Page 4, line 18, insert at the end before the period the following: '': *Provided further*, That of the amount made available under this heading, $232,244,000 shall be available for the Bureau of Consular Affairs' Passport Operations''.

Page 46, line 1, after the dollar amount, insert ''(reduced by $25,000,000)''.

H.R. 2764

OFFERED BY: MR. LAMBORN

AMENDEMNT NO. 46: At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds made available in this Act for assistance under the West Bank and Gaza program may be made available to or through any individual, private or government entity, or educational institution that does not expressly recognize the right of the State of Israel to exist.

H.R. 2764

OFFERED BY: MR. MCCAUL OF TEXAS

AMENDMENT NO. 47: Page 9, line 23, after the dollar amount, insert ''(reduced by $30,000,000)''.

Page 52, line 13, after the dollar amount, insert ''(increased by $30,000,000)''.

H.R. 2764

OFFERED BY: MRS. MUSGRAVE

AMENDMENT NO. 48: At the end of the bill (before the short title), insert the following new section:

SEC. 699D. Each amount appropriated or otherwise made available by this Act that is not required to be appropriated or otherwise made available by a provision of law is hereby reduced by 0.5 percent.

H.R. 2764

OFFERED BY: MR. PENCE

AMENDMENT NO. 49: At the end of the bill (before the short title), insert the following new section:

LIMITATION ON FUNDS FOR DISTRIBUTION OF ASSETS FROM LIQUIDATION OR DISSOLUTION OF ENTERPRISE FUNDS

SEC. 6xx. None of the funds appropriated or otherwise made available under titles II through V of this Act may be used to provide for the distribution of any assets from any liquidation or dissolution of an Enterprise Fund, in whole or in part, to an entity other than the United States Treasury.

H.R. 2764

OFFERED BY: MR. PENCE

AMENDMENT NO. 50: At the end of the bill (before the short title), insert the following new section:

LIMITATION ON FUNDS FOR DISTRIBUTION OF ASSETS FROM LIQUIDATION OR DISSOLUTION OF ENTERPRISE FUNDS

SEC. 6xx. None of the funds appropriated or otherwise made available under titles II through V of this Act may be used to provide for the distribution of more than 50 percent of any assets from any liquidation or dissolution of an Enterprise Fund, in whole or in part, to an entity other than the United States Treasury.

H.R. 2764

OFFERED BY: MR. POE

AMENDMENT NO. 51: At the end of the bill, before the short title, insert the following new section:

SEC. 6____. None of the funds made available in this Act may be used to provide an immigrant or non-immigrant visa to a national or citizen of a country the central government of which has notified the Secretary of State of its refusal to extradite to the United States any individual indicted in the United States for killing a law enforcement officer, as specified in a United States extradition request.

H.R. 2764

OFFERED BY: MR. PRICE OF GEORGIA

AMENDMENT NO. 52: At the end of the bill (before the short title), insert the following:

SEC. ____. Appropriations made in this Act are hereby reduced in the amount of $342,430,000.

H.R. 2764

OFFERED BY: MS. ROS-LEHTINEN

AMENDMENT NO. 53: At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds made available in this Act may be used by the Department of State as a contribution for the United Nations Human Rights Council.

H.R. 2764

OFFERED BY: MS. ROS-LEHTINEN

AMENDMENT NO. 54: At the end of the bill (before the short title), insert the following:

SEC. ____. None of the funds made available in this Act may be used by the Department

of State as a contribution for the United Nations Human Rights Council.

H.R. 2764

OFFERED BY: MRS. MUSGRAVE

AMENDMENT NO. 55: Page 51, line 18, after the dollar amount, insert ''(reduced by $175,000)''.

H.R. 2764

OFFERED BY: MR. PORTER

AMENDMENT NO. 56: Page 183, line 16, after ''low-income women'' insert '', including women who are victims of trafficking in persons,''.

H.R. 2764

OFFERED BY: MR. SHAYS

AMENDMENT NO. 57: Page 2, line 22, after the dollar amount insert ''(reduced by $1,000,000)''.

Page 17, line 19, after the dollar amount insert ''(increased by $1,000,000)''.

H.R. 2764

OFFERED BY: MR. SHAYS

AMENDMENT NO. 58: Page 40, line 26, after the dollar amount, insert ''(increased by $50,000,000) (reduced by $50,000,000)''.

H.R. 2764

OFFERED BY: MR. SHAYS

AMENDMENT NO. 59: Page 2, line 22, after the dollar amount, insert ''(reduced by $35,000,000)''.

Page 58, line 13, after the dollar amount, insert ''(increased by $35,000,000)''.

H.R. 2764

OFFERED BY: MR. SHERMAN

AMENDMENT NO. 60: Page 29, line 1, after the dollar amount, insert ''(increased by $65,000,000)''.

Page 30, line 1, after the dollar amount, insert ''(increased by $65,000,000)''.

Page 70, line 14, after the dollar amount, insert ''(reduced by $65,000,000)''.

SENATE—*Wednesday, June 20, 2007*

The Senate met at 9:30 a.m. and was called to order by the Honorable BENJAMIN L. CARDIN, a Senator from the State of Maryland.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal spirit, Your great Name keeps us from harm. We remember all Your gifts and praise You for Your mercies. Today, guide our Senators. Make their plans succeed as they find wisdom by following Your directions. When they don't know what to do, teach them to be still until You make Your will clear. When they feel alone and anxious, remind them that You will never abandon them no matter how difficult the challenge. Keep them from elevating the empty and hollow while neglecting the truly valuable. Help them to focus on the things that are excellent, commendable, true, honorable, right, pure, lovely, and admirable. We pray in Your sacred Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable BENJAMIN L. CARDIN led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, June 20, 2007.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable BENJAMIN L. CARDIN, a Senator from the State of Maryland, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. CARDIN thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

SCHEDULE

Mr. REID. Mr. President, following any remarks that I make and the Republican leader does, if he chooses to do so, we will begin consideration of H.R. 6, the Energy bill, with 30 minutes of debate on the DeMint amendment No. 1546. A vote in relation to that amendment is expected to occur at 10:10 or 10:15 this morning. Last night cloture was filed on the Baucus-Grassley amendment, and cloture was filed to the substitute amendment and the Energy bill itself.

Last night I stated the obvious. Every step of the way for 6 months we have had to procedurally jump through every hoop the complicated Senate rules allow. That is unfortunate. We, as Democrats, have been in the minority, and we never did anything similar to this. There were times when it was necessary, because of what we did not allow, that cloture was filed. But this is untoward, what is happening now.

I hope the Republican leadership would look at this. Is it necessary, if we get cloture on the substitute, to have to go forward on a cloture vote on the bill itself? I hope not.

Germane first-degree amendments to the substitute and the bill need to be filed at the desk by 1 p.m. today. There will be votes today and into the evening.

STEM CELL RESEARCH

Mr. REID. Mr. President, yesterday, a few feet out of this Chamber, I had the opportunity to meet with three young ladies from Nevada. Megan Christensen is 14 years old; Anna Ressel, from Sparks, 13 years old; and Jordan Exber, a 14-year-old from Las Vegas.

These girls were here to present me with a little award as a result of work I have done on juvenile diabetes. I was representative of many people who have worked on the issue. But the reason I mention this is not any award that was given to me or any of the other Senators but the plight of these young ladies.

One of the girls was determined to have diabetes 3 months ago—a beautiful child, Jordan, from Las Vegas. They prepared a book for me: ''2007, Children's Congress.''

Among other things, one of the pictures in this is a bunch of syringes. Look at this. I can't count them. This is 1 week's picking and poking at this young lady's body that she has to go through because of diabetes.

Type 1 juvenile diabetes is a chronic disease and for the child with type 1 diabetes, the pancreas does not produce insulin, a hormone necessary to sustain life. Without insulin the sugar in the blood can't be used. It builds up in the bloodstream, even though the body is starved for energy. A person with type 1 diabetes must take one or more injections of insulin daily to stay alive.

She has written here: ''I take 42 shots, at least, every week. This does not count the testing,'' to find out what her blood sugar levels are; 42 a week.

The reason I mention this is these young and beautiful children were here to talk about something the President is going to do today—veto stem cell research legislation. What a shame. Last year, the Republican-controlled House and Senate overwhelmingly passed a bill to open up hope for these young ladies.

To indicate this is not just something that is important for Nevada, they had there a girl from Australia. A teenager from Australia was here to indicate this is an international problem. We in America, with the genius we have here—out of the top 142 universities in the world, we have 129 of them in America. One of the best, of course, is in the State of the Presiding Officer—Johns Hopkins. Research is going on there. Stem cell research should be going on there, and it is not.

It was a happy day for all of us when the bill passed the House and the Senate. It was a day Democrats and Republicans put politics and partisanship aside to do the right thing for the American people. Yet when we sent this historic bill to the President's desk, he vetoed it. It was his first veto of his Presidency.

With the health and hope of literally millions of Americans hanging in the balance, he vetoed the bill. It was the first veto, I repeat, of his administration.

A year passed. The best scientists continued to work with one hand tied behind their backs. I indicated 129 great universities in America, the best universities in the world, are not allowed to do this. Countless millions of Americans have been diagnosed with

dread diseases, thousands and thousands, with Parkinson's, spinal cord injuries, heart disease. A year has passed, but today we are told the President plans to veto the stem cell bill again.

These children suffer from diabetes. They were here to help get this bill passed.

When we sent the bill to the President 2 weeks ago, Speaker PELOSI and I were joined by 10-year-old Toni Bethea, who lives in the District of Columbia and suffers from diabetes, and Allison Howard, who suffers from Rett Syndrome—beautiful children, one of them extremely ill. They deserve hope, just like these girls from Las Vegas, Sparks, Reno, from Australia.

President Bush has indicated that he would not give them any hope. He is going to veto the bill, we are told. He would not listen to the more than 500 leading organizations who support this bill, the American Association of Retired Persons, AARP, the American Medical Association, the American Diabetes Association, more than 500 organizations. He would not listen to 80 Nobel laureates who have said this is essential. He would not listen to his own Director—I am talking about President Bush—his own Director of the National Institutes of Health, who supports embryonic stem cell research. He is not listening to the majority of the American people. This proposal is supported by more than 80 percent of the American public. They call for stem cell research.

This narrow ideology that has guided this administration, that has us in this intractable war in Iraq, that has us losing standing in the world community, having 47 million Americans with no health care and no plan coming from the White House to improve that—a program that is lacking in keeping our children in school. On the environment, global warming is taking place. It is being ignored by this White House. This, a hope for millions—stem cell research—indicates this narrow ideology is wrong, and it is preventing the curing of diseases, the prevention of diseases. We deserve better. We are a nation of endless compassion and unlimited ingenuity. Megan, Anna, Jordan, Toni, and Allison deserve to know we are a better country than this narrow ideology.

President Bush's veto is a setback, but we are going to continue to give hope to these children and the American people.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

CREATING LONG-TERM ENERGY ALTERNATIVES FOR THE NATION ACT OF 2007

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of H.R. 6, which the clerk will report.

The legislative clerk read as follows:

A bill (H.R. 6) to reduce our Nation's dependence on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

Pending:

Reid amendment No. 1502, in the nature of a substitute.

Reid (for Bingaman) amendment No. 1537 (to amendment No. 1502), to provide for a renewable portfolio standard.

Klobuchar (for Bingaman) amendment No. 1573 (to amendment No. 1537), to provide for a renewable portfolio standard.

Bingaman (for Klobuchar) amendment No. 1557 (to amendment No. 1502), to establish a national greenhouse gas registry.

Kohl (for DeMint) amendment No. 1546 (to amendment No. 1502), to provide that legislation that would increase the national average fuel prices for automobiles is subject to a point of order in the Senate.

Corker amendment No. 1608 (to amendment No. 1502), to allow clean fuels to meet the renewable fuel standard.

Cardin modified amendment No. 1520 (to amendment No. 1502), to promote the energy independence of the United States.

Collins amendment No. 1615 (to amendment No. 1502), to provide for the development and coordination of a comprehensive and integrated U.S. research program that assists the people of the United States and the world to understand, assess, and predict human-induced and natural processes of abrupt climate change.

Baucus amendment No. 1704 (to amendment No. 1502), to amend the Internal Revenue Code of 1986 to provide for energy advancement and investment.

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be 30 minutes of debate on amendment No. 1546, offered by the Senator from South Carolina, Mr. DEMINT, with the time equally divided and controlled between the Senator from New Mexico, Mr. BINGAMAN, and Mr. DEMINT.

Who yields time? The Senator from South Carolina is recognized.

Mr. DEMINT. Mr. President, I ask unanimous consent to be allowed to speak as in morning business for up to 5 minutes and that it count against my allocated 15 minutes on my amendment and that it appear in a separate place in the RECORD.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(The remarks of Mr. DEMINT are printed in today's RECORD under ''Morning Business.'')

AMENDMENT NO. 1546

Mr. DEMINT. Mr. President, I wish to take a few minutes to speak about my amendment which the Senate will be voting on a few minutes after 10 this morning. This amendment would create a 60-vote point of order against bills or amendments in the future that would raise the price of gasoline.

This amendment is very straightforward. It would require the Congressional Budget Office to score legislation to determine if it would increase the cost of gasoline. If the legislation would increase the cost of gasoline, a 60-vote point of order would lie against the bill.

This applies the same principle we use in the Congressional budget process to our energy policy. The traveling public is coping with the high price of gasoline every day. While there are many factors out of our control forcing up the price of gas, we can control what we do here in the Senate.

For all the time that has been spent over the last few weeks railing against big oil or the high cost of gasoline, little time has been spent to examine one of the leading causes of high prices of gasoline, which is the Congress. Too often the idea of a rational energy policy here in Congress is to create burdensome regulations, onerous mandates, and higher taxes, all of which directly translate into higher prices at the pump for American families. My amendment proposes to hold Congress in check by instituting a safeguard that encourages the Senate to take a ''do not harm'' approach when considering legislation affecting gas prices.

My amendment, again, is very straightforward and very simple. If the Senate wants to pass legislation that will make it more expensive for American families to fill up their tank, we will be required to get 60 votes instead of 51 to pass the legislation. While this amendment is relatively simple, it is also vitally important, because, while many of the Democrats in this body like to tell the American people they are working to ''stick it to big oil'' and lower the price of gasoline, their legislative record shows something quite different.

The current bill is a perfect example. According to a study completed this week by the Heritage Foundation, the Energy bill we are currently debating could result in significantly higher prices for gasoline to consumers. A review of the legislation, including the new amendment dealing with tax changes, revealed the bill could increase the price of regular unleaded gasoline from $3.15 per gallon, which is the May average right now, to $6.40 a gallon by 2016.

That is an increase of over 100 percent. The point of order my amendment proposes could not be used against this bill because it cannot take effect until the bill is enacted. But my amendment could be used to stop similar legislation in the future. If this

Congress is willing to consider legislation that would raise the price of gasoline by over 100 percent, as this bill may do, we need to put some commonsense safeguards in place.

I know some of my colleagues may in the future support policies that would raise the price of gasoline. That would cause the point of order I am proposing to lie against the bill. But I would encourage even those to support this amendment. If their policy goal is so important, then we can overcome the point of order and we can get 60 votes to pass their legislation.

We should adopt this commonsense proposal that ensures that at the very least the Senate is less likely to increase the cost of gasoline. After all the concerns we have heard from my Democratic colleagues about the price of gasoline, this seems the least we can do.

I reserve the remainder of my time.

The ACTING PRESIDENT pro tempore. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, the DeMint amendment as described by Senator DEMINT creates a 60-vote point of order in the Senate on any legislation or part of legislation that would ''result in an increase in the national average fuel price for automobiles.''

By legislation, that is usually interpreted to mean a bill, a joint resolution, an amendment, a motion, or a conference report. The determination of whether any of those enumerated items would result in an increase in the national average fuel price for automobiles would be made by CBO in consultation with the Energy Information Administration.

This is another piece of ''feel good'' legislation that would have the probable effect of making a great deal of what we do here in the Senate subject to a 60-vote point of order. Frankly, world oil prices and domestic fuel prices are swayed by all sorts of influences and psychological factors in the market. To think the Congressional Budget Office would be able to analyze price effects of legislative proposals might play in this complex stew of what traders and producers and major refiners think will happen is not realistic. This point of order would give a tremendous amount of influence to the petroleum industry. Most anything we do up here causes them to complain we are likely to raise gasoline prices as a result.

For example, they are saying that right now about the antimanipulation and consumer protection provisions in the bill that were voted out of the Commerce Committee. If there were a 60-vote point of order their complaint could trigger, they would certainly be in constant contact with Member offices and with the Congressional Budget Office trying to boost the minimum votes necessary for these proposals to 60 votes.

Let me give you a few examples of amendments to the bill Members want to offer that might be caught up in this kind of a point of order. Senator COCHRAN has an amendment he wants to offer to increase the size of the Strategic Petroleum Reserve. Any purchase of oil for the SPR would take that oil off the market and potentially raise fuel prices. That would trigger the DeMint point of order.

Another example is the provision in the amendment that was adopted in the Senate by over 60 votes yesterday that is referred to generally as NOPEC, which essentially says U.S. courts will be open and available and have jurisdiction to consider antitrust claims against foreign governments that are getting together and trying to conspire to set oil policies. That legislation could clearly affect the price of oil and thereby the price of gasoline at the pump. We have an interest in creating reserves of products for refined gasoline. We already have a heating oil reserve. Legislation to establish new product reserves or to increase the size of the heating oil reserve would likely trigger this point of order my friend is suggesting we ought to put into our procedural law.

Our military posture in the Persian Gulf has a great deal to do with the world price of oil. We might find that amendments or other legislative proposals dealing with sensitive military or diplomatic issues in that region would have an effect on automobile fuel prices under this amendment and could thus trigger the point of order. We might see the whole Defense bill annually subjected to the DeMint point of order on the claim that what we are proposing to do in the Defense bill could increase the price of gasoline at the pump.

It is worth focusing on the fact that the point of order is triggered by ''an increase'' found by the Congressional Budget Office. That increase could be less than a penny a gallon and still the 60-vote point of order would be triggered as the amendment is drawn.

Another example would be any legislation that might be considered on the Senate floor related to Nigeria and our relations with Nigeria. Clearly, we are heavily dependent upon oil from Nigeria to meet our energy needs. Any instability in that relationship could affect the price of oil or the price of gasoline as a result of increases in the price of oil.

People are always complaining it is hard to get things done here in the Congress. We have too many procedural wrangles here in the Congress. There is an abundance already of procedural hurdles that any legislative proposal has to surmount in order to get passed.

We have been pleading with various Senate Members in connection with this exact bill to try to get permission to bring up different amendments, even agreeing that we would be bound by a 60-vote point of order or a 60-vote requirement to do that. So we already have procedural hurdles in place in abundance. We should not be inserting into Senate procedures a requirement that will come back to haunt both Republicans and Democrats in completely unforeseen and unforeseeable ways just in order to say we did something about high gas prices.

I strongly urge that we not agree to the DeMint amendment.

The ACTING PRESIDENT pro tempore. The Senator from South Carolina.

Mr. DEMINT. How much time do I have remaining?

The ACTING PRESIDENT pro tempore. The Senator has 7½ minutes.

Mr. DEMINT. Mr. President, I very much appreciate the Senator's remarks. I think the remarks were very instructive. It is clear that many of things we do in the Senate actually do result in increased gas prices.

Most of the discussion and a lot of the initiative and motivation of the bill we are working on is to lower gas prices. The fact is, in the past, though, we have not been honest and transparent with the American people. Many times we are talking about our good intentions, things we are going to do here, and we do not expose the fact that what we are doing is going to increase the cost of gasoline. I think that is a fair part of the debate. If we want to increase our national reserves of oil, then it is fair in that debate to make it clear to the American people that if we do it, it may increase the cost of gasoline to them at home, so all of us who are considering the issue can balance it.

If some aid program to Nigeria is going to increase the cost of gasoline here at home, the American people should know that, so we cannot claim to be doing something for people without them realizing it is costing them more and more money.

I understand the objections to procedural hurdles here. Actually, that is the way the Senate was designed so that we do not do things in a knee-jerk fashion, without openness and debate, so we actually do figure out the consequences of what we do in advance of passing legislation.

We have not done that in the past. Many of our rules have created different boutique, different fuel requirements in many States, a lot of environmental concerns—a lot of things that are good actually increased the cost of gasoline a significant degree.

It is important that we include that in our debate. While we may be resistant to procedural hurdles, much of the bill we are debating creates multiple procedural hurdles to increase new gas supplies, oil, natural gas. It creates new mandates, new taxes. We create a

lot of hurdles for the energy business to create more supply so we can lower the price of gasoline. This amendment exposes us for what we are and what we are doing. If we are going to propose things in the Senate related to energy, the Congressional Budget Office, as my amendment says, in consultation with the Energy Information Administration and other appropriate Government agencies, can help make a determination if what we are doing is going to raise the price of gasoline. That is a fair part of an honest debate.

To snuff this out and to come down to the Senate floor and make great claims about what we are going to do to help the American people while all the time hiding from them that we are the ones raising their gas prices—it is not big oil, it is not necessarily even OPEC, it is us. We add lots of costs to gasoline every time we pass an energy bill. This Energy bill is no exception.

While my amendment doesn't affect this bill, it does create a point of order in the future. You can call this a hurdle, but if 60 people in the Senate cannot decide that it is more important to increase the size of our national reserve, even though it might increase the cost of gasoline, if 60 of us are not for that, then perhaps we should hesitate before we increase the cost of gasoline again to the consumers.

This is one of the rare simple bills that come to the Senate. It is just a couple of pages. All it does is say that when we introduce a bill that increases the cost of gasoline for American consumers, we have to get 60 votes instead of 51 to pass it. It is a reasonable proposal. If we are willing to come here and talk every day about what we are doing to help the consumer and at the same time we want to hide from them that the things we are doing are actually increasing the cost of gasoline, then shame on us.

This amendment is simple. It is about transparency, openness, and honesty to the people. That is exactly what they deserve.

I urge all of my colleagues to vote for this amendment.

I yield back the remainder of my time.

The ACTING PRESIDENT pro tempore. Who yields time?

Mr. BINGAMAN. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DEMINT. I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DEMINT. Mr. President, it has been brought to my attention that the majority will seek to defeat my amendment by raising another point of order against it. This demonstrates exactly how much the Democrats dislike this amendment. It proves that they have additional plans in the works to raise gasoline prices on the American people. Why else would they be fighting it so hard? I also believe this effort to deny the Senate a clean up-or-down vote on this amendment shows that some in this body are more interested in defending the jurisdiction and rights of a Senate committee than they are in defending American consumers. If the other side raises a point of order against my amendment, I encourage my colleagues to ask themselves which is more important: protecting Americans from high gas prices or protecting the jurisdiction of the Budget Committee?

I urge my colleagues to vote to waive the Budget Act. If the other side tries to kill my amendment and stick it to the American people at the pump, I encourage Members to vote against such an effort.

I yield the floor.

The ACTING PRESIDENT pro tempore. Who yields time?

Mr. DEMINT. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BINGAMAN. I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BINGAMAN. Mr. President, part of our debate has involved the question of whether we have too many procedural hurdles already impeding the work of the Senate and keeping us from conducting up-or-down votes on things. I strongly believe we do have too many procedural hurdles. Obviously, the purpose of the DeMint amendment would be to put more procedural hurdles in place so that a 60-vote point of order would be required in many circumstances in the future where it is not required today for the Senate to act.

I am informed that one of the procedural hurdles already in law is under the Budget Act and that the pending amendment deals with matter within the Budget Committee's jurisdiction in that the DeMint amendment would direct CBO to take a variety of actions. That is exclusively within the jurisdiction of the Budget Committee.

I raise a point of order that the pending amendment violates section 306 of the Congressional Budget Act of 1974.

I yield back the remainder of my time.

Mr. DEMINT. Mr. President, I move to waive the budget point of order.

The ACTING PRESIDENT pro tempore. The question is on agreeing to the motion to waive the Budget Act in relation to amendment No. 1546.

Mr. BINGAMAN. I ask for the yeas and nays.

The ACTING PRESIDENT pro tempore. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from Indiana (Mr. BAYH), the Senator from Delaware (Mr. BIDEN), the Senator from South Dakota (Mr. JOHNSON), and the Senator from Illinois (Mr. OBAMA) are necessarily absent.

Mr. LOTT. The following Senators are necessarily absent: the Senator from Kansas (Mr. BROWNBACK), the Senator from Oklahoma (Mr. COBURN), and the Senator from Arizona (Mr. MCCAIN).

The PRESIDING OFFICER (Mr. WHITEHOUSE). Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 37, nays 55, as follows:

[Rollcall Vote No. 217 Leg.]

YEAS—37

Allard	Dole	Martinez
Bennett	Domenici	McConnell
Bond	Ensign	Nelson (NE)

NOT VOTING—7

Bayh	Coburn	Obama
Biden	Johnson	
Brownback	McCain	

The PRESIDING OFFICER. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is not agreed to. The point of order is sustained and the amendment falls.

Mr. BINGAMAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BINGAMAN. Mr. President, I understand the Senator from New Hampshire has an amendment he wishes to offer at this time. He has agreed to a time limit wherein we would have 40 minutes equally divided, half to be controlled by Senator GREGG, the other half to be controlled by Senator GRASSLEY, or their designees. It would be 40 minutes prior to any vote in relation to the amendment.

Mr. GREGG. Mr. President, reserving the right to object, for clarification, we are going to have 40 minutes of debate and then at some point we will have the vote, right?

Mr. BINGAMAN. We will have 40 minutes of debate and then at some point we will have a vote. We may not have it immediately at the end of that 40 minutes.

Mr. GREGG. But we will have 40 minutes of debate now equally divided between myself and Senator GRASSLEY, and then when we get to a vote on it, we will have 2 minutes equally divided.

Mr. BINGAMAN. I am suggesting we go ahead and vote at the end of 40 minutes. So we will have 40 minutes of debate equally divided and then we will have a vote.

Mr. GREGG. If that is agreeable with the managers, that is fine with me.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

AMENDMENT NO. 1718 TO AMENDMENT NO. 1704

Mr. GREGG. Mr. President, I send an amendment to the desk.

Is there an amendment pending? This is a second-degree amendment to the Baucus amendment.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from New Hampshire [Mr. GREGG] proposes an amendment numbered 1718 to amendment No. 1704.

Mr. GREGG. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To strike the provision extending the additional duty on ethanol and for other purposes)

Strike section 831 and insert the following:

SEC. 831. ELIMINATION OF ETHANOL TARIFF AND DUTY.

(a) IN GENERAL.—

(1) ELIMINATION OF PERMANENT TARIFF OF 2.5 PERCENT.—Subheading 2207.10.60 of the Harmonized Tariff Schedule of the United States is amended—

(A) by striking the column 1 general rate of duty and inserting ''Free''; and

(B) by striking the matter contained in the column 1 special rate of duty column and inserting ''Free''.

(2) ELIMINATION OF PERMANENT TARIFF OF 1.9 PERCENT.—

(A) IN GENERAL.—Chapter 22 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new subheading:

''	2207.20.20	Ethyl alcohol and other spirits, denatured, of any strength (if used as a fuel or in a mixture to be used as a fuel)	Free	Free (A+, AU, BH, CA, CL, D, E, IL, J, JO, MA, MX, P, SG)	20%	''.

(B) CONFORMING AMENDMENT.—The article description for subheading 2207.20.00 of the Harmonized Tariff Schedule of the United States is amended by inserting ''(not provided for in subheading 2207.20.20)'' after ''strength''.

(b) REPEAL OF TEMPORARY DUTY OF 54 CENTS PER GALLON.—Subchapter I of chapter 99 of the Harmonized Tariff Schedule of the United States is amended—

(1) by striking heading 9901.00.50; and

(2) by striking U.S. Notes 2 and 3 relating to heading 9901.00.50.

(c) EFFECTIVE DATE.—The amendments made by this section apply with respect to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of the enactment of this Act.

Mr. GREGG. Mr. President, this amendment is an attempt to remedy what is an unfortunate situation, which is that people who cannot buy ethanol from the Midwest and have to buy it from other sources, especially outside the United States, end up being taxed at 54 cents a gallon.

So people from the east coast and, to some degree, from the west coast are paying an excessive amount to use product which significantly improves the environment and which also obviously reduces our dependence on oil.

The argument at the time this tariff was originally initiated was we needed to protect the ethanol production capability of the Midwest, the corn producers. That may have had some resonance a few years ago, but it certainly does not have any resonance any longer. It does not have any credibility any longer.

Today, there are about 7.5 billion gallons of ethanol produced in this country. Under this bill it is required that go up to 36 billion gallons. Most of that will come from the production of corn, most likely in the Midwest. So there is already a huge demand for corn, and corn prices are high. In fact, they are so high as a result of the use of corn for ethanol that many people who use corn as feedstock are complaining vociferously. So there is no need to protect production in the Midwest with a tariff that impacts people on the east coast disproportionately.

The second reason there is no need for this tax is that people from the east coast cannot get ethanol from the Midwest because it cannot be shipped efficiently. That is because ethanol cannot be shipped through pipelines because of its volatility. Therefore, our only option on the east coast is to buy ethanol that comes from outside the country, the Caribbean Basin and Brazil. Therefore, it makes no sense to penalize the east coast to try to encourage production in the center of the country for corn and ethanol when the corn is already being significantly subsidized to the tune of $3 billion annually just through agricultural subsidies. But, in addition, its production is being encouraged by the requirement that we produce so much ethanol in this country that corn is essentially the feedstock for it, and that we therefore are having a dramatic expansion in the production of corn and the utilization of corn.

This is not as if in any way this is going to affect that production capability. What it does do, however, is put us in the right place environmentally, and in the right place from a standpoint of utilization of energy sources because we should be using ethanol, obviously, and on the east coast we want to use ethanol. We just want to pay a fair price for it.

When we have this 54-cent-a-gallon tax on the consumers in the Northeast and the East, it is not a fair price. If we take this tax off, we will actually expand ethanol consumption in the East, and so, hopefully, at some point they will figure out a way to ship ethanol through pipelines and that will create a greater demand for ethanol generally in this Nation since so many people live on the east coast. And that will, again, help the production in the Midwest once we figure out how to ship it efficiently to the East because the demand will have been created.

Secondly, we have a choice. We can either heat with oil and we can run our cars on oil and gas or we can run in part on ethanol. The simple fact is, however, I would rather buy ethanol from Brazil than oil from Venezuela. It makes a lot more sense geopolitically as to how we protect ourselves. It is a cleaner burning energy, it is a better form of energy, and it is an energy which should be burned and is an energy that I think is a national policy we would rather buy than underwriting the present Venezuelan Government by having to buy oil there.

So the concept of having this tariff, which is essentially a 54-cent-a-gallon tax on everybody who lives on the east coast, is no longer viable. It is not viable because corn production is up dramatically, the price of corn is up dramatically, and it will continue to go up especially under this bill since we are going to require a dramatic increase in the number of gallons which are ethanol based.

So the ethanol industry, to the extent it is corn based, is going to continue to grow and be viable, and they do not need this tariff production, which is its only purpose. It is not viable because it is not an efficient way for us to purchase energy, to have us pay this much extra money in tariffs so we basically undermine the use of ethanol on the east coast. It is not a good policy because it encourages the use of Venezuelan or other types of oil imports over ethanol because of the pricing situation. And it is not a good idea because it is simply bad policy to have in place this type of tariff.

This is not the mercantile period of the 19th century when we basically arbitrarily threw tariffs on products in order to create an inefficient marketplace, which was something we thought was going to help some producer here or there. It makes much more sense to have a situation where consumers can purchase ethanol-based products at reasonable prices so we can get more utilization of ethanol.

This amendment would eliminate the 54-cent-a-gallon tax which is targeted on a majority, quite honestly, of the American population and which the majority of Americans should not have to pay.

I reserve the remainder of my time.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. Mr. President, I hope Senator THUNE is here. I was going to yield time to him first.

I yield myself a couple minutes while we are waiting for Senator THUNE.

Mr. President, first of all, to change direction from where Senator GREGG was, today corn is $3.50 in central Iowa, and it is down 25 cents from yesterday because it rained in Illinois in the last 48 hours. So weather is affecting the price of grain quite a bit. If city slickers are worried about the price of corn flakes going up, just remember that a farmer only gets a nickel out of every box of corn flakes that is half filled with air anyway. There are events that are affecting the price of corn a lot different from just ethanol. But the impression one gets around here when reading the papers is that there is so much corn going into ethanol that it is driving up the price of food for city people around this country.

The other issue is that the Senator from New Hampshire said corn is being subsidized $3 billion. When corn is above roughly $2 in the Midwest, there is no loan deficiency payment being paid out for that corn. So at the price corn is today, there is no subsidy for corn.

Another issue we ought to think about is, whether we are importing ethanol or importing oil—don't forget, a few years ago, we started a program of tax incentives for ethanol and other renewables so we would be energy independent. Do we want to be dependent on imported ethanol as we are dependent on imported oil?

What is involved is an infant industry that is just now being able to come to a peak with great advancement in the future but still infant from the standpoint that the next step in ethanol production is cellulosic ethanol, to get ethanol not from grain corn but from wood chips, from switchgrass, or from corn stover. It will be 3 to 5 years before the scientific process of enzymes is efficient enough for that production to come about.

Even though we are now having a massive production of ethanol from grain corn, we cannot sustain this beyond 15 billion gallons of ethanol coming from grain corn or corn getting above that figure. And the underlying bill from the Senate Energy Committee recognizes that point because they have a 15-billion-gallon limit of grain corn producing ethanol. Beyond that, it is going to have to come from wood chips, switchgrass, corn stover—anything that has cellulose in it from which they can make ethanol.

Just because all of a sudden we have a burgeoning production of ethanol from grain corn doesn't mean this industry is mature to a point where we are going to be as energy efficient as we should be, as energy independent as we should be, and that is why it is still necessary to keep the tax incentives. That is why it is still necessary to have this import duty.

I am going to continue to yield time to myself until Senator THUNE arrives. I wish to make a statement in opposition to the amendment offered by the distinguished Senator from New Hampshire.

With today's gas prices, many in Congress are looking for solutions and for someone to blame. Unfortunately, some have chosen to pinpoint ethanol as the culprit. Because of new demand for ethanol, some of my colleagues have begun to argue that there is a shortage and that it is responsible for the rising cost of gasoline. They look to increased imports of ethanol and the lifting of the import tariff as a solution, and that is the substance of the amendment that is before us. But increased imports would have little impact on the price of gasoline. Let me emphasize because that is the basis of the amendment and I am saying the amendment is not going to accomplish its goal. Increased imports will not reduce the price of gasoline. This is the case because ethanol is such a tiny fraction of the cost of gasoline. In fact, in Iowa, you can buy a gallon of ethanol gasoline mixture—90 percent gasoline, 10 percent ethanol—for 8 to 10 cents under what the price of 100 percent of ethanol costs.

In regard to not changing the price of gasoline, I quote Guy Caruso, Administrator of the Energy Information Administration of the Department of Energy, last year saying that the 10-percent blend of ethanol is affecting price by ''just a few pennies.'' Ethanol's role in gasoline prices is a tiny fraction of the overall increase.

In addition, it is important to point out that the United States already provides significant opportunities for countries to ship ethanol into our market duty free. Numerous countries do not pay the U.S. ethanol tariff at all. Through our free-trade agreements and trade preference programs, some 73 countries currently have duty-free access to U.S. markets for ethanol fully produced in those countries. For all other countries, including Brazil, the world's major exporter of ethanol, the United States provides duty-free access through a carve-out in the Caribbean Basin Initiative.

Get it right: Brazilian ethanol exporters don't have to pay the U.S. tariff today. Under this CBI, ethanol produced in Brazil and other countries that is merely dehydrated in a Caribbean country can enter the United States duty free up to 7 percent of the U.S. ethanol market, a very generous access, and it has been on the books for 20 years. Yet Brazil and other countries have never come close to hitting this 7-percent cap of ethanol that can come into our country duty free already. In fact, we are almost halfway through 2007, and this duty-free cap has been filled only 23 percent for this year.

Moreover, this cap grows every year because this 7 percent is 7 percent of a higher figure because of higher production of domestic ethanol every year. And it isn't that the Caribbean countries don't have the capacity to dehydrate more ethanol. They do have that capacity.

So we are already providing duty-free access for Brazilian ethanol that is shipped through the Caribbean countries. Much of this duty-free ethanol is being exported to the East Coast, the part of the country that Senator GREGG contends would benefit from the complete lifting of the U.S. tariff on ethanol.

The fact of the matter is that Brazil isn't taking full advantage of duty-free treatment currently available to them. I don't know why we should bend over backward to provide more duty-free access for Brazil. In fact, I would offer to the authors of this amendment that when this 7 percent loophole gets filled and that much ethanol has come into the country, I would be glad to sit

down and see if there is a need to lift the cap totally.

I especially don't know why we should do this, given Brazil's stance in the Doha Round negotiations of the World Trade Organization. Brazil is the leader of the G20 negotiating group in the WTO negotiations, a group that is resisting our efforts to obtain improved market access for U.S. products, both manufactured and agricultural, throughout the entire world.

In addition, the Brazilian Government intervenes extensively in the price and supply of ethanol in that country. But the U.S. tariff on ethanol operates as an offset to a U.S. excise tax credit that applies to both domestically produced as well as imported ethanol. So by lifting the tariff, we would, in effect, be giving the benefits of this tax credit to subsidize the Brazilian production of ethanol.

Providing yet more duty-free treatment for subsidized Brazilian ethanol would send the wrong signal to those Americans who are devoting their careers to helping America become more energy independent. The U.S. ethanol industry is working every day to lessen our dependence upon foreign oil. This is a virtue that President Bush has touted again and again. Last year, the President restated his goal to replace oil around the world by expanding the production of ethanol.

The President stated:

> The Federal Government has got a role to play to encourage new industries that will help this Nation diversify away from oil. And so we are strongly committed to corn-based ethanol produced in America.

And today the President would add to that we are committed to doing more in cellulosic production of ethanol as well.

The President clearly understands the need to assist our infant domestic ethanol industry so we can get a foothold and we can succeed. Why would the United States now want to send a signal that we are backing away from our efforts to seek energy independence? We are already dependent upon foreign oil. Surely we don't want our country to go down the path of eventually becoming dependent upon foreign ethanol as well.

Providing yet more duty-free treatment would be a step in the wrong direction, discouraging the advancement of investment in biorefineries for ethanol and biodiesel. It would be bad for energy independence and, obviously, bad for our national security. So I hope my colleagues will oppose the Gregg amendment.

Mr. DOMENICI. Mr. President, will the Senator yield?

Mr. GRASSLEY. Yes.

Mr. DOMENICI. Does the Senator have a minute left for the Senator from New Mexico?

Mr. GRASSLEY. Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. Seven minutes.

Mr. GRASSLEY. Mr. President, I yield 1 minute to the Senator from New Mexico and then 5 minutes to the Senator from South Dakota.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Mr. President, I wish to congratulate the Senator on his remarks and say I concur with them. I would say this is the wrong time, while we are trying to enhance the investment in cellulosic ethanol and everything that goes with that, to come along with this idea. This would weaken the investment potential and the credibility of investment right when it is ripening and really generating interest.

This requires billions of dollars to be invested in cellulosic ethanol as we move to the next generation, and to have weakening that comes from this issue as to what is going to happen with this export-import issue is the wrong thing. I encourage colleagues to follow the lead of Senator BINGAMAN and Senator GRASSLEY.

Mr. President, I yield the floor.

Mr. GRASSLEY. Mr. President, I yield 5 minutes to Senator THUNE.

The PRESIDING OFFICER. The Senator from South Dakota.

Mr. THUNE. Mr. President, I wish to join my colleague from Iowa in opposing this amendment. In 2006, America's ethanol industry contributed over $41 billion to the national economy. Operation and construction of domestic biorefineries created 163,034 jobs in all sectors of the economy last year alone.

The bill before the Senate builds upon this success by boosting the renewable fuel standard to 36 billion gallons by the year 2022 and establishing other valuable incentives for renewable energy production. The amendment proposed by Senator GREGG, our colleague from New Hampshire, would send mixed signals to our ethanol producers, their investors, and the farmers who sell their products to ethanol plants.

In effect, what Congress would be doing is telling the ethanol industry: We are demanding more of your product, but at the same time we are going to open the back door and begin subsidizing foreign sources of ethanol. If this amendment is adopted, our marketplace would be flooded with heavily subsidized ethanol from foreign countries.

In 2006, Brazil exported 433 million gallons into the United States, which is an increase of 400 million gallons over the year 2005. That same year, Brazil paid over $220 million in duties to import this amount of ethanol. They were already importing ethanol into this country through the Caribbean Basin Initiative. They have not reached that cap, but I think it is fair to expect they are going to continue to flood the U.S. market every opportunity they get with ethanol that is produced in Brazil.

The tax credit that currently is in place for domestic ethanol is critical to the success of our industry, and it does not discriminate between domestic or foreign sources of ethanol. So what happens is, as soon as the Brazilian ethanol is blended with gasoline in the United States, taxpayers begin paying 51 cents for each gallon of foreign ethanol. If Senator GREGG's amendment is accepted, American taxpayers will immediately begin subsidizing hundreds of millions of gallons of foreign-made ethanol each year with no offsetting duty. Simply put, by eliminating this tariff, we would trade our dependence upon foreign sources of oil for a new and growing dependence upon foreign ethanol.

I would add the critics of this tariff have argued that it inflates the cost of gasoline in this country. In fact, gasoline prices, as my colleague from Iowa has noted, would not be affected by removing the tariff on imported ethanol. Ethanol itself represents less than 5 percent of U.S. motor fuel supplies, and imported ethanol represents a small fraction of that percentage.

The factors truly driving the price of gasoline higher have nothing to do with ethanol supplies. Record crude oil prices, tight refining capacity, lower gasoline production, and limited expansion of domestic refining expansion all play a much greater role than the supply of ethanol in today's higher gasoline prices.

Critics of the tariff also claim we will need ethanol imports to meet the growing demand for ethanol and to comply with the strengthened renewable fuel standard. Again, the facts tell a very different story. Our Nation's current domestic production capacity is 6.2 billion gallons of ethanol. According to industry experts, an additional 6.4 billion gallons of capacity are currently under construction and will soon be refining ethanol. That is a total of 12.8 billion gallons in current planned production, which is more than enough—more than enough—to meet the heightened renewable fuel standards in the near term.

Additionally, we have to keep in mind the limitations placed on ethanol demand due to blend restrictions. Right now, only E10, 10 percent ethanol and 90 percent gasoline, is approved for use in nonflex-fuel vehicles. There is a point at which we are going to hit the E10 wall. Domestic production, as you can see if you look at this chart of ethanol production in this country, is more than adequate to meet the full market potential for E10. Some industry analysts predict we will very soon have excess ethanol production capacity when we hit the E10 wall.

That is why it is so important we expand ethanol and allow for higher

blends—E15, E20—which in my view is something long overdue. The E10 wall is the point at which the market for E10 ethanol is saturated if ethanol production continues to grow at a record pace. While some in the industry disagree on when we will hit the E10 wall, it is clear it would have a harmful effect on the overall ethanol industry if Congress fails to act. Lifting the tariff on ethanol imports would only flood the marketplace with foreign ethanol, further magnifying the impact of the E10 wall.

Clearly, there are several reasons why my colleagues in the Senate should oppose this amendment, which undermines our national energy policy of greater energy independence. So I ask my colleagues to oppose the amendment.

Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. TESTER). The Senator from New Hampshire.

Mr. GREGG. Mr. President, I yield 3 minutes to the Senator from Arizona.

Mr. KYL. Mr. President, the Baucus amendment from the Finance Committee would extend the tariff on imported ethanol for 2 more years. The Gregg amendment properly repeals the tariff.

Now, why do I say properly? Because the ethanol tariff acts as a tax on U.S. consumers at the gasoline pump. It increases the cost of gasoline because the cost of ethanol is increased due to the tariff. If Americans want anything out of this Energy bill, it is a reduction in gasoline prices.

In fact, in a recent Associated Press poll, 60 percent of the respondents said that gas prices—which, by the way, are currently around $3 a gallon—are causing them hardships. Now, it is one thing to maybe have to pull back a little on your family vacation this summer, but an awful lot of people have to drive to get to work and have to drive as part of work. Clearly, when over half of Americans are caused hardships by the current high level of gasoline prices, Congress has the responsibility to do something about that.

We should act. One of the few ways in which we can directly impact the price of gasoline at the pump is to eliminate the tariff of 54 cents per gallon on ethanol that is brought into the United States. Nothing else in this bill will directly bring down gasoline prices. In fact, there are several provisions that will actually have the effect of increasing gasoline prices. Promoting a competitive market for ethanol will help bring down gasoline prices because it increases the supply that is available and provides, therefore, access to lower cost ethanol.

The bottom line is this: When there is a supply of potential fuel out there and our companies are trying to find that supply so they can bring it into the United States to meet the demand of consumers, but they have to pay 54 cents a gallon on part of that supply, they are either going to buy the supply at 54 cents a gallon and pass the cost on to the consumer or they are not going to be able to do that, thereby reducing the supply of gasoline available. What happens when you have more demand and less supply? The cost goes up anyway. Either way, having this tariff in place causes an escalating cost of the price of gasoline because it reduces available supply to the American consumer.

We have a mandate now to use ethanol. That is required. That mandate means the companies that provide the gasoline to consumers have no choice but to acquire ethanol. If much of that ethanol is abroad, and we are charging 54 cents a gallon for it, obviously, you can see it is going to increase the cost of gasoline for the American consumer. Americans are a competitive people who know how the free market works.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. GREGG. I yield 1 more minute to the Senator from Arizona.

Mr. KYL. I need an additional 30 seconds, Mr. President.

One way we know the free market can work better is if we don't have artificial prices on a product which the American consumer needs in order to work. That means we can reduce the cost of gasoline by eliminating this costly ethanol tariff.

Mr. GREGG. Mr. President, could the Chair advise us as to the time situation?

The PRESIDING OFFICER. Ten minutes.

Mr. GREGG. Senator GRASSLEY has how much time?

The PRESIDING OFFICER. One minute.

Mr. GREGG. Mr. President, I ask unanimous consent to add as cosponsors Senators FEINSTEIN, SUNUNU, KYL, and ENSIGN.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GREGG. Mr. President, I think there is some inconsistency coming from the argument of the other side on this issue. There is the argument, well, reducing the 54-cent-a-gallon tax would not reduce the price of gasoline. That is very hard to sustain on its face; it is counterintuitive, for obvious reasons. If you cut the cost of gasoline 54 cents a gallon, or if you cut the cost of ethanol 54 cents a gallon, obviously, the price of gasoline is going to go down.

It is equally hard to defend that position when, within two sentences of that argument, you make the argument that the country is going to be flooded with low-cost ethanol.

You can't have it both ways. As a practical matter, yes, this will reduce the price of gasoline. But that is because the ethanol blend will be more affordable in pricing gasoline, and that should be our goal, obviously, for the American consumer—to produce a more environmentally positive form of energy at a lower price.

The second major argument made here is, we can't do this because it will assist the foreign producers over domestic producers, which is totally inconsistent with the bill itself. The bill requires that 36 billion gallons of ethanol be produced by 2022. There is no way that does not mean our domestic production is going to expand dramatically to meet that obligation, so the bill already has in it the built-in obligation and requirements to expand domestic production, coupled with the fact there is a $3 billion subsidy already paid independent of the ethanol benefit, which is accruing to the corn-producing segment of our economy. A $3 billion subsidy for corn producers is paid directly, coupled with the fact that Midwestern-produced ethanol cannot be shipped to the east coast, so it is not a competition. We have to buy the ethanol off-coast because that is the only way we can get the ethanol efficiently and safely because ethanol cannot be shipped through pipelines.

As a practical matter, this tariff is a holdover from a day when, yes, there may have been a fledgling industry in the ethanol community. Maybe there was some viability to it 5 years ago. But that is no longer the case. We have seen a significant increase in corn prices as a result of the expansion of ethanol use. We are going to continue to see a significant increase in corn production, in corn prices, because of continued ethanol use. The simple fact is, as other types of ethanol sources are brought on line, they are going to be brought on line at a competitive price. In fact, they may even be more competitive than corn. And that competitive price, and hopefully a way to ship it, will then be taken advantage of in the East and obviously be a benefit to the entire community of ethanol producers.

The arguments being put forth are classic protectionist arguments, but they have no feet underneath them. They have no basis underneath them. Protectionism, to begin with, is a lousy idea, but it is especially a lousy idea when it is basically not accomplishing its goal.

On the face of it, we know it is not accomplishing its goal. Again, the argument of the Senator from Iowa made this point for us when he said the 7 percent was being allowed in the country, and he had no problem with that. If he has no problem with 7 percent, then why not more, as a practical matter? As a practical matter, we are not competing with the Midwest, we are just trying to get a reasonable price for ethanol in the East.

This tax—and that is what it is—on American consumers, on a product that we should be using, is totally inappropriate and cannot be justified on the

basis of protecting a domestic industry, specifically corn production, in light of the economics of corn production in today's market—which is doing extraordinarily well. It is seeing a massive expansion. Its prices are at their highest level in recent memory. They are going to continue to expand because this bill requires that expansion with the requirement that we use 36 billion gallons of ethanol by 2022, which is almost a quadrupling of the amount of ethanol required today.

I hope Members of the Senate would join me in voting to eliminate this unfair tax, this inappropriate tax. Down the road there is going to be an amendment to eliminate the blenders credit which would offset any of the revenues this would incur.

I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. Mr. President, I yield myself the 1 minute I have left.

First of all, there is no $3 billion to corn farmers, when corn is $4 a bushel or $3.50 a bushel.

Second, as to the point made by Senator KYL, as well as Senator GREGG, that consumers want lower prices and somehow ethanol is driving up that price, let me tell you that ethanol today, this very day, if you check the market, is cheaper in the Northeast and the east coast than gasoline is. The spot market price for ethanol is $2.10 compared to the spot price for gasoline at $2.21 at the New York Harbor. There is no shortage of ethanol. There are no gasoline marketers unable to get ethanol supplies in the Northeast or the east coast. Ethanol is blended today in the RFT area, along the east coast, including Boston, New York, Philadelphia, Baltimore, and Washington. There is imported ethanol shipped into New York and Baltimore Harbor today.

Mr. President, I ask unanimous consent to have printed in the RECORD a letter from seven agricultural groups, including the American Farm Bureau Federation and the National Farmers Union, in opposition to the Gregg amendment.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Majority Leader HARRY REID,
U.S. Senate.
Chairman JEFF BINGAMAN,
Committee on Energy and Natural Resources, U.S. Senate.
Minority Leader MITCH MCCONNELL,
U.S. Senate.
Ranking Member PETE DOMENICI,
Committee on Energy and Natural Resources, U.S. Senate.

DEAR SENATORS: Senator Judd Gregg (R–NH) is proposing an amendment to the energy bill that would eliminate the current tariff on imported ethanol. Such a change is not only unfair, but also inconsistent with efforts by the Administration and Congress to promote the growth of domestically produced renewable fuels.

Current U.S. policy provides refiners and gasoline marketers a 51¢ per gallon tax credit for every gallon of ethanol blended into gasoline. This tax credit is available to refiners regardless of whether the ethanol blended is imported or domestic. To prevent U.S. taxpayers from subsidizing foreign ethanol companies, Congress passed an offset to the tax credit that foreign companies pay in the form of a tariff.

Clearly, companies in countries—like Brazil—that subsidize their own ethanol industry should not have an unfair advantage over U.S. companies. The tax credit offset results in a level playing field and allows a system of fair trade to operate.

The tax credit offset on imported ethanol is not a barrier to entry. In 2006, for example, the U.S. imported of 650 million gallons of which more than 430 million gallons came from Brazil. Clearly, Brazilian imports compete quite effectively when needed.

Simply put, the credit offset merely asks Brazilian and other foreign ethanol producers to pay back the tax incentive for which their product is eligible. Congress correctly put this offset in place to prevent foreign ethanol industries access to American taxpayer dollars while not preventing access to the U.S. market.

At a time when America's domestic ethanol industry is seeking to expand, to invest in new technologies, and to attract investment in cellulosic ethanol production capacity, it makes little sense to undercut those efforts by eliminating the tax credit offset on ethanol. We strongly urge a ''NO'' vote on the Gregg amendment to subsidize foreign produced ethanol.

Sincerely,
American Coalition for Ethanol.
American Farm Bureau Federation.
National Corn Growers Association.
National Council of Farmer Cooperatives.
National Farmers Union.
National Sorghum Producers.
Renewable Fuels Association.

Mr. GREGG. Mr. President, before we go to the vote, I want to clarify two things. First, there was an implication that the administration might not support this amendment. In fact, the administration supports the repeal of this tariff, and they openly supported it. They were on record as supporting it when they were negotiating with Brazil. They do support the repeal of this tariff.

Mr. GRASSLEY. Will you yield on this point, please, not to make a statement?

Mr. GREGG. Yes, to ask a question.

Mr. GRASSLEY. Mr. President, I do ask this question: Does the Senator from New Hampshire know that the President of the United States, when he was in Brazil, was quoted in the paper as telling President Lulu that the ethanol export—the import credit would not be repealed while he is President of the United States?

Mr. GREGG. Reclaiming my time——

Mr. GRASSLEY. I asked you a question.

Mr. GREGG. I am happy to say that I did not understand the question. If I did understand the question, I believe it was that the President said he would not repeal the ethanol credit during his time in office, which I don't happen to think is the administration's position, which was that they publicly do not support this tariff. They do not support this excessive tariff; they do not support this tax. This administration has a strong record on opposition to taxes and tariffs, and they have been publicly in opposition to this for a while.

I also ask unanimous consent to add KAY BAILEY HUTCHISON as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GREGG. I ask unanimous consent to have a statement from the Taxpayers for Common Sense in support of the amendment printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

TAXPAYERS FOR COMMON SENSE ACTION,
Washington, DC, June 19, 2007.

DEAR SENATOR: Taxpayers for Common Sense Action urges you to support Senator Judd Gregg's (R–NH) second degree amendment to the Senate Finance Committee's amendment on H.R. 6. This amendment would eliminate the 54 cent per gallon tariff on imported ethanol, and it is an important first step in righting our flawed ethanol policies.

The combination of ethanol tariffs and a domestic tax credit for blenders of ethanol wildly distorts the marketplace, artificially propping up a narrow sector of the farm economy and stiffing consumers in the process.

The Gregg amendment opens U.S. markets to additional sources of ethanol that would lower domestic prices. Two Iowa State University economists estimate that removing the existing ethanol duties would reduce the domestic price of ethanol by 13.6 percent. Taken one step further, if the blender's tax credit were also repealed, the domestic price of ethanol would drop by a total of 18.4 percent, according to their estimations.

Taxpayers for Common Sense Action urges you to vote for Senator Gregg's amendment to the Senate Finance Committee amendment that is expected to be attached to H.R. 6.

Sincerely,
RYAN ALEXANDER,
President.

Mr. GREGG. I yield the remainder of my time and suggest we go to the vote.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. I raise a point of order that the pending amendment violates section 201 of S. Con. Res. 21, the concurrent resolution on the budget for fiscal year 2008.

Mr. GREGG. Mr. President, pursuant to section 904(c) of the Congressional Budget Act of 1974, I move to waive section 201 of S. Con. Res. 21, the fiscal year 2008 budget resolution, for consideration of H.R. 6.

I ask for the yeas and nays.

The PRESIDING OFFICER. The question is on agreeing to the motion. Is there a sufficient second?

There is a sufficient second.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from Delaware (Mr. BIDEN), the Senator from South Dakota (Mr. JOHNSON), the Senator from Illinois (Mr. OBAMA), and the Senator from Rhode Island (Mr. WHITEHOUSE), are necessarily absent.

I further announce that, if present and voting, the Senator from Rhode Island (Mr. WHITEHOUSE) would vote ''yea.''

Mr. LOTT. The following Senators are necessarily absent: the Senator from Kansas (Mr. BROWNBACK), the Senator from Oklahoma (Mr. COBURN), and the Senator from Arizona (Mr. MCCAIN).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 36, nays 56, as follows:

[Rollcall Vote No. 218 Leg.]

YEAS—36

Alexander	Ensign	Lott
Allard	Enzi	Lugar
Bennett	Feinstein	Martinez
Boxer	Graham	Menendez
Bunning	Gregg	Nelson (FL)
Burr	Hutchison	Reed
Cantwell	Inhofe	Schumer
Collins	Kennedy	Shelby
Corker	Kyl	Snowe
Cornyn	Lautenberg	Sununu
DeMint	Leahy	Warner
Dole	Lieberman	Webb

NAYS—56

Akaka	Dorgan	Murray
Baucus	Durbin	Nelson (NE)
Bayh	Feingold	Pryor
Bingaman	Grassley	Reid
Bond	Hagel	Roberts
Brown	Harkin	Rockefeller
Byrd	Hatch	Salazar
Cardin	Inouye	Sanders
Carper	Isakson	Sessions
Casey	Kerry	Smith
Chambliss	Klobuchar	Specter
Clinton	Kohl	Stabenow
Cochran	Landrieu	Stevens
Coleman	Levin	Tester
Conrad	Lincoln	Thune
Craig	McCaskill	Vitter
Crapo	McConnell	Voinovich
Dodd	Mikulski	Wyden
Domenici	Murkowski	

NOT VOTING—7

Biden	Johnson	Whitehouse
Brownback	McCain	
Coburn	Obama	

The PRESIDING OFFICER. On this vote, the yeas are 36, the nays are 56.

Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected. The point of order is sustained and the amendment falls.

The Senator from New Mexico.

AMENDMENTS NOS. 1528, 1529, 1533, AND 1551, AS MODIFIED, EN BLOC

Mr. BINGAMAN. Mr. President, Senator DOMENICI and I have been working to get some amendments cleared. There are four that are now cleared.

I ask unanimous consent that it be in order to consider en bloc the following amendments, that they be considered and agreed to en bloc, and that the motions to reconsider be laid upon the table en bloc: Bingaman-Domenici No. 1528; Bingaman-Domenici No. 1529; Menendez No. 1533; and Cantwell No. 1551, as modified with the changes that are at the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendments were agreed to, as follows:

AMENDMENT NO. 1528

(Purpose: To improve the section relating to energy storage competitiveness)

On page 126, line 12, strike ''and''.

On page 126, line 13, strike the period and insert ''; and''.

On page 126, between lines 13 and 14, insert the following:

(vi) thermal behavior and life degradation mechanisms.

On page 126, strike lines 14 through 21, and insert the following:

(B) NANOSCIENCE CENTERS.—The Secretary, in cooperation with the Council, shall coordinate the activities of the nanoscience centers of the Department to help the nanoscience centers of the Department maintain a globally competitive posture in energy storage systems for motor transportation and electricity transmission and distribution.

On page 127, line 5, insert ''and battery systems'' after ''batteries''.

On page 127, line 7, strike ''and''.

On page 127, line 9, strike the period and insert ''; and''.

On page 127, between lines 9 and 10, insert the following:

(G) thermal management systems.

On page 127, line 12, insert ''not more than'' before ''4''.

On page 127, lines 21 and 22, strike ''and the Under Secretary of Energy''.

Beginning on page 128, strike line 22, and all that follows through page 129, line 2 and insert the following:

(7) DISCLOSURE.—Section 623 of the Energy Policy Act of 1992 (42 U.S.C. 13293) may apply to any project carried out through a grant, contract, or cooperative agreement under this section.

(8) INTELLECTUAL PROPERTY.—In accordance with section 202(a)(ii) of title 35, United States Code, section 152 of the Atomic Energy Act of 1954 (42 U.S.C. 2182), and section 9 of the Federal Nonnuclear Research and Development Act of 1974 (42 U.S.C. 5908), the Secretary may require, for any new invention developed under paragraph (6)—

(A) that any industrial participant that is active in a Energy Storage Research Center established under paragraph (6) related to the advancement of energy storage technologies carried out, in whole or in part, with Federal funding, be granted the first option to negotiate with the invention owner, at least in the field of energy storage technologies, nonexclusive licenses and royalties on terms that are reasonable, as determined by the Secretary;

(B) that, during a 2-year period beginning on the date on which an invention is made, the patent holder shall not negotiate any license or royalty agreement with any entity that is not an industrial participant under paragraph (6);

(C) that, during the 2-year period described in subparagraph (B), the patent holder shall negotiate nonexclusive licenses and royalties in good faith with any interested industrial participant under paragraph (6); and

(D) such other terms as the Secretary determines to be necessary to promote the accelerated commercialization of inventions made under paragraph (6) to advance the capability of the United States to successfully compete in global energy storage markets.

On page 129, line 3, strike ''(7)'' and insert ''(9)''.

On page 129, line 4, strike ''5 years'' and insert ''3 years''.

On page 129, line 8, strike ''in making'' and all that follows through the end of the paragraph and insert ''in carrying out this section.''.

On page 129, line 12, strike ''(8)'' and insert ''(10)''.

AMENDMENT NO. 1529

(Purpose: To require the Administrator of General Services to submit an annual report to the Energy Information Agency)

On page 73, between lines 4 and 5, insert the following:

(h) REPORT.—Not later than 2 years after the date of enactment of this Act, and annually thereafter, the Administrator of General Services shall submit to the Energy Information Agency a report describing the quantity, type, and cost of each lighting product purchased by the Federal Government.

On page 73, line 5, strike ''(h)'' and insert ''(i)''.

On page 73, line 16, strike ''(i)'' and insert ''(j)''.

AMENDMENT NO. 1533

(Purpose: To make the Commonwealth of Puerto Rico eligible for the Federal weatherization program)

At the end of subtitle F of title II, insert the following:

SEC. 2___. DEFINITION OF STATE.

Section 412 of the Energy Conservation and Production Act (42 U.S.C. 6862) is amended by striking paragraph (8) and inserting the following:

''(8) STATE.—The term 'State' means—

''(A) a State;

''(B) the District of Columbia; and

''(C) the Commonwealth of Puerto Rico.''.

AMENDMENT NO. 1551, AS MODIFIED

On page 161, between lines 2 and 3, insert the following:

SEC. 269. FEDERAL STANDBY POWER STANDARD.

(a) DEFINITIONS.—In this section:

(1) AGENCY.—

(A) IN GENERAL.—The term ''Agency'' has the meaning given the term ''Executive agency'' in section 105 of title 5, United States Code.

(B) INCLUSIONS.—The term ''Agency'' includes military departments, as the term is defined in section 102 of title 5, United States Code.

(2) ELIGIBLE PRODUCT.—The term ''eligible product'' means a commercially available, off-the-shelf product that—

(A)(i) uses external standby power devices; or

(ii) contains an internal standby power function; and

(B) is included on the list compiled under subsection (d).

(b) FEDERAL PURCHASING REQUIREMENT.—Subject to subsection (c), if an Agency purchases an eligible product, the Agency shall purchase—

(1) an eligible product that uses not more than 1 watt in the standby power consuming mode of the eligible product; or

(2) if an eligible product described in paragraph (1) is not available, the eligible product with the lowest available standby power wattage in the standby power consuming mode of the eligible product.

(c) LIMITATION.—The requirements of subsection (b) shall apply to a purchase by an Agency only if—

(1) the lower-wattage eligible product is—
(A) lifecycle cost-effective; and
(B) practicable; and
(2) the utility and performance of the eligible product is not compromised by the lower wattage requirement.
(d) ELIGIBLE PRODUCTS.—The Secretary of Energy, in consultation with the Secretary of Defense, the Administrator of the Environmental Protection Agency, and the Administrator of General Services, shall compile a publicly accessible list of cost-effective eligible products that shall be subject to the purchasing requirements of subsection (b).

Mr. MENENDEZ. Mr. President, I rise in support of including Puerto Rico in the Federal Weatherization Assistance Program. I want to thank Chairman JEFF BINGAMAN and Ranking Member PETE DOMENICI for accepting this amendment as part of the CLEAN Energy Act of 2007. This is simply a matter of fairness and of equity.

Puerto Rico is currently ineligible for Weatherization Assistance, and only receives a small set aside from the LIHEAP program. To include Puerto Rico in the weatherization program would cost less than 1 percent of the program's funds but would make a huge impact.

Though Puerto Rico is blessed with warm weather, the Weatherization Assistance Program is desperately needed there. Because it is an island that must import the fuels it needs, energy costs are extraordinarily high. The average cost of electricity in the U.S. is under 10 cents a kilowatt-hour, but in Puerto Rico, electricity costs almost twice that at 18 cents per kilowatt-hour.

And these high energy costs have a devastating impact on the Commonwealth's low-income population. Approximately 45 percent of the population is under the U.S. poverty line.

Many homes rely on old, inefficient air conditioners to cool their homes and much of the low-income housing has not been built or maintained with energy efficiency in mind.

Puerto Rico already has an active program to educate people about the importance of energy efficiency and to increase the energy efficiency of government buildings. But the weatherization program would help Puerto Rico offer weatherization assistance to low-income households and incentives for energy efficient appliance purchases, solar water heaters, lighting replacement, and other energy-saving measures.

The CLEAN Energy Act of 2007 expands authorization for the Weatherization Program from $700 million per year to $750 million per year. This vital program helps thousands of low-income families keep their energy costs down and also helps the environment by making energy consumption more efficient. It is time we help the low-income families of Puerto Rico gain access to this vital program.

I again thank Chairman JEFF BINGAMAN and Ranking Member PETE DOMENICI for their leadership in accepting this critical amendment.

Mr. BINGAMAN. Mr. President, I believe the order now is for the Senator from New York who wishes to offer an amendment. I yield to my colleague to see if he is in agreement with that course of action.

Mr. DOMENICI. I am. I say to Senator SCHUMER, we had no objection to your amendment. It took an extra amount of time because of matching up one versus one side and the other. It was nothing fundamental. It was just that.

Mr. SCHUMER. Mr. President, if my colleague will yield, I thank him for that. If we can accept the amendment, I don't have to debate it. Are we able to do that or are we still able to match up?

Mr. BINGAMAN. Mr. President, I think the better course is for the Senator from New York to go ahead and explain the amendment, offer the amendment. Then during the course of his debate, we will see how persuaded we are and whether a voice vote is adequate or whether a rollcall vote is required.

Mr. SCHUMER. I thank the Senator.

The PRESIDING OFFICER. The Senator from New York.

Mr. SCHUMER. I thank both my colleagues from New Mexico. They put a big burden on me to make a good explanation. I will do my best.

I ask unanimous consent that the pending amendment be set aside so I may call up my amendment which would then be set aside when I am through.

The PRESIDING OFFICER. Is there objection?

Mr. DOMENICI. I have to object to your bringing up the amendment.

Mr. SCHUMER. Then I withdraw the request, and I will speak about the amendment without bringing it up.

The amendment we are speaking about here would raise the level of building standards so that our buildings across America would be more green. There has been tremendous focus on automobiles—of course, there should be—in raising their mileage standards. But what is forgotten is that a huge percentage of energy consumption and greenhouse gases come from buildings and, more importantly, the heating and cooling of our structures, both residential and commercial. The bottom line is, if everybody in America were to adopt green building standards, we could greatly reduce—and these are prospective, not retrospective—the amount of greenhouse gases and energy consumption.

For instance, according to the Alliance to Save Energy, the amendment I wish to offer could save our country 5 percent of its total energy use, save consumers $50 billion a year, and—listen to this, this is an amazing statistic—reduce greenhouse gas emissions by an amount equivalent to taking 70 million cars off the road.

You say: Can this work? Yes, because a good number of States have started doing this already. California has taken the lead. California increased its energy efficiency in buildings in the late 1970s, and now they, in terms of greenhouse gases, are at the level of some European countries, even though California is a car culture. There are lists of States that have already moved forward in this regard. They are California, Colorado, Connecticut, Hawaii, Minnesota, Nevada, Pennsylvania, Texas, Vermont, Virginia, and Washington, and other States are on the road to doing so. The bottom line is, by making our buildings more efficient, we can reduce gases.

Let me tell you what the amendment does. The organizations that draft commercial and residential building codes will be required to meet specific energy use targets. We don't tell them how. Obviously, it is different in Minnesota than it would be in Florida or Arizona. They will be required to meet specific energy use targets. They must be more efficient by 30 percent than the 2006 codes by 2015 and 50 percent more efficient by 2022. Because this affects new buildings, obviously people are given a timeline. You can't start this next year. But, again, California did this in the 1970s, and they are reaping the benefits now.

Since energy independence and since global warming are long-term issues—we all know we are not going to solve them in a year—acting now is important. We give the States time to change their building codes in the way they wish, and we would greatly reduce the amount of greenhouse gases.

My mayor is in the news today but for other matters. The mayor of New York City, for instance, has proposed that the city do this on its own. We give credit to specific cities that would do this as well. They would have the same benefits and responsibilities under the bill as States would, when States did it. If your State didn't but your city did, you would still be able to get the benefits and meet the requirements of the legislation. But it is estimated that it will reduce the amount of energy consumption in New York City by 40 percent. Is that incredible?

We have a lot of debate, as we should, on automobiles, on renewables, on coal to gas, but there is a quiet little secret out there that this amendment sort of makes public. That is that conservation—conservation of things that are much easier and much less controversial than, say, automobiles—is where the real bang for the buck is in terms of energy independence, reducing greenhouse gases, and in terms of lowering the cost to the average consumer of electricity and gasoline, because when we are more efficient in terms of our buildings, petroleum is used for

other purposes, and supply and demand would even reduce the price for gasoline.

One of the environmentalists I know put it well. He said: Alternative fuels are the sizzle and conservation is the steak. They are both important. When you barbecue, you like to have the sizzle. It is fun. But you also like to eat the steak.

I have two other amendments, one that does the same on appliances. The bill has good provisions on appliances, but we move them further in terms of California, although I am not talking about that one here right now.

If we were to do it for utilities, where we would require them to be more efficient—and they could choose the way—we could do dramatic things in this bill just on its own. The cost for most energy conservation, the cost for reducing the consumption of petroleum, for reducing greenhouse gas emissions, is about one-quarter what it is for producing new alternative fuels.

I hope my colleagues will support this amendment. It is not controversial, I do not think. It does not have universal support, but it has great support. The Department of Energy has looked favorably upon it. I do not know if they are officially in favor of it, but we talked to them, and they know we have to move in this direction.

I hope the amendment can be adopted. I hope I have convinced my colleague from New Mexico, if not with eloquence—which I am sure I do not have—at least with the facts and the structure of this amendment.

Mr. President, I am happy to yield back the floor, unless my colleague wishes me to go on further about this amendment.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, I thank my colleague from New York. He has persuaded me of the merit of his amendment, but I am not in a position to procedurally move to actual disposition of the amendment at this time.

So if the Senator has completed his statement, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1704

Mr. BINGAMAN. Mr. President, since we seem to be unable to move ahead and actually dispose of amendments for a few minutes, while we get the procedural circumstance untangled, let me speak briefly about the tax package that has been reported from the Finance Committee.

The energy tax package that is now a pending amendment to this bill represents a dramatic shift in the direction of our national energy policy from fossil fuel dependence to one that promotes diversified domestic sources of clean energy.

The package the Senate will consider as part of this tax package contains three times the incentives for energy efficiency and renewables and other clean energy than we were able to enact in the 2005 Energy bill—three times more clean energy.

The energy tax provisions are intended to complement and augment the authorizing legislation. These vitally important energy measures include:

First, a 5-year extension of the section 45 tax credit for producing electricity from wind, geothermal, biomass, and other green resources; an extension of the section 48 investment tax credit for business investments in solar, fuel cells, and microturbines for a total of 8 years in the package that has now been reported to the Senate; extending the newly proposed residential wind credit; extending several residential and commercial energy efficiency tax incentives; expanding the section 48 A and B investment tax credits to fund the development of clean coal facilities, with a particular requirement that CO_2 be captured and sequestered; expanding the program for clean renewable energy bonds by up to $3.6 billion; adding $3 billion to a newly established program for clean coal bonds; extending the advanced vehicle consumer credits and adding a category for plug-in hybrids and electric vehicles; and an important new incentive to encourage the production of cellulosic ethanol.

These are important provisions individually, but combined I think they will play a major role in moving our country along toward a path of forward-looking energy policy.

The Finance Committee amendment also contains a severance tax on all oil and gas production from the Federal Outer Continental Shelf in the Gulf of Mexico. This severance tax proposal needs to be viewed in the context of the larger energy tax title in the Energy bill that is before the Senate. By including this OCS severance tax in the Energy tax bill, we are able to secure the revenue that is vitally needed for these energy measures I have detailed.

This OCS severance tax has been carefully crafted to raise revenues while doing the least possible to discourage production. First of all, it applies to oil and gas production on the OCS in the Gulf of Mexico only. We carefully considered where the tax should apply. The Alaska OCS is an important frontier area, and additional costs on those operations could truly impact leasing and development activity. The only other area with production in the OCS is California, where production is minimal and no new leasing is occurring.

However, the industry in the Gulf of Mexico is robust—particularly with the price of oil where it is today—and the lessees and operators there tend to be large: either the major oil companies or large independent producers. This is in contrast to the Rocky Mountain region, where many small independents operate. Additional taxes or fees in that region could make the difference between production occurring or not occurring. Thus, this tax would only apply to oil and gas from the Gulf of Mexico Outer Continental Shelf.

In addition, the tax is designed to ensure that it is not overly burdensome. The tax would be levied at a rate of 13 percent of the value of production with a credit against the tax for royalties paid on each lease. The Government Accountability Office recently completed a study comparing the combined tax and royalty costs imposed on the oil and gas industry in the United States versus elsewhere in the world.

I note the GAO found the climate for doing business in the U.S. is very favorable, with the U.S. having one of the lowest combined ''government takes'' in the world. Using this construct of considering the combined tax and royalty costs, we designed the severance tax with a credit for royalties paid to ensure no lessee would be required to pay more than 13 percent of the value of their production in combined severance taxes and royalties.

Of course, any lessee who is paying a 16⅔-percent royalty—that the President has now established as the appropriate royalty on Federal leases going forward—any lessee that is subject to that royalty will pay no tax. Any lessee paying a 12.5-percent royalty will pay an effective rate of 0.5 percent for the severance tax, and lessees paying less than a 12.5-percent royalty rate will pay the tax at an effective rate of the difference between the 13 percent and the royalty rate being paid.

Furthermore, I believe the 13-percent tax rate is extremely reasonable. Earlier this year, the White House did announce the royalty rate for all new leases in the Gulf of Mexico would contain terms requiring that royalties be paid at a rate of 16⅔ percent. This was met with little, if any, opposition from the industry.

Again, I commend Senators GRASSLEY and BAUCUS. Senator BAUCUS has been our leader on this issue from the beginning of putting this entire package together. He and his staff have done yeoman's work. I also have been proud of the work my staff has done on this important issue as well.

Mr. President, with that, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CASEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. MENENDEZ). Without objection, it is so ordered.

Mr. CASEY. Mr. President, I ask unanimous consent that I be recognized to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

EMPLOYEE FREE CHOICE ACT

Mr. CASEY. Mr. President, I rise to talk about a matter that is before the Senate, the Employee Free Choice Act. In summary, what this act will do is—and I have three brief points about the act itself—it will enable workers to form unions when a majority sign union authorization cards. Second, it will establish mediation and binding arbitration when the employer and workers cannot agree on a first contract. Third, it will strengthen penalties for companies that coerce or intimidate workers.

We know today what we are facing in our economy. We have rising levels of productivity, thank goodness, but at the same time productivity has been up and our workers have been more productive than ever, our wages have not kept pace. Salaries and wages have not grown the way productivity has.

We know that so many more of our working families have had to suffer that disparity, that gap between productivity and wages and benefits.

I think a lot of Americans believe the freedom to choose a union is vital to restoring the American dream, especially for the most vulnerable Americans. Unfortunately, vulnerable Americans now include working families.

Unions help American workers get their fair share, as you well know, Mr. President, in your State, as well as in my State of Pennsylvania. Union wages are almost 30 percent higher than wages in nonunion fields. Unions are also a cure for rising inequality because they raise wages for more low- and middle-income wage earners, more so than for higher wage workers.

For example, if we talk about some lower wage occupations, cashiers, for example, earn 46 percent more than nonunion cashiers and those covered by unions, 46 percent more.

Union food preparation workers earn nearly 50 percent more than nonunion food preparation workers.

I will share a couple of demographic categories. Women, for example, who are represented by a union earn 31 percent more than women workers who do not have the benefit of a union. African-American union workers earn 36 percent more than their nonunion counterparts. Latino workers earn 46 percent more than those Latinos who are not represented by a union. Finally, union workers are almost twice as likely to have employer-sponsored health benefits and pensions at work—twice as likely—than their counterparts who do not have union protection. They are more than four times likely to have a secure and defined pension benefit plan than nonunion workers.

Protecting the freedom to choose a union benefits all Americans, and I believe this in my bones, as we all do who support this act. Whether someone has a union I think raises and lifts all boats. In industries and occupations where many workplaces are unionized, nonunion employers will frequently meet union standards, lift their sights, so to speak, and otherwise improve compensation. A high school graduate in a nonunion workplace whose industry is 25 percent unionized gets paid 5 percent more than similar workers in less unionized industries.

We know what this act can mean for workers and their families to raise their standard of living, in wages and benefits and other parts of their compensation, but also I believe this act is about America. We know the unions, the right to organize and selectively bargain, helped build the American middle class over decades, when those who said at the beginning of those fights this is not a good idea.

What we will do by passing this legislation that is before the Senate is to move to a new chapter where more and more of our families can have the benefit of union protection so they can live in a country where their work, their labor, and the fruits of their labor is recognized.

I ask all of my colleagues respectfully, as they consider this legislation, to think not only of what this will do for our unions and families who are covered by those unions but what it does for all America, for all our collective interests in a stronger economy. I ask their consideration of this bill.

I know, Mr. President, you and so many others have been leading the fight on this effort, and we are grateful for that leadership, for our families, and for our country.

I am proud to be an original cosponsor of the bill, and think that it is a vital part of an agenda aimed at restoring a balance to our Nation's labor policies and alleviating the insecurity felt by so many American families.

The bill, if passed, would enable workers to form unions when a majority sign union authorization cards, establish mediation and binding arbitration when the employer and workers cannot agree on a first contract, and strengthen penalties for companies that coerce or intimidate workers.

These changes to our labor laws are quite frankly vital to the preservation of the American middle class, because unions, which were a driving force in the creation of that middle class, are also one of the best tools we have to protect it.

We live in a remarkable time, when corporate profits are rising, largely because of the rising productivity of the American worker. At the same time, corporations in America are receiving unprecedented access to foreign markets because of our nation's trade policies. But while we are working to give corporations that access, we must work to ensure that workers have rights and protections, and opportunities in the new global economy that is emerging. After all, families are made up of workers, not corporations.

Unfortunately, workers are being left behind in large part because we have stripped them of rights and protections and made it ever harder for them to organize in a union if they wish to do so. The effects of this are dramatic, and are changing the economic landscape of America. At a time when productivity has been rising and companies are making huge profits on the backs of their workers, workers' salaries are not increasing.

Corporate profits are up by more than 83 percent since 2001. Yet the share of national income going to wages and salaries in 2006 was at its lowest level on record. The share of national income captured by corporate profits, in contrast, was at its highest level on record. Some 51.6 percent of total national income went to wages and salaries in 2006.

Today, more than 40 percent of total income is going to the wealthiest 10 percent of Americans—the biggest gap in more than 65 years. The share of pretax income in the Nation that goes to the top 1 percent of households increased from 17.8 percent in 2004 to 19.3 percent in 2005.

Between 2004 and 2005, the average income of the top 1 percent of households increased by $102,000, after adjusting for inflation. The average income of the bottom 90 percent of households increased by $250.

It is bad enough that wages aren't rising for the vast majority of Americans, but to make matters worse, the costs they face in their daily lives are rising, sometimes with life and death consequences. Six million Americans have lost their health insurance, and their retirement security is fading as well. It doesn't make sense that at a time when corporate balance sheets are so healthy, Americans are being forced to go without basic health care. In fact, we all know that that will have the effect of reducing our productivity, and profits, if we don't address it.

That is why I support the Employee Free Choice Act. The freedom to choose a union is vital to restoring the American Dream, especially for the most vulnerable Americans. Union workers are far more likely to have health care benefits, and pensions that will actually provide for them in retirement.

Unions help American workers get their fair share—union wages are almost 30 percent higher than nonunion

wages. Unions are also a cure for rising inequality because they raise wages more for low- and middle-wage workers than for higher wage workers. Unions can also help the American worker weather the storm of globalization, and the displacement and insecurity that it has brought to some many families.

Just this week, the OECD, which is known for its unapologetic promotion of free trade, released a report that highlighted the fact that countries should focus on improving labor regulations, for workers, not just companies, and social protection systems to help people adapt to changing job markets.

The report also found that offshoring may have reduced the bargaining power of workers, especially low-skilled ones and that the prospect of offshoring may be increasing the vulnerability of jobs and wages in developed countries. That is an amazing finding from an organization devoted to promoting free trade.

The OECD also found that in 18 of the 20 OECD countries where data exist, the gap between top earners and those at the bottom has risen since the early 1990s. The inequality in the United States was higher than all of those countries by a large margin, save one, Hungary.

The Commonwealth of Pennsylvania, which I represent here, was built on stable union jobs, and the industries that employed those union workers helped to build America as we know it today. Pennsylvania steel can be found in every corner of the country, but unfortunately most of the plants that made that steel are now closed, and most of the union jobs that were the engine of those plants are gone.

But that is what makes this legislation so important here and now. We need to act quickly to give American workers a leg up in this global economy, and create jobs that add value to workers' lives, to their communities, and to the American economy. We can't do that if we only reward capital. Capital can now flow over borders and across the world like never before. But our workers and families remain, and so we must stand with them and give them the tools they need to continue to be productive and competitive in this global economy. Workers from Pennsylvania can compete, but only if we give them a level playing field and the proper tools. This legislation takes one step to do just that, and that is why I support it.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mrs. HUTCHISON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. HUTCHISON. Mr. President, I rise today to speak in opposition to the tax part of this energy bill. I think it is common sense that if you tax something, the price will probably go up because the higher business costs are passed on to the consumer at some point.

This is a tax bill that is $29 billion of new taxes. How could anything make less sense when we are trying to pass an energy bill that will do two things: make America less dependent on foreign oil for our energy needs, and bring the price of gasoline down at the pump. This bill, with the tax part, is not going to do either of those things.

In the past 2½ years, the average price of a gallon of gas has risen about 68 percent due to increased demand in America and around the world. The price increase has harmed American families, and businesses, especially small businesses, and higher taxes are going to mean a higher price at the pump.

Mr. President, I am going to suggest the absence of a quorum for just one moment.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mrs. HUTCHISON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. HUTCHISON. Mr. President, we must address the tax issue. There are some good parts in this energy package. This energy package could increase conservation. It could increase the supply of renewable energy sources. I have an amendment that I think is very positive which would provide for more research into new sources of energy, and there are all kinds of renewable, environmentally safe energy possibilities. Yet we have now put a tax bill in this bill which has just gone through committee. It came out yesterday, and we are going to, I am afraid, make the mistake that Congress has made before.

In 1980, Congress passed a windfall profits tax. The consequences to the domestic oil industry, to consumers, and to our national security were devastating. In the 6 years that followed that action, domestic oil production dropped by 1.26 billion barrels, and imports of foreign oil rose 13 percent. Today, 60 percent of our oil comes from foreign countries. The collapse of the domestic oil and gas industry had a ripple effect on other sectors of the economy, especially banking and real estate.

The windfall profits tax was terrible for this country, and it was repealed. Now we have a tax bill that will have the same effect, with $29 billion in taxes on energy production.

Let's go through those. A repeal of the manufacturer's deduction for refineries: everyone who has looked at the energy crisis knows it is the lack of refinery capacity that has driven up the demand while we have not driven up the supply. We are making it harder to invest in refineries. No one is doing it, and we need more refineries. So taking away any deductions for refineries is counterintuitive.

We would establish an excise tax of 13 percent on crude oil and natural gas produced in the Gulf of Mexico. That is the biggest source of oil and natural gas production in our country that we are able to produce and explore. ANWR would be larger, but we have not been able to tap into ANWR. So the Gulf of Mexico is our best source.

Other States are now looking at exploring and then possibly drilling off their shores because there is now an opportunity for States to get revenue, and it can be done environmentally safely. So now we are talking about increasing the tax, which is going to have the effect of lessening the exploration and drilling and will also go back on a contract that was made earlier to induce people to drill in the Gulf of Mexico because it is more expensive—the deep drilling is much more expensive.

The bill would also impose a tax on finished gasoline—$824 million over 10 years. It would seem that is going to increase the price of gasoline at the pump. It would eliminate tax credits for foreign oil production, exposing them to double taxation.

So what do you think that is going to do? We are in a situation already where we are seeing more and more new formations of public companies going overseas because of Sarbanes-Oxley, with CEOs saying it is the instability of our regulatory process and the taxes and the litigation in our country that has caused more and more companies to decide to move their corporate headquarters to London or other exchanges. Furthermore, the jobs are going with them. So here we are trying to address this issue in a responsible way, and what are we doing to our oil companies? Why wouldn't they just go and register on the London stock exchange and make that their headquarters? That is what many American companies are doing now.

If we decide we are going to double-tax this segment of industry in our country, we are just saying we don't want American oil companies. I can see why they would not only incorporate overseas but move more and more of their production overseas as well.

I hope we will not pass this tax bill. A recent review by the Heritage Foundation estimated this tax package, combined with other policies in this bill, could increase the price of regular unleaded gas to $6.40 by the year 2016. That is ridiculous. Why would we pass an energy plan that would have the potential effect of doing that?

No, what we should be doing is encouraging more refineries, encouraging nuclear power plants that are environmentally safe, encouraging drilling and exploration of our own natural resources, and we should be looking for renewable sources of energy—cellulosic ethanol, corn-based ethanol biodiesel, wind, solar. We have so many sources. My amendment would also create the ability to start research on wave and current energy resources, which they are doing in a limited way in Europe right now, using the Gulf of Mexico and our oceans for their energy potential.

There is so much we can do that would be positive that we could agree on in a bipartisan way. This tax bill is a poison pill. The tax portion is unnecessary, it is counterintuitive, it will have the effect of increasing gasoline prices at the pump, it will ship jobs that are in America overseas, and I think we are going to lose major corporate business.

That is unnecessary and I hope my colleagues will not pass this tax package, and I certainly hope we can take this part out of the equation, work on the bill that is before us—which has some very good points—and then we will be doing something to try to help with the rising cost of gasoline at the pump in our country.

I hope we can help relieve the high price of corn which has resulted from our emphasis on ethanol. That is causing a rise in livestock prices, because the feedstock for livestock that is being raised has increased the cost. So all the meat we eat in this country is going to be at a higher price because ethanol is taking from the corn market and the feedstock market is suffering.

We need to address these things. I certainly hope we will, in a responsible way, bring the costs of energy down and not have side effects such as the increased costs to livestock producers.

I urge a ''no'' vote on this tax portion so we can get down to the business of doing what the purpose of this energy bill was, and that is to increase supply so we can be less dependent on foreign sources and lower the price of energy in our country.

I yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, the bill on the floor of the Senate deals with energy. While there are many important things we discuss in Congress these days, energy ranks right near the top, in my judgment. I have indicated previously that most of us take energy for granted. We get up in the morning and turn on the hot water, and that comes from energy. We flick a light switch, and that comes from energy. We get in the car and turn the ignition key, and that comes from energy.

I told a story a while back about John Glenn and energy. I was on a trip with John Glenn, the former astronaut and former Senator. I was a young boy when John Glenn orbited the Earth in Friendship 7.

Late one evening on what was the old Air Force One, a group of us were flying to Asia, and John Glenn was with the group. We were meeting with heads of state in several governments, Vietnam and China and so on. We were flying over the Pacific late at night in this little cabin in this Air Force 707. I leaned forward and began to ask John Glenn about his first space flight. I pumped him with a lot of questions. One of the questions I asked him about was whether he actually saw Perth, Australia. The history that has been written about this, and I recalled as a kid, was when John Glenn, up there alone in this tiny little capsule orbiting the Earth in Friendship 7, was orbiting the Earth and went to the dark side of the Earth, the town of Perth, Australia, decided they would all turn on their lights. All the lights in Perth, Australia were to be turned on to greet this astronaut flying alone, orbiting the Earth. I asked him if he saw the lights of Perth, Australia, and he said he did. On the dark side of the Earth in this little capsule orbiting the Earth all alone, John Glenn looked down and the sign of human existence on Earth was the product of energy, the product of lights, radiating that beam to that astronaut, saying a hello—greetings.

It comes from energy. It is what we do to produce energy and use energy to make our lives better. They are better in many ways.

One part of this energy issue we are debating in the Energy bill deals with oil. Oil is an interesting debate because on this little planet of ours that circles the Sun, there are about 6.4 billion of us. We have a lot of neighbors who are in tougher shape. About half of this planet's population lives on less than $2 a day. Half of them have never made a telephone call. On this planet there is a little spot called the United States of America and we are blessed through divine providence to be here, to live here. But it is interesting that while we have created a standard of living that expands the middle class and creates an increased standard of living, we do not have the quantity of oil that exists elsewhere on Earth. We use 25 percent of the oil that is needed every single day; 25 percent of all the oil used on this Earth is used in this country. Yet most of the oil is produced elsewhere—Saudi Arabia, Kuwait, Iraq, Venezuela, and other countries. Over 60 percent of the oil we use comes from outside of our country. God forbid something should happen that would interrupt that, because if it did, this country would be flat on its back with respect to its economy. It would dramatically impact the way we live.

Over 60 percent of our oil comes from other countries, much of it from troubled parts of the world, particularly in the Middle East. Many of us believe we need to be less dependent on foreign sources of oil. We are dangerously dependent on foreign sources of oil and we need to become less dependent. How do we do that?

One point is this. Seventy percent of all the oil we use in America is used in vehicles, where we run it through the carburetors and fuel injectors in the form of gasoline. Seventy percent of the oil is used through vehicles.

So we have to find a way to make vehicles more efficient. That brings me to the debate about what are called the CAFE standards or the standards that require greater efficiency for automobiles.

Now I serve on the Commerce Committee. I and Senator FEINSTEIN, Senator INOUYE and others included from the Commerce Committee a provision that requires vehicles to be more efficient.

I know the auto industry is very aggressive in trying to see if they can jettison that provision in the underlying Energy bill that comes from the Commerce Committee. They do not want these increased efficiency standards. They believe they are pernicious, they will injure the auto industry. I think that is untrue.

Now, they make the point, and in my judgment they deliberately misrepresent the point, in full page advertisements in my State and others and direct mail pieces to constituents, they make the point that what we are trying to do is to say: You must make automobiles or vehicles more efficient, and you do it on a fleet average, as CAFE has always been done.

If you are making too many pickup trucks and not enough small cars, you have to make more small cars and fewer pickup trucks, so, therefore, you have an increase in fuel efficiency and, therefore, this approach threatens to take your pickup truck away.

Well, that is not true. It is not accurate. But that is what is being alleged. This is a different approach. This standard says that for each class of vehicle, the class itself must be made more efficient. I come from North Dakota. We in North Dakota have, on rare occasions, I emphasize only rare occasions, some harsh weather. When it is 30 below zero and a 40-mile-an-hour wind, you do not want to drive in a Chevette out to check the calves during calving season in March, you want a vehicle, a four-wheel drive vehicle that has some weight, that has some power. That is what we use. I am not interested in full efficiency standards

that discriminate against larger vehicles, but I also believe this: All of the vehicles, including pickup trucks, including larger vehicles, should be made more efficient.

For 25 years, there has not been one change in the standard. For 25 years in this Congress, we said: No, no. The auto industry doesn't want an increase in the efficiency requirement, therefore, we will not do it.

I say ''we.'' I was part of that. But at some point, you have got to say to the industry: Look, they are making more efficient vehicles elsewhere. They ought to make them here. I mean, I have described the position of the industry in opposition to this as ''yesterday forever.'' I guess it is wonderful if you have romantic feelings about yesterday and you want it to continue forever with respect to your vehicles and the lack of a requirement to make them more efficient.

But it does not help this country, it retards this country's ability to become less dependent on foreign sources of oil. That is what this vote is about: Do you believe we ought to become less dependent on foreign sources of oil? If so, then you better belly up and you better begin to support this kind of thing, or do you believe that we are not dangerously dependent? If it is fine for us to have 60 percent, heading toward 65 and 69 percent, we are told of our oil coming from off our shores, if you think that is fine, if you are perfectly content going to sleep at night saying it doesn't matter how much we get from overseas, it doesn't matter how troubled those areas are, let's hang our future, our economic future, on our ability to keep getting oil from troubled parts of the world, if that is how you feel, then, in my judgment, it ignores the reality.

If you are one of those, as I am, who believes that we are too dangerously dependent on foreign sources of energy, then it seems to me you have to come to the floor and be supportive of CAFE standards, or at least greater efficiency standards for vehicles

We have established a system in the underlying bill that establishes eight classes of vehicles. And you have to make them more efficient by class. Should not those who drive pickup trucks expect to have a more efficient pickup truck as well; better mileage on those vehicles as well? The answer is, yes, in my judgment.

Now, my hope would be that someday, in some way, we will be able to find a way not to be dependent on oil itself. But I cannot see that in the near term. We are going to continue to use fossil fuels. I have described too many times for my colleagues that my first vehicle I bought for $25 as a young kid, it was a 1924 Model T Ford that had been in a grainery for some decades. I bought it for $25 and restored it lovingly as a young boy when I was in high school.

So I ended up with a Model T that was decades and decades old. But I sold it later because you cannot, as a young boy, you cannot effectively date in a Model T; nobody wants to ride with you. But the point of the Model T is that in 1924 they made a car, and it is interesting. You put gasoline in that car exactly the same way you put gasoline in a 2007 or 2008 vehicle. Exactly the same way. You go to the gas pump, stick a nozzle in the tank, and start pumping gas. Nothing has changed. Everything else about the car has changed. Computer technologies. More computer technology in a new car than existed on the lunar lander that put Neil Armstrong on the Moon.

Better cup holders, keyless entry, iPod holders, heated seats, you name it. But let me ask you, do you think there has been an increase in the efficiency standards for those vehicles? The answer is no. The answer is no.

I ask you to take this test. Go back and look 10 years ago at any model of car and then look at today's identical model and see how much has changed with respect to miles per gallon that are estimated for that vehicle. What you will discover is almost no change.

Those of us who support the standards in the Commerce Committee have brought a bill to the floor that is a good bill. Now there are some in this Chamber who do not support it, and the auto industry itself is furiously working to get the votes to defeat our increased efficiency standard.

The problem is, there is no amendment coming to the floor of the Senate that I can see. I mean, it seems to me, we have an underlying provision that I support, it is in the bill. Having had the bill now on the floor for some while, it is time to say: If you want to try to amend it, let's have an amendment on the floor, let's vote, let's have a thorough discussion and debate and let's have a vote.

I am not someone who suggests the underlying amendment is the only amendment that has merit or has worth; there are, perhaps, other ideas. But I was in a meeting last evening and have been at some meetings today. It appears to me that the effort is simply, by the industry, to say: Let's not do this. Well, you know, we have been through that time and time and time again. When they say to the Congress: Let's not do this, the Congress salutes and says: Let's not do this.

But we have come to a different intersection, it seems to me, with respect to the future of this country and the energy security of this country. That intersection requires us now to do what we must do to make us less dependent on foreign sources of oil. If we do not find a way to be independent, or at least less dependent on foreign sources of oil that come from troubled parts of the world, we are in deep trouble.

Someday, I would hope, perhaps we can develop hydrogen fuel cars that are commercially available. I hope that our children and their grandchildren will be able to get in a vehicle that is a hydrogen fuel cell vehicle.

I authored the legislation 2 years ago that established the title on hydrogen fuel cells. You know, interestingly enough, hydrogen fuel cell vehicles will have twice the efficiency of power to the wheel of the vehicle and put water vapor out the tailpipe. Wouldn't that be a wonderful thing? The fact that hydrogen is ubiquitous, is everywhere—I had this wonderful experiment going on in North Dakota that I established in the Appropriations Committee of using a wind tower, a more efficient wind turbine, take energy from the wind, use the electricity that you take through the turbine, you take energy from the wind in the form of electricity, use the electricity in the process of something called electrolysis, and separate hydrogen from water with a process of electrolysis.

So you actually take an intermittent power source of wind and produce hydrogen, store the hydrogen for vehicle use. I believe we can get to the point of hydrogen fuel cell vehicles, which will make us much less dependent on foreign sources of oil. We will not need foreign sources of oil if we do what we can with this fleet. But that will not happen in 3, 5, or even 10 years from now. There has to be interim steps in which we take action to reduce our dependence, even as we continue to use the internal combustion engine, as we continue to use nearly 70 percent of all our oil through our vehicles, even as we import over 60 percent of the oil from overseas, we must take some interim steps to begin to address that.

That is why this issue is so important, the efficiency of our vehicles. Finally, let me say this. I want our auto industry to succeed. I want this industry to succeed. I do not want to be a part of something that says to them, that, you know, you have been asleep at the switch, and so, therefore, we don't care about you. That is not my point.

My point is, this industry will succeed, in my judgment, if they are under the gun and under some pressure to produce more efficient vehicles. Other companies in other countries are doing it and so too should ours. I wish to be helpful to our industry.

One final point. There is a discussion about a couple provisions in the underlying Commerce Committee bill. One is the second 10 years, the 4 percent efficiency a year, which was part of my offering, and the second was Senator CANTWELL's offering of standards for the production of flex-fuel vehicles. We are building a 36-billion-gallon biofuels requirement in this bill. We are going to produce 36 billion gallons of ethanol, biofuels.

Where are you going to use all of that if you do not have the flex-fuel vehicles on the road so you can move that through those carburetors or fuel injectors. You have got to be able to have a flex-fuel standard, so that when the automobile industry is producing cars, they are producing flex-fuel vehicles so they can run either the E85 or the regular gasoline. But if you are producing 36 billion gallons of biofuel and do not have flex-fuel vehicles on the road to be able to take those fuels and be able to run E85 through a vehicle, we are going to see this ethanol market collapse.

That is why the flex-fuel provisions in the underlying bill from Commerce are so important. I wish to make the point that my hope is this afternoon, those who wish to try to amend the underlying provision in the Commerce Committee bill would come to the floor, let's have a debate about it. I believe the Commerce Committee provision is a thoughtful provision, that finally aggressively represents change and reform on automobile efficiency. I think the standards are achievable.

I think they will be good for the industry. They certainly will be good for the driving public in this country, and, most especially, they will move us in the direction of being less dependent and move us in the direction toward being independent of foreign sources of oil, which I think is important to this country's economic well-being.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. WYDEN. Mr. President, I am going to take a few minutes this afternoon to discuss the tax provisions in this legislation because I think they are very much in the public interest and something I have been working on for many years.

In the last Congress, for the first time in many years, the executives of the major oil companies—we are talking about Shell and BP and Exxon, the big five companies—were in front of the joint hearing I attended, a joint hearing of the Energy Committee and the Commerce Committee.

With the executives there before this important hearing, I asked all of the oil CEOs if they agreed with a recent statement that President Bush had made. President Bush, of course, an oil man himself, hardly somebody who has any predisposition against the oil industry, recently said that: When oil is over $55 a barrel, the oil companies do not need incentives to explore and develop for oil.

I asked each of the executives that day, the first time they had been asked the question in years and years, and to a person, the executives said they did not need those subsidies. Every single one of the executives said it. What was so stunning about it is that their admission was completely contrary to everything the Congress has been doing pretty much for the previous decade.

For the previous decade, the Congress had just been throwing one subsidy after another at these major oil companies, amounting to billions and billions of dollars. Yet in the last Congress, when the executives were asked to go on record and publicly state their position, the executives admitted they did not need the money that the Congress has been throwing at them, the billions of dollars in subsidies the Congress has been throwing at them.

So what we have is essentially a time now when the companies are making record profits, and they are charging record prices when clearly they do not need record subsidies. That is what the Senate Finance Committee legislation does with respect to the tax provisions. I have reviewed them. They are clearly targeted at the major companies. They are not targeted at the independents and the small companies, and we ought to be taking steps to help them. In fact, I particularly credit our friend and colleague, the late Senator Thomas, for doing extraordinary work over the years, some of which I was privileged to work on with him, to help those small independent companies. Our good friend, the late Senator Thomas, championed that work. This is not going to affect those small independents. This is targeted at the major companies, the companies that, when I asked them—the first time they had been asked in years—admitted they did not need the billions of dollars worth of subsidies they were getting.

It ought to be put in the context of what it means for the consumer. Our friend from North Dakota began this discussion as well. The reality is, when somebody pulls up to a gasoline station in New Jersey or Oregon or anywhere else, they are paying what amounts to a ''terror tax.'' That is what we ought to call it. Our addiction to foreign oil is literally a terror tax because when you pull up to that filling station in Oregon or New Jersey or anywhere else, you pay this huge price. Eventually, some of that money gets into the coffers of a government in the Middle East, and they backdoor it to people who want to kill us.

Our addiction to foreign oil ought to be put in a context that is appropriate. It is a terror tax. This legislation which has been put together by a number of committees helps us to move away from that addiction to foreign oil. That is why I support it. By taking away some of the subsidies to the major companies, subsidies they have now claimed they don't even need, it makes it possible for us to look at some opportunities for developing renewable energy sources at home.

I was at a filling station not long ago in Oregon that hopes to get all its fuel from Oregon crops—not from oil from the Middle East—waste oil and other products. That is our vision of an important part of our energy supply in the future. If we get out of the business of shoveling billions and billions of dollars worth of subsidies to the major oil companies, subsidies they have now made clear they don't need, we can begin to develop a very different energy future.

One last point I wish to make relates to a debate I am sure we will have, and that is a quick comment about the provisions which were added yesterday, Senator BINGAMAN's provisions, to the legislation. We are going to hear a lot about how somehow this is taking illegal action with respect to oil royalties; it is taking action retroactively, and it is illegal. We are going to hear that probably many times in the course of discussion of the Bingaman legislation that was added yesterday.

The first thing I wish to make clear—and we were told this yesterday by counsel, because I asked about it—is that the Bingaman provision would be applied prospectively on oil produced on Federal offshore leases in the Gulf of Mexico. It would apply to future activity, all oil produced on Federal offshore leases in the gulf. As we go to this discussion and we are told repeatedly that this in some way unravels previous agreements, that this is illegal, this is retroactive, I hope colleagues will remember that we were told yesterday that it applies prospectively. It does not change the terms of any existing oil and gas lease. We are clear with respect to the Bingaman provision. It doesn't change the terms of any existing oil and gas lease, and it would be applied prospectively on oil produced on these Federal offshore leases and all oil produced on those leases in the gulf.

One last point with respect to this issue is comments we have received from the Government Accountability Office with respect to the amount of revenue the Government receives from oil production from the gulf. What the Government Accountability Office has told us on this point is that the taxpayer receives revenue with respect to this production that is lower than virtually anywhere else in the world. They have done a comparison to take a look at all of the other countries where you have similar activity going on. Basically our take, the revenue for the taxpayer, hard-working taxpayers across the country, is lower than virtually anywhere in the world. The only place that is even close to us is where you have an oil company doing most of the production, essentially a government corporation.

The reality is, with respect to drilling on our lands—and that is what I am talking about here, the people's lands, public lands, our lands—the taxpayer has been getting fleeced for years and years. The Bingaman provision begins to right the scale to get a fair shake for the taxpayers.

I hope colleagues will support the work done by the Finance Committee with respect to the tax titles. It is important that they know the major oil companies have now admitted they don't need the subsidies, and the price per barrel is way over the amount the President said was the level when we ought to stop paying out subsidies. I hope colleagues will look at the facts with respect to the important provisions that were added yesterday by Senator BINGAMAN. I am of the view that taxpayers have been fleeced with respect to oil drilling on their lands, the people's lands. The Bingaman provision begins to right the scale.

I will have more to say on this issue down the road.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DURBIN. Mr. President, I rise today to support legislation which is pending before the Senate which would increase fuel economy standards in automobiles and trucks over the next 10 years. Regardless of what opponents of this amendment may say, technology is available today to reach this goal. We don't have to compromise the safety of the cars and trucks we drive and American jobs don't have to be lost to meet these standards. The CAFE legislation we have proposed is different than it has been in the past. It is a true compromise, a middle-ground position.

We have come a long way with this compromise, and I applaud the efforts of Senators INOUYE and STEVENS. It is not an easy issue to meet in the middle on, but we have. I am sorry the automobile industry, which has resisted efforts to improve fuel efficiency over the last 20 years, is still resisting these efforts.

This is something most Americans understand intuitively. If we are going to reduce our dependence on foreign oil, if we are going to reduce the pollution we are creating with the cars and trucks we drive, we should be using fewer gallons of gasoline for the miles we drive. Yet what we have seen consistently over the last 22 years, while we have not had a national fuel economy standard, is that the cars and trucks being sold on average are getting less mileage. So each year, we buy these vehicles and find we need more gasoline than we did the previous year to drive the same number of miles. That is unacceptable.

The CAFE provisions have come a long way since I offered my amendment 2 years ago. When I came to the floor and suggested it was time to start talking about fuel economy, there were not too many Senators joining me. I called for an increase in fuel economy standards that would have had vehicles reach a target of 40 miles a gallon with a target date of 2016.

This legislation before us sets a target of 35 miles per gallon, providing even more lead time for the automobile industry to the year 2020. The last time we debated 40 miles a gallon, my opponents said that was just too high a standard to reach. Now we have lowered that target to 35 miles a gallon, and the industry proposal has 36 miles per gallon 2 years out. It makes me wonder why they no longer think it is arbitrary or whether they have any intention of ever meeting the target.

My amendment 2 years ago did not provide the industry the flexibility this legislation does. I originally called for a hard target. You either had to reach it or pay fines. This legislation before us allows for flexibility, providing the National Highway Transportation Safety Administration the authority to lower the target if it is not technologically feasible.

My amendment did not reform the CAFE program by creating attribute-based standards, something I understand the industry would rather see than the existing system. This legislation does. My amendment did not create a fleetwide fuel economy standard. This legislation does. Nor did it extend the credit trading program, as this amendment before us will do.

We have come a long way to reach a compromise on this legislation. We understand the concerns about the existing programs brought to our attention. We understand the difficulties in the domestic auto industry. We tried to address them honestly. Unfortunately, for the past 2 years the auto companies were not at the table when they could have been. So we changed the CAFE system to allow for a more level playing field between American and foreign manufacturers.

We provided NHTSA the authority to create attribute-based standards for passenger cars, something President Bush asked for. We already witnessed NHTSA set new fuel economy standards for light trucks by using this system. The CAFE standards will no longer be by manufacturer but, instead, fleetwide, based on the size-attribute system. That means the total fuel economy for all cars in the United States will meet the fuel economy targets we set. The targets will be set for different groups of cars based on their size attributes, not based on the manufacturer. Since the fuel economy target is fleetwide, the relative mix of vehicles manufactured by each company is not a real issue in the debate. GM will not be penalized for making more SUVs and fewer small passenger vehicles than Toyota.

In order to meet a fleetwide average of 35 miles per gallon, each vehicle group will have to meet its own average fuel economy. For example, all midsized sedans will have to attain an average fuel economy standard. For example, the Ford Fusion, Honda Accord, Toyota Camry, and Chevy Malibu must attain roughly the same fuel economy. These cars will have to get about 36 to 38 miles per gallon based on current trends. Likewise, all large SUVs will be subject to different, lower average fuel economy. We will be comparing apples to apples. Each vehicle will have to reach an attainable fuel economy standard based on its size. All of these targets must average out to 35 miles per gallon for the entire fleet sold in the United States by 2020.

I repeat that because it is a large and important change on how CAFE standards are now structured. The relative mix of any manufacturer's fleet between similar passenger cars and larger SUVs is less relevant in the fuel economy debate. The American auto manufacturers should not be at any disadvantage relative to foreign automobile manufacturers.

Now we are focused completely on increasing the fuel economy of vehicles driven in the United States, regardless of who makes them and their size.

Even though our legislation now addresses one of the major issues raised in the 2002 National Academy of Sciences report and does what NHTSA has requested, sadly, the auto manufacturers still oppose our compromise and have come up with even more arguments to try to persuade my colleagues to vote against improving the fuel economy of the cars and trucks we drive.

Let me remind everyone about the impact on the transportation sector of more fuel-efficient vehicles.

In 2005, the United States used 20.8 million barrels of oil per day. Sixty percent of it, or 12.5 million barrels of the oil we use, is bought from other nations—60 percent in the year 2005. Of the 20 million barrels of oil we use every single day, 69 percent is used for transportation, and of this, 62 percent is used for surface transportation by cars and light trucks. Every minute, we consume more than 267,000 gallons of gasoline in America. You could say we import oil to run our cars, and by and large we do.

Any increase in fuel economy will decrease our dependence on foreign oil. How significant is the issue of foreign oil? I don't need to remind anyone that we are in the midst of a war in the Middle East. We have lost 3,521 of our best and bravest soldiers. Ten times that number have been injured. Twice that number have been seriously injured, facing traumatic brain injury and amputations.

It is no coincidence that these battlegrounds time and again are battlegrounds in the Middle East, which is

the source of our energy. We have to reach a point where we are less dependent on that region of the world to fuel the American economy.

NHTSA estimates that if we had not established CAFE standards in 1975, highway fuel usage would be 35 percent higher today. A lot of critics of what we did in 1975 said that was a Government mandate, and they are right. It was a Government mandate which was resisted by the automobile industry. They said to us that it was impossible, there was no technology that could result in cars being more fuel efficient than the ones we drove in 1975. The manufacturers also argued that any cars built to meet these standards would be so light in weight that they would be unsafe. They argued that only foreign manufacturers would be able to make them. Thankfully, Congress ignored that argument and passed CAFE standards in 1975 and 10 years later saw the average miles per gallon of cars in America almost double because of the Government mandate.

The Natural Resource Defense Council estimates that the Ten-in-Ten Fuel Economy Act now before the Senate will save 1.2 million barrels of oil per day by 2020. Think about it, 1.2 million barrels of oil per today. I think the price of oil is around $70. Do the math. That is the kind of money we will not be sending overseas, oftentimes to countries that do not agree with us in terms of our values and the kind of America and world we would like to see in the future. Raising fuel economy standards will reduce our demand for gasoline, which will decrease the amount of oil we have to import.

Does anyone remember waiting in gas lines in 1973 to get their 10 gallons of gas? I do. The shortage was due to an OPEC embargo on oil exports to the United States in response to actions we had taken in the Middle East. Overnight, the price of oil went up from $3 a barrel to $5.11 a barrel. Three months into the embargo, oil prices rose further to $11.65 a barrel. This embargo came at a time when the United States imported less than 30 percent of its annual oil—about 28 percent, in fact. And it hit America hard. Suddenly, Americans had to ration gasoline. Sales were maxed at $10 per sale, gasoline stations closed on Sundays, and people waited in lines. OPEC succeeded in exerting its influence on global markets, as well as the United States. Our vulnerability was revealed in 1973, and so easily we forget.

Currently, crude oil costs just over $68 per barrel. Oil costs about 27 percent more now than it did the last time we talked about CAFE on the floor, the last time I offered an amendment 2 years ago. And it makes the $11 a barrel during the oil embargo of the seventies seem like some sort of utopia.

OPEC brought us to our knees in the 1970s. Imagine what they could do now. We do not import 28 percent of our oil now; we import 60 percent of our oil. If other countries we buy oil from decided to stop selling to the United States or to hike the cost, our economy and individuals and families, small businesses and family farmers would be in big trouble.

Literally 40 percent of all U.S. oil imports come from potentially hostile or unstable nations, and 92 percent of all conventional oil reserves are in these nations. Amazingly, we continue to operate in a business-as-usual mode, reliant on imports to quench our thirst from some of the most unstable countries in the world. Venezuela, one of the top five oil exporters to the United States, is also one of the most autocratic in Latin America. The Chavez government regularly threatens nationalization of key industries and pursues policies inconsistent with many of our policies in the United States. Nigeria, while struggling on a path to democracy, is also extremely unstable, with ongoing violence in the oil-producing regions. They are also in the top five oil exporters to the United States. The more we rely on foreign nations to supply us with oil, the more susceptible we are to their instability.

I hope my colleagues realize that any future crisis that prevents or significantly restricts the production or flow of oil resources will have consequences on our economy far worse than anything we experienced in the 1970s. So we can do nothing and hope that some manifestation of 1973 does not occur again or we can take steps now, wise steps to prepare for our future.

Another argument we hear is that if you raise fuel economy standards, American auto companies will be forced to make small cars that are not as safe. That is just not true.

This argument comes from the same industry that has fought incorporating new technology into their automobiles that now make our cars safer—including seatbelts and airbags. They now argue that they are concerned about your safety and that raising fuel economy will put you at risk.

Better fuel economy does not mean a vehicle needs to be smaller. Take for instance, the Saturn VUE. This vehicle's hybrid system will provide a 20 percent increase in fuel mileage over the conventional VUE engine and not be one inch smaller.

Their safety argument stems from the idea that the only way to make a car more fuel efficient is to decrease weight and size of the vehicle.

This, they posit, would decrease the safety of the vehicles.

Although reducing vehicle weight will increase fuel economy, it is not our only option.

The International Council on Clean Transportation released a report 2 weeks ago called ''Sipping Fuel and Saving Lives: Increasing Fuel Economy Without Sacrificing Safety.''

This report highlighted many mechanisms that would increase safety without affecting fuel economy, including: rollover-activated seatbelt pretensioners; window curtain airbags; and electronic stability control which allows each tire brake to be individually activated depending on circumstances.

They also advocated the use of advance high-strength construction and aluminum and a shift to unibody construction.

This would not only increase the safety of the vehicle, it would decrease the weight of the vehicle, thus also increasing fuel economy.

Smart design and use of strong materials to protect the passengers in strategic places will also lead to decreased overall weight of the vehicles without diminishing either vehicle size or safety.

The report went on to state that most of the technologies available to increase fuel economy have no impact on safety.

In fact, as fuel economy has increased, the number of traffic fatalities has decreased.

During the late 1970s and continuing through the 1980s, the number of fatalities per vehicle mile traveled decreased dramatically. During the same time, the fuel economy doubled.

I think this shows us without a doubt that increased fuel economy can be obtained without jeopardizing vehicular safety.

The National Research Council's 2002 report, ''Effectiveness and Impact of CAFE Standards'', found that increases of 12 to 27 percent for cars and 25 to 42 percent for trucks were possible without any loss of performance characteristics or degradation of safety.

In fact, 85 percent of the gains in fuel economy we have witnessed have come from technologies that had no impact on vehicle safety—including changes in valve control, throttling, or increasing the efficiency of accessories like air-conditioning and heating units.

The National Highway Transportation Safety Administration has recently cited both the 2002 National Academies study and its own recent review of safety noting that down-weighting if concentrated among the heaviest vehicles could produce a small, fleet-wide safety benefit.

Additionally, scientists have the ability to develop superior, cutting edge materials that can reduce the weight of the largest and most fuel inefficient vehicles.

For instance, ''composite materials'' made from graphite fibers, magnesium alloy and epoxies comprise 60 percent of Boeing's 7E7—providing greater durability, reducing maintenance and maintaining safety—and increasing efficiency between 20 and 30 percent over its rival similar product.

The same auto industry that fought against safety belts, airbags, mandatory recalls, side-impact protection

and roof strength is fighting against better fuel economy.

I am not surprised—just disappointed.

We have heard the argument too, that increasing fuel economy standards will force American automakers out of work.

Sadly, we are already witnessing tremendous job loss in our American automotive manufacturing sector, and it wasn't caused by an increase in fuel economy standards.

Instead, it has been this industry's failure to change with the times and recognize that the growing global dependence on oil would inevitably force gasoline prices to increase and that consumers would respond to the high prices at the pump by demanding more fuel-efficient cars.

Some companies are adapting to consumer demand—they are making more fuel-efficient vehicles, and being rewarded by higher sales.

Other companies are not adapting as quickly to consumer demand and continue to make cars that are more difficult to move off the lots.

The argument that increased CAFE standards would result in job loss speculates that the industry would just stop producing vehicles instead of introducing new vehicles.

I suggest that they would still make vehicles—that they would need expertise and labor to design new cars and retool existing models to be more efficient—expanding to potential for jobs in the U.S.

Consumers across America are paying over $3 per gallon at the pump, and they are not happy about it.

Stagnant fuel economy and increasing gasoline costs pinch American familys' pocketbooks.

In a poll released right before Memorial Day, 46 percent of respondents said they expect spiking gasoline prices to cause them severe financial problems.

Increasing fuel economy standards would help consumers save more than $2,500 over the life of the vehicle.

According to another recent poll conducted by the Mellman Group, 88 percent of rural pickup owners support higher CAFE standards.

Eighty-four percent of people who use their pickup trucks on the job approve of increased CAFE standards.

Eighty-seven percent of people who are economically dependent on the auto industry are supportive of increased CAFE standards.

The consumers who actually have the most to gain from increased fuel economy are people who live in rural areas—they frequently have larger vehicles and must drive further on a daily basis.

They are therefore spending more at the pump and are overwhelmingly supportive of increasing the fuel economy of the vehicles they need to drive.

A constituent of mine, Chuck Frank, owner of ''Z'' Frank Chevrolet/Kia recently visited with me to discuss the bill we are debating.

Chuck runs a family business. His family has been selling and leasing cars and trucks in Chicago since 1936—and has sold well over 1 million Chevrolets.

He doesn't want to be at odds with the manufacturers he represents, but he recognizes that times are changing.

In a letter he sent us, Mr. Frank wrote:

> It is important for you to know that there is support from within the auto industry for moving forward with raising Corporate Average Fuel Economy standards.

Mr. Frank also shared with me a recent editorial by Keith Crain, the editor-in-chief of Detroit's Automotive News. The editorial states:

> It's a real shame that the industry and the Alliance of Automobile Manufacturers can't be a part of the solution rather than an embarrassment to the nation.

If there is no objection, I would like to have both the letter and editorial printed into the RECORD.

Since 1999, Chrysler group has lost 2.7 percentage points of its market share while GM's domestic brands have lost 4.9 percentage points and Ford has lost 7.4 percentage points.

It is time these companies recognize that they are not making enough of what consumers want and should start delivering what the consumers need.

Finally, increasing fuel economy standards will help reduce greenhouse gas emissions.

Every gallon of gasoline burned releases approximately 20 pounds of carbon dioxide into the atmosphere.

One-fifth of the greenhouse gas emissions are from the tailpipes of our cars.

Increasing CAFE standards will decrease emissions as we use less gasoline.

Plug-in hybrid electric vehicles are extremely promising. Using energy equivalents between gasoline and electricity, the Natural Resources Defense Council calculated that a plug-in electric vehicle would get the equivalent of 105 miles per gallon.

If we look at the oil savings we can expect to get from our bill, the alternative amendment and a strict 4 percent per year increase, we see that these approaches have a dramatically different impact on the amount of oil we use in our transportation sector.

If we increase fuel economy by 4 percent annually, we see the best oil savings. Ironically, this is closest to what the President suggested in his State of the Union Address this year.

Four percent per year would yield an oil savings of 5.5 million barrels per day by 2030 if the auto manufacturers were not provided an off ramp.

The CAFE amendment that we have seen would make very small gains in oil savings by 2020, we would be using less than one-half of a million barrels of oil per day and by 2030 we would be using less than 2 million of barrels of oil per day than we otherwise would be.

Our proposal is the real compromise here, by getting to 35 mpg by 2020, we would save 1.2 million barrels of oil per day. If fuel economy rises at 4 percent per year after the first 10 years, we would save almost 4 million barrels of oil per day by 2030.

If we also look at the greenhouse gas emissions and fuel cost savings to consumers, we see more clearly how much more effective our bill is for consumers and the environment.

The amount of oil savings that we would achieve by 2020 under our proposal is 1.2 million barrels per day.

The other proposal would only save 0.4 million of barrels of oil per day.

A 4 percent annual increase in fuel economy would achieve 1.7 million barrels of oil per day savings.

Our bill would save 206 million metric tons of carbon dioxide from being emitted into the atmosphere every year.

The other CAFE proposal would cut greenhouse gas emissions by only 65 million metric tons per year.

Finally, our bill saves consumers more at the pump. We would save consumers $25 billion by 2020 compared to only $8 billion in savings by 2020 with the alternative CAFE proposal.

Our position is the compromise position—it has been worked out in a bipartisan fashion. We have worked hard to address the concerns of the auto industry and NHTSA. And still the auto manufacturers are unable to come to the table to support a bill that makes any meaningful change that would save millions of barrels of oil per day, using off the shelf technology.

I cannot for the life of me explain how a great industry such as the automobile industry in the United States has fallen so far behind when it comes to new technology in fuel economy. Several years ago when Toyota and other Japanese manufacturers came up with hybrid vehicles and hybrid engines, Detroit was dismissive: It is a fad; people don't really want them. They have now sold their 1 millionth Toyota Prius in the United States. There is a strong appetite for cars that get 40, 50, 60 miles a gallon, serve our families, and serve the needs of our economy. Detroit has not registered when it comes to this obvious reality.

My wife and I bought a Ford Escape hybrid, at the time the only hybrid offered by an American manufacturer. I am sorry to report to you, unfortunately, that the hybrid technology in my Ford was made by Toyota. Ford did not make it. They were not up to it. I hope they soon will be when it comes to more fuel-efficient vehicles.

There are opportunities out there. I am afraid if we listen to the automobile manufacturers and continue to wait, nothing will happen. Fuel efficiency will continue to falter, will continue to be dependent on countries that send their oil to the United States.

It is interesting, while we are in this CAFE debate in the United States, other countries have already had their debate. The winners, when it comes to fuel economy, are Japan and the European Union, where automobiles are now getting 40 to 46 miles per gallon. China—China, this fledgling economy—has more fuel-efficient cars than we do, and their fleet is almost at 35 miles per gallon already, as we debate whether the United States can reach that goal in 10 years.

There is a lot of reasons we have fallen so far behind. I will not try to dwell on them, but clearly we have a chance to catch up.

The last point I would like to make is, this is a timely debate as well when it comes to our environment. There are a few of my colleagues on the Senate floor who don't believe in global warming and climate change. They are entitled to their point of view. I happen to think they are wrong. I am sure they believe they are correct. I happen to believe something is happening in this world today: The climate is changing; storms are more violent; glaciers are melting. We are seeing changes already that are going to have a long-term negative impact on the world in which we live.

When I look at my grandchild, who is about 11 years old, and talk about what the world will be like for him, I am sure the day is going to come when he is going to ask me: Did you do what you could to try to avoid the environmental crisis that was looming when you saw it back in the early 21st century?

It is a legitimate question. Each generation has to be able to answer that question. We know now if we don't do something smart when it comes to energy and energy consumption, we are going to make this world less comfortable for us to live in. That is a fact. I hope by moving toward fuel efficiency we can start doing the right thing.

And I will go a step further. If we fail on the fuel efficiency question, on the CAFE question when it comes to the cars and trucks that we drive, then I believe we will have failed on one of the most fundamental issues in terms of the future of this planet and the future of the United States. I honestly believe we have an opportunity to move forward, and I hope we do it, and do it soon.

Mrs. BOXER. Mr. President, will the Senator yield for a question?

Mr. DURBIN. I will be happy to yield.

Mrs. BOXER. First of all, as chairman of the Environment and Public Works Committee, your words are really like music to my ears. I am so grateful that you, Senator DURBIN, are in the leadership because I think you reflect the views of the vast majority of Americans who see the challenges ahead and know we just can't do business as usual.

I think this bill is a very fair bill when it comes to fuel economy. This bill went through the Commerce Committee, a committee on which I serve, and it was a bipartisan measure. Everyone voted for it. It was fair; it was good.

The question I have for my colleague is, I just wanted to make sure he was aware of another provision in this bill, which is a good one, too, and that is to make sure the Federal Government is, in fact, the model of energy efficiency when it comes to the purchase of new cars. I wanted to make sure my friend was aware because it is tucked away in this bill, a provision we got out of the Commerce Committee, that says from now on, when the Federal Government buys its 60,000 cars a year—60,000 cars a year for its Federal fleet—that it buy the most fuel-efficient car. Is my friend aware of that?

Mr. DURBIN. I am aware because I know the Senator from California has been working on this for quite some time. I might also add that I recently met with the Postmaster General, and the U.S. Post Office has many vehicles bought by the Federal Government. They are trying to focus on how to reconfigure existing vehicles with diesel technology, for example, which is less polluting and uses less fuel. And they need our help. So I hope this bill will be a breakthrough when it comes to Federal vehicles.

I might also add, I am aware the Senator from California has joined me and a few of our colleagues and invited the experts to come and take a look at our office operations. Members of Congress, the Senate and the House, have to lead by example, and I hope the small steps we have already taken, and other steps we will take to have less of what we call a carbon footprint from our operations, may point the way toward more fuel efficiency and conserving electricity even in our own office operations.

Mrs. BOXER. Well, absolutely, I say to my friend, and again I thank him for yielding for another question.

Several of our offices are part of this model project to see how energy efficient we can be. It is a pretty straightforward way for us to lead by example.

The other question I have for my colleague is this: The bill that is on the Senate floor, which Senator REID worked so hard to put together, along with Senator BINGAMAN, myself, and Senator INOUYE and others—Senator KERRY was involved, and I know my friend was involved as the assistant leader. There are other provisions in this bill—which is why I am so hopeful we will get this done—that take this notion of the Federal Government being a model to our buildings as well.

I am not sure my friend is aware of the exact number, but the Federal Government either runs or operates 8,000 buildings—8,000 buildings. When my friend talks about global warming, it is a fact that in America 39 percent of the greenhouse gas emissions comes from buildings. So if we can set the tone here, and we can move forward with a bipartisan vote—we were able to pass a lighting efficiency bill for the Federal Government, which is included. This also has a component where grants will be given across this country to cities and counties to make their buildings energy efficient in terms of lighting. It will save money, and it will reduce the carbon footprint.

Then, with the help of Senators LAUTENBERG and WARNER, we got another piece of legislation included in this bill, which is called the green buildings bill, which also impacts all new and existing Federal buildings and also requires the EPA to come out with a model of green buildings for schools. So we will help our schools because you are so right when you talked about your 11-year-old grandson. I have a 12-year-old grandson, as you know. They are going to ask those tough questions, and they may well ask it of the schools they are in too.

So I wanted to make sure my friend knew, since we really are talking more with the leadership of Senator BINGAMAN, who has been working on the most contentious amendments, that there is so much in the underlying bill that came out of his committee, my committee, and other committees that is strong, and that is why we would hate to see this derailed. This would be an enormous setback.

The people want us to reach across party lines and take care of business, and an energy policy is going to take care of business.

Mr. DURBIN. I might just say to the Senator from California that it wasn't that long ago we used to hear about all the California laws, rules, and regulations. It was a source of amusement to many of us in the Midwest that you had your own design in automobile engines, and we thought: What is going on with these crazy people in California? We learned our lesson because in the period of time that you led the Nation in thinking about these things, you proved something: that you could keep economic growth moving forward in California and conserve energy in the process.

That is a lesson the Nation needs to learn. We don't want to sacrifice jobs, business growth, or opportunity in America. Instead, we want to create opportunity in a reasonable, wise, environmentally sensitive way.

I thank the Senator from California for her leadership on this issue.

Mr. President, I yield the floor.

VETO OF STEM CELL RESEARCH ENHANCEMENT ACT OF 2007

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

Mr. REID. Mr. President, I ask unanimous consent that the veto message on S. 5 be considered as having been read and that it be printed in the RECORD and spread in full upon the Journal. I further ask unanimous consent that the message be held at the desk.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(The veto message of the President is printed in today's RECORD under ''Presidential Messages.'')

Mr. REID. Mr. President, let me briefly say I have had a conversation with the distinguished Republican leader and this will be brought up at a later time. We will fully consult with the distinguished Republican leader, and we will do it at a time that is more appropriate than today.

Mr. DODD. Mr. President, in 6½ years in office, President Bush has picked up his veto pen only two times. Today he adds a third; and once more, he is standing against hope for thousands of Americans afflicted with deadly diseases. His veto of the Stem Cell Research Enhancement Act is a grave moral error.

Embryonic stem cell research may one day provide relief to more than 100 million Americans suffering from Parkinson's, diabetes, spinal cord injury, Lou Gehrig's disease, cancer, and many other devastating conditions for which there is still no cure. Today, Federal funds are only allowed for work on 21 stem cell lines that existed as of August 9, 2001, all of which are contaminated. Scientists understand that access to more stem cell lines would significantly expand the scope and possibility of their research. That is why the Stem Cell Research Enhancement Act expanded the number of embryonic stem cell lines available for federally funded research by allowing the use of stem cells derived through embryos from in vitro fertilization clinics. Stem cell research turns embryos that would otherwise be discarded into the seeds of life-giving science.

Of course, the decision to dedicate embryos to research is a heavy one. We have never argued otherwise. That is why the Stem Cell Research Enhancement Act contained strict ethical requirements. Under this legislation, the only embryonic stem cells that can be used for federally funded research are those that were derived through embryos created for fertility treatment purposes and donated for research with the written, informed consent of the individuals seeking that treatment. Any financial or other inducements to make this donation are prohibited under this legislation. These ethical standards are stronger than current law—possibly stronger, in fact, than the standards attending the creation of the 21 approved lines.

Stem cells from embryos have a unique potential to reduce human suffering—and for precisely that reason, embryonic stem cell research is supported by a strong majority of Americans. Today, President Bush set himself against that potential, and against that majority; he set himself in the way of our scientists, and our suffering patients. I hope that, when he has left office at last, he will come to regret his choice. If not, history will regret it for him.

Mr. KYL. Mr. President, once-terminal diseases such as leukemia, aplastic anemia, cerebral palsy, and sickle-cell anemia are now treatable, if not curable, by using stem cells derived from bone marrow and umbilical cord blood. Early this year, scientists at Wake Forest University School of Medicine found stem cells in amniotic fluid. These stem cells are particularly exciting for their pluripotency—the characteristic that enables the stem cell to turn into multiple bodily tissues and thereby be useful in a variety of medical treatments.

In the last few weeks, just as the House was engaging in a partisan effort to pass this bill that the President rightly vetoed, scientists discovered that human skin could one day be used to create limitless lines of stem cells that are virtually indistinguishable from embryonic stem cells in their characteristics. Already such newspapers as the Washington Post are glowing with reports about how this discovery could ''revolutionize stem cell research and quench one of the hottest bioethical controversies of the decade.'' At the same time, the highly trumped benefits of stem cells derived from the destruction of a living embryo have yet to be demonstrated, despite considerable private and public funding.

All members of this body share a desire to find cures or successful treatments for horrible illnesses. Fortunately, such an opportunity has been presented in the way of adult stem cells. Even with all of the tremendous potential that adult stem cells hold for treating serious medical conditions, some of my colleagues are unwilling to support legislation that funds the development of ethically acceptable and medically beneficial adult stem cell research. This body should recognize the fundamental differences—not just between Senators—but among the American people, over the appropriate use of taxpayer funding for stem cell research that destroys a living embryo. We may never move beyond this impasse, but that should not stop us from encouraging non-controversial and highly productive medical treatments.

While S. 5 contains provisions which are morally unacceptable to many people, S. 30, the ''Hope Offered through Principled and Ethical Stem Cell Research Act'' or the ''HOPE Act,'' which the Senate passed, is an opportunity for Congress to support highly-productive adult stem cell research free of ethical defects. S. 30 would specifically direct the Department of Health and Human Services to seek alternative sources of stem cells and study the possibility of establishing an amniotic and placental stem cell bank, similar to the bone marrow and cord blood stem cell bank, while reaffirming a policy that prohibits research that destroys human life. This goes far beyond the current policy in the extent to which it supports adult stem cell research.

Right now, as Senators prepare to consider an override of the President's veto of S. 5, there are millions of Americans suffering from serious illnesses who are waiting for the potential treatments offered by adult stem cell research. Rather than wasting precious time debating ethically divisive funding for stem cell research that destroys living embryos, the House should take up and pass S. 30. It is disappointing to see partisanship trump science and patients' hopes.

I applaud the President for issuing his Executive Order today, implementing many, but not all, of the key provisions of S. 30. I urge my colleagues to reaffirm opposition to S. 5 by upholding this justified veto, and to think twice about trying to add S. 5 or similar provisions that would promote embryo-destructive research onto other bills, including annual appropriations bills. Such a move would justify the veto of that legislation as well.

CREATING LONG-TERM ENERGY ALTERNATIVES FOR THE NATION ACT OF 2007—Continued

The ACTING PRESIDENT pro tempore. The Senator from Louisiana.

AMENDMENT NO. 1658

Mr. VITTER. Mr. President, I rise in strong support of an amendment I filed at the desk some time ago, Vitter amendment No. 1658, and I would like to briefly explain what that is.

At its core, this amendment would allow Louisiana to use more Federal coastal impact assistance dollars, which are already going to the State under preexisting law, a law we passed a couple of years ago, to be used specifically for one of our top priorities in the wake of Hurricanes Katrina and Rita, and that is a hurricane protection effort.

By way of background, in 2005, we passed the Energy Policy Act, and that did a very important thing for the State of Louisiana and other producing States. It established a Coastal Impact Assistance Program for the six States in the United States that produce offshore energy, particularly oil and gas. Obviously, that includes Louisiana. Under that 4-year Coastal Impact Assistance Program, certain Federal dollars flow to those producing States in light of the enormous work they do producing energy for our country and

the negative impact that activity has in many cases on our coastline.

Back at that time, a provision was made to restrict the amount of those funds that could go specifically to infrastructure projects, and that cap was established, with the work of Senator BINGAMAN and others, at 23 percent. Back in 2005, I argued strongly and worked with Senator BINGAMAN and others to say that cap should be lifted with regard to hurricane protection work, at least in Louisiana, because that work was absolutely so vital, so essential for our very existence. Unfortunately, that argument did not hold the day. The cap was not lifted, and an exemption was not put in place for hurricane protection efforts.

I am trying to get that cap lifted for hurricane protection work in Louisiana now. My argument that we should do it comes down to two words—two words that happened, that devastated our coastline between then and now, and the two words are ''Katrina'' and ''Rita.'' Since that original act in 2005, Katrina and Rita struck, and they struck literal death blows to the Louisiana coast. If hurricane protection was a big priority before that, it has only grown enormously with those two hurricanes coming upon our shores.

I think there is every rationale, every reason to allow us to use more of that coastal impact assistance money for hurricane protection efforts and to lift that arbitrary ceiling of 23 percent for infrastructure projects, specifically when we are talking about hurricane protection efforts.

I have been in contact with Senator BINGAMAN about this issue. We have just discussed it on the Senate floor. I know he is considering these arguments. Perhaps in wrapping up my discussion, I could invite the Senator to engage in a brief colloquy and ask him again to focus on the extreme needs of the Louisiana coast in the wake of Hurricanes Katrina and Rita and to continue consideration of lifting this cap in light of those extreme needs and to see where we are in that discussion.

The ACTING PRESIDENT pro tempore. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, let me respond to the comments the Senator from Louisiana made.

Procedurally, we are not able to bring up or consider the amendment he has talked about today. I have explained to him the reason for that is there is a Republican objection to us bringing up and considering a great many amendments that Democratic Members would like to bring up and consider at the same time. So I regret that.

On the substance, I am not in a position to indicate right now whether this kind of change would take place. I would assume that to make that judgment, we would have to know something about the hurricane assistance that has been provided and whether there are still adequate funds available for some of this wetland assistance that was the purpose of the original legislation in 2005.

Obviously, I think the entire Senate has been anxious to be of assistance to all of the gulf coast. This legislation he is referring to, the wetlands protection part of the 2005 Energy bill, was part of that. There have been several things that have been done since the devastating hurricanes hit that region. But I do not know enough about the specifics of those assistance programs to pass judgment on the contents of his amendment. I commend him for offering it, but I am not in a position to support it or oppose it.

Mr. VITTER. Mr. President, reclaiming my time.

The ACTING PRESIDENT pro tempore. The Senator from Louisiana is recognized.

Mr. VITTER. Reclaiming the floor, I will put that down as an ''undecided,'' and ''maybe.'' I want to continue these discussions with the Senator from New Mexico. He is essentially the key to clearing this amendment, probably without objection.

Again, I restate that because of the devastating impact of Hurricanes Katrina and Rita, I think there is every reason in the world to lift this arbitrary cap of 23 percent, specifically and only for hurricane protection work on our coast. It is absolutely vital for our survival. It will not mean we are not doing everything else we have been talking about. That is moving forward for a number of reasons, including the revenue sharing piece we were able to pass into law late last year. That will give significant new revenue to our coastal restoration efforts and other things. I again urge the Senator to continue to look at this and hopefully clear this so it can be adopted without even the need for a vote on the floor, adopted by unanimous consent.

AMENDMENT NO. 1776

Now I wish to move to a second very important amendment I have at the desk, which is amendment No. 1776. I just happened to get that number but I think it is a very appropriate number for this amendment because this goes to our very important, patriotic efforts to increase our energy independence and to get away from our enormous reliance on the Middle East, including very dangerous countries and regimes in the Middle East that are clearly not friends of ours at all.

This amendment is straightforward. It would allow increased domestic production of minerals or renewable energy in Federal areas that are not allowed now, if and only if all four of these things happen—really five.

No. 1, the national average gasoline price would have to exceed $3.75 a gallon at the pump.

No. 2, in addition, foreign imports of oil would have to exceed 65 percent of all oil use.

No. 3, in addition, the President would have to determine that an ample supply of renewable fuels is insufficient to meet fuel demand domestically at that time.

No. 4, in addition, the President would have to determine that continued and growing reliance on foreign oil imports is a threat to national security.

If all of those four preconditions were met, then and only then, No. 5, the Governor of a State, with the concurrence of the State legislature, could petition the Secretary of the Interior to initiate leasing activities on specified Federal lands within the State or within the administrative boundaries of the Outer Continental Shelf related to that State for oil and gas or alternative energy production. So if everything I mentioned happened, then and only then a State itself, through its Governor, through its State legislature, can say: Yes, sir, Mr. President, we want to be part of the solution. This is a dire, extreme case. This is a real national security threat. We want to be part of the solution by producing, safely and in an environmentally friendly way, more oil and gas, more renewable energy for America.

I think this is an utterly commonsense and very much needed amendment to increase domestic production, decrease reliance on foreign sources. That goes to energy security. As such, it goes to economic security. It goes to national security.

Again, none of this would happen unless all of those things happened first: gasoline prices at $3.75 at the pump, foreign imports over 65 percent of everything we are using in this country, the President saying renewables cannot make up the difference, the President saying this is a real national security issue, the Governor of the State saying we want to do this, it is our home, we can do it responsibly, and the State legislature of the State concurring. All of those things would have to happen before opening up either land within the State or part of the Outer Continental Shelf off the State to leasing activity, in terms of Federal land.

It is very important that we do a balanced approach, all sorts of things, to decrease our reliance on foreign sources. This is a very commonsense part of that menu.

With that, I understand there may be objection, but I ask unanimous consent to set aside the pending amendment so that this very commonsense amendment, which goes to the heart of this debate and the heart of the bill, Vitter amendment No. 1776, can be called up and made pending.

The ACTING PRESIDENT pro tempore. Is there objection?

Mr. BINGAMAN. I object.

Mr. REID. Could I ask a question, through the distinguished Senator from Louisiana, to the manager of the bill, the Senator from New Mexico?

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

Mr. REID. Would the distinguished chairman of the Energy Committee inform the Senate why there isn't more done on this bill? People have said to me we want to have it debated—and not just Democrats; Republicans have asked me the same question—why aren't we able to move on to get some of this done?

Mr. BINGAMAN. Mr. President, let me respond to the majority leader by saying there are a great many good amendments Republican Members would like to offer, there are good amendments Democratic Members would like to offer. We are informed there is objection to us bringing up any of these amendments and getting a vote on them at this time because of objections from a Senator on the Republican side.

For that reason, we are somewhat unable to proceed with any of these legislative matters. I know the time is running toward the vote on cloture—both on the tax package and on the bill itself. I know there is good faith on both sides in wanting to do some more business before those cloture votes occur. But obviously, good faith on the part of many Senators does not ensure we can make progress. We have to have unanimous consent and we cannot get that.

Mr. REID. I don't know if the Senator from Louisiana still wants the floor?

Mr. VITTER. Yes, I do.

Mr. REID. Would it be OK if I direct another question to the manager of the bill?

Mr. VITTER. Certainly.

Mr. REID. I say through the Chair to the distinguished Senator from New Mexico, I have worked for all the time I have been in the Senate, for more than a dozen years, on a very close, intimate basis while we were managing the Energy and Water appropriations bill, with the senior Senator from New Mexico, Senator DOMENICI. What is going on here, as the comanager of this bill, is very unlike Senator DOMENICI. Senator DOMENICI likes things debated. He likes votes to take place. He likes movement here in the Senate.

Senator DOMENICI is not part of holding this legislation up, is he?

Mr. BINGAMAN. Mr. President, let me respond to the majority leader. I think it is fair to say there is a good-faith effort on the part of both managers to try to move forward with legislation in a way that is fair to both Republicans and Democrats, and allows consideration of amendments on both sides. But we are being blocked by others.

Mr. REID. One last question, if the Senator will be patient, the Senator from Louisiana.

The Senator from New Mexico, the senior Senator from New Mexico, the manager of the bill, has been in the Senate longer than I have, and he knows more about procedure than I do, but has the Senator tried, for example, having 60-vote margins on some amendments that people may not want, to see if there is any other way to move this along to get that objection withdrawn?

Mr. BINGAMAN. Again, Mr. President, in response, let me say we have tried to get agreement that certain of the amendments that are objectionable to some Members on the Republican side—we would agree that we would be bound by a 60-vote threshold on those amendments. But at least at this point, my understanding is the objection is to any consideration of the amendments, regardless of what the threshold is going to be. We are unable to proceed right now. I hope that changes. I hope we can dispose of some of the very meritorious amendments that both Republican Senators and Democratic Senators wish to offer before we get to cloture.

Mr. REID. Mr. President, I want the record to reflect my appreciation for the courtesy extended to me by the distinguished Senator from Louisiana.

The ACTING PRESIDENT pro tempore. The Senator from Louisiana is recognized.

Mr. VITTER. Mr. President, I was happy to do that.

Reclaiming the floor, all of that is interesting. It is also what is commonly referred to as ''inside baseball.'' For the sake of the insiders here, let me translate for you what the American people just heard. To quote Charley Brown, ''Wah, wah, wah, wah, wah, wah, wah.''

The fact is, what Americans are faced with is an energy crisis and we have all this ''inside baseball'' tangling us up in the Senate, in the House, and we are not doing a darned thing about it.

The other fact is there is no objection on the Republican side to calling this amendment up, No. 1776, to making it pending, to considering it. There are all sorts of debate and all sorts of discussions about other amendments. There is certainly no objection on our side to this amendment. Why should there be? Why shouldn't we allow individual States to say: Yes, we want to be part of the solution, particularly when all of the following events occur: average price of gasoline reaches $3.75 a gallon, foreign imports top 65 percent of everything used in the country, the President certifies that renewables can't make up the gap, the President certifies there is a continuing reliance on foreign oil, which is a national security threat? If all of those things happen, shouldn't we be allowing a State, through its Governor, through the State legislature, to be part of the solution in a safe and environmentally sensitive way to produce more energy in this country that doesn't take away the need for alternative fuels, that doesn't take away the need for conservation or everything else?

But the clear and simple fact is, this problem is so big we need to do all of the above. Certainly this commonsense approach should be on that menu, should be among all of the above.

Let's get beyond the Washington insider ''Wah, wah, wah,'' all the running around, all the objections, all the being tied up in knots, and present some reasonable, commonsense solutions to this growing national energy crisis.

I hope those who control the floor and leave the floor, starting with the distinguished majority leader, to whom I deferred a few minutes ago on the floor, can be part of that.

The PRESIDING OFFICER (Mr. SANDERS). The Senator from West Virginia is recognized.

(The remarks of Mr. BYRD are printed in today's RECORD under ''Morning Business.'')

Mr. BINGAMAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. NELSON of Florida. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. NELSON of Florida. Mr. President, the moment of truth is coming on this Energy bill very shortly as to whether we will stick with the bill which requires the meeting of cars and light trucks to be 35 miles per gallon not for another 13 years, until 2020, and thereafter the mileage standards to improve by 4 percent a year. There is a great deal of consternation going on here, particularly by the automobile industry that does not want to comply with these standards.

I was prepared to offer an amendment that I think 35 miles is too low. We have the technology. The question is, Do we have the political will? We have the technology to go to 40 miles per gallon. I have filed an amendment. But apparently, because of the dynamics of the Senate taking up this issue, we are struggling to get the votes in order to keep the 35-miles-per-gallon standard in the bill.

There are all kinds of side discussions going on in the corridors and anterooms of the Capitol as to whether there will be any offer, particularly by the Senator from Michigan, Mr. LEVIN, as to reduced standards. Originally, he was proposing a standard of 36 miles per gallon but not to be achieved until the year 2025, with other trucks exempted from that. So you see the battle, the choice that is basically set.

Why should we do this now? Let's look at history. I came into public office in 1972, now 35 years ago. At the time in the early 1970s, we had an embargo by the oil-producing countries, particularly in the Persian Gulf region. There was a panic. There were long lines at the gas stations. The price of oil shot up from a low price of something less than $10 a barrel back then, it shot up considerably and everybody was concerned. Americans were impatient. The Persian Gulf region became a target of our disaffection. Then the spigot was turned on. The oil began to flow again. The embargo was released. The price started to recede. America went back to sleep.

It happened again in the late 1980s, about the time I was elected to Congress. Again, there were long gas lines, the cost of gasoline shot up, the enmity toward the Persian Gulf region nations, the double whammy that interest rates soared upward of 15, 16 percent. All of that was a real crunch on Americans. But the spigot was turned on again. The oil flowed. The price receded a little bit—not nearly as much as it was back in the early part of the decade of the 1970s—and America went back to sleep again.

All the time at each of these moments, the alarm was sounded that from a defense posture, the United States did not want to be dependent on foreign oil. Yet each time dependence increased and the amount of foreign oil imported into the United States increased to the point that today we are importing 60 percent of our daily consumption of oil. Where is it coming from? It is coming from places such as the Middle East, the Persian Gulf, Nigeria, and Venezuela. I have mentioned four parts of the world that are relatively unstable. Yet this is what is supplying us with 60 percent of our daily consumption of oil.

So we come to the moment of truth which may occur this afternoon, if an alternative amendment is offered to the miles per gallon required in this Energy bill. The moment of truth is, is America ready to have the political will to change its gas-guzzling ways? We are talking about reasons of energy. We haven't even said anything about what the excess carbon dioxide as a result of the burning fossil fuels is doing going into the air, creating the greenhouse effect and heating up the Earth. That is another complete story. But it is all as a result of this.

People say: Another part of this, we are going to talk about renewable fuels for electric utilities. That is an important part too. But when you look at where do we consume most of the oil, the petrol, it is in the sector of transportation. Within transportation, where is most of the oil consumed? It is consumed in private vehicles. So we are coming to the moment of truth. Are we going to finally require, without many exceptions, the automobile industry to do what technology easily allows us to do—but not even do it tomorrow, phase it in over a 13-year period to the year 2020, requiring that we have greater miles per gallon and, therefore, what does that mean? Less consumption of oil. That means less dependence on foreign oil. This is where the greatest consumption of oil is, our private vehicles. The moment of truth is here.

There is clearly a defense reason we ought to explore as to why we ought to do this as well. Can you imagine the different posture of the Armed Forces of the United States if we did not have to be the protector, almost the sole protector, of the sealanes upon which the great supertankers of the world steam in order to satiate an oil-thirsty world? Thus, who do you think defends and protects the sealanes coming out of the Persian Gulf, coming through one of those chokepoints, a military chokepoint called the Strait of Hormuz, 19 miles wide, on one side Iran, on the other side of the 19 miles, Oman, through which narrow passage the supertankers of the world have to flow to get out into the Indian Ocean? Who protects that? The United States.

Wouldn't it be different from a defense posture with a Latin American President such as Hugo Chavez, who continues to thumb his nose at the United States because he can since he has petrol dollars, since he supplies 12 to 14 percent of our daily consumption. And, by the way, his company, which has been nationalized by the Government of Venezuela, the oil industry called PDVSA, did you know that they own all the Citgo stations in the United States? So his threat of cutting off is more hollow than real because he would be, to use the old expression, ''cutting off his nose to spite his face''—if he were to suddenly shut down the oil supply going into all of his gasoline stations around the United States. Nevertheless, he has made that threat. In the process, with his oil wealth, because we do buy half of his oil production, he can buy friends around the region. Happily, he has not been totally successful. But he can buy friends and buy influence with his petrol dollars, either in the form of direct financial remuneration or in the form of oil and gasoline supplies to oil- and gasoline-thirsty countries, such as the little countries in the Caribbean, the little countries in Central America. That is another thing we are facing. The moment of truth has come.

I had an automobile dealer, one of the very best from my State of Florida, sit with me yesterday and tell me the automobile industry could not make this adjustment. But that is what the automobile industry has been saying for the last 35 years, ever since we had that first major oil disruption in the early 1970s. In his particular case, he has tried, within the industry, to get the industry to be willing to reform itself and use the technology we have to do much higher miles per gallon. I thanked him profusely and congratulated him on his efforts. But Mr. Automobile Industry, backed up by Mr. Oil Industry, don't come tell me we don't have the technical capability and the American people the capability of buying automobiles that will take us from what is now, on the average, about 22 miles per gallon on vehicles—they have a different standard; it is something like 27, but in reality it is only 22—don't tell me we don't have the technology in 13 years to get us to 35 miles per gallon. I wish it were 40. But if we can get this, we are all the better off.

I wish to share one more thing, as we are coming to the moment of truth.

Two weeks ago, during the break, I spent it going around on an intelligence mission in Africa, and it became quite apparent in one of those countries, Nigeria—we get 12 to 14 percent of our daily supply and consumption of oil from that one country, Nigeria—it became very apparent to me those facilities were defenseless.

At the same time, it was very apparent to me that al-Qaida is on the rise in Africa. They are coming out of Arabia, into the Horn of Africa, there at Somalia, in all the midst of that chaos, and they are moving across the Sahel and the Sahara of Africa. They have even changed some of the names of the terrorist groups there in Africa to be AQIM, al-Qaida in the Islamic Maghreb. That is the group that just tried to assassinate the President of Algeria a couple months ago, and they got close. They got a big truck bomb, suicide bomber, next to the Presidential palace. It killed a dozen people, but they did not get the President. But it is on the rise.

Guess what one of their targets is going to be. The oil facilities in Nigeria. The only way we are going to stop that, since the Nigerian Government cannot protect them, is through the cooperative arrangement we have with African nations' intelligence services cooperating with our intelligence services. That cooperation is going on and has saved some of the terrorist strikes elsewhere in the world. That is the only way we are going to interdict—to find out ahead of time and stop it; otherwise, it is going to happen. When that happens, right there, with 14 percent of the daily supply suddenly cut off, we are going to rue the day if, on this day, this moment of truth, we have not set ourselves on a mandatory course of higher miles per gallon in order to force less consumption of oil, particularly foreign oil.

That is the message. I do not see how any Senator can ignore this message. Yet we are scrambling for 60 votes to close off debate to get to the end of this bill because of that provision in it.

Senators, the moment of truth is coming, portending enormous consequences for the future of our country and for the future of the free world, and it is going to happen today.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

AMENDMENT NO. 1800 TO AMENDMENT NO. 1704

Mr. KYL. Mr. President, I have an amendment I send to the desk.

The PRESIDING OFFICER. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Arizona [Mr. KYL] proposes an amendment numbered 1800 to amendment No. 1704.

Mr. KYL. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To disallow the credit for renewable diesel for fuel that is coprocessed with petroleum)

On page 69, lines 17 to 20, strike ''to so much of the renewable diesel produced at such facility and sold or used during the taxable year in a qualified biodiesel mixture as exceeds 60,000,000 gallons''.

Mr. KYL. Mr. President, I wish to ask the chairman of the committee, is it not correct that at this time there is agreement to have a debate—40 minutes equally divided—on this particular amendment, and the vote to be set at a later time, but we would try to conclude the debate at this time?

Mr. BINGAMAN. Mr. President, in response, that is my understanding, that we will have 40 minutes equally divided prior to a vote on or in relation to the amendment, and that vote may take place later in the afternoon.

Mr. KYL. Mr. President, I thank the Senator very much.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. KYL. Mr. President, this amendment is designed to get back to the original intent with regard to the Energy Policy Act of 2005 in relation to a very specific, rather narrow provision, but an important provision, that provided a $1 per gallon credit for renewable diesel. The idea was to encourage the creation of new technologies for renewable diesel. The idea was primarily to try to get products, such as cellulosic products, that could eventually be added to or be turned into a fuel that could be burned as diesel fuel. As a result, that $1 per gallon credit was deemed an important way to create a new kind of product.

Well, as entrepreneurs will do, a couple of very bright people figured out they could take an existing product, which is already used—namely, animal fat—and put that in with diesel fuel, in effect—I am simplifying the process—and, voila, it all burns the same, but it would qualify as renewable diesel, biomass under the credit and, therefore, they would get the $1 per gallon credit for doing something that adds essentially nothing to the process and uses animal fat—primarily, tallow—which is already used by the oleochemical industry, which is seeing the price skyrocket because of the interpretation these oil companies have gotten IRS to agree to that they could actually use this animal fat in their diesel and, therefore, get the credit for producing a new kind of diesel.

That was never the intent. The intent was to find some new kinds of biomass processes that could be converted to a diesel fuel and have it be a renewable diesel fuel—something truly new—not to take existing diesel and take an existing product that is already used by a very green industry.

By the way, the oleochemical industry is an industry that gets no subsidy, and uses this animal fat—something that is good to dispose of—to make plastics, cleaning products, home cleaning products, some rubber kinds of products, and most especially soap. The basic ingredient in soap is tallow. There is a finite market for that. The soap people buy all the stuff that is on the market, but they found that the cost has gone up 100 percent in the last 6 months because of this interpretation that tallow could be bought up by, primarily, one big oil company, Conoco oil company, which has figured out they can get the advantage of this $1 per gallon subsidy.

That is wrong. It was never intended for that. If they want to go out and invent a new process with the big tax credit we have given them, that is great, but not to use the tax credit to do something that can be done anyway and which has the effect, the unintended consequence, of hurting an industry that employs at least 4,000 people. By the way, if that industry is not able to buy the tallow—the animal fat that is being used here—then the only alternative is to produce things like soap in foreign countries that have alternative supplies to what we have in the United States.

So the unintended consequence of this is not just that somebody gets to take advantage of a $1 per gallon tax credit that is very generous—and not producing anything new—but they are also driving out of the United States an important industry which does use this waste animal fat, and uses its very productively, without any subsidy.

Mr. President, I ask unanimous consent to have printed in the RECORD a letter from the chief executive officer of the National Biodiesel Board, who wrote to me on June 20.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL BIODIESEL BOARD,
Jefferson City, MO, June 20, 2007.

Hon. JON KYL,
U.S. Senate,
Washington, DC.

DEAR SENATOR KYL: The National Biodiesel Board (NBB) supports your efforts to promote sound energy policy by ensuring that renewable diesel produced through petroleum co-processing does not qualify for the $1.00 per gallon renewable diesel excise tax credit.

In a time of budget deficits and rising fuel prices due in large part to limited domestic refining capacity, the NBB questions the wisdom of directing tax benefits and limited feedstock to subsidize existing oil refining operations at the expense of free-standing producers of biodiesel and renewable diesel. Under your amendment, vegetable oils and animal fats co-processed with petroleum would not qualify for the $1.00 per gallon renewable diesel tax credit, but would continue to qualify for a 50 cents per gallon credit that is provided under current law. The NBB believes that your amendment represents balanced energy policy and is consistent with the goals of the underlying legislation.

Again, the NBB thanks you for your efforts on this issue and urges Senators to support passage of your amendment to preclude petroleum co-processing from qualifying for the $1.00 per gallon renewable diesel tax credit.

Sincerely,

JOE JOBE,
Chief Executive Officer.

Mr. KYL. Here is what the letter says:

The National Biodiesel Board supports your efforts to promote sound energy policy by ensuring that renewable diesel produced through petroleum co-processing does not qualify for the $1.00 per gallon renewable diesel excise tax credit.

In a time of budget deficits and rising fuel prices due in large part to limited domestic refining capacity, the NBB questions the wisdom of directing tax benefits and limited feedstock—

That is the animal fat—

to subsidize existing oil refining operations at the expense of free-standing producers of biodiesel and renewable diesel. Under your amendment, vegetable oils and animal fats co-processed with petroleum would not qualify for the $1.00 per gallon renewable diesel tax credit, but would continue to qualify for a 50 cents per gallon credit that is provided under current law. The NBB believes that your amendment represents balanced energy policy and is consistent with the goals of the underlying legislation.

And so on.

We are not eliminating the tax credit. We are not eliminating this other credit. All we are doing is getting back to the original intent, which was not to provide this additional $1 per gallon credit for something that could be done anyway. We want you to go out and invent something new here using biomass for biodiesel, not using something that can already be done.

According to the testimony of the company that is primarily going to be doing this, this has not resulted in any major expenditure on their part. I will quote from ConocoPhillips' 2005 annual report. They have ''conducted a successful test that converted vegetable

oil into high-quality renewable diesel fuel . . . , and can be produced with existing refinery equipment with minimal incremental capital investment.'' In other words, this is not something that requires some new investment that requires the American taxpayers to subsidize it.

As I said, they are taking something they can do right now, and they are simply taking advantage of a tax break we did not intend to be used by a company like that.

Now, in anticipation of this boondoggle—and it has gotten quite a bit of press—there has been a suggestion: Well, we can limit it to taxpayers with 60 million gallons of production. The problem is, in the Finance Committee mark that was changed from ''taxpayer'' to ''facility.'' So now a company can have 20 different facilities, each one producing 60 million gallons, and they are right back in business. It is no limitation at all.

So my colleagues should not be hornswoggled—to use the old phrase my grandfather used to use—that somehow there is some kind of limitation on this. Very cleverly, the Conoco folks were able to get in this legislation that it applies per facility; and by having multiple facilities, there is, in effect, no limitation.

Mr. President, I will be happy to give those who want to speak in opposition to this amendment an opportunity to try to refute what I have said, but I think this is very straightforward. There is no sense in rewarding what I would consider to be behavior that was never intended by this Congress in providing this kind of a tax credit.

When we are going to take a tax benefit—in effect, using taxpayer dollars—to promote something, we want to make sure we are promoting something that is in the best interest of the American taxpayer, not just a way for somebody who knows how to make a buck to use it to make a buck, especially if it has a negative consequence on an existing industry, the oleochemical industry, and, in particular, the soap makers of this country.

The PRESIDING OFFICER. Who yields time?

The Senator from Montana.

Mr. BAUCUS. Mr. President, I yield myself such time as I might consume.

Yesterday, the Finance Committee passed the Energy Advancement and Investment Act. That measure passed by a vote of 15 to 5. That is a very broad-based, bipartisan majority for the Finance Committee amendment that is now pending on this energy bill.

It is a major amendment. The committee spent a lot of time trying to figure out the best way for America to turn the corner, for the United States to begin to wean ourselves away from OPEC, to wean ourselves away from our reliance upon foreign oil, to try to enhance our national security, make the United States a little more able to determine its own destiny with respect to energy.

In doing so, we therefore also created lots of incentives for American production of renewables, for renewable energy, conservation, hybrid automobiles, hybrid plug-ins, cellulosic ethanol—a whole multitude of ways to help America become much more self-sufficient and, hopefully, therefore, be able to get our gasoline prices down a little bit because at the current time we very much are in the throes of big oil's control as to what they charge at the gas pump. This is a very thoughtful amendment. We spent a lot of time trying to put all this together.

The Finance Committee amendment includes a compromise on the topic of Senator KYL's amendment; that is, renewable diesel. There are a lot of offsetting interests here, to be honest about it, from different parts of the country. Some are more concerned about biodiesel produced from products such as soybeans; others are much more concerned about renewable diesel produced by other products that could be organic products. In trying to get that balance put together, the goal is the same, which is to displace foreign oil.

I hope, therefore, that the amendment offered by the Senator from Arizona is not agreed to because the effect of it will be not to displace a good bit of foreign oil, which is contrary to the main point of the underlying legislation.

Under current law, there is a $1-a-gallon credit for renewable diesel, including that produced with animal fats. There is also a $1-per-gallon credit for biodiesel, which is made from soybeans and other seeds. The committee amendment extends both of these credits for 2 years, until 2010; otherwise, they will expire at the end of next year.

The Senator from Arizona appears to be concerned that renewable diesel coprocessors—such as Conoco, for example—will increase the cost of consumer goods. He thinks consumer goods are going to go up as a consequence of our assistance for renewable diesel. He argues that the price of animal fats to be used in making renewable diesel, which are also used in making soap, will drive up the cost of those consumer goods.

I might say that fancy term ''coprocessors'' includes companies such as ConocoPhillips, which will use some of its existing infrastructure to produce renewable diesel. That is true.

The Senator from Arizona also appears to be concerned about the size of the subsidy—$1 per gallon—for this fuel. I might say that this was a question which members of the committee were concerned with. There are those who thought that biodiesel would be in competition with renewable diesel, so we worked to find a way to work together to reach a balance. This is a compromise we worked out: the dollar credit for each, but in addition, the committee capped the tax credit for renewable diesel coprocessors at 60 million gallons per facility. We put a cap on it. Another way to say it is that once that cap is reached, then the $1-per-gallon credit will no longer be available. We have a limit. We are cognizant of the points made by the Senator from Arizona.

We also commissioned a study on the effects of energy tax incentives on consumer goods. The 60-million limitation is the same as the definition used for a small producer of biodiesel or ethanol. Now, is 60 million a magic number? No. But it is a standard used in current law. That is why we took it. It is not something pulled out of thin air. One might ask: Should the $1 subsidy remain current law for good? My answer is, probably not. This is a bold step in the sense that we are trying to push-start and help kick-start renewables and alternative energies. We don't know if these incentives are exactly right. They are probably not exactly right, but they are the best we could come up with at this time, and we think that probably they will work pretty well, but we will have to come back and revisit them. Some are not going to work very well, some will be increased and some will be decreased.

I say all that because the committee amendment before us extends this $1 for each—that is, for biodiesel and renewable—for just 2 more years. It is not a 5-year or a 10-year extension. It is not a permanent provision. It is just for 2 years. It will sunset in 2 years. That is contrary to most of the recommendations we have been getting from industry across the board; namely, they like 5-year incentives toward capital needs. A couple years, 3 years; 1 year is not enough, 2 years is not enough. We extended most of these credits on renewables and alternatives for 5 years. Section 485, which is renewable credits, is extended for 5 years, but we limited this to just 2 years as an extension because we are not as confident that is what the exact provision should be.

So I hope this amendment offered by the Senator from Arizona is not agreed to. The underlying Finance Committee amendment, which is pending, we thought it through the best we could. We think it is balanced. We think it is fair. Therefore, we hope it is sustained. Let me restate that every gallon of renewable diesel produced is a gallon of foreign oil displaced, which I think is pretty important.

I appreciate the efforts of my good friend from Arizona, but I think by and large they are not well placed.

I understand there are a couple of others who wish to speak on our side. How many minutes would the Senator

from Iowa like to speak? For 5 minutes. Senator LINCOLN, about the same.

Mr. President, how much time is remaining on our side?

The PRESIDING OFFICER. Twelve minutes.

Mr. BAUCUS. Mr. President, I yield 5 minutes to each Senator who wants to speak, and I first yield to the Senator from Iowa, my good friend, Senator GRASSLEY.

Mr. GRASSLEY. Mr. President, I thank the Senator for yielding. I am glad to come to the floor to speak about renewables. I am going to speak against the Kyl amendment.

I think we ought to put things in perspective. For two decades, maybe longer than that, this country has been seeking various approaches to alternative energy so that we are not dependent upon foreign sources and, more recently, violent and unpredictable sources of energy for the United States for reasons of national security, for reasons of our economy. There are a lot of good reasons we shouldn't be so dependent upon fossil fuels and foreign sources of energy. So we have had two or three decades, starting out with ethanol and now going into other things such as biodiesel, wind, Sun, and things of that nature.

Now we are finding that the things this country was so united on, such as the need for renewables, the need for helping agriculture, the need for lowering our trade deficit, the needs of national security, the needs of a cleaner environment—everybody was united that we ought to be doing it, and now we are being somewhat successful. It used to be we would have to listen to all of the excuses of big oil, fight big oil, why we shouldn't have renewables. Now we are finding out about the high price of food, the high price of animal feed, just as if all of the problems of our country are on the backs of the American farmers, which is very unfair. Now we are finding some dissension from other industries being affected. We are still in the infancy of these industries, whether it is ethanol after a couple of decades or whether it is biodiesel after 3 or 4 years. We are in a state of infancy yet in renewables.

We ought to be as united today as we were over the past two decades on what is right for this country, good for agriculture, good for the environment, good for our national defense, good for good-paying jobs in parts of rural America where it has never been before. Everything about it is good, good, good. We better stick together because otherwise we will continue to be dependent upon those violent regions of the world for energy; we are going to be dependent on something God made a finite quantity of, such as fossil fuels. We need to move forward, united. This is the second amendment today and, who knows, we may have 10 other amendments which are very detrimental to the causes of getting this infant industry of renewables off the ground.

Having said that as a backdrop, I wish to speak specifically about what is wrong with the amendment that is before us. I can't replace the good things—or I can only add to the good things which the Senator from Montana has already spoken to. But there is no cap on any biodiesel production. They may go forth and produce and meet their specific chemical standards. They have the right to produce as many gallons of biodiesel as they like, and it will be qualified for the excise tax credit through the end of 2010. Now, people will argue that it ought to be longer, but you have to fit things into what we have offsets for, so it is the year of 2010. If they are a small producer, they will be able to receive the credit until December 2012. If you are a noncoprocessing facility and do 100 percent biomass, not including chemicals, catalysts, and the like, they have the same rules as biodiesel. If you coprocess at a facility, your total credit is limited to 60 million gallons. If you claim a renewable diesel credit, the 60 million gallons is the current definition of a small producer. So a coprocessor facility will not be able to receive any more tax benefits than the small producer. For example, if you have a 100-million-gallon facility that you are concerned about, they have a built-in $40 million advantage over any coprocessing facility. Obviously, a barrel of vegetable oil or animal oil is substantially more expensive than a barrel of crude oil, and the credit by law is limited to only the volumetric amount of the biomass.

I hope this makes it clear that we should not support the amendment of the Senator from Arizona.

I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. KYL. Mr. President, may I be informed as to how much time remains on this side?

The PRESIDING OFFICER. Twelve minutes for the Senator from Arizona and 6½ minutes for the Senator from Montana.

Mr. KYL. Might I take a little bit of time, then, before the other side speaks again on this issue?

I respect my colleagues who have spoken, but I have not really heard an argument that, to me, anyway, argues against the specific amendment I am offering. Remember, I am not doing away with the credit. The arguments that have been raised here make it sound as if we are trying to do away with the credit. That is absolutely not true. The credit remains. What we are trying to do is essentially reverse an IRS ruling, which I submit was made in error, with respect to the application of the tax credit. They said you could actually apply it to a process to which it was never intended to be applied.

A letter to the Secretary of Treasury at the time this legislation was originally considered makes that crystal clear.

Congressman BLUNT wrote:

> It has been brought to my attention that some taxpayers are suggesting to the Department of Treasury that section 1346 of the Act, the renewable diesel provision, could be broadly interpreted to include traditional processes. This is not what we intended in the provision, and neither the statute nor the associated JCT estimate of revenue implications in any way support such a reading.

What he is saying is this: Two years ago when this tax credit was created, it was designed to incentivize the creation of a new product so that we didn't have to continue to explore for oil or export it from foreign sources; we could begin to make renewable diesel out of biomass. That was the idea. We have all of this waste product of biomass. We have cellulosic products we can create here, and that will create a new renewable fuel source.

Everybody said: That is a great idea. To get it promoted, let's have a dollar-per-gallon tax credit for the production of that. It was not intended to apply, as the Congressman from Missouri pointed out, to include traditional processes for refining and producing fuel. In other words, it was designed to promote something new.

So when these folks found that they could take animal fat, essentially, to greatly simplify it, and add it to their existing stocks, voila: a biomass renewable fuel that qualified for a generous tax benefit, that was never intended. All my amendment does is to say that interpretation is not correct; you can't do that. The underlying dollar-per-gallon credit exists. The other 50-cent-per-gallon credit exists. We don't take away any of that. All we do—and the primary person or company that is affected by this, I acknowledge, is Conoco Oil Company. They have figured out, with minimal new investment, as they themselves wrote in their annual report, that they could take advantage of this tax credit by using the animal fat.

Now, again, I suppose it wouldn't matter that much if a big oil company is taking undue advantage of a tax credit we create. That is probably done all the time. I don't like it. That is why taxpayers are, frankly, sometimes upset with Congress that we pass these great, generous subsidies and sometimes they are utilized by people who shouldn't be utilizing them, not to create a new kind of diesel fuel in this case but to keep using the same old diesel fuel.

The other unintended consequence, though, is one that affects another industry, a clean industry, an industry that is using the waste fat, the vegetable oil and animal fat, the waste product of turkeys and chickens, for example. It is utilized today in a variety of these oleo chemical products

which are products we use every day—house-cleaning products, soap, as I said.

The problem is that because these existing refineries are buying up these waste products, they are driving up the cost. There is only so much of this animal fat around. It is a finite amount. When the demand is increased by having these oil refineries buy it all up so they can put it into their diesel fuel so they can get an extra credit, that is driving up the price which, as I said, has gone up 100 percent in the last 6 months.

If that continues, these soap companies are not going to be able to afford the primary feedstock for the soap, and they are going to have to produce it abroad, another great unintended consequence of what started out to be a good idea but didn't turn out to be such a hot idea.

This is a very parochial issue. I submit, except for the chairman and ranking member of the committee, primarily the opponents of this are from places that take advantage of this provision. I cannot object to their fighting for their local industries, but I think it is important for us to recognize that as a national energy policy and as a national tax policy, we have to look at it in nationwide terms. When we have created a credit to produce something new, and it ends up not being used to produce something new but to produce something that currently exists by existing refineries and uses up the feedstock of another important industry, driving the cost of that industry way up, we better pay attention to that. The fix doesn't hurt anybody, except primarily, as I said, this one big oil company because it leaves the credit in place, it leaves the 50-cent credit in place. It doesn't do anything with those credits. It doesn't say they are not extended. All it does is say we go back to the way it was prior to this IRS ruling that said they could take advantage of this provision for the existing refiners.

I will conclude. We don't need to subsidize existing oil-refining operations at the expense of freestanding producers of biodiesel and renewable diesel. That is who this tax credit was designed to help, the freestanding facilities, the ones that were actually producing something new.

A key component of rising fuel prices in this country is a lack of refining capacity in the United States. We all know that. Freestanding biodiesel and renewable diesel producers have both fuel and refining capacity. We ought to be encouraging them, and that is what the $1-per-gallon credit was designed to do.

By contrast, coprocessed renewable diesel adds no new net fuel and no new refining capacity to the diesel pool. This was not intended to help the existing refiners. They are already in business, they are already making money, and we don't need to give them $1-a-gallon credit for doing something we don't need to have them do.

Finally, as I said, the availability of feedstock, such as animal fat and vegetable oils, is essentially fixed, and this $1 renewable diesel credit is the motivation for integrating the oil companies to engage in coprocessing. This will clearly increase demand for the feedstock needed to produce biodiesel and increase costs. It is not wise tax policy to drive tax policies and limited feedstock to support existing refinery operations at the expense of biodiesel and freestanding renewable diesel production.

The economic benefits associated with freestanding biodiesel production could be lost if this $1-per-gallon renewable tax incentive is directed to support operations in existing oil refineries.

I ask my colleagues to please keep this in perspective and take into account that those who say this amendment is bringing the end of the world, no, it is not. It doesn't change existing law at all. All it does is say to go back to the original intent and apply this very generous tax credit for the purpose we originally intended: to produce something new, not to use existing refineries and give them a tax credit for doing something they are already doing.

I hope when the amendment is called that my colleagues will see through some of the smokescreen that has been presented, not in the Chamber but on the outside with regard to this amendment, and will agree that national policy dictates that we take care of taxpayers' dollars carefully, that we set our energy policy carefully, and that we not let people take undue advantage of it in ways we did not intend.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, I ask the Senator from Arizona, before the debate proceeds, we now have agreements with Senator INHOFE for two votes. One is a vote in relation to amendment No. 1693 and then a vote in relation to amendment No. 1666. I was wondering if the Senator will agree that following the debate on those two amendments, which will take an hour, if the Senator will be able to return to that point and debate his second amendment and then we can have a stack of four votes.

Mr. KYL. Mr. President, I will be happy to do this on my time because I am going to yield back my time on this amendment in any event. I am happy to have the vote on this amendment stacked with the Inhofe amendment at whatever time that will occur.

With regard to the second amendment, which I am going to propose, I am not at liberty to do that right now because there are numerous people who wish to speak. I assure the chairman that as soon as I have that list and know how much time it is, I will let him know that.

Mr. BINGAMAN. I appreciate the response.

I yield the floor.

Mr. BAUCUS. Mr. President, I yield to the Senator from Arkansas 5 minutes.

The PRESIDING OFFICER. The Senator from Arkansas.

Mrs. LINCOLN. Mr. President, I start first by thanking both the chairman and ranking member and their staff for some incredibly hard work to get this legislation ready to come to the floor. It was absolutely no small feat, but it is so very important that we bring this portion of our objective in leading our Nation away from dependence on foreign oil and back to our ability to provide for ourselves.

This energy tax package that Chairman BAUCUS and Senator GRASSLEY have brought together is remarkable—remarkable in its balance, it is remarkable in the engine it provides to drive the incentives industry needs to move us toward renewable fuels.

I wish to say how much I appreciate their effort. Throughout the history of our Nation, we have faced great technological challenges that we have confronted and overcome. We didn't put a man on the Moon by talking about how important it was. We developed a plan, and we committed the resources necessary to achieve that plan. We are at that juncture now in this country in regard to renewable fuels and our dependence on foreign oil. I applaud their efforts in what they have done and accomplished.

I also wish to point out, in terms of what the Senator from Arizona has brought up, he mentioned this is not a new product. I venture to say how many people have heard of diesel made from animal fat, particularly chicken fat? This is a new product. It is a product that produces a renewable diesel that is very clean burning and very positive for our environment and the overall objective of what we are trying to reach in this underlying bill and that is reducing our CO_2 emissions, reducing what is going into the environment, and reducing our dependence on foreign oil.

The Senator from Arizona mentions the original intent. The original intent was to promote renewable diesel. In fact, the renewable diesel credit is drafted as technology neutral, regardless of the state of the art or process at the time of enactment. The EPAct statute simply provides that renewable diesel fuel, in order to qualify for the credit, must be produced using a thermal depolymerization process. We have the history on that process. We know what the intent and the purpose of EPAct was and is, and we meet that intent. We meet that intent with the encouragement of making sure we are

looking at all the renewable feedstocks in this country to put into the mix to lessen our dependence on petroleum products and to create variety in what it is we go to.

I know there are some in this body on both sides who think maybe this is an opportunity to get even with big oil. That is not the intent of this bill, and I hope we would not stray to that. I hope we would not stray to the idea that we are here to get even with big oil but that we are here to encourage those in the oil industry to move into renewable fuels, to move into the opportunities that exist in technology, to push them into an area where renewables make sense.

Senator KYL's amendment does not solve the problem he raises regarding the increase in the price of fat. The credit that Senator KYL seeks to strike is for a process that is in the very early stages of production. This process has not even been produced in terms of barrels of fuel in this country. So it is difficult to see how it could have had the profound effect on the prices that Senator KYL claims it has.

The fact is, the price of fat has been driven up in part due to its use in the production of biodiesel. Senator KYL said in our hearing yesterday that if he could, he would try to remove all credits he believes might distort existing markets.

If we think we are going to move ourselves as a nation and as a people, with the culture and the amenities to which we have become accustomed, to a society that depends on renewable fuels without making at least some minor changes in the marketplaces of our existing feedstocks, we might as well pack it up and go home right now.

If we are going to eliminate all the credits and all the opportunities that exist to go to renewable fuels, and we are going to eliminate them because of some blip they may cause momentarily before we begin to move into the decade where we can balance our needs for renewable feeds with other items, we might as well go home because that is going to happen.

What we have done is crafted in this bill a very sensible solution. Senator KYL mentions the stand-alone renewable diesel facilities need to be protected, they need to be maintained. They are. They have no cap whatsoever in this bill, just as there is no cap on biodiesel. But where we have facilities that are taking the steps in the right direction to coproduce, they are going to get a credit. They are going to get a credit up to the amount where they meet what the small producers are doing, a 60-million-gallon-per-facility cap. It is very reasonable, and it certainly speaks to the efforts of what we are trying to do in this underlying bill.

Today's amendment may only affect renewable diesel, but it is entirely possible that next year the target will be biodiesel or ethanol or cellulosic ethanol, if what he wants to do is eliminate credits that protect those underlying feedstocks.

While it may be good intention for something that is parochial for the Senator from Arizona, I say let us all remember what the ultimate objective of this bill is: to lessen our dependence on foreign oil, clean our environment, and make sure that we are moving to renewables. That is exactly what the underlying bill does.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, how much time remains?

The PRESIDING OFFICER. The Senator from Montana has no time remaining.

Mr. BINGAMAN. Mr. President, I see no Senators on either side, so I will propound a unanimous consent request.

I ask unanimous consent that Senator ALEXANDER be recognized for 10 minutes, to be followed by 10 minutes for Senator KLOBUCHAR, and following that, the pending amendments be set aside so I may offer amendment No. 1693 and that Senator INHOFE can then offer his first-degree amendment No. 1666; that the two amendments be debated concurrently for 1 hour, to be equally divided between Senator INHOFE and myself; that at the conclusion or yielding back of time, the Senate vote in relation to amendment No. 1693, to be followed by 2 minutes for debate and a vote in relation to amendment No. 1666; that no amendments be in order to either amendment prior to the votes in relation to the amendments; and that upon the disposition of the Inhofe amendment, the Senate vote in relation to the Kyl amendment No. 1800, with 2 minutes of debate prior to the vote.

The PRESIDING OFFICER. Is there objection?

Mr. DOMENICI. We have no objections. We have worked together to arrive at this schedule.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Tennessee.

Mr. ALEXANDER. I thank the Senator from New Mexico for the courtesy of the next 10 minutes, and I would ask the Chair to let me know when 1 minute remains.

Mr. President, I compliment both Senators from New Mexico for their work on energy. As they did 2 years ago, they have made some important proposals. The 2005 bill was a terrific step forward, and there are some important suggestions in this bill. I want to especially say a few words about the tax part of the bill that came out today, and I will have more to say about that tomorrow and amendments to offer.

It is probably not the first time it has been said of the Senate that there is too much wind here, but I would like to suggest there is too much of that in the tax bill that has been reported to the Senate. Here is the tax bill. As I read the figures: $28.5 billion more over the next 10 years, $10 billion of it for wind. Almost all of it is for subsidies to wind developers. 34 percent of the bill's total goes toward this tax credit.

This isn't the first time the Senate has been generous to wind. In the 2005 bill it was 19 percent. Why would I say that is a little too much wind? It is because in many parts of the country the wind doesn't blow sufficiently for us to rely on it for electricity.

We have had some debate about Senator BINGAMAN's proposal, which might work very well in New Mexico or some other States to say that 15 percent of the electricity ought to be from renewable energy, mostly wind under this definition.

This map of the United States shows that much of the wind in the Southeast and Eastern United States doesn't blow enough for that to happen there. So under that proposal, the one we were debating earlier, called the renewable portfolio standard, I am afraid Tennesseans would have to pay basically a tax of 2 cents per kilowatt-hour, which would be $410 million a year.

We have one wind farm in the entire Southeast, and it is in Tennessee on Buffalo Mountain. Last August, while we were all sweating and perspiring with our fans on the front porch, the wind farm operated for 7 percent of the time. Most of us want our air conditioners when it's hot—not just when the wind blows enough to make electricity.

We are not the only ones who are beginning to see the limits of wind. Yesterday, the President of Pacific Gas and Electric in California, which likes wind power and is using wind power, said, according to California Energy Markets, that they will not make substantial new investments in wind generation, and ''we think we are approaching in California itself the limit on wind.''

So why then if we are going to spend $28 billion for energy sufficiency—that would mean reliable, clean electricity for the country in the world that uses 25 percent of all the energy in the world—why then would we develop a national wind turbine policy instead of a national energy policy? Isn't $10 billion more—which would make our total investment over the next 10 years more than $2 billion a year for wind turbines—isn't that too much wind?

I am not even talking so much about the fact of what these look like. I think I have said many times on this floor that in Tennessee I don't like the fact that these only work, when they work, on our most scenic ridgetops. We would prefer not to have them. That is not the case with everybody, I understand that. But it is important for people to know these aren't your grandmother's windmills.

These are twice as tall as the sky boxes at the football stadium, and the rotor blades go from the 10-yard line to the 10-yard line. So there are limits as to where they should go.

Across the country, even when performing well, they only work a third of the time. They often blow at the wrong time—at night, when people are asleep and not using so much electricity. And you can't store the wind. Basically, a utility makes a big investment, paying somebody $20 million—in the TVA Buffalo Mountain case $60 million for 20 years—to buy wind, whenever it comes, and if it comes at night when the lights are off, tough, they just lose it. If it comes 7 percent of the time in August, when everybody's air conditioners are up, it doesn't help very much. Of course, even if you had it, you still need nuclear or coal or something else because most people want their computers and their electricity on when they want them on.

As I mentioned, it is very difficult to store. It only uses about 1 percent of our current electricity needs. It does little to clean the air because we already have caps on sulfur and nitrogen, which I would like to accelerate, and it means lots of new power lines. So we have a 400-percent increase in wind capacity that would produce no change in emissions of nitrogen, no change in sulfur, and very little in carbon.

My point is, I believe there are better ways to spend that $10 billion of the $28 billion we propose to spend over the next 10 years, better ways to spend one-third of all this money than on a national wind policy, since it doesn't work very well, it is not very reliable, and much of the country can't use it at all.

For example, take fluorescent lighting. I know Senators BINGAMAN and DOMENICI have talked about this, but if we spent $2 billion a year just in tax credits for fluorescent lighting, we could save enough energy to equal eight 1,000-megawatt nuclear reactors, or 18,000 1.8-megawatt wind turbines.

Let's take another idea. What if we took the $2 billion a year and gave a credit for appliances, such as dishwashers, washing machines, and refrigerators. There is such a credit in the tax bill, and that is good. It costs about $100 million a year to encourage that. Why don't we extend that to 10 years? That would be $1 billion of the $10 billion we are spending on wind. It would save more electricity than we would get building wind.

We talk about not just carbon but clean air. I know Vermont wants clean air. We want clean air in the mountains in Tennessee. For $2 billion a year we could buy six new scrubbers a year at $300 million a scrubber. A scrubber takes the sulfur out of the air that contributes to the unhealthy aspects and to the soot and to the smog that is unhealthy for people and interferes with our view of the mountains.

Or take utility bills. The average utility bill for Tennesseans is $100 a month. This is $2 billion a year. We could just give the money to Tennesseans, 1.7 million households, for a full year. One month's electric bill for 20 million households, that is what we could do for $2 billion.

If we were a little more creative, we might go to the metering that some utilities are now putting in homes and say: If your electric bill is $100, and you reduce your use of electricity by $20, we will match it by $20 and we will collect all that information in the utility. And as a result, you will get a $60 bill instead of a $100 bill each month—instead of investing in more wind.

Or you could use that money for clean coal power plants. The 2005 bill that Senator BINGAMAN and Senator DOMENICI worked on had a number of initiatives for nuclear, clean coal, IGCC, and a number of things that are underfunded. We don't have enough money for them. Well, if we don't have the money for those things—which we decided by consensus in 2005 was the best way to create clean reliable electricity for a country that uses 25 percent of all the energy in the world—if we didn't have the money in 2005, why don't we take this $28 billion over the next 10 years, or at least some of this $10 billion for wind, and put it in clean coal or these other areas?

The PRESIDING OFFICER. One minute remains.

Mr. ALEXANDER. I thank the Chair.

Mr. President, I wanted the Senate to know that of the $28 billion, one-third of it goes to wind turbines. We have a national wind policy instead of a national energy policy.

We will be spending $2 billion a year on wind subsidies. And there are many other wind subsidies in the Federal Government. You get bonds to build them, you get accelerated depreciation, and then there are the State subsidies. So I am suggesting there is too much wind, and a wiser use of at least half that $10 billion would be for conservation, efficiency, scrubbers, and other forms of energy that are reflected in the 2005 Energy bill.

I thank the Chair and the Senator from New Mexico for the time.

Mr. DOMENICI. Mr. President, I ask unanimous consent the Senate grant me 1 minute at this point to make a statement and ask the Senator a question.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Senator, first of all, I listened. Some people might say the Senator from New Mexico shouldn't listen again because I have listened now at least twice to you on this subject matter.

To tell you the truth, your analysis of the situation becomes more relevant every single month that passes in the Congress because today we are about to decide what to do with $30 billion, more or less; that we are going to levy a tax; and you have come before us and told us what you might do.

I might say, as chairman of the Energy Committee, I don't serve on the Finance Committee. That is the breaks of the way things are done in the Senate. I am not complaining, but I can guarantee you and the Senate that I, as one Senator, and as chairman of the Energy Committee a year and a half ago—not now—I would never have voted to put that much money in wind and so little in other technologies and breakthrough science items.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. DOMENICI. I yield the floor.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, I ask unanimous consent to have printed in the RECORD a statement from the Joint Tax Committee which does an estimate of the amount of the new tax package that would go to wind.

The estimate for a 5-year extension of section 45 credit is $10,292 million, and the amount attributed to wind is $7,846, in their estimation. The rest would be used for biomass and geothermal and other energy sources.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CONGRESS OF THE UNITED STATES,
JOINT COMMITTEE ON TAXATION,
Washington, DC.

Hon. JEFF BINGAMAN,
U.S. Senate.

FISCAL YEARS
[millions of dollars]

Item	2007	2008	2009	2010	2011	2012	2007–12	2007–17
5-year extension of section 45 credit			−75	−294	−610	−949	−1,929	−10,292
Amount attributable to wind			−52	−199	−419	−679	−1,350	−7,846
8-year extension of section 45 credit			−75	−294	−610	−949	−1,929	−13,110
Amount attributable to wind			−52	−199	−419	−679	−1,350	−10,122
5-year extension of section 48 credit			−83	−129	−107	−116	−434	−655

Note: Details may not add to totals due to rounding.

I hope this information is helpful to you. If we can be of further assistance in this matter, please let me know.

Sincerely,

THOMAS A. BARTHOLD,
Acting Chief of Staff.

Mr. BINGAMAN. Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota.

AMENDMENT NO. 1557

Ms. KLOBUCHAR. Mr. President, I am here once again to address my amendment for a national greenhouse gas registry. As you know, this is an amendment that I am cosponsoring with Senator SNOWE and two other Republicans, as well as Senator BINGAMAN.

This is an idea whose time has come. This is an amendment that doesn't actually say what the policy will be with regard to greenhouse gases. It simply requires that on a national basis we collect accurate information so we can make smart policy decisions.

I am sorry to say the other side has not yet agreed to vote on this amendment. It is looking a little bleak as time ticks on, but I am still here. It puzzles me because the senior Senator from Oklahoma, in a trade magazine—Environment and Energy Daily—was recently quoted in a short interview, after repeatedly calling global warming a hoax, as saying that he predicted this measure, this bill, would probably be adopted, if offered. And I think that may be accurate.

We know a number of Republicans are interested in this bill. We have worked very hard and we think it is important. That is why it is very distressing to me that we are not even going to be allowed to have a vote on this.

It is distressing because one of the reasons Senator SNOWE and I came up with this amendment is because we did hear what we considered something of an outcry from businesses across this country. As you know, 31 States have come up with plans involving greenhouse gas emissions and climate change, and they are actually starting their own registry out of complete and utter frustration with the Federal Government. It is absurd to think a majority of States is having to put together a greenhouse gas registry because our national Government is so complacent. Back in January we had a number of these companies that gathered together and came to us and said we want action on climate change. We want to get this registry going. We want to have it done by the end of the year.

I have been here long enough to know we are not going to get it done by the end of the year unless we vote on it now.

I want to mention some of the companies that expressed interest in this: Alcan Inc., Alcoa, American International Group, Inc.—that is, AIG—Boston Scientific Corporation, BP America Inc., Caterpillar Inc., ConocoPhillips, Deere & Company, the Dow Chemical Company, Duke Energy, DuPont, Environmental Defense, FPL Group, Inc., General Electric, General Motors Corp., Johnson & Johnson, Marsh, Inc. PepsiCo, Pew Center on Global Climate Change, PG&E Corporation, PNM Resources, Shell, Siemens Corporation. They all said they wanted us to get something done on climate change.

You can imagine my surprise when we found out that in fact the U.S. Chamber of Commerce opposed this bill. They never talked to me about it; they just sent out a letter. In fact, they threatened this could be one of the key votes for the chamber this year, depending on how people voted on this little bill that simply asks that accurate data be collected and be able to be posted on a Web site as they do in Canada and other places. But they said it might be a key vote, right up there with the estate tax last year and some of the other votes that were national issues.

There have been a lot of things said about this bill. The senior Senator from Oklahoma actually sent out a letter about it. He talked about how it would apply to virtually every business in America in this letter.

The simple truth is we wrote this amendment with business in mind because we had the impression, from what we had heard, that business wants to work with us on this important issue of climate change. The amendment contains explicit provisions excluding companies for which reporting was excessively burdensome or expensive. The new registry only covers major emitting facilities and major sources of fossil fuels. Utilities already reporting under the Clean Air Act would not have to report their data twice.

For facilities facing costs and purchasing advanced monitoring equipment, the EPA would accept basic information on the amount and type of fossil fuels they consume, which is collected by businesses for general accounting purposes. Section 165(b)(10)(c) of my amendment specifies that confidential business information will not be published under the National Greenhouse Gas Registry.

The legislation also has an exception for small businesses, the exception as defined by the Small Business Administration—businesses that generate fewer than 10,000 metric tons of greenhouse gas emissions. And 10,000 metric tons is not an arbitrary number. The American Chemical Society released a report in 2003 which talked about this as a threshold, 10,000 metric tons, a threshold which

. . . effectively relieves the agriculture and commercial building sectors from reporting, substantially reduces the number of manufacturing facilities that would report while continuing to capture 80 percent of emissions.

Clearly this is not true.

We also know the current status. We have some businesses, major emitters, reporting to the Department of Energy. Some report to the EPA. Some report every 3 years. Some report every week. Some report every year. This is not the kind of information we expect to have in order to make policy decisions on climate change.

In his letter, the senior Senator from Oklahoma also said organizations such as the Sierra Club or the Natural Resources Defense Council would be put in charge of third-party verification and have access to confidential business information. This is so inaccurate I do not even know where to begin. Under my amendment, the EPA Administrator may ensure that reports are certified by a third-party entity, but as with the California Climate Registry, third-party verifiers will have to be verified themselves as experienced firms in providing greenhouse gas emission certifications. These are engineering firms; they are not political interest groups.

Finally, they claim this amendment did not go through the committee process. That interests me because a little over 5 years ago, Senator BROWNBACK, the Republican Senator, along with then-Senator Corzine of New Jersey, passed an amendment in this Chamber creating a greenhouse gas registry. This registry would have been voluntary, but after 5 years, if the registry contained less than 60 percent of the total greenhouse gas emissions in the U.S.—that is clearly where it is now—mandatory reporting would have been triggered. Sadly, the bill didn't get ultimately through this Congress. But the point is, this Chamber has already voted on this.

Here is a simple truth. This amendment seeks to create common standards for measuring, tracking, verifying, and reporting greenhouse gas emissions by major industries. It requires the Environmental Protection Agency—not exactly an engine of radical reform at this moment—to consider cost and coordinate with existing Federal and State programs to implement this registry.

This is an opportunity that the Senate should be willing to put its head up and vote for. It is an opportunity to at least get the accurate data so we can start talking about climate change reform.

I never knew I would end up here in the Senate. I grew up in a middle-class family. My grandpa was a miner and a logger. My dad was a journalist. My mom was an elementary schoolteacher. I worked jobs all my life—as a pie cutter. I worked as a car hop. I worked as a secretary. I went to public high

school. I got a law degree. I went to a law firm, and I ended up being privileged to be the district attorney for the largest county in Minnesota. When Senator Dayton decided he wasn't going to run again for the Senate, I ran for the Senate.

It has been my belief throughout my life that you can get things done if you have right on your side, and if you are able to work with other people, you can get things done and you can change things. It started in the fourth grade when I was the first girl to wear bell-bottom pants, the first girl to wear pants in my public elementary school. I was kicked out by Mrs. Quady, the principal, but I came back the next day and within a year the girls were allowed to wear pants.

In high school they said we couldn't raise enough money to have our high school prom, and we sold Life Saver lollipops and we got it done. In DA, we had troubled crime in a lot of our neighborhoods and we reached out to these neighbors and organized, and they did a lot of good work and we had some amazing examples of individual citizens getting things done on the front end.

Now we are here. We have a major challenge confronting us. That is a challenge of climate change. There are people out there waiting for us to do something about it. There is a scientist out there right now seeing how the sea level is going up. There is another scientist who measures the temperatures and sees how, since the ice age, we have only had a 5-degree increase in temperature and just the last century we have seen a 1-degree increase, with the EPA estimating a 3-degree increase in the next hundred years. There are little kids out there wearing ''Save the Penguins'' buttons right now. There is a hunter in Hinckley, MN, who sees changes in the wetlands. He is waiting for us to act. There is a ski resort on up in Grand Marais, MN, that had 30 percent less profits in this last year because of the decrease in snow. He is waiting for us to act.

That is why I ask my colleagues on the other side of the aisle to allow this important amendment to be heard. It doesn't dictate what the policy will be. It simply asks that we collect accurate information.

I am an optimist. The seat I hold was once held by Hubert Humphrey. At the end of his life, he said the words that are on his grave:

People consider me sentimental but to the end I remain an optimist. I remain an optimist with joy and without apology about this great American experiment in Democracy.

I remain an optimist too. I remain an optimist because I have seen the great work the Senator from New Mexico and others have done in this energy bill, and I believe more can be done. I remain an optimist that this bill will ultimately pass. If not today, this amendment will ultimately pass on another bill.

I yield the floor.

The PRESIDING OFFICER (Mrs. MCCASKILL). The Senator from New Mexico.

Mr. BINGAMAN. For the information of Senators, we have now an hour equally divided, half of it under the control of Senator INHOFE and half of it under my control. It is for two purposes. It is to debate amendment No. 1693, which I have submitted, and also to debate amendment No. 1666, which Senator INHOFE has submitted.

Why don't I take 5 minutes at this point.

AMENDMENT NO. 1693 TO AMENDMENT NO. 1502

Let me call up amendment No. 1693.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from New Mexico [Mr. BINGAMAN], for himself, Mrs. BOXER and Mr. REID, proposes an amendment numbered 1693 to amendment No. 1502.

Mr. BINGAMAN. I ask unanimous consent the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To ensure that the renewable fuel standard does not harm the environment)

On page 59, after line 21, insert the following:

Subtitle D—Environmental Safeguards

SEC. 161. GRANTS FOR PRODUCTION OF ADVANCED BIOFUELS.

(a) IN GENERAL.—The Secretary shall establish a grant program to encourage the production of advanced biofuels.

(b) REQUIREMENTS AND PRIORITY.—In making grants under this section, the Secretary—

(1) shall make awards to the proposals for advanced biofuels with the greatest reduction in lifecycle greenhouse gas emissions compared to the comparable motor vehicle fuel lifecycle emissions during calendar year 2007; and

(2) shall not make an award to a project that does not achieve at least a 50-percent reduction in such lifecycle greenhouse gas emissions.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $500,000,000 for the period of fiscal years 2008 through 2015.

SEC. 162. STUDIES OF EFFECTS OF RENEWABLE FUEL USE.

Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended by adding at the end the following:

''(t) STUDIES OF EFFECTS OF RENEWABLE FUEL USE.—

''(1) IN GENERAL.—Not later than 1 year after the date of enactment of this subsection, the Administrator shall offer to enter into appropriate arrangements with the National Academy of Sciences and any other independent research institute determined to be appropriate by the Administrator, in consultation with appropriate Federal agencies, to conduct 2 studies on the effects of increased domestic use of renewable fuels under the Renewable Fuels, Consumer Protection, and Energy Efficiency Act of 2007.

''(2) MATTERS TO BE STUDIED.—

''(A) IN GENERAL.—The studies under this subsection shall assess, quantify, and recommend analytical methodologies in relation to environmental changes associated with the increased domestic use of renewable fuels under the Renewable Fuels, Consumer Protection, and Energy Efficiency Act of 2007, including production, handling, transportation, and use of the fuels.

''(B) SPECIFIC MATTERS.—The studies shall include an assessment and quantification, to the maximum extent practicable, of significant changes—

''(i) in air and water quality and the quality of other natural resources;

''(ii) in land use patterns;

''(iii) in the rate of deforestation in the United States and globally;

''(iv) to greenhouse gas emissions;

''(v) to significant geographic areas and habitats with high biodiversity values (including species richness, the presence of species that are exclusively native to a place, or the presence of endangered species); or

''(vi) in the long-term capacity of the United States to produce biomass feedstocks.

''(C) BASELINE COMPARISON.—In making an assessment or quantifying effects of increased use of renewable fuels, the studies shall use an appropriate baseline involving increased use of the conventional transportation fuels, if displacement by use of renewable fuels had not occurred.

''(3) REPORTS TO CONGRESS.—The Administrator shall submit to Congress a report summarizing the assessments and findings of—

''(A) the first study, along with any recommendations by the Administrator to mitigate adverse effects identified by the study, not later than 3 years after the date of enactment of this subsection; and

''(B) the second study, along with any recommendations by the Administrator to mitigate adverse effects identified by the study, not later December 31, 2015.''.

SEC. 163. INTEGRATED CONSIDERATION OF WATER QUALITY IN DETERMINATIONS ON FUELS AND FUEL ADDITIVES.

Section 211(c)(1) of the Clean Air Act (42 U.S.C. 7545(c)(1)) is amended—

(1) by striking ''nonroad vehicle (A) if in the judgment of the Administrator'' and inserting ''nonroad vehicle—

''(A) if, in the judgment of the Administrator, any fuel or fuel additive or'';

(2) in subparagraph (A), by striking ''air pollution which'' and inserting ''air pollution or water pollution (including any degradation in the quality of groundwater) that''; and

(3) by striking '', or (B) if'' and inserting the following: ''; or

''(B) if''.

SEC. 164. ANTI-BACKSLIDING.

Section 211 of the Clean Air Act (42 U.S.C. 7545) (as amended by section 162) is amended by adding at the end the following:

''(u) PREVENTION OF AIR QUALITY DETERIORATION.—

''(1) STUDY.—

''(A) IN GENERAL.—Not later than 18 months after the date of enactment of the Renewable Fuels, Consumer Protection, and Energy Efficiency Act of 2007, the Administrator shall complete a study to determine whether the renewable fuel volumes required by that Act will adversely impact air quality as a result of changes in vehicle and engine emissions of air pollutants regulated under this Act.

''(B) CONSIDERATIONS.—The study shall include consideration of—

''(i) different blend levels, types of renewable fuels, and available vehicle technologies; and

''(ii) appropriate national, regional, and local air quality control measures.

''(2) REGULATIONS.—Not later than 3 years after the date of enactment of the Renewable Fuels, Consumer Protection, and Energy Efficiency Act of 2007, the Administrator shall—

''(A) promulgate regulations to implement appropriate measures to mitigate, to the greatest extent achievable, considering the results of the study under paragraph (1), any adverse impacts on air quality, as the result of the renewable volumes required by that Act; or

''(B) make a determination that no such measures are necessary.

''(3) OTHER REQUIREMENTS.—Nothing in title I of the Renewable Fuels, Consumer Protection, and Energy Efficiency Act of 2007 supercedes or otherwise affects any Federal or State requirement under any other provision of law that is more stringent than any requirement of this title.''.

Mr. BINGAMAN. Madam President, let me take up to 5 minutes to speak on amendment No. 1693 and then yield to my colleague Senator BOXER 10 minutes for her to speak on that same amendment.

This amendment addresses a number of important environmental issues associated with renewable fuels. It contains four sections. The first section makes an authorization for grants to encourage production of advanced biofuels with the most favorable greenhouse gas emission characteristics.

The second section provides for a study by EPA of potential issues that may arise as a result of increases in the renewable fuels standard. That study will result in two reports to Congress, one in 2010, the other in 2015.

The third part of the amendment allows the EPA to consider groundwater impacts when regulating fuel additives under the Clean Air Act. One of the reasons we had a problem with MTBE as a fuel additive was that we looked at it in a one-dimensional way. This section of our amendment will allow a full look at all relevant impacts of fuel additives going forward.

The final part of the amendment is a provision commonly known as antibacksliding. It basically allows EPA to address air quality issues that might arise as a result of the increased volumes of renewable fuel mandated by the Energy bill. These changes have been developed by Senator BOXER and her staff, and myself and my staff, in a collaborative manner. I thank her and her staff for the good work they did on these provisions.

I also acknowledge the assistance and support we have received on this amendment from the Renewable Fuels Association.

This is a consensus amendment on the part of those with interests in enhancing our energy security through increased use of renewable fuels in an environmentally responsible way.

I urge my colleagues to support this amendment.

I will now yield to the Senator from California for her comments on this, and I will yield her up to 10 minutes, and I will then speak in opposition to the amendment by the Senator from Oklahoma.

The PRESIDING OFFICER. The Senator from California is recognized.

Mrs. BOXER. Madam President, thank you so much.

I thank Senator BINGAMAN very much for this amendment we have worked very hard on for days now. I am delighted we are able to offer it.

I see my ranking member is here because he has an amendment that in concept—I am going to look at the details—in concept makes a lot of sense. In terms of this amendment, I hope I will be able to support it because what we are trying to make sure of is that in the new fuels program, this bill, we do not lose any ground in terms of the Clean Air Act so we still are able to give EPA important authority under the Clean Air Act to mitigate any adverse air quality impacts that might result from the increased use of renewable fuels.

What we learned when we dealt with MTBE, which was an additive in gasoline, was we were not prepared for any adverse impacts from MTBE. We thought it was going to be the answer. As you know, MTBE permeated the water supplies in many States. We thought it was going to clean up the air and, guess what, it did. But it created havoc with our water quality.

We want to make sure—we worked hard on this—that in this new fuels program, we do not backslide and that we are able to have all the protections we need. So at first, we fixed the water problem and now this is fixing the air quality problem.

What we do is, we give EPA authority under the Clean Air Act to consider impact on water quality when regulating fuel. Such authority, as I say, will prevent future MTBE situations. We require EPA to contract with the National Academy of Sciences to conduct a comprehensive study of the environmental impact of increasing use of renewable fuels.

The study will analyze impacts of renewable fuels on air quality, water quality, land-use patterns, deforestation rates, greenhouse gas emissions, ecologically important areas, and the long-term ability to produce biomass feedstocks.

Now, I wanted to say to my ranking member, Senator INHOFE, if I can have his attention, that I know what he is trying to do in his amendment in many ways parallels this. We, in this amendment, make sure that EPA can look at the long-term to produce biomass feedstock because that is a very important point.

I think the Senator and I both care about this. I think the Senator and I both care that the EPA is not going to lose jurisdiction over this new fuels program.

The amendment to me is also exciting because it includes a grant program for biofuels that achieve at least a 50-percent reduction of lifecycle emissions of greenhouse gases. So what we are saying is, we want innovation, and we are saying we will start a grant program so we get that technology that we all know is going to, in fact, step up and meet the challenge of global warming.

There are so many ways we can meet the challenges of reducing our carbon footprint. One way is to have fuels that have a 50-percent better carbon footprint. This amendment ensures that EPA will play a critical role in protecting our environment from any adverse environmental impact that may be realized from an increase in the production and use of renewable fuels.

So it is pretty simple. The Senator from New Mexico and I have been in very close contact over these last several days. I have been helping him to manage this bill, although I have to say, he is very competent at doing it himself.

But I have given him my advice and my help and the help of my good staff. We did have a worry at the very beginning that we did not want to live to see another MTBE problem, that is, unintended consequences of a new fuels program and unintended consequence. So how we would protect against is to be very vigilant, and we are very vigilant.

We say to the EPA: Make sure that whatever these fuels are, they are real good for our people, good for our air, good for our water, good for our land use, and also our long-term ability to produce biomass feedstocks.

Again, we go a step further we set up a grant program for new fuels, biofuels that achieve at least a 50-percent reduction in the lifecycle emissions of greenhouse gases. This particular program is authorized at $500 million. Of course, it is subject to appropriations. I do not have the need to speak any longer on this amendment. I would retain the balance of my time Senator BINGAMAN gave me.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma.

AMENDMENT NO. 1666 TO AMENDMENT NO. 1502

Mr. INHOFE. Mr. President, it is my understanding that the unanimous consent request was for the two amendments to be side by side.

At this point, I call up amendment 1666 and ask for its immediate consideration.

The PRESIDING OFFICER (Mr. OBAMA). The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. INHOFE], for himself, Mr. BURR, and Mrs. DOLE, proposes an amendment numbered 1666 to amendment No. 1502.

Mr. INHOFE. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To ensure agricultural equity with respect to the renewable fuels standard)

At the end of subtitle A of title I, add the following:

SEC. 113. AGRICULTURE EQUITY.

(a) ASSESSMENT OF FOOD AND FEED AVAILABILITY.—

(1) IN GENERAL.—The Administrator of the Environmental Protection Agency (referred to in this section as the ''Administrator'') shall conduct an assessment of the availability of corn for food and feed uses by not later than July 31 and November 30 of each calendar year after the date of enactment of this Act.

(2) REGIONAL WEATHER CONDITIONS.—

(A) IN GENERAL.—Not later than August 1, 2007, and annually thereafter, the Administrator, in consultation with the Secretary of Agriculture, the Secretary of Commerce, and the Association of American Feed Control Officials, shall submit to Congress, and publish in the Federal Register, an assessment of the Administrator regarding—

(i) regional weather conditions during the current crop year; and

(ii) the impact of the conditions on projected local corn supplies.

(B) FACTORS FOR CONSIDERATION.—In conducting the assessment under subparagraph (A), the Administrator shall take into consideration, as applicable—

(i) the impacts of drought, including reduced precipitation;

(ii) the impacts of flooding, including increased precipitation; and

(iii) projected local demand for corn during the following crop year.

(3) ESTIMATES.—

(A) IN GENERAL.—Not later than December 1, 2007, and annually thereafter, the Administrator shall conduct an assessment of the most current estimates of the ratio that, with respect to the marketing year beginning in September of the calendar year in which the assessment is conducted—

(i) United States domestic ending stocks of corn; bears to

(ii) total use of corn.

(B) FACTORS FOR CONSIDERATION.—In conducting the assessment under subparagraph (A), the Administrator shall take into consideration, and rely on, the data published by the Secretary of Agriculture in the monthly report entitled ''World Agricultural Supply and Demand Estimates'' (or similar public and authoritative estimates provided by the Secretary of Agriculture).

(b) POTENTIAL ECONOMIC AND CONSUMER HARM ASSESSMENT.—

(1) REGIONAL WEATHER CONDITIONS.—If the Administrator determines that an assessment of the Administrator under subsection (a)(2) indicates that there is a reasonable likelihood that the ratio described in subsection (a)(3)(A) will be equal to or less than 0.10, the Administrator shall publish the determination in the Federal Register by not later than 14 days after the date on which the determination is made.

(2) ESTIMATES.—If the Administrator determines that an assessment of the Administrator under subsection (a)(3) indicates that there is a reasonable likelihood that the ratio described in subsection (a)(3)(A) will be equal to or less than 0.10, the Administrator, in consultation with the Secretary and the Secretary of Agriculture, shall publish, by not later than 14 days after the date on which the determination is made, the intention of the Administrator to request the President to modify a portion of the requirement described in section 111(a)(2).

(3) REGIONAL DISRUPTION.—If the Administrator determines that an assessment of the Administrator under subsection (a)(2) indicates that a regional disruption to the availability of feed corn with respect to livestock producers will occur, the Administrator, in consultation with the Secretary of Agriculture, shall develop and implement a plan to ensure that regional food and feed supplies are maintained, to the maximum extent practicable, including through adjustments to the applicable renewable fuels standard under section 111(a) in the affected region.

(c) ACTIONS TO PREVENT ECONOMIC AND CONSUMER HARM.—

(1) IN GENERAL.—Subject to paragraph (2), the Administrator may submit to the President a petition to request a modification of a requirement under the renewable fuels standard under section 111(a) in a quantity of gallons sufficient to ensure, to the maximum extent practicable, that the ratio described in subsection (a)(3)(A) will be at least 0.10.

(2) LIMITATION.—A requirement under the renewable fuels standard under section 111(a) shall not be reduced by more than 15 percent during any calendar year.

(3) EFFECTIVE PERIOD.—A modification under paragraph (1) shall be effective during the 1-year period beginning on the effective date of the modification.

(d) PUBLIC PARTICIPATION.—

(1) IN GENERAL.—The Administrator shall—

(A) make each assessment conducted, and each modification provided, pursuant to this section available to the public; and

(B) provide an opportunity for public comment relating to each assessment and modification for a period of not more than 30 days.

(2) MODIFICATIONS.—Not later than 14 days after the end of the comment period described in paragraph (1)(B), the President shall promulgate the modification that is the subject to the comment period, unless the President, in consultation with the Administrator, determines that clear and compelling evidence demonstrates that the modification would not have a material effect on the quantity of corn available for food and feed use.

Mr. INHOFE. Mr. President, let me first respond to something the chairman of the committee, Senator BOXER, had stated. I believe I agree that our committee should have the jurisdiction. I do agree with her.

There are some other things. In fact, there is an easier way to do it, I would suggest to my chairman. That would be to strike the portion in the bill, the underlying bill, that talks about the President or the administration and merely put in the EPA. If you do that, then, of course, you correct the jurisdictional problems. It is another way of doing it.

My concern is that your amendment does get into some areas I do not find I get quite as excited about as the chairman does, such as having us study land-use patterns, which I do not think is as appropriate for the Federal Government to do as State and local government.

We had this debate in the past. But I would say I would like to accomplish some of the things that the chairman has tried to accomplish with her amendments.

Mrs. BOXER. May I ask my friend to yield. It can come off my time.

Mr. INHOFE. No, it can come off mine.

Mrs. BOXER. Thank you so much. Let me say to my ranking member I agree with him. We tried that approach. We were not able to gain ground. So I am with you. But we were not able to do it in our negotiation with the Energy Committee. So we went as far as we could go, and I think we have made tremendous progress.

Again, it was give and take and it was tough and your staff was very helpful as they were helping us get the best we could get. But I think after this amendment, we can foresee a future where any President—this one said he would not do it, but a future President could take the whole fuels program and eliminate EPA. So I would hope my friend would join me in this.

The other part, we are asking for reports from the EPA, we are not giving them authority over these issues. We are going to get information from them. That information we can share with local and State.

So I know my friend is going to give it some real hard thought, as I am about his amendment. But perhaps we can wind up supporting each other's amendments. But we will see where we go from here. But I say to my friend, he is absolutely right, striking the offending language would have been great for me, but we were not able to achieve that with the Energy Committee.

Mr. INHOFE. I appreciate the comments of the chairman. I recognize her concern with MTBE contamination. I understand that. But getting the Administrator authority to use the Clean Air Act to regulate water quality is something I would have to think about a little bit.

Let me go back and talk a little bit about the amendment we are running concurrently with the other amendments. This is amendment 1666. We have a lot of cosponsors to this. I would invite more to come down. I think people would see this is a very rational way to address one of the problems with the mandates that come with this bill.

We seek to ensure the bill does not pick winners and losers in domestic agriculture. Although high corn prices might be good for corn farmers, it is harmful for livestock and poultry industries.

Now, in my State of Oklahoma, I don't have a dog in this fight, or I guess I could say I have all the dogs in this fight, because we are a corn State, we are a very large livestock State. I have heard from a lot of our people there expressing their concerns.

In fact, 15 industry groups have joined together and sent both Senate leaders a letter expressing their concern that the biofuels title in this bill could harm their industries.

I ask unanimous consent at the conclusion of my remarks to have printed in the RECORD a copy of that letter.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. INHOFE. Unfortunately, the collective livestock and grocery producers' concern continues. In fact, the earlier coalition has grown to 18 industry representatives, including cattle, poultry, swine producers, Coca-Cola, Pepsi, even Cargill. In a letter to me, the coalition writes:

> We are asking Congress to provide those that utilize and rely on corn and corn products a reasonable amount of certainty that adequate supplies are available to all users of this commodity.

We know right now the price of corn is very high. This obviously has—it does not happen in a vacuum. Too often on the Senate floor we believe things can be done without affecting others. In this case, it is definitely affecting others, as indicated by these communications.

Now, with respect to our amendment, they state:

> Your amendment would go a long way in ensuring a safety net ensuring those of us that utilize corn and corn products will have enough to go around should a drought or flood occur that would limit the harvested amount that is available.

Now, our amendment seeks to provide some of the much needed equity in the current system. This amendment simply requires that the USDA provide information on projected corn harvests each year. Well, they do that anyway. This is not going to incur anymore of a hardship on the USDA; they have that capability; they are already doing it.

If the projected harvest is below a certain percentage, then the administrator has the authority to modify the mandate for the next year.

So that if it comes down and we see we are going to have a drought, we are going to have some kind of a problem, we would be able to address that by making a small adjustment to the mandate that is there.

Now, I would expect the ethanol industry to support our amendment, since first they claim there is no food versus feed issue. Second, because they have stated repeatedly that corn farmers can grow much more renewable—Fuels Association President Bob Dineen said—this is the one who is very strong in the ethanol mandate the American farmer absolutely has the ability to grow more corn to provide sufficient quantities of grain and food and feed for fuel usage and we are going to see that that happens.

Well, if that is the case, then there is not a problem. So I am not suggesting or picking any favorites with this amendment. I am saying we ought to be sure in the event that something that can be foreseen, and these droughts can be foreseen—as I say, they are doing it right now. So this amendment supports that concept.

Corn farmers have done a great job in increasing yield per acre in the past and they will continue to do that. Our amendment simply provides, as a collective food industry State, a reasonable amount of certainty and a safety net, so that all the U.S. agriculture is able to prosper.

I know there are others who are on the floor who would disagree with my amendment. I certainly wish to make sure they have time to express themselves. So if the Senator from Iowa is prepared at this point to speak, I would be glad to yield to him.

EXHIBIT 1

JUNE 20, 2007.

Sen. JAMES INHOFE,
Russell Senate Office Building,
Washington, DC.

DEAR RANKING MEMBER INHOFE: We believe in the need to advance renewable and alternative sources of energy. New fuel sources offer the potential to eliminate our dependence on foreign oil while contributing to the long-term stability of our rural economies. But, as we seek to implement policy that will move us toward accomplishing this objective, it is essential that we carefully weigh the impacts of our actions on other segments of the economy. Additionally, we would hope that any policy that is agreed upon during this debate would not overly tax one group in an effort to hopefully achieve the objective of energy independence.

We are concerned that the very aggressive increase in biofuels mandates proposed in S. 1419 raises fundamental questions about the impact that an increased federal government mandate for corn-based ethanol, in addition to new state mandates, will have on the livestock, poultry and food industry's ability to produce competitively available, affordable food. It is vitally important that we fully appreciate and understand the implications of quintupling the Renewable Fuel Standard (RFS) mandate, and we would ask that you use careful consideration and listen to the significant issues being raised by those in the agriculture and food products community.

Rapid development of the corn-based ethanol industry is already having adverse impacts on food supplies and prices, a major concern for us. Rising food prices, coupled with the rising energy prices we are seeing throughout the country, pose a threat to the health of our national economy. According to a recent report by Merrill Lynch Chief Investment Strategist Richard Bernstein, within the first three months of the year, food prices rose at an annualized rate of 7.3 percent. That is slightly higher than the anticipated annual rise in healthcare costs over the next decade, according to the Centers for Medicare and Medicaid Services' National Health Statistics Group. In addition, the continued aggressive expansion of corn ethanol production diminishes the availability of soybeans and other crops. We need a safety valve that ensures availability and that works.

We are asking Congress to provide those that utilize and rely on corn and corn products a reasonable amount of certainty that adequate supplies are available to all users of this commodity. Your amendment to S. 1419, the Agriculture Equity Adjustment Provision (#1666) would go a long way in achieving a safety net ensuring those of us that utilize corn and corn products will have enough to go around should a drought or flood occur that would limit the harvested amount that is available.

We look forward to working with you to achieve a balanced approach between all competing uses of corn as we go forward in this energy debate. We need an adequate contingency plan in place, and this amendment achieves that goal.

Thanks again for your leadership and efforts.

Sincerely,

American Feed Industry Association, American Meat Institute, Cargill, The Coca Cola Company, ConAgra Foods, General Mills, Grocery Manufacturers/Food Products Association, Hormel Foods, National Cattlemen's Beef Association, National Chicken Council, National Pork Producers Council, National Restaurant Association, National Turkey Federation, PepsiCo, Inc., Seaboard Corporation, Tyson Foods, United Egg Association, United Egg Producers.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, I would be glad to yield the Senator from Iowa up to 5 minutes to speak in opposition to this amendment.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. GRASSLEY. Mr. President, this is the third amendment today that has been very detrimental to the future of ethanol and other renewable fuels.

If we had had this attitude expressed 20 years ago when we started, in a very elementary way, down the road to a successful renewable fuels industry that we are now developing, and it is still an infant industry, we would never be here today, where we could say that we have a strong opportunity of renewable fuels.

This is the third amendment that raises questions about whether we are going to continue to have investment in renewable fuel production and everything that is connected with it.

Something that bothers me more than anything else, and I have expressed it on previous amendments today, is throughout the development of renewable fuels, and particularly agriculture being the production of the renewable feedstock, we have always had agriculture very much united between renewable fuels.

Within the last 4 or 5 months, because corn has gone from $2 to $4 a bushel, we now have beef producers raising questions about whether we ought to have an ethanol industry. You have the pork producers—and evidently we have the poultry people—raising the same question. If agriculture is not going to be united, if they had not been united, we would never have gotten here. I do not know what happens in a

matter of 4 or 5 months, that after 20 years, all of a sudden things are bad about renewable fuels, and the farmer is being blamed for everything, $4 corn, food going up, energy prices going up.

You know, food prices, a farmer gets a nickel out of a big box of Corn Flakes that is half full of air when you buy it for $4. The farmer is being blamed for $4 corn, raising the price of food, raising the price of energy, causing livestock feed to go up.

You know, for the last 40 years, we have had a principle in agriculture that we call the hog-corn ratio. It was never felt, during the corn-hog ratio, when you use that, that the high price of corn was bad for livestock because, you know, livestock prices would soon rise, and it was considered good, good, good. Everything about ethanol has been considered good, good, good: Good for the farmers, good for the environment, good for high-paying jobs in the small towns of rural America, good for national defense because of less dependence upon violent parts of the world for petroleum to be delivered, good for our balance of trade. Everything is good, good, good about renewable energy.

Now, in the last 4 or 5 months—do you think the price of corn is going to be $3.50 or $4 forever? This fall at harvest time, we might find corn at $2.50. We had 77 million acres of corn planted last year. We have 91.5 million acres believed to be planted this year. When June 30 comes and the USDA makes their next report, it may be 95 million acres of corn—the most acres planted since 1944. When you have that supply of grain coming in, the fact that the price is going to be where it is today is a dream. In 1995, we had a drought. Corn got to $4 or $5. Everybody thought it was going to be $4 or $5 for the next 5 years. The next harvest season, it was down to $1.60 a bushel. Here we have people raising questions about the stock ratio, the stock on hand that we have of grain, that when it gets down to a certain level, we are not going to use grain for renewable fuels. What are you going to do? Are you going to go shut down every ethanol plant that is operating in the United States? What other amendment comes to the floor with the idea that we are going to shut down an industry under certain circumstances? It never happens.

This is not a very good approach, particularly the use of stock ratios as proposed in this amendment. There are even questions about the use of that among economists at this point.

This is a very bad amendment for renewable fuels, for agriculture. All that is good about renewable fuels, and you shut down the whole industry, it is for naught. You can't do that.

I ask Members to vote against the amendment.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, how much time remains on both sides?

The PRESIDING OFFICER. The Senator from Oklahoma has 23 minutes and the Senator from New Mexico has 16 minutes.

Mr. BINGAMAN. Mr. President, let me speak briefly in opposition to the amendment by the Senator from Oklahoma.

First, I ask unanimous consent to have printed in the RECORD following my remarks a letter I received from the American Coalition for Ethanol, the American Farm Bureau Federation, the National Association of Wheat Growers, the National Corn Growers Association, National Farmers Union, the National Sorghum Producers, and the Renewable Fuels Association.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. BINGAMAN. I would like to briefly hit the high points of this letter and explain why they are so strongly in opposition to Inhofe amendment No. 1666. I will read parts of the letter into the RECORD so Members will be aware of their position. It says:

As the Senate continues to debate the energy bill . . . we urge all Senators to vote against the amendment offered by Senators [Inhofe, Burr, and Dole] when it is brought up for a vote. We strongly oppose this amendment as it would effectively gut the RFS and thwart the growth of the domestic ethanol industry.

It goes on to say:

Senators Inhofe, Burr and Dole are proposing an amendment to the energy bill that would put in place a stocks-to-use mechanism that would suppress crop prices and be detrimental to the American farmer and to domestic renewable fuels. Stocks-to-use has limited value as an indicator of demand and expected price. It is an oversimplified way to look at supply/demand and pricing and does not often provide an accurate picture of how markets would be impacted.

It goes on with various examples.

The Senator from Iowa pointed out that the price of corn is high today but may not be high indefinitely. It makes the same point here. It says:

Most long-run economic models [from the] (U.S. Department of Agriculture and Food and Agricultural Policy Research Institute, and others) project stocks-to-use ratio slightly under 10 percent for the next several years, with prices in the $3.00–$3.50 range. Additionally, many economists have stopped using the stocks-to-use ratio in their econometric models as a tool to forecast price because of its obvious limitations.

They go on and on along the same line, pointing out deficiencies in the approach being taken by the Senator from Oklahoma in the amendment.

Let me conclude with their final statement:

Efforts to undermine the continued growth of the U.S. ethanol industry should not be tolerated. A careful look at the facts reveals that American farmers have met, can and will continue to meet our domestic and international commitments for food and feed while still making a significant and growing contribution to lessening our dependence on imported oil with homegrown, American-made renewable fuels. We strongly urge you to oppose the Inhofe/Burr/Dole amendment.

It is hard to know how to do better than that letter in pointing out the deficiencies in the amendment. It is clearly an amendment we should oppose.

EXHIBIT 1

JUNE 20, 2007.

Majority Leader HARRY REID,
U.S. Senate.
Chairman JEFF BINGAMAN,
Committee on Energy and Natural Resources, U.S. Senate.
Minority Leader MITCH MCCONNELL,
U.S. Senate.
Ranking Member PETE DOMENICI,
Committee on Energy and Natural Resources, U.S. Senate.

DEAR SENATORS: As the Senate continues to debate the energy bill, H.R. 6, we urge all Senators to vote against the amendment offered by Senators James Inhofe (R–OK), Richard Burr (R–NC), and Elizabeth Dole (R–NC) when it is brought up for a vote. We strongly oppose this amendment as it would effectively gut the RFS and thwart the growth of the domestic ethanol industry.

Senators Inhofe, Burr, and Dole are proposing an amendment to the energy bill that would put in place a stocks-to-use mechanism that would suppress crop prices and be detrimental to the American farmer and domestic renewable fuels. Stocks-to-use has limited value as an indicator of demand and expected price. It is an oversimplified way to look at supply/demand and pricing and does not often provide an accurate picture of how markets would be impacted. For example, in 2003/04 the stocks-to-use ratio was one of the lowest in the last 20 years at 9.4 percent, but prices remained at $2.50 for a season average. Most long-run economic models (U.S. Department of Agriculture and Food and Agriculture Policy Research Institute, and others) project stocks-to-use ratio slightly under 10 percent for next several years, with prices in the $3.00–3.50 range. Additionally, many economists have stopped using the stocks-to-use ratio in their econometric models as a tool to forecast price because of its obvious limitations. As corn usage are likely to increase substantially to 13, 14, or even 15 billion bushels in the future, a 10 percent stocks-to-use ratio could very well equate to carry-out of 1.3, 1.4, or 1.5 billion bushels. So while the stocks-to-use ratio might seem low in these cases, actual carry-out levels would be right in line with the 12–year average (95/96 to 06/07) of 1.38 billion bushels.

According a recent analysis from the University of Illinois, ''the stocks-to-use ratio is generally used as a 'short cut' approximation for summarizing annual supply and demand conditions. However, very different supply and demand conditions in individual years can lead to similar ratios of stocks-to-use, but very different prices. The most obvious example is the contrast between a year of very small production that results in a low stocks-to-use ratio, but also requires very high prices to force a reduction in consumption and a large crop year that results in a high level of consumption, a low stocks-to-use ratio, but low prices.''

Without the strong domestic market corn farmers won't have the incentive to plant as many acres and take the risk that large production will drive down corn prices. An arbitrary stocks-to-use ratio trigger that restricts corn use for ethanol would likely diminish overall demand and put downward

pressure on the price for corn. This would serve as a disincentive to farmers and discourage them from planting more corn at a time when more corn is what the feed and fuel industries need. The food and feed industries have assumed that farmers will continue to produce record crops regardless of prices and profitability. If production declines, or even grows more slowly, stocks could also fall, eventually driving prices higher. In the long-term, America's farm sector is better off maintaining a strong and growing domestic demand base and adding value markets.

The corn industry will continue to strive to satisfy a variety of important demands and maximize the utility of its product. Seed technology developments, increasing agricultural efficiency, innovation in biofuels production processes and other breakthroughs will ensure that growers will continue to meet the world's need for food, feed, fuel, and other uses.

Efforts to undermine the continued growth of the U.S. ethanol industry should not be tolerated. A careful look at the facts reveals that American farmers have met, can and will continue to meet our domestic and international commitments for food and feed while still making a significant and growing contribution to lessening our dependence on imported oil with homegrown, American-made renewable fuels. We strongly urge you to oppose the Inhofe/Burr/Dole amendment.

Sincerely,

American Coalition for Ethanol, American Farm Bureau Federation, National Association of Wheat Growers, National Corn Growers Association, National Farmers Union, National Sorghum Producers, Renewable Fuels Association.

Mr. BINGAMAN. I see the Senator from South Dakota here. I yield him 4 minutes to speak in opposition.

The PRESIDING OFFICER. The Senator from South Dakota.

Mr. THUNE. Mr. President, I rise to express my opposition to this amendment. I worked closely with my colleague from Oklahoma on a number of issues when I was a member of the Environment and Public Works Committee. I worked with him last week on an amendment to expand refinery capacity because we have a shortage of refinery capacity. It is something that needs to be addressed. Unfortunately, that amendment failed. This amendment, however, is not necessary because we don't have a shortage of corn. In fact, demand for corn has increased because of ethanol production. It is expected to increase further thanks in part to the growth and expansion of renewable fuels. But to suggest for a minute that somehow we are going to run out of corn simply is not true. In fact, one of the most respected economists in the agricultural community, USDA's Dr. Keith Collins, has testified before the Senate Agriculture Committee about corn and ethanol production. I will highlight some of the points he made.

First, since 1948, corn yields have increased fourfold—from 40 bushels per acre to 160 bushels per acre—due to fertilizer, better management, technology, and improved crop genetics. Corn yields in the past couple of years have moved above the long-term trend and may continue to do so in coming years as well, helping to meet biofuel demand and reduce pressure on corn prices and acreage. Over the past few years, new-generation rootworm-resistant corn has been introduced and is showing strong yield increases in many areas.

As we look out over the next decade, USDA trend projections suggest that U.S. corn yields per acre are going to rise to 168 bushels per acre by the year 2016, and some seed companies suggest they are going to go even higher, as much as 20 bushels per acre above that level. Every 5-bushel increase in yield above the current trend level would be the equivalent of adding around 2.5 million acres to corn plantings, enough to produce 1 billion gallons of ethanol each year.

If you look State by State, Arkansas growers are expected to plant 560,000 acres of corn in 2007, up from 190,000 in 2006, a nearly 300 percent increase in corn acreage in 1 year. Louisiana farmers intend to plant 700,000 acres in 2007, up from 300,000 acres in 2006, a 233-percent increase in corn acreage. In Mississippi, corn producers are expected to plant 950,000 acres in 2007, up from 340,000 acres in 2006, a 280-percent increase in corn acreage.

My point is, in the underlying bill, basically, there is a stipulation that ethanol production can't exceed about 15 billion gallons. USDA's Dr. Keith Collins, who is an expert economist down there, says we can get to 15 billion gallons of ethanol based on corn production. Today, we are producing about 6.5 billion gallons of ethanol. So to get to 15 billion gallons, which is what the USDA's Chief Economist says we can reach, we have a long way to go. There is a lot of headroom to 15 billion gallons. To suggest for a minute that somehow we need this sort of an amendment that would put all these additional restrictions on the renewable fuels standard, I submit is unnecessary.

The underlying bill has provisions already that address this issue and waivers in place for economic hardships experienced by certain regions or States. Specifically, the President can waive the RFS if one of the following conditions is met: implementation of the requirement would severely harm the economy or environment of a State or region or the United States; if extreme and unusual circumstances exist that prevent distribution of an adequate supply of domestically produced renewable fuel to consumers.

I would also add that this particular amendment creates lots of problems for areas of the country because it forces investors to make investment decisions based upon the weather. We all know we can't protect the weather or predict the weather with certainty.

This amendment is misguided and unnecessary. I hope we will vote it down.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. INHOFE. Mr. President, let me inquire of the time remaining on each side, please?

The PRESIDING OFFICER. There is 23 minutes for the Senator from Oklahoma, and the Senator from New Mexico has 7¾ minutes.

Mr. INHOFE. First, I may be yielding back some time. Let me respond to a couple assertions that have been made.

The Senator from Iowa was talking about in the event that livestock would not be hurt because they would actually end up going up later in the market and that will take care of that problem. I would suggest to you that a lot of individuals don't agree with that. I have a letter I will read a little bit out of. It is signed by the National Cattlemen's Beef Association, the Chicken Council, the Pork Producers Council, the Restaurant Association, and the Turkey Federation. All of them don't feel this is going to be the market result.

Since the Senator from New Mexico read some excerpts of a letter signed by a large number, we have many more who have signed this letter than the letter which was submitted by the Senator from New Mexico.

One of the paragraphs in here says: We are concerned that the very aggressive increase in biofuels mandates proposed in S. 1419 raises fundamental questions about the impact that an increased Federal Government mandate for corn-based ethanol, in addition to new State mandates, will have on the livestock, poultry, and food industry's ability to produce competitively available, affordable food.

In other words, this is going to affect a lot of people in their estimation in terms of the cost of food, not just livestock, not just the grain concern that is out there.

It continues: It is vitally important that we fully appreciate and understand the implications of quintupling the renewable fuels standard mandate, and we would ask that you use careful consideration and listen to the significant issues being raised by those in the agriculture and food products community.

Let me mention, I know the Senator from South Dakota was not in the Chamber when I made my remarks, but Oklahoma also is a corn State. I really believe the excellent statement that was made by the Senator from South Dakota—who has been a real champion, maybe the No. 1 champion, in this body of corn ethanol—really makes my case for me. If these States are increasing their production the way they are, then there is no problem. Nothing in this amendment is going to affect anything at all. In fact, the only

concern we have is in the event there is a year where this is not true.

Let me just go ahead and make sure everyone understands what this amendment does and does not do. Quite often on the floor, we get people opposing something, and then you scratch your head and say: Wait a minute, is that my amendment they are talking about?

The amendment is a modification provision for food and animal feed based on the ratio of cornstalks to projected demand. In the case of a short- or low-corn crop year, there is currently no meaningful safety valve that would address this situation. This amendment would provide a small level of confidence to producers as well as investors that corn would be available to meet the needs of all uses. In other words, if the production is up, there is not a problem. This addresses disasters and worst-case scenarios and assures the renewable fuels standard does not lead to a shortage of corn for human or animal consumption.

It requires the USDA and the EPA to make a midyear-end determination of current weather conditions, followed by an end-of-the-year determination on the stalks-to-use ratio following harvest. If the determination estimates the stalks-to-use ratio is below 10 percent, it would trigger a temporary adjustment in the RFS to account for the need for increased availability of corn feed. The amendment would not permit the RFS to fall more than 15 percent in any given year.

Now, it has been said—I suspect there is a letter floating around somewhere that says this would be the end of the world and it would completely destroy what they are trying to do. Let me just read the one limitation that is in this amendment. It says:

> A requirement under the renewable fuels standard under section 111(a) shall not be reduced by more than 15 percent during any calendar year.

That is, if there is some kind of a drought or some kind of a real serious problem—it can be too much water or not enough water—then it would not affect it by more than 15 percent. Well, that is 15 percent. That is not the end of the world. It means 85 percent of these mandates are still going to be there and still be in effect.

So I think it is a very modest approach. The list of people who share this concern is a very long one. I mentioned some of the names—these industries. I will go ahead and read them at this time: American Feed Industry Association, American Meat Institute, Cargill, the Coca-Cola Company, ConAgra Foods, General Mills, Grocery Manufacturers/Food Products Association, Hormel Foods, the National Cattlemen's Beef Association, the National Chicken Council, National Pork Producers Council, the National Restaurant Association, National Turkey Federation, PepsiCo, Incorporated, Seaboard Corporation, Tyson Foods, United Egg Association, United Egg Producers—and the list goes on and on. So there is this concern out there.

Again, my State is not dissimilar in any way to the State of New Mexico. They are right next door. I would suggest we probably have about the same size corn industry, as well as perhaps our cattle industry is not quite as large as it is in New Mexico, but it certainly is not dissimilar. There is nothing I would do to be damaging to the corn industry because that is a major industry, of course, in my State.

The Food Products Association—let me mention to you how they feel. In a worst-case scenario, if you do not have some kind of a safety valve, it could be damaging. They say: More and more pursuit of corn-based ethanol is resulting in higher food and feed prices. The price of corn has jumped 55 percent since September.

According to USDA's Chief Economist, the consequences of ethanol are the biggest thing going on in agriculture today. An increase in ethanol production is already having a significant impact on food and feed supplies, such as corn, soybeans, and wheat.

The U.S. Labor Department recently reported that February prices for foodstuffs and feedstuffs were 18 percent above year-ago levels. That was in the Wall Street Journal of March of this year. According to the Wall Street Journal, the higher corn prices have raised costs for livestock and poultry which are fed corn and for crops such as soybeans, which farmers are replacing so they can grow more corn. The corn companies are starting to pass those higher prices on to consumers. Wholesale consumer food prices were 6.8 percent above year-ago levels.

So this is not happening in a vacuum. Obviously, the mandates are there for corn ethanol, and they will continue to be there. As we look down the road, Oklahoma has been pretty active in the work they are doing right now on the other types of cellulosic biomass. Right now, one of our companies in Oklahoma has been very active in that. We are leading the field. We have Oklahoma State University and Oklahoma University and the Noble Foundation leading the country in the pursuit of these technologies.

The coal-to-liquid technology is here. We are currently flying B–52s with all eight engines running on this type of a fuel. So we know it is coming. So it is not all just corn ethanol. Again, we are a corn State. We are also a big livestock State. I think this is a middle-of-the-road type of amendment.

Again, you have to respond to these statements that you are going to destroy something, when the limitation by law would be 15 percent of the current mandate in the event of some kind of a disaster. USDA is already making these studies and doing it, and it is not really requiring anything more.

With that, Mr. President, I will retain the remainder of my time and yield the floor.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, how much time remains on both sides?

The PRESIDING OFFICER. The Senator from New Mexico has 7 minutes 45 seconds, and the Senator from Oklahoma has 13½ minutes.

Mr. BINGAMAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BINGAMAN. Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Mississippi.

AMENDMENT NO. 1510

Mr. COCHRAN. Mr. President, it is my intention to offer an amendment at the appropriate time to reduce the impact of future disruptions of our supplies by enlarging the Strategic Petroleum Reserve. This amendment, which is cosponsored by Senators BAYH, LOTT, and LANDRIEU, will expand the capacity of the Strategic Petroleum Reserve from 1 billion barrels to 1.5 billion barrels.

The economic security of the United States is threatened by our vulnerability to disruptions of the world oil supply and the volatile prices of energy. Whether we like it or not, our Nation's transportation sector, our major industries, and our military forces are all dependent upon petroleum. We must protect ourselves from the instability and the uncertainty of the international oil market.

The existing inventory in the Strategic Petroleum Reserve represents only 56 days of net petroleum imports. Our obligation to the member countries of the International Energy Agency requires us to maintain the equivalent of 90 days of net petroleum imports. Increasing the authorized capacity of our reserves will help ensure that we meet our international obligations.

Mr. INHOFE. Mr. President, will the Senator yield?

Mr. COCHRAN. Mr. President, I am happy to yield for a question.

Mr. INHOFE. Yes, for a question.

It is my understanding that the time you are taking right now will be taken off of our time equally, and since we are under a UC for a time-certain for a vote, I know that would not be the Senator's intention.

Mr. COCHRAN. No, it would not. I will be happy to put these remarks in the RECORD.

Mr. INHOFE. Well, I think that is probably a good idea.

Mr. COCHRAN. No one was speaking when I asked for recognition. I have a statement that lasts maybe 5 minutes.

Mr. INHOFE. Go ahead.

Mr. COCHRAN. All day long, I have been trying to get an opportunity to make this statement.

Last December, the Department of Energy identified the salt domes near Richton, MS, as a preferred site for a new Strategic Petroleum Reserve storage facility. My State welcomes the opportunity to help meet our Nation's energy needs. Other sites in Texas and Louisiana will also gain additional reserves under the plan being developed by the Department of Energy.

Mr. President, our Nation's energy security and stability depend on a combination of efforts to increase domestic supplies of oil, gas, and petroleum, as well as the development and promotion of new renewable energy technologies. The combination of these efforts will make it possible for us to reduce our dependence upon foreign oil and provide for a bright economic future for all Americans.

I urge the Senate to adopt this amendment.

Mr. President, I ask unanimous consent to have a copy of the amendment printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

On page 314, after line 2, add the following:

SEC. 708. INCREASE IN CAPACITY OF STRATEGIC PETROLEUM RESERVE.

(a) STRATEGIC PETROLEUM RESERVE.—

(1) POLICY.—Section 151(b) of the Energy Policy and Conservation Act (42 U.S.C. 6231(b)) is amended by striking ''1 billion'' and inserting ''1,500,000,000''.

(2) CREATION.—Section 154(a) of the Energy Policy and Conservation Act (42 U.S.C. 6234(a)) is amended by striking ''1 billion'' and inserting ''1,500,000,000''.

(b) FILLING STRATEGIC PETROLEUM RESERVE TO CAPACITY.—Section 301(e) of the Energy Policy Act of 2005 (42 U.S.C. 6240 note; Public Law 109–58) is amended by striking ''1,000,000,000-barrel'' and inserting ''1,500,000,000-barrel''.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, let me once again ask how much time remains.

The PRESIDING OFFICER. There is approximately 12½ minutes for the Senator from Oklahoma. The Senator from New Mexico has approximately 4 minutes.

Mr. BINGAMAN. Mr. President, in light of that, since there is 12 minutes still remaining for the Senator from Oklahoma—I do not know how much of that time he wants to use. Once he has used his time, I was going to take a couple minutes to sum up my position in favor of the first amendment that is being offered and we are voting on, and then I would yield that time. But I defer to the Senator from Oklahoma to make any statement he has.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. INHOFE. All right. Mr. President, I say to the Senator, I do not think adequate time has been given to the amendment you want to address, the Boxer amendment, and if you would want some of my time to do that, I would be willing to give it up. I am really prepared to yield back at the appropriate time on this amendment.

Let me make this comment. If people are concerned my amendment is going to be devastating, just keep in mind we have this limitation. There is a very sizable mandate that is out there. The very maximum that would be used would be to reduce that mandate—in a year when a disaster occurs—by only 15 percent. In other words, 85 percent of that mandate would still be in effect. I think that is a very reasonable approach to it.

With that, Mr. President, I will yield the floor.

The PRESIDING OFFICER. The Senator from New Mexico.

AMENDMENT NO. 1693

Mr. BINGAMAN. Mr. President, let me sum up my argument in favor of the first amendment we are going to be voting on in this sequence of three amendments; that is, amendment No. 1693 that I have cosponsored with Senator BOXER.

The amendment does address a number of important environmental issues associated with renewable fuels. It is an amendment that contains four sections.

The first makes an authorization for grants to encourage production of advanced biofuels with the most favorable greenhouse gas characteristics.

Second, we have a study by the EPA of potential issues that may arise as a result of increases in the renewable fuels standards. That study will result in two reports to Congress, both in 2010 and 2015.

The third part allows the EPA to consider groundwater impacts when regulating fuel additives under the Clean Air Act, which is a good provision.

The final part is a provision commonly known as an anti-backsliding provision, basically allowing EPA to address air quality issues that might arise as a result of the increased volumes of renewable fuel mandated in this Energy bill.

Mr. President, let me at this time conclude my remarks and ask the Senator from California if she wishes to make any concluding remarks.

Mrs. BOXER. Mr. President, I say to the Senator, if you could yield me about 2 minutes.

Mr. BINGAMAN. Mr. President, I yield the remainder of my time to the Senator from California.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Mr. President, I thank the Senator.

Mr. President, the Senator from Illinois has asked if he could have a minute and a half. If there is no objection, I suggest we allow that to happen at this time, and I will then follow him with 2 minutes.

The PRESIDING OFFICER. The Senator from Illinois.

AMENDMENT NO. 1666

Mr. DURBIN. Mr. President, one of the pending amendments we will consider very shortly is by Senator INHOFE, and this would create an additional mechanism that would interrupt the bill's renewable fuels standard depending on the ratio of stocks of corn to total corn use, known as the stocks-to-use ratio.

Statistics show that stocks-to-use does not correlate to price and supply information. In addition, there is already a waiver provision in the bill that offers protection to consumers if corn prices or availability becomes unsustainable.

According to one economic analysis, the 10-percent stocks-to-use trigger required by this amendment would suppress corn prices to $2.50 to $2.60 a bushel. In the current farm bill, the target price is $2.63. So by artificially suppressing the price of corn from $2.50 to $2.60, the Inhofe amendment would put downward pressure on prices and cause the triggering of loan deficiency payments. As a result, this amendment would cost the Government more in farm payments.

I am going to urge my colleagues to oppose this amendment. I understand there is a budget point of order. I have notified Senator INHOFE that I will raise that point of order at the appropriate time.

I reserve the remainder of my time.

The PRESIDING OFFICER. The Senator from California is recognized.

AMENDMENT NO. 1693

Mrs. BOXER. Mr. President, I just wanted to say I hope amendment No. 1693 that has been offered by Senator BINGAMAN and myself will be overwhelmingly supported by both sides. We know what happens when we ignore unintended consequences. I think this amendment makes sure we don't experience another MTBE; that, in fact, we are careful, regardless of what the fuels turn out to be, because we are not picking winners and losers. We are saying: Let technology go.

As a matter of fact, in this program we have to assist in the development and production of biofuels, cellulosic. So what we don't know is when these fuels come, what are they going to do to the environment? We all want to be free of foreign oil. Every one of us. But we don't want to make mistakes.

So I hope this amendment No. 1693 will be strongly supported. It ensures that the EPA stays involved. It doesn't give away all the powers of EPA to the Department of Energy. We just need to make sure what we are doing in the future is sound.

I think Senator INHOFE has made a very important point about corn. There are wonderful things about corn, but there are some negatives.

The PRESIDING OFFICER. The Senator's time has expired.

Mrs. BOXER. I think this first amendment can protect against these problems.

I yield the floor.

Mr. INHOFE. Mr. President, how much time is remaining on both sides?

The PRESIDING OFFICER. There is 1½ minutes remaining.

Mr. INHOFE. On my side?

The PRESIDING OFFICER. On your side.

Mr. INHOFE. And on the other side?

The PRESIDING OFFICER. The time has expired.

Mr. INHOFE. Mr. President, I ask unanimous consent to include Senator PRYOR as a cosponsor of amendment No. 1666.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BINGAMAN. Mr. President, I ask unanimous consent to add to amendment No. 1693 Senators DODD, CARDIN, and SANDERS as cosponsors, to the amendment we are about to vote on.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INHOFE. Mr. President, I also ask unanimous consent to add Senator GREGG as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BINGAMAN. Mr. President, I believe Senator GREGG would be a cosponsor to amendment No. 1666?

Mr. INHOFE. That is correct.

Mr. BINGAMAN. Mr. President, at this point I ask for the yeas and nays on amendment No. 1693.

The PRESIDING OFFICER. Is there a sufficient second? There appears to be a sufficient second.

The question is on agreeing to the amendment.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from Delaware (Mr. BIDEN), the Senator from Connecticut (Mr. DODD), and the Senator from South Dakota (Mr. JOHNSON) are necessarily absent.

Mr. LOTT. The following Senators are necessarily absent: the Senator from Kansas (Mr. BROWNBACK), the Senator from Oklahoma (Mr. COBURN), the Senator from Arizona (Mr. MCCAIN), and the Senator from Alaska (Mr. STEVENS).

The result was announced—yeas 58, nays 34, as follows:

[Rollcall Vote No. 219 Leg.]

YEAS—58

Akaka	Brown	Clinton
Alexander	Byrd	Collins
Baucus	Cantwell	Conrad
Bayh	Cardin	Corker
Bingaman	Carper	Dorgan
Boxer	Casey	Durbin
Feingold	Levin	Rockefeller

Craig	Kyl	Warner
Crapo	Lott	
DeMint	Martinez	

NOT VOTING—7

Biden	Dodd	Stevens
Brownback	Johnson	
Coburn	McCain	

The amendment (No. 1693) was agreed to.

AMENDMENT NO. 1666

The PRESIDING OFFICER. Under the previous order, there will now be 2 minutes for debate equally divided prior to a vote in relation to amendment No. 1666 offered by the Senator from Oklahoma, Mr. INHOFE.

The Senator from Illinois.

Mr. DURBIN. Mr. President, this Inhofe amendment is one I am opposing, and I urge my colleagues to oppose it. There is already a waiver provision in the bill that offers protection to consumers if corn prices or availability become unsustainable.

Unfortunately, the language of the Inhofe amendment could trigger a dramatic decrease in income of farmers and a dramatic increase in Government costs. As a result, I raise a point of order that the pending amendment violates section 201 of Senate Concurrent Resolution 21, the concurrent resolution on the budget for fiscal year 2008.

The PRESIDING OFFICER. The point of order must be made after time has expired.

The Senator from Oklahoma.

Mr. INHOFE. Mr. President, there have been some misconceptions about this amendment. First, my State of Oklahoma is a corn State. It is a livestock State. If my colleagues will look at the groups of people that have joined in and said we need to have this safety valve, it is virtually everyone: the National Cattlemen's Beef Association, the Chicken Council, port producers, Restaurant Association—all of these recognizing that in the event something should happen with a severe drought—and these are easy to predict—we should have some kind of a trigger that would allow the mandate to be reduced.

All this does is simply provide that if the USDA determines because of weather patterns there is going to be a real problem in the crop of corn, the mandated limit can be reduced by as much as 15 percent. In other words, we are still going to have an 85-percent mandate.

I suggest my colleagues look very carefully at this amendment. This is going to offer some assistance in the event of a serious drought or something that will affect the corn crop in America.

I ask my colleagues to support my amendment.

The PRESIDING OFFICER. The Senator's time has expired.

The Senator from Illinois.

Mr. DURBIN. Mr. President, do I have any time remaining for debate?

The PRESIDING OFFICER. The Senator has half a minute remaining.

Mr. DURBIN. Mr. President, first, I ask unanimous consent to have printed in the RECORD a letter in opposition to the Inhofe amendment from the American Coalition for Ethanol, the American Farm Bureau Association, the National Association of Wheat Growers, the National Association of Corn Growers, National Farmers Union, National Sorghum Producers, and the Renewable Fuels Association.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

JUNE 20, 2007.

Majority Leader HARRY REID,
U.S. Senate.
Chairman JEFF BINGAMAN,
Committee on Energy and Natural Resources, U.S. Senate.
Minority Leader MITCH MCCONNELL,
U.S. Senate.
Ranking Member PETE DOMENICI,
Committee on Energy and Natural Resources, U.S. Senate.

DEAR SENATORS: As the Senate continues to debate the energy bill, H.R. 6, we urge all Senators to vote against the amendment offered by Senators James Inhofe (R–Okla.), Richard Burr (R–N.C.) and Elizabeth Dole (R–N.C.) when it is brought up for a vote. We strongly oppose this amendment as it would effectively gut the RFS and thwart the growth of the domestic ethanol industry.

Senators Inhofe, Burr and Dole are proposing an amendment to the energy bill that would put in place a stocks-to-use mechanism that would suppress crop prices and be detrimental to the American farmer and domestic renewable fuels. Stocks-to-use has limited value as an indicator of demand and expected price. It is an oversimplified way to look at supply/demand and pricing and does not often provide an accurate picture of how markets would be impacted. For example, in 2003/04 the stocks-to-use ratio was one of the lowest in the last 20 years at 9.4 percent, but prices remained at $2.50 for a season average. Most long-run economic models (U.S. Department of Agriculture and Food and Agriculture Policy Research Institute, and others) project stocks-to-use ratio slightly under 10 percent for next several years, with prices in the $3.00–3.50 range. Additionally, many economists have stopped using the stocks-to-use ratio in their econometric models as a tool to forecast price because of its obvious limitations. As corn usage are likely to increase substantially to 13, 14, or

even 15 billion bushels in the future, a 10 percent stocks-to-use ratio could very well equate to carry-out of 1.3, 1.4, or 1.5 billion bushels. So while the stocks-to-use ratio might seem low in these cases, actual carryout levels would be right in line with the 12-year average (95/96 to 06/07) of 1.38 billion bushels.

According to a recent analysis from the University of Illinois, ''the stocks-to-use ratio is generally used as a ''short cut'' approximation for summarizing annual supply and demand conditions. However, very different supply and demand conditions in individual years can lead to similar ratios of stocks-to-use, but very different prices. The most obvious example is the contrast between a year of very small production that results in a low stocks-to-use ratio, but also requires very high prices to force a reduction in consumption and a large crop year that results in a high level of consumption, a low stocks-to-use ratio, but low prices.''

Without the strong domestic market corn farmers won't have the incentive to plant as many acres and take the risk that large production will drive down corn prices. An arbitrary stocks-to-use ratio trigger that restricts corn use for ethanol would likely diminish overall demand and put downward pressure on the price for corn. This would serve as a disincentive to farmers and discourage them from planting more corn at a time when more corn is what the feed and fuel industries need. The food and feed industries have assumed that farmers will continue to produce record crops regardless of prices and profitability. If production declines, or even grows more slowly, stocks could also fall, eventually driving prices higher. In the long-term, America's farm sector is better off maintaining a strong and growing domestic demand base and adding value markets.

The corn industry will continue to strive to satisfy a variety of important demands and maximize the utility of its product. Seed technology developments, increasing agricultural efficiency, innovation in biofuels production processes and other breakthroughs will ensure that growers will continue to meet the world's need for food, feed, fuel and other uses.

Efforts to undermine the continued growth of the U.S. ethanol industry should not be tolerated. A careful look at the facts reveals that American farmers have met, can and will continue to meet our domestic and international commitments for food and feed while still making a significant and growing contribution to lessening our dependence on imported oil with homegrown, American-made renewable fuels. We strongly urge you to oppose the Inhofe/Burr/Dole amendment.

Sincerely,

American Coalition for Ethanol.
American Farm Bureau Federation.
National Association of Wheat Growers.
National Corn Growers Association.
National Farmers Union.
National Sorghum Producers.
Renewable Fuels Association.

Mr. DURBIN. I make the point again that there is already a waiver provision in this bill. The Inhofe amendment goes too far in that regard.

If it is the appropriate time, I will raise my point of order.

The PRESIDING OFFICER. The Senator may make the point of order.

Mr. DURBIN. Mr. President, I raise a point of order that the pending amendment violates section 201 of Senate Concurrent Resolution 21, the concurrent resolution on the budget for fiscal year 2007.

Mr. INHOFE. Mr. President, I move to waive the applicable points of order against my amendment and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is on agreeing to the motion. The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from Delaware (Mr. BIDEN) and the Senator from South Dakota (Mr. JOHNSON) are necessarily absent.

Mr. LOTT. The following Senators are necessarily absent: the Senator from Kansas (Mr. BROWNBACK), the Senator from Oklahoma (Mr. COBURN), and the Senator from Arizona (Mr. MCCAIN).

The PRESIDING OFFICER (Ms. KLOBUCHAR). Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 31, nays 63, as follows:

[Rollcall Vote No. 220 Leg.]

YEAS—31

Alexander	Dole	Reed
Boxer	Enzi	Sanders
Bunning	Hutchison	Schumer
Burr	Inhofe	Sessions
Cardin	Isakson	Shelby
Carper	Kyl	Snowe
Chambliss	Leahy	Stevens
Cochran	Lott	Sununu
Collins	Mikulski	Vitter
Cornyn	Murkowski	
DeMint	Pryor	

NAYS—63

NOT VOTING—5

Biden	Coburn	McCain
Brownback	Johnson	

The PRESIDING OFFICER. On this vote, the yeas are 31, the nays are 63. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected. The point of order is sustained and the amendment falls.

AMENDMENT NO. 1800

Under the previous order, there will now be 2 minutes of debate equally divided prior to a vote in relation to amendment No. 1800, offered by the Senator from Arizona, Mr. KYL.

Mr. KYL. Madam President, this amendment very simply changes an IRS interpretation of the 2005 Energy bill that provides a $1-per-gallon tax credit for creation of biodiesel. An interpretation by IRS said that if you take animal fat and add it to the biodiesel—or add it to diesel, you have biodiesel and then get the $1-per-gallon credit. That was not what was intended when this was created.

What has happened is all of the animal fat used to do this was already being used by the oleo chemical industry. Folks, for example, who make soap and detergents and the like, are finding the cost of the animal fat, their feed stock, has skyrocketed 100 percent this past year because of the way this has been done. As a result, we are simply changing the interpretation IRS put on it that big oil companies can take advantage of what was not intended to be a tax credit for them, people who are already refining diesel fuel. But rather, those who would create legitimate new diesel fuel from legitimate biomass, the credit remains; nothing changes for that. It simply means the oil companies taking advantage of the credit in an improper way would no longer be able to do so.

The PRESIDING OFFICER. The Senator from Montana is recognized.

Mr. BAUCUS. Madam President, the Senator from Arizona seeks to strike the provision of the underlying Finance Committee amendment—frankly, the amendment package which the committee voted to report by a vote of 15 to 5. The underlying amendment before us extends for 2 years the $1-per-gallon credit for renewable diesel, including diesel produced from animal fats. That credit is in current law. It is only 2 years old. We should give it time to work.

Under the language in the underlying Finance Committee amendment, we will revisit subsidies for most fuels, including this one, in the year 2010. The bottom line is we want to displace foreign oil imports—that is the goal—and every gallon of renewable diesel produced is a gallon of foreign imports displaced.

I urge my colleagues to help decrease foreign oil imports and oppose the Kyl amendment.

I yield the remainder of my time.

The PRESIDING OFFICER. The question now is on agreeing to the Kyl amendment.

Mr. KYL. Madam President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from Delaware (Mr. BIDEN) and the Senator from South Dakota (Mr. JOHNSON) are necessarily absent.

Mr. LOTT. The following Senators are necessarily absent: the Senator from Kansas (Mr. BROWNBACK), the Senator from Oklahoma (Mr. COBURN), and the Senator from Arizona (Mr. MCCAIN).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 45, nays 49, as follows:

[Rollcall Vote No. 221 Leg.]

YEAS—45

Alexander	Ensign	McConnell
Allard	Enzi	Menendez
Bennett	Feingold	Murkowski
Cantwell	Graham	Murray
Clinton	Gregg	Obama
Coleman	Harkin	Schumer

NOT VOTING—5

Biden	Coburn	McCain
Brownback	Johnson	

The amendment (No. 1800) was rejected.

Mr. BINGAMAN. Madam President, I move to reconsider the vote and move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BINGAMAN. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

The PRESIDING OFFICER. The Senator from New Mexico is recognized.

Mr. BINGAMAN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BINGAMAN. Madam President, I ask unanimous consent that there be up to 2 hours 10 minutes for debate prior to a vote in relation to the Kyl second-degree amendment to the Baucus amendment No. 1704, and the cloture vote on the Baucus amendment; with the time divided as follows: 60 minutes to be used during today's session, and 70 minutes available for debate when the Senate resumes consideration of H.R. 6 on Thursday, June 21; with all time equally divided and controlled between Senators BAUCUS and KYL or their designees; with the Republican time being controlled 15 minutes by Senator KYL and 20 minutes by Senator DOMENICI; that no other amendment be in order prior to disposition of the Kyl amendment; with 30 minutes of the time on Thursday available for debate with respect to the motion to invoke cloture on the Baucus amendment No. 1704; and then, upon the use or yielding back of time, the Senate proceed to a vote in relation to the Kyl amendment; that upon disposition of the Kyl amendment, the Senate proceed to a vote on the motion to invoke cloture on the Baucus amendment No. 1704.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1733 TO AMENDMENT NO. 1502

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. Madam President, I have an amendment at the desk, No. 1733, and would ask that it be called up at this time.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Arizona [Mr. KYL] proposes an amendment numbered 1733 to amendment No. 1502.

Mr. KYL. I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To provide a condition precedent for the effective date of the revenue raisers)

At the end of subtitle B of title VIII add the following:

SEC. _____. CONDITION PRECEDENT FOR THE EFFECTIVE DATE OF REVENUE RAISERS.

Notwithstanding the provisions of this subtitle, the amendments made by this subtitle shall not take effect unless the Secretary of Energy certifies that such amendments shall not increase gasoline retail prices and the reliance of the United States on foreign sources of energy.

Mr. KYL. Madam President, I will speak for one minute and then yield about 10 minutes to the Senator from Kentucky who will begin the discussion. Actually, I would like to read the entirety of this amendment. It will take me about 10 seconds. It explains what the amendment does.

Notwithstanding the provisions of this subtitle, the amendments made by this subtitle shall not take effect unless the Secretary of Energy certifies that such amendments shall not increase gasoline retail prices and reliance of the United States on foreign sources of energy.

What this amendment does very simply is to say that the $28.6 billion in tax increases called for by this bill will be allowed to go into effect as long as the Secretary of Energy can certify that it would not raise gas prices or cause further dependence on foreign oil. The reason for the amendment, obviously, is to make a point. It is going to be very difficult to have $28.6 billion in tax increases on oil producers not reflected on our gasoline cost at the pump. I predict Americans will pay more for their gasoline because of the tax increases in this legislation.

I will have more to say about the three different kinds of tax increases, why I believe that is the case, why I think it is a bad idea for us to increase our dependence on foreign oil and increase the cost of gasoline to consumers as a result of the tax increases embodied in this bill.

At this time, I yield 10 minutes to the Senator from Kentucky.

The PRESIDING OFFICER. The Senator from Kentucky is recognized.

Mr. BUNNING. Madam President, I thank Senator KYL for yielding. I rise in support of amendment No. 1733 that would prevent the tax increases in this bill from going into effect if the tax provisions raise gasoline prices or increase our dependency on foreign oil. I voted against these tax increases in the Finance Committee, and I strongly oppose all the tax increases in this bill. But there is one provision I oppose in particular. I am referring to the 13-percent severance tax on oil and gas leases.

There are several reasons why the Federal Government will never see the $10.6 billion allegedly raised by this provision and why we should not, under the banner of tax law, confiscate property. Very simply, the United States should not break its contracts. A deal is a deal. The Clinton administration bid out these lease contracts in the Gulf of Mexico in 1998 and 1999, more than 1,000 of them. Now, with the benefit of hindsight, the small number of performing leases—about 20 of them—look like a bad deal for the Government. That may be true. Some leases negotiated before and after the period in question have 12.5 percent royalty rates. These leases have a zero rate.

On the other hand, the favorable terms that Senator BINGAMAN complains about encourage the oil companies to pay more at the outset to drill in deeper waters. Senator BINGAMAN knows he cannot tear up the contracts he does not like, so he has proposed an unprecedented and unusual targeted severance tax that falls almost exclusively on the current holders of these leases. This tax is so unusual, the Federal Government has never imposed a severance tax on resources, and we never have enacted a tax that can be offset by royalty payments.

If there is any doubt about the purpose of this tax, Senator BINGAMAN cleared that up earlier today when he explained the tax will not impact future leaseholders. The only people who actually pay this 13 percent tax are the

holders of the leases Senator BINGAMAN thinks are a bad deal. As Senator BINGAMAN explained, future leases are expected to have a royalty rate higher than the tax, and royalties can be used to offset the tax under Senator BINGAMAN's scheme. The problem with this is Congress cannot reverse contracts legislatively without paying compensation. The Supreme Court has said as much in two recent cases: Winstar and Mobil Oil. What is more, the Federal courts have said Congress cannot use its taxing power to break or modify a Government contract.

But that is precisely what this measure aims to do. If we enact this legislation, we will cast a small degree of doubt on every contract the Federal Government ever writes. We will raise the cost of Government today and for generations because every contractor will wonder whether their Congress might step in to claw back the benefits of the deal.

Here is a true story. During the savings and loan crisis, Federal regulators tried to encourage healthy thrifts to buy up failing thrifts to stabilize the savings and loan industry. They agreed to more lenient regulatory standards and tax benefits that would be available to the healthy thrifts. Later, when the cost of the savings and loan bailout became a concern, Congress enacted laws that took back some of these benefits. One of these laws was the Guarini amendment, a targeted tax provision. Similar to the Bingaman severance tax, the law seemed to raise revenue on paper. But in the end, the Federal courts reversed themselves, and the Federal Government paid out millions in damages for breach of contract. The same Federal court that decided these cases has exclusive jurisdiction to decide whether the 13-percent severance tax is legal. I am not optimistic.

We should make sure this provision never becomes law by voting for the Kyl amendment. It is unconstitutional. It is un-American. It will raise gasoline prices across the board, not lower them, by imposing additional costs on the American oil and gas companies. Most of them are small companies that risk capital to search for oil in the Gulf of Mexico.

I thank the Chair and yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. Madam President, unless the chairman of the committee would like to speak next, I yield 5 minutes to the Senator from Colorado.

The PRESIDING OFFICER. The Senator from Colorado is recognized.

Mr. ALLARD. I thank the Senator from Arizona for yielding me the time to speak on his amendment which basically requires a certification from the Secretary of Energy that these taxes will not increase retail gasoline prices or the reliance of the United States on foreign sources of energy. I think it is a good amendment. Here is why. The current bill, as I see it, does nothing to produce more energy. It doesn't do anything to make energy less expensive. It makes us more dependent on foreign oil from my perspective. This amendment helps remediate the provisions of the current Energy bill before us.

I think back to the previous Energy bill passed in the fall of 2005, in which we accomplished a lot. We did a lot to increase the supply of energy through incentives and to hold down costs because we were increasing supply. It made us less dependent on foreign oil.

In that particular legislation, we took nothing off the table. We kept traditional fuels out there. Many of those were the petroleum products, but included hydroelectric plants. We also had incentives in there for nuclear fuels. We did a lot to encourage renewable fuels. We had provisions to encourage production of solar energy, production of wind-generated energy, geothermal energy, probably one of the more practical and efficient ways of generating energy, with some of the local governments in the State of Colorado taking advantage of the source. Hydrogen was a source, cellulosic sources of alcohol and energy fuels, corn ethanol. We even had conservation provisions in there, for example, provisions which would allow tax credits for housing and construction projects that produced buildings that conserved energy. It was a good, well-balanced bill, and it didn't have many mandates in it.

One of the concerns I have is the huge amount of mandates and tax increases we have in this bill which will make it more difficult to generate energy. Not only will it make it more difficult to generate energy, but it will also make it more expensive. When you make anything more expensive, consumer demand will go down, but also production will go down because what you are implementing is taxes that are directed to the producer.

As Senator BUNNING commented, there is going to be an injustice. It wouldn't surprise me if we have court action and if it doesn't turn away some of the revenue-producing provisions of this bill.

I am not in support of the bill as it stands now. With the adoption of the Kyl amendment, I think it remediates many of the provisions in this bill that I have an objection to. These provisions undo a lot of what we did in the big Energy bill in 2005.

I am urging my colleagues to join me in supporting the Kyl amendment. It simply states that the amendments shall not take effect unless the Secretary of Energy certifies that such amendments shall not increase gasoline retail prices and the reliance of the United States on foreign sources of oil. It is very simple, straightforward. I urge my colleagues to join me in supporting this important amendment.

I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. Mr. President, I ask unanimous consent that the amendment I have offered, No. 1733, be modified to reflect that it is a second-degree amendment to the Baucus amendment No. 1704.

The PRESIDING OFFICER (Mr. CASEY). Without objection, it is so ordered.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Mr. President, I yield myself such time as I may consume.

First, let me begin by reminding the Senate why we are here today. We want a strong energy policy. I think most Senators agree that the underlying bill, plus the Finance Committee bill, moves this country very much in the right direction, making us less dependent upon OPEC. It enhances national security. It will move us more toward alternative and renewable fuels, conservation, cellulosic ethanol, and also clean coal technology. This is a very good bill.

It is important to remind ourselves why we have these provisions that are the subject of the amendment offered by the Senator from Arizona. We have to pay for what we do here. It is something called pay-go. Essentially, whenever we decrease taxes—and that is what the underlying Finance Committee bill does, it decreases taxes; it gives incentives to lots of different organizations to help develop new technologies, this is a tax-decrease bill—we also, under our rules, have to raise revenue the same amount that we decrease revenue.

We are here today to debate the offsetting amendment offered by the Senator from Arizona. Basically, should we pay for what we are doing? That is the basic question.

I say that is the basic question because it is one that offers no alternative. He just wants to strike the provisions that raise revenue in this bill to pay for other things, to pay for the tax decreases. So on a net basis, it is zero. Some like to say this is a tax increase bill. It is not. It is a net zero—zero-zero.

So the Senator from Arizona is not suggesting any alternative. He just says, no, we do not pay for what we are trying to do here. I think this body all agrees we need to pay and should pay for what we do. The question is whether this is a proper pay-for. I remind my colleagues that this full committee amendment, which includes the provisions which are the subject of the amendment of the Senator from Arizona, passed the committee by a vote of 15 to 5—a very strong, bipartisan vote. Many Senators believed—15 Senators believed—this is proper. It is

right to have these provisions in this legislation.

We clearly do not want to increase the deficit. If the Senator's amendment passes, and these incentives for clean energy remain, it will have an effect of increasing the deficit.

Let's go in a little more detail about these offsets. The first is the section 199. What is that? I think all of our colleagues remember that several years ago—basically prior to 2004—the United States had a program called FSC-ETI. That was a program placed to give incentives for companies to manufacture products that are shipped to foreign countries. It was an incentive for domestic manufacturers to ship products overseas. The World Trade Organization ruled that this incentive violated WTO rules. The Europeans have something similar. They just constitute it a little differently, so they are able to have their stimulus for their exports that go overseas. But ours was ruled illegal by the WTO.

So what did we do about that in the Congress? We decided we were going to enact this section 199. What is that? Basically, it gives a deduction for domestic manufacturers, and it is phased in. When fully phased in in 2010, it will allow 9 percent of qualified production activities income to be deducted.

Well, here we are today saying: Well, for the five major oil companies, that 199 deduction for their production is no longer available to them. Some here suggest: Well, that is going to have the effect of increasing prices at the pump and it will maybe discourage domestic production in the United States.

Look at the record. Look at the facts. The facts are basically these. Since this provision went into effect—section 199—what has happened domestically in the United States? The major oil companies have gotten a significant break. It comes down to approximately $10 billion over 10 years. Domestic production by the five major oil companies has actually declined, even though they had this break, they got this additional incentive. Did it increase production in the United States? No, it did not increase production in the United States. It decreased production. Remember, this is a provision which applies to domestic production. It did not increase domestic production. Domestic production by oil companies actually decreased over this period of time.

I might also say that the Joint Committee on Taxation has done an analysis on this issue, and they demonstrated many of the points I am making.

So if you look at all the various factors that bear on this issue, you reach the conclusion that domestic production has gone down. So the argument that this one bill, this one portion will be responsible for decreasing domestic production is a specious argument. The facts show the opposite.

What determines gasoline prices charged at the pump? The Joint Committee on Taxation looked at this question, and it is their determination that—and it is obvious—the price at the pump is determined by an awful lot of complex factors. It is global demand. It is a lot of supply factors. I could go on as to all the factors the Joint Committee on Taxation believes contributes to this issue. To say there is a direct link that this provision is actually going to increase prices is just not accurate. It is just not going to happen. It is a fallacious argument to try to discourage and confuse people into saying, therefore, this is not a good pay-for.

What are the other oil provisions? There are three of them. I already mentioned one. The second one is a loophole-closer.

Basically, this is a loophole identified by the Joint Committee on Taxation. In short, it has to do with credit American companies get for taxes paid overseas. For oil and gas production, there are two specific provisions relating to foreign taxes. One provision, called foreign oil and gas extraction income, or FOGEI, applies to extraction costs of oil and gas. The other, foreign oil related income, or FORI, applies to downstream distribution costs.

The long and short of it is that the Joint Committee on Taxation recommended changes to the system of credits against foreign taxes, a streamlining of FOGEI and FORI. And that's what the Finance Committee has done.

We closed this loophole, and it happens to raise over $3 billion. This is a loophole closer. That is what this is. I cannot see any reason why anyone would have any problem with that.

In fact, the oil company people tell us it is probably a good thing to close this loophole. Why? Because it is so complicated to comply with.

Now, let's go to the third provision in this bill. This is the provision with respect to Outer Continental Shelf severance taxes. Clearly, constitutionally, the Congress always has the power to enact a tax. This is a 13-percent tax on production in the gulf. That is what it is. Producers can offset that tax with royalties they otherwise would pay for those leases in the gulf.

Now, the provision applies not just to the so-called years in question—1998 and 1999. It applies to a much broader range of leases in the gulf. This is not targeted to those 2 years people discuss. This is a severance tax that Congress has the power to levy in this area.

A couple points: The President himself enacted a higher level of royalties for all new leases at 16⅔ percent. On his own, he raised the royalty rate to 16⅔ percent for most new offshore deepwater federal oil and gas leases.

In this amendment, we are talking about a 13-percent severance tax. Is this a breach of contract? No. We have asked the American Law Division of the Congressional Research Service to research this point for us because we do not want to do anything that is going to be unconstitutional and wrong. They say no, that basically Congress has the power to enact this provision. Under the broad public purposes, which is the basic standard, which is utilized here in the courts, Congress does have the power to do this. The question is, Is this a taking or confiscatory? No. This is not confiscatory. Nobody can make an argument this is confiscatory. So there is no takings, fifth amendment question here. Someone can raise it, but I think any reasonable person looking at this issue would say it is not a taking, it is not confiscatory, and second, this is not a breach of contract because we are saying: Hey, Congress has the power to enact the tax and credit royalties against it.

Do not forget, the President already said those folks, those companies are not paying enough. So he raised the royalty rate to 16⅔. We are saying 13 percent, in the form of a tax. We are trying to be reasonable. We are trying to do what is right. We came up with that 13 percent.

Another point that is kind of tricky about this amendment—it is kind of interesting about this amendment—essentially, it is delegating to the Secretary whether or not the oil companies are going to pay taxes. That is basically what the amendment says: Congress, you cannot decide; it is not your prerogative; it is up to the Secretary. Because he has this little clause in there that says: Unless the Secretary certifies, it is not going to increase prices. Come on. The Secretary can say anything he wants to say in this area because it is so complicated. It is so complicated. We should not be giving such broad authority to the Secretary for him to determine whether this offset should be enacted. But that is what the Kyl amendment does. I think any reasonable person would say: Hey, that is not the right thing to do. We do not want to give the Secretary this authority. You guys—men and women in Congress—we elected you to do what is right. Basically, what is right is to enact these provisions.

So I, therefore, urge all of us—the body—let's keep our heads on straight. Let's keep our feet on the ground. This is common sense. Let's oppose this thing that does not make any sense.

Mr. President, I ask how much time remains on both sides?

The PRESIDING OFFICER. The Senator from Montana has 16½ minutes. The Senator from Arizona has 16 minutes.

Mr. BAUCUS. I thank the Chair.

The PRESIDING OFFICER. The Republican whip is recognized.

Mr. LOTT. Mr. President, I have not spoken on this energy legislation.

There is no question in my mind that we need a national energy policy. I do not think this bill, in its current form, does what we need to do. I have always believed what we need to do in America is produce more energy here at home. More supply—that is the answer—not try to do with less, try to shrink what we have in terms of energy or conserve ourselves into an energy policy. I want more. This is America.

We can produce more of everything. More oil? Yes. More natural gas? Absolutely, and do a lot of innovative things with it. More coal? I am for clean coal technology. I am for changing coal to liquids. I am for doing whatever we can with coal. I am for hydro. We should have more hydroplants, but we have people who have reservations about that. It has environmental or conservation problems. And more nuclear. It is clean. It is safe. But what are we doing to get more of them on line? Nothing.

This bill has turned out to be really about alternative fuels, conservation, and green policies.

Now, for years, I have said I do not want any of that. I want production. By the way, in my State, we can do it. We can have more of everything: oil, gas, coal to liquid, lignite coal, ethanol. We are trying to do it all. We are going to be energy independent. In fact, we are going to wield our power to other parts of the country. So that is what I wanted, but I am over that. I want a national energy policy. I am prepared to accept alternative fuels, some renewables if they make sense, if they are justified in the market but not paid for by outrageous tax credits that don't produce anything. I am for conservation. We should encourage that. Get different light fixtures, look at the utilities we have in our houses, the appliances, are they using too much electricity; insulation, I am for all of that.

So let's have the grand compromise on energy. Let's do it all. This bill doesn't do it. To my colleagues, I want to say I believe America is in great danger because of our inability to come together and do it all.

I was in Russia 3 or 4 weeks ago. I had a chance to see their transmission network of gas and to look at their fields in Siberia, the oil and natural gas. I met with the leadership of Gazprom, the Russian Government-controlled energy company. It was scary. I have no doubt in my mind they intend to use gas as a weapon. They are going to be shipping natural gas that provides the power to all of Europe, Eastern Europe, Western Europe, all the way to Ireland. By the way, if they don't get what they want, they will cut it off.

Here we are in America. We are dependent for our energy sources, 80 percent on foreign oil. Is that good? No, that is bad. Look at whom we are depending on: Russia, Iraq, Iran, Nigeria, Venezuela, and then some who I guess are more stable for now: Saudi Arabia, Kuwait. Is that what we want? No, we don't want that. This is a dangerous situation.

So we should encourage and facilitate the whole package. Flexible fuels, I am for that. We should try to see what we can do with renewables. I don't believe for a minute we are going to get 15 percent of our energy needs from wind. Come on now. Wind and solar. There are people who think we are going to heat, power, and supply all our energy needs in the future from wind and solar. For heaven's sake, get real. We have already sunk billions of dollars into some of these ideas that might work or might not. I am willing to try them. I will buy the deal, but this is not the deal. This is another tax increase: $28.6 billion. I thought it would be $15 billion.

By the way, let me make it clear. There is some good stuff in here. Some of it I supported, some of it I voted for. But overall, what we have is an energy bill that came out of the Energy Committee that now doesn't amount to very much; it is all about renewables and green policy. It is not going to produce another drop of oil, 1 cubic foot of natural gas. In fact, now, we are going to discourage oil and gas exploration in the Gulf of Mexico.

By the way, I should be able to talk about this because this is in my neck of the woods. I have lived in the shadow of oil and gas rigs for years in the gulf. The best fishing in the gulf is around the rigs. We have oil and gas out there. Our policy in America is we don't want to drill where it is. We don't want to drill in the gulf, we don't want to drill on the west coast, we don't want to drill on the east coast, we don't want to drill in ANWR. I have a novel idea of where we ought to drill: Drill where it is, and do it safely. We can do that. Finally, after a lot of huffing and puffing and stroking and scratching last year, we finally said: Yes, we are going to have more oil and gas exploration in the Gulf of Mexico. It is going to be in a defined area. It is not going to be close to the shore, which I think it should be, much closer to the Florida coast, for instance—and my coast, too, for that matter—but we did it for control in a responsible, acceptable way. The States, by the way, are going to get some royalties out of it for the first time ever, or for the first time in many years. We came up with a good deal.

Now, in this bill, we are going to go back, and we are going to levy a 13-percent tax on oil and gas production in the Gulf of Mexico that will cost $10.6 billion on the oil companies. Now, look, I am not going to cry any tears for oil companies. I have a populist streak in me. I don't like gasoline prices. But, buddy, let me tell you, this bill is not going to reduce anybody's gasoline prices. This bill is not a national energy policy.

This bill will lead to less American production in the critical areas where we could do something quickly. By the way, we are going to tax them. Are we never going to learn when you tax something, you get less? If you get less, what do you think it is going to do to the price of gasoline? By the way, we are going to ride these cats—these companies—offshore. They are not going to put up with all these taxes. They are going to go get it somewhere else. They can do business internationally. The biggest company in the world, ExxonMobil—they are not the biggest company in terms of oil or gasoline in America, no; there are other companies that fit that role—much of their business is overseas.

So there is about $21 billion more on the oil companies, and I think it is being done in the wrong way. But we can't come out and talk about how we are going to make such great changes and that we are going to do something about energy prices and the price of gasoline, when the reverse is true. This bill would say that—exactly, it would effectively strike all the tax increases unless and until such time as the Energy Secretary can certify they will not result in increased gas prices or increased dependence on foreign sources of energy.

You are right, you know, they would not be able to certify that. This would not be good for the country.

Yes, again, I wish to say the Wyden amendment is in there. I support it. I voted against the amendment awhile ago that Senator KYL had. I am not pure either. I am over trying to be pure. But I do expect us to not do the wrong things on energy policy—don't do the bad things, even if we can't do the right things.

I am extremely upset about what we have come up with out of the Finance Committee and on the energy package as a whole. This is not going to do the job. It is not going to become law.

So here again, the Senate is spinning its wheels. Yes, well, we are making a statement. Maybe we will feel better. But in terms of addressing an energy policy, this will not do it.

I yield the floor. Thank you for the extra time.

Mr. BAUCUS. Mr. President, I yield 5 minutes to the Senator from New York, but I don't see him yet. So I yield the balance—11 minutes plus 5 is 16—so I yield 11 minutes to the Senator from Oregon, Mr. WYDEN, and the remaining 5 to the Senator from New York when he appears on the floor.

The PRESIDING OFFICER. The Senator from Oregon is recognized.

Mr. WYDEN. Mr. President, I wish to pick up on the comments of my friend from Arizona and my friend from Mississippi, two Senators whom I have

worked with on many issues and must unfortunately disagree with them on this one. I want the Senate to understand exactly what the implications would be if the Kyl amendment were to pass.

If the Kyl amendment were to pass, the major oil companies would receive billions and billions of dollars of subsidies that President Bush says the major oil companies do not need. I wish to be specific on this as we go to the debate with the Senator from Arizona and the Senator from Mississippi.

The President of the United States has said that when the price of oil is over $55 a barrel, the oil companies do not need incentives to develop and explore. Let me repeat that. President Bush has said when the price of oil is over $55 a barrel, the oil companies do not need incentives to explore and search for oil. The price of oil at this time is substantially over $55 a barrel. So if the Kyl amendment passes and we refuse to strip these incentives the President says aren't needed, we are going to continue business as usual.

The Kyl amendment says, essentially: Let us continue these practices we have had for the last few years that have done nothing—nothing—to reduce our dependence on foreign oil.

What we have had in the past are billions of dollars of subsidies. For example, in section 199 of the Tax Code, not for investing in refinery capacity, not for investing in new production, not for investing in renewable fuels but essentially continuing the practices that have nothing—done nothing to reduce our dependence on foreign oil. I have always said we ought to target tax breaks and incentives where there is an opportunity for new production. That is why I have always favored looking at potential incentives for small companies.

But that is not what this amendment is all about. This amendment is about continuing the giveaways for the big companies, the giveaways the President of the United States says are not needed.

So where we are is oil is at almost $70 a barrel, gas is over $3, more imports than ever, and it seems to me continuing business as usual as the Kyl amendment would do is not a case you can make. The Finance Committee amendment changes our course. It ends the section 199 tax breaks for the major oil companies. It takes steps to end our addiction to oil. It takes steps to end our addiction to continuing billions of dollars of subsidies that the President says are not needed.

Let us not continue these billions and billions of dollars in the name of a modern energy policy. It is not. The idea that shoveling all these breaks, these billions of dollars of breaks at the oil industry is somehow going to be good for America is not borne out by the record. It is not borne out by the record, and in my view, until we take these steps to protect taxpayers and protect consumers and protect the security of the country, I think what will happen is we will continue to increase our addiction to foreign oil, we will continue to have these prices, these staggeringly high prices of $70 a barrel and consumers will still get clobbered at the pump.

I am going to have more to say about this in the course of tomorrow, but I would say in closing—and I see my good friend from Arizona on the floor of the Senate—that if the Senate supports this particular amendment, the Kyl amendment, what it will be doing is it will be continuing billions of dollars in tax breaks that if you use the test applied by the President of the United States, those major companies do not need. No one has been able to make a case, it seems to me, that the President of the United States is wrong. In fact, every time this topic has come up, I have said I think the discussion ought to begin with the comment of the President. I credit the President for his statement because I think it reflects modern reality. The President knows a lot about the oil business, and the President says you don't need these subsidies when the price is over $55 a barrel.

But along comes the Kyl amendment, and the Kyl amendment says: No, I pretty much don't see it the way the President of the United States sees it. I am going to continue the billions and billions of dollars of subsidies when it is not needed.

The last point I would like to make very quickly deals with the Bingaman language. We have heard again and again that this somehow retroactively sweeps in and unravels previous agreements. That is untrue. Yesterday, I asked in the Senate Finance Committee the counsel about this. The counsel was very clear it applies prospectively, it does not apply retroactively, and it applies to all of the activity going on in the gulf.

The Government Accountability Office has said that in terms of our position in the world, we stand almost alone in terms of our position relative to getting a fair shake on revenue and protecting taxpayers. The reality—and the Bingaman amendment picks up on this—is taxpayers are getting fleeced by major oil companies when they drill on public land.

We are talking about our land, the people's land. We are not talking about private lands. We are talking about our lands. And the Bingaman amendment takes steps to correct that situation.

I hope my colleagues will reject the amendment of the Senator from Arizona. If I have made one point tonight, I want it understood, if the Kyl amendment is adopted, major oil companies would continue to receive billions of dollars of subsidies that the President of the United States has said they do not need.

Mr. President, I note that my colleague from New York has not arrived. The Senator from Arizona, I am sure, wants to respond. I reserve the time that was propounded in the request by Senator BAUCUS for Senator SCHUMER when he arrives. Since he is not here, and Senator KYL is, I yield the floor to him with the reservation for Senator SCHUMER when he arrives.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. Mr. President, I wish to respond to some of the comments my colleagues made to remind everyone many of the dire predictions, including the ones of my good friend from Oregon, are a little beside the point.

If you look at the actual wording of my amendment, it does not say anything about subsidies to big oil companies or anything of the like. Maybe I better read it again:

Notwithstanding the provisions of this subtitle—

And those are the tax increases on oil companies, as well as the other tax increases in the legislation—

the amendments made by this subtitle shall not take effect unless the Secretary of Energy certifies that such amendments shall not increase gasoline retail prices and the reliance of the United States on foreign sources of energy.

That is all it says. There isn't any more. There isn't anything about subsidies to oil companies or anything of the like.

What the Senator from Oregon might be saying is that the provisions of the bill are not going to go into effect because it is true that the tax increases will, in fact, raise prices for American gasoline consumers and will increase our dependency on foreign oil. If, as the chairman of the committee said, that is not true, there is no relationship—in fact, his exact words were: It is fallacious to argue that these new taxes in the bill will raise fuel costs. If that is true, then there would not be any effect. The argument of the Senator from Oregon then falls. But if it is true the taxes in this legislation will raise prices for oil consumers or gasoline consumers and will further our dependence on foreign oil, then the Senator from Oregon at least has a point to argue because one provision out of the three major tax provisions relates to the general subject that he and I have worked on in the past and that he was talking about, which is the royalties that should be paid by offshore oil companies.

One of two things is true, but they can't both be true. It might be true the tax increases in this legislation are going to raise the cost of gasoline to American consumers and increase our dependency on foreign oil, and then at least one of the things the Senator from Oregon talked about would at least come into play.

Or it could be, as the Senator from Montana said, there would not be any effect because this would not raise gasoline prices, in which case the Senator from Oregon is simply incorrect when he says that the effect of my amendment is to provide subsidies for oil companies. They can't both be true.

What is the probability? I think the probability is that the tax increases in this legislation will raise prices for American consumers and will increase our dependency on foreign oil. And that is just not my guess, although it is fairly intuitive if you understand anything about economics. If you tax something, more generally the producer of that product is going to reflect the prices in what he charges to consumers, and the price, therefore, paid at the pump, in the case of gasoline, goes up.

A recent study by the Heritage Foundation found that the tax provisions alone in this legislation, setting aside the other mandates in the Energy bill, will likely increase gas prices by 21 cents per gallon over the next 8 years. Taking all of the provisions together, the Energy bill could increase the price of regular unleaded gasoline from $3.14 a gallon to $6.40 a gallon by the year 2016, a 104-percent increase.

For comparison, current policies will lead to gas prices climbing from $3.14 to $3.67 in the year 2016. And in just the next year alone, consumers can expect to pay between $3.16 to $3.79 due to the impact of this bill.

During the next decade, between now and the year 2016, due to this bill alone, consumers can expect to spend an average of $1,445 more per year on gasoline. Again, that is not just speculation. It is obviously the law of supply and demand. It is the law of economics. If you are going to impose this tax, it is going to be passed on by the people who pay the tax. So American consumers can expect to pay a lot more for gasoline at the pump.

I don't think anybody would argue that our dependence on foreign oil is going to decrease. In fact, because of one of the three provisions of this bill, the foreign tax credit tax increase, it is obvious our oil producers are going to be put at an economic disadvantage vis-a-vis those abroad, and it is obvious we are going to have to be more dependent on foreign oil, not less.

It was interesting that the Senator from Montana started out his argument saying the purpose of this bill is to get more energy, especially from renewable fuels. It is true the purpose of a good energy bill should be to get more energy. The problem is, this bill doesn't provide any more energy. It does focus some subsidies on renewable fuels, and the only way we are going to get more renewable fuel energy, obviously, is by subsidizing those particular energy sources. But the bill itself provides not a drop of new oil. Yet somehow or another it costs $28.5 billion, and that gets to the second point the Senator from Montana made.

He said this is not a tax-increase bill; this is a tax-decrease bill. But then he lets the cat out of the bag by saying: Of course, we must still pay for what we are doing. Well, indeed. We do have to pay for what we are doing, and what we are doing is spending $28.5 billion. So the bill raises taxes by $28.6 billion. That is the estimate the Congress must use. That is what the Finance Committee is required to use, $28.6 billion in new taxes. The reason: to pay for what we are doing, for what the bill spends.

Granted, some of the spending in the bill is in the form of tax breaks, such as the last tax break we talked about. Unfortunately, my amendment was not adopted, so a tax break is going to be misused, and we are going to be paying billions of dollars because of that misuse. But I think there is no question that the tax increases that are provided for in this bill will be seen as tax increases.

Mr. President, has my time expired?

The PRESIDING OFFICER. Yes, it has.

Mr. KYL. That is the end of my time. I will resume this argument tomorrow morning and remind my colleagues why it is that I think we don't want to pass the tax increases in the bill.

Mr. WYDEN. Parliamentary inquiry.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. WYDEN. Mr. President, I believe I have a couple of minutes, and then Senator SCHUMER has time reserved. I ask unanimous consent that Senator KLOBUCHAR follow Senator SCHUMER.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WYDEN. Mr. President, I will be very brief. The Senator from Arizona makes the point that he always does eloquently about markets, and I come back to the fact that President Bush has said you don't need subsidies when the marketplace price is over $55 a barrel. So what we want to do is cut back on the subsidies and begin to create the kind of market that I know the Senator from Arizona favors.

I also ask unanimous consent to have printed in the RECORD a Government Accountability Office report of May 1, 2007, which makes it very clear that taxpayers are being ripped off for the drilling by major companies on public lands.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

UNITED STATES GOVERNMENT
ACCOUNTABILITY OFFICE,
Washington, DC, May 1, 2007.

Subject: Oil and Gas Royalties: A Comparison of the Share of Revenue Received from Oil and Gas Production by the Federal Government and Other Resource Owners

Hon. JEFF BINGAMAN,
Chairman, Committee on Energy and Natural Resources,
U.S. Senate.
Hon. NICK J. RAHALL II,
Chairman, Committee on Natural Resources,
House of Representatives.
Hon. STEVAN PEARCE,
Ranking Member, Subcommittee on Energy and Mineral Resources, Committee on Natural Resources, House of Representatives.
Hon. MARY L. LANDRIEU,
U.S. Senate.

Amid rising oil and gas prices and reports of record oil industry profits, a number of governments have taken steps to reevaluate and, in some cases, increase the share of oil and gas revenues they receive for the rights to develop oil and gas on their lands and waters. For example, the State of Alaska has recently passed new oil and gas legislation that will increase the state's share of revenue received from oil and gas companies operating state leases. In January 2007, the Department of the Interior announced an increase in the royalty rate for future leases granted in the deepwater region of the Gulf of Mexico. Companies engaged in exploration and development of oil and gas resources do so under terms of concessions, leases, or contracts granted by governments or other resource owners. The terms and conditions of such arrangements are established by law or negotiated on a case-by-case basis. One important aspect of the arrangements is the applicable payments from the companies to the resource owners—in the United States, these include bonuses, rentals, royalties, corporate income taxes, and special fees or taxes. The precise mix and total amount of these payments, referred to as the ''fiscal system'' varies widely across different resource owners. The total revenue, as a percentage of the value of the oil and natural gas produced, received by government resource owners, such as U.S. federal or state governments is commonly referred to as the ''government take.'' For example, a government take of 50 percent means that the government receives 50 percent of the cash flow produced from an oil or gas field.

In fiscal year 2006, oil and gas companies received over $77 billion from the sale of oil and gas produced from federal lands and waters, and the Department of the Interior's Minerals Management Service (MMS) reported that these companies paid the federal government about $10 billion in oil and gas royalties. Clearly, such large and financially significant resources must be carefully developed and managed so that our nation's rising energy needs are met while at the same time the American people are ensured of receiving a fair rate of return on publicly owned resources, especially in light of the nation's daunting current and long-range fiscal challenges.

As requested, this report documents the information provided to your staffs in March 2007 on the U.S. government's take and implications associated with increasing royalty rates. Specifically, this report discusses (1) the United States' government take relative to that of other government resource owners and (2) the potential revenue implications of raising royalty rates on federal oil and gas

leases going forward. To address the government take, our work included reviewing results of studies done by oil companies and industry consultants. We also collected and analyzed various studies generated by MMS, the agency responsible for collecting oil and gas royalties from federal lands and waters. In addition, we reviewed results of studies prepared over the last 13 years by various private and government sources on government take and interviewed Alaskan state and private consulting firm officials. In evaluating the study results we conducted interviews with study authors and an industry expert to discuss the study methodologies and the appropriate interpretation of the results. Based on these interviews and our review of study results, we believe the general approach that these study authors took was reasonable and that the study authors are credible. However, we did not fully evaluate each study's methodology or the underlying data used to make the government take estimates. Overall, because all the studies came to similar conclusions with regard to the relative government-take ranking of the U.S. federal government and because such studies are used by oil and gas industry companies and governments alike for the purposes of evaluating the relative competitiveness of specific fiscal systems, we are confident that the broad conclusions of the studies are valid. To address the revenue implications of raising royalty rates, we gathered information from reports, studies, and government documents, and drew from past GAO reports related to oil and gas royalties. We also discussed the material in this report with MMS officials and they made helpful suggestions about the factors affecting the revenue implications of raising royalty rates. Our work was done from January 2007 through March 2007 in accordance with generally accepted government auditing standards.

IN SUMMARY

Based on results of a number of studies, the U.S. federal government receives one of the lowest government takes in the world. Collectively, the results of five studies presented in 2006 by various private sector entities show that the United States receives a lower government take from the production of oil in the Gulf of Mexico than do states—such as Colorado, Wyoming, Texas, Oklahoma, California, and Louisiana—and many foreign governments. Other government-take studies issued in 2006 and prior years similarly show that the United States has consistently ranked low in government take compared to other governments. For example, a study completed in 2006 for MMS showed that the U.S. federal government take in the Gulf of Mexico deepwater and shallow water was lower than 29 and 26, respectively, of the 31 fiscal systems analyzed. In deciding where and when to invest oil and gas development dollars, companies consider the government take as well as other factors, including the size an availability of the oil and gas resources in the ground; the costs of finding and developing these resources, including labor costs and the costs of compliance with environmental regulations; and the stability of the fiscal system and the country in general. All else held equal, more investment dollars will flow to regions in which the government take is relatively low, where there are large oil and gas deposits that can be developed at relatively low cost, and where the fiscal system and government are deemed to be relatively more stable. Regarding the deepwater areas of the U.S. Gulf of Mexico, the current size of the government take, the relatively large estimated amounts of oil and gas in the ground, and the proximity to the large U.S. market for oil and gas make this region a favorable place to invest. However, the high costs of operating in deepwater may deter some investment.

Increasing royalty rates on future federal oil and gas leases would likely increase the federal government take but by less than the percentage increase in the royalty rate because higher royalty rates would likely reduce some taxes and other fees and may also discourage some development and production. For example, the recently announced increase in royalty rates from 12.5 percent to 16.67 percent on future leases sold in the deepwater regions of the Gulf of Mexico will, according to MMS, increase overall federal revenues but will also cause reductions in some fees and in oil and gas production. Specifically, MMS estimates that the new royalty rate of 16.67 percent will increase revenue by $4.5 billion over 20 years. MMS also estimates that, by 2017, this increased revenue will be partially offset by revenue losses of $820 million over 20 years as a result of reduced rental fees as well as a decline in production of 5 percent. A lower royalty rate can encourage oil companies to pursue oil exploration and production and thereby provide an economic stimulus to oil producing regions. For example, according to a MMS study issued in 2006, as the industry expands output in the Gulf of Mexico, employment levels in all Gulf Coast states-including Alabama, Louisiana, Mississippi, and Texas-tend to rise to meet industry needs. As part of an energy strategy to meet the nation's energy needs and balance the impacts of energy use on the environment and climate, a healthy domestic oil and natural gas industry is essential, and that means that the United States must continue to create a market that is competitive in attracting investment in oil and natural gas development. Such development, however, should not mean that the American people forgo a competitive and fair rate of return for the extraction and sale of these natural resources, especially in light of the current and long-range fiscal challenges facing our nation. The potential trade-offs between higher revenue collections and higher oil production highlight the broader challenge of striking a balance between meeting the nation's increasing energy needs and ensuring a fair rate of return for the American people from oil production on federally leased lands and waters.

BACKGROUND

The Department of the Interior, created by the Congress in 1849, oversees and manages the nation's publicly owned natural resources, including parks, wildlife habitat, and crude oil and natural gas resources on over 500 million acres onshore and in the waters of the Outer Continental Shelf. In this capacity, the Department of the Interior is authorized to lease federal oil and gas resources and to collect the royalties associated with their production. The Department of the Interior's Bureau of Land Management is responsible for leasing federal oil and natural gas resources on land, whereas, offshore, MMS has the leasing authority. To lease lands or waters for oil and gas exploration, companies generally must first pay the federal government a sum of money that is determined through a competitive auction. This money is called a bonus bid. After the lease is awarded and production begins, the companies must also pay royalties to MMS based on a percentage of the cash value of the oil and gas produced and sold. Royalty rates for onshore leases are generally 12 and a half percent whereas offshore, they range from 12 and a half percent for water depths of 400 meters or deeper (referred to as deepwater) to 16 and two-thirds percent for water depths less than 400 meters (referred to as shallow). However, the Secretary of the Interior recently announced plans to raise the royalty rate to 16 and two-thirds percent for most future leases issued in waters 400 meters or deeper. MMS also has the option of taking a percentage of the actual oil and natural gas produced, referred to as ''taking royalties in kind,'' and selling this energy itself or using it for other purposes, such as filling the nation's Strategic Petroleum Reserve. In addition to bonus bids and royalties, companies pay taxes on corporate profits. The sum of all these and other payments comprises the government take. Because different governments set different levels of taxes, fees, and royalties, the relative size of any one component of government take generally varies across different fiscal systems.

STUDY RESULTS INDICATE THAT THE FEDERAL GOVERNMENT RECEIVES AMONG THE LOWEST GOVERNMENT TAKES IN THE WORLD

Results of five studies presented in reports or testimony to the Alaskan state legislature in 2006 indicate that the federal government receives one of the lowest government takes among the jurisdictions evaluated. The hearing was held to discuss a proposed new state tax on oil company profits. This proposal eventually was adopted and, in 2006, the State of Alaska enacted a new oil and gas production tax law which imposed a 22.5 percent tax on oil company profits. Two of the studies presented were from major oil companies, and three were from private consulting firms. The five studies had differing scopes and somewhat different estimates of government take. For example, one study focused primarily on comparing U.S. federal, state, and Canadian fiscal systems, while other studies focused on international comparisons. The results of the five studies are summarized below and in more detail in enclosure I.

BP (formerly British Petroleum), one of the world's largest oil companies. testified that the federal government's take for leases in the Gulf of Mexico (45 percent) was lower than 9 out of 10 other fiscal systems presented, including Colorado, Wyoming, Texas, Oklahoma, California, and Louisiana (between 51 percent and 57 percent).

ConocoPhillips, Alaska's number-one oil producer in 2005, testified that the federal government's take for leases in the Gulf of Mexico (43 percent) was lower than all 8 other fiscal systems presented, including the United Kingdom (52 percent) and Norway (76 percent).

CRA International (formerly Charles River Associates), a global firm specializing in business consultancy and economics, testified that the federal government's take in the Gulf of Mexico—both deepwater (42 percent) and shallow water (50 percent)—was lower than the 6 other fiscal systems it evaluated, including Australia (61 percent).

Daniel Johnston and Company, an independent petroleum advisory firm providing services to the oil and gas industry, testified that the federal government's take in the Gulf of Mexico for deepwater (between 37 and 41 percent) was 4th lowest and for shallow water (between 48 and 51 percent) was 8th lowest among 50 fiscal systems it evaluated.

Van Meurs Corporation—a company which provides international consulting services in several areas including petroleum legislation, contracts, and negotiations—reported that the federal government's take in the Gulf of Mexico (40 percent) was the lowest

among 10 fiscal systems it evaluated, including Alaska (53 percent) and Angola (64 percent).

It should be recognized that the studies presented in this testimony were done before the recent increase in the royalty rate for future deepwater leases in the Gulf of Mexico. This action will, as new leases are added to the mix over time, cause the average government take in the Gulf of Mexico to rise somewhat. In addition, 4 of the 5 studies compared government take based on 11 fiscal systems or fewer. A comparison of a much larger number of fiscal systems provides more comprehensive information. In this regard, we found that other expanded government-take studies have been issued. These are summarized below and more details are presented in enclosure II.

A study issued in 2006 and done under contract with MMS by the Coastal Marine Institute of the Louisiana State University reported on 31 fiscal systems in 25 countries. The study showed, out of the 31 fiscal systems, Gulf of Mexico deepwater, at between 38 and 42 percent, was lower than 29 other systems and Gulf of Mexico shallow water, at between 48 percent and 51 percent, was lower than 26 systems. Three other offshore fiscal systems were also shown. This included Trinidad & Tobago offshore with a government take between 48 percent and 50 percent, Australia offshore with a government take of between 53 percent and 56 percent, and Egypt offshore with a government take of between 79 percent and 82 percent. Of the 31 fiscal systems presented, Mexico had the lowest government take at between 30 percent and 32 percent, and, at the other end of the spectrum, Venezuela had the highest government take at between 88 percent and 93 percent.

A second study, issued in 2002 by Wood MacKenzie, a private consulting firm, analyzed 61 fiscal systems within 50 countries. The study showed that, out of 61 fiscal systems, Gulf of Mexico deepwater ranked lower than 54 other systems with a federal government take of about 42 percent, while Alaska's government take was about 64 percent. Of the 61 fiscal systems analyzed, Cameroon had the lowest government take at about 11 percent, and at the other end of the spectrum, Iran had the highest government take at about 93 percent.

A third study, issued by Van Meurs Corporation in 1997, analyzed 324 fiscal systems in 159 countries. The study showed that, out of 324 fiscal systems, Gulf of Mexico water greater than 800 meters ranked lower than 298 other systems with a federal government take of about 41 percent and Gulf of Mexico water between 200 and 400 meters ranked lower than 276 systems with a federal government take of about 47 percent. The study also indicated that governments tend to compete regionally and that the regional average government take for countries within North America was about 57 percent.

Finally, one of the first expanded, or comprehensive, studies was completed by Van Meurs Corporation in 1994 for the World Bank. That study showed that the government take from federal onshore lands, Gulf of Mexico deepwater, and Gulf of Mexico shallow, ranked lower than 194, 191, and 180 out of 226 fiscal systems in 144 countries, territories, and joint development zones analyzed.

The last few years of high oil and gas prices and record industry profits have been a factor in causing a number of resource owners to reevaluate their fiscal systems. For example, and as already discussed, the State of Alaska enacted in 2006, a new oil and gas production tax law which, among other things, imposed a 22.5 percent tax on oil company profits. In addition, at least five states—including New Jersey, New York, Pennsylvania, Washington, and Wisconsin—and Alberta Province in Canada are considering new oil and gas tax legislative proposals.

The level of government take can influence investment in oil and gas development and production. Resource owners are competing to some extent for finite private investment in oil and gas development, and in considering the ideal government take, the resource owners must consider that there may be a trade-off between the magnitude of government take and the level of investment. From the oil and gas industry's perspective, government take represents one of the costs of doing business. As with any industry, if the costs in one geographic area increase, industry may pursue locations elsewhere.

In addition to the overall government take, the mix of taxes, fees, and royalty rates that comprise the government take may also be important in determining the level of investment. For example, in commenting on Alaska's then-proposed revisions to its oil and gas tax law, a BP official testified that a fiscal system should be equitable to investors and the government alike and should be profit-related, that is, with a tax levied on profits not revenues. Similarly a ConocoPhillips official testified that a balanced fiscal system is critical for future oil and gas investment in Alaska and that Alaska must maintain its fiscal system competitiveness on a global basis.

Further, the size of oil and gas reserves, the costs of exploration and development, and the stability of the government and regulatory environment play a role in companies' investment decisions. In many regards, the United States is a desirable place to invest in oil and gas development and production. For example, of non-OPEC countries, the United States held almost 10 percent of oil reserves as of 2006. In addition, including the existence of a nearby market for all that is produced, the United States is generally considered a stable place to invest, especially when compared to many countries, such as Venezuela and Nigeria, that have large oil and gas reserves. For example, in Venezuela, it was reported last year that the government had taken a series of steps to increase the government take as well as take greater control over oil operations in that country, and in Nigeria, it was recently reported that there have been repeated instances of oil company employees being kidnapped or attacked. However, much of the estimated oil reserves in the United States, such as those in the deepwater areas of the Gulf of Mexico, and the smaller pockets of oil remaining in mature oil fields will be more costly to develop than oil in some other regions, and these higher costs are a deterrent for investment. In addition, to the extent that environmental regulations in the United States are stricter than in some other oil producing countries, this could increase compliance costs and necessitate to some extent a lower government take in the United States. Further, to the extent that labor costs are a factor in determining the profitability of oil development projects, the United States may have higher labor costs than some other oil producing countries, and this would also necessitate, to some extent, a lower government take.

INCREASING ROYALTY RATES ON FUTURE FEDERAL OIL AND GAS LEASES WOULD LIKELY INCREASE THE FEDERAL GOVERNMENT TAKE

Increasing royalty rates on future federal oil and gas leases would likely increase the federal government take but by less than the percentage increase in the royalty rate itself because higher royalty rates will likely reduce some taxes and other fees and may also discourage some development and production compared to what it would be under lower government take conditions. For example, because the federal government assesses taxes on corporate profits, an increase in royalty rates would raise oil and gas company costs, thereby reducing their profits and, consequently, the corporate income taxes they pay. In addition, an increase in royalty rates may reduce the amount, in fees or bonuses, oil and gas companies are willing to pay for the rights to develop individual leases. Because such fees or bonuses are determined competitively, this may lead to lower government revenue. Finally, higher royalty rates may deter some development or production of oil and gas if companies can find more profitable investment opportunities elsewhere and for which other factors, such as stability and the amount of oil and gas reserves are comparable.

MMS' analysis that accompanied a recently announced increase in the royalty rate for new federal deepwater offshore Gulf of Mexico leases illustrates how the increase in royalty rates can be offset somewhat by reduced fees and production. MMS estimates that the increased royalty rate of 16.67 percent—from 12.5 percent—will increase revenue from royalty payments by $4.5 billion over 20 years. However, MMS also recognized that this royalty rate increase will likely cause declines in bonus and rental revenues as well as reduce oil and gas production compared to what it would have been under the lower royalty rate. Specifically, MMS estimated a decline of bonus and rental revenues amounting to $820 million over 20 years and a decline in production of 5 percent, or 110 million barrels of oil equivalent, over 20 years compared to what production would have been at the lower rate. Nonetheless, MMS estimates that by 2017, the net increase in total revenue will still be substantial.

In addition to revenue considerations, there are a number of other considerations that could be considered when establishing a royalty rate or the overall government take. These include environmental issues and socioeconomic effects. Royalties or other fees or taxes may reduce the amount of investment in oil and gas development and production and, therefore, to the extent that higher royalty rates reduce oil and gas development and production in the United States, could be used as a policy tool to reduce the domestic environmental impacts of oil and gas development. Regarding socioeconomic effects of oil and gas development and production, a 2006 study done under contract for MMS noted that as the oil and gas industry expands output in the Gulf of Mexico, employment levels in all Gulf Coast states—including Alabama, Louisiana, Mississippi, and Texas—tend to rise to meet industry needs.

As agreed with your offices, unless you publicly announce the contents of this report earlier, we plan no further distribution until 30 days from the date of this report. At that time, we will send copies to appropriate congressional committees, the Secretary of the Interior, the Director of MMS, the Director of the Office of Management and Budget, and other interested parties. We will also make copies available to others upon request. In

addition, the report will be available at no charge on GAO's Web site at http://www.gao.gov.

If you or your staff have any questions or comments about this report, please contact me. Contact points for our Offices of Congressional Relations and Public Affairs may be found on the last page of this report. GAO staff who made contributions to this report include Frank Rusco, Assistant Director; Robert Baney; Dan Novillo; Dawn Shorey; Barbara Timmerman; and Maria Vargas.

MARK E. GAFFIGAN,
Acting Director, Natural Resources and Environment.

Mr. WYDEN. Mr. President, this General Accounting Office report makes it very clear that relative to all the other countries in the world, our taxpayers are not getting a fair shake. So this is ultimately about cutting back on subsidies the President says are not needed in order to create markets and to prevent the taxpayers of this country from being fleeced.

I thank my colleague. I know Senator SCHUMER has been patient.

Mr. KYL. Mr. President, I ask unanimous consent that Senator MCCONNELL be added as a cosponsor to my amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SCHUMER. Parliamentary inquiry, Mr. President: Do I have 5 minutes?

The PRESIDING OFFICER. The Senator has 6 minutes.

Mr. SCHUMER. It is my lucky day, Mr. President.

I rise to speak against the amendment offered by my good friend from Arizona which will restore many of the tax breaks for big oil we voted to eliminate in the Finance Committee just yesterday.

After a wave of mergers in the industry over the past two decades, we now have an elite group of five very large integrated oil companies dominating our domestic petroleum market. These companies are price leadership. They all seem to set the same price. They don't get in a room and do it. One leads and the others follow. They wink at each other. It shouldn't be legal, but it is.

They have the power to block alternative fuels, such as E85, at their branded stations and, as we all know, they have the political power to secure billions of dollars in tax breaks they don't need and we can ill-afford.

It is time to get serious about our energy policy and stop giving away taxpayers' dollars that just end up in the pockets of big oil rather than going to renewable energy alternatives or curbing the cost of gasoline at the pump.

On the surface, it seems that big oil is pumping cash rather than pumping petrol. They don't try to find much new oil, and ExxonMobile alone bought back $29 billion of its stock in the last year. The bottom line is, if they have all this extra money to buy back their stock, why are we giving them tax breaks?

When the head of ExxonMobile, one of the big oil companies, came to us in the Judiciary Committee, he said he didn't believe in alternative fuels. I wouldn't either if I were the head of one of the five big oil companies that had an oligopolistic stranglehold on the market. I wouldn't want an alternative. So they are not going to do what most other businesses, where there was a semblance of competition, would do: find a new product because they know their old product is getting expensive and may run out someday.

So that is our job. We are taking back these taxes. We are not just putting them into the Treasury. It is not taxing for taxing sake. We are putting them into tax breaks for alternative fuels. Since the oil companies would not look at alternatives, we are going to take the money that we have given them in taxes, and never should have, and give it to other companies that will invest in alternative fuels.

This is a mature industry by any standard and no longer does it need tax breaks. I have actually introduced a bill to repeal every special tax break received by the major oil and gas companies.

The policy of giving them breaks has failed. Despite ever-increasing petroleum products and general Federal tax giveaways, the oil companies don't believe they need to compete. The oil companies believe they don't need to compete to create new domestic gasoline supply. We haven't had a new refinery built in 30 years. When they have merged, they have closed refineries. So it hasn't worked.

While ExxonMobile doled out $29 billion, or 60 percent of its cashflow, on stock buyback alone, their overall production has barely budged since the 1999 merger. Exxon never should have been allowed to merge with Mobile. On the Joint Economic Committee, we are looking it over, seeing if we can look into undoing some of those unfortunate mergers, which occurred, by the way, under both Democratic and Republican Presidents. But at the same time, we have to get moving on alternative fuels.

The Finance Committee chairman and ranking member—bipartisan—were right to scale back the tax breaks that go to this very profitable industry and instead target them to renewable energy in a way that ensures technology will succeed.

The finance amendment extends tax breaks for alternative fuels by several additional years. When we were at our issues conference in New York City, DPC, Democratic Policy Committee, we heard a brilliant presentation by an investment banker from Goldman Sachs who said we are great at developing new technologies, but we are not very good at commercializing them, implementing them. That is because the tax breaks we give go for a year, 2 years, and no business wants to invest when they are not sure these breaks will continue.

The proposal in the bill, which I was proud to cosponsor, says the tax breaks will be extended for 5 years and longer so that companies will know they do keep those tax breaks and have an incentive to invest. So it makes eminent sense. Take the money away from taxes for the oil companies which refuse to engage in finding alternatives and give them to new companies that will. It is a policy that makes sense for the good of the consumer because, in the long run, it will lower prices; for the good of our foreign policy because it will decrease our dependence on dictators and potentates we don't like, such as the heads of Iran and Venezuela; and it is good for our climate because as we move to alternative fuels, less CO_2 will be put in the atmosphere.

For the first time in 6 years, this Congress is willing to stand up to the oil companies. I know many on the other side of the aisle aren't. The previous energy bills reflect what the Bush administration believes: What is good for the oil companies is good for our energy policy is good for America. They are wrong, as the price at the pump, as the increase of CO_2 in our air reveals, and as our increasing imports of oil show. We are changing that policy.

I know others on the other side of the aisle are blocking us because of obeisance to big oil, but we will succeed because the American people are behind us, and our country needs no less.

Mr. OBAMA. Mr. President, I was unable to be present during the vote on the Gregg amendment due to a previously scheduled conflict. But had I been present, I would have voted against waiving the Budget Act in relation to the Gregg amendment to eliminate the 54-cents-per-gallon tariff on imported ethanol.

This amendment to lift the tariff against Brazilian ethanol would merely replace our dependence on foreign oil with a new dependence on foreign ethanol. If we are serious about addressing national and economic security, we need to develop a robust renewable fuels industry in this country. This amendment would frustrate that goal.

Mr. KERRY. Mr. President, I would like to speak to the two amendments proposed yesterday, which invest in coal particularly as a transportation fuel and which threaten to increase the dangers of climate change rather than lessening them. These two amendments offer the Senate false choice: either to reduce our dependence on foreign oil or to worsen the rise of global climate change. But the truth is, we don't have to choose between our security at home and the security of our planet.

Energy policy today is more critical than ever because it touches on not one

but two of our most vital national interests: namely, energy security and climate change. We cannot afford to sacrifice our fight against climate change at the altar of energy independence. Promoting the conversion of domestic coal to liquefied fuel will dramatically increase CO_2 emissions and that is no better than robbing Peter to pay Paul.

The truth is, we can break the stranglehold of foreign oil, we can create new jobs in energy, and we can strengthen our hand addressing global climate change and we shouldn't settle for approaches that don't help us achieve all three of these national imperatives.

Here's what scientists are telling us: On nearly a weekly basis, we see mounting scientific evidence highlighting the need to act. The most recent report from the Intergovernmental Panel on Climate Change written by more than 600 scientists, reviewed by another 600 experts, and edited by officials from 154 governments has confirmed the threat and the need for urgent action.

Because it will set back the fight against climate change, coal to liquids offers us—at best—a Pyrrhic victory in our struggle to create a sensible, sustainable energy policy. Study after study has shown that liquid fuels derived from coal produce significantly higher CO_2 emissions than traditional fuels. Transforming coal into liquid fuel involves heating it to 1,000 degrees and mixing it with water to create a gas, which is then converted into fuel usable in cars and jets. If that sounds like an energy-intensive process, it is. And energy-intensive processes generate a lot of CO_2 emissions. Every gallon of liquid fuels derived from coal produces up to 2.5 times more well-to-wheels global warming emissions than gasoline or diesel fuel from crude oil. That means that even with 85 percent capture of CO_2 during production, well-to-wheels Coal to Liquid emissions are 19–25 percent higher than conventional gasoline or diesel.

I understand that all coal-to-liquids amendments are not created equal my Democratic coal State colleagues have attempted to build environmental safeguards into their amendments. And I thank them for that. The Bunning amendment, by contrast, is full of loopholes and hollow environmental mandates that crumble under scrutiny, leaving only big subsidies for big coal. But ultimately neither should pass. This is a question of priorities, and with limited Federal dollars available, we need to support those technologies that promise the greatest oil savings and the greatest emissions reductions.

We should be turning to increased fuel economy standards, increased energy efficiency standards for commercial and residential buildings, strong renewable electricity standards, and incentives for biofuels and advanced vehicles.

Let me repeat—this is a question of priorities.

I would like to briefly address several of the arguments that are being made by coal-to-liquids industry supporters. These arguments are intended to confuse what is a very complicated process. I will do my best to unmask their arguments and make the reality as clear as possible.

First, many proponents cite the emissions reductions associated with coprocessing coal and biomass at coal-to-liquids production facilities. However, these benefits simply come from using a promising new clean technology to mask the flaws of coal. These coprocessing facilities, when equipped with carbon capture, may indeed result in lower emissions than traditional fuels, but this has nothing to do with the coal and everything to do with the biomass. We should be having a serious conversation about biomass and how it can be best integrated into our energy supply, which is a matter of some large debate, rather than blindly buying into the coal industry's assumption that coprocessing biomass and coal is the most direct road to a clean energy future.

Second, proponents focus on tailpipe emissions and argue that diesel fuel produced from coal-to-liquids has fewer emissions than traditional gasoline.

Again, we need to make sure we are comparing apples to apples. The tremendous increase in well-to-wheels CO_2 emissions comes during the production process, not at the point of tailpipe emissions. In fact, tailpipe emissions from diesel generated from crude oil and diesel generated from coal are roughly the same. Same story with gasoline generated from crude oil and gasoline generated from coal. Comparing diesel to gasoline is just a distraction diesel engines are more efficient than gasoline engines and therefore emit less CO_2, regardless of whether you are talking about traditional fuels or coal-to-liquids

Third, proponents talk about the environmental benefits associated with coal-to-liquids. This is frankly laughable.

I have spoken about the doubling of emissions associated with the coal-to-liquids production process. But if we are talking about the environmental impacts of coal mining, we have to look even beyond the emissions and consider the severe impacts to water quality. In Appalachia alone, mountaintop removal has destroyed more than 2,500 mountain peaks and leveled more than 1 million acres. This waste is dumped into river valleys and contaminates over 1,200 rivers and streams throughout the region. That waste, combined with acidic mine runoff, destroys habitat for fish and wildlife everywhere that coal is mined today. Before we jump-start a new industry in this country and ramp up coal production, we need to have a serious conversation about these and other impacts.

There are too many unknowns associated with coal-to-liquids technology, but here is what we do know: well-to-wheel emissions are two and a half times those of traditional fuels, and even when carbon capture is applied which has not yet been demonstrated on a commercial scale emissions are 19–25 percent greater than traditional fuels.

The cost of these plants is exorbitant MIT estimates that the cost of constructing a coal-to-liquids plant is four times that of a traditional refinery. The same study estimated that it would cost $70 billion to build enough plants to replace 10 percent of American gasoline consumption.

Finally, I would like to close by saying a few words on another issue that will be coming to a vote later this afternoon. Senators CARDIN and MIKULSKI have introduced an amendment addressing the siting of liquefied natural gas terminals. This is an important amendment, and I am proud to support and cosponsor it. This is a contentious issue in Fall River, MA, where powerful interests are fighting to construct a LNG terminal far too close to a major population center. This proposal is strongly opposed by Governor Patrick and numerous State and Federal representatives. I strongly support Senators CARDIN and MIKULSKI's amendment, which would require state approval of LNG siting decisions. While LNG is an important part of our clean energy mix, it is essential that these facilities be sited in safe and appropriate locations. This amendment guarantees the state its appropriate and necessary role in approving these decisions. I urge my colleagues to support it.

Mr. KENNEDY. Mr. President, I strongly support the important legislation under consideration. Like many of the bills the Senate has taken up this year, it is the product of Democrats and Republicans working together, and I commend its authors for their hard work.

The bill before us does the things the Nation must do to become more energy self-reliant, starting with raising fuel economy standards for cars and trucks. Over 30 years ago I cosponsored Scoop Jackson's legislation which first established fuel economy standards to improve the fuel efficiency of automobiles. Unfortunately, very little progress has been made since then.

There is no silver bullet for ending our dependence on foreign oil or slowing the rate of greenhouse gas emissions, but raising CAFE standards is the single most important step we can take to make positive changes in this area. Increasing the average efficiency

of passenger cars by just over 5 miles per gallon would eliminate the need for American oil imports from the Persian Gulf. The CAFE provision the Commerce Committee reported will increase fuel economy in cars from 27.5 miles a gallon to 35 miles per gallon by 2020. It is the best chance this Congress will have to raise fuel economy standards, and I hope that the Senate will preserve the Commerce Committee's strong provisions.

The bill will make more cars capable of running on biofuels. Ethanol, in particular, has incredible promise as a biofuel, and it will emit far less carbon dioxide than conventional oil. The bill will ramp up production of biofuels over the next 15 years and mandate that a growing number of new vehicles be able to run on these kinds of fuels. It also provides funding to ensure that these new biofuels can reach fuel stations across the country. This provision is particularly important to New England, which has just one E85 pump located in Chelsea, MA. Brazil has shown us the way by producing ethanol from sugarcane in amounts equivalent to 300,000 barrels of oil each day. The United States must invest in biofuels, so that we too can reduce our dependence on foreign oil.

The bill also reauthorizes the Weatherization Assistance Program, which is especially important for low-income families struggling with high energy costs throughout the Nation. In Massachusetts, energy costs are among the highest in the Nation, but this program has weatherized more than 10,000 homes in the last decade. Vulnerable families can't afford to make these expensive improvements themselves, so these wise investments by the government will help families save on energy and reduce the Nation's fossil fuel emissions.

Another critical issue is the inclusion of a strong renewable electricity standard. The RES will provide the certainty the renewable energy market needs to invest in innovative technologies. In April, Senators DURBIN, SNOWE, and REID led a bipartisan letter expressing support for mandating that major utilities generate a percentage of their electricity from renewable sources. I was one of the 50 Senators who signed the letter, and I commend Chairman BINGAMAN for his work on a renewable electricity standard.

I also commend the Finance Committee for its work to provide tax incentives for renewable energy technology, and repealing tax breaks for oil and gas companies. While most Americans are seeing less and less in their paychecks, the Big Oil companies are making money hand over fist. During the first quarter of this year, Big Oil reaped $29.5 billion in profits. Repealing these tax breaks will save taxpayers billions of dollars in subsidies to Big Oil and allow the Nation to invest in clean energy technologies.

Last week, I joined Senator SALAZAR, Senator SMITH and several other Senators in urging the Finance Committee to extend tax incentives for fuel cell technology. Hydrogen fuel cells are an energy storage technology, like batteries, that can deliver clean and reliable power. They have a broad range of uses for vehicles, auxiliary power units, and electronic devices, and they are helping us diversify our fuel supply and find better ways to deliver clean energy. Massachusetts is among the world's major centers of this technology, with more than 60 companies involved in fuel cell and hydrogen technologies. I commend Chairman BAUCUS and the Finance Committee for allowing tax credits for this important technology.

Overall, this bill brings us closer to a cleaner and more secure energy future for our nation, and I look forward to its enactment.

Mr. President, I yield back the remaining time.

Ms. KLOBUCHAR. Mr. President, I ask to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

EMPLOYEE FREE CHOICE ACT

Ms. KLOBUCHAR. Mr. President, I am here to speak for a few minutes in support of the Employee Free Choice Act, which the Senate will be voting on, we hope, this week. I listened to Senator SCHUMER talk about evening the playing field in the area of energy, where the oil companies have long dominated, and now it is time to give some renewable companies a chance so we can actually have an even playing field for energy, and so we can stop depending on these foreign oil companies and stop spending $200,000 a minute on foreign oil. I am here today to talk about evening the playing field in another way, and that is with the Employee Free Choice Act.

I support this act because I believe we need to level the playing field for working people in this country, and this bill will do that by protecting the workers and by creating a fair and a smooth process for organizers.

It is getting harder and harder for working families in America to get by. Millions of workers have been left behind in this economy. With only a very small number of people doing incredibly well, millions of workers have been left behind. They are struggling to make ends meet with stagnant wages and declining benefits.

I see this in my State. I go to small towns, and about 100 people will show up in a cafe, and I think, why are all these people here? I realize that when the cost of college has gone up 100 percent in 10 years, as it has in our State, when you are a middle-class person and you can hardly make it day to day, you feel it first. When you have gas at $3 a gallon, you feel it in your pocketbook. When health care costs go up 100 percent, as they have in our State, you feel it first when you are a middle-class person. That is what we are seeing all over this country.

Unions help all workers, not just those that are in a union. Unions helped build this country and have lifted millions of Americans out of poverty. As we go forward as a nation, unions will continue to be the friend of working men and women everywhere.

But for too many workers, forming unions at their workplace simply is not an option. Approximately 60 million workers—that is 60 million—say they want to join a union right now, and the reasons why are clear: Union workers earn 30 percent more than nonunion workers; union workers are 62 percent more likely to have employer-provided health coverage; and union workers are 400 percent more likely to have access to pension plans.

For millions of workers, access to fair wages and decent benefits is being denied because the current process for forming unions has become flawed. In my State, we are lucky to have some great companies and honest employers that, to a large extent, treat their workers with the respect and dignity they deserve. But there are those companies across this country that don't play by the rules, where workers considering unionization face intimidation and termination from employers.

According to national labor data, workers are illegally fired in one-quarter of all union organizing campaigns, including one in five active union supporters. When workers are systematically denied rights to fair wages and benefits, we all lose, and we need to take action.

In my last job, I was a county attorney in the largest county in Minnesota. For 8 years, I managed an office of nearly 400 unionized employees. I always believed they should be treated with the same level of respect they showed the people we represented, the victims of crime, the people who needed someone there to stand up for them. This bill creates that kind of respect.

This bill will create a process that will be fair and will even the playing field. This bill will help workers. The Employee Free Choice Act places the decision to form a union where it belongs—it places it in the hands of America's workers.

I urge my colleagues to support this bill.

Mr. President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that there be a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

WEST VIRGINIA, WILD AND WONDERFUL

Mr. BYRD. Mr. President, today is West Virginia's birthday. Established on June 20, 1863, West Virginia became the 35th star in our national constellation, taking her place between Kansas, which joined the Union on January 29, 1861, and Nevada, which joined on October 31, 1864. I am pleased to offer West Virginia happy birthday wishes and to take the opportunity to share a bit about my State with the rest of the country.

I urge anyone who has not visited West Virginia to do so, to see and experience for themselves the great natural beauty, the friendly people, the exquisite art, recreation, and cultural sites and events that fill our mountain home.

As a State, West Virginia is a youthful 144 years old. As a unique piece of geography, West Virginia is, of course, much older. The Appalachian Mountains that define West Virginia's geography today are but the worn remains of a once-high alpine plateau similar to Tibet, rising some 10,000 to 18,000 feet high, flanked on the south and on the east by the Allegheny Mountain Range, which may have once exceeded today's Himalaya Mountains in height.

Of course, that was a long time ago, perhaps 250 million years ago, when the great wedge of coastal sediments deposited during the earlier Devonian and Carboniferous periods were thrust up toward the heavens.

Today, a bit of that alpine experience can be found in Tucker County and in Randolph County, in an area known as Dolly Sods. Filled with upland bogs, beaver ponds, and flat rocky plains, Dolly Sods is a bit of northern Canada transplanted into West Virginia, complete with beautiful fall color and harsh winter weather.

The rock that forms West Virginia's mountains, that is seamed with the State's famous coal deposits, was laid down some 320 to 286 million years ago, when West Virginia was part of a vast complex of coastal swamplands. In this endless tropical forest of primitive ferns and towering, primitive trees formed layer after layer of peat, compressed into coal seams that average 3 feet thick but which can reach 25 feet in thickness.

When one learns that 12 inches of coal requires approximately 10,000 years of continuous peat accumulation to form, one sees a very different picture of West Virginia. The reminders of this different world can still be found in the coal, in the form of lacy, ferny fossil leaves and stems, the last farewell of a lost world.

In other rock layers, there is evidence of West Virginia's earlier days as well, in the sea creatures forever preserved and now exposed far inland and at elevations well above the sea level that they knew in life.

In the New River Gorge, visitors have the opportunity to view rock sequences from those early years, 320 to 330 million years ago. Visitors can also see a more recent phenomenon in the form of the New River Gorge Bridge, the longest single-arch steel bridge in the world, rising some 876 feet above the water below. Beautiful natural stone works of art may also be seen in the Smoke Hole area and Seneca Rocks in Grant and Pendleton Counties and in many other locations around the State.

West Virginia's natural beauty, as well as its wonderful outdoor activities, can be found in each of West Virginia's 55 counties. From hot air ballooning or soaring to spelunking, from rock climbing to kayaking, hiking, horseback riding, or off-roading, one can be as energetic as one likes. You can also fish, ride a tube down a river, sit around a campfire, or sip lemonade in a rocking chair while you rest and recharge.

West Virginia is not simply for nature lovers, however. The State is full of festivals that celebrate virtually every foodstuff, musical form, and artistic discipline known to mankind. Musical events that range from bluegrass music to symphonies to garage bands, and shopping and sightseeing to please all tastes and interests.

West Virginia is famous, famous for her quilts, pottery, and handmade crafts, but there is also plenty of modern work alongside the homespun favorites.

From rustic campsites to the luxury of the Greenbrier, West Virginia has something for everybody, something for everyone. It could easily take a lifetime to experience everything there is to see and to do. By then, of course, time and nature will have changed a few more things and created new things to see and do.

So as West Virginia celebrates, I hope that you may be inspired to pay a visit. I hope all Senators may be inspired to pay a visit. You ''ain't'' seen nothing yet like it. The daylilies are blooming in great orange rafts of blossoms above the waves of green leaves, welcoming the day. Butterflies and songbirds delight the eye with color like the ribbons on a birthday present. Cool breezes are blowing, the mocking bird is singing, rivers are tumbling between the mountains, singing birthday songs. And tonight the stars will dance for you as West Virginia celebrates.

I close with a poem about West Virginia, by West Virginian Louise McNeill, from her book titled, ''Hill Daughter: New and Selected Poems.'' Louise McNeill was born in 1911 in Pocahontas County and became West Virginia's Poet Laureate in 1979.

WEST VIRGINIA

Where the mountain river flows
And the rhododendron grows
Is the land of all the lands
That I touch with tender hands;

Loved and treasured, earth and star,
By my father's father far—
Deep-earth, black-earth, of-the-lime
From the ancient oceans' time.

Plow-land, fern-land, woodland, shade,
Grave-land where my kin are laid,
West Virginia's hills to bless—
Leafy songs of wilderness;

Dear land, near land, here at home—
Where the rocks are honeycomb,
And the rhododendrons . . .
Where the mountain river runs.

HONORING CHARLESTON'S HEROES

Mr. DEMINT. Mr. President, I rise today to speak about some real heroes and their real sacrifices this week. Late Monday, a horrible blaze in Charleston, SC, claimed the lives of nine local firefighters. Details are still being investigated, but what we know now is these heroes died trying to save lives. We fear most were caught under a collapsed roof in the quick-spreading flames.

My heart goes out to the families, friends, and coworkers of these firefighters. These were courageous public servants. We will miss them dearly. They paid the ultimate sacrifice in the line of duty. In the aftermath, our State's low country must deal with the shock and sorrow of these losses. Our job as citizens is to never forget what they did and to try to turn the shock and sorrow into solemn remembrance and a commitment to help their families.

I also want to mention two other Charleston leaders who are struggling with this situation on the ground: Fire Chief Rusty Thomas, and city of Charleston Mayor Joe Riley. According to news reports, Chief Thomas stayed up Monday night meeting with many of the families of the victims. He was on the scene all night.

The police chief, Greg Mullen, said:

Chief Thomas is a true leader.

I could not agree more. Mayor Riley is no stranger when it comes to dealing with disaster. His leadership during the trying aftermath of Hurricane Hugo was instrumental in our quick recovery. His leadership will greatly aid the Charleston Fire Department now as they attempt to move forward.

Firefighters represent the best our country has to offer. I will never forget these hometown heroes and the tremendous sacrifice they made this week. For the families of those who lost loved ones in Charleston, our words are feeble comfort for them, but we will always honor the memory and sacrifice of these heroic public servants of South Carolina.

For the families and friends of firefighters who remain on the job today, we pray for them as the Psalmist did, that God would be their ''refuge and strength, a very present help in time of trouble.''

Mr. ROCKEFELLER. Mr. President, today is a special day: one which is special to me and the nearly 2 million residents of the State of West Virginia. On this day in 1863 West Virginia entered the Union as the 35th State.

West Virginia is America. West Virginia is a place where people are proud of who they are and not what they have. It is a place where neighbor helping neighbor means something. Where community, faith, and family are not taken for granted.

The area now known as West Virginia was originally settled thousands of years ago by Native Americans. The 17th and 18th centuries saw the first pioneering European settlers who came across the Appalachians looking for an expansive new homestead. The 19th century saw America's darkest hour in the Civil War. But, it was in this conflict that Western Virginia separated from Virginia, standing on its own, faithful to the Union, and earning statehood. From that day to today, West Virginia has been an important part of America.

Our coal powers America. Our steel built America's cities from the ground up. Our timber built America's homes. Our chemical industry has improved the quality of life for all Americans. And yet today, it is another resource, West Virginia's most precious one, this is driving a new generation of West Virginians. West Virginia is home to some of the most pristine natural beauty in our Nation. Visitors from around the country—around the world—come to take in the majestic mountain vistas, explore our forests, celebrate our Appalachian heritage, fish, ski, and hit the links, and most importantly spread time with our people.

So, just who are these people? They have stout hearts, courage, and an unfaltering determination. These qualities are particularly evident in West Virginia veterans like Chester Merriman, the youngest person to serve in World War I at just 14 years of age, or Hershel ''Woody'' Williams, who received a Congressional Medal of Honor in World War II for his heroism during the Battle for Iwo Jima, epitomize how West Virginians have proudly served their country no matter when—from the Civil War to today's conflicts in Iraq and Afghanistan. Today, there are more than 200,000 veterans living in the State giving West Virginia the highest per capita of any State in the country.

I could go on and on and say the same thing about West Virginia's coal miners, steel workers, loggers, and chemical plant workers all of whom are truly the hardest working, finest people you ever spend time with. I know because I have.

West Virginia is my home and I am proud of that. I feel genuinely blessed to have been able to serve the people of West Virginia for as long as I have. West Virginia Day has always been a day resonating deeply inside of me and my fellow West Virginians. Happy 144th Birthday West Virginia! I ask that you, my distinguished colleagues join us in our celebration.

EMPLOYEE FREE CHOICE ACT

Mr. LEVIN. Mr. President, I am pleased to cosponsor the Employee Free Choice Act sponsored by Senator KENNEDY. Unions helped build our country. They have led the fight for critical worker safety and worker rights protections that all Americans now enjoy. They help raise wages for low- and middle-wage workers and can help close the gap from rising income inequalities.

Being a part of a union pays off for workers. For example, union cashiers earn 46 percent more than nonunion cashiers. Union food preparation workers earn 50 percent more than nonunion food preparation workers. And union maids and housekeepers earn 31 percent more than nonunion maids and housekeepers. Overall, median weekly earnings for union workers are $191 higher than those of nonunion workers, and this difference is even more significant for minority groups.

Union workers are also almost twice as likely to receive employer-sponsored health benefits and more than four times more likely to have a secure, defined-benefit pension plan than nonunion workers.

The rate of unionization in America is declining and with it workers' income. In 1973, 42.4 percent of workers in Michigan were in unions. By 2006, that number had fallen to just 19.7 percent of workers. As union membership declines, so has Michigan's real median household income, which fell 14.9 percent between 1999 and 2005.

The problem is not a lack of interest from workers. Fifty-three percent of U.S. workers state they would join a union if they could and 62 percent believe they would be worse off if unions did not exist.

The problem is the difficulties that are presented to those who seek to unionize a shop or industry. The current system does not adequately protect the workers that unionization campaigns are supposed to help and support. Workers are fired in 25 percent of private-sector union organizing campaigns. Seventy-eight percent of employers require that supervisors deliver antiunion messages to their employees. One-third of workers who unionize their workplace never even get a contract.

We have a duty to make sure that workers who want to join unions and unionize their workplace can do so, and that's what the Employee Free Choice Act will do.

The most significant provision in the bill allows for a union shop to be created through a process called a majority sign-up. Majority sign-up has been used for at least the past 70 years. In 2004, for example, about five times as many workers joined the AFL–CIO through a majority sign-up than those who were able to unionize through the National Labor Relations Board process. A majority sign up process results in less employer pressure and fewer delays than NLRB elections.

Currently, however, employers do not have to recognize employees that have a majority sign-up as a union, although many responsible companies, including Cingular and Kaiser Permanente, do. This bill would change that—if a majority of workers signs authorizations designating a union as their bargaining representative, then that union would be recognized as such.

Opponents of this bill have spread a great deal of misinformation about this provision. Many people believe the bill would take away an employee's right to a ''secret ballot'' union election. That is not true. This bill would still allow individuals the right to an NLRB supervised election if at least 30 percent of employees want it. This bill also allows employees to form unions using another method as well.

The Employee Free Choice Act would also establish penalties for companies that coerce or intimidate employees and would provide for mediation and binding arbitration when the employer and workers cannot agree on a first contract. In short, it makes needed updates to our labor laws to better protect workers.

By allowing employees to form unions through a majority sign-up, we are supporting a worker's freedom to form a union and to bargain for better pay and better benefits. Experience has shown that this will be a good deal for the worker and a boost for America.

Mr. FEINGOLD. Mr. President, since joining this body in 1993, I have supported a number of initiatives to help the hard working men and women of this country, including increasing the minimum wage, supporting equal pay for America's workers, and promoting better trade policies. One piece of legislation that would help American workers is the Employee Free Choice Act, EFCA, and I am proud to be an original cosponsor of EFCA again this Congress. I commend my colleague, the senior Senator from Massachusetts, Senator KENNEDY, for his hard work on this legislation, as well as his longstanding dedication to improving the quality of life for America's working people.

One of the best things we can do for American workers is to remove obstacles that make it harder for them to form and join unions. As many of my colleagues will likely point out in the

course of this debate, more than 60 million U.S. workers say they would join a union today if they could. Further, workers who belong to unions earn 30 percent more than nonunion workers, are 62 percent more likely to have employer-provided health care, and are four times more likely to have a pension. Better wages and better benefits help lift Americans out of poverty and into the middle class. Far too many Americans are working for wages that keep them at or below the Federal poverty line with little, if any, opportunity to bargain for better wages and benefits or advance to a better-paying position.

The Employee Free Choice Act would address some of the inequities in the current system of collective bargaining in the U.S. Many critics of this legislation focus on the card check provision, but there is much more to this legislation than just the method of voting. This bill provides for first-contract mediation and arbitration. Importantly, if an agreement has not been reached after 90 days of negotiations, either the employer or the employees can refer the dispute to the Federal Mediation and Conciliation Service for mediation. Clearly, under the ideal negotiation this would not be necessary, but it is an important option for employees to have in the collective bargaining process. The bill also provides for stronger penalties for employer violations while employees are attempting to form a union. Employers who intimidate workers attempting to unionize should face appropriate consequences.

While I understand that the vote on cloture on the motion to proceed to the Employee Free Choice Act may not be successful this week, this fight is far from over. Over the last 2 years, I have received over 1,500 letters, calls, and e-mails in support of this legislation from my constituents, and their voices mean a great deal. I support passage of this legislation for the hard-working Wisconsinites who deserve better from us. I am disappointed that more of my colleagues have not joined in supporting this bill, and I hope that they will rethink their opposition to this bill. I will continue working to pass this important legislation.

30TH ANNIVERSARY OF THE TRANS-ALASKA PIPELINE

Mr. STEVENS. Mr. President, on June 20, 1977—30 years ago to this day—oil began flowing through the Trans-Alaska Pipeline System. This event represents an important milestone in Alaska's history and a watershed moment in our struggle to secure America's energy independence.

My distinguished colleague from Alaska, Senator LISA MURKOWSKI, spoke at length about the history of the Trans-Alaska Pipeline before we adjourned last night. As she so vividly illustrated, its creation was a monumental undertaking which required the hard work of countless individuals.

During the long political fight to allow this important project to proceed, members of the environmental lobby claimed the pipeline would devastate Alaska. History has proven these critics wrong—responsible development and attentive stewardship have ensured the continued protection of our State's wildlife and lands.

Even after the Arab oil embargo in 1973, the Senate remained closely divided on this matter. In fact, a tie vote on the authorizing legislation was not broken until Vice President Spiro Agnew cast the decisive vote in its favor. My own vote on that bill still ranks as one of the most memorable I have ever cast.

When construction began in 1974, this project was the largest ever financed by private capital. Engineers faced staggering challenges as they plotted a route across 800 miles of rugged terrain and three major mountain ranges. Various geographic hurdles also necessitated the construction of seven airfields, dozens of bridges, and a 360-mile-long road to connect Prudhoe Bay to Fairbanks.

Just more than 3 years after construction started, however, the Trans-Alaska Pipeline was ready to operate. Since then, more than 15.5 billion barrels of crude oil have been sent from Alaska's North Slope, through the pipeline to Valdez, and on to refineries throughout the country.

The revenues generated by this production have had a tremendous impact in Alaska and throughout the United States. Over the past 30 years, North Slope oil production has added more than $300 billion to the U.S. economy and reduced domestic oil imports by more than $200 billion. Energy will always cost money, but instead of sending our dollars overseas, North Slope oil production—made possible by the Trans-Alaska Pipeline—has greatly contributed to economic growth here at home.

In Alaska, the economic effects of the Trans-Alaska Pipeline are even more apparent. Last year, revenues from oil production and transportation accounted for nearly 90 percent of the State government's total income—funds which were then used to help pay for our schools, our roads, and other important projects. North Slope oil revenue also provides the foundation for the permanent fund dividend, which will help assure the well-being of future generations of Alaskans.

When oil began to flow through the Trans-Alaska Pipeline in 1977, gasoline cost a mere 38 cents per gallon. Today, the nationwide average has soared to $3.00 per gallon, and many experts predict this price will reach $4.00 by the end of summer.

As those of us in the Senate continue to debate a comprehensive energy policy for our Nation, we must take note of the consequences of 30 years of oil production in Alaska. Instead of the ecological disaster many predicted, the Trans-Alaska Pipeline has been an economic lifeline for our Nation. It continues to prove we can balance environmental concerns with the production of our natural resources. I urge my colleagues to heed this lesson.

TRAVEL PROMOTION ACT

Mr. STEVENS. Mr. President, I am pleased to speak in support of the Travel Promotion Act of 2007, which I introduced late yesterday with Senator INOUYE and Senator DORGAN.

Our legislation has a simple purpose: To increase the number of foreign tourists who visit the United States.

To accomplish this goal, two complementary strategies must be undertaken: existing travel problems must be resolved, and fundamental improvements must be made to the manner in which we market our country to prospective tourists.

First, the efficiency of our border entry and screening processes must be improved. The Commerce Committee recently held two hearings on this issue, and industry leaders testified about the adverse effect September 11, 2001, has had on travel to the United States.

Heightened security measures implemented after 9/11, while necessary, continue to inconvenience many travelers. We heard witnesses describe the aforementioned difficulties international visitors face with regard to our Nation's entry and screening processes, including the issuance of visas.

To address these problems, the Senate has already passed legislation that establishes a ''Model Ports'' program at the 20 busiest international airports in the United States. This program should reduce bottlenecks to safely and efficiently move travelers through the screening process.

The legislation we introduced yesterday, the Travel Promotion Act, would establish a nonprofit corporation to promote travel to the United States. This entity would not use one cent of taxpayer funds.

Instead, this corporation will be funded by fees paid by travelers who enter our country and matching contributions from members of the travel and tourism industry.

The corporation would be led by experts in the travel and tourism industry, appointed by the Secretary of Commerce, and held accountable by Congress. This essential step will let foreign visitors know that our country is open to tourists.

The travel and tourism industry plays an important role in every State. Those of us in Congress should take steps to resolve these pressing issues and encourage tourists to visit America.

In my home State of Alaska, the travel and tourism industry is the second largest private sector employer. More than 24,000 Alaskans hold tourism-related jobs, and the industry contributes more than $2 billion to our State's economy each year.

I look forward to working with my colleagues on this legislation.

HONORING OUR ARMED FORCES

TECHNICAL SERGEANT RYAN A. BALMER

Mr. HATCH. Mr. President, I rise today to pay humble tribute to TSgt Ryan A Balmer, who died of injuries sustained after the denotation of an improvised explosive device in Kirkuk, Iraq. A native of Mishawaka, IN, Sergeant Balmer was a member of the Air Force Office of Special Investigations and assigned to Hill Air Force Base, UT.

Sergeant Balmer was truly a special man. He was an individual deeply loved by all who knew him for his kindness, his positive outlook on life, and his infectious smile. Friends close to Special Agent Balmer say he was someone you always wanted to be around. They remembered a man who possessed the unique gift of being able to bring out the best in everyone and at 6 feet 2 inches tall he commanded respect wherever he went.

I understand that Sergeant Balmer was scheduled to come home only days after his passing. I would like to take this opportunity to extend my most heartfelt condolences to his wife Danielle and to his three children. I want to reiterate what they already know, that he saved lives and by his sacrifice that we, as a Nation, enjoy the great blessings of freedom so often take for granted. TSgt Ryan A. Balmer is an American hero in every sense of the word.

The sergeant and his family will be in my prayers forever.

SERGEANT JESSE A. BLAMIRES

Mr. President, today I rise to pay tribute to one Nation's fallen sons, SGT Jesse A. Blamires. Sergeant Blamires was a native of Sandy, UT, and a member of the 82nd Airborne Division. He was killed in a helicopter crash in Afghanistan.

Sergeant Blamires had a lifelong connection to our Nation's military. His father Craig Blamires, with whom the sergeant enjoyed camping, also served his country in the Army. Eager to pursue his dreams of service, Sergeant Blamires followed his father's footsteps and joined the U.S. Army.

The sergeant was known as a man dedicated to reaching his goals. This was reflected by his recent promotion to crew chief. One day he hoped to become a helicopter pilot, a goal I am certain he would have accomplished.

His service in Afghanistan was not the first time Sergeant Blamires had been in harm's way. In 2005, he served a tour in Iraq. Well-respected by his commanders and fellow soldiers, Sergeant Blamires was known for his ability to make others laugh and his willingness to help others in need.

However, undoubtedly, his most important life's work was as a family man. In addition to two caring parents and five supportive brothers and sisters, Sergeant Blamires is survived by his wife, Kim and their two young daughters.

Sergeant Blamires was a man who truly lived an abundant life. Although his calls to service often required him to be away from the family he loved, there was nothing Sergeant Blamires desired more than to be with his family. Fellow serviceman, SSG Ronald Walton recalls that Sergeant Blamires, ''dreamt of being a better husband and father to his two girls and he talked of it often.''

What a fine man.

What an extraordinary life.

We will always remember his dedicated service to our Nation, and it is my fervent hope that he and his family remain in our prayers.

STAFF SERGEANT VIRGIL C. MARTINEZ

Mr. President, I stand here today to pay tribute to a hero, SSG Virgil C. ''Chance'' Martinez. Sergeant Martinez was a member of the 1st Infantry Division's 1st Battalion, 7th Field Artillery Regiment and recently gave his life while serving his country in Iraq.

From the time Sergeant Martinez was a 5-year-old boy, he felt a duty-bound responsibility to follow in the footsteps of his stepfather and answer his country's call to service. His sister Kim Austin-Oliver said of her brother ''We knew at a very young age that he was going to be a soldier. It is who he has always been.''

As a teenager, Sergeant Martinez enjoyed playing on his high school ski and football teams. Shortly after graduating from high school in 1992, he would achieve his life long ambition and join the U.S. Army.

I understand that Sergeant Martinez was a man deeply devoted not only to his country but also to his family. When speaking of his lost stepson, Daniel Oliver noted, ''Chance would do anything and everything for his children and for his mother . . . he was like the Disneyland father—wanted to show his children everything.'' Sergeant Martinez was the husband to wife Mandy and father of five beautiful children.

I would like to close my remarks by highlighting an observation made by Sergeant Martinez's sister. Kim Austin-Oliver commented that Sergeant Martinez died doing what he had always wanted to do, and that is, serve his country.

I can think of no truer definition of a hero. Sergeant Martinez and the family he has left behind will forever remain in my memory and in my prayers for his selfless service to our Nation.

CORPORAL MICHAEL A. PURSEL

Mr. President, I rise to pay tribute to one of Utah's fallen sons, CPL Michael A. Pursel. Corporal Pursel, a member of the 2nd Infantry Division, recently lost his life in Baqubah, Iraq. He was 19 years old.

Corporal Pursel is actually a two-time volunteer. His service began when he joined the Army and he then volunteered to replace other soldiers from the 2nd Infantry Division. In fact, Corporal Pursel not only answered that call, but was one of the first to offer his service.

I have been informed that Corporal Pursel belonged to a family of great patriots, many of whom have served in the military themselves. This includes both of Corporal Pursel's parents. His mother Terry Dutcher, who is a Captain in the Air Force Reserve, said of her son, ''Michael was doing what he always wanted to do . . . he died living his dream.''

In memory of the life of this great soldier would submit to you that the dream of serving one's country—the dream that CPL Michael A. Pursel achieved—is a dream that more Americans must embrace. Although young in years, Corporal Pursel understood the premise that to serve one's country extends far beyond the notion of being active in one's military duty. To serve one's country enables the rest of us to enjoy our Nation's greatest gift: freedom. This was at the very core of his service and how Corporal Pursel lived his life, the life of a hero, the life of one who will forever be remembered in my prayers.

This country owes CPL Michael A. Pursel a great debt of gratitude. He shall forever be remembered and honored for his service to our Nation.

JUNETEENTH DAY

Mr. KOHL. Mr. President, I rise to recognize Juneteenth Day, a yearly commemoration of the abolition of slavery in our country.

As a nation we value and appreciate the freedom and independence Juneteenth Day represents. Historically, Juneteenth Day has been a celebration of our country's rich African-American heritage and has promoted awareness about the history of African American sacrifice.

A great celebration took place on June 19, 1865, when slavery was finally abolished 2 years after the Emancipation Proclamation. Fishing, festivals, barbecuing and baseball are just a few of the typical Juneteenth activities people enjoy today. Juneteenth has long been a day of education and enlightenment and often includes guest speakers and prayer services.

I believe that observing Juneteeth Day is necessary to truly embrace the equality and freedom our country represents. We live in a culturally diverse

nation and celebrations like Juneteenth Day encourage us to understand and respect the differences that make our country great.

It is imperative that we continue the work of achieving racial and ethnic harmony and I am honored to acknowledge this important day. I commend the tremendous dedication of the people who participate in the annual Juneteenth Day celebrations.

DYSTONIA

Mr. DODD. Mr. President, I take this opportunity to call attention to a very serious, painful neurological disorder, dystonia, that affects many muscle groups simultaneously. We recently commemorated Dystonia Awareness Week and I would like to call further attention to this serious disorder.

Dystonia is a painful disorder characterized by powerful involuntary muscle spasms. The spasms cause twisting, repetitive muscle movements, sustained postural deformities, and debilitating physical ailments. Although most forms of dystonia cause no mental damage, people living with dystonia are often prisoners in their own bodies. Currently, no cure is known and available medical therapies can only superficially address the symptoms.

Approximately 50 percent of people with dystonia have a genetically inherited form whereas birth injury, physical trauma, exposure to certain medications, surgery, or stroke is the cause for the other 50 percent. Dystonia is not selective, occurring in all racial, ethnic, and age groups. It is significantly more common than Huntington's disease, muscular dystrophy, and Lou Gehrig's disease. Given the prevalence and dystonia's impact on so many Americans as well as the limited treatment options available, I am pleased to support the goals of Dystonia Awareness Week. The Dystonia Advocacy Coalition through the commemoration of Dystonia Awareness Week and several other outreach activities seeks to raise awareness of dystonia's impact on the quality of life of 300,000 people in North America.

I call on my colleagues to support increased funding for the National Institutes of Health to support needed advances in dystonia research. Research is needed to develop reliable tests to diagnose dystonia as well as access to new treatment options to improve the lives of people living with this terrible chronic disease. Until we can find a cure for dystonia, I respectfully ask my colleagues to make a prolonged commitment to the dystonia community that goes well beyond Dystonia Awareness Week.

ROBERT STURM

Mr. CHAMBLISS. Mr. President, I rise today to pay tribute to an honest, humble and dedicated servant of the United States Senate who has decided to turn in his Senate badge and enter retirement. For over 33 years, Robert E. Sturm, has selflessly served the Senate in various positions. His humble beginnings can be traced to his first Senate position as a mail clerk for Senator Birch Bayh in 1974. Bob undoubtedly performed his duties in an exemplary fashion, for his Senate career continued in the offices of Senators Dick Clark, Donald Stewart and Russell B. Long. He eventually rose to the respected position of chief clerk of the Senate Committee on Agriculture, Nutrition and Forestry, and has served in that capacity for five current U.S. Senators including Senator PATRICK LEAHY, Senator RICHARD LUGAR, Senator TOM HARKIN, Senator THAD COCHRAN, and myself. After enjoying a 33-year career in the United States Senate, I speak on behalf of all of those who have had the pleasure of serving with Bob when I say; your retirement is well deserved.

I would like to share with you all the uniqueness of Bob's character, kind spirit and devotion to his position as chief clerk. Whether addressing an intern or chairman of a Senate committee, Bob always displayed the same measured approach, graciousness, patience and understanding. Bob never hesitates to place the needs of others before his own. It is commonplace for Bob to spend late nights at work in preparation for farm bill mark ups, accommodate last minute travel requests from impatient Senators and staff alike, fly to the furthest reaches of our great Nation to set up hearings, or answer any procedural question with the temperance of a man who has not answered the question a thousand times before. Robert Sturm is that indispensable part of your staff upon whom you grow so reliant, you wonder how you will function in his absence.

Bob, while a patient and understanding man, is not shy about enforcing the rules of the Senate Agriculture Committee which he loves. Any visitor to a Senate hearing who attempted to open a newspaper during the hearing, spoke too loudly from the audience or attempted to pass out materials not reviewed and approved by Bob, knows how quick the wrath of Bob Sturm can be meted out. Similarly, Bob guarded the Senate Agriculture Committee hearing room with diligence and insisted that its appearance always reflected the high esteem in which he held the committee and this august body.

During my first hearing as chairman, I remember reaching for the gavel to call the hearing to order. As I looked down at the gavel, I was shocked to find that someone had placed my name on it. Humbled by this kind act, I turned to my staff and quietly asked, ''Who did this?'' The answer was of course Bob Sturm. During my chairmanship, I could always depend on Bob to place a few bags of my beloved Georgia peanuts at the seat of each Senator attending the hearings. It is the little things like this that exemplify Bob's attention to detail and willingness to serve. I also remember when the Agriculture Committee traveled around the country in the summer of 2006 to eight different farm bill field hearings. Bob was on the front lines of every hearing—from educating staff on how to select an appropriate hearing site, traveling in advance to prepare for the hearing, arranging all the necessary travel, hotel accommodations and food, to running the actual hearing—Bob was in control. Even after being exhausted from continuous travel, Bob was always the first one to arrive and the last one to leave each hearing and I never heard one word of complaint. Bob, as in the performance of all his duties, was meticulous and saw things through to the end. I will always be grateful for his devotion.

Let me finish by saying, Bob, that the Senate will sincerely miss you and most of all we thank you for your loyalty and the model of service you leave behind. Best of wishes on a healthy and happy retirement with your family. It is certainly well deserved.

ADDITIONAL STATEMENTS

TRIBUTE TO CLAY PARK

• Mr. AKAKA. Mr. President, I have often said that one of my roles as a Senator is to reflect Hawaii, and show people the meaning of aloha through my own actions. Aloha is not passive, it is not easy, but it can make a difference in people's lives. I am reminded of just how inspiring and effective aloha can be by one of my constituents, William Clay Park. I remember seeing Clay at a Senate Committee on Veterans' Affairs hearing on the island of Oahu last year. I was impressed by how he exemplified the spirit of aloha. More recently, Clay was featured in Hawaii Business Magazine for his personal story, and his professional work for Hawaii's veterans. I will ask to have the text of this article in Hawaii Business Magazine printed in the RECORD following my statement.

Clay was born and raised in Hawaii, rooted in the Native Hawaiian values of his ''ohana,'' or family. As a young man he joined the Army, and served in the Vietnam war. The war took a toll on Clay, but after leaving the Army he joined the National Guard, and started what would become a 30-year career with VA as a dental lab technician.

In 2003, Clay had retired from VA and the National Guard, and that could have been the end of his career of serving his country and his fellow veterans. Instead, he answered a call from a

friend and learned that Helping Hands Hawaii, a nonprofit social services organization, was in need of help. Once at Helping Hands Hawaii, he realized that Hawaii veterans needed someone like himself to help them through the bureaucratic maze of VA benefits. They also needed someone with his kind of aloha.

Although he has only been with Helping Hands Hawaii for a few years, Clay's colleagues can already tell scores of stories about the length he will go to in order to reach veterans and help them. Those stories include hiking through Hawaii's dense forests in search of disconnected veterans who have taken to the bush. While many people pass by homeless veterans on their city streets, Clay makes it his responsibility to reach out to them, and get them the help they need.

The greatest price of war are its human costs, and many veterans pay that price long after they have returned from service. Our Nation needs more people like Clay Park, to show veterans that a grateful Nation is not willing to let them be forgotten, and will provide a helping hand when they need one.

Mahalo Clay, for being an example of the resilience and power of aloha.

Mr. President, I ask unanimous consent to have the aforementioned article from Hawaii Business Magazine printed in the RECORD.

There being no objection, the material was ordered to be printed in the Record, as follows:

[From Hawaii Business, May 2007]

CASUALTIES OF WAR

(By David K. Chao)

Clay Park joined the Army on a whim. Fresh out of Waialua High School, the 17-year-old was trying to support a friend, who didn't want to go to the recruitment office by himself. The friend wound up failing the physical, but Park passed. In 1966, after being trained as a combat medic and dental technician, he was shipped off to Vietnam, where he saw some of the heaviest fighting of the war, including the Tet Offensive in January 1968.

Park left the Army later that year and went on to a nearly 30-year career as a dental lab technician for the Veterans' Administration (VA). He also served as a National Guardsman for 24 years, retiring as a master sergeant in 2000.

Today, Park is a case manager for Helping Hands Hawaii, a nonprofit social services organization with a wide-ranging mission, which includes helping veterans in need of physical and mental health assistance. Earlier this year he was honored by Helping Hands Hawaii as one of the individuals ''for whom service is as much a part of life as breathing . . . .''

Park took some time off from his busy schedule to talk with Hawaii Business about veterans in need. Post Traumatic Stress Disorder and the coming mental health crisis that may overwhelm Hawaii and the rest of the country.

Tell me about how you started at Helping Hands and what it is you do there?

I retired from the VA in 2003 and shortly after Dr. Luke [Helping Hands Hawaii senior program director Dr. Stanley Luke] called me and told me he needed some help. I used to work with him at the VA. I didn't have any training in social work or mental health, but he thought that I could help with cultural competency [assisting with the Native Hawaiian clients]. I was only supposed to work for six months, but that was three years ago and now I help all veterans and their families.

As a case manager, I walk a veteran through the system—how to apply for VA benefits. I find them housing and food. I always carry canned goods in the back of my truck, just in case. For me, it's about being an advocate for vets, who really don't want to go through the system, but they need to talk to someone. I've gotten a few calls from wives, who say, ''I want my husband back. This is not the man I married.''

You've gone to some unusual lengths to find veterans and get them help. Can you tell me about that?

The last vet that I found was on the side of the Pali. He wasn't very high up, somewhere between Pali Highway and Kamehameha Highway, but in the deep, thick stuff. I'm an avid pig hunter, so it wasn't very hard tracking him down. I found a guy on Diamond Head once and I only had a brief description: Caucasian male, who lives under a blue tarp. That wasn't very hard either, once the police told me where the homeless are. Most of the time, they aren't in the mountains. They're in the city or on the beach. But I find them, and we talk and I bring them in.

What has happened to these veterans?

No one walks away from war unaffected. Everyone is wounded. You may not be hurt physically, but you are definitely affected mentally. Why is that? Why is it that a guy comes back and gets married and lives the Great American Dream—the house, the dog, the kids. But then, in his 50s or 60s, he takes a shotgun and blows his brains out. Why is that? It is because, when you are young, you stay busy. But as you get older, your body slows down, but your mind doesn't. And you can't cope. The ghost is always there and he comes to bite you every once in a while. Sometimes you just can't keep him in the closet.

Look what's happening now. The American forces are low, so they are sending these guys on two or three tours of duty. They come back with PTSD (Post Traumatic Stress Disorder), and they think they have fixed them up. And then they send them on their second tour. And they come back and they are worse, and they send them out for a third time.

Are you seeing a lot of Afghanistan and Iraq veterans?

I've seen a few, guys from my National Guard unit. But it's really too soon. But we'll see them, and it's going to get nasty.

How so?

The problem is that they activated units that have soldiers in their 40s and 50s. They are married and have children and jobs. When we went, we were full of piss and vinegar. We were wet behind the ears and we didn't give a damn about anything. When you go to war when you're older, your body isn't as strong as the young guys and your thinking is much different. It [your mind] can be damaged more easily and more deeply. They are saving limbs and putting in glass eyes, but what are they doing for these soldiers' mental instabilities? They are trying, but there isn't enough. They can't keep up. It is ugly. An ugly picture.

Do you have a ghost?

Big time. But it is how you deal with it. And what you do with it. When that ghost comes out, do you let it drag you down, or do you put it back? When I came back [from Vietnam] I was angry. I was angry at the world. People were protesting the war, but they didn't know what war was really like. All they knew was what they saw on TV. Eventually, I got busy, very busy. I learned how to drive all kinds of things, big trucks, planes, so I could be in control. I looked for natural highs, like flying. Helping people is another high.

When I'm with a vet on the beach or in a park, I'll ask him: ''What do you see?'' They don't know what I'm talking about. I tell them: ''I see life. I see birds, trees and the sun. Today is today. Tomorrow may never come and yesterday is gone.''

You're just one person. What you're describing is a potential mental health crisis of epic proportions. Won't you be overwhelmed?

I may be one guy from Helping Hands but, I've got ''the Uncles,'' Victor Opiopio, Sam Stone, Charles Kanehailua, James Opiana and all their wives. These are all guys who are part of my core group of veterans, who are willing to sit down and talk to these guys [fellow veterans in need]. They [the Uncles] aren't getting paid. They are a network of people out there, who are willing to take a guy by the hand and walk them through the system. I've also got a gal at the VA who wants to help our group, as well as a VA doctor. We're a small group but we're thinking about the big picture. Are we prepared for what is going to happen? No. But if you can help one vet at a time, you're doing something. We can't just sit back and do nothing. I don't have time to do nothing. I don't.●

CONGRATULATING DR. RAMON SY

● Mr. AKAKA. Mr. President, I congratulate and extend my warmest aloha to Dr. Ramon Sy, who was selected as Hawaii's national recipient of the Jefferson Award. The Jefferson Award is a prestigious award recognizing and honoring individuals for their contributions to community and public service. Dr. Sy, through his Aloha Medical Mission, has helped to provide medical treatment to thousands of individuals in the Pacific and Asia, who are unable to access modern medical care due to cost or availability.

A native of the Philippines, Dr. Sy and seven other members of the Philippine Medical Association of Hawaii established the Aloha Medical Mission in 1983. The Aloha Medical Mission provides voluntary medical, surgical, and other health-related services, which include the donation of supplies and equipment, to medically indigent areas of Southeast Asia and the Pacific. In addition to providing access to health services, the Aloha Medical Mission also provides training to physicians overseas and through an exchange fellowship program in Honolulu, HI.

Dr. Sy is responsible for furthering the development of the Aloha Medical Mission from a small group of doctors to an organization well known within the international community. Since the establishment of the Aloha Medical Mission, Dr. Sy and his colleagues have served in 11 countries, treated 200,000

patients, and performed over 9,000 operations. His commitment to ensuring that medical care is accessible in both Hawaii and abroad demonstrates his compassion and undying concern for others. He is an inspiration to all because of his willingness to embrace the problems of those less fortunate. I hope that many will aspire to follow Dr. Sy's example by making a commitment to making a difference.

I thank Dr. Sy for his dedication and quality efforts and extend the same gratitude to all the members of the Aloha Medical Mission. I wish Dr. Sy and his family the best in their future endeavors.●

GILA CLIFF DWELLINGS CENTENNIAL

● Mr. DOMENICI. Mr. President, I would like to honor and give special attention to the 100th anniversary of the establishment of Gila Cliff Dwellings National Monument in my home State of New Mexico. On November 16, 1907, President Theodore Roosevelt signed the proclamation that recognized the Gila Cliff Dwellings and 533 surrounding acres as a national monument being what he called, ''of exceptional scientific and educational interest . . . as the best representative of the cliff-dwellers' remains of that region.'' This unique monument, nestled among the spectacular scenery of the Gila National Forest, was once the home to the people of the Mogollon, who lived along the East fork of the Gila River during the late 13th and early 14th century. It is at that place where these impressive builders constructed a 42-room collection of homes in 5 spacious sandstone caves high along the face of a small creek-canyon. Today, this monument gives Americans a glimpse of the great cultures and societies that once occupied the North American Continent prior to the arrival of European settlers.

This year-long centennial celebration is more than just an appreciation for the unique beauty that is defined by the many special places like this in New Mexico. In commemoration of this special centennial event, an unexcavated surface site referred to as the TJ Ruin will be open for a limited number of guided tours. Over the next few weeks other exciting events such as Stories in the Stars, Stories in the Shards, Rock Art and Storytelling will be taking place. There will be a number of other events, including an exhibit opening at the Silver City Museum, cowboy poetry, music, Dutch oven cooking, and Chiricahua Apache Culture Days that will be held throughout the remainder of the year to entertain those visiting the area and to celebrate the 100th anniversary.

The attractive weather and abundance of forest and desert flora and fauna in the Gila region of southwest New Mexico attracts over 60,000 visitors every year who contribute to the economies of southwestern New Mexico cities and towns such as Silver City, Cliff, Deming, Bayard, and Lordsburg. With over 1,500 miles of trails, the opportunities for mountain biking, hiking, and horseback riding are endless. There is also a great abundance of wildlife that roam the Gila region. For the fisherman, there is over 360 miles of mountain streams, creeks, rivers, and lakes that are a precious resource in the Southwest.

The outdoors reminds us all of the things we hold so dear. Public lands make up over one-third of the United States, most of which is in the West. Those of us from the State of New Mexico cherish the open spaces afforded by the West. Like the Mogollon, we are reminded daily of our dependence on the land and therefore take a devout interest in its health and management. The Gila Cliff Dwellings and the Gila National Forest remain much the same as so many years ago, and I am glad this will be the case for generations to come.

The next time you happen to be in New Mexico, I encourage you to come visit and take some time to enjoy all New Mexico has to offer. From the many beautiful mountains, to the rivers, the canyons, the wildlife, the culture and the history—the marvelous place we call the Gila has it all. New Mexico is a great place, and the Gila Cliff Dwellings help make it so. To all, past and present, who have worked hard to preserve the Gila Cliff Dwellings, I extend a heartfelt thank you and honor you this centennial year.●

RECOGNIZING B. BENEDICT GLAZER ELEMENTARY SCHOOL

● Mr. LEVIN. Mr. President, I am pleased to take this opportunity to commemorate the 40th anniversary of B. Benedict Glazer Elementary School and to congratulate the principal of Glazer Elementary, Florene McMurtry, on her retirement after 20 years of dedicated service and leadership. B. Benedict Glazer Elementary School celebrates this milestone today as a part of its annual 5th Grade Class Day.

On May 5, 1967, the Michigan House of Representatives passed Resolution No. 99 in honor of Dr. B. Benedict Glazer, Rabbi of Temple Beth El in Detroit, to formally recognize his 11 years of outstanding service to the congregation of Temple Beth El and to the State of Michigan. The resolution also paid tribute to the decision to name an elementary school in his honor. Dr. Glazer was nationally recognized as an exceptional scholar, teacher, and leader, and was well known as an advocate for uniting people of different faiths. Dr. Glazer was also at the forefront of many struggles for basic human rights, fighting for improved conditions in Michigan's mental health facilities and against various forms of racial and religious discrimination, among other noble causes.

I am proud to also recognize the many accomplishments of Glazer elementary students, which is undoubtedly the direct result of the hard work and dedication of its students, faculty and staff. Glazer was recently selected as a Leadership School by the Schools of the 21st Century and enjoys the distinction of being awarded the $100,000 Skillman Improvement Grant, the highest award among six elementary schools included in the 2007 high performing category out of 300 Detroit elementary schools. This grant is expected to help fund several worthwhile initiatives, including a GED certificate program and the purchase of additional computers to assist parents of Glazer students who have not completed high school.

The principal of B. Benedict Glazer Elementary School, Florene McMurtry, has served the Detroit Public School system in various positions for 35 years. Her passion for education is illustrated by the many notable successes she has enjoyed throughout her career as an educator. An example of her innovative approach to education was the partnership she helped form between Glazer Elementary School and Temple Beth El in 1998 to provide financial resources and tutors for students through the Glazer Elementary Ada S. and Rabbi B. Benedict Glazer Memorial Fund. Mrs. McMurtry also established the tradition of presenting dictionaries as the Glazer Memorial Prize to honor the most outstanding boy and girl student for Class Day. In 2001, Mrs. McMurtry established the InsideOut Literary Arts Project at Glazer with a writer-in-residence who integrates creative writing and drama in the school curriculum and publishes the students' work. To date, seven poetry books have been written and published.

Mrs. McMurtry has proven herself to be a devoted educator. Through her dedicated leadership and the many programs she has initiated and led, she has managed to increase parental involvement in school, student access to resources, and has served as a liaison between the students and the community. In addition, Mrs. McMurtry has received many accolades over the years in recognition of her outstanding service, including the Principal of the Year Art Award in 1996 and 2001, the Distinguished Service Award, City of Detroit in 1985 and she was a finalist for Michigan Teacher of the Year in 1984–1985.

I know my colleagues in the Senate join me in recognizing B. Benedict Glazer Elementary School on its 40th anniversary and its principal, Florene McMurtry, on her impressive record of service to the Detroit Public School system.●

HONORING GEIGER BROTHERS

• Ms. SNOWE. Mr. President, today I recognize an outstanding, family-owned small business from my home State of Maine that recently received the Gannett Family Business of the Year Award from the University of Southern Maine's Institute for Family-Owned Business. A promotional products distributor, Geiger Brothers of Lewiston has been in operation since 1878. Incredibly, the Geiger family has been in charge of the business for the entire time—a total of four generation.

Geiger Brothers was originally founded in Newark, NJ, with a staff of four, two of whom were Geiger brothers. Since then, Geiger Brothers has undergone dramatic transformations, moving to Maine over half a century ago, and expanding to 500 employees between the Lewiston office and several field offices. While the Geiger name may not jump out at people from outside of Maine, the name ''Farmers' Almanac'' is universally known. Published yearly, the ''Farmers' Almanac'' is famous for its weather forecasts, gardening tips, and recipe suggestions. It is a source of great pride for my home State of Maine that Geiger Brothers publishes the ''Farmers' Almanac.''

It is no surprise that Geiger Brothers has won the Gannett Family Business of the Year Award. In fact, there is no lack of accomplishment or recognition in Geiger's history. The recipient of the Margaret Chase Smith Maine Quality Award, the FedEx Gold Level Supplier, and the Maine State Chamber of Commerce Maine Investors Award, Geiger's list of commendations recently grew to include the Advertising Specialty Institute's Family Business of the Year and a 2006 Best Places To Work In Maine award.

In addition to publishing the world-renowned ''Farmers' Almanac,'' Geiger Brothers has consistently lived by a philosophy of community service. When, in 1988, the company ''adopted'' the Montello Elementary School in Lewiston, then-President George H.W. Bush awarded them with a ''Point of Light'' in celebration of their service and volunteerism. Since then, Geiger Brothers has continued to organize similar partnerships across Maine, and the company's employees have donated their time to worthwhile causes all across the Lewiston-Auburn area. In addition, employees live by ''The Geiger Way,'' a set of values focused on respect for all involved in the business, from employees to clients and everyone in between. The generous and benevolent spirit of Geiger Brothers is assuredly a shining example to all small businesses.

Congratulations to Gene Geiger, CEO and president; to Peter Geiger, executive vice president; and to all of Geiger Brothers' accomplished employees on their most recent honor, and all of the awards they have received. It is no wonder that Geiger Brothers has been recognized so consistently throughout the years with their dedication and willingness to serve. I wish them continued success and many more editions of the ''Farmers' Almanac.''•

REPORT OF THE VETO OF S. 5, THE STEM CELL RESEARCH ENHANCEMENT ACT OF 2007—PM 18

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was ordered to be held at the desk:

To the Senate of the United States:

I am returning herewith without my approval S. 5, the ''Stem Cell Research Enhancement Act of 2007.''

Once again, the Congress has sent me legislation that would compel American taxpayers, for the first time in our history, to support the deliberate destruction of human embryos.

In 2001, I announced a policy to advance stem cell research in a way that is ambitious, ethical, and effective. I became the first President to make Federal funds available for embryonic stem cell research, and my policy did this in ways that would not encourage the destruction of embryos. Since then, my Administration has made more than $130 million available for research on stem cell lines derived from embryos that had already been destroyed. We have also provided more than $3 billion for research on all forms of stem cells, including those from adult and other non-embryonic sources.

This careful approach is producing results. It has contributed to proven therapeutic treatments in thousands of patients with many different diseases. And it is opening the prospect of new discoveries that could transform lives. Researchers are now developing promising new techniques that offer the potential to produce pluripotent stem cells, without having to destroy human life—for example, by reprogramming adult cells to make them function like stem cells.

Technical innovation in this difficult area is opening up new possibilities for progress without conflict or ethical controversy. Researchers pursuing these kinds of ethically responsible advances deserve support, and there is legislation in the Congress to give them that support. Bills supporting alternative research methods achieved majority support last year in both the House and the Senate. Earlier this spring another bill supporting alternative research won overwhelming majority support in the Senate, and I call on House leaders to pass similar legislation that would authorize additional funds for ethical stem cell research. We cannot lose the opportunity to conduct research that would give hope to those suffering from terrible diseases and help move our Nation beyond the controversies over embryo destruction. I invite policymakers and scientists to come together to solve medical problems without compromising either the high aims of science or the sanctity of human life.

S. 5, like the bill I vetoed last year, would overturn today's carefully balanced policy on stem cell research. Compelling American taxpayers to support the deliberate destruction of human embryos would be a grave mistake. I will not allow our Nation to cross this moral line. For that reason, I must veto this bill.

GEORGE W. BUSH.

THE WHITE HOUSE, *June 20, 2007.*

MESSAGE FROM THE HOUSE

ENROLLED BILLS SIGNED

The President Pro Tempore (Mr. BYRD) announced that on today, June 20, 2007, he had signed the following enrolled bills, which were previously signed by the Speaker of the House:

H.R. 57. An act to repeal certain sections of the Act of May 26, 1936, pertaining to the Virgin Islands.

H.R. 692. An act to amend title 4, United States Code, to authorize the Governor of a State, territory, or possession of the United States to order that the National flag be flown at half-staff in that State, territory, or possession in the event of the death of a member of the Armed Forces from that State, territory, or possession who dies while serving on active duty.

MEASURES READ THE FIRST TIME

The following bill was read the first time:

H.R. 2366. An act to reauthorize the veterans entrepreneurial development programs of the Small Business Administration, and for other purposes.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. LIEBERMAN, from the Committee on Homeland Security and Governmental Affairs, without amendment:

H.R. 1255. A bill to amend chapter 22 of title 44, United States Code, popularly known as the Presidential Records Act, to establish procedures for the consideration of claims of constitutionally based privilege against disclosure of Presidential records.

By Mr. LEAHY, from the Committee on the Judiciary, with an amendment in the nature of a substitute and an amendment to the title:

S. 535. A bill to establish an Unsolved Crimes Section in the Civil Rights Division of the Department of Justice, and an Unsolved Civil Rights Crime Investigative Office in the Civil Rights Unit of the Federal Bureau of Investigation, and for other purposes.

By Mr. LIEBERMAN, from the Committee on Homeland Security and Governmental Affairs, without amendment:

S. 886. A bill to amend chapter 22 of title 44, United States Code, popularly known as the Presidential Records Act, to establish procedures for the consideration of claims of constitutionally based privilege against disclosure of Presidential records.

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Mr. KENNEDY for the Committee on Health, Education, Labor, and Pensions.

*Marylyn Andrea Howe, of Massachusetts, to be a Member of the National Council on Disability for a term expiring September 17, 2008.

*Lonnie C. Moore, of Kansas, to be a Member of the National Council on Disability for a term expiring September 17, 2008.

*Kerri Layne Briggs, of Virginia, to be Assistant Secretary for Elementary and Secondary Education, Department of Education.

*Jerome F. Kever, of Illinois, to be a Member of the Railroad Retirement Board for a term expiring August 28, 2008.

*Michael Schwartz, of Illinois to be a Member of the Railroad Retirement Board for a term expiring August 28, 2012.

*Virgil M. Speakman, Jr., of Ohio, to be a Member of the Railroad Retirement Board for a term expiring August 28, 2009.

*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. FEINGOLD (for himself, Mr. KOHL, Mr. KENNEDY, and Mr. BROWN):

S. 1664. A bill to require the Secretary of the Treasury to mint coins in commemoration of Robert M. La Follette, Sr., in recognition of his important contributions to the Progressive movement, the State of Wisconsin, and the United States; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. FEINGOLD (for himself, Mr. KOHL, Mr. KENNEDY, and Mr. BROWN):

S. 1665. A bill to authorize the President to posthumously award a gold medal on behalf of Congress to Robert M. La Follette, Sr., in recognition of his important contributions to the Progressive movement, the State of Wisconsin, and the United States; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. BAUCUS (for himself and Mr. GRASSLEY):

S. 1666. A bill to amend title II of the Social Security Act to improve the process for congressional consideration of international social security agreements; to the Committee on Finance.

By Mr. CARPER (for himself and Mr. COBURN):

S. 1667. A bill to establish a pilot program for the expedited disposal of Federal real property; to the Committee on Homeland Security and Governmental Affairs.

By Mr. DODD (for himself and Ms. LANDRIEU):

S. 1668. A bill to assist in providing affordable housing to those affected by the 2005 hurricanes; to the Committee on Banking, Housing, and Urban Affairs.

By Ms. STABENOW (for herself, Mr. BINGAMAN, Mr. LEVIN, Mr. SALAZAR, Mr. DURBIN, Mr. OBAMA, and Mr. KERRY):

S. 1669. A bill to amend titles XIX and XXI of the Social Security Act to ensure payment under Medicaid and the State Children's Health Insurance Program (SCHIP) for covered items and services furnished by school-based health clinics; to the Committee on Finance.

By Ms. SNOWE:

S. 1670. A bill to amend title 10, United States Code, to improve the management of medical care for members of the Armed Forces, to improve the speed and efficiency of the physical disability evaluation system of the Department of Defense, and for other purposes; to the Committee on Armed Services.

By Mr. KERRY (for himself and Ms. SNOWE):

S. 1671. A bill to reauthorize and improve the entrepreneurial development programs of the Small Business Administration, and for other purposes; to the Committee on Small Business and Entrepreneurship.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. SMITH (for himself and Mr. CONRAD):

S. Res. 240. A resolution designating October 21 through October 27, 2007, as ''National Save for Retirement Week''; to the Committee on the Judiciary.

By Mr. BROWN:

S. Res. 241. A resolution expressing the sense of the Senate that the United States should reaffirm the commitments of the United States to the 2001 Doha Declaration on the TRIPS Agreement and Public Health and to pursuing trade policies that promote access to affordable medicines; to the Committee on Finance.

By Mrs. MURRAY (for herself, Mr. STEVENS, Ms. SNOWE, Ms. MIKULSKI, Ms. CANTWELL, Mr. OBAMA, Mr. KENNEDY, Ms. STABENOW, Mr. KERRY, Mr. DODD, Mr. DURBIN, Mr. FEINGOLD, Mr. BAYH, Mr. MENENDEZ, Mrs. CLINTON, Mrs. FEINSTEIN, Mr. INOUYE, Mr. BAUCUS, Mr. AKAKA, Mr. SMITH, and Mrs. BOXER):

S. Res. 242. A resolution celebrating the accomplishments of title IX of the Education Amendments of 1972, also known as the Patsy Takemoto Mink Equal Opportunity in Education Act, and recognizing the need to continue pursuing the goal of educational opportunities for women and girls; considered and agreed to.

By Mr. LAUTENBERG (for himself, Mr. MARTINEZ, Mr. LIEBERMAN, Mrs. DOLE, Ms. STABENOW, Mr. STEVENS, Mr. BIDEN, Mr. BURR, Mr. LEVIN, Ms. MURKOWSKI, Mr. KERRY, Ms. SNOWE, Ms. LANDRIEU, Mr. LOTT, Mr. MENENDEZ, Mr. DURBIN, Mr. WYDEN, Mr. FEINGOLD, Mr. CARDIN, Mr. CARPER, and Ms. CANTWELL):

S. Res. 243. A resolution supporting the goals and ideals of National Clean Beaches Week and the considerable value of beaches and their role in American culture; considered and agreed to.

By Mr. PRYOR (for himself, Mr. SUNUNU, Mrs. DOLE, Mr. LUGAR, Ms. LANDRIEU, Ms. MURKOWSKI, and Mr. ISAKSON):

S. Res. 244. A resolution designating June 2007 as National Safety Month; considered and agreed to.

By Mr. KYL (for himself and Mr. MCCAIN):

S. Res. 245. A resolution congratulating the University of Arizona Wildcats for winning the 2007 NCAA Division I Softball Championship; considered and agreed to.

By Mrs. HUTCHISON (for herself and Mr. CORNYN):

S. Res. 246. A resolution congratulating the San Antonio Spurs for winning the National Basketball Association Championship; considered and agreed to.

By Ms. CANTWELL (for herself and Mrs. MURRAY):

S. Res. 247. A resolution commending the University of Washington Men's Crew, the 2007 Intercollegiate Rowing Association Champions; considered and agreed to.

By Mr. DODD (for himself, Mr. MENENDEZ, and Mr. LEVIN):

S. Con. Res. 39. A concurrent resolution supporting the goals and ideals of a world day of remembrance for road crash victims; to the Committee on Commerce, Science, and Transportation.

ADDITIONAL COSPONSORS

S. 38

At the request of Mr. DOMENICI, the name of the Senator from Montana (Mr. BAUCUS) was added as a cosponsor of S. 38, a bill to require the Secretary of Veterans Affairs to establish a program for the provision of readjustment and mental health services to veterans who served in Operation Iraqi Freedom and Operation Enduring Freedom, and for other purposes.

S. 1356

At the request of Mr. BROWN, the name of the Senator from Iowa (Mr. HARKIN) was added as a cosponsor of S. 1356, a bill to amend the Federal Deposit Insurance Act to establish industrial bank holding company regulation, and for other purposes.

S. 1382

At the request of Mr. REID, the name of the Senator from New Mexico (Mr. BINGAMAN) was added as a cosponsor of S. 1382, a bill to amend the Public Health Service Act to provide the establishment of an Amyotrophic Lateral Sclerosis Registry.

S. 1415

At the request of Mr. HARKIN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 1415, a bill to amend the Public Health Service Act and the Social Security Act to improve screening and treatment of cancers, provide for survivorship services, and for other purposes.

S. 1428

At the request of Mr. HATCH, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 1428, a bill to amend part B of title XVIII of the Social Security Act to assure access to durable medical equipment under the Medicare program.

S. 1457

At the request of Mr. HARKIN, the names of the Senator from West Virginia (Mr. ROCKEFELLER), the Senator from Arkansas (Mr. PRYOR), the Senator from South Dakota (Mr. JOHNSON) and the Senator from Vermont (Mr. SANDERS) were added as cosponsors of S. 1457, a bill to provide for the protection of mail delivery on certain postal routes, and for other purposes.

S. 1492

At the request of Mr. INOUYE, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of S. 1492, a bill to improve the quality of federal and state data regarding the availability and quality of broadband services and to promote the deployment of affordable broadband services to all parts of the Nation.

S. 1496

At the request of Mr. BAUCUS, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 1496, a bill to amend the Food Security Act of 1985 to include pollinators in certain conservation programs.

S. 1514

At the request of Mr. DODD, the names of the Senator from New Mexico (Mr. BINGAMAN), the Senator from Ohio (Mr. BROWN), the Senator from Illinois (Mr. DURBIN) and the Senator from Texas (Mrs. HUTCHISON) were added as cosponsors of S. 1514, a bill to revise and extend provisions under the Garrett Lee Smith Memorial Act.

S. 1553

At the request of Mrs. FEINSTEIN, the name of the Senator from Rhode Island (Mr. WHITEHOUSE) was added as a cosponsor of S. 1553, a bill to provide additional assistance to combat HIV/AIDS among young people, and for other purposes.

S. 1557

At the request of Mr. DODD, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 1557, a bill to amend part B of title IV of the Elementary and Secondary Education Act of 1965 to improve 21st Century Community Learning Centers.

S. 1571

At the request of Mr. BINGAMAN, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 1571, a bill to reform the essential air service program, and for other purposes.

S. 1588

At the request of Ms. LANDRIEU, the names of the Senator from Maryland (Mr. CARDIN) and the Senator from Massachusetts (Mr. KENNEDY) were added as cosponsors of S. 1588, a bill to amend the Public Health Service Act, the Employee Retirement Income Security Act of 1974, and the Internal Revenue Code of 1986 to require that group and individual health insurance coverage and group health plans provide coverage for treatment of a minor child's congenital or developmental deformity or disorder due to trauma, infection, tumor, or disease.

S. 1593

At the request of Mr. BAUCUS, the name of the Senator from Nebraska (Mr. NELSON) was withdrawn as a cosponsor of S. 1593, a bill to amend the Internal Revenue Code of 1986 to provide tax relief and protections to military personnel, and for other purposes.

At the request of Mr. BAUCUS, the names of the Senator from Minnesota (Ms. KLOBUCHAR), the Senator from New Jersey (Mr. MENENDEZ), the Senator from Illinois (Mr. DURBIN) and the Senator from Florida (Mr. NELSON) were added as cosponsors of S. 1593, supra.

S. 1603

At the request of Mr. MENENDEZ, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 1603, a bill to authorize Congress to award a gold medal to Jerry Lewis, in recognition of his outstanding service to the Nation.

S. 1605

At the request of Mr. CONRAD, the name of the Senator from Hawaii (Mr. INOUYE) was added as a cosponsor of S. 1605, a bill to amend title XVIII of the Social Security Act to protect and preserve access of Medicare beneficiaries in rural areas to health care providers under the Medicare program, and for other purposes.

S. RES. 132

At the request of Mr. STEVENS, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. Res. 132, a resolution recognizing the Civil Air Patrol for 65 years of service to the United States.

S. RES. 203

At the request of Mr. MENENDEZ, the name of the Senator from North Dakota (Mr. DORGAN) was added as a cosponsor of S. Res. 203, a resolution calling on the Government of the People's Republic of China to use its unique influence and economic leverage to stop genocide and violence in Darfur, Sudan.

S. RES. 215

At the request of Mr. ALLARD, the names of the Senator from California (Mrs. FEINSTEIN) and the Senator from Vermont (Mr. SANDERS) were added as cosponsors of S. Res. 215, a resolution designating September 25, 2007, as ''National First Responder Appreciation Day''.

S. RES. 224

At the request of Mrs. FEINSTEIN, the names of the Senator from Vermont (Mr. LEAHY) and the Senator from Rhode Island (Mr. REED) were added as cosponsors of S. Res. 224, a resolution expressing the sense of the Senate regarding the Israeli-Palestinian peace process.

S. RES. 236

At the request of Mr. BAYH, the name of the Senator from Tennessee (Mr. ALEXANDER) was added as a cosponsor of S. Res. 236, a resolution supporting the goals and ideals of the National Anthem Project, which has worked to restore America's voice by re-teaching Americans to sing the national anthem.

AMENDMENT NO. 1510

At the request of Mr. COCHRAN, the names of the Senator from Louisiana (Ms. LANDRIEU) and the Senator from Louisiana (Mr. VITTER) were added as cosponsors of amendment No. 1510 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1646

At the request of Ms. CANTWELL, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of amendment No. 1646 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1666

At the request of Mr. INHOFE, the names of the Senator from Idaho (Mr. CRAIG) and the Senator from Arkansas (Mr. PRYOR) were added as cosponsors of amendment No. 1666 proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1668

At the request of Mr. INHOFE, the name of the Senator from Rhode Island (Mr. REED) was added as a cosponsor of amendment No. 1668 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1693

At the request of Mrs. BOXER, the name of the Senator from Connecticut

(Mr. LIEBERMAN) was added as a cosponsor of amendment No. 1693 proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

At the request of Mr. BINGAMAN, the names of the Senator from Connecticut (Mr. DODD), the Senator from Delaware (Mr. CARPER) and the Senator from Vermont (Mr. SANDERS) were added as cosponsors of amendment No. 1693 proposed to H.R. 6, supra.

AMENDMENT NO. 1694

At the request of Mrs. BOXER, the names of the Senator from Connecticut (Mr. LIEBERMAN) and the Senator from Vermont (Mr. SANDERS) were added as cosponsors of amendment No. 1694 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

AMENDMENT NO. 1695

At the request of Mrs. BOXER, the names of the Senator from Connecticut (Mr. LIEBERMAN) and the Senator from Delaware (Mr. CARPER) were added as cosponsors of amendment No. 1695 intended to be proposed to H.R. 6, a bill to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BAUCUS (for himself and Mr. GRASSLEY):

S. 1666. A bill to amend title II of the Social Security Act to improve the process for congressional consideration of international social security agreements; to the Committee on Finance.

Mr. BAUCUS. Mr. President, I rise to speak in favor of my bill to improve the process for congressional consideration of International Social Security Agreements.

International Social Security Agreements eliminate dual Social Security taxes when Americans work overseas for U.S. companies, and protect benefits for workers who divide their careers between two countries. As a result, American workers and their companies save approximately $800 million annually in foreign social security taxes.

The current process for congressional disapproval of these agreements is invalid because it involves the unconstitutional use of a legislative veto. This fact has not been a problem, however, because Congress has never desired to reject an International Social Security Agreement. Indeed, we currently have 21 agreements with most of our top trading partners, such as Canada, Germany, and Japan. However, Congress needs to establish a constitutionally valid process for congressional consideration and either approval or rejection of International Social Security Agreements, similar to the process used for other agreements and treaties.

The bill I am introducing today establishes such a process so that these important agreements can receive full consideration in the Congress. If either the House or the Senate determines that a particular agreement is a bad deal for U.S. workers or will harm the U.S. Social Security system, this bill will allow Congress to reject that agreement. Right now, that option does not exist under current law. This bill would fix that problem.

The bill would require that an ''approval resolution'' be introduced in both the House and the Senate once an agreement is submitted to Congress by the administration. The resolution will need to be approved by both Houses of Congress before an agreement can take effect. Of course, either House can also reject the approval resolution to prevent an agreement from taking effect.

The bill is cosponsored by Senator GRASSLEY, ranking member of the Finance Committee. I appreciate the assistance that he and his staff provided in developing this legislation.

I urge the Senate to approve this bill to establish a constitutionally valid process for Congress to consider and either approve or reject International Social Security Agreements.

By Mr. DODD (for himself and Ms. LANDRIEU):

S. 1668. A bill to assist in providing affordable housing to those affected by the 2005 hurricanes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. DODD. Mr. President, today, Senator LANDRIEU and I come to the floor to introduce the Gulf Coast Housing Recovery Act of 2007. This bill will help jump-start economic development in the communities devastated by Hurricanes Katrina and Rita. It will also help bring people home so they can resume their lives.

At the outset, let me recognize Senator LANDRIEU for all of her efforts to secure assistance for the people of Louisiana, who suffered the lion's share of damage from the 2005 hurricanes. She has worked tirelessly, every day since the storms, to ensure that Louisianans and others in the gulf coast can return to vibrant towns and cities. I also want to recognize the work of Congresswoman WATERS and Financial Services Chairman FRANK, who laid the groundwork for this legislation in the House. They did an outstanding job of ushering a housing recovery bill through the House.

The bill we are introducing today does the following: it authorizes additional funding to help rebuild the gulf coast; it requires the Federal, state and local governments to take additional actions to bring people home; and it requires accountability on the part of FEMA, HUD, and the states and cities receiving Federal funds.

Almost 2 years after the devastation of Hurricane Katrina, hundreds of thousands of people remain in limbo, wondering if they will be able to return home. The population in New Orleans remains at about half of pre-Katrina levels, though local groups and residents have made clear that many more want to return. Unfortunately, many of these families have no home to return to, and there is great uncertainty about whether adequate services will be available if they do return. As of April of this year, less than half of New Orleans' public schools, a third of its child care centers, and half of its hospitals were open.

Over 82,000 families from across the devastated region are still living in FEMA trailers, which were recently found to contain toxic chemicals. Over 32,000 families are receiving temporary rental assistance through HUD, and over 11,000 others are receiving temporary rental assistance through HUD. Tens of thousands of other families are being assisted by cities, counties and individuals throughout the gulf region and our country.

Much has already been done to help restore the gulf coast. Billions of dollars have been spent to house evacuees and clean up areas of Texas, Louisiana, Alabama and Mississippi. In addition, emergency CDBG funds have been appropriated to help families start to rebuild their homes and their lives. While these funds are finally getting to people in need, the reach of these funds is limited, to a great extent, to those who owned homes prior to the storms. Both Louisiana and Mississippi have understandably focused their efforts on getting homes rebuilt, and I support their efforts to help people whose largest asset was washed away. However, we must not forget the large number of residents who were renters at the time of the storms, many of whom held jobs that were critical to the economy and the culture of the gulf coast, including jobs necessary for the tourism and fishing industries.

In New Orleans, over half of the rental housing was flooded. We have an obligation, as a fair society, to ensure

that all of our citizens in the gulf coast, including renters, are given the opportunity to return home, and the bill that Senator LANDRIEU and I are introducing today will do that.

This bill helps to do six key things that are necessary to help those displaced as a result of the hurricanes return to thriving cities and towns: it helps to bring people home; it replaces lost housing; it creates homeownership opportunities; it spurs economic and community development; it provides continued assistance to evacuees; and it requires accountability so that funds are properly used.

There are numerous provisions in our bill that will help families of all income levels return to a stronger gulf coast. I want to highlight a few of these provisions.

While most of the funds already provided to individuals for rebuilding efforts have gone to homeowners, even those funds have proven to be insufficient. The Louisiana Road Home program has pledged all of its funds, leaving many eligible homeowners without any assistance. This bill authorizes funding necessary to make this program whole so long as the State of Louisiana puts up $1 billion of its own funds towards this shortfall. I will be working with Senator LANDRIEU over the coming weeks to get a better sense of the exact amount needed in this program, why a shortfall of this amount exists, and to determine the legitimate uses of these funds.

Prior to the storm, there were over 5,200 families living in public housing in New Orleans, and thousands of others throughout the Gulf States. Many of these families include people with disabilities, seniors, and children. We cannot turn our backs on them.

HUD is currently running the Housing Authority of New Orleans, HANO, and it plans to demolish much of the public housing without replacing many of the affordable units. I believe this is shortsighted. I understand that in rebuilding New Orleans, there are many who advocate deconcentrating poverty, and I believe we can achieve this goal without sacrificing needed affordable housing. Under the bill we are introducing today, every unit of public housing that was occupied prior to the storm must be replaced, but not necessarily with a traditional public housing unit, nor in a traditional public housing setting.

In order to facilitate the replacement of public housing in New Orleans, this bill takes HANO out of HUD's hands, and puts it into judicial receivership. HANO has been a troubled agency for many years, and HUD control has not led to enough improvement. We need significant change at this agency.

This bill helps to spur much-needed development. It requires $55 million from funds previously given to the State of Louisiana to be used to help finance community development pilot programs in the State so that land can be acquired, bundled sold for redevelopment. In addition, the bill establishes an innovative program, the FHA–New Orleans Homeownership Opportunities Initiative, under which HUD will transfer to the New Orleans Redevelopment Authority properties which are under HUD control to be used for homeownership opportunities for low-income families.

While providing large amounts of Federal funds to the disaster area, it is important to ensure that funds are used correctly and are not subject to waste, fraud and abuse. This bill has stringent monitoring and reporting requirements that apply to FEMA, HUD, and the States receiving emergency funds so that the Congress can keep tabs on the disaster spending and ensure funds are being used efficiently and effectively to help rebuild and strengthen the gulf coast.

The Gulf Coast Housing Recovery Act of 2007 is a critical step towards rebuilding the gulf coast. It is supported by a broad coalition of national organizations, including the AARP, ACORN, Enterprise Community Partners, Lawyers Committee for Civil Rights Under Law, the Mortgage Bankers Association, the National Alliance to End Homelessness, the NAACP, the National Association of Homebuilders, the National Association of Realtors, the National Fair Housing Alliance, the National Low Income Housing Coalition, US Jesuit Conference, Volunteers of America, as well as Gulf Coast organizations such as Alabama Arise, Catholic Charities of New Orleans, Greater New Orleans Fair Housing Action Center, the Louisiana Association of Nonprofit Organizations, and Providence Community Housing.

Again, I would like to thank my colleague Senator LANDRIEU for her work to restore the lives of so many of her constituents and others in the gulf coast region. I urge my colleagues to support this bill so that needed housing and community development activities can be undertaken in the gulf coast.

Mr. President, I ask unanimous consent that the text of the bill and letters of support be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1668

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ''Gulf Coast Housing Recovery Act of 2007''.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

SEC. 2. LIMITATION ON USE OF AUTHORIZED AMOUNTS.

None of the amounts authorized by this Act may be used to lobby or retain a lobbyist for the purpose of influencing a Federal, State, or local governmental entity or officer.

TITLE I—COMMUNITY DEVELOPMENT BLOCK GRANTS

SEC. 101. FLEXIBILITY OF FEDERAL FUNDS FOR ROAD HOME PROGRAM.

(a) PROHIBITION OF RESTRICTION ON USE OF AMOUNTS.—

(1) IN GENERAL.—Subject to paragraph (4) and notwithstanding any other provision of law, the Administrator of the Federal Emergency Management Agency shall allow the uses specified in paragraph (2), by the State of Louisiana under the Road Home Program of such State, of any amounts specified in paragraph (5), provided such funds are used in full compliance with the requirements of the Department of Housing and Urban Development's Supplemental Community Development Block Grant Program, as such requirements are established under title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.).

(2) ELIGIBLE USES.—As specified in paragraph (1), the Administrator of the Federal Emergency Management Agency shall allow the State of Louisiana to use any amounts specified in paragraph (5) for the purposes of—

(A) acquiring property, including both land and buildings, for the purposes of removing any structure located on such property and permanently returning the property to a use compatible with open space, as required pursuant to section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170c);

(B) covering all or a portion of the cost of elevating a damaged residential structure located on any property acquired under subparagraph (A) in order to make the property compliant with State building codes, local ordinances or building requirements, and the National Flood Insurance Program, including elevating the lowest habitable level to at least 1 foot above the base flood elevation or the elevation described using the current best available data from the Federal Emergency Management Agency, whichever elevation is higher;

(C) covering all or a portion of the cost of—

(i) the demolition of any home deemed to be more than 50 percent damaged as a result of an inspection; and

(ii) the reconstruction of another home on the same property on which a home was demolished under clause (i), including site preparation, utility connection, and transactional costs, such that the newly constructed home is elevated so the lowest habitable level will be at least 1 foot above the base flood elevation or the elevation described using the current best available data from the Federal Emergency Management Agency, whichever elevation is higher;

(D) funding individual mitigation measures that can be incorporated into a home to reduce risk to both life and property, provided that no individual measure to be funded costs in excess of $7,500; and

(E) covering the reasonable cost to manage and administer such funds consistent with existing funding formulas identified under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) and its implementing regulations.

(3) CONSISTENCY REQUIREMENT.—Uses specified in paragraph (2) shall be deemed eligible when implemented in a way consistent with the requirements of the Department of Housing and Urban Development's Supplemental Community Development Block Grant Program, as such requirements are established under title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.), irrespective of any other requirements mandated under the Hazard Mitigation Grant Program under section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170c).

(4) SAVINGS PROVISION.—Except as provided in paragraph (3), all other provisions of section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170c) shall apply to amounts specified in paragraph (3) that are used by the State of Louisiana under the Road Home Program of such State.

(5) COVERED AMOUNTS.—The amounts specified in this paragraph is $1,170,000,000 designated for Hurricanes Katrina and Rita under the Hazard Mitigation Grant Program of the Federal Emergency Management Agency to the State of Louisiana as of June 1, 2007.

(6) EXPEDITED TRANSFER OF FUNDS.—

(A) IN GENERAL.—The Administrator of the Federal Emergency Management Agency shall, not later than 90 days after the date of enactment of this Act, transfer the amounts specified in paragraph (5) to the State of Louisiana.

(B) PROCEDURES.—The Administrator of the Federal Emergency Management Agency shall identify and implement mechanisms to be applied to all funds made available to the State of Louisiana as a result of Hurricanes Katrina and Rita under the Hazard Mitigation Grant Program under section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170c) that will simplify the requirements of such program and ensure the expedited distribution of such funds under the program, including—

(i) creating a programmatic cost-benefit analysis to provide a means of conducting cost-benefit analysis by project type and geographic factors rather than on a structure-by-structure basis; and

(ii) developing a streamlined environmental review process to significantly speed the approval of project applications.

(7) FUTURE AMOUNTS.—Notwithstanding the provisions of this section, for the period beginning June 1, 2007 and ending December 31, 2007, any amounts in addition to the $1,170,000,000 described under paragraph (5) that are made available to the State of Louisiana as a result of Hurricanes Katrina and Rita under the Hazard Mitigation Grant Program under section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170c) shall be provided by such State to local government entities, based upon the severity of hurricane damage incurred in such areas, to be used solely for the purposes set forth under such section 404.

(b) REPORTING REQUIREMENT.—The Administrator of the Federal Emergency Management Agency shall provide quarterly reports to the Committees on Banking, Housing, and Urban Affairs, and Homeland Security and Governmental Affairs of the Senate, and the Committees on Financial Services and Transportation and Infrastructure of the House of Representatives on—

(1) specific mechanisms that are being utilized to expedite funding distribution under this section; and

(2) how such mechanisms are performing.

SEC. 102. HOUSEHOLD ASSISTANCE PROGRAMS FUNDED WITH CDBG DISASTER ASSISTANCE.

(a) REPORTING REQUIREMENT.—Each State that received amounts made available under the heading ''Department of Housing and Urban Development—Community Planning and Development—Community Development Fund'' in chapter 9 of title I of division B of Public Law 109–148 (119 Stat. 2779) or under such heading in chapter 9 of title II of Public Law 109–234 (120 Stat. 472) shall submit reports, and make such reports available to the public on the Internet, under this subsection regarding each grant program of the State for assistance for individual households funded in whole or in part with such amounts to the committees identified in paragraph (4). Each such report under this subsection shall describe and analyze the status and effectiveness of each such grant program and shall include the information described in paragraph (2) regarding each such program, for the applicable reporting period and for the entire period of such program.

(b) CONTENTS.—The following information shall be included in any report submitted under subsection (a):

(1) The number of applications submitted for assistance under the program.

(2) The number of households for which assistance has been provided under the program.

(3) The average amount of assistance requested and provided for each household under the program and the total amount of assistance provided under the program.

(4) The number of personnel involved in executing all aspects of the program.

(5) Actions to affirmatively further fair housing.

(6) Comprehensive data, by program, on who is served during the period, by number, percentage, and zip code, including data on race, ethnicity, income, disability, family size, and family status.

(7) Actions taken to improve the program and recommendations for further such improvements.

(c) REPORTING PERIODS.—With respect to any program described in subsection (a), the first report under this section shall be submitted not later than the expiration of the 30-day period that begins upon the date of the enactment of this Act. Reports shall be submitted, during the term of each such program, not later than the expiration of each successive calendar quarter thereafter.

(d) RECEIVING COMMITTEES.—The committees specified in this paragraph are—

(1) the Committees on Banking, Housing, and Urban Affairs and Homeland Security and Governmental Affairs of the Senate; and

(2) the Committees on Financial Services and Transportation and Infrastructure of the House of Representatives.

(e) ONGOING REPORTS ON USE OF AMOUNTS.—

(1) QUARTERLY REPORTS.—During the period that amounts are being expended under the State grant programs referred to in subsection (a), the Secretary of Housing and Urban Development shall submit reports on a quarterly basis to the Committees on Banking, Housing, and Urban Affairs and Homeland Security and Governmental Affairs of the Senate, the Committees on Financial Services and Transportation and Infrastructure of the House of Representatives, and the Comptroller General of the United States. Such reports shall be made available to the public on the Internet. Such reports shall—

(A) describe and account for the use of all such amounts expended during the applicable quarterly period;

(B) certify that internal controls are in place to prevent waste, fraud, and abuse; and

(C) identify any waste, fraud, or abuse involved in the use of such amounts.

(2) MONITORING.—The Secretary of Housing and Urban Development shall monitor funds expended by each State required to submit

reports under subsection (a) and, pursuant to such monitoring—

(A) upon determining that at least 2 percent of such amount has been expended, shall include in the first quarterly report thereafter a written determination of such expenditure; and

(B) upon determining, at any time after the determination under subparagraph (A), that the portion of such total amount expended at such time that was subject to waste, fraud, or abuse exceeds 10 percent, shall include in the first quarterly report thereafter a certification to that effect.

(3) ACTIONS IN RESPONSE TO WASTE, FRAUD, AND ABUSE.—If at any time the Secretary of Housing and Urban Development submits a report under paragraph (1) that includes a certification under paragraph (2)(B), the Comptroller General shall submit a report to the Committees referred to in paragraph (1) within 90 days recommending actions to be taken—

(A) to recover any improper expenditures; and

(B) to prevent further waste, fraud, and abuse in expenditure of such amounts.

SEC. 103. COMMUNITY DEVELOPMENT PILOT PROGRAMS.

(a) AVAILABILITY OF AMOUNTS.—The Secretary of Housing and Urban Development shall require the State of Louisiana to make available, from any amounts made available for such State under the heading ''Department of Housing and Urban Development—Community Planning and Development—Community Development Fund'' in chapter 9 of title I of division B of Public Law 109–148 (119 Stat. 2779) or under such heading in chapter 9 of title II of Public Law 109–234 (120 Stat. 472) and that remain unexpended, the following amounts:

(1) FOR ORLEANS PARISH.—$30,000,000 to the New Orleans Redevelopment Authority (in this section referred to as the ''Redevelopment Authority''), subject to subsection (c), only for use to carry out the pilot program under this section, provided that, of such amounts, $5,000,000 be used to provide low-interest loans for second mortgages (commonly referred to as ''soft'' loans) for homes sold to low-income individuals.

(2) OTHER PARISHES.—$25,000,000 to the Louisiana Housing Finance Agency to provide grants to parishes, not including Orleans Parish, that were declared a disaster area by the President as a result of Hurricanes Katrina and Rita of 2005 to establish redevelopment programs in those parishes that have requirements that are the same or substantially similar to the requirements under this section.

(b) PURPOSE.—The pilot program under this section shall fund, through the combination of amounts provided under this section with public and private capital from other sources, the purchase or costs associated with the acquisition or disposition of individual parcels of land in New Orleans, Louisiana, by the Redevelopment Authority to be aggregated, assembled, and sold for the purpose of development by the Redevelopment Authority or private entities only in accordance with, and subject to, any recovery and redevelopment plans developed and adopted by the City of New Orleans. The costs associated with acquisition or disposition of a parcel of land may include costs for activities described in subsection (c)(3) with respect to such parcel and costs described in subsection (c)(6).

(c) CERTIFICATIONS.—The Secretary of Housing and Urban Development shall ensure that amounts are made available pursuant to subsection (a) to the Redevelopment Authority only upon the submission to the Secretary of certifications to ensure that the Redevelopment Authority—

(1) has the authority to purchase land for resale for the purpose of development in accordance with the pilot program under this section;

(2) has bonding authority (either on its own or through a State bonding agency) or has credit enhancements sufficient to support public/private financing to acquire land for the purposes of the pilot program under this section;

(3) has the authority and capacity to ensure clean title to land sold under the pilot program and to reduce the risk attributable to and indemnify against environmental, flood, and other liabilities;

(4) will, where practicable, provide a first right to purchase any land acquired by the Redevelopment Authority to the seller who sold the land to the Redevelopment Authority, consistent with any recovery and redevelopment plans developed and adopted by the City of New Orleans;

(5) has in place sufficient internal controls to prevent waste, fraud, and abuse and to ensure that funds made available under this subsection may not be used to fund salaries or other administrative costs of the employees of the Redevelopment Authority; and

(6) will, in carrying out the pilot program under this section, consult with the City of New Orleans regarding coordination of activities under the program with the recovery and redevelopment plans referred to in subsection (b), reimbursement of such City for costs incurred in support of the program, and use of program income and other amounts generated through the program.

(d) DEVELOPMENT REQUIREMENTS.—In carrying out the pilot program under this section, the Redevelopment Authority shall—

(1) sell land acquired under the pilot program only as provided in subsection (b);

(2) use any proceeds from the sale of such land to replenish funds available for use under the pilot program for the purpose of acquiring new parcels of land or to repay any private financing for such purchases;

(3) require that in instances where land is developed under this section, and used for housing, not less than 25 percent of such housing be affordable and made available to low-, very low-, and extremely low-income households;

(4) sell land only—

(A) to purchasers who agree to develop such sites for sale to the public;

(B) to purchasers pursuant to subsection (c)(4); or

(C) to developers who are developing sites, including public housing development sites, as part of a neighborhood revitalization plan;

(5) ensure that any—

(A) development under the program is consistent with neighborhood revitalization plans and in accordance with any recovery and redevelopment plans developed and adopted by the City of New Orleans; and

(B) uses of such development are not inconsistent with redevelopment of adjacent parcels, where possible; and

(6) where properties are located in neighborhoods where public housing redevelopment is occurring, give priority consideration to making such properties available to meet the housing replacement requirements under this Act.

(e) INAPPLICABILITY OF STAFFORD ACT LIMITATIONS.—Any requirements or limitations under or pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act relating to use of properties acquired with amounts made available under such Act for certain purposes, restricting development of such properties, or limiting subsequent alienation of such properties shall not apply to amounts provided under this section or properties acquired under the pilot program with such amounts.

(f) GAO STUDY AND REPORT.—

(1) IN GENERAL.—Upon the expiration of the 2-year period beginning on the date of the enactment of this Act, the Comptroller General of the United States shall conduct a study of the pilot program carried out under this section to determine the effectiveness and limitations of, and potential improvements for, such program.

(2) TIMING OF REPORT.—Not later than 180 days after the expiration of the 2-year period described in paragraph (1), the Comptroller General shall submit a report to the Committees on Banking, Housing, and Urban Affairs and Homeland Security and Governmental Affairs of the Senate, and the Committees on Financial Services and Transportation and Infrastructure of the House of Representatives and regarding the results of the study.

(3) REQUIRED CONTENT.—The report required under paragraph (2) shall include a forensic audit that examines the effectiveness of internal controls to prevent waste, fraud, and abuse within the pilot program.

SEC. 104. ROAD HOME PROGRAM SHORTFALL.

(a) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary for the State of Louisiana to carry out the Road Home Program, provided that as of June 1, 2007, the State of Louisiana has provided at least $1,000,000,000 for such program.

(b) EXCEPTION FROM PROHIBITION ON DUPLICATION OF BENEFITS.—Notwithstanding any other provision of law, to the extent that amounts made available under the heading ''Department of Housing and Urban Development-Community Planning and Development—Community Development Fund'' in chapter 9 of title I of division B of Public Law 109–148 (119 Stat. 2779), under such heading in chapter 9 of title II of Public Law 109–234 (120 Stat. 472), and under section 101 of this title, are used by the State of Louisiana under the Road Home Program, the procedures preventing duplication of benefits established pursuant to the penultimate proviso under such heading in Public Law 109–148 (119 Stat. 2781) and the 15th proviso under such heading in Public Law 109–234 (120 Stat. 473) shall not apply with respect to any benefits received from disaster payments from the Federal Emergency Management Agency, or disaster assistance provided from the Small Business Administration, except to the extent that the inapplicability of such procedures would result in a household receiving more than is necessary to repair or rebuild their structure and property, and pay for temporary relocation and necessities.

SEC. 105. ELIMINATION OF PROHIBITION OF USE FOR MATCH REQUIREMENT.

(a) IN GENERAL.—Notwithstanding any other provision of law, any amounts made available before the date of the enactment of this Act for activities under the Community Development Block Grant Program under title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.) for expenses related to disaster relief, long-term recovery, and restoration of infrastructure in the areas impacted or distressed by the consequences of Hurricane Katrina, Rita, or Wilma in States for which the President declared a major disaster, or made available

before such date of enactment for such activities for such expenses in the areas impacted or distressed by the consequences of Hurricane Dennis, may be used by a State or locality as a matching requirement, share, or contribution for any other Federal program.

(b) EFFICIENT ENVIRONMENTAL REVIEW.—If an environmental review for a project funded by any amounts referred to in subsection (a) has been completed by a Federal agency, such environmental review shall be considered sufficient for receipt and use of all Federal funds, provided that such environmental review is substantially similar to an environmental review under the procedures authorized under section 104(g) of the Housing and Community Development Act of 1974 (42 U.S.C. 5304(g)).

SEC. 106. REIMBURSEMENT OF AMOUNTS USED FOR RENTAL HOUSING ASSISTANCE.

There are authorized to be appropriated, from any amounts made available before the date of the enactment of this Act under any provision of law to the Federal Emergency Management Agency for disaster relief under the Robert T. Stafford Disaster Relief and Emergency Assistance Act relating to the consequences of Hurricane Katrina, Rita, or Wilma that remain unobligated, and from any amounts made available before such date of enactment under any provision of law to such Agency for such disaster relief relating to the consequences of Hurricane Dennis that remain unobligated, such sums as may be necessary to be made available to the Administrator of the Federal Emergency Management Agency for transfer to the Secretary of Housing and Urban Development, for such Secretary to provide assistance under title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.) to reimburse metropolitan cities and urban counties for amounts used, including amounts from the Community Development Block Grant Program, the HOME Investment Partnership Program, and other programs, to provide rental housing assistance for families residing in such city or county pursuant to evacuation from their previous residences because of such hurricanes, provided that such city or county has not previously been reimbursed for such expenditures.

TITLE II—PUBLIC HOUSING

SEC. 201. SURVEY OF PUBLIC HOUSING RESIDENTS.

(a) SURVEY.—The Secretary of Housing and Urban Development shall contract with an independent research entity to conduct a survey, using appropriate scientific research methods to determine, of the households who as of August 28, 2005, resided in public housing (as such term is defined in section 3(b) of the United States Housing Act of 1937 (42 U.S.C. 1437a(b)) operated or administered by the Housing Authority of New Orleans, in Louisiana—

(1) which and how many such households intend to return to residences in dwelling units described in section 202(d) of this Act, when presented with the options of—

(A) returning to residence in a repaired public housing or comparable dwelling unit in New Orleans immediately;

(B) returning to residence in a temporary repaired residence in New Orleans immediately, and then moving from such repaired residence to a newly redeveloped public housing unit at a later date; or

(C) continuing to receive rental housing assistance from the Federal Government in a location other than New Orleans or in New Orleans; and

(2) when households who choose the options described under subparagraphs (A) or (B) of paragraph (1) intend to return.

(b) PARTICIPATION OF RESIDENTS.—The Secretary shall solicit recommendations from resident councils and residents of public housing operated or administered by such Housing Authority in designing and conducting the survey under subsection (a).

(c) PROPOSED SURVEY DOCUMENT.—The Secretary shall submit the full research design of the proposed document to be used in conducting the survey to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives not less than 10 business days before the commencement of such survey.

(d) REPORT.—The Secretary shall submit a report to the committees referred to in subsection (c) detailing the results of the survey conducted under subsection (a) not later than 90 days after the date of the enactment of this Act.

SEC. 202. HOUSING FOR PREVIOUS RESIDENTS OF PUBLIC HOUSING.

(a) PROVISION OF DWELLING UNITS.—Not later than 90 days after the date of the enactment of this Act, the Housing Authority of New Orleans shall make available for temporary or permanent occupancy, subject to subsection (b), a number of dwelling units (including those currently occupied) described in subsection (d) that is not less than the greater of—

(1) 3,000; or

(2) the number of households who have indicated, in the survey conducted pursuant to section 201, that they intend to return to residence within 120 days after the date of the enactment of this Act, in public housing operated or administered by such public housing agency.

(b) HOUSING FOR FORMER PUBLIC HOUSING RESIDENTS.—

(1) IN GENERAL.—Subject only to subsection (c), the Housing Authority of New Orleans shall make available, upon the request of any household who, as of August 28, 2005, was a tenant of public housing operated or administered by such public housing agency, permanent or temporary occupancy (as may be necessary for redevelopment plans) for such household in a dwelling unit provided pursuant to subsection (a), so long as—

(A) the tenant—

(i) notifies the Housing Authority of New Orleans, not later than 75 days after the date of the enactment of this Act, of that tenant's intent to return; and

(ii) identifies a date that the tenant intends to occupy such a dwelling unit, which shall be not later than 120 days after the date of the enactment of this Act; and

(B) the tenant was rightfully occupying a public housing unit of the Housing Authority of New Orleans on August 28, 2005.

(2) PREFERENCES.—In making dwelling units available to households pursuant to paragraph (1), such Housing Authority shall provide to each returning tenant the choice to live in—

(A) a dwelling unit in the same public housing project occupied by the tenant as of August 28, 2005, or in the surrounding neighborhood in which such public housing project was located, if available; or

(B) in any other available dwelling unit in various other areas of the City of New Orleans, provided that the Housing Authority give each resident a choice of available units in various neighborhoods throughout the City of New Orleans.

(c) PROHIBITION OF EXCLUSION.—The Housing Authority of New Orleans shall not, including through the application of any waiting list or eligibility, screening, occupancy, or other policy or practice, prevent any household referred to in subsection (b)(1) from occupying a replacement dwelling unit provided pursuant to subsection (a), except that such Housing Authority or other manager shall prevent a household from occupying such a dwelling unit, and shall provide for occupancy in such dwelling units, as follows:

(1) Notwithstanding any priority under paragraph (4), a household shall be prevented from such occupancy to the extent that any other provision of Federal law prohibits occupancy or tenancy of such household, or any individual who is a member of such household, in the type of housing of the replacement dwelling unit provided for such household.

(2) Notwithstanding any priority under paragraph (4), a household shall be prevented from such occupancy if it includes any individual who has been convicted of a drug dealing offense, sex offense, or crime of domestic violence.

(d) REPLACEMENT DWELLING UNITS.—A dwelling unit described in this subsection is—

(1) a dwelling unit in public housing operated or administered by the Housing Authority of New Orleans; or

(2) a dwelling unit in other comparable housing located in the jurisdiction of the Housing Authority of New Orleans for which the sum of the amount required to be contributed by the tenant for rent and any separate utility costs for such unit borne by the tenant is comparable to the sum of the amount required to be contributed by the tenant for rental of a comparable public housing dwelling unit and any separate utility costs for such unit borne by the tenant.

(e) RELOCATION ASSISTANCE.—The Housing Authority of New Orleans shall provide, to each household provided occupancy in a dwelling unit pursuant to subsection (b), assistance under the Uniform Relocation Assistance and Real Property Acquisitions Policy Act of 1970 (42 U.S.C. 4601 et seq.) for relocation to such dwelling unit.

SEC. 203. REPLACEMENT OF PUBLIC HOUSING DWELLING UNITS.

(a) CONDITIONS ON DEMOLITION.—After the date of the enactment of this Act, the Housing Authority of New Orleans may only demolish or dispose of dwelling units of public housing operated or administered by such agency (including any uninhabitable unit) pursuant to a plan for replacement of such units, as approved by the Secretary of Housing and Urban Development pursuant to subsection (b).

(b) PLAN REQUIREMENTS.—The Secretary may only approve a plan for demolition or disposition of dwelling units of public housing referred to in subsection (a), if—

(1) there is a clear process for the opportunity to comment by the residents and resident councils of public housing operated or administered by such Housing Authority or the City of New Orleans, and the community in which such demolition or disposition is to occur, including the opportunity for comment on specific proposals at each stage of redevelopment, demolition, or disposition;

(2) not later than 60 days before the date of the approval of such plan, such Housing Authority has convened and conducted at least 1 public hearing regarding the demolition or disposition proposed in the plan;

(3) such plan provides that for each such dwelling unit demolished or disposed of, such

public housing agency will provide additional affordable housing as set forth under subsection (c);

(4) such plan provides for the implementation of a right for households to occupancy housing in accordance with section 202;

(5) such plan provides priority in making units available under paragraph (3) to residents identified in section 201;

(6) such plan provides for offering public housing units built on site, first to former residents of that public housing development who indicate they would like to return, subject to exclusions permitted under Federal law for criminal activity;

(7) such plan provides that the proposed demolition or disposition and relocation will be carried out in a manner that affirmatively furthers fair housing, as described in subsection (e) of section 808 of the Civil Rights Act of 1968;

(8) such plan provides for comprehensive resident services; and

(9) such plan provides for procedures for people who were on the waiting list on August 28, 2005, to receive consideration to receive housing for any units that are not needed for returning residents.

(c) REPLACEMENT UNITS.—

(1) PREVIOUSLY OCCUPIED UNITS.—For each public housing unit demolished or disposed of under this section, which was occupied by tenants on August 28, 2005, the Housing Authority of New Orleans and the Secretary of Housing and Urban Development shall provide at least 1 of the following replacement housing opportunities:

(A) The acquisition or development of additional public housing dwelling units, including units in the neighborhood where the demolished or disposed of units were located.

(B) The acquisition, development, or contracting (including through project-based assistance) of additional dwelling units that are subject to requirements regarding eligibility for occupancy, tenant contribution toward rent, and long-term affordability restrictions which are comparable to public housing units, including units in the neighborhood where the demolished or disposed of units were located.

(C) The development or contracting of project-based voucher assistance under section 8(o)(13) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)(13)), for not less than 15 years.

(2) NONOCCUPIED UNITS.—For each public housing unit demolished or disposed of under this section, which was not occupied by tenants on August 28, 2005, the Secretary of Housing and Urban Development shall provide, and the Housing Authority of New Orleans shall provide a replacement housing unit as described in paragraph (1) or shall issue a voucher under section 8(o) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)), provided that the Housing Authority establishes, within 60 days after the date of enactment of this Act, a system to project base such vouchers, as permitted under section 8(o)(13) of such Act.

(d) INAPPLICABLE PROVISIONS.—Subparagraphs (B) and (D) of section 8(o)(13) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)(13)) shall not apply with respect to vouchers used to comply with the requirements of subsection (b)(3) of this section, except that not more than 50 percent of the units in any such affordable housing project may be assisted under a housing assistance contract for project-based assistance under such section 8(o)(13), unless all units are specifically made available to seniors or people with disabilities.

(e) MONITORING.—The Secretary of Housing and Urban Development shall provide for the appropriate field offices of the Department to monitor and supervise enforcement of this section and plans approved under this section and to consult, regarding such monitoring and enforcement, with resident councils of, and residents of public housing operated or administered by, the Housing Authority of New Orleans and with the City of New Orleans.

SEC. 204. RESIDENT SUPPORT SERVICES.

(a) IN GENERAL.—In any instance where the Housing Authority of New Orleans is providing housing vouchers or affordable housing that is not public housing, as described in section 203, the Housing Authority shall, directly or through the use of contractors—

(1) provide mobility counseling to residents of such housing;

(2) conduct outreach to landlords of such housing in all areas of the City of New Orleans and the region; and

(3) work with developers to project-base voucher assistance under section 8(o)(13) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)(13)) in low-poverty neighborhoods, and neighborhoods undergoing revitalization.

(b) REPORTS.—Not later than 6 months after the date of enactment of this Act, and every 6 months thereafter, the Housing Authority of New Orleans shall submit a report to the Secretary and Congress on its activities under this section, including—

(1) the number and location of nonpublic housing units provided;

(2) the census tract in which those units are located;

(3) the poverty rate in those census tracts;

(4) the rent burdens of households assisted under this section;

(5) any demographic data, reported by census tract, on who is served in the program; and

(6) the efforts of the Authority to affirmatively further fair housing.

SEC. 205. PUBLIC HOUSING IN KATRINA AND RITA DISASTER AREAS.

(a) CONDITIONS ON DEMOLITION.—For the 2-year period after the date of the enactment of this Act, a public housing agency may only dispose or demolish public housing dwelling units located in any area for which a major disaster or emergency was declared by the President pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act as a result of Hurricane Katrina or Rita of 2005, other than those covered under section 203, pursuant to a plan for replacement of such units in accordance with, and approved by the Secretary of Housing and Urban Development pursuant to subsections (b) and (c).

(b) PLAN REQUIREMENTS.—The Secretary may only approve a plan for demolition or disposition of dwelling units of public housing referred to in subsection (a), if—

(1) there is a clear process for the opportunity to comment by the residents and resident councils of public housing operated or administered by the Housing Authority, and the community in which such demolition or disposition is to occur, including the opportunity for comment on specific proposals for redevelopment, demolition, or disposition;

(2) not later than 60 days before the date of the approval of such plan, such Housing Authority has convened and conducted at least 1 public hearing regarding the demolition or disposition proposed in the plan;

(3) such plan provides that for each such dwelling unit demolished or disposed of, such public housing agency will provide additional affordable replacement housing as set forth under subsection (c);

(4) such plan provides that the proposed demolition or disposition and relocation will be carried out in a manner that affirmatively furthers fair housing, as described in subsection (e) of section 808 of the Civil Rights Act of 1968;

(5) such plan provides for comprehensive resident services;

(6) such plan provides for offering public housing units built on site, first to former residents of that public housing development who indicate they would like to return, subject to exclusions permitted under Federal law for criminal activity; and

(7) such plan provides for procedures for people who were on the waiting list on August 28, 2005, to receive consideration to receive housing for any units that are not needed for returning residents.

(c) REPLACEMENT UNITS.—

(1) PREVIOUSLY OCCUPIED UNITS.—For each public housing unit demolished or disposed of under this section, which was occupied by tenants on August 28, 2005, the Housing Authority shall provide at least 1 of the following replacement housing opportunities:

(A) The acquisition or development of additional public housing dwelling units.

(B) The acquisition, development, or contracting (including through project-based assistance) of additional dwelling units that are subject to requirements regarding eligibility for occupancy, tenant contribution toward rent, and long-term affordability restrictions which are comparable to public housing units.

(C) Project-based voucher assistance under section 8(o) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)), for not less than 10 years.

(2) NONOCCUPIED UNITS.—For each public housing unit demolished or disposed of under this section, which was not occupied by tenants on August 28, 2005, the Secretary of Housing and Urban Development shall provide, and the Housing Authority shall provide a replacement housing unit as described in paragraph (1) or shall issue a voucher under section 8(o) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)).

(d) RELOCATION ASSISTANCE.—A public housing agency shall provide, to each household relocated pursuant to a plan under this section for demolition or disposition, assistance under the Uniform Relocation Assistance and Real Property Acquisitions Policy Act of 1970 for relocation to their new residence.

(e) RETURN OF PUBLIC HOUSING TENANTS.—A public housing agency administering or operating public housing dwelling units described in subsection (a) shall—

(1) use its best efforts to locate tenants displaced from such public housing as a result of Hurricane Katrina or Rita; and

(2) provide such residents occupancy in public housing dwelling units of such agency that become available for occupancy, or other comparable affordable units, and to ensure such residents a means to return to such housing if they so choose.

(f) INAPPLICABILITY OF CERTAIN PROJECT-BASED VOUCHER LIMITATIONS.—Subparagraphs (B) and (D) of section 8(o)(13) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)(13)) shall not apply with respect to any project-based vouchers used to comply with the requirements of a plan under subsection (c), except that not more than 50 percent of the units in any such affordable housing project may be assisted under a housing assistance contract for project-based assistance under such section 8(o)(13), unless all

units are specifically made available to seniors or people with disabilities.

(g) DISPLACEMENT FROM HABITABLE UNITS.—A public housing agency may not displace a tenant from any public housing dwelling unit described in this section that is administered or operated by such agency and is habitable (including during any period of rehabilitation), unless the agency provides a suitable and comparable replacement dwelling unit for such tenant.

SEC. 206. REPORTS ON PROPOSED CONVERSIONS OF PUBLIC HOUSING UNITS.

Not later than the expiration of the 15-day period beginning on the date of the enactment of this Act, the Secretary of Housing and Urban Development shall submit to the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Financial Services of the House of Representatives a detailed report identifying all public housing projects located in areas impacted by Hurricane Katrina or Rita of 2005, for which plans exist to transfer ownership to other entities or agencies. Such report shall include the following information for each such project:

(1) The name and location.

(2) The number of dwelling units.

(3) The proposed new owner.

(4) The existing income eligibility and rent provisions.

(5) Duration of existing affordability restrictions.

(6) The proposed date of transfer.

(7) An analysis of the impact on residents and low-income families on the waiting list of such transfer.

SEC. 207. AUTHORIZATION OF APPROPRIATIONS FOR REPAIR AND REHABILITATION FOR KATRINA AND RITA DISASTER AREAS.

There are authorized to be appropriated such sums as may be necessary to carry out activities eligible for funding under the Capital Fund under section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g) for the repair, rehabilitation, redevelopment, and replacement of public housing in a designated disaster area, and for relocation expenses and community and supportive services for the residents of public housing operated or administered by housing agencies in such designated disaster areas.

SEC. 208. EXISTING PUBLIC HOUSING REDEVELOPMENT.

Notwithstanding the provisions of any request for qualification or proposal issued before the date of the enactment of this Act with respect to any public housing operated or administered by a housing agency in a designated disaster area, the housing agency shall provide replacement housing as required under section 203 or 205, as applicable.

SEC. 209. REPORTS ON COMPLIANCE.

Not later than the expiration of the 30-day period beginning on the date of the enactment of this Act and not later than the expiration of each calendar quarter thereafter, the Secretary of Housing and Urban Development shall submit a detailed report regarding compliance with the requirements of this title, including the resident participation requirement under section 203(b)(1), to the Committee on Banking, Housing, and Urban Affairs of the Senate, the Committee on Financial Services of the House of Representatives, the resident councils of, and residents of public housing operated or administered by, a housing agency in a disaster area, and the City of New Orleans.

SEC. 210. INDEPENDENT ADMINISTRATION OF HOUSING AUTHORITY OF NEW ORLEANS.

(a) RECEIVERSHIP.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Housing and Urban Development shall petition for judicial receivership of the Housing Authority of New Orleans pursuant to section 6(j)(3)(A)(ii) of the United States Housing Act of 1937 (42 U.S.C. 1437d(j)(3)(A)(ii)).

(b) EFFECT OF RECEIVERSHIP.—Any judicial receiver of the Housing Authority of New Orleans appointed pursuant to subsection (a) shall be required to comply with all the provisions of this Act.

(c) SENSE OF CONGRESS.—It is the sense of the Congress that the judicial receiver of the Housing Authority of New Orleans appointed pursuant to subsection (a) shall consider new and innovative models for administration of the Housing Authority of New Orleans, including public-private partnerships.

SEC. 211. DEFINITION.

For purposes of this title, the term ''designated disaster area'' means any area that was the subject of a disaster declaration by the President under title IV of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) in response to Hurricanes Katrina or Rita of 2005.

TITLE III—DISASTER VOUCHER PROGRAM AND PROJECT-BASED RENTAL ASSISTANCE

SEC. 301. DISASTER VOUCHER PROGRAM.

(a) AUTHORIZATION.—There are authorized to be appropriated such sums as may be necessary to provide assistance under the Disaster Voucher Program of the Department of Housing and Urban Development established pursuant to Public Law 109–148 (119 Stat. 2779) through June 30, 2008, and, to the extent that amounts for such purpose are made available, such program, and the authority of the Secretary of Housing and Urban Development to waive requirements under section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f) in administering assistance under such program, shall be so extended.

(b) TRANSFER OF DISASTER VOUCHER PROGRAM TO TENANT-BASED ASSISTANCE.—

(1) TRANSFER TO SECTION 8 VOUCHER PROGRAM.—There are authorized to be appropriated, for tenant-based assistance under section 8(o) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)), such sums as may be necessary to provide vouchers for households transitioning from the Disaster Voucher Program of the Department of Housing and Urban Development established pursuant to Public Law 109–148 (119 Stat. 2779) for the period that such household is eligible for such voucher assistance, as of the termination date of the Disaster Voucher Program, for each household that—

(A) is assisted under such program;

(B) did not receive assistance under section 8(o) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)) at the time of Hurricane Katrina or Rita of 2005;

(C) is not eligible for tenant replacement voucher assistance under section 302 of this Act; or

(D) is eligible for tenant replacement voucher assistance under section 302, but has not received such assistance.

(2) ELIGIBILITY FOR ASSISTANCE.—Subject to the availability of appropriations, as of January 1, 2008, any household meeting the requirements in paragraph (1) shall receive tenant-based assistance under section 8(o) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)).

(3) ADMINISTRATION OF ASSISTANCE.—Voucher assistance provided under this subsection shall be administered by the public housing agency having jurisdiction of the area in which such assisted family resides as of such termination date.

(4) TEMPORARY VOUCHERS.—If at any time a household for whom a voucher for rental housing assistance is provided pursuant to this section becomes ineligible for such rental assistance—

(A) the public housing agency administering such voucher pursuant to this section may not provide rental assistance under such voucher for any other household;

(B) the Secretary of Housing and Urban Development shall recapture from such agency any remaining amounts for assistance attributable to such voucher and may not reobligate such amounts to any public housing agency; and

(C) such voucher shall not be taken into consideration for purposes of determining future allocation of amounts for tenant-based rental assistance for any public housing agency.

(c) FORMER VOUCHER PROGRAM PARTICIPANTS.—Households who were receiving assistance under section 8(o) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)) as of August 28, 2005, shall continue to be assisted under such section (8)(o), subject to all the requirements under that section.

(d) IDENTIFICATION AND NOTIFICATION OF DVP-ELIGIBLE HOUSEHOLDS NOT ASSISTED.—Prior to October 31, 2007, the Secretary of Housing and Urban Development shall work with the Federal Emergency Management Agency and State and local housing agencies to identify households who, as of the date of the enactment of this Act, are eligible for assistance under this section but are not receiving assistance under this section. Upon identification of each such household, the Secretary shall—

(1) notify such household of the housing options available under this Act; and

(2) to the extent that the family is eligible for such options at such time of identification, offer the household assistance under this section.

SEC. 302. TENANT REPLACEMENT VOUCHERS FOR ALL LOST UNITS.

(a) IN GENERAL.—There are authorized to be appropriated such sums as may be necessary to provide tenant replacement vouchers under section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f) for the number of households that are equal to—

(1) the number of assisted dwelling units (whether occupied or unoccupied) located in covered assisted multifamily housing projects (as such term is defined in section 308(e) of this Act) that are not approved for reuse or resiting by the Secretary of Housing and Urban Development; plus

(2) the number of public housing dwelling units that, as of August 28, 2005, were located in areas affected by Hurricane Katrina and were considered for purposes of allocating operating and capital assistance under section 9 of the United States Housing Act of 1937 (whether occupied or unoccupied), that will not be put back into use for occupancy; plus

(3) the number of public housing dwelling units that, as of September 24, 2005, were located in areas affected by Hurricane Rita and were considered for purposes of allocating operating or capital assistance under section 9 of the United States Housing Act of 1937 (whether occupied or unoccupied), that will not be put back into use for occupancy; minus

(4) the number of previously awarded enhanced vouchers for assisted dwelling units and tenant protection vouchers for public housing units covered under this section.

(b) ALLOCATION.—Any amounts made available pursuant to this section shall, upon the

request of a public housing agency for such voucher assistance, be allocated to the public housing agency based on the number of dwelling units described in paragraph (1) or (2) of subsection (a) that are located in the jurisdiction of the public housing agency.

(c) ISSUANCE.—The Secretary of Housing and Urban Development shall issue replacement vouchers for all units approved for reuse, resiting, or replacement that are not available for occupancy on January 1, 2010.

SEC. 303. VOUCHER ASSISTANCE FOR HOUSEHOLDS RECEIVING FEMA ASSISTANCE.

(a) FEMA TRANSFER OF ASSISTANCE.—As of December 21, 2007, the Federal Emergency Management Agency shall transfer to the Secretary of Housing and Urban Development all of its authority and power relating to the administration of rental assistance, and funding for such rental assistance, under the Disaster Relief Fund established under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.).

(b) HUD ADMINISTRATION OF RENTAL ASSISTANCE.—

(1) IN GENERAL.—Beginning on January 1, 2008, the Secretary of Housing and Urban Development shall provide temporary housing assistance to households who received assistance under section 408(c)(1) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5174(c)(1)) as follows:

(A) REQUIRED TENANT ASSISTANCE.—Households receiving assistance shall be required to pay up to 30 percent of their income towards rent and utility costs.

(B) MINIMUM RENTAL AMOUNT.—The Secretary of Housing and Urban Development may implement a minimum rent of up to $100 per month, only if the Secretary provides for hardship exemptions for households including seniors and people with disabilities.

(C) LIMITATION ON EXCESSIVE RENTS.—The Secretary of Housing and Urban Development shall work with landlords to minimize the payment of rents in excess of 120 percent of the fair market rent for comparable housing in the area.

(2) DEFINITION OF FAIR MARKET RENT.—In this subsection, the term ''fair market rent'' means the rent (including utilities, except telephone service), as determined by the Department of Housing and Urban Development, for units of varying sizes (by number of bedrooms), that must be paid in the market area to rent privately-owned, existing, decent, safe, and sanitary rental housing of modest (nonluxury) nature with suitable amenities.

(c) RENTAL ASSISTANCE FOR HOUSEHOLDS RESIDING IN FEMA TRAILERS.—

(1) PROVISION OF ASSISTANCE.—There are authorized to be appropriated, for rental assistance, such sums as may be necessary to provide such assistance for each individual and household who, as of the date of the enactment of this Act, receives direct assistance for temporary housing under section 408(c)(2) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5174(c)(2)) as a result of Hurricane Katrina, Rita, or Wilma and is eligible for tenant-based rental assistance under section 8(o) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)).

(2) OFFER.—Subject to the availability of appropriations, the Secretary of Housing and Urban Development shall offer tenant-based rental assistance under section 8(o) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)) to each individual or household who, as of the date of enactment of this Act, is residing in a trailer provided by the Federal Emergency Management Agency as part of the direct assistance that individual or household received under section 408(c)(2) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5174(c)(2)) as a result of Hurricane Katrina, Rita, or Wilma.

(3) CONDITIONS ON ASSISTANCE.—The provision of temporary housing assistance under this subsection shall be subject to the following requirements:

(A) REQUIRED TENANT ASSISTANCE.—Households receiving assistance shall be required to pay up to 30 percent of their income towards rent and utility costs.

(B) MINIMUM RENTAL AMOUNT.—The Secretary of Housing and Urban Development may implement a minimum rent of up to $100 per month, only if the Secretary provides for hardship exemptions for household including seniors and people with disabilities.

(C) LIMITATION ON EXCESSIVE RENTS.—The Secretary of Housing and Urban Development shall work with landlords to minimize the payment of rents in excess of 120 percent of the fair market rent for comparable housing in the area.

(d) TEMPORARY ASSISTANCE.—

(1) ELIGIBILITY.—Individuals or households receiving rental assistance under this section shall be eligible for such assistance only if they are eligible for tenant-based rental assistance under section 8(o) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o).

(2) EFFECT OF BECOMING INELIGIBLE.—If at any time an individual or household for whom a voucher for rental housing assistance is provided pursuant to this section becomes ineligible for further such rental assistance—

(A) the public housing agency administering such voucher pursuant to this section may not provide rental assistance under such voucher for any other household;

(B) the Secretary of Housing and Urban Development shall recapture from such agency any remaining amounts for assistance attributable to such voucher and may not reobligate such amounts to any public housing agency; and

(C) such voucher shall not be taken into consideration for purposes of determining any future allocation of amounts for such tenant-based rental assistance for any public housing agency.

SEC. 304. VOUCHER ASSISTANCE FOR SUPPORTIVE HOUSING.

There are authorized to be appropriated such sums as may be necessary to provide 4,500 vouchers for project-based rental assistance under section 8(o)(13) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)(13)), and 1,000 units under the Shelter Plus Care Program as authorized under subtitle F of title IV of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11403 et seq.) for use in areas impacted by Hurricanes Katrina and Rita for supportive housing dwelling units for elderly families, persons with disabilities, or homeless persons. The Secretary of Housing and Urban Development shall make available to the State of Louisiana or its designee or designees, upon request, 3,000 of such vouchers. Subparagraphs (B) and (D) of section 8(o)(13) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)(13)) shall not apply with respect to vouchers made available under this section.

SEC. 305. PROJECT-BASING OF VOUCHERS.

The Secretary of Housing and Urban Development may waive the limitations on project-basing under section 8(o)(13)(B) of the United States Housing Act of 1937 (42 U.S.C. 1437f(o)(13)(B)) for public housing agencies located in any area in which the President declared a major disaster as a result of Hurricane Katrina, Rita, or Wilma, if—

(1) the public housing agency is working to project-base vouchers in—

(A) a mixed-income community; or

(B) a low-poverty neighborhood, or a neighborhood undergoing revitalization; or

(2) not more that 50 percent of any project is assisted under such 8(o)(13)(B), unless all units in such project are specifically designated for seniors or the disabled.

SEC. 306. PRESERVATION OF PROJECT-BASED HOUSING ASSISTANCE PAYMENTS CONTRACTS FOR DWELLING UNITS DAMAGED OR DESTROYED.

(a) TOLLING OF CONTRACT TERM.—Notwithstanding any other provision of law, a project-based housing assistance payments contract for a covered assisted multifamily housing project shall not expire or be terminated because of the damage or destruction of dwelling units in the project by Hurricane Katrina or Rita. The expiration date of the contract shall be deemed to be the later of the date specified in the contract or a date that is not less than 3 months after the dwelling units in the project or in a replacement project are first made habitable.

(b) OWNER PROPOSALS FOR REUSE OR RESITING.—The Secretary of Housing and Urban Development shall promptly review and shall approve all feasible proposals made by owners of covered assisted multifamily housing projects submitted to the Secretary, not later than October 1, 2008, that provide for the rehabilitation of the project and the resumption of use of the assistance under the contract for the project, or, alternatively, for the transfer, pursuant to subsection (c), of the contract or, in the case of a project with an interest reduction payments contract, of the remaining budget authority under the contact, to another multifamily housing project.

(c) TRANSFER OF CONTRACT.—In the case of any covered assisted multifamily housing project, the Secretary of Housing and Urban Development shall—

(1) in the case of a project with a project-based rental assistance payments contract described in subparagraph (A), (B), or (C) of subsection (e)(2), transfer the contract to another appropriate and habitable existing project or a project to be constructed (having the same or a different owner); and

(2) in the case of a project with an interest reduction payments contract pursuant to section 236 of the National Housing Act, use the remaining budget authority under the contract for interest reduction payments to reduce financing costs with respect to dwelling units in other habitable projects not currently so assisted, and such dwelling units shall be subject to the low-income affordability restrictions applicable to projects for which such payments are made under section 236 of the National Housing Act.

(d) ALLOWABLE TRANSFERS.—A project-based rental assistance payments contract may be transferred, in whole or in part, under subsection (c) to—

(1) a project with the same or different number of units or bedroom configuration than the damaged or destroyed project if approximately the same number of individuals are expected to occupy the subsidized units in the replacement project as occupied the damaged or destroyed project; or

(2) multiple projects, including some on the same site, if approximately the same

number of individuals are expected to occupy the subsidized units in the replacement projects as occupied the damaged or destroyed project.

(e) DEFINITIONS.—For purposes of this section:

(1) COVERED ASSISTED MULTIFAMILY HOUSING PROJECT.—The term ''assisted multifamily housing project'' means a multifamily housing project that—

(A) as of the date of the enactment of this Act, is subject to a project-based rental assistance payments contract (including pursuant to subsection (a) of this section); and

(B) was damaged or destroyed by Hurricane Katrina or Hurricane Rita of 2005.

(2) PROJECT-BASED RENTAL ASSISTANCE PAYMENTS CONTRACT.—The term ''project-based rental assistance payments contract'' includes—

(A) a contract entered into pursuant to section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f);

(B) a contract for project rental assistance pursuant to section 202(c)(2) of the Housing Act of 1959 (12 U.S.C. 1701q(c)(2));

(C) a contract for project rental assistance pursuant to section 811(d)(2) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 8013(d)(2)); and

(D) an interest reduction payments contract pursuant to section 236 of the National Housing Act (12 U.S.C. 1715z–1).

SEC. 307. GAO STUDY OF WRONGFUL OR ERRONEOUS TERMINATION OF FEDERAL RENTAL HOUSING ASSISTANCE.

The Comptroller General of the United States shall conduct a study of households that received Federal assistance for rental housing in connection with Hurricanes Katrina and Rita to determine if the assistance for any such households was wrongfully or erroneously terminated. The Comptroller General shall submit a report to the Congress not later than January 1, 2008, on the results of the study, which shall include an estimate of how many households were subject to such wrongful or erroneous termination and how many of those households have incomes eligible for the household to receive tenant-based rental assistance under section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f).

TITLE IV—DAMAGES ARISING FROM FEMA ACTIONS

SEC. 401. REIMBURSEMENT OF LANDLORDS.

There are authorized to be appropriated, from amounts made available before the date of the enactment of this Act under any provision of law to the Federal Emergency Management Agency for disaster relief under the Robert T. Stafford Disaster Relief Emergency Assistance Act, such sums as may be necessary for the Administrator of the Federal Emergency Management Agency to provide reimbursement to each landlord who entered into leases to provide emergency sheltering in response to Hurricane Katrina, Rita, or Wilma of 2005, pursuant to the program of the Federal Emergency Management Agency pursuant to section 403 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170b) in the amount of actual, documented damages incurred by such landlord as a result of abrogation by such Agency of commitments entered into under such program, but not including reimbursement for any such landlord to the extent that such landlord has previously received reimbursement for such damages under any other Federal or non-Federal program.

TITLE V—FHA HOUSING

SEC. 501. TREATMENT OF NONCONVEYABLE PROPERTIES.

(a) IN GENERAL.—Notwithstanding any other provision of law, in the case of any property consisting of a 1- to 4-family residence that is subject to a mortgage insured under title II of the National Housing Act (12 U.S.C. 1707 et seq.) and was damaged or destroyed as a result of Hurricane Katrina or Rita of 2005, if there was no failure on the part of the mortgagee or servicer to provide hazard insurance for the property or to provide flood insurance coverage for the property to the extent such coverage is required under Federal law, the Secretary of Housing and Urban Development—

(1) may not deny conveyance of title to the property to the Secretary and payment of the benefits of such insurance on the basis of the condition of the property or any failure to repair the property;

(2) may not reduce the amount of such insurance benefits to take into consideration any costs of repairing the property; and

(3) with respect to a property that is destroyed, condemned, demolished, or otherwise not available for conveyance of title, may pay the full benefits of such insurance to the mortgagee notwithstanding that such title is not conveyed.

(b) BUDGET ACT COMPLIANCE.—Insurance claims may be paid in accordance with subsection (a) only to the extent or in such amounts as are or have been provided in advance in appropriations Acts for the costs (as such term is defined in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661(a)) of such claims.

SEC. 502. FHA SINGLE-FAMILY INSURANCE.

In determining the eligibility of any individual whose residence was damaged or destroyed as a result of Hurricane Katrina and who was current on their mortgage prior to August 28, 2005, for mortgage insurance under section 203 of the National Housing Act (12 U.S.C. 1709), the Secretary of Housing and Urban Development shall look at the creditworthiness of such individual, as such creditworthiness was established prior to August 28, 2005.

SEC. 503. FHA-NEW ORLEANS HOMEOWNERSHIP OPPORTUNITIES INITIATIVE.

(a) ESTABLISHMENT.—There is established within the Department of Housing and Urban Development an FHA-New Orleans Homeownership Opportunities Initiative (in this section referred to as the ''Initiative''), which shall provide for the conveyance or transfer of eligible homes to the New Orleans Redevelopment Authority for use in the pilot program established in section 103 of this Act.

(b) ELIGIBLE HOMES.—For purposes of this section, an eligible home is a 1, 2, 3, or 4-family residence or multi-family project—

(1) that is either vacant, abandoned, or has been foreclosed upon, subject to subsection (e)(2)(B), by the Secretary of Housing and Urban Development;

(2) to which the Secretary holds title; and

(3) which is not occupied by a person legally entitled to reside in such residence or project.

(c) REPORTS.—

(1) INITIAL LIST OF PROPERTIES.—Not later than 30 days after the date of enactment of this Act, the Secretary of Housing and Urban Development shall submit a report to the Committee on Banking, Housing, and Urban Affairs of the Senate, the Committee on Financial Services of the House of Representatives, and the New Orleans Redevelopment Authority listing all eligible homes in the New Orleans area, including a list of homes in default where foreclosure by the Secretary is imminent.

(2) UPDATED LISTS.—Not later than 90 days after the initial report is submitted under paragraph (1), and every 90 days thereafter, the Secretary of Housing and Urban Development shall submit a follow-up report to the Committees and entities described in paragraph (1) listing all—

(A) new eligible homes; and

(B) 1, 2, 3, or 4-family residences or multi-family projects in the New Orleans area—

(i) that have been foreclosed upon by the Secretary, or are in default and where foreclosure is imminent; and

(ii) where the Secretary has taken all necessary actions to avoid such foreclosure.

(d) DONATED PROPERTY.—The Secretary of Housing and Urban Development, at any time, may accept, manage, and convey to the New Orleans Redevelopment Authority and residential property donated to the Secretary by a nongovernmental entity for purposes of this section.

(e) CONVEYANCE OF PROPERTIES.—

(1) REQUEST BY NORA.—Not later than 30 days after any report is submitted under subsection (c), the New Orleans Redevelopment Authority shall, in writing, request that the Secretary of Housing and Urban Development convey any and all eligible homes listed in such report.

(2) HUD ACTION.—

(A) IN GENERAL.—Not later than 30 days after the receipt of any request under paragraph (1), the Secretary of Housing and Urban Development shall convey to the New Orleans Redevelopment Authority, at no cost, title to any eligible home requested by the Authority.

(B) LIMITATION.—The Secretary of Housing and Urban Development may only convey title to an eligible home that is eligible solely because the Secretary foreclosed upon such home, if the Secretary had taken all necessary actions to avoid such foreclosure.

(f) USE OF ELIGIBLE PROPERTIES.—Any eligible home conveyed or transferred to the New Orleans Redevelopment Authority under this section shall be used in the following manner:

(1) MINIMUM USE REQUIREMENT.—Such home shall be sold, conveyed, or included in redevelopment within 18 months of such conveyance or transfer, and shall be redeveloped to meet applicable local building codes so as to ensure that such home—

(A) will be adequately rehabilitated to support sustainable homeownership; and

(B) may be in such physical condition that it can be offered for sale for habitation or occupancy within 36 months of such conveyance or transfer.

(2) LOW-INCOME OCCUPANCY REQUIREMENT.—Notwithstanding any other redevelopment plans, the New Orleans Redevelopment Authority shall ensure that a number of homes equal to the number of homes transferred or conveyed by the Secretary under this section are redeveloped and sold by the Authority to low-income households, at a price that is affordable to such households, subject to the following requirements:

(A) Redevelopment of such eligible homes will be done in concert with other redevelopment activities, as described in section 103.

(B) Preference for purchase of such eligible homes will be given to households—

(i) who have received pre-purchase homeownership counseling; and

(ii) which are comprised of individuals who on August 28, 2005, were residents of the City of New Orleans and—

(I) had, with respect to any dwelling in the City of New Orleans, a valid and nonexpired lease for such dwelling;

(II) owned a home in the City of New Orleans, but who did not receive funds under the Road Home program; or

(III) received housing vouchers under section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f), or lived in public housing.

(3) PRIMARY RESIDENCE REQUIREMENT.—

(A) IN GENERAL.—The individual or household buying such eligible home shall agree to use the home as their primary residence for 5 years.

(B) LIMITATION ON FLIPPING.—The New Orleans Redevelopment Authority shall ensure, by any means, including by the use of restrictive covenants, that if the individual or household who purchased the home from the Authority sells the home within 5 years of such purchase, that such sale shall only be valid if the subsequent buyer is a low-income individual or household.

(4) SALE PRICE REQUIREMENT.—The New Orleans Redevelopment Authority or its redevelopment partners shall sell eligible homes at a discounted price that is affordable to families at or below 80 percent of area median income.

(5) EXCESS PROFIT TO BE RETURNED TO HUD.—Any profit on the sale of home received by the New Orleans Redevelopment Authority or a developer for the sale of an eligible home above the redevelopment costs of such home shall be paid to the Secretary of Housing and Urban Development.

(g) COUNSELING.—The New Orleans Redevelopment Authority shall work with local nonprofit housing counseling agencies to provide pre-purchase counseling to any interested individuals or households who seek to purchase an eligible home from the Authority under this section, as required to receive preference under subsection (f)(2)(B).

(h) INSPECTION PROCESS.—The New Orleans Redevelopment Authority shall establish a process to inspect all eligible homes prior to sale under this section to ensure that such homes—

(1) meet local building codes;

(2) need no further rehabilitation; and

(3) are safe for habitation and occupation.

(i) RECAPTURE PROCEDURES.—The Secretary of Housing and Urban Development, in consultation with the New Orleans Redevelopment Authority, shall establish procedures to recapture amounts in instances where—

(1) eligible homes are not sold to low-income families;

(2) eligible home prices exceed redevelopment costs; and

(3) eligible homes sold are not used as the purchaser's primary residences for 5 years.

(j) COMPLIANCE REPORTS.—

(1) IN GENERAL.—The New Orleans Redevelopment Authority shall submit such information as the Secretary of Housing and Urban Development requires to ensure that eligible homes are being used as required under subsection (f). If at any time, the Secretary determines the Authority is in noncompliance with the requirements under subsection (f), the Secretary shall, not later than 15 days after making such determination, notify, in writing, the Committee on Banking, Housing, and Urban Affairs of the Senate, and the Committee on Financial Services of the House of Representatives.

(2) STATUS REPORT.—Not later than 3 years after the date of enactment of this Act, and again not later than 5 years after the date of enactment of this Act, the New Orleans Redevelopment Authority shall submit a report to the Committee on Banking, Housing, and Urban Affairs of the Senate, and the Committee on Financial Services of the House of Representative on the implementation, status, and execution of the Initiative established under this section.

(k) TERMINATION.—The Secretary of Housing and Urban Development shall not convey or transfer, and the New Orleans Redevelopment Authority shall not accept, any property under this section after 5 years from the date of enactment of this Act.

TITLE VI—FAIR HOUSING ENFORCEMENT

SEC. 601. FAIR HOUSING INITIATIVES PROGRAM.

(a) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out section 561 of the Housing and Community Development Act of 1987 (42 U.S.C. 3616a), in each of fiscal years 2008 and 2009, such sums as may be necessary, but not less than $5,000,000, for areas affected by Hurricanes Katrina and Rita, of which, in each such fiscal year—

(1) 60 percent shall be available only for private enforcement initiatives for qualified private enforcement fair housing organizations authorized under subsection (b) of such section, and, of the amount made available in accordance with this paragraph, the Secretary shall set aside an amount for multiyear grants to qualified fair housing enforcement organizations;

(2) 20 percent shall be available only for activities authorized under paragraphs (1) and (2) of subsection (c) of such section; and

(3) 20 percent shall be available only for education and outreach programs authorized under subsection (d) of such section.

(b) LOW FUNDING.—If the total amount appropriated to carry out the Fair Housing Initiatives Program for either fiscal year 2008 or 2009 is less than $50,000,000, not less than 5 percent of such total amount appropriated for such fiscal year shall be available for the areas described in subsection (a) for the activities described in paragraphs (1), (2), and (3) of such subsection.

(c) AVAILABILITY.—Any amounts appropriated under this section shall remain available until expended.

TITLE VII—IMPROVED DISTRIBUTION OF FEDERAL HURRICANE HOUSING FUNDS FOR HURRICANE RELIEF

SEC. 701. GAO STUDY OF IMPROVED DISTRIBUTION OF FEDERAL HOUSING FUNDS FOR HURRICANE RELIEF.

(a) STUDY.—The Comptroller General of the United States shall conduct a study to examine methods of improving the distribution of Federal housing funds to assist States covered by this Act with recovery from hurricanes, which shall include identifying and analyzing—

(1) the Federal and State agencies used in the past to disburse such funds and the strengths and weakness of existing programs;

(2) the means by and extent to which critical information relating to hurricane recovery, such as property valuations, is shared among various State and Federal agencies;

(3) program requirements that create impediments to the distribution of such funds that can be eliminated or streamlined;

(4) housing laws and regulations that have caused programs to be developed in a manner that complies with statutory requirements but fails to meet the housing objectives or needs of the States or the Federal Government;

(5) laws relating to privacy and impediments raised by housing laws to the sharing, between the Federal Government and State governments, and private industry, of critical information relating to hurricane recovery;

(6) methods of streamlining applications for and underwriting of Federal housing grant or loan programs; and

(7) how to establish more equitable Federal housing laws regarding duplication of benefits.

(b) REPORT.—Not later than 6 months after the date of the enactment of this Act, the Comptroller General shall submit to the Congress a report describing the results of the study and any recommendations regarding the issues analyzed under the study.

TITLE VIII—COMMENDING AMERICANS FOR THEIR REBUILDING EFFORTS

SEC. 801. COMMENDING AMERICANS.

(a) CONGRESSIONAL FINDINGS.—The Congress finds that—

(1) over 500,000 individuals in the United States have volunteered their time in helping rebuild the Gulf Coast region in the aftermath of Hurricane's Katrina and Rita;

(2) over $3,500,000,000 in cash and in-kind donations have been made for hurricane victims;

(3) 110,000,000 pounds of food have been distributed by Catholic Charities' Food Bank through hurricane relief efforts;

(4) almost 7,000,000 hot meals have been served by Salvation Army volunteers in hurricane relief efforts;

(5) over 10,000,000 college students have devoted their spring and fall breaks to hurricane relief efforts;

(6) almost 20,000 families displaced as a result of the hurricanes have been supported by Traveler's Aid volunteers;

(7) faith based and community organizations donated thousands of man-hours, as well as assistance, to evacuees and assistance in clean-up and recovery in the Gulf States.

(b) COMMENDATION.—The Congress hereby commends the actions and efforts by the remarkable individuals and organizations who contributed to the hurricane relief effort and recognizes that the rebuilding of the Gulf Coast region rests on the selfless dedication of private individuals and community spirit.

THE GULF COAST HOUSING RECOVERY ACT OF 2007—JUNE 20, 2007

The following organizations have endorsed the Gulf Coast Housing Recovery Act:

NATIONAL ORGANIZATIONS

AARP, ACORN, Addicts Rehabilitation Center Foundation, Inc., American Association of Homes and Services for the Aging, Asian American Justice Center, Center for Responsible Lending, Center on Budget and Policy Priorities, Consortium for Citizens with Disabilities Housing Task Force, Consumer Mortgage Coalition, Enterprise Community Partners, Institute of Real Estate Management, Jonathan Rose Companies, Lawyers Committee for Civil Rights Under Law, Local Initiatives Support Corporation, McCormack Baron Salazar, Inc., Mortgage Bankers Association, National Affordable Housing Management Association, National Alliance of Vietnamese American Service Agencies (NAVASA), National Alliance to End Homelessness, National AIDS Housing Coalition, National Apartment Association.

JUNE 15, 2007.

Hon. MARY LANDRIEU,
U.S. Senate,
Washington, DC.
Hon. CHRISTOPHER DODD,
U.S. Senate,
Washington, DC.

DEAR SENATORS LANDRIEU AND DODD: Enterprise Community Partners strongly supports your bill, the Gulf Coast Hurricane Housing Recovery Act of 2007. We appreciate that this legislation takes a holistic approach to redeveloping affordable housing in the impacted Gulf Coast region.

Enterprise is one of the nation's leading providers of development capital and expertise for decent, affordable homes in thriving communities. For more than two decades, Enterprise has pioneered neighborhood solutions through private-public partnerships with financial institutions, governments, community organizations and other stakeholders.

We are bringing our resources to bear across the Gulf Coast, helping nonprofit and faith-based organizations serving low-income people and seniors; ensuring sustainable development that saves energy and natural resources; and advising state and local government on policies and programs to create communities of choice. Through partnerships with local and national partners, we have committed to invest $200 million in grants, loans and equity investment toward the development of 10,000 affordable, healthy and sustainable homes in the Gulf Coast region. Enterprise has designed, implemented, and is currently managing the $47 million Louisiana Loan Fund with other partners to provide local developers access to low-cost predevelopment and acquisition capital.

This legislation provides much-needed flexibility while insisting upon the essential principles necessary to comprehensively and equitably redevelop the Gulf Coast. Enterprise commends you for providing displaced families with a range of options, including providing additional vouchers and extending temporary housing assistance.

Enterprise and our local partner, Providence Community Housing, are working with former residents and the local, state and federal governments to redevelop the Lafitte public housing site as part of a broader strategy to revitalize the neighborhood of Treme in New Orleans. This bill creates the policy framework for rebuilding a vibrant, sustainable community of choice for families of all incomes.

The bill's provision for the New Orleans Redevelopment Authority's disposition pilot will help developers acquire off-site properties as replacement homes to reduce density in public housing. This innovative approach will help to ensure that rebuilding public housing in the Gulf Coast does not result in concentrating poverty in isolation from jobs, transportation and services.

Enterprise commends you and the members of the Senate Banking Committee for your leadership on this and other housing issues and urges Congress to expedite the passage of this critical legislation. Please call upon us if we can provide additional information or assistance.

Sincerely,

DORIS W. KOO,
President and Chief Executive Officer, Enterprise Community Partners, Inc.
BART HARVEY,
Chairman of the Board, Enterprise Community Partners, Inc.

JUNE 15, 2007.

Hon. CHRISTOPHER J. DODD,
Hon. MARY LANDRIEU,
U.S. Senate,
Washington, DC.

DEAR SENATORS DODD AND LANDRIEU, We write in support of the bill you will introduce shortly to address the housing needs of low income people affected by Hurricanes Katrina and Rita that remain largely unmet these 21 months after the disaster. While everyone has suffered with the slow pace of recovery, it is the people who had the fewest resources before the storms for whom rebuilding their lives and reestablishing permanent homes has been the most difficult. In particular, repair and replacement of rental housing affordable to low income people has received insufficient attention in the rebuilding plans to date.

Your bill will go a long way towards addressing these concerns. Among its many important provisions is a plan for the repair and redevelopment of public and assisted housing. This provision will ensure that communities will not lose desperately needed federally assisted housing units and that all residents in good standing prior to the storms will have the right to return, while also providing residents with a broader range of housing choices than previously available. Displaced public and assisted housing residents who are trying to rebuild their lives in new communities will also be able to do so without threat of losing housing assistance that makes their new homes affordable. The mobility section is a welcome addition to the House bill.

The tens of thousands more displaced low income people who were living in private housing before the storms, whose homes are gone, and whose temporary housing has been sustained via the chaotic FEMA rent assistance program will finally be able to rely on Section 8 housing vouchers, with its established rules and local administration. We are also in favor of the requirement in the bill for a GAO study to determine how the number of households whose assistance was wrongfully terminated by FEMA.

The pilot program of the New Orleans Redevelopment Authority, coupled with the FHA-New Orleans Disaster Housing Initiative, offer an innovative approach to focus resources for low income housing development in New Orleans, which sustained the greatest loss of affordable rental housing in the affected areas.

We offer the following suggestions for consideration before the bill is introduced or at mark-up. We recommend that the ongoing and desperate housing needs of low income people in Alabama and Texas be addressed in this bill. While the scale of destruction was less in these states, the distribution of resources by HUD shortchanged both states. We urge additional appropriations for Alabama and Texas, allocated through the HOME program.

Second, we ask that you consider expanding the number of new project-based vouchers from 4,500 as is in the draft bill to 25,000.

Attached is a list of organizations that are members of the Katrina Housing Group whose representatives thank you for your work on behalf of low income people displaced by the 2005 Gulf Coast Hurricanes and pledge to work with you to move your important legislation forward.

Sincerely,

THE KATRINA HOUSING GROUP,
c/o National Low Income Housing Coalition.

JUNE 14, 2007.

Hon. CHRISTOPHER DODD,
Hon. MARY LANDRIEU,
U.S. Senate,
Washington, DC.

DEAR SENATORS DODD AND LANDRIEU: The undersigned civil rights organizations are writing to express our support for the Senate version of the Gulf Coast Housing Recovery Act of 2007, soon to be introduced. This bill will address many of the pressing housing issues on the Coast and will assist with civil rights and fair housing enforcement. Because the situation on the Coast continues to be so precarious, we believe this legislation needs to move forward quickly.

In particular, we appreciate the fair housing enforcement and the fair housing reporting mechanisms in the bill. Title VI authorizes funds for vital civil rights enforcement by fair housing centers on the Coast. Title I specifically mentions that every state has to report quarterly on its programs, including how the programs are affirmatively furthering fair housing. In addition, the states must report whom they are serving by race, ethnicity, income, disability, family size, and family status.

In addition, the provisions for housing mobility, public housing replacement, and a new FHA multifamily loan program will provide much needed housing as well as the opportunity for racial and socioeconomic integration.

Thank you again for your efforts to support civil rights and fair housing.

Sincerely,

Center for Responsible Lending.

Greater Houston Fair Housing Center.

Greater New Orleans Fair Housing Action Center.

Gulf Coast Fair Housing Center (Biloxi, MS).

Lawyers Committee for Civil Rights Under Law.

Mobile Fair Housing Center.

National Association for the Advancement of Colored People (NAACP).

National Coalition for Asian Pacific American Community Development (National CAPACD).

National Fair Housing Alliance.

VOLUNTEERS OF AMERICA,
Alexandria, VA, June 13, 2007.

Hon. CHRISTOPHER DODD,
U.S. Senate, Russell Building,
Washington DC.

DEAR SENATOR DODD: On behalf of Volunteers of America, a national, nonprofit, faith-based organization dedicated to helping those in need rebuild their lives and reach their full potential, I am writing to express our strong support for the Dodd/Landrieu Gulf Coast Hurricane Housing Recovery Act of 2007. This measure will assist in the rebuilding process in the region and provide the requisite long term housing relief for many poor and low income individuals.

Volunteers of America helps more than 2 million people in over 400 communities. Since 1896, our ministry of service has supported and empowered America's most vulnerable groups, including at-risk youth, the frail elderly, men and women returning from prison, homeless individuals and families, people with disabilities, and those recovering from addictions. Our work touches the mind, body, heart—and ultimately the spirit—of those we serve, integrating our deep compassion with highly effective programs and services.

Volunteers of America has served New Orleans and the Gulf Region for over a century. Prior to Hurricane Katrina we had a diverse portfolio of over 1,000 housing units in and around New Orleans. Included in this total was senior housing, family housing, housing for persons with disabilities, and housing for people leaving homelessness. All of these properties were rendered uninhabitable by the storm, as were our offices and many of our other program sites. We continue to work in partnership with state and local governments, other non-profit agencies and with businesses, to rebuild communities along the Gulf Coast. Under our ''Coming Back Home'' Initiative, we have pledged to restore the 1,000 affordable housing units we provided in New Orleans prior to Katrina, and to seek every opportunity to build additional units. Our goal is to continue providing housing and supportive services to vulnerable populations, and offer workforce housing to people who need an affordable place to live as they strive to rebuild New Orleans. We are also providing home ownership opportunities for low income families in Louisiana, Mississippi, and Alabama.

To this end, the Gulf Coast Hurricane Housing Recovery Act of 2007, represents an excellent opportunity for the Senate to address the on going housing and rebuilding needs of this region. Thank you for your leadership in introducing this important measure and we look forward to working with you and all the members in the Senate to ensure final passage of this landmark legislation.

Sincerely,

CHARLES W. GOULD,
President.

CITY VIEW,
San Antonio, TX, June 18, 2007.

Hon. MARY LANDRIEU,
Senate Hart Office Building,
U.S. Senate, Washington, DC.

Hon. CHRISTOPHER DODD,
Senate Rayburn Office Building,
U.S. Senate, Washington, DC.

DEAR SENATORS LANDRIEU AND DODD: As a member of Enterprise Community Partners' Real Estate Leadership Council, thank you for introducing the Gulf Coast Hurricane Housing Recovery Act of 2007. This legislation takes a critically needed holistic approach to both immediate and long-term housing needs in the impacted Gulf Coast region, which I have seen firsthand.

Taking a comprehensive but flexible approach to rebuilding in the wake of Hurricanes Katrina and Rita is essential. I believe this bill will ensure that public housing is redeveloped equitably and sustainably, ensuring that there will be no net loss of federally assisted units in the area and that former residents will have access to services and the opportunity to return. The many displaced low-income families who were not previously public housing residents now will have access to the known and reliable Section 8 housing voucher program rather than the often confusing FEMA rental assistance program.

Additionally, the New Orleans Redevelopment Authority disposition pilot program to help developers acquire properties for replacement housing takes an innovative approach. This program will go far to ensuring that New Orleans retains affordable housing options while rebuilding mixed-income communities of choice.

Through partnerships with local and national partners, Enterprise has committed to invest $200 million in loans, grants and tax credit equity toward the development of 10,000 affordable, healthy and sustainable homes in the Gulf Coast region. I would also like to commend you for your critical role in extending the placed-in-service date for the Gulf Opportunity Zone low income housing tax credits. This was an important step in ensuring that the GO-Zone tax credits will be able to be used to rebuild affordable housing for low-income families in the region.

Sincerely,

Member, Real Estate Leadership Council, Enterprise Community Partners, Inc.

Ms. LANDRIEU. Mr. President, I come to the floor today to speak about an important issue that will determine the success of long-term recovery efforts in the gulf coast. As you know, the gulf coast was devastated in 2005 by two of the most powerful storms to ever hit the United States in recorded history—Hurricanes Katrina and Rita. We also experienced the unprecedented disaster of having a major metropolitan city—the city of New Orleans—under up to 20 feet of water for 2 weeks when there were 28 separate levee failures which flooded 12,000 acres, or 80 percent of New Orleans, following Katrina.

I strongly believe that the Congress can provide vast amounts of tax credits, grants, loans, and waivers, but all these benefits will not spur recovery if we cannot get people back into their homes. That is where recovery must start and end. In Louisiana alone, for example, we had over 20,000 businesses destroyed. However, businesses cannot open their doors if their workers have nowhere to live. Louisiana also had 875 schools destroyed. Again, teachers cannot come back to school and teach our children if they do not have a roof over their heads. So a fundamental piece of recovery in the gulf coast is to allow disaster victims to return home and rebuild.

Given the ongoing needs in the southern part of my State in regard to damaged housing, as well as all across the gulf coast, I was pleased that H.R. 1227, the Gulf Coast Hurricane Housing Recovery Act, passed the House of Representatives on March 21, 2007. This legislation, introduced by Representative MAXINE WATERS and Representative BARNEY FRANK, addresses many of the major housing-related problems in my State, in particular issues with the Louisiana Road Home Program and public housing. Since this legislation was received in the Senate, I have been working closely with Senator CHRIS DODD, chairman of the Senate Banking Committee, to review H.R. 1227 for ways to strengthen this important legislation. To further this goal, we have consulted residents, community leaders, nonprofits, State/local officials, and other relevant stakeholders on areas where H.R. 1227 might require improvements.

Today, along with Chairman DODD, I am proud to introduce legislation which is the product of these months of intensive consultations. This legislation, a Senate companion bill to H.R. 1227, is identical to the House bill in many places, and in others it really improves upon what was included in the House bill. For example, H.R. 1227 included $15 million for the New Orleans Redevelopment Authority, NORA, to carry out a pilot program to purchase and bundle properties, then sell for redevelopment. These funds would allow NORA to initially acquire and redevelop properties in the New Orleans area. While I support this pilot program, which was included by my colleague from Louisiana, Representative RICHARD BAKER, I believe that some additional funds were necessary to truly allow NORA to ''hit the ground running'' with this program. That is why our bill includes $25 million for NORA. Furthermore, before Hurricane Katrina, at approximately 40 percent, New Orleans had one of the lowest home ownership levels of any metropolitan area in the country. As we rebuild this vibrant city, increasing home ownership should be one of the tenets of the redevelopment process. With this in mind, our bill does its part to increase home ownership opportunities for low-income renters and public

housing residents by including an additional $5 million for NORA to provide soft second mortgages. The bill also directs the Federal Housing Administration to convey properties to NORA for affordable resale to these residents.

In regard to the Louisiana Road Home Program, following passage of the House bill, we learned that the Road Home is facing a shortfall of billions of dollars due to various reasons. There is certainly more than enough blame to go around for the mistakes in the creation and management of the Road Home Program, and fixing them will be a shared responsibility. But a significant initial flaw can be found in the inadequate and unfairly distributed funding which represented all the administration was willing to commit toward Louisiana recovery. At this stage, the funding shortfall threatens to stall recovery in Louisiana and leave homeowners without the vital funds they need to rebuild their homes. To address this important issue, our bill includes an authorization of funds so that if the State of Louisiana puts up $1 billion toward the Road Home shortfall, additional funds necessary to shore up the program would be available.

The Louisiana Recovery Authority, LRA, and the State legislature approved a plan that allocates $1.175 billion dollars to be included in the Road Home Program and $217 million for traditional Hazard Mitigation Projects for use by local parishes and municipalities. In particular, the money allocated for use by local parishes and municipalities can be used for retrofitting structures, such as flood-proofing and elevating homes, acquisition and relocation of residential homes from disaster-prone areas. For the $1.175 billion, the State is seeking to use these funds for the Road Home Program, and HUD has approved it for these uses, but FEMA has so far refused to allow this change. For more than a year, the State of Louisiana and FEMA have met and attempted to work out the issues for applying the funds for the Road Home with no significant progress.

To address this issue, the House bill requires FEMA to accept the State's program structure for the Road Home, which provides incentives to people who choose to remain in the State. These provisions are helpful, but maximum flexibility for using HMGP funds must be provided, so that is why our Senate companion would allow Louisiana to use this more than $1 billion for mitigation activities in the Road Home Program according to more flexible HUD Community Development Block Grant Program rules. The bill also requires FEMA to send these funds to the State within 90 days so that they can quickly be utilized for the Road Home. Lastly, and most important for our impacted parishes in Louisiana, the Dodd-Landrieu bill requires Louisiana to send any future Katrina/Rita HMGP funds directly to the parishes and localities where these funds are badly needed. I believe this is a commonsense approach as we need to make fixing the Road Home a priority but also should recognize that the parishes certainly deserve additional funds which should become available in the coming months.

I am also aware that many Louisiana Road Home recipients have seen their housing recovery grants reduced by Federal agencies, citing ''duplication of benefits'' regulations. While I understand the need to ensure fiscal responsibility on Federal recovery spending, in addition to make sure that residents are not benefiting from these disasters, these Federal regulations are in many ways stifling recovery rather than discouraging fraud and abuse. This is because Louisiana homeowners in many cases had to wait months upon months for U.S. Small Business Administration, SBA, disaster assistance, Federal Emergency Management Agency, FEMA, assistance, and many are unfortunately still waiting to see resolution on their insurance claims. The delay in delivery of this vital recovery capital, along with the immense damage in the region, has left many homeowners scrambling to cobble together enough funds for fully rebuilding their damaged homes. The Louisiana Road Home Program was created to further these ends but cannot allow residents to return home and rebuild if Federal regulations are requiring recovery funds to come back to Washington, not stay in Louisiana where they are needed. Let me clarify, though, residents should not benefit from these storms, but the Federal Government should ensure that they have the necessary resources to responsibly rebuild their lives. To these ends, H.R. 1227 included a provision to waive these ''duplication of benefits'' regulations for insurance and FEMA assistance so long as the household did not receive a windfall gain. While our bill includes a similar provision, we clarified that SBA disaster assistance is also included and that the regulation is waived so long as the household does not receive more funds than is necessary to repair/rebuild their home.

Following Katrina and Rita, there has been a great deal of emphasis placed on rebuilding gulf coast rental housing and owner-occupied housing, as there should be. The recovery of public housing, however, is one area that has not received much national press even though, prior to Hurricane Katrina, the Housing Authority of New Orleans, HANO, operated 7,379 public housing units, 5,146 of which were occupied in the New Orleans area alone. These residents, just like renters and homeowners, have a right to return home, so we must provide them the means and opportunity to do so. H.R. 1227 provides a process for returning these New Orleans public housing residents home. It includes a resident study to find out which residents want to stay where they are, which residents want to come back to public housing in New Orleans, and which residents would like to return to New Orleans with rental or section 8 voucher assistance. This study would guide redevelopment of public housing units in New Orleans. The House bill also specifies that HANO shall not demolish the 7,379 public housing units unless there is a plan in place to provide one-for-one replacement for the units. This particular provision ensures that all public housing residents who want to return home can return to affordable public housing units.

The Dodd-Landrieu Senate companion retains these provisions but strengthens them in a few ways. For example, just as in H.R. 1227, our bill sets out that all 5,146 pre-Katrina occupied units shall be replaced with 5,146 hard units. However, unlike the House bill, for the remaining units, this bill allows HANO to replace these with hard units or with project-based vouchers tied to units in low-income neighborhoods/areas undergoing revitalization. This is because some residents want to return to public housing units, but there are others who would like to transition to other types of units. This bill would allow them the choice.

Furthermore, in another improvement from the House version, our bill ties the dates for the survey and resident return to the enactment of the bill, to ensure residents have sufficient time to make decisions and to return home. Before the storms, almost 85 percent of these public housing residents were employed, and many are now employed in other cities, some with children in schools there. Although I know they want to come home as soon as possible, it would be somewhat unreasonable to require them to pull their children out of schools and leave their current jobs in such a short timeframe. The Senate bill gives these residents the time necessary to make relevant arrangements and move back within 120 days of enactment.

Another issue that was not addressed in the House bill is in regard to residents who were on a waiting list to get into public housing. With a shortage of affordable housing in the New Orleans area, these almost 6,000 residents are left without many options in pursuing suitable housing. Our bill also requires HANO, as part of its replacement plans, to contact individuals on the pre-Katrina waiting list and to give these residents consideration for any units not needed for returning residents.

As you may know, HANO has been a troubled agency long before Hurricane Katrina hit New Orleans. It has been plagued by mismanagement and financial problems for years and is currently

administered by HUD. Under normal circumstances, this may not warrant much congressional attention as HUD has taken over countless housing authorities nationwide to steer them in the right direction. However, at this important stage in rebuilding public housing in New Orleans, many in the city believe we need an independent partner overseeing the process. Although there may be the best intentions from administration officials running HANO, it is still HUD in Washington calling the shots, not local officials, residents, and other groups. There are also new and innovative public housing administration models from other cities, which incorporate both resident input and public-private partnerships.

Now, I realize that Rome was not built in a day and that it will take years, not months, to fully rebuild New Orleans. Along these same lines, no one expects HANO to be completely reformed overnight, especially given its years of problems and the need to not jeopardize ongoing development in any way. But there is a general consensus that the status quo for HANO must not continue. To these ends, our bill requires HUD to put HANO into judicial receivership within 30 days, which would start the process of turning HANO over to local control. We believe it is important to start this dialogue on the next steps for HANO, given how important its role will be in rebuilding public housing in the region.

In closing, let me reiterate that this bill addresses one of the most fundamental needs following a disaster: the need to return home. Whether residents live in million-dollar mansions, rental housing, or public housing, they all share a desire to return to their communities and, in particular, their homes. The House has done its part to help these residents, so I urge my colleagues to support this comprehensive recovery legislation as now these disaster victims are counting on the Senate for action.

I ask unanimous consent to have printed in the RECORD letters of support for the legislation.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

TRAMMELL CROW RESIDENTIAL,
Atlanta, GA, June 15, 2007.

Hon. MARY LANDRIEU,
U.S. Senate,
Washington, DC.
Hon. CHRISTOPHER DODD,
U.S. Senate,
Washington, DC.

DEAR SENATORS LANDRIEU AND DODD: As a member of Enterprise Community Partners' Real Estate Leadership Council, thank you for introducing the Gulf Coast Hurricane Housing Act of 2007. This legislation takes a critically needed holistic approach to both immediate and long-term housing needs in the impacted Gulf Coast region, which I have seen firsthand.

Taking a comprehensive but flexible approach to rebuilding in the wake of Hurricanes Katrina and Rita is essential. I believe this bill will ensure that public housing is redeveloped equitably and sustainably, ensuring that there will be no net loss of federally assisted units in the area and that former residents will have access to services and the opportunity to return. The many displaced low-income families who were not previously public housing residents now will have access to the known and reliable Section 8 housing voucher program rather than the often confusing FEMA rental assistance program.

Additionally, the New Orleans Redevelopment Authority disposition pilot program to help developers acquire properties for replacement housing takes an innovative approach. This program will go far to ensuring that New Orleans retains affordable housing options while rebuilding mixed-income communities of choice.

Through partnerships with local and national partners, Enterprise has committed to invest $200 million in loans, grants and tax credit equity toward the development of 10,000 affordable, healthy and sustainable homes in the Gulf Coast region. I would also like to commend you for your critical role in extending the placed-in-service date for the Gulf Opportunity Zone low income housing tax credits. This was an important step in ensuring that the GO-Zone tax credits will be able to be used to rebuild affordable housing for low-income families in the region.

Thank you for your leadership on this and other Gulf Coast housing issues. I urge Congress to expedite the passage of this critical legislation.

Sincerely,
J. RONALD TERWILLIGER,
Member, Real Estate Leadership Council, Enterprise Community Partners, Inc.

REACH COMMUNITY DEVELOPMENT, INC.,
Portland, OR, June 12, 2007.

Hon. MARY LANDRIEU,
U.S. Senate,
Washington, DC.

DEAR SENATOR LANDRIEU: As a Trustee of Enterprise Community Partners and chair of Enterprise's national Network Advisory Board, thank you for introducing the Gulf Coast Hurricane Housing Recovery Act of 2007. This legislation takes a critically needed holistic approach to both immediate and long-term needs in the impacted Gulf region.

Taking a comprehensive but flexible approach to rebuilding in the wake of Hurricanes Katrina and Rita is essential. I believe this bill will ensure that public housing is redeveloped equitably and sustainably, ensuring that there will be no net loss of federally assisted units in the area and that former residents will have access to services and the opportunity to return. The many displaced low-income families who were not previously public housing residents now will have access to the known and reliable Section 8 housing voucher program rather than the often confusing FEMA rental assistance program.

Additionally, the New Orleans Redevelopment Authority disposition pilot program to help developers acquire properties takes an innovative approach. This program will go far to ensuring that New Orleans retains affordable housing options while rebuilding mixed-income communities of choice.

Enterprise is responding to Hurricanes Katrina and Rita by bringing its resources to bear to leverage locally led partnerships. Working with capable local and national partners, Enterprise has committed to invest $200 million in loans, grants and tax credit equity toward the development of 10,000 affordable, healthy and sustainable homes in the Gulf region. I would also like to commend you for your critical role in extending the placed-in-service date for the Gulf Opportunity Zone low income housing tax credits. This was an important step in ensuring that the GO-Zone tax credits will be able to be used to rebuild affordable housing for low-income families in the region.

Thank you for your leadership on this and other Gulf Coast housing issues. I urge Congress to expedite the passage of this critical legislation.

Sincerely,
DEE WALSH,
Executive Director, REACH Community Development, Inc.

By Ms. SNOWE:

S. 1670. A bill to amend title 10, United States Code, to improve the management of medical care for members of the Armed Forces, to improve the speed and efficiency of the physical disability evaluation system of the Department of Defense, and for other purposes; to the Committee on Armed Services.

Ms. SNOWE. Mr. President, I rise today to proudly join my friend and colleague Senator BLANCHE LINCOLN in the introduction of the Servicemembers' Healthcare Benefits and Rehabilitation Enhancement Act of 2007.

In March, I was able to visit one of Maine's returning soldiers who has been assigned outpatient care at the Walter Reed Army Medical Center. We spoke about the many issues and obstacles faced by our wounded troops as they struggle not only to recover from their injuries, but to prepare themselves for their future. During our meeting, this soldier covered many of the pitfalls faced by troops as they confront the bewildering processes of medical and physical evaluation boards without the benefit of anyone to advocate on their behalf. In fact, he aptly described the process as an ''adversarial'' system that onerously demands wounded soldiers to provide the ''burden of proof'' for their claims.

In response, we have crafted this legislation in order to remedy a variety of flaws that currently plague the military health care system, including: Inequitable disability ratings, a lack of advocacy within military outpatient facilities, inadequate mental health treatment, and inefficient transition from the DOD to the VA.

First off, our bill would address the concerns I have heard from a number of returning troops from my home State of Maine and across this Nation who have gone without the proper advocacy and case management for medical benefits during their stay at military outpatient facilities. It is inexcusable that our returning heroes are often forced to navigate the esoteric physical disability evaluation system, PDES, within an adversarial atmosphere.

The measure we are proposing would require the Secretary of Defense to

provide each recovering servicemember in a military medical treatment facility with a medical care manager who will assist him or her with all matters regarding their medical status, along with a caseworker who will assist each servicemember and his or her family in obtaining all the information necessary for transition, recovery, and benefits collection. Further, provisions we included will create a DOD-wide ombudsmen office to provide policy guidance to, and oversight of, ombudsman offices in all military departments and the medical system of the DOD. Only then, will our returning servicemembers recover within an atmosphere that is based upon advocacy.

Additionally, recent news reports and independent analysis have revealed troubling statistics regarding rampant inaccuracies within the military disability ratings system. According to Pentagon data analyzed by the Veterans' Disability Benefits Commission, since 2000, 92.7 percent of all disability ratings handed out by physical evaluation boards, PEBs, have been 20 percent or lower. Under the current policy, those who receive disability ratings under 30 percent and have served less than 20 years of military service are discharged with only a severance check, deprived of full military retirement pay, life insurance, health insurance, and access to military commissaries.

Further evidence of a troubled disability ratings system shows that since America went to war in Afghanistan and Iraq, fewer veterans have received disability ratings of 30 percent or more, inferring that the DOD may have lowered the ratings for injured troops who would have otherwise received a host of lifelong benefits. On top of that, it currently takes an average of 209 days for troops to complete the PDES process by receiving notification of potential discharge and a subsequent disability rating.

As a means of fixing these blatant flaws within the military disability ratings system, this legislation consolidates the physical evaluation system by placing the informal and formal physical evaluation boards under one command, as a method of streamlining and expediting the process. Our troops deserve timely care and efficient treatment upon their return home, and therefore, no recovering servicemember should be forced to endure lengthy delays in a medical hold or holdover status due to bureaucratic inefficiencies.

The bill also requires that physicians preparing each individual medical case for all physical evaluation boards report multiple diagnosed medical impairments that, in concert, may deem a servicemember to be unfit for duty. Under the current system, the U.S. Army, for example, only rates physical impairments that individually, cause a servicemember to be deemed unfit for duty, ultimately dismissing ailments that may significantly hinder a servicemember's ability to continue his or her service in the military or find gainful employment in the civilian sector.

Over the past year, the American public has also become acutely aware of the effects of traumatic brain injury, TBI, which has become the signature injury of the wars in Iraq and Afghanistan, affecting thousands of returning servicemembers. Therefore, it is now more imperative than ever for both the DOD and the VA to implement mental health treatment policies that accurately diagnose and adequately treat debilitating mental health injuries among our injured troops.

Our bill addresses these issues by including a provision that requires all servicemembers who are expected to deploy to a combat theater to receive a mental health assessment that tests their cognitive functioning within 120 days before deployment, a mental health assessment within 60 days after deployment, to include a comprehensive screening for mild, moderate, and severe cases of TBI. Additionally, all servicemembers will receive a third mental health assessment at the time of their predischarge physical.

The measure we are putting forward today also aims to update the current disability ratings system used by the military and the VA to include the effects of TBI and posttraumatic stress disorder, along with any other mental health disorders that may affect our Nation's returning warriors. The Secretary of Veterans Affairs would be required to issue a report to Congress detailing a plan to update the Veteran's Administration Schedule for Ratings Disabilities, VASRD, to align its disability ratings to more closely reflect the effects of mental health disorders, including TBI and PTSD on the modern workforce.

The Servicemembers' Healthcare Benefits and Rehabilitation Enhancement Act of 2007 also calls on the Secretaries of Defense and Veterans Affairs to provide Congress with a report detailing plans to increase the role of eligible private sector rehabilitation providers for assisting the VA in providing comprehensive post acute inpatient and outpatient rehabilitation for TBI and PTSD, if in certain instances, the VA is unable to provide such services.

The Veterans Health Administration is, unequivocally, the foremost expert in providing mental health treatment for our recovering servicemembers, yet in varying circumstances, the VA may require additional health care coverage in remote areas. All of our returning heroes, despite the severity of their mental health ailments, or their location geographically, deserve every available option for rehabilitative services, to ensure that they never go untreated.

Additionally, to help ease the transition from the military health care system to the VA system, both the DOD and the VA must adopt and implement a unified electronic medical database. Interagency database compatibility would not only increase medical efficiency, but it would significantly ease the transition into civilian life for injured or retiring servicemembers who deserve timely and effective health care. Therefore, our legislation establishes and implements a single electronic military and medical record database within the DOD that will be used to track and record the medical status of each member of the Armed Forces in theater and throughout the military health care process, and will be accessible to the VA through the joint patient tracking application, JPTA. This electronic records system will be identical to the VistA system, currently used by the VA, which has served as a model of excellence for electronic medical databases among our Nation's health community.

I have nothing but the utmost respect for those brave Americans who served in uniform with honor, courage, and distinction. The obligation our Nation holds for its servicemembers and veterans is enormous, and it is an obligation that must be fulfilled every day. We must always remain cognizant of the wisdom laid forth by President George Washington, when he stated, ''The willingness with which our young people are likely to serve in any war, no matter how justified, shall be directly proportional as to how they perceive the Veterans of earlier wars were treated and appreciated by their country.''

At a time when over 600,000 courageous men and women have returned from combat in both Iraq and Afghanistan, I believe it is now up to Congress to do everything in its power to answer the call of our men and women who have nobly served our Nation in uniform, to ensure that they receive the heroes treatment they rightly earned and rightly deserve. Again, I want to thank my colleague, Senator LINCOLN, for her assistance in making this a stronger bill and bringing it before the Senate. I strongly urge my colleagues to support this legislation.

By Mr. KERRY (for himself and Ms. SNOWE):

S. 1671. A bill to reauthorize and improve the entrepreneurial development programs of the Small Business Administration, and for other purposes; to the Committee on Small Business and Entrepeneurship.

Mr. KERRY. Mr. President, as chairman of the Committee on Small Business and Entrepreneurship, I am pleased to introduce today with Ranking Member Senator SNOWE the Entrepreneurial Development Act of 2007. As

always, I appreciate the opportunity to work with my colleague from Maine on the issues facing the Nation's small businesses, and I believe that we have taken another step in the right direction with this bill.

The Entrepreneurial Development Act reauthorizes and expands the Small Business Administration's entrepreneurial development programs. In particular, it supports women and minority small business ownership opportunities by boosting Small Business Development Centers, Women's Business Centers, SCORE, and other counseling and assistance programs. Investing in these core small business assistance programs is critical to creating jobs and boosting our economy. In Massachusetts alone, SBDCs served over 8,500 entrepreneurs last year and our Center for Women and Enterprise has generated 15,000 jobs over the last 10 years. These programs will not only help our entrepreneurs succeed today, but they will build the next generation of small business owners too.

We have long supported these kinds of improvements and many of the provisions in the bill unanimously passed the Committee on Small Business and Entrepreneurship last Congress.

The bill takes a number of steps to improve the Women's Business Center grant program through streamlining paperwork and increased oversight, and also promoting greater consultation between the National Women's Business Council, the Interagency Committee on Women's Business Enterprise and Women's Business Centers. This increased communication between the different groups will help them provide the most effective and efficient assistance to women-owned small businesses.

The bill also creates a Native American small business development program, an Office of Native American Affairs within the Small Business Administration, SBA, and a Native American grant pilot program to foster increased employment and expansion of small businesses in Indian Country through business counseling services. According to the SBA's Office of Advocacy, the American Indian and Alaska Native community is one of the fastest growing business groups in the country. Yet nearly 25 percent of the country's American Indian and Alaska Native populations live in poverty. There are huge small business opportunities just waiting to be tapped in Indian Country. We should be building on the energy and excitement among Native American entrepreneurs with more support from the federal government, and that's exactly what we intend to do.

In addition, the bill creates several pilot programs that will help to deal with some of the most important issues facing small businesses.

First, the bill establishes a pilot program to assist small businesses in complying with Federal and State laws and regulations. Reducing redtape for small businesses has always been one of my top priorities for the committee. We must help small firms navigate the labyrinthine regulatory system because compliance is critical to their success and their continued contribution to our economy. I'm committed to seeing that small businesses have every tool available—from guides to direct compliance assistance and counseling to assist them along the way.

In addition, this bill seeks to address the small business health insurance crisis through a competitive, pilot grant program for SBDCs to provide counseling and resources to small businesses about health insurance options in their communities. I have heard time and time again from small business owners that their number one concern is the high cost of health insurance. At least 27 million Americans working for small businesses don't have health insurance. That means that 27 million Americans are one slip, illness or emergency room visit away from disaster. We must do everything we can to help them.

Finally, the bill creates a Minority Entrepreneurship and Innovation pilot program to provide competitive grants to Historically Black Colleges and Universities, Hispanic Serving Institutions, Alaska Native and Native Hawaiian Serving Institutions, and Tribal Colleges to create a curricula focused on entrepreneurship. The goal of this program is to target students in highly skilled fields such as engineering, manufacturing, science and technology, and guide them towards entrepreneurship as a career option. Traditionally, minority-owned businesses are disproportionately represented in the service sectors. Promoting entrepreneurial education to undergraduate students will help expand business ownership beyond the service sectors to higher growth technical and financial sectors. One of our Nation's greatest assets is our diversity and investing in minority businesses only helps to increase the value of that asset. Unfortunately, investment in our minority business community has been sorely lacking. For example, in Massachusetts, minorities make up about 15 percent of our population, but they own only about 5 percent of the businesses and account for just 1.4 percent of sales. These statistics demonstrate why programs like the Minority Entrepreneurship and Innovation pilot program are so important to the future minority business leaders of tomorrow. Making this investment will ensure that we will have enough entrepreneurs from all sectors of our Nation to keep our economy competitive and strong.

I thank Senator SNOWE for joining me in introducing this important bill, and I urge my colleagues to support it when it comes before the full Senate for consideration. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1671

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Entrepreneurial Development Act of 2007''.

SEC. 2. TABLE OF CONTENTS.

The table of contents of this Act is as follows:

SEC. 3. DEFINITIONS.

In this Act—

(1) the terms ''Administration'' and ''Administrator'' mean the Small Business Administration and the Administrator thereof, respectively; and

(2) the term ''small business concern'' has the meaning given that term in section 3 of the Small Business Act (15 U.S.C. 632).

TITLE I—REAUTHORIZATION

SEC. 101. REAUTHORIZATION.

(a) IN GENERAL.—Section 20 of the Small Business Act (15 U.S.C. 631 note) is amended—

(1) by striking subsections (d), (e), and (j); and

(2) by adding at the end the following:

''(d) SCORE PROGRAM.—There are authorized to be appropriated to the Administrator to carry out the Service Corps of Retired Executives program authorized by section 8(b)(1) such sums as are necessary for the Administrator to make grants or enter into cooperative agreements for a total of—

''(1) $7,000,000 in fiscal year 2008;

''(2) $8,000,000 in fiscal year 2009; and

''(3) $9,000,000 in fiscal year 2010''.

(b) SMALL BUSINESS DEVELOPMENT CENTERS.—Section 21 of the Small Business Act (15 U.S.C. 648) is amended—

(1) in subsection (a)(4)(C), by amending clause (vii) to read as follows:

''(vii) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this subparagraph—

''(I) $135,000,000 for fiscal year 2008;

''(II) $140,000,000 for fiscal year 2009; and

''(III) $145,000,000 for fiscal year 2010.''; and

(2) in subsection (c)(3)(T), by striking ''October 1, 2006'' and inserting ''October 1, 2010''.

(3) PAUL D. COVERDELL DRUG-FREE WORKPLACE PROGRAM.—

(A) IN GENERAL.—Section 27(g) of the Small Business Act (15 U.S.C. 654(g)) is amended—

(i) in paragraph (1), by striking ''fiscal years 2005 and 2006'' and inserting ''fiscal years 2008 through 2010''; and

(ii) in paragraph (2), by striking ''fiscal years 2005 and 2006'' and inserting ''fiscal years 2008 through 2010''.

(B) CONFORMING AMENDMENT.—Section 21(c)(3)(T) of the Small Business Act (15 U.S.C. 648(c)(3)(T)) is amended by striking ''October 1, 2006'' and inserting ''October 1, 2010''.

TITLE II—WOMEN'S SMALL BUSINESS OWNERSHIP PROGRAMS

SEC. 201. OFFICE OF WOMEN'S BUSINESS OWNERSHIP.

Section 29(g) of the Small Business Act (15 U.S.C. 656(g)) is amended—

(1) in paragraph (2)—

(A) in subparagraph (B)(i), by striking ''in the areas'' and all that follows through the end of subclause (I), and inserting the following: ''to address issues concerning management, operations, manufacturing, technology, finance, retail and product sales, international trade, and other disciplines required for—

''(I) starting, operating, and growing a small business concern;''; and

(B) in subparagraph (C), by inserting before the period at the end the following: '', the National Women's Business Council, and any association of women's business centers''; and

(2) by adding at the end the following:

''(3) PROGRAMS AND SERVICES FOR WOMEN-OWNED SMALL BUSINESSES.—The Assistant Administrator, in consultation with the National Women's Business Council, the Interagency Committee on Women's Business Enterprise, and 1 or more associations of women's business centers, shall develop programs and services for women-owned businesses (as defined in section 408 of the Women's Business Ownership Act of 1988 (15 U.S.C. 631 note)) in business areas, which may include—

''(A) manufacturing;

''(B) technology;

''(C) professional services;

''(D) retail and product sales;

''(E) travel and tourism;

''(F) international trade; and

''(G) Federal Government contract business development.

''(4) TRAINING.—The Administrator shall provide annual programmatic and financial oversight training for women's business ownership representatives and district office technical representatives of the Administration to enable representatives to carry out their responsibilities under this section.

''(5) GRANT PROGRAM AND TRANSPARENCY IMPROVEMENTS.—The Administrator shall improve the transparency of the women's business center grant proposal process and the programmatic and financial oversight process by—

''(A) providing notice to the public of each women's business center grant announcement for an initial and renewal grant, not later than 6 months before awarding such grant;

''(B) providing notice to grant applicants and recipients of program evaluation and award criteria, not later than 12 months before any such evaluation;

''(C) reducing paperwork and reporting requirements for grant applicants and recipients;

''(D) standardizing the oversight and review process of the Administration; and

''(E) providing to each women's business center, not later than 30 days after the completion of a site visit at that center, a copy of site visit reports and evaluation reports prepared by district office technical representatives or Administration officials.''.

SEC. 202. WOMEN'S BUSINESS CENTER PROGRAM.

(a) WOMEN'S BUSINESS CENTER GRANTS PROGRAM.—Section 29 of the Small Business Act (15 U.S.C. 656) is amended—

(1) in subsection (a)—

(A) by redesignating paragraphs (2), (3), and (4), as paragraphs (3), (4), and (5), respectively; and

(B) by inserting after paragraph (1) the following:

''(2) the term 'association of women's business centers' means an organization that represents not fewer than 30 percent of the women's business centers that are participating in a program under this section, and whose primary purpose is to represent women's business centers;'';

(2) in subsection (b)—

(A) by redesignating paragraphs (1), (2), and (3) as subparagraphs (A), (B), and (C), and adjusting the margins accordingly;

(B) by striking ''The Administration'' and inserting the following:

''(1) IN GENERAL.—The Administration'';

(C) by striking ''The projects shall'' and inserting the following:

''(2) USE OF FUNDS.—The projects shall''; and

(D) by adding at the end the following:

''(3) AMOUNT OF GRANTS.—

''(A) IN GENERAL.—The Administrator may award a grant under this subsection of not more than $150,000 per year.

''(B) EQUAL ALLOCATIONS.—In the event that the Administration has insufficient funds to provide grants of $150,000 for each grant recipient under this subsection in any fiscal year, available funds shall be allocated equally to grant recipients, unless any recipient requests a lower amount than the allocable amount.

''(4) ASSOCIATIONS OF WOMEN'S BUSINESS CENTERS.—

''(A) RECOGNITION.—The Administrator shall recognize the existence and activities of any association of women's business centers established to address matters of common concern.

''(B) CONSULTATION.—The Administrator shall consult with each association of women's business centers to develop—

''(i) a training program for the staff of the women's business centers and the Administration; and

''(ii) recommendations to improve the policies and procedures for governing the general operations and administration of the Women's Business Center Program, including grant program improvements under subsection (g)(5).''.

(b) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) IN GENERAL.—Section 29 of the Small Business Act (15 U.S.C. 656) is amended—

(A) in subsection (h)(2), by striking ''to award a contract (as a sustainability grant) under subsection (l) or'';

(B) in subsection (j)(1), by striking ''The Administration'' and inserting ''Not later than November 1st of each year, the Administrator''; and

(C) in subsection (k)—

(i) by striking paragraphs (1) and (2) and inserting the following:

''(1) IN GENERAL.—There are authorized to be appropriated to the Administration to carry out this section, to remain available until expended—

''(A) $15,000,000 for fiscal year 2008;

''(B) $16,000,000 for fiscal year 2009; and

''(C) $17,500,000 for fiscal year 2010.

''(2) ALLOCATION.—Of amounts made available pursuant to paragraph (1), the Administrator shall use not less than 60 percent for grants under subsection (m).

''(3) USE OF AMOUNTS.—Amounts made available under this subsection may only be used for grant awards and may not be used for costs incurred by the Administration in connection with the management and administration of the program under this section.''; and

(ii) by striking paragraph (4).

(2) RENEWAL GRANTS.—

(A) IN GENERAL.—Section 29 of the Small Business Act (15 U.S.C. 656) is amended by redesignating subsections (m) and (n) as subsections (l) and (m), respectively.

(B) REFERENCE.—Subsection (l)(4)(D) of section 29 of the Small Business Act (15 U.S.C. 656), as redesignated by subparagraph (A) of this paragraph, is amended by striking ''or subsection (l)''.

(C) ALLOCATION.—Section 29(k)(2) of the Small Business Act (15 U.S.C. 656(k)(2)), as amended by this Act, is amended by striking ''subsection (m)'' and inserting ''subsection (l)''.

(D) EFFECTIVE DATE.—The amendments made by this paragraph shall take effect on the day after the effective date of the amendments made by section 8305(b) of the Small Business and Work Opportunity Act of 2007 (Public Law 110-28) (striking subsection (l)).

SEC. 203. NATIONAL WOMEN'S BUSINESS COUNCIL.

(a) COSPONSORSHIP AUTHORITY.—Section 406 of the Women's Business Ownership Act of 1988 (15 U.S.C. 7106) is amended by adding at the end the following:

''(f) COSPONSORSHIP AUTHORITY.—The Council is authorized to enter into agreements as a cosponsor with public and private entities, in the same manner as is provided in section 8(b)(1)(A) of the Small Business Act (15 U.S.C. 637(b)(1)(A)), to carry out its duties under this section.''.

(b) MEMBERSHIP.—Section 407(f) of the Women's Business Ownership Act of 1988 (15 U.S.C. 7107(f)) is amended by adding at the end the following:

''(3) REPRESENTATION OF MEMBER ORGANIZATIONS.—In consultation with the chairperson of the Council and the Administrator, a national women's business organization or small business concern that is represented

on the Council may replace its representative member on the Council during the service term to which that member was appointed.''.

(c) ESTABLISHMENT OF WORKING GROUPS.—Title IV of the Women's Business Ownership Act of 1988 (15 U.S.C. 7101 et seq.) is amended by inserting after section 410, the following new section:

''SEC. 411. WORKING GROUPS.

''(a) ESTABLISHMENT.—There are established within the Council, working groups, as directed by the chairperson.

''(b) DUTIES.—The working groups established under subsection (a) shall perform such duties as the chairperson shall direct.''.

(d) CLEARINGHOUSE FOR HISTORICAL DOCUMENTS.—Section 409 of the Women's Business Ownership Act of 1988 (15 U.S.C. 7109) is amended by adding at the end the following:

''(c) CLEARINGHOUSE FOR HISTORICAL DOCUMENTS.—The Council shall serve as a clearinghouse for information on small businesses owned and controlled by women, including research conducted by other organizations and individuals relating to ownership by women of small business concerns in the United States.''.

(e) AUTHORIZATION OF APPROPRIATIONS.—Section 410(a) of the Women's Business Ownership Act of 1988 (15 U.S.C. 7110(a)) is amended by striking ''2001 through 2003, of which $550,000'' and inserting ''2008 through 2010, of which not less than 30 percent''.

SEC. 204. INTERAGENCY COMMITTEE ON WOMEN'S BUSINESS ENTERPRISE.

(a) CHAIRPERSON.—Section 403(b) of the Women's Business Ownership Act of 1988 (15 U.S.C. 7103(b)) is amended—

(1) by striking ''Not later'' and inserting the following:

''(1) IN GENERAL.—Not later''; and

(2) by adding at the end the following:

''(2) VACANCY.—In the event that a chairperson is not appointed under paragraph (1), the Deputy Administrator of the Small Business Administration shall serve as acting chairperson of the Interagency Committee until a chairperson is appointed under paragraph (1).''.

(b) POLICY ADVISORY GROUP.—Section 401 of the Women's Business Ownership Act of 1988 (15 U.S.C. 7101) is amended—

(1) by striking ''There'' and inserting the following:

''(a) IN GENERAL.—There''; and

(2) by adding at the end the following:

''(b) POLICY ADVISORY GROUP.—

''(1) ESTABLISHMENT.—There is established a Policy Advisory Group to assist the chairperson in developing policies and programs under this Act.

''(2) MEMBERSHIP.—The Policy Advisory Group shall be composed of 7 policy making officials, of whom—

''(A) 1 shall be a representative of the Small Business Administration;

''(B) 1 shall be a representative of the Department of Commerce;

''(C) 1 shall be a representative of the Department of Labor;

''(D) 1 shall be a representative of the Department of Defense;

''(E) 1 shall be a representative of the Department of the Treasury; and

''(F) 2 shall be representatives of the Council.''.

SEC. 205. PRESERVING THE INDEPENDENCE OF THE NATIONAL WOMEN'S BUSINESS COUNCIL.

(a) FINDINGS.—Congress finds the following:

(1) The National Women's Business Council provides an independent source of advice and policy recommendations regarding women's business development and the needs of women entrepreneurs in the United States to—

(A) the President;

(B) Congress;

(C) the Interagency Committee on Women's Business Enterprise; and

(D) the Administrator.

(2) The members of the National Women's Business Council are small business owners, representatives of business organizations, and representatives of women's business centers.

(3) The chair and ranking member of the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business of the House of Representatives make recommendations to the Administrator to fill 8 of the positions on the National Women's Business Council. Four of the positions are reserved for small business owners who are affiliated with the political party of the President and 4 of the positions are reserved for small business owners who are not affiliated with the political party of the President. This method of appointment ensures that the National Women's Business Council will provide Congress with nonpartisan, balanced, and independent advice.

(4) In order to maintain the independence of the National Women's Business Council and to ensure that the Council continues to provide Congress with advice on a nonpartisan basis, it is essential that the Council maintain the bipartisan balance established under section 407 of the Women's Business Ownership Act of 1988 (15 U.S.C. 7107).

(b) MAINTENANCE OF PARTISAN BALANCE.—Section 407(f) of the Women's Business Ownership Act of 1988 (15 U.S.C. 7107(f)), as amended by this Act, is amended by adding at the end the following:

''(4) PARTISAN BALANCE.—When filling a vacancy under paragraph (1) of this subsection of a member appointed under paragraph (1) or (2) of subsection (b), the Administrator shall, to the extent practicable, ensure that there are an equal number of members on the Council from each of the 2 major political parties.

''(5) ACCOUNTABILITY.—If a vacancy is not filled within the 30-day period required under paragraph (1), or if there exists an imbalance of party-affiliated members on the Council for a period exceeding 30 days, the Administrator shall submit a report, not later than 10 days after the expiration of either such 30-day deadline, to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business of the House of Representatives, that explains why the respective deadline was not met and provides an estimated date on which any vacancies will be filled, as applicable.''.

TITLE III—INTERNATIONAL TRADE

SEC. 301. SMALL BUSINESS ADMINISTRATION ASSOCIATE ADMINISTRATOR FOR INTERNATIONAL TRADE.

(a) ESTABLISHMENT.—Section 22(a) of the Small Business Act (15 U.S.C. 649(a)) is amended by adding at the end the following: ''The head of the Office shall be the Associate Administrator for International Trade, who shall be responsible to the Administrator.''.

(b) AUTHORITY FOR ADDITIONAL ASSOCIATE ADMINISTRATOR.—Section 4(b)(1) of the Small Business Act (15 U.S.C. 633(b)(1)) is amended—

(1) in the fifth sentence, by striking ''five Associate Administrators'' and inserting ''Associate Administrators''; and

(2) by adding at the end the following: ''One of the Associate Administrators shall be the Associate Administrator for International Trade, who shall be the head of the Office of International Trade established under section 22.''.

(c) DISCHARGE OF ADMINISTRATION INTERNATIONAL TRADE RESPONSIBILITIES.—Section 22 of the Small Business Act (15 U.S.C. 649) is amended by adding at the end the following:

''(h) DISCHARGE OF ADMINISTRATION INTERNATIONAL TRADE RESPONSIBILITIES.—The Administrator shall ensure that—

''(1) the responsibilities of the Administration regarding international trade are carried out through the Associate Administrator for International Trade;

''(2) the Associate Administrator for International Trade has sufficient resources to carry out such responsibilities; and

''(3) the Associate Administrator for International Trade has direct supervision and control over the staff of the Office of International Trade, and over any employee of the Administration whose principal duty station is a United States Export Assistance Center or any successor entity.''.

(d) ROLE OF ASSOCIATE ADMINISTRATOR IN CARRYING OUT INTERNATIONAL TRADE POLICY.—Section 2(b)(1) of the Small Business Act (15 U.S.C. 631(b)(1)) is amended in the matter preceding subparagraph (A)—

(1) by inserting ''the Administrator of'' before ''the Small Business Administration''; and

(2) by inserting ''through the Associate Administrator for International Trade, and'' before ''in cooperation with''.

(e) TECHNICAL AMENDMENT.—Section 22(c)(5) of the Small Business Act (15 U.S.C. 649(c)(5)) is amended by striking the period at the end and inserting a semicolon.

(f) EFFECTIVE DATE.—Not later than 90 days after the date of enactment of this Act, the Administrator shall appoint an Associate Administrator for International Trade under section 22 of the Small Business Act (15 U.S.C. 649), as amended by this section.

SEC. 302. OFFICE OF INTERNATIONAL TRADE.

Section 22 of the Small Business Act (15 U.S.C. 649) is amended—

(1) by striking ''sec. 22. (a) There'' and inserting the following:

''SEC. 22. OFFICE OF INTERNATIONAL TRADE.

''(a) ESTABLISHMENT.—There''.

(2) in subsection (a), by inserting ''(referred to in this section as the 'Office'),'' after ''Trade'';

(3) in subsection (b)—

(A) by striking ''The Office'' and inserting the following:

''(b) TRADE DISTRIBUTION NETWORK.—The Office, including United States Export Assistance Centers (referred to as 'one-stop shops' in section 2301(b)(8) of the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 4721(b)(8)) and as 'export centers' in this section)''; and

(B) by amending paragraph (1) to read as follows:

''(1) assist in maintaining a distribution network using regional and local offices of the Administration, the small business development center network, the women's business center network, and export centers for—

''(A) trade promotion;

''(B) trade finance;

''(C) trade adjustment;

''(D) trade remedy assistance; and

''(E) trade data collection.'';

(4) in subsection (c)—

(A) by redesignating paragraphs (1) through (8) as paragraphs (2) through (9), respectively;

(B) by inserting before paragraph (2), as so redesignated, the following:

''(1) establish annual goals for the Office relating to—

''(A) enhancing the exporting capability of small business concerns and small manufacturers;

''(B) facilitating technology transfers;

''(C) enhancing programs and services to assist small business concerns and small manufacturers to compete effectively and efficiently against foreign entities;

''(D) increasing the access to capital by small business concerns;

''(E) disseminating information concerning Federal, State, and private programs and initiatives; and

''(F) ensuring that the interests of small business concerns are adequately represented in trade negotiations;'';

(C) in paragraph (2), as so redesignated, by striking ''mechanism for'' and all that follows through ''(D)'' and inserting the following: ''mechanism for—

''(A) identifying subsectors of the small business community with strong export potential;

''(B) identifying areas of demand in foreign markets;

''(C) prescreening foreign buyers for commercial and credit purposes; and

''(D)''; and

(D) in paragraph (9), as so redesignated—

(i) in the matter preceding subparagraph (A)—

(I) by striking ''full-time export development specialists to each Administration regional office and assigning''; and

(II) by striking ''office. Such specialists'' and inserting ''office and providing each Administration regional office with a full-time export development specialist, who'';

(ii) in subparagraph (D), by striking ''and'' at the end;

(iii) in subparagraph (E), by striking the period at the end and inserting a semicolon; and

(iv) by adding at the end the following:

''(F) participate jointly with employees of the Office in an annual training program that focuses on current small business needs for exporting; and

''(G) jointly develop and conduct training programs for exporters and lenders in cooperation with the United States Export Assistance Centers, the Department of Commerce, small business development centers, and other relevant Federal agencies.'';

(5) in subsection (d)—

(A) by inserting ''EXPORT FINANCING PROGRAMS.—'' after ''(d)'';

(B) by redesignating paragraphs (1) through (5) as clauses (i) through (v), respectively, and adjusting the margins accordingly;

(C) by striking ''The Office shall work in cooperation'' and inserting the following:

''(1) IN GENERAL.—The Office shall work in cooperation''; and

(D) by striking ''To accomplish this goal, the Office shall work'' and inserting the following:

''(2) TRADE FINANCIAL SPECIALIST.—To accomplish the goal established under paragraph (1), the Office shall—

''(A) designate at least 1 individual within the Administration as a trade financial specialist to oversee international loan programs and assist Administration employees with trade finance issues; and

''(B) work'';

(6) in subsection (e), by inserting ''TRADE REMEDIES.—'' after ''(e)'';

(7) by amending subsection (f) to read as follows:

''(f) REPORTING REQUIREMENT.—The Office shall submit an annual report to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business of the House of Representatives that contains—

''(1) a description of the progress of the Office in implementing the requirements of this section;

''(2) the destinations of travel by Office staff and benefits to the Administration and to small business concerns therefrom; and

''(3) a description of the participation by the Office in trade negotiations.'';

(8) in subsection (g), by inserting ''STUDIES.—'' after ''(g)''; and

(9) by adding at the end the following:

''(i) EXPORT ASSISTANCE CENTERS.—

''(1) IN GENERAL.—During the period beginning on October 1, 2007, and ending on September 30, 2010, the Administrator shall ensure that the number of full-time equivalent employees of the Office assigned to the one-stop shops referred to in section 2301(b) of the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 4721 (b)) is not less than the number of such employees so assigned on January 1, 2003.

''(2) PRIORITY OF PLACEMENT.—Priority shall be given, to the maximum extent practicable, to placing employees of the Administration at any Export Assistance Center that—

''(A) had an Administration employee assigned to such center before January 2003; and

''(B) has not had an Administration employee assigned to such center during the period beginning January 2003, and ending on the date of enactment of this subsection, either through retirement or reassignment.

''(3) NEEDS OF EXPORTERS.—The Administrator shall, to the maximum extent practicable, strategically assign Administration employees to Export Assistance Centers, based on the needs of exporters.

''(4) GOALS.—The Office shall work with the Department of Commerce and the Export-Import Bank to establish shared annual goals for the Export Centers.

''(5) OVERSIGHT.—The Office shall designate an individual within the Administration to oversee all activities conducted by Administration employees assigned to Export Centers.''.

TITLE IV—NATIVE AMERICAN SMALL BUSINESS DEVELOPMENT PROGRAM

SEC. 401. SHORT TITLE.

This title may be cited as the ''Native American Small Business Development Act of 2007''.

SEC. 402. NATIVE AMERICAN SMALL BUSINESS DEVELOPMENT PROGRAM.

The Small Business Act (15 U.S.C. 631 et seq.) is amended—

(1) by redesignating section 37 as section 38; and

(2) by inserting after section 36 the following:

''SEC. 37. NATIVE AMERICAN SMALL BUSINESS DEVELOPMENT PROGRAM.

''(a) DEFINITIONS.—In this section—

''(1) the term 'Alaska Native' has the same meaning as the term 'Native' in section 3(b) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(b));

''(2) the term 'Alaska Native corporation' has the same meaning as the term 'Native Corporation' in section 3(m) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(m));

''(3) the term 'Assistant Administrator' means the Assistant Administrator of the Office of Native American Affairs established under subsection (b);

''(4) the terms 'center' and 'Native American business center' mean a center established under subsection (c);

''(5) the term 'Native American business development center' means an entity providing business development assistance to federally recognized tribes and Native Americans under a grant from the Minority Business Development Agency of the Department of Commerce;

''(6) the term 'Native American small business concern' means a small business concern that is owned and controlled by—

''(A) a member of an Indian tribe or tribal government;

''(B) an Alaska Native or Alaska Native corporation; or

''(C) a Native Hawaiian or Native Hawaiian Organization;

''(7) the term 'Native Hawaiian' has the same meaning as in section 625 of the Older Americans Act of 1965 (42 U.S.C. 3057k);

''(8) the term 'Native Hawaiian Organization' has the same meaning as in section 8(a)(15);

''(9) the term 'tribal college' has the same meaning as the term 'tribally controlled college or university' has in section 2(a)(4) of the Tribally Controlled Community College Assistance Act of 1978 (25 U.S.C. 1801(a)(4));

''(10) the term 'tribal government' has the same meaning as the term 'Indian tribe' has in section 7501(a)(9) of title 31, United States Code; and

''(11) the term 'tribal lands' means all lands within the exterior boundaries of any Indian reservation.

''(b) OFFICE OF NATIVE AMERICAN AFFAIRS.—

''(1) ESTABLISHMENT.—There is established within the Administration the Office of Native American Affairs, which, under the direction of the Assistant Administrator, shall implement the Administration's programs for the development of business enterprises by Native Americans.

''(2) PURPOSE.—The purpose of the Office of Native American Affairs is to assist Native American entrepreneurs to—

''(A) start, operate, and grow small business concerns;

''(B) develop management and technical skills;

''(C) seek Federal procurement opportunities;

''(D) increase employment opportunities for Native Americans through the start and expansion of small business concerns; and

''(E) increase the access of Native Americans to capital markets.

''(3) ASSISTANT ADMINISTRATOR.—

''(A) APPOINTMENT.—The Administrator shall appoint a qualified individual to serve as Assistant Administrator of the Office of Native American Affairs in accordance with this paragraph.

''(B) QUALIFICATIONS.—The Assistant Administrator appointed under subparagraph (A) shall have—

''(i) knowledge of the Native American culture; and

''(ii) experience providing culturally tailored small business development assistance to Native Americans.

''(C) EMPLOYMENT STATUS.—The Assistant Administrator shall be a Senior Executive Service position under section 3132(a)(2) of title 5, United States Code, and shall serve as a noncareer appointee, as defined in section 3132(a)(7) of title 5, United States Code.

''(D) RESPONSIBILITIES AND DUTIES.—The Assistant Administrator shall—

''(i) administer and manage the Native American Small Business Development program established under this section;

''(ii) recommend the annual administrative and program budgets for the Office of Native American Affairs;

''(iii) consult with Native American business centers in carrying out the program established under this section;

''(iv) recommend appropriate funding levels;

''(v) review the annual budgets submitted by each applicant for the Native American Small Business Development program;

''(vi) select applicants to participate in the program under this section;

''(vii) implement this section; and

''(viii) maintain a clearinghouse to provide for the dissemination and exchange of information between Native American business centers.

''(E) CONSULTATION REQUIREMENTS.—In carrying out the responsibilities and duties described in this paragraph, the Assistant Administrator shall confer with and seek the advice of—

''(i) Administration officials working in areas served by Native American business centers and Native American business development centers;

''(ii) representatives of tribal governments;

''(iii) tribal colleges;

''(iv) Alaska Native corporations; and

''(v) Native Hawaiian Organizations.

''(c) NATIVE AMERICAN SMALL BUSINESS DEVELOPMENT PROGRAM.—

''(1) AUTHORIZATION.—

''(A) IN GENERAL.—The Administration, through the Office of Native American Affairs, shall provide financial assistance to tribal governments, tribal colleges, Native Hawaiian Organizations, and Alaska Native corporations to create Native American business centers in accordance with this section.

''(B) USE OF FUNDS.—The financial and resource assistance provided under this subsection shall be used to overcome obstacles impeding the creation, development, and expansion of small business concerns, in accordance with this section, by—

''(i) reservation-based American Indians;

''(ii) Alaska Natives; and

''(iii) Native Hawaiians.

''(2) 5-YEAR PROJECTS.—

''(A) IN GENERAL.—Each Native American business center that receives assistance under paragraph (1)(A) shall conduct a 5-year project that offers culturally tailored business development assistance in the form of—

''(i) financial education, including training and counseling in—

''(I) applying for and securing business credit and investment capital;

''(II) preparing and presenting financial statements; and

''(III) managing cash flow and other financial operations of a business concern;

''(ii) management education, including training and counseling in planning, organizing, staffing, directing, and controlling each major activity and function of a small business concern; and

''(iii) marketing education, including training and counseling in—

''(I) identifying and segmenting domestic and international market opportunities;

''(II) preparing and executing marketing plans;

''(III) developing pricing strategies;

''(IV) locating contract opportunities;

''(V) negotiating contracts; and

''(VI) utilizing varying public relations and advertising techniques.

''(B) BUSINESS DEVELOPMENT ASSISTANCE RECIPIENTS.—The business development assistance under subparagraph (A) shall be offered to prospective and current owners of small business concerns that are owned by—

''(i) American Indians or tribal governments, and located on or near tribal lands;

''(ii) Alaska Natives or Alaska Native corporations; or

''(iii) Native Hawaiians or Native Hawaiian Organizations.

''(3) FORM OF FEDERAL FINANCIAL ASSISTANCE.—

''(A) DOCUMENTATION.—

''(i) IN GENERAL.—The financial assistance to Native American business centers authorized under this subsection may be made by grant, contract, or cooperative agreement.

''(ii) EXCEPTION.—Financial assistance under this subsection to Alaska Native corporations or Native Hawaiian Organizations may only be made by grant.

''(B) PAYMENTS.—

''(i) TIMING.—Payments made under this subsection may be disbursed in an annual lump sum or in periodic installments, at the request of the recipient.

''(ii) ADVANCE.—The Administration may disburse not more than 25 percent of the annual amount of Federal financial assistance awarded to a Native American small business center after notice of the award has been issued.

''(iii) NO MATCHING REQUIREMENT.—The Administration shall not require a grant recipient to match grant funding received under this subsection with non-Federal resources as a condition of receiving the grant.

''(4) CONTRACT AND COOPERATIVE AGREEMENT AUTHORITY.—A Native American business center may enter into a contract or cooperative agreement with a Federal department or agency to provide specific assistance to Native American and other underserved small business concerns located on or near tribal lands, to the extent that such contract or cooperative agreement is consistent with the terms of any assistance received by the Native American business center from the Administration.

''(5) APPLICATION PROCESS.—

''(A) SUBMISSION OF A 5-YEAR PLAN.—Each applicant for assistance under paragraph (1) shall submit a 5-year plan to the Administration on proposed assistance and training activities.

''(B) CRITERIA.—

''(i) IN GENERAL.—The Administration shall evaluate and rank applicants in accordance with predetermined selection criteria that shall be stated in terms of relative importance.

''(ii) PUBLIC NOTICE.—The criteria required by this paragraph and their relative importance shall be made publicly available, within a reasonable time, and stated in each solicitation for applications made by the Administration.

''(iii) CONSIDERATIONS.—The criteria required by this paragraph shall include—

''(I) the experience of the applicant in conducting programs or ongoing efforts designed to impart or upgrade the business skills of current or potential owners of Native American small business concerns;

''(II) the ability of the applicant to commence a project within a minimum amount of time;

''(III) the ability of the applicant to provide quality training and services to a significant number of Native Americans;

''(IV) previous assistance from the Administration to provide services in Native American communities; and

''(V) the proposed location for the Native American business center site, with priority given based on the proximity of the center to the population being served and to achieve a broad geographic dispersion of the centers.

''(6) PROGRAM EXAMINATION.—

''(A) IN GENERAL.—Each Native American business center established pursuant to this subsection shall annually provide the Administration with an itemized cost breakdown of actual expenditures incurred during the preceding year.

''(B) ADMINISTRATION ACTION.—Based on information received under subparagraph (A), the Administration shall—

''(i) develop and implement an annual programmatic and financial examination of each Native American business center assisted pursuant to this subsection; and

''(ii) analyze the results of each examination conducted under clause (i) to determine the programmatic and financial viability of each Native American business center.

''(C) CONDITIONS FOR CONTINUED FUNDING.—In determining whether to renew a grant, contract, or cooperative agreement with a Native American business center, the Administration—

''(i) shall consider the results of the most recent examination of the center under subparagraph (B), and, to a lesser extent, previous examinations; and

''(ii) may withhold such renewal, if the Administration determines that—

''(I) the center has failed to provide adequate information required to be provided under subparagraph (A), or the information provided by the center is inadequate; or

''(II) the center has failed to provide adequate information required to be provided by the center for purposes of the report of the Administration under subparagraph (E).

''(D) CONTINUING CONTRACT AND COOPERATIVE AGREEMENT AUTHORITY.—

''(i) IN GENERAL.—The authority of the Administrator to enter into contracts or cooperative agreements in accordance with this subsection shall be in effect for each fiscal year only to the extent and in the amounts as are provided in advance in appropriations Acts.

''(ii) RENEWAL.—After the Administrator has entered into a contract or cooperative agreement with any Native American business center under this subsection, it shall not suspend, terminate, or fail to renew or extend any such contract or cooperative agreement unless the Administrator provides the center with written notification setting forth the reasons therefore and affords the center an opportunity for a hearing, appeal, or other administrative proceeding under chapter 5 of title 5, United States Code.

''(E) MANAGEMENT REPORT.—

''(i) IN GENERAL.—The Administration shall prepare and submit to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business of the House of Representatives an annual report on the effectiveness of all projects conducted by Native American business centers under this subsection and any pilot programs administered by the Office of Native American Affairs.

''(ii) CONTENTS.—Each report submitted under clause (i) shall include, with respect to each Native American business center receiving financial assistance under this subsection—

''(I) the number of individuals receiving assistance from the Native American business center;

''(II) the number of startup business concerns created;

''(III) the number of existing businesses seeking to expand employment;

''(IV) jobs created or maintained, on an annual basis, by Native American small business concerns assisted by the center since receiving funding under this Act;

''(V) to the maximum extent practicable, the capital investment and loan financing utilized by emerging and expanding businesses that were assisted by a Native American business center; and

''(VI) the most recent examination, as required under subparagraph (B), and the subsequent determination made by the Administration under that subparagraph.

''(7) ANNUAL REPORT.—Each entity receiving financial assistance under this subsection shall annually report to the Administration on the services provided with such financial assistance, including—

''(A) the number of individuals assisted, categorized by ethnicity;

''(B) the number of hours spent providing counseling and training for those individuals;

''(C) the number of startup small business concerns created or maintained;

''(D) the gross receipts of assisted small business concerns;

''(E) the number of jobs created or maintained at assisted small business concerns; and

''(F) the number of Native American jobs created or maintained at assisted small business concerns.

''(8) RECORD RETENTION.—

''(A) APPLICATIONS.—The Administration shall maintain a copy of each application submitted under this subsection for not less than 7 years.

''(B) ANNUAL REPORTS.—The Administration shall maintain copies of the information collected under paragraph (6)(A) indefinitely.

''(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $5,000,000 for each of the fiscal years 2008 through 2010, to carry out the Native American Small Business Development Program, authorized under subsection (c).''.

SEC. 403. PILOT PROGRAMS.

(a) DEFINITIONS.—In this section:

(1) INCORPORATION BY REFERENCE.—The terms defined in section 37(a) of the Small Business Act (as added by this title) have the same meanings as in that section 37(a) when used in this section.

(2) JOINT PROJECT.—The term ''joint project'' means the combined resources and expertise of 2 or more distinct entities at a physical location dedicated to assisting the Native American community.

(b) NATIVE AMERICAN DEVELOPMENT GRANT PILOT PROGRAM.—

(1) AUTHORIZATION.—

(A) IN GENERAL.—There is established a 4-year pilot program under which the Administration is authorized to award Native American development grants to provide culturally tailored business development training and related services to Native Americans and Native American small business concerns.

(B) ELIGIBLE ORGANIZATIONS.—The grants authorized under subparagraph (A) may be awarded to—

(i) any small business development center; or

(ii) any private, nonprofit organization that—

(I) has members of an Indian tribe comprising a majority of its board of directors;

(II) is a Native Hawaiian Organization; or

(III) is an Alaska Native corporation.

(C) AMOUNTS.—The Administration shall not award a grant under this subsection in an amount which exceeds $100,000 for each year of the project.

(D) GRANT DURATION.—Each grant under this subsection shall be awarded for not less than a 2-year period and not more than a 4-year period.

(2) CONDITIONS FOR PARTICIPATION.—Each entity desiring a grant under this subsection shall submit an application to the Administration that contains—

(A) a certification that the applicant—

(i) is a small business development center or a private, nonprofit organization under paragraph (1)(B);

(ii) employs an executive director or program manager to manage the facility; and

(iii) agrees—

(I) to a site visit as part of the final selection process;

(II) to an annual programmatic and financial examination; and

(III) to the maximum extent practicable, to remedy any problems identified pursuant to that site visit or examination;

(B) information demonstrating that the applicant has the ability and resources to meet the needs, including cultural needs, of the Native Americans to be served by the grant;

(C) information relating to proposed assistance that the grant will provide, including—

(i) the number of individuals to be assisted; and

(ii) the number of hours of counseling, training, and workshops to be provided;

(D) information demonstrating the effective experience of the applicant in—

(i) conducting financial, management, and marketing assistance programs designed to impart or upgrade the business skills of current or prospective Native American business owners;

(ii) providing training and services to a representative number of Native Americans;

(iii) using resource partners of the Administration and other entities, including universities, tribal governments, or tribal colleges; and

(iv) the prudent management of finances and staffing;

(E) the location where the applicant will provide training and services to Native Americans; and

(F) a multiyear plan, corresponding to the length of the grant, that describes—

(i) the number of Native Americans and Native American small business concerns to be served by the grant;

(ii) in the continental United States, the number of Native Americans to be served by the grant; and

(iii) the training and services to be provided to a representative number of Native Americans.

(3) REVIEW OF APPLICATIONS.—The Administration shall—

(A) evaluate and rank applicants under paragraph (2) in accordance with predetermined selection criteria that is stated in terms of relative importance;

(B) include such criteria in each solicitation under this subsection and make such information available to the public; and

(C) approve or disapprove each completed application submitted under this subsection not later than 60 days after the date of submission.

(4) ANNUAL REPORT.—Each recipient of a Native American development grant under this subsection shall annually report to the Administration on the impact of the grant funding, including—

(A) the number of individuals assisted, categorized by ethnicity;

(B) the number of hours spent providing counseling and training for those individuals;

(C) the number of startup small business concerns created or maintained with assistance from a Native American business center;

(D) the gross receipts of assisted small business concerns;

(E) the number of jobs created or maintained at assisted small business concerns; and

(F) the number of Native American jobs created or maintained at assisted small business concerns.

(5) RECORD RETENTION.—

(A) APPLICATIONS.—The Administration shall maintain a copy of each application submitted under this subsection for not less than 7 years.

(B) ANNUAL REPORTS.—The Administration shall maintain copies of the information collected under paragraph (4) indefinitely.

(c) AMERICAN INDIAN TRIBAL ASSISTANCE CENTER GRANT PILOT PROGRAM.—

(1) AUTHORIZATION.—

(A) IN GENERAL.—There is established a 4-year pilot program, under which the Administration shall award not less than 3 American Indian Tribal Assistance Center grants to establish joint projects to provide culturally tailored business development assistance to prospective and current owners of small business concerns located on or near tribal lands.

(B) ELIGIBLE ORGANIZATIONS.—

(i) CLASS 1.—Not fewer than 1 grant shall be awarded to a joint project performed by a Native American business center, a Native American business development center, and a small business development center.

(ii) CLASS 2.—Not fewer than 2 grants shall be awarded to joint projects performed by a Native American business center and a Native American business development center.

(C) AMOUNTS.—The Administration shall not award a grant under this subsection in an amount which exceeds $200,000 for each year of the project.

(D) GRANT DURATION.—Each grant under this subsection shall be awarded for a 3-year period.

(2) CONDITIONS FOR PARTICIPATION.—Each entity desiring a grant under this subsection shall submit to the Administration a joint application that contains—

(A) a certification that each participant of the joint application—

(i) is either a Native American business center, a Native American business development center, or a small business development center;

(ii) employs an executive director or program manager to manage the center; and

(iii) as a condition of receiving an American Indian Tribal Assistance Center grant, agrees—

(I) to an annual programmatic and financial examination; and

(II) to the maximum extent practicable, to remedy any problems identified pursuant to that examination;

(B) information demonstrating an historic commitment to providing assistance to Native Americans—

(i) residing on or near tribal lands; or

(ii) operating a small business concern on or near tribal lands;

(C) information demonstrating that each participant of the joint application has the ability and resources to meet the needs, including the cultural needs, of the Native Americans to be served by the grant;

(D) information relating to proposed assistance that the grant will provide, including—

(i) the number of individuals to be assisted; and

(ii) the number of hours of counseling, training, and workshops to be provided;

(E) information demonstrating the effective experience of each participant of the joint application in—

(i) conducting financial, management, and marketing assistance programs, designed to impart or upgrade the business skills of current or prospective Native American business owners; and

(ii) the prudent management of finances and staffing; and

(F) a plan for the length of the grant, that describes—

(i) the number of Native Americans and Native American small business concerns to be served by the grant; and

(ii) the training and services to be provided.

(3) REVIEW OF APPLICATIONS.—The Administration shall—

(A) evaluate and rank applicants under paragraph (2) in accordance with predetermined selection criteria that is stated in terms of relative importance;

(B) include such criteria in each solicitation under this subsection and make such information available to the public; and

(C) approve or disapprove each application submitted under this subsection not later than 60 days after the date of submission.

(4) ANNUAL REPORT.—Each recipient of an American Indian tribal assistance center grant under this subsection shall annually report to the Administration on the impact of the grant funding received during the reporting year, and the cumulative impact of the grant funding received since the initiation of the grant, including—

(A) the number of individuals assisted, categorized by ethnicity;

(B) the number of hours of counseling and training provided and workshops conducted;

(C) the number of startup business concerns created or maintained with assistance from a Native American business center;

(D) the gross receipts of assisted small business concerns;

(E) the number of jobs created or maintained at assisted small business concerns; and

(F) the number of Native American jobs created or maintained at assisted small business concerns.

(5) RECORD RETENTION.—

(A) APPLICATIONS.—The Administration shall maintain a copy of each application submitted under this subsection for not less than 7 years.

(B) ANNUAL REPORTS.—The Administration shall maintain copies of the information collected under paragraph (4) indefinitely.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated—

(1) $1,000,000 for each of fiscal years 2008 through 2010, to carry out the Native American Development Grant Pilot Program, authorized under subsection (b); and

(2) $1,000,000 for each of fiscal years 2008 through 2010, to carry out the American Indian Tribal Assistance Center Grant Pilot Program, authorized under subsection (c).

TITLE V—NATIONAL SMALL BUSINESS REGULATORY ASSISTANCE

SEC. 501. SHORT TITLE.

This title may be cited as the ''National Small Business Regulatory Assistance Act of 2007''.

SEC. 502. PURPOSE.

The purpose of this title is to establish a 4-year pilot program to—

(1) provide confidential assistance to small business concerns;

(2) provide small business concerns with the information necessary to improve their rate of compliance with Federal and State regulations derived from Federal law;

(3) create a partnership among Federal agencies to increase outreach efforts to small business concerns with respect to regulatory compliance;

(4) provide a mechanism for unbiased feedback to Federal agencies on the regulatory environment for small business concerns; and

(5) expand the services delivered by the small business development centers under section 21(c)(3)(H) of the Small Business Act to improve access to programs to assist small business concerns with regulatory compliance.

SEC. 503. SMALL BUSINESS REGULATORY ASSISTANCE PILOT PROGRAM.

(a) DEFINITIONS.—In this section:

(1) ASSOCIATION.—The term ''association'' means the association established pursuant to section 21(a)(3)(A) of the Small Business Act (15 U.S.C. 648(a)(3)(A)) representing a majority of small business development centers.

(2) PARTICIPATING SMALL BUSINESS DEVELOPMENT CENTER.—The term ''participating small business development center'' means a small business development center participating in the pilot program established under this title.

(3) REGULATORY COMPLIANCE ASSISTANCE.—The term ''regulatory compliance assistance'' means assistance provided by a small business development center to a small business concern to assist and facilitate the concern in complying with Federal and State regulatory requirements derived from Federal law.

(4) SMALL BUSINESS DEVELOPMENT CENTER.—The term ''small business development center'' means a small business development center described in section 21 of the Small Business Act (15 U.S.C. 648).

(5) STATE.—The term ''State'' means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, and Guam.

(b) AUTHORITY.—In accordance with this section, the Administrator shall establish a pilot program to provide regulatory compliance assistance to small business concerns through participating small business development centers.

(c) SMALL BUSINESS DEVELOPMENT CENTERS.—

(1) IN GENERAL.—In carrying out the pilot program established under this section, the Administrator shall enter into arrangements with participating small business development centers under which such centers shall—

(A) provide access to information and resources, including current Federal and State nonpunitive compliance and technical assistance programs similar to those established under section 507 of the Clean Air Act Amendments of 1990 (42 U.S.C. 7661f);

(B) conduct training and educational activities;

(C) offer confidential, free of charge, one-on-one, in-depth counseling to the owners and operators of small business concerns regarding compliance with Federal and State regulations derived from Federal law, provided that such counseling is not considered to be the practice of law in a State in which a small business development center is located or in which such counseling is conducted;

(D) provide technical assistance;

(E) give referrals to experts and other providers of compliance assistance who meet such standards for educational, technical, and professional competency as are established by the Administrator; and

(F) form partnerships with Federal compliance programs.

(2) REPORTS.—Each participating small business development center shall transmit to the Administrator and the Chief Counsel for Advocacy of the Administration, as the Administrator may direct, a quarterly report that includes—

(A) a summary of the regulatory compliance assistance provided by the center under the pilot program;

(B) the number of small business concerns assisted under the pilot program; and

(C) for every fourth report, any regulatory compliance information based on Federal law that a Federal or State agency has provided to the center during the preceding year and requested that it be disseminated to small business concerns.

(d) ELIGIBILITY.—A small business development center shall be eligible to receive assistance under the pilot program established under this section only if such center is certified under section 21(k)(2) of the Small Business Act (15 U.S.C. 648(k)(2)).

(e) SELECTION OF PARTICIPATING SMALL BUSINESS DEVELOPMENT CENTERS.—

(1) GROUPINGS.—

(A) CONSULTATION.—The Administrator shall select the small business development center programs of 2 States from each of the groups of States described in subparagraph (B) to participate in the pilot program established under this section.

(B) GROUPS.—The groups described in this subparagraph as follows:

(i) GROUP 1.—Group 1 shall consist of Maine, Massachusetts, New Hampshire, Connecticut, Vermont, and Rhode Island.

(ii) GROUP 2.—Group 2 shall consist of New York, New Jersey, Puerto Rico, and the Virgin Islands.

(iii) GROUP 3.—Group 3 shall consist of Pennsylvania, Maryland, West Virginia, Virginia, the District of Columbia, and Delaware.

(iv) GROUP 4.—Group 4 shall consist of Georgia, Alabama, North Carolina, South Carolina, Mississippi, Florida, Kentucky, and Tennessee.

(v) GROUP 5.—Group 5 shall consist of Illinois, Ohio, Michigan, Indiana, Wisconsin, and Minnesota.

(vi) GROUP 6.—Group 6 shall consist of Texas, New Mexico, Arkansas, Oklahoma, and Louisiana.

(vii) GROUP 7.—Group 7 shall consist of Missouri, Iowa, Nebraska, and Kansas.

(viii) GROUP 8.—Group 8 shall consist of Colorado, Wyoming, North Dakota, South Dakota, Montana, and Utah.

(ix) GROUP 9.—Group 9 shall consist of California, Guam, American Samoa, Hawaii, Nevada, and Arizona.

(x) GROUP 10.—Group 10 shall consist of Washington, Alaska, Idaho, and Oregon.

(2) DEADLINE FOR SELECTION.—The Administrator shall make selections under this subsection not later than 6 months after the date of publication of final regulations under section 1704.

(f) MATCHING REQUIREMENT.—Subparagraphs (A) and (B) of section 21(a)(4) of the Small Business Act (15 U.S.C. 648(a)(4)) shall apply to assistance made available under the pilot program established under this section.

(g) GRANT AMOUNTS.—Each State program selected to receive a grant under subsection (e) shall be eligible to receive a grant in an amount equal to—

(1) not less than $150,000 per fiscal year; and

(2) not more than $300,000 per fiscal year.

(h) EVALUATION AND REPORT.—The Comptroller General of the United States shall—

(1) not later than 30 months after the date of disbursement of the first grant under the pilot program established under this section, initiate an evaluation of the pilot program; and

(2) not later than 6 months after the date of the initiation of the evaluation under paragraph (1), transmit to the Administrator, the Chief Counsel for Advocacy, the Committee on Small Business and Entrepreneurship of the Senate, and the Committee on Small Business of the House of Representatives, a report containing—

(A) the results of the evaluation; and

(B) any recommendations as to whether the pilot program, with or without modification, should be extended to include the participation of all small business development centers.

(i) POSTING OF INFORMATION.—Not later than 90 days after the date of enactment of this Act, the Administrator shall post on the website of the Administration and publish in the Federal Register a guidance document describing the requirements of an application for assistance under this section.

(j) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to carry out this section—

(A) $5,000,000 for the first fiscal year beginning after the date of enactment of this Act; and

(B) $5,000,000 for each of the 3 fiscal years following the fiscal year described in subparagraph (A).

(2) LIMITATION ON USE OF OTHER FUNDS.—The Administrator may carry out the pilot program established under this section only with amounts appropriated in advance specifically to carry out this section.

(k) TERMINATION.—The Small Business Regulatory Assistance Pilot Program established under this section shall terminate 4 years after the date of disbursement of the first grant under the pilot program.

SEC. 504. RULEMAKING.

After providing notice and an opportunity for comment, and after consulting with the association (but not later than 180 days after the date of enactment of this Act), the Administrator shall promulgate final regulations to carry out this title, including regulations that establish—

(1) priorities for the types of assistance to be provided under the pilot program established under this title;

(2) standards relating to educational, technical, and support services to be provided by participating small business development centers;

(3) standards relating to any national service delivery and support function to be provided by the association under the pilot program;

(4) standards relating to any work plan that the Administrator may require a participating small business development center to develop; and

(5) standards relating to the educational, technical, and professional competency of any expert or other assistance provider to whom a small business concern may be referred for compliance assistance under the pilot program.

TITLE VI—OTHER PROVISIONS

SEC. 601. MINORITY ENTREPRENEURSHIP AND INNOVATION PILOT PROGRAM.

(a) DEFINITIONS.—In this section—

(1) the terms ''Alaska Native-serving institution'' and ''Native Hawaiian-serving institution'' have the meanings given those terms in section 317 of the Higher Education Act of 1965 (20 U.S.C. 1059d);

(2) the term ''Hispanic serving institution'' has the meaning given the term in section 502 of the Higher Education Act of 1965 (20 U.S.C. 1101a);

(3) the term ''historically Black college and university'' has the meaning given the term ''part B institution'' in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061);

(4) the term ''small business development center'' has the same meaning as in section 21 of the Small Business Act (15 U.S.C. 648); and

(5) the term ''Tribal College'' has the meaning given the term ''tribally controlled college or university'' in section 2 of the Tribally Controlled College or University Assistance Act of 1978 (25 U.S.C. 1801).

(b) MINORITY ENTREPRENEURSHIP AND INNOVATION GRANTS.—

(1) IN GENERAL.—The Administrator shall make grants to historically Black colleges and universities, Tribal Colleges, Hispanic serving institutions, Alaska Native-serving institutions, and Native Hawaiian-serving institutions, or to any entity formed by a combination of such institutions—

(A) to assist in establishing an entrepreneurship curriculum for undergraduate or graduate studies; and

(B) for placement of small business development centers on the physical campus of the institution.

(2) CURRICULUM REQUIREMENT.—An institution of higher education receiving a grant under this subsection shall develop a curriculum that includes training in various skill sets needed by successful entrepreneurs, including—

(A) business management and marketing, financial management and accounting, market analysis and competitive analysis, innovation and strategic planning; and

(B) additional entrepreneurial skill sets specific to the needs of the student population and the surrounding community, as determined by the institution.

(3) SMALL BUSINESS DEVELOPMENT CENTER REQUIREMENT.—Each institution receiving a grant under this subsection shall open a small business development center that—

(A) performs studies, research, and counseling concerning the management, financing, and operation of small business concerns;

(B) performs management training and technical assistance regarding the participation of small business concerns in international markets, export promotion and technology transfer, and the delivery or distribution of such services and information;

(C) offers referral services for entrepreneurs and small business concerns to business development, financing, and legal experts; and

(D) promotes market-specific innovation, niche marketing, capacity building, international trade, and strategic planning as keys to long-term growth for its small business concern and entrepreneur clients.

(4) GRANT LIMITATIONS.—A grant under this subsection—

(A) may not exceed $500,000 for any fiscal year for any 1 institution of higher education;

(B) may not be used for any purpose other than those associated with the direct costs incurred to develop and implement a curriculum that fosters entrepreneurship and the costs incurred to organize and run a small business development center on the grounds of the institution; and

(C) may not be used for building expenses, administrative travel budgets, or other expenses not directly related to the implementation of the curriculum or activities authorized by this section.

(5) EXCEPTION FROM SMALL BUSINESS ACT REQUIREMENT.—Subparagraphs (A) and (B) of section 21(a)(4) of the Small Business Act (15 U.S.C. 648(a)(4)) do not apply to assistance made available under this subsection.

(6) REPORT.—Not later than November 1 of each year, the Associate Administrator of Entrepreneurial Development of the Administration shall submit to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business of the House of Representatives, a report evaluating the award and use of grants under this subsection during the preceding fiscal year, which shall include—

(A) a description of each entrepreneurship program developed with grant funds, the date of the award of such grant, and the number of participants in each such program;

(B) the number of small business concerns assisted by each small business development center established with a grant under this subsection; and

(C) data regarding the economic impact of the small business development center counseling provided under a grant under this subsection.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $10,000,000, to remain available until expended, for each of fiscal years 2008 and 2010.

(d) LIMITATION ON USE OF OTHER FUNDS.—The Administrator shall carry out this section only with amounts appropriated in advance specifically to carry out this section.

SEC. 602. INSTITUTIONS OF HIGHER EDUCATION.

(a) IN GENERAL.—Section 21(a)(1) of the Small Business Act (15 U.S.C. 648(a)(1)) is amended by striking '': *Provided*, That'' and all that follows through ''on such date.'' and inserting the following: ''On and after December 31, 2007, the Administration may only make a grant under this paragraph to an applicant that is an institution of higher education, as defined in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)) that is accredited (and not merely in preaccreditation status) by a nationally recognized accrediting agency or association, recognized by the Secretary of Education for such purpose in accordance with section 496 of that Act (20 U.S.C. 1099b), or to a women's business center operating pursuant to section 29 as a small business development center, unless the applicant was receiving a grant (including a contract or cooperative agreement) on December 31, 2007.''.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on December 31, 2007.

SEC. 603. HEALTH INSURANCE OPTIONS INFORMATION FOR SMALL BUSINESS CONCERNS.

(a) DEFINITIONS.—In this section, the following definitions shall apply:

(1) ASSOCIATION.—The term ''association'' means an association established under section 21(a)(3)(A) of the Small Business Act (15 U.S.C. 648(a)(3)(A)) representing a majority of small business development centers.

(2) PARTICIPATING SMALL BUSINESS DEVELOPMENT CENTER.—The term ''participating small business development center'' means a small business development center described in section 21 of the Small Business Act (15 U.S.C. 648) that—

(A) is certified under section 21(k)(2) of the Small Business Act (15 U.S.C. 648(k)(2)); and

(B) receives a grant under the pilot program.

(3) PILOT PROGRAM.—The term ''pilot program'' means the small business health insurance information pilot program established under this section.

(4) STATE.—The term ''State'' means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, and Guam.

(b) SMALL BUSINESS HEALTH INSURANCE INFORMATION PILOT PROGRAM.—The Administrator shall establish a pilot program to make grants to small business development centers to provide neutral and objective information and educational materials regarding health insurance options, including coverage options within the small group market, to small business concerns.

(c) APPLICATIONS.—

(1) POSTING OF INFORMATION.—Not later than 90 days after the date of enactment of this Act, the Administrator shall post on the website of the Administration and publish in the Federal Register a guidance document describing—

(A) the requirements of an application for a grant under the pilot program; and

(B) the types of informational and educational materials regarding health insurance options to be created under the pilot program, including by referencing materials and resources developed by the National Association of Insurance Commissioners, the Kaiser Family Foundation, and the Healthcare Leadership Council.

(2) SUBMISSION.—A small business development center desiring a grant under the pilot program shall submit an application at such time, in such manner, and accompanied by such information as the Administrator may reasonably require.

(d) SELECTION OF PARTICIPATING SMALL BUSINESS DEVELOPMENT CENTERS.—

(1) IN GENERAL.—The Administrator shall select not more than 20 small business development centers to receive a grant under the pilot program.

(2) SELECTION OF PROGRAMS.—In selecting small business development centers under paragraph (1), the Administrator may not select—

(A) more than 2 programs from each of the groups of States described in paragraph (3); and

(B) more than 1 program in any State.

(3) GROUPINGS.—The groups of States described in this paragraph are the following:

(A) GROUP 1.—Group 1 shall consist of Maine, Massachusetts, New Hampshire, Connecticut, Vermont, and Rhode Island.

(B) GROUP 2.—Group 2 shall consist of New York, New Jersey, Puerto Rico, and the Virgin Islands.

(C) GROUP 3.—Group 3 shall consist of Pennsylvania, Maryland, West Virginia, Virginia, the District of Columbia, and Delaware.

(D) GROUP 4.—Group 4 shall consist of Georgia, Alabama, North Carolina, South Carolina, Mississippi, Florida, Kentucky, and Tennessee.

(E) GROUP 5.—Group 5 shall consist of Illinois, Ohio, Michigan, Indiana, Wisconsin, and Minnesota.

(F) GROUP 6.—Group 6 shall consist of Texas, New Mexico, Arkansas, Oklahoma, and Louisiana.

(G) GROUP 7.—Group 7 shall consist of Missouri, Iowa, Nebraska, and Kansas.

(H) GROUP 8.—Group 8 shall consist of Colorado, Wyoming, North Dakota, South Dakota, Montana, and Utah.

(I) GROUP 9.—Group 9 shall consist of California, Guam, American Samoa, Hawaii, Nevada, and Arizona.

(J) GROUP 10.—Group 10 shall consist of Washington, Alaska, Idaho, and Oregon.

(4) DEADLINE FOR SELECTION.—The Administrator shall make selections under this subsection not later than 6 months after the later of the date on which the information described in subsection (c)(1) is posted on the website of the Administration and the date on which the information described in subsection (c)(1) is published in the Federal Register.

(e) USE OF FUNDS.—

(1) IN GENERAL.—A participating small business development center shall use funds provided under the pilot program to—

(A) create and distribute informational materials; and

(B) conduct training and educational activities.

(2) CONTENT OF MATERIALS.—

(A) IN GENERAL.—In creating materials under the pilot program, a participating small business development center shall evaluate and incorporate relevant portions of existing informational materials regarding health insurance options, including materials and resources developed by the National Association of Insurance Commissioners, the Kaiser Family Foundation, and the Healthcare Leadership Council.

(B) HEALTH INSURANCE OPTIONS.—In incorporating information regarding health insurance options under subparagraph (A), a participating small business development center shall provide neutral and objective information regarding health insurance options in the geographic area served by the participating small business development center, including traditional employer sponsored health insurance for the group insurance market, such as the health insurance options defined in section 2791 of the Public Health Services Act (42 U.S.C. 300gg–91) or section 125 of the Internal Revenue Code of 1986, and Federal and State health insurance programs.

(f) GRANT AMOUNTS.—Each participating small business development center program shall receive a grant in an amount equal to—

(1) not less than $150,000 per fiscal year; and

(2) not more than $300,000 per fiscal year.

(g) MATCHING REQUIREMENT.—Subparagraphs (A) and (B) of section 21(a)(4) of the Small Business Act (15 U.S.C. 648(a)(4)) shall apply to assistance made available under the pilot program.

(h) REPORTS.—Each participating small business development center shall transmit to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business of the House of Representatives, a quarterly report that includes—

(1) a summary of the information and educational materials regarding health insurance options provided by the participating small business development center under the pilot program; and

(2) the number of small business concerns assisted under the pilot program.

(i) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to carry out this section—

(A) $5,000,000 for the first fiscal year beginning after the date of enactment of this Act; and

(B) $5,000,000 for each of the 3 fiscal years following the fiscal year described in subparagraph (A).

(2) LIMITATION ON USE OF OTHER FUNDS.—The Administrator may carry out the pilot program only with amounts appropriated in advance specifically to carry out this section.

SEC. 604. NATIONAL SMALL BUSINESS DEVELOPMENT CENTER ADVISORY BOARD.

Section 21(i)(1) of the Small Business Act (15 U.S.C. 648(i)(1)) is amended by striking ''nine members'' and inserting ''10 members''.

SEC. 605. OFFICE OF NATIVE AMERICAN AFFAIRS PILOT PROGRAM.

(a) DEFINITION.—In this section, the term ''Indian tribe'' means any band, nation, or organized group or community of Indians located in the contiguous United States, and the Metlakatla Indian Community, whose members are recognized as eligible for the services provided to Indians by the Secretary of the Interior because of their status as Indians.

(b) AUTHORIZATION.—The Office of Native American Affairs of the Administration may conduct a pilot program—

(1) to develop and publish a self-assessment tool for Indian tribes that will allow such tribes to evaluate and implement best practices for economic development; and

(2) to provide assistance to Indian tribes, through the Inter-Agency Working Group, in identifying and implementing economic development opportunities available from the Federal Government and private enterprise, including—

(A) the Administration;

(B) the Department of Energy;

(C) the Environmental Protection Agency;

(D) the Department of Commerce;

(E) the Federal Communications Commission;

(F) the Department of Justice;

(G) the Department of Labor;

(H) the Office of National Drug Control Policy; and

(I) the Department of Agriculture.

(c) TERMINATION OF PROGRAM.—The authority to conduct a pilot program under this section shall terminate on September 30, 2009.

(d) REPORT.—Not later than September 30, 2009, the Office of Native American Affairs shall submit a report to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business of the House of Representatives regarding the effectiveness of the self-assessment tool developed under subsection (b)(1).

SEC. 606. PRIVACY REQUIREMENTS FOR SCORE CHAPTERS.

Section 8 of the Small Business Act (15 U.S.C. 637) is amended by inserting after subsection (b) the following

''(c) PRIVACY REQUIREMENTS.—

''(1) IN GENERAL.—A chapter of the Service Corps of Retired Executives program authorized by subsection (b)(1) or an agent of such a chapter may not disclose the name, address, or telephone number of any individual or small business concern receiving assistance from that chapter or agent without the consent of such individual or small business concern, unless—

''(A) the Administrator is ordered to make such a disclosure by a court in any civil or criminal enforcement action initiated by a Federal or State agency; or

''(B) the Administrator considers such a disclosure to be necessary for the purpose of conducting a financial audit of a chapter of the Service Corps of Retired Executives program authorized by subsection (b)(1), but a disclosure under this subparagraph shall be limited to the information necessary for such audit.

''(2) ADMINISTRATOR USE OF INFORMATION.—This subsection shall not—

''(A) restrict Administrator access to program activity data; or

''(B) prevent the Administrator from using client information to conduct client surveys.

''(3) REGULATIONS.—

''(A) IN GENERAL.—The Administrator shall issue regulations to establish standards—

''(i) for disclosures with respect to financial audits under paragraph (1)(B); and

''(ii) for client surveys under paragraph (2)(B), including standards for oversight of such surveys and for dissemination and use of client information.

''(B) MAXIMUM PRIVACY PROTECTION.—Regulations under this paragraph shall, to the extent practicable, provide for the maximum amount of privacy protection.

''(C) INSPECTOR GENERAL.—Until the effective date of regulations under this paragraph, any client survey and the use of such information shall be approved by the Inspector General who shall include such approval in the semi-annual report of the Inspector General.''.

SEC. 607. NATIONAL SMALL BUSINESS SUMMIT.

(a) IN GENERAL.—Not later than December 31, 2009, the President shall convene a National Small Business Summit to examine the present conditions and future of the community of small business concerns in the United States. The summit shall include owners of small business concerns, representatives of small business groups, labor, academia, State and Federal government, Federal research and development agencies, and nonprofit policy groups concerned with the issues of small business concerns.

(b) REPORT.—Not later than 90 days after the date of the conclusion of the summit convened under subsection (a), the President shall issue a report on the results of the summit. The report shall identify key challenges and recommendations for promoting entrepreneurship and the growth of small business concerns.

Ms. SNOWE. Mr. President, as ranking member of the Senate Committee on Small Business and Entrepreneurship, I rise today to join with Chairman KERRY in introducing the Entrepreneurial Development Act of 2007, a bill to reauthorize and improve the U.S. Small Business Administration's—SBA—Entrepreneurial Development Programs. I have long fought to expand the power and reach of the SBA's entrepreneurial development tools, which are used by millions of aspiring entrepreneurs and small businesses across the United States. These programs demonstrate how Congress can play a positive role in enhancing private-sector financing for start-up companies. We must continue to strengthen these core SBA programs because they have proven invaluable in aiding the efforts and dreams of America's entrepreneurs.

The bill which I am cosponsoring today is the product of the type of bipartisan work the Small Business Committee has come to be known for. The provisions contained in this legislation are a compilation of ideas and initiatives put forward by myself, Chairman KERRY, and other Committee members. Much of the language in the Entrepreneurial Development Act of 2007 was contained in my SBA Reauthorization and Improvements Act passed unanimously by the Small Business Committee during the 109th Congress. Unfortunately, this bipartisan bill never passed the Senate.

Since 1980, Small Business Development Centers—SBDCs—have been essential in the delivery of management and technical counseling assistance and educational programs to prospective and existing small business owners. Since its inception, the SBDC program has served over 11 million clients with new business starts, sustainability programs for struggling firms, and expansion plans for growth firms. For every dollar spent on the SBDC program, approximately $2.66 in tax revenue is generated.

An example of the local value of the SBDC program is found in my home State of Maine, where SBDCs invested more than 10,000 hours in counseling to 3,000 clients in 2005. The economic benefits of these services on the economy in Maine was demonstrated by a recent study of the Maine SBDCs that showed: No. 1, long-term clients of the Maine SBDC generated $44 million in incremental sales and 908 new jobs because of SBDC counseling assistance; and No. 2, the total amount of tax revenue generated as a result of counseling 5 or more hours is approximately $3.0 million in State taxes and $1.58 million in Federal tax revenues.

The Women's Business Center—WBC—program, established by Congress in 1988, promotes the growth of women-owned businesses through business training and technical assistance, and provides access to credit and capital, Federal contracts, and international trade opportunities. The WBC program served more than 144,000 clients across the country last year, providing help with financial management, procurement training, marketing and technical assistance. WBCs also provide specialized programs that include mentoring in various languages, Internet training, issues facing displaced workers, and rural home-based entrepreneurs. According to the SBA's 2008 budget submission, WBCs were responsible for creating or retaining over 6,800 jobs nationwide. I take great pride in the fact that my own State of Maine leads the way for women-owned businesses. Today, there are more than 63,000 women-owned firms in Maine, employing over 75,000 Mainers and generating more than $9 billion in sales. We must all be committed to multiplying that story of success in every State in America.

Service Corps of Retired Executives—SCORE—is a nonprofit association that matches business-management counselors with small business clients. SCORE volunteer counselors share their management and technical expertise with both existing and prospective small business owners. With its 10,500 member volunteer association sponsored by the SBA, and more than 389 service delivery points and a Web site, SCORE provides counseling to small businesses nationwide. The National SCORE organization delivers its services of business and technical assistance through a national network of chapters, an Internet counseling site, partnerships with SBA, the SBDCs and WBCs, and with the public/private sector. In 2006, SCORE counseled and trained over 300,000 clients.

The bill being introduced today builds upon the aforementioned successes of SBA's Entrepreneurial Development programs, which counsels over 1.2 million small businesses and entrepreneurs each year through the expertise of the trained resource partners located across America.

In addition to reauthorizing SBA's Entrepreneurial Development programs and increasing funding levels, this bill also addresses the crisis small businesses face when it comes to securing quality, affordable health insurance. In 4 of the past 5 years, health insurance costs have increased by double-digit percentage levels. This has led to a disturbing trend of fewer and fewer small businesses being able to offer health insurance to their employees. The Kaiser Family Foundation recently reported that only 47 percent of our Nation's smallest businesses—with less than 10 employees—are able to offer health insurance as a workplace benefit. In stark contrast, health insurance is nearly universally offered at larger businesses.

A key provision in this bill would establish a 4-year, pilot grant program to provide information, counseling, and educational materials to small businesses, through the well-established national framework of SBDCs. Recent research conducted by the non-partisan Healthcare Leadership Council found that with a short educational and counseling session, small businesses were up to 33 percent more likely to offer health insurance to their employees. My proposal is based on the Small Business Health Education and Awareness Act, which I introduced in the 109th Congress with Senator BENNETT, and plan to reintroduce this session with Senators KERRY and BENNETT.

Most American workers are employed by small and medium sized enterprises. It is these businesses that account for nearly 98 percent of the growth in exporter population—and are among the major beneficiaries when foreign barriers are reduced. Additionally, 97 percent of exporters are small businesses. Over the last decade, the number of exports from small businesses increased by more than 250 percent. Small businesses account for almost $300 billion of yearly export sales—nearly one-third of total U.S. exports.

This bill establishes an Associate Administrator for International Trade,

and expands the trade distribution network to include the United States Export Assistance Centers USEACs. In addition, this section ensures that all our Nation's small exporters have access to export financing. This provision establishes a floor of international finance specialists at level SBA had in January 2003. Finally, this provision increases the maximum loan guarantee amount to $2.75 million and specifies that the loan cap for international trade loans—ITLs—is $3.67 million, as well as sets out that working capital is an eligible use for loan proceeds. The bill also makes ITLs consistent with regular SBA 7(a) loans in terms of allowing the same collateral and refinancing terms as with regular 7(a) loans.

The SBA's entrepreneurial development programs provide tremendous value for a relatively small investment. I am committed to ensuring that Americans have the necessary resources to start, grow, and develop a business. I believe that it is our duty to do everything possible to sustain prosperity and job creation throughout the United States. I urge my colleagues to support this vital piece of legislation.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 240—DESIGNATING OCTOBER 21 THROUGH OCTOBER 27, 2007, AS ''NATIONAL SAVE FOR RETIREMENT WEEK''

Mr. SMITH (for himself and Mr. CONRAD) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 240

Whereas the cost of retirement continues to rise, in part, because people in the United States are living longer than ever before, the number of employers providing retiree health coverage continues to decline, and retiree health care costs continue to increase at a rapid pace;

Whereas Social Security remains the bedrock of retirement income for the great majority of the people of the United States, but was never intended by Congress to be the sole source of retirement income for families;

Whereas recent data from the Employee Benefit Research Institute indicates that, in the United States, less than ⅔ of workers or their spouses are currently saving for retirement and that the actual amount of retirement savings of workers lags far behind the amount that is realistically needed to adequately fund retirement;

Whereas many employees have available to them through their employers access to defined benefit and defined contribution plans to assist them in preparing for retirement;

Whereas many employees may not be aware of their retirement savings options and may not have focused on the importance of and need for saving for their own retirement;

Whereas many employees may not be taking advantage of workplace defined contribution plans at all or to the full extent allowed by the plans or under Federal law; and

Whereas all workers, including public- and private-sector employees, employees of tax-exempt organizations, and self-employed individuals, can benefit from increased awareness of the need to save for retirement and the availability of tax-advantaged retirement savings vehicles to assist them in saving for retirement: Now, therefore, be it

Resolved, That the Senate—

(1) designates October 21 through October 27, 2007, as ''National Save for Retirement Week'';

(2) supports the goals and ideals of National Save for Retirement Week, including raising public awareness about the importance of adequate retirement savings and the availability of employer-sponsored retirement plans; and

(3) calls on the Federal Government, States, localities, schools, universities, nonprofit organizations, businesses, other entities, and the people of the United States to observe the week with appropriate programs and activities with the goal of increasing the retirement savings of all the people of the United States.

SENATE RESOLUTION 241—EXPRESSING THE SENSE OF THE SENATE THAT THE UNITED STATES SHOULD REAFFIRM THE COMMITMENTS OF THE UNITED STATES TO THE 2001 DOHA DECLARATION ON THE TRIPS AGREEMENT AND PUBLIC HEALTH AND TO PURSUING TRADE POLICIES THAT PROMOTE ACCESS TO AFFORDABLE MEDICINES

Mr. BROWN submitted the following resolution; which was referred to the Committee on Finance:

Whereas the World Trade Organization (WTO) administers and enforces the Agreement on Trade-Related Aspects of Intellectual Property Rights (in this preamble referred to as ''the TRIPS Agreement'') to safeguard access to essential drugs;

Whereas, in 1999, the World Health Assembly, by consensus including the United States, adopted Resolution 52.19 on the World Health Organization's Revised Drug Strategy, which expressed concern ''about the situation in which one third of the world's population has no guaranteed access to essential drugs, [and] in which new world trade agreements may have a negative impact on local manufacturing capacity and the access to and prices of pharmaceuticals in developing countries,'' and urged member states to ''ensure that public health rather than commercial interests have primacy in pharmaceutical and health policies and to review their options under'' the TRIPS Agreement;

Whereas, in 2001, the member states of the WTO, by consensus including the United States, adopted the Doha Declaration on the TRIPS Agreement and Public Health, in which member states agreed that ''intellectual property protection is important for the development of new medicines'', but also expressed ''concerns about its effects on prices'';

Whereas the Doha Declaration further states that the TRIPS Agreement ''can and should be interpreted and implemented in a manner supportive of WTO Members' right to protect public health and, in particular, to promote access to medicines for all'';

Whereas Article 31 of the TRIPS Agreement allows each member state the flexibility to issue compulsory licences which permit the use of the subject matter of a patent, and gives member states broad latitude for such use;

Whereas the World Health Organization's 2006 Report of the Commission on Intellectual Property Rights, Innovation and Public Health emphasized the need for innovation in medical technologies and access to such innovation, and the report also—

(1) states that the Doha Declaration clarifies the right of governments to use compulsory licensing as a means of resolving tensions that may arise between public health and the protection of intellectual property rights, and to determine the grounds for using compulsory licensing;

(2) recommends that developing countries provide for the use of compulsory licensing provisions in legislation as one means to facilitate access to affordable medicines through import or local production;

(3) recommends that bilateral trade agreements not seek to impose obligations to protect intellectual property rights that are greater than those required under the TRIPS Agreement, because such obligations could potentially reduce access to medicines in developing countries; and

(4) recommends that developing countries should not impose restrictions for the use of, or reliance on, data from pharmaceutical development tests in ways that would exclude fair competition or impede the use of flexibilities built into the TRIPS Agreement, unless such a restriction is required for public health reasons;

Whereas the Governments of Thailand and Brazil have issued compulsory licenses to gain access to less expensive versions of second-generation anti-retroviral drugs in order to treat a much larger number of HIV/AIDS patients;

Whereas the Government of the United States has recognized the right of the Government of Thailand to issue compulsory licenses in accordance with the laws of Thailand and the obligations of the Government of Thailand as a member of the WTO;

Whereas the 2007 ''Special 301'' Report, the annual review of intellectual property rights protection and enforcement conducted by the Office of the United States Trade Representative, elevated Thailand to the Priority Watch List, pursuant to section 182 of the Trade Act of 1974 (19 U.S.C. 2242), for reasons including ''indications of a weakening of respect for patents, as the Thai Government announced decisions to issue compulsory licenses for several patented pharmaceutical products'';

Whereas the 2007 ''Special 301'' Report singled out Brazil for having ''at times indicated consideration of the use of compulsory licensing on patented pharmaceutical products'';

Whereas the 2007 ''Special 301'' Report cited 21 developing countries for ''inadequate'' intellectual property rights protections on pharmaceutical test data;

Whereas the United States Trade Representative has negotiated or is seeking to complete several bilateral or regional trade agreements with developing countries that contain further obligations to protect intellectual property rights, including—

(1) limitations on the grounds for issuing compulsory licenses;

(2) requirements that countries adopt periods of data exclusivity on the scientific evidence used to determine that drugs are safe and effective, which either delays the timely

entry of generic drugs into the market or forces competitors producing generic drugs to invest in costly, time-consuming, and redundant clinical trials, including trials that violate ethical rules concerning the repetition of experiments on humans;

(3) extensions of patent terms beyond 20 years;

(4) linkage between drug registration and assertions of patent protection, so that agencies responsible for the regulation of drugs are prohibited from granting marketing approval to a generic version of a medicine if the product is covered by a patent; and

(5) obligations to extend patent protection to minor improvements in, or new uses of, older products; and

Whereas the United States is a user of flexibilities provided in the TRIPS Agreement, including the use of involuntary authorizations to use the subject matter of patents in a number of important sectors, including medical devices, software, and automobile manufacturing: Now, therefore, be it

Resolved, That it is the sense of the Senate that the United States should—

(1) honor the commitments the United States made in the 2001 World Trade Organization Doha Declaration on the TRIPS Agreement and Public Health, which allows member states of the World Trade Organization to use ''to the full'' the flexibilities in the Agreement on Trade-Related Aspect of Intellectual Property Rights (in this resolution referred to as ''the TRIPS Agreement'') ''to protect public health and, in particular, to promote access to medicines for all,'' including the issuance of compulsory licenses on grounds determined by member states;

(2) not place countries on the ''Special 301'' Priority Watch List under section 182 of the Trade Act of 1974 (19 U.S.C. 2242) for exercising the flexibilities on public health provided for in the TRIPS Agreement, such as issuing compulsory licenses to obtain access to generic medicines in accordance with the Doha Declaration;

(3) not ask trading partners who are developing nations to adopt measures to protect intellectual property rights that relate to public health in excess of protections required in the TRIPS Agreement; and

(4) support new global norms for promoting medical research and development that seek to provide a sustainable basis for a needs-driven essential health agenda.

SENATE RESOLUTION 242—CELEBRATING THE ACCOMPLISHMENTS OF TITLE IX OF THE EDUCATION AMENDMENTS OF 1972, ALSO KNOWN AS THE PATSY TAKEMOTO MINK EQUAL OPPORTUNITY IN EDUCATION ACT, AND RECOGNIZING THE NEED TO CONTINUE PURSUING THE GOAL OF EDUCATIONAL OPPORTUNITIES FOR WOMEN AND GIRLS

Mrs. MURRAY (for herself, Mr. STEVENS, Ms. SNOWE, Ms. MIKULSKI, Ms. CANTWELL, Mr. OBAMA, Mr. KENNEDY, Ms. STABENOW, Mr. KERRY, Mr. DODD, Mr. DURBIN, Mr. FEINGOLD, Mr. BAYH, Mr. MENENDEZ, Mrs. CLINTON, Mrs. FEINSTEIN, Mr. INOUYE, Mr. BAUCUS, Mr. AKAKA, Mr. SMITH, and Mrs. BOXER) submitted the following resolution; which was considered and agreed to:

S. RES. 242

Whereas 35 years ago, on June 23, 1972, the Education Amendments of 1972 containing title IX was signed into law by the President;

Whereas Representatives Patsy T. Mink and Edith Green led the successful fight in Congress to pass this legislation;

Whereas title IX prohibits discrimination on the basis of sex in the administration of any education program receiving Federal financial assistance;

Whereas remarkable gains have been made to ensure equal opportunity for women and girls under the inspiration and mandate of title IX;

Whereas title IX serves as the nondiscrimination principle in education;

Whereas title IX has increased access and opportunities for women and girls;

Whereas title IX has increased educational opportunities for women and girls, increased access to professional schools and nontraditional fields of study, and improved employment opportunities;

Whereas title IX has increased opportunities for women and girls in sports, leading to greater access to competitive sports, and building strong values such as teamwork, leadership, discipline, work ethic, self-sacrifice, pride in accomplishment, and strength of character;

Whereas on October 29, 2002, title IX was named the ''Patsy Takemoto Mink Equal Opportunity in Education Act'' in recognition of Representative Mink's heroic, visionary, and tireless leadership in developing and winning passage of title IX; and

Whereas while title IX has been instrumental in fostering 35 years of progress toward equality between men and women in educational institutions and the workplace, there remains progress to be made: Now, therefore, be it

Resolved, That the Senate celebrates—

(1) the accomplishments of title IX of the Education Amendments of 1972, also known as the Patsy Takemoto Mink Equal Opportunity in Education Act, in increasing opportunities for women and girls in all facets of education; and

(2) the magnificent accomplishments of women and girls in sports.

SENATE RESOLUTION 243—SUPPORTING THE GOALS AND IDEALS OF NATIONAL CLEAN BEACHES WEEK AND THE CONSIDERABLE VALUE OF BEACHES AND THEIR ROLE IN AMERICAN CULTURE

Mr. LAUTENBERG (for himself, Mr. MARTINEZ, Mr. LIEBERMAN, Mrs. DOLE, Ms. STABENOW, Mr. STEVENS, Mr. BIDEN, Mr. BURR, Mr. LEVIN, Ms. MURKOWSKI, Mr. KERRY, Ms. SNOWE, Ms. LANDRIEU, Mr. LOTT, Mr. MENENDEZ, Mr. DURBIN, Mr. WYDEN, Mr. FEINGOLD, Mr. CARDIN, Mr. CARPER, and Ms. CANTWELL) submitted the following resolution; which was considered and agreed to:

S. RES. 243

Whereas coastal areas produce 85 percent of all United States tourism dollars and are the leading tourism destination in America;

Whereas over 50 percent of the population of the United States lives in coastal counties;

Whereas the beaches in these coastal counties provide recreational opportunities for numerous Americans and their families who, together with international tourists, make almost 2,000,000,000 trips to the beach each year to fish, sunbathe, boat, swim, surf, and bird-watch;

Whereas beaches are a critical driver of the American economy and its competitiveness in the global economy;

Whereas beaches represent a critical part of our natural heritage and a beautiful part of the American landscape;

Whereas beaches are sensitive ecosystems, susceptible to degradation and alteration from natural forces, sea level rise, pollution, untreated sewage, and improper use;

Whereas members of the Government, the private sector, and nongovernmental organizations, along with citizen volunteers, have worked diligently to clean up and protect our beaches over the years;

Whereas great strides have been made in understanding the science of watersheds and the connections between inland areas and coastal waters;

Whereas the Federal Government should develop science-based policies that are commensurate with that knowledge; and

Whereas a 7-day week, commencing in June and including July 5, will be observed as National Clean Beaches Week: Now, therefore, be it

Resolved, That the Senate—

(1) supports the goals and ideals of National Clean Beaches Week;

(2) recognizes the value of beaches to the American way of life and the important contributions of beaches to the economy, recreation, and natural environment of the United States; and

(3) encourages Americans to work to keep beaches safe and clean for the continued enjoyment of the public and to engage in activities during National Clean Beaches Week that foster stewardship, healthy living, and volunteerism along our coastlines.

SENATE RESOLUTION 244—DESIGNATING JUNE 2007 AS NATIONAL SAFETY MONTH

Mr. PRYOR (for himself, Mr. SUNUNU, Mrs. DOLE, Mr. LUGAR, Ms. LANDRIEU, Ms. MURKOWSKI, and Mr. ISAKSON) submitted the following resolution; which was considered and agreed to:

S. RES. 244

Whereas the National Safety Council, founded in 1913, is celebrating its 94th anniversary as the premier source of safety and health information, education, and training in the United States in 2007;

Whereas the mission of the National Safety Council is to educate and influence people to prevent accidental injury and death;

Whereas the National Safety Council was congressionally chartered in 1953 and is celebrating its 54th anniversary as a congressionally chartered organization in 2007;

Whereas the National Safety Council works to promote policies, practices, and procedures leading to increased safety, protection, and health in business and industry, in schools and colleges, on roads and highways, and in homes and communities;

Whereas, even with advancements in safety that create a safer environment for the people of the United States such as new legislation and improvements in technology, the number of unintentional injuries remains unacceptable;

Whereas the people of the United States deserve to live in communities that promote safe and healthy living;

Whereas such a solution requires the cooperation of all levels of government, as well as the Nation's employers and the general public;

Whereas the summer season, traditionally a time of increased accidental injuries and fatalities, is an appropriate time to focus attention on injury risks and preventions; and

Whereas the theme of ''National Safety Month'' for 2007 is ''Celebrating Safe Communities'': Now, therefore, be it

Resolved, That the Senate—

(1) designates June 2007 as ''National Safety Month''; and

(2) recognizes the accomplishments of the National Safety Council and calls upon the people of the United States to observe the month with appropriate ceremonies and respect.

SENATE RESOLUTION 245—CONGRATULATING THE UNIVERSITY OF ARIZONA WILDCATS FOR WINNING THE 2007 NCAA DIVISION I SOFTBALL CHAMPIONSHIP

Mr. KYL (for himself and Mr. MCCAIN) submitted the following resolution: which was considered and agreed to:

S. RES. 245

Whereas on June 6, 2007, the University of Arizona (UA) Wildcats of Tucson, Arizona, won the 2007 National Collegiate Athletic Association Women's College World Series Softball Championship by defeating the University of Tennessee Lady Volunteers by a score of 5 to 0, winning their 8th title since 1991;

Whereas, in the championship game, UA pitcher Taryne Mowatt set a Women's College World Series record by pitching 60 innings and was named the tournament's Most Outstanding Player;

Whereas Kristie Fox, Jenae Leles, and Caitlin Lowe were selected to be on the all-tournament team;

Whereas the UA Wildcats completed the season with a 50-14-1 record, climbing from the loser's bracket to emerge victorious; and

Whereas Coach Mike Candrea has taken the UA Wildcats to the Women's College World Series 19 times over the last 20 years, and won 8 national championship titles: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the University of Arizona Wildcats for winning the 2007 NCAA Division I Women's Softball Championship; and

(2) recognizes all the players, coaches, and support staff who were instrumental in this achievement.

SENATE RESOLUTION 246—CONGRATULATING THE SAN ANTONIO SPURS FOR WINNING THE NATIONAL BASKETBALL ASSOCIATION CHAMPIONSHIP

Mrs. HUTCHISON (for herself and Mr. CORNYN) submitted the following resolution; which was considered and agreed to:

S. RES. 246

Whereas on June 14, 2007, the San Antonio Spurs (Spurs) won their fourth National Basketball Association (NBA) Championship since 1999 by defeating the Cleveland Cavaliers 4 to 0;

Whereas Tony Parker won his first NBA Finals Most Valuable Player award after shooting 57 percent for the series and averaging 24.5 points per game;

Whereas Spurs Head Coach Gregg Popovich added to his growing legacy by winning his fourth NBA championship;

Whereas Spurs owner and Chief Executive Officer Peter Holt and General Manager R.C. Buford have built the San Antonio Spurs into 1 of the best organizations in NBA history;

Whereas the Spurs hold an all-time record of 16 wins and 6 losses in the NBA Finals;

Whereas the Spurs have the best winning percentage in NBA Finals history;

Whereas the Spurs are committed to serving the San Antonio community by promoting education, achievement, and civic responsibility; and

Whereas the Spurs are the pride and joy of the City of San Antonio: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the San Antonio Spurs for winning the 2007 National Basketball Association Championship; and

(2) respectfully requests the Secretary of the Senate to transmit 1 enrolled copy of this resolution to Senator Hutchison for presentation to the San Antonio Spurs.

SENATE RESOLUTION 247—COMMENDING THE UNIVERSITY OF WASHINGTON MEN'S CREW, THE 2007 INTERCOLLEGIATE ROWING ASSOCIATION CHAMPIONS

Ms. CANTWELL (for herself and Mrs. MURRAY) submitted the following resolution; which was considered and agreed to:

S. RES. 247

Whereas crew is the oldest intercollegiate sport in the United States, dating back to 1852;

Whereas the Intercollegiate Rowing Association Championship, which began in 1895, is the oldest college rowing championship in the United States and is 1 of the most prestigious championships in collegiate rowing;

Whereas the University of Washington first attended the Intercollegiate Rowing Association Championship in the 1913;

Whereas the Washington Huskies Men's Crew Team was the number 1 ranked team in the United States all season and entered the Intercollegiate Rowing Association Championships as the top seeded team;

Whereas the University of Washington's varsity eight, second varsity eight, and open four each won gold medals in their respective races, and the freshman eight took home the bronze medal;

Whereas this is the 12th varsity eight title won by University of Washington at the Intercollegiate Rowing Association Championships, and the first such win by the Huskies since 1997;

Whereas the Huskies also won the Ten Eyck Trophy for the first time since 1970 by winning the overall points championship;

Whereas the entire University of Washington Men's Crew Team should be commended for demonstrating determination, work ethic, attitude, and heart; and

Whereas the members of the Men's Crew Team have brought great honor to themselves, their families, the University of Washington, and the State of Washington: Now, therefore, be it

Resolved, That the Senate—

(1) commends the University of Washington Men's Crew Team for winning the 2007 Intercollegiate Rowing Association Championship and acquiring the Ten Eyck Trophy; and

(2) recognizes the achievements of the rowers, coaches, and staff whose skill, discipline, and dedication allowed them to reach such heights.

SENATE CONCURRENT RESOLUTION 39—SUPPORTING THE GOALS AND IDEALS OF A WORLD DAY OF REMEMBRANCE FOR ROAD CRASH VICTIMS

Mr. DODD (for himself, Mr. MENENDEZ, and Mr. LEVIN) submitted the following concurrent resolution; which was referred to the Committee on Commerce, Science, and Transportation:

S. CON. RES. 39

Whereas 40,000 people in the United States, and 1,200,000 people globally, die in road crashes each year;

Whereas another 20,000,000 to 50,000,000 people globally are injured each year as a result of speeding motor vehicles, the increasing use of motor vehicles, and rapid urbanization;

Whereas the World Health Organization has predicted that by the year 2020 the annual number of deaths from motor vehicle crashes is likely to surpass the annual number of deaths from AIDS;

Whereas the current estimated cost of motor vehicle crashes worldwide is $518,000,000,000 annually, representing between 3 and 5 percent of the gross domestic product of each nation;

Whereas over 90 percent of motor vehicle-related deaths occur in low- and middle-income countries;

Whereas, according to the World Health Organization, motor vehicle-related deaths and costs continue to rise in these countries due to a lack of appropriate road engineering and injury prevention programs in public health sectors; and

Whereas the United Nations General Assembly adopted a resolution designating the third Sunday of November as a day of remembrance for road crash victims and their families, and called on nations globally to improve road safety: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That Congress—

(1) supports the goals and ideals of a world day of remembrance for road crash victims; and

(2) encourages the people of the United States to commemorate a world day of remembrance for road crash victims with appropriate ceremonies, programs, and other activities.

AMENDMENTS SUBMITTED AND PROPOSED

SA 1716. Mr. WEBB submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table.

SA 1717. Mr. CARPER submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1718. Mr. GREGG (for himself, Mrs. FEINSTEIN, Mr. SUNUNU, Mr. KYL, Mr. ENSIGN, Mrs. HUTCHISON, and Mr. MARTINEZ) proposed an amendment to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra.

SA 1719. Mr. CORNYN (for himself, Mr. DURBIN, Mrs. HUTCHISON, and Mr. OBAMA) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1720. Mr. INHOFE (for himself, Mr. VITTER, Mr. VOINOVICH, and Mr. CRAIG) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1721. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1722. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1723. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1724. Mr. ENZI submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1725. Mr. ENZI submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1726. Mrs. HUTCHISON submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1727. Mr. REED (for himself and Mr. WHITEHOUSE) submitted an amendment intended to be proposed by him to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1728. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1729. Mr. BINGAMAN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1730. Mr. BINGAMAN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1731. Mr. SUNUNU submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1732. Mr. KYL submitted an amendment intended to be proposed by him to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1733. Mr. KYL (for himself, Mr. LOTT, and Mr. MCCONNELL) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra.

SA 1734. Mr. BURR submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1735. Mr. OBAMA submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1736. Mr. REID submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1737. Mr. REID (for himself and Mr. LIEBERMAN) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1738. Mr. COLEMAN (for himself and Mr. FEINGOLD) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1739. Mr. SALAZAR submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1740. Mr. PRYOR submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1741. Mr. STEVENS submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1742. Mr. STEVENS submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1743. Mr. STEVENS submitted an amendment intended to be proposed by him to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1744. Mrs. BOXER submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1745. Mrs. HUTCHISON submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1746. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1747. Mr. COLEMAN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1748. Mr. ENZI submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1749. Mr. BOND submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1750. Mr. HATCH submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1751. Mr. CRAPO (for himself, Mr. CRAIG, and Mr. CONRAD) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1752. Mr. GRASSLEY (for himself and Mr. BINGAMAN) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1753. Mr. DEMINT (for himself, Mr. CRAIG, Mr. GRAHAM, Mr. INHOFE, Mr. BURR, Ms. MURKOWSKI, and Mr. CRAPO) submitted an amendment intended to be proposed by him to the bill S. 1419, to move the United States toward greater energy independence and security, to increase the production of clean renewable fuels, to protect consumers from price gouging, to increase the energy efficiency of products, buildings and vehicles, to promote research on and deploy greenhouse gas capture and storage options, and to improve the energy performance of the Federal Government, and for other purposes; which was ordered to lie on the table.

SA 1754. Mr. DEMINT submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table.

SA 1755. Mr. DEMINT submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1756. Mr. DEMINT submitted an amendment intended to be proposed by him to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1757. Mr. DEMINT submitted an amendment intended to be proposed to amendment

SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1758. Mr. REED submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1759. Mr. WYDEN (for himself, Ms. LANDRIEU, and Mr. SALAZAR) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1760. Mr. BINGAMAN (for himself, Mrs. BOXER, and Mr. REID) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1761. Mr. CARDIN (for himself and Mr. SANDERS) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1762. Mr. VOINOVICH submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1763. Mr. HARKIN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1764. Mr. AKAKA (for himself, Ms. MURKOWSKI, Ms. SNOWE, Mr. SMITH, Ms. CANTWELL, and Mr. WYDEN) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1765. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1766. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1767. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1768. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1769. Mr. BROWN (for himself and Mr. CARPER) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1770. Mr. DURBIN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1771. Mr. DURBIN (for himself, Mr. GRASSLEY, Mr. CARPER, Mr. COLEMAN, Mr. OBAMA, Ms. KLOBUCHAR, and Mr. LUGAR) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1772. Mr. ALEXANDER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1773. Mr. ALEXANDER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1774. Mr. ALEXANDER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1775. Mr. ALEXANDER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1776. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1777. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1778. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1779. Mr. HARKIN (for himself and Mr. CHAMBLISS) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1780. Mrs. MCCASKILL submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1781. Mr. BYRD submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1782. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1783. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1784. Mr. CARPER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1785. Mr. CARPER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1786. Mr. BIDEN (for himself and Mr. LUGAR) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1787. Mr. BIDEN (for himself and Mr. LUGAR) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1788. Mr. STEVENS (for himself, Ms. SNOWE, Mr. ALEXANDER, Mr. CARPER, Mr. LOTT, Mr. KERRY, and Mr. CORKER) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1789. Mr. SALAZAR submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1790. Mr. SALAZAR submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1791. Mr. SCHUMER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1792. Mr. STEVENS (for himself, Ms. SNOWE, Mr. ALEXANDER, Mr. CARPER, Mr. LOTT, Mr. KERRY, and Mr. CORKER) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1793. Mr. STEVENS (for himself, Ms. SNOWE, Mr. ALEXANDER, Mr. CARPER, Mr. LOTT, Mr. KERRY, and Mr. CORKER) submitted an amendment intended to be proposed to amendment SA 1711 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1794. Mr. STEVENS (for himself, Ms. SNOWE, Mr. ALEXANDER, Mr. CARPER, Mr. LOTT, Mr. KERRY, and Mr. CORKER) submitted an amendment intended to be proposed to amendment SA 1712 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1795. Mr. STEVENS (for himself, Ms. SNOWE, Mr. ALEXANDER, Mr. CARPER, Mr. LOTT, Mr. KERRY, and Mr. CORKER) submitted an amendment intended to be proposed to amendment SA 1713 submitted by

Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1796. Mr. HARKIN (for himself and Mr. CHAMBLISS) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1797. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1798. Mr. BINGAMAN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1799. Mrs. BOXER (for herself, Mr. ALEXANDER, Mr. WARNER, Mr. LIEBERMAN, Mrs. FEINSTEIN, and Mr. MCCONNELL) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1800. Mr. KYL proposed an amendment to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra.

SA 1801. Mr. KYL submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1802. Mr. DORGAN (for himself and Mr. GRAHAM) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1803. Mr. LEVIN (for himself and Ms. STABENOW) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1804. Mr. CARPER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1805. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table.

SA 1806. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1807. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1808. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1809. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1810. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1811. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1812. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1813. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1814. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1815. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1816. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, supra; which was ordered to lie on the table.

SA 1817. Ms. STABENOW (for herself, Mr. KERRY, Mr. SCHUMER, Mr. LEVIN, Mr. BROWN, and Ms. CANTWELL) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table.

SA 1818. Mr. HARKIN submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, supra; which was ordered to lie on the table.

SA 1819. Mr. HATCH submitted an amendment intended to be proposed by him to the bill H.R. 6, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 1716. Mr. WEBB submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 283, after line 20, insert the following:

(d) MAJOR ENERGY PRODUCER RECORDS.—

(1) IN GENERAL.—Following the declaration of an energy emergency by the President under section 606, a major energy producer (as defined by section 702) shall maintain and shall make available to the Federal Trade Commission, such books, accounts, memoranda, and other records as the Commission determines are relevant to determine whether the producer is in violation of this title.

(2) RETENTION.—A major energy producer subject to paragraph (1) shall retain records required by paragraph (1) for a period of 1 year after the expiration of the declaration of an energy emergency.

SA 1717. Mr. CARPER submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 59, after line 21, add the following:

SEC. 151. STUDY OF OFFSHORE WIND RESOURCES.

(a) DEFINITIONS.—In this section:

(1) ELIGIBLE INSTITUTION.—The term ''eligible institution'' means a college or university that—

(A) as of the date of enactment of this Act, has an offshore wind power research program; and

(B) is located in a region of the United States that is in reasonable proximity to the eastern outer Continental Shelf, as determined by the Secretary.

(2) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior, acting through the Director of the Minerals Management Service.

(b) STUDY.—The Secretary, in cooperation with an eligible institution, as selected by the Secretary, shall conduct a study to assess each offshore wind resource located in the region of the eastern outer Continental Shelf.

(c) REPORT.—Upon completion of the study under subsection (b), the Secretary shall submit to Congress a report that includes—

(1) a description of—

(A) the locations and total power generation resources of the best offshore wind resources located in the region of the eastern outer Continental Shelf, as determined by the Secretary;

(B) based on conflicting zones relating to any infrastructure that, as of the date of enactment of this Act, is located in close proximity to any offshore wind resource, the likely exclusion zones of each offshore wind resource described in subparagraph (A);

(C) the relationship of the temporal variation of each offshore wind resource described in subparagraph (A) with—

(i) any other offshore wind resource; and

(ii) with loads and corresponding system operator markets;

(D) the geological compatibility of each offshore wind resource described in subparagraph (A) with any potential technology relating to sea floor towers; and

(E) with respect to each area in which an offshore wind resource described in subparagraph (A) is located, the relationship of the authority under any coastal management plan of the State in which the area is located with the Federal Government; and

(2) recommendations on the manner by which to handle offshore wind intermittence.

(d) INCORPORATION OF STUDY.—Effective beginning on the date on which the Secretary completes the study under subsection (b), the Secretary shall incorporate the findings included in the report under subsection (c) into the planning process documents for any wind energy lease sale—

(1) relating to any offshore wind resource located in any appropriate area of the outer Continental Shelf, as determined by the Secretary; and

(2) that is completed on or after the date of enactment of this Act.

(e) EFFECT.—Nothing in this section—

(1) delays any final regulation to be promulgated by the Secretary of the Interior to carry out section 8(p) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(p)); or

(2) limits the authority of the Secretary to lease any offshore wind resource located in any appropriate area of the outer Continental Shelf, as determined by the Secretary.

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $5,000,000, to remain available until expended.

SA 1718. Mr. GREGG (for himself, Mrs. FEINSTEIN, Mr. SUNUNU, Mr. KYL, Mr. ENSIGN, Mrs. HUTCHISON, and Mr. MARTINEZ) proposed an amendment to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; as follows:

Strike section 831 and insert the following:

SEC. 831. ELIMINATION OF ETHANOL TARIFF AND DUTY.

(a) IN GENERAL.—

(1) ELIMINATION OF PERMANENT TARIFF OF 2.5 PERCENT.—Subheading 2207.10.60 of the Harmonized Tariff Schedule of the United States is amended—

(A) by striking the column 1 general rate of duty and inserting ''Free''; and

(B) by striking the matter contained in the column 1 special rate of duty column and inserting ''Free''.

(2) ELIMINATION OF PERMANENT TARIFF OF 1.9 PERCENT.—

(A) IN GENERAL.—Chapter 22 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new subheading:

''	2207.20.20	Ethyl alcohol and other spirits, denatured, of any strength (if used as a fuel or in a mixture to be used as a fuel)	Free	Free (A+, AU, BH, CA, CL, D, E, IL, J, JO, MA, MX, P, SG)	20%	''.

(B) CONFORMING AMENDMENT.—The article description for subheading 2207.20.00 of the Harmonized Tariff Schedule of the United States is amended by inserting ''(not provided for in subheading 2207.20.20)'' after ''strength''.

(b) REPEAL OF TEMPORARY DUTY OF 54 CENTS PER GALLON.—Subchapter I of chapter 99 of the Harmonized Tariff Schedule of the United States is amended—

(1) by striking heading 9901.00.50; and

(2) by striking U.S. Notes 2 and 3 relating to heading 9901.00.50.

(c) EFFECTIVE DATE.—The amendments made by this section apply with respect to goods entered, or withdrawn from warehouse for consumption, on or after the 15th day after the date of the enactment of this Act.

SA 1719. Mr. CORNYN (for himself, Mr. DURBIN, Mrs. HUTCHISON, and Mr. OBAMA) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 192, after line 21, add the following:

SEC. 305. FUTUREGEN GASIFICATION-BASED NEAR-ZERO EMISSIONS POWER PLANT.

(a) DEFINITIONS.—In this section:

(1) CONSORTIUM.—The term ''Consortium'' means the consortium described in subsection (c).

(2) FACILITY.—The term ''Facility'' means the FutureGen Facility authorized under subsection (b).

(b) AUTHORIZATION OF FACILITY.—The Secretary shall construct a facility, to be known as the ''FutureGen Facility'', to determine the feasibility of integrating commercial-scale gasification combined cycle power plant technologies with advanced clean coal energy technologies, including through carbon capture and geological sequestration.

(c) COOPERATIVE AGREEMENT.—The Secretary shall offer to enter into a cooperative agreement with a nonprofit consortium of domestic and international coal-fueled power producers, domestic and international coal companies, and other interested parties to provide for the financing of the Facility.

(d) OBJECTIVES.—The Secretary shall establish objectives for the Facility, including objectives providing for—

(1) subject to the availability of appropriations and the completion of an environmental impact statement by October 31, 2007, the operation of the Facility by December 31, 2012;

(2) the Facility to be designed in a manner that—

(A) achieves—

(i)(I) at least a 99-percent reduction in the quantity of sulfur dioxide otherwise emitted by the Facility; or

(II) a sulfur dioxide emission level of 15 ppm, as measured at the stack; and

(ii) at least a 90-percent reduction in the quantity of mercury emitted as compared to the mercury content of the coal fed to the gasifier;

(B) emits—

(i) not more than 0.05 pounds of nitrogen oxide emissions per mmbtu of coal gasified; and

(ii) not more than 0.005 pounds of total particulate emissions in the flue gas per million British thermal units;

(C) captures at least 90 percent of carbon dioxide emissions;

(D) permanently sequesters at least 1,000,000 metric tons per year of carbon dioxide in deep saline geological formations; and

(E) can be used to determine the feasibility of ultimately operating a commercial near-zero emission coal-fueled powerplant at a cost that is not greater than 110 percent of the average cost of operation of a similar facility operating in the United States as of the date of enactment of this Act that does not capture and sequester carbon dioxide, including—

(i) evaluating alternative carbon dioxide monitoring technologies and plant operational strategies that contribute to ultimate commercial competitiveness of near-zero emission technology; and

(ii) providing a sub-scale research platform to test new systems and components that could reduce ultimate costs without impairing the availability of the Facility to operate; and

(3) building stakeholder acceptance of near-zero emission technology, including the sequestration of carbon dioxide.

(e) SYSTEM INTEGRATION.—To reduce technical risk and focus development efforts on system integration, the Secretary shall, to the maximum extent practicable, ensure that the Facility is designed in a manner to use, as appropriate—

(1) available advanced clean coal technology; and

(2) state-of-the-art technology systems and components.

(f) DATA PROTECTION.—The Secretary may agree to protect information from the facility to the same extent authorized for the clean coal power initiative program under section 402(h) of the Energy Policy Act of 2005 (42 U.S.C. 15962(h)).

(g) COST-SHARING REQUIREMENT.—

(1) IN GENERAL.—The Facility shall be considered to be a research and development activity subject to the cost-sharing requirements of section 988(b) of the Energy Policy Act of 2005 (42 U.S.C. 16352(b)).

(2) FEDERAL SHARE.—The Secretary may credit toward the Federal share for the Facility contributions received by the Secretary from other countries.

(3) NON-FEDERAL SHARE.—

(A) IN GENERAL.—The non-Federal share shall be paid by the Consortium.

(B) SOURCE OF FUNDS.—To pay the non-Federal share, the Consortium may use amounts made available to the Consortium by States, technology providers, and other non-Federal entities.

(h) INSUFFICIENT FUNDS.—

(1) CONVEYANCE TO SECRETARY.—The Secretary may agree to take title to the Facility if the Secretary determines that the Consortium has insufficient funds to complete the Facility.

(2) INSUFFICIENT APPROPRIATED FUNDS.—If operations at the Facility are terminated because of insufficient appropriated Federal funds to complete the Facility, the Secretary may agree to reimburse the Consortium for the Consortium's share of the Facility costs.

(i) TITLE TO FACILITY.—

(1) IN GENERAL.—The Secretary may vest fee title or any other property interests acquired in the Facility in any entity, including the United States.

(2) COLLATERAL.—The Secretary may agree to allow the Consortium to use title to the Facility as collateral toward any required financing for the Facility.

(j) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary such sums as are necessary to carry out this section for each of fiscal years 2008 through 2017.

SA 1720. Mr. INHOFE (for himself, Mr. VITTER, Mr. VOINOVICH, and Mr. CRAIG) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 218, line 17, strike ''standard'' and insert ''standards''.

Beginning on page 220, strike line 13 and all that follows through page 222, line 6, and insert the following:

(d) IDENTIFICATION OF STANDARDS.—

(1) IN GENERAL.—For the purpose of subsection (c)(2), not later than 1 year after the date of enactment of this Act, the Administrator shall promulgate regulations to identify 1 or more standards that encourage a comprehensive and environmentally-sound approach to certification of green buildings.

(2) BASIS.—The standards identified under paragraph (1) shall be based on—

(A) a biennial study, which shall be carried out by the Director to compare and evaluate standards;

(B) the ability and availability of assessors and auditors to independently verify the criteria and measurement of metrics at the scale necessary to implement this subtitle;

(C) the ability of the applicable standard-setting organization to collect and reflect public comment;

(D) the ability of the standards to be developed and revised through a consensus-based process, as described in Circular No. A–119 of the Office of Management and Budget;

(E) an evaluation of the adequacy of the standards, which shall give credit for—

(i) efficient and sustainable use of water, energy, and other natural resources;

(ii) use of renewable energy sources;

(iii) improved indoor environmental quality through enhanced indoor air quality, thermal comfort, acoustics, day lighting, pollutant source control, and use of low-emission materials and building system controls; and

(iv) such other criteria as the Director determines to be appropriate; and

(F) recognition as a national consensus standard.

(3) BIENNIAL REVIEW.—The Director shall—

(A) conduct a biennial review of the standards identified under paragraph (1); and

(B) include the results of each biennial review in the report required to be submitted under subsection (c).

On page 238, line 9, strike ''the standard'' and insert ''a standard''.

SA 1721. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

TITLE VIII—MISCELLANEOUS

SEC. 801. USE OF OFFSHORE OIL AND GAS PLATFORMS AND OTHER FACILITIES FOR ALTERNATIVE ENERGY PRODUCTION.

(a) DEFINITIONS.—In this section:

(1) ALTERNATIVE ENERGY.—The term ''alternative energy'' means energy from a source other than oil or gas.

(2) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

(b) GRANT PROGRAM.—

(1) ESTABLISHMENT.—The Secretary shall establish a grant program under which the Secretary shall provide grants to pay the Federal share of the cost of—

(A) converting offshore oil and gas platforms or other facilities that are decommissioned from service for oil and gas purposes to alternative energy production facilities; or

(B) using offshore oil and gas platforms or other facilities that are being used for oil and gas purposes to also produce alternative energy.

(2) FEDERAL SHARE.—The Federal share of the cost of carrying out activities under paragraph (1) shall be not more than 50 percent.

(3) APPLICABLE LAW.—The Outer Continental Shelf Land Act (43 U.S.C. 1301 et seq.) shall apply to any activities carried out under this section.

(4) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this section.

(5) TERMINATION OF AUTHORITY.—The authority of the Secretary to provide grants under this section terminates on the date that is 10 years after the date of enactment of this Act.

SA 1722. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ___. NATIONAL AMBIENT AIR QUALITY STANDARDS FOR OZONE IN NONATTAINMENT AREAS.

Section 109 of the Clean Air Act (42 U.S.C. 7409) is amended by adding at the end the following:

''(e) NONATTAINMENT AREAS.—In any area designated by the Administrator as a nonattainment area under section 107 for purposes of a national ambient air quality standard for ozone—

''(1) the requirements that apply with respect to fees under section 182(d)(3) or 185, source permitting under subparagraph (C) or (I) of section 110(a)(2), contingency measures under section 172(c)(9) or 182(c)(9), or motor vehicle emission budgets under section 176, as in effect at the time of application of the requirements, shall be the requirements that apply for purposes of the national ambient air quality standard for ozone; and

''(2) the requirements that applied under a national ambient air quality standard for ozone shall not apply for purposes of the standard if the requirements were—

''(A) revoked, rescinded, or withdrawn by the Administrator or are otherwise not in effect at the time of application of the requirements; and

''(B) less stringent than the national ambient air quality standard for ozone that is in effect at the time of application of the requirements.''.

SA 1723. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 161, between lines 2 and 3, insert the following:

SEC. 269. EXTENDED ATTAINMENT DATE FOR CERTAIN DOWNWIND AREAS.

Section 181 of the Clean Air Act (42 U.S.C. 7511) is amended by adding at the end the following:

''(d) EXTENDED ATTAINMENT DATE FOR CERTAIN DOWNWIND AREAS.—

''(1) DEFINITIONS.—In this subsection:

''(A) CURRENT CLASSIFICATION.—The term 'current classification' means—

''(i) any classification of an area on the date on which the Administrator determines that the area is a downwind area; and

''(ii) with respect to any reclassification made by the Administrator under subsection (b)(2)(A) after the date of enactment of this subsection, the classification of an area on

the date immediately before the date on which the Administrator reclassified the area.

''(B) DOWNWIND AREA.—The term 'downwind area' means any area that the Administrator classifies as a downwind area under paragraph (2).

''(C) ELIGIBLE IMPLEMENTATION PLAN REVISION.—The term 'eligible implementation plan revision' means a revision of an implementation plan for a downwind area that—

''(i) complies with each requirement of this Act relating to the current classification of a downwind area (including any requirement relating to any nonattainment plan provision described in section 172(c)); and

''(ii) includes any other additional provision necessary to demonstrate that, not later than the date on which the attainment date for the downwind area is extended under paragraph (3), the downwind area shall demonstrate attainment of each national standard, as determined by the Administrator.

''(D) NATIONAL STANDARD.—The term 'national standard' means—

''(i) the national primary ambient air quality standard for ozone; and

''(ii) the national secondary ambient air quality standard for ozone.

''(E) NECESSARY FINAL REDUCTION IN POLLUTION TRANSPORT.—The term 'necessary final reduction in pollution transport' means the final reduction in pollution transport of an upwind area that is necessary for a downwind area to achieve attainment of each national standard, as determined by the Administrator.

''(F) UPWIND AREA.—The term 'upwind area' means an area that—

''(i) significantly contributes to the nonattainment by a downwind area of any national standard, as determined by the Administrator; and

''(ii) is—

''(I) a nonattainment area that has an attainment date for a national standard that is later than the attainment date of the downwind area for which the nonattainment area significantly contributes to nonattainment under clause (i); or

''(II) an area—

''(aa) that is located in a State other than the State in which the downwind area is located for which the nonattainment area significantly contributes to nonattainment under clause (i); and

''(bb) for which the Administrator, by regulation, has established 1 or more requirements to eliminate any emission generated by the area that significantly contributes to the nonattainment of the downwind area, as determined by the Administrator under clause (i).

''(2) CLASSIFICATION OF DOWNWIND AREA.—The Administrator shall designate as a downwind area any area—

''(A) that has not attained a national standard; and

''(B) for which an upwind area significantly contributes to the nonattainment by the downwind area of any national standard described in subparagraph (A), as determined by the Administrator.

''(3) EXTENSION OF ATTAINMENT DATE.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), in accordance with paragraph (4), the Administrator shall extend the attainment date of any national standard applicable to a downwind area if, before the date on which the Administrator is required to determine whether to reclassify the downwind area under subsection (b)(2)(A), the Administrator approves an eligible implementation plan revision for the downwind area.

''(B) RECLASSIFIED DOWNWIND AREAS.—

''(i) PRIOR RECLASSIFICATIONS.—The Administrator shall withdraw any reclassification of a downwind area made by the Administrator under subsection (b)(2)(A), and extend the attainment date applicable to the downwind area in accordance with paragraph (4), if—

''(I) not earlier than April 1, 1997, the Administrator reclassified the downwind area under subsection (b)(2)(A); and

''(II) not later than 1 year after the date of enactment of this subsection, the Administrator approves an eligible implementation plan revision for the downwind area.

''(ii) FUTURE RECLASSIFICATIONS.—The Administrator shall withdraw any reclassification of a downwind area made by the Administrator under subsection (b)(2)(A) after the date of enactment of this subsection, and extend the attainment date applicable to the downwind area in accordance with paragraph (4), if, not later than 1 year after the date on which the Administrator reclassifies the downwind area, the Administrator approves an eligible implementation plan revision for the downwind area.

''(4) LENGTH OF EXTENSION OF ATTAINMENT DATE.—

''(A) IN GENERAL.—Subject to subparagraph (B), in extending the attainment date applicable to a downwind area under paragraph (3), the Administrator shall extend the attainment date to the earliest practicable date on which the downwind area could achieve attainment of each national standard, as determined by the Administrator.

''(B) MAXIMUM LENGTH OF EXTENSION.—In extending the attainment date of a downwind area under paragraph (3), the Administrator shall extend the attainment date of the downwind area to a date not later than the date on which the upwind area contributing to nonattainment of the downwind area is required to achieve a necessary final reduction in pollution transport.''.

SA 1724. Mr. ENZI submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 21, line 17, strike ''90'' and insert ''30''.

SA 1725. Mr. ENZI submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 21, strike line 20 and insert the following:

(3) AUTOMATIC WAIVER APPROVAL.—If the President fails to approve or disapprove a petition for waiver of the requirements of subsection (a) by the deadline specified in paragraph (2), the waiver shall be considered to be granted.

(4) TERMINATION OF WAIVERS.—A waiver

On page 22, line 1, strike ''(4)'' and insert ''(5)''.

SA 1726. Mrs. HUTCHISON submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 59, after line 21, add the following:

SEC. 151. COMMISSION ON RENEWABLE ENERGY.

(a) ESTABLISHMENT.—There is established a commission to be known as the ''Commission on Renewable Energy'' (referred to in this section as the ''Commission'')—

(1) to advise Congress on—

(A) issues relating to renewable energy research and development; and

(B) policies relating to the expansion of the use of renewable energy in the energy markets of the United States; and

(2) to facilitate collaboration among Federal agencies relating to the execution of national renewable energy objectives.

(b) MEMBERSHIP.—

(1) COMPOSITION.—The Commission shall be composed of—

(A) the Secretary (or a designee);

(B) the Secretary of Agriculture (or a designee);

(C) the Secretary of Commerce (or a designee);

(D) the Administrator of the National Oceanic and Atmospheric Administration (or a designee);

(E) the Director of the National Science Foundation (or a designee);

(F) the Director of the Office of Science and Technology Policy (or a designee);

(G) the Director of the Office of Management and Budget (or a designee); and

(H) 7 representatives selected in accordance with paragraph (3), to be comprised of representatives of—

(i) national laboratories;

(ii) State laboratories;

(iii) industry;

(iv) trade groups; and

(v) State agencies.

(2) ELIGIBILITY OF DESIGNEES.—To serve as a member of the Commission, an individual designated to serve under subparagraphs (A) through (G) of paragraph (1) shall be of a position not lower than Assistant Secretary (or an equivalent position).

(3) REPRESENTATIVES.—

(A) SELECTION.—Not later than 60 days after the date of enactment of this Act, the Secretary, in accordance with subparagraph (B), and in consultation with each individual described in subparagraphs (A) through (G) of paragraph (1), shall select representatives from each group described in subparagraph (H) to serve as members of the Commission.

(B) QUALIFICATIONS.—A representative selected under subparagraph (A) shall be an individual who, by reason of professional background and experience, is specially qualified to serve as a member of the Commission.

(C) TERM.—A representative selected under subparagraph (A) shall serve for a term of 4 years.

(D) TREATMENT.—A representative selected under subparagraph (A) shall—

(i) serve without compensation; and

(ii) be considered an employee of the Federal Government in the performance of those services for the purposes of—

(I) chapter 81 of title 5, United States Code; and

(II) chapter 171 of title 28, United States Code.

(c) VACANCIES.—A vacancy on the Commission shall be filled in the same manner as the original appointment was made.

(d) MEETINGS.—

(1) IN GENERAL.—The Commission shall meet at the call of the Chairperson, but not less often than quarterly.

(2) FORM OF MEETINGS.—The Commission may meet in person or through electronic means.

(e) QUORUM.—A majority of the members of the Commission shall constitute a quorum, but a lesser number of members may hold hearings.

(f) CHAIRPERSON.—

(1) SELECTION.—

(A) IN GENERAL.—Subject to subparagraph (B), the Commission shall select a Chairperson—

(i) from among the members of the Commission; and

(ii) through a unanimous vote of approval.

(B) INITIAL SELECTION.—The Secretary shall select the initial Chairperson.

(2) TERM.—The Chairperson shall serve for a term of 6 years.

(g) DUTIES.—

(1) IN GENERAL.—The Commission shall—

(A) promote research and development of renewable energy, including—

(i) wind energy;

(ii) wave energy;

(iii) solar energy;

(iv) geothermal energy; and

(v) the production of biofuels (with particular emphasis on the production of biofuels based on cellulosic fuels);

(B) identify and recommend public and private research institutions to carry out that research and development; and

(C) in consultation with renewable energy experts regarding renewable energy policies, develop policy recommendations for Federal agencies.

(2) STUDIES.—Not later than 90 days after the date on which the Commission holds the initial meeting of the Commission, and every 4 years thereafter, the Chairperson of the Commission, acting through the Secretary, shall enter into an arrangement with the National Academy of Sciences under which the Academy shall conduct a study to assess, for the period covered by the study, issues relating to—

(A) any advancement made relating to renewable energy; and

(B) the adoption of each advancement described in subparagraph (A) into the energy markets of the United States.

(3) ANNUAL REPORT.—Not later than 1 year after the date on which the Commission holds the initial meeting of the Commission, and annually thereafter, the Commission shall submit to Congress a report that contains—

(A) a detailed statement describing each activity carried out by the Commission; and

(B) the recommendations of the Commission relating to the funding of research for the development of renewable energy by—

(i) the Federal Government;

(ii) the industrial sector of the United States; and

(iii) any other country.

(h) POWERS.—

(1) HEARINGS.—The Commission may hold such hearings, meet and act at such times and places, take such testimony, and receive such evidence as the Commission considers advisable to carry out this section.

(2) INFORMATION FROM FEDERAL AGENCIES.—

(A) IN GENERAL.—The Commission may secure directly from a Federal agency such information as the Commission considers necessary to carry out this section.

(B) PROVISION OF INFORMATION.—On request of the Chairperson of the Commission, the head of the agency shall provide the information to the Commission.

(C) CONFIDENTIALITY.—Any information provided by a Federal agency to the Commission under this paragraph shall be confidential commercial or financial information for the purposes of section 552(b)(4) of title 5, United States Code, if the Federal agency obtained the information from an entity other than a Federal agency.

(3) POSTAL SERVICES.—The Commission may use the United States mails in the same manner and under the same conditions as other agencies of the Federal Government.

(4) GIFTS.—

(A) IN GENERAL.—The Commission may accept, use, and dispose of gifts or donations of services or property.

(B) ANNUAL REPORT.—Not later than 1 year after the date on which the Commission holds the initial meeting of the Commission, and annually thereafter, the Commission shall submit to Congress a report that describes each gift received by each member of the Commission during the period covered by the report.

(i) DETAIL OF FEDERAL GOVERNMENT EMPLOYEES.—

(1) IN GENERAL.—An employee of the Federal Government may be detailed to the Commission without reimbursement.

(2) CIVIL SERVICE STATUS.—The detail of the employee shall be without interruption or loss of civil service status or privilege.

(j) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this section.

(k) TERMINATION OF COMMISSION.—The Commission shall terminate on October 1, 2016.

SA 1727. Mr. REED (for himself and Mr. WHITEHOUSE) submitted an amendment intended to be proposed by him to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ___. RENEWABLE ELECTRICITY PRODUCTION CREDIT ALLOWED FOR LANDFILL GAS FACILITIES WHICH PRODUCE FUEL FROM A NONCONVENTIONAL SOURCE.

(a) IN GENERAL.—Section 45(e)(9) of the Internal Revenue Code of 1986 is amended by adding at the end the following new subparagraph:

''(C) SPECIAL RULE FOR CERTAIN FACILITIES.—

''(i) IN GENERAL.—The amount of qualified energy resources taken into account under subsection (a) at any qualified facility described in clause (ii) shall be reduced by the amount of such resources used in producing qualified fuels (as defined by section 45K(c)) at such facility.

''(ii) QUALIFIED FACILITY DESCRIBED.—A qualified facility is described in this clause if such facility—

''(I) is placed in service after the date of the enactment of this subparagraph, and

''(II) produces electricity from gas derived from the biodegradation of municipal solid waste and such biodegradation occurred in a facility (within the meaning of section 45K) the production from which a credit is allowed under section 45K for the taxable year.''.

(b) CONFORMING AMENDMENT.—Subparagraph (A) of section 45(e)(9) of such Code is amended by inserting ''which is placed in service before the date of the enactment of subparagraph (C) and'' after ''shall not include an facility''.

(c) EFFECTIVE DATE.—The amendment made by this section shall apply to electricity produced and sold after the date of the enactment of this Act.

SA 1728. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. CREDIT FOR CORROSION PREVENTION AND MITIGATION MEASURES.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 (relating to business-related credits) is amended by adding at the end the following new section:

''SEC. 45O. CORROSION PREVENTION AND MITIGATION MEASURES.

''(a) IN GENERAL.—For purposes of section 38, the corrosion prevention and mitigation credit determined under this section for the taxable year is an amount equal to 50 percent of the excess of—

''(1) qualified corrosion prevention and mitigation expenditures with respect to qualified property, over

''(2) the amount such expenditures would have been, taking into account—

''(A) amounts paid or incurred to satisfy Federal, State, or local requirements, and

''(B) amounts paid for corrosion prevention practices, as certified by a person certified pursuant to subsection (b)(2).

''(b) QUALIFIED CORROSION PREVENTION AND MITIGATION EXPENDITURES.—For purposes of this section—

''(1) IN GENERAL.—The term 'qualified corrosion prevention and mitigation expenditures' means amounts paid or incurred by the taxpayer during the taxable year for engineering design, materials, and application and installation of corrosion prevention and mitigation technology.

''(2) CERTIFICATION MAY BE REQUIRED.—The Secretary shall require by regulation that no amount be taken into account under paragraph (1) for any design, material, application, or installation unless such design, material, application, or installation meets such certification requirements. Such requirements shall provide for accreditation of certifying persons by an independent entity with expertise in corrosion prevention and mitigation technology.

''(3) CORROSION PREVENTION AND MITIGATION TECHNOLOGY.—Corrosion prevention and mitigation technology includes a system comprised of at least one of the following: a corrosion-protective coating or paint; chemical treatment; corrosion-resistant metals; and cathodic protection. The Secretary from time to time by regulations or other guidance may modify the list contained in the preceding sentence to reflect changes in corrosion prevention and mitigation technology.

''(4) QUALIFIED PROPERTY.—The term 'qualified property' means property which is—

''(A) comprised primarily of a metal susceptible to corrosion,

''(B) of a character subject to the allowance for depreciation,

''(C) originally placed in service or owned by the taxpayer, and

''(D) located in the United States.

''(c) RECAPTURE OF CREDIT.—

''(1) IN GENERAL.—If, as of the close of any taxable year, there is a recapture event with respect to any qualified property for which a credit was allowed under subsection (a), the tax of the taxpayer under this chapter for such taxable year shall be increased by an amount equal to the product of—

''(A) the applicable recapture percentage, and

''(B) the aggregate decrease in the credits allowed under section 38 for all prior taxable years which would have resulted if the qualified corrosion prevention and mitigation expenditures of the taxpayer with respect to such property had been zero.

''(2) APPLICABLE RECAPTURE PERCENTAGE.—

''(A) IN GENERAL.—For purposes of this subsection, the applicable recapture percentage shall be determined from the following table:

''If the property ceases to be qualified property within:	**The recapture percentage is:**
(i) One full year after placed in service	100
(ii) One full year after the close of the period described in clause (i)	80
(iii) One full year after the close of the period described in clause (ii)	60
(iv) One full year after the close of the period described in clause (iii)	40
(v) One full year after the close of the period described in clause (iv)	20.

''(B) RECAPTURE EVENT DEFINED.—For purposes of this subsection, the term 'recapture event' means—

''(i) CESSATION OF USE.—The cessation of use of the qualified property.

''(ii) CHANGE IN OWNERSHIP.—

''(I) IN GENERAL.—Except as provided in subclause (II), the disposition of a taxpayer's interest in the qualified property with respect to which the credit described in subsection (a) was allowable.

''(II) AGREEMENT TO ASSUME RECAPTURE LIABILITY.—Subclause (I) shall not apply if the person acquiring the qualified property agrees in writing to assume the recapture liability of the person disposing of the qualified property. In the event of such an assumption, the person acquiring the qualified property shall be treated as the taxpayer for purposes of assessing any recapture liability (computed as if there had been no change in ownership).

''(III) SPECIAL RULE FOR TAX EXEMPT ENTITIES.—Subclause (II) shall not apply to any tax exempt entity (as defined in section 168(h)(2)).

''(iii) SPECIAL RULES.—

''(I) TAX BENEFIT RULE.—The tax for the taxable year shall be increased under paragraph (1) only with respect to credits allowed by reason of this section which were used to reduce tax liability. In the case of credits not so used to reduce tax liability, the carryforwards and carrybacks under section 39 shall be appropriately adjusted.

''(II) NO CREDITS AGAINST TAX.—Any increase in tax under this subsection shall not be treated as a tax imposed by this chapter for purposes of determining the amount of any credit under this chapter or for purposes of section 55.

''(III) NO RECAPTURE BY REASON OF CASUALTY LOSS.—The increase in tax under this subsection shall not apply to a cessation of operation of the property as qualified property by reason of a casualty loss to the extent such loss is restored by reconstruction or replacement within a reasonable period established by the Secretary.

''(d) DENIAL OF DOUBLE BENEFIT.—For purposes of this subtitle—

''(1) BASIS ADJUSTMENTS.—

''(A) IN GENERAL.—If a credit is determined under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so allowed.

''(B) CERTAIN DISPOSITIONS.—If, during any taxable year, there is a recapture amount determined with respect to any property the basis of which was reduced under subparagraph (A), the basis of such property (immediately before the event resulting in such recapture) shall be increased by an amount equal to such recapture amount. For purposes of the preceding sentence, the term 'recapture amount' means any increase in tax (or adjustment in carrybacks or carryovers) determined under subsection (c).

''(2) OTHER DEDUCTIONS AND CREDITS.—No deduction or credit shall be allowed under this chapter for any expense taken into account under this section.

''(e) REGULATIONS.—The Secretary shall prescribe such regulations as may be appropriate to carry out this section.

''(f) TERMINATION.—This section shall not apply to any taxable year beginning after December 31, 2017.''.

(b) CREDIT MADE PART OF GENERAL BUSINESS CREDIT.—Subsection (b) of section 38 of such Code (relating to current year business credit) is amended by striking ''plus'' at the end of paragraph (30), by striking the period at the end of paragraph (31) and inserting '', plus'', and by adding at the end thereof the following new paragraph:

''(32) Corrosion prevention and mitigation credit determined under section 45O(a).''.

(c) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1 of such Code is amended by inserting after the item relating to section 45N the following new item:

''Sec. 45O. Corrosion prevention and mitigation measures.''.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2007.

SA 1729. Mr. BINGAMAN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ___. OFFSHORE RENEWABLE ENERGY.

(a) LEASES, EASEMENTS, OR RIGHTS-OF-WAY FOR ENERGY AND RELATED PURPOSES.—Section 8(p) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(p)) is amended—

(1) by striking paragraph (3) and inserting the following:

''(3) COMPETITIVE OR NONCOMPETITIVE BASIS.—Any lease, easement, or right-of-way under paragraph (1) shall be issued on a competitive basis, unless—

''(A) the lease, easement, or right-of-way relates to a project that meets the criteria established under section 388(d) of the Energy Policy Act of 2005 (43 U.S.C. 1337 note; Public Law 109–58);

''(B) the lease, easement, or right-of-way—

''(i) is for the placement and operation of a meteorological or marine data collection facility; and

''(ii) has a term of not more than 5 years; or

''(C) the Secretary determines, after providing public notice of a proposed lease, easement, or right-of-way, that no competitive interest exists.''; and

(2) by adding at the end the following:

''(11) CLARIFICATION.—

''(A) IN GENERAL.—Subject to subparagraph (B), the Federal Energy Regulatory Commission shall not have authority to approve or license a wave or current energy project on the outer Continental Shelf under part I of the Federal Power Act (16 U.S.C. 792 et seq.)

''(B) TRANSMISSION OF POWER.—Subparagraph (A) shall not affect any authority of the Commission with respect to the transmission of power generated from a project described in subparagraph (A).''.

(b) PROJECTS IN STATE WATERS.—

(1) MEMORANDUM OF UNDERSTANDING.—

(A) IN GENERAL.—Not later than 90 days after the date of receipt of a request of a State, the Federal Energy Regulatory Commission (referred to in this section as the ''Commission'') shall enter into a memorandum of understanding with the State with respect to the authorization of ocean energy projects (including wave, current, and tidal energy projects) located in offshore waters and submerged land over which the State has jurisdiction.

(B) PARTICIPATION BY SECRETARY OF INTERIOR.—To the extent that a project described in subparagraph (A) involves any Federal submerged land or water on the outer Continental Shelf, the Secretary of the Interior shall also be a party to the applicable memorandum of understanding under this paragraph.

(C) GOAL.—The goal of a memorandum of understanding under this paragraph shall be to ensure coordination among the Commission, the States, and the Secretary of the Interior, as applicable, to facilitate the consideration of authorizations for ocean energy projects.

(2) COMMISSION PROCEDURES.—Not later than 1 year after the date of enactment of this Act, the Commission shall publish regulations that—

(A) establish a permitting process for wave, current, and tidal energy projects in submerged land and offshore waters under the jurisdiction of a State; and

(B) take into consideration, and provide for—

(i) the specific technological, environmental, and other unique characteristics of those projects; and

(ii) the size and scope of the projects.

(3) EFFECT OF SUBSECTION.—Nothing in this subsection alters, limits, or modifies any claim of a State to any jurisdiction over, or any right, title, or interest in, submerged land or offshore water of the State.

(c) CONSIDERATION OF CERTAIN REQUESTS FOR AUTHORIZATION.—In considering a request for authorization of a project pending before the Commission as of the date of enactment of this Act, the Secretary of the Interior shall rely, to the maximum extent practicable, on the materials submitted to the Commission before that date.

(d) SAVINGS PROVISION.—Nothing in this section or an amendment made by this section requires the resubmission of any document that was previously submitted, or the reauthorization of any action that was previously authorized, with respect to a project for which a preliminary permit was issued by the Commission before the date of enactment of this Act.

SA 1730. Mr. BINGAMAN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ___. OFFSHORE RENEWABLE ENERGY.

Section 8(p) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(p)) is amended by striking paragraph (3) and inserting the following:

''(3) COMPETITIVE OR NONCOMPETITIVE BASIS.—Any lease, easement, or right-of-way under paragraph (1) shall be issued on a competitive basis, unless—

''(A) the lease, easement, or right-of-way relates to a project that meets the criteria established under section 388(d) of the Energy Policy Act of 2005 (43 U.S.C. 1337 note; Public Law 109–58);

''(B) the lease, easement, or right-of-way—

''(i) is for the placement and operation of a meteorological or marine data collection facility; and

''(ii) has a term of not more than 5 years; or

''(C) the Secretary determines, after providing public notice of a proposed lease, easement, or right-of-way, that no competitive interest exists.''.

SA 1731. Mr. SUNUNU submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 38, after line 17, insert the following:

SEC. 809A. CREDIT FOR BIOMASS FUEL PROPERTY EXPENDITURES.

(a) ALLOWANCE OF CREDIT.—Subsection (a) of section 25D (relating to allowance of credit), as amended by this Act, is amended—

(1) by striking ''and'' at the end of paragraph (3),

(2) by striking the period at the end of paragraph (4) and inserting '', and'', and

(3) by adding at the end the following new paragraph:

''(5) 30 percent of the qualified biomass fuel property expenditures made by the taxpayer during such year.''.

(b) MAXIMUM CREDIT.—Paragraph (1) of section 25D(b) (relating to maximum credit), as amended by this Act, is amended—

(1) by striking ''and'' at the end of subparagraph (C),

(2) by striking the period at the end of subparagraph (D) and inserting '', and'', and

(3) by adding at the end the following new subparagraph:

''(E) $4,000 with respect to any qualified biomass fuel property expenditures.''.

(c) MAXIMUM EXPENDITURES.—Subparagraph (A) of section 25D(e)(4) (relating to maximum expenditures in case of joint occupancy) is amended—

(1) by striking ''and'' at the end of clause (ii),

(2) by striking the period at the end of clause (iii) and inserting '', and'', and

(3) by adding at the end the following new clause:

''(iv) $13,334 in the case of any qualified biomass fuel property expenditures.''.

(d) QUALIFIED BIOMASS FUEL PROPERTY EXPENDITURES.—Subsection (d) of section 25D (relating to definitions), as amended by this Act, is amended by adding at the end the following new paragraph:

''(5) QUALIFIED BIOMASS FUEL PROPERTY EXPENDITURE.—

''(A) IN GENERAL.—The term 'qualified biomass fuel property expenditure' means an expenditure for property—

''(i) which uses the burning of biomass fuel to heat a dwelling unit located in the United States and used as a residence by the taxpayer, or to heat water for use in such a dwelling unit, and

''(ii) which has a thermal efficiency rating of at least 75 percent.

''(B) BIOMASS FUEL.—For purposes of this section, the term 'biomass fuel' means any plant-derived fuel available on a renewable or recurring basis, including agricultural crops and trees, wood and wood waste and residues (including wood pellets), plants (including aquatic plants), grasses, residues, and fibers.''.

(e) EFFECTIVE DATE.—The amendments made by this subsection shall apply to expenditures paid or incurred in taxable years beginning after December 31, 2007.

SA 1732. Mr. KYL submitted an amendment intended to be proposed by him to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 69, lines 17 to 20, strike ''to so much of the renewable diesel produced at such facility and sold or used during the taxable year in a qualified biodiesel mixture as exceeds 60,000,000 gallons''.

SA 1733. Mr. KYL (for himself, Mr. LOTT, and Mr. MCCONNELL) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; as follows:

At the end of subtitle B of title VIII add the following:

SEC. _____. CONDITION PRECEDENT FOR THE EFFECTIVE DATE OF REVENUE RAISERS.

Notwithstanding the provisions of this subtitle, the amendments made by this subtitle shall not take effect unless the Secretary of Energy certifies that such amendments shall not increase gasoline retail prices and the reliance of the United States on foreign sources of energy.

SA 1734. Mr. BURR submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of section 403 of the Secure Rural Schools and Community Self-Determination Act of 2000 (16 U.S.C. 500 note; Public Law 106–393) (as amended by section [_____] of the amendment), add the following:

''(c) AUDIT.—

''(1) IN GENERAL.—Not later than 30 days after the end of each fiscal year in which a

county receives payments under title I or the payment in lieu of taxes program under chapter 69 of title 31, United States Code, the county shall submit to the State in which the county is located an audit of the expenditure of the payments by the county during the preceding fiscal year.

''(2) FAILURE TO REPORT.—If, during any fiscal year, a county described in paragraph (1) fails to submit the audit by the deadline described in that paragraph, the county shall be ineligible for payments under this Act or the payment in lieu of taxes program under chapter 69 of title 31, United States Code, as applicable, for the subsequent fiscal year.

''(3) CERTIFICATION.—The State shall—

''(A) not later than 60 days after the end of the fiscal year in which the audits were submitted under paragraph (1), certify the audits; and

''(B) on certification of the audit under subparagraph (A), submit the certified audit to the Secretary concerned.

''(4) REPORT.—Not later than 90 days after the end of the fiscal year in which the audits were submitted under paragraph (1), the Secretary concerned shall submit to the appropriate committees of Congress a report that describes the results of the audits submitted and certified under this subsection.''.

SA 1735. Mr. OBAMA submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 6, strike line 17 and all that follows through page 7, line 16, and insert the following:

(1) ADVANCED BIOFUEL.—The term ''advanced biofuel'' means fuel produced in the United States—

(A) that meets the requirements of an appropriate American Society for Testing and Materials standard; and

(B) the lifecycle greenhouse gas emissions of which are at least 50 percent lower than the average lifecycle greenhouse gas emissions of conventional fuel, as determined by the Administrator of the Environmental Protection Agency.

On page 7, between lines 23 and 24, insert the following:

(4) CONVENTIONAL FUEL.—The term ''conventional fuel'' means any fossil-fuel based transportation fuel, boiler fuel, or home heating fuel used in the United States as of the date of enactment of this Act.

On page 7, line 24, strike ''(4)'' and insert ''(5)''.

On page 9, line 11, strike ''(5)'' and insert ''(6)''.

On page 10, line 1, strike ''(6)'' and insert ''(7)''.

On page 10, line 3, strike ''(7)'' and insert ''(8)''.

On page 10, line 16, strike ''President'' and insert ''Administrator of the Environmental Protection Agency''.

On page 11, line 15, strike ''gasoline'' and insert ''conventional fuel''.

On page 13, line 3, strike ''2016'' and insert ''2012''.

On page 13, between lines 5 and 6, strike the table and insert the following:

	Applicable volume of advanced biofuels Calendar year: (in billions of gallons):
2012	0.5
2013	1.5
2014	2.5
2015	3.5
2016	4.5
2017	6.0
2018	9.0
2019	12.0
2020	15.0
2021	18.0
2022	21.0

SA 1736. Mr. REID submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

TITLE ____—CLEAN RENEWABLE ENERGY AND ECONOMIC DEVELOPMENT

SEC. __01. SHORT TITLE.

This title may be cited as the ''Clean Renewable Energy and Economic Development Act''.

SEC. __2. FINDINGS.

Congress finds that—

(1) electricity produced from renewable resources—

(A) helps to reduce emissions of greenhouse gases and other air pollutants;

(B) enhances national energy security;

(C) conserves water and finite resources; and

(D) provides substantial economic benefits, including job creation and technology development;

(2) the potential exists for a far greater percentage of electricity generation in the United States to be achieved through the use of renewable resources, as compared to the percentage of electricity generation using renewable resources in existence as of the date of enactment of this Act;

(3) many of the best potential renewable energy resources are located in rural areas far from population centers;

(4) the lack of adequate electric transmission capacity is a primary obstacle to the development of electric generation facilities fueled by renewable energy resources;

(5) the economies of many rural areas would substantially benefit from the increased development of water-efficient electric generation facilities fueled by renewable energy resources;

(6) more efficient use of the existing excess transmission capacity, better integration of resources, and greater investments in distributed generation and off-grid solutions may increase the availability of transmission and distribution capacity for adding renewable resources and help keep ratepayer costs low;

(7) the Federal Government has not adequately invested in or implemented an integrated approach to accelerating the development, commercialization, and deployment of renewable energy technologies and renewable electricity generation, including through enhancing distributed generation or through vehicle- and transportation-sector use; and

(8) it is in the national interest for the Federal Government to implement policies that would enhance the quantity of electric transmission capacity available to take full advantage of the renewable energy resources available to generate electricity, and to more fully integrate renewable energy into the energy policies of the United States, and to address the tremendous national security and global warming challenges of the United States.

SEC. 3. NATIONAL RENEWABLE ENERGY ZONES.

(a) IN GENERAL.—Title II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended—

(1) by inserting before the section heading of section 201 (16 U.S.C. 824 et seq.) the following:

''Subpart A—Regulation of Electric Utility Companies'';

and

(2) by adding at the end the following:

''Subpart B—National Renewable Energy Zones

''SEC. 231. DEFINITIONS.

''In this subpart:

''(1) BIOMASS.—

''(A) IN GENERAL.—The term 'biomass' means—

''(i) any lignin waste material that is segregated from other waste materials and is determined to be nonhazardous by the Administrator of the Environmental Protection Agency; and

''(ii) any solid, nonhazardous, cellulosic material that is derived from—

''(I) mill residue, precommercial thinnings, slash, brush, or nonmerchantable material;

''(II) solid wood waste materials, including a waste pallet, a crate, dunnage, manufacturing and construction wood wastes, and landscape or right-of-way tree trimmings;

''(III) agriculture waste, including an orchard tree crop, a vineyard, a grain, a legume, sugar, other crop byproducts or residues, and livestock waste nutrients; or

''(IV) a plant that is grown exclusively as a fuel for the production of electricity.

''(B) INCLUSIONS.—The term 'biomass' includes animal waste that is converted to a fuel rather than directly combusted, the residue of which is converted to a biological fertilizer, oil, or activated carbon.

''(C) EXCLUSIONS.—The term 'biomass' does not include—

''(i) municipal solid waste;

''(ii) paper that is commonly recycled; or

''(iii) pressure-treated, chemically-treated, or painted wood waste.

''(2) COMMISSION.—The term 'Commission' means the Federal Energy Regulatory Commission.

''(3) DISTRIBUTED GENERATION.—The term 'distributed generation' means—

''(A) reduced electricity consumption from the electric grid because of use by a customer of renewable energy generated at a customer site; and

''(B) electricity or thermal energy production from a renewable energy resource for a customer that is not connected to an electric grid or thermal energy source pipeline.

''(4) ELECTRICITY CONSUMING AREA.—The term 'electricity consuming area' means the area within which electric energy would be consumed if new high-voltage electric transmission facilities were to be constructed to access renewable electricity in a national renewable energy zone.

''(5) ELECTRICITY FROM RENEWABLE ENERGY.—The term 'electricity from renewable energy' means—

''(A) electric energy generated from solar energy, wind, biomass, landfill gas, the ocean (including tidal, wave, current, and thermal energy), geothermal energy, or municipal solid waste; or

''(B) new hydroelectric generation capacity achieved from increased efficiency, or an addition of new capacity, at an existing hydroelectric project.

''(6) FEDERAL TRANSMITTING UTILITY.—The term 'Federal transmitting utility' means—

''(A) a Federal power marketing agency that owns or operates an electric transmission facility; and

''(B) the Tennessee Valley Authority.

''(7) FUEL CELL VEHICLE.—The term 'fuel cell vehicle' means an onroad vehicle or nonroad vehicle that uses a fuel cell (as defined in section 803 of the Spark M. Matsunaga Hydrogen Act of 2005 (42 U.S.C. 16152)).

''(8) GRID-ENABLED VEHICLE.—The term 'grid-enabled vehicle' means an electric drive vehicle or fuel cell vehicle that has the ability to communicate electronically with an electric power provider or with a localized energy storage system with respect to charging and discharging an onboard energy storage device, such as a battery.

''(9) HIGH-VOLTAGE ELECTRIC TRANSMISSION FACILITY.—The term 'high-voltage electric transmission facility' means 1 of the electric transmission facilities that—

''(A) are necessary for the transmission of electric power from a national renewable energy zone to an electricity-consuming area in interstate commerce; and

''(B) has a capacity in excess of 200 kilovolts.

''(10) INDIAN LAND.—The term 'Indian land' means—

''(A) any land within the limits of any Indian reservation, pueblo, or rancheria;

''(B) any land not within the limits of any Indian reservation, pueblo, or rancheria title to which was, on the date of enactment of this subpart—

''(i) held in trust by the United States for the benefit of any Indian tribe or individual; or

''(ii) held by any Indian tribe or individual subject to restriction by the United States against alienation;

''(C) any dependent Indian community; and

''(D) any land conveyed to any Alaska Native corporation under the Alaska Native Claims Settlement Act (42 U.S.C. 1601 et seq.).

''(11) NETWORK UPGRADE.—The term 'network upgrade' means an addition, modification, or upgrade to the transmission system of a transmission provider required at or beyond the point at which the generator interconnects to the transmission system of the transmission provider to accommodate the interconnection of 1 or more generation facilities to the transmission system of the transmission provider.

''(12) RENEWABLE ELECTRICITY CONNECTION FACILITY.—

''(A) IN GENERAL.—The term 'renewable electricity connection facility' means an electricity generation or transmission facility that uses renewable energy sources.

''(B) INCLUSIONS.—The term 'renewable electricity connection facility' includes inverters, substations, transformers, switching units, storage units and related facilities, and other electrical equipment necessary for the development, siting, transmission, storage, and interconnection of electricity generated from renewable energy sources.

''(13) RENEWABLE ENERGY CREDIT.—The term 'renewable energy credit' means a unique instrument representing 1 or more units of electricity generated from renewable energy that is designated by a widely-recognized certification organization approved by the Commission or the Secretary of Energy.

''(14) RENEWABLE ENERGY TRUNKLINE.—

''(A) IN GENERAL.—The term 'renewable energy trunkline' means all transmission facilities and equipment within a national renewable energy zone owned, controlled, or operated by a transmission provider from the point at which the ownership changes from the generation owner to the transmission system of the transmission provider to the point at which the facility connects to a high-voltage transmission facility, including any modifications, additions or upgrades to the facilities and equipment, at a voltage of 115 kilovolts or more.

''(B) EXCLUSION.—The term 'renewable energy trunkline' does not include a network upgrade.

''SEC. 232. DESIGNATION OF NATIONAL RENEWABLE ENERGY ZONES.

''(a) IN GENERAL.—Not later than 1 year after the date of enactment of this subpart, the President shall designate as a national renewable energy zone each geographical area that, as determined by the President—

''(1) has the potential to generate in excess of 1 gigawatt of electricity from renewable energy, a significant portion of which could be generated in a rural area or on Federal land within the geographical area;

''(2) has an insufficient level of electric transmission capacity to achieve the potential described in paragraph (1); and

''(3) has the capability to contain additional renewable energy electric generating facilities that would generate electricity consumed in 1 or more electricity consuming areas if there were a sufficient level of transmission capacity.

''(b) RENEWABLE ENERGY REQUIREMENTS.—In making the designations required by subsection (a), the President shall take into account Federal and State requirements for utilities to incorporate renewable energy as part of the load of electric generating facilities.

''(c) CONSULTATION.—Before making any designation under subsection (a), the President shall consult with—

''(1) the Governors of affected States;

''(2) the public;

''(3) public and private electricity and transmission utilities and cooperatives;

''(4) Federal and State land management and energy and environmental agencies;

''(5) renewable energy companies;

''(6) local government officials;

''(7) renewable energy and energy efficiency interest groups;

''(8) Indian tribes; and

''(9) environmental protection and land, water, and wildlife conservation groups.

''(d) RECOMMENDATIONS.—Not sooner than 3 years after the date of enactment of this subpart, and triennially thereafter, the Secretary of Energy and the Federal transmitting utilities, in cooperation with the Director of the Bureau of Land Management, the Director of the United States Geological Survey, the Commissioner of Reclamation, the Director of the Forest Service, the Director of the United States Fish and Wildlife Service, and the Secretary of Defense, and after consultation with the Governors of the States, shall recommend to the President and Congress—

''(1) specific areas with the greatest potential for environmentally acceptable renewable energy resource development; and

''(2) modifications of laws (including regulations) and resource management plans necessary to fully achieve that potential.

''(e) REVISION OF DESIGNATIONS.—Based on the recommendations received under subsection (d), the President may revise the designations made under subsection (a), as appropriate.

''SEC. 233. ENCOURAGING CLEAN ENERGY DEVELOPMENT IN NATIONAL RENEWABLE ENERGY ZONES.

''(a) COST RECOVERY.—The Commission shall promulgate such regulations as are necessary to ensure that a public utility transmission provider that finances a high-voltage electric transmission facility or other renewable electricity connection facility added in a national renewable energy zone after the date of enactment of this subpart recovers all prudently incurred costs, and a reasonable return on equity, associated with the new transmission capacity.

''(b) ALTERNATIVE TRANSMISSION FINANCING MECHANISM.—

''(1) IN GENERAL.—The Commission shall permit a renewable energy trunkline built by a public utility transmission provider in a national renewable energy zone to, in advance of generation interconnection requests, be initially funded through a transmission charge imposed on all transmission customers of the transmission provider or, if the renewable energy trunkline is built in an area served by a regional transmission organization or independent system operator, all of the transmission customers of the transmission operator, if the Commission finds that—

''(A) the renewable energy resources that would use the renewable energy trunkline are remote from the grid and load centers;

''(B) the renewable energy trunkline will likely result in multiple individual renewable energy electric generation projects being developed by multiple competing developers; and

''(C) the renewable energy trunkline has at least 1 project subscribed through an executed generation interconnection agreement with the transmission provider and has tangible demonstration of additional interest.

''(2) NEW ELECTRIC GENERATION PROJECTS.—As new electric generation projects are constructed and interconnected to the renewable energy trunkline, the transmission services contract holder for the generation project shall, on a prospective basis, pay a pro rata share of the facility costs of the renewable energy trunkline, thus reducing the effect on the rates of customers of the public utility transmission provider.

''(c) FEDERAL TRANSMITTING UTILITIES.—

''(1) IN GENERAL.—Not later than 1 year after the designation of a national renewable energy zone, a Federal transmitting utility that owns or operates 1 or more electric transmission facilities in the national renewable energy zone shall identify specific additional high-voltage or other renewable electricity connection facilities required to substantially increase the generation of electricity from renewable energy in the national renewable energy zone.

''(2) LACK OF PRIVATE FUNDS.—If, by the date that is 3 years after the date of enactment of this subpart, no privately-funded entity has committed to financing (through self-financing or through a third-party financing arrangement with a Federal transmitting utility) to ensure the construction and operation of a high-voltage or other renewable electricity connection facility identified pursuant to paragraph (1) by a specified date, the Federal transmitting utility

responsible for the identification shall finance such a transmission facility if the Federal transmitting utility has sufficient bonding authority under paragraph (3).

''(3) BONDING AUTHORITY.—

''(A) IN GENERAL.—A Federal transmitting utility may issue and sell bonds, notes, and other evidence of indebtedness in an amount not to exceed, at any 1 time, an aggregate outstanding balance of $10,000,000,000, to finance the construction of transmission facilities identified pursuant to paragraph (1) for the principal purposes of—

''(i) increasing the generation of electricity from renewable energy; and

''(ii) conveying that electricity to an electricity consuming area.

''(B) RECOVERY OF COSTS.—A Federal transmitting utility shall recover the costs of renewable electricity connection facilities financed pursuant to paragraph (2) from entities using the transmission facilities over a period of 50 years.

''(C) NONLIABILITY OF CERTAIN CUSTOMERS.—Individuals and entities that, as of the date of enactment of this subpart, are customers of a Federal transmitting utility shall not be liable for the costs, in the form of increased rates charged for electricity, of renewable electricity connection facilities constructed pursuant to this section, except to the extent the customers are treated in a manner similar to all other users of the Federal transmitting utility.

''(d) OPERATION OF HIGH-VOLTAGE TRANSMISSION LINES USING RENEWABLE ENERGY RESOURCES.—

''(1) PUBLIC UTILITIES FINANCING LIMITATION.—The regulations promulgated pursuant to subsection (a) shall, to the maximum extent practicable, ensure that not less than 75 percent of the capacity of any high-voltage transmission lines financed pursuant to this section is used for electricity from renewable energy.

''(2) NON-PUBLIC UTILITIES ACCESS LIMITATION.—Notwithstanding section 368 of the Energy Policy Act of 2005 (42 U.S.C. 15926), the Commission shall promulgate regulations to ensure, to the maximum extent practicable, that not less than 75 percent of the capacity of high-voltage transmission facilities sited primarily or partially on Federal land and constructed after the date of enactment of this subpart is used for electricity from renewable energy.

''SEC. 234. FEDERAL POWER MARKETING AGENCIES.

''(a) PROMOTION OF RENEWABLE ENERGY AND ENERGY EFFICIENCY.—Each Federal transmitting utility shall—

''(1) identify and take steps to promote energy conservation and renewable energy electric resource development in the regions served by the Federal transmitting utility;

''(2) use the purchasing power of the Federal transmitting utility to acquire, on behalf of the Federal Government, electricity from renewable energy and renewable energy credits in sufficient quantities to meet the requirements of section 203 of the Energy Policy Act of 2005 (42 U.S.C. 15852); and

''(3) identify opportunities to promote the development of facilities generating electricity from renewable energy on Indian land.

''(b) WIND INTEGRATION PROGRAMS.—The Bonneville Power Administration and the Western Area Power Administration shall each establish a program focusing on the improvement of the integration of wind energy into the transmission grids of those Administrations through the development of transmission products, including through the use of Federal hydropower resources, that—

''(1) take into account the intermittent nature of wind electric generation; and

''(2) do not impair electric reliability.

''(c) SOLAR INTEGRATION PROGRAM.—Each of the Federal Power Administrations and the Tennessee Valley Authority shall establish a program to carry out projects focusing on the integration of solar energy, through photovoltaic concentrating solar systems and other forms and systems, into the respective transmission grids and into remote and distributed applications in the respective service territories of the Federal Power Administrations and Tennessee Valley Authority, that—

''(1) take into account the solar energy cycle;

''(2) maximize the use of Federal land for generation or energy storage, where appropriate; and

''(3) do not impair electric reliability.

''(d) GEOTHERMAL INTEGRATION PROGRAM.—The Bonneville Power Administration and the Western Area Power Administration shall establish a joint program to carry out projects focusing on the development and integration of geothermal energy resources into the respective transmission grids of the Bonneville Power Administration and the Western Area Power Administration, as well as non-grid, distributed applications in those service territories, including projects combining geothermal energy resources with biofuels production or other industrial or commercial uses requiring process heat inputs, that—

''(1) maximize the use of Federal land for the projects and activities;

''(2) displace fossil fuel baseload generation or petroleum imports; and

''(3) improve electric reliability.

''(e) RENEWABLE ELECTRICITY AND ENERGY SECURITY PROJECTS.—

''(1) IN GENERAL.—The Federal transmitting utilities, shall, in consultation with the Commission, the Secretary, the National Association of Regulatory Utility Commissioners, and such other individuals and entities as are necessary, undertake geographically diverse projects within the respective service territories of the utilities to acquire and demonstrate grid-enabled and nongrid-enabled plug-in electric and hybrid electric vehicles and related technologies as part of their fleets of vehicles.

''(2) INCREASE IN RENEWABLE ENERGY USE.—To the maximum extent practicable, each project conducted pursuant to any of subsections (b) through (d) shall include a component to develop vehicle technology, utility systems, batteries, power electronics, or such other related devices as are able to substitute, as the main fuel source for vehicles, transportation-sector petroleum consumption with electricity from renewable energy sources.''.

(b) TRANSMISSION COST ALLOCATION.—Section 206 of the Federal Power Act (16 U.S.C. 824e) is amended by adding at the following:

''(f) TRANSMISSION COST ALLOCATION.—

''(1) IN GENERAL.—Not later than 180 days after the date on which the President designates an area as a national renewable energy zone under section 232, the State utility commissions or other appropriate bodies having jurisdiction over the public utilities providing service in the national renewable energy zone or an adjacent electricity consuming area may jointly propose to the Commission a cost allocation plan for high-voltage electric transmission facilities built by a public utility transmission provider that would serve the electricity consuming area.

''(2) APPROVAL.—The Commission may approve a plan proposed under paragraph (1) if the Commission determines that—

''(A) taking into account the users of the transmission facilities, the plan will result in rates that are just and reasonable and not unduly discriminatory or preferential; and

''(B) the plan would not unduly inhibit the development of renewable energy electric generation projects.

''(3) COST ALLOCATION.—Unless a plan is approved by the Commission under paragraph (2), the Commission shall fairly allocate the costs of new high-voltage electric transmission facilities built in the area by 1 or more public utility transmission providers (recognizing the national and regional benefits associated with increased access to electricity from renewable energy) pursuant to a rolled-in transmission charge.

''(4) FEDERAL TRANSMITTING UTILITY.—Nothing in this subsection expands, directly or indirectly, the jurisdiction of the Commission with respect to any Federal transmitting utility.''.

(c) CONFORMING AMENDMENTS.—

(1) Section 3 of the Federal Power Act (42 U.S.C. 796) is amended by adding at the end the following:

''(30) ELECTRIC DRIVE VEHICLE.—

''(A) IN GENERAL.—The term 'electric drive vehicle' means a vehicle that uses—

''(i) an electric motor for all or part of the motive power of the vehicle; and

''(ii) off-board electricity wherever practicable.

''(B) INCLUSIONS.—The term 'electric drive vehicle' includes—

''(i) a battery electric vehicle;

''(ii) a plug-in hybrid electric vehicle; and

''(iii) a plug-in hybrid fuel cell vehicle.''.

(2) Subpart A of part II of the Federal Power Act (as redesignated by subsection (a)) is amended—

(A) in the heading of section 201, by striking ''PART'' and inserting ''SUBPART''; and

(B) by striking ''this Part'' each place it appears and inserting ''this subpart''.

SA 1737. Mr. REID (for himself and Mr. LIEBERMAN) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

In section 102, redesignate paragraphs (2), (3), (4), (5), (6), and (7) as paragraphs (4), (5), (13), (16), (17), and (18), respectively.

In section 102, between paragraphs (1) and (4) (as so redesignated), insert the following:

(2) ADVANCED RENEWABLE FUEL.—The term ''advanced renewable fuel'' means—

(A) advanced biofuel; or

(B) renewable electric fuel.

(3) BATTERY.—The term ''battery'' means an energy storage device used in an onroad vehicle or nonroad vehicle powered, in whole or in part, using an off-board or on-board source of electricity.

In section 102, between paragraphs (5) and (13) (as so redesignated), insert the following:

(6) ELECTRIC DRIVE VEHICLE.—

(A) IN GENERAL.—The term ''electric drive vehicle'' means a vehicle that uses—

(i) an electric motor for all or part of the motive power of the vehicle; and

(ii) off-board electricity.

(B) INCLUSIONS.—The term ''electric drive vehicle'' includes—

(i) a battery electric vehicle;

(ii) a plug-in hybrid electric vehicle; and

(iii) a plug-in hybrid fuel cell vehicle.

(7) FUEL CELL VEHICLE.—The term ''fuel cell vehicle'' means an onroad vehicle or nonroad vehicle that uses a fuel cell (as defined in section 803 of the Spark M. Matsunaga Hydrogen Act of 2005 (42 U.S.C. 16152)).

(8) GEOTHERMAL ENERGY.—The term ''geothermal energy'' means energy derived from a geothermal deposit (within the meaning of section 613(e)(2) of the Internal Revenue Code of 1986).

(9) INCREMENTAL HYDROPOWER.—

(A) IN GENERAL.—The term ''incremental hydropower'' means additional energy generated as a result of an efficiency improvement or capacity addition made on or after January 1, 2003, to an existing hydropower facility, as measured on the basis of the same water flow information that is used to determine the historic average annual generation baseline for the hydropower facility and certified by the Secretary or the Federal Energy Regulatory Commission.

(B) EXCLUSION.—The term ''incremental hydropower'' does not include additional energy generated as a result of operational changes not directly associated with an efficiency improvement or capacity addition.

(10) OCEAN ENERGY.—The term ''ocean energy'' includes current, wave, tidal, and thermal energy.

(11) PLUG-IN HYBRID ELECTRIC VEHICLE.—The term ''plug-in hybrid electric vehicle'' means an onroad vehicle or nonroad vehicle that is propelled by an internal combustion engine or heat engine using—

(A) any combustible fuel;

(B) an onboard, rechargeable storage device; and

(C) a means of using an off-board source of electricity.

(12) PLUG-IN HYBRID FUEL CELL VEHICLE.—The term ''plug-in hybrid fuel cell vehicle'' means a fuel cell vehicle with a battery powered by an off-board source of electricity.

In section 102, between paragraphs (13) and (16) (as so redesignated), insert the following:

(14) RENEWABLE ELECTRIC FUEL.—The term ''renewable electric fuel'' means renewable energy from electricity that is used to power a vehicle.

(15) RENEWABLE ENERGY.—The term ''renewable energy'' means electric energy generated at a facility (including a distributed generation facility) placed in service on or after January 1, 2003, from—

(A) solar, wind, or geothermal energy;

(B) ocean energy;

(C) incremental hydropower;

(D) biomass (as defined in section 203(b) of the Energy Policy Act of 2005 (42 U.S.C. 15852(b))); or

(E) landfill gas.

In section 102(16)(A) (as so redesignated), strike clause (i) and insert the following:

(i) produced from—

(I) renewable biomass; or

(II) renewable energy; and

In section 102(16)(B), strike clauses (i) and (ii) and insert the following:

(i) conventional biofuel;

(ii) advanced biofuel; and

(iii) renewable electric fuel.

At the end of section 111(a)(1), add the following:

(D) REGULATIONS FOR RENEWABLE ELECTRIC FUEL.—

(i) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the President shall promulgate regulations to incorporate renewable electric fuel into the renewable fuel program established under this title.

(ii) AUDITING AND CERTIFICATION PROCEDURES.—The regulations promulgated under clause (i) shall include auditing and certification procedures for verifying that renewable electricity is being used as a motor fuel under the renewable fuel program.

(iii) AWARDING OF RENEWABLE FUEL CREDITS.—The President shall award renewable fuel credits to renewable electric fuel producers and distributors only if the producer or distributor demonstrates through the established certification procedures that renewable electric fuel is being used as a motor fuel.

In section 111(a)(2)(A)(ii), strike ''biofuels'' each place it appears and insert ''renewable fuels''.

In section 111(a)(2)(B)(ii), strike ''biofuels'' and insert ''renewable fuels''.

At the end of section 111(c), add the following:

(4) ENERGY CONTENT RELATIVE FOR RENEWABLE ELECTRIC FUEL.—The conversion factor of renewable electric fuel shall be 6.4 kilowatt hours of renewable electricity per gallon of renewable fuel, unless the President establishes a different conversion factor by regulation.

SA 1738. Mr. COLEMAN (for himself and Mr. FEINGOLD) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 47, after line 23, add the following:

SEC. 131. LOCAL OWNERSHIP OF BIOREFINERIES.

''(a) DEFINITIONS.—In this section:

''(1) BIOREFINERY.—The term 'biorefinery' has the meaning given the term in section 9003(b).

''(2) ELIGIBLE PURCHASER.—The term 'eligible purchaser', with respect to a biorefinery, means—

''(A) a natural person with a principal residence that is located not more than 50 miles from the biorefinery; or

''(B) a farmer or rancher cooperative.

''(b) REQUIREMENT.—

''(1) IN GENERAL.—Subject to paragraphs (2) and (3), in the case of a biorefinery that is financed, refinanced, or financially supported, in whole or in part, using a loan, loan guarantee, or grant made by a Federal agency on or after the date of enactment of this section, as a condition of the receipt of the loan, loan guarantee, or grant, the recipient shall provide eligible purchasers with an opportunity to participate in the financing or ownership of the biorefinery in accordance with this section.

''(2) FARMERS AND RANCHER COOPERATIVES.—If the recipient of a loan, loan guarantee, or grant made by a Federal agency under paragraph (1) is a farmer or rancher cooperative, it fulfills the requirement in paragraph (1) above. However, the farmer or rancher cooperative may provide eligible purchasers with an opportunity to participate in the financing or ownership of the biorefinery in accordance with this section.

''(3) LEVEL OF FEDERAL SUPPORT.—Paragraph (1) shall apply to a biorefinery only if not less than 3 percent of the total amount of funds that is used to finance, refinance, or financially support the biorefinery is derived from Federal funds.

''(c) TERMS AND CONDITIONS.—To be eligible to receive a loan, loan guarantee, or grant from a Federal agency in connection with a biorefinery, the recipient—

''(1) during the 60-day period beginning on the date of receipt of the loan, loan guarantee, or grant by the recipient, shall permit eligible purchasers to participate in the financing or ownership of the biorefinery on the conditions that—

''(A) eligible purchasers, collectively, be allowed to invest not less than 40 percent of the projected total amount of non-Federal funds that will be used to construct or expand the biorefinery; and

''(B) an individual eligible purchaser be allowed to invest not more than 2.5 percent of the projected total amount of non-Federal funds that will be used to construct or expand the biorefinery;

''(2) shall provide to eligible purchasers competitive terms and conditions that are no less favorable than the terms and conditions that are offered for funding for similar recipients or classes of recipients or, if there are no similar recipients or classes of recipients, other entities with similar risk characteristics, as determined by the Secretary;

''(3) if the amount of funding offered by eligible purchasers for a biorefinery exceeds the amount that is solicited by a recipient, may—

''(A) accept all such offered amounts; or

''(B) award the amounts on a competitive basis; and

''(4) shall conduct the financing or refinancing of the biorefinery in accordance with Federal law (including Federal law governing securities).''.

SA 1739. Mr. SALAZAR submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 54, line 1, strike ''$1.11'' and insert ''$1.28''.

SA 1740. Mr. PRYOR submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency

and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 180, strike line 23 and all that follows through page 181, line 9, and insert the following:

''(2) CARBON CAPTURE DEMONSTRATION PROJECTS.—

''(A) IN GENERAL.—The Secretary shall carry out a demonstration of not less than 5 large-scale carbon dioxide capture technologies developed by appropriate applicants, as selected by the Secretary, including any—

''(i) precombustion technology;

''(ii) postcombustion technology;

''(iii) oxy-fuel combustion technology; and

''(iv) other promising new technology, as determined by the Secretary.

''(B) FACILITIES.—The Secretary shall select 1 or more appropriate sites and facilities to test each technology selected under subparagraph (A).

''(C) LINKAGE TO STORAGE ACTIVITIES.—The Secretary, in consultation with the Administrator of the Environmental Protection Agency, may require the carbon dioxide captured from each demonstration project carried out under subparagraph (A) to be used in large-scale carbon dioxide sequestration demonstration projects.

SA 1741. Mr. STEVENS submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

TITLE ____—COASTAL AND OCEAN DEVELOPMENT GRANTS

SEC. —01. COASTAL AND OCEAN ASSISTANCE FOR STATES FUND.

(a) IN GENERAL.—There is established in the Treasury of the United States a fund to be known as the Coastal and Ocean Assistance for States Fund.

(b) CREDITS.—Beginning with fiscal year 2008, the Fund shall be credited with 5 percent of the amounts deposited in the Treasury of the United States under section 9 of the Outer Continental Shelf Lands Act (43 U.S.C. 1338).

SEC. —02. COASTAL AND OCEAN ASSISTANCE PROGRAM.

(a) IN GENERAL.—The Secretary shall—

(1) establish a grant program to provide grants to eligible coastal States in accordance with this title; and

(2) make 85 percent of the amounts available in the Fund for each fiscal year available for grants under the program.

(b) ELIGIBLE COASTAL STATES.—To be eligible for a grant under the program, a coastal State shall—

(1) submit an application to the Secretary at such time, in such form, and containing such information as the Secretary may require; and

(2) include in its application a multi-year plan, subject to approval by the Secretary, for the use of funds received under the grant program;

(3) demonstrate to the satisfaction of the Secretary that it has established a trust fund, or other accounting measures, subject to approval by the Secretary, to ensure the accurate accounting of funds received under the grant program, to administer funds received under the grant program;

(4) specify in its application how it will allocate any funds received under the grant program among—

(A) coastal zone management activities;

(B) coastal and estuarine land protection;

(C) living marine resource activities;

(D) relocation of threatened coastal villages;

(E) natural resources enhancements;

(F) mitigation of impacts from offshore activities;

(G) coastal damage prevention and restoration;

(H) coastal zone management education; and

(I) management costs associated with eligible activities under section —03; and

(4) describe in its application each activity to be financed, in whole or in part, with funds provided by the grant.

(c) ALLOCATION OF GRANT FUNDS.—

(1) IN GENERAL.—The Secretary shall allocate grants under the program among the eligible coastal States according to a formula under which—

(A) 31 percent of the funds are allocated equally among coastal States that have a coastal management program approved under to the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.);

(B) 31 percent of the funds are allocated on the basis of the ratio of tidal shoreline miles in a State to the tidal shoreline miles of all States;

(C) 31 percent of the funds are allocated on the basis of the ratio of coastal population of a State to the coastal population of all States; and

(D) 7 percent of the funds are allocated on the basis of the ratio of—

(i) the square miles of national marine sanctuaries, marine monuments, and national estuarine research reserves within the seaward boundaries of a an eligible coastal State, to

(ii) to the total square miles of all such sanctuaries, monuments, and reserves within the seaward boundaries of all eligible coastal States.

(2) TERRITORIES.—For purposes of paragraph (1), Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, and American Samoa shall be treated collectively as a single State.

(3) REALLOCATION.—If, at the end of any fiscal year, funds available for distribution under the program remain unexpended and unobligated, the Secretary may—

(A) carry such remaining funds forward for not more than 3 fiscal years; and

(B) reallocate any such remaining funds among eligible coastal States in accordance with the formula described in paragraph (1).

(d) LOCAL GOVERNMENT SHARE.—In awarding grants under the program, the Secretary shall ensure that not less than 20 percent of the funds made available to a State in each fiscal year pursuant to this title shall be made available to coastal local governments of such State to carry out eligible activities under section —03.

SEC. —03. ELIGIBLE USE OF FUNDS.

Grant funds under section —02 may only be used for—

(1) coastal management planning and implementation, as provided for under the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.);

(2) coastal and estuarine land protection, including the protection of the environmental integrity of important coastal and estuarine areas, including wetlands and forests, that have significant conservation, recreation, ecological, historical, or aesthetic values, or that are threatened by conversion from their natural, undeveloped, or recreational state to other uses;

(3) efforts to protect and manage living marine resources, including fisheries, research, management, and enhancement;

(4) programs and activities in coordination with the National Oceanic and Atmospheric Administration designed to improve or complement the management and mission of national marine sanctuaries, marine monuments, and national estuarine research reserves;

(5) mitigation, restoration, protection, and relocation of threatened native and rural coastal communities;

(6) mitigation of the effects of offshore activities, including environmental restoration;

(7) efforts to protect and restore coastal lands and wetlands, and to restore or prevent damage to wetlands in the coastal zone and coastal estuaries to lands, life, and property;

(8) long-range coastal and ocean research and education, and natural resource management; or

(9) regional multi-State management efforts designed to manage, protect, or restore the coastal zone and ocean resources.

SEC. —04. FISH AND WILDLIFE IMPROVEMENT GRANTS.

Within 6 months after the date of enactment of this Act, the Secretary, in consultation with the Secretary of the Interior, shall—

(1) establish by regulation a grant program to provide grants to States to manage, protect, and improve fish and wildlife habitat; and

(2) make 10 percent of the amounts available in the Fund for each fiscal year available for grants under the program.

(b) ELIGIBLE STATES.—To be eligible to participate in the grant program, a State shall submit an application to the Secretary at such time, in such form, and containing such information as the Secretary may require.

SEC. —05. ADMINISTRATION.

Except as otherwise expressly provided in this title, not more than 5 percent of the amounts available in the Fund for a fiscal year may be used by the Secretary for administrative expenses and for activities and programs related to the protection of coastal, fishery, and ocean resources.

SEC. —06. AUDITS.

The Secretary shall establish such rules regarding recordkeeping by State and local governments and the auditing of expenditures made by State and local governments from funds made available under this title as may be necessary. Such rules shall be in addition to other requirements established regarding recordkeeping and the auditing of such expenditures under other authority of law.

SEC. —07. DISPOSITION OF FUNDS.

Notwithstanding any other provision of this title, a coastal State or local government may use funds received under this title to make any payment that is eligible to be made with funds provided to States under section 35 of the Mineral Leasing Act (30 U.S.C. 191).

SEC. —08. DEFINITIONS.

In this title:

(1) COASTAL POPULATION.—The term ''coastal population'' means the population of all political subdivisions, as determined by the most recent official data of the Census Bureau, contained in whole or in part within the designated coastal boundary of a State as defined in a State's coastal zone management program under the Coastal Zone Management Act (16 U.S.C. 1451 et seq) as of the date of enactment of this Act.

(2) COASTAL STATE.—The term ''coastal State'' has the meaning given that term by section 304(4) of the Coastal Zone Management Act (16 U.S.C. 1453(4)).

(3) The term ''Fund'' means the Coastal and Ocean Assistance for States Fund established by section —01(a).

(4) LOCAL GOVERNMENT.—The term ''local government'' means a political subdivision all or part of which is within a coastal zone (as defined in section 304 of the Coastal Zone Management Act (16 U.S.C. 1453(1))) as of the date of enactment of this Act.

(5) SECRETARY.—The term ''Secretary'' means the Secretary of Commerce.

(6) STATE.—The term ''State'' means—

(A) each of the several States;

(B) the District of Columbia; and

(C) Puerto Rico, the Virgin Islands, Guam, the Northern Mariana Islands, and American Samoa.

(7) TIDAL SHORELINE.—The term ''tidal shoreline'' has the same meaning as when used in section 923.110(c)(2)(i) of title 15, Code of Federal Regulations, as that section is in effect as of the date of enactment of this Act.

TITLE ___—OCEAN POLICY TRUST FUND

SEC. —01. OCEAN POLICY TRUST FUND.

(a) IN GENERAL.—There is established in the Treasury of the United States a fund to be known as the Ocean Policy Trust Fund.

(b) CREDITS.—Beginning with fiscal year 2008, the Fund shall be credited with an amount equal to 5 percent of the amounts deposited in the Treasury of the United States under section 9 of the Outer Continental Shelf Lands Act (43 U.S.C. 1338).

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for each fiscal year—

(1) amounts in the aggregate not in excess of 95 percent of the amounts available in the Fund for that fiscal year for grants under this title; and

(2) such sums as may be necessary, not in excess of 5 percent of the amounts available in the Fund for that fiscal year, to the Secretary of Commerce for administrative expenses of managing the grant program established by section —03 of this title.

(d) REVERSION.—Unless otherwise provided in the grant terms, any grant funds that are not obligated nor expended at the end of the 2-year period beginning on the date on which the grant funds become available to the grantee shall be returned to the Fund.

SEC. —02. OCEAN POLICY TRUST FUND COUNCIL.

(a) MEMBERSHIP.—

(1) An Ocean Policy Trust Fund Council is established which shall consist of 12 members as follows:

(A) The Under Secretary of Commerce for Oceans and Atmosphere.

(B) The Assistant Administrator of the National Marine Fisheries Service.

(C) The Assistant Administrator of the National Ocean Service.

(D) An employee of the Department of the Interior with expertise in ocean resource management, to be designated by the Secretary of the Interior.

(E) 4 representatives of the oil and gas industry or the commercial fishing industry, to be appointed by the Secretary of Commerce, of whom—

(i) 1 shall be appointed to represent the East Coast, 1 shall be appointed to represent the Gulf of Mexico, 1 shall be appointed to represent the West Coast, and 1 shall be appointed to represent Alaska; and

(ii) at least 2 of whom shall represent the commercial fishing industry.

(F) 2 representatives of non-profit conservation organizations, appointed by the Secretary of Commerce.

(G) 2 representatives of academia with ocean science credentials, appointed by the Secretary of Commerce.

(b) APPOINTMENT AND TERMS.—

(1) Except as provided in paragraphs (2), (3), and (4), the term of office of a member of the Council appointed under subsection (a)(1)(E), (a)(1)(F), or (a)(1)(G) of this section is 3 years.

(2) Of the Council members first appointed under subsection (a)(1)(E) of this section, 1 shall be appointed for a term of 1 year and 1 shall be appointed for a term of 2 years.

(3) Of the Council members first appointed under subsection (a)(1)(F) of this section, 1 shall be appointed for a term of 2 years.

(4) Of the Council members first appointed under subsection (a)(1)(G) of this section, 1 shall be appointed for a term of 1 year and one shall be appointed for a term of 2 years.

(5) Whenever a vacancy occurs among members of the Council appointed under subparagraph (E), (F), or (G) of subsection (a)(1) of this section, the Secretary shall appoint an individual in accordance with that subparagraph to fill that vacancy for the remainder of the applicable term.

(c) CHAIRMAN.—The Council shall have a Chairman, who shall be elected by the Council from its members. The Chairman shall serve for a 3-year term, except that the first Chairman may be elected for a term of less than 3 years, as determined by the Council.

(d) QUORUM.—8 members of the Council shall constitute a quorum for the transaction of business.

(e) MEETINGS.—The Council shall meet at the call of the Chairman at least once per year. Council meetings shall be open to the public, and the Chairman shall take appropriate steps to provide adequate notice to the public of the time and place of such meetings. If a Council member appointed under subparagraph (E), (F), or (G) of subsection (a)(1) of this section misses 3 consecutively scheduled meetings, the Secretary may remove that individual in accordance with subsection (b)(5) of this section.

(f) COORDINATOR.—The Under Secretary shall appoint an individual, who shall serve at the pleasure of the Administrator—

(1) to be responsible, with assistance from the National Oceanic and Atmospheric Administration, for facilitating consideration of Fund grant applications by the Council and otherwise assisting the Council in carrying out its responsibilities; and

(2) who shall be compensated with the funds appropriated under section —01(c)(2) of this title.

(g) FUNCTIONS.—The Council shall—

(1) receive and review grant applications under section —03; and

(2) make recommendations to the Senate Appropriations Committee and the House of Representatives Appropriations Committee concerning—

(A) which grant requests should be funded;

(B) the amount of each such grant request that should be funded; and

(C) whether the Congress should impose any specific requirements, conditions, or limitations on a grant recommended for funding.

SEC. —03. OCEAN POLICY TRUST FUND GRANT PROGRAM.

(a) IN GENERAL.—There is established a grant program under which grants are to be funded, as provided by appropriations Acts, from amounts in the Fund. The grant program shall be administered by the Secretary, who shall establish applications, review, oversight, and financial accountability procedures and administer any funds appropriated under subsection (b).

(b) AWARD BY APPROPRIATION.—Grants under the program shall be awarded by appropriations Act on the basis of the Council's recommendations.

(c) APPLICATIONS.—A State or local government, nonprofit conservation organization, or other person seeking a grant from the Fund shall submit an application, in accordance with the procedures established by the Secretary under subsection (a), to the Council—

(1) containing such information and assurances as the Secretary may require;

(2) describing how the grant proceeds will be allocated among—

(A) ocean protection activities;

(B) coastal zone management activities;

(C) coastal and estuarine land protection;

(D) living marine resource activities;

(E) natural resource enhancements;

(F) mitigation of impacts from offshore activities;

(H) ocean literacy and education; and

(3) describing with specificity the purpose for which the grant will be used.

(d) ELIGIBLE PURPOSES.—A grant under the program may be used for—

(1) efforts to protect and manage living marine resources and their habitat, including fisheries, fisheries enforcement, research, management, and enhancement;

(2) programs and activities in coordination with the National Oceanic and Atmospheric Administration or the Department of Interior designed to improve or complement the management and mission of national marine sanctuaries, marine monuments and national estuarine research reserves;

(3) coastal management planning and implementation, as provided for under the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.);

(4) coastal and estuarine land protection and erosion control, including protection of the environmental integrity of important coastal and estuarine areas; and

(5) mitigation of the effects of offshore activities, including environmental restoration.

SEC. —04. DEFINITIONS.

In this title:

(1) COUNCIL.—The term ''Council'' means the Ocean Policy Trust Fund Council established by section —02.

(2) FUND.—The term ''Fund'' means the Ocean Policy Trust Fund established by section —01.

(3) SECRETARY.—Except where otherwise provided, the term ''Secretary'' means the Secretary of Commerce.

SA 1742. Mr. STEVENS submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency

and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. TREATMENT OF LIABILITY FOR CERTAIN MULTIPLE EMPLOYER PLANS.

(a) IN GENERAL.—In the case of an applicable pension plan—

(1) if an eligible employer elects the application of subsection (b), any liability of the employer with respect to the applicable pension plan shall be determined under subsection (b), and

(2) if an eligible employer does not make such election, any liability of the employer with respect to the applicable pension plan shall be determined under subsection (c).

(b) ELECTION TO SPIN OFF LIABILITY.—

(1) IN GENERAL.—If an eligible employer elects, within 180 days after the date of the enactment of this Act, to have this subsection apply, the applicable pension plan shall be treated as having, effective January 1, 2006, spun off such employer's allocable portion of the plan's assets and liabilities to an eligible spunoff plan and the employer's liability with respect to the applicable pension plan shall be determined by reference to the eligible spunoff plan in the manner provided under paragraph (2). The employer's liability, as so determined, shall be in lieu of any other liability to the Pension Benefit Guaranty Corporation or to the applicable pension plan with respect to the applicable pension plan.

(2) LIABILITY OF EMPLOYERS ELECTING SPINOFF.—

(A) ONGOING FUNDING LIABILITY.—

(i) IN GENERAL.—In the case of an eligible spunoff plan, the amendments made by section 401, and subtitles A and B of title I, of the Pension Protection Act of 2006 shall not apply to plan years beginning before the first plan year for which the plan ceases to be an eligible spunoff plan (or, if earlier, January 1, 2017), and except as provided in clause (ii), the employer maintaining such plan shall be liable for ongoing contributions to the eligible spunoff plan on the same terms and subject to the same conditions as under the provisions of the Employee Retirement Income Security Act of 1974 and the Internal Revenue Code of 1986 as in effect before such amendments. Such liability shall be in lieu of any other liability to the Pension Benefit Guaranty Corporation or to the applicable pension plan with respect to the applicable pension plan.

(ii) INTEREST RATE.—In applying section 302(b)(5)(B) of the Employee Retirement Income Security Act of 1974 and section 412(b)(5)(B) of the Internal Revenue Code of 1986 (as in effect before the amendments made by subtitles A and B of title I of the Pension Protection Act of 2006) and in applying section 4006(a)(3)(E)(iii) of such Act (as in effect before the amendments made by section 401 of such Act) to an eligible spunoff plan for plan years beginning after December 31, 2007, and before the first plan year to which such amendments apply, the third segment rate determined under section 303(h)(2)(C)(iii) of such Act and section 430(h)(2)(C)(iii) of such Code (as added by such amendments) shall be used in lieu of the interest rate otherwise used.

(B) TERMINATION LIABILITY.—If an eligible spunoff plan terminates under title IV of the Employee Retirement Income Security Act of 1974 on or before December 31, 2010, the liability of the employer maintaining such plan resulting from such termination under section 4062 of the Employee Retirement Income Security Act of 1974 shall be determined in accordance with the assumptions and methods described in subsection (c)(2)(A). The employer's liability, as so determined, shall be in lieu of any other liability to the Pension Benefit Guaranty Corporation or to the applicable pension plan with respect to the applicable pension plan.

(c) LIABILITY OF EMPLOYERS NOT ELECTING SPINOFF.—

(1) IN GENERAL.—If an applicable pension plan is terminated under the Employee Retirement Income Security Act of 1974, an eligible employer which does not make the election described in subsection (b) shall be liable to the corporation with respect to the applicable pension plan (in lieu of any other liability to the Pension Benefit Guaranty Corporation or to the applicable pension plan with respect to the applicable pension plan) in an amount equal to the fractional portion of the adjusted unfunded benefit liabilities of such plan as of December 31, 2005, determined without regard to any adjusted unfunded benefit liabilities to be transferred to an eligible spunoff plan pursuant to subsection (b).

(2) DEFINITIONS.—For purposes of this subsection—

(A) ADJUSTED UNFUNDED BENEFIT LIABILITIES.—The term ''adjusted unfunded benefit liabilities'' means the amount of unfunded benefit liabilities (as defined in section 4001(a)(18) of the Employee Retirement Income Security Act of 1974), except that the interest assumption shall be the rate of interest under section 302(b) of the Employee Retirement Income Security Act of 1974 and section 412(b) of the Internal Revenue Code of 1986, as in effect before the amendments made by the Pension Protection Act of 2006, for the most recent plan year for which such rate exists.

(B) FRACTIONAL PORTION.—The term ''fractional portion'' means a fraction, the numerator of which is the amount required to be contributed to the applicable pension plan for the 5 plan years ending before December 31, 2005, by such employer, and the denominator of which is the amount required to be contributed to such plan for such plan years by all employers which do not make the election described in subsection (b).

(d) OTHER DEFINITIONS.—For purposes of this section—

(1) APPLICABLE PENSION PLAN.—The term ''applicable pension plan'' means a single employer plan which—

(A) was established in the State of Alaska on March 18, 1967, and

(B) as of January 1, 2005, had 2 or more contributing sponsors at least 2 of which were not under common control.

(2) ALLOCABLE PORTION.—The term ''allocable portion'' means, with respect to any eligible employer making an election under subsection (b), the portion of an applicable pension plan's liabilities and assets which bears the same ratio to all such liabilities and assets as such employer's share (determined under subsection (c) as if no eligible employer made an election under subsection (b)) of the excess (if any) of—

(A) the liabilities of the plan, valued in accordance with subsection (c), over

(B) the assets of the plan,

bears to the total amount of such excess.

(3) ELIGIBLE EMPLOYER.—An ''eligible employer'' is an employer which participated in an eligible multiple employer plan on or after January 1, 2000.

SA 1743. Mr. STEVENS submitted an amendment intended to be proposed by him to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. TAX-EXEMPT TREATMENT OF CERTAIN BONDS ISSUED BY CERTAIN JOINT ACTION AGENCIES.

(a) IN GENERAL.—For purposes of the Internal Revenue Code of 1986, with respect to the issuance of any bond after the date of the enactment of this Act by any joint action agency described in subsection (b), if such bond satisfies the requirements of subsection (c) then—

(1) such bond shall be treated as issued by a political subdivision for purposes of section 103 of such Code, and

(2) the sale or transmission of power by such agency to its members shall not result in such bond being treated as a private activity bond under section 141 of such Code.

(b) AGENCY DESCRIBED.—An agency is described in this subsection if such agency is established under State law on December 1, 2000, or July 26, 2005, for the purpose of participating in the ownership, design, construction, operation, and maintenance of 1 or more generating or transmission facilities and has the powers and immunities of a public utility, and such agency's membership includes at least 1 municipal utility.

(c) BOND REQUIREMENTS.—A bond issued as part of an issue satisfies the requirements of this subsection if the aggregate face amount of the bonds issued pursuant to such issue, when added to the aggregate face amount of bonds previously issued pursuant to this section by all agencies described in subsection (b), does not exceed $1,000,000,000. An agency established under State law in 2005 shall not expend any portion of the final 25 percent of that portion available to such agency of the initial authorization of $1,000,000,000 without the approval of at least 80 percent of the agency's board of directors.

SA 1744. Mrs. BOXER submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of title VI, insert the following:

SEC. 611. INVESTIGATION OF GASOLINE PRICES.

(a) IN GENERAL.—Notwithstanding any other provision of law, if, based on weekly data published by the Energy Information Administration of the Department of Energy, the average weekly price of gasoline in a State or urban area increases 20 percent or more at least 3 times in any 3-month period, the Federal Trade Commission shall examine the causes and initiate an investigation, if

necessary, into the retail price of gasoline in that State to determine if the price of gasoline is being artificially manipulated by reducing refinery capacity or by any other form of manipulation.

(b) REPORT.—Not later than 30 days after the completion of the investigation described in subsection (a), the Federal Trade Commission shall report to Congress the results of the investigation.

(c) PUBLIC MEETING.—Not later than 14 days after issuing the report described in subsection (b), the Federal Trade Commission shall hold a public hearing in the State in which the retail price of gasoline was investigated as described in subsection (a) for the purpose of presenting the results of the investigation.

(d) ACTION ON PRICE INCREASE.—If the Federal Trade Commission determines that the increase in gasoline prices in a State is a result of market manipulation, the Federal Trade Commission shall, in cooperation with the Attorney General of that State, take appropriate action.

SA 1745. Mrs. HUTCHISON submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 59, after line 21, add the following:

SEC. 151. COMMISSION ON RENEWABLE ENERGY.

(a) ESTABLISHMENT.—There is established a commission to be known as the ''Commission on Renewable Energy'' (referred to in this section as the ''Commission'')—

(1) to advise Congress on—

(A) issues relating to renewable energy research and development; and

(B) policies relating to the expansion of the use of renewable energy in the energy markets of the United States; and

(2) to facilitate collaboration among Federal agencies relating to the execution of national renewable energy objectives.

(b) MEMBERSHIP.—

(1) COMPOSITION.—The Commission shall be composed of—

(A) the Secretary (or a designee);

(B) the Secretary of Agriculture (or a designee);

(C) the Secretary of Commerce (or a designee);

(D) the Administrator of the National Oceanic and Atmospheric Administration (or a designee);

(E) the Director of the National Science Foundation (or a designee);

(F) the Director of the Office of Science and Technology Policy (or a designee);

(G) the Director of the Office of Management and Budget (or a designee); and

(H) 7 representatives selected in accordance with paragraph (3), to be comprised of representatives of—

(i) national laboratories;

(ii) State laboratories;

(iii) industry;

(iv) trade groups; and

(v) State agencies.

(2) ELIGIBILITY OF DESIGNEES.—To serve as a member of the Commission, an individual designated to serve under subparagraphs (A) through (G) of paragraph (1) shall be of a position not lower than Assistant Secretary (or an equivalent position).

(3) REPRESENTATIVES.—

(A) SELECTION.—Not later than 60 days after the date of enactment of this Act, the Secretary, in accordance with subparagraph (B), and in consultation with each individual described in subparagraphs (A) through (G) of paragraph (1), shall select representatives from each group described in subparagraph (H) to serve as members of the Commission.

(B) QUALIFICATIONS.—A representative selected under subparagraph (A) shall be an individual who, by reason of professional background and experience, is specially qualified to serve as a member of the Commission.

(C) TERM.—A representative selected under subparagraph (A) shall serve for a term of 4 years.

(D) TREATMENT.—A representative selected under subparagraph (A) shall—

(i) serve without compensation; and

(ii) be considered an employee of the Federal Government in the performance of those services for the purposes of—

(I) chapter 81 of title 5, United States Code; and

(II) chapter 171 of title 28, United States Code.

(c) VACANCIES.—A vacancy on the Commission shall be filled in the same manner as the original appointment was made.

(d) MEETINGS.—

(1) IN GENERAL.—The Commission shall meet at the call of the Chairperson, but not less often than quarterly.

(2) FORM OF MEETINGS.—The Commission may meet in person or through electronic means.

(e) QUORUM.—A majority of the members of the Commission shall constitute a quorum, but a lesser number of members may hold hearings.

(f) CHAIRPERSON.—

(1) SELECTION.—

(A) IN GENERAL.—Subject to subparagraph (B), the Commission shall select a Chairperson—

(i) from among the members of the Commission; and

(ii) through a unanimous vote of approval.

(B) INITIAL SELECTION.—The Secretary shall select the initial Chairperson.

(2) TERM.—The Chairperson shall serve for a term of 6 years.

(g) DUTIES.—

(1) IN GENERAL.—The Commission shall—

(A) promote research and development of renewable energy, including—

(i) wind energy;

(ii) wave energy;

(iii) solar energy;

(iv) geothermal energy; and

(v) the production of biofuels (with particular emphasis on the production of biofuels based on cellulosic fuels);

(B) identify and recommend public and private research institutions to carry out that research and development; and

(C) in consultation with renewable energy experts regarding renewable energy policies, develop policy recommendations for Federal agencies.

(2) STUDIES.—Not later than 90 days after the date on which the Commission holds the initial meeting of the Commission, and every 4 years thereafter, the Chairperson of the Commission, acting through the Secretary, shall enter into an arrangement with the National Academy of Sciences under which the Academy shall conduct a study to assess, for the period covered by the study, issues relating to—

(A) any advancement made relating to renewable energy; and

(B) the adoption of each advancement described in subparagraph (A) into the energy markets of the United States.

(3) ANNUAL REPORT.—Not later than 1 year after the date on which the Commission holds the initial meeting of the Commission, and annually thereafter, the Commission shall submit to Congress a report that contains—

(A) a detailed statement describing each activity carried out by the Commission; and

(B) the recommendations of the Commission relating to the funding of research for the development of renewable energy by—

(i) the Federal Government;

(ii) the industrial sector of the United States; and

(iii) any other country.

(h) POWERS.—

(1) HEARINGS.—The Commission may hold such hearings, meet and act at such times and places, take such testimony, and receive such evidence as the Commission considers advisable to carry out this section.

(2) INFORMATION FROM FEDERAL AGENCIES.—

(A) IN GENERAL.—The Commission may secure directly from a Federal agency such information as the Commission considers necessary to carry out this section.

(B) PROVISION OF INFORMATION.—On request of the Chairperson of the Commission, the head of the agency shall provide the information to the Commission.

(C) CONFIDENTIALITY.—Any information provided by a Federal agency to the Commission under this paragraph shall be confidential commercial or financial information for the purposes of section 552(b)(4) of title 5, United States Code, if the Federal agency obtained the information from an entity other than a Federal agency.

(3) POSTAL SERVICES.—The Commission may use the United States mails in the same manner and under the same conditions as other agencies of the Federal Government.

(4) GIFTS.—

(A) IN GENERAL.—The Commission may accept, use, and dispose of gifts or donations of services or property.

(B) ANNUAL REPORT.—Not later than 1 year after the date on which the Commission holds the initial meeting of the Commission, and annually thereafter, the Commission shall submit to Congress a report that describes each gift received by each member of the Commission during the period covered by the report.

(i) DETAIL OF FEDERAL GOVERNMENT EMPLOYEES.—

(1) IN GENERAL.—An employee of the Federal Government may be detailed to the Commission without reimbursement.

(2) CIVIL SERVICE STATUS.—The detail of the employee shall be without interruption or loss of civil service status or privilege.

(j) BUDGET SUBMISSION.—The Secretary shall include the budget of the Commission in the annual budget submission of the Secretary to Congress.

(k) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this section.

(l) TERMINATION OF COMMISSION.—The Commission shall terminate on October 1, 2016.

SA 1746. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting

new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 161, between lines 2 and 3, insert the following:

SEC. 269. SMALL BUSINESS ENERGY EMERGENCY DISASTER LOAN PROGRAM.

(a) ENERGY DISASTER LOAN PROGRAM.—

(1) IN GENERAL.—Section 7(b) of the Small Business Act (15 U.S.C. 636(b)) is amended by inserting after paragraph (3) the following:

''(4) ENERGY EMERGENCIES.—

''(A) DEFINITIONS.—In this paragraph—

''(i) the term 'base price index' means the moving average of the closing unit price on the New York Mercantile Exchange for heating oil, natural gas, or propane for the 10 days, in each of the most recent 2 preceding years, which correspond to the trading days described in clause (ii);

''(ii) the term 'current price index' means the moving average of the closing unit price on the New York Mercantile Exchange, for the 10 most recent trading days, for contracts to purchase heating oil, natural gas, or propane during the subsequent calendar month, commonly known as the 'front month';

''(iii) the term 'heating fuel' means heating oil, natural gas, propane, or kerosene; and

''(iv) the term 'significant increase' means—

''(I) with respect to the price of heating oil, natural gas, or propane, any time the current price index exceeds the base price index by not less than 40 percent; and

''(II) with respect to the price of kerosene, any increase which the Administrator, in consultation with the Secretary of Energy, determines to be significant.

''(B) AUTHORIZATION.—The Administration may make such loans, either directly or in cooperation with banks or other lending institutions through agreements to participate on an immediate or deferred basis, to assist a small business concern that has suffered or that is likely to suffer substantial economic injury as the result of a significant increase in the price of heating fuel occurring on or after October 1, 2004.

''(C) INTEREST RATE.—Any loan or guarantee extended under this paragraph shall be made at the same interest rate as economic injury loans under paragraph (2).

''(D) MAXIMUM AMOUNT.—No loan may be made under this paragraph, either directly or in cooperation with banks or other lending institutions through agreements to participate on an immediate or deferred basis, if the total amount outstanding and committed to the borrower under this subsection would exceed $1,500,000, unless such borrower constitutes a major source of employment in its surrounding area, as determined by the Administrator, in which case the Administrator, in the discretion of the Administrator, may waive the $1,500,000 limitation.

''(E) DECLARATIONS.—For purposes of assistance under this paragraph—

''(i) a declaration of a disaster area based on conditions specified in this paragraph shall be required, and shall be made by the President or the Administrator; or

''(ii) if no declaration has been made under clause (i), the Governor of a State in which a significant increase in the price of heating fuel has occurred may certify to the Administration that small business concerns have suffered economic injury as a result of such increase and are in need of financial assistance which is not otherwise available on reasonable terms in that State, and upon receipt of such certification, the Administration may make such loans as would have been available under this paragraph if a disaster declaration had been issued.

''(F) USE OF FUNDS.—Notwithstanding any other provision of law, loans made under this paragraph may be used by a small business concern described in subparagraph (B) to convert from the use of heating fuel to a renewable or alternative energy source, including agriculture and urban waste, geothermal energy, cogeneration, solar energy, wind energy, or fuel cells.''.

(2) CONFORMING AMENDMENTS RELATING TO HEATING FUEL.—Section 3(k) of the Small Business Act (15 U.S.C. 632(k)) is amended—

(A) by inserting '', significant increase in the price of heating fuel'' after ''civil disorders''; and

(B) by inserting ''other'' before ''economic''.

(3) EFFECTIVE PERIOD.—The amendments made by this subsection shall apply during the 4-year period beginning on the date on which guidelines are published by the Administrator under subsection (b).

(b) GUIDELINES AND RULEMAKING.—

(1) GUIDELINES.—Not later than 30 days after the date of enactment of this Act, the Administrator shall issue such guidelines as the Administrator determines to be necessary to carry out this section and the amendments made by this section.

(2) RULEMAKING.—Not later than 30 days after the date of enactment of this Act, the Administrator, after consultation with the Secretary, shall promulgate regulations specifying the method for determining a significant increase in the price of kerosene under section 7(b)(4)(A)(iv)(II) of the Small Business Act, as added by this Act.

(c) REPORTS.—Not later than 12 months after the date on which the Administrator issues guidelines under subsection (b), and annually thereafter until the date that is 12 months after the end of the effective period of section 7(b)(4) of the Small Business Act, as added by this Act, the Administrator shall submit to the Committee on Small Business and Entrepreneurship of the Senate and the Committee on Small Business of the House of Representatives, a report on the effectiveness of the assistance made available under section 7(b)(4) of the Small Business Act, as added by this Act, including—

(1) the number of small business concerns that applied for a loan under such section and the number of those that received such loans;

(2) the dollar value of those loans;

(3) the States in which the small business concerns that received such loans are located;

(4) the type of heating fuel or energy that caused the significant increase in the cost for the participating small business concerns; and

(5) recommendations for ways to improve the assistance provided under such section 7(b)(4), if any.

(d) DEFINITIONS.—In this section—

(1) the term ''Administrator'' means the Administrator of the Small Business Administration; and

(2) the term ''small business concern'' has the meaning given that term in section 3 of the Small Business Act (15 U.S.C. 632).

SA 1747. Mr. COLEMAN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 59, after line 21, add the following:

SEC. 151. STUDY OF FEASIBILITY RELATING TO CONSTRUCTION OF PIPELINES AND CARBON DIOXIDE SEQUESTRATION FACILITIES.

(1) IN GENERAL.—The Secretary, in coordination with the Federal Energy Regulatory Commission, the Secretary of Transportation, the Administrator of the Environmental Protection Agency, and the Secretary of the Interior, shall conduct a study to assess the feasibility of the construction of—

(A) pipelines to be used for the transportation of carbon dioxide; and

(B) carbon dioxide sequestration facilities.

(2) SCOPE.—In conducting the study under paragraph (1), the Secretary shall consider—

(A) any barrier or potential barrier in existence as of the date of enactment of this Act, including any technical, siting, financing, or regulatory barrier, relating to—

(i) the construction of pipelines to be used for the transportation of carbon dioxide; or

(ii) the underground sequestration of carbon dioxide;

(B) any market risk (including throughput risk) relating to—

(i) the construction of pipelines to be used for the transportation of carbon dioxide; or

(ii) the underground sequestration of carbon dioxide;

(C) any regulatory, financing, or siting option that, as determined by the Secretary, would—

(i) mitigate any market risk described in subparagraph (B); or

(ii) help ensure the construction of pipelines dedicated to the transportation of carbon dioxide;

(D) the means by which to ensure the safe transportation of carbon dioxide;

(E) any preventive measure to ensure the integrity of pipelines to be used for the transportation of carbon dioxide; and

(F) any other appropriate issue, as determined by the Secretary.

(3) REPORT.—Not later than 180 days after the date of enactment of this Act, the Secretary shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives a report describing the results of the study.

(4) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $1,000,0000 for each of fiscal years 2008 and 2009.

SA 1748. Mr. ENZI submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in

clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. ADDITIONAL INCENTIVES FOR PRODUCTION OF WIND ENERGY.

(a) INCOME FROM WIND ENERGY TREATED AS QUALIFYING INCOME.—Paragraph (1) of section 7704(d) (relating to qualifying income) is amended by striking ''and'' at the end of subparagraph (F), by striking the period at the end fo subparagraph (G) and inserting '', and'', and by inserting after subparagraph (G) the following new subparagraph:

''(H) income and gains derived from the production of electricity from wind.''.

(b) EXCLUSION FROM LIMITATION ON PASSIVE ACTIVITY CREDITS.—Clause (i) of section 469(d)(2)(A) (relating to separate application of passive activity losses and credits in case of publicly traded partnerships) is amended by inserting ''(other than the portion of the credit under section 45(a) which is attributable to energy produced at a qualified facility described in section 45(d)(1))'' after ''subchapter A''.

(c) QUALIFIED NONRECOURSE FINANCING OF WIND ENERGY PROPERTY TREATED AS AT RISK.—

(1) IN GENERAL.—Subparagraphs (A) and (B) of section 465(b)(6) (relating to qualified nonrecourse financing treated as amount at risk) is amended by inserting ''or renewable energy property'' after ''real property'' each place it appears.

(2) RENEWABLE ENERGY PROPERTY.—Section 465(b) is amended by adding at the end the following new subparagraph:

''(C) RENEWABLE ENERGY PROPERTY.—For purposes of this paragraph, the term 'renewable energy property' means property held for the purpose of producing energy from wind.''.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after the date of the enactment of this Act.

SA 1749. Mr. BOND submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 117, between lines 15 and 16, insert the following:

SEC. 234. STANDARDS FOR SMALL-DUCT HIGH-VELOCITY AIR CONDITIONING AND HEAT PUMP SYSTEMS.

Section 325(d) of the Energy Policy and Conservation Act (42 U.S.C. 6295(d)) is amended—

(1) in paragraph (1), by adding at the end the following:

''(C) Small-Duct High-Velocity (SDHV) Systems: 11.00 for products manufactured on or after January 23, 2006.''; and

(2) in paragraph (2), by adding at the end the following:

''(C) Small-Duct High-Velocity (SDHV) Systems: 6.80 for products manufactured on or after January 23, 2006.''.

SA 1750. Mr. HATCH submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ___. FULL EXPENSING FOR QUALIFIED REFINERY PROPERTY.

(a) IN GENERAL.—Subsection (a) of section 179C (relating to election to expense certain refineries) is amended by striking ''50 percent of''.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to property placed in service after the date of the enactment of this Act.

SEC. ___. DENIAL OF DEDUCTION FOR PUNITIVE DAMAGES.

(a) DISALLOWANCE OF DEDUCTION.—

(1) IN GENERAL.—Section 162(g) (relating to treble damage payments under the antitrust laws) is amended—

(A) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively,

(B) by striking ''If'' and inserting:

''(1) TREBLE DAMAGES.—If'', and

(C) by adding at the end the following new paragraph:

''(2) PUNITIVE DAMAGES.—No deduction shall be allowed under this chapter for any amount paid or incurred for punitive damages in connection with any judgment in, or settlement of, any action. This paragraph shall not apply to punitive damages described in section 104(c).''.

(2) CONFORMING AMENDMENT.—The heading for section 162(g) is amended by inserting ''OR PUNITIVE DAMAGES'' after ''LAWS''.

(b) INCLUSION IN INCOME OF PUNITIVE DAMAGES PAID BY INSURER OR OTHERWISE.—

(1) IN GENERAL.—Part II of subchapter B of chapter 1 (relating to items specifically included in gross income) is amended by adding at the end the following new section:

''SEC. 91. PUNITIVE DAMAGES COMPENSATED BY INSURANCE OR OTHERWISE.

''Gross income shall include any amount paid to or on behalf of a taxpayer as insurance or otherwise by reason of the taxpayer's liability (or agreement) to pay punitive damages.''.

(2) REPORTING REQUIREMENTS.—Section 6041 (relating to information at source) is amended by adding at the end the following new subsection:

''(h) SECTION TO APPLY TO PUNITIVE DAMAGES COMPENSATION.—This section shall apply to payments by a person to or on behalf of another person as insurance or otherwise by reason of the other person's liability (or agreement) to pay punitive damages.''.

(3) CONFORMING AMENDMENT.—The table of sections for part II of subchapter B of chapter 1 is amended by adding at the end the following new item:

''Sec. 91. Punitive damages compensated by insurance or otherwise.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to damages paid or incurred on or after the date of the enactment of this Act.

SEC. _____. MODIFICATIONS TO WHISTLEBLOWER REFORMS.

(a) MODIFICATION OF TAX THRESHOLD FOR AWARDS.—Subparagraph (B) of section 7623(b)(5), as added by the Tax Relief and Health Care Act of 2006, is amended by striking ''$2,000,000'' and inserting ''$20,000''.

(b) WHISTLEBLOWER OFFICE.—

(1) IN GENERAL.—Section 7623 is amended by adding at the end the following new subsections:

''(c) WHISTLEBLOWER OFFICE.—

''(1) IN GENERAL.—There is established in the Internal Revenue Service an office to be known as the 'Whistleblower Office' which—

''(A) shall at all times operate at the direction of the Commissioner and coordinate and consult with other divisions in the Internal Revenue Service as directed by the Commissioner,

''(B) shall analyze information received from any individual described in subsection (b) and either investigate the matter itself or assign it to the appropriate Internal Revenue Service office,

''(C) shall monitor any action taken with respect to such matter,

''(D) shall inform such individual that it has accepted the individual's information for further review,

''(E) may require such individual and any legal representative of such individual to not disclose any information so provided,

''(F) in its sole discretion, may ask for additional assistance from such individual or any legal representative of such individual, and

''(G) shall determine the amount to be awarded to such individual under subsection (b).

''(2) FUNDING FOR OFFICE.—There is authorized to be appropriated $10,000,000 for each fiscal year for the Whistleblower Office. These funds shall be used to maintain the Whistleblower Office and also to reimburse other Internal Revenue Service offices for related costs, such as costs of investigation and collection.

''(3) REQUEST FOR ASSISTANCE.—

''(A) IN GENERAL.—Any assistance requested under paragraph (1)(F) shall be under the direction and control of the Whistleblower Office or the office assigned to investigate the matter under subparagraph (A). No individual or legal representative whose assistance is so requested may by reason of such request represent himself or herself as an employee of the Federal Government.

''(B) FUNDING OF ASSISTANCE.—From the amounts available for expenditure under subsection (b), the Whistleblower Office may, with the agreement of the individual described in subsection (b), reimburse the costs incurred by any legal representative of such individual in providing assistance described in subparagraph (A).

''(d) REPORTS.—The Secretary shall each year conduct a study and report to Congress on the use of this section, including—

''(1) an analysis of the use of this section during the preceding year and the results of such use, and

''(2) any legislative or administrative recommendations regarding the provisions of this section and its application.''.

(2) CONFORMING AMENDMENT.—Section 406 of division A of the Tax Relief and Health Care Act of 2006 is amended by striking subsections (b) and (c).

(3) REPORT ON IMPLEMENTATION.—Not later than 6 months after the date of the enactment of this Act, the Secretary of the Treasury shall submit to Congress a report on the establishment and operation of the Whistleblower Office under section 7623(c) of the Internal Revenue Code of 1986.

(c) PUBLICITY OF AWARD APPEALS.—Paragraph (4) of section 7623(b), as added by the Tax Relief and Health Care Act of 2006, is amended to read as follows:

''(4) APPEAL OF AWARD DETERMINATION.—

''(A) IN GENERAL.—Any determination regarding an award under paragraph (1), (2), or (3) may, within 30 days of such determination, be appealed to the Tax Court (and the Tax Court shall have jurisdiction with respect to such matter).

''(B) PUBLICITY OF APPEALS.—Notwithstanding sections 7458 and 7461, the Tax Court may, in order to preserve the anonymity, privacy, or confidentiality of any person under this subsection, provide by rules adopted under section 7453 that portions of filings, hearings, testimony, evidence, and reports in connection with proceedings under this subsection may be closed to the public or to inspection by the public.''.

(d) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply to information provided on or after the date of the enactment of this Act.

(2) PUBLICITY OF AWARD APPEALS.—The amendment made by subsection (c) shall take effect as if included in the amendments made by section 406 of the Tax Relief and Health Care Act of 2006.

SEC. ___. MODIFICATIONS OF DEFINITION OF EMPLOYEES COVERED BY DENIAL OF DEDUCTION FOR EXCESSIVE EMPLOYEE REMUNERATION.

(a) IN GENERAL.—Paragraph (3) of section 162(m) is amended to read as follows:

''(3) COVERED EMPLOYEE.—For purposes of this subsection, the term 'covered employee' means, with respect to any taxpayer for any taxable year, an individual who—

''(A) was the chief executive officer of the taxpayer, or an individual acting in such a capacity, at any time during the taxable year,

''(B) is 1 of the 4 highest compensated officers of the taxpayer for the taxable year (other than the individual described in subparagraph (A)), or

''(C) was a covered employee of the taxpayer (or any predecessor) for any preceding taxable year beginning after December 31, 2006.

''In the case of an individual who was a covered employee for any taxable year beginning after December 31, 2006, the term 'covered employee' shall include a beneficiary of such employee with respect to any remuneration for services performed by such employee as a covered employee (whether or not such services are performed during the taxable year in which the remuneration is paid).''.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after December 31, 2006.

SA 1751. Mr. CRAPO (for himself, Mr. CRAIG, and Mr. CONRAD) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ___. TAX-EXEMPT FINANCING OF CERTAIN ELECTRIC TRANSMISSION FACILITIES NOT SUBJECT TO PRIVATE BUSINESS USE TEST.

(a) IN GENERAL.—Section 141(b)(6) of the Internal Revenue Code of 1986 (defining private business use) is amended by adding at the end the following new subparagraph:

''(C) EXCEPTION FOR CERTAIN ELECTRIC TRANSMISSION FACILITIES.—For purposes of the 1st sentence of subparagraph (A), the operation or use of an electric transmission facility by any person which is not a governmental unit shall not be considered a private business use if—

''(i) the facility is placed in service on or after the date of the enactment of this subparagraph and is owned by—

''(I) a State or political subdivision of a State, or any agency, authority, or instrumentality of any of the foregoing providing electric service, directly or indirectly to the public, or

''(II) a State or political subdivision of a State expressly authorized under applicable State law effective on or after January 1, 2004, to finance and own electric transmission facilities, and

''(ii) bonds for such facility are issued before the date which is 5 years after the date of the enactment of this subparagraph.''.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to bonds issued after the date of the enactment of this Act.

SA 1752. Mr. GRASSLEY (for himself and Mr. BINGAMAN) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 42, after line 12, insert the following:

(d) PRIORITY FOR UNIVERSITY PARTNERSHIPS.—Subsection (d) of section 48B (relating to qualifying gasification project program) is amended by adding at the end the following new paragraph:

''(4) UNIVERSITY PARTNERSHIPS.—In determining which qualifying gasification projects to certify under this subsection, the Secretary may give priority to otherwise qualifying projects that also include collaborative research and education partnerships with universities in which—

''(A) the university has demonstrated active involvement in successful use of biomass fuels,

''(B) the project will provide electricity, synthetic gas, steam, heating, or cooling to the university from a facility with a nameplate generation capacity of at least 20 megawatts or equivalent,

''(C) the project will provide the opportunity for applied university research, demonstration, technical education, and certification in gasification technology and applications of the use of biomass fuel, and

''(D) the research associated with the project involves the goal of reducing greenhouse gas emissions.''.

SA 1753. Mr. DEMINT (for himself, Mr. CRAIG, Mr. GRAHAM, Mr. INHOFE, Mr. BURR, Ms. MURKOWSKI, and Mr. CRAPO) submitted an amendment intended to be proposed by him to the bill S. 1419, to move the United States toward greater energy independence and security, to increase the production of clean renewable fuels, to protect consumers from price gouging, to increase the energy efficiency of products, buildings and vehicles, to promote research on and deploy greenhouse gas capture and storage options, and to improve the energy performance of the Federal Government, and for other purposes; which was ordered to lie on the table, as follows:

At the end, add the following:

TITLE VIII—NUCLEAR WASTE ACCESS TO YUCCA

SEC. 801. SHORT TITLE.

This title may be cited as the ''Nuclear Waste Access to Yucca Act''.

SEC. 802. DEFINITIONS.

In this title:

(1) DISPOSAL.—The term ''disposal'' has the meaning given the term in section 2 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101).

(2) HIGH-LEVEL RADIOACTIVE WASTE.—The term ''high-level radioactive waste'' has the meaning given the term in section 2 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101).

(3) PROJECT.—The term ''Project'' means the Yucca Mountain Project.

(4) REPOSITORY.—The term ''repository'' has the meaning given the term in section 2 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101).

(5) SECRETARY.—The term ''Secretary'' means the Secretary of Energy.

(6) SPENT NUCLEAR FUEL.—The term ''spent nuclear fuel'' has the meaning given the term in section 2 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101).

(7) YUCCA MOUNTAIN SITE.—The term ''Yucca Mountain site'' has the meaning given the term in section 2 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101).

SEC. 803. WITHDRAWAL OF LAND.

(a) LAND WITHDRAWAL; JURISDICTION; RESERVATION; ACQUISITION.—

(1) LAND WITHDRAWAL.—Subject to valid existing rights, and except as otherwise provided in this title, the land described in subsection (b) is withdrawn permanently from any form of entry, appropriation, or disposal under the public land laws, including, without limitation—

(A) the mineral leasing laws;

(B) the geothermal leasing laws;
(C) materials sales laws; and
(D) the mining laws.

(2) JURISDICTION.—As of the date of enactment of this Act, any land described in subsection (b) that is under the jurisdiction of the Secretary of the Air Force or the Secretary of the Interior shall be—

(A) transferred to the Secretary; and
(B) under the jurisdiction of the Secretary.

(3) RESERVATION.—The land described in subsection (b) is reserved for use by the Secretary for activities associated with the disposal of high-level radioactive waste and spent nuclear fuel under the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101 et seq.), including—

(A) development;
(B) preconstruction testing and performance confirmation;
(C) licensing;
(D) construction;
(E) management and operation;
(F) monitoring;
(G) closure and post-closure; and
(H) other such activities associated with the disposal of high-level radioactive waste and spent nuclear fuel under the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101 et seq.).

(b) LAND DESCRIPTION.—

(1) BOUNDARIES.—The land referred to in subsection (a) is the approximately 147,000 acres of land located in Nye County, Nevada, as generally depicted on the map relating to the Project, numbered YMP–03–024.2, entitled ''Proposed Land Withdrawal'', and dated July 21, 2005.

(2) LEGAL DESCRIPTION AND MAP.—

(A) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary of the Interior shall—

(i) publish in the Federal Register a notice containing a legal description of the land described in this subsection; and

(ii) provide to Congress, the Governor of the State of Nevada, and the Archivist of the United States—

(I) a copy of the map referred to in paragraph (1); and

(II) the legal description of the land.

(B) TREATMENT.—

(i) IN GENERAL.—The map and legal description referred to in subparagraph (A) shall have the same force and effect as if the map and legal description were included in this title.

(ii) TECHNICAL CORRECTIONS.—The Secretary of the Interior may correct any clerical or typographical error in the map and legal description referred to in subparagraph (A).

(c) REVOCATIONS.—

(1) PUBLIC LAND ORDER.—Public Land Order 6802, dated September 25, 1990 (as extended by Public Land Order 7534), and any condition or memorandum of understanding accompanying the land order (as so extended), is revoked.

(2) RIGHT OF WAY.—The rights-of-way reservations relating to the Project, numbered N–48602 and N–47748 and dated January 5, 2001, are revoked.

(d) MANAGEMENT OF WITHDRAWN LAND.—

(1) IN GENERAL.—The Secretary, in consultation with the Secretary of the Air Force and the Secretary of the Interior, as appropriate, shall manage the land withdrawn under subsection (a)(1) in accordance with—

(A) the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.);
(B) this title; and
(C) other applicable laws.

(2) MANAGEMENT PLAN.—

(A) DEVELOPMENT.—Not later than 3 years after the date of enactment of this Act, the Secretary, in consultation with the Secretary of the Air Force and the Secretary of the Interior, as appropriate, shall develop and submit to Congress and the State of Nevada a management plan for the use of the land withdrawn under subsection (a)(1).

(B) PRIORITY.—Subject to subparagraphs (C), (D), and (E), use of the land withdrawn under subsection (a)(1) for an activity not relating to the Project shall be subject to such conditions and restrictions as the Secretary considers to be appropriate to facilitate activities relating to the Project.

(C) AIR FORCE USE.—The management plan may provide for the continued use by the Department of the Air Force of the portion of the land withdrawn under subsection (a)(1) located within the Nellis Air Force base test and training range under such terms and conditions as may be agreed to by the Secretary and the Secretary of the Air Force.

(D) NEVADA TEST SITE USE.—The management plan may provide for the continued use by the National Nuclear Security Administration of the portion of the land withdrawn under subsection (a)(1) located within the Nevada test site of the Administration under such conditions as the Secretary considers to be necessary to minimize any effect on activities relating to the Project or other activities of the Administration.

(E) OTHER USES.—

(i) IN GENERAL.—The management plan shall include provisions—

(I) relating to the maintenance of wildlife habitat on the land withdrawn under subsection (a)(1); and

(II) under which the Secretary may permit any use not relating to the Project, as the Secretary considers to be appropriate, in accordance with the requirements under clause (ii).

(ii) REQUIREMENTS.—

(I) GRAZING.—The Secretary may permit any grazing use to continue on the land withdrawn under subsection (a)(1) if the grazing use was established before the date of enactment of this Act, subject to such regulations, policies, and practices as the Secretary, in consultation with the Secretary of the Interior, determines to be appropriate, and in accordance with applicable grazing laws and policies, including—

(aa) the Act of June 28, 1934 (commonly known as the ''Taylor Grazing Act'') (43 U.S.C. 315 et seq.);

(bb) title IV of the Federal Land Policy Management Act of 1976 (43 U.S.C. 1751 et seq.); and

(cc) the Public Rangelands Improvement Act of 1978 (43 U.S.C. 1901 et seq.).

(II) HUNTING AND TRAPPING.—The Secretary may permit any hunting or trapping use to continue on the land withdrawn under subsection (a)(1) if the hunting or trapping use was established before the date of enactment of this Act, at such time and in such zones as the Secretary, in consultation with the Secretary of the Interior and the State of Nevada, may establish, taking into consideration public safety, national security, administration, and public use and enjoyment of the land.

(F) PUBLIC ACCESS.—

(i) IN GENERAL.—The management plan may provide for limited public access to the portion of the land withdrawn under subsection (a)(1) that was under the control of the Bureau of Land Management on the day before the date of enactment of this Act.

(ii) SPECIFIC USES.—The management plan may permit public uses of the land relating to the Nye County Early Warning Drilling Program, utility corridors, and other uses the Secretary, in consultation with the Secretary of the Interior, considers to be consistent with the purposes of the withdrawal under subsection (a)(1).

(3) MINING.—

(A) IN GENERAL.—Surface and subsurface mining and oil and gas production, including slant drilling from outside the boundaries of the land withdrawn under subsection (a)(1), shall be prohibited at any time on or under the land.

(B) EVALUATION OF CLAIMS.—The Secretary of the Interior shall evaluate and adjudicate the validity of any mining claim relating to any portion of the land withdrawn under subsection (a)(1) that was under the control of the Bureau of Land Management on the day before the date of enactment of this Act.

(C) COMPENSATION.—The Secretary shall provide just compensation for the acquisition of any valid property right relating to mining pursuant to the withdrawal under subsection (a)(1).

(4) CLOSURES.—If the Secretary, in consultation with the Secretary of the Air Force and the Secretary of the Interior, as appropriate, determines that the health and safety of the public or the national defense and security require the closure of a road, trail, or other portion of the land withdrawn under subsection (a)(1) (including the airspace above the land), the Secretary—

(A) may close the road, trail, or portion of land (including airspace); and

(B) shall provide to the public a notice of the closure.

(5) IMPLEMENTATION.—The Secretary and the Secretary of the Air Force or the Secretary of the Interior, as appropriate, shall implement the management plan developed under paragraph (2) under such terms and conditions as may be agreed to by the Secretaries.

SEC. 804. RECEIPT AND STORAGE FACILITIES.

Section 114(b) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10134(b)) is amended—

(1) by striking ''If the President'' and inserting the following:

''(1) IN GENERAL.—If the President''; and

(2) by adding at the end the following:

''(2) APPLICATION FOR RECEIPT AND STORAGE FACILITIES.—

''(A) IN GENERAL.—In conjunction with the submission of an application for a construction authorization under this subsection, the Secretary shall apply to the Commission for a license in accordance with part 72 of title 10, Code of Federal Regulations (or a successor regulation), to construct and operate facilities to receive and store spent nuclear fuel and high-level radioactive waste at the Yucca Mountain site.

''(B) DEADLINE FOR FINAL DECISION BY COMMISSION.—The Commission shall issue a final decision approving or disapproving the issuance of the license not later than 18 months after the date of submission of the application to the Commission.''.

SEC. 805. REPEAL OF CAPACITY LIMITATION.

Section 114(d) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10134(d)) is amended by striking the second and third sentences.

SEC. 806. INFRASTRUCTURE ACTIVITIES.

Section 114 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10134) is amended by adding at the end the following:

''(g) INFRASTRUCTURE ACTIVITIES.—

''(1) CONSTRUCTION OF CONNECTED FACILITIES.—At any time after the completion by the Secretary of a final environmental impact statement that evaluates the activities to be performed under this subsection, the

Secretary may commence the following activities in connection with any activity or facility licensed or to be licensed by the Commission at the Yucca Mountain site:

''(A) Preparation of the site for construction of the facility (including such activities as clearing, grading, and construction of temporary access roads and borrow areas).

''(B) Installation of temporary construction support facilities (including such items as warehouse and shop facilities, utilities, concrete mixing plants, docking and unloading facilities, and construction support buildings).

''(C) Excavation for facility structures.

''(D) Construction of service facilities (including such facilities as roadways, paving, railroad spurs, fencing, exterior utility and lighting systems, transmission lines, and sanitary sewerage treatment facilities).

''(E) Construction of structures, systems, and components that do not prevent or mitigate the consequences of possible accidents that could cause undue risk to the health and safety of the public.

''(F) Installation of structural foundations (including any necessary subsurface preparation) for structures, systems, and components that prevent or mitigate the consequences of possible accidents that could cause undue risk to the health and safety of the public.

''(2) AUTHORIZATION TO RECEIVE AND STORE.—

''(A) DEFINITIONS.—In this paragraph:

''(i) DEFENSE WASTE.—The term 'defense waste' means high-level radioactive waste, and spent nuclear fuel, that results from an atomic energy defense activity.

''(ii) LEGACY SPENT NUCLEAR FUEL.—The term 'legacy spent nuclear fuel' means spent nuclear fuel—

''(I) that is subject to a contract entered into pursuant to section 302; and

''(II) for which the Secretary determines that there is not at the time of the determination, and will not be within a reasonable time after the determination, sufficient domestic capacity available to recycle the spent nuclear fuel.

''(B) AUTHORIZATION FOR DEFENSE WASTE.—At any time after the issuance of a license for receipt and storage facilities under subsection (b)(2), the Secretary may transport defense waste to receipt and storage facilities at the Yucca Mountain site.

''(C) AUTHORIZATION FOR LEGACY SPENT NUCLEAR FUEL.—At any time after the issuance of a construction authorization under subsection (d) and the issuance of a license for receipt and storage facilities under subsection (b)(2), the Secretary may receive and store legacy spent nuclear fuel and high-level radioactive waste at the Yucca Mountain site.''.

SEC. 807. RAIL LINE.

(a) CONSTRUCTION OF RAIL LINE.—The Secretary shall acquire rights-of-way within the corridor designated in subsection (b) in accordance with this section, and shall construct and operate, or cause to be constructed and operated, a railroad and such facilities as are required to transport spent nuclear fuel and high-level radioactive waste from existing rail systems to the site of surface facilities within the geologic repository operations area for the receipt, handling, packaging, and storage of spent nuclear fuel and high-level radioactive waste prior to emplacement.

(b) ACQUISITION AND WITHDRAWAL OF LAND.—

(1) ROUTE DESIGNATION AND ACQUISITION.—

(A) RIGHTS-OF-WAY AND FACILITIES.—The Secretary shall acquire such rights-of-way and develop such facilities within the corridor referred to as ''X'' on the map dated [_____] and on file with the Secretary as are necessary to carry out subsection (a).

(B) RECOMMENDATIONS.—The Secretary shall consider specific alignment proposals for the route for the corridor made by the State of Nevada and the units of local government within whose jurisdiction the route is proposed to pass.

(C) NOTICE AND DESCRIPTION.—Not later than 180 days after the date of enactment of this Act, the Secretary shall—

(i) publish in the Federal Register a notice containing a legal description of the corridor; and

(ii) file copies of the map referred to in paragraph (1) and the legal description of the corridor with—

(I) Congress;

(II) the Secretary of the Interior;

(III) the Governor of the State of Nevada;

(IV) the Board of County Commissioners of Lincoln County, Nevada;

(V) the Board of County Commissioners of Nye County, Nevada; and

(VI) the Archivist of the United States.

(D) ADMINISTRATION.—

(i) EFFECT.—The map and legal description referred to in subparagraph (C) shall have the same force and effect as if the map and legal description were included in this title.

(ii) CORRECTIONS.—The Secretary may correct clerical and typographical errors in the map and legal description and make minor adjustments in the boundaries of the corridor.

(2) WITHDRAWAL AND RESERVATION.—

(A) PUBLIC LAND.—Subject to valid existing rights, the public land depicted on the map referred to in paragraph (1)(C) is withdrawn from all forms of entry, appropriation, and disposal under the public land laws, including the mineral leasing laws, the geothermal laws, the material sale laws, and the mining laws.

(B) ADMINISTRATIVE JURISDICTION.—Administrative jurisdiction over the land is transferred from the Secretary of the Interior to the Secretary.

(C) RESERVATION.—The land is reserved for the use of the Secretary for the construction and operation of transportation facilities and associated activities under title I of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10121 et seq.)

(D) MEMORANDUM OF UNDERSTANDING.—The Secretary may also enter into a memorandum of understanding with the head of any other agency having administrative jurisdiction over other Federal land used for purposes of the corridor referred to in paragraph (1)(A).

(c) ENVIRONMENTAL IMPACT.—

(1) IN GENERAL.—The Secretary shall comply with all applicable requirements under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to activities carried out under this section.

(2) CONSIDERATION OF POTENTIAL IMPACTS.—To the extent a Federal agency is required to consider the potential environmental impact of an activity carried out under this section, the Federal agency shall adopt, to the maximum extent practicable, an environmental impact statement prepared under this section.

(3) EFFECT OF ADOPTION OF STATEMENT.—The adoption by a Federal agency of an environmental impact statement under paragraph (2) shall be considered to satisfy the responsibilities of the Federal agency under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), and no further consideration under that Act shall be required by the Federal agency.

SEC. 808. NEW PLANT CONTRACTS.

Section 302(a) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10222(a)) is amended by striking paragraph (5) and inserting the following:

''(5) REQUIRED PROVISIONS.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), any contract entered into under this section shall provide that—

''(i) following issuance of a license to construct and operate facilities to receive and store spent nuclear fuel at the Yucca Mountain site, the Secretary shall take title to the high-level radioactive waste or spent nuclear fuel involved as expeditiously as practicable upon the request of the generator or owner of such waste or spent fuel; and

''(ii) in return for the payment of fees established by this section, the Secretary, beginning not later than January 31, 1998, shall dispose of the high-level radioactive waste or spent nuclear fuel involved as provided in this subtitle.

''(B) EXCEPTION.—Notwithstanding subparagraph (A), with respect to a nuclear power facility for which a license application is filed with the Commission after January 1, 2008, under section 103 or 104 of the Atomic Energy Act of 1954 (42 U.S.C. 2133, 2134), a contract entered into under this section shall—

''(i) except as provided in clause (ii) and any terms and conditions relating to spent nuclear fuel generated before the date of enactment of the Nuclear Fuel Management and Disposal Act, be consistent with the terms and conditions of the contract entitled 'Contract for Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste' that is included in section 961.11 of title 10 of the Code of Federal Regulations (as in effect on the date of enactment of the Nuclear Fuel Management and Disposal Act);

''(ii) provide for the taking of title to, and removal of, high-level waste or spent nuclear fuel beginning not later than 30 years after the date on which the nuclear power facility begins commercial operations; and

''(iii) be entered into not later than 60 days after the date on which the license application is docketed by the Commission.''.

SEC. 809. NUCLEAR WASTE FUND.

(a) BUDGET ACT ALLOCATIONS.—Effective for fiscal year 2008 and each fiscal year thereafter, funds appropriated from the Nuclear Waste Fund established under section 302 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10222) shall not be subject to—

(1) the allocations for discretionary spending under section 302(a) of the Congressional Budget Act of 1974 (2 U.S.C. 633(a)); or

(2) the suballocations of appropriations committees under section 302(b) of that Act.

(b) FUND USES.—Section 302(d)(4) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10222(d)(4)) is amended by striking ''with'' and all that follows through ''storage site'' and inserting ''with surface facilities within the geologic repository operations area (including surface facilities for the receipt, handling, packaging, and storage of spent nuclear fuel and high-level radioactive waste prior to emplacement, or transportation to the repository of spent nuclear fuel or high-level radioactive waste to surface facilities for the receipt, handling, packaging, and storage of spent nuclear fuel and high-level radioactive waste prior to emplacement and the transportation, treating, or packaging of spent nuclear fuel or high-level radioactive waste to be disposed of in the repository, to be stored in a monitored retrievable storage site),''.

SEC. 810. WASTE CONFIDENCE.

For purposes of a determination by the Nuclear Regulatory Commission on whether to grant or amend any license to operate any civilian nuclear power reactor or high-level radioactive waste or spent fuel storage or treatment facility under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.), the provisions of this title (including the amendments made by this title) and the obligation of the Secretary to develop a repository in accordance with the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101 et seq.), shall provide sufficient and independent grounds for any further findings by the Nuclear Regulatory Commission of reasonable assurances that spent nuclear fuel and high-level radioactive waste would be disposed of safely and in a timely manner.

SA 1754. Mr. DEMINT submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of title I, add the following:

Subtitle D—Boutique Fuel Reduction

SEC. 161. SHORT TITLE.

This subtitle may be cited as the ''Boutique Fuel Reduction Act of 2007''.

SEC. 162. REDUCTION IN NUMBER OF BOUTIQUE FUELS.

Section 211(c)(4)(C) of the Clean Air Act (42 U.S.C. 7545(c)(4)(C)) is amended—

(1) in clause (ii)(II), by inserting ''an unexpected problem with distribution or delivery equipment that is necessary for the transportation or delivery of fuel or fuel additives,'' after ''equipment failure,'';

(2) by redesignating the second clause (v) (relating to the authority of the Administrator to approve certain State implementation plans) as clause (vi); and

(3) in clause (vi) (as redesignated by paragraph (2))—

(A) in subclause (I), by striking ''fuels approved under'' and all that follows through the end of the subclause and inserting ''fuels included on the list published under subclause (II) (including any revisions to the list under subclause (III)).'';

(B) by striking subclause (III) and inserting the following:

''(III) REMOVAL OF FUELS FROM LIST.—

''(aa) IN GENERAL.—The Administrator, after providing notice and an opportunity for comment, shall remove a fuel from the list published under subclause (II) if the Administrator determines that the fuel has ceased to be included in any State implementation plan or is identical to a Federal fuel control or prohibition established and enforced the Administrator.

''(bb) PUBLICATION OF REVISED LIST.—On removing a fuel from the list under item (aa), the Administrator shall publish a revised list that reflects that removal.''; and

(C) by striking subclause (IV) and inserting the following:

''(IV) NO LIMITATION ON AUTHORITY.—Nothing in subclause (I) or (V) limits the authority of the Administrator to approve a control or prohibition relating to any new fuel under this paragraph in a State implementation plan (or a revision to such a plan), if—

''(aa) the new fuel completely replaces a fuel on the list published under subclause (II) (including any revisions to the list under subclause (III));

''(bb) the new fuel does not increase the total number of fuels contained on the list (including any revisions to the list); or

''(cc) the Administrator, in consultation with the Secretary of Energy, publishes in the Federal Register, after providing notice and an opportunity for public comment, a determination that the control or prohibition will not any cause fuel supply or distribution interruption or have any significant adverse impact on fuel producibility in the affected area or any contiguous area.''.

SEC. 163. COMPLETION OF HARMONIZATION STUDY.

Section 1509(b) of the Energy Policy Act of 2005 (Public Law 109–58; 119 Stat. 1084) is amended by striking paragraph (1) and inserting the following:

''(1) IN GENERAL.—The Administrator of the Environmental Protection Agency and the Secretary shall submit to Congress a report on the results of the study conducted under subsection (a) by not later than the earlier of—

''(A) the date that is 270 days after the date of enactment of this subparagraph; and

''(B) June 1, 2008.''.

SA 1755. Mr. DEMINT submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 281, after line 22, insert the following:

(d) SUSPENSION OF GASOLINE EXCISE TAX.—If the President declares a Federal energy emergency under subsection (a), the tax imposed under section 4081(a) of the Internal Revenue Code of 1986 shall be suspended during the period specified pursuant to subsection (b)(1) in the geographic area specified pursuant to subsection (b)(3).

SA 1756. Mr. DEMINT submitted an amendment intended to be proposed by him to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 279, between lines 19 and 20, insert the following:

SEC. 603A. SUSPENSION OF DAVIS-BACON REQUIREMENTS DURING ENERGY EMERGENCY.

Notwithstanding subchapter IV of chapter 31 of title 40, United States Code (commonly referred to as the Davis-Bacon Act), the President shall suspend the provisions of such subchapter during any energy emergency declared by the President under section 606 for the area or region to which the energy emergency applies.

SA 1757. Mr. DEMINT submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 283, between lines 20 and 21, insert the following:

(d) REIMBURSEMENT OF COURT COSTS.—If the Federal Trade Commission brings an enforcement action against a person or business entity under this section and the defendant is not found to have violated this title, the court shall order the Commission to reimburse the defendant for all costs associated with defending against the enforcement action.

On page 286, between lines 8 and 9, insert the following:

(h) REIMBURSEMENT OF COURT COSTS.—If a State brings an enforcement action against a person or business entity under this section and the defendant is not found to have violated this title, the court shall order the State to reimburse the defendant for all costs associated with defending against the enforcement action.

SA 1758. Mr. DEMINT submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title I, add the following:

SEC. 131. ENERGY EFFICIENCY RESIDENTIAL GUARANTEES.

Section 1703 of the Energy Policy Act of 2005 (42 U.S.C. 16513) (as amended by section 124(a)) is amended—

(1) in subsection (b), by adding at the end the following:

''(11) Energy efficiency residential financing guarantees provided under subsection (g).''; and

(2) by adding at the end the following:

''(g) ENERGY EFFICIENCY RESIDENTIAL GUARANTEES.—

''(1) IN GENERAL.—Subject to the availability of funds appropriated in advance, the Secretary shall make guarantees under this section for single and multifamily mortgage bonds and related financing for energy efficiency purposes.

''(2) PURPOSES.—The Secretary shall make a guarantee under this subsection only for—

''(A) bonds and related financing issued by State housing and energy agencies; or

''(B) debt financing for energy efficiency measures in new or existing housing supported by Federal financial assistance programs under which energy efficiency projects are approved jointly by State housing finance and energy agencies.

''(3) CRITERIA.—Not later than 90 days after the date of enactment of this subsection, the Secretary (in consultation with State housing finance, energy, weatherization and public utility commissioners) shall promulgate regulations establishing criteria for energy efficiency projects eligible for guarantees under this subsection.

''(4) ADMINISTRATION.—Subsections (a)(2) and (d) shall not apply to a guarantee made under this subsection.''.

SA 1759. Mr. WYDEN (for himself, Ms. LANDRIEU, and Mr. SALAZAR) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 192, after line 21, add the following:

SEC. 305. ASSESSMENT OF CARBON SEQUESTRATION AND METHANE AND NITROUS OXIDE EMISSIONS FROM TERRESTRIAL ECOSYSTEMS.

(a) DEFINITIONS.—In this section:

(1) ADAPTATION STRATEGY.—The term ''adaptation strategy'' means a land use and management strategy that can be used to increase the sequestration capabilities of any terrestrial ecosystem.

(2) ASSESSMENT.—The term ''assessment'' means the national assessment authorized under subsection (b).

(3) COVERED GREENHOUSE GAS.—The term ''covered greenhouse gas'' means carbon dioxide, nitrous oxide, and methane gas.

(4) NATIVE PLANT SPECIES.—The term ''native plant species'' means any noninvasive, naturally occurring plant species within a terrestrial ecosystem.

(5) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

(6) TERRESTRIAL ECOSYSTEM.—

(A) IN GENERAL.—The term ''terrestrial ecosystem'' means any ecological and surficial geological system on public land.

(B) INCLUSIONS.—The term ''terrestrial ecosystem'' includes—

(i) forest land;

(ii) grassland; and

(iii) freshwater aquatic ecosystems.

(b) AUTHORIZATION OF ASSESSMENT.—Not later than 2 years after the date on which the final methodology is published under subsection (f)(3)(D), the Secretary shall complete a national assessment of—

(1) the quantity of carbon stored in and released from terrestrial ecosystems; and

(2) the annual flux of covered greenhouse gases in and out of terrestrial ecosystems.

(c) COMPONENTS.—In conducting the assessment under subsection (b), the Secretary shall—

(1) determine the processes that control the flux of covered greenhouse gases in and out of each terrestrial ecosystem;

(2) estimate the technical and economic potential for increasing carbon sequestration in natural and managed terrestrial ecosystems through management activities or restoration activities in each terrestrial ecosystem;

(3) develop near-term and long-term adaptation strategies or mitigation strategies that can be employed—

(A) to enhance the sequestration of carbon in each terrestrial ecosystem;

(B) to reduce emissions of covered greenhouse gases; and

(C) to adapt to climate change; and

(4) estimate annual carbon sequestration capacity of terrestrial ecosystems under a range of policies in support of management activities to optimize sequestration.

(d) USE OF NATIVE PLANT SPECIES.—In developing restoration activities under subsection (c)(2) and management strategies and adaptation strategies under subsection (c)(3), the Secretary shall emphasize the use of native plant species (including mixtures of many native plant species) for sequestering covered greenhouse gas in each terrestrial ecosystem.

(e) CONSULTATION.—In conducting the assessment under subsection (b) and developing the methodology under subsection (f), the Secretary shall consult with—

(1) the Secretary of Energy;

(2) the Secretary of Agriculture;

(3) the Administrator of the Environmental Protection Agency;

(4) the heads of other relevant agencies;

(5) consortia based at institutions of higher education and with research corporations; and

(6) forest and grassland managers.

(f) METHODOLOGY.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall develop a methodology for conducting the assessment.

(2) REQUIREMENTS.—The methodology developed under paragraph (1)—

(A) shall—

(i) determine the method for measuring, monitoring, quantifying, and monetizing covered greenhouse gas emissions and reductions, including methods for allocating and managing offsets or credits; and

(ii) estimate the total capacity of each terrestrial ecosystem to—

(I) sequester carbon; and

(II) reduce emissions of covered greenhouse gases; and

(B) may employ economic and other systems models, analyses, and estimations, to be developed in consultation with each of the individuals described in subsection (e).

(3) EXTERNAL REVIEW AND PUBLICATION.—On completion of a proposed methodology, the Secretary shall—

(A) publish the proposed methodology;

(B) at least 60 days before the date on which the final methodology is published, solicit comments from—

(i) the public; and

(ii) heads of affected Federal and State agencies;

(C) establish a panel to review the proposed methodology published under subparagraph (A) and any comments received under subparagraph (B), to be composed of members—

(i) with expertise in the matters described in subsections (c) and (d); and

(ii) that are, as appropriate, representatives of Federal agencies, institutions of higher education, nongovernmental organizations, State organizations, industry, and international organizations; and

(D) on completion of the review under subparagraph (C), publish in the Federal register the revised final methodology.

(g) ESTIMATE; REVIEW.—The Secretary shall—

(1) based on the assessment, prescribe the data, information, and analysis needed to establish a scientifically sound estimate of—

(A) the carbon sequestration capacity of relevant terrestrial ecosystems;

(B) a national inventory of covered greenhouse gas sources that is consistent with the inventory prepared by the Environmental Protection Agency entitled the ''Inventory of U.S. Greenhouse Gas Emissions and Sinks: 1990-2005''; and

(C) the willingness of covered greenhouse gas emitters to pay to sequester the covered greenhouse gases emitted by the applicable emitters in designated terrestrial ecosystems; and

(2) not later than 180 days after the date on which the assessment is completed, submit to the heads of applicable Federal agencies and the appropriate committees of Congress a report that describes the results of the assessment.

(h) DATA AND REPORT AVAILABILITY.—On completion of the assessment, the Secretary shall incorporate the results of the assessment into a web-accessible database for public use.

(i) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $5,000,000 for each of the 3 years following the date of enactment of this Act.

SA 1760. Mr. BINGAMAN (for himself, Mrs. BOXER, and Mr. REID) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 10, between lines 8 and 9, insert the following:

(8) LIFECYCLE GREENHOUSE GAS EMISSIONS.—The term ''lifecycle greenhouse gas emissions'' means the aggregate quantity of greenhouse gases attributable to the production, transportation, and use of renewable fuel, including the production, extraction, cultivation, distribution, marketing, and transportation of feedstocks, as modified by deducting, as determined by the Administrator of the Environmental Protection Agency—

(A) any greenhouse gases captured at the facility and sequestered; and

(B) the carbon content, expressed in units of carbon dioxide equivalent, of any feedstock that is renewable biomass.

SA 1761. Mr. CARDIN (for himself and Mr. SANDERS) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency

and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ___. STUDY OF INCREASED CONSUMPTION OF ETHANOL-BLENDED GASOLINE WITH HIGHER LEVELS OF ETHANOL.

(a) IN GENERAL.—The Administrator of the Environmental Protection Agency (referred to in this section as the ''Administrator''), in cooperation with the Secretary, the Secretary of Agriculture, and the Secretary of Transportation, and after providing notice and an opportunity for public comment, shall conduct a study of the feasibility of increasing consumption in the United States of ethanol-blended gasoline with levels of ethanol of not less than 10 percent.

(b) STUDY.—The study under subsection (a) shall include—

(1) a review of production and infrastructure constraints on increasing the consumption of ethanol;

(2) an evaluation of the economic, market, and energy impacts of State and regional differences in ethanol blends;

(3) an evaluation of the economic, market, and energy impacts on gasoline retailers and consumers of separate and distinctly-labeled fuel storage facilities and dispensers;

(4) an evaluation on the environmental impacts of mid-level ethanol blends on evaporative and exhaust emissions from on-road, off-road and marine engines, recreational boats, vehicles, and equipment;

(5) an evaluation of the impacts of mid-level ethanol blends on the operation, durability, and performance of onroad, off-road, and marine engines, recreational boats, vehicles, and equipment; and

(6) an evaluation of the safety impacts of mid-level ethanol blends on consumers that own and operate off-road and marine engines, recreational boats, vehicles, or equipment.

(c) REPORT.—Not later than 2 years after the date of enactment of this Act, the Administrator shall submit to Congress a report describing the results of the study conducted under this section.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Administrator to carry out the study under this section $1,000,000.

SEC. ___. WAIVER OF REQUIREMENTS FOR NEW FUELS AND FUEL ADDITIVES.

Section 211(f)(4) of the Clean Air Act (42 U.S.C. 7545(f)(4)) is amended by striking the last sentence and inserting the following: ''After providing notice and opportunity for comment, the Administrator shall approve or deny an application submitted under this paragraph not later than 270 days after the date of the receipt of the application.''.

SA 1762. Mr. VOINOVICH submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 39, strike line 12 and all that follows through page 42, line 8, and insert the following:

(b) IMPROVEMENTS TO UNDERLYING LOAN GUARANTEE AUTHORITY.—

(1) DEFINITION OF COMMERCIAL TECHNOLOGY.—Section 1701(1) of the Energy Policy Act of 2005 (42 U.S.C. 16511(1)) is amended by striking subparagraph (B) and inserting the following:

''(B) EXCLUSION.—The term 'commercial technology' does not include a technology if the sole use of the technology is in connection with—

''(i) a demonstration plant; or

''(ii) a project for which the Secretary approved a loan guarantee.''.

(2) SPECIFIC APPROPRIATION OR CONTRIBUTION.—Section 1702 of the Energy Policy Act of 2005 (42 U.S.C. 16512) is amended by striking subsection (b) and inserting the following:

''(b) SPECIFIC APPROPRIATION OR CONTRIBUTION.—

''(1) IN GENERAL.—No guarantee shall be made unless—

''(A) an appropriation for the cost has been made; or

''(B) the Secretary has received from the borrower a payment in full for the cost of the obligation and deposited the payment into the Treasury.

''(2) LIMITATION.—The source of payments received from a borrower under paragraph (1)(B) shall not be a loan or other debt obligation that is made or guaranteed by the Federal Government.

''(3) RELATION TO OTHER LAWS.—Section 504(b) of the Federal Credit Reform Act of 1990 (2 U.S.C. 661c(b)) shall not apply to a loan or loan guarantee made in accordance with paragraph (1)(B).''.

(3) AMOUNT.—Section 1702 of the Energy Policy Act of 2005 (42 U.S.C. 16512) is amended by striking subsection (c) and inserting the following:

''(c) AMOUNT.—

''(1) IN GENERAL.—Subject to paragraphs (2) and (3), upon the request of the borrower, the Secretary shall guarantee 100 percent of the principal and interest due on 1 or more loans for a facility that are the subject of the guarantee, on the condition that the Secretary has—

''(A) received from the borrower a payment in full for the cost of the obligation; and

''(B) deposited the payment in the Treasury.

''(2) LIMITATION ON AMOUNT.—The total amount of loans guaranteed for a facility by the Secretary shall not exceed 80 percent of the total cost of the facility, as estimated at the time at which the guarantee is issued.

''(3) APPROVAL OF APPLICATIONS.—

''(A) DEADLINE.—The Secretary shall approve or disapprove an application for a guarantee not later than 1 year after the date of receipt of the application.

''(B) REPORT.—The Secretary shall submit to Congress an annual report on the approval or disapproval of all loan guarantee applications that includes—

''(i) the reasons for each approval and disapproval; and

''(ii) an evaluation and recommendation by the Secretary for the termination of authority for each eligible project category described in section 1703(b).''.

(4) SUBROGATION.—Section 1702(g)(2) of the Energy Policy Act of 2005 (42 U.S.C. 16512(g)(2)) is amended—

(A) by striking subparagraph (B); and

(B) by redesignating subparagraph (C) as subparagraph (B).

(5) FEES.—Section 1702(h) of the Energy Policy Act of 2005 (42 U.S.C. 16512(h)) is amended by striking paragraph (2) and inserting the following:

''(2) AVAILABILITY.—Fees collected under this subsection shall—

''(A) be deposited by the Secretary in a special fund in the Treasury to be known as the 'Incentives For Innovative Technologies Fund'; and

''(B) remain available to the Secretary for expenditure, without further appropriation or fiscal year limitation, for administrative expenses incurred in carrying out this title.''.

At the end, add the following:

TITLE VIII—COLLABORATIVE PERMITTING PROCESS FOR DOMESTIC FUELS FACILITIES

SEC. 801. DEFINITIONS.

In this title:

(1) ADMINISTRATOR.—The term ''Administrator'' means the Administrator of the Environmental Protection Agency.

(2) DOMESTIC FUELS FACILITY.—

(A) IN GENERAL.—The term ''domestic fuels facility'' means a facility at which crude oil is refined into transportation fuel or other petroleum products.

(B) INCLUSION.—The term ''domestic fuels facility'' includes a domestic fuels facility expansion.

(3) DOMESTIC FUELS FACILITY EXPANSION.—The term ''domestic fuels facility expansion'' means a physical change in a domestic fuels facility that results in an increase in the capacity of the domestic fuels facility.

(4) DOMESTIC FUELS FACILITY PERMITTING AGREEMENT.—The term ''domestic fuels facility permitting agreement'' means an agreement entered into between the Administrator and a State or Indian tribe under subsection (b).

(5) DOMESTIC FUELS PRODUCER.—The term ''domestic fuels producer'' means an individual or entity that—

(A) owns or operates a domestic fuels facility; or

(B) seeks to become an owner or operator of a domestic fuels facility.

(6) INDIAN TRIBE.—The term ''Indian tribe'' has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

(7) PERMIT.—The term ''permit'' means any permit, license, approval, variance, or other form of authorization that a refiner is required to obtain—

(A) under any Federal law; or

(B) from a State or Indian tribal government agency delegated with authority by the Federal Government, or authorized under Federal law to issue permits.

(8) STATE.—The term ''State'' means—

(A) a State;

(B) the District of Columbia;

(C) the Commonwealth of Puerto Rico; and

(D) any other territory or possession of the United States.

SEC. 802. COLLABORATIVE PERMITTING PROCESS FOR DOMESTIC FUELS FACILITIES.

(a) IN GENERAL.—At the request of the Governor of a State or the governing body of an Indian tribe, the Administrator shall enter into a domestic fuels facility permitting agreement with the State or Indian tribe under which the process for obtaining all permits necessary for the construction and operation of a domestic fuels facility shall be improved using a systematic interdisciplinary multimedia approach as provided in this section.

(b) AUTHORITY OF ADMINISTRATOR.—Under a domestic fuels facility permitting agreement—

(1) the Administrator shall have authority, as applicable and necessary, to—

(A) accept from a refiner a consolidated application for all permits that the domestic fuels producer is required to obtain to construct and operate a domestic fuels facility;

(B) establish a schedule under which each Federal, State, or Indian tribal government agency that is required to make any determination to authorize the issuance of a permit shall—

(i) concurrently consider, to the maximum extent practicable, each determination to be made; and

(ii) complete each step in the permitting process; and

(C) issue a consolidated permit that combines all permits that the domestic fuels producer is required to obtain; and

(2) the Administrator shall provide to State and Indian tribal government agencies—

(A) financial assistance in such amounts as the agencies reasonably require to hire such additional personnel as are necessary to enable the government agencies to comply with the applicable schedule established under paragraph (1)(B); and

(B) technical, legal, and other assistance in complying with the domestic fuels facility permitting agreement.

(c) AGREEMENT BY THE STATE.—Under a domestic fuels facility permitting agreement, a State or governing body of an Indian tribe shall agree that—

(1) the Administrator shall have each of the authorities described in subsection (b); and

(2) each State or Indian tribal government agency shall—

(A) make such structural and operational changes in the agencies as are necessary to enable the agencies to carry out consolidated project-wide permit reviews concurrently and in coordination with the Environmental Protection Agency and other Federal agencies; and

(B) comply, to the maximum extent practicable, with the applicable schedule established under subsection (b)(1)(B).

(d) INTERDISCIPLINARY APPROACH.—

(1) IN GENERAL.—The Administrator and a State or governing body of an Indian tribe shall incorporate an interdisciplinary approach, to the maximum extent practicable, in the development, review, and approval of domestic fuels facility permits subject to this section.

(2) OPTIONS.—Among other options, the interdisciplinary approach may include use of—

(A) environmental management practices; and

(B) third party contractors.

(e) DEADLINES.—

(1) NEW DOMESTIC FUELS FACILITIES.—In the case of a consolidated permit for the construction of a new domestic fuels facility, the Administrator and the State or governing body of an Indian tribe shall approve or disapprove the consolidated permit not later than—

(A) 360 days after the date of the receipt of the administratively complete application for the consolidated permit; or

(B) on agreement of the applicant, the Administrator, and the State or governing body of the Indian tribe, 90 days after the expiration of the deadline established under subparagraph (A).

(2) EXPANSION OF EXISTING DOMESTIC FUELS FACILITIES.—In the case of a consolidated permit for the expansion of an existing domestic fuels facility, the Administrator and the State or governing body of an Indian tribe shall approve or disapprove the consolidated permit not later than—

(A) 120 days after the date of the receipt of the administratively complete application for the consolidated permit; or

(B) on agreement of the applicant, the Administrator, and the State or governing body of the Indian tribe, 30 days after the expiration of the deadline established under subparagraph (A).

(f) FEDERAL AGENCIES.—Each Federal agency that is required to make any determination to authorize the issuance of a permit shall comply with the applicable schedule established under subsection (b)(1)(B).

(g) JUDICIAL REVIEW.—Any civil action for review of any determination of any Federal, State, or Indian tribal government agency in a permitting process conducted under a domestic fuels facility permitting agreement brought by any individual or entity shall be brought exclusively in the United States district court for the district in which the domestic fuels facility is located or proposed to be located.

(h) EFFICIENT PERMIT REVIEW.—In order to reduce the duplication of procedures, the Administrator shall use State permitting and monitoring procedures to satisfy substantially equivalent Federal requirements under this section.

(i) SEVERABILITY.—If 1 or more permits that are required for the construction or operation of a domestic fuels facility are not approved on or before any deadline established under subsection (e), the Administrator may issue a consolidated permit that combines all other permits that the domestic fuels producer is required to obtain other than any permits that are not approved.

(j) SAVINGS.—Nothing in this section affects the operation or implementation of otherwise applicable law regarding permits necessary for the construction and operation of a domestic fuels facility.

(k) CONSULTATION WITH LOCAL GOVERNMENTS.—Congress encourages the Administrator, States, and tribal governments to consult, to the maximum extent practicable, with local governments in carrying out this section.

(l) EFFECT ON LOCAL AUTHORITY.—Nothing in this section affects—

(1) the authority of a local government with respect to the issuance of permits; or

(2) any requirement or ordinance of a local government (such as zoning regulations).

At the appropriate place, insert the following:

Subtitle __—Energy Trust Fund

SEC. __. EXPANSION OF ELECTION TO EXPENSE CERTAIN REFINERIES.

(a) FULL EXPENSING.—Section 179C(a) of the Internal Revenue Code of 1986 (relating to treatment as expenses) is amended by striking ''50 percent of''.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to property placed in service after the date of the enactment of this Act.

SEC. __. LIMITATION ON PERCENTAGE DEPLETION.

(a) IN GENERAL.—Section 613A of the Internal Revenue Code of 1986 is amended by adding at the end the following new subsection:

''(f) LIMITATION ON AGGREGATE AMOUNT OF DEPLETION.—In the case of any oil or gas well, the allowance for depletion allowed under section 613 shall not exceed the basis of the taxpayer in such property.''.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after the date of the enactment of this Act.

SEC. __. TERMINATION OF DEDUCTION FOR INTANGIBLE DRILLING AND DEVELOPMENT COSTS.

(a) IN GENERAL.—Section 263(c) of the Internal Revenue Code of 1986 is amended by adding at the end the following new sentence: ''This subsection shall not apply to any taxable year beginning after the date of the enactment of this sentence.''.

(b) CONFORMING AMENDMENTS.—Paragraphs (2) and (3) of section 291(b) of such Code are each amended by striking ''section 263(c), 616(a),'' and inserting ''section 616(a)''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after the date of the enactment of this Act.

SEC. __. DEDICATION OF RESULTING REVENUES TO THE ENERGY TRUST FUND.

(a) IN GENERAL.—Subchapter A of chapter 98 of the Internal Revenue Code of 1986 (relating to trust fund code) is amended by adding at the end the following new section:

''SEC. 9511. ENERGY TRUST FUND.

''(a) ESTABLISHMENT.—There is established in the Treasury of the United States a trust fund to be known as the 'Energy Trust Fund', consisting of such amounts as may be appropriated or credited to such Fund as provided in this section or section 9602(b).

''(b) TRANSFERS TO TRUST.—There are hereby appropriated to the Energy Trust Fund amounts equivalent to the revenues resulting from the amendments made by subtitle __ of the Renewable Fuels, Consumer Protection, and Energy Efficiency Act of 2007.

''(c) EXPENDITURES.—Amounts in the Energy Trust Fund shall be available, as provided in appropriation Acts, only for the purpose of making expenditures—

''(1) to accelerate the use of clean domestic renewable energy resources (including solar, wind, clean coal, and nuclear) and alternative fuels (including ethanol, including cellulosic ethanol, biodiesel, and fuel cell technology);

''(2) to promote the utilization of energy-efficient products and practices and conservation; and

''(3) to increase research, development, and deployment of clean renewable energy and efficiency technologies.''.

(b) CLERICAL AMENDMENT.—The table of sections for such subchapter is amended by adding at the end the following new item:

''Sec. 9511. Energy Trust Fund.''.

SA 1763. Mr. HARKIN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

''This Act shall not affect the jurisdiction of the Commodity Futures Trading Commission with respect to transactions or conduct subject to the Commodity Exchange Act (7 U.S.C. 1, et seq.).''

SA 1764. Mr. AKAKA (for himself, Ms. MURKOWSKI, Ms. SNOWE, Mr. SMITH, Ms.

CANTWELL, and Mr. WYDEN) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of title II, add the following:

Subtitle G—Marine and Hydrokinetic Renewable Energy Promotion

SEC. 281. DEFINITION OF MARINE AND HYDROKINETIC RENEWABLE ENERGY.

(a) IN GENERAL.—In this subtitle, the term ''marine and hydrokinetic renewable energy'' means electrical energy from—

(1) waves, tides, and currents in oceans, estuaries, and tidal areas;

(2) free flowing water in rivers, lakes, and streams;

(3) free flowing water in man-made channels, including projects that utilize nonmechanical structures to accelerate the flow of water for electric power production purposes; and

(4) differentials in ocean temperature (ocean thermal energy conversion).

(b) EXCLUSION.—Except as provided in subsection (a)(3), the term ''marine and hydrokinetic renewable energy'' does not include energy from any source that uses a dam, diversionary structure, or impoundment for electric power purposes.

SEC. 282. RESEARCH AND DEVELOPMENT.

(a) PROGRAM.—The Secretary, in consultation with the Secretary of Commerce and the Secretary of the Interior, shall establish a program of marine and hydrokinetic renewable energy research, including—

(1) developing and demonstrating marine and hydrokinetic renewable energy technologies;

(2) reducing the manufacturing and operation costs of marine and hydrokinetic renewable energy technologies;

(3) increasing the reliability and survivability of marine and hydrokinetic renewable energy facilities;

(4) integrating marine and hydrokinetic renewable energy into electric grids;

(5) identifying opportunities for cross fertilization and development of economies of scale between offshore wind and marine and hydrokinetic renewable energy sources;

(6) identifying, in conjunction with the Secretary of Commerce and the Secretary of the Interior, the potential environmental impacts of marine and hydrokinetic renewable energy technologies and measures to minimize or prevent adverse impacts, and technologies and other means available for monitoring and determining environmental impacts;

(7) identifying, in conjunction with the Commandant of the United States Coast Guard, the potential navigational impacts of marine and hydrokinetic renewable energy technologies and measures to minimize or prevent adverse impacts;

(8) standards development, demonstration, and technology transfer for advanced systems engineering and system integration methods to identify critical interfaces; and

(9) providing public information and opportunity for public comment concerning all technologies.

(b) REPORT.—Not later than 18 months after the date of enactment of this Act, the Secretary, in consultation with the Secretary of Commerce and the Secretary of the Interior, shall provide to the appropriate committees of Congress a report that addresses—

(1) the potential environmental impacts of hydrokinetic renewable energy technologies in free-flowing water in rivers, lakes, and streams;

(2) the means by which to minimize or prevent any adverse environmental impacts;

(3) the potential role of monitoring and adaptive management in addressing any adverse environmental impacts; and

(4) the necessary components of such an adaptive management program.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this section $50,000,000 for each of the fiscal years 2008 through 2017.

SEC. 283. NATIONAL OCEAN ENERGY RESEARCH CENTERS.

(a) IN GENERAL.—Subject to the availability of appropriations under subsection (e), the Secretary shall establish not less than 1, and not more than 6, national ocean energy research centers at institutions of higher education for the purpose of conducting research, development, demonstration, and testing of ocean energy technologies and associated equipment.

(b) EVALUATIONS.—Each Center shall (in consultation with developers, utilities, and manufacturers) conduct evaluations of technologies and equipment described in subsection (a).

(c) LOCATION.—In establishing centers under this section, the Secretary shall locate the centers in coastal regions of the United State in a manner that, to the maximum extent practicable, is geographically dispersed.

(d) REVIEW BY SECRETARY.—Prior to carrying out any activity under this section in waters subject to the jurisdiction of the United States, the Secretary of Commerce may require design approval or operating conditions of the activity for the protection of marine resources under the jurisdiction of the Department of Commerce.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriate such sums as are necessary to carry out this section.

SA 1765. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 245, between lines 13 and 14, insert the following:

(d) MINIMUM FUEL ECONOMY TARGET.—Section 32902(b) of title 49, United States Code, as amended by this section, is further amended by adding at the end the following:

''(3) MINIMUM FUEL ECONOMY TARGET FOR PASSENGER AUTOMOBILES MANUFACTURED IN THE UNITED STATES.—

''(A) IN GENERAL.—Notwithstanding any other provision of this section, for any model year in which the Secretary prescribes average fuel economy standards for automobiles on the basis of vehicle attributes pursuant to subjection (l), the average fuel economy standard in that model year shall also provide for an alternative minimum standard that shall apply to a manufacturer's domestically manufactured passenger automobiles and foreign manufactured passenger automobiles, as calculated under section 32904 (as in effect on the day before the date of the enactment of the Ten-in-Ten Fuel Economy Act).

''(B) ALTERNATIVE MINIMUM STANDARD.—The alternative minimum standard referred to in subparagraph (A) shall be the greater of—

''(i) 27.5 miles per gallon; or

''(ii) 92 percent of the average fuel economy projected by the Secretary for the combined domestic and foreign passenger car fleets manufactured for sale in the United States by all manufacturers in that model year, which projection shall be published in the Federal Register when the standard for that model year is promulgated in accordance with this section.''.

(e) CREDIT TRADING LIMITATION.—Section 32903(e) of title 49, United States Code, as amended by section 506, is further amended by adding at the end the following: ''Any credit trading program established by the Secretary of Transportation may not allow manufacturers to use any such credits to meet the alternative minimum fuel economy standard for domestically manufactured and foreign manufactured passenger automobiles established pursuant to section 32902(b)(3).''.

SA 1766. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 245, between lines 13 and 14, insert the following:

(d) MINIMUM FUEL ECONOMY TARGET.—Section 32902(b) of title 49, United States Code, as amended by this section, is further amended by adding at the end the following:

''(3) MINIMUM FUEL ECONOMY TARGET FOR PASSENGER AUTOMOBILES MANUFACTURED IN THE UNITED STATES.—

''(A) IN GENERAL.—Notwithstanding any other provision of this section, for any model year in which the Secretary prescribes average fuel economy standards for automobiles on the basis of vehicle attributes pursuant to subjection (l), the average fuel economy standard in that model year shall also provide for an alternative minimum standard that shall apply separately to a manufacturer's domestically manufactured passenger automobiles and foreign manufactured passenger automobiles, as calculated under section 32904 (as in effect on the day before the date of the enactment of the Ten-in-Ten Fuel Economy Act).

''(B) ALTERNATIVE MINIMUM STANDARD.—The alternative minimum standard referred to in subparagraph (A) shall be the greater of—

''(i) 27.5 miles per gallon; or

''(ii) 92 percent of the average fuel economy projected by the Secretary for the combined domestic and foreign passenger car fleets manufactured for sale in the United States by all manufacturers in that model year, which projection shall be published in the Federal Register when the standard for that model year is promulgated in accordance with this section.''.

(e) CREDIT TRADING LIMITATION.—Section 32903(e) of title 49, United States Code, as amended by section 506, is further amended by adding at the end the following: ''Any credit trading program established by the Secretary of Transportation may not allow manufacturers to use any such credits to meet the alternative minimum fuel economy standard for domestically manufactured and foreign manufactured passenger automobiles established pursuant to section 32902(b)(3).''.

SA 1767. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 6, strike lines 19 and 20 and insert the following:

biofuel'' means fuel derived from—

(i) renewable biomass, other than corn starch, grown in the United States; or

(ii) renewable biomass, other than corn starch, grown outside the United States, on the condition that the fuel, or renewable biomass used in the fuel, whichever is imported, is certified by the importer, refiner, or blender as having been grown, produced, and transported in a manner consistent with standards equivalent to or more stringent than those established under environmental, labor, and public health laws of the United States, including laws relating to the conversion of forests, grassland, and wetland for agricultural use or other biomass production.

SA 1768. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle A of title I, add the following:

SEC. 1___. ANNUAL REPORTS.

For each calendar year beginning after the date of enactment of this Act, the President shall submit to Congress a report that describes, with respect to the preceding calendar year—

(1) the quantity of—

(A) renewable fuels imported into the United States;

(B) feedstocks imported into the United States to produce renewable fuels; and

(C) renewable fuels and feedstocks that are used to achieve compliance with applicable renewable fuels standards and other requirements under this title; and

(2) the impact on the environment, labor conditions, and public health status of foreign countries with respect to production in the United States of renewable fuels to achieve compliance with those standards and requirements.

SA 1769. Mr. BROWN (for himself and Mr. CARPER) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle E of title II, add the following:

SEC. 2___. FEDERAL FLEET FUEL EFFICIENT VEHICLES.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATOR.—The term ''Administrator'' means the Administrator of General Services.

(2) ADVANCED TECHNOLOGY VEHICLE.—The term ''advanced technology vehicle'' means a light duty vehicle that meets—

(A) the Bin 5 Tier II emission standard established in regulations issued by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act (42 U.S.C. 7521(i)), or a lower-numbered Bin emission standard;

(B) any new emission standard for fine particulate matter prescribed by the Administrator under that Act (42 U.S.C. 7401 et seq.); and

(C) at least 125 percent of the average base year combined fuel economy, calculated on an energy-equivalent basis, for vehicles of a substantially similar footprint.

(3) SECRETARY.—The term ''Secretary'' means the Secretary of Energy.

(b) FUEL EFFICIENCY REQUIREMENT.—The Secretary shall coordinate with the Administrator to ensure that vehicles procured by Federal agencies are the most fuel efficient in their class.

(c) PURCHASE OF ADVANCED TECHNOLOGY VEHICLES.—

(1) IN GENERAL.—The Secretary shall coordinate with the Administrator to ensure that, of the vehicles procured after September 30, 2008—

(A) not less than 5 percent of the total number of the vehicles procured in each of fiscal years 2009 and 2010 are advanced technology vehicles;

(B) not less than 15 percent shall be advanced technology vehicles by January 1, 2015; and

(C) not less than 25 percent shall be advanced technology vehicles by January 1, 2020.

(2) WAIVER.—The Secretary, in consultation with the Administrator, may waive the requirements of paragraph (1) for any fiscal year to the extent that the Secretary determines necessary to adjust to limitations on the commercial availability of advanced technology vehicles.

(d) REPORT ON PLANS FOR IMPLEMENTATION.—At the same time that the President submits the budget for fiscal year 2009 to Congress under section 1105(a) of title 31, United States Code, the Secretary shall submit to Congress a report summarizing the plans for carrying out subsections (b) and (c).

SA 1770. Mr. DURBIN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of title V, insert the following;

''(D) EFFECTIVE RULEMAKING.—The prescription of average fuel economy standards under this paragraph shall be made without regard to—

''(i) chapter 35 of title 44, United States Code (commonly known as the 'Paperwork Reduction Act');

SA 1771. Mr. DURBIN (for himself, Mr. GRASSLEY, Mr. CARPER, Mr. COLEMAN, Mr. OBAMA, Ms. KLOBUCHAR, and Mr. LUGAR) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 47, after line 23, add the following:

SEC. 131. BIODIESEL FUEL STANDARD.

(a) IN GENERAL.—Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended by inserting after subsection (o) the following:

''(p) BIODIESEL FUEL.—

''(1) DEFINITIONS.—In this subsection:

''(A) ASTM.—The term 'ASTM' means the American Society of Testing and Materials.

''(B) BIO-BASED DIESEL REPLACEMENT.—The term 'bio-based diesel replacement' means any type of bio-based renewable fuel derived from plant or animal matter that—

''(i) may be used as a substitute for standard diesel fuel; and

''(ii) meets—

''(I) the registration requirements for fuels and fuel additives under this section; and

''(II) the requirements of applicable ASTM standards.

''(C) BIODIESEL.—

''(i) IN GENERAL.—The term 'biodiesel' means the monoalkyl esters of long chain fatty acids derived from plant or animal matter that meet—

''(I) the registration requirements for fuels and fuel additives under this section; and

''(II) the requirements of ASTM standard D6751.

''(ii) INCLUSION.—For the purpose of measuring the applicable volume of the biodiesel fuel standard under paragraph (2), the term

'biodiesel' includes any bio-based diesel replacement that meets—

''(I) applicable registration requirements for fuels and fuel additives under this section; or

''(II) applicable ASTM standards.

''(D) BIODIESEL BLEND.—The term 'biodiesel blend' means a blend of biodiesel fuel that meets the requirements of ASTM standard D6751 with petroleum-based diesel fuel.

''(2) BIODIESEL FUEL STANDARD.—

''(A) IN GENERAL.—Not later than 1 year after the date of enactment of this subsection, the Administrator shall promulgate regulations to ensure that diesel fuel sold or introduced into commerce in the United States, on an annual average basis, contains the applicable volume of biodiesel determined in accordance with subparagraphs (B) and (C).

''(B) CALENDAR YEARS 2008 THROUGH 2012.—For the purpose of subparagraph (A), the applicable volume for any of calendar years 2008 through 2012 shall be determined in accordance with the following table:

Calendar year:	"Applicable volume of biodiesel (in millions of gallons):
2008	450
2009	625
2010	800
2011	1,000
2012	1,250

''(C) CALENDAR YEAR 2013 AND THEREAFTER.—For the purpose of subparagraph (A), the applicable volume for calendar year 2013 and each calendar year thereafter shall be determined by the Administrator, in consultation with the Secretary of Energy and the Secretary of Agriculture, based on a review of the implementation of the program during calendar years 2008 through 2012, including a review of—

''(i) the impact of the use of renewable fuels on the environment, air quality, energy security, job creation, and rural economic development; and

''(ii) the expected annual rate of future production of biodiesel.

''(D) MINIMUM PERCENTAGE OF BIODIESEL.—For the purpose of subparagraph (B), at least 80 percent of the minimum applicable volume for each of calendar years 2008 through 2012 shall be biodiesel.

''(E) COMPLIANCE.—The regulations promulgated under subparagraph (A) shall contain compliance provisions applicable to refineries, blenders, distributors, and importers, as appropriate, to ensure that the requirements of this paragraph are met, but shall not—

''(i) restrict geographic areas in which biodiesel may be used; or

''(ii) impose any per-gallon obligation for the use of biodiesel.

''(F) WAIVERS.—

''(i) MARKET EVALUATION.—The Administrator, in consultation with the Secretary of Energy and the Secretary of Agriculture, shall continually evaluate the impact of the biodiesel requirements established under this paragraph on the price of diesel fuel.

''(ii) WAIVER.—If the Administrator determines that there is a significant biodiesel feedstock disruption or other market circumstances that would make the price of biodiesel fuel unreasonable, the Administrator, with the concurrence of the Secretary of Energy and the Secretary of Agriculture, shall issue an order to reduce, for a 60-day period, the quantity of biodiesel required under subparagraph (A) by an appropriate quantity that does not exceed 15 percent of the applicable annual requirement for biodiesel.

''(iii) FACTORS.—In making determinations under this subparagraph, the Administrator shall consider—

''(I) the purposes of this Act;

''(II) the differential between the price of diesel fuel and the price of biodiesel; and

''(III) the impact the biodiesel mandate has on consumers.

''(iv) EXTENSIONS.—If the Administrator determines that the feedstock disruption or circumstances described in clause (ii) is continuing beyond the 60-day period described in clause (ii) or this clause, the Administrator, with the concurrence of the Secretary of Energy and the Secretary of Agriculture, may issue an order to reduce, for an additional 60-day period, the quantity of biodiesel required under subparagraph (A) by an appropriate quantity that does not exceed an additional 15 percent of the applicable annual requirement for biodiesel.

''(v) RESTORATION.—If the Administrator determines that the feedstock disruption or circumstances described in clause (ii) or (iv) has concluded and that it is practicable, the Administrator, with the concurrence of the Secretary of Energy and the Secretary of Agriculture, may issue an order to increase the quantity of biodiesel required under subparagraph (A) by an appropriate quantity to account for the gallons of biodiesel not used during the period a waiver or extension was in effect under this subparagraph.

''(G) PREEMPTION OF STATE BIODIESEL MANDATES.—

''(i) IN GENERAL.—The standard established under subparagraph (A) shall not apply to any diesel fuel subject to a State biodiesel mandate that has been enacted as of January 1, 2007.

''(ii) PRODUCTION AND USE OF BIODIESEL AND BIO-BASED RENEWABLE DIESEL.—Subject to clause (iii), no State or unit of local government shall establish or continue to enforce a mandate that requires the level of production or use of biodiesel or bio-based diesel replacement to exceed the maximum level of production or use of biodiesel or bio-based diesel replacement described in any—

''(I) engine warranty; or

''(II) specification derived in accordance with the ASTM.

''(iii) STATE AND MUNICIPAL VEHICLES.—Nothing in this paragraph preempts the authority of a State or unit of local government—

''(I) to regulate the use of biodiesel in vehicles owned by the State or local government, respectively; or

''(II) to establish financial incentives to promote the use of biodiesel.

''(iv) FINANCIAL INCENTIVES.—Nothing in this paragraph precludes States from establishing financial incentives to promote the voluntary use or production of biodiesel.''.

(b) CONFORMING AMENDMENTS.—Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended—

(1) in subsection (o)(1)(C)(ii)(II), by striking ''biodiesel (as defined in section 312(f) of the Energy Policy Act of 1992 (42 U.S.C. 13220(f))) and''; and

(2) by redesignating the first subsection (r) (relating to fuel and fuel additive importers and importation) as subsection (u) and moving that subsection so as to appear at the end of the section.

SEC. 132. BIODIESEL LABELING.

Subsection (p) of section 211 of the Clean Air Act (42 U.S.C. 7545) (as added by section 131(a)) is amended by adding at the end the following:

''(3) BIODIESEL LABELING.—

''(A) IN GENERAL.—Each retail diesel fuel pump shall be labeled in a manner that informs consumers of the percent of biodiesel that is contained in the biodiesel blend that is offered for sale, as determined by the Administrator.

''(B) LABELING REQUIREMENTS.—Not later than 180 days after the date of enactment of this subsection, the Administrator shall promulgate biodiesel labeling requirements as follows:

''(i) Biodiesel blends that contain less than or equal to 5 percent biodiesel by volume and that meet ASTM D975 diesel specifications shall not require any additional labels.

''(ii) Biodiesel blends that contain more than 5 percent biodiesel by volume but not more than 20 percent by volume shall be labeled 'contains biodiesel in quantities between 5 percent and 20 percent'.

''(iii) Biodiesel blends that contain more than 20 percent biodiesel by volume shall be labeled 'contains more than 20 percent biodiesel'.''.

SA 1772. Mr. ALEXANDER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 4, strike line 8 through page 5, line 12.

On page 114, after line 16, insert the following:

SEC. 855. CREDIT FOR COMPACT FLUORESCENT LIGHT BULBS.

(a) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 is amended by inserting after section 25D the following new section:

''SEC. 25E. CREDIT FOR COMPACT FLUORESCENT LIGHT BULBS.

''(a) ALLOWANCE OF CREDIT.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to $2 per qualifying compact fluorescent light bulb purchased by the taxpayer during such year for use in a dwelling unit located in the United States and used as a residence by the taxpayer.

''(b) MAXIMUM CREDIT.—The credit allowed under subsection (a) for any taxable year shall not exceed $100 per return.

''(c) QUALIFYING COMPACT FLUORESCENT LIGHT BULB.—For purposes of this section, the term 'qualifying compact fluorescent light bulb' means any compact fluorescent light bulb which meets the requirements of the Energy Star program in effect for such light bulbs in 2008.

''(d) TERMINATION.—The credit allowed under this section shall not apply to property purchased after December 31, 2008.''.

(b) CLERICAL AMENDMENT.—The table of chapters for subpart A of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 25D the following new item:

''Sec. 25E. Credit for compact fluorescent light bulbs.''

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property purchased in taxable years beginning after December 31, 2007.

SA 1773. Mr. ALEXANDER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 4, strike line 8 through page 5, line 12.

SA 1774. Mr. ALEXANDER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 4, strike line 8 through page 5, line 12.

On page 114, after line 16, insert the following:

SEC. 855. EXTENSION OF ENERGY EFFICIENT APPLIANCE CREDIT.

Subsection (b) of section 45M (as amended by this Act) is amended by striking ''calendar year 2008, 2009, or 2010'' each place it appears in paragraphs (1)(A), (2)(B), (2)(C), (3)(B), and (3)(C) and inserting ''calendar years 2008 through 2017''.

SA 1775. Mr. ALEXANDER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 4, strike line 8 through page 5, line 12.

On page 157, after line 14, insert the following:

SEC. 879. ACCELERATED DEPRECIATION FOR SCRUBBERS.

(a) IN GENERAL.—Subparagraph (A) of section 168(e)(3) (relating to 3-year property) is amended—

(1) by striking ''and'' at the end of clause (ii),

(2) by striking the period at the end of clause (iii) and inserting '', and'', and

(3) by adding at the end the following new clause:

''(iv) any qualifying scrubber, as defined in subsection (i)(19).''.

(b) QUALIFYING SCRUBBER.—Section 168(i) (relating to definitions and special rules), as amended by this Act, is amended by adding at the end the following new paragraph:

''(19) QUALIFYING SCRUBBER.—For purposes of this section, the term 'qualifying scrubber' means any wet or dry scrubber or scrubber system which meets all standards issued by the Environmental Protection Agency applicable to such scrubber or scrubber system.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act.

SA 1776. Mr. VITTER submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ___. PRODUCTION OF MINERALS AND RENEWABLE ENERGY.

(a) DEFINITIONS.—In this section:

(1) COASTAL POLITICAL SUBDIVISION.—The term ''coastal political subdivision'' means a political subdivision of a contributing energy State any part of which political subdivision is—

(A) within the coastal zone (as defined in section 304 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1453)) of the contributing energy State as of the date of enactment of this Act; and

(B) not more than 200 nautical miles from the geographic center of any leased tract.

(2) CONTRIBUTING ENERGY STATE.—The term ''contributing energy State'' means—

(A) in the case of an offshore area, a State that has, within the offshore administrative boundaries beyond the submerged land of the State, an energy area available for leasing of minerals or renewable energy under subsection (c); and

(B) in the case of an onshore area, a State that has, within the onshore boundaries of the State, an energy area available for leasing of minerals or renewable energy under subsection (c).

(3) ENERGY AREA.—

(A) IN GENERAL.—The term ''energy area'' means—

(i) in the case of an offshore area, any area that is within the offshore administrative boundaries beyond the submerged land of a State that is located greater than 50 miles from the coastline of the State; and

(ii) in the case of an onshore area, any Federal land that is within the onshore boundaries of a State.

(B) EXCLUSIONS.—The term ''energy area'' does not include—

(i) a unit of the National Park System;

(ii) a component of the National Wild and Scenic Rivers System;

(iii) a component of the National Trails System;

(iv) a component of the National Wilderness Preservation System;

(v) a National Monument;

(vi) any part of the National Landscape Conservation System;

(vii) a National Conservation Area;

(viii) a National Marine Sanctuary;

(ix) a National Marine Monument; or

(x) a National Recreation Area.

(4) MINERALS.—The term ''minerals'' has the meaning given the term in section 2 of the Outer Continental Shelf Lands Act (43 U.S.C. 1331).

(5) QUALIFIED REVENUES.—

(A) IN GENERAL.—The term ''qualified revenues'' means all rentals, royalties, bonus bids, and other sums due and payable to the United States from leases entered into on or after the date of enactment of this section for energy areas.

(B) EXCLUSIONS.—The term ''qualified revenues'' does not include—

(i) revenues from the forfeiture of a bond or other surety securing obligations other than royalties, civil penalties, or royalties taken by the Secretary in-kind and not sold; or

(ii) revenues generated from leases subject to section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g)).

(6) RENEWABLE ENERGY.—The term ''renewable energy'' means energy generated from—

(A) a renewable energy source; or

(B) hydrogen, other than hydrogen produced from a fossil fuel, that is produced from a renewable energy source.

(7) RENEWABLE ENERGY SOURCE.—The term ''renewable energy source'' includes—

(A) biomass;

(B) geothermal energy;

(C) hydropower;

(D) landfill gas;

(E) municipal solid waste;

(F) ocean (including tidal, wave, current, and thermal) energy;

(G) organic waste;

(H) photosynthetic processes;

(I) photovoltaic energy;

(J) solar energy; and

(K) wind.

(8) SECRETARY.—The term ''Secretary'' means the Secretary of the Interior.

(b) CONDITIONS.—

(1) IN GENERAL.—Subject to paragraphs (2) and (3), this section shall apply only if and during the period the President certifies to Congress that—

(A) the national average retail price of gasoline in the United States exceeds $3.75 per gallon;

(B) the quantity of oil imported into the United States exceeds 65 percent of the total quantity of oil consumed in the United States;

(C) the supply of renewable fuel is insufficient to meet the demand for fuel in the United States; and

(D) continued and growing reliance on foreign oil imports is a threat to national security.

(2) OFFSHORE AREAS.—In the case of an offshore area, the President may make energy areas off the coastline of a State or region available for leasing of minerals or renewable energy under this section during a period described in paragraph (1) only if the President—

(A) takes into Federal management an area of land that is equal to at least 110 percent of the acreage of energy areas off the coastline of the State or region that are made available for leasing of minerals or renewable energy under this section; and

(B) uses the land taken into Federal management under subparagraph (A) to establish and maintain a national marine sanctuary off the coastline of the State or region.

(3) ONSHORE AREAS.—In the case of an onshore area, the President may make energy areas in a State or region available for leasing of minerals or renewable energy under this section during a period described in paragraph (1) only if the President takes into Federal management for the Bureau of Land Management or the Forest Service an area of land that is equal to at least 110 percent of the acreage of energy areas in the State or region that are made available for leasing of minerals or renewable energy under this section.

(c) PETITION FOR LEASING ENERGY AREAS.—

(1) IN GENERAL.—During the period described in subsection (b), the Governor of a State with an energy area may submit to the Secretary a petition requesting that the Secretary make the energy area available for energy production through the leasing of minerals or renewable energy.

(2) ACTION BY SECRETARY.—Notwithstanding any other provision of law, as soon as practicable after the date of receipt of a petition under paragraph (1), the Secretary shall approve the petition if—

(A) the Secretary determines that leasing the energy area would not create an unreasonable risk to public health or the environment, taking into account the economic, social, and environmental costs and benefits of the leasing; and

(B) the legislature of the State enacts a law approving the petition.

(d) DISPOSITION OF QUALIFIED REVENUES FROM OFFSHORE ENERGY AREAS.—

(1) IN GENERAL.—In the case of qualified revenues from offshore energy areas, notwithstanding section 9 of the Outer Continental Shelf Lands Act (43 U.S.C. 1338) and subject to the other provisions of this subsection, for each applicable fiscal year, the Secretary of the Treasury shall deposit or provide—

(A) 37.5 percent of qualified revenues to contributing energy States in accordance with paragraph (2);

(B) 20 percent of qualified revenues in a special account in the Treasury that shall be available to the Secretary of Energy to promote renewable energy production, the reduction and sequestering of emissions, and energy efficient technologies;

(C) 12.5 percent of qualified revenues to provide financial assistance to States in accordance with section 6 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460*l* –8), which shall be considered income to the Land and Water Conservation Fund for purposes of section 2 of that Act (16 U.S.C. 460*l*–5);

(D) 10 percent of qualified revenues in a special account in the Treasury that shall be available to the Secretary to allocate funds to States to carry out State wildlife programs; and

(E) 10 percent of qualified revenues in the general fund of the Treasury.

(2) ALLOCATION TO CONTRIBUTING ENERGY STATES AND COASTAL POLITICAL SUBDIVISIONS.—

(A) ALLOCATION TO CONTRIBUTING ENERGY STATES.—Effective for fiscal year 2008 and each fiscal year thereafter, the amount made available under paragraph (1)(A) shall be allocated to each contributing energy State in proportion to the amount of qualified revenues generated in any energy area within the offshore administrative boundaries beyond the submerged land of the State.

(B) PAYMENTS TO COASTAL POLITICAL SUBDIVISIONS.—

(i) IN GENERAL.—The Secretary shall pay 20 percent of the allocable share of each contributing energy State, as determined under subparagraph (A), to the coastal political subdivisions of the contributing energy State.

(ii) ALLOCATION.—The amount paid by the Secretary to coastal political subdivisions shall be allocated to each coastal political subdivision in a manner consistent with subparagraphs (B) and (C) of section 31(b)(4) of the Outer Continental Shelf Lands Act (43 U.S.C. 1356a(b)(4)), as determined by the Secretary.

(3) TIMING.—The amounts required to be deposited under subparagraphs (A) through (D) of paragraph (1) for the applicable fiscal year shall be made available in accordance with that subparagraph during the fiscal year immediately following the applicable fiscal year.

(4) AUTHORIZED USES.—

(A) IN GENERAL.—Subject to subparagraph (B), each contributing energy State and coastal political subdivision shall use all amounts received under paragraph (2) in accordance with all applicable Federal and State laws, only for 1 or more of the following purposes:

(i) Projects and activities for the purposes of coastal protection, including conservation, coastal restoration, hurricane protection, and infrastructure directly affected by coastal wetland losses.

(ii) Mitigation of damage to fish, wildlife, or natural resources.

(iii) Implementation of a federally-approved marine, coastal, or comprehensive conservation management plan.

(iv) Mitigation of the impact of outer Continental Shelf activities through the funding of onshore infrastructure projects.

(v) Planning assistance and the administrative costs of complying with this section.

(B) LIMITATION.—Not more than 3 percent of amounts received by a contributing energy State or coastal political subdivision under paragraph (2) may be used for the purposes described in subparagraph (A)(v).

(5) ADMINISTRATION.—Amounts made available under subparagraphs (A) through (D) of paragraph (1) shall—

(A) be made available, without further appropriation, in accordance with this subsection;

(B) remain available until expended; and

(C) be in addition to any amounts appropriated under—

(i) other provisions of this Act;

(ii) the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460*l*–4 et seq.); or

(iii) any other provision of law.

(e) DISPOSITION OF QUALIFIED REVENUES FROM ONSHORE ENERGY AREAS.—

(1) IN GENERAL.—In the case of qualified revenues from onshore energy areas, subject to the other provisions of this subsection, for each applicable fiscal year, the Secretary of the Treasury shall deposit—

(A) 40 percent of qualified revenues in a special account in the Treasury that shall be available to the Secretary of the Interior to allocate to contributing energy States in accordance with paragraph (2);

(B) 30 percent of qualified revenues in the reclamation fund established by the first section of the Act of June 17, 1902 (32 Stat. 388, chapter 1093);

(C) 20 percent of qualified revenues in a special account in the Treasury that shall be available to the Secretary of Energy to promote renewable energy production, the reduction and sequestering of emissions, and energy efficient technologies; and

(D) 10 percent of qualified revenues in the general fund of the Treasury.

(2) ALLOCATION TO CONTRIBUTING ENERGY STATES.—Effective for fiscal year 2008 and each fiscal year thereafter, the amount made available under paragraph (1)(A) shall be allocated to each contributing energy State in a manner that is consistent with the allocation of assistance to States under the Mineral Leasing Act (30 U.S.C. 181 et seq.), as determined by the Secretary.

(3) TIMING.—The amounts required to be deposited under subparagraphs (A) through (C) of paragraph (1) for the applicable fiscal year shall be made available in accordance with that subparagraph during the fiscal year immediately following the applicable fiscal year.

(4) AUTHORIZED USES.—

(A) IN GENERAL.—Subject to subparagraph (B), each contributing energy State shall use all amounts received under paragraph (2) in accordance with all applicable Federal and State laws, only for 1 or more of the following purposes:

(i) Programs and activities that are allowed under the Mineral Leasing Act (30 U.S.C. 181 et seq.).

(ii) Planning assistance and the administrative costs of complying with this section.

(B) LIMITATION.—Not more than 3 percent of amounts received by a contributing energy State under paragraph (2) may be used for the purposes described in subparagraph (A)(ii).

(5) ADMINISTRATION.—Amounts made available under subparagraphs (A) through (C) of paragraph (1) shall—

(A) be made available, without further appropriation, in accordance with this subsection;

(B) remain available until expended; and

(C) be in addition to any amounts appropriated under—

(i) other provisions of this Act;

(ii) the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460*l*–4 et seq.); or

(iii) any other provision of law.

(f) ADMINISTRATION.—Nothing in this section affects—

(1) the amount of funds otherwise dedicated to—

(A) the land and water conservation fund established under section 2 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460*l*–5); or

(B) the Historic Preservation Fund established under section 108 of the National Historic Preservation Act (16 U.S.C. 470h); or

(2) any authority that permits energy production under any other provision of law.

SA 1777. Mr. KERRY submitted an amendment intended to be proposed to

amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 97, line 10, strike all through page 99, line 19, and insert the following:

''(i) PLUG-IN CONVERSION CREDIT.—

''(1) IN GENERAL.—For purposes of subsection (a), the plug-in conversion credit determined under this subsection with respect to any motor vehicle which is converted to a qualified plug-in electric drive motor vehicle is an amount equal to 50 percent of the cost of the plug-in traction battery module installed in such vehicle as part of such conversion.

''(2) LIMITATIONS.—The amount of the credit allowed under this subsection shall not exceed $4,000 with respect to the conversion of any motor vehicle.

''(3) DEFINITIONS AND SPECIAL RULES.—For purposes of this subsection—

''(A) QUALIFIED PLUG-IN ELECTRIC DRIVE MOTOR VEHICLE.—The term 'qualified plug-in electric drive motor vehicle' means any new qualified plug-in electric drive motor vehicle (as defined in section 30D(c), determined without regard to paragraphs (4) and (6) thereof).

''(B) PLUG-IN TRACTION BATTERY MODULE.—The term 'plug-in traction battery module' means an electro-chemical energy storage device which—

''(i) has a traction battery capacity of not less than 2.5 kilowatt hours,

''(ii) is equipped with an electrical plug by means of which it can be energized and recharged when plugged into an external source of electric power,

''(iii) consists of a standardized configuration and is mass produced,

''(iv) has been tested and approved by the National Highway Transportation Safety Administration as compliant with applicable motor vehicle and motor vehicle equipment safety standards when installed by a mechanic with standardized training in protocols established by the battery manufacturer as part of a nationwide distribution program, and

''(v) is certified by a battery manufacturer as meeting the requirements of clauses (i) through (iv).

''(C) CREDIT ALLOWED TO LESSOR OF BATTERY MODULE.—In the case of a plug-in traction battery module which is leased to the taxpayer, the credit allowed under this subsection shall be allowed to the lessor of the plug-in traction battery module.

''(D) CREDIT ALLOWED IN ADDITION TO OTHER CREDITS.—The credit allowed under this subsection shall be allowed with respect to a motor vehicle notwithstanding whether a credit has been allowed with respect to such motor vehicle under this section (other than this subsection) in any preceding taxable year.

''(4) TERMINATION.—This subsection shall not apply to conversions made after December 31, 2010.''.

SA 1778. Mr. KERRY submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 42, strike lines 6 through 12 and insert the following:

(c) FISCHER-TROPSCH PROCESS EXCLUDED FROM ELIGIBLE PROJECTS.—Paragraph (7) of section 48B(c) is amended by adding at the end the following new flush sentence:

''Such term shall not include any person whose application for certification is principally intended for use in a project which employs gasification for applications related to transportation grade liquid fuels.''.

Beginning on page 71, line 9, strike all through page 72, line 2, and insert the following:

(c) FISCHER-TROPSCH PROCESS EXCLUDED FROM DEFINITION OF ALTERNATIVE FUEL.—Paragraph (2) of section 6426(d), as amended by subsection (b), is amended by striking subparagraph (E) and by redesignating subparagraphs (F) and (G) as subparagraphs (E) and (F), respectively.

On page 77, line 20, strike ''(G)'' and insert ''(F)''.

SA 1779. Mr. HARKIN (for himself and Mr. CHAMBLISS) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 278, after line 23, add the following:

(6) PURCHASE, SALE, REPORT.—The terms ''purchase'', ''sale'', and ''report'', with respect to the wholesale price of crude oil, gasoline, and petroleum distillates, do not include any transaction or other activity that is subject to the Commodity Exchange Act (7 U.S.C. 1 et seq.).

SA 1780. Mrs. MCCASKILL submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ___. SENSE OF CONGRESS ON RETAIL FUEL FAIRNESS.

(a) FINDINGS.—Congress makes the following findings:

(1) Consumer protection is a priority for the United States Government. Consumers are entitled to the full benefit of every purchase.

(2) As atmospheric temperature rises, so does the temperature of motor fuel (gasoline and diesel fuel) in filling station tanks. Motor fuel expands as it gets warmer so it takes more fluid to contain the same content of energy (or BTUs) it had when it was at a cooler temperature, resulting in a decrease in energy content of 1 gallon of motor fuel.

(3) The expansion of liquid motor fuel due to increases in temperature is commonly referred to as ''hot fuel''.

(4) During the purchase and sale of motor fuel between wholesalers and retailers, the motor fuel volume is temperature compensated to a 60 degree Fahrenheit reference volume.

(5) During the purchase and sale of motor fuel between retailers and consumers the temperature of the fuel is not considered.

(6) The lack of temperature compensation at the retail pump costs consumers $2,740,000,000 annually.

(7) An excise tax on the sale of motor fuel is imposed on entities at points in the chain of distribution above the retail level. Taxes are remitted based on temperature-compensated gallons of motor fuel.

(8) Taxes are recouped from retail consumers on a non-temperature-compensated basis. As a result, when retailers sell to consumers motor fuel that is at a temperature greater than 60 degrees Fahrenheit, the retailers recoup more from consumers as ''taxes'' than the actual amount of Federal and State excise taxes paid by the retailers.

(9) At the time of purchase, a consumer is entitled to the same BTU content contained in a gallon of motor fuel at the retail pump as the retailer receives when the retailer purchases a gallon of motor fuel from the wholesaler.

(10) The most equitable method to address the disparity of the BTU content at the retail pump is by installing temperature compensating retrofit kits to retail fuel pump. This equipment is currently being used in Canada to compensate for the colder motor fuel temperatures they experience.

(11) The National Conference on Weights and Measures, Inc. creates the uniform commercial transaction standards to ensure consumers receive the full benefit of their purchases.

(12) The National Conference on Weights and Measures, Inc. has the authority to adopt standards that would address the concerns behind hot fuel.

(13) The National Institute of Standards and Technology (NIST) provides technical guidance to the National Conference on Weights and Measures, Inc. (NCWM). NIST officials serve as technical advisors to NCWM committees, including the Law and Regulations Committee.

(14) In January 2007, the Law and Regulations Committee of the National Conference

on Weights and Measures, Inc. voted to adopt a standard that will facilitate the implementation of a permissive approach to the use of temperature compensation in the marketplace.

(15) In June, 2007, in testimony before a subcommittee of the House of Representatives, a NIST weights and measure official supported the adoption of temperature compensation for the sale of motor fuel at retail pumps.

(16) Despite over 30 years of debate, the National Conference on Weights and Measures, Inc. has not yet addressed consumer concerns over hot fuel and its hidden costs to consumers.

(17) The National Conference on Weights and Measures, Inc. will hold its annual meeting on July 8-12, 2007 in Salt Lake City, Utah.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) Congress should adopt sound policies that protect consumers from fraud or unfairness in connection with the purchase or sale of motor fuel;

(2) consumers should receive the full benefit of their purchase;

(3) in order for consumers to receive the full benefit of a gallon of motor fuel, the temperature disparity created by hot fuel must be resolved;

(4) the National Conference on Weights and Measures, Inc. has the authority to adopt standards that would resolve the United States Governments concerns surrounding hot fuel;

(5) during the annual meeting of the National Conference on Weights and Measures, Inc. in July 2007, standards for the hot fuel issue should be promulgated;

(6) in promulgating standards to address the hot fuel issue, the National Conference on Weights and Measures, Inc. should consider the $2,740,000,000 loss to consumers;

(7) in promulgating standards to address the hot fuel issue, the National Conference on Weights and Measures, Inc. should consider the fact that consumers are paying more in Federal and State excise motor fuel taxes than motor fuel retailers are remitting; and

(8) in promulgating standards to address the hot fuel issue, the National Conference on Weights and Measures, Inc. should consider the methods, standards and procedures Canada is currently using to regulate motor fuel temperature.

SA 1781. Mr. BYRD submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of title III, add the following:

SEC. 3_____. COAL INNOVATION DIRECT LOAN PROGRAM.

(a) IN GENERAL.—Title XXXI of the Energy Policy Act of 1992 (42 U.S.C. 13571 et seq.) is amended by adding at the end the following:

"SEC. 3105. COAL INNOVATION DIRECT LOAN PROGRAM.

''(a) DEFINITIONS.—In this section:

''(1) CARBON CAPTURE.—The term 'carbon capture' means the capture, separation, and compression of carbon dioxide that would otherwise be released to the atmosphere at a facility in the production of end products of a project prior to transportation of the carbon dioxide to a long-term storage site.

''(2) COAL-TO-LIQUID PRODUCT.—The term 'coal-to-liquid product' means a liquid fuel resulting from the conversion of a feedstock, as described in this section.

''(3) COMBUSTIBLE END PRODUCT.—The term 'combustible end product' means any product of a facility intended to be used as a combustible fuel.

''(4) CONVENTIONAL BASELINE EMISSIONS.—The term 'conventional baseline emissions' means—

''(A) the lifecycle greenhouse gas emissions of a facility that produces combustible end products, using petroleum as a feedstock, that are equivalent to combustible end products produced by a facility of comparable size through an eligible project;

''(B) in the case of noncombustible products produced through an eligible project, the average lifecycle greenhouse gas emissions emitted by projects that—

''(i) are of comparable size; and

''(ii) produce equivalent products using conventional feedstocks; and

''(C) in the case of synthesized gas intended for use as a combustible fuel in lieu of natural gas produced by an eligible project, the lifecycle greenhouse gas emissions that would result from equivalent use of natural gas.

''(5) ELIGIBLE PROJECT.—The term 'eligible project' means a project—

''(A) that employs gasification technology or another conversion process for feedstocks described in this section; and

''(B) for which—

''(i) the annual lifecycle greenhouse gas emissions of the project are at least—

''(I) at the end of the first calendar year after the date of commencement of the project, 5 percent lower than conventional baseline emissions;

''(II) at the end of the second calendar year after the date of commencement of the project, 10 percent lower than conventional baseline emissions;

''(III) at the end of the third calendar year after the date of commencement of the project, 15 percent lower than conventional baseline emissions; and

''(IV) at the end of the fourth calendar year after the date of commencement of the project, 20 percent lower than conventional baseline emissions;

''(ii) of the carbon dioxide that would otherwise be released to the atmosphere at the facility in the production of end products of the project, at least—

''(I) at the end of the first calendar year after the date of commencement of the project, 20 percent is captured for long-term storage;

''(II) at the end of the second calendar year after the date of commencement of the project, 40 percent is captured for long-term storage;

''(III) at the end of the third calendar year after the date of commencement of the project, 60 percent is captured for long-term storage; and

''(IV) at the end of the fourth calendar year after the date of commencement of the project, 80 percent is captured for long-term storage;

''(iii) the individual or entity carrying out the eligible project has entered into an enforceable agreement with the Secretary to implement carbon capture at the percentage that, by the end of the 5-year period after commencement of commercial operation of the eligible project—

''(I) represents the best available technology; and

''(II) achieves a reduction in carbon emissions that is not less than 80 percent; and

''(iv) in the opinion of the Secretary, sufficient commitments have been secured to achieve long-term storage of captured carbon dioxide beginning as of the date of commencement of commercial operation of the project.

''(6) FACILITY.—The term 'facility' means a facility at which the conversion of feedstocks to end products takes place.

''(7) GASIFICATION TECHNOLOGY.—The term 'gasification technology' means any process that converts coal, petroleum residue, renewable biomass, or other material that is recovered for energy or feedstock value into a synthesis gas composed primarily of carbon monoxide and hydrogen for direct use or subsequent chemical or physical conversion.

''(8) GREENHOUSE GAS.—The term 'greenhouse gas' means any of—

''(A) carbon dioxide;

''(B) methane;

''(C) nitrous oxide;

''(D) hydrofluorocarbons;

''(E) perfluorocarbons; and

''(F) sulfur hexafluoride.

''(9) LIFECYCLE GREENHOUSE GAS EMISSIONS.—The term 'lifecycle greenhouse gas emissions' means the aggregate quantity of greenhouse gases attributable to the production and transportation of end products at a facility, including the production, extraction, cultivation, distribution, marketing, and transportation of feedstocks, and the subsequent distribution and use of any combustible end products, as modified by deducting, as determined by the Administrator of the Environmental Protection Agency—

''(A) any greenhouse gases captured at the facility and sequestered;

''(B) the carbon content, expressed in units of carbon dioxide equivalent, of any feedstock that is renewable biomass; and

''(C) the carbon content, expressed in units of carbon dioxide equivalent, of any end products that do not result in the release of carbon dioxide to the atmosphere.

''(10) LONG-TERM STORAGE.—The term 'long-term storage' means sequestration with an expected maximum rate of carbon dioxide leakage over a specified period of time that is consistent with the objective of reducing atmospheric concentrations of carbon dioxide, subject to a permit issued pursuant to law in effect as of the date of the sequestration.

''(11) RENEWABLE BIOMASS.—The term 'renewable biomass' has the definition given the term in section 102 of the Renewable Fuels, Consumer Protection, and Energy Efficiency Act of 2007.

''(12) SEQUESTRATION.—The term 'sequestration' means the placement of carbon dioxide in a geological formation, including—

''(A) an operating oil and gas field;

''(B) coal bed methane recovery;

''(C) a depleted oil and gas field;

''(D) an unmineable coal seam;

''(E) a deep saline formation; and

''(F) a deep geological systems containing basalt formations.

''(b) FEED ASSISTANCE PROGRAM.—

''(1) IN GENERAL.—Subject to paragraph (3), and in accordance with section 988 of the Energy Policy Act of 2005 (42 U.S.C. 16352), not later than 1 year after the date of the enactment of this section, the Secretary shall

carry out a program to provide grants for use in obtaining or carrying out any services necessary for the planning, permitting, and construction of an eligible project.

''(2) SELECTION OF ELIGIBLE PROJECTS.—The Secretary shall select eligible projects to receive grants under this section—

''(A) through the conduct of a reverse auction, in which eligible projects proposed to be carried out that have the greatest rate of carbon capture and long-term storage, and the lowest lifecycle greenhouse gas emissions, are given priority;

''(B) that, taken together, would—

''(i) represent a variety of geographical regions;

''(ii) use a variety of feedstocks and types of coal; and

''(iii) to the extent consistent with achieving long-term storage, represent a variety of geological formations; and

''(C) for which eligible projects, in the opinion of the Secretary—

''(i) each award recipient is financially viable without the receipt of additional Federal funding associated with the proposed project;

''(ii) each recipient will provide sufficient information to the Secretary for the Secretary to ensure that the qualified investment is expended efficiently and effectively;

''(iii) a market exists for the products of the proposed project, as evidenced by contracts or written statements of intent from potential customers;

''(iv) the project team of each recipient is competent in the construction and operation of the gasification technology proposed; and

''(v) each recipient has met such other criteria as may be established and published by the Secretary.

''(3) MAXIMUM AMOUNT OF GRANTS.—In carrying out this subsection, the Secretary shall provide not more than—

''(A) $20,000,000 in grant funds for any eligible project; and

''(B) $200,000,000 in grant funds, in the aggregate, for all eligible projects.

''(c) DIRECT LOAN PROGRAM.—

''(1) IN GENERAL.—Not later than 1 year after the date of enactment of this section, and subject to funds being made available in advance through appropriations Acts, the Secretary shall carry out a program to provide a total of not more than $10,000,000,000 in loans to eligible individuals and entities (as determined by the Secretary) for use in carrying out eligible projects.

''(2) APPLICATION.—An applicant for a loan under this section shall comply with the terms and conditions in section 215(b)(3) of the Renewable Fuels, Consumer Protection, and Energy Efficiency Act of 2007 in the same manner in which applicants for Renewable Energy Construction grants are required to comply with that section.

''(3) SELECTION OF ELIGIBLE PROJECTS.—The Secretary shall select eligible projects to receive loans under this section—

''(A) through the conduct of a reverse auction, in which eligible projects proposed to be carried out that have the greatest rate of carbon capture and long-term storage, and the lowest lifecycle greenhouse gas emissions, are given priority;

''(B) that, taken together, would—

''(i) represent a variety of geographic regions;

''(ii) use a variety of types of feedstocks and coal; and

''(iii) to the extent consistent with achieving long-term storage, represent a variety of geological formations; and

''(C) for which eligible projects, in the opinion of the Secretary—

''(i) each award recipient is financially viable without the receipt of additional Federal funding associated with the proposed project;

''(ii) each recipient will provide sufficient information to the Secretary for the Secretary to ensure that the qualified investment is expended efficiently and effectively;

''(iii) a market exists for the products of the proposed project, as evidenced by contracts or written statements of intent from potential customers;

''(iv) the project team of each recipient is competent in the construction and operation of the gasification technology proposed; and

''(v) each recipient has met such other criteria as may be established and published by the Secretary.

''(4) USE OF LOAN FUNDS.—

''(A) IN GENERAL.—Subject to subparagraph (B), funds from a loan provided under this section may be used to pay up to 100 percent of the costs of capital associated with reducing lifecycle greenhouse gas emissions at the facility (including carbon dioxide capture, compression, and long-term storage, cogeneration, and gasification of biomass) carried out as part of an eligible project.

''(B) TOTAL PROJECT COST.—Funds from a loan provided under this section may not be used to pay more than 50 percent of the total cost of an eligible project.

''(5) RATES, TERMS, AND REPAYMENT OF LOANS.—A loan provided under this section—

''(A) shall have an interest rate that, as of the date on which the loan is made, is equal to the cost of funds to the Department of the Treasury for obligations of comparable maturity;

''(B) shall have a term equal to the lesser of—

''(i) the projected life, in years, of the eligible project to be carried out using funds from the loan, as determined by the Secretary; and

''(ii) 25 years;

''(C) may be subject to a deferral in repayment for not more than 5 years after the date on which the eligible project carried out using funds from the loan first begins operations, as determined by the Secretary; and

''(D) shall be made on the condition that the Secretary shall be subrogated to the rights of the recipient of the payment as specified in the loan or related agreements, including, as appropriate, the authority (notwithstanding any other provision of law)—

''(i) to complete, maintain, operate, lease, or otherwise dispose of any property acquired pursuant to the guarantee or a related agreement; or

''(ii) to permit the borrower, pursuant to an agreement with the Secretary, to continue to pursue the purposes of the project, if the Secretary determines the pursuit to be in the public interest.

''(6) METHODOLOGY.—Not later than 18 months after the date of enactment of this section, the Administrator of the Environmental Protection Agency shall, by regulation, establish a methodology for use in determining the lifecycle greenhouse gas emissions of products produced using gasification technology.

''(d) STUDY OF MAINTAINING COAL-TO-LIQUID PRODUCTS IN STRATEGIC PETROLEUM RESERVE.—Not later than 1 year after the date of enactment of this section, the Secretary and the Secretary of Defense shall—

''(1) conduct a study of the feasibility and suitability of maintaining coal-to-liquid products in the Strategic Petroleum Reserve; and

''(2) submit to the Committee on Energy and Natural Resources and the Committee on Armed Services of the Senate and the Committee on Energy and Commerce and the Committee on Armed Services of the House of Representatives a report describing the results of the study.

''(e) REPORT ON EMISSIONS OF COAL-TO-LIQUID PRODUCTS USED AS TRANSPORTATION FUELS.—

''(1) IN GENERAL.—In cooperation with the Secretary, the Secretary of Defense, the Administrator of the Federal Aviation Administration, and the Secretary of Health and Human Services, the Administrator of the Environmental Protection Agency shall—

''(A) carry out a research and demonstration program to evaluate the emissions of the use of coal-to-liquid fuel for transportation, including diesel and jet fuel;

''(B) evaluate the effect of using coal-to-liquid transportation fuel on emissions of vehicles, including motor vehicles and nonroad vehicles, and aircraft (as those terms are defined in sections 216 and 234, respectively, of the Clean Air Act (42 U.S.C. 7550, 7574)); and

''(C) in accordance with paragraph (4), submit to Congress a report on the effect on air and water quality, water scarcity, land use, and public health of using coal-to-liquid fuel in the transportation sector.

''(2) GUIDANCE AND TECHNICAL SUPPORT.—The Administrator of the Environmental Protection Agency, in consultation with the Secretary, shall issue any guidance or technical support documents necessary to facilitate the effective use of coal-to-liquid fuel and blends under this subsection.

''(3) REQUIREMENTS.—The program described in paragraph (1)(A) shall take into consideration—

''(A) the use of neat (100 percent) coal-to-liquid fuel and blends of coal-to-liquid fuels with conventional crude oil-derived fuel for heavy-duty and light-duty diesel engines and the aviation sector;

''(B) the production costs associated with domestic production of those fuels and prices for consumers; and

''(C) the overall greenhouse gas effects of substituting coal-derived fuels for crude oil-derived fuels.

''(4) REPORTS.—The Administrator of the Environmental Protection Agency shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Energy and Commerce of the House of Representatives—

''(A) not later than 180 days after the date of enactment of this section, an interim report on actions taken to carry out this subsection; and

''(B) not later than 1 year after the date of enactment of this section, a final report on actions taken to carry out this subsection.

''(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this section.

''SEC. 3106. CLEAN COAL-DERIVED FUEL FEASIBILITY STUDY.

''(a) IN GENERAL.—The Secretary, acting through the Director of the National Energy Technology Laboratory and the Administrator of the Energy Information Administration, shall conduct a study to assess the technology, trends, benefits, and costs associated with the production and consumption of coal-derived fuels in the United States.

''(b) REQUIREMENTS.—In conducting the study under subsection (a), the Secretary shall—

''(1) conduct an assessment of—

''(A) the inputs required per unit of coal-derived fuel;

''(B) the feasibility of attaining an annual production of coal-derived fuels of a rate of

not less than 6,000,000,000 gallons of coal-derived fuels per year; and

''(C) the estimated quantity of commercially recoverable coal reserves in the United States; and

''(2) make a determination relating to the extent to which, and the timetable required within which, coal-derived fuels could feasibly and cost-effectively be expected to offset consumption of petroleum-based fuels in the United States.

''(c) REPORT.—Not later than 180 days after the date of enactment of this section, the Secretary shall submit to Congress a report that describes the results of the study.''.

(b) CONFORMING AMENDMENT.—The table of contents of the Energy Policy Act of 1992 (42 U.S.C. prec. 13201) is amended by adding at the end of the items relating to title XXXI the following:

''Sec. 3105. Coal innovation direct loan program.
''Sec. 3106. Clean coal-derived fuel feasibility study.''.

SA 1782. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of title III, insert the following:

SEC. ___. ELECTRICITY PRODUCTION DIRECT LOAN PROGRAM.

(a) IN GENERAL.—Title XXXI of the Energy Policy Act of 1992 (42 U.S.C. 13571 et seq.) is amended by adding at the end the following:

''SEC. 3105. ELECTRICITY PRODUCTION DIRECT LOAN PROGRAM.

''(a) DEFINITIONS.—In this section:

''(1) CARBON CAPTURE.—The term 'carbon capture' means the capture, separation, and compression of carbon dioxide from a unit prior to transportation of the carbon dioxide to a long-term storage site.

''(2) ELIGIBLE PROJECT.—The term 'eligible project' means a project carried out to produce electricity through the use of at least 75 percent coal as a feedstock—

''(A) for which technology is employed, on a unit of at least 400 megawatts, for carbon capture of at least 85 percent of the carbon dioxide produced by the unit;

''(B) that is subject to an enforceable agreement between the individual or entity and the Secretary for full deployment of best available carbon capture technology at the facility, which will capture not less than 85 percent of carbon dioxide emitted at the facility, within 10 years of the placed-in-service date;

''(C) for which, in the opinion of the Secretary, sufficient commitments have been secured to achieve long-term storage of all captured carbon dioxide beginning on the placed-in-service date;

''(D) that—

''(i) consists of 1 or more electric generation units at 1 site; and

''(ii) will have a total name plate generating capacity of at least 400 megawatts;

''(E) for which the applicant provides evidence that a majority of the output of the project is reasonably expected to be acquired or used;

''(F) for which the applicant provides evidence of ownership or control of a site of sufficient size to allow the proposed project to be constructed and to operate on a long-term basis; and

''(G) that will be located in the United States.

''(3) LONG-TERM STORAGE.—The term 'long-term storage' means sequestration with an expected maximum rate of carbon dioxide leakage over a specified period of time that is—

''(A) consistent with the objective of reducing atmospheric concentrations of carbon dioxide; and

''(B) subject to a permit issued pursuant to applicable Federal law.

''(4) SEQUESTRATION.—The term 'sequestration' means the placement of carbon dioxide in a geological formation, which may include, to the extent consistent with the achievement of long-term storage of the carbon dioxide—

''(A) an operating oil and gas field;

''(B) coal bed methane recovery;

''(C) a depleted oil and gas field;

''(D) an unmineable coal seam;

''(E) a deep saline formation; and

''(F) a deep geological systems containing basalt formations.

''(b) PROGRAM.—

''(1) IN GENERAL.—Not later than 1 year after the date of enactment of this section, and subject to the availability of appropriations, the Secretary shall carry out a program to provide a total of not more than $5,000,000,000 in loans to eligible individuals and entities (as determined by the Secretary) for use in carrying out eligible projects.

''(2) APPLICATION.—An applicant for a loan under this section shall comply with the terms and conditions in section 215(b)(3) of the Renewable Fuels, Consumer Protection, and Energy Efficiency Act of 2007 in the same manner in which applicants for renewable energy construction grants under that section are required to comply with those terms and conditions.

''(3) SELECTION OF ELIGIBLE PROJECTS.—The Secretary shall select eligible projects to receive loans under this section—

''(A) through the conduct of a reverse auction, in which eligible projects proposed to be carried out are selected because the eligible projects have—

''(i) the lowest ratio of emitted carbon dioxide (excluding carbon dioxide captured and sequestered) to produced electricity, as calculated based on units of carbon dioxide emitted per megawatt-hour of electricity produced prior to sequestration;

''(ii) the highest net efficiency, as calculated by dividing the net generation of electricity of the project, in megawatt-hours, by all fuel input, in British thermal units—

''(I) as adjusted to take into account the proposed site elevation and temperature of the project; and

''(II) not including any reduction in electricity generation resulting from carbon dioxide capture or sequestration; and

''(iii) carbon dioxide production, prior to sequestration, of at least 4,000,000 tons per year in a first step in the construction of a scalable project;

''(B) that, taken together, would—

''(i) represent a variety of geographical regions; and

''(ii) use a variety of types of coal; and

''(C) by giving additional appropriate consideration to—

''(i) the extent to which a project would advance the goals of demonstrating sequestration technology through the availability of multiple viable carbon dioxide sink options;

''(ii) the potential of a project to reduce overall emissions of air pollutants through minimized coal transportation impacts;

''(iii) the potential of a project to apply the demonstrated technology to other geographical areas and the existing coal generating fleet; and

''(iv) the extent to which impacts on surface land and water from the extraction of coal resources would be minimized in carrying out the project.

''(4) USE OF LOAN FUNDS.—

''(A) IN GENERAL.—Subject to subparagraph (B), funds from a loan provided under this section may be used to pay up to 100 percent of the costs of capital associated with carbon capture and sequestration (including air separation, boiler, or gasifier technology to facilitate capture, carbon dioxide capture, conditioning, and compression) carried out as part of an eligible project.

''(B) TOTAL PROJECT COST.—Funds from a loan provided under this section may not be used to pay more than 50 percent of the total cost of an eligible project.

''(5) RATES, TERMS, AND REPAYMENT OF LOANS.—A loan provided under this section—

''(A) shall have a fixed interest rate that, as of the date on which the loan is made, is equal to the cost of funds to the Department of the Treasury for obligations of comparable maturity;

''(B) shall have a term equal to the lesser of—

''(i) the projected life, in years, of the eligible project to be carried out using funds from the loan, as determined by the Secretary; and

''(ii) 25 years from the placed in service date of the facility;

''(C) shall not enter repayment before the project placed in service date; and

''(D) shall be made on the condition that the Secretary shall be subrogated to the rights of the recipient of the payment as specified in the loan or related agreements, including, as appropriate, the authority (notwithstanding any other provision of law)—

''(i) to complete, maintain, operate, lease, or otherwise dispose of any property acquired pursuant to the guarantee or a related agreement; or

''(ii) to permit the borrower, pursuant to an agreement with the Secretary, to continue to pursue the purposes of the project, if the Secretary determines the pursuit to be in the public interest.

''(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this section.''.

(b) CONFORMING AMENDMENT.—The table of contents of the Energy Policy Act of 1992 (42 U.S.C. prec. 13201) is amended by adding at the end of the items relating to title XXXI the following:

''Sec. 3105. Electricity production direct loan program.''.

SA 1783. Mr. BROWN submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in

clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. 206. ADVANCED TECHNOLOGY MOTOR VEHICLES MANUFACTURING CREDIT.

(a) IN GENERAL.—Subpart B of part IV of subchapter A of chapter 1 (relating to foreign tax credit, etc.), as amended by this Act, is amended by adding at the end the following new section:

''SEC. 30E. ADVANCED TECHNOLOGY MOTOR VEHICLES MANUFACTURING CREDIT.

''(a) CREDIT ALLOWED.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—

''(1) in the case of a qualified investment of an eligible taxpayer for such taxable year relating to plug-in hybrid electric vehicles or pure electric vehicles, 50 percent of so much of such qualified investment as does not exceed $150,000,000, and

''(2) in the case of any other qualified investment of an eligible taxpayer for such taxable year, 35 percent of so much of such qualified investment as does not exceed $50,000,000.

''(b) QUALIFIED INVESTMENT.—For purposes of this section—

''(1) IN GENERAL.—The qualified investment for any taxable year is equal to the incremental costs incurred during such taxable year—

''(A) to re-equip, expand, or establish any manufacturing facility of the eligible taxpayer to produce advanced technology motor vehicles or to produce eligible components,

''(B) for engineering integration of such vehicles and components as described in subsection (d), and

''(C) for research and development related to advanced technology motor vehicles and eligible components.

''(2) ATTRIBUTION RULES.—In the event a facility of the eligible taxpayer produces both advanced technology motor vehicles and conventional motor vehicles, or eligible and non-eligible components, only the qualified investment attributable to production of advanced technology motor vehicles and eligible components shall be taken into account.

''(c) ADVANCED TECHNOLOGY MOTOR VEHICLES AND ELIGIBLE COMPONENTS.—For purposes of this section—

''(1) ADVANCED TECHNOLOGY MOTOR VEHICLE.—The term 'advanced technology motor vehicle' means—

''(A) any new advanced lean burn technology motor vehicle (as defined in section 30B(c)(3)),

''(B) any new qualified hybrid motor vehicle (as defined in section 30B(d)(3)(A) and determined without regard to any gross vehicle weight rating), or

''(C) any new plug-in hybrid electric vehicle.

''(2) PLUG-IN HYBRID ELECTRIC VEHICLE.—For purposes of this section, the term 'plug-in hybrid electric vehicle' means a light-duty, medium-duty, or heavy-duty on-road or nonroad vehicle that is propelled by an internal combustion engine or heat engine and/or an electric motor and energy storage system using (or capable of using)—

''(A) any combustible fuel,

''(B) an on-board, rechargeable storage device, and

''(C) a means of using an off-board source of electricity to operate the vehicle in intermittent or continuous all-electric mode.

''(3) ELIGIBLE COMPONENTS.—The term 'eligible component' means any component inherent to any advanced technology motor vehicle, including—

''(A) with respect to any gasoline or diesel-electric new qualified hybrid motor vehicle—

''(i) electric motor or generator,

''(ii) power split device,

''(iii) power control unit,

''(iv) power controls,

''(v) integrated starter generator, or

''(vi) battery,

''(B) with respect to any hydraulic new qualified hybrid motor vehicle—

''(i) hydraulic accumulator vessel,

''(ii) hydraulic pump, or

''(iii) hydraulic pump-motor assembly,

''(C) with respect to any new advanced lean burn technology motor vehicle—

''(i) diesel engine,

''(ii) turbocharger,

''(iii) fuel injection system, or

''(iv) after-treatment system, such as a particle filter or NOx absorber, and

''(D) with respect to any advanced technology motor vehicle, any other component submitted for approval by the Secretary.

''(d) ENGINEERING INTEGRATION COSTS.—For purposes of subsection (b)(1)(B), costs for engineering integration are costs incurred prior to the market introduction of advanced technology vehicles for engineering tasks related to—

''(1) establishing functional, structural, and performance requirements for component and subsystems to meet overall vehicle objectives for a specific application,

''(2) designing interfaces for components and subsystems with mating systems within a specific vehicle application,

''(3) designing cost effective, efficient, and reliable manufacturing processes to produce components and subsystems for a specific vehicle application, and

''(4) validating functionality and performance of components and subsystems for a specific vehicle application.

''(e) ELIGIBLE TAXPAYER.—For purposes of this section, the term 'eligible taxpayer' means any taxpayer if more than 50 percent of its gross receipts for the taxable year is derived from the manufacture of motor vehicles or any component parts of such vehicles.

''(f) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for the taxable year shall not exceed the excess of—

''(1) the sum of—

''(A) the regular tax liability (as defined in section 26(b)) for such taxable year, plus

''(B) the tax imposed by section 55 for such taxable year and any prior taxable year beginning after 1986 and not taken into account under section 53 for any prior taxable year, over

''(2) the sum of the credits allowable under subpart A and sections 27, 30, and 30B for the taxable year.

''(g) REDUCTION IN BASIS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this paragraph) result from such expenditure shall be reduced by the amount of the credit so allowed.

''(h) NO DOUBLE BENEFIT.—

''(1) COORDINATION WITH OTHER DEDUCTIONS AND CREDITS.—Except as provided in paragraph (2), the amount of any deduction or other credit allowable under this chapter for any cost taken into account in determining the amount of the credit under subsection (a) shall be reduced by the amount of such credit attributable to such cost.

''(2) RESEARCH AND DEVELOPMENT COSTS.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), any amount described in subsection (b)(1)(C) taken into account in determining the amount of the credit under subsection (a) for any taxable year shall not be taken into account for purposes of determining the credit under section 41 for such taxable year.

''(B) COSTS TAKEN INTO ACCOUNT IN DETERMINING BASE PERIOD RESEARCH EXPENSES.—Any amounts described in subsection (b)(1)(C) taken into account in determining the amount of the credit under subsection (a) for any taxable year which are qualified research expenses (within the meaning of section 41(b)) shall be taken into account in determining base period research expenses for purposes of applying section 41 to subsequent taxable years.

''(i) BUSINESS CARRYOVERS ALLOWED.—If the credit allowable under subsection (a) for a taxable year exceeds the limitation under subsection (f) for such taxable year, such excess (to the extent of the credit allowable with respect to property subject to the allowance for depreciation) shall be allowed as a credit carryback and carryforward under rules similar to the rules of section 39.

''(j) SPECIAL RULES.—For purposes of this section, rules similar to the rules of paragraphs (4) and (5) of section 179A(e) and paragraphs (1) and (2) of section 41(f) shall apply

''(k) ELECTION NOT TO TAKE CREDIT.—No credit shall be allowed under subsection (a) for any property if the taxpayer elects not to have this section apply to such property.

''(l) REGULATIONS.—The Secretary shall prescribe such regulations as necessary to carry out the provisions of this section.

''(m) TERMINATION.—This section shall not apply to any qualified investment after December 31, 2015.''.

(b) CONFORMING AMENDMENTS.—

(1) Section 1016(a), as amended by this Act, is amended by striking ''and'' at the end of paragraph (36), by striking the period at the end of paragraph (37) and inserting '', and'', and by adding at the end the following new paragraph:

''(38) to the extent provided in section 30E(g).''.

(2) Section 6501(m), as amended by this Act, is amended by inserting ''30E(k),'' after ''30D(e)(9),''.

(3) The table of sections for subpart B of part IV of subchapter A of chapter 1, as amended by this Act, is amended by inserting after the item relating to section 30C the following new item:

''Sec. 30E. Advanced technology motor vehicles manufacturing credit.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts incurred in taxable years beginning after December 31, 2006.

SA 1784. Mr. CARPER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in

clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 87, between lines 9 and 10, insert the following:

(c) SPECIAL RULE FOR MODEL YEAR 2009 MOTOR VEHICLES.—Section 30B(c) is amended by adding at the end the following new paragraph:

''(5) SPECIAL RULE FOR 2009 MODEL YEAR VEHICLES.—In the case of any motor vehicle which is manufactured in model year 2009—

''(A) paragraph (3)(A)(iv)(I) shall be applied by substituting 'the Bin 8 Tier II emission standard' for 'the Bin 5 Tier II emission standard', and

''(B) in applying this subsection to any motor vehicle which is a new advanced lean burn technology motor vehicle by reason of subparagraph (A), the amount of the credit allowed under this subsection shall be an amount equal to 75 percent of the amount which would be otherwise so allowed, determined without regard to this subparagraph.''.

SA 1785. Mr. CARPER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 87, between lines 9 and 10, insert the following:

(c) SPECIAL RULE FOR MODEL YEAR 2009 MOTOR VEHICLES.—Section 30B(c) is amended by adding at the end the following new paragraph:

''(5) SPECIAL RULE FOR 2009 MODEL YEAR VEHICLES.—In the case of any motor vehicle which is manufactured in model year 2009—

''(A) paragraph (3)(A)(iv)(I) shall be applied by substituting 'the Bin 8 Tier II emission standard' for 'the Bin 5 Tier II emission standard', and

''(B) in applying this subsection to any motor vehicle which is a new advanced lean burn technology motor vehicle by reason of subparagraph (A), the amount of the credit allowed under this subsection shall be an amount equal to 50 percent of the amount which would be otherwise so allowed, determined without regard to this subparagraph.''.

SA 1786. Mr. BIDEN (for himself and Mr. LUGAR) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

TITLE VIII—MISCELLANEOUS

SEC. 801. SENSE OF THE SENATE ON ADDRESSING THE RISKS POSED BY GLOBAL CLIMATE CHANGE.

(a) FINDINGS.—The Senate finds the following:

(1) There is a scientific consensus, as established by the Intergovernmental Panel on Climate Change and confirmed by the National Academy of Sciences, that the continued buildup of anthropogenic greenhouse gases in the atmosphere threatens the stability of the global climate.

(2) There are significant long-term risks to the economy and the environment of the United States from the temperature increases and climatic disruptions that are projected to result from increased greenhouse gas concentrations.

(3) The potential impacts of global climate change, including long-term drought, famine, mass migration, and abrupt climatic shifts, may lead to international tensions and instability in regions affected and, therefore, have implications for the national security interests of the United States.

(4) The United States has the largest economy in the world and is also the largest emitter of greenhouse gases.

(5) The greenhouse gas emissions of the United States are projected to continue to rise.

(6) The greenhouse gas emissions of developing countries are rising more rapidly than the emissions of the United States and will soon surpass the greenhouse gas emissions of the United States and other developed countries.

(7) Reducing greenhouse gas emissions to the levels necessary to avoid serious climatic disruption requires the introduction of new energy technologies and other climate-friendly technologies, the use of which results in low or no emissions of greenhouse gases or in the capture and storage of greenhouse gases.

(8) The development and sale of climate-friendly technologies in the United States and internationally present economic opportunities for workers and businesses in the United States.

(9) Climate-friendly technologies can improve air quality by reducing harmful pollutants from stationary and mobile sources and can enhance energy security by reducing reliance on imported oil, diversifying energy sources, and reducing the vulnerability of energy delivery infrastructure.

(10) Other industrialized countries are undertaking measures to reduce greenhouse gas emissions, which provide the industries in those countries with a competitive advantage in the growing global market for climate-friendly technologies.

(11) Efforts to limit emissions growth in developing countries in a manner that is consistent with the development needs of those countries could establish significant markets for climate-friendly technologies and contribute to international efforts to address climate change.

(12) The United States Climate Change Science Program launched by President George W. Bush concluded in April 2006 that there is no longer a discrepancy between the rates of global average temperature increase observed at the Earth's surface and in the atmosphere, strengthening the scientific evidence that human activity contributes significantly to global temperature increases.

(13) President Bush, in the State of the Union Address given in January 2006, called on the United States to reduce its ''addiction'' to oil and focus its attention on developing cleaner, renewable, and sustainable energy sources.

(14) President Bush has launched the Asia-Pacific Partnership on Clean Development and Climate to cooperatively develop new and cleaner energy technologies and promote their use in fast-developing nations like India and China.

(15) The national security of the United States will increasingly depend on the deployment of diplomatic, military, scientific, and economic resources toward solving the problem of the overreliance of the United States and the world on high-carbon energy.

(16) As documented in recent studies, a failure to recognize, plan for, and mitigate the strategic, social, political, and economic effects of a changing climate will have an adverse impact on the national security interests of the United States.

(17) The United States is a party to the United Nations Framework Convention on Climate Change, done at New York May 9, 1992, and entered into force in 1994 (hereinafter referred to as the ''Convention'').

(18) At the December 2005 United Nations Climate Change Conference in Montreal, Canada, parties to the Convention, with the concurrence of the United States, initiated a new dialogue on long-term cooperative action to address climate change.

(19) The Convention sets a long-term objective of stabilizing greenhouse gas concentrations in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system.

(20) The Convention establishes that parties bear common but differentiated responsibilities for efforts to achieve the objective of stabilizing greenhouse gas concentrations.

(21) An effective global effort to address climate change must provide for commitments and action by all countries that are major emitters of greenhouse gases, developed and developing alike, and the widely varying circumstances among the developed and developing countries may require that such commitments and action vary.

(22) The United States has the capability to lead the effort to counter global climate change.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the United States should act to reduce the health, environmental, economic, and national security risks posed by global climate change and foster sustained economic growth through a new generation of technologies, by—

(1) participating in negotiations under the United Nations Framework Convention on Climate Change, done at New York May 9, 1992, and entered into force in 1994, and leading efforts in other international fora, with the objective of securing United States participation in binding agreements that—

(A) advance and protect the economic and national security interests of the United States;

(B) establish mitigation commitments by all countries that are major emitters of greenhouse gases, consistent with the principle of common but differentiated responsibilities;

(C) establish flexible international mechanisms to minimize the cost of efforts by participating countries; and

(D) achieve a significant long-term reduction in global greenhouse gas emissions; and

(2) establishing a bipartisan Senate observer group, the members of which shall be designated by the Majority Leader and the Minority Leader of the Senate and shall represent the appropriate congressional committees of oversight, to—

(A) monitor any international negotiations on climate change; and

(B) ensure that the advice and consent function of the Senate is exercised in a manner to facilitate timely consideration of any applicable treaty submitted to the Senate.

SA 1787. Mr. BIDEN (for himself and Mr. LUGAR) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

TITLE VIII—MISCELLANEOUS

SEC. 801. SENSE OF THE SENATE ON ADDRESSING THE RISKS POSED BY GLOBAL CLIMATE CHANGE.

(a) FINDINGS.—The Senate finds the following:

(1) There is a scientific consensus, as established by the Intergovernmental Panel on Climate Change and confirmed by the National Academy of Sciences, that the continued buildup of anthropogenic greenhouse gases in the atmosphere threatens the stability of the global climate.

(2) There are significant long-term risks to the economy and the environment of the United States from the temperature increases and climatic disruptions that are projected to result from increased greenhouse gas concentrations.

(3) The potential impacts of global climate change, including long-term drought, famine, mass migration, and abrupt climatic shifts, may lead to international tensions and instability in regions affected and, therefore, have implications for the national security interests of the United States.

(4) The United States has the largest economy in the world and is also the largest emitter of greenhouse gases.

(5) The greenhouse gas emissions of the United States are projected to continue to rise.

(6) The greenhouse gas emissions of developing countries are rising more rapidly than the emissions of the United States and will soon surpass the greenhouse gas emissions of the United States and other developed countries.

(7) Reducing greenhouse gas emissions to the levels necessary to avoid serious climatic disruption requires the introduction of new energy technologies and other climate-friendly technologies, the use of which results in low or no emissions of greenhouse gases or in the capture and storage of greenhouse gases.

(8) The development and sale of climate-friendly technologies in the United States and internationally present economic opportunities for workers and businesses in the United States.

(9) Climate-friendly technologies can improve air quality by reducing harmful pollutants from stationary and mobile sources and can enhance energy security by reducing reliance on imported oil, diversifying energy sources, and reducing the vulnerability of energy delivery infrastructure.

(10) Other industrialized countries are undertaking measures to reduce greenhouse gas emissions, which provide the industries in those countries with a competitive advantage in the growing global market for climate-friendly technologies.

(11) Efforts to limit emissions growth in developing countries in a manner that is consistent with the development needs of those countries could establish significant markets for climate-friendly technologies and contribute to international efforts to address climate change.

(12) The United States Climate Change Science Program launched by President George W. Bush concluded in April 2006 that there is no longer a discrepancy between the rates of global average temperature increase observed at the Earth's surface and in the atmosphere, strengthening the scientific evidence that human activity contributes significantly to global temperature increases.

(13) President Bush, in the State of the Union Address given in January 2006, called on the United States to reduce its ''addiction'' to oil and focus its attention on developing cleaner, renewable, and sustainable energy sources.

(14) President Bush has launched the Asia-Pacific Partnership on Clean Development and Climate to cooperatively develop new and cleaner energy technologies and promote their use in fast-developing nations like India and China.

(15) The national security of the United States will increasingly depend on the deployment of diplomatic, military, scientific, and economic resources toward solving the problem of the overreliance of the United States and the world on high-carbon energy.

(16) The United States is a party to the United Nations Framework Convention on Climate Change, done at New York May 9, 1992, and entered into force in 1994 (hereinafter referred to as the ''Convention'').

(17) At the December 2005 United Nations Climate Change Conference in Montreal, Canada, parties to the Convention, with the concurrence of the United States, initiated a new dialogue on long-term cooperative action to address climate change.

(18) The Convention sets a long-term objective of stabilizing greenhouse gas concentrations in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system.

(19) The Convention establishes that parties bear common but differentiated responsibilities for efforts to achieve the objective of stabilizing greenhouse gas concentrations.

(20) An effective global effort to address climate change must provide for commitments and action by all countries that are major emitters of greenhouse gases, developed and developing alike, and the widely varying circumstances among the developed and developing countries may require that such commitments and action vary.

(21) The United States has the capability to lead the effort to counter global climate change.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the United States should act to reduce the health, environmental, economic, and national security risks posed by global climate change and foster sustained economic growth through a new generation of technologies, by—

(1) participating in negotiations under the United Nations Framework Convention on Climate Change, done at New York May 9, 1992, and entered into force in 1994, and leading efforts in other international fora, with the objective of securing United States participation in binding agreements that—

(A) advance and protect the economic and national security interests of the United States;

(B) establish mitigation commitments by all countries that are major emitters of greenhouse gases, consistent with the principle of common but differentiated responsibilities;

(C) establish flexible international mechanisms to minimize the cost of efforts by participating countries; and

(D) achieve a significant long-term reduction in global greenhouse gas emissions; and

(2) establishing a bipartisan Senate observer group, the members of which shall be designated by the Majority Leader and the Minority Leader of the Senate and shall represent the appropriate congressional committees of oversight, to—

(A) monitor any international negotiations on climate change; and

(B) ensure that the advice and consent function of the Senate is exercised in a manner to facilitate timely consideration of any applicable treaty submitted to the Senate.

SA 1788. Mr. STEVENS (for himself, Ms. SNOWE, Mr. ALEXANDER, Mr. CARPER, Mr. LOTT, Mr. KERRY, and Mr. CORKER) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 240, beginning in line 15, strike ''a manufacturer'' and insert ''manufacturers''.

On page 241, beginning in line 16, strike ''at least 4 percent greater than the'' and insert ''the maximum feasible''.

On page 241, beginning in line 17, strike ''required to be attained for the fleet in the previous model year (rounded to the nearest 1/10 mile per gallon).'' and insert ''for the fleet.''.

On page 243, beginning in line 18, strike ''and based on the results of that study,'' and insert ''by regulation,''.

On page 243, line 22, strike ''and, as appropriate, shall adopt'' and insert ''designed to achieve the maximum feasible improvement, and shall adopt appropriate''.

On page 243, line 23, strike ''efficiency'' and insert ''economy''.

On page 244, line 12, strike ''a commercial'' and insert ''an''.

On page 244, line 14, strike ''10,000 pounds.'' and insert ''8,500 pounds, and that, in the case of a vehicle with a gross vehicle weight rating of less than 10,000 pounds, is not an automobile.''.

On page 244, beginning with line 20, strike through line 5 on page 245, and insert the following:

''(1) VEHICLE ATTRIBUTES; MODEL YEARS COVERED.—The Secretary shall—

''(A) prescribe by regulation average fuel economy standards for automobiles based on vehicle attributes related to fuel economy and to express the standards in the form of a mathematical function; and

''(B) issue regulations under this title prescribing average fuel economy standards for 1 or more model years.

On page 245, beginning with line 17, strike through line 8 on page 247 and insert the following:

''(c) AMENDING FUEL ECONOMY STANDARDS.—Notwithstanding subsections (a) and (b), the Secretary of Transportation—

''(1) may prescribe a standard higher than that required under subsection (b); or

''(2) may prescribe an average fuel economy standard for automobiles that is the maximum feasible level for the model year, despite being lower than the standard required under subsection (b), if the Secretary determines, based on clear and convincing evidence, that the average fuel economy standard prescribed in accordance with subsections (a) and (b) for automobiles in that model year is shown not to be cost-effective.''.

On page 251, between lines 13 and 14, insert the following:

(e) ALTERNATIVE FUEL ECONOMY STANDARDS FOR LOW VOLUME MANUFACTURERS AND NEW ENTRANTS.—Section 32902(d) of title 49, United States Code, is amended to read as follows:

''(d) ALTERNATIVE AVERAGE FUEL ECONOMY STANDARD.—

''(1) IN GENERAL.—Upon the application of an eligible manufacturer, the Secretary of Transportation may prescribe an alternative average fuel economy standard for automobiles manufactured by that manufacturer if the Secretary determines that—

''(A) the applicable standard prescribed under subsection (a), (b), or (c) is more stringent than the maximum feasible average fuel economy level that manufacturer can achieve; and

''(B) the alternative average fuel economy standard prescribed under this subsection is the maximum feasible average fuel economy level that manufacturer can achieve.

''(2) APPLICATION OF ALTERNATIVE STANDARD.—The Secretary may provide for the application of an alternative average fuel economy standard prescribed under paragraph (1) to—

''(A) the manufacturer that applied for the alternative average fuel economy standard;

''(B) all automobiles to which this subsection applies; or

''(C) classes of automobiles manufactured by eligible manufacturers.

''(3) IMPORTERS.—Notwithstanding paragraph (1), an importer registered under section 30141(c) may not be exempted as a manufacturer under paragraph (1) for an automobile that the importer—

''(A) imports; or

''(B) brings into compliance with applicable motor vehicle safety standards prescribed under chapter 301 for an individual described in section 30142.

''(4) APPLICATION.—The Secretary of Transportation may prescribe the contents of an application for an alternative average fuel economy standard.

''(5) ELIGIBLE MANUFACTURER DEFINED.—In this section, the term 'eligible manufacturer' means a manufacturer that—

''(A) is not owned in whole or in part by another manufacturer that sold greater than 0.5 percent of the number of automobiles sold in the United States in the model year prior to the model year to which the application relates;

''(B) sold in the United States fewer than 0.4 percent of the number of automobiles sold in the United States in the model year that is 2 years before the model year to which the application relates; and

''(C) will sell in the United States fewer than 0.4 percent of the automobiles sold in the United States for the model year for which the alternative average fuel economy standard will apply.

''(6) LIMITATION.—For purposes of this subsection, notwithstanding section 32901(a)(4), the term 'automobile manufactured by a manufacturer' includes every automobile manufactured by a person that controls, is controlled by, or is under common control with the manufacturer.''.

On page 251, line 14, strike ''(e)'' and insert ''(f)''.

On page 253, beginning in line 15, strike ''**and aggressivity reduction**''.

On page 253, line 19, strike ''incompatibility and aggressivity.'' and insert ''incompatibility.''.

On page 254, in the matter appearing between lines 20 and 21, strike ''and aggressivity reduction''.

On page 259, line 9, after ''automobile'' insert ''and medium-duty and heavy-duty truck''.

On page 259, line 11, after ''automotive'' insert ''and medium-duty and heavy-duty truck''.

On page 261, beginning with line 5, strike through line 8 on page 263.

On page 263, line 9, strike ''**SEC. 512.**'' and insert ''**SEC. 511.**''.

On page 264, line 18, strike ''**SEC. 513.**'' and insert ''**SEC. 512.**''.

On page 265, line 11, strike ''**SEC. 514.**'' and insert ''**SEC. 513.**''.

On page 268, line 14, strike ''**SEC. 515.**'' and insert ''**SEC. 514.**''.

On page 269, line 17, insert ''and'' after the semicolon.

On page 269, strike lines 18 through 20.

On page 269, line 21, strike ''(iii)'' and insert ''(ii)''.

On page 270, line 17, strike ''**SEC. 516.**'' and insert ''**SEC. 515.**''.

On page 272, line 10, strike ''**SEC. 517.**'' and insert ''**SEC. 516.**''.

On page 273, line 6, strike ''518(a)'' and insert ''517(a)''.

On page 273, line 7, strike ''**SEC. 518.**'' and insert ''**SEC. 517.**''.

On page 276, line 20, strike ''**SEC. 519.**'' and insert ''**SEC. 518.**''.

On page 277, line 1, strike ''**SEC. 520.**'' and insert ''**SEC. 519.**''.

SA 1789. Mr. SALAZAR submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 37, strike line 24 and all that follows through page 38, line 3, and insert the following:

''(2) REQUIREMENTS.—

(A) IN GENERAL.—A project under this subsection shall employ new or significantly improved technologies for the production of renewable fuels as compared to commercial technologies in service in the United States on the date on which the guarantee is issued.

(B) NEW OR SIGNIFICANTLY IMPROVED TECHNOLOGIES.—To be considered a new or significantly improved technology under subparagraph (A), the technology shall have the potential, not later than 15 years after the date on which the guarantee is issued—

(i) to achieve scalability with an annual rate of production equal to a rate of not less than 15,000,000,000 gallons of conventional biofuels per year; and

(ii) to be competitive with respect to the cost of conventional biofuels.

SA 1790. Mr. SALAZAR submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 7, line 13, strike ''and'' at the end.

On page 7, line 16, strike the period at the end and insert ''; and''.

On page 7, between lines 16 and 17, insert the following:

(vii) cellulosic biofuel, including any liquid transportation fuel that is derived from any lignocellulosic or hemicellulosic matter (other than food starch) that is available on a renewable or recurring basis.

SA 1791. Mr. SCHUMER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 69, after line 20, insert the following:

(2) CLARIFICATION OF DEFINITION.—Paragraph (3) of section 40A(f) is amended—

(A) by striking ''thermal depolymerization process'' and inserting ''thermal chemical process'',

(B) by inserting '', if applicable'' after ''(42 U.S.C. 7545)'' in subparagraph (A), and

(C) by inserting ''or such other applicable standards as may be issued by the American Society of Testing and Materials that apply to a final mixture or product'' after ''D975 or D396'' in subparagraph (B).

SA 1792. Mr. STEVENS (for himself, Ms. SNOWE, Mr. ALEXANDER, Mr. CARPER, Mr. LOTT, Mr. KERRY, and Mr. CORKER) submitted an amendment intended to be proposed to amendment

SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 239, beginning with line 16, strike through line 5 on page 277 and insert the following:

TITLE V—CORPORATE AVERAGE FUEL ECONOMY STANDARDS

SEC. 501. SHORT TITLE.

This title may be cited as the ''Ten-in-Ten Fuel Economy Act''.

SEC. 502. AVERAGE FUEL ECONOMY STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.

(a) INCREASED STANDARDS.—Section 32902 of title 49, United States Code, is amended—

(1) by striking ''**NON-PASSENGER AUTOMOBILES**.—'' in subsection (a) and inserting ''**PRESCRIPTION OF STANDARDS BY REGULATION**.—'';

(2) by striking ''(except passenger automobiles)'' in subsection (a); and

(3) by striking subsection (b) and inserting the following:

''(b) STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.—

''(1) IN GENERAL.—The Secretary of Transportation, after consultation with the Administrator of the Environmental Protection Agency, shall prescribe average fuel economy standards for—

''(A) automobiles manufactured by manufacturers in each model year beginning with model year 2011 in accordance with subsection (c); and

''(B) commercial medium-duty or heavy-duty on-highway vehicles in accordance with subsection (k).

''(2) FUEL ECONOMY TARGET FOR AUTOMOBILES.—

''(A) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2011 THROUGH 2020.—The Secretary shall prescribe average fuel economy standards for automobiles in each model year beginning with model year 2011 to achieve a combined fuel economy average for model year 2020 of at least 35 miles per gallon for the fleet of automobiles manufactured or sold in the United States. The average fuel economy standards prescribed by the Secretary shall be the maximum feasible average fuel economy standards for model years 2011 through 2019.

''(B) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2021 THROUGH 2030.—For model years 2021 through 2030, the average fuel economy required to be attained by the fleet of automobiles manufactured or sold in the United States shall be the maximum feasible average fuel economy standard for the fleet.

''(C) PROGRESS TOWARD STANDARD REQUIRED.—In prescribing average fuel economy standards under subparagraph (A), the Secretary shall prescribe annual fuel economy standard increases that increase the applicable average fuel economy standard ratably beginning with model year 2011 and ending with model year 2020.''.

(b) FUEL ECONOMY TARGET FOR COMMERCIAL MEDIUM-DUTY AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—Section 32902 of title 49, United States Code, is amended by adding at the end thereof the following:

''(k) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—

''(1) STUDY.—No later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall examine the fuel efficiency of commercial medium- and heavy-duty on-highway vehicles and determine—

''(A) the appropriate test procedures and methodologies for measuring commercial medium- and heavy-duty on-highway vehicle fuel efficiency;

''(B) the appropriate metric for measuring and expressing commercial medium- and heavy-duty on-highway vehicle fuel efficiency performance, taking into consideration, among other things, the work performed by such on-highway vehicles and types of operations in which they are used;

''(C) the range of factors, including, without limitation, design, functionality, use, duty cycle, infrastructure, and total overall energy consumption and operating costs that effect commercial medium- and heavy-duty on-highway vehicle fuel efficiency; and

''(D) such other factors and conditions that could have an impact on a program to improve commercial medium- and heavy-duty on-highway vehicle fuel efficiency.

''(2) RULEMAKING.—No later than 24 months after completion of the study required by paragraph (1), the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, by regulation, shall determine in a rulemaking procedure how to implement a commercial medium- and heavy-duty on-highway vehicle fuel efficiency improvement program designed to achieve the maximum feasible improvement, and shall adopt appropriate test methods, measurement metrics, fuel economy standards, and compliance and enforcement protocols that are appropriate, cost-effective, and technologically feasible for commercial medium- and heavy-duty on-highway vehicles.

''(3) LEAD-TIME; REGULATORY STABILITY.—Any commercial medium- and heavy-duty on-highway vehicle fuel efficiency regulatory program adopted pursuant to this subsection shall provide no less than 4 full model years of regulatory lead-time and 3 full model years of regulatory stability.

''(4) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLE DEFINED.—In this subsection, the term 'commercial medium- and heavy-duty on-highway vehicle' means an on-highway vehicle with a gross vehicle weight rating of more than 8,500 pounds, and that, in the case of a vehicle with a gross vehicle weight rating of less than 10,000 pounds, is not an automobile.''.

(c) AUTHORITY OF SECRETARY.—Section 32902 of title 49, United States Code, as amended by subsection (b), is further amended by adding at the end thereof the following:

''(l) AUTHORITY OF THE SECRETARY.—

''(1) VEHICLE ATTRIBUTES; MODEL YEARS COVERED.—The Secretary shall—

''(A) prescribe by regulation average fuel economy standards for automobiles based on vehicle attributes related to fuel economy and to express the standards in the form of a mathematical function; and

''(B) issue regulations under this title prescribing average fuel economy standards for 1 or more model years.

''(2) PROHIBITION OF UNIFORM PERCENTAGE INCREASE.—When the Secretary prescribes a standard, or prescribes an amendment under this section that changes a standard, the standard may not be expressed as a uniform percentage increase from the fuel-economy performance of attribute classes or categories already achieved in a model year by a manufacturer.''.

SEC. 503. AMENDING FUEL ECONOMY STANDARDS.

(a) IN GENERAL.—Section 32902(c) of title 49, United States Code, is amended to read as follows:

''(c) AMENDING FUEL ECONOMY STANDARDS.—Notwithstanding subsections (a) and (b), the Secretary of Transportation—

''(1) may prescribe a standard higher than that required under subsection (b); or

''(2) may prescribe an average fuel economy standard for automobiles that is the maximum feasible level for the model year, despite being lower than the standard required under subsection (b), if the Secretary determines, based on clear and convincing evidence, that the average fuel economy standard prescribed in accordance with subsections (a) and (b) for automobiles in that model year is shown not to be cost-effective.''.

(b) FEASIBILITY CRITERIA.—Section 32902(f) of title 49, United States Code, is amended to read as follows:

''(f) DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.—

''(1) IN GENERAL.—When deciding maximum feasible average fuel economy under this section, the Secretary shall consider—

''(A) economic practicability;

''(B) the effect of other motor vehicle standards of the Government on fuel economy;

''(C) environmental impacts; and

''(D) the need of the United States to conserve energy.

''(2) LIMITATIONS.—In setting any standard under subsection (b), (c), or (d), the Secretary shall ensure that each standard is the highest standard that—

''(A) is technologically achievable;

''(B) can be achieved without materially reducing the overall safety of automobiles manufactured or sold in the United States;

''(C) is not less than the standard for that class of vehicles from any prior year; and

''(D) is cost-effective.

''(3) COST-EFFECTIVE DEFINED.—In this subsection, the term 'cost-effective' means that the value to the United States of reduced fuel use from a proposed fuel economy standard is greater than or equal to the cost to the United States of such standard. In determining cost-effectiveness, the Secretary shall give priority to those technologies and packages of technologies that offer the largest reduction in fuel use relative to their costs.

''(4) FACTORS FOR CONSIDERATION BY SECRETARY IN DETERMINING COST-EFFECTIVENESS.—The Secretary shall consult with the Administrator of the Environmental Protection Agency, and may consult with such other departments and agencies as the Secretary deems appropriate, and shall consider in the analysis the following factors:

''(A) Economic security.

''(B) The impact of the oil or energy intensity of the United States economy on the sensitivity of the economy to oil and other fuel price changes, including the magnitude of gross domestic product losses in response to short term price shocks or long term price increases.

''(C) National security, including the impact of United States payments for oil and other fuel imports on political, economic, and military developments in unstable or unfriendly oil-exporting countries.

''(D) The uninternalized costs of pipeline and storage oil seepage, and for risk of oil spills from production, handling, and transport, and related landscape damage.

''(E) The emissions of pollutants including greenhouse gases over the lifecycle of the fuel and the resulting costs to human health, the economy, and the environment.

''(F) Such additional factors as the Secretary deems relevant.

''(5) MINIMUM VALUATION.—When considering the value to consumers of a gallon of gasoline saved, the Secretary of Transportation shall use as a minimum value the greater of—

''(A) the average value of gasoline prices projected by the Energy Information Administration over the period covered by the standard; or

''(B) the average value of gasoline prices for the 5-year period immediately preceding the year in which the standard is established.''.

(c) CONSULTATION REQUIREMENT.—Section 32902(i) of title 49, United States Code, is amended by inserting ''and the Administrator of the Environmental Protection Agency'' after ''Energy''.

(d) COMMENTS.—Section 32902(j) of title 49, United States Code, is amended—

(1) by striking paragraph (1) and inserting ''(1) Before issuing a notice proposing to prescribe or amend an average fuel economy standard under subsection (b), (c), or (g) of this section, the Secretary of Transportation shall give the Secretary of Energy and Administrator of the Environmental Protection Agency at least 30 days after the receipt of the notice during which the Secretary of Energy and Administrator may, if the Secretary of Energy or Administrator concludes that the proposed standard would adversely affect the conservation goals of the Secretary of Energy or environmental protection goals of the Administrator, provide written comments to the Secretary of Transportation about the impact of the standard on those goals. To the extent the Secretary of Transportation does not revise a proposed standard to take into account comments of the Secretary of Energy or Administrator on any adverse impact of the standard, the Secretary of Transportation shall include those comments in the notice.''; and

(2) by inserting ''and the Administrator'' after ''Energy'' each place it appears in paragraph (2).

(e) ALTERNATIVE FUEL ECONOMY STANDARDS FOR LOW VOLUME MANUFACTURERS AND NEW ENTRANTS.—Section 32902(d) of title 49, United States Code, is amended to read as follows:

''(d) ALTERNATIVE AVERAGE FUEL ECONOMY STANDARD.—

''(1) IN GENERAL.—Upon the application of an eligible manufacturer, the Secretary of Transportation may prescribe an alternative average fuel economy standard for automobiles manufactured by that manufacturer if the Secretary determines that—

''(A) the applicable standard prescribed under subsection (a), (b), or (c) is more stringent than the maximum feasible average fuel economy level that manufacturer can achieve; and

''(B) the alternative average fuel economy standard prescribed under this subsection is the maximum feasible average fuel economy level that manufacturer can achieve.

''(2) APPLICATION OF ALTERNATIVE STANDARD.—The Secretary may provide for the application of an alternative average fuel economy standard prescribed under paragraph (1) to—

''(A) the manufacturer that applied for the alternative average fuel economy standard;

''(B) all automobiles to which this subsection applies; or

''(C) classes of automobiles manufactured by eligible manufacturers.

''(3) IMPORTERS.—Notwithstanding paragraph (1), an importer registered under section 30141(c) may not be exempted as a manufacturer under paragraph (1) for an automobile that the importer—

''(A) imports; or

''(B) brings into compliance with applicable motor vehicle safety standards prescribed under chapter 301 for an individual described in section 30142.

''(4) APPLICATION.—The Secretary of Transportation may prescribe the contents of an application for an alternative average fuel economy standard.

''(5) ELIGIBLE MANUFACTURER DEFINED.—In this section, the term 'eligible manufacturer' means a manufacturer that—

''(A) is not owned in whole or in part by another manufacturer that sold greater than 0.5 percent of the number of automobiles sold in the United States in the model year prior to the model year to which the application relates;

''(B) sold in the United States fewer than 0.4 percent of the number of automobiles sold in the United States in the model year that is 2 years before the model year to which the application relates; and

''(C) will sell in the United States fewer than 0.4 percent of the automobiles sold in the United States for the model year for which the alternative average fuel economy standard will apply.

''(6) LIMITATION.—For purposes of this subsection, notwithstanding section 32901(a)(4), the term 'automobile manufactured by a manufacturer' includes every automobile manufactuered by a person that controls, is controlled by, or is under common control with the manufacturer.

(f) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Section 32902(d) of title 49, United States Code, is amended by striking ''passenger'' each place it appears.

(2) Section 32902(g) of title 49, United States Code, is amended—

(A) by striking ''subsection (a) or (d)'' each place it appears in paragraph (1) and inserting ''subsection (b), (c), or (d)''; and

(B) striking ''(and submit the amendment to Congress when required under subsection (c)(2) of this section)'' in paragraph (2).

SEC. 504. DEFINITIONS.

(a) IN GENERAL.—Section 32901(a) of title 49, United States Code, is amended—

(1) by striking paragraph (3) and inserting the following:

''(3) except as provided in section 32908 of this title, 'automobile' means a 4-wheeled vehicle that is propelled by fuel, or by alternative fuel, manufactured primarily for use on public streets, roads, and highways and rated at not more than 10,000 pounds gross vehicle weight, except—

''(A) a vehicle operated only on a rail line;

''(B) a vehicle manufactured by 2 or more manufacturers in different stages and less than 10,000 of which are manufactured per year; or

''(C) a work truck.''; and

(2) by adding at the end the following:

''(17) 'work truck' means an automobile that the Secretary determines by regulation—

''(A) is rated at between 8,500 and 10,000 pounds gross vehicle weight; and

''(B) is not a medium-duty passenger vehicle (as defined in section 86.1803–01 of title 40, Code of Federal Regulations).''.

(b) DEADLINE FOR REGULATIONS.—The Secretary of Transportation—

(1) shall issue proposed regulations implementing the amendments made by subsection (a) not later than 1 year after the date of enactment of this Act; and

(2) shall issue final regulations implementing the amendments not later than 18 months after the date of the enactment of this Act.

(c) EFFECTIVE DATE.—Regulations prescribed under subsection (b) shall apply beginning with model year 2010.

SEC. 505. ENSURING SAFETY OF AUTOMOBILES.

(a) IN GENERAL.—Subchapter II of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

''§ 30129. Vehicle compatibility standard

''(a) STANDARDS.—The Secretary of Transportation shall issue a motor vehicle safety standard to reduce automobile incompatibility. The standard shall address characteristics necessary to ensure better management of crash forces in multiple vehicle frontal and side impact crashes between different types, sizes, and weights of automobiles with a gross vehicle weight of 10,000 pounds or less in order to decrease occupant deaths and injuries.

''(b) CONSUMER INFORMATION.—The Secretary shall develop and implement a public information side and frontal compatibility crash test program with vehicle ratings based on risks to occupants, risks to other motorists, and combined risks by vehicle make and model.''.

(b) RULEMAKING DEADLINES.—

(1) RULEMAKING.—The Secretary of Transportation shall issue—

(A) a notice of a proposed rulemaking under section 30129 of title 49, United States Code, not later than January 1, 2012; and

(B) a final rule under such section not later than December 31, 2014.

(2) EFFECTIVE DATE OF REQUIREMENTS.—Any requirement imposed under the final rule issued under paragraph (1) shall become fully effective not later than September 1, 2018.

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 301 is amended by inserting after the item relating to section 30128 the following:

''30129. Vehicle compatibility standard''.

SEC. 506. CREDIT TRADING PROGRAM.

Section 32903 of title 49, United States Code, is amended—

(1) by striking ''passenger'' each place it appears;

(2) by striking ''section 32902(b)–(d) of this title'' each place it appears and inserting ''subsection (a), (c), or (d) of section 32902'';

(3) by striking ''3 consecutive model years'' in subsection (a)(2) and inserting ''5 consecutive model years'';

(4) in subsection (a)(2), by striking ''clause (1) of this subsection,'' and inserting ''paragraph (1)''; and

(5) by striking subsection (e) and inserting the following:

''(e) CREDIT TRADING AMONG MANUFACTURERS.—The Secretary of Transportation may establish, by regulation, a corporate average fuel economy credit trading program to allow manufacturers whose automobiles exceed the average fuel economy standards prescribed under section 32902 to earn credits

to be sold to manufacturers whose automobiles fail to achieve the prescribed standards such that the total oil savings associated with manufacturers that exceed the prescribed standards are preserved when transferring credits to manufacturers that fail to achieve the prescribed standards.''.

SEC. 507. LABELS FOR FUEL ECONOMY AND GREENHOUSE GAS EMISSIONS.

Section 32908 of title 49, United States Code, is amended—

(1) by redesignating subparagraph (F) of subsection (b)(1) as subparagraph (H) and inserting after subparagraph (E) the following:

''(F) a label (or a logo imprinted on a label required by this paragraph) that—

''(i) reflects an automobile's performance on the basis of criteria developed by the Administrator to reflect the fuel economy and greenhouse gas and other emissions consequences of operating the automobile over its likely useful life;

''(ii) permits consumers to compare performance results under clause (i) among all automobiles; and

''(iii) is designed to encourage the manufacture and sale of automobiles that meet or exceed applicable fuel economy standards under section 32902.

''(G) a fuelstar under paragraph (5).''; and

(2) by adding at the end of subsection (b) the following:

''(4) GREEN LABEL PROGRAM.—

''(A) MARKETING ANALYSIS.—Not later than 2 years after the date of the enactment of the Ten-in-Ten Fuel Economy Act, the Administrator shall implement a consumer education program and execute marketing strategies to improve consumer understanding of automobile performance described in paragraph (1)(F).

''(B) ELIGIBILITY.—Not later than 3 years after the date described in subparagraph (A), the Administrator shall issue requirements for the label or logo required under paragraph (1)(F) to ensure that an automobile is not eligible for the label or logo unless it—

''(i) meets or exceeds the applicable fuel economy standard; or

''(ii) will have the lowest greenhouse gas emissions over the useful life of the vehicle of all vehicles in the vehicle attribute class to which it belongs in that model year.

''(5) FUELSTAR PROGRAM.—

''(A) IN GENERAL.—The Secretary shall establish a program, to be known as the 'Fuelstar Program', under which stars shall be imprinted on or attached to the label required by paragraph (1).

''(B) GREEN STARS.—Under the Fuelstar Program, a manufacturer may include on the label maintained on an automobile under paragraph (1)—

''(i) 1 green star for any automobile that meets the average fuel economy standard for the model year under section 32902; and

''(ii) 1 additional green star for each 2 miles per gallon by which the automobile exceeds such standard.

''(C) GOLD STARS.—Under the Fuelstar Program, a manufacturer may include a gold star on the label maintained on an automobile under paragraph (1) if the automobile attains a fuel economy of at least 50 miles per gallon.''.

SEC. 508. CONTINUED APPLICABILITY OF EXISTING STANDARDS.

Nothing in this title, or the amendments made by this title, shall be construed to affect the application of section 32902 of title 49, United States Code, to passenger automobiles or non-passenger automobiles manufactured before model year 2011.

SEC. 509. NATIONAL ACADEMY OF SCIENCES STUDIES.

(a) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary of Transportation shall execute an agreement with the National Academy of Sciences to develop a report evaluating vehicle fuel economy standards, including—

(1) an assessment of automotive technologies and costs to reflect developments since the Academy's 2002 report evaluating the corporate average fuel economy standards was conducted;

(2) an analysis of existing and potential technologies that may be used practically to improve automobile and medium-duty and heavy-duty truck fuel economy;

(3) an analysis of how such technologies may be practically integrated into the automotive and medium-duty and heavy-duty truck manufacturing process; and

(4) an assessment of how such technologies may be used to meet the new fuel economy standards under chapter 329 of title 49, United States Code, as amended by this title.

(b) QUINQUENNIAL UPDATES.—After submitting the initial report, the Academy shall update the report at 5 year intervals thereafter through 2025.

(c) REPORT.—The Academy shall submit the report to the Secretary, the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce, with its findings and recommendations no later than 18 months after the date on which the Secretary executes the agreement with the Academy.

SEC. 510. STANDARDS FOR EXECUTIVE AGENCY AUTOMOBILES.

(a) IN GENERAL.—Section 32917 of title 49, United States Code, is amended to read as follows:

''§ 32917. Standards for Executive agency automobiles

''(a) FUEL EFFICIENCY.—The head of an Executive agency shall ensure that each new automobile procured by the Executive agency is as fuel efficient as practicable.

''(b) DEFINITIONS.—In this section:

''(1) EXECUTIVE AGENCY.—The term 'Executive agency' has the meaning given that term in section 105 of title 5.

''(2) NEW AUTOMOBILE.—The term 'new automobile', with respect to the fleet of automobiles of an executive agency, means an automobile that is leased for at least 60 consecutive days or bought, by or for the Executive agency, after September 30, 2008. The term does not include any vehicle designed for combat-related missions, law enforcement work, or emergency rescue work.''.

(b) REPORT.—The Administrator of the General Services Administration shall develop a report describing and evaluating the efforts of the heads of the Executive agencies to comply with section 32917 of title 49, United States Code, for fiscal year 2009. The Administrator shall submit the report to Congress no later than December 31, 2009.

SEC. 511. INCREASING CONSUMER AWARENESS OF FLEXIBLE FUEL AUTOMOBILES.

Section 32908 of title 49, United States Code, is amended by adding at the end the following:

''(g) INCREASING CONSUMER AWARENESS OF FLEXIBLE FUEL AUTOMOBILES.—(1) The Secretary of Energy, in consultation with the Secretary of Transportation, shall prescribe regulations that require the manufacturer of automobiles distributed in interstate commerce for sale in the United States—

''(A) to prominently display a permanent badge or emblem on the quarter panel or tailgate of each such automobile that indicates such vehicle is capable of operating on alternative fuel; and

''(B) to include information in the owner's manual of each such automobile information that describes—

''(i) the capability of the automobile to operate using alternative fuel;

''(ii) the benefits of using alternative fuel, including the renewable nature, and the environmental benefits of using alternative fuel; and

''(C) to contain a fuel tank cap that is clearly labeled to inform consumers that the automobile is capable of operating on alternative fuel.

''(2) The Secretary of Transportation shall collaborate with automobile retailers to develop voluntary methods for providing prospective purchasers of automobiles with information regarding the benefits of using alternative fuel in automobiles, including—

''(A) the renewable nature of alternative fuel; and

''(B) the environmental benefits of using alternative fuel.''.

SEC. 512. PERIODIC REVIEW OF ACCURACY OF FUEL ECONOMY LABELING PROCEDURES.

Beginning in December, 2009, and not less often than every 5 years thereafter, the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Transportation, shall—

(1) reevaluate the fuel economy labeling procedures described in the final rule published in the Federal Register on December 27, 2006 (71 Fed. Reg. 77,872; 40 C.F.R. parts 86 and 600) to determine whether changes in the factors used to establish the labeling procedures warrant a revision of that process; and

(2) submit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce that describes the results of the reevaluation process.

SEC. 513. TIRE FUEL EFFICIENCY CONSUMER INFORMATION.

(a) IN GENERAL.—Chapter 301 of title 49, United States Code, is amended by inserting after section 30123 the following new section:

''§ 30123A. Tire fuel efficiency consumer information

''(a) RULEMAKING.—

''(1) IN GENERAL.—Not later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation shall, after notice and opportunity for comment, promulgate rules establishing a national tire fuel efficiency consumer information program for tires designed for use on motor vehicles to educate consumers about the effect of tires on automobile fuel efficiency.

''(2) ITEMS INCLUDED IN RULE.—The rulemaking shall include—

''(A) a national tire fuel efficiency rating system for motor vehicle tires to assist consumers in making more educated tire purchasing decisions;

''(B) requirements for providing information to consumers, including information at the point of sale and other potential information dissemination methods, including the Internet;

''(C) specifications for test methods for manufacturers to use in assessing and rating tires to avoid variation among test equipment and manufacturers; and

''(D) a national tire maintenance consumer education program including, information on tire inflation pressure, alignment, rotation, and tread wear to maximize fuel efficiency.

''(3) APPLICABILITY.—This section shall not apply to tires excluded from coverage under section 575.104(c)(2) of title 49, Code of Federal Regulations, as in effect on date of enactment of the Ten-in-Ten Fuel Economy Act.

''(b) CONSULTATION.—The Secretary shall consult with the Secretary of Energy and the Administrator of the Environmental Protection Agency on the means of conveying tire fuel efficiency consumer information.

''(c) REPORT TO CONGRESS.—The Secretary shall conduct periodic assessments of the rules promulgated under this section to determine the utility of such rules to consumers, the level of cooperation by industry, and the contribution to national goals pertaining to energy consumption. The Secretary shall transmit periodic reports detailing the findings of such assessments to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce.

''(d) TIRE MARKING.—The Secretary shall not require permanent labeling of any kind on a tire for the purpose of tire fuel efficiency information.

''(e) PREEMPTION.—When a requirement under this section is in effect, a State or political subdivision of a State may adopt or enforce a law or regulation on tire fuel efficiency consumer information only if the law or regulation is identical to that requirement. Nothing in this section shall be construed to preempt a State or political subdivision of a State from regulating the fuel efficiency of tires not otherwise preempted under this chapter.''.

(b) ENFORCEMENT.—Section 30165(a) of title 49, United States Code, is amended by adding at the end the following:

''(4) SECTION 30123a.—Any person who fails to comply with the national tire fuel efficiency consumer information program under section 30123A is liable to the United States Government for a civil penalty of not more than $50,000 for each violation.''.

(c) Conforming Amendment.—The chapter analysis for chapter 301 of title 49, United States Code, is amended by inserting after the item relating to section 30123 the following:

''30123A. Tire fuel efficiency consumer information''.

SEC. 514. ADVANCED BATTERY INITIATIVE.

(a) IN GENERAL.—The Secretary of Energy, in consultation with the Secretary of Transportation, shall establish and carry out an Advanced Battery Initiative in accordance with this section to support research, development, demonstration, and commercial application of battery technologies.

(b) INDUSTRY ALLIANCE.—Not later than 180 days after the date of enactment of this Act, the Secretary shall competitively select an Industry Alliance to represent participants who are private, for-profit firms headquartered in the United States, the primary business of which is the manufacturing of batteries.

(c) RESEARCH.—

(1) GRANTS.—The Secretary shall carry out research activities of the Initiative through competitively-awarded grants to—

(A) researchers, including Industry Alliance participants;

(B) small businesses;

(C) National Laboratories; and

(D) institutions of higher education.

(2) INDUSTRY ALLIANCE.—The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify advanced battery technology and battery systems needs relevant to—

(i) electric drive technology; and

(ii) other applications the Secretary deems appropriate;

(B) an assessment of the progress of research activities of the Initiative; and

(C) assistance in annually updating advanced battery technology and battery systems roadmaps.

(d) AVAILABILITY TO THE PUBLIC.—The information and roadmaps developed under this section shall be available to the public.

(e) PREFERENCE.—In making awards under this subsection, the Secretary shall give preference to participants in the Industry Alliance.

(f) COST SHARING.—In carrying out this section, the Secretary shall require cost sharing in accordance with section 120(b) of title 23, United States Code.

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for each of fiscal years 2008 through 2012.

SEC. 515. BIODIESEL STANDARDS.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Transportation and the Secretary of Energy, shall promulgate regulations to ensure that all diesel-equivalent fuels derived from renewable biomass that are introduced into interstate commerce are tested and certified to comply with appropriate American Society for Testing and Materials standards.

(b) DEFINITIONS.—In this section:

(1) BIODIESEL.—

(A) IN GENERAL.—The term ''biodiesel'' means the monoalkyl esters of long chain fatty acids derived from plant or animal matter that meet—

(i) the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545); and

(ii) the requirements of the American Society of Testing and Materials D6751.

(B) INCLUSIONS.—The term ''biodiesel'' includes esters described in subparagraph (A) derived from—

(i) animal waste, including poultry fat, poultry waste, and other waste material; and

(ii) municipal solid waste, sludge, and oil derived from wastewater or the treatment of wastewater.

(2) BIODIESEL BLEND.—The term ''biodiesel blend'' means a mixture of biodiesel and diesel fuel, including—

(A) a blend of biodiesel and diesel fuel approximately 5 percent of the content of which is biodiesel (commonly known as ''B5''); and

(B) a blend of biodiesel and diesel fuel approximately 20 percent of the content of which is biodiesel (commonly known as ''B20'').

SEC. 516. USE OF CIVIL PENALTIES FOR RESEARCH AND DEVELOPMENT.

Section 32912 of title 49, United States Code, is amended by adding at the end thereof the following:

''(e) USE OF CIVIL PENALTIES.—For fiscal year 2008 and each fiscal year thereafter, from the total amount deposited in the general fund of the Treasury during the preceding fiscal year from fines, penalties, and other funds obtained through enforcement actions conducted pursuant to this section (including funds obtained under consent decrees), the Secretary of the Treasury, subject to the availability of appropriations, shall—

''(1) transfer 50 percent of such total amount to the account providing appropriations to the Secretary of Transportation for the administration of this chapter, which shall be used by the Secretary to carry out a program of research and development into fuel saving automotive technologies and to support rulemaking under this chapter; and

''(2) transfer 50 percent of such total amount to the Energy Security Fund established by section 517(a) of the Ten-in-Ten Fuel Economy Act.''.

SEC. 517. ENERGY SECURITY FUND AND ALTERNATIVE FUEL GRANT PROGRAM.

(a) ESTABLISHMENT OF FUND.—

(1) IN GENERAL.—There is established in the Treasury a fund, to be known as the ''Energy Security Fund'' (referred to in this section as the ''Fund''), consisting of—

(A) amounts transferred to the Fund under section 32912(e)(2) of title 49, United States Code; and

(B) amounts credited to the Fund under paragraph (2)(C).

(2) INVESTMENT OF AMOUNTS.—

(A) IN GENERAL.—The Secretary of the Treasury shall invest in interest-bearing obligations of the United States such portion of the Fund as is not, in the judgment of the Secretary of the Treasury, required to meet current withdrawals.

(B) SALE OF OBLIGATIONS.—Any obligation acquired by the Fund may be sold by the Secretary of the Treasury at the market price.

(C) CREDITS TO FUND.—The interest on, and the proceeds from the sale or redemption of, any obligations held in the Fund shall be credited to, and form a part of, the Fund in accordance with section 9602 of the Internal Revenue Code of 1986.

(3) USE OF AMOUNTS IN FUND.—Amounts in the Fund shall be made available to the Secretary of Energy, subject to the availability of appropriations, to carry out the grant program under subsection (b).

(b) ALTERNATIVE FUELS GRANT PROGRAM.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary of Energy, acting through the Clean Cities Program of the Department of Energy, shall establish and carry out a program under which the Secretary shall provide grants to expand the availability to consumers of alternative fuels (as defined in section 32901(a) of title 49, United States Code).

(2) ELIGIBILITY.—

(A) IN GENERAL.—Except as provided in subparagraph (B), any entity that is eligible to receive assistance under the Clean Cities Program shall be eligible to receive a grant under this subsection.

(B) EXCEPTIONS.—

(i) CERTAIN OIL COMPANIES.—A large, vertically-integrated oil company shall not be eligible to receive a grant under this subsection.

(ii) PROHIBITION OF DUAL BENEFITS.—An entity that receives any other Federal funds for the construction or expansion of alternative refueling infrastructure shall not be eligible to receive a grant under this subsection for the construction or expansion of the same alternative refueling infrastructure.

(C) ENSURING COMPLIANCE.—Not later than 30 days after the date of enactment of this Act, the Secretary of Energy shall promulgate regulations to ensure that, before receiving a grant under this subsection, an eligible entity meets applicable standards relating to the installation, construction, and expansion of infrastructure necessary to increase the availability to consumers of alternative fuels (as defined in section 32901(a) of title 49, United States Code).

(3) MAXIMUM AMOUNT.—

(A) GRANTS.—The amount of a grant provided under this subsection shall not exceed $30,000.

(B) AMOUNT PER STATION.—An eligible entity shall receive not more than $90,000 under this subsection for any station of the eligible entity during a fiscal year.

(4) USE OF FUNDS.—

(A) IN GENERAL.—A grant provided under this subsection shall be used for the construction or expansion of alternative fueling infrastructure.

(B) ADMINISTRATIVE EXPENSES.—Not more than 3 percent of the amount of a grant provided under this subsection shall be used for administrative expenses.

SEC. 518. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary of Transportation $25,000,000 for each of fiscal years 2009 through 2021 to carry out the provisions of chapter 329 of title 49, United States Code.

SEC. 519. APPLICATION WITH CLEAN AIR ACT.

Nothing in this title shall be construed to conflict with the authority provided by sections 202 and 209 of the Clean Air Act (42 U.S.C. 7521 and 7543, respectively).

''(A) the applicable standard prescribed under subsection (a), (b), or (c) is more stringent than the maximum feasible average fuel economy level that manufacturer can achieve; and

''(B) the alternative average fuel economy standard prescribed under this subsection is the maximum feasible average fuel economy level that manufacturer can achieve.

''(2) APPLICATION OF ALTERNATIVE STANDARD.—The Secretary may provide for the application of an alternative average fuel economy standard prescribed under paragraph (1) to—

''(A) the manufacturer that applied for the alternative average fuel economy standard;

''(B) all automobiles to which this subsection applies; or

''(C) classes of automobiles manufactured by eligible manufacturers.

''(3) IMPORTERS.—Notwithstanding paragraph (1), an importer registered under section 30141(c) may not be exempted as a manufacturer under paragraph (1) for an automobile that the importer—

''(A) imports; or

''(B) brings into compliance with applicable motor vehicle safety standards prescribed under chapter 301 for an individual described in section 30142.

''(4) APPLICATION.—The Secretary of Transportation may prescribe the contents of an application for an alternative average fuel economy standard.

''(5) ELIGIBLE MANUFACTURER DEFINED.—In this section, the term 'eligible manufacturer' means a manufacturer that—

''(A) is not owned in whole or in part by another manufacturer that sold greater than 0.4 percent of the number of automobiles sold in the United States in the model year prior to the model year to which the application relates;

''(B) sold in the United States fewer than 0.4 percent of the number of automobiles sold in the United States in the model year that is 2 years before the model year to which the application relates; and

''(C) will sell in the United States fewer than 0.4 percent of the automobiles sold in the United States for the model year for which the alternative average fuel economy standard will apply.

''(6) LIMITATION.—For purposes of this subsection, notwithstanding section 32901(a)(4), the term 'automobile manufactured by a manufacturer' includes every automobile manufactuered by a person that controls, is controlled by, or is under common control with the manufacturer.''.

(f) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Section 32902(d) of title 49, United States Code, is amended by striking ''passenger'' each place it appears.

(2) Section 32902(g) of title 49, United States Code, is amended—

(A) by striking ''subsection (a) or (d)'' each place it appears in paragraph (1) and inserting ''subsection (b), (c), or (d)''; and

(B) striking ''(and submit the amendment to Congress when required under subsection (c)(2) of this section)'' in paragraph (2).

SEC. 504. DEFINITIONS.

(a) IN GENERAL.—Section 32901(a) of title 49, United States Code, is amended—

(1) by striking paragraph (3) and inserting the following:

''(3) except as provided in section 32908 of this title, 'automobile' means a 4-wheeled vehicle that is propelled by fuel, or by alternative fuel, manufactured primarily for use on public streets, roads, and highways and rated at not more than 10,000 pounds gross vehicle weight, except—

''(A) a vehicle operated only on a rail line;

''(B) a vehicle manufactured by 2 or more manufacturers in different stages and less than 10,000 of which are manufactured per year; or

''(C) a work truck.''; and

(2) by adding at the end the following:

''(17) 'work truck' means an automobile that the Secretary determines by regulation—

''(A) is rated at between 8,500 and 10,000 pounds gross vehicle weight; and

''(B) is not a medium-duty passenger vehicle (as defined in section 86.1803–01 of title 40, Code of Federal Regulations).''.

(b) DEADLINE FOR REGULATIONS.—The Secretary of Transportation—

(1) shall issue proposed regulations implementing the amendments made by subsection (a) not later than 1 year after the date of enactment of this Act; and

(2) shall issue final regulations implementing the amendments not later than 18 months after the date of the enactment of this Act.

(c) EFFECTIVE DATE.—Regulations prescribed under subsection (b) shall apply beginning with model year 2010.

SEC. 505. ENSURING SAFETY OF AUTOMOBILES.

(a) IN GENERAL.—Subchapter II of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

''§ 30129. Vehicle compatibility standard

''(a) STANDARDS.—The Secretary of Transportation shall issue a motor vehicle safety standard to reduce automobile incompatibility. The standard shall address characteristics necessary to ensure better management of crash forces in multiple vehicle frontal and side impact crashes between different types, sizes, and weights of automobiles with a gross vehicle weight of 10,000 pounds or less in order to decrease occupant deaths and injuries.

''(b) CONSUMER INFORMATION.—The Secretary shall develop and implement a public information side and frontal compatibility crash test program with vehicle ratings based on risks to occupants, risks to other motorists, and combined risks by vehicle make and model.''.

(b) RULEMAKING DEADLINES.—

(1) RULEMAKING.—The Secretary of Transportation shall issue—

(A) a notice of a proposed rulemaking under section 30129 of title 49, United States Code, not later than January 1, 2012; and

(B) a final rule under such section not later than December 31, 2014.

(2) EFFECTIVE DATE OF REQUIREMENTS.—Any requirement imposed under the final rule issued under paragraph (1) shall become fully effective not later than September 1, 2018.

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 301 is amended by inserting after the item relating to section 30128 the following:

''30129. Vehicle compatibility standard''.

SEC. 506. CREDIT TRADING PROGRAM.

Section 32903 of title 49, United States Code, is amended—

(1) by striking ''passenger'' each place it appears;

(2) by striking ''section 32902(b)–(d) of this title'' each place it appears and inserting ''subsection (a), (c), or (d) of section 32902'';

(3) by striking ''3 consecutive model years'' in subsection (a)(2) and inserting ''5 consecutive model years'';

(4) in subsection (a)(2), by striking ''clause (1) of this subsection,'' and inserting ''paragraph (1)''; and

(5) by striking subsection (e) and inserting the following:

''(e) CREDIT TRADING AMONG MANUFACTURERS.—The Secretary of Transportation may establish, by regulation, a corporate average fuel economy credit trading program to allow manufacturers whose automobiles exceed the average fuel economy standards prescribed under section 32902 to earn credits to be sold to manufacturers whose automobiles fail to achieve the prescribed standards such that the total oil savings associated with manufacturers that exceed the prescribed standards are preserved when transferring credits to manufacturers that fail to achieve the prescribed standards.''.

SEC. 507. LABELS FOR FUEL ECONOMY AND GREENHOUSE GAS EMISSIONS.

Section 32908 of title 49, United States Code, is amended—

(1) by redesignating subparagraph (F) of subsection (b)(1) as subparagraph (H) and inserting after subparagraph (E) the following:

''(F) a label (or a logo imprinted on a label required by this paragraph) that—

''(i) reflects an automobile's performance on the basis of criteria developed by the Administrator to reflect the fuel economy and greenhouse gas and other emissions consequences of operating the automobile over its likely useful life;

''(ii) permits consumers to compare performance results under clause (i) among all automobiles; and

''(iii) is designed to encourage the manufacture and sale of automobiles that meet or exceed applicable fuel economy standards under section 32902.

''(G) a fuelstar under paragraph (5).''; and

(2) by adding at the end of subsection (b) the following:

''(4) GREEN LABEL PROGRAM.—

''(A) MARKETING ANALYSIS.—Not later than 2 years after the date of the enactment of the Ten-in-Ten Fuel Economy Act, the Administrator shall implement a consumer education program and execute marketing strategies to improve consumer understanding of automobile performance described in paragraph (1)(F).

''(B) ELIGIBILITY.—Not later than 3 years after the date described in subparagraph (A), the Administrator shall issue requirements for the label or logo required under paragraph (1)(F) to ensure that an automobile is not eligible for the label or logo unless it—

''(i) meets or exceeds the applicable fuel economy standard; or

''(ii) will have the lowest greenhouse gas emissions over the useful life of the vehicle of all vehicles in the vehicle attribute class to which it belongs in that model year.

''(5) FUELSTAR PROGRAM.—

''(A) IN GENERAL.—The Secretary shall establish a program, to be known as the 'Fuelstar Program', under which stars shall be imprinted on or attached to the label required by paragraph (1).

''(B) GREEN STARS.—Under the Fuelstar Program, a manufacturer may include on the label maintained on an automobile under paragraph (1)—

''(i) 1 green star for any automobile that meets the average fuel economy standard for the model year under section 32902; and

''(ii) 1 additional green star for each 2 miles per gallon by which the automobile exceeds such standard.

''(C) GOLD STARS.—Under the Fuelstar Program, a manufacturer may include a gold star on the label maintained on an automobile under paragraph (1) if the automobile attains a fuel economy of at least 50 miles per gallon.''.

SEC. 508. CONTINUED APPLICABILITY OF EXISTING STANDARDS.

Nothing in this title, or the amendments made by this title, shall be construed to affect the application of section 32902 of title 49, United States Code, to passenger automobiles or non-passenger automobiles manufactured before model year 2011.

SEC. 509. NATIONAL ACADEMY OF SCIENCES STUDIES.

(a) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary of Transportation shall execute an agreement with the National Academy of Sciences to develop a report evaluating vehicle fuel economy standards, including—

(1) an assessment of automotive technologies and costs to reflect developments since the Academy's 2002 report evaluating the corporate average fuel economy standards was conducted;

(2) an analysis of existing and potential technologies that may be used practically to improve automobile and medium-duty and heavy-duty truck fuel economy;

(3) an analysis of how such technologies may be practically integrated into the automotive and medium-duty and heavy-duty truck manufacturing process; and

(4) an assessment of how such technologies may be used to meet the new fuel economy standards under chapter 329 of title 49, United States Code, as amended by this title.

(b) QUINQUENNIAL UPDATES.—After submitting the initial report, the Academy shall update the report at 5 year intervals thereafter through 2025.

(c) REPORT.—The Academy shall submit the report to the Secretary, the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce, with its findings and recommendations no later than 18 months after the date on which the Secretary executes the agreement with the Academy.

SEC. 510. STANDARDS FOR EXECUTIVE AGENCY AUTOMOBILES.

(a) IN GENERAL.—Section 32917 of title 49, United States Code, is amended to read as follows:

''§ 32917. Standards for Executive agency automobiles

''(a) FUEL EFFICIENCY.—The head of an Executive agency shall ensure that each new automobile procured by the Executive agency is as fuel efficient as practicable.

''(b) DEFINITIONS.—In this section:

''(1) EXECUTIVE AGENCY.—The term 'Executive agency' has the meaning given that term in section 105 of title 5.

''(2) NEW AUTOMOBILE.—The term 'new automobile', with respect to the fleet of automobiles of an executive agency, means an automobile that is leased for at least 60 consecutive days or bought, by or for the Executive agency, after September 30, 2008. The term does not include any vehicle designed for combat-related missions, law enforcement work, or emergency rescue work.''.

(b) REPORT.—The Administrator of the General Services Administration shall develop a report describing and evaluating the efforts of the heads of the Executive agencies to comply with section 32917 of title 49, United States Code, for fiscal year 2009. The Administrator shall submit the report to Congress no later than December 31, 2009.

SEC. 511. INCREASING CONSUMER AWARENESS OF FLEXIBLE FUEL AUTOMOBILES.

Section 32908 of title 49, United States Code, is amended by adding at the end the following:

''(g) INCREASING CONSUMER AWARENESS OF FLEXIBLE FUEL AUTOMOBILES.—(1) The Secretary of Energy, in consultation with the Secretary of Transportation, shall prescribe regulations that require the manufacturer of automobiles distributed in interstate commerce for sale in the United States—

''(A) to prominently display a permanent badge or emblem on the quarter panel or tailgate of each such automobile that indicates such vehicle is capable of operating on alternative fuel; and

''(B) to include information in the owner's manual of each such automobile information that describes—

''(i) the capability of the automobile to operate using alternative fuel;

''(ii) the benefits of using alternative fuel, including the renewable nature, and the environmental benefits of using alternative fuel; and

''(C) to contain a fuel tank cap that is clearly labeled to inform consumers that the automobile is capable of operating on alternative fuel.

''(2) The Secretary of Transportation shall collaborate with automobile retailers to develop voluntary methods for providing prospective purchasers of automobiles with information regarding the benefits of using alternative fuel in automobiles, including—

''(A) the renewable nature of alternative fuel; and

''(B) the environmental benefits of using alternative fuel.''.

SEC. 512. PERIODIC REVIEW OF ACCURACY OF FUEL ECONOMY LABELING PROCEDURES.

Beginning in December, 2009, and not less often than every 5 years thereafter, the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Transportation, shall—

(1) reevaluate the fuel economy labeling procedures described in the final rule published in the Federal Register on December 27, 2006 (71 Fed. Reg. 77,872; 40 C.F.R. parts 86 and 600) to determine whether changes in the factors used to establish the labeling procedures warrant a revision of that process; and

(2) submit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce that describes the results of the reevaluation process.

SEC. 513. TIRE FUEL EFFICIENCY CONSUMER INFORMATION.

(a) IN GENERAL.—Chapter 301 of title 49, United States Code, is amended by inserting after section 30123 the following new section:

''§ 30123A. Tire fuel efficiency consumer information

''(a) RULEMAKING.—

''(1) IN GENERAL.—Not later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation shall, after notice and opportunity for comment, promulgate rules establishing a national tire fuel efficiency consumer information program for tires designed for use on motor vehicles to educate consumers about the effect of tires on automobile fuel efficiency.

''(2) ITEMS INCLUDED IN RULE.—The rulemaking shall include—

''(A) a national tire fuel efficiency rating system for motor vehicle tires to assist consumers in making more educated tire purchasing decisions;

''(B) requirements for providing information to consumers, including information at the point of sale and other potential information dissemination methods, including the Internet;

''(C) specifications for test methods for manufacturers to use in assessing and rating tires to avoid variation among test equipment and manufacturers; and

''(D) a national tire maintenance consumer education program including, information on tire inflation pressure, alignment, rotation, and tread wear to maximize fuel efficiency.

''(3) APPLICABILITY.—This section shall not apply to tires excluded from coverage under section 575.104(c)(2) of title 49, Code of Federal Regulations, as in effect on date of enactment of the Ten-in-Ten Fuel Economy Act.

''(b) CONSULTATION.—The Secretary shall consult with the Secretary of Energy and the Administrator of the Environmental Protection Agency on the means of conveying tire fuel efficiency consumer information.

''(c) REPORT TO CONGRESS.—The Secretary shall conduct periodic assessments of the rules promulgated under this section to determine the utility of such rules to consumers, the level of cooperation by industry, and the contribution to national goals pertaining to energy consumption. The Secretary shall transmit periodic reports detailing the findings of such assessments to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce.

''(d) TIRE MARKING.—The Secretary shall not require permanent labeling of any kind on a tire for the purpose of tire fuel efficiency information.

''(e) PREEMPTION.—When a requirement under this section is in effect, a State or political subdivision of a State may adopt or enforce a law or regulation on tire fuel efficiency consumer information only if the law or regulation is identical to that requirement. Nothing in this section shall be construed to preempt a State or political subdivision of a State from regulating the fuel efficiency of tires not otherwise preempted under this chapter.''.

(b) ENFORCEMENT.—Section 30165(a) of title 49, United States Code, is amended by adding at the end the following:

''(4) SECTION 30123a.—Any person who fails to comply with the national tire fuel efficiency consumer information program under section 30123A is liable to the United States Government for a civil penalty of not more than $50,000 for each violation.''.

(c) Conforming Amendment.—The chapter analysis for chapter 301 of title 49, United States Code, is amended by inserting after the item relating to section 30123 the following:

''30123A. Tire fuel efficiency consumer information''.

SEC. 514. ADVANCED BATTERY INITIATIVE.

(a) IN GENERAL.—The Secretary of Energy, in consultation with the Secretary of Transportation, shall establish and carry out an Advanced Battery Initiative in accordance with this section to support research, development, demonstration, and commercial application of battery technologies.

(b) INDUSTRY ALLIANCE.—Not later than 180 days after the date of enactment of this Act, the Secretary shall competitively select an Industry Alliance to represent participants who are private, for-profit firms headquartered in the United States, the primary business of which is the manufacturing of batteries.

(c) RESEARCH.—

(1) GRANTS.—The Secretary shall carry out research activities of the Initiative through competitively-awarded grants to—

(A) researchers, including Industry Alliance participants;

(B) small businesses;

(C) National Laboratories; and

(D) institutions of higher education.

(2) INDUSTRY ALLIANCE.—The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify advanced battery technology and battery systems needs relevant to—

(i) electric drive technology; and

(ii) other applications the Secretary deems appropriate;

(B) an assessment of the progress of research activities of the Initiative; and

(C) assistance in annually updating advanced battery technology and battery systems roadmaps.

(d) AVAILABILITY TO THE PUBLIC.—The information and roadmaps developed under this section shall be available to the public.

(e) PREFERENCE.—In making awards under this subsection, the Secretary shall give preference to participants in the Industry Alliance.

(f) COST SHARING.—In carrying out this section, the Secretary shall require cost sharing in accordance with section 120(b) of title 23, United States Code.

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for each of fiscal years 2008 through 2012.

SEC. 515. BIODIESEL STANDARDS.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Transportation and the Secretary of Energy, shall promulgate regulations to ensure that all diesel-equivalent fuels derived from renewable biomass that are introduced into interstate commerce are tested and certified to comply with appropriate American Society for Testing and Materials standards.

(b) DEFINITIONS.—In this section:

(1) BIODIESEL.—

(A) IN GENERAL.—The term ''biodiesel'' means the monoalkyl esters of long chain fatty acids derived from plant or animal matter that meet—

(i) the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545); and

(ii) the requirements of the American Society of Testing and Materials D6751.

(B) INCLUSIONS.—The term ''biodiesel'' includes esters described in subparagraph (A) derived from—

(i) animal waste, including poultry fat, poultry waste, and other waste material; and

(ii) municipal solid waste, sludge, and oil derived from wastewater or the treatment of wastewater.

(2) BIODIESEL BLEND.—The term ''biodiesel blend'' means a mixture of biodiesel and diesel fuel, including—

(A) a blend of biodiesel and diesel fuel approximately 5 percent of the content of which is biodiesel (commonly known as ''B5''); and

(B) a blend of biodiesel and diesel fuel approximately 20 percent of the content of which is biodiesel (commonly known as ''B20'').

SEC. 516. USE OF CIVIL PENALTIES FOR RESEARCH AND DEVELOPMENT.

Section 32912 of title 49, United States Code, is amended by adding at the end thereof the following:

''(e) USE OF CIVIL PENALTIES.—For fiscal year 2008 and each fiscal year thereafter, from the total amount deposited in the general fund of the Treasury during the preceding fiscal year from fines, penalties, and other funds obtained through enforcement actions conducted pursuant to this section (including funds obtained under consent decrees), the Secretary of the Treasury, subject to the availability of appropriations, shall—

''(1) transfer 50 percent of such total amount to the account providing appropriations to the Secretary of Transportation for the administration of this chapter, which shall be used by the Secretary to carry out a program of research and development into fuel saving automotive technologies and to support rulemaking under this chapter; and

''(2) transfer 50 percent of such total amount to the Energy Security Fund established by section 517(a) of the Ten-in-Ten Fuel Economy Act.''.

SEC. 517. ENERGY SECURITY FUND AND ALTERNATIVE FUEL GRANT PROGRAM.

(a) ESTABLISHMENT OF FUND.—

(1) IN GENERAL.—There is established in the Treasury a fund, to be known as the ''Energy Security Fund'' (referred to in this section as the ''Fund''), consisting of—

(A) amounts transferred to the Fund under section 32912(e)(2) of title 49, United States Code; and

(B) amounts credited to the Fund under paragraph (2)(C).

(2) INVESTMENT OF AMOUNTS.—

(A) IN GENERAL.—The Secretary of the Treasury shall invest in interest-bearing obligations of the United States such portion of the Fund as is not, in the judgment of the Secretary of the Treasury, required to meet current withdrawals.

(B) SALE OF OBLIGATIONS.—Any obligation acquired by the Fund may be sold by the Secretary of the Treasury at the market price.

(C) CREDITS TO FUND.—The interest on, and the proceeds from the sale or redemption of, any obligations held in the Fund shall be credited to, and form a part of, the Fund in accordance with section 9602 of the Internal Revenue Code of 1986.

(3) USE OF AMOUNTS IN FUND.—Amounts in the Fund shall be made available to the Secretary of Energy, subject to the availability of appropriations, to carry out the grant program under subsection (b).

(b) ALTERNATIVE FUELS GRANT PROGRAM.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary of Energy, acting through the Clean Cities Program of the Department of Energy, shall establish and carry out a program under which the Secretary shall provide grants to expand the availability to consumers of alternative fuels (as defined in section 32901(a) of title 49, United States Code).

(2) ELIGIBILITY.—

(A) IN GENERAL.—Except as provided in subparagraph (B), any entity that is eligible to receive assistance under the Clean Cities Program shall be eligible to receive a grant under this subsection.

(B) EXCEPTIONS.—

(i) CERTAIN OIL COMPANIES.—A large, vertically-integrated oil company shall not be eligible to receive a grant under this subsection.

(ii) PROHIBITION OF DUAL BENEFITS.—An entity that receives any other Federal funds for the construction or expansion of alternative refueling infrastructure shall not be eligible to receive a grant under this subsection for the construction or expansion of the same alternative refueling infrastructure.

(C) ENSURING COMPLIANCE.—Not later than 30 days after the date of enactment of this Act, the Secretary of Energy shall promulgate regulations to ensure that, before receiving a grant under this subsection, an eligible entity meets applicable standards relating to the installation, construction, and expansion of infrastructure necessary to increase the availability to consumers of alternative fuels (as defined in section 32901(a) of title 49, United States Code).

(3) MAXIMUM AMOUNT.—

(A) GRANTS.—The amount of a grant provided under this subsection shall not exceed $30,000.

(B) AMOUNT PER STATION.—An eligible entity shall receive not more than $90,000 under this subsection for any station of the eligible entity during a fiscal year.

(4) USE OF FUNDS.—

(A) IN GENERAL.—A grant provided under this subsection shall be used for the construction or expansion of alternative fueling infrastructure.

(B) ADMINISTRATIVE EXPENSES.—Not more than 3 percent of the amount of a grant provided under this subsection shall be used for administrative expenses.

SEC. 518. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary of Transportation $25,000,000 for each of fiscal years 2009 through 2021 to carry out the provisions of chapter 329 of title 49, United States Code.

SEC. 519. APPLICATION WITH CLEAN AIR ACT.

Nothing in this title shall be construed to conflict with the authority provided by sections 202 and 209 of the Clean Air Act (42 U.S.C. 7521 and 7543, respectively).

SA 1793. Mr. STEVENS (for himself, Ms. SNOWE, Mr. ALEXANDER, Mr. CARPER, Mr. LOTT, Mr. KERRY, and Mr. CORKER) submitted an amendment intended to be proposed to amendment SA 1711 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency,

and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

TITLE V—CORPORATE AVERAGE FUEL ECONOMY STANDARDS

SEC. 501. SHORT TITLE.

This title may be cited as the ''Ten-in-Ten Fuel Economy Act''.

SEC. 502. AVERAGE FUEL ECONOMY STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.

(a) INCREASED STANDARDS.—Section 32902 of title 49, United States Code, is amended—

(1) by striking ''**NON-PASSENGER AUTOMOBILES**.—'' in subsection (a) and inserting ''**PRESCRIPTION OF STANDARDS BY REGULATION**.—'';

(2) by striking ''(except passenger automobiles)'' in subsection (a); and

(3) by striking subsection (b) and inserting the following:

''(b) STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.—

''(1) IN GENERAL.—The Secretary of Transportation, after consultation with the Administrator of the Environmental Protection Agency, shall prescribe average fuel economy standards for—

''(A) automobiles manufactured by manufacturers in each model year beginning with model year 2011 in accordance with subsection (c); and

''(B) commercial medium-duty or heavy-duty on-highway vehicles in accordance with subsection (k).

''(2) FUEL ECONOMY TARGET FOR AUTOMOBILES.—

''(A) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2011 THROUGH 2020.—The Secretary shall prescribe average fuel economy standards for automobiles in each model year beginning with model year 2011 to achieve a combined fuel economy average for model year 2020 of at least 35 miles per gallon for the fleet of automobiles manufactured or sold in the United States. The average fuel economy standards prescribed by the Secretary shall be the maximum feasible average fuel economy standards for model years 2011 through 2019.

''(B) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2021 THROUGH 2030.—For model years 2021 through 2030, the average fuel economy required to be attained by the fleet of automobiles manufactured or sold in the United States shall be the maximum feasible average fuel economy standard for the fleet.

''(C) PROGRESS TOWARD STANDARD REQUIRED.—In prescribing average fuel economy standards under subparagraph (A), the Secretary shall prescribe annual fuel economy standard increases that increase the applicable average fuel economy standard ratably beginning with model year 2011 and ending with model year 2020.''.

(b) FUEL ECONOMY TARGET FOR COMMERCIAL MEDIUM-DUTY AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—Section 32902 of title 49, United States Code, is amended by adding at the end thereof the following:

''(k) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—

''(1) STUDY.—No later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall examine the fuel efficiency of commercial medium- and heavy-duty on-highway vehicles and determine—

''(A) the appropriate test procedures and methodologies for measuring commercial medium- and heavy-duty on-highway vehicle fuel efficiency;

''(B) the appropriate metric for measuring and expressing commercial medium- and heavy-duty on-highway vehicle fuel efficiency performance, taking into consideration, among other things, the work performed by such on-highway vehicles and types of operations in which they are used;

''(C) the range of factors, including, without limitation, design, functionality, use, duty cycle, infrastructure, and total overall energy consumption and operating costs that effect commercial medium- and heavy-duty on-highway vehicle fuel efficiency; and

''(D) such other factors and conditions that could have an impact on a program to improve commercial medium- and heavy-duty on-highway vehicle fuel efficiency.

''(2) RULEMAKING.—No later than 24 months after completion of the study required by paragraph (1), the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, by regulation, shall determine in a rulemaking procedure how to implement a commercial medium- and heavy-duty on-highway vehicle fuel efficiency improvement program designed to achieve the maximum feasible improvement, and shall adopt appropriate test methods, measurement metrics, fuel economy standards, and compliance and enforcement protocols that are appropriate, cost-effective, and technologically feasible for commercial medium- and heavy-duty on-highway vehicles.

''(3) LEAD-TIME; REGULATORY STABILITY.—Any commercial medium- and heavy-duty on-highway vehicle fuel efficiency regulatory program adopted pursuant to this subsection shall provide no less than 4 full model years of regulatory lead-time and 3 full model years of regulatory stability.

''(4) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLE DEFINED.—In this subsection, the term 'commercial medium- and heavy-duty on-highway vehicle' means an on-highway vehicle with a gross vehicle weight rating of more than 8,500 pounds, and that, in the case of a vehicle with a gross vehicle weight rating of less than 10,000 pounds, is not an automobile.''.

(c) AUTHORITY OF SECRETARY.—Section 32902 of title 49, United States Code, as amended by subsection (b), is further amended by adding at the end thereof the following:

''(l) AUTHORITY OF THE SECRETARY.—

''(1) VEHICLE ATTRIBUTES; MODEL YEARS COVERED.—The Secretary shall—

''(A) prescribe by regulation average fuel economy standards for automobiles based on vehicle attributes related to fuel economy and to express the standards in the form of a mathematical function; and

''(B) issue regulations under this title prescribing average fuel economy standards for 1 or more model years.

''(2) PROHIBITION OF UNIFORM PERCENTAGE INCREASE.—When the Secretary prescribes a standard, or prescribes an amendment under this section that changes a standard, the standard may not be expressed as a uniform percentage increase from the fuel-economy performance of attribute classes or categories already achieved in a model year by a manufacturer.''.

SEC. 503. AMENDING FUEL ECONOMY STANDARDS.

(a) IN GENERAL.—Section 32902(c) of title 49, United States Code, is amended to read as follows:

''(c) AMENDING FUEL ECONOMY STANDARDS.—Notwithstanding subsections (a) and (b), the Secretary of Transportation—

''(1) may prescribe a standard higher than that required under subsection (b); or

''(2) may prescribe an average fuel economy standard for automobiles that is the maximum feasible level for the model year, despite being lower than the standard required under subsection (b), if the Secretary determines, based on clear and convincing evidence, that the average fuel economy standard prescribed in accordance with subsections (a) and (b) for automobiles in that model year is shown not to be cost-effective.''.

(b) FEASIBILITY CRITERIA.—Section 32902(f) of title 49, United States Code, is amended to read as follows:

''(f) DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.—

''(1) IN GENERAL.—When deciding maximum feasible average fuel economy under this section, the Secretary shall consider—

''(A) economic practicability;

''(B) the effect of other motor vehicle standards of the Government on fuel economy;

''(C) environmental impacts; and

''(D) the need of the United States to conserve energy.

''(2) LIMITATIONS.—In setting any standard under subsection (b), (c), or (d), the Secretary shall ensure that each standard is the highest standard that—

''(A) is technologically achievable;

''(B) can be achieved without materially reducing the overall safety of automobiles manufactured or sold in the United States;

''(C) is not less than the standard for that class of vehicles from any prior year; and

''(D) is cost-effective.

''(3) COST-EFFECTIVE DEFINED.—In this subsection, the term 'cost-effective' means that the value to the United States of reduced fuel use from a proposed fuel economy standard is greater than or equal to the cost to the United States of such standard. In determining cost-effectiveness, the Secretary shall give priority to those technologies and packages of technologies that offer the largest reduction in fuel use relative to their costs.

''(4) FACTORS FOR CONSIDERATION BY SECRETARY IN DETERMINING COST-EFFECTIVENESS.—The Secretary shall consult with the Administrator of the Environmental Protection Agency, and may consult with such other departments and agencies as the Secretary deems appropriate, and shall consider in the analysis the following factors:

''(A) Economic security.

''(B) The impact of the oil or energy intensity of the United States economy on the sensitivity of the economy to oil and other fuel price changes, including the magnitude of gross domestic product losses in response to short term price shocks or long term price increases.

''(C) National security, including the impact of United States payments for oil and other fuel imports on political, economic, and military developments in unstable or unfriendly oil-exporting countries.

''(D) The uninternalized costs of pipeline and storage oil seepage, and for risk of oil spills from production, handling, and transport, and related landscape damage.

''(E) The emissions of pollutants including greenhouse gases over the lifecycle of the

fuel and the resulting costs to human health, the economy, and the environment.

''(F) Such additional factors as the Secretary deems relevant.

''(5) MINIMUM VALUATION.—When considering the value to consumers of a gallon of gasoline saved, the Secretary of Transportation shall use as a minimum value the greater of—

''(A) the average value of gasoline prices projected by the Energy Information Administration over the period covered by the standard; or

''(B) the average value of gasoline prices for the 5-year period immediately preceding the year in which the standard is established.''.

(c) CONSULTATION REQUIREMENT.—Section 32902(i) of title 49, United States Code, is amended by inserting ''and the Administrator of the Environmental Protection Agency'' after ''Energy''.

(d) COMMENTS.—Section 32902(j) of title 49, United States Code, is amended—

(1) by striking paragraph (1) and inserting ''(1) Before issuing a notice proposing to prescribe or amend an average fuel economy standard under subsection (b), (c), or (g) of this section, the Secretary of Transportation shall give the Secretary of Energy and Administrator of the Environmental Protection Agency at least 30 days after the receipt of the notice during which the Secretary of Energy and Administrator may, if the Secretary of Energy or Administrator concludes that the proposed standard would adversely affect the conservation goals of the Secretary of Energy or environmental protection goals of the Administrator, provide written comments to the Secretary of Transportation about the impact of the standard on those goals. To the extent the Secretary of Transportation does not revise a proposed standard to take into account comments of the Secretary of Energy or Administrator on any adverse impact of the standard, the Secretary of Transportation shall include those comments in the notice.''; and

(2) by inserting ''and the Administrator'' after ''Energy'' each place it appears in paragraph (2).

(e) ALTERNATIVE FUEL ECONOMY STANDARDS FOR LOW VOLUME MANUFACTURERS AND NEW ENTRANTS.—Section 32902(d) of title 49, United States Code, is amended to read as follows:

''(d) ALTERNATIVE AVERAGE FUEL ECONOMY STANDARD.—

''(1) IN GENERAL.—Upon the application of an eligible manufacturer, the Secretary of Transportation may prescribe an alternative average fuel economy standard for automobiles manufactured by that manufacturer if the Secretary determines that—

''(A) the applicable standard prescribed under subsection (a), (b), or (c) is more stringent than the maximum feasible average fuel economy level that manufacturer can achieve; and

''(B) the alternative average fuel economy standard prescribed under this subsection is the maximum feasible average fuel economy level that manufacturer can achieve.

''(2) APPLICATION OF ALTERNATIVE STANDARD.—The Secretary may provide for the application of an alternative average fuel economy standard prescribed under paragraph (1) to—

''(A) the manufacturer that applied for the alternative average fuel economy standard;

''(B) all automobiles to which this subsection applies; or

''(C) classes of automobiles manufactured by eligible manufacturers.

''(3) IMPORTERS.—Notwithstanding paragraph (1), an importer registered under section 30141(c) may not be exempted as a manufacturer under paragraph (1) for an automobile that the importer—

''(A) imports; or

''(B) brings into compliance with applicable motor vehicle safety standards prescribed under chapter 301 for an individual described in section 30142.

''(4) APPLICATION.—The Secretary of Transportation may prescribe the contents of an application for an alternative average fuel economy standard.

''(5) ELIGIBLE MANUFACTURER DEFINED.—In this section, the term 'eligible manufacturer' means a manufacturer that—

''(A) is not owned in whole or in part by another manufacturer that sold greater than 0.4 percent of the number of automobiles sold in the United States in the model year prior to the model year to which the application relates;

''(B) sold in the United States fewer than 0.4 percent of the number of automobiles sold in the United States in the model year that is 2 years before the model year to which the application relates; and

''(C) will sell in the United States fewer than 0.4 percent of the automobiles sold in the United States for the model year for which the alternative average fuel economy standard will apply.

''(6) LIMITATION.—For purposes of this subsection, notwithstanding section 32901(a)(4), the term 'automobile manufactured by a manufacturer' includes every automobile manufactuered by a person that controls, is controlled by, or is under common control with the manufacturer.''.

(f) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Section 32902(d) of title 49, United States Code, is amended by striking ''passenger'' each place it appears.

(2) Section 32902(g) of title 49, United States Code, is amended—

(A) by striking ''subsection (a) or (d)'' each place it appears in paragraph (1) and inserting ''subsection (b), (c), or (d)''; and

(B) striking ''(and submit the amendment to Congress when required under subsection (c)(2) of this section)'' in paragraph (2).

SEC. 504. DEFINITIONS.

(a) IN GENERAL.—Section 32901(a) of title 49, United States Code, is amended—

(1) by striking paragraph (3) and inserting the following:

''(3) except as provided in section 32908 of this title, 'automobile' means a 4-wheeled vehicle that is propelled by fuel, or by alternative fuel, manufactured primarily for use on public streets, roads, and highways and rated at not more than 10,000 pounds gross vehicle weight, except—

''(A) a vehicle operated only on a rail line;

''(B) a vehicle manufactured by 2 or more manufacturers in different stages and less than 10,000 of which are manufactured per year; or

''(C) a work truck.''; and

(2) by adding at the end the following:

''(17) 'work truck' means an automobile that the Secretary determines by regulation—

''(A) is rated at between 8,500 and 10,000 pounds gross vehicle weight; and

''(B) is not a medium-duty passenger vehicle (as defined in section 86.1803–01 of title 40, Code of Federal Regulations).''.

(b) DEADLINE FOR REGULATIONS.—The Secretary of Transportation—

(1) shall issue proposed regulations implementing the amendments made by subsection (a) not later than 1 year after the date of enactment of this Act; and

(2) shall issue final regulations implementing the amendments not later than 18 months after the date of the enactment of this Act.

(c) EFFECTIVE DATE.—Regulations prescribed under subsection (b) shall apply beginning with model year 2010.

SEC. 505. ENSURING SAFETY OF AUTOMOBILES.

(a) IN GENERAL.—Subchapter II of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

''§ 30129. Vehicle compatibility standard

''(a) STANDARDS.—The Secretary of Transportation shall issue a motor vehicle safety standard to reduce automobile incompatibility. The standard shall address characteristics necessary to ensure better management of crash forces in multiple vehicle frontal and side impact crashes between different types, sizes, and weights of automobiles with a gross vehicle weight of 10,000 pounds or less in order to decrease occupant deaths and injuries.

''(b) CONSUMER INFORMATION.—The Secretary shall develop and implement a public information side and frontal compatibility crash test program with vehicle ratings based on risks to occupants, risks to other motorists, and combined risks by vehicle make and model.''.

(b) RULEMAKING DEADLINES.—

(1) RULEMAKING.—The Secretary of Transportation shall issue—

(A) a notice of a proposed rulemaking under section 30129 of title 49, United States Code, not later than January 1, 2012; and

(B) a final rule under such section not later than December 31, 2014.

(2) EFFECTIVE DATE OF REQUIREMENTS.—Any requirement imposed under the final rule issued under paragraph (1) shall become fully effective not later than September 1, 2018.

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 301 is amended by inserting after the item relating to section 30128 the following:

''30129. Vehicle compatibility standard''.

SEC. 506. CREDIT TRADING PROGRAM.

Section 32903 of title 49, United States Code, is amended—

(1) by striking ''passenger'' each place it appears;

(2) by striking ''section 32902(b)–(d) of this title'' each place it appears and inserting ''subsection (a), (c), or (d) of section 32902'';

(3) by striking ''3 consecutive model years'' in subsection (a)(2) and inserting ''5 consecutive model years'';

(4) in subsection (a)(2), by striking ''clause (1) of this subsection,'' and inserting ''paragraph (1)''; and

(5) by striking subsection (e) and inserting the following:

''(e) CREDIT TRADING AMONG MANUFACTURERS.—The Secretary of Transportation may establish, by regulation, a corporate average fuel economy credit trading program to allow manufacturers whose automobiles exceed the average fuel economy standards prescribed under section 32902 to earn credits to be sold to manufacturers whose automobiles fail to achieve the prescribed standards such that the total oil savings associated with manufacturers that exceed the prescribed standards are preserved when transferring credits to manufacturers that fail to achieve the prescribed standards.''.

SEC. 507. LABELS FOR FUEL ECONOMY AND GREENHOUSE GAS EMISSIONS.

Section 32908 of title 49, United States Code, is amended—

(1) by redesignating subparagraph (F) of subsection (b)(1) as subparagraph (H) and inserting after subparagraph (E) the following:

''(F) a label (or a logo imprinted on a label required by this paragraph) that—

''(i) reflects an automobile's performance on the basis of criteria developed by the Administrator to reflect the fuel economy and greenhouse gas and other emissions consequences of operating the automobile over its likely useful life;

''(ii) permits consumers to compare performance results under clause (i) among all automobiles; and

''(iii) is designed to encourage the manufacture and sale of automobiles that meet or exceed applicable fuel economy standards under section 32902.

''(G) a fuelstar under paragraph (5).''; and

(2) by adding at the end of subsection (b) the following:

''(4) GREEN LABEL PROGRAM.—

''(A) MARKETING ANALYSIS.—Not later than 2 years after the date of the enactment of the Ten-in-Ten Fuel Economy Act, the Administrator shall implement a consumer education program and execute marketing strategies to improve consumer understanding of automobile performance described in paragraph (1)(F).

''(B) ELIGIBILITY.—Not later than 3 years after the date described in subparagraph (A), the Administrator shall issue requirements for the label or logo required under paragraph (1)(F) to ensure that an automobile is not eligible for the label or logo unless it—

''(i) meets or exceeds the applicable fuel economy standard; or

''(ii) will have the lowest greenhouse gas emissions over the useful life of the vehicle of all vehicles in the vehicle attribute class to which it belongs in that model year.

''(5) FUELSTAR PROGRAM.—

''(A) IN GENERAL.—The Secretary shall establish a program, to be known as the 'Fuelstar Program', under which stars shall be imprinted on or attached to the label required by paragraph (1).

''(B) GREEN STARS.—Under the Fuelstar Program, a manufacturer may include on the label maintained on an automobile under paragraph (1)—

''(i) 1 green star for any automobile that meets the average fuel economy standard for the model year under section 32902; and

''(ii) 1 additional green star for each 2 miles per gallon by which the automobile exceeds such standard.

''(C) GOLD STARS.—Under the Fuelstar Program, a manufacturer may include a gold star on the label maintained on an automobile under paragraph (1) if the automobile attains a fuel economy of at least 50 miles per gallon.''.

SEC. 508. CONTINUED APPLICABILITY OF EXISTING STANDARDS.

Nothing in this title, or the amendments made by this title, shall be construed to affect the application of section 32902 of title 49, United States Code, to passenger automobiles or non-passenger automobiles manufactured before model year 2011.

SEC. 509. NATIONAL ACADEMY OF SCIENCES STUDIES.

(a) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary of Transportation shall execute an agreement with the National Academy of Sciences to develop a report evaluating vehicle fuel economy standards, including—

(1) an assessment of automotive technologies and costs to reflect developments since the Academy's 2002 report evaluating the corporate average fuel economy standards was conducted;

(2) an analysis of existing and potential technologies that may be used practically to improve automobile and medium-duty and heavy-duty truck fuel economy;

(3) an analysis of how such technologies may be practically integrated into the automotive and medium-duty and heavy-duty truck manufacturing process; and

(4) an assessment of how such technologies may be used to meet the new fuel economy standards under chapter 329 of title 49, United States Code, as amended by this title.

(b) QUINQUENNIAL UPDATES.—After submitting the initial report, the Academy shall update the report at 5 year intervals thereafter through 2025.

(c) REPORT.—The Academy shall submit the report to the Secretary, the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce, with its findings and recommendations no later than 18 months after the date on which the Secretary executes the agreement with the Academy.

SEC. 510. STANDARDS FOR EXECUTIVE AGENCY AUTOMOBILES.

(a) IN GENERAL.—Section 32917 of title 49, United States Code, is amended to read as follows:

''§ 32917. Standards for Executive agency automobiles

''(a) FUEL EFFICIENCY.—The head of an Executive agency shall ensure that each new automobile procured by the Executive agency is as fuel efficient as practicable.

''(b) DEFINITIONS.—In this section:

''(1) EXECUTIVE AGENCY.—The term 'Executive agency' has the meaning given that term in section 105 of title 5.

''(2) NEW AUTOMOBILE.—The term 'new automobile', with respect to the fleet of automobiles of an executive agency, means an automobile that is leased for at least 60 consecutive days or bought, by or for the Executive agency, after September 30, 2008. The term does not include any vehicle designed for combat-related missions, law enforcement work, or emergency rescue work.''.

(b) REPORT.—The Administrator of the General Services Administration shall develop a report describing and evaluating the efforts of the heads of the Executive agencies to comply with section 32917 of title 49, United States Code, for fiscal year 2009. The Administrator shall submit the report to Congress no later than December 31, 2009.

SEC. 511. INCREASING CONSUMER AWARENESS OF FLEXIBLE FUEL AUTOMOBILES.

Section 32908 of title 49, United States Code, is amended by adding at the end the following:

''(g) INCREASING CONSUMER AWARENESS OF FLEXIBLE FUEL AUTOMOBILES.—(1) The Secretary of Energy, in consultation with the Secretary of Transportation, shall prescribe regulations that require the manufacturer of automobiles distributed in interstate commerce for sale in the United States—

''(A) to prominently display a permanent badge or emblem on the quarter panel or tailgate of each such automobile that indicates such vehicle is capable of operating on alternative fuel; and

''(B) to include information in the owner's manual of each such automobile information that describes—

''(i) the capability of the automobile to operate using alternative fuel;

''(ii) the benefits of using alternative fuel, including the renewable nature, and the environmental benefits of using alternative fuel; and

''(C) to contain a fuel tank cap that is clearly labeled to inform consumers that the automobile is capable of operating on alternative fuel.

''(2) The Secretary of Transportation shall collaborate with automobile retailers to develop voluntary methods for providing prospective purchasers of automobiles with information regarding the benefits of using alternative fuel in automobiles, including—

''(A) the renewable nature of alternative fuel; and

''(B) the environmental benefits of using alternative fuel.''.

SEC. 512. PERIODIC REVIEW OF ACCURACY OF FUEL ECONOMY LABELING PROCEDURES.

Beginning in December, 2009, and not less often than every 5 years thereafter, the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Transportation, shall—

(1) reevaluate the fuel economy labeling procedures described in the final rule published in the Federal Register on December 27, 2006 (71 Fed. Reg. 77,872; 40 C.F.R. parts 86 and 600) to determine whether changes in the factors used to establish the labeling procedures warrant a revision of that process; and

(2) submit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce that describes the results of the reevaluation process.

SEC. 513. TIRE FUEL EFFICIENCY CONSUMER INFORMATION.

(a) IN GENERAL.—Chapter 301 of title 49, United States Code, is amended by inserting after section 30123 the following new section:

''§ 30123A. Tire fuel efficiency consumer information

''(a) RULEMAKING.—

''(1) IN GENERAL.—Not later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation shall, after notice and opportunity for comment, promulgate rules establishing a national tire fuel efficiency consumer information program for tires designed for use on motor vehicles to educate consumers about the effect of tires on automobile fuel efficiency.

''(2) ITEMS INCLUDED IN RULE.—The rulemaking shall include—

''(A) a national tire fuel efficiency rating system for motor vehicle tires to assist consumers in making more educated tire purchasing decisions;

''(B) requirements for providing information to consumers, including information at the point of sale and other potential information dissemination methods, including the Internet;

''(C) specifications for test methods for manufacturers to use in assessing and rating tires to avoid variation among test equipment and manufacturers; and

''(D) a national tire maintenance consumer education program including, information on tire inflation pressure, alignment, rotation, and tread wear to maximize fuel efficiency.

''(3) APPLICABILITY.—This section shall not apply to tires excluded from coverage under section 575.104(c)(2) of title 49, Code of Federal Regulations, as in effect on date of enactment of the Ten-in-Ten Fuel Economy Act.

''(b) CONSULTATION.—The Secretary shall consult with the Secretary of Energy and the Administrator of the Environmental Protection Agency on the means of conveying tire fuel efficiency consumer information.

''(c) REPORT TO CONGRESS.—The Secretary shall conduct periodic assessments of the

rules promulgated under this section to determine the utility of such rules to consumers, the level of cooperation by industry, and the contribution to national goals pertaining to energy consumption. The Secretary shall transmit periodic reports detailing the findings of such assessments to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce.

''(d) TIRE MARKING.—The Secretary shall not require permanent labeling of any kind on a tire for the purpose of tire fuel efficiency information.

''(e) PREEMPTION.—When a requirement under this section is in effect, a State or political subdivision of a State may adopt or enforce a law or regulation on tire fuel efficiency consumer information only if the law or regulation is identical to that requirement. Nothing in this section shall be construed to preempt a State or political subdivision of a State from regulating the fuel efficiency of tires not otherwise preempted under this chapter.''.

(b) ENFORCEMENT.—Section 30165(a) of title 49, United States Code, is amended by adding at the end the following:

''(4) SECTION 30123a.—Any person who fails to comply with the national tire fuel efficiency consumer information program under section 30123A is liable to the United States Government for a civil penalty of not more than $50,000 for each violation.''.

(c) Conforming Amendment.—The chapter analysis for chapter 301 of title 49, United States Code, is amended by inserting after the item relating to section 30123 the following:

''30123A. Tire fuel efficiency consumer information''.

SEC. 514. ADVANCED BATTERY INITIATIVE.

(a) IN GENERAL.—The Secretary of Energy, in consultation with the Secretary of Transportation, shall establish and carry out an Advanced Battery Initiative in accordance with this section to support research, development, demonstration, and commercial application of battery technologies.

(b) INDUSTRY ALLIANCE.—Not later than 180 days after the date of enactment of this Act, the Secretary shall competitively select an Industry Alliance to represent participants who are private, for-profit firms headquartered in the United States, the primary business of which is the manufacturing of batteries.

(c) RESEARCH.—

(1) GRANTS.—The Secretary shall carry out research activities of the Initiative through competitively-awarded grants to—

(A) researchers, including Industry Alliance participants;

(B) small businesses;

(C) National Laboratories; and

(D) institutions of higher education.

(2) INDUSTRY ALLIANCE.—The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify advanced battery technology and battery systems needs relevant to—

(i) electric drive technology; and

(ii) other applications the Secretary deems appropriate;

(B) an assessment of the progress of research activities of the Initiative; and

(C) assistance in annually updating advanced battery technology and battery systems roadmaps.

(d) AVAILABILITY TO THE PUBLIC.—The information and roadmaps developed under this section shall be available to the public.

(e) PREFERENCE.—In making awards under this subsection, the Secretary shall give preference to participants in the Industry Alliance.

(f) COST SHARING.—In carrying out this section, the Secretary shall require cost sharing in accordance with section 120(b) of title 23, United States Code.

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section such sums as may be necessary for each of fiscal years 2008 through 2012.

SEC. 515. BIODIESEL STANDARDS.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Transportation and the Secretary of Energy, shall promulgate regulations to ensure that all diesel-equivalent fuels derived from renewable biomass that are introduced into interstate commerce are tested and certified to comply with appropriate American Society for Testing and Materials standards.

(b) DEFINITIONS.—In this section:

(1) BIODIESEL.—

(A) IN GENERAL.—The term ''biodiesel'' means the monoalkyl esters of long chain fatty acids derived from plant or animal matter that meet—

(i) the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545); and

(ii) the requirements of the American Society of Testing and Materials D6751.

(B) INCLUSIONS.—The term ''biodiesel'' includes esters described in subparagraph (A) derived from—

(i) animal waste, including poultry fat, poultry waste, and other waste material; and

(ii) municipal solid waste, sludge, and oil derived from wastewater or the treatment of wastewater.

(2) BIODIESEL BLEND.—The term ''biodiesel blend'' means a mixture of biodiesel and diesel fuel, including—

(A) a blend of biodiesel and diesel fuel approximately 5 percent of the content of which is biodiesel (commonly known as ''B5''); and

(B) a blend of biodiesel and diesel fuel approximately 20 percent of the content of which is biodiesel (commonly known as ''B20'').

SEC. 516. USE OF CIVIL PENALTIES FOR RESEARCH AND DEVELOPMENT.

Section 32912 of title 49, United States Code, is amended by adding at the end thereof the following:

''(e) USE OF CIVIL PENALTIES.—For fiscal year 2008 and each fiscal year thereafter, from the total amount deposited in the general fund of the Treasury during the preceding fiscal year from fines, penalties, and other funds obtained through enforcement actions conducted pursuant to this section (including funds obtained under consent decrees), the Secretary of the Treasury, subject to the availability of appropriations, shall—

''(1) transfer 50 percent of such total amount to the account providing appropriations to the Secretary of Transportation for the administration of this chapter, which shall be used by the Secretary to carry out a program of research and development into fuel saving automotive technologies and to support rulemaking under this chapter; and

''(2) transfer 50 percent of such total amount to the Energy Security Fund established by section 517(a) of the Ten-in-Ten Fuel Economy Act.''.

SEC. 517. ENERGY SECURITY FUND AND ALTERNATIVE FUEL GRANT PROGRAM.

(a) ESTABLISHMENT OF FUND.—

(1) IN GENERAL.—There is established in the Treasury a fund, to be known as the ''Energy Security Fund'' (referred to in this section as the ''Fund''), consisting of—

(A) amounts transferred to the Fund under section 32912(e)(2) of title 49, United States Code; and

(B) amounts credited to the Fund under paragraph (2)(C).

(2) INVESTMENT OF AMOUNTS.—

(A) IN GENERAL.—The Secretary of the Treasury shall invest in interest-bearing obligations of the United States such portion of the Fund as is not, in the judgment of the Secretary of the Treasury, required to meet current withdrawals.

(B) SALE OF OBLIGATIONS.—Any obligation acquired by the Fund may be sold by the Secretary of the Treasury at the market price.

(C) CREDITS TO FUND.—The interest on, and the proceeds from the sale or redemption of, any obligations held in the Fund shall be credited to, and form a part of, the Fund in accordance with section 9602 of the Internal Revenue Code of 1986.

(3) USE OF AMOUNTS IN FUND.—Amounts in the Fund shall be made available to the Secretary of Energy, subject to the availability of appropriations, to carry out the grant program under subsection (b).

(b) ALTERNATIVE FUELS GRANT PROGRAM.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary of Energy, acting through the Clean Cities Program of the Department of Energy, shall establish and carry out a program under which the Secretary shall provide grants to expand the availability to consumers of alternative fuels (as defined in section 32901(a) of title 49, United States Code).

(2) ELIGIBILITY.—

(A) IN GENERAL.—Except as provided in subparagraph (B), any entity that is eligible to receive assistance under the Clean Cities Program shall be eligible to receive a grant under this subsection.

(B) EXCEPTIONS.—

(i) CERTAIN OIL COMPANIES.—A large, vertically-integrated oil company shall not be eligible to receive a grant under this subsection.

(ii) PROHIBITION OF DUAL BENEFITS.—An entity that receives any other Federal funds for the construction or expansion of alternative refueling infrastructure shall not be eligible to receive a grant under this subsection for the construction or expansion of the same alternative refueling infrastructure.

(C) ENSURING COMPLIANCE.—Not later than 30 days after the date of enactment of this Act, the Secretary of Energy shall promulgate regulations to ensure that, before receiving a grant under this subsection, an eligible entity meets applicable standards relating to the installation, construction, and expansion of infrastructure necessary to increase the availability to consumers of alternative fuels (as defined in section 32901(a) of title 49, United States Code).

(3) MAXIMUM AMOUNT.—

(A) GRANTS.—The amount of a grant provided under this subsection shall not exceed $30,000.

(B) AMOUNT PER STATION.—An eligible entity shall receive not more than $90,000 under this subsection for any station of the eligible entity during a fiscal year.

(4) USE OF FUNDS.—

(A) IN GENERAL.—A grant provided under this subsection shall be used for the construction or expansion of alternative fueling infrastructure.

(B) ADMINISTRATIVE EXPENSES.—Not more than 3 percent of the amount of a grant provided under this subsection shall be used for administrative expenses.

SEC. 518. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary of Transportation $25,000,000 for each of fiscal years 2009 through 2021 to carry out the provisions of chapter 329 of title 49, United States Code.

SEC. 519. APPLICATION WITH CLEAN AIR ACT.

Nothing in this title shall be construed to conflict with the authority provided by sections 202 and 209 of the Clean Air Act (42 U.S.C. 7521 and 7543, respectively).

SA 1794. Mr. STEVENS (Ms. SNOWE, Mr. ALEXANDER, Mr. CARPER, Mr. LOTT, Mr. KERRY, and Mr. CORKER) submitted an amendment intended to be proposed to amendment SA 1712 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

TITLE V—CORPORATE AVERAGE FUEL ECONOMY STANDARDS

SEC. 501. SHORT TITLE.

This title may be cited as the ''Ten-in-Ten Fuel Economy Act''.

SEC. 502. AVERAGE FUEL ECONOMY STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.

(a) INCREASED STANDARDS.—Section 32902 of title 49, United States Code, is amended—

(1) by striking ''**NON-PASSENGER AUTOMOBILES**.—'' in subsection (a) and inserting ''**PRESCRIPTION OF STANDARDS BY REGULATION**.—'';

(2) by striking ''(except passenger automobiles)'' in subsection (a); and

(3) by striking subsection (b) and inserting the following:

''(b) STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.—

''(1) IN GENERAL.—The Secretary of Transportation, after consultation with the Administrator of the Environmental Protection Agency, shall prescribe average fuel economy standards for—

''(A) automobiles manufactured by manufacturers in each model year beginning with model year 2011 in accordance with subsection (c); and

''(B) commercial medium-duty or heavy-duty on-highway vehicles in accordance with subsection (k).

''(2) FUEL ECONOMY TARGET FOR AUTOMOBILES.—

''(A) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2011 THROUGH 2020.—The Secretary shall prescribe average fuel economy standards for automobiles in each model year beginning with model year 2011 to achieve a combined fuel economy average for model year 2020 of at least 35 miles per gallon for the fleet of automobiles manufactured or sold in the United States. The average fuel economy standards prescribed by the Secretary shall be the maximum feasible average fuel economy standards for model years 2011 through 2019.

''(B) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2021 THROUGH 2030.—For model years 2021 through 2030, the average fuel economy required to be attained by the fleet of automobiles manufactured or sold in the United States shall be the maximum feasible average fuel economy standard for the fleet.

''(C) PROGRESS TOWARD STANDARD REQUIRED.—In prescribing average fuel economy standards under subparagraph (A), the Secretary shall prescribe annual fuel economy standard increases that increase the applicable average fuel economy standard ratably beginning with model year 2011 and ending with model year 2020.''.

(b) FUEL ECONOMY TARGET FOR COMMERCIAL MEDIUM-DUTY AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—Section 32902 of title 49, United States Code, is amended by adding at the end thereof the following:

''(k) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—

''(1) STUDY.—No later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall examine the fuel efficiency of commercial medium- and heavy-duty on-highway vehicles and determine—

''(A) the appropriate test procedures and methodologies for measuring commercial medium- and heavy-duty on-highway vehicle fuel efficiency;

''(B) the appropriate metric for measuring and expressing commercial medium- and heavy-duty on-highway vehicle fuel efficiency performance, taking into consideration, among other things, the work performed by such on-highway vehicles and types of operations in which they are used;

''(C) the range of factors, including, without limitation, design, functionality, use, duty cycle, infrastructure, and total overall energy consumption and operating costs that effect commercial medium- and heavy-duty on-highway vehicle fuel efficiency; and

''(D) such other factors and conditions that could have an impact on a program to improve commercial medium- and heavy-duty on-highway vehicle fuel efficiency.

''(2) RULEMAKING.—No later than 24 months after completion of the study required by paragraph (1), the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, by regulation, shall determine in a rulemaking procedure how to implement a commercial medium- and heavy-duty on-highway vehicle fuel efficiency improvement program designed to achieve the maximum feasible improvement, and shall adopt appropriate test methods, measurement metrics, fuel economy standards, and compliance and enforcement protocols that are appropriate, cost-effective, and technologically feasible for commercial medium- and heavy-duty on-highway vehicles.

''(3) LEAD-TIME; REGULATORY STABILITY.—Any commercial medium- and heavy-duty on-highway vehicle fuel efficiency regulatory program adopted pursuant to this subsection shall provide no less than 4 full model years of regulatory lead-time and 3 full model years of regulatory stability.

''(4) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLE DEFINED.—In this subsection, the term 'commercial medium- and heavy-duty on-highway vehicle' means an on-highway vehicle with a gross vehicle weight rating of more than 8,500 pounds, and that, in the case of a vehicle with a gross vehicle weight rating of less than 10,000 pounds, is not an automobile.''.

(c) AUTHORITY OF SECRETARY.—Section 32902 of title 49, United States Code, as amended by subsection (b), is further amended by adding at the end thereof the following:

''(l) AUTHORITY OF THE SECRETARY.—

''(1) VEHICLE ATTRIBUTES.—The Secretary shall—

''(A) prescribe by regulation average fuel economy standards for automobiles based on vehicle attributes related to fuel economy and to express the standards in the form of a mathematical function; and

''(B) issue regulations under this title prescribing average fuel economy standards for 1 or more model years.

''(2) PROHIBITION OF UNIFORM PERCENTAGE INCREASE.—When the Secretary prescribes a standard, or prescribes an amendment under this section that changes a standard, the standard may not be expressed as a uniform percentage increase from the fuel-economy performance of attribute classes or categories already achieved in a model year by a manufacturer.''.

SEC. 503. AMENDING FUEL ECONOMY STANDARDS.

(a) IN GENERAL.—Section 32902(c) of title 49, United States Code, is amended to read as follows:

''(c) AMENDING FUEL ECONOMY STANDARDS.—Notwithstanding subsections (a) and (b), the Secretary of Transportation—

''(1) may prescribe a standard higher than that required under subsection (b); or

''(2) may prescribe an average fuel economy standard for automobiles that is the maximum feasible level for the model year, despite being lower than the standard required under subsection (b), if the Secretary determines, based on clear and convincing evidence, that the average fuel economy standard prescribed in accordance with subsections (a) and (b) for automobiles in that model year is shown not to be cost-effective.''.

(b) FEASIBILITY CRITERIA.—Section 32902(f) of title 49, United States Code, is amended to read as follows:

''(f) DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.—

''(1) IN GENERAL.—When deciding maximum feasible average fuel economy under this section, the Secretary shall consider—

''(A) economic practicability;

''(B) the effect of other motor vehicle standards of the Government on fuel economy;

''(C) environmental impacts; and

''(D) the need of the United States to conserve energy.

''(2) LIMITATIONS.—In setting any standard under subsection (b), (c), or (d), the Secretary shall ensure that each standard is the highest standard that—

''(A) is technologically achievable;

''(B) can be achieved without materially reducing the overall safety of automobiles manufactured or sold in the United States;

''(C) is not less than the standard for that class of vehicles from any prior year; and

''(D) is cost-effective.

''(3) COST-EFFECTIVE DEFINED.—In this subsection, the term 'cost-effective' means that the value to the United States of reduced

fuel use from a proposed fuel economy standard is greater than or equal to the cost to the United States of such standard. In determining cost-effectiveness, the Secretary shall give priority to those technologies and packages of technologies that offer the largest reduction in fuel use relative to their costs.

''(4) FACTORS FOR CONSIDERATION BY SECRETARY IN DETERMINING COST-EFFECTIVENESS.—The Secretary shall consult with the Administrator of the Environmental Protection Agency, and may consult with such other departments and agencies as the Secretary deems appropriate, and shall consider in the analysis the following factors:

''(A) Economic security.

''(B) The impact of the oil or energy intensity of the United States economy on the sensitivity of the economy to oil and other fuel price changes, including the magnitude of gross domestic product losses in response to short term price shocks or long term price increases.

''(C) National security, including the impact of United States payments for oil and other fuel imports on political, economic, and military developments in unstable or unfriendly oil-exporting countries.

''(D) The uninternalized costs of pipeline and storage oil seepage, and for risk of oil spills from production, handling, and transport, and related landscape damage.

''(E) The emissions of pollutants including greenhouse gases over the lifecycle of the fuel and the resulting costs to human health, the economy, and the environment.

''(F) Such additional factors as the Secretary deems relevant.

''(5) MINIMUM VALUATION.—When considering the value to consumers of a gallon of gasoline saved, the Secretary of Transportation shall use as a minimum value the greater of—

''(A) the average value of gasoline prices projected by the Energy Information Administration over the period covered by the standard; or

''(B) the average value of gasoline prices for the 5-year period immediately preceding the year in which the standard is established.''.

(c) CONSULTATION REQUIREMENT.—Section 32902(i) of title 49, United States Code, is amended by inserting ''and the Administrator of the Environmental Protection Agency'' after ''Energy''.

(d) COMMENTS.—Section 32902(j) of title 49, United States Code, is amended—

(1) by striking paragraph (1) and inserting ''(1) Before issuing a notice proposing to prescribe or amend an average fuel economy standard under subsection (b), (c), or (g) of this section, the Secretary of Transportation shall give the Secretary of Energy and Administrator of the Environmental Protection Agency at least 30 days after the receipt of the notice during which the Secretary of Energy and Administrator may, if the Secretary of Energy or Administrator concludes that the proposed standard would adversely affect the conservation goals of the Secretary of Energy or environmental protection goals of the Administrator, provide written comments to the Secretary of Transportation about the impact of the standard on those goals. To the extent the Secretary of Transportation does not revise a proposed standard to take into account comments of the Secretary of Energy or Administrator on any adverse impact of the standard, the Secretary of Transportation shall include those comments in the notice.''; and

(2) by inserting ''and the Administrator'' after ''Energy'' each place it appears in paragraph (2).

(e) ALTERNATIVE FUEL ECONOMY STANDARDS FOR LOW VOLUME MANUFACTURERS AND NEW ENTRANTS.—Section 32902(d) of title 49, United States Code, is amended to read as follows:

''(d) ALTERNATIVE AVERAGE FUEL ECONOMY STANDARD.—

''(1) IN GENERAL.—Upon the application of an eligible manufacturer, the Secretary of Transportation may prescribe an alternative average fuel economy standard for automobiles manufactured by that manufacturer if the Secretary determines that—

''(A) the applicable standard prescribed under subsection (a), (b), or (c) is more stringent than the maximum feasible average fuel economy level that manufacturer can achieve; and

''(B) the alternative average fuel economy standard prescribed under this subsection is the maximum feasible average fuel economy level that manufacturer can achieve.

''(2) APPLICATION OF ALTERNATIVE STANDARD.—The Secretary may provide for the application of an alternative average fuel economy standard prescribed under paragraph (1) to—

''(A) the manufacturer that applied for the alternative average fuel economy standard;

''(B) all automobiles to which this subsection applies; or

''(C) classes of automobiles manufactured by eligible manufacturers.

''(3) IMPORTERS.—Notwithstanding paragraph (1), an importer registered under section 30141(c) may not be exempted as a manufacturer under paragraph (1) for an automobile that the importer—

''(A) imports; or

''(B) brings into compliance with applicable motor vehicle safety standards prescribed under chapter 301 for an individual described in section 30142.

''(4) APPLICATION.—The Secretary of Transportation may prescribe the contents of an application for an alternative average fuel economy standard.

''(5) ELIGIBLE MANUFACTURER DEFINED.—In this section, the term 'eligible manufacturer' means a manufacturer that—

''(A) is not owned in whole or in part by another manufacturer that sold greater than 0.4 percent of the number of automobiles sold in the United States in the model year prior to the model year to which the application relates;

''(B) sold in the United States fewer than 0.4 percent of the number of automobiles sold in the United States in the model year that is 2 years before the model year to which the application relates; and

''(C) will sell in the United States fewer than 0.4 percent of the automobiles sold in the United States for the model year for which the alternative average fuel economy standard will apply.

''(6) LIMITATION.—For purposes of this subsection, notwithstanding section 32901(a)(4), the term 'automobile manufactured by a manufacturer' includes every automobile manufactuered by a person that controls, is controlled by, or is under common control with the manufacturer.''.

(f) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Section 32902(d) of title 49, United States Code, is amended by striking ''passenger'' each place it appears.

(2) Section 32902(g) of title 49, United States Code, is amended—

(A) by striking ''subsection (a) or (d)'' each place it appears in paragraph (1) and inserting ''subsection (b), (c), or (d)''; and

(B) striking ''(and submit the amendment to Congress when required under subsection (c)(2) of this section)'' in paragraph (2).

SEC. 504. DEFINITIONS.

(a) IN GENERAL.—Section 32901(a) of title 49, United States Code, is amended—

(1) by striking paragraph (3) and inserting the following:

''(3) except as provided in section 32908 of this title, 'automobile' means a 4-wheeled vehicle that is propelled by fuel, or by alternative fuel, manufactured primarily for use on public streets, roads, and highways and rated at not more than 10,000 pounds gross vehicle weight, except—

''(A) a vehicle operated only on a rail line;

''(B) a vehicle manufactured by 2 or more manufacturers in different stages and less than 10,000 of which are manufactured per year; or

''(C) a work truck.''; and

(2) by adding at the end the following:

''(17) 'work truck' means an automobile that the Secretary determines by regulation—

''(A) is rated at between 8,500 and 10,000 pounds gross vehicle weight; and

''(B) is not a medium-duty passenger vehicle (as defined in section 86.1803–01 of title 40, Code of Federal Regulations).''.

(b) DEADLINE FOR REGULATIONS.—The Secretary of Transportation—

(1) shall issue proposed regulations implementing the amendments made by subsection (a) not later than 1 year after the date of enactment of this Act; and

(2) shall issue final regulations implementing the amendments not later than 18 months after the date of the enactment of this Act.

(c) EFFECTIVE DATE.—Regulations prescribed under subsection (b) shall apply beginning with model year 2010.

SEC. 505. ENSURING SAFETY OF AUTOMOBILES.

(a) IN GENERAL.—Subchapter II of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

''§ 30129. Vehicle compatibility standard

''(a) STANDARDS.—The Secretary of Transportation shall issue a motor vehicle safety standard to reduce automobile incompatibility. The standard shall address characteristics necessary to ensure better management of crash forces in multiple vehicle frontal and side impact crashes between different types, sizes, and weights of automobiles with a gross vehicle weight of 10,000 pounds or less in order to decrease occupant deaths and injuries.

''(b) CONSUMER INFORMATION.—The Secretary shall develop and implement a public information side and frontal compatibility crash test program with vehicle ratings based on risks to occupants, risks to other motorists, and combined risks by vehicle make and model.''.

(b) RULEMAKING DEADLINES.—

(1) RULEMAKING.—The Secretary of Transportation shall issue—

(A) a notice of a proposed rulemaking under section 30129 of title 49, United States Code, not later than January 1, 2012; and

(B) a final rule under such section not later than December 31, 2014.

(2) EFFECTIVE DATE OF REQUIREMENTS.—Any requirement imposed under the final rule issued under paragraph (1) shall become fully effective not later than September 1, 2018.

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 301 is amended by inserting after the item relating to section 30128 the following:

''30129. Vehicle compatibility standard''.

SEC. 506. CREDIT TRADING PROGRAM.

Section 32903 of title 49, United States Code, is amended—

(1) by striking ''passenger'' each place it appears;

(2) by striking ''section 32902(b)–(d) of this title'' each place it appears and inserting ''subsection (a), (c), or (d) of section 32902'';

(3) by striking ''3 consecutive model years'' in subsection (a)(2) and inserting ''5 consecutive model years'';

(4) in subsection (a)(2), by striking ''clause (1) of this subsection,'' and inserting ''paragraph (1)''; and

(5) by striking subsection (e) and inserting the following:

''(e) CREDIT TRADING AMONG MANUFACTURERS.—The Secretary of Transportation may establish, by regulation, a corporate average fuel economy credit trading program to allow manufacturers whose automobiles exceed the average fuel economy standards prescribed under section 32902 to earn credits to be sold to manufacturers whose automobiles fail to achieve the prescribed standards such that the total oil savings associated with manufacturers that exceed the prescribed standards are preserved when transferring credits to manufacturers that fail to achieve the prescribed standards.''.

SEC. 507. LABELS FOR FUEL ECONOMY AND GREENHOUSE GAS EMISSIONS.

Section 32908 of title 49, United States Code, is amended—

(1) by redesignating subparagraph (F) of subsection (b)(1) as subparagraph (H) and inserting after subparagraph (E) the following:

''(F) a label (or a logo imprinted on a label required by this paragraph) that—

''(i) reflects an automobile's performance on the basis of criteria developed by the Administrator to reflect the fuel economy and greenhouse gas and other emissions consequences of operating the automobile over its likely useful life;

''(ii) permits consumers to compare performance results under clause (i) among all automobiles; and

''(iii) is designed to encourage the manufacture and sale of automobiles that meet or exceed applicable fuel economy standards under section 32902.

''(G) a fuelstar under paragraph (5).''; and

(2) by adding at the end of subsection (b) the following:

''(4) GREEN LABEL PROGRAM.—

''(A) MARKETING ANALYSIS.—Not later than 2 years after the date of the enactment of the Ten-in-Ten Fuel Economy Act, the Administrator shall implement a consumer education program and execute marketing strategies to improve consumer understanding of automobile performance described in paragraph (1)(F).

''(B) ELIGIBILITY.—Not later than 3 years after the date described in subparagraph (A), the Administrator shall issue requirements for the label or logo required under paragraph (1)(F) to ensure that an automobile is not eligible for the label or logo unless it—

''(i) meets or exceeds the applicable fuel economy standard; or

''(ii) will have the lowest greenhouse gas emissions over the useful life of the vehicle of all vehicles in the vehicle attribute class to which it belongs in that model year.

''(5) FUELSTAR PROGRAM.—

''(A) IN GENERAL.—The Secretary shall establish a program, to be known as the 'Fuelstar Program', under which stars shall be imprinted on or attached to the label required by paragraph (1).

''(B) GREEN STARS.—Under the Fuelstar Program, a manufacturer may include on the label maintained on an automobile under paragraph (1)—

''(i) 1 green star for any automobile that meets the average fuel economy standard for the model year under section 32902; and

''(ii) 1 additional green star for each 2 miles per gallon by which the automobile exceeds such standard.

''(C) GOLD STARS.—Under the Fuelstar Program, a manufacturer may include a gold star on the label maintained on an automobile under paragraph (1) if the automobile attains a fuel economy of at least 50 miles per gallon.''.

SEC. 508. CONTINUED APPLICABILITY OF EXISTING STANDARDS.

Nothing in this title, or the amendments made by this title, shall be construed to affect the application of section 32902 of title 49, United States Code, to passenger automobiles or non-passenger automobiles manufactured before model year 2011.

SEC. 509. NATIONAL ACADEMY OF SCIENCES STUDIES.

(a) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary of Transportation shall execute an agreement with the National Academy of Sciences to develop a report evaluating vehicle fuel economy standards, including—

(1) an assessment of automotive technologies and costs to reflect developments since the Academy's 2002 report evaluating the corporate average fuel economy standards was conducted;

(2) an analysis of existing and potential technologies that may be used practically to improve automobile and medium-duty and heavy-duty truck fuel economy;

(3) an analysis of how such technologies may be practically integrated into the automotive and medium-duty and heavy-duty truck manufacturing process; and

(4) an assessment of how such technologies may be used to meet the new fuel economy standards under chapter 329 of title 49, United States Code, as amended by this title.

(b) QUINQUENNIAL UPDATES.—After submitting the initial report, the Academy shall update the report at 5 year intervals thereafter through 2025.

(c) REPORT.—The Academy shall submit the report to the Secretary, the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce, with its findings and recommendations no later than 18 months after the date on which the Secretary executes the agreement with the Academy.

SEC. 510. STANDARDS FOR EXECUTIVE AGENCY AUTOMOBILES.

(a) IN GENERAL.—Section 32917 of title 49, United States Code, is amended to read as follows:

''§ 32917. Standards for Executive agency automobiles

''(a) FUEL EFFICIENCY.—The head of an Executive agency shall ensure that each new automobile procured by the Executive agency is as fuel efficient as practicable.

''(b) DEFINITIONS.—In this section:

''(1) EXECUTIVE AGENCY.—The term 'Executive agency' has the meaning given that term in section 105 of title 5.

''(2) NEW AUTOMOBILE.—The term 'new automobile', with respect to the fleet of automobiles of an executive agency, means an automobile that is leased for at least 60 consecutive days or bought, by or for the Executive agency, after September 30, 2008. The term does not include any vehicle designed for combat-related missions, law enforcement work, or emergency rescue work.''.

(b) REPORT.—The Administrator of the General Services Administration shall develop a report describing and evaluating the efforts of the heads of the Executive agencies to comply with section 32917 of title 49, United States Code, for fiscal year 2009. The Administrator shall submit the report to Congress no later than December 31, 2009.

SA 1795. Mr. STEVENS (for himself Ms. SNOWE, Mr. ALEXANDER, Mr. CARPER, Mr. LOTT, Mr. KERRY, and Mr. CORKER) submitted an amendment intended to be proposed to amendment SA 1713 submitted by Mr. PRYOR (for himself, Mr. BOND, Mr. LEVIN, Mr. VOINOVICH, Ms. STABENOW, and Mrs. MCCASKILL) and intended to be proposed to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

TITLE V—CORPORATE AVERAGE FUEL ECONOMY STANDARDS

SEC. 501. SHORT TITLE.

This title may be cited as the ''Ten-in-Ten Fuel Economy Act''.

SEC. 502. AVERAGE FUEL ECONOMY STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.

(a) INCREASED STANDARDS.—Section 32902 of title 49, United States Code, is amended—

(1) by striking ''**NON-PASSENGER AUTOMOBILES**.—'' in subsection (a) and inserting ''**PRESCRIPTION OF STANDARDS BY REGULATION**.—'';

(2) by striking ''(except passenger automobiles)'' in subsection (a); and

(3) by striking subsection (b) and inserting the following:

''(b) STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.—

''(1) IN GENERAL.—The Secretary of Transportation, after consultation with the Administrator of the Environmental Protection Agency, shall prescribe average fuel economy standards for—

''(A) automobiles manufactured by manufacturers in each model year beginning with model year 2011 in accordance with subsection (c); and

''(B) commercial medium-duty or heavy-duty on-highway vehicles in accordance with subsection (k).

''(2) FUEL ECONOMY TARGET FOR AUTOMOBILES.—

''(A) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2011 THROUGH 2020.—The Secretary shall prescribe average fuel economy standards for automobiles in each model year beginning with model year 2011 to achieve a combined fuel economy average for model year 2020 of at least 35 miles per gallon for the fleet of automobiles manufactured or sold in the United States. The average fuel economy standards prescribed by the Secretary shall be the maximum feasible average fuel economy standards for model years 2011 through 2019.

''(B) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2021 THROUGH 2030.—For

model years 2021 through 2030, the average fuel economy required to be attained by the fleet of automobiles manufactured or sold in the United States shall be the maximum feasible average fuel economy standard for the fleet.

''(C) PROGRESS TOWARD STANDARD REQUIRED.—In prescribing average fuel economy standards under subparagraph (A), the Secretary shall prescribe annual fuel economy standard increases that increase the applicable average fuel economy standard ratably beginning with model year 2011 and ending with model year 2020.''.

(b) FUEL ECONOMY TARGET FOR COMMERCIAL MEDIUM-DUTY AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—Section 32902 of title 49, United States Code, is amended by adding at the end thereof the following:

''(k) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLES.—

''(1) STUDY.—No later than 18 months after the date of enactment of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall examine the fuel efficiency of commercial medium- and heavy-duty on-highway vehicles and determine—

''(A) the appropriate test procedures and methodologies for measuring commercial medium- and heavy-duty on-highway vehicle fuel efficiency;

''(B) the appropriate metric for measuring and expressing commercial medium- and heavy-duty on-highway vehicle fuel efficiency performance, taking into consideration, among other things, the work performed by such on-highway vehicles and types of operations in which they are used;

''(C) the range of factors, including, without limitation, design, functionality, use, duty cycle, infrastructure, and total overall energy consumption and operating costs that effect commercial medium- and heavy-duty on-highway vehicle fuel efficiency; and

''(D) such other factors and conditions that could have an impact on a program to improve commercial medium- and heavy-duty on-highway vehicle fuel efficiency.

''(2) RULEMAKING.—No later than 24 months after completion of the study required by paragraph (1), the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, by regulation, shall determine in a rulemaking procedure how to implement a commercial medium- and heavy-duty on-highway vehicle fuel efficiency improvement program designed to achieve the maximum feasible improvement, and shall adopt appropriate test methods, measurement metrics, fuel economy standards, and compliance and enforcement protocols that are appropriate, cost-effective, and technologically feasible for commercial medium- and heavy-duty on-highway vehicles.

''(3) LEAD-TIME; REGULATORY STABILITY.—Any commercial medium- and heavy-duty on-highway vehicle fuel efficiency regulatory program adopted pursuant to this subsection shall provide no less than 4 full model years of regulatory lead-time and 3 full model years of regulatory stability.

''(4) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLE DEFINED.—In this subsection, the term 'commercial medium- and heavy-duty on-highway vehicle' means an on-highway vehicle with a gross vehicle weight rating of more than 8,500 pounds, and that, in the case of a vehicle with a gross vehicle weight rating of less than 10,000 pounds, is not an automobile.''.

(c) AUTHORITY OF SECRETARY.—Section 32902 of title 49, United States Code, as amended by subsection (b), is further amended by adding at the end thereof the following:

''(l) AUTHORITY OF THE SECRETARY.—

''(1) VEHICLE ATTRIBUTES.—The Secretary shall—

''(A) prescribe by regulation average fuel economy standards for automobiles based on vehicle attributes related to fuel economy and to express the standards in the form of a mathematical function; and

''(B) issue regulations under this title prescribing average fuel economy standards for 1 or more model years.

''(2) PROHIBITION OF UNIFORM PERCENTAGE INCREASE.—When the Secretary prescribes a standard, or prescribes an amendment under this section that changes a standard, the standard may not be expressed as a uniform percentage increase from the fuel-economy performance of attribute classes or categories already achieved in a model year by a manufacturer.''.

SEC. 503. AMENDING FUEL ECONOMY STANDARDS.

(a) IN GENERAL.—Section 32902(c) of title 49, United States Code, is amended to read as follows:

''(c) AMENDING FUEL ECONOMY STANDARDS.—Notwithstanding subsections (a) and (b), the Secretary of Transportation—

''(1) may prescribe a standard higher than that required under subsection (b); or

''(2) may prescribe an average fuel economy standard for automobiles that is the maximum feasible level for the model year, despite being lower than the standard required under subsection (b), if the Secretary determines, based on clear and convincing evidence, that the average fuel economy standard prescribed in accordance with subsections (a) and (b) for automobiles in that model year is shown not to be cost-effective.''.

(b) FEASIBILITY CRITERIA.—Section 32902(f) of title 49, United States Code, is amended to read as follows:

''(f) DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.—

''(1) IN GENERAL.—When deciding maximum feasible average fuel economy under this section, the Secretary shall consider—

''(A) economic practicability;

''(B) the effect of other motor vehicle standards of the Government on fuel economy;

''(C) environmental impacts; and

''(D) the need of the United States to conserve energy.

''(2) LIMITATIONS.—In setting any standard under subsection (b), (c), or (d), the Secretary shall ensure that each standard is the highest standard that—

''(A) is technologically achievable;

''(B) can be achieved without materially reducing the overall safety of automobiles manufactured or sold in the United States;

''(C) is not less than the standard for that class of vehicles from any prior year; and

''(D) is cost-effective.

''(3) COST-EFFECTIVE DEFINED.—In this subsection, the term 'cost-effective' means that the value to the United States of reduced fuel use from a proposed fuel economy standard is greater than or equal to the cost to the United States of such standard. In determining cost-effectiveness, the Secretary shall give priority to those technologies and packages of technologies that offer the largest reduction in fuel use relative to their costs.

''(4) FACTORS FOR CONSIDERATION BY SECRETARY IN DETERMINING COST-EFFECTIVENESS.—The Secretary shall consult with the Administrator of the Environmental Protection Agency, and may consult with such other departments and agencies as the Secretary deems appropriate, and shall consider in the analysis the following factors:

''(A) Economic security.

''(B) The impact of the oil or energy intensity of the United States economy on the sensitivity of the economy to oil and other fuel price changes, including the magnitude of gross domestic product losses in response to short term price shocks or long term price increases.

''(C) National security, including the impact of United States payments for oil and other fuel imports on political, economic, and military developments in unstable or unfriendly oil-exporting countries.

''(D) The uninternalized costs of pipeline and storage oil seepage, and for risk of oil spills from production, handling, and transport, and related landscape damage.

''(E) The emissions of pollutants including greenhouse gases over the lifecycle of the fuel and the resulting costs to human health, the economy, and the environment.

''(F) Such additional factors as the Secretary deems relevant.

''(5) MINIMUM VALUATION.—When considering the value to consumers of a gallon of gasoline saved, the Secretary of Transportation shall use as a minimum value the greater of—

''(A) the average value of gasoline prices projected by the Energy Information Administration over the period covered by the standard; or

''(B) the average value of gasoline prices for the 5-year period immediately preceding the year in which the standard is established.''.

(c) CONSULTATION REQUIREMENT.—Section 32902(i) of title 49, United States Code, is amended by inserting ''and the Administrator of the Environmental Protection Agency'' after ''Energy''.

(d) COMMENTS.—Section 32902(j) of title 49, United States Code, is amended—

(1) by striking paragraph (1) and inserting ''(1) Before issuing a notice proposing to prescribe or amend an average fuel economy standard under subsection (b), (c), or (g) of this section, the Secretary of Transportation shall give the Secretary of Energy and Administrator of the Environmental Protection Agency at least 30 days after the receipt of the notice during which the Secretary of Energy and Administrator may, if the Secretary of Energy or Administrator concludes that the proposed standard would adversely affect the conservation goals of the Secretary of Energy or environmental protection goals of the Administrator, provide written comments to the Secretary of Transportation about the impact of the standard on those goals. To the extent the Secretary of Transportation does not revise a proposed standard to take into account comments of the Secretary of Energy or Administrator on any adverse impact of the standard, the Secretary of Transportation shall include those comments in the notice.''; and

(2) by inserting ''and the Administrator'' after ''Energy'' each place it appears in paragraph (2).

(e) ALTERNATIVE FUEL ECONOMY STANDARDS FOR LOW VOLUME MANUFACTURERS AND NEW ENTRANTS.—Section 32902(d) of title 49, United States Code, is amended to read as follows:

''(d) ALTERNATIVE AVERAGE FUEL ECONOMY STANDARD.—

''(1) IN GENERAL.—Upon the application of an eligible manufacturer, the Secretary of

Transportation may prescribe an alternative average fuel economy standard for automobiles manufactured by that manufacturer if the Secretary determines that—

''(A) the applicable standard prescribed under subsection (a), (b), or (c) is more stringent than the maximum feasible average fuel economy level that manufacturer can achieve; and

''(B) the alternative average fuel economy standard prescribed under this subsection is the maximum feasible average fuel economy level that manufacturer can achieve.

''(2) APPLICATION OF ALTERNATIVE STANDARD.—The Secretary may provide for the application of an alternative average fuel economy standard prescribed under paragraph (1) to—

''(A) the manufacturer that applied for the alternative average fuel economy standard;

''(B) all automobiles to which this subsection applies; or

''(C) classes of automobiles manufactured by eligible manufacturers.

''(3) IMPORTERS.—Notwithstanding paragraph (1), an importer registered under section 30141(c) may not be exempted as a manufacturer under paragraph (1) for an automobile that the importer—

''(A) imports; or

''(B) brings into compliance with applicable motor vehicle safety standards prescribed under chapter 301 for an individual described in section 30142.

''(4) APPLICATION.—The Secretary of Transportation may prescribe the contents of an application for an alternative average fuel economy standard.

''(5) ELIGIBLE MANUFACTURER DEFINED.—In this section, the term 'eligible manufacturer' means a manufacturer that—

''(A) is not owned in whole or in part by another manufacturer that sold greater than 0.4 percent of the number of automobiles sold in the United States in the model year prior to the model year to which the application relates;

''(B) sold in the United States fewer than 0.4 percent of the number of automobiles sold in the United States in the model year that is 2 years before the model year to which the application relates; and

''(C) will sell in the United States fewer than 0.4 percent of the automobiles sold in the United States for the model year for which the alternative average fuel economy standard will apply.

''(6) LIMITATION.—For purposes of this subsection, notwithstanding section 32901(a)(4), the term 'automobile manufactured by a manufacturer' includes every automobile manufactuered by a person that controls, is controlled by, or is under common control with the manufacturer.''.

(f) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) Section 32902(d) of title 49, United States Code, is amended by striking ''passenger'' each place it appears.

(2) Section 32902(g) of title 49, United States Code, is amended—

(A) by striking ''subsection (a) or (d)'' each place it appears in paragraph (1) and inserting ''subsection (b), (c), or (d)''; and

(B) striking ''(and submit the amendment to Congress when required under subsection (c)(2) of this section)'' in paragraph (2).

SEC. 504. DEFINITIONS.

(a) IN GENERAL.—Section 32901(a) of title 49, United States Code, is amended—

(1) by striking paragraph (3) and inserting the following:

''(3) except as provided in section 32908 of this title, 'automobile' means a 4-wheeled vehicle that is propelled by fuel, or by alternative fuel, manufactured primarily for use on public streets, roads, and highways and rated at not more than 10,000 pounds gross vehicle weight, except—

''(A) a vehicle operated only on a rail line;

''(B) a vehicle manufactured by 2 or more manufacturers in different stages and less than 10,000 of which are manufactured per year; or

''(C) a work truck.''; and

(2) by adding at the end the following:

''(17) 'work truck' means an automobile that the Secretary determines by regulation—

''(A) is rated at between 8,500 and 10,000 pounds gross vehicle weight; and

''(B) is not a medium-duty passenger vehicle (as defined in section 86.1803–01 of title 40, Code of Federal Regulations).''.

(b) DEADLINE FOR REGULATIONS.—The Secretary of Transportation—

(1) shall issue proposed regulations implementing the amendments made by subsection (a) not later than 1 year after the date of enactment of this Act; and

(2) shall issue final regulations implementing the amendments not later than 18 months after the date of the enactment of this Act.

(c) EFFECTIVE DATE.—Regulations prescribed under subsection (b) shall apply beginning with model year 2010.

SEC. 505. ENSURING SAFETY OF AUTOMOBILES.

(a) IN GENERAL.—Subchapter II of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

''§ 30129. Vehicle compatibility standard

''(a) STANDARDS.—The Secretary of Transportation shall issue a motor vehicle safety standard to reduce automobile incompatibility. The standard shall address characteristics necessary to ensure better management of crash forces in multiple vehicle frontal and side impact crashes between different types, sizes, and weights of automobiles with a gross vehicle weight of 10,000 pounds or less in order to decrease occupant deaths and injuries.

''(b) CONSUMER INFORMATION.—The Secretary shall develop and implement a public information side and frontal compatibility crash test program with vehicle ratings based on risks to occupants, risks to other motorists, and combined risks by vehicle make and model.''.

(b) RULEMAKING DEADLINES.—

(1) RULEMAKING.—The Secretary of Transportation shall issue—

(A) a notice of a proposed rulemaking under section 30129 of title 49, United States Code, not later than January 1, 2012; and

(B) a final rule under such section not later than December 31, 2014.

(2) EFFECTIVE DATE OF REQUIREMENTS.—Any requirement imposed under the final rule issued under paragraph (1) shall become fully effective not later than September 1, 2018.

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 301 is amended by inserting after the item relating to section 30128 the following:

''30129. Vehicle compatibility standard''.

SEC. 506. CREDIT TRADING PROGRAM.

Section 32903 of title 49, United States Code, is amended—

(1) by striking ''passenger'' each place it appears;

(2) by striking ''section 32902(b)–(d) of this title'' each place it appears and inserting ''subsection (a), (c), or (d) of section 32902'';

(3) by striking ''3 consecutive model years'' in subsection (a)(2) and inserting ''5 consecutive model years'';

(4) in subsection (a)(2), by striking ''clause (1) of this subsection,'' and inserting ''paragraph (1)''; and

(5) by striking subsection (e) and inserting the following:

''(e) CREDIT TRADING AMONG MANUFACTURERS.—The Secretary of Transportation may establish, by regulation, a corporate average fuel economy credit trading program to allow manufacturers whose automobiles exceed the average fuel economy standards prescribed under section 32902 to earn credits to be sold to manufacturers whose automobiles fail to achieve the prescribed standards such that the total oil savings associated with manufacturers that exceed the prescribed standards are preserved when transferring credits to manufacturers that fail to achieve the prescribed standards.''.

SEC. 507. LABELS FOR FUEL ECONOMY AND GREENHOUSE GAS EMISSIONS.

Section 32908 of title 49, United States Code, is amended—

(1) by redesignating subparagraph (F) of subsection (b)(1) as subparagraph (H) and inserting after subparagraph (E) the following:

''(F) a label (or a logo imprinted on a label required by this paragraph) that—

''(i) reflects an automobile's performance on the basis of criteria developed by the Administrator to reflect the fuel economy and greenhouse gas and other emissions consequences of operating the automobile over its likely useful life;

''(ii) permits consumers to compare performance results under clause (i) among all automobiles; and

''(iii) is designed to encourage the manufacture and sale of automobiles that meet or exceed applicable fuel economy standards under section 32902.

''(G) a fuelstar under paragraph (5).''; and

(2) by adding at the end of subsection (b) the following:

''(4) GREEN LABEL PROGRAM.—

''(A) MARKETING ANALYSIS.—Not later than 2 years after the date of the enactment of the Ten-in-Ten Fuel Economy Act, the Administrator shall implement a consumer education program and execute marketing strategies to improve consumer understanding of automobile performance described in paragraph (1)(F).

''(B) ELIGIBILITY.—Not later than 3 years after the date described in subparagraph (A), the Administrator shall issue requirements for the label or logo required under paragraph (1)(F) to ensure that an automobile is not eligible for the label or logo unless it—

''(i) meets or exceeds the applicable fuel economy standard; or

''(ii) will have the lowest greenhouse gas emissions over the useful life of the vehicle of all vehicles in the vehicle attribute class to which it belongs in that model year.

''(5) FUELSTAR PROGRAM.—

''(A) IN GENERAL.—The Secretary shall establish a program, to be known as the 'Fuelstar Program', under which stars shall be imprinted on or attached to the label required by paragraph (1).

''(B) GREEN STARS.—Under the Fuelstar Program, a manufacturer may include on the label maintained on an automobile under paragraph (1)—

''(i) 1 green star for any automobile that meets the average fuel economy standard for the model year under section 32902; and

''(ii) 1 additional green star for each 2 miles per gallon by which the automobile exceeds such standard.

''(C) GOLD STARS.—Under the Fuelstar Program, a manufacturer may include a gold star on the label maintained on an automobile under paragraph (1) if the automobile

attains a fuel economy of at least 50 miles per gallon.''.

SEC. 508. CONTINUED APPLICABILITY OF EXISTING STANDARDS.

Nothing in this title, or the amendments made by this title, shall be construed to affect the application of section 32902 of title 49, United States Code, to passenger automobiles or non-passenger automobiles manufactured before model year 2011.

SEC. 509. NATIONAL ACADEMY OF SCIENCES STUDIES.

(a) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary of Transportation shall execute an agreement with the National Academy of Sciences to develop a report evaluating vehicle fuel economy standards, including—

(1) an assessment of automotive technologies and costs to reflect developments since the Academy's 2002 report evaluating the corporate average fuel economy standards was conducted;

(2) an analysis of existing and potential technologies that may be used practically to improve automobile and medium-duty and heavy-duty truck fuel economy;

(3) an analysis of how such technologies may be practically integrated into the automotive and medium-duty and heavy-duty truck manufacturing process; and

(4) an assessment of how such technologies may be used to meet the new fuel economy standards under chapter 329 of title 49, United States Code, as amended by this title.

(b) QUINQUENNIAL UPDATES.—After submitting the initial report, the Academy shall update the report at 5 year intervals thereafter through 2025.

(c) REPORT.—The Academy shall submit the report to the Secretary, the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Energy and Commerce, with its findings and recommendations no later than 18 months after the date on which the Secretary executes the agreement with the Academy.

SEC. 510. STANDARDS FOR EXECUTIVE AGENCY AUTOMOBILES.

(a) IN GENERAL.—Section 32917 of title 49, United States Code, is amended to read as follows:

''§ 32917. Standards for Executive agency automobiles

''(a) FUEL EFFICIENCY.—The head of an Executive agency shall ensure that each new automobile procured by the Executive agency is as fuel efficient as practicable.

''(b) DEFINITIONS.—In this section:

''(1) EXECUTIVE AGENCY.—The term 'Executive agency' has the meaning given that term in section 105 of title 5.

''(2) NEW AUTOMOBILE.—The term 'new automobile', with respect to the fleet of automobiles of an executive agency, means an automobile that is leased for at least 60 consecutive days or bought, by or for the Executive agency, after September 30, 2008. The term does not include any vehicle designed for combat-related missions, law enforcement work, or emergency rescue work.''.

(b) REPORT.—The Administrator of the General Services Administration shall develop a report describing and evaluating the efforts of the heads of the Executive agencies to comply with section 32917 of title 49, United States Code, for fiscal year 2009. The Administrator shall submit the report to Congress no later than December 31, 2009.

SA 1796. Mr. HARKIN (for himself and Mr. CHAMBLISS) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the end of section 610, insert the following:

(c) COMMODITY EXCHANGE ACT.—Nothing in this Act affects the jurisdiction of the Commodity Futures Trading Commission with respect to transactions or conduct subject to the Commodity Exchange Act (7 U.S.C. 1 et seq.).

SA 1797. Ms. CANTWELL submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 141, after line 23, add the following:

SEC. 255. SMART GRID SYSTEM REPORT.

(a) IN GENERAL.—The Secretary, acting through the Director of the Office of Electricity Delivery and Energy Reliability (referred to in this section as the ''Secretary''), shall, after consulting with any interested individual or entity as appropriate, no later than one year after enactment, report to Congress concerning the status of smart grid deployments nationwide and any regulatory or government barriers to continued deployment.

SEC. 256. SMART GRID TECHNOLOGY RESEARCH, DEVELOPMENT, AND DEMONSTRATION.

(a) POWER GRID DIGITAL INFORMATION TECHNOLOGY.—The Secretary, in consultation with the Federal Energy Regulatory Commission and other appropriate agencies, electric utilities, the States, and other stakeholders, shall carry out a program—

(1) to develop advanced techniques for measuring peak load reductions and energy-efficiency savings from smart metering, demand response, distributed generation, and electricity storage systems;

(2) to investigate means for demand response, distributed generation, and storage to provide ancillary services;

(3) to conduct research to advance the use of wide-area measurement and control networks, including data mining, visualization, advanced computing, and secure and dependable communications in a highly-distributed environment;

(4) to test new reliability technologies in a grid control room environment against a representative set of local outage and wide area blackout scenarios;

(5) to investigate the feasibility of a transition to time-of-use and real-time electricity pricing that directly reflects marginal generation costs;

(6) to develop algorithms for use in electric transmission system software applications;

(7) to promote the use of underutilized electricity generation capacity in any substitution of electricity for liquid fuels in the transportation system of the United States; and

(8) in consultation with the Federal Energy Regulatory Commission, to propose interconnection protocols to enable electric utilities to access electricity stored in vehicles to help meet peak demand loads.

(b) SMART GRID REGIONAL DEMONSTRATION INITIATIVE.—

(1) IN GENERAL.—The Secretary shall establish a smart grid regional demonstration initiative (referred to in this subsection as the ''Initiative'') composed of demonstration projects specifically focused on advanced technologies for use in power grid sensing, communications, analysis, and power flow control. The Secretary shall seek to leverage existing smart grid deployments.

(2) GOALS.—The goals of the Initiative shall be—

(A) to demonstrate the potential benefits of concentrated investments in advanced grid technologies on a regional grid;

(B) to facilitate the commercial transition from the current power transmission and distribution system technologies to advanced technologies;

(C) to facilitate the integration of advanced technologies in existing electric networks to improve system performance, power flow control, and reliability;

(D) to demonstrate protocols and standards that allow for the measurement and validation of the energy savings and greenhouse gas emission reductions associated with the installation and use of energy efficiency and demand response technologies and practices; and

(E) to investigate differences in each region and regulatory environment regarding best practices in implementing smart grid technologies.

(3) DEMONSTRATION PROJECTS.—

(A) IN GENERAL.—In carrying out the Initiative, the Secretary shall carry out smart grid demonstration projects in up to 5 electricity control areas, including rural areas and at least 1 area in which the majority of generation and transmission assets are controlled by a tax-exempt entity.

(B) COOPERATION.—A demonstration project under subparagraph (A) shall be carried out in cooperation with the electric utility that owns the grid facilities in the electricity control area in which the demonstration project is carried out.

(C) FEDERAL SHARE OF COST OF TECHNOLOGY INVESTMENTS.—The Secretary shall provide to an electric utility described in subparagraph (B) financial assistance for use in paying an amount equal to not more than 50 percent of the cost of qualifying advanced grid technology investments made by the electric utility to carry out a demonstration project.

(4) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated—

(A) to carry out subsection (a), such sums as are necessary for each of fiscal years 2008 through 2012; and

(B) to carry out subsection (b), $100,000,000 for each of fiscal years 2008 through 2012.

SEC. 257. SMART GRID INTEROPERABILITY FRAMEWORK.

(a) INTEROPERABILITY FRAMEWORK.—The Federal Energy Regulatory Commission (referred to in this section as the ''Commission''), in cooperation with other relevant federal agencies, shall coordinate with smart grid stakeholders to develop protocols for

the establishment of a flexible framework for the connection of smart grid devices and systems that would align policy, business, and technology approaches in a manner that would enable all electric resources, including demand-side resources, to contribute to an efficient, reliable electricity network.

(c) SCOPE OF FRAMEWORK.—The framework developed under subsection (b) shall be designed—

(1) to accommodate traditional, centralized generation and transmission resources and consumer distributed resources, including distributed generation, renewable generation, energy storage, energy efficiency, and demand response and enabling devices and systems;

(2) to be flexible to incorporate—

(A) regional and organizational differences; and

(B) technological innovations; and

(3) to include voluntary uniform standards for certain classes of mass-produced electric appliances and equipment for homes and businesses that enable customers, at their election and consistent with applicable state and federal laws, are manufactured with the ability to respond to electric grid emergencies and demand response signals by curtailing all, or a portion of, the electrical power consumed by the appliances or equipment in response to an emergency or demand response signal, including through—

(A) load reduction. to reduce total electrical demand;

(B) adjustment of load to provide grid ancillary services; and

(C) in the event of a reliability crisis that threatens an outage, short-term load shedding to help preserve the stability of the grid.

(4) Such voluntary standards should incorporate appropriate manufacturer lead time.

SEC. 258. STATE CONSIDERATION OF SMART GRID.

Section 111(d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:

''(16) CONSIDERATION OF SMART GRID INVESTMENTS.—Each State shall consider requiring that, prior to undertaking investments in nonadvanced grid technologies, an electric utility of the State demonstrate to the State that the electric utility considered an investment in a qualified smart grid system based on appropriate factors, including—

''(i) cost-effectiveness;

''(ii) improved reliability;

''(iii) security; and

''(iv) system performance.

''(v) societal benefit

''(B) RATE RECOVERY.—Each State shall consider authorizing each electric utility of the State to recover from ratepayers any capital, operating expenditure, or other costs of the electric utility relating to the deployment of a qualified smart grid system, including a reasonable rate of return on the capital expenditures of the electric utility for the deployment of the qualified smart grid system.

''(C) OBSOLETE EQUIPMENT.—Each State shall consider authorizing any electric utility or other party of the State to deploy a qualified smart grid system to recover in a timely manner the remaining book-value costs of any equipment rendered obsolete by the deployment of the qualified smart grid system, based on the remaining depreciable life of the obsolete equipment.

''(17) SMART GRID CONSUMER INFORMATION.—

''(A) IN GENERAL.—Each State may provide to each electricity consumer located in the State direct access, in written and electronic machine-readable form, information describing—

''(i) the time-based use, price, and source of the electricity delivered to the consumer; and

''(ii) any available optional electricity supplies (including the price and quantity of the optional electricity supplies).

SA 1798. Mr. BINGAMAN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 79, strike line 8 and all that follows through page 80, line 4, and insert the following:

''(6) ENERGY CONSERVATION STANDARD.—

''(A) IN GENERAL.—The term 'energy conservation standard' means 1 or more performance standards that—

''(i) for covered products (excluding clothes washers, dishwashers, showerheads, faucets, water closets, and urinals), prescribe a minimum level of energy efficiency or a maximum quantity of energy use, determined in accordance with test procedures prescribed under section 323;

''(ii) for showerheads, faucets, water closets, and urinals, prescribe a minimum level of water efficiency or a maximum quantity of water use, determined in accordance with test procedures prescribed under section 323; and

''(iii) for clothes washers and dishwashers—

''(I) prescribe a minimum level of energy efficiency or a maximum quantity of energy use, determined in accordance with test procedures prescribed under section 323; and

''(II) may include a minimum level of water efficiency or a maximum quantity of water use, determined in accordance with those test procedures.

''(B) INCLUSIONS.—The term 'energy conservation standard' includes—

''(i) 1 or more design requirements, if the requirements were established—

''(I) on or before the date of enactment of this subclause; or

''(II) as part of a consensus agreement under section 325(hh); and

''(ii) any other requirements that the Secretary may prescribe under section 325(r).

''(C) EXCLUSION.—The term 'energy conservation standard' does not include a performance standard for a component of a finished covered product, unless regulation of the component is authorized or established pursuant to this title.''.

Beginning on page 87, strike line 16 and all that follows through page 90, line 25, and insert the following:

SEC. 224. EXPEDITED RULEMAKINGS.

(a) PROCEDURE FOR PRESCRIBING NEW OR AMENDED STANDARDS.—Section 325(p) of the Energy Policy and Conservation Act (42 U.S.C. 6295(p)) is amended by adding at the end the following:

''(5) DIRECT FINAL RULES.—

''(A) IN GENERAL.—On receipt of a statement that is submitted jointly by interested persons that are fairly representative of relevant points of view (including representatives of manufacturers of covered products, States, and efficiency advocates), as determined by the Secretary, and contains recommendations with respect to an energy or water conservation standard—

''(i) if the Secretary determines that the recommended standard contained in the statement is in accordance with subsection (o) or section 342(a)(6)(B), as applicable, the Secretary may issue a final rule that establishes an energy or water conservation standard and is published simultaneously with a notice of proposed rulemaking that proposes a new or amended energy or water conservation standard that is identical to the standard established in the final rule to establish the recommended standard (referred to in this paragraph as a 'direct final rule'); or

''(ii) if the Secretary determines that a direct final rule cannot be issued based on the statement, the Secretary shall publish a notice of the determination, together with an explanation of the reasons for the determination.

''(B) PUBLIC COMMENT.—The Secretary shall—

''(i) solicit public comment with respect to each direct final rule issued by the Secretary under subparagraph (A)(i); and

''(ii) publish a response to each comment so received.

''(C) WITHDRAWAL OF DIRECT FINAL RULES.—

''(i) IN GENERAL.—Not later than 120 days after the date on which a direct final rule issued under subparagraph (A)(i) is published in the Federal Register, the Secretary shall withdraw the direct final rule if—

''(I) the Secretary receives 1 or more adverse public comments relating to the direct final rule under subparagraph (B)(i); and

''(II) based on the complete rulemaking record relating to the direct final rule, the Secretary tentatively determines that the adverse public comments are relevant under subsection (o), section 342(a)(6)(B), or any other applicable law.

''(ii) ACTION ON WITHDRAWAL.—On withdrawal of a direct final rule under clause (i), the Secretary shall—

''(I) proceed with the notice of proposed rulemaking published simultaneously with the direct final rule as described in subparagraph (A)(i); and

''(II) publish in the Federal Register the reasons why the direct final rule was withdrawn.

''(iii) TREATMENT OF WITHDRAWN DIRECT FINAL RULES.—A direct final rule that is withdrawn under clause (i) shall not be considered to be a final rule for purposes of subsection (o).

''(D) EFFECT OF PARAGRAPH.—Nothing in this paragraph authorizes the Secretary to issue a direct final rule based solely on receipt of more than 1 statement containing recommended standards relating to the direct final rule.''.

(b) CONFORMING AMENDMENT.—Section 345(b)(1) of the Energy Policy and Conservation Act (42 U.S.C. 6316(b)(1)) is amended in the first sentence by inserting ''section 325(p)(5),'' after ''The provisions of''.

Beginning on page 91, strike line 20 and all that follows through page 95, line 25, and insert the following:

(b) ENERGY CONSERVATION STANDARDS.—Section 325(m) of the Energy Policy and Conservation Act (42 U.S.C. 6295(m)) is amended—

(1) by designating the first and second sentences as paragraphs (1) and (4), respectively;

(2) by striking paragraph (1) (as so designated) and inserting the following:

''(1) IN GENERAL.—After issuance of the last final rules required for a product under this part, the Secretary shall, not later than 5 years after the date of issuance of a final rule establishing or amending a standard or determining not to amend a standard, publish a final rule to determine whether standards for the product should or should not be amended based on the criteria in subsection (n)(2).

''(2) ANALYSIS.—Prior to publication of the determination, the Secretary shall publish a notice of availability describing the analysis of the Department and provide opportunity for written comment.

''(3) FINAL RULE.—Not later than 3 years after a positive determination under paragraph (1), the Secretary shall publish a final rule amending the standard for the product.''; and

(3) in paragraph (4) (as so designated), by striking ''(4) An'' and inserting the following:

''(4) APPLICATION OF AMENDMENT.—An''.

(c) STANDARDS.—Section 342(a)(6) of the Energy Policy and Conservation Act (42 U.S.C. 6313(a)(6)) is amended by striking ''(6)(A)(i)'' and all that follows through the end of subparagraph (A) and inserting the following:

''(6) AMENDED ENERGY EFFICIENCY STANDARDS.—

''(A) IN GENERAL.—

''(i) ANALYSIS OF POTENTIAL ENERGY SAVINGS.—If ASHRAE/IES Standard 90.1 is amended with respect to any small commercial package air conditioning and heating equipment, large commercial package air conditioning and heating equipment, very large commercial package air conditioning and heating equipment, packaged terminal air conditioners, packaged terminal heat pumps, warm-air furnaces, packaged boilers, storage water heaters, instantaneous water heaters, or unfired hot water storage tanks, not later than 180 days after the amendment of the standard, the Secretary shall publish in the Federal Register for public comment an analysis of the energy savings potential of amended energy efficiency standards.

''(ii) AMENDED UNIFORM NATIONAL STANDARD FOR PRODUCTS.—

''(I) IN GENERAL.—Except as provided in subclause (II), not later than 18 months after the date of publication of the amendment to the ASHRAE/IES Standard 90.1 for a product described in clause (i), the Secretary shall establish an amended uniform national standard for the product at the minimum level specified in the amended ASHRAE/IES Standard 90.1.

''(II) MORE STRINGENT STANDARD.—Subclause (I) shall not apply if the Secretary determines, by rule published in the Federal Register, and supported by clear and convincing evidence, that adoption of a uniform national standard more stringent than the amended ASHRAE/IES Standard 90.1 for the product would result in significant additional conservation of energy and is technologically feasible and economically justified.

''(iii) RULE.—If the Secretary makes a determination described in clause (ii)(II) for a product described in clause (i), not later than 30 months after the date of publication of the amendment to the ASHRAE/IES Standard 90.1 for the product, the Secretary shall issue the rule establishing the amended standard.''.

Beginning on page 96, strike line 22 and all that follows through page 98, line 13, and insert the following:

SEC. 226. ENERGY EFFICIENCY LABELING FOR CONSUMER ELECTRONIC PRODUCTS.

(a) IN GENERAL.—Section 324(a) of the Energy Policy and Conservation Act (42 U.S.C. 6294(a)) is amended—

(1) in paragraph (2), by adding at the end the following:

''(H) LABELING REQUIREMENTS.—

''(i) IN GENERAL.—Subject to clauses (ii) through (iv), not later than 18 months after the date of issuance of applicable Department of Energy testing procedures, the Commission, in consultation with the Secretary and the Administrator of the Environmental Protection Agency (acting through the Energy Star program), shall, by regulation, promulgate labeling or other disclosure requirements for the energy use of—

''(I) televisions;

''(II) personal computers;

''(III) cable or satellite set-top boxes;

''(IV) stand-alone digital video recorder boxes; and

''(V) personal computer monitors.

''(ii) ALTERNATE TESTING PROCEDURES.—In the absence of applicable testing procedures described in clause (i) for products described in subclauses (I) through (V) of that clause, the Commission may by regulation promulgate labeling requirements for a consumer product category described in clause (i) if the Commission—

''(I) identifies adequate non-Department of Energy testing procedures for those products; and

''(II) determines that labeling of those products is likely to assist consumers in making purchasing decisions.

''(iii) DEADLINE AND REQUIREMENTS FOR LABELING.—

''(I) DEADLINE.—Not later than 18 months after the date of promulgation of any requirements under clause (i) or (ii), the Commission shall require labeling of electronic products described in clause (i).

''(II) REQUIREMENTS.—The requirements promulgated under clause (i) or (ii) may include specific requirements for each electronic product to be labeled with respect to the placement, size, and content of Energy Guide labels.

''(iv) DETERMINATION OF FEASIBILITY.—Clause (i) or (ii) shall not apply in any case in which the Commission determines that labeling in accordance with this subsection—

''(I) is not technologically or economically feasible; or

''(II) is not likely to assist consumers in making purchasing decisions.''; and

(2) by adding at the end the following:

''(6) AUTHORITY TO INCLUDE ADDITIONAL PRODUCT CATEGORIES.—The Commission may require labeling in accordance with this subsection for any consumer product not specified in this subsection or section 322 if the Commission determines that labeling for the product is likely to assist consumers in making purchasing decisions.''.

(b) CONTENT OF LABEL.—Section 324(c) of the Energy Policy and Conservation Act (42 U.S.C. 6924(c)) is amended by adding at the end the following:

''(9) DISCRETIONARY APPLICATION.—The Commission may apply paragraphs (1), (2), (3), (5), and (6) of this subsection to the labeling of any product covered by paragraph (2)(H) or (6) of subsection (a).''.

On page 157, line 5, strike ''and if'' and insert the following: ''the Secretary of Housing and Urban Development or the Secretary of Agriculture make a determination that the revised codes do not negatively affect the availability or affordability of new construction of assisted housing and single family and multifamily residential housing (other than manufactured homes) subject to mortgages insured under the National Housing Act (12 U.S.C. 1701 et seq.) or insured, guaranteed, or made by the Secretary of Agriculture under title V of the Housing Act of 1949 (42 U.S.C. 1471 et seq.), respectively, and''.

On page 106, line 23, strike ''2012'' and insert ''2015''.

On page 106, line 24, strike ''2012'' and insert ''2015''.

On page 107, line 3, strike ''2012'' and insert ''2015''.

On page 147, line 20, strike ''from a public utility service''.

On page 166, line 15, insert '', Indian tribal,'' after ''State''.

On page 166, line 18, insert ''of Indian tribes or'' after ''activities''.

On page 166, line 21, insert '', Indian tribes,'' after ''States''.

On page 167, line 12, insert '', INDIAN TRIBES,'' after ''STATES''.

On page 167, line 17, strike ''70'' and insert ''68''.

On page 167, line 18, strike ''and''.

On page 167, line 19, strike ''30'' and insert ''28''.

On page 167, line 19, strike the period and insert ''; and''.

On page 167, between lines 19 and 20, insert the following:

''(iii) 4 percent to Indian tribes.

On page 169, between lines 11 and 12, insert the following:

''(D) DISTRIBUTION TO INDIAN TRIBES.—

''(i) IN GENERAL.—The Secretary shall establish a formula for the distribution of amounts under subparagraph (A)(iii) to eligible Indian tribes, taking into account any factors that the Secretary determines to be appropriate, including the residential and daytime population of the eligible Indian tribes.

''(ii) CRITERIA.—Amounts shall be distributed to eligible Indian tribes under clause (i) only if the eligible Indian tribes meet the criteria for distribution established by the Secretary for Indian tribes.

On page 170, line 1, strike ''(B)(ii) or (C)(ii)'' and insert ''(B)(ii), (C)(ii), or (D)(ii)''.

On page 170, lines 10 and 11, strike ''(B)(ii) or (C)(ii)'' and insert ''(B)(ii), (C)(ii), or (D)(ii)''.

On page 171, line 7, insert ''tribal,'' after ''State,''.

On page 171, line 20, insert '', Indian tribes,'' after ''States''.

On page 171, line 24, insert ''Indian tribe,'' after ''State,''.

SA 1799. Mrs. BOXER (for herself, Mr. ALEXANDER, Mr. WARNER, Mr. LIEBERMAN, Mrs. FEINSTEIN, and Mr. MCCONNELL) submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 192, after line 21, add the following:

SEC. 305. CAPITOL POWER PLANT CARBON DIOXIDE EMISSIONS DEMONSTRATION PROGRAM.

The first section of the Act of March 4, 1911 (2 U.S.C. 2162; 36 Stat. 1414, chapter 285), is amended in the seventh undesignated paragraph (relating to the Capitol power plant), under the heading ''PUBLIC BUILDINGS'', under the heading ''UNDER THE DEPARTMENT OF THE INTERIOR''—

(1) by striking ''ninety thousand dollars:'' and inserting ''$90,000.''; and

(2) by striking ''*Provided*, That hereafter the'' and all that follows through the end of the proviso and inserting the following:

''(a) DESIGNATION.—The heating, lighting, and power plant constructed under the terms of the Act approved April 28, 1904 (33 Stat. 479, chapter 1762), shall be known as the 'Capitol power plant', and all vacancies occurring in the force operating that plant and the substations in connection with the plant shall be filled by the Architect of the Capitol, with the approval of the commission in control of the House Office Building appointed under the first section of the Act of March 4, 1907 (2 U.S.C. 2001).

''(b) CAPITOL POWER PLANT CARBON DIOXIDE EMISSIONS DEMONSTRATION PROGRAM.—

''(1) DEFINITIONS.—In this subsection:

''(A) ADMINISTRATOR.—The term 'Administrator' means the Administrator of the Environmental Protection Agency.

''(B) CARBON DIOXIDE ENERGY EFFICIENCY.—The term 'carbon dioxide energy efficiency', with respect to a project, means the quantity of electricity used to power equipment for carbon dioxide capture and storage or use.

''(C) PROGRAM.—The term 'program' means the competitive grant demonstration program established under paragraph (2)(B).

''(2) ESTABLISHMENT OF PROGRAM.—

''(A) FEASIBILITY STUDY.—Not later than 180 days after the date of enactment of this section, the Architect of the Capitol, in cooperation with the Administrator, shall complete a feasibility study evaluating the available methods to proceed with the project and program established under this section, taking into consideration—

''(i) the availability of carbon capture technologies;

''(ii) energy conservation and carbon reduction strategies; and

''(iii) security of operations at the Capitol power plant.

''(B) COMPETITIVE GRANT PROGRAM.—The Architect of the Capitol, in cooperation with the Administrator, shall establish a competitive grant demonstration program under which the Architect of the Capitol shall, subject to the availability of appropriations, provide to eligible entities, as determined by the Architect of the Capitol, in cooperation with the Administrator, grants to carry out projects to demonstrate, during the 2-year period beginning on the date of enactment of this subsection, the capture and storage or use of carbon dioxide emitted from the Capitol power plant as a result of burning coal.

''(3) REQUIREMENTS.—

''(A) PROVISION OF GRANTS.—

''(i) IN GENERAL.—The Architect of the Capitol, in cooperation with the Administrator, shall provide the grants under the program on a competitive basis.

''(ii) FACTORS FOR CONSIDERATION.—In providing grants under the program, the Architect of the Capitol, in cooperation with the Administrator, shall take into consideration—

''(I) the practicability of conversion by the proposed project of carbon dioxide into useful products, such as transportation fuel;

''(II) the carbon dioxide energy efficiency of the proposed project; and

''(III) whether the proposed project is able to reduce more than 1 air pollutant regulated under this Act.

''(B) REQUIREMENTS FOR ENTITIES.—An entity that receives a grant under the program shall—

''(i) use to carry out the project of the entity a technology designed to reduce or eliminate emission of carbon dioxide that is in existence on the date of enactment of this subsection that has been used—

''(I) by not less than 3 other facilities (including a coal-fired power plant); and

''(II) on a scale of not less than 5 times the size of the proposed project of the entity at the Capitol power plant; and

''(ii) carry out the project of the entity in consultation with, and with the concurrence of, the Architect of the Capitol and the Administrator.

''(C) CONSISTENCY WITH CAPITOL POWER PLANT MODIFICATIONS.—The Architect of the Capitol may require changes to a project under the program that are necessary to carry out any modifications to be made to the Capitol power plant.

''(4) INCENTIVE.—In addition to the grant under this subsection, the Architect of the Capitol may provide to an entity that receives such a grant an incentive award in an amount equal to not more than $50,000, of which—

''(A) $15,000 shall be provided after the project of the entity has sustained operation for a period of 100 days, as determined by the Architect of the Capitol;

''(B) $15,000 shall be provided after the project of the entity has sustained operation for a period of 200 days, as determined by the Architect of the Capitol; and

''(C) $20,000 shall be provided after the project of the entity has sustained operation for a period of 300 days, as determined by the Architect of the Capitol.

''(5) TERMINATION.—The program shall terminate on the date that is 2 years after the date of enactment of this subsection.

''(6) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the program $3,000,000.''.

SA 1800. Mr. KYL proposed an amendment to amendment SA 1704 proposed by Mr. BAUCUS (himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE), to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 69, lines 17 to 20, strike ''to so much of the renewable diesel produced at such facility and sold or used during the taxable year in a qualified biodiesel mixture as exceeds 60,000,000 gallons''.

SA 1801. Mr. KYL submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

Strike subtitle B of title VIII.

SA 1802. Mr. DORGAN (for himself and Mr. GRAHAM) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. HYDROGEN INSTALLATION, INFRASTRUCTURE, AND FUEL COSTS.

(a) IN GENERAL.—Subpart B of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 (relating to foreign tax credit, etc.) is amended by adding at the end the following new section:

''SEC. 30D. HYDROGEN INSTALLATION, INFRASTRUCTURE, AND FUEL COSTS.

''(a) ALLOWANCE OF CREDIT.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—

''(1) the hydrogen installation and infrastructure costs credit determined under subsection (b), and

''(2) the hydrogen fuel costs credit determined under subsection (c).

''(b) HYDROGEN INSTALLATION AND INFRASTRUCTURE COSTS CREDIT.—

''(1) IN GENERAL.—For purposes of subsection (a), the hydrogen installation and infrastructure costs credit determined under this subsection with respect to each eligible hydrogen production and distribution facility of the taxpayer is an amount equal to—

''(A) 50 percent of so much of the installation costs which when added to such costs taken into account with respect to such facility for all preceding taxable years under this subparagraph does not exceed $200,000, plus

''(B) 30 percent of so much of the infrastructure costs for the taxable year as does not exceed $200,000 with respect to such facility, and which when added to such costs taken into account with respect to such facility for all preceding taxable years under this subparagraph does not exceed $600,000.

Nothing in this section shall permit the same cost to be taken into account more than once.

''(2) ELIGIBLE HYDROGEN PRODUCTION AND DISTRIBUTION FACILITY.—For purposes of this subsection, the term 'eligible hydrogen production and distribution facility' means a hydrogen production and distribution facility which has received from the Secretary an allocation from the national hydrogen installation, infrastructure, and fuel credit limitation.

''(c) HYDROGEN FUEL COSTS CREDIT.—

''(1) IN GENERAL.—For purposes of subsection (a), the hydrogen fuel costs credit determined under this subsection with respect to each eligible hydrogen device of the taxpayer is an amount equal to the qualified hydrogen expenditure amounts with respect to such device.

''(2) QUALIFIED HYDROGEN EXPENDITURE AMOUNT.—For purposes of this subsection—

''(A) IN GENERAL.—The term 'qualified hydrogen expenditure amount' means, with respect to each eligible hydrogen energy conversion device of the taxpayer with a production capacity of not more than 25 kilowatts of electricity per year, the lesser of—

''(i) 30 percent of the amount paid or incurred by the taxpayer during the taxable year for hydrogen which is consumed by such device, and

''(ii) $2,000.

In the case of any device which is not owned by the taxpayer at all times during the taxable year, the $2,000 amount in subparagraph (B) shall be reduced by an amount which bears the same ratio to $2,000 as the portion of the year which such device is not owned by the taxpayer bears to the entire year.

''(B) HIGHER LIMITATION FOR DEVICES WITH MORE PRODUCTION CAPACITY.—In the case of any eligible hydrogen energy conversion device with a production capacity of—

''(i) more than 25 but less than 100 kilowatts of electricity per year, subparagraph (A) shall be applied by substituting '$4,000' for '$2,000' each place it appears, and

''(ii) not less than 100 kilowatts of electricity per year, subparagraph (A) shall be applied by substituting '$6,000' for '$2,000' each place it appears.

''(3) ELIGIBLE HYDROGEN ENERGY CONVERSION DEVICES.—For purposes of this subsection—

''(A) IN GENERAL.—The term 'eligible hydrogen energy conversion device' means, with respect to any taxpayer, any hydrogen energy conversion device which—

''(i) is placed in service after December 31, 2004,

''(ii) is wholly owned by the taxpayer during the taxable year, and

''(iii) has received from the Secretary an allocation from the national hydrogen installation, infrastructure, and fuel credit limitation.

If an owner of a device (determined without regard to this subparagraph) provides to the primary user of such device a written statement that such user shall be treated as the owner of such device for purposes of this section, then such user (and not such owner) shall be so treated.

''(B) HYDROGEN ENERGY CONVERSION DEVICE.—The term 'hydrogen energy conversion device' means—

''(i) any electrochemical device which converts hydrogen into electricity, and

''(ii) any combustion engine which burns hydrogen as a fuel.

''(d) NATIONAL HYDROGEN INSTALLATION, INFRASTRUCTURE, AND FUEL CREDIT LIMITATION.—

''(1) IN GENERAL.—There is a national hydrogen installation, infrastructure, and fuel credit limitation for each fiscal year. Such limitation is $15,000,000 for fiscal year 2008, $30,000,000 for fiscal year 2009, and $40,000,000 for fiscal year 2010.

''(2) ALLOCATION.—Not later than 90 days after the date of the enactment of this section, the Secretary, in consultation with the Secretary of Energy, shall establish a hydrogen installation, infrastructure, and fuel credit allocation program.

''(e) REDUCTION IN BASIS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this paragraph) result from such expenditure shall be reduced by the amount of the credit so allowed.

''(f) APPLICATION WITH OTHER CREDITS.—

''(1) BUSINESS CREDIT TREATED AS PART OF GENERAL BUSINESS CREDIT.—So much of the credit which would be allowed under subsection (a) for any taxable year (determined without regard to this subsection) that is attributable to amounts which (but for subsection (g) would be allowed as a deduction under section 162 shall be treated as a credit listed in section 38(b) for such taxable year (and not allowed under subsection (a)).

''(2) PERSONAL CREDIT.—The credit allowed under subsection (a) (after the application of paragraph (1)) for any taxable year shall not exceed the excess (if any) of—

''(A) the regular tax liability (as defined in section 26(b)) reduced by the sum of the credits allowable under subpart A and sections 27, 30, 30B, and 30C, over

''(B) the tentative minimum tax for the taxable year.

''(g) DENIAL OF DOUBLE BENEFIT.—The amount of any deduction or other credit allowable under this chapter for any cost taken into account in determining the amount of the credit under subsection (a) shall be reduced by the amount of such credit attributable to such cost.

''(h) RECAPTURE.—The Secretary shall, by regulations, provided for recapturing the benefit of any credit allowable under subsection (a) with respect to any property which ceases to be property eligible for such credit.

''(i) ELECTION NOT TO TAKE CREDIT.—No credit shall be allowed under subsection (a) for any property if the taxpayer elects not to have this section apply to such property.

''(j) REGULATIONS.—The Secretary shall prescribe such regulations as necessary to carry out the provisions of this section.''.

(b) CONFORMING AMENDMENTS.—

(1) Section 38(b) of such Code is amended by striking ''plus'' at the end of paragraph (30), by striking the period at the end of paragraph (31) and inserting ''plus'', and by adding at the end the following new paragraph:

''(32) the portion of the hydrogen installation, infrastructure, and fuel credit to which section 30D(f)(1) applies.''.

(2) Section 55(c)(3) of such Code is amended by inserting ''30D(f)(2),'' after ''30C(d)(2),''.

(3) Section 1016(a) of such Code is amended by striking ''and'' at the end of paragraph (36), by striking the period at the end of paragraph (37) and inserting '', and'', and by adding at the end the following new paragraph:

''(38) to the extent provided in section 30D(e).''.

(4) Section 6501(m) of such Code is amended by inserting ''30D(i),'' after ''30C(e)(5),''.

(5) The table of sections for subpart B of part IV of subchapter A of chapter 1 of such Code is amended by inserting after the item relating to section 30C the following new item:

''Sec. 30D. Hydrogen installation, infrastructure, and fuel costs.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts paid or incurred after December 31, 2007, in taxable years ending after such date.

SA 1803. Mr. LEVIN (for himself and Ms. STABENOW) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. ADVANCED TECHNOLOGY MOTOR VEHICLE COMPONENT MANUFACTURING CREDIT.

(a) IN GENERAL.—Subpart B of part IV of subchapter A of chapter 1 (relating to foreign tax credit, etc.) of the Internal Revenue Code of 1986, as amended by this Act, is amended by adding at the end the following new section:

''SEC. 30E. ADVANCED TECHNOLOGY MOTOR VEHICLE COMPONENT MANUFACTURING CREDIT.

''(a) CREDIT ALLOWED.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to 35 percent of the qualified investment of an eligible taxpayer for such taxable year.

''(b) QUALIFIED INVESTMENT.—For purposes of this section—

''(1) IN GENERAL.—The qualified investment for any taxable year is equal to the incremental costs incurred during such taxable year—

''(A) to re-equip, expand, or establish any manufacturing facility in the United States of the eligible taxpayer to produce eligible advanced technology motor vehicle components,

''(B) for engineering integration performed in the United States of such components as described in subsection (d),

''(C) for research and development performed in the United States related to such components, and

''(D) for employee retraining with respect to the manufacturing of such components (determined without regard to wages or salaries of such retrained employees).

''(2) ATTRIBUTION RULES.—In the event a facility of the eligible taxpayer produces both eligible advanced technology motor vehicle components and non-eligible advanced technology motor vehicle components, only the qualified investment attributable to production of eligible advanced technology motor vehicle components shall be taken into account.

''(c) DEFINITIONS.—In this section:

''(1) ELIGIBLE ADVANCED TECHNOLOGY MOTOR VEHICLE COMPONENT.—

''(A) IN GENERAL.—The term 'eligible advanced technology motor vehicle component'

means any component inherent to any advanced technology motor vehicle, including—

''(i) with respect to any gasoline or diesel-electric new qualified hybrid motor vehicle—

''(I) electric motor or generator;

''(II) power split device;

''(III) power control unit;

''(IV) power controls;

''(V) integrated starter generator; or

''(VI) battery;

''(ii) with respect to any hydraulic new qualified hybrid motor vehicle—

''(I) accumulator or other energy storage device;

''(II) hydraulic pump;

''(III) hydraulic pump-motor assembly;

''(IV) power control unit; and

''(V) power controls;

''(iii) with respect to any new advanced lean burn technology motor vehicle—

''(I) diesel engine;

''(II) turbo charger;

''(III) fuel injection system; or

''(IV) after-treatment system, such as a particle filter or NOx absorber; and

''(iv) with respect to any advanced technology motor vehicle, any other component submitted for approval by the Secretary.

''(B) ADVANCED TECHNOLOGY MOTOR VEHICLE.—The term 'advanced technology motor vehicle' means—

''(i) any qualified electric vehicle (as defined in section 30(c)(1)),

''(ii) any new qualified fuel cell motor vehicle (as defined in section 30B(b)(3)),

''(iii) any new advanced lean burn technology motor vehicle (as defined in section 30B(c)(3)),

''(iv) any new qualified hybrid motor vehicle (as defined in section 30B(d)(2)(A) and determined without regard to any gross vehicle weight rating),

''(v) any new qualified alternative fuel motor vehicle (as defined in section 30B(e)(4), including any mixed-fuel vehicle (as defined in section 30B(e)(5)(B)), and

''(vi) any other motor vehicle using electric drive transportation technology (as defined in paragraph (3)).

''(C) ELECTRIC DRIVE TRANSPORTATION TECHNOLOGY.—The term 'electric drive transportation technology' means technology used by vehicles that use an electric motor for all or part of their motive power and that may or may not use off-board electricity, such as battery electric vehicles, fuel cell vehicles, engine dominant hybrid electric vehicles, plug-in hybrid electric vehicles, and plug-in hybrid fuel cell vehicles.

''(2) ELIGIBLE TAXPAYER.—The term 'eligible taxpayer' means any taxpayer if more than 20 percent of the taxpayer's gross receipts for the taxable year is derived from the manufacture of automotive components.

''(d) ENGINEERING INTEGRATION COSTS.—For purposes of subsection (b)(1)(B), costs for engineering integration are costs incurred prior to the market introduction of advanced technology vehicles for engineering tasks related to—

''(1) establishing functional, structural, and performance requirements for component and subsystems to meet overall vehicle objectives for a specific application,

''(2) designing interfaces for components and subsystems with mating systems within a specific vehicle application,

''(3) designing cost effective, efficient, and reliable manufacturing processes to produce components and subsystems for a specific vehicle application, and

''(4) validating functionality and performance of components and subsystems for a specific vehicle application.

''(e) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for the taxable year shall not exceed the excess of—

''(1) the sum of the regular tax liability (as defined in section 26(b)) for such taxable year plus the tax imposed by section 55 for such taxable year, over

''(2) the sum of the credits allowable under subpart A and sections 27, 30, and 30B for the taxable year.

''(f) REDUCTION IN BASIS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this paragraph) result from such expenditure shall be reduced by the amount of the credit so allowed.

''(g) NO DOUBLE BENEFIT.—

''(1) COORDINATION WITH OTHER DEDUCTIONS AND CREDITS.—Except as provided in paragraph (2), the amount of any deduction or other credit allowable under this chapter for any cost taken into account in determining the amount of the credit under subsection (a) shall be reduced by the amount of such credit attributable to such cost.

''(2) RESEARCH AND DEVELOPMENT COSTS.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), any amount described in subsection (b)(1)(C) taken into account in determining the amount of the credit under subsection (a) for any taxable year shall not be taken into account for purposes of determining the credit under section 41 for such taxable year.

''(B) COSTS TAKEN INTO ACCOUNT IN DETERMINING BASE PERIOD RESEARCH EXPENSES.—Any amounts described in subsection (b)(1)(C) taken into account in determining the amount of the credit under subsection (a) for any taxable year which are qualified research expenses (within the meaning of section 41(b)) shall be taken into account in determining base period research expenses for purposes of applying section 41 to subsequent taxable years.

''(h) BUSINESS CARRYOVERS ALLOWED.—If the credit allowable under subsection (a) for a taxable year exceeds the limitation under subsection (e) for such taxable year, such excess (to the extent of the credit allowable with respect to property subject to the allowance for depreciation) shall be allowed—

''(1) as a credit carryback to the taxable year preceding the unused credit year, and

''(2) as a carryforward to each of the 20 taxable years immediately following the unused credit year.

For purposes of this subsection, rules similar to the rules of section 39 shall apply.

''(i) SPECIAL RULES.—For purposes of this section, rules similar to the rules of section 179A(e)(4) and paragraphs (1) and (2) of section 41(f) shall apply

''(j) ELECTION NOT TO TAKE CREDIT.—No credit shall be allowed under subsection (a) for any property if the taxpayer elects not to have this section apply to such property.

''(k) REGULATIONS.—The Secretary shall prescribe such regulations as necessary to carry out the provisions of this section.

''(l) TERMINATION.—This section shall not apply to any qualified investment after December 31, 2012.''.

(b) CONFORMING AMENDMENTS.—

(1) Section 1016(a) of such Code, as amended by this Act, is amended by striking ''and'' at the end of paragraph (36), by striking the period at the end of paragraph (37) and inserting '', and'', and by adding at the end the following new paragraph:

''(38) to the extent provided in section 30E(f).''.

(2) Section 6501(m) of such Code is amended by inserting ''30E(j),'' after ''30D(e)(9),''.

(3) The table of sections for subpart B of part IV of subchapter A of chapter 1, as amended by this Act, is amended by inserting after the item relating to section 30D the following new item:

''Sec. 30E. Advanced technology motor vehicles manufacturing credit.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts incurred in taxable years beginning after the date of the enactment of this Act.

SA 1804. Mr. CARPER submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. MODIFICATION TO CREDIT FOR NEW ADVANCED LEAN BURN TECHNOLOGY MOTOR VEHICLES.

(a) SPECIAL RULE FOR MODEL YEAR 2009 ADVANCED LEAN BURN TECHNOLOGY MOTOR VEHICLES.—Section 30B(c) is amended by adding at the end the following new paragraph:

''(5) SPECIAL RULE FOR 2009 MODEL YEAR VEHICLES.—In the case of any motor vehicle which is manufactured in model year 2009—

''(A) paragraph (3)(A)(iv)(I) shall be applied by substituting 'the Bin 8 Tier II emission standard' for 'the Bin 5 Tier II emission standard', and

''(B) in applying this subsection to any motor vehicle which is a new advanced lean burn technology motor vehicle by reason of subparagraph (A), the amount of the credit allowed under this subsection shall be an amount equal to 75 percent of the amount which would be otherwise so allowed, determined without regard to this subparagraph.''.

(b) EFFECTIVE DATE.—The amendment made by this section shall take effect on the date of the enactment of this Act.

SEC. _____. INCREASE IN INFORMATION RETURN PENALTIES.

(a) FAILURE TO FILE CORRECT INFORMATION RETURNS.—

(1) IN GENERAL.—Section 6721(a)(1) is amended—

(A) by striking ''$50'' and inserting ''$250'', and

(B) by striking ''$250,000'' and inserting ''$3,000,000''.

(2) REDUCTION WHERE CORRECTION IN SPECIFIED PERIOD.—

(A) CORRECTION WITHIN 30 DAYS.—Section 6721(b)(1) is amended—

(i) by striking ''$15'' and inserting ''$50'',

(ii) by striking ''$50'' and inserting ''$250'', and

(iii) by striking ''$75,000'' and inserting ''$500,000''.

(B) FAILURES CORRECTED ON OR BEFORE AUGUST 1.—Section 6721(b)(2) is amended—

(i) by striking ''$30'' and inserting ''$100'',
(ii) by striking ''$50'' and inserting ''$250'', and
(iii) by striking ''$150,000'' and inserting ''$1,500,000''.
(3) LOWER LIMITATION FOR PERSONS WITH GROSS RECEIPTS OF NOT MORE THAN $5,000,000.—Section 6721(d)(1) is amended—
(A) in subparagraph (A)—
(i) by striking ''$100,000'' and inserting ''$1,000,000'', and
(ii) by striking ''$250,000'' and inserting ''$3,000,000'',
(B) in subparagraph (B)—
(i) by striking ''$25,000'' and inserting ''$175,000'', and
(ii) by striking ''$75,000'' and inserting ''$500,000'', and
(C) in subparagraph (C)—
(i) by striking ''$50,000'' and inserting ''$500,000'', and
(ii) by striking ''$150,000'' and inserting ''$1,500,000''.
(4) PENALTY IN CASE OF INTENTIONAL DISREGARD.—Section 6721(e) is amended—
(A) by striking ''$100'' in paragraph (2) and inserting ''$500'',
(B) by striking ''$250,000'' in paragraph (3)(A) and inserting ''$3,000,000''.
(b) FAILURE TO FURNISH CORRECT PAYEE STATEMENTS.—
(1) IN GENERAL.—Section 6722(a) is amended—
(A) by striking ''$50'' and inserting ''$250'', and
(B) by striking ''$100,000'' and inserting ''$1,000,000''.
(2) PENALTY IN CASE OF INTENTIONAL DISREGARD.—Section 6722(c) is amended—
(A) by striking ''$100'' in paragraph (1) and inserting ''$500'', and
(B) by striking ''$100,000'' in paragraph (2)(A) and inserting ''$1,000,000''.
(c) FAILURE TO COMPLY WITH OTHER INFORMATION REPORTING REQUIREMENTS.—Section 6723 is amended—
(1) by striking ''$50'' and inserting ''$250'', and
(2) by striking ''$100,000'' and inserting ''$1,000,000''.
(d) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to information returns required to be filed on or after January 1, 2008.

SA 1805. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 77, between line 27 and 28, insert the following:
''(D) knowingly violates for a period of 90 days or more the terms or conditions of the alien's admission or parole into the United States.''

SA 1806. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

Strike Section 606 and replace with,

SEC. 606. ENUMERATION OF SOCIAL SECURITY NUMBER

The Secretary of Homeland Security, in coordination with the Comissioner of the Social Security Administration, shall implement a system to allow for the prompt enumeration of a Social Security number after the Secretary of Homeland Security has granted an alien Z nonimmigrant status.

SA 1807. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 303, lines 24–28, strike the following sentence:
''The requirement that the alien have a residence in a foreign country which the alien has no intention of abandoning shall not apply to an alien described in section 214(s) who is seeking to enter as a temporary visitor for pleasure;''

SA 1808. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:
Notwithstanding any other provision of this Act, a Y–1 Nonimmigrant:
(1) may be extended for an indefinite number of subsequent two-year periods, as long as each two-year period is separated by physical presence outside the United States for the immediate prior 12 months,
(2) may not be accompanied by their spouse and dependents for any of their 2 year periods of work in the United States, and
(3) may not sponsor a family member to visit them in the United States under the ''parent visa'' created by Section 506 of this Act.

SA 1809. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 15, strike line 38 and all that follows through page 16, line 18, and insert the following:

SEC. 113. DETENTION OF ALIENS FROM NONCONTIGUOUS COUNTRIES.

Section 236(a) of the Immigration and Nationality Act (8 U.S.C. 1226(a)) is amended—
(1) in paragraph (1), by striking ''and'' at the end;
(2) in paragraph (2)(B), by striking ''but'' at the end;
(3) in paragraph (3), by striking the period at the end and inserting ''; and''; and
(4) by adding at the end the following:
''(4) may not provide the alien with release on bond or with conditional parole if the alien—
''(A) is a national of a noncontiguous country;
''(B) has not been admitted or paroled into the United States; and
''(C) was apprehended within 100 miles of the international border of the United States or presents a flight risk, as determined by the Secretary of Homeland Security.''.

SA 1810. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

Strike section 602 and insert the following:

SEC. 602. ADJUSTMENT SHALL BE UNAVAILABLE FOR Z STATUS ALIENS.

Notwithstanding any other provision of this Act (or an amendment made by this Act)—
(1) a Z nonimmigrant shall not be adjusted to the status of a lawful permanent resident; and
(2) nothing in this section shall be construed to limit the number of times that a Z nonimmigrant can renew the nonimmigrant's status.

SA 1811. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

At the end of section 1, insert the following:
(e) SUBMISSION TO CONGRESS.—
(1) IN GENERAL.—Except as provided under paragraph (2), not later than 54 months after the date of the enactment of this Act, the Secretary shall submit a written certification to the President and Congress that—
(A) the border security and other measures described in subsection (a) are funded, in place, and in operation; and
(B) there are fewer than 1,000,000 individuals who are unlawfully present in the United States.
(2) EFFECT OF LACK OF CERTIFICATION.—If the border security and other measures described in subsection (a) are not funded, are not in place, are not in operation, or if more than 1,000,000 individuals are unlawfully present in the United States on the date that is 54 months after the date of the enactment of this Act, title VI shall be immediately repealed and the legal status and probationary benefits granted to aliens under such title shall be terminated.

SA 1812. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 103, line 16, strike ''(b)'' and insert the following:
(b) FEDERAL AFFIRMATION OF IMMIGRATION LAW ENFORCEMENT BY STATES AND POLITICAL SUBDIVISIONS OF STATES.—
(1) AUTHORITY.—Law enforcement personnel of a State, or a political subdivision of a State, have the inherent authority of a sovereign entity to investigate, apprehend, arrest, detain, or transfer to Federal custody (including the transportation across State lines to detention centers) an alien for the purpose of assisting in the enforcement of the immigration laws of the United States in the normal course of carrying out the law enforcement duties of such personnel. This State authority has never been displaced or preempted by Federal law.
(2) CONSTRUCTION.—Nothing in this subsection may be construed to require law enforcement personnel of a State or a political subdivision to assist in the enforcement of the immigration laws of the United States.
(c) LISTING OF IMMIGRATION VIOLATORS IN THE NATIONAL CRIME INFORMATION CENTER DATABASE.—
(1) PROVISION OF INFORMATION TO THE NATIONAL CRIME INFORMATION CENTER.—
(A) IN GENERAL.—Except as provided under subparagraph (C), not later than 180 days after the date of the enactment of this Act, the Secretary shall provide to the head of the National Crime Information Center of the Department of Justice the information that the Secretary has or maintains related to any alien—
(i) against whom a final order of removal has been issued;

(ii) who enters into a voluntary departure agreement, or is granted voluntary departure by an immigration judge, whose period for departure has expired under subsection (a)(3) of section 240B of the Immigration and Nationality Act (8 U.S.C. 1229c), subsection (b)(2) of such section 240B, or who has violated a condition of a voluntary departure agreement under such section 240B;

(iii) whom a Federal immigration officer has confirmed to be unlawfully present in the United States; and

(iv) whose visa has been revoked.

(B) REMOVAL OF INFORMATION.—The head of the National Crime Information Center shall promptly remove any information provided by the Secretary under subparagraph (A) related to an alien who is lawfully admitted to enter or remain in the United States.

(C) PROCEDURE FOR REMOVAL OF ERRONEOUS INFORMATION.—

(i) IN GENERAL.—The Secretary, in consultation with the head of the National Crime Information Center, shall develop and implement a procedure by which an alien may petition the Secretary or head of the National Crime Information Center, as appropriate, to remove any erroneous information provided by the Secretary under subparagraph (A) related to such alien.

(ii) EFFECT OF FAILURE TO RECEIVE NOTICE.—Under procedures developed under clause (i), failure by the alien to receive notice of a violation of the immigration laws shall not constitute cause for removing information provided by the Secretary under subparagraph (A) related to such alien, unless such information is erroneous.

(iii) INTERIM PROVISION OF INFORMATION.—Notwithstanding the 180-day period set forth in subparagraph (A), the Secretary may not provide the information required under subparagraph (A) until the procedures required under this paragraph have been developed and implemented.

(2) INCLUSION OF INFORMATION IN THE NATIONAL CRIME INFORMATION CENTER DATABASE.—Section 534(a) of title 28, United States Code, is amended—

(A) in paragraph (3), by striking ''and'' at the end;

(B) by redesignating paragraph (4) as paragraph (5); and

(C) by inserting after paragraph (3) the following:

''(4) acquire, collect, classify, and preserve records of violations of the immigration laws of the United States; and''.

(d)

SA 1813. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 309, strike line 15 and all that follows through ''January 1, 2007'' on page 310, line 13, and insert the following:

''(Z) subject to title VI of the Secure Borders, Economic Opportunity, and Immigration Reform Act of 2007, an alien who—

''(i) is physically present in the United States, has maintained continuous physical presence in the United States since January 7, 2004, is employed, and seeks to continue performing labor, services or education;

''(ii) is physically present in the United States, has maintained continuous physical presence in the United States since January 7, 2004, and such alien—

''(I) is the spouse or parent (65 years of age or older) of an alien described in clause (i); or

''(II) was, within 2 years of the date on which the Secure Borders, Economic Opportunity, and Immigration Reform Act of 2007 was introduced in the Senate, the spouse of an alien who was subsequently classified as a Z nonimmigrant under this section, or is eligible for such classification, if—

''(aa) the termination of the relationship with such spouse was connected to domestic violence; and

''(bb) the spouse has been battered or subjected to extreme cruelty by the spouse or parent, who is a Z nonimmigrant; or

''(iii) is under 18 years of age at the time of application for nonimmigrant status under this subparagraph, is physically present in the United States, has maintained continuous physical presence in the United States since January 7, 2004, and was born to or legally adopted by at least 1 parent who is at the time of application described in clause (i) or (ii).''.

(c) PRESENCE IN THE UNITED STATES.—

(1) IN GENERAL.—The alien shall establish that the alien was not lawfully present in the United States on January 7, 2004.

SA 1814. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 312, lines 15 through 17, strike ''(6)(B), (6)(C)(i), (6)(C)(ii), (6)(D), (6)(F), (6)(G), (7), (9)(B), (9)(C)(i)(I),'' and insert ''(6)(C)(i), (6)(C)(ii), (6)(D), (6)(G), (7),''.

SA 1815. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 323, strike lines 4 through 34, and insert the following:

(ii) ENGLISH LANGUAGE AND CIVICS.—

(I) REQUIREMENT AT FIRST RENEWAL.—At or before the time of application for the first extension of Z nonimmigrant status, an alien who is 18 years of age or older must demonstrate an attempt to gain an understanding of the English language and knowledge of United States civics by taking the naturalization test described in paragraphs (1) and (2) of section 312(a) of the Immigration and Nationality Act (8 U.S.C. 1423(a)) and by demonstrating enrollment in or placement on a waiting list for English classes.

(II) REQUIREMENT AT SECOND RENEWAL.—At or before the time of application for the second extension of Z nonimmigrant status, an alien who is 18 years of age or older must pass the naturalization test described in such paragraphs (1) and (2) of such section 312(a).

(III) REQUIREMENT AT THIRD RENEWAL.—At or before the time of application for the third extension of Z nonimmigrant status, an alien who is 18 years of age or older must take the Test of English as a Foreign Language (TOEFL) administered by the Educational Testing Service.

(IV) REQUIREMENT AT FOURTH RENEWAL.—At or before the time of application for the fourth extension of Z nonimmigrant status, an alien who is 18 years of age or older must retake the TOEFL and receive the lower of—

(aa) a score of not less than 70; or

(bb) a score of not less than 20 points higher than the score the alien received when the alien took the TOEFL pursuant to subclause (III).

(V) EXCEPTION.—The requirements of subclauses (I), (II), (III), and (IV) shall not apply to any person who, on the date of the filing of the person's application for an extension of Z nonimmigrant status—

SA 1816. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 1639, to provide for comprehensive immigration reform and for other purposes; which was ordered to lie on the table; as follows:

On page 315, between lines 29 and 30, insert the following:

(9) GOOD MORAL CHARACTER.—The alien shall establish that the alien has been a person of good moral character, as described in section 101(f) of the Immigration and Nationality Act (8 U.S.C. 1101(f)), for the entire period of the alien's unlawful presence in the United States.

SA 1817. Ms. STABENOW (for herself, Mr. KERRY, Mr. SCHUMER, Mr. LEVIN, Mr. BROWN, and Ms. CANTWELL) submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. TAX-EXEMPT FINANCING OF ALTERNATIVE MOTOR VEHICLE FACILITIES.

(a) IN GENERAL.—Subsection (a) of section 142 is amended—

(1) by striking ''or'' at the end of paragraph (14),

(2) by striking the period at the end of paragraph (15) and inserting '', or'', and

(3) by inserting at the end the following new paragraph:

''(16) alternative motor vehicle facility.''.

(b) DEFINITION.—Section 142 is amended by inserting at the end the following new subsection:

''(n) ALTERNATIVE MOTOR VEHICLE FACILITY.—

''(1) IN GENERAL.—For purposes of subsection (a)(16), the term 'alternative motor vehicle facility' means an automobile development and production facility which was built before 1981 and which through financing by the net proceeds of the issue is retrofitted or reconstructed to make such facility compatible for the development and production of qualified alternative motor vehicles or of qualified alternative motor vehicles and component parts for such vehicles.

''(2) QUALIFIED ALTERNATIVE MOTOR VEHICLES.—For purposes of paragraph (1), the term 'qualified alternative motor vehicle' means any vehicle described in section 30B or 30D.

''(3) NATIONAL LIMITATION ON AMOUNT OF BONDS.—

''(A) NATIONAL LIMITATION.—The aggregate amount allocated by the Secretary under subparagraph (C) shall not exceed $1,500,000,000, of which not more than $500,000,000 may be allocated to any single taxpayer (determined under rules similar to the rules in paragraphs (6), (7), and (8) of section 179(d)).

''(B) ENFORCEMENT OF NATIONAL LIMITATION.—An issue shall not be treated as an issue described in subsection (a)(16) if the aggregate face amount of bonds issued pursuant to such issue for any alternative motor vehicle facility (when added to the aggregate face amount of bonds previously so issued for such facility) exceeds the amount allocated to such facility under subparagraph (C).

''(C) ALLOCATION BY SECRETARY.—The Secretary shall allocate the amount described in subparagraph (A) among State or local governments to finance alternative motor vehicle facilities located within the jurisdictions of such governments in such manner as the Secretary determines appropriate.

''(4) SPECIAL RULES RELATING TO EXPENDITURES.—

''(A) IN GENERAL.—An issue shall not be treated as an issue described in subsection (a)(16) unless at least 95 percent of the proceeds from the sale of the issue are to be spent for 1 or more facilities within the 5-year period beginning on the date of issuance.

''(B) EXTENSION OF PERIOD.—Upon submission of a request prior to the expiration of the period described in subparagraph (A)(i), the Secretary may extend such period if the issuer establishes that the failure to satisfy the 5-year requirement is due to reasonable cause and the related facilities will continue to proceed with due diligence.

''(C) FAILURE TO SPEND REQUIRED AMOUNT OF BOND PROCEEDS WITHIN 5 YEARS.—To the extent that less than 95 percent of the proceeds of such issue are expended by the close of the 5-year period beginning on the date of issuance (or if an extension has been obtained under subparagraph (B), by the close of the extended period), the issuer shall use all unspent proceeds of such issue to redeem bonds of the issue within 90 days after the end of such period.

''(5) EXCEPTION FOR CURRENT REFUNDING BONDS.—Paragraph (3) shall not apply to any bond (or series of bonds) issued to refund a bond issued under subsection (a)(16) if—

''(A) the average maturity date of the issue of which the refunding bond is a part is not later than the average maturity date of the bonds to be refunded by such issue,

''(B) the amount of the refunding bond does not exceed the outstanding amount of the refunded bond, and

''(C) the refunded bond is redeemed not later than 90 days after the date of the issuance of the refunding bond.

For purposes of subparagraph (A), average maturity shall be determined in accordance with section 147(b)(2)(A).''.

(c) CONFORMING AMENDMENT.—Section 146(g)(3) is amended by striking ''or (15)'' and inserting ''(15), or (16)''.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to bonds issued after December 31, 2007, and before January 1, 2013.

SEC. _____. INCREASE IN INFORMATION RETURN PENALTIES.

(a) FAILURE TO FILE CORRECT INFORMATION RETURNS.—

(1) IN GENERAL.—Section 6721(a)(1) is amended—

(A) by striking ''$50'' and inserting ''$250'', and

(B) by striking ''$250,000'' and inserting ''$3,000,000''.

(2) REDUCTION WHERE CORRECTION IN SPECIFIED PERIOD.—

(A) CORRECTION WITHIN 30 DAYS.—Section 6721(b)(1) is amended—

(i) by striking ''$15'' and inserting ''$50'',

(ii) by striking ''$50'' and inserting ''$250'', and

(iii) by striking ''$75,000'' and inserting ''$500,000''.

(B) FAILURES CORRECTED ON OR BEFORE AUGUST 1.—Section 6721(b)(2) is amended—

(i) by striking ''$30'' and inserting ''$100'',

(ii) by striking ''$50'' and inserting ''$250'', and

(iii) by striking ''$150,000'' and inserting ''$1,500,000''.

(3) LOWER LIMITATION FOR PERSONS WITH GROSS RECEIPTS OF NOT MORE THAN $5,000,000.—Section 6721(d)(1) is amended—

(A) in subparagraph (A)—

(i) by striking ''$100,000'' and inserting ''$1,000,000'', and

(ii) by striking ''$250,000'' and inserting ''$3,000,000'',

(B) in subparagraph (B)—

(i) by striking ''$25,000'' and inserting ''$175,000'', and

(ii) by striking ''$75,000'' and inserting ''$500,000'', and

(C) in subparagraph (C)—

(i) by striking ''$50,000'' and inserting ''$500,000'', and

(ii) by striking ''$150,000'' and inserting ''$1,500,000''.

(4) PENALTY IN CASE OF INTENTIONAL DISREGARD.—Section 6721(e) is amended—

(A) by striking ''$100'' in paragraph (2) and inserting ''$500'',

(B) by striking ''$250,000'' in paragraph (3)(A) and inserting ''$3,000,000''.

(b) FAILURE TO FURNISH CORRECT PAYEE STATEMENTS.—

(1) IN GENERAL.—Section 6722(a) is amended—

(A) by striking ''$50'' and inserting ''$250'', and

(B) by striking ''$100,000'' and inserting ''$1,000,000''.

(2) PENALTY IN CASE OF INTENTIONAL DISREGARD.—Section 6722(c) is amended—

(A) by striking ''$100'' in paragraph (1) and inserting ''$500'', and

(B) by striking ''$100,000'' in paragraph (2)(A) and inserting ''$1,000,000''.

(c) FAILURE TO COMPLY WITH OTHER INFORMATION REPORTING REQUIREMENTS.—Section 6723 is amended—

(1) by striking ''$50'' and inserting ''$250'', and

(2) by striking ''$100,000'' and inserting ''$1,000,000''.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to information returns required to be filed on or after January 1, 2008.

SA 1818. Mr. HARKIN submitted an amendment intended to be proposed to amendment SA 1704 proposed by Mr. BAUCUS (for himself, Mr. GRASSLEY, Mr. BINGAMAN, Ms. CANTWELL, Mr. WYDEN, Mr. SCHUMER, Mr. SALAZAR, and Ms. SNOWE) to the amendment SA 1502 proposed by Mr. REID to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

On page 76, line 24, insert ''or eligible for a credit under section 40(b)(2) or 40A(b)(2)'' after ''6426''.

SA 1819. Mr. HATCH submitted an amendment intended to be proposed by him to the bill H.R. 6, to reduce our Nation's dependency on foreign oil by investing in clean, renewable, and alternative energy resources, promoting new emerging energy technologies, developing greater efficiency, and creating a Strategic Energy Efficiency and Renewables Reserve to invest in alternative energy, and for other purposes; which was ordered to lie on the table; as follows:

SEC. 885. ADDITIONAL TARIFFS ON OIL AND GAS PRODUCTS OF VENEZUELA.

(a) FINDING.—The Government of Venezuela has announced its intention to withdraw as a member of the World Trade Organization.

(b) ADDITIONAL TARIFF.—Notwithstanding any other provision of law, there shall be imposed on any oil or gas product imported from Venezuela, in addition to any other duty that would otherwise apply to such product, a rate of duty of 3 percent ad valorem.

(c) EFFECTIVE DATE.—

(1) IN GENERAL.—This section shall apply to any oil or gas product imported from Venezuela on or after the date that is 15 days after the date of the enactment of this Act.

(2) TERMINATION.—The duties imposed under subsection (b) shall cease to apply if—

(A) the Government of Venezuela files a complaint against the United States claiming that the duties imposed by subsection (b) do not comply with the obligations of the United States under the WTO Agreement (as defined in section 2(9) of the Uruguay Round Agreements Act (19 U.S.C. 3501(9))), or any of the agreements annexed to that Agreement; and

(B) a dispute settlement panel of the World Trade Organization issues an adverse finding against the United States with respect to such complaint.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to hold a hearing during the session of the Senate on Wednesday, June 20, 2007, at 2:30 p.m., in room 253 of the Russell Senate Office Building.

Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs Subcommittee on Housing, Transportation, and Community Development be authorized to meet during the session of the Senate on June 20, 2007, at 2 p.m. to conduct a hearing on ''Reauthorization of the Hope VI Program.''

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON SUPERFUND AND ENVIRONMENTAL HEALTH

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the Subcommittee on Superfund and Environmental Health be authorized to meet during the session of the Senate on Wednesday, June 20, 2007 at 10 a.m. in room 406 of the Dirksen Senate Office Building for a hearing entitled, ''EPA's Response to 9–11 and Lessons Learned for Future Emergency Preparedness.''

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the following fellows, interns, and detailees of the staff of the Finance Committee be allowed on the Senate floor for the duration of debate on the Energy bill: Mary Baker, Tom Louthan, Sara Shepherd, Amy Branger, Jennifer Donohue, Lindsay Erickson, David Lee, Alex Mazuro, Jennifer Smith, and Erik Willborg.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BINGAMAN. Mr. President, I also ask unanimous consent that the following individuals who are interns in my office be given floor privileges during the pendency of H.R. 6: Samantha Currier, Allison Freedman, Gregory Gonzales, Kori Higgins, Blake Peterson, Sarah Pike, Heather Roach, Shannon Saltclah, Joshua Sanchez, and Claire Smith.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Mr. President, I ask unanimous consent that Paul Keppy, Anne Freeman, and Lynda Simmons of my Senate Committee Finance staff be given the privilege of the floor during the debate on the Energy bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Additionally, Mr. President, I ask unanimous consent that John Kalitka, who is on detail to my staff from the Commerce Department, be granted the privilege of the floor during the debate on the Energy bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAUCUS. Mr. President, I ask unanimous consent that the following fellows, interns, and detailees of the staff of the Finance Committee be allowed on the Senate floor for the duration of the debate on the Energy bill: George Serletis, Brandon Perkins, Brett Youngerman, Suzanne Payne, Tom Kornfield, Avi Salzman, Grace Stephens, Alex Hart, and Elise Stein.

The PRESIDING OFFICER. Without objection, it is so ordered.

APPOINTMENT

The PRESIDING OFFICER. The Chair, pursuant to Executive Order 12131, as amended, appoints the following Member to the President's Export Council: The Senator from Texas, Mr. CORNYN.

CELEBRATING ACCOMPLISHMENTS OF TITLE IX OF EDUCATION AMENDMENTS OF 1972

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the Senate now proceed to the immediate consideration of S. Res. 242, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 242) celebrating the accomplishments of title IX of the Education Amendments of 1972.

There being no objection, the Senate proceeded to consider the resolution.

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and any statements relating thereto be printed in the RECORD, without intervening action or debate.

The resolution (S. Res. 242) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 242

Whereas 35 years ago, on June 23, 1972, the Education Amendments of 1972 containing title IX was signed into law by the President;

Whereas Representatives Patsy T. Mink and Edith Green led the successful fight in Congress to pass this legislation;

Whereas title IX prohibits discrimination on the basis of sex in the administration of any education program receiving Federal financial assistance;

Whereas remarkable gains have been made to ensure equal opportunity for women and girls under the inspiration and mandate of title IX;

Whereas title IX serves as the nondiscrimination principle in education;

Whereas title IX has increased access and opportunities for women and girls;

Whereas title IX has increased educational opportunities for women and girls, increased access to professional schools and nontraditional fields of study, and improved employment opportunities;

Whereas title IX has increased opportunities for women and girls in sports, leading to greater access to competitive sports, and building strong values such as teamwork, leadership, discipline, work ethic, self-sacrifice, pride in accomplishment, and strength of character;

Whereas on October 29, 2002, title IX was named the ''Patsy Takemoto Mink Equal Opportunity in Education Act'' in recognition of Representative Mink's heroic, visionary, and tireless leadership in developing and winning passage of title IX; and

Whereas while title IX has been instrumental in fostering 35 years of progress toward equality between men and women in educational institutions and the workplace, there remains progress to be made, Now, therefore, be it

Resolved, That the Senate celebrates—

(1) the accomplishments of title IX of the Education Amendments of 1972, also known as the Patsy Takemoto Mink Equal Opportunity in Education Act, in increasing opportunities for women and girls in all facets of education; and

(2) the magnificent accomplishments of women and girls in sports.

SUPPORTING GOALS AND IDEALS OF NATIONAL CLEAN BEACHES WEEK

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of S. Res. 243, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 243) supporting the goals and ideals of National Clean Beaches Week.

There being no objection, the Senate proceeded to consider the resolution.

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and that any statements relating thereto be printed in the RECORD, without intervening action or debate.

The resolution (S. Res. 243) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 243

Whereas coastal areas produce 85 percent of all United States tourism dollars and are the leading tourism destination in America;

Whereas over 50 percent of the population of the United States lives in coastal counties;

Whereas the beaches in these coastal counties provide recreational opportunities for numerous Americans and their families who, together with international tourists, make almost 2,000,000,000 trips to the beach each year to fish, sunbathe, boat, swim, surf, and bird-watch;

Whereas beaches are a critical driver of the American economy and its competitiveness in the global economy;

Whereas beaches represent a critical part of our natural heritage and a beautiful part of the American landscape;

Whereas beaches are sensitive ecosystems, susceptible to degradation and alteration from natural forces, sea level rise, pollution, untreated sewage, and improper use;

Whereas members of the Government, the private sector, and nongovernmental organizations, along with citizen volunteers, have worked diligently to clean up and protect our beaches over the years;

Whereas great strides have been made in understanding the science of watersheds and the connections between inland areas and coastal waters;

Whereas the Federal Government should develop science-based policies that are commensurate with that knowledge; and

Whereas a 7-day week, commencing in June and including July 5, will be observed as National Clean Beaches Week: Now, therefore, be it

Resolved, That the Senate—

(1) supports the goals and ideals of National Clean Beaches Week;

(2) recognizes the value of beaches to the American way of life and the important contributions of beaches to the economy, recreation, and natural environment of the United States; and

(3) encourages Americans to work to keep beaches safe and clean for the continued enjoyment of the public and to engage in activities during National Clean Beaches Week that foster stewardship, healthy living, and volunteerism along our coastlines.

NATIONAL SAFETY MONTH

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 244, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 244) designating June 2007 as ''National Safety Month.''

There being no objection, the Senate proceeded to consider the resolution.

Ms. KLOBUCHAR. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and that any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 244) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 244

Whereas the National Safety Council, founded in 1913, is celebrating its 94th anniversary as the premier source of safety and health information, education, and training in the United States in 2007;

Whereas the mission of the National Safety Council is to educate and influence people to prevent accidental injury and death;

Whereas the National Safety Council was congressionally chartered in 1953 and is celebrating its 54th anniversary as a congressionally chartered organization in 2007;

Whereas the National Safety Council works to promote policies, practices, and procedures leading to increased safety, protection, and health in business and industry, in schools and colleges, on roads and highways, and in homes and communities;

Whereas, even with advancements in safety that create a safer environment for the people of the United States such as new legislation and improvements in technology, the number of unintentional injuries remains unacceptable;

Whereas the people of the United States deserve to live in communities that promote safe and healthy living;

Whereas such a solution requires the cooperation of all levels of government, as well as the Nation's employers and the general public;

Whereas the summer season, traditionally a time of increased accidental injuries and fatalities, is an appropriate time to focus attention on injury risks and preventions; and

Whereas the theme of ''National Safety Month'' for 2007 is ''Celebrating Safe Communities'': Now, therefore, be it

Resolved, That the Senate—

(1) designates June 2007 as ''National Safety Month''; and

(2) recognizes the accomplishments of the National Safety Council and calls upon the people of the United States to observe the month with appropriate ceremonies and respect.

CONGRATULATING THE ARIZONA WILDCATS

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the Senate now proceed to the immediate consideration of S. Res. 245, which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 245) congratulating the University of Arizona Wildcats for winning the 2007 NCAA Division I Softball Championship.

There being no objection, the Senate proceeded to consider the resolution.

Mr. KYL. Mr. President, today I am pleased to join with Senator MCCAIN in support of this resolution to acknowledge the athletic achievement of a tremendous group of young women. On June 6, the University of Arizona women's softball team won the 2007 National Collegiate Athletic Association Division I Softball Championship. By defeating the University of Tennessee Lady Volunteers 5 to 0, the Wildcats claimed their 8th title since 1991.

The victory was a team effort that was marked by a number of special accomplishments. Taryne Mowatt, pitcher for the Wildcats, set a Women's College World Series record by pitching 60 innings and was named the tournament's Most Outstanding Player. Centerfielder Caitlin Lowe had a record-tying 4 hits in the national title game. Shortstop Kristie Fox tied the record with 12 hits in the series. On 4 occasions Fox faced the best pitcher in the country, Tennessee's Monica Abbott. Second baseman Chelsie Mesa can take credit for hitting a 3-run home run off Abbott to break open the game and send the Wildcats to victory. Taryne Mowatt, Kristie Fox, Jenae Leles, and Caitlin Lowe were selected to be on the all-tournament team because of the skill they demonstrated during the tournament. Other Wildcats making important contributions include Adrienne Acton, Sarah Akamine, K'Lee Arredondo, Callista Balko, Sam Banister, Cyndi Duran, Lauren Erb, Samantha Hoffman, Jill Malina, Lisa Odom, Danielle Rodriguez, and Laine Roth.

The team's success was guided by their coach, Mike Candrea, who just completed his 22nd season as coach of the University of Arizona softball program. A highly decorated coach, Candrea has won 18 coach-of-the-year honors. He boasts a 1,131 to 228 overall win-loss record. In 2004, Candrea took a year off to coach the USA Olympic softball team, which went on to take the gold medal.

Senator MCCAIN and I introduce this resolution today so that this body can send a well-deserved congratulations to the University of Arizona Wildcats and their coach for the hard work and skill they demonstrated in winning the championship.

Ms. KLOBUCHAR. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 245) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 245

Whereas on June 6, 2007, the University of Arizona (UA) Wildcats of Tucson, Arizona, won the 2007 National Collegiate Athletic Association Women's College World Series Softball Championship by defeating the University of Tennessee Lady Volunteers by a score of 5 to 0, winning their 8th title since 1991;

Whereas, in the championship game, UA pitcher Taryne Mowatt set a Women's College World Series record by pitching 60 innings and was named the tournament's Most Outstanding Player;

Whereas Kristie Fox, Jenae Leles, and Caitlin Lowe were selected to be on the all-tournament team;

Whereas the UA Wildcats completed the season with a 50–14–1 record, climbing from the loser's bracket to emerge victorious; and

Whereas Coach Mike Candrea has taken the UA Wildcats to the Women's College World Series 19 times over the last 20 years, and won 8 national championship titles: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the University of Arizona Wildcats for winning the 2007 NCAA Division I Women's Softball Championship; and

(2) recognizes all the players, coaches, and support staff who were instrumental in this achievement.

CONGRATULATING THE SAN ANTONIO SPURS

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the Senate now proceed to the immediate consideration of S. Res. 246, which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 246) congratulating the San Antonio Spurs for winning the National Basketball Association Championship.

There being no objection, the Senate proceeded to consider the resolution.

Ms. KLOBUCHAR. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 246) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 246

Whereas on June 14, 2007, the San Antonio Spurs (Spurs) won their fourth National Basketball Association (NBA) Championship since 1999 by defeating the Cleveland Cavaliers 4 to 0;

Whereas Tony Parker won his first NBA Finals Most Valuable Player award after shooting 57 percent for the series and averaging 24.5 points per game;

Whereas Spurs Head Coach Gregg Popovich added to his growing legacy by winning his fourth NBA championship;

Whereas Spurs owner and Chief Executive Officer Peter Holt and General Manager R.C. Buford have built the San Antonio Spurs into 1 of the best organizations in NBA history;

Whereas the Spurs hold an all-time record of 16 wins and 6 losses in the NBA Finals;

Whereas the Spurs have the best winning percentage in NBA Finals history;

Whereas the Spurs are committed to serving the San Antonio community by promoting education, achievement, and civic responsibility; and

Whereas the Spurs are the pride and joy of the City of San Antonio: Now, therefore, be it

Resolved, That the Senate—

(1) congratulates the San Antonio Spurs for winning the 2007 National Basketball Association Championship; and

(2) respectfully requests the Secretary of the Senate to transmit 1 enrolled copy of this resolution to Senator Hutchison for presentation to the San Antonio Spurs.

SUPPORTING THE IDEALS AND VALUES OF THE OLYMPIC MOVEMENT

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of S. Res. 185 and that the Senate then proceed to its consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 185) supporting the ideals and values of the Olympic movement.

There being no objection, the Senate proceeded to consider the resolution.

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid on the table, and that any statements relating thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 185) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 185

Whereas, for over 100 years, the Olympic Movement has built a more peaceful and better world by educating young people through athletics, by bringing together athletes from many countries in friendly competition, and by forging new relationships bound by friendship, solidarity, sportsmanship, and fair play;

Whereas the United States Olympic Committee is dedicated to coordinating and developing athletic activity in the United States to foster productive working relationships among sports-related organizations;

Whereas the United States Olympic Committee promotes and supports athletic activities involving the United States and foreign countries;

Whereas the United States Olympic Committee promotes and encourages physical fitness and public participation in athletic activities;

Whereas the United States Olympic Committee assists organizations and persons concerned with sports in the development of athletic programs for able-bodied and disabled athletes regardless of age, race, or gender;

Whereas the United States Olympic Committee protects the opportunity of each athlete, coach, trainer, manager, administrator, and official to participate in athletic competition;

Whereas athletes representing the United States at the Olympic Games have achieved great success personally and for the Nation;

Whereas thousands of men and women of the United States are focusing their energy and skill on becoming part of the United States Olympic Team and aspire to compete in the 2008 Olympic Games in Beijing, China;

Whereas the Nation takes great pride in the qualities of commitment to excellence, grace under pressure, and good will toward other competitors exhibited by the athletes of the United States Olympic Team; and

Whereas June 23, 2007, is the anniversary of the founding of the Modern Olympic Movement, representing the date on which the Congress of Paris approved the proposal of Pierre de Coubertin to found the Modern Olympic Games: Now, therefore, be it

Resolved, That the Senate—

(1) supports the ideals and values of the Olympic Movement; and

(2) calls upon the people of the United States to observe the anniversary of the founding of the Modern Olympic Movement with appropriate ceremonies and activities.

COMMENDING THE UNIVERSITY OF WASHINGTON MEN'S CREW TEAM

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 247, which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 247) commending the University of Washington Men's Crew, the 2007 Intercollegiate Rowing Association Champions.

There being no objection, the Senate proceeded to consider the resolution.

Ms. CANTWELL. Mr. President, today I congratulate the members of the University of Washington Men's Crew Team, which won the Intercollegiate Rowing Association Championships on June 2, 2007 at Copper River in New Jersey.

The Washington Huskies came to the Intercollegiate Rowing Association Championship Regatta with great expectations. All season, the team was ranked No. 1 in the Nation and was ranked as the top seed at the regatta.

And the University of Washington delivered.

The men's varsity eight raced down the 2,000 meter course to a first place finish with a time of 5:33.16, holding off advances from Stanford and Harvard. This is the first time since 1997 that the Huskies have won the varsity eight race and marks the 12th varsity eight national championship for the University.

In addition, the second varsity eight and open four boats also earned gold medals, finishing their races in 5:43.02 and 6:26.44 respectfully. The Huskies freshman eight also found themselves on the podium stand, finishing third in their race.

In addition to these individual boat success stories, the Husky men exhibited teamwork by winning the overall points championship and capturing the Ten Eyck Trophy for the first time since 1970. The University of Washington amassed 216 points, followed by Harvard with 191, and California with 190.

The Huskies have been competing in the Intercollegiate Rowing Association Championship Regatta since 1913. I am proud that this group of young men has continued this tradition of competition and success at this year's championship and they should be commended for their determination, work ethic, and heart.

Once again, I would like to congratulate the members of the University of Washington Men's Crew Team for their impressive achievement.

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and that any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 247) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 247

Whereas crew is the oldest intercollegiate sport in the United States, dating back to 1852;

Whereas the Intercollegiate Rowing Association Championship, which began in 1895, is the oldest college rowing championship in the United States and is 1 of the most prestigious championships in collegiate rowing;

Whereas the University of Washington first attended the Intercollegiate Rowing Association Championship in the 1913;

Whereas the Washington Huskies Men's Crew Team was the number 1 ranked team in the United States all season and entered the Intercollegiate Rowing Association Championships as the top seeded team;

Whereas the University of Washington's varsity eight, second varsity eight, and open four each won gold medals in their respective races, and the freshman eight took home the bronze medal;

Whereas this is the 12th varsity eight title won by University of Washington at the Intercollegiate Rowing Association Championships, and the first such win by the Huskies since 1997;

Whereas the Huskies also won the Ten Eyck Trophy for the first time since 1970 by winning the overall points championship;

Whereas the entire University of Washington Men's Crew Team should be commended for demonstrating determination, work ethic, attitude, and heart; and

Whereas the members of the Men's Crew Team have brought great honor to themselves, their families, the University of Washington, and the State of Washington: Now, therefore, be it

Resolved, That the Senate—

(1) commends the University of Washington Men's Crew Team for winning the 2007 Intercollegiate Rowing Association Championship and acquiring the Ten Eyck Trophy; and

(2) recognizes the achievements of the rowers, coaches, and staff whose skill, discipline, and dedication allowed them to reach such heights.

THE CALENDAR

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that it be in order for the Senate to proceed, en bloc, to the consideration of the following calendar items: Calendar No. 154, S. Res. 132; Calendar No. 174, H. Con. Res. 76; Calendar No. 192, S. Res. 82; Calendar No. 194, S. Res. 173; Calendar No. 200, S. Res. 105; and Calendar No. 201, S. Res. 215.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. KLOBUCHAR. I ask unanimous consent that the resolutions be agreed to, en bloc, the preambles be agreed to, en bloc, the motions to reconsider be laid upon the table, that consideration of these items appear separately in the RECORD and any statements related thereto be printed in the RECORD, without intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNIZING THE CIVIL AIR PATROL FOR 65 YEARS OF SERVICE TO THE UNITED STATES

The resolution (S. Res. 132) recognizing the Civil Air Patrol for 65 years of service to the United States was considered and agreed to. The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 132

Whereas the Civil Air Patrol was established on December 1, 1941, in the Office of Civilian Defense;

Whereas during World War II the volunteer units of the Civil Air Patrol conducted search and rescue missions, provided air transportation for military personnel and cargo, towed targets for the training of Army Air Corps gunners, and patrolled the coasts of the United States searching for enemy submarines;

Whereas by the end of World War II the Civil Air Patrol had flown more than 500,000 hours, sunk 2 German U-boats, and saved hundreds of crash victims;

Whereas on July 1, 1946, the Civil Air Patrol was chartered by the United States as a nonprofit, benevolent corporation;

Whereas on May 26, 1948, the Civil Air Patrol was permanently established as a volunteer auxiliary of the United States Air Force;

Whereas since 1942 the cadet programs of the Civil Air Patrol have trained more than 750,000 youth, providing them with leadership and life skills;

Whereas since 1942 the Civil Air Patrol has flown more than 1,000,000 hours of search and

rescue missions, saving several thousand lives; and

Whereas since 1951 the aerospace education programs of the Civil Air Patrol have provided training and educational materials to more than 300,000 teachers, who have educated more than 8,000,000 students about aerospace: Now, therefore, be it

Resolved, That the Senate recognizes the Civil Air Patrol for 65 years of service to the United States.

HONORING THE 50TH ANNIVERSARY OF THE INTERNATIONAL GEOPHYSICAL YEAR

The concurrent resolution (H. Con. Res. 76) honoring the 50th Anniversary of the International Geophysical Year (IGY) and its past contributions to space research, and looking forward to future accomplishments, was considered and agreed to. The preamble was agreed to.

H. CON. RES. 76

Whereas the year 2007–2008 is the 50th anniversary of the International Geophysical Year (IGY) of 1957–1958;

Whereas the IGY initiated the Space Age with the successful launch of the first artificial satellites, Sputnik by the former Soviet Union, and Explorer I by the United States;

Whereas the interdisciplinary approach of IGY and the use of new space-based platforms enabled fundamental changes in the conduct of research concerning the Earth and its surrounding space environment;

Whereas the interdisciplinary approach of IGY enabled coordinated, synchronous, global observations and measurements of the Earth, oceans, atmosphere, ice, and near-Earth space environment;

Whereas the IGY increased our understanding of the causes of magnetic storms, ionospheric disturbances, and the origins of cosmic rays;

Whereas the use of new space-based platforms enabled the discovery of the Van Allen radiation belts, which are trapped, charged particles in the Earth's upper atmosphere, showed that those particles form belts of energy around the Earth, and contributed to the understanding of the Northern Lights;

Whereas the IGY, involved thousands of scientists from 67 nations;

Whereas the IGY, which occurred during the height of Cold War tensions, facilitated international cooperation in science and helped lead to the Antarctic Treaty, which established the use of Antarctica for peaceful purposes and promoted continued, cooperative scientific investigations on the continent;

Whereas the IGY led to the creation of institutional structures that continue to promote and enable the international exchange of scientific research related to the Earth and space, including the International Council on Science's Committee on Space Research (COSPAR), Scientific Committee on Antarctic Research (SCAR), and Scientific Committee on Oceanic Research (SCOR); and

Whereas this 50th anniversary celebration offers as an opportunity to inspire our public and youth to build on the legacy of success of the IGY, recognizing that a coordinated, international approach to interdisciplinary scientific challenges such as climate change, high energy physics, and space exploration contributes to the advancement of knowledge and sustains the cooperative spirit and goodwill among nations set forth in the IGY: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That the Congress—

(1) honors the 50th anniversary of the International Geophysical Year (IGY) and its contributions to the scientific investigations of the Earth and outer space; and

(2) encourages the public, and especially American youth, to attend IGY celebrations and seminars, such as those being planned at locations around the United States by the National Academy of Sciences and other organizations, and participate in discussions about the future of space science and Earth science.

NATIONAL AIRBORNE DAY

The resolution (S. Res. 82) designating August 16, 2007 as ''National Airborne Day,'' was considered and agreed to. The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 82

Whereas the airborne forces of the Armed Forces have a long and honorable history as units of adventuresome, hardy, and fierce warriors who, for the national security of the United States and the defense of freedom and peace, project the effective ground combat power of the United States by Air Force air transport to the far reaches of the battle area and, indeed, to the far corners of the world;

Whereas August 16, 2007 marks the anniversary of the first official Army parachute jump on August 16, 1940, an event that validated the innovative concept of inserting United States ground combat forces behind the battle line by means of a parachute;

Whereas the United States experiment of airborne infantry attack began on June 25, 1940, when the Army Parachute Test Platoon was first authorized by the Department of War, and was launched when 48 volunteers began training in July 1940;

Whereas the success of the Parachute Test Platoon in the days immediately preceding the entry of the United States into World War II led to the formation of a formidable force of airborne units that have served with distinction and have had repeated success in armed hostilities;

Whereas among those airborne units are the former 11th, 13th, and 17th Airborne Divisions, the venerable 82nd Airborne Division, the versatile 101st Airborne Division (Air Assault), and the airborne regiments and battalions (some as components of those divisions, some as separate units) that achieved distinction as the elite 75th Ranger Regiment, the 173rd Airborne Brigade, the 187th Infantry (Airborne) Regiment, the 503rd, 507th, 508th, 517th, 541st, and 542nd Parachute Infantry Regiments, the 88th Glider Infantry Regiment, the 509th, 551st, and 555th Parachute Infantry Battalions, and the 550th Airborne Infantry Battalion;

Whereas the achievements of the airborne forces during World War II prompted the evolution of those forces into a diversified force of parachute and air assault units that, over the years, have fought in Korea, Vietnam, Grenada, Panama, the Persian Gulf region, and Somalia, and have engaged in peacekeeping operations in Lebanon, the Sinai Peninsula, the Dominican Republic, Haiti, Bosnia, and Kosovo;

Whereas the modern-day airborne force that has evolved from those World War II beginnings is an agile, powerful force that, in large part, is composed of the 82nd Airborne Division, the 101st Airborne Division (Air Assault), and the 75th Ranger Regiment;

Whereas those units, together with additional units, comprise the quick reaction force of the Army's XVIII Airborne Corps when not operating separately under a regional combatant commander;

Whereas that modern-day airborne force also includes other elite forces composed entirely of airborne trained and qualified special operations warriors, including Army Special Forces, Marine Corps Reconnaissance units, Navy SEALs, and Air Force combat control teams, all or most of which comprise the forces of the United States Special Operations Command;

Whereas in the aftermath of the terrorist attacks on the United States on September 11, 2001, the 75th Ranger Regiment, special forces units, and units of the 82nd Airborne Division and the 101st Airborne Division (Air Assault), together with other units of the Armed Forces, have been prosecuting the war against terrorism by carrying out combat operations in Afghanistan, training operations in the Philippines, and other operations elsewhere;

Whereas in the aftermath of the President's announcement of Operation Iraqi Freedom in March 2003, the 75th Ranger Regiment, special forces units, and units of the 82nd Airborne Division, the 101st Airborne Division (Air Assault), and the 173rd Airborne Brigade, together with other units of the Armed Forces, have been prosecuting the war against terrorism, carrying out combat operations, conducting civil affair missions, and assisting in establishing democracy in Iraq;

Whereas the airborne forces are and will continue to be at the ready and the forefront until the Global War on Terrorism is concluded;

Whereas of the members and former members of the United States combat airborne forces, all have achieved distinction by earning the right to wear the airborne's ''Silver Wings of Courage'', thousands have achieved the distinction of making combat jumps, 69 have earned the Medal of Honor, and hundreds have earned the Distinguished-Service Cross, Silver Star, or other decorations and awards for displays of such traits as heroism, gallantry, intrepidity, and valor;

Whereas the members and former members of the United States combat airborne forces are members of a proud and honorable fraternity of the profession of arms that is made exclusive by those distinctions which, together with their special skills and achievements, distinguish them as intrepid combat parachutists, special operation forces, and (in former days) glider troops; and

Whereas the history and achievements of the members and former members of the airborne forces of the United States Armed Forces warrant special expressions of the gratitude of the American people as the airborne community celebrates August 16, 2007 as the 67th anniversary of the first official jump by the Army Parachute Test Platoon: Now, therefore, be it

Resolved, That the Senate—

(1) designates August 16, 2007 as ''National Airborne Day''; and

(2) calls on the people of the United States to observe ''National Airborne Day'' with appropriate programs, ceremonies, and activities.

NATIONAL MARINA DAY

The resolution (S. Res. 173) designating August 11, 2007, as ''National

Marina Day,'' was considered and agreed to. The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 173

Whereas the citizens of the United States highly value recreation time and their ability to access 1 of the greatest natural resources of the United States, its waterways;

Whereas, in 1928, the word ''marina'' was used for the first time by the National Association of Engine and Boat Manufacturers to define a recreational boating facility;

Whereas the United States is home to over 12,000 recreational boating facilities that contribute substantially to their local communities by providing safe, reliable gateways to boating for members of their communities and welcomed guests;

Whereas marinas of the United States also serve as stewards of the environment, actively seeking to protect their surrounding waterways not only for the enjoyment of the current generation, but for generations to come; and

Whereas marinas of the United States also provide their communities and visitors a place where friends and families, united by a passion for the water, can come together for recreation, rest, and relaxation: Now, therefore, be it

Resolved, That the Senate—

(1) commemorates the marinas of the United States for providing environmentally friendly gateways to boating for the citizens of, and the visitors to the United States; and

(2) designates August 11, 2007, as the sixth annual ''National Marina Day'' in order—

(A) to honor the marinas of the United States for their many contributions to their local communities; and

(B) to make citizens, policy makers, elected officials, and employees more aware of the overall contributions marinas make to their well-being.

CAMPUS FIRE SAFETY MONTH

The resolution (S. Res. 105) designating September 2007 as ''Campus Fire Safety Month,'' was considered and agreed to. The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 105

Whereas tragic fires in student housing in Nebraska, Missouri, Oklahoma, and Pennsylvania have cut short the lives of college students in the United States;

Whereas, since January 2000, at least 99 people, including students, parents, and children, have died in campus-related fires;

Whereas more than 75 percent of those deaths occurred in off-campus occupancies;

Whereas a majority of the students in the United States live in off-campus occupancies;

Whereas a number of fatal fires have occurred in buildings in which the fire safety systems have been compromised or disabled by the occupants;

Whereas automatic fire alarm systems provide the early warning of a fire that is necessary for occupants and the fire department to take appropriate action;

Whereas automatic fire sprinkler systems are a highly effective method for controlling or extinguishing a fire in its early stages and protecting the lives of the building's occupants;

Whereas many students are living in off-campus occupancies, sorority and fraternity housing, and residence halls that are not adequately protected with automatic fire alarm systems and automatic fire sprinkler systems;

Whereas fire safety education is an effective method of reducing the occurrence of fires and the resulting loss of life and property damage;

Whereas students are not routinely receiving effective fire safety education throughout their entire college careers;

Whereas it is vital to educate future generations in the United States about the importance of fire safety to help ensure the safety of young people during their college years and beyond; and

Whereas by educating a generation of adults about fire safety, future loss of life from fires may be significantly reduced: Now, therefore, be it

Resolved, That the Senate—

(1) designates September 2007 as ''Campus Fire Safety Month''; and

(2) encourages administrators of institutions of higher education and municipalities—

(A) to provide educational programs about fire safety to all students during ''Campus Fire Safety Month'' and throughout the school year;

(B) to evaluate the level of fire safety being provided in both on- and off-campus student housing; and

(C) to take the necessary steps to ensure fire-safe living environments through fire safety education, installation of fire suppression and detection systems, and the development and enforcement of applicable codes relating to fire safety.

NATIONAL FIRST RESPONDER APPRECIATION DAY

The resolution (S. Res. 215) designating September 25, 2007, as ''National First Responder Appreciation Day,'' was considered and agreed to. The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 215

Whereas millions of Americans have benefited from the courageous service of first responders across the Nation;

Whereas the police, fire, emergency medical service, and public health personnel (commonly known as ''first responders'') work devotedly and selflessly on behalf of the people of this Nation, regardless of the peril or hazard to themselves;

Whereas in emergency situations, first responders carry out the critical role of protecting and ensuring public safety;

Whereas the men and women who bravely serve as first responders have found themselves on the front lines of homeland defense in the war against terrorism;

Whereas first responders are called upon in the event of a natural disaster, such as the tornadoes in Florida and the blizzard in Colorado in December 2006, the wildfires in the West in 2007, and the flooding in the Northeast in April 2007;

Whereas the critical role of first responders was witnessed in the aftermath of the mass shooting at the Virginia Polytechnic Institute and State University, when the collaborative effort of police officers, firefighters, and emergency medical technicians to secure the campus, rescue students from danger, treat the injured, and transport victims to local hospitals undoubtedly saved the lives of many students and faculty;

Whereas 670,000 police officers, 1,100,000 firefighters, and 891,000 emergency medical technicians risk their lives every day to make our communities safe;

Whereas these 670,000 sworn police officers from Federal, State, tribal, city, and county law enforcement agencies protect lives and property, detect and prevent crimes, uphold the law, and ensure justice;

Whereas these 1,100,000 firefighters, both volunteer and career, provide fire suppression, emergency medical services, search and rescue, hazardous materials response, response to terrorism, and critical fire prevention and safety education;

Whereas the 891,000 emergency medical professionals in the United States respond to and treat a variety of life-threatening emergencies, from cardiac and respiratory arrest to traumatic injuries;

Whereas these 2,661,000 ''first responders'' make personal sacrifices to protect our communities, as was witnessed on September 11, 2001, and in the aftermath of Hurricane Katrina, and as is witnessed every day in cities and towns across America;

Whereas according to the National Law Enforcement Officers Memorial Fund, a total of 1,649 law enforcement officers died in the line of duty during the past 10 years, an average of 1 death every 53 hours or 165 per year, and 145 law enforcement officers were killed in 2006;

Whereas, according to the United States Fire Administration, from 1996 through 2005 over 1500 firefighters were killed in the line of duty, and tens of thousands were injured;

Whereas 4 in 5 medics are injured on the job, more than 1 in 2 (52 percent) have been assaulted by a patient and 1 in 2 (50 percent) have been exposed to an infectious disease, and emergency medical service personnel in the United States have an estimated fatality rate of 12.7 per 100,000 workers, more than twice the national average;

Whereas most emergency medical service personnel deaths in the line of duty occur in ambulance accidents;

Whereas thousands of first responders have made the ultimate sacrifice;

Whereas, in the aftermath of the terrorist attacks of September 11, 2001, America's firefighters, law enforcement officers, and emergency medical workers were universally recognized for the sacrifices they made on that tragic day, and should be honored each year as these tragic events are remembered;

Whereas there currently exists no national day to honor the brave men and women of the first responder community, who give so much of themselves for the sake of others; and

Whereas these men and women by their patriotic service and their dedicated efforts have earned the gratitude of Congress: Now, therefore, be it

Resolved, That the Senate designates September 25, 2007, as ''National First Responder Appreciation Day'' to honor and celebrate the contributions and sacrifices made by all first responders in the United States.

MEASURE READ THE FIRST TIME—H.R. 2366

Ms. KLOBUCHAR. Mr. President, I understand that H.R. 2366 has been received from the House and is at the desk. I ask for its first reading.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 2366) to reauthorize the veterans entrepreneurial development programs

of the Small Business Administration, and for other purposes.

Ms. KLOBUCHAR. Mr. President, I ask for its second reading and object to my own request.

The PRESIDING OFFICER. Objection is heard. The bill will be read for the second time on the next legislative day.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider Executive Calendar No. 107; that the nomination be confirmed, the motion to reconsider be laid on the table, the President be immediately notified of the Senate's action, and the Senate then return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nomination considered and confirmed is as follows:

DEPARTMENT OF TRANSPORTATION

David James Gribbin IV, of Virginia, to be General Counsel of the Department of Transportation.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will return to legislative session.

The Senator from Nevada.

COMPREHENSIVE IMMIGRATION REFORM ACT OF 2007—MOTION TO PROCEED

CLOTURE MOTION

Mr. REID. Mr. President, if I could do a little bit of business, and I will yield to the distinguished Senator from Delaware.

I was going to ask unanimous consent that the Senate proceed to the consideration of S. 1639, the immigration legislation, at a time to be determined by the majority leader following consultation with the Republican leader. However, I am advised there would be an objection from the Republican side, so I am not going to ask for that unanimous consent.

Therefore, I move to proceed to Calendar No. 208, S. 1639, and I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the motion to proceed to Calendar No. 208, S. 1639, Immigration.

Ted Kennedy, Russell D. Feingold, Daniel K. Inouye, Tom Carper, Sheldon Whitehouse, Pat Leahy, Richard J. Durbin, Benjamin L. Cardin, Ken Salazar, Frank R. Lautenberg, Joe Lieberman, Dianne Feinstein, John Kerry, Charles Schumer, Ben Nelson, B.A. Mikulski.

Mr. REID. I now ask unanimous consent that the mandatory quorum required under rule XXII be waived, and I therefore withdraw the motion.

The PRESIDING OFFICER. Without objection, it is so ordered.

CAFE STANDARDS

Mr. CARPER. Mr. President, today we have been discussing in the halls and corridors and rooms not far from where I many speaking what changes we should make with respect to fuel efficiency standards for cars, trucks, and vans. There are a lot of aspects of this bill that are important. Few are as important as what we are going to do with respect to fuel efficiency standards for cars, trucks, and vans, not just for the next couple of years but probably for the next 15 years or so.

I want to begin my remarks by saying how important I believe manufacturing is. We are neighbors. Both Delaware and Pennsylvania have a rich tradition of manufacturing. It is an important part of our economy and continues to be. If we are going to be successful as a nation in the 21st century, it will be because we have retained a vibrant manufacturing base, and we are in danger of seeing that slip away. Part of the manufacturing base in my State has been, for 60 years or so, a vibrant automobile manufacturing base. We have two auto assembly plants in northern Delaware. Outside of Wilmington is a GM plant where we manufacture the Pontiac Solstices and Saturn Sky. We actually export some of those Saturn Skys to Europe, and we are about to start exporting Saturn Skys to South Korea, something we are excited about.

In Newcastle County south of Newark along the Maryland line is a Chrysler assembly plant where they used to make tanks during World War II. Today they make all the Dodge Durangos and all the Chrysler Aspens in the world.

On a per capita basis, we build probably as many cars trucks, and vans per capita in Delaware as any other State. We are not a big State, but auto manufacturing remains an important part of our economic base.

With that as a background, I want to mention the approaching debate on CAFE, fuel efficiency standards for our vehicular fleet. There are three goals I see. The first goal for me—and I hope for us—is to reduce the growth of our dependence on foreign oil, then stop the growth of our dependence on foreign oil, and then reduce our dependence on foreign oil. Over 60 percent of the oil we use comes from sources beyond our borders. We have a trade deficit of about $650 billion. Fully one-third of that is attributable to our dependence on foreign oil. We need to reduce that dependence.

I was in Iraq the last weekend. We have over 150,000 troops there exposed and in danger as I speak. Every time I fill up the tank of my car with gas, I am convinced some of the money I spend in buying that gas goes to other parts around the world where people take our money, and I fear they use it to hurt us. We ought to be smarter than that. One of the things we clearly need to do is to reduce our growing reliance on foreign oil and eventually, sooner than later, reduce that reliance.

The second goal for me is to reduce harmful emissions, the stuff we put up in the air. Whether it is nitrogen oxide, carbon monoxide, carbon dioxide, which is the greenhouse gas that leads to global warming, those emissions come out of cars, trucks, and vans. For me, goal No. 2 is to reduce the incidence of those emissions. It will improve our health and reduce the threat we face from climate change from greenhouse gases.

The third goal for me and in the context of this legislation is to accomplish goal No. 1, reduce our reliance on foreign oil; accomplish goal No. 2, reduce the emission of bad stuff into the air; and to do that by not further disadvantaging the domestic auto industry in our State. So those are the three goals I have for us.

I want to take a moment and look back to 1975. In 1975, the average mileage for cars, trucks, and vans was about 14 miles per gallon. For several years leading up to 1975, there was a prolonged debate on whether we should require more fuel-efficient vehicles. I have asked my staff to see if we can find a little bit of what was being said back in the mid-1970s as we debated whether to raise over a 10-year period fuel efficiency standards from 14 miles per gallon to 27.5 miles per gallon for cars and roughly 20 miles per gallon for light trucks and SUVs.

This is a comment from one of the senior officials at General Motors:

If this proposal becomes law—

The increase over 10 years of CAFE standards to 27.5 miles per gallon—

the largest car the industry will be selling in any volume at all will probably be smaller, lighter, and less powerful than today's compact Chevy Nova.

The Presiding Officer and I are old enough to remember what a Chevy Nova looked like. I want to tell you, when we were driving around the streets of Washington, DC, or Delaware or Colorado, most of the vehicles out there were a lot bigger than a compact Chevy Nova, and they were in 1975 as well.

Here is another comment from the debate of the mid-1970s on raising

CAFE standards. This is from a senior official at Chrysler in 1974.

In effect this bill would outlaw a number of engine lines and car models, including most full size sedans and station wagons. It would restrict the industry to producing subcompact-size cars, or even smaller ones, within 5 years.

Five years from this was 1979. In 1979, we were still making full size sedans and station wagons. We were still making them in 1985. We are still making them today. The idea that we would be producing subcompact-size cars within 5 years or even 25 years, it never happened. Those are a couple of comments that were made in 1974 and 1975, as we took up the debate.

The Congress decided in 1975 to go ahead and pass more stringent fuel efficiency standards for cars, trucks, and vans. Over a 10-year period we ramped up so that by 1985, the car fleet was expected to achieve on balance 27.5 miles per gallon, and for light trucks and SUVs about 20 miles per gallon.

I put up these quotes because a good deal of what we have heard from the auto industry in recent years, as we have debated whether to return to raising fuel efficiency standards, actually sounds a lot like what we heard in 1974 and 1975. You could almost take away the years that are at the bottom of each of these quotes, and it would be deja vu all over again.

For the past 22 years since we raised CAFE standards, what we have heard mostly from the domestic auto industry is, if you raise fuel efficiency standards further, four things will happen: One, the big three—GM, Chrysler, Ford—will lose market share, will lose money. They will close plants. They will cut or eliminate jobs. We have heard that for pretty much the last 22 years, and for the last 22 years we have not raised fuel efficiency standards.

This is a chart where we can see the market share for each company. The orange share is Chrysler. The green is Ford. The blue is GM. This is 1985. Here we have 20 years later, 2005. Let me just read it. From Chrysler to DiamlerChrysler, when you put that together, you get about 13.5 percent market share. In effect, Chrysler's market share has actually dropped without any change in fuel efficiency standards since 1985. Their market share has dropped from 1985, if we actually backed out Diamler.

From 1985 to 2005, Ford's market share dropped from 22 percent of sales to almost 17 percent. That is without any change in CAFE. Over at GM, we see market share dropped most precipitously from about 41.5 percent of the market in 1958 to 26 percent in 2005.

I would say these numbers are actually lower now. Ford is no longer at 17 percent of market share. Regrettably, GM is not at 26 percent market share. The market share didn't drop because of increases in CAFE.

The plants were not closed because of increases in CAFE. Hundreds of thousands of people did not lose their jobs because of increases in CAFE. These companies, last year, collectively, lost in the North American automotive operations—Chrysler, GM, Ford—lost probably, collectively, about $15 billion. That was not because of increases in CAFE, because we have not increased fuel-efficient standards for 22 years.

We have had a lot of visits in my office in the last several weeks. I am sure the Presiding Officer has had folks come to see him from the auto manufacturers, probably domestic and foreign. One CEO said to me, in a visit last week, his company would have to—if we adopted the measure that has been reported out of the Commerce Committee, which is the underlying language on CAFE in the bill before us this week—but if we adopted that, his company would have to produce cars that got 50, 52 miles per gallon.

I said: Well, let's think about that. Let's talk about that. You will recall the measure before us today says that by 2020, overall, NHTSA—an arm of the Department of Transportation—would have to have overseen an increase in the fuel efficiency standards of cars, trucks, and vans; that, overall, cars, trucks, and vans put together would, beginning by the year 2020, have 35 miles per gallon.

What most people do not understand is that trucks, light trucks, and SUVs do not have to get 35 miles per gallon under the language in the bill by 2020. But overall, when you combine cars, trucks, vans, and SUVs from the different companies that sell cars in this country, they have to get 35 miles per gallon.

Now, let's take a look at a chart that lists a bunch of auto companies. It is a little hard to follow, but I ask you all to bear with me. The effect of the legislation that is before us, the underlying bill, would mean—DaimlerChrysler builds more light trucks, SUVs. They are a truck-heavy company, as opposed to, we will say, Volkswagen. Volkswagen builds mostly cars. They do not build much in the way of light trucks or SUVs and sell that in this country.

But the car companies, the truck companies that tend to build the trucks, light trucks, and SUVs, they would end up with a requirement—between now and 2020—a requirement by NHTSA to have a fuel economy of something less than 35 miles per gallon. For the vehicle makers that are more heavily on the car side, as opposed to the light trucks and SUVs, they are going to expect to have a fuel efficiency standard north of, higher than 35 miles per gallon.

In this case, Volkswagen, if they continue to have the mix they have of vehicles in 2005, they would have to have in their mix of product about 38, 39 miles per gallon. So this is not a monolithic number. It is not 35 miles per gallon for trucks, 35 miles per gallon for cars. It is not 35 miles per gallon for each of these auto manufacturers.

But the idea is, when you put them all together, at the end of the day, we want, in 2020, for NHTSA to have presided over a process that gets our fleet of vehicles sold in this country, in 2020, to 35 miles per gallon.

Now, for years we have heard our friends from Detroit say: Protect us in this way. Protect us so we don't have foreign competitors—who build a lot of energy-efficient cars—don't let them use the high miles per gallon they get from their fuel-efficient cars to allow them to come in and sell a whole bunch of trucks, light trucks, SUVs, and minivans that are not energy efficient.

Meanwhile, companies such as DaimlerChrysler and GM and Ford, which are selling a lot of trucks, if we are not careful, will end up with a situation where other companies that are listed on this chart would be able to sell a whole lot of trucks, a whole lot of minivans, a whole lot of SUVs that are energy inefficient. Our automakers could not sell anymore. They would be constrained because of the requirements in legislation.

So here is what we have tried to come up with in response to the concerns by our automakers. We have come up with a plan that says to NHTSA: We do not care who is making real small cars, but we want you to set the same fuel efficiency standards for real small cars, regardless of who is making them. For midsized cars, we want you to set the same fuel efficiency standard targets for midsized cars, regardless of what companies make them. For larger cars, heavier cars, bigger cars, the same fuel efficiency standard would apply for that category of vehicles.

For pickup trucks, regardless of who is making them, light trucks, the same standard would have to apply, whether it is Nissan that is making them, Honda, or DaimlerChrysler. For a small truck, they all have to be producing vehicles that get the same fuel economy standards. For larger SUVs, the largest SUVs, whoever is making them—I don't care if it is Toyota, Nissan, Chrysler, GM—NHTSA would be promulgating a fuel efficiency standard that would be the same for all manufacturers.

Now, not everybody likes that. I suspect some of the folks who have been making energy-efficient cars for some time believe they are not getting the kind of credit they should get for their early work. But this is a proposal that is in the underlying bill, and it is in response to the domestic auto manufacturers who have said: Do not put us in a situation where the only folks who can sell light trucks and SUVs of any

size are folks who happen to be building vehicles in other countries. So we tried to be responsive to their proposal.

Let's go back to this chart I have in the Chamber, if we could. I wish to return to the conversation I had with the CEO of one of the companies who came to see us. We will call it company X. Company X plans, in about 5 years, to be selling in this country a mix of products that would be 60 percent truck, that would be 40 percent cars. By trucks, I mean light trucks, SUVs, minivans. But that is their goal in 5 years: 40 percent cars, 60 percent trucks.

If we assume for a moment that the fuel average requirement, the minimum average requirement for light trucks and SUVs is going to be 30 miles per gallon—that is probably pretty close to what it is going to be; it may be about what is doable—at the 60-percent market concentration for the trucks: 60 percent times 30 miles per gallon adds up to 18 miles per gallon.

If another 40 percent of what they build and sell is cars, the question is: What miles per gallon would they have to achieve for their car fleet, collectively—small, mid, large—what would they have to achieve to roughly get to 35 miles per gallon overall for their fleet average? The answer is: 42—not 52, not 62 miles per gallon. But this is what they would have to be able to deliver in mileage per gallon in 2020 from their car fleet in order to come up with an overall fleet average for this company of about 35 miles per gallon.

Now the question is, is it realistic in 13 years for a company to be making cars that get 42 miles per gallon?

Well, I was at the Detroit Auto Show back in January. One of the coolest cars I saw was a Chevrolet. It was a Chevrolet Volt, a flex-fuel, plug-in hybrid vehicle that, hopefully, Chevrolet is going to be making by the early part of the next decade. You plug it in, charge the battery, and you are off.

Let me say, the leader is on the floor. I say to the leader, I do not wish to get in your way, but if you want to jump in here, jump in.

The PRESIDING OFFICER (Mr. SALAZAR). The Senator from Nevada.

Mr. REID. Mr. President, I have been listening to the Senator speak. I wish to say one thing. I participated in an event today where we had a car there that was a hybrid. Gee, it was fun. There were two vehicles there, a Prius and a Ford. One of those—they would both get basically the same mileage—but the man there who was promoting these batteries, this past week, drove 177 miles on 1 gallon of gasoline. That is the future. That is the future of our country, that we will be able to have these hybrids driving across the country, pulling into a motel and plugging it in. There will just be a cord, like an extension cord.

I wanted to say one thing. I want to comment on the Senator's advocacy. The people of Delaware—I say this without any hype at all—are so fortunate to have someone who is so into legislation. I don't know of another Senator, in looking at an issue, who understands it so thoroughly. I say that sometimes I wish you didn't know it so thoroughly, because it doesn't allow me to have any wiggle room at all. But I say that without any reservation. I am so admiring of the Senator's talents to legislate. I am very partial to you because you and I came here together in 1982 as freshmen Members of the House of Representatives. But the people of Delaware got a well-trained legislator when you came to the Senate. Your experience in the State, as a Statewide officeholder, a Member of the House of Representatives, a Governor, a Senator—you have not only had the experience, but you still have the tenacity and the will to be a good legislator, and the people of Delaware are very fortunate, but so are we as a country.

I would ask my distinguished friend, there are a few closing matters. Could you do those when you complete your statement?

Mr. CARPER. I will.

Mr. President, I was talking about the visit of last week with the CEO of one of our major three automakers. The point I was trying to make is the automakers don't have to come up with cars that get 52 miles per gallon or 50 miles per gallon, but if they have a fleet of 60 percent trucks and 40 percent cars in 2020, they are going to have to do better, and better is 42 miles per gallon.

Our leader, Senator REID, was talking about an event here today where some vehicles were on display. I think they were jerry rigged—maybe it was Ford Escape and some other vehicles, maybe Priuses—in order to get very high mileage, I think he said 170 miles per gallon. We don't need cars that get 170 miles per gallon by 2020 to make this standard of roughly 35 miles per gallon for the fleet. We don't need cars that get 50 miles per gallon.

But in this case, Company X—which is a real company, it turns out—is working toward 42 miles per gallon and they would meet the expected requirements that would be set for them.

I said to my visitor last week, the CEO who was visiting me, You have an obligation to your shareholders and you have an obligation to your employees to try to get the best deal out of this that you guys can be proud of and maximize your profits.

I said: As a Senator who cares about the economic development and job creation in my State, I want you to be profitable. I want you to be successful.

So I feel some obligation too. But I went on to add that we have an obligation here, as does the Presiding Officer, my friend from Pennsylvania, who is going to speak in a minute, we have an obligation that goes beyond that which our CEO feels, or other CEOs feel. We have an obligation to make sure we do reduce our reliance on foreign oil. The car companies, in all honesty, don't have that obligation. We have an obligation to make sure the air we breathe is cleaner. We have an obligation to make sure the threat of global warming is diminished, not increased. They don't have that requirement, as we do. That is our job.

It is not enough for us, though, to say to the car companies: You have to eat your spinach. You have to go out there and make the tough decisions all by yourself to raise fuel efficiency standards. I think we have an obligation in the Federal Government and in other levels of Government as well to help them. It shouldn't be them doing this all by themselves; we have an obligation to help them. I mention maybe four ways where we are trying to help them in the legislation that is before us today and that we will be voting on tomorrow and during the next couple of days.

With respect to making more energy efficient cars, here are some ways we can help the industry. One is through basic research and development investments. If we go back a few years, we have invested a lot of money in fuel cell technologies, as my colleagues know. In the legislation before us, the underlying bill on CAFE standards, we authorized the expenditure of $50 million a year over the next 5 years for new battery technology, for a new generation of lithium batteries, so the kind of cars the majority leader was talking about a few minutes ago, so we can actually build them, actually build the Chevrolet Volt. The Chevrolet Volt, the car I was talking about earlier, the coolest car at the auto show, a flex-fuel, plug-in hybrid, you plug it in, charge the battery at night from your house, go out the next day, drive maybe 30, 40 miles before you have to recharge again. If you get to work before that time, plug it in at work. In the meantime, when you put on your brakes, it is a traditional hybrid. You put on your brakes and recharge the battery.

But in the Chevrolet Volt, it actually carries with it an auxiliary power unit. The auxiliary power unit doesn't run the car, it charges the battery. It can be fuel cell powered, it could be biofuels diesel, it could be an ethanol internal combustion engine recharging the battery, and the battery running the wheels.

I saw a headline in the local paper in my State a month ago. It was a picture of one of the top folks at GM standing alongside the Chevrolet Volt and talking about this vehicle, which they hope to have on the road by the early part of the next decade, to get over 100 miles per gallon. That is not the entire fleet, it is one vehicle, but that is 100 miles

per gallon. If we can do that, 100 miles per gallon or even 80 or 90 or 70 for the Chevrolet Volt and the kind of things our majority leader saw today, the fuel efficiencies there, if it is even a half or a third of what he saw, the idea of getting 35 miles per gallon for a total fleet in 2020 is not a pipedream, it is realistic. I am convinced that to the extent our auto manufacturers are positioned to build more energy efficient cars, to at least have some of them, they make themselves more competitive in the world environment.

But I was talking about the ways we can help, the Federal Government can help our industry to meet these higher standards. One, Federal investments in basic R&D. Whether it is for fuel cells several years ago or whether it is new battery technology, we are putting in about $40 million this year. I hope next year it will be 50 and the next 5 years after that at $50 million a year.

Second, another way we can help is to use the Federal Government's purchasing power to help commercialize these new technologies. We are going to be building and putting out on the road a new generation, next-generation hybrid Durango and a next-generation hybrid Chrysler Aspen. Currently they are internal combustion engines. They don't get 20 miles per gallon. They are high teens for fuel economy. But starting sometime by the middle of next year we will have on the road hybrid Durangos and hybrid Chrysler Aspens, the fuel economy of which will be increased by 40 percent over current levels—a 40-percent increase. I want to see—and I know others of my colleagues want to see—when the Federal Government goes out and buys—and we buy a lot of vehicles every year on the civilian side and on the defense side—I want to have included in the legislation we pass something that says some small percentage, some modest percentage of the vehicles we are going to be buying, anyway, should be invested in highly energy efficient new technology cars or trucks or vans, and their reaction to have the opportunity to do that in the context of the underlying legislation.

We are going to take up the Defense authorization bill in a couple of weeks and we will have an opportunity to do the same thing in terms of using the Government's purchasing power on the military side to commercialize these more energy efficient technologies in the cars, trucks, and vans that the military buys.

A third way the Federal Government can help the auto companies meet these more stringent standards, in addition to investments in R&D, in addition to the vehicular purchases of the Government to commercialize technologies, is with respect to tax credits. In the Energy bill adopted in 2005, we have energy tax credits that say if you buy a highly energy-efficient hybrid vehicle, you get a tax credit of $300 to almost $3,500 for your purchase. There is a similar provision in the same bill that says to folks who buy highly energy-efficient, diesel-powered vehicles with very low emissions that they can get the same kind of tax breaks, $300 to roughly $3,500.

As it turns out, almost all of the hybrids, incentivized by those tax credits, are made in other countries. So we have tax incentives to encourage people to buy hybrids from other countries. Shame on us. Hopefully, in the next couple years we will put American hybrids on the road and incentivize people to buy American-made hybrids, such as the Durango and the Chrysler Aspen that will be produced less than a year from now. No American manufacturer is making today, nor will they next year, diesel-powered vehicles with emission levels low enough to qualify under the 2005 legislation.

One of the changes that has been agreed to and is in the Finance Committee's package, Mr. President—and you are a member of the Finance Committee—one of the provisions the committee adopted in the finance language that accompanies the Energy bill allows the low-emission, highly energy-efficient Chrysler products that are being manufactured and sold in this country this year, for 1 year—that will be next year—their products will qualify not for the full tax credit but for about three-quarters of the tax credit just for 1 year. After that, they have to be very low emissions starting in 2009, which is as it should be.

That is something we can do to incentivize folks to buy vehicles made in this country that have low emissions and are highly efficient. The more energy efficient, the bigger the tax credit.

The fourth and last point we can do in the way of helping the industry is, there is a flex-fuel mandate that says some of the vehicles we build in this country have to be capable of running on ethanol or some kind of fuel other than traditional petroleum. However, as my colleagues know, today, if you drive around this country and have one of these vehicles that can run on ethanol, it is hard to find a pump. It is hard to find a pump in Colorado, Pennsylvania, Delaware, or any other State, except Minnesota where I think they have 400 gas stations that actually have ethanol. But it is hard to find a fueling station where we can actually fill up with something other than gasoline.

There needs to be included in this legislation something that mandates the oil companies, just as we did 20, 25, 30 years ago on unleaded gas, so the people who have vehicles that are capable of running on renewable fuel can actually find a place to fill up.

Similarly with hydrogen, as we move to the point of building more hydrogen-powered vehicles. It doesn't do us any good if we don't have hydrogen fueling stations in this country. The Federal Government has an obligation to make sure that fuel is available too.

Those are four actions the Government can do, and I hope will do, in the context of this legislation before us: One, investments in R&D, in this case new battery technology; two, use Federal Government purchasing power to help companies to commercialize this new technology; three, use tax credits to incentivize people to buy the vehicles once they are produced, more energy-efficient vehicles produced; and, finally, hydrogen infrastructure so people who buy flex-fuel vehicles can find the product, the stations where they can fill up.

The last point I want to make, and it goes back to my conversation with my friend who is a CEO of one of these domestic auto companies. I mentioned he has an obligation to his shareholders and employees. I am sure he cares about the quality of air. I am sure he cares about our dependence on foreign oil. That is not his day job. That is our day job, so we should focus on it as we debate these issues.

My colleague from Colorado who is presiding, and my colleague from Pennsylvania who is waiting patiently for me to wrap up—and I have been to funerals for people from our State who have died in Iraq or Afghanistan. We have tried to console family members. I was in Iraq over the weekend. We have 160,000 men and women there today. They are in harm's way as I speak. We are so dependent on troubled parts of the world for oil, unstable parts of the world for oil, where we have men and women at risk, where we lost lives yesterday and probably lost lives today and probably will tomorrow.

I think of a member of my staff, Sean Barney, who worked with me since 2000 when I ran for the Senate. Sean decided he wanted to go into the Marines. He joined the Marines and went through basic training. This is a guy with an undergraduate degree from Swarthmore and a graduate degree from Columbia who decided he wanted to be a marine.

A couple years ago, he went to basic training and became a PFC and ended up in Anbar Province, in the streets of Falluja, shot by a sniper in the neck which severed his carotid artery. He, by all rights, should be dead. He lived, miraculously. He has some degree of disability in his right arm, right shoulder, right hand, but he is alive.

When I have visited in Iraq, I had a chance to visit with a bunch of National Guard troops. We have them over there from Colorado and Pennsylvania too—folks from the 198th Signal Battalion. I was their commander in chief when I was Governor for 8 years. I have a special affection and devotion

to them. I wanted to make sure they come home safely.

When I got home early Monday morning, I went to a sendoff for 150 members of one of our military police units. They were heading on to Fort Dix. They are at Fort Dix today and then on to Iraq.

I guess the point I am making is, while we want to make sure our domestic auto industry is successful and is profitable, and we have a good, strong auto manufacturing base, I want to make sure we stop sending men and women around the world to these troubled spots that have large amounts of oil deposits. And we are concerned about that situation. That is something of which we need to be mindful. For me, it figures into this equation and this debate.

I close by saying, we will have a chance to debate these issues tomorrow morning, and we will have a chance to vote on the language in the underlying bill, maybe with a change from an amendment Senator STEVENS and I have offered and maybe will be adopted, or maybe with the more far-reaching change negotiated and developed by our colleagues, Senators PRYOR, LEVIN, STABENOW, and BOND. At the end of the day, though, when we pass this legislation and send it on to the House, it is so important that it moves in a meaningful way toward reducing our dependence on foreign oil; that in a meaningful way it reduces the emissions of harmful matter into our air; and in a real way it also enhances and doesn't undermine the competitiveness of our domestic auto industry.

It is not easy to do all three of those goals, but those are the three things we need to do. If we can send from the Senate to the House at the end of this week or early next week legislation that is actually faithful to those three goals, we will have done our work and done good work.

Tomorrow and the next day will be the test to see if we can measure up to those standards. I hope we can.

I apologize to my colleague from Pennsylvania for going on as long as I have. I thank him for his patience.

Mr. President, I yield the floor.

ENERGY EFFICIENT APPLIANCES

Mr. CASEY. Mr. President, first of all, I thank Senator CARPER for his presentation and his wisdom. I appreciate that.

I rise tonight very briefly to express hope that is contained in an amendment I have. I know we have an agreement in place, and this is for the purpose of talking about this amendment as opposed to formally speaking on it.

This is a very simple amendment I have. It is an idea I had based on some of my work in State government. It is simply to do this, to offer a proposal that allows low-income families to purchase home appliances which are energy efficient and that will allow them to not only heat their homes or wash their clothes or use other appliances but to do it in an energy-efficient way.

It is based upon my experience in State government, as a State treasurer, where we started a program in Pennsylvania called Keystone Help, back in the last couple of years. Right now, that program has helped people in 60 out of our 67 counties. It is simple.

What the Federal version of this would do is to dedicate $4 million over 5 years. It is not a lot of money, and it is paid for by the current $750-million-per-year authorization for weatherization programs in the Federal Government. So it is just $4 million out of the $750 million that is already in the bill and already paid for.

These funds would be used to help low-income families purchase Energy Star certified appliances. This means they have been certified by the Department of Energy for their energy-efficient qualities.

Here is what the appliances are that would be allowed to be paid for out of the money applied in this program: refrigerators, water heaters, washers and dryers, home heating systems and air-conditioning—basic necessities of life in America today.

The amendment would also require that the families who receive these grants out of the $4 million of grant money over 5 years provide a 5-percent match that they would have to come up with. I recognize for a lot of families even a 5-percent match is a lot of money. An extra $50 or so, depending on the amount of money, would be significant. But I think it is important that families have that requirement.

There are some families who will not be able to meet that, so we allow charitable assistance or State and local initiatives to come up with the 5 percent.

But I wish to make one point among several. First of all, this is not a new program in the sense that it requires a big expenditure of money or requires administrative work that cannot already be done within the existing weatherization program. The grants in this amendment are intended to work as a complement to and work within the current weatherization program. The amendment will not increase administrative costs and it will not require new expenditures of dollars. It is within the $750 million already allocated for weatherization.

I believe this amendment, and the features of this program called for by this amendment, helps families. It helps our low-income families pay for Energy Star certified appliances for their homes. It helps the environment. It is good all around.

We already have a program that helps these same families properly insulate and weatherize their homes. What this does is take the next step. We should take that next step to help low-income families use less energy for the basic necessities of heating and cooling their homes as well as laundry and some other basic necessities.

I hope the managers on both sides of the aisle, I hope both parties, can agree to adopt this. It may not happen, but I am hopeful that will happen tomorrow.

ORDERS FOR THURSDAY, JUNE 21, 2007

Mr. CASEY. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand adjourned until 10:30 a.m. Thursday, June 21; that on Thursday, following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, and the time for the two leaders be reserved for their use later in the day; that the Senate then resume consideration of H.R. 6, as under the previous order; that Members have until 11 a.m. to file any germane second-degree amendments to the Baucus amendment No. 1704.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADJOURNMENT UNTIL 10:30 A.M. TOMORROW

Mr. CASEY. Mr. President, if there is no further business to come before the Senate, I now ask unanimous consent that the Senate stand adjourned under the previous order.

There being no objection, the Senate, at 8:44 p.m., adjourned until Thursday, June 21, 2007, at 10:30 a.m.

CONFIRMATION

Executive nomination confirmed by the Senate June 20, 2007:

DEPARTMENT OF TRANSPORTATION

DAVID JAMES GRIBBIN IV, OF VIRGINIA, TO BE GENERAL COUNSEL OF THE DEPARTMENT OF TRANSPORTATION.

THE ABOVE NOMINATION WAS APPROVED SUBJECT TO THE NOMINEE'S COMMITMENT TO RESPOND TO REQUESTS TO APPEAR AND TESTIFY BEFORE ANY DULY CONSTITUTED COMMITTEE OF THE SENATE.

EXTENSIONS OF REMARKS

PERSONAL EXPLANATION

HON. JERRY WELLER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. WELLER. Madam Speaker, had I been present on the legislative day of June 18th for rollcall votes 499 through 501, I would have voted ''aye'' on rollcall vote 499, ''aye'' on rollcall vote 500, and ''aye'' on rollcall vote 501.

PERSONAL EXPLANATION

HON. VERN BUCHANAN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. BUCHANAN. Madam Speaker, on Friday, June 15, I was en route to California to attend the Stanford University graduation ceremonies for my son, Matt. As such, I was absent for rollcall votes 492 through 498.

If I had been present for these votes, I would have voted as indicated below: rollcall No. 492: ''aye''; rollcall No. 493: ''nay''; rollcall No. 494: ''aye''; rollcall No. 495: ''aye''; rollcall No. 496: ''aye''; rollcall No. 497: ''aye''; and rollcall No. 498: ''aye''.

COMMENDING NANCY HOLMES ON THE OCCASION OF BEING HONORED BY THE HISTORIC MOBILE PRESERVATION SOCIETY

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. BONNER. Madam Speaker, today I rise to commend Nancy Holmes and offer her our heartfelt thanks on behalf of the people of southwest Alabama for a lifetime of service to both the City of Mobile and the State of Alabama.

For almost 6 decades, Nancy has dedicated a considerable amount of time toward preserving Mobile's historic landmarks. Nancy Holmes moved to Mobile in 1950 and was one of the original members of the Mobile Historic Development Commission. She served several terms as president where she established a fund to prevent the destruction of historic buildings, including the Horst-Ezell House.

One of the most highly regarded preservation architects in the United States, Nancy has received many honors over her years of service including the M.O. Beale Scroll of Merit, a certificate of appreciation from the governor of Alabama, the Travel Award Trophy from the Mobile Chamber of Commerce, a Lifetime Achievement Award from the Alabama Historical Commission, and the First Lady of Mobile recognition in 1966. She has also held several positions with the Historic Mobile Preservation Society including president, civics chairman, Oakleigh Historic House Museum guides chairman and program chairman. She has published articles in Antique magazine and is actively involved in the National Trust for Historic Preservation as a member.

This month, the Historic Mobile Preservation Society is bestowing Nancy with the Preservationist of Distinction award for her lifetime of achievement as a historic preservationist.

Madam Speaker, I ask my colleagues to join me in thanking Nancy for her tireless commitment to the betterment of Mobile. I know her family and many friends join with me in praising her accomplishments and extending thanks for her many efforts over the years in making Mobile and southwest Alabama a better place.

IN HONOR OF THE RIDGEWOOD CHAMBER OF COMMERCE ON THE OCCASION OF ITS 80TH ANNIVERSARY

HON. SCOTT GARRETT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. GARRETT of New Jersey. Madam Speaker, I rise today to commend the Ridgewood Chamber of Commerce for its 80 years of outstanding public service to the residents, businesses, and community of Ridgewood, NJ. I have had the honor of meeting with the men and women of this fine organization and have seen firsthand the tremendous sense of dedication they have to their neighbors.

The board of directors that runs the operations of the Chamber of Commerce is very active in meeting the needs of its membership, raising funds for Chamber activities, organizing events to draw people to downtown businesses, and running a scholarship fund for local students. Under the leadership of its current officers with President Tony Damiano at its helm, the Chamber has made great strides. And, I have every expectation of that under the tutelage of the incoming officers: President Ed Sullivan, Vice President John Kiernan; Treasurer Patricia Duarte; and Secretary Linda Coombs.

The Ridgewood Chamber of Commerce will continue to excel in all its endeavors, helping to raise the quality of life in the Village of Ridgewood for all who live, work, and visit that community for the next 80 years as well.

TRIBUTE TO MOLLY LLOYD

HON. LEE TERRY

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. TERRY. Madam Speaker, I rise to honor Molly Lloyd, who has recently retired from my congressional staff after 8 years of dedicated and excellent service to the constituents of the Second Congressional District of Nebraska. With a 1-year-old daughter, Ellie, and 5-year-old daughter, Emma, she and her husband, Mark, are devoting their time to their family, which makes a tribute to her all the more bittersweet. I wish the Lloyds all the happiness in the world as they embark on the next stage of their lives together.

Molly is a lifelong Nebraskan and was born to proud parents Kay and Bob Koozer in Omaha. She graduated from Westside High School in 1991 and attended Hastings College where she earned a bachelor's degree in communications in only 3 years. After college, she worked to elect Mayor Hal Daub for the city of Omaha and served as his director of public affairs until 1997. I was fortunate to gain her as a member of my congressional staff upon my election in 1998.

In fact, although people in the community criticized me for hiring someone so young to become the director of my Omaha office, their criticisms were soon silenced as her talents and her commitment to selfless public service became obvious to the entire community. Her strong leadership skills and fierce dedication to conservative principles have served my office well.

Molly knows her hometown inside and out and is an active member of the community, including volunteering and advocating for causes and organizations such as the Joslyn Foundation, the American Diabetes Association, and as a founder of the Leadership Circle to help the next generation of women leaders enter public service. Despite her departure from our Omaha office staff, we know Molly will continue to do great things for the betterment of our State and community.

I appreciate Molly's friendship, and I respect her dedication and invaluable contributions over the past eight years. I trust Molly will succeed in all her future endeavors. I am proud to call her a friend and to congratulate and honor her today for all that she has accomplished. I wish her many blessings and much happiness as she begins this new part of her life. Although I am tremendously sorry to see her leave our office, her young daughters will now be privileged to receive the full-time benefits of her extraordinary talents.

IN HONOR OF ROBERT J. BURROWS

HON. ALBIO SIRES

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. SIRES. Madam Speaker, I rise today to honor Robert J. Burrows, a respected and invaluable resident of the 13th district of New Jersey. Mr. Burrow's life set a higher standard in public service and dedication to the well-being of his community through his roles in the areas of education, public office and congressional service.

Robert Burrows made Bayonne, NJ, his home for the last 50 years. He was instrumental in shaping the City's government, making his mark after serving as Bayonne's First Ward Councilman from 1994 to 1998, Mr. Burrows also served as Commissioner of the Bayonne Board of Adjustment, later becoming vice chairman.

Robert Burrows helped shape the future of the City of Bayonne as a citizen-appointed Member of the Hudson/Bergen Bayonne Light Rail Advisory Committee. In this capacity, he led Bayonne in becoming the first stop of the historic light rail system that has brought expansion and economic development to the region. Mr. Burrows also served as trustee of the Board of Education during the construction of the Midtown Community School.

Throughout his life, Mr. Burrows was an active member of the community. He was a member of the Knights of Columbus, the Holy Name Society, St. Mary Star of the Sea Parish Council, the Bayonne Sicilian Club, and Irelands 32. Mr. Burrows also served on the Board of the Bayonne Community Museum and was First Chairman of the Bayonne Historic Preservation Commission. His love for public service was also demonstrated as a member of the New Frontier Democrats.

Born in Brooklyn, NY, Robert Burrows was a graduate of New York University. He was a dedicated employee of the Metropolitan Life Insurance Company for 42 years until his retirement as vice president of the Claims Division.

From 1998 to 2006, Mr. Burrows served as congressional aide to U.S. Senator ROBERT MENENDEZ, and I was proud to have him serve in my office until his retirement. I congratulate Bob and his family for his dedication to the constituents of the 13th congressional district and in particular, to the residents of Bayonne.

The outpouring of expressions of condolence to his wife Marie, his children and grandchildren are evidence that his commitment to helping others will be deeply missed. I join them in mourning the loss of a true gentleman, whose memory will live in the hearts of the many people he touched.

PERSONAL EXPLANATION

HON. SANFORD D. BISHOP, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. BISHOP of Georgia. Madam Speaker, I regret that I was unavoidably absent yesterday afternoon, June 18, on very urgent business. Had I been present for the three votes which occurred yesterday evening, I would have voted ''aye'' on H.R. 2563, rollcall vote No. 499; I would have voted ''aye'' on H. Con. Res. 151, rollcall vote No. 500; I would have voted ''aye'' on H. Res. 233, rollcall vote No. 501.

INTRODUCTION OF 2007 MINE SAFETY PACKAGE

HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. RAHALL. Madam Speaker, in the hope of keeping the health and safety needs of our coal miners at the forefront of our Nation's conscience, I am pleased to join my colleagues, the Chairman of the Education and Labor Committee, GEORGE MILLER, and ALAN MOLLOHAN from West Virginia in sponsoring a new legislative package on mine safety.

The mine tragedies of last year are the result of a government and a Nation that let down its guard. That should never have happened.

Nevertheless, the Congress responded quickly and appropriately with the passage of the MINER Act, which I proudly supported. Today, the Congress continues responding with the introduction of the Supplemental Mine Improvement and New Emergency Response Act of 2007 (S–MINER).

This bill would ban the use of belt air to ventilate the working face of a mine—a flaw that contributed to the fatal fire at the Aracoma mine in my district. I have long opposed this practice, and I am glad to support the ban contained in this bill.

The bill requires improvements to air quality monitoring to guard against black lung disease, better safety examinations, and improved construction and monitoring of seals—all things that could have helped to save some of the 47 lives lost in the coalfields in 2006.

Also, importantly to my State, S–MINER calls for the installation of refuge chambers and helps to coordinate State and Federal deadlines and safety mandates. In West Virginia, operators are facing those looming requirements. A Federal requirement for chambers would undoubtedly save lives. It would, as well, help to reduce their cost and increase their availability, ensuring that more of our miners have access to refuges in life-threatening emergencies.

The legislative package contains concepts and provisions that have been part of mine safety discussions for years, if not decades. The elements contained within should not come as a surprise to anyone who has been within shouting distance of the coalfields in the last several months.

I welcome the discussion and the debate sure to come concerning this legislation. As long as we are talking about mine safety—whether we agree or not—we are not ignoring it. And that is a critical improvement to the purposeful neglect of recent years.

Madam Speaker, I commend my colleague, GEORGE MILLER, for his attention to this vital issue and I thank him for his continuing work on behalf of our Nation's coal miners and their families.

PERSONAL EXPLANATION

HON. TOM FEENEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. FEENEY. Madam Speaker, on rollcall No. 498, I inadvertently voted ''no'' on H.R. 2642, the appropriations bill for military construction and the Department of Veterans affairs. I intended to vote ''yes''. This is an important piece of legislation. H.R. 2642 will be the vehicle for appropriating the funds directed to the new VA hospital, authorized in the FY 07 appropriations process, that will be located in central Florida.

PERSONAL EXPLANATION

HON. GUS M. BILIRAKIS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. BILIRAKIS. Madam Speaker, unfortunately, I was unavoidably detained and missed rollcall vote Nos. 252, 414, and 454.

I take my voting responsibility seriously, and if I had been present, I would have voted ''yea'' on each.

HONORING THE MEMORY OF MR. PORTER EDWARD TAIT, JR.

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. BONNER. Madam Speaker, the city of Camden and indeed the entire State of Alabama recently lost a dear friend, and I rise today to honor him and pay tribute to his memory.

Mr. Porter Tait, Jr., a devoted family man, was dedicated to the continued growth and prosperity of Camden. A U.S. Army veteran, he served in World War II and the Korean war and worked for International Paper for over 20 years.

A life long resident of Wilcox County, Porter was a member of Camden Baptist Church and a member of the BYKOTA Sunday School Class. A master Mason, Porter was a member of the Dale Lodge #25 for 55 years. He was also a Shriner, a member of the Alcazar Temple in Montgomery, the American Legion Post 84, and the Selma Elks Lodge.

Madam Speaker, I ask my colleagues to join me in remembering a dedicated community leader and friend to many throughout Alabama. Mr. Porter Tait, Jr. will be deeply missed by his family—his wife of 51 years, Lula Lee Ray Tait; his two sons, Porter Edward Tait III, and Timothy Ray Tait; his one daughter, Dr. Margaret Tait Moore; his four sisters, Martha Jones, Pauline T. D'Alessio,

Laura Carr, and Doris Locklin; and his six grandchildren—as well as the countless friends he leaves behind. Our thoughts and prayers are with them all at this difficult time.

In addition to my statement, I ask that an accompanying article from the Wilcox Progressive Era, written by its longtime publisher, M. Hollis Curl, be included in this tribute to Porter Tait. May he rest in peace.

Family and friends gathered yesterday at the Camden Baptist Church to eulogize Porter Tait before driving on down to Reaves Chapel Baptist Church for Masonic services at graveside.

Porter died late Sunday afternoon at J. Paul Jones Hospital where he had been a patient for several days. Members of his loving family were at his bedside; anguished at his leaving them but relieved that his suffering was over.

I first came to know Porter Tait in the late 1960's; just a few years before a serious stroke left him substantially disabled. His two sons, Ted and Tim were classmates of my son, Mark, and daughter, Julie. His daughter Meg came along a bit later and we all marveled at her superior intellect as she breezed through college at Auburn before graduating from medical school in Birmingham. She—along with her brothers—was a source of great pride to Porter and his wife, Lula Lee.

Actually, there was a ''family'' bond of sorts between Porter and me. We shared a grandson, Tyler Tait, who was born to Julie and Ted. They eventually went their separate ways but have remained friends over the years.

But I digress. This is not about family, nor friends, nor relationships. It is about a man who was loved and respected by all who knew him.

The stroke which left Porter unable to work forced him to get about on unsteady legs and, as the years went by, to limit his speech somewhat. But he never gave up.

For quite a few years Porter made his usual rounds about Camden in a little VW bug which he eventually abandoned in favor of a small pickup truck. Those two vehicles were seen almost daily at the business places of friends he had known all his life.

One of his favorite activities was helping as best he could with barbecue cooking at the drive-in which his son Ted sold to Travis Durant who sold it to Larry Gaston. Porter knew just what it took to turn out mouthwatering barbecue spiced with his own brand of tale-telling around the fire.

Most younger folks in Camden probably didn't know Porter Tait. His disability had kept him close to home on McWilliams Avenue just across from the hospital. That is unfortunate because Porter Tait was the sort of fellow who could impart great life lessons drawn from his 79 years of life.

It is also important to note that Porter Tait was a devout, born-again Christian who read his Bible every day. He knew the message Jesus gave us and he incorporated those beliefs into his life and his relationships with those who visited him as he grew increasingly home-bound.

Come to think of it, when it came to living a Christ-like life I never saw anything in Porter's life to diminish my respect for him.

He played out his life with the hand that was dealt him and I never heard him say an unkind word about anybody.

He was a good man.

HONORING OUR COMMITMENTS TO THE COAST GUARD

HON. ILEANA ROS-LEHTINEN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Ms. ROS-LEHTINEN. Madam Speaker, I rise today to offer my support to the U.S. Coast Guard and our efforts to modernize their fleet. The brave men and women of our Coast Guard deserve the resources they need in order to carry out their mission. We need to support funding for the many programs aimed at strengthening our drug interdiction and refugee recovery efforts, much of which can be accomplished by ensuring that the necessary funds are dedicated towards the Deepwater acquisition program. Nearly a decade ago, the Coast Guard initiated a multi-billion dollar effort to modernize its aging assets. However, due to serious gaps in funding and a lack of program accountability this effort has fallen short of its goals thus far. Many problems have been raised, however reforms have been made, and yet much more needs to be done. Amidst such controversy, let us not forget the crucial role the Coast Guard plays in ensuring both public safety and national security.

The Coast Guard has a critical role in our struggle to eliminate drug trafficking that is frequently used to finance global terrorist organizations in their war against freedom and democracy. Earlier this year our Coast Guard, working in conjunction with the Drug Enforcement Administration, seized in one raid nearly 20 tons of cocaine with an estimated value of $300 million. This was a tremendous victory in our War on Drugs and our battle against terrorists and their financiers, especially considering the deep water cutter used in the seizure was an antiquated, 40-year-old cutter. However, victories of this sort will become increasingly difficult if we are not able to modernize our fleet and aircraft to keep up with the technology used by terrorists and drug lords. We must support increased funding to ensure our Coast Guard has the resources needed to efficiently and effectively perform their mission.

As noted by the Department of Homeland Security Appropriations Committee report: the Coast Guard is currently operating at a 25-percent deficit of its patrol boat mission hours. This level of insufficient mission hours will be further magnified as our Navy will be reducing the 179-foot patrol boats currently being used by the Coast Guard, from five to three.

With a reduction of two patrol boats, the gap of mission hours will be increased by another 5,000 hours. With a discrepancy this large, we are leaving our waters dangerously unpatrolled; thereby creating an open playground for narcotraffickers. This is not an acceptable option for the rest of the country, but this is especially disturbing to the Citizens of South Florida, who rely on the Coast Guard to protect and their economic viability and security. I commend the men and women who serve in our Coast Guard for their diligence and dedication to continue to secure and protect our ports, inland waterways, coasts, and international waters. In my congressional district, I am privileged to have two Coast Guard Sectors that patrol the waters of South Florida: Sector Key West and Sector Miami. I know the good work these individuals are involved in and I deeply appreciate the dangerous work they do to maintain the safety and security on our waterways. The efforts of these brave men and women have saved countless lives and greatly enhanced our national security. We cannot let them do their jobs without the tools necessary to keep them safe as they work to keep our country safe.

HONORING THE MORRIS PLAINS FIRE DEPARTMENT

HON. RODNEY P. FRELINGHUYSEN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. FRELINGHUYSEN. Madam Speaker, I rise today to honor the Morris Plains Fire Department, in the Borough of Morris Plains, Morris County, New Jersey, a patriotic community that I am proud to represent! On June 23, 2007 the good citizens of Morris Plains will celebrate the Fire Department's 100th anniversary with a parade, picnic, awards ceremony, and fireworks.

In the early 20th century, Morris Plains was a small community within Hanover Township and was supported by the Hanover Township and Morristown Fire Departments. However, in 1906, the Wise Hotel in Morris Plains was completely destroyed before either fire company could respond to the call. The incident brought to the town's attention the need for local fire protection, and on April 25, 1907, in the meeting hall of the Junior Order of United American Mechanics on Franklin Place, the Morris Plains Fire Association was incorporated.

The Fire Department's first purchase was an American LaFrance horse drawn hook and ladder that was financed from donations from the local citizens. Another citizen pitched in by donating his own horse and wagon to be converted by the firemen for use as a hose and wagon.

As the community grew, in 1926, it was decided that Morris Plains would break away from Hanover Township to become what is known today as the Borough of Morris Plains, also known as the ''community of caring.'' In addition, the new Borough government assumed the position of maintaining and replacing fire apparatus. The Morris Plains Fire Association became the Morris Plains Fire Department.

In August of 1940, a fire in the roof of the firehouse damaged the building beyond repair. The Borough Council had been conducting their business in the firehouse meeting room. The Fire Department and Council built a shared facility that today encompasses quarters for the Fire Department, Police and Borough offices.

Today, the Morris Plains Fire Department is led by Chief Michael Geary who successfully commands an all volunteer fire department of about 80 members serving close to 5,250 residents in about a two and a half square mile area.

Madam Speaker, I urge you and my colleagues to join me in congratulating the Morris

Plains Fire Department and all their firefighters, past and present, on celebrating 100 years of protecting one of New Jersey's finest municipalities!

PERSONAL EXPLANATION

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. GRAVES. Madam Speaker, on Monday June 18, 2007, I was tending to some family matters and thus missed rollcall votes 499, 500, 501. Had I been present, I would have voted ''yea'' on all votes.

COMMEMORATING THE RETIREMENT OF RUTH ONITA SPAKE

HON. MICHAEL M. HONDA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. HONDA. Madam Speaker, I rise today to honor a remarkable person, Ruth Onita Spake, who has dedicated her career and life to public service as Chief Financial Officer for the Santa Clara County Social Services Agency. She is retiring from the County of Santa Clara on July 20, 2007 after thirty-seven years of exemplary work.

Ruth Onita Spake was born on April 3, 1945 in Tallahassee, Florida. Academic excellence was a priority for her; she received an Associates Degree from Napa Junior College and obtained her Bachelors Degree and a Standardized Secondary Teachers Credential from the University of California, Davis. Before joining the Social Services Agency, she worked as a substitute teacher and as a cost account clerk for an international newspaper.

Ruth's career with Santa Clara County began in 1970 as a Food Stamp Eligibility Worker, where she interviewed applicants on an individual basis to help determine their eligibility to receive county resources. She quickly rose through the ranks and became a Supervisor in just four years. Soon after that, she was appointed as the Program Coordinator, responsible for organizing and directing the entire food stamp program.

After receiving a Masters Degree in Public Administration from the University of California, Riverside, Ruth continued to contribute to Santa Clara County. In 1980, she joined the County Executive's Office of Management and Budget where she stayed for five years. However, she could not resist the call to work towards improving the welfare of Santa Clara residents. By 1985, she had returned to the Social Services Agency to manage the agency's budget.

Ruth progressed quickly through the agency, and her efforts were admired by all those who had the pleasure of working with her. By the early 1990's, Ruth was managing the $500 million dollar budget of Social Services in conjunction with Central Services and Information Systems. Her role as the Chief Financial Officer afforded her the opportunity to initiate modernization for the agency. She planned and implemented a multi-building renovation project for the agency, revamping the physical infrastructure to supply superior services for the residents.

In addition, Ruth co-chaired the California Welfare Directors and California Department of Social Services Task Force, an association that significantly refurbished the statewide county reimbursement process. This development benefited not only the inhabitants of Santa Clara County but also positively affected those of all fifty-eight counties in California.

Ruth's main interest is her desire to travel. Being of French descent, she is strongly attracted to the French culture and can be classified as a true Francophile. After her retirement, she will undoubtedly dedicate her time to exploring foreign countries and expressing her love for anything French.

Ruth's outstanding achievements at the Social Services Agency were numerous, and their impact on Santa Clara County is immeasurable. Her ability to understand and employ the funding behind the provisions of public social services is astonishing. Where others might have merely done what was required of them, Ruth has gone above and beyond what her job description entailed to provide the Social Services Agency with more. efficient methods of serving the residents of Santa Clara County.

I offer my congratulations to Ruth Onita Spake on her thirty-seven distinguished years of exceptional service to the Santa Clara community. Her dedication and sacrifice is the very definition of public service, and her tireless efforts to build and sustain the Santa Clara County Social Services Agency will forever be appreciated and remembered by all.

PERSONAL EXPLANATION

HON. MIKE ROSS

OF ARKANSAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. ROSS. Madam Speaker, on Monday, June 18, 2007, I was not present for votes due to mechanical problems on my flight to Washington, DC caused by Northwest Airlines.

Had I been present for rollcall 499, H.R. 2563—To designate the facility of the United States Postal Service located at 309 East Linn Street in Marshalltown, Iowa, as the ''Major Scott Nisely Post Office'', I would have voted ''yes.''

JUNETEENTH DAY—ACKNOWLEDGMENT

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. RANGEL. Madam Speaker, I rise today to acknowledge the historical importance of June 19. This is the day that signifies the initial abolishment of slavery in the United States.

As you are aware, President Abraham Lincoln issued the Emancipation Proclamation on September 22, 1862 to declare freedom of all slaves in the territories of the Confederate States of America by January 1, 1863. Despite the proclamation being issued in September of 1862, most people did not know about it because the infrastructure of communication at that time was no where near as sophisticated as it is today and slave owners undoubtedly did not want their slaves to know about their freedom. On June 19, 1865, troops descended on Galveston Island in Texas to impose the proclamation. Since then, June 19th has been celebrated and recognized as the day slaves were freed. The name Juneteenth is a compilation of portions of the word June and the 19th day of the month. June 19th is an official holiday in Texas and is recognized in some States including New York as an official holiday.

It is extremely important that we not forget the institution of slavery. It represents a very dark part of our history in the United States. The cost and sacrifices of people who were enslaved are immeasurable. For those who lived long enough to be set free, their strength is awesomely inspiring to me and nothing short of a miracle. When I reflect on slavery and the suffering endured, I am humbled and feel grateful for the steadfastness, courage, and faith of my ancestors. I would not be where I am today, if it were not for them.

On this day, I urge my colleagues and all Americans to remember the injustice of slavery and celebrate the abolishment of it. So much progress has been made in our great country towards the rights the forefathers and other great leaders such as Martin Luther King Jr. envisioned for all Americans. We shall continue to advance civil and human rights, embrace diversity, and treat each other with dignity and respect.

TRIBUTE TO THELMA BERTIE

HON. JOSEPH CROWLEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. CROWLEY. Madam Speaker, I rise today to pay tribute to one of my constituents, Ms. Thelma Bertie of the Bronx, NY, and to recognize her on the celebration of her ninetieth birthday. Ms. Bertie is an 87-year resident of New York and has exhibited steadfast commitment to American ideals by faithfully voting in every local and national election since reaching voting age. I commend her on this great dedication to her civic duty and I wish her a joyous day with many more happy moments ahead beside her loved ones.

Ms. Bertie has asserted herself as an active and conscientious citizen and has earned appreciation for her contributions to the community, Her life and accomplishments are true inspirations to the lives of all those she touches and I am honored that my district is called home by such an outstanding citizen. Ms. Bertie truly understands the value of being not only a New Yorker but an American as well and the entire Bronx community is privileged to count her among its residents.

Madam Speaker, I join to congratulate Ms. Bertie on this birthday milestone and I wish her good health and fortune in the future.

ON INTRODUCING THE 2007 MINE SAFETY AND HEALTH BILLS—THE SUPPLEMENTARY MINE IMPROVEMENT AND NEW EMERGENCY RESPONSE (S–MINER) ACT AND THE MINER HEALTH ENHANCEMENT ACT OF 2007

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. GEORGE MILLER of California. Madam Speaker, last Friday was the first anniversary of the MINER Act, which the Congress passed last year in the wake of the tragedies at the Sago, Aracoma Alma and Darby coal mines.

Much progress has been made over the last year. For example, thanks in particular to the efforts of Senator ROBERT BYRD of West Virginia, critical funding was provided to help develop new technologies for mining which were thought to be out of reach only a year ago. Funds were also provided to hire additional inspectors for underground coal mines. These funds were well spent, and the investment will save miners lives.

Moreover, implementation of the requirements of the MINER Act, while slower than anticipated, has started to gain traction, as questions about its provisions have been addressed and as this Congress has exercised its oversight authority.

But important as these actions are, they were intended as only a down-payment on what is needed to clean up years of neglect and backsliding by this Administration and an industry that had become, by its own admission, overly complacent. The need for supplemental action is more clear than ever, as too are the details of the supplemental action that is required at this time.

Accordingly, I am joining Chairman RAHALL and others today in introducing new legislation, the Supplementary Mine Improvement and New Emergency Response Act, or S–MINER Act, to build on our initial accomplishments by taking the next steps.

The S–MINER Act has four basic sections.

The S–MINER Act would supplement emergency response plans. The MINER Act required mine operators to put in place detailed emergency response plans to prevent a recurrence of the tragedies at Sago, Aracoma Alma and Darby. Based on what we have learned over the last year, the S–MINER Act would tighten up some of the requirements to ensure that effective action is taken promptly.

For example, the S–MINER Act would:

In light of technological progress, speed up the dates by which mine operators have to install improved underground communication systems and refuge chambers;

Ensure that requirements on how to seal abandoned areas of a mine, already scheduled to be issued in December of this year, meet recently developed NIOSH recommendations;

Require the 52–year old standard on conveyor belt flammability to be updated consistent with NIOSH recommendations, and ban the practice of ventilating mines with intake air run over these conveyor belts (''belt air''); and

Require the installation of underground gas and smoke monitoring systems, and require miners working alone to carry multi-gas detectors to protect them from otherwise undetectable toxic atmospheres they may encounter.

And the bill would require a study by the National Academy of Sciences of the technology needed to help protect underground miners from the harmful potential consequences of lightning above the mine, the asserted spark that set off the Sago tragedy.

The S–MINER Act would supplement enforcement authority. The MINER Act established some new penalties to encourage mine operators to take mine safety and health requirements seriously and address problems before they become worse. Based on what we have learned over the last year, the S–MINER Act would supplement these actions to enhance their effectiveness.

For example, the S–MINER Act would:

Clarify the authority of inspectors to be free of interference and to issue withdrawal orders in emergencies;

Enhance penalties not adjusted by MINER Act;

Respond to GAG findings of deficiencies in the penalty assessment process; and

Provide MSHA with subpoena power equivalent to that of other agencies.

In addition, the S–MINER Act would establish an independent ombudsman to ensure proper attention to miner complaints of unsafe conditions and to protect whistleblowers from retaliation.

The S–MINER Act would supplement rescue, recovery and incident investigation authority. The MINER Act ensured that prompt notice of serious accidents be provided immediately to the Department of Labor, and that the number of available rescue teams be enhanced. Based on what we have learned over the last year, the S–MINER Act would supplement these actions to enhance their effectiveness.

For example, the S–MINER Act would: enhance mine rescue and recovery operations by providing for a national call center; require timely notice to MSHA of ''near misses''; and require mine operators to provide certain logistical support for rescue teams.

The bill would also require the procedures for accident investigations to be standardized, ensures witness coercion and conflict of interests are avoided, and provides for any investigation by MSHA to be supplemented by an investigation of the independent Chemical Safety Board when requested by authorized representatives of miners or families.

The S–MINER Act would revise the respirable dust standards established 40 years ago. MSHA has struggled in the last decade to update badly needed improvements in critical health standards actually set by the Congress in the 1977 Mine Safety and Health Act, and has not been successful. Miners are once again developing symptoms of black lung and other deadly diseases of the past. For miners, this situation constitutes an emergency. Accordingly, the bill would update the rules the Congress set 40 years ago by adopting long-standing recommendations of NIOSH for these rules.

Specifically, the S–MINER Act would: reduce the amount of coal dust to which miners can be exposed in accordance with NIOSH recommendations; require miners be equipped with the new personal dust monitors (PDMs) developed and certified by NIOSH, and authorize miners to adjust their activities to avoid overexposure; and update the procedures for compliance sampling by the Department of Labor and for operator surveillance sampling utilizing the PDM.

The S–MINER Act would also set an independent standard for silica exposure (the current limit is entwined with the coal dust limit) in accordance with NIOSH recommendations.

In addition, Madam Speaker, I am also joining with Chairman RAHALL and others today in introducing the Miner Health Enhancement Act of 2007. As I mentioned, MSHA has struggled in the last decade to update badly needed improvements in critical health standards actually set by the Congress in the 1977 Mine Safety and Health Act, and has not been successful. While the S–MINER Act would deal with the most well-recognized of these issues, there are other 40-year-old health standards established by the Congress that also require attention.

The Miner Health Enhancement Act of 2007 would: require MSHA to use the existing asbestos standard applicable to most American workers under OSHA rather that the weaker standard for asbestos now applicable; require MSHA to utilize the hazard communication standard issued by the last Administration after extensive rulemaking without the amendments adopted early in this Administration that weaken the currency of the scientific information provided to mine workers; and require MSHA to update the list of permissible exposure limits in its air contaminants standard to reflect the recommended exposure limits established by NIOSH.

Last year we acted with urgency but too late; this year, it is our hope to enact needed reforms before the next tragedy occurs. As we focus this year on how to address this country's energy problems, let us not forget to provide for the safety and health of the workers who provide the raw materials that power this economy.

INTRODUCTION OF THE NATIONAL DAIRY EQUITY ACT OF 2007

HON. JOHN M. McHUGH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. MCHUGH. Madam Speaker, I rise today with my colleague from New York, Mr. REYNOLDS, to introduce the National Dairy Equity Act of 2007, NDEA, which is designed to establish a minimum price for fluid milk and create a market-based safety net for dairy farmers.

I greatly appreciate the men and women who work the extremely hard and long hours needed to produce milk, butter, cheese, ice cream, non-fat dry milk, and yogurt. Thus, I

would like to begin by noting that June is Dairy Month. It is hard to overstate how important dairy is to the United States economy, nor for that matter, how important dairy is to the economies of New York and its 23rd Congressional District, which I represent. In fact, in 2006, New York was the Nation's third largest dairy State; it accounted for about 7 percent (638,000 head) of the nation's milk cows, 6.7 percent (12.04 billion pounds) of total milk production, and 6.9 percent ($1.6 billion) of total cash receipts from milk marketing. The importance of dairy to New York's 23rd District is readily apparent when one considers that the 2002 Census of Agriculture reported there were 1,989 dairy farms with 188,305 milk cows in the 11 counties that comprise the district.

I also appreciate the fact that the Milk Income Loss Contract, MILC, has provided about $230 million in much-needed support to New York dairy farmers over the past 5 fiscal years and I know my constituent farmers do as well. Moreover, it is critical that the 2007 Farm Bill continue to provide dairy farmers with some form of income support. While I appreciate the support provided through MILC, the NDEA is an alternative that could help to provide additional support to American farmers with greater stability and at less cost to the taxpayer.

The NDEA would establish 5 Regional Dairy Marketing Areas, RDMA; the Intermountain, Midwest, Northeast, Pacific, and Southern. The Midwest, Northeast, and Southern regions would automatically be included as participating regions while the Intermountain and Pacific regions would have the ability to opt into the program.

In each region, a Regional Dairy Board would establish the minimum or over-order price for Class I (fluid) milk; that price would then have to be approved by farmers through a referendum. In the first year, the maximum price that a board could establish is capped at $17.50 per hundredweight (cwt.), but thereafter the price could rise based on the Consumer Price Index, CPI.

Under the NDEA, when the Class I milk price in the Boston market falls below the established minimum price, processors would pay an over-order premium—the difference between the minimum price set by the applicable Regional Dairy Board and the Boston Class I price—into a national fund. The U.S. Secretary of Agriculture would then distribute the monies in the fund back to the Boards according to a formula whereby each region would get back the greater of what they pay into the fund or the amount of the over-order payments a region would have generated if it had a Class I utilization rate of 50 percent. In the event of a shortfall, the Secretary would supplement the money in the fund from savings from the MILC program to ensure that the Regional Dairy Boards, and subsequently the dairy farmers themselves, would receive the full payments.

The Regional Dairy Boards would be comprised of three members from each participating state in a particular region. The U.S. Secretary of Agriculture would make the nominations to the Boards after receiving nominees put forward by governors or elected state agricultural commissioner after consultation with the dairy industry. Each State delegation to the Regional Dairy Boards would consist of 3 representatives, with at least 1 producer and 1 consumer.

In addition to the responsibility to establish minimum prices and distribute payments to dairy farmers, the Regional Dairy Boards would have the authority to conduct supply management programs when necessary, including the development of incentive-based programs. Moreover, in order to prevent overproduction, regions in which the growth in milk production is higher than the national average would be required to reimburse the U.S. Secretary of Treasury for the cost of government dairy surplus purchases up to the amount that the region is receiving under the NDEA.

It is important to note that the NDEA would not establish national pooling. Rather, it would create an equalization fund whereby processor paid funds would go to a central account at the U.S. Department of Agriculture; Government funds would be added to that fund and then payments would be made to the various regions according to a formula, which would permit regions with low Class I utilization to receive the same benefit as those regions with higher utilization.

Also of significance, the NDEA would be entirely optional for the States and individual farmers. Thus, those states that do not wish to participate in the NDEA program could simply choose to continue to participate in the MILC program, which the NDEA would extend to 2012, and individual farmers in States participating in the new NDEA program could instead opt to merely continue receiving payments under their current MILC contract rather than under the NDEA. However, those individuals would not be eligible to extend their MILC contract beyond September 2008 and would lose all future eligibility to participate in the NDEA program.

Madam Speaker, the NDEA would create a market-orientated, counter-cyclical program to help all of our Nation's dairy farmers while simultaneously saving taxpayers money. Accordingly, I ask my colleagues to join with me to enact this important legislation.

COMMEMORATING THE 25TH ANNIVERSARY OF THE FATAL BEATING OF VINCENT CHIN

HON. MICHAEL M. HONDA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. HONDA. Madam Speaker, as Chair of the Congressional Asian Pacific American Caucus, I rise today in remembrance of Vincent Chin on the twenty-fifth anniversary of his attack.

On June 19, 1982, Vincent Chin, a Chinese American, was brutally and fatally attacked by two white men who had recently been laid-off by an American automaker. Blaming their lost jobs on the rise of Japanese car companies, Chin's attackers, mistaking him for Japanese, sought retribution.

Other than residing in Detroit, Michigan, Vincent Chin had no connection to the automobile industry. Vincent Chin, soon to be married and celebrating his bachelor party, wasn't seeking trouble the night of his attack. Chin was attacked and killed simply for being of Asian descent. To add further insult, Chin's murderers charged with, and pleaded guilty to, a mere manslaughter charge. For murdering a man, each received a sentence of only three years probation and a $3,000 fine—a mere slap on the wrist. Neither killer ever served any jail time.

The attack on Vincent Chin, his untimely passing, and the insulting lack of justice and punishment for his murders galvanized a community that had not previously come together so broadly. For the first time, there emerged a self-defined Asian American and Pacific Islander racial identification that went beyond the progressive college-educated youth and into the working-class segments of the community. Chinese, Japanese, Korean, and Filipino; waiters, lawyers, and grandmothers came together with a heightened awareness of the shared experience of racism and discrimination faced by Asian American and Pacific Islanders, regardless of ethnic and socioeconomic background. Twenty-five years after his fatal attack, Vincent Chin remains a contemporary martyr and rallying point for the Asian American and Pacific Islander Movement.

While today is indeed a day to remember and honor the life and death of Vincent Chin, it is also a reminder that hate crimes are not a memory in a regrettable past. Unfortunately, the past twenty-five years remain littered with physical and verbal assaults and murders based in hate. Listed here are a few such acts:

January 29, 1996, Thien Minh Ly, shot and killed in Tustin, California.

October 15, 1998, Kanu Patel and Mukesh Patek, shot and killed in Camp Springs, Maryland.

August 10, 1999, Joseph Ileto, shot and killed in Chatsworth, California.

September 15, 2001, Balbir Singh Sohdi, shot and killed in Mesa, Arizona.

September 15, 2001, Waqar Hasan and Vasudev Patel, shot and killed near Dallas, Texas.

July 30, 2006, Iqbal Singh, stabbed in Santa Clara, CA, My home district.

October 21, 2006, Robert Stanford, Song Sun Lee and Kam Yan Li, shot and killed in San Francisco, CA.

March 16, 2007, Marie Martinez, beaten on an MTA bus in New York City.

Madam Speaker, this small sampling from across this nation shows us that hate crimes remains an issue to be heard and combated by all Members of Congress and all Americans. I applaud my colleagues in the House of Representatives for recently passing the Local Law Enforcement Hate Crimes Prevention Act of 2007, H.R. 1592; recognizing the pervasive and contemporary nature of hate crimes in this nation. The death of Vincent Chin and the injuries and death suffered by the countless other victims of hate crimes serve as a heavy reminder for this nation to combat hate and continue in its quest for freedom and justice for all Americans.

SCOTT HIGH SCHOOL HONORED FOR PRACTICING AND PROMOTING CONSERVATION

HON. LINCOLN DAVIS

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. LINCOLN DAVIS of Tennessee. Madam Speaker, I am pleased to honor the work of students and advisors at Scott High School in Huntsville, Tennessee for implementing and promoting conservation practices at school and in the community.

Through hands-on experiments and computer-aided instructions, students have learned about alternative energy sources such as solar, wind, nuclear, geothermal, hydroelectric, and fossil fuel technologies. They also took field trips to help foster first hand knowledge of these energy sources. School leadership has plans in the near future to use high school students to teach alternative energy education to grade school students.

With the assistance of a few teachers, students were able to mount solar panels, donated by the Tennessee Valley Authority, near the Agricultural Department's greenhouses to run two exhaust fans and a lighted school sign. During this process, students were involved in all aspects of this activity. They designed battery and solar panel racks, mounted the batteries, wired the inverters and other electrical components, and installed the panels.

Their laudable goals and actions have garnered attention by having been selected to attend the National Youth Awards Program for Energy Achievement sponsored by the National Energy Education Development (NEED) Project. The Scott High School energy team will join other winners at the "Kids Teaching Kids Awards Program," in Crystal City, Virginia. The Kids teaching Kids approach encourages students to reach out to their peers and communities and to teach about energy in fun and innovative ways.

There trip to the Washington, DC area will be capped off by attending the NEED Project's National Recognition Ceremonies in Yates Auditorium at the U.S. Department of the Interior. I applaud these young individuals and their advisors for their conservation practices and promoting the use of alternative energy.

TRIBUTE TO MS. KATHRYN WOOD-BACHER OF PENN YAN, NEW YORK

HON. JOHN R. "RANDY" KUHL, JR.

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. KUHL of New York. Madam Speaker, I would like to recognize the achievements of Ms. Kathryn Wood-Bacher as President of the Yates County American Legion Auxiliary in New York. Kathryn has devoted many hours to serving our veterans as a mental health counselor, making herself available to them night and day, whenever they are in need of assistance.

Recently, Yates County endorsed Kathryn for the position of Seventh District Vice President, and because of her tireless dedication and good work, she will most likely be elected to this office at the New York Department Convention in Niagara Falls this July.

Over the years, Kathryn has served as District Junior Coordinator, Certified Community Emergency Safety Responder, Fifth generation Auxiliary member of the Johnson Costello Unit #355, and of course, Yates County President. Kathryn has selflessly devoted her time to caring for our veterans, our Nation's bravest heroes who have put themselves on the line to defend freedom and democracy, and I am proud to recognize her efforts today.

REMEMBERING FORMER CONGRESSMAN ROBIN LEO BEARD, JR.

HON. JOHN S. TANNER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. TANNER. Madam Speaker, I rise today to help remember our former colleague, a distinguished leader and fellow Tennessean, former Representative Robin Beard, who passed away over the weekend. I had the honor of knowing him both professionally and personally.

A former Marine, Robin served twice as assistant secretary general of NATO in Brussels. He and I had several lengthy conversations about NATO and the relationship between that organization and our work here in the House of Representatives. I appreciated his first-hand knowledge into the goals and workings of NATO, and his insights are helpful now as we represent the U.S. Congress at the NATO Parliamentary Assembly.

Madam Speaker, I hope you and our colleagues will join me and the Tennessee delegation in remembering former Congressman Robin Beard, who made great contributions to our state, our country and the global community.

TRIBUTE TO MRS. TINA PEARSON

HON. MIKE McINTYRE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. McINTYRE. Madam Speaker, on behalf of the United States Capitol Guides Service, I would like to enter into the CONGRESSIONAL RECORD a tribute to Mrs. Tina Pearson of Wilmington, NC. For almost 3 years, Tina has faithfully and exceptionally served as assistant director for training for the United States Capitol Guide Service and Congressional Special Services Office. In this capacity, Tina has assisted in the management of the operations of the day-to-day operations of Visitor Services. In addition, she has developed and implemented training policies for Capitol Guides, worked with the Congressional Leadership on special events, and participated in the planning of the Capitol Visitor Center. Prior to her work with the Guide Services, Tina worked in my congressional office where she exceptionally performed a wide range of duties including legislative correspondence, intern coordinator, and special events. A former teacher of the year at Eugene Ashley High School in 2003, Tina's love for education, her ability to communicate effectively, and her passion for serving her nation will be our loss. We wish her and her family the best as they move to the next chapter in their lives. In closing, let me enter into the record a poem written by Bert Caswell, one of the Capitol Guide Service employees that capsulates the admiration for a job well done by Tina.

This poem was penned in honor of Tina Peason, of The United States Capitol Guides Service by Albert Caswell. Tina is moving back to North Carolina to be with her family for the most important job one could have . . . to raise a family. We will miss you, Tina. . .

You pulled us up
but, never down!
As in all of us,
but the good you found!
You made us better,
you made us sound. . .
You showed us all how to lead,
as you gave to us all that we need!
All so we could succeed!

All in your quiet grace,
all in your kind and caring face. . .
There for us!
As you cared for us!
For you, we wanted to succeed!
But, when that baby came. . .
I'd knew for sure so soon we'd miss your name!
For an artist can but paint one canvas at a time!
And greatest gift to our world to find!

Is to but to give to this our world,
a happy, healthy, and wonderful little girl to find. . .
Who will grow up to be, a treasure in our world you see!
Marleigh . . . Marleigh
Our loss is now but your fine gain. . .
A wonderful Mother to love you, and paint your life scenes!
And Tina, today as you leave,
look back, on Freedom's face a tear you'll see!
You pulled us up!

TRIBUTE TO ANNETTE ROLLE

HON. KENDRICK B. MEEK

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. MEEK of Florida. Madam Speaker, today I rise to pay tribute to a woman who has dedicated her life to the service of others, Annette Rolle. Soon, she will retire after 37 years at the Cedars Medical Center located in Miami, FL. Ms. Rolle has served our community with great distinction, and for her years of service, we in South Florida are immeasurably thankful.

During Ms. Rolle's 37 years at Cedars Medical Center, she worked as a CRCS Technician, as the Assistant Director of Central Services and as the Central Services Manager. She made it her mission to provide a higher standard of care for people in need. Ms. Rolle did all of these things out of her genuine care

for people. She provides blood pressure screening to members of her church and encourages others to donate blood and become organ donors.

Her commitment to service is not only evident in her professional life but in her personal life as well; Ms. Rolle has been a faithful member of Greater New Bethel Baptist Church, where her Pastor has been Reverend Dr. G. David Horton, for over twenty years. She serves as a member of the Pastor's Aide, Mission Ministry, Ushers' Ministry, Nurses' Guild and Sunday School Ministry.

Annette Rolle is the wife of the late Steven L. Rolle Jr.; the proud mother of two beautiful daughters, Alesia Evans and Stephanie S. Rolle; and the exuberant grandmother of La'Nesia Smith. Her extended family includes three stepchildren, Judye, Vonn, and Steven Rolle III.

Annette Rolle's compassion and concern for those less fortunate in our community are virtues that we all should aspire to. Ms. Rolle is a person of character, who saves lives both inside and outside of the hospital. Her life is an example to both young and old that living a life of purpose is the greatest achievement. She has given herself tirelessly to her church, community, and profession. Annette Rolle is a courageous spirit and is deserving of our accolades.

On behalf of a grateful community, I salute Annette Rolle. Now, in retirement, she embarks upon a new journey, and I wish her every happiness and success.

RECOGNIZING THE HISTORICAL SIGNIFICANCE OF JUNETEENTH INDEPENDENCE DAY

HON. AL GREEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. AL GREEN of Texas. Madam Speaker, I am proud to be a co-sponsor of H. Con. Res. 155, a resolution recognizing the historical significance of Juneteenth Independence Day. ''Juneteenth'' is celebrated annually on June 19th to recognize the full emancipation of slaves in the State of Texas. President Abraham Lincoln signed the Emancipation Proclamation freeing the slaves across the country on January 1, 1863. Unfortunately, slaves in Texas did not feel the effect of this monumental decision until 2½ years later. The Emancipation Proclamation had little effect on African Americans in Texas due to the minimal number of Union troops that were present in Texas to enforce the new executive order.

The Union troops led by General Gordon Granger landed in Galveston, Texas on June 19, 1865. Upon General Granger's arrival there was massive resistance from the slave owners, regarding the presence of Union troops in the State. Despite much opposition, Union forces soon became strong enough to influence and overcome that resistance. Granger said, ''The people of Texas are informed that in accordance with a Proclamation from the Executive of the Untied States, all slaves are free. This involves an absolute equality of rights and rights of property between former masters and slaves, and the connection heretofore existing between them becomes that between employer and free laborer.''

Madam Speaker, the injustice that was committed against the African American slaves held captive against their will was immense, as was the injustice committed against those held past the captivity date. Had General Gordon and his troops not taken the initiative to make the trip to Texas, there is no telling when these slaves would have realized their freedom.

I am compelled to recognize the historical significance of ''Juneteenth'' because the monumental date of June 19, 1865 represents the realization of freedom and justice for all. This date symbolizes the genius of our country's struggle to bring about a more perfect union, a struggle that continues to this very day. Madam Speaker, I urge my colleagues to support and recognize the historical significance of the Juneteenth Independence Day.

HONORING THE LONG-TERM RESOURCE MONITORING PROGRAM

HON. RON KIND

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. KIND. Madam Speaker, I rise today to congratulate the USGS Upper Midwest Environmental Sciences Center Long Term Resource Monitoring Program (LTRMP) for the Cooperative Conservation award they received from the U.S. Department of Interior.

Established in 1986 through the Water Resources Development Act, the LTRMP plays a key role in the Environmental Management Program. It is implemented by the United States Geological Survey office in Onalaska, Wisconsin in cooperation with five Upper Mississippi River States: Illinois, Iowa, Minnesota, Missouri, and Wisconsin.

This model partnership of Federal, State and local agencies is an integral part of research done on the Upper Mississippi River System and a prime example of teamwork.

Congress recognized the Upper Mississippi River System as both a nationally significant ecosystem and a nationally significant commercial navigation system. Accordingly, the mission of the Long Term Resource Monitoring Program is to provide decision makers with the information needed to maintain the Upper Mississippi River System as a viable multiple-use large river ecosystem. The long-term goals are to understand the system, determine resource trends and impacts, develop management alternatives, manage information, and develop useful products.

The LTRMP, through six remote State-operated field stations, has provided critical data collection, analyses, research and modeling of the environmental components of vegetation, water levels and quality, fishes and invertebrates. It was one of the pioneers in geo-spatial information systems, documenting land use and land cover mapping and analysis. This data is vital for planning, design, and assessment of restoration and rehabilitation projects. It is the LTRMP that provides a knowledge base for effective, cost-efficient habitat projects and then documents their success.

The LTRMP continues to be the most consistent, comprehensive large river monitoring program in the world. More than 200,000 data observations have been collected to evaluate important short- and long-term changes associated with ecological components of the UMRS.

On multiple occasions, I toured this amazing facility and witnessed the ongoing and award-winning research. I am proud to have it not only in my district, but in my hometown.

THE OMNIBUS AUTISM HEARINGS

HON. DAN BURTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. BURTON of Indiana. Madam Speaker, I rise tonight to talk about the Omnibus Autism Hearing which started on June 11, 2007, down at the U.S. Federal Claims Court here in Washington, DC. At issue are the 4,800 claims against the National Vaccine Injury Compensation Program filed by parents of autistic children who believe, as I do, that thimerosal—the mercury-based preservative in vaccines—caused their children's disorders.

There are many people in our health agencies, in the pharmaceutical industry and here in Congress who say that there is no the scientific evidence linking thimerosal and autism. However, during my tenure as chairman of Government Reform Committee (1997–2002), and as chairman of the Subcommittee on Human Rights and Wellness (2003–2005), I chaired numerous hearings examining the alarming increase in autism in this country over the last several decades. In the 1980s, roughly one in 10,000 American children was diagnosed with some kind of autism spectrum disorder. Today that number has risen to 1 in 150. I believe, as do many credible scientists and researchers, that the clear correlation between the dramatic rise in the number of autism cases, and the rapid expansion of the childhood vaccination schedule during that 20-year period, points to the mercury-based preservative thimerosal—routinely used in pediatric vaccines during the period—as a contributing factor to our country's literal epidemic of autism. In fact, I firmly believe my own grandson became autistic after receiving nine shots in 1 day, seven of which contained thimerosal. In fact, Dr. Bernard Rimland—founder and director of the Autism Research Institute—testified before the committee that classic autism, (noticeable from birth) has largely been replaced by late-onset or ''acquired autism''; a form of autism in which children are born normally developing but later regress into autism in the second year of life. He was one of the first to point to environmental insult through vaccine injury as a possible leading contributing factor.

The truth is that since the initiation of my vaccine investigation, two schools of science have evolved leading to two very different conclusions. The first, largely funded by the Centers for Disease Control, consist of epidemiological evaluations in Denmark that look at

medical files in individuals who developed autism and deciding whether or not thimerosal exposure was more predominant in the autism patients. Those who have focused solely on the epidemiology research have concluded that there is no relationship between vaccine injury and the onset of autism. However, once published, these studies were discovered to have many methodological flaws. For example, using individuals in Denmark did not provide a true comparison to the U.S. vaccine schedule, and by the CDC's own admission, the study could not really provide any true conclusion as to whether or not a subset of the population—because of vaccine exposure to mercury or some other vaccine injury—developed autism.

The second school of research has conducted so-called ''hard'' science; providing objective measures through laboratory and animal research. For example, Dr. Hornig at Columbia University replicated the thimerosal exposure in vaccines in a mouse study and discovered mice exposed to thimerosal had both behavioral and biological responses—displaying autism like behaviors and exhibiting white matter changes in the brain that were measurable. Other laboratory research has shown that thimerosal exposure affects the protective sheath of the neurofibrals in the brain as well as the IGF–I molecule. And Dr. Jill James at the University of Arkansas has shown that thimerosal exposure affects the methylation process—the mechanism used to regulate genes and protect DNA from some types of damage.

The most recent hard science study to be published is from Dr. Burbacher, a leading expert on mercury, who investigated the different affect methyl mercury and ethyl mercury had on primates. He found that ethylmercury—the form of mercury in thimerosal—stays in the brain (doing more harm) than methylmercury.

The bottom line is that mercury is a base element and the most toxic substance known to science outside of radioactive materials; and each of these hard science studies, and more, show that it is biologically plausible for mercury exposure in vaccines to cause the onset of autism and provide tantalizing pieces in the puzzle about how.

My support for the link between thimerosal and autism, especially in open congressional hearings has caused many people to throw around the accusation that I am ''anti-vaccine.'' My response to that is that vaccines are the only medications that are mandatory for Americans to receive and as such we have an even greater obligation to ensure that they are as safe as possible. In addition, experience tells us that, as with any other epidemic, while there may be underlying genetic susceptibilities, there usually is some type of environmental trigger as well, such as a virus, fungus, exposure to heavy metals, pollutants, or whatever. There has never, to the best of my knowledge, been a purely genetic epidemic. So, genetics alone simply cannot explain how we went from 1 in 10,000 children with autism spectrum disorders 20 years ago to 1 in 150 today.

No one has ever identified a positive health benefit to mercury in the human body. Thus, it was sound public health policy to eliminate mercury from thermometers, blood pressure gauges, light switches, cosmetics, teething powder, horse liniment, hat-making materials, smokestack emission, and mining operations. It would also be sound public health policy to eliminate mercury from all vaccines.

But Madam Speaker, getting the mercury out of all vaccines is only the first step. We also have a responsibility to help all of the children who have already been injured by mercury in vaccines. That is why the outcome of the Omnibus Autism Hearing is so critically important. In the 1980s, Congress creating the Vaccine Injury Compensation Program to shield medical professionals and vaccine manufacturers from liability if an individual suffered an adverse event from receiving vaccines. The compensation fund, which currently contains about $2.5 billion, is financed by a tax on pediatric vaccines. We created VICP to protect the vaccine supply and to insure that all who were injured by a vaccine would receive compensation in what was supposed to be a no-fault, easy to use manner. Congress intended for families to be compensated quickly and fairly; and when the evidence was close as to whether or not the medical condition in question was vaccine related or not—as is the case with thimerosal—the court should always err in favor of the injured. But over the years the system has broken and what was supposed to be quick and fair has become slow and contentious; which is why today 4,800 families are fighting in court to be heard. They have waited a long time for their day in court and I am pleased that the court is providing the transcripts online quickly and that audio streaming on the internet is being provided for the thousands of families who are not able to travel to Washington and actually be in the courtroom during the proceedings.

As the Omnibus hearings proceed, I hope that all of the evidence regarding vaccine injury will be received by the courts and given a full and fair review. I believe the families of these autistic children deserve to be compensated for their vaccine injury as Congress intended when it created VICP. I believe the science is there to prove this case and I am hopeful that the court will agree and at the end of this arduous process these 4,800 families will finally get justice.

ARC FUNDING

HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. RAHALL. Madam Speaker, ''a rising tide,'' President Kennedy told us, ''lifts all boats.'' And so one of President Kennedy's legacies was created in 1965 with a unique mission to serve a unique part of the Nation, the Appalachian region.

Historically, the counties of Appalachia have ''faced high levels of poverty and economic distress resulting from geographic isolation and inadequate infrastructure.''

It was with these concerns in mind that ARC was created and it is these concerns ARC has been addressing vigorously for the past 40 years.

Take for example the area of transportation, a major focus for ARC. ARC was developed, in part, because of the severe isolation experienced in Appalachia and that in order to develop Appalachia and give its people an opportunity to compete, a system of highways was needed. Enter the Appalachian Development Highway System, which was created to serve the transportation needs of Appalachian residents by assisting in the construction of highways so critically needed by Appalachian communities for economic growth and development.

The ADHS now encompasses over 3,000 miles of Appalachian highways and nearly 85 percent of those roads are complete or under construction. The ADHS is truly a success story for ARC and all of Appalachia. Despite the Presidents recent budget, which requests eliminating funding for the Appalachian Development Highway System, it is my strong conviction that this program be continued at the agreed upon level set forth in SAFETEA–LU.

If Members review a recent report, entitled, The Potential for an Uncontrolled Mass Evacuation of the DC Metro Area Following a Terrorist Attack: A report of Survey Findings, by West Virginia University, it becomes readily clear that the ARC's development highways will critically serve another national purpose in times of ''mass spontaneous evacuations,'' particularly from here, Madam Speaker, our Nation's Capital. This may surprise many, but about 83 percent of the people here plan on probably leaving, and 88 percent of those plan on leaving by car.

Without doubt Appalachia, West Virginia, in particular, must be ready to handle such future fateful events. The ARC can be a catalyst in preparing for such an eventuality, but they do not have the resources, nor the mandate to fulfill this function. I hope this lone call, will signal, first the need, and secondly the will, of this Member of Congress, that we need full partners in the federal government to work with ARC and other appropriate agencies to plan for evacuations now rather than some distant day.

ARC has also been a responsible steward of the federal funds it has received over the years. For example, in FY 2006, across all investment areas, each dollar of ARC funding was matched by $3.14 in non-ARC public project funding, and each ARC dollar invested leveraged $11.55 in private investment in ARC projects over time.

And while a major focus of ARC remains on highways and Appalachian transportation infrastructure, as the times have changed so has ARC.

As much of the United States has been able to take advantage of the technological boom of the late 20th and early 21st Centuries, Appalachia once again is in danger of being left behind and unable to compete in the global marketplace.

In the most recent FCC data on high-speed connections for Internet access, released on January 31, 2007, you can track the Appalachian mountain range by just how spotty the provider coverage is on the FCC's provider map. In fact, West Virginia is significantly below the average in broadband use nationwide.

Again, ARC is there to offer significant support, bringing broadband access to our communities, which is essential to leveling the

playing field and giving our communities an opportunity to compete. Schools, businesses, local governments and individual homes all have benefited from ARC involvement in the expansion of broadband access in Appalachia, and continue to do so.

I have been working with ARC, private telecommunications companies, and local economic development leaders to bring broadband technology into southern West Virginia. For example, through the E-commerce training initiatives being offered by ARC and others we are working to connect local small businesses to broadband, opening doors to Internet sales and services that just weren't there a couple of years ago.

It is ARC's ability to serve its mission by adapting its actions to fit the times that makes ARC such an invaluable resource to Appalachia and the Nation. From the Appalachian Development Highway System to the E-commerce and broadband initiatives, ARC continues to serve its mission by advocating for and partnering with the people of Appalachia to create opportunities for self-sustaining economic development and improved quality of life.

I applaud the efforts of Federal Co-Chair Anne Pope who, as a native daughter of Appalachia, executes so well the mission of ARC in each of Appalachia's communities. I have said this before and am happy to do so again on the record, Anne is one of the finest Federal Co-Chairs to ever serve the people of Appalachia and I look forward to our continued strong relationship serving the needs of southern West Virginians, together.

I strongly support ARC, its mission and the incredibly successful initiatives it has undertaken to better the lives of the people of Appalachia and West Virginia. It is why I signed a bipartisan letter of support for increasing the funding which the ARC receives, which I request be included in the RECORD, and I continue to support strong and robust funding to maintain the vision which President Kennedy laid before us, some 40 years ago.

CONGRESS OF THE UNITED STATES,
Washington, DC, April 24, 2007.

Hon. PETER VISCLOSKY,
Chairman, Subcommittee on Energy and Water Development, House Committee on Appropriations, Washington, DC.

Hon. DAVID HOBSON,
Ranking Member, Subcommittee on Energy and Water Development, House Committee on Appropriations, Washington, DC.

DEAR CHAIRMAN VISCLOSKY AND RANKING MEMBER HOBSON: We respectfully request that you include funding in the amount of $75 million for the Appalachian Regional Commission (ARC) in the Fiscal Year 2008 Energy and Water Development Appropriations bill.

Since 1965, the ARC has contributed significantly to improving the quality of life for the 23 million Americans in the Region by working closely with its federal, state, and private sector partners and local communities.

As Representatives from Appalachia, we see first hand the successes that have resulted from the ARC's economic development initiatives. For example, the Region's poverty rate has been cut in half, the infant mortality rate has been reduced by two-thirds, the high school graduation rate has increased by over 70 percent—comparing favorably with the national average, and the Commission's initiatives have helped create approximately 1.6 million jobs.

We are requesting this modest increase to help the ARC address more aggressively the Region's infrastructure deficiencies and the continuing human capital and leadership deficits which result in concentrated areas of poverty and unemployment. Over the last ten years, funding for the ARC has remained level at around $65 million and the Region continues to receive less federal assistance per capita than the rest of the country.

The ARC has been a responsible steward of the federal funds it has received over the years. For example, in FY 2006, across all investment areas, each dollar of ARC funding was matched by $3.14 in non-ARC public project funding, and each ARC dollar invested leveraged $11.55 in private investment in ARC projects over time.

With the advent of the global economy, the ARC faces more complex and profound challenges while third world conditions still exist in the Region and require the Commission's continued focus. For example, according to a recent analysis completed by the University of North Carolina Environmental Financing Center, the counties in the Region require estimated investments of $11.4 billion to meet current drinking water needs and $14.3 billion for wastewater needs. This is substantially more than the funding that is currently available from combined state and federal programs. Without basic infrastructure, economic development, and improvements in the overall quality of life, the Appalachian Region will continue to lag well behind the rest of the nation.

Currently, the rural areas in the Region lag behind the nation in access to cable modem and DSL services and other forms of high speed internet access. We know the deployment of telecommunications infrastructure throughout the Region has become an absolute necessity if Appalachians are going to compete in the national and global economies. Today's globalization comes with a higher threshold for success: high technology jobs rather than manual labor, college education rather than basic literacy and the need for modern telecommunications infrastructure to facilitate economic development.

Despite the impressive accomplishments of the ARC, the 410-county Region still faces a complex set of economic and social challenges and will need continued support from Congress if the Commission's goal for the Region—socio-economic parity with the rest of the nation—is to be reached.

Looking to the future, the ARC expects to capitalize on the Region's abundant energy assets to promote job creation in the energy sector with energy efficiency and renewable energy initiatives as well as with conventional fuels.

Appalachia's future remains at risk. Therefore, on behalf of the citizens in the Region we urge you to support a funding level of $75 million for FY 2008. We believe this level will allow the agency to continue its important work to improve the quality of life in Appalachia, particularly in the poorest and most underdeveloped counties.

Thank you for consideration of our request.

Sincerely,

Zack Space, David Scott, David Davis, Heath Shuler, Michael A. Arcuri, Lincoln Davis, Roscoe G. Bartlett, Spencer Bachus, Rick Boucher, Charles A. Wilson, Phil English, Shelley Moore Capito, Tim Holden, Christopher P. Carney, Ed Whitfield, Hank Johnson, Jr., Jason Altmire, Paul E. Kanjorski, John J. Duncan, Jr., Nick J. Rahall, II, Brian Higgins, Kirsten E. Gillibrand, Geoff Davis, Chip Pickering, and Phil Gingrey.

Members of Congress.

PERSONAL EXPLANATION

HON. JULIA CARSON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Ms. CARSON. Madam Speaker, on Monday, June 18, 2007, I was unable to vote on rollcall Nos. 499 through 501. Had I been present, I would have voted "yes" on all of these amendments.

PERSONAL EXPLANATION

HON. BART STUPAK

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. STUPAK. Madam Speaker, on Friday, June 15, 2007, I missed votes because I had left Washington, I attend my son's swearing in to the California State Bar. I rise today to enter into the record how I would have voted had I been able to vote.

House rollcall vote 466. I would have voted "no" on the McHenry Amendment to the Foxx Amendment, which failed by a vote of 108–300. This amendment would have resulted in a 50 percent cut to the General Counsel's office.

House rollcall vote 467. I would have voted "yes" on the Foxx Amendment, which would have reduced funding of the Office of the Secretary by $1.241 million.

House rollcall vote 468. I would have voted "yes" on the Fallin Amendment to reduce Office of the Secretary funding by $138,000.

House rollcall vote 469. I would have voted "yes" on the Drake Amendment, to provide $9.1 million for the 287(g) program, which trains and supports local law enforcement to enforce immigration laws, and reduces the Under Secretary for Management by $10.4 million.

House rollcall vote 470. I would have voted "yes" on the King of New York amendment, which would provide $40 million for domestic nuclear detection office.

House rollcall vote 471. I would have voted "no" on the Brown-Waite amendment to provide an additional $89.125 million for border fencing and technology because the bill fully funds the President's $1 billion request.

House rollcall vote 472. I would have opposed the Burgess amendment that would have cut the Under Secretary for Management by $15 million and fund the Secure Flight program because the Administration has no plan for this program's operations and privacy protections.

House rollcall vote 473. I would have supported the Ferguson amendment which would have cut the Under Secretary for Management by $50 million and increase Buffer Zone Protection grants, doubling funding for the program.

House rollcall vote 474. I would have supported the McHenry amendment to cut Under Secretary for Management and increase Citizenship and Immigration Services immigration processing by $30 million.

House rollcall vote 475. I would have voted ''no'' on the Pearce Amendment. The amendment would cut aviation explosive investment by $125 million and increases Customs and Border Protection by a like amount. This amendment would delay security improvements to detect explosives at airports and in air cargo. This bill already contains record numbers of border patrol agents and border protection funding.

House rollcall vote 476. While I support border fencing, I would have opposed the Carter Amendment. The amendment would eliminate the following requirements—State, local and Federal consultation on border fencing; a 15-day public notification of environmental waivers; and a good-management expenditure plan for the $1 billion provided in this bill for border fencing and technology. As a Representative of a border community, I have strong concerns about eliminating the requirement the Department consults with border communities and states when constructing fencing.

House rollcall vote 477. I would have voted ''no'' on the McCaul Amendment, which would eliminate the requirement to certify the cost effectiveness of unmanned aerial vehicle use at the borders before additional ones may be procured.

House rollcall vote 478. I would have voted ''yes'' on Amendment No. 105, offered by Rep. King (IA). The amendment would provide an additional $5 million for Immigration and Customs Enforcement to promote an employment eligibility program, bringing the total to $35 million.

House rollcall vote 479. I would have voted ''no'' on the Bilbray Amendment. The amendment would provide $150 million additional funding to REAL ID, when there was already $50 million in the bill.

House rollcall vote 480. I would have voted ''no'' on the McCaul Amendment (No. 99), which would strike a provision in the bill to limit funding in this or any other bill until pending litigation on the human resource system is resolved.

House rollcall vote 481. I would have voted ''no'' on the Rogers (KY) Amendment No. 2. The amendment would cap the number of aviation screeners at 45,000.

House rollcall vote 482. I would have voted ''no'' on the Poe Amendment. This amendment would require people traveling to and from my District and Canada to have a passport and would not allow the Department of State to implement an alternative passport document.

House rollcall vote 483. I would have voted ''yes'' on the LaTourette Amendment to restrict funding in the Act from implementing the Western Hemisphere Travel Initiative before June 1, 2009. I strongly support not allowing the administration to implement WHTI before 2009 because the Administration has failed to report on how it will implement the program in a way that does not affect trade and protect the privacy of my constituents.

House rollcall vote 484. I would have voted ''no'' on the Tancredo Amendment, which would restrict funding in the Act from implementing the Visa Waiver program, a program with 27 countries today.

House rollcall vote 485. I would have opposed the Tancredo Amendment No. 7 which would block State and local communities from receiving grant funding if they are found to be acting in contravention of the law that States and locals cannot prevent the sharing of immigration information with the Federal government. Neither DHS nor the Department of Justice has ever found this to have happened.

House rollcall vote 486. I would have voted ''no'' on the Royce Amendment that would require all $1 billion in the bill for border fencing and technology only for two layers of pedestrian fence.

House rollcall vote 487. I would have voted ''no'' on the Forbes Amendment which would eliminate the ability to extend Temporary Protected Status granted victims from war-torn countries.

House rollcall vote 488. I would have voted ''no'' on the Rogers (KY) Amendment. The amendment would eliminate the Davis-Bacon prevailing wage requirement in the bill. Our contract workers deserve to be paid a prevailing wage and I strongly oppose this amendment.

House rollcall vote 489. I would have voted ''no'' on the Rogers (KY) Amendment No. 1. The amendment would reduce funding in the bill across-the-board by 5.7 percent, or a total of $2.1 billion.

House rollcall vote 490. I would have opposed the Republican Motion to Recommit on this bill.

House rollcall vote 491. I would have voted ''yes'' on final passage of the Fiscal Year 2008 appropriations bill, which includes $1 billion for border security, funding for an additional 500 agents on the northern border, and reverses cuts made by the administration to critical first responder grant programs.

House rollcall vote 492. I would have voted against the Hayes Amendment, which would cut $30 million, or 15 percent, from the NATO Security Investment Program.

House rollcall vote 493. I would have voted for the Blumenauer/Brown-Waite Amendment to cut $201 million from the BRAC 2005 account and increase the BRAC 1990 account by $50 million. There is currently a $3.5 billion backlog in environmental clean up projects necessary as a result of previous BRAC rounds. This amendment ensures that we continue to make progress on rehabilitating old bases.

House rollcall vote 494. I would have voted ''no'' on the Price Amendment to cut $50 million from the BRAC 1990 account, which funds old environmental clean up programs. The amendment would then increase VA medical services funding by $22 million. The bill already includes $28.9 billion for veterans' medical care, the largest increase in the history of the VA.

House rollcall vote 495. I would have voted ''yes'' on the Moran Amendment. This amendment would have increased the beneficiary transportation account by $10 million.

House rollcall vote 496. I would have voted ''yes'' on the Garrett Amendment to add $10 million to the State Extended Care facilities account. As I represent the Jacobetti Veterans Home in Marquette, MI, I have been a strong supporter of veterans' homes.

House rollcall vote 497. I would have voted ''yes'' on the Musgrave/Salazar amendment to prohibit the Army from studying the possible expansion of the Pinon Canyon maneuver site, a training site in Colorado.

House rollcall vote 498. I would have voted ''yes'' on the final passage of the 2008 Military Construction and Veterans Affairs Appropriations bill, which included the largest increase in VA funding in U.S. history.

A TRIBUTE TO W. HORACE CARTER

HON. MIKE McINTYRE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. McINTYRE. Madam Speaker, on April 15, 1947, Jackie Robinson took the field as a member of the Brooklyn Dodgers baseball team and broke the color barrier as the first African American to play in the major leagues. His courage, determination, and integrity have served as an inspiration to generations and opened the door for thousands to play our national pastime. Rightly, our Nation recently stopped to celebrate the 60th anniversary of this historic milestone.

However, as many know, the practice of discrimination and racism continued many years after Mr. Robinson's historic first game. Indeed, there were other courageous individuals who joined in the fight for equality and justice for all.

One such man was W. Horace Carter of Tabor City, North Carolina.

On a July night in 1950—thick with heat and the humidity of the Deep South—Horace Carter watched as Ku Klux Klansmen made their violent way through his hometown. One hundred Klansmen, in 29 cars, robbed and terrorized this small community of farmers and merchants with threats of racism.

Although just 29 years old and the new publisher, editor, and newsman for the Tabor City Tribune, Carter knew this was his moment of decision.

He said, ''I searched my soul that evening and on into the next week. Was it worth sacrificing our happiness, shattering the tranquil life of running a little newspaper in a small town and taking part in Red Cross Drives, church covered dish suppers, and the Annual Yam Festival promotion just because I believed in a principle? Was it worth the risk that the print shop might be burned, our home dynamited? I could be dragged from our house with the frantic screams of my family ringing in my ears. I might suffer a brutal lashing by a band of masked hoodlums or even death if I dared to oppose them. Is it the time to stand up for principles even before I am fully aware of what this Klan proposes? I didn't want to sound pious or self-righteous, but I reasoned that if I were ever to campaign against this Klan reorganization, I should do it from its inception. That was now. I sat down at my used fifteen-dollar Royal typewriter and with my experienced hunt-and-peck typing style, and I wrote an editorial.''

Thus began a 3-year crusade against the Klan in the editorial pages of this small Southeastern North Carolina newspaper. Carter's courage, determination, and words helped in the convictions and prison time for Ku Klux Klansmen. For his conviction of doing the right thing, Mr. Carter catapulted the Tabor City Tribune into national prominence, which received the Pulitzer Prize for Meritorious Community Service, the most prestigious of the Pulitzers.

Madam Speaker, Jackie Robinson once said, ''A life is not important except in the impact it has on others' lives.''

Although Mr. Robinson did not know W. Horace Carter, there is no doubt that his words were about persons just like him.

Mr. Carter's life has continued to be one of honor, leadership, and service. He was elected Mayor of Tabor City in 1954 and was judge in the weekly city court. He has served as President of the Tabor City Chamber of Commerce, Tabor City Rotary Club, Columbus County Economic Development Commission, County Library Board, Tabor Industrial Development, Inc., Tabor City Recreation Commission, and a Sunday School teacher in the Baptist church.

A graduate of the University of North Carolina at Chapel Hill and a World War II Navy veteran, Mr. Carter and his wife Lucille have three children, Rusty Carter, Linda Carter Metzger, and Velda Carter Hughes.

May God's blessings continue to shine upon this most special man and his enduring legacy.

HONORING CONGRESSIONAL AWARD GOLD MEDAL WINNERS

HON. TIM MAHONEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. MAHONEY of Florida. Madam Speaker, it gives me great pleasure to congratulate the Congressional Award Gold Medal winners from in and around Florida's 16th Congressional District. I am honored to celebrate the achievements, initiative and service of these exceptional youths. The youths honored earlier today earned the Congressional Award Gold Medals through substantial achievements in voluntary public service, personal development, physical fitness, and expedition/exploration.

Earlier today, I had the honor of presenting many of these young men and women with Congressional Award Gold Medals. Earning a Congressional Award Gold Medal requires integrity of character, a strong work ethic, and a drive to succeed. These students have already developed strong leadership skills and have proven that they can achieve any goal they set their mind to. The medalists honored today and all students working to earn a medal should be commended for their hard work and commitment to our community.

Tonight, I congratulate these outstanding Florida youth on their achievement.

Alexandra Campbell, Cardinal Newman High School, Palm Beach Gardens, FL. Alexandra utilized her love for volleyball to achieve several of her goals, including acting as an assistant volleyball coach and improving her technique.

Elizabeth Davis, Palm Beach Gardens High School, Palm Beach Gardens, FL. Lizzy was a member of her high school's varsity Volleyball, Soccer and Softball teams and will play on the soccer team for the University of Alabama, where she will be a freshman in the fall.

Lauren Dobry, Cardinal Newman High School, Palm Beach Gardens, FL. Lauren volunteered her time at a local hospital, working full-time during the summers. She also participated in fundraiser events for victims of Hurricane Katrina.

Jordan A. Dulcie, Suncoast Community High School, Palm Beach Gardens, FL. As a member of the Boy Scouts of America, Jordan participated in the many outreach activities and leadership building opportunities available through his Boy Scout Troop.

Rachel Gossens, The King's Academy, North Palm Beach, FL. Rachel's interest in boating led her to read boating manuals and navigation books and to undertake a 10-day boat trip to the Bahamas.

Lindsey H. Green, Suncoast Community High School, Jupiter, FL. Lindsey dedicated her time to helping others through her local hospital, nursing homes and several health-related volunteer organizations.

Ray Hosaka, Jupiter Community High School, Palm Beach Gardens, FL. Ray's interest in science led him to volunteer his time to the community by monitoring and measuring the water quality in the Loxahatchee River.

Bianca Kahlenberg, South Fork High School, Stuart, FL. Bianca volunteered at the American Red Cross in Martin County.

Christopher Leddy, South Fork High School, Stuart, FL. Chris worked hard for the Martin County Red Cross to complete his hours of community service, enjoying his time so much he joined the Red Cross on a camping trip as his expedition.

Melissa Leddy, South Fork High School, Stuart, FL. Melissa's passion for dance and cheerleading helped her attain her goals. She attended a cheerleading and dance camp and earning a varsity letter for cheerleading.

Andrea Ramos, Stuart, FL. Over the last 4 years, Andrea has given more than 500 hours of voluntary public service to the American Cancer Society.

Devon Rosecan, American Heritage, Palm Beach Gardens, FL. For his expedition, Devon lived with a family on a Navajo reservation for 10 days. He fully participated in the activities of the family and the tribe.

Ryan W. Royce, Suncoast Community High School, Palm Beach Gardens, FL. Ryan spent over 600 hours playing Varsity Football to achieve his physical fitness goal. He used his athletic talent as a youth coach for both football and basketball.

Joseph R. Russo, Jr., Cardinal Newman High School, Palm Beach Gardens, FL. Joey honed his political skills through his Key Club by running for both FL District Governor and International Trustee.

Andrew Sisko, Cardinal Newman High School, Palm Beach Gardens, FL. Drew was a Varsity starter in both lacrosse and soccer. He was named an All League ''honorable mention'' and twice named on the ''first team'' for lacrosse.

A TRIBUTE TO JONATHAN GIST

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. TOWNS. Madam Speaker, I rise today to honor Brooklyn banker and businessman Jonathan Gist. Jonathan was born and raised in Brooklyn, NY. He is a graduate of Thomas Jefferson High School and attended City University of New York's Baruch College for 2 years.

Jonathan Gist enlisted in the U.S. Marine Corps following college and was trained as a Weapons Specialist. He was later promoted to Staff Sergeant, and after 4 years of service received an honorable discharge. After leaving the military, Jonathan moved to Wall Street taking a job with Dean Witter, Reynolds.

Jonathan Gist's Wall Street experience was the catalyst for him to launch a career into the banking industry. In 1985 he joined one of the major players in banking, Citibank. Today he remains a part of the Citibank team where he is employed as a Bank Manager.

Jonathan Gist is also a caring community activist. He has been working with the Beacon Program for the past 10 years. This program occupies the time of children once they leave school for the day with such activities as sports, tutoring and arts and crafts. Jonathan is also a part of the organization Green Thumb that assists local residents in beautifying their neighborhoods with plants, flowers, and trees.

Jonathan Gist has taken charge of his neighborhood as the President of the Schenck Avenue Block Association. In this capacity he ensures that area children have a place to play, learn to grow plants, and are escorted on educational field trips.

Jonathan Gist is the third child of four children and has been married to his wife Darlene for 20 years. Together they have five children; Jonathan, Jr., Justin, Jamel, Jalen, and Jhkia.

Madam Speaker, I would like to recognize Jonathan Gist who has been unselfish and caring with all of the members of our community.

Madam Speaker, I urge my colleagues to join me in paying tribute to Jonathan Gist.

CONGRATULATIONS TO BAKER HIGH SCHOOL ON WINNING THE 2007 6A GIRLS' SOFTBALL CHAMPIONSHIP

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. BONNER. Madam Speaker, it is with great pride and pleasure that I rise to honor Baker High School on winning the 2007 6A Girls' State Softball Championship.

Baker High School's girls' softball team won the 6A State softball championship, giving the

Honeybee's their third title in the past 6 years. The win also gave Baker its 79th victory of the year, breaking its State record for wins in a season.

Madam Speaker, I ask my colleagues to join me in congratulating Baker High School on a great season and their State softball championship. This school deserves public recognition on this great honor, and I extend my congratulations to each member of the team and coaching staff:

Baker High School Team: Kandace Breeland, 12th; Natalie Charles, 12th; Kelsey Donaldson, 12th; Meghan Harbuck, 12th; Amber Hester, 12th; Jenny Laird, 12th; Monica Meadows, 12th; Krista Rodden, 12th; Jessica Rodgers, 9th; Samantha Shelley, 11th; Jennifer Turner, 9th; Meghan Wallace, 12th; and Head Coach Tony Scarbrough.

IN HONOR OF THE STUDENT GRADUATES OF THE D.A.R.E. PROGRAM FROM ZION LUTHERAN SCHOOL IN WESTWOOD, NEW JERSEY

HON. SCOTT GARRETT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. GARRETT of New Jersey. Madam Speaker, last week, the Township of Washington and Borough of Westwood Police Departments held a D.A.R.E. graduation ceremony. More than a dozen students in Mrs. Munsch's Fifth Grade Class at Zion Lutheran School have been participating in this important program that gives young people the support they need to say no to drugs, underage drinking, and gang violence.

Drug Abuse Resistance Education, or D.A.R.E., began as a small program in Los Angeles in 1983. Today, it is implemented in more than 75 percent of our Nation's school districts and in more than 43 other nations. It uses positive peer pressure to help children defeat the negative cultural influences that bombard them daily. I am proud of the young boys and girls who participated in this program in Westwood, and I would like to recognize: them all for taking this step toward positive citizenship: Jerome Ashby; Melody Ashby; Kara Dawson; Rachel Diomede; James Douglas; Katherine Federov; Jessica Fitzner; Jordan Gregg; Chester Lee; Rebekah Orso; Cassandra Petricca; Stacie Rinda; Emily Thomas.

A TRIBUTE TO MARC GRANT

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. TOWNS. Madam Speaker, I rise today to honor Brooklyn businessman and immigration advocate Marc Grant. Marc came to New York from Guyana, South America in the late 1980s while he was still a small child. His parents had come to the U.S. in previous years.

Marc Grant attended George Wingate High School in Brooklyn and upon his high school graduation he entered Brooklyn College. After leaving college he decided to pursue a career in retail. However, Marc was bitten by the entrepreneurial bug and in 1994 he launched his very own business, MagMa Distribution, named after both he and his mother, distributing detailing supplies to auto bodyshops and carwashes. The company became extremely profitable with sales of $125 million.

Marc Grant decided to get out of the auto detailing distribution business and launch another business, the Success Connection Team. The Success Connection Team is a seminar company that educates people in North America on ways they may increase their net earnings of up to $600 per month without working any additional hours. These seminars also inform clients of the tax breaks passed by Congress for small home-based businesses as well as assist organizations and individuals in reaching their financial goals.

Marc Grant has experience in both traditional and non-traditional business ventures. He is a highly sought after public speaker and the former host of the Success Connection Team radio program.

Marc Grant gives back to his community in his role as Marketing Director for the ''By-Ways and Hedges Real Life Times Immigration Newspaper.'' His work with the paper is an attempt to bring more awareness to the issue of immigration. Marc believes that everyone who comes to this country should have his quality of life or better. A motto he has passed on to his young son Marc, Jr.

I would like to recognize Marc Grant, who has been unselfish in sharing his business skills and knowledge with all members of our community.

I urge my colleagues to join me in paying tribute to Marc Grant.

IN RECOGNITION OF ''BIG CHUCK'' SCHODOWSKI

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. KUCINICH. Madam Speaker, I rise today to recognize ''Big Chuck'' Schodowski for over 40 years of laughter, and to celebrate his considerable contributions to Northeast Ohio.

In 1960, Chuck Schodowski joined the staff of WJW as an engineer, passing up an appointment to the Cleveland Police Department. Shortly thereafter, Chuck befriended Ernie Anderson and began making appearances on his late night show, Ghoulardi. In 1966, when he teamed up with ''Hoolihan'' Wells, ''Big Chuck'' found his true calling—making people laugh.

Through the next ten years, the Hoolihan and Big Chuck Show entertained Cleveland with an array of characters and skits. In 1979, ''Lil' John'' Rinaldi took over for Hoolihan and ushered in a new era of hilarity.

For the last 28 years, the Big Chuck and Lil' John Show has celebrated the rich cultural history of Cleveland with its unique brand of humor and fabulous cast of characters. As the Kielbasa Kid, Cuyahoga Jones, or any other of his many characters, Big Chuck has never failed to delight Clevelanders.

Big Chuck is an Emmy winner, a member of the Broadcasters Hall of Fame, and the recipient of countless awards. He truly is a living legend.

Madam Speaker and colleagues, please join me in honoring ''Big Chuck'' Schodowski for a lifetime spent entertaining Northeast Ohio and celebrating our rich cultural diversity.

A TRIBUTE TO DR. LOUIS D. CAMILIEN

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. TOWNS. Madam Speaker, I rise today to pay tribute and honor Dr. Louis D. Camilien. Dr. Camilien, a Brooklyn transplant, is a native of Haiti. While his parents remain in the country where he was raised, Dr. Camilien migrated to the U.S. and has lived in Brooklyn since 1979.

Dr. Camilien began his medical career while still in his native country of Haiti, graduating from State University of Haiti Medical School. He later performed obstetrics and gynecological training at Kings County and Downstate Hospitals in Brooklyn.

Dr. Camilien has become extremely active in the community since coming to Brooklyn. He is a mentor for doctors at Downstate; testifies for the Student Loan Forgiveness program; and he is the vice-chairman of the Brooklyn Prenatal Network which addresses maternal child disparages and high infant mortality rates in Bedford Stuyvesant, East New York and Brownsville.

Dr. Camilien has been an advisor to elected officials in the matters of maternal children since 1992. He counsels mayors and state officials in Albany, New York on issues involving maternity care. Dr. Camilien is also the past president of the Brooklyn Gynecological Society and has been named one of the best doctors in the New York for several years.

Dr. Camilien currently resides in Manhattan and has two sons, Garvey and Stanley.

I would like to recognize Dr. Louis Camilien as one of New York's most respected physicians.

I urge my colleagues to join me in paying tribute to Dr. Louis Camilien.

RECOGNIZING BEN MIDGETT FOR HIS OUTSTANDING SERVICE TO MOBILE COUNTY AND SOUTHWEST ALABAMA

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. BONNER. Madam Speaker, it is with great pride and pleasure that I rise today to recognize Ben Midgett on more than three decades of dedicated service to southwest Alabama.

Ben recently transferred from the DuPont Mobile site to the DuPont DeLisle site in Pass Christian, Mississippi. After joining the Mobile

Plant and Shell Company in 1977, as a process technician, Ben's first role was as an operator. Two years later, Ben had an opportunity to move to the site laboratory where he remained for 8 years. Here his emphasis was on environmental analysis.

As Federal regulations changed and focus shifted to environmental impact, Ben's expertise made him an integral part of DuPont's environmental team. Because of Ben's knowledge and expertise, he was promoted to public affairs manager at the DuPont DeLisle site.

I ask my colleagues to join with me in commending Ben Midgette for his years of service to Mobile County and southwest Alabama. I know Ben's colleagues, his family, and his many friends join with me in praising his significant accomplishments and extending thanks for all of his efforts at making Alabama a better place.

COMMENDING THE STAFF OF THE WEST MILFORD POST OFFICE FOR EARNING THE STAR DESIGNATION IN THE OSHA VOLUNTARY PROTECTION PROGRAM

HON. SCOTT GARRETT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. GARRETT of New Jersey. Madam Speaker, I rise today to commend the hard-working staff at the U.S. Post Office in West Milford, New Jersey. This post office is the first in North Jersey to earn the STAR designation, demonstrating their dedication to promoting the health and safety of its staff. And, today, in a special ceremony at the post office, they will be recognized for their commitment to the well-being of the men and women who work there.

The more than 26,000 residents of West Milford and their neighbors in surrounding communities rely on the post office for services from passport needs to mail delivery. Like most towns today, the mailman has become more than just a person in our neighborhood; he has become an integral part of the overall community. Under the able leadership of their Officer in Charge, Emil Cimorelli, the men and women who work at the West Milford Post Office have lived up to a high standard of excellence and community service. And, the special designation for which they are being honored today demonstrates that this excellence carries through not only to the customers of the facility, but also to the staff there.

A TRIBUTE TO HARVEY MASON

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. TOWNS. Madam Speaker, I rise today to pay tribute to a masterful drummer and an all around great musician, Mr. Harvey Mason. Harvey Mason was born in Atlantic City, New Jersey. He began taking formal drum lessons at the age of 7, playing in school bands and finally buying his first drum set at age 16. Harvey Mason's talents were so captivating that an Atlantic City club owner obtained a special license allowing the teenager to play at the club hassle free.

Harvey Mason continued his education at Berklee School of Music, later going on to the New England Conservatory of Music and studied performance, composing, arranging, percussion and mallets on a full scholarship.

Harvey Mason toured Europe with the great Errol Garner before moving with his family to Los Angeles. He played with George Shearing and did one semester of practice teaching at Hoover High School in Glendale to complete his Bachelor's of Arts Degree. In 1986, Harvey went to Southwestern Law School and in 1988 to UCLA.

Harvey Mason's precision time keeping and versatility have placed him as one of the most in-demand and most recorded session drummers of all time. He has been hired by a host of recording artists including: Barbara Streisand; James Brown; Herbie Hancock; Reba McIntyre; Sergio Mendes; and the London Symphony Orchestra.

Harvey Mason signed a 5-year deal with Clive Davis at Arista Records in 1976 as a solo artist. There he recorded 5 stylistically diversified albums that captured the complete arc of his musical artistry. These albums showcased the writing, arranging, and performances by both A-list artists and gifted newcomers including: Earth, Wind and Fire; Kenny Loggins; and Marvin Gaye. He has also composed songs recorded by artists ranging from Donald Byrd to the Brothers Johnson. He added to his credits a television commercial for Mattel Toys and a percussion piece for Quincy Jones' ''The Color Purple.''

Harvey Mason is a founding member of the contemporary jazz group Fourplay, using this as a platform to flex his writing, playing and arranging skills with partners Bob James, Nathan East and Larry Carlton who later replaced Lee Ritenour.

The accomplishments of Harvey Mason are many. It is difficult to sum them all up in such little time. However, today, though I cannot list them, I would like to recognize all of those achievements.

I urge my colleagues to join me in paying tribute to this wonderfully gifted musician.

WELCOMING OLDRICH KULHÁNEK TO CHICAGO

HON. RAHM EMANUEL

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. EMANUEL. Madam Speaker, I rise today to welcome the world-renowned artist, Oldrich Kulhánek, to my home city of Chicago to exhibit his drawings and prints.

Mr. Kulhánek's work is displayed in Chicago's Art Institute, the Centre Georges Pompidou in Paris, Prague's National Gallery and in more than twenty other of the world's most prestigious museums.

Mr. Kulhánek's dedication to his work came at a high personal cost. His conviction that ''the artist should reveal the pretence (or lies) of the establishment, unmasking what is happening to man a showing how man is manipulated and dehumanized'' led to his arrest in 1971 by the Czechoslovak Secret Police. He was accused of ''disgracing the representatives of communist countries,'' with depictions of Josef Stalin in many of the prints he created from 1968 through 1971—an offense that led to a charge of sedition.

Mr. Kulhánek spent a month in jail on this charge, and he was interrogated every 14 days for 2 years afterward. Although the laws under which he was charged were revoked by the president, his work was not immune from the government's hand.

In a scene the artist has described as ''Kafkaesque,'' eleven of his prints stood trial in a Prague Local Court and were sentenced to destruction. He was forbidden to show his work or to collaborate with publishers. Despite this artistic exile he continued to create. Many of his pieces were shown illegally under a pseudonym or smuggled to European countries for exhibition.

But today the Czech Republic celebrates Oldrich Kulhánek. He was commissioned to design the new Czech Banknotes, and was one of the principal designers of new Czech stamps, including one depicting President Václav Klaus.

Madam Speaker, I am honored to welcome Oldrich Kulhánek to Chicago and I thank him for his fine work and commitment to art and freedom of expression.

IN RECOGNITION OF JOHN RINALDI

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. KUCINICH. Madam Speaker, I rise today to recognize John Rinaldi, for the gift of over twenty-five years of laughter and community service to Northeast Ohio.

After graduating from Ohio State University, John moved back to Cleveland and began working at Cowell and Hubbard Jewelers. He soon met Dick Blake who, recognizing John's comic talents, introduced him to ''Big Chuck'' Schodowski. ''Big Chuck'' invited John to do guest spots on his late-night Hoolihan and Big Chuck Show. In 1979, the Big Chuck and Lil' John Show was born when Hoolihan moved on, and a local legend was born. For the ensuing twenty-eight years ''Lil' John'' has delighted Northeast Ohio with his unique wit.

Hardly one to contain his exuberance, ''Lil' John'' has volunteered countless hours of community service to and has helped raised funds for local organizations. John has won numerous accolades for his commitment to Northeast Ohio's success.

Madam Speaker and colleagues, please join me in honoring Emmy Award winner and Broadcaster Hall of Fame inductee ''Lil' John'' Rinaldi. His humor has been an invaluable gift to Northeast Ohio, and his efforts to create a healthier and more vibrant Northeast Ohio are appreciated by all.

A TRIBUTE TO REVEREND IDA R. MIRANDA

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. TOWNS. Madam Speaker, I rise today to pay tribute to Reverend Ida R. Miranda. Reverend Miranda is a woman who has always placed her faith and confidence in the Lord.

Reverend Miranda was born in Corentyne, Guyana, South America, the ninth child of Richard Leonard and Rosalind King. She received her education in Guyana and went on to work as a teacher in Guyana Public Schools.

Reverend Miranda and her husband, Frank Miranda (deceased) migrated to the United States in 1962. She proceeded to continue her education attending Elizabeth Seton College and graduating with an Associate's Degree in Accounting. In 2000, she earned a Bachelor's Degree from the College of New Rochelle and a Certificate Degree from the New York Theological Seminary. Reverend Miranda was employed by A&T Importers for 25 years and she later worked for the James A. Cole Company.

Reverend Miranda is a longstanding member of the historic Berean Baptist Church of Brooklyn. It was there she was ordained a minister and where she currently serves as an Associate Minister. She a Senior Sunday School Teacher and sits on the Board of Trustees. Reverend Miranda loves to work with children and for many years has served as a counselor for the Berean Youth Lay League.

Reverend Miranda served on the Board of East New York's Diagnostic and Treatment Center as well as the Board of Leadership Council which offers assistance to the Cypress Day Care Center. In addition to her ministry, Reverend Miranda serves as the Treasurer of my Women's Caucus and volunteers her time as a Tax Aide for the AARP Foundation.

Reverend Miranda is the mother of Marcelle, Mark, Pamela and Paul and a proud grandmother of five.

Madam Speaker, I would like to recognize all of the good works of Reverend Ida R. Miranda who believes in her community and works tirelessly both in the U.S. and Guyana to further her ministry as a wise and caring counselor to all.

Madam Speaker, I urge my colleagues to join me in paying tribute to this wonderful woman for her kindness and compassion.

CONGRATULATING PRESA COMMUNITY CENTER FOR 30 YEARS OF SERVICE

HON. CIRO D. RODRIGUEZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. RODRIGUEZ. Madam Speaker, I rise today to congratulate the Presa Community Center on 30 years of outstanding service to the Southside community of San Antonio.

In 30 years, the Presa Community Center has grown from a small collaborative effort between five local churches able to lend a hand to a few needy families to an organization with the ability to help hundreds of people daily. The Presa Community Center has successfully developed multi-faceted programs for our community, including educational enrichment programs for students, emergency food and clothing assistance for families, free tax preparation through the Volunteer Income Tax Program, and many senior programs like coordinated transportation to medical appointments, activities and food assistance, just to name a few.

Just in the past year, Presa Community Center has developed three innovative programs to provide additional services to the community of South San Antonio. One is Project Drive to Live which takes court officials directly into the classrooms with senior and junior high students to address underage drinking and driving under the influence. The second program is designed to keep fourth through sixth grade students in school by building a support network for children and their parents with volunteer mentors and staff. The third program brings the services of the Presa Community Center directly into the community by teaming up trained volunteers with families in need to help locate available resources and become financially stable.

The successes of the Presa Community Center are a result of effective partnership with many community organizations and local governments including United Way, University of Incarnate Word, Presa Real, San Antonio Independent School District, Alamo Area Council of Governments, Warm Spring Rehabilitation Hospital, and San Antonio City and Bexar County officials.

Congratulations to the Presa Community Center and all of the partners that have been vital to the development of this community resource. As a resident of South San Antonio, I would like to thank the Presa Community Center, its partner organizations, and all the hard working staff for their 30 years of dedication to the community and I look forward to many more years of continued work in our community.

A TRIBUTE TO DOUGLAS McARTHUR NELSON

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. TOWNS. Madam Speaker, I rise today to pay tribute and honor to the work and achievements of Douglas McArthur Nelson. Douglas, a Brooklyn transplant, is a native of Eau Gallie, FL. Upon his arrival to Brooklyn, he attended Junior High School in East New York, Brooklyn, and was later recruited by New York City Public School's legendary football coach Moe Finkelstein at Thomas Jefferson High. Douglas was the star running back on the varsity team that won the P.S.A.L. He was later a starting fullback for 3 years at the University of Iowa.

Douglas McArthur Nelson began his career in law enforcement for the Iowa Department of Corrections and Parole. He transferred those skills to Crisis Intervention, Addiction Counseling, and Juvenile Habilitation. He was able to enhance his talent for leadership during his 20 years of active involvement in church and community services in both Cedar Rapids and Iowa City.

Douglas McArthur Nelson returned to Brooklyn 16 years ago and has continued to fulfill his mission for human services in Crisis Intervention, Addiction and Substance Abuse Counseling, Employee Mentoring, Coaching and Leadership Development for a large treatment facility.

Douglas McArthur Nelson currently serves as the Program Director for the Berean Community Family Life Center, BCFLC, which was created as a non-profit community development corporation by the historic Berean Baptist Church in Brooklyn.

Douglas McArthur Nelson left the private sector in July of 2006 to work for the Berean Baptist Church's First Lady Angela Farr Griffin, the Executive Director of the BCFLC and Dr. Arlee Griffin, Jr., who is the President of American Baptist Churches, Pastor of Berean and President of the BCFLC's Board of Directors. Douglas is the Chairman of the Deacon Ministry of Berean Baptist Church and is active with the Men's Caucus for the Unity Democratic Club.

Douglas McArthur Nelson is strong, gentle and devoted husband to Lynn and father of Ruperta, Denise, and Adrian. His 5-year-old granddaughter has lovingly dubbed him ''the weakest link.'' He is an avid gardener, poet, and artist.

Madam Speaker, I would like to recognize Douglas McArthur Nelson for his contributions to our community and for his years of service at Berean Baptist Church.

Madam Speaker, I urge my colleagues to join me in paying tribute to Douglas McArthur Nelson.

WORLD REFUGEE DAY

HON. JOSEPH R. PITTS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. PITTS. Madam Speaker, today is World Refugee Day, a day of honoring the courage and raising the plight of more than 8 million refugees and 23.7 million internally displaced persons around the world. This year, on the sixth anniversary of the United Nations-designated World Refugee Day, organizations in hundreds of countries will come together to focus global attention on those refugees who have been displaced by natural disasters or were forced to leave their homes, native countries, and loved ones due to the political, ethnic or religious oppression and persecution they would have faced otherwise.

The United States historically has led efforts to assist various refugee populations, as exemplified through U.S. efforts to assist Vietnamese refugees in the late 1970s. Now, in the 21st century, the U.S. has a particularly compelling reason to focus on the Iraqi refugee crisis. Approximately 2 million Iraqi refugees have fled persecution, violence, threats

of kidnapping and death threats, mostly moving to Syria and Jordan. The threats have been dire for ethnic and religious minorities. At least 1.9 million people are displaced within Iraq. Many of these 3.9 million have been targeted due to their work for the U.S. Government, NGOs or the media.

There have been important steps taken in Congress to address the concerns of refugees related to Afghanistan and Iraq, such as encouraging the provision of special immigrant status for translators or interpreters serving with Federal agencies in Iraq and Afghanistan. However, since 2003, the U.S. Government has allowed only 466 Iraqi refugees to enter the U.S. It is important that the U.S. initiate more active measures to assist these refugees, such as increasing the number of Iraqis that are brought into the resettlement program. During a recent trip to the Middle East, I heard stories of Iraqi refugees and the dire threats that forced them to flee their homeland.

Madam Speaker, in addition to spotlighting the situation of Iraqi refugees, it is vital that the international community continue to shine a spotlight on the situation facing refugees from and displaced persons in Burma. The military dictatorship continues its campaign against the ethnic peoples through forced labor, the use of rape as a weapon of terror, destruction of food sources, destruction of over 3,000 villages in the last few years, and the use of ethnic peoples as human land mine sweepers. Unfortunately, certain countries believe it is in their interest to keep this regime in power—I would heartily disagree. The refugee and displacement crisis in Burma could be resolved immediately if the regime were to step down and allow the rightfully elected leaders of Burma to take office.

World Refugee Day is a day for the international community, governments and citizens alike, to show our common concern for refugees and displaced persons. Most people in the world would love to stay in their homeland, but frequently conflicts and other situations force them to leave. Our country was founded by people fleeing oppression. The U.S. must continue to be the global leader in refugee protection in the Middle East, in Southeast Asia, and around the world.

TRIBUTE TO ROBERT ''RED'' PENSINGER

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. SHUSTER. Madam Speaker, I rise today in remembrance of Robert ''Red'' Pensinger, former mayor of Greencastle, PA. Mayor Pensinger passed away in his home on Saturday, June 16. Born in Marion, PA, on February 22, 1933, Mayor Pensinger spent his life in the Greencastle area as a civic leader and successful businessman.

''Red,'' as he was lovingly called, brought great enthusiasm and esteem not only to his office as mayor, but to his many other activities within the community as well. Robert dedicated his life to the betterment of his community, giving his time and energy to various organizations. He influenced and mentored hundreds of young people through his participation in the Boy Scouts of America, of which he was a Scout master, and Kauffman's Little League team, which he managed. Members of the community also looked up to ''Red,'' recognizing and appreciating his devotion to the town, his positive outlook and pleasant demeanor.

The former mayor was also a leader in business, establishing a State Farm Insurance Agency in Greencastle in 1965 and leading it to become the largest agency in Pennsylvania and the fifth largest in the Nation. He served in the State Farm President's Club and was a six-time Legion of Honor winner. In addition to operating his insurance agency, Robert served as vice-chairman of the board of directors for Tower Bancorp Inc. and the First National Bank of Greencastle. He served on the Chamber of Commerce, which awarded him with the 1997 James P. Oliver Award for his leadership and community involvement.

While I could go on listing the countless organizations and people to whom ''Red'' gave his time and energy, it is safe to say that his contributions to the Greencastle community are endless. Robert touched the lives of thousands and impacted each one of them tremendously. Mayor Pensinger served as a role model for many, and it is my hope that those who were lucky enough to know him will continue his legacy and enthusiasm for bettering the community and the lives of others.

Robert's wife, Nancy, and his family and friends are certainly proud and honored by his remarkable work and devotion to improving the lives of others. His community service and achievements are remarkable, and his presence will be sorely missed. Robert Pensinger was a celebrated leader in business and the community, and words cannot express his value to the people of Greencastle or their love and devotion to their late mayor.

A TRIBUTE TO CAPTAIN COREY PEGUES

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. TOWNS. Madam Speaker, I rise today to pay tribute and honor the work and achievements of Captain Corey Pegues. Corey, born and raised in Queens, New York, was a student of the public school system. He graduated from high school in 1986, and subsequently enlisted in the United States Army.

As a member of the Army, Corey assumed the position of Medical Specialist after receiving training at Fort Sam Houston. Corey was assigned to a Calvary Unit in Fort Drum, New York, and remained there until his honorable discharge in 1991. After leaving the U.S. Army, he enlisted in the New York State National Guard, and remained with the National Guard for 14 years. As an example of Corey's devotion to civil service, he also decided to enroll in the New York City Police Academy while still serving in the National Guard.

Corey was able to maintain the same exceptional quality of work that has defined his career, while serving in both the National Guard and the New York City Police Department. The NYPD promoted Corey to the rank of Sergeant in 1998, and Lieutenant in 2002. Captain Pegues assumed many positions within the NYPD, including Lieutenant Platoon Commander, Special Operations Lieutenant and Administrative Lieutenant.

In 2006, the NYPD once again promoted Corey; this time, to the rank of Captain. After 11 months, Corey was transferred to a new police station where he now serves as Commanding Officer. For the past two years, in addition to his role as a law enforcement official, Captain Pegues has also served his community as an Adjunct Professor of Criminal Justice at Monroe Community College.

Corey also serves as the President and Founding Member of the Long Island Chapter of the National Organization of Black Law Enforcement Executives—a nationally recognized organization that consists of many chapters across the country.

Madam Speaker, I would like to recognize the work of Captain Corey Pegues for his constant desire to protect and serve the citizens of the United States.

Madam Speaker, I urge my colleagues to join me in paying tribute to Captain Corey Pegues.

BINGE DRINKING AND LEGAL AGE

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. POE. Madam Speaker, in 1984, President Reagan signed the 21 minimum drinking age into law, saying ''This problem is bigger than the individual States. It's a grave national problem, and it touches all our lives. With the problem so clear-cut and the proven solution at hand, we have no misgiving about this judicious use of Federal power. I'm convinced that it will help persuade State legislators to act in the national interest to save our children's lives, by raising the drinking age to 21 across the country.''

Now, there are some that are advocating—lowering the drinking age back to 18. These people are unfortunately choosing what is easy over what is right and what is effective.

It would be easy to allow 18 to 20 year olds to drink, but we would pay for it with lives. The Centers for Disease Control, CDC, looked at 49 high-quality, peer-reviewed studies of places that changed their drinking age and found conclusively that moving the drinking age up to 21 decreases alcohol-involved crash fatalities by 16 percent and lowering it increases fatalities by 10 percent.

New Zealand is a good example of this. In 1999, New Zealand lowered its drinking age from 20 to 18. Not only did the alcohol-involved crash rate increase among 18 and 19 year olds, but also among 15 to 17 year olds. It is absurd to think that this would not happen in the United States were we to take the easy path.

It would be easy to think that teaching young people to drink would increase responsible drinking habits, but what is easy isn't

what is true. Most European countries with lower drinking ages have not only higher drinking rates, but higher binge drinking and intoxication rates. Several of these countries, like the United Kingdom, New Zealand, and Canada, are considering increasing their drinking ages because the 21 minimum drinking age is so effective.

It would be easy to assume that 18 to 20 year olds could drink safely, but in truth, all underage drinking is unsafe drinking. Brain research shows us that the brain continues to develop into the early twenties. The part that controls reasoning and cognitive ability is the last to mature and thus the most vulnerable to damage. The part of the brain responsible for new memories is noticeably smaller in youth that abuse alcohol. Alcohol use in the teen years also is associated with decreased brain functioning, memory, movement, and attention, and these changes may be permanent.

These and many more reasons are why a host of experts, including the CDC, National Highway Traffic Safety Administration, General Accounting Office, Institute of Medicine, Surgeon General, National Institute of Health, and more, support the 21 minimum drinking age.

It is necessary for us as legislators, parents, and responsible citizens to take the hard path and prevent our young people from accessing alcohol—adults facilitate, by selling, giving, providing, or allowing youth access to alcohol, almost all underage drinking. It is necessary to set limits, not open the liquor cabinets. And it is necessary for us as leaders to ignore those who think you can try the same experiment twice and get less fatal results.

And that's just the way it is.

COMMEMORATING WORLD REFUGEE DAY 2007

HON. STENY H. HOYER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. HOYER. Madam Speaker, since 2001, people across the globe have come together on June 20 to show their support for the millions of refugees throughout the world who have fled their homes for fear of persecution, imprisonment or even murder. On this sixth anniversary of World Refugee Day, we make a solemn pledge to these courageous and resilient people that their plight has not gone unnoticed and they do not stand alone.

In April, I led a congressional delegation to Sudan and saw, first-hand, the effects of one of the worst refugee crises facing our world today. In Darfur, I saw mothers and fathers struggling to provide for their children's most basic needs—necessities we often take for granted, such as food, water, clothing and shelter. I saw people fighting to overcome years of physical and mental abuse so severe that they would rather wander the desert than remain in the torturous environment their homeland had become. And I saw things that made me wonder how the world could stand silent while suffering of this magnitude continued.

With more than 686,000 refugees, Sudan is now ranked as the third largest refugee crisis in the world, according to the United Nations High Commissioner on Refugees, falling behind Iraq, where sectarian violence has created 1.5 million refugees—1.2 million fled the country in 2006 alone—and Afghanistan with 2.1 million. And it comes as no surprise that Sudan, Iraq and Afghanistan now also rank first, second and eighth, respectively, on the Foreign Policy Index on Failed States, which was released on Tuesday.

When people are forced to flee from their homes, they leave behind more than just material possessions; they often must trade their dignity, self-respect and hopes for the future for their very survival. And it is not just the refugees themselves that suffer. The instability and mortal dangers that create refugee crises threaten the safety and security of entire regions, if not the entire world.

On this World Refugee Day, I am proud to join with the defenders of human rights who are calling on each of us to not only acknowledge the tragedies suffered by refugees across the globe, but who are also challenging us to step up and do something about it.

A TRIBUTE TO CHAMBERLAIN S. PETERSIDE, PH.D.

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. TOWNS. Madam Speaker, I rise today to honor the work and achievements of Chamberlain S. Peterside, Ph.D. Chamberlain is the CEO and founder of the New Era Capital Corporation, a New York City-based financial services group. Chamberlain worked previously as a Certified Financial Manager with Merrill Lynch, Global Private Client Group and HSBC Bank in New York City, where he assisted high net-worth clients and institutional investors in developing strategies for managing their portfolio.

Chamberlain graduated with a Ph.D. in Finance and Economics from Friendship University in Moscow. He carries with him more than 15 years of diverse business development, management consulting and financial advisory experience from his work in Africa, Europe and the United States.

Upon graduation, Chamberlain began his career as a business consultant in his own firm, Value Adding Consulting Group, Inc, with offices located in both Moscow and London. He advised domestic and foreign companies on the intricacies and modalities for expanding their operations in the new markets of Eastern Europe and the former Soviet Union.

Chamberlain received the ''40 Under 40'' achievement award in June of 2001 from the Network Journal in New York for outstanding academic, professional and community service accomplishments. He has also served as an Adjunct Associate Professor of Finance and Business Management at ASA Institute of Business Management and Advanced Technology.

Currently, through New Era, Chamberlain is instrumental in developing and financing multimillion dollar telecommunication, hospitality, real estate, and oil and gas industries in Africa. He writes on many economic issues in regard to business development, and has appeared on the CNN program ''In the Money,'' where he discussed the need for a new approach in regard to economic reform efforts in Africa.

Madam Speaker, I would like to recognize the work of Chamberlain S. Peterside, Ph.D.. for his countless academic and economic accomplishments. I urge my colleagues to join me in paying tribute to Chamberlain S. Peterside.

IN TRIBUTE TO GERALD WALLACE

HON. GWEN MOORE

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Ms. MOORE of Wisconsin. Madam Speaker, I rise today to recognize an artistic leader and playwright from the Fourth Congressional District, Gerald Wallace. Mr. Wallace was instrumental in diversifying and enriching Milwaukee's artistic offerings by interjecting the voice of Milwaukee's African American artistic community. A prolific playwright, Mr. Wallace created works that reflected the full range of African American experience in this country.

Mr. Wallace fulfilled his childhood dream when he founded the People's Theater. He created a 20-seat theater in a building located in the heart of the African American community through funds raised by providing evening studio performances in private homes. He expanded understanding of and appreciation for African American theater by both the actors and the audience with performances by People's Theater throughout the city and the State of Wisconsin.

Mr. Wallace provided opportunities and mentored anyone interested in performing or learning other aspects of theater operation. He trained novices in speaking, projection, stage movement, and taught them to explore the depths of their characters in order to present a realistic portrayal on stage. Mr. Wallace exposed Milwaukee to the rich traditions of African American theater with the appearance of legendary actress Claudia McNeil, who performed with the People's Theater in James Baldwin's classic play, The Amen Corner. Many theater actors and actresses from Milwaukee began acting or honed their skills at the People's Theater. In fact, the founder of Milwaukee's African American Children's Theater had her genesis at the People's Theater.

Mr. Wallace introduced students in Milwaukee Public Schools to theater through performances that involved both music and student participation. After observing his work in the community, Adolph Suppan, the former Dean of the University of Wisconsin-Milwaukee's School of Fine Arts, hired Mr. Wallace to provide community outreach through work with the People's Theater.

In later years, Mr. Wallace expanded his artistic interests by founding and operating a gallery showcasing the works by African American artists. Further, he provided classes to aspiring artists; for example Gullah basket weavers from South Carolina taught classes at his gallery. Mr. Wallace passed away on June

11, 2007; his influence and impact will be sorely missed in Milwaukee.

Madam Speaker, for these reasons, I am honored to pay tribute to Mr. Gerald Wallace and his contributions to the artistic culture in the Fourth Congressional District.

THE GENERATING RETIREMENT OWNERSHIP THROUGH LONG-TERM HOLDING ACT OF 2007

HON. PAUL RYAN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. RYAN of Wisconsin. Madam Speaker, I, along with Congressman ARTUR DAVIS and Congressman JOSEPH CROWLEY, introduce today the Generating Retirement Ownership Through Long-Term Holding (''GROWTH'') Act of 2007. This important bill gained the bipartisan support of 73 House colleagues in the 109th Congress. We introduce this important legislation in an effort to address one of the issues making it difficult for today's working investors to save for retirement.

Most of our Nation's mutual fund shareholders report that retirement is the primary purpose for which they are saving. More than 31 million American households are saving through taxable mutual funds, either to realize a greater return on their savings, to supplement their employers' retirement plans, or because they do not have access to such plans. Seventy-two percent of fund investors say that their primary goal is to save for retirement. At the same time, almost half about 75 million of 155 million workers—are not offered any form of pension or retirement savings plan at work.

Mutual fund investors are overwhelmingly middle-income Americans investing for the long term. For many of these investors, mutual funds are the low-cost, professionally managed, diversified way in which they are saving on their own for retirement. Currently, investors who buy shares in a mutual fund and hold for the long term find themselves taxed as they go—even though no fund shares were sold and no income was received. This legislation allows mutual fund shareholders to keep more of their own money working for them longer by deferring capital gains taxes until they actually sell their investment. The ''GROWTH'' Act makes it easier for these individuals to meet their goals and enjoy a secure retirement.

Those investors who opt in advance to leave capital gains generated by the fund manager reinvested in the fund are doing what so many of us want to see—they are holding for the long term, contributing to national savings, and building up their own retirement nest egg.

The GROWTH Act will encourage Americans to save more and to save for the long term to better prepare for a secure retirement. I urge my colleagues to join us in this effort and cosponsor this legislation.

A TRIBUTE TO GAIL REED-BARNETT, ED.D.

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. TOWNS. Madam Speaker, I rise today to pay tribute and honor the work and achievements of Gail Reed-Barnett, Ed.D. Dr. Reed-Barnett was born and raised in Brooklyn, New York. From a young age, Gail's parents made certain that she understood the value of an education, a lesson that she would carry with her throughout her life.

Dr. Reed-Barnett's educational priorities are reflected in the academic paths she chose. She received her Bachelor's in Psychology at Medgar Evers College and a Master's in Education at Long Island University. She then went on to receive her Doctorate of Education from Nova Southeastern University with a concentration in Child, Youth and Family Studies.

Dr. Reed-Barnett is currently a secondary school counselor and administrator, in addition to serving as an Administrative Adjunct at Medgar Evers College for the College ''Now'' Program. She has taken her passion for education and used it to teach young people in her community the love and dedication that ought to be devoted to higher learning.

She is aware of the need for committed and dedicated educators and the importance of parental involvement in helping a child achieve maximum academic success. She has been instrumental in bringing many innovative programs to her school community as it relates to developing the ''whole child,'' and building relationships between children and their families.

Dr. Reed-Barnett believes that true power lies in knowing how our educational and judicial system works and making it ''work for us, not against us.'' This belief has been primary in driving Gail to become an active and visible participant in the Brooklyn community. She is a member of Community Board 17 and also serves on its Youth Services Planning Committee. She has worked with State Senator, Kevin Parker, on educational issues and policies. She has also presented valuable information to parents, holding various community workshops on the ''No Child Left Behind Act.''

Madam Speaker, I would like to recognize the work of Gail Reed-Barnett, Ed.D, for her tireless efforts to educate and empower the youth of our country.

Madam Speaker, I urge my colleagues to join me in paying tribute to Gail Reed-Barnett.

IN HONOR OF WEST VIRGINIA DAY

HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. RAHALL. Madam Speaker, I rise on this special day to honor my home among the hills, the great state of West Virginia. It was on June 20, 1863, that West Virginia became the 35th state to enter the Union.

The distinctiveness of West Virginia can be traced to its unique founding, as the only state to have been formed as a direct result of the Civil War, through Presidential proclamation.

In a reaction to Virginia's overrepresentation of eastern planters in the state legislature and complicated further by the swirling political issues of the day, on June 11, 1861, delegates from Virginia's western counties met to nullify Virginia's secession from the Union. Fifty counties (all of present-day West Virginia except for the land that now comprises Mineral, Grant, Lincoln, Mingo, and Summers Counties) constituted the newly formed state and served as the genesis of the vibrant and diverse place we know today as West Virginia.

The Constitution of West Virginia was approved in April of 1862, and in May of 1863, Arthur I. Boreman became our first governor. By June 20, 1863, West Virginia was officially a sovereign state. The sheer beauty of West Virginia now stands in stark and welcome contrast to the ugly conflict from which it was born.

Since its inception, West Virginia has been blessed with a striking landscape, placing it—we West Virginian believe—in a league all its own. The West Virginia state motto—Montani Semper Liberi—''Mountaineers are always free,'' sums up our powerful love of liberty and pays homage to our beautifully rugged lands that have honed our grit and determination, while attracting thousands of visitors each year.

West Virginia has historically been a leader in steel, glass, aluminum, chemical manufacturing, and natural gas industries. Small family farmers continue traditions that have served them for generations, providing, among other goods, some of the world's best apples. And our miners, who have long produced the coal that made our country strong, continue to dig to keep our national economy running.

But, as the old saying goes ''nothing endures but change.'' And we are seeing a change in West Virginia. In fact, West Virginia's foray into new technology has provided new horizons for her residents, opening West Virginia for business while allowing us to remain wild and wonderful.

West Virginia may be 144 years old today, but it is just beginning to blossom. Our future is as bright as an early summer morning sunrise over the Appalachian hills.

Today, and every day, West Virginians thank the Lord for our bountiful blessings. We are kindred spirits, bound together in loyalty and love for our fine state. And everyday, wherever we may roam, we think of ''happy home'' and that place among the hills that truly is ''Almost Heaven.''

A TRIBUTE TO ANGEL ROSARIO

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. TOWNS. Madam Speaker, I rise today in recognition of Angel Rosario. Angel was born in 1960 in Brooklyn, New York. He graduated from John Jay High School in 1979, where he earned All-City Honors in baseball in 1978 and 1979. After high school, Angel played baseball at Long Island University

where he was named a collegiate all-star in 1982.

In 1997, Angel graduated with a Bachelor of Science in Community Health from Empire State College. While working towards his degree, Angel became heavily involved with the New York City Department of Health HIV Bureau. He worked with the Bureau for 9 years, from 1990 through 1999; he spent 7 of those years in the Managed Care field.

Currently, Angel serves as a Marketing Director for Healthfirst which operates in hospitals that are under the direction of the Health Hospital Corporation. Angel has kept himself busy by working closely with his community for the past 25 years. He oversees Summer Day Programs, Beacon Programs and After School Programs. He works with both senior citizens as a Social Service Worker, and with children in a group home for teens. Angel says this is the type of work that makes him happy and encourages him to continue to involve himself with communities in need.

Madam Speaker, I would like to recognize the work of Angel Rosario, as his passion for helping people in need has significantly impacted those in his community.

Madam Speaker, Angel Rosario's work service has continuously demonstrated a level of altruistic dedication that makes him most worthy of our recognition today.

PERSONAL EXPLANATION

HON. NEIL ABERCROMBIE

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. ABERCROMBIE. Madam Speaker, I regret that I was unavoidably detained in my district on Monday and Tuesday of this week and missed rollcall vote No. 119 through vote No. 126. Had I been present, I would have voted ''yea'' on rollcall votes 499, 500, and 501. On Tuesday, June 19, I would have voted ''no'' on rollcall votes 502, 503, 504, 505, 506, 507, 508, 509, 510 and 511.

HONORING THE NORTH TEXAS FOOD BANK ON THEIR 25TH ANNIVERSARY

HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Ms. EDDIE BERNICE JOHNSON of Texas. Madam Speaker, today I would like to recognize a landmark that was achieved by an organization that addresses critical issues of hunger in the north Texas area by securing wholesome foods and grocery products for distribution through a network of charitable organizations. This year the North Texas Food Bank will celebrate the completion of its Oak Cliff warehouse project in time for its 25th anniversary.

The North Texas Food Bank was founded in 1982 and in the first year of operation the food bank distributed 400,000 pounds of food. The food bank is committed to serving the community and has continuously done so by reaching out to all of Texas and the entire Nation.

Recently, the food bank completed an extraordinary renovation and will now be able to store and distribute more food within its 72,000 square foot facility. The food bank is now equipped with an entirely new shelving system, two large freezers and a refrigerator that can hold 400 pallets of food.

Even during all of the reconstruction, which took more than a year, the food bank continued its commitment to food distribution. With the new renovation, the food bank has the capacity to move 50–55 million pounds of food through the warehouse and bring the community into the warehouse.

I am delighted to congratulate the North Texas Food Bank on its 25th anniversary and expansion. The North Texas Food Bank is an important asset to the Dallas area, and their dedication and hard work is seen throughout our community. I would like to thank Jan Pruitt, the Chief Executive Officer, the volunteers and members of the North Texas Food Bank on their dedicated service to the Dallas community and I wish them many more years of success.

HONORING GENEVA HAYDEN AND THE COMMUNITIES UNITED TO REBUILD NEIGHBORHOODS (CURN)

HON. JAMES T. WALSH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. WALSH of New York. Madam Speaker, I rise today in tribute to Mrs. Geneva Hayden for her creation and development of the Communities United to Rebuild Neighborhoods (CURN) organization. Over the last thirteen years, Mrs. Hayden has reached out to more than five hundred inner city youths, making a significant impact on their lives.

An organization that began in Mrs. Hayden's living room as a makeshift library and homework help center, CURN has grown into an afternoon and summer program, and has positively impacted children from some of Syracuse's most challenged neighborhoods. Mrs. Hayden has organized literacy parades, picnics, and field trips to Boston, Toronto, and Washington D.C., helping to enhance the sense of cultural diversity among the children in her community and increase their exposure to a world of opportunity.

Mrs. Hayden is not only the driving force behind the organization, but is also the heart and soul of CURN. She took it upon herself to rally neighbors to pick up trash, drove drug dealers from the area, provided transportation for neighborhood kids to and from school, and inspired pride in young men and women in her community. Mrs. Hayden's organization instills positive values within today's youth and offers hope for a brighter tomorrow.

A wife, mother, and retired educator, Mrs. Hayden's devotion to the welfare of her community's children is most honorable, and sets an example in which all of us can aspire. I congratulate Ms. Hayden on her achievements and the positive impact she has made on her community and its youth.

HONORING CHARLES KANE

HON. PATRICK J. MURPHY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. PATRICK J. MURPHY of Pennsylvania. Madam Speaker, I rise today to recognize Charles Kane, a man who dedicated his life to serving seniors, children and anyone in need. Earlier this month, Mr. Kane passed away after a fight with cancer. With his passing, Bucks County lost a great community leader and a committed advocate for senior citizens.

Mr. Kane was well known for his work in Bucks County, where he led numerous services agencies, including the Area Agency on Aging. By those who had the pleasure of working with him, Charlie will surely be missed, not only for his exceptional talent but his unwavering compassion. He truly cared about the many individuals he helped on a daily basis throughout his impressive career. Madam Speaker, Charlie touched countless lives and his kindness will always be remembered.

Composed and professional, there was never any question about his passion. Charlie Kane had the enthusiasm and creativity to always find a way to get his job done to serve Bucks County. Madam Speaker, there was no challenge too insurmountable and no case too difficult for Mr. Kane. He was a man that the community could rely on.

Mr. Kane will always hold a place in our hearts. Our community must embrace the passion for helping others that Charlie exemplified. Even in this time of sadness and mourning, we must see Charlie and his work as an inspiration. Madam Speaker, Mr. Kane's efforts on behalf of Bucks County residents will have a lasting impact and his legacy will be that of a man who dedicated his life to helping others. Madam Speaker, I thank the other Members of Congress for joining me in celebrating the life and accomplishments of Charles Kane.

HONORING BLUEFIELD ORIOLES 50TH ANNIVERSARY

HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. RAHALL. Madam Speaker, I rise today in recognition of the Bluefield Orioles, which, for a half a century has brought America's pastime to southern West Virginia. With the crack of the bats this week, the ''Baby Birds'' will mark the beginning of their 50th consecutive year as a Baltimore minor league affiliate. This is a historic occasion, as this span of years is believed to be the longest continuous affiliations between a minor league team and the same Major League Baseball franchise. The endurance of this franchise is a testament to the dedication of the team's fans, the support of the Bluefield community, and the strength and loyalty of the Bluefield Orioles organization. I also commend the any longtime ballpark volunteers, including Patsy

Malamisura, who sadly passed away last month. These folks are truly our Most Valuable Players.

A great contributor to the Bluefield economy over the years, minor league baseball has left its strong financial imprint on southern West Virginia. But this is not where this club's influence ends. The talented young players who have gotten their start on this team, including one of the greatest players of all time—Ironman Cal Ripken—have been role models and inspirations to generations. And countless friends and families have been brought a little closer by spending an evening together underneath the bright night lights. I thank the Baltimore Orioles organization for its many contributions and commend them on this great achievement.

May minor league baseball remain alive and well in West Virginia for another 50 years.

PERSONAL EXPLANATION

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. BONNER. Madam Speaker, on Friday, June 15, 2007, and Monday, June 18, 2007, I attended events with Alabama's governor and other elected leaders to recruit significant economic development projects for my district and our state and subsequently was absent for 36 votes. Had I been present, I would have voted ''nay'' on rollcall 491 and ''yea'' on rollcall 498.

HONORING SYLVESTER MYERS

HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. RAHALL. Madam Speaker, today I rise to pay tribute to a native West Virginian who found that talent and ambition together with discipline and determination was a powerful recipe for success. . . . Sylvester C. Myers, President and CEO of S.C. Myers and Associates, Inc.

Today, June 21st, Sylvester celebrates his 75th birthday. He has recently published his inspiring life story in a memoir entitled, ''From Coal Fields to Oil Fields and Beyond, A Life in Pursuit of All I Could Be.'' The book chronicles Sylvester's humble beginnings from the coal-mining community of Keystone, West Virginia to the Kingdom of Saudi Arabia. It is a story of his transformation from country youth to world-traveling businessman, a story that points the way for all who desire to craft their lives to match their potentials.

Sylvester founded S.C. Myers and Associates, Inc. in 1988 after retiring from the U.S. Army Corps of Engineers with 25 years of service. He spent the last 11 of those years serving as the ''budget watchdog'' of the Corps' $20 billion military construction program in Saudi Arabia.

The company provides construction cost and project management services for government agencies, architectural firms, engineering firms and developers in the private sector. The company has offices in Washington, D.C., Bramwell, WV, Boston, MA and Baltimore, MD. The company currently has long standing projects with Baltimore-Washington International Airport and Washington-Dulles International Airport.

Sylvester was the former President of the American Association of Cost Engineers International (AACEI), National Capitol Section. He served as Director of AACEI Region II; Chairman of the AACEI Government Liaison Committee; member of the D.C. Building Industry Association's (DCBIA) Housing Committee; American Association of Blacks in Energy; the Washington, D.C. Chapter of the Bluefield (WV) State College Alumni Association; and Chairman of the Institutional Advisory Board of Bluefield (WV) State College.

In 1999, Sylvester received the Total Cost Management Excellence Award and Fellow at the AACEI Annual Meeting. He served on the Board of the Architectural Engineering Council of Washington, D.C.; Finance Committee of the Anthony Bowen YMCA in Washington, D.C. In April 1999, Sylvester received a Presidential Citation from the National Association for Equal Opportunity in Higher Education (NAFEO), in recognition of exemplary experiences that honor Bluefield (WV) State College.

Sylvester is an alumnus of Bluefield (WV) State College and a graduate of George Washington University's School of Business and Public Management (Government Contracting and Project Management Master's Certification). Mr. Myers resides with his wife, Janice M. Myers, in Bramwell, West Virginia and they are the parents of five children. I am very proud to have Sylvester and Janice as my constituents.

On behalf of myself and the people of the great State of West Virginia, we thank Sylvester for his years of dedicated and professional service to the Nation and his contributions to the arts and wish him continued success in the next chapter of his personal and professional life. He has been, and will forever remain, a shining example of the willpower and determination that it takes to make dreams come true.

INTRODUCTION OF THE FAMILY AND MEDICAL LEAVE INCLUSION ACT

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mrs. MALONEY of New York. Madam Speaker, this year marks the 14th anniversary of the passage landmark legislation to help Americans balance the responsibilities of work and family, the Family and Medical Leave Act. The Family and Medical Leave Act (PL 103–3), allows qualified workers to take up to 12 weeks of unpaid leave a year to care for newborns, seek emergency medical care for himself/herself, parents, children under 18 or a legal spouse. Since becoming law, it has allowed many tens of millions of Americans to take unpaid leave without the risk of losing their jobs.

But, imagine if your domestic partner, same-sex spouse, adult child, parent-in-law, or grandparent was involved in a serious car accident and had no one to take care of him or her. Then imagine your employer telling you that you can't take a few days off work to care for your loved one because you are not covered by FMLA. This situation sounds preposterous, but there is no protection for you in current law. That is why I am introducing the FMLA Inclusion Act.

The Family and Medical Leave Inclusion Act (H.R. 475 in the 109th Congress) amends the FMLA to permit leave to care for a domestic partner, same-sex spouse, parent-in-law, adult child, sibling, or grandparent if that person has a serious health condition.

I am pleased that the Human Rights Campaign has endorsed this legislation, and I am proud to introduce it with the support of original cosponsors Reps. FRANK, BALDWIN, WOOLSEY and SHAYS.

The FMLA Inclusion Act represents simple fairness, and I look forward to working with my colleagues to ensure that this fairness prevails.

DARFUR

HON. MIKE McINTYRE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. MCINTYRE. Madam Speaker, I rise today to speak about the situation in Darfur in western Sudan. As you know, nearly 450,000 people have been killed and over two million have been displaced as the violence continues to rage in this region. Neighboring nations have absorbed hundreds of thousands of refugees who fled their homes to escape the carnage that has unfortunately become a way of life in Darfur. Even humanitarian aid workers have become targets of the violence.

I am encouraged by the recent agreement between the United Nations and the African Union on the make up of a peacekeeping force to patrol the region. This agreement is a step in the right direction, but it is vital that the peacekeeping mission begins soon and the peacekeepers are allowed to carry out their mission effectively. It is important that we support those who are working to restore peace to the millions of innocent people caught in the tragedy in Darfur.

Nearly 3 years ago, on July 22, 2004, the U.S. House of Representatives declared the atrocities in Darfur to be genocide. The vote was bipartisan and unanimous. In the 110th Congress, we have already passed resolutions addressing the situation in Darfur with overwhelming bipartisan majorities.

This issue is not one of partisan politics or ideological differences. It is a moral issue, and we in the House of Representatives are united in our efforts to stop the violence and end the suffering in Darfur.

We can still do more. It is important that we divest funds from companies that do business with the government of Sudan. Divestment is an effective policy tool that would prevent the government of Sudan from receiving financial resources it is using to fund these atrocities. In

addition, divestment is the right thing to do. It does not make sense to fund indirectly the very genocide we seek to end.

The crisis in Darfur is a tragedy of our times. I am pleased that the House of Representatives has taken action to ease the suffering of the innocent people in Darfur, and I look forward to continuing to work with my colleagues in the House to bring this terrible chapter of history to a close with a just and lasting peace in Sudan. May God help us all do the right thing.

TRIBUTE TO FATHER TODD UNGER

HON. GREG WALDEN

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. WALDEN of Oregon. Madam Speaker, I rise today to pay tribute to a constituent of mine, Father Todd Unger, who is celebrating his 25th anniversary as a Catholic priest later this month. I join the parishioners of St. Peter Church in The Dalles, Oregon in congratulating Father Todd.

Father Todd has served the people of the Diocese of Baker, Oregon with dedication and humility. He was ordained a Catholic priest for the Diocese of Baker, on June 29, 1982 in Redmond, Oregon—the town where he was born. His first assignment was as Associate Pastor in Pendleton, Oregon at St. Mary Catholic Church from 1982–1986. He rose to Pastor in 1986 when he was transferred to St. Elizabeth Catholic Church in John Day, Oregon. He served there from 1986–1990. He served the next 8 years as Pastor of St. Patrick Catholic Church in Madras, Oregon. He undertook his present assignment, as Pastor of St. Peter Catholic Church in The Dalles, in 1998.

In addition to his duties as Pastor at St. Peter Church, Father Todd administers St. Mary's Academy in The Dalles, a pre-kindergarten through eighth-grade school. St. Mary's Academy has been in continuous operation for 142 years providing an educational faith community for students in Wasco County, Oregon. During his 9 years at The Dalles, Father Todd has twice been called upon to assume the additional duties of principal at the school, once for a few months and once for the entire school year.

In addition to all of his church-related tasks, Father Todd has also been an active citizen in every community that he has served. In Pendleton, he was a member of Kiwanis and a Red Cross Swimming Instructor. In John Day, Father Todd again taught swimming for the Red Cross and began what has been a career-long interest in serving as a volunteer firefighter for the community. In Madras, he again joined the Volunteer Fire Department, and in 1994 he was named Firefighter of the Year. He also served as a member of the Central Oregon Council on Aging, was an active member of Kiwanis, and this time he taught first aid for the Red Cross. In The Dalles, Father Todd became a Rotarian, and again joined the Volunteer Fire Department. He was named Firefighter of the Year in 2000.

Everywhere that Father Todd has gone, he has tirelessly ministered to the spiritual and physical needs of the community. He has added greatly to the quality of life in the communities he has served. Father Todd is a sterling example of what it means to be of service. I hope these words in the CONGRESSIONAL RECORD will serve as a small indicator of thanks from the citizens of the Second Congressional District of Oregon and our congratulations on his Silver Jubilee as a Catholic priest.

HONORING RELAY FOR LIFE

HON. DANIEL LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. LIPINSKI. Madam Speaker, I rise today to honor Relay For Life, held in Bridgeview, Illinois. The event, sponsored by the American Cancer Society, is considered the organization's signature activity. This year is especially significant as the June 22–23 event at the Bridgeview Park District marks the 15th anniversary of the first Relay For Life event in Illinois.

Relay For Life is an overnight event designed to bring together those who have been touched by cancer in our communities. At the event, participants celebrate survivorship, remember those lost to cancer, and raise money to help the American Cancer Society. Proceeds fund its mission of helping those who have been touched by cancer, empowering individuals to fight back, and saving lives.

Programs such as Road to Recovery, Look Good Feel Good, Support Recovery, and the American Cancer Society's Patient Navigation Services all benefit from the annual event. These programs and services assist patients with educational, technological, logistical, and emotional support, and further the search for a cure.

Through the tireless participation of families, schools, companies, hospitals, and other community groups, Relay For Life has assisted those affected by cancer for well over a decade. Today, I am honored to recognize this important event, its participants, and its worthy mission. I am especially pleased to acknowledge and congratulate the supporters of Relay For Life in Bridgeview, Illinois. The work and dedication of these individuals ensure a brighter future for those affected by cancer and serve as an inspiration to all citizens.

A TRIBUTE TO MEL OLSSON

HON. JOE COURTNEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. COURTNEY. Madam Speaker, I rise today to recognize Mel Olsson on his retirement after more than three decades in service of our country's defense and the men and women who build the submarines that protect our national security.

Mel began his career at Electric Boat in Groton, Connecticut as a pipefitter apprentice in 1961. After decades of work at EB, Mel was eventually elected in 1990 as President of the Marine Draftsmen's Association, MDA–UAW Local 571. Serving as MDA President until 2003, Mel served on a number of negotiating teams, and was chief negotiator for eight successful contract negotiations with Electric Boat and Computer Sciences Corporation.

Mel has not only ably represented his colleagues in Local 571, but he has also been a community pillar in eastern Connecticut by serving in state and local organizations. Mel served on the Board of Directors of the United Way, is a member of the Work Force Investment Board, and serves on the Board of Directors of the Charter Oak Federal Credit Union. In addition, Mel is the former Chairman of the Electric Boat Community Services Committee, and is a member of the Stonington Democratic Town Committee.

Mel and his wife, Dorothy, reside in Mystic and have been married for forty-two years. They are the proud parents of their daughter, Alyssa.

Mel retired as a Piping Design Tech at Electric Boat on May 31, 2007, after thirty-six years of remarkable service. The men and women of UAW/MDA 571 and Electric Boat will miss his leadership and vision inside the gates at EB, but I know they will join me in saluting Mel Olsson and his outstanding and unique career in eastern Connecticut.

IN RECOGNITION OF CAROL SCHACHTER, FORMER CHAIR OF COMMUNITY BOARD 6 OF MANHATTAN

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mrs. MALONEY of New York. Madam Speaker, I rise to pay tribute to Carol Schachter, the former Chair of Community Board 6 of Manhattan. Ms. Schachter is being honored this month at the annual dinner of the Board, which plays a critical advisory function in New York City's municipal government on a wide range of matters relating to the quality of life in several neighborhoods on Manhattan's East Side.

Originally appointed to serve on Community Board 6 in 1995, Carol Schachter served with distinction as its Chair from 2004 to 2006. She currently is the Board's Secretary and Chair of its Business Affairs and Street Activities Committee, positions she also held prior to her election as Chair. As Chair of Community Board 6, Carol Schachter helped spearhead the effort to preserve the ''Sobriety Garden'' at Bellevue Hospital, an initiative she undertook with her husband, John.

Ms. Schachter also ably oversaw the development of the Community Board's 197–A and 197–C zoning and land use plans. With the closing of the Con Edison waterside plant, a large swathe of Community Board 6 will be rezoned. This offers the opportunity to create new parks and open space, as well as new schools. The 197–A and 197–C plans address these important land use issues as well as other significant concerns in the Community Board 6 area. The Board's final submission

was thoughtful and inspiring, presenting a promising vision of the future for its neighborhoods.

As the Chair of Manhattan Community Board 6, Ms. Schachter led her fellow Members in carrying out the Board's challenging mission of reviewing and advising municipal government on a broad spectrum of public policies and issues, such as land use, zoning, and the City budget. With firm and effective leadership, Carol Schachter led Community Board 6 as it monitored the nuts and bolts of municipal government, as well, including the delivery of City services. She devoted herself tirelessly to improving the local quality of life on concerns including traffic congestion, deteriorating housing stock, sanitation pick-up and street cleaning, and the oversight of local bars and restaurants. As the Board's Chair, she ably represented the interests of residents and businesses in a large, diverse area of Manhattan stretching from East 14th Street to East 59th Street and from Irving Place, Lexington and Park Avenues to the East River.

In addition to her tireless service to Community Board 6 of Manhattan, Carol Schachter has been a dedicated civic activist. She volunteered her time and effort as President of the Stuyvesant Park Neighborhood Association, serves as a member of the 13th, 17th and 19th Police Precinct Councils, and helped found the organization All Out Arts.

Madam Speaker, I request that my colleagues join me in paying tribute to Carol Schachter for her outstanding service and dedication to the civic life of our nation's greatest metropolis.

PERSONAL EXPLANATION

HON. JOHN B. LARSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. LARSON of Connecticut. Madam Speaker, I regret that I could not vote on rollcall vote No. 502 through roll call vote No. 511, on June 19, 2007. Had I been present, I would have voted:

''Nay'' on rollcall No. 502 on agreeing to the amendment to H.R. 2641, to reduce funding for the Army Corps of Engineers investigations by $30 million.

''Nay'' on rollcall No. 503 on agreeing to the amendment to H.R. 2641, to reduce funding for the Army Corps of Engineers construction by $481 million.

''Nay'' on rollcall No. 504 on agreeing to the amendment to H.R. 2641, to reduce funding for the Army Corps of Engineers Mississippi River and tributaries project by $18 million.

''Nay'' on rollcall No. 505 on agreeing to the amendment to H.R. 2641, to reduce funding for the Army Corps of Engineers operation and maintenance by $184 million.

''Nay'' on rollcall No. 506 on agreeing to the amendment to H.R. 2641, to Strike section 105 in the bill.

''Nay'' on rollcall No. 507 on agreeing to the amendment to H.R. 2641, to reduce funding for the Bureau of Reclamation's water projects account by $55 million.

''Nay'' on rollcall No. 508 on agreeing to the amendment to H.R. 2641, to reduce funding for Bureau of Reclamation's policy and administration account by $1.2 million.

''Nay'' on rollcall No. 509 on agreeing to the amendment to H.R. 2641, to reduce funding for energy efficiency and renewable energy programs (Weatherization Assistance) by $102 million.

''Nay'' on rollcall No. 510 on agreeing to the amendment to H.R. 2641, to redirect $20 million in funding within the Nuclear Energy account to support the Nuclear Power 2010 program from Gen IV reactor program.

''Nay'' on rollcall No. 511 on agreeing to the amendment to H.R. 2641, to reduce funding for fossil fuels research and development by $142 million.

THE VISITING NURSE ASSOCIATION OF CENTRAL JERSEY—95 YEARS OF OUTSTANDING SERVICE

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mr. PALLONE. Madam Speaker, today I would like to recognize the achievements of the Visiting Nurse Association of Central Jersey. Since its establishment in 1912, this nonprofit, voluntary organization has treated individuals of all needs and ages living in my district and the surrounding region. In its 95 years of service, the organization has undergone numerous successful expansions, helping it to become a top provider of hospice and in-home health care in central New Jersey.

With an original mission to improve prison conditions and approaches to public assistance, the agency over the years has broadened the type of community care it provides. Now it is most well known for its outstanding in-home services. These services are critical to individuals who need frequent and adequate care in order to remain in their own homes.

The association's team of nurses continually strive to keep up with in-home technological advances, ensuring that patients receive the latest in quality care. VNACJ looks after the aging population, founding a local hospice program in the 1980s and 1990s. At the other end of the spectrum, VNACJ also focuses its efforts on the needs of children. The organization has worked to expand handicap services to children as well as establish parenting and nutrition education programs, children's shelters, and well-child conferences.

In addition to treating patients of all ages, the agency attends to all types of health matters. In the 1940s and 1950s, VNACJ played an important role in establishing Monmouth County branches of some of today's most important health care organizations, including the Heart Association, the Cancer Society, and the Cerebral Palsy Treatment Center. The agency also pays particular attention to providing health care services to migrants as well as veterans. Community immunizations and AIDS treatments are just a few of a comprehensive list of services the VNACJ provides.

Under the leadership of its chairman and my friend, Judith Stanley Coleman, and with the help of over 1,000 employees treating 100,000 patients each year, the Visiting Nurse Association of Central Jersey claims a spot among the nation's largest nonprofit in-home health groups.

On a personal level, almost every family in my district has, at one time or another, called upon the Visiting Nurses for help with a pressing health need. The reaction from the families I have spoken with over the years is uniformly positive: they deeply appreciated the warmth, the skill and the professionalism of the visiting nurses who came to their homes and helped their loved ones.

It is with great pleasure that I ask my colleagues to join me in commending the 95 years of quality care the VNACJ has provided to residents of central New Jersey.

IN RECOGNITION OF THE UJA-FEDERATION OF NEW YORK ON THE OCCASION OF ITS 90TH ANNIVERSARY

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 20, 2007

Mrs. MALONEY of New York. Madam Speaker, I rise to pay tribute to all the friends, family and supporters of the UJA-Federation of New York on the occasion of its 90th anniversary. Since its establishment nine decades ago, UJA-Federation of New York has provided a voice of compassion and caring as the philanthropic arm of New York's Jewish community. Throughout its history, UJA-Federation of New York has been guided by its precepts of chesed and tikkun olam, while fulfilling its essential and righteous mission of extending a helping hand to those in need. Its extraordinary success in serving the underprivileged and disadvantaged have placed the UJA-Federation in the forefront of efforts to serve poor, the elderly, and people in need in New York, Israel, and throughout the world.

Ingrained with the compassionate and philanthropic spirit that has characterized Judaism throughout its history, UJA-Federation's record of generosity is unparalleled. It is ably led by distinguished civic leaders, including its President, Morris W. Offit; the Chair of the Board, Susan K Stern; and Executive Vice President and Chief Executive Officer John S. Ruskay. UJA-Federation takes pride in its dedication to strengthening communities, advocating for at-risk youths, empowering the disadvantaged, and educating people of all ages. Operating through more than 100 agencies, including some of the leading institutions in New York's 14th Congressional District that I am privileged to represent, such as the 92nd Street Y and Beth Israel Medical Center, UJA-Federation has helped more than 4,000,000 people in New York and throughout the world. UJA-Federation and its affiliated network have provided a vast range of vital services, including home visits to the housebound elderly; social and emotional support for Holocaust survivors in New York; scholarships allowing children from the metropolitan area to attend Jewish sleepaway summer camps; and counseling, peer mentoring, and workshops on education

and prevention for women battling breast and ovarian cancer on Long Island.

The UJA-Federation's accomplishments extend far beyond our borders. Using cutting-edge technology, the UJA-Federation of New York has provided assistance to Jewish communities from Belarus to Buenos Aires. The UJA-Federation makes possible initiatives such as teaching Hebrew to Ethiopian Jews immigrating to Israel, providing crisis counselors after the Beslan school hostage crisis, and furnishing 13,600 elderly Jews in the former U.S.S.R. with hot meals and companionship.

The UJA-Federation's compassion is also reflected in its commitment to emergency response and disaster relief. In 2002, the UJA-Federation formally established and funded the Israel Trauma Coalition, an alliance of medical and social service providers working to improve the trauma-response capacity of the Israeli mental health system, a program that has expanded from seven organizations to encompass more than forty agencies. Since the tragic 2004 tsunami that devastated Sri Lanka, India, Thailand and Indonesia, the UJA-Federation's Tsunami Relief Fund has successfully raised more than $3.5 million that was allocated to the American Jewish Joint Distribution Committee to support emergency and long-term aid to affected areas. In the United States, the UJA-Federation's Hurricane Relief Fund has raised more than $5.1 million to provide desperately needed assistance to Gulf Coast communities ravaged by Hurricanes Katrina and Rita in 2005.

The steadfast and enduring commitment of UJA Federation-New York to serving others is reflected in its newly renovated building at 130 East 59th Street in New York City, where the Federation has been headquartered for half a century. The bright new farade, lobby, internal systems and office facilities reflect the dedication and bright future of the UJA-Federation of New York.

Madam Speaker, I ask my distinguished colleagues to join me in recognizing the extraordinary success and achievements of UJA-Federation of New York on the occasion of its 90th anniversary.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, June 21, 2007 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

June 25

11 a.m.
Homeland Security and Governmental Affairs
Investigations Subcommittee
To hold hearings to examine excessive speculation in the natural gas market.
SD–106

3 p.m.
Commission on Security and Cooperation in Europe
To hold hearings to examine pipeline politics, focusing on conflict prevention and the security of supply and transit of oil and natural gas.
SD–419

June 26

9:30 a.m.
Budget
To continue hearings to examine health care and the budget, focusing on the Healthy Americans Act and other options for reform.
SD–608

10 a.m.
Commerce, Science, and Transportation
To hold hearings to examine the impact of media violence on children.
SR–253

Energy and Natural Resources
To hold an oversight hearing to examine the preparedness of the federal land management agencies for the 2007 wildfire season and efforts to contain the costs of wildfire management activities.
SD–366

Judiciary
To hold hearings to examine the nomination of William W. Mercer, of Montana, to be Associate Attorney General.
SD–226

Rules and Administration
To hold hearings to examine Smithsonian Institution governance reform, focusing on a report by the Smithsonian's Independent Review Committee.
SR–301

Small Business and Entrepreneurship
Business meeting to consider original bills entitled, ''Entrepreneurial Development Act of 2007'', ''Small Business Venture Capital Act of 2007'', and other pending calendar business.
SR–428A

2:30 p.m.
Banking, Housing, and Urban Affairs
Housing, Transportation and Community Development Subcommittee
To hold hearings to examine ending mortgage abuse, focusing on safeguarding homebuyers.
SD–538

Intelligence
To hold closed hearings to examine certain intelligence matters.
SH–219

June 27

9:30 a.m.
Judiciary
Constitution Subcommittee
To hold an oversight hearing to examine the federal death penalty.
SD–226

Veterans' Affairs
Business meeting to markup pending legislation; to be immediately followed by a full committee hearing to examine the nomination of Charles L. Hopkins, of Massachusetts, to be an Assistant Secretary of Veterans Affairs (Operations, Preparedness, Security and Law Enforcement).
SD–562

10 a.m.
Health, Education, Labor, and Pensions
Business meeting to consider S. 793, to provide for the expansion and improvement of traumatic brain injury programs, and S. 1011, to change the name of the National Institute on Drug Abuse to the National Institute on Diseases of Addiction and to change the name of the National Institute on Alcohol Abuse and Alcoholism to the National Institute on Alcohol Disorders and Health, original bills entitled, ''Biologics Price Competition and Innovation Act'', ''Wired for Health Care Quality Act'', and other pending calendar business.
SD–628

Homeland Security and Governmental Affairs
To continue hearings to examine violent Islamist extremism, focusing on the European experience.
SD–342

Environment and Public Works
Transportation Safety, Infrastructure Security, and Water Quality Subcommittee
To hold hearings to examine protecting water quality at America's beaches.
SD–406

10:30 a.m.
Aging
To hold hearings to examine the relationship between doctors and the drug industry.
SD–106

2 p.m.
Agriculture, Nutrition, and Forestry
To hold hearings to examine the nominations of Jill E. Sommers, of Kansas, to be a Commissioner of the Commodity Futures Trading Commission for the remainder of the term expiring April 13, 2009, and Bartholomew H. Chilton, of Delaware, to be a Commissioner of the Commodity Futures Trading Commission for the remainder of the term expiring April 13, 2008.
SR–328A

2:30 p.m.
Energy and Natural Resources
To hold hearings to examine S. 1171, to amend the Colorado River Storage Project Act and Public Law 87–483 to authorize the construction and rehabilitation of water infrastructure in Northwestern New Mexico, to authorize the use of the reclamation fund to fund the Reclamation Water Settlements Fund, to authorize the conveyance of certain Reclamation land and

infrastructure, to authorize the Commissioner of Reclamation to provide for the delivery of water.

SD–366

June 28

10 a.m.
Commerce, Science, and Transportation
Oceans, Atmosphere, Fisheries, and Coast Guard Subcommittee
To hold an oversight hearing to examine the President's proposed budget request for fiscal year 2008 for the National Oceanic and Atmospheric Administration.

SR–253

2:30 p.m.
Intelligence
To hold closed hearings to examine certain intelligence matters.

SH–219

3 p.m.
Homeland Security and Governmental Affairs
Federal Financial Management, Government Information, Federal Services, and International Security Subcommittee
To hold hearings to examine financial management systems modernization at the Department of Homeland Security, focusing on systems and processes needed to support the Department's mission and operations.

SD–342

July 9

2:30 p.m.
Homeland Security and Governmental Affairs
Investigations Subcommittee
To continue hearings to examine excessive speculation in the natural gas market.

SD–342

July 10

10 a.m.
Health, Education, Labor, and Pensions
To hold hearings to examine community services and support, focusing on planning across the generation.

SD–106

July 11

10 a.m.
Judiciary
To continue hearings to examine the Department of Justice politicizing the hiring and firing of United States Attorneys, focusing on preserving prosecutorial independence (Part VI).

SD–226

July 17

2:30 p.m.
Veterans' Affairs
To hold an oversight hearing to examine Department of Veterans Affairs and Department of Defense education issues.

SD–562

July 18

10 a.m.
Judiciary
To continue oversight hearings to examine the Department of Justice.

SH–216

July 25

9:30 a.m.
Veterans' Affairs
To hold an oversight hearing to examine Department of Veterans Affairs health care funding.

SD–562

HOUSE OF REPRESENTATIVES—*Thursday, June 21, 2007*

The House met at 10 a.m.

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

In the book of Judges, Lord God, the parable of the trees is told to convince Your people they do not want a monarchy. Perhaps the same parable has another meaning for people today living in this constitutional democracy.

In the parable, each tree which wishes to be king over the other trees excuses itself from leadership. The olive tree is reluctant to offer its rich oil; the fig tree, its good fruit; the vine, its intoxicating wine. So all the trees plead with the buckhorn to have authority over all the other trees. But the buckhorn has nothing to offer but its own shadow.

Lord, may each Member of Congress offer his or her very best to the work of governance. This awesome responsibility does cost them dearly. That is why, as Your people, Lord, they need our prayer.

If they do not offer all the gifts of mind and heart they are called to sacrifice for this government by the people, they can only cast a long shadow over a believable democracy.

So speak, Lord, to Your servants and allow Your gifts to flow across this Nation now and forever.

Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentleman from Colorado (Mr. PERLMUTTER) come forward and lead the House in the Pledge of Allegiance.

Mr. PERLMUTTER led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed without amendment a bill of the House of the following title:

H. Con. Res. 76. Concurrent Resolution honoring the 50th Anniversary of the International Geophysical Year (IGY) and its past contributions to space research, and looking forward to future accomplishments.

The message also announced that pursuant to Executive Order 12131, as amended, the Chair appoints the following Member to the President's Export Council:

The Senator from Texas (Mr. CORNYN).

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 10 one-minute speeches from each side of the aisle.

PRESIDENT'S VETO OF STEM CELL RESEARCH

(Mr. BRALEY of Iowa asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BRALEY of Iowa. Madam Speaker, President Bush has once again used his veto pen to stifle scientific research. Yesterday, the President vetoed bipartisan legislation passed by this Congress that would have expanded potentially lifesaving stem cell research.

The Stem Cell Research Enhancement Act would have authorized Federal funds to be used for research on embryonic stem cell lines derived from embryos at in vitro fertilization clinics that would otherwise have been discarded.

An overwhelming number of Americans, including doctors, scientists, health organizations, and communities of faith have been vocal in their support for this critical research because of cures it might offer to those stricken with diabetes, Alzheimer's, multiple sclerosis, cancer, spinal cord injuries and countless other ailments.

President Bush's decision to once again veto an expansion of this research that could bring hope to millions with life-threatening and debilitating diseases is dangerous to those who are suffering. This Democratic House will continue to push for Federal funding of this ethical and critically necessary research.

LONESTAR VOICE—GEOFFREY BROWN

(Mr. POE asked and was given permission to address the House for 1 minute.)

Mr. POE. Madam Speaker, the Lonestar Voice this week comes from Geoffrey Brown of Baytown, Texas. Here is what he has to say:

''We need to show more sympathy for these people. They travel miles in the heat, they risk their lives crossing a border. They don't get paid enough wages. They do jobs that others won't do or are afraid to do. They live in crowded conditions among a people who speak a different language. They rarely see their families, and they face adversity all day every day. No, I'm not talking about illegals; I'm talking about our troops. Doesn't it seem strange that the (politicians) are willing to lavish all kinds of social benefits on illegals, but don't support our troops and have threatened to defund them?''

Geoffrey Brown echoes the sentiments of many other Americans who wonder why so many people in Washington show more concern for illegals who pledge allegiance to other countries than they do our U.S. troops fighting in the deserts of Iraq and the mountains of Afghanistan.

Supporting the American military and our veterans is more important than expensive giveaway programs to illegals.

And that's just the way it is.

STEM CELL RESEARCH VETO

(Mr. YARMUTH asked and was given permission to address the House for 1 minute.)

Mr. YARMUTH. Mr. Speaker, this House has repeatedly passed the bipartisan Stem Cell Research Enhancement Act to authorize Federal funds to be used for lifesaving research on embryonic stem cell lines that would otherwise be discarded. This type of research, conducted under strict ethical standards, is supported by an overwhelming number of Americans because of the hope it offers for the potential cures of many diseases, such as diabetes, Parkinson's, Alzheimer's, cancer and MS.

But yesterday, President Bush once again vetoed this important bill. In an attempt to save face, the President instead signed an executive order that will do little to advance essential medical research. The symbolic order is the President's attempt to score political points, but it fails to direct new resources or support for potentially lifesaving research.

A majority of this House and a majority of the American people are fed up with the Bush administration's stifling of this important life-affirming

science. Democrats will continue to fight to promote important and groundbreaking research so that we can provide real hope to millions of Americans.

IN APPRECIATION OF ROB PORTMAN

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, I rise today in recognition and appreciation of Rob Portman and his service to our great Nation, first, as a fellow Member of the House; then as United States Trade Representative; and, most recently, as Director of the Office of Management and Budget.

Rob has proven to be an outstanding public servant. I know that Jim Nussle will be a competent successor and carry on in Rob's footsteps for the taxpayers. I am grateful my Republican colleagues and I had the opportunity a few minutes ago to thank Rob and wish him well.

Rob was the featured guest for our weekly Theme Team meeting. I appreciate Theme Team chairman JACK KINGSTON and Krista Cole on his staff for bringing a top-notch speaker every week. I wish Rob, his wife, Jane, and their three children, Jed, Will, and Sally, all the best in the future.

In conclusion, God bless our troops, and we will never forget September 11th.

TRADE POLICY

(Ms. SUTTON asked and was given permission to address the House for 1 minute.)

Ms. SUTTON. Mr. Speaker, our current trade policies have had devastating consequences for families and communities in northeast Ohio and across this Nation.

The effects of these damaging trade policies are no longer theoretical; they are real. We need a truly new trade model that addresses the concerns raised by the American people in the last election. Congress must reclaim its constitutional authority over trade.

We must have strong and enforceable standards in our trade agreement. We must address the ever-evolving unfair trade practices used by foreign governments to protect their markets, such as currency manipulation, illegal subsidies and product dumping. We must replace policies that reward businesses for outsourcing jobs with incentives and sensible tax policies that will help our businesses and workers.

We need a new trade model now.

ABSTINENCE/FIDELITY FUNDING PROTECTIONS IN PEPFAR

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, the President's Emergency Plan for Aids Relief, called PEPFAR, has instituted a carefully crafted comprehensive approach to fighting the spread of AIDS.

This approach is based on the ABC prevention model that has proven highly successful in Uganda. This model was developed there by Africans in Africa. A stands for abstinence until marriage; B for be faithful, or monogamy; and C for condoms.

This approach is working to reduce AIDS prevalence. But the Foreign Ops appropriations bill that we vote on today seeks to gut this comprehensive approach. Specifically, the bill does away with funding protections for the abstinence and fidelity parts of the model. It would remove the mandate for the A and B portions in the model.

These are very important components, and these are the most effective in reducing AIDS occurrence. Just look at this chart illustrating the experience in Kenya, proof that abstinence and fidelity work.

I have an amendment to restore funding for these protections in a results-based comprehensive ABC approach. I urge support.

VETERANS HEALTH CARE, DEMOCRATS PROVIDE LARGEST FUNDING INCREASE EVER

(Ms. CASTOR asked and was given permission to address the House for 1 minute.)

Ms. CASTOR. Mr. Speaker, last week, the new Congress adopted the most significant expansion of veterans health care in the history of the VA.

The real-life story of Lt. Sylvia Blackwood highlights why this is so important. Lt. Blackwood began suffering from PTSD after serving two tours of duty in Iraq. She found the strength to check herself into the VA Medical Center here in Washington. She was suicidal, but instead of receiving immediate treatment, she was directed to a waiting room. When she was finally admitted, she did not receive therapy or relief.

According to an in-depth series published by The Washington Post this week, unfortunately, Lt. Blackwood's story is not uncommon. An estimated one-third of all veterans returning from Iraq and Afghanistan suffer from mental health challenges.

America's servicemen and -women deserve the best care possible when they return from war, both for their physical and mental health. That is why this new Congress last week passed the most significant expansion and improvement in veterans health care in the VA's 77-year history. It's important for all Americans to take pride in that action.

''HOLD ONTO YOUR WALLET'' CONGRESS

(Mrs. BLACKBURN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BLACKBURN. Mr. Speaker, well, here we are again. Another day, another several billion dollars in new spending proposed by this ''Hold Onto Your Wallet'' Congress. They have already passed the largest tax increase in history, and they spend too much money.

Today's tax du jour comes in the form of the Foreign Ops bill. The bloated 2008 spending bill will fork over $34 billion of your tax money, an increase of more than $3 billion. A subtle change means that under the current bill language, the Mexico City policy, which assures that nongovernmental entities that promote abortion would not be provided U.S. funding, could be completely disregarded and these entities would receive U.S. taxpayer funds.

The provision would mandate U.S. subsidies to organizations that actively promote abortion in foreign nations. Abortion has been a tragedy for many women here in the U.S., and it will carry with it the same hurt and trauma when it's used abroad.

If this language stays in the bill, the American taxpayer would be actually paying for an abortion for someone half a world away. I urge my colleagues to vote against new spending and ''no'' for taxpayer-sponsored abortions.

TWEETSIE RAILROAD 50TH ANNIVERSARY—JUNE 21, 2007

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Mr. Speaker, today I rise to celebrate the 50th anniversary of Tweetsie Railroad, a western North Carolina fixture that has been providing fun and excitement to families for the past five decades.

Tweetsie Railroad, founded in 1957, was North Carolina's first-ever amusement park. Nestled in the mountains of Blowing Rock, North Carolina, it is home to the classic steam locomotive Tweetsie 12.

Tweetsie's historic lineage runs deep. This steam engine is the last remaining locomotive that ran a rail line connecting Boone, North Carolina, to Johnson City, Tennessee, through the rugged Appalachians.

The Wild West theme of the park permeates every aspect of the family entertainment that draws families from all over. Tweetsie Railroad is in a category of its own, situated in a beautiful mountain setting.

Away from the noise and rush of everyday life, this North Carolina fixture offers an escape from the worries of today with a glimpse of a bygone era. This retreat of family entertainment is

part of a great American tradition, and I wish it many more years of delighting families with wholesome fun.

□ 1015

JOHN EDWARD DEAN

(Mr. GOHMERT asked and was given permission to address the House for 1 minute.)

Mr. GOHMERT. Mr. Speaker, I rise today in honor of John Edward Dean's 90th birthday. John Edward Dean was born June 18, 1917 in Upshur County, Texas. He grew up in my district, in the town of Gilmer, where he attended Gilmer public schools and graduated from Gilmer High School in 1937. Mr. Dean would often ride horseback to school, and by the age of 15, he was hauling cattle to the Fort Worth stockyards to help provide for his younger siblings.

In 1945 he purchased Snider's sawmill in Gilmer, where the company will turn 70 next year.

John Dean is an American patriot, a servant who so many of us in east Texas have come to respect. He never missed a day of work or church due to an illness, and was never even hospitalized until age 70.

John and the love of his life, the late Jane Holmes, have 3 children, 7 grandchildren, 8 great grandchildren, and has given generously to the Gilmer community. His lumber company is one of Gilmer's largest employers, and was a pioneer in diversity.

He serves as a deacon at First Baptist Church of Gilmer, is a 20-year member of the East Texas Baptist University Board of Trustees in Marshall.

I stand here today to wish John Edward Dean a happy birthday, Mr. Speaker, and to pray that God may continue to bless him and his family for being such a blessing to so many others.

THE DEPARTMENT OF STATE, FOREIGN OPERATIONS AND RELATED PROGRAMS APPROPRIATIONS ACT, 2008

Mr. SIRES. Mr. Speaker, I ask unanimous consent that, during further consideration of H.R. 2764 pursuant to House Resolution 498, the Chair may reduce to 2 minutes the minimum time for electronic voting under clause 6 of rule XVIII and clauses 8 and 9 of rule XX.

The SPEAKER pro tempore (Mr. PERLMUTTER). Is there objection to the request of the gentleman from New Jersey?

There was no objection.

The SPEAKER pro tempore. Pursuant to House Resolution 498 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the further consideration of the bill, H.R. 2764.

□ 1017

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 2764) making appropriations for the Department of State, foreign operations, and related programs for the fiscal year ending September 30, 2008, and for other purposes, with Mr. HOLDEN (Acting Chairman) in the chair.

The Clerk read the title of the bill.

The Acting CHAIRMAN. When the Committee of the Whole rose on Wednesday, June 20, 2007, all time for general debate had expired.

Pursuant to the rule, the bill shall be considered for amendment under the 5-minute rule.

Pursuant to the order of the House on that day, no amendment to the bill may be offered except those specified in the previous order of the House of that day, which is at the desk.

The Clerk will read.

The Clerk read as follows:

H.R. 2764

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending September 30, 2008, and for other purposes, namely:

TITLE I

DEPARTMENT OF STATE

DEPARTMENT OF STATE AND RELATED AGENCIES

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses of the Department of State and the Foreign Service not otherwise provided for, including employment, without regard to civil service and classification laws, of persons on a temporary basis (not to exceed $700,000 of this appropriation), as authorized by section 801 of the United States Information and Educational Exchange Act of 1948; representation to certain international organizations in which the United States participates pursuant to treaties ratified pursuant to the advice and consent of the Senate or specific Acts of Congress; arms control, nonproliferation and disarmament activities as authorized; acquisition by exchange or purchase of passenger motor vehicles as authorized by law; and for expenses of general administration, $3,820,018,000: *Provided,* That of the amount made available under this heading, not to exceed $10,000,000 may be transferred to, and merged with, funds in the ''Emergencies in the Diplomatic and Consular Service'' appropriations account, to be available only for emergency evacuations and terrorism rewards: *Provided further,* That of the amount made available under this heading, not less than $363,905,000 shall be available only for public diplomacy international information programs: *Provided further,* That of the amount appropriated under this heading, $5,000,000 shall be available for the Secretary to establish and operate a public/private interagency public diplomacy center which shall serve as a program integration and coordination entity for United States public diplomacy programs: *Provided further,* That of the amounts appropriated under this heading, $4,000,000, to remain available until expended, shall be for compensation to the families of members of the Foreign Service or other United States Government employees or their dependents, who were killed in terrorist attacks since 1979: *Provided further,* That none of the funds made available for compensation in the previous proviso may be obligated without specific authorization in a subsequent Act of Congress: *Provided further,* That of the amount made available under this heading, $3,000,000 shall be available only for the operations of the Office on Right-Sizing the United States Government Overseas Presence: *Provided further,* That not less than $5,000,000 shall be for the Program for Research and Training on Eastern Europe and the Independent States of the Former Soviet Union (title VIII) as authorized by the Soviet-Eastern European Research and Training Act of 1983 (22 U.S.C. 4501–4508, as amended): *Provided further,* That funds available under this heading may be available for a United States Government interagency task force to examine, coordinate and oversee United States participation in the United Nations headquarters renovation project: *Provided further,* That no funds may be obligated or expended for processing licenses for the export of satellites of United States origin (including commercial satellites and satellite components) to the People's Republic of China unless, at least 15 days in advance, the Committees on Appropriations of the House of Representatives and the Senate are notified of such proposed action: *Provided further,* That funds appropriated under this heading are available, pursuant to 31 U.S.C. 1108(g), for the field examination of programs and activities in the United States funded from any account contained in this title.

In addition, not to exceed $1,558,390 shall be derived from fees collected from other executive agencies for lease or use of facilities located at the International Center in accordance with section 4 of the International Center Act; in addition, as authorized by section 5 of such Act, $490,000, to be derived from the reserve authorized by that section, to be used for the purposes set out in that section; in addition, as authorized by section 810 of the United States Information and Educational Exchange Act, not to exceed $6,000,000, to remain available until expended, may be credited to this appropriation from fees or other payments received from English teaching, library, motion pictures, and publication programs and from fees from educational advising and counseling and exchange visitor programs; and, in addition, not to exceed $15,000, which shall be derived from reimbursements, surcharges, and fees for use of Blair House facilities.

In addition, for the costs of worldwide security upgrades, $964,760,000, to remain available until expended.

AMENDMENT OFFERED BY MR. LINCOLN DIAZ-BALART OF FLORIDA

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. LINCOLN DIAZ-BALART of Florida:

Page 2, line 22, after the dollar amount, insert ''(reduced by $36,700,000)''.

Page 40, line 26, after the dollar amount, insert ''(increased by $36,700,000)''.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Florida (Mr. LINCOLN DIAZ-BALART) and a Member opposed each will control 10 minutes.

The Chair recognizes the gentleman from Florida.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Chairman, my amendment, coauthored by my good friend, Mr. ALBIO SIRES of New Jersey, restores funds for Cuba democracy assistance to the administration's requested level of $45 million by offsetting $36 million from the Department of State General Administration Budget.

Unfortunately, as this chart so well demonstrates, the committee, while generally meeting or far exceeding the administration's requests for the rest of Latin America, something that I support, the bill funds Cuba democracy programs at approximately 20 percent of the President's request of $45 million; 20 percent for assistance for those brave men and women who risk their lives and their families' safety, unarmed, in a hard-line totalitarian police state to peacefully press for democracy in Cuba; human rights activists, independent journalists, independent librarians, independent physicians. This aid goes to them and to their families, to the families of political prisoners.

As explained, Mr. Chairman, in the letter from nine members of the pro-democracy movement to the six Cuban American Members of Congress, they attest and affirm that the assistance is key, and that it reaches them and that it has made and is making a great difference for the pro-democracy movement at this time.

Now, Mr. Chairman, the opponents of this effort asked for a GAO report on these programs, and I thank them for it.

First, the GAO report, after 18 months of thorough investigation, confirmed that the program is working. And I quote from the GAO report. ''Dissidents we interviewed in Cuba said that they appreciated the range and types of U.S. democracy assistance; that this assistance was useful in their work, and that it demonstrates the U.S. Government's commitment to democracy in Cuba.''

Mr. Chairman, the GAO report detailed many successes, despite emphasizing the great challenges posed by the totalitarian police state for aid distribution. It talked about the GAO report, 385,000 pounds of medicines, food and clothing have been delivered to the pro-democracy movement and their families; more than 23,000 shortwave radios, millions of books, newsletters and other informational material.

U.S. assistance reported independent journalists and including the publication of approximately 23,000 reports by those independent journalists.

Mr. Chairman, I would call attention to the fact that the GAO report, while making absolutely no recommendation for any cut whatsoever in this program, does point out and make clear the case that it is an important and effective program; and after the GAO report, it has been significantly improved.

I call the attention of all of my colleagues to the reply to the GAO report by the administrating agency, the USAID, where it delineates that all the GAO report's recommendations have been implemented. All of the recommendations have been implemented. That has made an effective and important program even more effective and important.

Mr. Chairman, let us not turn our backs on the Cuban internal opposition. They will play a key role in the inevitable democratic transition that is approaching, and we must do all we can so that they can survive the brutality of a totalitarian police state, of violence and terror that, fortunately, to a great extent because of the pro-democracy movement in Cuba, will soon be but a tragic and perverse historical memory.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I claim time in opposition to this amendment.

The Acting CHAIRMAN. The gentlewoman from New York is recognized for 10 minutes.

Mrs. LOWEY. Mr. Chairman, the Bush administration requested an increase in economic support funds for Cuba from $9 million to $45.7 million.

Between 1996 and 2005, USAID and the Department of State signed contracts worth $74 million for Cuba programs, according to the GAO's study. The administration is asking for a 1-year, fiscal year 2008 request that is more than two-thirds the size of what was committed over the 10 years, from 1996 and 2005. This request is 500 percent of what USAID received in the last fiscal year. Given how ill-conceived and ill-managed the program is, there is no justification for an aid increase.

My friend from Florida has raised the GAO report and said that it has not recommended that funding be cut. But the objective of the report was not to recommend that funding should be increased or decreased. It was to examine the roles and objectives of the agencies implementing United States democracy assistance targeted at Cuba, and the characteristics and selection of the grantees receiving Department of State and USAID awards, the types, amounts, beneficiaries and methods used to deliver assistance for selected grantees in 2005, USAID's monitoring and oversight of these grantees, and the availability of data to evaluate whether U.S. assistance has achieved its goals.

Although I believe that this program does little to help dissidents, and very little to expand political space in Cuba, we have continued funding at the same level as provided by our former colleague, Jim Kolbe, when he chaired the subcommittee.

The bill has $9 million, and requires USAID and the Department of State to present a plan for improved coordination and for oversight of the Cuba program.

GAO concluded in a November 2006 report that ''poor monitoring and oversight of the Cuba program did not provide adequate assurance that funds were properly used.''

Administrative costs on the part of grantees were high, oversight of the goods chosen inadequate; specifically, according to the GAO study, there were instances in which cashmere sweaters, Godiva chocolates, Nintendo Gameboys, Sony Playstations were among the items purchased in the United States to be shipped to dissidents in Cuba.

The Cuba program is poorly managed and can be argued to be counterproductive. It is not a productive use of limited U.S. resources, and the result of this program is often to identify Cuban dissidents as U.S. funded opponents of the regime.

I urge my colleagues to oppose this amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Chairman, at this time I yield 2 minutes to the distinguished coauthor of the amendment, Mr. SIRES.

Mr. SIRES. Mr. Chairman, the funding that has been provided over the past 10 years to support the pro-democracy movement in Cuba has been working. U.S. assistance has provided books, newsletters and other informational material to the people of Cuba, as well as over 385,000 pounds of medicine, food and clothing.

According to a USAID report, U.S. assistance has also funded journalism correspondence courses for more than 200 Cubans, and the publication of about 23,000 reports by independent Cuban journalists about conditions and events in Cuba.

Although the Cuban regime restricts nearly all political dissent, and denies its citizens the basic rights of free expression, association and assembly, our funding and assistance has allowed the pro-democracy and civil resistance movement in Cuba to dramatically increase in recent years.

As evidenced in this chart, from just 2004 to 2005 there was a 54 percent increase in the number of civil resistance actions reported on the island. Some of these civil resistance acts include citizens unwilling to cooperate with regime officials in repressing pro-democracy activities, and citizens boycotting regime control meetings and mass gatherings.

By supporting this amendment, the pro-democracy movement in Cuba can

continue to organize, communicate their vision for the future of the Cuban people, and prepare to assume the role in the process of democratic transition.

But it is also important to realize that Cuba now is at the same stage that Spain was many years ago when they had a dictator for 40 years. The world looked to Spain and saw that many of the institutions promoting democracy prevailed. If we don't work to promote dissidents who are pro-democratic dissidents in Cuba, we're not going to have any institution when the changes for a Cuban democratic island will exist.

Mrs. LOWEY. Mr. Chairman, I am very pleased to yield 3 minutes to the distinguished gentleman from Massachusetts (Mr. DELAHUNT).

Mr. DELAHUNT. Mr. Chairman, the committee recommends $9 million for democracy programs in Cuba. I want to be sure that no one is misled by a claim that this is a cut. This is the same amount that the program received last year.

And last November, as has been noted, the GAO found serious problems with the administration of this program, as well as a lack of accountability which must be addressed, and this has not happened.

The report is entitled ''U.S. Democracy Assistance for Cuba Needs Better Management and Oversight.'' So to increase the funding to almost $50 million, or by about 500 percent, is not just irresponsible, it has an Alice in Wonderland quality about it. Reward mismanagement and incompetence.

□ 1030

No, my friends. The committee has acted wisely and I applaud the committee. It is demanding a spending plan and a strategy for how the funds will be used so we no longer will be sending cashmere sweaters to the tropical island of Cuba. Yes, this actually happened. I know it is hard to believe.

This program does not need any more money. What it needs is what it has never had before, and that is vigorous congressional oversight. Why does it need oversight? There is simply no time to list all of the programs. Read the report in full measure.

But I would note that I found it particularly informative that over a 10-year period, $62 million of the $65 million in USAID grants was provided without competition. That is 95 percent of the money provided in response to unsolicited proposals with no bidding, no public notice, no compensation. No, this program doesn't need any more money. It needs oversight.

And I agree, let's listen to the dissidents like my friend Miriam Lay-VA, who is one of the founders of the Ladies in White. Here is what she says:

''There must be no funds from any government allocated to the dissidents . . . the opposition gets practically nothing and the main thing is that it gives the Cuban Government a pretext to say that we are mercenaries and put us in jail. I'm against any funds from the American Government, and I think that if it wants to help the Cuban people, it should lift the embargo and allow trade, tourism, and academic exchanges, and Cubans should be allowed to travel without restriction to the United States and send money to their families'' in Cuba.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Chairman, I would simply remind my colleagues what if the policies advocated by those who are against this program had succeeded during the 1980s in Poland and Eastern Europe? Just ask yourself that question and remember when we did what we are doing here in the 1980s, what happened in Eastern Europe.

Mr. Chairman, I would like to yield 1 minute to a distinguished leader and human rights activist from New Jersey (Mr. ANDREWS).

Mr. ANDREWS. Mr. Chairman, I thank the gentleman for yielding the time.

I rise in support of the amendment. I would like to first thank the gentlewoman, the chairperson, for the funding she has supplied for this program.

I believe we are at a crucial time in the southern part of our hemisphere. I believe that it will go one way or the other in the years ahead. It will either be a breeding ground for violence, trouble, and difficulty; or it will be a breeding ground for the democratic values that will make us safer and stronger and more prosperous. Cuba is not the only country that will influence that decision, but it is a pivotal country. And I think an investment in the long-term process of promoting democracy and prosperity in Cuba is not only in the best interest of the Cuban people but in the best interest of the American people.

Many of the issues that my friend from Massachusetts talked about have been addressed and corrected. But I think the largest mistake that we could make would be to avoid our responsibility and opportunity to influence positively those who wish to bring democracy and the rule of law to Cuba at this very critical time in her history.

I urge my colleagues to vote ''yes'' on the amendment.

Mrs. LOWEY. Mr. Chairman, I am very pleased to yield 1½ minutes to the distinguished member of the Rules Committee, Mr. MCGOVERN.

Mr. MCGOVERN. Mr. Chairman, I rise in opposition to this amendment, which seeks to send five times the current level of funding to so-called democracy assistance programs for Cuba. Five times the amount of money to programs that are not transparent; smack of cronyism; are noncompetitive; and, frankly speaking, foolish, corrupt, and just plain embarrassing for the United States.

How bad is this program? So bad that Cuba's courageous Catholic Church refuses to work with it. Many dissidents have told me that they think that this program is a bad idea. For Cuban opposition leaders to take money from the U.S. Government subjects them to the charge that they are somehow U.S. agents. That is not the way to promote democracy.

I support the committee bill, which keeps funding level at $9 million. It is the smart thing to do until problems outlined in the November GAO report have been addressed and the program redesigned and better managed so that it might have at least some chance of being effective.

Mr. Chairman, everyone in this House supports the work of Cuba's dissident and pro-democracy community. But we do not need to squander five times more money on leather coats, cashmere sweaters, Game Boys, crabmeat, and Godiva chocolates purchased by groups pretending to support them.

What do Godiva chocolates have to do with promoting democracy in Cuba? Come on, give me a break.

The American people want accountability, and I hope a majority in this Congress will too. Vote ''no'' on this amendment.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Chairman, I yield 2 minutes to the Congressman from Florida (Mr. MARIO DIAZ-BALART).

Mr. MARIO DIAZ-BALART of Florida. Mr. Chairman, at a time when the Cuban terrorist dictator and dictatorship is ailing, this bill guts the funding for the brave and heroic pro-democracy movement in Cuba.

Now, what has that money been used for in the last 10 years? This is in the report: Medicine, food and clothing for the families of political prisoners; more than 23,000 shortwave radios; hundreds of thousands of newsletters and other informational material, including books; journalism courses to more than 200 independent Cuban journalists who published almost 25,000 reports and publications from within the enslaved island.

I hold in my hand a letter from a diverse group of brave opposition leaders in Cuba making it clear that this assistance is vital and desperately needed in the effort for a free and democratic Cuba.

I read the GAO report, both the classified and unclassified parts of it, and it does state that this assistance does reach the pro-democracy movement in Cuba. And it is important to note that all of the recommendations, every single one in that report, have been implemented, unlike what you have heard today.

This is not the time to abandon those brave men and women, their families, the political prisoners, the opposition

leaders, the independent journalists, labor leaders who are heroically and at a great personal risk working for a democratic transition in Cuba. This amendment, which is fully offset and CBO has scored as revenue neutral, will rectify the unconscionable betrayal and abandonment of the brave and heroic dissidents, the opposition leaders who are working under the toughest of conditions for a free and democratic Cuba.

I urge the adoption of this amendment.

Mrs. LOWEY. Mr. Chairman, I am pleased to yield 1½ minutes to the distinguished gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. Mr. Chairman, I thank the gentlewoman for yielding.

The speaker just said that unless we have this amendment, this program will be gutted. The truth is the committee keeps the funding level as it is, and I think given the GAO report, that is only proper.

As my colleagues have already mentioned, the GAO report that was commissioned by myself and Congressman DELAHUNT noted that there were items purchased with the money that is supposed to go to dissidents in Cuba: a gas chainsaw, Game Boys, PlayStations, a mountain bike, leather coats, cashmere sweaters. How is that going to help the dissident community in Cuba? I would submit not very much. But yet the same ones who support increasing this funding by five times also will not support allowing individuals to visit their own family members in Cuba and take toothpaste or clothing items or even to take a fishing poll so that poor Cubans might supplement their meager diets. That, according to the group that wants to increase funding here, should be outlawed. We should continue to outlaw that but increase taxpayer funding for a program that the GAO says there was intense mismanagement, cronyism. A scathing report that came out: lack of bank reconciliations, lack of documentation to determine compliance with cost-sharing requirements, questionable travel expenses lacking adequate documentation, questionable expenses paid to family members of a grantee manager, hundreds of dollars of petty cash observed in the grantee's office that was not controlled or properly cured.

This is not a good amendment. If you believe in fiscal sanity, please defeat the amendment.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Chairman, I yield myself such time as I may consume.

Let's see what the dissidents in Cuba, in a letter and knowing full well the risks they take by sending a letter to Members of Congress about this issue today, what they say about the aid that this program has sent to Cuba and is sending:

''We can affirm that the aid that for many years has flowed to the pro-democracy movement takes into account the vast range of needs, from medicine to keep a political prisoner or dissident from dying, to food, water filters, medical equipment, clothing, shoes, coats, toys for the children of political prisoners who suffer doubly the loss of a loved one and social repression on the streets and in school, essential vitamins, office supplies, the tools of democracy, computers printers, phones, fax machines, among others that account for the long list of articles and materials that have been made possible in Cuba.''

And they thank the American people in the same way in which the people of Poland and the people of Eastern and Central Europe will be eternally grateful to the American people, including the Congress of the United States, for the support in their difficult days. The dissidents and the pro-democracy movement in Cuba thank the American people for this aid. And what President Bush has requested for the rest of the hemisphere is either being funded or exceeded, and yet for the only totalitarian police state in the hemisphere, the committee has funded it at 19 percent. That is not justifiable, Mr. Chairman. That is why we are asking for the funding fully offset to be at the requested level by the administration.

Please support this amendment.

Mrs. LOWEY. Mr. Chairman, I am very pleased to yield 1 minute to the gentlewoman from Missouri (Mrs. EMERSON).

Mrs. EMERSON. Mr. Chairman, let me just say very briefly, because I don't need to repeat the fact that our taxpayer dollars have spent money for cashmere sweaters, mountain bikes, and the like that really aren't doing good for our dissidents, but I want to also mention the letter that our colleagues from Florida mentioned, the one that USAID sent. It did say that this program that we have is doing some good, which is why I and my colleagues support the funding that we have in the current bill. But what was not mentioned was that in the same letter, the USAID also says that having restrictions on travel to Cuba, restrictions on sending goods to Cuba don't serve the dissidents well. So that begs the question, then. If the letter is important, the letter is important in totality.

I think because of the GAO report and the fact that we do not have good controls on the use of our taxpayer dollars that the old saying that President Reagan said ''trust but verify'' is very important, and it is time we verify before we send more money.

Mr. WOLF. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in strong support of the amendment.

Just to bring it back, one, this has nothing to do with trade. So the trade issue is not even out here. It also has nothing to do with the issue of travel, and I have asked for a visa to Cuba, and they denied me when I tried to go.

This amendment should be called not the Diaz-Balart amendment. This should be the Sharansky amendment. This should be called the Yelena Bonner amendment. This should be the Havel amendment. I just read the interview with Havel the other day.

What we want to do with this money is the same thing that was done in Eastern Europe during the days of Ronald Reagan when we brought down communism. This is what we did in Romania to bring down the Ceausescu government. So this is a major cut. The Bush administration funds this to the pro-democracy groups in Cuba. They need this for training. They need this for their journalists. They need this for technical assistance.

□ 1045

They need this for so many other reasons. USAID reported U.S. assistance supported journalism correspondence courses for 200 Cubans; publication of 23,000 reports by independent Cuban journalists, on and on. Dissidents are routinely rounded up.

If this amendment passes, imagine how they will feel in Cuba today to know that the United States Congress stood with them. If it fails, they will be demoralized.

This is really the Sharansky amendment of 2007. This is the Havel amendment of 2007. This is the Yelena Bonner amendment of 2007. This is the amendment that we used to do in the 1980s to bring down communism, to help the civilian side, the dissidents.

This has nothing to do with travel; it shouldn't even be mixed with that. That's a mixed issue; it has nothing to do with trade. It is what do we do to help the dissidents; Armando Valadez has been in jail for almost 19 years.

And so, I would hope that we can come together and send a message that when this amendment is passed, the word goes forth as they listen to their Radio Free Cuba tomorrow to know that the United States Congress stood with them the way that they stood with Havel.

Mr. Chairman, I yield to the gentleman from Florida for the balance of the time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Chairman, Mr. WOLF has said it all. This is an amendment not only of conscience, this is an amendment to help people who are risking their lives. Thousands who are in prison, hundreds recognized as prisoners of conscience by international organizations such as Amnesty International. They are risking their lives and their families' lives to peacefully advocate for freedom and democracy as those heroes mentioned by Mr. WOLF advocated and risked their lives in Eastern and Central Europe in the 1980s, and they

finally achieved freedom. And have no doubt that the dissidents in the pro-democracy movement in Cuba will be fundamental in the transition. They will be leaders in the future tomorrow, perhaps received in this Congress as the sovereign and elected leader of the Republic of Cuba, perhaps one of those political prisoners, I have no doubt, or those opposition leaders.

So it is time to help them and, as Mr. WOLF said, send a message of solidarity and not retreat at this critical time.

Mr. WOLF. Reclaiming my time, if Sharansky served in this Congress today, if Havel were serving here in this Congress today, if Yelena Bonner was serving in this Congress today, Yelena Bonner and Sharansky and Havel would be for this amendment.

Mr. Chairman, I yield back the balance of my time.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

The Acting CHAIRMAN. The gentlewoman is recognized for 5 minutes.

Mrs. LOWEY. Before I yield to my colleague, I would like to respond to my good friend, the ranking member, concerning his concern about the impact on the dissidents. I would daresay as an American who is proud of our values, if we open travel and communication and trade between the United States and Cuba, they would really understand what it's like to be an American. And I feel that's the best way to free the dissidents and to create an open and democratic society.

Mr. Chairman, I am very proud to yield to my good friend, Mr. DELAHUNT.

Mr. DELAHUNT. I thank the gentlelady for yielding, and I yield as much time as she may consume to the gentlelady from Missouri.

Mrs. EMERSON. Mr. Chairman, I misspoke, and I need to make a correction for that.

When I was quoting about the restrictions, the people who wanted to remove the restrictions, I meant to say it was a letter from the dissidents, the Cuban dissidents, to us.

And also, I might add that the title of the report that our colleague from Florida cited is entitled, ''U.S. Democratic Assistance for Cuba Needs Better Management and Oversight,'' which is why the committee report funding at $9 million is the right course today.

Mr. DELAHUNT. In response to the ranking member, I don't disagree when he suggests that we listen to the dissidents because they're on the island, they're fighting the good fight, not from the safety of Washington or Boston or Miami, but they're there. Let's start to listen to them.

This was a statement that was released by four of them, prominent and well respected, on the island. It is a statement that was signed by Marta Beatriz Roque, Jisela Delgado, Elizardo Sanchez and Vladimiro Roca. Let's listen to what they say. Let's not reach our own conclusions here in this House without listening to what they say.

''We consider it very important to achieve greater efficiency in the use of these funds. We believe that one possible way to achieve this would be the elimination of a series of existing restrictions on the sending of aid and travel to Cuba, which doesn't at all help the pro-democracy struggle that we are carrying out inside our country.''

With all due respect to the gentleman from Virginia, it is about travel, it is about the embargo, because that's what the dissidents are saying to us here, and we ought to listen to them.

Mr. Chairman, I yield to my friend and colleague from Massachusetts (Mr. MCGOVERN).

Mr. MCGOVERN. And not only listen to the dissidents, but listen to the courageous Catholic Church in Cuba, which refuses to participate in this program.

We have had a policy for 50 years that has failed, it has been a failure. This is a continuation of the same old, same old. But even if you want to go down that road, the reason why you should oppose this amendment is because this program has been plagued with corruption and cronyism. We have used taxpayer moneys to buy Godiva chocolates and cashmere sweaters. I mean, come on. That is not a way to support dissidents. That is not a way to support the struggling democratic movement in Cuba. This program has been mismanaged. It is up to the Members of this Congress to make sure we do the proper oversight to make sure that we're not wasting taxpayers' money.

Mr. DELAHUNT. I thank my colleague for the statement.

Mr. FARR. Mr. Chairman, I call on Castro to not fear political dissidents in Cuba, nor free press, nor trade or travel with the U.S. But I also call on our government to consider the following: the U.S. has tried 45 years of an embargo and restrictive travel; the State Department has tried democracy assistance programs; and, the Treasury Department has tried restricting U.S. farmers from easily selling their products to Cuban consumers.

All these U.S. government policies have failed to bring about a change of leadership in Cuba. Unfortunately throwing more money at TV Martí or democracy programs is not going to bring about a real change in Cuba. Real change can only be brought about by revolutionizing U.S. policy towards Cuba. Lifting the travel embargo—allowing for the free exchange of ideas and people between our country and Cuba—that's how we will support Cuban political discourse! That's how we will support freedom of expression in Cuba. Support lifting the embargo—vote against the Diaz-Balart amendment and support a saner policy towards Cuba!

Mrs. LOWEY. Mr. Chairman, I yield back the balance of my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Florida (Mr. LINCOLN DIAZ-BALART).

The question was taken; and the Acting Chairman announced that the noes appeared to have it.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Florida will be postponed.

AMENDMENT OFFERED BY MR. WOLF

Mr. WOLF. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. WOLF:

Page 2, line 22, after the dollar amount, insert ''(reduced by $158,000,000)''.

Page 40, line 26, after the dollar amount, insert ''(increased by $140,000,000)''.

Page 58, line 18, after the dollar amount, insert ''(increased by $16,000,000)''.

Page 63, line 23, after the dollar amount, insert ''(increased by $2,000,000)''.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Virginia (Mr. WOLF) and a Member opposed each will control 10 minutes.

The Chair recognizes the gentleman from Virginia.

Mr. WOLF. Mr. Chairman, I yield myself 2 minutes.

Mr. Chairman, this restores $156 million of the $458 million that was cut. The amendment that we're going to offer today is in compliance with the Iraq Study Group.

Now, about 226 Members of this body said they favor the Iraq Study Group. What this does is this puts money back in for demining. If you listen to the news today, there were 13 killed with regard to IEDs in the effort for demining. This also puts money in for training for human rights.

Now, whether you want to go out today or whether you want to do whatever you want to do, we still need training for human rights, we still need training for capacity for democracy and governance, we still need ways for reconciliation to bring the parties together. We are always hearing about the differences between the different factions. That's what this money is for.

The administration originally asked for $458 million. We knocked it down. We brought them in and said, what do you really need? They said, this is what we really need.

This amendment is what the Iraq Study Group recommended. The Iraq Study Group recommendation number 6 says, ''Building the capacity of the Iraqi Government should be at the heart of U.S. reconstruction efforts, and capacity building demands additional U.S. resources.'' That's what this is on.

I urge Members on both sides, this ought not be a political issue or partisan issue, to support this amendment.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I rise in strong opposition to this amendment.

The Acting CHAIRMAN. The gentlewoman from New York is recognized for 10 minutes.

Mrs. LOWEY. With great respect for my good friend and ranking member, Mr. WOLF, we have just provided $2.863 billion in emergency supplemental appropriations for Iraq, diplomatic operations and reconstruction.

In addition, there are $3 billion for unexpended IRF funds. This amendment is requesting $140 million in additional funding for democracy, rule of law and governance programs. The supplemental provided $250 million for democracy activities, $67.6 million for civil society, $57.4 million for targeted development, $125 million in governance programs, and $150 million in rule of law activities.

The amendment is also requesting $16 million in additional funding for nonproliferation, anti-terrorism and demining activities. The recently passed supplemental provided $7 million for demining in Iraq.

Additionally, nowhere in this bill is there language restricting funding for humanitarian activities in Iraq. In my judgment, the administration should substantially expend the funds we have provided before Congress provides additional funding for the same purposes.

And lastly, if the situation on the ground changes and our assistance can be used to make substantial achievements, we can address funding for Iraq as the President has requested, $2.893 billion in emergency appropriations for diplomatic operations and reconstruction in Iraq in fiscal year 2008.

So, my colleagues, my good friend is requesting $158 million for purposes that have already been funded in a $2.8 billion supplemental. And there is another $2.893 billion supplemental coming up in September. I know that $158 million can be used for the tremendous needs around the world.

I strongly oppose this amendment, and I ask that my colleagues join me.

Mr. Chairman, I reserve the balance of my time.

Mr. WOLF. I yield 2 minutes to the gentleman from Texas (Mr. MCCAUL).

Mr. MCCAUL of Texas. Mr. Chairman, I rise today in strong support of this amendment offered by Mr. WOLF of Virginia to restore $158 million to this bill for democracy, governance, rule of law and human rights programs. In addition, it will fund nonproliferation and anti-terrorist programs.

Mr. Chairman, the debate in this Chamber over the future of Iraq and the best course of action has been passionate and divisive. Each Member of this House has their own opinion, yet the one thing we should be united on is that our end goal should be the same, a secure and stable Iraq.

Unfortunately, this bill predetermines failure by cutting off all funds to important democracy-building programs in Iraq. The majority has chosen to use this bill, as they have attempted several times already this year, to force a premature end to Iraq's pursuit of freedom and democracy. This will only lead to chaos and instability in the region.

As a consultant to the Iraq Study Group, along with Mr. WOLF of Virginia, we introduced a bipartisan bill, the Iraq Study Group Recommendations Implementation Act of 2007 which provides a comprehensive set of recommendations and a plan of action to succeed in Iraq. Included in these recommendations are suggestions for funding democracy, governance and rule of law, all the items that are funded by this amendment.

This bill has garnered 52 cosponsors from both sides of the aisle, who have recognized the potential we have by implementing these recommendations together and moving forward as a united Congress. If we allow this bill to pass without the money for building an Iraq democracy, we condemn our mission to failure and declare that the sacrifices we made over the past several years were in vain. It will also squander any opportunity we have to give the Iraq Study Group recommendations a chance to succeed.

I strongly urge my colleagues to support the Wolf amendment.

Mrs. LOWEY. Mr. Chairman, I am very pleased to yield 4 minutes to the vice chair of this committee, my distinguished friend, Mr. JACKSON.

Mr. JACKSON of Illinois. I thank the gentlewoman for yielding.

Mr. Chairman, I rise in opposition to this amendment.

We have just provided $2.863 billion in emergency supplemental appropriations for Iraq's diplomatic operations and reconstruction. As the gentleman has accurately noted in committee, the funding in this supplemental is tied up due to benchmarks; benchmarks that reflect the will of the American people and the Congress; benchmarks that presumably reflect the President's concurrence, as he signed them into law; benchmarks that can be argued are in the best interest of Iraq in becoming a stable democracy.

□ 1100

Furthermore, I believe the gentleman's argument is not valid, as the $2.863 billion we just provided will be available long before this bill comes back from the President's desk signed. Additionally, while I believe we provided sufficient funds for Iraq, I want to point out that the administration should substantially expend the funds that we have provided before Congress provides additional funding for the exact same purposes. Besides, Congress provided an extension of the authority to deobligate and then to reobligate prior-year appropriations to the Iraq Relief Construction Fund, which, as of May 1, 2007, had $3.119 billion in unexpended balances.

In the committee, the gentleman raised the issue of visible support, as my last colleague raised in his remarks. I take a little bit of offense to that, because I think that every day our troops, our diplomats and aid workers are in harm's way, we show the greatest levels of support. What's more, none of the funding in the gentleman's amendment would go towards providing a safer environment for our men and women serving in the country of Iraq. We just provided $2.863 billion.

So let's take the gentleman's amendment apart for a moment and be clear on what we are considering. This amendment is requesting $140 million in additional funding for democracy, rule of law and governance programs. The supplemental provides $250 million for democracy activities; $67.6 million for civil society, and $57.4 million targeted for development, $125 million in governance programs, and $150 million in rule of law activities.

On page 58, line 18, the amendment is requesting $16 million in additional funding for nonproliferation, anti-terrorism, and demining activities. I want to make a couple of points about that.

The recently passed supplemental provided $7 million for demining in Iraq. We do not appropriate nonproliferation, anti-terrorism, demining-related program accounts by country. We appropriate this account by program to allow the administration the flexibility to adjust to emerging priorities and opportunities. This amendment would seek to change that and radically affects how the President performs his duties.

Additionally, this bill, and I want to emphasize this, this bill for the first time fully funds the President's request for NADR, something I would note that my colleagues on the other side of the aisle could not claim when they were in the majority. The humanitarian demining account is funded at the President's requested level of $56.5 million. It does not need further funding.

On page 63, line 23, of the gentleman's amendment, where he requests an additional $2 million, the amendment is requesting this $2 million for foreign language training of Iraqi Security Forces. To date, we have provided $18 billion in training for the Iraqi Security Forces. $2 million. Where does this figure come from? We have provided $18 billion, and, now the distinguished ranking member seeks an additional $2 million.

We have provided sufficient funding. Most of these accounts and numbers

are unexpended. The administration should substantially expend those funds we have provided before Congress provides additional funding for the exact same purposes, Mr. Chairman.

Lastly, what is more, none of the funding in the gentleman's amendment would go toward providing a safer environment for our men and women serving in the country of Iraq.

Mr. Chairman, I thank the gentlelady from New York (Mrs. LOWEY) for yielding.

Mr. WOLF. Mr. Chairman, I yield 3 minutes to the gentleman from Louisiana (Mr. BOUSTANY).

Mr. BOUSTANY. Mr. Chairman, I thank our ranking member for yielding time to me.

Mr. Chairman, while there are many disagreements about policy in Iraq, we can all agree that a military solution is insufficient. More evidence is clearly needed on the political, diplomatic, and economic fronts. But I have concerns about what I am hearing from across the aisle. Given the history, if we look back at the CR at the beginning of the year, there is a lack of clarity about how funds could be used by our State Department.

Furthermore, we saw a marked reduction in human intelligence funding in the Intelligence authorization bill. In the supplemental, economic support funds were basically withheld. But some funding was restored through administration waivers. And now, in this bill, economic stabilization funds were basically zeroed.

Mr. Chairman, I thank our colleague, our ranking member, for trying in subcommittee and in full committee to restore this funding. With this amendment, which I believe is very essential to success in Iraq, he has put forth this effort. This funding is clearly important if we are going to fund the political and economic endeavor in Iraq. The State Department cannot complete its planning and implementation of phase three of putting together these provincial reconstruction teams which are absolutely necessary to the success of the mission. So it is clear that we need for this amendment to pass to allow the State Department to plan and move.

In the post-Cold War environment, we have grave responsibilities as a Nation. Yet we are refusing to fund our State Department worthy of this position of responsibility. The United Kingdom alone, which has one-fifth the population of the United States, has 5,600 diplomats worldwide and 130,000 troops. The U.S. has a mere 6,500 diplomats worldwide with 1.4 million troops, 2.5 million if you count our Reserves.

Mr. Chairman, I urge the adoption of this amendment. Clearly, it is the responsible thing to do to move forward. It restores $140 million in economic support funds, $16 million in nonproliferation, anti-terrorism and demining efforts, a critical, critical piece to this, and $2 million to increase international military education and training.

Mr. Chairman, this amendment is a responsible thing to do. I urge all of our colleagues on both sides of the aisle to support this amendment.

Mrs. LOWEY. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, my colleagues, I have a question for Mr. BOUSTANY, my good friend, and the ranking member. I believe, Mr. BOUSTANY, that you recommended that we fund this $158 million. Yet this amendment takes the money away from the State Department. Ambassador Ryan Crocker is doing a superb job. We just appropriated $2.8 billion in the supplemental. The American people have requested, and this Congress has requested, that we see some response to the benchmarks, that we see some response on the part of the Iraqi Government to the benchmarks that have been put in place.

So if I understand correctly, even though the supplemental funded, and I am not going to repeat it, every single category that my dear friend, the ranking member and my friend, Mr. BOUSTANY, are advocating for, you want to fund $158 million with funds from the State Department which are supporting Ambassador Ryan Crocker and other ambassadors around the world who are doing such an amazing job representing us.

Mr. Chairman, I really think there is a disconnect here. I want you to know that for those of us who are opposing this amendment, with great respect, again, to my ranking member, we feel that the supplemental that has passed and the $2.8 billion that is coming up in September requested by the administration can address these issues if, in fact, there is an understanding that they are not being funded adequately.

So, again, I strongly object to this amendment. I strongly object to taking funds away from Ambassador Ryan Crocker and our other ambassadors around the world and representatives of the State Department.

Mr. Chairman, I reserve the balance of my time.

Mr. WOLF. Mr. Chairman, I yield 1 minute to the gentleman from Arizona (Mr. SHADEGG).

Mr. SHADEGG. Mr. Chairman, I rise in strong support of the amendment by the gentleman from Virginia. I think it is important to focus on this debate. There is no challenge greater than this facing America right now. It is vitally important that we succeed in Iraq and allow that nation to establish a democracy. I hear on the other side that, well, we have amply funded this already.

We are imposing dramatic increases in spending in thousands of other areas, a 56 percent increase in HIV/AIDS funding alone. What message do we send if we reduce spending in this area at this time? I would argue that whether you want out of Iraq tonight or whether you support the current course, it is vitally important that we send every message we possibly can to the Iraqi people and to our Nation that we are doing everything we can to support democracy.

□ 1115

That is what these funds are for. Of course, other funds have been spent, but these funds continue the effort to tell the Iraqi people we stand with them. These are funds for domestic purposes, for their security, for governance and for rule of law. I believe it is vitally important, indeed critically important for our Nation, that we fund this money now. I rise in strong support of the gentleman's amendment.

Mrs. LOWEY. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, just for the record, did the gentleman from Arizona (Mr. SHADEGG) suggest that we decrease the money for HIV–AIDS around the world?

Mr. SHADEGG. Mr. Chairman, if the gentlewoman will yield. No, we are increasing it.

Mrs. LOWEY. I thought you were suggesting that you didn't think that was a good idea; that it was more important to add to the $2.8 billion another $158 million and take it from the HIV funds. If I misunderstood, I apologize.

Mr. SHADEGG. Mr. Chairman, if the gentlewoman will yield further, by no means was I suggesting we should not be doing that. In fact, that is a discussion for another day. What I was suggesting is that there are many places where we are increasing spending even more dramatically than is suggested by the gentleman's amendment here for what I believe is a vitally important purpose, which is democracy, rule of law and governance in Iraq.

Mrs. LOWEY. Mr. Chairman, reclaiming my time, so the gentleman believes that the $2.8 billion in the supplemental is not adequate and we must add $158 million now, even though there is another $2.8 billion supplement requested by the President for the fall.

Mr. Chairman, I yield 1 minute to my good friend, the gentleman from Illinois (Mr. JACKSON).

Mr. JACKSON of Illinois. Mr. Chairman, I thank the distinguished chairwoman for yielding me the time.

The question here is one of unexpended balances. The amendment is requesting an additional $140 million for rule of law democracy-related programs, but the supplemental that is still warm on the President's desk provided $250 million for those democracy activities, and they have not been expended; $67.6 million for civil society and $57.4 million targeted for development for $125 million in governance

programs, and they still haven't been expended; $150 million in rule of law activities that have not been expended as we move forward with the surge.

So, Mr. Chairman, it is premature to request $140 million additional dollars, page 40, line 26 of the gentleman's amendment, for moneys that have not been expended that the Congress just voted on in this particular bill. The same can be said of the gentleman's request on page 58, line 18, and page 63, line 23, $2 million. We have $18 billion to date appropriated for Iraqi Security Forces. Where does the figure $2 million come from? It comes from nowhere, Mr. Chairman.

Support the chairwoman's request to defeat this amendment.

Mr. WOLF. Mr. Chairman, I yield 2½ minutes to the gentleman from Connecticut (Mr. SHAYS). Members should know that Mr. SHAYS has been to Iraq 17 times and has been outside the umbrella of the military four times, and probably understands this issue in the Congress probably better than anybody else.

Mr. SHAYS. Mr. Chairman, I thank the gentleman for yielding.

First I want to salute Mrs. LOWEY. I think you have done a very fine job on this legislation. I know you are focused on a lot of issues, and I congratulate you for that.

We have disagreement on a few items in a very significant bill. I have strong concern about the lack of any dollars for economic development in the fiscal year 2008 budget, and that is what we are talking about. We are not talking about an emergency supplemental, which, by the way, has lots of strings attached, which may mean, ironically, money may not be spent ever.

We Republicans and Democrats, want to succeed in Iraq, economically, politically, socially and militarily. We want to succeed. The challenge is I feel like we are pulling the rug out from under the chance to succeed economically and politically.

The reason why I say ''politically'' is I have been there before, during and after the elections. This money helped educate the Iraqis on how to have elections. They did their elections better than we do our elections in the United States.

When I was outside the umbrella of the military, people would say, why have you put my father, my uncle, my brother, my cousin, my son out of work, when we abolished all of their military. So when I hear we spent $18 billion to reconstitute their military, that is not a large number. It is money that had to be used because of what we did. We attacked them. They did not attack us.

We have a moral obligation, I believe, to put Iraq in a better place. If we don't do it economically and politically, any effort militarily fails.

I mean no disrespect, but it is almost like there is an interest in having Iraq fail, so all the predictions that it will fail will be proven right. We need to prove ourselves wrong. We need to succeed.

These dollars should be, in my judgment, in the 2008 account, not in an emergency supplemental, whether now or in the future. The administration asked for $458 million. We asked the NGO's to say, what are your absolute needs for economic support, the rule of law, governance and democracy? And they have come back to us and said, we need $158 million.

I just hope that the gentlewoman in her wisdom will reconsider her decisions.

Mrs. LOWEY. Mr. Chairman, I rise to strike the last word.

Mr. Chairman, with great respect, again, for our ranking member and for my friend Mr. SHAYS, who I know has been to Iraq many times, I do hope that in light of the supplemental, which has been funded at $2.8 billion, and an additional supplemental which will be presented to the Congress in September for another $2.8 billion, we won't cut the rug from under our good friend, the competent Ambassador Ryan Crocker, and take this $158 million from the State Department for several lines that have been funded already in the supplemental. I won't go through that again.

Mr. Ryan Crocker represents us, and I am so proud of his good work. I would like to support him and the other good men and women in the State Department around the world.

So let's defeat this amendment. I urge my colleagues to vote against this amendment.

Mr. WOLF. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I yield to the gentlelady from Miami, Ms. ILEANA ROS-LEHTINEN.

Ms. ROS-LEHTINEN. Mr. Chairman, I thank the chairman for yielding.

Mr. Chairman, I fully support the amendment offered by my good friend from Virginia (Mr. WOLF). This amendment gives vital assistance for demining, counterterrorism, rule of law programs, funding for Iraq military training and international human rights. We must remain committed to assisting the development of Iraq into a nation that is capable of governing itself, sustaining itself, defending itself and independently taking all necessary actions to root out terrorists and militias that seek to undermine the transition to a free and sovereign Iraqi Government, continue to promote democracy and the rule of law, continue to provide necessary services to the people of Iraq and maintain the authority of the Government of Iraq in all parts of its national territory.

My colleagues seek to cut integral components of our effort for cooperation and coordination with Iraqi leaders. Mr. WOLF's amendment correctly is aimed at strengthening the Iraqi Government to make sure that that nation can truly become self-reliant and stable, and not count on the U.S. as a blank check any longer.

Mr. WOLF. Mr. Chairman, reclaiming my time, just in closing, the gentlewoman has been very good, and I appreciate the work of Mrs. LOWEY on a lot of the issues. As Mr. SHAYS said, there are a lot of good things in the bill.

This, in closing, deals with the whole issue of demining, human rights training, criminal justice, rule of law and human rights. None of these things really ought to be controversial for anybody, whatever their position. Also they fit into the recommendations of the Iraq Study Group.

I think to offer an opportunity to heal and to build the private sector, the civilian sector in Iraq on these issues of human rights training is important, so when the United States is out, there will be respect for human rights, there will be criminal justice, there will be rule of law.

Mr. Chairman, I urge an ''aye'' vote.

Mr. JACKSON of Illinois. Mr. Chairman, will the gentleman yield?

Mr. WOLF. I yield to the gentleman from Illinois.

Mr. JACKSON of Illinois. Mr. Chairman, I thank the gentleman for yielding. I guess I am asking him to yield really to a question so I can have a better understanding of the gentleman's amendment.

Is it the intent of the gentleman's amendment that these funds would somehow not be subject to the benchmarks established in the supplemental bill for funding and future funding in Iraq? Is this around the benchmarks?

Mr. WOLF. Mr. Chairman, reclaiming my time, I believe they would be. The reason we did this, I will tell my friend from Illinois, is when the $458 million was cut, we asked the administration to come up and tell us what they really needed, because we said this is a very difficult issue. The gentlewoman put a lot of programs with good money in. What do you honestly need? So everything would be in compliance with the benchmarks. But it would also give them the initial funding. They said, we actually need this $158 million.

But they would be, to answer your question, in compliance.

Mr. JACKSON of Illinois. Mr. Chairman, if the gentleman would continue to yield, if in fact, I certainly hope the Iraqi Government is able to achieve the benchmarks, but if in fact, for whatever reason, they are unsuccessful in achieving the benchmarks and the Congress of the United States is to recontemplate elements of the supplemental and additional funding for the efforts in Iraq, does this gentleman's amendment appropriate dollars that are not subject to the specific requirements of the benchmarks established in the supplemental? Is this a funding in addition to that funding?

Mr. WOLF. Mr. Chairman, reclaiming my time, this is fiscal year 2008, and these would be all issues that I think everybody on both sides, Republican, Democrat, independent, moderate, conservative, would be for.

If you go out on the street and say do you favor funding in the 2008 bill for demining, I think you would get a 90–10 yes. If you said do you favor funding for human rights training or whatever the case may be, people would say yes. Do you favor funding with regard to the human rights rule of law, they would say yes.

This is what the administration and the State Department, not so much the administration, the State Department really felt they would need.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Virginia (Mr. WOLF).

The question was taken; and the Acting Chairman announced that the noes appeared to have it.

Mr. WOLF. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Virginia will be postponed.

AMENDMENT OFFERED BY MR. SHAYS

Mr. SHAYS. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. SHAYS:

Page 2, line 22, after the dollar amount insert ''(reduced by $1,000,000)''.

Page 17, line 19, after the dollar amount insert ''(increased by $1,000,000)''.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Connecticut (Mr. SHAYS) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Connecticut.

Mr. SHAYS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, this amendment would provide $1 million to the U.S. Institute of Peace, referred to as USIP, for the purposes of reestablishing the Iraq Study Group (ISG). We want the ISG to revisit Iraq to evaluate the condition in Iraq 1 year later, to look at their findings and compare them to a year ago, and to look at their recommendations to see where they might alter them. That is what the amendment does.

I have spoken to Richard Solomon at the U.S. Institute of Peace, who said the Institute is prepared to do this, to reconstitute its expert working groups.

This would be done at the same time that we are going to hear from Ambassador Ryan Crocker and General David Petraeus, who will be giving us their findings. But the Institute wanted to make clear they would not be there to look at and evaluate the Crocker-Petraeus findings and recommendations, but it would simply be a report that would be provided at the same time to which people then could compare.

I spoke to one of the principals of the Iraq Study Group, Lee Hamilton. He said he is willing to take this effort on, provided it is to review what they did, to look at what has taken place in Iraq, to review their observations, their findings and their recommendations, but they would not be eager to take the Petraeus-Crocker report and analyze it. It would be done so there would be two instruments that Congress could look at.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I rise in support of the gentleman's amendment and ask unanimous consent to claim the time in opposition.

The Acting CHAIRMAN. Is there objection to the request of the gentlewoman from New York?

There was no objection.

The Acting CHAIRMAN. The gentlewoman from New York is recognized for 5 minutes.

Mrs. LOWEY. Mr. Chairman, this amendment will move $1 million from the Diplomatic and Consular Programs account to the United States Institute for Peace to reconstitute the Iraq Study Group. Although I feel compelled to point out the likelihood that by the time this bill is signed into law, the study on the effectiveness of the President's surge in Iraq will have passed, but, nevertheless, I support this amendment because I feel there is value added to reconstituting the Iraq Study Group, something that our ranking member continues to deserve kudos for establishing in the first place.

Mr. Chairman, I reserve the balance of my time.

Mr. SHAYS. Mr. Chairman, I yield myself 30 seconds to say to the gentlewoman, thank you very much. I would point out that the Iraq Study Group was an instrument created by both sides of the aisle, but particularly by Mr. WOLF. It is a bipartisan effort, and it would be good to continue this bipartisan effort.

Mr. Chairman, I yield 1 minute to the gentleman from Virginia (Mr. WOLF).

Mr. WOLF. I thank the gentleman.

Mr. Chairman, I want to thank the chairwoman for accepting the amendment. I appreciate it very much. I thank Mr. SHAYS for offering it. I think this is really the way the country is going to go.

There may be a vote here. Mr. UDALL and other Members, along with Mr. SHAYS and Mr. MCCAUL, have a bill in to make the Iraq study the policy for the Nation.

I want to thank the gentlewoman for accepting it and thank Mr. SHAYS.

Mrs. LOWEY. Mr. Chairman, I just want to close by thanking Mr. SHAYS again and my distinguished ranking member, who deserves our praise for establishing the Iraq Study Group in the first place. I thank you both.

Mr. TOM DAVIS of Virginia. Mr. Chairman, I rise today to express my strong support for this amendment.

U.S. Ambassador Ryan Crocker and Multi-National Force Commander General David Petraeus will provide an assessment of Iraq this fall.

The assessment will include the military, economic and political situation in Iraq.

The assessment will be a key determinant for future U.S. involvement.

The debate over what to do in Iraq will continue and the Crocker-Petraeus assessment will be challenged.

If the report is positive Crocker and Petraeus must provide specific signs of progress and lay out in detail how long and how many troops will be needed in Iraq.

If the report is negative then Crocker and Petraeus should provide definitive steps on a phased withdrawal plan that reduces the number of lives lost.

Whatever the outcome of the Crocker-Petraeus assessment we need an independent validation of the assessment.

This is why I am supporting Mr. Shays' amendment to reconstitute the Iraq Study Group.

This bipartisan group, that provided observations and recommendations to the President last December concerning the situation in Iraq would be reengaged and provide the American people a bipartisan perspective of what we can expect for the future of Iraq.

With all the partisan debate we witness week in and week out in Washington, we must reconstitute this nonpartisan group, which has as its only goal, moving forward American interests.

Mr. Chairman, it is time we come together and support this amendment to provide a bipartisan assessment of the situation in Iraq.

Mrs. LOWEY. Mr. Chairman, I yield back the balance of my time.

Mr. SHAYS. Mr. Chairman, I thank Representative LOWEY and Representative WOLF, and I yield back the balance of my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Connecticut (Mr. SHAYS).

The question was taken; and the Acting Chairman announced that the ayes appeared to have it.

Mr. SHAYS. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Connecticut will be postponed.

The Clerk will read.

The Clerk read as follows:

CAPITAL INVESTMENT FUND

For necessary expenses of the Capital Investment Fund, $59,062,000, to remain available until expended, as authorized: *Provided,*

That section 135(e) of Public Law 103–236 shall not apply to funds available under this heading.

OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General, $32,508,000, notwithstanding section 209(a)(1) of the Foreign Service Act of 1980 (Public Law 96–465), as it relates to post inspections.

EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

For expenses of educational and cultural exchange programs, as authorized, $501,400,000, to remain available until expended: *Provided*, That not to exceed $5,000,000, to remain available until expended, may be credited to this appropriation from fees or other payments received from or in connection with English teaching, educational advising and counseling programs, and exchange visitor programs as authorized: *Provided further*, That of the amount made available under this heading, $6,000,000 shall be transferred to the Fund established by section 313 of the Legislative Branch Appropriations Act, 2001 (2 U.S.C. 1151).

REPRESENTATION ALLOWANCES

For representation allowances as authorized, $8,175,000.

PROTECTION OF FOREIGN MISSIONS AND OFFICIALS

For expenses, not otherwise provided, to enable the Secretary of State to provide for extraordinary protective services, as authorized, $28,000,000, to remain available until September 30, 2009.

EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE

For necessary expenses for carrying out the Foreign Service Buildings Act of 1926 (22 U.S.C. 292–303), preserving, maintaining, repairing, and planning for buildings that are owned or directly leased by the Department of State, renovating, in addition to funds otherwise available, the Harry S Truman Building, and carrying out the Diplomatic Security Construction Program as authorized, $729,898,000, to remain available until expended as authorized, of which not to exceed $25,000 may be used for domestic and overseas representation as authorized: *Provided*, That none of the funds appropriated in this paragraph shall be available for acquisition of furniture, furnishings, or generators for other departments and agencies.

In addition, for the costs of worldwide security upgrades, acquisition, and construction as authorized, $806,900,000, to remain available until expended.

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

(INCLUDING TRANSFER OF FUNDS)

For expenses necessary to enable the Secretary of State to meet unforeseen emergencies arising in the Diplomatic and Consular Service, $14,000,000, to remain available until expended as authorized, of which not to exceed $1,000,000 may be transferred to and merged with the ''Repatriation Loans Program Account'', subject to the same terms and conditions.

REPATRIATION LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

For the cost of direct loans, $678,000, as authorized: *Provided*, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974.

In addition, for administrative expenses necessary to carry out the direct loan program, $607,000, which may be transferred to and merged with funds in the ''Diplomatic and Consular Programs'' account.

PAYMENT TO THE AMERICAN INSTITUTE IN TAIWAN

For necessary expenses to carry out the Taiwan Relations Act (Public Law 96–8), $16,351,000.

PAYMENT TO THE FOREIGN SERVICE RETIREMENT AND DISABILITY FUND

For payment to the Foreign Service Retirement and Disability Fund, as authorized by law, $158,900,000.

INTERNATIONAL ORGANIZATIONS

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

For expenses, not otherwise provided for, necessary to meet annual obligations of membership in international multilateral organizations, pursuant to treaties ratified pursuant to the advice and consent of the Senate, conventions or specific Acts of Congress, $1,354,400,000: *Provided*, That the Secretary of State shall, at the time of the submission of the President's budget to Congress under section 1105(a) of title 31, United States Code, transmit to the Committees on Appropriations the most recent biennial budget prepared by the United Nations for the operations of the United Nations: *Provided further*, That the Secretary of State shall notify the Committees on Appropriations at least 15 days in advance (or in an emergency, as far in advance as is practicable) of any United Nations action to increase funding for any United Nations program without identifying an offsetting decrease elsewhere in the United Nations budget and cause the United Nations budget for the biennium 2008–2009 to exceed the revised United Nations budget level for the biennium 2006–2007 of $4,173,895,900: *Provided further*, That any payment of arrearages under this title shall be directed toward special activities that are mutually agreed upon by the United States and the respective international organization: *Provided further*, That none of the funds appropriated in this paragraph shall be available for a United States contribution to an international organization for the United States share of interest costs made known to the United States Government by such organization for loans incurred on or after October 1, 1984, through external borrowings.

AMENDMENT OFFERED BY MR. GARRETT OF NEW JERSEY

Mr. GARRETT of New Jersey. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. GARRETT of New Jersey:

Page 8, line 18, after the dollar amount, insert ''(reduced by $20,000,000)''.

Page 58, line 18, after the dollar amount, insert ''(increased by $20,000,000)''.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from New Jersey (Mr. GARRETT) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. GARRETT of New Jersey. Mr. Chairman, my amendment will increase our funding of international counterterrorist programs, while also calling out the United Nations for its continued reluctance to recognize and fight international terrorism.

We are at war with an enemy whose tactics not only involve the destruction of non-combatants, women, little children, people just trying to work or buying something at the market; their tactics depend on such destruction.

□ 1130

Terrorists disregard the rules of warfare and strike at pure innocents. They wear no uniform and often do not even care about saving their own lives. Despite the fact that the world is in the throes of the violence of terrorism, the U.N. has done so very little to fight this threat on humanity.

The U.N. marks progress against terrorism by how many committees they have formed and how many documents have been signed. We need a world body that does not consider an expanded bureaucracy as success. We need a world body that is a partner in the war on terror.

Instead, the U.N. spends its time passing toothless resolutions on counterterrorism that even countries such as Iran, Libya, and Syria can support. These nations will continue to funnel money to terrorist organizations like Hamas, Hezbollah, and the Mahdi Army knowing that there will be absolutely no repercussions from the U.N.

My amendment proposes to shift $20 million, approximately 3 percent of the U.S. contribution to the U.N., to antiterrorism assistance programs. If the U.N. is unwilling to join the fight against terrorism, we should reallocate our dollars, reallocate a portion of the funds intended for them to programs which are truly working to bring real peace to the world.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I rise in opposition to this amendment.

The Acting CHAIRMAN. The gentlewoman from New York is recognized for 5 minutes.

Mrs. LOWEY. This amendment would cut $20 million from the contributions for international organizations. The question posed by this amendment is straightforward: Do you want to take funds away from an account that is saving lives every day around the world?

Former Defense Secretary Donald Rumsfeld last year told Senate appropriators that U.N. peacekeeping was an example of the benefit of empowering partner nations, and it would cost the United States taxpayers almost eight times as much.

Mr. GARRETT of New Jersey. Would the gentlelady from New York yield for a clarification?

Mrs. LOWEY. Of course.

Mr. GARRETT of New Jersey. This amendment is not as to where our funds are coming from.

Mrs. LOWEY. I apologize, we were responding to another amendment. Would the gentleman please clarify your amendment so we can direct our debate to the appropriate amendment. Is this the one you are going to offer and withdraw?

Mr. GARRETT of New Jersey. Exactly.

Mrs. LOWEY. I would be delighted to respond to you then. I thank the gentleman for withdrawing the amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. GARRETT of New Jersey. Mr. Chairman, I have not yet officially withdrawn my amendment. I would appreciate a comment from the gentlelady with regard to her support in general of our ideas on this amendment and the agreeability to work together to achieve what we are aiming for in this regard.

Mrs. LOWEY. Would the gentleman from New Jersey yield?

Mr. GARRETT of New Jersey. I yield to the gentlelady.

Mrs. LOWEY. I really do apologize to the gentleman because the order of the amendments was changed.

Mr. GARRETT of New Jersey. I understand.

Mrs. LOWEY. And international peacekeeping is very important to me, but as soon as I understand what your amendment is that you are going to withdraw, I would be delighted to comment on the gentleman's amendment.

Could the gentleman redesignate the amendment? There seems to be a question. My comments were concerning the amendment to cut CIPA. May I have some clarification on what amendment we are discussing?

The Acting CHAIRMAN. Without objection, the Clerk will report the amendment.

There was no objection.

Mr. GARRETT of New Jersey. Mr. Chairman, hopefully that redesignation is a clarification.

What we are trying to do is not, as in a subsequent amendment where we will be taking funds from the peacekeeping mission, which is what the gentlelady was referring to here, instead is to take money from the U.N. international organization line and redesignate those $20 million to join us in the fight against terrorism.

As my opening comments to the Chair stated, the U.N. has done a woefully poor job when it comes to fighting terrorism around the world. We only have to look at the situation in the Sudan and Darfur, where they are not even able at this late date to define and tell us a genocide is going on. My goodness, the U.N. has not been able to grapple with the definition of what a genocide is, let alone take responsive action to try to bring it to an end.

Likewise in the area of terrorism, the U.N. has again willfully and woefully failed to step up to the plate and be an instrument in fighting terrorism with so many of the world nations, the United States obviously taking a lead in that course.

If the U.N. is not going to be the international body to step up and take affirmative action in these areas, I think it is incumbent upon us here in this House to make sure that our dollars, our limited American taxpayer dollars, do not go to an organization, the U.N., an international body that is not getting the job done; but instead, to reallocate those dollars, to reallocate $20 million. That is only 3 percent of the U.S. contributions to the U.N. to antiterrorism assistance.

Homeland security, fighting terrorism, is one of the hallmark principles that I came to Congress to work on and to achieve end results on, and this amendment to this legislation will go to that end.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I would like to respond to the gentleman from New Jersey.

I do believe that nuclear nonproliferation must be a key focus of this committee and this Congress. In fact, in this bill because of the recommendations of so many members of our subcommittee and Members of Congress, we have increased money for nuclear nonproliferation efforts. So I look forward to working with the gentleman on this issue as we move ahead.

However, I do think that your offset, taking money from U.N. dues, is actually unwise and not a very good policy decision.

Many people have criticized the U.N., want to disband the U.N., want to cut off dues to the U.N., and then when we need the U.N., they wonder: What are we going to do if we didn't have a United Nations?

I look forward to working with the gentleman from New Jersey in strengthening the committees of the U.N. and working together to face the tremendous challenges we have internationally. So I support the gentleman's concerns about nuclear nonproliferation, and I look forward to working with the gentleman; but I strongly oppose taking the money from U.N. dues.

Mr. Chairman, I yield 2 minutes to the gentleman from Illinois (Mr. JACKSON).

Mr. JACKSON of Illinois. Mr. Chairman, let me be clear, we are in opposition to the gentleman's amendment. I understand that the gentleman is going to withdraw his amendment, but let me be clear, the various international organizations for which this account is designated and the dues that we pay not only to the U.N. but to other member organizations that our country is a part of, believe me when I tell you, the State Department has made it very clear in each of those organizations that we are in a global war on terror and our contributions to those organizations, part of our mandatory obligations to those organizations for which the gentleman seeks to cut funding, would quite frankly undermine our ability to maintain our own status within those international organizations as we try to direct the global war on terror.

The spirit of the gentleman's amendment, some aspects of it are actually covered in the supplemental bill and some aspects of it are obviously covered in our bill, is something that is very difficult to argue against, an additional $20 million for demining activities. Part of this amendment was offered by the gentleman from Virginia (Mr. WOLF) in his amendment, and it is something in principle that we can support.

Sufficient in this bill are the resources to advance democracy activities and demining activities, but by cutting aid to international organizations and contributions, cutting our contribution, our mandatory contribution to those organizations, is something that I believe the chairman and the majority would reject.

Mr. GARRETT of New Jersey. Mr. Chairman, I respectfully understand there was a misunderstanding as to which amendment we were dealing with, and I appreciate the Chairman redesignating the amendment.

The previous speaker made reference to ending nuclear nonproliferation and the like. Again, this amendment does not go to that point. This amendment simply goes to the point of taking money from the international organizations funds and trying to fight terrorism.

With that, Mr. Chairman, I yield back the balance of my time, and I do not withdraw the amendment.

The Acting CHAIRMAN. All time for debate has expired.

PARLIAMENTARY INQUIRY

Mr. JACKSON of Illinois. Mr. Chairman, parliamentary inquiry.

The Acting CHAIRMAN. The gentleman may state his parliamentary inquiry.

Mr. JACKSON of Illinois. Is my understanding correct that the gentleman was going to withdraw his amendment, and now he is not going to withdraw his amendment?

The Acting CHAIRMAN. The gentleman has not withdrawn his amendment.

Mr. JACKSON of Illinois. Then let me make it clear on behalf of the distinguished chairman and the committee that we rise in opposition to this amendment.

The Acting CHAIRMAN. All time for debate has expired.

The question is on the amendment offered by the gentleman from New Jersey (Mr. GARRETT).

The question was taken; and the Acting Chairman announced that the noes appeared to have it.

Mr. GARRETT of New Jersey. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from New Jersey will be postponed.

AMENDMENT OFFERED BY MS. FOXX

Ms. FOXX. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Ms. FOXX:

Page 8, line 18, after the dollar amount, insert ''(reduced by $203,082,000)''.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentlewoman from North Carolina (Ms. FOXX) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from North Carolina.

Ms. FOXX. Mr. Chairman, the amendment I am offering would restore the funding level for international organizations provided in this bill to the fiscal year 2007 level.

The purpose of my amendment is twofold. First, it would help bring accountability to organizations that have demonstrated limited effectiveness. Second, this amendment would help control the out-of-control Federal deficit.

This keeps the funding level at last year's level, which was very reasonable. In fiscal year 2006, total interest payments on Treasury debt securities amounted to $405.9 billion, or about 14 percent of Federal outlays. That amounts to 1.7 percent of the U.S. GDP. Translated, that means 1.7 cents of every dollar produced by Americans is used to pay interest on the Federal debt.

As a percentage of GDP, the Federal debt ratio is larger for the United States than it is in Finland, Ireland, Spain, Switzerland and the United Kingdom. By any measure, it should be clear to any responsible fiscal steward that Congress needs to do more to control deficit spending to help reduce the Federal debt.

My amendment would take a small but much-needed step in that direction. With a little help from the majority party in Congress, we could reduce unnecessary spending and return more money to the American people who earned it in the first place.

Second, I wonder what our constituents would think if they knew they were being forced to pay millions for perpetual, never-ending funding increases for organizations such as the International Bureau for Weights and Measures, the International Coffee Association, the International Copper Study Group, the International Hydrographic Organization, the International Lead and Zinc Study Group, the International Rubber Study Group, and the World Organization for Animal Health.

Given the tremendous amount of funding contained in the bill for the United Nations, I am particularly interested in encouraging that body to reexamine its spending habits so it can be more effective at fulfilling its mission.

□ 1145

As most would agree, the purpose of the United Nations is to help promote peace and security throughout the world. However, it has obviously failed miserably in that respect. Iran's nuclear weapons program is still chugging along at a rapid pace, threatening Israel and the entire region. Genocide persists in Sudan. All of the minds at the United Nations can't even agree on a definition for the word ''terrorism'' in an age where terrorism remains one of the biggest threats to humanity and civilization.

Furthermore, despite the implicit purpose of the United Nations Human Rights Council to promote global human rights, this body has among its membership notorious human rights abusers such as Angola, China, Cuba, Egypt, Russia and Saudi Arabia. Iran serves as the Vice Chair of the U.N. Disarmament Commission, Syria is the Rapporteur of the U.N. Disarmament Commission, Zimbabwe is the Chair of the U.N. Commission on Sustainable Development, and Sudan serves on the Executive Committee of the U.N. High Commissioner for Refugees.

And if that wasn't enough, an examination of a ranked list of countries subject to the most U.N. condemnation for human rights violations in 2006 reveals Israel ranking first, having received 135 actions, nearly twice as many as Sudan, the next country listed, and more than the number of actions directed at Iran, China, Colombia, Cuba, Saudi Arabia and Syria combined. The United States ranks fourth on this list, having been subject to 38 actions. This indicates that the United Nations is more interested in condemning Israel and the United States than it is in horrendous human rights abusers throughout the world.

With that being said, the part of my amendment that should draw support from both sides of the aisle is the fact that my amendment doesn't cut a dollar from U.S. spending on international organizations. My amendment simply maintains the fiscal year 2007 level. By holding the line on spending, Congress can have another year to work on balancing the books and finding other ways to fund the increased spending proposals contained in the underlying bill.

Mr. Chairman, at a time when Americans are being asked to do more with their budgets, it is only reasonable to expect the same out of those who benefit from generous American donations. That is why it should be clear to all of my colleagues why they should support my amendment.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I rise in opposition to the gentlewoman's amendment.

The Acting CHAIRMAN. The gentlewoman is recognized for 5 minutes.

Mrs. LOWEY. This amendment would cut $203 million from our contribution to international organizations. This amendment fails to realistically address the effect our arrears have on our standing in the world community. At a time when the United States is increasingly relying on international organizations to further our security interests around the world, shortchanging our treaty-obligated contributions to these organizations undercuts our foreign policy goals and undermines our reputation around the world. It also countermands our new Ambassador Zalmay Khalilzad's call to pay our dues in full and on time. As of today, the United States is $291 million in arrears at the U.N. for regular budget contributions alone. The United States has chosen to belong to each of these organizations. They leverage U.S. taxpayer dollars and advance a wide range of U.S. foreign policy objectives, including monitoring nuclear proliferation through the IAEA, creating norms for international telecommunications through the ITU, and fending off global pandemics through the WHO.

The administration and the Congress have underfunded and cut this account in recent years. This amendment would continue this trend. The United States has an $80 million deficit in the CIO account and the State Department is paying U.S. dues late or incurring arrears in virtually every organization in this account. Shortfalls to the CIO account in 2006 caused the State Department to pay all of its regular dues to the IAEA almost a full year late, even as we relied on that organization to track nuclear developments in Iran and North Korea; pay dues to our allies in the OECD almost a year late; pay all of our dues to the WHO about a year late, even as we asked WHO to help contain avian flu; and pay the vast majority of our regular dues to NATO a year or so late, even as we relied on that organization to shore up security in Afghanistan.

This amendment has no appreciation of the influence this increasing trend of paying late and underfunding international organizations has on our ability to sway others and it is difficult to justify why our priorities should be given full consideration when we chronically pay our dues late. Paying these international organizations late is counterproductive to achieving

United States international security goals. The increasing trend of paying late and underfunding international organizations confounds U.S. demands for better management in them.

An example of this detrimental effect is seen at the World Health Organization which reports that the arrears owed by the United States are preventing well-managed budgets and resulting in programs not reaching optimal effectiveness for a year or more after they were planned to be fully operational. Further, other dues-paying countries take note when the United States fails to honor its commitments in these international organizations. As a result, our influence on making budgetary and policy decisions in them is lessened. For example, the U.S. consistently wants the Food and Agriculture Organization to increase its capacity to set worldwide food and plant standards, yet it is very difficult to justify why U.S. priorities for the FAO should be given full consideration when the U.S. is chronically paying its dues there about a year late.

Therefore, I strongly object to the gentlewoman's amendment.

Mr. Chairman, I reserve the balance of my time.

The Acting CHAIRMAN. The gentlewoman from North Carolina has 30 seconds remaining.

Ms. FOXX. Thank you, Mr. Chairman. I appreciate what my colleague has said. But these organizations do nothing to help the security of the United States. The U.N. is an ineffective and corrupt organization and our continuing to provide much of its funding implicitly endorses that corruption and ineffectiveness. If we put this to a vote of the American people, they would say, fund nothing of the United Nations. Keeping this at level funding is the right thing to do.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIRMAN. The gentlewoman from New York has 30 seconds remaining.

Mrs. LOWEY. I yield the balance of my time to the gentleman from Illinois.

Mr. JACKSON of Illinois. I thank the chairwoman.

Well, here we go again, cutting a multilateral account that allows us to hold our head up high in the international community as we organize the international community in the global war on terror in favor of unilateralism.

To fight the war on terror, we must be multilateral and not unilateral. U.S. Ambassador to the U.N. Khalilzad said pay our dues on time and pay it in full. Every time there's a crisis that confronts our country, we run to the U.N., we run to the international community demanding their involvement to help provide security for the American people.

Mr. Chairman, reject this amendment.

Mr. WOLF. Mr. Chairman, I move to strike the requisite number of words.

The Acting CHAIRMAN. The gentleman is recognized for 5 minutes.

Mr. WOLF. I rise in opposition to the amendment.

Everyone has frustrations. I think the U.N. could do certainly a lot more on Darfur and many of the other things. They stood by and frankly didn't do very much in Rwanda, either. But what this amendment would do, I think, is people have to look at it. This would actually cut NATO fees, and NATO is sort of the backbone of what we're doing in Afghanistan and many other places, but particularly $41 million out of this fund goes to NATO.

Also, on the World Health Organization with regard to avian flu and things like that, this is not the time to do that. Also, there is another issue that I have personally made a cause, of funding the war crime tribunals to bring people to justice. This would cut the war crimes tribunal in Rwanda where over 800,000 people have died between the Hutus and the Tutsis and that whole issue. Also the former Yugoslavia where after the genocide that took place, Milosevic was brought to the court.

So for those reasons, I understand what the gentlelady is trying to do. But I think this would be the wrong place to kind of do it, from NATO and IAEA and the World Health Organization and the war crimes tribunal.

Lastly, this is at the request of President Bush, of the Bush administration. This is what the Bush administration, President Bush, has requested.

For those reasons, I urge a ''no'' vote.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentlewoman from North Carolina (Ms. FOXX).

The question was taken; and the Acting Chairman announced that the noes appeared to have it.

Ms. FOXX. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentlewoman from North Carolina will be postponed.

AMENDMENT OFFERED BY MR. MCCAUL OF TEXAS

Mr. MCCAUL of Texas. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. MCCAUL of Texas:

Page 8, line 18, after the dollar amount, insert ''(reduced by $30,000,000)''.

Page 52, line 13, after the dollar amount, insert ''(increased by $30,000,000)''.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Texas (Mr. MCCAUL) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Texas.

Mr. MCCAUL of Texas. I thank the chairman.

I rise today to offer an amendment that will partially restore the administration's funding request for the International Narcotics Control and Law Enforcement account in the FY08 State Department and Foreign Operations appropriations bill. This amendment would add $30 million to the account, halfway between the committee funding level and the President's request. This is a bipartisan amendment. I would like to thank my colleague on the other side of the aisle, Mr. CUELLAR, for his support as an author and cosponsor.

Earlier this month I attended the U.S.-Mexico Interparliamentary Group in Austin, Texas, and for 3 days we talked about issues important to the United States and Mexico. The major topic discussed was the issue of increasing violence and lawlessness along the U.S.-Mexico border. The drug cartels have taken control over northern Mexico and law enforcement has become corrupt and ineffective. Since his inauguration earlier this year, President Calderon has begun a renewed effort to reestablish law enforcement's control over his country and their borders. However, the drug kingpins are ruthless in their efforts to retain control and the Mexican Government's law enforcement capabilities are sorely outdated. Just recently, the drug cartels brazenly ordered the assassination of a Mexican state legislator.

I would like to take a moment to commend Chairwoman LOWEY and Ranking Member WOLF for including $27.5 million in the bill for this effort and for recognizing in the report language of the bill the need to address this problem which so devastatingly impacts our southern border, our national security and the citizens of this country. However, I believe that additional funding would go a long way to eradicating the drug cartels.

The offset in this amendment is a $30 million reduction in the contributions to the international organization's account. I believe it's a worthwhile transfer of funds that will benefit not only our border with Mexico but also our counterdrug efforts worldwide. One of the most important international peacekeeping efforts today should be on the southern border against the violent criminal enterprise of the narcotraffickers.

The cartels control the corridor routes into this country, exporting drugs and human trafficking across our southern border. The intersection between these criminal enterprises and potential terrorists could be deadly. In the post-9/11 world, we can no longer continue to ignore this threat.

At a time when the newly elected Mexican Government has stepped forward and made a commitment to reform its law enforcement and combat the drug cartels, it is important that we provide as much funding and resources as possible to the International Narcotics Control and Law Enforcement program.

I urge my colleagues to support this amendment.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I claim the time in opposition.

The Acting CHAIRMAN. The gentlewoman is recognized for 5 minutes.

Mrs. LOWEY. Mr. Chairman, I yield 2 minutes to the gentleman from Texas (Mr. CUELLAR).

Mr. CUELLAR. Again, Madam Chair, I thank you for the time and I also appreciate the work that you have done in making sure that we help the Mexican Government fight the drug cartel problems that they have. We have a perfect opportunity at this time, and I think Mr. MCCAUL understands this since we have been working on this for a while, that they have a President now, President Calderon, that is willing to go ahead and take on the powerful drug cartels. Being from Laredo, Texas, I see what's been happening across the river. We had, talking about one of the Congressmen, my counterpart right across Laredo in Nuevo Laredo, there was an attempt to assassinate him, he ended up in the hospital, his chauffeur got killed, because again he wanted to go ahead and fight the drug cartels.

It is extremely important that we provide this extra funding because if we don't, what you're going to have, you're going to have a bigger problem than what we're seeing right now across the river. It has permeated not only the law enforcement, it has not only permeated also the judiciary, but it has also affected other parts of the society.

□ 1200

The Mexican Government wants to work with us, and I want to make sure that we work on increasing the dollars.

My understanding is, and I am hoping that my colleague will be willing to do that, that if we can withdraw this amendment, I believe we have a commitment from the chairwoman that in conference committee she will go ahead and increase the dollars, because we need more than what's been appropriated so far, what's currently in the bill itself.

I believe we have a commitment that, Mr. MCCAUL, if you are willing to withdraw, together, both of us, we do have a commitment from the chairwoman. She has been very good at keeping her word on this.

Mrs. LOWEY. I thank the gentleman for your important work with Mr. MCCAUL on this issue.

I understand the urgency and the impact of methamphetamine in your areas and the tremendous negative impact on the people you represent.

I have a problem with the offset. Therefore, if you will withdraw this amendment, I would be delighted to work with the gentlemen as we approach our conference in increasing money for this very important need.

Mr. MCCAUL of Texas. I will consider withdrawing the amendment. I would like to get a few assurances from the gentlelady, if I may, and that is that this funding would be directed primarily, would be targeted towards the problem at the U.S.-Mexico border with the drug cartels who have controlled these corridors that I mentioned.

If I could just add, my subcommittee on Homeland Security issued this report on the border last conference confirming the threat. This was given to President Calderon by Secretary Chertoff.

He understands this. I have met with the Mexican Congress. They understand it. Our State Department actually does understand this. While they may not ask overtly, they really could use these funds to confront this threat.

I would ask, in exchange for withdrawing, that we try to come as close as possible to the number I have requested and that that money be directed towards the threat that Mr. CUELLAR and I see so often down in a border State.

Mrs. LOWEY. I would say to the gentleman that in my discussions with Mr. CUELLAR he is very clear about the urgency of this issue and the impact of these concerns on the citizens that you both represent.

I would be delighted to work with you. We will certainly search for funding as close to the numbers you mention as we possibly can.

Again, the only issue with this amendment was the offset, not the important need for the funding.

I thank the gentleman, and I look forward to working with you. I thank you for withdrawing the amendment.

Mr. MCCAUL of Texas. Mr. Chairman, with those assurances, I will withdraw my amendment.

The Acting CHAIRMAN. Without objection, the amendment is withdrawn.

There was no objection.

The Acting CHAIRMAN. The Clerk will read.

The Clerk read as follows:

CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

For necessary expenses to pay assessed and other expenses of international peacekeeping activities directed to the maintenance or restoration of international peace and security, $1,302,000,000, of which 15 percent shall remain available until September 30, 2009: *Provided,* That none of the funds made available under this Act shall be obligated or expended for any new or expanded United Nations peacekeeping mission unless, at least 15 days in advance of voting for the new or expanded mission in the United Nations Security Council (or in an emergency as far in advance as is practicable): (1) the Committees on Appropriations and other appropriate committees of the Congress are notified of the estimated cost and length of the mission, the national interest that will be served, and the planned exit strategy; (2) the Committees on Appropriations and other appropriate committees of the Congress are notified that the United Nations has taken appropriate measures to prevent United Nations employees, contractor personnel, and peacekeeping forces serving in any United Nations peacekeeping mission from trafficking in persons, exploiting victims of trafficking, or committing acts of illegal sexual exploitation, and to hold accountable individuals who engage in such acts while participating in the peacekeeping mission; and (3) a reprogramming of funds pursuant to section 615 of this Act is submitted, and the procedures therein followed, setting forth the source of funds that will be used to pay for the cost of the new or expanded mission: *Provided further,* That funds shall be available for peacekeeping expenses only upon a certification by the Secretary of State to the appropriate committees of the Congress that American manufacturers and suppliers are being given opportunities to provide equipment, services, and material for United Nations peacekeeping activities equal to those being given to foreign manufacturers and suppliers.

AMENDMENT NO. 16 OFFERED BY MR. GARRETT OF NEW JERSEY

Mr. GARRETT of New Jersey. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 16 offered by Mr. GARRETT of New Jersey:

Page 10, line 17, insert before the semicolon the following: '', including the prosecution in their home countries of such individuals in connection with such acts''.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from New Jersey (Mr. GARRETT) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. GARRETT of New Jersey. First of all, I want to begin by saying that I am pleased that the committee has taken steps to see that the United Nations peacekeeping forces are not or will not be engaged in human trafficking or other sex crimes. But I am concerned that the language in the bill, quite frankly, does not go quite far enough.

The facts are that between 2004 and 2006, 179 peacekeepers from the U.N., under their charge, under their control, were dismissed or repatriated following investigations for sex crimes. Yet only a very few of these have been successfully prosecuted for their crimes.

Earlier this year, The Daily Telegraph newspaper revealed that members of the U.N. force in southern Sudan had abused children as young as 12. Just last year, the U.N. had tried to claim that these reports were just unfounded rumors, but only after these

reports did the U.N. admit to repatriating four of these individuals for these crimes. Yet none of these four have ever been prosecuted in their home country of Bangladesh.

Just this week, the Government of Sudan agreed to a substantial peacekeeping force in Darfur. We must ensure the people of Darfur, who have been subject to a systemic rape and violence constituting genocide, do not suffer further at the hands of the people who are there to protect them.

I am concerned that the language in the present bill that the U.N. ''hold accountable'' these individuals will mean that the U.N. peacekeepers will continue to get away scot-free. All national armed forces have processes for court martial and punishing crimes committed by their personnel. The U.N. must see to it that these countries offering peacekeepers actually apply their system of justice when a crime is committed.

The U.N. is supposedly committed to high ideals of human rights and justice. We are merely asking that they keep them to ensure that their own personnel and others operating under the U.N. flag do not use their position to commit gross crimes. Let us be clear that the United States taxpayers funding these important missions will not stand for this injustice.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I accept the gentleman's amendment.

Mr. GARRETT of New Jersey. I thank the gentlelady for accepting the amendment, because I do believe, as I am sure she does as well, that this is the right thing to do for the people of the world and not only for the people here in the United States as well.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIRMAN. The question is the amendment offered by the gentleman from New Jersey (Mr. GARRETT).

The amendment was agreed to.

The Acting CHAIRMAN. The Clerk will read.

The Clerk read as follows:

INTERNATIONAL COMMISSIONS

For necessary expenses, not otherwise provided for, to meet obligations of the United States arising under treaties, or specific Acts of Congress, as follows:

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

For necessary expenses for the United States Section of the International Boundary and Water Commission, United States and Mexico, and to comply with laws applicable to the United States Section, including not to exceed $6,000 for representation; as follows:

SALARIES AND EXPENSES

For salaries and expenses, not otherwise provided for, $30,430,000.

CONSTRUCTION

For detailed plan preparation and construction of authorized projects, $15,725,000, to remain available until expended, as authorized.

AMERICAN SECTIONS, INTERNATIONAL COMMISSIONS

For necessary expenses, not otherwise provided, for the International Joint Commission and the International Boundary Commission, United States and Canada, as authorized by treaties between the United States and Canada or Great Britain, and for the Border Environment Cooperation Commission as authorized by Public Law 103–182, $10,630,000, of which not to exceed $9,000 shall be available for representation expenses incurred by the International Joint Commission.

INTERNATIONAL FISHERIES COMMISSIONS

For necessary expenses for international fisheries commissions, not otherwise provided for, as authorized by law, $26,000,000: *Provided,* That the United States share of such expenses may be advanced to the respective commissions pursuant to 31 U.S.C. 3324.

OTHER

PAYMENT TO THE ASIA FOUNDATION

For a grant to the Asia Foundation, as authorized by the Asia Foundation Act (22 U.S.C. 4402), $15,000,000, to remain available until expended, as authorized.

CENTER FOR MIDDLE EASTERN-WESTERN DIALOGUE TRUST FUND

For necessary expenses of the Center for Middle Eastern-Western Dialogue Trust Fund, the total amount of the interest and earnings accruing to such Fund on or before September 30, 2008, to remain available until expended.

EISENHOWER EXCHANGE FELLOWSHIP PROGRAM

For necessary expenses of Eisenhower Exchange Fellowships, Incorporated, as authorized by sections 4 and 5 of the Eisenhower Exchange Fellowship Act of 1990 (20 U.S.C. 5204–5205), all interest and earnings accruing to the Eisenhower Exchange Fellowship Program Trust Fund on or before September 30, 2008, to remain available until expended: *Provided,* That none of the funds appropriated herein shall be used to pay any salary or other compensation, or to enter into any contract providing for the payment thereof, in excess of the rate authorized by 5 U.S.C. 5376; or for purposes which are not in accordance with OMB Circulars A–110 (Uniform Administrative Requirements) and A–122 (Cost Principles for Non-profit Organizations), including the restrictions on compensation for personal services.

ISRAELI ARAB SCHOLARSHIP PROGRAM

For necessary expenses of the Israeli Arab Scholarship Program as authorized by section 214 of the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993 (22 U.S.C. 2452), all interest and earnings accruing to the Israeli Arab Scholarship Fund on or before September 30, 2008, to remain available until expended.

NATIONAL ENDOWMENT FOR DEMOCRACY

For grants made by the Department of State to the National Endowment for Democracy as authorized by the National Endowment for Democracy Act, $80,000,000, to remain available until expended.

RELATED AGENCIES

BROADCASTING BOARD OF GOVERNORS

INTERNATIONAL BROADCASTING OPERATIONS

For expenses necessary to enable the Broadcasting Board of Governors, as authorized, to carry out international communication activities, including the purchase, rent, construction, and improvement of facilities for radio and television transmission and reception and purchase, lease, and installation of necessary equipment for radio and television transmission and reception to Cuba, and to make and supervise grants for radio and television broadcasting to the Middle East, $671,632,000: *Provided,* That of the total amount in this heading, not to exceed $16,000 may be used for official receptions within the United States as authorized, not to exceed $35,000 may be used for representation abroad as authorized, and not to exceed $39,000 may be used for official reception and representation expenses of Radio Free Europe/Radio Liberty; and in addition, notwithstanding any other provision of law, not to exceed $2,000,000 in receipts from advertising and revenue from business ventures, not to exceed $500,000 in receipts from cooperating international organizations, and not to exceed $1,000,000 in receipts from privatization efforts of the Voice of America and the International Broadcasting Bureau, to remain available until expended for carrying out authorized purposes.

AMENDMENT OFFERED BY MR. MACK

Mr. MACK. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. MACK:

Page 14, line 14, after the dollar amount, insert ''(increased by $10,000,000) (reduced by $10,000,000)''.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Florida (Mr. MACK) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Florida.

Mr. MACK. Mr. Chairman, while we in this Chamber can debate in freedom, and the American people can hear and see our every word, thanks to a free press, in Hugo Chavez's Venezuela, the only thing that people can see or hear are the things that Hugo Chavez lets his media print and broadcast.

Freedom of the press died in Venezuela on May 27, 2007, when Chavez shut down RCTV. This was just the latest in a long line of actions to snuff out free press, free speech, and free thought. By shutting down the largest and oldest TV network in the country, Chavez is sending a message to all other media that he has the power to do anything he wants to with radio and television stations in Venezuela.

The government is targeting opposition voices because of their massive reach, appeal, and influence throughout the country. Chavez said: ''I am going to go after those who resist the revolution and eliminate them one by one.'' This was in reference to one of the only remaining independent voices left in Venezuela.

As the window of independent media in Venezuela closes, Voice of America will play a critical role in getting the truth out about what is happening in the country.

Voice of America must provide and create additional programs. With targeted funding, Voice of America can have an even greater ability and capability to broadcast longer with more programming. Voice of America serves as a significant counter to Chavez's propaganda being exported to Nicaragua, Bolivia, Ecuador, and Cuba.

My amendment would significantly grant the Broadcasting Board of Governors the tools to increase broadcasting to Venezuela and Latin America.

Chavez's communist plans for the future do not include independent media and freedom of the press. We must recognize the war on terrorism is in our backyard. The gang of countries lining up with Chavez is powerful: Bolivia, Ecuador, Nicaragua and others, together with the likes of Iran.

We must recognize a serious threat to our national security. In fact, just this morning, Chavez announced plans to visit Iran in a few weeks, following a long courtship between the two countries.

The window of freedom is closing fast. We cannot turn our backs on the people of Venezuela. We must do more to promote freedom inside Venezuela.

America has always been a beacon of freedom in our hemisphere. Now we must be the pillar of hope for the people of Venezuela and our friends and neighbors in Latin America who fear Hugo Chavez and his communist revolution.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. I want to thank the gentleman for bringing this issue to the attention of the House. International broadcasting is an essential component of our Nation's public diplomacy strategy, enjoys broad bipartisan support in our committee.

The bill before the House includes $671.6 million for the international broadcasting operations of the BBG. It restores over $30 million in cuts to BBG language services proposed in the President's budget. It includes program increases requested for high-priority areas such as $2.9 million for broadcasting to North Korea, $.5 million for enhanced broadcasting to Somalia, $1.2 million for Radio Sawa in the Middle East, $5 million to retain BBG's broadcast capability.

The matter of broadcasting to Venezuela is an emerging issue. I commend the gentleman for his amendment and join him in urging its adoption.

Mr. Chairman, I yield back the balance of my time.

Mr. MACK. Mr. Chairman, I want to thank the chairwoman for accepting the amendment.

Venezuela is going down the wrong path, and I think this will help us set a new course so the people of Venezuela can continue to enjoy the freedom and democracy they deserve.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Florida (Mr. MACK).

The amendment was agreed to.

Mrs. LOWEY. Mr. Chairman, I rise to strike the last word.

Mr. Chairman, I yield to my good friend, Mr. SKELTON, for the purpose of a colloquy.

Mr. SKELTON. Mr. Chairman, I rise to engage the chairwoman of the State, Foreign Operations Appropriations Subcommittee in a colloquy on oversight on Iraq funding.

Madam Chairwoman, I want to thank you for your hard work in ensuring that funds spent in Iraq are properly overseen. Your bill on the floor today contains a section concerning the Special Inspector General for Iraq Reconstruction that extends the authorities of that office.

The National Defense Authorization Act, which came out of the Armed Services Committee and passed the House on May 17, contained a provision with similar goals that I had worked out with Chairman LANTOS of the Foreign Affairs Committee.

I want to thank, first, the chairwoman for pursuing this issue so strenuously. Also, I want to express my appreciation that we were able to work out a way forward so that our two committees worked together on the issue, rather than pursuing separate paths.

Rather than contesting it at this time, the inclusion of this authorization language in the State Department, Foreign Operations and Related Programs appropriations bill, I rise to assure you that you will be involved in the Defense authorization conference on the SIGIR issue. I am glad that in return you have offered to drop your provision in conference on your bill so that together we can ensure that there is only one version of the language instead of competing versions.

I yield to the chairwoman for a response.

Mrs. LOWEY. I thank Chairman SKELTON for his hard work on this project.

We included the SIGIR provision in our appropriations bill to ensure that this subject does not fall out somewhere in the process. You and I agree completely on the importance of the SIGIR office.

I look forward to working with you to make sure that the version ultimately included in the National Defense Authorization Act conference report achieves the goals our respective bills laid out. It is my intention to drop section 696 of the State, Foreign Operations appropriations act in conference so that we do not end up with competing versions of the same language.

Mr. SKELTON. Let me sincerely thank the chairwoman. I do look forward to working with you on this issue. I think this is the right way to approach this, and I certainly appreciate it.

The Acting CHAIRMAN. The Clerk will read.

The Clerk read as follows:

BROADCASTING CAPITAL IMPROVEMENTS

For the purchase, rent, construction, and improvement of facilities for radio and television transmission and reception, and purchase and installation of necessary equipment for radio and television transmission and reception as authorized, $10,748,000, to remain available until expended, as authorized.

COMMISSION FOR THE PRESERVATION OF AMERICA'S HERITAGE ABROAD

SALARIES AND EXPENSES

For expenses for the Commission for the Preservation of America's Heritage Abroad, $499,000, as authorized by section 1303 of Public Law 99–83.

□ 1215

Mrs. LOWEY. Mr. Chairman, I move to strike the last word to enter into colloquy with Mr. BLUMENAUER.

The Acting CHAIRMAN. The gentlewoman is recognized for 5 minutes.

Mrs. LOWEY. I yield to Mr. BLUMENAUER.

Mr. BLUMENAUER. I appreciate the gentlewoman's courtesy, as I appreciate the hard work that she and her committee have done bringing forward, I think, a really terrific bill.

I wish to enter into colloquy with you, Madam Chair. At the end of 2005 Congress passed the Senator Paul Simon Water for the Poor Act with broad bipartisan support. At the time it was called landmark legislation.

Unfortunately, today it's clear that the intent and many of the legal requirements in the Water for the Poor Act are not being met by the State Department and USAID.

Earlier this month the State Department delivered its second report on the required drinking water and sanitation strategy. Unfortunately, it continues to be more of a recitation of the work they're doing, rather than a strategic, forward-looking road map to move from the current state of access to achieving the international commitment to cut in half the percentage of people without access to safe drinking water and sanitation.

While our legislation was specifically written so that it would improve aid quality at any level, there was also a call to increase the amount of resources devoted to the very poor. For instance, as part of the strategy, we required an increase in the percentage of assistance going to high-priority countries, defined as countries with the greatest need, and countries in which assistance would be expected to make the greatest difference. Many, if not most of these countries would be in sub-Saharan Africa.

For too long the State Department has used disaster funding to artificially inflate the numbers it used to meet

congressional requirements, instead of giving the necessary focus to long-term sustainable access to safe drinking water and sanitation for the poor.

For too long, sub-Saharan Africa has gotten funding that is inversely proportional to the level of need. For too long the State Department has treated Water for the Poor Act as if it were a guideline or a suggestion, rather than a law passed by Congress and signed by the President that they're obligated to fully implement.

I very much appreciate the work of Chairwoman LOWEY and Chairman OBEY, for whom I know this is a particular interest. I deeply appreciate increasing the overall level of funding for water and sanitation to $300 million, and directing that much of it be spent pursuant to the Water for the Poor Act.

I hope for the opportunity, as we move forward towards conference, to work together to ensure that as much money as possible is made available to the long-term development of safe drinking water and sanitation programs in the areas of greatest need, with a strategy needed to ensure that we're make the most effective use of our AIDS dollar.

Most important, I hope that the Appropriations Committee will continue to help with the oversight needed to make the Water for the Poor Act fully implemented and the United States lives up to our international commitment.

Mrs. LOWEY. I appreciate the gentleman's interest in this issue and applaud your work over the past few years. As you have stated, the committee bill increased funding for safe water by $100 million and placed priority on long-term and sustainable safe water programs.

The report provides clear direction to the agency that funding must be provided in accordance with the strategy based on the Paul Simon Water for the Poor Act.

Finally, we share the gentleman's concern about the reliance on emergency programs to meet this recommendation, and will work with the agency in the coming year to ensure that this does not happen again.

I thank you for raising these issues today. I look forward to working together on this issue in the coming year.

Mr. BLUMENAUER. If the gentlewoman will yield.

Mrs. LOWEY. I yield.

Mr. BLUMENAUER. I just can't tell you how much I appreciate what you've done and this commitment. I appreciate your words and everything the committee has done to make our water investments go to the right places in the right ways for the right thing.

I am reassured that your intention that only $80 million of the $300 million level come from disaster assistance. That's an important step in making the necessary long-term investments to deal with this leading cause of preventable death in the world.

I'm particularly pleased by the requirement that funds be spent in accordance with the Water for the Poor Act, which was carefully crafted to provide a framework, a policy and a goal for ensuring affordable and equitable access to safe drinking water and sanitation for the poorest in this world. I look forward to the opportunity to continue to work with you.

There was, at one point, our colleague, Chairman PAYNE of the Africa Subcommittee was going to be here I thought, and I apologize, I don't see him. But I know he has done outstanding work with the subcommittee. And I think between the three of us, great things could happen.

Mrs. LOWEY. I thank the gentleman. And I know of Mr. PAYNE's important work on water, in Africa in general, so many other issues. And I thank you.

The Acting CHAIRMAN. The gentlewoman's time has expired.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

The Acting CHAIRMAN. The gentlewoman is recognized for 5 minutes.

Mrs. LOWEY. I am delighted to yield 3 minutes to my good friend, Mr. PAYNE, who is really an expert on Africa and all phases of African development, and has a keen interest in water. And I thank you for coming.

Mr. PAYNE. Let me thank Congresswoman, Chairwoman LOWEY and, of course, Congressman BLUMENAUER for the opportunity to join in this colloquy.

As chairman of the Subcommittee on Africa and Global Health, I recently called a hearing on the implementation of the Water for the Poor Act where Congressman BLUMENAUER testified. I agree with him that the State Department, in its 2007 report to Congress, reflects inflated figures and a lack of concrete strategies for providing sustainable access to drinking water and sanitation for the poor.

The Millennium Development Goals, a catalyst for the Water for the Poor, aimed to reduce by one-half the proportion of people without access to basic sanitation and safe drinking water by 2015. Due, in part, to the State Department's inefficient execution of sustainable programs, the MDG target is being missed in sub-Saharan Africa, which has had the slowest rate of improvement in this category compared with all other regions.

Furthermore, the State Department reported that in fiscal year 2006, the U.S. helped 9 million people receive improved access to water. Of the beneficiaries, 75 to 80 percent was in the Middle East, and 25 percent was outside this region. According to the United Nations, most countries in the Middle East and North Africa are on track towards reaching the MDG targets. Our efforts should be directed to regions such as sub-Saharan Africa, which has the highest proportion of people living without access to improved water sources of any region in the world, and is not on track to meet its MDG target. Therefore, of the $150 million appropriated to Africa and the Middle East, I feel that more than 50 percent should be allocated to the countries in Africa, where the need is greatest.

So I conclude by saying also, the State Department's water funding in Africa has primarily been used for emergency relief efforts, rather than water supply and management projects that deliver sustainable results. In maintaining the vision of the Water for the Poor Act, assistance should be focused on improving the sustainable management of drinking water and sanitation.

I agree with Congressman BLUMENAUER and Chairwoman LOWEY that of the $300 million appropriated for fiscal year 2008, a significant amount should be directed towards sustainable water management with programs in Africa.

With efficient execution and adequate funding, the objectives of the Water for the Poor can be accomplished. Access to safe water and sanitation plays a central role in promoting global public health, economic growth, poverty reduction and environmental sustainability.

I look forward to working with Congressman BLUMENAUER and Congresswoman LOWEY in increasing our funding to regions with the greatest need and improving the strategies in place to provide the world's poor with sustainable, safe, drinking water and basic sanitation.

Mrs. LOWEY. I yield 1 additional minute to Mr. BLUMENAUER.

Mr. BLUMENAUER. I would just like to express my deep appreciation, Chairman PAYNE, for what you have done with your Africa Subcommittee shining a spotlight on the international water issue. The hearing that you convened was riveting, and I thought it was the best expression of the needs we've had in Congress.

The prospect of our Subcommittee on Foreign Ops, working with your subcommittee, on Africa, being able to focus on this, I think, is the brightest spot, and it's going to make a difference for millions of lives around the world. I appreciate your leadership and your focus on this, and thank you both for your efforts.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

I am pleased to yield to my good friend, Mr. CUELLAR from Texas.

Mr. CUELLAR. Mr. Chairman, again I also want to echo what the other Members have said on your leadership on this particular bill, very important bill.

But what I want to do, Madam Chair, is point out two things that you have selected that are very important to my district, south Texas, the border area. The first one has to do with the funding that has been increased for the International Boundary Water Commission that provides funding for the levees that we have along the U.S. and Mexico border. The current budget right now is at $2 million. You have brought that up now to an amount of almost $16 million. This, again, is appreciated again by my office, my constituents, but also by Congressmen RUBÉN HINOJOSA and SOLOMON ORTIZ that have levees down there. This is an issue that has to be addressed because, again, we don't want to see what happened in another part of the United States. This levee work is very important. It's important to the areas of mission, McAllen and the other areas in south Texas. This will go a long way and, again, Madam Chair, I want to thank you for that.

I also want to thank you for some report language that you added, something that, again, MICHAEL MCCAUL and myself have been very interested in, and that is the issue of the trafficking of human, what we call human cargo, also drugs, cash and of course the missing Americans. As you know, there are people that live in the United States that have gone over across the river into Nuevo Laredo and have been kidnapped and have not been found. We've been asking the Mexican Government for years to provide us information so we can bring some sort of closure to this particular situation. And again, we have not gotten this, and we're hoping that the Mexican government will provide us this information as soon as possible.

But this report language, Madam Chair, that you have added will provide us this incentive and hopefully an incentive to the Mexican Government to work with us to provide us information on the missing Americans.

Again, Madam Chair, I want to thank you very, very much for adding, increasing the amount of the levees from $2 million to almost $16 million. On behalf of Congressmen RUBÉN HINOJOSA and SOLOMON ORTIZ, we thank you very much for your leadership.

Mrs. LOWEY. Thank you very much for your kind words and your important interest in this area. And I look forward to continuing to work with you.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

COMMISSION ON INTERNATIONAL RELIGIOUS FREEDOM

SALARIES AND EXPENSES

For necessary expenses for the United States Commission on International Religious Freedom, as authorized by title II of the International Religious Freedom Act of 1998 (Public Law 105–292), $3,400,000, to remain available until September 30, 2009.

COMMISSION ON SECURITY AND COOPERATION IN EUROPE

SALARIES AND EXPENSES

For necessary expenses of the Commission on Security and Cooperation in Europe, as authorized by Public Law 94–304, $2,037,000, to remain available until September 30, 2009.

CONGRESSIONAL-EXECUTIVE COMMISSION ON THE PEOPLE'S REPUBLIC OF CHINA

SALARIES AND EXPENSES

For necessary expenses of the Congressional-Executive Commission on the People's Republic of China, as authorized, $2,000,000, including not more than $3,000 for the purpose of official representation, to remain available until September 30, 2009.

UNITED STATES-CHINA ECONOMIC AND SECURITY REVIEW COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the United States-China Economic and Security Review Commission, $4,000,000, including not more than $5,000 for the purpose of official representation, to remain available until September 30, 2009: *Provided*, That for purposes of costs relating to printing and binding, the Commission shall be deemed, effective on the date of its establishment, to be a committee of Congress: *Provided further*, That compensation for the executive director of the Commission may not exceed the rate payable for level II of the Executive Schedule under section 5314 of title 5, United States Code: *Provided further*, That section 1238(c)(1) of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, is amended by striking ''June'' and inserting ''December'': *Provided further*, That travel by members of the Commission and its staff shall be arranged and conducted under the rules and procedures applying to travel by members of the House of Representatives and its staff: *Provided further*, That section 1238 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 is amended by striking subsection (g).

UNITED STATES INSTITUTE OF PEACE

OPERATING EXPENSES

For necessary expenses of the United States Institute of Peace as authorized in the United States Institute of Peace Act, $25,000,000, to remain available until September 30, 2009.

GENERAL PROVISIONS—DEPARTMENT OF STATE AND RELATED AGENCIES

ALLOWANCES AND DIFFERENTIALS

SEC. 101. Funds appropriated under title I of this Act shall be available, except as otherwise provided, for allowances and differentials as authorized by subchapter 59 of title 5, United States Code; for services as authorized by 5 U.S.C. 3109; and for hire of passenger transportation pursuant to 31 U.S.C. 1343(b).

UNOBLIGATED BALANCES REPORT

SEC. 102. The Department of State and the Broadcasting Board of Governors shall provide to the Committees on Appropriations a quarterly accounting of the cumulative balances of any unobligated funds that were received by such agency during any previous fiscal year.

EMBASSY CONSTRUCTION

SEC. 103. (a) Of funds provided under title I of this Act, except as provided in subsection (b), a project to construct a diplomatic facility of the United States may not include office space or other accommodations for an employee of a Federal agency or department if the Secretary of State determines that such department or agency has not provided to the Department of State the full amount of funding required by subsection (e) of section 604 of the Secure Embassy Construction and Counterterrorism Act of 1999 (as enacted into law by section 1000(a)(7) of Public Law 106–113 and contained in appendix G of that Act; 113 Stat. 1501A–453), as amended by section 629 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 2005.

(b) Notwithstanding the prohibition in subsection (a), a project to construct a diplomatic facility of the United States may include office space or other accommodations for members of the Marine Corps.

PEACEKEEPING MISSIONS

SEC. 104. None of the funds made available under title I of this Act may be used for any United Nations undertaking when it is made known to the Federal official having authority to obligate or expend such funds that: (1) the United Nations undertaking is a peacekeeping mission; (2) such undertaking will involve United States Armed Forces under the command or operational control of a foreign national; and (3) the President's military advisors have not submitted to the President a recommendation that such involvement is in the national security interests of the United States and the President has not submitted to the Congress such a recommendation.

DENIAL OF VISAS

SEC. 105. (a) None of the funds appropriated or otherwise made available under title I of this Act shall be expended for any purpose for which appropriations are prohibited by section 616 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1999.

(b) The requirements in subsections (b) and (c) of section 616 of that Act shall continue to apply during fiscal year 2008.

SENIOR POLICY OPERATING GROUP

SEC. 106. (a) The Senior Policy Operating Group on Trafficking in Persons, established under section 105(f) of the Victims of Trafficking and Violence Protection Act of 2000 (22 U.S.C. 7103(f)) to coordinate agency activities regarding policies (including grants and grant policies) involving the international trafficking in persons, shall coordinate all such policies related to the activities of traffickers and victims of severe forms of trafficking.

(b) None of the funds provided under title I of this or any other Act making appropriations for Department of State and Related Agencies shall be expended to perform functions that duplicate coordinating responsibilities of the Operating Group.

(c) The Operating Group shall continue to report only to the authorities that appointed them pursuant to section 105(f).

UNITED STATES CITIZENS BORN IN JERUSALEM

SEC. 107. For the purposes of registration of birth, certification of nationality, or issuance of a passport of a United States citizen born in the city of Jerusalem, the Secretary of State shall, upon request of the citizen, record the place of birth as Israel.

E-GOVERNMENT INITIATIVES

SEC. 108. Any funds provided under title I of this Act used to implement E-Government Initiatives shall be subject to the procedures set forth in section 615 of this Act.

CONSULTING SERVICES

SEC. 109. The expenditure of any appropriation under title I of this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

LIMITATION ON DIPLOMATIC OR CONSULAR POST IN THE SOCIALIST REPUBLIC OF VIETNAM

SEC. 110. (a) None of the funds appropriated or otherwise made available under title I of this Act shall be expended for any purpose for which appropriations are prohibited by section 609 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1999.

(b) The requirements in subparagraphs (A) and (B) of section 609 of that Act shall continue to apply during fiscal year 2008.

STATE DEPARTMENT AUTHORITIES

SEC. 111. Funds appropriated under title I of this Act for the Broadcasting Board of Governors and the Department of State may be obligated and expended notwithstanding section 15 of the State Department Basic Authorities Act of 1956, section 313 of the Foreign Relations Authorization Act, Fiscal Years 1994 and 1995 (Public Law 103–236), and section 504(a)(1) of the National Security Act of 1947 (50 U.S.C. 414(a)(1)).

RESTRICTION ON CONTRIBUTIONS TO THE UNITED NATIONS

SEC. 112. None of the funds appropriated or otherwise made available under title I of this Act may be made available to pay any contribution of the United States to the United Nations if the United Nations implements or imposes any taxation on any United States persons.

PERSONNEL ACTIONS

SEC. 113. Any costs incurred by a department or agency funded under this Act resulting from personnel actions taken in response to funding reductions included in this Act shall be absorbed within the total budgetary resources available to such department or agency: *Provided*, That the authority to transfer funds between appropriations accounts as may be necessary to carry out this section is provided in addition to authorities included elsewhere in this Act: *Provided further*, That use of funds to carry out this section shall be treated as a reprogramming of funds under section 615 (a) and (b) of this Act and shall not be available for obligation or expenditure except in compliance with the procedures set forth in that section.

RESTRICTIONS ON UNITED NATIONS DELEGATIONS

SEC. 114. None of the funds made available under title I of this Act may be used to pay expenses for any United States delegation to any specialized agency, body, or commission of the United Nations if such commission is chaired or presided over by a country, the government of which the Secretary of State has determined, for purposes of section 6(j)(1) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)(1)), has provided support for acts of international terrorism.

TITLE II—EXPORT AND INVESTMENT ASSISTANCE

EXPORT-IMPORT BANK OF THE UNITED STATES

INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, $1,000,000, to remain available until September 30, 2009.

PROGRAM ACCOUNT

The Export-Import Bank of the United States is authorized to make such expenditures within the limits of funds and borrowing authority available to such corporation, and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations, as provided by section 104 of the Government Corporation Control Act, as may be necessary in carrying out the program for the current fiscal year for such corporation: *Provided*, That none of the funds available during the current fiscal year may be used to make expenditures, contracts, or commitments for the export of nuclear equipment, fuel, or technology to any country, other than a nuclear-weapon state as defined in Article IX of the Treaty on the Non-Proliferation of Nuclear Weapons eligible to receive economic or military assistance under this Act, that has detonated a nuclear explosive after the date of the enactment of this Act: *Provided further*, That notwithstanding section 1(c) of Public Law 103–428, as amended, sections 1(a) and (b) of Public Law 103–428 shall remain in effect through October 1, 2008: *Provided further*, That not less than 10 percent of the aggregate loan, guarantee, and insurance authority available to the Export-Import Bank under this or any prior Act should be used for renewable energy and environmentally beneficial products and services.

SUBSIDY APPROPRIATION

For the cost of direct loans, loan guarantees, insurance, and tied-aid grants as authorized by section 10 of the Export-Import Bank Act of 1945, as amended, $68,000,000, to remain available until September 30, 2011: *Provided*, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: *Provided further*, That such sums shall remain available until September 30, 2026, for the disbursement of direct loans, loan guarantees, insurance and tied-aid grants obligated in fiscal years 2008, 2009, 2010, and 2011: *Provided further*, That none of the funds appropriated by this Act or any prior Act appropriating funds for foreign operations, export financing, and related programs for tied-aid credits or grants may be used for any other purpose except through the regular notification procedures of the Committees on Appropriations: *Provided further*, That funds appropriated by this paragraph are made available notwithstanding section 2(b)(2) of the Export-Import Bank Act of 1945, in connection with the purchase or lease of any product by any Eastern European country, any Baltic State or any agency or national thereof.

ADMINISTRATIVE EXPENSES

For administrative expenses to carry out the direct and guaranteed loan and insurance programs, including hire of passenger motor vehicles and services as authorized by 5 U.S.C. 3109, and not to exceed $30,000 for official reception and representation expenses for members of the Board of Directors, $78,000,000: *Provided*, That the Export-Import Bank may accept, and use, payment or services provided by transaction participants for legal, financial, or technical services in connection with any transaction for which an application for a loan, guarantee or insurance commitment has been made: *Provided further*, That, notwithstanding subsection (b) of section 117 of the Export Enhancement Act of 1992, subsection (a) thereof shall remain in effect until October 1, 2008.

OVERSEAS PRIVATE INVESTMENT CORPORATION

NON-CREDIT ACCOUNT

The Overseas Private Investment Corporation is authorized to make, without regard to fiscal year limitations, as provided by 31 U.S.C. 9104, such expenditures and commitments within the limits of funds available to it and in accordance with law as may be necessary: *Provided*, That the amount available for administrative expenses to carry out the credit and insurance programs (including an amount for official reception and representation expenses which shall not exceed $35,000) shall not exceed $47,500,000: *Provided further*, That project-specific transaction costs, including direct and indirect costs incurred in claims settlements, and other direct costs associated with services provided to specific investors or potential investors pursuant to section 234 of the Foreign Assistance Act of 1961, shall not be considered administrative expenses for the purposes of this heading.

PROGRAM ACCOUNT

For the cost of direct and guaranteed loans, $20,000,000, as authorized by section 234 of the Foreign Assistance Act of 1961, to be derived by transfer from the Overseas Private Investment Corporation Non-Credit Account: *Provided*, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: *Provided further*, That such sums shall be available for direct loan obligations and loan guaranty commitments incurred or made during fiscal years 2008, 2009, and 2010: *Provided further*, That funds so obligated in fiscal year 2008 remain available for disbursement through 2016; funds obligated in fiscal year 2009 remain available for disbursement through 2017; funds obligated in fiscal year 2010 remain available for disbursement through 2018: *Provided further*, That notwithstanding any other provision of law, the Overseas Private Investment Corporation is authorized to undertake any program authorized by title IV of the Foreign Assistance Act of 1961 in Iraq: *Provided further*, That funds made available pursuant to the authority of the previous proviso shall be subject to the regular notification procedures of the Committees on Appropriations.

In addition, such sums as may be necessary for administrative expenses to carry out the credit program may be derived from amounts available for administrative expenses to carry out the credit and insurance programs in the Overseas Private Investment Corporation Non-Credit Account and merged with said account.

TRADE AND DEVELOPMENT AGENCY

For necessary expenses to carry out the provisions of section 661 of the Foreign Assistance Act of 1961, $50,400,000, to remain available until September 30, 2009.

TITLE III—BILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

For expenses necessary to enable the President to carry out the provisions of the Foreign Assistance Act of 1961, and for other purposes, to remain available until September 30, 2008, unless otherwise specified herein, as follows:

UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

CHILD SURVIVAL AND HEALTH PROGRAMS FUND

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the provisions of chapters 1 and 10 of part I of the Foreign Assistance Act of 1961, for child survival, health, and family planning/reproductive health activities, in addition to

funds otherwise available for such purposes, $1,955,150,000, to remain available until September 30, 2009: *Provided*, That this amount shall be made available for such activities as: (1) immunization programs; (2) oral rehydration programs and pneumonia prevention and treatment programs; (3) health, nutrition, water and sanitation programs which directly address the needs of mothers and children, and related education programs; (4) assistance for children displaced or orphaned by causes other than AIDS; (5) programs for the prevention, treatment, control of, and research on HIV/AIDS, tuberculosis, polio, malaria, and other infectious diseases, and for assistance to communities severely affected by HIV/AIDS, including children infected or affected by AIDS; and (6) family planning/reproductive health: *Provided further*, That none of the funds appropriated under this heading may be made available for nonproject assistance, except that funds may be made available for such assistance for ongoing health activities: *Provided further*, That of the funds appropriated under this heading, not to exceed $350,000, in addition to funds otherwise available for such purposes, may be used to monitor and provide oversight of child survival, maternal and family planning/reproductive health, and infectious disease programs: *Provided further*, That the following amounts should be allocated as follows: $374,150,000 for child survival and maternal health; $15,000,000 for vulnerable children; $350,000,000 for HIV/AIDS; $591,000,000 for other infectious diseases; and $375,000,000 for family planning/reproductive health, including in areas where population growth threatens biodiversity or endangered species: *Provided further*, That of the funds appropriated under this heading, and in addition to funds allocated under the previous proviso, not less than $250,000,000 shall be made available, notwithstanding any other provision of law, except for the United States Leadership Against HIV/AIDS, Tuberculosis and Malaria Act of 2003 (Public Law 108–25), for a United States contribution to the Global Fund to Fight AIDS, Tuberculosis and Malaria (the ''Global Fund''), and shall be expended at the minimum rate necessary to make timely payment for projects and activities: *Provided further*, That of the funds appropriated under this heading, $70,000,000 should be made available for a United States contribution to The GAVI Fund, and up to $6,000,000 may be transferred to and merged with funds appropriated by this Act under the heading ''Operating Expenses of the United States Agency for International Development'' for costs directly related to international health, but funds made available for such costs may not be derived from amounts made available for contributions under this and preceding provisos: *Provided further*, That none of the funds made available in this Act nor any unobligated balances from prior appropriations may be made available to any organization or program which, as determined by the President of the United States, supports or participates in the management of a program of coercive abortion or involuntary sterilization: *Provided further*, That any determination made under the previous proviso must be made no later than six months after the date of enactment of this Act, and must be accompanied by a comprehensive analysis as well as the complete evidence and criteria utilized to make the determination: *Provided further*, That none of the funds made available under this Act may be used to pay for the performance of abortion as a method of family planning or to motivate or coerce any person to practice abortions: *Provided further*, That nothing in this paragraph shall be construed to alter any existing statutory prohibitions against abortion under section 104 of the Foreign Assistance Act of 1961: *Provided further*, That none of the funds made available under this Act may be used to lobby for or against abortion: *Provided further*, That in order to reduce reliance on abortion in developing nations, funds shall be available only to voluntary family planning projects which offer, either directly or through referral to, or information about access to, a broad range of family planning methods and services, and that any such voluntary family planning project shall meet the following requirements: (1) service providers or referral agents in the project shall not implement or be subject to quotas, or other numerical targets, of total number of births, number of family planning acceptors, or acceptors of a particular method of family planning (this provision shall not be construed to include the use of quantitative estimates or indicators for budgeting and planning purposes); (2) the project shall not include payment of incentives, bribes, gratuities, or financial reward to: (A) an individual in exchange for becoming a family planning acceptor; or (B) program personnel for achieving a numerical target or quota of total number of births, number of family planning acceptors, or acceptors of a particular method of family planning; (3) the project shall not deny any right or benefit, including the right of access to participate in any program of general welfare or the right of access to health care, as a consequence of any individual's decision not to accept family planning services; (4) the project shall provide family planning acceptors comprehensible information on the health benefits and risks of the method chosen, including those conditions that might render the use of the method inadvisable and those adverse side effects known to be consequent to the use of the method; and (5) the project shall ensure that experimental contraceptive drugs and devices and medical procedures are provided only in the context of a scientific study in which participants are advised of potential risks and benefits; and, not less than 60 days after the date on which the Administrator of the United States Agency for International Development determines that there has been a violation of the requirements contained in paragraph (1), (2), (3), or (5) of this proviso, or a pattern or practice of violations of the requirements contained in paragraph (4) of this proviso, the Administrator shall submit to the Committees on Appropriations a report containing a description of such violation and the corrective action taken by the Agency: *Provided further*, That in awarding grants for natural family planning under section 104 of the Foreign Assistance Act of 1961 no applicant shall be discriminated against because of such applicant's religious or conscientious commitment to offer only natural family planning; and, additionally, all such applicants shall comply with the requirements of the previous proviso: *Provided further*, That for purposes of this or any other Act authorizing or appropriating funds for foreign operations, export financing, and related programs, the term ''motivate'', as it relates to family planning assistance, shall not be construed to prohibit the provision, consistent with local law, of information or counseling about all pregnancy options: *Provided further*, That to the maximum extent feasible, taking into consideration cost, timely availability, and best health practices, funds appropriated in this Act or prior appropriations Acts that are made available for condom procurement shall be made available only for the procurement of condoms manufactured in the United States: *Provided further*, That information provided about the use of condoms as part of projects or activities that are funded from amounts appropriated by this Act shall be medically accurate and shall include the public health benefits and failure rates of such use.

□ 1230

AMENDMENT OFFERED BY MR. PAYNE

Mr. PAYNE. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. PAYNE:

Page 29, line 1, after the dollar amount, insert ''(decreased by $25,000,000) (increased by $50,000,000)''.

Page 40, line 26, after the dollar amount, insert ''(decreased by $25,000,000)''.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from New Jersey (Mr. PAYNE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. PAYNE. Mr. Chairman, I rise today to offer an amendment which increases the amounts available in the Foreign Operations appropriations bill to fight the global spread of tuberculosis by adding an additional $50 million by taking $25 million from the Economic Support Funds account and $25 million from within the Child Survival and Health Programs account.

According to the World Health Organization estimates, someone is infected with the organism that develops into TB every second. Every second. An infected person may not develop full-blown TB, but in 2004, of the 9 million people who were newly infected, 2 million died. The good news is that it is entirely curable.

However, the treatment requires patients to be on a drug regimen for 6 months. If they do not complete the regimen, or if they complete it but take an incorrect number of pills during the treatment, the infection can develop into what is known as multiple drug resistance or MDR–TB. MDR–TB is not responsive to either of the two first-line TB drugs, and the treatments that are available take longer and are more expensive than regular TB medications.

But as news headlines earlier this month have shown, there is an even more deadly threat: extensively drug-resistant TB. XDR–TB is not only resistant to the two first-line drugs but also to three of the six second-line drugs. The treatment required to cure a patient can be radical, including the removal of part of the lung that has been infected.

Earlier this month, a Georgia man who had been diagnosed with a dangerous strain of TB known as extremely drug-resistant tuberculosis, or XDR–TB, traveled through four countries, completely unimpeded. If he had been infectious at the time, there could have been an outbreak across two continents.

We must also keep in mind that XDR–TB has a deadly linkage with HIV and threatens to undermine all of the investments we have made in the global fight against HIV/AIDS. The devastating effect of patients with HIV first gained global recognition last August with reports of an outbreak in a hospital in South Africa where 52 of 53 patients with XDR–TB died. Half of them died within a matter of 16 days.

This tragedy serves as a sobering example of what may happen across Africa if we do not act to prevent another outbreak. Given XDR–TB's resistance to both the low-cost, first-line anti-TB drugs and to several of the classes of second-line drugs used, we are faced with a burgeoning epidemic driven by HIV infection that is lethal.

Since the initial outbreak, South African medical authorities have documented some 400 cases in dozens or more hospitals in South Africa. What is troubling, however, is that no one knows for sure that these 400 cases represent the extent of the outbreak because XDR–TB typically kills quickly and doctors' ability to identify it is severely limited; so many people may have simply died without its even being diagnosed.

Experts believe that XDR–TB has moved beyond South Africa into other countries in the sub-region where the capacity to identify it and control it is significantly weaker than in South Africa and where the HIV/AIDS rate continues to drive the epidemic. As a matter of fact, there are only two laboratories in 48 countries in sub-Saharan Africa that can determine this disease.

All of us here today must work together to take the necessary steps to enhance the ability of the medical establishments in Africa and other developing countries to identify, treat, and stop the spread of drug-resistant TB, primarily in Africa, and to head off further incursions of XDR–TB into the United States. Failure to do so will result in potentially devastating health catastrophes.

The CHAIRMAN. The time of the gentleman from New Jersey has expired.

Mr. PAYNE. Mr. Chairman, I ask unanimous consent that I be allowed 1 more minute.

The CHAIRMAN. Without objection, each side will control 1 additional minute.

There was no objection.

Mr. PAYNE. Mr. Chairman, Ms. ROS-LEHTINEN was strongly supporting this and was hoping to come here, but she is not here at this time.

So I will just conclude by saying that it is my intent that none of the $25 million in this amendment that comes from the Economic Support Fund will come out of Economic Support Fund assistance to countries and programs in the Middle East or ESF-funded programs that support Afro-Colombians or ESF-funded programs for Sudan, Liberia, and Congo, ESF funds that are to be channeled towards the Trans-Saharan Counter Terrorism Initiative, or ESF funds that are for democratic assistance programs. So I wanted to make that clear so that we know exactly where these funds come from.

Mr. WOLF. Mr. Chairman, I move to strike the last word.

On behalf of Ms. ILEANA ROS-LEHTINEN, she wanted to thank you very much for the clarification and she appreciates it very much.

Mrs. LOWEY. Mr. Chairman, I rise in strong support of this amendment.

I agree with the intention of the amendment. And I thank my friend for raising this important issue. As we know, tuberculosis is taking a terrible toll on men, women, and children in the developing world, with approximately 3 million people dying every year. The recent highly publicized case of extremely drug-resistant tuberculosis has brought this issue to the forefront, and the additional funding of this amendment will be used to strengthen the global tuberculosis treatment and care network. I appreciate the gentleman's interest in this issue and would be happy to accept this amendment.

Mr. Chairman, I am very pleased to yield to my good friend, the vice chairman of the committee, Mr. JACKSON.

Mr. JACKSON of Illinois. Mr. Chairman, I thank the gentlewoman for yielding.

I rise in strong support of the gentlewoman's generosity in supporting the Payne amendment.

I want to just share with the full committee some of the views of the members of the subcommittee, because I think their views need to be taken into account.

While we overwhelmingly support the gentleman's amendment for an increase in $50 million, the offset does have the effect, Mr. PAYNE, of robbing Peter to pay Paul. The committee worked very hard to increase the child survival account, which is another health care account that includes maternal health, that includes malaria accounts, and we worked very hard to increase the ESF account, which does impact profoundly sub-Saharan Africa, Afro-Colombian programs, and Israel and Egypt. And while these funds are extremely important, the subcommittee did the best that it could in the original mark to increase funding for tuberculosis, particularly the extremely drug-resistant strands of tuberculosis.

So I rise in strong support of the gentleman's amendment, and I also rise in strong support of the committee's initial mark, which did everything it could within its power to increase child survival and ESF funds.

Ms. LEE. Mr. Chairman, I rise in support of the Payne amendment and thank my colleague for working with Chairwoman LOWEY in drafting this amendment.

Over the last month the entire country has awakened to the threat of XDR–TB (Extensively Drug Resistant Tuberculosis). The simple fact of the matter is that we can prevent XDR–TB and the less dangerous MDR–TB (Multi-drug resistant TB) with better TB control programs that ensure that people who are taking drugs for TB stay on their medicines, and avoid developing drug resistance.

XDR–TB has already been found in over 37 countries around the world. However, due to inadequate lab facilities around the world we don't truly know how far XDR–TB has spread.

Additional funding provided by the Payne amendment would help us address some of these issues. I want to again thank my colleague Representative PAYNE for offering this amendment and for working with Chairwoman LOWEY to ensure that we increase funding for Tuberculosis programs in the State-Foreign Ops bill this year.

I look forward to continuing to work with both of my colleagues and the committee to ensure that TB continues to get the funding and attention it deserves.

□ 1245

Mrs. LOWEY. Mr. Chairman, we accept the amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New Jersey (Mr. PAYNE).

The amendment was agreed to.

AMENDMENT OFFERED BY MS. JACKSON-LEE OF TEXAS

Ms. JACKSON-LEE of Texas. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Ms. JACKSON-LEE of Texas:

Page 34, line 17, after the dollar amount, insert ''(increased by $5,000,000) (reduced by $5,000,000)''.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentlewoman from Texas (Ms. JACKSON-LEE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Texas.

Ms. JACKSON-LEE of Texas. Let me begin by thanking the chairwoman and her staff and the vice chairman of the committee for working with my office, and of course the ranking member and their staff.

It is evident how hard this committee has worked on a very broadband, wide-reaching initiative as it relates to appropriations in the foreign relations, foreign affairs of this Nation.

As a member of the authorizing committee, we recognize that this committee touches the heartbeat of every aspect of the world's business, and the importance of the United States in creating internationalism for the greater good of the world.

As I listened to Mr. PAYNE, my amendment falls squarely in track of improving the health conditions of Africa and recognizing the need for hospitals that in fact will respond to a number of issues.

My amendment reallocates an additional $5 million to the Child Survival and Disease Fund to increase the amount of funds appropriated for child and maternal health.

The purpose of this amendment is to direct additional funds for technical assistance to provide capacity-building for hospitals in Africa that deal with child-surviving and other relevant needs.

We have been, if you will, screening the research annals across this Congress to try to find out how many full-service hospitals are on the Continent of Africa. Some have said 200, some say I know that there's one in Sierra Leone. Some say they know there's one in South Africa. But I can assure you that the plight of women who are pregnant in Africa is a severe plight. Take, for example, that every minute somewhere in the world, a woman dies from pregnancy-related causes, with 95 percent of those deaths occurring in Africa and Asia. Worldwide, about 529,000 women die from pregnancy-related causes every year. A woman in sub-Saharan Africa has a 1 in 16 chance of dying in pregnancy or childbirth. Part of the care and prevention of such is preventative care, the money that is in this particular account. But I also believe part of it is the importance of building full-capacity hospitals that deal with women in the maternal aspect as well as in the pregnancy aspect. And so this amendment seeks to provide that opportunity.

And I might cite, as an example, the Mutombo Hospital in Kinshasa, Congo. It is a hospital that has 300 beds, three operating rooms, an outpatient clinic, an emergency room, a pharmacy. You cannot find that, Mr. Chairman, across Africa. Therefore, I believe there is a definitive need to provide them technical assistance so that we don't have to guess what number of hospitals are in and on the continent, but we will know that they look somewhat like this, with operating rooms, with expansive facilities to provide treatment for mothers and babies, treatment that will be lifesaving.

Madam Chairwoman, let me simply say that I had an experience in a hospital in Africa. One of my first medical experiences was to require sutures in an accident in Africa. Let me thank those medical professionals who helped me be here today, but I want you to know that I was laying out on a wooden slab and looking through tattered curtains and looking at the sky as the doctors were working on me. That was the hospital that I was in on the continent. I do not say it in degradation or insult. What I say is I would venture to say that if we go to Africa today, and many other countries, the kinds of facilities that are there reflect that kind of lack of resources.

This will help not only in maternal and child survival because of the loss of life of mothers who are pregnant and who give birth with facilities that would provide hospital resources, but it will also, if you will, give encouragement to the continent, as has been done by the hospital in Kinshasa, Congo, Mutombo, who I hope will also be, as they say, ''in the mix'' on providing opportunities for others to see what can be done.

I hope that this amendment will be accepted because it will go a long way for expanding the lives of mothers and children, but it will also go a long way for ensuring that we believe in good hospital care, excellent hospital care across the Continent of Africa.

Mr. Chairman, I have an amendment at the desk and I rise to speak in support of amendment #2 to H.R. 2764, the State and Foreign Operations Act of 2008. I would first like to thank Chairwoman LOWEY for her extraordinary leadership and guidance in crafting this bill.

H.R. 2764 will play a crucial role in restoring the global respect to this country that many around the world had so eagerly rewarded it in the past for its historical humanitarian efforts. America, that beacon upon the hill, will shine a little bit brighter amongst those who will through this bill, be able to get healthcare, and whose very lives are dependent upon such care. Among these spared lives are many, many children and women who would needlessly perish from the perils of poverty without our support.

Mr. Chairman, sparing lives of children and women starts with ensuring that they have adequate healthcare. That is why I offer my amendment which provides: on Page 29, line 1, after the dollar amount, insert (increased by $5,000,000) (reduced by $5,000,000). In offering this amendment, my intent is to increase the amount of funds appropriated for child and maternal health by $5,000,000. The reason that I urge support for increased funds for child and maternal health is that the greatest threat for the quality of life for our children all around the world is lack of health care for the mother and child.

In the United States, the birth of a child in most instances is a time of joy because the mother and baby go home from the hospital together, healthy and happy. Sadly, however, in poor countries childbirth can be dangerous and potentially tragic for both mother and child. Take, for example, that every minute, somewhere in the world a woman dies from pregnancy-related causes, with 95 percent of these deaths occurring in Africa and Asia. Worldwide, about 529,000 women die from pregnancy-related causes every year—about the number of women and girls who live in Dallas, Texas or San Diego, California. A woman in sub-Saharan Africa has a one in 16 chance of dying in pregnancy or childbirth.

Mr. Chairman, with less than 200 full-service hospitals, Africa desperately needs our assistance because without it, Africa will continue to fall far short of providing the necessary and proper life saving healthcare for its population. About 3.4 million babies die every year due to poor maternal health and inadequate delivery care. In addition, an estimated 100,000 women a year in poor countries develop obstetric fistulas, a condition caused by obstructed labor and creates permanent holes in their bladders that cause continual leaking of urine.

Every year, more than 10 million children under the age of five die from totally preventable deaths. Some are directly caused by illness such as pneumonia, diarrhea, and malaria. Others are caused by indirect causes including conflict and HIV/AIDS. Malnutrition, poor hygiene and lack of access to safe water and adequate sanitation contribute to more than half of these deaths.

What is even sadder, Mr. Chairman, is that two thirds of both neonatal and young child deaths—over 6 million deaths every year—are preventable. Half a million women die in pregnancy each year, most during delivery or in the first few days thereafter. Obstructed labor, hemorrhaging, and infection, can all be averted provided a woman has access to safe and appropriate pre-natal care. Madam Chair, the increased funds from my amendment would be dedicated to providing women with this vital care. Specifically, these funds would contribute to capacity building for hospitals in Africa which engage in child-survival and maternal health programs. We have seen the positive impact that these facilities have made within the health care environment. Professional basketball star Dikembe Mutombo established the Biamba Marie Mutombo Hospital and Research Center, a hospital that provides desperately needed healthcare to the impoverished population in Kinshasa, the capital of the Democratic Republic of Congo. At full capacity, it will include 300 beds and will offer the following services to the population: pediatrics; gynecology/obstetrics/women's health; internal medicine; surgery (general and subspecialties); emergency medicine; intensive care; outpatient care; laboratory services; and radiology.

Existing low-cost, low-technology and high impact interventions such as vaccines, antibiotics, micronutrient supplementation, insecticide-treated bednets, improved breastfeeding practices and adoption of safe hygiene practices can prevent unnecessary maternal and child deaths as well as reduce malnutrition. By packaging services and implementing at scale, high impact and evidence-based maternal, newborn and child survival interventions, we can save millions of lives.

As I stand here today, I reflect upon my visit to Honduras in 2001, and I remember how important the child and maternal health crisis was, and now recall how that it was in part the impetus behind my founding of the bi-partisan Congressional Children's Caucus in 1997. As I have done since 1997, I will continue to

make it a priority to support initiatives that protect the health and welfare of children worldwide.

Mr. Chairman, the success in reducing infant and maternal mortality and reducing family size and nutrition strongly depends on support from this noble nation. I strongly urge my colleagues to support this amendment that will go a long way to save the lives of many women and children.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. The gentlewoman is recognized for 5 minutes.

Mrs. LOWEY. I thank my good friend for your important work in Africa and for your observations.

I rise to accept this amendment, and I agree with the intention of the amendment. I really do thank my friend for raising this very important issue.

This committee made global health a priority in this fiscal year. We provided a total of $6.517 billion for global health. And I do agree with the gentlewoman that strengthening the public health infrastructure should be central to our global health strategy. So I do appreciate the gentlewoman's interest in this issue, and I look forward to working with you.

Ms. JACKSON-LEE of Texas. Will the gentlewoman yield?

Mrs. LOWEY. I yield to the gentlewoman from Texas.

Ms. JACKSON-LEE of Texas. I appreciate the accepting of this amendment, and I look forward to working with you as we go to conference. Laying the groundwork for the infrastructure of health care on the continent goes a long way in saving lives.

I thank you for your leadership and the leadership of the ranking member. I ask my colleagues to support the amendment.

Mrs. LOWEY. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentlewoman from Texas (Ms. JACKSON-LEE).

The amendment was agreed to.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of sections 103, 105, 106, and sections 251 through 255, and chapter 10 of part I of the Foreign Assistance Act of 1961, $1,733,760,000, to remain available until September 30, 2009: *Provided*, That $519,000,000 shall be allocated for basic education: *Provided further*, That of the funds appropriated under this heading and managed by the United States Agency for International Development Bureau of Democracy, Conflict, and Humanitarian Assistance, not less than $35,000,000 shall be made available only for programs to improve women's leadership capacity in recipient countries: *Provided further*, That such funds may not be made available for construction: *Provided further*, That of the funds appropriated in this Act, $300,000,000 shall be made available for access to safe water and water management programs: *Provided further*, That of the funds appropriated under this heading, $175,000,000 shall be made available for biodiversity and environmental programs: *Provided further*, That of the funds appropriated under this heading that are made available for assistance programs for displaced and orphaned children and victims of war, not to exceed $42,500, in addition to funds otherwise available for such purposes, may be used to monitor and provide oversight of such programs: *Provided further*, That funds appropriated under this heading should be made available for programs in sub-Saharan Africa to address sexual and gender-based violence.

AMENDMENT OFFERED BY MS. JACKSON-LEE OF TEXAS

Ms. JACKSON-LEE of Texas. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 29, line 1, after the dollar amount, insert ''(increased by $5,000,000) (reduced by $5,000,000)''.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentlewoman from Texas (Ms. JACKSON-LEE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Texas.

Ms. JACKSON-LEE of Texas. To the chairman of the Foreign Affairs, Foreign Relations Appropriations Committee, let me thank you for your leadership, and to the ranking member as well.

Mr. Chairman, I think we know the story of Liberia. And I want to applaud the new President of Liberia, who has visited us, someone who understands economics and is committed to the success of this nation. She cannot, however, do it without friends.

Liberia has an enormously important nexus to the United States. It was where slaves were returned back to the Continent of Africa after having been enslaved here in the United States. I look forward to reenergizing the relationship, not only with the continent, but also, particularly with the nation of Liberia after a very troubling and very violent time.

Our new President of Liberia is tracking all of the needs, accounting for all of the dollars. My amendment simply seeks to reallocate an additional $5 million for the Republic of Liberia of the $365 million Development Assistance account. The net effect would be to increase developmental assistance to the Republic of Liberia to $35 million. Let me explain why this would be a wise investment.

We have heard recently from Bob Johnson, the former chairman of BET, who has taken a special interest, private sector initiative in Liberia. And if I recall his remarks correctly, he believes that Liberia can be on the precipice of a rebirth. It can be on the precipice, if you will, of a renaissance of economic development, educational achievement and infrastructure repair.

In 2003, 14 years of civil war left Liberia in shambles. Nearly 200,000 civilians have died. Nearly one-third of the population, or 1 million citizens, have been displaced. And 300,000 have fled the country. Women are involved on all sides of the war from combat to slavery to rape. Child soldiers were involved in this terrible, horrific tragedy. Physical violence often accompanied the rape. A highly regarded survey of six selected Liberian counties revealed that roughly 7 percent of women have been raped during the war, although female minors were frequently targeted.

The war ended, and as I indicated, we now have a woman President. Liberian President, Ellen Johnson Sirleaf, underlines this in her statement to the 2006 International Symposium on Sexual Violence. ''In studies conducted in many of the countries of Liberia in 2004, a large percentage of women and girls reported that they were victims of various forms of violence.''

This reprogramming of dollars will refocus on the need for developmental assistance that will be able to assist those who are making their first steps, their first steps of achievement, both business-wise, education-wise and building up the confidence of women, men and families, turning child soldiers into constructive, giving adults, and participating with President Sirleaf's commitment to moving Liberia forward as a shining star on the continent. I know they know how to do it, but we need to give them the extra added tools, and to be able to emphasize in this bill that their development is key.

I ask my colleagues to consider where Liberia has been, where Liberia is today, and where they will be 20 years from now. I believe in President Sirleaf and the commitment of Bob Johnson, the Clinton Foundation, and many others who have targeted the Liberian people and the Liberian Government as an achievable goal of economic developmental, educational, political democracy that can be again the shining star.

I ask my colleagues to support this amendment that will provide this extra direction for developmental assistance in Liberia.

Mr. Chairman, I have an amendment at the desk and I rise to speak in support of this amendment to H.R. 2764, the State and Foreign Operations Appropriations Act of 2008. But before I do, let me commend Chairwoman LOWEY for her exceptional leadership in shepherding this bill through the legislative process.

The legislation she has so ably crafted is an indispensable measure in restoring America's international prestige and leadership position in the global community. Equally important, this legislation reflects what is good about America: its generosity, its concern for the less fortunate, its commitment to protecting the weak and uplifting the downtrodden, and the recognition that we live in an interdependent world. You will recall the wise counsel of the Rev. Dr. Martin Luther King, Jr.,

who said, ''we will either live together as brothers or we will perish as fools.''

Mr. Chairman, my amendment is simple. It simply seeks to reallocate an additional $5 million for the Republic of Liberia out of the $365 million Development Assistance account. The net effect would be to increase developmental assistance to the Republic of Liberia to $35 million. Let me explain briefly why this would be a wise investment.

In 2003, fourteen years of civil war left Liberia in shambles. Nearly 200,000 civilians had died. Nearly a third of the population, or one million citizens, had been displaced, and 300,000 had fled the country.

Women were involved on all sides of the war from combat to slavery to rape. Physical violence often accompanied the rape. A highly regarded survey of six selected Liberian counties revealed that roughly 7 percent of women had been raped during the war. Moreover, female minors were frequently targeted.

The war ended more than 4 years ago but the plight of Liberia's women is still problematic. Rape and domestic violence continue to plague Liberia. Liberian President Ellen Johnson Sirleaf underlines this in her statement to the 2006 International Symposium on Sexual Violence in Conflict and Beyond: ''In studies conducted in many of the counties of Liberia in 2004, a large percentage of women and girls reported that they were victims of various forms of violence and abuse. International organization reports show that a large percentage of these women were raped.''

Mr. Chairman, traditional Liberian culture stigmatizes rape, so victims often choose to stay silent, hiding what they see as a shameful and incriminating experience from their family and townspeople. Until recently, Liberian government courts had no systems in place to assist rape survivors. Traditional culture around rape was one of shame for women and acceptance for men. But times are slowly changing. And it began with the historic election of President Sirleaf, Liberia's first female head of state.

Raised in Liberia and Harvard-educated, President Sirleaf began her long involvement with the Liberian government as its Assistant Minister of Finance during the 1970s. She went into exile after a military coup destabilized the country in 1980, but returned to Liberia to run for Senate 5 years later. When she was running for Senate, she was briefly imprisoned for speaking out against Liberia's leader at the time, Samuel Doe.

You will remember how she described her capture and close encounter with rape when she addressed a joint session of the Congress on March 15, 2007: ''In 1985, after challenging the military regime's failure to register my political party, I was put in jail with several university students who also challenged the military rule. This House came to our rescue with a resolution threatening to cut off aid to the country unless all political prisoners were released. Months later, I was put in jail again, this time in a cell with 15 men. All of them were executed a few hours later. Only the intervention of a single soldier spared me from rape.''

Mr. Chairman, I would hope that my amendment would result in additional funding to secure women rights and prevent violence against women.

Securing and protecting women's rights is something the Association of Female Liberian Lawyers fights for every day. AFELL, an organization of female lawyers based in Monrovia, is on a mission to educate and represent women nationwide.

Founded during the first civil war, 1989–1996, AFELL grew in prominence during the second conflict, which lasted from 1999 to 2003. In November 2000, with fighting still active, AFELL won a state patent to prosecute rape cases. Before this, Liberian law only allowed state lawyers to prosecute criminal cases. The patent represented a major success for AFELL.

This was the first in a series of victories. AFELL later collaborated with the government to increase penalties for rape. Resulting legislation led to more punitive rape laws that call for 10 years to life imprisonment for rape.

Mr. Chairman, the Republic of Liberia has made great progress in recent years but still much work remains to be done. Listen again to the words of President Sirleaf: ''In the campaign months, I traveled to every corner of our country. I trudged through mud in high boots, where roads did not exist or had deteriorated past repair. I surveyed ruined hospitals and collapsed clinics. I held meetings by candlelight, because there is no electricity anywhere—including the capital—except from private generators. I was forced to drink water from creeks and un-sanitized wells all of which made me vulnerable to the diseases from which so many of our people die daily.''

Mr. Chairman, the women and children of Liberia want what we all want for those we love. They want to learn. They want to be safe from violence. They want to be healthy. They want the same chances that men have. They want to be literate. They want their work recognized. They want the right to inherit property. They want protection against rape. They want clean water that won't sicken and kill their children. They want a hopeful future.

I believe my amendment will help hasten the day when these dreams are realized.

Mr. Chairman, thank you this opportunity to discuss my amendment to H.R. 2764. I ask all members to support it. Again, I thank Chairwoman LOWEY for her fine work in bringing this exceptional legislation to the House.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

The CHAIRMAN. The gentlewoman is recognized for 5 minutes.

Mrs. LOWEY. Mr. Chairman, I rise to accept this amendment.

I thank the gentlewoman again for raising an important issue. I agree with the intention of the amendment. Liberia certainly has been a priority for us. And we support the very important work that the President is doing there. We provided a total of $30 million in the Development Assistance account, $30 million above the President's request, and I would be happy to accept the gentlewoman's amendment.

Ms. JACKSON-LEE of Texas. Will the gentlewoman yield?

Mrs. LOWEY. I will yield.

Ms. JACKSON-LEE of Texas. I believe when we focus the great work that you've done on a particular area, it encourages our newly elected woman President of Liberia, which we hope and pray for her ultimate success for her people and for the Continent of Africa. I thank the gentlelady for accepting the amendment.

Mrs. LOWEY. I thank the gentlewoman.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentlewoman from Texas (Ms. JACKSON-LEE).

The amendment was agreed to.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

INTERNATIONAL DISASTER AND FAMINE ASSISTANCE

For necessary expenses to carry out the provisions of section 491 of the Foreign Assistance Act of 1961 for international disaster relief, rehabilitation, and reconstruction assistance, $322,350,000, to remain available until expended, of which $20,000,000 should be for famine prevention and relief.

TRANSITION INITIATIVES

For necessary expenses for international disaster rehabilitation and reconstruction assistance pursuant to section 491 of the Foreign Assistance Act of 1961, $40,000,000, to remain available until expended, to support transition to democracy and to long-term development of countries in crisis: *Provided*, That such support may include assistance to develop, strengthen, or preserve democratic institutions and processes, revitalize basic infrastructure, and foster the peaceful resolution of conflict: *Provided further*, That the United States Agency for International Development shall submit a report to the Committees on Appropriations at least 5 days prior to beginning a new program of assistance.

DEVELOPMENT CREDIT AUTHORITY

(INCLUDING TRANSFER OF FUNDS)

For the cost of direct loans and loan guarantees provided by the United States Agency for International Development, as authorized by sections 256 and 635 of the Foreign Assistance Act of 1961, up to $21,000,000 may be derived by transfer from funds appropriated by this Act to carry out part I of such Act and under the heading ''Assistance for Eastern Europe and the Baltic States'': *Provided*, That such funds shall be made available only for micro and small enterprise programs, urban programs, and other programs which further the purposes of part I of the Act: *Provided further*, That such costs, including the cost of modifying such direct and guaranteed loans, shall be as defined in section 502 of the Congressional Budget Act of 1974, as amended: *Provided further*, That funds made available by this paragraph may be used for the cost of modifying any such guaranteed loans under this Act or prior Acts, and funds used for such costs shall be subject to the regular notification procedures of the Committees on Appropriations: *Provided further*, That the provisions of section 107A(d) (relating to general provisions applicable to the Development Credit Authority) of the Foreign Assistance Act of 1961, as contained in section 306 of H.R. 1486 as reported by the House Committee on International Relations on May 9, 1997, shall be applicable to direct loans and loan guarantees provided under this heading: *Provided further*, That these funds are available to subsidize total loan principal, any portion of which is to be guaranteed, of up to $700,000,000.

In addition, for administrative expenses to carry out credit programs administered by the United States Agency for International Development, $7,400,000, which may be transferred to and merged with the appropriation for Operating Expenses of the United States Agency for International Development: *Provided,* That funds made available under this heading shall remain available until September 30, 2010.

OPERATING EXPENSES OF THE UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the provisions of section 667 of the Foreign Assistance Act of 1961, $625,700,000, of which up to $25,000,000 may remain available until September 30, 2009: *Provided,* That none of the funds appropriated under this heading and under the heading ''Capital Investment Fund'' may be made available to finance the construction (including architect and engineering services), purchase, or long-term lease of offices for use by the United States Agency for International Development, unless the Administrator has identified such proposed construction (including architect and engineering services), purchase, or long-term lease of offices in a report submitted to the Committees on Appropriations at least 15 days prior to the obligation of these funds for such purposes: *Provided further,* That the previous proviso shall not apply where the total cost of construction (including architect and engineering services), purchase, or long-term lease of offices does not exceed $1,000,000: *Provided further,* That contracts or agreements entered into with funds appropriated under this heading may entail commitments for the expenditure of such funds through fiscal year 2009: *Provided further,* That none of the funds in this Act may be used to open or close an overseas mission of the United States Agency for International Development without the prior written notification to the Committees on Appropriations: *Provided further*, That the authority of sections 610 and 109 of the Foreign Assistance Act of 1961 may be exercised by the Secretary of State to transfer funds appropriated to carry out chapter 1 of part I of such Act to ''Operating Expenses of the United States Agency for International Development'' in accordance with the provisions of those sections: *Provided further,* That none of the funds appropriated by this Act or any prior Act making appropriations for foreign operations, export financing, or related programs may be used by the United States Agency for International Development for the rent of buildings and space in buildings in the United States pursuant to the authority of section 636(a)(1) of the Foreign Assistance Act of 1961: *Provided further,* That the previous proviso shall not apply to any lease, agreement, or other instrument executed for the purpose of maintaining United States Agency for International Development continuity of operations and to the cost of terminating the domestic lease executed on September 30, 2005.

CAPITAL INVESTMENT FUND OF THE UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

For necessary expenses for overseas construction and related costs, and for the procurement and enhancement of information technology and related capital investments, pursuant to section 667 of the Foreign Assistance Act of 1961, $87,300,000, to remain available until expended: *Provided,* That this amount is in addition to funds otherwise available for such purposes: *Provided further,* That funds appropriated under this heading shall be available for obligation only pursuant to the regular notification procedures of the Committees on Appropriations: *Provided further,* That of the funds appropriated under this heading, not to exceed $75,144,500 may be made available for the purposes of implementing the Capital Security Cost Sharing Program.

OPERATING EXPENSES OF THE UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT OFFICE OF INSPECTOR GENERAL

For necessary expenses to carry out the provisions of section 667 of the Foreign Assistance Act of 1961, $38,000,000, to remain available until September 30, 2009, which sum shall be available for the Office of the Inspector General of the United States Agency for International Development.

OTHER BILATERAL ECONOMIC ASSISTANCE

ECONOMIC SUPPORT FUND

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the provisions of chapter 4 of part II, $2,656,506,000, to remain available until September 30, 2009: *Provided,* That of the funds appropriated under this heading, not less than $415,000,000 shall be available only for Egypt, which sum shall be provided on a grant basis, and of which sum cash transfer assistance shall be provided with the understanding that Egypt will undertake significant economic and political reforms which are additional to those which were undertaken in previous fiscal years: *Provided further,* That with respect to the provision of assistance for Egypt for democracy and governance activities, the organizations implementing such assistance and the specific nature of that assistance shall not be subject to the prior approval by the Government of Egypt: *Provided further,* That of the funds appropriated under this heading for assistance for Egypt, not less than $135,000,000 shall be made available for project assistance, of which not less than $50,000,000 shall be made available for democracy, human rights and governance programs and not less than $50,000,000 shall be used for education programs: *Provided further,* That $11,000,000 of the funds appropriated under this heading should be made available for Cyprus to be used for scholarships, administrative support of the scholarship program, bicommunal projects, and measures aimed at reunification of the island and designed to reduce tensions and promote peace and cooperation between the two communities on Cyprus: *Provided further,* That of the funds appropriated under this heading, not less than $263,547,000 should be made available only for assistance for Jordan: *Provided further,* That of the funds appropriated under this heading not more than $63,500,000 may be made available for assistance for the West Bank and Gaza: *Provided further,* That $45,000,000 of the funds appropriated under this heading shall be made available for assistance for Lebanon, of which not less than $10,000,000 should be made available for scholarships and direct support of American educational institutions in Lebanon: *Provided further,* That not more than $300,000,000 of the funds made available for assistance for Afghanistan under this heading may be obligated for such assistance until the Secretary of State certifies to the Committees on Appropriations that the Government of Afghanistan at both the national and provincial level is cooperating fully with United States funded poppy eradication and interdiction efforts in Afghanistan: *Provided further,* That the President may waive the previous proviso if he determines and reports to the Committees on Appropriations that to do so is vital to the national security interests of the United States: *Provided further,* That such report shall include an analysis of the steps being taken by the Government of Afghanistan, at the national and provincial level, to cooperate fully with United States funded poppy eradication and interdiction efforts in Afghanistan: *Provided further,* That of the funds appropriated under this heading, not less than $218,500,000 is available only to carry out programs in Colombia and may be transferred to ''DEVELOPMENT ASSISTANCE'' to continue programs administered by the United States Agency for International Development: *Provided further,* That of the funds appropriated under this heading that are available for assistance for the Democratic Republic of Timor-Leste, up to $1,000,000 may be available for administrative expenses of the United States Agency for International Development: *Provided further,* That notwithstanding any other provision of law, funds appropriated under this heading may be made available for programs and activities for the Central Highlands of Vietnam: *Provided further,* That funds appropriated under this heading that are made available for a Middle East Financing Facility, Middle East Enterprise Fund, or any other similar entity in the Middle East shall be subject to the regular notification procedures of the Committees on Appropriations.

AMENDMENT OFFERED BY MR. SHAYS

Mr. SHAYS. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. SHAYS:

Page 40, line 26, after the dollar amount, insert ''(increased by $50,000,000) (reduced by $50,000,000)''.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Connecticut (Mr. SHAYS) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Connecticut.

Mr. SHAYS. Thank you very much, Mr. Chairman, and again, Mrs. LOWEY, thank you for a well-drafted bill, but this is an area in which I have some concern.

Mr. Chairman, my amendment would designate $50 million in Economic Support Funds for the Community Action Programs, also known as CAP in Iraq. The CAP program directly engages Iraqis in reconstructing their own communities while building a nationwide grassroots constituency for democracy. Typical CAP projects use both U.S. and Iraqi funds and resources to rebuild schools, repair water and sewage lines, build health clinics, as well as a host of other infrastructure and development projects.

□ 1300

The CAP agencies are Mercy Corps; IRD, International Relief and Development; CHF International; ACDI/VOCA Counterpart; and in the past, Save the Children. Since 2003, six of USAID's NGO partners have implemented this program in all 18 governorates of Iraq.

In order to maintain the security of staff and win the trust of Iraqi communities, the implementers and USAID have largely run the program under the radar. As a result, not enough people are aware of the remarkable success story that CAP represents.

Here are just a few highlights: CAP has successfully managed more than 6,000 reconstruction and development projects and created more than 2.7 million days of employment and 34,000 long-term jobs with 43 percent of those jobs going to women, Iraqi women.

A January 2005 audit report from the USAID regional inspector general, Baghdad, stated: ''Based on tests performed on 89 statistically selected sample projects, the CAP achieved 98 percent of its intended outputs.''

I am going to read that again: ''Based on tests performed on 89 statistically selected sample projects, the CAP achieved 98 percent of its intended outputs.''

Communities are contributing between 15 and 25 percent of the value of each project. That is Iraqis contributing. This contribution is often in the form of labor, in-kind materials, or other provisions.

In my travels to Iraq, I have seen firsthand how the CAP program improves the lives of Iraqis and most importantly how it helps us accomplish our mission of creating a secure environment for the Iraqi people so democracy can prosper.

It would be a terrible waste to turn our backs on such a great investment. In fact, this is exactly the time to nurture and build on the relationships CAP partners have forged with communities. Furthermore, CAP provides the foundation and the constituency at the community level that will help ensure the success of other State Department civil society programs.

The CAP program has enjoyed strong support from the Appropriations Committee, Republicans and Democrats alike, in the past. An amendment we offered during last year's supplemental appropriations act to increase CAP funding by $10 million was accepted by the committee.

The committee noted in its report last year that ''CAP provides a vehicle for empowering communities, building community cohesion and providing evidence that the U.S. is committed to improving the lives of Iraqis.''

We are asking for $50 million to be designated within Economic Support Funds to ensure the agencies can expand and improve the valuable projects they've been implementing for the last several years.

Mr. Chairman, I urge all my colleagues to support this amendment.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I reluctantly rise in opposition to this amendment because, as I have explained to Mr. SHAYS, I believe this is a really critical program. I would love to work with you on it.

This amendment would provide $50 million in funding for Community Action Programs. There is no funding in this particular bill for Iraqi operations and reconstruction. As I explained to the gentleman, the reason there is no funding in this bill is because of the $2.8 billion in the supplemental and the $2.8 billion requested in September for the supplemental.

I want to make it very clear that I agree with the gentleman that the Community Action Program and NGO partnership with USAID does really good work. In fact, CAP is the only program of its kind to operate outside the Green Zone in Iraq. I have been a strong supporter of their efforts. I have met with them repeatedly. I know of their good work.

By working from the community level up and assisting Iraqi moderates who have eschewed sectarian and insurgent violence, the CAP partners directly engage Iraqis in reconstructing their own communities. They create employment. They build nationwide grass-roots constituency for democracy.

Congress identified CAP as a priority when it appropriated $100 million specifically for CAP in the fiscal year 2006 supplemental. Additionally, we just provided $95 million for CAP in the 2000 supplemental. I want to make it clear to my good friend from Connecticut that we put the money in after I met personally with representatives of CAP.

I understand the important work that they are doing. I have spoken to the CAP partners. They agreed that they do not need any additional funding in the regular fiscal year 2008 bill. They tell me they have enough to continue operations. As difficult as it is there, they are continuing operations through fiscal year 2008 at the current pace of operation.

They also noted that they worked very hard to stay under the radar in Iraq, which is what makes their great achievements possible. I want to make it clear that they have no interest, from my conversations with them, they don't want to be the foil in an Iraq funding debate. We have made it clear.

Mr. Chairman, I want to make it clear once again that the reason we are not providing additional funding and we cannot provide additional funding to the CAP in this bill is because of the $2.8 billion in the supplemental, the $2.8 billion that is being requested. The CAPs have made it clear they don't need the money now. They are operating under the radar. If we are providing zero funding for Iraq in this bill, they don't want to be part of this debate.

This is not a partisan issue. They are doing very important work. It has nothing to do with any of the other debate on Iraq. It is what is needed now. There are tremendous needs around the world that we are trying to fill in this bill.

So, again, with great respect for my good friend, Mr. SHAYS, we have worked together on many issues. I appreciate your concerns. I agree with your concerns, but not in this bill; and I look forward to continuing to work with you as we move ahead.

I thank the gentleman.

Mr. SHAYS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I just want to say to you, there is no money in the 2008 budget, fiscal year 2008 budget. The challenge we have is that this is the one program, more than any others, that works. It shouldn't be tied to any benchmarks because implementing this program, expanding it actually, will make it easier for all those benchmarks to be realized.

I am not trying to bring more attention to this program. I just think it needs to be funded and expanded and this is the vehicle to do it.

Mr. Chairman, I yield the balance of my time to the gentleman from Virginia (Mr. WOLF).

Mr. WOLF. Mr. Chairman, I thank the gentleman.

Mr. Chairman, Mr. SHAYS has made a good case, and the Chair has made a good case for this. Without mentioning the groups, so we don't call any attention to them, we know the good work that they are doing. Mr. SHAYS lived with one of the groups for a period of time. You saw the schools they were building. So I am just concerned we are getting wrapped up into process that since nothing is in, we are not going to put things in.

This is something that would actually work and have success in Iraq from the civilian side. It would be a great boost to have this in. So I strongly support the amendment.

Mrs. LOWEY. Mr. Chairman, I claim the time in opposition.

The Acting CHAIRMAN. The gentlewoman from New York is recognized for 5 minutes.

Mrs. LOWEY. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, in closing, just to address my good friend, Mr. SHAYS, I agree with everything you said. I agree with all the good work that the CAPs are doing.

That is why we appropriated $100 million and then another $95 million. But I want to make it clear, at least from my interaction from the CAPs, and I have had many discussions with the CAPs, they don't need the money now. They are operating under the radar. They are doing good work. And with the supplemental in 2008 that is coming up in September, they don't need the money now. They certainly welcome, if it is necessary, some additional funding to them.

Mr. Chairman, I would be happy to yield to the gentleman from Connecticut.

□ 1315

Mr. SHAYS. Mr. Chairman, just so the debate is a little more accurate, and we will see how the vote turns out whether I ask for a roll call vote or not, would it not be fair to say that they can live with the money they have, but they would like to have more and they could use more and do more with it? This is not a trick question, but I want to make sure for the record we don't make it seem like they have all that they need and can use well.

If the answer to that first question is yes, my second question would be, would it be the intent of the gentlewoman from New York to consider funding this program at an amount that will enable them to do at least what they are doing now in fiscal year 2008, and possibly more?

Mrs. LOWEY. Mr. Chairman, reclaiming my time, and again with great respect to the gentleman from Connecticut, in my discussions with the CAP, they made it clear that they don't need money now. This is now June. We just passed a supplemental. In September there will be another supplemental. They are doing great work, and we both admire their work.

Given the tremendous needs around the world, which I know you support, be it clean water or HIV–AIDS or peacekeeping, and we can go on and on, the CAP made it clear to me that they do not need the money now. Therefore, I must reluctantly oppose this amendment, because I do not want to take the money from any other urgent needs that exist in the world today.

Mr. SHAYS. If the gentlewoman will yield further, you are making me more concerned rather than less by your honesty. Could I ask the gentlewoman to respond to her intent on how she will be looking to fund this issue? This is the one program that is in fact working in Iraq. No one disputes it. We can dispute everything else, but not this. My interest is what your intentions are in the future as it relates not to Iraq in general or military forces, but the CAP agency program?

Mrs. LOWEY. Mr. Chairman, reclaiming my time, I would like to make it very clear to my good friend from Connecticut, just as they had $100 million and then an additional $95 million in the last supplemental, I certainly would intend to fund this outstanding program in the next supplemental that will be before us in September to continue their important work.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Connecticut (Mr. SHAYS).

The amendment was rejected.

AMENDMENT OFFERED BY MR. TIERNEY

Mr. TIERNEY. Mr. Chairman, I offer an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. TIERNEY:

Page 40, line 26, after the dollar amount, insert ''(increased by $75,000,000) (reduced by $75,000,000)''.

The Acting CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Massachusetts (Mr. TIERNEY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Massachusetts.

Mr. TIERNEY. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, today I rise to ask support for a rather straightforward budget-neutral amendment that will meaningfully contribute to our campaign against international terrorism and serve the long-term national securities interests of the United States.

My amendment would provide an additional $75 million for basic education programs directly reaching Pakistani children through the U.S. Agency for International Development or provided through local and international nongovernmental organizations offering reliable and effective basic education services. In doing so, the amendment serves long-term United States national security interests by helping to give Pakistani children an educational alternative to extremist, jihadi-teaching madrassas.

I am pleased that the Chair of the Foreign Operations Subcommittee has agreed to accept this amendment. In their bill and committee report, the gentlewoman from New York and the rest of the members of the committee have recognized the importance of basic education assistance to our country's long-term national security interests. This amendment would complement and build off of those important efforts, and I thank the gentlewoman from New York for her willingness to work with me and accept my amendment.

The 9/11 Commission described a ''generational struggle'' against international terrorism, stressing the importance that any offensive efforts ''be accompanied by a preventative strategy.'' They also noted, ''It is hard to overstate the importance of Pakistan in the struggle against Islamic terrorism'' and urged the United States Government to support in Pakistan ''a comprehensive effort that extends from military aid to support for better education.'' Unfortunately, we have not yet gone far enough in that regard.

In December of 2005, the 9/11 Commission's Public Discourse Project gave the United States Government a D grade for not doing enough to support secular education. It noted, ''United States assistance to Pakistan has not moved sufficiently beyond security assistance to include significant funding for education efforts.'' And just a few months ago, our own State Department concluded, ''Pakistan remains a major source of Islamic extremism.''

This is precisely the time that we should be spending substantially more on education, where we should be broadening and deepening our relationship with the Pakistani people with aid that reaches directly into the Pakistani homes.

This amendment is an important first step in this endeavor by providing an extra $785 million infusion for basic education directly to Pakistani children, an extra $75 million that would come on top of Pakistani education funding already in the bill and what we have provided for before.

This amendment provides this additional $75 million for basic education by reprogramming existing funds within the Economic Support fund account; $50 million of the total $75 million will be drawn from that part of the Economic Support fund that provides direct budgetary support for the Pakistani Government.

Over the last several years, the Pakistani Government has been receiving hundreds of millions of dollars per year in a cash transfer. This amendment would ensure that $50 million of those funds be reprogrammed to ensure they reach Pakistani children and not simply be handed over to the Pakistani Government without direction. The other $25 million of the $75 million total would come from the nonbudgetary support component of the Economic Support fund.

All of us hope to support the Pakistani people in their efforts to achieve a stable, prosperous and free nation. But our national security interests here are much more acute. Will we be safe over the next 5, 10 or 20 years as thousands of more young people learn jihad at extremist madrassas instead of learning real-world skills to become productive citizens in their communities and in our shared world?

When asked about this amendment, former 9/11 Commission Vice Chairman Lee Hamilton responded, ''Increased U.S. funding for basic education provided by the Tierney Pakistan Education Assistance Amendment will send a powerful message that we are committed to a better future for young Pakistanis and to supporting alternatives to radical Islamic education. Sending this kind of a message is hugely important to the future of America's relationship with the people of Pakistan and our efforts to combat radical Islam.''

It is past time to heed the 9/11 Commission's warning by fighting terrorism at its source, by stopping the process of extremism before it can

begin, by helping the children of Pakistan to have an alternative to extreme madrassas. That should be at the core of our long-term national security strategy, that is what this amendment is all about.

Again I thank the gentlewoman from New York for accepting this amendment. I look forward to working with her to see that this additional funding for basic education programs directly reaching Pakistani children is retained in conference.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I rise to accept this amendment. I thank the gentleman for his interest in basic education in Pakistan. As the gentleman knows, I have been a firm believer in basic education for a long time. The bill includes a total of $750 million for basic education programs.

The gentleman recently went to Pakistan. I had the privilege of going to Pakistan and visited the earthquake zones, and in fact I had the privilege of opening a school in the earthquake zone. These beautiful young girls looked at me and said, can you send us science teachers? Can you send us computers? We know this experience can be replicated thousands of times around the world.

So I really do appreciate the gentleman's commitment to basic education, and I look forward to working with the gentleman and accept his amendment.

Mr. TIERNEY. Mr. Chairman, if the chairwoman will yield, I want to again say I was in Pakistan at the same time that you were, approximately, and you witnessed, as did we, exactly what you are talking about. This is a great effort, to be able to go in the right direction, to put in public education as an alternative to the madrassas.

I thank you for the fine work you have done, and your committee as well.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Massachusetts (Mr. TIERNEY).

The amendment was agreed to.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I yield to the gentleman from California (Mr. CARDOZA) for the purpose of a colloquy.

Mr. CARDOZA. Mr. Chairman, I want to thank the gentlelady from New York for her work with me on this.

Mr. Chairman, by way of brief background, there is a strong and vibrant minority community of Christians in Iraq. Some the oldest Christians in the world are these various sects: The Assyrian Church of the East, the Assyrian Church of the East Ancient, the Assyrian Evangelical, the Syriac Orthodox, the Syriac Catholic, the Coptic Church, the Armenian Catholic, the Armenian Evangelical, the Armenian Orthodox, and the Chaldean have their origins in Iraq and other Middle Eastern countries such as Iran, Turkey and Syria.

Like other ethnic minorities residing in the Middle East, throughout their history these various sects have been used as pawns by major powers in the region. Unfortunately, their Christian faith has made them targets and they frequently have been subjected to harassment and violence throughout the region.

In particular, the regime of Saddam Hussein was particularly brutal in their treatment of Christians. Because of their religion and because the majority of Christians opposed Saddam's regime, many of their leaders were assassinated and subjected to arbitrary detention.

The war in Iraq exacerbated this situation and further endangers the faith of this group. It is estimated that as many as 40,000 Iraqi Christians, 5 percent of the faithful, have left the country since the war has begun. While Iraqi Christians make up just 3 percent of the overall population, reports are that Christians make up more than 20 percent of the refugee exodus to Syria, and there are mounting fears that if Iraq becomes an Islamic theocracy, the exodus will accelerate.

My congressional district, the 18th District of California, happens to be home to a large Assyrian population. I have heard the horror stories from some in my district, and I am committed to ensuring that the interests of the Assyrians and the broader Christian community are well protected in the new Iraq.

I have taken numerous steps to protect the rights of the minority. In particular I have written a letter on the subject to Secretary Rice and have implored her to use all means available to ensure that the rights of this group are respected.

To further enhance our ability to protect these people, it is my understanding that there is report language in this bill which urges that $10 million in the recently enacted supplemental be targeted towards helping the Christian community in Iraq. I want to work with the chairwoman and the rest of the members of the committee to ensure that this money goes for its intended purpose of protecting this community and does not get diverted to other issues.

Mrs. LOWEY. Mr. Chairman, I thank my friend from California (Mr. CARDOZA) for bringing this important matter to the attention of the committee. This type of government-sponsored terrorism was a hallmark of Saddam Hussein's rule and cannot continue. It was endemic. Unfortunately, it seems that the practice continues, and I continue to worry that our assistance may not be benefiting the intended recipients.

I too am concerned about the plight of the Christian minority, and I am dedicated to using whatever tools we have available to ensure their rights are given due consideration.

Furthermore, I want to note for my colleagues that the recent supplemental included a requirement for a report on the ethnic and geographic distribution of the United States assistance programs reaching the Nineveh Plain region, which should give us a clearer picture of the situation facing Iraqi Christians.

I want to assure my friend that I, and I know my ranking member, who cares passionately about these issues, will work closely with the Congressman to ensure that this $10 million does go for its intended purpose of protecting the Christian minority in Iraq.

Mr. CARDOZA. Mr. Chairman, I thank the gentlewoman for her help on this issue and for her agreement to work towards ensuring that the money goes to alleviate the suffering of the Christian community in Iraq. This community has lived in this part of the world for over 1,000 years, and we must do our part to ensure that they live there for 1,000 more.

Mr. WOLF. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I thank the gentleman. Congresswoman ANNA ESHOO is interested in this and a lot of others, and I thank the Chair for accepting the Kirk amendment in the full committee.

I looked for you yesterday. What I wanted to ask you to do was to offer an amendment on the floor, and I know the gentlewoman would have accepted it, of another $100,000, or $1 million, for the Chaldean Christians, and get a roll call vote on it; because colloquies are colloquies, but a roll call vote is a roll call vote.

AID has failed to address this issue. We have asked them a number of times. They tell us that we can't be targeting with regard to certain ethnic groups, and it has never been a satisfactory answer. So it is too late now, but it would have been a good thing to do. In fact, this Congress and this government, we have abandoned the Christians in the Middle East. We have pretty much walked away and the Christian community in the Middle East is declining.

So you are on to something, and hopefully you can find a way in another bill or in the supplemental perhaps to offer to work with the gentlewoman to have an amendment, and then you offer an added $100,000 or $1 million or whatever you think is appropriate, and then ask for a roll call vote so the entire Congress is on record, because you are right on target.

I want to thank you, and we will work with you and help you in any way possible. But a roll call vote of 435–0 would send a message to the AID people that they would have to face and focus on.

Mrs. LOWEY. Mr. Chairman, I would like to assure my good friend from California, and, of course, my ranking

member, that we together will make it clear that this is an urgent issue, and the amendment in the committee validated the urgency of the issue. I know we will continue to work together to address this.

I thank the gentleman for bringing this up, and, of course, I respect the interest and passion of my ranking member. We will be following up, and there will be attention given to this issue.

Mr. WOLF. Mr. Chairman, I thank the gentlewoman. I think that comment really sends a message. Obviously AID is watching this debate right now, and for the Chair of the committee to say that, they have actually gotten the message. So I thank the Chair.

Mr. CARDOZA. If the gentleman would yield briefly, I would say I did look for the gentleman on the floor yesterday as well, but we must have missed each other in our search. I thank the gentleman for his comments in the Rules Committee where I raised this issue initially. I look forward to working with the gentleman in the future. I will look for opportunities, together we will look for opportunities, to send a continuing message that this population is important, not just to the Middle East, but to this country as well, and it is important for us to assist and invest in this community.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I am very pleased to yield to my good friend, the gentleman from New York (Mr. MEEKS) for an important statement.

Mr. MEEKS of New York. Madam Chairman, I don't have any amendment at the desk, but I do wish to rise in support of the 2008 State and Foreign Operations Appropriations Act and to commend the committee, particularly the chairwoman from New York, for the fine work that has been done to get the bill to this point.

I want to bring attention to a very important aspect of the bill: funding for trade capacity building. This bill raises the Federal appropriation level to $214 million. That is $87 million more than the administration requested.

Obviously there are many different points of view on trade in this body, but I think all of us can agree that we must do everything possible to enable developing countries to facilitate trade with the world.

Most people think of trade infrastructure projects when they think of trade capacity. But facilitating trade goes well beyond that. These funds will help developing countries with labor and environmental law enforcement and provide technical assistance for better trade access in remote areas.

Trade capacity assistance is a relatively new tool in the trade arena, but it has recently played an important role in the implementation of trade and will continue to play a critical role as we consider several free trade agreements with developing countries that are eligible to receive capacity building from our Nation.

I thank the chairwoman for maintaining the commitment to trade capacity funds in recent agreements, and I hope to work closely with the committee on follow-up and oversight of trade capacity funds, past and in the present.

Hopefully, in the near future, we will have the opportunity to consider this on the floor with countries such as Peru, Panama and Colombia. All of these nations need trade capacity assistance, but Colombia is arguably the country with the most intense and persistent challenges.

I look forward to working closely with the committee and USAID to see that we dedicate some of the increased funds in this bill to help Colombia meet critical needs, like assistance for its Fiscalia, the Office of the Attorney General. The Fiscalia bears the overwhelming responsibility of continuing the progress towards security and peace in Colombia, with investigations of murders and kidnappings, particularly those of labor leaders, and managing the legal process of the demobilization of paramilitaries and the FARC. The Fiscalia needs as much support as we can offer it if it is going to expeditiously carry out the hundreds of investigations and legislative demands that it must meet as an independent agency of justice.

I hope my colleagues who share my concern over violence in Colombia, particularly in remote areas populated by African Colombians and attacks against labor leaders, will support the 2008 Foreign Operations bill and join me in calling for trade capacity funds specifically dedicated to those countries who are cooperating with us to make strides toward a more secure hemisphere.

□ 1330

Mrs. LOWEY. Mr. Chairman, I want to thank my friend from New York for bringing attention to these important issues. As you know, the former Chair of this committee, Mr. Kolbe, has been a leader on trade, and continues to share with us the importance of trade as we move forward in this process.

I thank you very much for focusing on his very important legacy. He was a great partner for me working together on this committee, and I also appreciate your mentioning Colombia and the fact that we changed the balance of funding in this bill, putting more resources in the Fiscalia. When I was there, it was clear to me that they didn't have enough people to enforce the law to go after the narcotraffickers, so this was an important area, in addition to increasing funding for interdiction. Justice, rule of law, interdiction, and funding for the Afro-Colombians, and we know there has been a tremendous need. Thank you for your work. I look forward to working together. I know that my colleagues realize how important these issues are as well.

Mr. MEEKS of New York. I thank the gentlewoman.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

I rise to enter into a colloquy about the need for increased funding for the United States contribution to the Comprehensive Test Ban Organization with the gentlewoman from California (Mrs. TAUSCHER).

Mrs. TAUSCHER. If the gentlewoman would yield?

Mrs. LOWEY. I am happy to yield.

Mrs. TAUSCHER. Mr. Chairman, I rise to enter into a colloquy with the distinguished chairwoman of the Foreign Ops appropriations bill about the need for increased funding for the United States contribution to the Comprehensive Test Ban Treaty Organization called CTBTO.

I had planned to offer an amendment to fund the CTBTO at least to the administration's request of $18 million for fiscal year 2008; but I would just like to make a few points for the record.

As you know, the administration's fiscal year 2008 budget request calls for $18 million for the U.S. contribution to the CTBTO. Unfortunately, the Foreign Operations appropriations bill would shift $8 million of the administration's already inadequate request to another account, leaving only $10 million for U.S. funding for CTBTO test ban monitoring.

The administration's request already falls well short of what is necessary to make up for past funding shortfalls that threaten to slow or stop the construction and operation of the test ban treaty organization's international monitoring system.

In 2002, the Bush administration unilaterally decided not to support the U.S. portion, approximately $800,000 per year, of the on-site inspection component of the CTBTO verification activities. The administration, which does not support ratification and entry into force of the Comprehensive Test Ban Treaty, argues that because the on-site inspection will only be available upon the entry into force of the treaty, the United States should not contribute.

For fiscal year 2006, the Bush administration requested and Congress approved only $14.4 million for the CTBTO, which was $7 million short of the $22 million assessed by the organization.

The continuing resolution covering most fiscal year 2007 spending set U.S. funding for the CTBTO at the fiscal year 2006 level, which was $9 million short of the United States $23.4 million assessment.

Compounding the problem last month, the Bush administration unilaterally decided to obligate only $10 million of the $14.4 million appropriated by Congress. As a result, the U.S. is now in arrears to a total of $28.3 million.

We are the single largest contributor to CTBTO, and our shortfalls will have a significant impact. The United States failure to pay its share will directly affect the CTBTO's ability to complete construction and certify for use the remaining stations in the international monitoring system, including those in more remote and strategic regions such as Turkmenistan, which lies just north of Iran.

I am sure that the gentlewoman from New York (Chairman LOWEY) shares my deep concern that the United States is underfunding the CTBTO as the danger of Iran's nuclear program grows as these fundings continue to deplete and we are not able to keep up with our obligations.

Unless Congress increases funding for the U.S. contribution, these shortfalls that have accumulated over the last 7 years will continue to undermine the effort to complete a global monitoring network and conduct data analysis designed to detect and deter nuclear weapons test explosions.

Mrs. LOWEY. Mr. Chairman, I am very pleased that my good friend from California brought this issue to our attention.

I really want to thank you for your work on CTBTO, and I agree with you that the United States should show leadership and pay our full share of obligations that it owes to the CTBTO.

The bill tries to draw balance between the various programs funded within the nonproliferation antiterrorism account, but I understand the concerns my friend has raised and these are concerns of the committee. There are many members of the committee who are working very hard on this issue, and it is my intention to continue to work with you as the bill moves through the process.

Mrs. TAUSCHER. Mr. Chairman, I appreciate the chairwoman's attention to this matter and her distinguished and significant leadership on this issue, and I look forward to working with her on this as the bill goes forward and in the conference.

Once again, I appreciate having a colloquy. I think these are very important issues, especially since I hope we will get to ratify the Comprehensive Test Ban Treaty and our obligations are significant to make sure that we have this global monitoring effort.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

(c) The provisions of section 628 of this Act shall apply to funds appropriated under this heading: *Provided*, That notwithstanding any provision of this or any other Act, including provisions in this subsection regarding the application of section 628 of this Act, local currencies generated by, or converted from, funds appropriated by this Act and by previous appropriations Acts and made available for the economic revitalization program in Bosnia may be used in Eastern Europe and the Baltic States to carry out the provisions of the Foreign Assistance Act of 1961 and the Support for East European Democracy SEED Act of 1989.

INTERNATIONAL FUND FOR IRELAND

For necessary expenses to carry out the provisions of chapter 4 of part II of the Foreign Assistance Act of 1961, $15,000,000, which shall be available for the United States contribution to the International Fund for Ireland and shall be made available in accordance with the provisions of the Anglo-Irish Agreement Support Act of 1986 (Public Law 99–415): *Provided*, That such amount shall be expended at the minimum rate necessary to make timely payment for projects and activities: *Provided further*, That funds made available under this heading shall remain available until September 30, 2009.

ASSISTANCE FOR EASTERN EUROPE AND THE BALTIC STATES

(a) For necessary expenses to carry out the provisions of the Foreign Assistance Act of 1961 and the Support for East European Democracy (SEED) Act of 1989, $297,332,000, to remain available until September 30, 2009, which shall be available, notwithstanding any other provision of law, for assistance and for related programs for Eastern Europe and the Baltic States.

(b) Funds appropriated under this heading shall be considered to be economic assistance under the Foreign Assistance Act of 1961 for purposes of making available the administrative authorities contained in that Act for the use of economic assistance.

(c) The provisions of section 628 of this Act shall apply to funds appropriated under this heading: *Provided*, That notwithstanding any provision of this or any other Act, including provisions in this subsection regarding the application of section 628 of this Act, local currencies generated by, or converted from, funds appropriated by this Act and by previous appropriations Acts and made available for the economic revitalization program in Bosnia may be used in Eastern Europe and the Baltic States to carry out the provisions of the Foreign Assistance Act of 1961 and the Support for East European Democracy SEED Act of 1989.

(d) The President is authorized to withhold funds appropriated under this heading made available for economic revitalization programs in Bosnia and Herzegovina, if he determines and certifies to the Committees on Appropriations that the Federation of Bosnia and Herzegovina has not complied with article III of annex 1–A of the General Framework Agreement for Peace in Bosnia and Herzegovina concerning the withdrawal of foreign forces, and that intelligence cooperation on training, investigations, and related activities between state sponsors of terrorism and terrorist organizations and Bosnian officials has not been terminated.

ASSISTANCE FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION

(a) For necessary expenses to carry out the provisions of chapters 11 and 12 of part I of the Foreign Assistance Act of 1961 and the FREEDOM Support Act, for assistance for the Independent States of the former Soviet Union and for related programs, $397,585,000, to remain available until September 30, 2009: *Provided*, That the provisions of such chapters shall apply to funds appropriated by this paragraph: *Provided further*, That funds made available for the Southern Caucasus region may be used, notwithstanding any other provision of law, for confidence-building measures and other activities in furtherance of the peaceful resolution of the regional conflicts, especially those in the vicinity of Abkhazia and Nagorno-Karabagh: *Provided further*, That notwithstanding any other provision of law, funds appropriated under this heading in this Act or prior Acts making appropriations for foreign operations, export financing, and related programs, that are made available pursuant to the provisions of section 807 of Public Law 102–511 shall be subject to a 6 percent ceiling on administrative expenses.

(b) Of the funds appropriated under this heading, not less than $52,200,000 should be made available, in addition to funds otherwise available for such purposes, for assistance for child survival, environmental and reproductive health, and to combat HIV/AIDS, tuberculosis and other infectious diseases, and for related activities.

(c)(1) Of the funds appropriated under this heading that are allocated for assistance for the Government of the Russian Federation, 60 percent shall be withheld from obligation until the President determines and certifies in writing to the Committees on Appropriations that the Government of the Russian Federation—

(A) has terminated implementation of arrangements to provide Iran with technical expertise, training, technology, or equipment necessary to develop a nuclear reactor, related nuclear research facilities or programs, or ballistic missile capability; and

(B) is providing full access to international non-governmental organizations providing humanitarian relief to refugees and internally displaced persons in Chechnya.

(2) Paragraph (1) shall not apply to—

(A) assistance to combat infectious diseases, child survival activities, or assistance for victims of trafficking in persons; and

(B) activities authorized under title V (Nonproliferation and Disarmament Programs and Activities) of the FREEDOM Support Act.

(d) Section 907 of the FREEDOM Support Act shall not apply to—

(1) activities to support democracy or assistance under title V of the FREEDOM Support Act and section 1424 of Public Law 104–201 or non-proliferation assistance;

(2) any assistance provided by the Trade and Development Agency under section 661 of the Foreign Assistance Act of 1961 (22 U.S.C. 2191 et seq.);

(3) any activity carried out by a member of the United States and Foreign Commercial Service while acting within his or her official capacity;

(4) any insurance, reinsurance, guarantee or other assistance provided by the Overseas Private Investment Corporation under title IV of chapter 2 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2191 et seq.);

(5) any financing provided under the Export-Import Bank Act of 1945; or

(6) humanitarian assistance.

INDEPENDENT AGENCIES

INTER-AMERICAN FOUNDATION

For necessary expenses to carry out the functions of the Inter-American Foundation in accordance with the provisions of section 401 of the Foreign Assistance Act of 1969, $19,000,000, to remain available until September 30, 2009.

AFRICAN DEVELOPMENT FOUNDATION

For necessary expenses to carry out title V of the International Security and Development Cooperation Act of 1980, Public Law 96–

533, $30,000,000, to remain available until September 30, 2009: *Provided*, That funds made available to grantees may be invested pending expenditure for project purposes when authorized by the Board of Directors of the Foundation: *Provided further*, That interest earned shall be used only for the purposes for which the grant was made: *Provided further*, That notwithstanding section 505(a)(2) of the African Development Foundation Act, (1) in exceptional circumstances the Board of Directors of the Foundation may waive the $250,000 limitation contained in that section with respect to a project and (2) a project may exceed the limitation by up to $10,000 if the increase is due solely to foreign currency fluctuation: *Provided further*, That the Foundation shall provide a report to the Committees on Appropriations after each time such waiver authority is exercised.

PEACE CORPS

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the provisions of the Peace Corps Act (75 Stat. 612), including the purchase of not to exceed five passenger motor vehicles for administrative purposes for use outside of the United States, $333,500,000, to remain available until September 30, 2009: *Provided*, That none of the funds appropriated under this heading shall be used to pay for abortions: *Provided further*, That the Director may transfer to the Foreign Currency Fluctuations Account, as authorized by 22 U.S.C. 2515, an amount not to exceed $2,000,000: *Provided further*, That funds transferred pursuant to the previous proviso may not be derived from amounts made available for Peace Corps overseas operations.

MILLENNIUM CHALLENGE CORPORATION

For necessary expenses for the ''Millennium Challenge Corporation'', $1,800,000,0000, to remain available until expended: *Provided*, That of the funds appropriated under this heading, up to $95,000,000 may be available for administrative expenses of the Millennium Challenge Corporation: *Provided further*, That up to 10 percent of the funds appropriated under this heading may be made available to carry out the purposes of section 616 of the Millennium Challenge Act of 2003 for candidate countries for fiscal year 2008: *Provided further*, That none of the funds available to carry out section 616 of such Act may be made available until the Chief Executive Officer of the Millennium Challenge Corporation provides a report to the Committees on Appropriations listing the candidate countries that will be receiving assistance under section 616 of such Act, the level of assistance proposed for each such country, a description of the proposed programs, projects and activities, and the implementing agency or agencies of the United States Government: *Provided further*, That section 605(e)(4) of the Millennium Challenge Act of 2003 shall apply to funds appropriated under this heading: *Provided further*, That funds appropriated under this heading may be made available for a Millennium Challenge Compact entered into pursuant to section 609 of the Millennium Challenge Act of 2003 only if such Compact obligates, or contains a commitment to obligate subject to the availability of funds and the mutual agreement of the parties to the Compact to proceed, the entire amount of the United States Government funding anticipated for the duration of the Compact.

DEPARTMENT OF STATE

GLOBAL HIV/AIDS INITIATIVE

For necessary expenses to carry out the provisions of the Foreign Assistance Act of 1961 for the prevention, treatment, and control of, and research on, HIV/AIDS, including administrative expenses of the Office of the Global AIDS Coordinator, $4,450,000,000, to remain available until expended, of which $300,000,000 shall be made available, notwithstanding any other provision of law, except for the United States Leadership Against HIV/AIDS, Tuberculosis and Malaria Act of 2003 (Public Law 108–25) for a United States contribution to the Global Fund to Fight AIDS, Tuberculosis and Malaria, and shall be expended at the minimum rate necessary to make timely payment for projects and activities: *Provided further*, That funds made available under this heading and under the heading ''Child Survival and Health Programs Fund'' shall be made available notwithstanding the second sentence of section 403(a) of Public Law 108–25: *Provided further*, That up to 5 percent of the aggregate amount of funds made available to the Global Fund in fiscal year 2008 may be made available to the Office of the United States Global AIDS Coordinator for technical assistance related to the activities of the Global Fund.

AMENDMENT OFFERED BY MR. PITTS

Mr. PITTS. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. PITTS:

In the item relating to ''Global HIV/AIDS Initiative'', strike ''*Provided Further*, That funds made available under this heading and under the heading 'Child Survival and Health Programs Fund' shall be made available notwithstanding the second sentence of section 403(a) of Public Law 108–25:''.

The CHAIRMAN. Pursuant to the order of the House of Wednesday, June 20, 2007, the gentleman from Pennsylvania (Mr. PITTS) and a Member opposed each will control 15 minutes.

The Chair recognizes the gentleman from Pennsylvania.

Mr. PITTS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, United Nations program on HIV/AIDS report estimates that there are 40 million people infected with HIV/AIDS worldwide, and like everyone else, I am deeply saddened by this reality.

However, I am also filled with hope because recent evidence indicates that the current prevention strategy is helping to produce behavioral change that has significantly decreased people's risk of contracting this deadly disease.

The current HIV/AIDS prevention strategy was carefully crafted in the PEPFAR authorization bill to reflect a balanced approach, and the good news is that this balanced approach is working.

The PEPFAR authorization bill, which became law in 2003, included a provision that required one-third of the 20 percent for prevention funding, that is approximately 7 percent of the total PEPFAR funds, to be spent on abstinence and fidelity programs.

Prior to the implementation of this spending directive, the U.S. promoted an unbalanced condoms-only approach. The U.S. remains the largest distributor of condoms in the world. But for the first time the behavior factor is getting real attention under the current program rules. And the result: falling HIV/AIDS prevalence rates in 7 of the 15 focus countries.

The current prevention strategy is based on the comprehensive ABC model, first established in Uganda, developed by Uganda. The ABC model stands for A, abstinence; B, be faithful; C, condoms. A comprehensive, balanced approach.

After implementation of this model in Uganda, the number of young males age 15 to 24 reporting premarital sex decreased from 60 percent in 1989 to 23 percent in 1995. For females, the decline was 53 percent to 16 percent. The program actually helped change the behavior in women and men, a fact I hope my colleagues take seriously.

Opponents of this approach claim that behavioral change is unrealistic. Dr. Edward Green, a researcher at Harvard University, was an opponent of the ABC model and in particular of abstinence until he saw what happened in Uganda. He testified before the Energy and Commerce Committee saying: ''Many of us in the AIDS and public health communities did not believe that abstinence or delay and faithfulness were realistic goals. It now seems we were wrong.''

Not only has Uganda seen a society transformed by behavioral change, we can now add Kenya, Zimbabwe, Ethiopia, Namibia, Tanzania, and Zambia to the list of countries that are experiencing a decrease in HIV/AIDS prevalence rates.

Experts continue to testify to the fact that behavioral change continues to be the key indicator of HIV/AIDS prevention. Yet for some reason, some of my colleagues have decided to make a crucial provision of this successful strategy optional. This crucial provision ensures that the ''abstinence'' and ''be faithful'' components are incorporated into the approach. Never mind the fact that PEPFAR is expected to be reauthorized later this year, and never mind the fact that the reauthorization might be the more appropriate forum to debate this critical component that was agreed to.

Some of my colleagues argue that we need a comprehensive approach, but I remind them that abstinence and fidelity education are fundamental to the comprehensive ABC approach.

Some of my colleagues argue that we need an approach that saves lives. I remind them that the ABC model, with the A and the B spending requirement intact, is continuing to save more and more lives. In countries that have relied predominantly on condom distribution, HIV/AIDS prevalence rates have not improved. Meanwhile, countries that promote behavioral change have seen significant improvement.

Mr. Chairman, a balanced, evidence-based approach is essential if we are going to effectively fight HIV/AIDS in Africa. The current policy is the balanced approach. It is the evidence-based approach. It is the approach that is working. Why change what works?

I urge my colleagues to vote for my amendment and keep abstinence and fidelity in the AIDS program, and in doing so, to vote for an approach that is saving lives.

Mr. Chairman, I reserve the balance of my time.

Mrs. LOWEY. Mr. Chairman, I rise in opposition to the gentleman's amendment.

The CHAIRMAN. The gentlewoman from New York is recognized for 15 minutes.

Mrs. LOWEY. Mr. Chairman, despite the best efforts of our prevention programs, the HIV/AIDS pandemic continues to grow. In 2006, 4.3 million people were infected with the virus; and for every new treatment patient in 2006, six additional people became infected with HIV. If we do not slow the pandemic, treatment costs alone in 2010 could be as high as $11 billion. Unless this trend is reversed, global efforts to expand treatment will falter and our global effort to address the pandemic will fail.

That is why it is so critical to maximize the effectiveness of the $5.062 billion for HIV/AIDS programs provided in this bill and make sure that our prevention programs work.

A recently released Institute of Medicine report entitled, ''PEPFAR Implementation,'' stated: ''The earmark has greatly limited the ability of country teams to develop and implement comprehensive prevention programs that are well integrated with each other and with testing, care, and treatment programs.'' These congressionally mandated funding restrictions are hampering our overall prevention efforts.

□ 1345

Therefore, and I want to make it very clear to my colleague, the bill allows the President to provide funding for HIV/AIDS prevention at his discretion. It does not change the underlying PEPFAR law, nor does it require that the President change the amount of funding for any particular prevention programs. In fact, it doesn't require the President to change the programs at all. The language simply provides flexibility to design the most effective prevention programs.

Effective HIV/AIDS prevention initiatives must be designed to respond to the local social and cultural conditions. These efforts should include all available options, including abstinence programs, comprehensive prevention programs, condom distribution, and medical interventions such as male circumcision and mother-to-child prevention programs to ensure that we use every tool at our disposal to stop this deadly disease.

We know that the only solution to stop the spread of HIV/AIDS is expanded and effective prevention programs. Our bill language again provides the administration with the flexibility to respond to the ever-changing pandemic in the most effective ways without the restrictions of arbitrary numerical targets.

Mr. Chairman, I reserve the balance of my time.

Mr. PITTS. Mr. Chairman, I yield 2 minutes to the gentleman from Michigan (Mr. WALBERG).

Mr. WALBERG. Mr. Chairman, I rise today in support of the amendment offered by my friend and colleague, the gentleman from Pennsylvania (Mr. PITTS), and in support of this evidence-based approach to reducing the spread of HIV and AIDS.

The AIDS epidemic in Africa is a serious problem that demands serious results. However, I also had the privilege of seeing firsthand the success of Uganda's ABC program when I traveled to Uganda a couple of years ago to visit my daughter who's a missionary there and also a health educator dealing specifically with HIV/AIDS. Also meeting with who has now become adopted into our family, Mama Nabali, who is a young woman with three children who has HIV as a result of behavior issues related specifically to a husband who was unfaithful in many, many ways.

It has been interesting to note that in Uganda as well as other countries that are now using the ABC program authorized and pushed by the First Lady and the President, President Museveni of Uganda, in each of those cases there is a significant decline in reported numbers of sexual partners, that's the behavior portion of it, and a significant decline in the numbers of unmarried youth who are sexually active, which is the abstinence portion of it.

Authorizing legislation that requires 33 percent of prevention funds to be spent in abstinence-until-marriage programming is the best way to address this problem because it's a proven, successful method of reducing the spread of HIV/AIDS. There is growing evidence that partner reduction is the single most important factor in reducing HIV/AIDS prevalence rates.

According to the PEPFAR Third Report to Congress, ''Of the countless developments taking place in the global fight against the AIDS pandemic, perhaps the single most important in recent years is the growing number of nations in which there is clear evidence of declining HIV prevalence as a result of changes in sexual behavior.''

Furthermore, no country with a generalized epidemic that has relied on condom prevention alone has reported a decline in HIV/AIDS prevalence rates. Because studies have shown that the abstinence-until-marriage method is producing the best results, I urge my colleagues to consider the merits of the Pitts amendment and support this important and, need I say, life-changing and lifesaving legislation.

Mrs. LOWEY. Mr. Chairman, I am very pleased to yield 2 minutes to the distinguished gentleman from New Jersey, an expert on Africa and so many of the issues that are critical, Mr. PAYNE.

Mr. PAYNE. Thank you very much.

I rise to urge my colleagues to oppose the Pitts amendment that would strike the underlying language that provides flexibility to the President on designing his HIV/AIDS programs.

In 2003, Congress and the President came together to establish the Global HIV/AIDS Initiative. Five years ago, the world was optimistic that we could, with additional funding, start to turn the pandemic around. As we have heard, success has not been as easy as we would have hoped, and over 4 million people were newly infected last year. That is why, in addition to increasing the amount of money we are spending to combat HIV/AIDS, we must take every effort to ensure that we are spending money as wisely as possible.

The chairwoman's bill contains language which gives the President maximum flexibility. There is no empirical data to my knowledge which supports the abstinence-only earmark in P.L. 108–25, the original PEPFAR authorizing legislation. The earmark calls for one-third of all prevention funds to be spent on abstinence-only until marriage. No one has ever explained the rationale for that figure. The provision of flexibility to the President to determine how much money to spend on abstinence-only is way overdue.

I urge my colleagues to vote against the Pitts amendment and to support the chairperson in this endeavor.

Mr. PITTS. Mr. Chairman, at this time I yield to the distinguished gentleman from Florida, Dr. DAVID WELDON, 2 minutes.

Mr. JACKSON of Illinois. Mr. Chairman, may I inquire as to how much time exists on both sides, please.

The CHAIRMAN. The gentleman from Pennsylvania has 8½ minutes. The gentlewoman from New York has 9½ minutes.

Mr. WELDON of Florida. Mr. Chairman, I rise in support of the Pitts amendment. I am concerned with the change in the abstinence policy in the PEPFAR budget to permissive authority for the administration to give grants to abstinence-based programs. I fear that this is a setback to the work we are doing overseas with AIDS relief.

The best way to stop AIDS is to encourage people to abstain from sexual behavior outside of marriage. Last July, southern African AIDS experts and officials listed, and I'm quoting here, reducing multiple concurrent partnerships as their number one priority for preventing the spread of HIV.

I used to treat AIDS patients. I used to practice infectious disease. The reason AIDS exploded through the gay community in this country in the late seventies and the early eighties was because of this phenomenon, having multiple concurrent sexual partners. And the reason Uganda, and you're going to hear Uganda quoted over and over again, was successful in lowering their AIDS incidence from 18 percent to 6 percent, and there was very little foreign aid going in the country at the time they did this, is because they established an education program.

People are rising on the floor today acting like there is no money for anything other than abstinence education. This is a very modest component of the bill. We have a lot of money for prevention. We have money for mother-to-child prevention. We are simply requiring that a third of the money go to what I think is the most cost-effective venue that we could be using.

I would highly encourage my colleagues to support this amendment. I believe right now under the current law, the President has the authority to waive this requirement if the country team asks for it and as I understand some countries have and they have waived the authority. I believe that this language that they changed in PEPFAR is authorizing and this should have been left to the authorizing debate.

I strongly encourage my colleagues to support the Pitts amendment.

Mrs. LOWEY. Mr. Chairman, I am very pleased to yield 3 minutes to the distinguished gentleman from Illinois (Mr. JACKSON).

Mr. JACKSON of Illinois. Mr. Chairman, the language in the bill provides the President flexibility, not mandates. The gentleman's amendment seems to be more interested in bean-counting than saving and treating those with HIV/AIDS. Is it more important to make sure that 33 cents out of every dollar, according to the gentleman's amendment, go to abstinence or that we give the President some flexibility if, that is if, he needs it?

We all know that HIV/AIDS prevention programs must be targeted to the group that we are seeking to influence and when abstinence programs may be appropriate for some groups, including the very young. I want to raise to my colleagues' attention that the underlying language in the bill that provides flexibility enjoys broad support from groups that are working on the ground.

I have a letter from the Elizabeth Glaser Pediatric AIDS Foundation urging a ''no'' vote on the Pitts amendment.

I have a letter from CARE, one of the world's leading NGOs providing AIDS care and prevention services, urging a ''no'' vote on the Pitts amendment.

I have a letter from the General Board of Church and Society of the United Methodist Church urging a ''no'' vote on the Pitts amendment.

I urge my colleagues and their counsel and to vote ''no'' on the Pitts amendment.

In fact, Mr. Chairman, I would like to quote the distinguished ranking Republican member who said this on the floor last night:

''I believe this bill has the potential to do a lot of good, and I want to say that this bill will help save a lot of lives not only here but around the world. This is the work of the Lord. And I know Members are going to come down here and they're going to be against this bill. And I hope that we can change some of the things to prevent a veto, but this bill eventually when it passes, and it will pass, assuming it will be vetoed, is really about feeding the poor, the hungry, the naked and the sick. Almost a better title would be the Matthew 25 bill. So it has the potential to do a lot of good and I hope to work with the chairwoman to ensure the State Department has what it needs to do these things.''

Matthew 25 is very clear, Mr. Chairman:

Then the king will say to those on his right, ''Come you who are blessed by my father, take your inheritance, the kingdom prepared for you since the creation of the world. For I was hungry and you gave me something to eat, I was thirsty and you gave me something to drink, I was a stranger and you invited me in, I needed clothes and you clothed me, I was sick and you looked after me, I was in prison and you came after me.''

Then the righteous will answer him, ''Lord, when did we see you hungry and feed you? Or thirsty and give you something to drink? When did we see a stranger and invite you in? Or needing clothes and clothe you? When did we see you sick or in prison or did we go visit you?''

The king will reply, ''I will tell you the truth, whatever you did for one of the least of these, my brethren, you did it unto me.''

Mr. Chairman, the people need medicine, not self-righteousness. Reject the Pitts amendment.

Mr. PITTS. Mr. Chairman, I didn't know I was going to get a biblical lesson here, but I would just ask the man rhetorically, is abstinence biblical? Is faithfulness biblical? That's what we're speaking on behalf of.

I yield 2 minutes to the gentleman from Nebraska who is a member of the Africa Subcommittee, Mr. FORTENBERRY.

Mr. FORTENBERRY. Mr. Chairman, I rise in favor of the Pitts amendment. This amendment will save lives. The President's Emergency Plan for AIDS Relief, commonly known as PEPFAR, is the largest bilateral foreign assistance program dedicated to mitigating the HIV/AIDS crisis worldwide. The plan places special emphasis on the 15 countries in Africa, Asia and the Caribbean which account for approximately 50 percent of the world's HIV infections.

If the U.S. is to remain the world's leader in saving lives from the devastation of AIDS, it's time to look at the track record and see what works well. Demographic and health surveys show that HIV/AIDS prevalence rates in at least 7 of the 15 PEPFAR focus countries is declining. Countries such as Uganda, Zambia and Senegal have success stories to showcase and something to teach us. In these nations and others experiencing declines in the prevalence of HIV/AIDS, it is through indigenous programming that respects the local cultural milieu and social norms that figure prominently.

In Uganda, for example, prevalence rates among pregnant women fell from approximately 20 percent in 1991 to 6 percent in the year 2000. Between 1991 and 1998, HIV prevalence rates among 15- to 19-year-olds fell by 75 percent, from approximately 21 percent to 5 percent.

While causal factors behind the prevalence declines are complex and should not be oversimplified, it is clear that the success stories in Uganda, Zambia, Senegal and elsewhere all incorporate the same common denominator, an emphasis on abstinence and fidelity, as critical elements in successful interventions.

□ 1400

As it stands, this appropriations bill would potentially reverse the most significant element of this success by diminishing the emphasis on abstinence and fidelity. This issue is much too serious to prevent the outright dismissal of compelling clinical evidence that in-country programming emphasizing abstinence and fidelity can effectively reduce the prevalence of HIV and AIDS.

Mrs. LOWEY. Mr. Chairman, I yield 2 minutes to the distinguished member of the committee, the gentlewoman from Minnesota (Ms. MCCOLLUM).

Ms. MCCOLLUM of Minnesota. Mr. Chairman, I rise today to urge my colleagues to oppose the Pitts amendment.

HIV/AIDS is devastating Africa and other parts of the developing world. We all share that. We share that knowledge. We can be proud that the United States is leading the way in addressing the global AIDS pandemic. We are providing support for millions of people through treatment, care and prevention programs.

But we need to take a very practical approach, and the bill before us does that by including the language that gives the President flexibility to implement prevention programs that fit the country's current AIDS pandemic.

I thought it was very compelling to hear the story that was just shared on

the floor by my Republican colleague about how a wife had become infected, not because of her behavior, but because of her husband's behavior.

I am particularly concerned about the 40 percent of new HIV/AIDS infections in youth between the ages of 15 and 24. Women and girls make up 60 percent of all the infections, and 76 percent of the infections among those are between the ages of 15 and 24. Now, abstinence could be an option, but we know that marriage is not a protective factor.

Listen carefully to this: over the next 10 years, more than 100 million girls in the developing countries will be married before their 18th birthday, some as young as age 14, mostly to older men, often against their will. These are forced child brides.

These girls will have a significantly higher rate of HIV infection than their peers who are sexually active and their unmarried peers.

We should give these young girls the opportunity to protect themselves, to save their own lives. I believe that we must make sure that our prevention programs address their needs and provide alternatives. For these young girls and women, abstinence is just not an option. They need programs that provide them with full information to protect themselves. We, in Congress, must do all that we can to stop child marriage; but, in the meantime, we need to protect these young women.

I urge my colleagues to oppose the Pitts amendment.

Mr. PITTS. Mr. Chairman, I yield the balance of my time to the gentleman from New Jersey (Mr. SMITH), who is ranking member of the Africa Subcommittee.

Mr. SMITH of New Jersey. Mr. Chairman, I rise in strong support of the Pitts amendment.

As an original cosponsor of the President's $15 billion, 5-year law to combat HIV/AIDS in Africa, I rise in strong opposition to the language in the bill that undermines and dismisses the successful HIV/AIDS prevention spending requirement in the PEPFAR legislation.

Where the epidemic has spread among the general population, the only successful evidence-based approach to HIV/AIDS prevention is that which emphasizes abstinence before marriage and faithfulness in relationships, and, lastly, where necessary, condoms.

The success of the ABC approach depends on the proper balance between these three elements. The spending requirement is necessary to attain that balance.

The vast majority of PEPFAR's focus countries have generalized epidemics; and those that have emphasized A and B, abstinence and being faithful programming, have experienced significant increases in the number of youth and adults who are either abstaining or being mutually faithful, and, at the same time, they have seen significant drops in those countries, in the percentage of their population infected with HIV/AIDS.

Examples of countries that have aggressively promoted abstinence and fidelity at the national level, backed by real resources, and have experienced decreased HIV rates include Uganda, Senegal, Jamaica, Thailand, Zambia, Zimbabwe, Dominican Republic and Kenya.

On the other hand, no country with a generalized epidemic that has relied primarily on condom promotion has reported a decline in HIV rates. Southern Africa is a tragic example of this.

The Washington Post on March 2 pointed out that ''researchers increasingly attribute the resilience of HIV in Botswana, and in Southern Africa generally, to the high incidence of multiple sexual relationships . . . [Western AIDS experts] brought not just ideas, but money, and soon billboards in Botswana touted condoms. Schoolchildren sang about them. Cadres of young women demonstrated how to roll them out. The anti-AIDS partnership between the . . . Gates Foundation and drugmaker Merck budgeted $13.5 million for condom promotion, 25 times the amount dedicated to curbing dangerous sexual behavior. But soaring rates of condom use,'' The Washington Post went on, ''have not brought down high HIV rates. Instead, they rose together until both were among the highest in Africa.''

As indicated in The Washington Post report, those who are considered AIDS experts in the West, including some of those who directed U.S. prevention funding prior to PEPFAR, imposed their narrow-minded condom promotion mentality on Africa.

The PEPFAR coordinator, on the other hand, Ambassador Mark Dybul, testified last fall that the 33 percent prevention spending requirement ''has helped support PEPFAR's field personnel in appropriately broadening the range of prevention efforts . . . In addition, the directive has helped PEPFAR to align itself with the strategies of the host nations, of which ABC is a key element.''

In a letter to the editor of Lancet, June 2006, the Minister of Health of Namibia noted that PEPFAR support for AB, abstinence and faithful, is needed to ensure the balance of the ABC programs that Namibia seeks. That is because, he goes on to say, other international donors support only condoms but not abstinence or being faithful programs.

Finally, let me say that even with the spending requirement, the United States remains by far the largest condom distributor in the world.

If our goal here is to save lives by implementing the strongest evidence-based prevention programs possible, we should be at least maintaining, and I would suggest increasing, the percentage of funding directed to abstinence and to being faithful programs. It works, it has proven that it works, and I support the Pitts amendment.

Mrs. LOWEY. I am very pleased to yield 2 minutes to my distinguished friend from Connecticut (Mr. SHAYS).

Mr. SHAYS. I thank the gentlelady for yielding to me.

I oppose the Pitts amendment. I support strongly the attempt by the subcommittee to give the President flexibility to implement prevention programs that fit the countries' current AIDS epidemic. I salute the President's Emergency Plan For AIDS Relief. I have been to Africa, Uganda, and Tanzania to see how the program works.

Everyone I spoke with pleaded with us to make sure that there was more emphasis on not A, B, but on C, condoms. Young children were asking that this be a factor in their schools. They said sex is going to happen no matter what you say. No matter what you say about abstinence or be faithful, it's going to happen. It is particularly disconcerting to think that someone who has chosen one partner and loves that partner, not knowing that that partner has been unfaithful, and, in fact, has AIDS, transmitting that disease to, in most cases, a young woman.

This makes eminent sense. I would like to think that we could get our religious beliefs out of this issue, not talking practically, but talking realistically. If you want to prevent deaths, you need to allow more condoms.

If you want to save lives, you need to allow more condoms. If you want to prevent pregnancies, you need to allow more condoms. If you don't want so much interest on other things like whether there should be abortion, you need to have condoms.

I weep thinking young kids go to school without teachers and go home without parents. We need to be doing more in Africa to spend our money better.

Thank you, Mrs. LOWEY, for what you have done to give the President of these United States the flexibility with his team that puts PEPFAR into operation.

Mr. WOLF. Mr. Chairman, I move to strike the requisite number of words.

The CHAIRMAN. The gentleman is recognized for 5 minutes.

Mr. WOLF. Mr. Chairman, I rise in support of the Pitts amendment.

First of all there is the flexibility; there is ability to waive. I hope Mr. PITTS will cover that.

Let me read you what Ambassador Mark Dybul said. He said recent data from Kenya, Zimbabwe and urban Haiti show decline in HIV prevalence. A new

study has concluded that these reductions and prevalence do not simply represent the natural course of these nations' epidemics, but can only be explained by changes in sexual behavior. This demonstrates the power of behavior changes to save lives and the importance of support for effective behavior change intervention.

If people from my old neighborhood back in southwest Philadelphia heard this debate that the Congress was debating ''faithful'' in this, is it a good idea or a bad idea, they would say, what is going on?

As Mr. PITTS said, I would argue too that he is right. I think Biblical faithfulness is a Biblical principle. Faithfulness is a very good principle. Does anyone disagree? Now we are debating abstinence? We are saving lives.

So there is flexibility. So there is a fake argument here. There is the ability to waive; and what we are doing here, we could talk about different things, they are underlying agendas. We are talking about basically are we going to save lives. Are we going to save lives.

I will stipulate that Mark Dybul has forgotten more about this than this Congress knows. Because of that, I will urge an ''aye'' vote for the Pitts amendment to save lives.

Mr. Chairman, I yield the balance of my time to my friend from Pennsylvania.

Mr. PITTS. Mr. Chairman, there is flexibility in the existing program. Countries can apply for a waiver. Every country that has applied has received a waiver. Our friends say that all they want to do is provide flexibility and more condoms.

Well, for 20 years of fighting AIDS, the bureaucrats who run these programs tried the same approach over and over again. It never worked. When Uganda came up with a comprehensive approach that would, they still opposed it.

Well, the buck stops here in Congress, and we told them in 2003 to do what works, and it's working. Without this amendment, this bill will allow them to go back to the failed policies of the passed. So many on the other side are saying we need to listen to the other experts on the ground; we need to follow their advice.

That's true. They even raise this point with the Centers for Disease Control in a letter signed by several of my colleagues on the other side of the aisle, including the distinguished subcommittee chairwoman, Mrs. LOWEY. That letter highlighted the report that was written by the world's leading HIV/AIDS experts, was endorsed by more than 100 leaders from 36 countries, people like the President of Uganda, people like Archbishop Desmond Tutu and the HIV/AIDS director of the World Health Organization, researchers from Johns Hopkins and other leading medical institutions.

Allow me to quote from what these people, the experts, are saying about what's working to reduce AIDS prevalence: ''When targeting young people or those who have not started sexual activity, the first priority should be to encourage abstinence or delay of sexual onset, hence emphasizing risk avoidance as the best way to prevent HIV and other sexually transmitted infections, as well as unwanted pregnancies.'' Abstinence, behavior change, that is what the experts are stressing. I agree, the experts know best.

They are saying that a comprehensive approach that includes behavioral change is crucial to winning the fight against AIDS.

Mr. WOLF. Would the gentleman yield?

Mr. PITTS. I would yield.

Mr. WOLF. Would the gentleman be saying Archbishop Desmond Tutu would be basically supporting your amendment?

Mr. PITTS. That's the quote that I read from the statement he signed.

Mr. WOLF. Nobel Prize winner Bishop Tutu from South Africa supports the amendment.

Mr. PITTS. That's correct.

Mr. WOLF. I mean, is there a greater expert, from both moral and understanding than that?

Did the gentleman say there have been waivers granted?

Mr. PITTS. That's correct. Every country that requested waivers has received one.

□ 1415

Mr. WOLF. Every single country. I think the gentleman has made the case.

I yield to the gentleman.

Mr. PITTS. Mr. Chairman, I submit for the RECORD the copies of the letters and the statement.

CONGRESS OF THE UNITED STATES,
Washington, DC, January 7, 2005.

Hon. JULIE GERBERDING,
Director, Centers for Disease Control and Prevention, Clifton Road, Atlanta, GA.

DEAR DR. GERBERDING: On November 27, 2004, the Lancet published a statement entitled ''The Time Has Come for Common Ground on Preventing Sexual Transmission of HIV.'' Signed by more than 100 religious, political, health and scientific leaders from across the developed and developing world, this statement called for an end to ''polarizing debate'' and urged the international community ''to unite around an inclusive evidence-based approach to slow the spread of sexually transmitted HIV.'' We are writing to ask whether you support this statement.

The statement describes key elements of successful HIV prevention. These include:

1. Ensuring prevention activities are grounded in the science of epidemiology, supported at the local level, and respectful of human rights;

2. Promoting abstinence among those young people who are not yet sexually active, encouraging mutual monogamy among sexually active adults, and helping individuals who engage in high-risk activities to stop;

3. Encouraging correct and consistent condom use among individuals who are engaging in high-risk activities and those who are sexually active with a partner whose HIV status is unknown;

4. Expanding prevention programs for young people both in and out of school, supporting parents ''in communicating their values and expectations about sexual behavior''; and

5. Employing community-based approaches that involve religious organizations, women's and men's organizations, care groups, youth organizations, health workers, local media, and traditional and governmental leadership.

The statement also notes that expanding access to services for testing, counseling and treatment of HIV/AIDS and other sexually transmitted infections, preventing mother-to-child transmission, and enhancing access to family planning services are all essential in order to achieve the prevention, care and treatment objectives of the President's Emergency Plan for AIDS and other global initiatives. It endorses continuing review of potential interventions such as microbicides, new antibiotic treatments, and vaccines.

The statement was written by several of the world's leading HIV experts, and endorsed by more than 100 leaders in the fight against AIDS from 36 countries across a range of disciplines. Notable endorsers include: Uganda's President Yoweri Museveni, Archbishop Desmond Tutu of the Anglican Church of Southern Africa, UN Special Envoy for HIV/AIDS in Africa Stephen Lewis, and HIV/AIDS Director at the World Health Organization Jim Kim.

The statement has also been endorsed by representatives from the World Bank; the Global Fund to Fight AIDS, Tuberculosis, and Malaria; and the heads of HIV/AIDS programs in several countries including Ethiopia, India, Jamaica, and Uganda. Leaders and representatives from major faith- and community-based nongovernmental organizations from the United States and around the world also back the statement.

Given the broad international and domestic support for the Lancet statement and the importance of collaboration in AIDS prevention efforts worldwide, we would like to know whether you, as a key leader in this administration in combating HIV/AIDS, support this statement.

We would appreciate a response by January 24, 2005.

Sincerely,

Henry A. Waxman, Ranking Minority Member, Committee on Government Reform, House of Representatives; Nita M. Lowey, Ranking Minority Member, Subcommittee on Foreign Operations, Export Financing and Related Programs, Committee on Appropriations, House of Representatives; Fortney Pete Stark, Ranking Minority Member, Subcommittee on Health, Committee on Ways and Means, House of Representatives; Sherrod Brown, Ranking Minority Member, Subcommittee on Health, Committee on Energy and Commerce, House of Representatives; Barbara Lee, Chair, Global AIDS Initiative, Congressional Black Caucus, House of Representatives.

Jesse L. Jackson, Jr., Member of Congress; Betty McCollum, Member of Congress; Howard L. Berman, Member of Congress; Lois Capps, Member of Congress; Richard J. Durbin, U.S. Senator.

JUNE 18, 2007.

DEAR REPRESENTATIVE: We are writing on behalf of the United States Conference of Catholic Bishops (USCCB) and Catholic Relief Services (CRS) to express deep concern regarding two provisions in the State/Foreign Operations appropriations bill, which the full House may soon debate. First, the bill would nullify the current 7 percent allocation (one-third of HIV and AIDS prevention funds) for abstinence-before-marriage programs in the President's Emergency Plan for AIDS Relief (PEPFAR). These programs have proven to be very effective in Africa as part of a larger strategy that focuses on overall behavior change. We consider it unwise to abandon this strategy through the Appropriations process and urge you to support any effort to reverse this provision.

The other fundamental defect is language in Section 622 rescinding the Mexico City Policy, which prevents U.S. family planning assistance from being channeled through groups that perform and promote abortion as family planning. On this issue we urge you to follow the counsel by our Bishops' Conference offered in a companion letter.

The Catholic Church is deeply committed to U.S. leadership on the issue of HIV and AIDS prevention and treatment. At home and around the world, and particularly through the experience of Catholic Relief Services in 12 of the 15 PEPFAR focus countries and many others, principally in Africa, the Church is deeply involved in offering life-saving help to people threatened by HIV and AIDS. This is not about ideology; it is about saving lives. In this common effort, we would urge the following steps to advance the U.S. commitment to address the spread of HIV and AIDS: Do not abandon the consensus that underpins U.S. leadership.

PEPFAR, at its heart, is about coming to the aid of some of our most vulnerable sisters and brothers. PEPFAR legislation was carefully negotiated and reflects a consensus on how best to proceed and on what works in HIV and AIDS prevention. By setting aside the requirement that 33 percent of prevention funding focus on ''abstinence-before-marriage,'' Congress is summarily rejecting sound evidence and experience of what actually works in reducing HIV and AIDS.

Abandoning this approach through the Appropriations process, rather than through the process of reauthorizing PEPFAR, is also unwise, premature and counter-productive. This is an important issue that requires careful consideration of evidence and experience accumulated over a period of years. We and others on the front lines look forward to making our full case about the effectiveness of abstinence, behavior change, and partner reduction as ways to help save lives through the regular authorization process of hearings and deliberation. This is where decisions should be made in the interest of sound policy and on behalf of the lives and dignity of those who are most affected by HIV and AIDS.

USCCB and CRS were major supporters of the PEPFAR initiative when it was first announced in 2003. Since then, we have been actively engaged in education and advocacy to support major new investments in the U.S. commitment to fight the global pandemic. As we prepare for the reauthorization of PEPFAR legislation, attempts to abandon the current approach will seriously threaten consensus needed to expand U. S. leadership on this issue. It would be tragic if efforts to abandon this effective approach put at risk the consensus and momentum for increased U.S. commitment and investment in this life-saving initiative.

We strongly urge the Committee to retain designated funding for prevention of sexually transmitted HIV through abstinence and fidelity education.

PEPFAR included a 7 percent allocation (one-third of HIV and AIDS prevention funds) for abstinence-before-marriage programs. The State/Foreign Operations appropriations bill abandons this commitment, even though there is a global shortage of funding available for this critical and effective method for preventing sexually-transmitted HIV.

Since 2003, CRS has been one of the largest and most successful partners in PEPFAR. In its extensive experience and in the documented experience of others, only an approach to sexually transmitted HIV prevention that has sufficient funding for a behavior change strategy based on abstinence, partner reduction, and faithfulness education has yielded meaningful advances in stopping the spread of HIV. Educating youth on the risks they may face and providing them with good ''life skills'' so that they can make good, sound decisions, actually saves lives. Evidence shows that the HIV and AIDS prevalence rates in at least 7 of the 15 PEPFAR Focus Countries are declining—and in every such case, there is a significant decline in the reported numbers of sexual partners and in the number of unmarried youth aged 15–24 who are sexually active.

There is no evidence that an increase in the use of condoms alone, without abstinence and behavior change interventions, has reduced the rate of AIDS cases. Our experience leads us to strongly reaffirm the need for designated funding for abstinence-until-marriage, funding that was virtually non-existent before PEPFAR. Without funding for such programs, human lives, particularly in Africa, may be further threatened. A recent Washington Post article presents concrete evidence in this regard, affirming that in the case of Botswana, ''soaring rates of condom use have not brought down high HIV rates. Instead, they rose together, until both were among the highest in Africa'' (''Speeding HIV's Deadly Spread,'' Washington Post, March 2, 2007; p. A1).

Congress has responded to the health needs of the poor around the world with generosity. We ask that you support any effort to restore the PEPFAR-mandated allocation for ''abstinence-until-marriage'' funding. In addition, we urge you to fully fund this important investment in preventing HIV infections and saving lives, and not let it be sidetracked into diversionary battles. Now is the time for new investment, not re-fighting old battles.

With appreciation for your continued support for addressing the critical health needs of the poor around the world, we remain,

Sincerely yours,

THOMAS G. WENSKI,
Bishop of Orlando, Chairman, Committee on International Policy.

KEN HACKETT,
President, Catholic Relief Services.

Mrs. LOWEY. Will the gentleman yield?

Mr. WOLF. I yield to the gentlewoman.

Mrs. LOWEY. I would just like to clarify and ask either the ranking member or the gentleman a question. Number one, I'm puzzled that you don't trust the President of the United States and give him the discretion. We're not changing the law. We're just giving the President the discretion. Now, that's Number one.

Number two, I believe both gentlemen said that waivers can be issued. Of course waivers can be issued. I believe the gentlemen know that when a waiver is granted the other countries may make up the difference. So, for example, if waivers are granted to 50 percent of the countries, I think of my trip to Arusha, Tanzania. And there was a hut right in the middle of this community, a Masai village, and there were 15 huts around it. And the chief of that village went from hut to hut to hut, spreading HIV/AIDS.

Now, I'd be interested to know how this would work if the waivers are granted, and many of the other communities around the world have to make up for that waiver, how would this be done.

And the gentleman, Number three, has also talked about a comprehensive program. Well, we may agree. I believe in abstinence. I think it's great. And if it can be implemented in Africa and Asia and all the other countries that are spreading HIV/AIDS like wildfire, I'm perfectly in support. But we're talking about comprehensive programs, including abstinence. And I'm glad the gentleman agrees that this should be comprehensive programs including abstinence. Would you like to respond?

Mr. WOLF. I will yield to the gentleman first.

Mr. PITTS. The only thing your amendment would do is remove the A and the B from the ABC model.

Mrs. LOWEY. No, excuse me. There's confusion in the amendment. My amendment would give the President the authority, the President of these United States, with Ambassador Dybul, to make these decisions. We're not removing anything.

Mr. PITTS. And the President could remove the A and the B, and just have the C. And when Ambassador Dybul was asked if any of the countries wanted waivers, they all said no.

Mrs. LOWEY. May I inquire of the Chair how much time is remaining?

The CHAIRMAN. The gentlewoman has 30 seconds remaining on her time.

Mrs. LOWEY. I move to strike the last word. And I'm pleased to yield 2 minutes to the gentlewoman from California (Ms. LEE).

Ms. LEE. Let me thank our chairwoman for yielding and for her leadership, and just say, as one of the authors of the PEPFAR legislation, I actually helped write the majority of this legislation. I can tell you that while I did not agree nor support the 33 percent earmark, I know for a fact that this does not undo that earmark.

Let me just tell you a couple of things. You probably have heard, and you know that over the next 10 years,

more than 100 million girls in developing countries will be married before their 18th birthday, and often against their will.

As currently written, the bill does not change the underlying abstinence-until-marriage earmark. For me that's unfortunate, but it doesn't change that. And it does not require the President to make any changes to current prevention funds. The current language merely provides the President with the flexibility to plan the most appropriate and sensitive and required program for countries per their request.

The fact is, the administration has already waived, you're right, application of the abstinence earmark for certain countries receiving assistance under our global AIDS programs. But I want you to remember, ABC does mean abstinence, be faithful, use condoms.

For many of these young girls, abstinence is not an option. And we must provide them with what they need to protect themselves. ABC is ABC.

The Lowey language provides a very practical, commonsense, 1-year fix, mind you, 1 year. And it gives the President the authority to program global AIDS funding according to local country needs. Ultimately, it will be up to the President to determine whether to exercise this flexibility.

This amendment, Mr. PITTS, it really does render a death sentence to millions of girls and their children and their babies.

So I urge my colleagues to vote against restricting the ability of the President to save lives. And that's what this amendment would do. And so I hope that all of the posturing and all of the ideological debate today really comes down to the fact that we believe, all of us believe in ABC: Abstinence, be faithful, use condoms.

And as I said, I helped write this bill. And I was much opposed to this earmark, but, believe me, I know that this does not remove it.

And so I urge my colleagues to oppose the Pitts amendment.

Mrs. LOWEY. Mr. Chairman, I'm very pleased to yield 1 minute to the distinguished gentlewoman from California (Mrs. CAPPS).

Mrs. CAPPS. Mr. Chairman, I rise in opposition to this amendment, and I thank the chairwoman of the Foreign Operations Committee for her leadership in this area.

My life has been devoted to public health, to bettering it. And this amendment is bad public policy wherever it will affect lives. It forces, actually, bad public health policy and removes the flexibility to opt for better allocation of public health services.

PEPFAR is extremely important to our fight against the transmission of HIV/AIDS and our treatment of the 40 million people living worldwide with this disease. But as the Institutes of Medicine and GAO have both reported, country teams have been greatly limited in their ability to provide effective lifesaving services by the restriction that has been placed for the past several years.

I applaud Chairwoman LOWEY for lifting this restriction by allowing PEPFAR funds to be spent where they are actually needed in order to accomplish the program's goal.

We spent all last week listening to complaints about a lack of responsible spending. Quite frankly, making the amount of funds available for proven effective public health programs dependent upon spending for unproven, ineffective programs is the epitome of irresponsible spending.

So I urge my colleagues to oppose this amendment, to support responsibility.

Mrs. LOWEY. I thank the gentlelady. I believe I have 2 minutes, Mr. Chairman?

The CHAIRMAN. The gentlewoman has 30 seconds under the 5-minute rule, and an additional 30 seconds under her original 15 minutes, a total of 1 minute.

Mrs. LOWEY. Mr. Chairman, I just want to clarify for my distinguished ranking member and my colleague from Pennsylvania that what this does is give the President of the United States of America the authority, the flexibility.

I believe in ABC, abstinence, be faithful, use condoms. But I want to make it very clear to my colleagues, when the administration uses the waiver, then the other countries of the world still have to meet that one-third percent when it comes to prevention, abstinence. All we're saying, again, is abstinence, be faithful, use condoms.

We have to prevent unnecessary abortions. We have to save lives. We have to make sure that we do whatever we can to prevent the spread of HIV/AIDS.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Pennsylvania (Mr. PITTS).

The question was taken; and the Chairman announced that the noes appeared to have it.

Mr. PITTS. Mr. Chairman, I demand a recorded vote.

The CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Pennsylvania will be postponed.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word for the purpose of a colloquy with the distinguished former Speaker, Mr. HASTERT.

The CHAIRMAN. The gentlewoman is recognized for 5 minutes.

Mr. HASTERT. Mr. Chairman, I rise to engage in a colloquy with Chairwoman LOWEY and Ranking Member WOLF.

I thank the gentlelady and Ranking Member WOLF for working with me throughout this process on an important issue that I have worked on for many years and that's Plan Colombia.

As you know, Colombia is a critical U.S. ally in the region, and it's in our interest to cultivate this partnership to ensure that Colombia remains strong.

I sincerely appreciate the chairwoman's efforts to address my concerns about the overall cuts to the program, particularly given the constraints of the bill. However, I still have concerns about funding levels provided for the Colombian aviation programs, as well as some of the certification requirements contained in the bill.

Alternative livelihood, which the chairwoman is very interested in, and I am too, and other developmental projects are certainly vital to our overall effort in Colombia, but they can only be successful in areas where the Colombian Government maintains territorial control.

That being said, I would like to continue working with the chairwoman and ranking member to address some of these issues as we move forward to conference.

Madam Chairman, once again, I thank you and I look forward to working with you as the process continues.

Mrs. LOWEY. Reclaiming my time, to my friend the former Speaker, I want to thank you for the collaborative way you have worked with me and our ranking member, Mr. WOLF. I would like to commend you for your many years of dedicated and unyielding work on Colombia.

I, as you, have long been deeply concerned about the situation facing us in the war on drugs. We agree that increasing drug interdiction efforts is necessary. We also agree that Colombia is a vital partner and ally of the United States.

I want to say again that I fully recognize the strategic importance of Colombia. In no way does this bill reduce our steadfast support to our friends in Colombia.

I've tried, in this bill, working with my good friend, Mr. WOLF, to strike a more balanced strategy that shifts the aid from the military and strengthens civilian governments, humanitarian assistance and rural development.

I continue to believe that we need to attack the underlying and pervasive poverty that is at the root of the problems in Colombia, as well as the region. I've attempted to increase the social component in our assistance to Colombia and begin Colombianization of the the military package and place a greater emphasis on interdiction rather than eradication.

This bill also increases funding for judges, prosecutors and rule of law and creates jobs in the legal economy.

Again, I say to my good friend from Illinois, I greatly appreciate your advice, the give-and-take you have provided as we drafted this bill. I want to

assure the gentleman that the committee will continue to pay close attention to his concerns as we work through the next stages of the process.

Mr. WOLF. Would the gentlelady yield?

Mrs. LOWEY. I would be happy to yield to the gentleman from Virginia.

Mr. WOLF. I want to join my colleagues in continuing to work on the important issue. U.S. assistance to Colombia has been directly responsible for bringing stability to the country. The people of Colombia couldn't travel freely, but now they can. The security is due to Plan Colombia. I appreciate the Speaker's hard work over the years on this issue.

I want to thank Mrs. LOWEY, Chairwoman LOWEY for really being very open and taking all the time to kind of work this out.

Mr. HASTERT. If the gentlewoman would continue to yield. I too would just like to say thank you for your hard work, and I'm honored to continue to work with you on this issue. Thank you very much.

Mrs. LOWEY. I thank the gentleman. And it was a pleasure working with you, and I look forward to continuing to work together on this important issue.

ANNOUNCEMENT BY THE CHAIRMAN

The CHAIRMAN. Pursuant to clause 6 of rule XVIII, proceedings will now resume on those amendments on which further proceedings were postponed, in the following order:

An amendment by Mr. LINCOLN DIAZ-BALART of Florida.

An amendment by Mr. WOLF of Virginia.

An amendment by Mr. SHAYS of Connecticut.

An amendment by Mr. GARRETT of New Jersey.

An amendment by Ms. FOXX of North Carolina.

An amendment by Mr. PITTS of Pennsylvania.

The Chair will reduce to 2 minutes the time for any electronic vote after the first vote in this series.

□ 1430

AMENDMENT OFFERED BY MR. LINCOLN DIAZ-BALART OF FLORIDA

The CHAIRMAN. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Florida (Mr. LINCOLN DIAZ-BALART) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 254, noes 170, not voting 13, as follows:

ANNOUNCEMENT BY THE CHAIRMAN

The CHAIRMAN (during the vote). One minute remains in this vote.

□ 1518

Mr. ALTMIRE changed his vote from ''aye'' to ''no.''

So the amendment was rejected.

The result of the vote was announced as above recorded.

Mrs. LOWEY. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I yield to the gentleman from Massachusetts (Mr. LYNCH).

Mr. LYNCH. Mr. Chairman, I thank the chairwoman, and I rise for the purpose of engaging in a colloquy with the gentlewoman from New York.

First of all, Madam Chairman, I would like to thank you for your efforts to increase funding for nonproliferation, anti-terrorism, demining and related programs.
