Britain did this in 2001. We have got 6 years’ experience under Britain, the way it has worked in Britain, and it has worked just fine in Britain.

The minority party has come to the curious position, after more than 200 years of experience in American democracy, of thinking the Congress, the Members of the House of Representatives and the other body, elected by the people should be mere advisers, an advisory body to the President, and that anyone appointed by the President necessarily must be wiser and more knowledgeable than the folks who are actually elected by the people.

Mr. Chairman, we were elected by the people. We are speaking for the people. We are acting on their behalf. This amendment will undermine democracy in the boardroom in corporate America, and it will undermine democracy in our government, and I urge we vote against it.

Mr. ROSKAM. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, it is interesting, the majority has now slipped into I think the same arguable bad habit that the chairman accused us of, because now the SEC has been criticized as Presidential appointees lacking the wisdom that Congress has.

Let’s just discuss this amendment for a minute, because I really do think it is a good amendment. It gets to the heart of this matter. And it basically, for purposes of our discussion today, Mr. Chairman, it accepts, I think, the premise of the chairman. It says, here we go. Let’s go back to the underlying bill and just focus our conversation for a minute. The underlying bill says, let’s put a nonbinding referendum on the ballot. The chairman has made a number of arguments in favor of it. But the gentleman from Georgia, essentially says, in this amendment, okay, let’s do that, but first, just hit the

pause button. Just put the pause button on just for a bit and let the Securities and Exchange Commission, who, over the past day or so of debate, have risen to the point of almost Superman status, they have been so widely complimented and called wise and so forth by the other side of the aisle. Let’s ask that commission what their opinion is. Let’s study it. Let’s look at it. And if, if, if, they say no problem, then there is no problem. No harm, no foul.

□ 1000

The bill is put into place and on we go. But if the Securities and Exchange Commission says that public companies enter into a competitive disadvantage because of this, then ought we not consider that? Shouldn’t we then hit the stop button? Because we have heard the other side get up on the floor today and over the past few days and talk about the free market and how they are in favor of capitalism, and we have heard the gentleman from Oregon a couple of minutes ago telling us that the reason that companies are going to Europe is somehow because they don’t have shareholder rights, and the logic was so dizzying, I couldn’t even follow it.

But accepting everything that the other side says for the sake of argument is then implicit in accepting this amendment. Because all this amendment says, and let’s be very clear about it, is it simply says hit the pause button for 90 days. Just wait 90 days. So let’s assume for the sake of argument that this blows through the Senate. Let’s assume for the sake of argument that it is signed into law on June 1. I would submit to you between June 1 and September 1 we can wait to take the temperature to find out if this is a good idea or if somehow this hinders us competitively.

Mr. CROWLEY. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I appreciate what we are doing here today. This is important, I think, for the American people to understand the critical role that Congress plays here in providing transparency and openness and helping corporate America do what they do best, and that is to generate and grow our economy.

But I rise in opposition to my friend, the gentleman from Georgia’s, amendment. And I do so because, it is interesting, there seems to be a double-speak, Mr. Chairman, coming from the other side of the aisle. On the one hand they say that there is too much government involvement, and at the same time their amendment would add another layer of government involvement, a further study that would slow this whole process down.

I don’t understand what is wrong with transparency. Transparency in our markets is what makes our markets so attractive to investors, to investors who want to know what is

going on within that publicly traded company.

This amendment would make the effective date of the bill conditional on the SEC's performance of a study to determine the effect of shareholder vote requirements on the ability of issuers to recruit and retain executives. The bill would not take effect if the SEC finds the vote would "significantly hinder issuers' recruitment and retention of executives."

In effect, this is a way to kill the bill without voting against the bill. It would permit the SEC and the business executives to effectively veto the Congress with a study.

This amendment would make non-binding shareholder votes on compensation subject to an SEC study and the SEC's finding.

And I should just remind our friends on the other side that Congress does not generally make laws that apply only if agencies make certain findings.

I would also note for the record that this amendment was defeated in committee by a vote of 27 yeas to 32 nays with 1 present, therefore a vote against this amendment.

And again I just want to come back to what I talked about before, and it relates as well to the Putnam amendment, and that is what is wrong with transparency? What is wrong with those individuals, moms and pops, moms who are soccer field moms, understanding what their investment is doing, how their investment dollars are being spent?

If the other side of the aisle wants to continue to align themselves with the Bob Nardellis and the Ken Lays of the world over Joe and Mary Six-Pack, so be it. But I would just point out that I think that the American stockholders would like to know what is happening in corporate America.

I wonder how many stockholders in GE understood that when Jack Welch retired as a CEO, what that package actually entailed. GE shareholders would provide him with a "lifetime access to company facilities and services comparable to those which are currently made available to him by the company," that they are unconditional and irrevocable. And don't forget about the use of an \$80,000 per month Manhattan apartment owned by the company, aka the shareholders. I wonder how many shareholders know that they are supplying a rent-free apartment for Jack Welch in Manhattan; courtside seats at the New York Knicks and U.S. Open; seats at Wimbledon; box seats, and, Mr. FRANK, I hope you will forgive me, at the Red Sox-Yankees baseball games; country club fees.

Who paid for all this and who continues to pay for all this? The shareholders, who are the individual citizens, pension funds, 401(k)s. We the people who invest in these public corporations are the ones who pay for all

this. Is it right that we pay for this and have no ability to learn about it or no ability to really hold these public corporations accountable? I don't think so.

The other side of the aisle seems to think that is okay and that is how corporate America should conduct itself.

I believe that shareholders have the right to know what the full compensation packages, the total compensation packages, of the employees running their, the shareholders', companies. And it goes back to Mr. PUTNAM's amendment again. What we need to oppose is this amendment, as well as the Putnam amendment, because it injects the government too far into the board rooms, creates new hassles for corporate America, and it disrespects and ignores the owners of shareholders, the constituency of those executives as well as our constituents that we represent.

So I oppose this and the Putnam amendment.

Mr. GARRETT of New Jersey. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I just come to the floor to rise to answer the question that the gentleman from the other side just raised as far as the information that the shareholders have the right to know, and I agree with him completely. The shareholders do have a right to know what is going on in the corporations that they are investing in.

When you think about it, what should be the ultimate objective of any of the legislation that we are addressing here today or any of the amendments that we are addressing here today? And that, I think, is to make sure that the shareholders, A, have information, and, B, have the best return on their investment possible, whether we are talking about senior citizens who are relying upon their investments for their pensions and their security for their remaining days and they have to make absolutely certain that these investments are good investments because this is what they are relying on because they are no longer working or whether these are young people who are just starting out and are beginning to put a way a little money for their children for their education 5, 10, 15, 20 years down the road.

They want to be sure that their investments have a good return as well. They want to have information as well. Or maybe it is somebody in their middle years, such as myself, 40, 47 years old. We want to make sure that the money that we set aside for our retirement is going to be there and that we are getting a good return. So we want information as well. So the gentleman on the other side of the aisle is correct when he says we need to know that information.

Well, that is exactly what this amendment does. This is to provide

more information. And that is exactly what the SEC has already done with their proposed rules and regulations as far as providing more information to the American investor as far as the pay packages that are going to CEOs.

So let's step back again and see what is already out there. The SEC has initiated proceedings to make sure that the investor, whether it is a senior citizen, middle-income family, or a young person starting out, has the information that should be available to them. And I commend the gentleman from Georgia because he is following on in that tradition of making sure investors have additional information. Because what do we not want to do by any legislation that passes through this House? What we should not want to do is to hurt the investor. What we should not want to do is to add costs to the system that are unnecessary. What we should not want to do is hurt that senior citizen by adding a burdensome process to the system that will actually diminish the value of his or her current investments.

What we should not want to do is hurt that young family just starting out putting money aside for their children's education by hurting the investments that they have already made. The underlying language in this bill has the potential to do that. This amendment by the gentleman from Georgia (Mr. PRICE) will alleviate that problem.

This amendment simply asks to investigate, to study, to find out, to perform, to provide transparency, if you will, to the system to make sure that whatever we do here is for the benefit of the investor in the long run.

I will just close on this: the other day I had my own amendment, which says that, like the other side of the aisle, we too on this side of the aisle agree that some of the pay packages that we read about in the media seem egregiously high or very excessive and what have you and we have our questions about them as well; but like this amendment and my amendment that came yesterday, we all want to do the same thing and make sure that at the end of the day the investor is not hurt by the actions of the other side of the aisle or by Congress, but are helped.

Mr. FRANK of Massachusetts. Mr. Chairman, I move to strike the requisite number of words.

Let me begin with the gentleman from New Jersey's worrying that the investor might be hurt by what we would do. I guess the motto of investor in this case should be "Stop me before I vote again."

How are we going to hurt the investor? We are going to say to those investors, You know the information that is going to be presented to you because the SEC mandated that companies do it? You get to say whether you approve or disapprove of that proposal.

That is going to hurt the investor? Are investors so much in need of protection from themselves that they must be prevented from voting on this?

This is part of the problem. It is an inversion of capitalism here. The CEOs don't own the company. The boards don't own the company. The shareholders own the company. They are the market. And all this bill does is to empower them.

By the way, when the gentleman from Illinois says we are rushing in, he has a very different definition of "rushing in" than I do. This takes effect in 2009. We, in fact, were approached by some, the Business Roundtable. They still don't like the bill.

Mr. PRICE of Georgia. Mr. Chairman, will the gentleman yield?

Mr. FRANK of Massachusetts. I yield to the gentleman from Georgia.

Mr. PRICE of Georgia. Mr. Chairman, I appreciate the gentleman for yielding.

Given that it has that implementation date, which I think is appropriate, and given that my amendment asks for a study for a period of 90 days, is there any reason why the gentleman would oppose the amendment?

Mr. FRANK of Massachusetts. Yes. And reclaiming my time, I will tell him what it is. If all this asks for was for the SEC to study it, I would support the amendment. And section B, "The commission shall conduct a study," I would be glad to support that. Indeed, the commission could do that on its own. What I object to is a point has been made before and it is constitutional, Congress being made to wait for permission from the regulatory agency to do things.

So, again, and I appreciate the gentleman, but I do want to go back to the error of the gentleman from Illinois when he said we had to hit the pause button. This does not take effect until 2009. We are not rushing into anything. And we delayed the effective date at the request of the Business Roundtable so there would be no burden in paperwork on the company.

Between now and 2009, if the SEC wants to do a study, it can do a study. If you want to mandate that they do it, I would be glad to mandate that, although the SEC has been somewhat overworked. The difference is, and the reason I object is, this says that Congress will not go forward with what most of us on our side, and many on the other side, think is a good idea until the SEC gives us permission. I do not think constitutionally we should await permission from the regulatory agency.

By the way, the gentleman from Illinois, I don't understand. He wants to find an inconsistency, and when he can't find one, somehow he manufactures one. I never said the SEC was all wise and all knowing. He is caricaturing things that weren't even said.

What I did was to acknowledge that the SEC has moved here and the SEC, I do want to remind my colleagues, is in Washington. All this rhetoric about no mandates from Washington is wholly inconsistent with the affirmation of the SEC's having correctly proposed the information.

I would also say to the gentleman from Georgia, I was not struck by the fact that he and the gentleman from Illinois differ. It has been clear to me for some time. I have been on the committee. The gentleman from Georgia and his Republican colleagues often differ, and I will say in the spirit of the French assembly "vive la difference." I encourage people to differ with the gentleman from Georgia. I would hardly chide them for it.

□ 1015

What I was responding to is the gentleman from Illinois accusing me of misstating the views of the gentleman from Georgia, and I am glad the gentleman from Georgia cleared that up.

But back to the main point. We have until 2009. Yes, the SEC has the right to study this if it wants to. And if this was simply a mandate that the SEC study it, it would be a different story. But saying that the bill is contingent on the SEC's finding seems to me constitutionally unwise. That's why I would not support it as is, but I would support a modified version.

Mr. Chairman, I will yield to the gentleman from Illinois.

Mr. ROSKAM. Mr. Chairman, my only point is that the 2009 date, and that is a fair observation on your part that it's not going to happen tomorrow, but if this becomes law, it's going to happen no matter what. So even if the SEC comes up and sends a signal flair and says, hey, this is going to be a train wreck, this is going to be a real problem; and we're going to see more and more companies either going private, unwilling to go public, which is sort of the subtext of a lot of what's going on, or ultimately going to Europe, my point is that this will not stop.

Mr. FRANK of Massachusetts. Let me take back my time.

Two points. First of all, I do want to respond to this really terrible argument that this might drive companies to go private. Do Members realize, Mr. Chairman, how viciously that attacks the CEOs? That argument says this: A CEO faced with the possibility of people voting on his or her salary will take that company private. I think that is a terrible thing to say.

Secondly, if the SEC makes a recommendation, we are here to listen to it.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Georgia (Mr. PRICE).

The question was taken; and the Acting Chairman announced that the ayes appeared to have it.

Mr. FRANK of Massachusetts. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Georgia will be postponed.

ANNOUNCEMENT BY THE ACTING CHAIRMAN

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, proceedings will now resume on those amendments on which further proceedings were postponed, in the following order:

Amendment No. 13 by Mr. SESSIONS of Texas.

Amendment No. 5 by Mr. GARRETT of New Jersey.

Amendment No. 2 by Mr. CAMPBELL of California.

Amendment No. 7 by Mr. MCHENRY of North Carolina.

Amendment No. 9 by Mr. PRICE of Georgia.

Amendment No. 11 by Mr. PUTNAM of Florida.

Amendment No. 8 by Mr. PRICE of Georgia.

The Chair will reduce to 5 minutes the time for any electronic vote after the first vote in this series.

AMENDMENT NO. 13 OFFERED BY MR. SESSIONS.

The Acting CHAIRMAN. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Texas (Mr. SESSIONS) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 13 offered by Mr. SESSIONS:

Page 6, line 13, strike the close quotation marks and following period and after such line insert the following new paragraph:

"(3) DISCLOSURE OF ACTIVITIES TO INFLUENCE VOTE.—Notwithstanding paragraphs (1) or (2)(B), a shareholder's vote shall not be counted under such paragraphs if the shareholder has spent, directly or indirectly, more than a de minimis amount of money (as determined by the Commission) on activities to influence a vote of other shareholders unless such shareholder discloses to the Commission, in accordance with rules prescribed by the Commission—

"(A) the identity of all persons or entities engaged in such a campaign;

"(B) the activities engaged in to influence the vote; and

"(C) the amount of money expended on such a campaign."

RECORDED VOTE

The Acting CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 177, noes 222, not voting 39, as follows:

[Roll No. 236]

□ 1044

Ms. SOLIS, Ms. VELÁZQUEZ and Mrs. CAPPS and Messrs. CLEAVER, ALTMIRE, MCNERNEY and DINGELL changed their vote from “aye” to “no.”

Mr. ROGERS of Alabama changed his vote from “no” to “aye.”

So the amendment was rejected.

The result of the vote was announced as above recorded.

Stated against:

Ms. CARSON. Mr. Chairman, on April 20th I was not able to cast the first in a series of votes on H.R. 1257. Had I been available, I would have voted no on Roll No. 236.

AMENDMENT NO. 5 OFFERED BY MR. GARRETT OF NEW JERSEY

The Acting CHAIRMAN. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from New Jersey (Mr. GARRETT) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 5 offered by Mr. Garrett of New Jersey:

Page 4, line 13, strike “Any proxy” and insert “Subject to paragraph (3), any proxy”.

Page 5, line 6, strike “In any proxy” and insert, “Subject to paragraph (3), in any proxy”.

Page 6, line 13, strike the close quotation marks and following period and after such line insert the following:

“(3) CONDITIONS TRIGGERING VOTE.—The shareholder vote requirements of this subsection shall only apply if the executive compensation (as disclosed pursuant to the Commission’s compensation disclosure rules) exceeds by 10 percent or more the average compensation for comparable positions—

“(A) in companies within the issuer’s industry; and

“(B) among companies with comparable total market capitalization,

as determined in accordance with regulations issued by the Commission.”.

RECORDED VOTE

The Acting CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The Acting CHAIRMAN. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 155, noes 244, not voting 39, as follows:

[Roll No. 237]

ANNOUNCEMENT BY THE ACTING CHAIRMAN
The Acting CHAIRMAN (during the vote). Members are advised 2 minutes remain in this vote.

□ 1052

So the amendment was rejected.
The result of the vote was announced as above recorded.

Stated for:
Mr. MCHENRY. Mr. Chairman, on rollcall No. 237 I was inadvertently detained. Had I been present, I would have voted "aye."

Mr. PETERSON of Pennsylvania. Mr. Chairman, on rollcall No. 237 I was unavoidably detained. Had I been present, I would have voted "aye."

Stated against:
Ms. MOORE of Wisconsin. Mr. Chairman, on rollcall No. 237, had I been present, I would have voted "no."

AMENDMENT NO. 2 OFFERED BY MR. CAMPBELL OF CALIFORNIA

The Acting CHAIRMAN. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from California (Mr. CAMPBELL) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The text of the amendment is as follows:

Amendment No. 2 offered by Mr. CAMPBELL of California:

Page 4, line 13, strike "Any proxy" and insert "Subject to paragraph (3), any proxy".

Page 5, line 6, strike "In any proxy" and insert "Subject to paragraph (3), in any proxy".

Page 6, line 13, strike the close quotation marks and following period and after such line insert the following:

“(3) MAJORITY-ELECTED BOARD EXEMPTION.—The shareholder vote requirements of this subsection shall not apply with respect to any issuer that requires the members of its board of directors to be elected by a majority of the votes cast in a shareholder election of such board.”

RECORDED VOTE

The Acting CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The Acting CHAIRMAN. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 161, noes 241, not voting 36, as follows:

ANNOUNCEMENT BY THE ACTING CHAIRMAN

The Acting CHAIRMAN (during the vote). Members are advised there are 2 minutes remaining in this vote.

□ 1100

Mr. PORTER changed his vote from “aye” to “no.”

So the amendment was rejected.

The result of the vote was announced as above recorded.

Stated against:

Mr. RUPPERSBERGER. Mr. Chairman, on rollcall No. 238, I voted “no,” put card in and I guess it did not register. I was present and voted “no.”

AMENDMENT NO. 7 OFFERED BY MR. MCHENRY

The Acting CHAIRMAN. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from North Carolina (Mr. MCHENRY) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.
The text of the amendment is as follows:

Amendment No. 7 offered by Mr. MCHENRY:

Page 3; line 18, strike the close quotation marks and following period and after such line insert the following new paragraph:

“(3) DISCLOSURE OF VOTE TO PENSION FUND BENEFICIARIES.—A shareholder who is casting the vote permitted under this subsection on behalf of the beneficiaries of a pension fund shall be required to disclose to such beneficiaries whether such vote was cast to approve or disapprove the compensation.”.

RECORDED VOTE

The Acting CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The Acting CHAIRMAN. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 164, noes 236, not voting 38, as follows:

ANNOUNCEMENT BY THE ACTING CHAIRMAN

The Acting CHAIRMAN (during the vote). Members are advised there are 2 minutes remaining in this vote.

□ 1121

So the amendment was rejected.

The result of the vote was announced as above recorded.

Stated against:

ANNOUNCEMENT BY THE ACTING CHAIRMAN

The Acting CHAIRMAN (during the vote). Members are advised there are 2 minutes remaining in this vote.

□ 1127

So the amendment was rejected.

The result of the vote was announced as above recorded.

Mr. LEVIN. Mr. Chairman, I rise in strong support of H.R. 1257, the Shareholder vote on Executive Compensation Act.

Earlier this year, the Ways and Means Committee held a series of hearings on the state of the U.S. economy. We heard from experts across a variety of disciplines and a wide spectrum of political perspectives, and one of the recurring themes we heard from them was that income inequality is rising, and that this trend is eroding the public's confidence in the fundamental fairness of our society and our public policy. Recent data indicate that in 2005, the share of national income going to the top one percent of earners jumped to 19.3 percent, representing the highest degree of income concentration since 1929.

Rising executive compensation is, of course, just one component of this trend, but it is one of the most visible. What are middle-class families who are struggling with the rising costs of health care and higher education to think when they read about CEOs that are given tens and even hundreds of millions of dollars to leave companies whose stock price has fallen precipitously? These executives are not being rewarded for their performance, they are apparently being rewarded for squandering billions of dollars of shareholder value.

Mr. Chairman, corporations are creations of government, and by law, their boards have a fiduciary responsibility to the shareholders who are the owners of that corporation. A variety of scandals from Enron to options backdating have called into question the independence of boards that are often hand-picked by management, and we have taken steps both through legislation and the regulatory process to strengthen the independence of boards of directors.

The measure before us is a relatively modest additional step to ensure that corporations and their management operate in the interest of shareholders. All we are saying in this bill is that shareholders own these corporations, and they should have an annual, non-binding vote on the corporation's executive compensation disclosures.

The opposition of the minority to this is simply inconsistent. They call for an "ownership society" that would all too often shift ever greater risk onto individuals, and then oppose giving individual shareholders a non-binding vote on the compensation of senior executives who are the guardians of their investment. Corporations do not exist to serve the interests of management, they exist to serve the interest of their owners.

Mr. Chairman, it is not too much to ask that hardworking Americans who have made an investment in a company be given the opportunity of an advisory vote on the pay of managers who are essentially their employees. Again, the Shareholder Vote on Executive Compensation is a modest, common-sense reform that will strengthen corporate governance in our society, and I urge its adoption.

Ms. McCOLLUM of Minnesota. Mr. Chairman, I rise today in support of the Shareholder Vote on Executive Compensation Act, and I commend Chairman FRANK for his work on this critical issue.

While American families struggle to meet their basic needs, such as access to affordable housing, health care, and education, the CEOs of top companies earn more than 430 times the pay of an average worker. The disparity between CEO compensation and minimum wage earnings is even more severe. The average CEO earns more before lunch than a minimum wage worker earns in a year. This inequality needs to be addressed. The Shareholder Vote on Executive Compensation Act is an important step toward fairness because it empowers shareholders and holds public corporations accountable for their compensation practices.

H.R. 1257 requires that public companies give shareholders the opportunity to have a nonbinding advisory vote on the company's executive compensation. It also gives shareholders an additional nonbinding vote if the company awards the CEO a new, undisclosed personal exit package, also known as a "golden parachute" package, during negotiations to buy or sell a company. This bill does not in any way cap executive salaries nor does it diminish the board's legal authority. It simply provides shareholders with a mechanism to voice their support or opposition to an executive compensation package.

This legislation is supported by the International Corporate Governance Network, the Council of Institutional Investors, labor unions, and shareholder organizations. Further, this approach to corporate governance is not new, and it has been shown that it works. The nonbinding advisory vote has been successfully implemented in the United Kingdom and more recently in Australia. It was also adopted voluntarily by the insurance company, Aflac, and 52 other companies have similar proposals pending.

Mr. Chairman, American families cannot afford to continue subsidizing excessive CEO compensation packages. I urge my colleagues to join me in supporting H.R. 1257.

The Acting CHAIRMAN. The question is on the committee amendment in the nature of a substitute, as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The Acting CHAIRMAN. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. McDERMOTT) having assumed the chair, Mr. POMEROY, Acting Chairman of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 1257) amending the Securities Exchange Act of 1934 to provide shareholders with an advisory vote on executive compensation, pursuant to House Resolution 301, he reported the bill back to the House with an amendment adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Is a separate vote demanded on any amendment to the amendment reported from the Committee of the Whole? If not, the question is on the amendment.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. FEENEY

Mr. FEENEY. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. FEENEY. I am in its current form.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Feeney moves to recommit the bill, H.R. 1257, to the Committee on Financial Services with instructions to report the same to the House forthwith with the following amendment:

Page 6, line 15, strike the close quotation marks and following period and after such line insert the following new paragraph:

"(3) CLARIFICATION OF NON-BINDING NATURE OF THE VOTE.—A decision of the board of directors that is contrary to, or inconsistent with, the shareholder vote provided for in paragraphs (1) and (2)(B), shall not be construed to affect the determination of a breach of any duty or obligation owed by the board to the issuer or its shareholders."

The SPEAKER pro tempore. The gentleman from Florida is recognized for 5 minutes.

Mr. FEENEY. Mr. Speaker, this motion to recommit clarifies that this nonbinding vote is in fact nonbinding: no court may consider the board's refusal to follow the shareholders' advisory vote as a breach of that board's duties of care or loyalty to the shareholders. It clarifies that although such a vote is compulsory, the result cannot be, and it cannot force a board of directors to act in a way that contravenes its best interest.

Mr. SHAYS offered an important amendment during the markup process to clarify that nothing in this bill imposes any new fiduciary duties on boards that the majority of the committee accepted. However, I am concerned not only about whether this statute imposes new, additional obligations on a board; I am concerned that a court might construe a board's decision to disregard the advice of a shareholders' advisory vote as prima facie evidence of a board's failure to satisfy its existing duties.

The chairman has frequently said, "This bill does not do what this bill does not do." I hope he is right, because in the Financial Services Committee hearing and markup, in the

Rules Committee, and on the floor, he has stressed that this bill is purely advisory. Rather than hope, though, I offer this motion to recommit in order to be certain and to protect the directors in their discretionary exercise of their duties.

If this provision is redundant, that is fine. We do a lot worse here than redundancy. As Chairman FRANK often advises, the law is filled with redundancies, and when Members oppose language in language in bills because they are redundant, they are typically being disingenuous.

So if this bill really does bar frivolous litigation by activist shareholders, then the majority should have no trouble accepting this motion to recommit. However, if it does not preclude private rights of action, as I fear that it does not, then this motion is critical. If the majority cannot support an amendment that limits frivolous litigation, then their motives are suspect.

This motion to recommit protects America's competitive position vis-à-vis international capital markets. If a court can weigh a vote intended as noncompulsory when evaluating whether directors have breached their fiduciary duties, the real beneficiaries of this bill will be trial lawyers racing to the courthouse. The losers will be American enterprise, American stockholders, and, ultimately, American workers.

Mr. Speaker, I yield back the balance of my time.

Mr. FRANK of Massachusetts. Mr. Speaker, I rise in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman from Massachusetts is recognized for 5 minutes.

Mr. FRANK of Massachusetts. Mr. Speaker, never has the willingness of the minority to abuse the process for purely political ends been truer than today.

Mr. Speaker, this bill was voted on in committee in a multi-day markup. A number of amendments were offered and debated. One amendment offered by the gentleman from Connecticut (Mr. SHAYS) aimed directly at this point, and the language was accepted by us and is in the bill, and it says that nothing in here shall create a new fiduciary duty; and it was intended to achieve exactly what we are now told this has sought to achieve. If Members genuinely thought it was inadequate, they had the rest of the markup to try to amend it. And we are here under an open rule. If the Members thought that the bill that we had voted on and which they had every chance to amend needed further amendment, the democratic procedure, the procedure that shows respect for the process, would have been to file an amendment. Had this been an amendment, we could have debated it for more than 5 minutes. We could even have read it for more than 2. This was

delivered to me about 2 minutes before we started.

I am not one of the more modest Members of the body, I concede. But I do not credit myself with being on my own, off the top of my head, not having practiced law ever except for the fact that I am a member of the bar, I am not able to fully analyze this. It might be something very useful. And people who are genuinely interested in adding it to the bill could have offered it in committee; they could have offered it under the open rule; we could have debated it. We have had a large number of roll calls; we just had seven roll calls.

Now, we have been told in the past, well, I had to do a recommit, you wouldn't give me any other chance. Members on the other side had every opportunity at the committee and in this open rule fully to debate this and to offer amendments. They chose not to. They chose instead to legislate by ambush.

Mr. Speaker, I had underestimated the tenderness of the feelings of the Members opposite. I confess to insensitivity, but I will not confess to the disrespect for our legislative process that Members—

Mr. FEENEY. Mr. Speaker, will the gentleman yield?

Mr. FRANK of Massachusetts. Of course not. The gentleman asked for a courtesy. Had the gentleman offered this in committee, I would have been glad to have a dialogue with him. Had he seriously wanted this amendment and offered it during the floor, we could have talked about it. But to wait until the last minute when we can't read it, to refuse to take advantage of an open rule, to refuse to offer it in committee, and now ask me to yield to you? Of course not.

Now, I want to emphasize again: this may or may not be good. I will guarantee the Members here will look at this. We have a way to go on this bill. It has to go to the Senate. If in fact we need further to tighten the language, and it was the gentleman from Connecticut, Mr. SHAYS' amendment that we adopted that sought to do this, if the gentleman from Florida is right and Mr. SHAYS' was inadequate, if the gentleman from Florida is right and Mr. SHAYS' amendment doesn't do the job, we will analyze it seriously. But I urge Members, do not on a serious legal issue, when we have had 2 minutes to look at a complex legal principle, vote to put it into a bill when the Members advocating it deliberately refused to subject it to an open democratic process.

I hope this is repudiated.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. FEENEY. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the question of passage of the bill.

The vote was taken by electronic device, and there were—yeas 184, nays 222, not voting 27, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members are reminded there are 2 minutes remaining in this vote.

□ 1205

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mrs. LOWEY. Mr. Speaker, I regrettably missed rollcall votes 236–244. Had I been present, I would have voted in the following manner: Rollcall No. 236: “no”; rollcall No. 237: “no”; rollcall No. 238: “no”; rollcall No. 239: “no”; rollcall No. 240: “no”; rollcall No. 241: “no”; rollcall No. 242: “no”; rollcall No. 243: “no”; rollcall No. 244: “yea”.

SUBSTITUTION OF CONFEEE ON H.R. 1591, U.S. TROOP READINESS, VETERANS' HEALTH, AND IRAQ ACCOUNTABILITY ACT, 2007

The SPEAKER pro tempore. Without objection and pursuant to clause 11 of rule I, the Chair removes the gentleman from North Carolina (Mr. PRICE) as a conferee on H.R. 1591 and appoints the gentlewoman from Michigan (Ms. KILPATRICK) to fill the vacancy.

There was no objection.

The SPEAKER pro tempore. The Clerk will notify the Senate of the change in conferees.

LEGISLATIVE PROGRAM

(Mr. BLUNT asked and was given permission to address the House for 1 minute.)

Mr. BLUNT. Mr. Speaker, I rise for the purpose of inquiring about next week's schedule, and I yield to my friend from Maryland, the majority leader.

Mr. HOYER. I thank the gentleman for yielding.

On Monday, the House will meet at 12:30 p.m. for morning hour business and at 2 p.m. for legislative business. We will consider several bills under suspension of the rules. There will be no votes before 6:30 p.m.

On Tuesday, the House will meet at 10:30 a.m. for morning hour business and at noon for legislative business. We will consider additional bills under suspension of the rules. A complete list of those bills, Mr. Speaker, will be available by the end of business today. We will also expect to consider H.R. 362, the 10,000 Teachers, 10 Million Minds Science and Math Scholarship Act; and H.R. 363, Sowing the Seeds through Science and Engineering Research Act.

On Wednesday and Thursday, the House will meet at 10 a.m. on both those days. On Friday, no votes are expected, and Friday is not scheduled at

this date. We will consider H.R. 1332, the Small Business Lending Improvement Act; and H.R. 249, a bill to restore the prohibition on the commercial sale and slaughter of wild free-roaming horses and burros.

Mr. BLUNT. Mr. Speaker, I thank my friend for that information.

Last evening we did appoint conferees to the conference on the emergency supplemental for the war. Would we expect to have a conference report, do you think, sometime next week? I think it has been 94 days now since the President requested that, and I am wondering if we would anticipate a conference report anytime next week.

Mr. HOYER. Will the gentleman yield?

Mr. BLUNT. I would yield.

Mr. HOYER. I thank the gentleman for yielding.

Of course, as he knows, it was only 38 days ago that the President made his last request for an addition to the supplemental, and 94 days sounds like longer than I think it has been. But notwithstanding that, we do expect the supplemental to be on the floor next week. That is our expectation. If things go as we hope, the supplemental will be on the floor, and, hopefully, we can get that to the President either very late next week or no later than a week from this coming Monday. We think that is important.

As you know, you and I and others were down at the White House to discuss whether there was room for agreement and accommodation on this issue. We are still having those discussions, as you know, and we are hopeful that that can be reached.

Mr. BLUNT. Mr. Speaker, I thank my friend for that response. And we would hope to see that bill next week on the floor or as soon as possible because there is some great likelihood from that White House meeting that the gentleman mentioned that there is going to have to be a second bill if we can't resolve these issues that lead toward a veto.

On one of those issues we did yesterday, the House voted on the motion to instruct the conferees to sustain the House position. Does the gentleman have any information on the likelihood of the House or Senate view of the deadline issue that we discussed yesterday?

I yield to the gentleman.

Mr. HOYER. Mr. Speaker, I thank the gentleman for yielding and for his question. And, frankly, I don't want to anticipate what the conferees are going to do, having been appointed just last night. There was a vote on the House floor. Frankly, the vote would have had no effect whether it passed or failed in light of the fact that it instructed the House to do what it had already done. So if it had failed, presumably the House was going to be in the same position that it otherwise would have been in.

But notwithstanding that, I don't want to anticipate what the conferees are going to do in light of the fact that they have just been appointed, but I do know that the chairmen of the conference on both sides, House and Senate, want to see this matter resolved quickly, sent to the President, would want to see the troops funded. We were very pleased to see the Department of Defense make it very clear, as, frankly, General Speer and General Ward made clear to me in Europe, that funding is available and will be able to be accommodated through June.

As the gentleman knows, last year when the President made a request for a supplemental, that was not passed until mid-June, that supplemental. So I was pleased to see the Department of Defense indicate that that would be okay. It is not perfect. That is not what they would choose, but, in any event, through the month of June. We hope to get this work done long before that.

Mr. BLUNT. I thank the gentleman for that answer, Mr. Speaker. I hope we can. I think we do need to continue to talk about how we ultimately resolve this issue.

Now, in the information that I am getting from both the Defense Department and our Members that have military installations is that while the war effort, itself, with lots of changing of categories of money and determinations of money around may be very well up through June, that the defense effort generally is impacted because money that would have been spent for National Guard training or money that would have been spent to pay obligations to a contractor are not available in this process.

Now, the last time Secretary Gates, at least, who was not Secretary at the time, said that the spend-out was not quite as quick, and he also said that the need was not quite as critical. But the gentleman is absolutely right in pointing out that last time this process took a long time, and one of the reasons it took a long time was that the House leaders, the majority leaders at that time, were in conflict with the Senate about additional spending. I don't see any of those discussions, frankly, going on, but the additional spending last time at \$14.5 billion did not occur because the House leaders wouldn't accept that and we passed the bill in the House last time a month after the President sent the request up, and then it was a number of months, almost 4 or 5 months, before we got a final bill because we were fighting that additional spending, and at some point we are going to have to also engage not just on the issues of deadlines and whether or not we are micromanaging the effort, but the additional spending was the real problem last time. I would like to think that there was some effort going on there. I don't know that there is.

My next question, though, is that the gentleman's goals for the appropriations process really would require us to pretty quickly move on the budget itself. We missed a deadline that we often miss. I don't want to belabor that point, but that April 15 deadline we normally had to hit if we had a real opportunity to get the bills out of the House by the Fourth of July, which we did in the first part of the last Congress and all but one of the bills in the second part of the last Congress.

What is your sense of where we are on the conferees for the budget and a final budget document?

□ 1215

Mr. HOYER. Obviously, we are very hopeful that we will pass a budget, that we will pass a budget in a timely fashion. As you know, we did pass a budget through the House in a timely fashion. The Senate passed its budget. It is now in conference.

Because of the April break, Easter-Passover break, we have not reached the April 15th. As a matter of fact, I talked to Mr. CONRAD just an hour ago, I talked to Mr. SPRATT just an hour ago, and we are very hopeful that we will come to an agreement.

I would observe, of course, last year the disagreement was between the Republican leadership in the Senate and the Republican leadership in the House. I understand what the gentleman is saying. Some of the votes in the Senate were overwhelming and bipartisan in terms of some of these issues. So this is an issue that we've got to overcome. We hope we can overcome it and move the budget.

But I want to tell the gentleman, he is absolutely correct. I am very focused. Mr. OBEY is very focused. We are going to pass appropriation bills in a timely fashion. We hope to finish by the 30th of June. Very frankly, the more quickly we can move appropriation bills, perhaps the more flexibility we will have in June's schedule. But as you know, June now is scheduled for every Monday and every Friday meeting to effect that business, which is critical.

As the gentleman knows, we met last year for the full year. We left here in December and nine of the 11 appropriation bills were unpassed. We don't want to be in that position. The gentleman knows, and I know, that part of that problem was the Senate's inability to move its business as quickly as we would like, as quickly as we did. The Labor-Health bill, of course, never passed this floor last year, but we are hopeful that that will happen.

I will go over the schedule of the appropriations process with the gentleman at some point in time. We are hopeful that mid-May to the end of June we will pass our appropriation bills. I will tell the gentleman it will be my intention to discuss with both

Chairman SPRATT and Chairman OBEY that if the budget process cannot be resolved, not in this House, but in the other House, that it would be my hope that the House would mark its bills to the House-passed number, as you know we have done in the past; and that would certainly be my intention.

Again, I have not discussed that with Mr. OBEY at this point in time, that's premature, nor have I discussed it with others, but we are hopeful to move ahead on the appropriation bills.

As you know, passage of the budget has a much greater impact in the Senate than it does in the House with respect to the rules process under which appropriation bills are considered in the Senate.

Mr. BLUNT. I thank the gentleman for sharing that with me. And certainly there were occasions where we had to do exactly what the gentleman is suggesting, and that is always one option. At some point, based on the meeting the deadlines we hope to meet and you hope to meet on the calendar, you have to decide whether that is the option you have to go to or not, as opposed to a conference report that we can agree to that lets us move forward that way.

I would also like to repeat one of the comments the gentleman made simply because we don't get much credit here or didn't get much credit for efforts we did make to control spending. And you are absolutely right, a year ago at this time the fight was between the Senate, which was led by Republicans at the time, and the House that was led by the Republicans on that additional spending.

And I just want to make the point that you already made once, but we don't hear it emphasized very often, but that was the fight. House Republicans did win, and we spent \$14.5 billion less than our friends on the other side intended to spend, offered to spend, wanted to spend; and that is what that time frame was all about.

We do, I believe, have more concerns in overall defense spending just because the spend-down has been quicker this year than last year, and Secretary Gates, not me, would be the source for that view of the difference in the 2 years. But clearly, the process, as the gentleman rightly pointed out, is never as easy as we want, as quick as we want, and there are obstacles there.

I would like to, before we conclude today, ask a couple more questions. One is the concern that I have and many of our Members have on the rule that was used this week to waive PAYGO for the D.C. bill and to create a new obstacle for Members who hope to offer a motion to recommit.

Twelve years and, now, a few months ago, when Republicans took control of the House, they extended the motion to recommit to the minority at that time and never failed to offer that motion to

recommit under the traditions of the House. I believe, while it often was not allowed the minority in previous years, never in either previous times or the last 12 years was an actual tabling motion put in the rule, which creates a different circumstance intentionally, but a different circumstance than was ever created in this House before.

And I wonder really two things: Would that tabling motion be something that we will see again? And also, would we expect to see the PAYGO effort in the future waived for the principal reason to be on the floor and handled in a separate vote and a separate piece of legislation, like we did this time?

Is that now the anticipated norm for this process, Mr. Leader?

Mr. HOYER. Would the gentleman yield?

Mr. BLUNT. I would.

Mr. HOYER. The gentleman and I have a slightly different perspective on what the rule provided.

First of all, as you know, motions to recommit were available in both of the bills that were on the floor. The tabling referred to that, if the second bill had not been adopted or the PAYGO provision had not been adopted, they would both be tabled. The reason for that was, we wanted to be consistent with our pledge to the PAYGO principle.

What we didn't want, what I don't want, and you and I have discussed this, is, I'm frankly "perplexed," might be the word, as someone who has been in the legislative body for some 40 years; and I think the parliamentarians were accurate in their determination of germaneness, but germaneness has always meant to me in 40 years, I will tell my friend, that it is pertinent to the subject at hand.

You know that when you add a PAYGO provision, which frankly you abandoned on your side in 2002, you did not want to be constrained by PAYGO. I understand why you didn't want to be constrained by PAYGO because you couldn't pay for your tax cuts. You talked about spending. We've cut revenues very deeply. There were different philosophical arguments about that; but the fact is, they were not paid for, and as a result, the deficits have in large part expanded very greatly.

With respect to the rule, yes, the rule was structured in a way that limited to the subject matter at hand, whether it was the tax bill or the D.C. voting rights bill, motions to recommit to those subjects, as opposed to expanding to subjects that, frankly, from my perspective, are used for political purposes.

I will tell my friend that the motion last night and the motion on the previous D.C. bill had nothing to do with D.C. voting rights. And last night's bill had everything to do with trying to focus on our Members being targeted.

And, in fact, the memorandum that you sent—not you, but somebody sent around to all of your Members expressed the purpose of your motion to recommit to target Members for political reasons, from my perspective.

In that context, if you are asking me if it is my intent in the future to try to limit you from doing that, the answer to that question is “yes.” If your question is, do I want to make sure that you have a motion to recommit with or without instructions, a motion to recommit, of course, kills the bill, as the motion to recommit to report back promptly kills the bill.

The irony is, the gentleman from North Carolina offered a motion to recommit the other day with respect to guns that related to the District of Columbia. Excuse me, I’m not sure it related directly to the District of Columbia, which would have had the perverse effect of offering the amendment and, if adopted, would have killed the amendment in the same process. That is because it was referring it back to committee. The committee would not have reported out that amendment.

If he had really been interested, in my opinion, in passing that amendment, as opposed to politically giving a vote that was difficult for Members on our side of the aisle, what he would have done is moved his gun amendment to be reported back forthwith and had his vote on that up or down.

But I will tell my friend, as he well knows, I want to make sure that from my perspective, and I have told him, I will not suggest a change in the rules, we did not change the rules, there was some discussion about that, without discussing it with him. I want your side to feel that you are getting a fair shot at relevant motions to recommit with or without amendments that do not kill the bill in the process. I don’t think that is something that is unfair to expect.

Mr. BLUNT. Well, I thank my friend for that.

But I do think in that view of this that there is a significant restriction of the rights available to Members. Members have to defend what they do on the floor. Let me make a couple of points.

One is, in the incident you mentioned when the gentleman from Texas offered a motion to recommit well within the rules, and, by the way, in that case and many other cases the only option that the minority has had has been the option of last resort, unless you take that away, which was the motion to recommit. All of our amendments were rejected; no matter how germane they might have been, they were not allowed.

The Members of the House are the ones who have the opportunity to decide what is the right vote and what’s not. And, in fact, stopping that vote offered under the rules by a Member in

good faith I think was a violation of that Member’s rights as a Member of the House.

Now, you could have had that vote, it might have killed the bill, but you could have started a new bill just like you did anyway. The only difference would have been that the Member of the House that brought the issue to the floor would have had his full rights as a Member to have his issue not only debated, but voted on. And we were literally seconds from actually having that vote, which under the rules of the House would have sent the bill to the committee promptly.

There may have been no way to leave the committee with that bill, but you could have started a new bill just like you did. The only difference would have been that the gentleman from Texas would have had his motion voted on, as I believe he had a right to.

On the other issue, we did have PAYGO for 8 years of the 12 years we were in the majority. We complied with it. We still never took away the ability of your side to do just what you said we shouldn’t be able to do.

Mr. HOYER. Will the gentleman yield on that issue?

Mr. BLUNT. Let me finish the thought, and then I will.

I can give you many instances where not only did your side try to avail themselves of that right, which we never then took away, and it probably did create political concerns for our Members; but the House has been here longer than any Member has been here and will be here longer than any Member will be here. And beginning to change the rules in that way or change the rights of Members to offer their objections, their ideas, their improvements as Members always have is a bigger step than I think the gentleman may realize.

And in terms of whether things are germane or not, I very well remember a bill to create the Homeland Security part of our government and the motion to recommit was about corporate inversions. Now, that is every bit as tangential as anything the gentleman just mentioned. But we didn’t go back the next week and say, we’re never going to allow the minority to have that vote again because it was troublesome for us. Troublesome for us and protecting the rights of Members as they relate to past Members and future Members I think are two different things.

I will yield to my friend.

Mr. HOYER. I thank the gentleman for yielding.

We could go on for some period of time on this. We have a different perspective, not on providing fairness for all Members. I said the gentleman from North Carolina; it was the young gentleman from Texas, and I thank you for correcting me on that.

Frankly, I want to tell my friend that if the gentleman from Texas was

sincere, in my view, in wanting his amendment adopted, he would not have rereferred it to committee. Very frankly, in my opinion, his amendment would have passed. The bill would have been reported back forthwith, and the bill would have passed.

We all make a judgment as to what the purposes of amendments are. My view is, the gentleman voted against the underlying bill. The gentleman was opposed to the underlying bill. His motion was to do two things: to provide an instance where on an issue not related to voting rights in the District of Columbia, but on an issue he thought the majority of the House supported which, I think he was correct, he wanted attached to that, and therefore create a dichotomy for Members. They either had to vote for an issue they were for and kill the bill, or vote against an issue they were for and be perceived as being against the proposition.

□ 1230

I understand what you are saying. I do not believe that it is fair legislative process to necessarily believe that that needs to be made in order.

Now, having said that, we did not amend the rules. Consistent with the rules, we provided a process on PAYGO. You waived PAYGO on a regular basis when it was in effect. As a result of doing so, you narrowed the scope of amendments. Not only did you do that, but you also waived the necessity to pay for things from time to time.

But, having said that, I want to reiterate to my friend, and we have had good discussions and will continue to have good discussions, but I am not going to say that we are going to allow our Members to be put in very difficult positions for what we perceive to be for political reasons only, not for the substance. If the gentleman from Texas had wanted to amend the substance with the motion to recommit, he had that available to him and have it reported back forthwith so it could be adopted. He had that available to him. He chose not to take that route.

It caused us some consternation, as was noticed, I am sure by some, particularly to me, because I felt very strongly about that bill. The majority of this House has now passed that bill, with significant support from your side of the aisle. As a matter of fact, it was a bill sponsored by one of your leaders, a former chairman of your campaign committee.

We want to make sure that we consider legislation on this floor fairly, and we will certainly work with you toward that end. But I don’t want to assure the gentleman that I am not going to try to provide for the consideration of legislation and amendments thereto which are germane and relevant.

Mr. BLUNT. I would say to my friend, we do have a disagreement on

this and I think we do see what my good friend perceives as a minor change in procedure differently because I don't think it is that at all.

I would say a couple of things: one is 18 times at least in the minority our friends on the other side used the same rule that my friend now so vigorously objects to because it would kill the bill. Eighteen times. They never were able to do it, but 18 times used it, many times with the provisions just like the one I cited earlier that were every bit as tangential as the one the gentleman is speaking to.

Also I am sure in terms of, I don't know if the word was "sincerity" or what, but I do know that our friend from Texas is a sincere and dedicated Member.

Mr. HOYER. If the gentleman will yield on that, you understood my phrase. It was my perception. I did not question his sincerity. But the perception of what he did, offering the amendment, and within the ambit of the same amendment he offered killing the bill to which the amendment would be attached, appeared to me to be an act that was at least contradictory.

Mr. BLUNT. Mr. Speaker, my friend knows as well, if not better than anybody, how to explain exactly how a Member could be motivated to do both of those things and has defended the rights of the minority for a number of years in an extraordinary way on similar kinds of issues. But the point here is that we are about more than the moment, and my friend said that he wants to do everything he can to prevent his Members from being put in a difficult political situation. The truth is, this is a difficult job, and Members who run for it should understand it is a difficult job and there are things that not only have to be decided, but have to be explained as part of that job. And while changing a procedure, a process, in a way that has never been handled before with this tabling inclusion this week may seem insignificant, I don't think it is.

Also, on our side during the time we had PAYGO, my friend mentioned spending, we never waived PAYGO for spending. On any spending bill, we always adhered to the PAYGO rule. You always had that available to you.

We will move forward. I do appreciate the fact that we are going to continue to talk about these issues before we do anything to change the overall rules of the House. I am concerned, however, when we change what one of our outside observers has referred to recently as the norms of the House. This rule this week was not only outside the norms of the House; it was unique in the way it handled this tabling issue. It was not unique in the way it divided the bills. I am not complaining about that. I am complaining about the potential for a Member to use all the tools previously available to

them to actually, frankly, stop legislation that they didn't like if they didn't like it. But you can't do that unless 217 other people join you in that.

We are not in the majority on our side, we understand that, and for us to do anything under the rules of the House, with a majority vote, Democrats have to join us. If we make those options too appealing, that is, frankly, not our fault. Changing the rules for the momentary relief of Members has greater long-term consequences than I believe my friend realizes.

I yield to the gentleman.

Mr. HOYER. I thank the gentleman for his observations. This has probably gone on longer than the Members or the public wants it to, but let me simply observe that waivers obviously relate to and PAYGO relates to entitlement spending, and while you may not have waived it with respect to spending, because PAYGO does not affect discretionary spending, what it affects, of course, is entitlement spending.

The reason it affected the D.C. bill was because the Member from Utah would have had to have been paid and would have been entitled to be paid. So a relatively de minimis sum was involved in that.

Frankly, the gentleman and I have a disagreement in terms of the rule that was used. First, the rules have not been amended. They have not been amended. Secondly, this rule was consistent with our rules.

The only thing that this rule did that I think caused so much consternation on your side was it adopted PAYGO without opening the bill up to what were amendments that were extraneous to the subject matter and offered the bill on its merits. You were free to offer a motion to recommit, with or without amendments, on the subject matter of the bills, either bill. That was your right then.

The tabling simply referred to making sure that we kept our promise that bills would have PAYGO on them, and if they didn't have PAYGO on them, we weren't interested in passing them, because we were going to be faithful to our pledge on that rule. That is what the tabling dealt with. It didn't deal with your motion to recommit.

If you had defeated H.R. 1906, the second bill with the PAYGO provision, H.R. 1905 would not have gone forward. But our side of the aisle believed that both were important and wanted them together because we wanted the PAYGO provision in there, a relatively de minimis sum in terms of the budget, but consistent with our rule.

If I can make another observation on another matter, you mentioned the supplemental had been pending 94 days. It has been pending 73 days. I think that is an important distinction. That is almost a month of legislative work, if not more.

Mr. BLUNT. Mr. Speaker, we will get our staffs together and look at the cal-

endar later because they seem to be in disagreement on that, even at this moment as you give me that information.

I am going to make one, hopefully, final comment on this issue for now, though I am sure it is going to be an issue we talk about in the future.

Mr. HOYER. I am sure.

Mr. BLUNT. For my friend to understand, it is not a concern about this bill. It is not a concern about what happened on that bill. It is the fact that the tabling addition may be within the rules, but extraordinary. If it is within the rules it has never been done before. The tabling addition changes the consequences of a Member's motion. When you change the consequences of a Member's motion, you take a right away from the Member that the Member previously had.

We may have to discuss this. I can see we are still not quite on the same wavelength. It is not about this bill, Mr. HOYER. It is not about this week. It is about doing something that has never been done before that has consequential impact, and I believe this does. I think you and I should continue to talk about it. I think our Members in the minority are justly concerned about it, as you would have been in the minority if we had done something we never did in the majority, which is change the consequences of your motion to recommit.

ADJOURNMENT TO MONDAY, APRIL 23, 2007

Mr. HOYER. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 12:30 p.m. on Monday next for morning hour debate.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. HOYER. Mr. Speaker, I ask unanimous consent that the business in order under the Calendar Wednesday rule be dispensed with on Wednesday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

APPOINTMENT OF MEMBERS TO CANADA-UNITED STATES INTER- PARLIAMENTARY GROUP

The SPEAKER pro tempore. Pursuant to 22 U.S.C. 276d, clause 10 of rule I, and the order of the House of January 4, 2007, the Chair announces the Speaker's appointment of the following Members of the House to the Canada-

United States Interparliamentary Group:

Mr. MANZULLO, Illinois
Mr. McCOTTER, Michigan
Mr. STEARNS, Florida
Mr. ENGLISH, Pennsylvania
Mr. BROWN, South Carolina

After consulting with the Office of General Counsel, I will make the determinations required by House Rule VIII.

Sincerely,

BRIAN P. BILBRAY,
Member of Congress.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 18, 2007, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

APPOINTMENT OF MEMBERS TO MEXICO-UNITED STATES INTERPARLIAMENTARY GROUP

The SPEAKER pro tempore. Pursuant to 22 U.S.C. 276h and the order of the House of January 4, 2007, the Chair announces the Speaker's appointment of the following Members of the House to the Mexico-United States Interparliamentary Group:

Mr. MCCAUL, Texas
Mr. WELLER, Illinois
Mr. DREIER, California
Mr. MACK, Florida
Mr. FORTUÑO, PUERTO RICO

COMMUNICATION FROM STAFF MEMBER OF THE HONORABLE RICK LARSEN, MEMBER OF CONGRESS

The SPEAKER pro tempore laid before the House the following communication from Luke Loeffler, Community Representative, Office of the Honorable RICK LARSEN, Member of Congress:

HOUSE OF REPRESENTATIVES,
Washington, DC, April 12, 2007.

Hon. NANCY PELOSI,
Speaker, House of Representatives,
Washington, DC.

DEAR MADAM SPEAKER: This is to notify you formally, pursuant to Rule VIII of the Rules of the House of Representatives, that I have been served with a subpoena, issued by the Municipal Court of the City of Beltingham, Whatcom County, Washington, for testimony in a criminal case.

After consultation with the Office of General Counsel, I have determined that compliance with the subpoena is consistent with the precedents and privileges of the House.

Sincerely,

LUKE LOEFFLER,
Community Representative.

COMMUNICATION FROM THE HONORABLE BRIAN P. BILBRAY, MEMBER OF CONGRESS

The SPEAKER pro tempore laid before the House the following communication from the Honorable BRIAN P. BILBRAY, Member of Congress:

HOUSE OF REPRESENTATIVES,
Washington, DC, April 4, 2007.

Hon. NANCY PELOSI,
Speaker, House of Representatives,
Washington, DC.

DEAR MADAM SPEAKER: This is to formally notify you, pursuant to Rule VIII of the Rules of the House of Representatives that I have been served with a judicial subpoena for documents issued by the United States District Court for the District of Columbia.

RECOGNIZING NEWTON CHISHOLM MIDDLE SCHOOL

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Kansas (Mr. TIAHRT) is recognized for 5 minutes.

Mr. TIAHRT. Mr. Speaker, I rise today to honor the Chisholm Middle School in Newton, Kansas, for a prestigious award they recently received. Chisholm Middle School was one of only 16 schools selected by the Intel Corporation and Scholastic for their Schools of Distinction Awards.

Chisholm received this award under the category of Collaboration and Teamwork. They were also awarded the "Best of the Best" award in part for their impressive academic record and exceptional staff, as well as their engaged and involved parents, community leaders, and local businesses.

Intel and Scholastic sponsor the awards and honor those schools which demonstrate academic excellence in the areas of science, mathematics, technology, literacy, and leadership. They reward the selected schools with \$10,000 as well as other wonderful prizes to acknowledge their achievement.

The school chosen as "Best of the Best" also receives an additional \$15,000 grant from the Intel Foundation and other prizes such as computer software. What an accomplishment it is for Chisholm Middle School to receive these grants for new technology and software.

It is wonderful to see families and communities come together to support the youth of America. The students, parents, educators, community leaders, and local businesses should all be commended for working together to improve education, for bringing excitement to learning, and for investing in the future of our generations.

The grants Chisholm Middle School received will go a long way in bringing new and exciting technology into the classroom. In fact, on Monday, April 30, they are hosting a reception in their media center to demonstrate the new technology that they have purchased with this award. That will be an interesting and exciting day at Chisholm Middle School.

In order to maintain a competitive edge in the global economy, America's

schools need to provide quality education to ensure the next generation is well prepared. Schools across the Nation are striving for this kind of quality education.

It is evident that through the dedication of teachers, parents, communities, doors of opportunities are opening for America's young people. I encourage you to keep striving for excellence, and you will reap the benefits of hard work and perseverance.

I would like to also note that Ogden Elementary School in Ogden, Kansas, received a School of Distinction Award in the Mathematics Achievement category. The State of Kansas had two schools that were recipients of the Schools of Distinction Award for 2006.

We are proud of our students at Chisholm and Ogden for this high honor, and today I am pleased to offer congratulations on the floor of the United States House of Representatives.

□ 1245

EARTH DAY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Ms. LEE) is recognized for 5 minutes.

Ms. LEE. Mr. Speaker, in 2 days we will once again celebrate Earth Day, and this year's theme is a call to action on climate change.

Since the last Earth Day in 2006, a number of important events have taken place that have dramatically raised awareness on the important issue of climate change. Two groundbreaking reports left no doubt that human beings are responsible for global warming.

My home State of California passed landmark legislation to regulate greenhouse gas emissions. A group of major businesses and leading climate and environmental groups joined forces for the first time to launch the Climate Action Partnership and lobby for Federal regulations of greenhouse gases.

Al Gore won an Oscar for his powerful documentary on global warming, "An Inconvenient Truth."

The Department of the Interior proposed listing the polar bear as threatened under the Endangered Species Act due to disappearing sea ice.

The Supreme Court ruled in a landmark case that the Environmental Protection Agency has the authority to regulate carbon dioxide emissions as a pollutant under the Clean Air Act.

The United Nations Security Council had its first meeting on the issue of climate change as an urgent matter of international peace and security.

These events make the facts about climate change very clear. I am proud to say for the first time in a long time, this year's Earth Day finally holds the promise of real action on climate change, thanks to the election of a Democratic Congress last November.

Already, under the leadership of our Speaker, NANCY PELOSI, the House of Representatives has laid out a bold agenda to combat global warming and move America towards energy independence. For the first time, the House has created a Select Committee on Energy Independence and Global Warming to help develop policy recommendations on this important issue.

As a part of our 100-hour agenda, the House also passed H.R. 6, the Clean Energy Act of 2007, repealing the \$14 billion in taxpayer subsidies to profit-soaked oil companies. Instead of forcing our constituents to pay oil companies twice, once at the pump and again with their taxes, we shifted these funds to support the development of clean alternative energy and improved energy efficiency.

We also passed a budget last month that makes substantial investments in research and development of new cutting-edge renewable energy technologies which will also fund the rapid deployment of these technologies.

Because we are also committed to leading by example, our leadership has called upon the chief administrative officer of this House to develop and implement a "Green the Capitol" initiative. This initiative will reduce our energy consumption and develop sustainable practices for the United States Capitol and congressional office buildings.

These initiatives are just the first step. Later this year, the House will also consider an innovation agenda that emphasizes the importance of developing alternative energy technologies and ensures that America continues to be a world leader in the green economy of the 21st century; also, a targeted energy package focusing on promoting energy alternatives and addressing global warming that will take another significant step forward in securing our energy independence; and a major farm bill that will promote American-made biofuels as well as other renewable energy, energy efficiency and conservation programs.

We will also continue to develop legislation to regulate greenhouse gases and address some of the difficult challenges in stopping global climate change.

While the House moves forward with this agenda, we must also recognize that there is a substantial amount of activity that is already going on locally in our communities to combat climate change.

In many ways, in the Bay Area, in my district in California, we represent the hub of the environmental movement. Research is ongoing into alternative and renewable energy at the University of California, Berkeley, one of the premier public universities in our country. We hold the promise of a cleaner and brighter future for our children.

Bay Area businesses in my district have also taken the lead in greening their activities to reduce waste, improving energy efficiency, and save water, minimizing the impact on our environment.

Innovative programs funded in part through the city of Oakland are also training youth in my district about the importance of environmental stewardship and are providing them with new job opportunities and new career paths.

Community-based organizations in my district have also taken the lead in advocating for environmental justice and equity for all of our constituents. Together, our community is at the forefront of a robust environmental movement that is quite literally changing the world for the better.

On this Earth Day, let us celebrate all of this local ingenuity, as well as what we are doing in the House of Representatives from participating in local cleanups to just shopping at our local farmers' markets.

SAN JACINTO DAY

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE. Mr. Speaker, growing up in Houston, Texas, I always liked April 21 because it was a school holiday. I believed there was no school on that day because it was my mother's birthday and she never really told me differently. I was proud to be the only kid that had a mom with a school holiday.

It was only later that I came to find out the holiday also represented the most important day and most important military victory in Texas history, one that is studied in military schools throughout the world. It occurred near what is now Houston, Texas. It was a unique holiday for southeast Texas called "San Jacinto Day."

After Santa Anna, the Dictator of Mexico, invaded Texas with his massive army, and then stormed over the Alamo walls, killing William Travis, Davy Crockett, Jim Bowie, and the other Texas Volunteers on March 6, 1836, he went looking for the rest of the Texans that wanted independence from Mexico.

General Sam Houston had been building the Texas Army, and Santa Anna's three armies were giving chase. The Texas army and their families fled east in what historians call the "runaway scrape."

Finally, near the San Jacinto River and the Buffalo Bayou at Lynch's Ferry, Sam Houston stopped to fight. He and his army of 700 faced Santa Anna and his army of over 1,600 on the marshy plains of San Jacinto, Texas.

Scout Deaf Smith was ordered to burn the only escape bridge, thus trapping both armies between the river and the marshes.

It was April 21, 1836. General Sam wanted to charge into battle the next day at dawn, but decided not to wait any longer. So in the middle of the afternoon, General Sam and the Boys marched in single line in broad daylight with little cover towards the Mexican army.

The outnumbered Texans were an odd, terrifying-looking bunch. Without regular uniforms, they were dressed in buckskins, with pistols in their belts, bowie knives, long muskets, and tomahawks. They came from every State in the United States and from Mexico. The Tejanos, Mexicans loyal for Texas independence, were led by Captain Juan Sequin. So as not to confuse the Tejanos with Santa Anna's army, General Sam had Sequin put a playing card in the headband of each Tejano so they could be easily recognized.

This was General Houston's first Texas battle. Santa Anna's veteran army had yet to lose any battle. The Texans charged, yelling, "Remember the Alamo! Remember Goliad!" They carried a flag of a partially nude Miss Liberty, and the fife played a bawdy house song called "Come to the Bower."

Santa Anna army's, caught napping, was routed. Most of the enemy were killed or wounded. The rest were captured or disappeared. The victory was stunning. Only a dozen Texans were killed. Santa Anna was captured, disguising himself in a private's uniform.

Texans wanted Santa Anna hung because of the Alamo and for murdering Colonel Fannin and his 300 volunteers at Goliad after they had surrendered to the Mexican army. Wise and politically astute General Sam Houston would have none of the lynching and spared Presidente Santa Anna for later bartering power.

Texas became a free and independent nation that day and claimed what is now Texas, and parts of New Mexico, Oklahoma, Kansas, Colorado and even Wyoming. It was one of the largest land transfers in world history as a result of just one battle. The latter land was sold to the United States to pay Texas' war debts. Texas was a republic for over 9 years, and then it was admitted to the Union in 1845 by 1-vote margin. Some now wish the vote had gone the other way.

In 1936, Texans built the San Jacinto Monument to honor the Texas War of Independence and General Sam's Victory. It looks exactly like the Washington Monument, but it has a star on top, and, of course, it is bigger.

Today, the bugles are silent and the battlefield is surrounded by petrochemical plants. Not much is said nowadays about Texas independence or San Jacinto Day. It is not even a school holiday anymore. But tomorrow, proud Texans will be at the San Jacinto Battlefield to honor the few brave Texans and Tejanos that made Texas a new, free, independent nation.

We remember our past knowing we were a nation once, and sometimes we still act like an independent people and country. And the rest, they say, is Texas history.

I will fly the Lone Star flag proudly on San Jacinto Day, and I will take my mom a bunch of flowers, remembering that this glorious day was once a school holiday to celebrate my mother's birthday.

And that's just the way it is.

SURGE

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from California (Ms. WOOLSEY) is recognized for 5 minutes.

Ms. WOOLSEY. Mr. Speaker, several months ago the administration announced the so-called "surge," or escalation of troops into Baghdad and the surrounding area. It was claimed by the administration that the escalation of over 2,800 more troops in Iraq was needed to get control of Baghdad and increase the security of the Iraqi people.

Just what has been the result of that claim? The exact opposite. Instead of control, we are seeing a surge in violence. We are seeing a surge in bombings and attacks. On one day alone, Wednesday of this past week, 171 Iraqis were killed in a wave of bombings. These were people going about their lives, going to the market, going to work, riding the bus; 171 people. They are not just a number, they are mothers, they are fathers, sisters, brothers, friends, neighbors and, yes, children.

The violence and brutality should not be ignored or swept under the rug or become just another statistic. These are people whose lives have been cut short.

□ 1300

You have to wonder if anyone in Iraq is safe anymore, especially when a bomber can enter the green zone and the parliament building to bomb the cafeteria. How can we expect Iraqi parents to send their children to school?

How could we imagine how much courage it takes just to go to the market around the corner from your home for food? Not to mention the bravery it must take to volunteer to serve as part of the Iraqi security force.

Our brave men and women in uniform are doing all they can do to provide security to the Iraqi people. It is not their fault that this security seems to be out of their reach. The fault lies entirely at the desk of one person, the Commander in Chief.

He is sending troops back for third and fourth tours of duty, and he has extended those tours by months. How many of those troops were provided sufficient training or body armor? How many are given access to mental health care? And once they make it

home, how many were left in the squalor of Walter Reed hospital? This is unacceptable and against everything our country stands for.

Poll after poll has found that the Iraqis and the American public want an end to this occupation. Even this Congress has gone on record several times calling for an end to this occupation.

The administration seems to be the only one who wants to stay the course, but it is time to face the facts. The mission is not accomplished. We are not winning. More people are dying every single minute and every single hour and every single day we stay in Iraq.

I say enough is enough. Bring our troops home. I will not stop, I will not rest and I will not back down in my fight until every last soldier, Marine, airmen and sailor is home safe with his or her family.

WAR IS HELL

The SPEAKER pro tempore (Mr. McDERMOTT). Under a previous order of the House, the gentleman from Indiana (Mr. BURTON) is recognized for 5 minutes.

Mr. BURTON of Indiana. Mr. Speaker, I want to start off by commenting on the lady's speech that was just made. I understand her position. War is hell. It is a horrible thing. We have been out to Bethesda and Walter Reed Hospital, and we have seen the damage that war has done to a lot of our young people.

It is a terrible thing. It was a terrible thing in all the other conflicts we have been involved in where people have been killed and maimed, World War I, World War II, Korea, Vietnam, the Revolutionary War, the Civil War. War is horrible. Nobody wants war. We all want our troops home as quickly as possible. There is no question about that. Where we differ is what this war is all about and what will happen if we do not do what is necessary.

Yesterday, a Sunni insurgent coalition in Iraq announced an Islamic cabinet, and they named an al Qaeda leader as their Minister of War. Throughout this whole debate over these years, the opponents on the other side have said al Qaeda was not involved in Iraq, that we did not have any reason to go in there. Al Qaeda was involved in Iraq. Osama bin Laden was involved in Iraq. The people that bombed the USS *Cole*, the World Trade Center, our embassies around the world were in Iraq, and now they have appointed a war minister over there who is the head of al Qaeda in Iraq today.

So there is a world war against terrorism. Al Qaeda is the main leader of that war against the United States and the rest of the world. It is a war that we cannot afford to lose. They are using children as bombs. They are taking carloads of dynamite and other ex-

plosives and are driving into crowded places to kill people.

We all know how horrible that is, and we also know how horrible it was when al Qaeda operatives flew into the World Trade Center and killed over 3,000 people, the worst tragedy in American history, and it was on our soil. So we are in a world war against radicals, al Qaeda, and we cannot back down.

If we back down in Iraq, as my colleagues on the other side want us to do, it is going to send a signal, already is sending a signal to them, the al Qaeda and the terrorists, that we will not persevere, that we will back down, and they will, as they said yesterday, create an Islamic State in Iraq. And if you create an Islamic State in Iraq and do away with the democracy that is there now, you are going to provide a breeding ground for more terrorism and more attacks on the West and Europe and the rest of the world.

This is a war that may go on for a while, but it is one we must not and cannot lose. My colleagues on the other side are well-intentioned, but the fact of the matter is they want to encourage and they are encouraging by their factions, our enemy, our mortal enemy, the terrorists and al Qaeda.

Now, yesterday, I was very distressed when the majority leader in the United States Senate said that we have lost the war. To say that when al Qaeda is appointing a war minister in Iraq is a tragic mistake. It should never have been said. The man that they appointed, al-Muhajir, is a terrorist, and his goal is to destroy the United States and our allies and change the whole world to radical Islam. That is his goal. That is Osama bin Laden's goal. They are there, and they want to destroy us and we must hang tough.

The President is standing there by himself. I know his popularity is very, very low, as Lincoln's was and George Washington's was when they were losing the wars that they were involved in, but this is something that the American people have to realize is absolutely essential if we are going to survive as a Nation in the long term.

These people want to destroy us, and if we back down in Iraq, make no mistake, they will gain in strength and they will attack us again and our allies again around the world with acts of terrorism. They will be coming out from under the doors like cockroaches, and it is going to be hard to stop them. My view is we either whip them there or we are going to have to fight them here.

HONORING WOODBURY MIDDLE SCHOOL

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Ohio (Mrs. JONES) is recognized for 5 minutes.

Mrs. JONES of Ohio. Mr. Speaker, last week I had the pleasure of attending a middle school in my congressional district. The middle school is Woodbury. I have a T-shirt to represent Woodbury Middle School. I thought I could wear it on the floor of the House, but they told me it was inappropriate attire so I had to take it off. But this is a Woodbury T-shirt, and I promised those students at Woodbury Middle School that this week on the floor of the House I would talk about what a great time I had at Woodbury Middle School.

The reason I was there, and let me recognize the principal, Barbara Whitaker; the vice principals, WeMet Smith and Eric Grundton; and teacher friends of mine, my neighbor, Barbara Norton; Chante Taylor, who is the wife of one of my district staffers; Aisha Mason, who is the wife of Senator Lance Mason.

But what I was there for we have Ohio achievement tests, and we decided on this particular day at this particular school, we are going to celebrate the achievements of the young people of Woodbury Middle School. We had a wonderful time. The band played. They are doing a production of "Annie," and "Annie" did a production. We had a dance troupe that I learned how to do a certain dance with these young people. We even had a chance to quote Nas, a famous rapper, who talks about I can be what I want to be.

We had a great time. We had a wonderful chance to really celebrate the fact that these young people are going to do a great job on this Ohio achievement test. So Woodbury Middle School, I keep my promise. Hurray for Woodbury Middle School. Pass that test.

RESIGNATION AS MEMBER OF COMMITTEE ON APPROPRIATIONS

The SPEAKER pro tempore laid before the House the following resignation as a member of the Committee on Appropriations:

HOUSE OF REPRESENTATIVES,
Washington, DC, Apr. 19, 2007.

Hon. NANCY PELOSI,
Speaker, the Capitol,
Washington, DC.

DEAR SPEAKER PELOSI: I am writing to temporarily resign from my seat on the Committee on Appropriations, effective immediately.

I understand how the most recent circumstances may lead some to question my tenure on the Appropriations Committee. Therefore, I feel it may be in the best interest of the House that I temporarily resign from the Committee, until this matter can be resolved.

Sincerely,

JOHN T. DOOLITTLE,
U.S. Representative.

The SPEAKER pro tempore. Without objection, the resignation is accepted. There was no objection.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. LEVIN (at the request of Mr. HOYER) for today on account of a family emergency.

Mr. MELANCON (at the request of Mr. HOYER) for today.

Mr. EHLERS (at the request of Mr. BOEHNER) for today on account of traveling to his district with the President of the United States.

Mr. FERGUSON (at the request of Mr. BOEHNER) for today on account of personal reasons.

Mr. SIMPSON (at the request of Mr. BOEHNER) for today until 11:30 a.m. on account of medical reasons.

Mr. THORNBERRY (at the request of Mr. BOEHNER) for today and April on account of attending to family matters.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Ms. WOOLSEY) to revise and extend their remarks and include extraneous material:)

Mr. CUMMINGS, for 5 minutes, today.

Mr. SCHIFF, for 5 minutes, today.

Ms. WOOLSEY, for 5 minutes, today.

Mr. DEFAZIO, for 5 minutes, today.

Ms. LEE, for 5 minutes, today.

Ms. JACKSON-LEE of Texas, for 5 minutes, today.

Mr. PALLONE, for 5 minutes, today.

(The following Members (at the request of Mr. POE) to revise and extend their remarks and include extraneous material:)

Mr. TIAHRT, for 5 minutes, today.

Mr. POE, for 5 minutes, today and April 23, 24, 25, and 26.

Mr. BURTON of Indiana, for 5 minutes, today and April 23, 24, 25, and 26.

Mr. SMITH of New Jersey, for 5 minutes, today.

(The following Member (at her own request) to revise and extend her remarks and include extraneous material:)

Mrs. JONES of Ohio, for 5 minutes, today.

ENROLLED BILLS SIGNED

Ms. Lorraine C. Miller, Clerk of the House, reported and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 137. An act to amend title 18, United States Code, to strengthen prohibitions against animal fighting, and for other purposes.

H.R. 727. An act to amend the Public Health Service Act to add requirements regarding trauma care, and for other purposes.

H.R. 753. An act to redesignate the Federal building located at 167 North Main Street in

Memphis, Tennessee, as the "Clifford Davis and Odell Horton Federal Building".

BILL PRESENTED TO THE PRESIDENT

Lorraine C. Miller, Clerk of the House reports that on April 19, 2007 she presented to the President of the United States, for his approval, the following bill.

H.R. 1132. To amend the Public Health Service Act to provide waivers relating to grants for preventive health measures with respect to breast and cervical cancers.

ADJOURNMENT

Mrs. JONES of Ohio. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 1 o'clock and 10 minutes p.m.), under its previous order, the House adjourned until Monday, April 23, 2007, at 12:30 p.m., for morning hour debate.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

1195. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—6-Benzyladenine; Exemption from the Requirement of a Tolerance [EPA-HQ-OPP-2006-0325; FRL-8117-9] received March 18, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

1196. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Tetraconazole; Pesticide Tolerance [EPA-HQ-OPP-2006-0576; FRL-8121-3] received April 10, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

1197. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Tribenuron Methyl; Pesticide Tolerance [EPA-HQ-OPP-2006-0207; FRL-8117-2] received March 15, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

1198. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Thifensulfuron Methyl; Pesticide Tolerance [EPA-HQ-OPP-2006-0208; FRL-8117-1] received March 15, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

1199. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Spinosad; Pesticide Tolerance [EPA-HQ-OPP-2006-0579; FRL-8114-4] received March 15, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

1200. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Fluopicolide; Pesticide Tolerance [EPA-HQ-OPP-2006-481; FRL-8120-1] received March 27, 2007, pursuant to 5 U.S.C.

801(a)(1)(A); to the Committee on Agriculture.

1201. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—*Bacillus thuringiensis Vip3Aa20 Protein and the Genetic Material Necessary for its Production in Corn; Temporary Exemption From the Requirement of a Tolerance* [EPA-HQ-OPP-2006-0783; FRL-8120-5] received April 3, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

1202. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Air Quality Implementation Plans; State of Utah; State Implementation Plan Corrections [EPA-R08-OR-2005-UT-0001; UT-001-0052a; EPA-R08-OAR-2006-0654; EPA-R08-OR-UT-0006; FRL-8300-1] received April 12, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1203. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Delegation of Authority to the States of Iowa, Missouri and Nebraska for New Source Performance Standards (NSPS), National Emission Standards for Hazardous Air Pollutants (NESHAP); and Maximum Achievable Control Technology (MACT) Standards [FRL-8269-6] received January 16, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1204. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Treatment of Data Influenced by Exceptional Events [EPA-HQ-OAR-2005-0159; FRL-8289-5] received March 18, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1205. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Protection of Stratospheric Ozone; Listing of Ozone Depleting Substitutes in Foam Blowing [EPA-HQ-OAR-2004-0507; FRL-8291-3] (RIN: 2060-AN11) received March 18, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1206. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—New York: Incorporation by Reference of State Hazardous Waste Management Program [EPA-R02-RCRA-2006-0518; FRL-8278-2] received March 18, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1207. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Air Quality Implementation Plans; Illinois [EPA-R05-OAR-2005-IL-0001; FRL-8290-5] received March 18, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1208. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Air Quality Implementation Plans; Arkansas; Prevention of Significant Deterioration and New Source Review; Economic Development Zone for Crittenden County, Arkansas; and Stage I Vapor Recovery [EPA-R06-OAR-2005-AR-0001; FRL-8297-6] received April 10, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1209. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Implementation Plans; Tennessee; Approval of Revisions to the Knox County Portion of the Tennessee State Implementation Plan [EPA-R04-OAR-2006-0787-20062 1(a); FRL-8297-4] received April 10, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1210. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Air Quality Implementation Plans; Wisconsin; Prevention of Significant Deterioration [EPA-R05-OAR-2006-0779; FRL-8296-3] received April 10, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1211. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Vermont: Final Authorization of State Hazardous Waste Management Program Revisions [EPA-R01-RCRA-2007-0135; FRL-8287-8] received March 15, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1212. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Air Quality Implementation Plans; Wisconsin; Cook Composites and Polymers Company [EPA-R05-OAR-2006-0542; FRL-8285-3] received March 15, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1213. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Significant New Use Rules on Certain Chemical Substances and Notification on Certain Substances for Which Significant New Use Rules are Not Being Issued [EPA-HQ-OPPT-2003-0063; FRL-7699-5] (RIN: 2070-AB27) received March 27, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1214. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Implementation Plans; Ohio; Volatile Organic Compound Emission Control Measures for Cincinnati and Dayton [EPA-R05-OAR-2006-0545; FRL-8292-3] received March 27, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1215. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Implementation Plans; Designation of Areas for Air Quality Planning Purposes; State of Arizona; Boundry Redesignation; Finding of Attainment for Miami Particulate Matter of 10 Microns or Less (PM10) Non-attainment Area; Determination Regarding Applicability of Certain Clean Air Act Requirements; Correction [EPA-R09-OAR-2006-AZ-0558; FRL-8292-6] received March 27, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1216. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Implementation Plans; Arizona; Motor Vehicle Inspection and Maintenance Programs [EPA-R09-OAR-2005-AZ-0009; FRL-8284-2] received March 27, 2007, pursuant to 5 U.S.C.

801(a)(1)(A); to the Committee on Energy and Commerce.

1217. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of Air Quality Implementation Plans; Indiana [EPA-R05-OAR-2006-0774; FRL-8284-5] received March 27, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1218. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Lead; Renovation, Repair, and Painting Program; Notice of Availability [EPA-HQ-OPPT-2005-0049; FRL-8116-6] (RIN: 2070-AC73) received March 15, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1221. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Agency's final rule—Approval and Promulgation of State Plans for Designated Pollutants and Facilities; Rhode Island; Negative Declaration [EPA-R01-OAR-2007-0136; A-1-FRL-8295-6] received April 3, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1222. A letter from the Principal Deputy Associate Administrator, Environmental Protection Agency, transmitting the Department's "Major" final rule—Clean Air Fine Particle Implementation Rule [EPA-HQ-OAR-2003-0062; FRL-8295-2] (RIN: 2060-AK74) received April 3, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

1223. A letter from the Assistant Secretary for Legislative Affairs, Department of State, transmitting a copy a determination made pursuant to Section 1306 of the National Defense Authorization Act for FY 2003, Pub. L. 107-314; to the Committee on Foreign Affairs.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. FRANK: Committee on Financial Services. H.R. 1676. A bill to reauthorize the program of the Secretary of Housing and Urban Development for loan guarantees for Indian housing (Rept. 110-102). Referred to the Committee of the Whole House on the State of the Union.

Mr. LANTOS: Committee on Foreign Affairs. H.R. 1678. A bill to amend the Torture Victims Relief Act of 1998 to authorize appropriations to provide assistance for domestic and foreign programs and centers for the

treatment of victims of torture, and for other purposes (Rept. 110-103, Pt. 1) Ordered to be printed.

Ms. VELÁZQUEZ: Committee on Small Business. H.R. 1332. A bill to improve the access to capital programs of the Small Business Administration, and for other purposes; with an amendment (Rept. 110-104). Referred to the Committee of the Whole House on the State of the Union.

DISCHARGE OF COMMITTEE

Pursuant to clause 2 of the rule XII, the Committee on Foreign Affairs discharged from further consideration. H.R. 1678 referred to the Committee of the Whole House on the State of the Union, and ordered to be printed.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions were introduced and severally referred, as follows:

By Mrs. MALONEY of New York (for herself, Mr. SHAYS, Mr. ACKERMAN, Mr. ALLEN, Mr. ANDREWS, Mr. BAIRD, Mr. BERMAN, Mr. BLUMENAUER, Mr. BOSWELL, Ms. CORRINE BROWN of Florida, Mrs. CAPPAS, Mr. CASTLE, Mr. CHANDLER, Mrs. CHRISTENSEN, Mr. CLAY, Mr. CLEAVER, Mr. CONYERS, Mr. COSTA, Mr. CROWLEY, Mr. CUMMINGS, Ms. DELAURO, Mr. DINGELL, Mr. DOYLE, Mr. ENGEL, Ms. ESHOO, Mr. FARR, Mr. FATTAH, Mr. FRANK of Massachusetts, Mr. GILCHREST, Mr. GONZALEZ, Mr. GRIJALVA, Ms. HARMAN, Mr. HASTINGS of Florida, Mr. HIGGINS, Mr. HINCHEY, Mr. HINOJOSA, Mr. HOLT, Ms. HOOLEY, Mr. INSLEE, Ms. EDDIE BERNICE JOHNSON of Texas, Mr. KENNEDY, Mr. KILDEE, Mr. KIND, Mr. KUCINICH, Mr. LANGEVIN, Mr. LANTOS, Mr. MARKEY, Mrs. MCCARTHY of New York, Ms. MCCOLLUM of Minnesota, Mr. MCDERMOTT, Mr. GEORGE MILLER of California, Mr. MOORE of Kansas, Mr. MORAN of Virginia, Mr. NADLER, Mrs. NAPOLITANO, Mr. OLVER, Mr. PALLONE, Mr. RAHALL, Ms. ROYBAL-ALLARD, Mr. RUSH, Ms. SCHAKOWSKY, Mr. SERRANO, Ms. SLAUGHTER, Ms. SOLIS, Mr. STARK, Mr. TANNER, Mr. THOMPSON of California, Mr. TOWNS, Mr. VAN HOLLEN, Mr. WALSH of New York, Ms. WASSERMAN SCHULTZ, Ms. WATSON, Mr. WEXLER, and Mr. WU):

H.R. 1975. A bill to designate certain National Forest System lands and public lands under the jurisdiction of the Secretary of the Interior in the States of Idaho, Montana, Oregon, Washington, and Wyoming as wilderness, wild and scenic rivers, wildland recovery areas, and biological connecting corridors, and for other purposes; to the Committee on Natural Resources.

By Mr. DOYLE (for himself, Mr. TIM MURPHY of Pennsylvania, Mr. ENGLISH of Pennsylvania, Mrs. CAPITO, Mr. MOLLOHAN, Mr. DINGELL, Mr. RAHALL, Mr. HOLDEN, and Mr. CARNEY):

H.R. 1976. A bill to amend the Internal Revenue Code of 1986 to modify the refined coal credit to include qualified coal waste sludge recycling; to the Committee on Ways and Means.

By Ms. BERKLEY:

H.R. 1977. A bill to amend the Internal Revenue Code of 1986 to allow solar and geothermal investment credit for public utility

property; to the Committee on Ways and Means.

By Mr. HALL of Texas (for himself, Mr. CONAWAY, Mr. MARCHANT, Mr. POE, Mr. NEUGEBAUER, Mr. MCCAUL of Texas, Mr. CULBERSON, Mr. HENSARLING, Mr. BURGESS, Mr. SAM JOHNSON of Texas, Mr. BARTON of Texas, Mr. THORNBERRY, Ms. GRANGER, Mr. HINOJOSA, Mr. EDWARDS, and Mr. ORTIZ):

H.R. 1978. A bill to designate the United States courthouse located at 101 East Pecan Street in Sherman, Texas, as the "Paul Brown United States Courthouse"; to the Committee on Transportation and Infrastructure.

By Mr. ADERHOLT (for himself, Mr. DAVIS of Alabama, and Mr. BRALEY of Iowa):

H.R. 1979. A bill to require any Federal or State court to recognize any notarization made by a notary public licensed by a State other than the State where the court is located when such notarization; to the Committee on the Judiciary.

By Mr. HINOJOSA (for himself, Mr. FRANK of Massachusetts, Ms. WATERS, and Mr. RENZI):

H.R. 1980. A bill to authorize appropriations for the Housing Assistance Council; to the Committee on Financial Services.

By Mr. LANGEVIN (for himself, Mr. THOMPSON of Mississippi, and Ms. JACKSON-LEE of Texas):

H.R. 1981. A bill to amend title 49, United States Code, to direct the Assistant Secretary of Homeland Security (Transportation Security Administration) to issue regulations establishing security standards for foreign repair stations performing maintenance for aircraft used to provide air transportation; to the Committee on Homeland Security.

By Mr. HINOJOSA (for himself, Mr. FRANK of Massachusetts, and Mr. RENZI):

H.R. 1982. A bill to authorize appropriations for the rural housing and economic development program of the Department of Housing and Urban Development; to the Committee on Financial Services.

By Ms. SCHAKOWSKY (for herself, Mrs. BONO, Mr. BOOZMAN, and Mr. WYNN):

H.R. 1983. A bill to amend title XIX of the Social Security Act to require Medicaid coverage of professional services of optometrists that are otherwise covered when furnished by a physician; to the Committee on Energy and Commerce.

By Mr. BAIRD (for himself, Mr. ALTMIRE, Mr. VISCLOSKEY, Mr. BRADY of Pennsylvania, Mr. BERRY, Mr. MOLLOHAN, Ms. SUTTON, and Mr. DEFAZIO):

H.R. 1984. A bill to amend title 23, United States Code, to clarify that the Buy America provision applies to an entire bridge project; to the Committee on Transportation and Infrastructure.

By Mr. CUMMINGS:

H.R. 1985. A bill to foster the development of minority-owned small businesses; to the Committee on Small Business, and in addition to the Committee on Oversight and Government Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. ELLSWORTH:

H.R. 1986. A bill to require potential Federal contractors to certify they owe no Fed-

eral tax debt; to the Committee on Oversight and Government Reform.

By Mr. JEFFERSON:

H.R. 1987. A bill to amend the Internal Revenue Code of 1986 to allow the small agri-biodiesel credit for biodiesel derived from waste vegetable oils; to the Committee on Ways and Means.

By Mr. JINDAL:

H.R. 1988. A bill to establish the Gulf Coast Disaster Loan Refinancing Program; to the Committee on Small Business.

By Mr. PEARCE:

H.R. 1989. A bill to establish the Fort Stanton-Snowy River Cave National Conservation Area, and for other purposes; to the Committee on Natural Resources.

By Mr. POMEROY (for himself, Mr. RAMSTAD, Mr. UDALL of Colorado, Mr. SALAZAR, Mr. CARTER, Mr. PERLMUTTER, and Mr. BRALEY of Iowa):

H.R. 1990. A bill to amend title XVIII of the Social Security Act to extend reasonable cost contracts under Medicare; to the Committee on Ways and Means, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. TIAHRT:

H.R. 1991. A bill to amend title 37, United States Code, to authorize the payment of travel costs for members of the Selected Reserve occupying designated specialties when the members attend inactive duty training or a unit training assembly necessary for maintaining mission readiness when the training or assembly location is outside of the commuting limits of the members' duty stations; to the Committee on Armed Services.

By Mr. INSLEE (for himself, Mr. SHAYS, Mr. DICKS, Mr. MARKEY, Mr. GRIJALVA, Mr. ABERCROMBIE, Mr. MCDERMOTT, Mr. WOLF, Ms. BEAN, Mr. HINCHEY, Mr. MORAN of Virginia, Mr. PALLONE, Mr. SERRANO, Ms. JACKSON-LEE of Texas, Mr. KILDEE, Mr. UDALL of Colorado, Ms. DELAURO, Mr. GORDON, Mr. GENE GREEN of Texas, Mr. HASTINGS of Florida, and Ms. LEE):

H. Con. Res. 122. Concurrent resolution supporting the goal and mission of America Recycles Day; to the Committee on Energy and Commerce.

By Ms. NORTON (for herself, Mr. GRAVES, Mr. HOYER, Mr. MORAN of Virginia, Mr. VAN HOLLEN, Mr. CUMMINGS, Mr. WYNN, Mr. WOLF, and Mr. TOM DAVIS of Virginia):

H. Con. Res. 123. Concurrent resolution authorizing the use of the Capitol Grounds for the District of Columbia Special Olympics Law Enforcement Torch Run; to the Committee on Transportation and Infrastructure.

By Ms. NORTON (for herself, Mr. GRAVES, Mr. HOYER, Mr. MORAN of Virginia, Mr. VAN HOLLEN, Mr. CUMMINGS, Mr. WYNN, Mr. WOLF, and Mr. TOM DAVIS of Virginia):

H. Con. Res. 124. Concurrent resolution authorizing the use of the Capitol Grounds for the National Peace Officers' Memorial Service; to the Committee on Transportation and Infrastructure.

By Ms. HOOLEY (for herself, Mr. FILLNER, Mr. SKELTON, Mr. HOLDEN, Mr. PASTOR, Mr. ELLISON, Mr. GUTIERREZ, Mr. ARCURI, Ms. CORRINE BROWN of Florida, Mr. LEVIN, Mr. KIND, Mr.

WU, Mr. WEINER, Ms. BALDWIN, Mr. ROTHMAN, Mr. VAN HOLLEN, Ms. KAPTUR, Mr. CAPUANO, Mr. KANJORSKI, Ms. BEAN, Ms. DEGETTE, Mr. LARSEN of Washington, Ms. HERSETH SANDLIN, Mr. RYAN of Ohio, Mr. BARROW, Mr. INSLEE, Mr. MATHESON, Mr. BOSWELL, Mr. MCNERNEY, Mr. DOYLE, Mr. McNULTY, Mr. HINOJOSA, Mr. PEARCE, Mr. LINCOLN DAVIS of Tennessee, Mrs. MCCARTHY of New York, Ms. CARSON, Mr. VISCLOSKEY, Ms. SUTTON, Ms. LINDA T. SANCHEZ of California, Ms. JACKSON-LEE of Texas, Mr. UDALL of Colorado, Mrs. JONES of Ohio, Ms. LEE, Mr. HARE, Ms. ROYBAL-ALLARD, Mr. ALTMIRE, Mr. GEORGE MILLER of California, Mr. OLVER, Mr. COHEN, Ms. MATSUI, Mrs. NAPOLITANO, Ms. SLAUGHTER, Mr. RAHALL, Mr. BISHOP of New York, Mr. LOEBSACK, Mr. CARNAHAN, Mr. SHERMAN, Mr. ETHERIDGE, Mr. SHULER, Mr. CARNEY, Mr. CARDOZA, Mr. BERRY, Mr. ALLEN, Mr. MICHAUD, Mr. SNYDER, Mr. HILL, Mr. BOYD of Florida, Mr. BOREN, Mr. MITCHELL, Mr. WELLER, Mr. CLEAVER, Mr. AL GREEN of Texas, Mr. BAKER, Mr. BOEHNER, Mrs. BIGBERT, and Mr. BLUMENAUER):

H. Res. 326. A resolution commemorating the 25th anniversary of the Vietnam Veterans Memorial; to the Committee on Armed Services, and in addition to the Committee on Natural Resources, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 23: Mr. HALL of Texas, Mr. NEAL of Massachusetts, Mr. EHLERS, Mr. RANGEL, Mrs. MALONEY of New York, Mr. WOLF, Mr. LANTOS, Mr. DOOLITTLE, and Mr. CALVERT.
 H.R. 89: Mr. LEWIS of Kentucky.
 H.R. 111: Mr. SMITH of Nebraska, Ms. ROYBAL-ALLARD, Mr. REICHERT, and Mr. WAMP.
 H.R. 174: Ms. JACKSON-LEE of Texas.
 H.R. 211: Mr. BOYD of Florida and Mr. YARMUTH.
 H.R. 281: Mr. CUMMINGS, Mr. BECERRA, and Mr. HONDA.
 H.R. 303: Mr. FARR.
 H.R. 315: Mr. RAHALL.
 H.R. 405: Mr. MCNERNEY.
 H.R. 473: Mr. BARRETT of South Carolina.
 H.R. 503: Mr. ROGERS of Kentucky, Mr. TOWNS, Ms. SOLIS, Mr. RYAN of Ohio, and Mr. MILLER of North Carolina.
 H.R. 522: Mr. DELAHUNT, and Mr. KENNEDY.

EXTENSIONS OF REMARKS

A TRIBUTE TO LIVIU LIBRESCU

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. LANTOS. Madam Speaker, it is with deep sorrow that I rise today to mourn the passing of Liviu Librescu, a world renowned professor of aeronautical engineering who was tragically gunned down while saving the lives of his students at Virginia Tech this week.

Madam Speaker, I am compelled to honor Mr. Librescu, not because he is a fellow Holocaust survivor and college professor who persevered and overcame so much, but because he was a human being so extraordinary that his life's journey embodies the word hero.

Liviu Librescu was born in 1930 to a Jewish family in Ploiesti, Romania. During World War II, when Romania joined forces with Nazi Germany, he was imprisoned in a forced labor camp. Subsequently he was sent, along with his family and thousands of others, to a ghetto in the city of Focsani about 100 miles from his home. Hundreds of thousands of Jews from across Romania died in the Focsani Ghetto and in Transnistria, a Romanian-run Nazi killing field where Librescu's father, a lawyer, perished.

Liviu survived the horrors of the Focsani Ghetto and the Holocaust and nobly committed his life to academia, studying aerospace engineering at the Polytechnic University of Bucharest, where he received both his undergraduate degree in 1952 and his Masters in 1953. In 1969 he received his Ph.D. in fluid Mechanics from Academia de Stiinte din Romania.

Madam Speaker, Liviu Librescu was a brilliant mind and quickly established himself as a top researcher at the Bucharest Institute of Applied Mechanics and the Academy of Science of Romania. But his refusal to swear allegiance to the destructive Communist regime in Romania ultimately left him jobless. Without means to support his wife, Marlene, and two sons, Joe and Arie, Librescu tried to leave Romania for Israel. But under the Romanian communist regime Jews were not allowed to emigrate. In 1978 the Romanian government finally permitted Liviu to leave, but only after a direct request was made by the Prime Minister of Israel—Menachem Begin—to Romanian President Nicolae Ceausescu.

From 1979 to 1986 Librescu was a Professor of Aeronautical and Mechanical Engineering at Tel-Aviv University and Haifa's Technion. In 1985 he took sabbatical from Tel Aviv University to research and teach at Virginia Polytechnic Institute and State University in Blacksburg, Virginia. He quickly became a vital part of the School of Engineering Science and Mechanics, and in 1986 decided to make Blacksburg and Virginia Tech his full-time home.

Professor Librescu had a distinguished career as one of Virginia Tech's premier lecturers; he published hundreds of prestigious papers, received numerous awards and honorary degrees and did extensive research for NASA.

Madam Speaker, these extraordinary accomplishments in the face of such tribulations made Liviu Librescu a hero to those who knew him. But his actions on the morning of April 16, 2007 shine through as beacon of everything that embodies his heroic spirit. On that frightful morning when a deranged gunman chose Librescu's classroom as a target for his heinous, senseless murdering spree, Liviu Librescu barricaded himself against the classroom door in an attempt to lock the gunman out. He told his students to flee while he threw his body against the door. Librescu was fatally shot, but the gunman never managed to gain access and no student in the classroom was harmed.

Madam Speaker, I do not think the English language has words worthy enough to describe the selfless courage and boundless humanity of Liviu Librescu. The world has suffered a tragic loss with the end of this one life. I ask my colleagues to join me in honoring the legacy of Liviu Librescu, which lives on in the people that he saved and in the hearts he inspired worldwide.

IN RECOGNITION OF EARTH DAY 2007

HON. RAHM EMANUEL

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. EMANUEL. Madam Speaker, I rise today to commemorate Earth Day, which we will celebrate April 22, 2007. On the very first Earth Day in 1970, 20 million Americans stood together for the environment. They filled our country's streets, parks, and auditoriums to announce their dedication to protecting the earth, and they asked their government to stand with them.

What began 37 years ago as a grassroots movement in the United States has now spread to 175 countries, and is observed each year by 500 million people worldwide. The importance of Earth Day is underscored by the threat of global climate change. As the Intergovernmental Panel on Climate Change concluded with near certainty this February, people are a large part of the problem, but we are also capable of coming up with solutions.

I am proud that the new House Select Committee on Energy Independence and Global Warming met this week for the first time. I commend the Speaker for making this issue a priority, and I commend the new panel's members for their efforts in moving us towards solutions to the problem of global climate change.

The City of Chicago is leading the way in transitioning to a "green-friendly" world and is now a model for other cities across the country. Chicago is among the largest users of green energy in the country, and the city has set a goal of using renewable energy for roughly a quarter of city operations.

As part of the process, Chicago has attracted two solar panel manufacturers to the city. Additionally, Chicago has planted or negotiated the construction of over 2 million square feet of rooftop gardens, more than all other U.S. cities combined.

Madam Speaker, I recognize that as a member of Congress and a father, we have a duty to preserve our Nation's environmental treasures for generations to come. This Earth Day, I hope that we can build on the momentum of my hometown and work together to improve the outlook for our planet and make this a better place for our children. I ask my colleagues to join me in celebrating this Earth Day, and many more to come.

HONORING MARINE CORPS FIRST LIEUTENANT SHAUN BLUE

HON. PETER J. VISCLOSKY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. VISCLOSKY. Madam Speaker, it is with great respect and deep sadness that I wish to commend United States Marine Corps 1LT Shaun Blue for his bravery in the field of battle and his willingness to fight for his country. First Lieutenant Blue was killed in action during combat operations near Iraq's Anbar province on April 16, 2007. His sacrifice will be remembered by a community that has been struck hard by the devastating loss of one of its own.

A lifelong resident of Munster, Indiana, Shaun is remembered by his community as an intelligent, determined, and trustworthy leader. As a young boy, Shaun was active in the Boy Scouts, and it was at this time that his commitment and leadership abilities began to emerge. At Munster High School, Shaun was an accomplished student, graduating in the top 10 in his class and named a National Merit Scholar. As an athlete, Shaun participated on the cross-country and track and field teams, where his drive and dedication served as an example to his teammates and a source of pride for his school.

Following his graduation from Munster High School in 2000, Shaun went on to attend the University of Southern California, where he majored in philosophy. Shaun completed the ROTC program at USC with the intention of going on to serve as a leader for yet another group of his peers as an officer in the United States Marine Corps.

Having been on his second tour in Iraq, Shaun was fully committed to serving his

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

country, and those with whom he served had the utmost respect and unwavering faith in his abilities. This respect was also shared by his superiors, as is evidenced by the numerous medals he was awarded, including the National Defense Service Medal, the Global War on Terrorism Service Medal, the Combat Action Ribbon, and the Sea Service Deployment Ribbon.

Shaun is remembered by friends as being a calm, thoughtful person, who was always willing to help others. An avid fisherman and hunter, Shaun was the type that loved to go camping, and he enjoyed all the wonders nature had to offer. Shaun's qualities demonstrated throughout his youth made him an ideal member of the United States Marine Corps. Shaun was a leader who consistently exemplified strength, not only physically, but mentally and morally as well, and he will continue to serve as an inspiration and example to those who knew him.

First Lieutenant Blue leaves behind a loving family. Shaun leaves to cherish his memory his adoring parents, Jim and Debbie Blue, and countless other friends and family members who will never forget the impact he had on their lives. Shaun will be greatly missed by a saddened but proud community and a grateful nation.

Madam Speaker, at this time, I ask that you and my other distinguished colleagues join me in honoring a fallen hero, United States Marine Corps 1LT Shaun Blue. First Lieutenant Blue is an inspiration to us all for his patriotism and willingness to fight for his country. He paid the ultimate sacrifice for the betterment of his country and the world, and his passing comes as a setback to the northwest Indiana community, which has already been shaken by the realities of war. First Lieutenant Blue will forever remain a hero in the eyes of his family, his community, and his country. Thus, let us never forget the sacrifice he made to preserve the ideals of freedom and democracy.

TRIBUTE TO THE CASSADAGA VALLEY GIRLS AND BOYS BASKETBALL TEAMS

HON. BRIAN HIGGINS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. HIGGINS. Madam Speaker, I rise today to honor the accomplishments of the Cassadaga Valley girls and boys basketball teams. Both teams played with distinction this season, meeting various challenges and contributing with their talents both as a team and individually.

I would like to acknowledge girl's team players Casey Mathers, most improved player; Kari Barmore, co-most valuable player and rebounding award and scholar-athlete award winner; Jenna Beichner, co-most valuable player; and Jennifer Zanghi, receiving the defensive award.

I must also acknowledge boy's team players Kevin Watson, earning the distinction of most valuable player and Bob Zanghi earning the most improved player and scholar-athlete awards.

Madam Speaker, I ask you to join me in congratulating the great successes of both of these teams, both acknowledged by the NYSPHSAA as deserving of the Scholar-Athlete Team Award. It is a pleasure to honor this fine young athletes here today.

INTRODUCTION OF BRISTOL BAY PROTECTION ACT

HON. JAY INSLEE

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. INSLEE. Madam Speaker, I rise today to urge the Natural Resources Committee to take action on the bipartisan Bristol Bay Protection Act, which I introduced today with my colleagues, Congressman WAYNE GILCHREST and Congressman MAURICE HINCHEY.

The Bristol Bay Protection Act will renew long-standing, bipartisan protection for this economically, culturally, and ecologically important marine ecosystem through a Congressional prohibition on oil and gas development in the waters of Alaska's North Aleutian Basin.

When Congress returns from the district work period we plan to introduce the Bristol Bay Protection Act. The Exxon Valdez oil tanker spill, which fouled more than 1,200 miles of pristine Alaskan shoreline and caused billions of dollars in economic damage, moved the Congress and President George H. Bush to place the North Aleutian Basin Planning Area (which includes Bristol Bay) under moratoria from oil and gas development in 1990. In 1998, President Clinton later followed up with an extension of this moratorium on pre-leasing and leasing activities in the same waters until 2012.

This past January, President Bush removed the long-standing executive ban on offshore drilling in Bristol Bay, opening the way for leases the Federal Minerals Management Service (MMS) has proposed in 2010 and 2012.

Alaska's Bristol Bay and the southeastern Bering Sea encompass one of the most productive marine ecosystems in the world. These sub-arctic waters support important commercial fisheries, representing more than 40 percent of the Nation's annual seafood catch. The area targeted for oil and gas leasing overlaps with important habitat and fishing grounds for pollock, cod, red king crab, halibut and salmon—fisheries which generate more than \$2 billion dollars annually. These fisheries support fishermen and fishing families throughout Alaska and the Pacific northwest.

Bristol Bay sockeye salmon runs, the largest on earth, are the lifeblood of many remote, Native villages in southwestern Alaska. Subsistence and commercial harvest of salmon resources are the economic mainstay of these culturally-unique communities.

The region's coastal wetlands, lagoons and sheltered bays serve as migratory hubs, staging areas and wintering grounds for millions of waterfowl and shorebirds. The southeastern Bering Sea is also home to a number of marine mammal species—many of which are threatened or endangered—including sea otters, Steller sea lions, fur seals, humpback

whales and the North Pacific right whale. As a testament to the region's ecological importance, five National Wildlife Refuges and eight Alaska state protected areas have been established here.

The U.S. cannot drill our way to energy security. The risks posed by offshore oil and gas development to the renewable resources of Bristol Bay and the thousands of people in Alaska and along the west coast whose livelihoods depend upon their continued health are simply too great.

The bipartisan Bristol Bay Protection Act restores protections to the people, wildlife and habitats in the North Aleutian Basin Planning Area. It is my hope that the Committee acts swiftly to protect this pristine area.

PAYING TRIBUTE TO GEORGE FILIOS

HON. JON C. PORTER

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. PORTER. Madam Speaker, I rise today to honor my good friend George Filios for his personal and professional successes, he is truly the embodiment of the American Dream.

George came to the United States from Greece in December 1955 and began working in the textile mills in Lowell, Massachusetts. In 1957, he began work in the construction industry as a painter and carpenter and attended school in the evening to learn English and the Principles of Construction. In 1958 George, in partnership with George Papageorge, founded G & G Construction Company. George took the Oath of Citizenship in May, 1961 and subsequently moved to California. George returned to his native Greece in 1966 where he met his lovely wife, Nitsa Stataras.

George established the Filios Construction Company in 1967, specializing in the construction of apartment complexes and subsequently teamed up with Alex Spanos. Following the birth of his first child, Spiridon Filios in 1968, George was offered a management position within A.G. Spanos Companies, thus began a fruitful relationship spanning over thirty years. Soon thereafter, in 1970, George's daughter, Vayia Filios was born. The Filios family relocated to Southern Nevada in 1975 recognizing the booming economy of the region and opportunities it presented to the buildings and construction trades.

In addition to his professional success, George has also contributed greatly to his community. Following the family's move to southern Nevada, George became very much involved with the St. John the Baptist Greek Orthodox Church. He was intimately involved in long range planning of building Church facilities and in 1978, during his Presidency of the Parish Council, they acquired the land necessary to construct a new Church and community center. George was also very involved with the University of Nevada Las Vegas, where he served as the Administrator of the A.G. Spanos Companies Faculty Award. Furthermore, George has served on the State Contractors Board, from 1981-1984, and as a

member of the Clark County Commission Multifamily Council.

Madam Speaker, I am proud to honor my good friend George Filios. His success in business and philanthropic pursuits is truly commendable and his dedication to the community should serve as an example to us all. Through hard work and determination he has succeeded, thereby truly personifying the American Dream. I thank him for his service to the community and wish him the best in his future endeavors.

HONORING FORMER MINNESOTA
GOVERNOR HAROLD E. STASSEN

HON. JIM RAMSTAD

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. RAMSTAD. Madam Speaker, April 13, 2007, marked the 100th anniversary of the birth of former Minnesota Governor Harold E. Stassen.

I rise to pay tribute to the life of this remarkable Minnesotan and true patriot, who dedicated his life to serving our country.

Born on a farm in West St. Paul, Minnesota, Harold Stassen graduated from law school and earned the rank of Lieutenant Colonel in the ROTC by the age of 21. At just 22, he was elected Dakota County attorney, a position he held for 9 years.

In 1938, Harold Stassen was elected Governor of Minnesota, taking office at the age of 31. He was the youngest person ever elected governor of any state, a distinction that lasts to this day. During his tenure, Harold Stassen was a visionary and creative leader.

In his 1942 campaign for reelection, Governor Stassen said that if he was reelected, he would resign after the legislative session to join the U.S. Navy, saying, "Our boys are fighting for the right of freedom, and I want to be with them."

As promised, following the 1943 legislative session he resigned as governor and joined the U.S. Navy on the Battleship USS *Missouri* in the Third Pacific Fleet. He was awarded three battle stars, led the Navy's POW evacuation program in Japan and was on duty on the main deck of the *Missouri* when the message came that the Japanese had surrendered. In fact, he entered the receipt of that historic message in the USS *Missouri's* log book.

In February of 1945, President Roosevelt named Harold Stassen as one of eight members of the American delegation to the Founding Conference of the United Nations in San Francisco, where he was later named one of the two most influential people in drafting the United Nations Charter.

Stassen later played a key role in convincing Dwight D. Eisenhower to run for the Republican nomination for President. Upon his election, Eisenhower appointed Stassen Director of Mutual Security, which carried a Cabinet rank and included all foreign operations, foreign aid, relief, military and assistance programs, distribution of arms and technical and educational assistance.

As a member of President Eisenhower's Cabinet, Stassen was also active in imple-

menting the 1955 Geneva Summit, for which he drafted the Arms Limitation and "Open Skies" proposals initiated by GEN James Doolittle and presented by President Eisenhower at the summit. Having experienced first-hand the horror of war, Stassen spent the remainder of his political and public life working for world peace.

Harold E. Stassen dedicated his life to serving our country, both in the armed forces and as a public servant and elected official. The country is grateful for his meritorious contribution to the security and national interests of the United States and his long legacy of public service. He died 40 days short of turning 95, on March 4, 2002.

DOROTHY IRENE HEIGHT, CHAIR
AND PRESIDENT EMERITA, NA-
TIONAL COUNCIL OF NEGRO
WOMEN

HON. SHEILA JACKSON-LEE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Ms. JACKSON-LEE of Texas. Madam Speaker, I rise to pay tribute to a national treasure and American icon on the occasion of her 95th birthday. I am speaking, of course, of the incomparable, irreplaceable, and legendary Dorothy Irene Height. For more than half a century, Dorothy Irene Height has played a leading role in the never ending struggle for equality and human rights here at home and around the world. Her life exemplifies her passionate commitment for a just society and her vision of a better world.

Dorothy Height was born in Richmond, VA, on March 24, 1912, and educated in the public schools of Rankin, PA, a borough of Pittsburgh, where her family moved when she was four. She established herself early as a dedicated student with exceptional oratorical skills. After winning a \$1,000 scholarship in a national oratorical contest on the United States Constitution, sponsored by the Fraternal Order of the Elks, and compiling a distinguished academic record, she enrolled in New York University where she earned both her bachelor and master's degrees in just 4 years. She continued her postgraduate studies at Columbia University and the New York School of Social Work.

In 1933, Dorothy Height joined the United Christian Youth Movement of North America where her leadership qualities earned her the trust and confidence of her peers. It was during this period that she began to emerge as an effective civil rights advocate as she worked to prevent lynching, desegregate the armed forces, reform the criminal justice system, and provide free access to public accommodations. In 1935, Dorothy Height was appointed by New York government officials to deal with the aftermath of the Harlem riot of 1935.

As Vice President of the United Christian Youth Movement of North America, Dorothy Height was one of only ten American youth delegates to the 1937 World Conference on Life and Work of the Churches held in Oxford, England. Two years later she was selected to

represent the YWCA at the World Conference of Christian Youth in Amsterdam, Holland.

It was in 1937, while serving as Assistant Executive Director of the Harlem YWCA, that Dorothy Height met Mary McLeod Bethune, founder and president of the National Council of Negro Women (NCNW). Mrs. Bethune was immediately impressed with young Dorothy Height's poise and intelligence and invited her to join the NCNW and assist in the quest for women's rights to full and equal employment, pay and education.

In 1938, Dorothy Height was one of ten young Americans invited by Eleanor Roosevelt to Hyde Park, NY, to help plan and prepare for the World Youth Conference to be held at Vassar College.

For the next several years, Dorothy Height served in a dual role: as a YWCA staff member and NCNW volunteer, integrating her training as a social worker and her commitment to rise above the limitations of race and sex. She rose quickly through the ranks of the YWCA, from working at the Emma Ransom House in Harlem to the Executive Directorship of the Phyllis Wheatley YWCA in Washington, DC, to the YWCA National Headquarters office.

For 33 years, from 1944 through 1977, Dorothy Height served on the staff of the National Board of the YWCA and held several leadership positions in public affairs and leadership training and as Director of the National YWCA School for Professional Workers. In 1965, she was named Director of the Center for Racial Justice, a position she held until her retirement.

In 1952, Dorothy Height lived in India, where she worked as a visiting professor in the Delhi School of Social Work at the University of Delhi, which was founded by the YWCAs of India, Burma and Ceylon. She would become renowned for her internationalism and humanitarianism. She traveled around the world expanding the work of the YWCA. She conducted a well-received study of the training of women's organizations in five African countries: Liberia, Ghana, Guinea, Sierra Leone, and Nigeria under the Committee of Correspondence.

Dorothy Height loved and led her sorority, Delta Sigma Theta. She was elected National President of the sorority in 1947 and served in that capacity until 1956. She led the sorority to a new level of organizational development, initiation eligibility, and social action throughout her term. Her leadership training skills, social work background and knowledge of volunteerism benefited the sorority as it moved into a new era of activism on the national and international scene.

In 1957, Dorothy Height was elected the fourth National President of NCNW and served in that position for 40 years, when she became Chair of the Board and President Emerita.

In 1960, Dorothy Height was the woman team member leader in the United Civil Rights Leadership along with Martin Luther King, Jr., Whitney H. Young, A. Philip Randolph, James Farmer, Roy Wilkins and John Lewis. In 1961, while Dorothy Height was participating in major Civil Rights leadership, she led NCNW to deal with unmet needs among women and their families to combat hunger, develop cooperative pig banks, and provided families with community freezers and showers.

In 1964, after the passage of the Civil Rights Act, Dorothy Height with Polly Cowan, an NCNW Board Member, organized teams of women of different races and faiths as "Wednesdays in Mississippi" to assist in the freedom schools and open communication between women of different races. The workshops which followed stressed the need for decent housing which became the basis for NCNW in partnership with the Department of Housing and Urban Development to develop Turnkey III Home Ownership for low-income families in Gulfport, MS.

In 1970, Dorothy Height directed the series of activities culminating in the YWCA Convention adopting as its "One Imperative" to the elimination of racism. That same year she also established the Women's Center for Education and Career Advancement in New York City to prepare women for entry-level jobs. This experience led her in 1975 to collaborate with Pace College to establish a course of study leading to the Associate Degree for Professional Studies (AAPS).

In 1975, Dorothy Height participated in the Tribunal at the International Women's Year Conference of the United Nations in Mexico City. As a result of this experience, NCNW was awarded a grant from the United States Agency for International Development (USAID) to hold a conference within the conference for women from the United States, African countries, South America, Mexico and the Caribbean. This was followed with a site visit with 50 of the women to visit with rural women in Mississippi. Under the auspices of the USAID, Dorothy Height lectured in South Africa after addressing the National Convention of the Black Women's Federation of South Africa near Johannesburg (1977). Since 1986, she has worked tirelessly to strengthen the Black family.

Madam Speaker, under the leadership of Dorothy Height: NCNW achieved tax-exempt status in 1966; NCNW dedicated the statue of Mary McLeod Bethune in Lincoln Park, Washington, DC in 1974—the first woman to be so honored on public land in the Nation's Capital; developed model national and community-based programs ranging from teenage parenting to pig "banks"—which addressed hunger in rural areas; established the Bethune Museum and Archives for Black Women, the first institution devoted to black women's history; established the Bethune Council House as a national historic site; transformed NCNW into an issue-oriented political organization, sponsoring "Wednesdays in Mississippi" when interracial groups of women would help out at Freedom Schools organizing voter registration drives in the South and fostering communications between black and white women; and established the Black Family Reunion Celebration in 1986 to reinforce the historic strengths and traditional values of the black family.

Among the major awards bestowed upon Dorothy Irene Height in gratitude and appreciation for her service to our Nation and the world are the following: Presidential Medal of Freedom presented by President Bill Clinton; Congressional Gold Medal presented by President George W. Bush; John F. Kennedy Memorial Award; NAACP—Spingarn Medal; Ha-dassah Myrtle Wreath of Achievement; Min-

isterial Interfaith Association Award; Ladies Home Journal—Woman of the Year; Congressional Black Caucus—Decades of Service; President Ronald Reagan—Citizens Medal; Franklin Roosevelt—Freedom Medal; Essence Award; and the Camille Cosby World of Children Award.

Dorothy Height was also elected to the National Women's Hall of Fame and is the recipient of 36 honorary degrees from colleges and universities as diverse as: Tuskegee University, Harvard University, Spelman College, Princeton University, Bennett College, Pace University, Lincoln University, Columbia University, Howard University, New York University, Morehouse College, and Meharry Medical College.

Madam Speaker, Dorothy Height has witnessed or participated in virtually every major movement for social and political change in the last century. For nearly 75 years, Dorothy Height has fought for the equality and human rights of all people. She was the only female member of the "Big 6" civil rights leaders (Whitney Young, Jr., A. Philip Randolph, Martin Luther King, Jr., James Farmer, and Roy Wilkins). Her vision and dedication made NCNW the premier organization in advocating for the health, education and economic empowerment for all women of African descent around the world.

Thank you, Dorothy Height, for your service to our Nation. You have made America a better place for all persons of all races, religions, and backgrounds. You have mentored hundreds, been a role model to thousands, and a hero to millions. You are an American original. I am glad to count you as a friend.

HONORING FRANK KRUESI

HON. RAHM EMANUEL

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. EMANUEL. Madam Speaker, I rise today to recognize the long and distinguished career of my friend, Frank Kruesi. After 9 years of dedicated service, Kruesi is retiring as President of the Chicago Transit Authority (CTA).

Prior to his service at the CTA, Mr. Kruesi served as Chief Policy Officer for the City of Chicago for Mayor Richard M. Daley. He also served as the Executive Officer of the Cook County State's Attorney's Office and was the legislative assistant to then-Senator Richard M. Daley in the Illinois General Assembly, where he focused on mental disabilities, human services, and juvenile justice legislative initiatives.

Mr. Kruesi's more than 30 years of public service have included service at every level of government including serving as Assistant Secretary for Transportation Policy in the United States Department of Transportation under President Clinton. In that post, he advised two Secretaries of Transportation and developed policy initiatives in all forms of transportation.

Throughout his career, Frank Kruesi has overseen numerous achievements met by the CTA. Under Mr. Kruesi's leadership, CTA has

made service improvements on two-thirds of its bus routes and on all, its rail routes. A total of 281 bus of service improvements have been implemented which include 25 new bus routes, expanded hours of service, added trips to reduce wait time, and route changes to improve access and connectivity.

Innovative programs such as U-Pass, a program of discounted passes for college students, have also been implemented during Mr. Kruesi's tenure. The program is the largest of its kind in the Nation, with 76,000 students at 33 area colleges participating.

Madam Speaker, on behalf of the Fifth Congressional District of Illinois, I congratulate Frank Kruesi on his long career and thank him for his service to the City of Chicago. I wish him the best of luck in all his future endeavors.

IN RECOGNITION OF OUR NATION'S NURSES

HON. DOUG LAMBORN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. LAMBORN. Madam Speaker, I rise today to pay tribute to America's nurses during National Nurse Recognition Week. From Florence Nightingale, to Clara Barton, to the unsung heroes of today, the nurses of this country have provided invaluable service in times of peace and of war. Providing comfort to the elderly, the sick, and the dying is a noble yet all too often thankless task. It is for this reason that we take this week in May to honor the extraordinary contributions of nurses to society.

On March 30, 1981 President Ronald Reagan was shot in the chest outside the Hilton Hotel in Washington, DC. He was then rushed to the George Washington University Hospital. When recounting his experience, President Reagan often spoke of a nurse who held his hand as he was taken into surgery. This simple act by an unknown woman comforted the President during his time of pain and fear. Almost a year later, President Reagan proclaimed that National Recognition Day for Nurses would be observed on May 6. Since then, the recognition has been expanded to a weeklong celebration.

With over 2.7 million registered nurses in this country, nursing is the largest health care profession. These men and women administer care, with profound compassion, in homes, hospitals, and schools across the nation. The theme of this year's National Nurses Week is, fittingly, "Nursing . . . profession and a passion." When Americans fall ill, it is the nurse who tends to their daily needs and provides comfort in times of uncertainty and pain. I want to take this opportunity to thank our nation's nurses for their commitment to the service of others.

HONORING THE MEMORY OF
JOSEPH KEANE

HON. BRIAN HIGGINS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. HIGGINS. Madam Speaker, I rise today to honor the memory of a dear friend Joseph "Joey" Keane, a man who inspired countless people in my hometown of South Buffalo through his example, strength of character, and spirit.

Joey Keane's life was filled with many blessings. He was blessed with an extraordinary family; his parents Richard and Catherine Keane embraced him with love and care as they did all of their children, his 15 siblings, 7 sisters and 8 brothers, enriched his life with love, laughter, and respect, and the Seneca Street neighborhood that was his home and the place where he was beloved by neighbors, family friends, and business owners alike.

The Keanes are a politically prominent family in Buffalo, NY. Joey's brothers Dick & Jim were elected to public office, his brother Neil served as Fire Commissioner but many would argue that Joey was the best politician of them all.

His brother Jim explained Joey and the impact he has had on others best when he said, "Joey's taught us a lot of lessons, and he's taught us the lighter side of life. I think Joey has made it easier for all of us to laugh at ourselves. That's part of the Joey Keane mystique. You learn humility and how to laugh at yourself from the Joey Keanes of the world."

Madam Speaker, I would like to offer my deepest condolences to the entire Keane Family for the loss of their dear brother and with the House's consent, I would like to end my remarks with a recent article that was printed in The Buffalo News which commemorates the life of Joey Keane.

MAYOR OF SENECA STREET DIES AT 60—JOEY KEANE WAS "TRUE POLITICIAN" OF THE CLAN

(By Gene Warner)

Six years ago, Sen. Hillary Rodham Clinton and Bishop Henry J. Mansell attended a Labor Day Mass in South Buffalo, where Clinton seemed to be grabbing the most attention.

Joey Keane—of the prominent South Buffalo Keane clan—spotted Mansell, who was standing alone, drinking a cup of coffee and perhaps feeling a little ignored by the Clinton spotlight.

"Hello, Bishop, I'm Joey Keane," he said. "If you put that cup of coffee down, I'll take my picture with you."

That was Joey Keane, one of the best known of the famous Keanes, a man intimidated by no one, a South Buffalo man who always had a hug or a quip for everyone—whether it was the governor, the bishop or just a man or woman on the street.

Dubbed the "mayor of Seneca Street," Keane died Friday in the Mercy Hospital Skilled Nursing Facility, following an almost two-year battle with Alzheimer's and its complications. He was 60.

When he was born, in February 1947, family members were told that infants with Down syndrome had a life expectancy of about 21 years. Usually, they were taken to an institution for the rest of their lives.

His mother, Catherine, would hear none of that. So he spent the first 30 years of his life

with his parents, Richard and Catherine, the next 30 rotating among about a dozen siblings and nieces, each for about 3 months at a time.

Among his 14 surviving siblings are a former Buffalo fire commissioner, a former assemblyman and a former deputy county executive. But everyone acknowledged who the true politician was in the family: Joseph Jeremiah Keane.

"He worked a crowd better than any of his politician brothers," said niece Kate Carr, one of 183 nieces, nephews and their children who called him "Uncle Joey."

"His whole life, he was a cause célèbre along Seneca Street," said brother James P. Keane, the former Common Council member and deputy county executive. "People just took to him."

Here's a testament to his popularity in South Buffalo. Ten years ago, following a newspaper story about his gala 50th birthday party, a childhood friend living in Australia sent him a letter addressed to "Joseph Keane, Somewhere in South Buffalo, Buffalo, N.Y." The letter reached him.

Within his family, Joey Keane was the peacemaker of the 16 siblings. When they fought as kids, there was Joey in the middle of things, settling everybody down and leaving the participants to walk away with hugs and handshakes.

"He was kind of the glue that kept us together," said brother Cornelius J. "Neil" Keane, the former fire commissioner.

Since his death, South Buffalo has been filled with dozens of Joey Keane stories. Here are a few of them:

Years ago, Joey Keane had just moved from the roomy Orchard Park home of a niece, Pat Allman, to the more modest South Buffalo home of his sister Maureen Sullivan.

"Cup of coffee, Joe?" his sister asked him the first morning.

"What, no cappuccino?" Joey replied.

"You're back in South Buffalo, buddy," his sister answered.

Following The Buffalo News story 10 years ago, then-Mayor Anthony M. Masiello bought Joey Keane a cappuccino maker for his 50th birthday.

Sometime after his father's death, one sibling kidded that their mother could marry widowed Gov. Hugh L. Carey, who had 14 children. Together, they'd have more than two dozen.

Joey Keane apparently remembered that comment when he saw Carey at some South Buffalo function.

"Stay away from my mother," he told Carey, according to another brother, former Assemblyman Richard J. Keane.

Among other things, Joey Keane loved watching soap operas; impersonating everyone from John Wayne to Tom Jones; dressing up in Sabres, Bills or Bisons garb, while watching or listening to their games; dancing at weddings, often trying to snag the first dance with the new bride; needling his "big shot" brothers; watching the old Lawrence Welk TV show; and catching the garter belt at any wedding.

Surviving are seven sisters, Nancy Lafferty, Mary Alice O'Neil, Sally Trevean, Catherine Keane, Connie Smith, Margaret Ray and Maureen Sullivan; seven brothers, Richard J., Thomas J., Michael A., Cornelius J., Daniel J., James P. and Peter C. Another brother, Firefighter William T. Keane, was killed in 1978 while responding to a false alarm.

A Mass of Christian Burial will be offered at 9:30 a.m. Wednesday in St. Teresa Catholic

Church, 1974 Seneca St., after prayers at 9 in Thomas H. McCarthy Funeral Home, 1975 Seneca St.

IN HONOR OF EARTH DAY

HON. JAY INSLEE

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. INSLEE. Madam Speaker, today, in honor of Earth Day, I introduced a resolution that would support the only nationally-recognized day dedicated to recycling.

Every November since 1997, millions of Americans have become better informed about recycling and buying recycled products as a result of events held in honor of America Recycles Day. Last year, events were held in communities in every state. In my home state of Washington, 12 communities are planning events to commemorate this important day in 2007 in cooperation with counties, elementary schools, businesses and local troops.

Recycling creates 1.1 million U.S. jobs, \$236 billion in gross annual sales and \$37 billion in annual payrolls. Recycling also saves energy, prevents air and water pollution, reduces the need for new landfills and combustors, reduces our dependence on foreign oil, reduces the need for extraction of certain natural resources, and can stimulate the development of greener technologies.

Over the past 10 years, many new markets for recycled products have been created. For example, plastic containers can be remanufactured into other plastic containers, fleece, carpet, car parts, strapping, stuffing, bottles, pipe, lawn and garden products, injection molded products, and plastic lumber. Yet, as markets for recycled products have increased, recycling rates for certain recyclable household products, like plastic and aluminum containers, has decreased or stayed the same, and curbsid pickup programs have decreased in communities.

There remains a significant opportunity to increase recycling in the United States and I believe that the activities of America Recycles Day provide one way to achieve this end. It is time for Congress to support this important day and effort. I urge my colleagues to take up this important resolution and pass this bill before America Recycles Day on November 15th.

RECOGNIZING WORLD WAR II VETERAN ROBERT WALTER DINGMAN

HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. WOLF. Madam Speaker, I rise today to bring the attention of the House to Robert Walter Dingman, a decorated veteran of World War II who was wounded in combat 62 years ago today, on April 20, 1945. Private Dingman was seriously wounded as he crossed an open field and laid paralyzed until a heroic medic rescued him under enemy fire.

Bob Dingman had just turned 18 when he was drafted into the Army in 1944. After basic training at Camp Blanding, Florida, he was soon aboard a troop ship to Liverpool, England and then on to LeHarve, France, in early 1945. The French rail road took him and his fellow soldiers to Verviers, Belgium, where he was issued an M-1 rifle. He was soon taken across the Rhine River where he was assigned to Comp B of the 83rd Armored Reconnaissance Battalion of the 3rd Armored Division.

As a young soldier with a strong faith in God, Private Dingman was determined he would not hate his enemy and had occasions to show kindness toward captives, while carrying out his duties. Since those dark days 62 years ago, Bob Dingman has led a successful, active, inspiring and selfless life. After graduating from Houghton College in New York state, he began his career here in Washington as an employee of the U.S. Navy. He later went into the executive recruiting business and formed his own executive recruiting firm in California in 1978. He rose professionally and is recognized as one of the nation's top executive recruiters.

During his recruiting career, he repeatedly went out of his way to assist faith-based organizations in their searches for competent leadership, in addition to his broad array of commercial clients. Over the years he led the search projects for leaders of such organizations as World Vision International, Mission Aviation Fellowship, Young Life, numerous Christian Colleges, and many other church-related organizations. He also gave generously of his time and abilities by serving on the national boards of such organizations as the Salvation Army and Mission Aviation Fellowship and the local boards of Hospice and Whitworth College.

As a disabled veteran of World War II, he was awarded a 50 percent disability in 1951. As one who has experienced the physical and emotional pain of rehabilitation, Mr. Dingman is currently turning his attention to finding ways to help newly disabled veterans from the wars in Iraq and Afghanistan.

I ask that the House join me today in recognizing Bob Dingman for a lifetime of service to his country and others, and for his example of determination, hard work and commitment to his faith.

IN HONOR OF JOHN DALLAGER

HON. DOUG LAMBORN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. LAMBORN. Madam Speaker, I rise today in recognition of John "J.D." Dallager's appointment as President and CEO of the Pike's Peak United Way.

After serving his country for 34 years in the United States Air Force, Mr. Dallager went on to serve the Colorado Springs as the Chairman of the Board of the Colorado Springs Chamber of Commerce. Mr. Dallager's admirable sense of duty and clear commitment to the service of others enable me to say with confidence that he will be an excellent addition to the Pike's Peak United Way.

For over 80 years, the Pike's Peak United Way has sought to improve the lives of Coloradans living in El Paso and Teller Counties through numerous family support, emergency food and shelter, and charity grant programs. A strong leader, Mr. Dallager will provide direction to this valuable organization, allowing it to further serve the needs of my constituents. I am profoundly thankful for all that Mr. Dallager has done for Colorado's Fifth Congressional District and our Nation.

COMMENDING EXCEPTIONAL
NORTHWEST INDIANA TEACHERS

HON. PETER J. VISCLOSKEY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. VISCLOSKEY. Madam Speaker, it is my distinct honor to commend seven exceptional teachers from Northwest Indiana who have been recognized as outstanding educators by their peers for the 2006-2007 school year. These individuals are: Margaret Hurt, Susan Kucharski, John Nawrocki, Faylene Altomere, Eileen Meier, Amanda Johnsen, and Michelle Strong. These honorees will be presented with the Crystal Bell Award at a reception sponsored by the Indiana State Teachers Association. This prestigious event will take place at the Andorra Restaurant and Banquets in Schererville, Indiana on May 8, 2007.

Margaret Hurt, from the Tri-Creek School Corporation, has been a superior role model to her students at Lowell High School for 26 years, where she has served as Social Studies Chair for 20 years. Margaret also serves as co-coach for the Lowell Spell Bowl team. She is always willing to give her time to prepare students for the future, mentor new teachers, and promote new projects that will improve her school.

Susan Kucharski has 29 years of experience as a teacher and is this year's recipient from the Lake Central School Corporation. Susan is currently a fourth grade teacher at Protsman Elementary School. She is known for her giving nature and always going the extra mile. She serves on the PL 221 School Improvement Team and Safety Committee and also plays the piano for annual musicals.

This year's recipient of the Crystal Bell Award from the School Town of Highland is Amanda Johnsen. Amanda is a fourth grade teacher at Warren Elementary School, where she has taught for 9 years. She has given extended time in the K-Kids Program, a partnership with the Kiwanis Club to develop student leadership and community involvement. Amanda serves as the school's Parent Teacher Organization liaison and led the girls' baseball team to a tournament championship.

John Nawrocki, a math teacher at Taft Middle School for 32 years, has been a great asset to the Crown Point Community School Corporation. He has served as Math Chairperson and moderator of the Math Bowl, and he has also served on the NCA/School Improvement Committee and ISTEP Cut Off Committee for the State of Indiana. John always goes to great lengths to make himself available to his students and faculty.

Eileen Meier, this year's recipient from the School Town of Munster, has been teaching for the past 24 years. Her expertise lies with foreign language, having taught German at Munster High School for the past 8 years. Eileen challenges her students to broaden their horizons and go the distance in reaching their goals.

Faylene Altomere is known for her dedication and consistency as a great educator. Faylene, a 43-year veteran of the teaching profession, is this year's recipient from the Hanover School Corporation. Faylene is currently a teacher at Jane Ball Elementary School and has played an active role in the lives of students from three generations of some families.

Michelle Strong is this year's Crystal Bell recipient from the North Newton School Corporation. Michelle is a beloved military veteran and art teacher at Lincoln Elementary School. She has shared her strength, positive nature, and love of art throughout her community and her school.

Madam Speaker, I ask you and my distinguished colleagues to join me in commending these outstanding educators on being recipients of the 2006-2007 Crystal Bell Award. Their years of hard work have helped to shape the minds and futures of Northwest Indiana's young people, and each of these outstanding educators is truly an inspiration to us all.

CONGRATULATING THE VILLAGE
OF SOUTH CHICAGO HEIGHTS, ILLINOIS

HON. JESSE L. JACKSON, JR.

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. JACKSON of Illinois. Madam Speaker, I rise today to congratulate the Village of South Chicago Heights, Illinois on their Centennial Celebration. On its founding day, March 7, 1907, 150 citizens of Hannah and Keeney Subdivision voted to incorporate as the Village of South Chicago Heights.

The first permanent settlers in the area, Adam and Phoebe Brown of Ohio, built a home and opened a general store some 74 years earlier at the intersection of Sauk Trail and the old Hubbard Trail. "Brown's Corner" became a busy crossroads, first allegedly for the Underground Railroad, then later for wagons, stagecoaches, railroads, and automobiles.

One year after incorporating, the residents worked together to build the village's first school, the U.S. Grant School. As the village grew so did the budget and city services. The first year's budget was \$3,800, which was met by property taxes and three saloon licenses at \$500 each.

In its early days the village steadily grew as immigrants of Italian, Polish, German and other ancestries moved here to work in nearby factories, railroads, and local businesses. South Chicago Heights is still home to many of these families and businesses.

The village has had only 12 mayors in 100 years, including the Honorable David Owen,

who has served as mayor since 1989. Mayor Owen has officially declared South Chicago Heights as a good place to live, to work, and to raise a family; and the Centennial gives all 4,000 citizens a special opportunity to take pride in our history and to celebrate our heritage. On May 7, 2007, during the Founders Day program, the Village will dedicate a new Village Clock to start the next 100 years.

I am proud to represent the Village of South Chicago Heights and I congratulate them on 100 years of service and I look forward to future celebrations.

HONORING GEORGE TORNEY, EXECUTIVE DIRECTOR, PYRAMID ALTERNATIVES

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. LANTOS. Madam Speaker, I rise today to honor George Torney, who became the Executive Director of Pyramid Alternatives in the City of Pacifica on August 6, 1976, and has served San Mateo County for 31 years. Under his leadership and guidance, Pyramid expanded its horizons beyond alcohol to recognize addictive personalities as they relate to all substance abuse. Pyramid now frequently collaborates with the San Mateo County Health Department to address links between substance abuse and mental illness.

Although George Torney's work with Pyramid began in Pacifica, the organization itself has since branched out into nine school districts and serves the entire San Mateo County community through seven offices, offering services in five languages. Pyramid has offered a wide range of counseling and education in the fields of: substance abuse, domestic violence, anger, management, first and multiple drinking driver programs, parenting issues and senior adult Services.

Madam Speaker, Pyramid has become an essential partner in the Bridges Program, an intensive alcohol and drug day treatment program for men and women operated by San Mateo County Adult Probation, Superior Court and the County Sheriff. This exceptional program helps non-violent offenders transition back into their families and the community.

Madam Speaker, after three decades of dedicated service, George Torney is retiring and Janeen Smith is assuming the Executive Director role of Pyramid Alternatives. It is with great respect and deepest appreciation that I ask my colleagues to join me in recognizing George Torney and Pyramid Alternatives.

IN HONOR OF BUDDY LAROSA AS HE RECEIVES THE TREE OF LIFE AWARD

HON. JEAN SCHMIDT

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mrs. SCHMIDT. Madam Speaker, I rise today to recognize Buddy LaRosa as he re-

ceives the Tree of Life humanitarian award on April 30, 2007 from the Jewish National Fund.

The Jewish National Fund has bestowed its highest honor, the Tree of Life award, annually since 1981. Recipients of this prestigious honor are chosen on the basis of outstanding community involvement, professional leadership and humanitarian service. Previous national recipients have included Hank Aaron, Archbishop Joseph Bernardin and Donald Trump.

The Tree of Life award was named to symbolize the Jewish National Fund's efforts to reclaim and develop the land of Israel from barren and uninhabitable land into a land of lush green forests and fields, productive farmlands and varied tourism and recreation facilities.

The Jewish National Fund is honoring Mr. LaRosa because of his outstanding community service, active civic involvement and ongoing dedication to helping those less fortunate.

This talented and generous man is the name behind one of Cincinnati's most recognized and beloved eateries, LaRosa's Restaurant. A lifelong native of Western Hills, Buddy opened his first pizzeria there in 1954 with a couple of partners, limited funds, and his Aunt Dena's recipe. Today, Buddy is known as the "Pizza King" and LaRosa's, with its 15 company-owned restaurants, 45 franchise locations across the region, and more than 1,500 employees, is a household name synonymous with great pizza.

Buddy's commitment to the youth in the Cincinnati area is legendary. Buddy has often said, "To live a full life, be a credit to my family and community, and touch young people so that one day they too may experience the joys I have had." This philosophy, combined with a strong work ethic, is no doubt the recipe to Buddy's success.

Buddy was inspired to give back to the youth of our community after a fire devastated his Western Hills restaurant in 1973. Hundreds of area high school students, through their sports coaches, helped to rebuild his restaurant in a record 40 days. As a way to fulfill his personal goal of giving back to students in the community, Buddy founded the Buddy LaRosa High School Sports Hall of Fame in 1975. The Hall of Fame has seven new inductees each year and honors 12 local high school students for their academic and athletic achievements. Today, this outstanding program is a cornerstone of our community and has touched the lives of countless young people.

Over the years, Buddy has generously given back through his involvement with the Cincinnati Golden Gloves for Youth Program and the Greater Cincinnati Police Athletic League. Some of his other beneficiaries include various schools and charitable organizations such as Children's Hospital Medical Center, WCET-TV, and the Free Store Foodbank, Inc.

Buddy is a graduate of Roger Bacon High School and earned an associate degree in business technology. He also served his country in the United States Navy from 1948-1952. Buddy has been married to his wife, JoAnn Augustine, for 55 years and they have 4 children and 13 grandchildren.

All of us in the Cincinnati area congratulate Buddy LaRosa on receiving the Tree of Life humanitarian award.

INTRODUCTION OF THE FORT STANTON-SNOWY RIVER CAVE NATIONAL CONSERVATION AREA ACT

HON. STEVAN PEARCE

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. PEARCE. Madam Speaker, I rise today to introduce the Fort Stanton-Snowy River Cave National Conservation Area Act. This bill is a companion to legislation introduced by my state's Senior Senator, Mr. DOMENICI. Last year, the Senate passed this legislation but the House was unable to act on it before we recessed. It is my hope by introducing the bill today we can push the process along and get this legislation done this year.

The Fort Stanton Cave is a tremendous national resource, which includes a cave that has calcite flowing all along the cave formations. This truly rare resource deserves our protection. As the Representative of Carlsbad Caverns National Park, I am aware of how amazing cave formations can be and how valuable they are to educate and inspire our children.

This legislation does the following: (1) creates a Fort Stanton-Snowy River Cave Conservation Area to protect, secure and conserve the natural and unique features of the Snowy River Cave; (2) instructs the BLM to prepare a map and legal description of the Snowy River Cave, and to develop a comprehensive, long-term management plan for the cave area; (3) authorizes the conservation of the unique features and environs in the cave for scientific, educational and other public uses deemed safe and appropriate under the management plan; (4) authorizes the BLM to work with State and other institutions and to cooperate with Lincoln County to address the historical involvement of the local community; (5) protects the caves from mineral and mining leasing operations.

This cave is a valuable resource that in time will share with us its many wonders, but to do that we must preserve this resource for the future. I hope that my colleagues will join me in supporting these important protections.

IN RECOGNITION OF HONOR FLIGHT MICHIGAN

HON. JOE KNOLLENBERG

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. KNOLLENBERG. Madam Speaker, I rise today to recognize the tremendous generosity of Honor Flight Michigan, Inc. This organization's work to honor our veterans should be commended.

Honor Flight Michigan was founded in Royal Oak, Michigan by David Cameron and his wife Carole. After watching a report about a man in North Carolina who took World War II veterans to see their monument in Washington, DC, the couple was inspired to do the same. Realizing that many veterans lacked the funds or the ability to travel alone, Mr. Cameron

made it his goal to take as many World War II veterans as he could to our nation's capital. Working closely with the Royal Oak American Legion Post 253, Honor Flight Michigan has begun its statewide effort to reach that goal.

This week, Honor Flight Michigan will be making its inaugural flight to Washington bringing 60 veterans to see the memorial they have waited 60 years to see. Mr. and Mrs. Cameron plan to take these trips monthly to ensure every veteran living today can see the memorial we have constructed to honor their bravery and sacrifice.

Out of the sixteen million who served in World War II, sadly only three million are alive today. In addition, we are losing them at a rate of twelve hundred a day. It is important that we let those veterans know the appreciation we have for them. Honor Flight Michigan does that, by treating these veterans as the heroes they are.

Today I salute Honor Flight Michigan for their tireless efforts on behalf of one of our nation's greatest assets, our veterans. When I look around this chamber and see the essence of our democracy I can't help but think of those who fought to ensure our freedom, our strength, and our democracy.

IN RECOGNITION OF EUGENE BAK

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. KUCINICH. Madam Speaker, I rise today to honor Eugene Bak for his outstanding efforts and devoted work to Polonia and America, and his tremendous amount of civic work for the benefit of the Polish American Cultural Center.

Gene and his family immigrated to the United States in 1952, after spending a total of seven years in deportation in Siberia as well as Polish refugee camps. He obtained a Master's Degree in Business Administration from Seton Hall University and attended business programs at the University of Michigan, Harvard University and Syracuse University. Gene has spent his entire career in the chemical industry and retired as Board Director of OM Group (OMC) in 1999.

In 1982, Gene's affection for his beloved homeland led him to help the AmeriCare Foundation raise funds to ship medicine and medical supplies to the people of Poland. He has since been a vital asset to efforts to expand Polish culture in the Cleveland area, and as cofounder and Executive Director of the Polish American Cultural Center he has refurbished facilities to house distinguished Polish speakers, artists, shows and displays. Under his leadership, the Polish Heritage Museum opened as part of the Cultural Center to celebrate Polish history, as well as the history of Polish Americans.

Gene serves on a number of boards, such as the Advisory Board of Marymount Medical Center. Moreover his concern for people, both here and abroad, is impressive and admirable. As part of his titanic work he is helping the people in Poland to raise funds for the Laski Institute for the Blind as well as the Polish

Children's Heartline Foundation, and he has significantly contributed to the cooperation between Poland and the United States.

Madam Speaker and colleagues, please join me in honoring Eugene Bak for using his unique skills and numerous talents in service to the people of Polonia and Northeast Ohio. May his tireless dedication and his achievements continue to inspire us all.

RECOGNIZING MARK EVERSON

HON. RAHM EMANUEL

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. EMANUEL. Madam Speaker, I rise today to thank Mark Everson for his dedication to public service and to congratulate him on his new position as President and Chief Executive Officer of the American Red Cross. Everson's commitment to this country as the Internal Revenue Service Commissioner is an example for everyone in public service.

Mark Everson has served as Commissioner of the Internal Revenue Service (IRS) since 2003, and we will certainly miss him when he officially leaves to lead the American Red Cross on May 29th. His dedication to making sure that taxpayers' needs were heard, and his commitment to expanding access to and knowledge of the Earned Income Tax Credit deserve our congratulations.

Prior to his confirmation as IRS Commissioner, Everson has worked in several other high-profile positions in the public and private sectors. During the Reagan Administration, he worked tirelessly in various positions at the U.S. information agency and the Department of Management and Budget for the current Administration.

Madam Speaker, I am proud to call Mark Everson a friend, and I thank him for his fine work at the IRS over the last four years. It has been an honor to work with him throughout the years. He is a true public servant who is committed to the highest level of integrity, and the American Red Cross will be well served by his dedication and leadership.

RECOGNIZING FRAN AMIR

HON. RUSH D. HOLT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. HOLT. Madam Speaker, I rise today to recognize Fran Amir, a constituent from Plainsboro, to honor her on the occasion of her tenth anniversary as Principal of the Religious School at The Jewish Center of Princeton.

Ms. Amir grew up in New York City and has been in the field of education and youth programming most of her life. A graduate of Brooklyn College, Ms. Amir taught social studies in the New York school system for many years. Ms. Amir did graduate work at Wayne State University in Jewish Studies, and has taught in Hebrew Schools in New York, West

Bloomfield, Michigan, Toronto, and The Jewish Center of Princeton. She has directed teen programs both in summer camps and during the school year, and has served as the Youth and Family Programs Co-chair at the Jewish Center for five years.

Ms. Amir's students receive far more than just the basics of Bar Mitzvah and Bat Mitzvah preparation in her religious school curriculum. When becoming Bar Mitzvah or Bat Mitzvah, a young person is expected to assume the moral and ethical responsibilities of an adult, in particular, service to the community, or "mitzvot." Ms. Amir provides the best possible role model of one who performs mitzvot. Along with her service to the local Jewish community, for example, she traveled with a group of her tenth graders to Biloxi to help with clean-up of the local synagogue, Beth Israel, after Hurricane Katrina. The students carefully removed and wrapped memorial plaques from the wall, ensuring their safe storage until a new temple could be built. Not only did the students help in a practical way, but also helped maintain the Jewish tradition of reverence for the synagogue and its trappings.

The highest responsibility in the Jewish faith is to learn and teach the Torah. Through religious classes, youth programs, and by example, Ms. Amir exemplifies someone who celebrates her faith and tradition through her daily life. She shares her passion with her family and friends, and touches the lives of countless students, their families, and the congregation.

I am proud to recognize Fran Amir for all that she has given to the community on the occasion of her tenth anniversary as Principal of the Religious School of The Jewish Center of Princeton.

FEDERAL CONTRACTOR
ACCOUNTABILITY ACT OF 2007

HON. BRAD ELLSWORTH

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. ELLSWORTH. Madam Speaker, each year, we lose billions of dollars in tax revenue because of fraud and payment delays.

I was particularly angered when I read a March 2006 report issued by the Government Accountability Office (GAO) that found tax debts totaling \$1.4 billion were owed to the federal government by over 3,800 GSA contractors. Shockingly, these GSA contractors represented approximately 10 percent of all GSA contractors during Fiscal Year 2004 and the first 9 months of Fiscal Year 2005.

This is simply unacceptable. It is my aim to increase the scrutiny on government contractors who owe millions in unpaid taxes even as they pad their bottom lines with taxpayer dollars.

Today, I am introducing a bill that will up the ante on bad actors who cheat our government of tax revenue and, in the process, gain an unfair advantage over businesses that play by the rules.

This legislation, the Federal Contractor Accountability Act of 2007, will require prospective contractors to certify that they are not delinquent in their federal tax payments. No prospective contractor will be awarded a contract

with a federal agency unless the prospective contractor certifies in writing to the agency making the award or extension, or issuing the order, that the contractor owes no Federal tax debt.

To certify, the prospective contractor must acknowledge that within a 3-year period, they have not been convicted or had a civil judgment rendered against them for violating any tax laws, failing to pay any tax, or has been notified of any delinquent taxes for which the liability remains unsatisfied.

Additionally, to certify, the prospective contractor must acknowledge that they have not received a notice of a tax lien filed against them for which the liability remains unsatisfied or the lien has not been released.

It is that simple. It is not too much to ask that a private entity that wishes to do business with the federal government certify that they pay their taxes in good faith.

Madam Speaker, the Federal Contractor Accountability Act of 2007 is a practical and efficient way to ensure that we close the ever-widening tax gap. This legislation protects good faith contractors who are playing by the rules. These contractors should not have to unfairly compete against tax cheats for federal contracts.

SOUTHERN ARIZONA BORDER
SECURITY IS UNACCEPTABLE

HON. GABRIELLE GIFFORDS

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Ms. GIFFORDS. Madam Speaker, the insufficient border security in my district in southern Arizona is unacceptable. Our inspection infrastructure is deficient, and this is the critical reason why the Tucson Sector has more drugs seized and illegal immigrants apprehended than any other sector bordering Mexico.

The U.S. Border Patrol agents in southern Arizona seize an average of 2,670 pounds of drugs and apprehend 2,000 illegal immigrants every day. We must end this crisis and secure the border now.

Currently, we have no idea how much contraband or how many people are actually coming across. However, what we do know is that Tucson has become the largest land corridor in the country for marijuana and the most heavily used route in the Nation for illegal immigrants.

While all of Arizona requires additional border security measures, some communities are affected more than others. The current makeshift checkpoint on I-19 just north of Tubac creates an intolerable situation for nearby residents. Human and drug smugglers can easily circumvent or penetrate it, and there has been a recent increase in violence and crime. Residents, tourists and business people have also been inconvenienced by the checkpoint in Tubac because it has led to a massive increase in traffic.

A Federal law that prohibited Arizona's development of a permanent checkpoint in southern Arizona was rejected by the House of Representatives last year. However, at my

request U.S. Border Patrol Chief David Aguilar agreed that no permanent checkpoint will be planned for the Tucson sector without significant and direct community involvement. Southern Arizonans must work with our law enforcement agencies to create a plan for securing our borders and reducing the violence against citizens and immigrants.

Chief Aguilar, Tucson Sector Chief Patrol Agent Robert Gilbert, and I have agreed to form a working group of residents along the I-19 Corridor to collaboratively decide what future security measures need to look like.

A permanent checkpoint on I-19 can only be successful in reducing the total number of drugs and undocumented individuals if several additional measures are taken. These measures include active community involvement in the planning for the checkpoint and an overall network of border security technology that includes surveillance cameras, an array of sensors and vehicle x-ray technology similar to what exists at our ports of entry.

I believe strongly that decisions are best made at the local level. The recent change in Federal law provides citizens and law enforcement officials an opportunity to work collaboratively to secure our border, protect our communities, and foster a secure and vibrant economy.

RECOGNIZING AND CELEBRATING
THE 175TH ANNIVERSARY OF
THE VILLAGE OF GENESEO

HON. THOMAS M. REYNOLDS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. REYNOLDS. Madam Speaker, it is with great pride and delight that I rise today to recognize and celebrate the Village of Geneseo on its 175th Anniversary.

From its lush and beautiful landscape to its historical and picturesque architecture, from its tradition of excellent education and thriving agriculture to its wonderful and generous people, the Village of Geneseo has much to celebrate on its 175th anniversary.

Located in the pleasant Genesee Valley in Livingston County, Geneseo has from the very beginning charmed onlookers and visitors with its natural beauty and landscapes. Centuries ago, Seneca Indians discovered a peaceful, rolling valley near a river that was bordered between the Finger Lakes to the east and waterfalls, which would become Letchworth State Park, to the west. They named the land *jo-ni-shi-yuh*, meaning beautiful valley, which would come to be spelled Geneseo. Thus Geneseo's very name captures its beautiful landscape of hills, grand oak trees, waterways and green fields that continue to captivate.

In 1790, two brothers, James and William Wadsworth purchased the "beautiful valley" from the Senecas, and Geneseo was founded. They built homes on both ends of Main Street, many of which still stand today. It was the beginning of what today is one of the most scenic and quaint Main Streets in America. Only one of 24 communities in the country to have its historic district recognized as having national significance, Geneseo's Main Street His-

toric District reflects the beauty of the area's landscape with unique and delightful architecture nestled in a picturesque, small-town community.

In 1832, the settlement was chartered and would from then on known as the "Village of Geneseo." This important moment marked the official formation of local government and village boundaries, which now mark their 175th year. Later, another important charter would be enacted when in 1897 the New York State Legislature chartered the Wadsworth Normal School at Geneseo, a school that would become SUNY Geneseo. Today, with a reputation as one of the nation's best public liberal arts schools, SUNY Geneseo is an integral part of the community, educating and preparing thousands of young people through its tremendous programs and resources.

Beyond its landscape, history, architecture, and educational tradition, possibly nothing is as inseparable from Geneseo as farming and agriculture. More than just a vital industry that helps feed our nation, farming in Geneseo is a way of life that has shaped the region and sustained its economy. Combined with Geneseo's academic, architectural and natural jewels, this tradition of farms and fields create a dynamic mix that makes the village truly unique.

Finally, Geneseo's most tremendous resource and vital characteristic is its wonderful people. In Geneseo, you find generous, down-to-earth, friendly people who are willing to lend a hand and always wish you well. More than anything to celebrate on this 175th anniversary is the good-hearted and gracious people of Geneseo.

Thus, Madam Speaker, in recognition of its history, its natural beauty, its charming architecture, its educational excellence, its agricultural tradition and its wonderful residents, I ask that this honorable body join me in celebrating the 175th Anniversary of the Village of Geneseo.

REMEMBERING CAITLIN
HAMMAREN

HON. JOHN J. HALL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. HALL of New York. Madam Speaker, on Monday, April 16, 2007, the Virginia Polytechnic Institute was struck by one of the most heinous acts of violence our Nation has ever witnessed. This sense of loss has resonated throughout our country and around the world. It has affected the entire Virginia Tech community and led to an outpouring of sympathy and support from all Americans. It has touched families across the Nation, especially those in my home district in the Hudson Valley, where we lost an outstanding young woman, Caitlin Hammaren.

Caitlin was a young person from Westtown, New York, who graduated from Minisink Valley High School in 2005. She was the section leader in the high school chorus, loved to ride horses, and was kind and generous to all who knew her. As a Resident Assistant in her dormitory at Virginia Tech, she looked over and

protected her fellow students and guided them through their daily experiences as young people just learning how to become independent adults. Caitlin will be deeply missed by her family, friends, and the campus community that she was such an important and cherished part of. I know all of my colleagues join me on this day of mourning in sending our thoughts and prayers to Caitlin's family and friends.

IN CELEBRATION OF HARRY
DAVIDIAN'S 80TH BIRTHDAY

HON. JIM COSTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. COSTA. Madam Speaker, I join my colleague Mr. DEVIN NUNES, and rise today to celebrate the 80th birthday of Mr. Harry Davidian, a wonderful husband, father, and community member.

Harry has an interesting life story. He was born on April 23, 1927 to Agavnie and Giragos Davidian. As the son of immigrants of Armenia, Harry looked out for his siblings, John and Hozanna. All three children attended Dinuba High School in Dinuba, CA. After high school, Harry served in the United States Army as a medic for 2 years and in 1948 received an honorable discharge.

In 1948, Harry met and married Laura Balakian. Throughout the years Laura has remained by Harry's side as his soul mate, confidant, and life partner. Together they had three beautiful daughters: Janice, Phyllis, and Rebecca.

As a life long entrepreneur, Harry furthered his interest in farming and created a partnership with George Zarounian, which became known as Zee & Dee. They became the largest shippers of Vine Ripe Tomatoes in the Nation. After much success they joined the Four-some Development Company in Monterey, with partners Ted Balestreri and Bert Cutino. The ultimate American dream was realized

when they developed the Historic Cannery Row.

Family, friends, and travel are the great joys of Harry's life. He has been a philanthropist for various organization and communities, such as St. Mary Annenian Church in Yettem. Harry takes pride in being a strong community leader and godfather to Sharon, Karon, Aron, Michael, Debra, and Kevin. Throughout the many roads he has traveled here and abroad we thank him for the many lives he has touched along the way. It is for these reasons that we join Harry Davidian's family and friends in wishing him a blessed 80th birthday and continued health and happiness in the years to come.

HONORING SHULAMIT HOFFMANN

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, April 20, 2007

Mr. LANTOS. Madam Speaker, I rise today to honor Shulamit Hoffman, a remarkable woman who has enriched my district as the founder and artistic director of Viva la Musica!, a 70-voice community choir. Since its inception in December 2001, this Bay Area based choir has performed a major work from the choral-orchestral repertoire each season, as well as traditional and multi-cultural choral selections. The choir has performed throughout the country and undertook its first European tour in December 2006 in illustrious venues in Vienna and Salzburg.

Ms. Hoffmann has held a litany of prestigious posts, most recently she was appointed as the conductor of Los Altos United Methodist Chancel Choir in 2002. In addition to singing regularly for Sunday services, LAUMC Choir has performed several major works in concert and has undertaken two tours to the 2004 Kathaumixw in Canada, the 2005 Vermont International Choral Festival and, in 2006, an Alaskan singing cruise with Sir David Willcocks and Duaine Wolf.

As a music educator, Ms. Hoffmann has served as an adjunct faculty member of the College of San Mateo since 2002. She has been a member of the music faculties of the University of Notre Dame de Namur University in California, Idaho State University, Brigham Young University Extension in Idaho and University of Cape Town and University of the Witwatersrand in South Africa. Several of her students are pursuing careers in music. Ms. Hoffmann holds a Master of Arts in Conducting and a Master of Music in Piano Performance. She has earned Licentiate Diplomas in Music from the University of South Africa and from the Royal Schools of Music in London.

She has served as president of branches of the Music Teachers' Association of California and of the National Federation of Music Clubs and she is a frequently invited competition judge and guest clinician.

Madam Speaker, the concerts Shulamit Hoffmann presents are generally sold out and appreciative audience members are enthralled with the musical quality of Viva la Musica! President and Mrs. John Oblak, of Notre Dame de Namur University, praised the excellence of the concerts when they were quoted as saying, "Viva performances exceed all expectations of choral music—they are creative, professional, stimulating and magical—and an absolute treat. We enjoy them personally and we are very proud to introduce friends of the University to this outstanding group."

Ms. Hoffmann's performances—as pianist and conductor—span a broad repertoire from Mozart to multi-cultural music, from the Renaissance to Prepared Piano. A particular interest of Ms. Hoffmann's is multi-media presentations of art, music and poetry. She is known for the skill, authority, imagination, daring, dazzle, and that dash of irresistible playfulness she brings to her musical endeavors. In her hands the conductor's baton becomes a magic wand, coaxing, coaching, and demanding the best of singers and orchestra alike.

SENATE—Monday, April 23, 2007

The Senate met at 2 p.m. and was called to order by the Honorable JIM WEBB, a Senator from the State of Virginia.

The PRESIDING OFFICER. Today's prayer will be offered by the guest Chaplain, Pastor Sunday Adelaja from Kiev, Ukraine.

PRAYER

The guest Chaplain offered the following prayer:

O, Lord of creation, we acknowledge Your lordship today, Your sovereignty, love, and power. We ask that You will bless the United States of America in these days of great uncertainties.

Bless the leaders of this great Nation with the wisdom needed to lead the Nation in the right direction. As leaders, we realize there are some things we want but do not need and some things we need but do not want. You have promised to meet our needs but not satisfy our greed. Help us to realize our decisions have a destiny, our choices have consequences, our path has a purpose, our faith has a foundation, our home has a hope, and this country has a cause.

Acknowledging that as America goes, so goes our world, I ask for a sweeping, weeping, and reaping revival throughout this great Nation. May Your Kingdom come and Your will be done in America as it is in heaven. Help us to remember that America is great because America is good. If America ceases to be good, it will cease to be great. God of heaven, please help America to continue to be good.

In Jesus' Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable JIM WEBB, a Senator from the State of Virginia, led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, April 23, 2007.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby

appoint the Honorable JIM WEBB, a Senator from the State of Virginia, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. WEBB thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Mr. President, today the time until 2:45 is equally divided, with the majority controlling the first portion of the time. Senator CASEY is here and will be using that time to do a tribute. At 2:45 today, the Senate will resume consideration of S. 761, the competitiveness bill. While there are no rollcall votes today, I understand the managers are working on some amendments which could be offered today. Later this week, we expect to receive the supplemental conference report, and the Senate will act on that report prior to concluding business this week.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of morning business until 2:45 p.m., with Senators permitted to speak therein, with the first half controlled by the majority leader or his designee and the second half controlled by the minority leader or his designee.

The Senator from Pennsylvania. (The remarks of Mr. CASEY pertaining to the submission of S. Res. 166 are located in today's RECORD under "Submission of Concurrent and Senate Resolutions.")

Mr. CASEY. I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Wyoming.

IRAQ FUNDING

Mr. THOMAS. Mr. President, I come to the floor to talk about an issue that seems to be the most pressing of any we have before us; that is, to fund our troops in Iraq.

I came to the floor on the 64th day following the President's submission to the Congress of legislation for funding our troops in the field. I believed it was important that we urge Congress to complete its work on this legislation immediately. How could there be anything more pressing than making funding available for our troops? Certainly, the time is now.

It is now day 77, and we still don't have a bill to send to the President. It is time we do so. In fact, the conference committee has not even met. Even though both houses of Congress have passed the measure, they have yet to come together between the Houses in order to do something. Our military leaders are people in the best position to prioritize the needs of our troops. They are the ones who know what needs to be done and what the timing is. They have left no doubt that this funding is urgently needed, without arbitrary deadlines or unrelated pork, both of which are in the bill.

Unfortunately, there are a number of Members who want to call the shots and micromanage the execution of the war. I understand there are different views about the war. There are different views about what our role should be. But the fact is, we are there now. We have had a change in direction. We have some new ideas, new leadership. But we have the troops there. They need to be supported financially so they cannot only do their job, certainly, but protect themselves. If we don't get this funding to the troops, the first thing to be cut without this supplemental will be facilities maintenance throughout the services, particularly the Army.

In addition, counseling programs for both troops and their families will have to be cut back. As to this idea that there is no hurry, that we can find the money somewhere else, Members need to be sure they understand that finding it somewhere else takes it away from someone else who has earned it, either through service or families of service people. More and more troops and their families are seeking counseling, and reducing funding at this critical time certainly needs to be avoided.

Failing to act immediately will have real-life impacts on military personnel. I should think we could come to that understanding. I don't know quite what the timing is seeking to do—apparently, impress on the President the points of view being made on the other side of the aisle or whatever. But he has made it clear what he is going to do. We know that. We know we have to go there and get it vetoed, come back

and find something that is acceptable. All that takes time. All the time we spend puts more risk on the military and their families.

I believe failing to enact this legislation very soon will have real-life impacts on our military personnel. I can't find much reason for that. If we can't take care of our troops' mental health and see that they aren't living in dilapidated barracks, we will have a hard time ensuring they are able to fight when the Nation calls. I hope we can continue to remember what giving these people are doing, what they are sacrificing. We need, of course, to support them.

It is very simple. If our troops don't have the training to deploy, then our soldiers and sailors overseas cannot come home, and that is kind of the situation we are increasingly in now. At this point the only priority should be funding our troops in the field. Even though we have other work to do, certainly if we look at priorities, what could be more important than dealing with the needs of our troops overseas.

I don't know if James Baker would have been any clearer when we reiterated that the Iraq Study Group report does not set timetables or deadlines for the troop withdrawal.

James Baker said:

The [Iraq Study Group] report does not set timetables or deadlines for the removal of troops, as contemplated by the supplemental spending bill the House and the Senate passed. In fact, the report specifically opposes that approach. As many military and political leaders told us, an arbitrary deadline would allow the enemy to wait us out and strengthen the positions of extremists over moderates.

Several months ago the President indicated he would establish a new direction in Iraq. General Petraeus is back in Washington today to report on the counterinsurgency plan. Certainly, it isn't doing everything we want it to yet. It hasn't achieved success yet. But it is moving in the right direction. We have a change in people. We have a change in leadership. We have a change in the plan. It has only been 3 months since we installed the general and only 60 percent of the troops are in place he had wanted and suggested were necessary. Despite these modest improvements, the other side wants to pack up and admit defeat. They are also claiming the war is lost, and that is unfortunate, especially when our troops hear those comments. In any event, I hope this Congress does what is responsible and sends the President a bill. Our troops deserve to know Congress will provide them with the funding they need to succeed.

I wanted to talk on that issue. It is one of the most important we have. I look forward to proceeding with what will be before us on the floor now, education. Sharpening up our competitiveness is very important. I am hopeful we can assure Members that this program

with this money and additional spending will have some impact. As we look at it, we have lots of programs that are designed to strengthen education, yet we don't have a very good measurement of whether those dollars are causing things to happen that we hoped they would.

I look forward to that.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CORNYN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. CORNYN. Mr. President, may I inquire how much time remains in morning business on our side?

The ACTING PRESIDENT pro tempore. Nine minutes.

Mr. CORNYN. I thank the Chair.

EMERGENCY SUPPLEMENTAL APPROPRIATIONS

Mr. CORNYN. Mr. President, for the past several weeks, there has been a lot of debate and discussion about the emergency supplemental appropriations bill that has been pending now before Congress for more than 2 months. Completion of this emergency supplemental is critical for our troops serving on the front lines and for their families here at home.

The President has requested, and Congress should be prepared to send immediately to the White House, a clean bill that meets our obligations to the troops. This legislation should not be used as a vehicle to pass billions of dollars of unrelated Federal spending or impose artificial deadlines on our commanders in the field. We have to move forward with this important military funding legislation because our troops deserve nothing less.

I want to highlight a few of the items that are included in this supplemental appropriations bill so our colleagues can appreciate how essential it is to get these funds to our troops as soon as possible.

This funding will ensure that our forces who are engaged in operations overseas have the very best force protection equipment available, as well as the most effective weaponry, communications gear, munitions, and other essential items.

For example, high priority items in the supplemental for our forces in Iraq and Afghanistan include: funding for body armor and other personal protection items; aircraft survivability components, radios, night vision equipment, armored vehicles, and high mobility, multipurpose vehicle Fragmentation Kits; funding for Improvised

Explosive Device Defeat Systems, at \$2.4 billion.

Yes, that Improvised Explosive Device Defeat System is the very type of technology we need to protect our troops from the type of weapon that has been more responsible than virtually any other for injuring our soldiers.

In the supplemental, more than \$5 billion in funding is designed for the ongoing surge of U.S. forces to support General Petraeus's revised strategy in Baghdad. Nearly \$4 billion in funding is to accelerate the transition of two Army brigade combat teams and establish a new Marine Corps regimental combat team. Nearly \$2 billion is to increase the size of the Army and Marine Corps to build combat capability, and lengthen the time soldiers and marines have between deployments.

There is some very important equipment our troops are being denied while we linger in passing this important supplemental. As I mentioned a moment ago, IEDs, or improvised explosive devices, continue to strike our troops during ambushes, and IEDs are responsible for a substantial number of the casualties.

The Marines and the Army have responded to enemy tactics with the acquisition of substantial numbers of up-armored HMMWVs and advanced armor kits for other vehicles. But the Army and Marines must continue to develop and field a mine-resistant ambush protected, MRAP, combat vehicle fleet capable of sustained operations on an IED-heavy battlefield.

A type of the so-called MRAP is depicted on this chart I have in the Chamber. I believe this particular one shown here is known as the Cougar. What is distinctive about this vehicle, which is so important to get to our troops, is it represents a change in technology, with a V-shaped hull underlying this vehicle, which actually will disperse the energy from an improvised explosive device away from the troops located inside the vehicle.

I had occasion to visit a manufacturing facility located in Sealy, TX, owned by Armor Holdings, which is constructing these very same vehicles, which are the subject of some of the funds contained in the supplemental.

The President's fiscal year 2007 supplemental request asked for \$1.83 billion for mine-resistant ambush protected, or MRAP, vehicles like this one shown in the picture. In addition, Senator BIDEN offered an amendment, which passed the Senate 98 to 0, that provided an additional \$1.5 billion in funding for these critical MRAP vehicles. The total MRAP funding in the supplemental is now almost \$4 billion.

From what I saw in Sealy at the Armor Holdings facility, and from what I have heard from our troops, this is exactly the kind of equipment they need but which is now being delayed as

Congress continues to debate this supplemental appropriations bill.

The mine-resistant ambush protected vehicle is an armored combat vehicle capable of providing superior protection to our warfighters against these kinds of IEDs.

According to Marine Corps BG John Allen, Deputy Commander of Coalition Forces in Anbar Province, in more than 300 attacks since last year, no marines have died while riding in a new fortified MRAP armed vehicle. There has been an average of less than one injured marine per attack on the vehicles, while attacks on other types of vehicles caused more than two casualties per attack, including deaths, according to Brigadier General Allen.

Our deployed servicemembers in Iraq and Afghanistan deserve this latest class of armored protection to protect them against the ever-present IED threat, and they do not need funding for this important vehicle to be held up.

Let me close by highlighting the effect of delayed supplemental funding on our military.

The Army announced on April 16 that because of the lack of passage of this supplemental, it will materially slow spending to various places. In order to stretch the money it has, the Army will tell commanders to slow spending in certain areas so war-related activities and support to families can continue. The Department of Defense will also request that Congress approve the temporary reprogramming of \$1.6 billion from Navy and Air Force pay accounts to the Army's operating account.

Beginning in mid-April—about this time—the Army has begun to slow the purchase of repair parts and other supplies, relying instead on existing inventory to keep equipment operational. Priority will be given to repair and refurbishment of immediately needed war-fighting equipment, while training and other nonmission critical equipment repair will be deferred.

In addition, the purchase of day-to-day supplies with governmental charge cards will be restricted, nonessential travel will be postponed or canceled, and shipment of equipment and supplies will be restricted or deferred altogether, unless needed immediately for war efforts. The Army has added it will also delay the repair of facilities and environmental programs unless the work is for safety or health reasons, or has effects on family support.

These actions carry significant consequences, including substantial disruption to installation functions, decreasing efficiency, and potentially further degrading the readiness of non-deployed units.

These decisions may actually add to the Army's costs over time. Just as importantly, as Army Deputy Budget Director William Campbell said in the New York Times:

Frankly, what I worry about is that second- or third-order effect that might affect a soldier or a soldier's safety or his ability to do a mission.

Mr. Campbell said:

As we put these brakes on, I do worry about the impact that we don't know about, that someone will take some action trying to do the right thing, but it will have a negative impact on the ability of a soldier to do his or her job.

The New York Times also reported that unless the budget standoff is resolved by the end of June, Pentagon officials have warned that units preparing to go to Iraq may not have enough money to undertake all of their required training.

It should go without saying, but apparently it needs to be said again, our troops need this funding, and they need it soon. Without it, it is simply a fact that our troops will be put at increased risk. We have been ready for weeks to work in good faith to pass a clean supplemental funding bill the President can sign as soon as possible. But every day we do not fund our troops is a day their ability to fight this war is weakened and they are exposed to additional danger.

Mr. President, I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

AMERICA COMPETES ACT

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will resume consideration of S. 761, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 761) to invest in innovation and education to improve the competitiveness of the United States in the global economy.

AMENDMENT NO. 904

Mr. BINGAMAN. Mr. President, I send an amendment to the desk on behalf of myself and Senator ALEXANDER.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from New Mexico [Mr. BINGAMAN], for himself and Mr. ALEXANDER, proposes an amendment numbered 904.

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To strike the NIST working capital fund provision)

On page 44, beginning with line 16 strike through line 2 on page 45.

On page 45, line 3, strike "(d)" and insert "(c)".

On page 47, line 8, strike "(e)" and insert "(d)".

On page 47, line 21, strike "(f)" and insert "(e)".

Mr. BINGAMAN. Mr. President, at this point I will yield the floor. I know my colleague from Tennessee wishes to speak about a variety of issues, and then there is another amendment which we also will be sending to the desk for Senator INOUE, who will be here fairly shortly, related to provisions that have come from the Commerce Committee.

Mr. President, I yield the floor.

Mr. ALEXANDER. Mr. President, we have Senator INOUE here, who has played a major role in the development of this legislation, and I believe we will have a little later Senator STEVENS, who is right behind me now, and Senator DOMENICI after that. So I am going to let the two distinguished chairs of the Commerce Committee speak.

Mr. INOUE. Mr. President, technological innovation is the lifeblood of U.S. economic growth and well-being. To achieve growth and success, the United States must continue to support the two critical components necessary during the early stages of the innovation ecosystem: education and basic research.

A pipeline of well-educated secondary school students feeds into the college ranks, which in turn feeds into the graduate schools. Graduate students engage in challenging and cutting edge research led by principal investigators that often are funded by Federal grants. Many times the students and scientists will make a breakthrough discovery of innovation and attempt to commercialize it. If successful, they will have created the next great generation, great American company that sells the next great product, employing thousands of people and driving this economy's economic growth further.

The United States has the luxury of claiming many of the world's top scientific minds. These leading scientists either emigrate to the United States because we provide some of the best facilities and resources or they are home grown, having excelled through the U.S. educational system to reach the top echelons of their respective disciplines. However, this premier standing we have enjoyed in the past is in serious jeopardy. As a result, many believe our economic prosperity is at risk.

Today the Senate has a unique opportunity to respond to the Nation's defining economic challenge in the 21st century, and that is how to remain strong

and competitive in the face of the emerging challenges from India, China, and the rest of the world. We have examined the expert reports and today the Senate is considering S. 761, the America COMPETES Act.

S. 761 is a bipartisan product of several committees including: the Health, Education, Labor and Pensions Committee; the Energy Committee; and the Commerce, Science, and Transportation Committee. As chairman of the Commerce Committee, which was instrumental in developing Divisions A and D of the bill, I encourage my colleagues to support S. 761.

Many point out that the United States' declining scientific prowess is palpable. They cite, for example, the country's dismal proficiency scores: less than one-third of U.S. fourth-graders performed at or above a level deemed "proficient" and about one-fifth of eighth-graders lacked the competency to perform basic math computations. U.S. 15-year-olds ranked 22 out of 28 Organization for Economic Co-Operation Development, OECD, countries tested in mathematics. This is a troubling statistic. In math and science education our country is losing ground to the likes of Germany, China, and Japan. In the United States, only 32 percent graduate with college degrees in science and engineering, while 36 percent of German undergraduates receive degrees in science and engineering. In China it is 59 percent, and in Japan, 66 percent of undergraduates receive science and engineering degrees.

In 2004, China graduated over 600,000 engineers; India, 350,000; and the United States, less than 70,000. These statistics are alarming and will have dire consequences as the U.S. talent pipeline begins to dry up. To respond, the America COMPETES Act emphasizes science, education, and technology as the keystones of a comprehensive American competitiveness agenda.

We considered programs in several agencies. Within the Department of Commerce, the National Institute of Standards and Technology, NIST, is charged with promoting U.S. innovation and industrial competitiveness by advancing measurement science, standards, and technology. The bill would continue NIST on a 10-year doubling path and promote high-risk, high-reward research within the agency.

Also within the Department of Commerce, the National Oceanic and Atmospheric Administration, NOAA, conducts significant basic atmospheric and oceanographic research, including climate change research. Its management decisions and operational programs rely on a strong scientific and technical underpinning. Some have argued that the ocean truly is the last frontier on Earth, and ocean research and technology may have broad impacts on improving health and understanding our

environment. Toward this end, our committee included modest provisions on NOAA research and education, which we hope to strengthen during the course of debate on S. 761.

The bill also includes the National Aeronautics and Space Administration in the administration's competitiveness agenda. Like the oceans, space captivates the minds of our young people and can help attract them into a lifelong study of science.

America COMPETES continues the Senate's commitment to doubling the funding of the National Science Foundation. The Foundation is the Nation's premier investment in undirected, basic science. The bulk of its funding is distributed as competitive grants. The bill includes provisions to ensure all States, including small States like Hawaii, can share in important research funding. After all, good ideas know no boundaries. In order to be strong, we will need the ideas and leadership of researchers and entrepreneurs in every corner of the Nation.

I was pleased to work with my colleagues on the HELP Committee to develop the NSF education provisions. I am proud to have included programs to encourage women to have careers in science, technology, mathematics, and engineering.

In recent years, we have passed legislation affecting interagency research in nanotechnology, information technology, computer security, climate change, oceans and human health, earthquake research, wind research, and aeronautics research. The America COMPETES Act provides for a Science Summit to encourage interactivity and knowledge sharing between science, scientists, and industry.

I would like to end by noting that technology and innovation pervade many policy problems that the Commerce Committee and the Congress face. Changes in telecommunications policy are being driven by innovation. In particular, low broadband penetration is cited as a factor in the loss of competitiveness in many U.S. regions. Also, our transportation infrastructure would benefit from increased investment and deployment of new technologies, such as investment in technologies that can increase energy independence.

To succeed in a whole host of arenas, we need scientific discoveries and a technologically savvy workforce. If enacted, the America COMPETES Act can provide the first step for this country to get back into the global race. Many countries are looking to overtake us to claim technological and economic superiority. While we continue to lead, we cannot take this lead for granted. I fully support what we are trying to accomplish with the America COMPETES Act and I look forward to working with my colleagues towards its final passage.

Mr. President, working with Senators STEVENS, HUTCHISON, other committee members, and members of other committees, we have developed a small package of amendments to the Commerce Committee sections of the bill. We took an expansive view of American competitiveness and wanted to ensure that the research agencies in our Government and jurisdiction could fully participate in interagency programs to address innovation and competitiveness.

This amendment is just the provisions regarding the National Oceanic and Atmospheric Administration, to align them with those addressing the National Aeronautics and Space Administration. I hope we can agree to even stronger provisions to promote ocean education. The oceans, like outer space, hold such a lure for young people and can draw them into a lifelong study in key fields of science, technology, engineering, and mathematics. These students may someday invent products that keep our Nation economically competitive.

The amendment also strikes a provision related to the sale of standard reference materials by the National Institute of Standards and Technology that could have resulted in a million dollars of direct spending. With this amendment, the bill contains no direct spending.

The amendment adjusts the authorization levels for the National Science Foundation, so that the increase will not fluctuate but will be a consistent 15 percent annually.

As amended, the fiscal year 2008 level for NSF is \$300 million over the President's requested level, reflecting the \$302 million in new education programs authorized in the bill. In addition, the amendment changes the authorized funding level for NSF's education and human resources programs to \$1.05 billion in fiscal year 2008, and for the experimental program for competitive research, to \$125 million in fiscal year 2008. These programs would grow annually from fiscal year 2009 to fiscal year 2011 at the same rate that NSF overall funding grows.

Finally, there are a series of technical changes to the bill that, first, add mathematics and engineering and technology in the Science Summit in section 1101; second, change the goal for increasing participation in two NSF fellowship and traineeship programs to a 4-year goal, matching the pendency of the authorizations in the bill; and third, on behalf of Senator HUTCHISON, we make a clarifying change to section 4006 regarding NSF priorities.

Mr. President, I appreciate all of my colleagues' help in improving the Commerce Committee section and look forward to adopting this modest agreement and amendment so that we can begin to debate S. 761 in earnest.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Tennessee is recognized.

Mr. ALEXANDER. Mr. President, before the Senator from Alaska speaks and while the Senator from Hawaii will be here for a while longer, I wanted to call attention to their leadership on this bill and their sense of urgency about the importance of it in the Commerce Committee.

I wanted to relate specifically an event a year ago, in August, in Beijing, China, which I related on the floor when the bill was introduced. I think it puts into perspective why so many Senators on both sides of the aisle have worked on that, why the bill is being introduced by both the Democratic and Republican leaders, and why it came directly to the floor and is ready for action.

Senator STEVENS and Senator INOUE took a group of Senators to China. They were especially well received—this Congressional Medal of Honor winner and this Flying Tiger pilot who flew the first cargo plane into Beijing toward the end of World War II. As a result, we spent an hour with President Hu and another hour with the No. 2 man, Vice Premier Wu. We talked about all of the things one would expect in that discussion: North Korea, Iran, and Iraq. But the subject, I recall, about which both of those leaders of China were most animated was the subject we are discussing on the floor today: How is China going to increase its brainpower advantage so it can create more jobs?

President Hu told us that he had done what we are doing today but in the Chinese way. He had, a month earlier, gone to the Great Hall of the People in China and assembled their national academy of science and engineering of China and established a 15-year goal for innovation and declared they would spend a certain amount in research and investment. That was the way they were going to raise their standard of living to compete with the United States. We see that with the recruitment of Chinese-born scholars who were educated in the United States and are going back to China to create even better universities there. We saw, under the sponsorship of these two Senators, that the two top leaders of that country understand very well America's brainpower advantage, which has been the greatest source of this remarkably high standard of living we have, and the fact that we produce 30 percent of all of the money in the world for just 5 percent of the people. I wanted to acknowledge their leadership and put into perspective that visit just last year in China.

Mr. INOUE. Mr. President, I agree wholeheartedly with my friend. We should not take the Chinese goal lightly. They mean business.

The ACTING PRESIDENT pro tempore. The Senator from Alaska is recognized.

Mr. STEVENS. Mr. President, I strongly support S. 761, which Senator INOUE just discussed. This is the America COMPETES Act. Fifty-six Senators, including members of both parties' leadership and several committee chairmen, are cosponsors of this important legislation.

When it was first brought to my attention last year, I tried to see if we could organize a joint committee of the Congress to act on this subject because I believe it is extremely important. Having read the Augustine report, I knew we had to move as quickly as possible. That was not possible last year, but I believe it is this year.

Many reports have revealed the serious competitive challenges we face. In 2003, the Organisation for Economic Co-operation and Development, OECD, compared 15-year-old students living in 40 industrialized nations. For America, the results were very dire. Our students placed 16th in reading, 23rd in science, and 29th in math.

Carl Sagan said it best when he wrote this:

We live in a society exquisitely dependent on science and technology, in which hardly anyone knows anything about science and technology.

Another report I mentioned before, the Augustine report, entitled "Rising Above the Gathering Storm," contains the findings of the Commission chaired by Norman Augustine, the retired chairman and CEO of Lockheed Martin. This study also paints an alarming picture of America's ability to compete in the 21st century.

Economists informed Commission members that "about half of the U.S. economic growth since World War II has been the result of technological innovation." But Commission members also discovered that our young people now spend more time watching television than they do in school or studying for school. They determined that hiring one engineer in America now carries the same cost as hiring eight engineers in India. They reported that 38 percent of the scientists and engineers with doctorates in our country were born abroad. If those young men and women choose to live and work in other countries, America will face a severe shortage of talented workers.

If we are to maintain our competitive edge, we must improve the education our students receive in science, technology, engineering, and mathematics. We must equip our teachers with the tools and resources they need, and we must encourage those who study in America to stay in America.

This legislation we are now considering is a tremendous step forward in these efforts. S. 761 seeks to ensure our Nation remains the global leader in innovation. It would increase Federal in-

vestment in basic research, improve educational opportunities for young students to become excited about these fields, and develop an innovation infrastructure appropriate for the 21st century.

The America COMPETES Act is the result of bipartisan cooperation between three committees: Commerce, Energy, and HELP. Since last year, these committees have worked together to address key concerns and solutions identified by the Council on Competitiveness and the National Academies.

A number of Senators also deserve recognition for their leadership on this matter: Senators BINGAMAN, ALEXANDER, ENSIGN, HUTCHISON, DOMENICI, INOUE, KENNEDY, LIEBERMAN, MIKULSKI, and NELSON. They all deserve our deepest gratitude, and I am sure there are others. Without their hard work and dedication, our bill would not have reached the Senate floor.

In closing, let me say that educating the next generation of American innovators must be a priority for this Congress. Our Nation is at the crossroads, and the decisions we make today will affect us for decades to come. This bill, when enacted, will reaffirm our commitment to America's economic future. I urge each of our colleagues to support its swift passage.

I thank the Chair.

Mr. ALEXANDER. Mr. President, I wish to say to the Senator from Alaska that if he, who last year was President pro tempore of the Senate, and Senator INOUE, one of our leading Senators on the Democratic side, had not from the beginning placed such a priority on this legislation, it could never have made its way through the committees and reached this point. So I salute them for their willingness to look into our country's future and see the importance of this issue.

Mr. President, if the Senator from Hawaii doesn't have further comments at the moment, I might use the time for the next few moments to talk about a couple of items. One is how we got here with this legislation and, two, more about what it does.

First, let me say on behalf of the leadership, Senators REID, MCCONNELL, BINGAMAN, INOUE, and others, we hope that Senators will bring their amendments today, or early. Let us see them so that we can talk about them and, if necessary, vote on them.

The Democratic leader and the Republican leader have created an environment in which we can deal with this bill in the way the Senate ought to be dealing with a piece of legislation that is at least on a subject as important as any other subject that will be before us. In other words, the bill is on the floor. We are ready to receive amendments. We are ready to vote on amendments, if necessary. I am sure the Democratic leader, who will announce

his schedule, would like to finish the bill by Wednesday sometime because we have other important legislation to consider this week. So I hope we make the most of today, tomorrow, and Wednesday.

Just a word about how the Senate got here. I mentioned earlier that in China, President Hu could simply call a meeting in the Great Hall of the People and, with his national academies of science and engineering, declare that: This is where we are going for the next 15 years. In China, that works pretty well, and that is likely where they are going. They have very specific goals, for example, for the amount of gross domestic product they will be spending on research and development, what they will be doing with their universities, and how they hope to improve their schools.

In the United States, we have to work in a little different way. The result we have here today with this legislation, which is 2,008 pages long—and I know that because I reread it over the weekend. It came in a different way.

Senator BINGAMAN and I, with the encouragement and sponsorship of Senator DOMENICI, who was chairman of one of the affected committees here, literally asked the National Academy of Sciences this question a couple of years ago: What are the top 10 actions in priority order that Federal policymakers could take over the next 10 years to help the United States keep our advantage in science and technology?

We figured that Members of Congress were not necessarily the best ones to make those recommendations. I am sure the Presiding Officer has some idea of some math or science program he thinks might be best or at least he has two or three friends who have an idea. I know the Senator from Hawaii has one. I have five or six myself. We thought perhaps we should ask the people who are supposed to know.

We asked the National Academy of Sciences, the Academy of Engineering, and the Institute of Medicine exactly what should we in the Congress be doing. It is my view most ideas fail around here for the lack of an idea, so we asked them specifically for an idea.

The academies took us seriously. They assembled an all-star panel of business, Government, and university leaders headed by Norman Augustine, as the Senator from Alaska said, the former chairman and CEO of Lockheed Martin, a member himself of the National Academy of Engineering. That panel included three Nobel Prize winners.

Those very busy people, including university president Bob Gates, now Secretary of Defense, and the Nobel Prize winners, gave up their summer, and they took our question seriously. Exactly what does the United States need to do to keep our brain power ad-

vantage, is really the question. We asked for 10 and they gave us 20 recommendations.

The recommendations are in this report, "Rising Above the Gathering Storm," to which the two Senators have referred. To their credit, they put it in priority order. I will talk more in a minute about what the priorities are.

They started with kindergarten through 12th grade, 10,000 teachers, 10 million minds, K-12 science and math education: "Sowing the Seeds through Science and Engineering Research," "Best and Brightest in Science and Engineering Higher Education," "Incentives for Innovation and the Investment Environment." They gave us 20 recommendations in priority order.

That was not the only idea before the Senate at that time, nor were those of us in the Senate the only ones involved. Representatives SHERWOOD BOEHLERT and MARK GORDON of the House Committee on Science had joined us in asking this question. I know Representative GORDON, who is now chairman of the House Science Committee, moved forward quickly to introduce in the House of Representatives similar legislation.

What did we do when we got these 20 recommendations? As I mentioned, they were not the only recommendations. Senator BINGAMAN and Senator HUTCHISON, for example, had been working for many years to increase the number of children, especially low-income children, who could take the advanced placement courses. Those are a ticket to college, and there are a lot of bright kids who don't have the money to pay for the tests or who go to schools where the teachers are not trained to teach the courses. They have been working on that for a long time. Senator BOND from Missouri and Senator MIKULSKI of Maryland have been speaking about this for a long time. Then there was an excellent piece of legislation by Senator LIEBERMAN and Senator ENSIGN which had in it recommendations from the Council on Competitiveness. Many of those recommendations were then included in the Commerce Committee's hearings and deliberations.

So the question is how to take all this information in the Senate where people have lots of different ideas and get it all together into one bill and get it passed. Senator STEVENS said: Let's form a joint committee. That is a little harder to do than before. Senator INOUE once served on a joint committee—well, it was a special committee in the Watergate days, but there are not that many around here because we have our own committees.

What happened was our senior Members of the Senate, such as Senator STEVENS and Senator INOUE, Senator ENZI and Senator KENNEDY, Senator DOMENICI and Senator BINGAMAN, just by the force of their own personalities

worked together to create an environment with the help of a lot of staff members to say: Let's take all of these ideas and let's work in a genuinely bipartisan way.

We then had a Republican Congress last year. Senator DOMENICI, who will be here a little later this afternoon, was chairman of the Energy Committee. He went to the White House to talk with the President about this issue. He invited me to go with him, but he didn't just invite me, he invited Senator BINGAMAN, his ranking Democrat, to go with him. So all the way we have worked together on this legislation.

Then we sat down shortly after this report came out, which I suppose was in 2005 in the fall, and had a series of what we call homework sessions. We invited representatives from the National Science Foundation, the U.S. Department of Energy, the U.S. Department of Education, the President's science adviser, and a whole variety of other people within the administration who were already working on these subjects to get their advice about these ideas and other ideas as we formed legislation. That is the kind of input this legislation has had.

Finally, Senator DOMENICI and Senator BINGAMAN introduced what we call the PACE Act, Protect America's Competitive Edge Act. Symbolically, it had 70 cosponsors in the Senate—34 Republicans and 35 Democrats.

So we have gotten to the beginning of 2006. I will say a little bit more in a moment about exactly what was in that legislation, but let me continue with the process because it is fairly remarkable and helped to produce this legislation which I found in rereading it over the weekend is remarkably coherent. It is in plain English. It is organized by sections. I could understand virtually every section. I have been reading it as we went along. Maybe this is a model for other complex legislation we have in the Senate.

The President, in his State of the Union Address in 2006, and again this year, put the issue front and center with what he called his American competitiveness agenda. The President included \$6 billion in his budget for just the first year. In March of last year, the Energy Committee reported eight provisions related to energy research and math and science education for students and teachers in association with the National Labs. So eight provisions of the Augustine report were reported out by the Energy Committee.

Then in May the Commerce Committee reported a bill that included ideas from the Augustine report, as well as the President's Council on Competitiveness. We had it from two committees.

Then the immigration bill passed the Senate. The immigration bill didn't finally become law, but it passed the

Senate with pretty big numbers, and included within it were three provisions that tackled some of the most archaic provisions in our immigration laws, those provisions which basically prevent our insourcing of brain power.

We have more than 500,000 foreign students who come here every year to study. They include some of the brightest people in the world, and we make them swear before they come that they will go home when, in fact, we should want most of them to stay here and create jobs for us so we can keep our standard of living.

So three provisions from the Augustine report were in that immigration bill that passed the Senate last year, and it is my hope that when the Senate takes up immigration legislation before Memorial Day, which the majority leader has said we are likely to do, that legislation will, again, have the provisions from the Augustine report and other recommendations that will make it easier to attract and keep in our country the brightest men and women from around the world. If they are going to create good jobs somewhere, let's create them in the United States for Americans to have.

The Defense authorization bill included a provision related to support for early career researchers funded by the Pentagon. There are so many good applications from so many talented people in the United States for basic research or even applied research that the investigators, as they are called, are sometimes in their forties before they win their first grant. That is discouraging to many of the brightest young minds in the United States. These recommendations have sought to include changes, and the Defense authorization bill last year took a step in that direction.

One of the major recommendations of both of the reports I just mentioned was making permanent the research and development tax credit so that our brightest manufacturing jobs can stay here rather than be created overseas.

In the so-called tax extender last year, the tax credit was temporarily extended, and so that was dealt with last year. Last year, just before Senators went home for the elections in October, the two leaders, Senator Frist then the majority leader, and Senator REID then the Democratic leader, introduced a package—it was numbered S. 3936—that included the work of the Energy and Commerce Committees and added an education component to improve our children's knowledge of math, science, and critical foreign languages.

That bipartisan product was the work of the chairman and ranking members of the Health, Education, Labor, and Pensions Committee and the Commerce and Energy Committees.

We tried to be good stewards of the public money as we went through this

process. That working group last year trimmed \$3 billion from what the committees passed in order to make it more affordable. We did our best to stay close to the President's budget number, although we slightly exceeded that number.

This year, to bring us to where we are today, the majority leader, Senator REID, and Senator MCCONNELL, the Republican leader, took that bill, the one introduced last year by Senator Frist and Senator REID, and reintroduced it by removing authorizations for 2007 since we have already finished work on 2007 and are looking ahead to 2008. That is the bill we are considering today, the America COMPETES Act.

That is a long train ride. To those who may be outside the Senate, they may think that is unnecessarily complex. We didn't really need to know all that. I think it is important for the American people to know all that. It is especially important for Senators and their staffs to know all that because virtually every Member of the Senate has had 2 years to get their say. I know on the Commerce Committee there have been long meetings of members of both sides. I know that is true with the staff meetings. Not all would write every provision of the bill the way it is, but that is the nature of work in the Senate. It is a very good piece of legislation. It may be improved on the Senate floor by amendment, but it has been a long and good process.

Mr. INOUE. Will the Senator yield?

Mr. ALEXANDER. I yield.

Mr. INOUE. Mr. President, I commend my colleague, Senator ALEXANDER, for his broad and very intricate history of the bipartisanship. If all of us in this body followed this process on all major legislation, this would be a historic session, and I hope it is so. This will be one of the first I can look back to and say we tried and we succeeded. And I think we are going to succeed. I thank the Senator from Tennessee very much.

Mr. ALEXANDER. Mr. President, I thank the Senator. His example with Senator STEVENS is a good example for all of us. I hope he is right. The American people know we all have our principles, and we have our politics. They know that. But I believe they also know there are some issues that are simply too big for one party to solve, whether it is Iraq, whether it is immigration, whether it is energy independence, whether it is affordable health care. And one of those issues is how do we keep our brain power advantage so we can keep our jobs from going overseas to India and China.

It will take a comprehensive approach. We take for granted sometimes that we produce 30 percent of all the money in the world for 5 percent of the people. That is one of my favorite statistics. If I were a citizen of China or of India and I was looking at the United

States and I saw that disproportionately our wealth comes from our brain power, I would be encouraged because many of the brightest people in the world are in China and in India, wonderful researchers, wonderful scientists. There is no reason in the world that they cannot use that great resource they have to improve their standard of living, and they are setting about to do it.

If the Senator from Hawaii has no objection, I thought I might talk a little about what is in the bill, just to go over it.

As I said, for those who like to read whole bills, it is 208 pages, but any contractor will tell you that it is cheaper to start from scratch in building a house sometimes than remodeling it. I think we may have found something here working together in a bipartisan way. In starting from scratch, we actually may have produced a better organized bill, more straightforward than trying to remodel a lot of existing laws. But here is what we sought to do.

Based upon these recommendations, this legislation doubles funding for the National Science Foundation over 5 years. Now, this is the work of Senator INOUE and Senator STEVENS and their committee. This is merely an authorization bill—it doesn't appropriate a penny, but it has to be within the budget. Senator BINGAMAN offered an amendment, which I joined in with during our budget discussion, and it created room in the budget, nearly \$1 billion of room in the budget, for the first year appropriations of the America COMPETES Act. So these dollars are within the budget, and I will talk a little more about the dollars a little later.

I might say one thing about the dollars. The dollars are an additional \$16 billion in spending over the next 4 years. That is real money. But we might remember on what else we spend money. That is about 2 months of the war in Iraq. We spend about \$8 billion a month on the war in Iraq. We spent \$237 billion on debt last year, \$378 billion on Medicare, \$545 on Social Security, and \$100 billion or so on hurricanes. These are all very important priorities, but somehow we have to put gas in the engine, and the gas in the engine is our brain power advantage.

We have to invest in research, education—K-12—in order to keep the advantage that creates the dollars that pay these bills for our most important programs. But we have worked hard. We have worked hard to have fiscal discipline. The \$16 billion over the next 4 years that this bill would authorize to spend, and which is within the budget for this year, is a significant savings over the original legislation last year. More than \$3 billion over the 4 years in authorized funding has been cut from last year's competitiveness bills passed by the Energy and Commerce Committees.

We also worked hard to avoid duplicative undergraduate scholarship programs that were proposed in earlier legislation, and it reduced the cost of a number of other proposed and existing programs. For example, the Robert Noyse scholarship program of the National Science Foundation was very similar to a recommendation of the Augustine report. So after discussions with the National Science Foundation in our homework sessions, we thought, well, why create a new duplicative program when we already have a good one. So we simply sought to expand it.

With regard to the education and energy portions of the bill, the total cost closely tracks the President's proposed American Competitive Initiative. Remember, he put in \$6 billion in his budget last year. The President has proposed over 10 years doubling research funding at the National Science Foundation, the National Institute of Standards and Technology, and the Department of Energy's Office of Science. The cost of the commerce portion of this legislation is a bit higher, but that is because Chairman INOUE and Co-chairman STEVENS agreed last year that they wanted to double the National Science Foundation's funding at a faster rate, of about 5 years rather than 10. So I would argue that this is progrowth legislation and a small price to pay for that growth in our standard of living.

Mr. President, I would say to the Senator from Hawaii that any time he would like to interrupt my presentation, I hope he will.

Some of the specific provisions are the doubling of funding for the National Science Foundation, I just mentioned, from \$5.6 billion in the current year to \$11.2 billion in 2011. Before I arrived, the Congress doubled funding for the National Institutes of Health with a great payoff, most people felt, in terms of our health and research for cures for diseases. But we did not do as good a job during that period of time on the physical sciences, which are also important to the health sciences. This, hopefully, will begin to change that.

Second, setting the Department of Energy's Office of Science on track to double in funding over 10 years, and increasing from \$3.6 billion in the current year to \$5.2 billion in fiscal year 2011; establishing the innovation acceleration research program, which will direct Federal agencies funding research and science and technology to set as a goal dedicating approximately 8 percent of their research and development budgets toward high-risk frontier research. This was a recommendation of both of the major organizations, the Augustine committee and the Council on Competitiveness.

What this means is that there are so many good proposals before the peer review and merit review groups that give out basic research grants that

they obviously tend to be a little more conservative when presented with so many good ideas. The disadvantage of that is that it reduces the impulse to take a few risks, to roll the dice, or to try some idea that has less of a chance of succeeding but might be the next Google or the next hybrid or the next Internet or the next stealth invention. So this legislation encourages all through the America COMPETES Act in virtually every section that we fund, the idea of setting as a goal—not a mandate but as a goal—8 percent of the research and development budget toward this high-risk frontier research.

Next, it authorizes bringing the National Institute of Standards and Technology up from \$703 million next year to \$937 million in fiscal year 2011. It would direct NASA to increase funding for basic research. It will authorize coordinating ocean and atmospheric research and education at the National Oceanic and Atmospheric Administration and other agencies to promote U.S. leadership in these important fields. This has been a major priority of Senator INOUE, as well as others.

The Augustine committee, at our request, was asked to give us some priorities and not just give us a random list. And I might say, when they gave us 20 recommendations instead of 10, and they gave them in priority, they didn't just go out and get the first 20 they heard about. Over the summer, the working group of 21 members—and I am sure the Council on Competitiveness did the same—considered hundreds of ideas. So our leading scientists and the people we asked to give us their best advice on science and their best advice on medicine and their best advice on engineering, they waded through dozens and dozens of operating programs and other ideas and gave us just a handful of the best ideas.

This has been a tremendously important screening process. I believe one reason this has been so broadly accepted in the Senate and by those outside the Senate is that it is not just one Senator's idea of what is a great math program or another's best friend's idea of a good research program. This is, in effect, a merit-based, peer-reviewed set of recommendations and an answer to the question as to what are the most important things we can do to keep our brain power advantage.

So, No. 1, authorizing competitive grants to States to better align elementary and secondary education with knowledge and skills needed for success in colleges and universities and the Armed Forces.

Now, what that means in plain English is to make sure our elementary, middle, and high schools are teaching what students need in order to go to college, to go to work, and to go to the Armed Forces. That is the key.

Next, strengthen the skills of thousands of math and science teachers by

establishing training and educational programs at summer institutes hosted by the National Laboratories, and increasing support for the teacher institutes at the National Science Foundation's institutes.

One Senator said to me the other day: This is new, isn't it, the idea of giving the National Laboratories such a specific role in training outstanding math and science teachers and inspiring math and science students to learn and achieve more in math and science? The answer is, yes, it is new. But the feeling of the Augustine commission and others is that we have a crisis in math and science. And that is not too strong a word.

The former Governor of North Carolina, Jim Hunt, told me the University of North Carolina only graduated three physics teachers in a recent year from its college of education. So we are not going to learn much physics if we don't have anybody teaching much physics. So why not take advantage of these remarkable National Laboratories we have around the country. I guess there are about two dozen or so of them, like the Oak Ridge Laboratory in the State of Tennessee, but there is also Los Alamos and Lawrence Livermore. They are all around the country. If you are going to inspire a student or inspire a teacher to be active in math and science, why not place them in an environment for 4 weeks in the summer with some of the finest math and science researchers and individuals in the United States?

It would be a choice for a young musician—give them a choice whether to be on the road with Johnny Cash or be in the business office at the Grand Ole Opry, and they will go on the road every time because that is how a singer learns to be a singer. And that is how a student learns what they can do with math and the joy of mathematics.

When I was Governor of Tennessee we created summer academies—we called them the Governor's schools—for outstanding students and teachers of various subjects. About 20 States have done the same thing. We have found it is the best money we ever spent to offer 4 weeks at the University of Tennessee connected to the Oak Ridge National Laboratory for 200 of the most outstanding high school juniors interested in science and math. The teachers love to teach them, the students love to come. Instead of becoming a nerd in their rural school, suddenly they are with 200 peers, and they are all celebrated for their academic achievements. Why not use these National Laboratories to our advantage?

No other country in the world has the National Laboratories that we have. One thing they can do is to help inspire the next generation of math and science students and improve this generation and the next generation of math and science teachers.

So expanding the Robert Noye teaching scholarship program at the National Science Foundation—this is a very fine program at the National Science Foundation which has had for a long time a role in education as well as research. This program trains individuals to become math and science teachers in high-need local education agencies.

Assisting States in establishing or expanding statewide specialty schools in math and science. Now, I don't know whether the State of Virginia or the State of Hawaii has a full-time residential school in science and math. I know the State of North Carolina does, and I went to see it. Governor Jim Hunt set it up. I went to see it when I was Governor. We didn't believe we had enough money to create one in Tennessee, so we created those summer academies about which I just spoke. But Governor Bredeben, our current Democratic Governor of Tennessee, wants to start, and has made a very small start, of what we call in the legislation a specialty school in math and science, and several other States have followed North Carolina's example. This would help States up to about a 50-percent level. All the rest of the money would have to be private, State, or local.

Establish schools like the North Carolina residential high school for math and science. Not only will it give gifted students a greater knowledge, but it helps us compete with the world. North Carolina has felt as though over the last 20 years it has helped keep many of those bright students in North Carolina because if they go there to school, they may go there to college, or at least they may come back if they go somewhere else, and then they create more jobs and build up that economy.

Facilitating the expansion of advanced placement in international baccalaureate programs by increasing the number of teachers prepared to teach those courses and foreign language courses. The AP courses, advanced placement courses, are a ticket to success. College entrance examiners read them carefully. If you get a 4 or a 5—those are the highest grades in math or science—or if you take several of them, your chances of being admitted to a variety of institutions are increased. But they are offered to a very limited number of the students—not limited by their brains but limited by their money. They either do not have the money to pay for the tests or they do not go to the schools where there are enough teachers who are trained to teach in the preparation for their tests.

This builds on a program in Houston, TX, which has been very successful in the last 10 years, of expanding the opportunities for low-income students to take more advanced placement courses to prepare for college and also to train teachers to meet that demand.

Senator HUTCHISON and Senator BINGAMAN have been two of the leaders in this for 10 years in the Senate.

There are a variety of other proposals. Adopting another program from Texas, the You Teach program—this wasn't sent over from the White House although this is two straight Texas programs; this is from the National Academy of Sciences, because they have a terrific program at the University of Texas at Austin, where they take students who are enrolled in chemistry and recruit them into the College of Education with an attractive scholarship and then the idea was to pay them \$10,000 a year to teach at a high-needs school for 5 years after they leave. In other words, they get the people into teaching and they will put them in the schools where they are needed the most. That is called the You Teach program. It would expand that.

There was a program from the University of Pennsylvania which would take teachers who are now teaching and give them intensive summer training and improve their ability to teach math and science, all toward the same objectives.

Then the President proposed Math Now grants, improving the teaching of mathematics in the elementary and middle schools. That is in here as well, after it went through the process. Then we expand the programs to increase the number of students who study critical foreign languages and become proficient. That was recognized here for a variety of reasons as a part of keeping our brain power advantage.

Finally, there are a number of proposals that would identify continuing organizations within the White House and Cabinet councils and other studies to try to keep a spotlight on this subject.

This is not the whole answer to the book "The World Is Flat." It is on the same subject. It is part of the answer. It is a good start. In fact, it is a very good beginning. But we need to continue this attention to our position in competitiveness.

What I have tried to review here is how this legislation came to the floor, why it has attracted this unusual leadership from the majority leader and Republican leader, why it has had such a sense of urgency from senior leaders such as Senator INOUE, Senator STEVENS, and others, why today it has 56 sponsors, why the House of Representatives is considering legislation on a parallel track, and why I believe there is no more important piece of legislation that will come before us in this session of Congress.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. INOUE. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

AMENDMENT NO. 904, WITHDRAWN

Mr. INOUE. Mr. President, on behalf of the distinguished chairman of the Energy Committee, I ask unanimous consent to withdraw the pending amendment.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

AMENDMENT NO. 906

Mr. INOUE. Mr. President, I am pleased to send to the desk a managers' package, which I described earlier, from the Commerce Committee.

The ACTING PRESIDENT pro tempore. The clerk will report.

The legislative clerk read as follows:

The Senator from Hawaii [Mr. INOUE], for himself and Mr. STEVENS, proposes an amendment numbered 906.

Mr. INOUE. I ask unanimous consent the reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To strike the provisions regarding the working capital fund and to amend certain provisions regarding the National Science Foundation)

On page 5, beginning on line 13, strike "science and technology" and insert "science, technology, engineering, and mathematics".

On page 25, line 5, strike "education" and insert "education, consistent with the agency mission, including authorized activities".

Strike from line 16 on page 44 through line 2 on page 45.

On page 45, line 3, strike "(d)" and insert "(c)".

On page 47, line 8, strike through the end of line 20.

On page 47, line 21, strike "(f)" and insert "(d)".

On page 49, between lines 17 and 18, insert the following:

SEC. 1503. NOAA'S CONTRIBUTION TO INNOVATION.

(a) PARTICIPATION IN INTERAGENCY ACTIVITIES.—The National Oceanic and Atmospheric Administration shall be a full participant in any interagency effort to promote innovation and economic competitiveness through near-term and long-term basic scientific research and development and the promotion of science, technology, engineering, and mathematics education, consistent with the agency mission, including authorized activities.

(b) HISTORIC FOUNDATION.—In order to carry out the participation described in subsection (a), the Administrator of the National Oceanic and Atmospheric Administration shall build on the historic role of the National Oceanic and Atmospheric Administration in stimulating excellence in the advancement of ocean and atmospheric science and engineering disciplines and in providing opportunities and incentives for the pursuit of academic studies in science, technology, engineering, and mathematics.

On page 170, strike lines 20 through 23 and insert the following:

(1) \$6,729,000,000 for fiscal year 2008;

- (2) \$7,738,000,000 for fiscal year 2009;
 (3) \$8,899,000,000 for fiscal year 2010; and
 (4) \$10,234,000,000 for fiscal year 2011.

On page 172, line 19, strike "Foundation, for each of the fiscal years 2008" and insert the following: "Foundation, for fiscal year 2008, \$1,050,000,000, and, for each of the fiscal years 2009".

On page 172, line 25, strike "2007" and insert "2008".

On page 173, line 5, strike "5-year" and insert "4-year".

On page 173, line 21, strike "an additional 250" and insert "additional".

On page 174, line 5, strike "5-year" and insert "4-year".

On page 174, line 17, strike "an additional 250" and insert "additional".

On page 183, line 4, strike "restrict or bias" and insert "inhibit".

On page 183, line 5, strike "against" and insert "for".

On page 184, beginning on line 2, strike "1862g), for each of fiscal years 2008" and insert the following: "1862g), for fiscal year 2008, \$125,000,000, and, for each of fiscal years 2009".

On page 184, line 8, strike "2007" and insert "2008".

Mr. INOUE. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. ALEXANDER. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. ALEXANDER. Mr. President, I wish to speak to the amendment, the managers' package the Senator from Hawaii has proposed. I wish to make two points about it.

The first is it reduces the cost of the bill by \$280 million over 4 years. That is important to all of us and it is especially important to some of us. We are trying to spend money wisely.

At the same time, there are significant increases in the National Science Foundation education programs—about \$300 million, in fact, over the President's requested level. But it is important that we know what these are. They are directly in line with the recommendations of the Augustine report and the Council on Competitiveness. Remember, we asked them to put these recommendations in priority order. The first thing is not the R&D tax credit, it is not bringing in more foreign students—it is not. The first thing was kindergarten through 12th grade math and science education. That is where our academies believed we had the biggest problem. So this new money for education programs in the National Science Foundation goes to graduate research fellows, to graduate education, research traineeships for a program called Professional Science Masters. This is a program where colleges are helping students earn master's degrees, not necessarily with the goal of going on to a Ph.D., but a mas-

ter's degree that might take you on into a highly technical field in business; in other words, making us more competitive. It includes the Robert Noyce scholarships, which were expanded to help train more math and science teachers, and the teachers institutes in the summer.

These programs are education programs of the National Science Foundation, but we save \$280 million over 4 years, and we have directed those toward nonduplicative programs that are consistent with the commission reports.

I wonder if, before Senator DOMENICI speaks, I could say a word. Senator DOMENICI is here. He is going to speak now. I am going to step to the side while he does. But I wish to say a word about Senator DOMENICI's crucial role.

I have already spoken to the fact that without the sense of urgency of Senators INOUE and STEVENS, we would never have gotten to this point. But Senator DOMENICI was there at the beginning of this work. Even though, in our caucus, only one Senator is more senior, he stepped back and created an environment so Senator BINGAMAN and I and many other Senators could work on this. He watched it very carefully, he supervised it, he chaired it, but he left room for us, many of us, to work on this.

When it came time to go to the White House, it was Senator DOMENICI who asked the President if we could come see him. It was Senator DOMENICI who, rather than go down by himself as a Senator might have done, invited his junior colleague, me, to go with him. But more important than that, he invited his senior colleague, the Democratic Senator from New Mexico, Senator BINGAMAN, to go. It was Senator DOMENICI who insisted in the Energy and Commerce Committee he chaired that all this work be done in a bipartisan way. So because of that and the way Senators STEVENS and INOUE work, we were able to do this.

It was a Domenici-Bingaman piece of legislation called the Protect America's Competitiveness Act that was introduced last year with 70 sponsors, 35 Democrats and 35 Republicans.

So before, Senator DOMENICI came, I thanked and saluted other Senators whose leadership has made a difference. But no one has been more responsible for this piece of legislation coming through.

Now that the assistant Democratic leader is here, I want to use this occasion to say how much I, and many of us, appreciate the way he and the majority leader have handled this piece of legislation; created an environment in which we have it on the floor in a way it can succeed. Senator DURBIN, the Presiding Officer, has been a strong supporter of this legislation and a co-sponsor of it from the beginning. I also wanted to recognize that.

Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. DURBIN). The Senator from New Mexico is recognized.

Mr. DOMENICI. Mr. President, it is now over 60 years ago that a brilliant, charismatic man arrived on the scene in my home State of New Mexico. He cut an odd figure and began a strange recruiting effort for a secret project at an undisclosed location for an undetermined period of time.

Who was this man and what was the upshot? His name was J. Robert Oppenheimer, a brilliant and charismatic American physicist. We all know something of him, and we might have different views, one from another. But he was collecting the best scientific minds of his time worldwide, not just Americans, for he had the Fermis from Italy, husband and wife. Some say, as they assessed the brilliance of the team, Enrico Fermi led the pack. I don't know which; it was 60 years ago. But I do know they were asked and recruited by Mr. J. Robert Oppenheimer. He was collecting the minds and taking them on a mysterious journey to a remote mesa in New Mexico. The task was to develop the first atomic bomb. The collective scientific brain power of the Manhattan Project, and the awesome power it produced, would change the world forever. The scientists at Los Alamos ushered in a new era. Their sacrifice and their ingenuity created a story for the ages.

More specifically, their legacy for us is to consider today, and is to find out that there is great value in an awesome power of science and mathematics education. That is what brings me to the Senate floor, and that is why I rise in strong support of this bill under consideration.

Today is a great day. Today the Senate begins a process of rising above the gathering storm. Let's hope. Let's hope. Those words, "Rising Above The Gathering Storm," are part of the title of the National Academy of Science report released in 2005 on American future competitiveness and standard of living of our people. The report was written by a distinguished group chaired by a former Lockheed chairman, chief executive officer Norm Augustine. Mr. Augustine's committee included three Nobel laureates, presidents of leading American universities, including then Texas A&M president and current Secretary of Defense, Robert Gates, and the chief executive officers of corporations with global reach.

After an intensive 10 weeks, the committee presented a significant challenge to our Nation. The findings of the "Gathering Storm" report and the 20 communications within tell us one thing above all else: America is not doing enough to harness and develop its national brain power. Yes, that is a strange thing to say. We are not doing

enough to harness and develop our national brain power. Today we are here to begin to remedy this problem and to meet the challenge set forth in the report.

I am so grateful that even after 34 years in the Senate I can find an issue such as this to get excited about. I can find an issue such as this that Senators from both sides of the aisle can get excited about. They do not talk about their parties when we have these meetings. Most interesting. Maybe they go back to their rooms and talk about the Democratic party, how it can use this report, or the Republican party. They talk about America's brain power is on the wane, meaning that, believe it or not, we can do something about it. That is a nice observation. We can do something about the waning brain power of America; meaning these young kids, 9, 10, 11, 12, 13, 14, 15, 16, 18 years of age, have within them the same collective brain power that was present when Oppenheimer went looking for the best. It was not just assumed that there were smart people; they knew there were people with brain power. Right? They just didn't have them in place. They were scattered about. Fermi was over here, some guys were over in Eastern Europe, and a bunch of them were over on the West Coast. But somebody had to put them together. They collected brain power that unlocked the atomic bomb.

Now, we are not going to do that. What we are trying to do is look back and say, how do we do the things that experts tell us will, in fact, increase the brain power of our people. It is there the same as it is in China. They are just producing more. Does it mean they have more? No, it does not. It means they have decided it is the greatest thing for them, so they are educating more and more and more. So is India. We are sitting over here with all of the greatest institutions to do the educating, but we do not have—it has not been coalesced even around the essence of a plan that has, as its goal, brain power collection, brain power enhancement; brain power is on the wane. Let's build it back.

That is what we are trying to do. Today, we begin to remedy the problem and meet the challenges set forth in the report called the "Gathering Storm." It tells us in a few pages why it is a storm. It tells us in a few pages why it is a gathering storm. It tells us in a few pages that we are actually selling ourselves short. It tells us if we do not decide to build this brain power back, we are going to lose. We are going to lose a war which some of us do not even know we are fighting. We are going to lose the war for brain power equality and we do not even know we are fighting.

This "Gathering Storm" report identifies the two challenges linked to scientific and engineering excellence:

first, creating high quality jobs for the American people, and, secondly, responding to America's need for clean, affordable, and reliable energy.

The report was aimed at enhancing our Nation's human financial knowledge and capital to ensure our prosperity. It addressed increasing America's talent pool by vastly improving science and mathematics education in kindergarten through grade 12. The report, "Gathering Storm," called for significant advances in science and engineering programs in our Nation's higher education, improving our economic policy, from intellectual property protection to research and development tax credits and tax incentives for U.S.-based innovation.

The report also provides us with some worrisome indicators. The following few facts should sound alarm bells throughout this Chamber and this Nation. I trust people will listen. Senators have participated from both sides of the aisle, from all vintages. Some are young, some have just come, they are excited, some have been here a long time. I am not going to say such as the Senator from New Mexico, I am going to say such as the Senator from Hawaii, and he is enthused. Some have been even here as long as the Senator from Alaska, and that is a long time, longer than me, and he is excited. Right? What it means is if you put the right plate in front of us, we can get excited about doing something for our great country.

This report provided us with some worrisome indicators. I am going to tell you about them in a minute. In 2001, U.S. industries spent more on tort litigation than research and development. Look at that. That is not happening to our competitors, I tell you.

If we want people over here to say, well, there is some good to that, we are gaining something on that, well, we will have an awfully long dialog on the floor on that one fact. Are we gaining that much benefit for the American people out of our tort system, as we are when we say that costs us as much in dollars? It says here: Industry spent more on litigation than it did on research and development.

Chemical companies closed 70 facilities around the United States in 2004. I might say to my friend, of the 120 chemical companies being built at the time of the release of the Augustine report with a price tag of \$1 billion or more, 1 was in the United States and 50 were in China. Got it? Those are chemical plants. People say: Oh, chemical plants; bad stuff. We are not talking about chemical plants, bad stuff. We are talking about chemical plants where you use the chemical product for all kinds of things that make you a strong nation, that make things for people to use in their house, that make things you can use outdoors. The chemical plants are an evidence of

basic industry, and America built 1, China built 50. That is pretty startling, is it not?

Of the nearly 1.1 million U.S. high school seniors who took the college entrance exam in 2002, less than 6 percent had plans to study engineering. That is a 33-percent decrease from 10 years earlier. Pretty big stuff. Meanwhile, more than 50 percent of the U.S. science and engineering workforce is approaching retirement. Startling.

Now, Senators, these statistics show that the challenge to our Nation's standard of living is before us and the Senate must act. I am proud to join this bipartisan group of Senators introducing the America COMPETES Act of 2007, commonly referred to as the competitiveness bill.

Through this legislation, we are addressing nearly every one of the recommendations made by this significant report. Enacting this bill will be a culmination of a remarkable cooperative effort, with work cutting across three Senate committees, and with valuable contributions from a large number of colleagues in the Senate. This bill has the support of both leaders in the Senate and the collective support of our Nation's boardrooms, classrooms, and laboratories.

I will speak briefly about the area of the bill over which the Energy and Natural Resources Committee has jurisdiction. We know that following through on recommendations of the Augustine Commission will require new commitments and participation from several Federal agencies. The Department of Energy has a major role to play in meeting this challenge. This legislation doubles funding for the Office of Science over the next decade—that is healthy and hearty, and many will look forward to it with great enthusiasm—the largest source of Federal support for basic science in the physical sciences. The President called for the increase in announcing his American Competitiveness Initiative last year.

The Augustine report stressed the importance of increasing our national commitment to basic research in the physical sciences. The America COMPETES Act responds by putting the Department of Energy Office of Science on a path to double in funding over the next decade. As the largest Federal funder of basic research in the physical sciences, the Office of Science is of critical importance.

More than 58 Nobel Prize winners since 1936 have been supported by the Department of Energy at some time in their careers. Eighteen Nobel Prizes have been awarded to Department of Energy laboratory employees and another 13 to researchers who employed the National Laboratory facilities in their award-winning discoveries. Most of the 40 winners of the prestigious Enrico Fermi Presidential awards have

done research supported by the Department.

A few years ago, we made a commitment to double funding in the National Institutes of Health to support the biological sciences. We made good on that commitment. We said it, and we did it. It is now time that we address the role physical sciences play and stand together to support such growth of key agencies such as the DOE Office of Science. By doing so, we will not be taking away from other Department functions or laboratory resources.

In fact, I was cosponsors with Senators BINGAMAN and ALEXANDER to an amendment in this year's budget resolution. We have a few people who know something about that, too. It is rather tricky, and sometimes you have to do some things you don't quite understand. Then you catch on. But we did put in a billion dollars for new authorizations provided in that budget, so that the legislation we are going to enact will not take money from Peter to pay Paul. We won't be taking money out of the Department of Energy to pay for the new items in the Department of Energy. We would be called down here on the floor, and we would lose. I hope we have done it right so we can prove our point.

This bill leverages the tremendous talent and technological investment of our laboratories and its system. These new provisions will build on education and outreach work the labs have undertaken for years. Through this legislation, the national labs will provide opportunities for high school students from across the Nation to gain hands-on experience in science and engineering fields; assist States in establishing specialty schools in math and science; strengthen the skills of thousands of math and science teachers by establishing training and education programs at summer institutes hosted at National Laboratories; establish partnerships between the National Laboratories and local high schools and centers of excellence in math and science.

I have spoken quite a bit recently about the importance of engaging China in the challenge of energy security and global climate change. I have written to the President about this important issue. It should be clear to all of us that our energy, environmental, and educational challenges cannot be considered in a bubble; rather, they must be considered in light of global competitiveness, challenges that face us all. To maintain our technological edge, we must improve our educational systems and the research and development we do in corporations, universities, and Government laboratories throughout our Nation. This must lead us to higher brainpower for our people.

The challenge is great, like others this Nation has faced. The challenge was great 60 years ago in New Mexico. They were busy trying to put a team

together to build the first atomic bomb—can you imagine—from scratch. The idea alone is all they had. They put it together and built it. They found the manpower to do it. We have the manpower. We are just not using it. We are not letting it build itself as required.

I commend the authors of the Augustine report. I commend my colleagues for their hard work on this legislation. I am hopeful we will rise above the gathering storm. If we do, people will say: You had a lot to do, maybe more than you thought, but you sought out and found what was most important; that is, taking the gathering storm and making sure it did not end up hurting our great Nation but, rather, was the stimulus for us to increase the collective brainpower of our young people.

I yield the floor.

Mr. INOUE. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CHAMBLISS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CHAMBLISS. Mr. President, I rise today in strong support of a bill that addresses many of the challenges facing Georgia and our Nation during this time of increasing global competitiveness. I am a cosponsor of the America COMPETES Act because it will ensure that the United States will be able to sustain a vigorous economy, an unrivaled national defense, a first-rate health care and education system, a healthy environment, and a hopeful and prosperous future for generations to come.

Although the United States has the strongest scientific and technological enterprise in the world, we are now experiencing the slow but steady effects of globalization. These effects, led most notably by modern advances in communications, have made the world a smaller place and have dramatically increased worldwide competition.

The leadership in science and technology that the United States has enjoyed since World War II is being seriously threatened by the burgeoning and thriving economies and workforces in countries such as China and India. I believe in order to keep our competitive edge and to maintain our dominance in the fields of science, technology, engineering, and mathematics, it is imperative we make a long-term investment in our future scientists, professors, and engineers. We can do so by improving science and mathematics education, and by providing schools, universities, and research centers throughout the country with necessary funding.

Recently, Microsoft Corporation founder Bill Gates testified before Congress, and he said:

The U.S. cannot maintain its economic leadership unless our workforce consists of people who have the knowledge and skills needed to drive innovation.

Mr. President, that is a very accurate statement, and that is why we need to pass this bill. With the funding and programs provided for in this bill, it will be easier to educate and grow an innovative workforce that is highly skilled and highly trained. The America COMPETES Act recognizes that better educated students make a smarter, more efficient workforce. And that is an important investment for this Nation.

As an example of what funding for science and mathematics education can do, let me tell you about a program that is doing great things in my home State of Georgia. The Georgia Academy of Mathematics, Engineering, and Science, or GAMES, was established at Middle Georgia College in Cochran, GA, during the fall of 1997. GAMES is a residential, joint enrollment program for top-performing high school juniors and seniors. The program allows students to obtain high school and college credits simultaneously while enrolled in full-time college courses. Most students in the GAMES program major in mathematics, science, or engineering.

The GAMES program enrollment continues to grow each year and has earned the reputation of an academic alternative for gifted students all across Georgia. Over the 10 years this program has been in existence, students who have been accepted into GAMES have averaged a 3.85 GPA and an SAT score of 1246. After completing the GAMES program, 48 percent of the students enrolled in the program have transferred to the Georgia Institute of Technology. The GAMES program allows these students to earn a firm foundation in science, technology, and physics before entering Georgia Tech.

Many GAMES graduates are pursuing and/or have received their Ph.D. in mathematics, science, or engineering. I commend Dr. Richard Federinko, president of Middle Georgia College, and the entire faculty and staff for their hard work in making the GAMES program a major success.

GAMES is just one program in one State, and we need more like it throughout the country. This legislation will open the door and perhaps expand these types of programs into other States and allow more bright young people to enter the fields of science, math, and technology.

My fellow colleagues, time is of the essence. We can no longer afford to be complacent and just assume the United States will continue to be the world's leading innovator. Without action, our grandchildren face the genuine possibility of living in an America that is not the preeminent leader in scientific and technological advancements. I urge each of you to join me in support of this critical piece of legislation.

I want to particularly commend my long-time dear friend, Senator LAMAR ALEXANDER from Tennessee, for playing a leading roll in the drafting of this legislation and for working so hard to make sure the policy in this legislation is the right kind of policy to promote science, math, and technology in our schools, not just from the eighth grade forward, from the ninth grade forward, but from kindergarten forward.

I say to Senator ALEXANDER, I know he has been ably assisted by Senator BINGAMAN, as well as others, in a bipartisan way to make sure America's educational system continues to be the preeminent system in the world and that we give these bright minds the opportunity to develop, and that we make sure—from the standpoint of developing engineers in the future, from the standpoint of developing medical researchers in the future, from the standpoint of developing doctors and other types of engineers in that field—we continue to lead the world not just in the production of individuals from a numbers standpoint but in the production of quality individuals to develop technology, to develop our research capability, as well as to make sure from a professional standpoint we have the engineers and the physicians who will continue to lead the world.

With that, Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, I thank the Senator from Georgia for his comments but, more importantly, for his leadership. We usually think of Senator CHAMBLISS in terms of leadership on intelligence matters, Armed Services matters, on agricultural matters, where he is the ranking member. But from the very beginning on this legislation, he has been out front.

I can remember when Norm Augustine, chairman of the Augustine committee, came to the Senate and had a dinner with us right around the corner. Senator CHAMBLISS was one of the first Senators there. He has been one of the major leaders in this endeavor for the last 2 years. His comments about the Georgia residential high school for math and science illustrates a good way to help take this legislation from the abstract and put it in concrete terms. Section 3171 of this legislation, specialty schools for math and science, will assist States in establishing or expanding such residential high schools for math and science.

I spoke a little earlier on the floor about North Carolina's math and science program which they have had for 25 years. Tennessee is a little behind. We haven't had one yet; we have summer governor schools for math and science. This legislation would authorize the Congress to appropriate funds which could pay for up to 50 percent of the cost of operating that school in

Georgia which would permit Georgia, if it wished, to expand that school. The Senator cited in his remarks one good reason to do it in addition to the Nation's competitiveness. I think I heard him say 48 percent of the students went to Georgia Tech. So if our goal is to keep bright students at home to create jobs for us in the United States, a more specific goal is to keep bright Georgia students at home so they can create jobs for Georgians.

Mr. CHAMBLISS. Mr. President, if the Senator will yield for a question through the Chair.

Mr. ALEXANDER. Certainly.

Mr. CHAMBLISS. I simply say the Senator is exactly correct; 47 percent of our students do go on to Georgia Tech. I wish we could get more of them at the University of Georgia where they happened to let me go, but at Georgia Tech we are doing a terrific job of taking these bright young minds that are being developed, as we said earlier, not just at the eighth and ninth grade level, but thanks to you and the leadership of folks like you, at a much earlier age. Our GAMES program, incidentally, was put into effect and implemented by our former colleague Senator Zell Miller, when he was the Governor of our State, and somebody whom I know you worked very closely with over the years. It is a great concept. It is forward thinking, as this legislation is very forward thinking from the standpoint of making sure that these great minds are developed at a very early age.

Again, I thank the Senator from Tennessee for his great work on this and I commend this legislation to all of our colleagues.

Mr. ALEXANDER. I thank the Senator.

Mr. President, our former colleague Zell Miller was Lieutenant Governor of Georgia when I was a Governor. He was a professor by profession and he was always interested in education and very skillful in education policy. Every Governor I know spends a lot of time trying to think of how we are going to recruit jobs. Well, if you study it, you learn after a while you don't recruit nearly as many as you grow. The way you grow them is with brain power. So the single best thing any State can do to create the largest number of good new jobs in that State is to keep the brightest kids at home. Governor Miller, when he was there, initiated the HOPE scholarship, which played a major role in attracting many of the brightest Georgia students, and I would say many of the brightest Tennessee students to come across the border to go to the University of Georgia, and then the residential school for math and science did the same. This legislation would permit every other State to do the same, and it is just one of the things it would do.

If I may, if the Senator from Georgia is finished with his remarks, he has

highlighted an area I wish to enlarge on. Sometimes our legislation, particularly when we talk about big phrases such as competitiveness and globalization, takes us off into the stratosphere and one might say: Well, what does that have to do with me? We have just talked about one example. If you are the Governor of Georgia or Tennessee or Illinois and you are thinking: What can I do over the next 10 years to grow the largest number of good new jobs, a residential school for math and science is a very good start.

I remember as Governor, after we recruited the Nissan plant and the Saturn plant, I was feeling pretty good. Then I counted up the number of jobs, and it was 10,000 or 12,000 jobs in a State that employs 2.5 million people. We were losing 200,000 or 250,000 jobs per year, so we had to be creating that many more. In our country, in the United States of America, we are losing jobs all the time. We don't want that to happen, but that is happening. So the real test of our society is: Can we create a lot more good new jobs than we are losing, a constant supply of good new jobs. Most of that comes from the subject of this legislation: from brain power, better schools, better colleges, better universities, more research, and especially technological innovation.

Illinois, I am told, already has such an academy: the Illinois Math and Science Academy, a residential high school. I am sure the Presiding Officer is very familiar with it. He may have helped start it, given his long tenure in the Congress. This legislation would give it an opportunity as well to expand.

On the subject of creating new jobs, the chief State school officers are in town. That means the superintendent of education of Illinois and Tennessee's commissioner of education are here in town. I am meeting with them tomorrow at about noon for a while, and what I can tell them—even though they probably heard all about math and science they want to hear through No Child Left Behind—is we are doing a number of things to help them at least authorize funding to help them succeed. For example, we are authorizing grants to States to promote alignment of elementary and secondary education with knowledge and skills. That means in plain English helping States line up the math and science they are teaching with what you need to know to go into the Armed Forces, what you need to know to go to college, what you need to know to go to work. Sometimes there is not a good fit there. This would help schools and education systems, those chief State school officers, do that.

The second thing we would be doing is strengthening the skills of thousands of math and science teachers by using our national laboratories in Illinois,

New Mexico, Tennessee, and around our country, and a host of summer institutions and academies for outstanding teachers of math and science, as well as for students, but especially for teachers.

I found in my experience as Governor, one of the most successful and productive things we did were Governors' schools, where we would take the Governors' schools for teachers of mathematics or teachers of reading, or students of international affairs, and the students would come for 2 to 4 weeks—sometimes it would only be teachers, but the students would come, you would bring in a core of faculty members from around the State, too. It would inspire those students so much, and what could be more inspiring for math and science teachers than to have a chance to be at the National Labs with Nobel Prize winners and some of the outstanding scientists in the world. It would refresh them, excite them, improve their skills, and help them carry a sense of mission back to their classrooms to inspire a new generation of math students and hopefully math and science teachers.

I can say to the chief State school officers of our various States, we are expanding the Robert Noyce teacher scholarship program at the National Science Foundation to recruit and train individuals to become math and science teachers in high-need, local education agencies. We are finding as we review No Child Left Behind in elementary and secondary education that 80 percent of our schools are, we can say, achieving, or even high achieving. In other words, their students, by category, are meeting what we call adequate yearly progress, so let's catch them doing something right. About 5 percent of those schools—I have missed it in one category—I would say they are still achieving pretty well. Only about 15 percent of the schools are high need, and usually what we find is they are children of low income, children whose parents haven't been able to help them, children whose parents have neglected them, children who have not yet learned English, children who have just arrived in this country and may not be in the same school in January they were in October, children who are hard to teach, and children who need more than even good teachers are usually able to give them. I am coming to the conclusion that we need to train teachers especially to help these children. About 10 or 15 percent of all the children in our public schools across the country are these children, and these are the ones we are leaving behind.

Well, we are expanding teacher scholarship programs at the National Science Foundation to recruit and train individuals to become math and science teachers in high-need educational agencies. We are assisting, we

have just said, teachers in establishing statewide specialty schools in math and science, and we will use the National Laboratories' staff to help with that. For example, if Tennessee wants to expand the new math and science academy Governor Bredesen has established—I salute him for doing it; he has wanted to do it for a while, but it is expensive and he only has a few students in it. This legislation makes it possible to use the National Laboratory staff to help Governor Bredesen in Tennessee expand and enlarge and make better the summer residential school for math and science.

I can say to the chief State school officers tomorrow, and they can take it back to their States across the country, that if the Congress enacts this legislation sponsored by the majority leader and the Republican leader, with 56 Senators on both sides of the aisle, its goal is to train 70,000 more teachers so they can teach advanced placement courses in math, sciences, and foreign language, so we can bring to the number of 700,000 the number of students who can take advanced placement courses in math, sciences, and critical foreign language.

As we have said before in the debate on this bill, students who don't get to take those AP courses now don't take them because they are not smart enough or because their brains don't work well enough; they don't take it often because they can't afford it or because the teachers aren't available to teach them in the schools they attend, so this will help to remedy that.

I can say to the chief State school officers, Governor Jim Hunt of North Carolina, one of our leading educators in America, a former Governor for 16 years in that State, who testified before the President's Commission on Higher Education that the University of North Carolina only graduated three physics teachers in 1 year at its College of Education. As I mentioned earlier, if we are not teaching physics, nobody is going to be learning it. So what are we going to do about that?

What this suggests is that after reviewing programs from all over the country, the Augustine commission recommends that we expand the You Teach program at the University of Texas. So there will be money that may be appropriated under this law that would permit universities to do as they do in Texas, in Austin, to go into the chemistry and biology programs and recruit students who are majoring in those science subjects, or a student who is majoring in math, and give them a scholarship to go to the College of Education and become a teacher of chemistry or biology or math.

Now, the Augustine report recommended that we then pay \$10,000 a year in fellowships for those students so they can go into teaching in high-need areas, rather than for IBM or

Google or Dell or some other high-paying job. That part of our provision is not in this legislation, the \$10,000 fellowship. I would like to see it in there.

Senator REID, the majority leader, the principal sponsor of this legislation, suggested when he introduced the bill the other day, that he had a very good experience—he and Paul Simon, the former distinguished Senator from Illinois—with finding ways to give stipends to teachers of math and science so they would stay in teaching. Well, this You Teach program at the University of Texas is now going to be available in Michigan, Tennessee, and other States around the country so we can recruit outstanding students into teaching.

In addition, the Augustine commission, after reviewing dozens and dozens and dozens of programs, found an especially good program at the University of Pennsylvania in science called Penn Science, and instead of recruiting students into teaching, it takes existing teachers and puts them through continuous training during the summer and during the year so they can be even better teachers of science.

I can say to the chief State school officers who are meeting in Washington, DC today that this legislation will permit you in Wyoming and in Tennessee and in New York and in Michigan and wherever to create a partnership between our National Laboratories and local high-need schools to establish centers of excellence in math and science education. So suddenly you match up a high-needs school with one of the greatest National Laboratories in the world. What can be more exciting for the teachers in that school or the students? It might go from being a high-needs school to one with a line around the block of students waiting to get in the door.

This legislation also has significant authorization for funding for a program called Math Now. This is the President's proposal, from his American Competitiveness Act which has been included in this legislation, and it would provide grants to improve math instruction in the elementary and middle grades and provide targeted help to struggling students so all students can master grade level math standards.

Finally, I can say to the chief State school officers who are meeting in Washington—and I will say it to them directly tomorrow at lunch—that the bill also authorizes expanding programs to increase the number of students from elementary school through postsecondary education who study critical foreign languages. We find this not just in our military needs in Iraq and Afghanistan and around the world, but we increasingly live in a worldwide economy, and our students, our citizens will be better citizens, more effective citizens, if more of us speak more than one language. There is a long list.

There are 10 or 11 programs that either expand or create efforts to, as the Augustine commission says, "increase America's talent pool by vastly improving K through 12 science and mathematics education."

Senator BINGAMAN, I, Senator DOMENICI, and the House Members asked our national academies: Please tell us exactly what we need to do to keep our brain power advantage so we can keep our jobs. We understand that since World War II, more than half of this remarkably high standard of living we have has come through innovation and technology. We understand that and we have an idea or two and we have friends with an idea or two about what to do, but tell us exactly what to do about it. Tell us in priority order. They put down K-12—vastly improving K-12 science and mathematics education.

I see the Senator from New Mexico is present. We have had a good discussion this afternoon. Some of the principal advocates have been here, and I especially appreciate Senators STEVENS and INOUE who have given a great sense of urgency to this legislation. The Presiding Officer, Senator STABENOW, has as well. Michigan has a tremendous number of research institutes and great universities that add fuel to the economic resurgence of that State and every other State.

Really, we are all interested in this legislation. The key is, How do we put it together in a way that we can get it through this interesting process we call the Senate? I think we are reasonably close to doing that, thanks to the senior leadership of this body and Senator BINGAMAN and Senator DOMENICI on the Energy Committee.

Madam President, I will conclude my remarks now and yield he floor to Senator BINGAMAN.

The PRESIDING OFFICER (Ms. STABENOW). The Senator from New Mexico is recognized.

Mr. BINGAMAN. Madam President, I appreciate the good work my colleague from Tennessee, as comanager of the bill, has been doing on this issue, as I have been unavoidably detained over in the Energy Committee.

It is my understanding, unless someone knows otherwise, that all debate expected on the pending amendment has taken place. As far as I have been informed, the Senate is ready to dispense with the amendment.

The PRESIDING OFFICER. Is there further debate on the amendment?

If not, the question is on agreeing to the amendment.

The amendment (No. 906) was agreed to.

AMENDMENT NO. 908

Mr. BINGAMAN. Madam President, I send another amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from New Mexico [Mr. BINGAMAN] proposes an amendment numbered 908.

Mr. BINGAMAN. Madam President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 55, lines 21 and 22, strike "engineering)" and insert "engineering and technology)".

On page 56, line 8, after "engineering" insert "and technology".

On page 56, line 24, strike "mathematics and science" and insert "mathematics, science, engineering, and technology".

On page 59, line 6, strike "mathematics and science" and insert "mathematics, science, and, to the extent applicable, technology and engineering".

On page 59, line 15, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 60, line 6, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 60, line 10, before "that" insert "in mathematics, science, and to the extent applicable, technology and engineering".

On page 61, lines 8 and 9, strike "mathematics and science" and insert "mathematics, science, and, to the extent applicable, technology and engineering".

On page 62, line 14, strike "mathematics or science" and insert "mathematics, science, technology, or engineering".

On page 65, lines 16 and 17, strike "MATHEMATICS AND SCIENCE" and insert "MATHEMATICS, SCIENCE, TECHNOLOGY, AND ENGINEERING".

On page 65, line 19, strike "MATHEMATICS AND SCIENCE" and insert "MATHEMATICS, SCIENCE, TECHNOLOGY, AND ENGINEERING".

On page 66, lines 8 and 9, strike "Mathematics and Science" and insert "Mathematics, Science, Technology, and Engineering".

On page 67, line 9, strike "Mathematics and Science" and insert "Mathematics, Science, Technology, and Engineering".

On page 67, lines 16 and 17, strike "math and science" and insert "mathematics, science, and technology".

On page 68, lines 21 and 22, strike "mathematics or science (including engineering)" and insert "mathematics, science, or engineering".

On page 69, lines 4 and 5, strike "mathematics or science" and insert "mathematics, science, or technology".

Beginning on page 69, line 25 through page 70, line 1, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 70, lines 10 and 11, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 71, line 7, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 71, line 10, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 71, line 18, strike "mathematics and science" and insert "mathematics, science, and, to the extent applicable, technology and engineering".

On page 72, line 23, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 73, lines 18 and 19, strike "mathematics and science" and insert "mathematics, science, and to the extent applicable, technology and engineering".

On page 73, lines 23 and 24, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

Mr. BINGAMAN. Madam President, for the information of Senators, this amendment makes a series of clarifying changes in the bill that are technical in nature. It is not controversial, as far as I have been informed. I am informed by the leadership that they would like to leave this pending at this point. We will proceed that way in case a Member decides to come and speak on it.

Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BINGAMAN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. BINGAMAN. Madam President, I ask unanimous consent that the Senate now be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BINGAMAN. I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BINGAMAN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The remarks of Mr. BINGAMAN pertaining to the introduction of S. 1185 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

PARTIAL-BIRTH ABORTION

Mr. KYL. Madam President, I wanted to say a few words about the Supreme Court's decision last week in *Gonzales v. Carhart*. In that opinion, the Court held constitutional the Partial-Birth Abortion Act of 2003, a law that passed this Senate with strong bipartisan support, including my own.

I was heartened by this decision, and not just because partial-birth abortion is a disgusting act that should never be performed in a civilized society. I am also heartened because this decision represents a step towards restoring the American people's right to govern themselves through their elected representatives.

For too long, the Supreme Court has set itself up as an antagonist to the people and has shown unfortunate disregard for the judgments of those our governmental system is supposed to serve.

The decision yesterday is a departure from that trend, and it should give us all cautious optimism that the Supreme Court is coming around to a greater level of respect for the elected branches on questions of fundamental moral values.

I also want to send a word of congratulations and thanks to the man who made this legislation a reality, former Senator Rick Santorum. During the debates on this bill back in 2003, I can remember Senator Santorum being on the Senate floor virtually full-time, taking on all comers, engaging on every point, showing his skills as a debater, and displaying the passion and spirit that defined him during his two terms in the Senate.

Senator Santorum was our leader in the debates on this bill, and the Supreme Court's affirmation of the bill's constitutionality yesterday should be a moment of great pride for our former colleague. This bill is part of his legacy, and we owe him a debt of gratitude.

FILIPINO VETERANS EQUITY ACT

Mr. AKAKA. Madam President, I wish to update our colleagues on an important issue that the Veterans' Affairs Committee is dealing with; namely, providing long overdue recognition to all those veterans of the Philippines Armed Forces who served under U.S. command during the Second World War.

Recently, the Veterans' Affairs Committee, which I am privileged to chair, held a hearing on S. 57, the Filipino Veterans Equity Act of 2007. This important legislation, introduced by my good friend and senior Senator, Mr. INOUE, would end more than 50 years of inequality for Filipino veterans who have served our country, and it has my strong support. During our hearing, the committee received testimony from Filipino veterans who spoke of their service under U.S. military command and their difficulties with a VA system that doesn't recognize them as veterans.

Until 1946, the Philippines was not completely independent from the United States. When America entered the Second World War, the Filipino military was a part of the U.S. Armed Forces, under the command of the U.S. Armed Forces of the Far East. All military forces of the Commonwealth of the Philippines were ordered by President Franklin D. Roosevelt to serve under the command of the U.S. military, and they served bravely, fighting for our country and their freedom.

In 1946, Congress limited veterans' benefits to only a portion of Filipinos

who served in World War II. While some of the inequity has been corrected in recent years, this injustice still remains. Filipino veterans of the U.S. military do not have equal access to the health care and benefits they have earned through service. S. 57 would end the inequity and give Filipino veterans who fought under the command of U.S. military the benefits and care they earned.

Some who oppose S. 57 say we cannot afford it. While I, too, am concerned about costs, I am committed to finding offsets to cover the expense. After all, fiscal responsibility is not the only kind of responsibility there is. Our country has a deeper responsibility to the men and women who have served in our military, whether they were born in America or the Philippines. We need a solution that is both morally responsible to Filipino veterans and fiscally responsible with taxpayer dollars.

Many of the brothers-in-arms of those who testified at our hearing have since passed away, never having been recognized by the United States for their service. I find that shameful. Following the hearing, I asked myself how we could stray from our moral commitment to these men for over half a century and then argue that it is too expensive to give those who are left the benefits they have earned.

With that in mind, let us look to fulfill both responsibilities, rather than neglecting the Filipino veterans who remain with us today. We have gone down that path for over half a century, denying them care and benefits. Today we find many Filipino veterans living their twilight years in the pain of poverty, without access to the relief available to other veterans of the U.S. Armed Forces. Allowing this to go on without searching vigorously for a realistic solution is not the responsible response. These veterans deserve better.

NATIONAL SMALL BUSINESS WEEK

Ms. SNOWE. Madam President, today I commemorate National Small Business Week, which President Bush designated for April 22–28, 2007. As ranking member of the Senate Committee on Small Business and Entrepreneurship, I simply cannot understate the vital role of small business in our Nation's economy. Small businesses comprise 99 percent of all businesses in the United States, employ more than half of the total private sector workforce, and are responsible for the creation of more than two-thirds of all new jobs each year. It is essential that we in Congress continue to support small businesses' efforts to grow and do what they do best—create new jobs.

If there is one concern we have all heard time and again, it is the exorbitant cost to small businesses of pro-

viding health insurance to their employees. In fact, small business owners in all 50 States have cited rising health insurance costs as their number one concern. Health insurance premiums have increased at double-digit percentage levels in 4 of the past 6 years—far outpacing inflation and wage gains. According to the Kaiser Family Foundation, last year the average health policy for an individual was \$4,242; the average family plan cost \$11,480.

As we are all well aware, these sharply rising costs are leading fewer and fewer small businesses to offer health insurance to their employees. According to Kaiser, in 2002, 58 percent of our Nation's smallest businesses, those with less than 10 employees, offered health insurance. In 2004, only 52 percent were able to offer their employees health insurance. Today, just 48 percent of our smallest businesses are now able to offer health insurance as a workplace benefit. As you can see, that is a 10 percentage point reduction over the past 5 years. Clearly, we are heading in the wrong direction.

Further compounding the problem is the fact that small group insurance markets exhibit no real competition. No competition means higher costs. And higher costs mean no health insurance. I recently requested a Government Accountability Office report, which revealed a staggering consolidation in the State small group insurance markets. Today, the five largest carriers now have more than a 75 percent market share in 26 States—and control 98 percent of the small group market in Maine.

This trend is simply unacceptable and represents nothing short of a crisis—and one that can and must be fixed, now. In the Senate, I have been a longstanding champion of small business health plans and I have introduced legislation in the past two Congresses that would allow small businesses to "pool" together, across State lines, and offer uniform health insurance plans to their employees, at significantly lower costs.

I firmly believe that small business health plans are a critical solution to the small business health insurance crisis. It is a matter of simple fairness. Just like larger businesses and unions, I believe small businesses should have the option to purchase health plans across State lines with uniform benefits packages. It would allow them to shop for affordable, quality plans with much lower administrative costs while at the same time drastically shrinking the ranks of the nearly 47 million Americans living without health insurance.

Moving forward this year, we need to leave no stone unturned in our search for solutions to this crisis. For example, we should examine ways to use the Tax Code as a mechanism for increasing access to health care, including

through “pooling mechanisms, and injecting competition into the State small group insurance markets. This is why I am currently working with a number of my colleagues in the Senate, on both sides of the political aisle, to forge a bipartisan bill that will pass the Senate and be signed into law. Senate Finance Committee Chairman BAUCUS has announced that we will soon consider health care legislation in the Finance Committee—and I look forward to a robust productive debate there. I also thank Senator ENZI for all of his tremendous efforts in getting legislation passed through the HELP Committee last year, and for having that legislation considered on the Senate floor for the first time ever.

Frankly, now is a time for action, not words. It is incumbent upon this Congress to think “outside of the box” to solve this crisis. We need to consider all options on the table, including a number of recently passed State reforms. We are at a critical juncture on this issue. The United States has the greatest health care system in the world, and yet nearly 47 million Americans are uninsured. Our goal ought to be providing health care access for all, and that means greatly expanding coverage so that we can significantly reduce our Nation’s uninsured.

We must figure out how to solve the persistent criticisms that have mired small business health insurance legislation in Congress. We must address how to allow health insurers to provide lower cost products to small businesses across State lines while maintaining the most widely accepted and necessary benefits and services. We must tackle questions of how to “rate,” or price, these products—and also how this can be done in a uniform manner, without jeopardizing consumer protections. And we can and we must do all this without injuring existing health insurance markets in the States. Plain and simple, Congress must bring up small business health insurance legislation this year, in a bipartisan, comprehensive way that can secure significant bipartisan support.

NATIONAL CRIME VICTIMS’ RIGHTS WEEK

Mr. LEAHY. Madam President, last week we joined together in the aftermath of the tragic killings at Virginia Tech to mourn and support the families of the victims and the Virginia Tech community. This week we join together once again to commemorate National Crime Victims’ Rights Week.

Yesterday marked the official beginning of National Crime Victims’ Rights Week. Since 1981, communities in Vermont and across the Nation have observed this week through candlelight vigils and public rallies to renew our commitment to crime victims and their families. It is important, espe-

cially during this time of national sorrow, that we recognize the needs of crime victims and their family members and work together to promote victims’ rights and services.

We have been able to make some progress during the past 26 years to provide victims with greater rights and assistance. In particular, I have been honored to support passage of the Victims of Crime Act of 1984, VOCA, Public Law 98-473, which established the Crime Victims Fund, “the Fund.” The fund allows the Federal Government to provide grants to State crime victim compensation programs, direct victim assistance services and services to victims of Federal crimes. Nearly 90 percent of the fund is used to award State crime victim compensation and victim assistance formula grants. These VOCA-funded victim assistance programs serve nearly 4 million crime victims each year, including victims of domestic violence, sexual assault, child abuse, elder abuse, and drunk driving, as well as survivors of homicide victims. Our VOCA-funded compensation programs have helped hundreds of thousands of victims of violent crime.

The Crime Victims Fund is the Nation’s premier vehicle for supporting victims’ services. It bears repeating that the Crime Victims Fund does not receive a dime from tax revenue or appropriated funding. Instead, it is made up of criminal fines, forfeited bail bonds, penalties, and special assessments.

Since fiscal year 2000, Congress has set a cap on annual fund obligations expressly for the purpose of ensuring “that a stable level of funding will remain available for these programs in future years.” The “rainy day” fund created by this spending cap has been used to make up the difference between annual deposits and distributions three times during the past 7 years.

The future of the fund is being threatened, however. After 26 years of progress, the Bush administration is proposing to rescind all amounts remaining in the fund at the end of fiscal year 2008. That would leave the fund with a balance of zero going into fiscal year 2009 and create a disastrous situation for providers of victims’ services. Over the last few years, the Senate has successfully blocked several past attempts by this administration to rescind the fund’s remaining balance and has supported the retention of all amounts deposited into the fund. Over the past 6 years, the Bush administration has squandered record surpluses and racked up \$8.5 trillion in Federal debt. It is wrong to try to pay for its failed fiscal policies by emptying out the Crime Victims Fund. These resources are appropriately set aside to assist victims of crime.

In order to preserve the fund once again, Senator CRAPO and I, joined by more than a dozen other Senators are

sending a letter this week to the Senate Appropriations Committee asking that the committee oppose the administration’s proposal to empty the Crime Victims Fund and, instead, permit those amounts to remain in the fund, in accordance with law, to be used for the important programs and services needed by crime victims.

Also, last week the Vermont Department of Corrections received a \$400,000 grant from the U.S. Department of Justice to implement a Statewide Automated Victim Information and Notification, SAVIN, system to provide timely notifications to crime victims who request it. Programs like these give crime victims some peace of mind and facilitate communication among the courts and corrections and other law enforcement officials.

We need to renew our national commitment to crime victims. The Senate can help by recognizing the importance of the Crime Victims Fund and supporting its essential role in helping crime victims and their families meet critical expenses, recover from the horrific crimes they endured, and move forward with their lives. I urge Senators on both sides of the aisle to honor our longstanding commitment to crime victims by working together to commemorate victims of crime and to preserve the Crime Victims Fund.

ADDITIONAL STATEMENTS

CONGRATULATING DR. HOWARD-YANA SHAPIRO

• Mr. BINGAMAN. Madam President, I wish to congratulate Dr. Howard-Yana Shapiro, who will receive the Organic Leadership Award on May 7, 2007. The award is bestowed annually by the Organic Trade Association on individuals who have demonstrated leadership and vision in furthering the goals of organic agriculture.

Dr. Shapiro has had a very impressive career in organic agriculture, having been involved with sustainable agricultural and agroforestry systems, plant genetics, and food production systems for over 35 years. He is best known as the principal author of “Gardening for the Future of the Earth,” which shows how to “create natural bounty in your own backyard and help save the planet one seed at a time.”

During his long and diverse career, Dr. Shapiro has been a community gardening activist, a university professor for 15 years, twice a Fulbright Scholar, twice a Ford Foundation Fellow, and winner of the National Endowment for the Humanities Award. He has worked with indigenous communities, non-governmental organizations, governmental agencies, and private institutions throughout the world, including Conservation International, World Wildlife Fund, U.S. Department of Agriculture, U.S. Agency for International Development, U.S. Forest

Service, ICRAF, The World Agroforestry Centre, Smithsonian Tropical Research Institute, and many other national and regional agricultural institutions in Mexico, Brazil, Ecuador, Bolivia, Costa Rica, Honduras, Ghana, Nigeria, Cameroon, Senegal, South Africa, Vietnam, Indonesia, Papua New Guinea, and Australia.

Most recently, Dr. Shapiro has held a leadership role in Seeds of Change, the largest certified organic seed company in the country. Located along the Rio Grande in El Guique, NM, Seeds of Change, a division of Mars, Incorporated, is a pioneering cultivator of organically grown seeds for home and market growers, a leader in the organic foods industry, and a valued resource for organic farmers. Dr. Shapiro has been dedicated to Seeds of Change since its inception and was a key figure during the launching of the Seeds of Change 100 percent certified organic food line in the United States, Europe, Australia, and Japan.

I am proud that New Mexico is home to Seeds of Change and that the company, and organic agriculture as an industry, has been so well served by the expertise and vision of Dr. Shapiro throughout its growth. Again, I congratulate Dr. Howard-Yana Shapiro for receiving the Organic Trade Association's highest honor. I thank him for his commitment to furthering organic agriculture around the world, and I wish him continued success in the years ahead.●

MOUNTAIN HOME AIR FORCE BASE

● Mr. CRAIG. Madam President, today with great pride I honor Mountain Home Air Force Base for their recent achievement of winning the Commander in Chief's Annual Award for Installation Excellence for an Air Force base. Over 85 Active-Duty Air Force installations competed this year for the award, and I was extremely pleased to get word that Idaho's own Air Force base came out the winner.

Over the years, I have worked very closely with the different wing commanders at Mountain Home Air Force Base to ensure that their installation will provide our soldiers with the best living conditions and optimal training space to ensure that should they be called to duty, they would be fully prepared. I know firsthand that the work being done both at home and abroad by our airmen and soldiers at Mountain Home Air Force Base is among the best our military can offer.

Over 500 airmen and crew from Mountain Home Air Force Base are currently deployed in Afghanistan in support of our joint mission with NATO to provide freedom and security from terrorist, and they are serving with great courage and determination. I know that their fellow servicemembers, the Idaho delegation, and all of Idaho

await their return and they will be greeted with a hero's welcome. Although they are not in Idaho to celebrate this very prestigious honor from the Secretary of Defense, the Secretary of the Air Force, and the Commander in Chief, I know that their contributions greatly aided in Mountain Home Air Force Base receiving this award.

COL Tony Rock, wing commander of the 366 Fighting Wing at Mountain Home Air Force Base, expressed his pride of winning this award but gave the credit to the 4,000-plus men and women who operate the base on a daily basis. Colonel Rock was quoted as saying, "This award validates the hard work, commitment and pride of all our Gunfighters who work together to make Mountain Home the best base in the Air Force. I am simultaneously humbled and awed to be part of this team and lead our Gunfighters as we continue to prove we are the premier combat wing in the entire Air Force."

I couldn't agree more with Colonel Rock's statement.

Again, I would like to extend the appreciation and congratulations of myself and all of Idaho to the soldiers and civilians at Mountain Home Air Force Base for their incredible work serving and protecting our Nation.●

NATIONAL SMALL BUSINESS ASSOCIATION ANNIVERSARY

● Mr. KERRY. Madam President, today I honor the distinguished 70-year history of the National Small Business Association. This member-driven organization continues to take the lead on important issues facing small businesses and is the oldest small business advocacy group in the United States. It is especially fitting that we recognize this organization during National Small Business Week.

The NSBA can trace its founding back to DeWitt M. Emery, a determined small business owner struggling to keep his business running in the midst of the Great Depression. As owner of the Monroe Letterhead Corporation in Akron, OH, Mr. Emery labored to keep his small business running while feeling burdened by the increasing cost of doing business—including higher material costs and wages.

Frustrated by the lack of support for small businesses in national politics, and inspired by an idea to make his and his peers' voices heard, Mr. Emery founded the National Small Business Men's Association on November 13, 1937. One hundred sixty small business owners out of 200 who received Mr. Emery's recruitment letter joined the organization that now boasts a reach of over 150,000 small businesses.

In keeping with the organization's responsiveness to the ever-changing small business climate, and to be more inclusive of the growing number of women small business owners, the

group changed its name in 1962 to the National Small Business Association.

In 1986, the organization changed its name again to National Small Business United when it joined with Small Business United, or SBU, a rival organization that started 5 years earlier. SBU and its member groups, such as the Smaller Business Association of New England, or SBANE, helped establish the current organization's vast network of small business affiliates. After the merger, the new organization became responsible for running the SBANE-created Washington Presentation. In addition to SBANE, some of the other NSBA affiliates are the Arizona Small Business Association, the Small Business Association of Michigan, Missouri Merchants and Manufacturers Association, SMC Business Councils, Council of Smaller Enterprises and Small Business California. Thanks to its strong affiliates NSBA has emerged as a vibrant grassroots organization.

In 2003, the oldest small business advocacy group changed its name back to the National Small Business Association. Through its name changes and merger, the organization's commitment to representing small business owners has been unwavering, and today's group boasts a wide variety of members from carpenters to investors, from manufacturers to grocers. NSBA truly represents the diversity of our Nation's small businesses. As chairman of the Committee on Small Business and Entrepreneurship, I work with NSBA's members in my State and across the Nation, welcoming their insights and unique perspective.

I find it important to note that today's small business owners struggle with some of the same issues that plagued Mr. Emery in 1937, and many new issues. From access to capital to health care, we will continue to work with small businesses as they strive to maintain and grow their firms—and as they make a significant contribution to our economy. Through the efforts of advocacy groups like the NSBA working with us to pass legislation, we have been able to assist thousands of determined small business owners like Mr. Emery. The tireless work of the NSBA is testament to the resolve and spirit of small business owners, and I am gratified that the current organization leads the charge on many important issues. I invite the Senate to join me in honoring NSBA and its distinguished history of nonpartisan work on behalf of small businesses.●

MESSAGES FROM THE HOUSE

At 2 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 1257. An act to amend the Securities Exchange Act of 1934 to provide shareholders with an advisory vote on executive compensation.

H.R. 1495. An act to provide for the conservation and development of water and related resources, to authorize the Secretary of the Army to construct various projects for improvements to rivers and harbors of the United States, and for other purposes.

The message also announced that the Speaker removes Mr. PRICE of North Carolina, as a conferee and appoints Ms. KILPATRICK of Michigan, to fill the vacancy thereon, on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 1591) making emergency supplemental appropriations for the fiscal year ending September 30, 2007, and for other purposes.

The message further announced that pursuant to 22 U.S.C. 276h and the order of the House of January 4, 2007, the Speaker appoints the following Members of the House of Representatives to the Mexico-United States Interparliamentary Group: Mr. MCCAUL of Texas, Mr. WELLER of Illinois, Mr. DRIER of California, Mr. MACK of Florida, and Mr. FORTUNO of Puerto Rico.

The message also announced that pursuant to 22 U.S.C. 276d, clause 10 of rule 1, and the order of the House of January 4, 2007, the Speaker appoints the following Members of the House of Representatives to the Canada-United States Interparliamentary Group: Mr. MANZULLO of Illinois, Mr. MCCOTTER of Michigan, Mr. STEARNS of Florida, Mr. ENGLISH of Pennsylvania, and Mr. BROWN of South Carolina.

ENROLLED BILLS SIGNED

At 3:10 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

H.R. 1003. An act to amend the Foreign Affairs Reform and Restructuring Act of 1998 to reauthorize the United States Advisory Commission on Public Diplomacy.

H.R. 1130. An act to amend the Ethics in Government Act of 1978 to extend the authority to withhold from public availability a financial disclosure report filed by an individual who is a judicial officer or judicial employee, to the extent necessary to protect the safety of the individual or a family member of that individual, and for other purposes.

MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 865. An act to grant rights-of-way for electric transmission lines over certain Native allotments in the State of Alaska; to the Committee on Energy and Natural Resources.

H.R. 1257. An act to amend the Securities Exchange Act of 1934 to provide shareholders

with an advisory vote on executive compensation; to the Committee on Banking, Housing, and Urban Affairs.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-1593. A communication from the Under Secretary of Defense (Comptroller), transmitting, pursuant to law, the report of a violation of the Antideficiency Act by the Department of the Army that is identified as being case number 04-07; to the Committee on Appropriations.

EC-1594. A communication from the Under Secretary of Defense (Personnel and Readiness), transmitting, a report on the approved retirement of Lieutenant General Donald J. Wetekam, United States Air Force, and his advancement to the grade of lieutenant general on the retired list; to the Committee on Armed Services.

EC-1595. A communication from the Under Secretary of Defense (Personnel and Readiness), transmitting, a report on the approved retirement of Vice Admiral Albert M. Calland III, United States Navy, and his advancement to the grade of vice admiral on the retired list; to the Committee on Armed Services.

EC-1596. A communication from the Chief Counsel, Federal Emergency Management Agency, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Final Flood Elevation Determinations" (72 FR 17426) received on April 18, 2007; to the Committee on Banking, Housing, and Urban Affairs.

EC-1597. A communication from the Chief Counsel, Federal Emergency Management Agency, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Final Flood Elevation Determinations" (72 FR 17413) received on April 18, 2007; to the Committee on Banking, Housing, and Urban Affairs.

EC-1598. A communication from the Assistant Secretary of the Army (Civil Works), transmitting, pursuant to law, a report relative to the Secretary of the Army's review of the report of the Chief of Engineers on the Ventura River; to the Committee on Environment and Public Works.

EC-1599. A communication from the Assistant Secretary of the Army (Civil Works), transmitting, pursuant to law, a report relative to the views of the South Florida Water Management District, the State of Florida, the Department of the Interior, and the Environmental Protection Agency on the Picayune Strand ecosystem restoration project; to the Committee on Environment and Public Works.

EC-1600. A communication from the Chief of the Regulatory Management Division, Citizenship and Immigration Services, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Removal of the Standardized Request for Evidence Processing Timeframe" (RIN1615-AB13) received on April 18, 2007; to the Committee on the Judiciary.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first

and second times by unanimous consent, and referred as indicated:

By Mr. HARKIN (for himself, Mr. COCHRAN, Mr. KENNEDY, Mr. BURR, Mrs. CLINTON, Mr. COLEMAN, Mr. BINGAMAN, Mr. SMITH, Mrs. BOXER, Mr. DURBIN, Mr. INOUE, Mr. LEAHY, Mr. LEVIN, Ms. MIKULSKI, Mr. REED, and Mr. BROWN):

S. 1183. A bill to enhance and further research into paralysis and to improve rehabilitation and the quality of life for persons living with paralysis and other physical disabilities, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. KENNEDY (for himself and Mr. KERRY):

S. 1184. A bill to direct the Secretary of the Interior to conduct a special resources study regarding the suitability and feasibility of designating certain historic buildings and areas in Taunton, Massachusetts, as a unit of the National Park System, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. BINGAMAN (for himself, Mr. BURR, and Mr. KENNEDY):

S. 1185. A bill to provide grants to States to improve high schools and raise graduation rates while ensuring rigorous standards, to develop and implement effective school models for struggling students and dropouts, and to improve State policies to raise graduation rates, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. FEINGOLD:

S. 1186. A bill to amend the Congressional Budget and Impoundment Control Act of 1974 to provide for the expedited consideration of certain proposed rescissions of budget authority; to the Committee on the Budget.

By Mr. KERRY:

S. 1187. A bill to require the Architect of the Capitol to develop a plan to reduce carbon dioxide emissions from the Capitol complex, with the goal of achieving carbon neutrality at the complex by December 31, 2020; to the Committee on Rules and Administration.

By Mr. LUGAR (for himself, Mr. DURBIN, Mr. BAYH, Ms. STABENOW, and Mr. LEVIN):

S. 1188. A bill to amend the Farm Security and Rural Investment Act of 2002 to enhance the ability to produce fruits and vegetables on covered commodity base acres; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. PRYOR (for himself and Mrs. LINCOLN):

S. 1189. A bill to designate the Federal building and United States Courthouse located at 100 East 8th Avenue in Pine Bluff, Arkansas, as the "George Howard, Jr. Federal Building and United States Courthouse"; to the Committee on Environment and Public Works.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. REID (for himself, Mr. McCONNELL, Mrs. FEINSTEIN, Mrs. BOXER, Mr. AKAKA, Mr. ALEXANDER, Mr. ALLARD, Mr. BAUCUS, Mr. BAYH, Mr. BENNETT, Mr. BIDEN, Mr. BINGAMAN, Mr. BOND, Mr. BROWN, Mr. BROWNBACK, Mr. BUNNING, Mr. BURR,

Mr. BYRD, Ms. CANTWELL, Mr. CARDIN, Mr. CARPER, Mr. CASEY, Mr. CHAMBLISS, Mrs. CLINTON, Mr. COBURN, Mr. COCHRAN, Mr. COLEMAN, Ms. COLLINS, Mr. CONRAD, Mr. CORKER, Mr. CORNYN, Mr. CRAIG, Mr. CRAPO, Mr. DEMINT, Mr. DODD, Mrs. DOLE, Mr. DOMENICI, Mr. DORGAN, Mr. DURBIN, Mr. ENSIGN, Mr. ENZI, Mr. FEINGOLD, Mr. GRAHAM, Mr. GRASSLEY, Mr. GREGG, Mr. HAGEL, Mr. HARKIN, Mr. HATCH, Mrs. HUTCHISON, Mr. INHOFE, Mr. INOUE, Mr. ISAKSON, Mr. JOHNSON, Mr. KENNEDY, Mr. KERRY, Ms. KLOBUCHAR, Mr. KOHL, Mr. KYL, Ms. LANDRIEU, Mr. LAUTENBERG, Mr. LEAHY, Mr. LEVIN, Mr. LIEBERMAN, Mrs. LINCOLN, Mr. LOTT, Mr. LUGAR, Mr. MARTINEZ, Mr. MCCAIN, Mrs. MCCASKILL, Mr. MENENDEZ, Ms. MIKULSKI, Ms. MURKOWSKI, Mrs. MURRAY, Mr. NELSON of Florida, Mr. NELSON of Nebraska, Mr. OBAMA, Mr. PRYOR, Mr. REED, Mr. ROBERTS, Mr. ROCKEFELLER, Mr. SALAZAR, Mr. SANDERS, Mr. SCHUMER, Mr. SESSIONS, Mr. SHELBY, Mr. SMITH, Ms. SNOWE, Mr. SPECTER, Ms. STABENOW, Mr. STEVENS, Mr. SUNUNU, Mr. TESTER, Mr. THOMAS, Mr. THUNE, Mr. VITTER, Mr. VOINOVICH, Mr. WARNER, Mr. WEBB, Mr. WHITEHOUSE, and Mr. WYDEN):

S. Res. 165. A resolution relative to the death of Representative Juanita Millender-McDonald, of California; considered and agreed to.

By Mr. CASEY (for himself and Mr. SPECTER):

S. Res. 166. A resolution commemorating the lifetime achievement of the Reverend Leon H. Sullivan; considered and agreed to.

ADDITIONAL COSPONSORS

S. 119

At the request of Mr. LEAHY, the name of the Senator from West Virginia (Mr. BYRD) was added as a cosponsor of S. 119, a bill to prohibit profiteering and fraud relating to military action, relief, and reconstruction efforts, and for other purposes.

S. 223

At the request of Mr. FEINGOLD, the name of the Senator from Maine (Ms. SNOWE) was added as a cosponsor of S. 223, a bill to require Senate candidates to file designations, statements, and reports in electronic form.

S. 406

At the request of Mrs. HUTCHISON, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 406, a bill to ensure local governments have the flexibility needed to enhance decision-making regarding certain mass transit projects.

S. 408

At the request of Mr. CHAMBLISS, the name of the Senator from Texas (Mr. CORNYN) was added as a cosponsor of S. 408, a bill to recognize the heritage of hunting and provide opportunities for continued hunting on Federal public land.

S. 469

At the request of Mr. BAUCUS, the names of the Senator from Pennsyl-

vania (Mr. SPECTER) and the Senator from California (Mrs. BOXER) were added as cosponsors of S. 469, a bill to amend the Internal Revenue Code of 1986 to make permanent the special rule for contributions of qualified conservation contributions.

S. 479

At the request of Mr. HARKIN, the name of the Senator from Illinois (Mr. OBAMA) was added as a cosponsor of S. 479, a bill to reduce the incidence of suicide among veterans.

S. 543

At the request of Mr. NELSON of Nebraska, the name of the Senator from Minnesota (Mr. COLEMAN) was added as a cosponsor of S. 543, a bill to improve Medicare beneficiary access by extending the 60 percent compliance threshold used to determine whether a hospital or unit of a hospital is an inpatient rehabilitation facility under the Medicare program.

S. 548

At the request of Mr. LEAHY, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 548, a bill to amend the Internal Revenue Code of 1986 to provide that a deduction equal to fair market value shall be allowed for charitable contributions of literary, musical, artistic, or scholarly compositions created by the donor.

S. 558

At the request of Mr. DOMENICI, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 558, a bill to provide parity between health insurance coverage of mental health benefits and benefits for medical and surgical services.

S. 573

At the request of Ms. STABENOW, the name of the Senator from New York (Mrs. CLINTON) was added as a cosponsor of S. 573, a bill to amend the Federal Food, Drug, and Cosmetic Act and the Public Health Service Act to improve the prevention, diagnosis, and treatment of heart disease, stroke, and other cardiovascular diseases in women.

S. 582

At the request of Mr. SMITH, the name of the Senator from Hawaii (Mr. INOUE) was added as a cosponsor of S. 582, a bill to amend the Internal Revenue Code of 1986 to classify automatic fire sprinkler systems as 5-year property for purposes of depreciation.

S. 626

At the request of Mr. KENNEDY, the names of the Senator from Alabama (Mr. SESSIONS), the Senator from Maine (Ms. COLLINS) and the Senator from Massachusetts (Mr. KERRY) were added as cosponsors of S. 626, a bill to amend the Public Health Service Act to provide for arthritis research and public health, and for other purposes.

S. 638

At the request of Mr. ROBERTS, the names of the Senator from Pennsyl-

vania (Mr. SPECTER) and the Senator from South Dakota (Mr. JOHNSON) were added as cosponsors of S. 638, a bill to amend the Internal Revenue Code of 1986 to provide for collegiate housing and infrastructure grants.

S. 667

At the request of Mr. BOND, the name of the Senator from Iowa (Mr. HARKIN) was added as a cosponsor of S. 667, a bill to expand programs of early childhood home visitation that increase school readiness, child abuse and neglect prevention, and early identification of developmental and health delays, including potential mental health concerns, and for other purposes.

S. 721

At the request of Mr. ENZI, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 721, a bill to allow travel between the United States and Cuba.

S. 746

At the request of Mr. ALLARD, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. 746, a bill to establish a competitive grant program to build capacity in veterinary medical education and expand the workforce of veterinarians engaged in public health practice and biomedical research.

S. 761

At the request of Mr. REID, the names of the Senator from California (Mrs. BOXER), the Senator from Hawaii (Mr. AKAKA), the Senator from South Dakota (Mr. JOHNSON) and the Senator from Kentucky (Mr. BUNNING) were added as cosponsors of S. 761, a bill to invest in innovation and education to improve the competitiveness of the United States in the global economy.

At the request of Mr. LEAHY, his name was added as a cosponsor of S. 761, *supra*.

S. 766

At the request of Mrs. CLINTON, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 766, a bill to amend the Fair Labor Standards Act of 1938 to provide more effective remedies of victims of discrimination in the payment of wages on the basis of sex, and for other purposes.

S. 794

At the request of Mrs. LINCOLN, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 794, a bill to amend titles XIX and XXI of the Social Security Act to provide States with the option to expand or add coverage of pregnant women under the Medicaid and State children's health insurance programs, and for other purposes.

S. 858

At the request of Mr. WYDEN, the names of the Senator from California (Mrs. BOXER) and the Senator from Wisconsin (Mr. FEINGOLD) were added

as cosponsors of S. 858, a bill to amend the Internal Revenue Code of 1986 to extend the transportation fringe benefit to bicycle commuters.

S. 901

At the request of Mr. KENNEDY, the name of the Senator from North Dakota (Mr. CONRAD) was added as a cosponsor of S. 901, a bill to amend the Public Health Service Act to provide additional authorizations of appropriations for the health centers program under section 330 of such Act.

S. 948

At the request of Mr. LIEBERMAN, the names of the Senator from Indiana (Mr. BAYH) and the Senator from Ohio (Mr. BROWN) were added as cosponsors of S. 948, a bill to amend the Public Health Service Act to authorize funding for the establishment of a program on children and the media within the National Institute of Child Health and Human Development to study the role and impact of electronic media in the development of children.

S. 960

At the request of Mrs. CLINTON, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 960, a bill to establish the United States Public Service Academy.

S. 962

At the request of Mr. BINGAMAN, the name of the Senator from Nebraska (Mr. NELSON) was added as a cosponsor of S. 962, a bill to amend the Energy Policy Act of 2005 to reauthorize and improve the carbon capture and storage research, development, and demonstration program of the Department of Energy and for other purposes.

S. 968

At the request of Mrs. BOXER, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 968, a bill to amend the Foreign Assistance Act of 1961 to provide increased assistance for the prevention, treatment, and control of tuberculosis, and for other purposes.

S. 991

At the request of Mr. DURBIN, the name of the Senator from Florida (Mr. NELSON) was added as a cosponsor of S. 991, a bill to establish the Senator Paul Simon Study Abroad Foundation under the authorities of the Mutual Educational and Cultural Exchange Act of 1961.

S. 1012

At the request of Ms. LANDRIEU, the name of the Senator from Georgia (Mr. ISAKSON) was added as a cosponsor of S. 1012, a bill to amend the Consumer Credit Protection Act to assure meaningful disclosures of the terms of rental-purchase agreements, including disclosures of all costs to consumers under such agreements, to provide certain substantive rights to consumers under such agreements, and for other purposes.

S. 1042

At the request of Mr. ENZI, the name of the Senator from Mississippi (Mr. LOTT) was added as a cosponsor of S. 1042, a bill to amend the Public Health Service Act to make the provision of technical services for medical imaging examinations and radiation therapy treatments safer, more accurate, and less costly.

S. 1060

At the request of Mr. BIDEN, the names of the Senator from New Jersey (Mr. MENENDEZ), the Senator from Washington (Ms. CANTWELL) and the Senator from Vermont (Mr. SANDERS) were added as cosponsors of S. 1060, a bill to reauthorize the grant program for reentry of offenders into the community in the Omnibus Crime Control and Safe Streets Act of 1968, to improve reentry planning and implementation, and for other purposes.

S. 1090

At the request of Ms. STABENOW, the name of the Senator from New Mexico (Mr. BINGAMAN) was added as a cosponsor of S. 1090, a bill to amend the Agriculture and Consumer Protection Act of 1973 to assist the neediest of senior citizens by modifying the eligibility criteria for supplemental foods provided under the commodity supplemental food program to take into account the extraordinarily high out-of-pocket medical expenses that senior citizens pay, and for other purposes.

S. 1105

At the request of Mr. KENNEDY, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of S. 1105, a bill to provide Federal assistance to States, local jurisdictions, and Indian tribes to prosecute hate crimes, and for other purposes.

S. 1117

At the request of Mr. BOND, the name of the Senator from Hawaii (Mr. AKAKA) was added as a cosponsor of S. 1117, a bill to establish a grant program to provide vision care to children, and for other purposes.

S. 1125

At the request of Mr. LOTT, the name of the Senator from Colorado (Mr. SALAZAR) was added as a cosponsor of S. 1125, a bill to amend the Internal Revenue Code of 1986 to provide incentives to encourage investment in the expansion of freight rail infrastructure capacity and to enhance modal tax equity.

S. 1146

At the request of Mr. SALAZAR, the name of the Senator from Washington (Ms. CANTWELL) was added as a cosponsor of S. 1146, a bill to amend title 38, United States Code, to improve health care for veterans who live in rural areas, and for other purposes.

S. 1173

At the request of Mrs. BOXER, the names of the Senator from Montana (Mr. TESTER) and the Senator from

Connecticut (Mr. LIEBERMAN) were added as cosponsors of S. 1173, a bill to protect, consistent with *Roe v. Wade*, a woman's freedom to choose to bear a child or terminate a pregnancy, and for other purposes.

S. CON. RES. 26

At the request of Mrs. CLINTON, the names of the Senator from Idaho (Mr. CRAPO) and the Senator from Maine (Ms. SNOWE) were added as cosponsors of S. Con. Res. 26, a concurrent resolution recognizing the 75th anniversary of the Military Order of the Purple Heart and commending recipients of the Purple Heart for their courageous demonstrations of gallantry and heroism on behalf of the United States.

S. CON. RES. 27

At the request of Mrs. CLINTON, the names of the Senator from Idaho (Mr. CRAPO) and the Senator from Maine (Ms. SNOWE) were added as cosponsors of S. Con. Res. 27, a concurrent resolution supporting the goals and ideals of "National Purple Heart Recognition Day".

S. RES. 82

At the request of Mr. HAGEL, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. Res. 82, a resolution designating August 16, 2007 as "National Airborne Day".

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BINGAMAN (for himself, Mr. BURR, and Mr. KENNEDY):

S. 1185. A bill to provide grants to States to improve high schools and raise graduation rates while ensuring rigorous standards, to develop and implement effective school models for struggling students and dropouts, and to improve State policies to raise graduation rates, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. BINGAMAN. Mr. President, I wanted to take a few minutes of the Senate's time to talk about a bill that I introduced, along with Senator BURR and Senator KENNEDY, entitled the Graduation Promise Act of 2007, or GPA.

This bill would create a Federal-State-local partnership to improve the Nation's graduation rates and help transform our lowest performing high schools. This is a bill we just introduced today.

I thank Senator BURR and Senator KENNEDY for their commitment to improving our high schools and for increasing graduation rates in this country. I am very pleased to be working with both of them on this legislation. I am also very glad that GPA, this legislation we have introduced, is supported by the Alliance for Excellent Education, by the Center for American Progress, by Jobs for the Future, by

the National Council of La Raza, by First Focus, and many other education groups.

Nearly 20 years ago, the Nation's Governors met for the first education summit and, as far as I know, for the only national education summit in our country's history. They met with the first President Bush in Charlottesville, VA. They agreed to set high expectations for education for the coming decade. That was the decade following 1989.

One of those standards they set was for an increase in high school graduation rates to 90 percent by the year 2000. Today, we are not even close to achieving that goal. In fact, the Nation's graduation rate has stagnated at around 70 percent instead of 90 percent. Graduation rates for Hispanic and African-American students are lower than that. In my home State of New Mexico, by some estimates, the graduation rate is less than 60 percent in some high schools.

Many students are entering the ninth grade significantly behind in their reading and mathematics skills. They are ill-prepared to master the challenges of the typical high school curriculum. Not surprisingly, these students are more prone to academic failure and grade retention and, accordingly, the dropout rates among these students are disturbingly high, specifically in the ninth grade.

But low graduation rates are only one broad indicator of the crisis affecting our Nation's high schools. Even if a student makes it to graduation, only a third of all students who enter the ninth grade will graduate with the skills and the knowledge necessary to go on to college or to succeed in the modern workplace. They are not receiving the kind of quality education that permits a seamless transition to a job or postsecondary education. Again, this problem disproportionately affects minority students. Only 16 percent of Hispanic students and 23 percent of African-American students graduate prepared for college, compared to 40 percent for other students.

This situation is simply unacceptable. In the global technology-based economy we live in today, a high school diploma is a minimum qualification for most jobs in our fastest growing sectors. The United States ranks 19th in high school graduation rates among major industrial democracies.

The Federal Government recognized that investments in early childhood and elementary grades are critical to a student's academic growth and success. Still, attention and resources must be sustained throughout the middle and high school years as well if the national goal of leaving no child behind is to be met. Unfortunately, we have not been doing this. Only about 8 percent of all title I dollars go to our high schools today.

Our continued economic security hinges on preparing our young people to enter college and to enter the 21st century workforce. In fact, our national security depends on it.

Fortunately, research has come to light that will help us to better understand the factors behind the low graduation and student performance data. For instance, we can identify the high schools that are producing the majority of dropouts in this country. These schools—roughly 2,000 schools I am referring to—represent about 15 percent of all high schools in the country, and they have persistently low rates of graduation and low rates of grade promotion.

If we look at the typical senior class at one of these high schools, it will have decreased in size by at least 40 percent since the students entered the school 4 years earlier. These high schools are in every State. They tend to be concentrated in urban areas, and they serve more than a third of our African-American and Hispanic students nationwide. Unfortunately, there are 23 of these high schools in my home State of New Mexico.

Research has also shed light on the specific factors that allow us to predict who is going to drop out of high school. We can identify with up to 80 percent accuracy the future dropouts as early as the ninth grade. We can do so by looking at such predictors as course failure, poor attendance, behavior problems, and retention in earlier grades. Students who enter high school significantly lagging behind in their academics and who show signs of becoming disengaged from the school are prone to drop out unless additional support is put in place.

Finally, research-based solutions with solid evidence of success are transforming our high schools with low graduation rates. Restructuring schools into smaller, more personalized learning environments ensures that students become engaged from the time they enter the ninth grade on. Sustained efforts to boost attendance ensure they will not fall further behind.

Schools that have combined these efforts with a high-quality curriculum and structural improvements have been very successful at improving student performance and improving graduation rates. They have done so with transitional math and English for ninth graders that will help them catch up by offering challenging curricula and tangible contextual applications of learning in order to rekindle the interests of these students and creating teaching teams, targeting professional development for the teachers to help them meet this challenge. A combination of these interventions has improved student performance and increased graduation rates. We know this problem can be solved to meet the goal.

This legislation has been introduced by Senators BURR and KENNEDY, and I hope very much this legislation and many of its provisions can be included when we get to a markup of the No Child Left Behind legislation later this year.

I submit we cannot afford to let the estimated 2,000 failing high schools continue to push students off the path to prosperity. Collectively, these schools serve about 2.4 million students. We need to ensure for the continued prosperity of the country that these students remain in school and graduate with the skills needed to become productive citizens.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1185

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Graduation Promise Act of 2007".

SEC. 2. DEFINITIONS.

In this Act:

(1) **IN GENERAL.**—The terms "local educational agency", "secondary school", and "State educational agency" have the meanings given the terms in section 9101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801).

(2) **GRADUATION RATE.**—The term "graduation rate" (except when used as part of the term "averaged freshmen graduation rate") has the meaning given the term in section 1111(b)(2)(C)(vi) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(b)(2)(C)(vi)).

(3) **HIGH-PRIORITY.**—The term "high-priority", when used with respect to a secondary school, means a school that—

(A) has low student achievement; and

(B)(i) has a low graduation rate; or

(ii) feeds students into a high school that has a low graduation rate.

(4) **HIGH SCHOOL.**—The term "high school" means a secondary school in which the—

(A) entering grade of the school is not lower than grade 6; and

(B) highest grade of the school is—

(i) grade 12; or

(ii) in the case of a secondary school approved by a State to issue a regular diploma concurrently with a postsecondary degree or with not more than 2 years' worth of postsecondary academic credit, grade 13.

(5) **INSTITUTION OF HIGHER EDUCATION.**—The term "institution of higher education" has the meaning given the term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(6) **SECRETARY.**—The term "Secretary" means the Secretary of Education.

(7) **STATE.**—The term "State" means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Republic of Palau.

TITLE I—HIGH SCHOOL IMPROVEMENT AND DROPOUT REDUCTION FUND

SEC. 101. FINDINGS.

The Senate finds the following:

(1) About a third of our Nation's high school students fail to graduate in 4 years, and another third graduate without the skills and knowledge needed to succeed in college or the workplace. The outcomes for minority students are even worse: only about 52 percent of Hispanic, 56 percent of African-American, and 57 percent of Native-American students graduate on time, compared to 78 percent of white students.

(2) More than a decade after Congress declared a national goal that 90 percent of American high school students graduate from high school we are far from that target and graduation rates have stagnated.

(3) Half of the Nation's dropouts attend a "dropout factory"—schools where 40 percent or more of the freshman class has disappeared by the time the students reach their senior year. These schools, which are located in nearly every State, primarily serve minority and poor students, and have fewer resources and less qualified teachers than schools in more affluent neighborhoods with larger numbers of white students. In fact, almost half of African-American students and nearly 40 percent of Latino students—compared to only 11 percent of white students—attend high schools in which graduation is not the norm.

(4) If the Nation's high schools and colleges raise the graduation rates of Hispanic, African-American, and Native-American students to the levels of white students by 2020, the potential increase in personal income across the Nation would add, conservatively, more than \$310,000,000,000 to the United States economy.

(5) If the high school graduation rate for male students increased by just 5 percent, the Nation could save almost \$5,000,000,000 a year in reduced spending on crime-related expenses such as prisons and medical costs for victims. An additional \$2,700,000,000 could be generated in income if these high school graduates went on to college at the same rate as other male students.

(6) A high school diploma is increasingly important for success in the 21st century economy. In fact, an estimated 80 percent of current jobs and approximately 90 percent of the fastest-growing, highest-paying jobs require some sort of education beyond high school.

(7) The Nation spends more than \$1,400,000,000 a year to provide remedial courses to community college students who recently completed high school. And that figure does not include the almost \$2,300,000,000 that the economy loses because students who take remedial courses, particularly in reading, are more likely to leave college without getting a degree, and thereby reduce their earning potential. Across the Nation, 42 percent of community college freshmen and 20 percent of freshmen in 4-year institutions enroll in at least 1 remedial course.

(8) Business and higher education consistently report that students are leaving high school unprepared for the demands of college and the workplace. According to a survey of the National Association of Manufacturers, more than 80 percent of manufacturing companies are experiencing a shortage of qualified workers. More than two-thirds of manufacturing companies said that businesses train employees to raise basic skills, a sure sign that a high school education is deficient even for the few jobs that require nothing further. Forty percent of employers considered graduates deficient in their overall preparation for the workplace.

(9) For decades, Federal funding has largely been spent on grades Pre-K to 6 and higher

education, with dramatically less given the middle and high school grades. While children in their early years must build a strong foundation for learning, research also clearly demonstrates the need to continue the investment at each stage of the education process or risk losing much of the benefit of the early effort.

(10) The United States has made some progress in education outcomes in the early years of education and in higher education, but has seen decline in the middle and high school years. In terms of demonstrating return on investment, where Federal educational commitment has been made, positive outcomes have resulted.

(11) Only 8 percent of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.) participants are high school students, leaving millions of title I-eligible, high school students in low-performing schools without the focused support, external assistance, and resources for improvement that title I was created to provide. Because title I funds serve as the trigger for school improvement requirements in the Elementary and Secondary Education Act of 1965, this also means that most low-income, low-performing high schools are not required to (or supported to) implement school improvement activities.

(12) While the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.) includes a strong focus on identifying low-performing schools, America still needs a comprehensive strategy to support and improve chronically low-performing schools and districts. School improvement strategies should be tailored based on a variety of indicators and data, so that educators can create and implement successful school improvement strategies to address the needs of the individual schools.

(13) Most districts and State educational agencies do not necessarily have the capacity or infrastructure to guide, support, and fund school improvement strategies where they are needed, but good models for turning around low-performing high schools do exist. Federal support should be used to build this capacity based on evidence from successful high schools.

(14) If the Nation is to maintain and increase its competitiveness in the global economy, it must invest in a systemic approach to improving its high schools so that every child graduates prepared for success.

SEC. 102. PURPOSES.

The purposes of this title are to—

(1) improve high school student academic achievement and graduation rates;

(2) help States develop a high school improvement system to deliver support and technical assistance to high-priority high schools;

(3) ensure students graduate from high school with the education and skills necessary to compete in a global economy; and

(4) help build the capacity to develop and implement research-based, sustainable, and replicable high school improvement models and interventions for high-priority high schools that engage the whole community.

SEC. 103. DEFINITIONS.

In this title:

(1) **ADEQUATE YEARLY PROGRESS.**—The term "adequate yearly progress" has the meaning given the term in section 1111(b)(2)(B) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(b)(2)(B)).

(2) **AVERAGED FRESHMEN GRADUATION RATE.**—The term "averaged freshmen graduation rate" means the estimate of the percentage of high school students who grad-

uate on time by dividing the number of graduates with regular diplomas by the estimated size of the incoming freshman class 4 years earlier, expressed as a percentage, as calculated and reported by the National Center for Education Statistics.

(3) **LOW-INCOME LOCAL EDUCATIONAL AGENCY.**—The term "low-income local educational agency" means a local educational agency in which not less than 15 percent of the students served by such agency are from families with incomes below the poverty line.

(4) **MIDDLE GRADES.**—The term "middle grades" means grades 6 through 8.

(5) **POVERTY LINE.**—The term "poverty line" means the poverty line described in section 673 of the Community Services Block Grant Act (42 U.S.C. 9902), applicable to a family of the size involved.

(6) **TECHNICAL ASSISTANCE PROVIDER.**—The term "technical assistance provider" means a nonprofit entity with a proven track record of significantly improving student achievement and outcomes in high-priority high schools.

SEC. 104. GRANTS AUTHORIZED.

The Secretary is authorized to make grants to State educational agencies with applications approved under section 109 to establish or expand a differentiated high school improvement system that can improve student achievement and graduation rates, and effectively target resources and technical assistance to high-priority high schools.

SEC. 105. ALLOTMENT TO STATES.

(a) **IN GENERAL.**—The Secretary shall make grants to State educational agencies with applications approved under section 109 to enable the States to carry out the activities specified in section 110. Each grant shall consist of the allotment determined for a State under subsection (b)(2).

(b) **DETERMINATION OF ALLOTMENTS.**—

(1) **RESERVATION OF FUNDS.**—From the total amount appropriated for this Act, the Secretary shall reserve—

(A) 4 percent to—

(i) evaluate activities authorized under this title, including supporting large-scale randomized studies of planned variations in school time, such as length of school day, week, and year, teacher effectiveness, class size, teacher training, performance or placement incentives, and other major school improvement inputs, in order to determine the most effective strategies for improving student achievement and outcomes for students attending high-priority high schools; and

(ii) disseminate findings of such evaluations;

(B) 2 percent to provide technical assistance and ongoing regional training programs—

(i) to build the capacity of State educational agencies and local educational agencies to provide technical assistance to improve high-priority high schools;

(ii) to develop the capacity of State educational agencies to effectively manage a differentiated high school improvement system and analyze the capacity of local educational agencies and high schools to effectively implement proven high school reform strategies; and

(iii) to develop, in middle schools served by a local educational agency whose students go on to attend high schools identified by the local educational agency as in need of whole school reforms or replacement, middle grade early indicator warning systems consisting of factors used to identify students who are struggling academically and have poor attendance records or have been suspended in

or before the middle grades or are likely to struggle in high school or to not graduate and provide supports to get such students back on track; and

(C) 2 percent to enter into contracts with or provide grants to technical assistance providers to build their capacity to serve more high schools and to support the development or enhancement of research-based whole secondary school reform or new secondary school models.

(2) **STATE ALLOTMENT.**—From the total amount appropriated under section 114 for a fiscal year and not reserved under paragraph (1), the Secretary shall make allotments as follows:

(A) **LOW-INCOME LOCAL EDUCATIONAL AGENCIES.**—From such amount, the Secretary shall allot to each State an amount that bears the same ratio to 50 percent of the sums being allotted as the percentage of students enrolled in schools served by low-income local educational agencies in the State bears to the total of such percentages for all the States.

(B) **LOWEST CALCULATION.**—From such amount, the Secretary shall allot to each State within the lowest one-third averaged freshman graduation rate an amount that bears the same ratio to 25 percent of the sums being allotted as the number of students enrolled in high schools in the State bears to the total of such students in all of such States within the lowest one-third averaged freshman graduation rate.

(C) **MIDDLE CALCULATION.**—From such amount, the Secretary shall allot to each State within the middle one-third averaged freshman graduation rate an amount that bears the same ratio to 15 percent of the sums being allotted as the number of students enrolled in high schools in the State bears to the total of such students in all of such States within the middle one-third averaged freshman graduation rate.

(D) **HIGHEST CALCULATION.**—From such amount, the Secretary shall allot to each State within the highest one-third averaged freshman graduation rate an amount that bears the same ratio to 10 percent of the sums being allotted as the number of students enrolled in high schools in the State bears to the total of such students in all of such States within the highest one-third averaged freshman graduation rate.

(3) **REALLOTMENT.**—If any State does not apply for an allotment under this subsection for any fiscal year, the Secretary shall reallocate the amount of the allotment to the remaining States in accordance with this subsection.

(4) **MATCHING FUNDS.**—A State educational agency that receives a grant under this title shall provide matching funds, from non-Federal sources, in an amount equal to 25 percent of the amount of grant funds provided to the State under this title (which may be provided in cash or in-kind, but not more than 10 percent of the amount of grant funds may be provided in-kind) to carry out the activities supported by the grant. In-kind contributions shall be directed toward supporting State educational agency technical assistance efforts or the operation of the State's differentiated high school improvement system.

SEC. 106. SECRETARIAL PEER REVIEW AND APPROVAL.

(a) **IN GENERAL.**—The Secretary shall—

(1) establish a peer-review process to assist in the review and approval of State plans;

(2) appoint individuals to the peer-review process who are educators and experts in educational standards, assessments, account-

ability, high school improvement, dropout prevention, and other educational needs of high school students;

(3) approve a State plan submitted under this title not later than 120 days after the date of the submission of the plan unless the Secretary determines that the plan does not meet the requirements of this title;

(4) if the Secretary determines that the State plan does not meet the requirements of this title, immediately notify the State of such determination and the reasons for such determination;

(5) not decline to approve a State's plan before—

(A) offering the State an opportunity to revise the State's plan;

(B) providing the State with technical assistance in order to submit a successful application; and

(C) providing a hearing to the State; and

(6) have the authority to disapprove a State plan for not meeting the requirements of this title.

(b) **STATE REVISIONS.**—A State plan shall be revised by the State educational agency if required to do so by the Secretary to satisfy the requirements of this title.

(c) **ACCURACY.**—In approving a State plan, the Secretary shall ensure that—

(1) the process the State educational agency proposes for differentiating school improvement actions under section 109(b)(4) will assign high schools to each category in such a way that accurately identifies schools and leads to the implementation of the interventions necessary to meet student needs; and

(2) the minimum expected growth targets proposed by the State educational agency under section 109(b)(2)(B) are meaningful, achievable, and demonstrate continuous and substantial progress.

SEC. 107. TECHNICAL ASSISTANCE.

If the Secretary determines that a State does not have the capacity to carry out high school improvement activities, the Secretary shall offer technical assistance to carry out such activities to States directly or through contracts with technical assistance providers.

SEC. 108. DIFFERENTIATED HIGH SCHOOL IMPROVEMENT SYSTEM.

(a) **IN GENERAL.**—A State educational agency that receives a grant under this title shall use such funds to establish or expand differentiated high school improvement systems.

(b) **SYSTEM REQUIREMENTS.**—The systems described in subsection (a) shall be designed to do the following:

(1) **IDENTIFY HIGH-PRIORITY HIGH SCHOOLS.**—The system shall be designed to identify high-priority high schools within the State.

(2) **DIFFERENTIATE SCHOOL IMPROVEMENT ACTIONS.**—The system shall be designed to differentiate school improvement actions based on the amount and type of supports necessary to improve student achievement and graduation rates in high schools within the State.

(3) **LOCALLY DRIVEN IMPROVEMENT PLANS.**—The system shall be designed to provide resources to support evidence-based activities chosen by local school improvement teams and based on school performance data.

(4) **TARGET FUNDS.**—The system shall be designed to target resources and support to those high-priority high schools within the State.

(5) **RECOGNIZE PROGRESS.**—The system shall be designed to ensure that high schools making progress on school performance indicators continue to implement effective school

improvement strategies identified in their current school improvement plan.

(6) **DEMONSTRATE COMMITMENT.**—The system shall be designed to ensure that high-priority high schools making progress on school performance indicators continue to have the resources and supports necessary to continue improving high school graduation rates and student achievement.

(7) **BUILD CAPACITY.**—The system shall be designed to build the capacity of the State educational agencies and local educational agencies to assist in improving student achievement and graduation rates in high-priority high schools.

SEC. 109. STATE APPLICATION TO DEVELOP DIFFERENTIATED HIGH SCHOOL IMPROVEMENT SYSTEMS.

(a) **IN GENERAL.**—

(1) **IN GENERAL.**—For a State to be eligible to receive a grant under this title, the State educational agency shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may reasonably require.

(2) **REVISED APPLICATION.**—The State educational agency shall submit a revised application every 5 years based on an evaluation of the activities conducted under this title.

(b) **CONTENTS.**—Each application submitted under this section shall include the following:

(1) **SCHOOL IMPROVEMENT PROCESS.**—The State educational agency shall describe how the State educational agency will use funds authorized under this title to establish or expand a high school improvement system described in sections 108 and 110.

(2) **SCHOOL PERFORMANCE INDICATORS.**—

(A) **IN GENERAL.**—The State educational agency shall define a set of comprehensive school performance indicators that shall be used, in addition to the indicators used to determine adequate yearly progress, to analyze school performance, determine the amount and type of support the school needs, and guide the school improvement process, such as—

(i) student attendance rates;

(ii) earned on-time promotion rates from grade to grade;

(iii) percent of students who have on-time credit accumulation at the end of each grade;

(iv) percent of students failing a core, credit-bearing mathematics, reading or language arts, or science course, or failing 2 or more of any course;

(v) percent of students taking a college preparatory curriculum, which may include percent of students taking Advanced Placement, International Baccalaureate courses, or college courses taken for dual credit;

(vi) teacher quality and attendance measures;

(vii) student rates of college enrollment, persistence, and attainment; and

(viii) additional indicators proposed by the State educational agency and approved by the Secretary as part of the peer-review process described in section 110.

(B) **EXPECTED GROWTH.**—The State educational agency shall define a minimum percent of expected annual growth for each school performance indicator that demonstrates continuous and substantial progress.

(3) **CAPACITY EVALUATIONS.**—

(A) **STATE EDUCATIONAL AGENCY AND LOCAL EDUCATIONAL AGENCY CAPACITY.**—The State educational agency shall describe how it will evaluate and ensure that the State educational agency and local educational agency have sufficient capacity to improve high-priority high schools.

(B) **HIGH SCHOOL CAPACITY AND NEEDS ASSESSMENT.**—The State educational agency shall describe how it will ensure that each high school that does not make adequate yearly progress for 2 consecutive years will undergo a capacity and needs assessment as described in section 111(e) and use such information to assist in determining the amount of the subgrant awarded under section 110(f).

(4) **DIFFERENTIATED SCHOOL IMPROVEMENT.**—The State educational agency shall describe how data from the school performance indicators described in paragraph (2) and indicators used to determine adequate yearly progress will be used by local educational agencies as criteria for placing high schools that do not make adequate yearly progress for 2 consecutive years into 1 of the following school improvement categories:

(A) **SCHOOLS NEEDING TARGETED INTERVENTIONS.**—High schools whose school performance indicators demonstrate a need for targeted interventions to improve student outcomes and make adequate yearly progress.

(B) **SCHOOLS NEEDING WHOLE SCHOOL REFORMS.**—High schools whose school performance indicators demonstrate a need for comprehensive schoolwide reform to improve student outcomes and make adequate yearly progress.

(C) **SCHOOLS NEEDING REPLACEMENT.**—High schools whose school performance indicators demonstrate a need for replacement, as described in section 112(d).

(D) **SPECIAL RULE.**—States may propose systems of differentiation aligned with their existing State accountability systems that include additional categories.

(E) **RULE OF CONSTRUCTION.**—Notwithstanding any other provision of law, for purposes of this title, a high school shall be designated as a school in need of whole school reform or as a school in need of replacement in the case that such high school has—

(i) a graduation rate of 60 percent or less; or

(ii) achievement levels below the initial baseline for measuring the percentage of students meeting or exceeding the State's proficient level of academic achievement in either mathematics or English or language arts in accordance with section 1111(b)(2)(E) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(b)(2)(E)).

(5) **STATE REVIEW OF LOCAL EDUCATIONAL AGENCY PLANS.**—The State educational agency shall describe the following:

(A) **REVIEW LOCAL EDUCATIONAL AGENCY PLANS.**—The State educational agency shall describe how it will collect and review high school improvement plans of local educational agencies using the peer-review process described in section 110(b) submitted by local educational agencies in accordance with section 111(e).

(B) **ALLOCATION OF SUBGRANTS.**—The State educational agency shall describe how it will award subgrants to local educational agencies using the peer-review process described in section 110(b) in accordance with section 110(f).

(C) **MONITORING OF SCHOOL IMPROVEMENT PLANS.**—The State educational agency shall describe how it will review and monitor the implementation of high school improvement plans of high schools that do not meet the expected growth targets set in accordance with paragraph (2)(B) and defined in the school improvement plan described in section 111(d).

(D) **PROVIDE TECHNICAL ASSISTANCE.**—

(i) **IN GENERAL.**—The State educational agency shall describe how it will provide technical assistance to local educational

agencies and high schools that need support to implement high school improvement plans described in section 111(d) and improve graduation rates and student achievement, including through the use of technical assistance providers, where appropriate.

(ii) **SCHOOL IMPROVEMENT TEAMS.**—The State educational agency shall describe how it will assist school improvement teams described in section 111(b), when needed, including how it will—

(I) support and provide resources and training to school improvement teams;

(II) allocate staff to participate on school improvement teams;

(III) provide technical assistance to the school improvement teams; and

(IV) ensure that the school improvement teams have access to technical assistance providers when needed.

(6) **DEMONSTRATION OF COMMITMENT.**—The State educational agency shall demonstrate how it will provide ongoing support to high schools that need targeted interventions, whole school reforms and replacement, and are making progress on school performance indicators, to ensure continued improvement, including the availability of funds from non-Federal sources.

(7) **MIDDLE GRADE EARLY INDICATOR WARNING SYSTEM.**—The State educational agency shall demonstrate how it will work with local educational agencies with low graduation rates to develop middle grade early indicator warning systems consisting of factors used to identify students who are struggling academically and have poor attendance records or have been suspended in or before the middle grades or are likely to struggle in high school or to not graduate and, where appropriate, provide supports to get such students back on track.

(8) **EVALUATION OF SUCCESS.**—The State educational agency shall describe how, every 5 years, it will evaluate how the activities assisted under this title have been successful in improving student achievement and outcomes of the cohort of students that entered 9th grade 4 years earlier.

SEC. 110. STATE EDUCATIONAL AGENCY USE OF FUNDS.

(a) **IN GENERAL.**—A State educational agency that receives a grant under section 105—

(1) may reserve not more than 10 percent of the grant funds to carry out the activities under this title; and

(2) shall use not less than 90 percent of the grant funds to make subgrants to local educational agencies in accordance with subsection (b).

(b) **STATE EDUCATIONAL AGENCY PEER REVIEW.**—A State educational agency that receives a grant under this title shall review applications submitted under section 111 and make awards in accordance with subsection (f) with the assistance and advice of a panel who are educators and experts in—

(1) educational standards, assessments, and accountability;

(2) high school improvement;

(3) dropout prevention; and

(4) other educational needs of high school students.

(c) **ACCURACY.**—The State educational agency, in consultation with the panel described in subsection (b), shall ensure the local educational agency has designated the school improvement category described in section 109(b)(4) for each high school served by the local educational agency that did not make adequate yearly progress for 2 consecutive years in such a way that accurately identifies schools and leads to the implementation of the interventions necessary to meet student needs.

(d) **OPPORTUNITY TO REVISE.**—If the State educational agency, in consultation with the panel described in subsection (b), determines that the local educational agency's application does not meet the requirements of this title, the State educational agency shall immediately notify the local educational agency of such determination and the reasons for such determination, and offer—

(1) the local educational agency an opportunity to revise the application; and

(2) technical assistance to the local educational agency to revise the application.

(e) **TECHNICAL ASSISTANCE.**—The State educational agency shall provide technical assistance to a local educational agency requesting such assistance in preparing the application and needs assessment required under section 111.

(f) **AWARD OF SUBGRANTS TO LOCAL EDUCATIONAL AGENCIES.**—

(1) **IN GENERAL.**—A State educational agency that receives a grant under this title shall award subgrants to local educational agencies with applications approved on the basis of—

(A) the quality of the plan to improve student graduation rates and student achievement in high schools that have not made adequate yearly progress for 2 consecutive years; and

(B) the capacity of the local educational agency to implement the plan.

(2) **AMOUNT.**—A subgrant under this section shall be awarded in an amount that is based on—

(A) the number and size of high schools served by the local educational agency needing—

(i) targeted interventions;

(ii) whole school reforms; and

(iii) replacement;

(B) the types of reforms or interventions proposed;

(C) the resources available to the high schools to implement the reforms or interventions proposed; and

(D) the resources available to the local educational agency to implement the reforms or interventions proposed.

(3) **PRIORITY.**—The State educational agency shall first award subgrants to local educational agencies serving high schools needing whole school reforms and replacement. The State educational agency shall award remaining subgrant funds to local educational agencies serving high schools needing targeted interventions.

(g) **AUTHORITY TO INTERVENE.**—If the State educational agency determines that a local educational agency does not have the capacity to implement high school improvement activities described in the school improvement plan, the State educational agency may intervene to implement the high school improvement plans or enter into contracts with technical assistance providers to assist local educational agencies with the implementation of high school improvement plans.

(h) **IMPLEMENTATION OF STATE EDUCATIONAL AGENCY APPLICATION.**—The State educational agency shall use funds under this title to carry out the activities included in the application described in section 109.

(i) **SUPPLEMENT, NOT SUPPLANT.**—A State educational agency that receives a grant under this title shall use the grant funds to supplement, and not supplant, Federal and non-Federal funds available to high schools.

SEC. 111. LOCAL EDUCATIONAL AGENCY IMPLEMENTATION OF SCHOOL IMPROVEMENT SYSTEM.

(a) **DIFFERENTIATE HIGH SCHOOLS.**—A local educational agency that applies for a

subgrant under this title shall designate the category of high school improvement, as described in section 109(b)(4), using data from the school performance indicators as criteria, as prescribed by the State educational agency, for each high school served by such agency that does not make adequate yearly progress for 2 consecutive years.

(b) SCHOOL IMPROVEMENT TEAMS.—

(1) IN GENERAL.—To be eligible to receive a subgrant under this title, a local educational agency shall convene a school improvement team for each high school served by such agency that does not make adequate yearly progress for 2 consecutive years and is assigned to 1 of the school improvement categories defined in section 109(b)(4), which—

(A) shall include—

- (i) the building principal;
- (ii) teachers representing different grade levels or disciplines;
- (iii) local educational agency staff;
- (iv) parents, including parents of students who have low graduation rates;
- (v) community representatives, including representatives of nonprofit organizations serving young people and the business community; and
- (vi) pupil service representatives; and

(B) may include—

- (i) technical assistance providers, where appropriate; and

(ii) State educational agency staff when requested by the local educational agency or assigned by the State educational agency.

(2) COLLABORATION.—A local educational agency shall ensure collaboration—

(A) of school improvement teams with personnel of middle schools served by the local educational agency whose students go on to attend high schools that are designated as in need of targeted assistance, whole school reform, or replacement, where appropriate; and

(B) between school improvement teams working at different high schools served by the local educational agency, to the extent appropriate.

(c) DEVELOP STUDENT INDICATORS.—To be eligible to receive a subgrant under this title, a local educational agency shall develop a set of indicators to determine the number and percent of students who begin high school at high risk for not graduating high school with a regular diploma and describe how the school improvement team will use such indicators to determine the type and intensity of supports each student needs. Such indicators shall include the number and percent of 9th grade students who—

(1) in the 8th grade—

(A) failed a credit-bearing mathematics or reading or language arts course, or 2 or more of any course;

(B) attended school less than 90 percent of the required time; and

(C) received an out-of-school suspension;

(2) repeat the 9th grade;

(3) enter the 9th grade over the average age; or

(4) have experienced interrupted formal education.

(d) DEVELOP HIGH SCHOOL IMPROVEMENT PLANS.—The school improvement team convened under subsection (b) shall use data from the school performance indicators, the student indicators, measures used to determine adequate yearly progress, the capacity and needs assessment described in subsection (e), and other relevant data and knowledge of the school to develop a multiyear school improvement plan for each school. Such plan shall—

(1) identify annual benchmarks for school performance indicators that meet or exceed

the minimum percentage of expected growth defined by the State educational agency in section 109(b)(2)(B);

(2) define the evidence-based academic and nonacademic interventions and resources necessary to meet annual benchmarks and make adequate yearly progress;

(3) identify the roles of the State educational agency, the local educational agency, the school, and technical assistance providers and service providers, as appropriate, in providing identified interventions and resources necessary to meet annual benchmarks and make adequate yearly progress;

(4) provide for the involvement of business and community organizations and other entities, including parents and institutions of higher education, in the activities to be assisted under this title; and

(5) describe and direct the use of—

(A) any additional funding to be provided by the State educational agency, the local educational agency, or other sources; and

(B) technical assistance providers, where appropriate.

(e) HIGH SCHOOL CAPACITY AND NEEDS ASSESSMENT.—

(1) IN GENERAL.—To be eligible to receive a subgrant under this title, a local educational agency shall submit, with the application described in subsection (f), to the State educational agency a capacity and needs assessment for each high school served by such agency that does not make adequate yearly progress for 2 consecutive years.

(2) ASSESSMENT.—The assessment under paragraph (1) shall be conducted by a school improvement team described in subsection (b) and the local educational agency and shall include—

(A) a description and analysis of the school's capacity to implement needed school improvement activities identified in the school improvement plan, including an analysis of—

(i) the number, experience, training level, responsibilities, and stability of existing administrative, instructional, and noninstructional staff for each high school to be assisted;

(ii) a review of the budget, including how Federal, State, and local funds are currently being spent for instruction and operations at the school level for staff salaries, instructional materials, professional development, and student support services to establish the extent to which existing resources need to and can be reallocated to support the needed school improvement activities; and

(iii) additional resources and staff necessary to implement the needed school improvement activities described in section 112; and

(B) an analysis of the local educational agency's capacity to provide technical assistance, additional staff, and resources to implement the school improvement plan to improve high school performance.

(3) REQUIREMENTS.—The information provided in the capacity and needs assessment in coordination with the school improvement plan shall be used to determine the level and direct the use of—

(A) funds requested by the local educational agency for each high school to be assisted under this title;

(B) any additional funding to be provided by the State educational agency, the local educational agency, or other sources; and

(C) technical assistance providers, where appropriate.

(f) APPLICATION.—

(1) IN GENERAL.—To be eligible to receive a subgrant under this title, a local educational agency—

(A) shall submit an application to the State educational agency at such time, in such manner, and containing such information as the State educational agency may reasonably require; and

(B) may request technical assistance from the State educational agency in preparing the application and the capacity and needs assessment required under this section.

(2) CONTENTS.—Each application submitted under this section shall use data from the capacity and needs assessment required in subsection (e) and shall include the following:

(A) A description of how the local educational agency used data from the school performance indicators as criteria to designate the school improvement category described in section 109(b)(4) for each high school served by such agency that did not make adequate yearly progress for 2 consecutive years.

(B) An identification of each high school served by the local educational agency that did not make adequate yearly progress for 2 consecutive years and the designation of the school improvement category for each such school, as described in section 109(b)(4).

(C) A description of the activities to be carried out by the local educational agency under this title and a description of how the activities will be research-based and an explanation of why the activities are expected to improve student achievement and increase graduation rates.

(D) An assurance that the local educational agency will use funds authorized under this title and received from the State educational agency first to meet the needs of high schools served by the local educational agency that need whole school reforms or high schools served by the local educational agency that need replacement.

(E) A description of how the local educational agency will provide for the involvement of parents, business and community organizations, including institutions of higher education, in the activities to be assisted under this title, and the resources such entities will make available to assist in such activities.

(F) An assurance that the local educational agency shall provide ongoing support and resources to high schools that need whole school reforms and that need replacement, and are making progress on school performance indicators, to ensure continued improvement.

(G) A description of how the local educational agency will increase its capacity to improve high schools with low student achievement and graduation rates.

(H) A description of the options that will be provided to high school students served by the local educational agency, such as—

(i) programs for credit recovery for overage or under-credited students; and

(ii) secondary-postsecondary learning opportunities, including dual enrollment programs and early college high schools.

(g) IMPLEMENT HIGH SCHOOL IMPROVEMENT PLANS.—The local educational agency shall use funds to ensure the implementation of school improvement plans.

(h) ENSURE CONTINUOUS HIGH SCHOOL IMPROVEMENT.—

(1) IN GENERAL.—The local educational agency shall ensure the continuous improvement of high schools by evaluating the progress of high schools in making the continuous and substantial progress as defined in the school improvement plan in accordance with the minimum expected growth set by the State educational agency in section 109(b)(2)(B) and determining whether the

high school is on track or not on track as provided in paragraphs (2) and (3).

(2) **ON TRACK.**—Each high school that is meeting the annual benchmarks as defined in the school improvement plan shall continue to implement school improvement activities in accordance with the school improvement plan.

(3) **NOT ON TRACK.**—For each high school that is not meeting the annual benchmarks as defined in the school improvement plan, the local educational agency shall—

(A) after 1 year, review the school improvement plan, and develop and implement a new plan, as appropriate;

(B) after 2 years, redesignate the school into a different school improvement category, as described in section 109(b)(4), either—

(i) as a school in need of whole school reform; or

(ii) as a school in need of replacement; and

(C) develop and submit to the State educational agency for review a new school improvement plan, as appropriate.

(I) **TARGETED INTERVENTIONS FOR FEEDER MIDDLE SCHOOLS.**—A local educational agency that receives a subgrant under this title, consistent with subsection (f)(2)(D), may use funds to—

(1) implement research- and evidence-based interventions to improve middle schools served by such agency whose students go on to attend high schools served by the local educational agency that need whole school reforms or high schools served by the local educational agency that need replacement; and

(2) establish an early indicator warning system consisting of factors used to identify students who are struggling academically and have poor attendance records or have been suspended in or before the middle grades or are likely to struggle in high school or to not graduate and provide supports to get such students back on track.

(j) **SUPPLEMENT, NOT SUPPLANT.**—A local educational agency that receives a subgrant under this title shall use the subgrant funds to supplement, and not supplant, Federal and non-Federal funds available for high schools.

(k) **MATCHING FUNDS.**—

(1) **IN GENERAL.**—A local educational agency receiving a grant under this title shall provide matching funds, from non-Federal sources, in an amount equal to not less than 15 percent of the total subgrant award for the local educational agency, which may be provided in cash or in-kind, to provide technical assistance to high schools served by the local educational agency in developing their high school improvement plans, conducting the capacity and needs assessment, and in implementing and monitoring the implementation of the high school improvement plans.

(2) **WAIVER.**—The Secretary may waive all or part of the matching requirement described in paragraph (1) for any fiscal year for a local educational agency if the Secretary determines that applying the matching requirement to such local educational agency would result in serious hardship or an inability to carry out the authorized activities described in section 110.

SEC. 112. SCHOOL IMPROVEMENT ACTIVITIES.

(a) **IN GENERAL.**—Each school improvement team convened as described in section 111 shall ensure that the school improvement activities developed under the school improvement plan are implemented.

(b) **TARGETED INTERVENTIONS.**—A high school or local educational agency, as deter-

mined by the school improvement team, shall implement research-based targeted interventions, using data from the school performance and student indicators and capacity evaluations for schools identified for such interventions pursuant to section 111. The targeted interventions shall be designed, at a minimum, to address the specific problems identified by the indicators.

(c) **WHOLE SCHOOL REFORMS.**—The local educational agency or State educational agency, with technical assistance from technical assistance providers, as determined by the school improvement team, shall implement research-based whole school reforms, using data from the school performance indicators (as described in section 109(b)(2)) and capacity evaluations (as described in section 109(b)(3)), to schools designated as needing whole school reform pursuant to section 111. Such reforms—

(1) shall address the comprehensive aspects of high school reform, such as—

(A) attendance;

(B) student engagement, behavior, and effort;

(C) academic success; and

(D) teacher and administrator skill and collaboration;

(2) shall address resource allocation, including—

(A) student supports;

(B) teacher and staff support;

(C) materials and equipment;

(D) time for collaboration; and

(E) the use of data;

(3) shall be designed to address—

(A) the multiple layers of school improvement demonstrated by research and best practice;

(B) schoolwide needs;

(C) students who need targeted assistance; and

(D) students who need intensive interventions;

(4) shall include activities that serve to—

(A) personalize the school experience, increase student engagement, attendance, and effort, and enable schools to provide the level and intensity of student support needed, by creating constructs, such as—

(i) smaller schools or smaller units within schools with their own leadership, such as 9th grade transition programs or academies, and upper grade programs or academies, including career academies;

(ii) thematic small-learning communities;

(iii) teams of teachers who work exclusively with small groups of students; or

(iv) using extended periods, such as block scheduling, to reduce the number of students for whom teachers are responsible and the number of courses students are taking at any one time;

(B) improve curriculum and instruction, such as—

(i) implementing a college- and work-ready curriculum for all students;

(ii) adopting well-designed curriculum and instructional materials aligned to high academic standards for all students, including students with diverse learning needs;

(iii) offering extended learning opportunities, both in school and through after-school and summer programs;

(iv) emphasizing intensive core academic preparation and college and work-ready skills development;

(v) increasing rigor through advanced placement courses, international baccalaureate courses, dual enrollment, and early college high schools opportunities;

(vi) creating contextual learning opportunities aligned with college and work readi-

ness, such as through a high-quality career and technical education (as defined in section 3 of the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2302)) option for upper grades;

(vii) collecting and using comprehensive data, including formative assessments;

(viii) offering mentoring and tutoring; and

(ix) implementing pedagogies that actively engage students in the learning process;

(C) increase teacher and principal effectiveness through activities such as—

(i) providing teacher and administrator supports and research-based, ongoing professional development tied to needs identified in the school improvement plan;

(ii) providing regular opportunities for teachers of core academic subjects to—

(I) meet together in both subject area and interdisciplinary groups;

(II) review student achievement data; and

(III) plan instruction;

(iii) implementing a schoolwide literacy or mathematics plan that may include hiring literacy or mathematics coaches; and

(iv) developing administrator learning networks and supports;

(D) increase student supports, such as—

(i) student advisories;

(ii) 9th grade transition programs;

(iii) credit completion recovery programs;

(iv) additional counselors, social workers, and mental and behavioral health service providers;

(v) student advocates;

(vi) strengthening involvement of parents in the academic life of students;

(vii) school-family-community partnerships;

(viii) wraparound social services;

(ix) before and after school programs; or

(x) additional supports for students with diverse learning needs, including students with disabilities and English language learners;

(E) improve middle schools within a local educational agency whose students go on to attend such high schools and establish an early indicator warning system consisting of factors used to identify students who are struggling academically and have poor attendance records or have been suspended in or before the middle grades or are likely to struggle in high school or not to graduate and provide supports to get them back on track; and

(F) provide the local educational agency or high school with flexible budget and hiring authority where needed to implement improvements; and

(5) may include other activities designed to address whole school needs, such as implementing a comprehensive reform model.

(d) **REPLACEMENT.**—The local educational agency or the State educational agency, with assistance from technical assistance providers, shall replace high schools, using data from the school performance indicators and high school capacity and needs assessment (described in paragraphs (2) and (3) of section 109(b), respectively) designated as needing replacement pursuant to section 111. Replacement shall be implemented—

(1) by replacing such schools with 1 or more new small schools using effective school models with evidence of success with students with similar academic challenges and outcomes to those attending the school being replaced;

(2) by reopening such schools after combining the assignment of a new administrative team that has the authority to select a new teaching staff with the use of research-based strategies through—

(A) the implementation of a whole school reform model with evidence of success with students with similar academic outcomes to those attending the school being replaced; and

(B) increasing learning time;

(3) by closing such schools and reassigning the students to high schools that have made adequate yearly progress for the past 2 years; or

(4) by otherwise replacing such schools.

SEC. 113. EVALUATION AND REPORTING.

(a) LOCAL EDUCATIONAL AGENCY REPORTING.—On an annual basis, each local educational agency receiving funds under this title shall report to the State educational agency and to the public on—

(1) the designated category of school improvement for each high school served by the local educational agency under this title;

(2) the school performance indicators (as described in section 109(b)(2)) for each school served under this title, in the aggregate and disaggregated by the subgroups described in section 111(b)(2)(C)(v)(II) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(b)(2)(C)(v)(II));

(3) progress in meeting the benchmarks for each high school served pursuant to this title; and

(4) the use of funds by the local educational agency and each such school.

(b) STATE EDUCATIONAL AGENCY REPORTING.—On an annual basis, each State educational agency receiving funds under this title shall report to the Secretary and to the public on—

(1) the school performance indicators (as described in section 109(b)(2)), in the aggregate and disaggregated by the subgroups described in section 111(b)(2)(C)(v)(II) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(b)(2)(C)(v)(II));

(2) progress in meeting the benchmarks for each high school served pursuant to this title;

(3) the high schools that have changed school improvement categories in accordance with section 111(h); and

(4) the use of funds by each local educational agency and each school served with such funds.

(c) REPORT TO CONGRESS.—Every 2 years, the Secretary shall report to Congress and to the public—

(1) a summary of the State reports; and

(2) on the use of funds by each State under this title.

SEC. 114. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to carry out the activities authorized under this title, \$2,400,000,000 for fiscal year 2008 and each of the 4 succeeding fiscal years.

TITLE II—DEVELOPMENT OF EFFECTIVE SCHOOL MODELS

SEC. 201. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Senate finds the following:

(1) With close to a third of our Nation's high school students failing to graduate in 4 years, and another third graduating without the skills and knowledge needed to succeed in college or the workplace, new models of high school are clearly needed, especially for struggling students who are not on track to a high school diploma.

(2) Researchers have identified leading indicators that, taken together, are as much as 85 percent predictive of which 9th graders will not graduate from high school 4 years later.

(3) In the 2000 high schools nationwide with estimated 4-year graduation rates of 60 per-

cent or lower, 80 percent of the 9th graders are significantly behind in skills or credits. By a conservative estimate, this adds up to not fewer than 500,000 students who are not on track to graduation.

(4) Poor outcomes for struggling students are endemic in cities, towns, and rural areas across the country. Graduation rates for students who are not on-track to an on-time graduation in ninth grade are as low as 20 percent.

(5) Schools designed to accelerate students' learning and get them on track to a college-ready diploma make a difference. The Early College High School Initiative has started 130 schools serving approximately 16,000 students in 23 States. Early results indicate that in the first programs to graduate students, over 95 percent earned a high school diploma, over 57 percent earned an associate's degree, and over 80 percent were accepted at a 4-year college

(6) Most States and districts have limited capacity to expand and spread proven practices and models for improving graduation rates within a high standards environment.

(7) The Nation's young people understand the value of education and will persist, often against considerable odds, to further their education. From 1980 to 2002, a period of time with no discernible increase in the country's graduation rates, the percentage of 10th graders aspiring to a bachelor's degree or higher increased from 40 percent to 80 percent, with the largest increase among low-income youth.

(8) Young people who fall behind and drop out of high school often report that they regret leaving and wish they had been encouraged and supported to work harder while they were in school. Many persevere despite a lack of school options or pathways designed to help them succeed. Close to 60 percent of dropouts eventually earn a high school credential—in most cases a GED certificate. Almost half of these students—44 percent—later enroll in 2-year or 4-year colleges, but despite their efforts fewer than 10 percent earn a postsecondary degree.

(b) PURPOSES.—The purposes of this title are—

(1) to facilitate the development and implementation of effective secondary school models for struggling students and dropouts; and

(2) to build the capacity of State educational agencies, local educational agencies, nonprofit organizations, and institutions of higher education to implement effective secondary school models for struggling students and dropouts.

SEC. 202. DEFINITIONS.

In this title:

(1) DROPOUT.—The term “dropout” means an individual who—

(A) is not older than 21;

(B)(i) is not attending any school; or

(ii) prior to attending a school based on an effective school model, was not attending any school; and

(C) has not received a secondary school regular diploma or its recognized equivalent.

(2) EFFECTIVE SCHOOL MODEL.—The term “effective school model” means—

(A) an existing secondary school model with demonstrated effectiveness in improving student academic achievement and outcomes for struggling students or dropouts; or

(B) a proposed new secondary school model design that is based on research-based organizational and instructional practices for improving student academic achievement and outcomes for struggling students or dropouts.

(3) ELIGIBLE ENTITY.—The term “eligible entity” means—

(A) a local educational agency, nonprofit organization, or institution of higher education—

(i) that proposes to enhance or expand an existing effective school model for struggling students or dropouts; or

(ii) that has a track record of serving struggling students or dropouts and proposes to develop a new effective school model for struggling students or dropouts; or

(B) a partnership involving 2 or more entities described in subparagraph (A).

(4) STRUGGLING STUDENT.—The term “struggling student”—

(A) means a high school-aged student who is not making sufficient progress toward graduating from secondary school with a regular diploma in the standard number of years; and

(B) includes a student who—

(i) has been retained in grade level;

(ii) is under-credited, defined as a high school student who lacks either the necessary credits or courses, as determined by the relevant local educational agency and State educational agency, to graduate from secondary school with a regular diploma in the standard number of years; or

(iii) is a late entrant English language learner, defined as a high school student who—

(I) enters a school served by a local educational agency at grade 9 or higher; and

(II) is identified by the local educational agency as being limited English proficient and as having experienced interrupted formal education.

SEC. 203. GRANTS AUTHORIZED.

(a) IN GENERAL.—The Secretary is authorized to award grants, on a competitive basis, to eligible entities to enable the eligible entities to develop and implement, or replicate, effective school models for struggling students and dropouts.

(b) PERIOD OF GRANT.—A grant awarded under this section shall be for a period of 3 years.

SEC. 204. APPLICATION.

(a) IN GENERAL.—Each eligible entity desiring a grant under this title shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require.

(b) CONTENTS.—Each application submitted under this section shall include a description of—

(1) how the eligible entity will carry out the mandatory activities under section 206(a);

(2) the research or evidence concerning the effective school model that the eligible entity proposes to develop and implement or replicate, including—

(A) for an existing effective school model described in section 203(2)(A), the evidence that the model has improved academic outcomes for struggling students or dropouts; or

(B) for a proposed effective school model described in section 203(2)(B), the research that supports the key organizational and instructional practices of the proposed effective school model;

(3) the eligible entity's school design elements and principles that will be used in the effective school model, including—

(A) the academic program;

(B) the instructional practices;

(C) the methods of assessment; and

(D) student supports and services, such as those provided by the school or offered by other organizations and agencies in the community, to support positive student academic achievement and outcomes;

(4) how the eligible entity will use student data from the local educational agency or State educational agency—

(A) to demonstrate the need for and projected benefits of the effective school model; and

(B) in the implementation of the model, in order to improve academic outcomes for struggling students or dropouts;

(5) for each school in which the eligible entity implements or replicates an effective school model under this title, how the eligibility entity will sustain the implementation or replication of the effective school model, including the financing mechanism to be used;

(6) how the eligible entity will collect data and information to assess the performance of the effective school model and will make necessary adjustments to ensure continuous and substantial improvement in student academic achievement and outcomes; and

(7) how the eligible entity will make the performance data available to State educational agencies, local educational agencies, and schools serving struggling students or dropouts.

SEC. 205. SECRETARIAL PEER REVIEW AND APPROVAL.

The Secretary shall—

(1) establish a peer-review process to assist in the review and approval of applications submitted by eligible entities under section 204; and

(2) appoint individuals to the peer-review process who are experts in high school reform, dropout prevention and recovery, new school development for struggling students and dropouts, and adolescent and academic development.

SEC. 206. USE OF FUNDS.

(a) **MANDATORY USE OF FUNDS.**—An eligible entity receiving a grant under this title shall use grant funds to—

(1) enhance and expand, or replicate, an existing effective school model described in section 202(2)(A), or develop a proposed effective school model described in section 202(2)(B), for struggling students and dropouts;

(2) assess the progress of the implementation or replication of the effective school model and make necessary adjustments to ensure continuous improvement;

(3) provide opportunities for professional development associated with the continuous improvement and implementation or replication of the effective school model;

(4) collect data and information on the school model's effectiveness in improving student academic achievement and outcomes for struggling students and dropouts and disseminate such data and information to State educational agencies, local educational agencies, and schools; and

(5) build the capacity of the eligible entity to—

(A) sustain the implementation or replication of the effective school model assisted under paragraph (1) after the grant period has ended; and

(B) replicate the effective school model.

(b) **OPTIONAL USE OF FUNDS.**—An eligible entity receiving a grant under this title may use grant funds to—

(1) identify and create partnerships needed to improve the academic achievement and outcomes of the students attending a school assisted under this title;

(2) support family and community engagement in the effective school model; and

(3) carry out any additional activities that the Secretary determines are within the purposes described in section 201.

SEC. 207. EVALUATION AND REPORTING.

(a) **CONTENTS OF REPORT.**—Each eligible entity receiving a grant under this title shall annually report to the Secretary on—

(1) the data and information being gathered to assess the effective school model's effectiveness in improving student academic achievement and outcomes for struggling students and dropouts;

(2) the implementation status of the models, any barriers to implementation, and actions taken to overcome the barriers;

(3) any professional development activities to build the capacity of—

(A) the eligible entity to sustain or replicate the effective school model; or

(B) the staff of a school assisted under this title to implement or improve the effective school model;

(4) the progress made in improving student academic achievement and outcomes in the effective school models for struggling students and dropouts; and

(5) the use of grant funds by the eligible entity.

(b) **INDEPENDENT EVALUATIONS.**—The Secretary shall reserve not more than \$5,000,000 to carry out an independent evaluation of the grant program under this title and the progress of the eligible entities receiving grants under this title.

SEC. 208. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to carry out this title \$60,000,000 for fiscal year 2008 and each of the 4 succeeding fiscal years.

TITLE III—STRENGTHENING STATE POLICIES

SEC. 301. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—The Senate finds the following:

(1) Frontrunner States have begun to move more aggressively on the dual challenge of raising high school graduation rates while also raising the standards to the level of a college and work-ready diploma.

(2) Seven States are publically reporting 4-year cohort graduation rates and 20 States plan to publically report by 2008.

(3) Thirteen States now require students to take a college- and work-ready course of study to earn a diploma, up from just 3 in 2006. Another 16 States report that they plan to raise requirements during 2007.

(4) States that act aggressively to raise graduation rates without conceding ground on academic proficiency are gaining traction in such cutting-edge policy areas as: dual enrollment to support early college high schools that lead to high school diplomas and 2 years of postsecondary credit; expanding high school accountability to include indicators to reward schools for keeping struggling students in school and on track to proficiency; the development of new secondary educational options, including both small school models and recovery or alternative models for struggling students and dropouts.

(5) Even frontrunner States have not yet adopted a comprehensive set of policies to support high standards and high graduation rates. They lack the supports and resources to track implementation of the policies they have put in place or to partner with districts to build further capacity to carry out evidence-based practices and programming.

(6) Past Federal educational initiatives have been effective in supporting and accelerating bolder, more strategic action with positive results, for example the National Science Foundation State Systemic Initiative.

(7) Supporting frontrunner States to become laboratories of innovation and models for other States will accelerate the number

of young people graduating from high schools across the Nation who are college and career ready.

(b) **PURPOSES.**—The purposes of this title are to—

(1) provide incentives for States to strengthen and develop new State policies in order to substantially raise the graduation rate in the State while ensuring rigorous secondary education content standards and assessments; and

(2) evaluate the effectiveness of such changes to the State policies.

SEC. 302. SYSTEMIC INITIATIVE TO IMPROVE HIGH SCHOOL GRADUATION RATE.

(a) **GRANT PROGRAM AUTHORIZED.**—The Secretary is authorized to award grants, on a competitive basis, to States that meet the requirements of section 303 to enable such States to design and align State policies in order to act as laboratories of innovation by reducing barriers and creating incentives to improve outcomes for high school students.

(b) **NUMBER OF GRANTS; DURATION.**—

(1) **NUMBER OF GRANTS.**—For each of the first 3 consecutive years of the grant program under this title, the Secretary shall award 4 or more grants under this title, except that the Secretary shall award a total of not more than 20 grants under this title for all 3 such years.

(2) **DURATION OF GRANT.**—Each grant awarded under this title shall be for a period of 5 years.

SEC. 303. ELIGIBLE STATE.

To be eligible to receive a grant under this title, a State shall comply with each of the following:

(1) The State shall receive a grant under title I and carry out the activities required under such title.

(2) The State shall have implemented, or be in the process of developing, a statewide longitudinal data system with individual student identifiers.

(3) The Governor of the State and any individual, entity, or agency designated under section 304(a) by the Governor shall regularly consult with each other and with the State board of education, the State educational agency, the head of the State higher education entity, the head of career and technical education in the State, and other agencies as appropriate, regarding carrying out the activities required under this title.

(4) The State shall meet any additional criteria determined by the Secretary to be necessary to carry out the purposes of this title.

SEC. 304. APPLICATION.

(a) **IN GENERAL.**—If a State desires a grant under this title, the Governor of the State, or an individual, entity, or agency designated by the Governor, shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require.

(b) **CONTENTS.**—Each application submitted under this section shall include the following:

(1) A description of the State's plan to conduct the policy gap and impact analysis described in section 305(1).

(2) A description of the State's plan for using the findings of the policy gap and impact analysis to strengthen the policies of the State in effect as of the date of enactment of this Act.

(3) A description of how the State will ensure that the State elementary and secondary education content standards and academic assessments described in section 1111(b) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(b)) are aligned to college and work readiness.

(4) A description of how the State will ensure that all students have access to a college preparatory curriculum.

(5) A plan to ensure the statewide longitudinal student data system, other statewide data systems, and data protocols are designed and implemented in such a way that allows for data interoperability and portability across local educational agencies and among pre-kindergarten through grade 12 systems, institutions of higher education, and systems that identify whether students enter the Armed Forces.

(6) A plan to grant additional flexibility and autonomy to schools and local educational agencies working to increase the graduation rates and college readiness of secondary school students.

(7) A plan to stimulate the development of multiple pathways and expanded educational options to help secondary students, including struggling students and dropouts, attain a secondary school diploma that prepares the student with the necessary skills to succeed in higher education and work.

(8) An assurance that the following stakeholders are committed to achieving the goals and objectives set forth in the grant application:

(A) The Governor of the State.

(B) The chief executive officer of the State higher education coordinating board.

(C) The chief State school officer.

(D) The head of the State Board of Education.

(E) The head of career and technical education in the State.

(F) Other agency heads, as determined appropriate by the Governor and the individuals, entities, and agencies involved in the consultation under section 303(3).

SEC. 305. USE OF FUNDS.

A State receiving a grant under this title shall carry out the following:

(1) Conduct, or enter into a contract with a third party to conduct, a policy gap and impact analysis to determine how to strengthen the policies of the State in order to substantially raise the graduation rate in the State while ensuring rigorous secondary education content standards and assessments. Such analysis shall—

(A) examine the policies of the State, and of the local educational agencies within the State, affecting—

(i) school funding;

(ii) data capacity;

(iii) accountability systems;

(iv) interventions in high-priority secondary schools;

(v) new school development; and

(vi) the dissemination and implementation of effective local school improvement activities throughout the State; and

(B) provide recommendations regarding how the State can strengthen the policies of the State to substantially raise the graduation rate in the State while ensuring rigorous postsecondary and work-ready academic standards, including recommendations on—

(i) innovative finance models, such as weighted student funding;

(ii) data capacity that enables longitudinal and cross-sectoral analysis of State education and other systems, such as juvenile justice, social services, and early childhood;

(iii) improving a differentiated system of supports, sanctions, and interventions for high-priority high schools;

(iv) the development of additional secondary educational options, including both the development of small school models and

recovery or alternative models for struggling students and dropouts;

(v) additional accountability measures in the State accountability system;

(vi) dual student enrollment in secondary schools and institutions of higher education; and

(vii) the development of school-family-community partnerships to improve student achievement.

(2) Implement or enact—

(A) the changes to the policies of the State recommended by the policy gap and impact analysis under paragraph (1)(B); and

(B) any additional changes to the policies of the State necessary to enable the State to carry out all of the plans described in the application under subsection (b).

(3) Develop a system to—

(A) measure how the changes to the policies of the State carried out under this title improve student outcomes at the State and local levels; and

(B) adjust the policies of the State accordingly in order to achieve the desired policy targets and student outcomes at the State and local levels.

(4) Devote resources to ensure the sustainability of the activities carried out under this title and the long-term success of the secondary schools within the State.

SEC. 306. EVALUATION AND REPORTING.

(a) EVALUATION AND REPORT.—Not later than 180 days after the date of enactment of this Act, and annually thereafter for the period of the grant, each State receiving a grant under this title shall—

(1) conduct an evaluation of the State's progress regarding the impact of the changes made to the policies of the State in accordance with this title, on substantially raising the graduation rate in the State while ensuring rigorous postsecondary and work-ready academic standards, including—

(A) a description of the specific changes made, or in the process of being made, to policies as a result of the grant;

(B) a discussion of any barriers hindering the identified changes in policies, and strategies to overcome such barriers;

(C) evidence of the impact of changes to policies on desired behavior and actions at the local educational agency and school level;

(D) after the first year of the grant period, a description of how the results of the previous year's evaluation were used to adjust policies of the State as necessary to achieve the purposes of this title; and

(E) evidence of the impact of the changes to policies in accordance with this title on improving graduation rates or other measures, such as percent of students who are making sufficient progress toward graduating secondary school in the standard number of years;

(2) use the results of the evaluation conducted under paragraph (1) to adjust the policies of the State as necessary to achieve the purposes of this title; and

(3) submit the results of the evaluation to the Secretary.

(b) AVAILABILITY.—The Secretary shall make the results of each State's evaluation under subsection (a) available to other States and local educational agencies.

SEC. 307. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated to carry out this title \$40,000,000 for fiscal year 2008 and the 4 succeeding fiscal years.

Mr. KENNEDY. Mr. President, while many measures are being taken at the Federal, State and local levels to im-

prove student achievement in America, our high school students are still being left behind. High school students continue to lag in both math and reading. In 12th grade, less than a quarter of students scored proficient or better on the math assessment, and only 35 percent were proficient or better on the reading assessment.

Furthermore, Federal funding is not currently going to the high schools that are in the most need. The main source of Federal funds is through the title I program. Yet only 8 percent of students who benefit from these funds are in high school. Ninety percent of high schools with very low graduation rates have many low-income students.

The statistics on high school graduation rates are staggering. About 1,000 high schools across the country only graduate half their students, and only about 70 percent of high school students graduate on time. Among African Americans and Latinos, only 55 percent graduate on time. It is clear that high schools need more assistance in supporting and retaining students.

The continued partnership between local, State and the Federal Government is essential in improving secondary education in America. That is why the Graduation Promise Act provides the necessary funding to improve the capacity of low-performing high schools, decrease dropout rates and increase student achievement. The act speaks directly to the root of the problem, providing support to high schools and middle schools to both assist and retain students who may have fallen between the cracks.

The Graduation Promise Act would make great strides in helping high school students achieve to their fullest potential. The act would provide \$2.5 billion to build capacity for secondary school improvement, and at the same time provide States and local school districts with the resources to ensure high schools with the greatest challenges receive the support they need to implement research-based interventions.

Research shows that we can identify students who are most at-risk for not completing high school as early as sixth grade. With early intervention, quality teachers, small classes, and data-driven instruction we can ensure that these students make progress, stay in school and succeed.

The act assists these efforts by supporting the development and dissemination of highly effective secondary school models for students most at risk of being left behind. It would also strengthen state improvement systems to identify, differentiate among, and target the level of reform and resources necessary to improve low-performing high schools, while ensuring transparency and accountability. Finally, the act would support states' continuing efforts to align State policies

and systems to meet the goal of college and career-ready graduation for all students.

Bringing our schools into the 21st century is the ultimate goal of this important piece of legislation. Local schools, States and the Federal Government must continue to work together to modernize the practices and models that are being used to ensure success from all of our high school students. Updating the system for the current times is a difficult process, but with the assistance of the Graduation Promise Act, all high school students can be given the tools necessary to succeed both in school and beyond.

I thank my colleagues, Senator BINGAMAN and Senator BURR, for their good work on this initiative and their leadership on this issue. I look forward to working with them on this and many other important issues as we move forward with the reauthorization of the Elementary and Secondary Act. I urge my colleagues to support this legislation.

By Mr. FEINGOLD:

S. 1186. A bill to amend the Congressional Budget and Impoundment Control Act of 1974 to provide for the expedited consideration of certain proposed rescissions of budget authority; to the Committee on the Budget.

Mr. FEINGOLD. Mr. President, I am delighted to join my colleague in the other body, Congressman PAUL RYAN of Wisconsin, in introducing the Congressional Accountability and Line-Item Veto Act of 2007. Congressman RYAN and I belong to different political parties, and differ on many important issues. But we do share at least two things in common—our hometown of Janesville, WI, and an abiding respect for Wisconsin's tradition of fiscal responsibility.

The measure we are each introducing today would grant the President specific authority to rescind or cancel congressional earmarks, including earmarked spending, tax breaks, and tariff benefits. This new authority would sunset at the end of 2012, ensuring that Congress will have a chance to review its use under two different Administrations before considering whether or not to extend it. While not a true line-item veto bill, our measure provides for fast-track consideration of the President's proposed cancellation of earmarks. Thus, unlike current law, it ensures that for the specific category of congressional earmarks, the President will get an up or down vote on his proposed cancellations.

There have been a number of so-called line-item veto proposals offered in the past several years. But the measure Congressman RYAN and I propose today is unique in that it specifically targets the very items that every line-item veto proponent cites when promoting a particular measure, name-

ly earmarks. When President Bush asked for this kind of authority, the examples he gave when citing wasteful spending he wanted to target were congressional earmarks. When Members of the House or Senate tout a new line-item veto authority to go after government waste, the examples they give are congressional earmarks. When editorial pages argue for a new line-item veto, they, too, cite congressional earmarks as the reason for granting the President this new authority.

That is exactly what our bill does. It provides the President with new expedited rescission authority—what has been commonly referred to as a line-item veto—to cancel congressional earmarks. The definitions of earmarks that we use are the very definitions upon which each house has agreed in passing legislation earlier this year.

Unauthorized congressional earmarks are a growing problem. By one estimate, in 2004 alone more than \$50 billion in earmarks were passed. There is no excuse for a system that allows that kind of wasteful spending year after year, and while I have opposed granting the President line-item veto authority to effectively reshape programs like Medicare and Medicaid, for this specific category, I support giving the President this additional tool.

Under our proposal, wasteful spending doesn't have anywhere to hide. It's out in the open, so that both Congress and the President have a chance to get rid of wasteful projects before they would become law.

The taxpayers—who pay the price for these projects—deserve a process that shows some real fiscal discipline, and that's what we are trying to get at with this legislation.

I ask unanimous consent that the text of this legislation be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1186

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Congressional Accountability and Line-Item Veto Act of 2007".

SEC. 2. LEGISLATIVE LINE ITEM VETO.

(a) IN GENERAL.—Title X of the Congressional Budget and Impoundment Control Act of 1974 (2 U.S.C. 621 et seq.) is amended by striking all of part B (except for sections 1016 and 1013, which are redesignated as sections 1019 and 1020, respectively) and part C and inserting the following:

"PART B—LEGISLATIVE LINE-ITEM VETO

"LINE ITEM VETO AUTHORITY

"SEC. 1011. (a) PROPOSED CANCELLATIONS.—Within 30 calendar days after the enactment of any bill or joint resolution containing any congressional earmark or providing any limited tariff benefit or targeted tax benefit, the President may propose, in the manner provided in subsection (b), the repeal of the con-

gressional earmark or the cancellation of any limited tariff benefit or targeted tax benefit. If the 30 calendar-day period expires during a period where either House of Congress stands adjourned sine die at the end of Congress or for a period greater than 30 calendar days, the President may propose a cancellation under this section and transmit a special message under subsection (b) on the first calendar day of session following such a period of adjournment.

"(b) TRANSMITTAL OF SPECIAL MESSAGE.—

"(1) SPECIAL MESSAGE.—

"(A) IN GENERAL.—The President may transmit to the Congress a special message proposing to repeal any congressional earmarks or to cancel any limited tariff benefits or targeted tax benefits.

"(B) CONTENTS OF SPECIAL MESSAGE.—Each special message shall specify, with respect to the congressional earmarks, limited tariff benefits, or targeted tax benefits to be repealed or canceled—

"(i) the congressional earmark that the President proposes to repeal or the limited tariff benefit or the targeted tax benefit that the President proposes be canceled;

"(ii) the specific project or governmental functions involved;

"(iii) the reasons why such congressional earmark should be repealed or such limited tariff benefit or targeted tax benefit should be canceled;

"(iv) to the maximum extent practicable, the estimated fiscal, economic, and budgetary effect (including the effect on outlays and receipts in each fiscal year) of the proposed repeal or cancellation;

"(v) to the maximum extent practicable, all facts, circumstances, and considerations relating to or bearing upon the proposed repeal or cancellation and the decision to propose the repeal or cancellation, and the estimated effect of the proposed repeal or cancellation upon the objects, purposes, or programs for which the congressional earmark, limited tariff benefit, or the targeted tax benefit is provided;

"(vi) a numbered list of repeals and cancellations to be included in an approval bill that, if enacted, would repeal congressional earmarks and cancel limited tariff benefits or targeted tax benefits proposed in that special message; and

"(vii) if the special message is transmitted subsequent to or at the same time as another special message, a detailed explanation why the proposed repeals or cancellations are not substantially similar to any other proposed repeal or cancellation in such other message.

"(C) DUPLICATIVE PROPOSALS PROHIBITED.—The President may not propose to repeal or cancel the same or substantially similar congressional earmark, limited tariff benefit, or targeted tax benefit more than one time under this Act.

"(D) MAXIMUM NUMBER OF SPECIAL MESSAGES.—The President may not transmit to the Congress more than one special message under this subsection related to any bill or joint resolution described in subsection (a), but may transmit not more than 2 special messages for any omnibus budget reconciliation or appropriation measure.

"(2) ENACTMENT OF APPROVAL BILL.—

"(A) DEFICIT REDUCTION.—Congressional earmarks, limited tariff benefits, or targeted tax benefits which are repealed or canceled pursuant to enactment of a bill as provided under this section shall be dedicated only to reducing the deficit or increasing the surplus.

"(B) ADJUSTMENT OF LEVELS IN THE CONCURRENT RESOLUTION ON THE BUDGET.—Not later

than 5 days after the date of enactment of an approval bill as provided under this section, the chairs of the Committees on the Budget of the Senate and the House of Representatives shall revise allocations and aggregates and other appropriate levels under the appropriate concurrent resolution on the budget to reflect the repeal or cancellation, and the applicable committees shall report revised suballocations pursuant to section 302(b), as appropriate.

“(C) ADJUSTMENTS TO STATUTORY LIMITS.—After enactment of an approval bill as provided under this section, the Office of Management and Budget shall revise applicable limits under the Balanced Budget and Emergency Deficit Control Act of 1985, as appropriate.

“(D) TRUST FUNDS AND SPECIAL FUNDS.—Notwithstanding subparagraph (A), nothing in this part shall be construed to require or allow the deposit of amounts derived from a trust fund or special fund which are canceled pursuant to enactment of a bill as provided under this section to any other fund.

“PROCEDURES FOR EXPEDITED CONSIDERATION

“SEC. 1012. (a) EXPEDITED CONSIDERATION.—

“(1) IN GENERAL.—The majority leader or minority leader of each House or his designee shall (by request) introduce an approval bill as defined in section 1017 not later than the third day of session of that House after the date of receipt of a special message transmitted to the Congress under section 1011(b). If the bill is not introduced as provided in the preceding sentence in either House, then, on the fourth day of session of that House after the date of receipt of the special message, any Member of that House may introduce the bill.

“(2) CONSIDERATION IN THE HOUSE OF REPRESENTATIVES.—

“(A) REFERRAL AND REPORTING.—Any committee of the House of Representatives to which an approval bill is referred shall report it to the House without amendment not later than the seventh legislative day after the date of its introduction. If a committee fails to report the bill within that period or the House has adopted a concurrent resolution providing for adjournment sine die at the end of a Congress, such committee shall be automatically discharged from further consideration of the bill and it shall be placed on the appropriate calendar.

“(B) PROCEEDING TO CONSIDERATION.—After an approval bill is reported by or discharged from committee or the House has adopted a concurrent resolution providing for adjournment sine die at the end of a Congress, it shall be in order to move to proceed to consider the approval bill in the House. Such a motion shall be in order only at a time designated by the Speaker in the legislative schedule within two legislative days after the day on which the proponent announces his intention to offer the motion. Such a motion shall not be in order after the House has disposed of a motion to proceed with respect to that special message. The previous question shall be considered as ordered on the motion to its adoption without intervening motion. A motion to reconsider the vote by which the motion is disposed of shall not be in order.

“(C) CONSIDERATION.—The approval bill shall be considered as read. All points of order against an approval bill and against its consideration are waived. The previous question shall be considered as ordered on an approval bill to its passage without intervening motion except five hours of debate equally divided and controlled by the proponent and an opponent and one motion to limit debate

on the bill. A motion to reconsider the vote on passage of the bill shall not be in order.

“(D) SENATE BILL.—An approval bill received from the Senate shall not be referred to committee.

“(3) CONSIDERATION IN THE SENATE.—

“(A) REFERRAL AND REPORTING.—Any committee of the Senate to which an approval bill is referred shall report it to the Senate without amendment not later than the seventh legislative day after the date of its introduction. If a committee fails to report the bill within that period or the Senate has adopted a concurrent resolution providing for adjournment sine die at the end of a Congress, such committee shall be automatically discharged from further consideration of the bill and it shall be placed on the appropriate calendar.

“(B) MOTION TO PROCEED TO CONSIDERATION.—After an approval bill is reported by or discharged from committee or the Senate has adopted a concurrent resolution providing for adjournment sine die at the end of a Congress, it shall be in order to move to proceed to consider the approval bill in the Senate. A motion to proceed to the consideration of a bill under this subsection in the Senate shall not be debatable. It shall not be in order to move to reconsider the vote by which the motion to proceed is agreed to or disagreed to.

“(C) LIMITS ON DEBATE.—Debate in the Senate on a bill under this subsection, and all debatable motions and appeals in connection therewith (including debate pursuant to subparagraph (D)), shall not exceed 10 hours, equally divided and controlled in the usual form.

“(D) APPEALS.—Debate in the Senate on any debatable motion or appeal in connection with a bill under this subsection shall be limited to not more than 1 hour, to be equally divided and controlled in the usual form.

“(E) MOTION TO LIMIT DEBATE.—A motion in the Senate to further limit debate on a bill under this subsection is not debatable.

“(F) MOTION TO RECOMMEND.—A motion to recommend a bill under this subsection is not in order.

“(G) CONSIDERATION OF THE HOUSE BILL.—

“(i) IN GENERAL.—If the Senate has received the House companion bill to the bill introduced in the Senate prior to a vote under subparagraph (C), then the Senate may consider, and the vote under subparagraph (C) may occur on, the House companion bill.

“(ii) PROCEDURE AFTER VOTE ON SENATE BILL.—If the Senate votes, pursuant to subparagraph (C), on the bill introduced in the Senate, then immediately following that vote, or upon receipt of the House companion bill, the House bill shall be deemed to be considered, read the third time, and the vote on passage of the Senate bill shall be considered to be the vote on the bill received from the House.

“(b) AMENDMENTS PROHIBITED.—No amendment to, or motion to strike a provision from, a bill considered under this section shall be in order in either the Senate or the House of Representatives.

“PRESIDENTIAL DEFERRAL AUTHORITY

“SEC. 1013. (a) TEMPORARY PRESIDENTIAL AUTHORITY TO WITHHOLD CONGRESSIONAL EARMARKS.—

“(1) IN GENERAL.—At the same time as the President transmits to the Congress a special message pursuant to section 1011(b), the President may direct that any congressional earmark to be repealed in that special message shall not be made available for obliga-

tion for a period of 45 calendar days of continuous session of the Congress after the date on which the President transmits the special message to the Congress.

“(2) EARLY AVAILABILITY.—The President shall make any congressional earmark deferred pursuant to paragraph (1) available at a time earlier than the time specified by the President if the President determines that continuation of the deferral would not further the purposes of this Act.

“(b) TEMPORARY PRESIDENTIAL AUTHORITY TO SUSPEND A LIMITED TARIFF BENEFIT.—

“(1) IN GENERAL.—At the same time as the President transmits to the Congress a special message pursuant to section 1011(b), the President may suspend the implementation of any limited tariff benefit proposed to be canceled in that special message for a period of 45 calendar days of continuous session of the Congress after the date on which the President transmits the special message to the Congress.

“(2) EARLY AVAILABILITY.—The President shall terminate the suspension of any limited tariff benefit at a time earlier than the time specified by the President if the President determines that continuation of the suspension would not further the purposes of this Act.

“(c) TEMPORARY PRESIDENTIAL AUTHORITY TO SUSPEND A TARGETED TAX BENEFIT.—

“(1) IN GENERAL.—At the same time as the President transmits to the Congress a special message pursuant to section 1011(b), the President may suspend the implementation of any targeted tax benefit proposed to be repealed in that special message for a period of 45 calendar days of continuous session of the Congress after the date on which the President transmits the special message to the Congress.

“(2) EARLY AVAILABILITY.—The President shall terminate the suspension of any targeted tax benefit at a time earlier than the time specified by the President if the President determines that continuation of the suspension would not further the purposes of this Act.

“IDENTIFICATION OF TARGETED TAX BENEFITS

“SEC. 1014. (a) STATEMENT.—The chairman of the Committee on Ways and Means of the House of Representatives and the chairman of the Committee on Finance of the Senate acting jointly (hereafter in this subsection referred to as the ‘chairmen’) shall review any revenue or reconciliation bill or joint resolution which includes any amendment to the Internal Revenue Code of 1986 that is being prepared for filing by a committee of conference of the two Houses, and shall identify whether such bill or joint resolution contains any targeted tax benefits. The chairmen shall provide to the committee of conference a statement identifying any such targeted tax benefits or declaring that the bill or joint resolution does not contain any targeted tax benefits. Any such statement shall be made available to any Member of Congress by the chairmen immediately upon request.

“(b) STATEMENT INCLUDED IN LEGISLATION.—

“(1) IN GENERAL.—Notwithstanding any other rule of the House of Representatives or any rule or precedent of the Senate, any revenue or reconciliation bill or joint resolution which includes any amendment to the Internal Revenue Code of 1986 reported by a committee of conference of the two Houses may include, as a separate section of such bill or joint resolution, the information contained in the statement of the chairmen, but only in the manner set forth in paragraph (2).

“(2) APPLICABILITY.—The separate section permitted under subparagraph (A) shall read as follows: ‘Section 1021 of the Congressional Budget and Impoundment Control Act of 1974 shall _____ apply to _____’, with the blank spaces being filled in with—

“(A) in any case in which the chairmen identify targeted tax benefits in the statement required under subsection (a), the word ‘only’ in the first blank space and a list of all of the specific provisions of the bill or joint resolution in the second blank space; or

“(B) in any case in which the chairmen declare that there are no targeted tax benefits in the statement required under subsection (a), the word ‘not’ in the first blank space and the phrase ‘any provision of this Act’ in the second blank space.

“(C) IDENTIFICATION IN REVENUE ESTIMATE.—With respect to any revenue or reconciliation bill or joint resolution with respect to which the chairmen provide a statement under subsection (a), the Joint Committee on Taxation shall—

“(1) in the case of a statement described in subsection (b)(2)(A), list the targeted tax benefits in any revenue estimate prepared by the Joint Committee on Taxation for any conference report which accompanies such bill or joint resolution, or

“(2) in the case of a statement described in 13 subsection (b)(2)(B), indicate in such revenue estimate that no provision in such bill or joint resolution has been identified as a targeted tax benefit.

“(d) PRESIDENT’S AUTHORITY.—If any revenue or reconciliation bill or joint resolution is signed into law—

“(1) with a separate section described in subsection (b)(2), then the President may use the authority granted in this section only with respect to any targeted tax benefit in that law, if any, identified in such separate section; or

“(2) without a separate section described in subsection (b)(2), then the President may use the authority granted in this section with respect to any targeted tax benefit in that law.

“TREATMENT OF CANCELLATIONS

“SEC. 1015. The repeal of any congressional earmark or cancellation of any limited tariff benefit or targeted tax benefit shall take effect only upon enactment of the applicable approval bill. If an approval bill is not enacted into law before the end of the applicable period under section 1013, then all proposed repeals and cancellations contained in that bill shall be null and void and any such congressional earmark, limited tariff benefit, or targeted tax benefit shall be effective as of the original date provided in the law to which the proposed repeals or cancellations applied.

“REPORTS BY COMPTROLLER GENERAL

“SEC. 1016. With respect to each special message under this part, the Comptroller General shall issue to the Congress a report determining whether any congressional earmark is not repealed or limited tariff benefit or targeted tax benefit continues to be suspended after the deferral authority set forth in section 1013 of the President has expired.

“DEFINITIONS

“SEC. 1017. As used in this part:

“(1) APPROPRIATION LAW.—The term ‘appropriation law’ means an Act referred to in section 105 of title 1, United States Code, including any general or special appropriation Act, or any Act making supplemental, deficiency, or continuing appropriations, that has been signed into law pursuant to Article I, section 7, of the Constitution of the United States.

“(2) APPROVAL BILL.—The term ‘approval bill’ means a bill or joint resolution which only approves proposed repeals of congressional earmarks or cancellations of limited tariff benefits or targeted tax benefits in a special message transmitted by the President under this part and—

“(A) the title of which is as follows: ‘A bill approving the proposed repeals and cancellations transmitted by the President on _____’, the blank space being filled in with the date of transmission of the relevant special message and the public law number to which the message relates;

“(B) which does not have a preamble; and

“(C) which provides only the following after the enacting clause: ‘That the Congress approves of proposed repeals and cancellations _____’, the blank space being filled in with a list of the repeals and cancellations contained in the President’s special message, ‘as transmitted by the President in a special message on _____’, the blank space being filled in with the appropriate date, ‘regarding _____’, the blank space being filled in with the public law number to which the special message relates;

“(D) which only includes proposed repeals and cancellations that are estimated by CBO to meet the definition of congressional earmark or limited tariff benefits, or that are identified as targeted tax benefits pursuant to section 1014; and

“(E) if no CBO estimate is available, then the entire list of legislative provisions proposed by the President is inserted in the second blank space in subparagraph (C).

“(3) CALENDAR DAY.—The term ‘calendar day’ means a standard 24-hour period beginning at midnight.

“(4) CANCEL OR CANCELLATION.—The terms ‘cancel’ or ‘cancellation’ means to prevent—

“(A) a limited tariff benefit from having legal force or effect, and to make any necessary, conforming statutory change to ensure that such limited tariff benefit is not implemented; or

“(B) a targeted tax benefit from having legal force or effect, and to make any necessary, conforming statutory change to ensure that such targeted tax benefit is not implemented and that any budgetary resources are appropriately canceled.

“(5) CBO.—The term ‘CBO’ means the Director of the Congressional Budget Office.

“(6) CONGRESSIONAL EARMARK.—The term ‘congressional earmark’ means a provision or report language included primarily at the request of a Member, Delegate, Resident Commissioner, or Senator providing, authorizing or recommending a specific amount of discretionary budget authority, credit authority, or other spending authority for a contract, loan, loan guarantee, grant, loan authority, or other expenditure with or to an entity, or targeted to a specific State, locality or Congressional district, other than through a statutory or administrative formula-driven or competitive award process.

“(7) ENTITY.—As used in paragraph (6), the term ‘entity’ includes a private business, State, territory or locality, or Federal entity.

“(8) LIMITED TARIFF BENEFIT.—The term ‘limited tariff benefit’ means any provision of law that modifies the Harmonized Tariff Schedule of the United States in a manner that benefits 10 or fewer entities (as defined in paragraph (12)(B)).

“(9) OMB.—The term ‘OMB’ means the Director of the Office of Management and Budget.

“(10) OMNIBUS RECONCILIATION OR APPROPRIATION MEASURE.—The term ‘omnibus rec-

onciliation or appropriation measure’ means—

“(A) in the case of a reconciliation bill, any such bill that is reported to its House by the Committee on the Budget; or

“(B) in the case of an appropriation measure, any such measure that provides appropriations for programs, projects, or activities falling within 2 or more section 302(b) suballocations.

“(11) TARGETED TAX BENEFIT.—The term ‘targeted tax benefit’ means—

“(A) any revenue provision that—

“(i) provides a Federal tax deduction, credit, exclusion, or preference to a particular beneficiary or limited group of beneficiaries under the Internal Revenue Code of 1986; and

“(ii) contains eligibility criteria that are not uniform in application with respect to potential beneficiaries of such provision; or

“(B) any Federal tax provision which provides one beneficiary temporary or permanent transition relief from a change to the Internal Revenue Code of 1986.

“EXPIRATION

“SEC. 1018. This title shall have no force or effect on or after December 31, 2012”.

SEC. 3. TECHNICAL AND CONFORMING AMENDMENTS.

(a) EXERCISE OF RULEMAKING POWERS.—Section 904 of the Congressional Budget Act of 1974 (2 U.S.C. 621 note) is amended—

(1) in subsection (a), by striking “1017” and inserting “1012”; and

(2) in subsection (d), by striking “section 1017” and inserting “section 1012”.

(b) ANALYSIS BY CONGRESSIONAL BUDGET OFFICE.—Section 402 of the Congressional Budget Act of 1974 is amended by inserting “(a)” after “402.” and by adding at the end the following new subsection:

“(b) Upon the receipt of a special message under section 1011 proposing to repeal any congressional earmark, the Director of the Congressional Budget Office shall prepare an estimate of the savings in budget authority or outlays resulting from such proposed repeal relative to the most recent levels calculated consistent with the methodology used to calculate a baseline under section 257 of the Balanced Budget and Emergency Deficit Control Act of 1985 and included with a budget submission under section 1105(a) of title 31, United States Code, and transmit such estimate to the chairmen of the Committees on the Budget of the House of Representatives and Senate.”.

(c) CLERICAL AMENDMENTS.—(1) Section 1(a) of the Congressional Budget and Impoundment Control Act of 1974 is amended by striking the last sentence.

(2) Section 1022(c) of such Act (as redesignated) is amended by striking “rescinded or that is to be reserved” and insert “canceled” and by striking “1012” and inserting “1011”.

(3) TABLE OF CONTENTS.—The table of contents set forth in section 1(b) of the Congressional Budget and Impoundment Control Act of 1974 is amended by deleting the contents for parts B and C of title X and inserting the following:

“PART B—LEGISLATIVE LINE-ITEM VETO

“Sec. 1011. Line item veto authority

“Sec. 1012. Procedures for expedited consideration

“Sec. 1013. Presidential deferral authority

“Sec. 1014. Identification of targeted tax benefits

“Sec. 1015. Treatment of cancellations

“Sec. 1016. Reports by comptroller general

“Sec. 1017. Definitions

“Sec. 1018. Expiration

“Sec. 1019. Suits by Comptroller General

“Sec. 1020. Proposed Deferrals of budget authority”.

(d) EFFECTIVE DATE.—The amendments made by this Act shall take effect on the date of its enactment and apply only to any congressional earmark, limited tariff benefit, or targeted tax benefit provided in an Act enacted on or after the date of enactment of this Act.

SEC. 4. SENSE OF CONGRESS ON ABUSE OF PROPOSED REPEALS AND CANCELLATIONS.

It is the sense of Congress no President or any executive branch official should condition the inclusion or exclusion or threaten to condition the inclusion or exclusion of any proposed repeal or cancellation in any special message under this section upon any vote cast or to be cast by any Member of either House of Congress.

By Mr. PRYOR (for himself and Mrs. LINCOLN):

S. 1189. A bill to designate the Federal building and United States Courthouse located at 100 East 8th Avenue in Pine Bluff, Arkansas, as the “George Howard, Jr. Federal Building and United States Courthouse”; to the Committee on Environment and Public Works.

Mr. PRYOR. Mr. President, I rise today to commemorate the life and achievements of Arkansas native George Howard, Jr., who died Saturday, April 21, 2007 at Jefferson Regional Medical Center in Pine Bluff, AR. Howard, a remarkable lawyer and civil-rights leader, was Arkansas's first black Federal judge. I am pleased to honor his legacy today by introducing legislation to designate the Pine Bluff Federal building and courthouse the “George Howard, Jr. Federal Building and United States Courthouse.”

Judge Howard will be remembered for a number of remarkable professional accomplishments. He was named by President Carter to a lifetime appointment as U.S. District Court Judge for Arkansas's Eastern and Western districts in 1980. Prior to taking office as a Federal judge, Mr. Howard worked as an attorney in private practice and served as President of the State Council of Branches of the NAACP.

He graduated from law school at the University of Arkansas at Fayetteville in 1954. Though not the first black student to graduate from the U of A law school, he was one of the earliest and was the first black student to live in campus housing. Judge Howard also served in the U.S. Navy during World War II.

His hard work, dedication to his country and profession, and historic contribution to the State of Arkansas should be celebrated and remembered. For this reason, I urge the Senate to adopt this legislation honoring Judge George Howard, Jr.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 165—RELATIVE TO THE DEATH OF REPRESENTATIVE JUANITA MILLENDER-McDONALD, OF CALIFORNIA

Mr. REID (for himself, Mr. McCONNELL, Mrs. FEINSTEIN, Mrs. BOXER, Mr. AKAKA, Mr. ALEXANDER, Mr. ALLARD, Mr. BAUCUS, Mr. BAYH, Mr. BENNETT, Mr. BIDEN, Mr. BINGAMAN, Mr. BOND, Mr. BROWN, Mr. BROWNBACK, Mr. BUNNING, Mr. BURR, Mr. BYRD, Ms. CANTWELL, Mr. CARDIN, Mr. CARPER, Mr. CASEY, Mr. CHAMBLISS, Mrs. CLINTON, Mr. COBURN, Mr. COCHRAN, Mr. COLEMAN, Ms. COLLINS, Mr. CONRAD, Mr. CORKER, Mr. CORNYN, Mr. CRAIG, Mr. CRAPO, Mr. DEMINT, Mr. DODD, Mrs. DOLE, Mr. DOMENICI, Mr. DORGAN, Mr. DURBIN, Mr. ENSIGN, Mr. ENZI, Mr. FEINGOLD, Mr. GRAHAM, Mr. GRASSLEY, Mr. GREGG, Mr. HAGEL, Mr. HARKIN, Mr. HATCH, Mrs. HUTCHISON, Mr. INHOFE, Mr. INOUE, Mr. ISAKSON, Mr. JOHNSON, Mr. KENNEDY, Mr. KERRY, Ms. KLOBUCHAR, Mr. KOHL, Mr. KYL, Ms. LANDRIEU, Mr. LAUTENBERG, Mr. LEAHY, Mr. LEVIN, Mr. LIEBERMAN, Mrs. LINCOLN, Mr. LOTT, Mr. LUGAR, Mr. MARTINEZ, Mr. MCCAIN, Mrs. MCCASKILL, Mr. MENENDEZ, Ms. MIKULSKI, Ms. MURKOWSKI, Mrs. MURRAY, Mr. NELSON of Florida, Mr. NELSON of Nebraska, Mr. OBAMA, Mr. PRYOR, Mr. REED, Mr. ROBERTS, Mr. ROCKEFELLER, Mr. SALAZAR, Mr. SANDERS, Mr. SCHUMER, Mr. SESSIONS, Mr. SHELBY, Mr. SMITH, Ms. SNOWE, Mr. SPECTER, Ms. STABENOW, Mr. STEVENS, Mr. SUNUNU, Mr. TESTER, Mr. THOMAS, Mr. THUNE, Mr. VITTER, Mr. VOINOVICH, Mr. WARNER, Mr. WEBB, Mr. WHITEHOUSE, and Mr. WYDEN) submitted the following resolution; which was considered and agreed to:

S. RES. 165

Resolved, That the Senate has heard with profound sorrow and deep regret the announcement of the death of the Honorable Juanita Millender-McDonald, late a Representative from the State of California.

Resolved, That the Secretary communicate these resolutions to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

Resolved, That when the Senate adjourns or recesses today, it stand adjourned or recessed as a further mark of respect to the memory of the late Representative.

SENATE RESOLUTION 166—COMMEMORATING THE LIFE TIME ACHIEVEMENT OF THE REVEREND LEON H. SULLIVAN

Mr. CASEY (for himself and Mr. SPECTER) submitted the following resolution; which was considered and agreed to:

S. RES. 166

Whereas, the late Reverend Leon H. Sullivan dedicated his life to alleviating the plight of the poor and the disadvantaged in America and worldwide;

Whereas, Reverend Sullivan received numerous honors and awards during his lifetime, including recognition by LIFE magazine in 1963 as one of the 100 outstanding young adults in America, the Presidential Medal of Freedom in 1992, and the Eleanor Roosevelt Award for Human Rights in 1999;

Whereas, having dedicated 37 years of his ministerial vocation to the historic Zion Baptist Church of Philadelphia, Reverend Sullivan's leadership and innovation led to the creation of one of the largest congregations in the Nation during his time;

Whereas, in 1966, as part of his 10-36 Plan to encourage individuals to invest in the economic future of their communities, Reverend Sullivan founded the Leon H. Sullivan Charitable Trusts and the Progress Investment Associates, through which numerous economic development and social services programs have been developed and funded;

Whereas, in 1963, in response to a lack of job opportunities in Philadelphia, Pennsylvania, Reverend Sullivan led more than 400 ministers in a successful boycott that opened up more than 4,000 jobs for African-Americans;

Whereas, Reverend Sullivan met the need for job training by establishing the Opportunities Industrialization Center, which has grown to more than 75 training centers throughout the Nation;

Whereas, recognizing the need to take his struggle to alleviate the plight of the poor abroad, in 1969 Reverend Sullivan established Opportunities Industrialization Centers International, which has grown to more than 40 centers in 16 African nations, Poland, and the Philippines;

Whereas, when Reverend Sullivan saw the need to create a broader array of programs in Africa, he established the International Foundation for Education and Self-Help, which has conducted numerous initiatives, including Schools for Africa, fellowship programs, and innovative teacher and banker training programs since 1988;

Whereas, in 2001, the Leon H. Sullivan Foundation was established posthumously to support Reverend Sullivan's life's mission through the work of his many established organizations;

Whereas, the Leon H. Sullivan Foundation presents the biennial Leon H. Sullivan Summits in Africa, which have provided a forum for leaders of African nations together with more than 18,000 African-Americans and Friends of Africa to interact with their counterparts and produce programs to meet the needs of the poor and disadvantaged in African nations;

Whereas, in 1977, Reverend Sullivan helped to promulgate the Sullivan Principles, a code of conduct for human rights and equal opportunity for companies operating in South Africa, and the Sullivan Principles helped end apartheid in South Africa;

Whereas, Reverend Sullivan expanded on the Sullivan Principles in 1999, by creating the Global Sullivan Principles, which encourage corporate social responsibility and promote global human rights and political, economic, and social justice;

Whereas, more than 250 governments, corporations, and universities on 5 continents have endorsed the Global Sullivan Principles since their initiation;

Whereas, 10 African heads of state endorsed the Global Sullivan Principles at the Leon H. Sullivan Summit in Abuja, Nigeria, in July 2006;

Whereas, plans for the 8th Leon H. Sullivan Summit in Tanzania in 2008 include broader regional endorsement of the Global

Sullivan Principles among African nations: Now, therefore, be it

Resolved, That the Senate—

(1) commemorates the life of the Reverend Leon H. Sullivan;

(2) salutes the positive impact of the Reverend Sullivan's achievements domestically and internationally; and

(3) encourages the continued pursuit of Reverend Sullivan's mission to help the poor and disenfranchised around the world.

AMENDMENTS SUBMITTED AND PROPOSED

SA 903. Mr. GRASSLEY submitted an amendment intended to be proposed by him to the bill S. 761, to invest in innovation and education to improve the competitiveness of the United States in the global economy; which was ordered to lie on the table.

SA 904. Mr. BINGAMAN (for himself and Mr. ALEXANDER) proposed an amendment to the bill S. 761, *supra*.

SA 905. Mr. OBAMA submitted an amendment intended to be proposed by him to the bill S. 761, *supra*; which was ordered to lie on the table.

SA 906. Mr. INOUE (for himself and Mr. STEVENS) proposed an amendment to the bill S. 761, *supra*.

SA 907. Mr. OBAMA submitted an amendment intended to be proposed by him to the bill S. 761, *supra*; which was ordered to lie on the table.

SA 908. Mr. BINGAMAN proposed an amendment to the bill S. 761, *supra*.

SA 909. Mr. GREGG submitted an amendment intended to be proposed by him to the bill S. 761, *supra*; which was ordered to lie on the table.

SA 910. Mr. GREGG submitted an amendment intended to be proposed by him to the bill S. 761, *supra*; which was ordered to lie on the table.

SA 911. Ms. SNOWE submitted an amendment intended to be proposed by her to the bill S. 761, *supra*; which was ordered to lie on the table.

SA 912. Mr. DURBIN submitted an amendment intended to be proposed by him to the bill S. 761, *supra*; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 903. Mr. GRASSLEY submitted an amendment intended to be proposed by him to the bill S. 761, to invest in innovation and education to improve the competitiveness of the United States in the global economy; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____ H-1B VISA EMPLOYER FEE.

Section 214(c)(9)(B) of the Immigration and Nationality Act (8 U.S.C. 1184(c)(9)(B)) is amended by striking "\$1,500" and inserting "\$2,000".

SA 904. Mr. BINGAMAN (for himself and Mr. ALEXANDER) proposed an amendment to the bill S. 761, to invest in innovation and education to improve the competitiveness of the United States in the global economy; as follows:

On page 44, beginning with line 16 strike through line 2 on page 45.

On page 45, line 3, strike "(d)" and insert "(c)".

On page 47, line 8, strike "(e)" and insert "(d)".

On page 47, line 21, strike "(f)" and insert "(e)".

SA 905. Mr. OBAMA submitted an amendment intended to be proposed by him to the bill S. 761, to invest in innovation and education to improve the competitiveness of the United States in the global economy; which was ordered to lie on the table; as follows:

On page 78, strike line 21 and insert the following:

"(D) \$27,500,000 for fiscal year 2011.

"CHAPTER 6—ADMINISTRATION

"SEC. 3195. MENTORING PROGRAM.

"(a) IN GENERAL.—As part of the programs established under chapters 1, 3, and 4, the Director shall establish a program to recruit and provide mentors for women and underrepresented minorities who are interested in careers in mathematics, science, and engineering by pairing those women and minorities who are in programs of study at specialty schools for mathematics and science, Centers of Excellence, and summer institutes established under chapters 1, 3, and 4, respectively.

"(b) PROGRAM EVALUATION.—The Secretary shall annually—

"(1) use metrics to evaluate the success of the programs established under subsection (a); and

"(2) submit to Congress a report that describes the results of each evaluation."

SA 906. Mr. INOUE (for himself and Mr. STEVENS) proposed an amendment to the bill S. 761, to invest in innovation and education to improve the competitiveness of the United States in the global economy; as follows:

On page 5, beginning on line 13, strike "science and technology" and insert "science, technology, engineering, and mathematics".

On page 25, line 5, strike "education" and insert "education, consistent with the agency mission, including authorized activities".

Strike from line 16 on page 44 through line 2 on page 45.

On page 45, line 3, strike "(d)" and insert "(c)".

On page 47, line 8, strike "through the end of line 20.

On page 47, line 21, strike "(f)" and insert "(d)".

On page 49, between lines 17 and 18, insert the following:

SEC. 1503. NOAA'S CONTRIBUTION TO INNOVATION.

(a) PARTICIPATION IN INTERAGENCY ACTIVITIES.—The National Oceanic and Atmospheric Administration shall be a full participant in any interagency effort to promote innovation and economic competitiveness through near-term and long-term basic scientific research and development and the promotion of science, technology, engineering, and mathematics education, consistent with the agency mission, including authorized activities.

(b) HISTORIC FOUNDATION.—In order to carry out the participation described in subsection (a), the Administrator of the National Oceanic and Atmospheric Administration shall build on the historic role of the National Oceanic and Atmospheric Administration in stimulating excellence in the advancement of ocean and atmospheric science and engineering disciplines and in providing

opportunities and incentives for the pursuit of academic studies in science, technology, engineering, and mathematics.

On page 170, strike lines 20 through 23 and insert the following:

- (1) \$6,729,000,000 for fiscal year 2008;
- (2) \$7,738,000,000 for fiscal year 2009;
- (3) \$8,899,000,000 for fiscal year 2010; and
- (4) \$10,234,000,000 for fiscal year 2011.

On page 172, line 19, strike "Foundation, for each of the fiscal years 2008" and insert the following: "Foundation, for fiscal year 2008, \$1,050,000,000, and, for each of the fiscal years 2009".

On page 172, line 25, strike "2007" and insert "2008".

On page 173, line 5, strike "5-year" and insert "4-year".

On page 173, line 21, strike "an additional 250" and insert "additional".

On page 174, line 5, strike "5-year" and insert "4-year".

On page 174, line 17, strike "an additional 250" and insert "additional".

On page 183, line 4, strike "restrict or bias" and insert "inhibit".

On page 183, line 5, strike "against" and insert "for".

On page 184, beginning on line 2, strike "1862g), for each of fiscal years 2008" and insert the following: "1862g), for fiscal year 2008, \$125,000,000, and, for each of fiscal years 2009".

On page 184, line 8, strike "2007" and insert "2008".

SA 907. Mr. OBAMA submitted an amendment intended to be proposed by him to the bill S. 761, to invest in innovation and education to improve the competitiveness of the United States in the global economy; which was ordered to lie on the table; as follows:

After section 4005, insert the following:

SEC. 4005A. CLIMATE CHANGE EDUCATION PROGRAM.

(a) ESTABLISHMENT.—The Director of the National Science Foundation shall establish a Climate Change Education Program to—

(1) broaden the understanding of human induced climate change, possible long and short-term consequences, and potential solutions;

(2) apply the latest scientific and technological discoveries to provide formal and informal learning opportunities to people of all ages, including those of diverse cultural and linguistic backgrounds; and

(3) emphasize actionable information to help people understand and to promote implementation of new technologies, programs, and incentives related to energy conservation, renewable energy, and greenhouse gas reduction.

(b) PROGRAM ELEMENTS.—The Climate Change Education Program shall include—

(1) a national information campaign to disseminate information on and promote implementation of the new technologies, programs, and incentives described in subsection (a)(3); and

(2) a competitive grant program to provide grants to States, local municipalities, educational institutions, and other organizations to—

(A) create informal education materials, exhibits, and multimedia presentations relevant to climate change and climate science;

(B) develop climate science kindergarten through grade 12 curriculum and supplementary educational materials; or

(C) publish climate change and climate science information in print, electronic, and audio-visual forms.

(c) REPORT TO CONGRESS.—Not later than 1 year after the date of enactment of this Act, and annually thereafter, the Director of the National Science Foundation shall transmit to Congress a report that evaluates the scientific merits, educational effectiveness, and broader impacts of activities under this section.

SA 908. Mr. BINGAMAN proposed an amendment to the bill S. 761, to invest in innovation and education to improve the competitiveness of the United States in the global economy; as follows:

On page 55, lines 21 and 22, strike “engineering” and insert “engineering and technology”.

On page 56, line 8, after “engineering” insert “and technology”.

On page 56, line 24, strike “mathematics and science” and insert “mathematics, science, engineering, and technology”.

On page 59, line 6, strike “mathematics and science” and insert “mathematics, science, and, to the extent applicable, technology and engineering”.

On page 59, line 15, strike “mathematics and science” and insert “mathematics, science, technology, and engineering”.

On page 60, line 6, strike “mathematics and science” and insert “mathematics, science, technology, and engineering”.

On page 60, line 10, before “that” insert “in mathematics, science, and to the extent applicable, technology and engineering”.

On page 61, lines 8 and 9, strike “mathematics and science” and insert “mathematics, science, and, to the extent applicable, technology and engineering”.

On page 62, line 14, strike “mathematics or science” and insert “mathematics, science, technology, or engineering”.

On page 65, lines 16 and 17, strike “**MATHEMATICS AND SCIENCE**” and insert “**MATHEMATICS, SCIENCE, TECHNOLOGY, AND ENGINEERING**”.

On page 65, line 19, strike “**MATHEMATICS AND SCIENCE**” and insert “**MATHEMATICS, SCIENCE, TECHNOLOGY, AND ENGINEERING**”.

On page 66, lines 8 and 9, strike “Mathematics and Science” and insert “Mathematics, Science, Technology, and Engineering”.

On page 67, line 9, strike “Mathematics and Science” and insert “Mathematics, Science, Technology, and Engineering”.

On page 67, lines 16 and 17, strike “math and science” and insert “mathematics, science, and technology”.

On page 68, lines 21 and 22, strike “mathematics or science (including engineering)” and insert “mathematics, science, or engineering”.

On page 69, lines 4 and 5, strike “mathematics or science” and insert “mathematics, science, or technology”.

Beginning on page 69, line 25 through page 70, line 1, strike “mathematics and science” and insert “mathematics, science, technology, and engineering”.

On page 70, lines 10 and 11, strike “mathematics and science” and insert “mathematics, science, technology, and engineering”.

On page 71, line 7, strike “mathematics and science” and insert “mathematics, science, technology, and engineering”.

On page 71, line 10, strike “mathematics and science” and insert “mathematics, science, technology, and engineering”.

On page 71, line 18, strike “mathematics and science” and insert “mathematics,

science, and, to the extent applicable, technology and engineering”.

On page 72, line 23, strike “mathematics and science” and insert “mathematics, science, technology, and engineering”.

On page 73, lines 18 and 19, strike “mathematics and science” and insert “mathematics, science, and to the extent applicable, technology and engineering”.

On page 73, lines 23 and 24, strike “mathematics and science” and insert “mathematics, science, technology, and engineering”.

SA 909. Mr. GREGG submitted an amendment intended to be proposed by him to the bill S. 761, to invest in innovation and education to improve the competitiveness of the United States in the global economy; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. . IMMIGRANT VISA REFORM.

(a) **WORLDWIDE LEVEL OF IMMIGRANTS WITH ADVANCED DEGREES.**—Section 201 of the Immigration and Nationality Act (8 U.S.C. 1151) is amended—

(1) in subsection (a)(3), by inserting “and immigrants with advanced degrees” after “diversity immigrants”; and

(2) by amending subsection (e) to read as follows:

“(e) **WORLDWIDE LEVEL OF DIVERSITY IMMIGRANTS AND IMMIGRANTS WITH ADVANCED DEGREES.**—

“(1) **DIVERSITY IMMIGRANTS.**—The worldwide level of diversity immigrants described in section 203(c)(1) is equal to 18,333 for each fiscal year.

“(2) **IMMIGRANTS WITH ADVANCED DEGREES.**—The worldwide level of immigrants with advanced degrees described in section 203(c)(2) is equal to 36,667 for each fiscal year.”

(b) **IMMIGRANTS WITH ADVANCED DEGREES.**—Section 203 of the Immigration and Nationality Act (8 U.S.C. 1153(c)) is amended—

(1) in subsection (c)—

(A) in paragraph (1), by striking “paragraph (2), aliens subject to the worldwide level specified in section 201(e)” and inserting “paragraphs (2) and (3), aliens subject to the worldwide level specified in section 201(e)(1)”; and

(B) by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively;

(C) by inserting after paragraph (1) the following:

“(2) **ALIENS WHO HOLD AN ADVANCED DEGREE IN SCIENCE, MATHEMATICS, TECHNOLOGY, OR ENGINEERING.**—

“(A) **IN GENERAL.**—Qualified immigrants who hold a master’s or doctorate degree in the life sciences, the physical sciences, mathematics, technology, or engineering shall be allotted visas each fiscal year in a number not to exceed the worldwide level specified in section 201(e)(2).

“(B) **ECONOMIC CONSIDERATIONS.**—Beginning on the date which is 1 year after the date of the enactment of this paragraph, the Secretary of State, in consultation with the Secretary of Commerce and the Secretary of Labor, and after notice and public hearing, shall determine which of the degrees described in subparagraph (A) will provide immigrants with the knowledge and skills that are most needed to meet anticipated workforce needs and protect the economic security of the United States.”

(D) in paragraph (3), as redesignated, by striking “this subsection” each place it appears and inserting “paragraph (1)”; and

(E) by amending paragraph (4), as redesignated, to read as follows:

“(4) **MAINTENANCE OF INFORMATION.**—

“(A) **DIVERSITY IMMIGRANTS.**—The Secretary of State shall maintain information on the age, occupation, education level, and other relevant characteristics of immigrants issued visas under paragraph (1).

“(B) **IMMIGRANTS WITH ADVANCED DEGREES.**—The Secretary of State shall maintain information on the age, degree (including field of study), occupation, work experience, and other relevant characteristics of immigrants issued visas under paragraph (2).”; and

(2) in subsection (e)—

(A) in paragraph (2), by striking “(c)” and inserting “(c)(1)”; and

(B) by redesignating paragraph (3) as paragraph (4); and

(C) by inserting after paragraph (2) the following:

“(3) Immigrant visas made available under subsection (c)(2) shall be issued as follows:

“(A) If the Secretary of State has not made a determination under subsection (c)(2)(B), immigrant visas shall be issued in a strictly random order established by the Secretary for the fiscal year involved.

“(B) If the Secretary of State has made a determination under subsection (c)(2)(B) and the number of eligible qualified immigrants who have a degree selected under such subsection and apply for an immigrant visa described in subsection (c)(2) is greater than the worldwide level specified in section 201(e)(2), the Secretary shall issue immigrant visas only to such immigrants and in a strictly random order established by the Secretary for the fiscal year involved.

“(C) If the Secretary of State has made a determination under subsection (c)(2)(B) and the number of eligible qualified immigrants who have degrees selected under such subsection and apply for an immigrant visa described in subsection (c)(2) is not greater than the worldwide level specified in section 201(e)(2), the Secretary shall—

“(i) issue immigrant visas to eligible qualified immigrants with degrees selected in subsection (c)(2)(B); and

“(ii) issue any immigrant visas remaining thereafter to other eligible qualified immigrants with degrees described in subsection (c)(2)(A) in a strictly random order established by the Secretary for the fiscal year involved.”

(c) **ADVANCED DEGREE AND DIVERSITY VISA CARRYOVER.**—Section 204(a)(1)(I)(ii)(II) of the Immigration and Nationality Act (8 U.S.C. 1154(a)(1)(I)(ii)(II)) is amended to read as follows:

“(II) An immigrant visa made available under subsection 203(c) for fiscal year 2007 or any subsequent fiscal year may be issued, or adjustment of status under section 245(a) may be granted, to an eligible qualified alien who has properly applied for such visa or adjustment of status in the fiscal year for which the alien was selected notwithstanding the end of such fiscal year. Such visa or adjustment of status shall be counted against the worldwide levels set forth in section 201(e) for the fiscal year for which the alien was selected.”

(d) **EFFECTIVE DATE.**—The amendments made by subsections (a) and (b) shall take effect on October 1, 2007.

SA 910. Mr. GREGG submitted an amendment intended to be proposed by him to the bill S. 761, to invest in innovation and education to improve the competitiveness of the United States in

the global economy; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. . . MARKET-BASED VISA LIMITS.

Section 214(g) of the Immigration and Nationality Act (8 U.S.C. 1184(g)) is amended—

(1) in paragraph (1)—
(A) in the matter preceding subparagraph (A), by striking “(beginning with fiscal year 1992);” and

(B) in subparagraph (A)—

(i) in clause (vi) by striking “and”;

(ii) in clause (vii), by striking “each succeeding fiscal year; or” and inserting “each of fiscal years 2004, 2005, 2006, and 2007;” and
(iii) by adding after clause (vii) the following:

“(viii) 150,000 for fiscal year 2008; and

“(ix) the number calculated under paragraph (9) for each fiscal year after fiscal year 2008; or”;

(2) by redesignating paragraphs (9), (10), and (11) as paragraphs (10), (11), and (12), respectively; and

(3) by inserting after paragraph (8) the following:

“(9) If the numerical limitation in paragraph (1)(A)—

“(A) is reached during the previous fiscal year, the numerical limitation under paragraph (1)(A)(ix) for the subsequent fiscal year shall be equal to 120 percent of the numerical limitation of the previous fiscal year; or

“(B) is not reached during the previous fiscal year, the numerical limitation under paragraph (1)(A)(ix) for the subsequent fiscal year shall be equal to the numerical limitation of the previous fiscal year.”.

SA 911. Ms. SNOWE submitted an amendment intended to be proposed by her to the bill S. 761, to invest in innovation and education to improve the competitiveness of the United States in the global economy; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. . . TRADE COMPLAINT AND LITIGATION ACCOUNTABILITY IMPROVEMENT.

(a) **SHORT TITLE.**—This section may be cited as the “Trade Complaint and Litigation Accountability Improvement Measures Act” or the “Trade CLAIM Act”.

(b) **REVIEW OF DETERMINATIONS OF THE UNITED STATES TRADE REPRESENTATIVE BY THE COURT OF INTERNATIONAL TRADE.**—Section 1581 of title 28, United States Code, is amended—

(1) in subsection (i)—

(A) in the matter preceding paragraph (1), by striking “subsections (a)–(h) of this section” and inserting “subsections (a) through (h) and subsection (k);” and

(B) in paragraph (4), by striking “subsections (a)–(h) of this section” and inserting “subsections (a) through (h) and subsection (k);” and

(2) by adding at the end the following:

“(k) The Court of International Trade shall have exclusive jurisdiction of any civil action commenced by a petitioner requesting that the United States Trade Representative take action under section 301 of the Trade Act of 1974 (19 U.S.C. 2411) to review de novo any determination, finding, or action of the United States Trade Representative under section 301(a), 302(a)(2), 304(a)(1), 305(a)(2)(A)(ii), 306(b), or 307(a)(1) of the Trade Act of 1974 (19 U.S.C. 2411(a), 2412(a)(2), 2414(a)(1), 2415(a)(2)(A)(ii), 2416(b), and 2417(a)(1)).”.

(c) **CONSIDERATION BY THE UNITED STATES TRADE REPRESENTATIVE OF PETITIONS TO ENFORCE UNITED STATES TRADE RIGHTS.**—

(1) **ACTIONS BY UNITED STATES TRADE REPRESENTATIVE.**—Section 301 of the Trade Act of 1974 (19 U.S.C. 2411) is amended—

(A) in subsection (a)—

(i) in the flush text at the end of paragraph (1), by striking “of this section, subject to the specific direction, if any, of the President regarding any such action;” and

(ii) in paragraph (2)—

(I) in the matter preceding subparagraph (A), by striking “in any case in which” and inserting “if”;

(II) in subparagraph (A)(ii)(II), by striking “or” at the end; and

(III) by striking subparagraph (B) and inserting the following:

“(B) the foreign country has—

“(i) agreed to imminently eliminate the act, policy, or practice; or

“(ii) agreed to a solution to imminently relieve the burden or restriction on United States commerce resulting from the act, policy, or practice;

“(C) the Trade Representative determines that it is impossible for the foreign country to achieve the results described in subparagraph (B), and the foreign country agrees to provide to the United States compensatory trade benefits that are equivalent in value to the burden or restriction on United States commerce resulting from the acts, policy, or practice;

“(D) in extraordinary cases, the Trade Representative determines that taking action under this subsection would have an adverse impact on the United States economy that is substantially out of proportion to the benefits of such action, taking into account the impact of not taking such action on the credibility of the provisions of this chapter; or

“(E) the Trade Representative determines that taking action under this subsection would cause serious harm to the national security of the United States.”; and

(B) in subsection (c)(1)(D)—

(i) by striking clauses (i) and (ii) and inserting the following:

“(i) imminently eliminate the act, policy, or practice that is the subject of the action to be taken under subsection (a) or (b);

“(ii) imminently relieve the burden or restriction on United States commerce resulting from the act, policy, or practice; or”;

(ii) in clause (iii), by amending subclause (I) to read as follows:

“(I) are equivalent in value to the burden or restriction on United States commerce resulting from the act, policy, or practice; and”.

(2) **INITIATION OF INVESTIGATIONS.**—Section 302 of the Trade Act of 1974 (19 U.S.C. 2412) is amended—

(A) in subsection (a)(2), by inserting “based on whether the petitioner has alleged facts that, if assumed to be true, would meet the criteria described in section 301(a)(1)” before the period at the end; and

(B) in subsection (c), by striking “(a) or”.

(3) **CONSULTATIONS.**—Section 303 of the Trade Act of 1974 (19 U.S.C. 2413) is amended—

(A) in subsection (a)(2), by striking “mutually acceptable resolution” and inserting “resolution acceptable to the Trade Representative, the foreign country, and the petitioner (if any);” and

(B) in subsection (b)(1)(A), by striking “after consulting with” and inserting “with the consent of”.

(4) **IMPLEMENTATION OF ACTIONS.**—Section 305(a)(1) of the Trade Act of 1974 (19 U.S.C.

2415(a)(1)) is amended by striking “, subject to the specific direction, if any, of the President regarding any such action, by no” and inserting “by not”.

(5) **MONITORING OF FOREIGN COMPLIANCE.**—Section 306(b) of the Trade Act of 1974 (19 U.S.C. 2416(b)) is amended—

(A) in paragraph (1), by striking “the Trade Representative considers” and inserting “the Trade Representative or the petitioner (if any) considers”; and

(B) in paragraph (2)(A), by striking “the Trade Representative considers” and inserting “the Trade Representative or the petitioner (if any) considers”.

(6) **MODIFICATION AND TERMINATION OF ACTION.**—Section 307(a)(1) of the Trade Act of 1974 (19 U.S.C. 2417(a)(1)) is amended by striking “, subject to the specific direction, if any, of the President with respect to such action;”.

SA 912. Mr. DURBIN submitted an amendment intended to be proposed by him to the bill S. 761, to invest in innovation and education to improve the competitiveness of the United States in the global economy; which was ordered to lie on the table; as follows:

At the end of division C, insert the following:

TITLE V—STUDY ABROAD

SEC. 3501. SHORT TITLE.

This title may be cited as the “Senator Paul Simon Study Abroad Foundation Act of 2007”.

SEC. 3502. FINDINGS.

Congress makes the following findings:

(1) According to President George W. Bush, “America’s leadership and national security rest on our commitment to educate and prepare our youth for active engagement in the international community.”

(2) According to former President William J. Clinton, “Today, the defense of United States interests, the effective management of global issues, and even an understanding of our Nation’s diversity require ever-greater contact with, and understanding of, people and cultures beyond our borders.”

(3) Congress authorized the establishment of the Commission on the Abraham Lincoln Study Abroad Fellowship Program pursuant to section 104 of the Miscellaneous Appropriations and Offsets Act, 2004 (division H of Public Law 108-199). Pursuant to its mandate, the Commission has submitted to Congress and the President a report of its recommendations for greatly expanding the opportunity for students at institutions of higher education in the United States to study abroad, with special emphasis on studying in developing nations.

(4) Studies consistently show that United States students score below their counterparts in other advanced countries on indicators of international knowledge. This lack of global literacy is a national liability in an age of global trade and business, global interdependence, and global terror.

(5) By numbers ranging from 77 to more than 90 percent, Americans believe that it is important for their children to learn other languages, study abroad, attend a college where they can interact with international students, learn about other countries and cultures, and generally be prepared for the global age, according to a December 2005 national survey commissioned by NAFSA: Association of International Educators.

(6) In today’s world, it is more important than ever for the United States to be a responsible, constructive leader that other

countries are willing to follow. Such leadership cannot be sustained without an informed citizenry with much more knowledge and awareness of the world than most Americans currently possess.

(7) Study abroad has proven to be a very effective means of imparting international and foreign-language competency to students.

(8) In any given year, only approximately one percent of all students enrolled in United States institutions of higher education study abroad.

(9) Less than 10 percent of the students who graduate from United States institutions of higher education with bachelors degrees have studied abroad.

(10) Far more study abroad must take place in the developing countries. Ninety-five percent of the world's population growth over the next 50 years will occur outside of Europe. Yet in the academic year 2004-2005, 60 percent of United States students studying abroad studied in Europe, and 45 percent studied in four countries—the United Kingdom, Italy, Spain, and France—according to the Institute of International Education.

(11) The Final Report of the National Commission on Terrorist Attacks Upon the United States (The 9/11 Commission Report) recommended that the United States increase support for “scholarship, exchange, and library programs”. The 9/11 Public Discourse Project, successor to the 9/11 Commission, noted in its November 14, 2005, status report that this recommendation was “unfulfilled,” and stated that “The U.S. should increase support for scholarship and exchange programs, our most powerful tool to shape attitudes over the course of a generation.” In its December 5, 2005, Final Report on the 9/11 Commission Recommendations, the 9/11 Public Discourse Project gave the government a grade of “D” for its implementation of this recommendation.

(12) Investing in a national study abroad program would help turn a grade of “D” into an “A” by equipping United States students to communicate United States values and way of life through the unique dialogue that takes place among citizens from around the world when individuals study abroad.

SEC. 3503. PURPOSES.

The purposes of this title are—

(1) to significantly enhance the global competitiveness and international knowledge base of the United States by ensuring that more students in United States institutions of higher education have the opportunity to acquire foreign language skills and international knowledge through significantly expanded study abroad;

(2) to enhance the foreign policy capacity of the United States by significantly expanding and diversifying the talent pool of individuals with non-traditional foreign language skills and cultural knowledge in the United States who are available for recruitment by United States foreign affairs agencies, legislative branch agencies, and non-governmental organizations involved in foreign affairs activities;

(3) to ensure that an increasing portion of study abroad by United States students will take place in nontraditional study abroad destinations such as the People's Republic of China, countries of the Middle East region, and developing countries; and

(4) to create greater cultural understanding of the United States by exposing foreign students and their families to American students in countries that have not traditionally hosted large numbers of American students.

SEC. 3504. DEFINITIONS.

In this title:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means—

(A) the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives; and

(B) the Committee on Foreign Relations and the Committee on Appropriations of the Senate.

(2) BOARD.—The term “Board” means the Board of Directors of the Foundation established pursuant to section 3505(d).

(3) CHIEF EXECUTIVE OFFICER.—The term “Chief Executive Officer” means the chief executive officer of the Foundation appointed pursuant to section 3505(c).

(4) FOUNDATION.—The term “Foundation” means the Senator Paul Simon Study Abroad Foundation established by section 3505(a).

(5) INSTITUTION OF HIGHER EDUCATION.—The term “institution of higher education” has the meaning given the term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(6) NONTRADITIONAL STUDY ABROAD DESTINATION.—The term “nontraditional study abroad destination” means a location that is determined by the Foundation to be a less common destination for United States students who study abroad.

(7) STUDY ABROAD.—The term “study abroad” means an educational program of study, work, research, internship, or combination thereof that is conducted outside the United States and that carries academic credit toward fulfilling the participating student's degree requirements.

SEC. 3505. ESTABLISHMENT AND MANAGEMENT OF THE SENATOR PAUL SIMON STUDY ABROAD FOUNDATION.

(a) ESTABLISHMENT.—

(1) IN GENERAL.—There is established in the executive branch a corporation to be known as the “Senator Paul Simon Study Abroad Foundation” that shall be responsible for carrying out this title under the authorities of the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2451 et seq.). The Foundation shall be a government corporation, as defined in section 103 of title 5, United States Code.

(2) BOARD OF DIRECTORS.—The Foundation shall be governed by a Board of Directors chaired by the Secretary of State in accordance with subsection (d).

(3) INTENT OF CONGRESS.—It is the intent of Congress in establishing the structure of the Foundation set forth in this subsection to create an entity that will administer a study abroad program that—

(A) serves the long-term foreign policy and national security needs of the United States; but

(B) operates independently of short-term political and foreign policy considerations.

(b) MANDATE OF FOUNDATION.—In administering the program referred to in subsection (a)(3), the Foundation shall—

(1) promote the objectives and purposes of this title;

(2) through responsive, flexible grant-making, promote access by students at diverse institutions of higher education, including two-year institutions, minority-serving institutions, and institutions that serve non-traditional students;

(3) through creative grant-making, promote access by diverse students, including minority students, students of limited financial means, and nontraditional students;

(4) raise funds from the private sector to supplement funds made available under this title; and

(5) be committed to minimizing administrative costs and to maximizing the availability of funds for grants under this title.

(c) CHIEF EXECUTIVE OFFICER.—

(1) IN GENERAL.—There shall be in the Foundation a Chief Executive Officer who shall be responsible for the management of the Foundation.

(2) APPOINTMENT.—The Chief Executive Officer shall be appointed by the Board and shall be a recognized leader in higher education, business, or foreign policy, chosen on the basis of a rigorous search.

(3) RELATIONSHIP TO BOARD.—The Chief Executive Officer shall report to and be under the direct authority of the Board.

(4) COMPENSATION AND RANK.—

(A) IN GENERAL.—The Chief Executive Officer shall be compensated at the rate provided for level III of the Executive Schedule under section 5314 of title 5, United States Code, and shall have the equivalent rank of Deputy Secretary.

(B) AMENDMENT.—Section 5314 of title 5, United States Code, is amended by adding at the end the following:

“Chief Executive Officer, Senator Paul Simon Study Abroad Foundation.”.

(5) AUTHORITIES AND DUTIES.—The Chief Executive Officer shall be responsible for the management of the Foundation and shall exercise the powers and discharge the duties of the Foundation.

(6) AUTHORITY TO APPOINT OFFICERS.—In consultation and with approval of the Board, the Chief Executive Officer shall appoint all officers of the Foundation.

(d) BOARD OF DIRECTORS.—

(1) ESTABLISHMENT.—There shall be in the Foundation a Board of Directors.

(2) DUTIES.—The Board shall perform the functions specified to be carried out by the Board in this title and may prescribe, amend, and repeal bylaws, rules, regulations, and procedures governing the manner in which the business of the Foundation may be conducted and in which the powers granted to it by law may be exercised.

(3) MEMBERSHIP.—The Board shall consist of—

(A) the Secretary of State (or the Secretary's designee), the Secretary of Education (or the Secretary's designee), the Secretary of Defense (or the Secretary's designee), and the Administrator of the United States Agency for International Development (or the Administrator's designee); and

(B) five other individuals with relevant experience in matters relating to study abroad (such as individuals who represent institutions of higher education, business organizations, foreign policy organizations, or other relevant organizations) who shall be appointed by the President, by and with the advice and consent of the Senate, of which—

(i) one individual shall be appointed from among a list of individuals submitted by the majority leader of the House of Representatives;

(ii) one individual shall be appointed from among a list of individuals submitted by the minority leader of the House of Representatives;

(iii) one individual shall be appointed from among a list of individuals submitted by the majority leader of the Senate; and

(iv) one individual shall be appointed from among a list of individuals submitted by the minority leader of the Senate.

(4) CHIEF EXECUTIVE OFFICER.—The Chief Executive Officer of the Foundation shall

serve as a nonvoting, ex officio member of the Board.

(5) TERMS.—

(A) OFFICERS OF THE FEDERAL GOVERNMENT.—Each member of the Board described in paragraph (3)(A) shall serve for a term that is concurrent with the term of service of the individual's position as an officer within the other Federal department or agency.

(B) OTHER MEMBERS.—Each member of the Board described in paragraph (3)(B) shall be appointed for a term of 3 years and may be reappointed for a term of an additional 3 years.

(C) VACANCIES.—A vacancy in the Board shall be filled in the manner in which the original appointment was made.

(6) CHAIRPERSON.—There shall be a Chairperson of the Board. The Secretary of State shall serve as the Chairperson.

(7) QUORUM.—A majority of the members of the Board described in paragraph (3) shall constitute a quorum, which, except with respect to a meeting of the Board during the 135-day period beginning on the date of the enactment of this Act, shall include at least one member of the Board described in paragraph (3)(B).

(8) MEETINGS.—The Board shall meet at the call of the Chairperson.

(9) COMPENSATION.—

(A) OFFICERS OF THE FEDERAL GOVERNMENT.—

(i) IN GENERAL.—A member of the Board described in paragraph (3)(A) may not receive additional pay, allowances, or benefits by reason of the member's service on the Board.

(ii) TRAVEL EXPENSES.—Each such member of the Board shall receive travel expenses, including per diem in lieu of subsistence, in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

(B) OTHER MEMBERS.—

(i) IN GENERAL.—Except as provided in clause (ii), a member of the Board described in paragraph (3)(B)—

(I) shall be paid compensation out of funds made available for the purposes of this title at the daily equivalent of the highest rate payable under section 5332 of title 5, United States Code, for each day (including travel time) during which the member is engaged in the actual performance of duties as a member of the Board; and

(II) while away from the member's home or regular place of business on necessary travel in the actual performance of duties as a member of the Board, shall be paid per diem, travel, and transportation expenses in the same manner as is provided under subchapter I of chapter 57 of title 5, United States Code.

(ii) LIMITATION.—A member of the Board may not be paid compensation under clause (i)(II) for more than 90 days in any calendar year.

SEC. 3506. ESTABLISHMENT AND OPERATION OF PROGRAM.

(a) ESTABLISHMENT OF THE PROGRAM.—There is hereby established a program, which shall—

(1) be administered by the Foundation; and

(2) award grants to—

(A) individuals for study abroad;

(B) nongovernmental institutions that provide and promote study abroad opportunities, in consortium with institutions described in subparagraph (C); and

(C) institutions of higher education, individually or in consortium, in order to accomplish the objectives set forth in subsection (b).

(b) OBJECTIVES.—The objectives of the program established under subsection (a) are that, within 10 years of the date of the enactment of this Act—

(1) not less than one million undergraduate students in United States institutions of higher education will study abroad annually for credit;

(2) the demographics of study-abroad participation will reflect the demographics of the United States undergraduate population; and

(3) an increasing portion of study abroad will take place in nontraditional study abroad destinations, with a substantial portion of such increases taking place in developing countries.

(c) MANDATE OF THE PROGRAM.—In order to accomplish the objectives set forth in subsection (b), the Foundation shall, in administering the program established under subsection (a), take fully into account the recommendations of the Commission on the Abraham Lincoln Study Abroad Fellowship Program (established pursuant to section 104 of the Miscellaneous Appropriations and Offsets Act, 2004 (division H of Public Law 108-199)).

(d) STRUCTURE OF GRANTS.—In accordance with the recommendations of the Commission on the Abraham Lincoln Study Abroad Fellowship Program, grants awarded under the program established under subsection (a) shall be structured to the maximum extent practicable to promote appropriate reforms in institutions of higher education in order to remove barriers to participation by students in study abroad.

(e) BALANCE OF LONG-TERM AND SHORT-TERM STUDY ABROAD PROGRAMS.—In administering the program established under subsection (a), the Foundation shall seek an appropriate balance between—

(1) longer-term study abroad programs, which maximize foreign-language learning and intercultural understanding; and

(2) shorter-term study abroad programs, which maximize the accessibility of study abroad to nontraditional students.

SEC. 3507. ANNUAL REPORT.

Not later than March 31, 2008, and each March 31 thereafter, the Foundation shall submit to Congress a report on the implementation of this Act during the prior fiscal year.

SEC. 3508. POWERS OF THE FOUNDATION; RELATED PROVISIONS.

(a) POWERS.—The Foundation—

(1) shall have perpetual succession unless dissolved by a law enacted after the date of the enactment of this Act;

(2) may adopt, alter, and use a seal, which shall be judicially noticed;

(3) may make and perform such contracts, grants, and other agreements with any person or government however designated and wherever situated, as may be necessary for carrying out the functions of the Foundation;

(4) may determine and prescribe the manner in which its obligations shall be incurred and its expenses allowed and paid, including expenses for representation;

(5) may lease, purchase, or otherwise acquire, improve, and use such real property wherever situated, as may be necessary for carrying out the functions of the Foundation;

(6) may accept cash gifts or donations of services or of property (real, personal, or mixed), tangible or intangible, for the purpose of carrying out the provisions of this title;

(7) may use the United States mails in the same manner and on the same conditions as the executive departments;

(8) may contract with individuals for personal services, who shall not be considered Federal employees for any provision of law administered by the Office of Personnel Management;

(9) may hire or obtain passenger motor vehicles; and

(10) shall have such other powers as may be necessary and incident to carrying out this title.

(b) PRINCIPAL OFFICE.—The Foundation shall maintain its principal office in the metropolitan area of Washington, District of Columbia.

(c) APPLICABILITY OF GOVERNMENT CORPORATION CONTROL ACT.—

(1) IN GENERAL.—The Foundation shall be subject to chapter 91 of subtitle VI of title 31, United States Code, except that the Foundation shall not be authorized to issue obligations or offer obligations to the public.

(2) CONFORMING AMENDMENT.—Section 9101(3) of title 31, United States Code, is amended by adding at the end the following: “(R) the Senator Paul Simon Study Abroad Foundation.”

(d) INSPECTOR GENERAL.—

(1) IN GENERAL.—The Inspector General of the Department of State shall serve as Inspector General of the Foundation, and, in acting in such capacity, may conduct reviews, investigations, and inspections of all aspects of the operations and activities of the Foundation.

(2) AUTHORITY OF THE BOARD.—In carrying out the responsibilities under this subsection, the Inspector General shall report to and be under the general supervision of the Board.

(3) REIMBURSEMENT AND AUTHORIZATION OF SERVICES.—

(A) REIMBURSEMENT.—The Foundation shall reimburse the Department of State for all expenses incurred by the Inspector General in connection with the Inspector General's responsibilities under this subsection.

(B) AUTHORIZATION FOR SERVICES.—Of the amount authorized to be appropriated under section 10(a) for a fiscal year, up to \$2,000,000 is authorized to be made available to the Inspector General of the Department of State to conduct reviews, investigations, and inspections of operations and activities of the Foundation.

SEC. 3509. GENERAL PERSONNEL AUTHORITIES.

(a) DETAIL OF PERSONNEL.—Upon request of the Chief Executive Officer, the head of an agency may detail any employee of such agency to the Foundation on a reimbursable basis. Any employee so detailed remains, for the purpose of preserving such employee's allowances, privileges, rights, seniority, and other benefits, an employee of the agency from which detailed.

(b) REEMPLOYMENT RIGHTS.—

(1) IN GENERAL.—An employee of an agency who is serving under a career or career conditional appointment (or the equivalent), and who, with the consent of the head of such agency, transfers to the Foundation, is entitled to be reemployed in such employee's former position or a position of like seniority, status, and pay in such agency, if such employee—

(A) is separated from the Foundation for any reason, other than misconduct, neglect of duty, or malfeasance; and

(B) applies for reemployment not later than 90 days after the date of separation from the Foundation.

(2) **SPECIFIC RIGHTS.**—An employee who satisfies paragraph (1) is entitled to be reemployed (in accordance with such paragraph) within 30 days after applying for reemployment and, on reemployment, is entitled to at least the rate of basic pay to which such employee would have been entitled had such employee never transferred.

(c) **HIRING AUTHORITY.**—Of persons employed by the Foundation, not to exceed 30 persons may be appointed, compensated, or removed without regard to the civil service laws and regulations.

(d) **BASIC PAY.**—The Chief Executive Officer may fix the rate of basic pay of employees of the Foundation without regard to the provisions of chapter 51 of title 5, United States Code (relating to the classification of positions), subchapter III of chapter 53 of such title (relating to General Schedule pay rates), except that no employee of the Foundation may receive a rate of basic pay that exceeds the rate for level IV of the Executive Schedule under section 5315 of such title.

(e) **DEFINITIONS.**—In this section—

(1) the term “agency” means an executive agency, as defined by section 105 of title 5, United States Code; and

(2) the term “detail” means the assignment or loan of an employee, without a change of position, from the agency by which such employee is employed to the Foundation.

SEC. 3510. AUTHORIZATION OF APPROPRIATIONS.

(a) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to carry out this title \$80,000,000 for fiscal year 2008 and each subsequent fiscal year.

(b) **ALLOCATION OF FUNDS.**—

(1) **IN GENERAL.**—The Foundation may allocate or transfer to any agency of the United States Government any of the funds available for carrying out this title. Such funds shall be available for obligation and expenditure for the purposes for which the funds were authorized, in accordance with authority granted in this title or under authority governing the activities of the United States Government agency to which such funds are allocated or transferred.

(2) **NOTIFICATION.**—The Foundation shall notify the appropriate congressional committees not less than 15 days prior to an allocation or transfer of funds pursuant to paragraph (1).

NOTICES OF HEARINGS/MEETINGS

SUBCOMMITTEE ON ENERGY

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a hearing has been scheduled before the Subcommittee on Energy of the Committee on Energy and Natural Resources. The hearing will be held on May 1, 2007, at 2:30 p.m. in room 366 of the Dirksen Senate Office Building in Washington, DC.

The purpose of the hearing is to receive testimony on S. 129, a bill to study and promote the use of energy-efficient computer servers in the United States; S. 838, a bill to authorize funding joint ventures between United States and Israeli businesses and academic persons; H.R. 85, a bill to provide for the establishment of centers to encourage demonstration and commercial application of advanced energy methods and technologies; and

H.R. 1126, a bill to reauthorize the Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send it to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510-6150, or by email to Amanda Kelly@energy.senate.gov.

For further information, please contact Jonathan Epstein at (202) 224-3357 or Amanda Kelly at (202) 224-6836.

SUBCOMMITTEE ON WATER AND POWER

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a hearing has been scheduled before the Subcommittee on Water and Power of the Committee on Energy and Natural Resources. The hearing will be held on May 2, 2007, at 2:30 p.m. in room 366 of the Dirksen Senate Office Building in Washington, DC.

The purpose of the hearing is to receive testimony on S. 27, a bill to authorize the implementation of the San Joaquin River Restoration Settlement.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send it to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510-6150, or by email to Gina Weinstock@energy.senate.gov.

For further information, please contact Michael Connor at (202) 224-5479 or Gina Weinstock at (202) 224-5684.

SUBCOMMITTEE ON PUBLIC LANDS AND FORESTS

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a hearing has been scheduled before Committee on Energy and Natural Resources Subcommittee on Public Lands and Forests.

The hearing will be held on May 3, 2007, at 2:30 p.m. in room SD-366 of the Dirksen Senate Office Building.

The purpose of the hearing is to receive testimony on the following bills: S. 205 and H.R. 865, to grant rights-of-way for electric transmission lines over certain Native allotments in the State of Alaska; S. 390, to direct the exchange of certain land in Grand, San Juan, and Uintah Counties, Utah; S. 647, to designate certain land in the State of Oregon as wilderness; S. 1139, to establish the National Landscape Conservation System; H.R. 276, to designate the Piedras Blancas Light Station and the surrounding public land as an Outstanding Natural Area to be administered as a part of the National Landscape Conservation System; and H.R. 356, to remove certain restrictions on the Mammoth Community Water District's ability to use certain property acquired by that District from the United States.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send it to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510-6150, or by email to rachel_pasternack@energy.senate.gov.

For further information, please contact David Brooks at (202) 224-9863 or Rachel Pasternack at (202) 224-0883.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. INOUE. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to hold a hearing during the session of the Senate on Monday, April 23, 2007, at 3 p.m., in room SD-366 of the Dirksen Senate Office Building.

The purpose of the hearing is to receive testimony on S. 1115, a bill to promote the efficient use of oil, natural gas, and electricity, reduce oil consumption, and heighten energy efficiency standards for consumer products and industrial equipment, and for other purposes.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS

Mr. INOUE. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be authorized to meet on Monday, April 23, 2007, at 2:30 p.m. for a hearing titled “Protecting College Campuses: Best Practices.”

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. REID. Mr. President, I ask unanimous consent that Kusai Merchant, a fellow in my office, be granted floor privileges during the consideration of S. 761 and any votes thereon.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

UNANIMOUS-CONSENT AGREEMENT—EXECUTIVE CALENDAR

Mr. BINGAMAN. Madam President, I ask unanimous consent that at 12 noon tomorrow, the Senate proceed to executive session to consider Calendar No. 76, the nomination of Halil Suleyman Ozerden to be a U.S. district judge; that there be 10 minutes for debate equally divided between the chairman and ranking member or their designees; that at the conclusion or yielding back of the time, the Senate proceed to vote on that nomination; that

the President be immediately notified of the Senate's action; and that the Senate then return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

RELATIVE TO THE DEATH OF REPRESENTATIVE JUANITA MILLENDER-MCDONALD

Mr. BINGAMAN. Madam President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 165, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 165) relative to the death of Representative JUANITA MILLENDER-MCDONALD, of California.

There being no objection, the Senate proceeded to consider the resolution.

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the resolution be agreed to; that the motion to reconsider be laid upon the table; and that any statements relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 165) was agreed to, as follows:

S. RES. 165

Resolved, That the Senate has heard with profound sorrow and deep regret the announcement of the death of the Honorable Juanita Millender-McDonald, late a Representative from the State of California.

Resolved, That the Secretary communicate these resolutions to the House of Representatives and transmit an enrolled copy thereof to the family of the deceased.

Resolved, That when the Senate adjourns or recesses today, it stand adjourned or recessed as a further mark of respect to the memory of the late Representative.

COMMEMORATING THE LIFETIME ACHIEVEMENT OF THE REVEREND LEON H. SULLIVAN

Mr. BINGAMAN. Madam President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 166, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 166) commemorating the lifetime achievement of the Reverend Leon H. Sullivan.

There being no objection, the Senate proceeded to consider the resolution.

Mr. CASEY. Madam President, I rise today in support of a resolution honoring the lifetime achievement of the Reverend Leon H. Sullivan. My colleague from Pennsylvania, Senator SPECTER, has joined me as an original cosponsor of this resolution.

Tomorrow marks the 6-year anniversary of the passing of one of America's

great leaders. He was a man who changed the face of the world, a man of faith who achieved his mission in life through concrete action as well as his preaching. His family, friends, and colleagues appropriately refer to him as a "giant among men"—a colossal force who helped overcome some of the greatest challenges of the 20th century. So I am honored to stand here today to acknowledge the extraordinary lifetime achievements of the late Reverend Leon H. Sullivan.

Originally from West Virginia, Leon Sullivan grew up during the Great Depression while racial segregation still ruled the United States. He recalled it as a time when all of the White children walked down the left side of the street and all of the Black children walked on the right side of the street. It was a time when skin color often dictated one's place in society. When Reverend Sullivan was an 8-year-old, he was reprimanded for sitting at a drugstore counter and drinking a soda. A burly White man yelled at the young Leon: "Stand on your own two feet, you can't sit here."

When we think of Leon Sullivan today as a man, as a reverend, and as a leader, we think of his entire life, and his was a life of courage and compassion, a life of struggle and triumph, a life of faith and family—his own family and the human family—and, finally, his was a life for others and for God.

When he was young and dealing with the kind of discrimination I just described, that kind of experience kindled a fire within his heart, and Leon Sullivan made the decision to commit his life to fighting segregation and injustice.

Throughout his teenage years, he found inspiration in the founding documents of the United States. He understood that the principle of equality expressed in the Declaration of Independence and the Constitution transcends skin color. He repeatedly defied tradition and deliberately frequented restaurants, libraries, and shops where Blacks were not welcome, often reciting passages from the Declaration of Independence, fearlessly challenging racism and confronting prejudice where he found it.

After graduating from high school, Leon Sullivan was awarded an athletic scholarship to West Virginia State College, where he played football and basketball and also enjoyed the Kappa Alpha Psi fraternity.

After graduation, he was called to the ministry, a vocation that allowed him to address the religious needs of his people while continuing his fight against segregation and injustice. He moved first to Harlem, where he worked with the Reverend Adam Clayton Powell at the Abyssinian Baptist Church and attended Union Theological Seminary. He was offered a position in Philadelphia and soon

emerged as a powerful source of inspiration as the pastor of the Zion Baptist Church, where he focused on the temporal as well as the spiritual well-being of his people.

He once said:

I felt that God did not just want people to have milk and honey in heaven . . . He wanted them to have some ham and eggs on earth. I believe that God just doesn't want you to go to the pearly gates. He wants you to have a better life on earth, and if you have a better life on earth and treat people right, you'll get to the pearly gates.

As part of his ministerial role, Reverend Sullivan spoke eloquently about social justice, calling on people to "help the little man and aid those who cannot survive on their own." For over a decade, he helped and counseled hundreds of parishioners and others, but his realization that racial segregation would prevent his vision from becoming a reality led him to join the civil rights moment. He was one of the first civil rights leaders to recognize how the economic power of his people could be harnessed to promote the cause of racial equality. He created the Selective Patronage Movement, through which 400 Black ministers in Philadelphia mobilized their parishioners to boycott businesses which practiced discrimination. Exercising economic power through the Selective Patronage Movement led to the opening of thousands of jobs in previously segregated companies in Philadelphia alone.

These victories inspired Sullivan to create the Opportunities Industrial Utilization Center of America, the so-called OIC, which provided and still provides today comprehensive training so that motivated workers can be prepared to take advantage of opportunities opening up to them. As he said, "Integration without preparation brings frustration." Originally based in Philadelphia, the OIC captured the attention of President Lyndon Johnson, who worked directly with Reverend Sullivan to improve the infrastructure and efficiency of the organization and ultimately bring it to the national stage. Today, OIC America has chapters in 30 States and has helped thousands of African Americans achieve success through its emphasis on self-reliance and self-improvement.

The nationally recognized success of OIC led the chairman of General Motors to approach Reverend Sullivan about serving on the GM board of directors. The Reverend accepted the offer and served for over 20 years as the first African American on the GM board.

His service to GM brought him face to face again with racism, this time in the international arena. Reverend Sullivan traveled to South Africa, where he was targeted as a troublesome visitor because of his meetings with anti-apartheid organizers. As he was leaving the country, he was stopped at the airport and strip-searched. Reverend Sullivan, the pastor of one of the largest

churches in the United States, a director of General Motors, stood there in his underwear and asked the White officials in charge why this was happening.

The official said, "I am doing to you what I have to do."

Reverend Sullivan replied: "When I get back, I am going to do to you what I have to do."

What Leon Sullivan did was bring the economic power of corporate America on the heads of those who supported apartheid in South Africa. Under what came to be known as the Sullivan Principles, hundreds of multinational corporations publicly opposed racism and discrimination in South Africa. When the statement of principle failed to change the status quo fast enough, Reverend Sullivan raised the stakes. In his words: "I threatened South Africa and said in 2 years Mandela must be freed, apartheid must end and blacks must vote or else I will bring every American company I can out of South Africa . . ."

His efforts eventually evolved into a full campaign of disinvestment by hundreds of companies and by institutional investors holding hundreds of billions of dollars in corporate stock. And it worked. Apartheid collapsed, and Nelson Mandela went from prisoner to head of state.

Reverend Sullivan's work continued long after the end of apartheid. In 1999, U.N. Secretary General Kofi Annan invited him to deliver a speech at the United Nations, expanding his moral code of corporate social responsibility into the internally accepted Global Sullivan Principles.

Beyond this, he led a campaign to rescue African children from the overall lack of schools, infrastructure, hospitals and security.

Reverend Sullivan said of children:

Children do not get here on their own . . . They didn't ask to be here . . . They didn't ask who their mothers or fathers would be or the situations in which they were born. So what society has to do is reach and get the most out of that child you can . . .

What I and so many others admired most about the Reverend Leon Sullivan was his compassion for those truly in need. He called those of us who are able to stand on our own feet and improve ourselves, while always protecting the helpless.

Now I stand in this Chamber, on the floor of the Senate, to honor the energy and compassion of this great man dedicated to his noble causes. I have only touched on a few of the many contributions to our Nation and our world. These examples illustrate his unique ability to fight discrimination and injustice across the globe. From childhood until his death, Leon Sullivan believed in the future and demonstrated a relentless optimism regardless of the obstacles that tried to prohibit success. He characterized his life's work by saying:

I would not be doing what I am doing if I weren't optimistic about it. I'm reaching into a barrel and taking out a little hand at a time, not a whole lot . . . but if enough hands go down in the next fifty, seventy-five, hundred years, we'll clean out that barrel.

As we know, when so many of us pass on, most good people do, in fact, leave a legacy of family and close friends. Reverend Sullivan certainly did that. With us today is his family, represented by his daughter Hope and his friends and colleagues, many who worked with him for decades. But Leon Sullivan left a legacy far beyond family and friends. The Zion Baptist Church remains a bastion of faith and good works in north Philadelphia. OIC of America and OIC International continue to prepare thousands for productive, well-paying jobs. The International Foundation for Education and Self-Help trains students for careers ranging from teaching to banking. The Sullivan Charitable Trust and Progress Investment Associates carries on his economic and real estate development initiatives. The Leon Sullivan Foundation presents its biannual summit meeting in Africa, encouraging cooperation between African Americans and countries and leaders throughout the continent of Africa. The Global Sullivan Principles serve as a beacon for corporate social responsibility and human rights throughout the world. South Africa, the nation that Reverend Sullivan helped free from apartheid, still struggles, yet stands as a shining example of what people speaking truth and wielding moral force can do in our world.

For all this and so much more that remains unsaid today, we honor the Rev. Leon Sullivan—today and always.

Mr. BINGAMAN. Madam President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, and that any statements relating thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 166) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 166

Whereas, the late Reverend Leon H. Sullivan dedicated his life to alleviating the plight of the poor and the disadvantaged in America and worldwide;

Whereas, Reverend Sullivan received numerous honors and awards during his lifetime, including recognition by LIFE magazine in 1963 as one of the 100 outstanding young adults in America, the Presidential Medal of Freedom in 1992, and the Eleanor Roosevelt Award for Human Rights in 1999;

Whereas, having dedicated 37 years of his ministerial vocation to the historic Zion Baptist Church of Philadelphia, Reverend Sullivan's leadership and innovation led to the creation of one of the largest congregations in the Nation during his time;

Whereas, in 1966, as part of his 10-36 Plan to encourage individuals to invest in the economic future of their communities, Reverend Sullivan founded the Leon H. Sullivan Charitable Trusts and the Progress Investment Associates, through which numerous economic development and social services programs have been developed and funded;

Whereas, in 1963, in response to a lack of job opportunities in Philadelphia, Pennsylvania, Reverend Sullivan led more than 400 ministers in a successful boycott that opened up more than 4,000 jobs for African-Americans;

Whereas, Reverend Sullivan met the need for job training by establishing the Opportunities Industrialization Center, which has grown to more than 75 training centers throughout the Nation;

Whereas, recognizing the need to take his struggle to alleviate the plight of the poor abroad, in 1969 Reverend Sullivan established Opportunities Industrialization Centers International, which has grown to more than 40 centers in 16 African nations, Poland, and the Philippines;

Whereas, when Reverend Sullivan saw the need to create a broader array of programs in Africa, he established the International Foundation for Education and Self-Help, which has conducted numerous initiatives, including Schools for Africa, fellowship programs, and innovative teacher and banker training programs since 1988;

Whereas, in 2001, the Leon H. Sullivan Foundation was established posthumously to support Reverend Sullivan's life's mission through the work of his many established organizations;

Whereas, the Leon H. Sullivan Foundation presents the biennial Leon H. Sullivan Summits in Africa, which have provided a forum for leaders of African nations together with more than 18,000 African-Americans and Friends of Africa to interact with their counterparts and produce programs to meet the needs of the poor and disadvantaged in African nations;

Whereas, in 1977, Reverend Sullivan helped to promulgate the Sullivan Principles, a code of conduct for human rights and equal opportunity for companies operating in South Africa, and the Sullivan Principles helped end apartheid in South Africa;

Whereas, Reverend Sullivan expanded on the Sullivan Principles in 1999, by creating the Global Sullivan Principles, which encourage corporate social responsibility and promote global human rights and political, economic, and social justice;

Whereas, more than 250 governments, corporations, and universities on 5 continents have endorsed the Global Sullivan Principles since their initiation;

Whereas, 10 African heads of state endorsed the Global Sullivan Principles at the Leon H. Sullivan Summit in Abuja, Nigeria, in July 2006;

Whereas, plans for the 8th Leon H. Sullivan Summit in Tanzania in 2008 include broader regional endorsement of the Global Sullivan Principles among African nations: Now, therefore, be it

Resolved, That the Senate—

(1) commemorates the life of the Reverend Leon H. Sullivan;

(2) salutes the positive impact of the Reverend Sullivan's achievements domestically and internationally; and

(3) encourages the continued pursuit of Reverend Sullivan's mission to help the poor and disenfranchised around the world.

THE AMERICAN NATIONAL RED CROSS GOVERNANCE MODERNIZATION ACT OF 2007

Mr. BINGAMAN. Madam President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 1681, which was received from the House.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 1681) to amend the Congressional Charter of The American National Red Cross.

There being no objection, the Senate proceeded to consider the bill.

Mr. LEAHY. Madam President, I am pleased the Senate is considering H.R. 1681, the American National Red Cross Governance Modernization Act of 2007. The Judiciary Committee approved and the Senate passed our version of this bill last month, and I look forward to approving the Red Cross Governance bill again with the House-passed language. I want to thank my colleagues, Senator GRASSLEY and Senator KENNEDY, for their hard work on this issue and for introducing this important bill. I also want to congratulate the American Red Cross on appointing a new President and CEO last week. Mark W. Everson, currently the Commissioner of Internal Revenue was approved unanimously by the Board of Governors to head the American Red Cross, effective next month. I congratulate him on his appointment and thank current Chairwoman, Bonnie McElveen-Hunter for her dedicated leadership.

Just last week we had the opportunity to see the importance of the Red Cross and the good work they are doing on behalf of our citizens. In response to the horrific shootings on Virginia Tech's campus, the American Red Cross mobilized their local chapter and provided 200–300 hot meals to rescue workers and police officers and ensured that Red Cross mental health workers were available to students, faculty and family members. I am glad the Senate and House have worked together to pass this bill to enhance the American Red Cross' governance structure so they can better provide these crucial services in all emergencies.

Since its founding by Clara Barton in 1881, the American Red Cross has provided essential relief services to those affected by famine, floods and natural and manmade disasters. Last year alone, the American Red Cross responded to approximately 75,000 disasters with the help of more than one million volunteers and thirty-five thousand employees. As a key partici-

pant in the United States' disaster relief plan, the American Red Cross is charged with helping the United States prevent, prepare and respond to national emergencies. Over the past several years, however, the American Red Cross has been strained by disasters of an unparalleled scope; the terrorist attacks of September 11, 2001, the December 2004 Asian tsunami and the 2005 hurricane season that included the enormously destructive hurricanes Katrina, Rita and Wilma. These events all challenged the Red Cross's ability to respond to disasters quickly and effectively.

In order to improve its disaster relief services, the American Red Cross's Board of Governors unanimously voted to accept recommendations given by an independent advisory board, which examined the American Red Cross's governance structure and practices. H.R. 1681 reflects these recommendations and would improve the American Red Cross's governance structure by centralizing and reorganizing its infrastructure. Some notable enhancements include reducing its board size from 50 members to 20 in order to facilitate emergency action, giving the board all the powers in governing and managing the American Red Cross, and establishing a Presidential Advisory Council composed of eight to ten principal officers of the executive departments and senior officers of the Armed Forces to provide governmental input and support. Additionally, the modernized charter would enhance congressional oversight and transparency by creating an Ombudsman who would provide an annual report to Congress articulating any concerns of volunteers, employees, donors, clients and the public. The House adopted two amendments to the Senate-passed language that would clarify and ensure that the chapters of the American Red Cross are geographically and regionally diverse and that the American Red Cross will reach out to local charitable and faith-based organizations when providing relief services in local communities. These improvements to the bill make no statutory changes and I hope my colleagues will support them.

According to the American Red Cross's end of the year report, Hurricane Katrina created a record of 1.4 million families, or around 4 million people, who needed emergency assistance such as food, clothing and other necessities. My wife, Marcelle, was one of hundreds of thousands of volunteers dedicated to providing these essential relief services to victims of Katrina.

No one knows when the next disaster will strike. Congress must do everything in our power to ensure that the American Red Cross can continue and improve upon the essential humanitarian work on which the United States and the world relies. I commend the Red Cross for taking important action to reform itself and I urge my colleagues to support this important legislation.

Mr. BINGAMAN. Madam President, I ask unanimous consent that the bill be read a third time and passed, the motion to reconsider be laid on the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 1681) was ordered to a third reading, was read the third time, and passed.

ORDERS FOR TUESDAY, APRIL 24, 2007

Mr. BINGAMAN. Madam President, I ask unanimous consent that when the Senate completes its business today, it stand adjourned until 10 a.m. on Tuesday, April 24; that on Tuesday, following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired and the time for the two leaders reserved for their use later in the day; that there then be a period of morning business for 60 minutes, with Senators permitted to speak therein, with the first 30 minutes under the control of the Republicans and the final 30 minutes under the control of the majority; that following morning business, the Senate resume consideration of S. 761; that on Tuesday, at the conclusion of the vote on the judicial nomination, the Senate stand in recess until 2:15 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. BINGAMAN. Madam President, if there is no further business today, I ask unanimous consent that the Senate stand adjourned under the provisions of S. Res. 165 as a further mark of respect to the memory of the late Representative JUANITA MILLENDER-MCDONALD.

There being no objection, the Senate, at 5:26 p.m., adjourned until Tuesday, April 24, 2007, at 10 a.m.

HOUSE OF REPRESENTATIVES—Monday, April 23, 2007

The House met at 12:30 p.m. and was called to order by the Speaker pro tempore (Ms. HIRONO).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
April 23, 2007.

I hereby appoint the Honorable MAZIE K. HIRONO to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

MORNING HOUR DEBATES

The SPEAKER pro tempore. Pursuant to the order of the House of January 4, 2007, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning hour debates. The Chair will alternate recognition between the parties, with each party limited to not to exceed 30 minutes, and each Member, except the majority leader, the minority leader, or the minority whip, limited to not to exceed 5 minutes.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until 2 p.m. today.

Accordingly (at 12 o'clock and 31 minutes p.m.), the House stood in recess until 2 p.m.

□ 1400

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mrs. BOYDA of Kansas) at 2 p.m.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer: "This is the day the Lord has made. Let us rejoice and be glad."

The words of the Psalmist spring from our lips, inspired by a beautiful weekend of season and life. Last week proved heavy with young tragedy and floor debate. Move us now to thank You, Lord, for Your love endures forever. Uplifting weather and the power of prayer on Your holy day renew within us the joy of salvation.

In this week before us, may Congress build upon the cornerstone of faith and make the works of the Lord their very own work. Grant success to their efforts as they respond to the needs of Your people.

Bless the House of Representatives, all its Members and staff. Be for them, Lord, light that guides every decision and grants Your people hope and security, so together they may praise You forever.

Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Missouri (Mr. CARNAHAN) come forward and lead the House in the Pledge of Allegiance.

Mr. CARNAHAN led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

BLUE ANGEL TRAGEDY

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Madam Speaker, this Saturday a sad tragedy occurred during a Blue Angels air show at the Marine Corps Air Station at Beaufort, South Carolina. Toward the end of the show, Blue Angel No. 6, piloted by Lieutenant Commander Kevin Davis of Pittsfield, Massachusetts, crashed.

Lieutenant Commander Davis did not survive. Fortunately, there were no other fatalities. Lieutenant Commander Davis was a decorated pilot who joined the Blue Angels in 2005. He served in the Navy for 11 years, 8 of them as a fighter pilot. He flew 26 combat missions in Afghanistan and the global war on terrorism. Lieutenant Commander Davis's parents, John and Ann Davis, are residents of Aiken, South Carolina. He has two brothers, Christian and Phil.

The Blue Angels are an elite team of fighter pilots to fly F/A-18s in air

shows around the country. Because of their high skill level, their courage and intense practices, accidents such as this Saturday's are uncommon. The thoughts and prayers of my wife, Roxanne, and I are with the Davis family. Americans will always cherish the service of Lieutenant Commander Kevin Davis for our Nation.

In conclusion, God bless our troops, and we will never forget September 11.

GLOBAL WARMING

(Mr. CARNAHAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARNAHAN. Madam Speaker, with record temperatures set in the first half of 2006, the need for Congress in this country to address global warming is more pressing than ever, especially in light of the mounting scientific reports from around the world. There is no longer any real debate within the scientific community.

There is broad scientific consensus that global warming exists, and we must act. We still have the opportunity to reverse the negative effects of global climate change. However, this must be done both here at home and in cooperation around the world. That is why, just before Earth Day this past weekend, my colleague and I, MARK KIRK, introduced H. Con. Res 104, a bipartisan resolution expressing the need for the U.S. to participate in international agreements that address global climate change and to put this Congress on record acknowledging climate change.

I invite my colleagues to cosponsor this bill. There is a companion in the Senate. Please join me in taking this early step to begin addressing climate change in this country and around the world.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Record votes on postponed questions will be taken after 6:30 p.m. today.

NATIONAL FOSTER PARENTS DAY

Mr. DAVIS of Illinois. Madam Speaker, I move to suspend the rules and

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

agree to the resolution (H. Res. 179) expressing support for a National Foster Parents Day.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 179

Whereas the family, serving as the primary source of love, identity, self-esteem, and support, is the very foundation of our communities, and our United States;

Whereas foster families, who open their homes and hearts to children whose families are in crisis, play a vital role in helping children heal and reconnect and in launching those children into successful adulthood;

Whereas over 500,000 youth are in foster care with at least 380,000 in a family-home setting;

Whereas numerous individuals and public and private organizations work to increase public awareness of the needs of children in foster care and leaving foster care as well as of the enduring and valuable contributions of foster parents; and

Whereas those families who are able to serve a role as foster parents should be wholeheartedly encouraged to do so: Now, therefore, be it

Resolved, That it is the sense of the House of Representatives that—

(1) a National Foster Parents Day should be established to recognize the contributions of foster parents across the Nation; and

(2) the President should issue a proclamation calling on the people of the United States and interested groups to conduct appropriate ceremonies, activities, and programs to demonstrate support for foster parents across the Nation.

The SPEAKER pro tempore (Ms. HIRONO). Pursuant to the rule, the gentleman from Illinois (Mr. DAVIS) and the gentleman from South Carolina (Mr. WILSON) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois.

GENERAL LEAVE

Mr. DAVIS of Illinois. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. DAVIS of Illinois. Madam Speaker, I would yield such time as she might consume to the sponsor of this legislation, Representative NANCY BOYDA from Kansas.

Mrs. BOYDA of Kansas. Madam Speaker, in the late 1980s, a Topeka couple, Clifford and Phyllis Oshel, welcomed a foster child into their homes and into their hearts. For 2 years, they provided shelter, food, and, more importantly, caring. Through their patient guidance, they led that child from a time of crisis to what he now calls "the best years of my life."

That child's name was Kevin Surbagh. Ever since he left the Oshels' house, he has worked to repay his debt of gratitude. For 17 years, he has

fought tirelessly for a national day of recognition for foster parents, one day of the year, just one day, to honor their contributions, and to respect their sacrifices.

Soon after I was sworn into Congress, Kevin approached my office and told me about his mission. At Kevin's urging, I now submit for your consideration the National Foster Parents Day resolution. I ask you to join me in saying thank you, not only to Clifford and Phyllis Oshel, but to the hundreds of thousands of foster parents across our great Nation.

When I think back to the support I received from my mom and dad, I recognize the crucial role of our parents. My mom set me on the path that has led me to Congress today. She taught me my faith. She taught me to do unto others as I would have them do unto me. She taught me to speak to everyone in a room no matter what their role or position. She also taught me never to wear white shoes after Labor Day. All of her words of wisdom led me to where I am today.

In a perfect world, every child's biological parents would play the role that my parents played for me. But sometimes a family can't provide a safe, supportive, sufficient home. When tragedy strikes or turmoil rips a family apart, children are left dislocated and need a new place to call home, at least for a while.

Because many of these kids grew up in unstable households, some suffer emotional disturbances. Some are grieving the loss of their parents. All have endured more than any child should and all deserve a caring and supportive family. Today, over 500,000 American children still need a temporary home, a foster home. Today, 380,000 have found one, thanks to foster parents.

To the foster parents in Kansas and throughout America, today's vote in Congress is our way of honoring your efforts. You are deeply appreciated, and your contribution doesn't go unnoticed.

I hope that our vote is more than symbolic, that it encourages more families to open their homes to foster children. Caring for a foster child is one of the greatest challenges that you'll ever face, but the reward is immense. You'll help a little girl piece her life back together. You'll help a little boy feel safe and loved. You'll earn the respect of your community, your country, and of this Congress.

Mr. WILSON of South Carolina. Madam Speaker, I yield myself such time as I may consume.

According to the United States Department of Health and Human Services, there are over 500,000 children in foster care homes around the country. I am proud to support legislation recognizing the dedicated efforts put forth by foster parents.

These men and women open up their homes and their hearts to these youths by providing them with a stable, caring environment for months and, in some cases, years. H. Res. 179 establishes a National Foster Parents Day to praise their contributions to society.

These parents provide a vital role in the welfare and upbringing of children who need emotional support, guidance, and mentors. They teach children family values and morals and help them become significant members of society. Foster parents teach these values to help enable children become stable and confident adults. Children being cared for in foster homes can be traced all the way back to biblical times.

Foster care became increasingly widespread in the United States when Charles Loring Brace, a minister and director of the New York Children's Aid Society, noticed a large number of homeless immigrant children in New York. In 1953, Brace came up with a plan to provide them homes by advertising for families in other areas of the United States who were willing to take them in.

While many of these children were often indentured, Brace's movement is the origin of today's foster care program. Today, foster parents and families provide a safe and nurturing temporary home for children living in unstable conditions. There they can learn and grow until they have the opportunity to return living with their family.

□ 1415

Foster parents are crucial towards ending the vicious cycle of neglect and child abuse that endanger children's lives.

This resolution also calls on the President to issue a proclamation bringing greater awareness to foster care through various ceremonies, activities, and programs. These events educate communities and demonstrate support for foster parents who devote their lives lending a hand to children in need.

Madam Speaker, I urge all Members to join me to support this resolution.

Madam Speaker, I reserve the balance of my time.

Mr. DAVIS of Illinois. Madam Speaker, I yield myself such time as I might consume.

Madam Speaker, over 500,000 children in the United States are involved in some form of foster care. Placements in foster care have increased significantly over the past 10 years. In situations of abuse and neglect, children may be removed from their parents' home by a child welfare agency and placed in foster care. Some of the reasons for foster care placement include severe behavior problems in the child and/or a variety of parental problems such as abuse, abandonment, illness, including physical or emotional problems, incarceration, AIDS, alcohol, substance abuse, and death.

The resolution we are considering today honors foster parents. Foster parents are people who open their homes and their hearts to children in need of temporary care. The task is both rewarding and difficult. As a matter of fact, I have met individuals who have adopted children. I know one police officer who has adopted 13 children, a most unusual and unbelievable man, salt of the earth, pillar of the universe.

Foster parents take children for medical care and to school events. They may facilitate visitation between the child and the birth parents in the foster home or other approved locations. Foster parents face many challenges in caring for the physical and emotional needs of children. We need more foster parents to care and nurture our children who are unable to remain in their homes. Foster parents should be commended for their big hearts and commitment to provide stable homes for children.

This is an issue that is very personal to me in a very serious way. My congressional district has more grandparents taking care of children than any other district in the Nation, and it is followed closely by two additional congressional districts in the Chicago area. I want to commend the Illinois Department of Children and Family Services. I also want to commend some of the social welfare agencies that deal seriously with foster parenting for children, agencies such as Sankofa an organization that was started out of a crisis situation and now does an outstanding job. Agencies like One Church One Child that attempts to get individuals to become foster parents to teenagers coming out of correctional facilities, which is not an easy task.

So I commend the gentlewoman from Kansas (Mrs. BOYDA) for introducing H. Res. 179, and urge its passage.

Madam Speaker, I reserve the balance of my time.

Mr. WILSON of South Carolina. Madam Speaker, I have no other speakers at the moment. I reserve the balance of my time.

Mr. DAVIS of Illinois. Madam Speaker, I know that I had a number of individuals who had hoped to be here because they are very interested in this subject matter and who had intended to make comments, certainly Representative MELISSA BEAN who still might get here before we finish, Representative MICHELE BACHMANN from Minnesota, Representative FORTNEY PETE STARK, and Representative DENNIS CARDOZA all had statements that they wanted to present.

I would now yield to the other side to see if they have got other speakers, to see if any of my additional speakers will come before we yield back.

Mr. WILSON of South Carolina. I thank the gentleman, but we have no further speakers at this time.

Mr. DAVIS of Illinois. Madam Speaker, I don't think that our other speakers are going to make it; but suffice it to say that this is a very important resolution. It is a resolution that speaks to the heart and soul of America. It is a resolution that emphasizes the words of the blues singer who said once, "Who will save the world? Who's willing to try? Who will save the world that is destined to die?"

We are talking about saving the children, those unfortunate young people, many of whom their parents are incarcerated. There are more than 1.5 million children in America whose parents are in prison or in jail. They are in need of foster parenting.

So, again, not only do we urge passage, but I commend the gentle lady from Kansas, and urge listeners and watchers and viewers to see whether or not there is an opportunity for you to open your heart and your home and become a foster parent.

Mr. CROWLEY. Madam Speaker, I rise today in support of H. Res. 179, which calls for the establishment of a National Foster Parents Day. We should establish this day to recognize and appreciate our country's foster parents—the pillars of our child welfare system.

These are the men and women who go out of their way to help children in need—children who have been maltreated or who had to be removed from dangerous home situations. Foster parents open their hearts and their homes to these children, providing them with so much more than shelter. They allow these children to feel safe and secure once again, and help them to begin the healing process.

Children placed in foster care often come from some of the worst conditions imaginable. They have been abused, neglected, and broken down in ways beyond the physical. Many of these children enter foster care with serious emotional damage as well. They have learned that their home, the one place where they should feel safe, can actually be more dangerous than the world outside. It is the foster parent who helps build these children back up, reminding them how love and attention feel, and reassuring them that home can once again be a comfort.

Far beyond helping a single child, quality foster care is also an investment in our communities. We have learned that being abused or neglected dramatically increases the risk that kids will grow up to commit violent crimes, which is why it is so important to have a strong foster care system to place children in as soon as possible. Research has shown that abused and neglected children who became wards of the court and initially remained at home, but were later placed in foster care because of continuing abuse or neglect, were more likely to become violent criminals than abused or neglected children who were placed in a safe foster home right away.

This is why we must continue to support our foster parents. No child should be forced to remain in a dangerous situation because there are not enough available foster homes. We must make sure that funding for foster care is never capped or reduced so that our foster families can continue to receive the resources

they need to provide supportive, loving spaces for these children in need.

Additionally, we must increase our investment in preventing child abuse and neglect through programs such as the Promoting Safe and Stable Families program and in-home parent coaching programs. We also need to ensure that children in foster care find safe, permanent homes, either by reuniting them with their families or by adoption.

The success of our foster care system is vital to protecting our children, and our child welfare system relies on people like foster parents to run smoothly. These men and women on the front lines of the child welfare fight deserve all the recognition they can get. It is my hope that a National Foster Parents Day will also draw attention to the need for quality foster care and capable foster parents, and allow this system to continue benefiting our children in need.

I thank Representative BOYDA for sponsoring this legislation, and I urge its passage.

Mr. CARDOZA. Madam Speaker, I rise in strong support of H. Res. 179, a resolution declaring the sense of the House that a National Foster Parents Day should be established.

I have a very personal interest in this issue. Seven years ago, I adopted two foster children. Since then, I have advocated on behalf of adoption and foster children in the California Assembly and in Congress.

Our Nation's foster care system was created as a temporary safe haven for abused and neglected children. Sadly, it has become a way of life for too many of our youth. On average, foster children spend nearly 3 years in the system, and move as many times from one placement to another and from school to school. Far too many spend much longer in the system, with as many as 24,000 young adults expected to "age out" of the system this year, cut loose with no family and little support. Several studies released in 2005 documented the special challenges facing these youths, especially in the areas of mental health, education and employment. They are especially poorly prepared to be self-sufficient.

Despite the sometimes valiant efforts and good intentions of social workers, judges, foster parents and others, day-to-day life for children in foster care is often filled with emotional hardship. Each year, thousands of children entering foster care will be separated from their brothers and sisters, some losing touch with each other for years to come. The trauma of foster care takes its toll on young children. Over one-third will neither earn a high school diploma nor a GED. One in four children in foster care will be incarcerated within the first 2 years after leaving the system, and over 20 percent will become homeless at some time after they turn 18.

These children are waiting. Speaking from personal experience, there is no greater joy in life than helping a child.

Every child, no matter what station they may be born to, deserves a chance to be raised in a stable and loving home. Innocent children should not be forced to bear the mistakes of others.

This is a big problem that will require bold solutions. In order to save the next generation of children, we must re-dedicate ourselves to their welfare and pledge to do whatever necessary to nurture and protect them.

This resolution, by highlighting attention to the problem, is a necessary first step. I urge my colleagues to support this resolution.

Ms. BEAN. Madam Speaker, I am proud to rise today in support of National Foster Parents Day. This celebration honors the parents who open their hearts and their homes to children who are in need of a family. As an adoptee and member of the Adoption Caucus, myself, I am proud of the efforts Congress has made to increase adoptions both nationally and internationally, and to give special thanks to the many families who have sacrificed to provide loving homes for foster children.

Currently, thousands of children are without permanent homes. Fortunately, for many of these children there are foster parents who are eager to bring a child into their home. I cannot think of a more rewarding pursuit than creating a family and bringing hope into a child's life.

As a member of the Congressional Coalition on Adoption, I am well aware of the positive impact foster parents have on our children and communities. I am proud of the contributions foster parents make across America, and I hope my colleagues will join with me in supporting a National Foster Parents Day.

Mr. STARK. Madam Speaker, I rise today in strong support of establishing a National Foster Parents Day. Individuals and families that open their homes and their hearts to vulnerable children are truly deserving of our recognition.

Of the over 500,000 foster children in the United States, 380,000 live with foster parents. Without the compassion of thousands of foster parents, our foster care system would fall apart. Foster parents are the glue that holds the child welfare system together.

Every day, abused and neglected children enter the child welfare system and become the responsibility of our society. As the collective caretakers of vulnerable children, we have a moral responsibility to ensure that foster children receive the same love and opportunities that we want our own children to receive. Foster parents are the individuals that take on the immense responsibility of providing abused and neglected children with loving homes, often with very little government support.

Too often our society and this body ignore the plight of foster children. We do so at our own peril, because foster children who are not provided with the supports they need to mature and grow do not transition into self-sufficient adults. Society bears responsibility for this failure and we also bear the costs of incarceration, homeless services, and medical care of former foster children who do not become independent. A National Foster Parent's Day will shed much needed light on the struggles of our foster children as well as the sacrifices made by the families that welcome those children into their homes and move them toward brighter futures. It will also provide a forum to discuss the improvements that must be made to our foster care system. Finally, we will encourage more families to become foster parents by recognizing the vital role that foster parents play in lives of children.

The thousands of foster parents around the country are the heroes of our child welfare

system. We should provide them with every possible support, including the special recognition of a National Foster Parents Day.

Mr. MOORE of Kansas. Madam Speaker, I rise today in support of H. Res. 179, in support of establishing a National Foster Parents Day.

On any given day in the United States, half a million children and youth are in foster care, removed from their homes because of abuse or neglect. On average, these young people will wait more than 3½ years in the foster care system before finding a permanent home—20 percent wait 5 years or more.

Foster parents have one of the hardest tasks on earth. Children who spend many years in abusive or neglectful homes are substantially more likely than other kids to face emotional, behavioral, and academic challenges. Foster parents have the daunting task of trying to make the foster child feel at home, gain their trust, provide some sense of stability and normality, and prove that they do care.

Foster parents give of themselves unselfishly, opening their homes, families, lives, and loving arms to help protect children who are not safe in their own homes. For some children, foster parents are literally lifesaving. For too many children, what should be a short-term refuge becomes a long-term saga, involving multiple moves from one foster home to another.

I have come to appreciate that foster parenting is perhaps one of the most challenging and most important components of the child welfare system. As a foster parent, you respond to the calling to care for children, to take them into your homes, and to transition them into the next phase of their lives—sometimes for weeks, and sometimes for almost the child's entire youth. I describe this response as a calling—not a job, they don't get paid enough to call it a job; and not a choice, because if they had the wherewithal to choose, they certainly would choose not to expose themselves to all of the trials and tribulations of fostering. It is a calling, a response to some inner drive to respond to the difficulties of kids who desperately need them.

It is this selflessness which I applaud today, which I believe is deserving of national recognition. For all the time, love, and resources foster parents dedicate to their foster children, I would simply like to say thank you. They truly are a gift to the world.

I urge my colleagues to join in support of H. Res. 179, expressing support for the establishment of a National Foster Parents Day.

Mr. SHULER. Madam Speaker, I rise today as a cosponsor of House Resolution 179, expressing support for National Foster Parents Day.

There are over half a million children in foster care in this country. Every child deserves to have a safe and loving home, where they do not have to worry about the fear of harm or of being abandoned. While caring for a child is never easy, foster parents have additional difficulties to work through. All foster care children need special care, support and nurturing. There are a wide array of issues that these children are dealing with such as abandonment, physical or sexual abuse, undisciplined or delinquent behaviors, and physical or emotional handicaps and disabilities.

Foster parents are challenged with helping their foster children feel secure and loved, while they also work through many of these difficult issues.

And while immensely challenging, foster parenting is also immeasurably rewarding. When foster parents open their homes and hearts—sacrificing, while giving support and love—they change children's lives. Many foster parents go on to adopt the children that they have in their home—60 percent of children who are adopted after they have been in foster care are adopted by foster parents. These children are given what every child deserves—a permanent home and a loving family.

It is important to recognize and honor the crucial role that foster parents play in shaping the lives of hundreds of thousands of children each year. Because of this, I stand here today in support of a National Foster Parents Day, to honor their invaluable sacrifice, dedication, and selfless commitment to improving the lives of children.

Mrs. BACHMANN. Madam Speaker, I rise today in support of this bill, to express support for a National Foster Parents Day.

Today, there are more than 500,000 children in foster care nationwide.

Most of these children come from extremely troubled homes, and compared to the other children, they are more likely to suffer educationally, socially, and emotionally.

This is an issue that is very close to my heart. Over the years, my husband Marcus and I have cared for 23 foster children.

I know from experience that foster parents have to work diligently with local, State, and Federal agencies as well as within their homes to respond to each child's individual needs.

Madam Speaker, I want to thank Representative BOYDA for bringing attention to the foster care system, and I encourage my colleagues to support this bill.

Mr. DAVIS of Illinois. Madam Speaker, I yield the balance of our time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. DAVIS) that the House suspend the rules and agree to the resolution, H. Res. 179.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. DAVIS of Illinois. Madam Speaker, on that I demand the yeas and nays. The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this question will be postponed.

ATANACIO HARO-MARIN POST OFFICE

Mr. DAVIS of Illinois. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 625) to designate the facility of the United States Postal Service located at 4230 Maine Avenue in Baldwin Park, California, as the "Atanacio Haro-Marin Post Office".

The Clerk read the title of the bill.
The text of the bill is as follows:

H.R. 625

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. ATANACIO HARO-MARIN POST OFFICE.

(a) DESIGNATION.—The facility of the United States Postal Service located at 4230 Maine Avenue in Baldwin Park, California, shall be known and designated as the “Atanacio Haro-Marín Post Office”.

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the “Atanacio Haro-Marín Post Office”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois (Mr. DAVIS) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois (Mr. DAVIS).

GENERAL LEAVE

Mr. DAVIS of Illinois. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. DAVIS of Illinois. Madam Speaker, I yield myself such time as I might consume.

As a member of the House Committee on Oversight and Government Reform, I am pleased to join my colleague in consideration of H.R. 625, which names the postal facility in Baldwin Park, California, after Atanacio Haro-Marín.

H.R. 625, which was introduced by Representative HILDA SOLIS on January 22, 2007, was reported from the Oversight Committee on March 29, 2007 by voice vote. This measure, which has been cosponsored by the 52 members, has the support of the entire California congressional delegation. Army Sergeant Atanacio Haro-Marín, age 27, of Baldwin Park, California, was assigned to the 3rd Battalion, 16th Field Artillery Regiment, Fort Hood, Texas. He was killed while manning the checkpoint when his unit came under attack from gunfire and rocket-propelled grenades south of Balad, Iraq on June 3, 2003.

Sergeant Marín was born in Momax, Mexico, and lived there with his mother while his father worked in California picking fruit and doing construction jobs to support seven children. The family reunited in Los Angeles when Sergeant Marín was 2, and they later moved to suburban Baldwin Park. He will be remembered as a proud and courageous soldier who was living out a long-held dream of serving in the U.S. military.

Madam Speaker, I commend my colleague for seeking to honor the mem-

ory, legacy, and contributions of Atanacio Haro-Marín, and urge swift passage of this bill.

Madam Speaker, I reserve the balance of our time.

Mr. ISSA. Madam Speaker, I yield myself such time as I may consume.

Atanacio Marín, or as he was better known, Nacho, by his friends, typifies the soldiers that come from California. So many of them are from Los Angeles and surrounding areas, so many have stories like Nacho has: one in which he was born in Mexico; one in which his family came here for a better life; one in which he became integrated with the community that he grew up in; one in which he graduated from Sierra Vista High School and was on the track team and ran in the Los Angeles marathon; one in which he had a desire to serve his country; one in which he joined the National Guard after completing high school and decided to devote his life to serving the military.

After his tour with the National Guard ended, Nacho transferred to the regular Army and was assigned to Battery C, 3rd Battalion, 16th Field Artillery Regiment at Fort Hood, Texas. In January, 2 months before reporting for duty in the Middle East, Sergeant Marín was able to spend time with his close-knit family. While he was in Iraq he continued to remain close to his family. He called home often and characteristically sent his mother a Mother's Day card that read, “Don't worry, be happy.” Tragically, those uplifting words were some of his last.

A checkpoint was manned by the sergeant and came under fire on June 3, 2003. Unfortunately, this brave young man did not survive the attack. He was only 27 years old.

The post office we are naming today in Baldwin Park we are naming not just as a tribute to this fine soldier, but as a tribute to those who have gone to serve their country in this war and, like so many others, have an American story.

Nacho's American story is the story of California, it is a story of the war that is not often talked on this front, of patriotism, of devotion to family, of devotion to this Nation. And it is so appropriate that we name a post office after this fine young man from California. So I join with the majority in urging its swift passage.

Madam Speaker, I reserve the balance of my time.

Mr. DAVIS of Illinois. Madam Speaker, I have no further speakers. I reserve the balance of my time.

Mr. ISSA. Madam Speaker, I yield back the balance of my time.

Mr. DAVIS of Illinois. Madam Speaker, I had expected that Representative SOLIS, who is the sponsor of this legislation, would have been here, but maybe she had some difficulty getting back from way out west in California today.

Madam Speaker, I yield back the balance of our time and urge passage of this resolution.

The SPEAKER pro tempore (Mrs. BOYDA of Kansas). The question is on the motion offered by the gentleman from Illinois (Mr. DAVIS) that the House suspend the rules and pass the bill, H.R. 625.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

SERGEANT DENNIS J. FLANAGAN LECANTO POST OFFICE BUILDING

Mr. DAVIS of Illinois. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 1402) to designate the facility of the United States Postal Service located at 320 South Lecanto Highway in Lecanto, Florida, as the “Sergeant Dennis J. Flanagan Lecanto Post Office Building”.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H.R. 1402

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SERGEANT DENNIS J. FLANAGAN LECANTO POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 320 South Lecanto Highway in Lecanto, Florida, shall be known and designated as the “Sergeant Dennis J. Flanagan Lecanto Post Office Building”.

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the “Sergeant Dennis J. Flanagan Lecanto Post Office Building”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois (Mr. DAVIS) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois.

□ 1430

GENERAL LEAVE

Mr. DAVIS of Illinois. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. DAVIS of Illinois. Madam Speaker, I yield myself such time as I may consume.

On September 11, 2001, America was forever changed. The rancid acts of terrorism that occurred on this day struck a chord within the people. For one moment in time we were not a hyphenated people. We were not Irish-

American, African-American, Asian-American, Greek-American. We were simply American.

It was with a resounding spirit of patriotism that Dennis J. Flanagan went to his local recruitment station and took the vow to serve his country. As the President waged war against our terrorist adversaries, Sergeant Flanagan took his place as a member of the air assault infantry that invaded Iraq in 2003. He returned to Iraq in September for his second tour of duty and was killed when his vehicle was struck by a roadside bomb in Hawijah, Iraq, on January 19, 2006.

Madam Speaker, I offer my condolences to the family of Sergeant Flanagan and hope that my colleagues will vote in the affirmative to pass this measure that will allow the Lecanto, Florida, post office to bear the name of Sergeant Dennis James Flanagan.

Madam Speaker, I reserve the balance of our time.

Mr. ISSA. Madam Speaker, I yield myself such time as I may consume.

I join with my colleague in supporting this naming of the Sergeant Dennis J. Flanagan Post Office.

Sergeant Flanagan grew up in Florida and attended high school there. He was active and enjoyed sports. He ran cross-country, played soccer, and was a cadet commander at the school's Civil Air Patrol squadron. He loved learning about American history and hoped that one day he would be a history professor.

His commitment to military service began at an early age. He was an active member of the Junior Reserve Officer Training Corps, or Junior ROTC, where he achieved the rank of first lieutenant during his junior year of high school. He began classes in Central Florida Community College, but enlisted in the Army a week after September 11.

Sergeant Flanagan was assigned to the 1st Battalion, 327th Infantry Regiment, 1st Brigade Combat Team of the 101st Airborne Division out of Fort Campbell, Kentucky. He fought with the air assault infantry that led the initial attack in 2003.

Wise beyond his years, he understood that victory could not be attained without action. He knew the dangers of war and believed in serving his country. After completing his first tour of duty, he re-enlisted in September of 2005 for a second tour. As an experienced soldier, he hoped he could act as a mentor for new soldiers, and he wanted to train the Iraqi Army recruits.

On January 20, 2006, Sergeant Flanagan was on patrol in Iraq in his Humvee with three other U.S. soldiers and a driver when a roadside bomb, or an IED, was exploded near their vehicle. All soldiers were wearing protective body armor. However, only the driver survived the blast. Sergeant Flanagan was only 22 when he died.

Today we honor the life of Sergeant Flanagan, a soldier who strongly be-

lieved in the fight for freedom. He was an American hero.

Madam Speaker, I ask all Members to join with me in supporting this naming and this bill.

Madam Speaker, I reserve the balance of my time.

Mr. DAVIS of Illinois. Madam Speaker, I reserve the balance of my time.

Mr. ISSA. Madam Speaker, I yield 5 minutes to the gentlelady from Florida (Ms. GINNY BROWN-WAITE).

Ms. GINNY BROWN-WAITE of Florida. Madam Speaker, I rise today in support of the bill, H.R. 1402, the Sergeant Dennis J. Flanagan Lecanto Post Office Building piece of legislation. It will rename the South Lecanto Highway Post Office in Lecanto, Florida, after Army Sergeant Flanagan, who was killed by terrorist insurgents in 2006 while on patrol in Iraq.

I actually attended the services out at Arlington Cemetery. I was with the family. I also attended the service for the young man that was held in Citrus County.

In my district office, I have a photograph that his mom gave me that was taken at the service. And it appears as if there is this rainbow over the marker. It is truly a tribute to this 2001 graduate of Lecanto High School because Sergeant Flanagan was an active member of the Junior ROTC, and he achieved the rank of lieutenant in his first year.

Within a week following the attacks of September 11, 2001, on our country, he enlisted in the Army and began his first tour of duty in Iraq. Sergeant Flanagan then re-enlisted for a second tour in Iraq in September of 2005. Tragically, he was killed, along with three other U.S. soldiers, when an IED hit a Humvee in which he was traveling. Only the Humvee driver survived the incident.

Sergeant Flanagan was a soldier who firmly believed in our mission in Iraq and in advancing the cause of freedom. Even as a young boy, his parents told me that Dennis knew he wanted to be a soldier in the U.S. Armed Forces.

A soldier who felt he must defend and fight for freedom, Sergeant Flanagan received glowing recommendations from his superior officers and from fellow officers. One of the principal reasons that he re-enlisted was to act as a mentor to newly enlisted soldiers and to help train Iraqi Army recruits.

Speaking of his future as a soldier and a patriot, Sergeant Flanagan once mused in a poem that he was going to save for his son, and those words read: "And now, my son, I pray to thee, never ever forget me; that I died a soldier's death to keep you free with my last breath."

His mom shared those words with me, and I think it is appropriate that they be in the CONGRESSIONAL RECORD.

In times when children and families need role models to look up to, Ser-

geant Flanagan was a true American hero. Our community, certainly Citrus County and all of Florida, mourn his loss.

We hope that in renaming this post office we will memorialize this brave young man, Sergeant Dennis Flanagan, and never, ever forget his sacrifice for our Nation.

Mr. DAVIS of Illinois. Madam Speaker, I yield myself such time as I may consume.

I simply want to commend the gentlewoman from Florida for introducing this resolution, which speaks directly to the greatest gift that one can give, and that is to give his or her life for the benefit of their fellow man and woman.

A young man, who had no concern, really, for himself, but was concerned for the country.

I urge passage of this resolution.

Madam Speaker, I reserve the balance of my time.

Mr. ISSA. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, we have no further speakers here today on this fine young gentleman. But, in closing, I can think of no more appropriate statement on the United States Armed Forces than to have a gentleman with a classic Irish name from Florida be honored on the same day for another post office as a gentleman born in Mexico, growing up in California, whose father was a day laborer. I think that speaks volumes about the kinds of men and women who are defending our country, not questioning anything except that their country asked for them and they have followed and, unfortunately, two have fallen.

I urge passage of both of these pieces of legislation. I thank the majority for moving them in an expeditious fashion.

Ms. GINNY BROWN-WAITE of Florida. Madam Speaker, I rise today in support of my bill, H.R. 1402, the Sergeant Dennis J. Flanagan Lecanto Post Office Building.

H.R. 1402 will rename the South Lecanto Highway post office in Lecanto, FL, after Army Sergeant Flanagan, who was killed by terrorist insurgents in 2006 while on patrol in Iraq.

A 2001 graduate of Lecanto High School, Sergeant Flanagan was an active member of the Junior ROTC, achieving the rank of First Lieutenant his junior year.

Within a week following the terrorist attacks of September 11, 2001, he enlisted in the Army and began his first tour of duty in Iraq in 2003. Sergeant Flanagan then re-enlisted for a second tour in Iraq in September of 2005.

Tragically, he was killed January 20, 2006, along with 3 other U.S. soldiers when an IED hit a Humvee in which he was traveling. Only the Humvee driver survived the incident.

Sgt. Flanagan was a soldier who firmly believed in our mission in Iraq and in advancing the cause of freedom. As a young boy, Sgt. Flanagan knew that he wanted to be a soldier in the U.S. Armed Forces. A soldier who felt we must defend America and fight for freedom, Sgt. Flanagan received glowing recommendations from his superior officers and

fellow soldiers. One of the principle reasons that he re-enlisted was to act as a mentor to the newly enlisted soldiers and to help train Iraqi army recruits.

Speaking of his future as a soldier and a patriot, Sgt. Flanagan once wrote a poem that included the words, "And now, my son, I pray to thee. Never ever forget me; that I died a soldier's death, to keep you free with my last breath."

In times when children and families need role models to look up to and emulate, Sergeant Flanagan was a true American hero. Our community feels his loss immensely.

I hope that in renaming this post office, we will memorialize Sergeant Flanagan's courage and never forget his sacrifice for this great Nation.

Mr. ISSA. Madam Speaker, I yield back the balance of my time.

Mr. DAVIS of Illinois. We have no further speakers, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. DAVIS) that the House suspend the rules and pass the bill, H.R. 1402.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. DAVIS of Illinois. Madam Speaker, on that I demand the yeas and nays. The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this question will be postponed.

RACHEL CARSON POST OFFICE BUILDING

Mr. DAVIS of Illinois. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 1434) to designate the facility of the United States Postal Service located at 896 Pittsburgh Street in Springdale, Pennsylvania, as the "Rachel Carson Post Office Building".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1434

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. RACHEL CARSON POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 896 Pittsburgh Street in Springdale, Pennsylvania, shall be known and designated as the "Rachel Carson Post Office Building".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Rachel Carson Post Office Building".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois (Mr. DAVIS) and the gentleman from California (Mr. ISSA) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois.

GENERAL LEAVE

Mr. DAVIS of Illinois. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. DAVIS of Illinois. Madam Speaker, I yield myself such time as I might consume.

As a member of the House Committee on Oversight and Government Reform, I am pleased to join with my colleagues in the consideration of H.R. 1434, which names the postal facility in Springdale, Pennsylvania after Rachel Carson.

H.R. 1434, which was introduced by Representative JASON ALTMIRE of Pennsylvania on March 9, 2007, was reported from the Oversight Committee on March 29, 2007, by voice vote. This measure, which has been cosponsored by 40 Members, has the support of the entire Pennsylvania, congressional delegation.

Starting in the mid-1940s, Ms. Carson became concerned about the use of newly invented pesticides, especially dichloro diphenyl trichloroethane, better known as DDT. This turned into an amazing thesis she entitled "Silent Spring." "Silent Spring" focused on the environment and the effect of pesticides on humans. This was known as Carson's greatest work. She worked to defend the claims in "Silent Spring" until her death. It is believed that Carson's "Silent Spring" was the catalyst for the United States taking a more in-depth look at the use of pesticides, as well as the founding of government agencies such as the Environmental Protection Agency.

Madam Speaker, I commend my colleague for seeking to honor the memory, legacy, and contributions of Rachel Carson and urge swift passage of this legislation.

Madam Speaker, I reserve the balance of my time.

Mr. ISSA. Madam Speaker, I yield myself such time as I may consume to speak in total support of the naming of this post office.

As a member of the committee, I thoroughly support the fact that we have not yet done enough to recognize some of the brave people from the past who created the government, the good parts of government that we take credit for every day. Certainly, I believe this is a good example. Not only was she, in fact, the person most responsible for recognizing the dangers of DDT and leading to the banning of it, but, quite frankly, Rachel Carson, in her novel "Silent Spring," brought to the forefront the very concept of writing works which are widely read, and,

in fact, can make a real difference in America's point of view.

□ 1445

Rachel Carson was born in 1907 in a rural area of Springdale, Pennsylvania, where she first acquired her interest in nature. Majoring in marine biology, with a strong background in creative writing, she graduated from Chatham College in 1929 magna cum laude. Despite financial difficulties, Ms. Carson continued her studies at Johns Hopkins University, graduating in 1932 with a graduate degree in zoology. While expanding her great passion about zoology and other living things, Carson taught at Johns Hopkins and at the University of Maryland while pursuing her doctorate degree.

Due to financial circumstances, Carson found a part-time position as a writer for radio scripts at the United States Bureau of Fisheries. She was faced with sexist resistance, not uncommon at that time, not uncommon at this time, as she took the civil service exam, but after obtaining a high score, she was given a full-time position as a junior aquatic biologist at the Bureau of Fisheries. At the U.S. Bureau of Fisheries, Ms. Carson submitted one of her radio scripts, named "Undersea," to the Atlantic Monthly, which was published in 1937. Publishers, impressed with her writing, encouraged her to expand the article into book entitled *Under the Sea-Wind*.

Carson continued to write. Her second book, *The Sea Around Us*, was on the New York Times best seller list for 86 weeks and won the 1952 National Book Award and earned her two honorary doctorates. The book was then made into an Oscar-winning documentary. Her writing achievements did not end here, as she went on to publish a third and fourth book and write numerous magazine articles.

Ms. Carson's fourth and legendary book, *Silent Spring*, greatly influenced the way Americans thought about the environment and was discussed by President John F. Kennedy. One of the main themes of her novel was how all aspects of the environment were connected. She explained that when one uses a pesticide to exterminate a particular organism, the poison travels up the entire food chain, ultimately affecting large animals and humans. With the publication of *Silent Spring*, Carson was able to draw in reputable scientists in support of her cause of responsible DDT usage and help spread awareness of its impact on the environment.

Rachel Carson was elected to the American Academy of Arts and Sciences and received many honors, including the Audubon Medal and the Cullen Medal of the American Geographical Society, for her achievements. Unfortunately, poor health kept Ms. Carson from witnessing the ban on

DDT in the United States, as she passed away in 1964. She was awarded the Presidential Medal of Freedom posthumously in 1980.

Carson's legacy lives on as the quiet and consistent voice urging people to come to terms with nature. The major conference room at the headquarters of the Environmental Protection Agency is named the Rachel Carson Room. The Rachel Carson State Office Building is located in Harrisburg, Pennsylvania, and is home to the Department of Environmental Protection and the Department of Conservation and Natural Resources. There are also numerous bridges, parks, and schools which bear her name as well.

To further recognize and honor her contributions in the centennial celebration of her birth and to honor her life as a teacher, scientist, environmentalist, activist, and, most of all, writer, please join me in supporting and passing H.R. 1434.

Madam Speaker, I reserve the balance of my time.

Mr. DAVIS of Illinois. Madam Speaker, it is now my pleasure to yield such time as he may consume to the sponsor of this bill, one of the outstanding new Members of the House, Representative JASON ALTMIRE, from Pennsylvania.

Mr. ALTMIRE. Madam Speaker, I want to thank the gentleman from Illinois and the gentleman from California for their very eloquent remarks.

This is a very special day for me. I grew up in southwestern Pennsylvania, right across the river from Springdale, Pennsylvania, where Rachel Carson was born and raised and where she is truly a legendary figure. She is an icon in western Pennsylvania, and this is a very special year for Rachel Carson's memory because May 27, 2007, would have been Rachel Carson's 100th birthday.

And she has received tremendous honors throughout her life. We do have, as the gentleman said, bridges named after her and schools and other things. But I can think of no greater representation for the beginning of Rachel Carson and the beginning of the modern environmental movement than to have the post office in her hometown of Springdale named after her. And, ironically, Springdale itself last year celebrated its centennial, so she was born in the very early days of Springdale. And this bill has widespread support throughout the district that I represent, the Fourth Congressional District where Springdale is located, but also throughout all of western Pennsylvania and all of Pennsylvania. And I do thank the gentleman for his kind remarks. But I wanted to talk a little bit about Rachel Carson.

As I said, she was born in 1907 in Springdale. She graduated from the Pennsylvania College for Women, which currently is known as Chatham College. And Rachel Carson got her de-

gree in English, which would serve her well in her writing career over the years. She earned her master's degree in zoology from Johns Hopkins University, so she has very strong ties to Maryland, and I am going to talk a little bit more about that because she taught zoology at the University of Maryland, right down the road from where we are right now. And while she continued her studies at the Marine Biological Laboratories in Woods Hole, Massachusetts, she continued her teaching career. So in the very early days, she was getting to know the environment and getting a greater understanding of the world around her and what was to come in her life.

Now, according to Time Magazine, "It was there in her early twenties that she first saw and became enchanted with the enormous mysteries of the sea." And as I talked about, this was a lifelong passion for Rachel Carson. Her early writings at the time focused on the waters and the seas, and I believe a lot of that has to do with her upbringing in Springdale, Pennsylvania, because the Allegheny River flows right through the town there, right along the river, and she spent a lot of time studying the river in her youth growing up. And the Rachel Carson homestead, which is her childhood home, has been restored. And there is an active and ongoing presence there in the town, and the stories are legendary about her spending hours and hours of time sitting there on the riverbank, studying the waters and thinking about it. And those who knew her at the time knew that that was her passion and that was going to be the direction of her career and her life.

In 1936 she went to work as a junior aquatic biologist at the U.S. Bureau of Fisheries, again very suitable to someone with that level of interest and that educational background. She was the second woman in the history of the agency to hold a full-time professional position. So she was a trailblazer right from the start. And her early writings, as the gentleman from California mentioned, *Under the Sea-Wind*, *The Sea Around Us*, and *The Edge of the Sea*, celebrated her wonders of nature and continued her ongoing expertise and interest in aquatics and the sea. *The Sea Around Us* won the John Burroughs Medal, which was then the equivalent of what is today the National Book Award. So here we see the beginnings of a writing career. And this is where her English degree comes back, and she now has expertise in not only zoology and water and the Bureau of Fisheries as her profession, but she begins a long and fruitful career as an author, so she wins what is then the equivalent of the National Book Award. And within the first year, this was in the 1930s, that book sold over 200,000 copies.

Rachel Carson is most famous, of course, for her book, *Silent Spring*,

which was published in 1962, and it criticizes the use of pesticides, particularly DDT, but not exclusively. It is widely created with launching the modern environmental movement, including Earth Day, which just over this past weekend we celebrated Earth Day all across the country while Rachel Carson is credited with the founding of that movement as well. So, again, this is a very timely measure today, and I do encourage my colleagues to support it.

I did want to mention that, unfortunately, it was not long after the publishing of *Silent Spring* that Rachel Carson took ill and breast cancer took her life at the early age of 56, in 1964. But that did not end the legacy of Rachel Carson. In 1980 she was posthumously awarded the Presidential Medal of Freedom, which all of our Members here know that is an incredible honor to be bestowed upon someone. And in 1999 Time Magazine recognized Rachel Carson as one of the 20th century's 100 most influential Americans, again a fantastic and well-deserved honor.

So, again, throughout western Pennsylvania this year, her 100th birthday we are celebrating Rachel Carson. And it is important, having just had Earth Day over the weekend and the increasing awareness of the environment around us, that we do allow Springdale Township, where this is a very popular measure and something that we have been waiting to see this day come. I would ask my colleagues to show their support and recognize the tremendous contributions that Rachel Carson has had not only for western Pennsylvania, not only for the United States of America, but around the world. She truly is an icon, and she truly did change the world.

So at this time I would like to thank the gentleman from Illinois for allowing me to bring this bill forward. I thank the committee, and I thank the gentleman from California.

Mr. ISSA. Madam Speaker, I reserve the balance of my time.

Mr. DAVIS of Illinois. Madam Speaker, it is my pleasure now to yield such time as he may consume to the gentleman from Virginia (Mr. MORAN).

Mr. MORAN of Virginia. Madam Speaker, I thank my good friend from Illinois (Mr. DAVIS) for yielding me the time.

Just a few points about Rachel Carson and *Silent Spring* and the profound transformational effect that that book had on our society.

She was a Federal employee. She worked for the predecessor of the Fish and Wildlife Service. She was recognized, even as a child, as an outstanding writer. But she saw something that she knew was wrong, and she dedicated her life to changing the future for subsequent generations of Americans and really changed the world in terms of its view of pesticides.

At that time it wasn't just that pesticides were being poured all over farms but in our own residential neighborhoods. I can remember, I am old enough to remember, the big clouds of pesticides, and we would run in and out of them, and we would follow the pesticide truck on bicycles, and we had no idea this was poisonous stuff that was being put into our lungs, our atmosphere. And yet at that time the pesticide industry came up with a doctor, he was on television, everybody watched him as he said that she was absolutely wrong. There was no substance to her allegations; that if people listened seriously to her, it would cause widespread disease and poverty all over the world.

□ 1500

And he said that the scientific evidence shows that there is no harm to these pesticides, these toxic chemicals. One might refer to that when we look at some of the other trailblazers who had the courage to speak up, despite those who too readily condemn them because they are making a profit from current conditions. Climate change, endocrine disruptions and the like. She had the kind of courage and intellect and goodness of spirit to change the world. I am very pleased that she is getting a little recognition from the Congress today.

Mr. ISSA. Madam Speaker, I yield myself such time as I may consume.

In closing, I think this is so appropriate that we consider today, at a time when we are looking at ever more vexing issues of the use of pesticides, the need for pesticides, the international conventions. I will be part of a group, House and Senate, that will be in Belgium this weekend where one of the major topics will be meeting with the Europeans on the next step in finding ways to limit or eliminate various pesticides, in addition to the constant effort to deal with ozone-depleting chemicals.

We are, today, as a result of her work, we are in fact smarter in the way we look at the chemicals that bring good things to life, as I think that we once said. We don't assume they are bad. We do test to make sure that what they do good for us is well measured against the side effects. That was a standard created as a result of Rachel Carson. We are honored to have had somebody who worked for the Federal Government, who published and who cared and who persevered throughout her entire life.

I join with the majority in urging the swift passage of this bill.

Madam Speaker, I yield back the balance of my time.

Mr. DAVIS of Illinois. Madam Speaker, to close, let me just thank the gentleman from Pennsylvania for introducing this legislation, and the gentleman from California for his eloquent statements in support of it.

And I sort of reflected, as I listened to Representative MORAN, that it is good to have all of the eloquence and all of the youth, but to have been there and be old enough to remember, I join with him because I remember DDT as I was growing up in rural America, and the utilization of it as people would spray their crops and use it to fight pesticides, but were endangering themselves. And there was a great deal of fear and consternation.

So again, I thank the gentleman from Pennsylvania for introducing this legislation. I urge its support.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. DAVIS) that the House suspend the rules and pass the bill, H.R. 1434.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. ISSA. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this question will be postponed.

EXPRESSING SENSE OF HOUSE WITH RESPECT TO RAISING AWARENESS AND ENCOURAGING PREVENTION OF SEXUAL ASSAULT

Mr. SCOTT of Virginia. Madam Speaker, I move to suspend the rules and agree to the resolution (H. Res. 289) expressing the sense of the House of Representatives with respect to raising awareness and encouraging prevention of sexual assault in the United States and supporting the goals and ideals of National Sexual Assault Awareness and Prevention Month.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 289

Whereas, on average, a person is sexually assaulted in the United States every two-and-a-half minutes;

Whereas the Department of Justice reports that 191,670 people in the United States were sexually assaulted in 2005;

Whereas 1 in 6 women and 1 in 33 men have been victims of rape or attempted rape;

Whereas children and young adults are most at risk, as 44 percent of sexual assault victims are under the age of 18, and 80 percent are under the age of 30;

Whereas sexual assault affects women, men, and children of all racial, social, religious, age, ethnic, and economic groups in the United States;

Whereas only 41 percent of sexual assault victims pursue prosecution by reporting their attack to law enforcement agencies;

Whereas two-thirds of sexual crimes are committed by persons who are not strangers to the victims;

Whereas sexual assault survivors suffer emotional scars long after the physical scars have healed;

Whereas prevention education programs carried out by rape crisis and women's health centers have the potential to reduce the prevalence of sexual assault in their communities;

Whereas because of recent advances in DNA technology, law enforcement agencies have the potential to identify the rapists in tens of thousands of unsolved rape cases;

Whereas aggressive prosecution can incarcerate rapists and therefore prevent them from committing further crimes;

Whereas free, confidential help is available to all survivors of sexual assault through the National Sexual Assault Hotline, more than 1,000 rape crisis centers across the United States, and other organizations that provide services to assist survivors of sexual assault;

Whereas the rate of sexual assaults has decreased by half in the last decade; and

Whereas April is recognized as "National Sexual Assault Awareness and Prevention Month": Now, therefore, be it

Resolved, That—

(1) it is the sense of the House of Representatives that—

(A) National Sexual Assault Awareness and Prevention Month provides a special opportunity to educate the people of the United States about sexual violence and to encourage the prevention of sexual assault, the improved treatment of its survivors, and the prosecution of its perpetrators;

(B) it is appropriate to properly acknowledge the more than 20,000,000 men and women who have survived sexual assault in the United States and salute the efforts of survivors, volunteers, and professionals who combat sexual assault;

(C) national and community organizations and private sector supporters should be recognized and applauded for their work in promoting awareness about sexual assault, providing information and treatment to its survivors, and increasing the number of successful prosecutions of its perpetrators;

(D) public safety, law enforcement, and health professionals should be recognized and applauded for their hard work and innovative strategies to increase the percentage of sexual assault cases that result in the prosecution and incarceration of the offenders;

(2) the House of Representatives strongly recommends national and community organizations, businesses in the private sector, colleges and universities, and the media to promote, through National Sexual Assault Awareness and Prevention Month, awareness of sexual violence and strategies to decrease the incidence of sexual assault; and

(3) the House of Representatives supports the goals and ideals of National Sexual Assault Awareness and Prevention Month.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Virginia (Mr. SCOTT) and the gentleman from West Virginia (Mrs. CAPITO) each will control 20 minutes.

The Chair recognizes the gentleman from Virginia.

GENERAL LEAVE

Mr. SCOTT of Virginia. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

There was no objection.

Mr. SCOTT of Virginia. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H. Res. 289 recognizes April as National Sexual Assault Awareness and Prevention Month. The purpose of National Sexual Assault Awareness and Prevention Month is to increase the public's awareness and understanding about sexual violence in our society in order to encourage and support prevention of sexual assault.

The United States has the highest rate of any country publishing such statistics. A person is sexually assaulted in the United States every 2½ minutes. The National Institute of Justice estimates that over 300,000 women and 90,000 men are forcibly raped each year in the United States; but according to the American Medical Association, these numbers are lower than national incidents of rape or attempted rape.

Approximately 17.7 million American women and 2.8 American men have been victims of rape or attempted rape at some point during their lives, according to the Bureau of Justice statistics. That equates to one in every six women and one in every 33 men. The National Center for Victims of Crime indicate that among women who have been raped, 39 percent have been raped more than once. Most victims are children or young adults. Some 44 percent of sexual assault victims are under the age of 18; 80 percent are under the age of 30.

There are no significant differences in the rate of sexual assault among racial and ethnic groups, as sexual assault affects all populations roughly equally, though its impact is felt disproportionately by those least able to protect themselves. For example, persons with disabilities are estimated to be one and a half to five times more at risk of sexual assault than the general population. Between one-third and two-thirds of known sexual assault victims are age 15 or younger, according to a 2000 study by Population Reports, and women age 16 to 25 are three times more likely to be raped than those of higher age groups, according to the Bureau of Justice statistics. Also, the studies indicate that those in extreme poverty are twice as likely to be victimized as other women.

Most sexual assaults are not committed by strangers. Studies show that 70 percent of victims know their attackers, and this contributes to the underreporting of sexual assault. At the same time, studies show that 90 percent of those who knew their attackers did not report the crime. The study also found that most sexual assaults occur in the victim's home or that of a friend, relative, or acquaintance.

The consequences of sexual assault for victims are enormous and go well beyond physical effects. One-third of victims suffer from post-traumatic stress disorder, according to the National Victims Center; one-third seriously consider suicide; 13 percent actually attempt suicide.

The roots of sexual assault violence are cultural. A 1991 study by the Jacqueline White and John Humphrey study found that 56 percent of high school girls and 76 percent of high school boys thought that forcible sex was acceptable under some circumstances. Some 51 percent of boys and 41 percent of girls thought that certain circumstances included when a boy "spent a lot of money on the girl." Thirty-one percent of boys and 32 percent of girls thought that forced sex was acceptable when women had had past sexual experiences. Eighty-seven percent of boys and 79 percent of girls thought it was acceptable when a man and woman were married. Sixty-five percent of boys, 47 percent of girls thought it acceptable if a boy and a girl had been dating for more than 6 months.

So, Madam Speaker, it is easy to see where there is need to focus much of our awareness and prevention efforts.

Sexual assault is a threat to the public health and public safety. It demands a coordinated response in the form of awareness, prevention, aggressive prosecution and service provision. The National Sexual Violence Resource Center, a project of the Pennsylvania Coalition Against Rape, estimates that there are 1,400 community crisis centers providing services to victims of sexual assault across the country. Such efforts have made a difference. Over the past decade, we have reduced the rate of rapes and attempted rapes by half. Yet at half, our highest level, we are still the highest rate of sexual assault in the world. So much more needs to be done to further address the scourge in our society.

So, Madam Speaker, as we observe National Sexual Assault Awareness and Prevention Month, it is our hope that a month of intensified awareness efforts combined with a broad spectrum of sexual violence prevention work throughout the year will bring us closer to ending and eradicating sexual assault in our society. Accordingly, I urge my colleagues to support the resolution.

Madam Speaker, I reserve the balance of my time.

Mrs. CAPITO. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in support of H. Res. 289, which is intended to raise awareness of the problem of sexual assault in the United States and encourage ways to prevent it.

The statistics outlined in the resolution speak for themselves and are noth-

ing less than horrific. A person is sexually assaulted in the United States every 2½ minutes. Children and young adults are the most at risk. Forty-four percent of sexual assault victims are under the age of 18.

The emotional and physical scars from sexual assaults exact a terrible toll on our loved ones, our families, our communities, and our country. In my view, we can and we must do better. We have made important strides in this battle. We have expanded the use of DNA to solve sexual assault crimes, reduced the backlog in the testing of rape cases, and solved more sexual assault crimes, and ensuring that those who commit these heinous offense are put behind bars.

Last year, we passed the Adam Walsh Act to protect our children from sexual predators. Over 100,000 sex offenders were lost or unaccounted for by the States. The Adam Walsh Act will fix that problem and make sure that sex offenders are registered, that the public is aware of sex offenders in their communities, and help parents protect their children.

In my home State of West Virginia, domestic violence complaints have increased 400 percent since 1989. More and more, victims are feeling empowered to approach law enforcement officers with these problems. Although we all would like to see an end to domestic violence, it is a good step that more and more victims are reporting the crimes committed against them, allowing the perpetrators to be tried for their crimes. We must continue to work with victims, helping them come forward with their complaints. This can often be a difficult task, especially when the person committing the crime is a spouse, companion or family member, which is sadly often the case.

Madam Speaker, this resolution recognizes the important role that awareness and prevention can play in reducing the incidence of sexual assault. The crime of sexual assault is so hurtful and so tragic, we must redouble our efforts and make sure that we use every tool at our disposal to protect everyone from this horrible crime. I urge my colleagues to support this resolution.

Madam Speaker, I reserve the balance of my time.

Mr. SCOTT of Virginia. Madam Speaker, I yield such time as he may consume to the author of the resolution, my distinguished colleague from Virginia (Mr. MORAN).

Mr. MORAN of Virginia. Madam Speaker, I thank my good friend from Virginia for yielding to me.

As the sponsor of this legislation, I also want to thank the Democratic leadership for bringing it to the floor, because, Madam Speaker, sexual violence is an epidemic in this country, it is a threat to our public health and our public safety that demands our attention. One in six women and one in 33

men in the United States will be sexually assaulted during their lifetime. This is the highest rate of any country publishing statistics on sexual assault. A woman is raped in this country every 2½ minutes. We must do more to stop that. Responding to sexual assault must start with prevention.

The roots of sexual violence are cultural. A study of American high school students found that the majority of girls and three-quarters of boys thought that forced sex was acceptable under some circumstances, including when a woman had had past sexual experiences or when a boy spent a lot of money on the girl. Statistics like this make it tragically unsurprising that 70 percent of assaults are perpetrated by someone that is known by the victim.

□ 1515

Fifty-five percent of rapes, the majority of rapes, occur in the home of the victim or a friend, relative or acquaintance.

We must begin with prevention, because the consequences of sexual violence are so severe and because it is a crime whose impact is felt disproportionately by those least able to protect themselves: the young, the disabled, the impoverished. In addition to suffering the physical effects of these terrible acts of violence, a third of victims suffer from posttraumatic stress disorder, a third seriously consider suicide, and 13 percent actually attempt it. While we hope and work for a day when sexual violence might be eradicated completely from our society, we must also deal with the consequences of these crimes, working to provide assistance to victims and aggressively prosecuting offenders.

National Sexual Assault Awareness and Prevention Month is dedicated to increasing the public's understanding about sexual violence in our society. This effort can help communities support rape and sexual assault survivors, victims and their families, as well as the individuals and agencies that provide rape crisis intervention and prevention services throughout the year.

More than 1,000 rape crisis centers nationwide educate their communities about the prevention of sexual violence and provide services to victims. In Virginia, for example, these centers serve approximately 3,000 victims of rape every year. In my district, the SARA Program at the Alexandria Office on Women supports survivors throughout their healing process, through hotline counseling and support groups and innovative programs like "Living Out Loud," a performing arts program for survivors of sexual violence looking to find new joy in life after recovering from rape or sexual assault. The person who founded that is an inspiration to everyone and brings back lives that have been so profoundly and adversely affected by this experience.

Madam Speaker, National Sexual Assault Awareness and Prevention Month is a chance for us to pause and consider the enormity of the impact of these crimes on our society and the status of our efforts to end it. I commend these public health, social services, and law enforcement professionals working in our communities to respond to sexual violence and those educators and advocates working to prevent it, and I encourage my colleagues to stand with us in rededicating ourselves to efforts to end these crimes on our streets, in our schools and in our lives.

Mrs. CAPITO. Madam Speaker, I would like to close with a strong statement that this resolution recognizes the important role of awareness in prevention of sexual assault in this country. It is a scourge on our Nation, it is a scourge on our young people, our women and other victims, and I urge all Members to join together to pass this resolution.

Madam Speaker, I yield back the balance of my time.

Mr. SCOTT of Virginia. Madam Speaker, I yield myself such time as I may consume just to thank my colleague from Virginia for introducing the resolution and to urge my colleagues to support the resolution.

Mr. MOORE of Kansas. Madam Speaker, I rise today in support of H. Res. 289, to raise awareness and encourage prevention of sexual assault in the United States and support the goals and ideals of National Sexual Assault Awareness and Prevention Month.

Violence against women—rape, sexual assault and domestic violence—affects women worldwide. Violence not only affects women in the home, but in the workplace, school and every arena of life. Having served as Johnson County District Attorney for 12 years, I know first hand the devastating consequences of domestic and sexual violence, assault, rape and child abuse and incest. Those experiences encouraged me to become a cofounder of SAFEHOME, a local shelter for survivors of sexual assault and domestic violence, and highlighted the importance of public awareness, effective prevention policies and law enforcement working hand in hand to stop these horrific crimes.

Sexual assault is an epidemic that knows no boundaries on the basis of age, socioeconomic status, race, religion, nationality or educational background. My home State of Kansas is no exception. In 2005, the Kansas Bureau of Investigation reported over 1,000 reported incidents of rape. And that number cannot possibly reflect the harsh reality of how many incidents occurred but were not reported. The tragedy of injustice exacerbates the victimization.

A person is sexually assaulted in the United States every two-and-a-half minutes; 1 in 6 women and 1 in 33 men have been victims of rape or attempted rape.

Sexual Assault Awareness Month is essential to bring attention to this problem, educate the public, and help protect survivors from future victimization and prevent the continuation of the cycle of violence from generation to

generation. Protecting and helping survivors, as well as creating an environment where survivors can seek justice, is the key to removing sex offenders from public, so that they do not have the opportunity to assault again.

I urge my colleagues to support H. Res. 289, in support of the goals and ideals of National Sexual Assault Awareness and Prevention Month, to support programs to help survivors heal and prevent incidents in the future.

Mrs. MALONEY of New York. Madam Speaker, I rise today in strong support of H. Res. 289, which expresses the "sense of the House of Representatives with respect to raising awareness and encouraging prevention of sexual assault in the United States and supporting the goals and ideals of National Sexual Assault Awareness and Prevention Month.

I was the lead Democratic sponsor of the original legislation, introduced by former Representative Mark Green and signed into law in 2003, that designated April as National Sexual Assault Awareness and Prevention Month.

While we are taking the time today to highlight this important issue, it is important that we remember that preventing sexual assault should be a top priority during each month of the year. We must also remember that violence against women is not just a women's issue, it is a men's issue, too.

Every 2½ minutes, someone in the United States is sexually assaulted. I have long been a champion of increased efforts to prevent violence against women and in 2004, legislation that I first introduced, "The Debbie Smith Act," was signed into law. Through this landmark act, we have the ability to protect our daughters, our sisters, and our friends by putting rapists behind bars through DNA evidence. We know that DNA evidence is better than a fresh set of fingerprints. And we know that it is often better than eyewitness testimony. With "The Debbie Smith Act," the hundreds of thousands of rape kits that were gathering dust across the country are finally being processed.

It is vitally important that we support the Violence Against Women Act by fully funding the important programs that will help women escape abusive and dangerous situations and begin new lives that are free from violence and fear. The organizations, shelters, and counseling centers that are on the front lines of this problem need our steadfast commitment that they will have the resources to continue their important work.

I urge my colleagues to support this legislation.

Mr. SCOTT of Virginia. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Virginia (Mr. SCOTT) that the House suspend the rules and agree to the resolution, H. Res. 289.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Mr. SCOTT of Virginia. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this question will be postponed.

SUPPORTING THE MISSION AND GOALS OF NATIONAL CRIME VICTIMS' RIGHTS WEEK

Mr. SCOTT of Virginia. Madam Speaker, I move to suspend the rules and agree to the resolution (H. Res. 119) supporting the mission and goals of National Crime Victims' Rights Week in order to increase public awareness of the rights, needs, and concerns of victims and survivors of crime in the United States during such week and throughout the year.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 119

Whereas currently in the United States, there are millions of victims and survivors of crime whose physical, financial, emotional, and spiritual needs are entitled to the attention and support of individuals and communities across the United States;

Whereas the collaborative efforts of criminal and juvenile justice professionals, victim service providers, public policy makers, allied professionals, and the Office for Victims of Crime and the Office on Violence Against Women within the Department of Justice have helped enhance public safety and victim awareness in various communities of all sizes across the United States;

Whereas since 1984, the Victims of Crime Act (VOCA) has collected \$8 billion in fines, fees, and assessments on individuals convicted of Federal crimes to support crime victim compensation and victim assistance programs nationwide;

Whereas there are over 10,000 system-based and community-based victim assistance programs that provide greatly needed interventions, support, and justice system advocacy to crime victims and survivors, including 4,400 programs that receive VOCA funding;

Whereas the theme of the 2007 National Crime Victims' Rights Week, called "Victims' Rights: Every Victim, Every Time", recognizes that all victims and survivors of crimes deserve to have victims' rights and access to victims' services, and recognizes the ongoing efforts of countless victim service providers, justice professionals, and allied professionals and volunteers who selflessly dedicate their lives to helping victims and survivors of crimes to exercise their victims rights and access important victim services;

Whereas, in 2007, the week of April 22 through April 28, is dedicated as the national observance during which crime victims' and survivors' rights, needs, and services will be recognized; and

Whereas during the 2007 National Crime Victims' Rights Week, the Congressional Victim's Rights Caucus will honor a victim or survivor of crime, a victim service provider, and an allied professional and innovators in public policy development whose efforts on behalf of crime victims and survivors are visionary and exemplary: Now, therefore, be it

Resolved, That the House of Representa-

(1) supports the mission and goals of the 2007 National Crime Victims' Rights Week in order to increase public awareness of the impact of crime on victims and survivors of crime, and of the rights and needs of such victims and survivors; and

(2) directs the Clerk of the House of Representatives to transmit an enrolled copy of this resolution to the Office for Victims of Crime in the Department of Justice.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Virginia (Mr. SCOTT) and the gentlewoman from West Virginia (Mrs. CAPITO) each will control 20 minutes.

The Chair recognizes the gentleman from Virginia.

GENERAL LEAVE

Mr. SCOTT of Virginia. Madam Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

There was no objection.

Mr. SCOTT of Virginia. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, H. Res. 119 recognizes this week as National Crime Victims' Rights Week in order to increase public awareness of the rights, needs, and concerns of victims and survivors of crime in the United States during this week and throughout the year. Obviously, we are very attuned to victims this week as we mourn the tragic deaths and injuries of the Virginia Tech shootings last week, though this resolution was scheduled for victims generally, without any reference to specific victims.

In 2003, the last year for which we have compiled figures, there were 24.2 million criminal victimizations of people over the age of 12 in the United States. Of those, 5.4 million were violent victimizations and 18.6 were property victimizations. Unfortunately, there were many more crimes than those figures suggest. It is estimated that only 48 percent of violent crimes and only 38 percent of property crimes are reported to police in each year.

We talked about the large group of victims in the resolution preceding this one involving sexual assault victims. Clearly we want to be aware of the need of victims of all crimes and do whatever we can, not only to address victimizations that occur but also to prevent the crimes occurring in the first place. Supporting the mission and goals of the National Crime Victims' Rights Week will increase the public awareness of the rights, needs, and concerns of victims and survivors of crime, and I urge my colleagues to support this resolution.

Madam Speaker, I reserve the balance of my time.

Mrs. CAPITO. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in support of H. Res. 119, honoring National Crime Victims' Rights Week. This resolution supports the missions and goals of National Crime Victims' Rights Week to increase public awareness of the rights, needs, and concerns of crime victims in the United States during this week and throughout the year.

The theme of the 2007 National Crime Victims' Rights Week is "Victims Rights: Every Victim, Every Time." In honor of every victim, we renew our commitment to protecting the rights of crime victims and to providing them effective assistance programs. We also commend the countless numbers of professionals and volunteers who dedicate their lives to helping victims and survivors of crime.

This week is marked by many special events held across the Nation, including the national observance and candlelight ceremony held here in Washington, DC, a 5K run/walk and Victims' Rights Fair in Sierra Vista, Arizona, a Crime Victims' Rights Rally in Harrisburg, Pennsylvania, and many more.

While these events provide excellent opportunities to focus on victims rights, this is an issue that requires our utmost attention year-round. That is why it is encouraging that there are over 10,000 victims assistance programs providing emotional, financial, physical and spiritual support every day.

As the gentleman from Virginia said, a week honoring the victims and survivors of crime is especially poignant following last week's tragedy at Virginia Tech. The loss of innocent lives affects so many others who are left behind. The outpouring of prayers and condolences reminds us that victims and survivors of crime will not be forgotten and will continue to receive much needed community support.

I urge my colleagues to support this resolution.

Madam Speaker, I reserve the balance of my time.

Mr. SCOTT of Virginia. Madam Speaker, I yield such time as he may consume to the gentleman from California (Mr. COSTA), the author of this resolution.

Mr. COSTA. I thank the gentleman for yielding.

Madam Speaker, as a cochairman of the Congressional Victims' Rights Caucus, along with Congressman TED POE, we rise today in support of House Resolution 119, the 2007 National Crime Victims' Rights Week resolution, expressing the sense of Congress' support for Victims' Rights Week and the efforts to increase public awareness in the United States and throughout the country with everything that is occurring, as my colleagues have indicated.

I also want to thank the chairman of the Judiciary Committee and Congressman SCOTT for their leadership on victims issues and for helping bring this bill to the floor today, as well as the gentlewoman from West Virginia.

Allow me to begin by sending our thoughts and prayers to those victims, the wounded, the friends and the families who were touched by the tragedy at Virginia Tech last week. We as Members of Congress and throughout the country are wearing these ribbons symbolic to remind all of us that in our Nation, and in the world, crime knows no boundaries.

Victims of crimes are sons and daughters, brothers and sisters, parents, neighbors and friends. They are those who are struggling to survive the aftermath of crime, and therefore they deserve our support. They deserve the services to help them cope.

When I came to Washington 3 years ago, I discovered that there was a void in the leadership on victims issues, so together with my colleague, Congressman TED POE, we developed the bipartisan voice for victims in Congress, the Congressional Victims' Rights Caucus, which we together cochair. For Members and staff who are listening today, we welcome your participation in this Crime Victims' Caucus.

On behalf of the caucus, we have introduced this legislation to recognize the fact that, as most Americans know all too well, crime knows no country, no geographic, no demographic, and no political boundary, and it touches all of our communities, unfortunately.

This resolution before you provides support for Victims Rights Week and the Crime Victims Fund, which are two legacies of a former President of ours, President Ronald Reagan. Let me give you some of the history of how the Crime Victims Fund started.

First of all in 1980, President Reagan, with bipartisan support in Congress, called for a national observance to recognize and honor victims of crimes and their families and survivors. The Democratic majority in the Congress back in the 1980s supported that effort. This week also pays tribute to the thousands of community service providers, those providers throughout our country, that give critical support to victims every week of the year. Victims Rights Weeks have been observed annually, therefore, across the Nation since 1980.

But the Congress and President Reagan at the time's commitment to rights of victims led to the passage of what then became known as the Victims of Crime Act, which in 1984 created a Crime Victims Fund. The concept behind the fund is smart and it is simple: We take fines levied on criminals and distribute that money to the victim services providers, those which we talked about. The concept behind that effort is that it is not taxpayers' dollars, it is money that comes from those fines levied on criminals, and they distribute the money to those care providers throughout the Nation. Therefore, let me emphasize, this is not taxpayers' dollars.

Yet, for the third year in a row, this administration is trying to take that money meant for victims and to put it in the abyss of our current efforts to balance the general fund. I might support that if in fact these were taxpayers' dollars, but they are not. These are criminals' dollars that are levied for their criminal act. It is simply wrong.

For the last 2 years, the Crime Victims Caucus led the effort to protect that fund, and we are doing so again this year. As long as I am in Congress, I will continue to fight any effort that would effectively deny services to those victims.

Let me tell you what the Crime Victims Fund has done over the years. It has dedicated more than \$8 billion annually and supported more than 4,400 victim assistance programs throughout the country that has benefited over 3.8 million. It helps get beds in domestic violence shelters, it helps ensure that rape victims receive proper counseling, and, sadly, sometimes it even has to go to help families pay for funeral expenses.

This fund, therefore, plays a critical role in all of our communities throughout the country. Several groups which I am proud to represent in my own district include but are not limited to the Marjorie Mason Center in Fresno, the Kern, Fresno and Kings County Probation Departments, Clinica Sierra Vista, the Rape Counseling Service of Fresno and the Comprehensive Youth Service.

Our caucus is committed to ensuring that this fund is used for what President Reagan intended: to help victims who truly need and deserve their assistance and to hold offenders accountable, as the Congress intended to do in 1984.

In 2007, the National Crime Victims' Rights Week theme is "Victims Rights: Every Victim, Every Time."

□ 1530

This week from April 22 through April 28, observances are taking place throughout the country in thousands of communities, as indicated by my colleagues.

Unfortunately, last year the FBI Uniform Crime Reports found that crime again is on the rise. Violent crime rose by 3.7 percent. Murders increased by 1.4 percent, and robberies were up by 10 percent. This means that victims suffered the indignation of crime and have significant losses that affect them physically, emotionally, and financially. Our caucus and our Congress must recommit our energies to ensure that "every victim of every crime" has access to support and services.

Therefore, we must talk to the millions of Americans who are victimized each year. We must recall that every violent crime has a victim and every victim has a story. We know about the teenage girl who leaves home for the

first time to go to college, to be impacted by a rape; or the young mother who is beaten by her husband on a regular basis but fears leaving him because he has threatened to kill her kids and she has no money and no place to go. Every victim, every time.

Therefore, we must do everything we can. The 22 leading national organizations have come out in official support of the Victims' Rights Week resolution including the National Network to End Domestic Violence, Rape, Abuse, and Incest National Network, Justice Solutions, National District Attorneys Association, National Children's Alliance, National Coalition against Domestic Violence, the National Alliance to End Sexual Violence, Mothers Against Drunk Driving, and the National Center for Victims of crime. I include the full list for the RECORD.

VICTIMS ORGANIZATIONS OFFICIAL SUPPORT
FOR H. RES. 119

Organization: Justice Solutions; National Association of VOCA Assistance Administrators; National Organization of Parents of Murdered Children; American Probation and Parole Association; National Crime Victims Research and Treatment Center; the National Judicial College; American Society of Victimology; National Center for Victims of Crime; National Alliance To End Sexual Violence; National Organization for Victim Assistance; Stop Family Violence; Mothers Against Drunk Driving; The National Coalition of Victims in Action; National Association of Crime Victim Compensation Boards; National Coalition Against Domestic Violence; National Network To End Domestic Violence; National District Attorneys Association; Jewish Women International; National Children's Alliance; Louisiana Department of Public Safety and Corrections; Rape, Abuse & Incest National Network; Security on Campus, Inc.

Let me close by recognizing one victim advocate in particular for her valuable contribution in this field throughout the country, and her friendship and support of crime victims, Anne Seymour. She helped Congressman TED POE and I organize the Crime Victims Caucus 2½ years ago. People like Anne and all the organizations I mentioned are where the rubber meets the road. They are the direct providers, meeting the needs of victims every day. They truly are the unsung heroes, and this resolution honors their efforts.

The Congressional Victims Crimes Caucus is committed to working with victims, service providers, and advocates to ensure that from the courtroom to the U.S. Capitol, the voices of crime victims are heard. I urge my colleagues to join me in passing this significant resolution.

Mrs. CAPITO. Madam Speaker, I yield such time as he may consume to the gentleman from Ohio (Mr. CHABOT), who is a champion of crime victims rights and a member of the Judiciary Committee.

Mr. CHABOT. Madam Speaker, I rise in strong support of this important resolution.

The recognition of National Crime Victims' Rights Week continues the legacy of an individual who committed himself to elevating the status of crime victims in this country. Among the many contributions made during his Presidency, President Ronald Reagan's leadership and vision in advancing the cause of crime victims is immeasurable. Recognition of National Crime Victims' Week reflects just one of a number of accomplishments which also include national days of observance, creating the Office of Victims of Crime, and establishing the Task Force on Victims of Crime.

Too often, victims of crime are made to be victims a second time, this time as a result of our criminal justice system, the very system designed to protect them. In 2004, 20 years after Congress enacted the Victims of Crime Act which authorized the Victims Assistance Fund, Congress enacted the Justice for All Act. This was another important victory for crime victims, as it extended a number of enforceable rights to crime victims, including the right to reasonably be heard at any public proceeding involving release, or plea or sentencing, the right to file a motion to reopen a plea, or a sentence in certain circumstances, and most importantly, the right to be treated with dignity and fairness and respect.

However, the enactment of these rights is just one of a number of important changes that needs to occur to ensure that our Nation's criminal justice system is just for both offenders and for the victims of those crimes.

Continued recognition and support of National Crime Victims' Week serves many purposes, including to remind us of what victims have suffered, to thank those individuals and organizations who have selflessly dedicated themselves to assisting victims, and to urge us all to rededicate ourselves to continue President Reagan's vision and leadership in advancing the cause of victims of crime.

And I also want to note that for a number of years a number of us have worked very hard to pass a victims' right constitutional amendment. Now, we ought not to amend the Constitution unless it is absolutely necessary. And I think this is one incident in which it is necessary because the criminals, the defendants, their rights are contained within the Constitution itself. The right to a trial, for example. The right to have witnesses called on their behalf, the right not to have to self-incriminate all are within the Constitution. However, the victims, not a word in the Constitution.

There are laws that have been passed, such as the law which gives a victim the right to be heard at a sentencing hearing or have family members heard at a sentencing hearing, but those are statutes. Oftentimes what happens is they come into conflict, and a judge

will have to make a decision because they may be in conflict with each other.

The defendant has his or her rights within the Constitution. They are up here. The victim, their rights down here are statutory. And when it comes to deciding which one is going to prevail, the Constitution will trump that statute every time. Therefore, the crime, the one who committed the crime, the defendant, the criminal, their rights are held higher than the victims. That is just not right.

That is why Henry Hyde, when he was a Member of Congress, had introduced this some years ago, and about 5 years ago I took that up, took up the mantle for Henry to continue to push this way, and we have made progress. We have made progress in the law; but thus far, it is still not within the Constitution and it ought to be.

I want to thank the gentlewoman and Mr. SCOTT also for pushing for this particular resolution this week. I urge my colleagues to support this resolution and to support all victims of crime all across the country.

Mrs. CAPITO. Madam Speaker, I have no further speakers and urge passage of this important legislation. As has been said by all of the other speakers, victims' rights is a very important issue and we don't want to forget those who have been victimized by crimes across the Nation.

Madam Speaker, I yield back the balance of my time.

Mr. SCOTT of Virginia. Madam Speaker, I yield myself such time as I may consume.

I thank the gentleman from California for introducing this resolution, and I urge my colleagues to support it.

Mr. YARMUTH. Madam Speaker, I rise in strong support of National Crime Victims' Rights Week, an opportunity to reflect on the need for victims to be treated fairly, commemorate the progress we've made, and acknowledge the work that remains before us. This is a week in which we rededicate ourselves to the challenges that lie ahead in the fight for critical rights for victims of all crimes.

I recently had the opportunity to meet Pat Byron, a woman from my home town of Louisville, Kentucky. Pat's daughter Mary was raped and beaten by her ex-boyfriend as a teenager. He was released from prison without Mary's knowledge, and tracked down the unsuspecting young woman in a parking lot; murdering her on her 21st birthday.

Because of the courage of Pat Byron and the leadership in Louisville, in 1994, the community pioneered VINE, Victim Information and Notification Everyday. VINE could have saved Mary's life, and for the last 13 years, it has saved many like her. This technology is now available in more than 2,000 communities in 41 states and guarantees a victim's right to notification and information.

Today, one week after the most brutal shooting in American history I urge my colleagues to join me and my community in standing up for victims, not only by commemo-

rating National Crime Victims' Rights Week, but in taking steps like automated crime victim notification to ensure that victims' rights are protected.

Mr. SCOTT of Virginia. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Virginia (Mr. SCOTT) that the House suspend the rules and agree to the resolution, H. Res. 119.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. SCOTT of Virginia. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this question will be postponed.

GERALD W. HEANEY FEDERAL BUILDING AND UNITED STATES COURTHOUSE AND CUSTOMHOUSE

Mr. MICHAUD. Madam Speaker, I move to suspend the rules and pass the Senate bill (S. 521) to designate the Federal building and United States courthouse and customhouse located at 515 West First Street in Duluth, Minnesota, as the "Gerald W. Heaney Federal Building and United States Courthouse and Customhouse".

The Clerk read the title of the Senate bill.

The text of the Senate bill is as follows:

S. 521

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION.

The Federal building and United States courthouse and customhouse located at 515 West First Street in Duluth, Minnesota, shall be known and designated as the "Gerald W. Heaney Federal Building and United States Courthouse and Customhouse".

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the Federal building and United States courthouse and customhouse referred to in section 1 shall be deemed to be a reference to the "Gerald W. Heaney Federal Building and United States Courthouse and Customhouse".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Maine (Mr. MICHAUD) and the gentlewoman from West Virginia (Mrs. CAPITO) each will control 20 minutes.

The Chair recognizes the gentleman from Maine.

GENERAL LEAVE

Mr. MICHAUD. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within

which to revise and extend their remarks and to include extraneous material on S. 521.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maine?

There was no objection.

Mr. MICHAUD. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, S. 521 is a bill to designate the Federal building and United States courthouse located at 515 West First Street in Duluth, Minnesota, as Judge Gerald W. Heaney Federal Building and United States Courthouse and Customhouse.

Gerald Heaney was appointed judge of the United States Court of Appeals for the Eighth Circuit on November 3, 1966. He took senior status on December 31, 1988, and retired on August 31, 2006, after over 40 years of distinguished service to his country and the citizens of Minnesota. I rise in strong support of this bill.

Judge Heaney was born on January 29, 1918, in Goodhue, a rural community in the southeastern part of Minnesota. As a child growing up in a farming community, Judge Heaney learned the value of a close family, honesty, and hard work. These qualities have marked not only his personal life but also his life as a public servant.

He was educated at the College of St. Thomas in St. Paul and received his law degree from the University of Minnesota in 1941.

Gerald Heaney is a decorated World War II veteran and was a member of the distinguished Army Ranger Battalion and participated in the historic D-Day landing at Normandy. He was awarded the Silver Star for extraordinary bravery in the Battle of La Pointe du Hoc in Normandy. He also received a Bronze Star and five battle stars. At the end of the war, Judge Heaney returned home and entered private practice in Duluth. During this time, he was instrumental in improving the State's education system, and served on the board of regents for the University of Minnesota.

He was instrumental in helping develop for the Duluth school system the same pay scale for both men and women. In 1966, he was appointed by President Johnson to the Eighth Circuit Court of Appeals. In that capacity, he has been a champion in protecting the rights of the disadvantaged. He was devoted to making sure that every person had an equal opportunity for an education, a job, and a home.

He firmly believes the poor and the less educated and the less advantaged deserve the protection of the Constitution. As a hardworking, well-prepared and fair-minded jurist, he left his legal stamp on school desegregation cases, bankruptcy laws, prison treatment, and Social Security law. His public service is marked by industry, bril-

liance, and scholarly excellence. His compassion and dedication to those most disadvantaged is unparalleled.

Judge Heaney is most deserving of this honor. I ask my colleagues to join me in supporting this bill.

Madam Speaker, I reserve the balance of my time.

Mrs. CAPITO. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, S. 521 is a companion bill to H.R. 187 which was introduced by the gentleman from Minnesota (Mr. OBERSTAR). This bill designates the Federal building and United States courthouse and customhouse at 515 West First Street in Duluth, Minnesota, as the Gerald W. Heaney Federal Building and United States Courthouse and Customhouse. The bill honors Judge Heaney's dedication to public service.

As we have heard previously, after serving in the Army during World War II and acquiring a law degree from the University of Minnesota Law School, Judge Gerald Heaney entered into the private practice of law from 1946 to 1966. Judge Heaney's career as a judge began in 1966 with an appointment to the U.S. Court of Appeals for the Eighth Circuit by President Lyndon Johnson.

Judge Heaney had a reputation for championing equal justice for underprivileged and vulnerable citizens. He retired after 40 years of service on August 31, 2006.

I support this legislation and encourage my colleagues to do the same.

Madam Speaker, I yield back the balance of my time.

Mr. MICHAUD. Madam Speaker, I have no further speakers, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Maine (Mr. MICHAUD) that the House suspend the rules and pass the Senate bill, S. 521.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

□ 1545

RESIGNATION AS MEMBER OF PERMANENT SELECT COMMITTEE ON INTELLIGENCE

The SPEAKER pro tempore laid before the House the following resignation as a member of the Permanent Select Committee on Intelligence:

HOUSE OF REPRESENTATIVES,

April 20, 2007.

Hon. NANCY PELOSI,

Speaker of the House, Washington, DC.

DEAR MADAM SPEAKER: It is my desire to resign from the House Select Committee on Intelligence immediately. I look forward to returning to the committee soon.

Thank you.

Sincerely,

RICK RENZI,
U.S. Congressman,
First District of Arizona.

The SPEAKER pro tempore. Without objection, the resignation is accepted.

There was no objection.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 6:30 p.m. today.

Accordingly (at 3 o'clock and 46 minutes p.m.), the House stood in recess until approximately 6:30 p.m.

□ 1830

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Ms. CLARKE) at 6 o'clock and 30 minutes p.m.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 362, 10,000 TEACHERS, 10 MILLION MINDS SCIENCE AND MATH SCHOLARSHIP ACT

Mr. WELCH of Vermont, from the Committee on Rules, submitted a privileged report (Rept. No. 110-105) on the resolution (H. Res. 327) providing for consideration of the bill (H.R. 362) to authorize science scholarships for educating mathematics and science teachers, and for other purposes, which was referred to the House Calendar and ordered to be printed.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed. Votes will be taken in the following order:

H. Res. 179, by the yeas and nays;

H.R. 1434, by the yeas and nays;

H.R. 1402, by the yeas and nays.

Votes on H. Res. 289 and H. Res. 119 will be taken tomorrow.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

NATIONAL FOSTER PARENTS DAY

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and agree to the resolution, H. Res. 179, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by

the gentleman from Illinois (Mr. DAVIS) that the House suspend the rules and agree to the resolution.

The vote was taken by electronic device, and there were—yeas 390, nays 0, not voting 42, as follows:

family on Sunday after a battle with cancer.

JUANITA holds a special place in history. She is the first African American woman to chair a full committee in the United States House. She also worked tirelessly against genocide, human trafficking, and she worked for women's rights. Prior to coming to Congress, she exemplified a leadership role as a teacher, city council member, and California State Assemblywoman.

She was only 68 years young, a vibrant Member of Congress, and a good friend. Our sympathy goes to her husband James, five adult children, and five grandchildren.

Madam Speaker, I ask for a moment of silence to honor her at this time.

ANNOUNCEMENT BY THE SPEAKER
PRO TEMPORE

The SPEAKER pro tempore. Under clause 5(d) of rule XX, the Chair announces to the House that, in light of the passing of the gentlewoman from California (Ms. MILLENDER-MCDONALD), the whole number of the House is 433.

Without objection, 5-minute voting will continue.

There was no objection.

RACHEL CARSON POST OFFICE

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 1434, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. DAVIS) that the House suspend the rules and pass the bill, H.R. 1434.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 334, nays 53, answered “present” 3, not voting 42, as follows:

[Roll No. 246]
YEAS—334

Mr. BROWN of South Carolina changed his vote from “nay” to “yea.” So (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

□ 1859

MOMENT OF SILENCE OBSERVED
IN MEMORY OF THE LATE HONORABLE
JUANITA MILLENDER-MCDONALD

(Mr. STARK asked and was given permission to address the House for 1 minute.)

Mr. STARK. Madam Speaker, it is with great sorrow that I rise to announce the death of our friend and colleague, JUANITA MILLENDER-MCDONALD of California. She died, we are informed, peacefully at home with her

□ 1912

Mr. HAYES changed his vote from "nay" to "yea."

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

SERGEANT DENNIS J. FLANAGAN
LECANTO POST OFFICE BUILDING

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 1402, on which the yeas and nays were ordered.

The Clerk read the title of the bill.
The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. DAVIS) that the House suspend the rules and pass the bill, H.R. 1402.

This will be a 5-minute vote.
The vote was taken by electronic device, and there were—yeas 386, nays 0, not voting 46, as follows:

[Roll No. 247]

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members are advised 2 minutes remain in this vote.

□ 1920

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. SHAYS. Madam Speaker, on April 23, 2007, I was in Connecticut to meet with constituents and, therefore, missed 3 recorded votes.

I take my voting responsibility very seriously. Had I been present, I would have voted "yes" on recorded vote number 245; "yes" on recorded vote 246; and "yes" on recorded vote 247.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 1964

Mr. NADLER. Madam Speaker, I ask unanimous consent in the name of Mr. JON PORTER of Nevada that Mr. PORTER be removed as a cosponsor of H.R. 1964. Mr. PORTER was listed as a cosponsor of H.R. 1964 due to a clerical error.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 65

Mr. COLE of Oklahoma. Madam Speaker, I ask unanimous consent to remove my name as a cosponsor from H.R. 65.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

EXPRESSING SORROW OF THE HOUSE AT THE DEATH OF THE HONORABLE JUANITA MILLENDER-MCDONALD, MEMBER OF CONGRESS FROM THE STATE OF CALIFORNIA

Ms. WATSON. Madam Speaker, I offer a privileged resolution (H. Res. 328) and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 328

Resolved, That the House has heard with profound sorrow of the death of the Honorable Juanita Millender-McDonald, a Representative from the State of California.

Resolved, That a committee of such Members of the House as the Speaker may designate, together with such Members of the Senate as may be joined, be appointed to attend the funeral.

Resolved, That the Sergeant-at-Arms of the House be authorized and directed to take such steps as may be necessary for carrying out the provisions of these resolutions and that the necessary expenses in connection therewith be paid out of applicable accounts of the House.

Resolved, That the Clerk communicate these resolutions to the Senate and transmit a copy thereof to the family of the deceased.

Resolved, That when the House adjourns today, it adjourn as a further mark of respect to the memory of the deceased.

The SPEAKER pro tempore. The gentlewoman from California is recognized for 1 hour.

Ms. WATSON. Madam Speaker, I yield 30 minutes to the gentleman from California (Mr. DREIER), pending which I yield myself such time as I may consume.

Madam Speaker, I now yield 1 minute to our most distinguished Speaker, Speaker NANCY PELOSI.

Ms. PELOSI. Madam Speaker, I thank our dear friend, Congresswoman WATSON, for bringing us together around this very sad and necessary resolution today.

On behalf of all Members of Congress, I rise to pay tribute to Chairwoman JUANITA MILLENDER-MCDONALD, who passed away Saturday night. I offer deepest sympathy to her family, who loved her so dearly, her husband James McDonald, Jr., her five children and her five grandchildren.

As the first African American to chair a committee in Congress, JUANITA MILLENDER-MCDONALD was a trailblazer, always advocating for the full participation of all Americans in the success and prosperity of our country. She was a strong defender of the right of every eligible voter to have full access to the polls and a tireless proponent of fair elections that ensured that every vote would be counted.

As chair of the House Administration Committee, Chairwoman MILLENDER-MCDONALD's deep commitment to diversity was manifested in her actions

when hiring and contracting within the House of Representatives. She enjoyed her role as the "Mayor of Capitol Hill," and was known for asking tourists in elevators, "Are you finding everything okay," and listening closely to their response.

After her family, the people of California's 37th District were always first and foremost in Chairwoman MILLENDER-MCDONALD's mind and her work here in Congress. She saw it as a priority to make sure they had every opportunity. She worked to strengthen the economy and jobs there, and she saw it as a priority to secure the two ports adjacent to her district.

Chairwoman MILLENDER-MCDONALD was an advocate for justice around the world. She spoke out forcefully against the genocide in Darfur, and was a powerful advocate for the rights of women everywhere. As a former cochairwoman of the Congressional Caucus for Women's Issues, she worked for gender equity here at home and throughout the world.

The loss of Chairwoman JUANITA MILLENDER-MCDONALD is a personal one for many of us here. She was always optimistic and determined to make a difference. The dignity with which she faced her illness was an indication of the determination with which she always served the people of our country.

We have all lost an effective leader and spokesperson, and many of us have lost a dear friend. When we look around this Chamber, it is almost impossible to imagine it without JUANITA here fighting the fight, and doing so looking magnificent. The dignity, the grace, the beauty, the thoughtfulness that she brought to the tasks at hand were a model for others. Young people would come to the Capitol and observe her in action and learn from her.

We also learned from her how to have dignity at the end of life. Many of us knew that she had had bouts with illness, but we really didn't know how serious it was and how close she was to, as she said, her daughter told me, going home. Valerie said to me last night, "She said I want to make all of these arrangements so that I can go home."

I hope it is a comfort to Chairwoman JUANITA MILLENDER-MCDONALD's family and friends that so many people mourn their loss and are praying for them at this sad time. Many of us will travel to California to say good-bye to JUANITA, if I may speak to her in that familiar way. It has been an honor to call her colleague. I know we all agree on that, and for many of us it was a privilege also to call her friend.

Good-bye, my friend.

Mr. DREIER. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, let me begin by expressing my appreciation to both of my California colleagues, Ms. WATSON and

Speaker PELOSI, for their very thoughtful words, and, obviously I would, as all of my colleagues I know want to do, would associate ourselves with the very, very thoughtful remarks offered by Speaker PELOSI.

Madam Speaker, this is a very sad time for me personally, for a number of reasons. JUANITA MILLENDER-MCDONALD was my friend and my neighbor. And she was my neighbor not only in California representing an adjoining congressional district, but my neighbor right here on Capitol Hill. We were next-door neighbors. So, Madam Speaker, I have to say that I had the privilege of spending a great deal of time with JUANITA.

As Speaker PELOSI said in her statement that she released yesterday, JUANITA MILLENDER-MCDONALD truly was a trailblazer. She was an individual who showed amazing commitment throughout her entire life to her beliefs, and I was very happy that she as a Democrat and I as a Republican were able to work together and find areas of agreement.

I have to say one of the biggest challenges that we face in Southern California, I know my California colleague Ms. WATSON understands this very well, is the area of transportation. The gridlock challenge, as is the case with many metropolitan areas around the country, is particularly bad in the Los Angeles area. JUANITA MILLENDER-MCDONALD served on the Transportation and Infrastructure Committee and worked tirelessly to try and focus on those challenges, the difficulties that we faced.

There was one particular project that I was pleased to work with JUANITA on, and that was something known as the Alameda Corridor Project.

□ 1930

A huge percentage of all of the goods going to and from the United States, exports and imports, come through the ports of Long Beach and Los Angeles. JUANITA represented large parts of Long Beach, and she understood the importance of international trade. So she was one of those in the vanguard in the quest to deal with construction of the Alameda corridor which allowed those goods to move from the ports of Long Beach and Los Angeles to the rest of the United States and, similarly, goods exported from America. I am very happy to see the distinguished Chair of the Transportation Committee, Mr. OBERSTAR, nodding in agreement. He knows how important this issue is, and he worked very closely with JUANITA MILLENDER-MCDONALD and all of us who have been involved on that issue. I know she championed it with great enthusiasm.

I also would like to say she was a very proud alumna of the University of Redlands. She went to the University of Redlands at age 40 and got her de-

gree from the University of Redlands. One of the reasons I am proud to point to that is the distinguished former chairman, now ranking member of the Committee on Appropriations, Mr. LEWIS, has specifically asked me to raise this issue.

As I said, we were neighbors. As Speaker PELOSI correctly pointed out, while a number of us knew that JUANITA had not been well, very few knew of the seriousness of her illness. I remember standing with my two California colleagues, Ms. WATSON and Mrs. NAPOLITANO, just last week, and we talked about making a video that we were going to provide for JUANITA because we knew she had not been well.

So her passing has come as a great shock to every single one of us. She is the first woman to ever chair the Committee on House Administration. She was a trailblazer on so many issues. Her passing is a loss to my State of California and to this institution and to the entire country.

Madam Speaker, at this point I am going to ask unanimous consent that my California colleague, Mr. CALVERT, be able to manage the time from this point forward, and with that I reserve the balance of my time.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Ms. WATSON. Madam Speaker, I call on the gentlewoman from Michigan (Ms. KILPATRICK), the Chair of the Congressional Black Caucus, for 3 minutes.

Ms. KILPATRICK. Madam Speaker, I thank the gentlewoman from California for yielding me this time.

Today is the first day of the rest of our lives. I stand here to pay tribute to my friend, my sister, chairwoman, Congresswoman JUANITA MILLENDER-MCDONALD. I was asked earlier by an interviewer: How would she like us to remember her? A leader, a fighter, a mother, a grandmother, excellence bar none, first class, no shortcuts.

To Jim and Valerie and to the rest of the family, to the grandchildren, just know you have her blood and you can do anything. No limits; be the best.

As chairperson of the Congressional Black Caucus, we are honored to have had her with us and teach us and show us the way. JUANITA has been special in this body, rising from mayor, city councilperson, the first African American woman to chair the House Women's Caucus, and over the last 11 years serving in this body, a special friend to me personally. We many times talked about our families.

So my sister, JUANITA, as you take your rest with the spirit of God, we know you will watch over us and make sure that we do our due. We know the family knows you are with them forever.

To Jim, it's okay, we're here for you and we always will be.

So let us continue to rejoice. He makes no mistakes. We now have extra protection in heaven.

On behalf of the entire body of the CBC, we are both remorseful and reflective on the life and legacy of Representative JUANITA MILLENDER-MCDONALD.

We are praying with and for her family and dear friends during this season of grief.

Representative MILLENDER-MCDONALD should be celebrated for her abounding commitment to service and advocacy. During her 7-term tenure as the eloquent voice of the 37th Congressional District, including Long Beach, the industrial suburbs of Carson and Compton and parts of south central Los Angeles.

As a former educator and recipient of a myriad of distinctions, including:

First African American woman to chair a full committee in the U.S. House of Representatives;

First African American woman to serve on the Carson City Council;

First African American woman to render the national Democratic response to President Bush's weekly radio address;

First to be named Honorary Curator of the Museum of Latin American Art in Long Beach;

First Democratic Chair of the Congressional Caucus for Women's Issues.

Representative MILLENDER-MCDONALD made certain to pave the way for her firsts to not be the last for African Americans and Americans across the globe.

Therefore, the CBC will continue to carry on the work of Congresswoman MILLENDER-MCDONALD as we change course, confront crises and continue the legacy.

Mr. CALVERT. Madam Speaker, I am happy to yield 3 minutes to the gentleman from California (Mr. DANIEL E. LUNGREN).

Mr. DANIEL E. LUNGREN of California. Madam Speaker, I rise to speak on behalf of our departed colleague, JUANITA MILLENDER-MCDONALD, with whom I only had the privilege of serving for the last 3 years, but who was an office mate, had the office just down the hall from me my first 2 years back here this time around; and then I had the proud honor of serving on House Administration with her.

More than that, she represented a portion of my hometown of Long Beach, and we would often talk about our mutual interests in some of the people and institutions there, particularly my love for Long Beach Memorial Hospital in my hometown.

In every conversation I had with her, in every dealing I had with her, she was very gracious, very generous of spirit, always upbeat. I was surprised to hear of her illness and surprised to hear of her passing because in every conversation I had with her, she never gave an indication that she was in pain or suffering or in any way challenged by this illness.

She seemed to radiate a fulfillment in being in this House and the work she did. I know she was very proud of the people she represented, her constituents, and I know she was proud of the

communities she represented. And I know she was proud of the firsts she represented, both here in the Congress and in the California legislature.

This place is a tough place. We battle oftentimes over ideas and we battle over ideology, and yet the human aspect of this place is forgotten by many who look out or look upon us from the outside, but it is always here. And I always enjoyed every encounter I had with JUANITA. She was a pleasure to work with. She was someone who took great pride in our State of California, and I think she will be someone who will be sorely missed in this House.

It is my pleasure to stand here and say good-bye, JUANITA. I enjoyed working with you. You will be missed.

Ms. WATSON. Madam Speaker, with pleasure I yield 3 minutes to Ms. BARBARA LEE from California.

Ms. LEE. Madam Speaker, it is with a heavy heart that I rise this evening to offer my condolences to the family of our beloved JUANITA MILLENDER-MCDONALD, to her husband, Jim, to her children, to her grandchildren, her sisters, and to her entire family. My thoughts and prayers are with you during this most difficult time.

I am reminded of the very many moments we shared together and how precious and fun and engaging they were. I met JUANITA over the telephone when I called to congratulate her for, as the underdog, winning the primary for the California Assembly in 1993 where I was then serving.

Even in that first phone conversation, she conveyed such a strong sense of purpose and focus, yet a deep message of sisterhood and optimism about the future. Of course, JUANITA won the general election and came to the California legislature where she demonstrated her keen intellect and her bipartisan legislative abilities as Chair of the Revenue and Taxation Committee and as Chair of the Assembly Insurance Committee.

JUANITA, her husband, Jim, and her sister participated in a delegation which I organized to five countries in Africa. Her commitment to the continent and to diplomacy was recognized by all.

JUANITA, though, recognized the challenges which I personally faced as the organizer and leader of a delegation, most of whose members had never been to Africa. In the most sensitive and loving manner, she presented me with a beautiful Nambian wallet and passport carrier to shore me up and to help me out, and I carry it to this day. You know it was beautiful and well-made. JUANITA had a keen sense of style, if you remember how beautiful and elegant JUANITA was always dressed.

She was a woman of distinction and class which brought her many compliments, but she was also a woman of substance, with a keen intellect, big heart and a passionate sense of justice.

She worked on many issues relating to the empowerment of women, HIV/AIDS, orphans, a host of issues which history will record as improving the lives of millions. Her annual AIDS walk was a source of pride and joy as she shared with us the dos and the don'ts on how to put our own together so we could replicate her success in our own communities.

JUANITA was a giving person who shared her wisdom with her friends and colleagues, and I will always remember her actions during the Bill Clinton impeachment era where she organized a group of women to go to the White House and meet with Mrs. CLINTON in a show of support. It was moments like these when you knew you were in the presence of a risk-taker and a giant of a woman.

JUANITA was a loving wife and mother and grandmother and sister. Oftentimes she brought her beautiful grandchildren to the House floor to give them a sense of her work and a sense of Congress, and to show them off. I am deeply grateful to JUANITA and to her family.

As the Scriptures say, well done, thy good and faithful servant.

Mr. CALVERT. Madam Speaker, I yield myself such time as I may consume.

Last week, as for many of us, I first heard about JUANITA's illness. That is surprising because there is a group of us on both sides of the aisle that fly back and forth to California every week. I know there is a lot of talk about partisanship nowadays, but we have a pretty close group. Many times we sit next to each other on the airplane, and we talk about parents and children and golf or whatever. And JUANITA was always a delight to be with, always had a positive attitude, always someone you looked forward to seeing.

I was deeply saddened to hear of JUANITA's sudden passing. I was sitting at home writing a note to her this weekend; and, unfortunately, that note can't be delivered. But I hope she is listening right now as we state our condolences to her family and to her friends.

It has certainly been an honor for me to have worked with her for the last 11 years that she served in Congress. She was a faithful representative of her district.

I worked with her specifically on the C-17 factory in Long Beach, California, where they make the great C-17 aircraft, and she was a champion for that. She worked for the employees that worked at that plant to make sure that the aircraft which is doing a wonderful job for our country continues to be manufactured in Long Beach, California. As a matter of fact, the last conversation I had with her was about what we can do to keep that going.

There are no words I can use to convey the sense of loss when a colleague

passes. She was a champion, and a champion for California. Our delegation will miss her very much. We will miss her smile.

I join all of my colleagues in supporting this bereavement resolution and extend my sympathies to her families and friends. JUANITA MILLENDER-MCDONALD was a patriot who faithfully served her country. Her contributions and commitment will not be forgotten.

Madam Speaker, I reserve the balance of my time.

Ms. WATSON. Madam Speaker, I am very pleased to give 3 minutes to the gentlewoman from California (Ms. ZOE LOFGREN).

Ms. ZOE LOFGREN of California. Madam Speaker, JUANITA MILLENDER-MCDONALD touched our lives in different ways. I chair the California Democratic delegation, and I can tell you that our delegation is literally heartbroken over the loss of JUANITA.

We meet every Wednesday as a delegation to sort through the issues that face us not just as a Congress but as a State. And although we know JUANITA for her leadership in the Nation, those of us in California are very proud of the special things she did for our State.

□ 1945

There will be an empty spot at our meeting every Wednesday.

She was a trail blazer, as has been mentioned, a first so often: the first California African American woman to chair two committees in the California Assembly; the chairperson of the House Administration Committee. But when I think of JUANITA, I think of someone who had tremendous dignity, tremendous style, tremendous poise. She knew that she was a first, and it was important to her that she accomplish these firsts with an eye to being a role model for young people around the country and, indeed, around the world.

As Chair of the Committee on House Administration, where I also serve, she worked so diligently to make sure that every vote would be counted, that all Americans would be treated fairly and without discrimination, and she was so happy to provide that leadership as chairwoman of the committee. It is so unfair that we have lost her from that position so prematurely.

Today, we mourn the passing of a great American, but we also celebrate the legacy of public service that she leaves behind. JUANITA MILLENDER-MCDONALD left this Chamber as she entered it, with poise and spirit, fighting for those who could not fight for themselves.

Our thoughts and prayers go out to her husband, her five children, her grandchildren, and we mourn her passing, not just today but every day.

Mr. CALVERT. Madam Speaker, I yield 2 minutes to my colleague from California (Mr. DOOLITTLE).

Mr. DOOLITTLE. Madam Speaker, I was, like many of my colleagues,

shocked and deeply saddened to hear the news about JUANITA. GRACE NAPOLITANO had just brought by a nice card for Members to sign on Friday, I think it was, and here I realize that she has passed away. I just had no idea.

It was my privilege to serve with her in the House Administration Committee when she was the ranking member, and JUANITA was a passionate advocate for her ideas and her beliefs. Sometimes she and I would argue with each other, but it was never with any personal disagreement. I liked her, I thought highly of her, and would just like to join with my colleagues in acknowledging her fine service here in the House of Representatives, her dedication to California, her desire to make a difference.

I always admired her love and devotion to family, and I join with my colleagues in saying that I will miss her, and I am very sorry that this has happened.

Ms. WATSON. Madam Speaker, I am pleased to yield 5 minutes to the gentlewoman from California (Mrs. CAPPS).

Mrs. CAPPS. Madam Speaker, I thank my colleague DIANE WATSON for her leadership in gathering us together, and I rise with my colleagues to extend my condolences, heartfelt, from this body to the family, to the friends, to the constituents of Congresswoman JUANITA MILLENDER-MCDONALD.

This is a somber hour because we are, as my colleague, the dean of our California delegation, mentioned, we are heartsick over this loss, and maybe it is because JUANITA was such a striking presence, so dynamic, so poised and articulate. When she entered a room, you knew she was there; and now, today, as we gather so soon after we heard of her death, just yesterday, walking through the doors of the Capitol, I thought it is not the same place now because she is not going to be there, wearing something striking, something beautiful, and with her elegance and grace.

We will miss her. We will always miss her. She served in this place, as she served her community and her family and her city council and the State legislature, with such distinction, with passion and with dedication for the benefit of her community and with enormous patriotism.

This talented public servant was a champion for several years, including fighting HIV/AIDS, improving women's health, encouraging women in business, protecting voting rights, stopping the genocide in Darfur. As I mention these issues, I think to myself her charge to us this evening would be to stop the sweet talk about her and get busy and solve these problems. That is the best thing we can do in her memory, in her name.

She knew where the challenges lay in our country, in the way we go to the

polls and the fairness of our elections, the availability of the opportunity to vote for every single American. She was not content. It is not solved yet and we have to do this in her honor.

The genocide in Darfur, until that is a thing of the past, we cannot rest. We have got to do this now for JUANITA.

HIV and AIDS and all of the other things she cared about, now we have an increased motivation, and that is how we can turn our sorrow into something positive, the way she did with her life.

We have heard from our colleagues this evening, and we will hear many things, but in particular, I want to speak today as I follow in her footsteps as cochair of the Congressional Caucus for Women's Issues. During the 107th Congress, she was cochair of the Caucus for Women's Issues, serving ably with Congresswoman JUDY BIGGERT.

Under their leadership, the women's caucus initiated the first annual Memorial Day tribute to women in the military at the Women's Memorial at Arlington National Cemetery. Now this event, thanks to JUANITA, has become an annual tradition and highlights the caucus' strong commitment to supporting our brave women in uniform. I know JUANITA will be proud of us as we continue in this tradition.

As cochair of that caucus, Congresswoman MILLENDER-MCDONALD also convened the first meeting between women Members of Congress and the Supreme Court Justices Sandra Day O'Connor and Ruth Bader Ginsberg in order to discuss issues of national importance to women, especially in the judicial area.

On a personal moment, I will never forget the first time I met with my colleague, Congresswoman MILLENDER-MCDONALD. It was during a very difficult moment in my life after the passing of my husband Walter. The first thing I knew she was there in my district with every single one of her staff members to help me to succeed him in office. It was a very rainy time, and there they all were, walking precincts in my district, and that was how I met JUANITA MILLENDER-MCDONALD.

She made a special effort to reach out to me and to my family in ways that were very meaningful to me. She shared with me that her father was a preacher like mine was, so we had that kind of bond as well. And I know it has been mentioned how ferociously she worked on issues like the C-17 and the Alameda Corridor, but if you ever flew with her in her service on the Transportation Committee, you knew very well that she wanted that airline to work for, not her, but for all of us Members and all of the passengers, and she made sure whatever flight we were on was going to be on time to the best of her ability.

These are stories that I am not going to ever forget and I want to be grateful for her kindness to me, and pledge dur-

ing this very challenging time in my life, she was there for me, and now we reach out to her family members. All of us are going to miss our colleague and our thoughts and prayers are with her during this difficult time.

It was just pictured, such a wonderful picture of JUANITA MILLENDER-MCDONALD in her local paper, the Los Angeles Sentinel, and ironically, it is dated Thursday, April 22, and that was when she took leave. And who would have known on the paper in her community that just a few days later she would be gone. But I think it would be befitting her to have this entered in the CONGRESSIONAL RECORD in memory of JUANITA.

[From the Los Angeles Sentinel, April 19, 2007]

CONGRESSWOMAN JUANITA MILLENDER-MCDONALD WILL TAKE FOUR TO SIX WEEKS OFF TO SEEK TREATMENT FOR CANCER

(By Yussuf J. Simmonds)

Congresswoman Juanita Millender-McDonald is taking a leave of absence until May 25 in order to seek proper care and spend quality time with her family after being diagnosed with cancer.

It had been rumored for some time that her health was troubling especially since she had been placed on the "prayer list" at her local church, Second Baptist Church in Los Angeles. However, she has always been a fighter for the community and now the community stands ready to return her hard work and efforts on its behalf with prayer and best wishes.

McDonald is currently serving her seventh term in Congress representing the 37th Congressional District, which includes parts of Carson, Compton, Long Beach, Los Angeles and Signal Hill. Presently, she is the chairwoman of the House Administration Committee, the first Black woman to hold that position. As chairwoman, she has investigated the voting irregularities and disenfranchisement in Ohio, which was the first election reform field hearing in Congressional history.

Glamour Magazine recently dubbed her as "one of the eleven women who will change the world" and a recent news report cited her as one of the five most effective members of Congress because of her ability to reach across party lines to effectively move bipartisan legislation.

Congresswoman Barbara Lee, the vice chair of the Congressional Black Caucus and the representative of the 9th Congressional District of California, extended warm greetings to her colleague and offered these words of comfort.

"Our prayers are with Congresswoman McDonald and her family. We wish her a speedy recovery and hope that her leadership and courage will soon be back with us in the nation's capital," Lee said.

Councilman Isadore Hall of Compton's Fourth District was touched when he received word of her health concerns.

"Right now we are holding her up in deep prayer and hoping for a speedy recovery," said Hall. "Certainly her presence will be missed, but we know she has competent staff who will be able to move swiftly with the agenda she has set for the community."

This is not the first time that McDonald has faced health issues. In 2005, she underwent major surgery for an unknown illness. Last year, her son, R. Keith McDonald, requested a furlough from his 41-month prison

sentence for political corruption charges in order to see to her condition at the time.

The judge granted him a six-month release but again, there was no official comment from McDonald on her condition then and there is no comment now if either incident is related to her current situation.

Dr. William Epps, pastor of Second Baptist Church where McDonald is a parishioner, relayed his thoughtfulness by saying that he stays "in touch with her weekly" and that "I'm keeping her in prayer for strength as she faces her health."

She reportedly will maintain a limited schedule particularly in her district and this apparently will be to expedite her recovery process. She has requested respect for her privacy at present and all of her constituents have offered their prayers and best wishes for a speedy recovery.

Mr. CALVERT. Madam Speaker, I yield 5 minutes to the gentleman from Michigan (Mr. EHLERS).

Mr. EHLERS. Madam Speaker, I thank the gentleman for yielding.

I first met JUANITA MILLENDER-MCDONALD in the Committee on Transportation and Infrastructure, which is a wonderful committee; I am sure the current Chair sitting here would agree with that. A great diversity of tasks are needed there, and I came to know her well at that committee.

I was amazed at Ms. MILLENDER-MCDONALD in a number of ways. You just heard the previous speaker talk about her grace and elegance. That was apparent from the moment you saw her and talked to her.

She and I became rather good friends because it happened that her father was a pastor, and my father was also a pastor. There is a special bond between preachers' kids, or PKs as they are called, and we used to jokingly discuss the need to develop a PK Caucus in the Congress so that we could address major issues of the times, particularly those with a moral content to them.

Our friendship continued over the years, and I have to confess, I was continually amazed at new things I discovered in JUANITA MILLENDER-MCDONALD.

First of all, just imagine being born African American in 1938 in Alabama and becoming the first African American woman to chair a committee in the Congress. That is a long and difficult road, and she traversed that road, once again, with elegance and grace.

After having five children, she went back to school, received a bachelor's degree and then became a teacher. She later went back to school again and obtained a master's degree, showing amazing persistence and drive to do that. She then entered the political arena, became the mayor of a city in her district, and then later entered the State Assembly, and then the Congress.

She had considerable drive and interest in serving others, and that stood out from the moment you first met her.

But I found it interesting, though, even though we had a good personal re-

lationship, she was a very private person. I was dismayed recently to find out that she had cancer because she had never discussed this with me and never alluded to it in our discussions. I knew something was wrong, but I did not know what. I wish I had known so I could have offered her more comfort and help.

We have had our amusing moments as well. One time she insisted in talking far past her limit in our committee when I was chairman, and I gavelled her out of order. She refused to acknowledge the gavel and kept talking. So I gavelled louder and she kept talking, and I gavelled louder yet, until she could no longer speak. She was not pleased with that. But when she became the chairwoman, I called her to congratulate her and I said, now, I fully expect you to gavel me out of order every opportunity you get. That was the type of relationship we had.

In spite of our differences of party, in spite of occasional differences in perspective and differences on how we should accomplish things in this Congress, we remained good friends throughout. And I think because of that, together, we were able to accomplish a great deal in our committee this past year, and we were continuing to do that this year under her leadership.

We have lost a good friend. We have lost a good compatriot. We have lost a good Member of Congress. It is not easy to deal with that type of loss, and our comfort is that she is in a better place, and that she has served our country well. She has served her people well. I am sure as a teacher she served her students well. I think she has left the Congress a better place because of her having been here, and because of the example that she set for us.

□ 2000

Ms. WATSON. Madam Speaker, I yield 3 minutes to Mr. OBERSTAR of Minnesota.

Mr. OBERSTAR. Madam Speaker, it was shortly after the election in which JUANITA MILLENDER-MCDONALD was elected to the Congress, she called on my office. I was the ranking member on the Transportation and Infrastructure Committee.

She came to see me about service on our committee. I had learned a little about her background, and I was surprised. I thought she would be more interested in Judiciary or International Relations, but when I asked why she wanted to serve on this nuts and bolts committee, she said, well, I have the Alameda Corridor in my district. And if I heard Alameda Corridor from her once, I heard it 50 times. It was incessant, it was a refrain, it was a passionate advocacy. I, of course, did support her candidacy for the committee.

Then, when the assignments were given out, she came calling again, said,

I want to know more about what this committee does. What are all these responsibilities? What does this subcommittee's work mean on public buildings and grounds and economic development?

When I laid out the picture that this committee has jurisdiction over 367 million square feet of Federal civilian office space, she was excited. Well, there are things we can do here.

It was just such an enlightenment and so exciting to see a new Member enthused about the work of the committee and wanting to understand it and grasp and understand it.

The other thing that I have observed over the years, I have watched, as many of our colleagues have, as have the gentleman from Michigan and the gentleman from California (Mr. DREIER) who spoke so warmly and touching earlier, I see Members come in and they scratch and claw to get a committee assignment. Then they get on a committee, and they scratch and claw to get their subcommittee assignments. Then when you are there presiding or working, for so many years as the ranking member, you turn around, where are they? You don't see them again. JUANITA MILLENDER-MCDONALD showed up for work, every time.

What was also touching was when another committee assignment conflicted, she would come in, sit down, be checked in, look at the committee agenda and the information, then she would come over and say would you please hold me excused, I have to go to another committee because something else is happening. You don't see that happening very often, the conscientiousness that she displayed about her service in the Congress. She took it seriously, learned it well.

When we were crafting the Tea-21 legislation, she wanted to be a part of shaping the minority business enterprise provisions. She was on the floor to advocate for them. Her whole career was one of dedication to service, but she was a person, a mother, a wife, a human being, warm and caring. When she walked into a room and offered that smile, clouds parted, lights went on and JUANITA MILLENDER-MCDONALD was there for us.

She will always be in my heart, in our hearts.

Mr. CALVERT. Madam Speaker, I yield 3 minutes to my colleague from American Samoa (Mr. FALEOMAVEGA).

Mr. FALEOMAVEGA. I thank the distinguished gentleman from California, my colleague, for extending me time from his part and recognizing the fact that we have so many on this side of the aisle to offer their remarks, especially in honoring Ms. JUANITA MILLENDER-MCDONALD.

Madam Speaker, like all my colleagues in attendance this evening in this Chamber, we were all surprised and shocked to learn of the untimely

death of our distinguished gentle lady from the great State of California, Congresswoman JUANITA MILLENDER-MCDONALD.

Some of you may be surprised to know that when I was serving as Lieutenant Governor some 24 years ago, I knew JUANITA. She was a dear friend, but she was serving at that time as a member of the city council in the city of Carson, California. We collaborated often in addressing the economic and social needs of the members of my Samoan community living in the cities of Carson, Compton and even Long Beach. Next thing I learned, JUANITA was elected as a member of the California State Assembly, and then finally she was elected as a Member of Congress.

JUANITA was passionate about the needs of the poor and the destitute. I know our Samoan community throughout the Los Angeles area all mourn the loss of this great and gentle lady. She truly was a dear friend to me, and members of the Samoan community are going to feel the loss of her presence. She lived life to the fullest. I know we are here to celebrate her life, although we also mourn her absence from the Halls of this great institution.

On behalf of our Samoan community throughout the Los Angeles area, we convey our deepest sympathies and condolences to JUANITA, her husband, and all the members of her family. I recall the Good Book, and it is my sincere hope that they may all be comforted with our Savior's promise, blessed are they who mourn, for they shall be comforted.

I may also say in our Samoan culture, when someone passes away, we don't say that the person has died. We just simply say, be well in your voyage. And I would like to say this in my language, JUANITA, ia manuia lau faigamalaga. God bless.

Ms. WATSON. Madam Speaker, I yield 2 minutes to the gentlelady from Texas (Ms. JACKSON-LEE).

Mr. CALVERT. Madam Speaker, I yield 1 additional minute to the gentlelady from Texas (Ms. JACKSON-LEE).

The SPEAKER pro tempore. The gentlewoman from Texas is recognized for 3 minutes.

Ms. JACKSON-LEE of Texas. I thank the distinguished gentlelady from California (Ms. WATSON) for her dedicated commitment and Mr. CALVERT, two Californians who have come together on this sad but really commemorative time.

Madam Speaker, I want to lift my voice a little bit, because there are some things that we say in the church about home-going services or memorials, is that they are, in fact, a celebration of life. I clearly believe that as I have listened to my colleagues, and as I will continue to listen to my colleagues, we really are celebrating JUANITA MILLENDER-MCDONALD's life. We

are celebrating our friendship and how we care for her, how she cared for us.

My first remarks are that our mayor has fallen, the mayor of our city, the City of Congress, the comings and goings of Members and staff, traffic and various personnel, law enforcement. This was her love, as she first started as a ranking member of the House Administration Committee and then had the honor of being appointed by the new Speaker of the House, a woman, to be the chairwoman of the House Administration Committee.

But I do want to say, before I comment further, that JUANITA had a bigger smile when she was around her husband, Jim, her five children and her grandchildren. She sparkled when she brought her grandchildren to the floor of the House and made sure that everybody knew those beautiful and lovely children who, in fact, seemed to have a very strong and proud bond with their grandmother. They were proud of this regal woman who came to the floor of the House as a Member of the United States Congress.

JUANITA was a doer, and she used to often speak of her beginnings with a Baptist father, preacher, a close-knit family, and her deep roots in Birmingham, Alabama, knowing what a segregated South was all about, a segregated America. Though she fought against it, she didn't let it bring her down, discourage her. Off she went to California, and she became a true daughter of California, with all of the attributes that great State allows you to have.

She did things to make life better. She had a great sense of hope and spirit about her women's march against AIDS, and each year the numbers kept growing up and up and up. She would tell me, coming back, thousands of women marched against HIV/AIDS to find a cure, to stop the devastation in women. We were so proud when, for the first time, she was able to bring us together around women in the military.

The last time I was there, the curator of that museum said, you know, JUANITA started this. We now have become so important because of JUANITA.

Then, of course, she worked with the library and those workers over there. JUANITA was someone who believed in getting things done, not for herself, but for others.

As I close, let me thank MARCY KAPTUR for giving this very special commemoration that has NANCY PELOSI's name on it, the votes that NANCY won by, MARCY's name as an elector or counter, tally person, and there is JUANITA MILLENDER-MCDONALD, who had, as her final work, the true integrity and transparency of elections all over America. Truly, we want to thank her, we love her. We love you, JUANITA. This is a celebration of your life.

Mr. CALVERT. Madam Speaker, may I inquire how much time is remaining on both sides.

The SPEAKER pro tempore. The gentleman from California has 12 minutes remaining. The gentlewoman from California has 12½ minutes remaining.

Mr. CALVERT. Madam Speaker, I yield 3 minutes to the gentleman from California (Mr. BACA).

Mr. BACA. Madam Speaker, yesterday the House of Representatives, the State of California, and the Nation, lost a leader and a good friend of ours, Congresswoman JUANITA MILLENDER-MCDONALD. We certainly will miss her. My wife, Barbara, and I extend a heartfelt condolence to her family, friends, staff, children, her five grandchildren and to Jim.

Today we pay tribute to a real trail-blazer, a pioneer, the first African American woman to chair a committee, a positive role model, a person who created hope for many individuals, a person who was a well liked and well respected individual.

In a role as a public servant, she touched the lives of many individuals. Here in the House, I have heard many individuals talk about how she was a nice person and how she was well liked.

As Chair of House Administration she worked closely with the Congressional TriCaucus, the Congressional Hispanic Caucus, and the Congressional Asian Pacific American Caucus in trying to obtain the fairness and equality for all of us. She was pleasant to work with. I have had the opportunity to work with JUANITA and served with her in the California State Assembly prior to coming to Washington, DC.

She has always been a strong advocate for the poor, the disadvantaged and those that were underrepresented. I know that she spent much time going into my district and speaking to a lot of the poor and disadvantaged in San Bernardino, in the Inland Empire, because she cared about the poor, not only in that area, but she cared about equal representation. She wanted to ensure that we had the numbers or bodies of people who represent us here in Congress. She worked for me in my campaign when I first ran out there.

She worked with me also in a variety of areas, but one of those that has been mentioned tonight has been the Alameda Corridor. She really took it to heart because she knew the Alameda Corridor and what it meant was a lifeline to California, to Southern California, in the area of transportation, not only to the L.A. International Airport, but Ontario International Airport that is also affiliated with that area.

JUANITA really believed, because she knew the infrastructure and the growth and the population in the area, and she put a high priority on transportation. She was a friend and a loyal supporter, and I am grateful.

As a friend, she will be deeply missed, but she will not be forgotten. She fought for justice, she fought for equality so that all individuals will not experience the prejudice and racism that

most of us have experienced throughout our life, that she wanted life to be better for others. She is a strong voice for many. JUANITA MILLENDER-MCDONALD will be remembered for her dedication to public service, tireless work on behalf of her constituents, and standing for the rights of women and minorities, and, overall, her desire to make our country a better place.

We love you, JUANITA MILLENDER-MCDONALD.

□ 2015

Ms. WATSON. Madam Speaker, I yield 1 minute to the gentleman from North Carolina (Mr. BUTTERFIELD).

Mr. BUTTERFIELD. Madam Speaker, I too rise this evening to honor the life and work of my colleague and friend, Congresswoman JUANITA MILLENDER-MCDONALD, who has passed from labor to reward.

JUANITA was a warm and caring individual. She worked very hard in this body to improve quality of life for all Americans. As a faithful member of the Congressional Black Caucus she also spoke of the urgency of eradicating poverty and eliminating disparities in education and health care and wealth. She spoke for those who could not speak for themselves. My constituents, the 660,000 people of the First District of North Carolina, are grateful for the service of Congresswoman MILLENDER-MCDONALD.

I join my colleagues this evening in saying to the family of this great woman, you had a wonderful wife, mother, grandmother. Her love of humanity and work on behalf of disadvantaged people everywhere ensures that she is in heaven and free of the suffering she had to endure. May God bless the soul of this great American.

Mr. CALVERT. Madam Speaker, I reserve the balance of our time.

Ms. WATSON. Madam Speaker, I yield 2 minutes to the gentlewoman from California, LINDA SÁNCHEZ.

Ms. LINDA T. SÁNCHEZ of California. Madam Speaker, it is with sadness that I join my colleagues here on the floor this evening to pay tribute to a colleague who we lost far too soon.

I was saddened to hear the news yesterday of Congresswoman JUANITA MILLENDER-MCDONALD's passing. JUANITA was really a woman of many firsts, who broke down countless barriers for women and for African Americans.

While the history books no doubt will list the numerous accomplishments of her long career, I will remember her best as a champion for economic opportunity and empowerment for the people of Long Beach and Los Angeles. I was pleased to have had the opportunity to work with her on many issues important to the communities shared by our adjacent districts. When workers, for example, in our communities who assembled the C-17 aircraft, faced the

prospect of their assembly plant shutting down and losing their jobs, JUANITA led the fight to make sure that those jobs were not lost. And she succeeded, and hundreds of people's lives are better off today thanks to her hard work.

When I first joined Congress, JUANITA took the time and made a special effort to introduce me to many of the local leaders in the African-American communities that straddle our districts. This was very thoughtful of her and I will always be in her debt for it.

We here in Congress will certainly miss her insight, her experience, and her energy. And I will most certainly miss her beautiful smile and her unforgettable style because she truly is an unforgettable woman.

I am sure that her constituents will miss her tireless advocacy on their behalf. They and we have lost a fine public servant, and we have lost a tremendously fine colleague. But most of all, my thoughts tonight are with her husband, their children and grandchildren, and their extended family. I wish them all the strength during this difficult time, and I want them to know that JUANITA is truly an incredible woman who shall not be forgotten.

Mr. CALVERT. Madam Speaker, I am pleased to yield 2 minutes to the gentlewoman from Santa Ana, California (Ms. LORETTA SANCHEZ).

Ms. LORETTA SANCHEZ of California. Madam Speaker, I thank my colleague from California.

JUANITA MILLENDER-MCDONALD was my friend. I used to love coming into the Chamber and sitting down next to her and asking, "What's up, what's going on," because JUANITA knew. She knew what was going on in the Congress. She was the mayor of Congress, if you will, being the chairwoman of the House Administration Committee. And JUANITA knew what was going on back in California.

When I first decided to run for Congress and nobody knew, JUANITA called me up and said, "I'm stuck on the freeway, but I'm coming down to walk precincts with you. So let's hope the sun stays up and we get to go and walk together." And we did, and that is how I met JUANITA MILLENDER-MCDONALD.

When I first came to the Congress, and coming as a young woman which, quite frankly, 12 years ago there weren't a lot of us, it was always very difficult and hard to be accepted. It is always hard to find your way in the Congress. But JUANITA was right there. She was like a touchstone. She was somebody that I could talk to and tell her my frustrations or the happy points here. She really is what I would call a friend, and to many of us here she was a friend. She is a friend back in her district.

I wish the people of the United States really understood the work that JUANITA did. The Alameda Corridor was

her dream. It was her project. This was the project to move goods that come to this country from the port across and through L.A. and out into the rest of the United States. When you think of the fact that 50 percent of everything that comes into the United States comes through the ports that were right there at JUANITA's side, you would understand how important it was to each and every American. You see, if that cargo didn't leave L.A., if you were an auto worker in Tennessee, building a car, and you were waiting for inventory just in time, it wouldn't get there in time if it hadn't been for JUANITA. And last year on the very last day of the 109th Congress, we passed the Safe Port Act. That really was JUANITA's legislation.

She will be remembered for a long time in this country and in this Congress. JUANITA, and to her family, I love her.

Ms. WATSON. Madam Speaker, I yield 2 minutes to the gentlewoman from Texas, EDDIE BERNICE JOHNSON.

Ms. EDDIE BERNICE JOHNSON of Texas. Madam Speaker, I thank my colleague for the time.

I rise with great sadness to remember my friend, my sorority sister in the Alpha Kappa Alpha sorority and my colleague, JUANITA MILLENDER-MCDONALD. And I want to extend my deep condolences to her husband James, her children, friends, and loved ones.

I was privileged to serve with her on the Transportation and Infrastructure Committee, and her diligent service is evident in many of California's roads, bridges, and highways. I worked with her when she was cochair of the Congressional Women's Caucus. She did it with such charm, grace, poise, and dignity. This body is diminished and dismayed by her sudden absence, but we were inspired and enriched by her presence.

Her spirit will live on. Her work will be felt by those who don't even know she helped. We celebrate her life. It was a wonderful, wonderful life. And we love her and her family.

Madam Speaker, I rise with great sadness to remember my friend, my sorority sister and my colleague, JUANITA MILLENDER-MCDONALD. I want to extend my deep condolences to her husband, James, her children, friends and loved ones.

As chairwoman of the Committee on House Administration, Congresswoman MILLENDER-MCDONALD will be recorded in history as the first African-American woman to chair a full committee of the House.

Those of us privileged to know and work with her will remember her tireless advocacy for justice and her example of meaningful public service.

Throughout her career, Congresswoman MILLENDER-MCDONALD was a friend to women's causes and to young people. Her work to end human trafficking and slow the transmission of AIDS has improved countless lives.

The results of her work—improved lives for women and girls worldwide, expanded voting

rights for the disenfranchised, greater assistance for the sick and the poor—are a testament to her character.

From the beginning, Congresswoman MILLENDER-MCDONALD was a trailblazer:

She was the first African-American woman to serve on the Carson, California City Council.

In her first term in the California State Assembly, she became the first woman to chair two powerful committees.

She was the first African-American woman to give the national Democratic response to President Bush's weekly radio address as well.

But for all her firsts, Congresswoman MILLENDER-MCDONALD was also a champion for the least and the last. She fought injustice wherever she found it: Whether in the voting booth, the classroom, the research lab, or the workplace.

Congresswoman MILLENDER-MCDONALD rigorously investigated widespread voting irregularities and disenfranchisement.

She was a vocal opponent of genocide around the world and a tireless fighter for human rights.

Her Mother-to-Child HIV/AIDS Transmission Act became the President's \$15 billion African AIDS initiative.

Congresswoman MILLENDER-MCDONALD also worked to increase diabetes research in minority and female populations; she pushed the Department of Education to improve the dismal dropout rates among minority high school students and secured millions to reduce the backlog of Equal Employment Opportunity complaints.

The first time voters in Ohio can feel more confident their votes will count because of Congresswoman MILLENDER-MCDONALD.

The elderly diabetics in her home State of Alabama have a better chance of avoiding amputation because of her.

She had a hand in granting diplomas to thousands of Native American students growing up on reservations; and countless girls in Cambodia and Sudan have her to thank for a childhood free from kidnapping and assault. They may never know where to direct their gratitude, but the alleviation of their suffering stands as her lasting legacy.

Her influence is also inscribed on the physical landscape of California's 37th district. I was privileged to serve with her on the Transportation & Infrastructure Committee and her diligent service is evident in many of California's roads, bridges and highways.

Congresswoman MILLENDER-MCDONALD's record of exemplary public service includes life memberships in the NAACP and Alpha Kappa Alpha Sorority.

She served on the Southern Christian Leadership Conference Board of Directors, and founded the League of African-American Women.

Congresswoman MILLENDER-MCDONALD also founded the Young Advocates to train young people for political leadership.

This body is diminished and dismayed by her sudden absence, but we were inspired and enriched by her presence.

Her commitment to equal opportunity, civil and human rights will be greatly missed.

Mr. CALVERT. Madam Speaker, I yield 2 minutes to the gentleman from Georgia (Mr. SCOTT).

Mr. SCOTT of Georgia. Madam Speaker, this is indeed a solemn occasion, but it is also an occasion to celebrate.

On each of our obituaries at that time, there are three things that are mentioned: the year you were born, the year you died, and then there is the dash. It is what you do with the dash, what you do with your life. And the life that we are here to celebrate, JUANITA MILLENDER-MCDONALD's life, was one of greatness and sacrifice and commitment, serving on the city council, serving in the State legislature of California, and then in the Congress of the United States. Traveling around the world wherever the need was, whether it was in Africa, Middle East, in the Caribbean, she cared.

JUANITA MILLENDER-MCDONALD fought the good fight, she kept the faith, and there is indeed put up for her an outstanding crown of righteousness, and we all thank God for having Ms. JUANITA MILLENDER-MCDONALD pass our way.

Ms. WATSON. Madam Speaker, I yield 2 minutes to the gentleman from Georgia (Mr. BISHOP).

Mr. BISHOP of Georgia. Madam Speaker, my wife Vivian, all of our colleagues here in the Congress, and all of the hundreds of workers here on Capitol Hill were deeply saddened to learn of the death of our friend and colleague, JUANITA MILLENDER-MCDONALD.

Words are never adequate at a time of loss. Only one who has worn the garment of bereavement can truly understand the pain that comes when a family must confront the inevitable that one has been taken from its midst. Yet, upon prayerful reflection we must all allow our tears to melt into joy, because truly we have been blessed to have known, to love, and to have been a part of the life of this very, very exceptional woman.

JUANITA was a lady of achievement, of service, of public distinction, of beauty, of grace, of dignity. She was elegant and she was eloquent. She was the epitome of refinement, but she was committed. She was intellectual, she was a lady of principle, and she was an advocate for justice.

JUANITA WAS a person of great courage. She took on the toughest fight, but she fought it with dignity. Even in her illness, she took on that tough fight. I was happy to call her my friend, but I was happier for her to call me friend and confidante.

The poet wrote, "Full many a gem of purest ray serene, the dark unfathomed caves of oceans bear; full many a flower is born to blush unseen, and waste its sweetness on the desert air." We are blessed and so happy that JUANITA's sweetness was not wasted, but that we and the world are better because she was here.

We wish Godspeed and the consolation of the Holy Spirit for her husband,

her children, and her grandchildren as we share in your loss and bid our good friend and colleague farewell.

Mr. CALVERT. Madam Speaker, I yield 1 minute to the gentleman from North Carolina (Mr. WATT).

Mr. WATT. Madam Speaker, I thank the gentleman for yielding time. I join with my colleagues in expressing sympathy and paying tribute to our friend and colleague, JUANITA MILLENDER-MCDONALD.

When you serve in a body of 435 people, you get to know some of the Members by face, some by name, and then you get to know some close up and personal. When you serve as chair of the Congressional Black Caucus, as I did for the last 2 years, you get to know your members on a close personal basis, and you get to know who will stand with you and fight, who will support you, who will cover your back for you. And that is how I got to know JUANITA MILLENDER-MCDONALD, because I knew she would stand and fight for what she believed in and she would be a friend.

So I remember her first and foremost as a friend and colleague, and pay tribute to her family and express my sincere condolences.

□ 2030

Ms. WATSON. Madam Speaker, I yield 2 minutes to the gentleman from Ohio, STEPHANIE TUBBS JONES.

Mrs. JONES of Ohio. Madam Speaker, I want to thank my colleague, DIANE WATSON, for organizing this event.

You know, when I think of JUANITA MILLENDER-MCDONALD, I think of this piece of poetry called "A Phenomenal Woman." In one of the lines in that piece of poetry, it says, "Does my sexiness upset you? Do you find it awful hard that I dance like I have oil wells growing in my back yard?" And JUANITA was like that. She danced and she walked and she showed off, and that is what I loved most about her.

When I came to Congress, I learned that we had Alabama roots. I learned that she was an AKA and I was a Delta. And on the floor of the House I would wear pink, and she would say, oh, you look good in that pink. And I would say, oh it is only faded red that I have on, because Deltas wore red.

We talked about issues affecting women. It was as a result of her work and that of Bob Ney that I had an opportunity to bring the Secretary of State of Ohio before a hearing and get him to answer questions. I thank JUANITA for that, to my best.

But I think the thing that JUANITA and I talked about most, and my words are to you, Keith, that she loved you. We talked about our sons. And African American sons are so important in the lives of mothers. And we used to talk about you. And I used to talk about Mervyn. And she loved her daughters, but we talked about our boys.

And I just want to say to the family, Jim and all, that we here in the Congress will miss JUANITA MILLENDER-MCDONALD. But the thing that we will always remember is she was right there on that aisle, right there, just sitting there talking, smiling, walking, being involved. And we thank God for JUANITA MILLENDER-MCDONALD.

And, God, you know, AKAs came first, but the Deltas were second. So I will always think of her as my sister. We are from the same root.

Mr. CALVERT. Madam Speaker, as my final speaker, I yield 3 minutes to the gentleman from California (Mr. ROHRABACHER), who has also had a difficult week. He lost his brother this week, and our condolences are with him, also.

Mr. ROHRABACHER. Madam Speaker, I lost two people who were very dear to me this last week, and one was my brother, who passed away Thursday morning, and JUANITA, who just passed away on Sunday.

It is really an amazing thing as I have thought about this, just about how similar these two people were, because my brother was very, very active in politics, but he was really non-ideological. He was someone who had a very good heart and was a very generous person, was always looking forward trying to help people get something done. Does that remind of you anybody else?

That was JUANITA. I mean, there wasn't an ornery bone in her body. And in politics, you know, we get kicked around and beat up a lot and people lie to us, and people say bad things about us, and I never saw JUANITA ever get mean or vengeful at all towards anybody.

And we used to travel back and forth in the airplane. I see some of my friends here who traveled on that same flight. And it was always such a joy to be with her and to spend 4 and 5 hours at a time going across the country. And you can't say that about everybody. Who else do you want to spend 4 or 5 hours with?

She was a wonderful person. She had a wonderful heart.

And my brother wasn't as successful as JUANITA. When he passed away, he really didn't have a lot of professional success.

JUANITA, as we have heard today, had enormous professional and personal success in her life, being a woman who reached up to the height here of power and authority and influence here in Washington, DC and our Nation's Capital.

But you know what? Whether it was that or whether it was my poor brother who passed away, both of them died of liver cancer, I might add. Both of them died of liver cancer, just so close to each other.

But, you know, when they lay us down in our casket, no matter what we

have accomplished in the material world, it is what we have done to try to help others, how good a heart we have, how generous we have been to other people, not just financially, but with our time and with our love and with our caring. Those are the things that we carry with us.

I believe my brother, he was a very accomplished and successful person in that way. And we certainly know that today, JUANITA was a wonderful success in her life. She cared about people. She never was captured by the meanness and orneriness that comes with politics sometimes.

She always wanted to get things done. She worked with me. Our districts came together in Long Beach and we worked together on so many programs for the people of Long Beach, especially in the areas of transportation and water and health care, and she was always there trying to talk to me, saying what can we get done.

I am a conservative Republican and she was a Democrat, but she always wanted to work together to try to do things to help other people. So I am very proud tonight to stand up and say that I will miss JUANITA. I am going to miss my brother, obviously. But this world has lost two wonderful souls, two wonderful human beings. And I am pleased to add my voice tonight to say, goodbye, JUANITA, and we are going to miss you. You had lots of love in your heart, and we love you. Bye-bye.

Ms. WATSON. Madam Speaker, I yield 2 minutes to the gentlewoman from California, HILDA SOLIS.

Ms. SOLIS. Madam Speaker, I would like to thank the gentlewoman from Los Angeles, Congresswoman WATSON, for holding this special event here for us to talk about one of our colleagues.

You know, I haven't been here very long in the Congress; but when I came in 2001, I knew that I had a friend here. JUANITA MILLENDER-MCDONALD at that time served as caucus Chair for the Women's Caucus and led the fight in so many ways for justice for women. And particularly, as a woman of color, she knew how deeply important it was to set herself up as a role model for all of us.

I remember her coming back and talking to me about events she did in her district. Every year annually she would raise funds and give grants out to domestic violence shelters and programs, and how she would have a big event with her community, and she kept inviting me. HILDA, you have got to see what we are doing out in our area; and it is something that you should take a look at.

She was there. She fought so hard for us during the Women's Caucus as she served her tenure, helping to promote women in the military. And she was very adamantly strongly, strongly supportive of women in the military.

And I know that her family, right now, needs our prayers and thoughts,

and we send those from our community and from my family, from my husband and myself, and want to thank her for all that she did to fight for us, for our transportation funding in Southern California, for the ACE project, which affects so many of the L.A. delegation members, and for her strong work and advocacy for people of color affected by HIV and AIDS.

So I want to thank her. And it is fitting to say that this evening, because this evening, after we finish our discussions here, we are going to talk about the uninsured. And Lord knows that our communities of color share a heavy burden, disparate treatment, disparities that exist with chronic illnesses, and one of those being cancer, particularly African-American women who many, many times go undiagnosed. We need to do more in this area. And so we think of her today. We honor her, and we thank her family for the time that she served with us here on Earth.

Mr. CALVERT. Madam Speaker, may I inquire how much time is remaining on both sides.

The SPEAKER pro tempore. You have 1 minute, and the gentlewoman has 1½ minutes.

Mr. CALVERT. I would close, Madam Speaker, by saying that we heard many great stories about JUANITA and remembrances of her life, and we have lost a great friend, a great champion for our home State of California, and a great champion for our country. And as we mourn her loss, our condolences are shared with her family. Godspeed, JUANITA.

Madam Speaker, I yield back the balance of my time.

Ms. WATSON. Madam Speaker, I yield 1½ minutes to Ms. MARCY KAPTUR from Ohio.

Ms. KAPTUR. Madam Speaker, I can say that Congresswoman MILLENDER-MCDONALD would be so happy to see Congresswoman YVETTE CLARKE in the chair tonight. And I thank Congresswoman DIANE WATSON for her compassionate service and certainly for this memorial service tonight. And I extend deepest condolences on behalf of the people of Ohio to the family of our beloved Congresswoman, JUANITA MILLENDER-MCDONALD, her husband, Jim, her children, her grandchildren.

Having had the great pleasure of serving with her during her entire tenure, let me say, when I think of JUANITA, I think of a woman who was resilient, who was strong, determined, refined, accomplished, persevering and, indeed, courageous, a pioneer with a great sense of humor and, as a minister's daughter, a boundless sense of hope.

Even today, for a woman to chair a full committee of this House is a rarity. And for an African-American woman, she created the mold, the first African-American woman in the history of this country to chair a full committee in this House.

Just a few weeks ago, a new volume of "Women of Congress" was published, and hers is the first name in that volume, commissioned by order of the Chair of the House Administration Committee, JUANITA MILLENDER-MCDONALD.

There are some people who teach us how to live and indeed, she did. And many people can teach us how to die, and she has done that with her great dignity and her courage.

Just a few weeks ago, when NANCY PELOSI of California was sworn in as our first Speaker, I had the great honor of being one of the two Democratic tellers. JUANITA, as Chair of the House Administration Committee, sat to my right. I shall never forget that moment, and I think she lived partly for that moment.

May her strength comfort her family in these trying moments of bereavement. I believe God holds close those who journey toward the light in this Easter and Passover season. And may the angels of mercy lift her and lift the spirits of those who love her and bring comfort and bring peace.

Ms. WATERS. Madam Speaker, Congresswoman JUANITA MILLENDER-MCDONALD was a remarkably committed legislator. As the first African-American woman to chair a full committee in Congress, she was deeply dedicated to the work of the House Administration Committee. Through her chair, she was working on landmark legislation to ensure the integrity of our voting system.

At home, Representative MILLENDER-MCDONALD worked every day for her constituents on the issues of healthcare, economic development and housing. Representative MILLENDER-MCDONALD was engaged in a serious effort to revitalize the public housing in her district and was involved in a series of tours and meetings with the Secretary of Housing and Urban Development (HUD), Alphonso Jackson, at both Imperial Courts and Nickerson Gardens aimed at providing better housing options for her constituents.

Recently, we joined together to lend our voices to the chorus of community leaders and residents in a successful effort to extend funding for Martin Luther King Hospital.

Representative MILLENDER-MCDONALD will be missed not only by her constituents in the 37th district, but by all of the people who were touched by her service.

Ms. HARMAN. Madam Speaker, in my office is a wonderful photograph of JUANITA and I, arms raised in victory. It was taken as I announced my intention to run for Governor of California in 1998. She was right there, and I was clearly buoyed by her presence. Our friendship was forged in that tough campaign, and it remained strong.

JUANITA was a popular and highly regarded Member of this House. Those are not easy things to achieve in a very competitive workplace, so it is worth asking how she did it.

First, she was a loyal friend. Once she decided to endorse or support you, she never flinched—no matter how hot the heat. And second, she was a pro. She had a clear idea of what legislators can do, and she worked hard.

The results are obvious. JUANITA MILLENDER-MCDONALD served California's 37th congressional district well.

When she came to Congress, she decided to add "MILLENDER" to her name in order to honor her mother. Surely she honored her mother. But she also honored her constituents—and this Congress.

A good friend, superb colleague and class act, JUANITA, you will be missed.

Mrs. MALONEY of New York. Madam Speaker, I rise today with a heavy heart as I remember my dear friend and colleague, Congresswoman JUANITA MILLENDER-MCDONALD. JUANITA passed away April 22nd in her home State of California. She will be remembered as a strong woman and formidable legislator who broke down many barriers by becoming the first African-American woman in history to chair a committee in Congress, the House Administration Committee, and the first African-American woman to serve on the Carson City Council and the first to chair two committees in the California State Assembly.

I really got to know JUANITA when I co-chaired the Congressional Caucus on Women's Issues and subsequently when she became the co-chair. She was a strong advocate for women's and minority rights and was a strong ally in the effort to combat human trafficking. JUANITA came to work with a passion and determination that is rarely found. She represented the 37th Congressional District with dignity and pride, proving to be an effective leader and caring Representative.

I especially want to extend my condolences to Congresswoman MILLENDER-MCDONALD's husband, James, and to her five children and grandchildren. You are in my thoughts and prayers.

Mr. SCOTT of Virginia. Madam Speaker, I wish to offer my sincerest condolences to the family of Congresswoman JUANITA MILLENDER-MCDONALD. My thoughts and prayers go out to them in their time of mourning.

Congresswoman MILLENDER-MCDONALD amassed many firsts and accomplishments during her life as a public servant by breaking racial and gender barriers. She was the first African-American woman to serve as Ranking Member and Chairman of the powerful House Committee on Administration. She was also the first woman to serve on the Carson City Council; the first to chair two powerful California State Assembly committees—the Insurance Committee; and the Revenue & Taxation Committee in her first term as a state legislator. She was also the first African-American Democratic Chair of the Congressional Caucus for Women's Issues and in that capacity she led the women on two groundbreaking meetings: One with U.N. Secretary General Kofi Annan to talk about the plight of women globally and another with the chairman of the New York Stock Exchange to develop strategies for increasing women's investments and net worth.

In recognition of women who served in our military, Congresswoman MILLENDER-MCDONALD initiated the first annual Memorial Day Tribute to Women in the Military at the Women's Memorial at Arlington National Cemetery and she led the fight to secure \$15 million for the maintenance of the memorial. Most recently secured \$50 million for counseling serv-

ices for our returning men and women serving in Iraq and Afghanistan.

During her 6 terms in the U.S. House of Representatives, her ability to reach across the aisle and effectively move bipartisan legislation was evident during her work on a range of issues, including ensuring equal rights for women and minorities, improving our education system, combating poverty, protecting voting rights, and stopping the genocide in Darfur.

Congresswoman MILLENDER-MCDONALD devoted her life to her family and to service on behalf of her constituents in the 37th District of California and to the Nation. Congresswoman JUANITA MILLENDER MCDONALD was truly a phenomenal woman. She is a friend and colleague who will be sorely missed.

Mrs. DAVIS of California. Madam Speaker, I rise today to express my deep sadness at the passing of my friend and colleague, Congresswoman JUANITA MILLENDER-MCDONALD, a dedicated public servant, who worked tirelessly on behalf of her constituents and her country.

I had the privilege to serve with Congresswoman MILLENDER-MCDONALD on the House Administration Committee and also previously in the California State Assembly, and can attest to the passion, dignity, and grace she brought to her work.

JUANITA MILLENDER-MCDONALD devoted much of her life to public service. In her career she was an educator and an advisor, a member of Carson's City Council, a California State assemblywoman and finally a Member of Congress.

Congresswoman MILLENDER-MCDONALD's passion and drive were unmatched. She was an unwavering advocate for minority rights. She was a champion of women's health issues. She was an adamant opponent of the genocide in Darfur. And she was committed to securing election reform and security for our Nation's ports.

I admired Congresswoman MILLENDER-MCDONALD's leadership and fervor in her many roles: as community leader, Member of Congress, and Chairwoman. All those who knew her and worked with her know the void she leaves with her passing. I extend my heartfelt condolences to her husband, James, her children and her grandchildren. She will be missed.

Mrs. MYRICK. Madam Speaker, I rise today to honor the late JUANITA MILLENDER-MCDONALD, who bravely fought a battle with cancer up until this past weekend. After a painful struggle, she's now at peace.

JUANITA and I both came to Congress in 1995. While we were on different sides of the aisle, I always respected her passion for a host of issues, and her willingness to work with the other side to find solutions. At only 68 years of age, it seemed she had many more years of public service ahead of her, and I'm sorry for the loss of a friend and colleague.

JUANITA became a good friend of mine back in 1999, when I was diagnosed with cancer. She made a point of reaching out to me to show her support, and I've always been grateful to her for going out of her way to lend a kind word and a compassionate smile.

Her passing is yet another reminder of how much more work is needed to continue our

Nation's War on Cancer, in spite of the progress that's been made so far.

Today we mourn the loss of a friend, and our thoughts and prayers go out to her husband James, and her children and grandchildren.

Mr. LANTOS. Madam Speaker, I come to the floor today with a heavy heart. The passing of the Honorable JUANITA MILLENDER-MCDONALD is being felt by all who knew her, and all who were touched by her career in public service. I want to extend my condolences to her family, friends and constituents in California's 37th District for their great loss.

In fact, we all have lost something in the Chairwoman's passing. For me, I lost a colleague, but my wife Annette and I also have lost a neighbor and friend.

Much has been said in these past days about what she meant to California and to the Congress as a whole. When she won her first election to the City Council of Carson, California, she committed herself to more than two decades of public service. As the first African-American woman to chair a committee here in the House, she was a trailblazer. And as the so-called "Mayor of Capitol Hill" she was charged with ensuring the smooth operation of the people's House, while overseeing the biggest expansion of the Capitol complex as the Capitol Visitors Center nears completion.

Madam Speaker, many of us are so busy that we don't have time to really get to know one another. Seeing JUANITA every morning on my way to the office was an extraordinary way to start off my day, and in the evening we would compare notes on our way home. I will truly miss seeing her and am heart broken by her untimely passing.

Congress has lost a singularly able and warm person whose contributions to the greater good for her District, the people of California, the country as a whole, and African-American women will live on. Our prayers are with her family as we all mourn the passing of Chairwoman JUANITA MILLENDER-MCDONALD.

Mrs. MILLER of Michigan. Madam Speaker, I wish to join my colleagues in expressing my sorrow over the passing of JUANITA MILLENDER-MCDONALD, the representative of California's 37th Congressional District. My thoughts and prayers go out to her constituents, her friends, and her family.

Madam Speaker, I had the opportunity to get to know JUANITA during the 109th Congress when we both served as members of the Committee on House Administration. While some might view oversight of election law and the day-to-day functions of the House as relatively uninteresting, I know that I do not, and I know that JUANITA, who served as ranking member at the time, did not think them trivial either.

Whatever topic was before the committee, JUANITA was dedicated to assuring that things were done fairly, properly, and effectively. She was vigorous in guaranteeing the integrity of the Federal elections process and was committed to ensuring that every eligible voter had free and unfettered access to the voting booth. Likewise, in her oversight of managing the House, she wanted to ensure that everyone on Capitol Hill had a safe and secure place to work or visit, while preserving the grandeur of the Capitol and the surrounding buildings.

This tenacity was something she demonstrated throughout her life, not just during the decade she spent in Congress. After raising her five children, she continued her own education, earning a bachelor's degree at the age of 40. She followed that up with a master's degree in educational administration. She was no stranger to hard work, and she was not afraid to take on a challenge.

One of JUANITA's most notable accomplishments occurred earlier this year. In January, she became the first African-American woman to chair a committee in the House of Representatives. It was something that made many Members of the House very proud, and it was a tremendous accomplishment for a woman whose life was full of monumental achievements.

I think it speaks volumes of JUANITA's dedication that she was here voting in this House, representing her constituents, until less than a month before cancer took her life. In fact, almost none of her colleagues were aware of her illness and how serious it had become until the week before she passed away. And through it all, she held a warm spirit and a kind smile.

Madam Speaker, I join my colleagues in sorrow for JUANITA's passing, and I again express my condolences to JUANITA's family, friends, and constituents.

Ms. MATSUI. Madam Speaker, it is with a heavy heart that I rise today to remember a pioneering woman, a fearless advocate for justice and equality, and a remarkable trailblazer who was dedicated to improving the lives of others. Congresswoman JUANITA MILLENDER-MCDONALD embodied all that members of Congress strive to be: she was a masterful navigator of Washington politics; she was a tireless champion for her constituents in Southern California; she was a focused and determined activist for the less fortunate all over the world. She was also a dear friend and valued colleague to those of us in Congress, and to so many others who were fortunate enough to know her on both a personal and professional level.

As the first African-American woman ever to wield the gavel of a full Congressional committee, JUANITA was proof of the milestones that can be achieved through dedication, intelligence, and political acumen. Her steady rise through the hierarchy of California politics—from a seat on the Carson City Council to a position in the California State Assembly, and finally to the Halls of Congress—instilled in her an unshakeable allegiance to the people who repeatedly elected her.

JUANITA's intense loyalty to her constituents was reflected in their own well-placed faith that she would represent them in a principled and thoughtful manner. She never let them down; indeed, her record as a public figure was characterized by an attention to the needs of her constituents, by a single-minded focus on achieving equality, and by adherence to the principle that democratic government should help those most in need.

Everything JUANITA did was colored by her passionate quest for equality. She used this intensity to her advantage, emerging as an effective and authoritative advocate for women's rights at home and abroad. Never afraid to tackle controversial issues or to use her posi-

tion as a bullhorn for reform, JUANITA's energy and enthusiasm for advancing the cause of women's rights propelled her into a leadership role from her earliest days in Washington.

Innovative ideas on this score seemed to emanate from JUANITA. She convened a first-of-its-kind meeting between women members of Congress and female Supreme Court justices to discuss women's issues. She carried the Families First Agenda to more than thirty states for the first time. She served as the first Democratic Chair of the Congressional Caucus for Women's Issues. Through it all, JUANITA was masterful at marshaling well-known and influential individuals to her cause without ever losing sight of her goal, which was to help create a society committed to justice, fairness, and equality.

It is fitting that JUANITA was such an outspoken and effective advocate for women's rights, for perhaps her greatest strength lay in her identity as a woman. She demonstrated for all of us—men and women alike—that being a member of Congress, a mother, and a grandmother at the same time was not merely a challenge. For JUANITA, it was a blessing to be embraced and cherished. As a grandmother myself, I looked to her as a role model for how to integrate the unique challenges of having a family with the equally exciting responsibilities that come from serving in Congress. Two of the most rewarding pleasures in life are raising a family and working for the public, and JUANITA's life is solid proof that a dedicated and forthright individual can accomplish both with poise, grace, and dignity.

I extend my deepest condolences to Congresswoman MILLENDER-MCDONALD's family. While this week my fellow Members and I lost a trusted colleague, confidant, and friend, their loss resonates more deeply than we can know. Nonetheless, I know that I speak for all of the Congress when I say that JUANITA MILLENDER-MCDONALD was someone we admired on a personal and professional level, someone whose absence will leave a void within us, and someone whose legacy of principled and determined leadership will not be forgotten.

Mr. CONYERS. Madam Speaker, I rise today in honor of my close and dear friend JUANITA MILLENDER-MCDONALD, whom I have worked with and known for many, many years. I am deeply saddened by the news of her untimely passing, and I would like to extend my sincere condolences to the family, friends, and constituents of this distinguished Member of Congress.

She came to Congress in 1996 and quickly moved up the ranks among her peers. Her commitment to excellence led her to achieve a series of political firsts, including, becoming the first African American woman to chair the Committee on House Administration, the first African American woman to serve on the Carson City Council; the first to hold the position of Chairwoman for two powerful California State Assembly committees in her first term, and the first African American woman to give the national Democratic response to President Bush's weekly radio address. She spoke her mind and was not easily intimidated by political pressure, regardless of from where it came.

Furthermore, in the 110th Congress, in addition to her Chairwomanship, she served on

eight full and sub-committees. One issue that the Congresswoman and I worked on closely together was the protection of one's fundamental and Constitutional right to vote. Our combined efforts on voting irregularities in Ohio ultimately led to the introduction of HR 4141 in 2005, which would amend the Help America Vote Act of 2002.

She believed that there are no more important responsibilities in the People's House of Representatives than ensuring that the ability to vote in free and fair elections is not compromised in any manner, which has not always been the case. She was a visionary, an advocate for justice for all Americans, and the embodiment of determination.

MILLENDER-MCDONALD was a role model and incredibly dedicated to the empowerment of woman and youth as the Founder and Executive Director of the League of African-American Women, and the Founder of the Young Advocates, a political leadership-training program for African-Americans between the ages of 18 and 35.

It has been an honor and a pleasure to serve with a distinguished woman of strength, integrity, and dynamism. Not only will I miss her dearly, but she will also be missed by the many people that she has touched throughout her service in Congress.

Mr. RANGEL. Madam Speaker, I rise to enter into the CONGRESSIONAL RECORD remarks on the life and work of the Honorable Congresswoman JUANITA MILLENDER-MCDONALD. Congresswoman MILLENDER-MCDONALD served seven terms for the 37th Congressional District as a Democrat in the U.S. House of Representatives. She died of cancer on April 22, 2007 at age 68.

Mrs. MILLENDER-MCDONALD was born in Birmingham, Alabama on September 7, 1938. She always placed education and women's rights in the forefront of her issues and values; after graduating from the University of Redlands with an undergraduate degree, she became a teacher for the Los Angeles Unified School District. When she attained her Master's Degree from California State University at Los Angeles, she gave up her job as a teacher to be an editor and writer for the school district. Her lifelong fight for women's rights emerged when she became the manuscript editor for *Images*, a textbook designed to enhance the self-esteem of young women.

Before running for local office, she was named the Director of Gender Equity Programs for the Los Angeles school district. In 1990, she was elected the first African American woman to the Carson City Council, and in 1992 the first woman to represent the 55th Assembly District in the California State Legislature in 1992. In both roles she attacked the congestion and transportation problems of California infrastructure. As an assemblywoman, she helped push the Alameda Corridor, a \$1.8 billion public works project to lay new tracks and build trenches and bridges. Her concern with transportation continued in her national office.

As a member of the House, she was appointed to the Committee on Transportation and Infrastructure and its Subcommittees on Aviation and Surface Transportation. She also served on the Committee on Small Business and as one of the ranking members on the

Subcommittee on Tax, Finance, and Exports. After two years in the House, she was named the Region One Democratic Whip, and was honored with the Watts Walk of Fame for her work on behalf of the 37th District. In 2006, the Congresswoman became the first African American chair of the House Administration Committee.

For her entire life, Congresswoman JUANITA MILLENDER-MCDONALD has fought for social justice. She was a leader in election reform, women's rights, and transportation solutions; she was a credit to her district and to all the people she served as a Representative of the United States. Her husband, five adult children and five grandchildren survive her. I commend her and her life's work, and ask my colleagues to recognize her memory.

Mr. SHULER. Madam Speaker, I rise today to honor the extraordinary life of Congresswoman JUANITA MILLENDER-MCDONALD. I was saddened to learn of her passing after her courageous battle with cancer, and my thoughts and prayers are with her husband, James McDonald, Jr., their five children and five grandchildren—as well as the people of the 37th district of California.

Congresswoman MILLENDER-MCDONALD served this Congress honorably for over five terms, during which time she was a tireless advocate for underserved communities in the U.S. and around the globe. Among her many accomplishments, Congresswoman MILLENDER-MCDONALD secured critical funding for counseling services for our servicemen and women returning from Iraq and Afghanistan, and was instrumental in the passage of important AIDS-prevention programs in Africa. The Congresswoman was also a staunch advocate for the rights of women, minorities, children, and the elderly.

Congresswoman MILLENDER-MCDONALD will also be remembered as a preeminent leader and trailblazer. She was the first-ever African-American or woman to chair the Committee on House Administration where she worked hard to ensure that all Americans would be guaranteed their rights at the voting booth. As the Democratic Chair of the Congressional Caucus for Women's Issues, Congresswoman MILLENDER-MCDONALD convened groundbreaking meetings with then-UN Secretary-General Kofi Annan to discuss global poverty programs, as well as the New York Stock Exchange to find ways to empower women in the workplace.

Madam Speaker, Congresswoman MILLENDER-MCDONALD led an exemplary life of public service that included her most recent position as the "Mayor of Capitol Hill". The House community lost a true friend. May God rest her soul.

Mr. LANGEVIN. Madam Speaker, I rise today to express my profound sorrow over the sudden loss of my colleague, JUANITA MILLENDER-MCDONALD who died of cancer on April 22, 2007. JUANITA was a trailblazer throughout her life and in the House of Representatives, and it was an honor for me to serve alongside her.

Born in Birmingham, Alabama, JUANITA was a former teacher in the Los Angeles public school system and served on the Carson City Council and in the California State Assembly before running for Congress in December

1995. Since then, she had been elected to Congress with an overwhelming amount of support from her constituents. The 37th district of California should be proud that they had such a strong and determined representative in JUANITA MILLENDER-MCDONALD.

JUANITA spoke out against injustices both in our country, especially on voting rights and election reform, and abroad, including genocide in Cambodia and Darfur, women's rights and human trafficking. Her hard work and ability to lead earned JUANITA the Chairmanship of the Committee on House Administration for the 110th Congress. This appointment also represented another barrier she broke through: JUANITA MILLENDER-MCDONALD was the first African-American woman to chair a House committee.

Having faced many obstacles in my own life, I can truly appreciate the barriers that JUANITA knocked down in her lifetime. I know her memory will live on forever, as will the opportunities she helped create for those who follow in her footsteps.

JUANITA is survived by her husband, James McDonald, Jr.; five children; and five grandchildren. May we keep her loved ones in our thoughts and prayers as they endure this difficult period.

Ms. ROYBAL-ALLARD. Madam Speaker, the loss this week of our dear friend and colleague JUANITA MILLENDER-MCDONALD was a great blow to this institution and to the people of the California's 37th Congressional District.

I extend my sincere condolences to her family during this time of sorrow, and I hope that they find some comfort in knowing how deeply loved and respected Juanita was by her constituents and by her colleagues here in the House of Representatives.

We honor her life and her accomplishments this week. Motivated by love of country, community and family, and inspired by her struggles as an African American leader and as a woman, she advocated for the rights of minorities and women in this country and throughout the world.

JUANITA was no less dedicated to the more parochial needs of her constituents and Southern California in general. As the tributes from her Committee colleagues highlight, she was a respected and effective member of the House Transportation and Infrastructure Committee, securing billions of dollars for her region and her state of California.

She worked tirelessly to secure transportation infrastructure investments, enhancing the economic security of the region and improving the quality of life for Los Angeles County residents. She will long be remembered by Angelenos for her leading role in making possible the construction of the historic Alameda Corridor.

She was also a woman of many firsts. In the California State Assembly, JUANITA became the first woman, in her first term, to chair the powerful Insurance and Revenue and Taxation Committees.

I know how proud she was to be the first African American woman to be named Honorary Curator of the Museum of Latin American Art in Long Beach.

Most recently, JUANITA became the first African American woman to hold the distinguished position of Chair of the powerful House Administration Committee in this 110th Congress,

overseeing the operations of the House of Representatives.

During her short term as Chair, her hiring and contracting practices within the House of Representatives reflected her deep commitment to diversity. She was a dedicated proponent of minority rights, and was the Founder and Executive Director of the League of African American Women, comprised of 40 African-American women's groups.

JUANITA was also the founder of the Young Advocates, a political leadership-training program for African-Americans between the ages of 18 and 35. She believed in embracing our youth and fought to give young people hope and opportunity for a better life. Juanita introduced legislation directing the Secretary of Education to study and report to Congress on the troubling dropout rate among Latino, Native American, American Samoan and African American high school students.

JUANITA will also be remembered as a strong advocate for human rights around the globe, speaking out against genocide in Cambodia, Darfur and other regions of the world where she fought against injustice and inhumanity. She worked with former Secretary of State Madelene Albright and Ambassador John Miller to address human trafficking and in support of women's rights around the world.

JUANITA MILLENDER-MCDONALD was a dynamic member of this House, who sought to maximize her influence to better the lives of her constituents, the residents of her county and State, and all people around the world in desperate need of assistance.

JUANITA was a loving wife, mother and grandmother. And she was a beloved colleague and friend who will truly be missed.

My husband Ed and I send our deep and sincere condolences to her husband, James, her five children and five grandchildren.

We will miss you JUANITA.

Ms. MCCOLLUM of Minnesota. Madam Speaker, I rise today in support of H. Res. 328, expressing the condolences of the House of Representatives on the death of the Honorable JUANITA MILLENDER-MCDONALD.

Congresswoman MILLENDER-MCDONALD was a strong advocate for women and human rights, speaking out against injustice in our country and around the world. She was the first African American woman to chair a Committee in Congress, and will be remembered for her commitment and dedication to ensuring that every American's vote counts.

As Co-Chair of the Congressional Caucus for Women's Issues in the 107th Congress, Congresswoman MILLENDER-MCDONALD worked tirelessly to ensure that women from both sides of the aisle participated in the activities of the Caucus. She was a warm and open person, and was a true mentor to me during my first term in Congress.

On behalf of the families of Minnesota's Fourth Congressional District, we extend our prayers and sincerest condolences to her husband, Mr. James McDonald, Jr., her children and all of her family and friends. Representative JUANITA MILLENDER-MCDONALD will be remembered and honored in the highest regard.

Madam Speaker, please join me in paying tribute to the life of Congresswoman JUANITA MILLENDER-MCDONALD.

Mr. GARY G. MILLER of California. Madam Speaker, I rise today to honor JUANITA

MILLENDER-MCDONALD. She was my colleague and, more importantly, she was my friend.

JUANITA and I served together in the California State Assembly and later in Congress. Each week we shared a flight back and forth from Southern California and we grew to be very good friends.

In Congress, we partnered on the House Transportation and Infrastructure Committee to address the unique and pressing transportation needs of Southern California. We joined together to bring a national focus to the importance of Southern California's goods movement, highway financing, and transit needs. As conferees for the SAFETEA-LU Act, together we worked hard to bring historic levels of Federal transportation funding back to the Southern California region.

I am saddened by the loss of a great public servant and colleague that fought for the needs of her constituents and the Southern California region with grace, dedication, and honor.

I am also saddened by the loss of a dear personal friend.

JUANITA was a kind and gentle soul who was called home far too soon. Her wisdom and leadership in Congress will be sorely missed. I join my colleagues in praying that she is in a better place and that her family is able to find peace in knowing the tremendous contributions she made to her State and Nation during her years of public service.

Mr. RUSH. Madam Speaker, on Sunday April 22, 2007, my dear friend and colleague Congresswoman JUANITA MILLENDER-MCDONALD was called home.

JUANITA was a great woman who worked passionately for justice and cared deeply for mankind. She was a phenomenal Congresswoman, a loving wife, mother and grandmother and a dutiful friend.

She made time for her constituents—and didn't just listen, but heard them, and spoke for them.

Madam Speaker, JUANITA began her tenure in Congress in 1996. She represented California's 37th Congressional District and was a proud leader in the Congressional Black Caucus where she championed the caucus' disparities agenda to advance economic development, expand access and affordability for health care, truly "leave no child behind" in our education policy and the list goes on.

She was a true legislator. For example, she authored several pieces of legislation focusing on health care, specifically woman's heart health. Legislation such as H.R. 51, a bill to support National Wear Red Day, and H.R. 52 the American Heart Month which called on women to take action and prevent heart disease were just a few examples of her legislative priorities.

JUANITA was a trailblazer, becoming the first African American woman to chair the House Administration Committee for the 110th Congress. She was known as the Mayor of Capitol Hill; overseeing the operational and safety needs of the Capitol compound.

She was truly a jewel and a joy to have known. In closing, I'm reminded of a passage from Proverbs 31:10–31 KJV, verse 10 which reads:

"Who can find a virtuous woman? . . . for her price is far above rubies."

Congresswoman MILLENDER-MCDONALD was a great woman, epitomizing humanity, humility and virtue. She will truly be missed.

Mr. HASTINGS of Florida. Madam Speaker, my presence on this floor today is marked by a sad and heavy melancholy over the loss of a friend and dearest colleague. We have lost a good friend, indeed a great friend, in Congresswoman JUANITA MILLENDER-MCDONALD. I wish to extend with deepest sincerity my sympathy and condolences to her family and to her constituents of Long Beach, Compton, and Los Angeles.

It is a common tradition in our society to look past the loss of the physical being in order to best preserve and cherish the personal being. However, the difficulty in this emerges when we constantly find ourselves reveling in the presence of that person as an everyday part of our lives. Congresswoman MILLENDER-MCDONALD will be so sorely missed. She was and is still a part of our everyday lives. It is hard to fathom the idea that we will never hear her voice again—for her eloquence and passion in speaking, and her unforgettable laughter, will ring in our ears. The strength and tenacity that propelled her through her life's work will continue to inspire us. As we continue our work in her memory, I encourage all of us to remember her as we walk through the hallowed Halls of Congress. If we stop and listen, we will hear her footsteps echo in these great marble corridors.

JUANITA'S accomplishments and achievements in life were many. But as we mourn the loss of her physical-self, we would do well to remember her compassionate-self, her temperate-self, which encompassed an unflinching dedication to public service. I most humbly thank Congresswoman MILLENDER-MCDONALD for her being an exemplary public servant. I praise her for her stalwart fight against cancer. At last, I am comforted by the fact that her truly unconquerable soul is yet unvanquished.

Mrs. LOWEY. Madam Speaker, I rise today to honor the legacy and accomplishments of our recently-passed colleague and dear friend JUANITA MILLENDER-MCDONALD.

JUANITA MILLENDER-MCDONALD's life epitomized one of a true leader. Her deep commitment to those she served led her to be the first African American woman to chair a committee in Congress.

JUANITA MILLENDER-MCDONALD's vision and leadership since 1996 will have a lasting impact on the House of Representatives. Her fight for full voting participation for all Americans and her tireless efforts for fair elections in the United States have helped millions of Americans and made our democracy stronger.

Madam Speaker, I urge all of my colleagues to join me in paying respect to the family of JUANITA MILLENDER-MCDONALD and in honoring her career in service to our country.

The SPEAKER pro tempore. All time for debate has expired.

Without objection, the previous question is ordered on the resolution.

There was no objection.

The SPEAKER pro tempore. The question is on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

□ 2045

SPECIAL ORDERS

The SPEAKER pro tempore (Ms. CLARKE). Under the Speaker's announced policy of January 18, 2007, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

JUANITA MILLENDER-MCDONALD

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from California (Ms. WATSON) is recognized for 5 minutes.

Ms. WATSON. Madam Speaker, it is with a heavy heart that I rise this evening to celebrate the life of my very good friend and colleague, Congresswoman JUANITA MILLENDER-MCDONALD.

I personally have known Congresswoman JUANITA MILLENDER-MCDONALD for over 30 years. Our time together spans back before her days as a Member of this distinguished body when I was member of the Los Angeles Unified School Board and she was there as an administrator and then as a California State legislator. And then on that road she was elected to the Carson City Council.

JUANITA's distinguished life is a life of "firsts." She is the first African American woman in history to chair the Committee on House Administration, which oversees the operation of the House, the Library of Congress, the Smithsonian Institute, and the National Zoo. The Committee on House Administration also oversees all Federal elections. JUANITA worked tirelessly to investigate all reports of voter irregularities and voter disenfranchisement. She was one of the first Members of Congress to call for a congressional hearing on reported voting irregularities in the State of Ohio. She played an important role in congressional election reform.

JUANITA MILLENDER-MCDONALD was also the first African-American woman to serve on the Carson City Council and the first to hold the position of chairwoman for two powerful California State Assembly committees in her first term.

Like myself, JUANITA MILLENDER-MCDONALD at heart was an educator. After raising five children, JUANITA, at the age of 40, returned to school and earned a bachelor's degree from the University of Redlands and a master's degree in educational administration from Cal State L.A.

She spent her early career in the classroom, teaching high school and working at a career center. It is here that JUANITA first demonstrated her ongoing interest in the lives of young people and issues that impact the lives of women and their children. But above all, JUANITA worked tirelessly for all the people in her community. And I want to say, all the people. She was a

people person who had an uncanny skill to build and sustain networks.

As a member of the Transportation and Infrastructure Committee, JUANITA worked, again, tirelessly to secure much-needed Federal assistance for Southern California's transportation needs, including funding for her passion: for the Alameda Corridor.

JUANITA's passing is a great loss to this institution as well as her constituents and as well as this Nation. She was a great citizen as well as a great person and would have made a lasting and important contribution to this body in her position as House Administration chair. She was making that contribution every single day.

And I would say to her, JUANITA, you missed the caucus. You missed the California Caucus. You missed the Black Caucus.

She said, I am so busy working, I don't have time for the caucuses. She was committed.

And on a personal note, Madam Speaker, when she was sworn in as a Congresswoman in her district, I went there. She had been sworn in here, and when she got up to speak, she said, You know, I was raised on a farm and I married early. And she said, I was so naive, when I had five children one after another, I just knew it was that orange juice, being raised on a farm. So I would tease her. I said, "JUANITA, watch out for the orange juice."

She was one of my closest friends and colleagues. She will be missed. And I want you to know she was raised by a father and her older sisters. She was the youngest. So she said, You know, on a farm we were wealthy. And she said, But it was my father who played the role of both parents. He set down the principles and values by which I run my life. So in honor of my father, I am adding as my middle name, my maiden name, his last name. So, therefore, she became JUANITA MILLENDER-MCDONALD. And if you ever saw her signature, it was one of the most beautiful, graceful signatures. And she always took time to write "JUANITA MILLENDER-MCDONALD." And I would go on correcting people when they said "JUANITA MCDONALD." I said, "No. JUANITA MILLENDER-MCDONALD."

So, JUANITA, we celebrate you and we know that you are here in these Chambers today. And to end my piece and allow the others, we did a taping with our voices on it, and at the end we sang to her "Dreamgirls." We will always be dreaming of our JUANITA MILLENDER-MCDONALD.

TRIBUTE TO THE HON. JUANITA MILLENDER-MCDONALD

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois (Mr. DAVIS) is recognized for 5 minutes.

Mr. DAVIS of Illinois. Madam Speaker, I join with my colleagues from all

across America who have spent much of the evening extolling the virtues of our colleague JUANITA MILLENDER-MCDONALD. Much has been said, and yet there is much that can, in fact, be added.

As a matter of fact, when I first came to Congress, JUANITA was one of the first persons that my wife and I met. So my wife immediately became a JUANITA MILLENDER-MCDONALD fan. And I said to her, Vera, it is all right for you to be a JUANITA MILLENDER-MCDONALD fan, but don't try to dress like her. We can't afford it.

JUANITA was, in fact, a charming, delightful, snazzy lady, the essence of femininity, but as tough as a nail. As a matter of fact, I don't know if a week went by that I didn't receive some communique from her talking about some issue or explaining something that she had done or something that she had worked on. And as I listened to all of my colleagues talk about her many "firsts," the first African American woman to serve on the Carson City Council, the first African American woman to render the national Democratic response to President Bush's weekly radio address, the first to be named Honorary Curator of the Museum of Latin American Art in Long Beach, and the first Democratic chair of the Congressional Caucus on Women's Issues. Obviously, she was many firsts. And I guess maybe the poet Homer had her in mind when he said that there are pioneer souls that go where highways never ran, but let me live in my house by the side of the road and be a friend to man.

And I guess he had JUANITA in mind as he talked about why would I live in my house by the side of the road as the race of men go by. Men who are good, men who are bad, men who are wise, foolish, but then so am I. So why would I not simply be, as JUANITA has been, one who understood the relationship between people, moving across aisles, moving across boundaries to accomplish and get things done.

So on behalf of my family and me and all of the residents of the Seventh Congressional District of Illinois, we extend our greatest condolences to her family and say that we too would hope to live in the house by the side of the road like JUANITA MILLENDER-MCDONALD and be a friend to mankind.

JUANITA MILLENDER-MCDONALD

(Mr. ELLISON asked and was given permission to address the House for 1 minute.)

Mr. ELLISON. Madam Speaker, I am so honored to see all of our colleagues rise and extol all of the great virtues of JUANITA MILLENDER-MCDONALD, talking about her historic firsts, her role as mayor, city councilperson, the first African-American woman to chair a committee in the House, and all of the

great things that she did, things that commanded the attention of the whole world.

But I just want to say, as a member of the freshman class, that coming to Congress, trying to figure out what is going on around here, things going by so quickly, JUANITA MILLENDER-MCDONALD had time for people in our situation, just trying to figure out what was happening. She had a moment to say, How is it going? Did you know where this was or where that was, and what can I do to help you?

So in life, Madam Speaker, people will often remember the great things that we did that command headlines and find things that we do that command public attention. But greatness is measured by the small things in life, and in those small things she was great also.

□ 2100

JUANITA MILLENDER-MCDONALD

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New Jersey (Mr. PAYNE) is recognized for 5 minutes.

Mr. PAYNE. Madam Speaker, yesterday we lost a devoted colleague and friend, Congresswoman JUANITA MILLENDER-MCDONALD.

Congresswoman MILLENDER-MCDONALD was a dedicated public servant who worked tirelessly on behalf of her constituents in the 37th Congressional District of California. As we know, prior to her coming to Congress, she made a name for herself as the first African American woman to serve on the City Council in Carson City and the chairwoman of two powerful committees, Insurance and Revenue.

But many people don't know that in recognition of women who served our country in uniform during wartime, Congresswoman MILLENDER-MCDONALD initiated the first annual Memorial Day Tribute to Women in the Military at the Women's Memorial at Arlington National Cemetery. And she led the fight to secure \$15 million for the maintenance of the memorial. She also secured \$50 million for counseling services for our returning men and women serving in Iraq and Afghanistan.

Bold initiatives have been her trademark. In 2005, Congresswoman MILLENDER-MCDONALD, along with other CBC members, unveiled a portrait of Joseph Rainey, the first African-American to be seated in Congress. She was very proud of that because she contacted members of his family who are alive today, and there was a tremendous celebration.

Internationally, she spoke out against genocide in Cambodia and Darfur and other regions of the world where human rights are in danger. She worked with former Secretary of State Madeline Albright and Ambassador

John Miller on human trafficking and women's rights issues globally.

She reminds me of a poem I learned as a youngster in elementary school, actually; but it is appropriate because her memory will live on. The poem is called, "The Arrow and a Song." It said:

"I shot an arrow into the air, it fell to Earth I know not where. For so swiftly it flew, my sight could not follow it in its flight.

"I sang a song into the air, it fell to Earth I know not where. For who has sight so keen and strong that can follow the flight of a song? But long, long afterwards in an oak I found the arrow still unbroke. And the song, from beginning to end, I found again in the heart of a friend."

And so I say that to say that what JUANITA did will live on. Her work for the persons who worked in the Library of Congress who were minorities and women who were being terminated, and we felt unfairly, she took on that responsibility to fight to see that those women, primarily, would be placed in other positions.

She worked hard, and the dignity and the beauty and her perfection were certainly noticed. And I can tell you, the women talk about the grace that she had. Well, let me make it clear that the men also noticed that grace and that beauty and that charm. And so we will remember her as she moves on up that highway.

JUANITA MILLENDER-MCDONALD

The SPEAKER pro tempore (Mr. ELLISON). Under a previous order of the House, the gentleman from California (Mr. SHERMAN) is recognized for 5 minutes.

Mr. SHERMAN. You know, it is heartwarming to sit here for a while and to listen to these personal tales of our good friend, JUANITA MILLENDER-MCDONALD.

I first got to know JUANITA in our days as activists during the 1980s on the Los Angeles County Democratic Central Committee. Both of us entered State government in the early nineties; both of us came here to Congress in the mid-90s.

JUANITA broke barriers. JUANITA led the charge. She was the first African-American woman on the Carson City Council, the first African-American woman to chair the Revenue and Taxation Committee of the California Assembly, where I enjoyed working with her on State tax issues. JUANITA was the first African-American woman to give the Democratic Radio Address response. And finally, she was the first African-American woman to serve as Chair of the House Administration Committee.

Now, her fine work on that committee has been detailed by so many of the prior speakers who have come to

this floor. And the prior speakers have also spoke of her work on the Transportation Committee, where we in Southern California are so grateful to her for her efforts on behalf of the Alameda corridor.

JUANITA will be missed, of course, by her husband James, by her five children and by her five grandchildren. She will be remembered here for her record of legislative accomplishment, and she will be remembered here for the spunk she showed every day. And finally, she will be remembered for the courage she showed in these final days, because JUANITA barely mentioned to her closest friends that she was a bit under the weather. Right up to the end she was fighting the good fight. JUANITA's courage and strength will be remembered.

JUANITA MILLENDER-MCDONALD

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from California (Ms. WOOLSEY) is recognized for 5 minutes.

Ms. WOOLSEY. JUANITA MILLENDER-MCDONALD. We already miss you, your beautiful face, your elegance and grace, your tenacity and spirit. Your absence will leave a void that will never, ever be filled. And that is what we know about you here without question in the House of Representatives, so we can only guess how much you are going to be missed by your beloved family. They, in their grief, however, can always take solace in their pride and in their love and their appreciation of such an amazing woman.

Beloved wife, mother of five, grandmother of five, Member of the California Assembly, Member of the United States House of Representatives, and in the end, the very first African American woman to become chairwoman of a full committee.

Because of this position, this elegant persuasive woman's portrait will hang in the Halls of Congress for the rest of time. And over the years she will watch over the activities of her House Administration Committee. And believe me, she will be expecting excellence. So while JUANITA rests, she expects each and every one of us to keep on going until we can go no more; and because of her example, we will do our very best.

We already miss you, JUANITA, and we will remember you always.

JUANITA MILLENDER-MCDONALD

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Guam (Ms. BORDALLO) is recognized for 5 minutes.

Ms. BORDALLO. Mr. Speaker, I also wish to thank my good friend from California (Ms. WATSON).

I, too, Mr. Speaker, want to take this opportunity to associate myself with the remarks made by our colleagues

this evening in tribute to Congressman JUANITA MILLENDER-MCDONALD.

On behalf of the people of Guam, I extend to her family our condolences. She was a strong and she was an effective leader for the people of the 37th Congressional District of California, and we are going to miss her here in Congress.

JUANITA took a special interest in the people of Guam. When I first met her, I was a freshman. She stopped me in the hall and she said, Are you the new representative from Guam? I said, yes. And she introduced herself and she said, I want you to know that I have many people from Guam in my district.

She attended our liberation wreath-laying ceremony at Arlington. I will never forget it. And each time we met, whether it was here on the floor or in the hall, she would always ask me about the people of Guam.

She was a strong leader. She made her mark here in Congress. And I extend to her family, her husband, her children, her grandchildren, our deepest sympathies.

God bless you, JUANITA, for everything that you did for the American people.

WHY THE ARMENIAN GENOCIDE MATTERS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. SCHIFF) is recognized for 5 minutes.

Mr. SCHIFF. Mr. Speaker, tonight I plan to speak on the anniversary of the Armenian genocide; but before I do, I want to join my colleagues in expressing my sincere condolence at the passing of JUANITA MILLENDER-MCDONALD, someone who in my very first days of Congress impressed me as a courageous, intelligent, dedicated public servant who, every time I went to her for help on an issue in her committee or outside her committee, was generous with her time and her energy, always ready to help, always of good cheer, and someone that I think enjoyed the unanimous and bipartisan respect of everyone in this body. Her memory will be cherished; her presence will be deeply missed.

Mr. Speaker, tomorrow marks the 92nd anniversary of the start of the Armenian genocide. In January, I introduced a resolution in the House, along with my colleagues, Mr. PALLONE, Mr. KNOLLENBERG and Mr. RADANOVICH, that would recognize the Armenian genocide. This resolution should be passed. Ghazaros Kademian is one reason why.

Ghazaros Kademian was just 6 years old when his family was forced into exile by Ottoman Turks bent on annihilating the Armenian people. His father was murdered by Turk gendarmes, and the rest of his family was forced to flee on foot to Kirkuk, where his moth-

er died from cold and hunger. He was separated from his siblings and orphaned.

Mr. Kademian's story is terrible, but is not remarkable. Over a million and a half Armenians were murdered in the first genocide of the last century as the Ottoman Empire used the cloak of war to wipe out a people it considered alien or disloyal. This mammoth crime was well known at the time. Newspapers of the day were filled with stories about the murder of the Armenians. "Appeal to Turkey to Stop Massacres" headlined the New York Times on April 28, 1915, just as the killing began. By October 7 of that year, the Times reported that 800,000 Armenians had been slain in cold blood in Asia Minor. In mid-December of 1915, the Times spoke of a million Armenians killed or in exile.

Thousands of pages of evidence documenting the atrocities rest in our own National Archives. Prominent citizens of the day, including America's ambassador to the Ottoman Empire, Henry Morgenthau, and Britain's Lord Bryce, reported on the massacres in great detail. Morgenthau was appalled at what he would later call sadistic orgies of rape, torture, and murder. "When the Turkish authorities gave the orders for these deportations, they were merely giving the death warrant to a whole race. They understood this well and made no particular attempt to conceal the fact."

Even those who most ardently advocated sweeping the murder of a million and a half people under the rug of history have conceded that the vast majority of historians accept the Armenian genocide as historic fact. And how could they not? For it was the Government of Turkey that in early 1919 held a number of well-publicized trials of some of the young Turk leaders and executed the Keimal Bey, governor of Diarbekir, specifically for his role as one of the Ottoman Empire's most savage persecutors of the Armenian people. The trials were as widely covered in the American press as was the genocide itself.

So if the facts are not in dispute, why are so many nations complicit in modern Turkey's strenuous efforts to deny the genocide ever took place? First, opponents argue that recognizing the unpleasant facts of the genocide and of the mass murder risk alienating an important alliance with Turkey. There is no question that Turkey is bitterly opposed to recognition and is threatening our military and commercial relationship, including access to the Incirlik air base, but Turkey has made similar threats to other nations in the past only to retreat from them and the European Union's insistence that Ankara recognize the crimes of its Ottoman's forebears before Turkey is admitted to the EU has not dimmed Turkish enthusiasm for joining the EU.

If Turkish relations with the U.S. do suffer, it is far more likely that the

genocide recognition will be a pretext. The Bush administration has done such a poor job managing our relations with Turkey over the last 6 years that we have already seen the limits of the U.S.-Turkish alliance tested and found lacking.

During the run-up to the war in Iraq, Turkey denied us permission to bring in ground forces from its soil, allowing the Saddam Fedeyeen to melt away and form the basis of a now persistent insurgency. Oddly enough, critics of recognition decry it as pandering to the victims, but are only too happy to pander to the sensibilities of an inconsistent ally, and one that has shown no qualms about accusing the U.S. of genocide in Iraq.

Second, opponents take issue with the timing of the resolution and argue that Turkey is making progress with recognizing the dark chapters of its history. This claim lost all credibility when Orhan Pamuk, Turkey's Nobel Prize winning author, was brought up on charges of "insulting Turkishness" for alluding to the genocide, and Turkish Armenian publisher Hrant Dink was gunned down outside his office in Istanbul earlier this year.

Tomorrow marks the 92nd Anniversary of start of the Armenian Genocide. In January, I introduced a resolution in the House that would recognize the Armenian Genocide. It should be passed. Ghazaros Kademian is one reason why.

Ghazaros Kademian was just 6 years old when his family was forced into exile by Ottoman Turks bent on annihilating the Armenian people. His father was murdered by Turk gendarmes and the rest of the family was forced to flee on foot to Kirkuk, where his mother died from cold and hunger. He was separated from his siblings and orphaned.

Mr. Kademian's story is terrible, but not remarkable. Over a million and a half Armenians were murdered in the first genocide of the last century as the Ottoman Empire used the cloak of war to wipe out a people it considered alien and disloyal. This mammoth crime was well known at the time; newspapers of the day were filled with stories about the murder of Armenians. "Appeal to Turkey to stop massacres" headlined the New York Times on April 28, 1915, just as the killing began. By October 7 of that year, the Times reported that 800,000 Armenians had been slain in cold blood in Asia Minor. In mid-December of 1915, the Times spoke of a million Armenians killed or in exile. Thousands of pages of evidence documenting the atrocities rest in our own National Archives.

Prominent citizens of the day, including America's Ambassador to the Ottoman Empire, Henry Morgenthau, and Britain's Lord Bryce reported on the massacres in great detail. Morgenthau was appalled at what he would later call the sadistic orgies of rape, torture, and murder. "When the Turkish authorities gave the orders for these deportations, they were merely giving the death warrant to a whole race; they understood this well, and . . . made no particular attempt to conceal the fact."

Even those who have most ardently advocated sweeping the murder of a million and a half people under the rug of history have conceded that the vast majority of historians accept the Armenian Genocide as historical fact. And how could they not—for it was the Government of Turkey that, in early 1919, held a number of well-publicized trials of some of the Young Turk leaders and executed Keimial Bey, the governor of Diarbekir, specifically for his role as one of the Ottoman Empire's most savage persecutors of the Armenian people. The trials, by the way, were as widely covered in the American press as was the genocide itself.

So if the facts are not in dispute, why are so many nations complicit in modern Turkey's strenuous efforts to deny the genocide ever took place? First, opponents argue that recognizing the unpleasant fact of mass murder risks alienating our important alliance with Turkey. There is no question that Turkey is bitterly opposed to recognition, and is threatening our military and commercial relationship, including access to the Incirlik air base. But Turkey has made similar threats to other nations in the past only to retreat from them and the European Union's insistence that Ankara recognize the crimes of its Ottoman forebears before Turkey is admitted to the EU has not dimmed Turkish enthusiasm for joining the EU.

If Turkish relations with the U.S. do suffer, it is far more likely that the genocide recognition will be a pretext; the Bush Administration has done such a poor job managing our relations with Turkey over the last six years that we have already seen the limits of the U.S. Turkish alliance tested and found lacking. During the run-up to the war in Iraq, Turkey denied us permission to bring in ground forces from its soil, allowing the Saddam Fedeyeen to melt away and form the basis of a now persistent insurgency. Oddly enough, critics of recognition decry it as pandering to the victims, but are only too happy to pander to the sensibilities of an inconstant ally, and one that has shown no qualms about accusing the U.S. of genocide in Iraq.

Second, opponents take issue with the timing of the resolution and argue that Turkey is making progress with recognizing the dark chapters of its history. This claim lost all credibility when Orhan Pamuk, Turkey's Nobel Prize winning author was brought up on charges for "insulting Turkishness" for alluding to the genocide, and Turkish Armenian publisher Hrant Dink was gunned down outside his office in Istanbul earlier this year. Yet some opponents go even further, such as a former Ambassador to Turkey who argued that the time may never be right for America to comment "on another's history or morality." Such a ludicrous policy would condemn Congress to silence on a host of human rights abuses around the world. After more than ninety years and with only a few survivors left, if the time is not right now to recognize the Armenian Genocide, when will it be?

But the most pernicious argument against recognition is the claim that speaking the truth would harm relations with Turkey "for no good reason." How can we claim the moral authority to decry the genocide in Darfur, as we must, if we are unwilling to deplore other

genocides when it would inconvenience an ally? Elie Wiesel has described the denial of genocide as the final stage of genocide—a double killing. If you don't think he's right, talk to Ghazaros Kademian. But you had better hurry.

GENERAL LEAVE

Ms. WATSON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material in the RECORD on H. Res. 328.

The SPEAKER pro tempore. Is there objection to request of the gentleman from California?

There was no objection.

□ 2115

WORCESTER, MASSACHUSETTS RE-MEMBERS THE ARMENIAN GENOCIDE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Massachusetts (Mr. MCGOVERN) is recognized for 5 minutes.

Mr. MCGOVERN. Mr. Speaker, I rise today to recognize the 92nd anniversary and commemoration of the Armenian Genocide. Yesterday, I had the privilege to join the Armenian-American community of Worcester, Massachusetts, including survivors of the Genocide and their families, and many dignitaries of Central Massachusetts and the Commonwealth at an event remembering the Armenian Genocide and the role it plays in understanding contemporary events.

I am submitting today for the RECORD a copy of the remarks I made at this special commemoration and an article that appeared in the Worcester Telegram and Gazette.

WORCESTER ARMENIAN GENOCIDE OBSERVANCE

I want to thank Father Terzian and the Armenian Church of Our Savior for inviting me to participate in this remembrance—and I'm very pleased to be here with Lt. Governor Tim Murray and the Mayor of Worcester, Konstantina Lukes. But I am especially honored to be here with the Worcester Armenian-American community, survivors of the Armenian Genocide, and their families.

There are several reasons why I look forward to this event each year.

First and foremost, it gives me an opportunity to reconnect with all of you, the Worcester Armenian-American community, and to thank you for all your fine work and contributions to our city.

Second, it is a moment when we recommit ourselves to pressing the United States government to officially recognize the Armenian Genocide.

And finally, it provides me each year with a moment to reflect on our world; and on how I as an individual, we as a community, and we as a Nation are responding to genocide and crimes against humanity that, sadly and unbelievably, are carried out nearly every day in some part of the world.

I believe that this year there is a very good chance that the U.S. House of Representatives might actually pass H. Res. 106, the Armenian Genocide Resolution.

I can tell that this is a real possibility because for the first time in years, I'm receiv-

ing materials arguing against the resolution and against the official recognition of the Armenian Genocide.

I believe adopting the Armenian Genocide Resolution is the right thing to do:

As a matter of morality—and in the name of humanity—the United States should recognize and condemn all genocides.

In the name of historic truth—and in honor of the historic role so many American diplomatic personnel and humanitarian and relief workers played in saving lives and condemning the genocide as it was taking place—the U.S. especially should recognize the Armenian Genocide.

And in the hope of preventing future genocides—we have to recognize and honor the truth of the past. Denial of the Armenian Genocide—just like denial of the Holocaust—makes future genocides more likely, not less.

No Nation, not Turkey or any other country, should be allowed to block the official recognition or commemoration or the teaching of historic truth about the Armenian Genocide.

It's ironic that the current Turkish government doesn't seem to realize that the more it denies the Armenian Genocide, the more people begin to think that there really is a connection between the Turks who carried out the Armenian Genocide at the beginning of the 20th century and today's 21st century government.

By denying the truth, Turkey undermines its own standing throughout the world, blocks its own acceptance into the European family, and increases regional tensions, especially with neighboring Armenia. Turkey's recognition of the Genocide, its reconciliation with the past, would widely be viewed as the act of a mature democracy, which the world would rush to embrace and reward.

This is why America must also officially recognize the Armenian Genocide.

A couple of weeks ago, I was in eastern Chad. And the reality of genocide was right before my eyes.

There are over 250,000 refugees from Darfur, Sudan living in camps inside Chad. Thanks to the many international and humanitarian workers who have chosen to work and help these survivors of the violence taking place every day in Darfur, the camps are well-organized and efficient.

But I'd like to describe for you some of what I saw—and what the Darfur refugees told me about what they had witnessed.

I met with individuals and families who had been forced to flee their villages in Darfur. Each had a story about loved ones murdered, homes destroyed, people and family left behind. Many didn't know if some of their family or children were even alive.

I talked with one woman who was harvesting onions at a small agricultural site in Camp Gaga, a Darfur refugee camp a couple of hours from the town of Abeche in eastern Chad. She held a tiny baby in her arms as she worked on her onion patch. She told me the Janjaweed attacked her village so quickly and so ferociously that she couldn't even bury her husband who was struck down in the attack; she barely had time to cover him with a sheet before she escaped with her baby and children. She feels guilty and thinks about this all the time. And she now hopes to stay alive and return, someday, to her village.

I met with several other men and women, refugees from Darfur, at the Goz Amer Camp near the town of Koukou, Chad. This is a much larger and older camp. Many of the people have been here for 3 years or so. These

people were being interviewed for the eyewitness testimony regarding crimes against humanity that some day may be reviewed by the International Criminal Court.

I went to eastern Chad to meet and talk with refugees from Darfur because the Government of Sudan wouldn't give me a visa to enter their country.

But sometimes things happen for a reason, I believe. Because not only did I learn about the reality of Darfur—I personally discovered Chad.

The war in Darfur is bleeding into Chad, as well as other neighboring countries.

While I was in Chad, two "towns"—Tiero and Marena, which actually consist of about 31 small villages—were attacked by "Janjaweed" militias operating inside Chad. According to the Chadian survivors who I talked to—they described their attackers as a combination of Sudanese Janjaweed and Chadian Janjaweed allies. They were armed. They were on horseback. The attacks started at about five in the morning, and came in about 3 distinct waves of attack. They shot randomly, at everything and everyone. Women, children, men, livestock, fell to the earth dead or wounded. Homes were burned to the ground. Abandoned crockery, left charred and broken.

These Chadians—now internally displaced inside their own country—were gathering in the thousands near Koukou—some estimates were 8,000-9,000. Many walked, some arrived on the backs of burros, and many others were being trucked in by humanitarian groups. U.N. agencies and NGOs were rushing to provide them with emergency aid and to set up an emergency operations site where people could receive food, water, medical aid, and some form of shelter from the relentless heat.

These new internally displaced now join the more than 140,000 Chadian IDPs.

I had the privilege to watch UNHCR, UNICEF, Doctors without Borders (Medicins sans Frontieres), the ICRC, Italian Aid, and the World Food Program work together to provide emergency relief to these traumatized people.

So this year, as we meet to remember and commemorate the 92nd Anniversary of the Armenian Genocide, I'm struggling to find meaning in the words, "Never Again."

I'm thankful to this community especially, which has worked tirelessly for nearly a century, to keep alive the historic memory of the Armenian Genocide and to speak out, condemn and organize against the genocides—too many—that mark the past nine decades of human history.

Thank you for your persistence. Thank you for your commitment to take action. Thank you for your generosity and compassion.

And thank you, once again, for including me in this special program.

[From the Worcester Telegram and Gazette, Apr. 23, 2007]

'LOOK AT DARFUR,' ARMENIANS SAY
GENOCIDE REMEMBRANCE RESONATES
(By Mike Elfland)

WORCESTER.—The region's Armenian community yesterday recognized a genocide that for many has a meaning with an intensifying importance.

References to Darfur and the recent slaying of a journalist who defied the Turkish government were made throughout yesterday's commemoration of what is known as the Armenian genocide. On April 24, 1915, hundreds of Armenian intellectuals, notably

political leaders, were rounded up and eventually killed by the Turkish government. More than 1.5 million Armenians would later die at the hands of the Ottoman Turks, with thousands forcibly removed from Armenia to Syria, where many died in the desert of thirst and hunger.

"We say, 'Look at Darfur,'" said Richard O. Asadoorian, the host speaker at the commemoration, referring to the region in Sudan where black Africans are being massacred by militias supported by the Arab-dominated government. Mr. Asadoorian urged Armenians not to let time lessen the importance of what happened 92 years ago.

Many survivors of the genocide eventually settled in the Worcester area. A significant Armenian population remains, and their pride in their ancestry was evident yesterday at the Armenian Church of Our Saviour Cultural Center on Boynton Street, where more than 200 gathered for a welcome history lesson.

Nancy Hovhanesian, Thomas Tashjian and Ara G. Asadoorian recounted stories told to them by grandparents and other older relatives who survived the genocide. Mrs. Hovhanesian talked of the great-grandparents she never knew and of how her grandparents' pain was absorbed by her mother.

Andrea Kisiel, a sophomore at South High Community School, shared her views of the genocide in an award-winning essay. Andrea took top honors for her take on "The Contemporary Relevance of the Armenian Genocide," the subject of an essay contest sponsored by the Greater Worcester Armenian Genocide Commemoration Committee.

Andrea, who is not of Armenian descent, wrote of a recent trip to Washington, where she visited the United States Holocaust Memorial Museum and had an eye-opening experience about history.

She wrote: "Then, I saw something that astounded me, surprised me, wrenched my heart out of my chest. There, on the wall commemorating all of the poor souls who had been discriminated against, snatched away from familiarity, and tortured ruthlessly until put to death, was inscribed my family name. My name which was not from Jewish descent. My name which was Polish and Catholic. My name that I had not the slightest idea could possibly be connected with a mass genocide. My very own name, there on the wall."

Although she has no known relatives who died in the Holocaust, said Andrea, the experience in Washington made her realize the importance of the Armenian genocide to its survivors.

Lt. Gov. Timothy P. Murray, U.S. Rep. James McGovern, D-Worcester, state Sen. Harriette L. Chandler, D-Worcester, and Mayor Konstantina B. Lukes were among the speakers at the 2½-hour commemoration. Both connected the past deaths of Armenians to the continuing genocide in the Darfur region of Sudan. Mr. McGovern has long pushed for increased U.S. involvement in saving thousands of refugees.

Mr. McGovern, who was greeted enthusiastically yesterday, backs legislation that would require the U.S. government to officially recognize the Armenian genocide. Some say the reluctance is tied to deference to Turkey's importance to America's interests abroad. Modern Turkey strongly rejects the characterization of what happened as genocide.

Loud applause erupted after the congressman said he would direct naysayers to a public library where they could learn about the

deaths of Armenians. "Facts are stubborn things," he said.

The main speaker was filmmaker Apo Torosyan, a native of Istanbul, Turkey, who now lives in Peabody. His documentary, "Voices," finished this year, is based on interviews with three survivors of the genocide. After he began making documentaries, Mr. Torosyan was not allowed to return to Turkey.

A 15-minute version of "Voices" was shown yesterday.

Mr. Torosyan spoke passionately about the Jan. 19 slaying in Turkey of Hrant Dink, a Turkish citizen of Armenian descent who was the editor of a Turkish-Armenian newspaper. His enemies included nationalist Turks who resented his use of the genocide label. He was killed outside his office in Istanbul.

The commemoration was organized by members of the Armenian Church of Our Saviour, Holy Trinity Armenian Apostolic Church and the Armenian Church of the Martyrs.

HEALTH CARE ISSUES AFFECTING MINORITY COMMUNITIES IN AMERICA

The SPEAKER pro tempore. Under the Speaker's announced policy of January 18, 2007, the gentlewoman from California (Ms. SOLIS) is recognized for 60 minutes as the designee of the majority leader.

GENERAL LEAVE

Ms. SOLIS. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks on the subject of my special order.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

Ms. SOLIS. Mr. Speaker, I thank the Speaker for the opportunity to serve as moderator for this special designated time for recognition under Special Orders for celebration of health care, and, in particular, the uninsured.

Tonight I have several colleagues who will be joining me to speak on different topics with respect to health care issues affecting minority communities. Just to give you a brief summary of some of the topics we will touch on, obviously reauthorization of SCHIP, language access, obesity, diabetes, cancer, tobacco, HIV and AIDS, health professions, community health workers, environmental health and Medicaid citizenship.

Mr. Speaker, tonight I rise to recognize National Minority Health Month. This week is Covering the Uninsured Week. Tonight you are going to hear from some of my colleagues representing the Congressional Black Caucus, the Congressional Hispanic Caucus and the Congressional Asian Pacific Islander Caucus and their efforts to improve health care in our communities.

Did you know that life expectancy and overall health have improved in recent years for large numbers of Americans due to an increase in and focus on

preventive medicine and new advances in medical technology? However, not all Americans are faring that well, particularly communities of color, which continue to suffer from significant disparities in overall rate of disease incidence, prevalence, morbidity, mortality and survival rates in the population, as compared to the health status of the general population.

The National Minority Health Month was launched in an effort to eliminate health disparities and to improve health status of minority populations across the country. This month was created in response to Healthy People 2010, a set of comprehensive health objectives established by the U.S. Department of Health and Human Services. Disparities continue to persist, and we must eliminate health disparities by identifying significant opportunities to improve health care.

There are disparities in the burden of illness and death experienced by African Americans, Hispanic Americans, Asian Americans, Pacific Islanders, and American Indian and Alaskan Natives as compared to the U.S. population as a whole.

I am pleased to once again be working with my colleagues in the Congressional Black Caucus, the Hispanic Caucus, and the Congressional Asian Pacific Islander Caucus to develop a comprehensive tri-caucus health disparities bill. Our bill will address the importance of language access, health professions, training, data collection and health coverage for immigrants. Our colleagues in the Senate are also working on a disparities bill, and I hope that they too will pass legislation that will truly save the lives of millions of minorities. We must do more to better the health of our population, which includes all communities of color.

With that, I want to just briefly touch on this issue of the uninsured. Today marks the start of the fifth year of Covering the Uninsured Week. Although the United States has one of the best health care systems in the world, not everyone has the means to access our health care system. The number of uninsured people affects us all and is a national problem that needs a national solution.

We all know that lack of health insurance results in reduced access to care. Access can be defined as the ability to get to health services, receive service at the right time, and obtain the appropriate services necessary to promote the best health outcomes possible.

Reduced access could mean that someone is less likely to have regular sources of care, less likely to receive preventive services and more likely to use emergency departments as primary sources of care. The long-term consequences of reduced access to care include lower quality of life, higher mor-

tality rates and the decline of the population's overall health.

Despite the growth of our economy, the number of uninsured persons continues to increase. In 2005, more than 44 million people were uninsured, and of that number, 14 million were Latinos.

The cost of private health insurance continues to rise astronomically, and we hear that every single day when we go back home to our districts. Health insurance premiums continue to rise by double-digit rates each year, and over 80 percent of the uninsured come from working families, people who are working and getting a paycheck. While two-thirds of uninsured children are eligible for public programs such as Medicaid and the SCHIP program, most are still uninsured.

These adults also are low-income populations who are not eligible for public programs but have incomes below 200 percent of the Federal poverty level. This group is composed predominantly of parents and childless adults who work but may have difficulty in obtaining and affording coverage. Due to the low Medicaid eligibility level for parents, many uninsured parents have children who qualify for public coverage but do not qualify, themselves, as parents. What an irony.

Members of racial and ethnic minority groups make up a large number, a disproportionate share, of the uninsured population. The uninsured rate for Latinos was 33 percent in 2005, 20 percent for African Americans and 18 percent for Asians and 30 percent for Native Americans. They lack health care coverage.

In addition to impacting health and the finances of the uninsured themselves, the lack of health care coverage has had repercussions for all of us in America. Many hospitals, as you know, are currently struggling under the strain of providing uncompensated emergency care to uninsured individuals.

In my own district in California, community health centers bear the brunt of responsibility for treating the uninsured. These community health centers are often the first place that the uninsured turn to when seeking health care services. These community health centers are a vital part of our health care safety net.

Poor health leads to poor financial status, and a never-ending cycle of low socioeconomic status often leads to poor health. The core values for a strong and secure America should include the right to universal access to affordable, high-quality health care for all.

In a country that prides itself on equality, it is evident that our health care system is broken when people suffer from a lack of access to health insurance and to quality care. We must make health care services affordable

and provide quality through linguistically and culturally competent services for all Americans. That must be our national priority.

I want to refer myself to the State Children's Health Insurance program, known by many as SCHIP, which covers currently 6 million children, building on Medicaid's coverage of 28 million children. However, statistically speaking, 9 million children remain uninsured.

Over the past decade, SCHIP and Medicaid together have reduced the uninsured rate among low-income children by one-third. We know that uninsured children are more likely to receive cost-effective preventive services and are healthier, which leads to greater success in school and life. Although programs such as SCHIP and Medicaid have decreased the number of uninsured children, the lack of funding and outreach efforts have left millions of those children ineligible without any coverage. Reducing disparities in children's access to health care is extremely important and should be one of our biggest priorities here in Congress.

For example, uninsured African American and Latino children are less likely to have a personal doctor and are more likely to forego needed medical care than any other group of uninsured children. More than half of insured African American children, 51 percent, and insured Latino children, 50 percent, are covered by Medicaid and SCHIP. Nearly 95 percent of eligible but uninsured children live in families with incomes below 200 percent of the Federal poverty level, which is \$33,200 for a family of three, and over 40 percent of this population is Latino.

Enrollment in SCHIP has proven to reduce disparities in access to health care services as well as reducing the coverage gap for minority children. More than 80 percent of African American children and 70 percent of uninsured Latino children appear to be eligible for this public coverage, but currently are not enrolled.

Additional funding for SCHIP, as you know, is necessary for the coverage of all uninsured. SCHIP plays a critical role for children of color. After SCHIP was created back in 1997, the percent of uninsured children steadily declined from a high of 15.4 percent in 1998 to a low of 10 percent in 2004, and for racial and ethnic minorities the decline was remarkable. In 1998, roughly 30 percent of Latino children, 20 percent of African American, and 18 percent of Asian Pacific Islander children were uninsured. In 2004, those numbers had dropped to about 21 percent, 12 percent and 8 percent respectively.

In addition to reducing the coverage gap for minority children, SCHIP enrollment has helped to reduce disparities in access to health care services. For example, a study of children enrolled in New York's SCHIP program

for one year found an almost complete elimination of these disparities and the number of children with unmet health care needs decreased. A study from California's SCHIP population confirmed those results as well. Across racial and ethnic groups, SCHIP enrollment was associated with a significant reduction in disparities and access to needed care.

We need adequate SCHIP reauthorization. Currently there is insufficient Federal funding for SCHIP to cover the children currently enrolled. We need additional money to cover them and to expand coverage to uninsured children who are eligible.

In order to expand health coverage for minority children, we also need to address the underlying barriers to enrollment in Medicaid and SCHIP that minorities are more likely to face; as an example, the distrust of government and a health care system where language may not be spoken adequately to the different groups that are affected. And misinformation about eligibility rules is often complicating the process for many who don't understand the paperwork.

Enrollment strategies targeted to minority communities, including the use of community health workers, known as promotoras, could help guide families through the enrollment process and have been proven to increase enrollment and reduce disparities. We must improve outreach efforts and simplify enrollment in order to reach the millions of unenrolled children from communities of color who are eligible for Medicaid and the SCHIP program. This year, with the reauthorization of SCHIP, this is an opportunity for us to address racial and ethnic disparities in children's access to health care. I hope that we can work together with our colleagues across the aisle to begin the debate and see that we reauthorize these programs that are so vitally needed.

I am very pleased this evening to have one of my colleagues, the gentlewoman from Guam, who has chaired the Congressional Asian Pacific Islander Caucus Task Force on Health who has joined me this evening. She has been a pioneer on health care access and will give us, I am sure, very informative data regarding the problems that are faced currently in the Asian Pacific Islander community. I welcome her this evening.

I gladly yield to the gentlewoman.

Ms. BORDALLO. Mr. Speaker, I want to thank my colleague and good friend, HILDA SOLIS, for bringing this forum together.

Tonight I come to the floor to take part in a very important dialogue about National Health Month that has been organized, as I said earlier, by my colleague from California, Congresswoman HILDA SOLIS. Congresswoman SOLIS' leadership in the area of minor-

ity health disparities, particularly with regard to environmental health factors, is strong and it has raised awareness of these issues on Capitol Hill.

I thank her for yielding me the time, and I commend her for her efforts, along with those of the members of the Congressional Hispanic Caucus, the Congressional Black Caucus, and my colleagues in the Congressional Asian Pacific American Caucus, in ensuring that minority health disparities are on the national agenda.

□ 2130

I am here tonight as the Chair of the Congressional Asian Pacific American Caucus Health Task Force to recognize April as National Minority Health Month. Designated in 2001, National Minority Health Month is sponsored by the National Minority Quality Forum, an organization dedicated to addressing and eliminating the disparity in care, treatment, and access faced by racial and ethnic minority populations.

The National Minority Quality Forum has been a leader in addressing these disparities and since 2004 has hosted a national summit each year to address these issues. Because the fourth annual summit began today in Washington, D.C., this is an opportune time to bring further awareness of the increasing need to address health disparities. It is very important that within this dialogue surrounding minority health disparities, that the needs of Asian American and Pacific Islanders are included. Asian Americans and Pacific Islanders face a number of hurdles towards receiving adequate health care stemming from linguistic and cultural challenges, and a lack of data collection.

Based on the following statistics, the health care disparities in the Asian American and Pacific Islander community become readily apparent, according to the President's Advisory Commission on Asian American and Pacific Islanders.

Ms. SOLIS covered in detail the lack of insurance coverage. I am here to give statistics on the diseases prevalent among minorities.

Asian American and Pacific Islander women have the lowest rate of cancer screening compared to other ethnic groups. Asian Americans and Pacific Islanders make up over half of the cases of chronic hepatitis B. Asian Americans and Pacific Islanders make up 20 percent of all cases of tuberculosis; and Vietnamese Americans are 13 times more likely to die of liver cancer than Caucasians.

There are many diseases and illnesses that disproportionately affect communities of color, ranging from HIV/AIDS to diabetes. Hepatitis B, which disproportionately affects the Asian American and Pacific Islander community, is often overlooked.

Today as we recognize National Minority Health Month, I would like to take this opportunity to raise awareness about this deadly disease. Hepatitis B is an infection caused by the hepatitis B virus. Usually, people infected with the disease do not show early symptoms. But if left undetected, it may lead to cirrhosis of the liver, liver failure, and liver cancer. The statistics regarding hepatitis B are alarming. According to the Asian and Pacific Islander American Health Forum, one in 10 Asian Americans and Pacific Islanders are chronically infected with hepatitis B.

And of all those infected with hepatitis B in the United States, 50 percent are Asian Americans and Pacific Islanders, and liver cancer is the leading cause of death for Laotian American men in California.

The promising thing with hepatitis B is there is a three-shot vaccination series that can prevent hepatitis B and its dire consequences. Unfortunately, only one in 10 Asian American and Pacific Islander children have received the vaccination series. So with the proper education, outreach, and funding, I hope that we can address the killer disease within the Asian-American and Pacific Islander community, increase the vaccination rate, address the need for early detection and monitoring, and improve the quality of life for the people and families that live with hepatitis B.

Additionally, I hope we take this opportunity during National Minority Health Month to strengthen data collection and dissemination that will lead to improved access to health care for all racial and ethnic minority communities across the United States.

Again, as the Chair of the Health Care Task Force for the Congressional Asian Pacific American Caucus, I want to thank my colleague, Ms. SOLIS, for organizing tonight's Special Order speech on the occasion of National Minority Health Month and for the purposes of generating greater attention and raising awareness to the disparities in access to quality health care that our minority communities face and that deserve to be eliminated.

Ms. SOLIS. I thank the gentlewoman from Guam, and I would like to at this time thank her for her hard work and deliberations in the past few years as a strong member of the tri-caucus working on health care issues. I know she is going to continue to lead and be a voice for those underrepresented communities.

I would like to now recognize a very special individual who is Chair of our Subcommittee on Health on Energy and Commerce, but also plays a very important role in representing the Native Americans in our great country and that is the gentleman from New Jersey (Mr. PALLONE).

Mr. PALLONE. Thank you. I want to thank my colleague from California

and also my colleague from Guam. I know that for a number of years now they have both been involved in the health care disparities issue, and have actually put together legislation that we have tried to get passed for several years. It was a little difficult with the Republican majority. And hopefully now with the Democratic majority, we can address those health disparities and concerns.

I would like to talk about the Native American aspect of this. And I also want to mention that addressing the concerns of minority health care is important in my district because we do have many Asian Americans. We have the largest number of Indian Americans of any congressional district, and by that I mean Asian Indian Americans, and also a large Latino and African American population in my district.

I just know when I go and visit some of the hospitals or community health centers, many times the issue is brought to my attention, whether it is data collection which has already been mentioned tonight, or it is the need for more minority health care professionals, be they doctors, nurses or whatever, or even that more research attention needs to be paid to diseases or afflictions that basically impact the minority communities in disproportionate ways.

It is very important that we address this and we need legislation, and we will move forward with the health care disparities legislation that my colleagues have really championed over the last few years.

I want to talk about Native Americans. I actually don't have any federally enrolled Native American tribes in my district or even in New Jersey. We have quite a few, we just don't have any recognized tribes at a Federal level. We have five that are State recognized. Unless you are federally recognized and enrolled with the Department of the Interior, you are not for the most part eligible for the health service.

American Indians are a little unique in that unlike most Americans, they have a right pursuant to their treaties and the Constitution to health care. When they gave their lands up to the Federal Government by treaty, they were given the right to health care. That, of course, doesn't necessarily mean they can all access it because a lot of them don't necessarily live on the reservation, and that is one of the reasons why we have urban health centers around the country, including several in California, because many Native Americans now do live in L.A. and in some of the larger cities, and don't necessarily live on their homelands on the reservations.

So we need to address their concerns in not only providing hospitals and clinics in their homelands, on the res-

ervations, but also in the urban areas where many now reside.

Unfortunately, in the last few years, and I know I sound so partisan and I don't mean to be, but the amount of money that was made available in the last 12 years under the Republican Congress was really not sufficient. There is a need for a lot more dollars. This year we did budget significantly more for the Indian Health Service, but we also need to reauthorize the Indian Health Service because it hasn't been reauthorized since 2000.

I have sponsored legislation called the Indian Health Care Improvement Act which will be marked up in the Resources Committee this year and will come to the Energy and Commerce Committee and the Health Subcommittee, and we will try to get it passed in this Congress.

When you talk about Native Americans and the disparities, the disparities are just incredible. When we had a hearing on the Indian Health Care Improvement Act in the Resources Committee a few weeks ago, I asked a question about how many American Indian or Native American doctors there were in the United States. I could not believe the number. There are less than 500, somewhere between 400 and 500 Native American physicians for a Native American population that is probably over 2 million. I don't know what that works out to percentage-wise, but there is clearly a need for scholarship and grant and loan programs that would specifically target the Native American community so we can have not 400 doctors but at least 4,000 or maybe 40,000 when you talk about a community that has over 2 million people.

And the same is true, and I don't have the statistics for nurses or other health care professionals, but there are really very few Native American health care providers, and we need to boost those numbers up and allow for opportunities to get more health care professionals.

With regard to actual treatment, if they are not on the reservation and able to access the Indian health care hospital or clinic, it is very difficult. There is a huge unemployment rate. Even if you are on a reservation, sometimes distances are great because many Native Americans live in rural areas where health care is simply not available.

We also have the phenomenon of diseases or afflictions that target that community. The incidence of diabetes, juvenile or type 2 diabetes, is for many tribes over 50 percent. I have been to some where the numbers are over 60 percent. We need a lot more research into the reasons why, in the example of diabetes, but I could talk about other diseases or health care problems, why the incidence is so high and what could be done.

For example, there has been some effort to look at nutrition as an answer, the feeling that many Native Americans, for example, used to live on a subsistence diet. If they were a desert people, they would eat foods that they gathered in a desert. Or they may have lived on a ranch or in a situation where they were getting a lot more natural foods, and now as those opportunities have eased to exist and they are eating processed foods, there is a lot of evidence to suggest that is a major reason for diabetes. This is the type of thing we need. We need research into those kinds of afflictions as to what is causing a better than 60 percent diabetes situation for a number of tribes.

Even transportation needs are there because of many of the problems that are in rural areas.

So I just wanted to say when you talk about the Native American population in this country, the disparities problem is so great that it has actually gotten to the point of crisis, in my opinion; and that is why we need legislation to deal with these disparity issues, and we need to reauthorize the Indian Health Service through the Indian Health Care Improvement Act.

And to the extent that we are looking at this from the Asian population, the Latino population, or whatever population, this type of initiative is very important. I just want to commend my colleagues again for being here tonight and speaking out because I do think we need to speak out. In many cases we are talking about people who don't have people to speak out for them other than a few of us. Thank you again.

Ms. SOLIS. I thank the gentleman from New Jersey for his kind words and knowledge and always helping Members to better organize their messages, particularly when it comes to health care and the need to improve access for all people in our great country.

As the gentleman says, the fact is that we are undergoing a change where our populations are exploding, our minority populations have increased, and we don't see more services provided, one of which is the Native American population. I have a significant Native American population in L.A. County and there is one center available for them. It is just horrifying to think that people have to travel so many counties just to get there. Lord help them if they have an episode of some sort, that they get there in time to receive the necessary care. To know that this is not a priority with the administration is very alarming. We need to prioritize this issue.

□ 2145

I again want to recognize my colleague from Guam to talk about some other very pressing health care issues that affect not just Asian Pacific Islanders but these other minority populations. So I would yield to her.

Ms. BORDALLO. Mr. Speaker, I thank the gentlewoman from California (Ms. SOLIS) for organizing this forum, and I would also like to thank my colleague from New Jersey (Mr. PALLONE) who joined us on the floor tonight to discuss this very important issue.

I am to cover cancer, and today is a very sad day for the House of Representatives. We have lost a dear colleague to cancer, and this is the second cancer-related passing this year in the House of Representatives.

Cancer is the second most common cause of death in the United States and accounts for one out of every four deaths. Unfortunately, health disparities in cancer continue to persist. Minority groups face unique problems and concerns about cancer, including higher rates of developing some cancers and barriers to early detection.

In 2001, the National Cancer Institute formed the Center to Reduce Cancer Health Disparities. In 2005, the center launched a new program to reduce cancer deaths among minority and underserved populations through \$95 million in grants that funded community-based projects in geographically and culturally diverse areas of our country.

Dr. Harold Freeman, a leader in reducing cancer health disparities, and former surgeon at Harlem Hospital, said that cancer disparities are attributable to three interacting factors: first, low socioeconomic status; second, culture; and third, social injustice.

Low socioeconomic status and lack of health insurance lead to disparities. Lack of coverage prevents many Americans from receiving optimal health care. Frequently, people are not getting screened and treated because they feel they cannot afford to pay for a test if they are uninsured. The same populations also express concern that if they are diagnosed with cancer they will not be able to get the care they need.

Culture also plays a role. Some Native American tribes do not use the word "cancer." When asked why they cannot discuss this disease, they say that in their culture, if they say the word "cancer," it will bring disease to all of their families.

It is necessary to understand the cultural beliefs of different populations when talking about diseases. According to Dr. Freeman, much of the disparity in cancer outcomes is a result of the cancer type, the time of diagnosis, and the continuity of cancer care, not the disease itself.

Screening and early detection are extremely important to avoiding cancer-related deaths. Many deaths from breast, colon and cervical cancer could be prevented by increased usage of established screening tests.

Although white and African American women aged 40 and older had the same prevalence of mammography use,

other racial and ethnic groups of women were less likely to have had a mammogram. The lowest prevalence of mammography use occurred among women who lacked health insurance and by immigrant women who lived in the United States for less than 10 years.

The incidence of some cancers is much higher in communities of color. For example, African American men are at least 50 percent more likely to develop prostate cancer than men of any other racial or ethnic group in the United States.

Latino males have the third highest incidence rate for prostate cancer after African Americans and whites. Death rates for Latino males reveal that they have the third highest death rates from prostate and colon and rectal cancer after African Americans and whites.

Asian Pacific Islander males have the third highest rate for lung and bronchus cancer and colon and rectal cancer.

Cervical cancer occurs most often in Latinas; the incidence rate is more than twice the rate for non-Latina white women. Among Latinas in the United States, cervical cancer ranks as the fourth most common type of cancer.

Although African American women are less likely to develop breast cancer than other women, those who do are about twice as likely to die from it.

Consequently, programs such as the National Breast and Cervical Cancer Early Detection Program are essential for low-income, uninsured and underserved women.

Although breast cancer is the leading cause of cancer death for Latina women, cancer screening rates are lower for Latinas.

Providing culturally appropriate health education and health services is so essential to preventing and treating cancer.

Again, I want to thank Congresswoman SOLIS for providing and organizing this forum.

Ms. SOLIS. Mr. Speaker, I thank the gentlewoman for joining us this evening and representing the caucus so well, the Asian Pacific Islander Caucus, and demonstrating a willingness to work across the aisle and in a coalition so that we can better improve access to health care for all underrepresented groups.

I want to talk very briefly before I recognize one of our other colleagues who has joined us here from the Congressional Black Caucus, SHEILA JACKSON-LEE.

I want to talk about diabetes because diabetes, in my opinion, is one of the major chronic illnesses. It does not just affect ethnic minority or underrepresented groups, but many, many people in our country.

One of the goals that I mentioned earlier of the Healthy People 2010 pro-

gram, a campaign underway, by the way, by the Department of Health and Human Services, is to reduce the disease and economic burden of diabetes and to improve the quality of life for all people who have or are at risk of getting diabetes.

Diabetes, as you know, is a chronic disease affecting both children, Type I, and adults, Type II. The number of people with diabetes has increased steadily in the past decade, and the increase has occurred within certain racial and ethnic groups.

Today, approximately 20.8 million Americans have diabetes, and of these people, an estimated 6.2 million individuals have not even been diagnosed. According to the Centers for Disease Control and Prevention, another 54 million people have pre-diabetes.

Complications of diabetes include heart disease, stroke, blindness, kidney failure, dental disease, pregnancy complications and amputations. These are very serious illnesses, and diabetes is now the sixth leading cause of death in the United States and costs the Nation over \$132 billion per year in direct and indirect costs.

Diabetes, as you know, is the leading cause of nontraumatic amputations, and about 150 amputations per day are due to diabetes.

Two million Latinos have been diagnosed with diabetes, and Latinos are 1.5 times more likely to have diabetes than whites, on the average, and many children with Type II diabetes are Latino or African American.

Reducing the incidence of diabetes and thus reducing racial and ethnic disparities involves diet and lifestyle changes. However, strategies to manage the disease and prevent the disease also need to be culturally sensitive and targeted to specific populations.

The number of overweight minority children has increased in recent years, and more of them are being diagnosed with adult-type diabetes. It is estimated that now at least 40,000 children now have Type II diabetes, which is the type of diabetes associated with adult obesity.

Regular diets of low-cost, high-calorie fast food and sodas, in addition to inadequate daily physical activity, have contributed to the prevalence of diabetes. Health education, as you know, is extremely important, and we need to teach people how to prevent diabetes because it is preventable. For people who already have diabetes, we need to teach them how to manage that disease.

In order to prevent or delay complications and early death from diabetes, patients need to understand the disease, take charge of blood glucose management, comfortably talk to their provider about diabetes care, and have access to equipment, supplies and prescriptions. Cultural competence and access to health care play a very large

role in preventing deaths due to diabetes.

Sixty percent of my district, as you know, is Latino, and I have seen firsthand the community clinics that have helped my constituents who are diagnosed with this deadly but preventable disease. A large proportion of the people who visit these clinics in my district are uninsured. When I see the packed waiting rooms, I understand how hard it is to manage this chronic illness. Even with appointments, people can have waiting times of several hours, resulting in loss of work.

A 2005 Commonwealth Fund study of public hospitals also found that African American and Latino patients were less likely than their white counterparts to have well-controlled diabetes, and uninsured patients received even less care. Public hospitals serve a high number of patients at high risk for not receiving access to needed health care. In the study, about two out of five patients with diabetes were uninsured, and two-thirds were members of racial and ethnic minority groups, and up to two-thirds of patients primarily spoke a language other than English.

Insurance status and race influences health care use and outcomes for diabetes patients. Uninsured patients have the worst diabetes control, and 33 percent do not have their condition under control now, which is almost double the rate for Medicare patients.

The routine costs for managing diabetes, to test and control glucose levels, can reach hundreds of dollars per month. Uninsured patients have difficulties paying for equipment to effectively manage their treatment. Consequently, the higher prevalence of diabetes and the inability to manage diabetes leads to more diabetes-related deaths in communities of color.

This is just one example of how social determinants impact our health care status, and I wanted to draw your attention to that.

This evening we have been joined by two members of the Congressional Black Caucus, and I would first like to recognize the gentlewoman from Texas (Ms. JACKSON-LEE). Thank you for joining us this evening.

Ms. JACKSON-LEE of Texas. Mr. Speaker, let me thank the gentlewoman from California for convening us this evening and providing such leadership to the issue of health disparities. And also I believe it is enormously important to emphasize the collaborative work between the Asian Pacific Caucus, of which I am a member, the Hispanic Caucus, of which I am an adopted daughter, and the Congressional Black Caucus.

I am also very pleased to be on the floor with our chair of the Congressional Black Caucus health brain trust, which I have been a Member on, I believe, for as long as I can remember, to join us for what is really an indictment

of American society. It is an indictment of this government, frankly, and the correction that is due is long overdue. That is the whole question of health disparities.

We have heard an eloquent presentation by HILDA SOLIS on the question of diabetes. We heard from the distinguished gentlewoman from Guam who spoke about the Pacific illnesses that impact the Asian Pacific community, and I rise to speak holistically about the health crisis in America that does not address the longstanding question of disparities in health care.

I am reminded of an African American gentleman in a Florida hospital just a few years ago who was to go into surgery and hopefully had all the T's crossed and I's dotted. Lo and behold, the wrong leg was amputated. He obviously suffered from, as we call in our community, sugar diabetes, and rather than be cured, unfortunately, his situation was made worse by amputating the wrong leg.

There is extensive documentation that indicates that the question of health access or access to health care falls heavily on minorities, and particularly African Americans. In fact, there is data to suggest that African Americans, when given access to the Nation's hospitals and other health facilities, that the care is less than it is for other populations. That, in itself, does not speak to the greatness of this Nation and the fact that this Nation is considered a world power.

□ 2200

If you want to speak to inequities of language, you will find in Hispanic communities, in particular, that before we started moving on community health clinics and really making a push to have culturally sensitive treatment, you will find in many instances that there was a lack of ability to communicate with Hispanic populations because of the language barrier. These, my friends, were citizens, people who were permanent legal residents, who could not get the proper health care.

Today, I rise to acknowledge the importance of National Minority Health Month, but really to give us a challenge that we maybe have come this far by faith, as many of us have been known to say, but we have a mighty long way.

Let me just share some of the indictments of poor health care in America. African American adolescents accounted for 65 percent of new AIDS cases reported among teens in 2002, although they only account for 15 percent of American teenagers.

We also recognize that the leading cause of death of young African American males between the ages of 15 and 24, that cause is not disease or accidental death, but homicide.

We recognize, as has been already noted, that obesity is an increasing di-

lemma for America. It certainly is a dilemma for minority populations and African Americans.

Let me express appreciation for joining Congressman DONALD PAYNE a few weeks ago for a very exciting conference on obesity, so much so that it was contagious. Those of us, as Members of Congress who were able to attend, with the University of New Jersey medical and dental school, are going to repeat that conference around the country. I know that we in Houston look forward to hosting a conference on obesity.

A few weeks ago, the Congressional Children's Caucus hosted, with the Congressional Black Caucus Foundation, a briefing on obesity, where we focused on what happens to obese children and obese infants as well.

Just a couple of days ago, I believe Friday, I was very gratified to participate with the Congressional Black Caucus Foundation and the CBC Health Brain Trust on the status of African American men, questions of mental health, the question of homicide, HIV/AIDS, domestic violence, abuse, and the preservation of the good health of African American men.

Every time I rise to speak about this question, I pay tribute to my father, my late father, a man who worked hard for his family, who believed that no job was beneath him to support his family, a man who was a brilliant artist. But because of segregation, the work that he had, he was, if you will, replaced when men came back who happened to be white, from World War II.

But even with all of those trials and tribulations, he kept his hand involved in art, and in the later part of his life, he got another chance to work 10 years for one of the comic book companies in New York. Who would have thought that he would have been a victim of prostate cancer. When I say a victim, not diagnosed, so much so that ultimately it metastasized to his lung and his brain. My most visual memory of him was him laying in a fetal position in a hospital bed, way before the time, and he died of that dastardly disease.

But I think one of the challenges was that in the male line of our family, that cancer is prevalent, but not being diagnosed, or having access to health care that would inform us, we saw uncles pass without really knowing what they were dying of.

So today, now, 2007, a tribute to my father, Ezra Jackson, and relatives across America who have died undiagnosed, whose families were not aware of, maybe, the DNA or their characteristics for these diseases, because of the poor access to health care. We stand today, one, wanting a universal access to health care system; two, passing the Congressional Black Caucus and the bill that went to the Senate, dealing with disparities in health care, that, as I understand, Dr.

CHRISTENSEN, we never got passed. We need to get it passed in this Congress.

Then I would just simply say that each of us must hold forums in our districts on the question of disparities in health care. As I do the obesity one, we look forward to putting together an advisory committee on black males that talks about health care as well.

Let me close by simply saying that I could recount for you any number of statistics on health care. I think my colleagues have accurately pronounced these challenges. But let me give a roll call to show you where we have these devastating, if you will, disparities, so that you won't think that we are limited, hypertension, high cholesterol, type 2 diabetes, coronary heart disease, stroke, gall bladder disease, osteoarthritis, asthma, bronchitis, sleep apnea and other respiratory problems, cancer, which is breast, colon and endometrial.

We expect that we will do a better job of trying, if you will, of trying to improve the health conditions in America. We must do so. It is a civil rights issue. I want to thank you so much for highlighting and provoking us to be part of the change of creating opportunities for better health for all Americans, and particularly those experiencing these health disparities.

Mr. Speaker, I rise to honor and recognize the importance of National Minority Health Month. National Minority Health Month is a very important time to bring awareness to the many health concerns facing minority communities. My colleagues in the Congressional Black Caucus and I understand the very difficult challenges facing us in the form of huge health disparities among our community and other minority communities. We will continue to seek solutions to those challenges. It is imperative for us to improve the prospects for living long and healthy lives and fostering an ethic of wellness in African-American and other minority communities. I wish to pay special tribute to my colleague, Congresswoman DONNA CHRISTENSEN, the Chair of the CBC Health Braintrust, for organizing an important conference last week on the health and wellness of African-American males. I thank all of my CBC colleagues who been toiling in the vineyards for years developing effective public policies and securing the resources needed to eradicate racial and gender disparities in health and wellness.

Let me focus these brief remarks on what I believe are three of the greatest impediments to the health and wellness of the African-American community and other minority communities. The first challenge is combating the scourge of HIV/AIDS. Second, we must reverse the dangerous trend of increasing obesity in juveniles and young adults. Finally, we must confront the leading cause of death of young African-American males between the ages of 15–24; that cause is not disease or accidental death, but homicide.

HIV/AIDS

In 1981, HIV/AIDS was thought by most Americans to be a new, exotic, and mysterious disease which seemed to inflict pri-

marily gay white males in New York City and San Francisco. But since then we have learned that in the America of 2006, AIDS is overwhelmingly a black and brown disease. And that means that we have to assume the major responsibility for finding the solutions to rid our communities of this scourge. Consider the magnitude of the challenge confronting us:

HIV/AIDS is now the leading cause of death among African-Americans ages 25 to 44—ahead of heart disease, accidents, cancer, and homicide.

The rate of AIDS diagnoses for African-Americans in 2003 was almost 10 times the rate for whites.

Between 2000 and 2003, the rate of HIV/AIDS among African-American males was seven times the rate for white males and three times the rate for Hispanic males.

African-American adolescents accounted for 65 percent of new AIDS cases reported among teens in 2002, although they only account for 15 percent of American teenagers.

Billions and billions of private and federal dollars have been poured into drug research and development to treat and “manage” infections, but the complex life cycle and high mutation rates of HIV strains have only marginally reduced the threat of HIV/AIDS to global public health.

Although the drugs we currently have are effective in managing infections and reducing mortality by slowing the progression to AIDS in an individual, they do little to reduce disease prevalence and prevent new infections. It simply will not suffice to rely upon drugs to manage infection. We can make and market drugs until we have 42 million individually tailored treatments, but so long as a quarter of those infected remain detached from the importance of testing, we have no chance of ending or even “managing” the pandemic.

Currently, the only cure we have for HIV/AIDS is prevention. While we must continue efforts to develop advanced treatment options, it is crucial that those efforts are accompanied by dramatic increases in public health education and prevention measures.

Learning whether one is infected with HIV before the virus has already damaged the immune system represents perhaps the greatest opportunity for preventing and treating HIV infection. According to the Centers for Disease Control (CDC), between 2000 and 2003, 56 percent of late testers—defined as those who were diagnosed with full-blown AIDS within one year after learning they were HIV-positive—were African-Americans, primarily African-American males.

African-Americans males with HIV have tended to delay being tested because of psychological or social reasons, which means they frequently are diagnosed with full-blown AIDS soon after learning they are infected with HIV. This is the main reason African American males with AIDS do not live as long as persons with HIV/AIDS from other racial/ethnic groups.

Researchers have identified two unequal tracks of HIV treatment and care in the United States. In the first, or “ideal track,” a person discovers she or he is HIV-infected, seeks medical care, has regular follow-ups, and follows a regimen without complications. Persons in this track can now in most cases lead a normal life.

But some individuals follow a second, more-dangerous track. These individuals come to the hospital with full-blown AIDS as their initial diagnosis. They may have limited access to care because of finances or because other social or medical problems interfere. The vast majority of deaths from HIV/AIDS are among this second group. And the persons making up this group are disproportionately African-American males.

I have strongly supported legislation sponsored by CBC members and others to give increased attention and resources to combating HIV/AIDS, including the Ryan White CARE Act. I support legislation to reauthorize funding for community health centers (H.R. 5573, Health Centers Renewal Act of 2006), including the Montrose and Fourth Ward clinics in my home city of Houston, and to provide more nurses for the poor urban communities in which many of these centers are located (H.R. 1285, Nursing Relief Act for Disadvantaged Areas). I have also authored legislation aimed to better educate our children (H.R. 2553, Responsible Education About Life Act in 2006) and eliminate health disparities (H.R. 3561, Healthcare Equality and Accountability Act and the Good Medicine Cultural Competency Act in 2003, H.R. 90).

Twenty-five years from now, I hope that we will not be discussing data on prevalence and mortality of HIV/AIDS among African-American males, but rather how our sustained efforts at elimination have come into fruition. But for us to have that discussion, we must take a number of actions now. We must continue research on treatments and antiretroviral therapies, as well as pursue a cure. We absolutely have to ensure that everyone who needs treatment receives it. And we simply must increase awareness of testing, access to testing, and the accuracy of testing. Because we will never be able to stop this pandemic if we lack the ability to track it.

African-Americans males are eleven times as likely to be infected with HIV/AIDS, so we must make eleven times the effort to educate them until HIV/AIDS becomes a memory. If we do not, then the African-American male will indeed become an endangered species.

When it comes to the scourge of HIV/AIDS, the African-American community is at war. It is a war we absolutely have to win because at stake is our very survival. With HIV/AIDS we need not wonder whether the enemy will follow us. The enemy is here now. But so is the army that can vanquish the foe. It is us. It is up to us. For if not us, who? If not now, when? If we summon the faith of our ancestors, the courage of our great grandparents, and the determination of our parents, we will march on until victory is won.

OBESITY

Although the obesity rates among all African-Americans are alarming, as Chair of the Congressional Children's Caucus, I am especially concerned about the childhood obesity epidemic among African-American youth. More than 40 percent of African-American teenagers are overweight, and nearly 25 percent are obese.

Earlier this year, my office in concert with the office of Congressman TOWNS and the Congressional Black Caucus Foundation, held

a widely-attended issue forum entitled, "Childhood Obesity: Factors Contributing to Its Disproportionate Prevalence in Low Income Communities." At this forum, a panel of professionals from the fields of medicine, academia, nutrition, and the food industry discussed the disturbing increasing rates of childhood obesity in minority and low-income communities, and the factors that are contributing to the prevalence in these communities.

What we know is that African-American youth are consuming less nutritious foods such as fruits and vegetables and are not getting enough physical exercise. This combination has led to an epidemic of obesity, which directly contributes to numerous deadly or life-threatening diseases or conditions, including the following: hypertension; dyslipidemia (high cholesterol or high triglyceride levels); Type 2 diabetes; coronary heart disease; stroke; gallbladder disease; osteoarthritis; asthma, bronchitis, sleep apnea, and other respiratory problems; and cancer (breast, colon, and endometrial).

When ethnicity and income are considered, the picture is even more troubling. African-American youngsters from low-income families have a higher risk for obesity than those from higher-income families. Since the mid-1970s, the prevalence of overweight and obesity has increased sharply for both adults and children. According to the Centers for Disease Control and Prevention (CDC), among African-American male adults aged 20–74 years the prevalence of obesity increased from 15.0 percent in 1980 survey to 32.9 percent in the 2004.

There were also increases in overweight among children and teens. For children aged 2–5 years, the prevalence of overweight increased from 5.0 percent to 13.9 percent; for those aged 6–11 years, prevalence increased from 6.5 percent to 18.8 percent; and for those aged 12–19 years, prevalence increased from 5.0 percent to 17.4 percent.

As the debate over how to address the rising childhood obesity epidemic continues, it is especially important to explore how attitudes, environmental factors, and public policies influence contribute to obesity among African-American males. Some of these contributing factors are environmental, others are cultural, still others are economic, and others still may be lack of education or information. But one thing is clear: we must find ways to remove them.

GUN VIOLENCE AND HOMICIDE

The third and final health challenge confronting the African-American community, and African-American males in particular, involves the issue of gun violence and homicide. This must be a priority health issue for our community. Over 600,000 Americans are victimized in handgun crimes each year, and the African-American community is among the hardest hit.

One week ago, on Monday, April 16, 2007, at Virginia Tech University, one of the nation's great land grant colleges, we witnessed senseless acts of violence on a scale unprecedented in our history. Neither the mind nor the heart can contemplate a cause that could lead a human being to inflict such injury and destruction on fellow human beings. The loss of life and innocence at Virginia Tech is a tragedy over which all Americans mourn and the thoughts and prayers of people of goodwill

everywhere go out to the victims and their families. In the face of such overwhelming grief, I hope they can take comfort in the certain knowledge that unearned suffering is redemptive.

Thirty-three persons died in the massacre at Virginia Tech. But there is a much less noticed, though no less devastating, massacre and loss of life going on in African-American communities across the country. Since 1978, on average, 33 young black males between the ages of 15 and 24 are murdered every 6 days. Three-quarters of these victims are killed by firearms.

In 1997, firearm homicide was the number one cause of death for African-American men ages 15–34, as well as the leading cause of death for all African-Americans 15–24 years old. The firearm death rate for African-Americans was 2.6 times that of whites. According to the Centers for Disease Control, the firearms suicide rate amongst African-American youths aged 10–19 more than doubled over a 15 year period. Although African-Americans have had a historically lower rate of suicide than whites, the rate for African-Americans 15–19 has reached that of white youths aged 15–19.

A young African-American male is 10 times more likely to be murdered than a young white male. The homicide rate among African-American men aged 15 to 24 rose by 66 percent from 1984 to 1987, according to the Centers for Disease Control. Ninety-five percent of this increase was due to firearm-related murders. For African-American males, aged 15 to 19, firearm homicides have increased 158 percent from 1985 to 1993. In 1998, 94 percent of the African-American murder victims were slain by African-American offenders.

In 1997, African-American males accounted for 45 percent of all homicide victims, while they only account for 6 percent of the entire population. It is scandalous that a 15-year-old urban African-American male faces a probability of being murdered before reaching his 45th birthday that ranges from almost 8.5 percent in the District of Columbia to less than 2 percent in Brooklyn. By comparison, the probability of being murdered by age 45 is a mere three-tenths of 1 percent for all white males.

Firearms have become the predominant method of suicide for African-Americans aged 10–19 years, accounting for over 66 percent of suicides. In Florida, for example, African-American males have an almost eight times greater chance of dying in a firearm-related homicide than white males. In addition, the firearm-related homicide death rate for African-American females is greater than white males and over four times greater than white females.

As the tragedy this week at Virginia Tech University revealed, school shootings are sobering and tragic events that cause much concern for the safety of children. Homicides involving children and youth that are school related make up one percent of the total number of child and youth homicides in the United States. Most school associated violent deaths occur during transition times such as the start or end of the school day, during the lunch period, or the start of a semester.

Nearly 50 percent of all homicide perpetrators give some type of prior warning signal

such as a threat or suicide note. Among the students who commit a school-associated homicide, 20 percent were known to have been victims of bullying and 12 percent were known to have expressed suicidal thoughts or engage in suicidal behavior.

My legislative agenda during the 110th Congress includes introducing legislation to assist local governments and school administrators in devising preventive measures to reduce school-associated violent deaths. In devising such preventive measures, at a minimum, we must focus on:

Encouraging efforts to reduce crowding, increase supervision, and institute plans/policies to handle disputes during transition times that may reduce the likelihood of potential conflicts and injuries.

Taking threats seriously and letting students know who and where to go when they learn of a threat to anyone at the school and encouraging parents, educators, and mentors to take an active role in helping troubled children and teens.

Taking talk of suicide seriously and identifying risk factors for suicidal behavior when trying to prevent violence toward self and others.

Developing prevention programs designed to help teachers and other school staff recognize and respond to incidences of bullying between students.

Ensuring that each school has a security plan and that it is being enforced and that school staff are trained and prepared to implement and execute the plan.

My legislative agenda during the 110th Congress also includes introducing sensible legislation to assist law enforcement departments, social service agencies, and school officials detect and deter gun violence.

Again, thank you all for your commitment to working to find workable solutions to the health and wellness challenges facing our communities. I look forward to working with you in the months ahead to achieve our mutual goals.

Have a successful and inspiring conference. Ms. SOLIS. I thank the gentlewoman from Texas for joining us this evening.

Before I conclude with our discussion on the uninsured and celebrating, actually, a call to action, a call to action for all people of color and all Americans, that we have a balanced health care system that serves all of us, one last item I would like to bring up, before I recognize the gentlewoman from the Virgin Islands for the last 5 minutes is to talk a little bit about one of the biggest killers in our community, and it is about tobacco. Each year tobacco use kills more than 400,000 Americans and costs our country more than \$96 billion in health care costs.

According to the Centers for Disease Control and Prevention, tobacco use by pregnant women alone costs at least \$400 million per year due to complications such as low birth weight, premature birth and sudden infant death syndrome. Every day, 1,000 kids become regular smokers, one-third of whom will die prematurely as a result. Smoking is responsible for 87 percent of lung cancer deaths in the U.S.

Tobacco-related cancers are disproportionately higher among low-income and ethnic-minority communities. Because these groups have been repeatedly targeted by the tobacco industry, they unfairly carry a greater weight of the health and economic burden tobacco has in our country. For communities of color, tobacco addiction brings a disproportionate amount of death and disease to communities with low rates of health insurance coverage. Lung cancer is the leading cause of cancer among Latino men and second leading cause of death among Latinas.

Approximately 25,000 Latinos will die from smoking-related illnesses this year, surpassing all other causes of cancer. Each year, approximately 45,000 African Americans die from smoking-caused illness.

Native American adults have the highest tobacco use rates for all major ethnic groups. The prevalence of smoking is 37.5 percent among Native American, 26.7 among African American, and 24 percent among white men. This year it is expected that the rate of lung and cancer deaths for white males will be 73.8 per 100,000, while for African Americans it will be 98.4 per 100,000. Tobacco use is an important risk factor for coronary heart disease, the leading cause of death among Latinos.

Unfortunately, tobacco companies have increased their marketing to our minority communities, and I have seen advertisements in magazines popular with Latino youth. R.J. Reynolds is running ads for Kool cigarettes with images that appeal to Latinos.

I recently learned that the Kool Mixx campaign focused its marketing images around music and hip-hop, which appeals to African American and Latino youth. The Kool Mixx campaign included 14 music concerts around the country and a DJ competition, as well as a special theme park with cartons displayed on them.

In addition, the tobacco company placed advertisements in publications popular with Latino youth, like this one here, including "Latina" and "Cosmopolitan en Espanol." The ads include slogans like: "It's about pursuing your ambitions and staying connected to your roots." To reach everybody in our community, they not only use attractive Latino models, but they also make sure ads are in English and Spanish.

The cigarette companies have focused on African American populations as well. One company created a line of cigarette flavors like Caribbean Chill and Mocha Taboo and used images of African Americans to promote their cigarettes. This targeted marketing is having an impact on the rates that we are seeing, higher number of people smoking. In 2005, 22 percent of Latino high school students smoked, a 19 percent increase over 2003, when the smoking rate was down to 18 percent.

Smoking continues to be a huge public health risk for us, and we must not tolerate it in our communities. We have to stand up to these big corporations and say, enough advertising, let's speak the truth, let's talk about prevention, let's talk about awareness, let's talk about alternative lifestyles so we can have healthier communities.

I am pleased that we were able to entertain this discussion on the uninsured, the celebration of Uninsured Week and to talk about the disparities that exist in our communities and communities of color.

I am pleased to give the remainder of my time to the distinguished woman from the Virgin Islands, who is chairperson of the task force for the Black Caucus, the Congressional Black Caucus.

□ 2210

Mrs. CHRISTENSEN. Mr. Speaker, I came to the floor to speak on another issue, but let me say a few words about health disparities before I do.

Health disparities is one of the remaining issues and causes of our civil rights struggle. And because our country does not recognize health care as a right, African Americans, Latino Americans, Native Americans, Alaskan natives, and other people of color, poor and rural people, do not receive the same kind of health care, prevention, or health maintenance. And because of that, you will find that in this country more than half of the uninsured are people of color.

We have two times more diabetes than the white population, and all people of color suffer from more complications.

African Americans have higher rates of death from heart disease and several cancers, prostate, colon, lung, and breast. We are over 50 percent of all new HIV cases and over 50 percent of new AIDS cases. African American and Latino women are 70 to 80 percent of all AIDS cases among women. Hypertension we find is becoming a worldwide epidemic, and African American women are the most impacted by hypertension; however, more African American men die from hypertension.

Our infant mortality is twice as much as our white counterparts, and the New York Times yesterday reported that it is growing in the southeast region of our country. So we really have an obligation in this Congress to address the health care disparities and the health disparities and the lack of coverage in this country to ensure that health care is provided equally to every American.

And so, Mr. Speaker, I want to pay tribute to a woman who was a champion of health for minorities and other people of color. The extremely sad news of Congresswoman MILLENDER-MCDONALD's death came as a shock to all of us, and it is with a deep sense of

loss that I join my colleagues who were here earlier in mourning her passing. Not only have I lost a colleague, but also a mentor, a sister, and a friend.

I am honored to work alongside Congresswoman MILLENDER-MCDONALD as members of the Congressional Black Caucus together, and the Small Business Community. JUANITA was a true champion for minority and women-owned small businesses, and played a pivotal role in proposing and passing legislation to expand financing and contracting opportunities for our Nation's small businesses. Her dedication to helping women-owned businesses was evident in her dedication to increasing funding to expand women's business centers throughout our Nation.

Her commitment to improving the lives of minorities is reflected in her lifelong work in affiliations with organizations such as the NAACP, Alpha Kappa Alpha, and a number of other organizations devoted to the advancement of minorities. She will also be remembered for her outstanding stewardship in the areas of transportation, education, health, and FEMA legislation.

We are grateful for the leadership and the innovation that she brought to the Committee on House Administration, which led to her historic achievement as the first African American woman to chair a committee in Congress.

I know that the House staff and all of the Members appreciate her role in establishing the House Fitness Center and creating an outlet for mental and physical activity. She has truly left a legacy for all of us through her distinguished service on this important committee.

JUANITA will also be remembered for her passion for education, which was evident in her many eloquent speeches on the floor. She was truly a gifted and skilled orator. JUANITA had the distinct ability to captivate and engage her audiences. Although she possessed strong and determined qualities, she personified grace, compassion, and beauty both inside and out.

On a more personal note, it was through JUANITA, a minister's daughter, that I began attending Thursday morning prayer breakfast when I first came to Congress. Her godliness was seen in all that she did.

JUANITA championed the cause of AIDS long before it was fashionable to do so. Every year she held a race in her district. And while I could never get away to attend, she always had all of our support, and we never missed a t-shirt or any of the other paraphernalia that she gave out each year.

JUANITA always spoke of her district with great affection and dedication. She frequently remarked that she had the most diverse district in the country, that she was able to bring them together. And to be reelected over and

over is a testament to her leadership and her abiding belief that we are all children of God, equal in His sight and made in His image. Her mission was one of justice, fairness, and opportunity for all.

One cannot speak of JUANITA MILLENDER-MCDONALD without remarking on her exquisite taste and her unequalled sense of style. She was always dressed to the nines and was always the epitome of elegance and grace.

Mr. Speaker, although her passing leaves a void in the halls of Congress, her spirit and legacy will forever be with us. Words are not enough to express our profound sorrow. On behalf of my family, staff, and the people of the U.S. Virgin Islands, my deepest sympathy goes out to her husband, James McDonald, their children, grandchildren, extended family, and dedicated staff. May God bless and comfort them at this time in grief as we know He is welcoming our sister home.

Ms. WATERS. Mr. Speaker, I would like to thank Congresswoman HILDA SOLIS, the Chair of the Congressional Hispanic Caucus Task Force on Health and the Environment, for organizing this evening's Special Order in honor of National Minority Health Month.

Martin Luther King, Jr., said, "Of all the forms of inequality, injustice in health care is the most shocking and inhumane." Unfortunately, injustice in health care is widespread and growing in American society today.

THE UNINSURED

Over 46 million Americans don't have health insurance.

That is a 15 percent increase in the number of uninsured since the President took office.

Twelve percent of white Americans, 19 percent of Asian Americans, 20 percent of African Americans, 27 percent of Native Americans and 35 percent of Hispanic Americans have no health insurance.

Nationwide, 9 percent of children under the age of 18 and 19 percent of adults ages 18 to 64 are uninsured.

LOS ANGELES COUNTY

In Los Angeles County, 8 percent of children under the age of 18 and 22 percent of adults ages 18 to 64 are uninsured.

In the Southern Service Planning Area of Los Angeles County [SPA6], where my district is located, lack of access to health insurance is especially high: 11 percent of children under the age of 18 and 32 percent of adults ages 18 to 64 are uninsured.

In the same area, an alarming 44 percent of adults reported difficulty accessing medical care, and 21 percent of children have difficulty accessing medical care.

Furthermore, in the Southern Area of Los Angeles County, 35 percent of adults and 19 percent of children did not obtain dental care in the past year, because they could not afford it.

We cannot continue to ignore these alarming statistics.

INFANT MORTALITY

Infant mortality rates are considered to be one of the most important indicators of the

health and well-being of a population. In 2003, the last year for which nationwide data is available, the infant death rate was 6.9 deaths for every one thousand live births.

Infant death rates among African Americans are considerably higher. Among whites, there were 5.7 infant deaths per thousand live births in 2003; while among blacks, there were 14.0 infant deaths per thousand live births.

In Los Angeles County, there are 5.0 infant deaths per thousand live births. Among African Americans, there are 11.7 infant deaths per thousand live births.

According to an article in Sunday's New York Times, infant deaths in the South are growing.

In Mississippi, the infant death rate had fallen to 9.7 in 2004 but then jumped sharply to 11.4 in 2005. In concrete human terms, a total of 481 babies died in Mississippi in 2005. That's 65 more babies than died the previous year.

Among African Americans in Mississippi, infant deaths rose from 14.2 per thousand in 2004 to an astonishing 17 per thousand in 2005.

Infant death rates also increased in 2005 in Alabama, North Carolina, and Tennessee.

Clearly, injustice in health care is taking its toll.

If we truly believe that all men and women are created equal, we cannot allow these disparities to continue.

HIV/AIDS

Racial and ethnic minorities have disproportionately high rates of HIV and AIDS in the United States.

According to the Centers for Disease Control and Prevention, racial and ethnic minorities represent 71 percent of new AIDS cases and 64 percent of Americans living with AIDS.

African Americans account for half of new AIDS cases, although only 12 percent of the population is black.

Hispanics account for 19 percent of new AIDS cases, although only 14 percent of the population is Hispanic.

Asian Americans and Pacific Islanders account for 1 percent of new AIDS cases, and American Indians and Alaska Natives account for up to 1 percent.

Racial minorities now represent a majority of new AIDS cases, a majority of Americans living with AIDS, and a majority of deaths among persons with AIDS.

It was because of the severe impact of HIV and AIDS on minorities that I developed the Minority AIDS Initiative back in 1998. The Minority AIDS Initiative provides grants to community-based organizations and other health care providers for HIV/AIDS treatment and prevention programs serving African American, Hispanic, Asian American and Native American communities.

Unfortunately, the Republicans in Congress cut the funding for the Minority AIDS Initiative from its maximum level of \$411 million in fiscal year 2003 to under \$400 million today. Meanwhile, the need for the initiative has continued to grow as the disease has continued to spread.

This year, I am calling for an appropriation of \$610 million for the Minority AIDS Initiative in fiscal year 2008. So far, a total of 62 Members of Congress have agreed to sign a letter

in support of this level of funding. I am hoping to convince additional Members to support the expansion of the initiative before this week is over.

DIABETES

Diabetes is the sixth leading cause of death in the United States, and it has a particularly severe impact on minorities.

The Centers for Disease Control and Prevention estimates that 9.5 percent of Hispanic Americans, 12.8 percent of American Indians and Alaska Natives, and 13.3 percent of African Americans over the age of 20 have diabetes. Many Asian Americans are also at high risk.

Diabetes can lead to serious and sometimes deadly complications, including high blood pressure, heart disease, stroke, blindness, kidney disease, and nerve damage.

Too often, some of these complications result in lower-limb amputations.

Minorities with diabetes often lack access to proper health care and are more likely to suffer from complications.

Because of these disparities, I introduced H.R. 1031, the Minority Diabetes Initiative Act.

This bill would establish an initiative to provide grants to physicians, community-based organizations, and other health care providers for diabetes prevention, care, and treatment programs in minority communities.

The Minority Diabetes Initiative is based on the successful model of the Minority AIDS Initiative.

This bill would help to reduce diabetes disparities and improve the ability of minorities with diabetes to live healthy and productive lives.

The bill has 40 cosponsors, representing both political parties.

CANCER

Health disparities also affect minorities who suffer from cancer.

Blacks have a cancer death rate that is about 35 percent higher than whites.

The mortality rates for blacks with breast, colon, prostate and lung cancer are much higher than those for any other racial group.

Black and Hispanic women are less likely to receive breast cancer screening with mammograms than white women.

Black and Hispanic men are more likely to be diagnosed with more advanced forms of prostate cancer than white men.

The incidence of prostate cancer is approximately 60 percent higher among African-American men than white men, and the death rate from prostate cancer is 2.4 times higher in African-American men than white men. This is the largest racial disparity for any type of cancer.

Earlier this year, I introduced H.R. 1030, the Cancer Testing, Education, Screening and Treatment (Cancer TEST) Act. This bill would provide grants for cancer screening, counseling, treatment and prevention programs for minorities and underserved populations.

The Cancer TEST Act would authorize grants for the development, expansion and operation of programs that provide public education on cancer prevention, cancer screenings, patient counseling services and treatment for cancer.

Grants would be made available to community health centers and non-profit organizations that serve minority and underserved populations.

The Cancer TEST Act would emphasize early detection and provide comprehensive treatment services for cancer in its earliest stages, when treatment is most likely to save lives.

The bill has 29 cosponsors.

NINETY-SECOND COMMEMORATION OF THE ARMENIAN GENOCIDE

The SPEAKER pro tempore (Mr. ELLISON). Under a previous order of the House, the gentleman from New Jersey (Mr. PALLONE) is recognized for 5 minutes.

Mr. PALLONE. Mr. Speaker, I want to thank my colleagues on the Republican side for agreeing to let me reclaim the time. I will try to limit my time to less than 5 minutes.

Mr. Speaker, I rise this evening to commemorate the 92nd anniversary of the Armenian genocide. As the first genocide of the 20th century, it is morally imperative that we remember this atrocity and collectively demand reaffirmation of this crime against humanity.

On April 24, 1915, 92 years ago tomorrow, that day marked the beginning of the systematic and deliberate campaign of genocide perpetrated by the Ottoman Empire. Over the following 8 years, 1½ million Armenians were tortured and murdered, and more than one-half million were forced from their homeland into exile. These facts are indisputable, but to this day the U.S. Congress has never properly recognized the Armenian genocide.

The historical record, Mr. Speaker, on the Armenian genocide is unambiguous and well-documented with overwhelming evidence. The U.S. Ambassador to the Ottoman Empire at the time, Henry Morgenthau, protested the slaughter of the Armenians to the Ottoman leaders. In a cable to the U.S. State Department on July 16, 1915, Ambassador Morgenthau stated that, "A campaign of race extermination is in progress."

Mr. Speaker, if America is going to live up to the standards we set for ourselves, and continue to lead the world in affirming human rights everywhere, we need to finally stand up and recognize the tragic events that began in 1915 for what they were: the systematic elimination of a people.

Despite pleas by Members of Congress and the Armenian-American community and recognition by much of the international community, President Bush continues to avoid any clear references to the Armenian genocide, while consistently opposing legislation marking this crime against humanity. Instead, he has chosen to succumb to shameless threats by the Government of Turkey. I strongly believe that Turkey's policy of denying the Armenian genocide gives warrant to those who perpetrate genocide everywhere, because denial is the last stage of geno-

cide. If the cycle is to end, there must be accountability. And just as we would not permit denying the Holocaust, we cannot accept Turkey's falsification of the facts of 1915.

Mr. Speaker, I must say that in the last few months the Turkish Government has made every effort to try to prevent the Armenian genocide resolution from coming to the floor of the House of Representatives. But I just want to show why denial is such a bad thing in a sense. Last week, I came to the floor and I pointed out that when the U.N. wanted to do a project or an exhibit at the United Nations headquarters talking about the genocide in Rwanda, because the Turkish Government protested the inclusion of the Armenian genocide, the Rwandan genocide never took place. There again, if you deny one genocide, you end up denying or impacting the other.

And the fact of the matter is that when some of my colleagues say to me, "Well, why do you need to bring up something that occurred 92 years ago," I say, "Because by denying this, the Turkish Government continues to perpetrate genocide or oppression of its minorities."

Just a few weeks ago, there was something in the New York Times about how the Turkish Government continues to persecute the Kurdish minority. Many Kurds have been killed, driven from their homelands in the same way Armenians were. The Kurds happen to be a Muslim people, not a Christian people. That doesn't matter. The Turkish Government consistently oppresses minorities. They refuse also to open their borders with Armenia. They have actually had a blockade of Armenia in place for several years, which contributes to the economic instability of Armenia.

So this is something that must be done. It must be accomplished, that we recognize this genocide if it continues in various ways in Turkey today.

The second thing I would point out is that the Turkish Government has been basically hiring lobbyists for millions of dollars to go around and tell Members of Congress that if they pass the genocide resolution, there will be dire consequences: Turkey will not allow supplies to go to U.S. troops in Iraq.

□ 2220

They have actually taken to having Members of Congress called and told that their own soldiers in Iraq might be threatened if they pass the genocide resolution.

Well, again, this is the type of bullying that we, as a free government, should not allow because bullying is essentially the same thing that takes place when genocide takes place. Why should we give in to the threats of a country that tries to bully our country over such an important issue as the genocide?

Now, let me just mention, Mr. Speaker, to wrap up, that tomorrow evening at 6:30 the Armenian Caucus, which I cochair, will host an Armenian genocide commemoration event with the Armenian embassy, and I hope that many of the Members will attend this.

Mrs. MALONEY of New York. Mr. Speaker, as a proud member of the Congressional Caucus on Armenian Issues, and the representative of a large and vibrant community of Armenian Americans, I rise to join my colleagues in the sad commemoration of the Armenian Genocide.

Today we declare to people living in every corner of our globe that the Turkish and American governments must finally acknowledge what we have long understood: that the unimaginable horror committed on Turkish soil in the aftermath of World War I was, and is, an act of genocide. The tragic events that began on April 24, 1915, which are well known to all of us, should be part of the history curriculum in every Turkish and American school. On that dark April day, more than 200 of Armenia's religious, political and intellectual leaders were arrested in Constantinople and killed. Ultimately, more than 1.5 million Armenians were systematically murdered at the hands of the Young Turks, and more than 500,000 more were exiled from their native land.

On this 92nd anniversary of the beginning of the genocide, I join with the chorus of voices that grows louder with each passing year. We simply will not allow ice planned elimination of an entire people to remain in the shadows of history. The Armenian Genocide must be acknowledged, studied, and never, ever allowed to happen again.

Last year I joined with my colleagues in the Caucus in urging PBS not to give a platform to the deniers of the genocide by canceling a planned broadcast of a panel which included two scholars who deny the Armenian Genocide. This panel was to follow the airing of a documentary about the Armenian Genocide. Representative Anthony Weiner and I led a successful effort to convince Channel Thirteen in New York City to pull the plug on these genocide deniers. The parliaments of Canada, France, and Switzerland have all passed resolutions affirming that the Armenian people were indeed subjected to genocide. The United States must do the same. I will not stop fighting until long overdue legislation acknowledging the Armenian Genocide finally passes. I am hopeful that this resolution will make it to the Floor for a vote before the full House of Representatives this Congress.

An acknowledgment of the genocide is not our only objective. I remain committed to ensuring that the U.S. government continues to provide direct financial assistance to Armenia. Over the years, this aid has played a critical role in the economic and political advancement of the Armenian people. I have joined with my colleagues in requesting military parity between Armenia and Azerbaijan in the FY08 Foreign Operations Appropriations bill.

We also have requested an adequate level of economic assistance for Armenia and assistance to Nagorno-Karabakh. Legislation passed in the 109th Congress and signed into law to reauthorize the Export-Import Bank included important language prohibiting the

Bank from funding railroad projects in the South Caucasus region that deliberately exclude Armenia. American tax dollars should not be used to support efforts to isolate Armenia, and these provisions would prevent that by ensuring that U.S. funds are not used to support the construction of a new railway that bypasses Armenia. A railway already exists that connects the nations of Turkey, Georgia, and Azerbaijan, but because it crosses Armenia, an expensive and unnecessary new railway had been proposed. Allowing the exclusion of Armenia from important transportation routes would stymie the emergence of this region as an important East-West trade corridor. It is in our economic and security interests to ensure that the aggression against Armenia comes to an end.

On this solemn day, our message is clear: the world remembers the Armenian genocide, and the governments of Turkey and the United States must declare—once and for all—that they do, too.

Mr. MCNULTY. Mr. Speaker, I join today with many of my colleagues in remembering the victims of the Armenian Genocide. Today, April 24th, is the 92nd anniversary of this human tragedy.

From 1915 to 1923, the world witnessed the first genocide of the 20th century. This was clearly one of the world's greatest tragedies—the deliberate and systematic Ottoman annihilation of 1.5 million Armenian men, women, and children.

Furthermore, another 500,000 refugees fled and escaped to various points around the world—effectively eliminating the Armenian population of the Ottoman Empire.

From these ashes arose hope and promise in 1991—and I was blessed to see it. I was one of the four international observers from the United States Congress to monitor Armenia's independence referendum. I went to the communities in the northern part of Armenia, and I watched in awe as 95 percent of the people over the age of 18 went out and voted.

The Armenian people had been denied freedom for so many years and, clearly, they were very excited about this new opportunity. Almost no one stayed home. They were all out in the streets going to the polling places. I watched in amazement as people stood in line for hours to get into these small polling places and vote.

Then, after they voted, the other interesting thing was that they did not go home. They had brought covered dishes with them, and all of these polling places had little banquets afterward to celebrate what had just happened.

What a great thrill it was to join them the next day in the streets of Yerevan when they were celebrating their great victory. Ninety-eight percent of the people who voted cast their ballots in favor of independence. It was a wonderful experience to be there with them when they danced and sang and shouted, 'Ketse azat ankakh Hayastan'—long live free and independent Armenia! That should be the cry of freedom-loving people everywhere.

Mr. BERMAN. Mr. Speaker, today, April 24th, marks the 92nd anniversary of the beginning of the Armenian Genocide. I rise today to commemorate this terrible chapter in human history, and to help ensure that it will never be forgotten.

On April 24, 1915, the Turkish government began to arrest Armenian community and political leaders. Many were executed without ever being charged with crimes. Then the government deported most Armenians from Turkish Armenia, ordering that they resettle in what is now Syria. Many deportees never reached that destination.

From 1915 to 1918, more than a million Armenians died of starvation or disease on long marches, or were massacred outright by Turkish forces. From 1918 to 1923, Armenians continued to suffer at the hands of the Turkish military, which eventually removed all remaining Armenians from Turkey.

We mark this anniversary of the start of the Armenian Genocide because this tragedy for the Armenian people was a tragedy for all humanity. It is our duty to remember, to speak out and to teach future generations about the horrors of genocide and the oppression and terrible suffering endured by the Armenian people.

We hope the day will soon come when it is not just the survivors who honor the dead but also when those whose ancestors perpetrated the horrors acknowledge their terrible responsibility and commemorate as well the memory of genocide's victims.

Sadly, we cannot say humanity has progressed to the point where genocide has become unthinkable. We have only to recall the "killing fields" of Cambodia, mass killings in Rwanda, "ethnic cleansing" in Bosnia and Kosovo, and the unspeakable horrors in Darfur, Sudan to see that the threat of genocide persists. We must renew our commitment never to remain indifferent in the face of such assaults on innocent human beings.

We also remember this day because it is a time for us to celebrate the contribution of the Armenian community in America—including hundreds of thousands in California—to the richness of our character and culture. The strength they have displayed in overcoming tragedy to flourish in this country is an example for all of us. Their success is moving testimony to the truth that tyranny and evil cannot extinguish the vitality of the human spirit.

The United States has an ongoing opportunity to contribute to a true memorial to the past by strengthening Armenia's emerging democracy. We must do all we can through aid and trade to support Armenia's efforts to construct an open political and economic system.

Adolf Hitler, the architect of the Nazi Holocaust, once remarked "Who remembers the Armenians?" The answer is, we do. And we will continue to remember the victims of the 1915–23 genocide because, in the words of the philosopher George Santayana, "Those who cannot remember the past are condemned to repeat it."

Mr. WAXMAN. Mr. Speaker, each year on April 24, Armenian communities around the world gather in somber commemoration of the genocide that began in 1915. Sadly, after 92 years, their grief is only compounded by those who aggressively deny or raise doubt about this troubling chapter of history.

This should be a day reserved for honoring the memory of those who were killed and paying tribute to the strength of those who survived. It should be a time to reflect on the personal narratives of those who were exiled, the

historical evidence of villages and communities that were destroyed, and diplomatic cables from U.S. officials that described the atrocities. It should be an opportunity to resolve ourselves to fight crimes against humanity in all forms and all places. Instead, year after year, April 24 unleashes a battle of semantics.

Those who acknowledge what happened in Armenia as a "tragedy," a "catastrophe," or a "massacre" are correct. But nothing other than the term "genocide" can wholly characterize the systematic deportation of nearly 2 million Armenians and the deliberate annihilation of 1.5 million men, women and children. Anything short of that is unfair to those who perished and unhelpful to our plight against future acts of genocide.

Mr. COSTELLO. Mr. Speaker, I rise today to pay tribute to the victims of the Armenian Genocide.

Today marks the anniversary of the deliberate campaign of genocide perpetrated by the Ottoman Empire in 1915. On April 24th, the Ottoman government arrested an estimated 250 Armenian religious, political, and intellectual leaders, which were taken to the interior of Turkey and murdered. From 1915–1923, 1.5 million Armenians were killed and more than 500,000 were forced from their homeland into exile.

In spite of overwhelming evidence, particularly American diplomatic records from the time, some continue to deny the occurrence of this brutal tragedy in human history. As a member of Congress, I represent a significant population of Armenian survivors who have proudly preserved their culture, traditions, and religion and have told the horrors of the genocide to an often indifferent world.

We must continue to ensure future generations know and understand the history of the Armenian Genocide in order to learn from the mistakes of the past and prevent future atrocities. For that reason, I have again cosponsored a resolution, H. Res. 106, that calls upon the president to make recognition of the Armenian Genocide an official position of United States foreign policy.

Mr. Speaker, it is time to fully recognize the Armenian Genocide in order to right the historical record. By doing so we pay tribute to the memory of all the individuals who suffered, their family members that remain, and vow to never forget their sacrifices.

Mr. VAN HOLLEN. Mr. Speaker, today I rise to commemorate the anniversary of the first genocide of the 20th century. More than 90 years ago, the Ottoman Empire organized a campaign to exterminate 1.5 million Armenians. The world watched as this horror unfolded before them, and did nothing.

As the first genocide of the 21st century—this time in Darfur—began to take shape, the world again hesitated, this time to debate for months the definition of genocide, as thousands died and thousands more were displaced. Today, 200,000 people have been killed in Darfur and 2.5 million driven from their homes. And so, I rise Mr. Speaker not only to acknowledge and remember the horrific events that befell the Armenian people at the dawn of the last century, but also to highlight the horrific events occurring one hundred years later in Darfur at the dawn of this century.

For the past few years, as the anniversary of the Armenian Genocide approached, I hoped that year would be the year a solution to the crisis would come. But, this year, instead of speaking of how the lessons of the Armenian Genocide helped unite the world around a solution for Darfur, I can only report of ongoing suffering and continued killings.

As the world pauses today to remember those who suffered and died during the Armenian Genocide, we need to ask ourselves if we have really absorbed the lessons of that tragedy—and, if we are really doing all that can be done to bring this century's genocide to an end.

Mr. CROWLEY. Mr. Speaker, I rise today in commemoration of the 92nd anniversary of the Armenian Genocide. On April 24, 1915, the Ottoman government ordered the deportation of 2.5 million Armenians. Over the next year, 1.5 million Armenians had been killed or sent to the horrors of concentration camps.

April 24 lives in the hearts and minds of an Armenians. And while this day of remembrance is somber, the day also brings a sense of encouragement that stems from the success of Armenian-American communities here at home in the United States, as well as the independent nation of Armenia. This nation's independence has become a living testament of honor to the memories of the survivors and their descendants.

I have always supported the Armenian community. In 2003, I had the opportunity to visit Armenia and to plant a tree at the Genocide memorial. We must never forget the horrors that took place 92 years ago. Let us never forget the 1.5 million Armenians who perished in 1915 and 1916. We know such mass murder is not a tragedy from a distant past, but a continuation of the failing to recognize these barbaric acts before they are executed.

Mr. Speaker, again, I wish to commemorate the 92nd anniversary of the Armenian Genocide, and I urge the leadership to bring H. Res. 106 to the floor for a vote. If we are to change the future, we must recognize the past.

Mr. MARKEY. Mr. Speaker, today is a day of remembrance and commemoration of the Armenian Genocide, one of the darkest chapters of World War I, and the first of the series of genocides we saw in the 20th Century. We set today aside to remember, as we do every year, because it is essential to reflect upon these terrible events, but we also do so because we know that the Armenian people must continually confront and surmount the legacies and the consequences of those dark days.

The writer Milan Kundera once wrote that "The struggle of man against power is the struggle of memory against forgetting." There are those that would deny the Armenian Genocide, just as there are those that deny the reality of the Nazi Holocaust. In commemorating the Armenian Genocide we collectively engage in that struggle of memory against forgetting. We do this not only to remember the past, but to reaffirm our commitment to prevent such things from ever happening again, and to strive towards making a better future for the Armenian people.

It has taken Armenia decades to reach a point where its people could enjoy their rights

as a free people. Today, we have an opportunity and a responsibility to help ensure that the Armenian people can build a better future. And so, I look forward to continuing to work with the Armenian-American community and Members of the Congressional Caucus on Armenia to address the issues facing this longtime friend and important ally of the United States, so that together we build something positive, something hopeful, something good for the future—a peaceful, prosperous and secure Armenia.

The Armenian Genocide is sometimes called the "Forgotten Genocide." In fact, as most of you know, back in 1939, prior to the invasion of Poland, Adolph Hitler argued that his plans for a Jewish holocaust would in the end be tolerated by the West, stating: "After all, who remembers the Armenians." But we do remember, and we shall never forget. And our memory and commemoration is stronger than the hate of those who would perpetrate the greatest crime known to humanity, the attempt to exterminate an entire people.

Mr. LANGEVIN. Mr. Speaker, I rise today to commemorate the 92nd anniversary of the Armenian Genocide. Our voices, as well as those of Armenian-Americans across the Nation, are essential in the effort to bring needed attention to such a historic tragedy. The Armenian-American community has made tremendous contributions to our country, and their efforts and passion will help ensure that those who lost their lives will not be forgotten.

Today, we pay tribute to the memory of those who died, reflect on all those who have suffered from such prejudice, and vow to raise awareness so that such an atrocity never occurs again. As a member of the Armenian Caucus and a cosponsor of the genocide resolution, I will keep fighting to ensure that the Armenian Genocide is appropriately recognized.

It is a shame that we have not learned from our mistakes in the past regarding genocide, but it is not too late to heal these wounds and also help end atrocities occurring as we speak. To that end, we must not stand by as the situation deteriorates in Darfur. It is our duty to end this human suffering, and I will continue to work to stop this conflict and promote peace in Sudan. Together, let us make this world a better place.

As an ardent supporter of Rhode Island's Armenian-American community throughout my public service career, I am proud to join my colleagues today in honoring the victims of the genocide by paying tribute to their memory, showing compassion for those who have suffered from such prejudice, and never forgetting the pain that they have endured.

Mr. CONYERS. Mr. Speaker, tonight I rise to remind the world that the 24th of April marks the 92nd anniversary of the Armenian Genocide, a systematic and deliberate campaign of the Ottoman Empire to exterminate an entire people. I also rise to reaffirm my support for the adoption of the Armenian Genocide Resolution, H. Res. 106. This legislation contains a long list of U.S. and international involvement against the Armenian Genocide of 1915.

Raphael Lemkin, who coined the term 'genocide' in 1944, and who was the earliest proponent of the United Nations Convention

on the Prevention and Punishment of Genocide, invoked the Armenian case as a definitive example of genocide in the 20th century. The time is now for the Administration to describe what occurred as a genocide. There is no option for continued denial.

Atrocities which fell upon a nation almost a century ago are still crying out for commemoration. Armenia's people did not get sufficient recognition of their devastation and our government has yet to take an appropriate position in this matter. Considering how well documented the Armenian genocide is in U.S. archives and through an overwhelming body of firsthand, governmental, and diplomatic evidence, this is nothing less than a disgrace.

Previous Congresses undertook many efforts to pass legislation recognizing the Armenian Genocide. Unfortunately, all those attempts failed. Now, however, the movement to recognize the genocide has generated enough momentum that passage of this resolution is finally possible. Congressman PALLONE, Chair of the Congressional Caucus on Armenian Issues, has been a stalwart champion of this legislation.

The grassroots campaign "End the Cycle of Genocide" focuses on the lessons we can learn from this tragic chapter in history. We understand the horror of past genocides and recognize that mass exterminations underway today need to be stopped. We cannot remain silent as we observe from a distance how perpetrators execute their power over minorities. Now more than ever, as the world is gripped by unrest and terrorism, the memory of the Armenian Genocide underscores our responsibility to help convey our cherished traditions of respect for fundamental human rights and opposition to mass slaughter.

For these reasons, I support H. Res. 106 and call upon the President to ensure that the foreign policy of the United States reflects an appropriate level of understanding and sensitivity concerning issues related to the Armenian Genocide.

Ms. SOLIS. Mr. Speaker, today we solemnly commemorate the 92nd anniversary of the Armenian Genocide where, over the course of eight years, from 1915 to 1923, the Ottoman Empire launched a systematic campaign to exterminate its Armenian community. During that time, more than 1.5 million Armenians suffered through mass killings, deportations, forced slavery and torture.

Once the genocide ended, many survivors rose above their anguish and terrible experiences to rebuild their lives. Armenian communities began to flourish as numerous immigrants found a new home here in the United States, as well as in my home state of California. Even though their communities discovered solace and success in America, the scars of genocide remain deeply embedded in their history and in our conscience.

If we are to pro actively engage the international community, we must realize the significance of commemorating the Armenian Genocide. Equipped with information and education, we can ensure that the legacy of the genocide endures and that atrocities such as those that befell the Armenian people never happen again.

Together we can educate, commemorate, remember, and stand united in promoting a

clear message that the United States does not condone, nor does it tolerate acts of genocide.

Today we mourn the victims, pay tribute to the survivors, and stand together with all who are committed to promoting awareness about the atrocities of genocide. Today we remember to never forget.

THE COUNTDOWN CREW

The SPEAKER pro tempore. Under the Speaker's announced policy of January 18, 2007, the gentleman from Pennsylvania (Mr. SHUSTER) is recognized for 60 minutes as the designee of the minority leader.

Mr. SHUSTER. Mr. Speaker, I am coming to the floor this evening, as I have been for the past couple of months, to make sure that the American people realize what is going to happen in the next couple of years if we, in Congress don't act, if the Democratic majority doesn't act.

In 1,349 days, if we don't act, we are going to see the largest tax increase in American history. And this is coming about because the tax cuts, the tax reductions that we put in place as a Republican majority in 2001, 2003, extended some of those in 2005, they are going to expire. And the majority party doesn't have to act. All they have to do is run the clock out, and those tax increases will go into effect on the American people. The American family, small businesses, all around this country are going to feel the pain.

As I said, my friends and I have been, colleagues and I have been coming to the floor for the past few months talking about this, making sure that the American people are aware that this is going to occur.

And I have heard some folks on the other side of the aisle say that they are not going to vote for a tax increase, thus it is not really a tax increase. Only in Washington do we employ that type of rationale, that type of logic.

If we don't act, there is going to be a tax increase. And for the American people, who have just paid their taxes this year, and when they go to pay their taxes in 2008 and 2009 and 2010, they are going to see that their taxes have increased. Although there wasn't necessarily a vote on the House floor to specifically increase those taxes, those tax cuts expiring are, in effect, and, in fact, going to increase their taxes.

What kind of tax increase are we talking about? First of all, raising, from the 10 percent tax bracket to 15 percent. And more than 5 million individuals and families previously who owed no taxes will become subject to those individual income taxes in 2011, if we don't act on the House floor. If the Democratic majority doesn't act, the Democratic majority will be responsible for raising taxes on people in the lower-income levels in this country.

It will eliminate the marriage penalty relief that we put in place in the

early 2000s. By 2011, 23 million taxpayers would see their taxes increase an average of \$466 just because they are married.

Cutting the child tax credit in half: if we don't extend those, if we don't vote on this House floor before 2011, 31 million taxpayers will see their taxes increase an average of \$859 in 2011.

The AMT tax, if we don't act, if we don't do something that rectifies that situation, we are going to see people across America that have, husband and wife that earn an income, two families, for instance, teachers, we are going to see a husband and wife that are both teachers in the coming years, if they already haven't been affected by it, they are going to be hit with the AMT and pay higher taxes if we don't act.

An elderly couple, for instance, in America, a senior couple making \$40,000 in income, this couple will, their tax bill would raise in 2011, from \$583 to \$1,489. And for a retired couple making \$40,000, that almost \$1,000 increase is a huge burden on them. We have got to make sure that that doesn't happen.

A family of four with an income of \$60,000: that family's income tax bill would raise, from \$3,030 to \$4,898, almost \$5,000 in 2011 if we don't act. And I know that families in my district, that is a typical family, a family of four, \$60,000 of income, two people working. That is a huge burden.

And for people across America, we have been calling ourselves the Countdown Crew, and we have an e-mail that we would like you to share your stories with us on what the tax cuts have done for you, and what, for instance, a family, again, of four, \$60,000 if you have to pay about \$1,800, almost \$1,900 more in income, \$2,000 more in taxes, how is that going to affect your family. So we would like for you to share those stories with us. You can e-mail us at the countdowncrew@mail.house.gov. I will get that up here in just a minute and you can see it. But, again, that is countdowncrew@mail.house.gov. And share those stories with us because we want to hear, we want to be able to have those stories to talk about how it is going to affect, as I said, a typical American household.

A single parent with two children, a woman who has got two children, \$30,000 in earnings, she would, that parent qualifies at present to get about \$2,400 back from the Federal Government. But if the tax cuts are allowed to expire, she is going to have to pay an \$800 tax. That is a \$3,200 swing from receiving \$2,400 from the Federal Government to having to pay almost \$800 in taxes. Families, individuals are going to be hardest hit, small businesses, unless we act.

Just to give you a brief rundown of the numbers on what is going to happen if the Democratic majority doesn't act and increases taxes, 115 million, taxpayers would see their taxes increase an average of \$1,795 in 2011.

Eighty-three million women would see their taxes raise an average of \$2,068 if the Democratic majority doesn't act.

Forty-eight million married couples will incur an average tax increase of almost \$2,900. Taxes would increase an average of \$2,181 for 42 million families with children. Twelve million single women with children would see their taxes increase an average of just over \$1,000. Seventeen million elderly individuals would incur average tax increases of \$2,270. And it goes on and on and on.

As I said, only in Washington, only in our Nation's Capital is the logic employed that says, if we don't vote on a tax increase, it is not really a tax increase. But I know and millions of Americans know that if they paid \$5,000 in taxes one year and they pay \$6,000 in another year, then that is an increase in taxes. So we need to make sure that we are honest and open with the American people and realize what these tax cuts have done.

This economy, which is growing, has grown each year for 21 straight quarters, I believe the last number was. We are creating jobs. We have created, in the last 4 years, 7.5 million jobs. Unemployment is at a 4.4 percent unemployment rate.

□ 2230

I have a county in my district that has a 2.8 percent unemployment rate. That is incredible, 2.8 percent. I was under the belief that full employment is when you have 97 percent of the people working, or close to 97 percent of the people, because you are always going to have folks transitioning and moving around; but I have got actually two counties that are under 3 percent. And as I said, this economy is growing because of those tax cuts.

It comes as no surprise to me, it should come as no surprise to millions of Americans, it should come as no surprise to my friends on the other side of the aisle, that when you cut taxes, the economy grows. When you cut taxes, also the revenues to the Federal Government increase.

And my friends on the other side of the aisle don't have to take my word for it. Go back to the 1960s when President John F. Kennedy cut taxes on the American people. And what happened? The economy grew and revenues grew coming into the Federal Government. In the 1980s Ronald Reagan cut taxes on the American people and American businesses and the economy grew and revenues grew coming into the Federal Government. And in 2000, once again history repeats itself. When you cut taxes, as we did, the Republican majority did, when you cut taxes, the economy grows, jobs are created, and we have seen record revenues coming into the Federal Government. In 2005 the revenues to the Federal Government

grew by 14.5 percent, and last year, in 2006, they were over 11 percent growth in revenues to the Federal Government.

We have got to make sure that the American people are keeping more of their hard-earned dollars, not sending them to Washington, but that we are sending them back home. But in Washington we have to make sure that we are spending responsibly, and we are trying to balance the budget and we are working towards that and working in such a way that the budget is going to be balanced, and we have been working towards that in the last 4 or 5 years.

And I know that the Democratic majority, they talk about fiscal responsibility, but one of the first things they did was to change the rules of the House so that there was no longer a three-fifths majority needed to increase taxes. It is now a simple majority, and they can increase your taxes.

They have come out with a budget just last week, or 2 weeks ago, I guess, we passed a budget, and they make it seem like it is responsible, but a lot of things in that budget just don't add up. The PAYGO rule is something that, quite frankly, is difficult to understand. And I am privileged to have a colleague of mine on the House floor, a colleague of mine from Texas (Mr. CONAWAY), who is, first of all, on the Budget Committee, so he understands the complicated budgetary process that we face here in the Federal Government. But, more importantly, he is a CPA. He is a certified public accountant. So he understands the balance sheet, he understands the income statement, he understands not only that of a business, the government, but of the average American family and what it takes to balance a budget at home, in a business, and here in the Federal Government.

So with that, I would like to yield to my good friend from Texas to talk a little bit about the PAYGO rules and the budget and explain to the American people what is going to happen here in the next couple of months, weeks, and years in the United States.

With that I yield to Mr. CONAWAY.

Mr. CONAWAY. Mr. Speaker, I thank the gentleman for letting me join him tonight in this Special Order.

I want to talk first about PAYGO, and then I want to talk about something a little closer to home for Texans, and that is the way sales taxes are treated in the budget and under the current Tax Code.

For the entire time I have been here in Congress, which is a relatively short period of time, my colleagues on the other side of the aisle have pounded away this idea, using the term "PAYGO." "Pay as you go" is the phrase, which rolls easily off the tongue but can have a multitude of definitions. And most of the folks in

District 11 who hear the term "PAYGO," in other words, that you are going to pay for something as you go along, it really makes a lot of sense to them under a more traditional definition of that phrase.

This past week we had an interesting parliamentary ploy that our colleagues on the other side of the aisle used in order to get a vote on whether or not the delegate from Washington, DC would have voting privileges. And that is, it was debated at length last week, and it did pass. But it had a fiscal limit attached to it. It cost money. And our colleagues across the aisle, particularly the Blue Dogs, had made a huge point over the last 2-plus years of not wanting to pass anything where any new spending wasn't offset with either, in their preference, tax increases, and the second least likely choice would be to reduce spending in other areas to in effect offset that so that any new spending would be paid for, as that phrase is used, with tax increases or, less likely, spending cuts in other areas.

Well, the first bill that passed last week had an interesting rule attached to it in which our colleagues from the Rules Committee had said that if a bill passes on the floor of the House, if the companion bill does not pass, then in spite of the fact that the first bill passed on its own, neither bill would be able to be sent to the Senate if the latter bill didn't pass.

The latter one is the one I want to talk about tonight, and that was the bill that was passed in order to pay for the additional spending for the delegate converted to a Member and the new Member for Utah is going to cost. Now, in terms of West Texans, it is a lot of money. But in terms of the overall budget and the numbers that we typically deal with here in D.C., it is a relatively modest amount of money. But, nevertheless, it is new spending.

So the bill that did pass was to, in effect, alleviate the PAYGO violation that the first bill created by spending new money without offsetting it with increased taxes on someone or decreases in spending. And what the bill did was simply accelerate or increase the amount of estimated tax payments that taxpayers who make more than \$5 million in adjusted gross income each year have to pay in.

Now, admittedly, folks who make more than \$5 million a year in adjusted gross income are not a particularly sympathetic group. They are easy targets; so this increase in the estimated tax payment would pay for the additional spending on a strict cash-flow basis.

Now, what they have done, in effect, with this mechanism is to take an advance on next month's salary to pay for this month's expenses, which creates a very interesting definition of PAYGO. It is not by any means a tradi-

tional definition of PAYGO, but as I noted last time I looked, most of the colleagues on the other side of the aisle voted in favor of what I would call a very twisted version of PAYGO to get out from under this taint that their first bill passed.

The mechanics are that folks who make more than \$5 million a year in adjusted gross income have to make quarterly estimated tax payments, in addition to whatever withholding they may make on their salaries, in order that on April 15 of the following year they have paid in all of the money that they will owe in taxes that year, estimated to have made.

So they will make a payment on April 15 for their 2007 taxes. They will make a payment on June 15 for 2007 taxes. They will make a payment on September 15, and then they will make a final payment on January 15 that should, in effect, pay 100 percent of their 2007 tax bill.

What this provision does is it creates a safe harbor for those folks that says if their income went up substantially from one year to the next, then they may have paid in less money than is due for that year.

□ 2240

The mechanics of this is the Tax Code creates a safe harbor for these taxpayers. It says if you've paid in 100 percent of what your actual was the year before, and you've paid that in by April 15 and your ultimate tax liability is a lot more than that, then there are no penalties and interest associated with it if you do the catch-up on April 15.

So what the bill last week did is it increased that safe harbor number by one-tenth of a percent. Now, this is a bunch of mumbo-jumbo for most folks back home, but basically what this does is we have borrowed the money to pay for these additional expenses from someone that may or may not owe additional taxes. And, in fact, the bill sponsor from the other side specifically said at the end of his conversation on the floor last week that his bill raised taxes on no Americans, did not raise any new tax, did not raise any taxes.

So what we had here is a cash flow issue that accelerated some cash flow to the Federal Government, and under this scoring mechanism that we use, it appears that PAYGO has not been violated, it has been honored. But basically what we've done with this version of PAYGO, and apparently there are going to be multiple versions of PAYGO that get talked about on this House floor, this version of PAYGO simply says that if we can take an advance from next month's salary to pay for next month's expenses, then we're okay, and we will worry about next month next month. So this is a very interesting concept for PAYGO. It is not the traditional PAYGO that most folks

in District 11 would understand and agree to. It is a new version.

Mr. SHUSTER. Can you explain that PAYGO so people understand it better, what PAYGO really means, what it should mean.

Mr. CONAWAY. In its purest form it would mean that any new spending that this House decides is good Federal new spending, whether that's new, new spending or a growth in expenditures that is built into current mechanisms, would be paid for, in effect, by raising taxes, new taxes from somewhere, or reducing expenses in some other place in this Federal Government so that you have a net zero. In its purest form it would apply to both new programs as well as existing entitlements that grow on their own, that we would continue to keep the number, in effect, flat if we are using offsets against expenses; or if we increased it, we would increase taxes to pay for it so that the deficit wouldn't get any worse or any better under PAYGO. We wouldn't cause any problems with new legislation that would cause the Federal deficit, in effect, to go up by either doing like we do at home, getting a part-time job to help pay for those other expenses, or making some tough hard choices on priorities, setting priorities to reduce spending in some other area to provide for monies for this new spending that may be coming in.

So that is PAYGO in its purest form. It's unusual, not likely that we would get, collectively, both sides of the aisle to agree to that strict a term of PAYGO. The PAYGO that will probably be used often is some variation of what you may have heard about tonight, and others. Spending that grows on its own under the entitlements programs that are out there probably isn't subject to PAYGO. We won't have to offset that or increase expenses anywhere else. We just let that continue to grow out. So there will be a variety of definitions.

So what I hope to be able to communicate to the folks in District 11, and, Mr. Speaker, what I hope other Americans understand is that when they hear the phrase "PAYGO," it is all in the definition. It is all about what does it mean. Because apparently PAYGO has a variety of meanings in these Chambers from time to time. And the one that was used last week, in my view, is flawed in the purest sense of PAYGO.

So if you would indulge me a couple more minutes to talk about sales taxes, that is particularly important to folks from Texas.

The tax extensions and the tax changes that were brought about 2001–2003 and more recently extended into 2006 address some inequities between States that have State income taxes and States that don't. Texas is one of those States that does not have a State individual income tax and, as such, funds its State and local governments

through property taxes and sales taxes, along with a lot of other fees and excise taxes, those types of things.

But under our current Federal Income Tax Code, all States that have income taxes, those citizens get to deduct their income taxes from their Federal taxable income in order to get to a net tax; in other words, they are not paying Federal tax on the monies that they have to pay into their State governments. They get a deduction for that, and that's fine.

But to States like Texas, since we have no income tax, we don't get a deduction. In the past, beginning in 1986 and forward, off and on again, Texans were allowed to deduct their sales taxes in lieu of a State income tax. So a citizen could look at whichever tax they paid and deduct that, and it would put those citizens on a more equitable footing with citizens from States that pay taxes. In effect, what you get, if citizens from non-income tax States don't get to make that deduction, then they in effect are paying a higher Federal income tax than taxpayers in equivalent circumstances in States with an income tax, and that is inequitable and should be addressed.

So the impact specifically on Texans, if this is not fixed, would be that the average tax increase per taxpayer, as computed by the Heritage Foundation, the average tax increase per taxpayer, not family, but per taxpayer, for Texans, would be \$2,755 per year beginning in 2011. The loss of income per capita, and this is income lost on top of the increased taxes, is \$510 per person. And Texas will lose, as a result of this, estimated in 2012, 75,000-plus jobs.

Let me talk in a little further detail on District 11, which I represent. The tax increase there per person will be a little bit less than the state-wide average. We will have a tax increase per taxpayer of \$2,091 a year, about \$200 a month almost. And then on top of that there will be another \$974 that each taxpayer will lose in income on top of this tax increase. And there will be 2,153 jobs lost across the district.

This happens if we allow this unfair, inequitable circumstance to exist between States that have State income taxes and States that don't at the Federal level. And I am hoping that, while it's not provided for this year in the budget that was passed, I am hopeful that our colleagues on the other side of the aisle will see this as one of those opportunities for tax equity in our Tax Code, and we will put in the right provisions in the next tax bill that would allow Texans to deduct sales taxes in lieu of their Federal income tax.

My colleague from Pennsylvania, I appreciate you giving me this time tonight, and I yield back.

Mr. SHUSTER. I thank the gentleman. I appreciate you coming down and talking about the budget because I know you understand it; but as I said

earlier, more importantly as a CPA, you really understand what the Tax Code means to individual businesses and families.

In fact, just last week I had a conversation, I would say it was an unfortunate conversation with my CPA as we went through my tax returns and had to pay taxes, as millions and millions of people across this country had to do.

I know the gentleman said he had one more point to make.

Mr. CONAWAY. I had one more comment. I was also sitting with my older son, who is a broker with Merrill Lynch. And while his CPA was handing him his tax return, he was going through it, looking at it and he suddenly discovered that he owed a relatively sizeable amount of alternative minimum tax. And we will go through that concept on another night, but this is a tax that is going to catch a growing number of middle-income Americans that is, in effect, a tax increase on him. So once he discovered that he had now become subject to the alternative minimum tax, he was, shall I say, less than pleased with that number and is looking forward to this Chamber addressing the alternative minimum tax as a part of the overall tax fix. We are trying to come up with a tax scheme that collects the minimum amount of money needed to fund this Federal Government.

□ 2050

Mr. SHUSTER. That ATM which I mentioned earlier and this conversation I have had over the past couple of weeks with my accountant, he is seeing married couples, both husband and wife are teachers, and they are real close to getting caught up in that minimum tax. Again, two teachers making a decent living, and they are getting caught up in a tax code that is increasing their taxes. We need to address that.

As I said, talking to my accountant last week, as millions of Americans had, to fill out the paperwork and write checks to pay their taxes, it is a yearly ritual that is unavoidable. The government has made this an incredibly complicated process to go through. Not only does it seem we are ignoring the need to extend these tax cuts so Americans pay less, but we are ignoring the fact we need to reform our Tax Code to make it simpler.

I recently read an article by John Stossel from ABC, and he wrote in 2005 Americans spent 6.4 billion hours complying with the Federal Tax Code. He further stated that a Washington-based group, The Tax Foundation, calculated that that 6.4 billion hours was valued at \$265 billion, was what Americans spent on complying with the Tax Code. That is more than the Federal deficit last year.

If we could cut that in half, imagine \$130 billion going into the economy,

our small businesses being able to buy more equipment, employ more people, build a new building, expand their operations; the American family, having \$130 billion to buy a new washer and dryer, save for college. What will it do for this economy? We have to make sure we pay attention to that.

As we were talking earlier tonight, the Democrat budget put out last week, in Pennsylvania alone it is going to increase taxes by 2009 on the average Pennsylvanian by over \$3,000. We hope that people will e-mail us at countdowncrew@mail.house.gov and let us know what \$3,000 would mean to your family, how important that would be, that you would have that \$3,000 to spend, instead of sending it to Washington.

As we keep pointing out, by 2011, if we don't act, the Democrat majority is going to increase taxes by almost \$400 billion. It will be the largest tax increase in American history. I haven't been able to document this, but I think it is probably the largest tax increase in the history of the world. The American people need to understand that. That is the sad reality. We are taxing too much. We have got to make sure that we in Washington are making this government work efficiently and not wasting their money, but making sure that they continue to keep more of their hard-earned dollars.

Next Monday night is going to be Tax Freedom Day, April 30 this year. That means Americans will, after April 30th, starting May 1, will be able to start working for themselves. The first 4 months of the year they have been working to pay their taxes, and on May first they work for themselves.

Mr. CONAWAY. Mr. Speaker, I need to correct something. The sales tax issue that I was talking about is included within the overall numbers that I talked about. Those overall numbers are the same ones that compare to the \$3,000 tax hit that you will have. The sales tax issue is included with the other expiring Tax Code provisions that we were able to implement in 2001 and 2003.

So the numbers I quoted was not just sales taxes, but sales tax is an element in Texas of \$2,755 increase, in District 11 a \$2,391 increase. So it is more than just a sales tax. I think I misspoke earlier in our conversation when I was talking about sales taxes. That sales tax issue is included in that number as well.

Mr. SHUSTER. I appreciate the gentleman for pointing that out.

As I said, next Monday night, April 30, Tax Freedom Day, Americans will begin to start working for themselves. In 2003, Tax Freedom Day was April 18. We have slowly grown to April 30. It will be even longer than that if this Congress doesn't act. The percentage the Federal Government is going to take from people will grow. People will

earn less. As I said earlier, the average Pennsylvanian, and there are 4.7 million Pennsylvanians that will pay taxes, on average that tax will go up by \$3,000.

So we hope the American people communicate with us at countdowncrew@mail.house.gov and let us know what they could do with that \$3,000, as well as over the past 4 or 5 years what it has meant to them, whether it is their family, whether it is a small business, how they have been able to utilize those tax cuts in expanding their business and saving for their children's future. These are extremely important matters that this Congress has to address.

As we started off saying, in 1,349 days, if we don't act, if the U.S. Congress doesn't act, there is going to be the largest tax increase in American history.

So I appreciate the gentleman from Texas. I don't know if you have anything else to add. If not, I will yield back the time. I know some of our other colleagues have come to the floor here to talk about important things.

But we want to make sure the American people know what is going to happen if the flawed logic is employed that if we don't vote on a tax increase, it is not really a tax increase, when in fact if people pay more money, that is a tax increase. The American people need to know that.

I appreciate my colleague coming down to the floor tonight.

TORT REFORM

The SPEAKER pro tempore (Mr. ELLISON). Under the Speaker's announced policy of January 18, 2007, the gentleman from Missouri (Mr. CLEAVER) is recognized for half the remaining time until midnight.

Mr. CLEAVER. Mr. Speaker, I appreciate the opportunity to stand here on this floor.

The subject of this special hour will be a debate between myself and the gentlewoman from West Virginia, Mrs. CAPITO. But before we begin our debate, which is aimed primarily at demonstrating to our colleagues that we can speak passionately about a matter and still avoid name calling or irreverence or incivility, before we get into our debate on tort reform, I would like to yield to the gentlewoman from West Virginia for some special comments unrelated to our debate.

IN MEMORY OF JUANITA MILLENDER-MCDONALD AND THE VICTIMS OF THE VIRGINIA TECH TRAGEDY

Mrs. CAPITO. Mr. Speaker, I would like to thank the gentleman from Missouri. I look forward to our second debate, our second civil debate on a new topic.

Before we move to the subject at hand, I would like to join with my colleagues in expressing my deep sorrow at the passing of our colleague, JUA-

NITA MILLENDER-MCDONALD. Just briefly, she was a kind and gentle person. She was a great advocate for many things that she believed in. She was a pioneer. But, for me, she was just a very helpful and warm and friendly person.

When I came to Congress, she had already been here for several years. She was the chairman of the Caucus on Women's Issues, and I was the vice chair for the Republican side. JUANITA was always very helpful, always very concerned that I was making my way in my first several months in Congress, and I think the way she crossed the aisle, the way that she treated me with kid gloves, so-to-speak, in the beginning of my term, is something that I will never forget. So my thoughts and prayers are with her. Bless her family during this very tough time, and know that she will be missed.

I would also like to express publicly before this body and before this Nation my deep sadness over the tragic events at Virginia Tech last week. I haven't spoken publicly on the House floor about this, but it is deeply crushing to all of us, has been, and it has sort of set a pall or a feeling of helplessness for all of us.

I have college age children. I can't imagine the despair the families are feeling who have lost a loved one, to realize that that phone call that you are waiting for is never going to come.

So, to my friends in the Virginia Tech community, many West Virginians attend Virginia Tech. We have a great fondness for Virginia Tech, except possibly when we are playing them in football. But certainly our collective hearts go out to them during this difficult time.

I yield back to my friend from Missouri, and we will kick off the evening.

□ 2300

Mr. CLEAVER. Mr. Speaker, I would like to associate myself with the comments of the gentlewoman from West Virginia (Mrs. CAPITO). I too would like to express sympathy to Ms. MILLENDER-MCDONALD's family and to the families of those young people whose lives were senselessly taken at Virginia Tech.

The issue surfaces from time to time that there is a desperate need for us to do something major legislatively for tort reform, that these greedy trial lawyers are out damaging if not destroying the Nation, running people out of the medical profession, creating economic problems for oil companies. I take a different view of that. Obviously, there are inappropriate lawsuits, and I think the courts usually deal with those.

But trial lawyers work to provide somewhat of a level playing field for most Americans, small Americans, so they can hold even the most powerful corporations accountable for their actions when they cause injury or death.

Today drug companies and oil companies, big insurance companies and large corporations too often dominate our political process and they begin to ask legislators to restrict access to the courts. When corporations and CEOs act irresponsibly by refusing or delaying to pay insurance claims, producing unsafe products, polluting our environment or swindling their employees or shareholders, the last resort for Americans, and this is our system, is to hold them accountable in our courts of law. By holding them accountable, trial lawyers and their families are able to feel that this is a safer America.

From automobile fuel tanks that explode in rear-end collisions to bullet-proof vests that fail to stop bullets aimed at police officers, we have to realize that there must be some corporation, some individual held accountable. And these cases that I mentioned earlier were actual cases and they brought to light deceptive practices and cover-ups by manufacturers that resulted in serious injury and even death.

The civil justice system helps provide compensation to those that are injured and helps prevent other needless injury from occurring.

I will now yield to the gentlewoman from West Virginia (Mrs. CAPITO).

Mrs. CAPITO. Thank you, I appreciate your opening statements. This may be a very civil debate because I couldn't agree with you more in that our civil justice system should be readily available, should be the place for the individual to seek redress when they have been wronged by either a corporation or corporate injustice or product failure. And I think that is the intent of our court system.

However, what we are experiencing now in the United States is an overabundance, a glut of lawsuits that are clogging our courts, that are in some cases awarding outrageous jackpot types of awards, and because of that, because of that jackpot sort of mentality, many people with their legal assistance are clogging the courts so that those people who have suffered injustices and those people who are due awards are unable to get there.

One of the issues that I think is extremely important is the cost to our economy. We talk all of the time on the floor about the importance of small businesses in the United States. I come from a small State, and I think small business comprises close to 90 percent of the businesses in our State. When you look at the burden of the current tort system on our small businesses, we are breaking the backs of our small business people.

I would like to refer to my chart over here: effect on small business, the tort liability price tag for small businesses in America is \$88 billion a year.

Small businesses bear 68 percent of business tort liability costs, but only take in 28 percent of business revenue.

And for the very small businesses, the tort liability price tag is \$33 billion.

These are statistics that show, and this is from an independent resource, it is not from a group that is shaded one way or the other. It has shown the rise in the cost of tort claims in this country.

Very small businesses pay 44 percent of tort liability costs out of pocket as opposed to through insurance. And so what happens is a lot of times small businesses, one small business is one large case or one frivolous lawsuit away from having to close their doors.

I yield back to the gentleman from Missouri to see if he has a reaction to that.

Mr. CLEAVER. I think there are perhaps some legitimate concerns by small business owners, but I don't think that the trouble is with the litigation. I think the problem is with insurance companies. Now, the gentleman and I both serve on the Financial Services Committee; and one of the concerns we have been grappling with, particularly in the aftermath of Hurricanes Katrina and Rita on the gulf coast, is that insurance companies that are not regulated by the United States Federal Government from time to time are the culprits, and I will get back to that in just a minute. But I wanted to say that the tort filings in State courts have declined by 10 percent since 1994. And automobile filings which make up the majority of tort claims have fallen 14 percent.

So what you are finding is that more and more cases are not finding their way into the courts. But what troubles me and I think will trouble Americans when they find out more about it is the fact that the insurance companies end up really being the beneficiaries in the debate that occurs from time to time in this country on the subject of tort reform. The reason I say that is that there was a study done that showed that even in States where tort reform occurred, insurance premiums never dropped, and in some instances they actually increased.

So we have a problem with the small businesses that I agree exists, but I am suggesting that one of the ways in which we deal with this problem is not trying to restrict the courts from dealing with the claims that people bring before them, but rather for the insurance companies.

Let me give one example, Mr. Speaker. A month after passing malpractice caps, South Carolina's two largest insurers increased rates by as much as 22 percent after increasing their rates by 27 percent the year before.

And after Texas passed rate caps in 2003, the Joint Underwriters Association requested a 35 percent premium increase for physicians and 68 percent for hospitals. This is after tort reform, after things were supposed to have been reformed so that people are pro-

tected. So the winner ends up being the insurance companies.

Mrs. CAPITO. I am glad you brought up medical malpractice reform because in West Virginia we have lived this subject since I have been in Congress. In the campaign of 2002, many doctors were leaving the State of West Virginia, closing up shop, early retirement, choosing to try another State because of either the unavailability of medical malpractice insurance or the astronomically skyrocketing escalation of medical liability reform.

So an interesting thing happened. West Virginia is known to be a State that is very tort friendly. So people asked me how did the State legislature, which is predominantly Democratic, and the Governor, who was Democrat, how were they able to pass with relative ease such massive medical malpractice reform legislation. I know exactly how because I was in that campaign in the 2002 year.

□ 2310

It was people coming up to you on the street saying my doctor's leaving. It was grandparents, it was seniors, it was pediatricians, OB/GYNs, neurologists, trauma specialists. Our largest hospital in my community had to close and be downgraded in terms of their trauma because the trauma surgeons left because of the high cost of medical liability reform causing, in one case, a young child in Putnam County, which is like 30 minutes away, had to drive all the way to Cincinnati, he and his parents, 4 hours away, to have a penny removed from his windpipe because there was no one to do it in our local area. That could have been a life-ending experience for that family, a very, very tragic one, and actually had a happy ending.

So the legislature got on board, the Governor got on board and passed State medical malpractice reform with a cap. I believe it is a half million dollars on noneconomic damages. I am not 100 percent sure. There was a debate on 250 or 500, but I think it was 500. They created a West Virginia Mutual Insurance Company, and according to the statistics that I have in front of me, those medical malpractice premiums have gone down 5 percent in not only general practice but also in the specialties.

The large hospital I referred to earlier, where they could not recruit and retain physicians, they now are adding 49 and 50 new positions a year, whereas before they were afraid they were not even going to be able to attract 15 or 20.

So this medical liability reform has had a phenomenal effect in our State of West Virginia. And if I can get my other chart out here real quick, this shows some States that are considered to be in crisis, which I notice your State is in crisis over here, and West

Virginia would have been in the red, in the crisis area, but we moved ourselves out to caution. We are in the yellow area, where we were actually considered one of the most difficult climates for practitioners of medicine to come. We are not a State where we are able to retain and control, and it is directly attributable to the medical liability reform bill that we passed, that the State passed in 2003.

Mr. CLEAVER. May I inquire of the gentlewoman from West Virginia, the white States are what?

Mrs. CAPITO. Stable. They are considered stable. Look over here, California, which is held up to be one of the States that passed medical liability reform in the 1970s, it is considered stable, and West Virginia was modeled after what was done in California.

Mr. CLEAVER. I think, to some degree, that helps my position, not with West Virginia because I am not familiar with West Virginia, but you are absolutely right about my home State of Missouri. But it all relates back to my earlier comments about insurance companies.

A national study conducted in 2005 by former Missouri Insurance Commissioner Jay Angoff found that insurance companies have been price-gouging doctors by dramatically and drastically raising their insurance premiums, even though claims for payments have been flat or decreasing. According to the annual statements of 15 large insurance companies, the 15th largest in fact, the amount malpractice insurers collected in premiums increased by 120.2 percent between 2000 and 2004, while claim payouts rose by only 5.7 percent.

I think if you look at the report from Jay Angoff from the Missouri Insurance Commission, you find that clearly the insurance companies are the ones doing enormous damage to this country.

The other issue is that I think the insurance companies have gouged so much that many of the people in the country, probably even in my home State, operate under the assumption that malpractice costs run physicians away from their profession.

The truth of the matter is that, according to the American Medical Association, the number of physicians in the United States of America increased by 40 percent since 1990, 40 percent. And so more and more men and women are going into the profession, even as the insurance companies are creating this crisis, and they are the ones that seem to be held harmless. They are rarely the center of the debate. It is usually the lawyers and the physicians.

I take the position that neither of them are actually the villains here. It is the insurance companies that continue to increase the rates. They pay out less money in the payments and then they are getting fatter and fatter.

One last comment on this. According to the Bush administration's Justice Department, if I can find their study, the Justice Department actually says that we are dropping in the number of cases that are being brought forward in the courts, and so I think what we end up doing, I think, is fighting a ghost, because the insurance companies have become ghostly in that they can become invisible during the debate because they do not have to get in it because they have not been portrayed as either the victim or the villain. So I would suggest that our positions may not be dramatically different except that I see the problem more in the hands of the insurance companies.

Mrs. CAPITO. Well, I think I would like to go back a little bit to medical malpractice, talking about it. See, I think you were making my case for me when you said the situation in Missouri, because you do not have medical liability reform, correct?

Mr. CLEAVER. That is right.

Mrs. CAPITO. You have skyrocketing costs of your medical liability. A lot of doctors, and I am sure you have had this conversation with the doctors, they practice basically with one arm tied behind their back because they are practicing medicine defensively. Nearly 80 percent of the doctors say they order unnecessary tests, and 74 percent say they make unnecessary referrals to specialists due to the fear of being sued. A lot of doctors are practicing defensive medicine, ordering many more medical procedures and tests to cover themselves in the case of a legal test or a lawsuit, and that raises the cost of not only their insurance but it also raises the cost of every individual's health insurance because it raises the cost of practicing medicine or delivering health care in a general sense.

I think that a comprehensive solution is certainly part of what we need to look at here, and that does include the insurance companies most certainly, but it also includes looking at what has happened in some manufacturing segments that have had extreme loss of jobs; 52,000 to 60,000 jobs have been lost in the manufacturing segment of this country because of bankruptcies being caused by massive and huge tort lawsuits. And so I think that there is a median here, there is an easy median that we can find here.

But I would recommend to you that the experience that we had in West Virginia with medical liability reform, across the board, bringing more specialists in as a result, bringing the cost of medical liability insurance down, recruitment and retention of physicians is something that we need to look at nationwide, and that is why I support a Federal medical liability reform which I am sure is no surprise to you that I would support that and have been pushing for it over the last 7 years.

But I think there is also a cost to just the individual person as we inflate

the cost of defending ourselves, businesses defending themselves, doctors defending themselves, hospitals defending themselves.

My final chart here, and I do not know if you can read it or not, but I will read the bottom line here. It shows that in 2005, the U.S. population being approximately 296 million, that the tort cost per capita for each individual is \$880.

□ 2320

Whereas when you were talking about 1990 with the physicians, in 1990, that cost was only \$522, which is still too much. So I think that we need to find a medium here where we can control frivolous lawsuits, where we can control the ability of people to have mass tort actions and seek friendly environments for those tort actions. And we tried to address that in Congress with a class action reform. And we need to make sure that those people that are damaged, hurt, have access to court, but also in a timely manner. With all this massive tort legislation or lawsuits in our courts, it is bogging up the courts and it is really hurting those people who are genuinely hurt and need to have remedies.

Mr. CLEAVER. The gentlewoman from West Virginia makes a good point. I do, however, think that this may cause her to join me. That is, according to the Bush administration, this is what I was looking for earlier, this is from the Justice Department of the Bush administration, their researchers found that the median inflated adjusted award in 2001 was just \$28,000. And most of the discussion, you hear people talking about, millions, maybe even billions, but the average median inflated adjusted award in 2001 was \$28,000. And even in medical malpractice cases in which the injuries tend to be far, far more serious than the average tort case, the median award was only \$170,000, which is far from the multibillion dollar lottery tort reformers have often brought before us.

The other issue that I would like to bring forth is that, according to the Congressional Budget Office, malpractice costs amount to less than 2 percent of the overall medical cost. And so when we start talking about the cost of medicine and how it is skyrocketing, and it is, but when you think about the fact that the cost for malpractice or the cost for the insurance, which supercedes the cost really paid out, it accounts for only 2 percent of the overall medical costs in the United States, which is Herculean; but 2 percent is almost nonexistent.

And I think what has happened is that we have created a mountain out of a mole hill. That is not to say that there are not problems, but judges will quite often tell a lawyer that the case submitted is simply frivolous, and that

case will never come to court, and then of course summary judgments can also prevent cases from ever coming to court. So judges have the option of looking at a case and deciding whether or not it is worthy of taking up the time and resources of the court.

And then the other part of it is that in an overwhelming majority of these cases, the amount or the award of the judgment is set by a jury, which are everyday people. And this is not to say that there should not be something done. I just think putting artificial caps would be the wrong thing to do. And that is generally one of the proposals that comes up. I'm not sure if the gentlewoman from West Virginia is supporting caps or not, but I think that if that is one of the solutions, I think a one-size-fits-all kind of solution is unfair to people who may suffer a very, very debilitating injury in the same category of someone who has a fender bender.

I yield back to the gentlewoman.

Mrs. CAPITO. Well, I think you are getting to the point here where you are talking about the difference between a legitimate claim and a frivolous claim.

I don't have statistics in front of me, but I know they exist in every court in America where certain frivolous lawsuits are put out on the table, they overreach in terms of not only are they suing maybe a business, but they are going to sue the manufacturer, they are going to sue the car they rode to go to work in, they are going to sue, you know, anybody with deep pockets is going to get sued for an alleged wrong. And it is absolutely a fact that some of these cases and more and more of these cases are not founded in legitimate fact. They are frivolous. They are trying to get into the system to get a quick fix, to get a lottery mentality, to have the corporation settle, or whoever settle, so they can get in and get out of the court system, and then have their attorney take a 40 or 50 percent cut from that.

I had a very startling thing happen to me. A gentleman approached me at a political gathering a couple of years ago. He had oxygen, he was walking very slowly. And he came up to me and he said, I have asbestosis, and I have lung disease from that. And I took my case to court with my lawyer. And he didn't tell me how much he was awarded, but he was awarded some remedy for that. And it was very obvious that he had difficulty breathing, and it was very obvious that he needed some help, a lot of help.

But what he wanted to show me that day was the invoice. He got a settlement every month or every two months, a pay-out, or it might have even been every year. But he showed me how much he got, and I think it was around \$1,500. And every single time he gets that he has to take off 40 percent of that, or 45 percent of that, I think it

was 40 percent in this case, for his attorney. Every single time he gets a payment, his attorney gets 40 percent. And this guy was on oxygen, could barely walk. And I think, you know, there is something wrong with the system where the harmed person who needs the help and has a legitimate claim, and certainly I know lawyers take risks by taking cases, I understand that part of it, but sometimes it just seems astronomical to me that the fees are 40, by the time you get expenses, and 50 percent of what the court has determined that victim is due and willing. I think that is an injustice in the system, along with the frivolous lawsuits that we see clogging up our courts so this gentleman can get his case heard.

Mr. CLEAVER. The meritless cases, however, rarely ever win in the first place. I was offended when I first heard that somebody sued McDonald's because they ordered a cup of hot coffee and were burned by the hot coffee that they ordered. I was offended by that as well, and I think most Americans are. But in reality, the meritless cases rarely ever win in the first place, and that is contrary to the allegations that generally come forth, particularly from the major corporations.

They would have us believe that the frivolous lawsuits are just automatically finding their way to the courtroom and that they are meritless, but they win. And the truth of the matter is that our intricate system, with the law and juries and judges and even independent reviewers, will pretty much weed out the frivolous lawsuits. And they are filed to no one's benefit, except a lawyer, who I think we can find one in any profession who is going to try to take advantage of their system. And it has nothing to do with having gone to law school. It has something to do with human nature.

But I think that the way that this whole issue has been played out ends up actually protecting the one entity that I think is the most culpable, and that is the insurance companies that are not regulated.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. There being no Republican hour at this time, the gentleman from Missouri is recognized for the remainder of the hour.

Mr. CLEAVER. I would yield to the gentlelady from West Virginia for closing remarks on the debate with regard to tort reform, and then I think we would like to express some concerns about civility, Mr. Speaker.

□ 2330

Mrs. CAPITO. Mr. Speaker, I thank the gentleman for staying up late, and I thank all those who are listening.

I think we have talked a lot about our different perspectives on tort reform. I have talked about the need to rein in the system, because we are los-

ing jobs. We are costing the American public, each individual, \$880 is the cost for every individual for the lawsuit glut that we have in this country. Unfortunately, some of those who are damaged or who are due and willing are unable to get into a clogged-up court system.

We are losing jobs in some of our manufacturing segment because of the exorbitant cost of litigation. In many States, we have a medical liability crisis where physicians are paying exorbitant amounts of their hard-earned dollars for the cost of medical liability insurance, and it has proven in my State, at least, if you pass good sense medical liability insurance reform, you can rein in the cost of insurance and can make the system better. I understand there are other players at the table here. There is the Bar, there is the individual, there is certainly the business community and there is the insurance community.

I think the best solution to this enormous problem, this very costly problem to the American economy, is to get everybody at the table for common sense reform. We passed class action reform, and it is helping to weed out some of those large and unwieldy cases and make them adhere to more stringent requirements.

With that, I yield back to the gentleman from Missouri to close on this topic.

Mr. CLEAVER. Mr. Speaker, there are people all around this country who look at C-SPAN on a daily basis and who look listen to radio talk shows, look at television news programs, and they see Members of Congress, both House and Senate, screaming at each other. They see from time to time the animated debates that take place on these shows, and even here in this great hall.

Many, many great patriots have stepped into the well of the House of Representatives to wax eloquent, because this is the place where the great orators stood and presented their cases to each other and to the American public. But in the past decade or so, we have seen a dramatic drop in the civility exercised by Members of this body, and we have seen it from both sides of the aisle.

Let me share something with you that I read the other day by William Penn, the founder of Pennsylvania. He said this: 'I know of no religion that destroys courtesy, civility or kindness.' That is the kind of statement that the Members of this great body ought to keep in mind when we step into the well.

I came to Washington and to the Congress with this desire in my heart, to do what I could to make this a more civil place. With the intensity and intention of debate, sometimes it is difficult to restrain ourselves. But restraint is something that we can do

and feel better about having done it on the morrow. It is delayed satisfaction. We might get some immediate joy from being nasty, but the greater joy is restraint and receiving greater joy later, that you actually had the discipline to control your tongue.

I have opinions that are very, very strong. I feel strong about tort reform, not because I am an attorney. I have four children. None of them are attorneys. But I personally feel strongly about it because of some personal things that happened in my own family that could have gone to court, that we did not take to court for a lot of reasons. One of the things that we felt strongly about was our own integrity, so we didn't go to court.

But my challenge is to state whatever strong feelings I have in a tone that raises the level of the conversation and honors those who disagree with me.

When you look at the roots of the word "civility," to be civil is to be a citizen, a respected part of the community. So to be uncivil is to fracture the community, locally, nationally and internationally, and that is something that none of us can afford to do.

Not long ago President Gerald Ford died, and I was reminded of a story of his days here in this House. He held regular debates here in Washington with his Democratic counterpart Congressman Thomas Hale Boggs. They would debate at the National Press Club. At Congressman Gerald Ford's suggestion, they would ride over from the Capitol to the National Press Club and agree on the topic of the debate. Can you imagine that happening in 2007? Then, after the debate, they would go out and have lunch.

Mr. Speaker, that is the kind of House I think we need to demand as a part of what takes place in this city called Washington, D.C. I hope, I even pray, that the men and women of this great body will learn to exercise restraint, because what we do and say here in this hallowed place actually reverberates and ends up traveling all across the length and breadth of this Nation, and the words we say will impact the people around this country.

I say again, there are few Members of this Congress, if any, who would say to their children, watch C-SPAN and watch the leaders of this Nation debate, so that they can show you how to act around people with whom you have a disagreement.

We can do better, and I think we will. I believe that because Mrs. CAPITO is interested in doing this, the road towards civility is now under construction, and I enjoy serving with the gentlelady from West Virginia.

Mrs. CAPITO. Mr. Speaker, I thank the gentleman from Missouri for participating tonight. He is a very able debater. I learned in our first debate when we debated tax reform that you

are a wonderful closer too, so I hate to close.

But I would like to talk a little bit about civility, because it is very important to me. It is about being polite. It is understanding that we have different views and that we don't disrespect one another because of that. It is about believing that our ideas, yes, we believe our ideas are the right ideas, but it doesn't necessarily mean that the opposite ideas or a different idea doesn't have merit. It also doesn't mean that because we are in different parties, we don't have a lot of to give and we don't have a lot to share. I think a lot of that gets lost here on the floor of the House.

My great fear is because of the partisanship and the evolved incivility of our debate, that when that person turns on that TV or that young person turns on C-SPAN to watch debate, they see the rancor and they see the acrimonious debate and some of the language that is used, and what do they do? They turn it off. And then what are they doing? They are not listening to the merits of the topic. They are not listening to tax reform ideas or medical malpractice reform ideas or the war in Iraq differing ideas, because of the tone, and the way it is delivered and the words that are used have lost their way and have turned the American public off.

Now, when I go and speak to people in my district and I begin to talk like that, people start nodding their heads, you are right. We do stop listening. We are no longer interested.

So I think while these hallowed halls have had more than their share of vigorous debate, there is a good way to do it, and there is a good way to convey our ideas in a very civil way.

I really appreciate the way, when you said that Gerald Ford and Hale Boggs used to drive over together and then have lunch afterwards, I think it is a little late for lunch tonight, so I think we will have to do that another time. But I have enjoyed debating this topic. I look forward to the next topic that we debate. I hope that when we get together again, maybe we can get some of our other colleagues here and have more of a round-robin so we can get our colleagues not only involved in the debate on the topic, but also demonstrating a civil way to present ideas to the American public.

□ 2340

GENERAL LEAVE

Mr. CLEAVER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and insert extraneous material on the Special Order of the gentleman from New Jersey (Mr. PALLONE).

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Missouri?

There was no objection.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. BUYER (at the request of Mr. BOEHNER) for today on account of medical reasons.

Mr. EVERETT (at the request of Mr. BOEHNER) for today on account of official business.

Mr. LUCAS (at the request of Mr. BOEHNER) for today on account of family matters.

Mr. LINDER (at the request of Mr. BOEHNER) for today on account of official business.

Mr. TIM MURPHY of Pennsylvania (at the request of Mr. BOEHNER) for today on account of official business.

Mr. POE (at the request of Mr. BOEHNER) for today on account of official business.

Mr. WICKER (at the request of Mr. BOEHNER) for April 19 and 20 on account of attending his daughter's wedding.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Ms. WATSON) to revise and extend their remarks and include extraneous material:)

Ms. WATSON, for 5 minutes, today.

Mr. DAVIS of Illinois, for 5 minutes, today.

Mr. PAYNE, for 5 minutes, today.

Mr. ELLISON, for 5 minutes, today.

Mr. SHERMAN, for 5 minutes, today.

Ms. WOOLSEY, for 5 minutes, today.

Ms. BORDALLO, for 5 minutes, today.

Mr. MEEKS of New York, for 5 minutes, today.

Mr. SCOTT of Virginia, for 5 minutes, today.

Ms. NORTON, for 5 minutes, today.

Mr. CUMMINGS, for 5 minutes, today.

Ms. WATERS, for 5 minutes, today.

Mr. TOWNS, for 5 minutes, today.

Mr. PALLONE, for 5 minutes, today.

Mr. SCHIFF, for 5 minutes, today.

Ms. ESHOO, for 5 minutes, today.

Mr. TIERNEY, for 5 minutes, today.

Mr. MCGOVERN, for 5 minutes, today.

ENROLLED BILLS SIGNED

Ms. Lorraine C. Miller, Clerk of the House, reported and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 1003. An act to amend the Foreign Affairs Reform and Restructuring Act of 1998 to reauthorize the United States Advisory Commission on Public Diplomacy.

H.R. 1130. An act to amend the Ethics in Government Act of 1978 to extend the authority to withhold from public availability a financial disclosure report filed by an individual who is a judicial officer or judicial

employee, to the extent necessary to protect the safety of that individual or a family member of that individual, and for other purposes.

ADJOURNMENT

Mr. CLEAVER. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 11 o'clock and 40 minutes p.m.), under its previous order, the House adjourned until tomorrow, Tuesday, April 24, 2007, at 10:30 a.m., for morning hour debate, as a further mark of respect to the memory of the late Honorable JUANITA MILLENDER-MCDONALD of California.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 8 of rule XII, executive communications were taken from the Speaker's table and referred as follows:

1224. A letter from the Deputy Assistant Administrator for Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries Off West Coast States; Highly Migratory Species Fisheries [Docket No. 061113298-7046-02; I.D. 110106A] (RIN: 0648-AU91) received March 26, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1225. A letter from the Deputy Assistant Administrator for Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic; Trip Limit Reduction [Docket No. 001005281-0369-02; I.D. 022207A] received March 26, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1226. A letter from the Acting Director Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Bering Sea and Aleutian Islands Management Area [Docket No. 070213033-7033-01; I.D. 030207A] received March 26, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1227. A letter from the Acting Director Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic; Trip Limit Reduction [Docket No. 001005281-0369-02; I.D. 022207A] received March 26, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1228. A letter from the Director Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Northeast Multispecies Fishery; Modification of the Gear Restrictions and Georges Bank Yellowtail Flounder Trip Limits for the U.S./Canada Management Area [Docket No.

060606150-6240-02; I.D. 030107A] received March 26, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1229. A letter from the Acting Director Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 630 of the Gulf of Alaska [Docket No. 070213032-7032-01; I.D. 030707A] received March 26, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1230. A letter from the Acting Director Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 610 of the Gulf of Alaska [Docket No. 070213032-7032-01; I.D. 030707B] received March 26, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1231. A letter from the Acting Director Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Exclusive Economic Zone Off Alaska; Gulf of Alaska; Pollock in Statistical Area 630 of the Gulf of Alaska [Docket No. 070213032-7032-01; I.D. 022807A] received March 26, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1232. A letter from the Deputy Assistant Administrator for Regulatory Programs, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Northeastern United States; Atlantic Herring Fishery; Amendment 1 [Docket No. 060901235-7027-02; I.D. 082406C] (RIN: 0648-AQ87) received March 26, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1233. A letter from the Assistant Administrator for Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Magnuson-Stevens Act Provisions; Fisheries off West Coast States; Pacific Coast Groundfish Fishery; Biennial Specifications and Management Measures; Correction [Docket No. 060824226-7041-03; I.D. 082806B] (RIN: 0648-AU57) received April 10, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1234. A letter from the Director Office of Sustainable Fisheries, NMFS, National Oceanic and Atmospheric Administration, transmitting the Administration's final rule — Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 610 of the Gulf of Alaska [Docket No. 070213032-7032-01; I.D. 032007A] received April 10, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

1235. A letter from the Assistant Secretary of the Army for Civil Works, Department of Defense, transmitting a copy of the Atlantic Intracoastal Waterway Bridge at Deep Creek, Cheseapeake, Virginia Feasibility Study; to the Committee on Transportation and Infrastructure.

1236. A letter from the Administrator, FAA, Department of Defense, transmitting the Department's report on the foreign aviation authorities to which the Federal Aviation Administration provided services for Fiscal Year 2006, pursuant to Public Law 103-305, section 202; to the Committee on Transportation and Infrastructure.

1237. A letter from the Honors Attorney, Department of Transportation, transmitting

the Department's final rule — Procedures for Reimbursement of General Aviation Operators and Service Providers in the Washington, D.C. Area [Docket OST-2006-25906] (RIN: 2105-AD61) received April 10, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

1238. A letter from the Paralegal, Department of Transportation, transmitting the Department's final rule — Clean Fuels Grant Program [Docket No. FTA-2006-24708] (RIN: 2132-AA91) received April 10, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

1239. A letter from the Secretary, Department of Transportation, transmitting the Department's final rule — Disadvantaged Business Enterprise Program [Docket OST-97-2550] (RIN: 2105-AD51) received April 10, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

1240. A letter from the Senior Vice President, Communications, Tennessee Valley Authority, transmitting a copy of the Authority's statistical summary for Fiscal Year 2006, pursuant to 16 U.S.C. 831h(a); to the Committee on Transportation and Infrastructure.

1241. A letter from the Director of Regulations Management, Department of Veterans Affairs, transmitting the Department's final rule — Veterans and Dependents Education: Topping-Up Tuition Assistance; Licensing and Certification Tests; Duty to Assist Education Claimants (RIN: 2900-AK80) received April 10, 2007, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Veterans' Affairs.

1242. A letter from the Assistant Secretary, Office of Legislative and Intergovernmental Affairs, Department of Homeland Security, transmitting the Department's report on the Transportation Security Administration's Voluntary Provision of Emergency Services Program, pursuant to Public Law 109-295; to the Committee on Homeland Security.

1243. A letter from the Assistant Administrator, Bureau for Legislative and Public Affairs, U.S. Agency for International Development, transmitting the Agency's report on Multilateral Development bank loans likely to have substantial adverse impacts on environment, natural resources, public health and indigenous peoples, pursuant to Section 1303(c) of the International Financial Institutions Act; jointly to the Committees on Appropriations and Financial Services.

1244. A letter from the Chairman, Defense Nuclear Facilities Safety Board, transmitting the Seventeenth Annual Report describing the Board's health and safety activities relating to the Department of Energy's defense nuclear facilities during the calendar year 2006; jointly to the Committees on Armed Services and Energy and Commerce.

1245. A letter from the General Counsel, Department of Defense, transmitting a copy of legislative proposals as part of the National Defense Authorization Bill for Fiscal Year 2008; jointly to the Committees on Armed Services and Foreign Affairs.

1246. A letter from the Under Secretary for Acquisition, Technology and Logistics, Department of Defense, transmitting the Fiscal Year 2006 Defense Environmental Programs Annual Report, pursuant to 10 U.S.C. 2706; jointly to the Committees on Armed Services and Energy and Commerce.

1247. A letter from the Deputy Secretary of Veterans Affairs, Department of Veterans Affairs and Department of Defense Joint Executive Committee, transmitting a copy of

the report for Fiscal Year 2006 regarding the activities and accomplishments of the Department of Veterans Affairs and Department of Defense Joint Executive Committee, pursuant to 38 U.S.C. 320; jointly to the Committees on Armed Services and Veterans' Affairs.

1248. A letter from the Secretary, Department of Health and Human Services, transmitting the Department's position on several reform proposals made concerning the Citizens' Health Care Working Group report and the report of the Medicaid Commission; jointly to the Committees on Energy and Commerce and Ways and Means.

1249. A letter from the Secretary, Department of Energy, transmitting the Department's report on issues related to the Clean Coal Power Initiative, as required by Section 401(b) of the Energy Policy Act of 2005; jointly to the Committees on Science and Technology, Appropriations, and Energy and Commerce.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. WELCH: Committee on Rules. House Resolution 327. Resolution providing for consideration of the bill (H.R. 362) to authorize science scholarships for educating mathematics and science teachers, and for other purposes (Rept. 110-105). Referred to the House Calendar.

Mr. FRANK: Committee on Financial Services. H.R. 1675. A bill to suspend the requirements of the Department of Housing and Urban Development regarding electronic filing of previous participation certificates and regarding filing of such certificates with respect to certain low-income housing investors (Rept. 110-106). Referred to the Committee of the Whole House on the State of the Union.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions were introduced and severally referred, as follows:

By Mr. MICHAUD (for himself and Mr. SMITH of New Jersey):

H.R. 1992. A bill to amend the Tariff Act of 1930 to prohibit the import, export, and sale of goods made with sweatshop labor, and for other purposes; to the Committee on Ways and Means, and in addition to the Committees on Armed Services, Oversight and Government Reform, Rules, Energy and Commerce, and Foreign Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. MOORE of Wisconsin (for herself, Mr. FRANK of Massachusetts, and Mr. SCOTT of Georgia):

H.R. 1993. A bill to improve the delivery of counterterrorism financing training and technical assistance by providing for greater interagency coordination and cooperation, and for other purposes; to the Committee on Financial Services, and in addition to the Committee on Foreign Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. MCKEON (for himself and Mr. KELLER):

H.R. 1994. A bill to provide more transparency in the financial aid process and to ensure that students are receiving the best information about financial aid opportunities; to the Committee on Education and Labor, and in addition to the Committee on Financial Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. CONYERS (for himself and Mr. NADLER):

H.R. 1995. A bill to provide a mechanism for a determination on the merits of the claims brought by survivors and descendants of the victims of the Tulsa, Oklahoma, Race Riot of 1921 but who were denied that determination; to the Committee on the Judiciary.

By Mr. GUTIERREZ (for himself, Mr. PAUL, Ms. CARSON, Mr. CLAY, and Ms. LEE):

H.R. 1996. A bill to clarify the applicability of State law to national banks and Federal savings associations, and for other purposes; to the Committee on Financial Services.

By Mr. HIGGINS:

H.R. 1997. A bill to provide for reclassification of Chautauqua County, New York, for purposes of payment for inpatient hospital services under the Medicare Program; to the Committee on Ways and Means.

By Mr. RYAN of Wisconsin:

H.R. 1998. A bill to amend the Congressional Budget and Impoundment Control Act of 1974 to provide for the expedited consideration of certain proposed rescissions of budget authority; to the Committee on the Budget, and in addition to the Committee on Rules, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. HINOJOSA (for himself and Mr. RENZI):

H.R. 1999. A bill to authorize appropriations for assistance for the National Council of La Raza and the Raza Development Fund; to the Committee on Financial Services.

By Mr. DEAL of Georgia:

H.R. 2000. A bill to amend the Internal Revenue Code of 1986 to encourage private philanthropy; to the Committee on Ways and Means.

By Mr. INSLEE (for himself, Mr. TERRY, Mr. GILCHREST, Mr. HIGGINS, Ms. MCCOLLUM of Minnesota, Ms. BERKLEY, Mr. DELAHUNT, Mr. PITTS, Mr. COHEN, Ms. SCHAKOWSKY, and Mr. MCDERMOTT):

H.R. 2001. A bill to amend the Internal Revenue Code of 1986 to apply the energy credit to combined heat and power system property; to the Committee on Ways and Means.

By Mr. SAM JOHNSON of Texas:

H.R. 2002. A bill to amend title II of the Social Security Act and the Internal Revenue Code of 1986 to provide for enhanced retirement security in the form of an Individual Social Security Investment Program; to the Committee on Ways and Means.

By Mr. PAYNE (for himself, Mr. HONDA, Mr. MORAN of Virginia, Ms. WATSON, and Mr. CLAY):

H.R. 2003. A bill to encourage and facilitate the consolidation of peace and security, respect for human rights, democracy, and economic freedom in Ethiopia; to the Committee on Foreign Affairs.

By Mr. PETRI:

H.R. 2004. A bill to establish and strengthen postsecondary programs and courses in

the subjects of traditional American history, free institutions, and Western civilization, available to students preparing to teach these subjects, and to other students; to the Committee on Education and Labor.

By Mr. SALAZAR:

H.R. 2005. A bill to amend title 38, United States Code, to improve health care for veterans who live in rural areas, and for other purposes; to the Committee on Veterans' Affairs.

By Mr. THOMPSON of Mississippi:

H.R. 2006. A bill to improve the Nation's homeland security by strengthening the security of the visa waiver program under section 217 of the Immigration and Nationality Act, and for other purposes; to the Committee on the Judiciary, and in addition to the Committee on Homeland Security, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. TURNER (for himself, Mr. WOLF, Mr. HOBSON, Mr. MORAN of Virginia, and Mr. BOEHNER):

H.R. 2007. A bill to amend title 5, United States Code, to provide that the National Security Personnel System shall not apply with respect to certain laboratories within the Department of Defense; to the Committee on Oversight and Government Reform.

By Mr. UDALL of New Mexico:

H.R. 2008. A bill to direct the Secretary of Transportation to issue regulations that require air carriers to provide training for flight attendants and gate attendants regarding serving alcohol and dealing with disruptive passengers, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mr. WEXLER:

H.R. 2009. A bill to repeal the Medicare cost containment provisions contained in subtitle A of title VIII of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003; to the Committee on Ways and Means, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BROWN of South Carolina (for himself, Mr. YOUNG of Alaska, Mrs. DRAKE, Mr. BAIRD, Mr. THOMPSON of California, Mr. ALLEN, and Mr. JINDAL):

H. Con. Res. 125. Concurrent resolution recognizing the health benefits of eating seafood as part of a balanced diet, and supporting the goals and ideals of National Seafood Month; to the Committee on Energy and Commerce.

By Mr. ENGEL (for himself, Ms. BALDWIN, Mr. FARR, Mr. HOLT, Mr. STARK, Mr. PALLONE, Mr. MEEHAN, and Mr. MCNULTY):

H. Con. Res. 126. Concurrent resolution supporting the goals and ideals of the Day of Silence with respect to discrimination and harassment faced by lesbian, gay, bisexual, and transgender individuals in schools; to the Committee on Education and Labor, and in addition to the Committee on the Judiciary, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. WATSON:

H. Res. 328. A resolution expressing the condolences of the House of Representatives on the death of the Honorable JUANITA

DISCHARGE PETITIONS— ADDITIONS OR DELETIONS

[Inadvertently omitted from the Record of April 20, 2007]

The following Member added his name to the following discharge petition:

Petition 1 by Mr. JOHNSON of Texas on House Resolution 220: Steve Buyer.

EXTENSIONS OF REMARKS

IN HONOR OF SAM AND LUCY
KEKER

HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Ms. PELOSI. Madam Speaker, I rise to honor Sam and Lucy Keke of Chevy Chase, MD, who are celebrating their 90th birthdays on April 28th with family and friends at a luncheon in their honor.

My husband Paul and I became friends with Sam and Lucy in San Francisco, where they travel every year for the past 35 years to visit family. This House does not have time for me to list all of their accomplishments, so I will mention only a few items in a long list of proud service to their country, their community, their church, and their families.

Let us start with service to country. Sam served as a Naval Officer at sea in two wars, World War II and Korea, and Lucy did what wives did during those wars, which was follow him wherever she could. Later, both their sons were combat Marines in Vietnam and both were wounded.

Sam and Lucy met at a student government conference in Albuquerque, NM, in 1938, where Lucy represented Women's College of the University of North Carolina as Student Body President, and Sam represented American University as Vice President of its student government. They married in 1941 and eventually settled in Montgomery County, MD.

Sam rose through the ranks to retire as Chairman of the Board of U.S. News and World Report, while Lucy pursued her interest in public education, becoming the elected president of the Montgomery County School Board during the building boom of the 1960s (which included a teachers strike) and later serving on the State Board for Higher Education, where she sat with an up-and-coming politician named STENY HOYER. They raised two boys, John, now a lawyer in San Francisco who went to law school with our colleagues MEL WATT and JOHN SPRATT, and Jerry, now an outdoorsman in Boulder, CO. Since 1961, they have been blessed with Tina Keke, who became their surrogate daughter and then daughter-in-law in 1965. They are further blessed with grandsons Adam and Nathan Keke, their wives Amanda and Nora, and four beautiful great-grandchildren. All of them, as well as family and friends from all over the country, will be with them to celebrate their birthdays.

For 50 years Sam and Lucy have been mainstays of the Chevy Chase Presbyterian Church, many of whose members became close friends and will be celebrating with them as well. Sam and Lucy served as Deacons, then as Elders, and always as friends of the CCPC congregation.

They love the game of politics, and are committed to the Democratic Party. Lucy's first

Democratic National Convention was in 1940, in Chicago, where she served as a secretary in the Women's Division of the Democratic National Committee. Lucy went on to become very involved in Maryland State politics, serving as the Montgomery County Chairman to several successful gubernatorial campaigns. They were two of CHRIS VAN HOLLEN's earliest, most vocal, and most generous supporters. Since I have known them I don't think they have missed a Democratic Convention. Sam says they are planning to be in Denver in 2008.

What I have always admired about Sam and Lucy is their indomitable spirit and youthfulness. They inspire us all by their never-flagging interest in life, especially young people. On behalf of the Congress, I extend to them the warmest congratulations on their 90th birthdays.

HONORING OAKLAND POSTMASTER
LAWRENCE BARNES

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Ms. LEE. Madam Speaker, I rise today to honor the extraordinary life and career of Lawrence Barnes. Larry served with distinction as the Postmaster of Oakland from 1995 until 2007. His appointment as Postmaster came after more than 35 years of loyal service to the United States Postal Service (USPS), in addition to four years of honorable service in the United States Air Force. Today Larry celebrates his retirement after more than four decades of outstanding service to his community and his country.

Larry graduated from high school in 1965, at which time he joined the U.S. Air Force. There he served as an Air Traffic Control Technician, and was honorably discharged in 1969.

Upon leaving the military, Larry began his career with the USPS as a distribution clerk. Due to his exceptional performance and natural leadership abilities, it did not take long for him to begin moving through the ranks and into management. In the years that followed, Larry was promoted to MPLSM Clerk; Working Group Leader; Supervisor of Mail; MPLSM Supervisor; Management Trainee; Assignments in LRR; Postal Systems Examiner; MCS; Acting Superintendent; and General Supervisor. Following his extraordinary service in all of these areas, Larry was appointed as the Postmaster of Oakland on December 23, 1995.

As Postmaster, Larry worked tirelessly not only to improve USPS functions for individual customers and employees, but also to build a stronger community. A regular speaker at neighborhood meetings, he always made the effort to reach out to Oakland residents, and to be available to hear their ideas and con-

cerns. Larry and his staff have also been active in local efforts to improve air quality and public health. I was proud and honored to host Larry as a speaker at my September 2006 Town Hall Meeting on West Oakland air quality. At that forum he provided updates on USPS efforts to modernize its vehicles and decrease its diesel emissions, actions that have greatly helped to improve air quality and public health in West Oakland.

In addition to being a dedicated government servant throughout his career, Larry is a committed husband, father, grandfather, bowler, and fan of the San Francisco 49ers and Oakland Raiders. Furthermore, he is a leader in the faith community, serving as an active member of the Abyssinian Missionary Baptist Church (AMBC) Men's Ministry, serving under the direction of Dr. Kevin D. Barnes, Pastor of AMBC. Education has also been a priority for Larry throughout his life. He graduated from Merritt College with an AA in Social Science in 1976, and is currently attending C.B. Mason Bible College.

I have known Larry for many years, and it has always been a pleasure to work with him. His commitment to his employees, his customers and to the Oakland community has had a positive impact on countless lives. On this very special day, I join the friends, family and colleagues of Lawrence Barnes in thanking and saluting him for his profound contributions to California's 9th Congressional District, our country and our world.

BETWEEN POSSIBILITY AND
PERIL: CONFRONTING THE
CRISIS CONCERNING
AFRICAN-AMERICAN BOYS

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. RANGEL. Madam Speaker, I rise today to celebrate the accomplishments of David J. Johns, a Congressional Black Caucus Fellow, currently working in my office, who convened an important policy discussion on the subject of African-American high school Underachievement and the No Child Left Behind Act on Monday, April 16, 2007. I am also entering into the record an article titled "America Has Lost A Generation of Black Boys," written by Phillip Jackson for the CaribNews on the week ending April 17, 2007. Both address the importance of recognizing and tackling the significant challenges faced by young African-American males both in and outside the classroom.

In inner cities, more than half of all African-American males do not finish high school. One third of male youth of color are unemployed or not seeking employment; and 1 in every 3 African-American men between the ages of 20

and 29 is under correctional supervision. In many school districts throughout the United States, African-American males are more likely than any other group to be expelled from school, a practice that begins as early as kindergarten. African-American males are more likely to be classified as mentally retarded or suffering from a learning disability, more likely to be placed in special education and more likely to be absent from advance placement and honors courses than any other student group. These statistics are distressing and inexcusable.

Sadly, the dismal state of African-American males, by far the most vulnerable and neglected population, has become all too familiar. Frequently, the severity of these statistics and the ways African-American men cope with tremendous barriers and challenges are brushed over or ignored altogether. Sometimes we blame the males themselves, insisting they subscribe to a culture of deviancy or refuse to "act white" by doing well in school. Other times we acknowledge that there are grave inequalities but fail to provide resources to adjust for gaps.

The policy forum, which featured experts including: Jeffrey Robinson, Principal, Baltimore Talent Development High School; Robert Balfanz of the Center for Social Organization of Schools at Johns Hopkins; James Forman, Jr., professor at Georgetown University Law Center; Amy Wilkins of The Education Trust; and Governor Bob Wise of the Alliance for Excellent Education moved past simply highlighting the litany of issues facing African-American male youth to make recommendations designed to instigate lasting and relevant positive change now. Among these recommendations were increased funding and support for mentor programs; uniform calculations of graduation rates, calling for States to equalize funding by leveraging Federal dollars, and expanding the length of the school day. Many of these themes are reinforced by Mr. Jackson's article, which insists we teach all Black boys to read at grade level by third grade and to embrace education, provide positive role models, and investing as much money in educating black boys as we do incarcerating them.

I applaud and support the efforts of both David J. Johns and Phillip Jackson who have contributed greatly to a much needed conversation about the state of African-American males in America today.

AMERICA HAS LOST A GENERATION OF BLACK BOYS

(By Phillip Jackson)

There is no longer a need for dire predictions, hand-wringing, or apprehension about losing a generation of Black boys. It is too late. In education, employment, economics, incarceration, health, housing, and parenting, we have lost a generation of young Black men. The question that remains is will we lose the next two or three generations, or possibly every generation of Black boys hereafter to the streets, negative media, gangs, drugs, poor education, unemployment, father absence, crime, violence and death.

Most young Black men in the United States don't graduate from high school. Only 35% of Black male students graduated from high school in Chicago and only 26% in New York City, according to a 2006 report by The

Schott Foundation for Public Education. Only a few Black boys who finish high school actually attend college, and of those few Black boys who enter college, nationally, only 22% of them finish college.

Young Black male students have the worst grades, the lowest test scores, and the highest dropout rates of all students in the country. When these young Black men don't succeed in school, they are much more likely to succeed in the nation's criminal justice and penitentiary system. And it was discovered recently that even when a young Black man graduates from a U.S. college, there is a good chance that he is from Africa, the Caribbean or Europe, and not the United States.

Black men in prison in America have become as American as apple pie. There are more Black men in prisons and jails in the United States (about 1.1 million) than there are Black men incarcerated in the rest of the world combined. This criminalization process now starts in elementary schools with Black male children as young as six and seven years old being arrested in staggering numbers according to a 2005 report, Education on Lockdown by the Advancement Project.

The rest of the world is watching and following the lead of America. Other countries including England, Canada, Jamaica, Brazil and South Africa are adopting American social policies that encourage the incarceration and destruction of young Black men. This is leading to a world-wide catastrophe. But still, there is no adequate response from the American or global Black community.

Worst of all is the passivity, neglect and disengagement of the Black community concerning the future of our Black boys. We do little while the future lives of Black boys are being destroyed in record numbers. The schools that Black boys attend prepare them with skills that will make them obsolete before, and if, they graduate. In a strange and perverse way, the Black community, itself, has started to wage a kind of war against young Black men and has become part of this destructive process.

Who are young Black women going to marry? Who is going to build and maintain the economies of Black communities? Who is going to anchor strong families in the Black community? Who will young Black boys emulate as they grow into men? Where is the outrage of the Black community at the destruction of its Black boys? Where are the plans and the supportive actions to change this? Is this the beginning of the end of the Black people in America?

The list of those who have failed young Black men includes our government, our foundations, our schools, our media, our Black churches, our Black leaders, and even our parents. Ironically, experts say that the solutions to the problems of young Black men are simple and relatively inexpensive, but they may not be easy, practical or popular. It is not that we lack solutions as much as it is that we lack the will to implement these solutions to save Black boys.

It seems that government is willing to pay billions of dollars to lock up young Black men, rather than the millions it would take to prepare them to become viable contributors and valued members of our society.

Please consider these simple goals that can lead to solutions for fixing the problems of young Black men:

Short term—(1) Teach all Black boys to read at grade level by the third grade and to embrace education; (2) Provide positive role models for Black boys; (3) Create a stable home environment for Black boys that in-

cludes contact with their fathers; (4) Ensure that Black boys have a strong spiritual base; (5) Control the negative media influences on Black boys; and (6) Teach Black boys to respect all girls and women.

Long term—(1) Invest as much money in educating Black boys as in locking up Black men; (2) Help connect Black boys to a positive vision of themselves in the future; (3) Create high expectations and help Black boys live into those high expectations; (4) Build a positive peer culture for Black boys (5) Teach Black boys self-discipline, culture and history; and (6) Teach Black boys and the communities in which they live to embrace education and life-long learning.

NOTE: As the Executive Director of The Black Star Project, Phillip Jackson has become a national leader advocating for community involvement in education and the importance of parental development to ensure that children are properly educated.

PERSONAL EXPLANATION

HON. BILL PASCRELL, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. PASCRELL. Madam Speaker, I was unavoidably detained on the rollcall vote for the final passage of H.R. 1257, the Shareholder Vote on Executive Compensation Act (rollcall vote No. 244), in order to return to my district to survey damage from the recent floodwaters that have severely affected many of my constituents. Had I been present, I would have voted "yea" on the rollcall vote for final passage of H.R. 1257, the Shareholder Vote on Executive Compensation Act (rollcall vote No. 244).

TRIBUTE TO GEORGE HAMPTON

HON. DONALD M. PAYNE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. PAYNE. Madam Speaker, today I wish to recognize and honor a devoted friend and dedicated public servant, George Hampton, who retires from the University of Medicine and Dentistry of New Jersey—or UMDNJ—on March 30th of this year.

George Hampton was born and raised in Newark and rose from a humble beginning to earn a degree in Urban Planning from Rutgers, The State University of New Jersey and—through peaceful but assertive protest efforts, help gain a foothold for generations to come for minority populations and helped diversify Rutgers' Newark Campus faculty. Later he even joined the faculty as an adjunct professor.

Mr. Hampton would go on to serve the city of Newark in several administrative positions, become a consultant to the Greater Newark Urban Coalition and as executive assistant to the Commissioner of the New Jersey Department of Environmental Protection; and serve as the President of the Regional Health Planning Newark Sub-area Council, as Board Chairman of Newark Emergency Services for Families, and as Board Chairman of the Newark Collaboration Group.

As Vice President of UMDNJ, Mr. Hampton has fulfilled a statewide responsibility for implementing the University's community service mission and extending UMDNJ's services to the community in the urban centers that serve as host to the University's several campuses in New Jersey. He has successfully directed the University's efforts to make a positive community impact throughout the state.

Madam Speaker, I invite my colleagues here in the U.S. House of Representatives to join me in honoring George Hampton. I am proud to have had him in my Congressional district and wish him never-ending success in his future endeavors.

Thank you, George Hampton, for your decades of dedicated service to the community.

HONORING BESSIEFRANCES J.
MEADOR

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Ms. LEE. Madam Speaker, I rise today to honor the extraordinary life of Bessiefrances J. Meador of Riverdale, New York. The residents of California's 9th Congressional District remember Beth as a brilliant woman, an astute politician, a dedicated community activist, an accomplished attorney, and a loving friend to many. Beth passed away on March 30, 2007.

Beth spent her early years in Independence, Missouri and Colorado Springs, Colorado. In 1955, she and her family returned to the Kansas City area. There, they joined the Olivet Institutional Baptist Church where Beth was very active as a youth and young adult.

Upon her graduation from Sumner High School in 1961, Beth began her undergraduate studies at the University of Kansas. After earning her B.A., she obtained her law degree from the University of California at Berkeley, and was admitted to the bar in California and New York.

Beth led a distinguished career in the legal profession, serving in a number of important roles. She was an administrative attorney in the United States Court of Appeals for the Second Circuit in New York, and also maintained a private law practice. Beth worked as a litigation compliance officer for the New York City Child Welfare Administration and as Minority Business Specialist for the State of New York and the New York City Transit Authority. She previously worked as Assistant Director in the Office of Legal Services of the State Bar of California. In the last years of her life, Beth was a teacher in the New York City Public School System.

Beth was active in politics throughout her life. Living in Oakland, California in the 1970s, she ran for the State Assembly, and was actively involved in many local campaigns. She participated in the 1972 National Black Political Convention in Gary, Indiana, as well as numerous State and national political conventions. Delegates always sought her counsel, for as much as she was an idealist, she was also very practical in seeking strategies and initiatives for making the United States a better country.

Always actively involved in her community, Beth was centrally involved in a number of organizations. An accomplished concert pianist, she contributed her talent as the youth music director at the historic Abyssinian Baptist Church in Harlem, where she was also a member. Beth belonged to the Alpha Kappa Alpha Sorority, Inc., and the Coalition of 100 Black Women.

On a personal note, Beth was my roommate for a year, and I was privileged to benefit from her wise counsel, her musical genius, and our thought-provoking discussions. After Beth moved into her own apartment, as a generous gesture of gratitude she gave me a beautiful set of dinnerware which I use to this day. Her memory and her love are deeply etched in my heart and in the hearts of many.

The last time I saw Beth was in September 2006, when we celebrated my sister Mildred's birthday in New York City. We enjoyed our evening with Congressman CHARLIE RANGEL, who welcomed us with open arms and generous hospitality to his district in Harlem. Beth was delighted to be with Congressman RANGEL and enjoyed the evening tremendously. Little did we know that these would be our last moments together.

Today, California's 9th Congressional District salutes and honors a great human being, our beloved Beth Meador. We extend our deepest condolences to Beth's family, and our deepest gratitude for sharing this great woman with us. She will be deeply missed. May her soul rest in peace.

CELEBRATING THE PROMULGA-
TION OF MINORITY AND WOMEN
OWNED BUSINESSES

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. RANGEL. Madam Speaker, I rise today to enter into the RECORD an article titled "Greater Harlem Chamber of Commerce Joins New York City in Promoting Minority and Women Owned Businesses," published in CaribNews on the week ending April 3, 2007.

The article celebrates the partnership between the Greater Harlem Chamber of Commerce and the great City of New York and efforts to increase the number of and provide necessary support to minority and women owned businesses. The partnership has been forged in an effort to help minority and women owned businesses become certified to provide goods and services to the City of New York. According to the article, "companies that become certified obtain greater access to and information about contracting opportunities, receive technical assistance to better compete for those opportunities, and benefit from inclusion in the City's Online Directory of Certified Firms." Each of these benefits is essential to the success of minority and women owned businesses, many of whom face considerable challenges in starting and sustaining their operations.

I applaud the partnership between the Greater Harlem Chamber of Commerce and the great City of New York and look forward

to the continued growth of minority and women owned businesses in New York City.

GREATER HARLEM CHAMBER OF COMMERCE
JOINS NEW YORK CITY IN PROMOTING MINOR-
ITY AND WOMEN OWNED BUSINESS

Harlem, USA—The Greater Harlem Chamber of Commerce (GHCC) has joined with the NYC Department of Small Business Services in a partnership to help Minority and Women Owned Businesses become certified to provide goods and services to the City of New York. The New York City Minority- and Women-Owned Business Enterprise (M/WBE) Program certifies, promotes, and fosters the growth of the City's minority and women-owned businesses. Companies that become certified obtain greater access to and information about contracting opportunities, receive technical assistance to better compete for those opportunities, and benefit from inclusion in the City's Online Directory of Certified Firms.

GHCC began actively promoting this initiative in the Fall of 2006. Early outreach activities included the Miller Urban Entrepreneur Series at Terrace In The Sky Restaurant on December 9, 2006 and the End of Year Reception at Pier 2110 Restaurant on December 20, 2006.

On February 20th the Greater Harlem Chamber of Commerce hosted a special workshop on the importance of M/WBE's being certified with the city at the Marriott Marquis Hotel on Broadway and 45th Street prior to its Quarterly Membership meeting. That workshop was the first in a series of seminars and individual training sessions that will take place through June 2007 in an effort to get more Minority and Women Owned Businesses to be certified with the city and make it possible for more minority companies of all kinds to do business with NYC.

Firms based in New York City or certain surrounding counties are eligible for certification if they have been in business for more than one year and are at least 51 percent owned by a member of an ethnic minority group or a woman. Certified M/WBEs have access to free business assistance and seminars to help them make the most of their certification status. All companies are listed in a searchable public online directory that purchasing officers and contracting agencies use to find the goods and services they need. GHCC begins hosting individual training sessions on M/WBE certification with the City every Thursday and Saturday starting through June.

INTRODUCING THE SECURE VISA
WAIVER TRAVEL ACT OF 2007

HON. BENNIE G. THOMPSON

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. THOMPSON of Mississippi. Madam Speaker, today, I am introducing the Secure Visa Waiver Travel Act of 2007. Dating back to the Immigration Reform and Control Act of 1986, the Visa Waiver Program (VWP) has been a highly successful program that allows nationals of designated countries to travel to the United States visa-free for up to 90 days for temporary business or tourism. VWP countries are required to grant reciprocal visa-free travel to Americans. The VWP has been a boost for tourism and commerce between the

United States and the 27 countries that currently participate. For this reason, many other countries hope to join the VWP. There is strong support within the Administration, the business community, and among our allies and friends for Congress to take up legislation to expand the VWP.

I also support expansion of the VWP, and that is why I am introducing this bill. The VWP has been beneficial to American tourism and businesses. However, the VWP also has serious security vulnerabilities; both "shoe-bomber" Richard Reid and convicted al-Qaeda operative Zacarias Moussaoui traveled under the VWP. As we consider ways to expand the VWP, I believe security considerations must be foremost in our minds. The United States must enhance partnerships with VWP countries to ensure that terrorists and those who would violate our laws cannot travel visa-free. I believe my bill accomplishes this.

As a prerequisite to expansion, my bill requires the Department of Homeland Security (DHS) to implement an effective biometric air border exit system, US-VISIT air exit, so we can know at all times who is in our country. My bill also requires that VWP travelers be screened against terrorist and criminal watch lists and that VWP countries report all lost and stolen passports, so these passports cannot be used by terrorists and criminals. We must also improve information-sharing with our VWP partner countries to be able to know whether a traveler might present a threat to the U.S. In addition, before admitting new countries to the VWP, DHS must consider other security factors, such as the country's passport standards, airport security, whether the country has an effective air marshal program, and whether its nationals have a history of compliance with our immigration and other laws.

My bill maintains the requirement that the nationals of a VWP country demonstrate they will comply with our immigration laws. Some who advocate expanding the Visa Waiver Program say that preventing terrorism should be our only concern and that we should not consider whether a country's nationals have a history of immigration violations or visa overstays. While preventing terrorist travel is our primary security concern, it is not our only security concern. As we have seen in recent worksite enforcement actions, persons living and working in the U.S. illegally can also present security risks to our citizens and our economy, such as engaging in identity theft, or they can be exploited by criminal or terrorist elements. Robust border security, where we have control of who enters and leaves our country and know they are here for legitimate purposes, must be central to any expansion of the VWP. To that end, I am pleased to offer an approach to accomplishing this goal—the Secure Visa Waiver Travel Act of 2007.

PERSONAL EXPLANATION

HON. RUSS CARNAHAN

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. CARNAHAN. Madam Speaker, due to being unavoidably delayed, I missed votes on

H.R. 1677 (rollcall No. 214) and H. Res. 196 (rollcall No. 215). I would have voted in favor of both H.R. 1677 and H. Res. 196, had I been present to record my vote.

HONORING THE AFRICAN AMERICAN ASSOCIATION

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Ms. LEE. Madam Speaker, I rise today to honor the African American Association. Throughout its extraordinary history, the Association has been known for promoting equality, diversity, social justice, and African American community empowerment. This year the Association celebrates the 45th anniversary of its founding.

The African American Association was first organized in the early 1960s by African American students at the University of California, Berkeley. Among the founding members were community leaders such as Khalid Al-Mansour (known then as Don Warden); future Judges Henry Ramsey and Thelton Henderson; future Congressman and Oakland Mayor Ron Dellums; and future Black Panthers Huey Newton and Bobby Seale.

The Association's founding occurred in the midst of a turbulent time for African Americans and for our country. Malcolm X was fearlessly expressing his views on race relations. Many African nations were being liberated after years of colonial rule and oppression. The civil rights movement was gaining national momentum, and many young African Americans were feeling a newfound source of pride in their African heritage. A primary impetus for the group's establishment was an interest in learning the real history of Africa and slavery in the United States. Not having the resources for a mass media campaign, group members took their message to where the people were: they took their message to the streets.

Of central importance to Association members were questions related to the African American self-image. Members wanted to address the negative light in which many African Americans viewed themselves, specifically in the context of their African heritage and physical features. Moreover, the Association's mission was to help African Americans cultivate the sense of self-love that for many had been missing as a result of slavery's destructive legacy within the African American community and throughout our country.

After being met with skepticism initially, the Association began to reach more and more people with their message of empowerment. Members began reaching a wider audience by broadcasting a half-hour radio show on Oakland KDIA, entitled *We Care Enough To Tell It Like It Is*. After approximately a year of meeting in various locations, the Association established regular meeting facilities on Grove Street in Oakland. The best known and most attended events were the Association's weekly Monday Night Lectures and Friday Night Forums. These gatherings featured discussions of books on African and African American history, religion, architecture, current events, and

other topics. People of all ages attended these lively meetings because they always represented an opportunity to learn, and to look at things from a new perspective.

Over the years, the Association continued its advocacy for social, political, economic, and educational equality for African Americans. Members urged African Americans to establish businesses, and the Association formed its own employment office to match members with job opportunities. The Association also remained centrally involved in the struggle to promote education among young African Americans, urging them to not only complete their education but to obtain the highest grades at the highest level of education that they could. In addition, the Association organized to address countless other issues, including community safety, the devastating impact of the Jonestown Massacre, and social justice in African countries.

Today the members and supporters of the African American Association have come together to celebrate not only the organization's 45th anniversary, but also the group's permanent and positive impact on our community. On this very special day, I join all of the members in thanking and saluting the Association for its profound contributions to California's 9th Congressional District, our country, and our world.

PERSONAL EXPLANATION

HON. BRIAN HIGGINS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. HIGGINS. Madam Speaker, I missed rollcall votes during the week of April 16, 2007. On rollcall vote No. 214, the motion to suspend the rules and pass, as amended, H.R. 1677, the Tax Payer Protection Act, I would have voted "yea"; on rollcall vote No. 215, the motion to suspend the rules and agree to H. Res. 196, supporting the goals and ideals of World Water Day, I would have voted "yea"; on rollcall vote No. 216, the motion to suspend the rules and agree, as amended, to H. Con. Res. 100, condemning the recent violent actions of the Government of Zimbabwe against peaceful opposition party activists and members of civil society, I would have voted "yea"; on rollcall vote No. 217, the motion to suspend the rules and agree to H. Res. 273, supporting the goals and ideals of Financial Literacy Month, I would have voted "yea"; on rollcall vote No. 218, the motion to suspend the rules and agree to H. Con. Res. 76, honoring the 50th Anniversary of the International Geophysical Year, I would have voted "yea."

On rollcall vote No. 219, ordering the previous question, I would have voted "yea"; on rollcall vote No. 220, agreeing to H. Res. 301, the rule providing for consideration of H.R. 1257, Shareholder Vote on Executive Compensation Act, I would have voted "yea"; on rollcall vote No. 221, the motion to suspend the rules and agree to H. Res. 306, offering heartfelt condolences to the victims and their families regarding the horrific violence at Virginia Tech in Blacksburg, Virginia, I would

have voted "yea"; on rollcall vote No. 222, agreeing to the Chabot of Ohio Amendment No. 1, I would have voted "nay"; on rollcall vote No. 223, agreeing to the Chabot of Ohio Amendment No. 2, I would have voted "no"; on rollcall vote No. 224, the motion to recommit, with instructions, H.R. 1361, the Relief for Entrepreneurs: Coordination of Objectives and Values for Effective Recovery Act, I would have voted "nay."

On rollcall vote No. 225, passage of H.R. 1361, the Relief for Entrepreneurs: Coordination of Objectives and Values for Effective Recovery Act, I would have voted "yea"; On rollcall vote No. 226, the motion to suspend the rules and agree to H. Res. 300, commending the achievements of the Rutgers University women's basketball team and applauding the character and integrity of their student-athletes, I would have voted "yea"; On rollcall vote No. 227, the motion to suspend the rules and agree to H. Res. 293, supporting the goals and ideals highlighted through National Volunteer Week, I would have voted "yea"; On rollcall vote No. 228, ordering the previous question on H. Res. 317, I would have voted "yea"; On rollcall vote No. 229, agreeing to H. Res. 317, providing for consideration of H.R. 1905 and H.R. 1906, I would have voted "yea"; On rollcall vote No. 230, the motion to recommit with instructions H.R. 1905, I would have voted "no"; On rollcall vote No. 231, passage of H.R. 1905, the District of Columbia Voting Rights Bill, I would have voted "yea"; On rollcall vote No. 232, passage of H.R. 1906, Adjustment of Estimated Tax Payment Safe Harbor for Individual Taxpayers with Adjusted Gross Income Greater than \$5 Million, I would have voted "yea."

On rollcall vote No. 233, the motion to recommit with instructions H.R. 1495, the Water Resources Development Act, I would have voted "no"; On rollcall vote No. 234, passage of H.R. 1495, the Water Resources Development Act, I would have voted "yea"; On rollcall vote No. 235, the motion to instruct conferees on H.R. 1591, I would have voted "yea"; On rollcall vote No. 236, agreeing to the Sessions Amendment, I would have voted "no"; On rollcall vote No. 237, agreeing to the Garrett Amendment, I would have voted "no"; On rollcall vote No. 238, agreeing to the Campbell Amendment, I would have voted "no"; On rollcall vote No. 239, agreeing to the McHenry Amendment, I would have voted "no"; On rollcall vote No. 240, agreeing to the Price Amendment, I would have voted "No."

On rollcall vote No. 241, agreeing to the Putnam Amendment, I would have voted "no"; On rollcall vote No. 242, agreeing to the Price Amendment, I would have voted "no"; On rollcall vote No. 243, the motion to recommit H.R. 1257, I would have voted "no"; On rollcall vote No. 244, passage of H.R. 1257, the Shareholder Vote on Executive Compensation Act, I would have voted "yea."

HONORING THE MOTT COMMUNITY COLLEGE MEN'S AND WOMEN'S BASKETBALL TEAMS

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. KILDEE. Madam Speaker, I rise today to pay tribute to the men and women of the Mott Community College basketball teams. This season the men's team won the National Junior College Athletic Association Men's Basketball National Championship. The women's team finished third in the National Junior College Athletic Association Division II Championship Tournament.

The Mott Community College men's team is led by Head Coach Steve Schmidt. Coach Schmidt has guided his team to the second championship title in 5 years. The hard work by Coach Schmidt and the players has paid off. Mott Community College made history this year by becoming the only team that has played in four title games. The men's basketball program has the highest winning percentage in National Junior College Athletic Association Division II National Tournament play with a record of 16-3 since 2001. Overall the Mott Community College Bears have an 84.4 percent win record in the Michigan Community College Eastern Conference during the same time period. The team members are Terrence Watson, Jeremie Simmons, Willie Mustin, Darius Brents, Rob Giles, Lorenzo McClelland, LaMarr Drake, Thomas Kennedy, Alvin Pegues, Greg Hamlin and Kevin Tiggs. This year the NJCAA bestowed the 2007 Most Valuable Player Award on Kevin. The coaching staff consists of Assistant Coaches Carl Jones, Yusuf Harris, Nate Brown and Athletic Trainer Dick Benson.

The women's basketball team, under the leadership of Head Coach Letitia Hughley, has worked diligently to bring about their 3rd place finish in the women's division. The team members are Tishara Fields, Lakeara Leslie, Alicia Bouldin, Sadé Butler, Tara Smoots, Nicole Holmes, Janee Williamson, Sheria Hatcher, Michaella Weekes, Cari Pigott, and Shaquetta Mance. The coaching staff includes Assistant Coaches Lloyd Nicholson, Latisha Berry, and Athletic Trainer Dick Benson. Tom Healey is the Mott Community College Athletic Director.

The players on both teams communicate effectively with each other and assess the strengths and weaknesses of their opponents. Coupled with outstanding basketball skills honed through years of practice, and inspired coaching, this teamwork has made them winners. A community-wide celebration was held in Flint, Michigan on April 4 to honor the players, coaches, and staff with the Mott Community College basketball teams.

Madam Speaker, I ask the House of Representatives to join me in applauding the dedication of the Mott Community College basketball teams and congratulate them on their achievements.

HONORING ROBERT SPEED

HON. MARILYN N. MUSGRAVE

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mrs. MUSGRAVE. Madam Speaker, I rise today to pay tribute to a man whose bravery in the face of danger is now being honored some 63 years later.

Robert Speed served in the Air Force during World War II. During a bombing mission over the Ploesti Oil Fields on July 15, 1944, the B-24 that Mr. Speed and his crew were flying in came under heavy anti-aircraft fire. The plane lost an engine and lost contact with their squadron. Although the aircraft took on significant damage, the crew managed to evade enemy aircraft, complete its bombing mission and return to Pantanella, Italy.

The Ploesti Oil Fields, located in eastern Romania, were a significant source of petroleum Hitler used to fuel his war machine. The bombing runs well into enemy territory were dangerous, but crucially important to the Allied effort.

The very next day after the Ploesti bombing mission, Mr. Speed and his crew were shot down and held as POWs for the remainder of World War II. This turn of events resulted in an administrative oversight on the part of the Air Force and Mr. Speed and his crew went unrecognized for 63 years.

The oldest in a family of 9 children, Mr. Speed was born May 21, 1922, in Blue Mountain, Alabama. After the war he moved to Mobile, AL to get a job at Brookley Air Force Base where he was employed as a civilian until he retired. He still lives in Mobile. His son describes his father as typical of his generation in that "he never talked much about what happened in the war and never asked for anything. He really is just a regular guy who found himself in extraordinary circumstances while serving his country."

I am pleased that Mr. Speed will finally be recognized with the Distinguished Flying Cross award on April 24. I congratulate Mr. Speed on the long overdue reception of his award and I thank him for his honorable service to our Nation.

A TRIBUTE TO JOHN K. VAN DE KAMP

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. SCHIFF. Madam Speaker, I rise today to pay special recognition to John Van de Kamp upon being named recipient of the Jim Pfeiffer Award for the year 2007.

John Van de Kamp's long and distinguished commitment to public service began following his graduation from Stanford Law School. Mr. Van de Kamp's career started in Los Angeles where he worked in the U.S. Attorney's Office from 1960 to 1967. After briefly serving as U.S. Attorney for the Central District of California, he relocated to Washington, DC. and became the Director of the Executive Office of

U.S. Attorneys. In 1971, Mr. Van de Kamp returned to Los Angeles to become the Central District's first Federal Public Defender. John was appointed Los Angeles County District Attorney in 1976, and subsequently elected to the position. In 1982, he was elected California's Attorney General, where he served for 2 terms. Mr. Van de Kamp later joined the Law firm of Dewey Ballantine LLP, where he is currently of counsel.

In 1999 Mr. Van de Kamp was appointed by National Association of Attorneys to The Strategic Contribution Fund Allocation Committee to recommend distribution of the \$8 billion of tobacco settlement proceeds. He served on the Board of the State Bar of California, was elected as the 80th President of the State Bar of California, and served nearly 30 years as an L.A. County Delegate to the Conference of Delegates.

John's strong commitment to community service can also be seen in his dedication to nonprofit organizations. His board affiliations include The Planning and Conservation League, Norton Simon Museum, and the Los Angeles Conservation Corps. Mr. Van de Kamp has served on the ABA's Special Committee on Criminal Justice in a Free Society, ABA's Task Force on the Federalization of Criminal Law, and the ABA's Commission on Effective Criminal Sanctions. He is Chair of the Community Campaign for Schools for the Pasadena Education Foundation, the RAND's Advisory Committee on Infrastructure, Security and the Environment, City of Pasadena's Task Force on Good Government, and the Chair of the Commission on Fair Administration of Justice.

John Van de Kamp lives in Pasadena with his wife Andrea. They have one daughter, Diana.

I ask all Members of Congress to join with me today in honoring an outstanding individual of California's 29th District, John Van de Kamp. The entire community joins me in thanking John for his success and continued efforts toward making the 29th District a more enjoyable place in which to work and live.

NATIONAL MINORITY HEALTH MONTH

HON. LINDA T. SÁNCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Ms. LINDA T. SÁNCHEZ of California. Madam Speaker, I proudly join my colleagues today calling attention to the grave disparities in minority health in our Nation. The research is clear: there is a health gap between races and ethnicities. There should be no more debate on whether this is a reality.

African Americans are more than twice as likely to have diabetes as Whites. Asian American men suffer from stomach cancer twice as often as non-Hispanic White men. Hispanic women are 2.2 times more likely to be diagnosed with cervical cancer than non-Hispanic White women. African American women are 36 percent more likely to die from breast cancer than White women. American Indians/Alaska Natives have diabetes rates that are nearly three times the national rate.

In addition to disparities in health outcomes, Hispanics and African Americans are least likely to be covered by insurance. Disturbingly, over 32 percent of Latinos are uninsured. Lack of insurance translates to lack of preventive care, lack of care for chronic conditions, and failure to attain screenings that could catch diseases and conditions at an early stage. Not only do these communities of color lack access to health care, but they face medical debt that could be paralyzing to their economic situation.

I am pleased that Congress is finally addressing racial and ethnic health disparities. Not only because there should be parity in health, but because the number of minorities is growing. It will be detrimental to the future of our Nation if we do not continue to support understanding and addressing how to best serve communities of color. Understanding health risk factors and how to effectively deliver health care to our minority population today will help us prepare to serve a majority of the population of tomorrow. In the end, we will all benefit.

While we work toward solving the national healthcare crisis, we cannot lose sight of racial and ethnic health disparities. The only way to solve our current dilemma is to use evidence-based research findings. I support funding research for further innovation. We already know some of what we must do to improve health outcomes for minority population. For instance, we need more minority health care providers who are culturally competent. We also need to address linguistic barriers.

April is National Minority Health Month. It is imperative that we have a productive and invigorating discussion on racial and ethnic health disparities. We need to make sure all communities of color can live healthier lives. As health care programs and policies are considered, let us not forget to include all aspects in the debate, including minority health. As a multicultural Nation, we should celebrate our diversity, not punish it.

HONORING SERGEANT JAMES A. REEDS AND THE "MONUMENTS MEN" OF WORLD WAR II

HON. EMANUEL CLEAVER

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. CLEAVER. Madam Speaker, I rise today to honor SGT James A. Reeds and the "Monuments Men" of World War II, as Members of Congress from across the country prepare to celebrate our country's artistic legacy through hosting the Congressional Art Contest: A Voyage of Artistic Discovery. A native Kansas Citian, Sergeant Reeds was a hero to preserving our cultural heritage during World War II and I am pleased to honor him at the Fifth District's 2007 Congressional Art Contest.

Throughout our great Nation, my colleagues are preparing for their districts' art competitions. Aspiring high school artists will compete to send their masterpiece to our Nation's Capitol. Like previous generations of artists, these young creative students are developing their skills, while gaining respect for the great mas-

ters who came before them. These masters have blessed our world with artistic treasures that have been enjoyed by past generations and will continue to be enjoyed for generations to come.

During World War II, Nazi dictator Adolph Hitler had a plan to secure art from every region he occupied. As the Nazi regime conquered Europe, Hitler ordered covert reconnaissance missions to locate priceless works of art throughout each newly occupied region. These missions were all done as part of Hitler's plan to build the world's premier museum, the Fuehrer Museum, in his home town of Linz, Austria. Hitler was bitter that Vienna's schools of art would not accept him into their programs.

Throughout Europe, as nations anticipated invasion, they took drastic measures to hide their invaluable works of art. The resistance found various methods to conceal their artistic treasures. Works were hidden in caves, mines, castles, châteaux, and in some cases, the masterpieces, like the Mona Lisa, were constantly on the move from one safe location to another. Unfortunately, many pieces were taken, many destroyed, and thousands of pieces of art are still missing to this day.

During the war, a special unit was formed to protect the cultural treasures of Europe from Hitler's raid. Comprised of Allied soldiers, the unit was started by President Franklin D. Roosevelt under the War Department's Monuments, Fine Arts & Archives section. The group's charge was to find, catalogue, and return art to its rightful owners. They were christened the Monuments Men.

Today, Missouri's Fifth Congressional District is honored to have a "Monument Man," and a native, living in our midst. Born in Westport, SGT James A. Reeds attended college at the University of Iowa and planned to major in chemistry. During his sophomore year, Sergeant Reeds was drafted into the Army. After specialized training at Stanford, he was sent to France to serve as a chemical lab technician. One fateful day, Sergeant Reeds met CAPT Bancel LaFarge, who was an officer in the Monuments Men. Captain LaFarge needed someone who could speak German. Since Sergeant Reeds studied German and could type, Captain LaFarge recruited Sergeant Reeds as a Monument Man. Now as part of that historical team, Sergeant Reeds documented the location of art officers in the field, transcribed notes made by art historians, noted the transfer of recovered art to warehouses, and documented the artworks' return to the rightful owner.

An ancient adage in war is that to the victor go the spoils and this includes its cultural works of art. However, it was the United States and the Allied forces that agreed that the works of art from defeated nations would be returned to their place of origin after the war. Thus, the rich culture for the countries of Europe was preserved. Originally, Americans were unfortunately paying a pittance for masterworks to send art that belonged to Germany home to be sold. In essence, Allied troops were doing exactly what the Germans had done. Consequently, the Monuments Men initiated and President Truman agreed to the Wiesbaden Manifesto which stated that all German art had to be returned, thereby preserving and protecting its place in history.

Upon his return, Sergeant Reeds returned to college on the GI bill for a degree in German at the University of Iowa. He then went on to receive a master's degree and later a doctorate in linguistics from the University of Michigan. Later, he returned to Kansas City and taught at University of Missouri—Kansas City for 21 years.

Madam Speaker, please join me in expressing our heartfelt gratitude to SGT James A. Reeds and his fellow Monuments Men for their relentless efforts to preserve Europe's great artistic treasures. I urge my colleagues to please join me in expressing our appreciation to Sergeant Reeds and his fellow soldiers for their service to this great Nation.

TRIBUTE TO THE HAITIAN-AMERICAN NURSES ASSOCIATION

HON. KENDRICK B. MEEK

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. MEEK of Florida. Madam Speaker, I rise to pay tribute to the Haitian-American Nurses Association of Florida (HANA) for its successful Scholarship and Awards Gala held at Miami's JW Marriott Hotel last Saturday, April 14, 2007. This Annual Gala evoked yet another opportunity for HANA members to renew their sense of purpose and mission to this noble organization.

Established in 1984 to pull together the aspirations and ideals of the many hardworking Haitian nurses, this Association's mission is to enhance its leadership and membership in a manner that represents the utmost commitment and integrity of the Haitian community. It has also reached out to students by offering scholarships to deserving individuals who will join their ranks in the near future.

I want to commend the exemplary efforts of its officers in providing much-needed assistance and moral support to the constituents of the 17th Congressional District in a manner that evokes both the individual and collective nobility and compassion of its membership. The readiness with which they faithfully continue to extend both their expertise and encouragement to various communities genuinely attests to their immense love and commitment to the welfare of their fellow human beings.

Under the aegis of their ongoing projects from Community Health Fairs to Emergency Response Teams, International Medical Missions, Immunization Drives, Continuing Education for Nurses, and interminable Nursing Research—to name but a few—I am confident that this Association will continue to serve and care for the people of my Congressional District, South Florida and beyond.

It is with the utmost gratitude and appreciation that I congratulate all HANA members, and the scholarship and award recipients for their efforts and dedication to healing individuals in our midst requiring medical attention. The officers and members of HANA truly exemplify the undaunted symbol of strength and resilience in a way that genuinely combines professionalism on one hand, and genuine compassion on the other.

PERSONAL EXPLANATION

HON. TAMMY BALDWIN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Ms. BALDWIN. Madam Speaker, I regret that I missed three votes on amendments during debate of H.R. 1257 last Friday, April 20, 2007.

Had I been present, I would have voted in opposition to the following three amendments to H.R. 1257: the Sessions amendment (rollcall vote No. 236), the Garrett amendment (rollcall vote No. 237), and the McHenry amendment (rollcall vote No. 239).

IN RECOGNITION OF KEITH SORENSEN

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. KUCINICH. Madam Speaker, I rise today in recognition of Keith Sorensen for 25 years of volunteer service with the Northeast Ohio YMCA. His inspirational work has made an impact on many lives in our community.

Keith has never strayed too far from the water, and began his affiliation with the Southeast YMCA Riptide Swim Team as a student of Bedford High School. Upon graduation, Keith joined the United States Navy. As a sailor, Keith was a passionate leader and represented himself and our Country as a competitive swimmer.

After completing his service to our Country, Keith continued to devote himself to helping the community. For 30 years, he worked as a frozen food manager for Reider's Stop-N-Shop, and was the daily lifeguard of his old alma mater, Bedford High School. In 1996, Keith assisted the head coach and together they trained a talented group of students who would go on to be Ohio High School Athletic Association Northeast District and State Swim Meet qualifiers.

In addition to the countless hours Keith has dedicated to high school athletics, he has tirelessly spent the last 25 years coaching thousands of swimmers at the Southeast YMCA. Under Keith's direction as head coach, the YMCA focused on a program that stressed the importance of swimming fundamentals. As a result of his discipline and specialization in the breaststroke, many of his former students went on to have successful high school and collegiate swimming careers. Keith's commitment has not gone unnoticed; he has received numerous awards, most notably YMCA's Triangle Award by the YMCA of Greater Cleveland, and he was named "CitiSun of the Year" by the Sun newspapers for his volunteer work with the community. However, Keith's greatest accomplishment has been coaching his three daughters. Together, Keith and Maureen have watched their daughters set numerous records as swimmers for the Southeast YMCA and Bedford High School swim teams.

Madam Speaker and colleagues, please join me in honoring Keith Sorensen for his commit-

ment to the Northeast Ohio community. His dedication is the embodiment of selflessness and he brings great pride to us all.

INTRODUCTION OF THE AIRLINE PERSONNEL TRAINING ENHANCEMENT ACT

HON. TOM UDALL

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. UDALL of New Mexico. Madam Speaker, I rise today to introduce the Airline Personnel Training Enhancement Act, an important piece of legislation that requires airlines to provide alcohol server training for flight attendants.

Late last year, another tragic drunk driving accident occurred in New Mexico resulting in the death of a mother, father, and three children, leaving only one surviving daughter. The family, on their way home from a soccer match, was struck by the drunk driver as he drove down the wrong side of the interstate. The driver also died in the accident.

As more was revealed about the events leading up to the accident, we learned that only a few hours earlier, the driver was already visibly intoxicated on a flight to New Mexico. While other passengers noticed that the man appeared to be intoxicated, the man was served more alcohol during the flight. Two hours after landing, the man, with a blood alcohol content level four times the legal limit, killed this family.

After this horrible tragedy occurred, I learned that while Federal regulations prohibit an intoxicated person to be served alcohol on board a flight, or to even board a flight, only some airlines actually provide the training necessary to help these attendants identify and cope with intoxicated passengers. Additional training to identify intoxicated passengers either boarding or already on the flight is critical to ensuring attendants make informed decisions when serving alcohol.

For this reason, I am introducing simple, straightforward legislation to ensure airline personnel receive this training. My bill requires air carriers to provide alcohol server training to gate and flight attendants. This training also will include ways to deal with disruptive passengers and identifying intoxicated passengers. This training, which would have to occur annually, would include situational training on how to handle intoxicated individuals who are belligerent. It is my hope that this will improve public safety both in the air and on the ground. This legislation cannot prevent every tragedy that comes from alcohol abuse, but it is one more valuable step we can take in the ongoing effort to stop drunk driving.

I ask for your support of this legislation.

A TRIBUTE TO GLENDALE
ADVENTIST ACADEMY

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. SCHIFF. Madam Speaker, I rise today to pay special recognition to the Glendale Adventist Academy upon the celebration of its One Hundredth Anniversary.

The Glendale Adventist Academy was founded in 1907 to provide quality Christian education to young men and women. The school's mission is to provide a Christ-centered learning environment, a progressive and challenging curriculum, and a focus on ethics and values to instill a strong sense civic responsibility in their local and global communities.

The Glendale Adventist Academy challenges its students with a rigorous balance of college preparatory courses, Christian education, arts, athletics, and a strong focus on community service. With over ninety percent of graduating seniors proceeding to higher education, this unique curriculum has aided over 5,000 alumni who have excelled in fields including medicine, law, business and education.

Throughout one hundred years of service, the Glendale Adventist Academy has emphasized the importance of community outreach. The school actively engages in food and clothing drives, raising charitable funds, and participating in mission trips. The school highly encourages students to participate in spiritual activities such as special religious and vesper programs.

For one hundred years the Glendale Adventist Academy has fulfilled its commitment to education and community service through the strong guidance of its faculty. All teachers hold a Bachelor's Degree, many have their Masters, and all hold Seventh-day Adventist certification in their subject. The Glendale Adventist Academy is fully accredited by both the Western Association of Schools and Colleges and the Seventh-day Adventist North American Division Commission on Accreditation.

I ask all Members to join me today in honoring Glendale Adventist Academy upon the celebration of its One Hundredth Anniversary. The entire community joins me in thanking the Glendale Adventist Academy for the outstanding educational opportunities that it has provided for the youth of California's 29th Congressional District.

INTRODUCTION OF MINORITY
ENTREPRENEURSHIP

HON. ELIJAH E. CUMMINGS

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. CUMMINGS. Madam Speaker, I rise today to announce the reintroduction of the "Minority Entrepreneurship Development Act," a bill designed to address economic inequality in minority communities by fostering business development and entrepreneurship.

The numbers explain why this legislation is necessary. Strikingly, the average income for African Americans is only equal to 62 percent of that earned by Whites. More than 40 years after the last Jim Crow laws were repealed by the Civil Rights Act of 1964, the economic value of blacks is still about three-fifths that of whites.

The average incomes of Native Americans and Latinos are similarly unbalanced, with the income in those communities equaling 65 and 74 percent respectively of the income earned by Whites. This race-based "wealth gap" is simply unacceptable.

All Americans deserve the right to share in the American Dream, regardless of their race or ethnicity.

We know that small business development has provided great opportunities for minority communities. Minority-owned businesses promote personal economic growth, provide employment opportunities, and support local economies.

Everyone wins when minority-owned businesses thrive.

That is why I have introduced the "Minority Entrepreneurship Development Act of 2007," to help promote these vitally important enterprises.

The legislation would set up a \$15 million, three-year pilot program to promote small business development in colleges and universities that serve African American, Native American and Latino communities.

Through grants of up to \$1 million, the institutions would provide students who are not business majors with the tools necessary to use their area of expertise as entrepreneurs.

The bill would also allow institutions to set up Small Business Development Centers to conduct research and provide training, counseling, capacity building and niche market development services to start-up entrepreneurs.

The legislation garnered support from 42 of my colleagues in the 109th Congress, and is the companion to S. 98, which was introduced by Senator JOHN KERRY of Massachusetts in January.

In the past, this legislation was supported by the American Indian Higher Education Consortium, the National Association for Equal Opportunity in Higher Education, and the Hispanic Association of Colleges and Universities. I again look forward to their support and working with them to implement this important piece of legislation during the 110th Congress.

A great legacy of the American Dream has been the opportunity for ordinary citizens to improve their livelihoods by starting their own business, and minority communities deserve a chance to share in that dream.

I would like to urge all of my colleagues to join me in this important initiative by becoming a cosponsor of the "Minority Entrepreneurship Development Act of 2007," and by working to ensure its swift passage.

PERSONAL EXPLANATION

HON. MADELEINE Z. BORDALLO

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Ms. BORDALLO. Madam Speaker, I was absent from the chamber on Friday. Had I

been present for the rollcall votes taken on amendments to H.R. 1257, the Shareholder Vote on Executive Compensation Act, I would have voted "nay" on each one. This includes a "nay" vote on rollcalls numbered 236, 237, 238, 239, 240, 241, and 242.

INTRODUCTION OF THE HIGHER
EDUCATION FOR FREEDOM ACT
OF 2007

HON. THOMAS E. PETRI

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. PETRI. Madam Speaker, today I am reintroducing the Higher Education for Freedom Act. This legislation establishes a competitive grant program making available funds to institutions of higher education, centers within such institutions, and associated nonprofit foundations. These grants would promote programs focused on the teaching and study of traditional American history, free institutions, and the history and achievements of Western Civilization at both the graduate and undergraduate level, including those that serve students enrolled in K-12 teacher education programs.

Several years ago I was involved in a congressional effort to highlight the decline in historical and civic literacy among American college students. This effort led to the unanimous, bicameral passage of S. Con. Res. 129 which stated, in part, that "the historical illiteracy of America's college and university graduates is a serious problem that should be addressed by the Nation's higher education community."

Given the increased threat to American ideals in the trying times in which we live, it is easy to see how the lack of historical and civic literacy among today's college students has become a more pressing issue. Nevertheless, most of the Nation's colleges and universities no longer require United States history or systematic study of Western civilization and free institutions as a general prerequisite to graduation, or for completing a teacher education program.

I believe it is time for Congress to take a more active role in addressing this matter. Our country's higher education system must do a better job of providing the basic knowledge that is essential to full and informed participation in civic life and to the larger vibrancy of the American experiment in self-government, binding together a diverse people into a single nation with common purposes.

TRIBUTE TO VOLUNTEERS WHO
SERVE ORPHANS

HON. SAM JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. SAM JOHNSON of Texas. Madam Speaker, it is my privilege to bring before this Congress the following outstanding people who have voluntarily served orphans, public

school children, college students, juvenile delinquents, and needy families under the official invitation and authority of government agencies in Russia, Mongolia, Romania, Mexico, Australia, New Zealand, Peru, Taiwan, South Korea, Singapore, Malaysia, Philippines and China. The excellent character demonstrated by these people, as well as their commitment to the principles upon which our nation was founded, have not only attracted the attention of leaders, parents, the media, and students, but it has also brought honor to the United States of America and to the Lord Jesus Christ whom they serve.

HONORING PRIVATE LEWIS C.
DOWDY FOR HIS SERVICE

HON. DAVID SCOTT

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. SCOTT of Georgia. Madam Speaker, I am honored to recognize, Private Lewis C. Dowdy for his distinct and honorable service to our Country during the period July 10, 1943 through November 15, 1945. Private Dowdy, service number 34756030, served as a Rifleman while assigned to the 370th Regimental Combat Team of the famed 92nd Infantry Division of the United States Army.

The 92nd Infantry Division (colored) was a unit of the United States Army in World War I and World War II and was nicknamed the "Buffalo Soldiers Division." This Segregated unit was the only African American infantry division to see combat in Europe during World War II, as part of the 5th Army.

Lewis C. Dowdy's unique service to our Nation is something that we should all be proud of, and reflects great honor upon himself, his family and the United States Army. Therefore,

I am extremely honored to enter his accomplishment into the CONGRESSIONAL RECORD for all to see and cherish.

PAYING TRIBUTE TO THE GREAT-
ER BINGHAMTON CHAMBER OF
COMMERCE

HON. MAURICE D. HINCHEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. HINCHEY. Madam Speaker, I rise today to honor the Greater Binghamton Chamber of Commerce of Broome County, New York, on the occasion of its 100th anniversary. This Chamber is a truly dynamic organization that has shown a remarkable ability to grow, adapt, and succeed over the course of its one-hundred year history and it remains a driving force for economic growth. It gives me great pleasure to recognize the Greater Binghamton Chamber of Commerce at its centennial anniversary.

The Greater Binghamton Chamber of Commerce serves a region with a rich history in industrial innovation and commerce, a history that stretches back to its founding father and namesake, the Englishman William Bingham, an eminent merchant and banker based in Philadelphia. By the time of the Chamber's establishment, Binghamton and Broome County had risen to become a national manufacturing and commercial force, producing everything from wagons and furniture to cigars and "medicine." In the twentieth century, the region became known as the Valley of Innovation and produced industrial giants such as IBM, Link Aviation, and the Endicott-Johnson Shoe Company. While these large employers contributed greatly to the growth and prosperity of the region, they were mostly memories by the dawn of the twenty-first century. The loss of certain large employers meant new challenges for Broome County and new opportunities for the local chamber of commerce.

The Greater Binghamton Chamber of Commerce has played an essential role in helping local businesses adapt to an ever-changing business climate. With nearly 1,000 members representing 50,000 employees, the Chamber boasts a broad and diverse membership that spans the entire county. The Chamber uses its influence wisely, successfully partnering with community leaders, playing a key role in developing and implementing strategies to grow the local economy, and always working to make Broome County a destination for people to live, work and raise families.

The work of the Greater Binghamton Chamber of Commerce is an integral part of the region's history and an essential part of its future. I look forward to many more opportunities for partnering with this dynamic organization and celebrating the continuing success story that is the Greater Binghamton Chamber of Commerce.

TRIBUTE TO MARGIE ORLAND, ON RECEIVING THE RABBI NORMAN F. FELDHEYM AWARD FOR LOYALTY AND SERVICE TO THE SYNAGOGUE AND COMMUNITY OF THE CONGREGATION EMANU EL

HON. JOE BACA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. BACA. Madam Speaker, the Rabbi Norman F. Feldheim Award was established to pay tribute to those members of Congregation Emanu El, located in my home district of San Bernardino, California, who have conspicuously and exceptionally reflected Rabbi Feldheim's qualities of love for and loyalty to the synagogue, and service to the community. I stand here today to honor Margie Orland for receiving this distinguished award.

Margie has been an extraordinarily devoted leader of Congregation Emanu El. She began her service as a member of the Congregation's Board of Directors in 1986, and since then she has served as Secretary, 2nd Vice-president, Vice-president, and from 2002-2004, as the President of the Congregation. She has been an inspirational leader of the Congregation, giving evidence of her deep love for Judaism, a strong participation in worship and education, and an exemplary commitment to Jewish values and their application in contemporary society.

For over twenty years Margie has rendered extraordinary volunteer service to the congregation in a variety of ways including serving as chairperson of the first Mitzvah Day, her work on numerous raffles and commemorative journals, her work on the Purim Shalach Manot project, and co-chairing the Centennial Torah project.

In addition to her dedicated involvement with Congregation Emanu El, Margie has served give terms as president of the Redlands Jewish Club. She also has chaired the Redlands Home Discussion Series for over fifteen years and currently serves as president of Jewish Family Services of the Inland Communities.

Margie has also been very active in the wider community of Southern California. She has been a long time supporter and volunteer at both the Girls and Boys Club of Redlands and the Loma Linda Children's Hospital. She also currently serves as president of Start Out Smart, a local literacy program aimed at parents-to-be.

Margie and her husband, Burt, are proud parents of two sons, David and Michael, and grandparents of Tanner, Kaley, Jacob and Jared. She is known as a loving and dedicated friend to those throughout the Congregation.

Madam Speaker, this year marks the 116th anniversary of the founding of the Congregation Emanu El. It is fitting, on such a momentous occasion, that we stand here today to honor Margie Orland, for outstanding service to her Congregation, her family, and her community.

TRIBUTE TO DETECTIVE LT.
GIUSEPPE PETROSINO

HON. JOSEPH CROWLEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. CROWLEY. Madam Speaker, I rise today to pay tribute to the life and memory of Detective Lt. Giuseppe Petrosino. An immigrant from Padula, Salerno, Italy, Lt. Petrosino was the first Italian-American to be named detective in the New York Police Department. His contributions to the Police Force and to the worlds of criminal investigation and prevention are still honored by the governments of Italy and the United States.

Lt. Petrosino is responsible for the creation of the Bomb Squad, the first unit of its kind in the United States. Additionally, he formed the Italian Branch, an elite corps of Italian-American police officers within the NYPD considered by many to be the world's first undercover police officers. Under Lt. Petrosino's guidance in the early 1900s, the Italian Branch arrested thousands of members of an Italian extortion racket referred to as the Black Hand, while simultaneously working to successfully reduce crimes committed against Italian Americans by nearly half. Not only was Lt. Petrosino the first Italian to earn the rank of Lieutenant in the United States, but he was also the first and only NYPD officer to receive funeral solemnities in both Italy and the United States. Over 25,000 mourners were in attendance for his services and President Theodore Roosevelt proclaimed about his death, "He was a just man, a worthy man, and a man to admire. I am grieved at the loss of a friend."

We are forever indebted to the work and dedication of Detective Lt. Giuseppe Petrosino and his career remains a source of pride and inspiration for the Italian-American community that he was so committed to in New York City. It is with great honor and privilege today that I acknowledge the achievements of this hero, Lt. Giuseppe Petrosino.

PERSONAL EXPLANATION

HON. ED PERLMUTTER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. PERLMUTTER. Madam Speaker, due to a family obligation I missed the last 4 votes on Friday, April 20, 2007. I would have voted as follows: Putnam Amendment—"No"; Price Amendment—"No"; Motion to Recommit—"Nay"; Final Passage of H.R. 1257, Shareholder Vote on Executive Compensation Act—"Aye."

IN RECOGNITION OF JESS
"POOCH" BOWLING

HON. DENNIS A. CARDOZA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. CARDOZA. Madam Speaker, it is with the greatest respect and sincerity that I rise

today to honor the late Mr. Jess Bowling. Known to many as "Pooch," he was an endearing friend, a first-class sheriff, a well-beloved family man, and a respected member of our community in Merced County, California. At the age of 82, Jess Bowling passed away on Wednesday, April 18, 2007.

Jess Bowling was born in Binger, Oklahoma on August 23, 1924. He moved to Dos Palos, California at the age of 11 with his father and brother, where he attended school and later married Darlene Dorrell in 1945. He began his career in law enforcement in 1953, working for the Dos Palos Police Department. In 1956, he joined the Atwater Police Department until finally moving back to Merced in 1958 to work as a resident deputy for the Sheriff's Department on the Westside. He rose quickly through the ranks of the department and was promoted to sergeant-in-command of the new Los Banos sub-station in 1962. Eleven years later, Mr. Bowling was appointed undersheriff and in August of 1974, he was named acting sheriff. That year he was officially elected sheriff by the citizens of Merced County.

As sheriff, Mr. Bowling was instrumental in the development of the department, including the creation of the department's corrections division and the hiring of its first female deputy. In addition, Mr. Bowling oversaw the creation of the county's first 24-hour patrol, organized a special narcotics investigation team, began a countywide crime prevention program, created the work furlough program for prisoners and significantly improved the jail communication system. Sadly, due to health reasons, Mr. Bowling retired from the Sheriff's Department in 1980. At the time of his death in 2007, Bowling was the oldest living Merced County sheriff.

Mr. Bowling is survived by his daughter Shirley Foley of Los Banos, his brother Jack Bowling of Atwater, his three grandchildren Talisha Zorra of Los Banos, Aaron Crutcher of Anchorage, Alaska, and Lance Crutcher of Merced, and 15 great-grandchildren.

Madam Speaker, it is my honor and privilege to join the community of Dos Palos in recognizing Jess "Pooch" Bowling. Our community benefits greatly from the example he set throughout his lifetime of service as a sheriff who dedicated his life to his community and his family.

IN RECOGNITION OF WILLIAM G.
WOOTEN

HON. BRAD ELLSWORTH
OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. ELLSWORTH. Madam Speaker, I rise today to recognize the important contributions of one of my constituents and friends, Dr. William Wooten. For nearly a decade, Dr. Wooten has been a leader in substance abuse prevention in the Evansville, Indiana community.

While serving as the Medical Director of Addiction Services for the Mulberry Center in Evansville, Dr. Wooten saw an alarming number of young people with substance abuse problems. Inspired by a program in Little Rock, Arkansas, Wooten urged a community

effort to combat this problem. In March of 1998, Wooten's organizing efforts culminated in Youth First, Inc., which focuses on prevention and early intervention approaches to reduce substance abuse. Under Wooten's leadership, the Youth First program has grown rapidly each year since its inception and this year will serve over 20,000 people.

For all of his outstanding work, Dr. Wooten has been honored by such groups as Family Partnership Against Drugs, Boys and Girls Clubs of Evansville, The United Way and Rotary International. On April 19, 2007, he was presented with Leadership Evansville's 2007 Lifetime Achievement Award. I am proud to have this opportunity to honor Dr. Wooten for his distinguished service to the Evansville community.

ON HONORING OLLIE L. MCCOY,
VETERAN AND PUBLIC SERVANT,
ON THE OCCASION OF HIS RE-
TIREMENT AND TO EXTEND
BEST WISHES TO HIM AND HIS
FAMILY

HON. JOHN A. YARMUTH

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. YARMUTH. Madam Speaker, it is my privilege to stand before you today to honor a fellow Louisville native; retiring Capitol Police Officer Ollie McCoy. Officer McCoy has devoted his career to public service. He served in the United States Army, Airborne Division, for 22 years, including three tours in Vietnam. As a Capitol Police Officer, he has helped protect our Nation's Capitol for 20 years, helping guard the Capitol during such crises as the Capitol shootings in 1998, the anthrax contamination of 2001 and the attacks of September 11th.

Officer McCoy has dedicated most of his life to serving his country. He has demonstrated throughout his career the true meaning of heroism. I ask that you will all join me in giving him the recognition he deserves, and in wishing that his well-deserved retirement is long and fulfilling. On behalf of Kentucky's 3rd District, I thank you, Officer McCoy, for your dedication to our Nation. You have played a vital role in the safety and security of our country, and we are proud to call you one of our own.

CONGRATULATING THE GRAND
RAPIDS COMMUNITY SUSTAIN-
ABILITY PARTNERSHIP

HON. VERNON J. EHLERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. EHLERS. Madam Speaker, I rise today in recognition of the Grand Rapids Community Sustainability Partnership's accomplishment in being named a Regional Center of Expertise on Education for Sustainable Development by the United Nations. I ask my colleagues to join me in congratulating the members of the Partnership.

The Grand Rapids Community Sustainability Partnership is an enterprise comprised of the City of Grand Rapids, Grand Rapids Public Schools, Grand Rapids Community College, Grand Valley State University, Aquinas College and 104 corporate or institutional members that strive to promote leadership in sustainable development in the West Michigan area. The recognition bestowed upon the Partnership by the United Nations has thrust Grand Rapids into the global spotlight as a community at the forefront of environmental stewardship. Grand Rapids is located at the Grand River watershed, Michigan's largest drainage basin, and the region is blessed with some of America's most beautiful and precious resources. The watershed drains directly into Lake Michigan, which provides drinking water for millions of people and serves as a source of fishing, recreation and transportation to the region's residents. The Great Lakes contain twenty percent of the world's fresh water supply, making them one of the world's most important natural resources.

As Michigan's second largest city, Grand Rapids has dedicated itself to preserving the environment for future generations while promoting economic innovation and growth. The Partnership formed between public and private interests in Grand Rapids has worked together to educate the area's residents on sustainable development. It has played an important role in making sure that the region's economy and environment remain vibrant. The Regional Center of Expertise, among other things, will work to manage sustainable urban growth, conserve energy and water, improve the region's infrastructure, and educate the public on how best to conserve our treasured natural resources. To this degree, the Grand Rapids Community Sustainability Partnership will ensure that our children and grandchildren inherit a thriving community.

Through the leadership of the Grand Rapids Community Sustainability Partnership, Michigan remains a principal player in the conservation and protection of not only our economy, but also our environment. I have dedicated a major part of my life and career as a scientist and representative in local, State and Federal Government toward advancing these same goals of sustainable development and environmental stewardship, so I am especially proud of my hometown on this achievement. I commend the Partnership's activities to my colleagues in the House.

TRIBUTE TO DEBORAH COHN AND
THE USPTO

HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. WOLF. Madam Speaker, I am pleased to recognize Deborah Cohn, deputy commissioner for Trademark Operations at the United States Patent and Trademark Office (USPTO), for her leadership in promoting government telework. With her creativity and perseverance, Deborah Cohn pioneered the development of the USPTO's first telework program at a time when telework was far from the norm.

Convincing reluctant agency executives, Ms. Cohn forged coalitions with managers, IT personnel, and the employee union to create an innovative, award-winning telework program at the USPTO.

This month, the Trademark Work at Home (TWAH) program celebrates its 10th anniversary. Established in 1997, TWAH began as a feasibility pilot of 18 teleworkers. Today, TWAH is the most innovative and progressive program in the entire Federal Government involving more than 220 employees, or 85 percent of eligible examining attorneys, who spend the vast majority of their workweek at home.

The lesson learned from Hurricane Katrina is that governments and private sector businesses must continue to operate if our Nation is faced with similar disasters in the future. Telecommuting has proven benefits, not only for continuity of operations, but also energy savings, air quality, employee productivity, and employee cost savings. In short, telework is a winner all around. As the Nation's largest employer, the Federal Government should be the leader in telework policy. The USPTO is the gold standard for the Federal Government thanks to the efforts of my constituent, Deborah Cohn.

Ms. Cohn began her career at the USPTO as a trademark examining attorney in 1983. In 2001, she joined the Senior Executive Service as a Trademark Group director. She became deputy commissioner for Trademark Operations in 2005 and currently oversees the examination and processing of applications throughout the trademark operation.

Throughout her legal career at the USPTO, Ms. Cohn has been involved in work-life improvement initiatives. She is a former Council of Excellence in Government fellow where she first developed the seeds of the trademark work-at-home program. Ms. Cohn is a graduate of The American University and George Mason University School of Law. Ms. Cohn is a sought after resource and speaker as an expert on the development and management of telework programs.

I ask that my colleagues join me in recognizing Ms. Cohn's efforts in making the USPTO the most successful telework program within the Federal Government. I also ask my colleagues to join me in celebrating the 10th anniversary of the Trademark Office's award-winning telework program.

TRIBUTE TO U.S. ARMY CAPTAIN
JAMES A. MORIN

HON. KENDRICK B. MEEK

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. MEEK of Florida. Madam Speaker, I rise today to recognize Change of Command of the Headquarters and Headquarters Company, 1st Battalion, 3rd U.S. Infantry Regiment, and the achievements of its outgoing Commander, Captain James A. Morin.

In a ceremony tomorrow at Ft. Myer, Virginia, Captain Morin will pass the company's guidon to its new Commander, Captain Michael J. Shouse.

The 3rd U.S. Infantry Regiment is affectionately known as The Old Guard. It was created in 1784, and it is the Army's oldest active infantry regiment. It is also the lead Army unit for all ceremonial activities in and around the Nation's capital, and in many respects its members exemplify the best traditions of both the United States Army and of our Nation.

Captain Morin was a graduate of the U.S. Military Academy at West Point and served with distinction in both Operation Enduring Freedom and Operation Iraqi Freedom, where he earned several important awards and distinctions for his service. He joined the 3rd U.S. Infantry Regiment in 2004, and he has commanded the Headquarters and Headquarters Company since February, 2006.

Captain Morin has said that, even as a young boy, he wanted to be a leader of men. He has certainly achieved that goal, with honor and distinction. We are fortunate to have men of his caliber serving our Nation.

Madam Speaker, I know I speak for all my colleagues in congratulating Captain Michael J. Shouse on his new command, and in thanking Captain James A. Morin for a job well done.

TRIBUTE TO POPULATION RE-
SOURCE CENTER PRESIDENT
JANE DELUNG UPON THE OCCA-
SION OF HER RETIREMENT

HON. DANNY K. DAVIS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. DAVIS of Illinois. Madam Speaker, it is with great pride and a tremendous sense of appreciation that I rise to congratulate Ms. Jane DeLung on an outstanding career in research, planning and public advocacy. It has been a privilege to know Ms. DeLung since the late 1960s, when she was doing community health and family planning with the Chicago Department of Public Health, which was very exciting and meaningful work.

She went on to become assistant commissioner, worked for the Federal Government, was vice president of the Illinois Family Planning Council and ultimately became president of the Population Resource Center where she served for 15 years.

During her career, Ms. DeLung has developed effective approaches to bringing people together to raise issues, foster concepts and engineer advocacy action to advance causes and put ideas about advancing quality of life on broad scale agendas.

Ms. DeLung has obviously obtained a wealth of personal experience to match her formal training, B.A. Emory University, M.A. Roosevelt University, and thousands of hours of workshops, seminars and field training.

Madam Speaker, it has indeed been a pleasure to know and work with Ms. DeLung for all of these many years. She has been a most effective social planner, researcher, engineer and advocate. I commend and congratulate her, although she is retiring as President of PRC, I know that she will remain engaged.

Best wishes and good luck.

IN MEMORIAM—PAUL LEVENTHAL

HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. MARKEY. Madam Speaker, I rise today to commemorate and celebrate the life and work of Paul Leventhal.

Paul was a giant in the debate on how to protect the United States and the world from the proliferation of nuclear technology. He encouraged us, he challenged us, and he empowered us to not back down in our continual struggle to free ourselves from the threat of nuclear weapons. And now, as that struggle continues, Paul will be sorely missed.

Paul was a constant and tireless advocate for smart arms control and non-proliferation policies. He helped bring into being two of the most significant pieces of nuclear legislation of the atomic age, the Energy Reorganization Act of 1974 and the Nuclear Non-Proliferation Act of 1978.

To give you a sense of the significance of these laws, I want to tell a very short story about the concept of "full-scope safeguards," of which Paul was an early advocate, and which became U.S. law under the Nuclear Non-Proliferation Act in 1978. "Full-scope safeguards" means that a country would need to have IAEA safeguards over all its nuclear facilities as a requirement for receiving any civilian U.S. nuclear commerce. It is a crucial requirement, and it was adopted in 1992 by the Nuclear Suppliers Group as not only a U.S. requirement but an international one.

In July 2005, when President Bush announced that he wanted to blow a hole in U.S. non-proliferation laws to allow nuclear trade with India, what was stopping him? Paul Leventhal and the "full-scope safeguards" requirement. Not many people make such an impact on U.S. policy that it reverberates through three decades. But Paul did just that.

I relied on Paul's encyclopedic knowledge for many years, as did my staff. He was an irreplaceable resource to me back in the mid-eighties, when we were fighting the Clinch River Breeder Reactor, and the Reagan Administration's plans to open the door to nuclear cooperation with the Peoples' Republic of China. He was also a driving force behind the effort Howard Wolpe and I undertook in the early nineties to strengthen U.S. non-proliferation law and close export control loopholes. He was tireless in his efforts to move the world away from the use of highly enriched uranium in research reactors and to promote the alternative of low-enriched uranium. On issue after issue, Paul was on the cutting edge of nuclear non-proliferation policy, pointing out flaws in proposed nuclear cooperation agreements with Japan and Euratom, pressing Congress to tighten loopholes in U.S. law, and searching for every conceivable procedural or legislative strategy that could be employed in the cause.

While the void left by Paul's passing is large, and we will often wish that we had his wise counsel to guide us as we continue the fight, I'd like to think that as we do so Paul will be looking down on us and encouraging us in our efforts to fight for a world free from nuclear fear.

I honor Paul Leventhal today, and I pray that we will succeed in the struggle that he dedicated his life to—the fight to prevent the spread of nuclear weapons. My prayers are with his wife, Sharon, and his two sons, Ted and Josh; and I would like to thank them for sharing Paul with us over the years.

Madam Speaker, I submit Paul Leventhal's obituaries from New York Times and the Washington Post for the RECORD.

[From the New York Times, Apr. 12, 2007]

PAUL LEVENTHAL, WHO OPPOSED COMMERCIAL USE OF NUCLEAR POWER, DIES AT 69

(By Dennis Hevesi)

Paul Leventhal, who as president of the small but influential Nuclear Control Institute was one of the most vocal opponents of expanding the commercial use of nuclear power, died Tuesday at his home in Chevy Chase, Md. He was 69.

The cause was cancer, his son Ted said.

Mr. Leventhal founded the Nuclear Control Institute in 1981, two years after becoming co-director of the United States Senate's bipartisan investigation of the Three Mile Island accident, the nation's most serious commercial reactor failure.

Mr. Leventhal opposed commercial nuclear power not only because of the threat of a Chernobyl-like disaster but also because of its potential to ease the making of nuclear weapons. The construction of nuclear reactors in this country ceased for decades, though experts attribute this to cost more than to fears of proliferation. But Mr. Leventhal kept those fears on the front burner for 22 years as his institute's president and since 2002, when his title became founding president.

He lobbied lawmakers, organized conferences and wrote op-ed articles about proliferation, nuclear terrorism and the use of commercial reactors to make tritium, an ingredient of nuclear bombs, a program that the federal Energy Department is now pursuing.

He was particularly concerned about Iran, which he believed had a secret weapons program that would justify a harsh reaction, perhaps even military strikes.

"If you look at every nation that's recently gone nuclear, they've done it through the civilian nuclear cycle," Mr. Leventhal told The New York Times in 2004. Atoms for peace can be a "shortcut to atoms for war," he added. "It may take the unthinkable happening before the political process can screw up the courage to put an end to this ridiculously dangerous industry."

Paul Lincoln Leventhal was born in Manhattan on Feb. 12 in 1938, a son of Jack and Helen Shapiro Leventhal. In addition to his son Ted, of Washington, he is survived by his wife of 39 years, the former Sharon Tanzer; another son, Josh, of Raleigh, N.C.; a brother, Warren, of Roslyn, N.Y.; and two grandchildren.

Mr. Leventhal graduated from Franklin & Marshall College in 1959 and received a master's from the Columbia School of Journalism in 1960. He was a reporter for The Plain Dealer in Cleveland and later The New York Post and Newsday.

In 1969, Senator Jacob K. Javits, Republican of New York, hired him as his press secretary. Mr. Leventhal began concentrating on energy issues for Mr. Javits and, in 1979, was named staff director of the Senate's subcommittee on nuclear regulation and a director of the Three Mile Island investigation.

[From the Washington Post, Apr. 14, 2007]

PAUL LEVENTHAL; LED NUCLEAR CONTROL INSTITUTE

(By Yvonne Shinhoster Lamb)

Paul Leventhal, 69, founder of the Nuclear Control Institute in Washington and an expert in nuclear proliferation issues, died April 10 at his home in Chevy Chase. He had melanoma, a form of skin cancer.

Mr. Leventhal, a former newspaperman and congressional aide, launched his advocacy institute with a full-page ad in the New York Times on June 21, 1981, posing the question: "Will Tomorrow's Terrorist Have an Atom Bomb?"

Since serving in the early 1970s as an aide on a Senate subcommittee chaired by Sen. Abraham Ribicoff (D-Conn.), Mr. Leventhal remained adamant about the dangers of nuclear terrorism and global commerce in plutonium—a key element used in nuclear weapons—and worked to prevent the spread of nuclear weapons to nations or groups.

On the subcommittee, Mr. Leventhal worked on a Nixon administration bill to reorganize the Atomic Energy Commission. He described work on the legislation as a "baptism in fire" that changed his life.

Mr. Leventhal, who worked in the Senate from 1972 to 1981, was responsible for the investigations and legislation that resulted in passage of two landmark nuclear laws—the Energy Reorganization Act of 1974, which split the Atomic Energy Commission into separate regulatory and promotional nuclear agencies, and the Nuclear Non-Proliferation Act of 1978, which established stricter controls on U.S. nuclear trade.

The non-proliferation act's requirement that countries accept international inspections on all their nuclear activities—"full-scope safeguards"—as a condition for receiving U.S. nuclear assistance eventually was adopted as an international norm by the multinational Nuclear Suppliers Group.

Mr. Leventhal recognized the growth and threat of nuclear and bomb-grade materials, said lawyer Richard Wegman, who served as chief counsel for Ribicoff's committee with Mr. Leventhal and later as counsel for the Nuclear Control Institute.

"Paul was a truly remarkable individual, exceptionally dedicated to an exceptionally difficult cause," Wegman said. "He was one of the first to work for full-scope safeguards. . . . He insisted on incorporating that concept in legislation."

In 1979, Mr. Leventhal served as co-director of the bipartisan Senate investigation of the Three Mile Island nuclear accident, and he prepared the "lessons-learned" legislation enacted in 1980 to require preventive measures and emergency planning.

He said that work left him "acutely aware of that ineffable combination of human fallibility and mechanical failure that makes nuclear plants vulnerable to accidents, and also sabotage."

He lamented a few years ago that the flow of nuclear technology and materials from industrial countries to developing regions was continuing.

"As a result, there is now more plutonium in civilian hands than in all of the nuclear weapons in the world. And some of it has already been turned into bombs, as in India, Pakistan and North Korea, while others have used or are now using civilian nuclear programs as a cover for weapons programs," he said in a speech in 2001, adding that Iran and Iraq raised immediate concerns.

Mr. Leventhal, born in Manhattan, graduated magna cum laude with a degree in history from Franklin & Marshall College in

Pennsylvania in 1959 and received a master's degree from the Columbia University Graduate School of Journalism in 1960. He spent 10 years as an investigative and political reporter at the Cleveland Plain Dealer, the New York Post and Newsday, until deciding that he wanted to "get inside of government and try to make it work."

In 1969, he came to Washington as a press secretary to Sen. Jacob K. Javits (R-N.Y.), served in 1970 as campaign press secretary to Sen. Charles Goodell (R-N.Y.) and two years later was a congressional correspondent for the National Journal.

From 1972 to 1976, he concentrated on nuclear weapons proliferation as a research fellow at Harvard University's Program for Science and International Affairs and as a visiting fellow at the Brookings Institution. From 1979 to 1981, he was staff director of the Senate Nuclear Regulation Subcommittee, chaired by Sen. Gary Hart (D-Colo.).

After starting the Nuclear Control Institute, Mr. Leventhal served as its president for 22 years, lectured in a number of countries, organized conferences and wrote op-ed articles and books on nuclear terrorism, averting a Latin American nuclear arms race, nuclear power and the spread of nuclear weapons.

For the past several years, he directed the institute as a Web-based program that maintains a word-searchable electronic archive at www.nci.org; and a collection of institute and Senate papers spanning more than 30 years at the National Security Archive.

Survivors include his wife, Sharon Tanzer Leventhal of Chevy Chase; two sons, Theodore Leventhal of Washington and Joshua Leventhal of Raleigh, N.C.; a brother; and two grandsons.

NINE WORLD WAR II HEROES RECEIVE LONG OVERDUE HONORS

HON. C.W. BILL YOUNG

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. YOUNG of Florida. Madam Speaker, Tomorrow we will honor nine World War II U.S. Army Air Forces members here at the United States Capitol with Distinguished Flying Crosses for actions during a mission attacking oil refineries near Ploesti, Romania, more than 60 years ago.

The nine heroic service members to be honored are 1LT James E. Jatho, 1LT Edward L. McNally, 2LT George N. Croft, 2LT Theodore D. Bell, TSGT. Jay T. Fish, TSGT. William A. Magill, SSGT Frank G. Celuck, SSGT Robert D. Speed, and SSGT Daniel P. Toomey.

The nine medal recipients were members of a B-24 Liberator crew assigned to the 779th Bomb Squadron, 464th Bomber Group, 15th Air Force, who flew the mission July 15, 1944. The crew took off from Pantanella, Italy, to take part in what was to become the heaviest day of bombing of the oil refineries near Ploesti, Romania. Enroute to the target, the crew encountered heavy anti-aircraft fire, severely damaging the plane and causing the loss of one engine.

Despite a damaged plane, pilots Jatho and Croft managed to hold the course. Navigator Bell successfully plotted the flight path while Engineer Fish powered the engines to reach the target. Gunners Celuck, Speed and

Toomey courageously manned their gun positions battling through to the target. In heavy smoke, Bombardier McNally armed each bomb and successfully released the payload over the Uniera Sperantza oil refinery.

After dropping the payload, the crew's plane began losing speed and altitude and lost contact with the rest of their squadron. Over the Adriatic Sea, Radio Operator Magill was able to successfully dial in the Pantanella base homing signal while Engineer Fish got enough power from the remaining three engines in order for Navigator Bell and pilots Jatho and Croft to successfully guide the crew and damaged plane to their base at Pantanella without further damage to the plane or injuries to the crew.

The next day, the crew took part in a raid on Weiner Neusdorf, Austria, during which their plane was shot down. TSgt Magill was killed in action and the rest of the crew was taken as prisoners of war for the remainder of World War II.

Today we honor the three living members of the crew: 1LT Edward L. McNally of Stone Mountain, GA; TSgt Jay T. Fish of Englewood, FL; and SSgt Robert D. Speed of Mobile, AL.

Six of the honorees will receive the medal posthumously, and be represented by family members. Receiving the award for 1LT James E. Jatho, his son, Mr. Jim Jatho of Augusta, GA; for 2LT Theodore D. Bell, his widow, Mrs. Jean Bell of Evanston, IL; for 2LT George N. Croft, his widow, Mrs. Lorraine Croft of Kenai, AK; for TSgt William A. Magill, his niece, Ms. Patricia Thornburg of Belleville, MI; for SSgt Frank G. Celuck, his daughter, Ms. Mary Ellen McConnell of Monroeville, PA; for SSgt Daniel P. Toomey, his daughter, Ms. Eileen Gorman of Dedham, MA.

Madam Speaker, Air Force Chief of Staff T. Michael Moseley will officiate today over the presentation of the Distinguished Flying Cross to these World War II heroes. Special words of thanks are due to General Moseley for his personal review of this matter over the past year since I first raised the story of this crew with him. He took a personal interest in this matter and he and his staff put in many long hours to document the story of this mission and verify the crew's eligibility for one of our Nation's highest military honors.

Thank you, General Moseley, for allowing us to honor these nine brave men and express deep appreciation for their outstanding and selfless service to our country. The ceremony will be held tomorrow at 4 p.m. in 2118 Rayburn House Office Building. All are welcome to come and say thank you to these men who sacrificed so much in the defense of freedom and liberty.

CONGRATULATING OFFICER OLLIE LEE MCCOY OF THE UNITED STATES CAPITOL POLICE DEPARTMENT ON THE OCCASION OF HIS RETIREMENT

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. BONNER. Madam Speaker, it is with great pleasure and personal pride that I rise

today to honor Officer Ollie Lee McCoy on the occasion of his retirement from the United States Capitol Police Department.

For the past 20 years, Officer McCoy has served those who work in the United States Capitol complex with a great deal of professionalism, enthusiasm and concern for their well-being. In the process of performing his professional duties, Officer McCoy has also gained the respect and admiration of not only this Member, but of all of my House colleagues, the thousands of staffers that work on the Hill, and the countless visitors who come to the Capitol complex each and every day.

Madam Speaker, Officer McCoy is the epitome of a true professional. He stands at the front of a long line of dedicated men and women from all walks of life that represent the very best of the U.S. Congress. While the U.S. Capitol Police has, as its mission, to protect and support the Congress in meeting our Constitutional responsibilities, men like Officer McCoy have taken that mission a step further by always adhering to the highest standard and by always putting the good of others ahead of oneself.

Without a doubt, one of the saddest days on Capitol Hill—certainly one of the saddest days during my time here on the Hill—was July 24, 1998, when Officers John Michael Gibson and Jacob Joseph Chestnut were fatally wounded at the memorial door of the Capitol. Following the shootings, Officer McCoy was assigned to be liaison to the Chestnut family, and he received a commendation award for his outstanding service.

Madam Speaker, I ask my colleagues to join me today in recognizing Officer Ollie Lee McCoy for his tremendous contributions to the United States Capitol complex. The experience and zeal he has brought to his job—and the concern and compassion he has displayed for everyone whom he has encountered all these many years—are unquestioned and unparalleled. Officer McCoy has indeed been a genuine asset to the police department and to the thousands of men, women, and children he has assisted over the past two decades.

Make no mistake, Officer McCoy's talents and experience in the department will be sorely missed. Along with his many friends and colleagues, I wish to extend to Officer McCoy and his family much health and happiness in the years ahead.

INTRODUCTION OF THE TULSA-GREENWOOD RIOT ACCOUNTABILITY ACT

HON. JOHN CONYERS, JR.

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. CONYERS. Madam Speaker, I am pleased to introduce the Tulsa-Greenwood Riot Accountability Act of 2007, along with Representative NADLER. This legislation will extend the statute of limitations to allow the survivors of the Tulsa-Greenwood Riot of 1921 to seek a determination on the merits of their civil rights and other claims against the perpetrators of the riot in a court of law.

The Greenwood neighborhood of Tulsa, OK, was one of the Nation's most prosperous African-American communities entering the decade of the 1920s. Serving over 8,000 residents, the community boasted two newspapers, over a dozen churches, and hundreds of African-American owned businesses, with the commercial district known nationally as the "Negro Wall Street." In May 1921, all that came to an end as 42 square blocks of the community were burned to the ground and up to 300 of its residents were killed by a racist mob. In the wake of the violence, the State and local governments quashed claims for redress and effectively erased the incident from official memory.

The 1921 Tulsa race riot was one of the most destructive and costly attacks upon an American community in our Nation's history. However, no convictions were obtained for the incidents of murder, arson or larceny connected with the riot, and none of the more than 100 contemporaneously filed lawsuits by residents and property owners were successful in recovering damages from insurance companies to assist in the reconstruction of the community.

The case of the Tulsa-Greenwood riot victims is worthy of congressional attention because substantial evidence suggests that governmental officials deputized and armed the mob and that the National Guard joined in the destruction. The report commissioned by the Oklahoma State Legislature in 1997, and published in 2001, uncovered new information and detailed, for the first time, the extent of the involvement by the State and city government in prosecuting and erasing evidence of the riot. This new evidence was crucial for the formulation of a substantial case, but its timeliness raised issues at law, and resulted in a dismissal on statute of limitation grounds. In dismissing the survivors' claims, however, the court found that extraordinary circumstances might support extending the statute of limitations, but that Congress did not establish rules applicable to the case at bar. With this legislation, we have the opportunity to provide closure for a group of claimants—all over 90 years old—and the ability to close the book on a tragic chapter in history.

Racism, and its violent manifestations, are part of this Nation's past that we cannot avoid. With the prosecution of historical civil rights claims, both civil and criminal, we encourage a process of truth and reconciliation which can heal historic wounds. In this case, the court took "no great comfort" in finding that there was no legal avenue through which the plaintiffs could bring their claims. The Tulsa-Greenwood Riot Accountability Act would simply give Tulsans and all Oklahomans, white and black, victims and non-victims, their day in court. Without that opportunity, we will all continue to be victims of our past.

PERSONAL EXPLANATION

HON. JAMES T. WALSH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. WALSH of New York. Madam Speaker, I was not able to participate in legislative duties last week as I was in my District taking care of family commitments.

On Motion to Suspend the Rules and Pass, as Amended to H.R. 1677 Taxpayer Protection Act—Vote “yea.”

On Motion to Suspend Rules and Agree to H. Res. 196 Supporting the Goals and Ideals of World Water Day—Vote “yea.”

On Motion to Suspend the Rules and Agree, as Amended to H. Con. Res. 100 Condemning the recent violent actions of the Government of Zimbabwe against the peaceful opposition party activists and members of civil society—Vote “yea.”

On Motion to Suspend the Rules and Agree to H. Res. 273 Supporting the goals and ideals of Financial Literacy Month—Vote “yea.”

On Motion to Suspend the Rules and Agree to H. Con. Res. 76 Honoring the 50th Anniversary of the International Geophysical Year and its past contributions to space research and looking forward to future accomplishments—Vote “yea.”

On Passage of H.R. 195 District of Columbia House Voting Rights Act—Vote “nay.”

On Passage of H.R. 1495 Water Resources Development Act—Vote “yea.”

On Passage of H.R. 1257 Shareholder Votes on Executive Compensation Act—Vote “yea.”

HONORING CORPORAL JASON
BEADLES OF LA PORTE, INDIANA

HON. JOE DONNELLY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. DONNELLY. Madam Speaker, I rise today to honor the sacrifice of Corporal Jason Beadles of La Porte, IN, who died on April 12, 2007, while proudly serving his Nation in Baghdad, Iraq. Jason risked everything in order to provide security and freedom to people halfway around the world.

Jason loved Johnny Cash, and he loved country music. He loved taking his nieces and nephews swimming. He loved fooling around and playing games with his brothers and cousins in the backyard. He loved motorcycles, and hoped to eventually turn this passion into a career. In many ways Jason always was, as his parents described him to a local paper, a big child at heart.

But Jason also loved his country. Moved by the horror of 9/11 and inspired by his father and grandfather, his brother and uncles, Jason joined the Army to serve his country. Where

before there was the big child, now there was an honorable man.

And as an honorable man, Jason braved the dangers of war. In braving those dangers, Jason knew that he might face a day when he was called upon to pay the highest price demanded of any patriot. To the sorrow of the Beadles family and Jason's many friends, Jason did pay that price less than two weeks ago.

It is my sad duty to enter the name of Jason Beadles into the official record of the United States House of Representatives in honor of his service to this country and the ultimate price he paid. We honor him today as a true patriot, and a true hero. He served his country at war so that, as a great President once said, “freedom might live, and grow and increase its blessings.”

May God grant peace to those who mourn and strength to those who continue to fight. And may God be with all of us, as I know he is with Jason.

COMMEMORATING THE ARMENIAN
GENOCIDE

HON. MICHAEL E. CAPUANO

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. CAPUANO. Madam Speaker, I rise today to commemorate a people who despite murder, hardship, and betrayal have persevered. April 24, 2007, marks the 92nd anniversary of the Armenian Genocide.

Throughout three decades in the late 19th and early 20th centuries, millions of Armenians were systematically uprooted from their homeland of 3,000 years and deported or massacred. From 1894 through 1896, three hundred thousand Armenians were ruthlessly murdered. Again in 1909, thirty thousand Armenians were massacred in Cilicia, and their villages were destroyed.

On April 24, 1915, two hundred Armenian religious, political, and intellectual leaders were arbitrarily arrested, taken to Turkey and murdered. This incident marks a dark and solemn period in the history of the Armenian people. From 1915 to 1923, the Ottoman Empire launched a systematic campaign to exterminate Armenians. In 8 short years, more than 1.5 million Armenians suffered through atrocities such as deportation, forced slavery and torture. Most were ultimately murdered.

Many of our companions in the international community have already taken this final step. The European Parliament and the United Nations have recognized and reaffirmed the Armenian Genocide as historical fact, as have the Russian and Greek parliaments, the Canadian House of Commons, the Lebanese Chamber of Deputies and the French National Assembly. It is time for America to join the chorus and acknowledge the Armenians who suffered at the hands of the Ottoman Empire. And let me stress that I am not speaking of

the government of modern day Turkey, but rather its predecessor, which many of Turkey's present day leaders helped to remove from power.

As I have in the past, as a member of the Congressional Armenian Caucus, I will continue to work with my colleagues and with the Armenian-Americans in my district to promote investment and prosperity in Armenia. And, I sincerely hope that this year, the U.S. will have the opportunity and courage to speak in support of the millions of Armenians who suffered because of their heritage.

EXPRESSING SUPPORT FOR NA-
TIONAL MINORITY HEALTH
MONTH

HON. SILVESTRE REYES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, April 23, 2007

Mr. REYES. Madam Speaker, April is National Minority Health Month. Its goal is to foster awareness of minority health issues, and spur dialogue and solutions toward ensuring that minorities are not disproportionately vulnerable to illness, disease and premature death. In the U.S., Hispanics, African-Americans and Asian Pacific Islanders have significant healthcare needs. These groups suffer from high levels of poverty and disease, including diabetes, heart disease, tuberculosis, hepatitis, and cancer. Large numbers of minorities are also uninsured or under-insured. In a world where we have shortages of nurses, doctors, and other health practitioners, with respect to minority health in particular, there is no shortage of need.

To meet these challenges, the health concerns of particular minority groups must be addressed, and this must be achieved as we better our healthcare system. I am a strong supporter of the healthcare providers and research institutions in my district of El Paso, TX, such as Texas Tech University, the University of Texas at El Paso, El Paso Community College, the Border Health Institute (BHI), Pan American Health Organization, La Fe, Project Vida, Project Arriba, Fort Bliss, area hospitals and clinics, and individual doctors, nurses, and other healthcare professionals. I believe we must make every effort to create solid foundations for healthcare in our communities.

National Minority Health Month is a vitally important time for millions of Americans. In honor of National Minority Health Month, I urge my colleagues in Congress to support initiatives designed to effectively reduce minority health disparities. With respect to minority health, though there may be no shortage of need, we must assure there is also no shortage of resources to address the disparity, and eventually close the gap.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Tuesday, April 24, 2007 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

APRIL 25

9:30 a.m.

Agriculture, Nutrition, and Forestry

To hold hearings to examine challenges and opportunities facing American agricultural producers, focusing on farm programs and the commodity title of the farm bill.

SD-106

10 a.m.

Armed Services

Airland Subcommittee

To hold hearings to examine whether the Army is properly sized, organized, and equipped to respond to the most likely missions over the next two decades while retaining adequate capability to respond to all contingencies along the spectrum of combat in review of the Defense Authorization Request for fiscal year 2008 and the Future Years Defense Program.

SR-222

Environment and Public Works

Clean Air and Nuclear Safety Subcommittee

To hold an oversight hearing to examine the Nuclear Regulatory Commission.

SD-406

Judiciary

Business meeting to consider S. 376, to amend title 18, United States Code, to improve the provisions relating to the carrying of concealed weapons by law enforcement officers, S. 119, to prohibit profiteering and fraud relating to military action, relief, and reconstruction efforts, S. 1079, to establish the Star-Spangled Banner and War of 1812 Bicentennial Commission, S. 735, to amend title 18, United States Code, to improve the terrorist hoax statute, H.R. 740, to amend title 18, United States Code, to prevent caller ID spoofing, S. 221, to amend title 9, United States Code, to provide for greater fairness in the arbitration process relating to livestock and poultry contracts, S. 495, to prevent and mitigate identity theft, to ensure privacy, to provide notice of security breaches, and to enhance criminal penalties, law enforcement assistance,

and other protections against security breaches, fraudulent access, and misuse of personally identifiable information, S. 239, to require Federal agencies, and persons engaged in interstate commerce, in possession of data containing sensitive personally identifiable information, to disclose any breach of such information, S. 879, to amend the Sherman Act to make oil-producing and exporting cartels illegal, S. Res. 125, designating May 18, 2007, as "Endangered Species Day", and encouraging the people of the United States to become educated about, and aware of, threats to species, success stories in species recovery, and the opportunity to promote species conservation worldwide, S. Res. 116, designating May 2007 as "National Autoimmune Diseases Awareness Month" and supporting efforts to increase awareness of autoimmune diseases and increase funding for autoimmune disease research, S. Res. 146, designating June 20, 2007, as "American Eagle Day", and celebrating the recovery and restoration of the American bald eagle, the national symbol of the United States, S. Res. 162, commemorating and acknowledging the dedication and sacrifice made by the men and women who have lost their lives while serving as law enforcement officers, and the nominations of Robert Gideon Howard, Jr., to be United States Marshal for the Eastern District of Arkansas, Frederick J. Kapala, to be United States District Judge for the Northern District of Illinois, and Benjamin Hale Settle, to be United States District Judge for the Western District of Washington, John Roberts Hackman, to be United States Marshal for the Eastern District of Virginia, Department of Justice, and possible authorization of subpoenas in the connection with investigation into replacement of U.S. attorneys.

SD-226

10:30 a.m.

Appropriations

Defense Subcommittee

To hold hearings to examine proposed budget estimates for fiscal year 2008 for the Missile Defense Agency.

SD-192

2 p.m.

Armed Services

Emerging Threats and Capabilities Subcommittee

To hold hearings to examine language and cultural awareness capabilities for the Department of Defense.

SR-325

Veterans' Affairs

To hold an oversight hearing to examine the Department of Veterans Affairs, focusing on mental health issues.

SR-418

2:30 p.m.

Commerce, Science, and Transportation

Business meeting to consider pending calendar business.

SR-253

Energy and Natural Resources

Water and Power Subcommittee

To hold hearings to examine S. 324, to direct the Secretary of the Interior to conduct a study of water resources in the State of New Mexico, S. 542, to authorize the Secretary of the Interior to conduct feasibility studies to address certain water shortages within the Snake, Boise, and Payette River sys-

tems in the State of Idaho, S. 752, to authorize the Secretary of the Interior to participate in the implementation of the Platte River Recovery Implementation Program for Endangered Species in the Central and Lower Platte River Basin and to modify the Pathfinder Dam and Reservoir, S. 1037, to authorize the Secretary of the Interior to assist in the planning, design, and construction of the Tumalo Irrigation District Water Conservation Project in Deschutes County, Oregon, S. 1116 and H.R. 902, bills to facilitate the use for irrigation and other purposes of water produced in connection with development of energy resources, S. 175, to provide for a feasibility study of alternatives to augment the water supplies of the Central Oklahoma Master Conservancy District and cities served by the District, S. 1112 and H.R. 235, bills to allow for the renegotiation of the payment schedule of contracts between the Secretary of the Interior and the Redwood Valley County Water District.

SD-366

3:30 p.m.

Armed Services

Strategic Forces Subcommittee

To hold hearings to examine Department of Energy atomic energy defense programs in review of the Defense Authorization Request for fiscal year 2008.

SR-232A

APRIL 26

9:30 a.m.

Armed Services

To hold hearings to receive testimony on legal issues regarding individuals detained by the Department of Defense as unlawful enemy combatants.

SH-216

10 a.m.

Appropriations

Commerce, Justice, Science, and Related Agencies Subcommittee

To hold hearings to examine proposed budget estimates for fiscal year 2008 for the Federal Bureau of Investigation.

SD-192

Health, Education, Labor, and Pensions

Employment and Workplace Safety Subcommittee

To hold hearings to examine the effectiveness of the Occupational Safety & Health Administration (OSHA).

SD-628

Indian Affairs

To hold hearings to examine S. 462, to approve the settlement of the water rights claims of the Shoshone-Paiute Tribes of the Duck Valley Indian Reservation in Nevada, to require the Secretary of the Interior to carry out the settlement.

SR-485

Commerce, Science, and Transportation

Science, Technology, and Innovation Subcommittee

To hold hearings to examine clean coal technology.

SR-253

Appropriations

Transportation, Housing and Urban Development, and Related Agencies Subcommittee

To hold hearings to examine proposed budget estimates for fiscal year 2008 for the Department of Housing and Urban Development.

SD-124

1 p.m.
 Finance
 Energy, Natural Resources, and Infrastructure Subcommittee
 To hold hearings to examine coal, focusing on a clean future.
 SD-215

2:30 p.m.
 Energy and Natural Resources
 National Parks Subcommittee
 To hold hearings to examine S. 312 and H.R. 497, bills to authorize the Marion Park Project and Committee of the Palmetto Conservation Foundation to establish a commemorative work on Federal land in the District of Columbia and its environs to honor Brigadier General Francis Marion, S. 169, to amend the National Trails System Act to clarify Federal authority relating to land acquisition from willing sellers for the majority of the trails in the System, S. 580, to amend the National Trails System Act to require the Secretary of the Interior to update the feasibility and suitability studies of four national historic trails, S. 686, to amend the National Trails System Act to designate the Washington-Rochambeau Revolutionary Route National Historical Trail, S. 722, to direct the Secretary of the Interior and the Secretary of Agriculture to jointly conduct a study of certain land adjacent to the Walnut Canyon National Monument in the State of Arizona, S. 783, to adjust the boundary of the Barataria Preserve Unit of the Jean Lafitte National Historical Park and Preserve in the State of Louisiana, S. 890, to provide for certain administrative and support services for the Dwight D. Eisenhower Memorial Commission, and H.R. 1047, to authorize the Secretary of the Interior to conduct a study to determine the suitability and feasibility of designating the Soldiers' Memorial Military Museum located in St. Louis, Missouri, as a unit of the National Park System.
 SD-336

Intelligence
 Closed business meeting to consider pending intelligence matters.

Commerce, Science, and Transportation
Consumer Affairs, Insurance, and Auto-
motive Safety Subcommittee

To hold hearings to examine All-Terrain
Vehicle (ATV) safety.

SR-253

SENATE—Tuesday, April 24, 2007

The Senate met at 10 a.m. and was called to order by the Honorable JON TESTER, a Senator from the State of Montana.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal Lord God, who has promised to supply all our needs, strengthen our Senators to honor Your Name. Give them ears open to hear Your word, minds ready to accept Your truth, wills ready to do Your commands, and hearts ready to respond to Your love.

Give them also a sure and certain faith to believe Your promises and never to despair. Infuse them with a love that is ready to forgive, eager to help, and quick to share. Let no disappointment quench their commitment to serve You faithfully. Give them the right and true ambition to find their greatness in serving others. We pray in Your wonderful Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable JON TESTER led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, April 24, 2007.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable JON TESTER, a Senator from the State of Montana, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. TESTER thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Mr. President, the Senate will be in a period of morning business

for 1 hour. The first portion is controlled by the Republicans, the final portion under the control of the majority.

Following this period of morning business, the Senate will resume debate on S. 761, the competitiveness bill. Under an agreement entered last week, Senator COBURN is to be recognized today to speak for up to an hour on the bill. I am also aware of other speakers who have indicated a willingness to speak on the legislation. We hope we can accommodate their schedules because there are a number of people who want to speak.

At noon today, we will switch gears and consider Executive Calendar No. 76, the nomination of a judge from Mississippi, Halil Suleyman Ozerden, to be a U.S. district judge. There will be up to 10 minutes of debate and then a vote on confirmation. This time will be controlled by the chairman and ranking member of the Judiciary Committee. Members can expect a rollcall vote today around 12:10. Once this nominee is confirmed, this will be the 16th district judge we have confirmed this year, 14 districts and 2 circuits. The Senate will recess for our regularly scheduled party conferences following the vote and will reconvene at 2:15 p.m. today.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of morning business for 60 minutes, with Senators permitted to speak therein, the first 30 minutes under the control of the Republicans and the final 30 minutes under the control of the majority.

The Senator from Utah.

BORIS YELTSIN

Mr. BENNETT. Mr. President, may I, before I begin my comments prepared for today, make two quick comments.

No. 1, I note the passing of Boris Yeltsin, President of Russia and a major figure in the transition between the Communist rule and the present democracy that exists in Russia. Like many Members of the body, I had the opportunity to meet Boris Yeltsin. That is one of the privileges we have as Senators—we get to meet important

people from around the world. I can't pretend to know him at all. I simply shook his hand and said hello. But I was in Russia not long after he took power, spent time in the U.S. Embassy there, and noted the impact he had on helping bring Russia into the modern world, the world of democracy, and out of the ancient world, the world of tyranny. He had his faults. He had his problems. But he played a pivotal role, and we should take a moment to recognize that fact.

The one quote attributed to him that I enjoyed personally with respect to our life here has to do with the Library of Congress. When my constituents come to Washington, I tell them: You need to go see the Library of Congress, the Jefferson Building. Aside from the Capitol itself, it is the most beautiful building on Capitol Hill, and maybe in Washington. Boris Yeltsin is said to have gone into the Library of Congress and looked around at that magnificent lobby and then questioned: How did you get a building like this? You didn't have any czars.

Having been to the buildings in the Kremlin and seeing the kinds of things the czars built, I understand that the Library of Congress probably would have impressed him.

SENATE CHAPLAIN

Mr. BENNETT. Mr. President, my second comment has to do with our Chaplain. I listened with great interest and humility to the prayer he offered this morning. I felt touched by the things he asked on our behalf. They were the kinds of things I need from our Heavenly Father. I was grateful to the Chaplain for his ability to touch on those. I read his biography before it was published. He was gracious enough to give a copy of it to my wife, who has now read it, and I have reread it. We are well served by having a man of his spirituality and intellectual background and learning as our Chaplain in the Senate.

SOCIAL SECURITY

Mr. BENNETT. Mr. President, I rise to turn my attention to a report that was released yesterday, the annual report of the Board of Trustees of the Federal Old-Age and Survivors Insurance and the Disability Insurance Trust Funds. Those are fancy names for what we call Social Security.

With yesterday's release, they once again changed their projection as to what the future might hold with respect to Social Security, thus underlying a point I have tried to make in

my career in the Senate ever since I arrived; that is, all projections about the future are wrong. I don't know whether they are wrong on the high side or on the low side, but they are always wrong. The closer we get to reality, the more we have to adjust those projections and say: Well, it is closer to this, that, and the other.

The most reliable projections are those which are 30 days out. The next most reliable are those which are 3 months out and then those which are 6 months, those which are a year. Those which are 20 years or 30 years out are all very much subject to challenge. We are seeing that here. We have had projections on which we have based our speeches and our actions. Now we are seeing those projections get changed. But there is one projection that is not subject to change that has bearing on the issue of Social Security. I would like to put up a chart which demonstrates that.

The reason this one is not subject to change is that all of the people represented here are already born. These are people who are already alive. These are not projections about demographics. These are not projections about economics. These are the facts with respect to the American population. This is a chart showing the percentage of Americans who are over 65. Back in 1950, it was around 5 percent of Americans who were over 65. Then it increased gradually over the years. Now it is closer to 10 percent. There was a dip in the percentage that occurred between 1990 and now. That dip represented the birthrate back in the Great Depression when people, for their own reasons, curtailed the having of children. One could say it was primarily economic. Children have ceased to be economic assets; they have become consumer goods. When times are hard, you cut back on your consumer goods.

Then we had what we demographers call the baby boom. The GIs came home from World War II. They started families. They started their careers. They were filled with optimism, and they were willing to take on some extra consumer goods. They had larger families. Those children are now reaching retirement age.

Starting in 2008, something is going to happen in America that has never happened before in our history: The percentage of Americans over retirement age is going to double in a 20-year period. Then it will taper off again, after we have absorbed the impact of the baby boom generation, and continue to increase but at a relatively minor rate. It is this phenomenon, this projection, which is a reliable one—because all of these people have been born—that is driving the crisis in Social Security. It is not the Republicans who are driving the crisis. It is not the Democrats who are responsible for the

crisis. We should stop talking in partisan terms about this and recognize the reality. This is a demographic projection upon which we can rely.

Social Security is a program that covers everybody who works. It covers the single mom who works as a waitress at the minimum wage, and it covers Oprah Winfrey and Warren Buffett and Bill Gates. The multimillionaires receive Social Security. They receive Social Security on the basis of the amount they pay into the program. The amount they pay into the program is substantially more than the amount the single-mom waitress pays in. Because it is structured in that fashion, Oprah Winfrey will receive more than the single-mom waitress—indeed, significantly more. The question arises, under those circumstances, in order to deal with the shortfall that is described in the report issued by the trustees, do we need to continue that idea; that is, that Oprah Winfrey, with her billions, still should get more Social Security than the single-mom waitress who, when she retires, has no personal safety net whatsoever. I am not suggesting that what we do is penalize Oprah Winfrey or Warren Buffett or Bill Gates. I don't want to pick on Oprah too much, but she is perhaps the most visible all of these billionaires about whom I speak.

There is something in the Social Security system that we should address and that people on both sides of the aisle should address; that is, the way Social Security benefits are currently figured has in that mathematical formula a method of increasing the benefits to compensate for inflation. The formula that is there increases the benefits more than inflation goes up. We don't know that. Americans aren't aware of that. We say: Here is the benefit line, and it should increase by so much with respect to inflation, and that is only fair. It increases more than inflation actually goes up.

The late Senator Moynihan from New York used to say the way to deal with this reality of the doubling of Americans over retirement age is to simply adjust the inflation adjustment to true inflation.

We are paying out more than inflation would justify. If we just back it down to pay out exactly what inflation would justify, then we solve the problem. Then the report from the trustees says there will be enough money. It is the fact we have adjusted it higher than inflation that is causing the money to disappear, causing the projections to be as bad as they are.

Let me show you what happens if we do not make some kind of adjustment. Here is another chart that takes the information that comes from the trustees and puts it in perspective. This flat line is the income coming into the Social Security system. This blue line is

the payout. As you will see, starting at about 2014, the amount paid out will be more than the amount coming in.

How do we make up the difference? Well, it is in the trust fund. It is a commitment made by the Congress. So the Congress will put up the money. We will honor the commitment of the trust fund.

Then, around about 2040, 2041, all of a sudden the trust fund is exhausted, and, by law, you cannot pay out more than you have coming in—unless you dip into the trust fund. So if there is no trust fund, and you cannot pay out any more than you have coming in, the amount of benefits drops dramatically back to the level of the income. That is where we are, and that is roughly a 25-percent cut across the board to everybody.

That is a 25-percent cut to the woman who waited on tables as a single mom and is now at retirement age and sees her benefits cut 25 percent. It is a 25-percent cut for Oprah Winfrey, who will not notice it. Indeed, she probably won't even be aware the Social Security check is coming in because in her billions that check gets lost.

This dotted line shown on the chart is what the benefits should have been if we had enough money. But we will not have enough money, and that is where we will be.

Instead of waiting until 2041 to deal with this reality, what we should do now is listen to what Senator Moynihan had to say—but with this amendment, he said: Change the adjustment for inflation to match real inflation, and you get enough money to keep the two together.

I say: Leave the present overly generous adjustment for inflation in place for the single mom; that is, leave the present situation in place for the bottom third of people who pay into the trust fund. Then say to Oprah Winfrey and Bill Gates: You are going to have to struggle by with just inflation as it really is. We are not going to give you the inflation-plus energizer that we give to the bottom third.

Now, for those of us who fall somewhere in between the bottom third and Bill Gates, we can have a blend. We can have a mixture of the more generous benefits paid to the bottom third and the less generous benefits paid to the top 1 percent. By simply making that kind of adjustment now—now, not waiting until 2041—we can avoid the crisis in 2041.

Now, I have had conversations with my friends across the aisle about this proposal for several years. I have introduced it as a piece of legislation and discussed it with people around this Congress of both parties. This is the reaction I get: Bob, this is a good idea. This is something we probably ought to do. But we won't address the problem until after the next election.

Mr. President, the next election never comes. There never is an "after the next election." We are constantly demagoging the Social Security issue for political advantage and putting off the time when we must deal with it.

So triggered by the occasion of the report released by the trustees of the Social Security trust funds, I say today, the time has come for both parties to recognize this is a problem that will not go away. This is a projection we can trust, and it is time for us to put partisan advantage or perceived partisan advantage aside and deal with it.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Colorado.

IRAQ SUPPLEMENTAL

Mr. ALLARD. Mr. President, last night we had our first and only conference committee meeting where all the members from both Appropriations Committees who are on the conference committee, including members on the House side, had an opportunity to come together for their first gathering. I predict it will be the only gathering. Everything else in that supplemental has been worked out behind doors, and a lot of us were not privy to it until legislation was proposed in the conference committee yesterday.

I am very disappointed in that piece of legislation. There is a huge increase in the amount of dollars being spent to try to placate some of those who may otherwise oppose the legislation.

But my main concern with that legislation is it has timelines and benchmarks in it that are going to tend to micromanage the conflict in Iraq. I think that is a bad idea. In fact, I have indicated I am not willing to sign the conference report that is going to come out of that particular committee because of the language in there that does lay down timelines and benchmarks. That creates a problem for our commanders in the field in Iraq.

Mr. President, it was not very many months ago the Senate unanimously approved General Petraeus to head our efforts in Iraq. Many Members have extolled the virtues of the general—his education, his leadership, and his commitment to his soldiers.

Unfortunately, we are still confronted with the reality that some want to tie General Petraeus's hands. Confusingly enough, they want to reject the strategy General Petraeus has proposed in Iraq even before he has been given the full opportunity to perform his mission.

I ask again: Why would we support him and recognize his stellar career with a unanimous nomination vote but not give him the means to get the job done? For what reason did my colleagues agree to send him to Iraq as the commander of our forces? His

strategy in Iraq was made very clear, both publicly and privately, and yet we are not willing to support it. It is vexing.

We need to avoid micromanaging the war from the floor of the Senate. Let our Commander in Chief perform his duties, and let our military leaders do their jobs. If we do not support them fully in the supplemental bill, then I must continue to vote against any legislation that sets arbitrary deadlines and thresholds in Iraq—and plead with my colleagues to do the same.

We cannot afford to set a deadline and walk away from Iraq. The cost of failure is too great to our future long-term national security. It is in America's security interests to have an Iraq that can sustain, govern, and defend itself. Too much is at stake to simply abandon Iraq at this point. The price of failure is simply too great.

Let me remind my colleagues that we have seen terrible results from political motives being placed above military necessities—the attempt at rescuing the American Embassy hostages from Tehran, or Beirut in the 1980s, and Somalia in the 1990s. Leaving Iraq in the current situation would be like the ending of our efforts in those areas as well. Our withdrawal from these countries embolden the terrorists. Bin Laden himself is on record after these withdrawals criticizing our lack of will and questioning our commitment to fighting these zealots. We have to learn from our mistakes in the past.

How have we gotten to this point? Well, many of my colleagues in the Senate continue to beat the drum of the Iraq Study Group Report. They continue to state that their withdrawal proposal follows the report's recommendations.

I would simply like to point out something to my colleagues. Unlike the supplemental bill that will soon be voted on—or what I would like to call our surrender document—the Iraq Study Group Report does not call for us to walk away from our mission. They do not call for us to walk away from our mission. In fact, the Iraq Study Group Cochair, James Baker, recently had this to say about artificial deadlines:

The [Iraq Study Group] report does not set timetables or deadlines for the removal of troops, as contemplated by the supplemental spending bills the House and Senate passed. In fact, the report specifically opposes that approach. As many military and political leaders told us, an arbitrary deadline would allow the enemy to wait us out and would strengthen the positions of extremists over moderates.

So here we are, a must-pass bill that flies in the face of what the Iraq Study Group has recommended. But the Democratic majority is well aware of what effect slowing down passage of the supplemental means to the Department of Defense as a whole. Particularly, the House of Representatives has

dragged its feet in appointing conferees to the bill, knowing full well the President intends to veto this legislation. In fact, just yesterday, President Bush stated he would strongly object to any deadlines, stating that:

An artificial timetable of withdrawal would say to an enemy, "Just wait them out." It would say to the Iraqis, "Don't do hard things necessary to achieve our objectives." And it would be discouraging to our troops.

He also stated he does not want "Washington politicians trying to tell those who wear the uniform how to do their job." I agree with the President wholeheartedly.

By placing the President in the precarious position of vetoing this bill, even in the dire financial straits it places the Department of Defense, the other side of the aisle has chosen to play politics rather than fund a clean bill that gives our soldiers in the field the resources they need.

The question remains, if the other side truly believes the war is lost, then why not cut off funding for the war entirely? The power of the purse is in our constitutional authority as a Congress. If the majority party wants to dictate Iraq policy to the President, rather than put limitations on our military in Iraq, which would be a disaster, they should attempt to no longer fund our efforts.

But I doubt that will happen because they know they do not have the votes or the support for such a precipitous withdrawal. Instead, the "slow bleed strategy" will continue from our colleagues in the Senate and the House that will, in my opinion, leave our troops dejected and less safe than before. This ill-advised strategy will clearly hand Al Jazeera its propaganda message.

There is no doubt we face extremely difficult challenges in Iraq. We have not made enough progress. Citizens of Iraq must be willing to fight for their own freedom. The President recognizes this, and his new plan is the result of increased commitments from the Iraqi Prime Minister. The President has developed a new plan with new leadership. We should not jerk the rug out from under those we have put in charge in Iraq.

I ask my colleagues to reject this bill and let us craft a clean funding bill that will meet the priorities and needs of our men and women in Iraq.

Mr. President, that concludes my remarks.

The ACTING PRESIDENT pro tempore. The Senator from Florida.

Mr. MARTINEZ. Mr. President, I want to follow on the remarks of my dear friend from Colorado related to the current situation in Iraq. It appears some movement has been made on the war supplemental. Unfortunately, it is a flawed piece of legislation, one the crafters of it well know

will be vetoed by the President. It will be vetoed for good reasons—because it contains completely unacceptable language, as was just being pointed out.

It is impossible for us to micro-manage what is happening in the field. It is a bad idea for politicians in Washington to tell generals when and how they can move forces in a battle. It is a bad idea for us to slow-bleed our military as they face an unrelenting enemy. It is a bad idea for us to simply not have the wherewithal to stick with the fight at a time when it is difficult. The President this week again reiterated his commitment that he would veto a bill that had artificial timetables for withdrawal and that would empower the enemy. It gives the enemy hope and an opportunity to wait us out. There is no question about that. A deadline simply tells the enemy by what date they need to know that the American commitment is over.

Imagine the confusion for someone in Iraq trying to make a decision whether to cast their lot which, in fact, may mean the death of himself or herself, and their family, to support our effort there toward a democratic country. If they had no anticipation that our commitment was equal to theirs, they might simply wait it out. So how can we ever turn the political tide in our favor in Iraq if we don't show the commitment the people of Iraq must have in order to make a commitment to our stated goals?

General Petraeus is here. He met with the President yesterday; he will be meeting with Members of Congress. It is important that we ask him his assessment of the current situation.

I know there are many who would be ready to suggest that the surge is not working. In fact, the full surge is not in place because all of the troops are yet to be deployed for the surge, but some who already said it wouldn't work are now saying it hasn't worked. I wish to have General Petraeus's assessment of it. I want to know what the general on the ground—not a politician in Washington—thinks about the effort of success we are meeting with our effort at this point in time.

The Iraq Study Group has been mentioned. Congress should drop fixed deadlines for withdrawals of U.S. forces. As Commander in Chief, the President needs flexibility on draft deployments. This is from the cochair of the Iraq Study Group, Democrat Lee Hamilton.

It is important that we recognize the Iraq Study Group not only when it is convenient but also when it might be inconvenient.

I think it is very important that we not sound the voice of defeat. Imagine the surprise that must have come to our enemies—and whether we like it or not, we have enemies—imagine the delight that must have come when, from the halls of the Congress, from the

leader of the Senate, they were told that they had, in fact, won; that the war was lost.

This is not the right thing to say at a time when our troops are engaged in battle. Nine U.S. soldiers lost their lives in the last 24 hours alone. This is a difficult time. It is not a pleasant time. It is not an easy assignment. So for us to simply tell our troops in the field they have been defeated when they in fact have not, and for us to tell our enemies that in fact they have won when in fact they have not, is not a good idea. I believe it is terribly important that we attempt somehow in the midst of this rancor and debate that is so classic of modern day Washington that we find it within ourselves to look beyond the current moment of politics, beyond the political advantage that might be gained at any one moment or another, and seek within the depths of our souls the opportunity for us to begin to work together to try to find a solution to this very difficult problem.

It is a sure thing that we, in fact, have a problem on our hands, that Iraq is a difficult situation. There is no question they must reach a political settlement. There is no question that they must do—the Iraqis themselves—the hard work of peace. However, as we do that, we need to also find it within ourselves to find a way of shaping a political consensus, for us to find a way to begin to talk to one another, not past one another, about how we resolve the issues in Iraq in a way that will enhance America's strength. It is not about defeating a point of view. It is not about defeating President Bush. A loss in Iraq would be a defeat for the United States of America. So how do we find a way to empower America to be a stronger country, to be a united country as we seek to defeat the enemies of our country, which surely are there, continuing to fight against us, wishing us to be unsuccessful, and wishing for our country to be defeated? We should pull together, Republicans and Democrats all, to try to find the common ground that will bring us to a sensible solution, to a sensible outcome, so America is not defeated, but the enemies of America are defeated.

Mr. President, I yield the floor.

BIPARTISANSHIP STARTS AT THE TOP

Mr. NELSON of Florida. Mr. President, I say to my good personal friend and colleague from Florida, if we want to solve this and other problems, we have to have some genuine bipartisanship, and that bipartisanship has to start at the top. There has to be an atmosphere of mutual respect and willingness to work together, and it has to start in the White House.

I have shared these comments publicly and privately. Whenever you face something as contentious as the mat-

ters we face—matters of war and peace, the making of Medicare financially solvent, the question of prescription drugs and their cost—you simply can't do it by taking a unilateral position over and over on either side of this aisle; it has to be that people have to come together and work it out. There also has to be a sense of mutual trust, of people telling the truth to each other, of doing what the standards were in the old days where a man's word was his bond. Until we get that, we are going to continue to have difficulty.

We see the problems right now in a war that is certainly a difficult one. We all share the same goal: that the interests of America are furthered if we can stabilize Iraq. How do we get there? There has been so much mistrust and suspicion that has been bred because of all the inconsistencies and lack of information and misinformation and massaged information. But that is then; now is now. What do we do? Thus far, it looks as though the White House and the leadership in Congress can't come together. There is too much distrust.

I have said before and I will say again, thank goodness the Secretary of State is out on a new diplomatic initiative. It is not catty to say it is about time, because there certainly have been those forces within the administration that have wanted this much more in the past, but I think the Secretary of State is making a very valiant effort now, because you are not going to solve the problem in Iraq unless you can get all the neighbors in the region involved to make a political solution stick.

Is a political solution viable? This Senator cannot say at this point that it is a viable prospect because of the sectarian hatred we have seen play out over these last several months. But this hasn't just been going on for months; this has been going on for 1,327 years, ever since the Battle of Karbala. I say to my colleague, who is my friend, and the two of us work together very well all the time, that a lot less rhetoric coming from both ends of Pennsylvania Avenue would help this problem, but I don't see it changing right now. I think that is a sad commentary on the state of affairs.

Mr. MARTINEZ. Will the Senator yield for a moment?

Mr. NELSON of Florida. Certainly.

Mr. MARTINEZ. I appreciate the Senator's comments, and I so much value our relationship and our ability to work across the aisle, because we seem to get a lot done when we do that. It is an encouraging sign on one of the very difficult issues of our day, which is immigration, that we do seem to be working in a bipartisan way, and it is amazing what can be accomplished when we do work bipartisanship.

I can't help but be shaped by my own life experience, and I remember as I

came to America and was learning the ways of this country, and I admired so much this new land of mine, that I would marvel at the phrase: "Politics ends at the water's edge." That used to be the standard. There were these towering giants of another day who occupied these very desks we now use as ours who seemed to find it within themselves to reach a little higher to work across party lines in those post-war years, in the Cold War years when it was so essential.

I think what we need to adopt as a country is the understanding that this struggle against this enemy is long term, that we are going to be in this fight for a long time, probably the time of your service and mine. I hope not, but perhaps. If we are going to be successful in that endeavor, we have to set politics aside. We have to find a way that we can think of America first and whatever label we wear in a secondary way. I am not preaching to my colleague from Florida or anyone in particular. Frankly, the blame lies on both sides of the aisle, with Republicans as well as Democrats. We have to find a way we can move beyond the momentary gain we might make over a 24-hour news cycle for the longer term good of the Nation and the longer term good of what America stands for to the world.

Anyway, maybe the Senator and I began a rare moment here this morning in talking about Iraq where we are not yelling at each other and we are actually talking about how we can bridge our differences and find consensus as something that will help the American people.

Mr. NELSON of Florida. Mr. President, I say to my colleague, work in your sphere of influence and this Senator will try to do the same. What we have is an approaching train wreck, because if the Congress passes this emergency funding bill for the war that has this language in it, if that passes this week, then the President is going to veto it next week and that is going to leave us right back where we are, with both sides making a lot of noise and a lot of rhetoric, but that doesn't get us any closer to where we are going. So I say to my colleague, look over the horizon beyond this week and see where we can come together.

I thought the most promising prospect was when Jim Baker and Lee Hamilton came down with the Iraq Study Commission report. They showed, in a bipartisan way among very prominent people of both parties, how you should approach this Iraq situation, and yet, that was last November or December when it came out, and here we are 4 months later and still we have not come together in common ground. So I would encourage my colleague to keep working.

Mr. MARTINEZ. I thank the Senator.

KIDS AND CAR SAFETY ACT

Mr. NELSON of Florida. Mr. President, I want to talk about a sad situation we can do something about. A year ago this little girl, Veronica Rosenfeld, and her mom were walking in their Boca Raton neighborhood. This little girl, Veronica, was about 5 feet ahead of her mother on the sidewalk when a neighbor, not seeing little Veronica, backing out of the driveway, backed out over her and killed her. Her mother was right there, and there was nothing she could do about it. It is every parent's nightmare to certainly see their child die, but how much more horrible to lose them and be totally helpless in preventing a senseless accident—an accident that could be prevented.

Let's talk about that, the prevention of the accident. Look what has happened in the last 6 years. There has been a 138-percent increase in the last 6 years in the number of children killed in these noncrash fatalities in which people back over a child because they can't see the child. Several children are killed every week in the United States, and sadly—and this is why I bring it up again; I have brought it up several times to the Senate—this past weekend in Florida, two more children died in their driveways. In Hollywood, FL, a 3-year-old died when her father accidentally backed over her with his cargo van, and in Fort Myers, a 5-year-old was killed by her 16-year-old brother when he was parking the family car.

Mr. President, this month alone, April, there have been 11 children backed over and killed in this country. These injuries and deaths continue to occur, even though we have the technology to prevent many of them. But we need legislation to put this technology to use. In April alone—and we are not even to the end of April—they have happened in Indiana, New York, Georgia, three in Florida, two in Texas, two in California, and one in Hawaii thus far. And it is only April 24.

This is why a bunch of us have gotten behind the Cameron Gulbransen Kids and Cars Safety Act. It is a bipartisan bill that would provide drivers with the means of detecting a child behind their vehicle. This bill would also ensure that power windows would automatically reverse direction to prevent a child from being trapped and mandate a car's service brake to engage to prevent rollaways. We have this technology in a lot of vehicles. We have been in the vehicles where there is a signal that goes beep, beep, beep, and it becomes more frequent when an object is detected behind the car. The technology is there, and it is already being used. The same thing for windows. A child's head is in a window and suddenly the window goes up. It hits resistance and it reverses, and a parking brake automatically engages to prevent a rollaway on an incline.

Consumer groups have teamed with the parents of victims to suggest ways that are relatively simple and inexpensive in order to ensure that more parents won't have to endure the pain of losing a child. The technology is there. We all want to be safe behind the wheel of a car, especially when we back up. How many times, when we back out of our garage, do we have that nagging thought: Is there a child behind this vehicle I cannot see? Why go through this trauma anymore? Let's pass this Kids and Cars Safety Act, and then we can stop a lot of these needless deaths.

Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BIDEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BIDEN. Mr. President, I will proceed in morning business. I believe I have time allotted to me.

The ACTING PRESIDENT pro tempore. The majority has 15 minutes.

IRAQ

Mr. BIDEN. Mr. President, President Bush has spent the last 2 weeks talking up the "progress" we are making in Iraq and talking down the Democrats and some of our Republican colleagues for trying to bring this war to a responsible end. But sometimes that is a problem because you have to deal with the facts. The facts are not as the President wants them to be but as they exist on the ground. The fact is, the President is totally out of touch with reality. He is out of touch with the American people and with America's interests in the region.

I have been here a while, and I can say I have never seen a President as isolated since Richard Nixon. The President appears to be totally removed from reality. He tells us that Attorney General Gonzales has done a great job, when anybody who watched it views it as one of the least impressive appearances of an Attorney General. He tells us that the President of the World Bank, an American, is doing a great job, oblivious to the damage being done to America's reputation around the world. And against the advice of some of the most gifted military men and women in a generation, he has adopted a policy in Iraq that is a disaster.

The President argues that the surge is succeeding, but with every welcome development he cites there is an equally unwelcome development that gives lie to the claim that we are making any progress. For example, while death squad violence against Iraqis is down

in some Baghdad neighborhoods where we have surged, suicide bombings have increased by 30 percent over the last 6 weeks. Violence is up dramatically in the belt ringing Baghdad. The civilian death toll has increased 15 percent from February to March. When we squeeze a water balloon in one place, it bulges somewhere else. Moqtada al-Sadr has not been seen, but he has been heard, rallying his followers with anti-American messages and his thugs to take on American troops in the south. Last week, he pulled his ministers from the coalition government, and intelligence experts believe his militia is simply waiting out the surge.

Closing markets to vehicles has precluded some car bombs, but it also has prompted terrorists to change tactics and walk in with suicide vests. The road to the airport to Baghdad may be safer, but the skies above it are more lethal; witness the ironic imposition of “no-fly zones” for our own helicopters.

Tal Affar is the most damaging evidence of the absolute absurdity of this policy. The President cites it as progress.

Architects of the President’s plan called Tal Affar a model because in 2005 we surged about 10,000 Americans and Iraqis to pacify the city. Then we left, just as our troops will have to leave the Baghdad neighborhoods after calm is established, if it is.

But what happened in Tal Affar? It was the scene of some of the most horrific sectarian violence to date. A massive truck bomb aimed at the Shiite community led to a retaliatory rampage by Shiite death squads, aided by Iraqi police. Hundreds were killed. The population of Tal Affar, which was 200,000 people just a year or two ago, is down to 80,000.

There is an even more basic problem with the President’s progress report, and it goes to the heart of the choices we now face in Iraq. Whatever tactical progress we may be making will amount to nothing if it is not serving a larger strategy for success. The administration’s strategy has virtually no prospect for success, and his strategy, in a nutshell, is the hope that the surge will buy President Maliki’s government time to broker the sustainable political settlement that our own military views as essential, and that is premised upon the notion of a central government in Baghdad with real power.

But there is no trust within the government, no trust of the government by the people it purports to serve, and no capacity on the part of the government to deliver security or services. There is little, if any, prospect that this government will build that trust and capacity any time soon.

How many times have colleagues heard, beginning in January, how there is an oil agreement, that they have gotten that deal? Has anybody seen that deal, after we heralded it time and

again as essential to pulling this country together?

In short, the most basic premise of the President’s approach—that the Iraqi people will rally behind a strong central government, headed by Maliki, in fact will look out for their interests equitably—is fundamentally and factually flawed. It will not happen in anybody’s lifetime here, including the pages’.

If the President won’t look at a program that is different than he is now pursuing if his plan doesn’t work, what will he do? History suggests there are only a couple of ways, when there is a self-sustaining cycle of sectarian violence, to end it, and it is not to put American troops in the middle of a city of 6.2 million people to try to quell a civil war.

Throughout history, four things have worked. You occupy the country for a generation or more. Well, that is not in our DNA. We are not the Persian Empire or British Empire. You can install a dictator, after having removed one. Wouldn’t that be the ultimate irony for the U.S. to do that after taking one down. You can let them fight it out until one side massacres the other—not an option in that tinder box part of the world. Lastly, you make federalism work for the Iraqis. You give them control over the fabric of their daily lives. You separate the parties, you give them breathing room, and let them control their local police, their education, their religion, and their marriage. That is the only possibility. We can help Iraq change the focus to a limited central government and a Federal system, which their constitution calls for. I cannot guarantee that my strategy will work, but I can guarantee that the road the President has us on leads to nowhere with no end in sight.

We have to change course to end this war responsibly. That is what we are trying to do in Congress. Later this week, we will send to the President an emergency supplemental bill on Iraq that provides every dollar our troops need and more than the President requested. It also provides what the majority of Americans expect and believe is necessary: a plan to start to bring our troops home and bring this war to a responsible end, not escalate it indefinitely.

If the President vetoes the emergency spending bill, he is the one who will be denying our troops the funding they need. He is the one who will be denying the American people a path out of Iraq. The President’s double talk on Iraq is reaching new heights of hypocrisy. I don’t say that lightly.

On April 16, the President claimed that setting a timetable to start bringing our troops home would “legislate defeat.” Just 2 days after that, 2 days later, his own Secretary of Defense had this to say:

The push by Democrats to set a timetable for U.S. withdrawal from Iraq has been help-

ful in showing Iraqis that American patience is limited . . . that this is not an open-ended commitment.

Then, in arguing against the supplemental, the President claimed that by sending him a bill he would somehow be forced to veto, the military would run out of money for Iraq in mid-April—which is not true, by the way—and as a result, he would have to extend the tours of duty of the troops already in Iraq.

Extending those tours, the President said, “is unacceptable.” “It’s unacceptable to me, it’s unacceptable to our veterans, it’s unacceptable to our military families, and it’s unacceptable to many in this country.”

Unacceptable? The very next day, the administration announced its plans to do the “unacceptable” and extended the tours of every American ground troop in Iraq by 3 months.

Talk about hypocrisy: Telling us the path out of Iraq is a way which is forcing him to veto a bill that will require him then to extend tours because of that veto and that is unacceptable, and the very next day he extends the tour of every person on the ground. Once one gets over the hypocrisy, that announcement is an urgent warning that the administration’s policy in Iraq cannot be sustained without doing terrible long-term damage to our military.

If this administration insists on keeping this many troops in Iraq until next year, we will have to send soldiers back for third, fourth, and fifth tours, extend deployment times from 6 months to a year for marines, from 12 months to 16 to 18 months for the Army. The military will also be forced to end the practice of keeping troops at home for at least 1 year between deployments, to fully mobilize the National Guard and Reserve, and to perpetuate this backdoor draft.

This President is breaking—is breaking—the military. We don’t have to guess at the impact on this relentless readiness, its impact on retention and recruitment. This month, we learned that recent graduates of West Point are choosing to leave Active-Duty service at the highest rate in more than three decades. This administration’s policies are literally driving some of our best and brightest young officers out of the military.

Instead of working with Democrats in Congress in a way forward, this President, divorced from reality, is accusing us of emboldening the enemy and undermining our troops. I have a message for you, Mr. President: The only thing that is emboldening the enemy is your failed policy. Mr. President, the only mission you have accomplished is emboldening the enemy with your failed policy.

Instead of escalating the war with no end in sight, we have to start bringing this to a responsible conclusion. If the administration insists on keeping this

many troops next year, we are in serious, serious jeopardy.

I conclude by saying that I believe it is my obligation as a Senator—and I hope the obligation of everyone else—to keep relentless, unending pressure on this President to come to grips with reality, to continually push every single day to say: Mr. President, stop; stop this policy of yours.

It is my hope, even though he is likely to veto this bill, that we will keep the pressure on and ultimately convince at least a dozen of our Republican colleagues it is time to stop backing the President and start backing the troops. It is time, Mr. President, to begin to responsibly bring this war to an end.

I yield the floor.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

AMERICA COMPETES ACT

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will resume consideration of S. 761, which the clerk will report.

The bill clerk read as follows:

A bill (S. 761) to invest in innovation and education to improve the competitiveness of the United States in the global economy.

Pending:

Bingaman amendment No. 908, to make certain improvements to the bill.

The ACTING PRESIDENT pro tempore. The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, I am waiting on the Democratic manager of the bill, Senator BINGAMAN, who should be here right away. Following that, we hope to go to the Senator from South Carolina, who has some amendments to offer, but it is not appropriate for me to do that until Senator BINGAMAN is here. That will take a moment. Then we will go forward, if that is all right with the Senator from South Carolina.

We had a good discussion yesterday on the America COMPETES Act. To remind all Senators, this is the Reid-McConnell legislation, with 56 cosponsors, which seeks to help our country keep our brainpower advantage so we can keep our jobs. It is the result of 2 years of work within this body through three committees principally but really five or six.

We asked the National Academy of Sciences to tell us exactly what we need to do to keep our competitive advantage in the world in competition with China and India so our jobs don't go there, so we can keep this remarkable situation we have of producing 30 percent of all the money each year for 5 percent of the people, with at least half of that based on our technological

advantage. The National Academy of Sciences gave us a list of recommendations in priority order. The Council on Competitiveness formed the basis of a Lieberman-Ensign bill, the President made his own recommendations, and all that now has been worked through into this legislation.

I see Senator BINGAMAN. If I may, I would like to finish 3 or 4 minutes of remarks and then go to Senator BINGAMAN.

Yesterday, Senator INOUE, Senator STEVENS, Senator DOMENICI, all of whom have been leaders on this legislation, spoke on the floor. Senator CHAMBLISS as well spoke on the floor. Senator BINGAMAN, of course, has been a leader from the very beginning, asking the questions that helped produce this result. So we have before us a leadership bill on a subject that is as important as any.

Almost all Members of the Senate over the last 2 years have had plenty of opportunity to influence this bill, and most have in one way or the other. It has been a remarkable exercise. But there still is time today and tomorrow for us to consider more options.

The President, last night by e-mail—someone in the White House—sent a Statement of Administration Policy to Capitol Hill which outlines the administration's views on the pending legislation.

Mr. President, I ask unanimous consent to have printed in the RECORD the President's remarks on January 31, 2006, from his State of the Union Address in which he spoke about the importance of the competitiveness initiative.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(See exhibit 1.)

Mr. ALEXANDER. As a courtesy to the administration, I ask unanimous consent to have printed in the RECORD the administration's Statement of Administration Policy following my remarks.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(See exhibit 2.)

Mr. ALEXANDER. Mr. President, I know how important the President believes this is. I have talked with him about it at least a half dozen times personally, usually in bipartisan sessions with a number of Senators, sometimes individually. I know the Vice President has been deeply involved.

When there is some more time on the floor this afternoon, if we have a lull in the debate, I will go through the Statement of Administration Policy and talk about it a little bit. Basically, it is very helpful to us. It points out that there is not much difference between the amount of money the President proposes to spend over the next 4 years and the amount we would propose to

authorize to spend in this bill. As one might expect, the President likes his new programs but doesn't like some other new programs, and there are some other suggestions that are well taken that we can talk about, perhaps accept amendments, at least discuss with the Democratic majority those amendments, and there will be some amendments that are offered on the Senate floor.

I will reserve my comments on the President's Statement of Administration Policy. It is good to have it. We will make it part of the debate—and taking the President at his word—given the President's statement and the administration policy statement that “The administration looks forward to working with Congress to address these various policy concerns as the legislative process moves forward.”

I defer to Senator BINGAMAN, if I may. Senator DEMINT is ready to offer amendments and speak about them whenever that is appropriate.

EXHIBIT 1

STATE OF THE UNION ADDRESS BY THE PRESIDENT, JAN. 31, 2006

“And to keep America competitive, one commitment is necessary above all: We must continue to lead the world in human talent and creativity. Our greatest advantage in the world has always been our educated, hardworking, ambitious people—and we're going to keep that edge. Tonight I announce an American Competitiveness Initiative, to encourage innovation throughout our economy, and to give our Nation's children a firm grounding in math and science.

First, I propose to double the federal commitment to the most critical basic research programs in the physical sciences over the next 10 years. This funding will support the work of America's most creative minds as they explore promising areas such as nanotechnology, supercomputing, and alternative energy sources.

Second, I propose to make permanent the research and development tax credit—to encourage bolder private-sector initiatives in technology. With more research in both the public and private sectors, we will improve our quality of life—and ensure that America will lead the world in opportunity and innovation for decades to come.

Third, we need to encourage children to take more math and science, and to make sure those courses are rigorous enough to compete with other nations. We've made a good start in the early grades with the No Child Left Behind Act, which is raising standards and lifting test scores across our country. Tonight I propose to train 70,000 high school teachers to lead advanced-placement courses in math and science, bring 30,000 math and science professionals to teach in classrooms, and give early help to students who struggle with math, so they have a better chance at good, high-wage jobs. If we ensure that America's children succeed in life, they will ensure that America succeeds in the world.

Preparing our Nation to compete in the world is a goal that all of us can share. I urge you to support the American Competitiveness Initiative, and together we will show the world what the American people can achieve.”

EXHIBIT 2

EXECUTIVE OFFICE OF THE PRESIDENT, OFFICE OF MANAGEMENT AND BUDGET,

Washington, DC, April 23, 2007.

STATEMENT OF ADMINISTRATION POLICY

S. 761 AMERICA CREATING OPPORTUNITIES TO MEANINGFULLY PROMOTE EXCELLENCE IN TECHNOLOGY, EDUCATION, AND SCIENCE ACT

(Sen. Reid (D) Nevada and 55 cosponsors)

One of the more important domestic priorities of the Administration over the last two years has been the American Competitiveness Initiative (ACI), a comprehensive strategy to keep our Nation the most innovative in the world by increasing investments in research and development (R&D), strengthening education, and encouraging entrepreneurship. Thus, the Administration shares the goals of S. 761 to ensure the continued economic competitiveness of the United States through research and education and has been encouraged by the bipartisan support for addressing this vital topic. However, the Administration has serious concerns with S. 761 in its current form. The Administration believes that the bill does not prioritize basic research, authorizes excessive and inappropriate spending, and creates unnecessary bureaucracy and education programs. The Administration looks forward to working with Congress to address these various policy concerns as the legislative process moves forward.

The research component of the ACI is a targeted effort to focus increased funding on enhancing physical sciences and engineering research at the three highest-leverage agencies—the National Science Foundation (NSF), the Department of Energy's (DOE) Office of Science, and the Department of Commerce's National Institute of Standards and Technology (NIST). Unfortunately, the Senate bill creates at least 20 new programs across many agencies that, if enacted, would divert resources from and undermine and delay the priority basic research. The Senate bill would cost over \$61 billion over the next four years—about \$9 billion more than the President's ACI proposals. The bill conflicts with the Administration's well regarded Research and Development Investment Criteria by diverting funds from critical basic research to commercially-oriented research and other efforts that are less deserving of Federal support.

The education components of the ACI are targeted toward filling clear and specific gaps in the Federal funding portfolio with programs that will improve the quality of math and science education in the Nation's K-12 schools. The Administration appreciates that the bill authorizes most of the Department of Education programs the President called for in the ACI. These include authorizations for: (1) The Advanced Placement Program to increase the number of teachers instructing and students enrolled in advanced placement or international baccalaureate courses in mathematics, science, or critical foreign languages; (2) the Math Now programs to improve instruction in mathematics; and (3) part of the President's National Security Language Initiative proposal to strengthen the teaching and study of critical foreign languages. However, the Administration is disappointed that the bill does not authorize the President's Adjunct Teacher Corps, to encourage math, science, and other professionals to teach in our neediest middle and high schools.

Also, the Administration is concerned that the bill expands many existing science, tech-

nology, engineering, and mathematics (STEM) education programs that have not been proven effective and creates new STEM education programs that overlap with existing Federal programs. In its soon-to-be-released report, the Academic Competitiveness Council has identified 105 existing STEM education programs spending over \$3 billion annually, including 45 programs that support training of STEM teachers, and found that very few of these programs demonstrated evidence-based effectiveness. Given this, the Administration believes it is premature to expand or begin new STEM education programs that do not have a plan in place for rigorous, independent evaluation or are duplicative of existing Federal programs.

In addition to the excessive authorization levels, lack of focus on basic research, and unnecessary new bureaucracy, created by S. 761, the specific provisions of serious concern include the following:

Advanced Research Projects Agency—Energy (ARPA-E). The Administration supports the conceptual goal of ARPA-E “to overcome the long-term and high-risk technological barriers in the development of energy technologies.” However, the Administration continues to strongly object to this provision due to serious doubts about the applicability of the national defense model to the energy sector and because a new bureaucracy at the DOE would drain resources from priority basic research efforts. The Administration believes that the goal of developing novel advanced energy technologies should be addressed by giving the Secretary of Energy the flexibility to empower and reward programs within existing DOE offices to fund unique, crosscutting, and high-risk research.

Innovation Acceleration Research. The Administration strongly objects to requiring each Federal science agency to set aside 8 percent of its research and development budget—a new program of over \$10 billion of the Federal R&D budget at dozens of agencies—for projects that are “too novel or span too diverse a range of disciplines to fare well in the traditional peer review process.” Such a large earmark of the agencies’ ongoing research efforts would certainly have negative, unintended consequences and could well impede the ability of these agencies to carry out their missions.

Equitable Distribution of New Funds. The Administration strongly objects to a requirement specifying particular funding increases for Education and Human Resources (EHR) activities at NSF. This is especially inappropriate while the Administration is responding to the findings and recommendations of the Academic Competitiveness Council to ensure that funding is targeted toward programs with plans to demonstrate effectiveness.

Experimental Program to Stimulate Competitive Technology. The Administration believes that additional resources provided to NIST should focus on existing internal innovation-enabling research activities and strongly objects to creating new programs that would drain resources from such activities.

Specialty Schools for Mathematics and Science. The Administration strongly objects to creating a responsibility for DOE to establish or expand K-12 schools.

Discovery Science and Engineering Innovation Institutes. The Administration strongly objects to using DOE funds to support State and local economic development activities. In addition to diverting funds from priority research areas, such a focus on commer-

cialization is not a priority of the Federal government and could result in putting the government in the position of competing with private investment and influencing market decisions in potentially inefficient and ineffective ways.

Experiential-Based Learning Opportunities. The Administration objects to creating new K-12 education programs unless the need is clear and compelling, which is not the case for this program. As illustrated by the Academic Competitiveness Council's findings, the solution to improving the Federal government's impact on STEM education must come from identifying what works and improving the effectiveness of existing efforts before starting new programs.

Federal Information and Communications Technology Research. The Administration objects to the creation of a new program specifically aimed at “enhancing or facilitating the availability and affordability of advanced communications services.” Such an industry- and sector-directed program is well beyond NSF's traditional role of advancing the frontiers of knowledge in the academic disciplines.

National Laboratories Centers of Excellence. The Administration objects to the use of DOE funds to establish Centers of Excellence at K-12 schools. The establishment of school-based centers is not a proper role for DOE and would divert national laboratory resources that currently benefit their surrounding communities. The Administration believes that the President's Adjunct Teacher Corps proposal is a more promising approach to bringing subject experts into our neediest schools.

Experimental Program to Stimulate Competitive Research (EPSCoR). The purpose of the EPSCoR program is to build research capacity; it is not an education program. If EPSCoR funds are diverted for the purpose of hiring faculty or providing supplemental K-12 courses to precollege students, there will be less money available for increasing the research capacity in EPSCoR States.

Robert Noyce Teacher Scholarship Program. NSF's Robert Noyce scholarship program is too new to have been evaluated for its impact on improving the efficacy or retention of teachers who are program graduates. Therefore, it is unreasonable to increase the authorizations of appropriations at the pace and magnitude called for in this provision.

NASA Funding for Basic Science and Research and Aeronautics Research Institute. The Administration objects to the redirection of unobligated balances from existing NASA programs, because it would disrupt funding for ongoing activities. The establishment of an Aeronautics Institute for Research within NASA is objectionable because it would be duplicative of the agency's existing Aeronautics Research Mission Directorate.

Constitutional Concerns. Several provisions of the bill incorporate classifications and preferences based on race, national origin, or gender that are subject to the rigorous standards applicable to such provisions under the equal protection component of the Due Process Clause of the Fifth Amendment. (See sections 1405(d), 2003(a) and (d), 4005(b), and 4009.) Unless the legislative record adequately demonstrates that those standards are satisfied, those provisions are objectionable on constitutional grounds.

Mr. BINGAMAN. Mr. President, I thank my colleague and I thank the Senator from South Carolina for their courtesy.

My understanding is that the Senator from South Carolina wishes to set aside the pending amendment and offer an amendment; is that correct?

Mr. DEMINT. Mr. President, the Senator is correct. I wish to bring up three amendments and briefly speak on them, if I can.

Mr. BINGAMAN. Mr. President, I will have to object to offering three amendments. I have no problem if he wants to set aside the pending amendment and bring one amendment up, whichever amendment he would like, and we will deal with them one at a time. I think that will be the appropriate procedure for us to follow.

Mr. DEMINT. That is fine. I thank the Senator.

The ACTING PRESIDENT pro tempore. The Senator from South Carolina.

AMENDMENT NO. 928

Mr. DEMINT. Mr. President, I ask unanimous consent to set aside the pending amendment.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DEMINT. I ask unanimous consent to bring up amendment No. 928.

The ACTING PRESIDENT pro tempore. The clerk will report.

The bill clerk read as follows:

The Senator from South Carolina [Mr. DEMINT], for himself, Mr. MARTINEZ, Mr. CORNYN, and Mr. ENSIGN, proposes an amendment numbered 928.

Mr. DEMINT. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To amend the Sarbanes-Oxley Act of 2002, with respect to smaller public company options regarding internal controls)

At the appropriate place, insert the following:

SEC. ____ . SMALLER PUBLIC COMPANY OPTION REGARDING INTERNAL CONTROL PROVISION.

Section 404 of the Sarbanes-Oxley Act of 2002 (15 U.S.C. 7262) is amended by adding at the end the following:

“(c) SMALLER PUBLIC COMPANY OPTION.—

“(1) VOLUNTARY COMPLIANCE.—A smaller issuer shall not be subject to the requirements of subsection (a), unless the smaller issuer voluntarily elects to comply with such requirements, in accordance with regulations prescribed by the Commission. Any smaller issuer that does not elect to comply with subsection (a) shall state such election, together with the reasons therefor, in its annual report to the Commission under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78o(d)).

“(2) DEFINITION OF SMALLER ISSUER.—

“(A) IN GENERAL.—For purposes of this subsection, and subject to subparagraph (B), the term ‘smaller issuer’ means an issuer for which an annual report is required by section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m or 78o(d)), that—

“(i) has a total market capitalization at the beginning of the relevant reporting period of less than \$700,000,000;

“(ii) has total product and services revenue for that reporting period of less than \$125,000,000; or

“(iii) has, at the beginning of the relevant reporting period, fewer than 1500 record beneficial holders.

“(B) ANNUAL ADJUSTMENTS.—The amounts referred to in clauses (i) and (ii) of subparagraph (A) shall be adjusted annually to account for changes in the Consumer Price Index for all urban consumers, United States city average, as published by the Bureau of Labor Statistics.”.

Mr. DEMINT. Mr. President, I thank the managers of this bill for giving me time to speak on this important issue. The issue of American competitiveness is very important to me, as I know it is to all Americans. It is the security of our jobs and our economic future. I am here today to propose some amendments. I will begin with one that I think will improve the bill.

I wish to first discuss Sarbanes-Oxley and how it relates to competitiveness in America. The bill we are discussing, which is S. 761, the America COMPETES Act, seeks to improve America's international competitiveness by strengthening the quality of our labor force. However, labor is only one component of economic growth. Capital investment is another critical component of any vibrant and growing economy. America's competitiveness is being challenged by other countries, not only on the labor front but with capital formation as well.

We could say, as Senator ALEXANDER mentioned, this bill focuses on brainpower. What we are trying to do is say brainpower plus capital equals success in America.

In 2000, \$9 out of every \$10 in stock offerings from foreign companies were invested inside the United States. In 2005, that number completely flipped, and \$9 of every \$10 in stock offerings from foreign companies were invested outside the United States. Some might argue this is simply the result of foreign companies wishing to list closer to home, but I am afraid that is not the case. Cross-border listings are at an alltime high, and we are losing the competition for foreign capital.

This chart demonstrates how the United States is doing compared to others when it comes to attracting foreign capital. We begin in 2002 when Sarbanes-Oxley took effect. One can see this dark-blue line at the bottom is the U.S. exchanges, which have stayed basically flat, while markets in Hong Kong, London, and Singapore have continued to grow. There is no reason we should continue to lose ground to these other countries when it comes to investing.

We need to remember as Americans that the dollars which are used for research and development come from investment capital. There is no need for us to be spending billions and billions of dollars to encourage Americans to be better at math and science if the re-

search and development is moving to other countries.

Some say these trends are simply the result of more sophisticated markets springing up abroad, but the evidence suggests otherwise. When one speaks with international CEOs making the decisions to list on foreign exchanges, they repeatedly cite Sarbanes-Oxley as the reasons they have listed abroad. That is why a report commissioned by Senator SCHUMER and Mayor Bloomberg cited section 404 of Sarbanes-Oxley as the reason international companies are no longer bringing their capital to the United States.

Section 404 requires public companies to conduct an additional audit on their internal controls. These audits are most expensive for smaller companies. Numerous reports have found that section 404 produced a heavy cost upon small, publicly traded companies without a proportional benefit. As a result, the regulatory burdens of section 404 on small businesses and companies—well, companies are choosing to raise capital in other markets.

A recent GAO study, requested by Senator SNOWE, found the cost for small public companies to comply with Sarbanes-Oxley has been disproportionately higher than for large companies. Small businesses in the United States, afraid of complying with the complicated provisions of Sarbanes-Oxley, are choosing not to grow by listing publicly and are, instead, staying small and remaining private. This prevents capital formation, it stunts job growth, and it makes our country less competitive in the global economy.

This is why Alan Greenspan recently said:

One good thing; Sarbox requires a CEO to certify the financial statement. That's new and that's helpful. Having said that, the rest we could do without. Section 404 is a nightmare.

This is not a politically inspired amendment. This is an amendment that recognizes we are hurting ourselves and we need to fix it. This is why an SEC advisory committee recommended that small businesses be exempt from section 404, and this is why I am offering the amendment today.

My amendment, No. 928, would make section 404 of Sarbanes-Oxley optional for smaller companies with market capitalization of less than \$700 million, revenue of less than \$125 million, or fewer than 1,500 shareholders. Section 404 reporting would be optional for these smaller companies, but they would have to notify their shareholders in their annual report.

The Senate's Committee on Small Business held a hearing on this topic this past week, and I applaud Senator KERRY for looking into this important issue. As my colleagues may know, both Republicans and Democrats have suggested the need for reform, which

makes my amendment consistent with the bipartisan nature of this bill. My proposal has been introduced as a free-standing bill in this Congress as well as the last Congress. It has also been introduced as part of a bill in the House by Representative GREGORY MEEKS, Democrat from New York, and enjoys broad bipartisan support.

Despite broad bipartisan support for my amendment, I expect some will object to it based on timing. They may believe the Securities and Exchange Commission is preparing to deal with this problem, so we should give them more time to work. This is something I believed several years ago. But that is not only a weak excuse, it is a complete copout. It has been 5 years since Sarbanes-Oxley was enacted, and each year that goes by we are chasing more capital out of our country.

The SEC has a responsibility to address this issue, but so do we. We wrote the law. Congress created this problem, and we should not hide behind some regulation when we have the ability to fix it. Furthermore, it is not clear that future action by the SEC will solve the problem. According to the Independent Community Bankers of America, the proposed internal control guidance under section 404 is unlikely to reduce audit costs, particularly for smaller public companies.

Some may also object because this provision has not been fully examined in the committee of jurisdiction. This is a poor excuse as well. American competitiveness should not suffer because a committee in Congress has failed to do its job. A bill such as Senate Bill 761, which seeks to improve the competitiveness of our labor force but does nothing for capital formation, may result in a highly qualified labor force but without capital to spur economic growth and create the jobs they need to make.

This is a competitiveness issue. It should be debated on this bill and we should all support it. There is no plan to consider this legislation later this year, and it is probably the last opportunity we will have to address it before the next election. My amendment is cosponsored by Senators MARTINEZ, CORNYN, and ENSIGN, and I urge my colleagues to support it.

Mr. President, I yield the floor.

Mr. BINGAMAN. Mr. President, I appreciate the thought that has gone into the amendment, but, frankly, this is an amendment that is in the jurisdiction of the Banking Committee. Obviously, the Sarbanes-Oxley legislation came out of the Banking Committee and it is squarely within their jurisdiction. We are informed they have not had a chance to review the amendment, have not had a chance to have hearings on the amendment, and wish a chance to come to the floor and discuss it before there is any vote. There is some objection to going to any kind of vote on it

at this point, so I am not prepared to discuss the merits of it. I do believe we need to provide an opportunity for those Senators on the Banking Committee who want to come and discuss the merits to come and engage in that debate.

However, I mention to the Senator from South Carolina, I am informed he also has an amendment related to looking at the Tax Code for possible problems with barring innovation; is that correct?

Mr. DEMINT. Yes, I do.

Mr. BINGAMAN. Mr. President, we are not in a position to say yet—we are trying to talk to the Finance Committee, because, of course, they have jurisdiction over tax issues—but we are trying to determine if there is any objection to Senator DEMINT's amendment relating to taxes.

Perhaps the right thing to do, since the majority leader has tried—not just on this bill but as a general matter—to avoid the circumstance where we are bringing up amendments, setting aside amendments; bringing up amendments, setting aside amendments, without ever having disposed of anything for a long period, perhaps the Senator could go ahead and describe this other amendment related to taxes. By the time he has completed that, we might know whether we are in a position to proceed to some kind of action on that.

Mr. DEMINT. So the Senator would prefer my not bringing it up but only describing it?

Mr. BINGAMAN. As I say, if it is another amendment that is going to require a debate and vote here, I think maybe we would want to go ahead and try to get the Banking Committee people here to deal with the Sarbanes-Oxley amendment before we get the Finance Committee people here to deal with the Tax Code amendment.

Perhaps the Senator could put the Senate on notice as to what the amendment entails, and by the time he is through with that discussion, we may know enough to be able to tell him whether we could accept the amendment or whether there is going to be objection.

Mr. DEMINT. Mr. President, I thank the Senator, and I think he will find this amendment has a lot of bipartisan support. It actually was a part of the original bill. It is amendment No. 929, and it expands the study on barriers to innovation, which is in section 1102 of the bill.

What we do is ask that this study include the impact of the IRS Tax Code on innovation. It is very consistent with the bill. My amendment does not remove anything currently called for in the study, it simply adds the provision that allows this study to include the effect of our Tax Code on innovation in America.

Specifically, the amendment calls on the Director of the Office of Science

and Technology, through the National Academy of Sciences, to study all provisions of the Internal Revenue Code of 1986, including tax provisions, compliance costs, and reporting requirements that discourage innovation.

The IRS code increasingly overwhelms Americans with its growing complexity. It stymies entrepreneurship and economic growth, and it threatens to prevent future generations of Americans from enjoying the sort of upward mobility their parents and grandparents enjoyed. This important provision was originally included in the study in last year's bill but it was dropped. My amendment puts it back in, and it will help us identify ways the IRS Tax Code is discouraging innovation and weakening American competitiveness.

I ask the Senator if he would still prefer I not bring it up? In the interest of time, it may be helpful to have it on the table, and we could perhaps then agree to it at a later time. Would the Senator still prefer I wait to bring it up?

Mr. BINGAMAN. Mr. President, I know the Senator from Tennessee has some comments on the amendment. Maybe we could continue with that discussion and debate for a few more minutes to see if we can get a little more of a response from people in the Finance Committee.

Mr. DEMINT. I thank the Senator, and I yield the floor for the Senator from Tennessee.

Mr. ALEXANDER. Mr. President, I want to thank the Senator from South Carolina for his amendments and for his initiative for being here and offering them. He is helping us jump-start the discussion, and I want him to know what we are doing is working on ways to get to action on his bills, not the reverse.

In fact, as far as his suggestion about considering the impact of taxes as barriers to innovation, I think he is right about that. That was a part of the original legislation. It had 70 sponsors at one time, the PACE Act. It was the Domenici-Bingaman act at that time. It is also a part of the Augustine report. These were the recommendations of the National Academy of Sciences team, which included 21 individuals who spent the entire summer and early fall of 2005 looking at exactly what we needed to do, and they recommended tax incentives for U.S.-based innovation.

This was a practical group, this Augustine committee. They made 20 recommendations. They knew there were a number of things that, if they recommended them, we wouldn't pass because we would have differences of opinion about them. So they stayed away from some areas. For example, since kindergarten through the 12th grade was their No. 1 priority in terms of improving education and encouraging innovation there, they might

have felt giving low-income families scholarships or vouchers to go to private schools would be a good thing to do. But they didn't put that in their top 20 because they knew it was unlikely we would be able to agree on that here.

I think the same is true here with taxes. They specifically said on page 10 of the summary of their "Rising Above the Gathering Storm" that while they recommended making permanent the research and development tax credit as one change in tax policy, they realized that wasn't enough to consider it. They mention other alternatives that should be examined to see if it would be beneficial to the United States. These alternatives, the summary said:

... could include changes in overall corporate tax rates and special tax provisions providing research of high-technology and manufacturing equipment, treatment of capital gains, and incentives for long-term investment innovation. The Council of Economic Advisers and the Congressional Budget Office should conduct a comprehensive analysis to examine how the United States compares with other nations as a location for innovation and related activities with a view to ensuring the United States is one of the most attractive places in the world for long-term innovation related investment and the jobs relating from that investment from a tax standpoint.

That is not now the case, is what the Augustine report said. So I believe the Senator from South Carolina is making a real contribution to the debate here. His amendment which he proposes to bring up would improve the bill, in my opinion. It was once a part of the legislation that was similar, and I am hopeful the Finance Committee will recognize this simply amends a study that is already in the bill so tax barriers can be included as part of that study.

Mr. President, I look forward to the response by the Democratic manager as to how we shall proceed.

Mr. BINGAMAN. Mr. President, I am informed we do not have a clear response from the Finance Committee. I agree with the substance of what the Senator from Tennessee said. I don't see this causes any difficulty in the overall thrust of the legislation, so I would be inclined to urge the Senator from South Carolina to go ahead and ask permission to set aside the pending amendment, bring this up, and then conclude any debate he wants to on this amendment related to the study, and then we can dispose of it—by voice vote, as far as I am concerned, unless the Senator wants a recorded vote.

The ACTING PRESIDENT pro tempore. The Senator from South Carolina.

AMENDMENT NO. 929

Mr. DEMINT. Mr. President, I ask unanimous consent to call up amendment No. 929.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The legislative clerk read as follows:

The Senator from South Carolina [Mr. DEMINT] proposes an amendment numbered 929.

Mr. DEMINT. I ask unanimous consent the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To require the study on barriers to innovation to include an examination of the impact of the Internal Revenue Code of 1986 on innovation)

On page 8, strike lines 7 through 9, and insert the following:

(10) all provisions of the Internal Revenue Code of 1986, including tax provisions, compliance costs, and reporting requirements, that discourage innovation;

(11) the extent to which Federal funding promotes or hinders innovation; and

(12) the extent to which individuals are being

Mr. DEMINT. Mr. President, I have explained what this amendment does. It is very simple. In addition to a study, if we are commissioning a study and paying for it, to find out what obstacles we have to innovation, the Tax Code is certainly something that is cited often by folks who invest and do the research and development, who are actually associated with innovation in the marketplace, so it makes sense that we include any obstacles in the Tax Code or any opportunities we may have, as the Senator from Tennessee suggested, to create incentives for investment and innovation.

There is a relationship between this amendment and the first one I brought up. I think we all know that investment, incentives for investment, are the catalyst for the research and development that results in innovation in the marketplace. As a nation, if we do not do more to attract capital, if we do not do more to encourage investment in our country, then those investments are not going to be here.

For many years we have been concerned that because of certain trade policies and other things we do internally, we have lost low-wage jobs. But increasingly we are hearing that because the investment dollars are moving overseas, behind those investment dollars go the high-tech jobs that are involved with research and development.

Both of these amendments are important. I would particularly like votes on this because it was stripped out once. I am concerned that if we do not have a vote and give the Members an opportunity to show support, particularly for this tax study, it will disappear again in conference.

My hope is we can have a vote and the yeas and nays on these amendments.

I yield the floor.

Mr. BINGAMAN. Mr. President, we need to determine when we would want to go ahead since, as I understand the

Senator, he wishes a rollcall vote. We want to have a chance to check with our floor managers, the assistant majority leader, and determine when this is appropriate, so I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. CASEY). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DEMINT. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 930

Mr. DEMINT. Mr. President, in the interest of time—I know we are discussing two other amendments and the bill managers have asked me not to bring up a third. I will not bring it up at this time but I wish to speak on it, if that would expedite procedures here on the floor.

My third amendment, which is amendment No. 930, which we will bring up at a later time, establishes a 60-vote point of order against appropriations bills that contain congressional earmarks for funds authorized in this bill, S. 761, the America COMPETES Act.

The goal of this amendment is to ensure that funds authorized in the bill are allocated according to a competitive or merit-based process. As my colleagues know, congressional earmarks circumvent the normal competitive or merit-based process and award funds based on politics. My amendment is consistent with the stated intent of the bill, which says on page 183 that nothing in divisions A or D shall be interpreted to require the National Science Foundation to "alter or modify its merit-review system or peer-review process" or "exclude the awarding of any proposal by means of the merit-review or peer-review process."

My goal here is to make sure this new fund does not become a new pot for earmarks, that we start directing this new money back to our States or congressional districts because we put new funds on the table. If these and other funds authorized in the bill are going to be allocated in the most efficient and most competitive way, the Senate must take steps to discourage the use of earmarks when appropriating funds for these programs. My amendment will not only preserve the integrity of the competitiveness allocation process but it will make America more competitive by making these programs more effective.

In a bill that is about competition, this amendment makes sure the money is allocated on a merit-based competitive system instead of turning it into a new slush fund for Congress.

Out of respect for the managers, I will not bring that amendment up at this point but I hope to do that at a later time.

I yield the floor.

Mr. BINGAMAN. Mr. President, let me briefly speak to the amendment of the Senator from South Carolina related to earmarks. I obviously would have to object to it. I think he will find probably any and all Senators involved with appropriations would have to object to it. The way I read it, it says it is not in order to consider any bill that proposes a congressional earmark on appropriated funds unless you have 60 votes. The definition of a congressional earmark is contained in the legislation, but any appropriations bill that comes to the floor virtually by definition is going to contain something that falls into this definition of congressional earmark. It is one thing to be concerned about the addition of earmarks once the Appropriations Committee has presented legislation to the Congress or to the full Senate. But to say we cannot bring up a bill, an appropriations bill, if it has anything in it that might meet this definition is substantially more onerous than I would think would be good policy.

Mr. DEMINT. Will the Senator yield?

Mr. BINGAMAN. I am glad to yield.

Mr. DEMINT. For a clarification. The way this amendment is written, it is not all appropriations bills, just appropriations bills that are appropriating money for this act, the America COMPETES Act. We are not bringing in all the appropriations bills that will be brought to the floor.

The point is, we are creating this new fund for competition. Instead of us in the future redirecting these funds in all directions, the bill has been very careful to lay out where this money will go in a way that we think is most efficient. This money will be allocated on a merit-based system. We have seen some of it before, how the National Science Foundation and others are merit based. We want to keep it that way. What we are trying to do is avoid, in the future, that this new money we have authorized starts being redirected. If something comes up that is important, that we agree on, we can always overcome a 60-vote point of order. But if we allow this to fester, as we have seen in the past, instead of going to create competition in America, it will be going off to special projects. So it focuses on this bill and prevents politically driven earmarks.

Certainly we have directed the money for this whole bill. It doesn't change that. This is all authorized. We are not talking about authorized dollars, we are talking about redirecting it based on political motives in the future.

I thank the Senator for allowing that clarification.

Mr. BINGAMAN. Mr. President, I thank the Senator for the clarification, but I do think the problem remains because this bill is far reaching because this bill covers quite a few Federal

agencies and tries to lay out a blueprint for what we hope we will be able to provide by way of appropriations to these agencies in the future, whether it is the National Science Foundation, whether it is the Office of Science in the Department Energy, whether it is the Department of Education, Health and Human Services—there are various agencies that would obtain funding to carry out the purposes of this legislation if we are successful through the appropriations process.

For us to be putting a provision in this authorizing bill saying you cannot bring an appropriations bill to the floor that contains anything we would define as a congressional earmark is unduly restricting the authority and the prerogatives of the Appropriations Committee in putting together legislation they think makes sense.

I am well aware there are three sort of distinct hurdles that need to be surmounted in order for us to actually get funds to be spent on these good purposes that are outlined in this bill. One of those hurdles is the Budget Act. We need to be sure there is room in the Budget Act for the funding we are calling for in this legislation. We offered an amendment to do that. We got very good support here in the Senate. Senator ALEXANDER and I offered that and I think that was a major step forward.

The second hurdle, of course, is trying to authorize these programs so if the funds are appropriated for these purposes nobody can raise an objection that these are not authorized uses of the funds.

Then the third and perhaps most difficult is, each year over the next several years, the period that is covered by the legislation—each year we are going to have to try to see that the funds are properly appropriated for these agencies to carry out the work as outlined in this bill.

I think it would be foolhardy for us to be requiring that before you can bring a bill to the floor that contained funding related to this authorization bill, if it could be construed to fall under this definition of congressional earmark, you would have to have 60 votes to proceed to that appropriations bill. That would be an unprecedented procedure for us in the Senate and one that would be very wrongheaded. As I say, people involved in the appropriations process would probably see it that way as well.

I yield the floor.

Mr. DURBIN. Can I make a comment?

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. It is my understanding the Senator is not calling up the amendment but is only speaking to it for the RECORD.

Mr. DEMINT. Could I make one additional comment?

Again, I appreciate the Senator's remarks, and obviously we don't want to

tie the hands of Congress unnecessarily, but when we are speaking of earmarks—and we defined it in this amendment ourselves. When we take this bill that was created for the purpose of improving competitiveness in America and we earmark, which means we target it to a specific State, locality, or congressional district other than through a statutory or administrative formula-driven or competitive award process—when we take what we have done and basically pervert it into a system where I want it to go to South Carolina, or the Senator wants it to go to Tennessee, that has nothing to do with the original intent of the bill, we call that an earmark. We would like to prevent that if we could with this one bill, but I appreciate the courtesy of both managers to allow us to explain. I hope we will have an opportunity to bring it up and offer it later.

I yield the floor.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. DURBIN. Mr. President, I am honored to be a cosponsor of this legislation. All of us understand we have an obligation in Congress to devise policies and means by which the American economy can compete and create good-paying jobs. Whether one lives in Pennsylvania or Illinois or New Mexico or Tennessee, we have lost a lot of good manufacturing jobs over the last few years. We know there have been growth industries. We can look at the whole Silicon Valley phenomena. Whether it is information technology or computers, the United States has taken a leadership position. But in many areas, we are not in leadership positions.

Senators ALEXANDER and BINGAMAN came together over a year ago to sit down with some of the experts in Washington and talk about what we needed to do to make America more competitive, the next generation of good-paying jobs, the horizons we ought to look to to build for the future. They put together a strong bipartisan bill. If Members read the cosponsors, they will find plenty of support on both sides of the aisle. This may be one of the best examples of bipartisan cooperation we have had in the Senate so far this session. I hope we have more. I am honored to support it and be a cosponsor.

I hope we can move beyond the many amendments that are going to be offered and consider this bill on a timely basis. It is the nature of the Senate that it is a deliberative body. Occasionally, when there is a lapse, we actually break into real debate on the Senate floor. People across the Nation applaud when they hear that happen. In this situation, I am not suggesting that we should not debate amendments to the bill. In fact, I will describe one in a moment. But I am prepared to pull my amendment back because I don't want to stop this bill. I want it to pass the Senate and the House. I want it enacted into law. I hope other Members

who have a positive belief about this legislation will think twice about whether they need to gild the lily and add something to a positive and substantive bill.

The issue I would like to speak to is one I believe in very strongly. I have an amendment, but I won't stop this bill to offer it. If it appears to have any objection or resistance, I will save it for another day. It is one that fits into this competitiveness issue.

The United States graduates some of the world's best engineers, scientists, and mathematicians. However, countries such as China and India are catching up. They are educating a higher proportion of their students in these fields.

We have heard the statistics from the National Academy of Sciences report "Rising Above the Gathering Storm." In 2004, China graduated 600,000 engineers. India graduated 350,000 engineers. The United States graduated 70,000. In 2004, only a third of the undergraduate degrees awarded in the United States were in science or engineering. In China, the number was 59 percent; in Japan, 66 percent in science and engineering.

Our country can understand when our economic security and our future are at stake, and we have risen to the occasion. I remember back in the 1950s when the Russians launched Sputnik. We didn't think they were capable of that. When they put the first satellite in space, it caused great fear across the United States. As a result, Congress did something it had never done before: It created Federal assistance to higher education. It created a loan program to encourage students to go to college. I know about that program because that is the way I went to college. It was called the National Defense Education Act. I borrowed enough money to get through college and law school, paid it back at a modest interest rate, and believe it was a good investment. I have had a pretty good life as a result of it and maybe have added something to this great country in the process. Thousands of others went through the same experience. Congress responded. We knew we needed to invest in our country by first investing in education.

The same thing is true with competitiveness. We can talk about a lot of actions that might achieve our goals, but education is the starting point. We have documented the technological challenges to our country from many different angles. The founder of Microsoft, Bill Gates; the chairman of Intel, Craig Barrett; a journalist, writer Tom Friedman; and the National Academy of Sciences have all told us this. All agree we need to strengthen students' proficiency in science, technology, engineering, math, and foreign languages. The America COMPETES Act invests in the R&D and education our country needs to make sure we remain the world's technological innovator.

In our increasingly global economy, we need more youth to pursue math, science, engineering, technological, and critical foreign language degrees. Our young people also need an appropriate knowledge and understanding of the world beyond our borders. You have heard me speak many times on the floor about one of our Nation's greatest public servants, my predecessor, the late Senator Paul Simon. Paul understood that our country needed to invest in math and science. He also envisioned a United States populated by a generation of Americans with a greater knowledge of the world, a generation of our Nation's future leaders that has been abroad and has a personal connection to another part of the world.

In the months before his untimely death, Senator Simon came to Washington. I met with him. We talked as well with his former colleagues about the need to strengthen our Nation's international understanding in the 21st century. Paul Simon knew that America's security, global competitiveness, and diplomatic efforts in working toward a peaceful society rest on our young people's global competence and ability to appreciate language and culture beyond the United States.

I filed as an amendment to this bill an amendment which we have entitled the "Senator Paul Simon Study Abroad Foundation Act." It is an initiative that honors Paul's commitment to international education and brings his vision one step closer to reality. The Simon Act encourages and supports the experience of studying abroad in developing countries, countries where people with a different culture, language, government, and religion will give a person a different life experience. It aims to have at least 1 million undergraduate students study abroad annually within 10 years and expands study-abroad opportunities for students currently underrepresented.

The Simon Act establishes study abroad as a national priority and provides the catalyst for the education community to commit to making study abroad an institutional priority. An independent public-private entity, the Senator Paul Simon Foundation, would carry out the goal of making studying abroad in high-quality programs in diverse locations around the world routine rather than the exception. Students who were previously unable to study abroad due to financial constraints would be eligible for grants. The grants would also provide colleges and universities and other nongovernmental institutions financial incentives to develop programs that make it easier for college students to study abroad.

We can't afford not to invest in thoughtful Federal initiatives that foster innovation. We must ensure that future leaders understand science and

engineering and the world in which they live. The future of our country depends on having globally literate citizens. I believe the Paul Simon Study Abroad Foundation Act would help to achieve that goal.

There is one other area that would be helpful when it comes to competitiveness. Most of us know today what a miracle computers have turned out to be. They really bring so much information to our fingertips which long ago was hard to find. I can recall as a college student walking across the street to the Library of Congress, sending in the little slips of paper and ordering a big stack of books and searching through them to find information which I can now Google in a matter of seconds. That is great. That information is helpful. But if one is going to be able to take advantage of that opportunity, one needs to have access to high-speed computers.

There are many parts of America—Washington and Capitol Hill would be good examples—that have broadband access now. We take it for granted. I represent a diverse State, Illinois, which has the great city of Chicago as our largest city but also has a lot of small towns and rural areas, not unlike Tennessee or New Mexico. It is important for the development of education, health care, and business for us to expand broadband access in America to areas that are currently not served.

I have introduced a bill, which is being considered before the Senate Commerce Committee, on broadband access. I would like to share a statistic which Members might consider. According to the OECD, the United States fell from 4th in the world in broadband access per capita in 2001 to 12th in 2006. As of 2006, the International Telecommunication Union listed the United States 16th worldwide in terms of broadband access. We are now behind South Korea, Belgium, Israel, and Switzerland, among other nations.

In today's highly competitive international markets, our children, businesses, and communities are competing with their peers around the world for jobs, market share, business, and information. It concerns me that with the size and dynamism of our economy, we are falling behind in an area where we should have a natural advantage. As we committed ourselves to a National Defense Education Act to make sure we had trained people, educated people to compete against the Soviet Union in that era and now in the world, we also need to make sure the tools for competition are available.

I will be offering this broadband access act not as an amendment to this bill but at a later date. I hope those representing States across the Nation who believe there are digital divides will join me in making sure this important tool is available to every American.

I yield the floor.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, I ask unanimous consent that at 2:17 p.m., the Senate proceed to vote on or in relation to amendment No. 929; that at 2:15 p.m., there be 2 minutes of debate equally divided between Senators BAUCUS and DEMINT or their designees and that no amendment be in order to the amendment prior to the vote; that upon the conclusion of the vote, Senator KENNEDY be recognized to speak on the bill; that following Senator KENNEDY, Senator COBURN be recognized as provided for under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Mississippi.

Mr. LOTT. Mr. President, let me inquire of the parliamentary situation. I believe, under the agreement, we will now go off this legislation, and we are ready to have some remarks with regard to the judicial nomination for the Southern District of Mississippi.

The PRESIDING OFFICER. Under the previous order, that is to begin at noon.

Mr. LOTT. So are we ready to proceed? I ask unanimous consent that I be allowed to begin my remarks in support of this nominee.

EXECUTIVE SESSION

NOMINATION OF HALIL SULEYMAN OZERDEN TO BE U.S. DISTRICT JUDGE FOR THE SOUTHERN DISTRICT OF MISSISSIPPI

The PRESIDING OFFICER. Under the previous order, the hour of 12 noon having arrived, the Senate will proceed to executive session to consider Calendar No. 76, which the clerk will report.

The legislative clerk read the nomination of Halil Suleyman Ozerden, of Mississippi, to be United States District Judge for the Southern District of Mississippi.

The PRESIDING OFFICER. Under the previous order, there will be 10 minutes of debate equally divided between the chairman and ranking member or their designees.

The Senator from Mississippi.

Mr. LOTT. Mr. President, it is my pleasure be here to speak on behalf of the confirmation of Halil Suleyman Ozerden to serve on the U.S. District Court for south Mississippi. I am truly pleased that the President has nominated this outstanding young attorney to this position in Mississippi. I thank the Judiciary Committee for the expeditious handling of the nomination. I particularly thank the chairman, the Senator from Vermont, Mr. LEAHY, and the ranking member, Senator SPECTER, for moving the nomination forward.

I made it a particular point of pronouncing his name and trying to get it correct because this is a very highly qualified nominee but an unusual one. I believe he will probably be the only Turkish American to serve on the Federal judiciary anywhere in America. We didn't select him because of that, but it is a fact. He has an outstanding record, and he will be an outstanding member of the judiciary.

Long before I knew this young man, I met his father. Sul is the son of a Gulfport, MS, doctor, psychiatrist, a Turkish immigrant, and naturalized U.S. citizen. He was truly a well respected citizen in the community as well as a doctor.

I met him back when I was in the House of Representatives, years ago, in the 1970s, as a matter of fact. His father came to visit my office on the Mississippi gulf coast one day to thank me for a controversial vote I had cast, one that was particularly unpopular with a lot of my constituents. Well, now, House Members are not used to people actually coming to their office and thanking them for casting a vote a lot of people disagree with, so I took a particular liking to this doctor, and I stayed in touch with him and his family over these past 30 years.

But I was particularly impressed, as I watched the doctor's son grow up and achieve such a tremendous record.

I began hearing about Sul, his professional accomplishments, and the impact that he was having on the gulf coast community. Now one of the most respected young lawyers in Mississippi, Sul may soon have the rare opportunity to serve both his community and his country as a Federal judge.

During my time in the Senate, I have had the opportunity to deal with countless judicial nominees. Seldom have I seen a nominee who comes as highly recommended—and who is as highly credentialed—as Sul Ozerden.

This young man graduated from what was then a very large high school in Mississippi, Gulfport High School, in 1985. He was salutatorian in his class. He then attended Georgetown University's School of Foreign Service on a Navy ROTC scholarship, graduating magna cum laude and Phi Beta Kappa in 1989.

Following graduation, he served 6 years active duty as a commissioned officer and naval flight officer in the U.S. Navy, where he achieved the rank of lieutenant as an A-6E Intruder bombardier/navigator. He was awarded the Navy Commendation Medal for missions flown over Iraq during Operation Southern Watch and Somalia during Operation Restore Hope.

After his military service, he earned his law degree from Stanford Law School, where he served as associate editor for the Stanford Law Review. Following law school, he clerked for the Honorable Eldon Fallon, U.S. dis-

trict court judge in New Orleans, before returning home to enter the private practice of law in Gulfport.

That is an incredible record, outstanding record—in high school, in college, in the military, and law school, and he served as a clerk to a Federal judge. He has all the credentials that will qualify him for this position.

He then returned to the gulf coast as a shareholder in one of the gulf coast's most respected firms, Dukes, Dukes, Keating & Faneca, where his practice has focused on general civil defense litigation, representation of local law enforcement and governmental entities, and commercial transactions and litigation.

In addition to his professional accomplishments, Sul is also involved in his community, as his father was. He has served as a mentor in the Gulfport Public School District. He has been named "Volunteer of the Year" by the Gulfport Chamber of Commerce, an area where we have had a lot of voluntarism in the last 2 years to help people and help our communities recover from Hurricane Katrina. He served on the board of directors—and as president—of the Gulfport Chamber of Commerce. He also served as the president of the Gulfport Business Club. He was also named as one of the Sun Herald newspaper's "Top 10 Business Leaders Under 40" for the southern part of the State of Mississippi.

He is active in his church, St. Peter's By-the-Sea Episcopal Church, where he is on the church's building committee—an extremely important position within a church seeking to rebuild from devastation caused by Hurricane Katrina.

President Bush has nominated one of south Mississippi's finest to fill one of Mississippi's most important positions. Sul's academic credentials, brilliant mind, analytical ability, legal skills, world experiences and common sense are rare qualities in one person. The Federal judiciary is lucky to have the opportunity to secure the services of Sul Ozerden, and I look forward to his confirmation.

Mr. President, I do not know when I have supported a nominee to be a Federal judge in Mississippi more than I do this one. I am very proud of this nomination, and he will surely be overwhelmingly confirmed in a few minutes. Sul Ozerden, of Gulfport, MS, will be a credit to his parents, the community, and to the Federal judiciary.

I yield the floor.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. COCHRAN. Mr. President, I am very pleased this nomination is now before the Senate. The nominee is very well qualified to serve as a Federal judge. He is a highly respected lawyer with a keen sense of fairness. I think he will reflect great credit on the Federal judiciary.

Sul graduated magna cum laude from the Georgetown University School of Foreign Service, where he was a member of Phi Beta Kappa.

After graduating from Georgetown, he attended the U.S. Navy Flight School in Pensacola, FL, and then served for 5 years as a naval officer. He served as a bombardier and navigator aboard A-6E Intruder aircraft and was awarded the Navy Commendation Medal for missions flown over Iraq and during Operation Restore Hope in 1992 and 1993. He also completed deployments to the Western Pacific and to the Persian Gulf aboard the aircraft carrier USS Kitty Hawk from 1992 to 1994.

Sul is also a graduate of the Stanford University School of Law, where he served as an associate editor on the Law Review.

He then served as a law clerk to the Honorable Eldon E. Fallon, U.S. district judge for the Eastern District of Louisiana.

He then joined the law firm of Dukes, Dukes, Keating & Faneca in Gulfport, MS, a highly respected law firm in our State. He has practiced in State and Federal courts throughout the Southeast and served as lead counsel in a wide range of complex cases.

Sul is ranked by his fellow lawyers at the highest levels of professional accomplishment. He received a unanimous "qualified" rating from the American Bar Association's Standing Committee on the Federal Judiciary.

Mr. President, I have come to know this nominee well and his family members who are outstanding citizens of the Gulf coast area, of the State of Mississippi. I am very pleased he accepted the nomination and is prepared to take his place on the bench of the Federal court in our State. I am very pleased to urge the confirmation of this nominee.

Mr. LEAHY. Mr. President, today we consider the nomination of Halil Suleyman Ozerden to be a U.S. district judge for the Southern District of Mississippi, which until recently had been considered a judicial emergency. By approving yet another lifetime appointment, we continue to proceed promptly and efficiently to confirm judicial nominees.

With this confirmation, the Senate will have confirmed 16 lifetime appointments to the Federal bench so far this year. There were only 17 confirmations during the entire 1996 session of the Senate. This means we have already confirmed almost the entire total of confirmations for the entire 1996 session, and we are still in April of this year.

The Administrative Office of the U.S. Courts lists 48 judicial vacancies, yet the President has sent us only 27 nominations for these vacancies. Twenty one of these vacancies—almost half—have no nominee. Of the 16 vacancies deemed by the Administrative Office to

be judicial emergencies, the President has yet to send us nominees for 6 of them. That means more than a third of the judicial emergency vacancies are without a nominee.

I have worked cooperatively with Members from both sides of the aisle on our committee and in the Senate to move quickly to consider and confirm these judicial nominations so that we can fill vacancies and improve the administration of justice in our Nation's Federal courts. The nomination we consider today has the support of both Senator COCHRAN and Senator LOTT.

Mr. Ozerden is just 40 years old, quite young for a lifetime appointment to the Federal bench. Mr. Ozerden has worked for the past 8 years as a commercial litigator for the Gulfport, MS, law firm of Dukes, Dukes, Keating & Faneca, P.A. Before pursuing a legal career, he served for 6 years on active duty as an aviator in the U.S. Navy.

I have urged, and will continue to urge, the President to nominate men and women to the Federal bench who reflect the diversity of America. Mr. Ozerden is the son of a Turkish immigrant. I am encouraged when we can reflect positively on the diversity of our Nation and the contributions of immigrants.

The Senate will confirm Mr. Ozerden. It will not repeat the slurs that many used against Senator OBAMA. Whether a person's middle name is Suleyman, Hussein, or Ali, that person should be considered on merit, not through the eyes of prejudice. Our Nation must rise above mean-spiritedness and the shortsighted politics of fear. Consistent with our heritage as a nation of immigrants, we should recognize the dignity of all Americans whose work contributes to building a better America. The diversity of our Nation is a strength for our country and remains one of our greatest natural resources.

That said, I understand the disappointment of members of the African-American and civil rights communities that this administration continues to renege on a reported commitment to appoint an African American to the Mississippi Federal bench. In 6 years, President Bush has nominated only 19 African-American judges to the Federal bench, compared to 53 African-American judges appointed by President Clinton in his first 6 years in office. With an ever-growing pool of outstanding African-American lawyers in Mississippi, it is not as if there is a dearth of qualified candidates.

The PRESIDING OFFICER. The senior Senator from Pennsylvania.

Mr. SPECTER. Mr. President, I have sought recognition to add my endorsement for the confirmation of Halil Suleyman Ozerden to the U.S. District Court for the Southern District of Mississippi. The distinguished Senators from Mississippi have already spoken at length about his outstanding quali-

fications, and I associate myself with their remarks.

It is a matter of considerable distinction to be a magna cum laude graduate from Georgetown University. And a law degree from Stanford is impressive. His service as a lieutenant in the U.S. Navy, with the impressive service he has performed there, has been specified in some detail.

He was unanimously rated "qualified" by the American Bar Association. The vacancy to which he has been nominated has been designated as a "judicial emergency" by the nonpartisan Administrative Office of the Courts. I urge my colleagues to vote to confirm this very distinguished nominee.

I note we have a significant number of vacancies at the present time. We have 14 vacancies on the courts of appeals. Six nominees have been submitted to the Judiciary Committee, and it is my hope we will process these nominees promptly. There have been a number of blue slips not returned by Senators. Under the practice of the committee, the nomination will not be processed until blue slips are returned by the Senators. So I will be communicating directly with the Senators involved, urging them to return the blue slips so we may go forward.

There are six of those vacancies where nominations have been submitted. There are eight vacancies without nominations. I have discussed this matter personally with the President and have written to him in addition so the letter could be disseminated among the various White House officials who are charged with the responsibility for proceeding there.

On the district courts, there are 34 vacancies. Twenty-two nominations have been received, and it would be my hope they would be processed promptly. Twelve are awaiting nominees. The vacancies constitute a substantial number.

The total number of authorized circuit judges is 179. There are 14 vacancies, for a 7.8 vacancy percentage. The total number of authorized district judges is 674. There are 34 vacancies, for a 5-percent vacancy rate. It is important these vacancies be filled.

Where we do not have judges—and quite a few of these vacancies are judicial emergencies—there cannot be the processing of these cases. As a lawyer with substantial experience in the courts, I can attest firsthand to the importance of having judges on the job. When the vacancies are present, other judges are compelled to do extra duty.

So I urge my colleagues to cooperate in the processing of these nominations and vacancies. I, again, renew my urging of the White House, the President, to submit nominations for these vacancies.

COMPLIMENTING SENATOR CASEY

In conclusion, may I note how much I appreciate the Presiding Officer, the

other Senator from Pennsylvania. I do not call him the junior Senator from Pennsylvania, although he has been here a lesser period of time than I have. I think the difference is 26 years and 3 months to 3½ months. But Senator CASEY has already made a distinguished mark on the Senate.

I think it not inappropriate to note for the record that he and I meet on a weekly basis and have held joint hearings on the juvenile gang problem in Philadelphia and on the issue of the proposed merger of Independence Blue Cross and Blue Shield with Highmark from the western part of the State, that we were together in Pittsburgh recently for the induction of a court of appeals judge and a district court judge.

My compliments to Senator CASEY on his distinguished service already.

Mr. President, I note the time has arrived for the vote, so I yield the floor.

The PRESIDING OFFICER. If all time is yielded back, the question is, Will the Senate advise and consent to the nomination of Halil Suleyman Ozerden, of Mississippi, to be United States District Judge for the Southern District of Mississippi?

Mr. COCHRAN. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from South Dakota (Mr. JOHNSON), the Senator from Illinois (Mr. OBAMA), and the Senator from Michigan (Ms. STABENOW) are necessarily absent.

Mr. LOTT. The following Senators are necessarily absent: the Senator from Arizona (Mr. MCCAIN) and the Senator from Ohio (Mr. VOINOVICH).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 95, nays 0, as follows:

[Rollcall Vote No. 136 Ex.]

NOT VOTING—5

Johnson	Obama	Voinovich
McCain	Stabenow	

The nomination was confirmed.

The PRESIDING OFFICER. Under the previous order, the President will be notified of the Senate's action.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will return to legislative session.

RECESS

The PRESIDING OFFICER. Under the previous order, the Senate stands in recess until 2:15 p.m.

Thereupon, the Senate, at 12:35 p.m., recessed until 2:15 p.m. and reassembled when called to order by the Presiding Officer (Mr. CARPER).

AMERICA COMPETES ACT—
Continued

AMENDMENT NO. 929

The PRESIDING OFFICER. Under the previous order, there will be 2 minutes of debate equally divided on amendment No. 929 offered by the Senator from South Carolina, Mr. DEMINT. Who yields time?

The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, I know Senator BAUCUS intended to be here. I don't see him right now. I know the Senator from South Carolina wishes to use his 1 minute. I am informed that Senator BAUCUS will support the amendment and is urging other Senators to do the same.

I yield the floor.

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. DEMINT. Mr. President, I appreciate the support of the majority. This is clearly a bipartisan idea. The underlying bill has in it a study to look at obstacles to innovation. This simply adds to that with a study of our Tax Code to see how it might be obstructing innovation and investment in our country.

It sounds as if we have good support. I encourage all my colleagues, Republicans and Democrats, to vote for the amendment.

I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is on agreeing to amendment No. 929. The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from South Dakota (Mr. JOHNSON) and the Senator from Illinois (Mr. OBAMA) are necessarily absent.

Mr. LOTT. The following Senators are necessarily absent: the Senator from Arizona (Mr. MCCAIN) and the Senator from Ohio (Mr. VOINOVICH).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 96, nays 0, as follows:

[Rollcall Vote No. 137 Leg.]

NOT VOTING—4

Johnson	Obama
McCain	Voinovich

The amendment (No. 929) was agreed to.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KENNEDY. Mr. President, as I understand it, we are operating under a time agreement that has been proposed by the Senate leaders.

The PRESIDING OFFICER. The Senator is recognized for such time as he wishes to consume.

Mr. KENNEDY. I thank the Chair.

Mr. President, first of all, I commend my friend and colleague, Senator BINGAMAN, as well as Senator ALEXANDER and the group that came together in support of this idea of competitiveness legislation. I think it is one of the most important issues we will consider on the floor of the Senate, and it is something that commands the kind of broad support that it is getting.

What underlines this legislation is a recognition that the United States is competing in a global economy. If we are going to compete in a global economy, we have to make a decision as a nation to the prepare each and every individual American to stand with the winds in a global economy. This legislation says that we are going to equip

every man, woman, and child in the United States to be able to deal with the challenges of a global economy, and I think that is a very important national purpose.

Throughout history, this country, when it saw that it was challenged, turned to education to stay competitive. After the Second World War, we needed to build a new, peacetime economy. We passed the G.I. Bill to enable those who served in battle to rebuild their lives at home. For every dollar we invested, the Greatest Generation returned \$7 to our economic growth.

In 1957, we were challenged again. The launch of Sputnik sparked the Space Age, and we rose to the challenge by passing the National Defense Education Act and inspiring the nation to ensure that the first footprint on the moon was left by an American. We doubled the Federal investment in education. When individuals have their skills uplifted and when they have their skills enhanced, they find out their participation in the economy works a great deal better. They are more productive, they are more useful, they are more creative and more imaginative and able to compete more effectively. This bill is enormously important for all Americans and very important for our country in terms of the whole challenge of globalization.

Secondly, it is enormously important in terms of our national security. This legislation ensures that we are going to encourage those forces that enhance our capability in the areas of math, science and research—all of which are enormously important to make sure we are going to have the best technology for those who are going to serve in the Armed Forces. In the Armed Forces we want the best trained and best led men and women, but we also want the best in technology. This is a competitiveness bill and a national security bill.

I believe it is going to be enormously helpful and valuable in terms of our democratic institutions, in making sure we are going to have men and women in this country who have the ability and commitment to ensure that our democratic institutions are going to function, and function very well, and that we will be able to maintain our leadership in the world.

I, for one, agree with those who believe in each generation, and in each decade, the United States has to fight for its leadership in the world. It is not just going to come automatically. We should no longer think we are going to coast in terms of national and world leadership. We have to win it, and we have to win it every single day. The way to win it is with the kinds of investments that are included in this legislation. So I commend all those who have been a part of this process, and particularly our friends and colleagues, Senator BINGAMAN and Senator ALEXANDER.

To go through very quickly now, after those general comments about why this legislation is so important, if we look at where the United States is: America's 15-year-olds scored below the average in math compared to the youth of other developed nations on a recent international assessment. On the Programme for International Student Assessment, you will see that the U.S. ranks 24th.

This chart indicates that since 1975, the U.S. has dropped from 3rd to 15th place in the production of scientists and engineers.

We are also losing ground in overall high school and college graduation rates. The U.S. has dropped below that average graduation rate for OECD countries. Out of 24 nations, the U.S. ranks 14th, just ahead of Portugal.

We are going to go to the underlying educational needs when we reauthorize the No Child Left Behind Act and higher education legislation. We are going to deal with middle schools and high schools. We are going to try to tie it in and have a seamless web, from the Head Start education programs through the K-12 and then universities into the academic world or into the business world. We need to be able to bring those elements together.

Having said all of that, this legislation is enormously important in terms of making sure we reach that goal.

This is a chart of research and development investment as a share of the U.S. economy. It demonstrates we are stagnant. This has to change. We know we need to invest in research and development.

If you look at some of the countries with which we are going to compete, India and China in particular, and look at the number of graduates they have in math and science, you will find that China awards more than 300,000 bachelor's degrees in engineering and computer science. We award a little over 100,000.

This is about research and development, but the investments in our people, investments in our research and development are two sides of the same coin. They are both essential. What this demonstrates is we have to do better if we expect to compete.

Fast-growing economies such as China, Ireland, and South Korea are realizing the potential for economic growth that comes with investing in innovation. China's investment in research and development rose by an average of 18 percent from 2000 through 2003. Over the same period, the increase in U.S. investment averaged only 2 to 3 percent annually. In the last decade, China has nearly doubled the share of their economy they spend on research and development, and they have replicated our National Science Foundation.

This bill puts us on a path to double the basic research funding at NSF in 5

years, double the basic research funding at the Department of Energy over the next 10 years, and double the funding at NIST, the National Institute for Standards and Technology. The bill also creates a President's Council on Innovation and Competitiveness, to bring together the heads of Federal agencies with leaders in business and universities to develop a comprehensive agenda to promote innovation.

If you look at where we are, to give some further illustrations, math and science classes in high-poverty schools are much more likely to be taught by teachers who do not have a degree in their field. Fifty-six percent of science classes in high-poverty schools are taught by teachers without a relevant degree, compared to just 22 percent of classes in low-poverty schools. More than a third of math classes in high-poverty schools are taught by an out-of-field teacher, compared to just 18 percent of classes in schools with a low-poverty rate.

I was interested the other day in the testimony of Mr. Gates, who commented on a lot of subjects. He was talking about school dropouts. There are some who think that school dropouts are children who are unable to comprehend the curriculum. He said, Oh, no, I am worried about the dropouts, the minds we are losing—able, gifted minds that are unchallenged because they had an inferior teacher, no books, or challenging conditions at home, such as missing meals because they are poor. We cannot afford to lose any of those.

What we are looking for is high quality teachers. The bill recognizes and responds to the shortage of high quality math, science, technology and engineering teachers, particularly in high poverty schools. The bill expands scholarships and stipends, and creates a new NSDF teaching fellow program to bring high quality math, science, technology, and engineering teachers into high-need schools. It also expands the Teacher Institutes for the 21st Century Program of the NSF to provide cutting-edge professional development programs for teachers who teach in high-need schools. These programs are peer reviewed and have demonstrated to be successful.

The bill creates a summer institute at the Department of Energy to help math and science teachers, to enable them to go to a number of areas that deal with energy because that is an agency so focused in terms of these issues in math and science.

There is a high cost to failing to address our education concerns. The nation loses over \$3.7 billion a year in the cost of remedial education and lost earning potential, because students are not adequately prepared to enter college when they leave high school.

The bill provides grants to states to align elementary and secondary school

standards, curricula, and assessments with the demands of college, the 21st century workforce and the Armed Forces. The grants support state P-16 councils to bring together leaders in the early education, K-12, and higher education communities, in the business sector, and in the military.

It is also increasingly important for students to be exposed to and immersed in foreign languages and cultures. Only one-third of students in grades 7-12 and a mere 5 percent of elementary school students study a foreign language.

If we are going to talk about our ability to be involved in a world economy, we are fortunate because we have so many who have come from such different cultures and traditions. I was reminded a few days ago in our Education Committee, of the number of languages they speak in St. Paul, Minnesota. Thirty-seven languages are spoken in Everett, MA. If we are going to compete in the world economy, we are going to have to do a lot better than we are doing in terms of communication and language.

This is a balanced program. It has been reviewed by the Academy of Science, at the Institute of Engineers. It has been recommended by a wonderful American patriot, Norm Augustine, one of the great American leaders, corporate leaders, but also someone enormously knowledgeable on American defense interests and also international competition. This legislation has been tailored to try to take the very best ideas out there.

We are going to have to fill in the underlying work that needs to be done. This is primarily focused on what we are going to need to be able to compete internationally. We have to be sure the schools at every level are providing students with a high quality education. We want to be sure those graduating from our universities will have the skills and talents and education to move them into the American economy and the larger economy they will face in the future.

This bill represents the beginning of a strong commitment that we must sustain and build on if America is to remain competitive in the years ahead. The legislation has strong support for a renewed commitment to help the current generation meet and master the global challenges we now face.

I welcome the opportunity to join with my colleagues and friends, the principal cosponsors, to commend this legislation, and hopefully we will be able to complete it.

I know there are other amendments. I have had an opportunity to review them briefly. A good many of them deal with other issues we ought to be dealing with at another time. I hope the membership will recognize this is special legislation. There is a special need. This is a result of an extraor-

dinary effort on the part of the principal sponsors of this bill. It deserves to pass and get through. I am very hopeful it will be done expeditiously.

AMENDMENT NO. 940

Mr. President, I send a HELP Committee amendment to the bill which I think further strengthens the math and science programs. We have gone over this in considerable detail with our colleagues, since they are members of the committee. I thank them for their attention. I am grateful for their support of these particular provisions. Again, I commend them for the legislation. Hopefully this amendment will be accepted.

The PRESIDING OFFICER. Is there objection to setting aside the pending amendment?

Mr. ALEXANDER. Reserving the right to object—I have no objection.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Massachusetts [Mr. KENNEDY] proposes an amendment numbered 940.

(The text of the amendment is printed in today's RECORD under "Text of Amendments.")

Mr. ALEXANDER. I ask unanimous consent to speak for 2 minutes before the Senator from Oklahoma.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ALEXANDER. Mr. President, I thank Senator KENNEDY, the chairman of the Health, Education, Labor and Pensions Committee, and Senator ENZI, who was chairman last year, when all this began. I hope our colleagues can see that these senior Members of the Senate—in the case of Senator KENNEDY and Senator ENZI, they have a large amount of jurisdiction over this subject; Senator STEVENS and Senator INOUE, who spoke yesterday, have a large amount of jurisdiction over this subject; Senators DOMENICI and BINGAMAN, who introduced legislation last year that attracted 70 cosponsors—a number of their ideas are within this legislation, but they have also demonstrated something you don't see every day with Senators, which is a forbearance.

In other words, they recognize this is a big, 208-page bill with the President's ideas and those of the Council on Competitiveness and the Augustine Commission. It is well and carefully crafted, but not every single section is exactly the way every single Senator would like it. Also, it has permitted us to have a procedure that brings this bill to the floor so it has a good chance of being enacted this week. I thank Senator KENNEDY and Senator ENZI, who really have the largest amount of jurisdiction, for forbearing, being active, leading, and showing a sense of urgency about this subject by permitting it to come to the floor in the way

it has, and then, in addition to the other contributions they have made, we have the Kennedy-Enzi HELP Committee managers' package which is now before the Senate for its consideration.

The PRESIDING OFFICER (Ms. MCCASKILL). The Senator from Massachusetts.

Mr. KENNEDY. Madam President, I know my friend from Oklahoma is prepared to speak. I ask unanimous consent to continue for 3 or 4 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

IRAQ

Mr. KENNEDY. Madam President, just a few minutes ago, Vice President CHENEY attacked the Senate majority leader on Iraq. He accused him of making "uninformed and misleading" statements, of defeatism, and of playing politics with the war.

Senator REID's interest is in protecting our troops and our national security and bringing the war to an end. He is rightly responding to the American people by demanding a change in our failed policy in Iraq. He is right to insist that the Iraqis take responsibility for their own security and their own future and that our troops need begin to withdraw from Iraq.

It is Vice President CHENEY who has been wrong—and deadly wrong—about Iraq.

Even more, Vice President CHENEY is the last person in the administration who should accuse anyone of making uninformed and misleading statements.

The Vice President misled the American people in August 2002, when he insisted that we "know that Saddam has resumed his efforts to acquire nuclear weapons" and that "many . . . are convinced that Saddam will acquire nuclear weapons fairly soon."

The Vice President misled the American people in March 2003, when he said that Saddam Hussein "has a longstanding relationship with various terrorist groups, including the al-Qaeda organization."

The Vice President misled the American people when he insisted that our troops would "be greeted as liberators."

The Vice President misled the American people when he insisted that the insurgency is "in the last throes."

He and the entire administration continue to mislead the American people when they insist that progress is being made in Iraq.

The facts speak for themselves. Iraq is sliding deeper and deeper into the abyss of civil war.

Violence and casualties are increasing. Already 3,335 American soldiers have been killed, and more than 320 of them have been killed since the surge began.

Civilians continue to flee the violence in Baghdad as the violence there continues unabated.

Senator REID is right to insist that we change the mission for our troops in Iraq and set a target date to bring them home. The American people agree.

America never should have gone to war when we did, the way we did, and for the false reasons we were given. It is the Vice President who has been playing politics with the war in Iraq for more than 4 years. The American people understand this and will rightly reject the Vice President's fingerpointing.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma is recognized for 1 hour.

Mr. COBURN. Madam President, the bill we have before us today is a well-intentioned, thoughtful exercise to try to change the future for our country. The Commission this bill is based on, the work and experience of those who have helped coauthor the bill, is rightly so in their concern for the future of our competitiveness. There is one problem, however. The biggest dole on our competitiveness today has to be the largesse of the Federal Government. Let me give a few examples.

Last year, the American people spent \$224 billion paying interest on the national debt. Last year, the American people, through our actions, spent \$350 billion more than we had, which further increased that debt. In the last 6 years, the individual debt owned by American citizens—what they are required to pay—has risen from \$21,000 to almost \$30,000. At the same time, the average wage in those same 6 years increased by less than \$5,000. So when we think about competitiveness, we ought to pay close attention to the drags on what will be our competitive situation.

The No. 1 drag today is the Federal Government. That is not to demean this bill. I would have loved to have seen a different bill, a bill that says: Here is what we are doing right. Here is what we are doing wrong. Here are some new ideas on how to fix what we are doing wrong and, by the way, here are some things we need to do to keep us competitive. We didn't do that.

The Department of Education right now has 10 percent of its programs that are totally ineffective. The Department of Energy, with its \$5 billion budget, has 10 percent of its programs that are highly ineffective. In other words, they are not accomplishing anything. None of that was looked at, deauthorized, or eliminated in this bill. Consequently, according to OMB, we have approximately \$80 billion that is going to be authorized to be spent—some of that is reauthorization, I understand—over the next 4 years that is going to be added to the debt.

People will say: This is an authorization. That doesn't mean we are going to spend the money.

Why are we passing the bill if we don't intend to spend the money? We

are going to spend the money. The problem with the way we spend money is we don't make the same choices the average American makes. We just chalk it up to our kids and grandkids. So I don't know where the money is going to come from.

This bill is obviously going to pass. It is going to be conferenced, and it is probably going to be signed. But we will have missed a great opportunity to fix many major programs that are not working well today. This bill creates 20 new Federal programs. It doesn't eliminate one Federal program that isn't working well today. It doesn't modify, to a significant extent, those programs which are deemed ineffective and not working.

What we have is great intention and great legislation, save for the fact that we are not looking at the whole story. We are not looking at the whole picture. Should Congress have to do what every family in this country does every month—make a choice? Where do we prioritize our spending for this month? Where do we spend more? What are the things on which we can't afford to spend because we don't have the money? We don't do that. We authorize programs. Then we appropriate funds.

By the way, the discretionary portion of the Federal Government has grown about \$600 billion in the last 7 years. Senator CARPER and myself held 48 hearings in the last Congress in the Subcommittee on Federal Financial Management of the Homeland Security and Governmental Affairs Committee. What we found was an astounding \$200 billion of waste, fraud, abuse, and duplication. There was great opportunity to take that information and do something about it. We have not done it.

The Department of Education is not compliant in terms of improper payments. They don't know where they are paying things wrong or paying things right. The Department of Energy is noncompliant in terms of improper payments. They don't know where they are paying things right and paying things wrong. We have at least 20 percent of the Department of Energy's budget that is earmarks. They don't get to decide where they spend the money; the Members of Congress tell them where they have to spend the money. There is not a sense of prioritizing what our energy needs are, what our education needs are within the Department of Energy. There is no commonsense approach to what we are doing. Consequently, the biggest problem we have in terms of competitiveness, which this bill won't solve, is more government. It creates more government rather than less government or the same amount of government that is more efficient and more effective.

I don't intend to impugn the desires or the sincerity of the Members of this body who helped put this bill together.

There is no question we need to address the issues that are encompassed in the legislation. That is not my criticism. My criticism is that when we have an opportunity to fix things with a bill such as this which cuts across multiple agencies, we don't do it. What we do is set up a system where more programs will be created without eliminating the ones that are not working.

As a matter of fact, in this bill, in the National Science Foundation, we have a setaside. Where before the National Science Foundation did everything on peer review—everything on peer review, there was no politics saying what you have to do—we are taking \$1 billion and setting it aside and we are going to tell them what to do. We know better than the scientists where we ought to be spending our money? I seriously doubt that.

We claim that what we want to do is reestablish the competitiveness of the United States. I have no doubt that certain segments of this bill will go a long way in doing that. I am not critical of the intent of the bill. But I believe—and I raised this on the last bill we considered—we continue to authorize new spending. We continue to put at risk, in the name of competitiveness, the future.

The No. 1 risk for competitiveness is our debt. The fact is, we are sucking capital out of the capital markets like crazy, making it very difficult for small businesses that compete in the capital markets on ideas, innovation, and sole-proprietorships and people who want to take a risk on their own.

The other thing we didn't do is fix IDEA. One of our problems with education is, we passed a law that said school districts will do this for individuals with disabilities. What we promised when we passed that law—much as we will hear in 2 or 3 years as to what we promise with this law—was that we would fund 40 percent of the costs in education for IDEA. That would be the Federal load. This last year, we funded 18 percent. So we wonder why the schools can't compete, why they can't put the money into math and science, the money into competitiveness, when \$16 billion a year is being absorbed by the school districts to do something we mandated them to do, which means \$16 billion isn't available for them to teach and mentor math and science, for them to create greater opportunities to raise interest in the sciences.

So I think if our past actions speak at all about what the future will bring, you will see we will not keep our word with this bill either. We will say things, we will do things, we will put at risk the next two generations, and we will have felt good because we did something, but we did less than what we could do.

That is what we are doing with this bill. We are doing less than what we could do. We could, in fact, fix what is

wrong in many of those programs in the Department of Education and in the Department of Energy today with this bill. It could have been done. It could have been done, but it was not. So, consequently, we are going to fund ineffective programs as we authorize and create and fund new programs, many of which are designed to do the exact same things, but we are not going to eliminate the programs that are not working.

And lest you think I am an alarmist and known as "Dr. No," think about what the obligations are of every child who is born in this country today—just today. What is it? April 24, 2007. When that baby is delivered and placed in its mother's arms, you are going to see smiles of joy and tears—none of them with a realization the child who just came into this world is faced with \$453,000 in unfunded liabilities the moment they take their first breath.

The contrast should be, we are talking about competitiveness. How do we create a future? What kind of future is it when we create a bill but do not address the underlying problems that are limiting our competitiveness in the first place? No. 2, even if we are trained in math and science, we are going to be so debt ridden we won't have the money to put into it.

According to the Government Accounting Office, that 8 percent in interest, that \$224 billion we spend now, in the year 2025—a mere 18 years from now—will be 25 percent of the budget and close to \$1 trillion. Now, think about that. Should we do the hard work of eliminating the wasteful and duplicative programs before we create another?

It is easy to pass legislation that does something good. It is very hard to get rid of programs that are ineffective and highly inefficient. The reason is because everybody has an interest group that supports that program, and we find ourselves adverse to challenging that group.

But the real choice is between our grandchildren and today's present inefficiencies. The real choice is whether we are truly going to be competitive and create an opportunity for the next two generations to experience the same kind of blessings we have been fortunate enough to experience as a nation.

The real question is, will we leave a heritage that is similar to the heritage that was left with us? I tell you, my feelings and my thoughts are I do not see movement in this body or in the Congress as a whole to start addressing the underlying problems that are facing us. It is not a question of partisanship, Democrats or Republicans. It is a question of expediency. It is hard to tell people no when something is not working well. It is easy to ignore it.

AMENDMENT NO. 917

Madam President, I ask unanimous consent that the pending amendment

be set aside and call up amendment No. 917.

The PRESIDING OFFICER. Is there objection to setting aside the pending amendment?

Mr. ALEXANDER. Madam President, reserving the right to object.

No objection, Madam President.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. COBURN] proposes an amendment numbered 917.

Mr. COBURN. Madam President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To express the sense of the Senate that Congress has a moral obligation to offset the cost of new Government programs and initiatives)

At the appropriate place, insert the following:

SEC. ____ . SENSE OF THE SENATE.

(a) FINDINGS.—The Senate finds that—

(1) The national debt of the United States of America now exceeds \$8,500,000,000,000.

(2) Each United States citizen's share of this debt exceeds \$29,000.

(3) Every cent that the United States Government borrows and adds to this debt is money stolen from future generations of Americans and from important programs, including Social Security and Medicare on which our senior citizens depend for their retirement security.

(4) The power of the purse belongs to Congress.

(5) Congress authorizes and appropriates all Federal discretionary spending and creates new mandatory spending programs.

(6) For too long, Congress has simply borrowed more and more money to pay for new spending, while Americans want Congress to live within its means, using the same set of common sense rules and restraints Americans face everyday; because in the real world, families cannot follow Congress's example and must make difficult decisions and set priorities on how to spend their limited financial resources.

(7) Last year, the interest costs of the Federal debt the government must pay to those who buy U.S. Treasury bonds were about 8 percent of the total Federal budget. In total, the Federal government spent \$226 billion on interest costs alone last year.

(8) According to the Government Accountability Office, interest costs will consume 25 percent of the entire Federal budget by 2035. By way of comparison, the Department of Education's share of Federal spending in 2005 was approximately 3 percent of all Federal spending. The Department of Health and Human Services was responsible for approximately 23 percent of all Federal spending. Spending by the Social Security Administration was responsible for about 20 percent of all Federal spending. Spending on Medicare was about 12 percent of all Federal spending. Spending in 2005 by the Department of Defense—in the midst of two wars in Iraq and Afghanistan and a global war against terrorism—comprised about 19 percent of all Federal spending. Thus, if we do not change our current spending habits, GAO estimates that as a percentage of Federal spending, in-

terest costs in 2035 will be larger than defense costs today, Social Security costs today, Medicare costs today, and education costs today.

(9) The Federal debt undermines United States competitiveness by consuming capital that would otherwise be available for private enterprise and innovation.

(10) It is irresponsible for Congress to create or expand government programs that will result in borrowing from Social Security, Medicare, foreign nations, or future generations of Americans without reductions in spending elsewhere within the Federal budget.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that Congress has a moral obligation to offset the cost of new Government programs and initiatives.

Mr. COBURN. Madam President, it is a simple amendment. We are going to find out what your Senator believes with this amendment. We offered this amendment on the last bill. We had some inside baseball excuses why they would not vote for it. This is a sense-of-the-Senate amendment. It does not carry any force of law or anything. All it says is the Senate agrees that before we spend new money, we ought to get rid of the wasteful programs, we ought to get rid of the ones that are not working well, or we ought to make them better before we spend another \$60 billion to \$80 billion on another set of programs.

That last amendment got 59 votes against it. Only 38 people in the Senate thought we ought to do that. I will tell you, I think the vast majority—greater than 95 percent—of the American public thinks we ought to do that.

So this is a simple amendment. The catch with the amendment is, if you vote for the amendment and then do not change this bill to do what needs to be done to eliminate the other programs, you are going to have a tough time explaining that you agreed to this and then did something else when you voted for the passage of this bill.

There is a day coming when we will not have the luxury to wait around. The financial markets will tell us what we will do. We will not have the freedom within the Senate to make those choices. We will do it under the duress of extreme financial conditions that will affect our country.

So this is a simple amendment, very similar to the last one. I took the authorizing language out of it that some of the appropriators objected to, so it is very simple.

The final statement in the amendment is:

Sense Of The Senate.—

It is the sense of the Senate that Congress has a moral obligation to offset the cost of new Government programs and initiatives.

Now, with a budget deficit last year that was claimed to be \$160 billion, under Enron accounting—which was truly \$350 billion, if you looked at what happened to the addition to our debt, what our kids are going to pay—it is going to be pretty hard to say we

should not add more to the debt. We have a lot of people who will say the debt does not matter; whatever the debt is, is a percentage of GDP. That is fine if the underlying assumption is we have great economics, and we are not going to have contractions of the economy, we are always going to be able to compete, we are always going to be able to finance our debt. The fact is, as the Government Accounting Office says, we cannot, and the interest costs associated with that will be massive.

Why would I come out here and fight friends and foes alike all the time to do this? Because I think the one shortfall of our body is that overall we are not looking at the big picture and the long run. This looks at the long run, but it does not look at the big picture.

Unless we do that, we are going to find ourselves very apologetic to the next two generations because what, in essence, we will have said is we cared more about us, we cared more about our comfort, we cared more about our next election than we did any of the next two generations.

So I put it to my colleagues: Vote against this and vote for the bill and be honest. But if you think if we create new programs we ought to eliminate other programs so we do not continue to expand the Federal Government running a deficit, then you ought to vote for this amendment and not vote for this bill, until it is made right, until it has captured the opportunities that are inherent within it to fix what is wrong in the Department of Energy, to fix what is wrong in the Department of Education, to fix what is wrong with all these grant programs that need to be fixed today.

Let's hold us accountable. That is what the American people are expecting from us. I want to leave the Senate not being known for anything other than knowing what I did was to try to create and make sure we maintain the heritage this country has given to us.

With that, Madam President, I reserve the remainder of my time.

Mr. ALEXANDER. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. ALEXANDER. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ALEXANDER. Madam President, as I understand what we are doing: We have a few amendments pending. We are working to clear those amendments so we can come to a vote on Senator COBURN's amendment. In the meantime, Senator SUNUNU has more than one amendment. He has one he wants to talk about today. He wants to bring it up as soon as he can and schedule it for a vote. It is a meritorious amend-

ment. I hope we can do that as soon as possible.

Senator COBURN has reserved the rest of his time. But as I understand the procedure, Senator SUNUNU could go ahead and speak until the next scheduled speaker, who is scheduled to speak at 4 o'clock; is that correct?

The PRESIDING OFFICER. There is no order.

Mr. ALEXANDER. Thank you, Madam President.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. COBURN. Madam President, I ask unanimous consent, with deference to the Senator from Tennessee, that prior to the vote on my amendment I be given 2 or 3 minutes to speak on it.

Mr. ALEXANDER. No objection. Could we have 4 minutes equally divided?

Mr. COBURN. Absolutely.

Mr. ALEXANDER. Any objection? Prior to the vote, if and when the vote is set?

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. ALEXANDER. Thank you.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. SUNUNU. Madam President, I rise to speak on the legislation in general terms. As the Senator from Tennessee indicated, I filed three different amendments. I certainly wish to call at least one of those amendments up at the appropriate time. They address a number of concerns I have with the underlying legislation.

But let me begin by saying I do appreciate the complexity of the challenge the Senator from Tennessee has undertaken in trying to assemble from different committees of jurisdiction the components of this bill. I think, unfortunately, dealing with this legislation has laid to bare some of the weaknesses and problems with the way we are organized in Congress because it has been, unfortunately, an inefficient process in many ways.

There are five or six different committees that have jurisdiction in different areas of this legislation. They all want to try to leave their mark on the legislation. As a result, the Senator from Tennessee and others have had to deal with duplication and overlap in many cases with initiatives begun by different committees that have effectively the same goal and the same end. Over the past 12 or 18 months, I think they have eliminated a number of these problems from the legislation but many remain. I am one of the only, if not the only, engineer in the Senate. At least I was an engineer; I worked as an engineer during my previous work experience. I would like to think that I am still employable as an engineer perhaps someday in the future. I do value very much this experience and this background in science and technology when we are dealing

with problems on the Commerce Committee having to do with telecommunications or spectrum allocation or policies on environmental issues with particulate matter or pollution standards. I like to think it helps to have at least some grounding in a lot of the technical matters that underlie the basic legislation.

I think it is essential, when we are looking at policy to encourage and inspire students to pursue science and mathematics and to try to improve our competitiveness in fields of science and engineering, that we focus on a few core principles. I begin with the basic objective of maximizing research in the most basic areas of math and science. In this effort we are talking about the funds that go to the National Science Foundation and the funds that go to the National Institutes of Health. These are investments in basic sciences: in the case of the National Science Foundation, in physics, chemistry, physical science, and computational mathematics. They are peer-reviewed, which is intended to insulate them from political forces, legislative forces, and allow those with expertise in these areas to decide what sorts of research projects and programs receive funding in any given year.

It is essential we maintain that independent peer review process at the National Science Foundation, just as it is important at the National Institutes of Health because if we allow politics to enter this process, we are going to do these areas a great injustice.

Commensurate with that focus on physical sciences and computational mathematics as we pursue research in science and engineering, it is also important that we avoid policies that try to pick winners or losers within our economy. Here I point to various programs that over the years have subsidized product development for profitable companies, product development for products being introduced into the existing marketplace today that effectively picks one firm and one firm's products at the expense of others. Some people would say, well, that is research. But it certainly isn't the kind of peer-reviewed research that does and should take place at the National Science Foundation. It is product development work. Any time we start subsidizing product development for companies that are competing in the marketplace selling goods and services to consumers, we distort the marketplace, we provide unnecessary subsidies, and in programs like the advanced technology program we have done just that time and time again.

The companies that have received these subsidies are good firms with good employees, but I think putting funds in this area at the expense of physics and chemistry and mathematics at the National Science Foundation is a grave mistake. We need to

maximize that research, make sure it is peer-reviewed, don't pick winners and losers in private industry, and focus on educational programs where it can make the biggest difference in inspiring young students in these careers in math and science.

I look back on my own experience and ask the very basic question: What led me to pursue a degree in mechanical engineering when I was an undergraduate in college? I didn't make that decision when I was a freshman in college. I didn't even make that decision to pursue interests in math and science when I was in high school. I would argue for most students it happens in sixth and seventh and eighth grade. They realize they have an interest in math and science. More often than not it is because they have had a strong, credible, inspirational teacher in math and science, and my experience is no different. Jane Batts and Blake Richards, my math and science teachers in fourth and fifth grade, I think set me on that path that ultimately brought me to a mechanical engineering degree. So if we are going to look at educational programs that are meant to inspire students in math and science, they had better be focused on those key years: sixth, seventh, and eighth grade.

Finally—this is a point that Senator COBURN was speaking to—we need to look at the programs that are already in place and ask honest questions about how effective they are. How many do we have that deal with these areas of math and science education? How many do we have that deal with the areas of research? And, in particular, I think we should look to the work done by the American Competitiveness Council.

What they found is that in the areas of science, technology, education—science, technology, engineering and mathematics—stem programs—there are 106 different programs within 8 or 10 different agencies, including the Department of Transportation, the Department of Commerce, the Department of Energy, the Department of Homeland Security, 35 at the National Science Foundation, 12 at the Department of Agriculture.

In this legislation before us we do ourselves a disservice if we don't look at these programs and ask the questions: How effective are these programs? How can they be improved? How can they become more focused or better focused on inspiring those young students? As the American Competitiveness Council looked at these programs, they came up with a series of recommendations and findings. They made that very argument: that there was overlap in these science, technology, engineering, and math educational programs; that communication and coordination among agencies could be improved; and that current

programs tended to be focused on short-term support rather than longer term impact. Those are the very findings we should be trying to implement and execute as part of this legislation, but I don't see it in the underlying bill.

So the amendments I have focused on, first, the overlap and duplication and lack of focus within those educational programs, to try to strengthen them, measure their effect, and ensure that they have a greater impact on those students; and, second, to make sure we are appropriately focused on basic, fundamental research within the National Science Foundation and that we are maintaining its independence and that we ensure the peer review process is what determines how and where funds are allocated.

I know we are working on an agreement on the Senate floor, so I am not able to offer my amendment at the moment, but let me speak to what it attempts to do. I have an amendment that strikes section 4002 of this legislation. Section 4002 does two things within the National Science Foundation that I think set the wrong precedent.

First, it establishes a set-aside, a minimum allocation for educational and human resources within the National Science Foundation of \$1.05 billion. I recognize the educational initiatives within the National Science Foundation are important, but I certainly can't say, and I don't think any Member of the Senate can say, whether \$1.05 billion is exactly the right number. But more important, we shouldn't be mandating in law that the National Science Foundation direct a specific amount of money to any area. We should, to the greatest of our ability, allow those decisions to be set on a yearly basis by the experts and the leadership of the National Science Foundation. If we think they are not doing a good job, they should probably be replaced. But they are hired specifically because they have the best and most advanced understanding of what our needs are, what the most valuable areas of research are, and what the best kinds of partnerships might be for education related to physics, chemistry, mathematics, and material science. So I would strike that set-aside, not because we don't think any money should be going to this area—of course, money should be going to this area—but because it is a dangerous precedent for legislators to start carving up pieces of the National Science Foundation for specific initiatives.

Second, this particular section of the legislation mandates—it requires—that there be a specific percentage increase in this one particular area each year between now and 2011. While I don't know whether that percentage increase will turn out to be the right amount or the wrong amount over the next several years, I think it is a bad precedent to require as part of the legislation

that a designated portion of money go to any of the specific areas supported by the National Science Foundation. Once we move away from the peer review process, once we move away from independence within the National Science Foundation to allocate funds as the leadership there sees fit, then I think we run the risk of undermining the great strength that the National Science Foundation has represented over the past several years.

I began speaking about doubling resources for the National Science Foundation 4 or 5 years ago because it has been so successful in providing resources for basic research in key areas of physical sciences, and I am extremely concerned that if we adopt the provisions of section 4002 and start carving out pieces we think are politically popular at a particular point in time, we will dramatically undermine its effectiveness and have the unintended consequence of weakening the organization's ability to inspire the next generation of engineers and scientists.

I look forward to offering these amendments at the appropriate time, and I thank you, Madam President, for the time this afternoon.

I yield the floor.

ENTITLEMENT PROGRAMS

Mr. GREGG. Madam President, let me step over to the chair from which the junior Senator has been speaking.

I wanted to speak about a couple of issues. The first issue I want to talk about is the recent report which came out yesterday from the Medicare trustees which said that the Medicare trust fund is in dire straits. The Medicare trustees are required under law to report to the Senate and to the Congress and to the American people what the economic status is of the trust fund as it looks out into the future.

A lot of us have been talking for a long time about the problems with the entitlement programs we have—specifically Medicare, Medicaid, and Social Security—and the fact that these three funds are headed toward a meltdown, which is going to take with them the economy of this country. The practical effect of these three funds in their present spend-out situation is that they have approximately \$70 trillion of unfunded liability—\$70 trillion over their actuarial life.

Now, \$1 trillion is a number that a lot of us have a problem comprehending. To try to put that number into perspective, if you took all the taxes paid in the United States since we became a country, I think we have paid about \$46 trillion in taxes. If you take the entire net worth of America—all our assets, including all our cars, all our homes, all our stocks—that, again, is in the \$45 trillion to \$50 trillion net worth.

So what we have on the books as a result of the projected costs of the

Medicare, Medicaid, and Social Security system is a cost that exceeds all the taxes paid in the history of this country and exceeds the net worth of this country.

Why is that? Why are we confronting this problem? Well, it is basically a function of demographics. The postwar baby boomer generation, of which I am a member, the largest generation in American history, is beginning to retire.

By the year 2020, 2025, the number of retired citizens in this country will double from the present number who are retired today. It will go from about 35 million retired citizens up to about 70 million retired citizens. The number of people working to support those retired citizens will drop commensurately. So both Social Security and Medicare, and to some extent Medicaid, were programs designed with the concept that there would be a lot of people working for every person retired. They were essentially pyramids.

In fact, in 1950, there were about 12.5 people working for every person retired. So 12 people were paying into Social Security for every 1 person taking out. Today, there are about 3.5 people paying into Social Security and Medicare for every one person taking out. Social Security is running into surplus. But as this baby boom generation retires, that number changes radically. We go from those large numbers paying in and a small number taking out to a large number taking out and a small number paying in. There will be about two paying in for every one person taking out by about 2025. We go from a pyramid to a rectangle and the system cannot support itself.

This chart reflects the severity of the problem. These three programs—Social Security, Medicare, and Medicaid—as a percentage of spending of the GDP, by the year 2025, or 2028, will absorb almost 20 percent of GDP. Why is that a problem? Today, and historically, the Federal Government has only spent 20 percent of gross national product. So the practical implications are that by 2025, or 2028, the total spending of these three programs alone will absorb all of the money that has historically been spent by the Federal Government, which means that nothing else could be spent—no other money—on things such as national defense, the environment, and education. It would all be going to these three programs, assuming you maintain the Federal share of the GDP at its present level.

Things get worse, unfortunately, as the baby boom generation accelerates into the 2030 period, when paying for those programs alone reaches 27, 28 percent of GDP by about 2040. Obviously, it is not a sustainable situation. Obviously, it is a situation where if we continue on this path, we would essentially be saying to our children that we are going to subject you to a cost that

far exceeds anything you could afford and basically hit you with a tax burden that would essentially mean that you—our children and grandchildren—in order to support this retired generation, would be unable to send your children to college, buy your home, purchase your cars, live your lifestyle in the manner our generation has been able to live. The money is going to have to be spent by taking taxes out of your pocket.

A lot of us have been talking about and some people have even tried to address this issue—specifically, the administration. The biggest part of this problem is not Social Security, ironically; it is Medicare. Now, the Medicare trustees yesterday made the point once again that if we don't do something and start to do it fairly soon in addressing the Medicare problem, we will bankrupt our children and our children's children's future with the cost of this program. This was their obligation as trustees. They are supposed to look at it objectively, and they have. They said this program is headed toward about \$35 trillion of unfunded liability, that that is a huge number and we need to correct that. Ironically, and fortunately, a couple of years ago we put into place a law that requires that when the Medicare Program starts to go in the direction of insolvency at a rate that means it is going to take a significant amount of money from the general taxpayers' pockets versus money from the wage earner, as they pay their hospital insurance, that at that point the Federal Government is supposed to act.

The way it works is this: If more than 45 percent of the Medicare trust fund is being supported by general fund dollars, what does that mean? Well, the Medicare trust fund theoretically was supposed to be the Parts A and B, the hospital and doctor part; that was supposed to be supported primarily by insurance premiums being paid on your hospital insurance tax taken out of your salary every week. But, of course, under the Part B program, we have never done that. We have ended up subsidizing that program with general funds instead of having it come out of the payroll tax. What this law says is when those general fund subsidies exceed 45 percent of the total cost of the Medicare system, it is an excessively dangerous situation and it has to be addressed. If this happens 2 years in a row, where the cost of Medicare is exceeding 45 percent of the general funds coming from the Federal Treasury, that means people's income taxes, the taxes people pay every day—then at that point the administration is supposed to send up whatever administration is in power—a proposal to correct the problem.

That is what the Medicare trustees concluded. Last year, they concluded the trust funds were in severe strain

and we are going to hit the 45-percent level. This year, they have concluded the trust funds are under severe strain, and it is going to hit the 45-percent level. The practical effect of that is now the administration is required, prior to the next budget, to send up a proposal to correct the problem. Unfortunately, under the law, even though the administration is required to send up such a proposal, the Congress is not required to act on it.

Ironically, the administration, in an act of true fiscal responsibility to our children and our children's children, this year sent up a proposal to try to correct this problem, or at least begin to correct the problem, although not fully. They suggested this year that there should be two adjustments in the Medicare trust fund, neither of which would have a significant impact on beneficiaries. In fact, for the most part, it would have absolutely no impact on the beneficiaries, and unless you were a beneficiary in a very high-income situation, with more than \$85,000 of personal income, or if you are married and have more than \$160,000 of joint income, it would not affect you at all. There are two proposals that insulate beneficiaries. The first proposal was that we do an accurate reimbursement to providers. Under the present law, the health care professionals have estimated that provider groups are getting about a 1.2 percent extra payment over what they should be getting as a result of the fact that there have been new efficiencies introduced into the provider repayment systems, through technology primarily, that have reduced costs, but that reduction in cost has not been reflected in the reimbursement. So we are actually paying more than we should be paying in these accounts.

The administration didn't suggest that they capture all that money. They suggested let's take half of that—leave the provider groups with half of that money—I don't want to use the word windfall, but as a bonus to them. Let's take the other half and use it to try to bring the Medicare trust fund into some sort of solvency. That was the first proposal of the administration. It was a reasoned proposal in light of the fact that all of the professional groups have concluded that this overpayment is occurring.

The second proposal they made was that people getting Part D, the drug benefit—if they are very high-income individuals—should pay part of the premium for that drug benefit. Under the Part D premium, there was no contribution required, unlike Part B, which has a means test—very limited, but it has one. Part D did not. The administration said, listen, if you are a retired Senator, you should not be subsidized by somebody who is working in a restaurant, or in a gas station, or on a manufacturing line, which is what

happens today. The way the law works today, a person who is out there working for a living, maybe trying to raise their children, is actually having to pay to subsidize retired Senators who are getting Medicare or, for that matter—I don't want to pick on Bill Gates' father as an example, but Bill Gates' father, or Warren Buffet—millionaires and billionaires—are being subsidized by people who are making an everyday wage and trying to make ends meet for their families. So the administration suggested if you have more than \$80,000 of personal income as an individual, or \$160,000 of joint income as a family, then you should be required to pay a portion—just a portion—of your Part D premium. That is a very reasonable approach.

Those two proposals together would have reduced the outyear insolvency of the Medicare trust fund by almost a third. It would have taken tremendous pressure off of the trust funds, especially the Medicare trust fund. They were both rejected out of hand by the other side of the aisle. They were demagogued. People came to the floor and said this would savage Medicare, would destroy Medicare, that it was going to undermine the rights of senior citizens to get Medicare. Outrageous statements were made on the other side of the aisle, and they continue to be made relative to these proposals that were reasonably benign, that didn't affect beneficiaries, and would have actually put Medicare on a solvency footing instead of insolvency, which is where it is headed now.

Now the trustees have done their job and said, the administration is absolutely right. If we don't correct this problem, we are going to have a Medicare system that cannot be afforded by our children and grandchildren. As a result, we will have a major contraction in the system. Yet even though the Medicare trustees have said that—and they are a pretty objective group and they are required under the law to be so—we have the leading Senator on the other side, Senator SCHUMER, taking the position that that is just politics, that Medicare is fine, and instead of peddling an ill-conceived Social Security privatization plan that has already been overwhelmingly rejected by the American people, the administration should turn its attention to strengthening Medicare.

Where was Senator SCHUMER when this amendment was offered on the floor? He voted against it. When the administration suggested something that was responsible, such as making high-income individuals pay a part of their premium on Part D, Senator SCHUMER rejected it. When this administration came forward and suggested we should reimburse providers honestly and directly and fairly but not overly reimburse them—not too much overly reimburse them—and take the savings

and use it to make the Medicare system more solvent, where were Senator SCHUMER and his colleagues? They rejected that.

Now they have the audacity to come forward and attack the Medicare trustees, whose job it is to present the facts as they are, and the facts are the Medicare system is going into bankruptcy, and him saying that is politics and trying to hyperbolize it into privatization, which has nothing to do with Medicare—how outrageous and irresponsible for one generation not to face up to the problems it is giving the other generation. Senator SCHUMER is a baby boomer, as I am. It is our problem we are passing on to our kids. We are the problem. We exist and we are going to retire in massive numbers, and then we are going to turn the bill over to our children. We have a responsibility as a generation but, more importantly, we have a responsibility as policymakers in the Senate to act, especially when the Medicare trustees have told us the problem is there, it is legitimate, and it is pretty obvious to anybody because we are all alive.

We have a bill, a law on the books, that says specifically this problem must be addressed when the Medicare trustees, 2 years in a row, have determined there is a problem, that 45 percent of the General Treasury or more is being used to support Medicare, and we need to adjust the system to effectively address that issue and to make the system solvent and affordable for our children. And especially we should act when reasonable proposals are brought to the floor, proposals that have no maliciousness to them, have no political agenda to them, have no purpose other than putting in place policies which are going to make the system more solvent and more affordable. Yet they are rejected—rejected with partisan rhetoric of the worst order because it has nothing to do with the Medicare plan; privatization is thrown at the suggestion that we correct the Medicare system by making rich people pay more of their costs by getting the reimbursement formula correct. That is subject to pejorative privatization by the Senator from New York, with no proposals at all—none—from the other side of the aisle to correct this problem which is looming. Other than fighting terrorism and the threat of an Islamic fundamentalist detonating a weapon of mass destruction in one of our cities or somewhere in America, there is probably no problem which is more significant to the future of this Nation than the pending fiscal meltdown which we are going to confront as a result of the cost of these programs which we put on the books and which, in their present process, cannot be afforded.

If we just wait until we arrive at the cliff—and we will be going pretty fast when we reach that cliff; we are not

going to be able to stop—and only try to deal with it then, what will be our options? They will be so few and they will be so painful that they will have a dramatic and dislocating effect not only on the generation that has to pay the costs but on the generation that receives these benefits.

We can, today, put in place changes which are gradual, which are reasoned, and which will accomplish the type of adjustments that are necessary to make this program work—work well for the beneficiaries so we have a strong, solvent Medicare system and work well for those who pay the taxes to support them. But if every time the issue is raised that there has to be legitimate action in this area, especially when it is being raised by the Medicare trustees, who do not have a political agenda but are simply reporting a factual assessment of an actuarially existing fact pattern—which is there are so many people alive today who are baby boomers that when they retire, they are just going to basically overwhelm the system—if every time those red flags are raised, they are going to be responded to by the leadership on the other side with pejoratives and partisanship and the use of phrases such as “privatization,” then we are not going to accomplish anything around here. All we are going to see is that we can deal with the next election but we can't deal with the next generation. You might win the next election, which I guess is the purpose of Senator SCHUMER, but it is going to leave our kids one heck of a mess, and seniors who retire in the 2020 period are going to also be in a pretty horrific way. Total irresponsibility in the remarks of the Senator from New York in response to the very responsible warnings brought forth by the Medicare trustees.

On a second issue to which I wish to speak briefly—actually, not so briefly—which is the issue before us, the competitiveness bill, this competitiveness bill is well-intentioned. We all know that we as a nation are confronting some very severe issues relative to our capacity as a culture to compete in this world and be successful. We also know that the essence of our capacity to compete is tied directly to our capacity to produce an intelligent, thoughtful, knowledge-based society. We are, without question, a country where success in the global competition is not going to be built off of excessive manpower or a dramatic amount of resources. It is going to be built off of having brighter and smarter people who add value to products and produce items that people around the world need and want, and they are inventive and creative. The great genius of America is our creativeness and our inventiveness. So the goal of this proposal is appropriate, genuine, and well-intentioned, but the question becomes whether the execution of that goal, on balance, accomplishes its purpose.

The Congress has this tendency—and I have seen it innumerable times—when it sees a problem, to create a plethora of different little programs, most of them not too big, all across the spectrum, which are basically the ideas of a bunch of different people who came to the table, but because there wasn't one cohesive idea that was dominant, everybody's idea got into play. I guess that is the problem when you have the committee designing the horse. That famous story—if a committee designs a horse, you end up with something that doesn't look like a horse. That is what happens when you have a proposal which puts a large chunk of money on the table and then says: Here, let's spend it. That, unfortunately, is where this proposal ends up to a large degree.

Ironically, this proposal has a lot of specific initiatives in it which we already tried before or which are duplicative programs we have tried before, the irony being pretty apparent in items such as the Manufacturing Extension Program, which, during the first few years of this administration, it sent up proposals to basically zero it out. That is a program the purpose of which was to create these manufacturing extension centers around the country, which we did—they are called the Hollings centers—but we also understood they would be self-sustaining centers once the Federal Government got them up and running. We now find they are not, so this bill essentially continues them. Also, it basically restarts something called the ATP program. It gives it a new name and title. It creates a brandnew series of education initiatives in the Department of Energy which are pretty much duplicative of initiatives in the Department of Education, and some education initiatives in the National Science Foundation. It creates new directives to the NOAA which are almost identical to what NOAA already does but in addition are completely duplicative of what the Oceans Commission concluded should be done and which was put into action about 2 or 3 years ago as a result of the Oceans Commission.

As well-intentioned as this bill may be, in the end what it does is it increases spending by \$16 billion. That is the proposal: \$16 billion over 4 years. What it buys is a whole lot of little initiatives all over the country which are the interests of this Senator or that Senator but which in their totality have very little cohesion to them, direction to them, or purpose to them and, as a practical matter, are not paid for.

Here is the situation we confront. It is not as acute as the issue I was talking about before in the Social Security entitlement accounts, but the situation is this: We are spending a lot of money we don't have. In the non-defense discretionary accounts, we have been fairly disciplined over the

last few years, but we are still spending a lot of money we don't have.

What this proposal says is, even though we are spending a lot of money we don't have, we are going to spend more money we don't have because these are feel-good initiatives, and if we just sprinkle a little crumbs all over the place, we can put out good press releases and feel content that we have addressed the competitiveness question in this country.

The competitiveness question in this country is not going to be dramatically improved by spending \$16 billion we don't have and then sending the bill to our kids. If we want to improve competitiveness in this country, we should be doing fairly substantive things that will impact a lot of different areas and won't necessarily cost us too much money.

We might start, for example, with tort reform, where we see a massive amount of money spent inefficiently in this culture because we have to fear lawsuits that are, quite honestly, in many instances frivolous and that end up causing people to do defensive activities. Correct the tort system, and that would create a fair amount of efficiency and productivity in this economy.

Correct the regulatory morass we have. The fact is that to can get an efficient powerplant on line—which we need a lot of in this country if we are going to have an efficient economy—it literally takes years and years of regulatory hoops to jump through, many of which are duplicative, before you can get a decent powerplant up and running. When was the last time a nuclear powerplant was brought on line in this country? Well, I think it was 1988. Nuclear power is by far the most efficient way and the most environmentally sound way to bring large amounts of power online. Yet we can't license nuclear powerplants. Senator DOMENICI, in a recent bill he produced in this Senate, which didn't pass the Congress, has tried to streamline the effort. Hopefully, it will result in more powerplants coming on line.

The simple fact is that we regulate ourselves into noncompetitiveness. So if we want to correct the issue of competitiveness, let's address some of these regulatory issues. They don't have to be broad. It doesn't have to be a broad exercise. It can be reasonably narrow.

In the area of immigration policy, we know there are very bright, capable people around this world who want to come to America and be productive. As Bill Gates described them in testimony before the HELP Committee, he looks at them as job-setters. When he brings one of these really bright people from someplace else in the world and puts them to work at Microsoft, the way he sees that is that person is generating jobs. It is the opposite of outsourcing;

it is insourcing. If you bring somebody in with special talents and abilities, especially in the science and mathematics areas, that person becomes a job center around which other jobs are created because of their creativity and their abilities.

And what do we do to those folks? We tell them they can't come to the United States even though they want to, even though they have jobs here. We say: I am sorry, we can only have 65,000 people with that talent in this country. That is it—even though there may be 150,000 or 200,000 who would like to come to this country and all of whom could come into this country from the standpoint of being safe, sound, good contributing citizens and all of whom, if they were here, would probably be giving us economic added ability which would create jobs. It doesn't cost us any money to bring these people in. In fact, it gives us more economic activity, which gives us more jobs, probably more tax dollars from these people, generating more taxes to the Federal Treasury. That is something we can address if you want to improve the productivity of this Nation.

The idea that the Federal Government is going to sprinkle \$16 billion around to various programs—and it is sprinkled all over, a lot of programs here, many of which either existed before or are being recreated—and it is going to result in significantly more competitiveness—well, it might work, but the only way you could justify it is if you paid for it by reducing \$16 billion somewhere else in inefficiencies before you move down this road. The irony of this is we have done it so many times before, and it hasn't worked because the Federal Government can't command and control the economy. That is why it doesn't work.

I was Governor when President Bush 1, who was very concerned about education and wanted to be known as the education President, called a conference of Governors together—the first time it happened since Lincoln—I believe in Charlottesville, VA. The purpose of the conference was to figure out how we as a nation were going to capture and reform the education agenda. This was in 1989. I was Governor at the time. Do you know what the first conclusion of that Governors conference was? I think we came up with 10 directives. The first conclusion was that we would lead the world in math-science education in the elementary and secondary school systems by the year 2000 because at that time we were 14 out of 16 countries of the industrialized world.

I heard Senator KENNEDY a while ago doing his presentation on this issue on the Senate floor, and he put up a chart. I think he said we were 24th out of 24 industrialized countries. We actually lost ground if that is true. I don't know what the number is, but we are certainly not at the top. Yet throughout

this period we have created program after program after program.

There is an initiative in here for the National Science Foundation to re-energize its directorate on education. I was here the last time we did that. I was in the House. It is a good idea, especially if you have the funds to pay for it. But the fact is, it is a sprinkling effort. The marketplace, in creating an atmosphere where there is competition, is the way you make yourself more competitive. Spreading money over a whole plethora of new programs might produce some results, but unless you pay for it, in the end it is going to end up costing us significantly. It is going to end up costing the next generation significantly. So as well-intentioned as this proposal may be, I have serious reservations about its effectiveness.

I would probably be willing to support it if it were paid for, but it isn't paid for, and it is just going to add \$16 billion to the debt. Now, we will hear from others that this is just an authorized number, but I can assure everyone that all we will hear about once this authorized number is passed is that we need to appropriate the money to meet those needs. So that is a straw dog argument. If you put on the table that you are going to spend \$16 billion more, that you don't have, the odds are the Congress is going to spend \$16 billion once it gets authorized to do so.

At this time I understand we are not taking amendments, but if we were in the process of taking amendments, I would offer an amendment to do something substantive in the area of competition and making our country more viable, and that would be to lift the cap on the H1B visa program from 65,000 to 150,000. A very simple action. It would bring in a large group of people who would be constructive citizens with science and technology backgrounds that we need.

We would not be replacing people who are in jobs, but we would actually be creating more jobs—probably a lot more jobs in the arenas in which they work—and that would actually have an immediate impact on competitiveness in this country. We wouldn't have to wait another 10 years to have another conference by another Presidency or another Congress that says we are not caught up in the competitiveness area and therefore we have to address math and science education. We would actually have the people here next year who would have the math and science skills and who would be able to contribute constructively.

So that would be the amendment I would offer, and I certainly hope to have the opportunity to offer that amendment before this bill leaves the floor.

Mr. President, I yield the floor.

Mr. DOMENICI. Mr. President, I understand my junior colleague has a request before I proceed.

Mr. BINGAMAN. Mr. President, I ask unanimous consent that Senator DOMENICI be recognized for up to 15 minutes, that Senator SANDERS would follow him for up to 20 minutes, and that Senator ENSIGN would follow him for up to 15 minutes.

The ACTING PRESIDENT pro tempore. Is there objection? The Chair hears none, and it is so ordered.

Senator DOMENICI.

Mr. DOMENICI. I thank Senator BINGAMAN.

Mr. President, I am not sure I will take the whole 15, although I have been speaking on this issue for a long enough time that one would think I might have spoken out, but I haven't. I am very excited about the bill, and so I am afraid I will use every 1 of the 15 minutes because there is a lot I want to say.

First of all, let me say that I have the greatest respect for those who oppose this bill, such as the distinguished Senator from New Hampshire, chairman of the Budget Committee in the past, who has spoken eloquently about the problems of Social Security and spoken his piece today about this bill.

On the other hand, for myself, I want to say that the time has come for a new bill to get passed, and I want it to be bipartisan and I want Republicans to join Democrats on the bill that I believe we will look back on and say it was the biggest, most significant, most important piece of legislation that we have ever passed, that added to the brain power of the American people, and particularly added to the brain power of the young people coming along who are going to try to keep us the most productive Nation on Earth by getting educated properly.

We are trying to pass this bill after having been told by the best of Americans who took a look at our country, who looked at our laws, and then recommended that we do 20 things. They were all recommendations aimed at the proposal that we were going backward; that we were in reverse gear as far as giving our young people the education they deserve in the areas of math, science, physics, engineering, and the like.

We were advised by the very best Americans. They did this as a gratuity. They weren't paid. They used their time to tell us what was going wrong and what could be fixed in terms of brain power development among our people. They said, essentially, our biggest problem is, after grade 4 and through grade 12 our young people are not getting educated in math, science, physics, and the like by teachers who are educators in those subjects; that huge percentages of the teachers don't even know the subject matter. Yet they are required to teach because they do not have anybody else. So they teach math even if they haven't studied math. They told us we should fix that. This bill will fix that, we hope.

They told us a number of other things. They said put them into law and try to get these things passed, and over the next 5 to 10 years you will see a big difference. The National Science Foundation should receive much more money for the hard science research projects; that the budget of the Department of Energy, which has a science fund, should get more money for the science that it does in the great laboratories of the United States; and to help bring up the education for those youngsters we are talking about by giving them exciting opportunities in the summer months and elsewhere, and give the teachers those times to get educated so they can pass on much more brain power and excitement about these subjects to our young people.

Now, there is no doubt what is in this bill could be done better if one person, or two, who were knowledgeable and fair were doing it and following the recommendations of those who told us to do so. But we can't do that here. We have to go to committees eventually and ask Senators who have vested interests. So we don't have a perfectly drawn bill in comparison to the 20 ideas propounded by the National Academy and the special bill that was produced by the ex-president of Lockheed Martin, Norm Augustine. Now, that part is so. It is true it is a good bill in that regard. So we have to argue about some other points that come in, such as we should not pass any new legislation so long as we have a deficit.

One Senator, a Senator from Oklahoma, has an amendment. I have great respect for him. He says it is the sense of the Senate that the Congress has a moral obligation to offset the cost of new government programs and initiatives. First of all, let me suggest to the distinguished Senator that this bill does not spend money. If it spent money, it would be subject to a point of order under the budget and would fall because it is new spending. Nobody has raised that. Even the great, distinguished, former chairman of the Budget Committee has not done that. He did not stand up and say this bill falls under the Budget Act because it spends money. Why didn't he? Because it doesn't spend money.

There still has to be another act before this spends money. It has to be appropriated. And any authorization bill is the same way. It does not spend money. It does not need approval of the Budget Committee because it doesn't spend money. However, when we try to spend the money, then we better have it in the budget or it will fall under a point of order. That is the truth, and there is nothing moral or immoral about it.

The truth is, when the Senator says we have to offset the cost of government programs and initiatives, and that we have an obligation to our citizens to do so, certainly he ought to recognize we shouldn't have to do it when

there is no money being spent because if that is the case, then we are just talking about words. They have no effect. We are talking about words. These words are talking about programs that don't spend money, and the Senator is trying to suggest that since they might spend the money, we ought to do something about it in advance. We would never pass anything around here if we added another requirement to legislation that before it is ever a spending bill it once again clear some new hurdle.

If the distinguished Senator from Oklahoma would like to do that, he ought to go after the Budget Act of the United States and provide that there is a way to raise a point of order against authorizing legislation. We already have enough, but if he wants to do more, more budget points of order, he could put that in there and have a nice debate and see what the Senate thinks of adding that provision to the Budget Act on an authorization.

My good friend, the Senator from New Hampshire, talked about a lot of things that we could be doing that would help our country become a more competitive country, which is what this is all about: putting more brain power in our young people, helping them get more excited about the good things that prepare them innovatively in order to create great things. He spoke of a number of things he would do and could do outside this bill. I agree with him. In fact, I could rewrite a bill we just finished on energy. And if everybody were with me, I could add five or six things to it—even though it is only a year and a half old—that would help with our energy independence. But we have to do things we are asked to do around here, and we have to do them the best we can.

This bill will cost \$60 billion, if we decide to spend it, over the next 4 years—if we decide to spend it. Of that, \$16 billion represents new programs that are not currently in existence. Now, if anybody can truly, with a really straight face, tell the American people that is what is going to break America—this \$16 billion that isn't even spent, that we might spend—it is really going to harm America's economic future, then I don't know what to tell them about what is happening to our budget naturally, about how much is spent for Social Security and other things that just come as a natural matter because of the way the laws are written and that they spend freely on their own.

I want to close by saying to those who oppose the bill, I believe the time has come to pass this bill. It is new, to some extent, and the newness is what is good about it. I believe the time has come to take a chance on some new ways to educate our young people and see if we can't get more brain power developing in the young people of our country.

Mr. President, I yield the floor, and I thank the Chair.

The ACTING PRESIDENT pro tempore. The Senator from Vermont.

AMENDMENT NO. 936

Mr. SANDERS. Mr. President, I wish to discuss an amendment, amendment No. 936, which I have filed to this bill.

Mr. President, I ask unanimous consent to add the following Senators as cosponsors of this amendment: Senator BAUCUS, Senator LEAHY, and Senator LINCOLN.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. SANDERS. Mr. President, let me begin by commending the distinguished majority leader, Senator REID, for introducing S. 761, the America COMPETES Act, and bringing it to the floor, along with the minority leader, Senator MCCONNELL, Senator BINGAMAN, Senator DOMENICI, and a number of other Senators in a true spirit of bipartisanship.

There is no question the Congress has to do a better job in making sure the United States is able to compete in the global economy. The America COMPETES Act will begin to accomplish this important undertaking by doubling the investment in basic research at the National Science Foundation, the National Institute of Standards and Technology, and the Department of Energy's Office of Science in the next 5 to 10 years.

I am also pleased this bill will improve teacher training in math and science and help low-income students succeed in college preparatory courses. I applaud these provisions and thank my colleagues for working on this important piece of legislation.

But in my opinion, if we truly want to provide the tools necessary for American workers to compete in the global economy, much more needs to be done. That is why I will be offering this amendment, which I hope will attract bipartisan support.

This amendment is simple and it is straightforward. At a time when the United States has lost over 3 million manufacturing jobs, at a time when we are on the cusp of losing millions more of high-paying information technology jobs, this amendment would begin to reverse that trend by providing employees with the resources they need to own their own businesses through employee stock ownership plans and eligible worker-owned cooperatives.

Specifically, this amendment would authorize \$100 million to create a U.S. employee ownership competitiveness fund within the Department of Commerce to provide loans, loan guarantees, technical assistance, and grants to expand employee ownership throughout this country.

Why is it so important for the Senate to provide incentives to expand employee ownership in this country? The

answer is pretty simple: Employee ownership is one of the keys to creating a sustainable economy with jobs that pay a living wage. This amendment has the strong support of the ESOP Association, a nonprofit organization serving approximately 2,500 employee stock ownership plans throughout the country. Let me quote from a letter they recently sent to my office:

Your amendment is a modest first step in awakening our government to the fact that in the 21st Century the inclusion of employees as owners of the companies where they work in a meaningful manner should be a key component of any national competitiveness program. If the Senate adopts your amendment and it eventually becomes law, we assure you that the ESOP community will work constructively to ensure that the loan and grant program you propose works effectively to benefit the employee owners, the employee-owned companies, and our American economy.

The concept of an ESOP or a worker-owned company is not a radical idea. Not only are there some 11,000 ESOPs in our country, but there are some major corporations that everybody is very familiar with, including Procter & Gamble and Anheuser-Busch, that are also ESOPs.

Interestingly, the Tribune Company, one of the major publishers in America, is in the process of becoming a 60-percent employee-owned company.

Every day we read in the papers about plants that are being moved to China, Mexico, and a number of other low-wage countries. Since a number of these factories were making profits, they were doing well in the United States. Shutting them down was unnecessary and could have been avoided if these plants were sold to their employees through ESOPs, or worker-owned cooperatives. In other words, in my State, the State of Vermont, and throughout this country, there are companies, large and small, that are making a profit where owners—who may be retiring, who started a company and now they are retiring—want to be able to leave their companies to their employees if these workers had the resources, if they had the technical assistance and legal advice to know how to put together that transaction—which in many cases is pretty complicated.

Further, study after study has shown when employees own their own companies, when they work for themselves, when they are involved in the decision-making that impacts their jobs, workers become more motivated, absenteeism goes down, worker productivity goes up, and people stay on the job for a longer period of time because they are proud of and involved with what they are doing.

Most important to the communities throughout this country is when workers own the place in which they work, shock of all shocks, they are not going to shut it down and move the plant to China.

Since 2000, the U.S. manufacturing sector has lost 3.2 million good-paying manufacturing jobs. Put another way, since President Bush was elected President, this country has seen one out of every six factory jobs disappear—one out of every six.

In addition, the Associated Press recently reported a study by Moody's which found: "16 percent of the nation's 379 metropolitan areas are in recession, reflecting primarily the troubles in manufacturing."

I suspect this problem is even worse in rural areas in my own small State of Vermont. We have lost about 20 percent of our manufacturing jobs in the last 5 years. Let me give an example of some of the jobs we have been losing as a country and why, in fact, we need to be competitive and why, in fact, we need to encourage ESOPs and worker-owned industry. From 2001 to 2006, the United States of America has experienced a loss of 42 percent of our communication equipment jobs, 37 percent of our jobs have been lost in the manufacture of semiconductors and electronic components, 43 percent of our textile jobs have disappeared, and about half of our apparel jobs have vanished.

Not only are we losing good-paying manufacturing jobs, we are also losing high-paying information technology jobs.

While the loss of manufacturing jobs has been well documented, it may come as a surprise to some that from January of 2001 to January of 2006, the information sector of the American economy lost over 640,000 jobs, or more than 17 percent of its workforce.

The trends there are pretty ominous. Alan Blinder, the former Vice Chairman of the Federal Reserve, has recently concluded that between 30 million to 40 million jobs in the United States are vulnerable to overseas outsourcing over the next 10 to 20 years. While, of course, we have to invest in math and science, of course, we have to educate our students as best we can, we cannot ignore the significant impact globalization is having on our blue-collar factory jobs and on our white-collar information technology jobs.

Today there are some 11,000 employee stock ownership plans, hundreds of worker-owned cooperatives, and thousands of other companies with some form of employee ownership. Many of them are thriving. In fact, employee ownership has been proven to increase employment, increase productivity, increase sales, and increase wages in the United States. Yet despite the important role that worker ownership can play in revitalizing our economy, the Federal Government has failed to commit the resources needed to allow employee ownership to realize its true potential, and that is why this amendment is so important.

While this issue may be new to this bill, I have actually been working on it

for several years. In the House, when I was the ranking member of the Financial Institutions and Consumer Credit Subcommittee, I was able to hold a hearing on this issue nearly 4 years ago and we had some wonderful testimony.

I fear in the next 10 to 20 years, if we do not change course, there will not be a major automobile industry in this country. We must not allow that to happen. We must protect good-paying jobs in this country. I believe employee ownership may be one of the ways we can keep good-paying jobs in America.

Let me conclude by saying in my opinion it would be much more important to provide this assistance to employees who could be creating and retaining jobs right here in the United States by the expansion of employee ownership. This is a very important issue. There is a lot of excitement all over the country about it. Let us protect American jobs. Let us give working people in this country the opportunity to own the places in which they are working. Let us make this country more economically competitive. I very much hope my colleagues will be supporting this amendment when it is offered.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from New Mexico.

AMENDMENT NO. 928

Mr. BINGAMAN. Mr. President, I ask for regular order with respect to the DeMint amendment No. 928.

The ACTING PRESIDENT pro tempore. The amendment is now pending.

AMENDMENT NO. 947 TO AMENDMENT NO. 928

Mr. BINGAMAN. Mr. President, I ask to call up the Dodd-Shelby amendment No. 947. It is a second-degree amendment.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from New Mexico [Mr. BINGAMAN], for Mr. DODD, for himself and Mr. SHELBY, proposes an amendment numbered 947 to amendment No. 928.

Mr. BINGAMAN. I ask unanimous consent the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To express the sense of the Senate with respect to small business growth and capital markets)

In lieu of the matter proposed to be inserted, insert the following:

SEC. ____ . SENSE OF THE SENATE REGARDING SMALL BUSINESS GROWTH AND CAPITAL MARKETS.

(a) FINDINGS.—The Congress finds that—

(1) the United States has the most fair, most transparent, and most efficient capital markets in the world, in part due to its strong securities statutory and regulatory scheme;

(2) it is of paramount importance for the continued growth of our Nation's economy, that our capital markets retain their leading position in the world;

(3) small businesses are vital participants in United States capital markets, and play a critical role in future economic growth and high-wage job creation;

(4) section 404 of the Sarbanes-Oxley Act of 2002, has greatly enhanced the quality of corporate governance and financial reporting for public companies and increased investor confidence;

(5) the Securities and Exchange Commission (in this section referred to as the "Commission") and the Public Company Accounting Oversight Board (in this section referred to as the "PCAOB") have both determined that the current auditing standard implementing section 404 of the Sarbanes-Oxley Act of 2002 has imposed unnecessary and unintended cost burdens on small and mid-sized public companies;

(6) the Commission and PCAOB are now near completion of a 2-year process intended to revise the standard in order to provide more efficient and effective regulation; and

(7) the chairman of the Commission recently has said, with respect to section 404 of the Sarbanes-Oxley Act of 2002, that, "We don't need to change the law, we need to change the way the law is implemented. It is the implementation of the law that has caused the excessive burden, not the law itself. That's an important distinction. I don't believe these important investor protections, which are even now only a few years old, should be opened up for amendment, or that they need to be."

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the Commission and the PCAOB should complete promulgation of the final rules implementing section 404 of the Sarbanes-Oxley Act of 2002 (15 U.S.C. 7262).

Mr. BINGAMAN. Mr. President, I have a unanimous consent request here which I will propound at this point, that sets out a procedure for us to follow this evening.

I ask unanimous consent that at 5:10 p.m. the Senate resume debate with respect to the Dodd-Shelby amendment, No. 947, and the DeMint amendment No. 928, with the time divided 5 minutes each for Senators DODD and SHELBY, and 10 minutes under the control of Senator DEMINT, to be debated concurrently; that no amendments be in order to either amendment and that the Dodd amendment be modified to be a first-degree amendment; that upon the use or yielding back of time, the Senate proceed to vote in relation to the Dodd-Shelby amendment, as modified; that there be 2 minutes between the votes equally divided and controlled between Senators DODD and DEMINT or their designees, to be followed by a vote in relation to the DeMint amendment; that upon the use of that time, the Senate, without further intervening action or debate, vote in relation to the DeMint amendment; that upon disposition of the DeMint amendment, the Senate resume the Coburn amendment No. 917, and that the previous order with respect to the debate time prior to the vote be in order, with the time equally divided and controlled between Senators BINGAMAN and COBURN or their designees; and without further debate the Senate proceed to vote in relation to the Coburn amendment No. 917; that no amendment be in

order to the Coburn amendment; that upon disposition of these amendments it be in order to call up the Sununu amendment No. 938 and the Sanders amendment No. 936, and the Senate then return to the regular order of amendments.

The ACTING PRESIDENT pro tempore. Is there objection?

Mr. ALEXANDER. No objection.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BINGAMAN. Mr. President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Texas is recognized.

Mrs. HUTCHISON. Mr. President, I rise to speak in favor of the America COMPETES Act.

The ACTING PRESIDENT pro tempore. Who yields time?

The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, I did not realize that the time was reserved between now and 5:10. Is it reserved? My impression was that the floor was open for Senators to speak or offer amendments.

The ACTING PRESIDENT pro tempore. Senator ENSIGN was supposed to speak after Senator SANDERS.

Mr. ALEXANDER. Senator ENSIGN will not be here. Senator HUTCHISON and then Senator CORNYN would like to take that time. I ask unanimous consent that Senator HUTCHISON and Senator CORNYN be allowed to take the time between now and 5:10 when the vote begins.

The ACTING PRESIDENT pro tempore. Is there objection?

Mr. BINGAMAN. Mr. President, could we clarify what the request is? I am sorry. I was not able to pay full attention.

Mr. ALEXANDER. I asked that Senator HUTCHISON have 10 minutes, followed by Senator CORNYN for 10 minutes.

Mr. BINGAMAN. Could we modify that request to provide that Senator CORNYN's intention is to offer and then withdraw an amendment?

The ACTING PRESIDENT pro tempore. The Senator from Texas.

Mr. CORNYN. Mr. President, that is my intention.

The ACTING PRESIDENT pro tempore. Is there objection?

Mr. ALEXANDER. Could we ask the intention of the senior Senator from Texas?

Mrs. HUTCHISON. I intend to speak on the bill.

Mr. BINGAMAN. Mr. President, I have no objection to the Senator from Texas being allotted 10 minutes and then the other Senator from Texas, Mr. CORNYN, going ahead with his comments and the offering and withdrawal of an amendment.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Texas is recognized.

Mrs. HUTCHISON. I thank the Chair.

Mr. President, I rise to speak in favor of the America COMPETES Act. I thank the Senator from Tennessee, Mr. ALEXANDER, Senator DOMENICI, Senator BINGAMAN, and Senator CORNYN. I have worked with all of them to try to focus first on what the problems are with regard to higher education and then to look at K-12 education. Certainly, the Senator from Tennessee, having been the Secretary of Education and the Governor of Tennessee, has dealt with education issues and has taken a major lead on trying to reform our education system so that it does meet the needs of the future generation.

Having the National Academy do a study, resulting in the report called "Rising Above the Gathering Storm," was exactly the right thing to do. I would never have thought we could have such a clear message from the National Academy about what we do right, what we do wrong, what is missing, and what we have to improve.

Norm Augustine, former chairman of the board of Lockheed Corporation, was chairman of the committee. It was a distinguished group, including the former president of Texas A&M who is now Secretary of Defense. There were others. I was so pleased to see that they saw the problem.

The problem is that fewer than 30 percent of U.S. fourth- and eighth-grade students performed at a proficient level or higher in mathematics. The United States placed near the bottom 20 percent of nations in advanced mathematics and physics in testing. The United States is 20th among nations in the proportion of its 24-year-olds with degrees in science or engineering. The United States graduates about 70,000 engineers every year. India is matriculating about 250,000, and in China the number is even greater. Within a few years, approximately 90 percent of all scientists and engineers in the world will live in Asia. If we have fewer innovators, we are going to have fewer innovations.

America has staked its economy on being the creators for the world. We have had the innovators. We have had the engineers, the scientists, the researchers. Yet we are now falling back in K-12, and our institutions of higher education are not getting students with the proper prerequisites to go into those course studies. We have to start from the beginning. The bill before us takes those steps. I am proud to be a cosponsor.

There are three areas: research, education, and innovation.

First, research. The bill increases the research investment by doubling the authorized funding levels for the National Science Foundation. It also substantially increases funding in the Department of Energy's Office of Science,

and it brings NASA into the equation, one of our premier research institutions. We are going to increase the emphasis on science in NASA because we already have the infrastructure. We have paid for the infrastructure, but we are shortchanging the science. So that is a part of this bill as well.

The second focus is education, specifically in the fields of science, technology, engineering, math, and critical foreign languages. We offer competitive grants to States to promote better coordination of elementary and secondary education. We want to strengthen the skill of teachers by giving them incentives to major in their course curriculum and then get education certifications in the same college degree but as a secondary part of their degree rather than the primary focus of their degree, because if we have math majors teaching math instead of education majors teaching math, we know the student is going to have a better opportunity to excel. We want to give the people who have already chosen teaching the opportunity to get a higher degree in their course curriculum, go back and get a master's degree and help them with grants to do that, because if they will commit to continuing to teach, then we will have better qualified teachers.

Innovation is the third focus of our bill. Since the beginning of the industrial revolution, America has been the innovator in the world. Economic studies have shown that as much as 85 percent of the measured growth in per capita income has been due to technological change. But these technologies did not appear out of thin air; they were designed and developed by scientists and engineers at innovative companies such as EDS, Dell, Apple, Microsoft, and through Government investment in NASA and the National Science Foundation.

With that in mind, our bill ensures that both NASA and the National Science Foundation are able to expand their strong traditional roles in fostering technological and scientific excellence. We have increased NASA funding to support basic research and foster new innovation, but the NASA budget is being starved with infrastructure requirements. They are not able to do the science that would make the investment in the infrastructure pay off. We have to bring NASA back to its original scientific purpose. We have the Innovative Partnerships Program. We have the NASA Education Program. We are beginning to focus on exactly what we need to do.

This is a bipartisan effort sorely needed in Congress today, something on which we can all agree. America is falling behind. We are falling behind in education. We are falling behind in innovation. We are importing technological jobs that we ought to be creating ourselves with our own American

students, but we don't have enough qualified students graduating from our colleges to fill these technical jobs. We need to upgrade our education system. That is exactly what this bill today is trying to do. We are attempting—both sides of the aisle—to make America better, to reclaim our prowess in education, K-12 as well as higher education, and to make sure we continue to be the innovators of the future as we have been in the past.

I urge my colleagues to support this legislation. Let's work on amendments. Let's get them through, but let's come to a conclusion. I know the President would like to sign a bill that moves our country forward in something as important as education.

I thank the Chair and yield the floor.

The ACTING PRESIDENT pro tempore. The junior Senator from Texas.

AMENDMENT NO. 902

(Purpose: To amend the Immigration and Nationality Act to increase competitiveness in the United States)

Mr. CORNYN. Mr. President, I have an amendment at the desk. I ask unanimous consent to set aside the pending amendment, call up amendment 902, and ask for its immediate consideration.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Texas [Mr. CORNYN] proposes an amendment numbered 902.

Mr. CORNYN. I ask unanimous consent that reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(The text of the amendment is printed in today's RECORD under "Text of Amendments.")

Mr. CORNYN. Mr. President, as I told the distinguished Senator from New Mexico and the distinguished Senator from Tennessee, it is my intention to withdraw this amendment following my remarks. But I believe it is important, when we are talking about America's competitiveness, to talk about people with some of the very most desirable skills and education and how it is that we might attract them to live and work and create jobs here in America.

First, I express my gratitude to both Senator BINGAMAN and Senator ALEXANDER for their leadership on this issue. It is not often enough that we have an opportunity to work on a bipartisan basis on something that is so right and so good and so meritorious as this. It feels good. I think we ought to do it more often.

I do wish to talk about this amendment which is called the Securing Knowledge, Innovation, and Leadership Act amendment, otherwise known as the SKIL bill. This was a component of

the comprehensive immigration reform bill that passed the Senate last year. Of course, that did not go anywhere. We are back again. I assure my colleagues that we will be coming back time and time again until we get this matter voted on.

In the past 2 years, there has been much focus by Congress and the administration on restoring America's competitive edge. While some have viewed the SKIL bill, as it is called, as an immigration issue, I believe it should be considered as a competitiveness issue, not just an immigration one. In fact, the National Academy of Sciences included similar recommendations in its study "Rising Above the Gathering Storm." This very report was the original, the genesis of America COMPETES and several other bills introduced in the 109th Congress. That report recommended to Congress that it should "continue to improve visa processing for international students and scholars to provide less complex procedures and continue to make improvements on such issues as visa categories and duration, travel for scientific meetings, the technology-alert list, reciprocity agreements, and changes in status." The report also recommended that Congress should "institute a new skills-based, preferential immigration option. Doctoral-level education in science and engineering skills would substantially raise an applicant's chances and priority in obtaining U.S. citizenship" under this particular legislation.

The United States has always been blessed by recruiting the best and the brightest from all around the world, whether they be scholars, scientists, or researchers. As we all know, the United States is now engaged, though, in a global competition for these very same scientists, scholars, and researchers.

In this global economy, there are only three ways for us to retain the most brilliant workforce in the world: No. 1, we can grow our own talent, which is the intent of the bill we are debating right now; No. 2, we can continue to recruit the top students from around the world from other nations; or, No. 3, we can watch our companies move their workforce and jobs to other countries in order to find that talented workforce and to remain competitive. I don't know if there are any other choices than those—grow our own talent, import the best talent, or see our jobs go overseas. Those are the choices we have. The countries that can attract and retain the best and the brightest will obviously have an advantage over other countries in this global competition.

As we have heard, the United States does not produce enough engineers. Over half of master's and Ph.D. degrees in the United States go to foreign students each year, foreign students who study in the United States. China grad-

uates four times as many engineers as we do, and within a few years approximately 90 percent of all scientists and engineers in the world will be in Asia.

Foreign students help us fill the gap right now—a gap we are going to try to make up through growing more of our own talent right here through the great provisions of this legislation—but then our immigration policy, as currently constituted, forces these best and brightest students, these foreign students, to return home because there are no high-tech visas.

Our immigration policy has not adapted to the changing international environment or this global competition. Only 65,000 visas are issued each year to this category of the best and the brightest. For the past few years, the cap has been reached before the fiscal year even begins. But this year, on April 1, 2007, there was a loud outcry for immediate relief in our highly skilled immigration policies because that was the day the U.S. Citizenship and Immigration Service announced the 2008 cap for H-1B visas was met. That is right, because the United States has already met the cap for H-1B visas, foreign students graduating from our universities this spring are virtually shut out of the U.S. job market. We hit that cap on the very day the opportunity for filing for those types of visas was presented.

This situation is unprecedented. What it means is employers cannot hire highly educated workers for up to 1 year, until the next allotment of visas becomes available. With global competition, of course, these workers have a lot of other options as to where to go. They can go to England. They can go to France. They can go to India. They can go to China. In short, they can go to our global competitors and work there and take the jobs that could be created here in America with them.

This SKIL bill has important protections for American workers, and I hope my colleagues will listen to this because there is, frankly, a lot of misconception about foreign students and foreign workers coming here and taking American jobs at a lower wage. In fact, high-tech visas generate fees to pay for U.S. worker training programs. Every time an employer sponsors a foreign worker, that employer must contribute to a fund to train U.S. workers. Of course, under our law, they cannot be hired to come in and work at a lower wage than would have to be paid to a comparable U.S. worker. Immigrant professionals actually create jobs here in the United States. The founder of Intel is a prime example. He was an immigrant from Hungary and has created hundreds of thousands of jobs at his company here in America.

So sound policy will start by retaining foreign students who are educated here in the United States, particularly

in the most sought after areas of math, science, and engineering.

We should exempt from the annual visa limit any foreign student who graduates from a U.S. university with a master's degree or a Ph.D. degree in these essential fields. It is simply a matter of economic survival and competition for the United States. Also, insourcing talented workers, as I pointed out, is preferable to outsourcing those jobs and the associated economic activity that goes with it to other countries. We should make it easier for those who do comply with our immigration laws to travel in and out of our country as well. We must also attract the best and brightest who are working in other countries to come here and do their work in the United States so those jobs can stay here.

In the long run, we have to improve our schools and encourage more U.S. students to study engineering and mathematics, and the America COMPETES Act, as it is currently written, does just that. But in the short term, we have to adapt our immigration policy so when those U.S. students are educated in engineering fields, there will be jobs right here in the United States for them to perform. Then we can reap the benefits of the most outstanding college and university education in the world, which students travel from all around the world in order to be able to obtain, and then that they not have to go home after they graduate from college if they are in the essential fields of math, science, and engineering.

If we do not act, America's technology industry, its health care industry, higher education, research institutions, financial services industries will be harmed and our economy will suffer. The intersection of our immigration policy and our country's ability to compete for global talent is critical, and we cannot wait years to address this issue. It is imperative we address it as soon as possible.

AMENDMENT NO. 902, WITHDRAWN

My only regret is we are unable to do so on this bill because it belongs on this bill. But I understand the practical ramifications of continuing to insist upon a vote on this particular amendment at this time. So it is with some regret that I ask unanimous consent to withdraw my amendment but urge my colleagues to continue to work to support H-1B visa reform and see that the SKIL bill, as currently presented as an amendment to this bill, is ultimately enacted into law because, frankly, it is in the best interest of the United States and American jobs right here at home.

The PRESIDING OFFICER (Mr. SALAZAR). Without objection, the amendment from the Senator from Texas is withdrawn.

Mr. CORNYN. I yield the floor.

The PRESIDING OFFICER. The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, within 3 or 4 minutes, we will be moving to amendments as described by the Senator from New Mexico. But before he speaks, let me thank the Senator from Texas both for his leadership on the amendment and for his spirit of cooperation and willingness to withdraw the amendment.

It is my hope that this is not the end of that discussion. I strongly agree with him. Our immigration laws are archaic in this regard. We have 650,000 legal new citizens every year, and we should, in our own interests, allow highly skilled men and women—the brightest people in the world who come here to study, earn these degrees in science, technology, math—to stay here and create jobs instead of going home and creating jobs. We should do that. So he has highlighted that. The Senate adopted that last year. I hope we will have a chance to adopt it again before Memorial Day. I salute the Senator for that, and I hope this is just the beginning of his insistence on this and other types of legislation that would reform our immigration policy.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, let me also commend the Senator from Texas and thank him for his support for the underlying legislation. I do think the substance of what he is trying to get accomplished with regard to the immigration laws of the country—I very much support trying to facilitate allowing people who get an education here to stay here and use those talents and skills and knowledge they have acquired to benefit our country. So we need to work on that. I think the appropriate place to do that is as part of the debate we will do on immigration, which is coming up. The majority leader has indicated he plans to get to that issue in May, so I think, clearly, that is coming up very soon. But I commend the Senator from Texas for his willingness to withdraw his amendment at this time.

The PRESIDING OFFICER. The senior Senator from New Mexico.

Mr. DOMENICI. Mr. President, I am not going to take any time. In fact, I just want to do something I very rarely do, but it seems appropriate based on the arguments I have made this day. So I am going to ask for a parliamentary inquiry of the Chair. My parliamentary inquiry is, would this bill, with any of the amendments that have been adopted so far, be subject to a point of order under the Budget Act of the United States?

The PRESIDING OFFICER. The Chair is not aware of any such points of order against this bill.

Mr. DOMENICI. I thank the Chair.

I yield the floor.

Mr. BINGAMAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BINGAMAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 908, AS MODIFIED

Mr. BINGAMAN. Mr. President, I send a modification to amendment No. 908 to the desk.

The PRESIDING OFFICER. Without objection, the amendment is so modified.

The amendment, as modified, is as follows:

On page 55, lines 21 and 22, strike "engineering)" and insert "engineering and technology)".

On page 56, line 8, after "engineering" insert "and technology".

On page 56, line 24, strike "mathematics and science" and insert "mathematics, science, engineering, and technology".

On page 59, line 6, strike "mathematics and science" and insert "mathematics, science, and, to the extent applicable, technology and engineering".

On page 59, line 15, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 60, line 6, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 60, line 10, before "that" insert "in mathematics, science, and to the extent applicable, technology and engineering".

On page 60, line 24, strike "mathematics and science" and insert "mathematics, science, and to the extent applicable, technology and engineering".

On page 61, lines 8 and 9, strike "mathematics and science" and insert "mathematics, science, and, to the extent applicable, technology and engineering".

On page 62, line 14, strike "mathematics or science" and insert "mathematics, science, technology, or engineering".

On page 65, lines 16 and 17, strike "MATHEMATICS AND SCIENCE" and insert "MATHEMATICS, SCIENCE, TECHNOLOGY, AND ENGINEERING".

On page 65, line 19, strike "MATHEMATICS AND SCIENCE" and insert "MATHEMATICS, SCIENCE, TECHNOLOGY, AND ENGINEERING".

On page 66, lines 8 and 9, strike "Mathematics and Science" and insert "Mathematics, Science, Technology, and Engineering".

On page 67, line 9, strike "Mathematics and Science" and insert "Mathematics, Science, Technology, and Engineering".

On page 67, lines 16 and 17, strike "math and science" and insert "mathematics, science, and technology".

On page 68, lines 21 and 22, strike "mathematics or science (including engineering)" and insert "mathematics, science, or engineering".

On page 69, lines 4 and 5, strike "mathematics or science" and insert "mathematics, science, or technology".

Beginning on page 69, line 25 through page 70, line 1, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 70, lines 10 and 11, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 71, line 7, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 71, line 10, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 71, line 18, strike "mathematics and science" and insert "mathematics, science, and, to the extent applicable, technology and engineering".

On page 72, line 23, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

On page 73, line 14, strike "mathematics and science" and insert "mathematics, science, and to the extent applicable, technology and engineering".

On page 73, lines 18 and 19, strike "mathematics and science" and insert "mathematics, science, and to the extent applicable, technology and engineering".

On page 73, lines 23 and 24, strike "mathematics and science" and insert "mathematics, science, technology, and engineering".

Mr. BINGAMAN. Mr. President, I ask that we proceed to act on this modified amendment at this point. This is the managers' package from the Energy Committee, and it clarifies several points that are of a technical nature. I ask unanimous consent that the amendment, as modified, be agreed to.

The PRESIDING OFFICER. Without objection, the managers' amendment, as modified, is agreed to.

The amendment (No. 908), as modified, was agreed to.

AMENDMENT NO. 940

Mr. BINGAMAN. Mr. President, I also call up amendment No. 940.

The PRESIDING OFFICER. The amendment is pending.

Mr. BINGAMAN. Mr. President, again, this is a managers' package from the HELP Committee. Senator KENNEDY and Senator ENZI are cosponsoring this. I would urge that the Senate agree to this amendment at this time.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 940) was agreed to.

Mr. BINGAMAN. Mr. President, I yield the floor. I know Senator DODD and Senator SHELBY are here ready to speak, and Senator DEMINT as well, with regard to their respective amendments.

AMENDMENTS NOS. 947 AND 928

The PRESIDING OFFICER. Under the previous order, amendment No. 947 is modified to be a first-degree amendment.

Who yields time?

Mr. BINGAMAN. Mr. President, I believe Senator DODD has 5 minutes, Senator SHELBY has 5 minutes, and Senator DEMINT has 10 minutes under the order.

The PRESIDING OFFICER. The Senator is correct.

The Senator from Connecticut is recognized.

Mr. DODD. Mr. President, let me briefly first thank my colleague from Alabama, Senator SHELBY, the former chairman of the Banking Committee,

who will also be offering this amendment for the consideration of our colleagues.

Our markets, I think all of us know, are the most fair and efficient in the world due to many reasons, but in large part to our strong statutory and regulatory schemes in the country. The amendment we are offering recognizes the very significant role of the Sarbanes-Oxley Act of improving and maintaining the integrity of the capital markets of this country, as well as the important role of small businesses in economic growth and job creation. We all remember and understand very well the debate that went on a number of years ago as a result of some of the disasters that occurred in Enron and WorldCom to make sure our public companies would be more accountable and more responsive to the concerns of the shareholders.

The SEC and the PCAOB have determined that the existing implementation of section 404 of the Sarbanes-Oxley legislation has not fully achieved the intent of the statute. Last December, they proposed management guidance and revised auditing standards to more appropriately implement the statute, without having an unintended or inappropriate impact on small businesses.

The amendment I offer with my colleague from Alabama expresses the sense of the Senate that the Securities and Exchange Commission and the Public Company Accounting Oversight Board continue their rulemaking and finalize their ongoing rulemaking process. These two agencies are currently considering about 200 comments and letters from the public commenting on their proposed regulations dealing with section 404. The letters come from a wide variety of interested parties, offering views on the strengths of the proposals and suggestions for those improvements. The capital markets and all businesses, including small businesses, will be better served by a deliberative process of rulemaking conducted by these agencies.

I commend Chris Cox for the fine job he is doing at the SEC. They have responded very well to the concerns about the section 404 requirements, particularly the smaller public companies.

SEC Chairman Cox has recently said: We don't need to change the law.

I am quoting him now, Mr. President.

We need to change the way the law is implemented. It is the implementation of the law that has caused the excessive burden, not the law itself. That is an important distinction.

He goes on to say.

I don't believe these important investor protections, which are even now only a few years old, should be opened up to an amendment, or that they need to be.

I agree with Chris Cox, President Bush's appointee to head up the SEC.

They are doing a very fine job. I think it would be irresponsible for us at this juncture to jump in and basically reduce by 80 percent the number of companies that would have to comply with section 404. Let the SEC do their job. That is what we have asked them to do. They are responsible. They are a responsible agency in charge of looking at this. If and when they come back, and there are those of us here who feel they haven't gone far enough, that those burdens still exist, then I would welcome an opportunity to address that. But it is very premature to jump in at this juncture while the SEC is doing the job we asked them to do, acting responsibly, and performing their public functions under good leadership. It seems to me this is not a moment for us to jump into the middle of this and by a vote of small margins decide we are going to tell these agencies what to do with the professional staffs they have and the commentary process where the public has an opportunity to address and comment on the suggested rule changes that Christopher Cox and his staff at the SEC and the other commissioners are considering at this moment.

So for all of those reasons, we are offering this amendment which offers us an opportunity to express our concerns about where this is headed. Let's send a message that we are watching very carefully, we care about this, but avoid the situation of this body engaging in a regulatory process, which is properly left to the agencies charged with that responsibility. For those reasons I urge the adoption of the Dodd-Shelby amendment.

Mr. President, I ask unanimous consent to add Senator REED of Rhode Island, the chairman of the subcommittee, as a cosponsor of the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DODD. Mr. President, I yield the floor.

Mr. SHELBY. Mr. President, the Sarbanes-Oxley Act of 2002 that we are familiar with has provided real benefits to the capital markets. On the other hand, there is no question that its implementation has been too costly, particularly for small public companies. We know this. This is a given.

That is why I am encouraged that the securities regulators charged with implementing this legislation at the Securities and Exchange Commission and the PCAOB are near the end of a 2-year process to make significant changes that are likely to reduce the unacceptable costs and burdens of section 404 compliance which Senator DODD alluded to.

This body, I believe, ought to give the regulators, the Securities and Exchange Commission, and the Public Company Accounting Oversight Board a chance to fix this problem, because

they have been involved in this for over a year now. It is very complex. Both the SEC and the PCAOB acted last December, just a few months ago, to propose initiatives aimed at reducing the costs associated with section 404 of Sarbanes-Oxley. These actions are the most significant to date and should lower costs on investments while at the same time preserving the benefits of effective internal controls.

In testimony before the Senate Small Business and Entrepreneurship Committee last week, Chairman Cox of the Securities and Exchange Commission stated:

Focusing on the implementation of 404, rather than changing the law, is consistent with the SEC's view that the problems we have seen with 404 to date can be remedied without amending the Sarbanes-Oxley Act.

I am willing to give the SEC a limited opportunity to deliver. Chairman Cox said the Commission's 404 proposal would permit companies to:

Scale and tailor their evaluation procedures to fit their facts and circumstances, and investors will benefit from the use-compliance costs.

The SEC is expected to adopt the measure in the next few weeks.

The PCAOB, the Public Company Accounting Oversight Board's, proposals to repeal auditing standard No. 2 and replace it with a new standard on auditing internal control over financial reporting would provide, according to PCAOB Chairman Mark Olson:

Additional flexibility to promote scalability, avoid unintended consequences, and address other valid concerns.

The PCAOB is currently reviewing the comments submitted in response to its proposal and is expected, along with the SEC, to submit the standard for SEC review and approval next month. Chairman Cox of the SEC, whom we have worked with on the Banking Committee a lot, said the two regulators have worked together to ensure that the new rules are:

Mutually reinforceable and should significantly improve the implementation of section 404, making it more efficient and effective for small and medium-sized businesses.

That is what we all want. We all agree that unnecessary costs imposed by regulations are a real problem for both large and small companies. The regulators have acknowledged this fact and are attempting to address it. On the Banking Committee that Chairman DODD now chairs and which I chaired, we have oversight of that, and we have worked with them and have had hearings to give some relief to small businesses here, and they are in the process of doing it. I am willing to give the SEC and the PCAOB some additional time, but I am not willing to give them unlimited time. We shouldn't do that. Chairman DODD and I intend to monitor closely their progress and hold them accountable should there be any unnecessary delays.

I urge my colleagues this afternoon to support the Dodd-Shelby amendment with the understanding that we intend to follow closely in oversight, working with the regulators, their progress and will take whatever action is necessary to ensure the vitality of our small business community, which is vital and important to America. I urge support of the Dodd-Shelby amendment.

The PRESIDING OFFICER. The Senator from South Carolina is recognized.

Mr. DEMINT. Mr. President, in a few moments the Senate will vote on two amendments related to Sarbanes-Oxley. The first is the Dodd-Shelby amendment, which is a nonbinding resolution that suggests the SEC and the Public Company Accounting Oversight Board move ahead with changing the Sarbanes-Oxley regulations. My amendment, which will come after that, actually changes the law in one small section of Sarbanes-Oxley, which would facilitate that happening.

Despite what has been reported today, my conversation with some of the regulators and some of the observers of the SEC is there is not real clarity as to how far the SEC can go in changing this one section that is problematic in Sarbanes-Oxley. We know from our work with Federal agencies that as long as there is doubt, there is no action. While there has been good intent from the SEC for many years, this bill has been destroying our capital formation in this country for nearly 5 years. Admittedly, Sarbanes-Oxley has done some good things, but I think it is beyond question particularly for small companies, small public companies, that section 404 of Sarbanes-Oxley is doing untold harm in this country today. So the difference here is a non-binding resolution which encourages the SEC to act and an amendment that actually makes that happen.

I am going to support the Dodd-Shelby amendment. While I have some problems with the specific findings, the intent is right. The regulators have a responsibility to continue to look at their regulations to make sure they encourage competition and good enterprise in our country. So I am going to support the amendment. But Congress also has a responsibility to make sure that the laws we pass work, and if they are not interpreted properly by our regulatory agencies, that we go back and make those changes to make it work.

So the "sense of the Senate" maintains the status quo for regulatory agencies to determine how we deal with Sarbanes-Oxley. While I know the chairman and ranking member remain hopeful that something will happen, the same thing was said to me well over a year ago when I talked to Chairman Cox and others that the changes were eminent, but since then in this country we have lost our status as the

No. 1 market exchange. Instead of 9 out of every 10 IPOs being formed in this country with foreign capital, it is completely reversed, where 9 out of 10 are out of this country. Our trade competitors have Sarbanes-Oxley free zones that encourage capital to come that way instead of toward us. We cannot leave the responsibility for this law on the regulatory agencies.

I encourage all of my colleagues to vote for both amendments.

I thank Senator MARTINEZ, Senator CORNYN, and Senator ENSIGN for supporting and cosponsoring my amendment. I also thank Democratic Congressman GREGORY MEEKS from New York for having the courage to introduce this measure in the House.

I also want to inform my colleagues that my amendment today is supported by the Independent Community Bankers of America. It is also being key voted by the Americans for Tax Reform, the Club for Growth, the Americans for Prosperity, and many other people who look at our economy across the country and realize it is time for Congress to act. We have waited for the SEC for 5 years and have seen capital chased from this country. It is time for Congress to take the responsibility for what we did in the first place, and I urge my colleagues to support both amendments.

I yield to my colleague, the Senator from Florida, to speak on behalf of my amendment.

Mr. MARTINEZ. Mr. President, I add a word of encouragement to our colleagues to support both of these good amendments. I agree wholeheartedly with my colleague from South Carolina that it is time we take action. It is time we act.

I have heard untold stories for years now as a candidate for the Senate and as a Senator of the problems that small companies of America are facing over the burdens imposed upon them by section 404, unfair burdens that disproportionately fall on small businesses than they do on large. A recent GAO study requested by our colleague Senator SNOWE found the cost of compliance for small public companies to comply with Sarbanes-Oxley has been disproportionately higher for small businesses than it was for larger companies.

Small businesses are vital to the growth of business in America. They are where most of our jobs are created in this day and time. The fact is for us to idly sit by and hope the regulators will do the right thing, hope they go far enough, isn't good enough for me. I want to act now. I want to make sure we support the amendment by Senators DODD and SHELBY, but I also want to encourage support for our amendment, because ours will take action and will do it now.

What it does is it exempts smaller companies with market capitalization of less than \$700 million, with revenues

of less than \$125 million, and with fewer than 1,500 shareholders from the onerous burdens of section 404.

There are a number of ways to maintain investor protections while lowering the cost of Sarbanes-Oxley compliance, but we should start by exempting small companies from having to comply with section 404 of Sarbanes-Oxley, the section that requires the double audit.

Oftentimes small business cannot even find an accounting firm willing to perform the audit, let alone afford to take a significant percentage of revenue to conduct a duplicate audit. The fact is this is strangling America's business. It is, as Senator DEMINT pointed out, not allowing us to play the role we have traditionally played in the capital market.

Mayor Bloomberg conducted a study in New York about why we were losing our competitive edge vis-a-vis other foreign markets. One of the reasons that was found for that, among several others—but it is a significant reason—was Sarbanes-Oxley compliance.

It is time we act. We passed the law and it was a good thing to do; it has done a lot of good. But aspects of it are now hurting American business and we need to pull those back. That is what the DeMint amendment does. I encourage my colleagues to do that as well.

The PRESIDING OFFICER. The Senator from South Carolina is recognized.

Mr. DEMINT. Mr. President, how much time remains on my side?

The PRESIDING OFFICER. The Senator has 3 minutes 6 seconds.

Mr. DEMINT. Mr. President, parliamentary inquiry: These bills are side-by-sides, correct? This is not a second-degree amendment.

The PRESIDING OFFICER. Both amendments are first-degree amendments.

Mr. DEMINT. My colleagues can vote for both of these amendments. I encourage Members of the Senate, both Republicans and Democrats, to vote for both of them because both are needed. We need the SEC to take its responsibility. But since there is some concern as to how far the SEC can go to correct this problem, my amendment simply changes one aspect of Sarbanes-Oxley that allows small companies—companies with \$125 million in revenue or less, or less than 1,500 shareholders—to voluntarily opt out of the external audit, with notification to their shareholders.

These are certainly not huge corporations. This certainly doesn't gut Sarbanes-Oxley. It does what so many economic experts have encouraged us to do for years, and that is to fix the one small part of Sarbanes-Oxley that costs small businesses in a disproportionate way.

I thank the managers and those who offered the side-by-side, and I encourage my colleagues to vote for both of them.

I yield the floor and reserve the remainder of my time.

Mr. DODD. Mr. President, is all time yielded back?

The PRESIDING OFFICER. The Senator from Connecticut has 38 seconds.

Mr. DODD. Again, Chris Cox, Chairman of the SEC, pointed out he doesn't want the law changed. He wants to be able to work with the Commission and the staff to deal with these issues. The Chairman of the SEC has wide latitude within which to operate here. The statute gives broad discretion. Senator SHELBY and I believe this matter ought to be left at this juncture. The Commission is relegated to do their job. Let them complete their work and make their recommendations. If we are dissatisfied, we can respond.

Mr. SHELBY. Mr. President, do I have any time left?

The PRESIDING OFFICER. The Senator has 34 seconds.

Mr. SHELBY. Mr. President, I have been informed by my staff that the staff of the Securities and Exchange Commission, headed by Christopher Cox, a former Congressman, has reiterated a few minutes ago to our Banking Committee staff that they will be done with this work in a few weeks. This is premature, the amendment offered by the Senator from South Carolina. As I said earlier, I believe we need to let the SEC and PCAOB do their work. I agree with Chairman DODD.

Mr. DODD. Mr. President, I ask for the yeas and nays on the Dodd-Shelby-Reed amendment.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The question is on agreeing to the amendment

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from South Dakota (Mr. JOHNSON) and the Senator from Massachusetts (Mr. KERRY) are necessarily absent.

I further announce that, if present and voting, the Senator from Massachusetts (Mr. KERRY) would vote "yea."

Mr. LOTT. The following Senator is necessarily absent: the Senator from Arizona (Mr. MCCAIN).

The PRESIDING OFFICER. (Mr. MENENDEZ). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 97, nays 0, as follows:

[Rollcall Vote No. 138 Leg.]

---------	-------	--------

The amendment (No. 947), as modified, was agreed to.

AMENDMENT NO. 928

The PRESIDING OFFICER. Under the previous order, there will now be 2 minutes of debate equally divided on amendment No. 928 offered by the Senator from South Carolina, Mr. DEMINT.

Who yields time? The Senator from Connecticut.

Mr. DODD. Mr. President, at an appropriate moment, along with my colleague from Alabama, I will offer a motion to table the DeMint amendment. I do so respectfully of my colleague. We are just about 2 or 3 weeks away from the SEC issuing regulations regarding Sarbanes-Oxley on this 404 issue. It would be inappropriate for us to jump in and draw a conclusion as to what the SEC ought to be doing.

Chris Cox is doing a very good job at the SEC. Staff and Commissioners are doing the job we asked them to do.

To conclude the point here, this is a matter that is being well addressed by the SEC under Chris Cox. They have asked to have the appropriate time, the remaining 2 or 3 weeks, to finish their recommendations. They may very well come to the recommendation that has been offered by our colleague from South Carolina, but we ought to allow them to do their job. That is what they have been asked to do.

We are not a regulatory body. We don't have to agree with them, but we should allow them to complete their work. That is why we are offering this amendment. It is premature for us to jump in before they have completed their task.

Mr. President, I yield to my colleague from Alabama.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. DODD. Mr. President, I ask unanimous consent to have 30 seconds for my colleague from Alabama.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. SHELBY. Mr. President, I agree with Senator DODD. We work on the

Banking Committee with this. The SEC has asked us to hold off. We all want to give relief under Sarbanes-Oxley for small businesses. The SEC, PCAOB are in the process of doing this, and this is probably going to happen in the next couple of weeks.

I don't disagree with what Senator DEMINT is trying to do, but I think it is premature. The timing is not good. But the timing is always good if we work with the SEC on something they know a heck of a lot about. This is a very complex issue.

(At the request of Mr. REID, the following statement was ordered to be printed in the RECORD.)

• Mr. KERRY. Mr. President, the United States has the fairest, most transparent and most efficient financial markets in the world. Our Nation achieved this status by developing a regulatory approach that insures investors around the world have confidence in our markets. We cannot go back to the days of Enron accounting for small businesses.

As chairman of the Senate Committee on Small Business and Entrepreneurship, I oppose the amendment by Senator DEMINT to provide an exemption from Sarbanes-Oxley regulations for small public companies because I believe it is premature, would endanger small business investors and limit access to capital for small public companies in the United States.

Last week, I held a hearing in the committee on the upcoming changes to the Sarbanes-Oxley law and how they will affect small business. In that hearing, no Senator or witness expressed any support for providing a permanent exemption from Sarbanes-Oxley regulations for small public companies. The Securities and Exchange Commission Chairman Christopher Cox has said that he strongly opposes any type of permanent exemption for small public companies from Sarbanes-Oxley regulations.

Here is why. It wasn't too long ago, between the years 1998-2000, that public companies were issuing financial restatements at a rate that was higher than the previous 10 years combined. Too often, public companies were overstating their income to attract investors. As a result, the trust and confidence of the American people in their financial markets was dangerously eroded by the actions of WorldCom, Inc., Enron, Arthur Andersen and others. The shocking malfeasance by these businesses and accounting firms put a strain on the growth of our economy, cost investors billions in assets and hurt the integrity of our financial markets around the world.

By all accounts, the Sarbanes-Oxley Act has brought back accountability to corporate governance, auditing, and financial reporting for public companies. The audit of internal controls over financial reporting has produced signifi-

cant benefits and public company financial reporting has improved. As a result, investor confidence in our capital markets has been restored and our Nation's economic growth continues. Recent published reports show that accounting restatements on large companies' financial reports declined by 20 percent last year. This is important evidence that Sarbanes-Oxley is working.

These improvements, however, have not come without some drawbacks. Too many small public companies who played by the rules are now expected to deal with the time and financial burden required to comply with the Sarbanes-Oxley law. Last year, small businesses with less than \$75 million in assets saw the number of financial restatements increase by 46 percent. This shows that small businesses getting ready to comply with Sarbanes-Oxley are having trouble. But I believe we will all benefit when small businesses eventually comply with Sarbanes Oxley. According to a recent United States Government Accounting Office—GAO—study requested by Senator SNOWE, the cost of compliance and the time needed for small public companies to comply with Sarbanes-Oxley regulations has been disproportionately higher than for large public companies. Firms with assets of \$1 billion or more spend just thirteen cents per \$100 in revenue for audit fees, while small businesses are forced to spend more than a dollar per \$100 in revenue to comply with the same rules.

The response to these problems is not to give a permanent blanket exemption from these regulations to small public companies, instead we need to assist them in making the transition to comply with the Law. That is why the SEC and the Public Company Accounting Oversight Board—PCAOB—are currently considering final rules and guidance on the implementation of Sarbanes-Oxley that will make it easier for small businesses to comply with the law.

In his testimony to the Small Business Committee, Chairman Cox said three quarters of the comment letters regarding the proposed Sarbanes-Oxley rule changes from small business interests supported the efforts to make it easier for small businesses to comply with the law. Specifically, these small businesses believed that the proposed rules would allow managements to tailor their audits and evaluations to the facts and circumstances of their particular companies and focus on their areas that are most important to reliable financial reporting.

Chairman Olson testified at the same hearing that while the PCAOB is committed to making the process cost-effective for small businesses, the oversight program it has in place is reducing the risk of financial reporting failures and renewing confidence in U.S.

security markets. We also heard from Joseph Piche, whose private company Eikos, Inc. operates out of Franklin, MA. Mr. Piche's testimony reflected the sentiments of so many small business owners—that while the burdens of cost make it difficult under the current regulatory structure, entrepreneurs rely on capital markets, and capital markets rely on trust. The Sarbanes-Oxley law has helped to restore this trust.

So the upcoming changes to Sarbanes-Oxley will save small public companies time and money. Unfortunately, before these changes are even finalized, the DeMint amendment would provide a permanent exemption to more than 6,000 small public companies from ever having to comply with Sarbanes-Oxley.

As Mr. Piche and other industry witnesses told the Small Business Committee, small businesses aren't resistant to fair and open financial reporting, because they know that it leads the way to access to capital. Today, small public companies are vital participants in U.S. capital markets and play a critical role in future economic growth and high-wage job creation. Once provided with the necessary regulatory flexibility, I have no doubt that our small public companies will be able to comply with the Sarbanes-Oxley law, just as big businesses are doing today. All small public companies know it is in their best interest to have regulations in place that provide transparency and accountability. These are the qualities that encourage investor confidence in U.S. markets. It gives them access to more investors and increases the pool of available capital while keeping their competitors from manipulating the marketplace through faulty accounting.

As we move forward, there are additional steps that can be taken to assist small business. First, I recently wrote to the SEC and PCAOB with Senator SNOWE, urging the regulators to give small businesses up to an additional year to comply with the pending changes to the Sarbanes-Oxley regulations. I believe this added time will help small businesses adapt to the changing regulatory structure and make it easier for those who lack the expertise or financial resources to comply with the law. The SEC has previously supported providing small public companies with additional time to comply with Sarbanes-Oxley and I hope they will do so again.

The DeMint amendment is an overreaching, premature policy reversal that preempts years of thoughtful regulatory consideration on the part of the SEC and the PCAOB. It represents a blanket exemption that has the potential to take U.S. capital markets a large step backwards to the days of Enron. I urge my colleagues to oppose this amendment and allow the regulators to finish their jobs.

As chair of the Committee on Small Business and Entrepreneurship, I will continue to closely follow the impact of Sarbanes-Oxley on small firms and look forward to working with Senator SNOWE and my colleagues on the committee to determine what necessary steps Congress can take to help small public companies abide by the law while simultaneously allowing them to focus on what they do best—creating jobs and growing our economy by participating in our capital markets. This will help small businesses achieve the American dream of becoming innovative public companies.

We can help our small public companies and encourage additional small businesses to become public companies—while ensuring transparency and honest accounting. This will help ensure that the United States continues to have the fairest, most transparent and most efficient financial markets in the world.●

Mr. DEMINT. Mr. President, I am obviously disappointed the chairman will move to table. We have had a good debate on it. The debate on Sarbanes-Oxley has been going on for almost 5 years, since it was passed. Every time someone expresses a problem, they go right to section 404, and just to small businesses that are being hurt most by this.

I talked with the SEC well over a year ago. I heard exactly the same thing I am hearing today: We are on it. It is going to happen very soon.

Let me suggest this to my colleagues. Let us pass this bill today and send it to conference. That will be a few weeks of work. If the SEC responds, then take it out in conference. The Democrats are in control of the conference. There is no harm done. But let us not continue to allow investment capital to be shipped out of this country without doing anything about it.

The only reason the SEC is even talking about it now is that we introduced this bill with Democrats and Republicans in the House. It is time to act now. Please vote for this bill. Let us move it to conference and shake up the SEC.

Mr. DODD. Mr. President, I move to table the DeMint amendment, and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is on agreeing to the motion.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from South Dakota (Mr. JOHNSON) and the Senator from Massachusetts (Mr. KERRY) are necessarily absent.

I further announce that if present and voting, the Senator from Massachusetts (Mr. KERRY) would vote “yea.”

Mr. LOTT. The following Senator is necessarily absent: the Senator from Arizona (Mr. MCCAIN).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The motion to lay on the table was agreed to.

AMENDMENT NO. 917

The PRESIDING OFFICER. Under the previous order, there will now be 4 minutes of debate on amendment No. 917, offered by the Senator from Oklahoma, Mr. COBURN.

Who yields time? The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, regarding the amendment we are about to vote on, we voted on essentially the same amendment last Wednesday as an amendment to the Court Security Improvement Act. The amendment provides that any new program or initiative that is contained in legislation be offset. The point that defeated the amendment last week is still valid; that is, we should not be required to offset authorizing legislation. This is authorizing legislation. There is no spending in this bill. This does not appropriate funds.

Mr. President, on behalf of myself and my colleague, Senator DOMENICI, I will be moving to table the amendment after he completes his statement.

I yield the remainder of my time to Senator DOMENICI.

The PRESIDING OFFICER. The Senator from New Mexico is recognized.

Mr. DOMENICI. Mr. President, first, might I say to the Senator from Oklahoma, I have watched you in your concern for spending, and I appreciate what you are trying to do to cut spending in the Senate.

But let me say to the Senate, this afternoon I asked the Chair for a point of order. I asked whether this bill would violate the Budget Act. After looking at the bill and coming back, I was advised it does not violate the Budget Act. The reason it does not is because there is no spending in it. If it were spending money, it would be violating the budget because it is not in the budget, and we passed a budget.

Having said that, if we are not spending money, then why should we chastise ourselves about spending money and suggesting that we have to offset something when, as a matter of fact, there is nothing to offset because there is no spending? If we get into this game that authorizing is spending, then we will have a fourth tier of Government. Instead of a budget appropriations and direct spending, we will have people bringing up a new way to attack it on every kind of authorizing bill. I don't think we need that. We need to get on with business every now and then. This is one time.

The PRESIDING OFFICER. The Senator from Oklahoma is recognized.

Mr. COBURN. Mr. President, the reason you ought to vote for this sense of the Senate—it doesn't say anything about authorizing. What it says is, and the American people expect, if we are going to create new programs, we ought to get rid of the programs that are not working. We spend \$84,000 a second. We spent \$350 billion we didn't have last year, and we charged it to the next generation. We have 10 percent of the Department of Energy that is ineffective, we have 10 percent of the Department of Education that is ineffective, and you offset none of the programs as you reauthorize this bill. We doubled up. This says, sense of the Senate, if we are going to spend more money and create new programs, we ought to go after the ones that do not work.

Vote against it at your own peril.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. REID. Mr. President, this is the last vote this evening. I am glad to see the managers are moving this bill along. We are probably going to have a vote in the morning, around 11 o'clock. That will be the first vote.

The PRESIDING OFFICER. The Senator from New Mexico is recognized.

Mr. BINGAMAN. Mr. President, I move to table the Coburn amendment and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The question is on agreeing to the motion. The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from South Dakota (Mr. JOHNSON) and the Senator from Massachusetts (Mr. KERRY) are necessarily absent.

I further announce that, if present and voting, the Senator from Massachusetts (Mr. KERRY) would vote "yea."

Mr. LOTT. The following Senator is necessarily absent: the Senator from Arizona (Mr. MCCAIN).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 54, nays 43, as follows:

NOT VOTING—3

Johnson	Kerry	McCain
---------	-------	--------

The motion was agreed to.

Mr. MENENDEZ. The Senator from Michigan is recognized.

Ms. STABENOW. Mr. President, I thank my friend from New Mexico, who is doing such a wonderful job on the legislation that is in front of us. I wish to compliment everyone who is involved with this legislation for working so hard, including Senator ALEXANDER and Senator BINGAMAN. This is a wonderful bill. So we congratulate them for that.

IRAQ SUPPLEMENTAL

I wish to speak this evening about the supplemental appropriations bill the Senate will vote on later this week. I also wish to rise with great concern and, frankly—I am not sure what the word is; "disappointment" is not strong enough for how I feel about what the Vice President has said today

about our leader, our great leader in the Senate, who has spoken so passionately and cares so deeply about the troops who are serving us overseas, their families who are here at home, who wants to make sure the strategy is right for them.

We all know—and our military experts have told us time and again—that a military victory is not going to happen, that it has to be a political victory, a political strategy of the Iraqis stepping up and taking control and making the tough decisions they need to make to take control of their own security. We have heard that from many experts within the military and without. Yet today the Vice President was here, not far from this Chamber, unleashing his wrath, as only he seems to be able to, about our leader, calling him names and mischaracterizing his positions. That is extremely unfortunate because while the men and women are serving us right now in Iraq, over there doing their best to focus on the mission, they expect us to be at home focusing on the strategy, the resources, and the equipment they need.

I had an opportunity to talk to a young man not long ago who had come home from Iraq. I asked him how he felt about the debate going on about the strategy, the debate we were having in the Senate and the House. He said, frankly, he would expect us to be doing that because that is our job. That is our job. They are doing their job. As my husband, who was in the Air Force and Air National Guard, reminds me continually, their job is to implement the mission. They are doing it. Our job is to get it right, to have the right strategy, and to back them up and give them the resources they need.

The name calling coming from the Vice President is not going to get the job done. What is going to get the job done is our ability to work together and look at the facts, not some stubborn sense of unwillingness to change or to do more of the same which, unfortunately, is what is happening now with this surge. It is more of the same. Instead of doing that, we need to be joining together to say: Let's look at the reality of what is going on on the ground. More and more Americans and Iraqis are being killed every day. Let's look at the reality of what we need to do to be successful, to bring our troops home safely, to address the success we all would like to see happen in terms of a democracy that works, the Iraqi Government being able to step up and to govern their country, which is an incredibly difficult and complicated thing to do, obviously.

I find it very disappointing. I work with our leader, as we all do every day. There is no one who has spent more time thinking and focusing and discussing and listening on these issues around the war than he has—no one who is more thoughtful or more caring,

no one who is more concerned about our veterans coming home.

We welcome, certainly, the Vice President coming and meeting with us and joining in the discussion. But I certainly hope we are not going to see more of what we saw today. It was an effort to attack a great leader and, essentially, instead of moving the ball forward, make it more difficult for us to do what we need to do to come together.

On this particular bill, the supplemental appropriations bill, I certainly hope the President will sign this legislation, will reconsider the position that has been taken and sign this legislation. We are going to be sending a bill to the President that will fund the troops—in fact, it adds dollars to do that—as well as veterans, as well as addressing a number of other critical issues. The question before the President will be, Will he sign this bill? We are not trying to play games. We are sending him an emergency supplemental for the war and for other critical American needs—our communities, our families' needs, just as we do every year in an appropriations bill, in a supplemental. The question is whether the President will step up and do his duty and sign this bill so that those dollars can get to the troops.

This legislation represents the best opportunity for us to change the course in Iraq as well as protect our troops and our veterans and to give them what they need now. Unfortunately, the President has put our troops in the middle of an endless Iraqi civil war. We know this to be true. People in my great State know this is true.

Unfortunately, we find ourselves in a situation where our troops are in an endless civil war. The American people are paying a huge price for this war, most importantly, in lives, not only family members lost but people coming home with permanent disabilities, with head injuries, with mental health problems. There is a huge price being paid by Americans for what is occurring and has been occurring.

We are also paying a huge price in dollars, \$10 billion a month, and then we look at the fact that we could fund a program to cover every child with health care in America for \$10 billion a year. We know while lives are the most important issue, resources for Americans to address our needs at home is also a critical issue.

We also know we are paying a huge price as it relates to our own security interests. The majority of Americans, a bipartisan majority in Congress, military experts, and the Iraq Study Group believe this war cannot be won militarily and that the current path is not sustainable. The supplemental appropriations bill recognizes it is long past time to change course. The American people know that. That is really what last November was about. People want

a change. They know this isn't working. It is not sustainable. They expect us to step up together and make that change.

This bill fully funds our troops. We are passing a bill agreed to by the House and Senate that fully funds our troops and provides a plan to responsibly end the war and bring them home safely. I don't know what more we could ask of the proposal. We are providing the resources and also putting in place a responsible way to provide benchmarks and measurements and bring a responsible end to the war.

Our bill holds the Iraqis accountable for securing their own Nation and forging political reconciliation. We know more of the same—more surges, more efforts that have been tried and tried time after time—is not working. I don't believe they can work. But what can work is holding the Iraqis accountable for securing their own nation and making the tough decisions that one has to make when they want to have a democracy. It is not easy. We know that. They are in a very difficult situation. But it is their country, and they need to step up and make those decisions and bring all parties together and find some way to live together.

Our bill ensures our troops are combat ready before being deployed to Iraq. I can't imagine that there is one individual in the armed services or one mom or dad or brother or sister or son or daughter of a combat troop that would not want us, and doesn't expect us already, to be making sure that our troops are combat ready before being deployed.

It provides them with all the resources needed on the battlefield and when they return. We are very committed and, in fact, I am very proud of the fact that in our budget resolution passed a few weeks ago, for the first time we meet the dollars needed for veterans health care and other critical veterans services identified by the veterans organizations themselves. For the first time ever, we put forth the dollars that are needed when our troops are coming home. A Presidential veto will deny our troops the resources and the strategy they need and send exactly the wrong message to the Iraqi political leaders. We hope the President will join us in giving our troops the resources and strategy they need and deserve. That is what this bill is about.

After more than 4 years of a failed policy, it is time for this Nation to change course and Iraq to take responsibility for its own future.

This is a good bill we will have before us. Overall, it provides more than \$100 billion for the Department of Defense, primarily for continued military operations in Iraq and Afghanistan. It includes a \$1 billion increase for the National Guard and Reserves for equipment desperately needed and \$1.1 bil-

lion for military housing. It provides \$3 billion for the purchase of mine-resistant, ambush-protected vehicles, vehicles designed to withstand roadside bombs. Every day we pick up the paper and see where more lives have been lost, injuries have been sustained as a result of roadside bombs. It contains more than \$5 billion to ensure that returning troops and veterans receive the health care they have earned with their service so that we don't ever have to have another Walter Reed incident.

It has \$6.9 billion for the victims of Hurricanes Katrina and Rita as well. We know when we are doing an emergency supplemental, just as in every other year when our colleagues were in the majority, as well as when we are in the majority, there are a number of emergency needs for the country.

One thing in the supplemental has been funding the troops. We have added funding for our veterans and also understand there are some critical needs at home, critical needs that Americans have. Certainly, we all know the resources and the focus on those families who were hit by the hurricanes have been shamefully slow in going to that region to rebuild American communities, American homes, to support American families. Our bill does that.

It provides emergency funding also for the Children's Health Insurance Program because we have a number of places in the country where the resources are running out, and we want to make sure children can continue to get health care. That is an emergency at home.

Ask any family who is worried about whether their children are going to get sick tonight, say a little prayer: Please God, don't let the kids get sick because what are we going to do. Our bill addresses children's health care emergency funding.

It also includes homeland security investments totaling \$2.25 billion for port security and mass transit security, for explosives detection equipment at airports, and for several initiatives in the 9/11 bill that recently passed the Senate. I am very proud of the fact that our new majority placed a priority on passing the 9/11 Commission recommendations. It was long overdue, but it was a priority for us in the first few weeks of our new majority, and we did it. Now we have the resources that go with that. It is not enough to pass the recommendations. We have to make sure the resources are there to keep us safe at home.

So, yes, this is a supplemental bill to support our troops abroad, to support their efforts while they are in theater in combat, but we also know we have folks on the front lines at home, our police officers and firefighters and others, and security needs here. We address that.

We also know there have been a group of folks waiting for way too long

for some disaster assistance related to agriculture, including my home State of Michigan where apple and cherry growers have been waiting. In this legislation, \$3.5 billion is provided to help relieve the enormous pressure on farmers and ranchers as a result of severe drought and agricultural disasters. Again, this is about helping people at home, putting Americans first when we know there is a disaster. Whether it is Hurricane Katrina or whether it is cherry growers in northern Michigan, our job is to also focus on our people here and their emergency needs.

The conference agreement also includes emergency funding for forest firefighting, low-income home energy assistance, and pandemic flu preparations, which we should all be concerned about—again, critical needs for Americans, American families.

Finally, there are other items in this bill that are good for workers and small business. The bill has an increase in the minimum wage to \$7.25 an hour, giving hard-working Americans a much deserved raise after 10 years—10 years. It provides almost \$5 billion in tax cuts for small businesses as well. We know the majority of jobs come from small business. This supports their efforts as well.

So I would say to President Bush: Sign this bill. Sign this bill. This is a bill which funds our troops, which keeps our commitments to our veterans, and which addresses other American priorities for our communities and our families.

Mr. President, if you do, we will change course in Iraq, give our troops the equipment they need, the health care they deserve, and provide much needed investments here at home in America.

President Bush, if you veto this bill, you are denying funds to the troops in the field and going against the wishes of the majority of the American people.

It is time for the administration to stop saying no to troops and no to the American people. We need the President to say yes to working with us, to support our troops and what they need, which this legislation does, to support the American people, American families, and critical emergency needs here at home, and to put in place a strategy for success—a real strategy for success—by focusing on efforts that empower and send a message to the Iraqi Government to step up. While we are willing to support them, we will not continue to send our brave men and women into the middle of a civil war day after day after day and continually say it is OK, everything is going great. It is not going great.

It is time for a new strategy. We have put forward a strategy in a very responsible way in this legislation, along

with meeting our obligations and responsibilities to our troops, our veterans, their families, and to America as a whole.

I hope when President Bush reads this bill—and I hope he will—I hope he will look at what is in here with an open mind, and agree with us that this is a bill which makes sense for America at home and abroad.

Thank you, Mr. President.

The PRESIDING OFFICER. The Senator from New Mexico.

AMENDMENTS NOS. 938 AND 936 EN BLOC

Mr. BINGAMAN. Mr. President, under the previous order, I call up amendments Nos. 938 and 936.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from New Mexico [Mr. BINGAMAN] proposes en bloc amendments numbered 938 and 936.

The amendments are as follows:

(Purpose: To strike the provisions regarding strengthening the education and human resources directorate of the National Science Foundation)

Strike section 4002.

(Purpose: To increase the competitiveness of American workers through the expansion of employee ownership, and for other purposes)

At the appropriate place, insert the following:

SEC. ____ EMPLOYEE OWNERSHIP EXPANSION.

(a) FINDINGS.—Congress makes the following findings:

(1) Between 2000 and 2006, the United States lost more than 3,000,000 manufacturing jobs.

(2) In 2006, the international trade deficit of the United States was more than \$763,000,000,000, \$232,000,000,000 of which was due to the Nation's trade imbalance with China.

(3) Preserving and increasing jobs in the United States that pay a living wage should be a top priority of Congress.

(4) Providing loan guarantees, direct loans, grants, and technical assistance to employees to buy their own companies will increase the competitiveness of the United States.

(b) UNITED STATES EMPLOYEE OWNERSHIP COMPETITIVENESS FUND.—

(1) ESTABLISHMENT.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Commerce (referred to in this section as the "Secretary") shall establish the United States Employee Ownership Competitiveness Fund (referred to in this section as the "Fund") to foster increased employee ownership of companies and greater employee participation in company decision-making throughout the United States.

(2) ORGANIZATION.—

(A) MANAGEMENT.—The Fund shall be managed by a Director, who shall be appointed by, and serve at the pleasure of, the Secretary.

(B) STAFF.—The Director may select, appoint, employ, and fix the compensation of such employees as shall be necessary to carry out the functions of the Fund.

(3) FUNCTIONS.—Amounts in the Fund established under paragraph (1) may be used to provide—

(A) loans subordinated to the interests of all other creditors, loan guarantees, and technical assistance, on such terms and sub-

ject to such conditions as the Secretary determines to be appropriate, to employees to purchase a business through an employee stock ownership plan or eligible worker-owned cooperative that are at least 51 percent employee owned; and

(B) grants to States and nonprofit and cooperative organizations with experience in developing employee-owned businesses and worker-owned cooperatives to—

(i) provide education and outreach to inform people about the possibilities and benefits of employee ownership of companies, gain sharing, and participation in company decision-making, including some financial education;

(ii) provide technical assistance to assist employee efforts to become business owners;

(iii) provide participation training to teach employees and employers methods of employee participation in company decision-making; and

(iv) conduct objective third party prefeasibility and feasibility studies to determine if employees desiring to start employee stock ownership plans or worker cooperatives could make a profit.

(4) PRECONDITIONS.—Before the Director makes any subordinated loan or loan guarantee from the Fund under paragraph (3)(A), the recipient employees shall submit to the Fund—

(A) a business plan showing that—

(i) at least 51 percent of all interests in the employee stock ownership plan or eligible worker-owned cooperative is owned or controlled by employees;

(ii) the Board of Directors of the employee stock ownership plan or eligible worker-owned cooperative is elected by all of the employees; and

(iii) all employees receive basic information about company progress and have the opportunity to participate in day-to-day operations; and

(B) a feasibility study from an objective third party with a positive determination that the employee stock ownership plan or eligible worker-owned cooperative will be profitable enough to pay any loan, subordinated loan, or loan guarantee that was made possible through the Fund.

(5) INSURANCE OF SUBORDINATED LOANS AND LOAN GUARANTEES.—

(A) IN GENERAL.—The Director shall use amounts in the Fund to insure any subordinated loan or loan guarantee provided under this section against the nonrepayment of the outstanding balance of the loan.

(B) ANNUAL PREMIUMS.—The annual premium for the insurance of each subordinated loan or loan guarantee under this subsection shall be paid by the borrower in such manner and in such amount as the Secretary determines to be appropriate.

(C) PREMIUMS AND GUARANTEE FEES AVAILABLE TO COVER LOSSES.—The premiums paid to the Fund from insurance issued under this paragraph and the fees paid to the Fund for loan guarantees issued under paragraph (2)(A) shall be deposited in an account managed by the Secretary of Commerce and may be used to reimburse the Fund for any losses incurred by the Fund in connection with any such loan or loan guarantee.

(6) TECHNICAL ASSISTANCE IN THE DISCRETION OF THE SECRETARY.—If a grant is made under paragraph (3)(B)(ii), the Secretary may require the Director to—

(A) provide for the targeting of key groups such as retiring business owners, unions, managers, trade associations, and community organizations;

(B) encourage cooperation in organizing workshops and conferences; and

(C) provide for the preparation and distribution of materials concerning employee ownership and participation.

(7) PARTICIPATION TRAINING IN THE DISCRETION OF THE SECRETARY.—If a grant is made under paragraph (3)(B)(iii), the Secretary may require the Director to provide for—

(A) courses on employee participation; and

(B) the development and fostering of networks of employee-owned companies to spread the use of successful participation techniques.

(c) RULEMAKING.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Commerce shall promulgate regulations that ensure—

(1) the safety and soundness of the Fund; and

(2) that the Fund does not compete with commercial financial institutions.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section—

(1) \$100,000,000 for fiscal year 2008; and

(2) such sums as may be necessary for subsequent fiscal years.

Mr. BINGAMAN. Mr. President, I also wish to propound a unanimous consent request. I ask unanimous consent that when the Senate resumes consideration of S. 761 on Wednesday, there be 30 minutes of debate with respect to the Sununu amendment No. 938, with the time equally divided and controlled between Senators Sununu and Kennedy or their designees; that upon the use or yielding back of time, the Senate proceed to vote in relation to the amendment, with no amendment in order to the amendment prior to the vote.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. BINGAMAN. Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. INHOFE. Mr. President, it is my understanding that the Senator from Tennessee wants to make a comment. If the Senator from Ohio would permit me, I have a very short statement to make concerning an amendment. It will not take more than 5 minutes.

Mr. BROWN. Sure.

The PRESIDING OFFICER. The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, I thank the Senator from Oklahoma and the Senator from Ohio for their courtesy.

I simply want to acknowledge the comments of Senator BINGAMAN from New Mexico and say I think our day has been productive and to say our colleagues have been very helpful in bringing their amendments to the floor.

I ask the Senator what he envisions for tomorrow beyond what he already announced.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. BINGAMAN. Mr. President, I thank my colleague for his question and his great work on this legislation.

The plan for tomorrow, as I understand it, is we will go ahead with this

Sununu amendment at around 10:45 and hopefully vote shortly after 11 o'clock on that amendment. We have talked to Senator COBURN from Oklahoma about considering three amendments he still has that he is committed to offering at some time in the 2 o'clock period.

We urge other Senators who have amendments they wish to have votes on to bring those to the floor for consideration after disposing of Senator SUNUNU's amendment shortly after 11 o'clock. Now, obviously, the Senator's amendment is still pending, as we have indicated, and we still have to get agreement as to how to proceed on that. We are working on that at the present time.

But I agree, we have made good progress today. I hope we can complete the remaining amendments tomorrow and proceed to final action on the bill.

The PRESIDING OFFICER. The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, I thank the Senator from New Mexico. The majority leader and the Republican leader would both like us to finish tomorrow, if we can. I think we have a good chance of doing that. Senator INHOFE is staying tonight to talk about an amendment he hopes to bring up tomorrow. I talked with Senator GRASSLEY. The number of amendments that seem to need to be offered seems to be narrowing down. I would say to my colleagues, with the briefing that is scheduled for tomorrow afternoon at 4 o'clock, we are going to do our best to get as many of those as possible in before 4 o'clock so we can finish the bill tomorrow, if possible.

I am going to defer any other remarks I have until after the Senator from Oklahoma and the Senator from Ohio and the Senator from New York have had a chance to speak.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. INHOFE. Mr. President, what the Senator from New Mexico is suggesting is exactly what I have in mind. I have an amendment I will be calling up at an appropriate time that is mutually agreeable. It does affect the taxation end. I have talked to Senator BAUCUS and Senator GRASSLEY. I believe they are going to be favorable toward it.

There are not many one-sentence amendments. That is what this one is. Let me read it to you and tell you why I am offering it. Then I will wait until tomorrow and hopefully get in the mix.

Notwithstanding any other provision of the law; no federal funds shall be provided to any organization or entity that advocates against tax competition or United States tax competitiveness.

Let me just give you an example. After World War II, there was an effort to implement the Marshall Plan. When that was done, in 1961, an organization was formed that was called the Organization for Economic Cooperation and Development. This is an international

organization which advocates tax increases for the United States specifically to make us less competitive. They have stated explicitly that low-tax policies "unfairly erode the tax bases of other countries and distort the location of capital and services."

What we have here is a Paris-based bunch of bureaucrats seeking to protect high-tax welfare states from the free market. That is why the OECD goes on to say that free market tax competition "may hamper the application of progressive tax rates and the achievement of redistributive goals." Clearly, free market tax competition makes it harder to implement socialistic welfare states. The free market, evidently, has not been fair to socialistic welfare states. Well, it is a good thing they have the OECD and nearly \$100 million in U.S. taxpayer money to aid them.

Noted economist Walter Williams clearly sees the direction in which this is headed when he says that "the bottom line agenda for the OECD is to establish a tax cartel where nations get together and collude on taxes."

Treasury Secretary Paul O'Neill seconded that when he said that he was "troubled by the underlying premise that low tax rates are somehow suspect and by the notion that any country . . . should interfere in any other country's" tax policy.

So the Organization for Economic Cooperation and Development has issued a report entitled "Harmful Tax Competition: An Emerging Global Issue," which establishes a new international body, the Forum on Harmful Tax Practices, to implement the measures outlined in the report. The OECD has endorsed and encouraged higher taxes, new taxes, and global taxes no fewer than 24 times. They have advocated a value-added tax, a 40-cent increase in the gas tax, a carbon tax, a fertilizer tax, ending the deductibility of State and local taxes from Federal taxes, and new taxes at the State level.

So I believe this is something we will have a chance to debate, and I would think it actually would be accepted. Again, all it is going to be is just one sentence. It reads:

Notwithstanding any other provision of the law; no federal funds shall be provided to any organization or entity that advocates against tax competition or United States tax competitiveness.

I cannot think of any more appropriate bill to have this on than this bill we have before us currently.

With that, Mr. President, I yield the floor. I thank the Senator from Ohio, who has stepped aside for me.

The PRESIDING OFFICER. The Senator from New York.

Mr. SCHUMER. Mr. President, I also thank the Senator from Ohio for letting me make some brief remarks, and then I will yield the floor to him.

First, I wish to praise my colleagues from New Mexico and Tennessee, who

have done an excellent job on this legislation. I applaud the bipartisan group that put together this extraordinary bill we are considering, the America COMPETES Act, because this legislation will provide invaluable resources to help slingshot our economy forward and ensure that our great country does not lose step with our global competitors.

I am particularly proud of one provision I authored and has been included in the managers' amendment that was adopted earlier today. That is what I want to speak about.

The program is called the National Science Foundation Teaching Fellowship, and it will go a long way toward ensuring that our high school students are taught math and science by the best and the brightest.

I wish to express my deep gratitude to Senators KENNEDY, BINGAMAN, ENZI, and ALEXANDER for including this important provision in the bill. I would also like to thank my friend and colleague, Senator CLINTON, for her valuable support as a committee member in this process.

The NSF Teaching Fellowship is modeled after a highly successful program in New York City called Math for America. The program recruits top math and science graduates to become teachers and retains them as teachers by offering financial incentives. The program will ensure that leaders in math and science train future generations of innovators—instead of leaving the classroom for research or other opportunities.

It is working in New York City, and it is crucial to expand this model to the rest of the country. Let me share with you some statistics that will explain why.

Our students are not currently prepared to compete in a technological economy. In the 2003 PISA math assessment that compared 15-year-old students across the world, American students ranked 24th out of the 29 participating countries—here in America, in math, 24th out of 29. How are we going to stay the greatest country in the world when that has happened?

Students currently studying math and science will be the fuel that powers our economy for the next century, and there is no question we are not giving them the tools they need to compete.

One reason why our students are not doing well is because only one-third of math teachers and less than two-thirds of science teachers majored or minored in the subject they teach. It is not hard to understand why. Starting salaries for math and science majors can be as much as \$20,000 higher in the private sector than they are for public school teachers. But by allowing this disincentive to teach to continue, we are ignoring our responsibility to have our students taught by teachers who know math and science backward and forward. The bottom line is the American

economic engine may stall if we don't have a highly skilled workforce to keep it going. Unfortunately, this is where we are faltering.

So today the Senate has adopted the NSF Teaching Fellowship program, along with other excellent provisions in the America COMPETES Act, to fill in the gap. Here is how the program will work. NSF teaching fellows will have to take a test to prove their strengths in math or science. Then they enroll in a 1-year master's degree program in teaching that will give them teaching certification, and it is all paid for. They will agree to teach for at least 4 years, and for those 4 years, they will receive bonuses on top of their salaries. These individuals will infuse our schools with a deep passion for and an understanding of math and science and will share their knowledge with other teachers in their school.

To retain our current teachers who are outstanding at what they do and can provide expertise in the classroom that our teaching fellows won't yet have, there is another category called NSF Master Teaching Fellows. Master fellows are existing teachers who already have a master's degree in math or science education. They will also take a test demonstrating they have a high level understanding of their subject area. For the next 5 years they will serve as leaders in their school, providing mentorship for other teachers in their department as well as assisting with curriculum development and professional development. For these 5 years they also will receive bonuses on top of their salaries.

Last year I introduced the Math and Science Teaching Corps Act with my friend Congressman JIM SEXTON in the House. Today that bill has evolved into a program that has been included in the America COMPETES Act.

The question is: Will this generation have the skill sets necessary to take full advantage of this new economy? Right now our children are lagging behind and we must act quickly before businesses need to look elsewhere. Math and science skills are the key to maintaining this country's competitiveness in the global economy, and this legislation will help ensure that.

I believe the NSF Teaching Fellowship, as well as the rest of the America COMPETES Act, will put us back on track. I am proud to have been included in the process and I look forward to working with my colleagues to complete work on this important bill.

MEDICARE

Mr. President, I want also to take 1 more minute to address the comments this afternoon of my friend and colleague Senator GREGG. He and I often agree, and I believe we do on this particular issue as well, about the need to shore up Medicare. I think he misunderstood my comments from yesterday and I want to take a moment to discuss them.

Yesterday the Social Security and Medicare trustees released their annual report showing that Social Security does not face an impending funding crisis, but Medicare funds are less secure. The report indicates that the Social Security trust fund would be solvent 1 year longer than was predicted in last year's report, that is until 2041, but Medicare would be exhausted as soon as 2019 in terms of the Medicare trust fund.

The Senator should know I did not and would not attack the independent trustees of the Medicare and Social Security trust funds. My statement responded to two things: first, the administration's misguided mission to use any and all news with regard to Social Security as an opportunity to push for privatizing Social Security; second, the administration's unwillingness to do something to fix underlying problems in our health care system and reduce budget deficits to shore up Medicare before it is too late.

My colleague from New Hampshire pointed out that most of us on this side of the aisle voted against some of his amendments. That doesn't mean we don't want to fix Medicare; it means we don't agree with the way he is proposing. In fact, we have to get a handle on the whole health care system to fix Medicare, not chop away and slash away at Medicare itself. So I agree with the Senator from New Hampshire, we can't leave these problems to future generations. I look forward to working with him on that important issue.

I once again thank my good colleague from Ohio for his generosity of both time and spirit.

Mr. President, I yield the floor.

Mr. ALEXANDER. Mr. President, before the Senator from Ohio goes forward, I simply say to the Senator from New York I applaud his work on the math program. I remember last year when we talked about it, and I met with his constituents who have done so much good work with that model.

Among the other things which are important about the program is that it defines a fair way of identifying a high-need set of teachers—in this case math and science—and when they go into teaching, to pay them more for being good teachers. That is a tough thing to do. It is tough to do that in a fair way, but the Senator has found one way to do it. We have a variety of other ways to do it. Senator DURBIN and I have supported an amendment, the teacher incentive fund, which encourages that sort of experimentation, a not-made-in-Washington formula.

But if we are to have areas of high need such as math and science and low-income children who can't achieve, we are going to have to find some fair ways for outstanding school teaching and leadership. The Senator from New York has taken an important step in that direction as part of what he has

done today, and I congratulate him for that.

Mr. SCHUMER. I thank my colleague.

VOTE EXPLANATION

Mr. OBAMA. Mr. President, during rollcall vote No. 137 today, I was at a speaking engagement in another part of the city and was unable to return in time for the vote. Had I been able to vote, I would have voted for the amendment offered by Senator DEMINT.

Mrs. FEINSTEIN. Mr. President, I rise today in support of Majority Leader REID's legislation S. 761, the America Creating Opportunities to Meaningfully Promote Excellence in Technology, Education and Science—COMPETES—Act of 2007 to help maintain our Nation's competitive edge in the critical areas of math, science, engineering and technology.

I am pleased to be a cosponsor of this important bill with 57 of my colleagues.

This bill will strengthen educational opportunities in math, science, engineering, and technology from elementary through graduate school, increase the Federal investment in basic research, and develop an innovation infrastructure—all which is greatly needed in an increasingly competitive global economy.

This bipartisan bill reflects recommendations by the National Academies' report "Rising Above the Gathering Storm" and the Council on Competitiveness' "Innovate America" report.

Both of these reports conclude that action is needed now in order to secure our country's economic and technological leadership in the future.

For example, indicators of the need for action are the following: More than 600,000 engineers graduated from institutions of higher education in China in 2004. In India, the figure was 350,000. In the U.S., it was only about 70,000. Science and engineering jobs are expected to grow by 21 percent from 2004 to 2014, compared to a growth of 13 percent in all other fields, based on Bureau of Labor Statistics reports.

Nationwide, about 68 percent of middle school math students were taught by teachers who did not have a major or certification in the subject. For science middle school students, 57 percent were taught by teachers who did not have a major or certification in the subject—based on the 2004 report by the National Center for Education Statistics.

In California, the State also faces a critical shortage of math and science teachers. The State will need to produce more than 16,000 new math and science teachers within 5 years and more than 33,000 over the next decade due to attrition and retirement. This is from the March 2007 report by the California Council on Science and Technology.

This report also concludes that strengthening the teaching of math and science is crucial if California is to maintain its competitive edge and economic growth.

That is why it is imperative that we take steps to ensure that our children, as our future leaders, are fully prepared with the skills to take on the demands of the country's changing economy and workplace.

Specifically, this bill would increase authorized funding for the National Science Foundation from \$6.8 billion in fiscal year 2008 to \$11.2 billion in fiscal year 2011. California receives about 20 percent of total funding from NSF grants; increase authorized funding for the U.S. Department of Energy's Office of Science from \$4.6 billion in fiscal year 2008 to over \$5.2 billion in fiscal year 2011. California receives over 20 percent of total Federal funding; direct NASA to transfer \$160 million from its accounts for the funding of basic science and research for fiscal year 2008 and fully participate in interagency activities to foster innovation; authorize \$290 million over 4 years to establish a Distinguished Scientists Program under the U.S. Department of Energy which would be a joint program between universities and National Laboratories to support up to 100 distinguished scientist positions; authorize \$210 million for fiscal year 2008, and such sums as necessary for each of the following three years, for new grants under the U.S. Department of Education to develop university degree programs for students to pursue bachelor's degrees in math, science, engineering, and critical foreign languages with concurrent teaching credentials.

Also, grants would be used for master's degree programs in these fields for current teachers to improve their skills.

This model is similar to the University of California's California Teach Program which aims to put a thousand new math and science teachers annually into the State's classrooms.

It will authorize \$190 million over 4 years to create a new grant program to improve the skills of K-12 math and science teachers, under the U.S. Department of Energy, for summer institutes at each of the National Laboratories; authorizes \$146.7 million for fiscal year 2008 and such sums as necessary for the following 3 years to provide "Math Now" grants, under the U.S. Department of Education, to improve math instruction for struggling elementary and middle school students; authorize \$140 million over 4 years for a new competitive grant program under the U.S. Department of Energy to assist States in establishing or expanding statewide math and science specialty schools and provide expert assistance in teaching from the National Laboratories' at these schools; establishes a President's Council on Innova-

tion and Competitiveness and requires the National Academy of Sciences to conduct a study to identify barriers to innovation 1 year after enactment.

America's economy is fueled by innovation, and innovation is enabled by a strong foundation in math and science. Our country's math and science foundation is eroding, and our innovative strength is similarly weakening.

The U.S. trade balance in high-technology products has shifted from a \$54 billion surplus in 1990 to a \$50 billion deficit in 2001.

This legislation can help reverse this trend. It will help maintain our Nation's global competitiveness and continue to attract the best and brightest minds across the country to pursue careers as engineers, scientists, technicians, and very importantly, as math and science teachers.

I urge my colleagues to support this important legislation.

Mr. CARDIN. Mr. President, I rise today in strong support of S. 761, the America COMPETES Act of 2007. If we consider the people who have given us the light bulb, the blood bank, the artificial heart, the microchip processor, and Microsoft, we must acknowledge that access to quality education and openness to innovation in America have nurtured many of the most influential inventors and the best trained workforce in modern history.

But while technological progress has revolutionized the workplace, our education system has failed to keep pace; now, many of our Nation's schools are unable to provide their students with the scientific, technological, engineering, and mathematical knowledge and skills the 21st century economy demands. Without sufficient numbers of well-trained people and the scientific and technical innovations they produce, the United States is in jeopardy of losing its place as the center for the high-quality jobs and innovative enterprise that have been part of our national heritage.

I applaud Senators BINGAMAN and ALEXANDER and the other leading sponsors of the bill for taking action to ensure that this Nation remains a leader for innovation, and I am proud to join them as a cosponsor of this bill. I am grateful to the academic and business leaders, including Nancy Grasmick, the Maryland State superintendent of schools, and Dr. C.D. Mote, Jr., president of the University of Maryland, who produced both the National Academies' "Rising Above the Gathering Storm" and the Council on Competitiveness' "Innovative America" reports and recommendations that serve as the foundation for this legislation. I am proud of the legislation the Senate is considering: it takes significant steps to stimulate and support innovation in our Nation.

When I ask young scientists and engineers what triggered their interest,

they cite—almost without exception—a teacher, mentor, or internship as the inspiration for their love of science, math, and innovation. I am pleased, therefore, that this bill includes several measures to improve teacher recruitment and training, develop partnerships between schools and laboratories, and encourage internship programs. All of these provisions will increase students' exposure to inspirational teaching, talented scientists, and real-world experience.

Education research and the anecdotal evidence I mentioned above indicate that teacher quality is the most important factor influencing student achievement. Yet our best teachers are not evenly distributed among our Nation's communities. Far too many of our highest need school districts are struggling to recruit and retain experienced teachers. To address this inequity, S. 761 includes important measures to recruit and train high-quality math and science teachers for high-need school districts. The legislation also creates mentorship and apprenticeship programs for women, who are underrepresented in science, technology, engineering, and mathematics careers.

The growing gap between what is taught in elementary and secondary schools and the skills necessary to succeed in college, graduate school, and today's workforce threatens the implicit promise we have each made to our own children and those whom we represent: get good grades in school and you will succeed in life. S. 761 contains competitive grants to States that will encourage better alignment of elementary and secondary curricula with the knowledge and skills required by colleges and universities, 21st century employers, and the Armed Forces, so that high school graduates will be prepared to succeed in the world.

Those students who choose to pursue high-tech careers require Federal funding to conduct research. Many scientists and mathematicians make their greatest discoveries early in their careers, before they have developed the track records and reputations often required to secure research grants. The leaders of Johns Hopkins and other great Maryland research institutions have told me that it is difficult for their young and most daring researchers to secure necessary research funding.

S. 761 would significantly increase America's investment in research, doubling funding for the National Science Foundation and the Department of Energy's Office of Science over the next 4 years and authorizing a significant increase in funding for the National Institute of Standards and Technology. But the legislation goes further by also targeting more funds to young researchers and high-risk frontier research. S. 761 would increase the number of research fellowships and

traineeships that provide critical support for science, technology, engineering, and mathematics graduate students and would require NIST to set aside at least 8 percent of its annual funding for high-risk, high-reward innovation acceleration research.

Today, we face enormous technological challenges, which include halting global climate change, achieving energy independence, and finding cures for AIDS, malaria, diabetes, and other devastating diseases. We must equip ourselves with skills and resources to tackle these problems so that our children and grandchildren may inherit a world rich with economic opportunities. Therefore, I am urging my colleagues to join me in support of this critical legislation.

Mr. ROBERTS. Mr. President. I rise today in support of S. 761, the America COMPETES Act. This sweeping legislation takes bold steps to recapture America's prowess in the global economy.

The demand for talented persons in the areas of science, technology, engineering, mathematics, and critical foreign language far exceeds the supply in the United States. The likelihood of finding a job in these high-need areas after college is almost guaranteed, yet we find ourselves still lagging behind other countries in producing these graduates. America ranks No. 24 out of industrialized nations in mathematical literacy for children entering high school. Right now, China is graduating four times the number of engineers as the United States, with India not far behind.

I am deeply concerned with these trends. It is vital to have a superior science and mathematics education system and workforce. In 1997, I formed an Advisory Committee on Science, Technology, and the Future in my home State of Kansas. This committee helps me find ways to align Federal and State initiatives to enhance science and technology in the State. The advisory committee has been instrumental in identifying high-need high-tech jobs in the State while focusing on ways to educate, train, and attract talented persons into these fields.

Kansas continues to be a State rich with high-tech industry. Wichita is the aviation capital of the United States, producing approximately 50 percent of all U.S. general aviation. This industry needs aviation researchers, engineers, and skilled technicians. My home State is rapidly growing in the areas of bioscience, including drug discovery, new treatments for disease, food safety, animal health, and renewable energy. The Roberts Advisory Committee has recognized that while these industries are growing, they have a limited pool of talented employees to choose from.

Like many States, Kansas is facing a shortage of math and science teacher

applicants. I agree with my advisory committee that global competitiveness lies with our younger generation. It is imperative that we provide them with an education from science and math teachers possessing a solid knowledge base and effective teaching skills. We also need to find ways to spark students' interests in math, science, and technology while they are in the early years of education. The America COMPETES Act addresses these needs by strengthening the skills of math and science teachers, creating partnerships between National Laboratories and high-need high schools, facilitating the expansion of advanced placement programs, and increasing the number of students who study foreign languages.

Additionally, the bill provides an increase in research investment by doubling the funding for the National Science Foundation, NSF. The grants distributed to States from the NSF are being used to conduct extraordinary research in every corner of the world.

My advisory committee supports the America COMPETES Act, and so do I. It is only through our commitment to the underlying goals of this bill that we will see success in building our competitive workforce.

Ms. MIKULSKI. Mr. President, I would like to thank my colleagues Senator JEFF BINGAMAN, Senator PETE DOMENICI, Senator LAMAR ALEXANDER, and Majority Leader HARRY REID for their efforts to move this issue. I am so proud of this great bipartisan team of 54 Senators working to pass this bill. I can't say enough about the appreciation that many of us in the Senate feel about my colleagues' initiation of the report, "Rising Above the Gathering Storm," which is the basis for this legislation, the America COMPETES Act.

America must remain an innovation economy. This legislation creates the building blocks that we need for a smarter America. Our Nation is in an amazing race—the race for discovery and new knowledge, the race to remain competitive and to foster an innovation society, to create new ideas that lead to new breakthroughs, new products, and new jobs, the innovations that have the power to save lives, create prosperity and protect the homeland, the innovation to make America safer, stronger, and smarter.

This legislation is called the America COMPETES Act or America Creating Opportunities to Meaningfully Promote Excellence in Technology, Education and Science. It is divided into three sections: research, education and innovation. It calls for getting new ideas by doubling Federal funding for research at the National Science Foundation and establishing the Innovation Acceleration Research Program to fund frontier research like testing new theories and using new research methods; getting the best minds with scholarships for future math and science

teachers, including \$10,000 scholarships from the National Science Foundation for undergraduate students majoring in math or science along with teacher certification; and establishing a President's Council on Innovation and Competitiveness to develop a comprehensive agenda to promote innovation and competitiveness in the public and private sectors.

Why is this so important? Because a country that doesn't innovate, stagnates. The whole foundation of American culture and economy is based on the concept of discovery and innovation. That is part of our culture. When you look at what has made America a superpower, it is our innovation and our technology. We have to look at where the new ideas are going to come from that are going to generate the new products and workforce for the 21st century.

I want America to win the Nobel Prizes and the markets. This legislation will help to set the framework. It will make sure that we're helping our young people with scholarships and helping our science teachers and those working in science with funding and research opportunities. We also are forming partnerships with the private sector and building an innovation-friendly Government.

The very essence of our culture is innovation and discovery. Remember we got here because someone wanted to discover. When Lewis and Clark set out on their expedition, it wasn't the National Geographic Society, to find a trail to the Pacific—it was called the Corps of Discovery. That is who we are. That is what our culture is, and that is what we need to maintain.

We are a nation of explorers and pioneers always searching for new frontiers. The next generation of pioneers, engineers, and scientists is out there. They will help us create jobs and win the markets. Most importantly, they will help us win the amazing race. I will use my position as chair of the subcommittee that funds science to make sure that there is money in the Federal checkbook to support these proposals, and I hope my colleagues will do the same.

Mr. HATCH. Mr. President, I have an amendment to S. 761, the America COMPETES Act. My amendment would allow competency-based institutions of higher learning to access grant programs which will help them train math, science, and critical foreign language teachers.

I applaud the goals of increasing the numbers of math, science, and critical foreign language teachers in our schools, including high-need schools. Our ability to compete as a nation is directly tied to our ability to educate our young people and retrain those who are in industries that are no longer viable.

We now have the finest system of higher education in the world. There is

no doubt that if we provide the proper incentives, many brilliant innovators and educators will take up the clarion call.

I come before this body today to introduce my amendment because many of today's teachers are teaching an older generation of students. The U.S. economy is in a state of continual change, and with that change comes displacement of workers and a need to retrain and retool. These nontraditional students often receive their training from accredited schools who assess student development based on a student's ability to demonstrate competency in the material being taught. Under the bill as drafted, these competency-based universities would not be able to access the grant money for teacher development. My amendment would remove this bias and allow competency-based universities access to the teacher development grant money. This in turn will increase the teaching quality in math, science, and critical foreign language, thereby providing the students attending these universities with a better education.

Current bill language would prevent participation by well-respected and widely recognized institutions, such as Western Governors University, WGU. WGU was set up by over 19 Governors to provide innovation in higher education and is now training over 1,000 math and science teachers, the majority of whom are women and minorities. WGU's innovative approach to teacher education has proven very successful.

As we set about to ensure that our Nation has the needed highly qualified teachers in critical subject areas, we must make certain that these institutions are included in this legislation. Therefore, I ask my colleagues to join me in supporting this amendment.

MORNING BUSINESS

Mr. BROWN. Mr. President, I ask unanimous consent there now be a period of morning business with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUPPLEMENTAL APPROPRIATIONS

Mr. BROWN. Mr. President, recently we learned that the Ohio National Guard could face early redeployment. We learned the National Guard is being asked to train without the proper equipment. Our Guard will do the job well, General Wade and others in Ohio assure me, and their past history shows they will. Our Guard will do the job well regardless of the circumstances, but it is wrong to send them to Iraq with incomplete training, with inadequate equipment, with insufficient downtime.

The conference report released last night echoes what many of us in Con-

gress and what so many military families across our great country have been saying: We need a new direction for Iraq.

Make no mistake, we take a back seat to no one in supporting the brave men and women fighting in Iraq, and we absolutely support their families. But more of the same is not a plan for our troops. More of the same, more involvement in this civil war, will not end the war in Iraq. This war has made our country, and our world, less safe. The Iraq war has cost 142 Ohioans their lives and wounded another 1,000.

GEN Colin Powell, talking about the President's surge, the President's escalation of this war, has said:

I am not persuaded that another surge of troops into Baghdad for the purposes of suppressing this communitarian violence, this civil war, will work.

Colin Powell, General Powell, recognizes this is a civil war, recognizes that the surge, the President's escalation will not result in a different outcome in Iraq.

Congress will continue, of course, to fight for our Nation's military by working to see that they have the resources and the support they need and the leadership they deserve. The conference report fully funds and fully supports our troops while establishing conditions that will bring our troops home. It provides desperately needed funding to the Veterans' Administration to help care for the hundreds of thousands of new veterans created by this war.

When we think of the carnage brought about by this war, when we think of the literally tens of thousands of men and women who serve this country and who are back from Iraq and who are in the Veterans' Administration health care system, we understand why we need from our Government literally a 50-year plan. What are we going to do for the next five decades for these injured men and women who have suffered psychological injury and physical injury? Yet this administration is not even funding our troops, the health care of our returning troops well this year, let alone planning into the future. This supplemental bill we will send to the President in the next few days begins the process of what we need to do to take care of the health and the welfare of these returning troops, these injured, psychologically and physically injured soldiers.

If the President won't take responsibility for his failures and lead our troops home, then Congress needs to and Congress will. We owe it to our soldiers, to our sailors, to our airmen and women and to our marines, and we owe it to their families.

The President should listen to military leaders and the American people and work with Congress to change course in Iraq instead of threatening vetoes. Vetoing this legislation would

deny funding that our military needs in Iraq. It would deny funding our veterans desperately need who have returned home.

The President says there is too much pork, too much spending in this bill, as if every other supplemental bill that previous Republican Congresses, the House and Senate, have sent to the President every time with other supplemental emergency spending has not. Mr. President: Please read this bill. Don't dismiss it out of hand because you don't like some of the language about Iraq, even though it protects our soldiers, even though it takes care of our veterans, even though it does things such as spend \$3 billion for the mine-resistant ambush-protected vehicles, vehicles that will make our troops considerably safer than the flat-bottomed vehicles where far too many of our troops have been killed or badly injured.

This supplemental bill we are sending to the President includes billions of dollars for BRAC, billions of dollars for military construction, the kind of work we need to do to make our military even more efficient, even more productive. It spends \$1.6 billion for individual body armor, something the military and the civilian leadership in the White House and the civilian leadership in the Pentagon have fallen short on, providing the kind of body armor for our troops and the kind of up-armor for our humvee vehicles that is needed.

I ask again, Mr. President: Please read this bill before you decide what you are going to do, and then sign this bill. The VA would get \$1.7 billion more than the VA proposal from the President, which was zero; it would have \$39 million in polytrauma-related funding; it would have \$10 million for blind veterans programs. It has \$100 million for VA mental services. It has \$25 million for prosthetics.

This legislation we are sending to the President—again we ask him to read it before making his decision instead of dismissing it out of hand—has all kinds of support for our troops, for their health care, for their supplies, for supplying them in the field. It has way more money for our troops in Iraq, in Afghanistan, and for those troops returning home in our VA system, way more resources than the President has allowed in his budget.

The President has set our Nation on a path that leads nowhere. He did not listen to the voters last fall. He has not listened to the Iraq Study Group, the bipartisan panel of very distinguished Americans. He has not listened to many of the military advisers, free to speak freely, and he has not listened to the House and the Senate majorities about this legislation.

In addition, this legislation provides for help for mine safety. It provides for emergency spending for the LIHEAP

program, for elderly indigent people who have had their heating or air-conditioning cut off because they simply can't afford to pay for their energy use at home. It has support for the pandemic flu. It has pandemic flu protections. As Senator STABENOW from Michigan said a few moments ago, it has a minimum wage increase, something this Senate or House has not done for 10 years.

Mr. President: Please read this bill before you decide whether you are going to sign it or veto it, and please listen again to General Powell, who said:

I am not persuaded that another surge of troops into Baghdad for the purposes of suppressing this communitarian violence, this civil war, will work.

We are on the wrong course in Iraq. If the President signs this bill, it will help us redeploy our troops more quickly out of Iraq in the most orderly and safest way possible. It will also equally and importantly provide for health care for our troops, for the tens of thousands of injured troops who have returned home from this war.

Mr. President, I yield the floor.

HONORING PROFESSOR CHERIF BASSIOUNI

Mr. DURBIN. Mr. President, I wish to honor an outstanding Illinoisan, Professor Cherif Bassiouni, a great legal mind, teacher, and humanitarian, and to congratulate him on his retirement.

For more than 40 years, Professor Bassiouni has made Chicago—and DePaul University—his home. At DePaul, he has made countless contributions to international law and legal education. He has also been a consistent advocate for the rule of law. His legacy at DePaul continues the legacy of his family. The Bassiouni family is widely known for their impact on the struggle for independence in Egypt almost one century ago.

Cherif's maternal and paternal grandparents were lawyers and leaders in the struggle for Egyptian independence. His paternal grandfather led the 1919 revolt against the British. Professor Bassiouni's early instruction was comprised of French Jesuit schooling, Muslim tutors, and European nannies. His upbringing encompassed the best of different societies and was a sign of great things to come. He was introduced to the charitable works of St. Vincent de Paul and since his youth, has been guided by St. Vincent's motto, "to serve God by serving the needs of man." He lived through some of the most dramatic moments in both Egyptian and American history; he was a soldier during the 1956 war but then dissented against Nasser's regime and was placed under house arrest. Soon afterward he immigrated to the United States.

After finishing his law degree, Professor Bassiouni began his teaching ca-

reer at the DePaul University College of Law in 1964, where he was able to link the experiences of his youth to the work of his adult life. He was steadfastly devoted to the advancement of human rights. He did pro bono work for clients involved in the civil rights movement that culminated in the 1967 Chicago riots and the 1968 Democratic National Convention protests. Ten years later he applied what he had learned to his native land, by advising President Anwar Sadat during the Camp David Peace Accords.

As a legal scholar, Professor Bassiouni's accomplishments are astounding. Several thousand judges and professors worldwide have studied under him. He is considered a world authority in the field of international criminal law. He cochaired the United Nations Committee of Experts that drafted the Convention Against Torture. He drafted this seminal document from his ninth floor office in the O'Malley Building of DePaul, right down the street from my office in Chicago.

At DePaul, Professor Bassiouni has left a lasting mark, perhaps most notably for his founding of the International Human Rights Law Institute. The IHRLI already has impacted generations of students and assisted people throughout the world.

Cherif Bassiouni has been a Nobel nominee and is a recipient of the Illinois Order of Lincoln—among many other honors. He was pivotal in the creation of the International Criminal Court. His has been a voice of reason and experience in complicated situations, including most recently his work as counsel to the Governments of Afghanistan and Iraq as they seek to establish rule of law. I hope he will continue to advise these wounded nations as they move towards peace and democracy.

I conclude by thanking Professor Bassiouni for his brilliant work and contributions not only to DePaul University but also to the lives and communities his work has helped shape. I commend him and his family and wish him an equally brilliant retirement.

IN MEMORY OF REPRESENTATIVE JUANITA MILLENDER-MCDONALD

Mrs. BOXER. Mr. President, today I honor the memory of Representative Juanita Millender-McDonald, a kind-hearted woman whose remarkable life touched so many of us.

Juanita was a loving mother, and a dedicated public servant who approached her work with an upbeat attitude and can-do spirit that was an inspiration to us all.

Her passing is a tragic loss for California, the 37th Congressional District she so ably represented, and the many Members of Congress with whom she has worked over the years.

Juanita's career broke through so many barriers for women and African Americans. Her rise as the first African American woman to chair a Congressional Committee was only the latest of many firsts in her career.

In her seven terms of service in the House of Representatives, she fought valiantly for the rights of women, for the security of our Nation, and for the protection of human rights across our Nation and the world.

Juanita's efforts to reach across the aisle made her one the most effective Members of Congress, but it was her bold initiatives that embodied the courage with which she followed her convictions.

In her first year in Congress, Juanita immediately demanded the attention of the nation when she brought then-CIA director John Deutch to Watts to address a newspaper report that the CIA was using profits from domestic crack-cocaine sales to fund CIA-backed Contras in Nicaragua.

Juanita's commitment to the health of our communities has been profound, and her efforts addressed the needs not only of her constituents, but to the victims of disease around the world.

She led the charge to enact the Mother-to-Child HIV-AIDS Transmission Act that has become the foundation of President Bush's \$15 billion African AIDS initiative. For nearly a decade, Juanita coordinated the annual AIDS Walk in her district to help continue to inform the community and raise awareness of this deadly disease.

During her tenure as the Ranking Member of the Committee on House Administration, Juanita fought to ensure that every ballot that is cast is counted, and that all of the citizens of our country would know their voting rights.

Juanita has been inspiring young women since the beginning of her career as an educator in California, when she served the Los Angeles Unified School District as a career counselor and edited Images, a state textbook which encouraged young women to pursue non-traditional careers.

As the Democratic Chair of the Congressional Caucus for Women's Issues, she sought to address the plight of women globally, brought together the women of Congress with the first female Supreme Court Justices to discuss issues important to women across the Nation, and sought recognition for the women in uniform who have served our country in times of war with the first annual Memorial Day Tribute to Women in the Military at the Arlington National Cemetery's Women's Memorial.

On so many issues, I have been fortunate enough to consider Juanita a valuable ally and friend, but I will especially miss her work as a leading voice on the House Transportation and Infrastructure Committee. As the Representative of a district with two of the

busiest ports in the United States, Juanita was a passionate supporter of the effort to ensure that the movement of goods is safe, secure and efficient.

Through these past years, Juanita and I worked together to keep the C-17 production line from being mothballed by President Bush and furloughing hundreds of employees.

I know that Juanita's presence will be sorely missed by communities which she served so tirelessly. Today I send my sincere condolences to her husband James, her five children, her staff, and all those who knew and loved her. Together we will continue her important work.

ARMENIAN GENOCIDE

Mrs. FEINSTEIN. Mr. President, I rise today to commemorate the anniversary of the Armenian Genocide.

Ninety-two years ago today, on the night of April 24, 1915, the Ottoman government launched a series of raids in which hundreds of Armenian leaders and intellectuals were arrested and subsequently deported or killed. This event marked the beginning of a systematic campaign of murder, deportation, and forced starvation, during which as many as 1.5 million Armenians perished and 500,000 were exiled by the Ottoman government.

We are obliged to remember and speak about their suffering because silence about such atrocities plants the seed for another tragedy.

On the eve of the 1939 Nazi invasion of Poland, seeking to allay the fears of his aides, Adolf Hitler said: "Who, after all, speaks today of the annihilation of the Armenians?"

And today, the world is again witnessing genocide, one waged by a government against its own people, one involving mass murder, ethnic cleansing, and forced starvation. I am speaking, of course, about the genocide in Darfur.

Let there be no mistake. The ongoing genocide in Darfur, carried out by the Government of Sudan and its janjaweed militias, traces its roots to the silence and quiescence of the international community during previous episodes of genocide and ethnic cleansing, including the Armenian genocide.

By acknowledging and learning from the Armenian genocide, then, we become better positioned to prevent present and future atrocities.

Open discussion of the Armenian genocide serves another important purpose. It enables the descendants of those involved in the Armenian genocide—both perpetrators and victims—to mend the wounds that have not yet healed.

As recently as January of this year, a Turkish-Armenian journalist, Hrant Dink, was murdered because of his outspoken advocacy for Turkish recognition of the Armenian genocide. This incident serves as an important reminder

that an open, informed, and tolerant discussion of the genocide is critical.

California is home to many of the descendants of the genocide's survivors, who immigrated to the United States and, over the course of a few decades, built strong and vibrant communities. Working closely with the Armenian-American community over my many years in public service, I know how alive and painful this issue continues to be for many Armenian Americans.

So I rise before you today and ask that you join me in acknowledging and commemorating the Armenian genocide. Together, let us send a strong message that such atrocities will never be accepted, regardless of when and where they take place.

And let us ensure that the legacy of the Armenian genocide is one of reconciliation and hope.

Mr. REED. Mr. President, today, on behalf of the Armenian population of Rhode Island, and Armenians around the world, I wish to recognize the 92nd anniversary of the Armenian genocide.

On April 24, 1915, nationalists in the Ottoman Empire rounded up, deported, and executed 200 Armenian community leaders, writers, thinkers, and professionals in Constantinople, present day Istanbul. Also on that day in Constantinople, 5,000 of the poorest Armenians were massacred in the streets and in their homes. These events sparked an 8-year campaign of tyranny that impacted the lives of every Armenian in Asia Minor. By 1923, an estimated 1.5 million Armenians were murdered, and another 500,000 were exiled.

The U.S. Ambassador to the Ottoman Empire, Henry Morgenthau, Sr., unsuccessfully pleaded President Wilson for intervention. Unfortunately, the United States and the world tragically failed to intervene on behalf of the Armenian people. Ambassador Morgenthau would later write in his memoir, "The great massacres and persecutions of the past seem almost insignificant when compared to the sufferings of the Armenian race in 1915."

Today, as a proud supporter of S. Res 106, legislation officially recognizing the Armenian genocide, I urge the President to ensure that the foreign policy of the United States reflects appropriate understanding and sensitivity concerning issues related to human rights, ethnic cleansing, and genocide documented in the U.S. record relating to the Armenian genocide. Dr. Martin Luther King, Jr., stated over 50 years after the Armenian genocide that: "Injustice anywhere is a threat to justice everywhere . . . Whatever affects one directly, affects all indirectly." The time has come to officially recognize the Armenian genocide.

The United States is proud to have Armenia as an ally in the rebuilding and reconstruction of Iraq. For the

past 4 years, Armenian soldiers have supported American and multinational force efforts in Iraq. As part of the Polish-led multinational division in south-central Iraq, Armenians have worked as truckdrivers, bomb detonators, and doctors. Armenia has proclaimed their fight by not allowing others to be left helpless as they were nearly a century ago.

We must study and remember the events of our past in order to be better citizens of tomorrow. In instances such as the Armenian genocide, I call on all nations, not just the United States, to educate their youth to stand against hatred and prejudice of others in order to deter future atrocities against humanity. We should be prepared to take a vigilant stand against similar atrocities, such as the current situation in Darfur, to not let history repeat itself.

We must honor the victims of the Armenian genocide by vowing to never allow the world to stand idle to atrocities against humanity again.

Menk panav chenk mornar. We will never forget.

Ms. KLOBUCHAR. Mr. President, I wish to add my voice to those asking that today, the 24th of April, 2007, be a day of reflection and remembrance for those Armenians who perished in the genocide that occurred between 1915 and 1923.

As many as one and a half million Armenians lost their lives during this systematic campaign of ethnic cleansing conducted in Turkey while the world was preoccupied by the First World War and its aftermath. That the major powers, including the United States, did not prevent or intervene at any point to stop this killing represents one of twentieth century's ugliest stains on humanity.

While today we all would like to believe that had world leaders been acutely aware of the atrocities occurring they would have acted to stop them, recent episodes make a clear that we as a people continue to struggle with the obligation to speak out when our neighbor's blood is shed. In Bosnia, Rwanda, and right now in Darfur, the world has stood by while hundreds of thousands of innocent civilians are slaughtered. Any action on the part of the international community has been too little and far too late.

Because I believe we cannot prevent future genocide unless we recognize past genocide, I am a sponsor of Senate Resolution 106, which calls upon the President to ensure that this Nation's foreign policy reflects appropriate understanding and sensitivity concerning human rights, ethnic cleansing, and genocide documented in the U.S. record relating to the Armenian genocide.

I join many of my colleagues today in urging the Senate to pass this resolution.

Turkey is good friend of the United States and a critical ally in the fight

against terrorist networks. I hope that the ties that bind our two nations only grow closer in the coming years, as we continue to work through NATO to ensure cooperative security. And I will join my colleagues in pressing for Turkey's admittance to the European Union.

However, I believe that the Armenian genocide must be acknowledged.

Today, the 92nd anniversary commemorating this incident, we pause to pay tribute to those who died and renew our commitment to ensuring that similar atrocities never again occur.

DEFENSE AUTHORIZATION ACT

Mr. WARNER. Mr. President, I rise tonight to respond to those who have questioned the legislative history and intent of section 1076 of the fiscal year 2007 Defense Authorization Act, a provision dealing with the use of the Armed Forces and National Guard in major public emergencies.

This provision was the subject of a hearing today before the Senate Judiciary Committee.

I would like to outline that this provision was drafted jointly by the Senate Armed Services Committee in a bipartisan and transparent fashion, was approved unanimously by the committee, and was printed on May 9, 2006 as part of the Senate report on this bill.

The provision was fully available in the public domain for review and debate for over 5 months prior to its final passage in the House and Senate, and approval by the President.

During the brief period today that I have had the opportunity to again review this legislation, I did not uncover any material that suggests there were any serious misgivings regarding this provision by Federal, State, or local officials.

I believe the committee's record speaks for itself. Attached below is an excerpt as put forth in the final conference report:

REPORT 109-702—CONFERENCE REPORT TO ACCOMPANY H.R. 5122

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2007 (EXCERPT)

USE OF THE ARMED FORCES IN MAJOR PUBLIC EMERGENCIES (SEC. 1076)

The Senate amendment contained a provision (sec. 1042) that would amend chapter 15 of title 10, United States Code, the so-called 'Insurrection Act,' to clarify and update the statute, and to make corresponding changes to other provisions of law. Chapter 15 contains a collection of statutes dating to the 18th and 19th centuries that authorizes the use of the armed forces to put down insurrections, enforce Federal authority, and suppress conspiracies that interfere with the enforcement of Federal or State law.

The provision would amend section 333 of title 10, United States Code, to authorize the President, in any situation in which he determined that, as a result of a natural disaster, terrorist attack or incident, epidemic or other serious public health emergency, or other condition, domestic violence occurred to such an extent that the constituted authorities of the State are incapable of maintaining public order, and the violence obstructed the execution of the laws of the United States of impeded the course of justice thereunder, to use the armed forces, including the National Guard in Federal service, to restore public order and enforce the laws of the United States until the State authorities are again capable of maintaining order. The President is to notify Congress of his determination to exercise this authority as soon as possible and every 15 days thereafter as long as the authority is exercised.

The provision would also amend chapter 152 of title 10, United States Code, to authorize the President, in any situation in which he determines to exercise the authority set out above, to direct the Secretary of Defense to provide supplies, services, and equipment necessary for the immediate preservation of life and property. Such supplies, services, and equipment may be provided: (1) Only to the extent that the constituted authorities of the State are unable to provide them; (2) only until other departments and agencies of the United States charged with such responsibilities are able to provide them; and (3) only to the extent that their provision will not interfere with preparedness or ongoing operations. This authority is not subject to the provisions of section 403© of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170b©).

The provision would further include a conforming amendment to section 12304© of title 10, United States Code, to remove a restriction on the use of the Presidential Selected Reserve call up authority in chapter 15 or natural disaster situations. The House bill contained no similar provision. The House recedes with an amendment that would modify the conforming amendment to section 12304© to provide that the Presidential Selected Reserve call up authority could be used in situations arising under chapter 15 and section 12406 of title 10, United States Code, as well as in situations set out in subsection (b) of section 12304.

HONORING OUR ARMED FORCES

TECHNICAL SERGEANT TIMOTHY WEINER, SENIOR AIRMAN DANIEL MILLER AND SENIOR AIRMAN ELIZABETH LONCKI

Mr. HATCH. Mr. President, today I pay tribute to three members of Hill Air Force Base's 75th Air Base Wing who, together, lost their lives in Iraq in performance of their duties. Tsgt Timothy Weiner of Tamarack, FL, SrA Daniel Miller of Galesburg, IL, and SrA Elizabeth Loncki of New Castle, DE, were killed while disarming an explosive device.

One of the core values of the Air Force is "Service Before Self." These airmen met this standard every day while disarming improvised explosive devices and destroying munitions to protect their fellow servicemen and the people of Iraq. All three knew the risks inherent in their assignment, but still chose to volunteer so that others may be safe.

Technical Sergeant Weiner was the youngest of four sons of Ken Weiner, a Korean war veteran, and Marcia

Fenster. It should be noted that all the sons of the Weiner family have worn the uniform of their Nation. Technical Sergeant Weiner's mother said, "he was a unbelievable father and husband who could do a job that was rough and so demanding but was also a man who could show love and was not afraid to."

This was Sergeant Weiner's second tour in Iraq. His professionalism is best exemplified by the fact that, in a previous assignment, he was part of explosive ordnance disposal team that provided protection for the President. He is survived by his wife Debbie and son Jonathan. The technical sergeant had planned to retire within a couple of years and work with computers. Now our prayers go with his wife and son.

SrA Airman Daniel Miller was the oldest of six children of Daniel B. Miller and Robin Mahnesmith. He is remembered by his family and friends as a happy person, who loved football, enjoyed hunting and fishing and was a silent leader. His girlfriend Dana Sopher stated "the love he had for his family was just amazing." Senior Airman Miller knew of the risk of his job but still believed that you "just have to live life." Senior Airman Miller had hoped to work for a metropolitan bomb squad after he had completed his service with the Air Force. I know I join with all of my colleagues in praying for his family during these difficult times.

SrA Elizabeth Loncki was also the oldest child of Stephen and stepmother Christine Loncki, who still plans on sending cookies and baked goods to troops in Iraq. After learning of her death, one of her training instructors contacted Senior Airman Loncki's family and recounted that Elizabeth had excelled at her explosive ordnance disposal training class and was a valuable member of any team. Senior Airman Loncki planned on getting married after she returned from Iraq; her future fiancé was to visit her parents shortly and ask permission for the senior airman's hand in marriage. He has since accompanied her home to her family. Again our prayers go to her family.

All three of these airmen were heroes in the truest sense of the word. They volunteered for one of the most dangerous jobs in our Nation's military and risked their lives every day. Their sacrifice was not in vain, their bravery in the face of danger is an example to us all. They met and exceeded the Air Force principle of "Service Before Self."

CAPTAIN BRIAN S. FREEMAN

Mr. President, I would like to take this opportunity to recognize the loss of CPT Brian S. Freeman whose mother, Kathleen Snyder, is a resident of Utah.

Captain Freeman died while performing his duties in Karbala, Iraq, where he was assigned to the 412th Civil Affairs Battalion, U.S. Army Reserve, based in Whitehall, OH.

Captain Freeman resided in Temecula, CA, with his wife Charlotte, a 3-year-old son, Gunnar, and a 3-month-old daughter, Ingrid. The captain had just returned to Iraq after a 2-week Christmas leave. Charlotte Freeman commented about that time, "We did all the family things packed into two weeks. It was wonderful. We had a picture perfect family and the two weeks were perfect."

The captain was a 1999 West Point graduate who, after returning home, planned to attend graduate school. He had already received an important letter of recommendation from the Governor of Karbala who wrote: "Freeman has assisted in forming a warmer relationship with the Army . . . I think Capt. Freeman genuinely cares about what happens to Karbala and its people."

For a member of a civil affairs unit, whose responsibility it is to assist the local population while developing and maintaining close relationships with indigenous government officials, I cannot think of any higher praise. Not surprisingly, Captain Freeman had been decorated with two Army commendation medals, two Army achievement medals, a national defense service medal and a global war on terrorism service medal. I also understand that he was a member of the Army's bobsledding team.

America has lost another decorated hero. Captain Freeman had hope to make a difference during his time in Iraq. I believe that anyone who looks at the life and actions of Captain Freeman will see that he more than achieved that goal.

Captain Freeman and his family will always be in my prayers.

ANNIVERSARY OF THE L'AMBIANCE PLAZA COLLAPSE

Mr. DODD. Mr. President, yesterday marked the 20th anniversary of a dark day in my State's history: The day the L'Ambiance Plaza towers collapsed in Bridgeport and took with them the lives of 28 Connecticut construction workers.

For millions of people in Connecticut, that day's images are still fresh; time can blunt their pain, but it can never erase them. We remember the shock: 16 stories of new apartments reduced with a roar, within seconds, to ruined concrete and steel. We remember the hundreds of volunteers who combed the wrecked piles for their friends. This is how one newspaper reported their remarkable endurance: "Physically and emotionally drained by a nightmarish task of seeking and sometimes finding the bodies of friends and loved ones, some of the volunteers have pushed themselves to exhaustion, working around the clock and then begging to go on working." We remember their frantic search for survivors,

and the slow-dawning truth that there were none.

But above all, we remember 28 men who died too soon. They were union men from Bridgeport and Waterbury who poured concrete, laid pipe, and fixed steel. Not a single one of them went to work that morning expecting to die; but each knew the high risks of his trade, and willingly took them on to make a good living for his family.

We can clear rubble and rebuild towers, but not a single life can be replaced. If this tragedy can give us anything to be thankful for, it is the end of the dangerous lift-slab construction method that led to the collapse. We can and must demand the safest conditions for all workers, and do everything it takes to protect them. But try as we might, we will never be able to outlaw collapse, or regulate accidents, or legislate against tragedy.

We can only send our thanks to the men and women who risk themselves so we can lie down and wake up in safety and comfort. For those who died 20 years ago, we can pledge to keep their memories fresh. And today, we can repeat their names:

DARFUR

Mr. DODD. Mr. President, today I wish to talk about the ongoing genocide in Darfur, and this administration's inexcusable failure to do all it can to stop the violence there. We all understand the monumental challenge we face in ending the violence in Darfur, but this administration's behavior and recent statements on this issue suggest that it simply does not know when to stop talking and when to start acting. And all the while innocent people continue to needlessly die under our watch.

Last fall, the President's Special Envoy for Darfur, Andrew Natsios, announced that if the Sudanese Govern-

ment did not accept a U.N.-African Union peacekeeping force by January 1, the administration would implement punitive measures as part of its Plan B.

Well here we are today. Over 100 days have passed since January 1. And what do we have to show for it? No U.N.-African Union peacekeeping force on the ground in Sudan. And no Plan B.

Meanwhile the death toll has risen. Over the course of the conflict, 200,000 people have been killed; 2.5 million displaced. Families and villages have been decimated; women and girls have been raped.

Fighting has infected Sudan's neighbors, leaving scores dead along the Sudan-Chad border. One U.N. official recently described the scene of dead bodies in the area as "shocking and apocalyptic."

So much death and destruction, 2½ years after this administration stated that genocide was indeed occurring in Darfur. More than 100 days after Mr. Natsios's deadline, the killings continue.

Earlier this month, Mr. Natsios testified before the Foreign Relations Committee on Darfur and Plan B. His testimony only deepened my concerns about the administration's Darfur paralysis.

When asked repeatedly by Senator MENENDEZ to answer yes or no as to whether genocide was occurring in Darfur, he did not answer yes. Instead his response was that the violence has abated in Darfur and that the rebel groups were also engaging in killings. His answer was incredibly disturbing to me and to other members of the committee.

Now I understand Mr. Natsios's desire to convey the complexity of the situation and the complicity of various parties on the ground, but the fact is that the primary party responsible for the killings is the Sudanese Government and its Janjaweed proxies. For Mr. Natsios to be unable to state that genocide is occurring in clear terms seems to me a classic example of missing the forest for the trees. It also raises a question of credibility. After all, how can this administration stop a genocide when its special envoy won't even fully acknowledge it?

Mr. Natsios also stated that although the President is supposedly angry about the situation in Darfur and has recently proposed certain sanctions, he has acceded to a request by U.N. Secretary-General Ban Ki-Moon to delay any implementation of Plan B for another two to four weeks to give the Secretary-General time to convince the Sudanese Government to accept a peacekeeping force.

Now 2 to 4 weeks may seem like nothing in the context of protracted and complex diplomatic negotiations, but this is no treaty that is being negotiated. There are lives at stake every day here and we just cannot afford to take a "wait and see" approach.

Recent reports suggest that the Sudanese Government has agreed to a hybrid force but based on its previous track record, I will believe it when I see some additional boots on the ground. In the meantime, a pause on the administration's part is simply unacceptable.

And so I believe that even as the modalities of a peacekeeping force, that may or may not materialize, are worked out, the administration must begin implementing certain elements of Plan B immediately. Not 4 weeks from now. Not 2 weeks from now. Immediately.

Select punitive measures as described by Mr. Natsios at the hearing include imposing personal sanctions on certain members of the rebel groups and the Sudanese Government; curbing the Sudanese Government's access to oil revenues; and increasing penalties on companies operating in Sudan.

There is nothing revolutionary about these measures. They were leaked to the public and have been under discussion for some weeks. The question in my mind is not so much about whether we should implement them but why haven't we already implemented them.

As chairman of the Banking Committee and a senior member of the Foreign Relations Committee, I am absolutely willing to work with the administration to put these measures into force and look forward to some clear answers from the administration on this.

Now let me be clear about what I mean in saying we should go ahead and implement elements of Plan B. I fully appreciate the sensitivities of our diplomatic efforts related to Darfur. I fully agree with the importance of working this issue through the U.N. in a multilateral manner. But if there are certain steps that the United States can take on its own account and indeed was supposed to take over 100 days ago to pressure the Sudanese Government, then what are we waiting for?

The time has come to delink certain elements of Plan B from our broader multilateral strategy to pressure Khartoum. The time has come to act where and when we can. This administration has shown no compulsion in acting unilaterally in the past. It did so by invading Iraq with disastrous consequence. Why does it continue to keep one foot on the side lines 4 years into this genocide when it not only has the ability but also the moral responsibility to act?

Moreover, we must not stop at implementing long overdue sanctions whose credibility has been called into question because they have yet to be implemented. We must also consider a more robust role for NATO forces, including their deployment to Sudan if the Sudanese Government continues to obstruct a hybrid peacekeeping force.

Even if the Sudanese Government consents to the U.N.-AU force, the

United Nations may fail to muster the requisite troops within an acceptable period of time. In such a scenario, we should consider the deployment of an interim NATO force with U.S. participation. At a minimum, NATO forces, which already provide logistical support to the African Union mission, should enforce a no-fly zone in Darfur pursuant to U.N. Resolution 1591 to prevent military flights over Darfur.

Naturally, special attention will have to be paid in any operation to the security of refugee camps and aid workers but to those who say that military action will make things worse, I have only one thing to say: we are already at rock bottom.

The authorization of force is one of the most critical decisions a member of Congress has to make, especially if it entails sending our brave men and women into harm's way on the ground. U.S. participation however in any such action, even in a limited capacity, is critical to showing the world that America is not just about fighting the war against terrorism but also is willing to fight against injustice and mass murder. That we are prepared to fight for the principles of respect for human dignity and life, and not just talk about them.

In advocating certain measures outside the framework of the United Nations, I do not intend to dismiss the critical role that the U.N. and other countries can play. The fact is that the U.S. has limited leverage over Sudan and we need all the help we can get. We must work within the U.N. system, and also press other key countries that deal with Sudan such as India and China to do their part. China in particular has a crucial role to play in changing Khartoum's behavior.

But even as we assess the role and responsibilities of others, we must never forget our own. We must lead by example. Over the past few years, I have voted for legislation sanctioning the Government of Sudan. I have delivered floor statements and attended hearings on Darfur, where witness after witness has testified to the ongoing atrocities. I have sent letters to the Chinese, the Russians, the Arabs and others urging them to use their clout with Sudan.

Yet after all such actions and deliberations by members of this body and after all the punitive authorities granted to this administration, to see it temporizing and regressing to a point where we are debating whether genocide is even occurring is utterly unacceptable.

The time for action is now, not in a few weeks. We are at rock bottom and the administration needs to deliver on its threats and translate its rhetoric into action. We must do everything in our power to end the genocide in Darfur immediately.

DISCUSSING PRESSING ISSUES FACING THE NATION

Mr. KENNEDY. Mr. President, on April 27–29, more than 800 of the foremost scientists, humanists and leaders in business and public affairs will gather here in Washington when the Nation's two oldest learned societies—the American Academy of Arts and Sciences and the American Philosophical Society—meet jointly for the first time.

Both organizations predate the birth of the Nation, and among their founders were Benjamin Franklin, John Adams, James Bowdoin, and John Hancock.

The two organizations were established to help advance “useful knowledge” in the colonies by promoting enlightened leaders and an engaged citizenry, and they have remained faithful to their original missions to the present day. Their current membership includes more than 170 Nobel laureates and more than 50 Pulitzer Prize winners.

This joint meeting, entitled “The Public Good: Knowledge as the Foundation for a Democratic Society” will bring together academics and practitioners for a series of panel discussions, conversations and dinner programs on many of the most pressing issues facing the Nation.

Joining them for the unprecedented 2½-day meeting will be members of these congressionally chartered National Academies—the National Academy of Sciences, the National Academy of Engineering, and the Institute of Medicine.

At the opening of their meeting next week, the presidents of all five organizations will issue a joint statement affirming the importance of knowledge as the foundation for sound policy-making for the public good, and I ask unanimous consent that their unprecedented joint statement be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

KNOWLEDGE IN SERVICE TO THE PUBLIC GOOD

As America's oldest national learned societies, we trace our origins to the tumultuous periods in the Nation's history. The American Philosophical Society was founded by Benjamin Franklin in 1743, during a period of rapid growth and intellectual development in the American colonies. The American Academy of Arts and Sciences was founded by John Adams in 1780, in the midst of the Revolutionary War. The National Academy of Sciences (1863), the National Academy of Engineering (1964), and the Institute of Medicine (1970) were all established under legislation signed by President Abraham Lincoln during the Civil War.

Our founders shared a conviction that knowledge in service to the public good is an indispensable pillar of our Nation. We have remained committed to that vision over the centuries, because democracy requires freedom of inquiry, engaged and educated citizens, and a wise and responsive government.

Our societies, individually and collectively, represent leading thinkers and practitioners of the Nation. We honor excellence and use our unique convening powers to engage the expertise of our members in collaborative action. We actively create, preserve, support, and disseminate knowledge critical to the growth and well-being of our Nation.

Each generation must reaffirm and reinforce the founders' reverence for scholarship and knowledge as the cornerstones of progress and the building blocks of enduring institutions. We live in an age of instantaneous access to unimaginably rich sources of information, but truly useful information continues to depend on underlying research and basic knowledge.

The Academies assemble today not just to assert the importance of research and free inquiry in every field, but to give practical demonstration of their worth through reflection on topics that affect the workings of our society and that define the public good. A nation attentive to these values will long endure.

Signed by: Emilio Bizzi, President, American Academy of Arts and Sciences; Baruch S. Blumberg, President, American Philosophical Society; Ralph J. Cicerone, President, National Academy of Sciences; Harvey V. Fineberg, President, Institute of Medicine; Wm. A. Wulf, President, National Academy of Engineering.

NOTICE OF CHANGE IN TRANSIT SUBSIDY REGULATIONS

Mrs. FEINSTEIN. Mr. President, I wish to announce that in accordance with Title V of the Rules of Procedure of the Committee on Rules and Administration, the Committee has amended the "Public Transportation Subsidy Regulations." Based on the Committee's review of the regulations adopted on August 1, 1992, as amended, the following changes are effective April 24, 2007.

The regulations are amended by deleting and substituting as follows:

Sec. 2, substitute entire section for the following:

Sec. 2. Authority

The Federal Employees Clean Air Incentives Act (Pub.L. 103-172) allows Federal agencies to participate in state or local government transit programs that encourage employees to use public transportation. The Tax Reform Act of 1986, as amended by the Transportation Equity Act for 21st Century (Pub.L. 105-178) allows employers to give employees as a tax free "de minimis fringe benefit" transit fare media up to the maximum monthly amount authorized under section 132(f)(2)(A) of the Internal Revenue Code of 1986, as modified by the Internal Revenue System's published Revenue Procedures, and upon written authority of the Rules Committee.

Sec. 3. (e)

Delete "Pub. L. 101-509" and insert "Pub. L. 103-172".

Sec. 3, insert definition at end of Section

Insert the following definition at the end of the definition: "(f) Unique Identifier—A number or token, as approved

by the Committee on Rules and Administration, designed to be used across all systems in the United States Senate to uniquely identify an individual's set of records within each of those systems."

Sec. 4. (a)

Delete "currently not to exceed \$105 per month."

Sec. 4. (e)

Replace entire section with the following language: "(e) Any fare media purchased under this program may not be sold or exchanged, although exchanges of metro card media are permissible for transportation provided by Virginia Railway Express (VRE), the Maryland Transit Administration's (MARC's) train, or vanpools certified by Washington Metropolitan Area Transit Authority (WMATA)."

Sec. 7

Delete "social security number" and insert in its place "unique identifier." Delete "(currently \$105)".

Sec. 8. (A)

Delete "Pub. L. 101-509" and insert "Pub. L. 103-172".

Set forth below are the amended regulations which are effective April 24, 2007:

PUBLIC TRANSPORTATION SUBSIDY REGULATIONS

Sec. 1. Policy

It is the policy of the Senate to encourage employees to use public mass transportation in commuting to and from Senate offices.

Sec. 2. Authority

The Federal Employees Clean Air Incentives Act (Pub. L. 103-172) allows Federal agencies to participate in state or local government transit programs that encourage employees to use public transportation. The Tax Reform Act of 1986, as amended by the Transportation Equity Act for 21st Century (Pub. L. 105-178) allows employers to give employees as a tax free "de minimis fringe benefit" transit fare media up to the maximum monthly amount authorized under section 132(f)(2)(A) of the Internal Revenue Code of 1986, as modified by the Internal Revenue System's published Revenue Procedures, and upon written authority of the Rules Committee.

Sec. 3. Definitions

(a) Public Mass Transportation—A transportation system operated by a State or local government, e.g. bus or rail transit system.

(b) Fare Media—A ticket, pass, or other device, other than cash, used to pay for transportation on a public mass transit system.

(c) Office—Refers to a Senate employee's appointing authority, that is, the Senator, committee chairman, elected officer, or an official of the Senate who appointed the employee. For purposes of these regulations, an employee in the Office of the President pro tempore, Deputy President pro tempore, Majority Leader, Minority Leader, Majority Whip, Minority Whip, Secretary of the Conference of the Majority, or Secretary of the Conference of the Minority shall be considered to be an employee, whose appointing authority is the Senator holding such position.

(d) Qualified Employee—An individual employed in a Senate office whose salary is dis-

bursed by the Secretary of the Senate, whose salary is within the limit set by his or her appointing authority for participation in a transit program under these regulations, and who is not a member of a car pool or the holder of any Senate parking privilege.

(e) Qualified Program—Refers to the program of a public mass transportation system that encourages employees to use public transportation in accordance with the requirements of Pub. L. 103-172 whose participation in the Senate program in accordance with these regulations has been approved by the Committee on Rules and Administration.

(f) Unique Identifier—A number or token, as approved by the Committee on Rules and Administration, designed to be used across all systems in the United States Senate to uniquely identify an individual's set of records within each of those systems.

Sec. 4. Program Requirements

(a) Each office within the Senate is authorized to provide to qualified employees under its supervision a de minimis fringe employment benefit of transit fare media of a value not to exceed the amount authorized by statute.

(b) Each appointing authority may establish a salary limit for participation in this program by his or her employees. If such salary limit is established, all staff paid at or below that limit, and who meet the other criteria established in these regulations, must be permitted to participate in this program.

(c) For purposes of these regulations, an individual employed for a partial month in an office shall be considered employed for the full month in that office.

(d) The fare media purchased by participating offices under this program shall only be used by qualified employees for travel to and from their official duty station.

(e) Any fare media purchased under this program may not be sold or exchanged, although exchanges of Metro Card Media for transportation provided by Virginia Railway Express (VRE), the Maryland Transit Administration's MARC trains, or vanpools certified by Washington Metropolitan Area Transit Authority (WMATA).

(f) In addition to any criminal liability, any person misusing, selling, exchanging or obtaining or using a fare media in violation of these regulations shall be required to reimburse the office for the full amount of the fare media involved and may be disqualified from further participation in this program.

Sec. 5. Office Administration of Program

Each office electing to participate in this program shall be responsible for its administration in accordance with these regulations, shall designate an individual to manage its program, and may adopt rules for its participation consistent with these regulations.

An employee who wishes to participate in this program shall make application with his or her office on a form which shall include a certification that such person is not a member of a motor pool, does not have any Senate parking privilege (or has relinquished same as a condition of participation), will use the fare media personally for traveling to and from his or her duty station, and will not exchange or sell the fare media provided under this program. The application shall include the following statement:

This certification concerns a matter within the jurisdiction of an agency of the United States and making a false, fictitious, or fraudulent certification may render the maker subject to criminal prosecution under 18 U.S.C. 1001.

Safekeeping and distribution of fare media purchased for an office is the responsibility of the program manager in that office. Participating offices may not refund or replace any damaged, misplaced, lost, or stolen fare media.

Sec. 6. Senate Stationery Room Responsibilities

The only program currently available in the Washington, DC metropolitan area at this time is "Metro Pool," a program established through Metro by the District of Columbia. Transit benefits will be provided through Metro Pool for participating offices in the Washington, DC area. The Committee on Rules and Administration shall enter into an agreement with Metro Pool for purchase of fare media by the Senate Stationery Room as required by participating offices on a monthly basis. A participating office shall purchase the fare media with its authorized appropriated funds from the Senate Stationery Room through its stationery account pursuant to 2 U.S.C. §119.

Each office shall present to the Senate Stationery Room [two copies of] the certification referred to in section 7 of these regulations. A new certification shall be submitted when an employee is added to or deleted from the program. The Stationery Room shall make available to the Senate Rules Committee Audit Section a monthly summary of office participation in this program. In addition, the Stationery Room may not refund or replace any damaged, misplaced, lost, or stolen fare media that has been purchased through the office's stationery account.

Sec. 7. Certification

The certification required by section 6 shall be approved by the appointing authority and shall include the name, and unique identifier of each participating employee within that office, and the following statements:

(a) Each person included on the list is currently a qualified employee as defined in Section 3.

(b) No person included on the list has any current Senate parking privilege and that no parking privileges will be restored to any person on the list during the period for which the fare media is purchased.

(c) That each month's fare media for each participating employee does not exceed the maximum dollar amount specified in statute.

Sec. 8. Other Participating Programs

Section 6 provides for procedures for participation by Washington offices in the Metro Pool program established through Metro by the District of Columbia. Additional programs in the Washington, DC metropolitan area, or programs offered in other locations where Members have offices that meet the requirements of the law and these regulations, may be used for qualified employees, subject to the following requirements:

(A) Authorization

The public transit system shall submit information to the Committee on Rules and Administration that it participates in an established state or local government program to encourage the use of public transportation for employees in accordance with the provisions of Pub. L. 103-172 and these regulations. If the program meets the requirements of the statute and these regulations and is approved by the Committee on Rules and Administration, any Senate office served by such transit system may provide benefits to its employees pursuant to these regulations.

(B) Procedures

(1) A qualified program operating in the Washington, DC metropolitan area that does not have purchase arrangements similar to those provided by the Metro Pool program shall participate in the Senate program in accordance with the procedures set forth in Section 6.

(2) A qualified program operating in the Washington, DC metropolitan area that does not have purchase arrangements similar to Metro Pool, or a qualified program located outside that metropolitan area, that permits purchases directly by an office, may make arrangements for purchase of media directly with a participating office. Such an office may provide for direct payment to that system and shall submit the certification in accordance with Section 7.

(3) In the case of a qualified program that does not permit purchase arrangements as provided in paragraphs (1) or (2) above, an office may provide for reimbursement to a qualified employee and shall submit a certification in accordance with Section 7.

(C) Documentation

The following documentation must accompany a voucher submitted under paragraph 8(B)(2) or (3):

(1) A copy of the Rules Committee approval, in accordance with section 8(A), with the first voucher submitted for that transit program, provided subsequent vouchers identify the transit program.

(2) The certification.

(3) Proof of purchase of the fare media.

(D) Voucher Guidance

In the case of a Senator's state office, reimbursement for payment to either a qualified transit system, or a qualified employee shall be from the Senators' Official Personnel and Office Expense Account (SOP&OEA) as a home state office expense on a seven part voucher. In the Washington, DC metropolitan area, reimbursement for payment to either a qualified transit system, or a qualified employee shall be as follows:

1. In the case of a Senator's office from the SOP&OEA as an "other official expense" (discretionary expense).

2. In the case of a Senate committee or administrative office as an "Other" expense.

Sec. 9. Special Circumstances

Any circumstances not covered under these regulations shall be considered on application to the Committee on Rules and Administration.

Sec. 10. Effective Date

These regulations shall take effect on the first day of the month following date of approval.

THE STATE OF SMALL BUSINESS MANUFACTURING

Ms. SNOWE. Mr. President, today I commemorate National Small Business Week, which President Bush designated for April 22-28, 2007. As ranking Member of the Senate Committee on Small Business and Entrepreneurship, I have made it one of my top priorities to champion our Nation's small businesses and manufacturers and promote their needs and concerns. Our top job creators deserve nothing less. The fact is, small businesses are the driving force behind our Nation's economic growth, creating nearly three-quarters of all net new jobs and employing nearly 51 percent of the private sector workforce. It is essential that we in

Congress continue to support small businesses ability to grow and expand so our economy can accelerate forward and create more jobs.

I can tell you, there is no higher priority for me than bolstering the state of our Nation's small manufacturers. In Maine, more than 20,700 manufacturing jobs disappeared between August 2000 and August 2006. We here in Congress cannot accept any more losses as a foregone conclusion. This vital sector continues to face tremendous challenges—taking on a significant level of domestic costs that foreign competitors do not, including labor costs, fuel costs, and the regulatory and tax burden. Sadly, as a result, many manufacturers are forced to close their doors or outsource abroad.

The reality is, the manufacturing sector, more than any other sector, drives our Nation's economy—with manufacturers responsible for more than 70 percent of private sector research and manufacturing goods making up over 60 percent of U.S. exports. There is no coincidence that this is a value added industry.

I believe that we can and must fight for our Nation's manufacturers especially when you consider the manufacturing industries pay wages that are about one-third higher than average wages. And that is all the more true for small business when they have resources available that have proven their value, including the SBA which has helped to create or retain over 5.3 million jobs since 1999. And just last year, the manufacturing extension partnership's, MEP's, services helped to create and retain over 35,000 jobs and increase revenue by \$6.25 billion. We must work hand-in-glove with Small Business Administration, SBA, and MEP to bolster our manufacturing base to ensure not only that resources are available to those who wanted to either maintain, grow, or start small businesses.

That is why I introduced an amendment today to the America COMPETES Act that clarifies the MEP non-Federal cost share language to enable the MEP centers to draw down all of their available funding and further enhance their capability and capacity to work with manufacturers.

This amendment clarifies the intent of Congress when it first enacted the statute authorizing the Manufacturing Extension Partnership Program, now known as the Hollings Manufacturing Partnership Program, to provide Federal assistance to manufacturers in the United States.

A key concept in the program is the requirement that each center obtain 50 percent of its capital and annual operating and maintenance costs from sources other than the Federal Government. The National Institute of Standards and Technology, NIST, officials have, in the past, properly considered

cost share requirements to have been met when centers partnered or entered into other agreements with other organizations meeting the needs of American manufacturers.

This amendment clarifies and re-emphasizes that such agreements and partnerships, and the money spent by those organizations assisting American manufacturers, clearly are to be considered proper cost share as long as the partnering organization is meeting the programmatic objectives for assistance to be provided to American manufacturers as set forth for the Hollings Manufacturing Partnership Program. By teaming with such organizations, as encouraged by the original statute, the centers can and do leverage their Federal resources and avoid duplicating services necessary for the successful operation of American manufacturers. With the right resources, many more small manufacturers will be eligible to use this program to help grow their business.

We cannot ignore the effect that countries like China are having on our Nation's manufacturers. In order to compete fairly in this increasingly competitive global market we must ensure that currencies are not strategically manipulated. That is why I will continue to work with the President and those in Congress to ensure that our Nation gets tough with China on those important issues. I continue to pressure the Treasury Department and the U.S. Trade Representative to also work toward that goal China to move toward a market-based exchange rate.

The bottom line is, our country's future will be determined by today's small businesses. The faster we strengthen and sustain our Nation's small manufacturers, the more quickly America's economy will grow.

VETERANS HONOR FLIGHT

Mr. DORGAN. Mr. President, North Dakota has long maintained strong ties with our Nation's military.

My State is home to two Air Force bases and the Nation's best Air National Guard unit. More of our young people volunteer to serve their country in the military than nearly any other State.

In North Dakota, our commitment to our troops does not end when we welcome them home from war. We also have a strong tradition of honoring our veterans. In fact, when I started a North Dakota Veterans History Project 5 years ago to record the stories of our veterans for future generations, the outpouring of interest resulted in more than 1,500 interviews.

So I did not find it surprising that when the WDAY television station based in Fargo, ND, organized an "Honor Flight" to bring veterans of World War II to Washington, D.C., it had an overabundance of donors and

too few seats to accommodate all the veterans. But WDAY has chartered a flight to Washington next month and will bring 100 veterans of World War II to see the memorial on our National Mall that was built in their honor. My colleagues, Senator CONRAD and Congressman POMEROY, and I will host a reception for them in the historic Russell Caucus Room.

I can't think of a better way to pay tribute to these heroes than this trip to our Nation's Capital. Many of them will visit for the first time the World War II Memorial that is a powerful symbol of the sacrifice they made for the safety and freedom of our country and the world.

This is a group of Americans who were appropriately labeled "the greatest generation" by Tom Brokaw. I remember reading his book some years ago and marveling again at the dedication those young men, and some young women, expressed to this country. They dedicated their lives to defeating the fascism and Nazism that threatened the peace and prosperity of the world. They kept the free world free. Many paid for it with the ultimate sacrifice—their lives.

Several years ago, I was reminded just how important their sacrifice was when I was part of a congressional delegation involved in discussions with members of the European Parliament. We had been discussing some differences between the United States and the Europeans for some time. It was at this point that a European delegate stopped me and said, "Mr. Senator, I want you to understand how I feel about your country."

He said, "In 1944, I was 14 years old and standing on a street corner in Paris, France, when the U.S. Liberation Army marched in and freed my country from the Nazis."

He said, "A young American soldier reached out his hand and gave that 14-year-old boy an apple. I will go to my grave remembering that moment. You should understand what your country means to me, to us, to my country."

To me, this man's story is a testament to the respect and admiration people around the world feel for our country. And this is because the "greatest generation"—those same men and women who will visit Washington next month—were willing to leave their homes so many years ago and travel around the world to fight an enemy that threatened our freedom. They did it without complaint and without question. They loved their country.

There is a verse that goes, "When the night is full of knives, and the lightning is seen, and the drums are heard, the patriots are always there, ready to fight and ready to die, if necessary, for freedom."

The men and women who will travel to Washington next month are patriots

who answered when duty called. The Honor Flight is an expression of our thanks for the sacrifice they made that is too large to ever fully repay.

ANNOUNCING THE BIRTH OF ROBERT RILEY LUGAR

Mr. LUGAR. Mr. President, Char and I want to share with all of our colleagues and friends the joyous news of the birth of Robert Riley Lugar on April 16, 2007, at Sibley Memorial Hospital in Washington, DC. Robert Riley was a healthy 8 pounds at birth. His parents are our son, John Hoereth Lugar, and his wife, Kelly Smith Lugar, daughter of Renee Routon Conner and the late Robert Lee Smith. Robert Riley was born at 6:21 p.m., and within the next hour, Renee, Char, and I were in the delivery room to admire a very healthy newborn baby boy and to congratulate John and Kelly as we shared these unforgettable moments together. Robert Riley joins his big brothers Preston Charles and Griffin Mack.

Kelly and John were married on November 3, 2001, in the Washington Cathedral with Dr. Lloyd Ogilvie, former Chaplain of the Senate, presiding. They and their families and guests had enjoyed a rehearsal dinner in the Mansfield Room of the Capitol on the night before the wedding. Kelly worked with many of our colleagues during her service to the administration of President George Bush and our former colleague, Secretary of Energy Spencer Abraham, as Deputy Assistant Secretary with responsibilities for congressional relations. She now has a private consulting business. A graduate of the University of Texas, she was once a member of the staff of Congressman RALPH HALL of Texas. John Lugar came with us to Washington, along with his three brothers, 30 years ago. He graduated from Langley High School in McLean, VA, Indiana University, and received his master's of business administration degree from Arizona State University. He is currently a vice president with Jones Lang LaSalle, a commercial real estate services and investment management firm.

We know that you will understand our excitement and our gratitude that they and we have been given divine blessing and responsibility for a glorious new chapter in our lives.

100TH ANNIVERSARY OF LENEXA, KANSAS

Mr. ROBERTS. Mr. President, I wish to honor the city of Lenexa, KS. On May 8, Lenexa, which is known as the City of Festivals for the numerous festivals and events it hosts each year, will mark its 100th anniversary. This grand event will be part of a weeklong community celebration of history and culture.

Lenexa was platted in 1869 by French-born civil engineer Octave Chanute, who, in addition to designing the original Hannibal Bridge over the Missouri River in Kansas City, also served as a mentor to the Wright Brothers in their quest for flight.

Lenexa was named for Na Nex Se, a highly respected, hard-working Shawnee Indian woman, the daughter-in-law of Chief Black Hoof. Thirty-eight years later, on May 8, 1907, Lenexa was incorporated as a City of the 3rd Class.

In Lenexa's earliest days, people from various backgrounds and cultures came together to form this great city. With a population of approximately 300, the young community boasted a healthful location, graded schools, three churches, suburban train service, excellent telephone service, and an electric railway station.

Today, Lenexa has grown to a population of 46,000 residents and enjoys a healthy business base and is considered a city of choice for a variety of high-tech and bioscience companies. The city also is looked to as a leader in local government initiatives, including watershed management and public safety.

Lenexa cherishes its rich history, heritage and culture, and with this celebration marking the city's 100th anniversary, Lenexa honors its past while looking forward to the future. I congratulate Lenexa and its residents, and I wish them an outstanding second hundred years.

ADDITIONAL STATEMENTS

IN RECOGNITION OF BISHOP ARETHA E. MORTON

• Mr. BIDEN. Mr. President, I wish to honor one of the great inspirations to the young people of my hometown, Bishop Aretha E. Morton, who will be retiring this week from the Tabernacle Full Gospel Baptist Cathedral in Wilmington.

On this day, 48 years ago, she preached her trial sermon; 24 years later she was ordained, becoming the first woman to pastor a Baptist Church in Delaware. She has now served longer than any pastor in her church's almost 90-year history.

She also made history in 1993 by becoming the first woman, and the first African-American, to be a chaplain for the Wilmington Fire Department.

Around Wilmington, where everyone knows Bishop Morton, she is affectionately called "Mother"—and for good reason. She has spent her career reaching out to my city's youth, inspiring students to achieve and offering something that those in trouble don't have enough of—hope.

For all of us in this Chamber, she is an example of what the country needs more of right now, someone with a lot

of love in her heart, who teaches tolerance and respect.

I wish Bishop Morton the very best and hope that she has more time to spend with her children, Lorraine Gaskins and Dr. Donald Morton, seven grandchildren, and eight great-grandchildren.●

COMMENDING THOMAS AND JOAN BURNS

• Mr. BOND. Mr. President, for over 50 years, Thomas W. Burns, MD, and Joan F. Burns have served the University of Missouri-Columbia with great distinction. To honor this service, on April 27, 2007, the university will dedicate the Thomas W. and Joan F. Burns Center for Diabetes and Cardiovascular Research at the University of Missouri-Columbia School of Medicine.

Thomas W. Burns was one of the founding faculty members of MU's medical center, which opened in 1956 and graduated its first class of physicians in 1957. Since then, hundreds of physicians who trained under him have gone on to lead distinguished careers in medical care, education and research. MU's medical center has treated hundreds of thousands of patients from Missouri and beyond.

Dr. Burns has been a pioneer in endocrinology and contributed greatly to MU's national reputation in diabetes care, prevention, and research. Dr. Burns was a key architect in establishing MU's Cosmopolitan International Diabetes and Endocrinology Center and for many years served as the center's founding director. The Cosmopolitan International Diabetes and Endocrinology Center established by Dr. Burns was the first public-private partnership at MU. Thousands of patients have received state-of-the-art care in Mid-Missouri as a result of Thomas W. Burns' tremendous contributions to medicine.

Dr. Burns has received numerous awards from community, State and national organizations. The American College of Physicians, the largest internal medicine organization in the country, bestowed on him the title of "Master," which is the ACP's highest academic honor, and presented him with the Laureate Award. Dr. Burns also received the University of Missouri Faculty-Alumni Award in 1986 and the University of Missouri Distinguished Faculty Award in 1992.

Thomas and Joan Burns are leaders in recognizing that diabetes and cardiovascular disease are linked and that together the diseases constitute one of the most pressing health problems for Missouri and the Nation. Their contribution and legacy will allow MU to make potentially lifesaving advances in diabetes and cardiovascular research.●

CONGRATULATING THE UNIVERSITY OF WISCONSIN-MADISON MEN'S INDOOR TRACK AND FIELD TEAM

• Mr. FEINGOLD. Mr. President, I congratulate the University of Wisconsin men's track and field team for winning the 43rd annual National Collegiate Athletic Association, NCAA, Indoor Track and Field Championship. As a proud alumnus, I enjoy the many opportunities to tout the success of the Badgers to my colleagues.

With their win on March 10, 2007, the Wisconsin men's track team became the first-ever Big Ten Conference school to win the NCAA Division I Indoor Track and Field Championship. Earlier in the season, the Badgers earned their seventh consecutive Big 10 championship by defeating the University of Minnesota by 27 points on February 24, 2007.

I sincerely congratulate Coach Ed Nuttycombe and Assistant Coaches Jerry Schumacher and Mark Guthrie for their dedication and hard work throughout the season. Congratulations to senior Chris Solinsky, who rewrote the record book in Wisconsin as a high school runner, on winning his fourth individual NCAA title, placing first in the 5,000-meter race.

The athletic prowess of the University of Wisconsin is a source of pride throughout my State and for alumni everywhere. I applaud the men's track and field team for its impressive accomplishment and wish it best of luck for a successful future.●

COMMENDING TALMADGE KING, JR., MD

• Mrs. FEINSTEIN. Mr. President, I offer my personal congratulations to Talmadge E. King, Jr., MD, for receiving the Edward Livingston Trudeau Medal from the American Thoracic Society. The award recognizes Dr. King for his lifelong commitment to the prevention, diagnosis, and treatment of lung disease.

Throughout his career, Dr. King has made significant contributions to pulmonary medicine in patient care, research, specialty organization, and through his generous philanthropic contributions.

Dr. King began his illustrious career after graduating from Gustavus Adolphus College in 1970 and Harvard Medical School in 1974. Following his graduation from Harvard Medical School, he began his residency at Emory University Affiliated Hospitals in Atlanta, GA. After 2 years of residency at Emory, Dr. King was offered a pulmonary fellowship at the University of Colorado Health Sciences Center, Denver. Here he also held a professorship in medicine at the University of Colorado Health Sciences Center.

Over the next decade, Dr. King spent time at two other Denver hospitals, the

Veterans Administration Medical Center and the National Jewish Center for Immunology and Respiratory Medicine. In both of these capacities his talents as a doctor and as an administrator were quickly recognized and he rapidly advanced within both organizations.

By 1997, however, he was ready to bring his considerable talents to the Golden State—and we were happy to have him. Dr. King left Denver to take on two new roles in San Francisco, concurrently serving as the vice chairman of the Department of Medicine at the University of California, San Francisco and as the chief of medical services at San Francisco General Hospital. As chief of medical service at San Francisco General Hospital, he leads a department of over 140 full-time physicians and scientists and more than 500 support staff, with an annual budget of over \$65 million.

Currently, Dr. King still serves as the chief of medical services at San Francisco General, and since 2005, he has also served as the interim chairman of the Department of Medicine at the University of California San Francisco.

Dr. King is also a founding board member of the Foundation of the American Thoracic Society, the philanthropic arm of the American Thoracic Society. In this role, Dr. King has been an exemplary contributor and tireless fundraiser to support domestic and international research to find better treatments for the myriad of lung diseases that afflict individuals around the globe.

Of course, no congratulations would be complete without mentioning the contributions of his wife Mozelle Davis King and his two children Consuelo and Malaika who have been there every step of the way and provided him with steadfast love and support.

Again, I congratulate Dr. King on this great achievement and wish him continued success in the years to come. It is truly a pleasure to honor and thank him for all that he has done for patients across the country.●

BATAAN DEATH MARCH SURVIVOR

● Mr. HAGEL. Mr. President, this is an article from the April 20, 2007, *Omaha World Herald*, “Bataan Death March Survivor Still Beating Odds at 101” by Joseph Morton:

When Albert Brown returned home after years in Japanese camps for prisoners of war, a doctor told him to get out and enjoy life while he still could.

The native of North Platte, Neb., was unlikely to see 50, the doctor told him, given the illnesses, extreme malnutrition and physical abuse he suffered as a POW.

Brown is 101 now—the oldest living survivor of the Bataan Death March.

He was recognized by fellow survivors at a Washington conference this week that coincided with the 65th anniversary of the march.

During the trip, Brown visited with a fellow veteran from North Platte, Sen. Chuck Hagel, R-Neb. He sat in Hagel’s Capitol Hill office, spinning some of the tales he’s racked up over an eventful life.

His darkest stories come from the war.

In the late 1930s, Brown—who had been in ROTC in high school and college—got the call from Uncle Sam. He was to leave his Council Bluffs dental practice and report to the Army in two weeks.

In 1941, when he was 35, Brown was shipped off to the Philippines, not long before the Japanese attacked there. Out of supplies and with no reinforcements in sight, American forces and their Filipino allies surrendered after months of fighting in 1942.

The exact numbers vary somewhat from account to account, but more than 70,000 American and Filipino soldiers were captured. Overwhelmed with the task of transporting so many prisoners, the Japanese forced them to march north. Disease, thirst, hunger and killings marked the brutal ordeal, which lasted for days.

Brown recalled being lined up and forced to march with no food and no water. He said local civilians would approach and attempt to throw food to the marchers.

“The Japanese would beat the hell out of them,” he said. “They’d go over there and take the butt of their rifle and just beat the hell out of those people, girls and boys, that threw stuff in there.”

Brown also witnessed the beheading of a 17-year-old Marine, who was forced to the ground “on his hands and knees, and then they took the samurai sword out and severed his head.”

Brown himself was stabbed.

“I started faltering and got to the back of the pack, and then the Japanese (soldier) came up and stuck a bayonet in my fanny and he yelled ‘Speed-o!,’ and I knew what ‘speed-o’ meant. I never was at the back of the pack after that.”

At the prison camps in the Philippines, the violence and the shortages of food, medicine and water continued. Brown recalled how the temperature soared while the tens of thousands of men in camp relied on a single brass faucet for water. Fights would break out over places in line for that spigot, he said.

“Every drop in that canteen was your life.”

Later, Brown was one of the soldiers packed into a “hell ship” to camps in Japan and China. He remained a prisoner until the end of the war.

He suffered numerous health problems as a result of his captivity, even losing his eyesight for a time.

Brown’s memories also wind their way back to his childhood in North Platte. His father, an engineer with Union Pacific Railroad, was killed when a locomotive exploded in 1910.

The family lived a couple of blocks from William F. “Buffalo Bill” Cody. Brown said his family became friends with the former Wild West hero, whom he described as a quiet man who liked to sit on their porch. As a child, Brown recalled, he would sit on Cody’s lap and run a hand through his beard.

“I don’t know whether he liked that or not. Anyway, I kept doing it.”

The family later moved to Council Bluffs, where Brown attended high school. He went to Creighton University’s dental school.

He was quarterback of Creighton’s football team and played as a forward on the basketball team. He received a medallion during the school’s centennial celebration in 2005.

In the years after the war, Brown moved to Hollywood, where he met a number of movie

stars, including John Wayne. He said he used to play handball with one of Wayne’s sons.

Brown has retained his sense of humor and likes to throw a sly wink in with many of his jokes. He kidded that, during his trip to the East Coast, he had yet to find a girl to take back to Illinois, where he now lives with his daughter.

“I don’t tell the girls I’m 102,” he said, projecting his age to the milestone he’ll hit later this year.

What’s left for Brown to do? He suggested to Hagel that perhaps he could be a U.S. senator.

“We should make you a senator, and maybe we’d get some things done up here,” Hagel replied.●

CONGRATULATING LANCE MACKEY

● Ms. MURKOWSKI. Mr. President, I wish to congratulate Lance Mackey for being the first dog musher to win the Iditarod Sled Dog Race and the Yukon Quest Sled Dog Race—the world’s two longest sled dog races—in the same year. He won both races earlier this year.

For those who are not familiar with both races, this is an incredible accomplishment. To put his feat into perspective, Lance Mackey and his dogs traveled a total distance that is equal to traveling between Boston, MA and Salt Lake City, UT.

The Yukon Quest Sled Dog race is a 1,000-mile annual international sled dog race between Whitehorse, Canada, and Fairbanks, AK. The trail follows a portion of the Yukon River and trails used by gold prospectors over 100 years ago. On February 20, 2007, in Fairbanks, he completed this sled dog race in a record time of 10 days, 2 hours, and 37 minutes.

Only 12 days after winning the Yukon Quest, Lance and 13 of his 16 dogs that completed the Yukon Quest race started the Iditarod Sled Dog Race. This race starts in Willow, AK and ends in Nome, AK, and is 1,100 miles long. The Iditarod trail originally started out as a supply route to numerous remote Alaska communities, including Nome. On March 13, 2007, Lance Mackey and his team completed this race in 9 days, 5 hours and 8 minutes.

Both of these races travel through numerous small, rural Alaska villages but most of the trails pass through nothing but pure wilderness. Lance and his fellow mushers had to race through blizzards, temperatures as low as 40 degrees below zero, wind gusts up to 60 miles per hour, water overflows from partially frozen rivers and very rough terrain. Accidents due to terrain, trail conditions and other factors are not unusual. Occasionally, a moose will attack dog teams and mushers. Of course, these elements add additional challenges to these already arduous races. In fact, 21 mushers “scratched”—or withdrew—from the Iditarod this year.

As a throat cancer survivor, Lance has to always drink water after eating since his salivary glands were removed

during cancer treatment. However, Lance Mackey continued to pursue victory and almost entirely shunned food and drink for the last 219 miles of the Iditarod in order to save time. In addition to that, he suffered from frostbite as he made his way to the finish line.

The conventional wisdom is that the same musher could not win both sled dog races in the same year. This year, Lance Mackey proved everyone wrong. We are proud of Lance and his dog team for this unprecedented achievement. Once again, I congratulate Lance Mackey and his dog team and wish them continued success.●

TRIBUTE TO MAYOR SHARON BRANSTITER

● Mr. SMITH. Mr. President, the late Oregon Governor Tom McCall once said, "Heroes are not giant statues framed against a red sky. They are individuals who say, 'This is my community, and it is my responsibility to make it better.'"

I rise today with sadness because Oregon lost a true hero this past weekend with the passing of Sharon Branstiter, who had served as mayor of the wonderful community of Toledo since 1997. Few people have ever given more of their time, talents, and energy to make their community a better place than did Mayor Branstiter.

I consider myself very privileged to have called Sharon my friend. In my job, there are many people who will tell me what they think I want to hear. I always knew that Sharon would tell me what I needed to hear. She expressed her opinions with candor and eloquence, and she always made it very clear that the top item on her agenda was making Toledo a better and more beautiful place in which to live, work, and raise a family.

The Greek poet Sophocles wrote, "One must wait until the evening to see how splendid the day has been." While the evening of Sharon's life came much too soon, I hope that her family and friends will take solace in the fact that Sharon could look back on a life filled with love and laughter, a life filled with accomplishment, and a life filled with making a positive difference and say that "the day has indeed been splendid."

I will never visit Toledo without thinking of Sharon, and I am confident that her work will live on through the good work of all those who call Toledo home.●

MESSAGE FROM THE HOUSE

At 2:25 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 625. An act to designate the facility of the United States Postal Service located at

4230 Maine Avenue in Baldwin Park, California, as the "Atanacio Haro-Marin Post Office".

H.R. 1402. An act to designate the facility of the United States Postal Service located at 320 South Lecanto Highway in Lecanto, Florida, as the "Sergeant Dennis J. Flanagan Lecanto Post Office Building".

H.R. 1434. An act to designate the facility of the United States Postal Service located at 896 Pittsburgh Street in Springdale, Pennsylvania, as the "Rachel Carson Post Office Building".

The message also announced that the House has passed the following bill, without amendment:

S. 521. An act to designate the Federal building and United States courthouse and customhouse located at 515 West First Street in Duluth, Minnesota, as the "Gerald W. Heaney Federal Building and United States Courthouse and Customhouse".

The message further announced that the House has agreed to the following resolution:

H. Res. 328. Resolution relative to the death of the Honorable Juanita Millender-McDonald, a Representative from the State of California.

ENROLLED BILLS SIGNED

The President pro tempore (Mr. BYRD) reported that he had signed the following enrolled bills, which were previously signed by the Speaker of the House:

H.R. 137. An act to amend title 18, United States Code, to strengthen prohibitions against animal fighting, and for other purposes.

H.R. 727. An act to amend the Public Health Service Act to add requirements regarding trauma care, and for other purposes.

H.R. 753. To redesignate the Federal building located at 167 North Main Street in Memphis, Tennessee, as the "Clifford Davis and Odell Horton Federal Building".

H.R. 1003. An act to amend the Foreign Affairs Reform and Restructuring Act of 1998 to reauthorize the United States Advisory Commission on Public Diplomacy.

H.R. 1130. An act to amend the Ethics in Government Act of 1978 to extend the authority to withhold from public availability a financial disclosure report filed by an individual who is a judicial officer or judicial employee, to the extent necessary to protect the safety of that individual or a family member of that individual, and for other purposes.

MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 625. An act to designate the facility of the United States Postal Service located at 4230 Maine Avenue in Baldwin Park, California, as the "Atanacio Haro-Marin Post Office"; to the Committee on Homeland Security and Governmental Affairs.

H.R. 1402. An act to designate the facility of the United States Postal Service located at 320 South Lecanto Highway in Lecanto, Florida, as the "Sergeant Dennis J. Flanagan Lecanto Post Office Building"; to the Committee on Homeland Security and Governmental Affairs.

H.R. 1434. An act to designate the facility of the United States Postal Service located at 896 Pittsburgh Street in Springdale, Pennsylvania, as the "Rachel Carson Post Office Building"; to the Committee on Homeland Security and Governmental Affairs.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-1601. A communication from the Under Secretary (Research Education Economics), Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Small Business Innovation Research Grants Program" (RIN0524-AA31) received on April 20, 2007; to the Committee on Agriculture, Nutrition, and Forestry.

EC-1602. A communication from the Under Secretary of Defense (Comptroller), transmitting, pursuant to law, the report of a violation of the Antideficiency Act that is identified as being case number 05-07; to the Committee on Appropriations.

EC-1603. A communication from the Deputy Secretary, Securities and Exchange Commission, transmitting, pursuant to law, the report of a rule entitled "Section 230.146 Rules Under Section 18 of the Act (17 CFR 230.146)" (RIN3235-AJ73) received on April 20, 2007; to the Committee on Banking, Housing, and Urban Affairs.

EC-1604. A communication from the Director of the Office of Legislative Affairs, Federal Deposit Insurance Corporation, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Expanded Examination Cycle for Certain Small Insured Depository Institutions and U.S. Branches and Agencies of Foreign Banks" (RIN3064-AD17) received on April 23, 2007; to the Committee on Banking, Housing, and Urban Affairs.

EC-1605. A communication from the Administrator, Energy Information Administration, Department of Energy, transmitting, pursuant to law, a report entitled "Emissions of Greenhouse Gases in the United States 2005 Executive Summary"; to the Committee on Energy and Natural Resources.

EC-1606. A communication from the Assistant Secretary, Land and Minerals Management, Department of the Interior, transmitting, the report of a draft bill intended to repeal certain oil and gas incentives contained in the Energy Policy Act of 2005; to the Committee on Energy and Natural Resources.

EC-1607. A communication from the Acting Inspector General, Department of Defense, transmitting, pursuant to law, a report entitled "Interagency Review of U.S. Export Controls for China"; to the Committee on Foreign Relations.

EC-1608. A communication from the Director of Defense Research and Engineering, Department of Defense, transmitting, pursuant to law, a report relative to the management and adequacy of biometrics programs; to the Committee on Homeland Security and Governmental Affairs.

EC-1609. A communication from the Chief Judge, Superior Court of the District of Columbia, transmitting, pursuant to law, a report relative to the activities carried out by the Family Court during 2006; to the Committee on Homeland Security and Governmental Affairs.

EC-1610. A communication from the Director, Office of Personnel Management, transmitting, pursuant to law, a report relative to

the use of student loan repayments by Federal agencies during fiscal year 2006; to the Committee on Homeland Security and Governmental Affairs.

EC-1611. A communication from the Chairman, Federal Election Commission, transmitting, pursuant to law, the report of five recommendations for legislative action; to the Committee on Rules and Administration.

EC-1612. A communication from the Chairman, Dwight D. Eisenhower Memorial Commission, transmitting, pursuant to law, the Commission's sixth report; to the Committee on Rules and Administration.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. KENNEDY, from the Committee on Health, Education, Labor, and Pensions, with an amendment in the nature of a substitute and an amendment to the title:

S. 1082. A bill to amend the Federal Food, Drug, and Cosmetic Act to reauthorize and amend the prescription drug user fee provisions, and for other purposes.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. DURBIN (for himself, Mr. SMITH, and Mr. OBAMA):

S. 1190. A bill to promote the deployment and adoption of telecommunications services and information technologies, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. BROWN (for himself, Mr. DORGAN, Mr. WHITEHOUSE, and Mr. SCHUMER):

S. 1191. A bill to authorize the Secretary of Commerce to award grants to States to establish revolving loan funds to provide loans to small manufacturers to develop new products, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. DOMENICI (for himself, Mr. CORNYN, Mrs. HUTCHISON, and Mr. KYL):

S. 1192. A bill to increase the number of Federal judgeships in certain judicial districts with heavy caseloads of criminal immigration cases; to the Committee on the Judiciary.

By Mr. DOMENICI (for himself and Mr. BINGAMAN):

S. 1193. A bill to direct the Secretary of the Interior to take into trust 2 parcels of Federal land for the benefit of certain Indian Pueblos in the State of New Mexico; to the Committee on Indian Affairs.

By Mr. DODD (for himself and Mr. SALAZAR):

S. 1194. A bill to improve the No Child Left Behind Act of 2001, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. HAGEL (for himself and Mr. WEBB):

S. 1195. A bill to establish the Comprehensive Entitlement Reform Commission; to the Committee on Finance.

By Mr. LIEBERMAN (for himself and Mrs. BOXER):

S. 1196. A bill to improve mental health care for wounded members of the Armed

Forces, and for other purposes; to the Committee on Armed Services.

By Mr. KERRY (for himself and Mr. SMITH):

S. 1197. A bill to amend the Internal Revenue Code of 1986 to improve the deduction for depreciation; to the Committee on Finance.

By Mr. SMITH (for himself and Mr. WYDEN):

S. 1198. A bill to determine successful methods to provide protection from catastrophic health expenses for individuals who have exceeded health insurance lifetime limits, to provide catastrophic health insurance coverage for uninsured individuals, and for other purposes; to the Committee on Finance.

By Mr. WYDEN (for himself, Mr. SMITH, Mr. PRYOR, and Mr. KERRY):

S. 1199. A bill to strengthen the capacity of eligible institutions to provide instruction in nanotechnology; to the Committee on Health, Education, Labor, and Pensions.

By Mr. DORGAN (for himself, Mrs. BOXER, Mr. REID, Ms. CANTWELL, Mr. JOHNSON, Mr. TESTER, Mr. INOUE, Mr. DOMENICI, Mr. BINGAMAN, Mr. BAUCUS, Ms. KLOBUCHAR, Mr. THOMAS, Mr. OBAMA, and Ms. MURKOWSKI):

S. 1200. A bill to amend the Indian Health Care Improvement Act to revise and extend the Act; to the Committee on Indian Affairs.

By Mr. SANDERS (for himself, Mr. LIEBERMAN, Mr. LEAHY, and Mr. FEINGOLD):

S. 1201. A bill to amend the Clean Air Act to reduce emissions from electric powerplants, and for other purposes; to the Committee on Environment and Public Works.

By Mr. SESSIONS:

S. 1202. A bill to require agencies and persons in possession of computerized data containing sensitive personal information, to disclose security breaches where such breach poses a significant risk of identity theft; to the Committee on the Judiciary.

By Mr. BINGAMAN (for himself and Mr. DOMENICI):

S. 1203. A bill to enhance the management of electricity programs at the Department of Energy; to the Committee on Energy and Natural Resources.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. FEINGOLD (for himself and Mr. KOHL):

S. Res. 167. A resolution congratulating the University of Wisconsin men's indoor track and field team on becoming the 2006-2007 National Collegiate Athletic Association Division I Indoor Track and Field Champions; considered and agreed to.

By Mr. FEINGOLD (for himself and Mr. KOHL):

S. Res. 168. A resolution congratulating the University of Wisconsin women's hockey team for winning the 2007 National Collegiate Athletic Association Division I Women's Ice Hockey Championship; considered and agreed to.

By Mrs. HUTCHISON (for herself and Ms. MIKULSKI):

S. Res. 169. A resolution recognizing Susan G. Komen for the Cure on its leadership in the breast cancer movement on the occasion of its 25th anniversary; considered and agreed to.

By Mr. MENENDEZ (for himself, Mr. KERRY, Mrs. BOXER, Mr. INOUE, Mr. FEINGOLD, Mr. LAUTENBERG, Mr. DURBIN, and Mr. DODD):

S. Res. 170. A resolution supporting the goals and ideals of a National Child Care Worthy Wage Day; to the Committee on the Judiciary.

ADDITIONAL COSPONSORS

S. 95

At the request of Mr. KERRY, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 95, a bill to amend titles XIX and XXI of the Social Security Act to ensure that every uninsured child in America has health insurance coverage, and for other purposes.

S. 294

At the request of Mr. LAUTENBERG, the names of the Senator from Michigan (Ms. STABENOW) and the Senator from Minnesota (Ms. KLOBUCHAR) were added as cosponsors of S. 294, a bill to reauthorize Amtrak, and for other purposes.

S. 329

At the request of Mr. CRAPO, the names of the Senator from New Mexico (Mr. DOMENICI) and the Senator from California (Mrs. BOXER) were added as cosponsors of S. 329, a bill to amend title XVIII of the Social Security Act to provide coverage for cardiac rehabilitation and pulmonary rehabilitation services.

S. 383

At the request of Mr. AKAKA, the name of the Senator from Washington (Mrs. MURRAY) was added as a cosponsor of S. 383, a bill to amend title 38, United States Code, to extend the period of eligibility for health care for combat service in the Persian Gulf War or future hostilities from two years to five years after discharge or release.

S. 459

At the request of Ms. SNOWE, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 459, a bill to require that health plans provide coverage for a minimum hospital stay for mastectomies, lumpectomies, and lymph node dissection for the treatment of breast cancer and coverage for secondary consultations.

S. 479

At the request of Mr. HARKIN, the name of the Senator from Washington (Mrs. MURRAY) was added as a cosponsor of S. 479, a bill to reduce the incidence of suicide among veterans.

S. 573

At the request of Ms. STABENOW, the names of the Senator from North Carolina (Mrs. DOLE), the Senator from Arkansas (Mrs. LINCOLN), the Senator from Louisiana (Ms. LANDRIEU), the Senator from Missouri (Mrs. MCCASKILL), the Senator from Texas (Mrs. HUTCHISON) and the Senator from

Illinois (Mr. DURBIN) were added as cosponsors of S. 573, a bill to amend the Federal Food, Drug, and Cosmetic Act and the Public Health Service Act to improve the prevention, diagnosis, and treatment of heart disease, stroke, and other cardiovascular diseases in women.

S. 597

At the request of Mrs. FEINSTEIN, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 597, a bill to extend the special postage stamp for breast cancer research for 2 years.

S. 614

At the request of Mr. SCHUMER, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 614, a bill to amend the Internal Revenue Code to double the child tax credit for the first year, to expand the credit dependent care services, to provide relief from the alternative minimum tax, and for other purposes.

S. 621

At the request of Mr. FEINGOLD, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 621, a bill to establish commissions to review the facts and circumstances surrounding injustices suffered by European Americans, European Latin Americans, and Jewish refugees during World War II.

S. 725

At the request of Mr. LEVIN, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 725, a bill to amend the Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 to reauthorize and improve that Act.

S. 731

At the request of Mr. SALAZAR, the names of the Senator from Nebraska (Mr. HAGEL), the Senator from Colorado (Mr. ALLARD) and the Senator from Nebraska (Mr. NELSON) were added as cosponsors of S. 731, a bill to develop a methodology for, and complete, a national assessment of geological storage capacity for carbon dioxide, and for other purposes.

S. 755

At the request of Mr. SCHUMER, the names of the Senator from Minnesota (Mr. COLEMAN) and the Senator from New Mexico (Mr. BINGAMAN) were added as cosponsors of S. 755, a bill to amend title XIX of the Social Security Act to require States to provide diabetes screening tests under the Medicaid program for adult enrollees with diabetes risk factors, to ensure that States offer a comprehensive package of benefits under that program for individuals with diabetes, and for other purposes.

S. 761

At the request of Mr. REID, the names of the Senator from Missouri (Mr. BOND), the Senator from West Virginia (Mr. BYRD), the Senator from

Washington (Mrs. MURRAY) and the Senator from Louisiana (Mr. VITTER) were added as cosponsors of S. 761, a bill to invest in innovation and education to improve the competitiveness of the United States in the global economy.

S. 766

At the request of Mrs. CLINTON, the name of the Senator from Illinois (Mr. OBAMA) was added as a cosponsor of S. 766, a bill to amend the Fair Labor Standards Act of 1938 to provide more effective remedies of victims of discrimination in the payment of wages on the basis of sex, and for other purposes.

S. 773

At the request of Mr. WARNER, the name of the Senator from South Dakota (Mr. THUNE) was added as a cosponsor of S. 773, a bill to amend the Internal Revenue Code of 1986 to allow Federal civilian and military retirees to pay health insurance premiums on a pretax basis and to allow a deduction for TRICARE supplemental premiums.

S. 790

At the request of Mr. LUGAR, the name of the Senator from New York (Mrs. CLINTON) was added as a cosponsor of S. 790, a bill to amend the Richard B. Russell National School Lunch Act to permit the simplified summer food programs to be carried out in all States and by all service institutions.

S. 829

At the request of Ms. MIKULSKI, the name of the Senator from Georgia (Mr. ISAKSON) was added as a cosponsor of S. 829, a bill to reauthorize the HOPE VI program for revitalization of severely distressed public housing, and for other purposes.

S. 840

At the request of Mr. COLEMAN, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 840, a bill to amend the Torture Victims Relief Act of 1998 to authorize assistance for domestic and foreign programs and centers for the treatment of victims of torture, and for other purposes.

S. 901

At the request of Mr. KENNEDY, the names of the Senator from Montana (Mr. TESTER), the Senator from Rhode Island (Mr. WHITEHOUSE) and the Senator from Montana (Mr. BAUCUS) were added as cosponsors of S. 901, a bill to amend the Public Health Service Act to provide additional authorizations of appropriations for the health centers program under section 330 of such Act.

S. 935

At the request of Mr. NELSON of Florida, the name of the Senator from Montana (Mr. TESTER) was added as a cosponsor of S. 935, a bill to repeal the requirement for reduction of survivor annuities under the Survivor Benefit Plan by veterans' dependency and indemnity compensation, and for other purposes.

S. 970

At the request of Mr. SMITH, the names of the Senator from Illinois (Mr. OBAMA), the Senator from Colorado (Mr. ALLARD) and the Senator from Arizona (Mr. MCCAIN) were added as cosponsors of S. 970, a bill to impose sanctions on Iran and on other countries for assisting Iran in developing a nuclear program, and for other purposes.

S. 973

At the request of Mr. DORGAN, the name of the Senator from Missouri (Mrs. MCCASKILL) was added as a cosponsor of S. 973, a bill to amend the Mandatory Victims' Restitution Act to improve restitution for victims of crime, and for other purposes.

S. 999

At the request of Mr. KENNEDY, the name of the Senator from Georgia (Mr. ISAKSON) was added as a cosponsor of S. 999, a bill to amend the Public Health Service Act to improve stroke prevention, diagnosis, treatment, and rehabilitation.

S. 1018

At the request of Mr. DURBIN, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 1018, a bill to address security risks posed by global climate change and for other purposes.

S. 1084

At the request of Mr. OBAMA, the name of the Senator from Iowa (Mr. HARKIN) was added as a cosponsor of S. 1084, a bill to provide housing assistance for very low-income veterans.

S. 1087

At the request of Mr. HARKIN, the name of the Senator from Illinois (Mr. OBAMA) was added as a cosponsor of S. 1087, a bill to amend the Fair Labor Standards Act of 1938 to prohibit discrimination in the payment of wages on account of sex, race, or national origin, and for other purposes.

S. 1115

At the request of Mr. BINGAMAN, the names of the Senator from Minnesota (Ms. KLOBUCHAR), the Senator from New Jersey (Mr. MENENDEZ) and the Senator from Vermont (Mr. SANDERS) were added as cosponsors of S. 1115, a bill to promote the efficient use of oil, natural gas, and electricity, reduce oil consumption, and heighten energy efficiency standards for consumer products and industrial equipment, and for other purposes.

S. 1132

At the request of Ms. MURKOWSKI, the name of the Senator from Alaska (Mr. STEVENS) was added as a cosponsor of S. 1132, a bill to amend the Internal Revenue Code of 1986 to allow Indian tribes to receive charitable contributions of apparently wholesome food.

S. 1145

At the request of Mr. LEAHY, the name of the Senator from Idaho (Mr.

CRAIG) was added as a cosponsor of S. 1145, a bill to amend title 35, United States Code, to provide for patent reform.

S. 1161

At the request of Mr. CRAIG, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 1161, a bill to amend title XVIII of the Social Security Act to authorize the expansion of medicare coverage of medical nutrition therapy services.

S. 1172

At the request of Mr. DURBIN, the names of the Senator from Georgia (Mr. CHAMBLISS) and the Senator from Nebraska (Mr. HAGEL) were added as cosponsors of S. 1172, a bill to reduce hunger in the United States.

S. 1175

At the request of Mr. DURBIN, the names of the Senator from Oklahoma (Mr. COBURN) and the Senator from Wisconsin (Mr. FEINGOLD) were added as cosponsors of S. 1175, a bill to end the use of child soldiers in hostilities around the world, and for other purposes.

S. 1178

At the request of Mr. INOUE, the name of the Senator from Florida (Mr. NELSON) was added as a cosponsor of S. 1178, a bill to strengthen data protection and safeguards, require data breach notification, and further prevent identity theft.

S. 1183

At the request of Mr. HARKIN, the names of the Senator from South Carolina (Mr. GRAHAM) and the Senator from Rhode Island (Mr. WHITEHOUSE) were added as cosponsors of S. 1183, a bill to enhance and further research into paralysis and to improve rehabilitation and the quality of life for persons living with paralysis and other physical disabilities, and for other purposes.

S. 1185

At the request of Mr. BINGAMAN, the names of the Senator from New York (Mrs. CLINTON) and the Senator from Washington (Mrs. MURRAY) were added as cosponsors of S. 1185, a bill to provide grants to States to improve high schools and raise graduation rates while ensuring rigorous standards, to develop and implement effective school models for struggling students and dropouts, and to improve State policies to raise graduation rates, and for other purposes.

S. CON. RES. 26

At the request of Mrs. CLINTON, the names of the Senator from Pennsylvania (Mr. SPECTER) and the Senator from Oregon (Mr. WYDEN) were added as cosponsors of S. Con. Res. 26, a concurrent resolution recognizing the 75th anniversary of the Military Order of the Purple Heart and commending recipients of the Purple Heart for their courageous demonstrations of gallantry and heroism on behalf of the United States.

S. CON. RES. 27

At the request of Mrs. CLINTON, the names of the Senator from Pennsylvania (Mr. SPECTER) and the Senator from Oregon (Mr. WYDEN) were added as cosponsors of S. Con. Res. 27, a concurrent resolution supporting the goals and ideals of "National Purple Heart Recognition Day".

S. RES. 30

At the request of Mr. BIDEN, the names of the Senator from Ohio (Mr. BROWN), the Senator from Maine (Ms. COLLINS), the Senator from Illinois (Mr. DURBIN), the Senator from New Jersey (Mr. LAUTENBERG), the Senator from Montana (Mr. TESTER), the Senator from California (Mrs. FEINSTEIN) and the Senator from Pennsylvania (Mr. SPECTER) were added as cosponsors of S. Res. 30, a resolution expressing the sense of the Senate regarding the need for the United States to address global climate change through the negotiation of fair and effective international commitments.

S. RES. 125

At the request of Mrs. FEINSTEIN, the name of the Senator from Hawaii (Mr. AKAKA) was added as a cosponsor of S. Res. 125, a resolution designating May 18, 2007, as "Endangered Species Day", and encouraging the people of the United States to become educated about, and aware of, threats to species, success stories in species recovery, and the opportunity to promote species conservation worldwide.

S. RES. 162

At the request of Mr. LEAHY, the names of the Senator from Kansas (Mr. BROWNBACK), the Senator from Wisconsin (Mr. KOHL) and the Senator from Massachusetts (Mr. KENNEDY) were added as cosponsors of S. Res. 162, a resolution commemorating and acknowledging the dedication and sacrifice made by the men and women who have lost their lives while serving as law enforcement officers.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. DURBIN (for himself, Mr. SMITH, and Mr. OBAMA):

S. 1190. A bill to promote the deployment and adoption of telecommunications services and information technologies, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. DURBIN. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1190

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Connect The Nation Act".

SEC. 2. FINDINGS.

Congress finds the following:

(1) The deployment and adoption of broadband services and information technology has resulted in enhanced economic development and public safety for communities across the Nation, improved health care and educational opportunities, and a better quality of life for all Americans.

(2) Continued progress in the deployment and adoption of broadband and other advanced information services is vital to ensuring that our Nation remains competitive and continues to create business and job growth.

(3) The Federal Government should also recognize and encourage complementary state efforts to improve the quality and usefulness of broadband data and should encourage and support the partnership of the public and private sectors in the continued growth of broadband services and information technology for the residents and businesses of the Nation.

SEC. 3. ENCOURAGING STATE INITIATIVES TO IMPROVE BROADBAND.

(a) PURPOSES.—The purposes of any grant under subsection (b) are—

(1) to ensure that all citizens and businesses in a State have access to affordable and reliable broadband service;

(2) to achieve improved technology literacy, increased computer ownership, and home broadband use among such citizens and businesses;

(3) to establish and empower local grassroots technology teams in each State to plan for improved technology use across multiple community sectors; and

(4) to establish and sustain an environment ripe for broadband services and information technology investment.

(b) ESTABLISHMENT OF STATE BROADBAND DATA AND DEVELOPMENT GRANT PROGRAM.—

(1) IN GENERAL.—The Secretary of Commerce shall award grants, taking into account the results of the peer review process under subsection (d), to eligible entities for the development and implementation of statewide initiatives to identify and track the availability and adoption of broadband services within each State.

(2) COMPETITIVE BASIS.—Any grant under subsection (b) shall be awarded on a competitive basis.

(c) ELIGIBILITY.—To be eligible to receive a grant under subsection (b), an eligible entity shall—

(1) submit an application to the Secretary of Commerce, at such time, in such manner, and containing such information as the Secretary may require; and

(2) contribute matching non-Federal funds in an amount equal to not less than 20 percent of the total amount of the grant.

(d) PEER REVIEW.—

(1) IN GENERAL.—The Secretary shall by regulation require appropriate technical and scientific peer review of applications made for grants under this section.

(2) REVIEW PROCEDURES.—The regulations required under paragraph (1) shall require that any technical and scientific peer review group—

(A) be provided a written description of the grant to be reviewed;

(B) provide the results of any review by such group to the Secretary of Commerce; and

(C) certify that such group will enter into voluntary nondisclosure agreements as necessary to prevent the unauthorized disclosure of confidential and proprietary information provided by broadband service providers

in connection with projects funded by any such grant.

(e) USE OF FUNDS.—A grant awarded to an eligible entity under subsection (b) shall be used—

(1) to provide a baseline assessment of broadband service deployment in each State;

(2) to identify and track—

(A) areas in each State that have low levels of broadband service deployment;

(B) the rate at which residential and business adopt broadband service and other related information technology services; and

(C) possible suppliers of such services;

(3) to identify barriers to the adoption by individuals and businesses of broadband service and related information technology services, including whether or not—

(A) the demand for such services is absent; and

(B) the supply for such services is capable of meeting the demand for such services;

(4) to create and facilitate in each county or designated region in a State a local technology planning team—

(A) with members representing a cross section of the community, including representatives of business, telecommunications labor organizations, K-12 education, health care, libraries, higher education, community-based organizations, local government, tourism, parks and recreation, and agriculture; and

(B) which shall—

(i) benchmark technology use across relevant community sectors;

(ii) set goals for improved technology use within each sector; and

(iii) develop a tactical business plan for achieving its goals, with specific recommendations for online application development and demand creation;

(5) to work collaboratively with broadband service providers and information technology companies to encourage deployment and use, especially in unserved and underserved areas, through the use of local demand aggregation, mapping analysis, and the creation of market intelligence to improve the business case for providers to deploy;

(6) to establish programs to improve computer ownership and Internet access for unserved and underserved populations;

(7) to collect and analyze detailed market data concerning the use and demand for broadband service and related information technology services;

(8) to facilitate information exchange regarding the use and demand for broadband services between public and private sectors; and

(9) to create within each State a geographic inventory map of broadband service, which shall—

(A) identify gaps in such service through a method of geographic information system mapping of service availability at the census block level; and

(B) provide a baseline assessment of statewide broadband deployment in terms of households with high-speed availability.

(f) PARTICIPATION LIMIT.—For each State, an eligible entity may not receive a new grant under this section to fund the activities described in subsection (d) within such State if such organization obtained prior grant awards under this section to fund the same activities in that State in each of the previous 4 consecutive years.

(g) REPORT.—Each recipient of a grant under subsection (b) shall submit an report on the use of the funds provided by the grant to the Secretary of Commerce.

(h) DEFINITIONS.—In this section:

(1) ELIGIBLE ENTITY.—The term “eligible entity” means a non-profit organization that is selected by a State to work in partnership with State agencies and private sector partners in identifying and tracking the availability and adoption of broadband services within each State.

(2) NONPROFIT ORGANIZATION.—The term “nonprofit organization” means an organization—

(A) described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such Code;

(B) no part of the net earnings of which inures to the benefit of any member, founder, contributor, or individual;

(C) that has an established competency and proven record of working with public and private sectors to accomplish widescale deployment and adoption of broadband services and information technology; and

(D) the board of directors of which is not composed of a majority of individuals who are also employed by, or otherwise associated with, any Federal, State, or local government or any Federal, State, or local agency.

(3) BROADBAND SERVICE.—The term “broadband service” means any service that connects to the public Internet that provides a data transmission-rate equivalent to at least 200 kilobits per second, or 200,000 bits per second, or any successor transmission-rate established by the Federal Communications Commission, in at least 1 direction.

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section \$40,000,000 for each of fiscal years 2008 through 2012.

(j) NO REGULATORY AUTHORITY.—Nothing in this Act shall be construed as giving any public or private entity established or affected by this Act any regulatory jurisdiction or oversight authority over providers of broadband services or information technology.

By Mr. DOMENICI (for himself,
Mr. CORNYN, Mrs. HUTCHISON,
and Mr. KYL):

S. 1192. A bill to increase the number of Federal judgeships in certain judicial districts with heavy caseloads of criminal immigration cases; to the Committee on the Judiciary.

Mr. DOMENICI, Mr. President, I rise today to introduce legislation that authorizes the Federal judgeships recommended by the 2007 Judicial Conference for our U.S. District Courts that are overloaded with immigration cases.

For a year, I have been telling the Senate about the crisis on our Southwest border involving judges who are overwhelmed by the sheer number of immigration cases that are filed in their courts.

New caseload numbers have recently become available, and it is clear that this problem is not going away—Congress must act to fix it. Federal Court Management Statistics available at www.uscourts.gov reveal that for the 12-month period ending September 30, 2006, four District Courts each had more than one thousand criminal immigration filings. Not surprisingly, all of these Districts share a border with Mexico.

In fiscal year 2006, the Southern District of Texas had 3,679 immigration cases, the Western District of Texas had 2,324 immigration cases, the District of New Mexico had 1,940 immigration cases, and the District of Arizona had 1,924 immigration filings. In each of these Districts, immigration filings make up more than forty-nine percent of all of the District's criminal filings. No other District Court recommended for new judgeships had more than 314 immigration filings. In fact, the four Districts mentioned above account for more than 60 percent of all immigration filings in fiscal year 2006.

The legislation I am introducing today authorizes the ten new Federal judgeships recommended by the Judicial Conference for these four U.S. Districts, where immigration filings total more than forty-nine percent of all Federal criminal filings.

Based on these caseloads, we should already have given these Districts new judgeships. But to increase border security and immigration enforcement efforts, as we have over the past few years, without equipping these courts to handle the even larger immigration caseloads that they will face as a result of immigration enforcement efforts would amount to willful negligence on the part of Congress.

It is imperative to equip our Federal agencies with the assets they need to secure our borders and enforce our immigration laws, including the Federal District courts that try repeat immigration law violators who are charged with Federal felonies.

The New Mexico District Chief Judge, Martha Vazquez, wrote me a letter in May of 2006 about the situation her District faces. Judge Vazquez wrote:

As it is, the burden on Article III Judges in this District is considerable. This District ranks first among all districts in criminal filings per judgeship: 405 criminal filings compared to the national average of 87. As in all federal districts along the southwest border, the majority of cases filed in this District relate to immigration offenses under United States Code, Title 8 and drug offenses arising under Title 21. Immigration and drug cases account for eighty-five percent of the caseload in the District of New Mexico. . . . In fiscal year 1997, there were 240 immigration felony filings in the District of New Mexico. By fiscal year 2005, the number of immigration felony filings increased to 1,826, which is an increase of 661 percent.

The Albuquerque Tribune has also documented the burden on our Southwest border District Courts. An April 17, 2006 article entitled “Judges See Ripple Effect of Policy on Immigration,” stated:

U.S. District Chief Judge Martha Vazquez of Santa Fe oversees a court that faces a rising caseload from illegal border crossings and related crime. And help from Washington is by no means certain. . . . From Sept. 30, 1999 to Sept. 30, 2004 (the end of the fiscal year), the caseload in the New Mexico federal district court increased 57.5 percent,

from 2,804 to 4,416. In the 2004 fiscal year alone, 2,126 felony cases were heard, almost half of all cases in the entire 10th Circuit, which includes Colorado, Kansas, Oklahoma, Utah and Wyoming. Most typical immigration cases go before an immigration judge, and the subjects are deported. But people deported once and caught crossing illegally again can be charged with a felony. And that brings the defendant into federal district court. Those are the cases driving up New Mexico's caseload . . . Some days as many as 90 defendants crowd the courtroom in Las Cruces . . . The same problems are afflicting federal border courts in Arizona, California, and Texas.

Similar problems were documented in the May 23, 2006 Reuters article "Bush Border Patrol Plan to Pressure Courts" which said:

President George W. Bush's plan to send thousands of National Guard troops to the U.S.-Mexico border could spark a surge in immigration cases and U.S. courts are ill prepared to handle them . . . Even without the stepped-up security at the border, federal courts in southern California, Arizona, New Mexico and Texas have been overburdened. Carelli [a spokesman for U.S. federal courts] said those five judicial districts, out of 94 nationwide, account for 34 percent of all criminal cases moving through U.S. courts. . . Most immigrants caught crossing illegally are ordered out of the country without prosecution. But that still leaves a growing pile of cases involving illegals who are being prosecuted after being caught multiple times or those accused of other crimes. . . Nationwide, each U.S. judge handles an average of 87 cases a year. But along the southern border, even before Bush's plan moves forward, the average is around 300 per judge, Carelli said.

I have also heard first-hand about this problem from Federal judges in New Mexico, including one who travels almost 200 miles to hear cases in Southern New Mexico. Many of the situations he sees involve mass arraignments because there are so many defendants in the system. He is not alone in this arrangement; other Federal judges drive almost 300 miles to hear cases in the Southern part of my home State. This is a dire situation that must be addressed.

The United States Congress must address the overwhelming immigration caseload our southwestern border U.S. District Courts face. The bill I am introducing today does that by authorizing the eight permanent and two temporary judgeships recommended by the 2007 Judicial Conference for the four U.S. Districts in which the immigration caseloads total more than forty-nine percent of those Districts' total criminal caseload. I am proud to have Congressman CUELLAR join me in this effort by introducing companion legislation in the House of Representatives.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1192

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Federal Criminal Immigration Courts Act of 2007".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Based on the recommendations made by the 2007 Judicial Conference and the statistical data provided by the 2006 Federal Court Management Statistics (issued by the Administrative Office of the United States Courts), the Congress finds the following:

(1) Federal courts along the southwest border of the United States have a greater percentage of their criminal caseload affected by immigration cases than other Federal courts.

(2) The percentage of criminal immigration cases in most southwest border district courts totals more than 49 percent of the total criminal caseloads of those districts.

(3) The current number of judges authorized for those courts is inadequate to handle the current caseload.

(4) Such an increase in the caseload of criminal immigration filings requires a corresponding increase in the number of Federal judgeships.

(5) The 2007 Judicial Conference recommended the addition of judgeships to meet this growing burden.

(6) The Congress should authorize the additional district court judges necessary to carry out the 2007 recommendations of the Judicial Conference for district courts in which the criminal immigration filings represented more than 49 percent of all criminal filings for the 12-month period ending September 30, 2006.

(b) PURPOSE.—The purpose of this Act is to increase the number of Federal judgeships, in accordance with the recommendations of the 2007 Judicial Conference, in district courts that have an extraordinarily high criminal immigration caseload.

SEC. 3. ADDITIONAL DISTRICT COURT JUDGESHIPS.

(a) PERMANENT JUDGESHIPS.—

(1) IN GENERAL.—The President shall appoint, by and with the advice and consent of the Senate—

(A) 4 additional district judges for the district of Arizona;

(B) 1 additional district judge for the district of New Mexico;

(C) 2 additional district judges for the southern district of Texas; and

(D) 1 additional district judge for the western district of Texas.

(2) CONFORMING AMENDMENTS.—In order that the table contained in section 133(a) of title 28, United States Code, reflect the number of additional judges authorized under paragraph (1), such table is amended—

(A) by striking the item relating to Arizona and inserting the following:

Arizona 16;

(B) by striking the item relating to New Mexico and inserting the following:

New Mexico 7;

(C) by striking the item relating to Texas and inserting the following:

Texas:

Northern 12

Southern 21

Eastern 7

Western 14.

(b) TEMPORARY JUDGESHIPS.—

(1) IN GENERAL.—The President shall appoint, by and with the advice and consent of the Senate—

(A) 1 additional district judge for the district of Arizona; and

(B) 1 additional district judge for the district of New Mexico.

(2) VACANCY.—For each of the judicial districts named in this subsection, the first vacancy arising on the district court 10 years or more after a judge is first confirmed to fill the temporary district judgeship created in that district by this subsection shall not be filled.

By Mr. DOMENICI (for himself and Mr. BINGAMAN):

S. 1193. A bill to direct the Secretary of the Interior to take into trust 2 parcels of Federal land for the benefit of certain Indian Pueblos in the State of New Mexico; to the Committee on Indian Affairs.

Mr. DOMENICI. Mr. President, I rise today to introduce the Albuquerque Indian School Act. I want to thank Senator BINGAMAN, my colleague from New Mexico, for joining me as a cosponsor of the bill again this Congress.

The Albuquerque Indian School Act seeks to take two parcels of Federal land into trust for the 19 Pueblos—Acoma, Cochiti, Isleta, Jemez, Laguna, Nambe, Ohkay Owingeh, Picuris, Pojoaque, San Felipe, San Ildefonso, Sandia, Santa Ana, Santa Clara, Santo Domingo, Taos, Tesuque, Zia and Zuni. I believe this property, if transferred, would receive greater utilization and would benefit the 19 New Mexico Pueblos.

In 1981, the New Mexico Pueblos petitioned the United States for the transfer of approximately 44 acres from the Albuquerque Indian School site for the purpose of economic development. In 1984, the Assistant Secretary of the Interior conveyed 44 acres to the Pueblos. This land is currently under development by the 19 New Mexico pueblos. In 2003, the 19 Pueblos requested conveyance of the "B" and "D" tracts, which total approximately 18 acres, located near Interstate 40. This land contains various metal buildings which have deteriorated to the point that they have little to no usable value at this time.

The return of these two properties to the 19 Pueblos is supported by the southwestern regional office of the Bureau of Indian Affairs. With the addition of these two tracts, the 19 pueblos will be able to continue their successful economic development of the Albuquerque Indian School property. I believe the transfer will benefit the 19 New Mexico Pueblos, and their individual tribal members.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1193

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Albuquerque Indian School Act".

SEC. 2. DEFINITIONS.

In this Act:

(1) **19 PUEBLOS.**—The term “19 Pueblos” means the New Mexico Indian Pueblos of—

- (A) Acoma;
- (B) Cochiti;
- (C) Isleta;
- (D) Jemez;
- (E) Laguna;
- (F) Nambe;
- (G) Ohkay Owingeh (San Juan);
- (H) Picuris;
- (I) Pojoaque;
- (J) San Felipe;
- (K) San Ildefonso;
- (L) Sandia;
- (M) Santa Ana;
- (N) Santa Clara;
- (O) Santo Domingo;
- (P) Taos;
- (Q) Tesuque;
- (R) Zia; and
- (S) Zuni.

(2) **SECRETARY.**—The term “Secretary” means the Secretary of the Interior (or a designee).

(3) **SURVEY.**—The term “survey” means the survey plat entitled “Department of the Interior, Bureau of Indian Affairs, Southern Pueblos Agency, BIA Property Survey” (prepared by John Paisano, Jr., Registered Land Surveyor Certificate No. 5708), and dated March 7, 1977.

SEC. 3. LAND TAKEN INTO TRUST FOR BENEFIT OF 19 PUEBLOS.

(a) **ACTION BY SECRETARY.**—

(1) **IN GENERAL.**—The Secretary shall take into trust all right, title, and interest of the United States in and to the land described in subsection (b) (including any improvements and appurtenances to the land) for the benefit of the 19 Pueblos.

(2) **ADMINISTRATION.**—The Secretary shall—

(A) take such action as the Secretary determines to be necessary to document the transfer under paragraph (1); and

(B) appropriately assign each applicable private and municipal utility and service right or agreement.

(b) **DESCRIPTION OF LAND.**—The land referred to in subsection (a)(1) is the 2 tracts of Federal land, the combined acreage of which is approximately 18.3 acres, that were historically part of the Albuquerque Indian School, more particularly described as follows:

(1) **TRACT B.**—The approximately 5.9211 acres located in sec. 7 and sec. 8 of T. 10 N., R. 3 E., of the New Mexico Principal Meridian in the city of Albuquerque, New Mexico, as identified on the survey.

(2) **TRACT D.**—The approximately 12.3835 acres located in sec. 7 and sec. 8 of T. 10 N., R. 3 E., of the New Mexico Principal Meridian in the city of Albuquerque, New Mexico, as identified on the survey.

(c) **SURVEY.**—The Secretary may make minor corrections to the survey and legal description of the Federal land described in subsection (b) as the Secretary determines to be necessary to correct clerical, typographical, and surveying errors.

(d) **USE OF LAND.**—The land taken into trust under subsection (a) shall be used for the educational, health, cultural, business, and economic development of the 19 Pueblos.

(e) **LIMITATIONS AND CONDITIONS.**—The land taken into trust under subsection (a) shall remain subject to any private or municipal encumbrance, right-of-way, restriction, easement of record, or utility service agreement in effect on the date of enactment of this Act.

SEC. 4. EFFECT OF OTHER LAWS.

(a) **IN GENERAL.**—Except as otherwise provided in this section, land taken into trust under section 3(a) shall be subject to Federal laws relating to Indian land.

(b) **GAMING.**—No gaming activity (within the meaning of the Indian Gaming Regulatory Act (25 U.S.C. 2701 et seq.)) shall be carried out on land taken into trust under section 3(a).

By Mr. DODD (for himself and Mr. SALAZAR):

S. 1194. A bill to improve the No Child Left Behind Act of 2001, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. DODD. Mr. President, today I am pleased to introduce with Senator SALAZAR a very important piece of legislation, “The No Child Left Behind Reform Act.” This legislation makes three basic changes to the No Child Left Behind Act which was signed into law in January of 2002.

Five years ago I supported the No Child Left Behind Act because I care about improving the quality of education in America for all of our children. I believed that this law would help to achieve that goal by establishing rigorous measures of student achievement, by helping teachers do a better job of instructing students, and by providing the resources desperately needed by our schools for even the most basic necessities to help put the reforms we passed into place.

Regrettably, the high hopes that I and many others had for this law have not been realized. Throughout the years, this law has been implemented by the administration in a manner that is inflexible, unreasonable and unhelpful. As a result, it has failed the teachers, the schools, and, most importantly, the students it was meant to help.

Worse still, this administration’s promise of sufficient resources to implement the law is a promise that has yet to be kept. This year’s budget proposal underfunds No Child Left Behind by almost \$15 billion. Since passage five years ago, the administration has underfunded the law by more than \$70 billion below the level promised when the President signed the Act into law.

As a result of the failures of the current administration to fulfill its commitment to our Nation’s school children under this law, children and their teachers are shouldering noteworthy hardships. Additional requirements without additional funding, and little, if any, technical assistance from the Department, have left students, teachers, administrators and parents struggling to implement mandates that are often confusing, inflexible, unrealistic and costly. With the degree of underfunding that we have seen at the Federal level, many taxpayers are simultaneously paying for their mortgage, basic health care, the rising cost of

their children’s tuition and the Federal share of the No Child Left Behind Act.

As I have said on numerous occasions in the past, resources without reforms are a waste of money. By the same token, reforms without resources are a false promise a false promise that has left students and their teachers grappling with new burdens and little help to bear them.

The legislation I am introducing today proposes to make three changes to the No Child Left Behind Act. These changes will ease current burdens on our students, our teachers and our administrators without dismantling the fundamental underpinnings of the law.

First, the No Child Left Behind Reform Act will allow schools to be given credit for performing well on measures other than test scores when calculating student achievement. Test scores are an important measure of student knowledge. However, they are not the only measure. There are others. These include dropout rates, the number of students who participate in advanced placement courses, and individual student improvement over time. Unfortunately, current law does not allow schools to use these additional ways to gauge school success in a constructive manner. Additional measures can only be used to further indicate how a school is failing, not how a school is succeeding. This legislation will allow schools to earn credit for succeeding.

Second, the No Child Left Behind Reform Act will allow schools to target school choice and supplemental services to the students that actually demonstrate a need for them. As the current law is being implemented by the Administration, if a school is in need of improvement, it is expected to offer school choice and supplemental services to all students—even if not all students have demonstrated a need for them. That strikes me as a wasteful and imprecise way to help a school improve student performance. For that reason, this legislation will allow schools to target resources to the students that actually demonstrate that they need them. Clearly, this is the most efficient way to maximize their effect.

Finally, the No Child Left Behind Reform Act introduces a greater degree of reasonableness to the teacher certification process. As it is being implemented, the law requires teachers to be “highly qualified” to teach every subject that they teach. Certainly none of us disagree with this policy as a matter of principle. But as a matter of practice, it is causing confusion and hardship for teachers, particularly secondary teachers and teachers in small school districts. For example, as the law is being implemented by the Administration, a high school science teacher could be required to hold degrees in biology, physics and chemistry to be considered highly qualified. In

small schools where there may be only one 7th or 8th grade teacher teaching all subjects, these teachers could similarly be required to hold degrees in every subject area. Such requirements are unreasonable at a time when excellent teachers are increasingly hard to find. The legislation I introduce today will allow States to create a single assessment to cover multiple subjects for middle grade level teachers and allow states to issue a broad certification for science and social studies.

In my view, the changes I propose will provide significant assistance to schools struggling to comply with the No Child Left Behind law all across America. As time marches on and more deadlines set by this law come and go including additional testing, a highly qualified teacher in every classroom and 100 percent proficiency for all students—we have a responsibility to reauthorize the No Child Left Behind Act in a manner that will require it to be implemented in a fair and reasonable manner. I would caution that in doing so, however, we must also preserve the basic tenets of the law—providing a high quality education for all American students and closing the achievement gap across demographic and socioeconomic lines. Again, no child should be left behind—no special education student, no English language learning student, no minority student and no low-income student. I stand by this commitment.

Obviously, funding this law is beyond the scope of this bill. I would note, however, that I will continue my efforts to direct increased funds to the law. Clearly, our children deserve the resources needed to make their dreams for a better education a reality. I urge my colleagues to join me in supporting this important reform legislation.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1194

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “No Child Left Behind Reform Act”.

SEC. 2. ADEQUATE YEARLY PROGRESS.

(a) DEFINITION OF ADEQUATE YEARLY PROGRESS.—Section 1111(b)(2) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311(b)(2)) is amended—

(1) in subparagraph (C)(vii)—

(A) by striking “such as”;

(B) by inserting “such as measures of individual or cohort growth over time based on the academic assessments implemented in accordance with paragraph (3),” after “described in clause (v),”; and

(C) by striking “attendance rates,”; and

(2) in subparagraph (D)—

(A) by striking clause (ii);

(B) by striking “the State” and all that follows through “ensure” and inserting “the State shall ensure”; and

(C) by striking “; and” and inserting a period.

(b) ACADEMIC ASSESSMENT AND LOCAL EDUCATIONAL AGENCY AND SCHOOL IMPROVEMENT.—Section 1116(a)(1)(B) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6316(a)(1)(B)) is amended by striking “, except that” and all that follows through “action or restructuring”.

SEC. 3. GRANTS FOR INCREASING DATA CAPACITY FOR PURPOSES OF AYP.

Subpart 1 of part A of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311 et seq.) is amended by adding at the end the following:

“SEC. 1120C. GRANTS FOR INCREASING DATA CAPACITY FOR PURPOSES OF AYP.

“(a) GRANT AUTHORITY.—The Secretary may award grants, on a competitive basis, to State educational agencies to enable the State educational agencies—

“(1) to develop or increase the capacity of data systems for accountability purposes; and

“(2) to award subgrants to increase the capacity of local educational agencies to upgrade, create, or manage information databases for the purpose of measuring adequate yearly progress.

“(b) PRIORITY.—In awarding grants under this section the Secretary shall give priority to State educational agencies that have created, or are in the process of creating, a growth model or proficiency index as part of their adequate yearly progress determination.

“(c) STATE USE OF FUNDS.—Each State that receives a grant under this section shall use—

“(1) not more than 20 percent of the grant funds for the purpose of increasing the capacity of, or creating, State databases to collect information related to adequate yearly progress; and

“(2) not less than 80 percent of the grant funds to award subgrants to local educational agencies within the State to enable the local educational agencies to carry out the authorized activities described in subsection (d).

“(d) AUTHORIZED ACTIVITIES.—Each local educational agency that receives a subgrant under this section shall use the subgrant funds to increase the capacity of the local educational agency to upgrade databases or create unique student identifiers for the purpose of measuring adequate yearly progress, by—

“(1) purchasing database software or hardware;

“(2) hiring additional staff for the purpose of managing such data;

“(3) providing professional development or additional training for such staff; and

“(4) providing professional development or training for principals and teachers on how to effectively use such data to implement instructional strategies to improve student achievement.

“(e) STATE APPLICATION.—Each State educational agency desiring a grant under this section shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require.

“(f) LEA APPLICATION.—Each local educational agency desiring a subgrant under this section shall submit an application to the State educational agency at such time, in such manner, and containing such information as the State educational agency may require. Each such application shall include, at a minimum, a demonstration of the local educational agency’s ability to put such a database in place.

“(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this part \$80,000,000 for each of fiscal years 2008, 2009, and 2010.”

SEC. 4. TARGETING TRANSFER OPTIONS AND SUPPLEMENTAL SERVICES.

(a) TARGETING TRANSFER OPTIONS AND SUPPLEMENTAL SERVICES.—Section 1116 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6316) is amended—

(1) in paragraphs (1)(E)(i), (5)(A), (7)(C)(i), and (8)(A)(i) of subsection (b), by striking the term “all students enrolled in the school” each place such term appears and inserting “all students enrolled in the school, who are members of a group described in section 1111(b)(2)(C)(v) that fails to make adequate yearly progress as defined in the State’s plan under section 1111(b)(2),”; and

(2) in subsection (b)(1), by adding at the end the following:

“(G) MAINTENANCE OF LEAST RESTRICTIVE ENVIRONMENT.—A student who is eligible to receive services under the Individuals with Disabilities Education Act and who uses the option to transfer under subparagraph (E), paragraph (5)(A), (7)(C)(i), or subsection (c)(10)(C)(vii), shall be placed and served in the least restrictive environment appropriate, in accordance with the Individuals with Disabilities Education Act.”;

(3) in clause (vii) of subsection (c)(10)(C), by inserting “, who are members of a group described in section 1111(b)(2)(C)(v) that fails to make adequate yearly progress as defined in the State’s plan under section 1111(b)(2),” after “Authorizing students”; and

(4) in subparagraph (A) of subsection (e)(12), by inserting “, who is a member of a group described in section 1111(b)(2)(C)(v) that fails to make adequate yearly progress as defined in the State’s plan under section 1111(b)(2)” after “under section 1113(c)(1)”.

(b) STUDENT ALREADY TRANSFERRED.—A student who transfers to another public school pursuant to section 1116(b) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6316(b)) before the effective date of this section and the amendments made by this section, may continue enrollment in such public school after the effective date of this section and the amendments made by this section.

(c) EFFECTIVE DATE.—This section and the amendments made by this section shall be effective for each fiscal year for which the amount appropriated to carry out title I of the Elementary and Secondary Education Act of 1965 for the fiscal year, is less than the amount authorized to be appropriated to carry out such title for the fiscal year.

SEC. 5. DEFINITION OF HIGHLY QUALIFIED TEACHERS.

Section 9101(23)(B)(ii) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801(23)(B)(ii)) is amended—

(1) in subclause (I), by striking “or” after the semicolon;

(2) in subclause (II), by striking “and” after the semicolon; and

(3) by adding at the end the following:

“(III) in the case of a middle school teacher, passing a State approved middle school generalist exam when the teacher receives the teacher’s license to teach middle school in the State;

“(IV) obtaining a State social studies certificate that qualifies the teacher to teach history, geography, economics, and civics in middle or secondary schools, respectively, in the State; or

“(V) obtaining a State science certificate that qualifies the teacher to teach earth science, biology, chemistry, and physics in

middle or secondary schools, respectively, in the State; and”.

By Mr. KERRY (for himself and Mr. SMITH):

S. 1197. A bill to amend the Internal Revenue Code of 1986 to improve the deduction for depreciation; to the Committee on Finance.

Mr. KERRY. Mr. President, today Senator SMITH and I are introducing the “Tax Depreciation, Modernization, and Simplification Act of 2007.” This legislation will update our depreciation system so that it can keep pace with new technology.

Last July the Senate Finance Subcommittee on Long-Term Growth and Debt Reduction, on which Senator SMITH was Chairman and I served as Ranking Member, held a hearing on updating our depreciation system. During the hearing, we heard that the current depreciation system is out of date and that changes should be made.

Our tax system allows, as a current expense, a depreciation deduction that represents a reasonable allowance for the exhaustion, wear and tear of property used, or of property held for the production of income. Since 1981, the depreciation deduction for most tangible property has been under rules specified in section 168 of the Internal Revenue Code. The Modified Accelerated Cost Recovery System, or MACRS, specified under section 168 applies to most new investment in tangible property. MACRS depreciation allowances are computed by determining a recovery period called a “class life” and an applicable recovery method for each asset.

The current depreciation system has not kept pace with technological advances. Several industries were not even contemplated when class lives were assigned in 1981, and some class lives even date back to 1962.

In the 1980’s it would have been difficult to imagine what our reliance on computer and wireless technology would be today. At that time, the wireless industry was in its infancy, and there was no specifically assigned life for wireless equipment. As a result, today’s depreciation system is like playing “audit roulette.” There is no certainty in how these assets should be depreciated.

All this matters because it impacts investment, innovation, competitiveness, and ultimately the quality and quantity of jobs in America. My home state of Massachusetts is a leader in the high tech industry. Massachusetts employs hundreds of thousands of skilled workers in key technology sectors, including computer hardware, life sciences, software, medical products, semiconductor, defense technology and telecommunications. We have learned in Massachusetts that a strategic tax policy can have a positive effect on economic competitiveness.

For these reasons, we are reintroducing the “Tax Depreciation, Mod-

ernization, and Simplification Act of 2007.” This legislation makes four important changes to the current depreciation system.

First, the legislation creates a process that provides the Department of Treasury with the authority to modernize class lives. The Secretary of the Treasury will prescribe regulations to provide a new class life for certain eligible property. Eligible property does not include residential rental property, nonresidential real property, or property for which Congress has specifically legislated the recovery period.

The purpose of this provision is to provide Treasury with a mechanism to modify class lives that reasonably reflect the anticipated useful life and the anticipated decline in value over time of the property to the industry, and take into account when the property becomes technologically or functionally obsolete to perform its original purpose. Treasury will also have the authority to modify class lives in order to more accurately reflect economic depreciation. For example, a personal computer has a depreciable life of five years, but it has an economic life of only 2 to 3 years. Even though a computer can be used for five years, it becomes economically obsolete after a couple of years because of the newer, faster, and more advanced computers on the market.

Our depreciation system has not been adequately updated since Congress revoked Treasury’s rule making authority in 1988. When the MACRS system was enacted in 1986, Congress directed Treasury to establish an office to monitor and analyze the actual experience with class lives and to modify class lives if the new class life reasonably reflected the anticipated useful life and the anticipated decline in value over time of the property to the industry. The authority was then revoked because Congress did not agree with all of the decisions made by Treasury.

The authority provided in this legislation addresses this previous problem by requiring Treasury to consult with Congress 60 days prior to publishing any proposed regulations. In addition, the Congressional Review Act would apply to any regulation proposed by Treasury and each class life prescribed by Treasury would be considered a separate rule.

Providing Treasury with the authority to modify class lives would allow the process to move more efficiently than allowing Congress to make piecemeal changes to the current depreciation system. Congress would provide guidelines, and Treasury would have the role of administering those guidelines. Under the legislation, Treasury would monitor and analyze the actual experience of depreciable assets and report their findings to Congress. We expect Treasury to establish guidelines that will take into consideration the

fact that some assets lose a significant percentage of their original value in the early part of their lives. This legislation specifically provides consultation with Congress in order for Congress to continue to have a role in this important tax policy issue.

We do not expect Treasury within the first year or two to review all classes of assets. Rather, we expect Treasury to begin with new assets that do not fit into the system, assets that have undergone technological advances, and existing assets that do not really fit into the current system. For example, the current system creates an irrational result for fiber optic lines. The class life of a fiber optic line depends upon whether it is used for one-way or two-way communications.

Second, the legislation would eliminate the mid-quarter convention. The placed-in-service conventions determine the point in time during the year that the property is considered “placed in service” and this determines when depreciation for an asset begins or ends. Under current law, there are the half-year, mid-month, and mid-quarter conventions. The mid-quarter convention is a source of complexity because it requires an analysis of the depreciable basis of property placed in service during the last three months of any taxable year. The Joint Committee on Taxation recommended the elimination of the mid-quarter convention in its 2001 recommendations on simplifying the Federal tax system. The calculation of the mid-quarter convention is burdensome, and it requires taxpayers to wait until after the end of the taxable year to determine whether the proper placed-in-service convention was used to calculate depreciation for assets during the taxable year.

Third, the legislation would allow taxpayers to elect to use mass asset accounting for assets with a cost of less than \$10,000. Generally, taxpayers calculate depreciation on an item-by-item basis. The bill would allow taxpayers to elect to use mass asset accounting for all assets with the same recovery period. This provision will help simplify the recordkeeping associated with depreciation.

Fourth, the legislation would permanently extend increased expensing for small businesses. In lieu of depreciation, a taxpayer with a small amount of annual investment may elect to deduct such costs. The Jobs and Growth Tax Relief Reconciliation Act of 2003 increased the amount a taxpayer may deduct from \$25,000 to \$100,000 and increased the total amount of investment a business can make in a year and still qualify for expensing from \$200,000 to \$400,000. In addition, the Act allows off-the-shelf computer software to be eligible for the provision.

The Tax Depreciation, Modernization, and Simplification Act of 2007 would make the \$100,000 and \$400,000

amounts permanent and index them for inflation. Off-the-shelf computer software would be eligible for the provision. Increased expensing for small businesses helps lower the cost of capital for small businesses and eliminates complicated recordkeeping. In addition, it should reduce administrative costs for small businesses.

The four components of this legislation will result in updating and simplifying the current depreciation system. The Tax Depreciation, Modernization, and Simplification Act of 2007 will provide certainty for taxpayers and put an end to "audit roulette."

By Mr. WYDEN (for himself, Mr. SMITH, Mr. PRYOR, and Mr. KERRY):

S. 1199. A bill to strengthen the capacity of eligible institutions to provide instruction in nanotechnology; to the Committee on Health, Education, Labor, and Pensions.

Mr. SMITH. Mr. President, I rise today with Senator WYDEN to introduce the Nanotechnology in the Schools Act.

Nanotechnology will revolutionize manufacturing, energy, healthcare, national defense and many other sectors by improving the way things are designed and made. The potential benefits of nanotechnology are tremendous, especially for the nation that leads the world in nanotechnology research and development. Studies project that by 2014 nanotechnology will be incorporated into more than \$2 trillion worth of manufactured goods. China, Japan, the European Union, India and other nations are fighting for global leadership, and the competition is getting stiffer all the time.

For the United States to maintain and expand its leadership in the field of nanotechnology, we must train and educate more scientists and engineers who are capable of conducting research and development in this emerging technology. To reach this objective, students need to be taught the necessary skills beginning at the high school and college levels.

According to the National Science Foundation, foreign students on temporary visas earned approximately one-third of all science and engineering doctorates awarded in the United States. By providing high school and college students with the tools to learn nanotechnology, a higher number of American students will enter this crucial field.

The Nanotechnology in the Schools Act provides grants to American colleges and high-performing high schools to purchase the tools that will enable their students to learn nanotechnology. The Act also provides training for teachers and professors to use these tools in the classroom and the laboratory. The Nanotechnology in the Schools Act is an investment in Amer-

ica's greatest asset, its students, and a key element of the nation's strategy to maintain nanotechnology leadership worldwide.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1199

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Nanotechnology in the Schools Act".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress makes the following findings:

(1) The rapidly growing field of nanotechnology is generating scientific and technological breakthroughs that will benefit society by improving the way many things are designed and made.

(2) Nanotechnology is likely to have a significant, positive impact on the security, economic well-being, and health of Americans as fields related to nanotechnology expand.

(3) In order to maximize the benefits of nanotechnology to individuals in the United States, the United States must maintain world leadership in the field of nanotechnology, including nanoscience and microtechnology, in the face of determined competition from other nations.

(4) According to the National Science Foundation, foreign students on temporary visas earned 32 percent of all science and engineering doctorates awarded in the United States in 2003, the last year for which data is available. Foreign students earned 55 percent of the engineering doctorates. Many of these students expressed an intent to return to their country of origin after completing their study.

(5) To maintain world leadership in nanotechnology, the United States must make a long-term investment in educating United States students in secondary schools and institutions of higher education, so that the students are able to conduct nanoscience research and develop and commercialize nanotechnology applications.

(6) Preparing United States students for careers in nanotechnology, including nanoscience, requires that the students have access to the necessary scientific tools, including scanning electron microscopes designed for teaching, and requires training to enable teachers and professors to use those tools in the classroom and the laboratory.

(b) PURPOSE.—The purpose of this Act is to strengthen the capacity of United States secondary schools and institutions of higher education to prepare students for careers in nanotechnology by providing grants to those schools and institutions to provide the tools necessary for such preparation.

SEC. 3. DEFINITIONS.

In this Act:

(1) ELIGIBLE INSTITUTION.—The term "eligible institution" means an institution that is—

(A) a public or charter secondary school that offers 1 or more advanced placement science courses or international baccalaureate science courses;

(B) a community college, as defined in section 3301 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7011); or

(C) a 4-year institution of higher education or a branch, within the meaning of section 498 of the Higher Education Act of 1965 (20 U.S.C. 1099c), of such an institution.

(2) INSTITUTION OF HIGHER EDUCATION; SECONDARY SCHOOL; SECRETARY.—The terms "institution of higher education", "secondary school", and "Secretary" have the meanings given the terms in section 9101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801).

(3) QUALIFIED NANOTECHNOLOGY EQUIPMENT.—The term "qualified nanotechnology equipment" means equipment, instrumentation, or hardware that is—

(A) used for teaching nanotechnology in the classroom; and

(B) manufactured in the United States at least 50 percent from articles, materials, or supplies that are mined, produced, or manufactured, as the case may be, in the United States.

SEC. 4. PROGRAM AUTHORIZED.

(a) IN GENERAL.—The Director of the National Science Foundation (referred to in this Act as the "Director") shall establish a nanotechnology in the schools program to strengthen the capacity of eligible institutions to provide instruction in nanotechnology. In carrying out the program, the Director shall award grants of not more than \$150,000 to eligible institutions to provide such instruction.

(b) ACTIVITIES SUPPORTED.—

(1) IN GENERAL.—An eligible institution shall use a grant awarded under this Act—

(A) to acquire qualified nanotechnology equipment and software designed for teaching students about nanotechnology in the classroom;

(B) to develop and provide educational services, including carrying out faculty development, to prepare students or faculty seeking a degree or certificate that is approved by the State, or a regional accrediting body recognized by the Secretary of Education; and

(C) to provide teacher education and certification to individuals who seek to acquire or enhance technology skills in order to use nanotechnology in the classroom or instructional process.

(2) LIMITATION.—

(A) USES.—Not more than ¼ of the amount of the funds made available through a grant awarded under this Act may be used for software, educational services, or teacher education and certification as described in this subsection.

(B) PROGRAMS.—In the case of a grant awarded under this Act to a community college or institution of higher education, the funds made available through the grant may be used only in undergraduate programs.

(c) APPLICATIONS AND SELECTION.—

(1) IN GENERAL.—To be eligible to receive a grant under this Act, an eligible institution shall submit an application to the Director at such time, in such manner, and accompanied by such information as the Director may reasonably require.

(2) PROCEDURE.—Not later than 180 days after the date of enactment of this Act, the Director shall establish a procedure for accepting such applications and publish an announcement of such procedure, including a statement regarding the availability of funds, in the Federal Register.

(3) SELECTION.—In selecting eligible institutions to receive grants under this Act, and encouraging eligible institutions to apply for such grants, the Director shall, to the greatest extent practicable—

(A) select eligible entities in geographically diverse locations;

(B) encourage the application of historically Black colleges and universities (meaning part B institutions, as defined in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061)) and minority institutions (as defined in section 365 of such Act (20 U.S.C. 1067k)); and

(C) select eligible institutions that include institutions located in States participating in the Experimental Program to Stimulate Competitive Research (commonly known as "EPSCoR").

(d) MATCHING REQUIREMENT AND LIMITATION.—

(1) IN GENERAL.—

(A) REQUIREMENT.—The Director may not award a grant to an eligible institution under this Act unless such institution agrees that, with respect to the costs to be incurred by the institution in carrying out the program for which the grant was awarded, such institution will make available (directly or through donations from public or private entities) non-Federal contributions in an amount equal to $\frac{1}{4}$ of the amount of the grant.

(B) WAIVER.—The Director shall waive the matching requirement described in subparagraph (A) for any institution with no endowment, or an endowment that has a dollar value lower than \$5,000,000, as of the date of the waiver.

(2) LIMITATION.—

(A) BRANCHES.—If a branch described in section 3(1)(C) receives a grant under this Act that exceeds \$100,000, that branch shall not be eligible, until 2 years after the date of receipt of the grant, to receive another grant under this Act.

(B) OTHER ELIGIBLE INSTITUTIONS.—If an eligible institution other than a branch referred to in subparagraph (A) receives a grant under this Act that exceeds \$100,000, that institution shall not be eligible, until 2 years after the date of receipt of the grant, to receive another grant under this Act.

SEC. 5. ANNUAL REPORT AND EVALUATION.

(a) REPORT BY INSTITUTIONS.—Each institution that receives a grant under this Act shall prepare and submit a report to the Director, not later than 1 year after the date of receipt of the grant, on its use of the grant funds.

(b) REVIEW AND EVALUATION.—

(1) REVIEW.—The Director shall annually review the reports submitted under subsection (a).

(2) EVALUATION.—At the end of every third year, the Director shall evaluate the program authorized by this Act on the basis of those reports. The Director, in the evaluation, shall describe the activities carried out by the institutions receiving grants under this Act and shall assess the short-range and long-range impact of the activities carried out under the grants on the students, faculty, and staff of the institutions.

(c) REPORT TO CONGRESS.—Not later than 6 months after conducting an evaluation under subsection (b), the Director shall prepare and submit a report to Congress based on the evaluation. In the report, the Director shall include such recommendations, including recommendations concerning the continuing need for Federal support of the program carried out under this Act, as may be appropriate.

SEC. 6. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Director to carry out this Act \$15,000,000 for fiscal year 2008, and such sums as may be necessary for fiscal years 2009 through 2011.

By Mr. DORGAN (for himself,
Mrs. BOXER, Mr. REID, Ms.

CANTWELL, Mr. JOHNSON, Mr. TESTER, Mr. INOUE, Mr. DOMENICI, Mr. BINGAMAN, Mr. BAUCUS, Ms. KLOBUCHAR, Mr. THOMAS, Mr. OBAMA, and Ms. MURKOWSKI):

S. 1200. A bill to amend the Indian Health Care Improvement Act to revise and extend the Act; to the Committee on Indian Affairs.

Mr. DORGAN. Mr. President, I came to the Senate floor several times last year, and have already again this year in the 110th Congress, to talk about the need for Congress to pass legislation to reauthorize the Indian Health Care Improvement Act.

Legislation to amend and reauthorize the Indian Health Care Improvement Act has been considered by the 106th, 107th, 108th and 109th Congresses, and today, my colleagues and I put forward a new version of the bill in the 110th Congress.

The Indian Health Care Improvement Act Amendments of 2007 builds on the work of prior Congresses, work done not only by the Indian Affairs Committee, but also by the Senate Health, Education, Labor and Pensions and Finance Committees. These committees gave us their recommendations on provisions in the legislation which are within their jurisdiction. I thank my colleagues for their collaboration on the Indian health reauthorization.

I have added new provisions to this year's Indian health bill that seek to address the lack of access to health care services that exists in so many tribal communities, which may be due to limited hours of operation at existing health care facilities or other factors. The bill would allow grants for demonstration projects which include a convenient care services program as an additional means of health care delivery.

This bill also addresses an issue that has been of particular concern to me: Indian youth suicide. The bill would authorize additional resources for Indian communities to confront this issue and seek to prevent, intervene in and treat Native American youth who have lost hope and are contemplating or have attempted suicide.

I thank my colleagues who have joined me in introducing this bill. It is my highest priority as chairman of the Indian Affairs Committee.

I wish to note that title II of this bill sets forth amendments to the Social Security Act, addressing payments under Medicare, Medicaid and SCHIP and other provisions which are in the jurisdiction of the Senate Finance Committee. The Indian Affairs and Finance Committees worked very closely together during last year's session on the provisions that are contained in this bill. I appreciate the efforts of both Chairman BAUCUS and Ranking Member GRASSLEY in drafting these important provisions of the Indian

Health Care Improvement Act Amendments of 2007, and I look forward to their committee's approval of these provisions as the Indian Affairs Committee considers the provisions under our jurisdiction.

Eight years is too long to wait to reauthorize the Indian Health Care Improvement Act. I intend to move aggressively to seek approval of this legislation by the Indian Affairs Committee, and to bring this bill to the Senate floor so that all my colleagues will have an opportunity to address the very fundamental need for—and right of—American Indians and Alaska Natives to adequate and innovative health care.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1200

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Indian Health Care Improvement Act Amendments of 2007".

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—AMENDMENTS TO INDIAN LAWS

Sec. 101. Indian Health Care Improvement Act amended.

Sec. 102. Soboba sanitation facilities.

Sec. 103. Native American Health and Wellness Foundation.

TITLE II—IMPROVEMENT OF INDIAN HEALTH CARE PROVIDED UNDER THE SOCIAL SECURITY ACT

Sec. 201. Expansion of payments under Medicare, Medicaid, and SCHIP for all covered services furnished by Indian Health Programs.

Sec. 202. Increased outreach to Indians under Medicaid and SCHIP and improved cooperation in the provision of items and services to Indians under Social Security Act health benefit programs.

Sec. 203. Additional provisions to increase outreach to, and enrollment of, Indians in SCHIP and Medicaid.

Sec. 204. Premiums and cost sharing protections under Medicaid, eligibility determinations under Medicaid and SCHIP, and protection of certain Indian property from Medicaid estate recovery.

Sec. 205. Nondiscrimination in qualifications for payment for services under Federal health care programs.

Sec. 206. Consultation on Medicaid, SCHIP, and other health care programs funded under the Social Security Act involving Indian Health Programs and Urban Indian Organizations.

Sec. 207. Exclusion waiver authority for affected Indian Health Programs and safe harbor transactions under the Social Security Act.

- Sec. 208. Rules applicable under Medicaid and SCHIP to managed care entities with respect to Indian enrollees and Indian health care providers and Indian managed care entities.
- Sec. 209. Annual report on Indians served by Social Security Act health benefit programs.
- TITLE I—AMENDMENTS TO INDIAN LAWS**
- SEC. 101. INDIAN HEALTH CARE IMPROVEMENT ACT AMENDED.**
- (a) IN GENERAL.—The Indian Health Care Improvement Act (25 U.S.C. 1601 et seq.) is amended to read as follows:
- “SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**
- “(a) SHORT TITLE.—This Act may be cited as the ‘Indian Health Care Improvement Act’.
- “(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:
- “Sec. 1. Short title; table of contents.
- “Sec. 2. Findings.
- “Sec. 3. Declaration of national Indian health policy.
- “Sec. 4. Definitions.
- “TITLE I—INDIAN HEALTH, HUMAN RESOURCES, AND DEVELOPMENT**
- “Sec. 101. Purpose.
- “Sec. 102. Health professions recruitment program for Indians.
- “Sec. 103. Health professions preparatory scholarship program for Indians.
- “Sec. 104. Indian health professions scholarships.

- “Sec. 315. Applicability of Buy American Act requirement.
- “Sec. 316. Other funding for facilities.
- “Sec. 317. Authorization of appropriations.
- “TITLE IV—ACCESS TO HEALTH SERVICES**
- “Sec. 401. Treatment of payments under Social Security Act health benefits programs.
- “Sec. 402. Grants to and contracts with the Service, Indian Tribes, Tribal Organizations, and Urban Indian Organizations to facilitate outreach, enrollment, and coverage of Indians under Social Security Act health benefit programs and other health benefits programs.
- “Sec. 403. Reimbursement from certain third parties of costs of health services.
- “Sec. 404. Crediting of reimbursements.
- “Sec. 405. Purchasing health care coverage.
- “Sec. 406. Sharing arrangements with Federal agencies.
- “Sec. 407. Payor of last resort.
- “Sec. 408. Nondiscrimination under Federal health care programs in qualifications for reimbursement for services.
- “Sec. 409. Consultation.
- “Sec. 410. State Children’s Health Insurance Program (SCHIP).
- “Sec. 411. Exclusion waiver authority for affected Indian Health Programs and safe harbor transactions under the Social Security Act.
- “Sec. 412. Premium and cost sharing protections and eligibility determinations under Medicaid and SCHIP and protection of certain Indian property from Medicaid estate recovery.
- “Sec. 413. Treatment under Medicaid and SCHIP managed care.
- “Sec. 414. Navajo Nation Medicaid Agency feasibility study.
- “Sec. 415. General exceptions.
- “Sec. 416. Authorization of appropriations.
- “TITLE V—HEALTH SERVICES FOR URBAN INDIANS**
- “Sec. 501. Purpose.
- “Sec. 502. Contracts with, and grants to, Urban Indian Organizations.
- “Sec. 503. Contracts and grants for the provision of health care and referral services.
- “Sec. 504. Contracts and grants for the determination of unmet health care needs.
- “Sec. 505. Evaluations; renewals.
- “Sec. 506. Other contract and grant requirements.
- “Sec. 507. Reports and records.
- “Sec. 508. Limitation on contract authority.
- “Sec. 509. Facilities.
- “Sec. 510. Division of Urban Indian Health.
- “Sec. 511. Grants for alcohol and substance abuse-related services.
- “Sec. 512. Treatment of certain demonstration projects.
- “Sec. 513. Urban NIAAA transferred programs.
- “Sec. 514. Consultation with Urban Indian Organizations.
- “Sec. 515. Urban youth treatment center demonstration.
- “Sec. 516. Grants for diabetes prevention, treatment, and control.
- “Sec. 517. Community Health Representatives.
- “Sec. 518. Effective date.
- “Sec. 519. Eligibility for services.
- “Sec. 520. Authorization of appropriations.
- “TITLE VI—ORGANIZATIONAL IMPROVEMENTS**
- “Sec. 601. Establishment of the Indian Health Service as an agency of the Public Health Service.
- “Sec. 602. Automated management information system.
- “Sec. 603. Authorization of appropriations.
- “TITLE VII—BEHAVIORAL HEALTH PROGRAMS**
- “Sec. 701. Behavioral health prevention and treatment services.
- “Sec. 702. Memoranda of agreement with the Department of the Interior.
- “Sec. 703. Comprehensive behavioral health prevention and treatment program.

- “Sec. 704. Mental health technician program.
- “Sec. 705. Licensing requirement for mental health care workers.
- “Sec. 706. Indian women treatment programs.
- “Sec. 707. Indian youth program.
- “Sec. 708. Indian youth telemental health demonstration project.
- “Sec. 709. Inpatient and community-based mental health facilities design, construction, and staffing.
- “Sec. 710. Training and community education.
- “Sec. 711. Behavioral health program.
- “Sec. 712. Fetal alcohol disorder programs.
- “Sec. 713. Child sexual abuse and prevention treatment programs.
- “Sec. 714. Behavioral health research.
- “Sec. 715. Definitions.
- “Sec. 716. Authorization of appropriations.
- “TITLE VIII—MISCELLANEOUS
- “Sec. 801. Reports.
- “Sec. 802. Regulations.
- “Sec. 803. Plan of implementation.
- “Sec. 804. Availability of funds.
- “Sec. 805. Limitation on use of funds appropriated to Indian Health Service.
- “Sec. 806. Eligibility of California Indians.
- “Sec. 807. Health services for ineligible persons.
- “Sec. 808. Reallocation of base resources.
- “Sec. 809. Results of demonstration projects.
- “Sec. 810. Provision of services in Montana.
- “Sec. 811. Moratorium.
- “Sec. 812. Tribal employment.
- “Sec. 813. Severability provisions.
- “Sec. 814. Establishment of National Bipartisan Commission on Indian Health Care.
- “Sec. 815. Confidentiality of medical quality assurance records; qualified immunity for participants.
- “Sec. 816. Appropriations; availability.
- “Sec. 817. Authorization of appropriations.

“SEC. 2. FINDINGS.

- “Congress makes the following findings:
- “(1) Federal health services to maintain and improve the health of the Indians are consonant with and required by the Federal Government’s historical and unique legal relationship with, and resulting responsibility to, the American Indian people.
- “(2) A major national goal of the United States is to provide the quantity and quality of health services which will permit the health status of Indians to be raised to the highest possible level and to encourage the maximum participation of Indians in the planning and management of those services.
- “(3) Federal health services to Indians have resulted in a reduction in the prevalence and incidence of preventable illnesses among, and unnecessary and premature deaths of, Indians.
- “(4) Despite such services, the unmet health needs of the American Indian people are severe and the health status of the Indians is far below that of the general population of the United States.

“SEC. 3. DECLARATION OF NATIONAL INDIAN HEALTH POLICY.

- “Congress declares that it is the policy of this Nation, in fulfillment of its special trust responsibilities and legal obligations to Indians—
- “(1) to assure the highest possible health status for Indians and Urban Indians and to provide all resources necessary to effect that policy;
- “(2) to raise the health status of Indians and Urban Indians to at least the levels set forth in the goals contained within the Healthy People 2010 or successor objectives;

“(3) to the greatest extent possible, to allow Indians to set their own health care priorities and establish goals that reflect their unmet needs;

“(4) to increase the proportion of all degrees in the health professions and allied and associated health professions awarded to Indians so that the proportion of Indian health professionals in each Service Area is raised to at least the level of that of the general population;

“(5) to require meaningful consultation with Indian Tribes, Tribal Organizations, and Urban Indian Organizations to implement this Act and the national policy of Indian self-determination; and

“(6) to provide funding for programs and facilities operated by Indian Tribes and Tribal Organizations in amounts that are not less than the amounts provided to programs and facilities operated directly by the Service.

“SEC. 4. DEFINITIONS.

“For purposes of this Act:

“(1) The term ‘accredited and accessible’ means on or near a reservation and accredited by a national or regional organization with accrediting authority.

“(2) The term ‘Area Office’ means an administrative entity, including a program office, within the Service through which services and funds are provided to the Service Units within a defined geographic area.

“(3) The term ‘Assistant Secretary’ means the Assistant Secretary for Indian Health.

“(4)(A) The term ‘behavioral health’ means the blending of substance (alcohol, drugs, inhalants, and tobacco) abuse and mental health prevention and treatment, for the purpose of providing comprehensive services.

“(B) The term ‘behavioral health’ includes the joint development of substance abuse and mental health treatment planning and coordinated case management using a multidisciplinary approach.

“(5) The term ‘California Indians’ means those Indians who are eligible for health services of the Service pursuant to section 806.

“(6) The term ‘community college’ means—

“(A) a tribal college or university, or

“(B) a junior or community college.

“(7) The term ‘contract health service’ means health services provided at the expense of the Service or a Tribal Health Program by public or private medical providers or hospitals, other than the Service Unit or the Tribal Health Program at whose expense the services are provided.

“(8) The term ‘Department’ means, unless otherwise designated, the Department of Health and Human Services.

“(9) The term ‘disease prevention’ means the reduction, limitation, and prevention of disease and its complications and reduction in the consequences of disease, including—

“(A) controlling—

“(i) the development of diabetes;

“(ii) high blood pressure;

“(iii) infectious agents;

“(iv) injuries;

“(v) occupational hazards and disabilities;

“(vi) sexually transmittable diseases; and

“(vii) toxic agents; and

“(B) providing—

“(i) fluoridation of water; and

“(ii) immunizations.

“(10) The term ‘health profession’ means allopathic medicine, family medicine, internal medicine, pediatrics, geriatric medicine, obstetrics and gynecology, podiatric medicine, nursing, public health nursing, dentistry, psychiatry, osteopathy, optometry, pharmacy, psychology, public health, social

work, marriage and family therapy, chiropractic medicine, environmental health and engineering, allied health professions, and any other health profession.

“(11) The term ‘health promotion’ means—

“(A) fostering social, economic, environmental, and personal factors conducive to health, including raising public awareness about health matters and enabling the people to cope with health problems by increasing their knowledge and providing them with valid information;

“(B) encouraging adequate and appropriate diet, exercise, and sleep;

“(C) promoting education and work in conformity with physical and mental capacity;

“(D) making available safe water and sanitary facilities;

“(E) improving the physical, economic, cultural, psychological, and social environment;

“(F) promoting culturally competent care; and

“(G) providing adequate and appropriate programs, which may include—

“(i) abuse prevention (mental and physical);

“(ii) community health;

“(iii) community safety;

“(iv) consumer health education;

“(v) diet and nutrition;

“(vi) immunization and other prevention of communicable diseases, including HIV/AIDS;

“(vii) environmental health;

“(viii) exercise and physical fitness;

“(ix) avoidance of fetal alcohol disorders;

“(x) first aid and CPR education;

“(xi) human growth and development;

“(xii) injury prevention and personal safety;

“(xiii) behavioral health;

“(xiv) monitoring of disease indicators between health care provider visits, through appropriate means, including Internet-based health care management systems;

“(xv) personal health and wellness practices;

“(xvi) personal capacity building;

“(xvii) prenatal, pregnancy, and infant care;

“(xviii) psychological well-being;

“(xix) reproductive health and family planning;

“(xx) safe and adequate water;

“(xxi) healthy work environments;

“(xxii) elimination, reduction, and prevention of contaminants that create unhealthy household conditions (including mold and other allergens);

“(xxiii) stress control;

“(xxiv) substance abuse;

“(xxv) sanitary facilities;

“(xxvi) sudden infant death syndrome prevention;

“(xxvii) tobacco use cessation and reduction;

“(xxviii) violence prevention; and

“(xxix) such other activities identified by the Service, a Tribal Health Program, or an Urban Indian Organization, to promote achievement of any of the objectives described in section 3(2).

“(12) The term ‘Indian’, unless otherwise designated, means any person who is a member of an Indian Tribe or is eligible for health services under section 806, except that, for the purpose of sections 102 and 103, the term also means any individual who—

“(A)(i) irrespective of whether the individual lives on or near a reservation, is a member of a tribe, band, or other organized group of Indians, including those tribes, bands, or groups terminated since 1940 and those recognized now or in the future by the State in which they reside; or

“(ii) is a descendant, in the first or second degree, of any such member;

“(B) is an Eskimo or Aleut or other Alaska Native;

“(C) is considered by the Secretary of the Interior to be an Indian for any purpose; or

“(D) is determined to be an Indian under regulations promulgated by the Secretary.

“(13) The term ‘Indian Health Program’ means—

“(A) any health program administered directly by the Service;

“(B) any Tribal Health Program; or

“(C) any Indian Tribe or Tribal Organization to which the Secretary provides funding pursuant to section 23 of the Act of June 25, 1910 (25 U.S.C. 47) (commonly known as the ‘Buy Indian Act’).

“(14) The term ‘Indian Tribe’ has the meaning given the term in the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).

“(15) The term ‘junior or community college’ has the meaning given the term by section 312(e) of the Higher Education Act of 1965 (20 U.S.C. 1058(e)).

“(16) The term ‘reservation’ means any federally recognized Indian Tribe’s reservation, Pueblo, or colony, including former reservations in Oklahoma, Indian allotments, and Alaska Native Regions established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.).

“(17) The term ‘Secretary’, unless otherwise designated, means the Secretary of Health and Human Services.

“(18) The term ‘Service’ means the Indian Health Service.

“(19) The term ‘Service Area’ means the geographical area served by each Area Office.

“(20) The term ‘Service Unit’ means an administrative entity of the Service, or a Tribal Health Program through which services are provided, directly or by contract, to eligible Indians within a defined geographic area.

“(21) The term ‘telehealth’ has the meaning given the term in section 330K(a) of the Public Health Service Act (42 U.S.C. 254c-16(a)).

“(22) The term ‘telemedicine’ means a telecommunications link to an end user through the use of eligible equipment that electronically links health professionals or patients and health professionals at separate sites in order to exchange health care information in audio, video, graphic, or other format for the purpose of providing improved health care services.

“(23) The term ‘tribal college or university’ has the meaning given the term in section 316(b)(3) of the Higher Education Act (20 U.S.C. 1059c(b)(3)).

“(24) The term ‘Tribal Health Program’ means an Indian Tribe or Tribal Organization that operates any health program, service, function, activity, or facility funded, in whole or part, by the Service through, or provided for in, a contract or compact with the Service under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).

“(25) The term ‘Tribal Organization’ has the meaning given the term in the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).

“(26) The term ‘Urban Center’ means any community which has a sufficient Urban Indian population with unmet health needs to warrant assistance under title V of this Act, as determined by the Secretary.

“(27) The term ‘Urban Indian’ means any individual who resides in an Urban Center

and who meets 1 or more of the following criteria:

“(A) Irrespective of whether the individual lives on or near a reservation, the individual is a member of a tribe, band, or other organized group of Indians, including those tribes, bands, or groups terminated since 1940 and those tribes, bands, or groups that are recognized by the States in which they reside, or who is a descendant in the first or second degree of any such member.

“(B) The individual is an Eskimo, Aleut, or other Alaska Native.

“(C) The individual is considered by the Secretary of the Interior to be an Indian for any purpose.

“(D) The individual is determined to be an Indian under regulations promulgated by the Secretary.

“(28) The term ‘Urban Indian Organization’ means a nonprofit corporate body that (A) is situated in an Urban Center; (B) is governed by an Urban Indian-controlled board of directors; (C) provides for the participation of all interested Indian groups and individuals; and (D) is capable of legally cooperating with other public and private entities for the purpose of performing the activities described in section 503(a).

“TITLE I—INDIAN HEALTH, HUMAN RESOURCES, AND DEVELOPMENT

“SEC. 101. PURPOSE.

“The purpose of this title is to increase, to the maximum extent feasible, the number of Indians entering the health professions and providing health services, and to assure an optimum supply of health professionals to the Indian Health Programs and Urban Indian Organizations involved in the provision of health services to Indians.

“SEC. 102. HEALTH PROFESSIONS RECRUITMENT PROGRAM FOR INDIANS.

“(a) IN GENERAL.—The Secretary, acting through the Service, shall make grants to public or nonprofit private health or educational entities, Tribal Health Programs, or Urban Indian Organizations to assist such entities in meeting the costs of—

“(1) identifying Indians with a potential for education or training in the health professions and encouraging and assisting them—

“(A) to enroll in courses of study in such health professions; or

“(B) if they are not qualified to enroll in any such courses of study, to undertake such postsecondary education or training as may be required to qualify them for enrollment;

“(2) publicizing existing sources of financial aid available to Indians enrolled in any course of study referred to in paragraph (1) or who are undertaking training necessary to qualify them to enroll in any such course of study; or

“(3) establishing other programs which the Secretary determines will enhance and facilitate the enrollment of Indians in, and the subsequent pursuit and completion by them of, courses of study referred to in paragraph (1).

“(b) GRANTS.—

“(1) APPLICATION.—The Secretary shall not make a grant under this section unless an application has been submitted to, and approved by, the Secretary. Such application shall be in such form, submitted in such manner, and contain such information, as the Secretary shall by regulation prescribe pursuant to this Act. The Secretary shall give a preference to applications submitted by Tribal Health Programs or Urban Indian Organizations.

“(2) AMOUNT OF GRANTS; PAYMENT.—The amount of a grant under this section shall be

determined by the Secretary. Payments pursuant to this section may be made in advance or by way of reimbursement, and at such intervals and on such conditions as provided for in regulations issued pursuant to this Act. To the extent not otherwise prohibited by law, grants shall be for 3 years, as provided in regulations issued pursuant to this Act.

“SEC. 103. HEALTH PROFESSIONS PREPARATORY SCHOLARSHIP PROGRAM FOR INDIANS.

“(a) SCHOLARSHIPS AUTHORIZED.—The Secretary, acting through the Service, shall provide scholarship grants to Indians who—

“(1) have successfully completed their high school education or high school equivalency; and

“(2) have demonstrated the potential to successfully complete courses of study in the health professions.

“(b) PURPOSES.—Scholarship grants provided pursuant to this section shall be for the following purposes:

“(1) Compensatory preprofessional education of any recipient, such scholarship not to exceed 2 years on a full-time basis (or the part-time equivalent thereof, as determined by the Secretary pursuant to regulations issued under this Act).

“(2) Pregraduate education of any recipient leading to a baccalaureate degree in an approved course of study preparatory to a field of study in a health profession, such scholarship not to exceed 4 years. An extension of up to 2 years (or the part-time equivalent thereof, as determined by the Secretary pursuant to regulations issued pursuant to this Act) may be approved.

“(c) OTHER CONDITIONS.—Scholarships under this section—

“(1) may cover costs of tuition, books, transportation, board, and other necessary related expenses of a recipient while attending school;

“(2) shall not be denied solely on the basis of the applicant’s scholastic achievement if such applicant has been admitted to, or maintained good standing at, an accredited institution; and

“(3) shall not be denied solely by reason of such applicant’s eligibility for assistance or benefits under any other Federal program.

“SEC. 104. INDIAN HEALTH PROFESSIONS SCHOLARSHIPS.

“(a) IN GENERAL.—

“(1) AUTHORITY.—The Secretary, acting through the Service, shall make scholarship grants to Indians who are enrolled full or part time in accredited schools pursuing courses of study in the health professions. Such scholarships shall be designated Indian Health Scholarships and shall be made in accordance with section 338A of the Public Health Services Act (42 U.S.C. 254f), except as provided in subsection (b) of this section.

“(2) DETERMINATIONS BY SECRETARY.—The Secretary, acting through the Service, shall determine—

“(A) who shall receive scholarship grants under subsection (a); and

“(B) the distribution of the scholarships among health professions on the basis of the relative needs of Indians for additional service in the health professions.

“(3) CERTAIN DELEGATION NOT ALLOWED.—The administration of this section shall be a responsibility of the Assistant Secretary and shall not be delegated in a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).

“(b) ACTIVE DUTY SERVICE OBLIGATION.—

“(1) OBLIGATION MET.—The active duty service obligation under a written contract

with the Secretary under this section that an Indian has entered into shall, if that individual is a recipient of an Indian Health Scholarship, be met in full-time practice equal to 1 year for each school year for which the participant receives a scholarship award under this part, or 2 years, whichever is greater, by service in 1 or more of the following:

“(A) In an Indian Health Program.

“(B) In a program assisted under title V of this Act.

“(C) In the private practice of the applicable profession if, as determined by the Secretary, in accordance with guidelines promulgated by the Secretary, such practice is situated in a physician or other health professional shortage area and addresses the health care needs of a substantial number of Indians.

“(D) In a teaching capacity in a tribal college or university nursing program (or a related health profession program) if, as determined by the Secretary, the health service provided to Indians would not decrease.

“(2) OBLIGATION DEFERRED.—At the request of any individual who has entered into a contract referred to in paragraph (1) and who receives a degree in medicine (including osteopathic or allopathic medicine), dentistry, optometry, podiatry, or pharmacy, the Secretary shall defer the active duty service obligation of that individual under that contract, in order that such individual may complete any internship, residency, or other advanced clinical training that is required for the practice of that health profession, for an appropriate period (in years, as determined by the Secretary), subject to the following conditions:

“(A) No period of internship, residency, or other advanced clinical training shall be counted as satisfying any period of obligated service under this subsection.

“(B) The active duty service obligation of that individual shall commence not later than 90 days after the completion of that advanced clinical training (or by a date specified by the Secretary).

“(C) The active duty service obligation will be served in the health profession of that individual in a manner consistent with paragraph (1).

“(D) A recipient of a scholarship under this section may, at the election of the recipient, meet the active duty service obligation described in paragraph (1) by service in a program specified under that paragraph that—

“(i) is located on the reservation of the Indian Tribe in which the recipient is enrolled; or

“(ii) serves the Indian Tribe in which the recipient is enrolled.

“(3) PRIORITY WHEN MAKING ASSIGNMENTS.—Subject to paragraph (2), the Secretary, in making assignments of Indian Health Scholarship recipients required to meet the active duty service obligation described in paragraph (1), shall give priority to assigning individuals to service in those programs specified in paragraph (1) that have a need for health professionals to provide health care services as a result of individuals having breached contracts entered into under this section.

“(C) PART-TIME STUDENTS.—In the case of an individual receiving a scholarship under this section who is enrolled part time in an approved course of study—

“(1) such scholarship shall be for a period of years not to exceed the part-time equivalent of 4 years, as determined by the Secretary;

“(2) the period of obligated service described in subsection (b)(1) shall be equal to the greater of—

“(A) the part-time equivalent of 1 year for each year for which the individual was provided a scholarship (as determined by the Secretary); or

“(B) 2 years; and

“(3) the amount of the monthly stipend specified in section 338A(g)(1)(B) of the Public Health Service Act (42 U.S.C. 254(g)(1)(B)) shall be reduced pro rata (as determined by the Secretary) based on the number of hours such student is enrolled.

“(d) BREACH OF CONTRACT.—

“(1) SPECIFIED BREACHES.—An individual shall be liable to the United States for the amount which has been paid to the individual, or on behalf of the individual, under a contract entered into with the Secretary under this section on or after the date of enactment of the Indian Health Care Improvement Act Amendments of 2007 if that individual—

“(A) fails to maintain an acceptable level of academic standing in the educational institution in which he or she is enrolled (such level determined by the educational institution under regulations of the Secretary);

“(B) is dismissed from such educational institution for disciplinary reasons;

“(C) voluntarily terminates the training in such an educational institution for which he or she is provided a scholarship under such contract before the completion of such training; or

“(D) fails to accept payment, or instructs the educational institution in which he or she is enrolled not to accept payment, in whole or in part, of a scholarship under such contract, in lieu of any service obligation arising under such contract.

“(2) OTHER BREACHES.—If for any reason not specified in paragraph (1) an individual breaches a written contract by failing either to begin such individual's service obligation required under such contract or to complete such service obligation, the United States shall be entitled to recover from the individual an amount determined in accordance with the formula specified in subsection (1) of section 110 in the manner provided for in such subsection.

“(3) CANCELLATION UPON DEATH OF RECIPIENT.—Upon the death of an individual who receives an Indian Health Scholarship, any outstanding obligation of that individual for service or payment that relates to that scholarship shall be canceled.

“(4) WAIVERS AND SUSPENSIONS.—

“(A) IN GENERAL.—The Secretary shall provide for the partial or total waiver or suspension of any obligation of service or payment of a recipient of an Indian Health Scholarship if the Secretary determines that—

“(i) it is not possible for the recipient to meet that obligation or make that payment;

“(ii) requiring that recipient to meet that obligation or make that payment would result in extreme hardship to the recipient; or

“(iii) the enforcement of the requirement to meet the obligation or make the payment would be unconscionable.

“(B) FACTORS FOR CONSIDERATION.—Before waiving or suspending an obligation of service or payment under subparagraph (A), the Secretary shall consult with the affected Area Office, Indian Tribes, Tribal Organizations, or Urban Indian Organizations, and may take into consideration whether the obligation may be satisfied in a teaching capacity at a tribal college or university nursing program under subsection (b)(1)(D).

“(5) EXTREME HARDSHIP.—Notwithstanding any other provision of law, in any case of ex-

treme hardship or for other good cause shown, the Secretary may waive, in whole or in part, the right of the United States to recover funds made available under this section.

“(6) BANKRUPTCY.—Notwithstanding any other provision of law, with respect to a recipient of an Indian Health Scholarship, no obligation for payment may be released by a discharge in bankruptcy under title 11, United States Code, unless that discharge is granted after the expiration of the 5-year period beginning on the initial date on which that payment is due, and only if the bankruptcy court finds that the nondischarge of the obligation would be unconscionable.

“SEC. 105. AMERICAN INDIANS INTO PSYCHOLOGY PROGRAM.

“(a) GRANTS AUTHORIZED.—The Secretary, acting through the Service, shall make grants of not more than \$300,000 to each of 9 colleges and universities for the purpose of developing and maintaining Indian psychology career recruitment programs as a means of encouraging Indians to enter the behavioral health field. These programs shall be located at various locations throughout the country to maximize their availability to Indian students and new programs shall be established in different locations from time to time.

“(b) QUENTIN N. BURDICK PROGRAM GRANT.—The Secretary shall provide a grant authorized under subsection (a) to develop and maintain a program at the University of North Dakota to be known as the ‘Quentin N. Burdick American Indians Into Psychology Program’. Such program shall, to the maximum extent feasible, coordinate with the Quentin N. Burdick Indian Health Programs authorized under section 117(b), the Quentin N. Burdick American Indians Into Nursing Program authorized under section 115(e), and existing university research and communications networks.

“(c) REGULATIONS.—The Secretary shall issue regulations pursuant to this Act for the competitive awarding of grants provided under this section.

“(d) CONDITIONS OF GRANT.—Applicants under this section shall agree to provide a program which, at a minimum—

“(1) provides outreach and recruitment for health professions to Indian communities including elementary, secondary, and accredited and accessible community colleges that will be served by the program;

“(2) incorporates a program advisory board comprised of representatives from the tribes and communities that will be served by the program;

“(3) provides summer enrichment programs to expose Indian students to the various fields of psychology through research, clinical, and experimental activities;

“(4) provides stipends to undergraduate and graduate students to pursue a career in psychology;

“(5) develops affiliation agreements with tribal colleges and universities, the Service, university affiliated programs, and other appropriate accredited and accessible entities to enhance the education of Indian students;

“(6) to the maximum extent feasible, uses existing university tutoring, counseling, and student support services; and

“(7) to the maximum extent feasible, employs qualified Indians in the program.

“(e) ACTIVE DUTY SERVICE REQUIREMENT.—The active duty service obligation prescribed under section 338C of the Public Health Service Act (42 U.S.C. 254m) shall be met by each graduate who receives a stipend described in subsection (d)(4) that is funded under this

section. Such obligation shall be met by service—

“(1) in an Indian Health Program;

“(2) in a program assisted under title V of this Act; or

“(3) in the private practice of psychology if, as determined by the Secretary, in accordance with guidelines promulgated by the Secretary, such practice is situated in a physician or other health professional shortage area and addresses the health care needs of a substantial number of Indians.

“(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$2,700,000 for each of fiscal years 2008 through 2017.

“SEC. 106. SCHOLARSHIP PROGRAMS FOR INDIAN TRIBES.

“(a) IN GENERAL.—

“(1) GRANTS AUTHORIZED.—The Secretary, acting through the Service, shall make grants to Tribal Health Programs for the purpose of providing scholarships for Indians to serve as health professionals in Indian communities.

“(2) AMOUNT.—Amounts available under paragraph (1) for any fiscal year shall not exceed 5 percent of the amounts available for each fiscal year for Indian Health Scholarships under section 104.

“(3) APPLICATION.—An application for a grant under paragraph (1) shall be in such form and contain such agreements, assurances, and information as consistent with this section.

“(b) REQUIREMENTS.—

“(1) IN GENERAL.—A Tribal Health Program receiving a grant under subsection (a) shall provide scholarships to Indians in accordance with the requirements of this section.

“(2) COSTS.—With respect to costs of providing any scholarship pursuant to subsection (a)—

“(A) 80 percent of the costs of the scholarship shall be paid from the funds made available pursuant to subsection (a)(1) provided to the Tribal Health Program; and

“(B) 20 percent of such costs may be paid from any other source of funds.

“(c) COURSE OF STUDY.—A Tribal Health Program shall provide scholarships under this section only to Indians enrolled or accepted for enrollment in a course of study (approved by the Secretary) in 1 of the health professions contemplated by this Act.

“(d) CONTRACT.—

“(1) IN GENERAL.—In providing scholarships under subsection (b), the Secretary and the Tribal Health Program shall enter into a written contract with each recipient of such scholarship.

“(2) REQUIREMENTS.—Such contract shall—

“(A) obligate such recipient to provide service in an Indian Health Program or Urban Indian Organization, in the same Service Area where the Tribal Health Program providing the scholarship is located, for—

“(i) a number of years for which the scholarship is provided (or the part-time equivalent thereof, as determined by the Secretary), or for a period of 2 years, whichever period is greater; or

“(ii) such greater period of time as the recipient and the Tribal Health Program may agree;

“(B) provide that the amount of the scholarship—

“(i) may only be expended for—

“(I) tuition expenses, other reasonable educational expenses, and reasonable living expenses incurred in attendance at the educational institution; and

“(II) payment to the recipient of a monthly stipend of not more than the amount au-

thorized by section 338(g)(1)(B) of the Public Health Service Act (42 U.S.C. 254m(g)(1)(B)), with such amount to be reduced pro rata (as determined by the Secretary) based on the number of hours such student is enrolled, and not to exceed, for any year of attendance for which the scholarship is provided, the total amount required for the year for the purposes authorized in this clause; and

“(ii) may not exceed, for any year of attendance for which the scholarship is provided, the total amount required for the year for the purposes authorized in clause (i);

“(C) require the recipient of such scholarship to maintain an acceptable level of academic standing as determined by the educational institution in accordance with regulations issued pursuant to this Act; and

“(D) require the recipient of such scholarship to meet the educational and licensure requirements appropriate to each health profession.

“(3) SERVICE IN OTHER SERVICE AREAS.—The contract may allow the recipient to serve in another Service Area, provided the Tribal Health Program and Secretary approve and services are not diminished to Indians in the Service Area where the Tribal Health Program providing the scholarship is located.

“(e) BREACH OF CONTRACT.—

“(1) SPECIFIC BREACHES.—An individual who has entered into a written contract with the Secretary and a Tribal Health Program under subsection (d) shall be liable to the United States for the Federal share of the amount which has been paid to him or her, or on his or her behalf, under the contract if that individual—

“(A) fails to maintain an acceptable level of academic standing in the educational institution in which he or she is enrolled (such level as determined by the educational institution under regulations of the Secretary);

“(B) is dismissed from such educational institution for disciplinary reasons;

“(C) voluntarily terminates the training in such an educational institution for which he or she is provided a scholarship under such contract before the completion of such training; or

“(D) fails to accept payment, or instructs the educational institution in which he or she is enrolled not to accept payment, in whole or in part, of a scholarship under such contract, in lieu of any service obligation arising under such contract.

“(2) OTHER BREACHES.—If for any reason not specified in paragraph (1), an individual breaches a written contract by failing to either begin such individual's service obligation required under such contract or to complete such service obligation, the United States shall be entitled to recover from the individual an amount determined in accordance with the formula specified in subsection (1) of section 110 in the manner provided for in such subsection.

“(3) CANCELLATION UPON DEATH OF RECIPIENT.—Upon the death of an individual who receives an Indian Health Scholarship, any outstanding obligation of that individual for service or payment that relates to that scholarship shall be canceled.

“(4) INFORMATION.—The Secretary may carry out this subsection on the basis of information received from Tribal Health Programs involved or on the basis of information collected through such other means as the Secretary deems appropriate.

“(f) RELATION TO SOCIAL SECURITY ACT.—The recipient of a scholarship under this section shall agree, in providing health care pursuant to the requirements herein—

“(1) not to discriminate against an individual seeking care on the basis of the abil-

ity of the individual to pay for such care or on the basis that payment for such care will be made pursuant to a program established in title XVIII of the Social Security Act or pursuant to the programs established in title XIX or title XXI of such Act; and

“(2) to accept assignment under section 1842(b)(3)(B)(ii) of the Social Security Act for all services for which payment may be made under part B of title XVIII of such Act, and to enter into an appropriate agreement with the State agency that administers the State plan for medical assistance under title XIX, or the State child health plan under title XXI, of such Act to provide service to individuals entitled to medical assistance or child health assistance, respectively, under the plan.

“(g) CONTINUANCE OF FUNDING.—The Secretary shall make payments under this section to a Tribal Health Program for any fiscal year subsequent to the first fiscal year of such payments unless the Secretary determines that, for the immediately preceding fiscal year, the Tribal Health Program has not complied with the requirements of this section.

“SEC. 107. INDIAN HEALTH SERVICE EXTERN PROGRAMS.

“(a) EMPLOYMENT PREFERENCE.—Any individual who receives a scholarship pursuant to section 104 or 106 shall be given preference for employment in the Service, or may be employed by a Tribal Health Program or an Urban Indian Organization, or other agencies of the Department as available, during any nonacademic period of the year.

“(b) NOT COUNTED TOWARD ACTIVE DUTY SERVICE OBLIGATION.—Periods of employment pursuant to this subsection shall not be counted in determining fulfillment of the service obligation incurred as a condition of the scholarship.

“(c) TIMING; LENGTH OF EMPLOYMENT.—Any individual enrolled in a program, including a high school program, authorized under section 102(a) may be employed by the Service or by a Tribal Health Program or an Urban Indian Organization during any nonacademic period of the year. Any such employment shall not exceed 120 days during any calendar year.

“(d) NONAPPLICABILITY OF COMPETITIVE PERSONNEL SYSTEM.—Any employment pursuant to this section shall be made without regard to any competitive personnel system or agency personnel limitation and to a position which will enable the individual so employed to receive practical experience in the health profession in which he or she is engaged in study. Any individual so employed shall receive payment for his or her services comparable to the salary he or she would receive if he or she were employed in the competitive system. Any individual so employed shall not be counted against any employment ceiling affecting the Service or the Department.

“SEC. 108. CONTINUING EDUCATION ALLOWANCES.

“In order to encourage scholarship and stipend recipients under sections 104, 105, 106, and 115 and health professionals, including community health representatives and emergency medical technicians, to join or continue in an Indian Health Program and to provide their services in the rural and remote areas where a significant portion of Indians reside, the Secretary, acting through the Service, may—

“(1) provide programs or allowances to transition into an Indian Health Program, including licensing, board or certification examination assistance, and technical assistance in fulfilling service obligations under sections 104, 105, 106, and 115; and

“(2) provide programs or allowances to health professionals employed in an Indian Health Program to enable them for a period of time each year prescribed by regulation of the Secretary to take leave of their duty stations for professional consultation, management, leadership, and refresher training courses.

“SEC. 109. COMMUNITY HEALTH REPRESENTATIVE PROGRAM.

“(a) **IN GENERAL.**—Under the authority of the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), the Secretary, acting through the Service, shall maintain a Community Health Representative Program under which Indian Health Programs—

“(1) provide for the training of Indians as community health representatives; and

“(2) use such community health representatives in the provision of health care, health promotion, and disease prevention services to Indian communities.

“(b) **DUTIES.**—The Community Health Representative Program of the Service, shall—

“(1) provide a high standard of training for community health representatives to ensure that the community health representatives provide quality health care, health promotion, and disease prevention services to the Indian communities served by the Program;

“(2) in order to provide such training, develop and maintain a curriculum that—

“(A) combines education in the theory of health care with supervised practical experience in the provision of health care; and

“(B) provides instruction and practical experience in health promotion and disease prevention activities, with appropriate consideration given to lifestyle factors that have an impact on Indian health status, such as alcoholism, family dysfunction, and poverty;

“(3) maintain a system which identifies the needs of community health representatives for continuing education in health care, health promotion, and disease prevention and develop programs that meet the needs for continuing education;

“(4) maintain a system that provides close supervision of Community Health Representatives;

“(5) maintain a system under which the work of Community Health Representatives is reviewed and evaluated; and

“(6) promote traditional health care practices of the Indian Tribes served consistent with the Service standards for the provision of health care, health promotion, and disease prevention.

“SEC. 110. INDIAN HEALTH SERVICE LOAN REPAYMENT PROGRAM.

“(a) **ESTABLISHMENT.**—The Secretary, acting through the Service, shall establish and administer a program to be known as the Service Loan Repayment Program (hereinafter referred to as the ‘Loan Repayment Program’) in order to ensure an adequate supply of trained health professionals necessary to maintain accreditation of, and provide health care services to Indians through, Indian Health Programs and Urban Indian Organizations.

“(b) **ELIGIBLE INDIVIDUALS.**—To be eligible to participate in the Loan Repayment Program, an individual must—

“(1)(A) be enrolled—

“(i) in a course of study or program in an accredited educational institution (as determined by the Secretary under section 338B(b)(1)(c)(i) of the Public Health Service Act (42 U.S.C. 2541-1(b)(1)(c)(i))) and be scheduled to complete such course of study in the

same year such individual applies to participate in such program; or

“(ii) in an approved graduate training program in a health profession; or

“(B) have—

“(i) a degree in a health profession; and

“(ii) a license to practice a health profession;

“(2)(A) be eligible for, or hold, an appointment as a commissioned officer in the Regular or Reserve Corps of the Public Health Service;

“(B) be eligible for selection for civilian service in the Regular or Reserve Corps of the Public Health Service;

“(C) meet the professional standards for civil service employment in the Service; or

“(D) be employed in an Indian Health Program or Urban Indian Organization without a service obligation; and

“(3) submit to the Secretary an application for a contract described in subsection (e).

“(c) **APPLICATION.**—

“(1) **INFORMATION TO BE INCLUDED WITH FORMS.**—In disseminating application forms and contract forms to individuals desiring to participate in the Loan Repayment Program, the Secretary shall include with such forms a fair summary of the rights and liabilities of an individual whose application is approved (and whose contract is accepted) by the Secretary, including in the summary a clear explanation of the damages to which the United States is entitled under subsection (1) in the case of the individual’s breach of contract. The Secretary shall provide such individuals with sufficient information regarding the advantages and disadvantages of service as a commissioned officer in the Regular or Reserve Corps of the Public Health Service or a civilian employee of the Service to enable the individual to make a decision on an informed basis.

“(2) **CLEAR LANGUAGE.**—The application form, contract form, and all other information furnished by the Secretary under this section shall be written in a manner calculated to be understood by the average individual applying to participate in the Loan Repayment Program.

“(3) **TIMELY AVAILABILITY OF FORMS.**—The Secretary shall make such application forms, contract forms, and other information available to individuals desiring to participate in the Loan Repayment Program on a date sufficiently early to ensure that such individuals have adequate time to carefully review and evaluate such forms and information.

“(d) **PRIORITIES.**—

“(1) **LIST.**—Consistent with subsection (k), the Secretary shall annually—

“(A) identify the positions in each Indian Health Program or Urban Indian Organization for which there is a need or a vacancy; and

“(B) rank those positions in order of priority.

“(2) **APPROVALS.**—Notwithstanding the priority determined under paragraph (1), the Secretary, in determining which applications under the Loan Repayment Program to approve (and which contracts to accept), shall—

“(A) give first priority to applications made by individual Indians; and

“(B) after making determinations on all applications submitted by individual Indians as required under subparagraph (A), give priority to—

“(i) individuals recruited through the efforts of an Indian Health Program or Urban Indian Organization; and

“(ii) other individuals based on the priority rankings under paragraph (1).

“(e) **RECIPIENT CONTRACTS.**—

“(1) **CONTRACT REQUIRED.**—An individual becomes a participant in the Loan Repayment Program only upon the Secretary and the individual entering into a written contract described in paragraph (2).

“(2) **CONTENTS OF CONTRACT.**—The written contract referred to in this section between the Secretary and an individual shall contain—

“(A) an agreement under which—

“(i) subject to subparagraph (C), the Secretary agrees—

“(I) to pay loans on behalf of the individual in accordance with the provisions of this section; and

“(II) to accept (subject to the availability of appropriated funds for carrying out this section) the individual into the Service or place the individual with a Tribal Health Program or Urban Indian Organization as provided in clause (ii)(III); and

“(ii) subject to subparagraph (C), the individual agrees—

“(I) to accept loan payments on behalf of the individual;

“(II) in the case of an individual described in subsection (b)(1)—

“(aa) to maintain enrollment in a course of study or training described in subsection (b)(1)(A) until the individual completes the course of study or training; and

“(bb) while enrolled in such course of study or training, to maintain an acceptable level of academic standing (as determined under regulations of the Secretary by the educational institution offering such course of study or training); and

“(III) to serve for a time period (hereinafter in this section referred to as the ‘period of obligated service’) equal to 2 years or such longer period as the individual may agree to serve in the full-time clinical practice of such individual’s profession in an Indian Health Program or Urban Indian Organization to which the individual may be assigned by the Secretary;

“(B) a provision permitting the Secretary to extend for such longer additional periods, as the individual may agree to, the period of obligated service agreed to by the individual under subparagraph (A)(ii)(III);

“(C) a provision that any financial obligation of the United States arising out of a contract entered into under this section and any obligation of the individual which is conditioned thereon is contingent upon funds being appropriated for loan repayments under this section;

“(D) a statement of the damages to which the United States is entitled under subsection (1) for the individual’s breach of the contract; and

“(E) such other statements of the rights and liabilities of the Secretary and of the individual, not inconsistent with this section.

“(f) **DEADLINE FOR DECISION ON APPLICATION.**—The Secretary shall provide written notice to an individual within 21 days on—

“(1) the Secretary’s approving, under subsection (e)(1), of the individual’s participation in the Loan Repayment Program, including extensions resulting in an aggregate period of obligated service in excess of 4 years; or

“(2) the Secretary’s disapproving an individual’s participation in such Program.

“(g) **PAYMENTS.**—

“(1) **IN GENERAL.**—A loan repayment provided for an individual under a written contract under the Loan Repayment Program shall consist of payment, in accordance with paragraph (2), on behalf of the individual of the principal, interest, and related expenses

on government and commercial loans received by the individual regarding the undergraduate or graduate education of the individual (or both), which loans were made for—

“(A) tuition expenses;

“(B) all other reasonable educational expenses, including fees, books, and laboratory expenses, incurred by the individual; and

“(C) reasonable living expenses as determined by the Secretary.

“(2) AMOUNT.—For each year of obligated service that an individual contracts to serve under subsection (e), the Secretary may pay up to \$35,000 or an amount equal to the amount specified in section 338B(g)(2)(A) of the Public Health Service Act, whichever is more, on behalf of the individual for loans described in paragraph (1). In making a determination of the amount to pay for a year of such service by an individual, the Secretary shall consider the extent to which each such determination—

“(A) affects the ability of the Secretary to maximize the number of contracts that can be provided under the Loan Repayment Program from the amounts appropriated for such contracts;

“(B) provides an incentive to serve in Indian Health Programs and Urban Indian Organizations with the greatest shortages of health professionals; and

“(C) provides an incentive with respect to the health professional involved remaining in an Indian Health Program or Urban Indian Organization with such a health professional shortage, and continuing to provide primary health services, after the completion of the period of obligated service under the Loan Repayment Program.

“(3) TIMING.—Any arrangement made by the Secretary for the making of loan repayments in accordance with this subsection shall provide that any repayments for a year of obligated service shall be made no later than the end of the fiscal year in which the individual completes such year of service.

“(4) REIMBURSEMENTS FOR TAX LIABILITY.—For the purpose of providing reimbursements for tax liability resulting from a payment under paragraph (2) on behalf of an individual, the Secretary—

“(A) in addition to such payments, may make payments to the individual in an amount equal to not less than 20 percent and not more than 39 percent of the total amount of loan repayments made for the taxable year involved; and

“(B) may make such additional payments as the Secretary determines to be appropriate with respect to such purpose.

“(5) PAYMENT SCHEDULE.—The Secretary may enter into an agreement with the holder of any loan for which payments are made under the Loan Repayment Program to establish a schedule for the making of such payments.

“(h) EMPLOYMENT CEILING.—Notwithstanding any other provision of law, individuals who have entered into written contracts with the Secretary under this section shall not be counted against any employment ceiling affecting the Department while those individuals are undergoing academic training.

“(i) RECRUITMENT.—The Secretary shall conduct recruiting programs for the Loan Repayment Program and other manpower programs of the Service at educational institutions training health professionals or specialists identified in subsection (a).

“(j) APPLICABILITY OF LAW.—Section 214 of the Public Health Service Act (42 U.S.C. 215) shall not apply to individuals during their period of obligated service under the Loan Repayment Program.

“(k) ASSIGNMENT OF INDIVIDUALS.—The Secretary, in assigning individuals to serve in Indian Health Programs or Urban Indian Organizations pursuant to contracts entered into under this section, shall—

“(1) ensure that the staffing needs of Tribal Health Programs and Urban Indian Organizations receive consideration on an equal basis with programs that are administered directly by the Service; and

“(2) give priority to assigning individuals to Indian Health Programs and Urban Indian Organizations that have a need for health professionals to provide health care services as a result of individuals having breached contracts entered into under this section.

“(1) BREACH OF CONTRACT.—

“(1) SPECIFIC BREACHES.—An individual who has entered into a written contract with the Secretary under this section and has not received a waiver under subsection (m) shall be liable, in lieu of any service obligation arising under such contract, to the United States for the amount which has been paid on such individual's behalf under the contract if that individual—

“(A) is enrolled in the final year of a course of study and—

“(i) fails to maintain an acceptable level of academic standing in the educational institution in which he or she is enrolled (such level determined by the educational institution under regulations of the Secretary);

“(ii) voluntarily terminates such enrollment; or

“(iii) is dismissed from such educational institution before completion of such course of study; or

“(B) is enrolled in a graduate training program and fails to complete such training program.

“(2) OTHER BREACHES; FORMULA FOR AMOUNT OWED.—If, for any reason not specified in paragraph (1), an individual breaches his or her written contract under this section by failing either to begin, or complete, such individual's period of obligated service in accordance with subsection (e)(2), the United States shall be entitled to recover from such individual an amount to be determined in accordance with the following formula: $A=3Z(t-s/t)$ in which—

“(A) ‘A’ is the amount the United States is entitled to recover;

“(B) ‘Z’ is the sum of the amounts paid under this section to, or on behalf of, the individual and the interest on such amounts which would be payable if, at the time the amounts were paid, they were loans bearing interest at the maximum legal prevailing rate, as determined by the Secretary of the Treasury;

“(C) ‘t’ is the total number of months in the individual's period of obligated service in accordance with subsection (f); and

“(D) ‘s’ is the number of months of such period served by such individual in accordance with this section.

“(3) DEDUCTIONS IN MEDICARE PAYMENTS.—Amounts not paid within such period shall be subject to collection through deductions in Medicare payments pursuant to section 1892 of the Social Security Act.

“(4) TIME PERIOD FOR REPAYMENT.—Any amount of damages which the United States is entitled to recover under this subsection shall be paid to the United States within the 1-year period beginning on the date of the breach or such longer period beginning on such date as shall be specified by the Secretary.

“(5) RECOVERY OF DELINQUENCY.—

“(A) IN GENERAL.—If damages described in paragraph (4) are delinquent for 3 months,

the Secretary shall, for the purpose of recovering such damages—

“(i) use collection agencies contracted with by the Administrator of General Services; or

“(ii) enter into contracts for the recovery of such damages with collection agencies selected by the Secretary.

“(B) REPORT.—Each contract for recovering damages pursuant to this subsection shall provide that the contractor will, not less than once each 6 months, submit to the Secretary a status report on the success of the contractor in collecting such damages. Section 3718 of title 31, United States Code, shall apply to any such contract to the extent not inconsistent with this subsection.

“(m) WAIVER OR SUSPENSION OF OBLIGATION.—

“(1) IN GENERAL.—The Secretary shall by regulation provide for the partial or total waiver or suspension of any obligation of service or payment by an individual under the Loan Repayment Program whenever compliance by the individual is impossible or would involve extreme hardship to the individual and if enforcement of such obligation with respect to any individual would be unconscionable.

“(2) CANCELED UPON DEATH.—Any obligation of an individual under the Loan Repayment Program for service or payment of damages shall be canceled upon the death of the individual.

“(3) HARDSHIP WAIVER.—The Secretary may waive, in whole or in part, the rights of the United States to recover amounts under this section in any case of extreme hardship or other good cause shown, as determined by the Secretary.

“(4) BANKRUPTCY.—Any obligation of an individual under the Loan Repayment Program for payment of damages may be released by a discharge in bankruptcy under title 11 of the United States Code only if such discharge is granted after the expiration of the 5-year period beginning on the first date that payment of such damages is required, and only if the bankruptcy court finds that nondischarge of the obligation would be unconscionable.

“(n) REPORT.—The Secretary shall submit to the President, for inclusion in the report required to be submitted to Congress under section 801, a report concerning the previous fiscal year which sets forth by Service Area the following:

“(1) A list of the health professional positions maintained by Indian Health Programs and Urban Indian Organizations for which recruitment or retention is difficult.

“(2) The number of Loan Repayment Program applications filed with respect to each type of health profession.

“(3) The number of contracts described in subsection (e) that are entered into with respect to each health profession.

“(4) The amount of loan payments made under this section, in total and by health profession.

“(5) The number of scholarships that are provided under sections 104 and 106 with respect to each health profession.

“(6) The amount of scholarship grants provided under section 104 and 106, in total and by health profession.

“(7) The number of providers of health care that will be needed by Indian Health Programs and Urban Indian Organizations, by location and profession, during the 3 fiscal years beginning after the date the report is filed.

“(8) The measures the Secretary plans to take to fill the health professional positions

maintained by Indian Health Programs or Urban Indian Organizations for which recruitment or retention is difficult.

“SEC. 111. SCHOLARSHIP AND LOAN REPAYMENT RECOVERY FUND.

“(a) ESTABLISHMENT.—There is established in the Treasury of the United States a fund to be known as the Indian Health Scholarship and Loan Repayment Recovery Fund (hereafter in this section referred to as the ‘LRRF’). The LRRF shall consist of such amounts as may be collected from individuals under section 104(d), section 106(e), and section 110(1) for breach of contract, such funds as may be appropriated to the LRRF, and interest earned on amounts in the LRRF. All amounts collected, appropriated, or earned relative to the LRRF shall remain available until expended.

“(b) USE OF FUNDS.—

“(1) BY SECRETARY.—Amounts in the LRRF may be expended by the Secretary, acting through the Service, to make payments to an Indian Health Program—

“(A) to which a scholarship recipient under section 104 and 106 or a loan repayment program participant under section 110 has been assigned to meet the obligated service requirements pursuant to such sections; and

“(B) that has a need for a health professional to provide health care services as a result of such recipient or participant having breached the contract entered into under section 104, 106, or section 110.

“(2) BY TRIBAL HEALTH PROGRAMS.—A Tribal Health Program receiving payments pursuant to paragraph (1) may expend the payments to provide scholarships or recruit and employ, directly or by contract, health professionals to provide health care services.

“(c) INVESTMENT OF FUNDS.—The Secretary of the Treasury shall invest such amounts of the LRRF as the Secretary of Health and Human Services determines are not required to meet current withdrawals from the LRRF. Such investments may be made only in interest bearing obligations of the United States. For such purpose, such obligations may be acquired on original issue at the issue price, or by purchase of outstanding obligations at the market price.

“(d) SALE OF OBLIGATIONS.—Any obligation acquired by the LRRF may be sold by the Secretary of the Treasury at the market price.

“SEC. 112. RECRUITMENT ACTIVITIES.

“(a) REIMBURSEMENT FOR TRAVEL.—The Secretary, acting through the Service, may reimburse health professionals seeking positions with Indian Health Programs or Urban Indian Organizations, including individuals considering entering into a contract under section 110 and their spouses, for actual and reasonable expenses incurred in traveling to and from their places of residence to an area in which they may be assigned for the purpose of evaluating such area with respect to such assignment.

“(b) RECRUITMENT PERSONNEL.—The Secretary, acting through the Service, shall assign 1 individual in each Area Office to be responsible on a full-time basis for recruitment activities.

“SEC. 113. INDIAN RECRUITMENT AND RETENTION PROGRAM.

“(a) IN GENERAL.—The Secretary, acting through the Service, shall fund, on a competitive basis, innovative demonstration projects for a period not to exceed 3 years to enable Tribal Health Programs and Urban Indian Organizations to recruit, place, and retain health professionals to meet their staffing needs.

“(b) ELIGIBLE ENTITIES; APPLICATION.—Any Tribal Health Program or Urban Indian Or-

ganization may submit an application for funding of a project pursuant to this section.

“SEC. 114. ADVANCED TRAINING AND RESEARCH.

“(a) DEMONSTRATION PROGRAM.—The Secretary, acting through the Service, shall establish a demonstration project to enable health professionals who have worked in an Indian Health Program or Urban Indian Organization for a substantial period of time to pursue advanced training or research areas of study for which the Secretary determines a need exists.

“(b) SERVICE OBLIGATION.—An individual who participates in a program under subsection (a), where the educational costs are borne by the Service, shall incur an obligation to serve in an Indian Health Program or Urban Indian Organization for a period of obligated service equal to at least the period of time during which the individual participates in such program. In the event that the individual fails to complete such obligated service, the individual shall be liable to the United States for the period of service remaining. In such event, with respect to individuals entering the program after the date of enactment of the Indian Health Care Improvement Act Amendments of 2007, the United States shall be entitled to recover from such individual an amount to be determined in accordance with the formula specified in subsection (1) of section 110 in the manner provided for in such subsection.

“(c) EQUAL OPPORTUNITY FOR PARTICIPATION.—Health professionals from Tribal Health Programs and Urban Indian Organizations shall be given an equal opportunity to participate in the program under subsection (a).

“SEC. 115. QUENTIN N. BURDICK AMERICAN INDIANS INTO NURSING PROGRAM.

“(a) GRANTS AUTHORIZED.—For the purpose of increasing the number of nurses, nurse midwives, and nurse practitioners who deliver health care services to Indians, the Secretary, acting through the Service, shall provide grants to the following:

“(1) Public or private schools of nursing.

“(2) Tribal colleges or universities.

“(3) Nurse midwife programs and advanced practice nurse programs that are provided by any tribal college or university accredited nursing program, or in the absence of such, any other public or private institutions.

“(b) USE OF GRANTS.—Grants provided under subsection (a) may be used for 1 or more of the following:

“(1) To recruit individuals for programs which train individuals to be nurses, nurse midwives, or advanced practice nurses.

“(2) To provide scholarships to Indians enrolled in such programs that may pay the tuition charged for such program and other expenses incurred in connection with such program, including books, fees, room and board, and stipends for living expenses.

“(3) To provide a program that encourages nurses, nurse midwives, and advanced practice nurses to provide, or continue to provide, health care services to Indians.

“(4) To provide a program that increases the skills of, and provides continuing education to, nurses, nurse midwives, and advanced practice nurses.

“(5) To provide any program that is designed to achieve the purpose described in subsection (a).

“(c) APPLICATIONS.—Each application for a grant under subsection (a) shall include such information as the Secretary may require to establish the connection between the program of the applicant and a health care facility that primarily serves Indians.

“(d) PREFERENCES FOR GRANT RECIPIENTS.—In providing grants under subsection

(a), the Secretary shall extend a preference to the following:

“(1) Programs that provide a preference to Indians.

“(2) Programs that train nurse midwives or advanced practice nurses.

“(3) Programs that are interdisciplinary.

“(4) Programs that are conducted in cooperation with a program for gifted and talented Indian students.

“(5) Programs conducted by tribal colleges and universities.

“(e) QUENTIN N. BURDICK PROGRAM GRANT.—The Secretary shall provide 1 of the grants authorized under subsection (a) to establish and maintain a program at the University of North Dakota to be known as the ‘Quentin N. Burdick American Indians Into Nursing Program’. Such program shall, to the maximum extent feasible, coordinate with the Quentin N. Burdick Indian Health Programs established under section 117(b) and the Quentin N. Burdick American Indians Into Psychology Program established under section 105(b).

“(f) ACTIVE DUTY SERVICE OBLIGATION.—The active duty service obligation prescribed under section 338C of the Public Health Service Act (42 U.S.C. 254m) shall be met by each individual who receives training or assistance described in paragraph (1) or (2) of subsection (b) that is funded by a grant provided under subsection (a). Such obligation shall be met by service—

“(1) in the Service;

“(2) in a program of an Indian Tribe or Tribal Organization conducted under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) (including programs under agreements with the Bureau of Indian Affairs);

“(3) in a program assisted under title V of this Act;

“(4) in the private practice of nursing if, as determined by the Secretary, in accordance with guidelines promulgated by the Secretary, such practice is situated in a physician or other health shortage area and addresses the health care needs of a substantial number of Indians; or

“(5) in a teaching capacity in a tribal college or university nursing program (or a related health profession program) if, as determined by the Secretary, health services provided to Indians would not decrease.

“SEC. 116. TRIBAL CULTURAL ORIENTATION.

“(a) CULTURAL EDUCATION OF EMPLOYEES.—The Secretary, acting through the Service, shall require that appropriate employees of the Service who serve Indian Tribes in each Service Area receive educational instruction in the history and culture of such Indian Tribes and their relationship to the Service.

“(b) PROGRAM.—In carrying out subsection (a), the Secretary shall establish a program which shall, to the extent feasible—

“(1) be developed in consultation with the affected Indian Tribes, Tribal Organizations, and Urban Indian Organizations;

“(2) be carried out through tribal colleges or universities;

“(3) include instruction in American Indian studies; and

“(4) describe the use and place of traditional health care practices of the Indian Tribes in the Service Area.

“SEC. 117. INMED PROGRAM.

“(a) GRANTS AUTHORIZED.—The Secretary, acting through the Service, is authorized to provide grants to colleges and universities for the purpose of maintaining and expanding the Indian health careers recruitment

program known as the 'Indians Into Medicine Program' (hereinafter in this section referred to as 'INMED') as a means of encouraging Indians to enter the health professions.

"(b) **QUENTIN N. BURDICK GRANT.**—The Secretary shall provide 1 of the grants authorized under subsection (a) to maintain the INMED program at the University of North Dakota, to be known as the 'Quentin N. Burdick Indian Health Programs', unless the Secretary makes a determination, based upon program reviews, that the program is not meeting the purposes of this section. Such program shall, to the maximum extent feasible, coordinate with the Quentin N. Burdick American Indians Into Psychology Program established under section 105(b) and the Quentin N. Burdick American Indians Into Nursing Program established under section 115.

"(c) **REGULATIONS.**—The Secretary, pursuant to this Act, shall develop regulations to govern grants pursuant to this section.

"(d) **REQUIREMENTS.**—Applicants for grants provided under this section shall agree to provide a program which—

"(1) provides outreach and recruitment for health professions to Indian communities including elementary and secondary schools and community colleges located on reservations which will be served by the program;

"(2) incorporates a program advisory board comprised of representatives from the Indian Tribes and Indian communities which will be served by the program;

"(3) provides summer preparatory programs for Indian students who need enrichment in the subjects of math and science in order to pursue training in the health professions;

"(4) provides tutoring, counseling, and support to students who are enrolled in a health career program of study at the respective college or university; and

"(5) to the maximum extent feasible, employs qualified Indians in the program.

"SEC. 118. HEALTH TRAINING PROGRAMS OF COMMUNITY COLLEGES.

"(a) **GRANTS TO ESTABLISH PROGRAMS.**—

"(1) **IN GENERAL.**—The Secretary, acting through the Service, shall award grants to accredited and accessible community colleges for the purpose of assisting such community colleges in the establishment of programs which provide education in a health profession leading to a degree or diploma in a health profession for individuals who desire to practice such profession on or near a reservation or in an Indian Health Program.

"(2) **AMOUNT OF GRANTS.**—The amount of any grant awarded to a community college under paragraph (1) for the first year in which such a grant is provided to the community college shall not exceed \$250,000.

"(b) **GRANTS FOR MAINTENANCE AND RECRUITING.**—

"(1) **IN GENERAL.**—The Secretary, acting through the Service, shall award grants to accredited and accessible community colleges that have established a program described in subsection (a)(1) for the purpose of maintaining the program and recruiting students for the program.

"(2) **REQUIREMENTS.**—Grants may only be made under this section to a community college which—

"(A) is accredited;

"(B) has a relationship with a hospital facility, Service facility, or hospital that could provide training of nurses or health professionals;

"(C) has entered into an agreement with an accredited college or university medical school, the terms of which—

"(i) provide a program that enhances the transition and recruitment of students into advanced baccalaureate or graduate programs that train health professionals; and

"(ii) stipulate certifications necessary to approve internship and field placement opportunities at Indian Health Programs;

"(D) has a qualified staff which has the appropriate certifications;

"(E) is capable of obtaining State or regional accreditation of the program described in subsection (a)(1); and

"(F) agrees to provide for Indian preference for applicants for programs under this section.

"(c) **TECHNICAL ASSISTANCE.**—The Secretary shall encourage community colleges described in subsection (b)(2) to establish and maintain programs described in subsection (a)(1) by—

"(1) entering into agreements with such colleges for the provision of qualified personnel of the Service to teach courses of study in such programs; and

"(2) providing technical assistance and support to such colleges.

"(d) **ADVANCED TRAINING.**—

"(1) **REQUIRED.**—Any program receiving assistance under this section that is conducted with respect to a health profession shall also offer courses of study which provide advanced training for any health professional who—

"(A) has already received a degree or diploma in such health profession; and

"(B) provides clinical services on or near a reservation or for an Indian Health Program.

"(2) **MAY BE OFFERED AT ALTERNATE SITE.**—Such courses of study may be offered in conjunction with the college or university with which the community college has entered into the agreement required under subsection (b)(2)(C).

"(e) **PRIORITY.**—Where the requirements of subsection (b) are met, grant award priority shall be provided to tribal colleges and universities in Service Areas where they exist.

"SEC. 119. RETENTION BONUS.

"(a) **BONUS AUTHORIZED.**—The Secretary may pay a retention bonus to any health professional employed by, or assigned to, and serving in, an Indian Health Program or Urban Indian Organization either as a civilian employee or as a commissioned officer in the Regular or Reserve Corps of the Public Health Service who—

"(1) is assigned to, and serving in, a position for which recruitment or retention of personnel is difficult;

"(2) the Secretary determines is needed by Indian Health Programs and Urban Indian Organizations;

"(3) has—

"(A) completed 2 years of employment with an Indian Health Program or Urban Indian Organization; or

"(B) completed any service obligations incurred as a requirement of—

"(i) any Federal scholarship program; or

"(ii) any Federal education loan repayment program; and

"(4) enters into an agreement with an Indian Health Program or Urban Indian Organization for continued employment for a period of not less than 1 year.

"(b) **RATES.**—The Secretary may establish rates for the retention bonus which shall provide for a higher annual rate for multiyear agreements than for single year agreements referred to in subsection (a)(4), but in no event shall the annual rate be more than \$25,000 per annum.

"(c) **DEFAULT OF RETENTION AGREEMENT.**—Any health professional failing to complete

the agreed upon term of service, except where such failure is through no fault of the individual, shall be obligated to refund to the Government the full amount of the retention bonus for the period covered by the agreement, plus interest as determined by the Secretary in accordance with section 110(1)(2)(B).

"(d) **OTHER RETENTION BONUS.**—The Secretary may pay a retention bonus to any health professional employed by a Tribal Health Program if such health professional is serving in a position which the Secretary determines is—

"(1) a position for which recruitment or retention is difficult; and

"(2) necessary for providing health care services to Indians.

"SEC. 120. NURSING RESIDENCY PROGRAM.

"(a) **ESTABLISHMENT OF PROGRAM.**—The Secretary, acting through the Service, shall establish a program to enable Indians who are licensed practical nurses, licensed vocational nurses, and registered nurses who are working in an Indian Health Program or Urban Indian Organization, and have done so for a period of not less than 1 year, to pursue advanced training. Such program shall include a combination of education and work study in an Indian Health Program or Urban Indian Organization leading to an associate or bachelor's degree (in the case of a licensed practical nurse or licensed vocational nurse), a bachelor's degree (in the case of a registered nurse), or advanced degrees or certifications in nursing and public health.

"(b) **SERVICE OBLIGATION.**—An individual who participates in a program under subsection (a), where the educational costs are paid by the Service, shall incur an obligation to serve in an Indian Health Program or Urban Indian Organization for a period of obligated service equal to 1 year for every year that nonprofessional employee (licensed practical nurses, licensed vocational nurses, nursing assistants, and various health care technicals), or 2 years for every year that professional nurse (associate degree and bachelor-prepared registered nurses), participates in such program. In the event that the individual fails to complete such obligated service, the United States shall be entitled to recover from such individual an amount determined in accordance with the formula specified in subsection (1) of section 110 in the manner provided for in such subsection.

"SEC. 121. COMMUNITY HEALTH AIDE PROGRAM.

"(a) **GENERAL PURPOSES OF PROGRAM.**—Under the authority of the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the 'Snyder Act'), the Secretary, acting through the Service, shall develop and operate a Community Health Aide Program in Alaska under which the Service—

"(1) provides for the training of Alaska Natives as health aides or community health practitioners;

"(2) uses such aides or practitioners in the provision of health care, health promotion, and disease prevention services to Alaska Natives living in villages in rural Alaska; and

"(3) provides for the establishment of teleconferencing capacity in health clinics located in or near such villages for use by community health aides or community health practitioners.

"(b) **SPECIFIC PROGRAM REQUIREMENTS.**—The Secretary, acting through the Community Health Aide Program of the Service, shall—

"(1) using trainers accredited by the Program, provide a high standard of training to community health aides and community

health practitioners to ensure that such aides and practitioners provide quality health care, health promotion, and disease prevention services to the villages served by the Program;

“(2) in order to provide such training, develop a curriculum that—

“(A) combines education in the theory of health care with supervised practical experience in the provision of health care;

“(B) provides instruction and practical experience in the provision of acute care, emergency care, health promotion, disease prevention, and the efficient and effective management of clinic pharmacies, supplies, equipment, and facilities; and

“(C) promotes the achievement of the health status objectives specified in section 3(2);

“(3) establish and maintain a Community Health Aide Certification Board to certify as community health aides or community health practitioners individuals who have successfully completed the training described in paragraph (1) or can demonstrate equivalent experience;

“(4) develop and maintain a system which identifies the needs of community health aides and community health practitioners for continuing education in the provision of health care, including the areas described in paragraph (2)(B), and develop programs that meet the needs for such continuing education;

“(5) develop and maintain a system that provides close supervision of community health aides and community health practitioners;

“(6) develop a system under which the work of community health aides and community health practitioners is reviewed and evaluated to assure the provision of quality health care, health promotion, and disease prevention services; and

“(7) ensure that pulpal therapy (not including pulpotomies on deciduous teeth) or extraction of adult teeth can be performed by a dental health aide therapist only after consultation with a licensed dentist who determines that the procedure is a medical emergency that cannot be resolved with palliative treatment, and further that dental health aide therapists are strictly prohibited from performing all other oral or jaw surgeries, provided that uncomplicated extractions shall not be considered oral surgery under this section.

“(c) PROGRAM REVIEW.—

“(1) NEUTRAL PANEL.—

“(A) ESTABLISHMENT.—The Secretary, acting through the Service, shall establish a neutral panel to carry out the study under paragraph (2).

“(B) MEMBERSHIP.—Members of the neutral panel shall be appointed by the Secretary from among clinicians, economists, community practitioners, oral epidemiologists, and Alaska Natives.

“(2) STUDY.—

“(A) IN GENERAL.—The neutral panel established under paragraph (1) shall conduct a study of the dental health aide therapist services provided by the Community Health Aide Program under this section to ensure that the quality of care provided through those services is adequate and appropriate.

“(B) PARAMETERS OF STUDY.—The Secretary, in consultation with interested parties, including professional dental organizations, shall develop the parameters of the study.

“(C) INCLUSIONS.—The study shall include a determination by the neutral panel with respect to—

“(i) the ability of the dental health aide therapist services under this section to address the dental care needs of Alaska Natives;

“(ii) the quality of care provided through those services, including any training, improvement, or additional oversight required to improve the quality of care; and

“(iii) whether safer and less costly alternatives to the dental health aide therapist services exist.

“(D) CONSULTATION.—In carrying out the study under this paragraph, the neutral panel shall consult with Alaska Tribal Organizations with respect to the adequacy and accuracy of the study.

“(3) REPORT.—The neutral panel shall submit to the Secretary, the Committee on Indian Affairs of the Senate, and the Committee on Natural Resources of the House of Representatives a report describing the results of the study under paragraph (2), including a description of—

“(A) any determination of the neutral panel under paragraph (2)(C); and

“(B) any comments received from an Alaska Tribal Organization under paragraph (2)(D).

“(d) NATIONALIZATION OF PROGRAM.—

“(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary, acting through the Service, may establish a national Community Health Aide Program in accordance with the program under this section, as the Secretary determines to be appropriate.

“(2) EXCEPTION.—The national Community Health Aide Program under paragraph (1) shall not include dental health aide therapist services.

“(3) REQUIREMENT.—In establishing a national program under paragraph (1), the Secretary shall not reduce the amount of funds provided for the Community Health Aide Program described in subsections (a) and (b).

“SEC. 122. TRIBAL HEALTH PROGRAM ADMINISTRATION.

“The Secretary, acting through the Service, shall, by contract or otherwise, provide training for Indians in the administration and planning of Tribal Health Programs.

“SEC. 123. HEALTH PROFESSIONAL CHRONIC SHORTAGE DEMONSTRATION PROGRAMS.

“(a) DEMONSTRATION PROGRAMS AUTHORIZED.—The Secretary, acting through the Service, may fund demonstration programs for Tribal Health Programs to address the chronic shortages of health professionals.

“(b) PURPOSES OF PROGRAMS.—The purposes of demonstration programs funded under subsection (a) shall be—

“(1) to provide direct clinical and practical experience at a Service Unit to health profession students and residents from medical schools;

“(2) to improve the quality of health care for Indians by assuring access to qualified health care professionals; and

“(3) to provide academic and scholarly opportunities for health professionals serving Indians by identifying all academic and scholarly resources of the region.

“(c) ADVISORY BOARD.—The demonstration programs established pursuant to subsection (a) shall incorporate a program advisory board composed of representatives from the Indian Tribes and Indian communities in the area which will be served by the program.

“SEC. 124. NATIONAL HEALTH SERVICE CORPS.

“(a) NO REDUCTION IN SERVICES.—The Secretary shall not—

“(1) remove a member of the National Health Service Corps from an Indian Health Program or Urban Indian Organization; or

“(2) withdraw funding used to support such member, unless the Secretary, acting through the Service, has ensured that the Indians receiving services from such member will experience no reduction in services.

“(b) EXEMPTION FROM LIMITATIONS.—National Health Service Corps scholars qualifying for the Commissioned Corps in the Public Health Service shall be exempt from the full-time equivalent limitations of the National Health Service Corps and the Service when serving as a commissioned corps officer in a Tribal Health Program or an Urban Indian Organization.

“SEC. 125. SUBSTANCE ABUSE COUNSELOR EDUCATIONAL CURRICULA DEMONSTRATION PROGRAMS.

“(a) CONTRACTS AND GRANTS.—The Secretary, acting through the Service, may enter into contracts with, or make grants to, accredited tribal colleges and universities and eligible accredited and accessible community colleges to establish demonstration programs to develop educational curricula for substance abuse counseling.

“(b) USE OF FUNDS.—Funds provided under this section shall be used only for developing and providing educational curriculum for substance abuse counseling (including paying salaries for instructors). Such curricula may be provided through satellite campus programs.

“(c) TIME PERIOD OF ASSISTANCE; RENEWAL.—A contract entered into or a grant provided under this section shall be for a period of 3 years. Such contract or grant may be renewed for an additional 2-year period upon the approval of the Secretary.

“(d) CRITERIA FOR REVIEW AND APPROVAL OF APPLICATIONS.—Not later than 180 days after the date of enactment of the Indian Health Care Improvement Act Amendments of 2007, the Secretary, after consultation with Indian Tribes and administrators of tribal colleges and universities and eligible accredited and accessible community colleges, shall develop and issue criteria for the review and approval of applications for funding (including applications for renewals of funding) under this section. Such criteria shall ensure that demonstration programs established under this section promote the development of the capacity of such entities to educate substance abuse counselors.

“(e) ASSISTANCE.—The Secretary shall provide such technical and other assistance as may be necessary to enable grant recipients to comply with the provisions of this section.

“(f) REPORT.—Each fiscal year, the Secretary shall submit to the President, for inclusion in the report which is required to be submitted under section 801 for that fiscal year, a report on the findings and conclusions derived from the demonstration programs conducted under this section during that fiscal year.

“(g) DEFINITION.—For the purposes of this section, the term ‘educational curriculum’ means 1 or more of the following:

“(1) Classroom education.

“(2) Clinical work experience.

“(3) Continuing education workshops.

“SEC. 126. BEHAVIORAL HEALTH TRAINING AND COMMUNITY EDUCATION PROGRAMS.

“(a) STUDY; LIST.—The Secretary, acting through the Service, and the Secretary of the Interior, in consultation with Indian Tribes and Tribal Organizations, shall conduct a study and compile a list of the types of staff positions specified in subsection (b) whose qualifications include, or should include, training in the identification, prevention, education, referral, or treatment of

mental illness, or dysfunctional and self-destructive behavior.

“(b) POSITIONS.—The positions referred to in subsection (a) are—

“(1) staff positions within the Bureau of Indian Affairs, including existing positions, in the fields of—

“(A) elementary and secondary education;

“(B) social services and family and child welfare;

“(C) law enforcement and judicial services; and

“(D) alcohol and substance abuse;

“(2) staff positions within the Service; and

“(3) staff positions similar to those identified in paragraphs (1) and (2) established and maintained by Indian Tribes, Tribal Organizations (without regard to the funding source), and Urban Indian Organizations.

“(c) TRAINING CRITERIA.—

“(1) IN GENERAL.—The appropriate Secretary shall provide training criteria appropriate to each type of position identified in subsection (b)(1) and (b)(2) and ensure that appropriate training has been, or shall be provided to any individual in any such position. With respect to any such individual in a position identified pursuant to subsection (b)(3), the respective Secretaries shall provide appropriate training to, or provide funds to, an Indian Tribe, Tribal Organization, or Urban Indian Organization for training of appropriate individuals. In the case of positions funded under a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), the appropriate Secretary shall ensure that such training costs are included in the contract or compact, as the Secretary determines necessary.

“(2) POSITION SPECIFIC TRAINING CRITERIA.—Position specific training criteria shall be culturally relevant to Indians and Indian Tribes and shall ensure that appropriate information regarding traditional health care practices is provided.

“(d) COMMUNITY EDUCATION ON MENTAL ILLNESS.—The Service shall develop and implement, on request of an Indian Tribe, Tribal Organization, or Urban Indian Organization, or assist the Indian Tribe, Tribal Organization, or Urban Indian Organization to develop and implement, a program of community education on mental illness. In carrying out this subsection, the Service shall, upon request of an Indian Tribe, Tribal Organization, or Urban Indian Organization, provide technical assistance to the Indian Tribe, Tribal Organization, or Urban Indian Organization to obtain and develop community educational materials on the identification, prevention, referral, and treatment of mental illness and dysfunctional and self-destructive behavior.

“(e) PLAN.—Not later than 90 days after the date of enactment of the Indian Health Care Improvement Act Amendments of 2007, the Secretary shall develop a plan under which the Service will increase the health care staff providing behavioral health services by at least 500 positions within 5 years after the date of enactment of this section, with at least 200 of such positions devoted to child, adolescent, and family services. The plan developed under this subsection shall be implemented under the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’).

“SEC. 127. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated such sums as may be necessary for each fiscal year through fiscal year 2017 to carry out this title.

“TITLE II—HEALTH SERVICES

“SEC. 201. INDIAN HEALTH CARE IMPROVEMENT FUND.

“(a) USE OF FUNDS.—The Secretary, acting through the Service, is authorized to expend funds, directly or under the authority of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), which are appropriated under the authority of this section, for the purposes of—

“(1) eliminating the deficiencies in health status and health resources of all Indian Tribes;

“(2) eliminating backlogs in the provision of health care services to Indians;

“(3) meeting the health needs of Indians in an efficient and equitable manner, including the use of telehealth and telemedicine when appropriate;

“(4) eliminating inequities in funding for both direct care and contract health service programs; and

“(5) augmenting the ability of the Service to meet the following health service responsibilities with respect to those Indian Tribes with the highest levels of health status deficiencies and resource deficiencies:

“(A) Clinical care, including inpatient care, outpatient care (including audiology, clinical eye, and vision care), primary care, secondary and tertiary care, and long-term care.

“(B) Preventive health, including mammography and other cancer screening in accordance with section 207.

“(C) Dental care.

“(D) Mental health, including community mental health services, inpatient mental health services, dormitory mental health services, therapeutic and residential treatment centers, and training of traditional health care practitioners.

“(E) Emergency medical services.

“(F) Treatment and control of, and rehabilitative care related to, alcoholism and drug abuse (including fetal alcohol syndrome) among Indians.

“(G) Injury prevention programs, including data collection and evaluation, demonstration projects, training, and capacity building.

“(H) Home health care.

“(I) Community health representatives.

“(J) Maintenance and improvement.

“(b) NO OFFSET OR LIMITATION.—Any funds appropriated under the authority of this section shall not be used to offset or limit any other appropriations made to the Service under this Act or the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), or any other provision of law.

“(c) ALLOCATION; USE.—

“(1) IN GENERAL.—Funds appropriated under the authority of this section shall be allocated to Service Units, Indian Tribes, or Tribal Organizations. The funds allocated to each Indian Tribe, Tribal Organization, or Service Unit under this paragraph shall be used by the Indian Tribe, Tribal Organization, or Service Unit under this paragraph to improve the health status and reduce the resource deficiency of each Indian Tribe served by such Service Unit, Indian Tribe, or Tribal Organization.

“(2) APPORTIONMENT OF ALLOCATED FUNDS.—The apportionment of funds allocated to a Service Unit, Indian Tribe, or Tribal Organization under paragraph (1) among the health service responsibilities described in subsection (a)(5) shall be determined by the Service in consultation with, and with the active participation of, the affected Indian Tribes and Tribal Organizations.

“(d) PROVISIONS RELATING TO HEALTH STATUS AND RESOURCE DEFICIENCIES.—For the purposes of this section, the following definitions apply:

“(1) DEFINITION.—The term ‘health status and resource deficiency’ means the extent to which—

“(A) the health status objectives set forth in section 3(2) are not being achieved; and

“(B) the Indian Tribe or Tribal Organization does not have available to it the health resources it needs, taking into account the actual cost of providing health care services given local geographic, climatic, rural, or other circumstances.

“(2) AVAILABLE RESOURCES.—The health resources available to an Indian Tribe or Tribal Organization include health resources provided by the Service as well as health resources used by the Indian Tribe or Tribal Organization, including services and financing systems provided by any Federal programs, private insurance, and programs of State or local governments.

“(3) PROCESS FOR REVIEW OF DETERMINATIONS.—The Secretary shall establish procedures which allow any Indian Tribe or Tribal Organization to petition the Secretary for a review of any determination of the extent of the health status and resource deficiency of such Indian Tribe or Tribal Organization.

“(e) ELIGIBILITY FOR FUNDS.—Tribal Health Programs shall be eligible for funds appropriated under the authority of this section on an equal basis with programs that are administered directly by the Service.

“(f) REPORT.—By no later than the date that is 3 years after the date of enactment of the Indian Health Care Improvement Act Amendments of 2007, the Secretary shall submit to Congress the current health status and resource deficiency report of the Service for each Service Unit, including newly recognized or acknowledged Indian Tribes. Such report shall set out—

“(1) the methodology then in use by the Service for determining Tribal health status and resource deficiencies, as well as the most recent application of that methodology;

“(2) the extent of the health status and resource deficiency of each Indian Tribe served by the Service or a Tribal Health Program;

“(3) the amount of funds necessary to eliminate the health status and resource deficiencies of all Indian Tribes served by the Service or a Tribal Health Program; and

“(4) an estimate of—

“(A) the amount of health service funds appropriated under the authority of this Act, or any other Act, including the amount of any funds transferred to the Service for the preceding fiscal year which is allocated to each Service Unit, Indian Tribe, or Tribal Organization;

“(B) the number of Indians eligible for health services in each Service Unit or Indian Tribe or Tribal Organization; and

“(C) the number of Indians using the Service resources made available to each Service Unit, Indian Tribe or Tribal Organization, and, to the extent available, information on the waiting lists and number of Indians turned away for services due to lack of resources.

“(g) INCLUSION IN BASE BUDGET.—Funds appropriated under this section for any fiscal year shall be included in the base budget of the Service for the purpose of determining appropriations under this section in subsequent fiscal years.

“(h) CLARIFICATION.—Nothing in this section is intended to diminish the primary responsibility of the Service to eliminate existing backlogs in unmet health care needs,

nor are the provisions of this section intended to discourage the Service from undertaking additional efforts to achieve equity among Indian Tribes and Tribal Organizations.

“(i) FUNDING DESIGNATION.—Any funds appropriated under the authority of this section shall be designated as the ‘Indian Health Care Improvement Fund’.

“SEC. 202. CATASTROPHIC HEALTH EMERGENCY FUND.

“(a) ESTABLISHMENT.—There is established an Indian Catastrophic Health Emergency Fund (hereafter in this section referred to as the ‘CHEF’) consisting of—

“(1) the amounts deposited under subsection (f); and

“(2) the amounts appropriated to CHEF under this section.

“(b) ADMINISTRATION.—CHEF shall be administered by the Secretary, acting through the headquarters of the Service, solely for the purpose of meeting the extraordinary medical costs associated with the treatment of victims of disasters or catastrophic illnesses who are within the responsibility of the Service.

“(c) CONDITIONS ON USE OF FUND.—No part of CHEF or its administration shall be subject to contract or grant under any law, including the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), nor shall CHEF funds be allocated, apportioned, or delegated on an Area Office, Service Unit, or other similar basis.

“(d) REGULATIONS.—The Secretary shall promulgate regulations consistent with the provisions of this section to—

“(1) establish a definition of disasters and catastrophic illnesses for which the cost of the treatment provided under contract would qualify for payment from CHEF;

“(2) provide that a Service Unit shall not be eligible for reimbursement for the cost of treatment from CHEF until its cost of treating any victim of such catastrophic illness or disaster has reached a certain threshold cost which the Secretary shall establish at—

“(A) the 2000 level of \$19,000; and

“(B) for any subsequent year, not less than the threshold cost of the previous year increased by the percentage increase in the medical care expenditure category of the consumer price index for all urban consumers (United States city average) for the 12-month period ending with December of the previous year;

“(3) establish a procedure for the reimbursement of the portion of the costs that exceeds such threshold cost incurred by—

“(A) Service Units; or

“(B) whenever otherwise authorized by the Service, non-Service facilities or providers;

“(4) establish a procedure for payment from CHEF in cases in which the exigencies of the medical circumstances warrant treatment prior to the authorization of such treatment by the Service; and

“(5) establish a procedure that will ensure that no payment shall be made from CHEF to any provider of treatment to the extent that such provider is eligible to receive payment for the treatment from any other Federal, State, local, or private source of reimbursement for which the patient is eligible.

“(e) NO OFFSET OR LIMITATION.—Amounts appropriated to CHEF under this section shall not be used to offset or limit appropriations made to the Service under the authority of the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), or any other law.

“(f) DEPOSIT OF REIMBURSEMENT FUNDS.—There shall be deposited into CHEF all reim-

bursements to which the Service is entitled from any Federal, State, local, or private source (including third party insurance) by reason of treatment rendered to any victim of a disaster or catastrophic illness the cost of which was paid from CHEF.

“SEC. 203. HEALTH PROMOTION AND DISEASE PREVENTION SERVICES.

“(a) FINDINGS.—Congress finds that health promotion and disease prevention activities—

“(1) improve the health and well-being of Indians; and

“(2) reduce the expenses for health care of Indians.

“(b) PROVISION OF SERVICES.—The Secretary, acting through the Service and Tribal Health Programs, shall provide health promotion and disease prevention services to Indians to achieve the health status objectives set forth in section 3(2).

“(c) EVALUATION.—The Secretary, after obtaining input from the affected Tribal Health Programs, shall submit to the President for inclusion in the report which is required to be submitted to Congress under section 801 an evaluation of—

“(1) the health promotion and disease prevention needs of Indians;

“(2) the health promotion and disease prevention activities which would best meet such needs;

“(3) the internal capacity of the Service and Tribal Health Programs to meet such needs; and

“(4) the resources which would be required to enable the Service and Tribal Health Programs to undertake the health promotion and disease prevention activities necessary to meet such needs.

“SEC. 204. DIABETES PREVENTION, TREATMENT, AND CONTROL.

“(a) DETERMINATIONS REGARDING DIABETES.—The Secretary, acting through the Service, and in consultation with Indian Tribes and Tribal Organizations, shall determine—

“(1) by Indian Tribe and by Service Unit, the incidence of, and the types of complications resulting from, diabetes among Indians; and

“(2) based on the determinations made pursuant to paragraph (1), the measures (including patient education and effective ongoing monitoring of disease indicators) each Service Unit should take to reduce the incidence of, and prevent, treat, and control the complications resulting from, diabetes among Indian Tribes within that Service Unit.

“(b) DIABETES SCREENING.—To the extent medically indicated and with informed consent, the Secretary shall screen each Indian who receives services from the Service for diabetes and for conditions which indicate a high risk that the individual will become diabetic and establish a cost-effective approach to ensure ongoing monitoring of disease indicators. Such screening and monitoring may be conducted by a Tribal Health Program and may be conducted through appropriate Internet-based health care management programs.

“(c) DIABETES PROJECTS.—The Secretary shall continue to maintain each model diabetes project in existence on the date of enactment of the Indian Health Care Improvement Act Amendments of 2007, any such other diabetes programs operated by the Service or Tribal Health Programs, and any additional diabetes projects, such as the Medical Vanguard program provided for in title IV of Public Law 108-87, as implemented to serve Indian Tribes. Tribal Health Programs shall receive recurring funding for the diabetes

projects that they operate pursuant to this section, both at the date of enactment of the Indian Health Care Improvement Act Amendments of 2007 and for projects which are added and funded thereafter.

“(d) DIALYSIS PROGRAMS.—The Secretary is authorized to provide, through the Service, Indian Tribes, and Tribal Organizations, dialysis programs, including the purchase of dialysis equipment and the provision of necessary staffing.

“(e) OTHER DUTIES OF THE SECRETARY.—

“(1) IN GENERAL.—The Secretary shall, to the extent funding is available—

“(A) in each Area Office, consult with Indian Tribes and Tribal Organizations regarding programs for the prevention, treatment, and control of diabetes;

“(B) establish in each Area Office a registry of patients with diabetes to track the incidence of diabetes and the complications from diabetes in that area; and

“(C) ensure that data collected in each Area Office regarding diabetes and related complications among Indians are disseminated to all other Area Offices, subject to applicable patient privacy laws.

“(2) DIABETES CONTROL OFFICERS.—

“(A) IN GENERAL.—The Secretary may establish and maintain in each Area Office a position of diabetes control officer to coordinate and manage any activity of that Area Office relating to the prevention, treatment, or control of diabetes to assist the Secretary in carrying out a program under this section or section 330C of the Public Health Service Act (42 U.S.C. 254c-3).

“(B) CERTAIN ACTIVITIES.—Any activity carried out by a diabetes control officer under subparagraph (A) that is the subject of a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), and any funds made available to carry out such an activity, shall not be divisible for purposes of that Act.

“SEC. 205. SHARED SERVICES FOR LONG-TERM CARE.

“(a) LONG-TERM CARE.—Notwithstanding any other provision of law, the Secretary, acting through the Service, is authorized to provide directly, or enter into contracts or compacts under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) with Indian Tribes or Tribal Organizations for, the delivery of long-term care (including health care services associated with long-term care) provided in a facility to Indians. Such agreements shall provide for the sharing of staff or other services between the Service or a Tribal Health Program and a long-term care or related facility owned and operated (directly or through a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.)) by such Indian Tribe or Tribal Organization.

“(b) CONTENTS OF AGREEMENTS.—An agreement entered into pursuant to subsection (a)—

“(1) may, at the request of the Indian Tribe or Tribal Organization, delegate to such Indian Tribe or Tribal Organization such powers of supervision and control over Service employees as the Secretary deems necessary to carry out the purposes of this section;

“(2) shall provide that expenses (including salaries) relating to services that are shared between the Service and the Tribal Health Program be allocated proportionately between the Service and the Indian Tribe or Tribal Organization; and

“(3) may authorize such Indian Tribe or Tribal Organization to construct, renovate, or expand a long-term care or other similar

facility (including the construction of a facility attached to a Service facility).

“(c) MINIMUM REQUIREMENT.—Any nursing facility provided for under this section shall meet the requirements for nursing facilities under section 1919 of the Social Security Act.

“(d) OTHER ASSISTANCE.—The Secretary shall provide such technical and other assistance as may be necessary to enable applicants to comply with the provisions of this section.

“(e) USE OF EXISTING OR UNDERUSED FACILITIES.—The Secretary shall encourage the use of existing facilities that are underused or allow the use of swing beds for long-term or similar care.

“SEC. 206. HEALTH SERVICES RESEARCH.

“(a) IN GENERAL.—The Secretary, acting through the Service, shall make funding available for research to further the performance of the health service responsibilities of Indian Health Programs.

“(b) COORDINATION OF RESOURCES AND ACTIVITIES.—The Secretary shall also, to the maximum extent practicable, coordinate departmental research resources and activities to address relevant Indian Health Program research needs.

“(c) AVAILABILITY.—Tribal Health Programs shall be given an equal opportunity to compete for, and receive, research funds under this section.

“(d) USE OF FUNDS.—This funding may be used for both clinical and nonclinical research.

“(e) EVALUATION AND DISSEMINATION.—The Secretary shall periodically—

“(1) evaluate the impact of research conducted under this section; and

“(2) disseminate to Tribal Health Programs information regarding that research as the Secretary determines to be appropriate.

“SEC. 207. MAMMOGRAPHY AND OTHER CANCER SCREENING.

“The Secretary, acting through the Service or Tribal Health Programs, shall provide for screening as follows:

“(1) Screening mammography (as defined in section 1861(jj) of the Social Security Act) for Indian women at a frequency appropriate to such women under accepted and appropriate national standards, and under such terms and conditions as are consistent with standards established by the Secretary to ensure the safety and accuracy of screening mammography under part B of title XVIII of such Act.

“(2) Other cancer screening that receives an A or B rating as recommended by the United States Preventive Services Task Force established under section 915(a)(1) of the Public Health Service Act (42 U.S.C. 299b-4(a)(1)). The Secretary shall ensure that screening provided for under this paragraph complies with the recommendations of the Task Force with respect to—

“(A) frequency;

“(B) the population to be served;

“(C) the procedure or technology to be used;

“(D) evidence of effectiveness; and

“(E) other matters that the Secretary determines appropriate.

“SEC. 208. PATIENT TRAVEL COSTS.

“(a) DEFINITION OF QUALIFIED ESCORT.—In this section, the term ‘qualified escort’ means—

“(1) an adult escort (including a parent, guardian, or other family member) who is required because of the physical or mental condition, or age, of the applicable patient;

“(2) a health professional for the purpose of providing necessary medical care during travel by the applicable patient; or

“(3) other escorts, as the Secretary or applicable Indian Health Program determines to be appropriate.

“(b) PROVISION OF FUNDS.—The Secretary, acting through the Service and Tribal Health Programs, is authorized to provide funds for the following patient travel costs, including qualified escorts, associated with receiving health care services provided (either through direct or contract care or through a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.)) under this Act—

“(1) emergency air transportation and non-emergency air transportation where ground transportation is infeasible;

“(2) transportation by private vehicle (where no other means of transportation is available), specially equipped vehicle, and ambulance; and

“(3) transportation by such other means as may be available and required when air or motor vehicle transportation is not available.

“SEC. 209. EPIDEMIOLOGY CENTERS.

“(a) ESTABLISHMENT OF CENTERS.—The Secretary shall establish an epidemiology center in each Service Area to carry out the functions described in subsection (b). Any new center established after the date of enactment of the Indian Health Care Improvement Act Amendments of 2007 may be operated under a grant authorized by subsection (d), but funding under such a grant shall not be divisible.

“(b) FUNCTIONS OF CENTERS.—In consultation with and upon the request of Indian Tribes, Tribal Organizations, and Urban Indian Organizations, each Service Area epidemiology center established under this section shall, with respect to such Service Area—

“(1) collect data relating to, and monitor progress made toward meeting, each of the health status objectives of the Service, the Indian Tribes, Tribal Organizations, and Urban Indian Organizations in the Service Area;

“(2) evaluate existing delivery systems, data systems, and other systems that impact the improvement of Indian health;

“(3) assist Indian Tribes, Tribal Organizations, and Urban Indian Organizations in identifying their highest priority health status objectives and the services needed to achieve such objectives, based on epidemiological data;

“(4) make recommendations for the targeting of services needed by the populations served;

“(5) make recommendations to improve health care delivery systems for Indians and Urban Indians;

“(6) provide requested technical assistance to Indian Tribes, Tribal Organizations, and Urban Indian Organizations in the development of local health service priorities and incidence and prevalence rates of disease and other illness in the community; and

“(7) provide disease surveillance and assist Indian Tribes, Tribal Organizations, and Urban Indian Organizations to promote public health.

“(c) TECHNICAL ASSISTANCE.—The Director of the Centers for Disease Control and Prevention shall provide technical assistance to the centers in carrying out the requirements of this section.

“(d) GRANTS FOR STUDIES.—

“(1) IN GENERAL.—The Secretary may make grants to Indian Tribes, Tribal Organizations, Urban Indian Organizations, and eligible intertribal consortia to conduct epidemiological studies of Indian communities.

“(2) ELIGIBLE INTERTRIBAL CONSORTIA.—An intertribal consortium is eligible to receive a grant under this subsection if—

“(A) the intertribal consortium is incorporated for the primary purpose of improving Indian health; and

“(B) the intertribal consortium is representative of the Indian Tribes or urban Indian communities in which the intertribal consortium is located.

“(3) APPLICATIONS.—An application for a grant under this subsection shall be submitted in such manner and at such time as the Secretary shall prescribe.

“(4) REQUIREMENTS.—An applicant for a grant under this subsection shall—

“(A) demonstrate the technical, administrative, and financial expertise necessary to carry out the functions described in paragraph (5);

“(B) consult and cooperate with providers of related health and social services in order to avoid duplication of existing services; and

“(C) demonstrate cooperation from Indian Tribes or Urban Indian Organizations in the area to be served.

“(5) USE OF FUNDS.—A grant awarded under paragraph (1) may be used—

“(A) to carry out the functions described in subsection (b);

“(B) to provide information to and consult with tribal leaders, urban Indian community leaders, and related health staff on health care and health service management issues; and

“(C) in collaboration with Indian Tribes, Tribal Organizations, and urban Indian communities, to provide the Service with information regarding ways to improve the health status of Indians.

“(e) ACCESS TO INFORMATION.—An epidemiology center operated by a grantee pursuant to a grant awarded under subsection (d) shall be treated as a public health authority for purposes of the Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191; 110 Stat. 2033), as such entities are defined in part 164.501 of title 45, Code of Federal Regulations (or a successor regulation). The Secretary shall grant such grantees access to and use of data, data sets, monitoring systems, delivery systems, and other protected health information in the possession of the Secretary.

“SEC. 210. COMPREHENSIVE SCHOOL HEALTH EDUCATION PROGRAMS.

“(a) FUNDING FOR DEVELOPMENT OF PROGRAMS.—In addition to carrying out any other program for health promotion or disease prevention, the Secretary, acting through the Service, is authorized to award grants to Indian Tribes, Tribal Organizations, and Urban Indian Organizations to develop comprehensive school health education programs for children from pre-school through grade 12 in schools for the benefit of Indian and Urban Indian children.

“(b) USE OF GRANT FUNDS.—A grant awarded under this section may be used for purposes which may include, but are not limited to, the following:

“(1) Developing health education materials both for regular school programs and after-school programs.

“(2) Training teachers in comprehensive school health education materials.

“(3) Integrating school-based, community-based, and other public and private health promotion efforts.

“(4) Encouraging healthy, tobacco-free school environments.

“(5) Coordinating school-based health programs with existing services and programs available in the community.

“(6) Developing school programs on nutrition education, personal health, oral health, and fitness.

“(7) Developing behavioral health wellness programs.

“(8) Developing chronic disease prevention programs.

“(9) Developing substance abuse prevention programs.

“(10) Developing injury prevention and safety education programs.

“(11) Developing activities for the prevention and control of communicable diseases.

“(12) Developing community and environmental health education programs that include traditional health care practitioners.

“(13) Violence prevention.

“(14) Such other health issues as are appropriate.

“(c) TECHNICAL ASSISTANCE.—Upon request, the Secretary, acting through the Service, shall provide technical assistance to Indian Tribes, Tribal Organizations, and Urban Indian Organizations in the development of comprehensive health education plans and the dissemination of comprehensive health education materials and information on existing health programs and resources.

“(d) CRITERIA FOR REVIEW AND APPROVAL OF APPLICATIONS.—The Secretary, acting through the Service, and in consultation with Indian Tribes, Tribal Organizations, and Urban Indian Organizations, shall establish criteria for the review and approval of applications for grants awarded under this section.

“(e) DEVELOPMENT OF PROGRAM FOR BIA-FUNDED SCHOOLS.—

“(1) IN GENERAL.—The Secretary of the Interior, acting through the Bureau of Indian Affairs and in cooperation with the Secretary, acting through the Service, and affected Indian Tribes and Tribal Organizations, shall develop a comprehensive school health education program for children from preschool through grade 12 in schools for which support is provided by the Bureau of Indian Affairs.

“(2) REQUIREMENTS FOR PROGRAMS.—Such programs shall include—

“(A) school programs on nutrition education, personal health, oral health, and fitness;

“(B) behavioral health wellness programs;

“(C) chronic disease prevention programs;

“(D) substance abuse prevention programs;

“(E) injury prevention and safety education programs; and

“(F) activities for the prevention and control of communicable diseases.

“(3) DUTIES OF THE SECRETARY.—The Secretary of the Interior shall—

“(A) provide training to teachers in comprehensive school health education materials;

“(B) ensure the integration and coordination of school-based programs with existing services and health programs available in the community; and

“(C) encourage healthy, tobacco-free school environments.

“SEC. 211. INDIAN YOUTH PROGRAM.

“(a) PROGRAM AUTHORIZED.—The Secretary, acting through the Service, is authorized to establish and administer a program to provide grants to Indian Tribes, Tribal Organizations, and Urban Indian Organizations for innovative mental and physical disease prevention and health promotion and treatment programs for Indian and Urban Indian preadolescent and adolescent youths.

“(b) USE OF FUNDS.—

“(1) ALLOWABLE USES.—Funds made available under this section may be used to—

“(A) develop prevention and treatment programs for Indian youth which promote mental and physical health and incorporate cultural values, community and family involvement, and traditional health care practitioners; and

“(B) develop and provide community training and education.

“(2) PROHIBITED USE.—Funds made available under this section may not be used to provide services described in section 707(c).

“(c) DUTIES OF THE SECRETARY.—The Secretary shall—

“(1) disseminate to Indian Tribes, Tribal Organizations, and Urban Indian Organizations information regarding models for the delivery of comprehensive health care services to Indian and Urban Indian adolescents;

“(2) encourage the implementation of such models; and

“(3) at the request of an Indian Tribe, Tribal Organization, or Urban Indian Organization, provide technical assistance in the implementation of such models.

“(d) CRITERIA FOR REVIEW AND APPROVAL OF APPLICATIONS.—The Secretary, in consultation with Indian Tribes, Tribal Organizations, and Urban Indian Organizations, shall establish criteria for the review and approval of applications or proposals under this section.

“SEC. 212. PREVENTION, CONTROL, AND ELIMINATION OF COMMUNICABLE AND INFECTIOUS DISEASES.

“(a) GRANTS AUTHORIZED.—The Secretary, acting through the Service, and after consultation with the Centers for Disease Control and Prevention, may make grants available to Indian Tribes, Tribal Organizations, and Urban Indian Organizations for the following:

“(1) Projects for the prevention, control, and elimination of communicable and infectious diseases, including tuberculosis, hepatitis, HIV, respiratory syncytial virus, hanta virus, sexually transmitted diseases, and H. Pylori.

“(2) Public information and education programs for the prevention, control, and elimination of communicable and infectious diseases.

“(3) Education, training, and clinical skills improvement activities in the prevention, control, and elimination of communicable and infectious diseases for health professionals, including allied health professionals.

“(4) Demonstration projects for the screening, treatment, and prevention of hepatitis C virus (HCV).

“(b) APPLICATION REQUIRED.—The Secretary may provide funding under subsection (a) only if an application or proposal for funding is submitted to the Secretary.

“(c) COORDINATION WITH HEALTH AGENCIES.—Indian Tribes, Tribal Organizations, and Urban Indian Organizations receiving funding under this section are encouraged to coordinate their activities with the Centers for Disease Control and Prevention and State and local health agencies.

“(d) TECHNICAL ASSISTANCE; REPORT.—In carrying out this section, the Secretary—

“(1) may, at the request of an Indian Tribe, Tribal Organization, or Urban Indian Organization, provide technical assistance; and

“(2) shall prepare and submit a report to Congress biennially on the use of funds under this section and on the progress made toward the prevention, control, and elimination of communicable and infectious diseases among Indians and Urban Indians.

“SEC. 213. OTHER AUTHORITY FOR PROVISION OF SERVICES.

“(a) FUNDING AUTHORIZED.—The Secretary, acting through the Service, Indian Tribes,

and Tribal Organizations, may provide funding under this Act to meet the objectives set forth in section 3 of this Act through health care-related services and programs not otherwise described in this Act, including—

“(1) hospice care;

“(2) assisted living;

“(3) long-term care; and

“(4) home- and community-based services.

“(b) TERMS AND CONDITIONS.—

“(1) IN GENERAL.—Any service provided under this section shall be in accordance with such terms and conditions as are consistent with accepted and appropriate standards relating to the service, including any licensing term or condition under this Act.

“(2) STANDARDS.—

“(A) IN GENERAL.—The Secretary may establish, by regulation, the standards for a service provided under this section, provided that such standards shall not be more stringent than the standards required by the State in which the service is provided.

“(B) USE OF STATE STANDARDS.—If the Secretary does not, by regulation, establish standards for a service provided under this section, the standards required by the State in which the service is or will be provided shall apply to such service.

“(C) INDIAN TRIBES.—If a service under this section is provided by an Indian Tribe or Tribal Organization pursuant to the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), the verification by the Secretary that the service meets any standards required by the State in which the service is or will be provided shall be considered to meet the terms and conditions required under this subsection.

“(3) ELIGIBILITY.—The following individuals shall be eligible to receive long-term care under this section:

“(A) Individuals who are unable to perform a certain number of activities of daily living without assistance.

“(B) Individuals with a mental impairment, such as dementia, Alzheimer's disease, or another disabling mental illness, who may be able to perform activities of daily living under supervision.

“(C) Such other individuals as an applicable Indian Health Program determines to be appropriate.

“(c) DEFINITIONS.—For the purposes of this section, the following definitions shall apply:

“(1) The term ‘home- and community-based services’ means 1 or more of the services specified in paragraphs (1) through (9) of section 1929(a) of the Social Security Act (42 U.S.C. 1396t(a)) (whether provided by the Service or by an Indian Tribe or Tribal Organization pursuant to the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.)) that are or will be provided in accordance with the standards described in subsection (b).

“(2) The term ‘hospice care’ means the items and services specified in subparagraphs (A) through (H) of section 1861(dd)(1) of the Social Security Act (42 U.S.C. 1395x(dd)(1)), and such other services which an Indian Tribe or Tribal Organization determines are necessary and appropriate to provide in furtherance of this care.

“(d) AUTHORIZATION OF CONVENIENT CARE SERVICES.—The Secretary, acting through the Service, Indian Tribes, and Tribal Organizations, may also provide funding under this Act to meet the objectives set forth in section 3 of this Act for convenient care services programs pursuant to section 306(c)(2)(A).

“SEC. 214. INDIAN WOMEN'S HEALTH CARE.

“The Secretary, acting through the Service and Indian Tribes, Tribal Organizations, and Urban Indian Organizations, shall monitor and improve the quality of health care for Indian women of all ages through the planning and delivery of programs administered by the Service, in order to improve and enhance the treatment models of care for Indian women.

“SEC. 215. ENVIRONMENTAL AND NUCLEAR HEALTH HAZARDS.

“(a) **STUDIES AND MONITORING.**—The Secretary and the Service shall conduct, in conjunction with other appropriate Federal agencies and in consultation with concerned Indian Tribes and Tribal Organizations, studies and ongoing monitoring programs to determine trends in the health hazards to Indian miners and to Indians on or near reservations and Indian communities as a result of environmental hazards which may result in chronic or life threatening health problems, such as nuclear resource development, petroleum contamination, and contamination of water source and of the food chain. Such studies shall include—

“(1) an evaluation of the nature and extent of health problems caused by environmental hazards currently exhibited among Indians and the causes of such health problems;

“(2) an analysis of the potential effect of ongoing and future environmental resource development on or near reservations and Indian communities, including the cumulative effect over time on health;

“(3) an evaluation of the types and nature of activities, practices, and conditions causing or affecting such health problems, including uranium mining and milling, uranium mine tailing deposits, nuclear power plant operation and construction, and nuclear waste disposal; oil and gas production or transportation on or near reservations or Indian communities; and other development that could affect the health of Indians and their water supply and food chain;

“(4) a summary of any findings and recommendations provided in Federal and State studies, reports, investigations, and inspections during the 5 years prior to the date of enactment of the Indian Health Care Improvement Act Amendments of 2007 that directly or indirectly relate to the activities, practices, and conditions affecting the health or safety of such Indians; and

“(5) the efforts that have been made by Federal and State agencies and resource and economic development companies to effectively carry out an education program for such Indians regarding the health and safety hazards of such development.

“(b) **HEALTH CARE PLANS.**—Upon completion of such studies, the Secretary and the Service shall take into account the results of such studies and develop health care plans to address the health problems studied under subsection (a). The plans shall include—

“(1) methods for diagnosing and treating Indians currently exhibiting such health problems;

“(2) preventive care and testing for Indians who may be exposed to such health hazards, including the monitoring of the health of individuals who have or may have been exposed to excessive amounts of radiation or affected by other activities that have had or could have a serious impact upon the health of such individuals; and

“(3) a program of education for Indians who, by reason of their work or geographic proximity to such nuclear or other development activities, may experience health problems.

“(c) **SUBMISSION OF REPORT AND PLAN TO CONGRESS.**—The Secretary and the Service shall submit to Congress the study prepared under subsection (a) no later than 18 months after the date of enactment of the Indian Health Care Improvement Act Amendments of 2007. The health care plan prepared under subsection (b) shall be submitted in a report no later than 1 year after the study prepared under subsection (a) is submitted to Congress. Such report shall include recommended activities for the implementation of the plan, as well as an evaluation of any activities previously undertaken by the Service to address such health problems.

“(d) **INTERGOVERNMENTAL TASK FORCE.**—

“(1) **ESTABLISHMENT; MEMBERS.**—There is established an Intergovernmental Task Force to be composed of the following individuals (or their designees):

“(A) The Secretary of Energy.

“(B) The Secretary of the Environmental Protection Agency.

“(C) The Director of the Bureau of Mines.

“(D) The Assistant Secretary for Occupational Safety and Health.

“(E) The Secretary of the Interior.

“(F) The Secretary of Health and Human Services.

“(G) The Assistant Secretary.

“(2) **DUTIES.**—The Task Force shall—

“(A) identify existing and potential operations related to nuclear resource development or other environmental hazards that affect or may affect the health of Indians on or near a reservation or in an Indian community; and

“(B) enter into activities to correct existing health hazards and ensure that current and future health problems resulting from nuclear resource or other development activities are minimized or reduced.

“(3) **CHAIRMAN; MEETINGS.**—The Secretary of Health and Human Services shall be the Chairman of the Task Force. The Task Force shall meet at least twice each year.

“(e) **HEALTH SERVICES TO CERTAIN EMPLOYEES.**—In the case of any Indian who—

“(1) as a result of employment in or near a uranium mine or mill or near any other environmental hazard, suffers from a work-related illness or condition;

“(2) is eligible to receive diagnosis and treatment services from an Indian Health Program; and

“(3) by reason of such Indian's employment, is entitled to medical care at the expense of such mine or mill operator or entity responsible for the environmental hazard, the Indian Health Program shall, at the request of such Indian, render appropriate medical care to such Indian for such illness or condition and may be reimbursed for any medical care so rendered to which such Indian is entitled at the expense of such operator or entity from such operator or entity. Nothing in this subsection shall affect the rights of such Indian to recover damages other than such amounts paid to the Indian Health Program from the employer for providing medical care for such illness or condition.

“SEC. 216. ARIZONA AS A CONTRACT HEALTH SERVICE DELIVERY AREA.

“(a) **IN GENERAL.**—For fiscal years beginning with the fiscal year ending September 30, 1983, and ending with the fiscal year ending September 30, 2016, the State of Arizona shall be designated as a contract health service delivery area by the Service for the purpose of providing contract health care services to members of federally recognized Indian Tribes of Arizona.

“(b) **MAINTENANCE OF SERVICES.**—The Service shall not curtail any health care services

provided to Indians residing on reservations in the State of Arizona if such curtailment is due to the provision of contract services in such State pursuant to the designation of such State as a contract health service delivery area pursuant to subsection (a).

“SEC. 216A. NORTH DAKOTA AND SOUTH DAKOTA AS CONTRACT HEALTH SERVICE DELIVERY AREA.

“(a) **IN GENERAL.**—Beginning in fiscal year 2003, the States of North Dakota and South Dakota shall be designated as a contract health service delivery area by the Service for the purpose of providing contract health care services to members of federally recognized Indian Tribes of North Dakota and South Dakota.

“(b) **LIMITATION.**—The Service shall not curtail any health care services provided to Indians residing on any reservation, or in any county that has a common boundary with any reservation, in the State of North Dakota or South Dakota if such curtailment is due to the provision of contract services in such States pursuant to the designation of such States as a contract health service delivery area pursuant to subsection (a).

“SEC. 217. CALIFORNIA CONTRACT HEALTH SERVICES PROGRAM.

“(a) **FUNDING AUTHORIZED.**—The Secretary is authorized to fund a program using the California Rural Indian Health Board (hereafter in this section referred to as the ‘CRIHB’) as a contract care intermediary to improve the accessibility of health services to California Indians.

“(b) **REIMBURSEMENT CONTRACT.**—The Secretary shall enter into an agreement with the CRIHB to reimburse the CRIHB for costs (including reasonable administrative costs) incurred pursuant to this section, in providing medical treatment under contract to California Indians described in section 806(a) throughout the California contract health services delivery area described in section 218 with respect to high cost contract care cases.

“(c) **ADMINISTRATIVE EXPENSES.**—Not more than 5 percent of the amounts provided to the CRIHB under this section for any fiscal year may be for reimbursement for administrative expenses incurred by the CRIHB during such fiscal year.

“(d) **LIMITATION ON PAYMENT.**—No payment may be made for treatment provided hereunder to the extent payment may be made for such treatment under the Indian Catastrophic Health Emergency Fund described in section 202 or from amounts appropriated or otherwise made available to the California contract health service delivery area for a fiscal year.

“(e) **ADVISORY BOARD.**—There is established an advisory board which shall advise the CRIHB in carrying out this section. The advisory board shall be composed of representatives, selected by the CRIHB, from not less than 8 Tribal Health Programs serving California Indians covered under this section at least ½ of whom of whom are not affiliated with the CRIHB.

“SEC. 218. CALIFORNIA AS A CONTRACT HEALTH SERVICE DELIVERY AREA.

“The State of California, excluding the counties of Alameda, Contra Costa, Los Angeles, Marin, Orange, Sacramento, San Francisco, San Mateo, Santa Clara, Kern, Merced, Monterey, Napa, San Benito, San Joaquin, San Luis Obispo, Santa Cruz, Solano, Stanislaus, and Ventura, shall be designated as a contract health service delivery area by the Service for the purpose of providing contract health services to California Indians. However, any of the counties listed herein

may only be included in the contract health services delivery area if funding is specifically provided by the Service for such services in those counties.

“SEC. 219. CONTRACT HEALTH SERVICES FOR THE TRENTON SERVICE AREA.

“(a) **AUTHORIZATION FOR SERVICES.**—The Secretary, acting through the Service, is directed to provide contract health services to members of the Turtle Mountain Band of Chippewa Indians that reside in the Trenton Service Area of Divide, McKenzie, and Williams counties in the State of North Dakota and the adjoining counties of Richland, Roosevelt, and Sheridan in the State of Montana.

“(b) **NO EXPANSION OF ELIGIBILITY.**—Nothing in this section may be construed as expanding the eligibility of members of the Turtle Mountain Band of Chippewa Indians for health services provided by the Service beyond the scope of eligibility for such health services that applied on May 1, 1986.

“SEC. 220. PROGRAMS OPERATED BY INDIAN TRIBES AND TRIBAL ORGANIZATIONS.

“The Service shall provide funds for health care programs and facilities operated by Tribal Health Programs on the same basis as such funds are provided to programs and facilities operated directly by the Service.

“SEC. 221. LICENSING.

“Health care professionals employed by a Tribal Health Program shall, if licensed in any State, be exempt from the licensing requirements of the State in which the Tribal Health Program performs the services described in its contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).

“SEC. 222. NOTIFICATION OF PROVISION OF EMERGENCY CONTRACT HEALTH SERVICES.

“With respect to an elderly Indian or an Indian with a disability receiving emergency medical care or services from a non-Service provider or in a non-Service facility under the authority of this Act, the time limitation (as a condition of payment) for notifying the Service of such treatment or admission shall be 30 days.

“SEC. 223. PROMPT ACTION ON PAYMENT OF CLAIMS.

“(a) **DEADLINE FOR RESPONSE.**—The Service shall respond to a notification of a claim by a provider of a contract care service with either an individual purchase order or a denial of the claim within 5 working days after the receipt of such notification.

“(b) **EFFECT OF UNTIMELY RESPONSE.**—If the Service fails to respond to a notification of a claim in accordance with subsection (a), the Service shall accept as valid the claim submitted by the provider of a contract care service.

“(c) **DEADLINE FOR PAYMENT OF VALID CLAIM.**—The Service shall pay a valid contract care service claim within 30 days after the completion of the claim.

“SEC. 224. LIABILITY FOR PAYMENT.

“(a) **NO PATIENT LIABILITY.**—A patient who receives contract health care services that are authorized by the Service shall not be liable for the payment of any charges or costs associated with the provision of such services.

“(b) **NOTIFICATION.**—The Secretary shall notify a contract care provider and any patient who receives contract health care services authorized by the Service that such patient is not liable for the payment of any charges or costs associated with the provision of such services not later than 5 business days after receipt of a notification of a claim by a provider of contract care services.

“(c) **NO RECOURSE.**—Following receipt of the notice provided under subsection (b), or, if a claim has been deemed accepted under section 223(b), the provider shall have no further recourse against the patient who received the services.

“SEC. 225. OFFICE OF INDIAN MEN'S HEALTH.

“(a) **ESTABLISHMENT.**—The Secretary may establish within the Service an office to be known as the ‘Office of Indian Men’s Health’ (referred to in this section as the ‘Office’).

“(b) **DIRECTOR.**—

“(1) **IN GENERAL.**—The Office shall be headed by a director, to be appointed by the Secretary.

“(2) **DUTIES.**—The director shall coordinate and promote the status of the health of Indian men in the United States.

“(c) **REPORT.**—Not later than 2 years after the date of enactment of the Indian Health Care Improvement Act Amendments of 2007, the Secretary, acting through the director of the Office, shall submit to Congress a report describing—

“(1) any activity carried out by the director as of the date on which the report is prepared; and

“(2) any finding of the director with respect to the health of Indian men.

“SEC. 226. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated such sums as may be necessary for each fiscal year through fiscal year 2017 to carry out this title.

“TITLE III—FACILITIES

“SEC. 301. CONSULTATION; CONSTRUCTION AND RENOVATION OF FACILITIES; REPORTS.

“(a) **PREREQUISITES FOR EXPENDITURE OF FUNDS.**—Prior to the expenditure of, or the making of any binding commitment to expend, any funds appropriated for the planning, design, construction, or renovation of facilities pursuant to the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), the Secretary, acting through the Service, shall—

“(1) consult with any Indian Tribe that would be significantly affected by such expenditure for the purpose of determining and, whenever practicable, honoring tribal preferences concerning size, location, type, and other characteristics of any facility on which such expenditure is to be made; and

“(2) ensure, whenever practicable and applicable, that such facility meets the construction standards of any accrediting body recognized by the Secretary for the purposes of the Medicare, Medicaid, and SCHIP programs under titles XVIII, XIX, and XXI of the Social Security Act by not later than 1 year after the date on which the construction or renovation of such facility is completed.

“(b) **CLOSURES.**—

“(1) **EVALUATION REQUIRED.**—Notwithstanding any other provision of law, no facility operated by the Service, or any portion of such facility, may be closed if the Secretary has not submitted to Congress not less than 1 year, and not more than 2 years, before the date of the proposed closure an evaluation, completed not more than 2 years before the submission, of the impact of the proposed closure that specifies, in addition to other considerations—

“(A) the accessibility of alternative health care resources for the population served by such facility;

“(B) the cost-effectiveness of such closure;

“(C) the quality of health care to be provided to the population served by such facility after such closure;

“(D) the availability of contract health care funds to maintain existing levels of service;

“(E) the views of the Indian Tribes served by such facility concerning such closure;

“(F) the level of use of such facility by all eligible Indians; and

“(G) the distance between such facility and the nearest operating Service hospital.

“(2) **EXCEPTION FOR CERTAIN TEMPORARY CLOSURES.**—Paragraph (1) shall not apply to any temporary closure of a facility or any portion of a facility if such closure is necessary for medical, environmental, or construction safety reasons.

“(c) **HEALTH CARE FACILITY PRIORITY SYSTEM.**—

“(1) **IN GENERAL.**—

“(A) **PRIORITY SYSTEM.**—The Secretary, acting through the Service, shall maintain a health care facility priority system, which—

“(i) shall be developed in consultation with Indian Tribes and Tribal Organizations;

“(ii) shall give Indian Tribes’ needs the highest priority;

“(iii) (I) may include the lists required in paragraph (2)(B)(ii); and

“(II) shall include the methodology required in paragraph (2)(B)(v); and

“(III) may include such other facilities, and such renovation or expansion needs of any health care facility, as the Service, Indian Tribes, and Tribal Organizations may identify; and

“(iv) shall provide an opportunity for the nomination of planning, design, and construction projects by the Service, Indian Tribes, and Tribal Organizations for consideration under the priority system at least once every 3 years, or more frequently as the Secretary determines to be appropriate.

“(B) **NEEDS OF FACILITIES UNDER ISDEAA AGREEMENTS.**—The Secretary shall ensure that the planning, design, construction, renovation, and expansion needs of Service and non-Service facilities operated under contracts or compacts in accordance with the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) are fully and equitably integrated into the health care facility priority system.

“(C) **CRITERIA FOR EVALUATING NEEDS.**—For purposes of this subsection, the Secretary, in evaluating the needs of facilities operated under a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), shall use the criteria used by the Secretary in evaluating the needs of facilities operated directly by the Service.

“(D) **PRIORITY OF CERTAIN PROJECTS PROTECTED.**—The priority of any project established under the construction priority system in effect on the date of enactment of the Indian Health Care Improvement Act Amendments of 2007 shall not be affected by any change in the construction priority system taking place after that date if the project—

“(i) was identified in the fiscal year 2008 Service budget justification as—

“(I) 1 of the 10 top-priority inpatient projects;

“(II) 1 of the 10 top-priority outpatient projects;

“(III) 1 of the 10 top-priority staff quarters developments; or

“(IV) 1 of the 10 top-priority Youth Regional Treatment Centers;

“(ii) had completed both Phase I and Phase II of the construction priority system in effect on the date of enactment of such Act; or

“(iii) is not included in clause (i) or (ii) and is selected, as determined by the Secretary—

“(I) on the initiative of the Secretary; or
 “(II) pursuant to a request of an Indian Tribe or Tribal Organization.

“(2) REPORT; CONTENTS.—

“(A) INITIAL COMPREHENSIVE REPORT.—

“(i) DEFINITIONS.—In this subparagraph:

“(I) FACILITIES APPROPRIATION ADVISORY BOARD.—The term ‘Facilities Appropriation Advisory Board’ means the advisory board, comprised of 12 members representing Indian tribes and 2 members representing the Service, established at the discretion of the Assistant Secretary—

“(aa) to provide advice and recommendations for policies and procedures of the programs funded pursuant to facilities appropriations; and

“(bb) to address other facilities issues.

“(II) FACILITIES NEEDS ASSESSMENT WORKGROUP.—The term ‘Facilities Needs Assessment Workgroup’ means the workgroup established at the discretion of the Assistant Secretary—

“(aa) to review the health care facilities construction priority system; and

“(bb) to make recommendations to the Facilities Appropriation Advisory Board for revising the priority system.

“(i) INITIAL REPORT.—

“(1) IN GENERAL.—Not later than 1 year after the date of enactment of the Indian Health Care Improvement Act Amendments of 2007, the Secretary shall submit to the Committee on Indian Affairs of the Senate and the Committee on Natural Resources of the House of Representatives a report that describes the comprehensive, national, ranked list of all health care facilities needs for the Service, Indian Tribes, and Tribal Organizations (including inpatient health care facilities, outpatient health care facilities, specialized health care facilities (such as for long-term care and alcohol and drug abuse treatment), wellness centers, staff quarters and hostels associated with health care facilities, and the renovation and expansion needs, if any, of such facilities) developed by the Service, Indian Tribes, and Tribal Organizations for the Facilities Needs Assessment Workgroup and the Facilities Appropriation Advisory Board.

“(II) INCLUSIONS.—The initial report shall include—

“(aa) the methodology and criteria used by the Service in determining the needs and establishing the ranking of the facilities needs; and

“(bb) such other information as the Secretary determines to be appropriate.

“(iii) UPDATES OF REPORT.—Beginning in calendar year 2011, the Secretary shall—

“(I) update the report under clause (ii) not less frequently than once every 5 years; and
 “(II) include the updated report in the appropriate annual report under subparagraph (B) for submission to Congress under section 801.

“(B) ANNUAL REPORTS.—The Secretary shall submit to the President, for inclusion in the report required to be transmitted to Congress under section 801, a report which sets forth the following:

“(i) A description of the health care facility priority system of the Service established under paragraph (1).

“(ii) Health care facilities lists, which may include—

“(I) the 10 top-priority inpatient health care facilities;

“(II) the 10 top-priority outpatient health care facilities;

“(III) the 10 top-priority specialized health care facilities (such as long-term care and alcohol and drug abuse treatment);

“(IV) the 10 top-priority staff quarters developments associated with health care facilities; and

“(V) the 10 top-priority hostels associated with health care facilities.

“(iii) The justification for such order of priority.

“(iv) The projected cost of such projects.

“(v) The methodology adopted by the Service in establishing priorities under its health care facility priority system.

“(3) REQUIREMENTS FOR PREPARATION OF REPORTS.—In preparing the report required under paragraph (2), the Secretary shall—

“(A) consult with and obtain information on all health care facilities needs from Indian Tribes, Tribal Organizations, and Urban Indian Organizations; and

“(B) review the total unmet needs of all Indian Tribes, Tribal Organizations, and Urban Indian Organizations for health care facilities (including hostels and staff quarters), including needs for renovation and expansion of existing facilities.

“(d) REVIEW OF METHODOLOGY USED FOR HEALTH FACILITIES CONSTRUCTION PRIORITY SYSTEM.—

“(1) IN GENERAL.—Not later than 1 year after the establishment of the priority system under subsection (c)(1)(A), the Comptroller General of the United States shall prepare and finalize a report reviewing the methodologies applied, and the processes followed, by the Service in making each assessment of needs for the list under subsection (c)(2)(A)(ii) and developing the priority system under subsection (c)(1), including a review of—

“(A) the recommendations of the Facilities Appropriation Advisory Board and the Facilities Needs Assessment Workgroup (as those terms are defined in subsection (c)(2)(A)(i)); and

“(B) the relevant criteria used in ranking or prioritizing facilities other than hospitals or clinics.

“(2) SUBMISSION TO CONGRESS.—The Comptroller General of the United States shall submit the report under paragraph (1) to—

“(A) the Committees on Indian Affairs and Appropriations of the Senate;

“(B) the Committees on Natural Resources and Appropriations of the House of Representatives; and

“(C) the Secretary.

“(e) FUNDING CONDITION.—All funds appropriated under the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), for the planning, design, construction, or renovation of health facilities for the benefit of 1 or more Indian Tribes shall be subject to the provisions of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.).

“(f) DEVELOPMENT OF INNOVATIVE APPROACHES.—The Secretary shall consult and cooperate with Indian Tribes, Tribal Organizations, and Urban Indian Organizations in developing innovative approaches to address all or part of the total unmet need for construction of health facilities, including those provided for in other sections of this title and other approaches.

“SEC. 302. SANITATION FACILITIES.

“(a) FINDINGS.—Congress finds the following:

“(1) The provision of sanitation facilities is primarily a health consideration and function.

“(2) Indian people suffer an inordinately high incidence of disease, injury, and illness directly attributable to the absence or inadequacy of sanitation facilities.

“(3) The long-term cost to the United States of treating and curing such disease,

injury, and illness is substantially greater than the short-term cost of providing sanitation facilities and other preventive health measures.

“(4) Many Indian homes and Indian communities still lack sanitation facilities.

“(5) It is in the interest of the United States, and it is the policy of the United States, that all Indian communities and Indian homes, new and existing, be provided with sanitation facilities.

“(b) FACILITIES AND SERVICES.—In furtherance of the findings made in subsection (a), Congress reaffirms the primary responsibility and authority of the Service to provide the necessary sanitation facilities and services as provided in section 7 of the Act of August 5, 1954 (42 U.S.C. 2004a). Under such authority, the Secretary, acting through the Service, is authorized to provide the following:

“(1) Financial and technical assistance to Indian Tribes, Tribal Organizations, and Indian communities in the establishment, training, and equipping of utility organizations to operate and maintain sanitation facilities, including the provision of existing plans, standard details, and specifications available in the Department, to be used at the option of the Indian Tribe, Tribal Organization, or Indian community.

“(2) Ongoing technical assistance and training to Indian Tribes, Tribal Organizations, and Indian communities in the management of utility organizations which operate and maintain sanitation facilities.

“(3) Priority funding for operation and maintenance assistance for, and emergency repairs to, sanitation facilities operated by an Indian Tribe, Tribal Organization or Indian community when necessary to avoid an imminent health threat or to protect the investment in sanitation facilities and the investment in the health benefits gained through the provision of sanitation facilities.

“(c) FUNDING.—Notwithstanding any other provision of law—

“(1) the Secretary of Housing and Urban Development is authorized to transfer funds appropriated under the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4101 et seq.) to the Secretary of Health and Human Services;

“(2) the Secretary of Health and Human Services is authorized to accept and use such funds for the purpose of providing sanitation facilities and services for Indians under section 7 of the Act of August 5, 1954 (42 U.S.C. 2004a);

“(3) unless specifically authorized when funds are appropriated, the Secretary shall not use funds appropriated under section 7 of the Act of August 5, 1954 (42 U.S.C. 2004a), to provide sanitation facilities to new homes constructed using funds provided by the Department of Housing and Urban Development;

“(4) the Secretary of Health and Human Services is authorized to accept from any source, including Federal and State agencies, funds for the purpose of providing sanitation facilities and services and place these funds into contracts or compacts under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.);

“(5) except as otherwise prohibited by this section, the Secretary may use funds appropriated under the authority of section 7 of the Act of August 5, 1954 (42 U.S.C. 2004a), to fund up to 100 percent of the amount of an Indian Tribe’s loan obtained under any Federal program for new projects to construct eligible sanitation facilities to serve Indian homes;

“(6) except as otherwise prohibited by this section, the Secretary may use funds appropriated under the authority of section 7 of the Act of August 5, 1954 (42 U.S.C. 2004a) to meet matching or cost participation requirements under other Federal and non-Federal programs for new projects to construct eligible sanitation facilities;

“(7) all Federal agencies are authorized to transfer to the Secretary funds identified, granted, loaned, or appropriated whereby the Department’s applicable policies, rules, and regulations shall apply in the implementation of such projects;

“(8) the Secretary of Health and Human Services shall enter into interagency agreements with Federal and State agencies for the purpose of providing financial assistance for sanitation facilities and services under this Act;

“(9) the Secretary of Health and Human Services shall, by regulation, establish standards applicable to the planning, design, and construction of sanitation facilities funded under this Act; and

“(10) the Secretary of Health and Human Services is authorized to accept payments for goods and services furnished by the Service from appropriate public authorities, non-profit organizations or agencies, or Indian Tribes, as contributions by that authority, organization, agency, or tribe to agreements made under section 7 of the Act of August 5, 1954 (42 U.S.C. 2004a), and such payments shall be credited to the same or subsequent appropriation account as funds appropriated under the authority of section 7 of the Act of August 5, 1954 (42 U.S.C. 2004a).

“(d) CERTAIN CAPABILITIES NOT PREREQUISITE.—The financial and technical capability of an Indian Tribe, Tribal Organization, or Indian community to safely operate, manage, and maintain a sanitation facility shall not be a prerequisite to the provision or construction of sanitation facilities by the Secretary.

“(e) FINANCIAL ASSISTANCE.—The Secretary is authorized to provide financial assistance to Indian Tribes, Tribal Organizations, and Indian communities for operation, management, and maintenance of their sanitation facilities.

“(f) OPERATION, MANAGEMENT, AND MAINTENANCE OF FACILITIES.—The Indian Tribe has the primary responsibility to establish, collect, and use reasonable user fees, or otherwise set aside funding, for the purpose of operating, managing, and maintaining sanitation facilities. If a sanitation facility serving a community that is operated by an Indian Tribe or Tribal Organization is threatened with imminent failure and such operator lacks capacity to maintain the integrity or the health benefits of the sanitation facility, then the Secretary is authorized to assist the Indian Tribe, Tribal Organization, or Indian community in the resolution of the problem on a short-term basis through cooperation with the emergency coordinator or by providing operation, management, and maintenance service.

“(g) ISDEEA PROGRAM FUNDED ON EQUAL BASIS.—Tribal Health Programs shall be eligible (on an equal basis with programs that are administered directly by the Service) for—

“(1) any funds appropriated pursuant to this section; and

“(2) any funds appropriated for the purpose of providing sanitation facilities.

“(h) REPORT.—

“(1) REQUIRED; CONTENTS.—The Secretary, in consultation with the Secretary of Housing and Urban Development, Indian Tribes,

Tribal Organizations, and tribally designated housing entities (as defined in section 4 of the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4103)) shall submit to the President, for inclusion in the report required to be transmitted to Congress under section 801, a report which sets forth—

“(A) the current Indian sanitation facility priority system of the Service;

“(B) the methodology for determining sanitation deficiencies and needs;

“(C) the criteria on which the deficiencies and needs will be evaluated;

“(D) the level of initial and final sanitation deficiency for each type of sanitation facility for each project of each Indian Tribe or Indian community;

“(E) the amount and most effective use of funds, derived from whatever source, necessary to accommodate the sanitation facilities needs of new homes assisted with funds under the Native American Housing Assistance and Self-Determination Act (25 U.S.C. 4101 et seq.), and to reduce the identified sanitation deficiency levels of all Indian Tribes and Indian communities to level I sanitation deficiency as defined in paragraph (3)(A); and

“(F) a 10-year plan to provide sanitation facilities to serve existing Indian homes and Indian communities and new and renovated Indian homes.

“(2) UNIFORM METHODOLOGY.—The methodology used by the Secretary in determining, preparing cost estimates for, and reporting sanitation deficiencies for purposes of paragraph (1) shall be applied uniformly to all Indian Tribes and Indian communities.

“(3) SANITATION DEFICIENCY LEVELS.—For purposes of this subsection, the sanitation deficiency levels for an individual, Indian Tribe, or Indian community sanitation facility to serve Indian homes are determined as follows:

“(A) A level I deficiency exists if a sanitation facility serving an individual, Indian Tribe, or Indian community—

“(i) complies with all applicable water supply, pollution control, and solid waste disposal laws; and

“(ii) deficiencies relate to routine replacement, repair, or maintenance needs.

“(B) A level II deficiency exists if a sanitation facility serving an individual, Indian Tribe, or Indian community substantially or recently complied with all applicable water supply, pollution control, and solid waste laws and any deficiencies relate to—

“(i) small or minor capital improvements needed to bring the facility back into compliance;

“(ii) capital improvements that are necessary to enlarge or improve the facilities in order to meet the current needs for domestic sanitation facilities; or

“(iii) the lack of equipment or training by an Indian Tribe, Tribal Organization, or an Indian community to properly operate and maintain the sanitation facilities.

“(C) A level III deficiency exists if a sanitation facility serving an individual, Indian Tribe or Indian community meets 1 or more of the following conditions—

“(i) water or sewer service in the home is provided by a haul system with holding tanks and interior plumbing;

“(ii) major significant interruptions to water supply or sewage disposal occur frequently, requiring major capital improvements to correct the deficiencies; or

“(iii) there is no access to or no approved or permitted solid waste facility available.

“(D) A level IV deficiency exists—

“(i) if a sanitation facility for an individual home, an Indian Tribe, or an Indian community exists but—

“(I) lacks—

“(aa) a safe water supply system; or

“(bb) a waste disposal system;

“(II) contains no piped water or sewer facilities; or

“(III) has become inoperable due to a major component failure; or

“(ii) if only a washeteria or central facility exists in the community.

“(E) A level V deficiency exists in the absence of a sanitation facility, where individual homes do not have access to safe drinking water or adequate wastewater (including sewage) disposal.

“(i) DEFINITIONS.—For purposes of this section, the following terms apply:

“(1) INDIAN COMMUNITY.—The term ‘Indian community’ means a geographic area, a significant proportion of whose inhabitants are Indians and which is served by or capable of being served by a facility described in this section.

“(2) SANITATION FACILITIES.—The terms ‘sanitation facility’ and ‘sanitation facilities’ mean safe and adequate water supply systems, sanitary sewage disposal systems, and sanitary solid waste systems (and all related equipment and support infrastructure).

“SEC. 303. PREFERENCE TO INDIANS AND INDIAN FIRMS.

“(a) BUY INDIAN ACT.—The Secretary, acting through the Service, may use the negotiating authority of section 23 of the Act of June 25, 1910 (25 U.S.C. 47, commonly known as the ‘Buy Indian Act’), to give preference to any Indian or any enterprise, partnership, corporation, or other type of business organization owned and controlled by an Indian or Indians including former or currently federally recognized Indian Tribes in the State of New York (hereinafter referred to as an ‘Indian firm’) in the construction and renovation of Service facilities pursuant to section 301 and in the construction of sanitation facilities pursuant to section 302. Such preference may be accorded by the Secretary unless the Secretary finds, pursuant to regulations, that the project or function to be contracted for will not be satisfactory or such project or function cannot be properly completed or maintained under the proposed contract. The Secretary, in arriving at such a finding, shall consider whether the Indian or Indian firm will be deficient with respect to—

“(1) ownership and control by Indians;

“(2) equipment;

“(3) bookkeeping and accounting procedures;

“(4) substantive knowledge of the project or function to be contracted for;

“(5) adequately trained personnel; or

“(6) other necessary components of contract performance.

“(b) LABOR STANDARDS.—

“(1) IN GENERAL.—For the purposes of implementing the provisions of this title, contracts for the construction or renovation of health care facilities, staff quarters, and sanitation facilities, and related support infrastructure, funded in whole or in part with funds made available pursuant to this title, shall contain a provision requiring compliance with subchapter IV of chapter 31 of title 40, United States Code (commonly known as the ‘Davis-Bacon Act’), unless such construction or renovation—

“(A) is performed by a contractor pursuant to a contract with an Indian Tribe or Tribal Organization with funds supplied through a

contract or compact authorized by the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), or other statutory authority; and

“(B) is subject to prevailing wage rates for similar construction or renovation in the locality as determined by the Indian Tribes or Tribal Organizations to be served by the construction or renovation.

“(2) EXCEPTION.—This subsection shall not apply to construction or renovation carried out by an Indian Tribe or Tribal Organization with its own employees.

“SEC. 304. EXPENDITURE OF NON-SERVICE FUNDS FOR RENOVATION.

“(a) IN GENERAL.—Notwithstanding any other provision of law, if the requirements of subsection (c) are met, the Secretary, acting through the Service, is authorized to accept any major expansion, renovation, or modernization by any Indian Tribe or Tribal Organization of any Service facility or of any other Indian health facility operated pursuant to a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), including—

“(1) any plans or designs for such expansion, renovation, or modernization; and

“(2) any expansion, renovation, or modernization for which funds appropriated under any Federal law were lawfully expended.

“(b) PRIORITY LIST.—

“(1) IN GENERAL.—The Secretary shall maintain a separate priority list to address the needs for increased operating expenses, personnel, or equipment for such facilities. The methodology for establishing priorities shall be developed through regulations. The list of priority facilities will be revised annually in consultation with Indian Tribes and Tribal Organizations.

“(2) REPORT.—The Secretary shall submit to the President, for inclusion in the report required to be transmitted to Congress under section 801, the priority list maintained pursuant to paragraph (1).

“(c) REQUIREMENTS.—The requirements of this subsection are met with respect to any expansion, renovation, or modernization if—

“(1) the Indian Tribe or Tribal Organization—

“(A) provides notice to the Secretary of its intent to expand, renovate, or modernize; and

“(B) applies to the Secretary to be placed on a separate priority list to address the needs of such new facilities for increased operating expenses, personnel, or equipment; and

“(2) the expansion, renovation, or modernization—

“(A) is approved by the appropriate area director of the Service for Federal facilities; and

“(B) is administered by the Indian Tribe or Tribal Organization in accordance with any applicable regulations prescribed by the Secretary with respect to construction or renovation of Service facilities.

“(d) ADDITIONAL REQUIREMENT FOR EXPANSION.—In addition to the requirements under subsection (c), for any expansion, the Indian Tribe or Tribal Organization shall provide to the Secretary additional information pursuant to regulations, including additional staffing, equipment, and other costs associated with the expansion.

“(e) CLOSURE OR CONVERSION OF FACILITIES.—If any Service facility which has been expanded, renovated, or modernized by an Indian Tribe or Tribal Organization under this section ceases to be used as a Service facility

during the 20-year period beginning on the date such expansion, renovation, or modernization is completed, such Indian Tribe or Tribal Organization shall be entitled to recover from the United States an amount which bears the same ratio to the value of such facility at the time of such cessation as the value of such expansion, renovation, or modernization (less the total amount of any funds provided specifically for such facility under any Federal program that were expended for such expansion, renovation, or modernization) bore to the value of such facility at the time of the completion of such expansion, renovation, or modernization.

“SEC. 305. FUNDING FOR THE CONSTRUCTION, EXPANSION, AND MODERNIZATION OF SMALL AMBULATORY CARE FACILITIES.

“(a) GRANTS.—

“(1) IN GENERAL.—The Secretary, acting through the Service, shall make grants to Indian Tribes and Tribal Organizations for the construction, expansion, or modernization of facilities for the provision of ambulatory care services to eligible Indians (and noneligible persons pursuant to subsections (b)(2) and (c)(1)(C)). A grant made under this section may cover up to 100 percent of the costs of such construction, expansion, or modernization. For the purposes of this section, the term ‘construction’ includes the replacement of an existing facility.

“(2) GRANT AGREEMENT REQUIRED.—A grant under paragraph (1) may only be made available to a Tribal Health Program operating an Indian health facility (other than a facility owned or constructed by the Service, including a facility originally owned or constructed by the Service and transferred to an Indian Tribe or Tribal Organization).

“(b) USE OF GRANT FUNDS.—

“(1) ALLOWABLE USES.—A grant awarded under this section may be used for the construction, expansion, or modernization (including the planning and design of such construction, expansion, or modernization) of an ambulatory care facility—

“(A) located apart from a hospital;

“(B) not funded under section 301 or section 306; and

“(C) which, upon completion of such construction or modernization will—

“(i) have a total capacity appropriate to its projected service population;

“(ii) provide annually no fewer than 150 patient visits by eligible Indians and other users who are eligible for services in such facility in accordance with section 807(c)(2); and

“(iii) provide ambulatory care in a Service Area (specified in the contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.)) with a population of no fewer than 1,500 eligible Indians and other users who are eligible for services in such facility in accordance with section 807(c)(2).

“(2) ADDITIONAL ALLOWABLE USE.—The Secretary may also reserve a portion of the funding provided under this section and use those reserved funds to reduce an outstanding debt incurred by Indian Tribes or Tribal Organizations for the construction, expansion, or modernization of an ambulatory care facility that meets the requirements under paragraph (1). The provisions of this section shall apply, except that such applications for funding under this paragraph shall be considered separately from applications for funding under paragraph (1).

“(3) USE ONLY FOR CERTAIN PORTION OF COSTS.—A grant provided under this section may be used only for the cost of that portion of a construction, expansion, or moderniza-

tion project that benefits the Service population identified above in subsection (b)(1)(C) (ii) and (iii). The requirements of clauses (ii) and (iii) of paragraph (1)(C) shall not apply to an Indian Tribe or Tribal Organization applying for a grant under this section for a health care facility located or to be constructed on an island or when such facility is not located on a road system providing direct access to an inpatient hospital where care is available to the Service population.

“(c) GRANTS.—

“(1) APPLICATION.—No grant may be made under this section unless an application or proposal for the grant has been approved by the Secretary in accordance with applicable regulations and has set forth reasonable assurance by the applicant that, at all times after the construction, expansion, or modernization of a facility carried out using a grant received under this section—

“(A) adequate financial support will be available for the provision of services at such facility;

“(B) such facility will be available to eligible Indians without regard to ability to pay or source of payment; and

“(C) such facility will, as feasible without diminishing the quality or quantity of services provided to eligible Indians, serve non-eligible persons on a cost basis.

“(2) PRIORITY.—In awarding grants under this section, the Secretary shall give priority to Indian Tribes and Tribal Organizations that demonstrate—

“(A) a need for increased ambulatory care services; and

“(B) insufficient capacity to deliver such services.

“(3) PEER REVIEW PANELS.—The Secretary may provide for the establishment of peer review panels, as necessary, to review and evaluate applications and proposals and to advise the Secretary regarding such applications using the criteria developed pursuant to subsection (a)(1).

“(d) REVERSION OF FACILITIES.—If any facility (or portion thereof) with respect to which funds have been paid under this section, ceases, at any time after completion of the construction, expansion, or modernization carried out with such funds, to be used for the purposes of providing health care services to eligible Indians, all of the right, title, and interest in and to such facility (or portion thereof) shall transfer to the United States unless otherwise negotiated by the Service and the Indian Tribe or Tribal Organization.

“(e) FUNDING NONRECURRING.—Funding provided under this section shall be non-recurring and shall not be available for inclusion in any individual Indian Tribe’s tribal share for an award under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) or for reallocation or redesign thereunder.

“SEC. 306. INDIAN HEALTH CARE DELIVERY DEMONSTRATION PROJECTS.

“(a) IN GENERAL.—The Secretary, acting through the Service, is authorized to carry out, or to enter into contracts under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) with Indian Tribes or Tribal Organizations to carry out, a health care delivery demonstration project to test alternative means of delivering health care and services to Indians through facilities.

“(b) USE OF FUNDS.—The Secretary, in approving projects pursuant to this section, may authorize such contracts for the construction and renovation of hospitals, health centers, health stations, and other facilities

to deliver health care services and is authorized to—

- “(1) waive any leasing prohibition;
 - “(2) permit carryover of funds appropriated for the provision of health care services;
 - “(3) permit the use of other available funds;
 - “(4) permit the use of funds or property donated from any source for project purposes;
 - “(5) provide for the reversion of donated real or personal property to the donor; and
 - “(6) permit the use of Service funds to match other funds, including Federal funds.
- “(c) HEALTH CARE DEMONSTRATION PROJECTS.—

“(1) GENERAL PROJECTS.—
“(A) CRITERIA.—The Secretary may approve under this section demonstration projects that meet the following criteria:

“(i) There is a need for a new facility or program, such as a program for convenient care services, or the reorientation of an existing facility or program.

“(ii) A significant number of Indians, including Indians with low health status, will be served by the project.

“(iii) The project has the potential to deliver services in an efficient and effective manner.

“(iv) The project is economically viable.

“(v) For projects carried out by an Indian Tribe or Tribal Organization, the Indian Tribe or Tribal Organization has the administrative and financial capability to administer the project.

“(vi) The project is integrated with providers of related health and social services and is coordinated with, and avoids duplication of, existing services in order to expand the availability of services.

“(B) PRIORITY.—In approving demonstration projects under this paragraph, the Secretary shall give priority to demonstration projects, to the extent the projects meet the criteria described in subparagraph (A), located in any of the following Service Units:

- “(i) Cass Lake, Minnesota.
- “(ii) Mesalero, New Mexico.
- “(iii) Owyhee, Nevada.
- “(iv) Schurz, Nevada.
- “(v) Ft. Yuma, California.

“(2) CONVENIENT CARE SERVICE PROJECTS.—

“(A) DEFINITION OF CONVENIENT CARE SERVICE.—In this paragraph, the term ‘convenient care service’ means any primary health care service, such as urgent care services, non-emergent care services, prevention services and screenings, and any service authorized by sections 203 or 213(d), that is—

- “(i) provided outside the regular hours of operation of a health care facility; or
- “(ii) offered at an alternative setting.

“(B) APPROVAL.—In addition to projects described in paragraph (1), in any fiscal year, the Secretary is authorized to approve not more than 10 applications for health care delivery demonstration projects that—

“(i) include a convenient care services program as an alternative means of delivering health care services to Indians; and

“(ii) meet the criteria described in subparagraph (C).

“(C) CRITERIA.—The Secretary shall approve under subparagraph (B) demonstration projects that meet all of the following criteria:

“(1) The criteria set forth in paragraph (1)(A).

“(ii) There is a lack of access to health care services at existing health care facilities, which may be due to limited hours of operation at those facilities or other factors.

“(iii) The project—

“(I) expands the availability of services; or

“(II) reduces—

“(aa) the burden on Contract Health Services; or

“(bb) the need for emergency room visits.

“(d) PEER REVIEW PANELS.—The Secretary may provide for the establishment of peer review panels, as necessary, to review and evaluate applications using the criteria described in paragraphs (1)(A) and (2)(C) of subsection (c).

“(e) TECHNICAL ASSISTANCE.—The Secretary shall provide such technical and other assistance as may be necessary to enable applicants to comply with this section.

“(f) SERVICE TO INELIGIBLE PERSONS.—Subject to section 807, the authority to provide services to persons otherwise ineligible for the health care benefits of the Service, and the authority to extend hospital privileges in Service facilities to non-Service health practitioners as provided in section 807, may be included, subject to the terms of that section, in any demonstration project approved pursuant to this section.

“(g) EQUITABLE TREATMENT.—For purposes of subsection (c), the Secretary, in evaluating facilities operated under any contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), shall use the same criteria that the Secretary uses in evaluating facilities operated directly by the Service.

“(h) EQUITABLE INTEGRATION OF FACILITIES.—The Secretary shall ensure that the planning, design, construction, renovation, and expansion needs of Service and non-Service facilities that are the subject of a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) for health services are fully and equitably integrated into the implementation of the health care delivery demonstration projects under this section.

“SEC. 307. LAND TRANSFER.

“Notwithstanding any other provision of law, the Bureau of Indian Affairs and all other agencies and departments of the United States are authorized to transfer, at no cost, land and improvements to the Service for the provision of health care services. The Secretary is authorized to accept such land and improvements for such purposes.

“SEC. 308. LEASES, CONTRACTS, AND OTHER AGREEMENTS.

“The Secretary, acting through the Service, may enter into leases, contracts, and other agreements with Indian Tribes and Tribal Organizations which hold (1) title to, (2) a leasehold interest in, or (3) a beneficial interest in (when title is held by the United States in trust for the benefit of an Indian Tribe) facilities used or to be used for the administration and delivery of health services by an Indian Health Program. Such leases, contracts, or agreements may include provisions for construction or renovation and provide for compensation to the Indian Tribe or Tribal Organization of rental and other costs consistent with section 105(1) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450j(1)) and regulations thereunder.

“SEC. 309. STUDY ON LOANS, LOAN GUARANTEES, AND LOAN REPAYMENT.

“(a) IN GENERAL.—The Secretary, in consultation with the Secretary of the Treasury, Indian Tribes, and Tribal Organizations, shall carry out a study to determine the feasibility of establishing a loan fund to provide to Indian Tribes and Tribal Organizations direct loans or guarantees for loans for the construction of health care facilities, including—

“(1) inpatient facilities;

“(2) outpatient facilities;

“(3) staff quarters;

“(4) hostels; and

“(5) specialized care facilities, such as behavioral health and elder care facilities.

“(b) DETERMINATIONS.—In carrying out the study under subsection (a), the Secretary shall determine—

“(1) the maximum principal amount of a loan or loan guarantee that should be offered to a recipient from the loan fund;

“(2) the percentage of eligible costs, not to exceed 100 percent, that may be covered by a loan or loan guarantee from the loan fund (including costs relating to planning, design, financing, site land development, construction, rehabilitation, renovation, conversion, improvements, medical equipment and furnishings, and other facility-related costs and capital purchase (but excluding staffing));

“(3) the cumulative total of the principal of direct loans and loan guarantees, respectively, that may be outstanding at any 1 time;

“(4) the maximum term of a loan or loan guarantee that may be made for a facility from the loan fund;

“(5) the maximum percentage of funds from the loan fund that should be allocated for payment of costs associated with planning and applying for a loan or loan guarantee;

“(6) whether acceptance by the Secretary of an assignment of the revenue of an Indian Tribe or Tribal Organization as security for any direct loan or loan guarantee from the loan fund would be appropriate;

“(7) whether, in the planning and design of health facilities under this section, users eligible under section 807(c) may be included in any projection of patient population;

“(8) whether funds of the Service provided through loans or loan guarantees from the loan fund should be eligible for use in matching other Federal funds under other programs;

“(9) the appropriateness of, and best methods for, coordinating the loan fund with the health care priority system of the Service under section 301; and

“(10) any legislative or regulatory changes required to implement recommendations of the Secretary based on results of the study.

“(c) REPORT.—Not later than September 30, 2009, the Secretary shall submit to the Committee on Indian Affairs of the Senate and the Committee on Natural Resources and the Committee on Energy and Commerce of the House of Representatives a report that describes—

“(1) the manner of consultation made as required by subsection (a); and

“(2) the results of the study, including any recommendations of the Secretary based on results of the study.

“SEC. 310. TRIBAL LEASING.

“A Tribal Health Program may lease permanent structures for the purpose of providing health care services without obtaining advance approval in appropriation Acts.

“SEC. 311. INDIAN HEALTH SERVICE/TRIBAL FACILITIES JOINT VENTURE PROGRAM.

“(a) IN GENERAL.—The Secretary, acting through the Service, shall make arrangements with Indian Tribes and Tribal Organizations to establish joint venture demonstration projects under which an Indian Tribe or Tribal Organization shall expend tribal, private, or other available funds, for the acquisition or construction of a health facility for a minimum of 10 years, under a no-cost lease, in exchange for agreement by the Service to provide the equipment, supplies, and staffing for the operation and maintenance of such a health facility. An Indian

Tribe or Tribal Organization may use tribal funds, private sector, or other available resources, including loan guarantees, to fulfill its commitment under a joint venture entered into under this subsection. An Indian Tribe or Tribal Organization shall be eligible to establish a joint venture project if, when it submits a letter of intent, it—

“(1) has begun but not completed the process of acquisition or construction of a health facility to be used in the joint venture project; or

“(2) has not begun the process of acquisition or construction of a health facility for use in the joint venture project.

“(b) REQUIREMENTS.—The Secretary shall make such an arrangement with an Indian Tribe or Tribal Organization only if—

“(1) the Secretary first determines that the Indian Tribe or Tribal Organization has the administrative and financial capabilities necessary to complete the timely acquisition or construction of the relevant health facility; and

“(2) the Indian Tribe or Tribal Organization meets the need criteria determined using the criteria developed under the health care facility priority system under section 301, unless the Secretary determines, pursuant to regulations, that other criteria will result in a more cost-effective and efficient method of facilitating and completing construction of health care facilities.

“(c) CONTINUED OPERATION.—The Secretary shall negotiate an agreement with the Indian Tribe or Tribal Organization regarding the continued operation of the facility at the end of the initial 10 year no-cost lease period.

“(d) BREACH OF AGREEMENT.—An Indian Tribe or Tribal Organization that has entered into a written agreement with the Secretary under this section, and that breaches or terminates without cause such agreement, shall be liable to the United States for the amount that has been paid to the Indian Tribe or Tribal Organization, or paid to a third party on the Indian Tribe's or Tribal Organization's behalf, under the agreement. The Secretary has the right to recover tangible property (including supplies) and equipment, less depreciation, and any funds expended for operations and maintenance under this section. The preceding sentence does not apply to any funds expended for the delivery of health care services, personnel, or staffing.

“(e) RECOVERY FOR NONUSE.—An Indian Tribe or Tribal Organization that has entered into a written agreement with the Secretary under this subsection shall be entitled to recover from the United States an amount that is proportional to the value of such facility if, at any time within the 10-year term of the agreement, the Service ceases to use the facility or otherwise breaches the agreement.

“(f) DEFINITION.—For the purposes of this section, the term ‘health facility’ or ‘health facilities’ includes quarters needed to provide housing for staff of the relevant Tribal Health Program.

“SEC. 312. LOCATION OF FACILITIES.

“(a) IN GENERAL.—In all matters involving the reorganization or development of Service facilities or in the establishment of related employment projects to address unemployment conditions in economically depressed areas, the Bureau of Indian Affairs and the Service shall give priority to locating such facilities and projects on Indian lands, or lands in Alaska owned by any Alaska Native village, or village or regional corporation under the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), or any land allot-

ted to any Alaska Native, if requested by the Indian owner and the Indian Tribe with jurisdiction over such lands or other lands owned or leased by the Indian Tribe or Tribal Organization. Top priority shall be given to Indian land owned by 1 or more Indian Tribes.

“(b) DEFINITION.—For purposes of this section, the term ‘Indian lands’ means—

“(1) all lands within the exterior boundaries of any reservation; and

“(2) any lands title to which is held in trust by the United States for the benefit of any Indian Tribe or individual Indian or held by any Indian Tribe or individual Indian subject to restriction by the United States against alienation.

“SEC. 313. MAINTENANCE AND IMPROVEMENT OF HEALTH CARE FACILITIES.

“(a) REPORT.—The Secretary shall submit to the President, for inclusion in the report required to be transmitted to Congress under section 801, a report which identifies the backlog of maintenance and repair work required at both Service and tribal health care facilities, including new health care facilities expected to be in operation in the next fiscal year. The report shall also identify the need for renovation and expansion of existing facilities to support the growth of health care programs.

“(b) MAINTENANCE OF NEWLY CONSTRUCTED SPACE.—The Secretary, acting through the Service, is authorized to expend maintenance and improvement funds to support maintenance of newly constructed space only if such space falls within the approved supportable space allocation for the Indian Tribe or Tribal Organization. Supportable space allocation shall be defined through the health care facility priority system under section 301(c).

“(c) REPLACEMENT FACILITIES.—In addition to using maintenance and improvement funds for renovation, modernization, and expansion of facilities, an Indian Tribe or Tribal Organization may use maintenance and improvement funds for construction of a replacement facility if the costs of renovation of such facility would exceed a maximum renovation cost threshold. The maximum renovation cost threshold shall be determined through the negotiated rulemaking process provided for under section 802.

“SEC. 314. TRIBAL MANAGEMENT OF FEDERALLY-OWNED QUARTERS.

“(a) RENTAL RATES.—

“(1) ESTABLISHMENT.—Notwithstanding any other provision of law, a Tribal Health Program which operates a hospital or other health facility and the federally-owned quarters associated therewith pursuant to a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) shall have the authority to establish the rental rates charged to the occupants of such quarters by providing notice to the Secretary of its election to exercise such authority.

“(2) OBJECTIVES.—In establishing rental rates pursuant to authority of this subsection, a Tribal Health Program shall endeavor to achieve the following objectives:

“(A) To base such rental rates on the reasonable value of the quarters to the occupants thereof.

“(B) To generate sufficient funds to prudently provide for the operation and maintenance of the quarters, and subject to the discretion of the Tribal Health Program, to supply reserve funds for capital repairs and replacement of the quarters.

“(3) EQUITABLE FUNDING.—Any quarters whose rental rates are established by a Trib-

al Health Program pursuant to this subsection shall remain eligible for quarters improvement and repair funds to the same extent as all federally-owned quarters used to house personnel in Services-supported programs.

“(4) NOTICE OF RATE CHANGE.—A Tribal Health Program which exercises the authority provided under this subsection shall provide occupants with no less than 60 days notice of any change in rental rates.

“(b) DIRECT COLLECTION OF RENT.—

“(1) IN GENERAL.—Notwithstanding any other provision of law, and subject to paragraph (2), a Tribal Health Program shall have the authority to collect rents directly from Federal employees who occupy such quarters in accordance with the following:

“(A) The Tribal Health Program shall notify the Secretary and the subject Federal employees of its election to exercise its authority to collect rents directly from such Federal employees.

“(B) Upon receipt of a notice described in subparagraph (A), the Federal employees shall pay rents for occupancy of such quarters directly to the Tribal Health Program and the Secretary shall have no further authority to collect rents from such employees through payroll deduction or otherwise.

“(C) Such rent payments shall be retained by the Tribal Health Program and shall not be made payable to or otherwise be deposited with the United States.

“(D) Such rent payments shall be deposited into a separate account which shall be used by the Tribal Health Program for the maintenance (including capital repairs and replacement) and operation of the quarters and facilities as the Tribal Health Program shall determine.

“(2) RETROCESSION OF AUTHORITY.—If a Tribal Health Program which has made an election under paragraph (1) requests retrocession of its authority to directly collect rents from Federal employees occupying federally-owned quarters, such retrocession shall become effective on the earlier of—

“(A) the first day of the month that begins no less than 180 days after the Tribal Health Program notifies the Secretary of its desire to retrocede; or

“(B) such other date as may be mutually agreed by the Secretary and the Tribal Health Program.

“(c) RATES IN ALASKA.—To the extent that a Tribal Health Program, pursuant to authority granted in subsection (a), establishes rental rates for federally-owned quarters provided to a Federal employee in Alaska, such rents may be based on the cost of comparable private rental housing in the nearest established community with a year-round population of 1,500 or more individuals.

“SEC. 315. APPLICABILITY OF BUY AMERICAN ACT REQUIREMENT.

“(a) APPLICABILITY.—The Secretary shall ensure that the requirements of the Buy American Act apply to all procurements made with funds provided pursuant to section 317. Indian Tribes and Tribal Organizations shall be exempt from these requirements.

“(b) EFFECT OF VIOLATION.—If it has been finally determined by a court or Federal agency that any person intentionally affixed a label bearing a ‘Made in America’ inscription or any inscription with the same meaning, to any product sold in or shipped to the United States that is not made in the United States, such person shall be ineligible to receive any contract or subcontract made with funds provided pursuant to section 317, pursuant to the debarment, suspension, and ineligibility procedures described in sections

9.400 through 9.409 of title 48, Code of Federal Regulations.

“(c) DEFINITIONS.—For purposes of this section, the term ‘Buy American Act’ means title III of the Act entitled ‘An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes’, approved March 3, 1933 (41 U.S.C. 10a et seq.).

“SEC. 316. OTHER FUNDING FOR FACILITIES.

“(a) AUTHORITY TO ACCEPT FUNDS.—The Secretary is authorized to accept from any source, including Federal and State agencies, funds that are available for the construction of health care facilities and use such funds to plan, design, and construct health care facilities for Indians and to place such funds into a contract or compact under the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.). Receipt of such funds shall have no effect on the priorities established pursuant to section 301.

“(b) INTERAGENCY AGREEMENTS.—The Secretary is authorized to enter into interagency agreements with other Federal agencies or State agencies and other entities and to accept funds from such Federal or State agencies or other sources to provide for the planning, design, and construction of health care facilities to be administered by Indian Health Programs in order to carry out the purposes of this Act and the purposes for which the funds were appropriated or for which the funds were otherwise provided.

“(c) ESTABLISHMENT OF STANDARDS.—The Secretary, through the Service, shall establish standards by regulation for the planning, design, and construction of health care facilities serving Indians under this Act.

“SEC. 317. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated such sums as may be necessary for each fiscal year through fiscal year 2017 to carry out this title.

“TITLE IV—ACCESS TO HEALTH SERVICES

“SEC. 401. TREATMENT OF PAYMENTS UNDER SOCIAL SECURITY ACT HEALTH BENEFITS PROGRAMS.

“(a) DISREGARD OF MEDICARE, MEDICAID, AND SCHIP PAYMENTS IN DETERMINING APPROPRIATIONS.—Any payments received by an Indian Health Program or by an Urban Indian Organization under title XVIII, XIX, or XXI of the Social Security Act for services provided to Indians eligible for benefits under such respective titles shall not be considered in determining appropriations for the provision of health care and services to Indians.

“(b) NONPREFERENTIAL TREATMENT.—Nothing in this Act authorizes the Secretary to provide services to an Indian with coverage under title XVIII, XIX, or XXI of the Social Security Act in preference to an Indian without such coverage.

“(c) USE OF FUNDS.—

“(1) SPECIAL FUND.—

“(A) 100 PERCENT PASS-THROUGH OF PAYMENTS DUE TO FACILITIES.—Notwithstanding any other provision of law, but subject to paragraph (2), payments to which a facility of the Service is entitled by reason of a provision of the Social Security Act shall be placed in a special fund to be held by the Secretary. In making payments from such fund, the Secretary shall ensure that each Service Unit of the Service receives 100 percent of the amount to which the facilities of the Service, for which such Service Unit makes collections, are entitled by reason of a provision of the Social Security Act.

“(B) USE OF FUNDS.—Amounts received by a facility of the Service under subparagraph

(A) shall first be used (to such extent or in such amounts as are provided in appropriation Acts) for the purpose of making any improvements in the programs of the Service operated by or through such facility which may be necessary to achieve or maintain compliance with the applicable conditions and requirements of titles XVIII and XIX of the Social Security Act. Any amounts so received that are in excess of the amount necessary to achieve or maintain such conditions and requirements shall, subject to consultation with the Indian Tribes being served by the Service Unit, be used for reducing the health resource deficiencies (as determined under section 201(d)) of such Indian Tribes.

“(2) DIRECT PAYMENT OPTION.—Paragraph (1) shall not apply to a Tribal Health Program upon the election of such Program under subsection (d) to receive payments directly. No payment may be made out of the special fund described in such paragraph with respect to reimbursement made for services provided by such Program during the period of such election.

“(d) DIRECT BILLING.—

“(1) IN GENERAL.—Subject to complying with the requirements of paragraph (2), a Tribal Health Program may elect to directly bill for, and receive payment for, health care items and services provided by such Program for which payment is made under title XVIII or XIX of the Social Security Act or from any other third party payor.

“(2) DIRECT REIMBURSEMENT.—

“(A) USE OF FUNDS.—Each Tribal Health Program making the election described in paragraph (1) with respect to a program under a title of the Social Security Act shall be reimbursed directly by that program for items and services furnished without regard to subsection (c)(1), but all amounts so reimbursed shall be used by the Tribal Health Program for the purpose of making any improvements in facilities of the Tribal Health Program that may be necessary to achieve or maintain compliance with the conditions and requirements applicable generally to such items and services under the program under such title and to provide additional health care services, improvements in health care facilities and Tribal Health Programs, any health care related purpose, or otherwise to achieve the objectives provided in section 3 of this Act.

“(B) AUDITS.—The amounts paid to a Tribal Health Program making the election described in paragraph (1) with respect to a program under a title of the Social Security Act shall be subject to all auditing requirements applicable to the program under such title, as well as all auditing requirements applicable to programs administered by an Indian Health Program. Nothing in the preceding sentence shall be construed as limiting the application of auditing requirements applicable to amounts paid under title XVIII, XIX, or XXI of the Social Security Act.

“(C) IDENTIFICATION OF SOURCE OF PAYMENTS.—Any Tribal Health Program that receives reimbursements or payments under title XVIII, XIX, or XXI of the Social Security Act, shall provide to the Service a list of each provider enrollment number (or other identifier) under which such Program receives such reimbursements or payments.

“(3) EXAMINATION AND IMPLEMENTATION OF CHANGES.—

“(A) IN GENERAL.—The Secretary, acting through the Service and with the assistance of the Administrator of the Centers for Medicare & Medicaid Services, shall examine on an ongoing basis and implement any admin-

istrative changes that may be necessary to facilitate direct billing and reimbursement under the program established under this subsection, including any agreements with States that may be necessary to provide for direct billing under a program under a title of the Social Security Act.

“(B) COORDINATION OF INFORMATION.—The Service shall provide the Administrator of the Centers for Medicare & Medicaid Services with copies of the lists submitted to the Service under paragraph (2)(C), enrollment data regarding patients served by the Service (and by Tribal Health Programs, to the extent such data is available to the Service), and such other information as the Administrator may require for purposes of administering title XVIII, XIX, or XXI of the Social Security Act.

“(4) WITHDRAWAL FROM PROGRAM.—A Tribal Health Program that bills directly under the program established under this subsection may withdraw from participation in the same manner and under the same conditions that an Indian Tribe or Tribal Organization may retrocede a contracted program to the Secretary under the authority of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.). All cost accounting and billing authority under the program established under this subsection shall be returned to the Secretary upon the Secretary's acceptance of the withdrawal of participation in this program.

“(5) TERMINATION FOR FAILURE TO COMPLY WITH REQUIREMENTS.—The Secretary may terminate the participation of a Tribal Health Program or in the direct billing program established under this subsection if the Secretary determines that the Program has failed to comply with the requirements of paragraph (2). The Secretary shall provide a Tribal Health Program with notice of a determination that the Program has failed to comply with any such requirement and a reasonable opportunity to correct such non-compliance prior to terminating the Program's participation in the direct billing program established under this subsection.

“(e) RELATED PROVISIONS UNDER THE SOCIAL SECURITY ACT.—For provisions related to subsections (c) and (d), see sections 1880, 1911, and 2107(e)(1)(D) of the Social Security Act.

“SEC. 402. GRANTS TO AND CONTRACTS WITH THE SERVICE, INDIAN TRIBES, TRIBAL ORGANIZATIONS, AND URBAN INDIAN ORGANIZATIONS TO FACILITATE OUTREACH, ENROLLMENT, AND COVERAGE OF INDIANS UNDER SOCIAL SECURITY ACT HEALTH BENEFIT PROGRAMS AND OTHER HEALTH BENEFITS PROGRAMS.

“(a) INDIAN TRIBES AND TRIBAL ORGANIZATIONS.—From funds appropriated to carry out this title in accordance with section 416, the Secretary, acting through the Service, shall make grants to or enter into contracts with Indian Tribes and Tribal Organizations to assist such Tribes and Tribal Organizations in establishing and administering programs on or near reservations and trust lands to assist individual Indians—

“(1) to enroll for benefits under a program established under title XVIII, XIX, or XXI of the Social Security Act and other health benefits programs; and

“(2) with respect to such programs for which the charging of premiums and cost sharing is not prohibited under such programs, to pay premiums or cost sharing for coverage for such benefits, which may be based on financial need (as determined by the Indian Tribe or Tribes or Tribal Organizations being served based on a schedule of

income levels developed or implemented by such Tribe, Tribes, or Tribal Organizations).

“(b) CONDITIONS.—The Secretary, acting through the Service, shall place conditions as deemed necessary to effect the purpose of this section in any grant or contract which the Secretary makes with any Indian Tribe or Tribal Organization pursuant to this section. Such conditions shall include requirements that the Indian Tribe or Tribal Organization successfully undertake—

“(1) to determine the population of Indians eligible for the benefits described in subsection (a);

“(2) to educate Indians with respect to the benefits available under the respective programs;

“(3) to provide transportation for such individual Indians to the appropriate offices for enrollment or applications for such benefits; and

“(4) to develop and implement methods of improving the participation of Indians in receiving benefits under such programs.

“(c) APPLICATION TO URBAN INDIAN ORGANIZATIONS.—

“(1) IN GENERAL.—The provisions of subsection (a) shall apply with respect to grants and other funding to Urban Indian Organizations with respect to populations served by such organizations in the same manner they apply to grants and contracts with Indian Tribes and Tribal Organizations with respect to programs on or near reservations.

“(2) REQUIREMENTS.—The Secretary shall include in the grants or contracts made or provided under paragraph (1) requirements that are—

“(A) consistent with the requirements imposed by the Secretary under subsection (b);

“(B) appropriate to Urban Indian Organizations and Urban Indians; and

“(C) necessary to effect the purposes of this section.

“(d) FACILITATING COOPERATION.—The Secretary, acting through the Centers for Medicare & Medicaid Services, shall take such steps as are necessary to facilitate cooperation with, and agreements between, States and the Service, Indian Tribes, Tribal Organizations, or Urban Indian Organizations with respect to the provision of health care items and services to Indians under the programs established under title XVIII, XIX, or XXI of the Social Security Act.

“(e) AGREEMENTS RELATING TO IMPROVING ENROLLMENT OF INDIANS UNDER SOCIAL SECURITY ACT HEALTH BENEFITS PROGRAMS.—For provisions relating to agreements between the Secretary, acting through the Service, and Indian Tribes, Tribal Organizations, and Urban Indian Organizations for the collection, preparation, and submission of applications by Indians for assistance under the Medicaid and State children’s health insurance programs established under titles XIX and XXI of the Social Security Act, and benefits under the Medicare program established under title XVIII of such Act, see subsections (a) and (b) of section 1139 of the Social Security Act.

“(f) DEFINITION OF PREMIUMS AND COST SHARING.—In this section:

“(1) PREMIUM.—The term ‘premium’ includes any enrollment fee or similar charge.

“(2) COST SHARING.—The term ‘cost sharing’ includes any deduction, deductible, co-payment, coinsurance, or similar charge.

“SEC. 403. REIMBURSEMENT FROM CERTAIN THIRD PARTIES OF COSTS OF HEALTH SERVICES.

“(a) RIGHT OF RECOVERY.—Except as provided in subsection (f), the United States, an Indian Tribe, or Tribal Organization shall

have the right to recover from an insurance company, health maintenance organization, employee benefit plan, third-party tortfeasor, or any other responsible or liable third party (including a political subdivision or local governmental entity of a State) the reasonable charges billed by the Secretary, an Indian Tribe, or Tribal Organization in providing health services through the Service, an Indian Tribe, or Tribal Organization to any individual to the same extent that such individual, or any nongovernmental provider of such services, would be eligible to receive damages, reimbursement, or indemnification for such charges or expenses if—

“(1) such services had been provided by a nongovernmental provider; and

“(2) such individual had been required to pay such charges or expenses and did pay such charges or expenses.

“(b) LIMITATIONS ON RECOVERIES FROM STATES.—Subsection (a) shall provide a right of recovery against any State, only if the injury, illness, or disability for which health services were provided is covered under—

“(1) workers’ compensation laws; or

“(2) a no-fault automobile accident insurance plan or program.

“(c) NONAPPLICATION OF OTHER LAWS.—No law of any State, or of any political subdivision of a State and no provision of any contract, insurance or health maintenance organization policy, employee benefit plan, self-insurance plan, managed care plan, or other health care plan or program entered into or renewed after the date of the enactment of the Indian Health Care Amendments of 1988, shall prevent or hinder the right of recovery of the United States, an Indian Tribe, or Tribal Organization under subsection (a).

“(d) NO EFFECT ON PRIVATE RIGHTS OF ACTION.—No action taken by the United States, an Indian Tribe, or Tribal Organization to enforce the right of recovery provided under this section shall operate to deny to the injured person the recovery for that portion of the person’s damage not covered hereunder.

“(e) ENFORCEMENT.—

“(1) IN GENERAL.—The United States, an Indian Tribe, or Tribal Organization may enforce the right of recovery provided under subsection (a) by—

“(A) intervening or joining in any civil action or proceeding brought—

“(i) by the individual for whom health services were provided by the Secretary, an Indian Tribe, or Tribal Organization; or

“(ii) by any representative or heirs of such individual, or

“(B) instituting a civil action, including a civil action for injunctive relief and other relief and including, with respect to a political subdivision or local governmental entity of a State, such an action against an official thereof.

“(2) NOTICE.—All reasonable efforts shall be made to provide notice of action instituted under paragraph (1)(B) to the individual to whom health services were provided, either before or during the pendency of such action.

“(3) RECOVERY FROM TORTFEASORS.—

“(A) IN GENERAL.—In any case in which an Indian Tribe or Tribal Organization that is authorized or required under a compact or contract issued pursuant to the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.) to furnish or pay for health services to a person who is injured or suffers a disease on or after the date of enactment of the Indian Health Care Improvement Act Amendments of 2007 under circumstances that establish grounds for a

claim of liability against the tortfeasor with respect to the injury or disease, the Indian Tribe or Tribal Organization shall have a right to recover from the tortfeasor (or an insurer of the tortfeasor) the reasonable value of the health services so furnished, paid for, or to be paid for, in accordance with the Federal Medical Care Recovery Act (42 U.S.C. 2651 et seq.), to the same extent and under the same circumstances as the United States may recover under that Act.

“(B) TREATMENT.—The right of an Indian Tribe or Tribal Organization to recover under subparagraph (A) shall be independent of the rights of the injured or diseased person served by the Indian Tribe or Tribal Organization.

“(f) LIMITATION.—Absent specific written authorization by the governing body of an Indian Tribe for the period of such authorization (which may not be for a period of more than 1 year and which may be revoked at any time upon written notice by the governing body to the Service), the United States shall not have a right of recovery under this section if the injury, illness, or disability for which health services were provided is covered under a self-insurance plan funded by an Indian Tribe, Tribal Organization, or Urban Indian Organization. Where such authorization is provided, the Service may receive and expend such amounts for the provision of additional health services consistent with such authorization.

“(g) COSTS AND ATTORNEYS’ FEES.—In any action brought to enforce the provisions of this section, a prevailing plaintiff shall be awarded its reasonable attorneys’ fees and costs of litigation.

“(h) NONAPPLICATION OF CLAIMS FILING REQUIREMENTS.—An insurance company, health maintenance organization, self-insurance plan, managed care plan, or other health care plan or program (under the Social Security Act or otherwise) may not deny a claim for benefits submitted by the Service or by an Indian Tribe or Tribal Organization based on the format in which the claim is submitted if such format complies with the format required for submission of claims under title XVIII of the Social Security Act or recognized under section 1175 of such Act.

“(i) APPLICATION TO URBAN INDIAN ORGANIZATIONS.—The previous provisions of this section shall apply to Urban Indian Organizations with respect to populations served by such Organizations in the same manner they apply to Indian Tribes and Tribal Organizations with respect to populations served by such Indian Tribes and Tribal Organizations.

“(j) STATUTE OF LIMITATIONS.—The provisions of section 2415 of title 28, United States Code, shall apply to all actions commenced under this section, and the references therein to the United States are deemed to include Indian Tribes, Tribal Organizations, and Urban Indian Organizations.

“(k) SAVINGS.—Nothing in this section shall be construed to limit any right of recovery available to the United States, an Indian Tribe, or Tribal Organization under the provisions of any applicable, Federal, State, or Tribal law, including medical lien laws.

“SEC. 404. CREDITING OF REIMBURSEMENTS.

“(a) USE OF AMOUNTS.—

“(1) RETENTION BY PROGRAM.—Except as provided in section 202(f) (relating to the Catastrophic Health Emergency Fund) and section 807 (relating to health services for ineligible persons), all reimbursements received or recovered under any of the programs described in paragraph (2), including under section 807, by reason of the provision of health services by the Service, by an Indian Tribe or Tribal Organization, or by an

Urban Indian Organization, shall be credited to the Service, such Indian Tribe or Tribal Organization, or such Urban Indian Organization, respectively, and may be used as provided in section 401. In the case of such a service provided by or through a Service Unit, such amounts shall be credited to such unit and used for such purposes.

“(2) PROGRAMS COVERED.—The programs referred to in paragraph (1) are the following:

“(A) Titles XVIII, XIX, and XXI of the Social Security Act.

“(B) This Act, including section 807.

“(C) Public Law 87-693.

“(D) Any other provision of law.

“(b) NO OFFSET OF AMOUNTS.—The Service may not offset or limit any amount obligated to any Service Unit or entity receiving funding from the Service because of the receipt of reimbursements under subsection (a).

“SEC. 405. PURCHASING HEALTH CARE COVERAGE.

“(a) IN GENERAL.—Insofar as amounts are made available under law (including a provision of the Social Security Act, the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450 et seq.), or other law, other than under section 402) to Indian Tribes, Tribal Organizations, and Urban Indian Organizations for health benefits for Service beneficiaries, Indian Tribes, Tribal Organizations, and Urban Indian Organizations may use such amounts to purchase health benefits coverage for such beneficiaries in any manner, including through—

“(1) a tribally owned and operated health care plan;

“(2) a State or locally authorized or licensed health care plan;

“(3) a health insurance provider or managed care organization; or

“(4) a self-insured plan.

The purchase of such coverage by an Indian Tribe, Tribal Organization, or Urban Indian Organization may be based on the financial needs of such beneficiaries (as determined by the Indian Tribe or Tribes being served based on a schedule of income levels developed or implemented by such Indian Tribe or Tribes).

“(b) EXPENSES FOR SELF-INSURED PLAN.—In the case of a self-insured plan under subsection (a)(4), the amounts may be used for expenses of operating the plan, including administration and insurance to limit the financial risks to the entity offering the plan.

“(c) CONSTRUCTION.—Nothing in this section shall be construed as affecting the use of any amounts not referred to in subsection (a).

“SEC. 406. SHARING ARRANGEMENTS WITH FEDERAL AGENCIES.

“(a) AUTHORITY.—

“(1) IN GENERAL.—The Secretary may enter into (or expand) arrangements for the sharing of medical facilities and services between the Service, Indian Tribes, and Tribal Organizations and the Department of Veterans Affairs and the Department of Defense.

“(2) CONSULTATION BY SECRETARY REQUIRED.—The Secretary may not finalize any arrangement between the Service and a Department described in paragraph (1) without first consulting with the Indian Tribes which will be significantly affected by the arrangement.

“(b) LIMITATIONS.—The Secretary shall not take any action under this section or under subchapter IV of chapter 81 of title 38, United States Code, which would impair—

“(1) the priority access of any Indian to health care services provided through the Service and the eligibility of any Indian to receive health services through the Service;

“(2) the quality of health care services provided to any Indian through the Service;

“(3) the priority access of any veteran to health care services provided by the Department of Veterans Affairs;

“(4) the quality of health care services provided by the Department of Veterans Affairs or the Department of Defense; or

“(5) the eligibility of any Indian who is a veteran to receive health services through the Department of Veterans Affairs.

“(c) REIMBURSEMENT.—The Service, Indian Tribe, or Tribal Organization shall be reimbursed by the Department of Veterans Affairs or the Department of Defense (as the case may be) where services are provided through the Service, an Indian Tribe, or a Tribal Organization to beneficiaries eligible for services from either such Department, notwithstanding any other provision of law.

“(d) CONSTRUCTION.—Nothing in this section may be construed as creating any right of a non-Indian veteran to obtain health services from the Service.

“SEC. 407. PAYOR OF LAST RESORT.

“Indian Health Programs and health care programs operated by Urban Indian Organizations shall be the payor of last resort for services provided to persons eligible for services from Indian Health Programs and Urban Indian Organizations, notwithstanding any Federal, State, or local law to the contrary.

“SEC. 408. NONDISCRIMINATION UNDER FEDERAL HEALTH CARE PROGRAMS IN QUALIFICATIONS FOR REIMBURSEMENT FOR SERVICES.

“(a) REQUIREMENT TO SATISFY GENERALLY APPLICABLE PARTICIPATION REQUIREMENTS.—

“(1) IN GENERAL.—A Federal health care program must accept an entity that is operated by the Service, an Indian Tribe, Tribal Organization, or Urban Indian Organization as a provider eligible to receive payment under the program for health care services furnished to an Indian on the same basis as any other provider qualified to participate as a provider of health care services under the program if the entity meets generally applicable State or other requirements for participation as a provider of health care services under the program.

“(2) SATISFACTION OF STATE OR LOCAL LICENSURE OR RECOGNITION REQUIREMENTS.—Any requirement for participation as a provider of health care services under a Federal health care program that an entity be licensed or recognized under the State or local law where the entity is located to furnish health care services shall be deemed to have been met in the case of an entity operated by the Service, an Indian Tribe, Tribal Organization, or Urban Indian Organization if the entity meets all the applicable standards for such licensure or recognition, regardless of whether the entity obtains a license or other documentation under such State or local law. In accordance with section 221, the absence of the licensure of a health care professional employed by such an entity under the State or local law where the entity is located shall not be taken into account for purposes of determining whether the entity meets such standards, if the professional is licensed in another State.

“(b) APPLICATION OF EXCLUSION FROM PARTICIPATION IN FEDERAL HEALTH CARE PROGRAMS.—

“(1) EXCLUDED ENTITIES.—No entity operated by the Service, an Indian Tribe, Tribal Organization, or Urban Indian Organization that has been excluded from participation in any Federal health care program or for which a license is under suspension or has been revoked by the State where the entity

is located shall be eligible to receive payment or reimbursement under any such program for health care services furnished to an Indian.

“(2) EXCLUDED INDIVIDUALS.—No individual who has been excluded from participation in any Federal health care program or whose State license is under suspension shall be eligible to receive payment or reimbursement under any such program for health care services furnished by that individual, directly or through an entity that is otherwise eligible to receive payment for health care services, to an Indian.

“(3) FEDERAL HEALTH CARE PROGRAM DEFINED.—In this subsection, the term, ‘Federal health care program’ has the meaning given that term in section 1128B(f) of the Social Security Act (42 U.S.C. 1320a-7b(f)), except that, for purposes of this subsection, such term shall include the health insurance program under chapter 89 of title 5, United States Code.

“(c) RELATED PROVISIONS.—For provisions related to nondiscrimination against providers operated by the Service, an Indian Tribe, Tribal Organization, or Urban Indian Organization, see section 1139(c) of the Social Security Act (42 U.S.C. 1320b-9(c)).

“SEC. 409. CONSULTATION.

“For provisions related to consultation with representatives of Indian Health Programs and Urban Indian Organizations with respect to the health care programs established under titles XVIII, XIX, and XXI of the Social Security Act, see section 1139(d) of the Social Security Act (42 U.S.C. 1320b-9(d)).

“SEC. 410. STATE CHILDREN'S HEALTH INSURANCE PROGRAM (SCHIP).

“For provisions relating to—

“(1) outreach to families of Indian children likely to be eligible for child health assistance under the State children's health insurance program established under title XXI of the Social Security Act, see sections 2105(c)(2)(C) and 1139(a) of such Act (42 U.S.C. 1397ee(c)(2), 1320b-9); and

“(2) ensuring that child health assistance is provided under such program to targeted low-income children who are Indians and that payments are made under such program to Indian Health Programs and Urban Indian Organizations operating in the State that provide such assistance, see sections 2102(b)(3)(D) and 2105(c)(6)(B) of such Act (42 U.S.C. 1397bb(b)(3)(D), 1397ee(c)(6)(B)).

“SEC. 411. EXCLUSION WAIVER AUTHORITY FOR AFFECTED INDIAN HEALTH PROGRAMS AND SAFE HARBOR TRANSACTIONS UNDER THE SOCIAL SECURITY ACT.

“For provisions relating to—

“(1) exclusion waiver authority for affected Indian Health Programs under the Social Security Act, see section 1128(k) of the Social Security Act (42 U.S.C. 1320a-7(k)); and

“(2) certain transactions involving Indian Health Programs deemed to be in safe harbors under that Act, see section 1128B(b)(4) of the Social Security Act (42 U.S.C. 1320a-7b(b)(4)).

“SEC. 412. PREMIUM AND COST SHARING PROTECTIONS AND ELIGIBILITY DETERMINATIONS UNDER MEDICAID AND SCHIP AND PROTECTION OF CERTAIN INDIAN PROPERTY FROM MEDICAID ESTATE RECOVERY.

“For provisions relating to—

“(1) premiums or cost sharing protections for Indians furnished items or services directly by Indian Health Programs or through referral under the contract health service under the Medicaid program established under title XIX of the Social Security Act,

see sections 1916(j) and 1916A(a)(1) of the Social Security Act (42 U.S.C. 1396o(j), 1396o-1(a)(1));

“(2) rules regarding the treatment of certain property for purposes of determining eligibility under such programs, see sections 1902(e)(13) and 2107(e)(1)(B) of such Act (42 U.S.C. 1396a(e)(13), 1397gg(e)(1)(B)); and

“(3) the protection of certain property from estate recovery provisions under the Medicaid program, see section 1917(b)(3)(B) of such Act (42 U.S.C. 1396p(b)(3)(B)).

“SEC. 413. TREATMENT UNDER MEDICAID AND SCHIP MANAGED CARE.

“For provisions relating to the treatment of Indians enrolled in a managed care entity under the Medicaid program under title XIX of the Social Security Act and Indian Health Programs and Urban Indian Organizations that are providers of items or services to such Indian enrollees, see sections 1932(h) and 2107(e)(1)(H) of the Social Security Act (42 U.S.C. 1396u-2(h), 1397gg(e)(1)(H)).

“SEC. 414. NAVAJO NATION MEDICAID AGENCY FEASIBILITY STUDY.

“(a) **STUDY.**—The Secretary shall conduct a study to determine the feasibility of treating the Navajo Nation as a State for the purposes of title XIX of the Social Security Act, to provide services to Indians living within the boundaries of the Navajo Nation through an entity established having the same authority and performing the same functions as single-State medicaid agencies responsible for the administration of the State plan under title XIX of the Social Security Act.

“(b) **CONSIDERATIONS.**—In conducting the study, the Secretary shall consider the feasibility of—

“(1) assigning and paying all expenditures for the provision of services and related administration funds, under title XIX of the Social Security Act, to Indians living within the boundaries of the Navajo Nation that are currently paid to or would otherwise be paid to the State of Arizona, New Mexico, or Utah;

“(2) providing assistance to the Navajo Nation in the development and implementation of such entity for the administration, eligibility, payment, and delivery of medical assistance under title XIX of the Social Security Act;

“(3) providing an appropriate level of matching funds for Federal medical assistance with respect to amounts such entity expends for medical assistance for services and related administrative costs; and

“(4) authorizing the Secretary, at the option of the Navajo Nation, to treat the Navajo Nation as a State for the purposes of title XIX of the Social Security Act (relating to the State children’s health insurance program) under terms equivalent to those described in paragraphs (2) through (4).

“(c) **REPORT.**—Not later than 3 years after the date of enactment of the Indian Health Care Improvement Act Amendments of 2007, the Secretary shall submit to the Committee on Indian Affairs and Committee on Finance of the Senate and the Committee on Natural Resources and Committee on Energy and Commerce of the House of Representatives a report that includes—

“(1) the results of the study under this section;

“(2) a summary of any consultation that occurred between the Secretary and the Navajo Nation, other Indian Tribes, the States of Arizona, New Mexico, and Utah, counties which include Navajo Lands, and other interested parties, in conducting this study;

“(3) projected costs or savings associated with establishment of such entity, and any

estimated impact on services provided as described in this section in relation to probable costs or savings; and

“(4) legislative actions that would be required to authorize the establishment of such entity if such entity is determined by the Secretary to be feasible.

“SEC. 415. GENERAL EXCEPTIONS.

“The requirements of this title shall not apply to any excepted benefits described in paragraph (1)(A) or (3) of section 2791(c) of the Public Health Service Act (42 U.S.C. 300gg-91).

“SEC. 416. AUTHORIZATION OF APPROPRIATIONS.

“There are authorized to be appropriated such sums as may be necessary for each fiscal year through fiscal year 2017 to carry out this title.

“TITLE V—HEALTH SERVICES FOR URBAN INDIANS

“SEC. 501. PURPOSE.

“The purpose of this title is to establish and maintain programs in Urban Centers to make health services more accessible and available to Urban Indians.

“SEC. 502. CONTRACTS WITH, AND GRANTS TO, URBAN INDIAN ORGANIZATIONS.

“Under authority of the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), the Secretary, acting through the Service, shall enter into contracts with, or make grants to, Urban Indian Organizations to assist such organizations in the establishment and administration, within Urban Centers, of programs which meet the requirements set forth in this title. Subject to section 506, the Secretary, acting through the Service, shall include such conditions as the Secretary considers necessary to effect the purpose of this title in any contract into which the Secretary enters with, or in any grant the Secretary makes to, any Urban Indian Organization pursuant to this title.

“SEC. 503. CONTRACTS AND GRANTS FOR THE PROVISION OF HEALTH CARE AND REFERRAL SERVICES.

“(a) **REQUIREMENTS FOR GRANTS AND CONTRACTS.**—Under authority of the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), the Secretary, acting through the Service, shall enter into contracts with, and make grants to, Urban Indian Organizations for the provision of health care and referral services for Urban Indians. Any such contract or grant shall include requirements that the Urban Indian Organization successfully undertake to—

“(1) estimate the population of Urban Indians residing in the Urban Center or centers that the organization proposes to serve who are or could be recipients of health care or referral services;

“(2) estimate the current health status of Urban Indians residing in such Urban Center or centers;

“(3) estimate the current health care needs of Urban Indians residing in such Urban Center or centers;

“(4) provide basic health education, including health promotion and disease prevention education, to Urban Indians;

“(5) make recommendations to the Secretary and Federal, State, local, and other resource agencies on methods of improving health service programs to meet the needs of Urban Indians; and

“(6) where necessary, provide, or enter into contracts for the provision of, health care services for Urban Indians.

“(b) **CRITERIA.**—The Secretary, acting through the Service, shall, by regulation, prescribe the criteria for selecting Urban Indian Organizations to enter into contracts or

receive grants under this section. Such criteria shall, among other factors, include—

“(1) the extent of unmet health care needs of Urban Indians in the Urban Center or centers involved;

“(2) the size of the Urban Indian population in the Urban Center or centers involved;

“(3) the extent, if any, to which the activities set forth in subsection (a) would duplicate any project funded under this title, or under any current public health service project funded in a manner other than pursuant to this title;

“(4) the capability of an Urban Indian Organization to perform the activities set forth in subsection (a) and to enter into a contract with the Secretary or to meet the requirements for receiving a grant under this section;

“(5) the satisfactory performance and successful completion by an Urban Indian Organization of other contracts with the Secretary under this title;

“(6) the appropriateness and likely effectiveness of conducting the activities set forth in subsection (a) in an Urban Center or centers; and

“(7) the extent of existing or likely future participation in the activities set forth in subsection (a) by appropriate health and health-related Federal, State, local, and other agencies.

“(c) **ACCESS TO HEALTH PROMOTION AND DISEASE PREVENTION PROGRAMS.**—The Secretary, acting through the Service, shall facilitate access to or provide health promotion and disease prevention services for Urban Indians through grants made to Urban Indian Organizations administering contracts entered into or receiving grants under subsection (a).

“(d) **IMMUNIZATION SERVICES.**—

“(1) **ACCESS OR SERVICES PROVIDED.**—The Secretary, acting through the Service, shall facilitate access to, or provide, immunization services for Urban Indians through grants made to Urban Indian Organizations administering contracts entered into or receiving grants under this section.

“(2) **DEFINITION.**—For purposes of this subsection, the term ‘immunization services’ means services to provide without charge immunizations against vaccine-preventable diseases.

“(e) **BEHAVIORAL HEALTH SERVICES.**—

“(1) **ACCESS OR SERVICES PROVIDED.**—The Secretary, acting through the Service, shall facilitate access to, or provide, behavioral health services for Urban Indians through grants made to Urban Indian Organizations administering contracts entered into or receiving grants under subsection (a).

“(2) **ASSESSMENT REQUIRED.**—Except as provided by paragraph (3)(A), a grant may not be made under this subsection to an Urban Indian Organization until that organization has prepared, and the Service has approved, an assessment of the following:

“(A) The behavioral health needs of the Urban Indian population concerned.

“(B) The behavioral health services and other related resources available to that population.

“(C) The barriers to obtaining those services and resources.

“(D) The needs that are unmet by such services and resources.

“(3) **PURPOSES OF GRANTS.**—Grants may be made under this subsection for the following:

“(A) To prepare assessments required under paragraph (2).

“(B) To provide outreach, educational, and referral services to Urban Indians regarding

the availability of direct behavioral health services, to educate Urban Indians about behavioral health issues and services, and effect coordination with existing behavioral health providers in order to improve services to Urban Indians.

“(C) To provide outpatient behavioral health services to Urban Indians, including the identification and assessment of illness, therapeutic treatments, case management, support groups, family treatment, and other treatment.

“(D) To develop innovative behavioral health service delivery models which incorporate Indian cultural support systems and resources.

“(f) PREVENTION OF CHILD ABUSE.—

“(1) ACCESS OR SERVICES PROVIDED.—The Secretary, acting through the Service, shall facilitate access to or provide services for Urban Indians through grants to Urban Indian Organizations administering contracts entered into or receiving grants under subsection (a) to prevent and treat child abuse (including sexual abuse) among Urban Indians.

“(2) EVALUATION REQUIRED.—Except as provided by paragraph (3)(A), a grant may not be made under this subsection to an Urban Indian Organization until that organization has prepared, and the Service has approved, an assessment that documents the prevalence of child abuse in the Urban Indian population concerned and specifies the services and programs (which may not duplicate existing services and programs) for which the grant is requested.

“(3) PURPOSES OF GRANTS.—Grants may be made under this subsection for the following:

“(A) To prepare assessments required under paragraph (2).

“(B) For the development of prevention, training, and education programs for Urban Indians, including child education, parent education, provider training on identification and intervention, education on reporting requirements, prevention campaigns, and establishing service networks of all those involved in Indian child protection.

“(C) To provide direct outpatient treatment services (including individual treatment, family treatment, group therapy, and support groups) to Urban Indians who are child victims of abuse (including sexual abuse) or adult survivors of child sexual abuse, to the families of such child victims, and to Urban Indian perpetrators of child abuse (including sexual abuse).

“(4) CONSIDERATIONS WHEN MAKING GRANTS.—In making grants to carry out this subsection, the Secretary shall take into consideration—

“(A) the support for the Urban Indian Organization demonstrated by the child protection authorities in the area, including committees or other services funded under the Indian Child Welfare Act of 1978 (25 U.S.C. 1901 et seq.), if any;

“(B) the capability and expertise demonstrated by the Urban Indian Organization to address the complex problem of child sexual abuse in the community; and

“(C) the assessment required under paragraph (2).

“(g) OTHER GRANTS.—The Secretary, acting through the Service, may enter into a contract with or make grants to an Urban Indian Organization that provides or arranges for the provision of health care services (through satellite facilities, provider networks, or otherwise) to Urban Indians in more than 1 Urban Center.

“SEC. 504. CONTRACTS AND GRANTS FOR THE DETERMINATION OF UNMET HEALTH CARE NEEDS.

“(a) GRANTS AND CONTRACTS AUTHORIZED.—Under authority of the Act of November 2, 1921 (25 U.S.C. 13) (commonly known as the ‘Snyder Act’), the Secretary, acting through the Service, may enter into contracts with or make grants to Urban Indian Organizations situated in Urban Centers for which contracts have not been entered into or grants have not been made under section 503.

“(b) PURPOSE.—The purpose of a contract or grant made under this section shall be the determination of the matters described in subsection (c)(1) in order to assist the Secretary in assessing the health status and health care needs of Urban Indians in the Urban Center involved and determining whether the Secretary should enter into a contract or make a grant under section 503 with respect to the Urban Indian Organization which the Secretary has entered into a contract with, or made a grant to, under this section.

“(c) GRANT AND CONTRACT REQUIREMENTS.—Any contract entered into, or grant made, by the Secretary under this section shall include requirements that—

“(1) the Urban Indian Organization successfully undertakes to—

“(A) document the health care status and unmet health care needs of Urban Indians in the Urban Center involved; and

“(B) with respect to Urban Indians in the Urban Center involved, determine the matters described in paragraphs (2), (3), (4), and (7) of section 503(b); and

“(2) the Urban Indian Organization complete performance of the contract, or carry out the requirements of the grant, within 1 year after the date on which the Secretary and such organization enter into such contract, or within 1 year after such organization receives such grant, whichever is applicable.

“(d) NO RENEWALS.—The Secretary may not renew any contract entered into or grant made under this section.

“SEC. 505. EVALUATIONS; RENEWALS.

“(a) PROCEDURES FOR EVALUATIONS.—The Secretary, acting through the Service, shall develop procedures to evaluate compliance with grant requirements and compliance with and performance of contracts entered into by Urban Indian Organizations under this title. Such procedures shall include provisions for carrying out the requirements of this section.

“(b) EVALUATIONS.—The Secretary, acting through the Service, shall evaluate the compliance of each Urban Indian Organization which has entered into a contract or received a grant under section 503 with the terms of such contract or grant. For purposes of this evaluation, the Secretary shall—

“(1) acting through the Service, conduct an annual onsite evaluation of the organization; or

“(2) accept in lieu of such onsite evaluation evidence of the organization’s provisional or full accreditation by a private independent entity recognized by the Secretary for purposes of conducting quality reviews of providers participating in the Medicare program under title XVIII of the Social Security Act.

“(c) NONCOMPLIANCE; UNSATISFACTORY PERFORMANCE.—If, as a result of the evaluations conducted under this section, the Secretary determines that an Urban Indian Organization has not complied with the requirements of a grant or complied with or satisfactorily performed a contract under section 503, the

Secretary shall, prior to renewing such contract or grant, attempt to resolve with the organization the areas of noncompliance or unsatisfactory performance and modify the contract or grant to prevent future occurrences of noncompliance or unsatisfactory performance. If the Secretary determines that the noncompliance or unsatisfactory performance cannot be resolved and prevented in the future, the Secretary shall not renew the contract or grant with the organization and is authorized to enter into a contract or make a grant under section 503 with another Urban Indian Organization which is situated in the same Urban Center as the Urban Indian Organization whose contract or grant is not renewed under this section.

“(d) CONSIDERATIONS FOR RENEWALS.—In determining whether to renew a contract or grant with an Urban Indian Organization under section 503 which has completed performance of a contract or grant under section 504, the Secretary shall review the records of the Urban Indian Organization, the reports submitted under section 507, and shall consider the results of the onsite evaluations or accreditations under subsection (b).

“SEC. 506. OTHER CONTRACT AND GRANT REQUIREMENTS.

“(a) PROCUREMENT.—Contracts with Urban Indian Organizations entered into pursuant to this title shall be in accordance with all Federal contracting laws and regulations relating to procurement except that in the discretion of the Secretary, such contracts may be negotiated without advertising and need not conform to the provisions of sections 1304 and 3131 through 3133 of title 40, United States Code.

“(b) PAYMENTS UNDER CONTRACTS OR GRANTS.—

“(1) IN GENERAL.—Payments under any contracts or grants pursuant to this title, notwithstanding any term or condition of such contract or grant—

“(A) may be made in a single advance payment by the Secretary to the Urban Indian Organization by no later than the end of the first 30 days of the funding period with respect to which the payments apply, unless the Secretary determines through an evaluation under section 505 that the organization is not capable of administering such a single advance payment; and

“(B) if any portion thereof is unexpended by the Urban Indian Organization during the funding period with respect to which the payments initially apply, shall be carried forward for expenditure with respect to allowable or reimbursable costs incurred by the organization during 1 or more subsequent funding periods without additional justification or documentation by the organization as a condition of carrying forward the availability for expenditure of such funds.
