all growing, virtually at the same rate. This was 1947 to 1973. America was growing together. This is extraordinary because we know we just came out of World War II. We had mobilized 16 million of our fellow citizens, and that had an extraordinary impact, and we had to retool the whole domestic economy and still we were able to see the growth in the United States of America move along at a similar kind of growth pattern so that all Americans and those at the lowest end of the economic ladder moving just a little bit faster, a little bit faster than some of those in the top 20 percent.

Then, from 1973 up to the year 2000, we find a new political philosophy taking place in this country. These were the policies we were going to see, the very dramatic and significant tax cut policies, the economic policies that took place in the 1980s and after, with the Republicans. We look at this and we see the level of growth between 1973 and 2000, and we see the lowest economic growth growing at the lowest rate and on up to those at the top growing the fastest—in a number of instances, growing three or four times faster than those at the lowest. That is a direct result of economic policies by primarily the Executive and Congress, which advantages those individuals at the top of the economic ladder and disadvantages those at the bottom.

If we look at what has been happening over the last 5 years, we see those at the lowest end of the economic ladder are now not only not moving up but falling further and further behind, and those top 1 percent—not the top 20 percent, but the top 1 percent—have been moving up so dramatically. So we are having a divided America.

Now, let's see what is the one factor that has had the greatest influence. This is an interesting chart because, remember, we talked about 1947 and how we all grew together. Look at this. We had the increase in productivity, that is the increase in workers' output, finding more efficiencies, more effectiveness, and we also found a corresponding increase in the wages. American workers were participating in the increased productivity, and with that participation all during this 20-year period, the American economy and Americans were growing together—growing together, not apart. We ask ourselves: Do we want to be a divided nation, or do we want to be one nation with one history and one destiny?

Then look what happened during the latter period. This is at a period of peak union membership. Wages and productivity rose together. America was on the road to prosperity, and all Americans were participating, and the trade union movement played an important role to ensure fairness in the workplace. Now we find that the unions are declining. And what happens correspondingly? As the unions decline, the workers fall further behind. Here we have real wages from the 1970s to 2000 virtually stagnant, and the increasing productivity which grew at 206 percent more than wages. What does that demonstrate? It demonstrates that we have seen the extraordinary growth in the profits. We find workers' wages have basically stabilized, but corporate profits grew up to 63 percent. Wages were down here, and profits were at the top during the same period of time that workers and unions are being attacked and attacked and attacked.

From 1947 to the early 1960s, right in here, we had effectively what we call the card checkoff, which is the subject of the legislation we will be voting on next Tuesday. Interestingly, the card checkoff was in effect all during this period of time: from 1941, 1946, 1956, right up to 1966. We had the card checkoff then.

The legislation we will be voting on next Tuesday has already been in effect and been utilized. We will hear a lot of statements on the floor of the Senate about a process and a procedure which is irregular and fraught with problems and complexities, but the fact is, we had it in use in the United States of America all during the period where we had economic stability and economic growth, and the Nation was growing together. Then, as the National Labor Relations Board changed and the Supreme Court and businesses got geared up, they effectively eliminated the card checkoff.

We have seen what has been happening in the workplace, and this indicates how abuses have skyrocketed. So when we had the checkoff, we had economic growth, we had economic prosperity, and America growing together. That is what we want. That is what next Tuesday morning is about—to restore this period of time when America, with the checkoff, was able to ensure economic growth and prosperity for workers across the board. That is what we are looking for.

Now, you say: Well, what are all these abuses you talk about? That is an easy word to use, but what are we really talking about? What we are talking about are these kinds of abuses which are the everyday abuses being used in the workplace.

First of all, the workers face too many roadblocks to try to get a union. Over here, workers who lead the union effort are fired. I will give examples and illustrations of that.

Then, the employer challenges the election results at the NLRB. So even if they have a successful vote for the union, too many of all of those results are challenged in the NLRB.

Then, the employer appeals the ruling often in court.

Then, the employer stalls and refuses to bargain for a first contract.

If you look at what has been happening in the courts, you will find more have been upholding the National Labor Relations Board when they have found against the workers.

Then, after 1 year, the employers, if they are able to delay, can seek to stop recognizing the union, and workers have to start all over again.

This is a pattern. This isn't a unique situation. This is what is happening now.

This is what is happening. The employees are fired in one-quarter of all the private sector union organizing campaigns. One-quarter are all fired. One in five workers who openly advocate for a union during an election campaign is fired.

Now, it is fair enough to ask—in 2005, here is the employer abuses chart. In

2005, 30,000 workers received backpay after the National Labor Relations Board found that employers had violated their rights—30,000 in 1 year alone. That means employers at some time during the year fired or violated the rights of 30,000 people—30,000. That is 30,000 we are talking about who are being treated unfairly.

Now, the question becomes, do workers really want to join? Are we talking about something that is a real problem or not?

Here is 1984 to 2005. Workers want unions more than ever, but can't join them. The percentage of nonunion workers who want a union is up 23 percent. The percentage of workers in a union is down 6.5 percent. So you would think with those kinds of indicators we would be able to have a clear pathway where people would have an opportunity to join, but that is not the case. What we have seen is out across the countryside, on a wide range of different kinds of issues, this is what is happening across the countryside for the average family in this country.

We find that gas is up 79 percent. We find medical expenses are up 38 percent. College tuition is up 43 percent. We find that housing is up 40 percent, and wages effectively are stagnant or up only 4 percent.

The survey we earlier saw about the numbers of people who wanted to join the unions show that over half of the workers—more than 60 million workers—would join a union if they could, but they cannot.

Now, we have given some of the flow lines and the statistics, but these charts show what happens to some real people: ''I was fired,'' Erron Hohrein, former boilermaker from Front Range Energy. This is a picture of him.

They forced us to attend meetings. They threatened that if our campaign was successful, our paychecks may suffer. Managers would follow me around the workplace at all times. They would not permit other workers to talk to me. They isolated me from my coworkers. Within days after the union election was certified by the National Labor Relations Board, I was fired.

This gentleman worked in that plant and found all kinds of safety concerns and raised the safety concerns to the employers and was told to keep quiet, even though he believed those kinds of safety matters were endangering the lives of the people with whom he was working. When he found that the employer was unwilling to try and address some of these safety conditions, he said: I am going to try and form a union. Then he had the following circumstances: within days after the union election was certified, he was fired. So this is happening out there. These are examples of the 30,000.

Anna Calles, who is a laundry worker in North Carolina:

The union was the only way to have better pay, good health insurance and equality, not discrimination. Cintas will never improve working conditions on its own free will. When we tried to organize, management told us that we would lose our jobs. The workers are scared. The NLRB has not been able to help much. We have had to wait three years to get a decision.

Delay, delay, delay, delay.

Cintas has appealed the NLRB's ruling that the company committed extensive violations of workers' rights.

So Anna and her coworkers are still waiting for justice.

These are real-life stories. It is quite clear why individuals want to be able to join the unions.

These are the figures which show that union members get better wages. These are Department of Labor statistics which show that workers are going to be able to have a modest increase 30 percent more—than those who are nonunion.

If we look at particular sectors of our economy—this is an interesting chart. A union job means higher wages for women and for people of color. Again, we are talking about equity in this country. We are talking about fairness in this country.

This is what unions do in terms of equity and in terms of fairness. If you look at women, the difference it makes in terms of helping, it is more than 31 percent; nonunion, if you are talking about African-Americans and Latinos—all of them are inevitably much better off. If you have the freedom to choose the union, it lifts the workers out of poverty. This is the Federal poverty line, this black line across here on the chart. Look at this. These are the national figures for these particular industries: cashier, childcare, cook, and housekeeper. If they are nonunion, they are below the poverty line.

If you are a cashier and a member of a union, you are just above it, a little less than $25,000. We are talking about people who have a sense of dignity and pride and desire to do a good day's work. These are men and women of pride. We are talking about $20,000 to $25,000 a year. For childcare, the difference at a union wage is just about at the Federal poverty level. If you are a cook, it is a little above the poverty level. For a housekeeper, it is just above it also.

This is a commitment to try to make sure we are not going to have our fellow Americans living in poverty. We are talking about people who want to work, can work, and will work. That chart is about as clear an indication of the difference, if they have an opportunity to join.

Mr. President, I will mention a couple of companies that have recognized the card check process. Some employers have been remarkably enlightened and say: We are going to let our workers, if they choose, have a checkoff, and we will recognize them. That used to be the way the law went. A number of companies, including Cingular Wireless, have supported that concept. This person said:

Management didn't pressure us to try to interfere. We didn't attack the company and they didn't attack us. We were focused on improving our jobs and making Cingular a better place to work.

This is Rick Bradley:

We believe employees should have a choice. . . . We make that choice available to them results . . . in employees who are engaged in the business and who have a passion for customers.

The ACTING PRESIDENT pro tempore. The Senator's time has expired.

Mr. KENNEDY. Mr. President, I ask unanimous consent for 1 final minute.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. KENNEDY. Mr. President, the purpose of this is to show that when America has been at its best and strongest, we all grow together. When we find out that America is divided—and the principal reason for this division is demonstrated with these charts; it is so often because employers have assaulted and attacked the rights of workers and their representatives over this history. We want to try to bring America back together again and make it stronger from an economic point of view.

A final chart shows that in Ireland, which has the one of the strongest economies in Europe and a high rate of union membership and strong annual growth, a partnership of decency and fairness goes hand in hand. I hope the Senate recognizes that on Tuesday when we vote.

The ACTING PRESIDENT pro tempore. The Senator from Alabama is recognized.

IMMIGRATION

Mr. SESSIONS. Mr. President, I wish to share some general comments on where we are with regard to immigration and, really, American workers. I am pleased to see my colleague, Senator KENNEDY, here. I know he believes strongly in the minimum wage and in union contracts and strikes and that kind of thing to get wages up. I will just say to my colleague that the real thing which drives wages, which helps working Americans be able to get higher wages and better benefits, is when their product or their labor becomes more valuable.

In this debate last year, I raised that question. I see my former chairman of the HELP Committee—the Health, Education, Labor and Pensions Committee—Senator ENZI. Senator KENNEDY now chairs that committee. When Senator ENZI chaired it, we had a hearing in September of 2006 with economists and experts to discuss the impact on working Americans, middle-class workers, the wages they receive as impacted by immigration. I don't think

there was a single dissent in that committee—everyone agreed that large influxes of low skilled immigrant labor bring down the wages of the American workers that compete with them. And the Judiciary Committee last year also had one hearing on the matter in April of 2006. Witnesses at that hearing also agreed unanimously that the wages of working class Americans are adversely impacted by large flows of immigrants into our country. How could it be otherwise? That is a basic economic principle—when supply goes up, the price goes down. When demand goes up and supply remains the same, the price goes up.

When I raised this point on the floor, Senator KENNEDY, during the immigration reform debate last year, responded to me. His solution was that we should raise the minimum wage. I responded that it is not my goal to have American citizens making $7 an hour; my goal is to create a free market economy where their labor is worth $12, $15, $18, or $25 an hour. These wage levels are being seen by workers in nonunion businesses in Alabama right now. We absolutely don't need to go back to a system that allows self-interested union organizers to force people into unions when they are already making higher wages then they have ever made before, as they are in Alabama. I absolutely don't believe that unions are the way to see us make progress on wages. But I am concerned that the net effect of large flows of immigration is that wages are being brought down. It is not responsible to have immigration policies that depress the wages of American workers.

Some of the immigrants are legal, but most are not legal. Together, they are pulling down wages of the Americans that compete with them in the labor market. We have had expert testimony to that effect. I cite to my colleagues a professor at the Kennedy School at Government at Harvard University, himself a Cuban refugee, George Borjas. He says that working wages for Americans have been pulled down by as much as 8 percent in the areas where immigration is highest. That is a significant amount. Instead of going up in a booming economy, wages have gone down. Alan Tonelson, a research fellow from the U.S. Business and Industry Council Educational Foundation testified that from 2000 to 2005, in job categories where competition from illegal immigrants is the highest, real wages—those adjusted for inflation—went down, even though demand for labor was going up. How could it be otherwise? Don't we believe in a free market? Does any farmer doubt that if more cotton and corn were brought into this country, the price of their product would go down? Certainly we know that. We deal with that issue every day in the Senate, and we understand it. Why that base economic free market principle would be denied and overlooked when it comes to how immigration effects the labor market is beyond my understanding.

So, sure, immigration is important. We are not trying to stop immigration. Immigrants are overwhelmingly good people, they are hard workers, and they want to make a better life for themselves and their families. But, we have to ask ourselves, what levels and types of immigration serve our national interest? How can we make sure our middle-class workers are not having their incomes substantially reduced in a time when the growth and prosperity of our nation should be putting part of the high profits being made into their pockets? We can make sure that lower and middle class Americans are benefitting from out surging economy if we do this immigration bill right. This bill doesn't do that, and that is why I oppose it.

I had a wonderful day yesterday with President Bush. We disagree on this issue. He made the comment in my hometown of Mobile that a Texan friend of his once said if we agree 100 percent on every issue, then one of us would not be needed. Well, we don't agree on this issue, but he has a good vision for America. He believes we need to do something about immigration and he has high ideals about it. He wants to fix our immigration system and he wants to fix it comprehensively.

I have said repeatedly, in the last 2 years of debate, that we do need a comprehensive fix, we need a guest worker program that actually will work and be effective, one that is responsive to the needs of the market without depressing the wages of the American worker. I have said that we need to replace the lawless system of immigration we now have with a lawful one, one that serves our national interests, and by that I mean the interests of the American worker and the long-term national interests of our country.

Sadly, I do not believe that the bill before the Senate comes close to creating a lawful system that serves our national interests. The Senate bill is a 750-page document that was plopped down here after only 48 hours of notice, without any committee hearings this year. It lacks cohesive policy goals. It is a political baby-splitting document crafted by politicians who were focused on the need to write something that could pass, rather than a document produced by professionals and experts and economists and law enforcement officials focused on how to create a system that will be honest and will work. That is what the debate is all about. Will the Senate bill actually work. So my disagreement with the legislation is not what it aspires to do, if I believed that it would do what it aspires to do—to secure the border and restore the rule of law then I'd be supportive of the bill.

You will hear my colleagues come to the floor and talk about their mama and grandma and that they emigrated from country X and we are all blessed because overwhelmingly, except for Native Americans—even their ancestors at one time came here—we are all descendants of immigrants. I want to be clear. Those of us opposed to the Senate bill are not against immigration. Instead, we want to do it right so that it serves the immigrants who come to America and serves America by selecting those who can be most benefited by the American experience and who will most benefit America.

We are indeed, I am afraid, moving to legislation that would repeat the error of 1986 in which amnesty was given and enforcement never occurred. Three million people were given amnesty then. Now we have 12 million people asking for amnesty again. What is the problem with the legislation? Let me share some thoughts.

First, under this legislation, the number of legal immigrants to be allowed into our country and to be given permanent legal status within the next 20 years will double. The legal number will double. Do you think most Americans understand that? I don't.

Let me briefly mention the history of immigration in our country.

From 1820 to 1879, we had what was called the great continental expansion, where people moved out toward the west. One hundred and sixty thousand came a year. Then it dropped off significantly.

From 1880 to 1924, they called it the great wave of immigration. Immigration averaged 580,000 people a year, a big movement of people into our country, and we continued to expand westward in our Nation. Then immigration again began to drop off, particularly during the Depression, and people's wages were down.

The period of 1925 through 1965 is sometimes referred to as the stop-and-settle period. During that time, immigration was at 180,000 a year, and the large great wave of immigrants that came in the decades before were assimilated into America. They became productive, mastered the language, and became part of a settlement and an assimilation that was important for our country.

In 1965, we developed the new system of immigration now known as chain migration, which resulted in about 500,000 immigrants a year up until 1990.

Since 1990, however, the number doubled, and it has been about 1 million a year. Since 2000, I suggest, counting the illegal flow, it has been at least 1.5 million a year, which is the highest rate of immigration in the history of our country.

This bill would basically double legal immigration and do very little to stop the illegal flow. This gives us no time

for a stop-and-settle period but perpetuates the record high rates of immigration for an indefinite period. That is where we are historically, and we ought to understand that. I don't think anybody would dispute, basically, what I just summarized for you.

Let me explain how the Senate bill will double legal immigration. Under current law, 23.4 million immigrants, including 19.6 million green cards and 3.8 million workers, would be admitted and here in year 2027. But under the Senate bill, the numbers would be 47 million immigrants, composed of 38.1 million green cards, twice the 19.6 million green cards that would be issued under current law, and 8 million, almost 9 million temporary workers on top of that. That number of temporary workers would be here on an annual basis. Some would have to leave every year and return every year but that is the potential number.

I am certain most Americans do not believe that doubling of the immigration levels in America is what was being discussed when people were promised comprehensive immigration reform. Doubling the legal rate, I believe, is contrary to the impression given by the bill's sponsors. People are not being told that reform means this kind of increase. In fact, I would think most people are expecting that immigration reform means we will reduce the rate of immigration which already is at the highest this Nation has ever had.

So this kind of knowledge, when it gets out to people, fuels cynicism about what Congress is doing, it fuels anger at the voters. I repeat, I don't think their anger is focussed at immigrants. I think it is focused at those of us in Congress who promised we were going to create a lawful system that would bring some control to our borders, and it ends up doubling the number of immigrants that come lawfully. That is part of the problem. Some people get mad at the talk shows. All the talk shows are doing is telling the truth, that people did not state clearly when they promoted this bill for passage. People ought to be cynical and they ought to be upset about that, in my view.

Mr. President, I ask unanimous consent to speak in morning business for an additional 10 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. SESSIONS. That is what this is all about. I was under the impression that when the bill promoters came forward from their secret meetings, they thought they had produced a bill that was going to give us a a lawful system of immigration. Didn't you hear that? Isn't that what you expected to be part of the product we would pass, that amnesty would be given but we would have a lawful system in the future, right? This is important. Isn't that what we were basically told by the people who produced this document, the 750-page bill they plopped down here without hearings a few weeks ago?

The sad fact is that the bill language does not keep the promises of its drafters. According to the Congressional Budget Office, a nonpartisan group that works for the Congress that helps us analyze legislation, Cost Estimate released on June 4: Implementing the bill's enforcement and verification requirements will only ''reduce the net annual flow of illegal immigrants by one-quarter.''

So that is a 25-percent reduction, approximately 2 million over 20 years. Twenty-five percent, do you think that is enough of a result for comprehensive reform? But wait, there is more. CBO also estimates that the bill's temporary worker provision will add approximately 1 million illegal visa overstays over the same 20 years. The bill will add an additional number of illegal overstays, more illegal overstays than under current law. That is because we already have a lot of temporary worker visa programs, and when you create new ones that will bring in more temporary workers, then more people are going to stay illegally.

CBO goes on to say this in their careful analysis:

Other aspects of the legislation are likely to increase the number of illegal immigrants, in particular through people overstaying their visas from the guest worker and H–1B programs. CBO estimates—

This is their report—

that another 1.1 million people would be added by 2017 as a result of the guest worker program, about half of them authorized workers and dependents, the remainder the result of unauthorized overstays. That figure would grow to 2 million by 2027.

Twenty years from now. The net result is that according to CBO, a mere 1.3 million less illegal immigrants will enter this country and live in this country in 2027 than would be expected under current law, where we expect 10 million under current law to come illegally.

They go on to say:

CBO expects that the enforcement measure and the higher number of overstayers would on net diminish the number of unauthorized immigrants by about 500,000 in 2017 and about 1.3 million in 2027.

What that means is when you take the 25-percent reduction of illegality at the border and an increase in visa overstays illegality, it comes out, according to their numbers, to only a net 13-percent reduction in illegality.

So we are going to double the legal number, see, and as a result we are only going to get a 13-percent reduction in illegality.

I say to the Members of the Senate, that is not what we are getting paid to do, that is not what we promised to do, that is not what we should do. That is not acceptable. I wish it were not so. I wish we had legislation before the Senate that would do better job at reducing illegal immigration, that would comprehensively fix our illegal immigration, but we don't.

I have been warning my colleagues about this and pointing out the flaws in the bill, and other Senators have pointed out flaw after flaw. We have this official report that indicates we have only a 13-percent reduction in illegality, and it is not right. We cannot pass such a bill and then go to our constituents and say we did something good for you, we fixed a broken system. We just cannot do that.

I urge my colleagues, no matter how much they want to see our immigration system reformed, no matter how much they have hoped that this legislation would be the vehicle to do it to consider my comments before you vote. A careful reading of this bill indicates it will not create the system they are envisioning, and we should not pass it.

Once again, didn't the promoters of the legislation promise more than this, that it would actually secure our border, that it would end lawlessness? Isn't that what they promised? Isn't creating a lawful immigration system for America a national imperative? Isn't it something we must do? No wonder the American people are cynical and angry.

Another promise we were given when the bill was introduced, and probably while it was being prepared, was that we would move to a merit-based system; that we would do a better job of identifying those people who apply to our country who have the greatest potential to flourish in America and do well. Canada does this. Sixty percent of the people who come to Canada come based on a merit-based competition. If you speak English or French, if you have some education, if you have special skills Canada can utilize, you get more points and you compete with others who apply. So they attempt in this fashion to serve the national interest. A move toward more skill based immigration is what Canada has done, and they are very happy with it. Australia does it. New Zealand does it. Other countries operate their immigration system in this fashion. They still provide immigration slots for refugees, as they always have, and if the United States moved to this system, we would still have humanitarian based immigration as well. We would not end those programs.

We were told that moving the United States to a Canadian or Australian immigration system might happen in this new bill. I was very interested in it because I urged my colleagues last year to have a point system or a merit based system in the bill. Nothing was even discussed about it last year and there was no hint of it in the bill that was offered then. So when I was told it was being considered this year, that presented some hope.

Unfortunately, the merit-based system that actually made it into the bill does not commence in any effective way at the passage of the bill, instead it will not increase the percentage of immigrants who come to America based on skills until 9 years after passage of the bill.

In 2006, employment-based or skill-based immigration made up 22 percent of our immigrant flow. In 2006, we only had 12 percent. So, recently, skill based immigration has made up 12 percent to 22 percent of annual immigration. As I stated before, Canada has 60 percent and Australia has 62 percent skill based immigration.

Under the Senate bill, skill-based or merit-based immigration will make up about 18 percent of the total immigration levels for the first 5 years. That is not even as high as we had in 2005. Then, for the years 6 through 8 after the bill passes, merit immigration will drop to 11 percent of the total annual immigration level, lower than the 12 percent we had in 2006. Even when the percentage finally increases after the ninth or tenth year, it only rises to as high as 36 percent based on skilled immigration, which is a little more than half of what the Canadian system now has.

I don't think that is a strong enough move, and it is a strong disappointment to me that this is the case.

Mr. President, I see my colleague from Wyoming, the ranking member of the HELP Committee, is here. I will not go on at greater length. I could do so because what I am pointing out to my colleagues today is fundamental flaws in this legislation. It is those fundamental flaws that one or two amendments are not going to fix.

The difficulty we have with amendments is the bill's sponsors, the group that was in the grand bargain coalition, have agreed that anyone who submits an amendment that changes any substantial part of the agreement they reached in secret somewhere without hearings, without input from the American people, will have their amendment voted down. They basically have said that publically and have told that to me personally. They say: JEFF, I like your amendment, I think it addresses a valid criticism. But, we met and we reached this compromise, and I am going to have to vote against it because we made a pact and we are going to stick together to make sure we move this bill through the Senate without any real changes.

That is what they have said on the floor of the Senate. They said: This violates our compromise. I am sorry, Senator, we can't vote for it. They ask their colleagues to vote the amendment down because it is a killer amendment, one that will harm their deal. They claim that if the amendment passes, the compromise will fail, and the whole bill will fall apart. JEFF, we have told you what we are going to do. Take it or leave it. Vote for it or vote against it.

That is fundamentally what has been said, and that is not right. That is not what this Senate is about. If they had a bill that would actually work, I may be irritable with the way it was produced and brought to the floor procedurally, but maybe I would be able to support it. Instead, I can only judge how valuable the bill is based on what it says and whether or not it will work. CBO says it will not work. I believe it will not work. I believe we are going to have another 1986 situation where we provide amnesty without enforcement. I believe we are again going to send a message around the world that all you have to do is get into our country illegally and one day you will be made a citizen.

There is another concern that I have not talked about much so far, but it is critical. I can show you why the Z visa and the legal status that is given to illegal alien applicants 24 hours after they file an application for amnesty will provide a safe haven and a secure identity for people in our country who are here unlawfully and who are actually members of terrorist groups. The bill provides them, without any serious background check, lawful identity documents that they can then utilize to get bank accounts, to travel, and do potentially fulfill their dastardly goals.

In fact, Michael Cutler, a former investigator with the immigration enforcement agency wrote an article in the Washington Times today titled ''Immigration bill a No Go'' discussing that very point. In careful detail, he explains the utter failure of this bill to protect us from terrorism.

In addition to stating that the bill would not reduce illegality, CBO also found out it is going to cost the taxpayers. You are used to hearing that the bill will make money for us, help us and make the Treasury do better, all claims that I have strongly disputed. But the way CBO scored the bill this year, it is going to be over $20 billion in costs in the next 10 years and may be closer to 30, and those costs to the Treasury will increase in the out years. That is because under this system, we are going to legalize millions of illegal immigrants who are uneducated, many illiterate even in their own countries, and statics tell us that they will draw more from the Treasury than they will ever pay in. I just tell you, that is what they say. And the numbers get worse in the out-years, dramatically worse. In fact, the Heritage Foundation has said, based on the amnesty alone—and I don't know if these numbers are correct but they were done by Robert Rector and he has been known to be very correct on many occasions—based on the amnesty alone, based on the educational levels and the income levels of the people who would be given amnesty, the cost to our country would amount to $2.6 trillion during the retirement periods of the people who came here illegally and would be given amnesty under the bill.

So that is a stunning number. I can't say with absolute certainty it is correct, but that is what we have been told, and we should be talking about it and studying it. We also know this: The net deficit caused by the bill according to the CBO score will grow each year after the first 10 years. They have said so themselves at last August's Budget Committee Hearing chaired by Senator ALLARD.

Mr. President, I thank the Chair. I hope my colleagues will study this bill carefully. I hope the Senate will reject it, not approve it. I hope we will do a better job in the future.

The ACTING PRESIDENT pro tempore. The Senator's time has expired. The senior Senator from Wyoming is recognized.

EMPLOYEE FREE CHOICE ACT

Mr. ENZI. Mr. President, I thank the Senator from Alabama for his steadfast effort to inform the Senate and other people about the flaws of the immigration bill. It is a bill that was put together by a coalition. It didn't go through committee. I have never seen a bill that passed this body that didn't go through a committee. That is because people put together the bill by bringing together their own pet projects and one saying to the other: I don't like your part, but if you will put my part in there, I will vote for your part and we will stick together to the bitter end. And that is usually what happens to a bill like that, it is a bitter end.

I don't think people are paying attention to their phone calls, their e-mails, and other things they are getting if they stick steadfast with that bill. But that is not what I am here to talk about today.

I am here to voice my strong opposition to the grossly misnamed Employee Free Choice Act. It should be called the Union Intimidation Act.

For generations, this body has faithfully protected and continually expanded the rights of working men and women. Today, however, the proponents of this legislation would do exactly the opposite and would strip away from working men and women their most fundamental democratic right—the right to a secret ballot. That is right. This bill would strip away the right to a secret ballot.

If the Democratic Party stands behind that principle, they should have to change their name. You can't strip away the right to a secret ballot from people of the United States or, hopefully, anywhere in the world. For generations now we have guaranteed to all

workers in our country the right to choose whether they do or do not wish to be represented by a union. That is very often a critical decision for most employees, one that entails significant legal and practical consequence. It is a fundamental matter of individual choice and an essential right in the workplace.

Given its importance, we have secured that right through the use of the most basic and essential tool of the free and democratic people—the private ballot. The private ballot is the way those of us who live in a free society select all of those we would ask to represent us. Everyone in this Congress was selected by a private ballot, and American citizens wouldn't have it any other way. That is why it is so astonishing to me the majority is trying to take us to this bill, this Union Intimidation Act.

Under this bill, the rights and safeguards for a private ballot would no longer apply when employees decide whether they want the union to be their exclusive representative in the workplace. It is a very disturbing development when this body, which has no greater purpose than the preservation of our democratic rights, would choose to tell the working men and women of this country that democracy will stop at the factory gate.

To make it even more astonishing, some of the very people now pushing this antidemocratic agenda are on record previously recognizing both the importance of the private ballot and the fallibility of just signing cards with the intimidator over your shoulder. In 2001, the lead sponsor of this misguided legislation in the House, along with 15 of his then-colleagues, wrote a letter to the Mexican Government regarding its labor laws in which they noted:

> The secret ballot election is absolutely necessary in order to ensure that workers are not intimidated into voting for a union they might not otherwise choose.

Now, what would prompt legislators in both Houses of Congress to lecture foreign governments on the necessity of private ballot union elections in their respective countries while simultaneously voting to deprive workers in this country of the same right?

In 1998, two of the AFL–CIO's most prominent unions argued to the National Labor Relations Board that:

> The National Labor Relations Board supervised election process is a solemn occasion conducted under safeguards to voluntary choice. Other means of decision-making are not comparable to the privacy and independence of the voting booth. The secret ballot election system provides the surest means of avoiding decisions which are the result of group pressures and not individual decisions.

What could possibly convince us to become partners in hypocrisy by joining these same unions and their surrogates when they now claim that we would strip workers of the right to decide the question of unionization in their own workplace by private ballot?

The view that the private ballot is the best way to determine employee choice and that alternatives such as card check are fatally flawed is not only shared by our colleagues across the aisle and labor unions, it is consistent with the views of the Federal Judiciary. The U.S. Supreme Court, along with the Federal Circuit Court of Appeals has uniformly, and over the course of decades, held that the private ballot is the best, most reliable, most democratic means of determining employees' free choice in the matter of unionization, and that all other methods, most particularly—most particularly—card signing are inherently flawed and unreliable.

With regard to signed cards, the Supreme Court noted that:

> Cards are not only unreliable because of the possibility of threats surrounding their signing, but because they are inherently untrustworthy since they are signed in the absence of secrecy and the natural inclination of most people to avoid stands which appear to be nonconformist and antagonistic to friends and fellow employees.

I wonder how many people here and how many people who might be listening have had somebody, a friend or somebody they are a little afraid of, bring them a petition to sign. How many people turned down that opportunity to sign that petition? I will bet not many.

With respect to the importance of the private ballot, one Federal Court of Appeals put it best when it observed that its preservation mattered simply because ''the integrity and confidentiality of secret voting is at the heart of democratic society, and this includes industrial democracy as well.''

That is what the judges say. So then what would make us reject the consistent—consistent—reasoning of the Federal Judiciary compiled in a host of rulings authored by scores of judges and accumulated over decades of time?

Finally, we should remember the cynicism of those who seek this legislation when they imperiously claim, ''We don't do elections,'' as if the democratic process was somehow beneath them. The source on that is Michael Fishman, the president of the Service Employees International Union, the largest property services local. Or when they arbitrarily dismiss fundamental employee rights by claiming, ''There's no need to subject the workers to an election.'' The source on that is Bruce Raynor, the general president of UNITE HERE. When labor leaders act like despots and tyrants, why would we conceivably make common cause with them?

There is no end to the fundamentally disturbing questions this legislation raises. Since this legislation was introduced, a host of claims have been made in an ultimately futile attempt to answer these questions. We need to stop and ask ourselves: What could possibly be the justification for this radical departure from our democratic tradition?

First, we have been told the current law is broken and that the system of private ballot elections is somehow rigged against labor unions. As proof positive of this claim, we have cited the fact that labor unions currently represent only 7½ percent of the private sector workforce, where at one time they represented 30 percent of the workforce.

At least in this instance the proponents of this legislation have gotten their facts and their statistics right, a notable departure from the avalanche of misinformation and completely inaccurate data that has characterized their side of this debate. However, what they have gotten entirely wrong is the notion that the decline in union representation levels has anything whatsoever to do with some infirmity in the law. Those who make this claim conveniently forget to mention that the law which they complain about today is identical to the law in effect when unions enjoyed their greatest organizing success and their highest levels of private sector membership.

The National Labor Relations Act, the statute which governs private sector unionization and which this legislation would radically change, has been substantially amended only twice in over 70 years—in 1947 and in 1959. The process of deciding the question of unionization by the use of a government-supervised private ballot election among all eligible employees has been unchanged for over 6 decades. This was the law and this was the process when union membership levels were at 25 or even 35 percent of the workforce. No one complained then that the law or the private ballot process was broken. No one ever claimed that either was so unfair or one-sided that we should change them by stripping away the employees' democratic rights.

As this chart shows, over the course of the last six decades, private sector union membership has declined steadily, but the law has remained the same. There is no doubt that the decline has been real, but organized labor and the supporters of this legislation need to look elsewhere for the cause of that decline since there is no connection between the law that has remained the same for 60 years and the steady decrease in union membership levels that have happened over that same time.

Second, we are told even if there is no infirmity in the law, employers now violate it with impunity and, therefore, unions cannot possibly win elections supervised by the National Labor Relations Board like they used to.

That claim is entirely erroneous. The reality is, when unions choose to participate in a fair, private ballot process, they are more than able to secure the support of eligible employees.

In fact, the success rate for unions in secret ballot organizing elections is at historically high levels. The union win

rate in initial organizing elections has been over 50 percent for 10 straight years. That is an unprecedented run. Even more unprecedented is the fact that the union win has increased each and every year for the past 10 years in a row. That is what this chart shows. Unions have never before enjoyed such a run of increasing electoral success as they have over the last 10 years. In the last 2 years unions have won a record of nearly 62 percent of initial organizing elections. This, too, is historically unprecedented.

Before anyone buys the phony claim about how the election process has suddenly become unfair, they need to not only realize that union electoral success is at record highs, they also need to compare the past. For example, the unions won organizing elections over 62 percent of the time in the last 2 years, and averaged winning nearly 56 percent of the time over the last 10 years. During the decade of the 1980s, the average union win rate was less than 50 percent. So it is going up. For example, in 1982, unions won less than 45 percent of the time. The same is true for the decade of the 1970s, when unions again averaged losing more often than they won.

Yet, despite union election win rates that were dramatically lower than the record highs of the past 10 years, and despite the fact that for many of those years the Democratic Party held the majority vote in one or both Houses of Congress, no one had the audacity to even propose that we should strip away from American workers the most fundamental guarantee of a free society—the right to a secret ballot. When Democrats were in charge before, they didn't even suggest that.

Now, the truth is, where unions choose to participate in a democratic process and make their case to the workers in an atmosphere of open debate, the system is fair and they are more than capable of success. Their unprecedented level of recent success plainly makes this point. Moreover, it does not remotely justify changing a process that has worked for more than 60 years. It certainly does not justify any change that strips workers of their democratic rights. In light of organized labor's unprecedented electoral success over the last 10 years, this bill is like a baseball hitter who is on a decadelong hot streak and batting .620, insisting that the game is unfair and that the pitcher's mound has to be moved back.

The claim that the employers are violating the law with increased frequency and making fair elections impossible is equally incorrect. In fact, the incidents of even alleged but unproven employer misconduct have actually dropped steadily and dramatically over the last 10 years.

That is what this chart shows. The current rate of alleged employer unfair labor practices represents a drop of nearly 24 percent compared to 1990; a staggering 42 percent when compared to 1980.

The ACTING PRESIDENT pro tempore. The time of the Senator has expired.

Mr. ENZI. I see there is another Senator left to speak here. I have a lot left to say. This is a very important issue. A lot more needs to be said when we are faced with a proposal to take away away the right to a secret ballot in a bill deceptively called the Free Choice Act. It should correctly be called the Union Intimidation Act.

I will reserve the remainder of my remarks and speak again a little later. When I speak later, I will ask the RECORD not show an interruption.

The ACTING PRESIDENT pro tempore. The Senator from Missouri is recognized.

Mr. BOND. Mr. President, I ask unanimous consent to be permitted to speak as in morning business for up to 10 minutes.

The ACTING PRESIDENT pro tempore. That is the order. The Senator is recognized.

(The remarks of Mr. BOND pertaining to the submission of S. Res. 252 are located in today's RECORD under ''Submission of concurrent and Senate Resolutions.'')

The PRESIDING OFFICER (Ms. KLOBUCHAR). The Senator from Ohio is recognized.

EMPLOYEE FREE CHOICE ACT

Mr. BROWN. Madam President, as we debated energy and immigration issues in this body for the last 3 weeks, there has been palpable anxiety that we all see in our States, we all see in our homes, about our economy and about the future of the middle class—the squeeze on the middle class, the declining or stagnant wages of way too many middle-class households. In 2005 the real median household income in America actually went down 3 percent, from the year 2000. In Ohio it was down almost 10 percent. The average CEO makes 411 times the wage of the average worker; in 1990 the average CEO made 107 times as much. We know what has happened.

More important, we need to look at what has happened to wages in this country in a historical sense in the last 60 years. From 1947 to 1973, when our country, after World War II, was growing, you can see how wages grew among different people in our economy. The bar on the left is the lowest 20-percent wage earners, up to the highest 20-percent wage earners.

So those are the lowest wages. The lowest incomes in our country saw their wages grow the fastest of any one of those groups.

From 1973 until 2000, you can see the increase. Every group still increased, but growth changed sharply. The lowest 20 had the lowest economic growth; the highest 20 percent had the highest. I would add, 1973 was the year we went from a trade surplus in our country to a trade deficit. In other words, before 1973, we exported more goods in terms of dollars, in terms of value, than we imported.

Since 1973, that number has gone the other way. It has gone dramatically the other way in the last 10 or 15 years. Now, since President Bush took office in 2000, we have seen an even greater change in income for all Americans. The lowest 20 percent had an annual decrease, as I mentioned earlier, but so did the second quintile, the middle, the slightly upper middle, and the top 20 percent all had income decline. The only group that had an income increase in this 5-year period or so was the top 1 percent.

We have seen clearly that our economy is not working the way it should for middle-class Americans. That is why there is such anxiety among middle-class Americans. That is why so many of us who were elected for the first time, including the Presiding Officer, to the Senate in the year 2006, we knew of that anxiety and talked about middle-class issues: about health care, education, about jobs, about trade, about income.

Here is the real story. Since around the time of the trade deficit, the trade surplus prior to 1973 turning into the trade deficit, we have seen wages and productivity go like this. For many years, from World War II, for about 25 years, if you were a productive worker, your wages reflected your productivity. In other words, the more money you created for your employer, the more you shared in the wealth you created.

That was the American way. That is how you build a middle class. You are more productive and you share in the wealth you create. But something happened in the early 1970s. Again, in 1973 we went from a trade deficit to a trade surplus. We can see from about that time on, that productivity in this country kept rising, but wages in our country have been relatively flat.

One other thing happened, in addition to in 1973 going from a trade surplus to trade deficit, that was the time with the most pronounced decline in unionization. As Senator KENNEDY pointed out earlier today, as we have seen fewer people who are organized into unions, we have seen more stagnation of wages, even with productive workers

With the decline in unionization and with the trade deficit, wages have stayed relatively flat. That is why we need a very different trade policy. That is why we need the Employee Free Choice Act.

I might point out the Employee Free Choice Act does not abolish the secret election process. That would still be

available. The bill simply enables workers to form a union through majority signup, if they prefer that method. So workers under current law may use the majority signup process only if their employers say yes. We think workers should make that determination, that we either want an election or we would like to do the simple card check. That will, in fact, increase unionization. We will also see that it will mean more mirroring of productivity in wages.

I would like to shift for a moment to some of my earlier comments about how in 1973, as we went from trade surplus to trade deficit, some of the things that happened in our economy. We know, going back not quite as far as 1973, only 15 years ago, the trade deficit in this country was $38 billion the year I first ran for the House of Representatives down the hall.

Today, the trade deficit in our country exceeds $700 billion. It has gone from $38 billion to $700-plus billion. President Bush, the first, said $1 billion in trade deficit translates into 13,000 jobs—$1 billion in trade deficit translates into 13,000 jobs. So do the math. We now have a $700 billion-plus trade deficit. We know what kind of havoc that wreaks on Steubenville, Toledo, and Portsmouth, Marion and Mansfield and Springfield and Xenia and Zanesville and all of these communities that were industrial towns that have had such damage done to their communities. They have had plant closings, they have had layoffs. Every time a plant closes, it means fewer firefighters, fewer police officers, fewer teachers in the public schools. We know what that does to our quality of life.

So the answer from the Bush administration, as we passed NAFTA and PNTR with China and CAFTA and every other trade agreement, as this trade policy has clearly failed, is: Let's do more of it. Let's do more trade agreements.

So now the President is likely going to bring in front of this body a trade agreement with Peru and a trade agreement with Panama. The President's U.S. Trade Representative, Susan Schwab, an honorable woman, straightforward, candid when you talk to her about this, she says: Yes, but now we have environmental and labor standards in these trade agreements.

But there are a couple of problems with that. First of all, we do not yet. We have not seen the text of the agreements. We have not seen, in fact, nor are we at all certain, that the labor and environmental standards will be inside the agreements; they may be side agreements. We tried that once with the North American Free Trade Agreements. The labor and environmental standards were outside the agreements. They were in a special side agreement, and they had virtually no impact. Where we had a trade surplus with Mexico when NAFTA was signed a decade and a half ago, now our trade deficit with Mexico is some $70 billion.

That same trade situation has exploded to a huge trade deficit with Canada also. So clearly we know in our communities how many plants have closed and companies have and jobs have moved to Mexico.

So the second thing we know about Jordan, about the trade agreements with Peru and Panama, the proposed agreements, is that the Secretary says they will enforce these labor and environmental standards as they unveil them, again not specific, not in writing yet.

The lesson again from this administration is when Congress, in the year 2000, passed the Jordan trade agreement, there were strong labor and environmental standards in that agreement. But when his U.S. Trade Representative, Mr. Zoelleck, assumed his position at USTR, Mr. Zoelleck sent a letter soon after to the Government of Jordan saying he was not going to, because of the dispute resolution, he was not going to enforce the labor and environmental standards.

Jordan has since pretty much become a country of sweatshops, where Bangladeshi workers, many workers imported from Bangladesh work at substandard wages and terrible conditions in sweatshop-like atmospheres and use Jordan as an export platform.

All of that tells me our trade policy simply is not working. If we are going to get serious about building the middle class—we spent a lot of time yesterday in Senator ENZI's committee, and Senator KENNEDY's committee, we passed legislation on higher education, the reauthorization of the Higher Education Act, passed bipartisanly. Senator ENZI showed great leadership, as did Senator KENNEDY and others. We need to do better to make education affordable for the middle class.

We need to do better with health care and better with prescription drug benefits. We need to continue to keep up with the minimum wage. We raised the minimum wage earlier this year. All of those things are important. But at the same time, two of the most important things that this body needs to do is to pass the Employee Free Choice Act to give the tens of millions of workers in this country who want to join a union the opportunity to organize and bargain collectively because it will mean higher wages and higher benefits. History absolutely proves that.

The other thing we need to do is to understand we need a very different trade policy, not more of the same, not Panama, not Peru, not Colombia, the way these agreements are written, not South Korea, the way that agreement is written, but agreements that serve the middle class, that lift up workers in the United States and lift up workers of our bilateral trading partners. Because we know that our trading policies will not be judged effective until the poorest workers in the poorest countries in the world are not just making products for Americans to use but that those workers are actually able to buy those products themselves.

We have seen that. Where we do trade right, we know it can work. We have clearly seen a trade policy that has failed. It is important, as this Congress looks at the trade agreements coming forward, Panama and Peru, and looks at trade promotion authority, legislation that may come in front of this body sometime this summer, that we keep our eye on looking at what has failed in trade policy and what has worked.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming.

EMPLOYEE FREE CHOICE ACT

Mr. ENZI. Madam President, I am fascinated to listen to some of these discussions to find out we can change the balance of trade if we took away the right of employees to decide by secret ballot if they do or do not wish to be represented by a union.

I also heard the argument, that pay and benefits would go up if we took away the Democratic right to a secret ballot. Fascinating. Fascinating. But, also, not true. You cannot take away rights from people in America and expect them to be happy about what is happening to them.

Now, I did see the Senator from Ohio in some national news broadcasts thanking one of the major unions for putting the Democrats in power; and, as a result, saying that they were willing to bring up this bill that would take away the right to a secret ballot. I don't think that is how things are supposed to work in America.

I began earlier and talked about several of the problems with taking away this right to a secret ballot under the Employee Free Choice Act—legislation that I believe should properly be called the Union Intimidation Act because that is exactly how it is going to work.

Previously I was discussing this myth rampant employer misconduct; and noted that contrary to these claims even allegations of misconduct have dropped significantly.

The truth is that the National Labor Relations Board scrupulously monitors the behavior of all parties during the entire period of a union-organizing campaign. Any misconduct by an employer that interferes with the employees' free choice in the election process is automatic grounds, automatic grounds, to set aside and rerun an election.

Now such misconduct not only includes any employer unfair labor practice, but it also includes even less serious transgressions, such as an employer's inadvertent failure to provide the

union with the names and home addresses of all of its eligible employees in a timely manner.

Every word that is uttered and every act that takes place during a union organizing campaign is subject to National Labor Relations Board review and scrutiny. If a party's words or conduct, clearly including the commission of any unfair labor practice, in any way disturbs the ''laboratory conditions'' required for an election, the NLRB is empowered to set aside the election and require it to be rerun.

However, the fact is only about 1 percent of the National Labor Relations Board elections are rerun each year because of the misconduct of either employers or unions. So you notice I am not saying this is all one-sided, that there are two sides to it. There are some that are set aside because of union misconduct.

Now, just like the number of unfair labor practice charges, this figure, has been steadily declining as well. The secret ballot election and entire union election process is remarkably fair, heavily scrutinized and monitored and tightly regulated.

Where an employer acts improperly over the course of a union campaign and adversely affects the outcome of the election, the National Labor Relations Board has full authority to set aside that election and order it to be rerun.

In addition, in those instances where an employer engages in misconduct that has the effect of dissipating a union's card majority, the law already allows the National Labor Relations Board to certify the union and require the employer to recognize and bargain with that union. This has been the law for nearly 40 years. The claim that employers are increasing violating the law is totally inaccurate.

What unions and their supporters would like—indeed, what they hope—to accomplish by this legislation is to characterize any expression of opposition to unionization as misconduct and choke it off. Fortunately, however, we do not live in a totalitarian country. We live in a country that protects free speech and fosters the open debate of ideas. It is for those reasons, rooted in the Constitution and the Bill of Rights, that current law does permit employers and employees that oppose unionization certain limited free speech rights. Even these, however, are strictly limited and closely monitored. The supporters of this bill, however, would seek to strip away even these limited democratic rights and to kill off any opportunity for free speech and open debate in the workplace. We cannot oppose totalitarian behavior abroad while sanctioning it in America's factories.

Thirdly, we are told that even if the law is not broken, even if fair elections are the norm, and even if employers do not violate the law as erroneously claimed, that union membership levels have been steadily declining and therefore the law must be changed. That is why they are trying to offer this early Christmas gift to union bosses. This is the only argument which proponents of this legislation have made that is at least based on fact. However, its fundamental premise is shockingly and radically wrong and represents a complete reversal of Federal labor policy.

It has never been and it should never be the role of the Federal Government to maintain or increase the level of unionization. That is a matter of free choice for individual employees, not a matter of Government mandate. The role of the Federal Government in private sector labor-management relations has wisely and for generations been one of neutrality. Our appropriate role has not been to guarantee unionization; it has been to guarantee free choice by employees. Our appropriate concern must always be the process, not the outcome.

When it comes to guaranteeing free choice and providing fair decisional processes, the history of government and society tell us unmistakably that the best means to achieve that end is through the use of a private, secret ballot. The proponents of this bill are not concerned about employee free choice at all. They are concerned solely with giving organized labor a way to stop their decades-long membership decline, the loss of membership dues money, and the loss of the political leverage such money buys.

This legislation is a transparent payback to organized labor—maybe not too transparent. I have been watching television, and that is exactly what has been said to the union leaders who came to DC. Catering to special interests is a disturbing enough phenomenon in Washington, but when the cost of such catering is the loss of employees' fundamental democratic right, the practice is just shameful.

I want to be sure all my colleagues know that the consequences of this bill's enactment would be far greater than merely increasing union membership. The bill the majority is asking us to consider today does more than take away Americans' right to vote on whether they want to join a union; it also upends the enforcement balance of the National Labor Relations Act and can destroy the ability of employers to control their workplace. In some cases, it also eliminates the ability of unionized employees to have a vote on accepting an employment contract.

The balance struck by the National Labor Relations Act drafters so many decades ago included a remedial system that is intended to make whole or repair any damage done by violations of the act. Instead, this bill will inject a tort-like system into workplace relations, and we all know how well the tort system works. Instead of encouraging speedy resolution of disputes before the National Labor Relations Board, this bill will drag them into the Federal court. The result will be a Federal court system even more clogged with litigation and delayed resolution of workplace disputes.

The bill also applies a stronger set of penalties, but only against employers. Even though unions face an annual average of almost 6,000 claims of harassment, intimidation, and coercion, it should come as no surprise that the bill's drafters see unfair labor practices as a one-sided affair.

The last part of the bill I would like to discuss is perhaps the part which worries me the most, and that is the imposition of mandatory binding interest arbitration. When employees decide to unionize, the first order of business is to negotiate a collective bargaining agreement with the employer. This agreement can cover every aspect of the workplace, including pay, hours, time off, working conditions, health and retirement benefits. Typically, a committee of union leaders negotiates with the employer, and once an agreement is reached, all of the unionized employees have the right to ratify the agreement. If they reject it, the union and employer go back to the negotiating table. Under this bill, these negotiations will be halted after a mere 90 days and a Government arbitrator will be called in to impose a contract on all parties. The workers would lose their right to ratify that agreement, the employer would have to comply with the terms of the contract even if it crippled the business plan, and the contract would be binding for 2 years.

This is a radical departure from the tradition of private sector collective bargaining in which parties to the contract, not some third party, make the terms of their own labor agreement. If this becomes the law of the land, we can expect the parties in labor negotiations to take radical positions to set themselves up for arbitration. This is because usually, the arbitration decision comes down in the middle of however far the parties are separated. So you have both parties taking radical stands, delaying until there is an arbitrator, and nobody having a part in the final say except the arbitrator. Again, while the current system encourages cooperation, this bill imposes conflict.

There is another side effect of this provision. Because a 2-year contract would be imposed on the parties, employees would lose the right to decertify or vote out the union for a period of at least 2 years. This would be the case even when they did not approve of the contract or where they originally signed union cards not knowing what they meant or even under pressure. I have no way of knowing whether this consequence was intended by the bill's drafters, but I can certainly guess.

Another little hidden gift to organized labor in this bill is that under

this legislation, there would be no private ballot vote when a union was attempting to get into the workplace; however, a private ballot vote would be required to let the employees get out of the union. Seems like you ought to be able to just get 51 percent to sign the card, and it could be done the other way too. But no. That alone should make it clear that the only intended beneficiary of this bill is organized labor bosses and that its proponents could care less about a worker's democratic rights.

To put it simply, this bill is an attempt to rig the system, deny employers any opportunity to present their views on unionization, and prevent employees who may oppose unionization from speaking to coworkers. It would impose a union on employees based on unverifiable evidence of a majority, severely limit employees' ability to get out of a union once they are in, and stack the penalties against the employer. This may be the perfect recipe to end labor's decades-long losing streak, but the only winners will be union bosses and their political allies. Not American workers.

I have listened to the speeches over the last couple of days as this bill has been promoted as something essential. Again, I am fascinated that the Democratic Party wants to take away the democratic principle of the secret ballot. One mythical reason they mentioned is that a private ballot election supposedly stalls the process. The fact is, according to 2006 NLRB statistics, once a certification petition is filed, there is a median of 39 days to an election, and 94.2 percent of all elections are conducted within 56 days.

Another myth out there is that the private ballot election silences prounion workers. Here are the facts: All employees have a guaranteed right to discuss their support of unionization and to persuade coworkers to do likewise while at work. The only restriction is the reasonable one that they not neglect their own work or interfere with the work of others when doing so. Employees have the unlimited right to campaign in favor of unionization away from the workplace. For example, they, along with union organizers, can visit employees at their homes. In fact, the law requires that employers provide unions with a list of employee names and home addresses for just such a purpose.

Employee speech is virtually unregulated. In an effort to gain support for unionization of employees and unions, for that matter, they can promise, can pressure, can provide financial incentives such as waiving union fees, and can spread false claims, distortions, and misrepresentations, all with no consequence. By contrast, the employer speech is strictly limited, closely monitored, and regulated. Employers cannot lawfully visit employees at their homes. Employers can't even invite an employee into certain areas of the workplace to talk about unionization. Employers cannot promise and cannot make any statement that could be construed as threatening, intimidating, or coercive. Such behavior is strictly unlawful for the employer.

The other side says the Employee Free Choice Act, which I call the Union Intimidation Act, allows workers to have an election if they want one. We just heard that argument. The fact is, we have a body around here—a couple hundred researchers at the Library of Congress—that does research in a nonpartisan manner. They look at the facts and pass them on to us. They were asked about employees being able to have an election if they want one under this bill. The Congressional Research Service disagrees with their supposition. They read the bill's words that say ''the board shall not direct an election'' the way most reasonable people would read them. In a memo to me which was entered into the Health, Education, Labor and Pensions Committee hearing record, CRS wrote:

> An election would be unavailable once the board concludes that a majority of the employees in an appropriate unit has signed valid authorizations designating an individual or labor organization as its bargaining representative.

The Democrats' own witness at the HELP Committee hearing in March admits that it is not true that any one employee who prefers to vote by secret ballot election can secure such an election. That is their own witness saying: Not true. It was Professor Estlund who said that in response to a question for the record.

Essentially, private ballot elections will only take place under H.R. 800 if the union chooses to have one by submitting authorization cards from less than 50 percent of the workers. As a practical matter, that will never happen. If union organizers cannot get enough cards in a public, coercive, intimidating signing campaign, they just don't bother with an election.

Another myth: The Employee Free Choice Act, which I call the Union Intimidation Act, would increase health care and pension benefits. We heard that a few minutes ago. Wishing or asking doesn't make it so. Health insurance, like higher wages and benefits, cost money. Unions don't have to contribute a single penny toward those costs. In fact, since unionized operations are less efficient, they make paying for those things more difficult. They don't take into consideration the business plan and how to continue the business.

Comparing union wages versus nonunion wages nationwide is also inherently misleading since union workers are concentrated in geographic areas and industries where the wages and benefits of all workers are generally higher.

Another myth: Workers seeking to form unions are routinely fired; one in five is fired; one in five is fired every 20 minutes.

OK. Let's look at the facts on that. To begin with, under current law, it is illegal to terminate or discriminate in any way against an employee for their union activities. If this occurs during an organizing campaign, the National Labor Relations Board not only remedies the violation, it is also empowered to set aside and rerun the election since the necessary ''laboratory conditions'' for a valid NLRB election have not been met. However, that occurs in less than 1 percent of all elections, and that number has been steadily decreasing.

That is not the end of the NLRB's authority under current law. If the National Labor Relations Board finds a fair election is not possible, they can certify the union regardless of the vote and order the employer to bargain.

Yesterday, we heard this same myth repeated, and it is based on three phony analyses by stridently prounion researchers, who often make a series of wholly unfounded assumptions and routinely misuse statistical data.

The first analysis arrives at its conclusions by taking the number of National Labor Relations Board reinstatements offered each year, assuming that half occur in the context of an organizing campaign, and then dividing that number into some completely mythical and arbitrary number of ''union supporters''. Now, even if the first assumption was right, it is the number of supporters that matters. The lower the number, the more dramatic it looks. This number, however, is completely made up. There is no factual basis for determining this number.

Here are the facts. In 2004, for example, nearly 150,000 employees were eligible voters in National Labor Relations Board elections. Using their assumptions, there were only about 1,000 reinstatement offers that year. That is not 1 in 5; that is 1 in 150. Even that is likely very high since the vast majority of these offers are settlements which do not account for the fact that many of these terminations may have been perfectly lawful. Moreover, since unions won over 61 percent of these elections, their supporters amounted to at least 90,000.

Now, the second ''analysis'' uses the National Labor Relations Board's backpay figures as the basis for this claim. Here is the problem. The vast majority of those backpay claims do not arise in the context of an organizing campaign. They do not involve union employee terminations. And they do not single out union supporters. Most involve bargaining violations with already-established unions. In 2000, for example, two-thirds of the backpay number involved a single case that had absolutely nothing to do with an organizing campaign.

The third study consisted of stridently prounion researchers calling union organizers about campaigns they conducted over a short period of time in an isolated geographic area. The ''statistics'' relied on were nothing more than untested anecdotes.

So as this discussion continues, we are not going to allow incorrect and distorted numbers, and misused and misinterpreted data to obscure what is really at issue here. This is about taking away the right for people to have a secret ballot. Again, I want to reiterate that while this bill may be grossly misnamed as the Employee Free Choice Act, it has absolutely nothing to do with preserving free choice. In fact, it's just the opposite. How would you like to have someone come into your house with two or three people—one of them being very big—and pressuring you to sign a union card? Would you feel a little intimidated? Most people certainly would. Would you sign because you felt pressured, because you just wanted to have people stop bothering you, or because you didn't want to offend a coworker or friend? Most people would. However, under this bill all a union would have to do is obtain 51 percent this way and it is automatic.

Once the total reaches 50 percent, there is no latitude. These claims that employees could still have an election under this bill are simply not true. Oh, yes, there is this extraordinarily deceptive claim that a union could stop at 49 percent and ask for an election. That is simply nonsense. Why would a union ever do that. More importantly, how could employees make the union stop under 50 percent. They can't. And the unions certainly won't stop—with one percent more they have guaranteed members, and guaranteed dues. Do you really think they'd risk that in a secret ballot where someone who signed under pressure would have the right to change their mind and vote their real beliefs? Why would a union ever do that? Guaranteed union members and guaranteed dues. Do you really think union organizers would actually risk that by giving employees a truly free choice? I do not think so.

It is a fundamental democratic principle to have a secret ballot. The proponents of this legislation would do exactly the opposite and strip away from working men and women this most fundamental democratic right. The proponents of this bill ought to change the name of their party if they continue to advocate this legislation.

I yield the floor.

The PRESIDING OFFICER. The Senator from New Mexico is recognized.

THANKING STAFF

Mr. BINGAMAN. Madam President, last night the Senate worked late to produce an energy bill. I believe it is a good bill. It does not contain all I had hoped it would. Obviously, I regret that we were not able to go ahead with a vote on a renewable energy or electricity standard and also that we were not able to invoke cloture on the tax title of the bill. Nonetheless, I do think the bill will make important contributions to our energy security. I am proud to have worked on it with my colleagues.

Much has been said about the bill, and I am not going to debate the issues involved again today. We spent 9 days debating the bill and filled many pages of the CONGRESSIONAL RECORD with that debate. But I would like to thank the many members of the Senate staff who have invested such long hours and enormous effort over the last couple of months to make this bill possible.

In the hurry to get the vote accomplished last night, it was not possible to express appreciation to these staff members whose assistance was absolutely invaluable.

First and foremost, I thank Bob Simon, the staff director of our Committee on Energy and Natural Resources. His knowledge of the issues, his wise counsel, and his tireless energy were invaluable to me and to the Senate, in my view.

I also, of course, thank Sam Fowler, our general counsel. He was involved at every step in the development and the passage of the legislation. The work product we have finished with out of the Senate is much better for his involvement.

In addition, I thank Allyson Anderson, who worked on the carbon sequestration title and geothermal issues; Angela Becker-Dippmann, who kept track of the 350 or more amendments that were filed on the bill; Patty Beneke, who worked hard on the oil and gas leasing and public lands issues; Tara Billingsley, who worked on the biofuels title; Michael Carr, who worked on coal and transportation issues; Deborah Estes, who worked on the efficiency title; Leon Lowery, who labored mightily on the renewable energy standard or electricity standard; Jonathan Epstein, who worked on the science issues; Scott Miller, who helped on biomass and tax issues; and Cathy Koch of my personal staff and the staff director of the finance subcommittee on energy taxes, who played such a large role in crafting the tax amendment.

I also thank the rest of the professional staff of the committee, who pitched in to help when called upon: David Brooks, Paul Augustine, Jonathan Black, Mike Connor, David Marks, Jorge Silva-Banuelos, Al Stayman, and Bill Wicker; our support staff: Mia Bennett, Amanda Kelly, Rachel Pasternak, Britini Rillera, and Gina Weinstock.

Also, we have four excellent interns working with the committee this year: Kristen Meierhoff, Ben Robinson, Jodi Sweitzer, and Matt Zedler.

I also express appreciation for the work of the minority staff of the Committee on Energy and Natural Resources, and specifically: Frank Macchiarola, who is the Republican staff director; Judy Pensabene, who is the Republican chief counsel; Kathryn Clay and Kellie Donnelly.

I commend the Senate Finance staff who worked so tirelessly to craft a tax package that would have been an invaluable complement to the authorizing legislation. Senate Finance staff on both the Democratic and Republican sides of the aisle worked in concert to forge a bipartisan package and did that under the direction of Senators BAUCUS and GRASSLEY. I acknowledge their excellent efforts. The staff includes Pat Bousliman, Ryan Abramam, Jo-Ellen Darcy, Elizabeth Paris, Pat Heck, Mark Prater, John Angell, Bill Dauster, and Russ Sullivan, of course, the staff director.

I also thank Tom Barthold and the entire staff of the Joint Committee on Taxation, who helped us greatly, particularly with the tax package that was offered as an add-on to this bill.

Finally, I express my gratitude to the majority leader's staff. I have expressed my gratitude to the majority leader many times for his leadership in getting this bill to the floor and getting it passed through the Senate, but let me also thank the majority leader's staff and very able floor staff: Marty Paone, of course, the secretary for the majority; Lula Davis, the assistant secretary; Chris Miller, the majority leader's senior policy adviser; and all the other members of the staff, on both sides of the aisle, who worked very hard to see this happen.

To each of them, I extend my heartfelt thanks.

Shakespeare lamented how ''oft good turns Are shuffled off with such uncurrent pay.'' I think if he were speaking today, he would probably say: Are shuffled off with such inadequate pay as a simple thank you.

So uncurrent or inadequate though it may be, our thanks is owed to all of the many staff members on our committees and in our personal offices whose hard work and professional assistance have made this legislative accomplishment possible. I am very grateful to each of them and wanted to acknowledge their contribution today.

Madam President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CORNYN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded,

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CORNYN. Madam President, it is my understanding that roughly 30 minutes remains allocated between the Senator from Utah and myself.

The PRESIDING OFFICER. The Senate is in morning business with 10-minute grants.

Mr. CORNYN. I ask unanimous consent to speak for up to 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

SENATE ACCOMPLISHMENTS

Mr. CORNYN. Madam President, I come to the floor this afternoon to respond to some remarks made by the distinguished majority leader earlier today. The majority leader listed accomplishments he believes the new majority has accomplished during the 6 months that new majority has been in power. He talked about homeland security funding, the SCHIP program, appropriations, the budget, Iraq, Attorney General Gonzales, and the Energy bill.

One of the things I admire about the majority leader is that he is a very good advocate. He knows how to put a good face on the facts. But I wish to suggest to my colleagues here that in reality, the current state of affairs in the Senate is not nearly as rosy as the majority leader would have us believe.

We spent nearly 2 weeks trying to craft an energy bill that would relieve some of the pressure on American consumers when they fill up their tanks or go to pay their electric bills. Unfortunately, the bill that was offered will not provide a single watt of new energy or a single drop of new oil. Instead, we saw amendments that would have improved the bill in this area defeated time and time again. Moreover, it will actually raise prices for consumers.

This bill, in fact, that was passed last night is bad energy policy because it will raise energy prices for consumers. It will enact, if finally signed into law, price controls, returning us to the failed energy policies of the 1970s and the 1980s, which produced shortages, gas lines, and other severe economic dislocation. This energy bill passed by the Senate last night will increase costs for American energy companies. It will force them to do more of their investment outside of the continental United States, and it will increase—not decrease but increase—our dependence on foreign sources of oil and gas, primarily from dangerous parts of the world and enemies of our country. It will enact unattainable Federal mandates. It will reduce the Nation's ability to compete in the global market against much larger state-owned energy companies for reserves around the globe. Finally, it will continue the prohibition on expanding the domestic production of oil and natural gas.

Instead of trying to work through these problems in a bipartisan way to try to actually bring results and solutions that make sense, the majority leader chose instead to file cloture on the bill, which means, of course, to close off debate and to force a vote so we could speed through it without resolving the predicament Americans will continue to find themselves in, with high prices at the pump and when they pay their utility bills each month. Last night, I am sorry to report, this body approved this ineffective—and perhaps even harmful—legislation.

Why, I might ask, were we so quick to pass this bill before we could turn it into something that might actually help the American consumer? Well, as it turns out, the reason we were in such a big hurry to close off debate and to stop our work before we could actually provide some relief to the American consumer when they pay their utility bills or when they fill up their gas tanks is because we have to turn to a bill that big labor regards as their single most important legislative agenda, and that is to eliminate the right of prospective union members to the secret ballot. That is right. The bill we are moving to next because we didn't have enough time to finish the energy bill to actually provide some meaningful relief for American consumers is designed to help labor unions intimidate workers into the decision of whether to unionize.

Our friends on the other side of the aisle are demanding that the U.S. Government strip workers of the right to a secret ballot when it comes to the decision of whether to join a labor union. As a matter of fact, they have deceptively named this bill the ''Employee Free Choice Act.'' This is anything but a matter of employee free choice because it would deny workers the freedom of choice, exposing them to intimidation and manipulation that comes from anything other than a secret ballot. This bill ought to be called the ''Employee NO Choice Act.'' It provides opportunities to bully workers into joining labor unions, stripping them of the valuable right to a secret ballot.

Why in the world would we move from one of the most pressing problems confronting our country today—literally a national security problem relating to our dependence on foreign oil—and failing to address the most pressing concerns that most Americans feel each day because of high gas prices and high electricity prices? Well, apparently, the answer is to turn to a partisan matter such as avoiding the secret ballot for union members.

Some of those who have given support to those across the aisle have attempted to provide the rationale. One explanation given last fall was that ''the Democrats are beholden to labor and must pass the Employee Free Choice Act.''

Unfortunately, this has the simple feel of political payback for efforts made by labor to provide Democrats control of Congress last November. I cannot see any other logical explanation for the timing and interruption of one of the most important pieces of legislation Congress will consider this year. In fact, just last week, the majority leader's spokesman explained that ''we need to make clear to the American people that we are following through on the promises we made in November.''

Madam President, I am not alone in my hesitation about this bill stripping American workers of a fundamental right. Just a few short years ago, Democratic Members of Congress, including the author of the House version of this bill, wrote to officials in Pueblo, Mexico, to urge use of secret ballot in union elections. In that letter, those Democrats set forth the reasons secret ballots are essential. They said:

> We feel that the secret ballot is absolutely necessary in order to ensure that workers are not intimidated into voting for a union they might not otherwise choose. . . .
>
> We feel that the increased use of the secret ballot in union recognition elections will help bring real democracy to the Mexican workplace.

I agree with the letter, but I disagree with this bill, which would strip workers of this valuable and fundamental right. Why would our colleagues on the other side of the aisle want to give big labor the power to intimidate, potentially, American workers? Why urge free choice and democracy in the international workplace, while offering no choice to American workers?

I am afraid the answer is clear. Union memberships have declined. According to the Bureau of Labor Statistics, union membership is down from 20 percent of the workforce in 1980 to just 12 percent now. Less than 8 percent of private sector workers belong to a union today.

As a recent Washington Times editorial explains:

> Card-check unionization has quickly become the only way big labor seems to increase membership these days.

Big labor helped elect Democrats in the 110th Congress. In fact, union PAC contributions to Federal candidates increased 11 percent from 2004 and are higher than any other industry grouping.

The Center for Responsive Politics found recently that since 1989–1990, labor unions have comprised 6 of the top 10 political donors to Federal candidates and political parties, ranging from the AFSCME, to Teamsters, to the Service Employees Union.

This has all the earmarks of political payback, plain and simple. This should not be the reason we have taken up valuable time on the floor of the Senate—to deal with political payback. Now is not the time to repay political favors, when the Senate has a seemingly endless list of more pressing and urgent matters to solve. True free choice in any election only comes with the secret ballot. I think we all intuitively understand that. Union elections are no exception.

American democracy must preserve an employee's right to a secret ballot when deciding union representation. We should not even be considering this bill, but if forced to, we should oppose it.

I also want to point out on this front, in case you don't believe this matter is motivated by pure politics, that the majority leader scheduled a vote on cloture on the motion to proceed to the immigration bill immediately following the procedural vote on the secret ballot bill on Tuesday. So no matter what happens on the vote to proceed to the union payback bill, we will not actually be considering that legislation—even if we were to vote to go to it. How can this exercise be categorized as anything other than a waste of the Senate's time?

I wish I could report that this is the first time our colleagues on the other side of the aisle, who control the Senate calendar, have held votes that waste time and divert attention from issues that are much more important. As America struggles with record prices at the gas pump, and our broken immigration system is in desperate need of reform, the new leadership of this majority believes the Senate should spend more time and energy on a nonbinding and purely political resolution on the Attorney General. I think that is unfortunate. Unfortunately, it is also indicative of the priorities we have seen.

Since taking control of the Congress 6 months ago, our colleagues have refused to address needed reforms of entitlement programs. The Children's Health Insurance Program, better known as SCHIP, that the majority leader said would greatly expand and provide benefits to individuals—unfortunately, we have not taken that matter up. In fact, our colleagues on the other side of the aisle have transformed this program designed to help children in need of having health insurance to one that would cover adults and children who are part of families making double the income the program started with. Instead of children of modest economic means, it has been expanded now as a new Government entitlement, leading the way more and more to a single-payer, Government-run system out of Washington, DC.

The majority leader also pointed out successes relating to the budget, while highlighting that the 109th Congress didn't even pass a budget. What the majority leader didn't say is, this budget contemplates the single largest tax increase in American history.

If the majority leader believes passing a tax-and-spend budget that includes the largest tax increase in history, does nothing to control entitlement spending, and explodes the debt is an accomplishment, well, it may be an accomplishment for tax-and-spenders, but it certainly was not an accomplishment for the American people. This budget was not an accomplishment for middle-class families and American entrepreneurs who will get socked with the highest tax increase in our Nation's history.

This budget was not an accomplishment for our children and grandchildren, who will have to deal with the consequences of this body's refusal to reform entitlement spending—a fiscal tsunami that we all know is coming. If we do nothing about entitlement spending, we soon will not have a dime to pay for anything else except four things: Social Security, Medicare, Medicaid, and part of the interest on the debt.

This budget was certainly not something to be proud of. It includes more money than what the President asked for and doesn't eliminate a single wasteful Government program. It adds to our Nation's debt, and it raises taxes on middle-class families.

To date, this Congress, under the new majority, has failed to send any meaningful legislation to the President's desk for signature. Instead, the majority leader pulled the immigration bill from the floor, delayed consideration of an energy bill, ultimately passing a bill that will fix none of the current problems, and pursued political resolutions aimed at weakening the President, at the expense of strengthening our Nation.

Only one of the ''six for '06'' initiatives that our Democrat colleagues heralded when they got elected to the majority have become law, due in part to their lack of bipartisanship and cooperation.

Their agenda so far has included passing a budget with the largest tax increase in American history; increasing spending on wasteful programs; they have sought to micromanage the war rather than to give our commanders and soldiers, sailors, airmen, and marines on the ground the opportunity to actually succeed; they forced our troops to shoulder pork barrel projects and made them wait 117 days to get a bill to the President that he would sign—an emergency spending bill that would get necessary relief to our troops in a time of war; they sought to raise the minimum wage without protections for small businesses; they have hampered the 9/11 Commission recommendations with paybacks to unions; they forced taxpayers to fund embryonic stem cell research under circumstances that many Americans would find crosses a moral line, by taking life in order to conduct scientific research; they have undermined a successful Medicare prescription drug plan in favor of a Government-run health care plan, and opposed market-based solutions.

My friends across the aisle have had a rough go of it during their first 6 months in the majority. They would have you believe, and the majority leader would have you believe, from his comments earlier today, that they have not been able to accomplish anything because of their narrow majority here.

In truth, however, the blame lies with the incredibly partisan way in which the majority has conducted themselves. They have refused to cooperate with this side of the aisle to accomplish many good things for the American people, instead filing a record number of cloture motions and bringing this body to a halt—40 times so far this Congress, compared with 13 during the same period of time in the 109th Congress, 9 in the 108th, and only 2 in the 107th Congress.

I am here to urge our colleagues in the majority to discard the approach they have attempted so far, which is to ram legislation through a closely divided body without compromise. This has not worked for them so far, and it will not work for them in the future. Even more important, it will not work to solve the problems of the American people.

In order to do the job the American people sent us here to do, we have to work together. As my Democrat colleagues have pointed out many times in the past, we are not the House. We must continue to look at all issues that are vital to the American people. We must compromise on those issues in good faith to do our very best, and we must put an end to the time we are wasting on such divisive, partisan issues, such as frivolous votes of no confidence against the current administration and payback to big labor for November favors.

I yield the floor.

The PRESIDING OFFICER (Mr. BINGAMAN). The Senator from Utah is recognized.

Mr. HATCH. I ask unanimous consent that I be given enough time to make this speech, as long as I finish before 2 o'clock.

The PRESIDING OFFICER. Without objection, it is so ordered.

EMPLOYEE FREE CHOICE ACT

Mr. HATCH. Mr. President, I rise in fierce opposition to the horribly misnamed Employee Free Choice Act.

When I first came to the Senate, I thought the 1977–1978 labor law reform bill we turned back was bad public policy. The bill we are considering moving to the floor, H.R. 800, is far worse.

Where is the free choice for employees in this horribly misnamed Employee Free Choice Act? In all my years in the Senate, I have to say that the title of this bill is the most misleading of any I can recall. This bill doesn't give rights to employees; it takes away the rights of employees and replaces them with the rights of union bosses.

Back in 1977 and 1978, when we fought the labor law reform bill, there were 62 Democrats in the Senate and only 38 Republicans. But we were able to defeat that bill by one vote. Thank goodness we did because this would be a far different country today.

This bill would more aptly be named the Union Bosses Free Ride Act because it would allow union organizers to skip the efforts of having to convince employees to vote for union representation in secret ballot elections to gain certification as the exclusive bargaining representative. Then it would allow union negotiators to skip the efforts of bargaining for a first contract. Instead, unions need only make a pretense of collective bargaining for an initial union contract before turning to the Federal Government, which can for 2 years impose the wages, benefits, and other terms and conditions of employment binding on employees, without employees' ratification or approval—binding on the employer as well, without the employer's ratification or approval.

Is this what my colleagues want to support—eliminating secret ballot elections and mandating Government certification of a union based on union-solicited authorization cards? Is this what my colleagues want to support—the Federal Government writing the binding contract terms for private sector wages, benefits, and other terms and conditions of employment? That is what this bill does.

Apparently, it is not what the American public want us to support. According to a January 2007 poll by McLaughlin and Associates, 79 percent of the public opposes this bill, including 80 percent of union households, 80 percent of Republicans, and 78 percent of Democrats.

When asked: ''Would you be more or less likely to vote for a Member of Congress who supported this bill?'' the response was 70 percent less likely.

Recent polls also suggest that 87 percent of voters, almost 9 out of 10, agree that every worker should continue to have the right to a federally supervised, private-ballot election when deciding whether to organize a union. The same survey found that 79 percent, that is 4 out of 5 voters, oppose efforts replace the current private-ballot system with one that would simply require a majority of workers to sign a card to authorize organizing a union. There was virtually no variation in reply among Republicans, Democrats, or Independents in this survey; this sentiment rings true across the board.

Likewise, in a 2004 Zogby International survey of union workers, it was found that the majority of union members agree that the fairest way to decide on a union is for the government to hold a private-ballot election and keep the workers' decisions private. In the same survey, 71 percent of union members agreed that the current private-ballot process is fair. The survey also found that 84 percent of union workers stated that workers should have the right to vote on whether or not they wish to belong to a union.

It is hard to believe that we are seriously considering a bill to deny workers a secret ballot vote so soon after the national elections, and our own elections, given our Nation's history in promoting secret ballot elections for the disenfranchised members of society through the suffragette and civil rights movements. This is especially true since we are fighting for the opportunity of individuals around the world to have the democratic right to a secret ballot election.

Apparently, even congressional cosponsors of the bill acknowledge that it would be bad policy to take away secret ballot union representation elections, at least for workers in Mexico. In a 2001 letter to Mexican Government officials, the House sponsor of H.R. 800, 16 Members of the House of Representatives including one then-member who now serves in this body, wrote:

> We understand that the private ballot is allowed for, but not required by Mexican labor law. However, we feel that the private ballot is absolutely necessary in order to ensure workers are not intimidated into voting for a union they may not otherwise choose.

If private ballot elections are absolutely necessary for workers in Mexico, why aren't they necessary here? That is what you have to ask.

The answer is simple. Union bosses are more successful under card check. Recently, according to official NLRB statistics, unions have won over 60 percent of NLRB-supervised secret ballot union representation elections. In other words, they are winning the vast majority of elections on secret ballot. They want to win all of them, and that is why they support this card-check approach. At least by political election standards, that 60 percent is a high mark. But not for union bosses. Statistics show that under a card check, unions win approximately 80 percent of the time, and an even higher percentage when the employer remains neutral and does not communicate with workers, as employers are permitted to do under the section 8(c) free speech provision of the National Labor Relations Act.

In effect, forced employer neutrality would be the result of card check under H.R. 800, since union organizers would control the timing of the election by quietly securing a majority of signatures—50 percent plus 1—among a group of employees, large or small, determined by the union organizer, and then springing the demand for certification upon the employer and the NLRB. The result would, in effect, silence the employer and thus deny employees the right to be fully informed about the particular union seeking their support.

Under this bill, the role of the NLRB, which has such a proud history of conducting secret ballot union representation elections, would be reduced to that of handwriting analysts checking to make sure that employees' signatures were not forged, and determining whether the group of employees designated by the union constitutes an appropriate unit. Remember, under NLRB law, the unit petitioned for does not have to be the appropriate unit, or the most appropriate unit, but only an appropriate unit for bargaining where the employees share a community of interest. Thus, in effect, the union organizer can select a group of employees that are most easily organized by means of card check, force NLRB certification by designating ''an'' appropriate unit, and then force a government-imposed first contract, the terms of which could incorporate employer obligations affecting the employer's entire operations, such as contract provisions barring subcontracting of work.

In effect, H. R. 800 is push-button unionism.

Under this bill, to force union representation, union organizers only have to get employees to sign union authorization cards, which the Supreme Court has an ''inherently unreliable'' indicator of true employee support due to peer pressures, intimidation and coercion.

Would the unions like the employers to have the same right, to be able to go privately and intimidate employees as the union organizers will do and get 50 percent plus 1 to throw the union out? Not on your life.

In fact, as one court stated with regard to card check authorization, ''It would be difficult to imagine a more unreliable method of ascertaining the real wishes of employees than a card check unless it were an employer's request for an open show of hands. The one is no more reliable than the other.'' NLRB v. Logan Packing Co., Fourth Circuit Court of Appeals.

Some supporters of the bill have asserted that the bill does not eliminate secret ballot elections. But if they simply read the bill, it provides just the opposite. Just so we are clear, quoting from the bill:

> Notwithstanding any other provision of this section, whenever a petition shall have been filed by an employee or group of employees or any individual or labor organization acting in their behalf alleging that a majority of employees in a unit appropriate for the purposes of collective bargaining wish to be represented by an individual or labor organization for such purposes, the board shall investigate the petition. If the board finds that a majority of the employees in a unit appropriate for bargaining has signed valid authorizations designating the individual or labor organization specified in the petition as their bargaining representative and that no other individual or labor organization is currently certified or recognized as the exclusive representative of any of the employees in the unit, the board shall

not direct an election but shall certify the individual or labor organization as the representative described in subsection.

How can one say with a straight face that card check for union representation is any more protective than a private ballot election where employees may be solicited, intimidated, and coerced, subtly or not so subtly, to sign union authorization cards by fellow employees during nonwork hours and nonwork areas at the workplace, or by outside union organizers at the employees' homes or at the union hall or simply on the street or at the plant gates.

How is card check more of a free choice than the long-established and hard-won employee protections of a private ballot election, which is supervised, monitored, and shielded by Government officials of the National Labor Relations Board, who are present at the voting booth to prevent improper electioneering and misconduct by representatives of either labor or management?

The compulsory, first contract, interest arbitration is even a greater departure from sound national labor policy because it destroys free collective bargaining.

Under this bill, to force an initial union contract, union negotiators only have to make a pretense of bargaining for 90 days before calling on federal mediation for 30 days. If not resolved, the contract then must go to a federally appointed arbitrator who will write the employment terms binding on the employees and the employer for 2 years. That is long enough to sour employees on the federally imposed terms of employment, and long enough to bankrupt an employer or make it so noncompetitive that it decides to close operations and do business elsewhere—perhaps and probably overseas.

How can one say with a straight face that it is an employee's free choice to have the Federal Government write the terms of employment through compulsory interest arbitration by a federally appointed arbitrator? Under this bill, the arbitrator has unfettered authority to impose the wages, benefits, terms and conditions of employment of an initial union contract, which is then binding on employees and their employers for two years, without the employees even being able to approve or ratify those terms as they can under current law? How is that employee free choice? How is that open collective bargaining?

And how is it an employee's free choice then, by operation of the current contract bar doctrine, to prevent those employees from challenging the union's continuing majority support by an NLRB supervised secret ballot election?

This bill is not about employee free choice. It is about union leaders calling in their political chits in order to increase membership, and being able to deny workers the protections of an NLRB-supervised secret ballot election.

It is about union leaders then being able to get the Federal Government to impose wages, benefits, terms and conditions of employment and deny workers the right to ratify or approve the first union contract that will govern their employment for 2 years.

This is a huge and radical change in national labor policy, which the bill's sponsors are trying to foist on American workers and employers without even the benefit of a committee markup. Imagine, with only one day of committee hearings, completely rewriting and reversing over 70 years of national labor policy by injecting the Government into private sector collective bargaining through compulsory arbitration. The Federal Government steps in, not where the parties voluntarily agree to such intervention, but by congressional mandate, by operation of law, whether the parties agree or not.

That is not the way national labor policy is designed to work. This is not how it worked when the original Wagner Act was enacted in 1935, and in all subsequent amendments including the 1947 Taft-Hartley Act. Consistent with the decisions of every NLRB in Democratic as well as Republican administrations—and enforced by every federal court including the Supreme Court, it has been bedrock national labor policy that the Federal Government must not set the terms of the private employment contract. The role of the Federal Government through the NLRB and the courts has been to establish the rules for good faith bargaining. And the law does not require agreement, nor does it require a contract, so long as the parties bargain in good faith. Those sound national labor policies are destroyed under H.R. 800, which ignores whether the parties are bargaining in good faith and mandates a first contract binding on both sides.

This bill does not require a finding by the NLRB or the courts that the parties have failed to engage in good faith bargaining. Although misguided and bad policy, at least the 1977–1978 labor law reform bill addressed union complaints about the difficulty of reaching agreement on first contracts by first requiring a finding by the NLRB that the employer was guilty of bad faith bargaining. Then, the so-called make whole remedy proposed was to pay wages equivalent to a BLS index of average hourly manufacturing wages for the period of the employer's refusal to bargain. That, in my opinion, is not something Congress should endorse.

But to show you how truly extreme the current bill is, under H.R. 800 there is no requirement of a finding that the employer had violated the National Labor Relations Act by failing to bargain in good faith on an initial contract. The employer may have negotiated completely in good faith, and the parties need not have even reached an impasse in negotiations, to trigger the supreme sanction of having the Government step in and write the contract. The only trigger is when the parties have been unable to agree on a contract after 90 days of negotiations and 30 days of federal mediation. In effect, we are legislating that it is an unfair labor practice for an employer not to reach agreement on a first contract within 90 days of bargaining and 30 days of mediation, and that unless you agree to the union's terms the penalty is that the Federal Government will appoint an outside, third party to impose a contract on you for 2 years. Now that is not American.

Think of the effect of all this on the Nation's small business community. Informed of union certification because of card check, suddenly dragged to the bargaining table within 10 days of the union's demand, and most likely never having engaged in collective bargaining before, the small business owner will be confronted with professional union negotiators insisting on wages, benefits, terms, and conditions perhaps beyond the small business owner's ability to accept and remain competitive. But unless the small business owner agrees, the Federal Government, through a federally appointed arbitrator, will step in and write the contract.

Do we want the Federal Government writing private sector contracts? I don't think so. I cannot stress enough my concern about the bill's provision for first contract compulsory interest arbitration, especially as it would affect small business. That is even worse than the card check scheme to begin with, but without the card check scheme, you can't get to this.

It is close to socialism to mandate that the Federal Government, through federally appointed arbitrators, should dictate private sector wages, benefits, and other terms and conditions of employment. These are not simply my words and my concerns. Let me quote from the Nation's leading basic textbook on arbitration, Elkouri & Elkouri, ''How Arbitration Works,'' the sixth edition, 2003, which is published by the American Bar Association's section of labor and employment law with editors representing labor and management.

The Elkouri text states:

Compulsory arbitration is the antithesis of free collective bargaining.

The text then lists several reasons against compulsory arbitration.

Broadly stated, that: First, it is incompatible with free collective bargaining; second, it will not produce satisfactory solutions to disputes; third, it may involve great enforcement problems; and fourth, it will have damaging effects on economic structure.

The text continues.

Compulsory arbitration is a dictatorial and imitative process rather than a democratic and creative one.

Summarizing the arguments against compulsory arbitration, the text concludes:

Compulsory arbitration means governmental—politically influenced—determination of wages and will inevitably lead to governmental regulation of prices, production, and profits; it threatens not only free collective bargaining, but also the free market and enterprise system.''

Can you imagine being a small business owner, especially the owner of a family business, confronted with the choice of capitulating to a skilled union negotiator's unreasonable demands after 90 days of bargaining? Imagine the business being, in effect, turned over to a Federal arbitrator to impose whatever wages, benefits, terms, and conditions of employment the arbitrator chose to impose, as Elkouri states, ''affected by the arbitrator's own economic or social theories, often without the benefit or understanding of practical, competitive economic forces''?

Is that what we want to do to our small business community, much less to larger businesses, whose issues for bargaining are even more complex? Since there are no limits on what an arbitrator may impose through interest arbitration, it is conceivable that the terms could include participation in an industry's underfunded multiemployer pension plan, for example, something which could eventually force an employer into insolvency.

Lost in what little debate we have had on this bill is the unfairness of its provisions for anti-employer punitive sanctions. Once again, these provisions in the bill are a radical departure from the balance of traditional national labor policy which for over 70 years has confined the act to ''make whole'' remedies, and, at least since the 1947 Taft-Hartley Act, has tried to maintain a balance of the remedies for union unfair labor practices and employer unfair labor practices.

H.R. 800 provides, for the first time, punitive rather than remedial sanctions under the National Labor Relations Act and contains only anti-employer sanctions. That is, H.R. 800 contains revolutionary punitive sanctions only against employers. Regardless of how corrupt the union may be, there are no sanctions possible against the union.

It provides for increased damages against employers in the form of back pay and liquidated damages equal to two times that amount for anti-union discrimination from the initiation of a union organizing campaign and until the first collective bargaining. These increased damages are clearly punitive, not remedial and not designed to make whole an employee for anti-union discrimination. Nowhere in H.R. 800 does the law provide for such punitive sanctions against union unfair labor practices.

In addition to back pay, the bill provides civil penalties against employers of $20,000 for each violation. Since each unfair labor practice charge filed against employers or unions often contains allegations of multiple violations, the $20,000 civil penalty could multiply several times for a single charge. Of course, under the bill, the $20,000 simple penalty applies only against employers. How fair is that? Nowhere does H.R. 800 provide civil monetary damages against unions where they commit unfair labor practices against employees.

Finally, the bill provides for a mandatory injunction against employers' alleged acts of anti-union discrimination, including—and I am reading from H.R. 800—allegations that the employer:

(1) Discharged or otherwise discriminated against an employee; (2) threatened to discharge or to otherwise discriminate against an employee; or (3) engaged in any other unfair labor practice that significantly interferes with, restrains, or coerces employees in the exercise of their rights guaranteed in section 7.

This is, in other words, the right to organize, bargain collectively, and engage in concerted activities such as strikes.

Supporters of the bill argue this provision mirrors the act's section 10(I) injunction against unions which is mandatory when unions engage in secondary boycotts affecting neutral parties. Of course, therein lies the reason for the injunction. By current definition a section 10(I) injunction applies only where a neutral third party is involved and the injunction is designed to prevent harm to the public where labor disputes are expanded to those employers not directly involved in such disputes.

That is not the type of unfair labor practice against an employee during the course of a union organizing campaign, where a make-whole remedy of reinstatement with full back pay is available.

Mandatory injunctions are extraordinary penalties, especially involving small businesses, since they involve expensive Federal court litigation. As such, the threat of a mandatory injunction—which, for example, would mandate the employer reinstate the employee during the investigation and prosecution of the injunction—could operate to silence the employer from communicating its views regarding unionization. This is the employer's right under section 8(c) of the National Labor Relations Act.

There has been much said recently by supporters of H.R. 800 about employer misconduct during union organizing campaigns and collective bargaining for a first contract. This has been used to justify the radical provisions of H.R. 800 denying workers of private ballot union elections, increasing anti-employer sanctions, as well as compelling interest arbitration of first contracts.

Unfortunately, much of what has been said is simply untrue or exaggerated and based on flawed information and studies of dubious quality. I cite as an example one fatally flawed study conducted by Cornell Law School Professor Kate Bronfenbrenner. It is frequently cited regarding the firing of union organizers in over one-quarter of union organizing campaigns. The study is based on a survey of union organizers for their opinion as to how often organizers are fired during a union organizing campaign. That hardly constitutes an objective, unbiased sample, and such anecdotal opinions hardly constitute the type of factual, statistical information we have the right to expect before radically changing over 70 years of national labor policy.

Also, supporters of H.R. 800 claim from an NLRB report that over 31,000 employees received back pay annually and thus presumably were fired during union organizing campaigns, which represent one worker fired every 17 minutes. That figure grossly misapplies the report and its basis. In fact, that number includes a very high percentage of workers who were already represented by unions, some for many years, who were being paid back pay because their employer took some unilateral action, such as contracting out work, without consulting their union. Therefore, a high percentage of such back pay had absolutely nothing to do with union organizing campaigns, and supporters of H.R. 800, who must know better, are simply using this statistic to exaggerate their claims. Also, supporters of H.R. 800 ignore the more accurate number that according to the NLRB's most recent annual statistics only 2,000 employees were ordered reinstated by the Board.

As we debate over whether or not to deny private ballots to workers deciding whether or not to unionize, it is my hope that we will be able to at least hold fast and true to the facts. And there should be full debate on these facts, not simply a cursory one-day hearing, bypassed markup and we move straight to the floor. We must not rely on slogans, anecdotal stories, and questionable secretly-commissioned and selective statistics about alleged unfair labor practices.

In conclusion, those on the other side of this debate have advanced—with fervor—several misleading arguments about the so-called Employee Free Choice Act. I look forward to a debate on the facts of this legislation. We should debate. Let each side be passionate. And of course we will disagree; but let us be respectful. Most importantly, let's make sure that this is an honest debate.

As we enter this debate we should not be fooled by the misinformation from supporters of the bill:

They claim that employers coerce employees to vote no on unionization. The truth is that in less than 2 percent of cases is it found that an employer has inappropriately interfered in a union organizing election.

They claim that under the current system unions are not able to win. The truth is that unions won 62 percent of the National Labor Relations Board elections in 2005—the last year where a complete set of statistics exists.

They claim that the use of a card-check system is the best, most reliable and fair way of judging employees' true intentions of unionizing. The truth is that the use of a card-check system is an inherently unreliable indicator of an employee's true sentiments which lead me to a few other truths on their misleading reliability claim. The truth is that the card acquisition process is unregulated, meaning there is no check on potential undue influence when gathering cards; the truth is that we have found that intimidation, coercion, and pressure tactics can be—and usually are—used to obtain signatures; the truth is that often, bounties and financial incentives are paid to union organizers to obtain signatures on cards; the truth is that intentional deception and misrepresentation are often used by unions when obtaining cards; and the truth is that employees are often induced to sign cards by promises of higher pay, better benefits, and waivers of fees—of course the same employees are not made aware of the potential risks and costs of unionization. And finally, they claim that American workers want to form unions using a card check system.

The truth is that according to a recent poll 79 percent of Americans oppose the elimination of private ballots when voting in union organizing elections.

Senators should be aware this is not a free vote! The bill is not passed this year, or is passed but vetoed, it will put those of us who voted for it on record as supporting a radical change in national labor law and labor policy. It will put us in support of a system which denies workers a secret ballot election, which has been the bedrock underpinning of national labor policy—the crown jewel of the National Labor Relations Board.

A vote for this bill, or for cloture, will put us on record as against free collective bargaining on first contracts and in support of a political, government-dictated system of compulsory interest arbitration where a federally-appointed arbitrator will dictate the wages, benefits, terms and conditions of employment binding on employees without their even having a vote to approve those terms.

And it will put us on record as supporting an unbalanced system of remedies where employers are subject to punitive sanctions, rather than remedial make whole remedies while ignoring sanctions for union unfair labor practices.

In the end, H.R. 800 will hurt workers and will take away rights they currently have under federal labor law.

In the end, it will hurt employers, leading some to look elsewhere to do business and foreign investment to turn elsewhere rather than the United States.

We will be on record, and we will be reminded of our vote today in future congresses. We must vote no on cloture, just as we should vote no on the bill.

Mr. President, I hope my statement reflects why this is such a horribly misnamed and bad bill.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming is recognized.

WELCOME TO WYOMING'S NEW SENATOR

Mr. ENZI. Mr. President, minutes ago a new Senator for the State of Wyoming was officially appointed by the Governor of Wyoming, and I want to welcome Dr. JOHN BARRASSO, now Senator BARRASSO, and introduce him to the Senate.

John is an extremely capable person who has gone through a selection process that involved 30 people who were interested in serving as Senator. He went through an interview process and a selection process and was one of three people given to the Governor from whom to select. The Governor gave each of the people a list of 42 issues of critical interest to the State of Wyoming and interviewed each of them and made a selection on that basis. Dr. JOHN BARRASSO was the selection.

I am very excited about this. I am excited about having a full roster from Wyoming. I have known JOHN for many years. I was pleased that he ran for the State Senate. He worked on a lot of conservative issues there. He was a hard worker, and he was extremely efficient. In fact, one of the amazing things to me was that he was able to answer every e-mail almost immediately and to keep his desk clean. It is different from the way I worked when I was in the Wyoming legislature and it is much different than the way my desk looks here. So his efficiency is unmatched, and he has great knowledge of Wyoming and the issues that are important in Wyoming, which include energy, and of course health. He is an orthopedic surgeon and will make a big difference in our health care debate back here.

He is quiet but efficient and has worked across the aisle in Wyoming, and I am sure he will continue to do that here, much the way Senator Thomas and I have done. We have always worked as a team, the Wyoming delegation, and he will become a very strong team member.

I want to congratulate the Wyoming Republican Party on the process they went through. I want to particularly congratulate Fred Parady, who is the State chairman, for the way he walked into some fairly uncharted waters, particularly for that many people who were interested. He did an excellent and fair job, and one that was timely so we would be able to get to this point. He did an outstanding job.

I congratulate the Governor for the care and concern he gave and the way he went about his job and the comments he made as he did that job and as he introduced the new Senator. I think Wyoming can be a good example for the rest of the Nation to follow.

Of course, no one is going to be able to replace CRAIG THOMAS, but working with JOHN, we can ensure the representation of Wyoming in the Senate will remain second to none.

JOHN has had some interesting things he has worked on in Wyoming. He is extremely well known across the State because he has been doing virtually a nightly television spot helping people to help their own health and has given tips for a number of years doing that. I have no idea how many years he has also been the host for the Jerry Lewis telethon for Wyoming and has raised innumerable dollars for that great cause, and he does it so easily and so naturally and is such a great speaker.

Of course, he is very pleased that both of his children, Pete and Emma, have graduated from high school. Emma graduated this year. So he has gotten to watch them grow up in a very involved way through the years, and now that they are going to college, he can come to Washington, and I know he and his family are very excited about it and are great participants.

So I welcome the newest member of the Senate and let everyone know we are looking forward to a great team and his extreme capability.

Mr. President, I yield the floor.

PASSAGE OF H.R. 6

Mr. DORGAN. Mr. President, I want to thank my friend from Hawaii, the chairman of the Commerce, Science and Transportation Committee, for sponsoring this amendment that was added to energy legislation last evening.

This energy legislation seeks to expand the Nation's supply of renewable biofuels and to begin moving our base of transportation fuel toward renewable energy. Across America, including in my State of North Dakota, American farmers have the ability to grow abundant supplies of corn and energy crops from which ethanol and other transportation biofuels can be manufactured. However, our Nation's ability to produce an abundant supply of

transportation biofuels will be of no use if we are not able to transport these biofuels to the population centers where they are needed. Today, due to the special qualities of biofuels, there are no pipelines that can move them to market. Thus, transportation is dependent primarily on trucks and rail, except in those rare cases where water transportation is available between the areas where the biofuels are produced and consumed.

Last week, the Government Accountability Office released a report entitled ''Biofuels—DOE Lacks a Strategic Approach to Coordinate Increasing Production with Infrastructure Development and Vehicle Needs.'' The summary of the report states, in the second paragraph:

Existing Biofuel distribution infrastructure has limited capacity to transport the fuels and deliver them to consumers. Biofuels are transported largely by rail and the ability of that industry to meet growing demand is uncertain.

If our Nation is to realize the potential of sustainable, domestically produced transportation fuels, we can have no uncertainty concerning whether the rail industry can transport the amount of biofuels that the Nation will be producing. Therefore, Senator INOUYE and I have joined in this amendment which calls for a joint study by the Secretaries of Energy and Transportation. The study will consider two primary issues and a number of related issues. First, will there be sufficient railroad infrastructure to move the amount of biofuels the Nation will be producing? Second, will that railroad transportation occur in a competitive environment in which the cost is reasonable and the service is reliable?

Ensuring adequate, reliable, and cost-effective rail transportation for ethanol and other transportation biofuels that will become so important to the Nation is an essential element of the Nation's policy to move toward sustainable, domestic supplies of energy. I thank my friend from Hawaii, the chairman of the Commerce, Science and Transportation Committee, for joining with me to pursue this study, and I look forward to working with him to ensure that our national rail system is adequate, reliable, and competitive.

Mr. KERRY. Mr. President, yesterday the U.S. Senate passed comprehensive energy legislation that will set the course for our national energy security in the decades to come. The members of this body were able to reach important conclusions regarding the need for increased corporate average fuel economy standards, improved energy efficiency for buildings and appliances, a national standard to help accelerate the development of renewable fuels, and carbon sequestration technology to capture carbon emitted through the burning of coal. The Energy bill approved by the Senate truly represents a shift toward a comprehensive, responsible, and focused national energy policy.

Not to be forgotten in establishing this policy are America's small business owners. There are nearly 26 million small businesses in this country—nearly 26 million business owners that are focused on keeping their doors open and putting food on the table for their families. And while climate change and national energy security sometimes seem like distant threats compared to rising health care costs and staying competitive in an increasingly global economy, small business owners are telling us that energy costs are indeed a concern. The National Small Business Association recently conducted a poll of its members, asking how energy prices affected their business decisions. Seventy-five percent said that energy prices had at least a moderate effect on their businesses—with roughly the same number saying that reducing energy costs would increase their profitability. Despite these numbers, only 33 percent have invested in energy efficiency measures.

In March of this year, I convened a hearing in the Committee on Small Business and Entrepreneurship to look at what small businesses can do to confront global warming. We learned over the course of that hearing just how much can be done to help small businesses become energy efficient. We also learned just how little the current administration is doing. The Environmental Protection Agency estimates that small businesses consume roughly 30 percent of the commercial energy consumed in this country—that is roughly 2 trillion kBtu of energy per year, and it's costing small business concerns approximately $29 million a year. Through efforts to increase energy efficiency, small businesses can contribute to America's energy security, help to combat global warming, and add to their bottom line all at the same time.

Last night, I worked with Senator SNOWE to include two amendments to H.R. 6 that will go a long way toward helping small business owners become more energy efficient. These amendments, which together represent the provisions included in S. 1657, the Small Business Energy Efficiency Act of 2007, require the Small Business Administration, SBA, to implement an energy efficiency program that was mandated in the 2005 Energy Policy Act. To date, the SBA has dragged its feet in implementing a program that could help small business owners to become more energy efficient. Administrator Preston should implement this important program today, and this bill directs him to do so.

Second, this legislation establishes a program to increase energy efficiency through energy audits at Small Business Development Centers, SBDCs. The Pennsylvania SBDC currently operates a similar program, and has successfully assisted hundreds of businesses to become more energy efficient. As a result of the program, six of the eight winners of the 2006 ENERGY STAR Small Business Awards given by the EPA went to Pennsylvania businesses. This program should be replicated so that small businesses across the country have the same opportunity to cut energy costs through the efficiency measures.

Third, the SBA Administrator is authorized to guarantee on-bill financing agreements between businesses and utility companies, to cover a utility company's risk in entering into such an agreement. The federal government should encourage utility companies to pursue these agreements with businesses, where an electric utility will cover the up-front costs of implementing energy efficiency measures, and a business will repay these costs through the savings realized in their energy bill.

Fourth, the legislation creates a telecommuting pilot program through the SBA. The Administrator is authorized to establish a program that produces educational materials and performs outreach to small businesses on the benefits of telecommuting.

Finally, the legislation encourages increased innovation by providing a priority status within the SBIR and STTR programs that ensures high priority be given to small business concerns participating in energy efficiency or renewable energy system research and development projects.

As a nation, we have much to do to secure our future energy supply and to solve the international crisis that is global warming. Last night's approval of H.R. 6 demonstrates this body's will to set the right course, and America's small business owners should know that Congress is providing them with the tools they need to join the crusade.

Mr. President, last night, we successfully passed comprehensive energy legislation which included a significant increase in fuel economy standards. For far too long, this has been the third rail of energy policy. It has been one of Washington's great failures in leadership. But thanks to a bipartisan effort on the part of so many of my colleagues, these new requirements will cut automobile carbon emissions dramatically and will help put our country on a path toward energy dependence. The oil savings from the CAFE provision alone will ultimately total 1.2 million barrels per day by 2020.

When we first established CAFE standards for passenger cars and trucks in 1975, within 10 years we increased fuel economy by 70 percent and decreased our oil dependence from 36 percent to 27 percent. Ever since then, we have been stuck in neutral. The fuel

economy of the average new passenger vehicle is lower today than it was 10 years ago.

We now have overcome the forces of inertia, and our country is now poised to at last revolutionize the way we drive. I am proud of the bipartisan commitment to this issue, which was demonstrated with historic vote. I particularly would like to thank my colleagues, Senator INOUYE and Senator STEVENS, for their leadership on this issue.

I was proud to cast my vote in support of this important bipartisan energy legislation, which will dramatically increase our use of renewable fuels, incentivize energy efficiency, reduce our oil dependence, and address the growing threat of climate change. This bill truly puts us on a path toward a cleaner, healthier, and more secure energy future.

Mr. KOHL. Mr. President, I rise today to talk about the Energy bill that passed with my support. The bill increases biofuels production from the current mandate of 7.5 billion gallons in 2012 to 36 billion gallons by 2022. The bill also establishes new appliance and lighting efficiency standards in Government buildings and includes Federal grants and loan guarantees to promote research into fuel-efficient vehicles, including hybrids, advanced diesel and battery technologies.

I was pleased that this bill included my very important NOPEC amendment, an amendment that passed with the support of 70 Senators. The NOPEC amendment will hold OPEC member nations to account under U.S. antitrust law when they agree to limit the supply or fix the price of oil in violation of the most basic principles of free competition. It will authorize the Justice Department—and only the Justice Department—to file suit against nations or other entities that participate in a conspiracy to limit the supply, or fix the price, of oil. In addition, it will specify that the doctrines of sovereign immunity and act of state do not exempt nations that participate in oil cartels from basic antitrust law. Further, it will give our Government a much needed tool to fight back against the selfish price-fixing conspiracy of OPEC members, a conspiracy that significantly raises the cost of gasoline and other essential energy products to millions consumers every day.

I was also pleased that this bill included an amendment I offered that would allow small manufacturers to access awards under the Advanced Technology Vehicles Manufacturing Incentive title. Considering that small manufacturers that employ roughly 75 employees or less contribute 29.5 percent to all value added to automobiles, it made sense that they should have the opportunity to get these awards.

I was disappointed that the Energy bill didn't include provisions to require utilities to provide 15 percent of their electric power from renewable sources by 2020. The reduction in the use of fossil fuels to generate electricity would have strengthened our national energy security by diversifying our sources of electric generation. Also, the bill did not include an energy tax package that would have created incentives for renewable power, biofuels, plug-in hybrids, clean coal and other technologies.

Taken together, this bill allows the United States to become more energy efficient in a cost effective and responsible way.

Mrs. MURRAY. Mr. President, I rise today to discuss our efforts to address the energy challenges that are facing our Nation today and the solutions we need for tomorrow. I am pleased that the Senate last night passed a comprehensive energy bill that moves our Nation forward.

We all know how important energy is to our economy, our families, and our quality of life. The high cost of energy is putting a painful squeeze on every sector of my home State: Commuters notice every time they fill up the tank; businesses are struggling with the higher costs of transportation; industry is feeling the impact of higher energy costs, and farmers feel the pain both in the price of fuel and fertilizer.

The question is, what are we going to do about it? It is clear there are no silver bullets.

It is going to take smart policies, carried out consistently over many years, to begin to change the way we use and save energy.

Overall, I believe we must focus on several priorities, including: making America more self-reliant so we are less dependent on foreign sources of energy; using innovation to meet our energy needs in creative ways; supporting conservation to reduce our energy demands; investing in education so we can cultivate the scientists, researchers, and workers of the new energy future; and protecting consumers from unscrupulous energy manipulators.

Before I turn to those specific priorities, I want to share with the Senate some of the innovative things that leaders in Washington State are doing to meet our energy needs.

Washington State is moving forward on renewable sources of energy like wind energy.

In April, I had an opportunity to visit the Hopkins Ridge Wind Farm in Columbia County, WA. This is a Puget Sound energy facility that has 83 wind turbines. When they are running at peak capacity, they can generate enough energy on an average basis to supply about 50,000 homes.

In fact, the Ports of Longview and Vancouver in southwest Washington have become a gateway for bringing wind energy components into the United States. I have been able to support their work through the wind energy tax credit. Last year, I got to visit the Port of Longview and see how our longshoremen expertly handle these massive turbines.

Washington's agriculture community is stepping up and embracing renewable sources of energy. This Spring, I was in Colfax, WA, for a roundtable discussion with farmers, and energy was a big part of the discussion.

I can tell you that Washington State farmers are poised to become active players in the renewable energy market. We talked about ways to help them make the transition into biofuel crops.

And there are other innovative projects. In Gray's Harbor, we are moving forward with a biodiesel plant. It will be a new home for Washington state biofuel production, a new source of jobs for the people of Grays Harbor County, and a new way to combat high gas prices. And in the Tri-Cities, we are moving forward with a new research center on biofuels and bioproducts.

In my home State of Washington, we have also been testing some cutting edge technology that puts information into the hands of consumers so they can make informed decisions about how—and when—they use energy.

With the Pacific Northwest National Laboratory and other partners, I helped kick off a GridWise demonstration project to test smart appliances. These appliances give consumers the power to decide when to run them based on the cost of energy. For example, your thermostat could indicate to you when heat costs are at a premium. Or you could set your dryer to run only when energy is a certain price.

We all know that the cost of energy fluctuates throughout the day. Unfortunately, today's consumers don't know the real cost of energy at any given time. So it is hard for them to make informed energy choices.

These innovative appliances were tested for a year in 150 homes, a water-pumping station and a commercial building. The results are impressive. Researchers found that giving consumers these tools helps save energy and reduce demand on the electricity grid. They found that real-time pricing can also alleviate the need to build a new substation.

So I am really proud of the innovative work that is already underway in Washington State, and both Senator CANTWELL and I believe it can serve as a model for the progress we can make in the rest of the country.

Now I would like to turn to my energy priorities and some of the positive steps that this bill takes.

My first priority is to help make America more energy self-reliant. Here at home we have tremendous demand for energy and that demand is growing. Unfortunately, today we are still too dependent on foreign sources of energy,

particularly oil. That dependence affects our security and our relations with other countries. We need to reduce our dependence, and we can do that through some of the measures in this bill. This bill includes a renewable fuels standard that will increase our use of renewable fuels, including biofuels like cellulosic ethanol and biogas. It also includes tighter CAFE standards for our auto industry, and it increases the number of bioresearch centers focused on biofuel. This bill will also help us diversify our fuel sources by promoting alternative fuels, such as ethanol, biogas, and biodiesel.

I am disappointed that important tax incentives, which would spur the development of renewable electricity, increase the production of alternative transportation fuels, and help homeowners who make their properties more energy efficient, were blocked in a procedural effort by the minority. I am hopeful that these important investments will be restored as this legislation moves forward.

Second, we need to use innovation to help meet our energy needs. This bill will help move forward our innovation agenda by increasing research and development funding for new technologies. It authorizes funding for research in States with low rates of ethanol production. This investment could help Washington get off the ground in the area of cellulosic ethanol. This bill also boosts research in carbon capture and storage. We are doing some interesting work on that at PNNL in my home State, and I am pleased to support further research.

Third, we need to be more aggressive about conserving energy. It is everything from choosing compact fluorescent light bulbs and energy efficient appliances to consolidating errands so you make fewer trips in your car. Through this bill, the Federal Government will lead by example by using energy efficiently and employing conservation practices. It includes, as I mentioned, higher CAFE standards on our vehicles, which will help conserve gasoline. It will promote efficient lighting technologies, efficient vehicles and advanced batteries.

Fourth, we need to expand education so we have the scientists, researchers, and workers to help us reach a new generation of energy innovation.

The existing and new technologies that we will deploy to increase our self-reliance are complicated, and we need to make sure we have a well-trained workforce that is able to implement these forward-thinking technologies. This entails both continuing education for our current workforce, but also training the workers of tomorrow. We must provide these training programs while our young people are still in our educational system.

In my home State of Washington, several universities are addressing these needs by offering curriculums in this area. For example, Gonzaga University in Spokane has a transmission line worker training program.

Central Washington University in Ellensburg wants to teach its students how to operate the efficiency technologies of the future. I think we should support these efforts by ensuring funding for programs like these. I am pleased that this legislation calls out this important issue.

In Washington State, we are also working to educate the next generation of energy innovators.

Washington State University, the Pacific Northwest National Laboratory, and the State of Washington have worked together to create the Bioproducts, Sciences, and Engineering Laboratory in Richland.

This is a pioneering research center where researchers will develop technology to turn biomass into energy and products. It will have teaching laboratories and classrooms and is located on WSU's Tri-Cities campus. I have been pleased to support this project from its inception, and I will continue to do so.

Finally, we need to protect consumers from those who would manipulate the price of energy to take advantage of high demand. One of the things that the Enron scandal revealed is that some people were happy to create false shortages of energy in order to drive up the price.

This bill helps us fight energy manipulators through a price-gouging bill that I co-sponsored, which is including in the underlying bill.

We have a lot of challenges in front of us as individuals and as a country when it comes to energy. But we also have the ability to craft responsible, smart legislation that will help move us in the right direction.

I am pleased to be working to make our country more self-reliant, to invest in innovation, conservation and education and to help protect consumers. I am honored to come from a State that is producing some of the most innovative energy ideas anywhere, and I am excited about moving this bill forward so we can use that progress to benefit our entire country.

FAMILY LEAVE INSURANCE ACT

Mr. KENNEDY. Mr. President, every day millions of men and women across America get up and go to work. Their labor—whether it is building bridges or selling groceries, programming computers or cleaning homes—is what makes this country great.

Their work is the foundation of our economy and of our communities and families. Over 100 million Americans rely on their jobs to keep a roof over their heads and put food on the table, pay their doctor's bills, save for their children's college tuition, and retire in dignity. But all of that can be threatened in an instant when serious injury or illness strikes.

Fourteen years ago, we passed the Family and Medical Leave Act to enable employees to take up to 12 weeks of unpaid leave each year to care for themselves or a seriously ill family member. For the first time, employees could meet their responsibility to their loved ones without risking their jobs. It was landmark legislation—the first bill signed into law by President Clinton in 1993—and tens of millions of families are healthier and more secure because of it.

But for millions of Americans, the ability to meet their family health needs is still out of reach. Most American families can't afford to take unpaid leave because it means they will miss even one weekly paycheck. They need every week's income to meet the rent, pay the electricity bill, and feed their families. A serious illness shouldn't mean choosing between caring for a sick child, spouse or parent, or suffering a financial catastrophe.

That is why I strongly support the Family Leave Insurance Act. This legislation will fill a serious gap in the Nation's health policy. It builds on the Family and Medical Leave Act by providing a safety net for the average working family.

Under this vital legislation, employees would be eligible for up to 8 weeks of paid benefits while they care for their families. With such benefits, workers would not be forced to choose between the families they love and the paychecks they need.

Most important, the program targets the employers and workers who will most benefit from the program. Lower income workers, who are least able to afford time off from their jobs, would be eligible for up to 100 percent of their weekly income. Smaller employers would have the option to participate—and would receive special incentives for doing so.

This is an idea whose time has come. California has led the way with its paid leave program, which has been a great success. Other State legislatures around the country are considering it as well.

The Family Leave Insurance Act is just one of the important new policies we should adopt to help America's working families. We also need to address the nearly half of American workers who don't receive paid sick days at work—and millions more who cannot take paid time off to care for their families.

That is why I will continue to fight for the Healthy Families Act, which will provide up to 7 paid sick days a year to workers, to help them meet immediate and short-term health needs not covered by the Federal Leave Insurance Act.

I commend my colleagues, Senator DODD and Senator STEVENS, for their

leadership on this issue. This legislation, together with the Healthy Families Act, removes the risk that a sudden illness in the family will devastate a worker's financial well-being. Hardworking American families deserve no less.

I urge my colleagues to support the Family Leave Insurance Act.

GUN VIOLENCE

Mr. LEVIN. Mr. President, the plague of gun violence is one that affects our society on many levels. Across the country people are calling out for a change in our Nation's gun policies. A recent article, The Battle Over Illegal Guns, in the June issue of Ladies' Home Journal Magazine, is a case in point. This article detailed the tragic death of Wake County, NC sheriff's department investigator Mark Tucker, and provided yet another example of a pervasive problem in our country that has not yet been addressed.

On February 12, 2004, Mark Tucker returned home from work to eat lunch. As he left his house to return to work, he noticed an unfamiliar car with an open trunk parked in a field near his home. He drove over to investigate it. As he stepped out of his unmarked patrol car, an 18-year-old young man pulled a gun out of the trunk of the unfamiliar car. The teenager, who was on probation for breaking into cars, stated he had only intended to engage in a little target practice that day. However, because he was on probation, he was not legally allowed to possess a firearm. When he saw Mark's badge he panicked, killing Mark with a single shot.

Because the teenager had a felony record, he was not legally permitted to purchase a gun himself. In order to circumvent this, he simply had a friend fill out the required Federal paperwork for him at the gun dealer. This type of transaction, when one customer stands in for another who is not legally able to purchase a weapon, is known as a straw purchase. According to a 2000 report by the Bureau of Alcohol, Tobacco, Firearms and Explosives, ATF, straw purchases are the most common source of crime guns. Approximately half of the 1,530 trafficking investigations examined in the report involved stand-in buyers.

Though Federal law enforcement officials have increasingly teamed up with local officials over the past few years to increase prosecution of firearm-related crimes, not enough attention is being focused on the source of the problem. According to the ATF, nearly 60 percent of the guns used in crimes can be traced to just over 1 percent of this Nation's licensed gun dealers. Five out of six of these guns are obtained illegally.

This article not only detailed the tragic events which occurred in Wake County, it illustrated a problem that plagues our society. Negligent dealers and straw purchasers indirectly threaten the security of our communities by facilitating the transfer of dangerous firearms to potential criminals who may use them in violent crimes. We must do more to help our Federal, State and local law enforcement officials keep guns out of the hands of those who shouldn't have them. Simply put, Congress needs to take up and pass sensible gun legislation.

IRAN

Mr. FEINGOLD. Mr. President, the international community's effort to press Iran to suspend its nuclear enrichment has been virtually grounded as of late and there does not seem to be a way out. This deadlock is of great concern to me—particularly because of the threat Iran poses to our national security strategy but also because I do not trust this administration to make the right choices when it comes to our safety and security.

As a known sponsor of international terrorism, and in light of President Ahmadinejad's belligerent statements calling for Israel to be ''wiped off the map,'' we must redouble our efforts to ensure Iran is no longer allowed to violate international treaties, does not develop nuclear weapons, and does not become any more of a threat to our national security than it already is.

History has taught us that we cannot ignore the stated intent of those who seek to destroy other nations. A nuclear Iran would be a grave threat to the region, to Israel, and to the entire international community but that does not mean we should act rashly or act alone. Indeed, recent history has also shown that we are at our strongest—and most secure—when we are part of a strong multilateral team.

And yet, the Bush administration's saber-rattling flies in the face of any effort to legitimately build consensus for effective dealings with Iran. Our allies at the United Nations have worked with us in the past to support a resolution sanctioning Iran but they may not be willing to work with us again if these confrontations in the Persian Gulf become habitual occurrences. Such threats are stunningly counterproductive as they embolden Iranian hardliners to dig in their heels, undermine our multilateral commitments, and jeopardize our national security significantly.

Iran's ability to sniff out and exploit fissures within the international community and use it to their advantage should not be underestimated. Knowing this, it is in the interest of our national security to ensure there is strong unanimity among our allies at the United Nations. Critical to this effort is cooperation from Russia and China. To ensure they are on board, this administration must prioritize robust diplomacy with these two countries to ensure they are on board and engaged. Without them, there can be no real headway.

Just last month an International Atomic Energy Agency, IAEA, report said that Iran has not suspended its enrichment activities and we must take this claim very seriously. We must work with our allies to take concerted, decisive action to break this stalemate. The Security Council must speak with one voice and send a clear signal that continued defiance of the international community will not be tolerated.

It is essential that all U.N. member states and the international community, more generally, continue to condemn the violent and defiant rhetoric of Iran's President. If his aggressive words go unchecked it could signal approval of the Iranian regime's determination to undermine its international obligations.

This Congress can also take critical steps to stop or slow Iran's nuclear enrichment, but we will not be effective in doing so unless we acknowledge that the United States must be in lock-step with the international community if we are to overcome decades of mistrust and ongoing threats to our national security.

MATTHEW SHEPARD ACT OF 2007

Mr. SMITH. Mr. President, I rise today to speak about the need for hate crimes legislation. Each Congress, Senator KENNEDY and I introduce hate crimes legislation that would add new categories to current hate crimes law, sending a signal that violence of any kind is unacceptable in our society. Likewise, each Congress I have come to the floor to highlight a separate hate crime that has occurred in our country.

On May 12, 2007 in New York, NY, Omar Willock attacked Roberto Duncanson, a gay man, on the street in Crown Heights. Willock allegedly yelled anti-gay slurs at Duncanson when they passed each other on the street. Later, Willock encountered Duncanson again and started a fist fight, eventually stabbing Duncanson. Willock is being held without bail and is charged with a hate crime.

I believe that the Government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Matthew Shepard Act is a symbol that can become substance. I believe that by passing this legislation and changing current law, we can change hearts and minds as well.

WELCOMING THE MINNESOTA NATIONAL GUARD

Mr. COLEMAN. Mr. President, it is my great pleasure to welcome the

brave and courageous members of the 1st Brigade Combat Team of the 34th Infantry back to Minnesota today. For nearly 2 years, these troops have selflessly and honorably served our State and our Nation, demonstrating a level of commitment and sacrifice beyond anything our country could ask of them.

To welcome these soldiers home properly, it is important to roll the calendar back to September of 2005, when these men and women learned that they would soon deploy to Iraq for a 12-month mission. The news was difficult for a lot of Guard troops and families in our State. Many of them had already been deployed on active duty to Bosnia or Kosovo since September 11, and they knew how hard it would be to say goodbye once more to their families, friends, and communities.

Because of their previous service, many of these troops were not required to go to Iraq. They had already answered the call to defend this great land, and they could have let others take their turn this time, but that is not the spirit of the 1st Brigade Combat Team of the 34th Infantry. Instead, with the same commitment that their unit has shown since the Civil War, these troops donned their uniforms, made their arrangements, kissed their moms and dads, husbands, wives, and children goodbye, and returned to the fray to serve their country.

For 6 grueling months, these soldiers conducted their mandatory ''uptraining'' on the other side of our country at Camp Shelby in Mississippi and Fort Polk in Louisiana. And just like their Minnesota 1st infantry comrades who mustered at Fort Snelling 144 years earlier, the 1st Brigade Combat Team of the 34th Infantry received ratings of ''outstanding,'' ''excellent,'' and ''perfect'' on their various training demonstrations throughout the winter of 2005.

In March of 2006, when the unit had already been away from home for half a year, it was time to travel the 6,000 miles to the Middle East and Iraq. Before they left, I had the pleasure of attending their departure ceremony in Mississippi alongside my colleagues of the Minnesota congressional delegation and our Governor. There were steaks, music, beer cans, smiles, flags, hugs, and sadly, a lot of tears.

But there was one clear thing everyone had in common that day at Camp Shelby: Pride. Pride in serving their country. Pride in defending our freedom. Pride that their loved one was going to perform their duty in a manner consistent with the finest traditions of the U.S. military.

And off they went. Different units and different companies fanned out in locations across Iraq. Some of them in Fallujah and Taqaddum in Anbar Province, some at Camp Scania near Nippur, and the largest number at Camp Adder in Talil.

And the 1st Brigade Combat Team of the 34th Infantry didn't take much time to make an impact on the ground. By the end of May, when the ink on their transfer authority had barely dried, the 1st Brigade Combat Team of the 34th Infantry had already built a reverse osmosis water plant for the people of al-Feiz. It would be the first of many success stories they would accomplish and be proud of.

Over the course of the next few months, the 1st Brigade Combat Team of the 34th Infantry endured the trials of a unit at war. With every successful patrol, there was a longing for far away loved ones. For every completed reconstruction project, there was anticipation of a return trip home. And on the hardest of days, there was the mourning of a fallen comrade.

And so it went with these selfless soldiers through the end of 2006 and into 2007. When the New Year broke, it brought with it a new energy and a refocused eye on their March 2007 return. But their March return was not to be, as the story of these men and women veered onto a different path.

On January 10, of this year, these soldiers and their families endured a shock that none of them expected. Afternoon reports from CNN and Fox News began to trickle through our State and Nation, indicating that the unit would be extended until this summer. When the official word from the Pentagon confirmed this fact later that day, it shook all of us to our core and left us with more questions and concerns than we could find answers to.

But like Minnesotans always do, they somehow found a way to move forward. The support of their families strengthened them. The spirit of their communities rallied around them. And the countdown from January to July gradually went from months to weeks to days while the moment that seemed like it would never get here finally did: Their return.

Their deployment kept them in Iraq 25 days longer than any other unit serving in this war. During their time, they drove over 4,500 round trip convoy missions completing 99 percent of them on time. That's over 2.2 million miles of convoys in Iraq from the south central part of the country to the Jordanian and Syrian borders. And I don't think anyone needs a reminder of the dangers of IEDs on these convoys, but just for the record, this unit discovered over 350 of them before they were detonated. In other areas they fought al-Qaida and provided critical security to our military bases, saving countless lives of their comrades in arms.

They also worked hard to win the hearts and minds of the Iraqi people. In their time in Iraq, the 1st Brigade Combat Team of the 34th Infantry completed over 90 reconstruction projects from water and powerplants to road construction and media expansion.

And now, after nearly 2 years of sacrifice and dedication, on behalf of a grateful State and Nation we have the privilege to welcome these fine men and women back to the North Star State. With their return will come new challenges. As Maj John Morris, Chaplain of the Minnesota National Guard, often says, we have to support our troops before, during, and after their deployments. I look forward to joining with my colleagues in the Minnesota delegation to do our part to energize the State to bring these troops all the way home.

I have no doubt there will be plenty of handshakes, hugs, and welcome home ceremonies across our State in the coming days and weeks for this admirable group of Americans. I hope I am there to personally welcome home as many as I can, but because I know I can't make it to all of them—and because I would rather they get home and go fishing than spend their time talking to me—I want to express in the RECORD the eternal appreciation I have for the service of the 1st Brigade Combat Team of the 34th Infantry.

You gave up time, income, and family togetherness. You risked everything so all our lives could be safer and more free from fear. When your Nation called you to serve, you didn't take a poll, you didn't equivocate, you didn't even question why. You served because you were called to and you did your duty with perseverance, excellence and strength. Your active duty service is now complete, but our debt of gratitude will never end. On behalf of all Minnesotans, we welcome you home.

Thank you and may God Bless you.

ADDITIONAL STATEMENTS

150TH ANNIVERSARY OF R&R MARKET

● Mr. SALAZAR. Mr. President, I wish to commemorate the 150th anniversary of Colorado's oldest family-owned business—the R&R Market in the town of San Luis, in Costilla County, CO. My family has ranched and farmed in the San Luis Valley for five generations just a few miles west of San Luis. I grew up knowing the R&R Market as one of the treasures of the valley, a great symbol of our shared history and heritage.

Colorado was built upon the ingenuity, hard work, and entrepreneurial spirit of people like Don José Dario Gallegos, who traveled from the San Luis Valley by mule train over the Santa Fe Trail to trade centers in St. Louis and Independence, Missouri. Don Dario Gallegos was among the founders of the town of San Luis in 1851 and helped establish some of the first water rights in the area. The irrigation

ditches—or acequias—that he and the settlers dug are still in use today.

When Don Dario Gallegos opened his store in San Luis in 1857, Colorado was still a young territory, and statehood was nearly 20 years away.

Though the physical foundation of Don José Dario Gallegos's original adobe structure would be destroyed in an 1895 fire, the people of San Luis came together to form the indestructible foundation rooted in a commitment to community and family that sustains the R&R Market to this very day.

It is this commitment that the people of San Luis will celebrate on June 30, 150 years after the original R&R Market opened its doors. I congratulate the Gallegos descendants—who still own and operate the market—and the people of San Luis on this momentous anniversary.

I have a painting of the R&R Market hanging in my Washington, DC, office. It serves as an everyday reminder of the place I come from—a place where community and family mean everything, a place where the spirit of Colorado was born and continues to thrive. I am honored to represent that place and the people who come from it.●

TRIBUTE TO GEORGE M. VAN TASSEL

● Mr. SHELBY. Mr. President, I wish to pay tribute to George M. Van Tassel, who passed away on Monday, June 18, 2007. For 13 years, George served as mayor of my hometown, Tuscaloosa, AL. He was a personal friend of mine and along with the entire town of Tuscaloosa, I mourn his passing.

In the 1930s George moved south from New York to attend the University of Alabama School of Law. There, he met a fellow student, Juarine Berrey, with whom he quickly fell in love. They married in 1934. Several years after his gradation in 1939, George was drafted by the U.S. Army to serve in the European theater during World War II. On D-Day, George was among the soldiers who landed on the beach at Normandy, France.

Upon returning to the States, George began his law practice. In 1956, he was elected to serve as mayor of Tuscaloosa, filling the unexpired term of mayor Hal McCall. Although George oversaw many changes that took place in Tuscaloosa during his three terms as mayor, perhaps his most notable achievement was his initiative to dam the North River and create a 5,885-acre water supply reservoir we call Lake Tuscaloosa.

In 1969, George decided not to run for reelection. An avid hunter and fisherman, he wanted more time to enjoy his hobbies. He returned to the law, managing a successful practice until he retired at age 75.

George is loved and will be missed by his daughter, Linda Ayers of Tuscaloosa, and his son, George M. Van Tassel, Jr., of Birmingham. He was an inspiration to many and will be remembered for his dedication and many contributions to the city of Tuscaloosa. I ask this entire Senate to join me in recognizing and honoring the life of George M. Van Tassel.●

REPORT ON THE NATIONAL EMERGENCY WITH RESPECT TO THE WESTERN BALKANS AS DECLARED IN EXECUTIVE ORDER 13219 OF JUNE 26, 2001—PM 19

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred to the Committee on Banking, Housing, and Urban Affairs:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent the enclosed notice to the *Federal Register* for publication stating that the Western Balkans emergency is to continue in effect beyond June 26, 2007. The most recent notice continuing this emergency was published in the *Federal Register* on June 23, 2006, 71 FR 36183.

The crisis constituted by the actions of persons engaged in, or assisting, sponsoring, or supporting (i) extremist violence in the Republic of Macedonia and elsewhere in the Western Balkans region, or (ii) acts obstructing implementation of the Dayton Accords in Bosnia or United Nations Security Council Resolution 1244 of June 10, 1999, in Kosovo, that led to the declaration of a national emergency on June 26, 2001, in Executive Order 13219 and to amendment of that order in Executive Order 13304 of May 28, 2003, has not been resolved. The acts of extremist violence and obstructionist activity outlined in Executive Order 13219, as amended, are hostile to U.S. interests and pose a continuing unusual and extraordinary threat to the national security and foreign policy of the United States. For these reasons, I have determined that it is necessary to continue the national emergency declared with respect to the Western Balkans and maintain in force the comprehensive sanctions to respond to this threat.

GEORGE W. BUSH.

THE WHITE HOUSE, *June 22, 2007.*

MESSAGE FROM THE HOUSE

ENROLLED BILL SIGNED

At 11:53 a.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the Speaker has signed the following enrolled bill:

S. 1352. An act to designate the facility of the United States Postal Service located at 127 East Locust Street in Fairbury, Illinois, as the ''Dr. Francis Townsend Post Office Building''.

At 2:03 p.m., a message from the House of Representatives, delivered by Ms. Brandon, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 2764. An act making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2008, and for other purposes.

H.R. 2771. An act making appropriations for the Legislative Branch for the fiscal year ending September 30, 2008, and for other purposes.

MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 2764. An act making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2008, and for other purposes; to the Committee on Appropriations.

H.R. 2771. An act making appropriations for the Legislative Branch for the fiscal year ending September 30, 2008, and for other purposes; to the Committee on Appropriations.

MEASURES PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

H.R. 2359. An act to reauthorize programs to assist small business concerns, and for other purposes.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–2339. A communication from the Congressional Review Coordinator, Animal and Plant Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled ''Importation of Fruit from Thailand'' ((RIN0579-AC10)(Docket No. APHIS-2006-0040)) received on June 21, 2007; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2340. A communication from the Congressional Review Coordinator, Animal and Plant Health Inspection Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled ''Pine Shoot Beetle; Addition of Cumberland County, New

Jersey, to the List of Quarantined Areas'' (Docket No. APHIS-2007-0067) received on June 21, 2007; to the Committee on Agriculture, Nutrition, and Forestry.

EC–2341. A communication from the Director, Financial Crimes Enforcement Network, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Amendments to Bank Secrecy Act Regulations Regarding Casino Recordkeeping and Reporting Requirements'' (RIN1506-AA29) received on June 21, 2007; to the Committee on Banking, Housing, and Urban Affairs.

EC–2342. A communication from the Chief of Regulations and Administrative Law, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Safety Zones (including 6 regulations beginning with CGD01-07-002)'' (RIN1625-AA00) received on June 21, 2007; to the Committee on Commerce, Science, and Transportation.

EC–2343. A communication from the Chief of Regulations and Administrative Law, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Safety Zones (including 6 regulations beginning with CGD01-07-043)'' (RIN1625-AA00) received on June 21, 2007; to the Committee on Commerce, Science, and Transportation.

EC–2344. A communication from the Chief of Regulations and Administrative Law, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Drawbridge Operations (including 5 regulations beginning with CGD01-07-058)'' (RIN1625-AA09) received on June 21, 2007; to the Committee on Commerce, Science, and Transportation.

EC–2345. A communication from the Chief of Regulations and Administrative Law, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Special Local Regulations (including 2 regulations beginning with CGD05-07-017)'' (RIN1625-AA08) received on June 21, 2007; to the Committee on Commerce, Science, and Transportation.

EC–2346. A communication from the Chief of Regulations and Administrative Law, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Anchorage Regulations; Port of New York and Vicinity'' ((RIN1625-AA01)(CGD01-06-023)) received on June 21, 2007; to the Committee on Commerce, Science, and Transportation.

EC–2347. A communication from the Chief of Regulations and Administrative Law, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Safety Zones (including 8 regulations beginning with CGD09-07-039)'' (RIN1625-AA00) received on June 21, 2007; to the Committee on Commerce, Science, and Transportation.

EC–2348. A communication from the Chief of Regulations and Administrative Law, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Safety Zones (including 8 regulations beginning with CGD09-07-042)'' (RIN1625-AA00) received on June 21, 2007; to the Committee on Commerce, Science, and Transportation.

EC–2349. A communication from the General Counsel, Federal Energy Regulatory Commission, transmitting, pursuant to law, the report of a rule entitled ''Applicability of Federal Power Act Section 215 to Qualifying Small Power Production and Cogeneration Facilities'' (Docket No. RM07-11-000) received on June 20, 2007; to the Committee on Energy and Natural Resources.

EC–2350. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled ''Application of Section 6404(g) of the Internal Revenue Code Suspension Provisions'' ((RIN1545-BG64)(TD 9333)) received on June 21, 2007; to the Committee on Finance.

EC–2351. A communication from the Chief of the Trade and Commercial Regulations Branch, Customs and Border Protection, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled ''Haitian Hemisphere Opportunity Through Partnership Encouragement Act of 2006'' (RIN1505-AB82) received on June 21, 2007; to the Committee on Finance.

EC–2352. A communication from the Inspector General, Railroad Retirement Board, transmitting, pursuant to law, the Board's Semiannual Report relative to its activities and accomplishments during the period of October 1, 2006, through March 31, 2007; to the Committee on Health, Education, Labor, and Pensions.

EC–2353. A communication from the Director, Strategic Human Resources Policy Division, Office of Personnel Management, transmitting, pursuant to law, the report of a rule entitled ''Locality Pay Areas'' (RIN3206-AL27) received on June 21, 2007; to the Committee on Homeland Security and Governmental Affairs.

EC–2354. A communication from the Secretary of Housing and Urban Development, transmitting, pursuant to law, the Semiannual Report of the Department's Inspector General for the period of October 1, 2006, through March 31, 2007; to the Committee on Homeland Security and Governmental Affairs.

EC–2355. A communication from the General Counsel, Office of Management and Budget, transmitting, pursuant to law, the report of a change in previously submitted reported information for the position of Administrator for the Office of Information and Regulatory Affairs, received on June 21, 2007; to the Committee on Homeland Security and Governmental Affairs.

EC–2356. A communication from the Principal Deputy Assistant Attorney General, Department of Justice, transmitting, pursuant to law, a report relative to the Department's review of legislation entitled ''Honest Leadership and Open Government Act of 2007''; to the Committee on the Judiciary.

EC–2357. A communication from the Secretary of Veterans Affairs, transmitting, the report of a draft bill entitled ''Veterans' Authorities Expansion Act of 2007''; to the Committee on Veterans' Affairs.

EC–2358. A communication from the Director of Regulations Management, Office of Information and Technology, Department of Veterans Affairs, transmitting, pursuant to law, the report of a rule entitled ''Data Breaches'' (RIN2900-AM63) received on June 21, 2007; to the Committee on Veterans' Affairs.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. LEAHY, from the Committee on the Judiciary:

Report to accompany S. 535, a bill to establish an Unsolved Crimes Section in the Civil Rights Division of the Department of Justice, and an Unsolved Civil Rights Crime Investigative Office in the Civil Rights Unit of the Federal Bureau of Investigation, and for other purposes (Rept. No. 110–88).

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Ms. SNOWE (for herself and Mrs. LINCOLN):

S. 1682. A bill to amend title 10, United States Code, to improve the management of medical care for members of the Armed Forces, to improve the speed and efficiency of the physical disability evaluation system of the Department of Defense, and for other purposes; to the Committee on Armed Services.

By Ms. STABENOW (for herself, Mr. VOINOVICH, and Mr. LEVIN):

S. 1683. A bill to amend the Internal Revenue Code of 1986 to exempt from the harbor maintenance tax certain commercial cargo loaded or unloaded at United States ports in the Great Lakes Saint Lawrence Seaway System; to the Committee on Finance.

By Mr. BIDEN (for himself and Mr. LUGAR):

S. 1684. A bill to establish the Return of Talent Program to allow aliens who are legally present in the United States to return temporarily to the country of citizenship of the alien if that country is engaged in post-conflict or natural disaster reconstruction, and for other purposes; to the Committee on the Judiciary.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mrs. DOLE (for herself, Mr. BURR, Mr. STEVENS, and Mr. MCCONNELL):

S. Res. 249. A resolution honoring the life of Ruth Bell Graham; considered and agreed to.

By Mr. MCCONNELL (for himself, Mrs. FEINSTEIN, Mrs. HUTCHISON, Mrs. CLINTON, Mr. MCCAIN, Mrs. BOXER, Mr. LUGAR, Mrs. LINCOLN, Ms. MURKOWSKI, and Mrs. DOLE):

S. Res. 250. A resolution expressing the sense of the Senate condemning the military junta in Burma for its continued detention of Aung San Suu Kyi and other political prisoners; considered and agreed to.

By Mr. GRAHAM (for himself, Mr. DEMINT, Mr. DODD, Mr. MCCAIN, Mr. KENNEDY, Mr. CHAMBLISS, Mr. KERRY, Mr. ISAKSON, Mrs. DOLE, Mr. SCHUMER, Mrs. CLINTON, Mr. BIDEN, and Mr. BURR):

S. Res. 251. A resolution honoring the firefighters and other public servants who responded to the fire in Charleston, South Carolina, on June 18, 2007; considered and agreed to.

By Mr. BOND (for himself and Mr. INOUYE):

S. Res. 252. A resolution recognizing the increasingly mutually beneficial relationship between the United States of America and the Republic of Indonesia; to the Committee on Foreign Relations.

By Mrs. FEINSTEIN (for herself, Mr. CORNYN, Mr. COLEMAN, Mr. OBAMA, and Mr. LUGAR):

S. Con. Res. 40. A concurrent resolution supporting the goals and ideals of observing the National Day of Human Trafficking Awareness on January 11 of each year to raise awareness of and opposition to human trafficking; considered and agreed to.

ADDITIONAL COSPONSORS

S. 41

At the request of Mr. BAUCUS, the name of the Senator from Mississippi (Mr. LOTT) was added as a cosponsor of S. 41, a bill to amend the Internal Revenue Code of 1986 to provide incentives to improve America's research competitiveness, and for other purposes.

S. 156

At the request of Mr. WYDEN, the name of the Senator from North Carolina (Mrs. DOLE) was added as a cosponsor of S. 156, a bill to make the moratorium on Internet access taxes and multiple and discriminatory taxes on electronic commerce permanent.

S. 185

At the request of Mr. LEAHY, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 185, a bill to restore habeas corpus for those detained by the United States.

S. 206

At the request of Mrs. FEINSTEIN, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 206, a bill to amend title II of the Social Security Act to repeal the Government pension offset and windfall elimination provisions.

S. 432

At the request of Mrs. LINCOLN, the name of the Senator from Mississippi (Mr. LOTT) was added as a cosponsor of S. 432, a bill to amend title XVIII of the Social Security Act to provide coverage for kidney disease education services under the Medicare program, and for other purposes.

S. 439

At the request of Mr. REID, the name of the Senator from Montana (Mr. BAUCUS) was added as a cosponsor of S. 439, a bill to amend title 10, United States Code, to permit certain retired members of the uniformed services who have a service-connected disability to receive both disability compensation from the Department of Veterans Affairs for their disability and either retired pay by reason of their years of military service or Combat-Related Special Compensation.

S. 777

At the request of Mr. CRAIG, the name of the Senator from Louisiana (Mr. VITTER) was added as a cosponsor of S. 777, a bill to repeal the imposition of withholding on certain payments made to vendors by government entities.

S. 838

At the request of Mr. SMITH, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. 838, a bill to authorize funding for eligible joint ventures between United States and Israeli businesses and academic persons, to establish the International Energy Advisory Board, and for other purposes.

S. 912

At the request of Mr. ROCKEFELLER, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. 912, a bill to amend the Internal Revenue Code of 1986 to expand the incentives for the construction and renovation of public schools.

S. 940

At the request of Mr. BAUCUS, the name of the Senator from Mississippi (Mr. LOTT) was added as a cosponsor of S. 940, a bill to amend the Internal Revenue Code of 1986 to permanently extend the subpart F exemption for active financing income.

S. 1060

At the request of Mr. BIDEN, the names of the Senator from Colorado (Mr. SALAZAR), the Senator from New York (Mrs. CLINTON) and the Senator from Maine (Ms. COLLINS) were added as cosponsors of S. 1060, a bill to reauthorize the grant program for reentry of offenders into the community in the Omnibus Crime Control and Safe Streets Act of 1968, to improve reentry planning and implementation, and for other purposes.

S. 1243

At the request of Mr. KERRY, the name of the Senator from Washington (Mrs. MURRAY) was added as a cosponsor of S. 1243, a bill to amend title 10, United States Code, to reduce the age for receipt of military retired pay for nonregular service from 60 years of age to 55 years of age.

S. 1257

At the request of Mr. LIEBERMAN, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of S. 1257, a bill to provide the District of Columbia a voting seat and the State of Utah an additional seat in the House of Representatives.

S. 1259

At the request of Mrs. CLINTON, the names of the Senator from New Jersey (Mr. MENENDEZ) and the Senator from Rhode Island (Mr. WHITEHOUSE) were added as cosponsors of S. 1259, a bill to amend the Foreign Assistance Act of 1961 to provide assistance for developing countries to promote quality basic education and to establish the achievement of universal basic education in all developing countries as an objective of United States foreign assistance policy, and for other purposes.

S. 1267

At the request of Mr. SALAZAR, his name was added as a cosponsor of S. 1267, a bill to maintain the free flow of information to the public by providing conditions for the federally compelled disclosure of information by certain persons connected with the news media.

S. 1406

At the request of Mr. KERRY, the name of the Senator from Rhode Island (Mr. REED) was added as a cosponsor of S. 1406, a bill to amend the Marine Mammal Protection Act of 1972 to strengthen polar bear conservation efforts, and for other purposes.

S. 1418

At the request of Mr. DODD, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of S. 1418, a bill to provide assistance to improve the health of newborns, children, and mothers in developing countries, and for other purposes.

S. 1544

At the request of Mr. GREGG, the names of the Senator from North Carolina (Mr. BURR) and the Senator from New Hampshire (Mr. SUNUNU) were added as cosponsors of S. 1544, a bill to amend title XVIII of the Social Security Act to improve the quality and efficiency of health care, to provide the public with information on provider and supplier performance, and to enhance the education and awareness of consumers for evaluating health care services through the development and release of reports based on Medicare enrollment, claims, survey, and assessment data.

S. 1592

At the request of Mr. BROWN, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. 1592, a bill to reauthorize the Underground Railroad Educational and Cultural Program.

S. 1661

At the request of Mr. STEVENS, the name of the Senator from Florida (Mr. MARTINEZ) was added as a cosponsor of S. 1661, a bill to communicate United States travel policies and improve marketing and other activities designed to increase travel in the United States from abroad.

S. 1681

At the request of Mr. DODD, the name of the Senator from Massachusetts (Mr. KENNEDY) was added as a cosponsor of S. 1681, a bill to provide for a paid family and medical leave insurance program, and for other purposes.

S. J. RES. 16

At the request of Mr. MCCONNELL, the name of the Senator from Montana (Mr. TESTER) was added as a cosponsor of S. J. Res. 16, a joint resolution approving the renewal of import restrictions contained in the Burmese Freedom and Democracy Act of 2003.

S. RES. 235

At the request of Mr. WHITEHOUSE, the names of the Senator from Rhode Island (Mr. REED), the Senator from Oklahoma (Mr. INHOFE), the Senator from Washington (Ms. CANTWELL), the Senator from Maine (Ms. SNOWE), the

Senator from Idaho (Mr. CRAIG), the Senator from Michigan (Mr. LEVIN), the Senator from Michigan (Ms. STABENOW) and the Senator from Wisconsin (Mr. KOHL) were added as cosponsors of S. Res. 235, a resolution designating July 1, 2007, as ''National Boating Day''.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. SNOWE (for herself and Mrs. LINCOLN):

S. 1682. A bill to amend title 10, United States Code, to improve the management of medical care for members of the Armed Forces, to improve the speed and efficiency of the physical disability evaluation system of the Department of Defense, and for other purposes; to the Committee on Armed Services.

Ms. SNOWE. Mr. President, I rise today to proudly join my friend and colleague Senator BLANCHE LINCOLN in the introduction of the Servicemembers' Healthcare Benefits and Rehabilitation Enhancement Act of 2007.

In March, I was able to visit one of Maine's returning soldiers who has been assigned outpatient care at the Walter Reed Army Medical Center. We spoke about the many issues and obstacles faced by our wounded troops as they struggle not only to recover from their injuries, but to prepare themselves for their future. During our meeting, this soldier covered many of the pitfalls faced by troops as they confront the bewildering processes of medical and physical evaluation boards without the benefit of anyone to advocate on their behalf. In fact, he aptly described the process as an ''adversarial'' system that onerously demands wounded soldiers to provide the ''burden of proof'' for their claims.

In response, we have crafted this legislation in order to remedy a variety of flaws that currently plague the military health care system, including: inequitable disability ratings, a lack of advocacy within military outpatient facilities, inadequate mental health treatment, and inefficient transition from the DOD to the VA.

First off, our bill would address the concerns I have heard from a number of returning troops from my home state of Maine and across this Nation who have gone without the proper advocacy and case management for medical benefits during their stay at military outpatient facilities. It is inexcusable that our returning heroes are often forced to navigate the esoteric physical disability evaluation system, PDES, within an adversarial atmosphere.

The measure we are proposing would require the Secretary of Defense to provide each recovering servicemember in a military medical treatment facility with a medical care manager who will assist him or her with all matters regarding their medical status, along with a caseworker who will assist each servicemember and his or her family in obtaining all the information necessary for transition, recovery, and benefits collection. Further, provisions we included will create a DOD-wide Ombudsmen Office to provide policy guidance to, and oversight of, ombudsman offices in all military departments and the medical system of the DOD. Only then, will our returning servicemembers recover within an atmosphere that is based upon advocacy.

Additionally, recent news reports and independent analysis have revealed troubling statistics regarding rampant inaccuracies within the military disability ratings system. According to Pentagon data analyzed by the Veterans' Disability Benefits Commission, since 2000, 92.7 percent of all disability ratings handed out by physical evaluation boards, PEBs, have been 20 percent or lower. Under the current policy, those who receive disability ratings under 30 percent and have served less than 20 years of military service are discharged with only a severance check, deprived of full military retirement pay, life insurance, health insurance, and access to military commissaries.

Further evidence of a troubled disability ratings system shows that since America went to war in Afghanistan and Iraq, fewer veterans have received disability ratings of 30 percent or more, inferring that the DOD may have lowered the ratings for injured troops who would have otherwise received a host of lifelong benefits. On top of that, it currently takes an average of 209 days for troops to complete the PDES process by receiving notification of potential discharge and a subsequent disability rating.

As a means of fixing these blatant flaws within the military disability ratings system, this legislation consolidates the physical evaluation system by placing the informal and formal physical evaluation boards under one command, as a method of streamlining and expediting the process. Our troops deserve timely care and efficient treatment upon their return home, and therefore, no recovering servicemember should be forced to endure lengthy delays in a medical hold or holdover status due to bureaucratic inefficiencies.

The bill also requires that physicians preparing each individual medical case for all PEBs report multiple diagnosed medical impairments that, in concert, may deem a servicemember to be unfit for duty. Under the current system, the U.S. Army, for example, only rates physical impairments that individually cause a servicemember to be deemed unfit for duty, ultimately dismissing ailments that may significantly hinder a servicemember's ability to continue his or her service in the military or find gainful employment in the civilian sector.

Over the past year, the American public has also become acutely aware of the effects of traumatic brain injury, TBI, which has become the signature injury of the wars in Iraq and Afghanistan, affecting thousands of returning servicemembers. Therefore, it is now more imperative than ever for both the DOD and the VA to implement mental health treatment policies that accurately diagnose and adequately treat debilitating mental health injuries among our injured troops.

Our bill addresses these issues by including a provision that requires all servicemembers who are expected to deploy to a combat theater to receive a mental health assessment that tests their cognitive functioning within 120 days before deployment, a mental health assessment within 60 days after deployment, to include a comprehensive screening for mild, moderate, and severe cases of TBI. Additionally, all servicemembers will receive a third mental health assessment at the time of their predischarge physical.

The measure we are putting forward today also aims to update the current disability ratings system used by the military and the VA to include the effects of TBI and post traumatic stress disorder, along with any other mental health disorders that may affect our Nation's returning warriors. The Secretary of Veterans Affairs would be required to issue a report to Congress detailing a plan to update the Veterans' Administration Schedule for Ratings Disabilities, VASRD, to align its disability ratings to more closely reflect the effects of mental halth disorders, including TBI and PTSD on the modern workforce.

The Servicemembers' Healthcare Benefits and Rehabilitation Enhancement Act of 2007 also calls on the Secretaries of Defense and Veterans Affairs to provide Congress with a report detailing plans to increase the role of eligible private sector rehabilitation providers for assisting the VA in providing comprehensive post acute inpatient and outpatient rehabilitation for TBI and PTSD, if in certain instances the VA is unable to provide such services.

The Veterans Health Administration is, unequivocally, the foremost expert in providing mental health treatment for our recovering servicemembers, yet in varying circumstances, the VA may require additional health care coverage in remote areas. All of our returning heroes, despite the severity of their mental health ailments, or their location geographically, deserve every available option for rehabilitative services, to ensure that they never go untreated.

Additionally, to help ease the transition from the military health care system to the VA system, both the DOD

and the VA must adopt and implement a unified electronic medical database. Interagency database compatibility would not only increase medical efficiency, but it would significantly ease the transition into civilian life for injured or retiring servicemembers who deserve timely and effective health care. Therefore, our legislation establishes and implements a single electronic military and medical record database within the DOD that will be used to track and record the medical status of each member of the Armed Forces in theater and throughout the military health care process, and will be accessible to the VA through the Joint Patient Tracking Application, JPTA. This electronic records system will be identical to the VistA system, currently used by the VA, which has served as a model of excellence for electronic medical databases among our Nation's health community.

I have nothing but the utmost respect for those brave Americans who served in uniform with honor, courage, and distinction. The obligation our Nation holds for its servicemembers and veterans is enormous, and it is an obligation that must be fulfilled every day. We must always remain cognizant of the wisdom laid forth by President George Washington, when he stated, ''The willingness with which our young people are likely to serve in any war, no matter how justified, shall be directly proportional as to how they perceive the Veterans of earlier wars were treated and appreciated by their country.''

At a time when over 600,000 courageous men and women have returned from combat in both Iraq and Afghanistan, I believe it is now up to Congress to do everything in its power to answer the call of our men and women who have nobly served our Nation in uniform, to ensure that they receive the heroes' treatment they rightly earned and rightly deserve. Again, I want to thank my colleague, Senator LINCOLN, for her assistance in making this a stronger bill and bringing it before the Senate. I strongly urge my colleagues to support this legislation.

By Ms. STABENOW (for herself, Mr. VOINOVICH, and Mr. LEVIN):

S. 1683. A bill to amend the Internal Revenue Code of 1986 to exempt from the harbor maintenance tax certain commercial cargo loaded or unloaded at United States ports in the Great Lakes Saint Lawrence Seaway System; to the Committee on Finance.

Ms. STABENOW. Mr. President, I speak in support of the Great Lakes Short Sea Shipping Act of 2007. This legislation will exempt from the harbor maintenance tax certain commercial cargo loaded or unloaded at U.S. ports in the Great Lakes Saint Lawrence System.

In recent years, transportation planners have been struggling to identify ways to move people and goods more efficiently. Congested highways, particularly at the Detroit, Michigan/Windsor, Ontario border crossing, the busiest border crossing in North America, acts as a huge constraint to economic growth.

The purpose of the Harbor Maintenance Tax, HMT, is to generate revenue from port users for port maintenance conducted by the U.S. Army Corps of Engineers. The Corps maintains Federal shipping channels by conducting periodic dredging, which is necessary to remove sand and silt that occur naturally in shipping channels. HMT receipts are placed in the harbor maintenance trust fund, which serves as a source of revenue for the Corps' dredging budget. The HMT is assessed on cargo transported between U.S. ports and cargo imported to U.S. ports from other countries. Exports are not assessed a tax. More specifically, the tax is not paid by the vessel owner, nor the port, but by the owner of the cargo in each ship. The bill would provide a narrow exemption to the HMT for the movement of nonbulk only commercial cargo by water in the Great Lakes region, which includes the movement of freight and people between the U.S. ports on the Great Lakes and between Canadian and U.S. ports on the Great Lakes.

This very narrow exemption would remove the current disincentive to moving freight by water and allow the region's transportation planners to develop new shipping services to not only relieve highway congestion, but to improve air quality as well. Moreover, the legislation could open up new shipping services to be offered on the Great Lakes, thus creating jobs in the maritime sector. One of the other benefits is that this exemption will offer options for trucks that may choose to use the bridges, tunnels, or now ferry service. Because the Detroit/Windsor border crossing is the busiest border crossing in North America, any alternative mode of transportation that allows for commerce to flow more smoothly, quickly, and efficiently is beneficial not only to the Great Lakes region, but to the country. Also, in this time of us working to be more responsible and have a cleaner environment for our children, allowing trucks off of the congested highways and onto ferries where they can cut off engines and not idle, will reduce air emissions, improve air quality, and cut down on gasoline usage.

Moreover, since trucks currently use roads rather than ferries to move around the Great Lakes region, the Federal Government does not HMT on their cargo. Under this proposed legislative exemption, if a truck boarded a ferry, the Federal Government would still not collect a tax.

By Mr. BIDEN (for himself and Mr. LUGAR):

S. 1684. A bill to establish the Return of Talent Program to allow aliens who are legally present in the United States to return temporarily to the country of citizenship of the alien if that country is engaged in post-conflict or natural disaster reconstruction, and for other purposes; to the Committee on the Judiciary.

Mr. BIDEN. Mr. President, two of the greatest challenges we face today are how to address the needs of postconflict countries, and countries that are suffering from large-scale natural disasters. These are critical issues, and ones that we cannot afford to get wrong, for the sake of the people living in those nations, and for the sake of our own security.

On the post-conflict front, a recent commission organized by the Center for Strategic and International Studies and the Association of the U.S. Army found, to no one's surprise, that ''failed states matter—for national security as well as for humanitarian reasons. If left to their own devices, such states can become sanctuaries for terrorist networks, organized crime and drug traffickers, as well as posing grave humanitarian challenges and threats to regional stability.''

Currently, the most obvious case in point is the reconstruction of Iraq. In addition to Iraq, unfortunately, we can talk about many other states that are either unstable, or are tenuously recovering from past conflicts including Afghanistan, East Timor, Kosovo, Haiti, and the Democratic Republic of the Congo.

Earthquakes, floods, drought and landslides often have the most dire impacts in developing countries that are the least equipped to respond. The countries ravaged by the 2004 tsunami are recovering, but there is still a long way to go: Indonesia lost over 150,000 people, with half a million left homeless. In India, almost 20,000 people lost their lives and 2.79 million people were affected, losing homes, land, and livestock. The tsunami set back development in the Maldives by 20 years, devastating the country's economic backbone and tourism industry.

We need comprehensive, and creative, strategies to help countries rebound from conflicts or natural disasters. One such strategy is to allow, and indeed encourage, immigrants to the United States to use their skills, talents, and knowledge to help rebuild their native lands. The diaspora is an extraordinary collective resource. These individuals know the communities. They know the culture. They know the language, more than any contractors, and more than any humanitarian workers from the outside, no matter how well-trained they may be or how much expertise they may have.

So today, I am introducing legislation, as I did in the last Congress, that would create a ''return of talent'' visa program.
